

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2024-2025

LFIR # 3093

1. Project Title

2. Senate Sponsor

3. Date of Request

4. Project/Program Description

Purchase a 350 Kw generator with an outdoor rated enclosure and concrete pad. The Generator will require an automatic transfer switch, power distribution modifications, additions to tie-in with current electrical distribution and required additional circuitry for onboard battery charger and block heater.

5. State Agency to receive requested funds

State Agency contacted?

6. Amount of the Nonrecurring Request for Fiscal Year 2024-2025

Type of Funding	Amount
Operations	0
Fixed Capital Outlay	280,000
Total State Funds Requested	280,000

7. Total Project Cost for Fiscal Year 2024-2025 (including matching funds available for this project)

Type of Funding	Amount	Percentage
Total State Funds Requested (from question #6)	280,000	100%
Matching Funds		
Federal	0	0%
State (excluding the amount of this request)	0	0%
Local	0	0%
Other	0	0%
Total Project Costs for Fiscal Year 2024-2025	280,000	100%

8. Has this project previously received state funding?

Fiscal Year (yyyy-yy)	Amount		Specific Appropriation #	Vetoed
	Recurring	Nonrecurring		

9. Is future funding likely to be requested?

a. If yes, indicate nonrecurring amount per year.

b. Describe the source of funding that can be used in lieu of state funding.

10. Has the entity requesting this project received any federal assistance related to the COVID-19 pandemic?

If yes, indicate the amount of funds received and what the funds were used for.

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2024-2025

LFIR # 3093

We received \$1,445,965.00 in American Rescue Plan Act

Complete questions 11 and 12 for Fixed Capital Outlay Projects

11. Status of Construction

a. What is the current phase of the project?

- Planning
 Design
 Construction
 N/A

b. Is the project "shovel ready" (i.e permitted)?

No

c. What is the estimated start date of construction?

August 1, 2024

d. What is the estimated completion date of construction?

August 1, 2025

12. List the owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.

City of Bowling Green

13. Details on how the requested state funds will be expended

Spending Category	Description	Amount
Administrative Costs:		
Executive Director/Project Head Salary and Benefits		0
Other Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Operational Costs: Other		
Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Fixed Capital Construction/Major Renovation:		
Construction/Renovation/Land/Planning Engineering	Engineering and Purchasing of a 350 Kw generator with an outdoor rated enclosure and concrete pad. The Generator will require an automatic transfer switch, power distribution modifications, additions to tie-in with current electrical distribution and required additional circuitry for onboard battery charger and block heater.	280,000
Total State Funds Requested (must equal total from question #6)		280,000

14. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2024-2025

LFIR # 3093

The existing generator is over 16 years old and required constant attention and maintenance to keep operational. Current generator is 250Kw and is undersized for the new expansions of the Water Treatment Facility. Due to this the local well head (Well 4) and upgrades to the nano treatment facility cannot produce water in the event of loss of power. When this event happens the water pumping system that maintains required pressure through the distribution system is also compromised. Too add the required chemical injection componants to maintain safe quality of potable water are also effected.

b. What activities and services will be provided to meet the intended purpose of these funds?

Contractual services for engineering/project management, administrative and construction services of a 350 Kw generator with an outdoor rated enclosure and concrete pad. The Generator will require an automatic transfer switch, power distribution modifications, additions to tie-in with current electrical distribution and required additional circuitry for onboard battery charger and block heater.

c. What direct services will be provided to citizens by the appropriation project?

The Bowling Green WTP provides Potable water service to 2940 persons. When emergencies and natural disasters happen that result in a loss of power to the facility. The potable water system can be compromised and cause issues to pubic health due to inability to maintain applicable primary and secondary standards.

d. Who is the target population served by this project? How many individuals are expected to be served?

The expected benefit is the entire populaation of the City of Bowling Green. The Bowling Green WTP provides Potable water service to 2940 persons.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

As per F.A.C. 62-555.320 (14) (a) systems shall provide standby power for systems serving more than 350 persons. A upgrade to more modern standby power system will be needed to meet the requirments of F.A.C. To protect the system's water source, treatment, and pumping facilities necessary to deliver drinking water meeting all applicable primary or secondary standards at a rate at least equal to the average daily water demand for the system.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Construction disbursments would not be made if construction of the project is not completed.
