LFIR # 3237

To expand attendance capacity for programs and services that serve the community. These facility improvements will provide fully accessible environments for people of all abilities/ages; safe, positive environments for more youth/teens to build character/values through afterschool/teen/sports programs; evidence-based programs/initiatives that address chronic disease caused by lifestyle choices; and flexible gathering spaces for community to connect.

b. What activities and services will be provided to meet the intended purpose of these funds?

Child Care, Camping for people with disabilities including veterans, chronic-disease prevention & support programs, sports practices & games, and multiple facilities that will provide a safe place for families and individuals to gather. In addition, locations can be used for food and meal distribution, emergency supplies and shelter for the community and surrounding service areas.

c. What direct services will be provided to citizens by the appropriation project?

After school care, summer day camp, summer resident camp, swim lessons, youth sports, outdoor education, team building, wellness services for seniors and veterans.

d. Who is the target population served by this project? How many individuals are expected to be served?

The target population will be all ages. On an annual basis, we anticipated 10,458 participants under 18 years of age, 8,223 participants from ages 18-60 and 5,876 over the age of 60 will benefit from this project for a total of 24,557 individuals. Over the 20 year facility life of this project over 491,140 people will be served.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

For the new YMCA in Flagler County we are partnering with the city of Palm Coast to build a 35,000 square foot facility. We anticipate a membership base of 6,000 in addition to 17,000 individuals utilizing the facility through program use for aquatics, youth sports, child care, summer camp, community programs and event rentals. The facility and program usage are modeled after the current Ormond Beach Family YMCA. We anticipate similar usage patterns as many of the community needs we meet in the Ormond Beach community are similar to the needs identified in the Flagler County community.

The Ormond Beach Family YMCA, currently serves 170 kids daily in their childcare program. We will be able to increase capacity by 25%. YMCA Camp Winona serves 240 kids each week and will be able to double that amount with new cabins and an expanded dining hall. In addition, they will be able to double the available housing for rental groups like, churches, Boy Scouts, Girls Scouts and school groups.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Failure to meet deliverables or performance measures will result in either the inability to draw down all of the appropriated funds or the repayment of funds back to the agency.
