To expand capacity by hiring dental assistants and hygienists to support volunteer providers which will increase access to dental services such as fillings, extractions, and dentures.

Utilizing evidence-based and culturally appropriate interventions, to address the mental health needs identified, the building of an infrastructure of staff and volunteer mental health providers, clinical therapists, and care coordinators uniquely qualified to address individual mental health needs.

c. What direct services will be provided to citizens by the appropriation project?

Dental services such as extractions, and dentures.
Mental health counseling and maintenance prescriptions.

d. Who is the target population served by this project? How many individuals are expected to be served?

Uninsured Floridians 0-64
Approximately 60,000 individuals

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Increase the number of people that have access to dental and mental healthcare, increasing capacity for current free clinics to expand access. We will measure the number of new patients seen, additional services/appointments conducted, prescriptions prescribed/dispensed. Reduce the number of avoidable hospitalizations related to untreated dental and mental health needs. Increasing access to these services we will reduce the number of mental health and dental related visits amongst Florida's uninsured population which totals over 2 million.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Financial penalties
