For purposes of calculating the underpayment of estimated corporate income taxes under s. 220.34, the final amount due is the amount after credits earned under this section are deducted.

(6) For purposes of determining if a penalty or interest under s. 220.34(2)(d)1. will be imposed for underpayment of estimated corporate income tax, a taxpayer may, after earning a credit under this section, reduce any estimated payment in that taxable year by the amount of the credit.

b. The lessee or other operator of the commercial motor vehicle has in effect insurance with limits of at least \$5,000,000 combined property damage and bodily injury liability.

3.a. A motor vehicle dealer, or a motor vehicle dealer's leasing or rental affiliate, that provides a temporary replacement vehicle at no charge or at a reasonable daily charge to a service customer whose vehicle is being held for repair, service, or adjustment by the motor vehicle dealer is immune from any cause of action and is not liable, vicariously or directly, under general law solely by reason of being the owner of the temporary replacement vehicle for harm to persons or property that arises out of the use, or operation, of the temporary replacement vehicle by any person during the period the temporary replacement vehicle has been entrusted to the motor vehicle dealer's service customer if there is no negligence or criminal wrongdoing on the part of the motor vehicle owner, or its leasing or rental affiliate.

b. For purposes of this section, and notwithstanding any other provision of general law, a motor vehicle dealer, or a motor vehicle dealer's leasing or rental affiliate, that gives possession, control, or use of a temporary replacement vehicle to a motor vehicle dealer's service customer may not be adjudged liable in a civil proceeding absent negligence or criminal wrongdoing on the part of the motor vehicle dealer, or the motor vehicle dealer's leasing or rental affiliate, if the motor vehicle dealer or the motor vehicle dealer's leasing or rental affiliate executes a written rental or use agreement and obtains from the person receiving the temporary replacement vehicle a copy of the person's driver license and insurance information reflecting at least the minimum motor vehicle insurance coverage required in the state. Any subsequent determination that the driver license or insurance information provided to the motor vehicle dealer, or the motor vehicle dealer's leasing or rental affiliate, was in any way false, fraudulent, misleading, nonexistent, canceled, not in effect, or invalid does not alter or diminish the protections provided by this section, unless the motor vehicle dealer, or the motor vehicle dealer's leasing or rental affiliate, had actual knowledge thereof at the time possession of the temporary replacement vehicle was provided.

c. For purposes of this subparagraph, the term:

(I) "Control" means the power to direct the management and policies of a person, whether through ownership of voting securities or otherwise.

(II) "Motor vehicle dealer's leasing or rental affiliate" means a person who directly or indirectly controls, is controlled by, or is under common control with the motor vehicle dealer.

d. For purposes of this subparagraph, the term "service customer" does not include an agent or a principal of a motor vehicle dealer or a motor vehicle dealer's leasing or rental affiliate, and does not include an employee of a motor vehicle dealer or a motor vehicle dealer's leasing or rental affiliate unless the employee was provided a temporary replacement vehicle:

(I) While the employee's personal vehicle was being held for repair, service, or adjustment by the motor vehicle dealer;

(II) In the same manner as other customers who are provided a temporary replacement vehicle while the customer's vehicle is being held for repair, service, or adjustment; and

(III) The employee was not acting within the course and scope of his or her employment.

Section 7. Subsection (3) of section 324.0221, Florida Statutes, is amended to read:

(3) An operator or owner whose driver license or registration has been suspended under this section or s. 316.646 may ~~effect~~ ~~effect~~ its reinstatement upon compliance with the requirements of this section and upon payment to the department of a nonrefundable reinstatement fee of \$150 for the first reinstatement. The reinstatement fee is \$250 for the second reinstatement and \$500 for each subsequent reinstatement during the 3 years following the first reinstatement. A person reinstating her or his insurance under this subsection must also secure ~~noncancelable~~ coverage as described in ss. 324.021(8), 324.023, and 627.7275(2) and present to the appropriate person proof that the coverage is in force on a form adopted by the department, and such proof shall be maintained for 2 years. If the person does not have a second reinstatement within 3 years after her or his initial reinstatement, the reinstatement fee is \$150 for the first reinstatement after that 3-year period. If a person's license and registration are suspended under this section or s. 316.646, only one reinstatement fee must be paid to reinstate the license and the registration. All fees shall be collected by the department at the time of reinstatement. The department shall issue proper receipts for such fees and shall promptly deposit those fees in the Highway Safety Operating Trust Fund. One-third of the fees collected under this subsection shall be distributed from the Highway Safety Operating Trust Fund to the local governmental entity or state agency that employed the law enforcement officer seizing the license plate pursuant to s. 324.201. The funds may be used by the local governmental entity or state agency for any authorized purpose.

Section 8. Section 324.131, Florida Statutes, is amended to read:

324.131 Period of suspension.—Such license, registration and non-resident's operating privilege shall remain so suspended and shall not be renewed, nor shall any such license or registration be thereafter issued in the name of such person, including any such person not previously licensed, unless and until every such judgment is stayed, satisfied in full or to the extent of the limits stated in s. 324.021(7) and until the said person gives proof of financial responsibility as provided in s. 324.031, such proof to be maintained for 3 years. In addition, if the person's license or registration has been suspended or revoked due to a violation of s. 316.193 or pursuant to s. 322.26(2), that person shall maintain ~~noncancelable~~ liability coverage for each motor vehicle registered in his or her name, as described in s. 627.7275(2), and must present proof that coverage is in force on a form adopted by the Department of Highway Safety and Motor Vehicles, such proof to be maintained for 3 years.

Section 9. Paragraph (g) of subsection (3) of section 627.311, Florida Statutes, is amended to read:

627.311 Joint underwriters and joint reinsurers; public records and public meetings exemptions.—

(3) The office may, after consultation with insurers licensed to write automobile insurance in this state, approve a joint underwriting plan for purposes of equitable apportionment or sharing among insurers of automobile liability insurance and other motor vehicle insurance, as an alternate to the plan required in s. 627.351(1). All insurers authorized to write automobile insurance in this state shall subscribe to the plan and participate therein. The plan shall be subject to continuous review by the office which may at any time disapprove the entire plan or any part thereof if it determines that conditions have changed since prior approval and that in view of the purposes of the plan changes are warranted. Any disapproval by the office shall be subject to the provisions of chapter 120. The Florida Automobile Joint Underwriting Association is created under the plan. The plan and the association:

(g) Must make available ~~noncancelable~~ coverage as provided in s. 627.7275(2).

Section 10. Paragraph (b) of subsection (2) of section 627.7275, Florida Statutes, is amended to read:

627.7275 Motor vehicle liability.—

(2)

(b) The policies described in paragraph (a) shall be issued for at least 6 months ~~and, as to the minimum coverages required under this~~

section, may not be canceled by the insured for any reason or by the insurer after 60 days, during which period the insurer is completing the underwriting of the policy. After the insurer has issued completed underwriting the policy, the insurer shall notify the Department of Highway Safety and Motor Vehicles that the policy is in full force and effect and is not cancelable for the remainder of the policy period. A premium shall be collected and the coverage is in effect for the 60 day period during which the insurer is completing the underwriting of the policy whether or not the person's driver license, motor vehicle tag, and motor vehicle registration are in effect. Once the noncancelable provisions of the policy become effective, the coverages for bodily injury, property damage, and personal injury protection may not be reduced below the minimum limits required under s. 324.021 or s. 324.023 during the policy period.

**CS for CS for SB 1648**—A bill to be entitled An act relating to public records; amending s. 501.722, F.S.; providing an exemption from public records requirements for information relating to investigations by the Department of Legal Affairs and law enforcement agencies of certain data privacy violations; providing for future legislative review and repeal of the exemption; providing a statement of public necessity; providing a contingent effective date.

**House Amendment 1 (356481) (with title amendment)**—Between lines 13 and 14, insert:

Section 1. Subsection (6) is added to section 501.173, Florida Statutes, as created by SB 262 or similar legislation, 2023 Regular Session, to read:

501.173 Use of tracking technology; consumer consent.—

(6) **PUBLIC RECORDS EXEMPTION.**—

(a) All information received by the department pursuant to a notification of a violation under this section, or received by the department pursuant to an investigation by the department or a law enforcement agency of a violation of this section, is confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution, until such time as the investigation is completed or ceases to be active. This exemption shall be construed in conformity with s. 119.071(2)(c).

(b) During an active investigation, information made confidential and exempt pursuant to paragraph (a) may be disclosed by the department:

1. In the furtherance of its official duties and responsibilities;
  2. For print, publication, or broadcast if the department determines that such release would assist in notifying the public or locating or identifying a person that the department believes to be a victim of a data breach or an improper use or disposal of customer records, except that information made confidential and exempt by paragraph (c) may not be released pursuant to this subparagraph; or
  3. To another governmental entity in the furtherance of its official duties and responsibilities.
- (c) Upon completion of an investigation or once an investigation ceases to be active, the following information received by the department shall remain confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution:
1. All information to which another public records exemption applies.
  2. Personal information.
  3. A computer forensic report.
  4. Information that would otherwise reveal weaknesses in the data security of a tracking entity.
  5. Information that would disclose the proprietary information of a tracking entity.

(d) For purposes of this section, the term “proprietary information” means information that:

1. Is owned or controlled by the tracking entity.
2. Is intended to be private and is treated by the tracking entity as private because disclosure would harm the tracking entity or its business operations.

3. Has not been disclosed except as required by law or a private agreement that provides that the information will not be released to the public.

4. Is not publicly available or otherwise readily ascertainable through proper means from another source in the same configuration as received by the department.

5. Includes:

- a. Trade secrets as defined in s. 688.002.
- b. Competitive interests, the disclosure of which would impair the competitive advantage of the tracking entity who is the subject of the information.

(e) This section is subject to the Open Government Sunset Review Act in accordance with s. 119.15 and shall stand repealed on October 2, 2028, unless reviewed and saved from repeal through reenactment by the Legislature.

Section 2. The Legislature finds that it is a public necessity that all information received by the Department of Legal Affairs pursuant to a notification of a violation of s. 501.173, Florida Statutes, or received by the department pursuant to an investigation by the department or a law enforcement agency of a violation of that section, be made confidential and exempt from s. 119.07(1), Florida Statutes, and s. 24(a), Article I of the State Constitution for the following reasons:

(1) A notification of a violation of s. 501.173, Florida Statutes, may result in an investigation of such violation. The premature release of such information could frustrate or thwart the investigation and impair the ability of the department to effectively and efficiently administer s. 501.173, Florida Statutes. In addition, release of such information before completion of an active investigation could jeopardize the ongoing investigation.

(2) Release of information to which another public records exemption applies once an investigation is completed or ceases to be active would undo the specific statutory exemption protecting that information.

(3) An investigation of a violation of s. 501.173, Florida Statutes, is likely to result in the gathering of sensitive personal information, including identification numbers, unique identifiers, professional or employment-related information, and personal financial information. Such information could be used for the purpose of identity theft. The release of such information could subject possible victims of data privacy violations to further harm.

(4) Notices received by the department and information received during an investigation of a violation of s. 501.173, Florida Statutes, are likely to contain proprietary information. Such information, including trade secrets, derives independent, economic value, actual or potential, from being generally unknown to, and not readily ascertainable by, other persons who might obtain economic value from its disclosure or use. Allowing public access to proprietary information, including a trade secret, through a public records request could destroy the value of the proprietary information and cause a financial loss to the tracking entity. Release of such information could give business competitors an unfair advantage.

(5) Information received by the department may contain a computer forensic report or information that could reveal weaknesses in the data security of a tracking entity. The release of this information could result in the identification of vulnerabilities in the cybersecurity system of the tracking entity and be used to harm the tracking entity and clients.

(6) The harm that may result from the release of information received by the department pursuant to a notification or investigation by the department or a law enforcement agency of a violation of s. 501.173, Florida Statutes, could impair the effective and efficient administration of the investigation and thus, outweighs the public benefit that may be derived from the disclosure of the information.

Section 3. Subsection (6) is added to s. 501.1735, Florida Statutes, as created by SB 262 or similar legislation, 2023 Regular Session, to read:

501.1735 Protection of children in online spaces.—

(b) During an active investigation, information made confidential and exempt pursuant to paragraph (a) may be disclosed by the department:

1. In the furtherance of its official duties and responsibilities;
2. 3. To another governmental entity in the furtherance of its official duties and responsibilities.

**House Amendment 1 (714203) (with title amendment)**—Between lines 174 and 175, insert:

Section 4. Section 163.3208, Florida Statutes, is amended to read:  
163.3208 Substation approval process.—

(1) It is the intent of the Legislature to maintain, encourage, and ensure adequate and reliable electric infrastructure in the state. It is essential that electric infrastructure be constructed and maintained in various locations in order to ensure the efficient and reliable delivery of electric service. Electric infrastructure should be constructed, to the maximum extent practicable, to achieve compatibility with adjacent and surrounding land uses, and the criteria included in this section are intended to balance the need for electricity with land use compatibility.

(2) The term “~~distribution~~ electric substation” means an electric substation, *including accessory administration or maintenance buildings and related accessory uses and structures*, which takes electricity from the transmission grid and converts it to *another voltage or a lower voltage* so it can be distributed to customers ~~in the local area on the local distribution grid~~ through one or more ~~distribution~~ lines ~~less than 69 kilovolts in size~~.

(3) Electric substations are a critical component of electric transmission and distribution. *Except for substations in s. 163.3205(2)(c)*, local governments may adopt and enforce reasonable land development regulations for new *and existing* ~~distribution~~ electric substations, addressing only setback, landscaping, buffering, screening, lighting, and other aesthetic compatibility-based standards. Vegetated buffers or screening beneath aerial access points to the substation equipment shall not be required to have a mature height in excess of 14 feet.

(4) New *and existing* ~~distribution~~ electric substations shall be a permitted use in all land use categories in the applicable local government comprehensive plan and zoning districts within a utility’s service territory except those designated as preservation, conservation, or historic preservation on the future land use map or duly adopted ordinance. If a local government has not adopted reasonable standards for substation siting in accordance with subsection (3), the following standards shall apply to new ~~distribution~~ electric substations:

(a) In nonresidential areas, the substation must comply with the setback and landscaped buffer area criteria applicable to other similar uses in that district, if any.

(b) Unless the local government approves a lesser setback or landscape requirement, in residential areas, a setback of up to 100 feet between the substation property boundary and permanent equipment structures shall be maintained as follows:

1. For setbacks between 100 feet and 50 feet, an open green space shall be formed by installing native landscaping, including trees and shrub material, consistent with the relevant local government’s land development regulations. Substation equipment shall be protected by a security fence consistent with the relevant local government’s land development regulations.

2. For setbacks of less than 50 feet, a buffer wall 8 feet high or a fence 8 feet high with native landscaping consistent with the relevant local government’s regulations shall be installed around the substation.

(5) If the application for a proposed ~~distribution~~ electric substation *or for changes to an existing electric substation* demonstrates that the substation design is consistent with the local government’s applicable setback, landscaping, buffering, screening, and other aesthetic compatibility-based standards, the application for development approval *or for changes to the substation* shall be approved.

(6)(a) This paragraph ~~applies~~ ~~may apply~~ to the proposed placement or construction of a new ~~distribution~~ electric substation within a residential area. ~~Before~~ ~~Prior to~~ submitting an application for the location of a new ~~distribution~~ electric substation in residential areas, the utility shall consult with the local government regarding the selection of a site. The utility shall provide information regarding the utility’s preferred site and as many as three alternative available sites, including sites within nonresidential areas, that are technically and electrically reasonable for the load to be served, if the local government deems that the siting of a new ~~distribution~~ electric substation warrants this additional review and consideration. The final determination on the site application as to the preferred and alternative sites shall be made solely by the local government within 90 days of presentation of all the necessary and required information on the preferred site and on the alternative sites. In the event the utility and the local government are unable to reach agreement on an appropriate location, the substation site selection shall

be submitted to mediation conducted pursuant to ss. 44.401-44.406, unless otherwise agreed to in writing by the parties, and the mediation shall be concluded within 30 days unless extended by written agreement of the parties. The 90-day time period for the local government to render a final decision on the site application is tolled from the date a notice of intent to mediate the site selection issue is served on the utility or local government, until the mediation is concluded, terminated, or an impasse is declared. The local government and utility may agree to waive or extend this 90-day time period. Upon rendition of a final decision of the local government, a person may pursue available legal remedies in accordance with law, and the matter shall be considered on an expedited basis.

(b) A local government's land development and construction regulations for new ~~distribution~~ electric substations or for changes to existing electric substations and the local government's review of an application for the placement or construction of a new ~~distribution~~ electric substation or for changes to an existing electric substation shall only address land development, zoning, or aesthetic compatibility-based issues. In such local government regulations or review, a local government may not require information or evaluate a utility's business decisions about its service, customer demand for its service, or quality of its service to or from a particular area or site, unless the utility voluntarily offers this information to the local government.

(7) Substation siting standards adopted after the effective date of this act ~~does shall~~ not apply to applications for new ~~distribution~~ electric substations or for changes to existing electric substations which ~~sub~~ station applications that were submitted before ~~prior~~ to the notice of the local government's adoption hearing.

A foreign principal has a de minimus indirect interest if any ownership is the result of the foreign principal's ownership of registered equities in a publicly traded company owning the land and if the foreign principal's ownership interest in the company is either:

(a) Less than 5 percent of any class of registered equities or less than 5 percent in the aggregate in multiple classes of registered equities; or

The department may place a lien against the unregistered agricultural land for the unpaid balance of any penalties assessed under this paragraph.

(4) Notwithstanding subsection (1), a foreign principal may acquire agricultural land on or after July 1, 2023, by devise or descent, through the enforcement of security interests, or through the collection of debts, provided that the foreign principal sells, transfers, or otherwise divests itself of the agricultural land within 2 years after acquiring the agricultural land.

(e) The department may sell the agricultural land subject to a final judgment of forfeiture. Any proceeds from the sale must first be paid to any lienholders of the land, followed by payment of any outstanding fines assessed pursuant to this section, after which the department must be reimbursed for all costs related to the forfeiture civil action and any costs related to the sale of the land. (3)(a) A foreign principal that directly or indirectly owns or acquires agricultural land or any interest in such land in this state before July 1, 2023, must register with the Department of Agriculture and Consumer Services by January 1, 2024. The department must establish a form for such registration, which, at minimum, must include all of the following:

1. The name of the owner of the agricultural land or the owner of the interest in such land.
2. The address of the agricultural land, the property appraiser's parcel identification number, and the property's legal description.
3. The number of acres of the agricultural land.

(b) A foreign principal that fails to timely file a registration with the department is subject to a civil penalty of \$1,000 for each day that the registration is late. The department may place a lien against the unregistered agricultural land for the unpaid balance of any penalties assessed under this paragraph.

(4) Notwithstanding subsection (1), a foreign principal may acquire agricultural land on or after July 1, 2023, by devise or descent, through the enforcement of security interests, or through the collection of debts, provided that the foreign principal sells, transfers, or otherwise divests itself of the agricultural land within 3 years after acquiring the agricultural land.

(5)(a) At the time of purchase, a buyer of agricultural land or an interest in such land must provide an affidavit signed under penalty of perjury attesting that the buyer is:

1. Not a foreign principal; and
2. In compliance with the requirements of this section.

(b) The failure to obtain or maintain the affidavit does not:

1. Affect the title or insurability of the title for the agricultural land; or
2. Subject the closing agent to civil or criminal liability, unless the closing agent has actual knowledge that the transaction will result in a violation of this section.

(c) The Florida Real Estate Commission shall adopt rules to implement this subsection, including rules establishing the form for the affidavit required under this subsection.

(6)(a) The agricultural land or an interest in such land that is owned or acquired in violation of this section may be forfeited to the state.

(b) The Department of Agriculture and Consumer Services may initiate a civil action in the circuit court of the county in which the property lies for the forfeiture of the agricultural land or any interest therein.

(c) Upon filing such action, the clerk must record a *lis pendens* in accordance with s. 48.23. The court must advance the cause on the calendar. The defendant may at any time petition to modify or discharge the *lis pendens* based upon a finding that there is no probable cause to believe that the agricultural land, or any portion thereof, is owned or held in violation of this section.

(d) If the court finds that the agricultural land, or any portion thereof, is owned or held in violation of this section, the court must enter a final judgment of forfeiture vesting title to the agricultural land in this state, subject only to the rights and interests of bona fide lienholders, and such final judgment relates back to the date of the *lis pendens*.

(e) The department may sell the agricultural land subject to a final judgment of forfeiture. Any proceeds from the sale must first be paid to any lienholders of the land, followed by payment of any outstanding fines assessed pursuant to this section, after which the department must be reimbursed for all costs related to the forfeiture civil action and any costs related to the sale of the land. Any remaining proceeds must be paid to the property owner.

(f) At any time during the forfeiture proceeding the department may seek an *ex parte* order of seizure of the agricultural land upon a showing that the defendant's control of the agricultural land constitutes a clear and present danger to the state.

(7) A foreign principal that purchases or acquires agricultural land or any interest therein in violation of this section commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

(8) A person who knowingly sells agricultural land or any interest therein in violation of this section commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

(9) The Department of Agriculture and Consumer Services shall adopt rules to implement this section.

A foreign principal has a *de minimus* indirect interest if any ownership is the result of the foreign principal's ownership of registered equities in a publicly traded company owning the land and if the foreign principal's ownership interest in the company is either:

(a) Less than 5 percent of any class of registered equities or less than 5 percent in the aggregate in multiple classes of registered equities; or

(b) A noncontrolling interest in an entity controlled by a company that is both registered with the United States Securities and Exchange Commission as an investment adviser under the Investment Advisers Act of 1940, as amended, and is not a foreign entity.

(2) A foreign principal that directly or indirectly owns or acquires any interest in real property on or within 10 miles of any military installation or critical infrastructure facility in this state before July 1, 2023, may continue to own or hold such real property, but may not purchase or otherwise acquire by grant, devise, or descent any additional real property on or within 10 miles of any military installation or critical infrastructure facility in this state.

The department must establish a form for such registration which, at a minimum, must include all of the following:

1. The name of the owner of the real property.

2. The address of the real property, the property appraiser's parcel identification number, and the property's legal description.

(b) A foreign principal that fails to timely file a registration with the department is subject to a civil penalty of \$1,000 for each day that the registration is late. A foreign principal must register a property interest owned before July 1, 2023, by December 31, 2023. The registration is considered to be late after January 31, 2024. A foreign principal who owns or acquires real property on or after July 1, 2023, as authorized under subsection (4), must register the real property within 30 days after the property is owned or acquired. The department may place a lien against the unregistered real property for the unpaid balance of any penalties assessed under this paragraph.

(4) Notwithstanding subsection (1) a foreign principal who is a natural person may purchase one residential real property that is up to 2 acres in size if all of the following apply:

(a) The parcel is not on or within 5 miles of any military installation in this state.

(c) The purchase is in the name of the person who holds the visa or official documentation described in paragraph (b).

(5) Notwithstanding subsections (1) and (2), a foreign principal may acquire real property or any interest therein which is on or within 10 miles of any military installation or critical infrastructure facility in this state on or after July 1, 2023, by devise or descent, through the enforcement of security interests, or through the collection of debts, provided that the foreign principal sells, transfers, or otherwise divests itself of such real property within 3 years after acquiring the real property.

(6)(a) At the time of purchase, a buyer of the real property that is on or within 10 miles of any military installation or critical infrastructure facility in this state must provide an affidavit signed under penalty of perjury attesting that the buyer is:

1. Not a foreign principal or not a foreign principal prohibited from purchasing the subject real property; and

2. In compliance with the requirements of this section.

(b) The failure to obtain or maintain the affidavit does not:

1. Affect the title or insurability of the title for the real property; or

2. Subject the closing agent to civil or criminal liability, unless the closing agent has actual knowledge that the transaction will result in a violation of this section.

(c) The Florida Real Estate Commission shall adopt rules to implement this subsection, including rules establishing the form for the affidavit required under this subsection.

(7)(a) If any real property is owned or acquired in violation of this section, the real property may be forfeited to the state.

(b) The Department of Economic Opportunity may initiate a civil action in the circuit court of the county in which the property lies for the forfeiture of the real property or any interest therein.

(c) Upon filing such action, the clerk must record a *lis pendens* in accordance with s. 48.23. The court must advance the cause on the calendar. (e) The department may sell the real property subject to a final judgment of forfeiture. Any proceeds from the sale must first be paid to any lienholders of the land, followed by payment of any outstanding fines assessed pursuant to this section, after which the department must be reimbursed for all costs related to the forfeiture civil action and any costs related to the sale of the land. Any remaining proceeds must be paid to the property owner.

(f) At any time during the forfeiture proceeding the department may seek an ex parte order of seizure of the real property upon a showing that the defendant's control of the real property constitutes a clear and present danger to the state.

(8) A foreign principal that purchases or acquires real property or any interest therein in violation of this section commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

(9) A person who knowingly sells real property or any interest therein in violation of this section commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

## PRAYER

The following prayer was offered by Pastor Darrick McGhee, Sr., Bible Based Church, Tallahassee:

O Lord, our Lord, how excellent is thy name in all the earth. Lord, thank you for life. Thank you for health. Thank you for the realization of today, for this is the day that you have made and we shall rejoice and be glad in it. Thank you for the reminder of your awesomeness, reminder of your sovereignty. Thank you for the blessing to see the last day of the 2023 legislative session. Help the Florida Senate to finish strong.

Over the last 60 days, you have graciously endowed them with wisdom, knowledge, and understanding. Over the last 60 days, you have powerfully protected each of them from any and all hurt, harm, and danger. Over the last 60 days, you have lovingly cared for each of them, their staffs, and their families. Over the last 60 days, you have purposefully reminded us that you are great and greatly to be praised. So now, on day 60, one thing remains constant—that you are God and beside you, there is none other. And now, Lord, our prayer is that you be glorified.

Senators, in repeating the words the Lord spoke to Moses to say to Aaron, I now say to each of you. “The Lord bless thee and keep thee. The Lord make his face to shine upon thee and be gracious unto thee. The

Lord lift up his countenance upon thee, and give thee peace.” This is my earnest prayer. Amen.

## PLEDGE

**House Amendment 1 (433635) (with title amendment)**—Remove lines 383-616 and insert: June 1, 2011, including when such law, ordinance, or regulation is amended to be less restrictive or amended solely to implement or conform with local registration provisions provided in this paragraph, or when a law, ordinance, or regulation was adopted after June 1, 2011, regulating vacation rentals, if such law, ordinance, or regulation is less restrictive than the law, ordinance, or regulation that it replaced that was in effect on June 1, 2011. Notwithstanding paragraph (a), a local law, ordinance, or regulation may require the registration of vacation rentals as transient public lodging establishments as defined in s. 509.013 in conformance with this section. This paragraph does not prohibit a local law, ordinance, or regulation from restricting the maximum occupancy for residential properties that are rented if uniformly applied without regard to whether the residential property is used as a vacation rental.

2. Local governments may charge a fee of no more than \$100 for processing five or fewer individual vacation rental registrations or \$200 for processing more than five but fewer than 26 individual vacation rental registrations as a collective registration. A local law, ordinance, or regulation may not require renewal of a registration more than once per year. However, if there is a change of ownership, the new owner may be required to submit a new registration.

3. As a condition of registration, the local law, ordinance, or regulation may only require the owner or operator of a vacation rental to:

a. Submit the license number issued by the division to operate as a vacation rental.

b. Submit identifying information about the owner or operator, including name, address, telephone number, and e-mail address, and the location of the subject vacation rental property. In addition, the registrant must identify a responsible party to receive legal notices on behalf of the owner or operator.

c. Provide contact information for a responsible party, designated by the registrant, who is capable of responding to complaints, emergencies, and other immediate problems related to the vacation rental. Such contact information shall include a telephone number and e-mail address that can be used by the local government to contact the responsible party. Any vacation rental registrant with more than five vacation rentals in the local jurisdiction must provide contact information for a responsible party, designated by the registrant, who is available 24 hours a day, 7 days a week.

d. State the maximum occupancy of the vacation rental based on the number of sleeping accommodations for persons staying overnight in the vacation rental.

4.a. Within 15 business days after receiving a registration form and payment from a vacation rental owner or operator, the local government, only reviewing the registration administratively for completeness, must accept the registration of the vacation rental if all information has been provided and the fee has been paid. If the registration is incomplete, the local government may issue a written notice specifying with particularity

any areas that are deficient. Such notice may be provided by mail through the United States Postal Service or electronically by e-mail.

b. When a local government issues a notice of deficiency related to a vacation rental registration, the registrant has 15 days after receipt of the notice to resubmit the registration.

c. If the local government fails to accept the registration or issue a notice of deficiency within the timeframes provided in this subparagraph, the application is deemed accepted.

d. Upon an accepted registration of a vacation rental, a local government shall assign a unique registration number to the vacation rental or other indicia of registration and provide the registration number or other indicia of registration to the owner or operator of the vacation rental in writing or electronically.

5. The local government may notify and provide proof to the division if:

a. There is an unsatisfied recorded municipal lien or county lien on the real property of the vacation rental.

b. The premises and its owner are the subject of a final order or judgment lawfully directing the termination of the premises' use as a vacation rental.

c. The local code enforcement board, special magistrate, or other code enforcement authority has found that a vacation rental has established a pattern and practice of municipal or county code violations.

(d) The regulation of advertising platforms is preempted to the state as provided in this chapter.

Section 4. Effective January 1, 2024, subsections (2) and (3) of section 509.241, Florida Statutes, are amended to read:

509.241 Licenses required; exceptions.—

(2) APPLICATION FOR LICENSE.—Each person who plans to open a public lodging establishment or a public food service establishment shall apply for and receive a license from the division before ~~prior to~~ the commencement of operation. A condominium association, as defined in s. 718.103, which does not own any units classified as vacation rentals or timeshare projects under s. 509.242(1)(c) or (g) is not required to apply for or receive a public lodging establishment license. Upon receiving an application for a vacation rental license, the division may grant a temporary license that authorizes the vacation rental to begin operation while the application is pending and to post the information required under s. 509.243(1)(c). The temporary license automatically expires upon final agency action regarding the license application.

(3) DISPLAY OF LICENSE.—Any license issued by the division must ~~shall~~ be conspicuously displayed to the public inside ~~in the office or lobby of the~~ licensed establishment. Public food service establishments that ~~which~~ offer catering services must ~~shall~~ display their license number on all advertising for catering services. The owner or operator of a vacation rental offered for transient occupancy through an advertising platform must also display the vacation rental license number and, if applicable, the local registration number.

Section 5. Effective January 1, 2024, section 509.243, Florida Statutes, is created to read:

509.243 Advertising platforms.—

(1)(a) Beginning July 1, 2024, an advertising platform must require that a person who places an advertisement for the rental of a vacation rental:

1. Include in the advertisement the vacation rental license number and, if applicable, the local registration number;

2. Attest to the best of the person's knowledge that the license number for the vacation rental property is current, valid, and accurately stated in the advertisement, and that the local registration number for the vacation rental property is current, valid, and accurately stated in the advertisement or that a local registration is not required; and

3. Attest to the best of the person's knowledge that the contact information for a responsible party, designated by the licensee, who is capable of responding to complaints, emergencies, and other immediate problems related to the vacation rental has been provided to the division. Such contact information shall include a telephone number and e-mail address. Any vacation rental licensee with more than five vacation rentals must provide contact information for a responsible party, designated by the licensee, who is available 24 hours a day, 7 days a week.

(b) Beginning July 1, 2024, an advertising platform must display the vacation rental license number and, if applicable, the local registration number based upon the attestation in subparagraph (a)2.

(c) By July 1, 2024, the division shall maintain vacation rental license information in a readily accessible electronic format that includes contact information for a responsible party as provided in subparagraph (a)3.

(2) An advertising platform must remove from public view an advertisement or a listing from its online application, software, website, or system within 15 business days after being notified by the division in writing that the subject advertisement or listing for the rental of a vacation rental located in this state fails to include a valid license number issued by the division or that such license has been suspended or revoked.

(3) If a guest uses a payment system on or through an advertising platform to pay for the rental of a vacation rental located in this state, the advertising platform must collect and remit all taxes due under ss. 125.0104, 125.0108, 205.044, 212.03, 212.0305, and 212.055 related to the rental as provided in s. 212.03(2)(b).

(4) If the division has probable cause to believe that a person not licensed by the division has violated this chapter or any rule adopted pursuant thereto, the division may issue and deliver to such person a notice to cease and desist from the violation. The issuance of a notice to cease and desist does not constitute agency action for which a hearing under s. 120.569 or s. 120.57 may be sought. For the purpose of enforcing a cease and desist notice, the division may file a proceeding in the name of the state seeking the issuance of an injunction or a writ of mandamus against any person who violates any provision of the notice. If the division is required to seek enforcement of the notice for a penalty pursuant to s. 120.69, it is entitled to collect attorney fees and costs, together with any cost of collection.

(5) The division may fine an advertising platform an amount not to exceed \$1,000 per offense for violations of this section or of the rules of the division. For the purposes of this subsection, the division may regard as a separate offense each day in which an advertising platform is operated in violation of this section or rules of the division. The division shall issue a written warning or notice and provide the advertising platform 15 days to cure a violation before commencing any legal proceeding under subsection (4).

(6) Advertising platforms shall adopt an antidiscrimination policy to help prevent discrimination among their users and shall inform all users of their services that it is illegal to refuse accommodation to an individual based on race, creed, color, sex, pregnancy, physical disability, or national origin pursuant to s. 509.092.

(7) Advertising platforms that comply with the requirements of this section are deemed to be in compliance with the requirements of this chapter. This section does not create and is not intended to create a private cause of action against advertising platforms. An advertising platform may not be held liable for any action it takes voluntarily in good faith in relation to its users to comply with this chapter or the advertising platform's terms of service.

Section 6. Subsection (10) is added to section 509.261, Florida Statutes, to read:

509.261 Revocation or suspension of licenses; fines; procedure.—

(10) The division may revoke, refuse to issue or renew, or suspend for a period of not more than 30 days a vacation rental license or issue a letter of guidance to a vacation rental licensee when:

(a) The operation of the subject premises violates the terms of an applicable lease or property restriction, including any property restric-

tion adopted pursuant to chapter 718, chapter 719, or chapter 720, as determined by a final order of a court of competent jurisdiction or a written decision by an arbitrator authorized to arbitrate a dispute relating to the subject property and a lease or property restriction.

(b) The premises and its owner are the subject of a final order or judgment lawfully directing the termination of the premises' use as a vacation rental.

(c) There is an unsatisfied recorded municipal lien or county lien on the real property of the vacation rental. However, the division must allow the vacation rental owner at least 60 days to satisfy the recorded municipal lien or county lien before the revocation, refusal to issue or renew, or suspension of a vacation rental license.

(d) The local code enforcement board, special magistrate, or other code enforcement authority has found that a vacation rental has established a pattern and practice of municipal or county code violations. The division must consider whether the licensee has corrected the violations before determining any discipline.

(e) The premises is not registered as a vacation rental in the local jurisdiction and such jurisdiction requires registration. However, a licensee may apply for a waiver of the local registration requirement, and the division may issue the license, if the local jurisdiction has unreasonably withheld such registration.

(f) The license number for the vacation rental is not included in advertisements, if required.

(g) The licensee has failed to provide contact information for a responsible party, designated by the licensee, who is capable of responding to complaints, emergencies, and other immediate problems related to the vacation rental to the division that includes a telephone number and e-mail address, or the licensee that has more than five vacation rentals has failed to provide to the division contact information that includes a telephone number and an e-mail address for a responsible party, designated by the licensee, that is available 24 hours a day, 7 days a week.

And the title is amended as follows:

Remove lines 17-69 and insert: vacation rental registration programs; providing construction; authorizing local governments to charge fees up to specified amounts for processing registration applications; specifying requirements, procedures, and limitations for local vacation rental registration programs; authorizing local governments to notify and provide proof to a specified entity under certain circumstances; preempting the regulation of advertising platforms to the state; amending s. 509.241, F.S.; authorizing the Division of Hotels and Restaurants of the Department of Business and Professional Regulation to issue temporary licenses upon receipt of vacation rental license applications; providing for expiration of temporary vacation rental licenses; requiring that any license issued by the division be displayed conspicuously to the public inside the licensed establishment; requiring the owner or operator of certain vacation rentals to also display the vacation rental license number and applicable local registration number; creating s. 509.243, F.S.; requiring advertising platforms to require that persons placing advertisements for vacation rentals include certain information in the advertisements and attest to certain information beginning on a specified date; requiring advertising platforms to display certain information beginning on a specified date; requiring the division to maintain certain information in a readily accessible electronic format by a specified date; requiring advertising platforms to remove an advertisement or a listing under certain conditions and within a specified timeframe; requiring advertising platforms to collect and remit specified taxes for certain transactions; authorizing the division to issue and deliver a notice to cease and desist for certain violations; providing that such notice does not constitute agency action for which certain hearings may be sought; authorizing the division to file certain proceedings; authorizing the division to seek certain remedies for the purpose of enforcing a cease and desist notice; authorizing the division to collect attorney fees and costs under certain circumstances; authorizing the division to impose a fine on advertising platforms for certain violations; requiring the division to issue written warnings or notices before commencing certain legal proceedings; requiring advertising platforms to adopt an antidiscrimination policy and to inform their users of the policy's provisions; providing construction; amending s. 509.261, F.S.; authorizing the division to revoke, refuse to issue or renew, or suspend

**House Amendment 1 (229727) (with title amendment) to Senate Amendment 1 (645914)**—Remove lines 5-81 of the amendment and insert:

Section 1. Subsection (5) is added to section 163.3162, Florida Statutes, to read:

163.3162 Agricultural Lands and Practices.—

(5) *HOUSING FOR SEASONAL AGRICULTURAL EMPLOYEES.*—

(a) *The construction or installation of housing for seasonal agricultural employees working in this State pursuant to 8 U.S.C. s. 1188 is authorized on lands zoned for agricultural use that is operated as a bona fide farm.*

(b) *Construction or installation of housing under this subsection must meet the following minimum criteria unless the local government has a less restrictive ordinance that is not in conflict with any federal law or requirements in which case the local ordinance applies:*

1. *Must be located on a parcel of land no less than 10 acres in size;*
2. *Must meet, at a minimum, the criteria set forth in 29 C.F.R. 1910.142 and 64E-14, Florida Administrative Code;*
3. *May not be located within 150 feet of the property line. If the adjoining parcel is zoned for residential use, the minimum distance for housing under this section from the property line adjacent to residential zoning is 750 feet or, alternatively, requires installation of a buffer not less than 25 feet in width, consisting of a wall, a berm, or a wall and berm combination of not less than 6 feet in height from finished grade together with landscaping on the residential side of the wall consisting of at least 5 trees and 30 shrubs per linear foot;*
4. *May not exceed 2,500 heated and cooled square feet per building on an eligible parcel of land;*
5. *May not be more than 3 structures per 10 acre parcel of land; and*

6. *Must meet all local and state building standards for securing a residential certificate of occupancy.*

(c) *The improvements authorized under this subsection do not require approval by ordinance or resolution of the governmental entity where the land is located.*

(d) *If agricultural operations are discontinued on the property for a minimum of 3 years and the agricultural land classification of the property is no longer valid, the agricultural employee housing is no longer eligible for the residential uses as provided in this section unless and until approved by the local jurisdiction under its zoning and land use regulations for the intended nonagricultural use.*

(e) *Notwithstanding this subsection, the construction or installation of housing for seasonal agricultural employees in the Florida Keys Area of Critical State Concern and the City of Key West Area of Critical State Concern is subject to the permit allocation systems of the Florida Keys Area of Critical State Concern and City of Key West Area of Critical State Concern.*

Section 2. Paragraph (b) of subsection (3) of section 193.461, Florida Statutes, is amended to read:

193.461 Agricultural lands; classification and assessment; mandated eradication or quarantine program; natural disasters.—

(3)

(b) Subject to the restrictions specified in this section, only lands that are used primarily for bona fide agricultural purposes shall be classified as agricultural. The term “bona fide agricultural purposes” means good faith commercial agricultural use of the land.

1. In determining whether the use of the land for agricultural purposes is bona fide, the following factors may be taken into consideration:

- a. The length of time the land has been so used.
- b. Whether the use has been continuous.
- c. The purchase price paid.
- d. Size, as it relates to specific agricultural use, but a minimum acreage may not be required for agricultural assessment.
- e. Whether an indicated effort has been made to care sufficiently and adequately for the land in accordance with accepted commercial agricultural practices, including, without limitation, fertilizing, liming, tilling, mowing, reforestation, and other accepted agricultural practices.
- f. Whether the land is under lease and, if so, the effective length, terms, and conditions of the lease.
- g. Such other factors as may become applicable.

2. Offering property for sale does not constitute a primary use of land and may not be the basis for denying an agricultural classification if the land continues to be used primarily for bona fide agricultural purposes while it is being offered for sale.

3. A county or municipality may not require the removal or relinquishment of an agricultural classification for land that is subject to a contract for sale that requires a development permit as defined in s. 163.3164(16) as a condition precedent of sale if the landowner notifies the county or municipality in writing at the time of application for the development permit that the reclassification is requested as a condition precedent for a pending sale of the land. The agricultural classification for the land may not be removed or relinquished based solely on the issuance of the development permit until the landowner provides written notice to the county or municipality that the contract has closed and the property has been conveyed to the contract purchaser.

And the title is amended as follows:

Remove lines 91-104 of the amendment and insert: installation of housing for seasonal agricultural employees on certain lands; providing requirements for such housing; exempting such housing from certain local government approval; providing conditions under which such

housing is subject to specified land use restrictions; providing that such housing in certain areas is subject to certain permit allocation systems; amending s. 193.461, F.S.; prohibiting local governments from requiring the removal or relinquishment of an agricultural land classification for certain lands; requiring landowners to provide a county or municipality with certain written notice regarding such lands;

On motion by Senator Collins, the Senate refused to concur in **House Amendment 1 (229727) to Senate Amendment 1 (645914) to CS for CS for HB 1343** and the House was requested to recede. The action of the Senate was certified to the House.

PUBLIC DEFENDERS

The Public Defenders Coordination Office's budgeting, legal, training, and education needs may be funded by each Public Defender's office within the funds provided in Specific Appropriations 932 through 1075. Funding for this office shall not exceed \$450,000 from the Indigent Criminal Defense Trust Fund.

Each Public Defender Office must submit to the Justice Administrative Commission (JAC) a quarterly report detailing the number of appointed and reappointed cases by case type, number of cases closed by case type, number of clients represented, and number of conflicts by case type and the basis for the conflict. The JAC shall compile the reports into a tab delineated spreadsheet format and submit the results to the chair of the Senate Appropriations Committee on Criminal and Civil Justice and the chair of the House of Representatives Justice Appropriations Subcommittee within three weeks after the end of each quarter.

JUVENILE JUSTICE, DEPARTMENT OF

From the funds in Specific Appropriations 1132 through 1214, the Department of Juvenile Justice may work within its existing budget, including applicable grants, to implement any corrective action plan that is developed as a result of a Prison Rape Elimination Act audit conducted in accordance with Title 28, Part 115 of the Code of Federal Regulations. The department may request additional resources required through the Legislative Budget Request process as defined in chapter 216, Florida Statutes.

From the funds in Specific Appropriations 1132 through 1214, the Department of Juvenile Justice shall conduct a comprehensive statewide review of county-level data, including a gap analysis of services and programs available across all counties in the state, to evaluate the implementation of juvenile justice policies at the county level. As a result of such review, the department shall prepare a report that includes benchmarking of counties' performance on factors that demonstrate how a county is supporting the department's strategic goals of preventing and diverting more youth from entering the juvenile justice system; providing appropriate, less restrictive, community-based sanctions and services; reserving serious sanctions for youth who pose the greatest risk to public safety; and focusing on rehabilitation. The report shall also include recommendations and strategies that can be implemented by the department or counties to address any identified deficiencies and to assist in developing a statewide, coordinated response across all of Florida's communities to support the department's strategic goals. A copy of the report shall be submitted to the Governor, President of the Senate, and Speaker of the House of Representatives by January 5, 2024.

PROGRAM: RESIDENTIAL CORRECTIONS PROGRAM

From the funds in Specific Appropriations 1188 through 1200, the Department of Juvenile Justice shall provide a monthly residential resource utilization report that identifies operating capacity, current placements, vacant placements, number of youth awaiting placement, and the percent of use for all residential commitment beds. The department may increase or decrease beds or overlay services provided the change will better serve taxpayers and the youth under its care. Notification and justification of changes will be provided to the Governor's Office of Policy and Budget, chair of the Senate Appropriations Committee, and chair of the House of Representatives Appropriations Committee prior to implementing any change.

From the funds in Specific Appropriations 1188 through 1200, the department must also provide a report of serious incidents to the Governor, President of the Senate, and Speaker of the House of Representatives on a quarterly basis. The report must include, at a minimum: the number of incidents and allegations of staff abuse or abuse by another child, including whether or not an allegation was substantiated; descriptions of incidents or allegations of such abuse that resulted in physical injury or significant psychological trauma, or that involved deprivation of food, water, or medical care; and the failure of a provider to report incidents or allegations within required timeframes established by the department. The department must also

ECONOMIC OPPORTUNITY, DEPARTMENT OF

From the funds in Specific Appropriations 2269 through 2363, any expenditure from the Temporary Assistance for Needy Families (TANF) Block Grant must be expended in accordance with the requirements and limitations of Part A of Title IV of the Social Security Act, as amended, or any other applicable federal requirement or limitation. Before any funds are released by the Department of Children and Families, each provider shall identify the number of clients to be served and certify its eligibility under Part A of Title IV of the Social Security Act. Funds may not be released for services to any clients except those so identified and certified.

The department head or a designee must certify that controls are in place to ensure that such funds are expended in accordance with the requirements and limitations of federal law and that reporting requirements of federal law are met. It is the responsibility of any entity to which such funds are provided to obtain the required certification prior to any expenditure of funds.

From the funds in Specific Appropriations 2269 through 2363, no federal or state funds shall be used to pay for space being leased by a Local Workforce Development Board, CareerSource Florida, or the Department of Economic Opportunity if it has been determined by whichever entity is the lessee that there is no longer a need for the leased space. All leases, and performance and obligations under the leases, are subject to and contingent upon an annual appropriation by the Florida Legislature. In the event that such annual appropriation does not occur, or in the alternative, there is either a reduction in funding from the prior annual appropriation or the entity which is the lessee determines that the annual appropriation is insufficient to meet the requirements of the leases, then the lessee has the right to terminate the lease upon written notice by the lessee and the lessee shall have no further obligations under the contracts.

The Department of Economic Opportunity must submit monthly status reports on the outstanding obligations for the Low-Income Home Energy Assistance Program, the Weatherization Assistance Program, and the Low-Income Household Water Assistance Program to the Executive Office of the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, and the chair of the House of Representatives Appropriations Committee no later than the 15th day of the month. The Department of Economic Opportunity shall coordinate with the state's manufacturing industry, including stakeholders such as the Manufacturing Extension Partnership National Network partners in this state, to study manufacturing in Florida. The department is encouraged to evaluate existing resources and partnerships that facilitate the growth and advancement of manufacturing in this state and enhance the competitive position of Florida in the national and international economy. Based upon the findings, the department may develop plans to grow high-tech jobs, provide necessary workforce training, strengthen supply chain and logistics resiliency, promote new technologies and innovations, or incentivize the on-shoring of manufacturing to Florida. The department must submit the report to the Governor, the President of the Senate, and the Speaker of the House of Representatives by December 1, 2023.

PROGRAM: EMERGENCY MANAGEMENT

EMERGENCY PREVENTION, PREPAREDNESS AND RESPONSE

The Division of Emergency Management must submit quarterly status reports on the outstanding obligations for each federally declared disaster event to the Executive Office of the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, and the chair of the House of Representatives Appropriations Committee no later than the 15th day of the month following the end of a quarter. Based on the most recent quarterly report, the division must also provide an allocation of funding by appropriation category and funds needed to meet these obligations for the budget request year.

In order to properly store, manage, maintain, and deploy emergency supplies, the Division of Emergency Management, in consultation with the Department of Health, shall issue Invitations to Negotiate (ITN) for a turnkey stockpile solution that includes the lease, buildout, and operation of one warehouse facility that serves as the hub facility for the storage and movement of emergency supplies in Florida during emergency activations and responses. ITN responses must be from experienced providers who can demonstrate successful past performance of projects similar in size, scope, and complexity. Respondents must have at least five years of direct experience in receiving, storing, managing, and distributing state or federal stockpiles. The division shall select and recommend to the Governor, the President of the Senate, and the Speaker of the House of Representatives, the ITN response that has the best value for the state for final approval. ITN responses shall include:

1. An initial assessment of the existing inventory of supplies that includes a review of the condition of supplies, proper disposal of spoiled or renewal or disposal of expired supplies, sale of unnecessary supplies, onboarding of supplies into an inventory and quality management system, and relocation of supplies into the appropriate environment in the new hub facility.
2. The lease and buildout of the hub facility with the capability to store and manage emergency supplies, including food and water, health and medical supplies, and medical equipment such as personal protective equipment, durable medical equipment, and medical countermeasures, in the correct environment with appropriate security, temperature, and humidity controls and in compliance with industry licensing and regulatory standards. Facility square footage, including warehouse space and surface lot area, shall be sufficient to access, maintain, inventory, and distribute such supplies.
3. A staffing plan that ensures facility staff have appropriate knowledge, skills, and training to maintain, organize, identify, and package all types of emergency supplies, including medical equipment. Staffing plans must demonstrate how staff will utilize the inventory and quality management system in day-to-day operations to support the

SPECIFIC  
APPROPRIATION

division. The plans must identify the use and quantity of division staff and staff of the ITN respondent, as applicable, necessary to operate the hub facility. All staff, whether of the ITN respondent or the division, shall operate at the direction of the division.

4. An inventory and quality management system that can track and trace, in real-time, the state's emergency supplies. The system must be able to track the number, type, location, and expiration date of supplies; facilitate the regular testing, maintenance, and rotation of supplies and equipment; and provide reporting to assist in the state's emergency response and recovery.

5. Identification of the one-time and on-going costs associated with site selection and preparation, design and construction, retrofitting or renovations, leasing, utilities, inventory assessment and relocation, software, product maintenance or rotation, and staffing, as appropriate.

In addition, any salary increase or bonus provided under this section shall be pro-rated based on the full-time equivalency of the employee's position. Employees classified as other personal services employees are not eligible for an increase.

It is the intent of the Legislature that the minimum and maximums for each pay grade and pay band be adjusted upward commensurate with the increases provided in subsections (1) and (2). The Conference Committee Amendment for SB 2502, relating to implementing the Fiscal Year 2023-2024 General Appropriations Act, provides the following substantive modifications for the 2023-2024 fiscal year:

**Section 1** provides legislative intent that the implementing and administering provisions of this act apply to the General Appropriations Act (GAA) for Fiscal Year 2023-2024.

**Section 2** incorporates the Florida Education Finance Program (FEFP) work papers by reference for the purpose of displaying the calculations used by the Legislature.

**Section 3** amends s. 1009.895, F.S., to modify the Open Door Grant Program.

**Section 4** provides that the amendments to s. 1008.895, F.S., expire July 1, 2024, and the text of that section reverts to that in existence on June 30, 2023.

**Section 5** amends s. 1002.68(4)(a)(f), (5) and (6)(e), F.S., to extend the timelines for the development and implementation of methodology relating to performance metrics for voluntary prekindergarten providers and removes the provisions that would disqualify a voluntary prekindergarten provider based on a failure to meet minimum program assessment composite scores.

**Section 6** provides that the amendments to s. 1009.895(4)(a)(f), (5) and (6)(e), F.S., expire July 1, 2024, and the text of those sections reverts to that in existence on June 30, 2023.

**Section 7** authorizes the Agency for Health Care Administration (AHCA) to submit a budget amendment to realign funding between the AHCA and the Department of Health (DOH) for the Children’s Medical Services (CMS) Program for the implementation of the Statewide Medicaid Managed Care program, to reflect actual enrollment changes due to the transition from fee-for-service into the capitated CMS Network.

**Section 8** authorizes the AHCA to submit a budget amendment to realign funding priorities within the Medicaid program appropriation categories to address any projected surpluses and deficits.

**Section 9** authorizes the AHCA and the DOH to each submit a budget amendment to realign funding within the Florida KidCare program appropriation categories, or to increase budget authority in the Children’s Medical Services Network category, to address projected surpluses and deficits within the program or to maximize the use of state trust funds. A single budget amendment must be submitted by each agency in the last quarter of Fiscal Year 2023-2024.

**Section 10** amends s. 381.986(17), F.S., to provide that the DOH is not required to prepare a statement of estimated regulatory costs when adopting rules relating to medical marijuana testing laboratories, and any such rules adopted prior to July 1, 2024, are exempt from the legislative ratification provision of ss. 120.54(3)(b) and 120.541, F.S. Medical marijuana treatment centers are authorized to use a laboratory that has not been certified by the department until rules relating to medical marijuana testing laboratories are adopted by the department, but no later than July 1, 2024.

**Section 11** amends s. 14(1) of ch. 2017-232, L.O.F., to provide limited emergency rulemaking authority to the DOH and applicable boards to adopt emergency rules to implement the Medical Use of Marijuana Act (2017). The department and applicable boards are not required to prepare a statement of estimated regulatory costs when promulgating rules to replace emergency rules, and any such rules are exempt from the legislative ratification provision of ss.120.54(3)(b) and 120.541, F.S., until July 1, 2024.

**Section 12** provides that the amendments to s. 14(1) of ch. 2017-232, L.O.F., expire on July 1, 2024, and the text of that provision reverts back to that in existence on June 30, 2019.

This section expires July 1, 2024.

(1)(a) As used in this section, the term “state Medicaid expenditures” means those expenditures used as matching funds for the federal Medicaid program.

(b) The term does not include funds specially assessed by any local governmental entity and used as the nonfederal share for the hospital directed payment program after July 1, 2021. This paragraph expires July 1, 2024.

Section 28. In order to implement Specific Appropriations 598 through 705 and 718 through 753 of the 2023-2024 General Appropriations Act, subsection (4) of section 216.262, Florida Statutes, is amended to read:

216.262 Authorized positions.—

(4) Notwithstanding the provisions of this chapter relating to increasing the number of authorized positions, and for the 2023-2024 ~~2022-2023~~ fiscal year only, if the actual inmate population of the Department of Corrections exceeds the inmate population projections of the February 13, 2023 ~~January 13, 2022~~, Criminal Justice Estimating Conference by 1 percent for 2 consecutive months or 2 percent for any month, the Executive Office of the Governor, with the approval of the Legislative Budget Commission, shall immediately notify the Criminal Justice Estimating Conference, which shall convene as soon as possible to revise the estimates. The Department of Corrections may then submit a budget amendment requesting the establishment of positions in excess of the number authorized by the Legislature and additional appropriations from unallocated general revenue sufficient to provide for essential staff, fixed capital improvements, and other resources to provide classification, security, food services, health services, and other variable expenses within the institutions to accommodate the estimated increase in the inmate population. All actions taken pursuant to this subsection are subject to review and approval by the Legislative Budget Commission. This subsection expires July 1, 2024 ~~2023~~.

Section 29. In order to implement Specific Appropriations 3271 through 3337 of the 2023-2024 General Appropriations Act, subsection (2) of section 215.18, Florida Statutes, is amended to read:

215.18 Transfers between funds; limitation.—

(2) The Chief Justice of the Supreme Court may receive one or more trust fund loans to ensure that the state court system has funds sufficient to meet its appropriations in the 2023-2024 ~~2022-2023~~ General Appropriations Act. If the Chief Justice accesses the loan, he or she must notify the Governor and the chairs of the legislative appropriations committees in writing. The loan must come from other funds in the State Treasury which are for the time being or otherwise in excess of the amounts necessary to meet the just requirements of such last-men-

tioned funds. The Governor shall order the transfer of funds within 5 days after the written notification from the Chief Justice. If the Governor does not order the transfer, the Chief Financial Officer shall transfer the requested funds. The loan of funds from which any money is temporarily transferred must be repaid by the end of the 2023-2024 ~~2022-2023~~ fiscal year. This subsection expires July 1, 2024 ~~2023~~.

Section 30. *In order to implement Specific Appropriations 1132 through 1143 of the 2023-2024 General Appropriations Act:*

(1) *The Department of Juvenile Justice is required to review county juvenile detention payments to ensure that counties fulfill their financial responsibilities required in s. 985.6865, Florida Statutes. If the Department of Juvenile Justice determines that a county has not met its obligations, the department shall direct the Department of Revenue to deduct the amount owed to the Department of Juvenile Justice from the funds provided to the county under s. 218.23, Florida Statutes. The Department of Revenue shall transfer the funds withheld to the Shared County/State Juvenile Detention Trust Fund.*

(2) *As an assurance to holders of bonds issued by counties before July 1, 2023, for which distributions made pursuant to s. 218.23, Florida Statutes, are pledged, or bonds issued to refund such bonds which mature no later than the bonds they refunded and which result in a reduction of debt service payable in each fiscal year, the amount available for distribution to a county shall remain as provided by law and continue to be subject to any lien or claim on behalf of the bondholders. The Department of Revenue must ensure, based on information provided by an affected county, that any reduction in amounts distributed pursuant to subsection (1) does not reduce the amount of distribution to a county below the amount necessary for the timely payment of principal and interest when due on the bonds and the amount necessary to comply with any covenant under the bond resolution or other documents relating to the issuance of the bonds. If a reduction to a county's monthly distribution must be decreased in order to comply with this section, the Department of Revenue must notify the Department of Juvenile Justice of the amount of the decrease, and the Department of Juvenile Justice must send a bill for payment of such amount to the affected county.*

*This section expires July 1, 2024.*

Section 31. In order to implement Specific Appropriations 763 through 784, 932 through 1075, and 1096 through 1131 of the 2023-2024 General Appropriations Act, and notwithstanding the expiration date in section 36 of chapter 2022-157, Laws of Florida, subsection (1), paragraph (a) of subsection (2), paragraph (a) of subsection (3), and subsections (5), (6), and (7) of section 27.40, Florida Statutes, are reenacted to read:

27.40 Court-appointed counsel; circuit registries; minimum requirements; appointment by court.—

(1) Counsel shall be appointed to represent any individual in a criminal or civil proceeding entitled to court-appointed counsel under the Federal or State Constitution or as authorized by general law. The court shall appoint a public defender to represent indigent persons as authorized in s. 27.51. The office of criminal conflict and civil regional counsel shall be appointed to represent persons in those cases in which provision is made for court-appointed counsel, but only after the public defender has certified to the court in writing that the public defender is unable to provide representation due to a conflict of interest or is not authorized to provide representation. The public defender shall report, in the aggregate, the specific basis of all conflicts of interest certified to the court. On a quarterly basis, the public defender shall submit this information to the Justice Administrative Commission.

(2)(a) Private counsel shall be appointed to represent persons in those cases in which provision is made for court-appointed counsel but only after the office of criminal conflict and civil regional counsel has been appointed and has certified to the court in writing that the criminal conflict and civil regional counsel is unable to provide representation due to a conflict of interest. The criminal conflict and civil regional counsel shall report, in the aggregate, the specific basis of all conflicts of interest certified to the court. On a quarterly basis, the criminal conflict and civil regional counsel shall submit this information to the Justice Administrative Commission.

(3) In using a registry:

(a) The chief judge of the circuit shall compile a list of attorneys in private practice, by county and by category of cases, and provide the list to the clerk of court in each county. The chief judge of the circuit may restrict the number of attorneys on the general registry list. To be included on a registry, an attorney must certify that he or she:

1. Meets any minimum requirements established by the chief judge and by general law for court appointment;

2. Is available to represent indigent defendants in cases requiring court appointment of private counsel; and

3. Is willing to abide by the terms of the contract for services, s. 27.5304, and this section.

To be included on a registry, an attorney must enter into a contract for services with the Justice Administrative Commission. Failure to comply with the terms of the contract for services may result in termination of the contract and removal from the registry. Each attorney on the registry is responsible for notifying the clerk of the court and the Justice Administrative Commission of any change in his or her status. Failure to comply with this requirement is cause for termination of the contract for services and removal from the registry until the requirement is fulfilled.

(5) The Justice Administrative Commission shall approve uniform contract forms for use in procuring the services of private court-appointed counsel and uniform procedures and forms for use by a court-appointed attorney in support of billing for attorney's fees, costs, and related expenses to demonstrate the attorney's completion of specified duties. Such uniform contracts and forms for use in billing must be consistent with s. 27.5304, s. 216.311, and the General Appropriations Act and must contain the following statement: "The State of Florida's performance and obligation to pay under this contract is contingent upon an annual appropriation by the Legislature."

(6) After court appointment, the attorney must immediately file a notice of appearance with the court indicating acceptance of the appointment to represent the defendant and of the terms of the uniform contract as specified in subsection (5).

(7)(a) A private attorney appointed by the court from the registry to represent a client is entitled to payment as provided in s. 27.5304 so long as the requirements of subsection (1) and paragraph (2)(a) are met. An attorney appointed by the court who is not on the registry list may be compensated under s. 27.5304 only if the court finds in the order of appointment that there were no registry attorneys available for representation for that case and only if the requirements of subsection (1) and paragraph (2)(a) are met.

(b)1. The flat fee established in s. 27.5304 and the General Appropriations Act shall be presumed by the court to be sufficient compensation. The attorney shall maintain appropriate documentation, including contemporaneous and detailed hourly accounting of time spent representing the client. If the attorney fails to maintain such contemporaneous and detailed hourly records, the attorney waives the right to seek compensation in excess of the flat fee established in s. 27.5304 and the General Appropriations Act. These records and documents are subject to review by the Justice Administrative Commission and audit by the Auditor General, subject to the attorney-client privilege and work-product privilege. The attorney shall maintain the records and documents in a manner that enables the attorney to redact any information subject to a privilege in order to facilitate the commission's review of the records and documents and not to impede such review. The attorney may redact information from the records and documents only to the extent necessary to comply with the privilege. The Justice Administrative Commission shall review such records and shall contemporaneously document such review before authorizing payment to an attorney. Objections by or on behalf of the Justice Administrative Commission to records or documents or to claims for payment by the attorney shall be presumed correct by the court unless the court determines, in writing, that competent and substantial evidence exists to justify overcoming the presumption.

2. If an attorney fails, refuses, or declines to permit the commission or the Auditor General to review documentation for a case as provided in this paragraph, the attorney waives the right to seek, and the com-

mission may not pay, compensation in excess of the flat fee established in s. 27.5304 and the General Appropriations Act for that case.

3. A finding by the commission that an attorney has waived the right to seek compensation in excess of the flat fee established in s. 27.5304 and the General Appropriations Act, as provided in this paragraph, shall be presumed to be correct, unless the court determines, in writing, that competent and substantial evidence exists to justify overcoming the presumption.

Section 32. *The text of s. 27.40(1), (2)(a), (3)(a), (5), (6), and (7), Florida Statutes, as carried forward from chapter 2019-116, Laws of Florida, by this act, expires July 1, 2024, and the text of those subsections and paragraphs, as applicable, shall revert to that in existence on June 30, 2019, except that any amendments to such text enacted other than by this act shall be preserved and continue to operate to the extent that such amendments are not dependent upon the portions of text which expire pursuant to this section.*

Section 33. In order to implement Specific Appropriations 763 through 784, 932 through 1075, and 1096 through 1131 of the 2023-2024 General Appropriations Act, and notwithstanding the expiration date in section 38 of chapter 2022-157, Laws of Florida, subsections (6) and (13) of section 27.5304, Florida Statutes, are reenacted and amended, and subsections (1), (3), (7), and (11), and paragraphs (a) through (e) of subsection (12) of that section are reenacted, to read:

27.5304 Private court-appointed counsel; compensation; notice.—

(1) Private court-appointed counsel appointed in the manner prescribed in s. 27.40(1) and (2)(a) shall be compensated by the Justice Administrative Commission only as provided in this section and the General Appropriations Act. The flat fees prescribed in this section are limitations on compensation. The specific flat fee amounts for compensation shall be established annually in the General Appropriations Act. The attorney also shall be reimbursed for reasonable and necessary expenses in accordance with s. 29.007. If the attorney is representing a defendant charged with more than one offense in the same case, the attorney shall be compensated at the rate provided for the most serious offense for which he or she represented the defendant. This section does not allow stacking of the fee limits established by this section.

(3) The court retains primary authority and responsibility for determining the reasonableness of all billings for attorney fees, costs, and related expenses, subject to statutory limitations and the requirements of s. 27.40(7). Private court-appointed counsel is entitled to compensation upon final disposition of a case.

(6) For compensation for representation pursuant to a court appointment in a proceeding under chapter 39:

(a) At the trial level, compensation for representation for dependency proceedings shall not exceed \$1,450 ~~\$1,000~~ for the first year following the date of appointment and shall not exceed \$700 ~~\$200~~ each year thereafter. Compensation shall be paid based upon representation of a parent irrespective of the number of case numbers that may be assigned or the number of children involved, including any children born during the pendency of the proceeding. Any appeal, except for an appeal from an adjudication of dependency, shall be completed by the trial attorney and is considered compensated by the flat fee for dependency proceedings.

1. Counsel may bill the flat fee not exceeding \$1,450 ~~\$1,000~~ following disposition or upon dismissal of the petition.

2. Counsel may bill the annual flat fee not exceeding \$700 ~~\$200~~ following the first judicial review in the second year following the date of appointment and each year thereafter as long as the case remains under protective supervision.

3. If the court grants a motion to reactivate protective supervision, the attorney shall receive the annual flat fee not exceeding \$700 ~~\$200~~ following the first judicial review and up to an additional \$700 ~~\$200~~ each year thereafter.

4. If, during the course of dependency proceedings, a proceeding to terminate parental rights is initiated, compensation shall be as set forth in paragraph (b). If counsel handling the dependency proceeding is not

authorized to handle proceedings to terminate parental rights, the counsel must withdraw and new counsel must be appointed.

(b) At the trial level, compensation for representation in termination of parental rights proceedings shall not exceed \$1,800 ~~\$1,000~~ for the first year following the date of appointment and shall not exceed \$700 ~~\$200~~ each year thereafter. Compensation shall be paid based upon representation of a parent irrespective of the number of case numbers that may be assigned or the number of children involved, including any children born during the pendency of the proceeding. Any appeal, except for an appeal from an order granting or denying termination of parental rights, shall be completed by trial counsel and is considered compensated by the flat fee for termination of parental rights proceedings. If the individual has dependency proceedings ongoing as to other children, those proceedings are considered part of the termination of parental rights proceedings as long as that termination of parental rights proceeding is ongoing.

1. Counsel may bill the flat fee not exceeding \$1,800 ~~\$1,000~~ 30 days after rendition of the final order. Each request for payment submitted to the Justice Administrative Commission must include the trial counsel's certification that:

a. Counsel discussed grounds for appeal with the parent or that counsel attempted and was unable to contact the parent; and

b. No appeal will be filed or that a notice of appeal and a motion for appointment of appellate counsel, containing the signature of the parent, have been filed.

2. Counsel may bill the annual flat fee not exceeding \$700 ~~\$200~~ following the first judicial review in the second year after the date of appointment and each year thereafter as long as the termination of parental rights proceedings are still ongoing.

(c) For appeals from an adjudication of dependency, compensation may not exceed \$1,800 ~~\$1,000~~.

1. Counsel may bill a flat fee not exceeding \$1,200 ~~\$750~~ upon filing the initial brief or the granting of a motion to withdraw.

2. If a brief is filed, counsel may bill an additional flat fee not exceeding \$600 ~~\$250~~ upon rendition of the mandate.

(d) For an appeal from an adjudication of termination of parental rights, compensation may not exceed \$3,500 ~~\$2,000~~.

1. Counsel may bill a flat fee not exceeding \$1,750 ~~\$1,000~~ upon filing the initial brief or the granting of a motion to withdraw.

2. If a brief is filed, counsel may bill an additional flat fee not exceeding \$1,750 ~~\$1,000~~ upon rendition of the mandate.

(7) Counsel eligible to receive compensation from the state for representation pursuant to court appointment made in accordance with the requirements of s. 27.40(1) and (2)(a) in a proceeding under chapter 384, chapter 390, chapter 392, chapter 393, chapter 394, chapter 397, chapter 415, chapter 743, chapter 744, or chapter 984 shall receive compensation not to exceed the limits prescribed in the General Appropriations Act. Any such compensation must be determined as provided in s. 27.40(7).

(11) It is the intent of the Legislature that the flat fees prescribed under this section and the General Appropriations Act comprise the full and complete compensation for private court-appointed counsel. It is further the intent of the Legislature that the fees in this section are prescribed for the purpose of providing counsel with notice of the limit on the amount of compensation for representation in particular proceedings and the sole procedure and requirements for obtaining payment for the same.

(a) If court-appointed counsel moves to withdraw prior to the full performance of his or her duties through the completion of the case, the court shall presume that the attorney is not entitled to the payment of the full flat fee established under this section and the General Appropriations Act.

(b) If court-appointed counsel is allowed to withdraw from representation prior to the full performance of his or her duties through

the completion of the case and the court appoints a subsequent attorney, the total compensation for the initial and any and all subsequent attorneys may not exceed the flat fee established under this section and the General Appropriations Act, except as provided in subsection (12).

This subsection constitutes notice to any subsequently appointed attorney that he or she will not be compensated the full flat fee.

(12) The Legislature recognizes that on rare occasions an attorney may receive a case that requires extraordinary and unusual effort.

(a) If counsel seeks compensation that exceeds the limits prescribed by law, he or she must file a motion with the chief judge for an order approving payment of attorney fees in excess of these limits.

1. Before filing the motion, the counsel shall deliver a copy of the intended billing, together with supporting affidavits and all other necessary documentation, to the Justice Administrative Commission.

2. The Justice Administrative Commission shall review the billings, affidavit, and documentation for completeness and compliance with contractual and statutory requirements and shall contemporaneously document such review before authorizing payment to an attorney. If the Justice Administrative Commission objects to any portion of the proposed billing, the objection and supporting reasons must be communicated in writing to the private court-appointed counsel. The counsel may thereafter file his or her motion, which must specify whether the commission objects to any portion of the billing or the sufficiency of documentation, and shall attach the commission's letter stating its objection.

(b) Following receipt of the motion to exceed the fee limits, the chief judge or a single designee shall hold an evidentiary hearing. The chief judge may select only one judge per circuit to hear and determine motions pursuant to this subsection, except multicounty circuits and the eleventh circuit may have up to two designees.

1. At the hearing, the attorney seeking compensation must prove by competent and substantial evidence that the case required extraordinary and unusual efforts. The chief judge or single designee shall consider criteria such as the number of witnesses, the complexity of the factual and legal issues, and the length of trial. The fact that a trial was conducted in a case does not, by itself, constitute competent substantial evidence of an extraordinary and unusual effort. In a criminal case, relief under this section may not be granted if the number of work hours does not exceed 75 or the number of the state's witnesses deposed does not exceed 20.

2. Objections by or on behalf of the Justice Administrative Commission to records or documents or to claims for payment by the attorney shall be presumed correct by the court unless the court determines, in writing, that competent and substantial evidence exists to justify overcoming the presumption. The chief judge or single designee shall enter a written order detailing his or her findings and identifying the extraordinary nature of the time and efforts of the attorney in the case which warrant exceeding the flat fee established by this section and the General Appropriations Act.

(c) A copy of the motion and attachments shall be served on the Justice Administrative Commission at least 20 business days before the date of a hearing. The Justice Administrative Commission has standing to appear before the court, and may appear in person or telephonically, including at the hearing under paragraph (b), to contest any motion for an order approving payment of attorney fees, costs, or related expenses and may participate in a hearing on the motion by use of telephonic or other communication equipment. The Justice Administrative Commission may contract with other public or private entities or individuals to appear before the court for the purpose of contesting any motion for an order approving payment of attorney fees, costs, or related expenses. Managers on the part of the House

The Conference Committee Amendment for CS/SB 7024, relating to retirement, conforms the law to the Fiscal Year 2023-2024 General Appropriations Act (GAA) as retirement contributions are included in the GAA.

The Florida Retirement System (FRS) is a multiple-employer, contributory plan that provides retirement income benefits for employees of the state and county government agencies, district school boards, state colleges and universities, and it also serves as the retirement plan for participating employees of the cities, special districts, and independent hospitals that have elected to join the system. Members of the FRS have two plan options available for participation: the pension plan, which is a defined benefit plan, and the investment plan, which is a defined contribution plan.

Currently, the normal retirement date for members of the Special Risk class hired on or after July 1, 2011, is the earlier of 30 years of service or age 60. For members of the Special Risk class hired before July 1, 2011, the normal retirement date is the earlier of 25 years of service or age 55.

The Deferred Retirement Option Program (DROP) allows eligible members of the FRS Pension Plan to defer receipt of retirement benefits while continuing employment with his or her FRS Employer. Currently:

- Eligible members may elect to participate in DROP for a period not to exceed 60 calendar months. However, law enforcement officers and certain instructional personnel may elect to participate in DROP for a period not to exceed 96 calendar months;
- Eligible members must elect to participate in DROP within a certain eligibility window or lose the opportunity for DROP participation;
- Deferred monthly benefits accrue at an effective annual rate of 1.3 percent, compounded monthly. Prior to July 1, 2011, the annual rate applied was 6.5 percent. Upon termination of the employment, the member receives the total DROP benefits and begins to receive the previously determined normal retirement amounts.

Eligible retirees of the FRS receive a monthly health insurance subsidy. Currently the subsidy is calculated at \$5 for each year of service in the FRS, with a maximum benefit of \$150 per month and a minimum benefit \$30 per month.

The Department of Management Services (DMS) must provide an annual actuarial valuation of the FRS and report the results to the Legislature by December 31 of each year. Thereafter, the Legislature

uses the results of the actuarial valuation to establish uniform employer contribution rates during the next legislative session to ensure the FRS is funded in a sound actuarial manner.

The amendment:

- Modifies the normal retirement date for Special Risk Class members initially enrolled on or after July 1, 2011, to be the earlier of 25 years of creditable service, or age 55.
- Makes the following modification to the DROP program:
  - Eliminates the restrictive entry window for eligible members to participate in DROP, allowing for entry into DROP at any age as long as years of service or age and vesting requirements are met;
  - Extends the maximum amount of time for eligible members to participate in DROP from 60 to 96 calendar months for all classes, and from 96 to 120 calendar months for certain instructional personnel; and
  - Increases the interest rate applied to a member's accrued monthly benefit from 1.3 percent to 4 percent.
- Increases the monthly retiree health insurance subsidy from \$5 to \$7.50 for each year of service. The maximum benefit is adjusted from \$150 to \$225 per month and the minimum benefit is adjusted from \$30 to \$45 per month.
- Increases the allocations to investment plan accounts by 2 percent for each membership class in the investment plan.
- Revises the employer FRS contribution rates based on the actuarial valuation and actuarial studies.
- Declares that the act fulfills an important state interest. It provides that a proper and legitimate state purpose is served by the amendment, which includes providing benefits that are managed, administered, and funded in an actuarially sound manner.

The application of the rates will have a significant fiscal impact to funds appropriated by the Legislature associated with employee salaries and benefits. Provisions of the amendment relating to employer retirement contribution rates will increase amounts FRS Employers must pay for employee retirement benefits.

**Conference Committee Amendment (534948) (with title amendment)**—Delete everything after the enacting clause and insert:

Section 1. Paragraph (f) is added to subsection (3) of section 112.363, Florida Statutes, and paragraph (j) is added to subsection (8) of that section, to read:

112.363 Retiree health insurance subsidy.—

(3) RETIREE HEALTH INSURANCE SUBSIDY AMOUNT.—

(f)1. *Beginning July 1, 2023, each eligible retiree of the pension plan of the Florida Retirement System, or, if the retiree is deceased, his or her beneficiary who is receiving a monthly benefit from such retiree's account and who is a spouse, or a person who meets the definition of joint annuitant in s. 121.021(28), shall receive a monthly retiree health insurance subsidy payment equal to the number of years of creditable service, as defined in s. 121.021(17), completed at the time of retirement multiplied by \$7.50; however, an eligible retiree or beneficiary may not receive a subsidy payment of more than \$225 or less than \$45. If there are multiple beneficiaries, the total payment may not be greater than the payment to which the retiree was entitled. The health insurance subsidy amount payable to any person receiving the retiree health insurance subsidy payment on July 1, 2023, may not be reduced solely by operation of this subparagraph.*

2. *Beginning July 1, 2023, each eligible member of the investment plan of the Florida Retirement System who has met the requirements of this section, or, if the member is deceased, his or her spouse who is the member's designated beneficiary, shall receive a monthly retiree health insurance subsidy payment equal to the number of years of creditable service, as provided in this subparagraph, completed at the time of retirement multiplied by \$7.50; however, an eligible retiree or beneficiary may not receive a subsidy payment of more than \$225 or less than \$45. For purposes of determining a member's creditable service used to calculate the health insurance subsidy, a member's years of service credit or fraction thereof must be based on the member's work year as defined in s. 121.021(54). Credit must be awarded for a full work year if health insurance subsidy contributions have been made for each month in the*

*member's work year. In addition, all years of creditable service retained under the Florida Retirement System Pension Plan must be included as creditable service for purposes of this section. Notwithstanding this section, the spouse at the time of death is the member's beneficiary unless such member has designated a different beneficiary subsequent to the member's most recent marriage.*

(8) CONTRIBUTIONS.—For purposes of funding the insurance subsidy provided by this section:

(j) *Beginning July 1, 2023, the employer of each member of a state-administered retirement plan shall contribute 2.00 percent of gross compensation each pay period.*

Such contributions shall be submitted to the Department of Management Services and deposited in the Retiree Health Insurance Subsidy Trust Fund.

Section 2. Effective July 1, 2023, paragraph (b) of subsection (29) of section 121.021, Florida Statutes, is amended to read:

121.021 Definitions.—The following words and phrases as used in this chapter have the respective meanings set forth unless a different meaning is plainly required by the context:

The department may cancel an application for retirement benefits when the member or beneficiary fails to timely provide the information and documents required by this chapter and the department's rules. The department shall adopt rules establishing procedures for application for retirement benefits and for the cancellation of such application when the required information or documents are not received.

(3) EARLY RETIREMENT BENEFIT.—Upon retirement on his or her early retirement date, the member shall receive an immediate monthly benefit that shall begin to accrue on the first day of the month of the retirement date and be payable on the last day of that month and each month thereafter during his or her lifetime. Such benefit shall be calculated as follows:

(a) For a member initially enrolled:

Before July 1, 2011, the amount of each monthly payment shall be computed in the same manner as for a normal retirement benefit, in accordance with subsection (1), but shall be based on the member's average monthly compensation and creditable service as of the member's early retirement date. The benefit so computed shall be reduced by five-twelfths of 1 percent for each complete month by which the early retirement date precedes the normal retirement date of age 62 for a member of the Regular Class, Senior Management Service Class, or the Elected Officers' Class, and age 55 for a member of the Special Risk Class, or age 52 if a Special Risk member has completed 25 years of creditable service in accordance with s. 121.021(29)(b)3. ~~121.021(29)(b)1.e.~~

Section 8. Subsection (13) of section 121.091, Florida Statutes, is amended to read:

121.091 Benefits payable under the system.—Benefits may not be paid under this section unless the member has terminated employment as provided in s. 121.021(39)(a) or begun participation in the Deferred

Retirement Option Program as provided in subsection (13), and a proper application has been filed in the manner prescribed by the department. The department may cancel an application for retirement benefits when the member or beneficiary fails to timely provide the information and documents required by this chapter and the department's rules. The department shall adopt rules establishing procedures for application for retirement benefits and for the cancellation of such application when the required information or documents are not received.

(13) DEFERRED RETIREMENT OPTION PROGRAM.—In general, and subject to this section, the Deferred Retirement Option Program, hereinafter referred to as DROP, is a program under which an eligible member of the Florida Retirement System may elect to participate, deferring receipt of retirement benefits while continuing employment with his or her Florida Retirement System employer. The deferred monthly benefits shall accrue in the Florida Retirement System on behalf of the member, plus interest compounded monthly, for the specified period of the DROP participation, as provided in paragraph (c). Upon termination of employment, the member shall receive the total DROP benefits and begin to receive the previously determined normal retirement benefits. Participation in the DROP does not guarantee employment for the specified period of DROP. ~~Participation in DROP by an eligible member beyond the initial 60-month period as authorized in this subsection shall be on an annual contractual basis for all participants.~~

(a) *Eligibility of member to participate in DROP.*—All active Florida Retirement System members in a regularly established position, and all active members of the Teachers' Retirement System established in chapter 238 or the State and County Officers' and Employees' Retirement System established in chapter 122, which are consolidated within the Florida Retirement System under s. 121.011, are eligible to elect participation in DROP if:

1. The member is not a renewed member under s. 121.122 or a member of the State Community College System Optional Retirement Program under s. 121.051, the Senior Management Service Optional Annuity Program under s. 121.055, or the optional retirement program for the State University System under s. 121.35.

2. ~~Except as provided in subparagraph 6., for members initially enrolled before July 1, 2011, Election to participate in DROP may be made at any time within 12 months immediately following the date on which the member first reaches his or her normal retirement date, or, for a member who reaches normal retirement date based on service before he or she reaches age 62, or age 55 for Special Risk Class members, election to participate may be deferred to the 12 months immediately following the date the member attains age 57, or age 52 for Special Risk Class members. Except as provided in subparagraph 6., for members initially enrolled on or after July 1, 2011, election to participate is made within 12 months immediately following the date on which the member first reaches normal retirement date, or, for a member who reaches normal retirement date based on service before he or she reaches age 65, or age 60 for Special Risk Class members, election to participate may be deferred to the 12 months immediately following the date the member attains age 60, or age 55 for Special Risk Class members. A member who delays DROP participation during the 12-month period immediately following his or her maximum DROP deferral date, except as provided in subparagraph 6., loses a month of DROP participation for each month delayed. A member who fails to make an election within the 12-month limitation period forfeits all rights to participate in DROP. The member shall advise his or her employer and the division in writing of the date DROP begins. The beginning date may be subsequent to the 12-month election period but must be within the original 60-month participation period provided in subparagraph (b)1. When establishing eligibility to participate in DROP, the member may elect to include or exclude any optional service credit purchased by the member from the total service used to establish the normal retirement date. A member who has dual normal retirement dates is eligible to elect to participate in DROP after attaining normal retirement date in either class.~~

3. The employer of a member electing to participate in DROP, or employers if dually employed, shall acknowledge in writing to the division the date the member's participation in DROP begins and the date the member's employment and DROP participation terminates.

4. Simultaneous employment of a member by additional Florida Retirement System employers subsequent to the commencement of a member's participation in DROP is permissible if such employers acknowledge in writing a DROP termination date no later than the member's existing termination date or the maximum participation period provided in *paragraph (b) subparagraph (b)1*.

5. A member may change employers while participating in DROP, subject to the following:

a. A change of employment takes place without a break in service so that the member receives salary for each month of continuous DROP participation. If a member receives no salary during a month, DROP participation ceases unless the employer verifies a continuation of the employment relationship for such member pursuant to s. 121.021(39)(b).

b. The member and new employer notify the division of the identity of the new employer on forms required by the division.

c. The new employer acknowledges, in writing, the member's DROP termination date, which may be extended but not beyond the maximum participation period provided in *paragraph (b) subparagraph (b)1*, acknowledges liability for any additional retirement contributions and interest required if the member fails to timely terminate employment, and is subject to the adjustment required in sub-subparagraph (c)5.d.

~~6. Effective July 1, 2001, for instructional personnel as defined in s. 1012.01(2), election to participate in DROP may be made at any time following the date on which the member first reaches normal retirement date. The member shall advise his or her employer and the division in writing of the date on which DROP begins. When establishing eligibility of the member to participate in DROP for the 60-month participation period provided in subparagraph (b)1, the member may elect to include or exclude any optional service credit purchased by the member from the total service used to establish the normal retirement date. A member who has dual normal retirement dates is eligible to elect to participate in either class.~~

(b) *Participation in DROP.*—Except as provided in this paragraph, an eligible member may elect to participate in DROP for a period not to exceed a maximum of 96 ~~60~~ calendar months.

1.a. Members who are instructional personnel employed by the Florida School for the Deaf and the Blind and authorized by the Board of Trustees of the Florida School for the Deaf and the Blind, who are instructional personnel as defined in s. 1012.01(2)(a)-(d) in grades K-12 and authorized by the district school superintendent, or who are instructional personnel as defined in s. 1012.01(2)(a) employed by a developmental research school and authorized by the school's director, or if the school has no director, by the school's principal, may:

(I) *Extend DROP participation beyond the initial 96-calendar-month period if the instructional personnel's termination date is before the end of the school year. Such instructional personnel may have DROP participation extended until the last day of the last calendar month of the school year in which their original DROP termination date occurred if a date other than the last day of the last calendar month of the school year is designated.*

(II) Participate in DROP for up to 24 ~~36~~ calendar months beyond the 96-month ~~60-month~~ period. ~~Effective July 1, 2018, instructional personnel who are authorized to extend DROP participation beyond the 96-month 60-month period must have a termination date that is the last day of the last calendar month of the school year within the DROP extension granted by the employer. If, on July 1, 2018, the member's DROP participation has already been extended for the maximum 24 36 calendar months and the extension period concludes before the end of the school year, the member's DROP participation may be extended through the last day of the last calendar month of that school year. This sub-subparagraph expires June 30, 2029.~~

The employer shall notify the division of the change in termination date and the additional period of DROP participation for the affected instructional personnel.

b. Administrative personnel in grades K-12, as defined in s. 1012.01(3), ~~who have a DROP termination date on or after July 1, 2018,~~

may be authorized to extend DROP participation beyond the initial 96 ~~60~~ calendar month period if the administrative personnel's termination date is before the end of the school year. Such administrative personnel may have DROP participation extended until the last day of the last calendar month of the school year in which their original DROP termination date occurred if a date other than the last day of the last calendar month of the school year is designated. The employer shall notify the division of the change in termination date and the additional period of DROP participation for the affected administrative personnel.

~~e. Effective July 1, 2022, a member of the Special Risk Class who is a law enforcement officer who meets the criteria in s. 121.0515(3)(a) and who is a DROP participant on or after July 1, 2022, may participate in DROP for up to 36 calendar months beyond the 60-month period if he or she enters DROP on or before June 30, 2028.~~

2. Upon deciding to participate in DROP, the member shall submit, on forms required by the division:

a. A written election to participate in DROP;

b. Selection of DROP participation and termination dates that satisfy the limitations stated in paragraph (a) and *this paragraph subparagraph 1*. The termination date must be in a binding letter of resignation to the employer establishing a deferred termination date. The member may change the termination date within the limitations of *this paragraph subparagraph 1*, but only with the written approval of the employer;

c. A properly completed DROP application for service retirement as provided in this section; and

d. Any other information required by the division.

3. The DROP participant is a retiree under the Florida Retirement System for all purposes, except for paragraph (5)(f) and subsection (9) and ss. 112.3173, 112.363, 121.053, and 121.122. DROP participation is final and may not be canceled by the participant after the first payment is credited during the DROP participation period. However, participation in DROP does not alter the participant's employment status, and the member is not deemed retired from employment until his or her deferred resignation is effective and termination occurs as defined in s. 121.021.

4. Elected officers are eligible to participate in DROP subject to the following:

a. An elected officer who reaches normal retirement date during a term of office may defer the election to participate until the next succeeding term in that office. An elected officer who exercises this option may participate in DROP for up to 96 ~~60~~ calendar months or no longer than the succeeding term of office, whichever is less.

b. An elected or a nonelected participant may run for a term of office while participating in DROP and, if elected, extend the DROP termination date accordingly; however, if such additional term of office exceeds the 96-month ~~60-month~~ limitation established in *this paragraph subparagraph 1*, and the officer does not resign from office within such ~~60-month~~ limitation, the retirement and the participant's DROP is null and void as provided in sub-subparagraph (c)5.d.

c. An elected officer who is dually employed and elects to participate in DROP must terminate all employment relationships as provided in s. 121.021(39) for the nonelected position within the original ~~60-month~~ period or maximum participation period as provided in *this paragraph subparagraph 1*. For DROP participation ending:

(I) Before July 1, 2010, the officer may continue employment as an elected officer as provided in s. 121.053. The elected officer shall be enrolled as a renewed member in the Elected Officers' Class or the Regular Class, as provided in ss. 121.053 and 121.122, on the first day of the month after termination of employment in the nonelected position and termination of DROP. Distribution of the DROP benefits shall be made as provided in paragraph (c).

(II) On or after July 1, 2010, the officer may continue employment as an elected officer but must defer termination as provided in s. 121.053.

*d. An elected officer who has deferred termination as provided in s. 121.053 before June 30, 2023, is ineligible to extend DROP participation beyond 60 months.*

(c) *Benefits payable under DROP.—*

1. Effective on the date of DROP participation, the member's initial normal monthly benefit, including creditable service, optional form of payment, and average final compensation, and the effective date of retirement are fixed. The beneficiary established under the Florida Retirement System is the beneficiary eligible to receive any DROP benefits payable if the DROP participant dies before completing the period of DROP participation. If a joint annuitant predeceases the member, the member may name a beneficiary to receive accumulated DROP benefits payable. The retirement benefit, the annual cost of living adjustments provided in s. 121.101, and interest accrue monthly in the Florida Retirement System Trust Fund. For members whose DROP participation begins:

a. Before July 1, 2011, the interest accrues at an effective annual rate of 6.5 percent compounded monthly, on the prior month's accumulated ending balance, up to the month of termination or death, except as provided in s. 121.053(7).

b. On or after July 1, 2011, the interest accrues:

(I) *Through June 30, 2023, at an effective annual rate of 1.3 percent, compounded monthly, on the prior month's accumulated ending balance, up to the month of termination or death, except as provided in s. 121.053(7).*

(II) *Beginning July 1, 2023, at an effective annual rate of 4 percent, compounded monthly, on the prior month's accumulated ending balance, up to the month of termination or death, except as provided in s. 121.053(7).*

2. Each employee who elects to participate in DROP may elect to receive a lump-sum payment for accrued annual leave earned in accordance with agency policy upon beginning participation in DROP. The accumulated leave payment certified to the division upon commencement of DROP shall be included in the calculation of the member's average final compensation. The employee electing the lump-sum payment is not eligible to receive a second lump-sum payment upon termination, except to the extent the employee has earned additional annual leave which, combined with the original payment, does not exceed the maximum lump-sum payment allowed by the employing agency's policy or rules. An early lump-sum payment shall be based on the hourly wage of the employee at the time he or she begins participation in DROP. If the member elects to wait and receive a lump-sum payment upon termination of DROP and termination of employment with the employer, any accumulated leave payment made at that time may not be included in the member's retirement benefit, which was determined and fixed by law when the employee elected to participate in DROP.

3. The effective date of DROP participation and the effective date of retirement of a DROP participant shall be the first day of the month selected by the member to begin participation in DROP, provided such date is properly established, with the written confirmation of the employer, and the approval of the division, on forms required by the division.

4. Normal retirement benefits and any interest continue to accrue in DROP until the established termination date of DROP or until the member terminates employment or dies before such date, except as provided in s. 121.053(7). Although individual DROP accounts may not be established, a separate accounting of each member's accrued benefits under DROP shall be calculated and provided to the member.

5. At the conclusion of the member's participation in DROP, the division shall distribute the member's total accumulated DROP benefits, subject to the following:

a. The division shall receive verification by the member's employer or employers that the member has terminated all employment relationships as provided in s. 121.021(39).

b. The terminated DROP participant or, if deceased, the member's named beneficiary, shall elect on forms provided by the division to receive payment of the DROP benefits in accordance with one of the op-

tions listed below. If a member or beneficiary fails to elect a method of payment within 60 days after termination of DROP, the division shall pay a lump sum as provided in sub-sub-subparagraph (I).

(I) *Lump sum.—*All accrued DROP benefits, plus interest, less withholding taxes remitted to the Internal Revenue Service, shall be paid to the DROP participant or surviving beneficiary.

(II) *Direct rollover.—*All accrued DROP benefits, plus interest, shall be paid from DROP directly to the custodian of an eligible retirement plan as defined in s. 402(c)(8)(B) of the Internal Revenue Code. However, in the case of an eligible rollover distribution to the surviving spouse of a deceased member, an eligible retirement plan is an individual retirement account or an individual retirement annuity as described in s. 402(c)(9) of the Internal Revenue Code.

(III) *Partial lump sum.—*A portion of the accrued DROP benefits shall be paid to DROP participant or surviving spouse, less withholding taxes remitted to the Internal Revenue Service, and the remaining DROP benefits must be transferred directly to the custodian of an eligible retirement plan as defined in s. 402(c)(8)(B) of the Internal Revenue Code. However, in the case of an eligible rollover distribution to the surviving spouse of a deceased member, an eligible retirement plan is an individual retirement account or an individual retirement annuity as described in s. 402(c)(9) of the Internal Revenue Code. The proportions must be specified by the DROP participant or surviving beneficiary.

c. The form of payment selected by the DROP participant or surviving beneficiary must comply with the minimum distribution requirements of the Internal Revenue Code.

d. A DROP participant who fails to terminate all employment relationships as provided in s. 121.021(39) shall be deemed as not retired, and the DROP election is null and void. Florida Retirement System membership shall be reestablished retroactively to the date of the commencement of DROP, and each employer with whom the member continues employment must pay to the Florida Retirement System Trust Fund the difference between the DROP contributions paid in paragraph (i) and the contributions required for the applicable Florida Retirement System class of membership during the period the member participated in DROP, plus 6.5 percent interest compounded annually.

6. The retirement benefits of any DROP participant who terminates all employment relationships as provided in s. 121.021(39) but is re-employed in violation of the reemployment provisions of subsection (9) are suspended during those months in which the retiree is in violation. Any retiree in violation of this subparagraph and any employer that employs or appoints such person without notifying the division to suspend retirement benefits are jointly and severally liable for any benefits paid during the reemployment limitation period. The employer must have a written statement from the retiree that he or she is not retired from a state-administered retirement system. Any retirement benefits received by a retiree while employed in violation of the reemployment limitations must be repaid to the Florida Retirement System Trust Fund, and his or her retirement benefits shall remain suspended until payment is made. Benefits suspended beyond the end of the reemployment limitation period apply toward repayment of benefits received in violation of the reemployment limitation.

7. The accrued benefits of any DROP participant, and any contributions accumulated under the program, are not subject to assignment, execution, attachment, or any legal process except for qualified domestic relations court orders, income deduction orders as provided in s. 61.1301, and federal income tax levies.

8. DROP participants are not eligible for disability retirement benefits as provided in subsection (4).

(d) *Death benefits under DROP.—*

1. Upon the death of a DROP participant, the named beneficiary is entitled to apply for and receive the accrued benefits in DROP as provided in sub-subparagraph (c)5.b.

2. The normal retirement benefit accrued to DROP during the month of a participant's death is the final monthly benefit credited for such DROP participant.

3. Eligibility to participate in DROP terminates upon death of the participant. If the participant dies on or after the effective date of enrollment in DROP, but before the first monthly benefit is credited to DROP, Florida Retirement System benefits are paid in accordance with subparagraph (7)(c)1. or subparagraph 2.

4. A DROP participant’s survivors are not eligible to receive Florida Retirement System death benefits as provided in paragraph (7)(d).

(e) *Cost-of-living adjustment.*—On each July 1, the participant’s normal retirement benefit shall be increased as provided in s. 121.101.

(f) *Retiree health insurance subsidy.*—DROP participants are not eligible to apply for the retiree health insurance subsidy payments as provided in s. 112.363 until such participants have terminated employment and participation in DROP.

(g) *Renewed membership.*—DROP participants are not eligible for renewed membership in the Florida Retirement System under ss. 121.053 and 121.122 until all employment relationships are terminated as provided in s. 121.021(39).

(h) *Employment limitation after DROP participation.*—Upon termination as defined in s. 121.021, DROP participants are subject to the same reemployment limitations as other retirees. Reemployment restrictions applicable to retirees as provided in subsection (9) do not apply to DROP participants until their employment and participation in DROP are terminated.

(i) *Contributions.*—

1. All employers paying the salary of a DROP participant filling a regularly established position shall contribute 8.0 percent of such participant’s gross compensation for the period of July 1, 2002, through June 30, 2003, and the percentage of such compensation required by s. 121.71 thereafter, which shall constitute the entire employer DROP contribution with respect to such participant. Such contributions, payable to the Florida Retirement System Trust Fund in the same manner as required in s. 121.071, must be made as appropriate for each pay period and are in addition to contributions required for social security and the Retiree Health Insurance Subsidy Trust Fund. Such employer, social security, and health insurance subsidy contributions are not included in DROP.

2. The employer shall, in addition to subparagraph 1., also withhold one-half of the entire social security contribution required for the participant. Contributions for social security by each participant and each employer, in the amount required for social security coverage as provided by the federal Social Security Act, are in addition to contributions specified in subparagraph 1.

3. All employers paying the salary of a DROP participant filling a regularly established position shall contribute the percent of such participant’s gross compensation required in s. 121.071(4), which constitutes the employer’s health insurance subsidy contribution with respect to such participant. Such contributions must be deposited by the administrator in the Retiree Health Insurance Subsidy Trust Fund.

(j) *Forfeiture of retirement benefits.*—This section does not remove DROP participants from the scope of s. 8(d), Art. II of the State Constitution, s. 112.3173, and paragraph (5)(f). DROP participants who commit a specified felony offense while employed are subject to forfeiture of all retirement benefits, including DROP benefits, pursuant to those provisions of law.

(k) *Administration of program.*—The division shall adopt rules as necessary for the effective and efficient administration of this subsection. The division is not required to advise members of the federal tax consequences of an election related to the DROP but may advise members to seek independent advice.

Section 9. Effective July 1, 2023, subsection (3) of section 121.4501, Florida Statutes, is amended to read:

121.4501 Florida Retirement System Investment Plan.—

(3) RETIREMENT SERVICE CREDIT; TRANSFER OF BENEFITS.—

(a) An eligible employee who is employed in a regularly established position by a state employer on June 1, 2002; by a district school board employer on September 1, 2002; or by a local employer on December 1, 2002, and who is a member of the pension plan at the time of his or her election to participate in the investment plan shall retain all retirement service credit earned under the pension plan as credited under the system and is entitled to a deferred benefit upon termination. However, election to enroll in the investment plan terminates the active membership of the employee in the pension plan, and the service of a member in the investment plan is not creditable under the pension plan for purposes of benefit accrual but is creditable for purposes of vesting.

(b) Notwithstanding paragraph (a), an eligible employee who elects to participate in, or who defaults into, the investment plan and establishes one or more individual member accounts may elect to transfer to the investment plan a sum representing the present value of the employee’s accumulated benefit obligation under the pension plan, except as provided in paragraph (4)(b). Upon transfer, all service credit earned under the pension plan is nullified for purposes of entitlement to a future benefit under the pension plan. A member may not transfer the accumulated benefit obligation balance from the pension plan after the time period for enrolling in the investment plan has expired.

1. For purposes of this subsection, the present value of the member’s accumulated benefit obligation is based upon the member’s estimated creditable service and estimated average final compensation under the pension plan, subject to recomputation under subparagraph 2. For state employees, initial estimates shall be based upon creditable service and average final compensation as of midnight on June 30, 2002; for district school board employees, initial estimates shall be based upon creditable service and average final compensation as of midnight on September 30, 2002; and for local government employees, initial estimates shall be based upon creditable service and average final compensation as of midnight on December 31, 2002. The dates specified are the “estimate date” for these employees. The actuarial present value of the employee’s accumulated benefit obligation shall be based on the following:

a. The discount rate and other relevant actuarial assumptions used to value the Florida Retirement System Trust Fund at the time the amount to be transferred is determined, consistent with the factors provided in sub-subparagraphs b. and c.

b. A benefit commencement age, based on the member’s estimated creditable service as of the estimate date.

c. Except as provided under sub-subparagraph d., for a member initially enrolled:

(I) Before July 1, 2011, the benefit commencement age is the younger of the following, but may not be younger than the member’s age as of the estimate date:

(A) Age 62; or

(B) The age the member would attain if the member completed 30 years of service with an employer, assuming the member worked continuously from the estimate date, and disregarding any vesting requirement that would otherwise apply under the pension plan.

(II) On or after July 1, 2011, the benefit commencement age is the younger of the following, but may not be younger than the member’s age as of the estimate date:

(A) Age 65; or

(B) The age the member would attain if the member completed 33 years of service with an employer, assuming the member worked continuously from the estimate date, and disregarding any vesting requirement that would otherwise apply under the pension plan.

d. For members of the Special Risk Class and for members of the Special Risk Administrative Support Class entitled to retain the special risk normal retirement date:

~~(I) Initially enrolled before July 1, 2011, the benefit commencement age is the younger of the following, but may not be younger than the member’s age as of the estimate date:~~

~~(I)(A) Age 55; or~~

(II)(B) The age the member would attain if the member completed 25 years of service with an employer, assuming the member worked continuously from the estimate date, and disregarding any vesting requirement that would otherwise apply under the pension plan.

~~(II) Initially enrolled on or after July 1, 2011, the benefit commencement age is the younger of the following, but may not be younger than the member's age as of the estimate date:~~

~~(A) Age 60; or~~

~~(B) The age the member would attain if the member completed 30 years of service with an employer, assuming the member worked continuously from the estimate date, and disregarding any vesting requirement that would otherwise apply under the pension plan.~~

e. The calculation must disregard vesting requirements and early retirement reduction factors that would otherwise apply under the pension plan.

2. For each member who elects to transfer moneys from the pension plan to his or her account in the investment plan, the division shall recompute the amount transferred under subparagraph 1. within 60 days after the actual transfer of funds based upon the member's actual creditable service and actual final average compensation as of the initial date of participation in the investment plan. If the recomputed amount differs from the amount transferred by \$10 or more, the division shall:

a. Transfer, or cause to be transferred, from the Florida Retirement System Trust Fund to the member's account the excess, if any, of the recomputed amount over the previously transferred amount together with interest from the initial date of transfer to the date of transfer under this subparagraph, based upon the effective annual interest equal to the assumed return on the actuarial investment which was used in the most recent actuarial valuation of the system, compounded annually.

b. Transfer, or cause to be transferred, from the member's account to the Florida Retirement System Trust Fund the excess, if any, of the previously transferred amount over the recomputed amount, together with interest from the initial date of transfer to the date of transfer under this subparagraph, based upon 6 percent effective annual interest, compounded annually, pro rata based on the member's allocation plan.

3. If contribution adjustments are made as a result of employer errors or corrections, including plan corrections, following recomputation of the amount transferred under subparagraph 1., the member is entitled to the additional contributions or is responsible for returning any excess contributions resulting from the correction. However, a return of such erroneous excess pretax contribution by the plan must be made within the period allowed by the Internal Revenue Service. The present value of the member's accumulated benefit obligation may not be recalculated.

4. As directed by the member, the state board shall transfer or cause to be transferred the appropriate amounts to the designated accounts within 30 days after the effective date of the member's participation in the investment plan unless the major financial markets for securities available for a transfer are seriously disrupted by an unforeseen event that causes the suspension of trading on a national securities exchange in the country where the securities were issued. In that event, the 30-day period may be extended by a resolution of the state board. Transfers are not commissionable or subject to other fees and may be in the form of securities or cash, as determined by the state board. Such securities are valued as of the date of receipt in the member's account.

5. If the state board or the division receives notification from the United States Internal Revenue Service that this paragraph or any portion of this paragraph will cause the retirement system, or a portion thereof, to be disqualified for tax purposes under the Internal Revenue Code, the portion that will cause the disqualification does not apply. Upon such notice, the state board and the division shall notify the presiding officers of the Legislature.

Section 10. Effective July 1, 2023, subsections (4) and (5) of section 121.71, Florida Statutes, are amended to read:

Managers on the part of the House

The Conference Committee Amendment for SB 7018, relating to the state-operated inmate welfare trust fund, amends s. 945.215, F.S., to add additional funding sources from which all such proceeds must be deposited into the State-Operated Institutions Inmate Welfare Trust Fund or the General Revenue Fund. These additional funding sources include:

- Copayments made by inmates for nonemergency visits to a health care provider;
- Any proceeds obtained through the collection of damages; and
- Cost of incarceration liens.

Additionally, the amendment increases the maximum amount of funds deposited into the State-Operated Institutions Inmate Welfare Trust Fund from \$2.5 million to \$32 million.

The amendment also authorizes the Department of Corrections (DOC) to expend funds from the Trust Fund to be used at correctional facilities to include fixed capital outlays for educational facilities.

The amendment amends s. 945.215(1)(f), F.S., to eliminate the cap on the weekly amount (currently \$100) that inmates can spend on canteen and vending items. Without the cap, the weekly amount would be set by the DOC.

The amendment amends s. 945.6037, F.S., to require the proceeds of each copayment to be deposited into the State-Operated Institutions Inmate Welfare Trust Fund or into the General Revenue Fund.

The amendment reenacts ss. 944.516(5), 944.73(2), and 946.002(4)(b), F.S., relating to the disposition of unexpended trust funds, the State-Operated Institutions Inmate Welfare Trust Fund, and forfeiture of a prisoner's earned funds.

The amendment has a fiscal impact of \$29.5 million in recurring funds from the General Revenue Fund. The amendment takes effect July 1, 2023.

**Conference Committee Amendment (106726) (with title amendment)**—Delete everything after the enacting clause and insert:

Section 1. Subsection (1) and paragraphs (b) and (c) of subsection (2) of section 945.215, Florida Statutes, are amended to read:

(b) All proceeds from contracted telephone commissions must be deposited into the State-Operated Institutions Inmate Welfare Trust Fund or, as provided in paragraph (2)(b), into the General Revenue Fund. The department shall develop and update, as necessary, administrative procedures to verify that:

2. Persons who accept collect calls from inmates are charged the contracted rate; and
3. The department receives the contracted telephone commissions.

(c) Any funds that may be assigned by inmates or donated to the department by the general public or an inmate service organization must be deposited into the State-Operated Institutions Inmate Welfare Trust Fund or, as provided in paragraph (2)(b), into the General Revenue Fund; however, the department ~~may~~ shall not accept any donation from, or on behalf of, any individual inmate.

(d) All proceeds from the following sources must be deposited into the State-Operated Institutions Inmate Welfare Trust Fund or, as provided in paragraph (2)(b), into the General Revenue Fund:

4. Unexpended balances in individual inmate trust fund accounts of less than \$1;
5. *Copayments made by inmates for nonemergency visits to a health care provider pursuant to s. 945.6037;*
6. *Any proceeds obtained through the collection of damages pursuant to s. 960.293(2); and*
7. *Cost of incarceration liens pursuant to s. 960.292(2).*

(e) Items for resale at inmate canteens and vending machines maintained at the correctional facilities shall be priced comparatively with like items for retail sale at fair market prices.

(f) Notwithstanding any other provision of law, inmates with sufficient balances in their individual inmate bank trust fund accounts, after all debts against the account are satisfied, shall be allowed to request a weekly draw of up to an amount set by the Secretary of Corrections, ~~not to exceed \$100~~, to be expended for personal use on canteen and vending machine items.

(2) STATE-OPERATED INSTITUTIONS INMATE WELFARE TRUST FUND.—

(b) Deposits into the trust fund may not exceed a total of \$32 ~~\$2.5~~ million in any fiscal year. Any proceeds or funds that would cause deposits into the trust fund to exceed this limit must be deposited into the General Revenue Fund.

(c) Funds in the trust fund shall be used exclusively to provide for or operate any of the following at correctional facilities operated by the department:

(1)(a) For each nonemergency visit by an inmate to a health care provider which is initiated by the inmate, the inmate must make a copayment of \$5. A copayment may not be charged for the required initial medical history and physical examination of the inmate.

(b) The copayment for an inmate's health care must be deducted from any existing balance in the inmate's bank account. If the account balance is insufficient to cover the copayment, 50 percent of each deposit to the account must be withheld until the total amount owed has been paid.

(c) The proceeds of each copayment must be deposited *into the State-Operated Institutions Inmate Welfare Trust Fund pursuant to s. 945.215(1)(d) or into the General Revenue Fund as provided in s. 945.215(2)(b).*

(d) The department may waive all or part of the copayment for an inmate's visit to a health care provider if the health care:

1. Is provided in connection with an extraordinary event that could not reasonably be foreseen, such as a disturbance or a natural disaster;
2. Is an institutionwide health care measure that is necessary to address the spread of specific infectious or contagious diseases;

In carrying out the provisions of this section, the department may delegate any of its enumerated powers and duties affecting inmates of an institution to the warden or regional director who shall personally, or through designated employees of his or her personal staff under his or her direct supervision, exercise such powers or perform such duties.

(5) When an inmate is transferred between department facilities, is released from the custody of the department, dies, or escapes during incarceration, and the inmate has an unexpended inmate trust fund account balance of less than \$1, that balance shall be transferred to the State-Operated Institutions Inmate Welfare Trust Fund or, as provided in s. 945.215(2)(b), into the General Revenue Fund.

- Creates the Graduate Medical Education Slots for Doctors Program.
- Provides for a portion of the Statewide Medicaid Managed Care achieved savings rebate to be repaid to the federal government.
- Establishes a Medicaid long-term care managed care pilot program in certain counties to integrate health care services, long-term care services, and home and community-based services for persons with developmental disabilities; requires the Agency for Health Care Administration to seek federal approval to implement the pilot program; and requires the plans to begin providing service coverage upon authorization and availability of sufficient state and federal resources.
- Clarifies that the Agency for Health Care Administration may not require a home health agency that does not provide skilled home health services and only provides private duty nursing services and attendant nursing care services, to meet the requirements of Medicare certification for participation in the Medicaid program.

The amendment takes effect on July 1, 2023, except as otherwise expressly provided for in the bill.

**Conference Committee Amendment (311896) (with title amendment)**—Delete everything after the enacting clause and insert:

Section 1. Subsection (1) of section 296.37, Florida Statutes, is amended to read:

The total amount of such contributions shall be to the fullest extent possible but may not exceed the actual cost of operating and maintaining the home.

Section 2. Subsection (7) of section 409.814, Florida Statutes, is amended to read:

409.814 Eligibility.—A child who has not reached 19 years of age whose family income is equal to or below 200 percent of the federal poverty level is eligible for the Florida Kidcare program as provided in this section. If an enrolled individual is determined to be ineligible for coverage, he or she must be immediately disenrolled from the respective Florida Kidcare program component.

(7) A child whose family income is above 200 percent of the federal poverty level or a child who is excluded under ~~the provisions of~~ subsection (5) may participate in the Florida Kidcare program as provided in s. 409.8132 or, if the child is ineligible for Medikids by reason of age, in the Florida Healthy Kids program, subject to the following:

(a) The family is not eligible for premium assistance payments and must pay the full cost of the *combined-risk* premium, including any administrative costs.

(b) The board of directors of the Florida Healthy Kids Corporation may offer a reduced benefit package to these children in order to limit program costs for such families.

Section 3. Paragraph (b) of subsection (2) of section 409.908, Florida Statutes, is amended to read:

409.908 Reimbursement of Medicaid providers.—Subject to specific appropriations, the agency shall reimburse Medicaid providers, in accordance with state and federal law, according to methodologies set forth in the rules of the agency and in policy manuals and handbooks incorporated by reference therein. These methodologies may include fee schedules, reimbursement methods based on cost reporting, negotiated fees, competitive bidding pursuant to s. 287.057, and other mechanisms the agency considers efficient and effective for purchasing services or goods on behalf of recipients. If a provider is reimbursed based on cost reporting and submits a cost report late and that cost report would have been used to set a lower reimbursement rate for a rate semester, then the provider's rate for that semester shall be retroactively calculated using the new cost report, and full payment at the recalculated rate shall be effected retroactively. Medicare-granted extensions for filing cost reports, if applicable, shall also apply to Medicaid cost reports. Payment for Medicaid compensable services made on behalf of Medicaid-eligible persons is subject to the availability of moneys and any limitations or directions provided for in the General Appropriations Act or chapter 216. Further, nothing in this section shall be construed to prevent or limit the agency from adjusting fees, reimbursement rates, lengths of stay, number of visits, or number of services, or making any other adjustments necessary to comply with the availability of moneys and any limitations or directions provided for in the General Appropriations Act, provided the adjustment is consistent with legislative intent.

(2)

(b) Subject to any limitations or directions in the General Appropriations Act, the agency shall establish and implement a state Title XIX Long-Term Care Reimbursement Plan for nursing home care in order to provide care and services in conformance with the applicable state and federal laws, rules, regulations, and quality and safety standards and to ensure that individuals eligible for medical assistance have reasonable geographic access to such care.

1. The agency shall amend the long-term care reimbursement plan and cost reporting system to create direct care and indirect care subcomponents of the patient care component of the per diem rate. These two subcomponents together shall equal the patient care component of the per diem rate. Separate prices shall be calculated for each patient care subcomponent, initially based on the September 2016 rate setting cost reports and subsequently based on the most recently audited cost report used during a rebasing year. The direct care subcomponent of the per diem rate for any providers still being reimbursed on a cost basis shall be limited by the cost-based class ceiling, and the indirect care subcomponent may be limited by the lower of the cost-based class ceiling, the target rate class ceiling, or the individual provider target. The ceilings and targets apply only to providers being reimbursed on a cost-based system. Effective October 1, 2018, a prospective payment methodology shall be implemented for rate setting purposes with the following parameters:

a. Peer Groups, including:

(I) North-SMMC Regions 1-9, less Palm Beach and Okeechobee Counties; and

(II) South-SMMC Regions 10-11, plus Palm Beach and Okeechobee Counties.

b. Percentage of Median Costs based on the cost reports used for September 2016 rate setting:

(I) Direct Care Costs . . . . . 100 percent.

(II) Indirect Care Costs . . . . . 92 percent.

(III) Operating Costs . . . . . 86 percent.

c. Floors:

(I) Direct Care Component . . . . . 95 percent.

(II) Indirect Care Component . . . . . 92.5 percent.

(III) Operating Component . . . . . None.

d. Pass-through Payments. Real Estate and Personal Property Taxes and Property Insurance.

e. Quality Incentive Program Payment Pool 10 6 percent of September 2016 non-property related payments of included facilities.

f. Quality Score Threshold to Quality for Quality Incentive Payment . . . . . 20th percentile of included facilities.

g. Fair Rental Value System Payment Parameters:

(I) Building Value per Square Foot based on 2018 RS Means.

(II) Land Valuation . . . . . 10 percent of Gross Building value.

(III) Facility Square Footage . . . . . Actual Square Footage.

(IV) Moveable Equipment Allowance . . . . . \$8,000 per bed.

(V) Obsolescence Factor . . . . . 1.5 percent.

(VI) Fair Rental Rate of Return . . . . . 8 percent.

(VII) Minimum Occupancy . . . . . 90 percent.

(VIII) Maximum Facility Age . . . . . 40 years.

(IX) Minimum Square Footage per Bed . . . . . 350.

(X) Maximum Square Footage for Bed . . . . . 500.

(XI) Minimum Cost of a renovation/replacements . . . \$500 per bed.

h. Ventilator Supplemental payment of \$200 per Medicaid day of 40,000 ventilator Medicaid days per fiscal year.

2. The direct care subcomponent shall include salaries and benefits of direct care staff providing nursing services including registered nurses, licensed practical nurses, and certified nursing assistants who deliver care directly to residents in the nursing home facility, allowable therapy costs, and dietary costs. This excludes nursing administration, staff development, the staffing coordinator, and the administrative portion of the minimum data set and care plan coordinators. The direct care subcomponent also includes medically necessary dental care, vision care, hearing care, and podiatric care.

3. All other patient care costs shall be included in the indirect care cost subcomponent of the patient care per diem rate, including complex medical equipment, medical supplies, and other allowable ancillary costs. Costs may not be allocated directly or indirectly to the direct care subcomponent from a home office or management company.

4. On July 1 of each year, the agency shall report to the Legislature direct and indirect care costs, including average direct and indirect care costs per resident per facility and direct care and indirect care salaries and benefits per category of staff member per facility.

5. Every fourth year, the agency shall rebase nursing home prospective payment rates to reflect changes in cost based on the most recently audited cost report for each participating provider.

6. A direct care supplemental payment may be made to providers whose direct care hours per patient day are above the 80th percentile and who provide Medicaid services to a larger percentage of Medicaid patients than the state average.

7. For the period beginning on October 1, 2018, and ending on September 30, 2021, the agency shall reimburse providers the greater of their September 2016 cost-based rate or their prospective payment rate. Effective October 1, 2021, the agency shall reimburse providers the greater of 95 percent of their cost-based rate or their rebased prospective payment rate, using the most recently audited cost report for each facility. This subparagraph shall expire September 30, 2023.

8. Pediatric, Florida Department of Veterans Affairs, and government-owned facilities are exempt from the pricing model established in this subsection and shall remain on a cost-based prospective payment system. Effective October 1, 2018, the agency shall set rates for all facilities remaining on a cost-based prospective payment system using each facility's most recently audited cost report, eliminating retroactive settlements.

It is the intent of the Legislature that the reimbursement plan achieve the goal of providing access to health care for nursing home residents who require large amounts of care while encouraging diversion services as an alternative to nursing home care for residents who can be served within the community. The agency shall base the establishment of any maximum rate of payment, whether overall or component, on the available moneys as provided for in the General Appropriations Act. The agency may base the maximum rate of payment on the results of scientifically valid analysis and conclusions derived from objective statistical data pertinent to the particular maximum rate of payment. The agency shall base the rates of payments in accordance with the minimum wage requirements as provided in the General Appropriations Act.

Section 4. Present subsections (6) and (7) of section 409.909, Florida Statutes, are redesignated as subsections (7) and (8), respectively, a new subsection (6) is added to that section, and subsection (5) of that section is amended, to read:

This nonrecurring allocation shall be in addition to the funds allocated in subsection (4). Notwithstanding subsection (4), the allocation under this subsection may not exceed \$100,000 per FTE resident.

(c) For purposes of this subsection, physician specialties and subspecialties, both adult and pediatric, in statewide supply-and-demand deficit are those identified in the General Appropriations Act.

(a) *Notwithstanding subsection (4), the agency shall annually allocate \$100,000 to hospitals and qualifying institutions for each newly created resident position that is first filled on or after June 1, 2023, and filled thereafter, and that is accredited by the Accreditation Council for Graduate Medical Education or the Osteopathic Postdoctoral Training Institution in an initial or established accredited training program which is in a physician specialty or subspecialty in a statewide supply-and-demand deficit.*

(b) *This program is designed to generate matching funds under Medicaid and distribute such funds to participating hospitals and qualifying institutions on a quarterly basis in each fiscal year for which an appropriation is made. Resident positions created under this subsection are not eligible for concurrent funding pursuant to subsection (1).*

(c) *For purposes of this subsection, physician specialties and subspecialties, both adult and pediatric, in statewide supply-and-demand deficit are those identified as such in the General Appropriations Act.*

(d) *Funds allocated pursuant to this subsection may not be used for resident positions that have previously received funding pursuant to subsection (1).*

1. One hundred percent of income up to and including 5 percent of revenue shall be retained by the plan.

2. Fifty percent of income above 5 percent and up to 10 percent shall be retained by the plan, and the other 50 percent shall be refunded to the state and *adjusted for the Federal Medical Assistance Percentages. The FSCA is exempted from preparing a lump-sum plan to implement the special categories, program categories, or lump-sum appropriations. - Modify the funding model for ESE programs to clarify that the ESE program formula applies only to students using a matrix of services in support levels IV and V.
- Codify the small district ESE guaranteed allocation to provide an additional value per full-time equivalent student membership to school districts with a full-time equivalent student membership of fewer than 10,000 and fewer than three full-time equivalent students in ESE support levels IV and V.
- Remove the sparsity supplement and instead establishes a small district factor to provide an additional value per full-time equivalent student membership to each school district with a full-time equivalent student membership of fewer than 20,000 full-time equivalent students that is in a fiscally constrained county.
- Rename the district cost differential as the comparable wage factor (CWF) and modifies its application by authorizing the use of

the CWF in the calculation of the base FEFP funding only when a school district's CWF is greater than 1.000. The act also authorizes the application of the modified adjustment to any categorical provided in the FEFP that has a calculation methodology that includes the CWF.

- Create the state-funded discretionary contribution to fund the nonvoted discretionary millage for operations for lab schools and the Florida Virtual School and incorporates the funding formula from s. 1002.32, F.S., for lab schools, and s. 1002.37, F.S., for the Florida Virtual School.
- Create the educational enrichment allocation, which incorporates a formula for a modified supplemental academic instruction categorical and the eligible uses of the turnaround school categorical.
- Amend the ESE guaranteed allocation to require the allocation to be the greater of either the school district's prior year ESE guaranteed allocation funds per eligible full-time equivalent student or the ESE guaranteed allocation factor as specified in the General Appropriations Act multiplied by the school district's total number of eligible full-time equivalent students. The allocation must be recalculated during the fiscal year and prorated to the level of the appropriation based on each school district's share of the total recalculated allocation amount.
- Shift requirements for the evidence-based reading instruction allocation to s. 1003.4201, F.S., which is created within the act.
- Authorize funds from the supplemental allocation for juvenile justice education programs to be used to pay for the high school equivalency examination fees for specified juvenile justice students, industry credentialing testing fees, and the costs associated with enrollment in career and technical education courses that lead to industry-recognized certifications.

- Transfer to s. 1006.041, F.S., which is created by the act, the requirements for district mental health assistance plans.
- Amend the teacher salary increase allocation to:
  - Rename the allocation as the classroom teacher and other instructional personnel salary increase.
  - Provide flexibility for school districts and charter schools on their use of funds for salary increases for instructional personnel once the minimum base salary requirements have been met.
  - Remove school district and DOE reporting requirements.
- Establish a state-funded discretionary supplement to fund the nonvoted discretionary millage for operations for students awarded a Family Empowerment Scholarship that is similar to the discretionary contribution for lab schools and the Florida Virtual School.
- Amend current requirements for district school boards to transfer funds between categorical to allow district school boards to transfer funds from any of the categorical programs to the appropriate account for expenditure, subject to conditions and reporting to the Department of Education.
- Create the educational enrollment stabilization program to authorize the Legislature to appropriate funds to the Department of Education to ensure that, based on each recalculation of the FEFP, a school district's funds per unweighted full-time equivalent student are not less than the greater of either the school district's funds per unweighted full-time equivalent student as appropriated in the General Appropriations Act or the school district's funds per unweighted full-time equivalent student as recalculated based on the certified taxable value for school purposes pursuant to s. 1011.62(4), F.S.
- Remove the requirement that calculations required in the FEFP be based on 95 percent of the taxable value for school purposes for fiscal years prior to the 2010-2011 fiscal year.

Paragraph (e) of subsection (1) of section 1011.62, Florida Statutes, is redesignated as paragraph (d), present paragraphs (c) through (f) and (s) of subsection (1) and subsections (2), (3), (5) through (9), and (11) through (17) are amended, and new paragraphs (e) and (f) are added to subsection (1) and new subsections (6) through (8) and (16) through (18) are added to that section, to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(1) COMPUTATION OF THE BASIC AMOUNT TO BE INCLUDED FOR OPERATION.—The following procedure shall be followed in determining the annual allocation to each district for operation:

(c) Determination of programs.—Cost factors based on desired relative cost differences between the following programs shall be established in the annual General Appropriations Act. The cost factor for secondary career education programs *must be greater than the cost factor for* ~~and~~ basic programs grade 9 through 12 ~~shall be equal~~. The Commissioner of Education shall specify a matrix of services and intensity levels to be used by districts in the determination of the two weighted cost factors for exceptional students with the highest levels of need. For these students, the funding support level shall fund the exceptional students' education program, with the exception of extended school year services for students with disabilities.

1. Basic programs.—
  - a. Kindergarten and grades 1, 2, and 3.
  - b. Grades 4, 5, 6, 7, and 8.
  - c. Grades 9, 10, 11, and 12.
2. Programs for exceptional students.—
  - a. Support Level IV.
  - b. Support Level V.
3. Secondary career education programs.
4. English for Speakers of Other Languages.

~~(d) Annual allocation calculation.—~~

~~1. The Department of Education is authorized and directed to review all district programs and enrollment projections and calculate a maximum total weighted full-time equivalent student enrollment for each district for the K-12 FEFP.~~

~~2. Maximum enrollments calculated by the department shall be derived from enrollment estimates used by the Legislature to calculate the FEFP. If two or more districts enter into an agreement under the provisions of s. 1001.42(4)(d), after the final enrollment estimate is agreed upon, the amount of FTE specified in the agreement, not to exceed the estimate for the specific program as identified in paragraph (c), may be transferred from the participating districts to the district providing the program.~~

~~3. As part of its calculation of each district's maximum total weighted full-time equivalent student enrollment, the department shall establish separate enrollment ceilings for each of two program groups. Group 1 shall be composed of basic programs for grades K-3, grades 4-8, and grades 9-12. Group 2 shall be composed of students in exceptional student education programs support levels IV and V, English for Speakers of Other Languages programs, and all career programs in grades 9-12.~~

~~a. For any calculation of the FEEP, the enrollment ceiling for group 1 shall be calculated by multiplying the actual enrollment for each program in the program group by its appropriate program weight.~~

~~b. The weighted enrollment ceiling for group 2 programs shall be calculated by multiplying the enrollment for each program by the appropriate program weight as provided in the General Appropriations Act. The weighted enrollment ceiling for program group 2 shall be the sum of the weighted enrollment ceilings for each program in the program group, plus the increase in weighted full-time equivalent student membership from the prior year for clients of the Department of Children and Families and the Department of Juvenile Justice.~~

~~c. If, for any calculation of the FEEP, the weighted enrollment for program group 2, derived by multiplying actual enrollments by appropriate program weights, exceeds the enrollment ceiling for that group, the following procedure shall be followed to reduce the weighted enrollment for that group to equal the enrollment ceiling:~~

~~(I) The weighted enrollment ceiling for each program in the program group shall be subtracted from the weighted enrollment for that program derived from actual enrollments.~~

~~(II) If the difference calculated under sub-sub-paragraph (I) is greater than zero for any program, a reduction proportion shall be computed for the program by dividing the absolute value of the difference by the total amount by which the weighted enrollment for the program group exceeds the weighted enrollment ceiling for the program group.~~

~~(III) The reduction proportion calculated under sub-sub-paragraph (II) shall be multiplied by the total amount of the program group's enrollment over the ceiling as calculated under sub-sub-paragraph (I).~~

~~(IV) The prorated reduction amount calculated under sub-sub-paragraph (III) shall be subtracted from the program's weighted enrollment to produce a revised program weighted enrollment.~~

~~(V) The prorated reduction amount calculated under sub-sub-paragraph (III) shall be divided by the appropriate program weight, and the result shall be added to the revised program weighted enrollment computed in sub-sub-paragraph (IV).~~

~~(d)(e) Funding model for exceptional student education programs.—The funding model for exceptional student education programs shall include all of the following:~~

~~1.1.a. For programs for exceptional students in The funding model uses basic, at risk, support levels IV and V as established in paragraph (c), the funding model shall include program for exceptional students and career Florida Education Finance Program cost factors, and a guaranteed allocation for exceptional student education programs.~~

~~a. Exceptional education cost factors are determined by using a matrix of services to document the services that each support level IV and support level V exceptional student will receive. The nature and intensity of the services indicated on the matrix shall be consistent with the services described in each exceptional student's individual educational plan. The Department of Education shall review and revise the descriptions of the services and supports included in the matrix of services for exceptional students and shall implement those revisions before the beginning of the 2012-2013 school year.~~

~~b. In order to generate funds using one of the two weighted cost factors, a matrix of services must be completed at the time of the student's initial placement into an exceptional student education program and at least once every 3 years by personnel who have received approved training. Nothing listed in the matrix shall be construed as limiting the services a school district must provide in order to ensure~~

that exceptional students are provided a free, appropriate public education.

~~e.—Students identified as exceptional, in accordance with chapter 6A-6, Florida Administrative Code, who do not have a matrix of services as specified in sub-subparagraph b. shall generate funds on the basis of full-time equivalent student membership in the Florida Education Finance Program at the same funding level per student as provided for basic students. Additional funds for these exceptional students will be provided through the guaranteed allocation designated in sub-paragraph 2.~~

~~2. For students identified as exceptional in accordance with chapter 6A-6, Florida Administrative Code, who do not have a matrix of services as specified in subparagraph 1. and for students who are gifted in grades kindergarten K through 8, the funding model shall include the funds generated on the basis of full-time equivalent student membership in the Florida Education Finance Program at the same funding level per student as provided for a basic student and additional funds provided by the exceptional student education guaranteed allocation established pursuant to subsection (8).~~

~~(e) Calculation of additional full-time equivalent membership for small school district exceptional student education.—An additional value per full-time equivalent student membership is provided to school districts with a full-time equivalent student membership of fewer than 10,000 and fewer than three full-time equivalent students in exceptional student education support levels IV and V. The Department of Education shall set the amount of the additional value based on documented evidence of the difference between the cost of the school district's exceptional student education support levels IV and V services and the applicable Florida Education Finance Program funds appropriated in the General Appropriations Act. The total statewide value may not exceed a value per weighted full-time equivalent student as specified in the General Appropriations Act. The additional value for an eligible school district shall not exceed three full-time equivalent students for each of the exceptional student education support levels IV and V there is created a guaranteed allocation to provide these students with a free appropriate public education, in accordance with s. 1001.42(4)(l) and rules of the State Board of Education, which shall be allocated initially to each school district in the amount provided in the General Appropriations Act. These funds shall be supplemental to the funds appropriated for the basic funding level, and the amount allocated for each school district shall be recalculated during the year, based on actual student membership from FTE surveys. Upon recalculation, if the generated allocation is greater than the amount provided in the General Appropriations Act, the total shall be prorated to the level of the appropriation based on each district's share of the total recalculated amount. These funds shall be used to provide special education and related services for exceptional students and students who are gifted in grades K through 8. A district's expenditure of funds from the guaranteed allocation for students in grades 9 through 12 who are gifted may not be greater than the amount expended during the 2006-2007 fiscal year for gifted students in grades 9 through 12.~~

~~(f) Small district factor.—An additional value per full-time equivalent student membership is provided to each school district with a full-time equivalent student membership of fewer than 20,000 full-time equivalent students which is in a fiscally constrained county as described in s. 218.67(1). The amount of the additional value shall be specified in the General Appropriations Act.~~

~~(f) Supplemental academic instruction allocation.—~~

~~1. There is created the supplemental academic instruction allocation to provide supplemental academic instruction to students in kindergarten through grade 12.~~

~~2. The supplemental academic instruction allocation shall be provided annually in the Florida Education Finance Program as specified in the General Appropriations Act. These funds are in addition to the funds appropriated on the basis of FTE student membership in the Florida Education Finance Program and shall be included in the total potential funds of each district. Beginning with the 2018-2019 fiscal year, each school district that has a school earning a grade of "D" or "F" pursuant to s. 1008.34 must use that school's portion of the supplemental academic instruction allocation to implement intervention and support strategies for school improvement pursuant to s. 1008.33 and~~

for salary incentives pursuant to s. 1012.2315(3) or salary supplements pursuant to s. 1012.22(1)(c)5.c. that are provided through a memorandum of understanding between the collective bargaining agent and the school board that addresses the selection, placement, and expectations of instructional personnel and school administrators. For all other schools, the school district's use of the supplemental academic instruction allocation may include, but is not limited to, the use of a modified curriculum; reading instruction; after school instruction; tutoring; mentoring; a reduction in class size; extended school year; intensive skills development in summer school; dropout prevention programs as defined in ss. 1003.52 and 1003.53(1)(a), (b), and (c); and other methods of improving student achievement. Supplemental academic instruction may be provided to a student in any manner and at any time during or beyond the regular 180 day term identified by the school as being the most effective and efficient way to best help that student progress from grade to grade and to graduate.

3. The supplemental academic instruction allocation shall consist of a base amount that has a workload adjustment based on changes in unweighted FTE. The supplemental academic instruction allocation shall be recalculated during the fiscal year. Upon recalculation of funding for the supplemental academic instruction allocation, if the total allocation is greater than the amount provided in the General Appropriations Act, the allocation shall be prorated to the level provided to support the appropriation, based on each district's share of the total.

4. Funding on the basis of FTE membership beyond the 180 day regular term shall be provided in the FEFP only for students enrolled in juvenile justice education programs or in education programs for juveniles placed in secure facilities or programs under s. 985.19. Funding for instruction beyond the regular 180 day school year for all other K-12 students shall be provided through the supplemental academic instruction allocation and other state, federal, and local fund sources with ample flexibility for schools to provide supplemental instruction to assist students in progressing from grade to grade and graduating.

(s) Determination of the basic amount for current operation.—The basic amount for current operation to be included in the Florida Education Finance Program for kindergarten through grade 12 for each district shall be the product of the following:

1. The full-time equivalent student membership in each program, multiplied by
2. The cost factor for each program, adjusted for the maximum as provided by paragraph (c), multiplied by
3. The comparable wage factor ~~district cost differential~~, multiplied by
4. *The small district factor, and multiplied by*
- 5.4- The base student allocation.

(2) DETERMINATION OF COMPARABLE WAGE FACTOR ~~DISTRICT COST DIFFERENTIALS~~.—

(a) The Commissioner of Education shall annually compute for each district the current year's comparable wage factor ~~district cost differential~~. The comparable wage factor ~~district cost differential~~ shall be calculated by adding each district's price level index as published in the Florida Price Level Index for the most recent 3 years and dividing the resulting sum by 3. The result for each district shall be multiplied by 0.008 and to the resulting product shall be added 0.200; the sum thus obtained shall be the comparable wage factor ~~cost differential~~ for that district for that year.

(b) *The comparable wage factor for each school district is used in the calculation of the basic amount for current operation pursuant to subsection (1) if the comparable wage factor is greater than 1.000.*

(c) *The limitation authorized in paragraph (b) applies to any categorical funding provided in the Florida Education Finance Program that has a calculation methodology that includes the comparable wage factor.*

(3) INSERVICE EDUCATIONAL PERSONNEL TRAINING EXPENDITURE.—Of the amount computed in subsection (1) ~~subsections (1) and (2)~~, a percentage of the basic amount for current operation base

student allocation per full-time equivalent student or other funds shall be expended for educational training programs as determined by the district school board as provided in s. 1012.98.

(5) DISCRETIONARY MILLAGE COMPRESSION SUPPLEMENT.—The Legislature shall prescribe in the General Appropriations Act, pursuant to s. 1011.71(1), the rate of nonvoted current operating discretionary millage that shall be used to calculate a discretionary millage compression supplement. If the prescribed millage generates an amount of funds per unweighted *full-time equivalent student FTE* for the district that is less than the state average, the district shall receive an amount per *full-time equivalent student FTE* that, when added to the funds per *full-time equivalent student FTE* generated by the designated levy, shall equal the state average.

(6) STATE-FUNDED DISCRETIONARY CONTRIBUTION.—*The state-funded discretionary contribution is created to fund the nonvoted discretionary millage for operations pursuant to s. 1011.71(1) and (3) for developmental research schools (lab schools) established in s. 1002.32 and the Florida Virtual School established in s. 1002.37.*

(a) *To calculate the state-funded discretionary contribution for lab schools, multiply the maximum allowable nonvoted discretionary millage for operations pursuant to s. 1011.71(1) and (3) by the value of 96 percent of the current year's taxable value for school purposes for the school district in which the lab school is located; divide the result by the total full-time equivalent membership of the school district; and multiply the result by the full-time equivalent membership of the lab school. The amount obtained shall be appropriated in the General Appropriations Act to the Lab School Trust Fund established pursuant to s. 1002.32(9).*

(b) *To calculate the state-funded discretionary contribution for the Florida Virtual School, multiply the maximum allowable nonvoted discretionary millage for operations pursuant to s. 1011.71(1) and (3) by the value of 96 percent of the current year's taxable value for school purposes for the state; divide the result by the total full-time equivalent membership of the state; and multiply the result by the full-time equivalent membership of the Florida Virtual School.*

(7) EDUCATIONAL ENRICHMENT ALLOCATION.—

(a) *The educational enrichment allocation is created to assist school districts in providing educational enrichment activities and services that support and increase the academic achievement of students in grades kindergarten through 12. Educational enrichment activities and services may be provided in a manner and at any time during or beyond the regular 180-day term identified by the school district as being the most effective and efficient way to best help the student progress from grade to grade and graduate from high school. For fiscal year 2023-2024, the educational enrichment allocation shall consist of a base amount as specified in the General Appropriations Act. Beginning in fiscal year 2024-2025, the educational enrichment allocation shall consist of the base amount that includes a workload adjustment based on changes in the unweighted full-time equivalent membership.*

(b) *For district-managed turnaround schools as identified in s. 1008.33(4)(a), schools that earn three consecutive grades below a "C," as identified in s. 1008.33(4)(b)3., and schools that have improved to a "C" and are no longer in turnaround status, as identified in s. 1008.33(4)(c), a supplemental amount shall be added to their educational enrichment allocation for purposes of implementing the intervention and support strategies identified in the turnaround plan submitted pursuant to s. 1008.33.*

1. *The supplemental amount shall be based on the unweighted full-time equivalent student enrollment at the eligible schools and a per full-time equivalent funding amount of \$500 or as provided in the General Appropriations Act.*

2. *Services funded by the allocation may include, but are not limited to, tutorial and afterschool programs, student counseling, nutrition education, parental counseling, and an extended school day and school year. In addition, services may include models that develop a culture that encourages students to complete high school and to attend college or career training, set high academic expectations, and inspire character development.*

3. A school district may enter into a formal agreement with a non-profit organization that has tax-exempt status under s. 501(c)(3) of the Internal Revenue Code to implement an integrated student support service model that provides students and families with access to wrap-around services, including, but not limited to, health services, after-school programs, drug prevention programs, college and career readiness programs, and food and clothing banks.

(c) The educational enrichment allocation, to include the supplemental amount, shall be recalculated during the fiscal year pursuant to paragraph (1)(a). If the recalculated amount is greater than the amount provided in the General Appropriations Act, the allocation shall be prorated to the level provided to support the appropriation, based on each school district's proportionate share of the total allocation.

(d) Funding on the basis of full-time equivalent membership beyond the 180-day regular term shall be provided in the Florida Education Finance Program only for students enrolled in juvenile justice education programs or in education programs for juveniles placed in secure facilities or programs pursuant to s. 985.19. Funding for instruction beyond the regular 180-day school year for all other kindergarten through grade 12 students shall be provided through the educational enrichment allocation and other state, federal, and local funding sources with flexibility for schools to provide educational enrichment activities and services to assist students in grades kindergarten through 12.

(8) **EXCEPTIONAL STUDENT EDUCATION GUARANTEED ALLOCATION.**—The exceptional student education guaranteed allocation is created to fund the additional costs of programs for exceptional students specified in subparagraph (1)(d)2. and shall be supplemental to the funds appropriated in the Florida Education Finance Program for the basic student funding level.

(a) The amount of each school district's exceptional student education guaranteed allocation shall be the greater of either the school district's prior year exceptional student education guaranteed allocation funds per eligible full-time equivalent student or the exceptional student education guaranteed allocation factor as specified in the General Appropriations Act multiplied by the school district's total number of eligible full-time equivalent students.

(b) The exceptional student education guaranteed allocation shall be recalculated during the fiscal year based on actual full-time equivalent student membership. If the recalculated amount is greater than the amount provided in the General Appropriations Act, the total shall be prorated to the level of the appropriation based on each school district's share of the total recalculated allocation amount.

(6) **CATEGORICAL FUNDS.**—

(a) In addition to the basic amount for current operations for the FEFP as determined in subsection (1), the Legislature may appropriate categorical funding for specified programs, activities, or purposes.

(b) If a district school board finds and declares in a resolution adopted at a regular meeting of the school board that the funds received for any of the following categorical appropriations are urgently needed to maintain school board specified academic classroom instruction or improve school safety, the school board may consider and approve an amendment to the school district operating budget transferring the identified amount of the categorical funds to the appropriate account for expenditure:

1. Funds for student transportation.
2. Funds for instructional materials if all instructional material purchases necessary to provide updated materials that are aligned with applicable state standards and course descriptions and that meet statutory requirements of content and learning have been completed for that fiscal year, but no sooner than March 1. Funds available after March 1 may be used to purchase computers and device hardware for student instruction that comply with the requirements of s. 1001.20(4)(a)1.b.
3. Funds for the guaranteed allocation as provided in subparagraph (1)(e)2.
4. Funds for the supplemental academic instruction allocation as provided in paragraph (1)(f).

~~5. Funds for the federally connected student supplement as provided in subsection (10).~~

~~6. Funds for class size reduction as provided in s. 1011.685.~~

~~(e) Each district school board shall include in its annual financial report to the Department of Education the amount of funds the school board transferred from each of the categorical funds identified in this subsection and the specific academic classroom instruction or school safety need for which the transferred funds were expended. The Department of Education shall provide instructions and specify the format to be used in submitting this required information as a part of the district annual financial report. The Department of Education shall submit a report to the Legislature that identifies by district and by categorical fund the amount transferred and the specific academic classroom activity or school safety need for which the funds were expended.~~

~~(7) DETERMINATION OF SPARSITY SUPPLEMENT.~~—

~~(a) Annually, in an amount to be determined by the Legislature through the General Appropriations Act, there shall be added to the basic amount for current operation of the FEFP qualified districts a sparsity supplement which shall be computed as follows:~~

$$\text{Sparsity Factor} = \frac{1101.8918}{2700 + \text{districts sparsity index}} - 0.1101$$

~~except that districts with a sparsity index of 1,000 or less shall be computed as having a sparsity index of 1,000, and districts having a sparsity index of 7,308 and above shall be computed as having a sparsity factor of zero. A qualified district's full time equivalent student membership shall equal or be less than that prescribed annually by the Legislature in the appropriations act. The amount prescribed annually by the Legislature shall be no less than 17,000, but no more than 30,000.~~

~~(b) The district sparsity index shall be computed by dividing the total number of full time equivalent students in all programs in the district by the number of senior high school centers in the district, not in excess of three, which centers are approved as permanent centers by a survey made by the Department of Education. For districts with a full time equivalent student membership of at least 20,000, but no more than 30,000, the index shall be computed by dividing the total number of full time equivalent students in all programs by the number of permanent senior high school centers in the district, not in excess of four.~~

~~(c) If the sparsity supplement calculated in paragraphs (a) and (b) for an eligible district is less than \$100 per full time equivalent student, the district's supplement shall be increased to \$100 per FTE or to the minimum amount per FTE designated in the General Appropriations Act.~~

~~(d) Each district's allocation of sparsity supplement funds shall be adjusted in the following manner:~~

1. A maximum discretionary levy per FTE value for each district shall be calculated by dividing the value of each district's maximum discretionary levy by its FTE student count.
2. A state average discretionary levy value per FTE shall be calculated by dividing the total maximum discretionary levy value for all districts by the state total FTE student count.
3. A total potential funds per FTE for each district shall be calculated by dividing the total potential funds, not including Florida School Recognition Program funds and the minimum guarantee funds, for each district by its FTE student count.
4. A state average total potential funds per FTE shall be calculated by dividing the total potential funds, not including Florida School Recognition Program funds and the minimum guarantee funds, for all districts by the state total FTE student count.
5. For districts that have a levy value per FTE as calculated in subparagraph 1. higher than the state average calculated in sub-

paragraph 2., a sparsity wealth adjustment shall be calculated as the product of the difference between the state average levy value per FTE calculated in subparagraph 2. and the district's levy value per FTE calculated in subparagraph 1. and the district's FTE student count and -1. However, no district shall have a sparsity wealth adjustment that, when applied to the total potential funds calculated in subparagraph 3., would cause the district's total potential funds per FTE to be less than the state average calculated in subparagraph 4.

6.—Each district's sparsity supplement allocation shall be calculated by adding the amount calculated as specified in paragraphs (a) and (b) and the wealth adjustment amount calculated in this paragraph.

~~(8) EVIDENCE BASED READING INSTRUCTION ALLOCATION.—~~

~~(a) The evidence based reading instruction allocation is created to provide comprehensive reading instruction to students in pre-kindergarten through grade 12.~~

~~(b) Intensive reading instruction for students who have reading deficiencies must include evidence-based reading instruction proven to accelerate progress of students exhibiting a reading deficiency; differentiated instruction based on screening, diagnostic, progress monitoring, or student assessment data to meet students' specific reading needs; explicit and systematic reading strategies to develop phonemic awareness, phonics, fluency, vocabulary, and comprehension, with more extensive opportunities for guided practice, error correction, and feedback; and the coordinated integration of civic literacy, science, and mathematics text reading, text discussion, and writing in response to reading.~~

~~(c) Funds for comprehensive, evidence-based reading instruction shall be allocated annually to each school district in the amount provided in the General Appropriations Act. Each eligible school district shall receive the same minimum amount as specified in the General Appropriations Act, and any remaining funds shall be distributed to eligible school districts based on each school district's proportionate share of K-12 base funding.~~

~~(d) Funds allocated under this subsection must be used to provide a system of comprehensive reading instruction to students enrolled in the prekindergarten-12 programs and certain students who exhibit a substantial deficiency in early literacy, which may include the following:~~

~~1. Additional time per day of evidence based intensive reading instruction to students, which may be delivered during or outside of the regular school day.~~

~~2. Kindergarten through grade 12 evidence based intensive reading interventions.~~

~~3. Highly qualified reading coaches, who must be endorsed in reading, to specifically support teachers in making instructional decisions based on student data, and improve teacher delivery of effective reading instruction, intervention, and reading in the content areas based on student need.~~

~~4. Professional development to help instructional personnel and certified prekindergarten teachers funded in the Florida Education Finance Program earn a certification, a credential, an endorsement, or an advanced degree in scientifically researched and evidence-based reading instruction.~~

~~5. Summer reading camps, using only teachers or other district personnel who possess a micro credential as specified in s. 1003.485 or are certified or endorsed in reading consistent with s. 1008.25(7)(b)3., for all students in kindergarten through grade 5 who demonstrate a reading deficiency as determined by district and state assessments.~~

~~6. Scientifically researched and evidence-based supplemental instructional materials as identified by the Just Read, Florida! Office pursuant to s. 1001.215(8).~~

~~7. Incentives for instructional personnel and certified pre-kindergarten teachers funded in the Florida Education Finance Program who possess a reading certification or endorsement or micro credential as specified in s. 1003.485 and provide educational support to improve student literacy.~~

~~8.—Tutoring in reading.~~

~~(c)1.—Annually, by a date determined by the Department of Education, each school district shall submit a comprehensive reading plan approved by the applicable district school board, charter school governing board, or lab school board of trustees, for the specific use of the evidence-based reading instruction allocation, based upon a root-cause analysis. The State Regional Literacy Director may assist in the development of the plan. The department shall provide a plan format. A district school board may use the format developed by the department or a format developed by the district school board.~~

~~2.—Intensive reading interventions must be delivered by instructional personnel who possess the micro credential as provided in s. 1003.485 or are certified or endorsed in reading and must incorporate evidence-based strategies identified by the Just Read, Florida! Office pursuant to s. 1001.215(8). Instructional personnel who possess a micro credential as specified in s. 1003.485 and are delivering intensive reading interventions must be supervised by an individual certified or endorsed in reading. For the purposes of this subsection, the term "supervision" means the ability to communicate by way of telecommunication with or physical presence of the certified or endorsed personnel for consultation and direction of the actions of the personnel with the micro credential.~~

~~3.—By July 1 of each year, the department shall release to each school district its allocation of appropriated funds. The department shall evaluate the implementation of each district plan, including conducting site visits and collecting specific data on expenditures and reading improvement results. By February 1 of each year, the department shall report its findings to the Legislature and the State Board of Education, including any recommendations for improving implementation of evidence-based reading and intervention strategies in classrooms.~~

~~For purposes of this subsection, the term "evidence based" means demonstrating a statistically significant effect on improving student outcomes or other relevant outcomes as provided in 20 U.S.C. s. 8101(21)(A)(i).~~

~~(9) CALCULATION OF SUPPLEMENTAL ALLOCATION FOR JUVENILE JUSTICE EDUCATION PROGRAMS.—~~

~~(a) The total kindergarten through grade 12 K-12 weighted full-time equivalent student membership in juvenile justice education programs in each school district shall be multiplied by the amount of the state average class-size-reduction factor multiplied by the comparable wage factor for the school district established in subsection (2) district's cost differential. An amount equal to the sum of this calculation shall be allocated in the Florida Education Finance Program FEFP to each school district to supplement other sources of funding for students in juvenile justice education programs.~~

~~(b) Funds allocated under this subsection shall be used to provide the juvenile justice education programs pursuant to s. 1003.52 and may be used to pay for the high school equivalency examination fees for juvenile justice students who pass the high school equivalency examination in full, or in part, while in a juvenile justice education program, the industry credentialing testing fees for such students, and the costs associated with such juvenile justice students enrolled in career and technical education courses that lead to industry-recognized certifications.~~

~~(11) QUALITY ASSURANCE GUARANTEE.—The Legislature may annually in the General Appropriations Act determine a percentage increase in funds per kindergarten through grade 12 K-12 unweighted full-time equivalent student FTE as a minimum guarantee to each school district. The guarantee shall be calculated from prior year base funding per unweighted full-time equivalent FTE student which shall include the adjusted full-time equivalent FTE dollars as provided in subsection (15), quality guarantee funds, and actual nonvoted discretionary local effort from taxes. From the base funding per unweighted full-time equivalent student FTE, the increase shall be calculated for the current year. The current year funds from which the guarantee shall be determined shall include the adjusted full-time equivalent FTE dollars as provided in subsection (15) and potential nonvoted discretionary local effort from taxes. A comparison of current year funds per unweighted full-time equivalent student FTE to prior year funds per unweighted full-time equivalent student FTE shall be computed. For those school districts which have less than the legislatively assigned percentage~~

increase, funds shall be provided to guarantee the assigned percentage increase in funds per unweighted *full-time equivalent* FTE student. Should appropriated funds be less than the sum of this calculated amount for all districts, the commissioner shall prorate each district's allocation. This provision shall be implemented to the extent specifically funded.

(12) **SAFE SCHOOLS ALLOCATION.**—A safe schools allocation is created to provide funding to assist school districts in their compliance with ss. 1006.07-1006.12, with priority given to safe-school officers pursuant to s. 1006.12. Each school district shall receive a minimum safe schools allocation in an amount provided in the General Appropriations Act. Of the remaining balance of the safe schools allocation, one-third shall be allocated to school districts based on the most recent official Florida Crime Index provided by the Department of Law Enforcement and two-thirds shall be allocated based on each school district's proportionate share of the state's total unweighted full-time equivalent student enrollment. ~~Each school district must report to the Department of Education by October 15 that all public schools within the school district have completed the school security risk assessment using the Florida Safe Schools Assessment Tool developed pursuant to s. 1006.1493.~~ If a district school board is required by s. 1006.12 to assign a school resource officer or school safety officer to a charter school, the charter school's share of costs for such officer may not exceed the amount of funds allocated to the charter school under this subsection.

(13) **MENTAL HEALTH ASSISTANCE ALLOCATION.**—The mental health assistance allocation is created to provide funding to assist school districts in *their implementation of their establishing or expanding school-based mental health assistance program pursuant to s. 1006.041* ~~care; train educators and other school staff in detecting and responding to mental health issues; and connect children, youth, and families who may experience behavioral health issues with appropriate services.~~ These funds shall be allocated annually in the General Appropriations Act or other law to each eligible school district. Each school district shall receive a minimum of \$100,000, with the remaining balance allocated based on each school district's proportionate share of the state's total unweighted full-time equivalent student enrollment. ~~Charter schools that submit a plan separate from the school district are entitled to a proportionate share of district funding. The allocated funds may not supplant funds that are provided for this purpose from other operating funds and may not be used to increase salaries or provide bonuses. School districts are encouraged to maximize third party health insurance benefits and Medicaid claiming for services, where appropriate.~~

(a) ~~Before the distribution of the allocation:~~

~~1. The school district must develop and submit a detailed plan outlining the local program and planned expenditures to the district school board for approval. This plan must include all district schools, including charter schools, unless a charter school elects to submit a plan independently from the school district pursuant to subparagraph 2.~~

~~2. A charter school may develop and submit a detailed plan outlining the local program and planned expenditures to its governing body for approval. After the plan is approved by the governing body, it must be provided to the charter school's sponsor.~~

~~(b) The plans required under paragraph (a) must be focused on a multitiered system of supports to deliver evidence-based mental health care assessment, diagnosis, intervention, treatment, and recovery services to students with one or more mental health or co-occurring substance abuse diagnoses and to students at high risk of such diagnoses. The provision of these services must be coordinated with a student's primary mental health care provider and with other mental health providers involved in the student's care. At a minimum, the plans must include the following elements:~~

~~1. Direct employment of school-based mental health services providers to expand and enhance school-based student services and to reduce the ratio of students to staff in order to better align with nationally recommended ratio models. These providers include, but are not limited to, certified school counselors, school psychologists, school social workers, and other licensed mental health professionals. The plan also must identify strategies to increase the amount of time that school-based student services personnel spend providing direct services to students,~~

~~which may include the review and revision of district staffing resource allocations based on school or student mental health assistance needs.~~

~~2. Contracts or interagency agreements with one or more local community behavioral health providers or providers of Community Action Team services to provide a behavioral health staff presence and services at district schools. Services may include, but are not limited to, mental health screenings and assessments, individual counseling, family counseling, group counseling, psychiatric or psychological services, trauma-informed care, mobile crisis services, and behavior modification. These behavioral health services may be provided on or off the school campus and may be supplemented by telehealth.~~

~~3. Policies and procedures, including contracts with service providers, which will ensure that:~~

~~a. Students referred to a school-based or community-based mental health service provider for mental health screening for the identification of mental health concerns and students at risk for mental health disorders are assessed within 15 days of referral. School-based mental health services must be initiated within 15 days after identification and assessment, and support by community-based mental health service providers for students who are referred for community-based mental health services must be initiated within 30 days after the school or district makes a referral.~~

~~b. Parents of a student receiving services under this subsection are provided information about other behavioral health services available through the student's school or local community-based behavioral health services providers. A school may meet this requirement by providing information about and Internet addresses for web-based directories or guides for local behavioral health services.~~

~~c. Individuals living in a household with a student receiving services under this subsection are provided information about behavioral health services available through other delivery systems or payors for which such individuals may qualify, if such services appear to be needed or enhancements in those individuals' behavioral health would contribute to the improved well-being of the student.~~

~~4. Strategies or programs to reduce the likelihood of at-risk students developing social, emotional, or behavioral health problems, depression, anxiety disorders, suicidal tendencies, or substance use disorders.~~

~~5. Strategies to improve the early identification of social, emotional, or behavioral problems or substance use disorders, to improve the provision of early intervention services, and to assist students in dealing with trauma and violence.~~

~~6. Procedures to assist a mental health services provider or a behavioral health provider as described in subparagraph 1. or subparagraph 2., respectively, or a school resource officer or school safety officer who has completed mental health crisis intervention training in attempting to verbally de-escalate a student's crisis situation before initiating an involuntary examination pursuant to s. 394.463. Such procedures must include strategies to de-escalate a crisis situation for a student with a developmental disability as that term is defined in s. 393.063.~~

~~7. Policies of the school district which must require that in a student crisis situation, school or law enforcement personnel must make a reasonable attempt to contact a mental health professional who may initiate an involuntary examination pursuant to s. 394.463, unless the child poses an imminent danger to themselves or others, before initiating an involuntary examination pursuant to s. 394.463. Such contact may be in person or using telehealth as defined in s. 456.47. The mental health professional may be available to the school district either by contracts or interagency agreements with the managing entity, one or more local community behavioral health providers, or the local mobile response team or be a direct or contracted school district employee.~~

~~(c) School districts shall submit approved plans, including approved plans of each charter school in the district, to the commissioner by August 1 of each fiscal year.~~

~~(d) Beginning September 30, 2019, and annually by September 30 thereafter, each school district shall submit to the Department of Education a report on its program outcomes and expenditures for the~~

previous fiscal year that, at a minimum, must include the number of each of the following:

- ~~1. Students who receive screenings or assessments.~~
- ~~2. Students who are referred to either school based or community-based providers for services or assistance.~~
- ~~3. Students who receive either school based or community-based interventions, services, or assistance.~~
- ~~4. School based and community based mental health providers, including licensure type, paid for from funds provided through the allocation.~~
- ~~5. Contract based collaborative efforts or partnerships with community mental health programs, agencies, or providers.~~

(14) **CLASSROOM TEACHER AND OTHER INSTRUCTIONAL PERSONNEL SALARY INCREASE ALLOCATION.**—The Legislature shall ~~may~~ annually apportion an amount of funds provided ~~provide~~ in the Florida Education Finance Program to assist school districts and charter schools in their compliance with the requirement that the minimum base salary for full-time classroom teachers, as defined in s. 1012.01(2)(a), and certified prekindergarten teachers funded in the Florida Education Finance Program is at least \$47,500 or to provide salary increases to instructional personnel, as defined in s. 1012.01(2)(a)-(d), in a manner that best meets the needs of the school district or charter school. This subsection does not apply to substitute teachers ~~a teacher salary increase allocation to assist school districts in their recruitment and retention of classroom teachers and other instructional personnel.~~ The amount and distribution methodology for the funding ~~of the allocation~~ shall be specified in the General Appropriations Act.

(a) The term “minimum base salary” means the lowest annual base salary reported on the salary schedule for a full-time classroom teacher. A full-time classroom teacher may not receive a salary less than the minimum base salary as adjusted by this subsection.

~~(a) Each school district shall receive an allocation based on the school district’s proportionate share of the base FEEP allocation. Each school district shall provide each charter school within its district its proportionate share calculated pursuant to s. 1002.33(17)(b). If a district school board has not received its allocation due to its failure to submit an approved district salary distribution plan, the district school board must still provide each charter school that has submitted a salary distribution plan within its district its proportionate share of the allocation.~~

~~(b) Allocation funds are restricted in use as follows:~~

~~1. Each school district and charter school shall use its share of the allocation to increase the minimum base salary for full-time classroom teachers, as defined in s. 1012.01(2)(a), plus certified prekindergarten teachers funded in the Florida Education Finance Program, to at least \$47,500, or to the maximum amount achievable based on the allocation and as specified in the General Appropriations Act. The term “minimum base salary” means the lowest annual base salary reported on the salary schedule for a full-time classroom teacher. No full-time classroom teacher shall receive a salary less than the minimum base salary as adjusted by this subparagraph. This subparagraph does not apply to substitute teachers.~~

~~2. In addition, each school district shall use its share of the allocation to provide salary increases, as funding permits, for the following personnel:~~

~~a. Full-time classroom teachers, as defined in s. 1012.01(2)(a), plus certified prekindergarten teachers funded in the Florida Education Finance Program, who did not receive an increase or who received an increase of less than 2 percent under subparagraph 1. or as specified in the General Appropriations Act. This subparagraph does not apply to substitute teachers.~~

~~b. Other full-time instructional personnel as defined in s. 1012.01(2)(b) (d).~~

~~3. A school district or charter school may use funds available after the requirements of subparagraph 1. are met to provide salary increases pursuant to subparagraph 2.~~

~~(b)4. A school district or charter school shall maintain the minimum base salary achieved for classroom teachers provided in the prior fiscal year under subparagraph 1. and may not reduce the salary increases provided under subparagraph 2. in any subsequent fiscal year, unless specifically authorized in the General Appropriations Act.~~

~~(c) Before distributing any additional allocation funds received over the prior fiscal year pursuant to paragraph (a), each school district and each charter school shall develop a salary distribution plan that clearly delineates the planned distribution of funds pursuant to paragraph (b) in accordance with modified salary schedules, as necessary, for the implementation of this subsection.~~

1. Each school district superintendent and each charter school administrator must submit its proposed salary distribution plan to the district school board or the charter school governing body, as appropriate, for approval.

2. Each school district shall submit the approved district salary distribution plan and the approved salary distribution plan for each charter school in the district to the department by October 1 of each fiscal year.

(d) Beginning August 1, 2024, and each year thereafter, in a format specified by the department, ~~provide as follows:~~

~~1. By December 1, each school district shall provide a preliminary report to the department that includes a detailed summary explaining the school district’s prior year’s expenditures pursuant to this subsection. The report must include planned expenditure of the entire allocation for the district received pursuant to paragraph (a), the amount of the increase to the minimum base salary for classroom teachers pursuant to paragraph (b), and the school district’s salary schedule for the prior fiscal year and the fiscal year in which the base salary is increased. Each charter school governing board shall submit the information required under this subparagraph to the district school board for inclusion in the school district’s preliminary report to the department.~~

~~2. By February 1, the department shall submit to the Governor, the President of the Senate, and the Speaker of the House of Representatives a statewide report on the planned expenditure of the teacher salary increase allocation, which includes the detailed summary provided by each school district and charter school.~~

~~3. By August 1, each school district shall provide a final report to the department with the information required in subparagraph 1. for the prior fiscal year. Each charter school governing board shall submit the information required under this subparagraph to the district school board for inclusion in the school district’s final report to the department.~~

~~(e) Although district school boards and charter school governing boards are not precluded from bargaining over wages, the classroom teacher and other instructional personnel teacher salary increase allocation must be used solely to comply with the requirements of this subsection section. A district school board or charter school governing board that is unable to meet the reporting requirements in specified in paragraph (c) or paragraph (d) due to a collective bargaining impasse must provide written notification to the department or the district school board, as applicable, detailing the reasons for the impasse with a proposed timeline and details for a resolution.~~

(15) **TOTAL ALLOCATION OF STATE FUNDS TO EACH DISTRICT FOR CURRENT OPERATION.**—The total annual state allocation to each district for current operation for the Florida Education Finance Program FEEP shall be distributed periodically in the manner prescribed in the General Appropriations Act.

(a) If the funds appropriated for current operation of the Florida Education Finance Program, including funds appropriated pursuant to subsection (18), FEEP are not sufficient to pay the state requirement in full, the department shall prorate the available state funds to each district in the following manner:

1. Determine the percentage of proration by dividing the sum of the total amount for current operation, as provided in this paragraph for all

districts collectively, and the total district required local effort into the sum of the state funds available for current operation and the total district required local effort.

2. Multiply the percentage so determined by the sum of the total amount for current operation as provided in this paragraph and the required local effort for each individual district.

3. From the product of such multiplication, subtract the required local effort of each district; and the remainder shall be the amount of state funds allocated to the district for current operation. However, no calculation subsequent to the appropriation shall result in negative state funds for any district.

(16) STATE-FUNDED DISCRETIONARY SUPPLEMENT.—

(a) The state-funded discretionary supplement is created to fund the nonvoted discretionary millage for operations pursuant to s. 1011.71(1) and (3) for students awarded a Family Empowerment Scholarship in accordance with s. 1002.394. To calculate the state-funded discretionary supplement for inclusion in the amount of the scholarship funding:

1. For fiscal year 2023-2024, multiply the maximum allowable nonvoted discretionary millage for operations pursuant to s. 1011.71(1) and (3) by the value of 96 percent of the current year's taxable value for school purposes for the school district where the student is reported for purposes of the Florida Education Finance Program as appropriated in the General Appropriations Act; divide the result by the school district's total unweighted full-time equivalent membership as appropriated in the General Appropriations Act; and multiply the result by the total unweighted full-time equivalent membership associated with the number of Family Empowerment Scholarship students included in the school district's total unweighted full-time equivalent membership. A base amount as specified in the General Appropriations Act shall be added to this amount for purposes of calculating the total amount of the supplement.

2. Beginning in fiscal year 2024-2025 and thereafter, multiply the maximum allowable nonvoted discretionary millage for operations pursuant to s. 1011.71(1) and (3) by the value of 96 percent of the current year's taxable value for school purposes for the school district where the student is reported for purposes of the Florida Education Finance Program as appropriated in the General Appropriations Act; divide the result by the school district's total unweighted full-time equivalent membership as appropriated in the General Appropriations Act; and multiply the result by the total unweighted full-time equivalent membership associated with the number of Family Empowerment Scholarship students. The prior year's base amount shall be adjusted based on changes in the eligible number of unweighted full-time equivalent membership associated with the number of Family Empowerment Scholarship students.

(b) The state-funded discretionary supplement shall be recalculated during the fiscal year pursuant to paragraph (1)(a). If the recalculated amount is greater than the amount provided in the General Appropriations Act, the allocation shall be prorated to the level provided to support the appropriation, based on each school district's proportionate share of the total allocation.

(17) CATEGORICAL FUNDS.—

(a) If a district school board determines that some or all of the funds received for any of the categorical programs established in this section are needed to maintain or enhance school board-specified academic classroom instruction, maintain or expand career and technical education instruction, or improve school safety, the school district may consider and approve an amendment to the school district's operating budget by transferring the identified amount of the categorical funds to the appropriate account for expenditure.

(b) Each school district shall include in its annual financial report to the Department of Education the amount of funds the school board transferred from each of the categorical funds identified in this subsection and the specific academic classroom instruction, career and technical education instruction, or school safety need for which the transferred funds were expended. The department shall provide instructions and specify the format to be used in submitting this required information as part of the district annual financial report. The department shall

annually submit a report to the Legislature that identifies by school district and by categorical fund the amount transferred and the specific academic classroom or career and technical education activity or school safety need for which the funds were expended.

(18) EDUCATIONAL ENROLLMENT STABILIZATION PROGRAM.—

(a) The educational enrollment stabilization program is created to provide supplemental state funds as needed to maintain the stability of the operations of public schools in each school district and to protect districts, including charter schools, from financial instability as a result of changes in full-time equivalent student enrollment throughout the school year. This program shall be implemented to the extent funds are available.

(b) The Legislature may annually appropriate funds in the General Appropriations Act to the Department of Education for this program. The Department of Education shall use funds as appropriated to ensure that based on each recalculation of the Florida Education Finance Program pursuant to paragraph (1)(a), a school district's funds per unweighted full-time equivalent student are not less than the greater of either the school district's funds per unweighted full-time equivalent student as appropriated in the General Appropriations Act or the school district's funds per unweighted full-time equivalent student as recalculated based upon the receipt of the certified taxable value for school purposes pursuant to s. 1011.62(4).

~~(16) COMPUTATION OF PRIOR YEAR DISTRICT REQUIRED LOCAL EFFORT.—~~ Calculations required in this section shall be based on 95 percent of the taxable value for school purposes for fiscal years prior to the 2010-2011 fiscal year.

~~(17) TURNAROUND SCHOOL SUPPLEMENTAL SERVICES ALLOCATION.—~~ The turnaround school supplemental services allocation is created to provide district managed turnaround schools, as identified in s. 1008.33(4)(a), schools that earn three consecutive grades below a "C," as identified in s. 1008.33(4)(b)3, and schools that have improved to a "C" and are no longer in turnaround status, as identified in s. 1008.33(4)(c), with funds to offer services designed to improve the overall academic and community welfare of the schools' students and their families.

~~(a)1.—~~ Services funded by the allocation may include, but are not limited to, tutorial and after school programs, student counseling, nutrition education, parental counseling, and an extended school day and school year. In addition, services may include models that develop a culture that encourages students to complete high school and to attend college or career training, set high academic expectations, and inspire character development.

~~2.—~~ A school district may enter into a formal agreement with a non-profit organization that has tax exempt status under s. 501(c)(3) of the Internal Revenue Code to implement an integrated student support service model that provides students and families with access to wrap-around services, including, but not limited to, health services, after-school programs, drug prevention programs, college and career readiness programs, and food and clothing banks.

~~(b)—~~ Before distribution of the allocation, the school district shall develop and submit a plan for implementation to its school board for approval no later than August 1 of each fiscal year.

~~(c)—~~ At a minimum, the plan required under paragraph (b) must:

~~1.—~~ Establish comprehensive support services that develop family and community partnerships;

~~2.—~~ Establish clearly defined and measurable high academic and character standards;

~~3.—~~ Increase parental involvement and engagement in the child's education;

~~4.—~~ Describe how instructional personnel will be identified, recruited, retained, and rewarded;

~~5.—~~ Provide professional development that focuses on academic rigor, direct instruction, and creating high academic and character standards;

~~6. Provide focused instruction to improve student academic proficiency, which may include additional instruction time beyond the normal school day or school year; and~~

~~7. Include a strategy for continuing to provide services after the school is no longer in turnaround status by virtue of achieving a grade of "C" or higher.~~

~~(d) Each school district shall submit its approved plans to the commissioner by September 1 of each fiscal year.~~

~~(e) Subject to legislative appropriation, each school district's allocation must be based on the unweighted FTE student enrollment at the eligible schools and a per FTE funding amount of \$500 or as provided in the General Appropriations Act. The supplement provided in the General Appropriations Act shall be based on the most recent school grades and shall serve as a proxy for the official calculation. Once school grades are available for the school year immediately preceding the fiscal year coinciding with the appropriation, the supplement shall be recalculated for the official participating schools as part of the subsequent FEPP calculation. The commissioner may prepare a preliminary calculation so that districts may proceed with timely planning and use of the funds. If the calculated funds for the statewide allocation exceed the funds appropriated, the allocation of funds to each school district must be prorated based on each school district's share of the total unweighted FTE student enrollment for the eligible schools.~~

~~(f) Subject to legislative appropriation, each school shall remain eligible for the allocation for a maximum of 4 continuous fiscal years while implementing a turnaround option pursuant to s. 1008.33(4). In addition, a school that improves to a grade of "C" or higher shall remain eligible to receive the allocation for a maximum of 2 continuous fiscal years after exiting turnaround status.~~

Managers on the part of the House

The Conference Committee Amendment for HB 5303, relating to Biomedical Research, conforms law to the General Appropriations Act (GAA) proposed by the House of Representatives for Fiscal Year 2023-2024. The amendment:

- Expands those cancer centers eligible for funding pursuant to the Casey DeSantis Cancer Research Program (DeSantis program) to include cancer centers designated by the National Cancer Institute as a comprehensive cancer center with at least one geographic site in Florida.
- Adds qualified uses to cancer research funding.
- Exempts \$37,771,257 from the annual allocation fraction calculation for participating cancer centers in the DeSantis program and distributes those funds to participating cancer centers using the proportion as determined by the calculation.
- Eliminates authorization for the endowed research chair contained within the Bankhead-Coley Cancer Research Program.
- Expands eligible programs for funding from the Biomedical Research Trust Fund to include “other cancer research initiatives as appropriated by the Legislature.”

- Adds breast cancer to the list of cancers to be included in the Department of Health’s tri-annual mortality rate and cancer research analysis report.

The amendment takes effect on July 1, 2023.

**Conference Committee Amendment (426987) (with title amendment)**—Remove everything after the enacting clause and insert:

Section 1. Paragraph (a) of subsection (7) of section 20.435, Florida Statutes, is amended to read:

20.435 Department of Health; trust funds.—The following trust funds shall be administered by the Department of Health:

- (7) Biomedical Research Trust Fund.

(a) Funds to be credited to the trust fund shall consist of funds appropriated by the Legislature. Funds shall be used for the purposes of the James and Esther King Biomedical Research Program, the Casey DeSantis Cancer Research Program, and the William G. “Bill” Bankhead, Jr., and David Coley Cancer Research Program as specified in ss. 215.5602, ~~288.955~~, 381.915, and 381.922, and other cancer research initiatives as appropriated by the Legislature. The trust fund is exempt from the service charges imposed by s. 215.20.

Section 2. Subsections (7), (8), and (9) of section 381.915, Florida Statutes, are renumbered as subsections (8), (9), and (10), respectively, subsection (2), paragraph (b) of subsection (3), subsection (4), and paragraph (a) of present subsection (7) are amended, and a new subsection (7) is added to that section, to read:

381.915 Casey DeSantis Cancer Research Program.—

(2) The Casey DeSantis Cancer Research Program is established to enhance the quality and competitiveness of cancer care in this state, further a statewide biomedical research strategy directly responsive to the health needs of Florida’s citizens, and capitalize on the potential educational opportunities available to its students. The department shall make payments to Florida-based cancer centers recognized by the National Cancer Institute (NCI) at the National Institutes of Health as NCI-designated cancer centers or NCI-designated comprehensive cancer centers, and cancer centers working toward achieving NCI designation. The department shall distribute funds to participating cancer centers on a quarterly basis during each fiscal year for which an appropriation is made.

(3) On or before September 15 of each year, the department shall calculate an allocation fraction to be used for distributing funds to participating cancer centers. On or before the final business day of each quarter of the state fiscal year, the department shall distribute to each participating cancer center one-fourth of that cancer center’s annual allocation calculated under subsection (6). The allocation fraction for each participating cancer center is based on the cancer center’s tier-designated weight under subsection (4) multiplied by each of the following allocation factors based on activities in this state: number of reportable cases, peer-review costs, and biomedical education and training. As used in this section, the term:

(b) “Cancer center” means a comprehensive center with at least one geographic site in the state, a freestanding center located in the state, a center situated within an academic institution, or a Florida-based formal research-based consortium under centralized leadership that has achieved NCI designation or is prepared to achieve NCI designation by June 30, 2024 ~~July 1, 2019~~.

(4) Tier designations and corresponding weights within the Casey DeSantis Cancer Research Program are as follows:

- (a) Tier 1: Florida-based NCI-designated comprehensive cancer centers, which shall be weighted at 1.5.
- (b) Tier 2: Florida-based NCI-designated cancer centers, which shall be weighted at 1.25.
- (c) Tier 3: Florida-based Cancer centers seeking designation as either a NCI-designated cancer center or NCI-designated comprehensive cancer center, which shall be weighted at 1.0.

1. A cancer center shall meet the following minimum criteria to be considered eligible for Tier 3 designation in any given fiscal year:

- a. Conducting cancer-related basic scientific research and cancer-related population scientific research;
- b. Offering and providing the full range of diagnostic and treatment services on site, as determined by the Commission on Cancer of the American College of Surgeons;
- c. Hosting or conducting cancer-related interventional clinical trials that are registered with the NCI's Clinical Trials Reporting Program;
- d. Offering degree-granting programs or affiliating with universities through degree-granting programs accredited or approved by a nationally recognized agency and offered through the center or through the center in conjunction with another institution accredited by the Commission on Colleges of the Southern Association of Colleges and Schools;
- e. Providing training to clinical trainees, medical trainees accredited by the Accreditation Council for Graduate Medical Education or the American Osteopathic Association, and postdoctoral fellows recently awarded a doctorate degree; and
- f. Having more than \$5 million in annual direct costs associated with their total NCI peer-reviewed grant funding.

2. The General Appropriations Act or accompanying legislation may limit the number of cancer centers which shall receive Tier 3 designations or provide additional criteria for such designation.

3. A cancer center's participation in Tier 3 may not extend beyond June 30, 2024.

4. A cancer center that qualifies as a designated Tier 3 center under the criteria provided in subparagraph 1. by July 1, 2014, is authorized to pursue NCI designation as a cancer center or a comprehensive cancer center until June 30, 2024.

(7) *The amount of \$37,771,257 from the total funds appropriated in the General Appropriations Act for the Casey DeSantis Cancer Research Program shall be excluded from the annual allocation fraction calculation under subsection (5). The excluded amount shall be distributed to participating cancer centers in the same proportion as determined by the allocation fraction calculation.*

(8)(7) Beginning July 1, 2017, and every 3 years thereafter, the department, in conjunction with participating cancer centers, shall submit a report to the Cancer Control and Research Advisory Council on specific metrics relating to cancer mortality and external funding for cancer-related research in the state. If a cancer center does not endorse this report or produce an equivalent independent report, the cancer center shall be suspended from the program for 1 year. The report must include:

(a) An analysis of trending age-adjusted cancer mortality rates in the state, which must include, at a minimum, overall age-adjusted mortality rates for cancer statewide and age-adjusted mortality rates by age group, geographic region, and type of cancer, which must include, at a minimum:

1. Lung cancer.
2. Pancreatic cancer.
3. Sarcoma.
4. Melanoma.
5. Leukemia and myelodysplastic syndromes.
6. Brain cancer.
7. *Breast cancer.*

Section 3. Subsection (4) of section 381.922, Florida Statutes, is amended to read:

381.922 William G. "Bill" Bankhead, Jr., and David Coley Cancer Research Program.—

~~(4) In order to attract and retain experienced research talent and attendant national grant producing researchers to integrated cancer research and care institutions in this state, the Department of Health shall award endowments to integrated cancer research and care institutions for establishing a funded research chair, pursuant to the General Appropriations Act, specifying an appropriation for this purpose. Funding for the endowed chairs must be independent of funds appropriated pursuant to s. 215.5602(12). The purpose of the endowment is to provide secure funding for at least 7 years to attract an experienced and promising researcher whose continued employment for this period is not contingent upon grant awards associated with time-limited research projects. In addition, the Legislature intends for a research chair to specialize in a cancer-related research field that will facilitate coordination among research institutions within the state and attract other promising researchers and funding to the state.~~

~~(a) Upon selection of an endowed research chair, the institution shall notify the chairs of the appropriations committees of the Senate and the House of Representatives. An institution funded pursuant to this subsection shall provide to the Governor, the President of the Senate, and the Speaker of the House of Representatives an annual progress report by December 15 that must, at a minimum, provide the research chair's name; the amount of the endowment fund used for the chair's salary; research responsibilities; the percentage of time devoted to research if the chair also serves as a member of the faculty; research progress; progress toward achieving the goals of this program; endowment expenditures; balance, interest rate, and interest earned on the endowment; and the amount of federal or private grants or donations generated, if any, as a result of the research chair's efforts.~~

~~(b) If an institution must replace an endowed research chair, the endowment must cease funding expenses associated with the endowed research chair, other than reasonable costs for recruitment, until a replacement chair has been retained. While the endowed research chair is vacant, the endowment must continue to earn interest and all earnings must be added to the balance of the endowment. A vacancy tolls the 7-year timeframe for the endowed research chair.~~

Section 4. This act shall take effect July 1, 2023.

And the title is amended as follows:

Remove everything before the enacting clause and insert: A bill to be entitled An act relating to biomedical research; amending s. 20.435, F.S.; expanding the uses of the Biomedical Research Trust Fund; amending s. 381.915, F.S.; revising a definition; authorizing a specified amount from the total appropriated funds for the Casey DeSantis Cancer Research Program to be distributed to participating cancer centers; requiring a report for specified statewide cancer statistics to include breast cancer; amending s. 381.922, F.S.; removing a certain award of an endowment for a specified program; providing an effective date.

Managers on the part of the House

The Conference Committee Amendment for HB 1285, relating to Florida State Guard, maintains and modifies provisions of the Florida State Guard. Federal law authorizes each state, the Commonwealth of Puerto Rico, the District of Columbia, Guam, and the Virgin Islands to create and maintain organized units other than their respective National Guard units. These separate units, called “defense forces,” are for use exclusively within the jurisdiction as considered necessary by the Governor or chief executive of such jurisdiction but may not be called, ordered, or drafted into federal service.

Led by the Governor as commander-in-chief, the Florida National Guard consists of organized, armed, equipped, and federally recognized commissioned officers, warrant officers, and enlisted personnel who are citizens of the United States or who have declared their intention to become citizens of the United States.

The Florida State Defense Force was created in 1941 in order to supplement the state’s National Guard, which had been federalized into service during World War II. The Florida State Defense Force was deactivated and disbanded in 1947 after the return of the state’s National Guard.

The Florida State Guard (FSG) was created in 2022 as a component of the organized guard of the state separate and apart from the Florida National Guard, and is a volunteer force that assists federal, state, and local government agencies and civil relief organizations during impending or actual emergencies in Florida. The FSG will sunset on July 1, 2023.

The amendment repeals the FSG’s expiration date, making it a permanent component of the state militia. The amendment revises the structure of the FSG by creating a Division of the State Guard (Division) within the Department of Military Affairs as a separate budget entity, headed by a director who is appointed by the Governor and confirmed by the Senate. The amendment also transfers administrative duties and powers from the Adjutant General to the director.

The amendment requires the director to organize a specialized unit within the FSG and requires specified members of the unit to meet certain minimum requirements.

The amendment repeals sections of law pertaining to the Florida State Defense Force and makes other conforming changes.

The General Appropriations Act for FY 2023-24 provides \$107.6 million in appropriations from the General Revenue Fund for the Florida State Guard.

**Conference Committee Amendment (127735) (with title amendment)**—Remove everything after the enacting clause and insert:

Section 1. Subsection (20) is added to section 120.80, Florida Statutes, to read:
