Trenching pipe. Boring pipe. Installing grinder pumps. Installing a lift station.

**d. Who is the target population served by this project? How many individuals are expected to be served?**

12 residents and a church

**e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?**

Septic tanks can cause contamination of surface and groundwater resources, which leads to public health and pollution problems. Residents will be connected to the City sewer system which helps reduce the environmental impact of septic tanks. Can be measured by sewer utility fees and Wastewater treatment plant capacity.

**f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?**

Not receiving the full contracted amount.
