14. Program Performance

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2023-2024

LFIR # 1440

a. What specific purpose or goal will be achieved by the funds requested?

Equine-Assisted Therapy Programs provided by Quantum Leap Farm will improve quality of life, and the physical, social and emotional well-being of special needs children and family members. Specific programs will produce measurable functional improvements in balance, proprioception, range of motion, postural control, muscular strength, endurance and tone and, cardiovascular fitness, as well as helping with neurological reorganization.

b. What activities and services will be provided to meet the intended purpose of these funds?

Quantum Leap Farm will provide Equine-Assisted Therapy Programs and activities especially designed to support the physical, social and emotional well-being of special needs children and their families. All Equine-Assisted Therapy Programs at Quantum Leap Farm are facilitated by qualified therapeutic riding instructors, or licensed and specially certified occupational therapists or physical therapists.

c. What direct services will be provided to citizens by the appropriation project?

Quantum Leap Farm's programs for special needs children include an array of equine-assisted therapies including Therapeutic Horseback Riding, Hippotherapy, and Family Fun Days

d. Who is the target population served by this project? How many individuals are expected to be served?

Quantum Leap Farm's programs for special needs children and family members serves individuals and families navigating various diagnosis, such as physical, developmental and behavioral challenges. After funding is awarded, we expect to serve over 1,400 individuals a year. Specific data collected will vary from program to program.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Participants in all programs will self-report via questionnaires. Depending on which program they participate in, they will report on physical and emotional changes, as well as coping skills and on their overall quality of life. Participants in Hippotherapy also follow a goal setting plan to measure progress weekly.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

In an average year we will be able to service the clients as noted above and would expect that we will be able to provide positive measurable outcomes. If circumstances change and we are not able to deliver service to these individuals in the numbers we anticipate and have a surplus of unused funds, we would recommend carrying over the funds to the next fiscal year and maintain programs. If for some reason, we were unable to utilize funds, they would be returned.
