LFIR # 1680

There is indirect services to the citizens by providing a shelter at the bus stops to maintain them from the weather conditions as they wait for the bus services (trolley or Miami-Dade County Transit).

d. Who is the target population served by this project? How many individuals are expected to be served?

The target population is the City's Financially Disadvantaged and the elderly population. The amount of individuals expected to serve is approximately 20000 due to the ridership because these new bus shelters will be placed in the highest ridership bus stops.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The protection of the bus riders with the future ridership increase will measure the outcome and less complaints/requests by the ridership.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Hold Funding or releasing the funds as the project is designed and constructed.
