The Florida Senate

Local Funding Initiative Request

Fiscal Year 2024-2025

LFIR # 1824

All police services will be communicated utilizing the new described radio equipment and based on the enhanced technology improvements. This should provide a more efficient response to the citizens it protects and serves.

c. What direct services will be provided to citizens by the appropriation project?

Police services.

d. Who is the target population served by this project? How many individuals are expected to be served?

City of South Miami, 12,000 residents.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Protecting the general public from harm- Improved radio communications and enhanced officer safety with the features included with the new radios. The enhanced functions should provide better communication during large events, officer safety by geo locating officers via radio and improved general enhanced services with playback features which will reduce radio transmissions and radio traffic during critical situations. The methodology by which this outcome will be measured is conducting surveys with officers who utilize the equipment and identify increased efficiencies with responses.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Revocation/withholding of funds.
