#### 14. Program Performance

##### a. What specific purpose or goal will be achieved by the funds requested?

Goal of Project TALKS - Talk, Act, Listen, Know, Support - is to create a "Talkable Community" in Northeast Florida leveraging the power of 5 Behavioral Health agencies across 6 counties. Our project creates a trauma informed community that will encourage healthy conversations, activities and interventions leading to a focus on mental well-being and healthier lives. It creates 2 co-responder teams with local law enforcement to reduce incarceration and connect offenders with community-based mental health services, Emergency Department diversion and supports for families/friends who have lost a loved one to suicide.

##### b. What activities and services will be provided to meet the intended purpose of these funds?

Create talkable communities throughout Northeast Florida through to increase the number of individuals with the ability to respond to a mental health Crisis. Expand care coordination activities in local hospitals to connect with those experiencing a mental health crisis. Expand our partnership with law enforcement that integrates a MH professional into their response team and that offers trauma support to first responders. Provide trauma support to family and friends who have lost someone due to suicide and/or overdose.

##### c. What direct services will be provided to citizens by the appropriation project?

Training in Mental Health First Aid, ITTAI and QPR throughout 6 counties in Northeast Florida. Care Coordinators on-site in the emergency department will meet with individuals in a mental health crisis, Baker Act and/or overdose, assess their needs, develop a care plan, and provide direct service in the community until the person is stable. Two mental health counselors to be part of a co-responder team with Law Enforcement agencies to intervene and provide direct intervention to those identified as having a mental health issue during an arrest. Crisis counselors trained in Trauma informed care will provide individual/group support to families and first responders after a death by suicide.

##### d. Who is the target population served by this project? How many individuals are expected to be served?

Individuals with mental illness, individuals/families experiencing a mental health crisis, individuals who commit crimes with an identified MH issue, first responders, family/friends who have suffered a loss due to suicide/overdose, training for youth serving adults, and training for the general population.

##### e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The integration of a MH professional with law enforcement can reduce the incidence of violence, trauma, arrests, and involuntary hospitalizations, and increase the engagement rate for follow up care. The same MH professional can provide trauma informed care after a traumatic event such as suicide.  
 Measurement - % of BA diversions, % of engagement in services. #Of MH interventions leading to reduction in arrest.  
 Improve MH MHFA and QPR are evidenced based training programs proven to increase knowledge on signs, symptoms and risk factors of mental illness; increase confidence in and likelihood to help an individual in distress, increase mental wellness in the trainee, and increase confidence in having a conversation on mental health issues.
