In partnership with the City of Quincy the goal of this project is to upgrade, extend and expand water and sewer systems to the City of Quincy utilities west of Quincy along and around Jefferson Street past Atlanta Street towards Gretna. Gadsden County's growth and improvement in several social indicators is tied unequivocally to economic development. But old and outdated pipes and systems or the lack thereof, continue to hamper the County's short and long-term prosperity. The continued need for infrastructure poses challenges in meeting the evolving demands of current and future citizens. Constructing new water and sewer systems along with new towers is essential to provide a safe, efficient, and profitable environment for Gadsden County's future:
