LFIR # 3527

c. What direct services will be provided to citizens by the appropriation project?

The public safety technology will combat the introduction of contraband into correctional facilities, identify and suppress violent street gangs, drug trafficking organizations, security threat groups, continuing criminal enterprises, and human trafficking networks. It will also help identify incarcerated individuals who may be experiencing mental health episodes to include suicide prevention.

d. Who is the target population served by this project? How many individuals are expected to be served?

This will enhance the public safety of the general population as well as serve persons with poor mental health; currently or formerly incarcerated persons; drug offenders (in criminal justice) and victims of crime.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Intelligence gathered will help identify in real time individuals who may be experiencing mental health episodes to include suicide prevention. As part of the planned implementation, the technology will notify identified staff to assist those in need. Intelligence gathered will combat criminal behavior such as drug trafficking and human trafficking. These impacts will be measured through incident reporting.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Standard contract penalties are sufficient.
