10. Is future-year funding likely to be requested?

No

11. Program Performance:

a. What is the specific purpose or goal that will be achieved by the funds requested?

   This project consists of an area of approximately 25 acres of property along a major arterial street, San Marco Road, which was constructed during the early phases of the development of Marco Island. The storm drainage system is very limited which causes several local collector streets to flood and become impassable, and stranding local residents. Creating a master planned storm water management system along this major roadway will provide a means to correct this problem.

b. What are the activities and services that will be provided to meet the intended purpose of these funds?

   Construction by a contractor selected by the open bidding process to complete the project as designed and in conformance with the current state and federal requirements.

c. How will the funds be expended?

**d. What are the direct services to be provided to citizens by the appropriations project?**

Funds will be used to provide engineering design services to include survey and stormwater piping systems as well as outfalls into existing canals.

**e. Who is the target population served by this project? How many individuals are expected to be served?**

This project will benefit the entire population of the City of Marco Island, a community of over 12,000 residents.

**f. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?**

Limited storm drainage system causes extreme flooding on several local collector streets with flooding that renders streets impassable, stranding local residents. Creating a master planned stormwater management system along this major roadway will provide a means to correct this problem.

**g. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?**

Reimbursements of funds allocated.
