### 10. Is future-year funding likely to be requested?

No

### 11. Program Performance:

#### a. What is the specific purpose or goal that will be achieved by the funds requested?

The goals of this project are to design and construct stormwater improvements and pollutant control systems to reduce pollutants discharging from street runoff into waterways, as well as reduce flooding in private properties and City streets and walkways.

#### b. What are the activities and services that will be provided to meet the intended purpose of these funds?

Storm water surges into local businesses and residential areas will be significantly reduced and controlled during rainy season, and during severe weather occurrences such as tropical storms and hurricanes. In addition, the main street corridor is the economic lifeline for the downtown area for this community and city. The proposed plans to renovate other amenities and mix-use space for which future exploration for business development will be possible if acceptable storm water prevention measures could be restored to modern codes and operation.
