10. Is future-year funding likely to be requested?

No

11. Program Performance:

a. What is the specific purpose or goal that will be achieved by the funds requested?

To implement the evidenced-based practice of community-based peer support utilizing a professional workforce of individuals who have achieved recovery from a mental health disorder. Peer support specialists will use their recovery experience to mitigate further adverse outcomes while simultaneously enhancing positive treatment outcomes associated with mental health conditions.

b. What are the activities and services that will be provided to meet the intended purpose of these funds?

Peer Specialist will function as a role model to peers; exhibiting competency in personal recovery and use of coping skills; serve as a consumer advocate, providing consumer information and peer support for clients in outpatient and inpatient settings. The Peer Specialist will perform a wide range of tasks to assist peers of all ages, from young adult to old age, in regaining independence within the community and mastery over their own recovery process.

c. How will the funds be expended?

d. What are the direct services to be provided to citizens by the appropriations project?

Assist clients in articulating personal goals for recovery through the use of one-to-one and group sessions. During these sessions the Peer Specialist will support clients in identifying and creating goals and developing recovery plans with the skills, strengths, supports and resources to aid them in achieving those goals. Assist clients in working with their case manager or treatment team in determining the steps he/she needs to take in order to achieve these goals and self-directed recovery. Assist clients in setting up and sustaining self-help (mutual support) groups, as well as means of locating and joining existing groups. Utilize tools such as the Wellness Recovery Action Plan (WRAP) to assist clients in creating their own individual wellness and recovery plans. Use ongoing individual sessions to teach clients how to identify and combat negative self-talk and how to identify and overcome fears by providing a forum which allows individuals to share their experiences.

e. Who is the target population served by this project? How many individuals are expected to be served?

Adults experiencing mental health and substance abuse illness. Minimum number of individuals served: 120

f. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Consumers participating in the Peer Recovery Program will have an increase in income, linked to entitlement or other benefits through employment. This will be measured by the number and percent of consumers who have had an increase in income, linked to entitlement, or other benefits through employment. (2) Decrease readmissions to CSU by not having readmission while participating in the Peer Recovery Program. This will be measured by tracking individual and aggregate admission data into crisis stabilization units. (3) Decrease
readmissions and use of deep end services (i.e. CSU, Detox) by not having readmission while participating in the Peer Recovery Program. This will be measured by tracking individual and aggregate admissions data into crisis stabilization units.

g. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract? Standard penalties should apply.
