| <ol> <li>Program Performand</li> </ol> | e |
|--|---|
|--|---|

| 1. | Program Performance  |
|----|--|
| а. | What specific purpose or goal will be achieved by the funds requested?   |
|    | This program assists individuals experiencing homelessness primarily due to economic factors who need a little assistance beyond housing itself. Rapid Rehousing quickly gets a family/individual who is experiencing homelessness off of the street and has been proven nationally that up to 85% of participants do not return to homelessness.  |
| b. | What activities and services will be provided to meet the intended purpose of these funds?   |
|    | This program will provide time-limited direct financial assistance for move-in expenses, rent, deposits, utilities, and other related costs. Those served will receive ongoing case management before, during, and after the Rapid Rehousing Program including regular assessments to determine their level of self-sufficiency and progress toward achieving stable housing.  |
| C. | What direct services will be provided to citizens by the appropriation project?  |
|    | The services provided to citizens include short-term or medium-term rental assistance, including utility deposit assistance, and appropriate support services with case management to help homeless individuals/families achieve self-sufficiency.   |
| d. | Who is the target population served by this project? How many individuals are expected to be served?   |
|    | Approximately 50 families and individuals experiencing homelessness.   |
| e. | What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?   |
|    | The expected benefit is those helped will achieve self-sufficient stable housing. This will be measured by ongoing case management for clients served annually as well as regular assessments to determine the level of self-sufficiency and progress toward achieving stable housing. This methodology reduces the long-term stress on shelter beds by saving them for the homeless population that requires more comprehensive assistance. |
| f. | What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?   |
|    | Reimbursement should be withheld for services not properly documented.   |
