11. Program Performance
   a. What specific purpose or goal will be achieved by the funds requested?
      The goal of this project is to install a lift station out by the Interstate in Gretna Florida. There will be the installation of new forcemain with this project to connect the I-10/Gretna interchange.

   b. What activities and services will be provided to meet the intended purpose of these funds?
      The City currently does not have any sewer running out the the interstate. This project will bring availability of public sewer on the south side of I-10 will become available.

   c. What direct services will be provided to citizens by the appropriation project?
      By installing this lift station and appropriate forcemain, it will allow the businesses that are existing the opportunity to be hooked up to city sewer.

   d. Who is the target population served by this project? How many individuals are expected to be served?
      The target population to be served is all the residents of the City of Gretna, and all that get off and that intersection.

   e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?
      The availability of sewer in this area will be the method of measurement.

   f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?
      The Auditor General audits for both the City and state agencies.
12. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.

The Gretna City Commission will be the owners of the facility.
