## Local Funding Initiative Request

### Fiscal Year 2020-2021

LFIR # 1572

1. **Project Title**
2. **Senate Sponsor**
3. **Date of Request**

4. **Project/Program Description**

This project is for the reconstruction of NE 35th Avenue between SR 826 and NE 170th Street. The construction work will address deterioration due to the effects of salt water intrusion from the king tides that have caused damage to the steel drainage pipes. Many of these underground pipes have eroded and the collapse has caused destabilization of the pavement, occasional sinkholes, and damage to the adjacent sidewalk and curbing. This, coupled with the fact that the roadway has reached its design life, requires that the roadway be reconstructed. The project will also address ADA ramps at intersections, traffic calming, and construction of new bike lanes.

#### 11. Program Performance

- a. What specific purpose or goal will be achieved by the funds requested?

Funding for this project will address the minor elevation of a roadway, pavement reconstruction and stabilization, provide new dedicated bicycle lanes, and provide new ADA accessible sidewalks, ramps, and crosswalks.

- b. What activities and services will be provided to meet the intended purpose of these funds?

Roadway pavement sections (subgrade, limerock, and asphalt) will be reconstructed and will include a geosynthetic base reinforcing material to slow the roadway settlement.

- c. What direct services will be provided to citizens by the appropriation project?

Citizens will be able to take full advantage of a new, smooth roadway which will address slope corrections (a result of the pavement settlement), pavement reconstruction, traffic calming, sidewalk and curb reconstruction, new bike lanes, and ADA ramps.

- d. Who is the target population served by this project? How many individuals are expected to be served?

Target population includes the general population as well as physically disabled persons of the community.

- e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Safer roadway, smoother ridability, and increased mobility. This will be measured by less resident issues and less accidents.

- f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

The bid award for construction will include provisions for liquidated damages within the contract agreement.
