Total State Funds Re	quested (must equal total from question #6)	585,000

LFIR # 2073

11. Program Performance

a.	What specific purpose or goal will be achieved by the funds requested?
	The replacement of 11 kitchen walk-in storage freezers and coolers will allow the city to minimize the loss of food provisions and
	USDA commodities stored at the kitchen facility. It will ultimately ensure that the city's emergency response teams and local resident

	have an adequate supply of ice, water, and food during times of crisis. The project will also ensure continued supply of meals to over 6,000 students in the Pembroke Pines Charter School System in compliance with the National School Lunch Program (NSLP).
b.	What activities and services will be provided to meet the intended purpose of these funds?
	Replacement of 11 inefficient kitchen walk-in storage freezers and coolers at the Howard C. Forman Kitchen in the City of Pembroke Pines that have exceeded their useful lives.
C.	What direct services will be provided to citizens by the appropriation project?
	Emergency preparedness. Provision of food, water, and ice to residents and emergency responders during times of crisis. Continued compliance with National School Lunch Program standards for 6,000 students in the Pembroke Pines Charter School System with minimized loss of food and other commodities stored at the facility.
d.	Who is the target population served by this project? How many individuals are expected to be served?
	Residents in the City of Pembroke Pines (est. population of over 171,000) and surrounding areas will benefit from enhanced emergency preparedness and response. Students and faculty in the Pembroke Pines Charter School System will also benefit from minimized loss of food and USDA commodities stored at the facility currently used to serve students in compliance with the National School Lunch Program.
e.	What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?
	Benefit: Minimize loss of food products due to spoilage, which in turn reduces over purchasing of food products because of food spoilage. Efficient freezers reduce loss of water and ice, essentials needed during emergencies. Measurement: Monitoring and tracking of food spoilage. Tracking of labor costs associated with throwing away spoiled food products.
f.	What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?
	Failure to meet deliverables and performance measures will result in reduction or total loss of funding.
