4. Project/Program Description

The City of Gretna is in need of a 300,000 gallon water tank and booster pump station near Interstate 10 and Highway 12, in the city, to provide economic development related water supply, water pressure, and fire flow capacity. The city is currently working with a company that is nearing the final development stage of a development that consist of a \$17 million capital investment and the creation of 45 new jobs. The city is also working with a company that is in the due diligence phase for a manufacturing company that anticipates a capital investment of \$70 million and the creation of up to 650 new jobs. The first company anticipates a daily water need of 22,000 gallons per day. The City also provides a portion of the daily water needs for the Town of Greensboro and the proposed water booster station tank and pumps will maintain and provide additional fire flow capacity to the town. The City of Gretna has already completed the engineering design and permitting for this project.
