Hearing Report

Date: August 17, 2011

City: South Miami

Location: Florida International University College of Law

Time: 6:00pm-9:00pm

Number of Speakers: 68

Total Attendance: 137

The public hearing in South Miami took place at the Florida International University's Law School Auditorium in Rafael Diaz-Balart Hall (11200 SW 8th St., Miami, FL 33199). Prior to the meeting, a map with directions to the hearing and parking instructions was posted on the internet. Legislative staff posted signs outside the building and the room to provide directions to the hearing, and was on hand to answer questions and display district building software outside the meeting room.

The hearing was advertised in The Sun-Sentinel August 14 and 15, in The Miami Herald August 14 and 16, and in El Nuevo Herald August 14. Each chamber's website published the public notice, and social media websites invited the public to the hearing as well. Senate staff sent invitations to more than 30 school board officials, over 50 county commissioners, administrators, and personnel under local supervisors of elections. Over 620 city-level elected officials in South Florida and more than 240 public interest group leaders received invitations encouraging leaders and the groups they represent to attend the hearing.

The hearing was streamed live on The Florida Channel's website, recorded, and subsequently re-aired. There were 10 senators and 23 representatives present at the hearing chaired by Representative Weatherford. Of the 137 people who filled out attendance cards 68 indicated they wanted to speak at the hearing.

After hearing testimony and gathering input from the public, legislators at the meeting were given an opportunity to comment.

REDISTRICTING · 2012

ABOUT REDISTRICTING

After each decennial Census, the Legislature redraws the districts from which voters elect their public officials. In general, districts are redrawn to accommodate population changes and ensure that district populations are as nearly equal in number as practicable.

There will be opportunities for citizen participation during public hearings, interim committee meetings, and the 2012 Session.

REDISTRICTING LAW

The United States Constitution, the federal Voting Rights Act of 1965, and the Florida Constitution each regulate redistricting. Under the United States Constitution, district populations must be as nearly equal as practicable. In addition, race may not be the predominant factor in drawing lines, unless the use of race is narrowly tailored to achieve a compelling interest.

The Voting Rights Act requires the creation of a district that performs for racial minorities where (1) a minority population is geographically compact and sufficiently numerous to be a majority in a single district; (2) the minority population is politically cohesive; (3) the majority votes sufficiently as a bloc to enable it usually to defeat the minority-preferred candidate; and (4) under all of the circumstances, the minority population has less opportunity than others to participate in the political process and elect representatives of its choice.

The Voting Rights Act applies additional requirements to districts that include any part of Collier, Hardee, Hendry, Hillsborough, or Monroe County. In these districts, the Voting Rights Act prohibits purposeful discrimination and protects against retrogression—or backsliding—in the ability of racial minorities to elect representatives of their choice. To ensure compliance with these requirements, the redistricting plan must be submitted to and precleared by a federal court or the United States Department of Justice before it may be enforced.

The Florida Constitution requires that districts be contiguous. A district is contiguous if all of its territory is in actual contact, uninterrupted by the territory of another district. Contact at a corner or right angle is insufficient, but territory may cross bodies of water. The Constitution allows state legislative districts to overlap, either partially or entirely.

THE NUMBERS

In 2012, the Legislature will redraw the state's congressional districts as well as districts for Florida House and Florida Senate seats. The number of congressional districts in Florida will increase from 25 to 27. The number of Florida House seats must be between 80 and 120, while the number of Florida Senate seats must be between 30 and 40. Currently, the Florida House and Florida Senate contain 120 members and 40 members, respectively. If these numbers are maintained, the average population of a Florida House district will be 156,678, while the average population of a Florida Senate district will be 470,033. Each congressional district will contain approximately 696,345 people.

PUBLIC COMMENTS

The Legislature will draw lines in accordance with the standards in federal and state law and traditional redistricting principles not inconsistent with those standards. To this end, the Legislature encourages public testimony directed to the following points:

- The full implementation of the protections afforded by the Amendments to racial and language minorities, including continuance of the Legislature's long-established policy to preserve or enhance the number of performing minority districts.
- The various measures of compactness, from geometric calculations to a broad consideration of how communities relate to one another, for example through commerce, transportation, and communication—in order to promote the creation of effective representational units.

REDISTRICTING 2012

- The feasibility of using political and geographical boundaries in the formation of districts, in light of other standards such as the equality of district populations, the protection of racial and language minorities, and compactness.
- To the extent not inconsistent with the Amendments, the desire to preserve the cores of existing districts or the proper placement of communities of interest in districts, as determined by local circumstances and voter preferences.

This approach, together with public testimony, research, and facts developed throughout the redistricting process, will result in the adoption of redistricting plans that have the intent and result of full compliance with all legal mandates, including Amendments 5 and 6, and of effective and meaningful representation for all voters in the State of Florida.

Citizens from all parts of the state can visit the House website (www.floridaredistricting.org) and the Senate website (www.flsenate.gov/Redistricting), to learn about creating and submitting their own House, Senate, and congressional maps, and to participate actively in the most open, transparent, and interactive redistricting ever.

LEGAL REVIEWS

After enactment, state senatorial and representative districts are reviewed by the Florida Supreme Court.

Congressional districts are set by an act of the Legislature subject to the Governor's approval. All redistricting plans must be submitted to and precleared by a federal court or the United States Department of Justice.

REDISTRICTING MILESTONES

- JUNE 20 - SEPTEMBER 1, 2011: STATEWIDE PUBLIC HEARINGS
- SEPTEMBER - DECEMBER 2011: INTERIM COMMITTEE MEETINGS
- JANUARY 10 - MARCH 9, 2012: REGULAR SESSION
- FEBRUARY - JUNE 2012: LEGAL REVIEWS
- JUNE 4 - 8, 2012: QUALIFYING FOR STATE AND FEDERAL OFFICES
- AUGUST 14, 2012: PRIMARY ELECTION
- NOVEMBER 6, 2012: GENERAL ELECTION

SENATE COMMITTEE ON REAPPORTIONMENT

 to learn more about creating and
 submitting your own house, senate,
 and congressional maps.

Draw and Submit Your Own Districts

District Builder is a full-featured web application with 2010 Census data for drawing Florida Senate, Florida House, and Congressional districts and submitting them to the Legislature. Submitting your plan is one of the best ways to show what works for your community. Citizens have full and easy access to the same web application and information that Senators and professional staff use.

To start using District Builder you need:

- A personal account. Choose “**District Builder**” at www.flsenate.gov/Redistricting to register.
- Display resolution of 1024 x 768 or higher.
- A broadband Internet computer and mouse. Firefox (3.6 and 4.0) and Internet Explorer (7 and 8) are supported (Internet Explorer 9 and Opera are not). Your browser must be set to allow JavaScript and pop-ups from “flsenate.gov.”

For full details, see <https://db10.flsenate.gov/db1/help>.

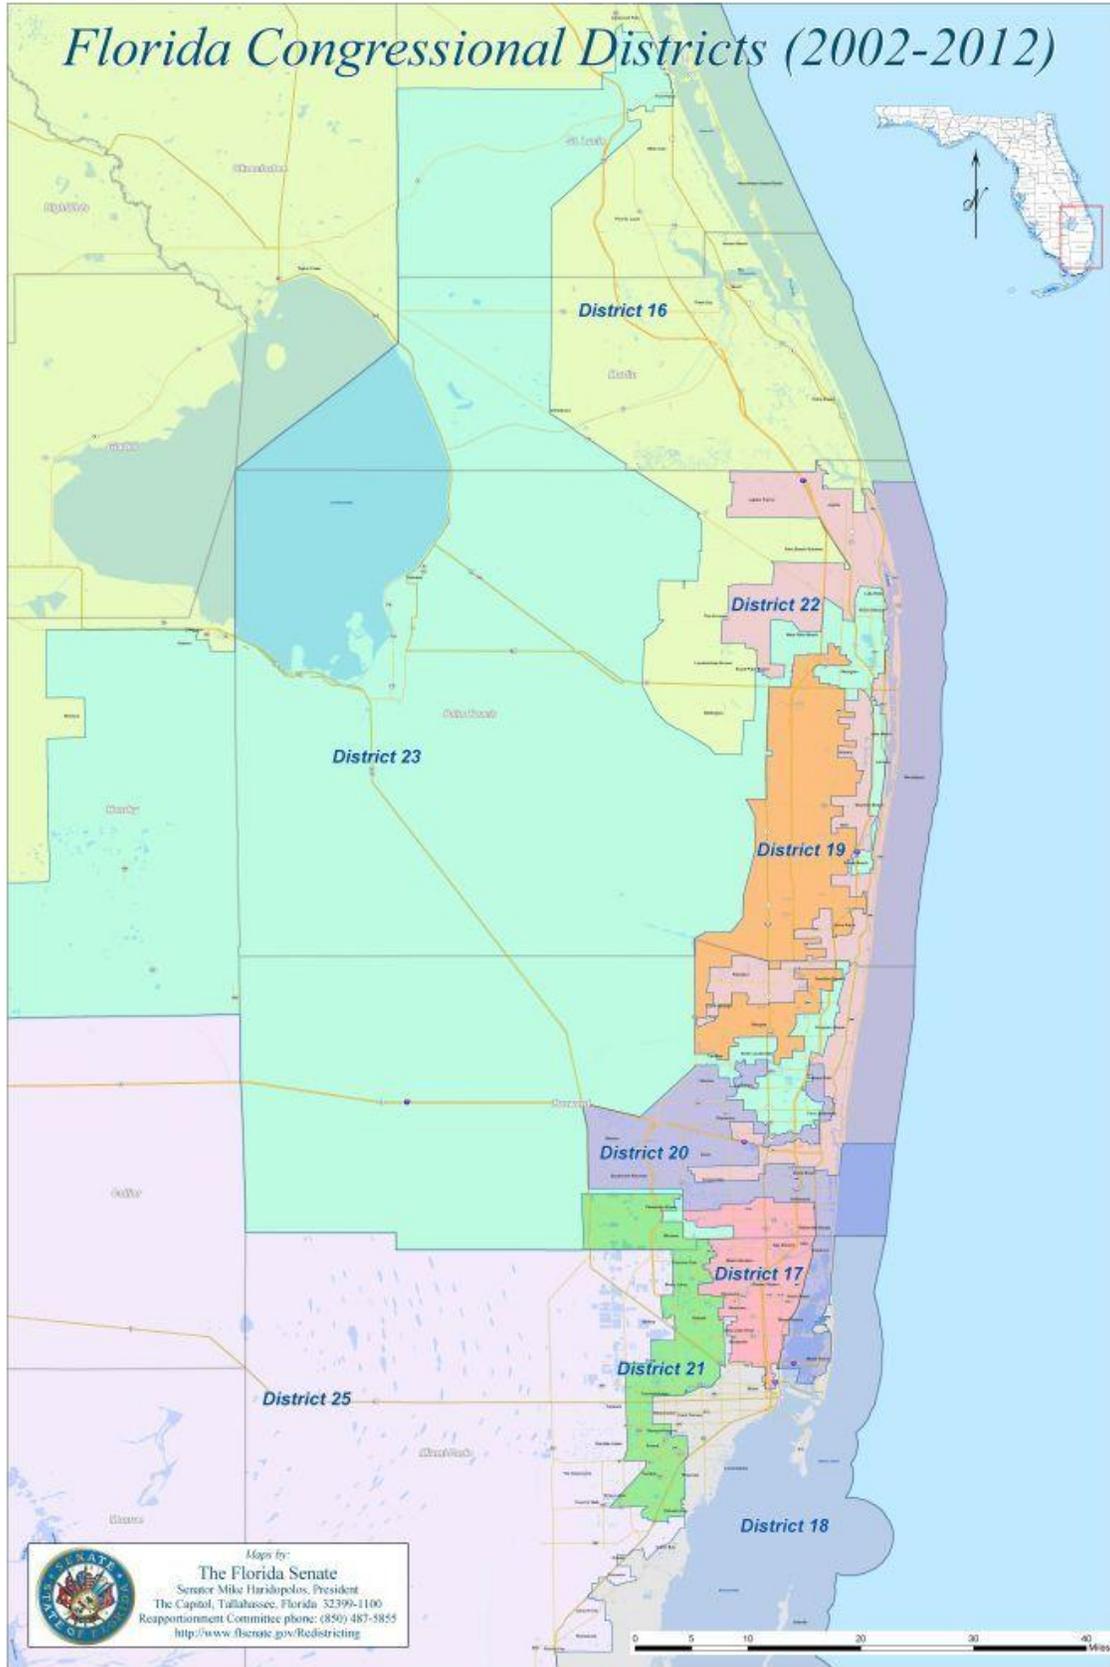

When you decide to submit your plan for public consideration, it will be published at <http://www.flsenate.gov/Session/Redistricting/Plans> with a standard set of interactive map links, reports, downloads, and maps. Otherwise, your personal plans are stored on secure servers and exempt from inspection and copying. See § 11.0431(2)(e), Fla. Stat.

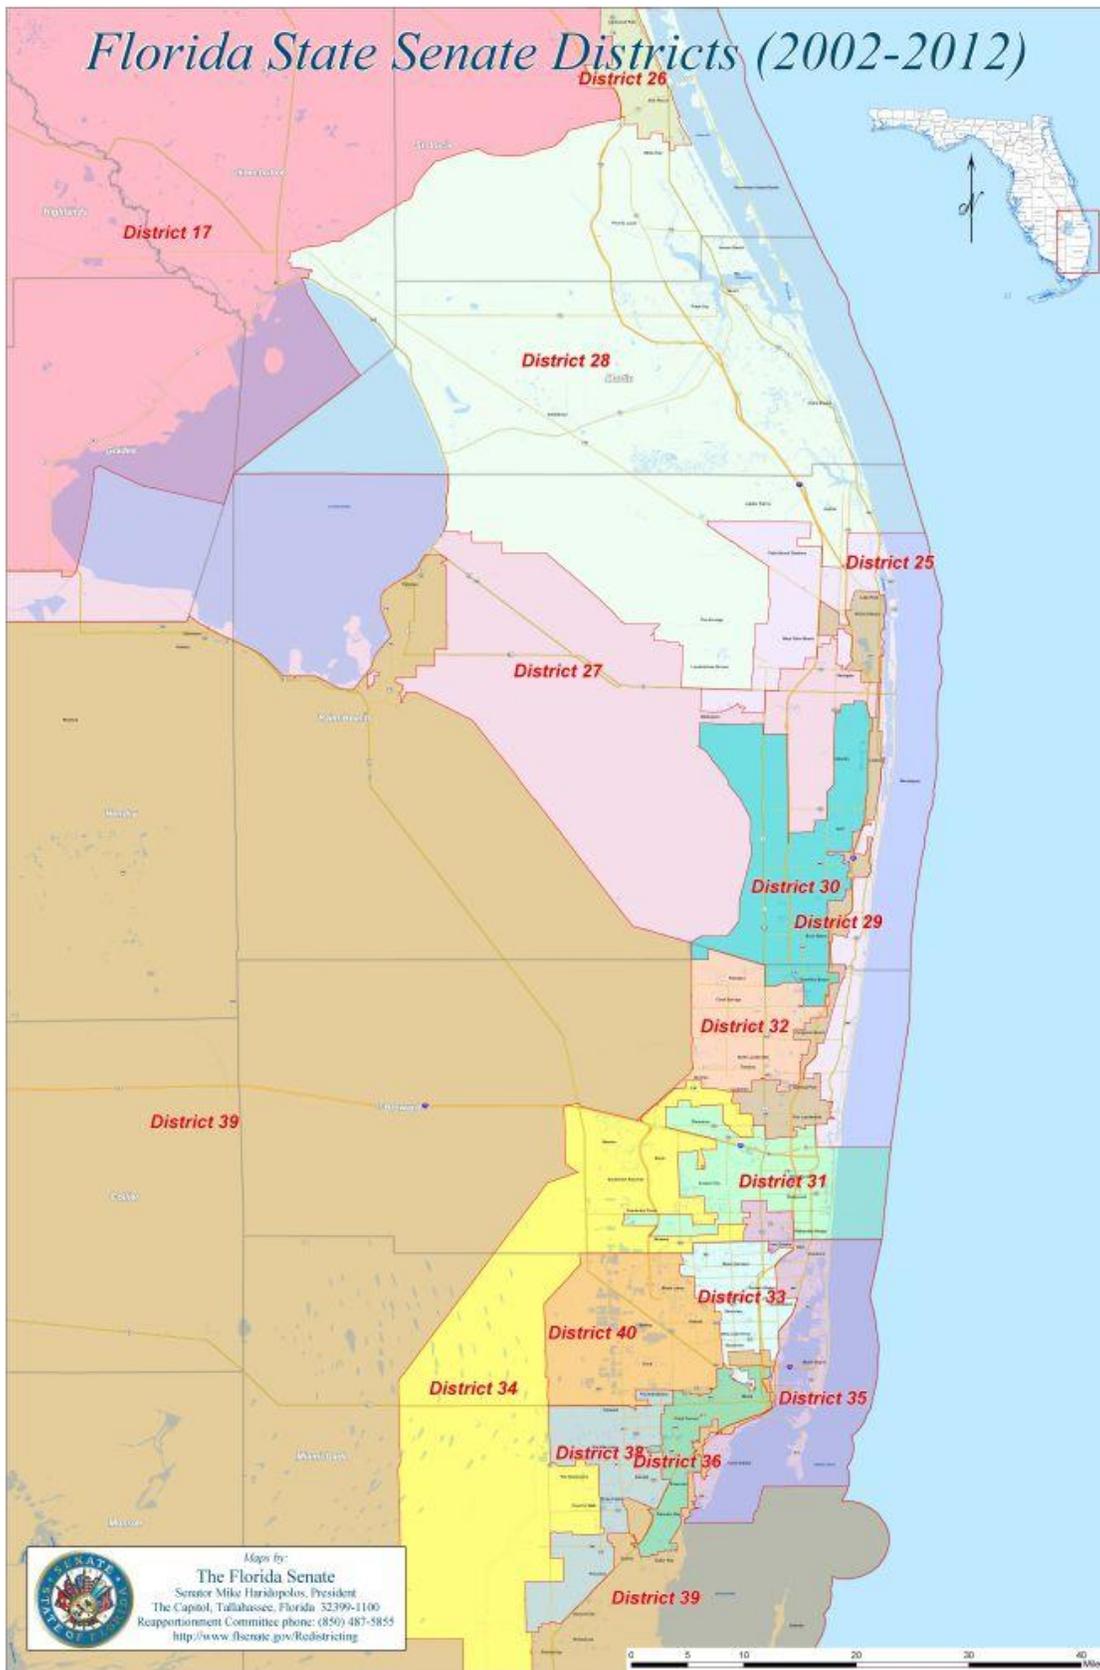

The Florida House of Representatives is building its own web application. To learn about “MyDistrictBuilder,” see www.floridaredistricting.org. The fact that the Senate and House systems are different is a plus. Each has unique features, and citizens can choose which better meets their needs.

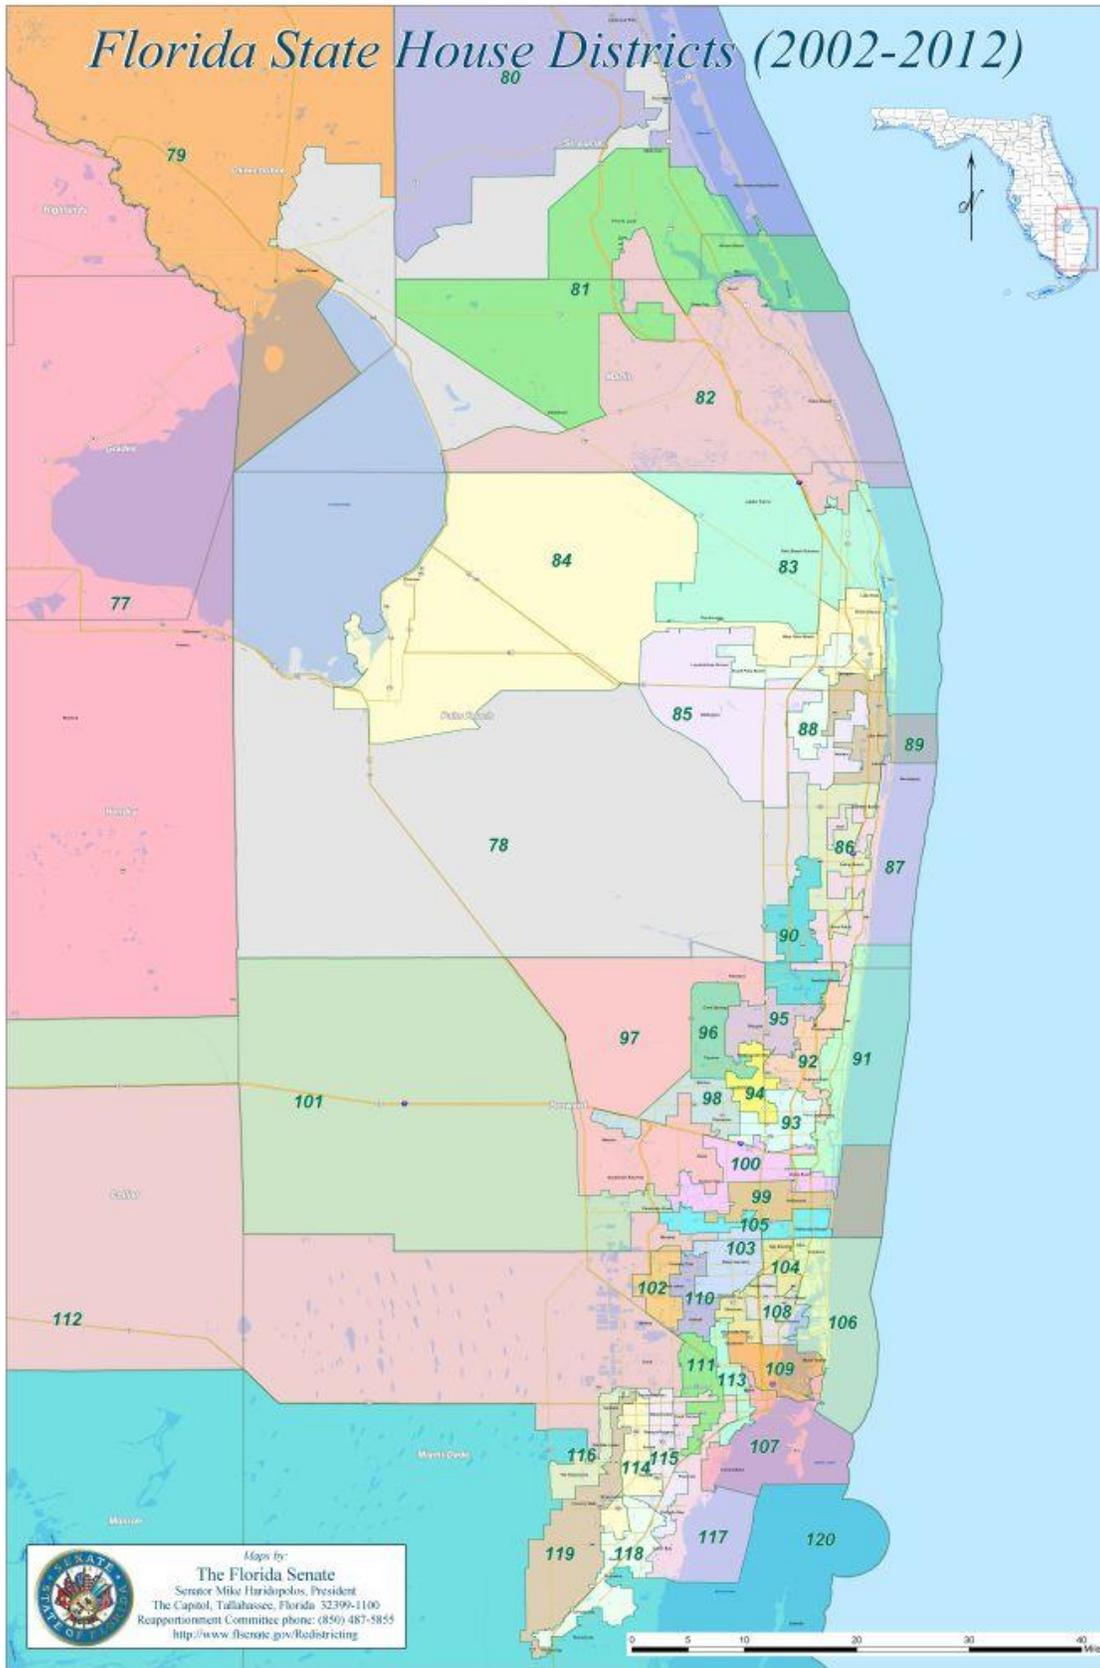

Full-featured redistricting systems typically cost thousands of dollars per user. The overarching goal shared by the Florida Senate and Florida House is giving everyone free and easy access to all the same tools and data the Legislature is using.

With innovative technologies and joint [public hearings](#), the Florida Legislature is promoting the most open, accessible, and interactive redistricting ever.
