Senator Constantine moved the following:

**Senate Amendment**

Delete lines 705 - 725  
and insert:

(g) By January 1, 2012, the amount of construction and demolition debris processed and recycled prior to disposal at a permitted materials recovery facility or at any other permitted disposal facility shall be reported by the county of origin to the department and to the county on an annual basis in accordance with rules adopted by the department. The rules shall establish criteria to ensure accurate and consistent reporting for purposes of determining the recycling rate in s. 403.706. The rules also shall provide that, to the extent economically

586460

14 feasible, all construction and demolition debris must be  
15 processed prior to disposal, either at a permitted waste  
16 processing facility or a permitted disposal facility. It shall  
17 be presumed that recycling pursuant to the requirements of this  
18 paragraph is economically feasible unless otherwise demonstrated  
19 by the owner or operator of the facility pursuant to department  
20 rule. This requirement does not apply to any recovered materials  
21 that have been source separated and offered for recycling or to  
22 materials that have been previously processed. As part of the  
23 rule development process, the department shall appoint a  
24 technical advisory committee including a representative from the  
25 Florida Association of Counties, the Florida League of Cities,  
26 the construction and demolition debris industry, the Florida  
27 Home Builders Association, the Florida Sunshine Chapter of the  
28 Solid Wastes Association of North America, and the Florida  
29 Chapter of the National Solid Waste Management Association, to  
30 aid in the development of such rules. It is the policy of the  
31 ~~Legislature to encourage facilities to recycle. The department~~  
32 ~~shall establish criteria and guidelines that encourage recycling~~  
33 ~~where practical and provide for the use of recycled materials in~~  
34 ~~a manner that protects the public health and the environment.~~  
35 ~~Facilities are authorized to recycle, provided such activities~~  
36 ~~do not conflict with such criteria and guidelines.~~
