The Legislature intends that uniform reporting requirements be developed specifically to promote
accountability and transparency in the use of public funds. In order to accommodate the different financial management systems currently in use, separate charts of account may be used as long as the financial information is captured and reported consistently and is compatible with any reporting entity.

(f) “State and local government financial information” means the assets, liabilities, equities, revenues, and expenditure information that is recorded in financial management systems of state agencies, local governments, educational entities, and entities of higher education.

(3) REPORTING STRUCTURE.—

(a) Beginning October 1, 2011, the Chief Financial Officer shall conduct workshops with state agencies, local governments, educational entities, entities of higher education, and the Legislature to gather information pertaining to uniform statewide reporting requirements to be used to develop charts of account by the Chief Financial Officer. Proposed charts of account shall be published by July 1, 2013.

(b) The Chief Financial Officer shall accept comments from state agencies, local governments, educational entities, entities of higher education, and other interested parties regarding the proposed charts of account until November 1, 2013.

(c) By January 1, 2014, the Chief Financial Officer, after consultation with affected state agencies, local governments, educational entities, entities of higher education, and the Auditor General, shall adopt charts of account which:

1. Require specific enterprise-wide information;
2. Allow additional agency-specific information;
3. Require uniform reporting for expenditures and revenues by state agencies, local governments, educational entities, and entities of higher education; and
4. To the maximum extent possible, require at least two additional levels of specificity on the expenditure of public funds.

(d) Each state agency, local government, educational entity, and entity of higher education must implement the applicable charts of account adopted pursuant to paragraph (c) during the next fiscal year beginning on July 1, 2014.

(e) The Chief Financial Officer shall periodically update the charts of account on an as-needed basis. The Chief Financial Officer shall perform an annual review of the validity and usefulness of the data reported and, after consultation with the Legislature, the Auditor General, and the affected reporting state agencies, local governments, educational entities, and entities of higher education, shall determine whether modification of reporting requirements is necessary.
