COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 954 repeals s. 948.11(7), F.S., and moves its provisions into newly created s. 843.23, F.S. This section makes it a third degree felony for a person to intentionally, and without authority remove, destroy, alter, tamper with, damage, or circumvent the operation of an electronic monitoring device that must be worn or used by that person or another person pursuant to a court order or an order by the Florida Commission on Offender Review.

The bill also makes it a third degree felony for a person to request or solicit another person to remove, destroy, alter, tamper with, damage, or circumvent the operation of an electronic monitoring device.

II. Present Situation:

Section 948.11, F.S., provides that the Department of Corrections (department) may, at its discretion, electronically monitor an offender sentenced to community control. Any offender who violates the terms of community control and is restored to community control may be supervised by an electronic monitoring device.

Electronic monitoring may also be a condition of a court or commission order for probationers, community controllees, or conditional releasees who have current or prior convictions for violent or sexual offenses. A system that actively monitors and identifies the offender's locations and

timely reports or records the offender's presence near or within a crime scene or in a prohibited area or the offender's departure from specified geographic limitations must be used.¹

The department may contract with local law enforcement agencies to assist in the location and apprehension of offenders who are in noncompliance as reported by the electronic monitoring system.² Any person who intentionally alters, tampers with, damages, or destroys any electronic monitoring equipment pursuant to court or commission order, unless the person is the owner of the equipment or an agent of the owner performing ordinary maintenance and repairs, commits a third degree felony.³

According to the department's December 2015 Monthly Status Report on the Community Supervision Population, there were 4,458 offenders on electronic monitoring.⁴

Offenders Tracked by Electronic Monitoring December 2015							
Supervision Type	Sex Offenders**	Others	Total				
Community Control	164	965	1,129				
Post Prison	215	149	364				
Probation	2,352	613	2,965				
Total Active Global Positioning	2,731	1,727	4,458				

^{*} Includes Active and Active-Suspense offenders.

III. Effect of Proposed Changes:

The bill repeals s. 948.11(7), F.S., and moves its provisions into newly created s. 843.23, F.S. This section makes it a third degree felony for a person to knowingly, and without authority remove, destroy, alter, tamper with, damage, or circumvent the operation of an electronic monitoring device that must be worn or used by that person or another person pursuant to a court order or pursuant to an order by the Florida Commission on Offender Review.

The bill also makes it a third degree felony for a person to request or solicit another person to remove, destroy, alter, tamper with, damage, or circumvent the operation of an electronic monitoring device.

The bill provides that "electronic monitoring device" as used in this section includes any device that is used to track the location of a person.

The bill amends s. 948.11(1), F.S., to clarify that the Department of Corrections may electronically monitor offenders sentenced to community control when the court has imposed electronic monitoring as a condition of community control.
