I. Summary:

SB 1156 updates Florida's corporate Income Tax Code by adopting the Internal Revenue Code in effect on January 1, 2017.

The bill takes effect upon becoming law and operates retroactively to January 1, 2017.

The Revenue Estimating Conference has estimated that the bill will have an indeterminate impact on General Revenue collections.

II. Present Situation:

Florida imposes a 5.5 percent tax on the taxable income of corporations and financial institutions doing business in Florida.¹ The determination of taxable income for Florida tax purposes begins with the taxable income determined for federal income tax purposes.² Additional adjustments are then made to determine Florida's taxable income. By starting with federal taxable income, Florida eases the administrative burden on Florida taxpayers.

Florida maintains this relationship with the federal Internal Revenue Code by each year adopting the federal Internal Revenue Code as it exists on January 1 of the year. By doing this, Florida adopts any changes that were made in the previous year to the determination of federal taxable income.

III. Effect of Proposed Changes:

The bill updates Florida's corporate Income Tax Code to reflect changes in the federal Internal Revenue Code. The bill takes effect upon becoming a law and operates retroactively to January 1, 2017.
