From the funds in Specific Appropriations 7 and 91, \$1,078,156,086 is provided to school districts as an Exceptional Student Education (ESE) Guaranteed Allocation as authorized by law to provide educational programs and services for exceptional students. Funds provided for gifted educational programs and services must primarily be focused on advanced mathematics and science curriculum and enrichment with instruction provided by an in-field teacher. The ESE Guaranteed Allocation funds are provided in addition to the funds for each exceptional student in the per FTE student calculation. School districts that provided educational services in the 2016-2017 fiscal year for exceptional students who are residents of other districts shall not discontinue providing such services without the prior approval of the Department of Education. Expenditure requirements for the ESE Guaranteed Allocation shall be as prescribed in section 1010.20(3), Florida Statutes, for programs for exceptional students.

From the funds provided in Specific Appropriations 7 and 91, the value of 43.35 weighted FTE students is provided to supplement the funding for severely handicapped students served in ESE programs 254 and 255 when a school district has less than 10,000 FTE student enrollment and less than three FTE eligible students per program. The Commissioner of Education shall allocate the value of the supplemental FTE based on documented evidence of the difference in the cost of the service and the amount of funds received in the district's FEFP allocations for the students being served. The supplemental value shall not exceed three FTE.

The Declining Enrollment Supplement shall be calculated based on 25 percent of the decline between the prior year and current year unweighted FTE students pursuant to section 1011.62(8), Florida Statutes.

From the funds in Specific Appropriations 7 and 91, \$64,456,019 is provided for Safe Schools activities and shall be allocated as follows: \$62,660 shall be distributed to each district, and the remaining balance shall be allocated as follows: two-thirds based on the latest official Florida Crime Index provided by the Department of Law Enforcement and one-third based on each district's share of the state's total unweighted student enrollment. Safe Schools activities include: (1) after school programs for middle school students; (2) middle and high school programs for correction of specific discipline problems; (3) other improvements to enhance the learning environment, including implementation of conflict resolution strategies; (4) behavior driven intervention programs that include anger and aggression management strategies; (5) alternative school programs for adjudicated youth that may include a web-based virtual system that results in mastery and certification, competency or credentials in the following inter-related counseling disciplines necessary for success in education and the work environment, including adjustment, educational, employment and optimal mental health areas that will include, but are not limited to, anger and impulse control, depression and anxiety, self-esteem, respect for authority, personal behavior, goal setting, time and stress management, social and workplace adjustment, substance use and abuse, workplace soft skills, communication skills, work ethic, the importance of timeliness, attendance and the self-marketing skills for future educational and/or employment opportunities; (6) suicide prevention programs; (7) bullying prevention and intervention; (8) school resource officers; and (9) detection dogs. Each district shall determine, based on a review of its existing programs and priorities, how much of its total allocation to use for each authorized Safe Schools activity. The Department of Education shall monitor compliance with reporting procedures contained in section 1006.147, Florida Statutes. If a district does not comply with these procedures, the district's funds from the Safe Schools allocation shall be withheld and reallocated to the other school districts. From the funds in Specific Appropriations 7 and 91, \$746,973,316 is for Supplemental Academic Instruction to be provided throughout the school year pursuant to section 1011.62 (1)(f), Florida Statutes. From these funds, at least \$75,000,000, together with funds provided in the district's research-based reading instruction allocation and other available funds, shall be used by districts with one or more of the 300 lowest performing elementary schools based on the statewide,

SECTION 2 - EDUCATION (ALL OTHER FUNDS)

standardized English Language Arts assessment to provide an additional hour of instruction beyond the normal school day for each day of the entire school year and a 60-hour summer school program for intensive reading instruction for the students in each of these schools. Also, beginning in the 2017-2018 fiscal year, schools that have improved student performance and are no longer on the 300 lowest performing list shall continue to provide the program, including the new summer school component, for two additional years. This additional instruction must be provided by teachers or reading specialists who are effective in teaching reading, or by a K-5 mentoring reading program that is supervised by a teacher who is effective at teaching reading. Students enrolled in these schools who have level 5 reading assessment scores may choose to participate in the program on an optional basis. ESE centers shall not be included in the 300 schools.

The Department of Education shall provide guidance to school districts for documentation of the expenditures for this additional instruction to ensure that all local, state, and federal funds are maximized for the total instructional program and that the funds used in these schools do not supplant federal funds. School districts shall submit a report to the Department of Education in a format prepared by the department that includes summary information, including funding sources, expenditures and student outcomes for each of the participating schools that shall be submitted to the Speaker of the House of Representatives, President of the Senate, and Governor by September 30, 2017. Pursuant to section 1008.32, Florida Statutes, the State Board of Education shall withhold funds from a school district that fails to comply with this requirement.

The funds provided for the Supplemental Academic Instruction allocation shall consist of a base amount that shall have a workload adjustment based on changes in FTE. In addition, an additional amount is provided for districts with schools on the list of the 300 lowest-performing elementary schools and for schools with improved performance that will continue the program for two years. District allocations from these additional funds shall be based on the Fiscal Year 2015-2016 reported total expenditures for the program, each district's level of per student funding in the reading instruction allocation and the supplemental academic instruction categorical fund, and on the total FTE for each of the schools. The categorical funding shall be recalculated during the fiscal year following an updated designation of the 300 lowest-performing elementary schools and shall be based on actual student membership from the FTE surveys. If the recalculated total allocation is greater than the amount provided in the General Appropriations Act, the allocation shall be prorated to the level of the appropriation, based on each district's share of the total.

From the funds in Specific Appropriations 7 and 91, \$130,000,000 is provided for a K-12 comprehensive, district-wide system of research-based reading instruction. The amount of \$115,000 shall be allocated to each district and the remaining balance shall be allocated based on each district's proportion of the total K-12 base funding. From these funds, at least \$15,000,000 shall be used to provide an additional hour of intensive reading instruction beyond the normal school day for each day of the entire school year and a 60-hour summer school program for the students in the 300 lowest performing elementary schools based on the statewide, standardized English Language Arts assessment pursuant to sections 1008.22(3) and 1011.62(9), Florida Statutes. Also, beginning in the 2017-2018 fiscal year, schools that have improved student performance and are no longer on the 300 lowest performing list shall continue to provide the program, including the new summer school component, for two additional years. This additional instruction must be provided by teachers or reading specialists who are effective in teaching reading. Students enrolled in these schools who have level 5 reading assessment scores may choose to participate in the program on an optional basis. ESE centers shall not be included in the 300 schools. Pursuant to section 1008.32, Florida Statutes, the State Board of Education shall withhold funds from a school district that fails to comply with this requirement.

The growth allocation per FTE shall be \$315.20 for the 2017-2018 fiscal year. School districts shall pay for instructional materials used for the

instruction of public high school students who are earning credit toward high school graduation under the dual enrollment program as provided in section 1011.62(1)(i), Florida Statutes.

From the funds provided for Instructional Materials, \$165,000,000 shall be available to school districts to purchase instructional content, as well as electronic devices and technology equipment, and infrastructure. The purchases made in the 2017-2018 fiscal year must comply with the minimum or recommended requirements for instructional content, hardware, software, networking, security and bandwidth, and the number of students per device as developed and published by the Department of Education. Prior to release of the funds by the department to the school districts, each school district shall certify to the Commissioner of Education an expenditure plan for the purchase of instructional content and technology. If the district intends to use any portion of the funds for technology, the district must certify that it has the instructional content necessary to provide instruction aligned to the adopted statewide benchmarks and standards. If the district intends to use the funds for technology the district must include an expenditure plan for the purchase of electronic devices and technology equipment, and infrastructure that demonstrates the alignment of devices and equipment with the minimum or recommended requirements. The department shall provide a report to the Legislature on or before March 1, 2018, that summarizes the district expenditures for these funds.

The supplement shall be the sum of a student allocation and an exempt property allocation. To participate, districts must be eligible for federal Impact Aid funding under Section 8003, Title VIII of the Elementary and Secondary Education Act of 1965. The amount allocated for each eligible school district shall be recalculated during the year, using actual student membership, as amended, from the most recent February survey and the tax-exempt valuation from the most recent assessment roll. Upon recalculation, if the total allocation is greater than the amount provided in the General Appropriations Act, it must be prorated to the level of the appropriation based on each district's share of the total recalculated amount.

Districts may charge a fee for grades K-12 voluntary, non-credit summer school enrollment in basic program courses. The amount of any student's fee shall be based on the student's ability to pay and the student's financial need as determined by district school board policy.

From the funds in Specific Appropriations 7 and 91, \$60,000,000 is provided for the Digital Classrooms allocation as provided in 1011.62(12), Florida Statutes. SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

SPECIFIC
APPROPRIATION

The moneys contained herein are appropriated from the named funds to the Department of Corrections, Justice Administration, Department of Juvenile Justice, Florida Department of Law Enforcement, Department of Legal Affairs/Attorney General, and the Florida Commission on Offender Review as the amounts to be used to pay the salaries, other operational expenditures and fixed capital outlay of the named agencies.

CORRECTIONS, DEPARTMENT OF

From the funds in Specific Appropriations 582 through 756, each provider contracting with the Department of Corrections must provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents must include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate substantial compliance with the performance measures described in the contract.

The Department of Corrections shall continue to submit an annual report on the state prison system to the Governor and to the Legislature using a uniform format and uniform methodologies. The report shall include a comprehensive plan for current facility use and any departures from planned facility use, including opening new facilities, renovating or closing existing facilities, and advancing or delaying the opening of new or renovated facilities. The report shall include the maximum capacity of currently operating facilities and the potential maximum capacity of facilities that the department could make operational within the fiscal year. The report shall also identify appropriate sites for future facilities and provide information to support specified locations, such as availability of personnel in local labor markets. Reports should include updated infrastructure needs for existing or future facilities. Each report should reconcile capacity figures to the immediately preceding report. For the purpose of this paragraph, maximum capacity shall be calculated and displayed pursuant to section 944.023(1)(b), Florida Statutes. The department may provide additional analysis of current and future bed needs based on such factors as deemed necessary by the Secretary. The next report shall be due January 1, 2018.

From the funds in Specific Appropriations 582 through 756, the Department of Corrections shall prepare a report detailing the amount of overtime expended per facility; the number of positions in overlap, with justification for each overlapped position; and identifying the number of unfunded positions that may be eliminated. The report shall be submitted to the chair of the Senate Appropriations Committee and the chair of the House Appropriations Committee by January 1, 2018.

From the funds in Specific Appropriations 582 through 756, the Department of Corrections shall, before closing, substantially reducing the use of, or changing the purpose of any state correctional institution as defined in section 944.02, Florida Statutes, submit its proposal to the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, and the chair of the House Appropriations Committee for review.

From the funds in Specific Appropriations 582 through 756, the Department of Corrections may work within its existing budget, including applicable grants, to implement any corrective action plan that is developed as the result of a Prison Rape Elimination Act audit conducted in accordance with Title 23, Part 115 of the Code of Federal Regulations. The department may request additional resources required through the Legislative Budget Request process as defined in chapter 216, Florida Statutes.

Funds in Specific Appropriation 582 through 756 shall not be used to pay for unoccupied space currently being leased by the Department of Corrections in the event the leases are vacant on or after July 1, 2017, and for which it has been determined by the Secretary of the department that there is no longer a need.

JUVENILE JUSTICE, DEPARTMENT OF

From the funds in Specific Appropriations 1104 through 1184A, each provider who contracts with the Department of Juvenile Justice shall provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents shall include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

the department. Funds shall only be released to providers whose performance reports indicate substantial compliance with the performance measures described in the contract.

From the funds in Specific Appropriations 1104 through 1184A, the Department of Juvenile Justice shall establish a performance accountability system for each provider who contracts with the department for the delivery of services to children at-risk of future involvement in the criminal justice system, as determined by the department. The contract shall include both output measures, such as the number of children served, and outcome measures, such as program completion. The contractor shall report performance results annually to the department. The department's Office of Program Accountability shall summarize performance results from all contracts and report the information annually to the Legislature.

From the funds in Specific Appropriations 1104 through 1184A, the Department of Juvenile Justice must, before implementing any departmental reorganization plans, submit its proposal to the Governor's Office of Policy and Budget and to the Legislative Budget Commission for approval.

From the funds in Specific Appropriations 1104 through 1184A, the Department of Juvenile Justice may work within its existing budget, including applicable grants, to implement any corrective action plan that is developed as the result of a Prison Rape Elimination Act audit conducted in accordance with Title 23, Part 115 of the Code of Federal Regulations. The department may request additional resources required through the Legislative Budget Request process as defined in chapter 216, Florida Statutes.

From the funds in Specific Appropriations 1104 through 1184A, the Department of Juvenile Justice shall conduct a comprehensive statewide review of county-level data, including a gap analysis of services and programs available across all counties in the state, to evaluate the implementation of juvenile justice policies at the county level. As the result of such review, the department shall prepare a report that includes benchmarking of counties' performance on factors that demonstrate how a county is supporting the department's strategic goals of preventing and diverting more youth from entering the juvenile justice system; providing appropriate, less restrictive, community-based sanctions and services; reserving serious sanctions for youth who pose the greatest risk to public safety; and focusing on rehabilitation. The report shall also include recommendations and strategies that can be implemented by the department or counties to address any identified deficiencies and to assist in developing a statewide, coordinated response across all of Florida's communities to support the department's strategic goals. A copy of the report shall be submitted to the Governor, President of the Senate, and Speaker of the House of Representatives by January 1, 2018.

PROGRAM: RESIDENTIAL CORRECTIONS PROGRAM

From the funds in Specific Appropriations 1157 through 1171, the Department of Juvenile Justice shall provide a weekly residential resource utilization report that identifies operating capacity, current placements, vacant placements, number of youth awaiting placement, and the percent of use for all residential commitment beds. The department may increase or decrease beds or overlay services provided that the change will better serve taxpayers and the youth under its care. Notification and justification of changes will be provided to the Governor's Office of Policy and Budget, chair of the Senate Appropriations Committee, and chair of the House Appropriations Committee prior to implementing any change.

From the funds in Specific Appropriations 1157 through 1171, in selecting a private provider for operation of secure and non-secure residential programs, the Department of Juvenile Justice must consider the provider's history of performance of services in other jurisdictions as well as its performance of services in Florida. The department must also provide a report of serious incidents to the Governor, President of the Senate, and Speaker of the House of Representatives on no less than a quarterly basis. The report must include, at a minimum: the number of incidents and allegations of staff abuse or abuse by another child, including whether or not an allegation was substantiated; descriptions of incidents or allegations of such abuse that resulted in physical injury or significant psychological trauma, or that involved deprivation of food, water, or medical care; and the failure of a provider to report incidents or allegations within required timeframes established by the department. In addition, the department must conduct an independent review of each out-of-state provider before issuing a new contract. The report must be organized so that the incidents and allegations relating to a particular facility and to a particular provider can be readily ascertained. The department must also immediately report the death or serious bodily injury of a youth in a secure or non-secure residential program to the Governor, President of the Senate, and Speaker of the House of Representatives, and may make any additional reports that it determines to be appropriate based upon the seriousness of an incident or allegation.

The funds constitute the state's share of project costs and will be used to match up to 50% of the total costs, unless otherwise specified, with the balance being covered by federal and/or local funds. These projects are specifically identified as storm-damage recovery activities.

The Department of Environmental Protection is authorized to redistribute the funds appropriated in this act among projects as necessary, to effectively implement recovery and leverage, to the maximum extent possible, matching funds, including feasibility studies for projects in the hurricane impacted areas included in the BMFAP for the 2017-18 Fiscal Year.

WORKFORCE DEVELOPMENT

From the funds in Specific Appropriations 2195 through 2224, the Department of Economic Opportunity must determine if any funds provided for specific workforce programs, projects, or initiatives are not an allowable use of federal funds. If the department finds that any workforce program, project, or initiative for which funds are specifically appropriated in this act is not an allowable use of federal funds, the department must notify the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, and the chair of the House Appropriations Committee.

When allocating full-time equivalent (FTE) positions to individual regional workforce boards, the Department of Economic Opportunity must ensure that workforce services are effectively and efficiently provided throughout the state. The department is authorized to reallocate any FTE position allocated to a regional workforce board that has been or becomes vacant for more than 180 days. When reallocating a vacant FTE position, the department must give priority to a regional workforce board that would use the FTE position to provide additional services to veterans.

Funds in Specific Appropriation 3098 shall be distributed to county supervisors of elections to be used for election administration activities such as voter education; pollworker training; standardizing elections results reporting; or other federal election administrative activities as approved by the Department of State.

County supervisors of elections will receive funds only after providing the Department of State a detailed description of the programs that will be implemented. Funds distributed to county supervisors of elections require a certification from the county that matching funds will be provided in an amount equal to fifteen percent of the amount to be received from the state.

Also, before a county supervisor of elections receives funds for any software or hardware technology, including, but not limited to any emerging technology that enhances or facilitates the delivery of absentee ballots, the casting and counting of valid votes, voting system audits or recount processes, and the certification of accurate and complete official election results, the software or technology must first be certified or approved, whichever is applicable by the Department of State. Additionally, before the supervisor can receive funds for emerging or enhancing technology, the county supervisor of elections and the chairperson of the county governing body must certify that the county has purchased and made available sufficient equipment for casting and counting ballots to meet the needs of the county electors including reducing the wait time at the polls during the early voting period and on election day for the next regularly scheduled general election.

To be eligible, a county must segregate federal funds and required county matching dollars in a separate account established to hold only such funds. Funds in this account must be used only for the activities for which the funds were received. Funds shall remain in the account to be used for the same purposes for subsequent years or until such funds are expended. Supervisors of elections shall report to the Department of State any unspent funds remaining on June 30 of each fiscal year.
