DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES

The department shall submit a plan to the Governor's Office of Policy and Budget, the chair of the Senate Budget Committee, and the chair of the House Appropriations Committee by August 31 that allocates Specific Appropriations 1446, 1459, and 1471 to the relevant Salaries and Benefits, Other Personal Services, Expense, Operating Capital Outlay, and Contracted Services appropriation categories.

HOUSE HOUSE

PROGRAM: OFFICE OF THE COMMISSIONER AND  
ADMINISTRATION  
AGRICULTURAL WATER POLICY COORDINATION  
1335 SPECIAL CATEGORIES  
BEST MANAGEMENT PRACTICES - COST SHARE

Of the funds in Specific Appropriation 1335, \$50,000 in nonrecurring funds from the General Inspection Trust Fund is provided for the Association of Florida Conservation Districts' contract for support services to all Florida's Soil and Water Conservation Districts.

SENATE SENATE

Of the funds in Specific Appropriation 1335, \$4,000,000 in nonrecurring general revenue is provided for the Florida Water Quality Compliance and Improvement Best Management Practices project to adapt real-time radio frequency soil-sensor based systems from a limited research setting to deployment in agricultural fields to assess their effectiveness in irrigation decision-making, reduction in water use, and minimizing nutrient loss of nitrogen and phosphorous due to leaching and runoff. This project will include installing remote sensor systems in different field locations, calibrating the sensors to the fields, evaluating soil samples along a depth profile to determine moisture, nitrogen, and phosphorous content, and calculating daily water and nutrient uptake from different soil regions. The field data will be a concentration model for target crops that can be extended to the watershed level. Use of this model will augment weather, hydrologic, and water quality information for the development of improved best management practices for nutrient management and optimum irrigation scheduling for reduction of nutrient runoff and leaching.

Of the funds in Specific Appropriation 1335, \$3,500,000 in nonrecurring general revenue funds is provided for the Florida Water Quality Compliance and Improvement Best Management Practices project to adapt real-time radio frequency soil-sensor based systems from a limited research setting to deployment in agricultural fields to assess their effectiveness in irrigation decision-making, reduction in water use, and minimizing nutrient loss of nitrogen and phosphorous as a result of leaching and runoff. This project will include installing remote sensor systems in different field locations, calibrating the sensors to the fields, evaluating soil samples along a depth profile to determine moisture, nitrogen, and phosphorous content, and calculating daily water and nutrient uptake from different soil regions. The field data will be a concentration model for target crops that can be extended to the watershed level. Use of this model will augment weather, hydrologic, and water quality information for the development of improved best management practices for nutrient management and optimum irrigation scheduling for reduction of nutrient runoff and leaching.

SENATE SENATE

From the funds in Specific Appropriation 1335, \$3,000,000 is provided for the operation and maintenance of existing hybrid wetland/chemical treatment projects within the Northern Everglades pursuant to section 373.4595(3)(b), Florida Statutes.

From the funds in Specific Appropriation 1335, \$3,000,000 in nonrecurring general revenue funds shall be expended by the department for the operation and management of existing hybrid wetland/chemical treatment projects within the Northern Everglades as defined in chapter 373, Florida Statutes.

PROGRAM: CONSUMER PROTECTION  
 AGRICULTURAL ENVIRONMENTAL SERVICES

1399 AID TO LOCAL GOVERNMENTS  
 MOSQUITO CONTROL PROGRAM

Of the funds provided in Specific Appropriation 1399, \$200,000 from the General Inspection Trust Fund shall be used for research into practical methods of control to be used by local mosquito control agencies. The research shall be conducted by the Institute of Food and Agricultural Sciences (IFAS)/Florida Medical Entomology Laboratory and the Florida Agriculture and Mechanical University (FAMU)/Mulrennan Research Laboratory.

PROGRAM: AGRICULTURAL ECONOMIC DEVELOPMENT  
 AGRICULTURAL PRODUCTS MARKETING

1431A SPECIAL CATEGORIES  
 SUPPORT FOR FOOD BANK

Funds in Specific Appropriation 1431A are provided for the Florida Association of Food Banks.

1433A SPECIAL CATEGORIES  
 AGRICULTURAL RESEARCH

Funds in Specific Appropriation 1433A shall be transferred to the Citrus Research and Development Foundation, Inc., to conduct or cause to be conducted research projects on citrus disease. Distribution of such funds for a particular research project is contingent upon a dollar for dollar cash match from federal or private funds or from citrus box tax revenues. At no time shall the funds appropriated in Specific Appropriation 1433A allocated to a particular project, exceed the private, federal, and citrus box tax funds provided for that project.

AQUACULTURE

1445 SPECIAL CATEGORIES  
 AQUACULTURE DEVELOPMENT

Of the funds provided in Specific Appropriation 1399, \$250,000 from the General Inspection Trust Fund shall be used for research into practical methods of control to be used by local mosquito control agencies. The research shall be conducted by the Institute of Food and Agricultural Sciences (IFAS)/Florida Medical Entomology Laboratory.

Funds in Specific Appropriation 1431A are provided for the Florida Association of Food Banks.

From the funds in Specific Appropriation 1445, \$25,000 in nonrecurring funds from the General Inspection Trust Fund is provided for the Florida Aquaculture Association.

**\*\*New Proviso--TMDL Springs Environmental Monitoring**

SENATE

Of the funds in Specific Appropriation XXXX, \$4,000,000 in nonrecurring  
 funds from the General Revenue Fund is provided for  
 management of Florida's springs which requires a science based methodology  
 using tools that provide the ability to define the interactions  
 of multiple physical, chemical and biological variables. Innovative  
 monitoring systems shall be used within the drainage area of priority  
 springs to define the fate and transport mechanisms associated with  
 pollutants that threaten the health of these unique resources that are  
 critical to the economic well being of the state. Targeted springs  
 shall be those where restoration will have the greatest economic benefit  
 to the region. Management activities will include installing monitoring  
 equipment in different locations and measuring sources and management systems  
 performance. The field data will be used to augment weather, hydrologic,  
 water quality information, and watershed models for the development of  
 improved restoration activities including best management practices for  
 reduction of nutrient runoff and leaching.

**New Proviso--Natural Resource Damage Restoration-Deepwater Horizon**

Funds provided in Specific Appropriation XXXX are provided to the Department of Environmental Protection from the Coastal Protection Trust Fund for early restoration projects to address injuries to natural resources caused by the Deepwater Horizon oil spill. Funding to support this appropriation shall be provided based on the Early Restoration Framework Agreement executed by BP Exploration and Production, Inc. and the Natural Resource Trustees on April 20, 2011. All draft early restoration plans shall be subject to public review and comment, plus environmental review, as required by law. Projects to be funded by this appropriation shall be approved by the Trustee Council and included in a stipulation executed by BP Exploration and Production, Inc. and the Trustees. The department shall provide a summary of the approved projects or copies of the executed stipulation between BP Exploration and Production, Inc. and the Trustees for each project to the chairs of the legislative appropriations committees with each associated request for release of these funds.
