Section 1 repeals s. 49 of chapter 2011-47, Laws of Florida, thereby abrogating the future expiration of an amendment to s. 163.3247(3), F.S., which amendment eliminated the travel and per diem reimbursement for members of the Century Commission.

Section 2 repeals s. 51 of chapter 2011-47, Laws of Florida, thereby abrogating the future expiration of an amendment to s. 201.15(1)(c)2.,

F.S., which amendment eliminated the distribution of documentary stamp tax revenues to the Century Commission.

Section 3 requires the Auditor General and the Office of Program Policy Analysis and Government Accountability (OPPAGA) to jointly conduct an audit and review of the programs and operations of the Florida Housing Finance Corporation. A work plan for such audit and review must be submitted to the President of the Senate and the Speaker of the House of Representatives no later than July 1, 2012. The audit and review shall encompass, at a minimum, a review of the corporation's assets, liabilities, income, and operating expenses, the internal management, financial and operational controls employed, the programmatic decision-making processes used, the governance, direction and oversight provided by the Florida Housing Finance Corporation Board of Directors, and the performance outcomes of the programs administered by the Florida Housing Finance Corporation. The audit and review shall also include formulation of recommendations to the Legislature for changes to the structure, governance and operational processes of the Florida Housing Finance Corporation. Unless otherwise directed in writing jointly by the President of the Senate and the Speaker of the House of Representatives, a written report on the audit and review shall be submitted to the President of the Senate and the Speaker of the House of Representatives no later than December 1, 2012. This section shall be effective upon this act becoming law.

Section 4 amends s. 420.507, F.S., to authorize the Florida Housing Finance Corporation to utilize up to 10 percent of its annual allocation of low-income housing tax credits, allocation of nontaxable revenue bonds, and State Apartment Incentive Loan Program funds appropriated by the Legislature and available to allocate by request for proposals or other competitive solicitation funding for high-priority affordable housing projects, such as housing to support economic development and job creation initiatives, housing for veterans and their families, and other special needs populations in communities throughout the state as determined by the corporation on an annual basis.

Section 5 amends s. 420.5087 to authorize the Florida Housing Finance Corporation's State Apartment Incentive Loan Program (SAIL) to accept payment of deferred program interest at an interest rate that is consistent with rates currently authorized in law, provided the deferred interest is paid in not more than five equal annual installments. This section also provides authority for additional SAIL funding to preserve existing projects having financing guaranteed under the Florida Affordable Housing Guarantee Program. Projects shall be given priority for funding which meet specified criteria. The maximum amount that may be funded is \$ 2,500,000 per project, and authority for such funding expires on June 30, 2013.

Section 7 directs the DEO to prepare draft legislation to conform the Florida Statutes to the provisions of this act, and to submit such draft legislation to the Governor, the President of the Senate, and the Speaker of the House of Representatives on or before October 1, 2012.

Section 8 provides that if the governing body of an independent special district that provides water, wastewater, and sanitation services in a disproportionately affected county as defined in s. 288.106(8), determines that a new user or the expansion of an existing user of one or more of its utility systems will provide a significant benefit to the community in terms of increased job opportunities, economies of scale, or economic development in the area, the governing body may authorize a reduction of its rates, fees, or charges for that user for a specified period of time. A governing body that exercises this power must do so by resolution that states the anticipated economic benefit justifying the reduction as well as the period of time that the reduction remains in place.

Section 9 provides that, except as otherwise expressly provided in this act, this act shall take effect on July 1, 2012.

Section 4. POWERS, FUNCTIONS, AND DUTIES.—

A. Eminent domain.—The North Lake County Hospital District, through its board of trustees, has the power of eminent domain.

B. General Powers.—The Board of Trustees of the North Lake County Hospital District has all the powers of a body corporate, including the power to sue and be sued under the name of the North Lake County Hospital District; to contract and be contacted with; to adopt and use a common seal; and to acquire, purchase, hold, lease, and convey such real and personal property as the board of trustees deems proper or expedient to carry out the purposes of this act.

C. Ad valorem taxation.—The Board of Trustees of the North Lake County Hospital District may levy an ad valorem tax in the district of *up to 1 mill* on the dollar of the value of all nonexempt property within that area of Lake County which comprises the North Lake County Hospital District. Such tax shall be paid into the district fund.

D. Tax proceeds to charitable foundations; hospitals.—All future tax proceeds generated from within the Northeast Territory, less one-half of the amount reserved annually by the board to pay for maintenance and services for the board, shall be paid by the board of trustees to Florida Hospital Waterman, Inc., or other entity determined by Florida Hospital Waterman, Inc., if it so desires in order to maximize moneys received, upon written request by Florida Hospital Waterman, Inc., that the funds are needed for health care. All future proceeds generated from within the Northwest Territory, less one-half of the amount reserved annually by the board to pay for maintenance and services for the board, shall be paid by the board of trustees to Leesburg Regional Medical Center, Inc., or other entity determined by Leesburg Regional Medical Center, Inc., if it so desires in order to maximize moneys received, upon written request by Leesburg Regional Medical Center, Inc., that the funds are needed for health care. *Funds that are not used for maintenance and services of the board of the district may be used only to offset the cost of uncompensated care for services provided to residents of Lake County who are indigent or who are Medicaid patients. For purposes of this paragraph, the term "indigent person" includes a person who does not have health insurance and whose household income does not exceed 200 percent of the federal poverty level.*

E. LifeStream Behavioral Center.—Leesburg Regional Medical Center, Inc., and Florida Hospital Waterman, Inc., have brought to the attention of their respective boards that LifeStream Behavioral Center should be entitled to receive the following sums, after submission of a written request by LifeStream Behavioral Center certifying that the funds are needed for indigent health care. The request shall be made to Florida Hospital Waterman, Inc., and Leesburg Regional Medical Center, Inc. Florida Hospital Waterman, Inc., and Leesburg Regional Medical Center, Inc., shall pay the following sums to LifeStream Behavioral Center from their respective share of tax funds collected and received by Florida Hospital Waterman, Inc., and Leesburg Regional Medical Center, Inc.

1. For each *calendar year after calendar year 1993*, LifeStream Behavioral Center shall be paid \$100,000 or 1/20 of ~~1 mill~~ of the tax moneys due Florida Hospital Waterman, Inc., from the Northeast Territory, whichever is greater, plus \$100,000 or 1/20 of ~~1 mill~~ of the tax moneys due Leesburg Regional Medical Center, Inc., from the Northwest Territory, whichever is greater. 2. Notwithstanding any of the provisions of this act, the obligation to pay tax revenues to LifeStream Behavioral Center under this act shall permanently terminate in the year:

a. When a countywide health taxing district is created and funded pursuant to chapter 154, Florida Statutes, the countywide health taxing district provides for reimbursement on an accountability basis to medical providers for medical, hospital, and emergency care, including psychiatric care provided to indigents residing within the county, and the countywide health taxing district actually reimburses LifeStream Behavioral Center for medical services in an amount greater than or equal

to the tax revenues received under the provisions of this act in 1 calendar year; or

b. If LifeStream Behavioral Center, for any reason, loses, relinquishes, or forfeits its accreditation as a hospital.

Any reimbursement for medical services paid to LifeStream Behavioral Center by any future countywide health taxing district shall be deducted from the amount of tax revenues to be paid under this act. It is the intent of this act that the tax revenue payments provided for LifeStream Behavioral Center in this act be reduced by the same amount that is actually paid to the hospital by the countywide taxing district.

F. MOTION

On motion by Senator Storms, by the required two-thirds vote, consideration of the following amendment was allowed:

Senators Storms, Rich and Garcia offered the following amendment which was moved by Senator Storms and adopted:

Amendment 1 (128436) (with title amendment)—Delete everything after the enacting clause and insert:

Section 1. Section 394.4574, Florida Statutes, is amended to read:

394.4574 Department responsibilities for a mental health resident who resides in an assisted living facility ~~that holds a limited mental health license.~~—

(1) The term “mental health resident,” for purposes of this section, means an individual who receives social security disability income due to a mental disorder as determined by the Social Security Administration or receives supplemental security income due to a mental disorder as determined by the Social Security Administration and receives optional state supplementation.

(2) The department must ensure that:

(a) A mental health resident has been assessed by a psychiatrist, clinical psychologist, clinical social worker, or psychiatric nurse, or an individual who is supervised by one of these professionals, and determined to be appropriate to reside in an assisted living facility. The documentation must be provided to the administrator of the facility within 30 days after the mental health resident has been admitted to the facility. An evaluation completed upon discharge from a state mental hospital meets the requirements of this subsection related to appropriateness for placement as a mental health resident if it was completed within 90 days prior to admission to the facility.

(b) A cooperative agreement, as required in s. 429.0751 ~~429.075~~, is developed between the mental health care services provider that serves a mental health resident and ~~the administrator of the assisted living facility with a limited mental health license~~ in which the mental health resident is living. *The cooperative agreement must provide detailed information concerning case management services; access to consumer-operated drop-in centers; reliable access to services during evenings, weekends, and holidays which avoids the use of hospital emergency departments except in emergencies; supervision of clinical needs of the residents; and access to emergency psychiatric care. Any entity that provides Medicaid prepaid health plan services shall ensure the appropriate coordination of health care services with an assisted living facility in cases where a Medicaid recipient is both a member of the entity's prepaid health plan and a resident of the assisted living facility. If the entity is at risk for Medicaid targeted case management and behavioral health services, the entity shall inform the assisted living facility of the procedures to follow should an emergent condition arise.*

(c) The community living support plan, as defined in s. 429.02, has been prepared by a mental health resident and a mental health care manager of that resident in consultation with the administrator of the facility or the administrator's designee. The plan must be provided to the administrator of the assisted living facility ~~with a limited mental health license~~ in which the mental health resident lives. The support plan and the agreement may be in one document.

(d) The assisted living facility ~~with a limited mental health license~~ is provided with documentation that the individual meets the definition of a mental health resident.

(e) The mental health services provider assigns a case manager to each mental health resident who lives in an assisted living facility ~~with a limited mental health license~~. The case manager is responsible for coordinating the development of and implementation of the community living support plan defined in s. 429.02. The plan must be updated *as needed, but at least annually to ensure that the ongoing needs of the resident are addressed. The community living support plan must include a detailed description of how the clinical needs of the resident will be supervised, how often the case manager will see the resident, and how the resident may access the case manager, and must identify conditions indicative of a change in the condition of the resident which might warrant changes in clinical supervision or which might prompt the assisted living facility to contact the case manager on behalf of the resident and the steps that will be taken to ensure that the resident receives appropriate emergency psychiatric care through the mental health provider. Each case manager shall keep a record of the date and time of any face-to-face interaction with the mental health resident and make the record available to the department for inspection. The record must be retained for 2 years after the date of the most recent interaction.*

The department shall adopt rules to implement the community living support plans and cooperative agreements established under this section.

(f) *There is adequate and consistent monitoring and enforcement of community living support plans and cooperative agreements by the department.*

(3) *Medicaid prepaid health plans shall ensure the appropriate coordination of health care services with an assisted living facility when a Medicaid recipient is both a member of the entity's prepaid health plan and a resident of the assisted living facility. If the Medicaid prepaid plan is responsible for Medicaid targeted case management and behavioral health services, the plan shall inform the assisted living facility of the procedures to follow should an emergency condition arise.*

(4) *The department shall include in contracts with mental health service providers provisions that require the service provider to assign a case manager for a mental health resident, prepare a community living support plan, enter into a cooperative agreement with the assisted living facility, and otherwise comply with the provisions of this section. The department shall establish and impose contract penalties for mental health service providers under contract with the department which fail to comply with this section.*

(5) *The Agency for Health Care Administration shall include in contracts with Medicaid prepaid health plans provisions that require the mental health service provider to prepare a community living support plan, enter into a cooperative agreement with the assisted living facility, and otherwise comply with the provisions of this section. The agency shall also establish and impose contract penalties for Medicaid prepaid health plans that fail to comply with the provisions of this section.*

(6) *The department shall enter into an interagency agreement with the Agency for Health Care Administration which delineates their respective responsibilities and procedures for enforcing the requirements of this section with respect to assisted living facilities and mental health service providers.*

(7)(3) ~~The Secretary of Children and Family Services, in consultation with the Agency for Health Care Administration, shall annually require each district administrator to develop, with community input, detailed plans that demonstrate how the district will ensure the provision of state-funded mental health and substance abuse treatment services to residents of assisted living facilities that hold a limited mental health license. These plans must be consistent with the substance abuse and mental health district plan developed pursuant to s. 394.75 and must address case management services; access to consumer-operated drop-in centers; access to services during evenings, weekends, and holidays; supervision of the clinical needs of the residents; and access to emergency psychiatric care.~~

Section 2. Subsection (1) of section 395.002, Florida Statutes, is amended to read:

395.002 Definitions.—As used in this chapter:

(1) “Accrediting organizations” means *national accreditation organizations that are approved by the Centers for Medicare and Medicaid Services and whose standards incorporate comparable licensure regulations required by the state* ~~the Joint Commission on Accreditation of Healthcare Organizations, the American Osteopathic Association, the Commission on Accreditation of Rehabilitation Facilities, and the Accreditation Association for Ambulatory Health Care, Inc.~~

Section 3. Section 395.1051, Florida Statutes, is amended to read:

395.1051 Duty to notify patients.—

(1) An appropriately trained person designated by each licensed facility shall inform each patient, or an individual identified pursuant to s. 765.401(1), in person about adverse incidents that result in serious harm to the patient. Notification of outcomes of care that result in harm to the patient under this section *does shall* not constitute an acknowledgment or admission of liability *and may not, nor can it* be introduced as evidence.

(2) *A hospital must provide notice to all obstetrical physicians with privileges at the hospital at least 120 days before the hospital closes an obstetrics department or ceases to provide obstetrical services.*

Section 4. Subsection (2) of section 400.0078, Florida Statutes, is amended to read:

400.0078 Citizen access to State Long-Term Care Ombudsman Program services.—

2. The statewide toll-free telephone number for receiving complaints;

3. *The residents’ rights under s. 429.28, including information that retaliatory action cannot be taken against a resident for presenting grievances or for exercising any of these rights;* and

4. Other relevant information regarding how to contact the program.

(b) Residents or their representatives must be furnished additional copies of this information upon request.

Section 5. Subsection (3) of section 408.05, Florida Statutes, is amended to read:

408.05 Florida Center for Health Information and Policy Analysis.—

(3) COMPREHENSIVE HEALTH INFORMATION SYSTEM.—~~The agency shall collect, compile, analyze, and distribute in order to produce comparable and uniform health information and statistics. Such information shall be used for developing the development of policy recommendations, evaluating program and provider performance, and facilitating the independent and collaborative quality improvement activities of providers, payors, and others involved in the delivery of health services.~~ The agency shall perform the following functions:

(a) Coordinate the activities of state agencies involved in the design and implementation of the comprehensive health information system.

(b) Undertake research, development, and evaluation respecting the comprehensive health information system.

(c) Review the statistical activities of state agencies to ensure that they are consistent with the comprehensive health information system.

(d) Develop written agreements with local, state, and federal agencies for the sharing of health-care-related data or using the facilities and services of such agencies. State agencies, local health councils, and other agencies under state contract shall assist the center in obtaining, compiling, and transferring health-care-related data maintained by state

and local agencies. Written agreements must specify the types, methods, and periodicity of data exchanges and specify the types of data that will be transferred to the center.

(e) Establish by rule the types of data collected, compiled, processed, used, or shared. Decisions regarding center data sets should be made based on consultation with the State Consumer Health Information and Policy Advisory Council and other public and private users regarding the types of data which should be collected and their uses. The center shall establish standardized means for collecting health information and statistics under laws and rules administered by the agency.

(f) Establish minimum health-care-related data sets which are necessary on a continuing basis to fulfill the collection requirements of the center and which shall be used by state agencies in collecting and compiling health-care-related data. The agency shall periodically review ongoing health care data collections of the Department of Health and other state agencies to determine if the collections are being conducted in accordance with the established minimum sets of data.

(g) Establish advisory standards to ensure the quality of health statistical and epidemiological data collection, processing, and analysis by local, state, and private organizations.

(h) Prescribe standards for the publication of health-care-related data reported pursuant to this section which ensure the reporting of accurate, valid, reliable, complete, and comparable data. Such standards should include advisory warnings to users of the data regarding the status and quality of any data reported by or available from the center.

(i) Prescribe standards for the maintenance and preservation of the center’s data. This should include methods for archiving data, retrieval of archived data, and data editing and verification.

(j) Ensure that strict quality control measures are maintained for the dissemination of data through publications, studies, or user requests.

(k) Develop, in conjunction with the State Consumer Health Information and Policy Advisory Council, and implement a long-range plan for making available health care quality measures and financial data that will allow consumers to compare health care services. The health care quality measures and financial data the agency must make available shall include, but is not limited to, pharmaceuticals, physicians, health care facilities, and health plans and managed care entities. The agency shall update the plan and report on the status of its implementation annually. The agency shall also make the plan and status report available to the public on its Internet website. As part of the plan, the agency shall identify the process and timeframes for implementation, any barriers to implementation, and recommendations of changes in the law that may be enacted by the Legislature to eliminate the barriers. As preliminary elements of the plan, the agency shall:

1. Make available patient-safety indicators, inpatient quality indicators, and performance outcome and patient charge data collected from health care facilities pursuant to s. 408.061(1)(a) and (2). The terms “patient-safety indicators” and “inpatient quality indicators” shall be as defined by the Centers for Medicare and Medicaid Services, the National Quality Forum, the Joint Commission on Accreditation of Healthcare Organizations, the Agency for Healthcare Research and Quality, the Centers for Disease Control and Prevention, or a similar national entity that establishes standards to measure the performance of health care providers, or by other states. The agency shall determine which conditions, procedures, health care quality measures, and patient charge data to disclose based upon input from the council. When determining which conditions and procedures are to be disclosed, the council and the agency shall consider variation in costs, variation in outcomes, and magnitude of variations and other relevant information. When determining which health care quality measures to disclose, the agency:

a. Shall consider such factors as volume of cases; average patient charges; average length of stay; complication rates; mortality rates; and infection rates, among others, which shall be adjusted for case mix and severity, if applicable.

b. May consider such additional measures that are adopted by the Centers for Medicare and Medicaid Studies, National Quality Forum, the Joint Commission on Accreditation of Healthcare Organizations, the Agency for Healthcare Research and Quality, Centers for Disease Con-

trol and Prevention, or a similar national entity that establishes standards to measure the performance of health care providers, or by other states.

When determining which patient charge data to disclose, the agency shall include such measures as the average of undiscounted charges on frequently performed procedures and preventive diagnostic procedures, the range of procedure charges from highest to lowest, average net revenue per adjusted patient day, average cost per adjusted patient day, and average cost per admission, among others.

2. Make available performance measures, benefit design, and premium cost data from health plans licensed pursuant to chapter 627 or chapter 641. The agency shall determine which health care quality measures and member and subscriber cost data to disclose, based upon input from the council. When determining which data to disclose, the agency shall consider information that may be required by either individual or group purchasers to assess the value of the product, which may include membership satisfaction, quality of care, current enrollment or membership, coverage areas, accreditation status, premium costs, plan costs, premium increases, range of benefits, copayments and deductibles, accuracy and speed of claims payment, credentials of physicians, number of providers, names of network providers, and hospitals in the network. Health plans shall make available to the agency any such data or information that is not currently reported to the agency or the office.

3. Determine the method and format for public disclosure of data reported pursuant to this paragraph. The agency shall make its determination based upon input from the State Consumer Health Information and Policy Advisory Council. At a minimum, the data shall be made available on the agency's Internet website in a manner that allows consumers to conduct an interactive search that allows them to view and compare the information for specific providers. The website must include such additional information as is determined necessary to ensure that the website enhances informed decisionmaking among consumers and health care purchasers, which shall include, at a minimum, appropriate guidance on how to use the data and an explanation of why the data may vary from provider to provider.

4. Publish on its website undiscounted charges for no fewer than 150 of the most commonly performed adult and pediatric procedures, including outpatient, inpatient, diagnostic, and preventative procedures.

(l) Assist quality improvement collaboratives by releasing information to the providers, payors, or entities representing and working on behalf of providers and payors. The agency shall release such data, which is deemed necessary for the administration of the Medicaid program, to quality improvement collaboratives for evaluation of the incidence of potentially preventable events.

Section 6. Paragraph (c) of subsection (4) of section 409.212, Florida Statutes, is amended to read:

409.212 Optional supplementation.—

(4) In addition to the amount of optional supplementation provided by the state, a person may receive additional supplementation from third parties to contribute to his or her cost of care. Additional supplementation may be provided under the following conditions:

(c) The additional supplementation shall not exceed ~~two~~ four times the provider rate recognized under the optional state supplementation program.

Section 7. Section 409.986, Florida Statutes, is created to read:

409.986 *Quality adjustments to Medicaid rates.*—

(1) *As used in this section, the term:*

(a) "Expected rate" means the risk-adjusted rate for each provider that accounts for the severity of illness, diagnosis related groups, and the age of a patient.

(b) "Hospital-acquired infections" means infections not present and without evidence of incubation at the time of admission to a hospital.

(c) "Observed rate" means the actual number for each provider of potentially preventable events divided by the number of cases in which potentially preventable events may have occurred.

(d) "Potentially preventable admission" means an admission of a person to a hospital that might have reasonably been prevented with adequate access to ambulatory care or health care coordination.

(e) "Potentially preventable ancillary service" means a health care service provided or ordered by a physician or other health care provider to supplement or support the evaluation or treatment of a patient, including a diagnostic test, laboratory test, therapy service, or radiology service, that may not be reasonably necessary for the provision of quality health care or treatment.

(f) "Potentially preventable complication" means a harmful event or negative outcome with respect to a person, including an infection or surgical complication, that:

1. *Occurs after the person's admission to a hospital; and*

2. *May have resulted from the care, lack of care, or treatment provided during the hospital stay rather than from a natural progression of an underlying disease.*

(g) "Potentially preventable emergency department visit" means treatment of a person in a hospital emergency room or freestanding emergency medical care facility for a condition that does not require or should not have required emergency medical attention because the condition can or could have been treated or prevented by a physician or other health care provider in a nonemergency setting.

(h) "Potentially preventable event" means a potentially preventable admission, a potentially preventable ancillary service, a potentially preventable complication, a potentially preventable emergency department visit, a potentially preventable readmission, or a combination of those events.

(i) "Potentially preventable readmission" means a return hospitalization of a person within 15 days that may have resulted from deficiencies in the care or treatment provided to the person during a previous hospital stay or from deficiencies in posthospital discharge followup. The term does not include a hospital readmission necessitated by the occurrence of unrelated events after the discharge. The term includes the readmission of a person to a hospital for:

1. *The same condition or procedure for which the person was previously admitted;*

2. *An infection or other complication resulting from care previously provided; or*

3. *A condition or procedure that indicates that a surgical intervention performed during a previous admission was unsuccessful in achieving the anticipated outcome.*

(j) "Quality improvement collaboration" means a structured process involving multiple providers and subject matter experts to focus on a specific aspect of quality care in order to analyze past performance and plan, implement, and evaluate specific improvement methods.

(2) The agency shall establish and implement methodologies to adjust Medicaid payment rates for hospitals, nursing homes, and managed care plans based on evidence of improved patient outcomes. Payment adjustments shall be dependent on consideration of specific outcome measures for each provider category, documented activities by providers to improve performance, and evidence of significant improvement over time. Measurement of outcomes shall include appropriate risk adjustments, exclude cases that cannot be determined to be preventable, and waive adjustments for providers with too few cases to calculate reliable rates.

(a) Performance-based payment adjustments may be made up to 1 percent of each qualified provider's rate for hospital inpatient services, hospital outpatient services, nursing home care, and the plan-specific capitation rate for prepaid health plans. Adjustments for activities to improve performance may be made up to 0.25 percent based on evidence of a provider's engagement in activities specified in this section.

(b) Outcome measures shall be established for a base year, which may be state fiscal year 2010-2011 or a more recent 12-month period.

(3) Methodologies established pursuant to this section shall use existing databases, including Medicaid claims, encounter data compiled pursuant to s. 409.9122(14), and hospital discharge data compiled pursuant to s. 408.061(1)(a). To the extent possible, the agency shall use methods for determining outcome measures in use by other payors.

(4) The agency shall seek any necessary federal approval for the performance payment system and implement the system in the 2015-2016 state fiscal year.

(5) The agency may appoint a technical advisory panel for each provider category in order to solicit advice and recommendations during the development and implementation of the performance payment system.

(6) The performance payment system for hospitals shall apply to general hospitals as defined in s. 395.002. The outcome measures used to allocate positive payment adjustments shall consist of one or more potentially preventable events such as potentially preventable readmissions and potentially preventable complications.

(a) For each 12-month period after the base year, the agency shall determine the expected rate and the observed rate for specific outcome indicators for each hospital. The difference between the expected and observed rates shall be used to establish a performance rate for each hospital. Hospitals shall be ranked based on performance rates.

(b) For at least the first three rate-setting periods after the performance payment system is implemented, a positive payment adjustment shall be made to hospitals in the top 10 percentiles, based on their performance rates, and the 10 hospitals with the best year-to-year improvement among those hospitals that did not rank in the top 10 percentiles. After the third period of performance payment, the agency may replace the criteria specified in this subsection with quantified benchmarks for determining which providers qualify for positive payment adjustments.

(c) Quality improvement activities that may earn positive payment adjustments include:

1. Complying with requirements that reduce hospital-acquired infections pursuant to s. 395.1055(1)(b); or
2. Actively engaging in a quality improvement collaboration that focuses on reducing potentially preventable admissions, potentially preventable readmissions, or hospital-acquired infections.

(7) The performance payment system for skilled nursing facilities shall apply to facilities licensed pursuant to part II of chapter 400 with current Medicaid provider service agreements. The agency, after consultation with the technical advisory panel established in subsection (5), shall select outcome measures to be used to allocate positive payment adjustments. The outcome measures shall be consistent with the federal Quality Assurance and Performance Improvement requirements and include one or more of the following clinical care areas: pressure sores, falls, or hospitalizations.

(a) For each 12-month period after the base year, the agency shall determine the expected rate and the observed rate for specific outcome indicators for each skilled nursing facility. The difference between the expected and observed rates shall be used to establish a performance rate for each skilled nursing facility. Facilities shall be ranked based on performance rates.

(b) For at least the first three rate-setting periods after the performance payment system is implemented, a positive payment adjustment shall be made to facilities in the top three percentiles, based on their performance rates, and the 10 facilities with the best year-to-year improvement among facilities that did not rank in the top three percentiles. After the third period of performance payment, the agency may replace the criteria specified in this subsection with quantified benchmarks for determining which facilities qualify for positive payment adjustments.

(c) Quality improvement activities that may earn positive payment adjustments include:

1. Actively engaging in a comprehensive fall-prevention program.

2. Actively engaging in a quality improvement collaboration that focuses on reducing potentially preventable hospital admissions or reducing the percentage of residents with pressure ulcers that are new or worsened.

(8) A performance payment system shall apply to all managed care plans. The outcome measures used to allocate positive payment adjustments shall consist of one or more potentially preventable events, such as potentially preventable initial hospital admissions, potentially preventable emergency department visits, or potentially preventable ancillary services.

(a) For each 12-month period after the base year, the agency shall determine the expected rate and the observed rate for specific outcome indicators for each managed care plan. The difference between the expected and observed rates shall be used to establish a performance rate for each plan. Managed care plans shall be ranked based on performance rates.

(b) For at least the first three rate-setting periods after the performance payment system is implemented, a positive payment adjustment shall be made to the top 10 managed care plans. After the third period during which the performance payment system is implemented, the agency may replace the criteria specified in this subsection with quantified benchmarks for determining which plans qualify for positive payment adjustments.

(9) Payment adjustments made pursuant to this section may not result in expenditures that exceed the amounts appropriated in the General Appropriations Act for hospitals, nursing homes, and managed care plans.

Section 10. Subsection (1) and paragraphs (b) and (c) of subsection (3) of section 429.07, Florida Statutes, are amended, to read:

429.07 License required; fee.—

(1) The requirements of part II of chapter 408 apply to the provision of services that require licensure pursuant to this part and part II of chapter 408 and to entities licensed by or applying for such licensure from the agency pursuant to this part. A license issued by the agency is required in order to operate an assisted living facility in this state. *Effective July 1, 2013, an assisted living facility may not operate in this state unless the facility is under the management of an assisted living facility administrator licensed pursuant to part II of chapter 468.*

(3) In addition to the requirements of s. 408.806, each license granted by the agency must state the type of care for which the license is granted.

Licenses shall be issued for one or more of the following categories of care: standard, extended congregate care, limited nursing services, or limited mental health.

(b) An extended congregate care license shall be issued to facilities providing, directly or through contract, services beyond those authorized in paragraph (a), including services performed by persons licensed under part I of chapter 464 and supportive services, as defined by rule, to persons who would otherwise be disqualified from continued residence in a facility licensed under this part.

1. In order for extended congregate care services to be provided, the agency must first determine that all requirements established in law and rule are met and must specifically designate, on the facility’s license, that such services may be provided and whether the designation applies to all or part of the facility. Such designation may be made at the time of initial licensure or relicensure, or upon request in writing by a licensee under this part and part II of chapter 408. The notification of approval or the denial of the request shall be made in accordance with part II of chapter 408. Existing facilities qualifying to provide extended congregate care services must have maintained a standard license and may not have been subject to administrative sanctions during the previous 2 years, or since initial licensure if the facility has been licensed for less than 2 years, for any of the following reasons:

a. A class I or class II violation;

b. Three or more repeat or recurring class III violations of identical or similar resident care standards from which a pattern of non-compliance is found by the agency;

c. Three or more class III violations that were not corrected in accordance with the corrective action plan approved by the agency;

d. Violation of resident care standards which results in requiring the facility to employ the services of a consultant pharmacist or consultant dietitian;

e. Denial, suspension, or revocation of a license for another facility licensed under this part in which the applicant for an extended congregate care license has at least 25 percent ownership interest; or

f. Imposition of a moratorium pursuant to this part or part II of chapter 408 or initiation of injunctive proceedings.

2. A facility that is licensed to provide extended congregate care services ~~shall~~ maintain a written progress report on each person who receives services which describes the type, amount, duration, scope, and outcome of services that are rendered and the general status of the resident’s health. A registered nurse, or appropriate designee, representing the agency shall visit the facility at least ~~once a year~~ ~~quarterly~~ to monitor residents who are receiving extended congregate care services and to determine if the facility is in compliance with this part, part II of chapter 408, and relevant rules. One of the visits may be in conjunction with the regular survey. The monitoring visits may be provided through contractual arrangements with appropriate community agencies. A registered nurse shall serve as part of the team that inspects the facility. The agency may waive a monitoring visit during the licensure cycle ~~one of the required yearly monitoring visits~~ for a facility that has been licensed for at least 24 months to provide extended congregate care services, if, during the inspection, the registered nurse determines that extended congregate care services are being provided appropriately, and if the facility has no:

a. Class I or class II violations and no uncorrected class III violations;-

b. Citations for licensure violation which resulted from referrals by the ombudsman to the agency; or

c. Citations for a licensure violation which resulted from complaints to the agency. ~~The agency must first consult with the long term care ombudsman council for the area in which the facility is located to determine if any complaints have been made and substantiated about the quality of services or care. The agency may not waive one of the required yearly monitoring visits if complaints have been made and substantiated.~~

3. A facility that is licensed to provide extended congregate care services must:

- a. Demonstrate the capability to meet unanticipated resident service needs.
- b. Offer a physical environment that promotes a homelike setting, provides for resident privacy, promotes resident independence, and allows sufficient congregate space as defined by rule.
- c. Have sufficient staff available, taking into account the physical plant and firesafety features of the building, to assist with the evacuation of residents in an emergency.
- d. Adopt and follow policies and procedures that maximize resident independence, dignity, choice, and decisionmaking to permit residents to age in place, so that moves due to changes in functional status are minimized or avoided.
- e. Allow residents or, if applicable, a resident's representative, designee, surrogate, guardian, or attorney in fact to make a variety of personal choices, participate in developing service plans, and share responsibility in decisionmaking.
- f. Implement the concept of managed risk.
- g. Provide, directly or through contract, the services of a person licensed under part I of chapter 464.
- h. In addition to the training mandated in s. 429.52, provide specialized training as defined by rule for facility staff.

4. A facility that is licensed to provide extended congregate care services is exempt from the criteria for continued residency set forth in rules adopted under s. 429.41. A licensed facility must adopt its own requirements within guidelines for continued residency set forth by rule. However, the facility may not serve residents who require 24-hour nursing supervision. A licensed facility that provides extended congregate care services must also provide each resident with a written copy of facility policies governing admission and retention.

5. The primary purpose of extended congregate care services is to allow residents, as they become more impaired, the option of remaining in a familiar setting from which they would otherwise be disqualified for continued residency. A facility licensed to provide extended congregate care services may also admit an individual who exceeds the admission criteria for a facility with a standard license, if the individual is determined appropriate for admission to the extended congregate care facility.

6. Before the admission of an individual to a facility licensed to provide extended congregate care services, the individual must undergo a medical examination as provided in s. 429.26(4) and the facility must develop a preliminary service plan for the individual.

7. ~~If~~ ~~When~~ a facility can no longer provide or arrange for services in accordance with the resident's service plan and needs and the facility's policy, the facility *must* ~~shall~~ make arrangements for relocating the person in accordance with s. 429.28(1)(k).

8. Failure to provide extended congregate care services may result in denial of extended congregate care license renewal.

(c) A limited nursing services license shall be issued to a facility that provides services beyond those authorized in paragraph (a) and as specified in this paragraph.

1. In order for limited nursing services to be provided in a facility licensed under this part, the agency must first determine that all requirements established in law and rule are met and must specifically designate, on the facility's license, that such services may be provided. Such designation may be made at the time of initial licensure or relicensure, or upon request in writing by a licensee under this part and part II of chapter 408. Notification of approval or denial of such request shall be made in accordance with part II of chapter 408. Existing facilities qualifying to provide limited nursing services shall have maintained a standard license and may not have been subject to administrative sanctions that affect the health, safety, and welfare of residents

for the previous 2 years or since initial licensure if the facility has been licensed for less than 2 years.

2. Facilities that are licensed to provide limited nursing services shall maintain a written progress report on each person who receives such nursing services, which report describes the type, amount, duration, scope, and outcome of services that are rendered and the general status of the resident's health. A registered nurse representing the agency shall visit such facilities at least ~~once~~ ~~twice~~ a year to monitor residents who are receiving limited nursing services and to determine if the facility is in compliance with applicable provisions of this part, part II of chapter 408, and related rules. The monitoring visits may be provided through contractual arrangements with appropriate community agencies. A registered nurse shall also serve as part of the team that inspects such facility. *The agency may waive a monitoring visit during the licensure cycle for a facility that has been licensed for at least 24 months to provide limited nursing services if the facility has no:*

- a. *Class I or class II violations and no uncorrected class III violations;*
- b. *Citations for licensure violation which resulted from referrals by the ombudsman to the agency; or*
- c. *Citations for a licensure violation which resulted from complaints to the agency.*

3. A person who receives limited nursing services under this part must meet the admission criteria established by the agency for assisted living facilities. When a resident no longer meets the admission criteria for a facility licensed under this part, arrangements for relocating the person shall be made in accordance with s. 429.28(1)(k), unless the facility is licensed to provide extended congregate care services.

Section 11. Section 429.075, Florida Statutes, is amended to read:

It is further intended that reasonable efforts be made to accommodate the needs and preferences of residents to enhance the quality of life in a facility. Amendment 1 (938060) (with title amendment)—Delete everything after the enacting clause and insert:

Section 1. Section 196.075, Florida Statutes, is amended to read:

196.075 Additional homestead exemption for persons 65 and older.—

(1) As used in this section, the term:

(a) “Household” means a person or group of persons living together in a room or group of rooms as a housing unit, but the term does not include persons boarding in or renting a portion of the dwelling.

(b) “Household income” means the adjusted gross income, as defined in s. 62 of the United States Internal Revenue Code, of all members of a household.

(2) In accordance with s. 6(d), Art. VII of the State Constitution, the board of county commissioners of any county or the governing authority of any municipality may adopt an ordinance to allow *either or both of the following an additional homestead exemptions: exemption of up to*

(a) *Fifty-thousand dollars \$50,000* for any person who has the legal or equitable title to real estate and maintains thereon the permanent residence of the owner, who has attained age 65, and whose household income does not exceed \$20,000; *or-*

(b) *The amount of the assessed value of the property for any person who has the legal or equitable title to real estate with a just value less than \$250,000 and has maintained thereon the permanent residence of the owner for at least 25 years, who has attained age 65, and whose household income does not exceed the income limitation prescribed in paragraph (a), as calculated in subsection (3).*

(3) Beginning January 1, 2001, the \$20,000 income limitation shall be adjusted annually, on January 1, by the percentage change in the average cost-of-living index in the period January 1 through December

31 of the immediate prior year compared with the same period for the year prior to that. The index is the average of the monthly consumer-price-index figures for the stated 12-month period, relative to the United States as a whole, issued by the United States Department of Labor.

(4) An ordinance granting *an* additional homestead exemption as authorized by this section must meet the following requirements:

(a) It must be adopted under the procedures for adoption of a non-emergency ordinance specified in chapter 125 by a board of county commissioners; or chapter 166 by a municipal governing authority, *except that the exemption authorized by paragraph (2)(b) must be authorized by a super majority (a majority plus one) vote of the members of the governing body of the county or municipality granting such exemption.*

(b) It must specify that the exemption applies only to taxes levied by the unit of government granting the exemption. Unless otherwise specified by the county or municipality, this exemption will apply to all tax levies of the county or municipality granting the exemption, including dependent special districts and municipal service taxing units.

(c) It must specify the amount of the exemption, which may not exceed *the applicable amount specified in subsection (2) \$50,000*. If the county or municipality specifies a different exemption amount for dependent special districts or municipal service taxing units, the exemption amount must be uniform in all dependent special districts or municipal service taxing units within the county or municipality.

(d) It must require that a taxpayer claiming the exemption annually submit to the property appraiser, not later than March 1, a sworn statement of household income on a form prescribed by the Department of Revenue.

(5) The department must require by rule that the filing of the statement be supported by copies of any federal income tax returns for the prior year, any wage and earnings statements (W-2 forms), any request for an extension of time to file returns, and any other documents it finds necessary, for each member of the household, to be submitted for inspection by the property appraiser. The taxpayer’s sworn statement shall attest to the accuracy of the documents and grant permission to allow review of the documents if requested by the property appraiser. Submission of supporting documentation is not required for the renewal of an exemption under this section unless the property appraiser requests such documentation. Once the documents have been inspected by the property appraiser, they shall be returned to the taxpayer or otherwise destroyed. The property appraiser is authorized to generate random audits of the taxpayers’ sworn statements to ensure the accuracy of the household income reported. If so selected for audit, a taxpayer shall execute Internal Revenue Service Form 8821 or 4506, which authorizes the Internal Revenue Service to release tax information to the property appraiser’s office. All reviews conducted in accordance with this section shall be completed on or before June 1. The property appraiser may not grant or renew the exemption if the required documentation requested is not provided.

(6) The board of county commissioners or municipal governing authority must deliver a copy of any ordinance adopted under this section to the property appraiser no later than December 1 of the year prior to the year the exemption will take effect. If the ordinance is repealed, the board of county commissioners or municipal governing authority shall notify the property appraiser no later than December 1 of the year prior to the year the exemption expires.

(7) Those persons entitled to the homestead exemption in s. 196.031 may apply for and receive an additional homestead exemption as provided in this section. Receipt of the additional homestead exemption provided for in this section shall be subject to the provisions of ss. 196.131 and 196.161, if applicable.

(8) If title is held jointly with right of survivorship, the person residing on the property and otherwise qualifying may receive the entire amount of the additional homestead exemption.

(9) If the property appraiser determines that for any year within the immediately previous 10 years a person who was not entitled to the additional homestead exemption under this section was granted such an exemption, the property appraiser shall serve upon the owner a notice of intent to record in the public records of the county a notice of tax lien

against any property owned by that person in the county, and that property must be identified in the notice of tax lien. Any property that is owned by the taxpayer and is situated in this state is subject to the taxes exempted by the improper homestead exemption, plus a penalty of 50 percent of the unpaid taxes for each year and interest at a rate of 15 percent per annum. However, if such an exemption is improperly granted as a result of a clerical mistake or omission by the property appraiser, the person who improperly received the exemption may not be assessed a penalty and interest. Before any such lien may be filed, the owner must be given 30 days within which to pay the taxes, penalties, and interest. Such a lien is subject to the procedures and provisions set forth in s. 196.161(3).

Section 2. Paragraph (d) of subsection (7) of section 196.031, Florida Statutes, is amended to read:

 - a. For the previous calendar year is less than \$10,000; or

The agency shall allow for shared programming and staff in a facility which meets minimum standards and offers services pursuant to this paragraph, but, if the facility is cited for deficiencies in patient care, may require additional staff and programs appropriate to the needs of service recipients. Compliance with the minimum staffing ratios ~~must shall~~ be based on the total number of residents receiving direct care services, regardless of where they reside on campus. If the facility receives a conditional license, it may not share staff until the conditional license status ends. This paragraph does not restrict the agency's authority under federal or state law to require additional staff if a facility is cited for deficiencies in care which are caused by an insufficient number of certified nursing assistants or licensed nurses. The agency may adopt rules for the documentation necessary to determine compliance with this provision.

The turnover rate is the total number of terminations or separations experienced during the quarter, excluding any employee terminated during a probationary period of 3 months or less, divided by the total number of staff employed at the end of the period for which the rate is computed, and expressed as a percentage.~~

~~e. The formula for determining staff stability is the total number of employees that have been employed for more than 12 months, divided by~~

~~(o)(p) Notify a licensed physician when a resident exhibits signs of dementia or cognitive impairment or has a change of condition in order to rule out the presence of an underlying physiological condition that may be contributing to such dementia or impairment. 121.051 Participation in the system.—

(2) OPTIONAL PARTICIPATION.—

(c) Employees of public community colleges or charter technical career centers sponsored by public community colleges, designated in s. 1000.21(3), who are members of the Regular Class of the Florida Retirement System and who comply with the criteria set forth in this paragraph and s. 1012.875 may, in lieu of participating in the Florida Retirement System, elect to withdraw from the system altogether and participate in the State Community College System Optional Retirement Program provided by the employing agency under s. 1012.875.

1.a. Through June 30, 2001, the cost to the employer for benefits under the optional retirement program equals the normal cost portion of the employer retirement contribution which would be required if the employee were a member of the pension plan's Regular Class, plus the portion of the contribution rate required by s. 112.363(8) which would otherwise be assigned to the Retiree Health Insurance Subsidy Trust Fund.

b. Effective July 1, 2001, through June 30, 2011, each employer shall contribute on behalf of each member of the optional program an amount equal to 10.43 percent of the employee's gross monthly compensation. The employer shall deduct an amount for the administration of the program.

c. Effective July 1, 2011, through June 30, 2012, each member shall contribute an amount equal to the employee contribution required under s. 121.71(3). The employer shall contribute on behalf of each program member an amount equal to the difference between 10.43 percent of the employee's gross monthly compensation and the employee's required contribution based on the employee's gross monthly compensation.

d. Effective July 1, 2012, each member shall contribute an amount equal to the employee contribution required under s. 121.71(3). The employer shall contribute on behalf of each program member an amount equal to the difference between 8.15 percent of the employee's gross monthly compensation and the employee's required contribution based on the employee's gross monthly compensation.

e. The employer shall contribute an additional amount to the Florida Retirement System Trust Fund equal to the unfunded actuarial accrued liability portion of the Regular Class contribution rate.

2. The decision to participate in the optional retirement program is irrevocable as long as the employee holds a position eligible for participation, except as provided in subparagraph 3. Any service creditable under the Florida Retirement System is retained after the member withdraws from the system; however, additional service credit in the system may not be earned while a member of the optional retirement program.

3. An employee who has elected to participate in the optional retirement program shall have one opportunity, at the employee's discretion, to transfer from the optional retirement program to the pension plan of the Florida Retirement System or to the investment plan established under part II of this chapter, subject to the terms of the applicable optional retirement program contracts.

a. If the employee chooses to move to the investment plan, any contributions, interest, and earnings creditable to the employee under the optional retirement program are retained by the employee in the optional retirement program, and the applicable provisions of s. 121.4501(4) govern the election.

Managers on the part of the House

The Conference Committee Amendment for HB 5005, Retirement, provides for the following:

- Reduces the employer contribution rates into the Community College System Optional Retirement Program.
- Reduces the employer contribution rates into the Senior Management Service Optional Annuity Program.
- Reduces the employer contribution rates into the State University System Optional Retirement Program.
- Adjusts the employer-paid contribution rates for normal cost and unfunded actuarial liability for the Florida Retirement System (FRS), based on the 2011 Actuarial Valuation, as adjusted by the changes to the Investment Plan allocations.
- Reduce the allocation rates for all retirement classes being deposited into Investment Plan member accounts.

The Division of Retirement conducted an actuarial study to determine the impact from changes to the allocations to individual members Investment Plan accounts to the "blended" normal cost for the FRS, as determined in the July 1, 2011 Valuation Study. The net impacts of the adjustments to the "blended" normal cost of the FRS made by the bill upon state funded entities are as follows:

Entities Funded by the State	General Revenue Fund	Trust Funds	Total
State	\$11.17M	11.17M	22.34M
School Boards	46.73M		46.73M
State University System	4.48M		4.48M
Community Colleges	3.47M		3.47M
Total	\$62.38M	11.17M	\$77.02M

The reduction in employer-paid contributions to the State University System Optional Retirement Program, the Community College Optional Retirement Program and the Senior Management Service Optional Annuity Program produce the following savings to the entities indicated:

Entities Funded by the State	General Revenue Fund	Trust Funds	Total
State	(\$0.07M)	(\$0.07M)	(\$0.15M)
State University System	(37.57M)		(37.57M)
Community Colleges	(2.57M)		(2.57M)

b. If the employee chooses to move to the pension plan of the Florida Retirement System, the employee shall receive service credit equal to his or her years of service under the optional retirement program.

(I) The cost for such credit is the amount representing the present value of the employee's accumulated benefit obligation for the affected period of service. The cost shall be calculated as if the benefit commencement occurs on the first date the employee becomes eligible for unreduced benefits, using the discount rate and other relevant actuarial assumptions that were used to value the Florida Retirement System Pension Plan liabilities in the most recent actuarial valuation. The calculation must include any service already maintained under the pension plan in addition to the years under the optional retirement program. The present value of any service already maintained must be applied as a credit to total cost resulting from the calculation. The division ~~must shall~~ ensure that the transfer sum is prepared using a formula and methodology certified by an enrolled actuary.

(II) The employee must transfer from his or her optional retirement program account and from other employee moneys as necessary, a sum representing the present value of the employee's accumulated benefit obligation immediately following the time of such movement, determined assuming that attained service equals the sum of service in the pension plan and service in the optional retirement program.

4. Participation in the optional retirement program is limited to employees who satisfy the following eligibility criteria:

a. The employee is otherwise eligible for membership or renewed membership in the Regular Class of the Florida Retirement System, as provided in s. 121.021(11) and (12) or s. 121.122.

b. The employee is employed in a full-time position classified in the Accounting Manual for Florida's Public Community Colleges as:

(I) Instructional; or

(II) Executive Management, Instructional Management, or Institutional Management and the community college determines that recruiting to fill a vacancy in the position is to be conducted in the national or regional market, and the duties and responsibilities of the position include the formulation, interpretation, or implementation of policies, or the performance of functions that are unique or specialized within higher education and that frequently support the mission of the community college.

c. The employee is employed in a position not included in the Senior Management Service Class of the Florida Retirement System as described in s. 121.055.

5. Members of the program are subject to the same reemployment limitations, renewed membership provisions, and forfeiture provisions applicable to regular members of the Florida Retirement System under ss. 121.091(9), 121.122, and 121.091(5), respectively. A member who receives a program distribution funded by employer and required employee contributions is deemed to be retired from a state-administered retirement system if the member is subsequently employed with an employer that participates in the Florida Retirement System.

6. Eligible community college employees are compulsory members of the Florida Retirement System until, pursuant to s. 1012.875, a written election to withdraw from the system and participate in the optional retirement program is filed with the program administrator and received by the division.

a. A community college employee whose program eligibility results from initial employment shall be enrolled in the optional retirement program retroactive to the first day of eligible employment. The employer and employee retirement contributions paid through the month of the employee plan change shall be transferred to the community college to the employee's optional program account, and, effective the first day of the next month, the employer shall pay the applicable contributions based upon subparagraph 1.

b. A community college employee whose program eligibility is due to the subsequent designation of the employee's position as one of those specified in subparagraph 4., or due to the employee's appointment, promotion, transfer, or reclassification to a position specified in subparagraph 4., must be enrolled in the program on the first day of the first

full calendar month that such change in status becomes effective. The employer and employee retirement contributions paid from the effective date through the month of the employee plan change must be transferred to the community college to the employee's optional program account, and, effective the first day of the next month, the employer shall pay the applicable contributions based upon subparagraph 1.

7. Effective July 1, 2003, through December 31, 2008, any member of the optional retirement program who has service credit in the pension plan of the Florida Retirement System for the period between his or her first eligibility to transfer from the pension plan to the optional retirement program and the actual date of transfer may, during employment, transfer to the optional retirement program a sum representing the present value of the accumulated benefit obligation under the defined benefit retirement program for the period of service credit. Upon transfer, all service credit previously earned under the pension plan during this period is nullified for purposes of entitlement to a future benefit under the pension plan.

Section 2. Paragraph (d) of subsection (6) of section 121.055, Florida Statutes, is amended to read:

121.055 Senior Management Service Class.—There is hereby established a separate class of membership within the Florida Retirement System to be known as the "Senior Management Service Class," which shall become effective February 1, 1987.

If an option includes increasing the rates through the end of the fiscal year to cover the shortfall, the plan must identify the fund source or sources that the agency will use to pay for the increase. The board may direct the primary data center to levy one-time charges on all customer entities to cover the shortfall. The one-time charges shall be implemented using actual usage rate and billing data from the first three quarters of the fiscal year and the same principles used to set rates for the fiscal year.*

~~(g)(j) Maintain the capabilities of the primary data center's facilities. Maintenance responsibilities include, but are not limited to, ensuring that adequate conditioned floor space, fire suppression, cooling, and power is in place; replacing aging equipment when necessary; and making decisions related to data center expansion and renovation, periodic upgrades, and improvements that are required to ensure the ongoing suitability of the facility as a primary an enterprise data center consolidation site in the state data center system. To the extent possible, the board shall ensure that its approved annual cost allocation plan recovers sufficient funds from its customers to provide for these needs.~~

~~(i)(l) Contract with other primary data centers for the provision of administrative services or with the agency within which the primary data center is housed, whichever is most cost-effective. (c) Consistent with the rules of the State Board of Education, district school boards are required to request an alternative FTE survey for Department of Juvenile Justice programs experiencing fluctuations in student enrollment.

(d) FTE count periods shall be prescribed in rules of the State Board of Education and shall be the same for programs of the Department of Juvenile Justice as for other public school programs. The summer school period for students in Department of Juvenile Justice programs shall begin on the day immediately following the end of the regular school year and end on the day immediately preceding the subsequent regular school year. Students shall be funded for no more than 25 hours per week of direct instruction.

(e) Each juvenile justice education program must receive all federal funds for which the program is eligible.

Section 13. *Section 1003.61, Florida Statutes, is repealed.*

Section 14. Subsection (2) of section 1006.40, Florida Statutes, is amended to read:

(2) Each district school board must purchase current instructional materials to provide each student with a major tool of instruction in core courses of the subject areas of mathematics, language arts, science, social studies, reading, and literature for kindergarten through grade 12. Such purchase must be made within the first 2 years after the effective date of the adoption cycle. *For the 2012-2013 mathematics adoption, a district using a comprehensive mathematics instructional materials program adopted in the 2009-2010 adoption shall be deemed in compliance with this subsection if it provides each student with such additional state-adopted materials as may be necessary to align the previously adopted comprehensive program to common core standards and the other criteria of the 2012-2013 mathematics adoption.*

Section 15. Paragraph (c) of subsection (1) and subsection (4) of section 1011.61, Florida Statutes, are amended to read:

1011.61 Definitions.—Notwithstanding the provisions of s. 1000.21, the following terms are defined as follows for the purposes of the Florida Education Finance Program:

(1) A “full-time equivalent student” in each program of the district is defined in terms of full-time students and part-time students as follows:

(c)1. A “full-time equivalent student” is:

a. A full-time student in any one of the programs listed in s. 1011.62(1)(c); or

b. A combination of full-time or part-time students in any one of the programs listed in s. 1011.62(1)(c) which is the equivalent of one full-time student based on the following calculations:

(I) A full-time student in a combination of programs listed in s. 1011.62(1)(c) shall be a fraction of a full-time equivalent membership in each special program equal to the number of net hours per school year for which he or she is a member, divided by the appropriate number of hours set forth in subparagraph (a)1. or subparagraph (a)2. *The sum of the fractions for each program may not exceed the maximum value set forth in subsection (4). The difference between that fraction or sum of fractions and the maximum value as set forth in subsection (4) for each full-time student is presumed to be the balance of the student's time not spent in such special education programs and shall be recorded as time in the appropriate basic program.*

(II) A prekindergarten handicapped student shall meet the requirements specified for kindergarten students.

(III) A full-time equivalent student for students in kindergarten through grade 5 in a virtual instruction program under s. 1002.45 or a virtual charter school under s. 1002.33 shall consist of a student who has successfully completed a basic program listed in s. 1011.62(1)(c)1.a. or b., and who is promoted to a higher grade level.

(IV) A full-time equivalent student for students in grades 6 through 12 in a virtual instruction program under s. 1002.45(1)(b)1., 2., or 3. or a virtual charter school under s. 1002.33 shall consist of six full credit completions in programs listed in s. 1011.62(1)(c)1.b. or c. and 3. Credit completions may be a combination of full-credit courses or half-credit courses. Beginning in the 2014-2015 fiscal year, when s. 1008.22(3)(g) is implemented, the reported full-time equivalent students and associated funding of students enrolled in courses requiring passage of an end-of-course assessment shall be adjusted after the student completes the end-of-course assessment.

(V) A Florida Virtual School full-time equivalent student shall consist of six full credit completions or the prescribed level of content that counts toward promotion to the next grade in the programs listed in s. 1011.62(1)(c)1.a. and b. for kindergarten through grade 8 and the programs listed in s. 1011.62(1)(c)1.c. for grades 9 through 12. Credit completions may be a combination of full-credit courses or half-credit courses. Beginning in the 2014-2015 fiscal year, when s. 1008.22(3)(g) is implemented, the reported full-time equivalent students and associated funding of students enrolled in courses requiring passage of an end-of-course assessment shall be adjusted after the student completes the end-of-course assessment.

(VI) Each successfully completed full-credit course earned through an online course delivered by a district other than the one in which the student resides shall be calculated as 1/6 FTE.

(VII) Each successfully completed credit earned under the alternative high school course credit requirements authorized in s. 1002.375, which is not reported as a portion of the 900 net hours of instruction pursuant to subparagraph (1)(a)1., shall be calculated as 1/6 FTE.

2. A student in membership in a program scheduled for more or less than 180 school days or the equivalent on an hourly basis as specified by rules of the State Board of Education is a fraction of a full-time equivalent membership equal to the number of instructional hours in membership divided by the appropriate number of hours set forth in subparagraph (a)1.; however, for the purposes of this subparagraph, membership in programs scheduled for more than 180 days is limited to students enrolled in juvenile justice education programs and the Florida Virtual School.

The department shall determine and implement an equitable method of equivalent funding for experimental schools and for schools operating under emergency conditions, which schools have been approved by the department to operate for less than the minimum school day.

(4) The maximum value for funding a student in kindergarten through grade 12 or in a prekindergarten program for exceptional children as provided in s. 1003.21(1)(e), ~~except for a student as set forth in sub-sub paragraph (1)(c)1.b.(I),~~ is one full-time equivalent student membership for a school year or equivalent.

Section 16. Paragraph (f) of subsection (1), paragraph (b) of subsection (6), subsection (9), and paragraph (b) of subsection (13) of section 1011.62, Florida Statutes, are amended to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(1) COMPUTATION OF THE BASIC AMOUNT TO BE INCLUDED FOR OPERATION.—The following procedure shall be followed in determining the annual allocation to each district for operation:

(f) Supplemental academic instruction; categorical fund.—

1. There is created a categorical fund to provide supplemental academic instruction to students in kindergarten through grade 12. This paragraph may be cited as the "Supplemental Academic Instruction Categorical Fund."

2. Categorical funds for supplemental academic instruction shall be allocated annually to each school district in the amount provided in the General Appropriations Act. These funds shall be in addition to the funds appropriated on the basis of FTE student membership in the Florida Education Finance Program and shall be included in the total potential funds of each district. These funds shall be used to provide supplemental academic instruction to students enrolled in the K-12 program.

For the 2012-2013 and 2013-2014 fiscal years, each school district that has one or more of the 100 lowest-performing elementary schools based on the state reading assessment shall use these funds, together with the funds provided in the district's research-based reading instruction allocation and other available funds, to provide an additional hour of instruction beyond the normal school day for each day of the entire school year for intensive reading instruction for the students in each of these schools. This additional hour of instruction must be provided only by teachers or reading specialists who are effective in teaching reading. Students enrolled in these schools who have level 5 assessment scores may participate in the additional hour of instruction on an optional basis. Exceptional student education centers shall not be included in the 100 schools. After this requirement has been met, supplemental instruction strategies may include, but are not limited to: modified curriculum, reading instruction, after-school instruction, tutoring, mentoring, class size reduction, extended school year, intensive skills development in summer school, and other methods for improving student achievement. Supplemental instruction may be provided to a student in any manner and at any time during or beyond the regular 180-day term identified by the school as being the most effective and efficient way to best help that student progress from grade to grade and to graduate.

3. Effective with the 1999-2000 fiscal year, funding on the basis of FTE membership beyond the 180-day regular term shall be provided in the FEFP only for students enrolled in juvenile justice education programs or in education programs for juveniles placed in secure facilities or programs under s. 985.19. Funding for instruction beyond the regular 180-day school year for all other K-12 students shall be provided through the supplemental academic instruction categorical fund and other state, federal, and local fund sources with ample flexibility for schools to provide supplemental instruction to assist students in progressing from grade to grade and graduating.

4. The Florida State University School, as a lab school, is authorized to expend from its FEFP or Lottery Enhancement Trust Fund allocation the cost to the student of remediation in reading, writing, or mathematics for any graduate who requires remediation at a postsecondary educational institution.

5. Beginning in the 1999-2000 school year, dropout prevention programs as defined in ss. 1003.52, 1003.53(1)(a), (b), and (c), and 1003.54 shall be included in group 1 programs under subparagraph (d)3.

(6) CATEGORICAL FUNDS.—

(b) If a district school board finds and declares in a resolution adopted at a regular meeting of the school board that the funds received for any of the following categorical appropriations are urgently needed to maintain school board specified academic classroom instruction, the school board may consider and approve an amendment to the school district operating budget transferring the identified amount of the categorical funds to the appropriate account for expenditure:

1. Funds for student transportation.
2. Funds for safe schools.
3. Funds for supplemental academic instruction *if the required additional hour of instruction beyond the normal school day for each day of the entire school year has been provided for the students in each low-performing elementary school in the district pursuant to paragraph (1)(f).*
4. Funds for research-based reading instruction *if the required additional hour of instruction beyond the normal school day for each day of*

the entire school year has been provided for the students in each low-performing elementary school in the district pursuant to paragraph (9)(a).

5. Funds for instructional materials if all instructional material purchases necessary to provide updated materials aligned to Next Generation Sunshine State Standards and benchmarks and that meet statutory requirements of content and learning have been completed for that fiscal year, but no sooner than March 1. Funds available after March 1 may be used to purchase hardware for student instruction.

(9) RESEARCH-BASED READING INSTRUCTION ALLOCATION.—

(a) The research-based reading instruction allocation is created to provide comprehensive reading instruction to students in kindergarten through grade 12. *For the 2012-2013 and 2013-2014 fiscal years, in each school district that has one or more of the 100 lowest-performing elementary schools based on the state reading assessment, priority shall be given to providing an additional hour per day of intensive reading instruction beyond the normal school day for each day of the entire school year for the students in each school. Students enrolled in these schools who have level 5 assessment scores may participate in the additional hour of instruction on an optional basis. Exceptional student education centers shall not be included in the 100 schools. The intensive reading instruction delivered in this additional hour and for other students shall include: research-based reading instruction that has been proven to accelerate progress of students exhibiting a reading deficiency; differentiated instruction based on student assessment data to meet students' specific reading needs; explicit and systematic reading development in phonemic awareness, phonics, fluency, vocabulary, and comprehension, with more extensive opportunities for guided practice, error correction, and feedback; and the integration of social studies, science, and mathematics-text reading, text discussion, and writing in response to reading. For the 2012-2013 and 2013-2014 fiscal years, a school district may not hire more reading coaches than were hired during the 2011-2012 fiscal year unless all students in kindergarten through grade 5 who demonstrate a reading deficiency, as determined by district and state assessments, including students scoring Level 1 or Level 2 on FCAT Reading, are provided an additional hour per day of intensive reading instruction beyond the normal school day for each day of the entire school year.*

(b) Funds for comprehensive, research-based reading instruction shall be allocated annually to each school district in the amount provided in the General Appropriations Act. Each eligible school district shall receive the same minimum amount as specified in the General Appropriations Act, and any remaining funds shall be distributed to eligible school districts based on each school district's proportionate share of K-12 base funding.

(c) Funds allocated under this subsection must be used to provide a system of comprehensive reading instruction to students enrolled in the K-12 programs, which may include the following:

1. *The provision of an additional hour per day of intensive reading instruction to students in the 100 lowest-performing elementary schools by teachers and reading specialists who are effective in teaching reading.*

2. *Kindergarten through grade 5 reading intervention teachers to provide intensive intervention during the school day and in the required extra hour for students identified as having a reading deficiency.*

~~3.~~ *The provision of highly qualified reading coaches to specifically support teachers in making instructional decisions based on student data, and improve teacher delivery of effective reading instruction, intervention, and reading in the content areas based on student need.*

~~4.~~ *Professional development for school district teachers in scientifically based reading instruction, including strategies to teach reading in content areas and with an emphasis on technical and informational text.*

~~5.~~ *The provision of summer reading camps for all students in kindergarten through grade 2 who demonstrate a reading deficiency as determined by district and state assessments, and students in grades 3 through 5 who score at Level 1 on FCAT Reading.*

~~6.~~ *The provision of supplemental instructional materials that are grounded in scientifically based reading research.*

~~7.5.~~ The provision of intensive interventions for ~~middle and high school~~ students *in kindergarten through grade 12 who have been identified as having a reading deficiency or who are reading below grade level as determined by the FCAT.*

(d) Annually, by a date determined by the Department of Education but before May 1, school districts shall submit a K-12 comprehensive reading plan for the specific use of the research-based reading instruction allocation in the format prescribed by the department for review and approval by the Just Read, Florida! Office created pursuant to s. 1001.215. The plan annually submitted by school districts shall be deemed approved unless the department rejects the plan on or before June 1. If a school district and the Just Read, Florida! Office cannot reach agreement on the contents of the plan, the school district may appeal to the State Board of Education for resolution. School districts shall be allowed reasonable flexibility in designing their plans and shall be encouraged to offer reading *intervention remediation* through innovative methods, including career academies. The plan format shall be developed with input from school district personnel, including teachers and principals, and shall allow courses in core, career, and alternative programs that deliver intensive reading remediation through integrated curricula, provided that the teacher is deemed highly qualified to teach reading or working toward that status. No later than July 1 annually, the department shall release the school district's allocation of appropriated funds to those districts having approved plans. A school district that spends 100 percent of this allocation on its approved plan shall be deemed to have been in compliance with the plan. The department may withhold funds upon a determination that reading instruction allocation funds are not being used to implement the approved plan. *The department shall monitor and track the implementation of each district plan, including conducting site visits and collecting specific data on expenditures and reading improvement results. By February 1 of each year, the department shall report its findings to the Legislature.*

(13) TOTAL ALLOCATION OF STATE FUNDS TO EACH DISTRICT FOR CURRENT OPERATION.—The total annual state allocation to each district for current operation for the FEFP shall be distributed periodically in the manner prescribed in the General Appropriations Act.

(b) The amount thus obtained shall be the net annual allocation to each school district. However, if it is determined that any school district received an underallocation or overallocation for any prior year because of an arithmetical error, assessment roll change required by final judicial decision, full-time equivalent student membership error, or any allocation error revealed in an audit report, the allocation to that district shall be appropriately adjusted. Beginning with audits for the 2001-2002 fiscal year, if the adjustment is the result of an audit finding in which group 2 FTE are reclassified to the basic program and the district weighted FTE are over the weighted enrollment ceiling for group 2 programs, the adjustment shall not result in a gain of state funds to the district. *Beginning with the 2011-2012 fiscal year, if a special program cost factor is less than the basic program cost factor, an audit adjustment may not result in the reclassification of the special program FTE to the basic program FTE.* If the Department of Education audit adjustment recommendation is based upon controverted findings of fact, the Commissioner of Education is authorized to establish the amount of the adjustment based on the best interests of the state.

Section 17. Paragraph (e) of subsection (2) of section 1011.71, Florida Statutes, is amended to read:

Conference Committee Amendment (955423)(with title amendment)—Remove everything after the enacting clause and insert:

Section 1. *Effective June 30, 2013, section 1010.87, Florida Statutes, is repealed.*

Section 2. (1) *The Workers' Compensation Administration Trust Fund, FLAIR number 48-2-795, within the Department of Education is terminated.*

(2) *The balance remaining in, and all revenues of, the trust fund shall be transferred to the Workers' Compensation Administration Trust Fund within the Department of Financial Services.*

(3) *The Division of Vocational Rehabilitation within the Department of Education shall pay any outstanding debts or obligations of the terminated trust fund as soon as practicable, and the Chief Financial Officer shall close out and remove the terminated trust fund from the various state accounting systems using generally accepted accounting principles concerning warrants outstanding, assets, and liabilities.*

Section 3. Section 440.015, Florida Statutes, is amended to read:

440.015 Legislative intent.—It is the intent of the Legislature that the Workers' Compensation Law be interpreted so as to assure the quick and efficient delivery of disability and medical benefits to an injured worker and to facilitate the worker's return to gainful reemployment at a reasonable cost to the employer. It is the specific intent of the Legislature that workers' compensation cases shall be decided on their merits. The workers' compensation system in Florida is based on a mutual renunciation of common-law rights and defenses by employers and employees alike. In addition, it is the intent of the Legislature that the facts in a workers' compensation case are not to be interpreted liberally in favor of either the rights of the injured worker or the rights of the employer. Additionally, the Legislature hereby declares that disputes concerning the facts in workers' compensation cases are not to be given a broad liberal construction in favor of the employee on the one hand or of the employer on the other hand, and the laws pertaining to workers' compensation are to be construed in accordance with the basic principles of statutory construction and not liberally in favor of either employee or employer. It is the intent of the Legislature to ensure the prompt delivery of benefits to the injured worker. Therefore, an efficient and self-executing system must be created which is not an economic or administrative burden. The department, agency, the Office of Insurance Regulation, ~~the Department of Education,~~ and the Division of Administrative Hearings shall administer the Workers' Compensation Law in a manner which facilitates the self-execution of the system and the process of ensuring a prompt and cost-effective delivery of payments.

Section 4. Section 440.125, Florida Statutes, is amended to read:

440.125 Medical records and reports; identifying information in employee medical bills; confidentiality.—Any medical records and medical reports of an injured employee and any information identifying an injured employee in medical bills which are provided to the department, pursuant to s. 440.13, are confidential and exempt from the provisions of s. 119.07(1) and s. 24(a), Art. I of the State Constitution, except as otherwise provided by this chapter. The department may share any such confidential and exempt records, reports, or information received pursuant to s. 440.13 with the Agency for Health Care Administration ~~and the Department of Education~~ in furtherance of their official duties under ss. 440.13 and 440.134. The agency and the department shall maintain the confidential and exempt status of such records, reports, and information received.

Section 5. Subsections (2), (3), (4), and (5) of section 440.44, Florida Statutes, are amended to read:

440.44 Workers' compensation; staff organization.—

(2) INTENT.—It is the intent of the Legislature that the department, the agency, ~~the Department of Education,~~ and the Division of Administrative Hearings assume an active and forceful role in its administration of this act, so as to ensure that the system operates efficiently and with maximum benefit to both employers and employees.

(3) EXPENDITURES.—The department, the agency, the office, ~~the Department of Education,~~ and the director of the Division of Administrative Hearings shall make such expenditures, including expenditures for personal services and rent at the seat of government and elsewhere, for law books; for telephone services and WATS lines; for books of reference, periodicals, equipment, and supplies; and for printing and binding as may be necessary in the administration of this chapter. All expenditures in the administration of this chapter shall be allowed and paid as provided in s. 440.50 upon the presentation of itemized vouchers therefor approved by the department, the agency, the office, ~~the Department of Education,~~ or the director of the Division of Administrative Hearings.

(4) PERSONNEL ADMINISTRATION.—Subject to the other provisions of this chapter, the department, the agency, the office, ~~the Department of Education,~~ and the Division of Administrative Hearings may appoint, and prescribe the duties and powers of, bureau chiefs, attorneys, accountants, medical advisers, technical assistants, inspectors, claims examiners, and such other employees as may be necessary in the performance of their duties under this chapter.

(5) OFFICE.—The department, the agency, ~~the Department of Education,~~ and the Deputy Chief Judge shall maintain and keep open

during reasonable business hours an office, which shall be provided in the Capitol or some other suitable building in the City of Tallahassee, for the transaction of business under this chapter, at which office the official records and papers shall be kept. The office shall be furnished and equipped. The department, the agency, any judge of compensation claims, or the Deputy Chief Judge may hold sessions and conduct hearings at any place within the state. The Office of the Judges of Compensation Claims shall maintain the 17 district offices, 31 judges of compensation claims, and 31 mediators as they exist on June 30, 2001.

The Conference Committee Amendment for HB 5509, State Data Center System, provides for the following:

- Amends the schedule for agency data center consolidations and exempts the Florida Department of Law Enforcement, Department of Lottery, Systems Design and Development in the Office of Policy and Budget, state attorneys, public defenders, criminal conflict and civil regional counsel, capital collateral regional counsel, Florida Clerks of Court Operations Corporation, Florida Housing Finance Corporation, and the State Board of Administration from consolidation to a primary data center.

- Deletes the requirement that agencies must submit information relating to their data centers and computing facilities to the Agency for Enterprise Information Technology (AEIT).
- Deletes the requirement for the AEIT to submit a comprehensive transition plan.
- Amends certain duties and responsibilities of a primary data center, to include the Northwest Regional Data Center.

Conference Committee Amendment (737523)(with title amendment)—Remove everything after the enacting clause and insert:

Section 1. Subsection (1), paragraphs (d) and (e) of subsection (2), subsections (3) and (4), and paragraph (a) of subsection (5) of section 282.201, Florida Statutes, are amended to read:

282.201 State data center system; agency duties and limitations.—A state data center system that includes all primary data centers, other nonprimary data centers, and computing facilities, and that provides an enterprise information technology service as defined in s. 282.0041, is established.

(1) INTENT.—The Legislature finds that the most efficient and effective means of providing quality utility data processing services to state agencies requires that computing resources be concentrated in quality facilities that provide the proper security, infrastructure, and staff resources to ensure that the state's data is maintained reliably and safely, and is recoverable in the event of a disaster. Efficiencies resulting from such consolidation include the increased ability to leverage technological expertise and hardware and software capabilities; increased savings through consolidated purchasing decisions; and the enhanced ability to deploy technology improvements and implement new policies consistently throughout the consolidated organization. *Unless otherwise exempt by law, therefore it is the intent of the Legislature that all agency data centers and computing facilities be consolidated into a primary data center centers to the maximum extent possible by 2019.*

(2) AGENCY FOR ENTERPRISE INFORMATION TECHNOLOGY DUTIES.—The Agency for Enterprise Information Technology shall:

(d) By October 1 of each year ~~beginning in 2011~~, provide recommendations to the Governor and Legislature relating to changes to the schedule for the consolidations of state agency data centers as provided in subsection (4).

1. The recommendations must be based on the goal of maximizing current and future cost savings by:

- a. Consolidating purchase decisions.;
- b. Leveraging expertise and other resources to gain economies of scale.;
- c. Implementing state information technology policies more effectively. ~~and~~
- d. Maintaining or improving the level of service provision to customer entities.

2. The agency shall establish workgroups as necessary to ensure participation by affected agencies in the development of recommendations related to consolidations.

(e) Develop and establish rules relating to the operation of the state data center system which comply with applicable federal regulations, including 2 C.F.R. part 225 and 45 C.F.R. ~~The agency shall publish notice of rule development in the Florida Administrative Weekly by October 1, 2011.~~ The rules must address:

1. Ensuring that financial information is captured and reported consistently and accurately.
2. Identifying standards for hardware, including standards for a shared, virtualized server environment, and operations system software and other operational software, including security and network infrastructure, for the primary data centers; requiring compliance with such standards in order to enable the efficient consolidation of the agency data centers or computing facilities; and providing an exemption process

from compliance with such standards, which must be consistent with paragraph (5)(b).

3. Requiring annual full cost recovery on an equitable rational basis. The cost-recovery methodology must ensure that no service is subsidizing another service and may include adjusting the subsequent year's rates as a means to recover deficits or refund surpluses from a prior year.

4. Requiring that any special assessment imposed to fund expansion is based on a methodology that apportions the assessment according to the proportional benefit to each customer entity.

5. Requiring that rebates be given when revenues have exceeded costs, that rebates be applied to offset charges to those customer entities that have subsidized the costs of other customer entities, and that such rebates may be in the form of credits against future billings.

6. Requiring that all service-level agreements have a contract term of up to 3 years, but may include an option to renew for up to 3 additional years contingent on approval by the board, and require at least a 180-day notice of termination.

(3) STATE AGENCY DUTIES.—

The financial information required under subparagraphs 1., 2., and 3. must be based on current law and current appropriations.

~~(f)(e)~~ Annually, by October 1, submit to the board of trustees cost-reduction proposals, including strategies and timetables for lowering customer entities' costs without reducing the level of services.

~~(h)(g)~~ Develop a business continuity plan and conduct a live exercise of the plan at least annually. The plan must be approved by the board and the Agency for Enterprise Information Technology.

~~(i)(h)~~ Enter into a service-level agreement with each customer entity to provide services as defined and approved by the board. A service-level agreement may not have a term exceeding 3 years but may include an option to renew for up to 3 years contingent on approval by the board.

d. Prohibit the transfer of computing services between primary data center facilities without at least 180 days' notice of service cancellation.;

e. Identify the scope of work.;

f. Identify the products or services to be delivered with sufficient specificity to permit an external financial or performance audit.;

g. Establish the services to be provided, the business standards that must be met for each service, the cost of each service, and the process by which the business standards for each service are to be objectively measured and reported.;

h. Identify applicable funds and funding streams for the services or products under contract.;

i. Provide a timely billing methodology for recovering the cost of services provided to the customer entity.;

j. Provide a procedure for modifying the service-level agreement to address changes in projected costs of service.;

k. 1. Provide for mediation of disputes by the Division of Administrative Hearings pursuant to s. 120.573.

2. A service-level agreement may include:

a. A dispute resolution mechanism, including alternatives to administrative or judicial proceedings;

b. The setting of a surety or performance bond for service-level agreements entered into with agency primary data centers established by law; or

c. Additional terms and conditions as determined advisable by the parties if such additional terms and conditions do not conflict with the requirements of this section or rules adopted by the Agency for Enterprise Information Technology.

3. The failure to execute a service-level agreement within 60 days after service commencement shall, in the case of an existing customer entity, result in a continuation of the terms of the service-level agreement from the prior fiscal year, including any amendments that were formally proposed to the customer entity by the primary data center within the 3 months before service commencement, and a revised cost-of-service estimate. If a new customer entity fails to execute an agreement within 60 days after service commencement, the data center may cease services.

(j)(4) Plan, design, establish pilot projects for, and conduct experiments with information technology resources, and implement enhancements in services if such implementation is cost-effective and approved by the board.

Any administrative overhead costs charged shall require a specific appropriation in the General Appropriation Act.

(m)(4) Assume administrative access rights to the resources and equipment, such as servers, network components, and other devices that are consolidated into the primary data center.

2. Each primary data center shall provide its customer agencies with the appropriate level of access to applications, servers, network components, and other devices necessary for agencies to perform their core business activities and functions.

(3) BOARD DUTIES.—Each board of trustees of a primary data center shall:

(e) Ensure the sufficiency and transparency of the primary data center financial information by:

1. Establishing policies that ensure that cost-recovery methodologies, billings, receivables, expenditure, budgeting, and accounting data are captured and reported timely, consistently, accurately, and transparently and, upon adoption of rules by the Agency for Enterprise Information Technology, are in compliance with such rules.

2. Requiring execution of service-level agreements by the data center and each customer entity for services provided by the data center to the customer entity.

3. Requiring cost recovery for the full cost of services, including direct and indirect costs. The cost-recovery methodology must ensure that no service is subsidizing another service without an affirmative vote of approval by the customer entity providing the subsidy.

4. Establishing special assessments to fund expansions based on a methodology that apportions the assessment according to the proportional benefit to each customer entity.

5. Providing rebates to customer entities when revenues exceed costs and offsetting charges to those who have subsidized other customer entity costs based on actual prior year final expenditures. Rebates may be credited against future billings.

6. Approving all expenditures committing over \$50,000 in a fiscal year.

7. Projecting costs and revenues at the beginning of the third quarter of each fiscal year through the end of the fiscal year. If in any given fiscal year the primary data center is projected to earn revenues that are below costs for that fiscal year after first reducing operating costs where possible, the board shall implement any combination of the following remedies to cover the shortfall:

a. The board may direct the primary data center to adjust current year chargeback rates through the end of the fiscal year to cover the shortfall. The rate adjustments shall be implemented using actual usage rate and billing data from the first three quarters of the fiscal year and the same principles used to set rates for the fiscal year.

b. The board may direct the primary data center to levy one-time charges on all customer entities to cover the shortfall. The one-time charges shall be implemented using actual usage rate and billing data from the first three quarters of the fiscal year and the same principles used to set rates for the fiscal year.

c. The customer entities represented by each board member may provide payments to cover the shortfall in proportion to the amounts each entity paid in the prior fiscal year.

8. *Providing a plan for consideration by the Legislative Budget Commission if a billing rate schedule is used after the start of the fiscal year which increases any agency's costs for that fiscal year.*

(l) Contract with other primary data centers for the provision of administrative services or with the agency within which the primary data center is housed, whichever is most cost-effective. Any administrative overhead costs requires a specific appropriation in the General Appropriations Act.

4. A limited prescription drug veterinary wholesale distributor that applies to the department for a new permit or the renewal of a permit must submit a bond of \$20,000, or other equivalent means of security acceptable to the department, such as an irrevocable letter of credit or a deposit in a trust account or financial institution, payable to the *Professional Regulation Florida Drug, Device, and Cosmetic Trust Fund*. The purpose of the bond is to secure payment of any administrative penalties imposed by the department and any fees and costs incurred by the department regarding that permit which are authorized under state law and which the permittee fails to pay 30 days after the fine or costs become final. The department may make a claim against such bond or security until 1 year after the permittee's license ceases to be valid or until 60 days after any administrative or legal proceeding authorized in this part which involves the permittee is concluded, including any appeal, whichever occurs later.

5. A limited prescription drug veterinary wholesale distributor must maintain at all times a license or permit to engage in the wholesale distribution of prescription drugs in compliance with laws of the state in which it is a resident.

The recordkeeping requirements of ss. 499.0121(6) and 499.01212 must be followed for this transaction.

Section 12. Subsection (13) of section 499.028, Florida Statutes, is amended to read:

The Conference Committee Amendment for HB 5701, taxation, provides for the following:

- Current law allows documentary stamp receipts that are dedicated for other uses to be available to pay debt service for bonds issued before January 1, 2010. This amendment extends this provision to bonds issued before January 1, 2013. The amendment is expected to result in lower interest rates for bonds issues before January 1, 2013.
- It limits eligibility for the dealers' credit for collecting taxes to those sales tax dealers who file and remit taxes by electronic means.

- It adopts the 2012 version of the United States Internal Revenue Code for purposes of the Florida corporate income tax.
- It provides that any estimated corporate income tax payment which would otherwise have been due no later than June 30, 2013 must be paid on or before June 28, 2013, and requires the Department of Revenue to provide adequate notice to affected persons about this change in the due date.

Conference Committee Amendment (217733)(with title amendment)—Remove everything after the enacting clause and insert:

Section 1. Section 201.15, Florida Statutes, is amended to read:

201.15 Distribution of taxes collected.—All taxes collected under this chapter are subject to the service charge imposed in s. 215.20(1). Prior to distribution under this section, the Department of Revenue shall deduct amounts necessary to pay the costs of the collection and enforcement of the tax levied by this chapter. Such costs and the service charge may not be levied against any portion of taxes pledged to debt service on bonds to the extent that the costs and service charge are required to pay any amounts relating to the bonds. After distributions are made pursuant to subsection (1), all of the costs of the collection and enforcement of the tax levied by this chapter and the service charge shall be available and transferred to the extent necessary to pay debt service and any other amounts payable with respect to bonds authorized before January 1, 2013 ~~2010~~, secured by revenues distributed pursuant to subsection (1). All taxes remaining after deduction of costs and the service charge shall be distributed as follows:

(1) Sixty-three and thirty-one hundredths percent of the remaining taxes shall be used for the following purposes:

(a) Amounts necessary to pay the debt service on, or fund debt service reserve funds, rebate obligations, or other amounts payable with respect to Preservation 2000 bonds issued pursuant to s. 375.051 and Florida Forever bonds issued pursuant to s. 215.618, shall be paid into the State Treasury to the credit of the Land Acquisition Trust Fund to be used for such purposes. The amount transferred to the Land Acquisition Trust Fund may not exceed \$300 million in fiscal year 1999-2000 and thereafter for Preservation 2000 bonds and bonds issued to refund Preservation 2000 bonds, and \$300 million in fiscal year 2000-2001 and thereafter for Florida Forever bonds. The annual amount transferred to the Land Acquisition Trust Fund for Florida Forever bonds may not exceed \$30 million in the first fiscal year in which bonds are issued. The limitation on the amount transferred shall be increased by an additional \$30 million in each subsequent fiscal year, but may not exceed a total of \$300 million in any fiscal year for all bonds issued. It is the intent of the Legislature that all bonds issued to fund the Florida Forever Act be retired by December 31, 2040. Except for bonds issued to refund previously issued bonds, no series of bonds may be issued pursuant to this paragraph unless such bonds are approved and the debt service for the remainder of the fiscal year in which the bonds are issued is specifically appropriated in the General Appropriations Act. For purposes of refunding Preservation 2000 bonds, amounts designated within this section for Preservation 2000 and Florida Forever bonds may be transferred between the two programs to the extent provided for in the documents authorizing the issuance of the bonds. The Preservation 2000 bonds and Florida Forever bonds are equally and ratably secured by moneys distributable to the Land Acquisition Trust Fund pursuant to this section, except as specifically provided otherwise by the documents authorizing the issuance of the bonds. Moneys transferred to the Land Acquisition Trust Fund pursuant to this paragraph, or earnings thereon, may not be used or made available to pay debt service on the Save Our Coast revenue bonds.

(b) Moneys shall be paid into the State Treasury to the credit of the Save Our Everglades Trust Fund in amounts necessary to pay debt service, provide reserves, and pay rebate obligations and other amounts due with respect to bonds issued under s. 215.619. Taxes distributed under paragraph (a) and this paragraph must be collectively distributed on a pro rata basis when the available moneys under this subsection are not sufficient to cover the amounts required under paragraph (a) and this paragraph.

(c) After the required payments under paragraphs (a) and (b), the remainder shall be paid into the State Treasury to the credit of:

1. The State Transportation Trust Fund in the Department of Transportation in the amount of the lesser of 38.2 percent of the remainder or \$541.75 million in each fiscal year. Out of such funds, the first \$50 million for the 2012-2013 fiscal year; \$65 million for the 2013-2014 fiscal year; and \$75 million for the 2014-2015 fiscal year and all subsequent years, shall be transferred to the State Economic Enhancement and Development Trust Fund within the Department of Economic Opportunity. The remainder is to be used for the following specified purposes, notwithstanding any other law to the contrary:

a. For the purposes of capital funding for the New Starts Transit Program, authorized by Title 49, U.S.C. s. 5309 and specified in s. 341.051, 10 percent of these funds;

c. For the purposes of the Strategic Intermodal System specified in ss. 339.61, 339.62, 339.63, and 339.64, 75 percent of these funds after allocating for the New Starts Transit Program described in sub-subparagraph a. and the Small County Outreach Program described in sub-subparagraph b.; and

d. For the purposes of the Transportation Regional Incentive Program specified in s. 339.2819, 25 percent of these funds after allocating for the New Starts Transit Program described in sub-subparagraph a. and the Small County Outreach Program described in sub-subparagraph b. Effective July 1, 2014, the first \$60 million of the funds allocated pursuant to this sub-subparagraph shall be allocated annually to the Florida Rail Enterprise for the purposes established in s. 341.303(5).

2. The Grants and Donations Trust Fund in the Department of Economic Opportunity in the amount of the lesser of .23 percent of the remainder or \$3.25 million in each fiscal year to fund technical assistance to local governments and school boards on the requirements and implementation of this act.

3. The Ecosystem Management and Restoration Trust Fund in the amount of the lesser of 2.12 percent of the remainder or \$30 million in each fiscal year, to be used for the preservation and repair of the state's beaches as provided in ss. 161.091-161.212.

4. General Inspection Trust Fund in the amount of the lesser of .02 percent of the remainder or \$300,000 in each fiscal year to be used to fund oyster management and restoration programs as provided in s. 379.362(3).

Moneys distributed pursuant to this paragraph may not be pledged for debt service unless such pledge is approved by referendum of the voters.

(d) After the required payments under paragraphs (a), (b), and (c), the remainder shall be paid into the State Treasury to the credit of the General Revenue Fund to be used and expended for the purposes for which the General Revenue Fund was created and exists by law.

(2) The lesser of 7.56 percent of the remaining taxes or \$84.9 million in each fiscal year shall be distributed as follows:

(3)(a) The lesser of 1.94 percent of the remaining taxes or \$26 million in each fiscal year shall be distributed in the following order:

1. Amounts necessary to pay debt service or to fund debt service reserve funds, rebate obligations, or other amounts payable with respect to bonds issued before February 1, 2009, pursuant to this subsection shall be paid into the State Treasury to the credit of the Land Acquisition Trust Fund.

2. Eleven million dollars shall be paid into the State Treasury to the credit of the General Revenue Fund.

3. The remainder shall be paid into the State Treasury to the credit of the Land Acquisition Trust Fund.

(b) Moneys deposited in the Land Acquisition Trust Fund pursuant to this subsection shall be used to acquire coastal lands or to pay debt service on bonds issued to acquire coastal lands and to develop and manage lands acquired with moneys from the trust fund.

(4) The lesser of 4.2 percent of the remaining taxes or \$60.5 million in each fiscal year shall be paid into the State Treasury to the credit of the Water Management Lands Trust Fund. Sums deposited in that fund may be used for any purpose authorized in s. 373.59.

(5) Of the remaining taxes, 3.52 percent shall be paid into the State Treasury to the credit of the Conservation and Recreation Lands Trust Fund to carry out the purposes set forth in s. 259.032. Eleven and fifteen hundredths percent of the amount credited to the Conservation and Recreation Lands Trust Fund pursuant to this subsection shall be transferred to the State Game Trust Fund and used for land management activities.

(6) The lesser of 2.28 percent of the remaining taxes or \$34.1 million in each fiscal year shall be paid into the State Treasury to the credit of the Invasive Plant Control Trust Fund to carry out the purposes set forth in ss. 369.22 and 369.252.

(7) The lesser of .5 percent of the remaining taxes or \$9.3 million in each fiscal year shall be paid into the State Treasury to the credit of the State Game Trust Fund to be used exclusively for the purpose of implementing the Lake Restoration 2020 Program.

These funds shall be used for research, development, demonstration, and implementation of suitable best management practices or other measures used to achieve water quality standards in surface waters and water segments identified pursuant to ss. 303(d) of the Clean Water Act, Pub. L. No. 92-500, 33 U.S.C. ss. 1251 et seq. Implementation of best management practices and other measures may include cost-share grants, technical assistance, implementation tracking, and conservation leases or other agreements for water quality improvement. The Department of Environmental Protection and the Department of Agriculture and Consumer Services may adopt rules governing the distribution of funds for implementation of best management practices. The unobligated balance of funds received from the distribution of taxes collected under this chapter to address water quality impacts associated with nonagricultural nonpoint sources must be excluded when calculating the unobligated balance of the Water Quality Assurance Trust Fund as it relates to the determination of the applicable excise tax rate.

(9) Seven and fifty-three hundredths percent of the remaining taxes in each fiscal year shall be paid into the State Treasury to the credit of the State Housing Trust Fund. (12) Amounts distributed pursuant to subsections (5), (6), (7), and (8) are subject to the payment of debt service on outstanding Conservation and Recreation Lands revenue bonds.

(13) In each fiscal year that the remaining taxes exceed collections in the prior fiscal year, the stated maximum dollar amounts provided in subsections (2), (4), (6), and (7) shall each be increased by an amount equal to 10 percent of the increase in the remaining taxes collected under this chapter multiplied by the applicable percentage provided in those subsections.

(14) If the payment requirements in any year for bonds outstanding on July 1, 2007, or bonds issued to refund such bonds, exceed the limitations of this section, distributions to the trust fund from which the bond payments are made must be increased to the lesser of the amount needed to pay bond obligations or the limit of the applicable percentage distribution provided in subsections (1)-(10).

(15) Distributions to the State Housing Trust Fund pursuant to subsections (9) and (10) must be sufficient to cover amounts required to be transferred to the Florida Affordable Housing Guarantee Program's annual debt service reserve and guarantee fund pursuant to s. 420.5092(6)(a) and (b) up to the amount required to be transferred to such reserve and fund based on the percentage distribution of documentary stamp tax revenues to the State Housing Trust Fund which is in effect in the 2004-2005 fiscal year.

(16) If amounts necessary to pay debt service or any other amounts payable with respect to Preservation 2000 bonds, Florida Forever bonds, or Everglades Restoration bonds authorized before January 1, 2013 ~~2010~~, exceed the amounts distributable pursuant to subsection (1), all moneys distributable pursuant to this section are available for such obligations and transferred in the amounts necessary to pay such obligations when due. However, amounts distributable pursuant to subsection (2), subsection (3), subsection (4), subsection (5), paragraph (9)(a), or paragraph (10)(a) are not available to pay such obligations to the extent that such moneys are necessary to pay debt service on bonds secured by revenues pursuant to those provisions.

(17) After the distributions provided in the preceding subsections, any remaining taxes shall be paid into the State Treasury to the credit of the General Revenue Fund.

Section 2. Effective July 1, 2012, and applicative to returns due on or after that date, subsection (1) of section 212.12, Florida Statutes, is amended to read:

212.12 Dealer's credit for collecting tax; penalties for noncompliance; powers of Department of Revenue in dealing with delinquents; brackets applicable to taxable transactions; records required.—

(1)(a)1. Notwithstanding any other ~~provision~~ of law and for the purpose of compensating persons granting licenses for and the lessors of real and personal property taxed hereunder, for the purpose of compensating dealers in tangible personal property, for the purpose of compensating dealers providing communication services and taxable

services, for the purpose of compensating owners of places where admissions are collected, and for the purpose of compensating remitters of any taxes or fees reported on the same documents utilized for the sales and use tax, as compensation for the keeping of prescribed records, filing timely tax returns, and the proper accounting and remitting of taxes by them, such seller, person, lessor, dealer, owner, and remitter (except dealers who make mail order sales) *who files the return required pursuant to s. 212.11 only by electronic means and who pays the amount due on such return only by electronic means* shall be allowed 2.5 percent of the amount of the tax due, ~~and accounted for, and remitted to the department; in the form of a deduction in submitting his or her report and paying the amount due by him or her; the department shall allow such deduction of 2.5 percent of the amount of the tax to the person paying the same for remitting the tax and making of tax returns in the manner herein provided, for paying the amount due to be paid by him or her, and as further compensation to dealers in tangible personal property for the keeping of prescribed records and for collection of taxes and remitting the same.~~ However, if the amount of the tax due and remitted to the department *by electronic means* for the reporting period exceeds \$1,200, ~~an allowance is not shall be~~ allowed for all amounts in excess of \$1,200. *For purposes of this subparagraph, the term "electronic means" has the same meaning as provided in s. 213.755(2)(c).*

2. The executive director of the department is authorized to negotiate a collection allowance, pursuant to rules promulgated by the department, with a dealer who makes mail order sales. The rules of the department shall provide guidelines for establishing the collection allowance based upon the dealer's estimated costs of collecting the tax, the volume and value of the dealer's mail order sales to purchasers in this state, and the administrative and legal costs and likelihood of achieving collection of the tax absent the cooperation of the dealer. However, in no event shall the collection allowance negotiated by the executive director exceed 10 percent of the tax remitted for a reporting period.

~~(b)(a)~~ The Department of Revenue may deny the collection allowance if a taxpayer files an incomplete return or if the required tax return or tax is delinquent at the time of payment.

1. An "incomplete return" is, for purposes of this chapter, a return which is lacking such uniformity, completeness, and arrangement that the physical handling, verification, review of the return, or determination of other taxes and fees reported on the return may not be readily accomplished.

2. The department shall adopt rules requiring such information as it may deem necessary to ensure that the tax levied hereunder is properly collected, reviewed, compiled, reported, and enforced, including, but not limited to: the amount of gross sales; the amount of taxable sales; the amount of tax collected or due; the amount of lawful refunds, deductions, or credits claimed; the amount claimed as the dealer's collection allowance; the amount of penalty and interest; the amount due with the return; and such other information as the Department of Revenue may specify. The department shall require that transient rentals and agricultural equipment transactions be separately shown. Sales made through vending machines as defined in s. 212.0515 must be separately shown on the return. Sales made through coin-operated amusement machines as defined by s. 212.02 and the number of machines operated must be separately shown on the return or on a form prescribed by the department. If a separate form is required, the same penalties for late filing, incomplete filing, or failure to file as provided for the sales tax return shall apply to ~~the said~~ form.

~~(c)(b)~~ The collection allowance and other credits or deductions provided in this chapter shall be applied proportionally to any taxes or fees reported on the same documents used for the sales and use tax.

~~(d)(e)~~1. A dealer entitled to the collection allowance provided in this section may elect to forego the collection allowance and direct that ~~the said~~ amount be transferred into the Educational Enhancement Trust Fund. Such an election must be made with the timely filing of a return and may not be rescinded once made. If a dealer who makes such an election files a delinquent return, underpays the tax, or files an incomplete return, the amount transferred into the Educational Enhancement Trust Fund shall be the amount of the collection allowance remaining after resolution of liability for all of the tax, interest, and penalty due on that return or underpayment of tax. The Department of Education shall distribute the remaining amount from the trust fund to the school districts that have adopted resolutions stating that those

funds will be used to ensure that up-to-date technology is purchased for the classrooms in the district and that teachers are trained in the use of that technology. Revenues collected in districts that do not adopt such a resolution shall be equally distributed to districts that have adopted such resolutions.

2. This paragraph applies to all taxes, surtaxes, and any local option taxes administered under this chapter and remitted directly to the department. This paragraph does not apply to ~~a any~~ locally imposed and self-administered convention development tax, tourist development tax, or tourist impact tax administered under this chapter.

3. Revenues from the dealer-collection allowances shall be transferred quarterly from the General Revenue Fund to the Educational Enhancement Trust Fund. The Department of Revenue shall provide to the Department of Education quarterly information about such revenues by county to which the collection allowance was attributed.

Notwithstanding any provision of chapter 120 to the contrary, the Department of Revenue may adopt rules to carry out the amendment made by chapter 2006-52, Laws of Florida, to this section.

Section 3. Effective upon this act becoming a law and operating retroactively to January 1, 2012, paragraph (n) of subsection (1) and subsection (2) of section 220.03, Florida Statutes, are amended to read:

The Conference Committee Amendment for HB 843, Department of the Lottery, provides for the following:

- Authorizes the Department of the Lottery to sell online tickets in addition to instant tickets through a vending machine.
- The vending machine, or any machine or device linked to the vending machine, may not include or make use of video reels or mechanical reels or other video depictions of slot machine or casino game themes or titles for game play.
- Provides an effective date of July 1, 2012.

Conference Committee Amendment (111539)(with title amendment)—Remove everything after the enacting clause and insert:

Section 1. Paragraph (a) of subsection (9) of section 24.105, Florida Statutes, is amended to read:

24.105 Powers and duties of department.—The department shall:

(9) Adopt rules governing the establishment and operation of the state lottery, including:

(a) The type of lottery games to be conducted, except that:

1. No name of an elected official shall appear on the ticket or play slip of any lottery game or on any prize or on any instrument used for the payment of prizes, unless such prize is in the form of a state warrant.
2. No coins or currency shall be dispensed from any electronic computer terminal or device used in any lottery game.
3. Other than as specifically provided in s. 24.112 subparagraph 4., no terminal or device may be used for any lottery game which may be operated solely by the player without the assistance of the retailer.

~~4. The only player-activated machine which may be utilized is a machine which dispenses instant lottery game tickets following the insertion of a coin or currency by a ticket purchaser. To be authorized a machine must be under the supervision and within the direct line of sight of the lottery retailer to ensure that the machine is monitored and only operated by persons at least 18 years of age; be capable of being electronically deactivated by the retailer to prohibit use by persons less than 18 years of age through the use of a lockout device that maintains the machine's deactivation for a period of no less than 5 minutes; and be designed to prevent its use or conversion for use in any manner other than the dispensing of instant lottery tickets. Authorized machines may dispense change to players purchasing tickets but may not be utilized for paying the holders of winning tickets of any kind. At least one clerk must be on duty at the lottery retailer while the machine is in operation. However, at least two clerks must be on duty at any lottery location which has violated s. 24.1055.~~

Section 2. Paragraph (h) of subsection (2) of section 24.111, Florida Statutes, is amended to read:

24.111 Vendors; disclosure and contract requirements.—

(2) The department shall investigate the financial responsibility, security, and integrity of each vendor with which it intends to negotiate a contract for major procurement. Such investigation may include an investigation of the financial responsibility, security, and integrity of any or all persons whose names and addresses are required to be disclosed pursuant to paragraph (a). Any person who submits a bid, proposal, or offer as part of a major procurement must, at the time of submitting such bid, proposal, or offer, provide the following:

(h) The department shall lease all ~~instant ticket~~ vending machines that dispense online lottery tickets, instant lottery tickets, or both online and instant lottery tickets.

The department shall not contract with any vendor who fails to make the disclosures required by this subsection, and any contract with a vendor who has failed to make the required disclosures shall be unenforceable. Any contract with any vendor who does not comply with such requirements for periodically updating such disclosures during the tenure of such contract as may be specified in such contract may be terminated by the department. This subsection shall be construed broadly and liberally

to achieve the ends of full disclosure of all information necessary to allow for a full and complete evaluation by the department of the competence, integrity, background, and character of vendors for major procurements.

Section 3. Subsection (15) is added to section 24.112, Florida Statutes, to read:

24.112 Retailers of lottery tickets; authorization of vending machines to dispense lottery tickets.—

(15) A vending machine may be used to dispense online lottery tickets, instant lottery tickets, or both online and instant lottery tickets.

(a) The vending machine must:

1. Dispense a lottery ticket after a purchaser inserts a coin or currency in the machine.

2. Be capable of being electronically deactivated for a period of 5 minutes or more.

3. Be designed to prevent its use for any purpose other than dispensing a lottery ticket.

(b) In order to be authorized to use a vending machine to dispense lottery tickets, a retailer must:

1. Locate the vending machine in the retailer's direct line of sight to ensure that purchases are only made by persons at least 18 years of age.

2. Ensure that at least one employee is on duty when the vending machine is available for use. However, if the retailer has previously violated s. 24.1055, at least two employees must be on duty when the vending machine is available for use.

(c) A vending machine that dispenses a lottery ticket may dispense change to a purchaser but may not be used to redeem any type of winning lottery ticket.

(d) The vending machine, or any machine or device linked to the vending machine, may not include or make use of video reels or mechanical reels or other video depictions of slot machine or casino game themes or titles for game play. This does not preclude the use of casino game themes or titles on such tickets or signage or advertising displays on the machines.

Section 4. This act shall take effect July 1, 2012.

And the title is amended as follows:

Remove the entire title and insert: A bill to be entitled An act relating to the Department of the Lottery; amending s. 24.105, F.S.; deleting a provision relating to player-activated vending machines; conforming provisions to changes made by the act; amending s. 24.111, F.S.; revising the requirement that the Department of the Lottery lease certain vending machines; amending s. 24.112, F.S.; allowing vending machines to dispense lottery tickets if certain requirements are met; providing an effective date.

Section 28. Section 196.24, Florida Statutes, is amended to read:

196.24 Exemption for disabled ex-servicemember or surviving spouse; evidence of disability.—

(1) Any ex-servicemember, as defined in s. 196.012, who is a bona fide resident of the state, who was discharged under honorable conditions, and who has been disabled to a degree of 10 percent or more ~~by misfortune or while serving during a period of wartime service as defined in s. 1.01(14), or by misfortune,~~ is entitled to the exemption from taxation provided for in s. 3(b), Art. VII of the State Constitution as provided in this section. Property to the value of \$5,000 of such a person is exempt from taxation. The production by him or her of a certificate of disability from the United States Government or the United States Department of Veterans Affairs or its predecessor before the property appraiser of the county wherein the ex-servicemember's property lies is prima facie evidence of the fact that he or she is entitled to the exemption. The unremarried surviving spouse of such a disabled ex-servicemember who, on the date of the disabled ex-servicemember's death, had been married to the disabled ex-servicemember for at least 5 years is also entitled to the exemption.

(2) *An applicant for the exemption under this section may apply for the exemption before receiving the necessary documentation from the United States Government or the United States Department of Veterans Affairs or its predecessor. Upon receipt of the documentation, the exemption shall be granted as of the date of the original application, and the excess taxes paid shall be refunded. Any refund of excess taxes paid shall be limited to those paid during the 4-year period of limitation set forth in s. 197.182(1)(e).*

Section 29. Effective July 1, 2012, subsection (5) and paragraph (a) of subsection (10) of section 200.065, Florida Statutes, are amended to read:

200.065 Method of fixing millage.—

(5) ~~Beginning in the 2009-2010 fiscal year and thereafter:~~ In each fiscal year

(a) The maximum millage rate that a county, municipality, special district dependent to a county or municipality, municipal service taxing unit, or independent special district may levy is a rolled-back rate based on the amount of taxes which would have been levied in the prior year if the maximum millage rate had been applied, adjusted for change in per

capita Florida personal income, unless a higher rate ~~was is~~ adopted, in which case the maximum is the adopted rate. The maximum millage rate applicable to a county authorized to levy a county public hospital surtax under s. 212.055 and which did so in fiscal year 2007 shall exclude the revenues required to be contributed to the county public general hospital in the current fiscal year for the purposes of making the maximum millage rate calculation, but shall be added back to the maximum millage rate allowed after the roll back has been applied, the total of which shall be considered the maximum millage rate for such a county for purposes of this subsection. The revenue required to be contributed to the county public general hospital for the upcoming fiscal year shall be calculated as 11.873 percent times the millage rate levied for countywide purposes in fiscal year 2007 times 95 percent of the preliminary tax roll for the upcoming fiscal year. A higher rate may be adopted only under the following conditions:

1. A rate of not more than 110 percent of the rolled-back rate based on the previous year's maximum millage rate, adjusted for change in per capita Florida personal income, may be adopted if approved by a two-thirds vote of the membership of the governing body of the county, municipality, or independent district; or

2. A rate in excess of 110 percent may be adopted if approved by a unanimous vote of the membership of the governing body of the county, municipality, or independent district or by a three-fourths vote of the membership of the governing body if the governing body has nine or more members, or if the rate is approved by a referendum.

(b) The millage rate of a county or municipality, municipal service taxing unit of that county, and any special district dependent to that county or municipality may exceed the maximum millage rate calculated pursuant to this subsection if the total county ad valorem taxes levied or total municipal ad valorem taxes levied do not exceed the maximum total county ad valorem taxes levied or maximum total municipal ad valorem taxes levied respectively. Voted millage and taxes levied by a municipality or independent special district that has levied ad valorem taxes for less than 5 years are not subject to this limitation. The millage rate of a county authorized to levy a county public hospital surtax under s. 212.055 may exceed the maximum millage rate calculated pursuant to this subsection to the extent necessary to account for the revenues required to be contributed to the county public hospital. Total taxes levied may exceed the maximum calculated pursuant to subsection (6) as a result of an increase in taxable value above that certified in subsection (1) if such increase is less than the percentage amounts contained in subsection (6) or if the administrative adjustment cannot be made because the value adjustment board is still in session at the time the tax roll is extended; otherwise, millage rates subject to this subsection, s. 200.185, or s. 200.186 may be reduced so that total taxes levied do not exceed the maximum.

Any unit of government operating under a home rule charter adopted pursuant to ss. 10, 11, and 24, Art. VIII of the State Constitution of 1885, as preserved by s. 6(e), Art. VIII of the State Constitution of 1968, which is granted the authority in the State Constitution to exercise all the powers conferred now or hereafter by general law upon municipalities and which exercises such powers in the unincorporated area shall be recognized as a municipality under this subsection. For a downtown development authority established before the effective date of the 1968 State Constitution which has a millage that must be approved by a municipality, the governing body of that municipality shall be considered the governing body of the downtown development authority for purposes of this subsection.

(10)(a) In addition to the notice required in subsection (3), a district school board shall publish a second notice of intent to levy additional taxes under s. 1011.71(2) or (3). ~~The Such~~ notice shall specify the projects or number of school buses anticipated to be funded by ~~the such~~ additional taxes and shall be published in the size, within the time periods, adjacent to, and in substantial conformity with the advertisement required under subsection (3). The projects shall be listed in priority within each category as follows: construction and remodeling; maintenance, renovation, and repair; motor vehicle purchases; new and replacement equipment; payments for educational facilities and sites due under a lease-purchase agreement; payments for renting and leasing educational facilities and sites; payments of loans approved pursuant to ss. 1011.14 and 1011.15; payment of costs of compliance with environmental statutes and regulations; payment of premiums for property and casualty insurance necessary to insure the educational and ancillary plants of the

school district; payment of costs of leasing relocatable educational facilities; and payments to private entities to offset the cost of school buses pursuant to s. 1011.71(2)(i). The additional notice shall be in the following form, except that if the district school board is proposing to levy the same millage under s. 1011.71(2) or (3) which it levied in the prior year, the words "continue to" shall be inserted before the word "impose" in the first sentence, and except that the second sentence of the second paragraph shall be deleted if the district is advertising pursuant to paragraph (3)(e):

Section 30. Effective July 1, 2012, subsection (2) of section 218.12, Florida Statutes, is amended to read:

218.12 Appropriations to offset reductions in ad valorem tax revenue in fiscally constrained counties.—

(2) On or before November 15 of each year, ~~beginning in 2008~~, each fiscally constrained county shall apply to the Department of Revenue to participate in the distribution of the appropriation and provide documentation supporting the county's estimated reduction in ad valorem tax revenue in the form and manner prescribed by the Department of Revenue. The documentation must include an estimate of the reduction in taxable value directly attributable to revisions of Art. VII of the State Constitution for all county taxing jurisdictions within the county and shall be prepared by the property appraiser in each fiscally constrained county. The documentation must also include the county millage rates applicable in all such jurisdictions for both the current year and the prior year; rolled-back rates, determined as provided in s. 200.065, for each county taxing jurisdiction; and maximum millage rates that could have been levied by majority vote pursuant to s. 200.065(5) ~~§ 200.185~~. For purposes of this section, each fiscally constrained county's reduction in ad valorem tax revenue shall be calculated as 95 percent of the estimated reduction in taxable value times the lesser of the 2007 applicable millage rate or the applicable millage rate for each county taxing jurisdiction in the ~~current~~ ~~prior~~ year. *If a fiscally constrained county fails to apply for the distribution, its share shall revert to the fund from which the appropriation was made.*

Section 31. Effective July 1, 2012, subsection (2) of section 218.125, Florida Statutes, is amended to read:

218.125 Offset for tax loss associated with certain constitutional amendments affecting fiscally constrained counties.—

(2) On or before November 15 of each year, ~~beginning in 2010~~, each fiscally constrained county shall apply to the Department of Revenue to participate in the distribution of the appropriation and provide documentation supporting the county's estimated reduction in ad valorem tax revenue in the form and manner prescribed by the Department of Revenue. The documentation must include an estimate of the reduction in taxable value directly attributable to revisions of Art. VII of the State Constitution for all county taxing jurisdictions within the county and shall be prepared by the property appraiser in each fiscally constrained county. The documentation must also include the county millage rates applicable in all such jurisdictions for the current year and the prior year, rolled-back rates determined as provided in s. 200.065 for each

county taxing jurisdiction, and maximum millage rates that could have been levied by majority vote pursuant to s. 200.065(5) ~~200.185~~. For purposes of this section, each fiscally constrained county's reduction in ad valorem tax revenue shall be calculated as 95 percent of the estimated reduction in taxable value multiplied by the lesser of the 2010 applicable millage rate or the applicable millage rate for each county taxing jurisdiction in the ~~current~~ ~~prior~~ year. *If a fiscally constrained county fails to apply for the distribution, its share shall revert to the fund from which the appropriation was made.*

Section 32. *Notwithstanding the application deadline in s. 196.173(5), Florida Statutes, the deadline for an eligible servicemember to file a claim for an additional ad valorem tax exemption for a qualifying deployment during the 2011 calendar year is June 1, 2012. Any applicant who seeks to claim the additional exemption and who fails to file an application by June 1 must file an application for the exemption with the property appraiser on or before the 25th day after the mailing by the property appraiser of the notices required under s. 194.011(1), Florida Statutes. Upon receipt of sufficient evidence, as determined by the property appraiser, which demonstrates that the applicant was unable to apply for the exemption in a timely manner or otherwise demonstrating extenuating circumstances judged by the property appraiser to warrant granting the exemption, the property appraiser may grant the exemption. If the applicant fails to produce sufficient evidence demonstrating that the applicant was unable to apply for the exemption in a timely manner or otherwise demonstrating extenuating circumstances as judged by the property appraiser, the applicant may file, pursuant to s. 194.011(3), Florida Statutes, a petition with the value adjustment board which requests that the exemption be granted. Such petition must be filed during the taxable year on or before the 25th day after the mailing of the notice by the property appraiser as provided in s. 194.011(1), Florida Statutes. Notwithstanding s. 194.013, Florida Statutes, the applicant is not required to pay a filing fee for such petition. Upon reviewing the petition, if the applicant is qualified to receive the exemption and demonstrates particular extenuating circumstances as judged by the value adjustment board to warrant granting the exemption, the value adjustment board may grant the exemption for the current year.*

Section 33. *Sections 24, 25, 26, and 32 of this act shall take effect upon this act becoming a law and shall first apply to ad valorem tax rolls for 2012.*

Section 34. Except as otherwise expressly provided in this act, this act shall take effect upon becoming a law.

Senator Hays moved the following amendment to **Amendment 1**:

Amendment 1C (482012) (with title amendment)—Between lines 1141 and 1142 insert:

Section 34. Subsection (37) of section 409.912, Florida Statutes, is amended to read:

409.912 Cost-effective purchasing of health care.—The agency shall purchase goods and services for Medicaid recipients in the most cost-effective manner consistent with the delivery of quality medical care. To ensure that medical services are effectively utilized, the agency may, in any case, require a confirmation or second physician’s opinion of the correct diagnosis for purposes of authorizing future services under the Medicaid program. This section does not restrict access to emergency services or poststabilization care services as defined in 42 C.F.R. part 438.114. Such confirmation or second opinion shall be rendered in a manner approved by the agency. The agency shall maximize the use of prepaid per capita and prepaid aggregate fixed-sum basis services when appropriate and other alternative service delivery and reimbursement methodologies, including competitive bidding pursuant to s. 287.057, designed to facilitate the cost-effective purchase of a case-managed continuum of care. The agency shall also require providers to minimize the exposure of recipients to the need for acute inpatient, custodial, and other institutional care and the inappropriate or unnecessary use of high-cost services. The agency shall contract with a vendor to monitor and evaluate the clinical practice patterns of providers in order to identify trends that are outside the normal practice patterns of a provider’s professional peers or the national guidelines of a provider’s professional association. The vendor must be able to provide information and counseling to a provider whose practice patterns are outside the norms, in consultation with the agency, to improve patient care and reduce inappropriate utilization. The agency may mandate prior authorization, drug therapy management, or disease management participation for certain populations of Medicaid beneficiaries, certain drug classes, or particular drugs to prevent fraud, abuse, overuse, and possible dangerous drug interactions. The Pharmaceutical and Therapeutics Committee shall make recommendations to the agency on drugs for which prior authorization is required. The agency shall inform the Pharmaceutical and Therapeutics Committee of its decisions regarding drugs subject to prior authorization. The agency is authorized to limit the entities it contracts with or enrolls as Medicaid providers by developing a provider network through provider credentialing. The agency may competitively bid single-source-provider contracts if procurement of goods or services results in demonstrated cost savings to the state without limiting access to care. The agency may limit its network based on the assessment of beneficiary access to care, provider availability, provider quality standards, time and distance standards for access to care, the cultural competence of the provider network, demographic characteristics of Medicaid beneficiaries, practice and provider-to-beneficiary standards, appointment wait times, beneficiary use of

services, provider turnover, provider profiling, provider licensure history, previous program integrity investigations and findings, peer review, provider Medicaid policy and billing compliance records, clinical and medical record audits, and other factors. Providers are not entitled to enrollment in the Medicaid provider network. The agency shall determine instances in which allowing Medicaid beneficiaries to purchase durable medical equipment and other goods is less expensive to the Medicaid program than long-term rental of the equipment or goods. The agency may establish rules to facilitate purchases in lieu of long-term rentals in order to protect against fraud and abuse in the Medicaid program as defined in s. 409.913. The agency may seek federal waivers necessary to administer these policies.

(37)(a) The agency shall implement a Medicaid prescribed-drug spending-control program that includes the following components:

1. A Medicaid preferred drug list, which shall be a listing of cost-effective therapeutic options recommended by the Medicaid Pharmacy and Therapeutics Committee established pursuant to s. 409.91195 and adopted by the agency for each therapeutic class on the preferred drug list. At the discretion of the committee, and when feasible, the preferred drug list should include at least two products in a therapeutic class. The agency may post the preferred drug list and updates to the list on an Internet website without following the rulemaking procedures of chapter 120. Antiretroviral agents are excluded from the preferred drug list. The agency shall also limit the amount of a prescribed drug dispensed to no more than a 34-day supply unless the drug products' smallest marketed package is greater than a 34-day supply, or the drug is determined by the agency to be a maintenance drug in which case a 100-day maximum supply may be authorized. The agency may seek any federal waivers necessary to implement these cost-control programs and to continue participation in the federal Medicaid rebate program, or alternatively to negotiate state-only manufacturer rebates. The agency may adopt rules to administer this subparagraph. The agency shall continue to provide unlimited contraceptive drugs and items. The agency must establish procedures to ensure that:

a. There is a response to a request for prior consultation by telephone or other telecommunication device within 24 hours after receipt of a request for prior consultation; and

b. A 72-hour supply of the drug prescribed is provided in an emergency or when the agency does not provide a response within 24 hours as required by sub-subparagraph a.

2. Reimbursement to pharmacies for Medicaid prescribed drugs shall be set at the lowest of: the average wholesale price (AWP) minus 16.4 percent, the wholesaler acquisition cost (WAC) plus 1.5 percent, the federal upper limit (FUL), the state maximum allowable cost (SMAC), or the usual and customary (UAC) charge billed by the provider.

3. The agency shall develop and implement a process for managing the drug therapies of Medicaid recipients who are using significant numbers of prescribed drugs each month. The management process may include, but is not limited to, comprehensive, physician-directed medical-record reviews, claims analyses, and case evaluations to determine the medical necessity and appropriateness of a patient's treatment plan and drug therapies. The agency may contract with a private organization to provide drug-program-management services. The Medicaid drug benefit management program shall include initiatives to manage drug therapies for HIV/AIDS patients, patients using 20 or more unique prescriptions in a 180-day period, and the top 1,000 patients in annual spending. The agency shall enroll any Medicaid recipient in the drug benefit management program if he or she meets the specifications of this provision and is not enrolled in a Medicaid health maintenance organization.

4. The agency may limit the size of its pharmacy network based on need, competitive bidding, price negotiations, credentialing, or similar criteria. The agency shall give special consideration to rural areas in determining the size and location of pharmacies included in the Medicaid pharmacy network. A pharmacy credentialing process may include criteria such as a pharmacy's full-service status, location, size, patient educational programs, patient consultation, disease management services, and other characteristics. The agency may impose a moratorium on Medicaid pharmacy enrollment if it is determined that it has a sufficient number of Medicaid-participating providers. The agency must allow dispensing practitioners to participate as a part of the Medicaid

pharmacy network regardless of the practitioner's proximity to any other entity that is dispensing prescription drugs under the Medicaid program. A dispensing practitioner must meet all credentialing requirements applicable to his or her practice, as determined by the agency.

5. The agency shall develop and implement a program that requires Medicaid practitioners who prescribe drugs to use a counterfeit-proof prescription pad for Medicaid prescriptions. The agency shall require the use of standardized counterfeit-proof prescription pads by Medicaid-participating prescribers or prescribers who write prescriptions for Medicaid recipients. The agency may implement the program in targeted geographic areas or statewide.

6. The agency may enter into arrangements that require manufacturers of generic drugs prescribed to Medicaid recipients to provide rebates of at least 15.1 percent of the average manufacturer price for the manufacturer's generic products. These arrangements shall require that if a generic-drug manufacturer pays federal rebates for Medicaid-reimbursed drugs at a level below 15.1 percent, the manufacturer must provide a supplemental rebate to the state in an amount necessary to achieve a 15.1-percent rebate level.

7. The agency may establish a preferred drug list as described in this subsection, and, pursuant to the establishment of such preferred drug list, negotiate supplemental rebates from manufacturers that are in addition to those required by Title XIX of the Social Security Act and at no less than 14 percent of the average manufacturer price as defined in 42 U.S.C. s. 1936 on the last day of a quarter unless the federal or supplemental rebate, or both, equals or exceeds 29 percent. There is no upper limit on the supplemental rebates the agency may negotiate. The agency may determine that specific products, brand-name or generic, are competitive at lower rebate percentages. Agreement to pay the minimum supplemental rebate percentage guarantees a manufacturer that the Medicaid Pharmaceutical and Therapeutics Committee will consider a product for inclusion on the preferred drug list. However, a pharmaceutical manufacturer is not guaranteed placement on the preferred drug list by simply paying the minimum supplemental rebate. Agency decisions will be made on the clinical efficacy of a drug and recommendations of the Medicaid Pharmaceutical and Therapeutics Committee, as well as the price of competing products minus federal and state rebates. The agency may contract with an outside agency or contractor to conduct negotiations for supplemental rebates. For the purposes of this section, the term "supplemental rebates" means cash rebates. Value-added programs as a substitution for supplemental rebates are prohibited. The agency may seek any federal waivers to implement this initiative.

8. The agency shall expand home delivery of pharmacy products. The agency may amend the state plan and issue a procurement, as necessary, in order to implement this program. The procurements must include agreements with a pharmacy or pharmacies located in the state to provide mail order delivery services at no cost to the recipients who elect to receive home delivery of pharmacy products. The procurement must focus on serving recipients with chronic diseases for which pharmacy expenditures represent a significant portion of Medicaid pharmacy expenditures or which impact a significant portion of the Medicaid population. The agency may seek and implement any federal waivers necessary to implement this subparagraph.

9. The agency shall limit to one dose per month any drug prescribed to treat erectile dysfunction.

10.a. The agency may implement a Medicaid behavioral drug management system. The agency may contract with a vendor that has experience in operating behavioral drug management systems to implement this program. The agency may seek federal waivers to implement this program.

b. The agency, in conjunction with the Department of Children and Family Services, may implement the Medicaid behavioral drug management system that is designed to improve the quality of care and behavioral health prescribing practices based on best practice guidelines, improve patient adherence to medication plans, reduce clinical risk, and lower prescribed drug costs and the rate of inappropriate spending on Medicaid behavioral drugs. The program may include the following elements:

(I) Provide for the development and adoption of best practice guidelines for behavioral health-related drugs such as antipsychotics, antidepressants, and medications for treating bipolar disorders and other behavioral conditions; translate them into practice; review behavioral health prescribers and compare their prescribing patterns to a number of indicators that are based on national standards; and determine deviations from best practice guidelines.

(II) Implement processes for providing feedback to and educating prescribers using best practice educational materials and peer-to-peer consultation.

(III) Assess Medicaid beneficiaries who are outliers in their use of behavioral health drugs with regard to the numbers and types of drugs taken, drug dosages, combination drug therapies, and other indicators of improper use of behavioral health drugs.

(IV) Alert prescribers to patients who fail to refill prescriptions in a timely fashion, are prescribed multiple same-class behavioral health drugs, and may have other potential medication problems.

(V) Track spending trends for behavioral health drugs and deviation from best practice guidelines.

(VI) Use educational and technological approaches to promote best practices, educate consumers, and train prescribers in the use of practice guidelines.

(VII) Disseminate electronic and published materials.

(VIII) Hold statewide and regional conferences.

(IX) Implement a disease management program with a model quality-based medication component for severely mentally ill individuals and emotionally disturbed children who are high users of care.

11. The agency shall implement a Medicaid prescription drug management system.

a. The agency may contract with a vendor that has experience in operating prescription drug management systems in order to implement this system. Any management system that is implemented in accordance with this subparagraph must rely on cooperation between physicians and pharmacists to determine appropriate practice patterns and clinical guidelines to improve the prescribing, dispensing, and use of drugs in the Medicaid program. The agency may seek federal waivers to implement this program.

b. The drug management system must be designed to improve the quality of care and prescribing practices based on best practice guidelines, improve patient adherence to medication plans, reduce clinical risk, and lower prescribed drug costs and the rate of inappropriate spending on Medicaid prescription drugs. The program must:

(I) Provide for the adoption of best practice guidelines for the prescribing and use of drugs in the Medicaid program, including translating best practice guidelines into practice; reviewing prescriber patterns and comparing them to indicators that are based on national standards and practice patterns of clinical peers in their community, statewide, and nationally; and determine deviations from best practice guidelines.

(II) Implement processes for providing feedback to and educating prescribers using best practice educational materials and peer-to-peer consultation.

(III) Assess Medicaid recipients who are outliers in their use of a single or multiple prescription drugs with regard to the numbers and types of drugs taken, drug dosages, combination drug therapies, and other indicators of improper use of prescription drugs.

(IV) Alert prescribers to recipients who fail to refill prescriptions in a timely fashion, are prescribed multiple drugs that may be redundant or contraindicated, or may have other potential medication problems.

12. The agency may contract for drug rebate administration, including, but not limited to, calculating rebate amounts, invoicing manufacturers, negotiating disputes with manufacturers, and maintaining a database of rebate collections.

13. The agency may specify the preferred daily dosing form or strength for the purpose of promoting best practices with regard to the prescribing of certain drugs as specified in the General Appropriations Act and ensuring cost-effective prescribing practices.

14. The agency may require prior authorization for Medicaid-covered prescribed drugs. The agency may prior-authorize the use of a product:

- a. For an indication not approved in labeling;
- b. To comply with certain clinical guidelines; or
- c. If the product has the potential for overuse, misuse, or abuse.

The agency may require the prescribing professional to provide information about the rationale and supporting medical evidence for the use of a drug. The agency ~~shall~~ ~~may~~ post prior authorization, *step-edit* criteria and protocol, and updates to the list of drugs that are subject to prior authorization on the agency's ~~an~~ Internet website *within 21 days after the prior authorization and step-edit criteria and protocol and updates are approved by the agency. For purposes of this subparagraph, the term "step-edit" means an automatic electronic review of certain medications subject to prior authorization without amending its rule or engaging in additional rulemaking.*

15. The agency, in conjunction with the Pharmaceutical and Therapeutics Committee, may require age-related prior authorizations for certain prescribed drugs. The agency may preauthorize the use of a drug for a recipient who may not meet the age requirement or may exceed the length of therapy for use of this product as recommended by the manufacturer and approved by the Food and Drug Administration. Prior authorization may require the prescribing professional to provide information about the rationale and supporting medical evidence for the use of a drug.

16. The agency shall implement a step-therapy prior authorization approval process for medications excluded from the preferred drug list. Medications listed on the preferred drug list must be used within the previous 12 months before the alternative medications that are not listed. The step-therapy prior authorization may require the prescriber to use the medications of a similar drug class or for a similar medical indication unless contraindicated in the Food and Drug Administration labeling. The trial period between the specified steps may vary according to the medical indication. The step-therapy approval process shall be developed in accordance with the committee as stated in s. 409.91195(7) and (8). A drug product may be approved without meeting the step-therapy prior authorization criteria if the prescribing physician provides the agency with additional written medical or clinical documentation that the product is medically necessary because:

- a. There is not a drug on the preferred drug list to treat the disease or medical condition which is an acceptable clinical alternative;
- b. The alternatives have been ineffective in the treatment of the beneficiary's disease; or
- c. Based on historic evidence and known characteristics of the patient and the drug, the drug is likely to be ineffective, or the number of doses have been ineffective.

The agency shall work with the physician to determine the best alternative for the patient. The agency may adopt rules waiving the requirements for written clinical documentation for specific drugs in limited clinical situations.

17. The agency shall implement a return and reuse program for drugs dispensed by pharmacies to institutional recipients, which includes payment of a \$5 restocking fee for the implementation and operation of the program. The return and reuse program shall be implemented electronically and in a manner that promotes efficiency. The program must permit a pharmacy to exclude drugs from the program if it is not practical or cost-effective for the drug to be included and must provide for the return to inventory of drugs that cannot be credited or returned in a cost-effective manner. The agency shall determine if the program has reduced the amount of Medicaid prescription drugs which are destroyed on an annual basis and if there are additional ways to ensure more prescription drugs are not destroyed which could safely be reused.

(b) The agency shall implement this subsection to the extent that funds are appropriated to administer the Medicaid prescribed-drug spending-control program. The agency may contract all or any part of this program to private organizations.

(c) The agency shall submit quarterly reports to the Governor, the President of the Senate, and the Speaker of the House of Representatives which must include, but need not be limited to, the progress made in implementing this subsection and its effect on Medicaid prescribed-drug expenditures.

And the title is amended as follows:

Any part or all of the remainder of the claim that is subsequently supported by written notice is overdue if not paid within 30 days after ~~such~~ written notice is furnished to the insurer.

2. ~~If~~ ~~When~~ an insurer pays only a portion of a claim or rejects a claim, the insurer shall provide at the time of the partial payment or rejection an itemized specification of each item that the insurer had reduced, omitted, or declined to pay and any information that the insurer desires the claimant to consider related to the medical necessity of the denied treatment or to explain the reasonableness of the reduced charge ~~if; provided that this does shall~~ not limit the introduction of evidence at trial; ~~and~~ The insurer ~~must also shall~~ include the name and address of the person to whom the claimant should respond and a claim number to be referenced in future correspondence.

3. *If an insurer pays only a portion of a claim or rejects a claim due to an alleged error in the claim, the insurer, at the time of the partial payment or rejection, shall provide an itemized specification or explanation of benefits due to the specified error. Upon receiving the specification or explanation, the person making the claim, at the person's option and without waiving any other legal remedy for payment, has 15 days to submit a revised claim, which shall be considered a timely submission of written notice of a claim.*

6. This paragraph does not preclude or limit the ability of the insurer to assert that the claim was unrelated, was not medically necessary, or was unreasonable or that the amount of the charge was in excess of that permitted under, or in violation of, subsection (5). Such assertion ~~by the insurer~~ may be made at any time, including after payment of the claim or after the 30-day ~~time~~ period for payment set forth in this paragraph.

(c) Upon receiving notice of an accident that is potentially covered by personal injury protection benefits, the insurer must reserve \$5,000 of personal injury protection benefits for payment to physicians licensed under chapter 458 or chapter 459 or dentists licensed under chapter 466 who provide emergency services and care, as defined in s. 395.002(9), or who provide hospital inpatient care. This paragraph does not require an insurer to establish a claim reserve for insurance accounting purposes.

(d) All overdue payments ~~shall~~ bear simple interest at the rate established under s. 55.03 or the rate established in the insurance contract, whichever is greater, for the year in which the payment became

4. Accidental bodily injury sustained in this state by any other person while occupying the owner's motor vehicle or, if a resident of this state, while not an occupant of a self-propelled vehicle; if the injury is caused by physical contact with such motor vehicle, ~~if provided~~ the injured person is not ~~himself or herself~~:

a. The owner of a motor vehicle with respect to which security is required under ss. 627.730-627.7405; or

(f) If two or more insurers are liable ~~for paying to pay~~ personal injury protection benefits for the same injury to any one person, the maximum payable ~~is shall be~~ as specified in subsection (1), and ~~the any~~ insurer paying the benefits ~~is shall be~~ entitled to recover from each of the other insurers an equitable pro rata share of the benefits paid and expenses incurred in processing the claim.

(g) It is a violation of the insurance code for an insurer to fail to timely provide benefits as required by this section with such frequency as to constitute a general business practice.

(h) Benefits ~~are shall not be~~ due or payable to or on the behalf of an insured person if that person has committed, by a material act or omission, ~~any~~ insurance fraud relating to personal injury protection coverage under his or her policy, if the fraud is admitted to in a sworn statement by the insured or ~~if it is~~ established in a court of competent jurisdiction. The prevailing party is entitled to its costs and ~~attorney attorney's~~ fees in any action in which it prevails in an insurer's action to enforce its right of recovery under this paragraph.

(i) *If an insurer has a reasonable belief that a fraudulent insurance act, for the purposes of s. 626.989 or s. 817.234, has been committed, the insurer shall notify the claimant, in writing, within 30 days after submission of the claim that the claim is being investigated for suspected fraud. Beginning at the end of the initial 30-day period, the insurer has an additional 60 days to conduct its fraud investigation. Notwithstanding subsection (10), no later than 90 days after the submission of the claim, the insurer must deny the claim or pay the claim with simple interest as provided in paragraph (d). Interest shall be assessed from the day the claim was submitted until the day the claim is paid. All claims denied for suspected fraudulent insurance acts shall be reported to the Division of Insurance Fraud.*

(j) *An insurer shall create and maintain for each insured a log of personal injury protection benefits paid by the insurer on behalf of the insured. If litigation is commenced, the insurer shall provide to the insured a copy of the log within 30 days after receiving a request for the log from the insured.*

(5) CHARGES FOR TREATMENT OF INJURED PERSONS.—

(a) ~~1.~~ ~~Any~~ physician, hospital, clinic, or other person or institution lawfully rendering treatment to an injured person for a bodily injury covered by personal injury protection insurance may charge the insurer and injured party only a reasonable amount pursuant to this section for the services and supplies rendered, and the insurer providing such coverage may pay for such charges directly to such person or institution lawfully rendering such treatment; if the insured receiving such treatment or his or her guardian has countersigned the properly completed invoice, bill, or claim form approved by the office upon which such charges are to be paid for as having actually been rendered, to the best knowledge of the insured or his or her guardian. ~~In no event,~~ However, ~~may~~ such a charge ~~may not exceed be in excess of~~ the amount the person or institution customarily charges for like services or supplies. ~~In determining~~ ~~With respect to a determination of~~ whether a charge for a particular service, treatment, or otherwise is reasonable, consideration may be given to evidence of usual and customary charges and payments accepted by the provider involved in the dispute, ~~and~~ reimbursement levels in the community and various federal and state medical fee schedules applicable to ~~motor vehicle automobile~~ and other insurance coverages, and other information relevant to the reasonableness of the reimbursement for the service, treatment, or supply.

~~1.2.~~ The insurer may limit reimbursement to 80 percent of the following schedule of maximum charges:

a. For emergency transport and treatment by providers licensed under chapter 401, 200 percent of Medicare.

b. For emergency services and care provided by a hospital licensed under chapter 395, 75 percent of the hospital's usual and customary charges.

c. For emergency services and care as defined by s. 395.002(4) provided in a facility licensed under chapter 395 rendered by a physician or dentist, and related hospital inpatient services rendered by a physician or dentist, the usual and customary charges in the community.

d. For hospital inpatient services, other than emergency services and care, 200 percent of the Medicare Part A prospective payment applicable to the specific hospital providing the inpatient services.

e. For hospital outpatient services, other than emergency services and care, 200 percent of the Medicare Part A Ambulatory Payment Classification for the specific hospital providing the outpatient services.

f. For all other medical services, supplies, and care, 200 percent of the allowable amount under:

(I) The participating physicians fee schedule of Medicare Part B, *except as provided in sub-sub-paragraphs (II) and (III).*

(II) *Medicare Part B, in the case of services, supplies, and care provided by ambulatory surgical centers and clinical laboratories.*

(III) *The Durable Medical Equipment Prosthetics/Orthotics and Supplies fee schedule of Medicare Part B, in the case of durable medical equipment.*

However, if such services, supplies, or care is not reimbursable under Medicare Part B, *as provided in this sub-sub-paragraph*, the insurer may limit reimbursement to 80 percent of the maximum reimbursable allowance under workers' compensation, as determined under s. 440.13 and rules adopted thereunder which are in effect at the time such services, supplies, or care is provided. Services, supplies, or care that is not reimbursable under Medicare or workers' compensation is not required to be reimbursed by the insurer.

~~2.2.~~ For purposes of subparagraph 1. ~~2.~~, the applicable fee schedule or payment limitation under Medicare is the fee schedule or payment limitation in effect on March 1 of the year in which ~~at the time~~ the services, supplies, or care is ~~was~~ rendered and for the area in which such services, supplies, or care is ~~were~~ rendered, *and the applicable fee schedule or payment limitation applies throughout the remainder of that year, notwithstanding any subsequent change made to the fee schedule or payment limitation*, except that it may not be less than the allowable amount under the ~~applicable participating physicians~~ schedule of Med-

icare Part B for 2007 for medical services, supplies, and care subject to Medicare Part B.

3.4. Subparagraph 1. ~~2.~~ does not allow the insurer to apply any limitation on the number of treatments or other utilization limits that apply under Medicare or workers' compensation. An insurer that applies the allowable payment limitations of subparagraph 1. ~~2.~~ must reimburse a provider who lawfully provided care or treatment under the scope of his or her license, regardless of whether such provider ~~is would be~~ entitled to reimbursement under Medicare due to restrictions or limitations on the types or discipline of health care providers who may be reimbursed for particular procedures or procedure codes. *However, subparagraph 1. does not prohibit an insurer from using the Medicare coding policies and payment methodologies of the federal Centers for Medicare and Medicaid Services, including applicable modifiers, to determine the appropriate amount of reimbursement for medical services, supplies, or care if the coding policy or payment methodology does not constitute a utilization limit.*

~~4.5.~~ If an insurer limits payment as authorized by subparagraph 1. ~~2.~~, the person providing such services, supplies, or care may not bill or attempt to collect from the insured any amount in excess of such limits, except for amounts that are not covered by the insured's personal injury protection coverage due to the coinsurance amount or maximum policy limits.

5. *Effective July 1, 2012, an insurer may limit payment as authorized by this paragraph only if the insurance policy includes a notice at the time of issuance or renewal that the insurer may limit payment pursuant to the schedule of charges specified in this paragraph. A policy form approved by the office satisfies this requirement. If a provider submits a charge for an amount less than the amount allowed under subparagraph 1., the insurer may pay the amount of the charge submitted.*

(b)1. An insurer or insured is not required to pay a claim or charges:

a. Made by a broker or by a person making a claim on behalf of a broker;

b. For any service or treatment that was not lawful at the time rendered;

To facilitate prompt payment of lawful services, an insurer may change codes that it determines ~~to~~ have been improperly or incorrectly upcoded or unbundled; and may make payment based on the changed codes, without affecting the right of the provider to dispute the change by the insurer, ~~if, provided that~~ before doing so, the insurer ~~contacts must contact~~ the health care provider and ~~discusses discuss~~ the reasons for the insurer's change and the health care provider's reason for the coding, or ~~makes make~~ a reasonable good faith effort to do so, as documented in the insurer's file; and

f. For medical services or treatment billed by a physician and not provided in a hospital unless such services are rendered by the physician or are incident to his or her professional services and are included on the physician's bill, including documentation verifying that the physician is responsible for the medical services that were rendered and billed.

2. The Department of Health, in consultation with the appropriate professional licensing boards, shall adopt, by rule, a list of diagnostic tests deemed not to be medically necessary for use in the treatment of persons sustaining bodily injury covered by personal injury protection benefits under this section. ~~The initial list shall be adopted by January 1, 2004, and~~ shall be revised from time to time as determined by the Department of Health, in consultation with the respective professional licensing boards. Inclusion of a test on the list ~~of invalid diagnostic tests~~ shall be based on lack of demonstrated medical value and a level of general acceptance by the relevant provider community and ~~may shall~~ not be dependent for results entirely upon subjective patient response. Notwithstanding its inclusion on a fee schedule in this subsection, an

insurer or insured is not required to pay any charges or reimburse claims for ~~an any~~ invalid diagnostic test as determined by the Department of Health.

(c)1. With respect to any treatment or service, other than medical services billed by a hospital or other provider for emergency services *and care* as defined in s. 395.002 or inpatient services rendered at a hospital-owned facility, the statement of charges must be furnished to the insurer by the provider and may not include, and the insurer is not required to pay, charges for treatment or services rendered more than 35 days before the postmark date or electronic transmission date of the statement, except for past due amounts previously billed on a timely basis under this paragraph, and except that, if the provider submits to the insurer a notice of initiation of treatment within 21 days after its first examination or treatment of the claimant, the statement may include charges for treatment or services rendered up to, but not more than, 75 days before the postmark date of the statement. The injured party is not liable for, and the provider ~~may shall~~ not bill the injured party for, charges that are unpaid because of the provider's failure to comply with this paragraph. Any agreement requiring the injured person or insured to pay for such charges is unenforceable.

1.2. ~~If, however,~~ the insured fails to furnish the provider with the correct name and address of the insured's personal injury protection insurer, the provider has 35 days from the date the provider obtains the correct information to furnish the insurer with a statement of the charges. The insurer is not required to pay for such charges unless the provider includes with the statement documentary evidence that was provided by the insured during the 35-day period demonstrating that the provider reasonably relied on erroneous information from the insured and either:

- a. A denial letter from the incorrect insurer; or
- b. Proof of mailing, which may include an affidavit under penalty of perjury, reflecting timely mailing to the incorrect address or insurer.

2.3. For emergency services and care ~~as defined in s. 395.002~~ rendered in a hospital emergency department or for transport and treatment rendered by an ambulance provider licensed pursuant to part III of chapter 401, the provider is not required to furnish the statement of charges within the time periods established by this paragraph, and the insurer ~~is shall~~ not be considered to have been furnished with notice of the amount of covered loss for purposes of paragraph (4)(b) until it receives a statement complying with paragraph (d), or copy thereof, which specifically identifies the place of service to be a hospital emergency department or an ambulance in accordance with billing standards recognized by the *federal Centers for Medicare and Medicaid Services Health Care Finance Administration*.

3.4. Each notice of the insured's rights under s. 627.7401 must include the following statement *in at least 12-point type in type no smaller than 12 points*:

BILLING REQUIREMENTS.—Florida law provides ~~Statutes provide~~ that with respect to any treatment or services, other than certain hospital and emergency services, the statement of charges furnished to the insurer by the provider may not include, and the insurer and the injured party are not required to pay, charges for treatment or services rendered more than 35 days before the postmark date of the statement, except for past due amounts previously billed on a timely basis, and except that, if the provider submits to the insurer a notice of initiation of treatment within 21 days after its first examination or treatment of the claimant, the statement may include charges for treatment or services rendered up to, but not more than, 75 days before the postmark date of the statement.

(d) All statements and bills for medical services rendered by ~~a any~~ physician, hospital, clinic, or other person or institution shall be submitted to the insurer on a properly completed Centers for Medicare and Medicaid Services (CMS) 1500 form, UB 92 forms, or any other standard form approved by the office or adopted by the commission for purposes of this paragraph. All billings for such services rendered by providers *must shall*, to the extent applicable, follow the Physicians' Current Procedural Terminology (CPT) or Healthcare Correct Procedural Coding System (HCPCS), or ICD-9 in effect for the year in which services are rendered and comply with the ~~Centers for Medicare and Medicaid Services (CMS) 1500 form instructions, and the American Medical Association Current~~

~~Procedural Terminology (CPT) Editorial Panel, and the Healthcare Correct Procedural Coding System (HCPCS).~~ All providers, other than hospitals, *must shall* include on the applicable claim form the professional license number of the provider in the line or space provided for "Signature of Physician or Supplier, Including Degrees or Credentials." In determining compliance with applicable CPT and HCPCS coding, guidance shall be provided by the Physicians' Current Procedural Terminology (CPT) or the Healthcare Correct Procedural Coding System (HCPCS) in effect for the year in which services were rendered, the Office of the Inspector General (~~OIG~~), Physicians Compliance Guidelines, and other authoritative treatises designated by rule by the Agency for Health Care Administration. ~~A No~~ statement of medical services may *not* include charges for medical services of a person or entity that performed such services without possessing the valid licenses required to perform such services. For purposes of paragraph (4)(b), an insurer *is shall* not be considered to have been furnished with notice of the amount of covered loss or medical bills due unless the statements or bills comply with this paragraph, and ~~unless the statements or bills~~ are properly completed in their entirety as to all material provisions, with all relevant information being provided therein.

(e)1. At the initial treatment or service provided, each physician, other licensed professional, clinic, or other medical institution providing medical services upon which a claim for personal injury protection benefits is based shall require an insured person, or his or her guardian, to execute a disclosure and acknowledgment form, which reflects at a minimum that:

- a. The insured, or his or her guardian, must countersign the form attesting to the fact that the services set forth therein were actually rendered;
- b. The insured, or his or her guardian, has both the right and affirmative duty to confirm that the services were actually rendered;
- c. The insured, or his or her guardian, was not solicited by any person to seek any services from the medical provider;
- d. The physician, other licensed professional, clinic, or other medical institution rendering services for which payment is being claimed explained the services to the insured or his or her guardian; and
- e. If the insured notifies the insurer in writing of a billing error, the insured may be entitled to a certain percentage of a reduction in the amounts paid by the insured's motor vehicle insurer.

2. The physician, other licensed professional, clinic, or other medical institution rendering services for which payment is being claimed has the affirmative duty to explain the services rendered to the insured, or his or her guardian, so that the insured, or his or her guardian, countersigns the form with informed consent.

3. Countersignature by the insured, or his or her guardian, is not required for the reading of diagnostic tests or other services that are of such a nature that they are not required to be performed in the presence of the insured.

4. The licensed medical professional rendering treatment for which payment is being claimed must sign, by his or her own hand, the form complying with this paragraph.

5. The original completed disclosure and acknowledgment form shall be furnished to the insurer pursuant to paragraph (4)(b) and may not be electronically furnished.

6. ~~The This~~ disclosure and acknowledgment form is not required for services billed by a provider ~~for emergency services as defined in s. 395.002~~; for emergency services and care as defined in s. 395.002 rendered in a hospital emergency department, or for transport and treatment rendered by an ambulance provider licensed pursuant to part III of chapter 401.

7. The Financial Services Commission shall adopt, by rule, a standard disclosure and acknowledgment form ~~to that shall~~ be used to fulfill the requirements of this paragraph, ~~effective 90 days after such form is adopted and becomes final. The commission shall adopt a proposed rule by October 1, 2003. Until the rule is final, the provider may use a form of its own which otherwise complies with the requirements of this paragraph.~~

8. As used in this paragraph, the term “countersign” or “counter-signature” ~~“countersigned”~~ means a second or verifying signature, as on a previously signed document, and is not satisfied by the statement “signature on file” or any similar statement.

9. The requirements of this paragraph apply only with respect to the initial treatment or service of the insured by a provider. For subsequent treatments or service, the provider must maintain a patient log signed by the patient, in chronological order by date of service, ~~which that~~ is consistent with the services being rendered to the patient as claimed. ~~The requirement to maintain requirements of this subparagraph for maintaining~~ a patient log signed by the patient may be met by a hospital that maintains medical records as required by s. 395.3025 and applicable rules and makes such records available to the insurer upon request.

(f) Upon written notification by any person, an insurer shall investigate any claim of improper billing by a physician or other medical provider. The insurer shall determine if the insured was properly billed for only those services and treatments that the insured actually received. If the insurer determines that the insured has been improperly billed, the insurer shall notify the insured, the person making the written notification, and the provider of its findings and ~~shall~~ reduce the amount of payment to the provider by the amount determined to be improperly billed. If a reduction is made due to a ~~such~~ written notification by any person, the insurer shall pay to the person 20 percent of the amount of the reduction, up to \$500. If the provider is arrested due to the improper billing, ~~then~~ the insurer shall pay to the person 40 percent of the amount of the reduction, up to \$500.

(g) An insurer may not systematically downcode with the intent to deny reimbursement otherwise due. Such action constitutes a material misrepresentation under s. 626.9541(1)(i)2.

(h) *As provided in s. 400.9905, an entity excluded from the definition of a clinic shall be deemed a clinic and must be licensed under part X of chapter 400 in order to receive reimbursement under ss. 627.730-627.7405. However, this licensing requirement does not apply to:*

(b) Every physician, hospital, clinic, or other medical institution providing, before or after bodily injury upon which a claim for personal injury protection insurance benefits is based, any products, services, or accommodations in relation to that or any other injury, or in relation to a condition claimed to be connected with that or any other injury, shall, if requested ~~to do so~~ by the insurer against whom the claim has been made, furnish ~~forthwith~~ a written report of the history, condition, treatment, dates, and costs of such treatment of the injured person and why the items identified by the insurer were reasonable in amount and medically necessary, together with a sworn statement that the treatment or ser-

vices rendered were reasonable and necessary with respect to the bodily injury sustained and identifying which portion of the expenses for such treatment or services was incurred as a result of such bodily injury, and produce ~~forthwith~~, and ~~allow permit~~ the inspection and copying of, his or her or its records regarding such history, condition, treatment, dates, and costs of treatment ~~if, provided that this does shall~~ not limit the introduction of evidence at trial. Such sworn statement ~~must shall~~ read as follows: “Under penalty of perjury, I declare that I have read the foregoing, and the facts alleged are true, to the best of my knowledge and belief.” A ~~No~~ cause of action for violation of the physician-patient privilege or invasion of the right of privacy ~~may not be brought shall be permitted~~ against any physician, hospital, clinic, or other medical institution complying with the provisions of this section. The person requesting such records and such sworn statement shall pay all reasonable costs connected therewith. If an insurer makes a written request for documentation or information under this paragraph within 30 days after having received notice of the amount of a covered loss under paragraph (4)(a), the amount or the partial amount ~~that which~~ is the subject of the insurer’s inquiry ~~is shall become~~ overdue if the insurer does not pay in accordance with paragraph (4)(b) or within 10 days after the insurer’s receipt of the requested documentation or information, whichever occurs later. ~~As used in~~ For purposes of this paragraph, the term “receipt” includes, but is not limited to, inspection and copying pursuant to this paragraph. ~~An Any~~ insurer that requests documentation or information pertaining to reasonableness of charges or medical necessity under this paragraph without a reasonable basis for such requests as a general business practice is engaging in an unfair trade practice under the insurance code.

(c) In the event of a ~~any~~ dispute regarding an insurer’s right to discovery of facts under this section, the insurer may petition a court of competent jurisdiction to enter an order permitting such discovery. The order may be made only on motion for good cause shown and upon notice to all persons having an interest, and ~~must it shall~~ specify the time, place, manner, conditions, and scope of the discovery. ~~Such court may.~~ In order to protect against annoyance, embarrassment, or oppression, as justice requires, ~~the court may~~ enter an order refusing discovery or specifying conditions of discovery and may order payments of costs and expenses of the proceeding, including reasonable fees for the appearance of attorneys at the proceedings, as justice requires.

(d) The injured person shall be furnished, upon request, a copy of all information obtained by the insurer under ~~the provisions of~~ this section, and ~~shall~~ pay a reasonable charge, if required by the insurer.

(e) Notice to an insurer of the existence of a claim ~~may shall~~ not be unreasonably withheld by an insured.

(f) *In a dispute between the insured and the insurer, or between an assignee of the insured’s rights and the insurer, upon request, the insurer must notify the insured or the assignee that the policy limits under this section have been reached within 15 days after the limits have been reached.*

(g) *An insured seeking benefits under ss. 627.730–627.7405, including an omnibus insured, must comply with the terms of the policy, which include, but are not limited to, submitting to an examination under oath. The scope of questioning during the examination under oath is limited to relevant information or information that could reasonably be expected to lead to relevant information. Compliance with this paragraph is a condition precedent to receiving benefits. An insurer that, as a general business practice as determined by the office, requests an examination under oath of an insured or an omnibus insured without a reasonable basis is subject to s. 626.9541.*

(7) MENTAL AND PHYSICAL EXAMINATION OF INJURED PERSON; REPORTS.—

(a) Whenever the mental or physical condition of an injured person covered by personal injury protection is material to any claim that has been or may be made for past or future personal injury protection insurance benefits, such person shall, upon the request of an insurer, submit to mental or physical examination by a physician or physicians. The costs of any examinations requested by an insurer shall be borne entirely by the insurer. Such examination shall be conducted within the municipality where the insured is receiving treatment, or in a location reasonably accessible to the insured, which, for purposes of this paragraph, means any location within the municipality in which the insured

resides, or any location within 10 miles by road of the insured's residence, provided such location is within the county in which the insured resides. If the examination is to be conducted in a location reasonably accessible to the insured, and if there is no qualified physician to conduct the examination in a location reasonably accessible to the insured, ~~then~~ such examination shall be conducted in an area of the closest proximity to the insured's residence. Personal protection insurers are authorized to include reasonable provisions in personal injury protection insurance policies for mental and physical examination of those claiming personal injury protection insurance benefits. An insurer may not withdraw payment of a treating physician without the consent of the injured person covered by the personal injury protection, unless the insurer first obtains a valid report by a Florida physician licensed under the same chapter as the treating physician whose treatment authorization is sought to be withdrawn, stating that treatment was not reasonable, related, or necessary. A valid report is one that is prepared and signed by the physician examining the injured person or reviewing the treatment records of the injured person and is factually supported by the examination and treatment records if reviewed and that has not been modified by anyone other than the physician. The physician preparing the report must be in active practice, unless the physician is physically disabled. Active practice means that during the 3 years immediately preceding the date of the physical examination or review of the treatment records the physician must have devoted professional time to the active clinical practice of evaluation, diagnosis, or treatment of medical conditions or to the instruction of students in an accredited health professional school or accredited residency program or a clinical research program that is affiliated with an accredited health professional school or teaching hospital or accredited residency program. The physician preparing a report at the request of an insurer and physicians rendering expert opinions on behalf of persons claiming medical benefits for personal injury protection, or on behalf of an insured through an attorney or another entity, shall maintain, for at least 3 years, copies of all examination reports as medical records and shall maintain, for at least 3 years, records of all payments for the examinations and reports. Neither an insurer nor any person acting at the direction of or on behalf of an insurer may materially change an opinion in a report prepared under this paragraph or direct the physician preparing the report to change such opinion. The denial of a payment as the result of such a changed opinion constitutes a material misrepresentation under s. 626.954(1)(i) 2.; however, this provision does not preclude the insurer from calling to the attention of the physician errors of fact in the report based upon information in the claim file.

(b) If requested by the person examined, a party causing an examination to be made shall deliver to him or her a copy of every written report concerning the examination rendered by an examining physician, at least one of which reports must set out the examining physician's findings and conclusions in detail. After such request and delivery, the party causing the examination to be made is entitled, upon request, to receive from the person examined every written report available to him or her or his or her representative concerning any examination, previously or thereafter made, of the same mental or physical condition. By requesting and obtaining a report of the examination so ordered, or by taking the deposition of the examiner, the person examined waives any privilege he or she may have, in relation to the claim for benefits, regarding the testimony of every other person who has examined, or may thereafter examine, him or her in respect to the same mental or physical condition. If a person unreasonably refuses to submit to or fails to appear at an examination, the personal injury protection carrier is no longer liable for subsequent personal injury protection benefits. *An insured's refusal to submit to or failure to appear at two examinations raises a rebuttable presumption that the insured's refusal or failure was unreasonable.*

(8) **APPLICABILITY OF PROVISION REGULATING ATTORNEY ATTORNEYS FEES.**—With respect to any dispute under the provisions of ss. 627.730-627.7405 between the insured and the insurer, or between an assignee of an insured's rights and the insurer, the provisions of ss. 627.428 and 768.79 ~~shall~~ apply, except as provided in subsections (10) and (15), and except that any attorney fees recovered must:

- (a) Comply with prevailing professional standards;
- (b) Not overstate or inflate the number of hours reasonably necessary for a case of comparable skill or complexity; and

(c) Represent legal services that are reasonable and necessary to achieve the result obtained.

Upon request by either party, a judge must make written findings, substantiated by evidence presented at trial or any hearings associated therewith, that any award of attorney fees complies with this subsection. Notwithstanding s. 627.428, attorney fees recovered under ss. 627.730-627.7405 must be calculated without regard to a contingency risk multiplier.

(9) **PREFERRED PROVIDERS.**—An insurer may negotiate and ~~contract enter into contracts~~ with preferred licensed health care providers for the benefits described in this section, ~~referred to in this section as "preferred providers,"~~ which shall include health care providers licensed under ~~chapter chapters~~ 458, chapter 459, chapter 460, chapter 461, or chapter 463. The insurer may provide an option to an insured to use a preferred provider at the time of ~~purchasing purchase of~~ the policy for personal injury protection benefits, if the requirements of this subsection are met. If the insured elects to use a provider who is not a preferred provider, whether the insured purchased a preferred provider policy or a nonpreferred provider policy, the medical benefits provided by the insurer shall be as required by this section. If the insured elects to use a provider who is a preferred provider, the insurer may pay medical benefits in excess of the benefits required by this section and may waive or lower the amount of any deductible that applies to such medical benefits. If the insurer offers a preferred provider policy to a policyholder or applicant, it must also offer a nonpreferred provider policy. The insurer shall provide each insured ~~policyholder~~ with a current roster of preferred providers in the county in which the insured resides at the time of purchase of such policy, and shall make such list available for public inspection during regular business hours at the ~~insurer's~~ principal office of the insurer within the state.

(10) **DEMAND LETTER.**—

(a) As a condition precedent to filing any action for benefits under this section, ~~the insurer must be provided with~~ written notice of an intent to initiate litigation *must be provided to the insurer*. Such notice may not be sent until the claim is overdue, including any additional time the insurer has to pay the claim pursuant to paragraph (4)(b).

(b) The notice ~~must required shall~~ state that it is a "demand letter under s. 627.736(10)" and ~~shall~~ state with specificity:

1. The name of the insured upon which such benefits are being sought, including a copy of the assignment giving rights to the claimant if the claimant is not the insured.
2. The claim number or policy number upon which such claim was originally submitted to the insurer.
3. To the extent applicable, the name of any medical provider who rendered to an insured the treatment, services, accommodations, or supplies that form the basis of such claim; and an itemized statement specifying each exact amount, the date of treatment, service, or accommodation, and the type of benefit claimed to be due. A completed form satisfying the requirements of paragraph (5)(d) or the lost-wage statement previously submitted may be used as the itemized statement. To the extent that the demand involves an insurer's withdrawal of payment under paragraph (7)(a) for future treatment not yet rendered, the claimant shall attach a copy of the insurer's notice withdrawing such payment and an itemized statement of the type, frequency, and duration of future treatment claimed to be reasonable and medically necessary.

(c) Each notice required by this subsection must be delivered to the insurer by United States certified or registered mail, return receipt requested. Such postal costs shall be reimbursed by the insurer if ~~so~~ requested by the claimant in the notice, when the insurer pays the claim. Such notice must be sent to the person and address specified by the insurer for the purposes of receiving notices under this subsection. Each licensed insurer, whether domestic, foreign, or alien, shall file with the office ~~designation of~~ the name and address of the *designated* person to whom notices ~~must pursuant to this subsection shall~~ be sent which the office shall make available on its Internet website. The name and address on file with the office pursuant to s. 624.422 ~~are shall be~~ deemed the authorized representative to accept notice pursuant to this subsection ~~if in the event~~ no other designation has been made.

(d) If, within 30 days after receipt of notice by the insurer, the overdue claim specified in the notice is paid by the insurer together with applicable interest and a penalty of 10 percent of the overdue amount paid by the insurer, subject to a maximum penalty of \$250, no action may be brought against the insurer. If the demand involves an insurer's withdrawal of payment under paragraph (7)(a) for future treatment not yet rendered, no action may be brought against the insurer if, within 30 days after its receipt of the notice, the insurer mails to the person filing the notice a written statement of the insurer's agreement to pay for such treatment in accordance with the notice and to pay a penalty of 10 percent, subject to a maximum penalty of \$250, when it pays for such future treatment in accordance with the requirements of this section. To the extent the insurer determines not to pay any amount demanded, the penalty ~~is shall~~ not be payable in any subsequent action. For purposes of this subsection, payment or the insurer's agreement shall be treated as being made on the date a draft or other valid instrument that is equivalent to payment, or the insurer's written statement of agreement, is placed in the United States mail in a properly addressed, postpaid envelope, or if not so posted, on the date of delivery. The insurer is not obligated to pay any ~~attorney attorney's~~ fees if the insurer pays the claim or mails its agreement to pay for future treatment within the time prescribed by this subsection.

(e) The applicable statute of limitation for an action under this section shall be tolled for ~~a period of~~ 30 business days by the mailing of the notice required by this subsection.

~~(f) Any insurer making a general business practice of not paying valid claims until receipt of the notice required by this subsection is engaging in an unfair trade practice under the insurance code.~~

(11) FAILURE TO PAY VALID CLAIMS; UNFAIR OR DECEPTIVE PRACTICE.—

~~(a) If An insurer fails to pay valid claims for personal injury protection with such frequency so as to indicate a general business practice, the insurer is engaging in a prohibited unfair or deceptive practice that is subject to the penalties provided in s. 626.9521 and the office has the powers and duties specified in ss. 626.9561-626.9601 if the insurer, with such frequency so as to indicate a general business practice: with respect thereto~~

1. ~~Fails to pay valid claims for personal injury protection;~~
2. ~~Fails to pay valid claims until receipt of the notice required by subsection (10).~~

(b) Notwithstanding s. 501.212, the Department of Legal Affairs may investigate and initiate actions for a violation of this subsection, including, but not limited to, the powers and duties specified in part II of chapter 501.

339.2821 Economic development transportation projects.—

(1)(a) The department, in consultation with the Department of Economic Opportunity, may make and approve expenditures and contract with the appropriate governmental body for the direct costs of transportation projects. The Department of Economic Opportunity and the Department of Environmental Protection may formally review and comment

on recommended transportation projects, although the department has final approval authority for any project authorized under this section.

(b) As used in this section, the term:

1. "Governmental body" means an instrumentality of the state or a county, municipality, district, authority, board, or commission, or an agency thereof, within which jurisdiction the transportation project is located and which is responsible to the department for the transportation project.

2. "Transportation project" means a transportation facility, as defined in s. 334.03, which the department, in consultation with the Department of Economic Opportunity, deems necessary to facilitate the economic development and growth of the state.

(2) The department, in consultation with the Department of Economic Opportunity, shall review each transportation project for approval and funding. In the review, the department must consider:

(i) The poverty rate of the community.

The department may contact any agency it deems appropriate for additional information regarding the approval of a transportation project. A transportation project must be approved by the department to be eligible for funding.

1. Attract new employment opportunities to the state or expand or retain employment in existing companies operating within the state.

2. Allow for the construction or expansion of a state or federal correctional facility in a county having a population of 75,000 or fewer which creates new employment opportunities or expands or retains employment in the county.

(b) The department must ensure that small and minority businesses have equal access to participate in transportation projects funded pursuant to this section.

(c) In addition to administrative costs and equipment purchases specified in the contract, funds for approved transportation projects may be used for expenses that are necessary for building new, or improving existing, transportation facilities. Funds made available pursuant to this section may not be expended for the relocation of a business from one community to another community in this state unless the department determines that, without the relocation, the business will move outside the state or determines that the business has a compelling economic reason for the relocation, such as creating additional jobs.

(4) A contract between the department and a governmental body for a transportation project must:

(a) Specify that the transportation project is for the construction of a new or expanding business and specify the number of full-time permanent jobs that will result from the project.

(b) Identify the governmental body and require that the governmental body award the construction of the particular transportation project to the lowest and best bidder in accordance with applicable state and federal statutes or rules unless the transportation project can be constructed using existing local governmental employees within the contract period specified by the department.

(c) Require that the governmental body provide the department with quarterly progress reports. Each quarterly progress report must contain:

The records are subject to financial audit as required by law.

(e) Require that the governmental body, upon completion and acceptance of the transportation project, certify to the department that the transportation project has been completed in compliance with the terms and conditions of the contract between the department and the governmental body and meets the minimum construction standards established in accordance with s. 336.045.

(f) Specify that the department transfer funds to the governmental body not more often than quarterly, upon receipt of a request for funds from the governmental body and consistent with the needs of the transportation project. The governmental body shall expend funds received from the department in a timely manner. The department may not transfer funds unless construction has begun on the facility of a business on whose behalf the award was made. A contract totaling less than \$200,000 is exempt from the transfer requirement.

(g) Require that funds be used only on a transportation project that has been properly reviewed and approved in accordance with the criteria set forth in this section.

(h) Require that the governing board of the governmental body adopt a resolution accepting future maintenance and other attendant costs occurring after completion of the transportation project if the transportation project is constructed on a county or municipal system.

(5) For purposes of this section, Space Florida may serve as the governmental body or as the contracting agency for a transportation project within spaceport territory as defined by s. 331.304.

(6) Each governmental body receiving funds under this section shall submit to the department a financial audit of the governmental body conducted by an independent certified public accountant. The department, in consultation with the Department of Economic Opportunity, shall develop procedures to ensure that audits are received and reviewed in a timely manner and that deficiencies or questioned costs noted in the audit are resolved.

(7) The department shall monitor the construction or building site for each transportation project that receives funding under this section, including, but not limited to, the construction of the business facility, to ensure compliance with contractual requirements.

The summary must include a description of any anticipated commitments by the department for the years outside the adopted work program, a description of any anticipated impacts on the department's overall debt load, and sufficient information to demonstrate that the project will not cause the department to exceed the overall debt limitation provided in s. 339.14. The department may not accept the unsolicited proposal, advertise receipt of the unsolicited proposal, or solicit other proposals for the same project purpose without the approval of the Executive Office of the Governor. If the chair of either legislative appropriations committee, the President of the Senate, or the Speaker of the House of Representatives objects to the proposed project in writing within 14 days after receipt of the summary, the Executive Office of the Governor may not approve the proposed project.

The Conference Committee Amendment for HB 5505, Department of Financial Services, provides for the following:

- Allows for the electronic submission of workers' compensation exemption applications, with streamlined reporting requirements (e.g., elimination of notarization requirement and, for construction industry exemptions, the filing of copies of stock certificates).
 - Requires additional data elements to be reported by all applicants filing electronically to include:
 - Date of birth, Florida driver's license number or identification card number.
 - For construction industry applicants, statement of ownership interest.
 - Provides that exemptions issued after January 1, 2013, are valid for two years.
- Repeals the requirement for the Department of Financial Services to prepare an annual report on the administration of the workers' compensation laws of the prior year.

- Provides for a cost savings of nine positions and \$348,289 incorporated into the Fiscal Year 2012-13 General Appropriations Act.
- Amends the delinquent finance charge related to consumer finance loans by adjusting the current \$10 fee annually based on the consumer price index.
- Provides that revenues collected for money transmitter functions will be deposited into the Financial Institutions Regulatory Trust Fund rather than the Regulatory Trust Fund.
- Authorizes the Governor, at his option, to direct the State Board of Administration to create the Florida Insurance Premium Tax Pre-Payment Program in order to provide an additional funding mechanism for the Florida Hurricane Catastrophe Fund.

Conference Committee Amendment (473923)(with title amendment)—Remove everything after the enacting clause and insert:

Section 1. Paragraph (b) of subsection (15) of section 440.02, Florida Statutes, is amended to read:

440.02 Definitions.—When used in this chapter, unless the context clearly requires otherwise, the following terms shall have the following meanings:

(15)

(b) "Employee" includes any person who is an officer of a corporation and who performs services for remuneration for such corporation within this state, whether or not such services are continuous.

1. Any officer of a corporation may elect to be exempt from this chapter by filing ~~written~~ notice of the election with the department as provided in s. 440.05.

2. As to officers of a corporation who are engaged in the construction industry, no more than three officers of a corporation or of any group of affiliated corporations may elect to be exempt from this chapter by filing ~~written~~ notice of the election with the department as provided in s. 440.05. Officers must be shareholders, each owning at least 10 percent of the stock of such corporation and listed as an officer of such corporation with the Division of Corporations of the Department of State, in order to elect exemptions under this chapter. For purposes of this subparagraph, the term "affiliated" means and includes one or more corporations or entities, any one of which is a corporation engaged in the construction industry, under the same or substantially the same control of a group of business entities which are connected or associated so that one entity controls or has the power to control each of the other business entities. The term "affiliated" includes, but is not limited to, the officers, directors, executives, shareholders active in management, employees, and agents of the affiliated corporation. The ownership by one business entity of a controlling interest in another business entity or a pooling of equipment or income among business entities shall be prima facie evidence that one business is affiliated with the other.

3. An officer of a corporation who elects to be exempt from this chapter by filing a ~~written~~ notice of the election with the department as provided in s. 440.05 is not an employee.

Services are presumed to have been rendered to the corporation if the officer is compensated by other than dividends upon shares of stock of the corporation which the officer owns.

Section 2. Subsections (3) and (6) of section 440.05, Florida Statutes, are amended to read:

440.05 Election of exemption; revocation of election; notice; certification.—

(3) Each officer of a corporation who is engaged in the construction industry and who elects an exemption from this chapter or who, after electing such exemption, revokes that exemption, must *electronically submit mail a written* notice to such effect to the department on a form prescribed by the department. ~~The notice of election to be exempt from the provisions of this chapter must be notarized and under oath.~~ The notice of election to be exempt which is *electronically* submitted to the department by the officer of a corporation who is allowed to claim an exemption as provided by this chapter must list the name, federal tax

The notice of election to be exempt must identify each corporation that employs the person electing the exemption and must list the social security number or federal tax identification number of each such employer and the additional documentation required by this section. In addition, the notice of election to be exempt must provide that the officer electing an exemption is not entitled to benefits under this chapter, must provide that the election does not exceed exemption limits for officers provided in s. 440.02, and must certify that any employees of the corporation whose officer elects an exemption are covered by workers' compensation insurance. Upon receipt of the notice of the election to be exempt, receipt of all application fees, and a determination by the department that the notice meets the requirements of this subsection, the department shall issue a certification of the election to the officer, unless the department determines that the information contained in the notice is invalid. The department shall revoke a certificate of election to be exempt from coverage upon a determination by the department that the person does not meet the requirements for exemption or that the information contained in the notice of election to be exempt is invalid. The certificate of election must list the name of the corporation listed in the request for exemption. A new certificate of election must be obtained each time the person is employed by a new or different corporation that is not listed on the certificate of election. A copy of the certificate of election must be sent to each workers' compensation carrier identified in the request for exemption. Upon filing a notice of revocation of election, an officer who is a subcontractor or an officer of a corporate subcontractor must notify her or his contractor. (6) A construction industry certificate of election to be exempt which is issued in accordance with this section shall be valid for 2 years after the effective date stated thereon. Both the effective date and the expiration date must be listed on the face of the certificate by the department. The construction industry certificate must expire at midnight, 2 years from its issue date, as noted on the face of the exemption certificate. A construction industry certificate of election to be exempt may be revoked before its expiration by the officer for whom it was issued or by the department for the reasons stated in this section. At least 60 days ~~before~~ ~~prior to~~ the expiration date of a construction industry certificate of exemption ~~issued after December 1, 1998~~, the department shall send notice of the expiration date ~~and an application for renewal~~ to the certificateholder at the address on the certificate ~~or to the e-mail address on file with the department~~.

The adjusted charge shall be rounded to the nearest hundredth of a dollar.*

Any charges, including interest, in excess of the combined total of all charges authorized and permitted by this chapter constitute a violation of chapter 687 governing interest and usury, and the penalties of that chapter apply. (d) The state board may require the manager to provide all of the following services:

1. Before the board determines the aggregate amount of tax credits applicable to any single calendar year, the manager must estimate the amounts of and the dates for payments of the principal and interest, if any, on the loan provided in paragraph (2)(d) such that all such payments:

a. Are consistent with s. 215.555, Florida Statutes, and all outstanding obligations associated with or relating to the fund; and

b. Are estimated to offset in each state fiscal year the amount of state revenues expected not to be collected due to the sale of the certificates.

2. To assist the state board in structuring the program in a manner complying with the provisions of this section.

3. Such additional services relating to the duties of the board as the board shall reasonably determine and set forth in the statement of services referenced in paragraph (a).

(d) Notwithstanding any limitation set forth in any other provision of the program, any tax credits that a purchaser is permitted to use under paragraph (a) or paragraph (b), but is unable to use because of paragraph (c), may be carried forward until the end of the 10th year following the expiration date set forth in the certificate to which the tax credit relates and be used to offset the purchaser's liability in any subsequent year in which the purchaser has sufficient tax liability, including in a year in which the purchaser also uses tax credits that are allocated to that year pursuant to paragraph (b).

(e) A purchaser that has purchased certificates is not required to reduce the amount of tax liability included by the purchaser in connection with the ratemaking for an insurance contract written because of a reduction in the purchaser's assessment derived from the tax credits granted under the program.

(f) If the taxes that a purchaser does not pay by virtue of the tax credits purchased under this program would constitute a credit against another tax or assessment if paid, the insurer shall continue to earn the credit as though the tax credits evidenced by the certificates were paid by cash.

(g) A purchaser may transfer any certificate authorized under the program to another purchaser if the transferor delivers to the Commissioner of Insurance Regulation within 30 days after the transfer a written notice indicating the name of the transferee, the stated amount of certificates being transferred, and the year or years to which the tax credits evidenced by the certificate are allocable as provided in paragraph (b) and such other information, if any, as required in the body of the certificate being transferred.

Section 12. Section 1004.935, Florida Statutes, is created to read:

1004.935 *Adults with Disabilities Workforce Education Pilot Program.—*

(1) *The Adults with Disabilities Workforce Education Pilot Program is established in the Department of Education for 2 years in Hardee, DeSoto, Manatee, and Sarasota Counties to provide the option of receiving a scholarship for instruction at private schools for up to 30 students who:*

(a) *Have a disability;*

(b) *Are 22 years of age;*

(c) *Are receiving instruction from an instructor in a private school to meet the high school graduation requirements in s. 1003.428;*

(d) *Do not have a standard high school diploma or a special high school diploma; and*

(e) *Receive "supported employment services," which means employment that is located or provided in an integrated work setting with*

earnings paid on a commensurate wage basis and for which continued support is needed for job maintenance.

As used in this section, the term "student with a disability" includes a student who is documented as having an intellectual disability; a speech impairment; a language impairment; a hearing impairment, including deafness; a visual impairment, including blindness; a dual sensory impairment; an orthopedic impairment; another health impairment; an emotional or behavioral disability; a specific learning disability, including, but not limited to, dyslexia, dyscalculia, or developmental aphasia; a traumatic brain injury; a developmental delay; or autism spectrum disorder.

(2) A student participating in the pilot program may continue to participate in the program until the student graduates from high school or reaches the age of 30 years, whichever occurs first.

(3) Supported employment services may be provided at more than one site.

(4) The provider of supported employment services must be a non-profit corporation under s. 501(c)(3) of the Internal Revenue Code which serves Hardee County, DeSoto County, Manatee County, or Sarasota County and must contract with a private school in this state which meets the requirements in subsection (5).

(5) A private school that participates in the pilot program may be sectarian or nonsectarian and must:

(a) Be academically accountable for meeting the educational needs of the student by annually providing to the provider of supported employment services a written explanation of the student's progress.

(b) Comply with the antidiscrimination provisions of 42 U.S.C. s. 2000d.

(c) Meet state and local health and safety laws and codes.

(d) Provide to the provider of supported employment services all documentation required for a student's participation, including the private school's and student's fee schedules, at least 30 days before any quarterly scholarship payment is made for the student. A student is not eligible to receive a quarterly scholarship payment if the private school fails to meet this deadline.

The inability of a private school to meet the requirements of this subsection constitutes a basis for the ineligibility of the private school to participate in the pilot program.

(6)(a) If the student chooses to participate in the pilot program and is accepted by the provider of supported employment services, the student must notify the Department of Education of his or her acceptance into the program 60 days before the first scholarship payment and before participating in the pilot program in order to be eligible for the scholarship.

(b) Upon receipt of a scholarship warrant, the student or parent to whom the warrant is made must restrictively endorse the warrant to the provider of supported employment services for deposit into the account of the provider. The student or parent may not designate any entity or individual associated with the participating provider of supported employment services as the student's or parent's attorney in fact to endorse a scholarship warrant. A participant who fails to comply with this paragraph forfeits the scholarship.

(7) Funds for the scholarship shall be provided from the appropriation from the school district's Workforce Development Fund in the General Appropriations Act for students who reside in the Hardee County School District, the DeSoto County School District, the Manatee County School District, or the Sarasota County School District. During the 2-year pilot program, the scholarship amount granted for an eligible student with a disability shall be equal to the cost per unit of a full-time equivalent adult general education student, multiplied by the adult general education funding factor, and multiplied by the district cost differential pursuant to the formula required by s. 1011.80(6)(a) for the district in which the student resides.

(8) Upon notification by the Department of Education that it has received the required documentation, the Chief Financial Officer shall make scholarship payments in four equal amounts no later than September 1,

November 1, February 1, and April 1 of each academic year in which the scholarship is in force. The initial payment shall be made after the Department of Education verifies that the student was accepted into the pilot program, and subsequent payments shall be made upon verification of continued participation in the pilot program. Payment must be by individual warrant made payable to the student or parent and mailed by the Department of Education to the provider of supported employment services, and the student or parent shall restrictively endorse the warrant to the provider of supported employment services for deposit into the account of that provider.

(9) Subsequent to each scholarship payment, the Department of Education shall request from the Department of Financial Services a sample of endorsed warrants to review and confirm compliance with endorsement requirements.

(1) The Degree Completion Pilot Project is established for the purpose of recruiting, recovering, and retaining the state's adult learners and assisting them in completing an associate degree or a baccalaureate degree that is aligned to high-wage, high-skill workforce needs. As used in this section, the term "adult learner" means a student who has successfully completed college-level coursework in multiple semesters but has left

an institution in good standing before completing his or her degree. The pilot project shall give priority to adult learners who are veterans or active duty members of the United States Armed Forces.

(2) The pilot project shall be implemented by the University of West Florida, acting as the lead institution, the University of South Florida, Florida State College at Jacksonville, and St. Petersburg College and shall include the associate, applied baccalaureate, and baccalaureate degree programs that these institutions have selected. (c) Use the streamlined, automated, online admissions application process for transient students established pursuant to s. 1006.73. The pilot project shall identify any additional admissions and registration policies and practices that could be further streamlined and automated for purposes of assisting the adult learner.

(d) Use existing and, if necessary, develop new competency-based instructional and evaluation tools to assess prior performance, experience, and education for the award of college credit in order to reduce the time required for adult learners to complete their degrees. The tools may include the use of the American Council on Education's collaborative link between the United States Department of Defense and higher education through the review of military training and experiences for the award of equivalent college credit for members of the United States Armed Forces.

(e) Develop and implement an evaluation process that collects, analyzes, and provides to the participating postsecondary education institutions, the chairs of the legislative appropriations committees, and the Executive Office of the Governor information on the effectiveness of the pilot project and the attainment of its goals. Such a process shall include a management information system that collects the appropriate student, programmatic, and fiscal data necessary to complete the evaluation of the pilot project. Institutions involved in the pilot project shall also collect job placement and employment data on the adult learners who have completed their degrees as a result of the pilot project.

(f) Develop and implement a statewide marketing campaign targeted toward recruiting adult learners, particularly veterans and active duty members of the United States Armed Forces, for enrollment in the degree programs offered through the pilot project.

(6) For purposes of the pilot project, each institution's current tuition and fee structure shall be used. However, all participating institutions shall collaboratively identify the applicable cost components involved in the development and delivery of distance learning courses, collect information on these cost components, and submit the information to the Florida Virtual Campus. The chancellors of the Florida College System and the State University System shall submit a report to the chairs of the legislative appropriations committees no later than December 31, 2013, on the need for a differentiated tuition and fee structure for the development and delivery of distance learning courses.

(7) The University of West Florida, in collaboration with the University of South Florida, Florida State College at Jacksonville, and St.

Section 1. Section 411.01, Florida Statutes, is amended to read:

411.01 School readiness programs; early learning coalitions.—

(1) **SHORT TITLE.**—This section may be cited as the “School Readiness Act.”

(2) **LEGISLATIVE INTENT.**—

(a) The Legislature recognizes that school readiness programs increase children’s chances of achieving future educational success and becoming productive members of society. It is the intent of the Legislature that the programs be developmentally appropriate, research-based, involve the parent as a child’s first teacher, serve as preventive measures for children at risk of future school failure, enhance the educational readiness of eligible children, and support family education. Each school readiness program shall provide the elements necessary to prepare at-risk children for school, including health screening and referral and an appropriate educational program.

(b) It is the intent of the Legislature that school readiness programs be operated on a *full-time and part-time full-day*, year-round basis to the maximum extent possible to enable parents to work and become financially self-sufficient.

(c) It is the intent of the Legislature that school readiness programs not exist as isolated programs, but build upon existing services and work in cooperation with other programs for young children, and that school readiness programs be coordinated to achieve full effectiveness.

(d) It is the intent of the Legislature that the administrative staff for school readiness programs be kept to the minimum necessary to administer the duties of the Office of Early Learning and early learning coalitions. (f) It is the intent of the Legislature that school readiness services be an integrated and seamless program of services with a developmentally appropriate education component for the state’s eligible birth-to-kindergarten population described in subsection (7) ~~(6)~~ and not be construed as part of the seamless K-20 education system.

To meet this requirement an early learning coalition must appoint additional members. The Office of Early Learning shall establish criteria for appointing private sector business members. These criteria must include standards for determining whether a member or relative has a substantial financial interest in the design or delivery of the Voluntary Prekindergarten Education Program or the coalition's school readiness program.

8. A majority of the voting membership of an early learning coalition constitutes a quorum required to conduct the business of the coalition. An early learning coalition board may use any method of telecommunications to conduct meetings, including establishing a quorum through telecommunications, provided that the public is given proper notice of a telecommunications meeting and reasonable access to observe and, when appropriate, participate.

9. A voting member of an early learning coalition may not appoint a designee to act in his or her place, except as otherwise provided in this paragraph. A voting member may send a representative to coalition meetings, but that representative does not have voting privileges. When a district administrator for the Department of Children and Family Services appoints a designee to an early learning coalition, the designee is the voting member of the coalition, and any individual attending in the designee's place, including the district administrator, does not have voting privileges.

10. Each member of an early learning coalition is subject to ss. 112.313, 112.3135, and 112.3143. For purposes of s. 112.3143(3)(a), each voting member is a local public officer who must abstain from voting when a voting conflict exists.

11. For purposes of tort liability, each member or employee of an early learning coalition shall be governed by s. 768.28.

12. An early learning coalition serving a multicounty region must include representation from each county.

13. Each early learning coalition shall establish terms for all appointed members of the coalition. The terms must be staggered and must be a uniform length that does not exceed 4 years per term. Coalition chairs shall be appointed for 4 years in conjunction with their membership on the Early Learning Advisory Council under s. 20.052. Appointed members may serve a maximum of two consecutive terms. When a vacancy occurs in an appointed position, the coalition must advertise the vacancy.

(b) Limitation.—Except as provided by law, the early learning coalitions may not impose requirements on a child care or early childhood education provider that does not deliver services under the school readiness programs or receive state, federal, required maintenance of effort, or matching funds under this section.

(c) Program expectations.—

1. The school readiness program must meet the following expectations:

a. The program must, at a minimum, enhance the age-appropriate progress of each child in attaining the performance standards and outcome measures adopted by the Office of Early Learning.

b. The program must provide extended-day and extended-year services to the maximum extent possible without compromising the quality of the program to meet the needs of parents who work.

c. The program must provide a coordinated professional development system that supports the achievement and maintenance of core competencies by school readiness instructors in helping children attain the performance standards and outcome measures adopted by the Office of Early Learning.

d. There must be expanded access to community services and resources for families to help achieve economic self-sufficiency.

e. There must be a single point of entry and unified waiting list. As used in this sub-paragraph, the term "single point of entry" means an integrated information system that allows a parent to enroll his or her child in the school readiness program at various locations throughout a county, that may allow a parent to enroll his or her child by telephone or through an Internet website, and that uses a unified waiting list to track eligible children waiting for enrollment in the school readiness program. The Office of Early Learning shall establish through technology a single statewide information system that each coalition must use for the purposes of managing the single point of entry, tracking children's progress, coordinating services among stakeholders, determining eligibility, tracking child attendance, and streamlining administrative processes for providers and early learning coalitions.

~~f. The Office of Early Learning must consider the access of eligible children to the school readiness program, as demonstrated in part by waiting lists, before approving a proposed increase in payment rates submitted by an early learning coalition. In addition, early learning coalitions shall use school readiness funds made available due to enrollment shifts from school readiness programs to the Voluntary Prekindergarten Education Program for increasing the number of children served in school readiness programs before increasing payment rates.~~

~~f.g.~~ The program must meet all state licensing guidelines, where applicable. *For a child care facility, large family child care home, or licensed family day care home, compliance with s. 402.305, s. 402.3131, or s. 402.313 satisfies this requirement. For a public or nonpublic school, compliance with s. 402.3025 or s. 1003.22 satisfies this requirement. A faith-based child care provider exempt from licensure under s. 402.316 must meet or exceed the requirements of s. 402.305, except for square footage per child, as determined by an onsite inspection by an early learning coalition. An informal child care provider or registered family day care home must meet or exceed the requirements of s. 402.313. A before-school or after-school program must meet or exceed the requirements of s. 402.305(5), (6), and (7).*

~~g.h.~~ The program must ensure that minimum standards for child discipline practices are age-appropriate. Such standards must provide that children not be subjected to discipline that is severe, humiliating, or frightening or discipline that is associated with food, rest, or toileting. Spanking or any other form of physical punishment is prohibited.

2. Each early learning coalition must implement a comprehensive program of school readiness services in accordance with *this chapter and the rules adopted by the office which enhance the cognitive, social, and physical development of children to achieve the performance standards and outcome measures. At a minimum, these programs must contain the following system support service elements:*

a. Developmentally appropriate curriculum designed to enhance the age-appropriate progress of children in attaining the performance standards adopted by the Office of Early Learning under subparagraph (5)(d)8. ~~(4)(d)8.~~

b. A character development program to develop basic values.

c. An age-appropriate screening of each child's development *and an appropriate referral process for children with identified delays.*

d. An age-appropriate *preassessment and postassessment of children as provided in subparagraph (5)(d)10. assessment administered to children when they enter a program and an age-appropriate assessment administered to children when they leave the program.*

e. An appropriate staff-to-children ratio, pursuant to s. 402.305(4) or s. 402.302(8) or (11), as applicable, and as verified pursuant to s. 402.311.

f. A healthy and safe environment pursuant to s. 401.305(5), (6), and (7), as applicable, and as verified pursuant to s. 402.311.

g. A resource and referral network established under s. 411.0101 to assist parents in making an informed choice and a regional Warm-Line under s. 411.01015.

The Office of Early Learning and early learning coalitions shall coordinate with the Child Care Services Program Office of the Department of Children and Family Services to minimize duplicating interagency activities pertaining to acquiring and composing data for child care training and credentialing.

(d) Implementation.—

1. An early learning coalition may not implement the school readiness program until the coalition's school readiness plan is approved by the Office of Early Learning.

2. Each early learning coalition shall coordinate with one another to implement a comprehensive program of school readiness services which enhances the cognitive, social, physical, and moral character of the children to achieve the performance standards and outcome measures and which helps families achieve economic self-sufficiency. Such program must contain, at a minimum, the following elements:

a. Implement the school readiness program to meet the requirements of this section and the system support services, performance standards, and outcome measures adopted by the Office of Early Learning.

b. Demonstrate how the program will ensure that each child from birth through 5 years of age in a publicly funded school readiness program receives scheduled activities and instruction designed to enhance the age-appropriate progress of the children in attaining the performance standards adopted by the department under subparagraph (5)(d) 8. ~~(4)(d)8.~~

c. Ensure that the coalition has solicited and considered comments regarding the proposed school readiness plan from the local community.

Before implementing the school readiness program, the early learning coalition must submit the plan to the office for approval. The office may approve the plan, reject the plan, or approve the plan with conditions. The office shall review school readiness plans at least every 2 years.

3. If the Office of Early Learning determines during the review of school readiness plans, or through monitoring and performance evaluations conducted under paragraph (5)(l) ~~(4)(d)~~, that an early learning coalition has not substantially implemented its plan, has not substantially met the performance standards and outcome measures adopted by the office, or has not effectively administered the school readiness program or Voluntary Prekindergarten Education Program, the office may dissolve the coalition and temporarily contract with a qualified entity to continue school readiness and prekindergarten services in the coalition's county or multicounty region until the office re-establishes the coalition and a new school readiness plan is approved in accordance with the rules adopted by the office.

4. The Office of Early Learning shall adopt rules establishing criteria for the approval of school readiness plans. The criteria must be consistent with the system support services, performance standards, and outcome measures adopted by the office and must require each approved plan to include the following minimum standards for the school readiness program:

a. A community plan that addresses the needs of all children and providers within the coalition's county or multicounty region.

~~b. A sliding fee scale establishing a copayment for parents based upon their ability to pay, which is the same for all program providers.~~

b.e. A choice of settings and locations in licensed, registered, religious-exempt, or school-based programs to be provided to parents.

~~d.—Specific eligibility priorities for children in accordance with subsection (6).~~

~~c.e. Performance standards and outcome measures adopted by the office.~~

~~f.—Payment rates adopted by the early learning coalitions and approved by the office. Payment rates may not have the effect of limiting parental choice or creating standards or levels of services that have not been expressly established by the Legislature, unless the creation of such standards or levels of service, which must be uniform throughout the state, has been approved by the Federal Government and result in the state being eligible to receive additional federal funds available for early learning on a statewide basis.~~

~~g.—Direct enhancement services for families and children. System support and direct enhancement services shall be in addition to payments for the placement of children in school readiness programs. Direct enhancement services for families may include parent training and involvement activities and strategies to meet the needs of unique populations and local eligibility priorities. Enhancement services for children may include provider supports and professional development approved in the plan by the Office of Early Learning.~~

~~d.h. The business organization of the early learning coalition, which must include the coalition's articles of incorporation and bylaws if the coalition is organized as a corporation. If the coalition is not organized as a corporation or other business entity, the plan must include the contract with a fiscal agent. An early learning coalition may contract with other coalitions to achieve efficiency in multicounty services, and these contracts may be part of the coalition's school readiness plan.~~

~~i.—The implementation of locally developed quality programs in accordance with the requirements adopted by the office under subparagraph (4)(d)5.~~

The Office of Early Learning may request the Governor to apply for a waiver to allow the coalition to administer the Head Start Program to accomplish the purposes of the school readiness program.

5. Persons with an early childhood teaching certificate may provide support and supervision to other staff in the school readiness program.

6. An early learning coalition may not implement its school readiness plan until it submits the plan to and receives approval from the Office of Early Learning. Once the plan is approved, the plan and the services provided under the plan shall be controlled by the early learning coalition. The plan shall be reviewed and revised as necessary, but at least biennially. An early learning coalition may not implement the revisions until the coalition submits the revised plan to and receives approval from the office. If the office rejects a revised plan, the coalition must continue to operate under its prior approved plan.

7. Section 125.901(2)(a)3. does not apply to school readiness programs. The Office of Early Learning may apply to the Governor and Cabinet for a waiver of, and the Governor and Cabinet may waive, any of the provisions of ss. 411.223 and 1003.54, if the waiver is necessary for implementation of school readiness programs.

8. Two or more early learning coalitions may join for purposes of planning and implementing a school readiness program.

~~(e) Requests for proposals; payment schedule.—~~

~~1.—Each early learning coalition must comply with federal the procurement requirements and the expenditure requirements of procedures adopted by the Office of Early Learning, including, but not limited to, applying the procurement and expenditure procedures required by federal and state law and state rules for the expenditure of federal funds.~~

~~2.—Each early learning coalition shall adopt a payment schedule that encompasses all programs funded under this section. The payment schedule must take into consideration the prevailing market rate, must include the projected number of children to be served, and must be submitted for approval by the Office of Early Learning. Informal child care arrangements shall be reimbursed at not more than 50 percent of the rate adopted for a family day care home.~~

(f) Evaluation and annual report.—Each early learning coalition shall conduct an evaluation of its implementation of the school readiness program, including system support services, performance standards, and outcome measures, and shall provide an annual report and fiscal statement to the Office of Early Learning. This report must also include an evaluation of the effectiveness of its direct enhancement services and conform to the content and format specifications adopted by the Office of Early Learning. The Office of Early Learning must include an analysis of the early learning coalitions' reports in the office's annual report.

~~(7)(6) PROGRAM ELIGIBILITY AND ENROLLMENT.—The school readiness program is established for children from birth to the beginning of the school year for which a child is eligible for admission to kindergarten in a public school under s. 1003.21(1)(a)2. or who are eligible for any federal subsidized child care program.~~

(a) Each early learning coalition shall give priority for participation in the school readiness program as follows:

1.(a) Priority shall be given first to a child younger than 13 years of age from a working family that includes in which there is an adult receiving temporary cash assistance who is subject to federal work requirements under chapter 414.

2.(b) Priority shall be given next to an at-risk a child younger than 9 years of age who is eligible for a school readiness program but who has not yet entered school, who is served by the Family Safety Program Office of the Department of Children and Family Services or a community based lead agency under chapter 39 or chapter 409, and for whom child care is needed to minimize risk of further abuse, neglect, or abandonment.

3. Priority shall be given next to:

a. A child younger than 6 years of age from a working family that is economically disadvantaged, including being a child of a working migratory family. However, the child ceases to be eligible if his or her family income exceeds 200 percent of the federal poverty level; or

b. A child who has special needs, is younger than 6 years of age, has been determined eligible as a student with disabilities, and has a current family support plan or individual education plan.

4. Priority shall be given next to an at-risk child who is at least 9 years of age, but younger than 13 years of age. An at-risk child whose sibling is enrolled in the school readiness program within an eligibility priority category listed in subparagraphs 1.-3. shall be given priority over other children who are eligible under this subparagraph.

5. Priority shall be given next to a child who is at least 6 years of age, but younger than 13 years of age, and who is a sibling of a child enrolled in the school readiness program within the eligibility priority category listed in sub-subparagraph 3.a.

6. Notwithstanding subparagraphs 1.-5., priority shall be given last to a child who otherwise meets one of the eligibility criteria in subparagraphs 1.-5. but who is also enrolled concurrently in the federal Head Start Program and the Voluntary Prekindergarten Education Program.

(b) A school readiness provider may be paid only for authorized hours of care provided for a child in the school readiness program. A child enrolled in the Voluntary Prekindergarten Education Program may receive care from the school readiness program if the child is eligible according to the eligibility priorities in paragraph (a).

(c) A coalition shall enroll all eligible children, including those from its waiting list, according to the eligibility priorities provided in paragraph (a).

(d) The parent of a child enrolled in the school readiness program must notify the coalition or its designee within 10 days after any change in employment, income, or family size. Upon notification by the parent, the child's eligibility must be reevaluated.

(e) A child whose eligibility priority category requires the child to be from a working family ceases to be eligible for the school readiness program if a parent with whom the child resides does not reestablish employment within 30 days after becoming unemployed.

(f) Eligibility for each child must be reevaluated annually. Upon reevaluation, a child may not continue to receive school readiness services if he or she has ceased to be eligible under this subsection.

(g) If a coalition disenrolls children from the school readiness program, the coalition must disenroll the children in reverse order of the eligibility priorities listed in paragraph (a), beginning with children from families with the highest family incomes. A notice of disenrollment must be sent to parents and school readiness providers at least 2 weeks before disenrollment to ensure adequate time for parents to arrange alternative care for their children. However, an at-risk child may not be disenrolled from the program without the written approval of the Family Safety Program Office of the Department of Children and Family Services or the community-based lead agency.

(h)1. If a child is absent for 5 consecutive days without contact from the parent, the school readiness provider shall report the absences to the early learning coalition for a determination of the need for continued care.

2. Notwithstanding s. 39.604, a school readiness provider, regardless of whether the provider is licensed, shall comply with the reporting requirements of the Rilya Wilson Act for each at-risk child enrolled in the school readiness program, regardless of the child's age or eligibility for protective services.

(e) Subsequent priority shall be given to a child who meets one or more of the following criteria:

1. A child who is younger than the age of kindergarten eligibility and:

a. Is at risk of welfare dependency, including an economically disadvantaged child, a child of a participant in the welfare transition program, a child of a migratory agricultural worker, or a child of a teen parent.

b. Is a member of a working family that is economically disadvantaged.

c. For whom financial assistance is provided through the Relative Caregiver Program under s. 39.5085.

3. An economically disadvantaged child, a child with a disability, or a child at risk of future school failure, from birth to 4 years of age, who is served at home through a home visitor program and an intensive parent education program.

4. A child who meets federal and state eligibility requirements for the migrant preschool program but who is not economically disadvantaged.

As used in this paragraph, the term "economically disadvantaged" means having a family income that does not exceed 150 percent of the federal poverty level. Notwithstanding any change in a family's economic status, but subject to additional family contributions in accordance with the sliding fee scale, a child who meets the eligibility requirements upon initial registration for the program remains eligible until the beginning of the school year for which the child is eligible for admission to kindergarten in a public school under s. 1003.21(1)(a)2.

(8)(7) PARENTAL CHOICE.—

(a) Parental choice of child care providers shall be established, to the maximum extent practicable, in accordance with 45 C.F.R. s. 98.30.

(b) As used in this subsection, the term "payment certificate" means a child care certificate as defined in 45 C.F.R. s. 98.2.

(c) The school readiness program shall, in accordance with 45 C.F.R. s. 98.30, provide parental choice through a payment certificate that ensures, to the maximum extent possible, flexibility in the school readiness program and payment arrangements. The payment certificate

must bear the names of the beneficiary and the program provider and, when redeemed, must bear the signatures of both the beneficiary and an authorized representative of the provider.

(d) If it is determined that a provider has given any cash to the beneficiary in return for receiving a payment certificate, the early learning coalition or its fiscal agent shall refer the matter to the Department of Financial Services pursuant to s. 414.411 for investigation.

(e) The office of the Chief Financial Officer shall establish an electronic transfer system for the disbursement of funds in accordance with this subsection. Each early learning coalition shall fully implement the electronic funds transfer system within 2 years after approval of the coalition's school readiness plan, unless a waiver is obtained from the Office of Early Learning.

(9)(8) STANDARDS; OUTCOME MEASURES.—A program provider participating in the school readiness program must meet the performance standards and outcome measures adopted by the Office of Early Learning.

(10)(9) FUNDING; SCHOOL READINESS PROGRAM.—

(a) Funding for the school readiness program shall be allocated among the early learning coalitions in accordance with this section, s. 411.013, and the General Appropriations Act.

(a) It is the intent of this section to establish an integrated and quality seamless service delivery system for all publicly funded early childhood education and child care programs operating in this state.

(b)1. The Office of Early Learning shall administer school readiness funds, plans, and policies and shall prepare and submit a unified budget request for the school readiness system in accordance with chapter 216.

2. All instructions to early learning coalitions for administering this section shall emanate from the Office of Early Learning in accordance with the policies of the Legislature.

(c) The Office of Early Learning, subject to legislative notice and review under s. 216.177, shall establish a formula for the allocation of all state and federal school readiness funds provided for children participating in the school readiness program, whether served by a public or private provider, based upon equity for each county. The allocation formula must be submitted to the Governor, the chair of the Senate Ways and Means Committee or its successor, and the chair of the House of Representatives Fiscal Council or its successor no later than January 1 of each year. If the Legislature specifies changes to the allocation formula, the Office of Early Learning shall allocate funds as specified in the General Appropriations Act.

(c)(d) All state, federal, and required local maintenance-of-effort or matching funds provided to an early learning coalition for purposes of this section shall be used for implementation of its approved school readiness plan, including the hiring of staff to effectively operate the coalition's school readiness program. As part of plan approval and periodic plan review, the Office of Early Learning shall require that administrative

(d) Costs shall be kept to the minimum necessary for the efficient and effective administration of the school readiness program. However, no more than 4 percent of the funds described in paragraph (c) may be used for administrative costs as described in subparagraph 1., and, except as otherwise specified in the General Appropriations Act, no more than 18 percent of the funds described in paragraph (c) may be used for any combination of the following administrative costs, quality activities, and nondirect services:

1. Administrative costs as described in 45 C.F.R. s. 98.52.

2. Activities to improve the quality of child care as described in 45 C.F.R. s. 98.51, which shall be limited to the following:

a. Developing, establishing, expanding, operating, and coordinating resource and referral programs specifically related to the provision of comprehensive consumer education to parents and the public regarding participation in the school readiness program.

f. Assisting the provider in implementing a preassessment and post-assessment approved by the Office of Early Learning.

g. Responding to Warm-Line requests by providers and parents related to school readiness children, including providing developmental and health screenings to school readiness children.

3. Nondirect services as described in 63 Fed. Reg. 39962-39963 (July 24, 1998) and applicable Office of Management and Budget instructions required to administer the school readiness program. As used in this paragraph, the term "nondirect services" does not include payments to school readiness providers for direct services provided to children who are eligible under paragraph (7)(a), administrative costs as described in subparagraph 1., or quality activities as described in subparagraph 2. ~~plan, but total administrative expenditures must not exceed 5 percent unless specifically waived by the Office of Early Learning. The Office of Early Learning shall annually report to the Legislature any problems relating to administrative costs.~~

(e)1. A sliding fee scale percentage shall be provided in the General Appropriations Act, which shall be the same for all school readiness providers. A parent's copayment for the school readiness program shall be determined by multiplying the sliding fee scale percentage by the family income and adjusting for family size.

2. Each early learning coalition shall implement the sliding fee scale as provided in the General Appropriations Act. A coalition may, on a case-by-case basis, waive the copayment for an at-risk child or temporarily waive the copayment for a child whose family experiences a natural disaster or emergency situation such as a household fire or burglary.

(f)1. An adjusted payment rate percentage shall be provided in the General Appropriations Act, which shall be used to determine annual payment rates for school readiness providers. The annual payment rates for each type of school readiness provider and level of care shall be calculated by:

a. Multiplying the prevailing market rate for the respective type of school readiness provider and level of care by the adjusted payment rate percentage;

b. Adjusting the product of sub-subparagraph a. by the district cost differential as provided in s. 1011.62(2) for the county in which the school readiness provider is located; and

c. If the school readiness provider has the Gold Seal Quality Care designation under s. 402.281, multiplying the product of sub-subparagraph b. by the Gold Seal premium percentage provided in the General Appropriations Act.

2. A school readiness provider's total payment for a child shall be equal to the payment rate calculated under subparagraph 1. less the amount of the parent's copayment as determined under paragraph (e). However, payments made to the school readiness provider may not exceed the provider's charges to the general public for the same services.

(g) The Office of Early Learning may increase or decrease the adjusted payment rate percentage for a specific geographic area in order to ensure that care levels are available throughout the state. Any increase in an adjusted payment rate percentage must be funded through the current year's appropriation.

~~(e) The Office of Early Learning shall annually distribute, to a maximum extent practicable, all eligible funds provided under this section as block grants to the early learning coalitions in accordance with the terms and conditions specified by the office.~~

(h)(f) State funds appropriated for the school readiness program may not be used for the construction of new facilities or the purchase of buses.

(i)(g) All cost savings and all revenues received through a mandatory sliding fee scale shall be used to help fund each early learning coalition's school readiness program.

~~(10) CONFLICTING PROVISIONS.—If a conflict exists between this section and federal requirements, the federal requirements control.~~

(11) SUBSTITUTE INSTRUCTORS.—Each school district shall make a list of all individuals currently eligible to act as a substitute teacher within the county pursuant to the rules adopted by the school district pursuant to s. 1012.35 available to an early learning coalition serving students within the school district. Child care facilities, as defined by s. 402.302, may employ individuals listed as substitute instructors for the purpose of offering the school readiness program, the Voluntary Prekindergarten Education Program, and all other legally operating child care programs.

(12) INVESTIGATIONS OF FRAUD OR OVERPAYMENT; PENALTIES.—

(a) As used in this subsection, the term "fraud" means an intentional deception or misrepresentation made by a person with knowledge that the deception or misrepresentation may result in unauthorized benefit to that person or another person. The term includes any act that constitutes fraud under applicable federal or state law.

(b) To recover state, federal, and local matching funds, the inspector general of the Office of Early Learning shall investigate coalitions, recipients, and providers of the school readiness program and the Voluntary Prekindergarten Education Program to determine possible fraud or overpayment. If by its own inquiries, or as a result of a complaint, the office has reason to believe that a person has engaged in, or is engaging in, a fraudulent act, it shall investigate and determine whether any overpayment has occurred due to the fraudulent act. During the investigation, the office may examine all records, including electronic benefits transfer records, and make inquiry of all persons who may have knowledge as to any irregularity incidental to the disbursement of public moneys or other items or benefits authorizations to recipients.

(c) If the inspector general determines that an overpayment has occurred due to a fraudulent act, the parent or provider is responsible for repayment and restitution of any costs associated with the fraud, and the office shall pursue collection through any legal means. A provider or parent may not participate in the program until the repayment is made in full. Any provider that shares an officer or director with a provider that is ineligible to participate under this subsection will not be permitted to participate until repayment is made in full.

(d) Based on the results of the investigation, the inspector general may, in his or her discretion, refer the investigation to the Department of Law Enforcement for criminal prosecution, seek civil enforcement, or refer the matter to the applicable coalition. Any suspected criminal violation identified by the inspector general must be referred to the Department of Legal Affairs for investigation.

(e) If a school readiness provider, after investigation and adjudication by a court of competent jurisdiction, is convicted of fraudulently misrepresenting enrollment or attendance related to the school readiness program or the Voluntary Prekindergarten Education Program, the coalition shall permanently refrain from contracting with, or using the services of, that provider. In addition, the coalition shall permanently refrain from contracting with, or using the services of, any provider that shares an officer or director with a provider that is convicted of fraudulently misrepresenting enrollment or attendance related to the school

readiness program or the Voluntary Prekindergarten Education Program.

(f) If the investigation is not confidential or otherwise exempt from disclosure by law, the results of the investigation may be reported by the Office of Early Learning to the appropriate legislative committees, the Department of Education, the Department of Children and Family Services, and such other persons as the office deems appropriate.

(g) A person who commits an act of fraud as defined in this subsection is subject to the penalties provided in s. 414.39(5)(a) and (b).

Section 2. Effective upon this act becoming a law, section 411.013, Florida Statutes, is created to read:

411.013 School Readiness Allocation Conference; allocation formula for school readiness program funds.—

(1) There is created the School Readiness Allocation Conference. Conference principals shall include professional staff of the Office of Early Learning, the Executive Office of the Governor, and the appropriations committees of the Senate and House of Representatives.

(2)(a) By May 31, 2012, and by January 1 of each year thereafter, the Office of Early Learning shall submit to the School Readiness Allocation Conference a recommended formula for the allocation among the early learning coalitions of the school readiness program funds provided in the General Appropriations Act.

(b) Before any distribution of school readiness program funds, the School Readiness Allocation Conference shall meet to review the recommended allocation formula submitted by the Office of Early Learning. The conference principals shall discuss and agree to all conventions and methods of computation used to calculate the allocation formula for the fiscal year for which the appropriation is made. These conventions and calculation methods shall remain in effect until further agreements are reached in subsequent conferences called by any conference principal for that purpose.

(c) Each fiscal quarter, the Office of Early Learning shall recalculate the allocations for the early learning coalitions using the agreed methodology. The conference principals, upon the request of any conference principal, shall meet to review the quarterly calculation made by the Office of Early Learning. Before each recalculation of the allocation formula, the Office of Early Learning shall provide the conference principals with all data necessary to replicate the allocation precisely. This data must include a matrix by provider type of all eligible child count revisions made by the Office of Early Learning as part of its administration of the school readiness programs.

(3)(a) Notwithstanding the provisions of s. 411.01(10)(e) and (f) which require that the adjusted payment rate percentage, sliding fee scale percentage, parent copayments, and Gold Seal premium percentage be provided in the General Appropriations Act, and for the 2012-2013 fiscal year only, the Office of Early Learning shall, by May 31, 2012, submit recommendations to the School Readiness Allocation Conference for the adjusted payment rate percentage, sliding fee scale percentage, parent copayments, and Gold Seal premium percentage.

(b) The Office of Early Learning shall submit recommendations to the School Readiness Allocation Conference with options for a 3-year phase in of the revised allocation formula. DISCLOSURE

I have an ownership interest in Caregivers, Inc., a company based in Pensacola, Florida. The company provides services to the elderly and the disabled and a minority of its revenues are derived from reimbursements from the Escambia County Council on Aging and the Florida Medicaid program. Because Caregivers, Inc. is among a class of health care providers receiving funds from such state sources, it appears to me that the company may be affected by **HB 5009** which comes before the Senate floor for a vote on March 9, 2012.

Therefore, I believe that, because Caregivers, Inc. is a member of such class, I am required by Senate Rule 1.39 to disclose the above facts.

409.912 Cost-effective purchasing of health care.—The agency shall purchase goods and services for Medicaid recipients in the most cost-effective manner consistent with the delivery of quality medical care. To ensure that medical services are effectively utilized, the agency may, in any case, require a confirmation or second physician's opinion of the correct diagnosis for purposes of authorizing future services under the Medicaid program. This section does not restrict access to emergency services or poststabilization care services as defined in 42 C.F.R. part 438.114. Such confirmation or second opinion shall be rendered in a manner approved by the agency. The agency shall maximize the use of prepaid per capita and prepaid aggregate fixed-sum basis services when appropriate and other alternative service delivery and reimbursement methodologies, including competitive bidding pursuant to s. 287.057, designed to facilitate the cost-effective purchase of a case-managed continuum of care. The agency shall also require providers to minimize the exposure of recipients to the need for acute inpatient, custodial, and other institutional care and the inappropriate or unnecessary use of high-cost services. The agency shall contract with a vendor to monitor and evaluate the clinical practice patterns of providers in order to identify trends that are outside the normal practice patterns of a provider's professional peers or the national guidelines of a provider's professional association. The vendor must be able to provide information and counseling to a provider whose practice patterns are outside the norms, in consultation with the agency, to improve patient care and reduce inappropriate utilization. classes, or particular drugs to prevent fraud, abuse, overuse, and possible dangerous drug interactions. The Pharmaceutical and Therapeutics Committee shall make recommendations to the agency on drugs for which prior authorization is required. The agency shall inform the Pharmaceutical and Therapeutics Committee of its decisions regarding drugs subject to prior authorization. The agency is authorized to limit the entities it contracts with or enrolls as Medicaid providers by developing a provider network through provider credentialing. The agency may competitively bid single-source-provider contracts if procurement of goods or services results in demonstrated cost savings to the state without limiting access to care. The agency may limit its network based on the assessment of beneficiary access to care, provider availability, provider quality standards, time and distance standards for access to care, the cultural competence of the provider network, demographic characteristics of Medicaid beneficiaries, practice and provider-to-beneficiary standards, appointment wait times, beneficiary use of services, provider turnover, provider profiling, provider licensure history, previous program integrity investigations and findings, peer review, provider Medicaid policy and billing compliance records, clinical and medical record audits, and other factors. Providers are not entitled to enrollment in the Medicaid provider network. The agency shall determine instances in which allowing Medicaid beneficiaries to purchase durable medical equipment and other goods is less expensive to the Medicaid program than long-term rental of the equipment or goods. The agency may establish rules to facilitate purchases in lieu of long-term rentals in order to protect against fraud and abuse in the Medicaid program as defined in s. 409.913. The agency may seek federal waivers necessary to administer these policies.

(41)(a) The agency shall contract on a prepaid or fixed-sum basis with appropriately licensed prepaid dental health plans to provide dental services. This ~~paragraph subsection~~ expires October 1, 2014.

(b) Notwithstanding paragraph (a) and for the 2012-2013 fiscal year only, the agency is authorized to provide a Medicaid prepaid dental health program in Miami-Dade County. For all other counties, the agency may not limit dental services to prepaid plans and must allow qualified dental providers to provide dental services under Medicaid on a fee-for-service reimbursement methodology. The agency may seek any necessary revisions or amendments to the state plan or federal waivers in order to implement this paragraph. The agency shall terminate existing contracts as needed to implement this paragraph. This paragraph expires July 1, 2013.

DISCLOSURE

I have an ownership interest in Caregivers, Inc., a company based in Pensacola, Florida. The company provides services to the elderly and the disabled and a minority of its revenues are derived from reimbursements from the Escambia County Council on Aging and the Florida Medicaid program. Because Caregivers, Inc. is among a class of health care providers receiving funds from such state sources, it appears to me that the

company may be affected by **HB 5003** which comes before the Senate floor for a vote on March 9, 2012.

Therefore, I believe that, because Caregivers, Inc. is a member of such class, I am required by Senate Rule 1.39 to disclose the above facts.

Senator Don Gaetz, 4th District

The Honorable Mike Haridopolos, President

I am directed to inform the Senate that the House of Representatives has accepted the Conference Committee Report as an entirety and passed HB 5301, as amended by the Conference Committee Report.

The Conference Committee Amendment for, HB 5301, provides for the following:

- Removes the prohibition against subsidized Kidcare coverage for children of public employees who are eligible for state group health insurance, thereby allowing children of public employees to enroll in subsidized Kidcare if they meet the program's eligibility requirements.
- Directs the Department of Children and Families (DCF) and the Agency for Health Care Administration (AHCA), subject to an appropriation, to develop a new system of eligibility for Medicaid and Kidcare, consistent with requirements of federal and state laws.
- Limits Medicaid payment for hospital emergency room services for non-pregnant adults to 6 visits per year.
- Changes the statutory deadline for Medicaid hospital rates to be adjusted within any fiscal year from September 30 to October 31. Allows rate reductions beyond the deadline only in cases of insufficient collections of funds voluntarily donated by local taxing authorities designed to augment hospital rates.
- Revises the timeline and parameters for AHCA to develop a plan to transfer the state's hospital payments to a diagnosis related group (DRG) system, with a target implementation date of July 1, 2013, subject to Legislative approval.
- Updates statutes relating to the disproportionate share hospital (DSH) program so the program uses the proper data to calculate the distribution of dollars. Also repeals two sections of statute for two perennially unfunded DSH programs.
- Revises the methodology for determining a county's eligible recipients for the purpose of county contributions to Medicaid and revises the methodology of collecting those funds.

□For past due billings, a county may pay 85 percent of the amount due over the next five years. In the alternative, a county may choose to be subject to 100 percent of the past due amount but can make a claim before the Division of Administrative Hearings to have the amount reduced if the county believes the amount billed is incorrect.

□For prospective billings, the state each month will withhold from a county's distribution of funds from the local government half-cent sales tax an amount equal to the county's required contribution to Medicaid for that month. If a county believes the state has withheld too much due to errors in the state's Medicaid eligibility system data base, the county may request a refund based on reasons submitted with the request.

□The bill also requires AHCA and DCF to create a system for hospitals and nursing homes to assist the state in making any needed updates in the Medicaid data base for Medicaid recipients' county of residence when recipients are admitted. Section 1. Section 383.15, Florida Statutes, is amended to read:

383.15 Legislative intent; perinatal intensive care services.—The Legislature finds ~~and declares~~ that many perinatal diseases and disabilities have debilitating, costly, and often fatal consequences if left untreated. Therefore, it is the intent of the Legislature to develop a regional perinatal intensive care centers program. The Legislature further intends that development of ~~such a regional perinatal intensive care centers program shall~~ not reduce or dilute the current financial commitment of the state, as indicated through appropriation, to the existing regional perinatal intensive care centers. It is ~~also~~ the intent of the Legislature that any additional ~~centers regional perinatal intensive care center~~ authorized under s. 383.19 after July 1, 1993, ~~shall not receive payments under a disproportionate share program for regional perinatal intensive care centers authorized under chapter 409 s. 409.9112~~ unless specific appropriations are provided to expand such payments to additional hospitals.

Section 5. Subsection (5) of section 409.905, Florida Statutes, is amended to read:

409.905 Mandatory Medicaid services.—The agency may make payments for the following services, which are required of the state by Title XIX of the Social Security Act, furnished by Medicaid providers to recipients who are determined to be eligible on the dates on which the services were provided. Any service under this section shall be provided only when medically necessary and in accordance with state and federal law. Mandatory services rendered by providers in mobile units to Medicaid recipients may be restricted by the agency. Nothing in this section shall be construed to prevent or limit the agency from adjusting fees, reimbursement rates, lengths of stay, number of visits, number of services, or any other adjustments necessary to comply with the availability of moneys and any limitations or directions provided for in the General Appropriations Act or chapter 216.

(5) HOSPITAL INPATIENT SERVICES.—The agency shall pay for all covered services provided for the medical care and treatment of a recipient who is admitted as an inpatient by a licensed physician or dentist to a hospital licensed under part I of chapter 395. However, the agency shall limit the payment for inpatient hospital services for a Medicaid recipient 21 years of age or older to 45 days or the number of days necessary to comply with the General Appropriations Act. *Effective August 1, 2012, the agency shall limit payment for hospital emergency department visits for a nonpregnant Medicaid recipient 21 years of age or older to six visits per fiscal year.*

(a) The agency ~~may~~ ~~is authorized to~~ implement reimbursement and utilization management reforms in order to comply with any limitations or directions in the General Appropriations Act, which may include, but are not limited to: prior authorization for inpatient psychiatric days; prior authorization for nonemergency hospital inpatient admissions for individuals 21 years of age and older; authorization of emergency and urgent-care admissions within 24 hours after admission; enhanced utilization and concurrent review programs for highly utilized services; reduction or elimination of covered days of service; adjusting reimbursement ceilings for variable costs; adjusting reimbursement ceilings for fixed and property costs; and implementing target rates of increase. The agency may limit prior authorization for hospital inpatient services to selected diagnosis-related groups, based on an analysis of the cost and potential for unnecessary hospitalizations represented by certain diagnoses. Admissions for normal delivery and newborns are exempt from requirements for prior authorization. In implementing the provisions of this section related to prior authorization, the agency shall ensure that the process for authorization is accessible 24 hours per day, 7 days per week and authorization is automatically granted when not denied within 4 hours after the request. Authorization procedures must include steps for review of denials. Upon implementing the prior authorization program for hospital inpatient services, the agency shall discontinue its hospital retrospective review program.

(b) A licensed hospital maintained primarily for the care and treatment of patients having mental disorders or mental diseases is not eligible to participate in the hospital inpatient portion of the Medicaid program except as provided in federal law. However, the department shall apply for a waiver, within 9 months after June 5, 1991, designed to

provide hospitalization services for mental health reasons to children and adults in the most cost-effective and lowest cost setting possible. Such waiver shall include a request for the opportunity to pay for care in hospitals known under federal law as “institutions for mental disease” or “IMD’s.” The waiver proposal shall propose no additional aggregate cost to the state or Federal Government, and shall be conducted in Hillsborough County, Highlands County, Hardee County, Manatee County, and Polk County. The waiver proposal may incorporate competitive bidding for hospital services, comprehensive brokering, prepaid capitated arrangements, or other mechanisms deemed by the department to show promise in reducing the cost of acute care and increasing the effectiveness of preventive care. When developing the waiver proposal, the department shall take into account price, quality, accessibility, linkages of the hospital to community services and family support programs, plans of the hospital to ensure the earliest discharge possible, and the comprehensiveness of the mental health and other health care services offered by participating providers.

(c) The agency shall implement a methodology for establishing base reimbursement rates for each hospital based on allowable costs, as defined by the agency. Rates shall be calculated annually and take effect July 1 of each year based on the most recent complete and accurate cost report submitted by each hospital.

1. Adjustments may not be made to the rates after ~~October 31~~ ~~September 30~~ of the state fiscal year in which the ~~rates take~~ ~~rate takes~~ effect, except for cases of insufficient collections of intergovernmental transfers authorized under s. 409.908(1) or the General Appropriations Act. In such cases, the agency shall submit a budget amendment or amendments under chapter 216 requesting approval of rate reductions by amounts necessary for the aggregate reduction to equal the dollar amount of intergovernmental transfers not collected and the corresponding federal match. Notwithstanding the \$1 million limitation on increases to an approved operating budget contained in ss. 216.181(11) and 216.292(3), a budget amendment exceeding that dollar amount is subject to notice and objection procedures set forth in s. 216.177.

2. Errors in cost reporting or calculation of rates discovered after ~~October 31~~ ~~September 30~~ must be reconciled in a subsequent rate period. The agency may not make any adjustment to a hospital’s reimbursement rate more than 5 years after a hospital is notified of an audited rate established by the agency. The requirement that the agency may not make any adjustment to a hospital’s reimbursement rate more than 5 years after a hospital is notified of an audited rate established by the agency is remedial and ~~applies shall apply~~ to actions by providers involving Medicaid claims for hospital services. Hospital rates ~~are shall be~~ subject to such limits or ceilings as may be established in law or described in the agency’s hospital reimbursement plan. Specific exemptions to the limits or ceilings may be provided in the General Appropriations Act.

(d) The agency shall implement a comprehensive utilization management program for hospital neonatal intensive care stays in certain high-volume participating hospitals, select counties, or statewide, and replace existing hospital inpatient utilization management programs for neonatal intensive care admissions. The program shall be designed to manage the lengths of stay for children being treated in neonatal intensive care units and must seek the earliest medically appropriate discharge to the child’s home or other less costly treatment setting. The agency may competitively bid a contract for the selection of a qualified organization to provide neonatal intensive care utilization management services. The agency may seek federal waivers to implement this initiative.

(e) The agency may develop and implement a program to reduce the number of hospital readmissions among the non-Medicare population eligible in areas 9, 10, and 11.

(f) The agency shall develop a plan to convert *Medicaid* inpatient hospital rates to a prospective payment system that categorizes each case into diagnosis-related groups (DRG) and assigns a payment weight based on the average resources used to treat Medicaid patients in that DRG. To the extent possible, the agency shall propose an adaptation of an existing prospective payment system, such as the one used by Medicare, and shall propose such adjustments as are necessary for the Medicaid population and to maintain budget neutrality for inpatient hospital expenditures.

1. *The plan must:*

a. *Define and describe DRGs for inpatient hospital care specific to Medicaid in this state;*

b. *Determine the use of resources needed for each DRG;*

c. *Apply current statewide levels of funding to DRGs based on the associated resource value of DRGs. Current statewide funding levels shall be calculated both with and without the use of intergovernmental transfers;*

d. *Calculate the current number of services provided in the Medicaid program based on DRGs defined under this subparagraph;*

e. *Estimate the number of cases in each DRG for future years based on agency data and the official workload estimates of the Social Services Estimating Conference;*

f. *Calculate the expected total Medicaid payments in the current year for each hospital with a Medicaid provider agreement, based on the DRGs and estimated workload;*

g. *Propose supplemental DRG payments to augment hospital reimbursements based on patient acuity and individual hospital characteristics, including classification as a children’s hospital, rural hospital, trauma center, burn unit, and other characteristics that could warrant higher reimbursements, while maintaining budget neutrality; and*

h. *Estimate potential funding for each hospital with a Medicaid provider agreement for DRGs defined pursuant to this subparagraph and supplemental DRG payments using current funding levels, calculated both with and without the use of intergovernmental transfers.*

2. *The agency shall engage a consultant with expertise and experience in the implementation of DRG systems for hospital reimbursement to develop the DRG plan under subparagraph 1.*

3. *The agency shall submit the Medicaid DRG plan, identifying all steps necessary for the transition and any costs associated with plan implementation, to the Governor, the President of the Senate, and the Speaker of the House of Representatives no later than January 1, 2013. The plan shall include a timeline necessary to complete full implementation by July 1, 2013. If, during implementation of this paragraph, the agency determines that these timeframes might not be achievable, the agency shall report to the Legislative Budget Commission the status of its implementation efforts, the reasons the timeframes might not be achievable, and proposals for new timeframes.*

Section 6. Paragraph (c) of subsection (1) of section 409.908, Florida Statutes, is amended to read:

409.908 Reimbursement of Medicaid providers.—Subject to specific appropriations, the agency shall reimburse Medicaid providers, in accordance with state and federal law, according to methodologies set forth in the rules of the agency and in policy manuals and handbooks incorporated by reference therein. These methodologies may include fee schedules, reimbursement methods based on cost reporting, negotiated fees, competitive bidding pursuant to s. 287.057, and other mechanisms the agency considers efficient and effective for purchasing services or goods on behalf of recipients. If a provider is reimbursed based on cost reporting and submits a cost report late and that cost report would have been used to set a lower reimbursement rate for a rate semester, then the provider’s rate for that semester shall be retroactively calculated using the new cost report, and full payment at the recalculated rate shall be effected retroactively. Medicare-granted extensions for filing cost reports, if applicable, shall also apply to Medicaid cost reports. Payment for Medicaid compensable services made on behalf of Medicaid eligible persons is subject to the availability of moneys and any limitations or directions provided for in the General Appropriations Act or chapter 216. Further, nothing in this section shall be construed to prevent or limit the agency from adjusting fees, reimbursement rates, lengths of stay, number of visits, or number of services, or making any other adjustments necessary to comply with the availability of moneys and any limitations or directions provided for in the General Appropriations Act, provided the adjustment is consistent with legislative intent.

(1) Reimbursement to hospitals licensed under part I of chapter 395 must be made prospectively or on the basis of negotiation.

(c) Hospitals that provide services to a disproportionate share of low-income Medicaid recipients, or that participate in the regional perinatal intensive care center program under chapter 383, or that participate in the statutory teaching hospital disproportionate share program may receive additional reimbursement. The total amount of payment for disproportionate share hospitals shall be fixed by the General Appropriations Act. The computation of these payments must be made in compliance with all federal regulations and the methodologies described in ss. 409.911, ~~409.912~~, and 409.913.

Section 7. Subsection (1), paragraph (a) of subsection (2), and paragraph (d) of subsection (4) of section 409.911, Florida Statutes, are amended to read:

409.911 Disproportionate share program.—Subject to specific allocations established within the General Appropriations Act and any limitations established pursuant to chapter 216, the agency shall distribute, pursuant to this section, moneys to hospitals providing a disproportionate share of Medicaid or charity care services by making quarterly Medicaid payments as required. Notwithstanding the provisions of s. 409.915, counties are exempt from contributing toward the cost of this special reimbursement for hospitals serving a disproportionate share of low-income patients.

(1) DEFINITIONS.—As used in this section, ~~s. 409.912~~, and the Florida Hospital Uniform Reporting System manual:

(a) “Adjusted patient days” means the sum of acute care patient days and intensive care patient days as reported to the Agency for Health Care Administration, divided by the ratio of inpatient revenues generated from acute, intensive, ambulatory, and ancillary patient services to gross revenues.

(b) “Actual audited data” or “actual audited experience” means data reported to the Agency for Health Care Administration which has been audited in accordance with generally accepted auditing standards by the agency or representatives under contract with the agency.

(c) “Charity care” or “uncompensated charity care” means that portion of hospital charges reported to the Agency for Health Care Administration for which there is no compensation, other than restricted or unrestricted revenues provided to a hospital by local governments or tax districts regardless of the method of payment, for care provided to a patient whose family income for the 12 months preceding the determination is less than or equal to 200 percent of the federal poverty level, unless the amount of hospital charges due from the patient exceeds 25 percent of the annual family income. However, in no case shall the hospital charges for a patient whose family income exceeds four times the federal poverty level for a family of four be considered charity.

(d) “Charity care days” means the sum of the deductions from revenues for charity care minus 50 percent of restricted and unrestricted revenues provided to a hospital by local governments or tax districts, divided by gross revenues per adjusted patient day.

(e) “Hospital” means a health care institution licensed as a hospital pursuant to chapter 395, but does not include ambulatory surgical centers.

(f) “Medicaid days” means the number of actual days attributable to Medicaid patients as determined by the Agency for Health Care Administration.

(2) The Agency for Health Care Administration shall use the following actual audited data to determine the Medicaid days and charity care to be used in calculating the disproportionate share payment:

(a) The average of the 2004, 2005, and 2006 audited disproportionate share data to determine each hospital’s Medicaid days and charity care for the 2012-2013 ~~2011-2012~~ state fiscal year.

(4) The following formulas shall be used to pay disproportionate share dollars to public hospitals:

(d) Any nonstate government owned or operated hospital eligible for payments under this section on July 1, 2011, remains eligible for payments during the 2012-2013 ~~2011-2012~~ state fiscal year.

Section 8. *Section 409.9112, Florida Statutes, is repealed.*

Section 9. Section 409.9113, Florida Statutes, is amended to read:

409.9113 Disproportionate share program for teaching hospitals.—In addition to the payments made under s. ~~ss. 409.911 and 409.9112~~, the agency shall make disproportionate share payments to teaching hospitals, as defined in s. 408.07, for their increased costs associated with medical education programs and for tertiary health care services provided to the indigent. This system of payments must conform to federal requirements and distribute funds in each fiscal year for which an appropriation is made by making quarterly Medicaid payments. Notwithstanding s. 409.915, counties are exempt from contributing toward the cost of this special reimbursement for hospitals serving a disproportionate share of low-income patients. ~~For the 2011-2012 state fiscal year,~~ The agency shall distribute the moneys provided in the General Appropriations Act to statutorily defined teaching hospitals and family practice teaching hospitals, as defined in s. 395.805, pursuant to this section. The funds provided for statutorily defined teaching hospitals shall be distributed as provided in the General Appropriations Act. The funds provided for family practice teaching hospitals shall be distributed equally among family practice teaching hospitals.

(1) On or before September 15 of each year, the agency shall calculate an allocation fraction to be used for distributing funds to statutory teaching hospitals. Subsequent to the end of each quarter of the state fiscal year, the agency shall distribute to each statutory teaching hospital an amount determined by multiplying one-fourth of the funds appropriated for this purpose by the Legislature times such hospital’s allocation fraction. The allocation fraction for each such hospital shall be determined by the sum of the following three primary factors, divided by three:

(a) The number of nationally accredited graduate medical education programs offered by the hospital, including programs accredited by the Accreditation Council for Graduate Medical Education or programs accredited by the Council on Postdoctoral Training of the American Osteopathic Association and the combined Internal Medicine and Pediatrics programs acceptable to both the American Board of Internal Medicine and the American Board of Pediatrics at the beginning of the state fiscal year preceding the date on which the allocation fraction is calculated. The numerical value of this factor is the fraction that the hospital represents of the total number of programs, where the total is computed for all statutory teaching hospitals.

(b) The number of full-time equivalent trainees in the hospital, which comprises two components:

1. The number of trainees enrolled in nationally accredited graduate medical education programs, as defined in paragraph (a). Full-time equivalents are computed using the fraction of the year during which each trainee is primarily assigned to the given institution, over the state fiscal year preceding the date on which the allocation fraction is calculated. The numerical value of this factor is the fraction that the hospital represents of the total number of full-time equivalent trainees enrolled in accredited graduate programs, where the total is computed for all statutory teaching hospitals.

2. The number of medical students enrolled in accredited colleges of medicine and engaged in clinical activities, including required clinical clerkships and clinical electives. Full-time equivalents are computed using the fraction of the year during which each trainee is primarily assigned to the given institution, over the course of the state fiscal year preceding the date on which the allocation fraction is calculated. The numerical value of this factor is the fraction that the given hospital represents of the total number of full-time equivalent students enrolled in accredited colleges of medicine, where the total is computed for all statutory teaching hospitals.

The primary factor for full-time equivalent trainees is computed as the sum of these two components, divided by two.

(c) A service index that comprises three components:

1. The Agency for Health Care Administration Service Index, computed by applying the standard Service Inventory Scores established by the agency to services offered by the given hospital, as reported on Worksheet A-2 for the last fiscal year reported to the agency before the date on which the allocation fraction is calculated. The numerical value of this factor is the fraction that the given hospital represents of the total index values, where the total is computed for all statutory teaching hospitals.

2. A volume-weighted service index, computed by applying the standard Service Inventory Scores established by the agency to the volume of each service, expressed in terms of the standard units of measure reported on Worksheet A-2 for the last fiscal year reported to the agency before the date on which the allocation factor is calculated. The numerical value of this factor is the fraction that the given hospital represents of the total volume-weighted service index values, where the total is computed for all statutory teaching hospitals.

3. Total Medicaid payments to each hospital for direct inpatient and outpatient services during the fiscal year preceding the date on which the allocation factor is calculated. This includes payments made to each hospital for such services by Medicaid prepaid health plans, whether the plan was administered by the hospital or not. The numerical value of this factor is the fraction that each hospital represents of the total of such Medicaid payments, where the total is computed for all statutory teaching hospitals.

The primary factor for the service index is computed as the sum of these three components, divided by three.

(2) By October 1 of each year, the agency shall use the following formula to calculate the maximum additional disproportionate share payment for statutory teaching hospitals:

$$TAP = THAF \times A$$

Where:

TAP = total additional payment.

THAF = teaching hospital allocation factor.

A = amount appropriated for a teaching hospital disproportionate share program.

Section 10. *Section 409.9117, Florida Statutes, is repealed.*

Section 11. Paragraph (1) of subsection (2) of section 409.9122, Florida Statutes, is amended to read:

409.9122 Mandatory Medicaid managed care enrollment; programs and procedures.—

(2)

(1) If the Medicaid recipient is diagnosed with HIV/AIDS and resides in Broward County, Miami Dade County, or Palm Beach County, the agency shall assign the Medicaid recipient to a managed care plan that is a health maintenance organization authorized under chapter 641, is under contract with the agency on July 1, 2011, and which offers a delivery system through a university-based teaching and research-oriented organization that specializes in providing health care services and treatment for individuals diagnosed with HIV/AIDS.

This subsection expires October 1, 2014.

Section 12. Effective upon this act becoming a law, subsections (4), (5), and (6) of section 409.915, Florida Statutes, are amended, present subsection (7) is renumbered as subsection (6), and new subsections (7) through (12) are added to that section, to read:

409.915 County contributions to Medicaid.—Although the state is responsible for the full portion of the state share of the matching funds required for the Medicaid program, in order to acquire a certain portion of these funds, the state shall charge the counties for certain items of care and service as provided in this section.

(4) Each county shall contribute pay into the General Revenue Fund, unallocated, its pro rata share of the total county participation based

upon statements rendered by the agency ~~in consultation with the counties.~~ *The agency shall render such statements monthly based on each county's eligible recipients. For purposes of this section, each county's eligible recipients shall be determined by the recipient's address information contained in the federally approved Medicaid eligibility system within the Department of Children and Family Services. A county may use the process developed under subsection (10) to request a refund if it determines that the statement rendered by the agency contains errors.*

~~(5) The Department of Financial Services shall withhold from the cigarette tax receipts or any other funds to be distributed to the counties the individual county share that has not been remitted within 60 days after billing.~~

(5)(6) In any county in which a special taxing district or authority is located which will benefit from the medical assistance programs covered by this section, the board of county commissioners may divide the county's financial responsibility for this purpose proportionately, and each such district or authority must furnish its share to the board of county commissioners in time for the board to comply with the provisions of subsection (3). Any appeal of the proration made by the board of county commissioners must be made to the Department of Financial Services, which shall then set the proportionate share of each party.

(6)(7) Counties are exempt from contributing toward the cost of new exemptions on inpatient ceilings for statutory teaching hospitals, specialty hospitals, and community hospital education program hospitals that came into effect July 1, 2000, and for special Medicaid payments that came into effect on or after July 1, 2000.

(7)(a) *By August 1, 2012, the agency shall certify to each county the amount of such county's billings from November 1, 2001, through April 30, 2012, which remain unpaid. A county may contest the amount certified by filing a petition under the applicable provisions of chapter 120 on or before September 1, 2012. This procedure is the exclusive method to challenge the amount certified. In order to successfully challenge the amount certified, a county must show, by a preponderance of the evidence, that a recipient was not an eligible recipient of that county or that the amount certified was otherwise in error.*

(b) *By September 15, 2012, the agency shall certify to the Department of Revenue:*

1. *For each county that files a petition on or before September 1, 2012, the amount certified under paragraph (a); and*

2. *For each county that does not file a petition on or before September 1, 2012, an amount equal to 85 percent of the amount certified under paragraph (a).*

(c) *The filing of a petition under paragraph (a) shall not stay or stop the Department of Revenue from reducing distributions in accordance with paragraph (b) and subsection (8). If a county that files a petition under paragraph (a) is able to demonstrate that the amount certified should be reduced, the agency shall notify the Department of Revenue of the amount of the reduction. The Department of Revenue shall adjust all future monthly distribution reductions under subsection (8) in a manner that results in the remaining total distribution reduction being applied in equal monthly amounts.*

(8)(a) *Beginning with the October 2012 distribution, the Department of Revenue shall reduce each county's distributions pursuant to s. 218.26 by one thirty-sixth of the amount certified by the agency under subsection (7) for that county, minus any amount required under paragraph (b). Beginning with the October 2013 distribution, the Department of Revenue shall reduce each county's distributions pursuant to s. 218.26 by one forty-eighth of two-thirds of the amount certified by the agency under subsection (7) for that county, minus any amount required under paragraph (b). However, the amount of the reduction may not exceed 50 percent of each county's distribution. If, after 60 months, the reductions for any county do not equal the total amount initially certified by the agency, the Department of Revenue shall continue to reduce such county's distribution by up to 50 percent until the total amount certified is reached. The amounts by which the distributions are reduced shall be transferred to the General Revenue Fund.*

(b) *As an assurance to holders of bonds issued before the effective date of this act to which distributions made pursuant to s. 218.26 are pledged,*

or bonds issued to refund such bonds which mature no later than the bonds they refunded and which result in a reduction of debt service payable in each fiscal year, the amount available for distribution to a county shall remain as provided by law and continue to be subject to any lien or claim on behalf of the bondholders. The Department of Revenue must ensure, based on information provided by an affected county, that any reduction in amounts distributed pursuant to paragraph (a) does not reduce the amount of distribution to a county below the amount necessary for the timely payment of principal and interest when due on the bonds and the amount necessary to comply with any covenant under the bond resolution or other documents relating to the issuance of the bonds. If a reduction to a county's monthly distribution must be decreased in order to comply with this paragraph, the Department of Revenue must notify the agency of the amount of the decrease and the agency must send a bill for payment of such amount to the affected county.

(9)(a) Beginning May 1, 2012, and each month thereafter, the agency shall certify to the Department of Revenue by the 7th day of each month the amount of the monthly statement rendered to each county pursuant to subsection (4). Beginning with the May 2012 distribution, the Department of Revenue shall reduce each county's monthly distribution pursuant to s. 218.61 by the amount certified by the agency minus any amount required under paragraph (b). The amounts by which the distributions are reduced shall be transferred to the General Revenue Fund.

(b) As an assurance to holders of bonds issued before the effective date of this act to which distributions made pursuant to s. 218.61 are pledged, or bonds issued to refund such bonds which mature no later than the bonds they refunded and which result in a reduction of debt service payable in each fiscal year, the amount available for distribution to a county shall remain as provided by law and continue to be subject to any lien or claim on behalf of the bondholders. The Department of Revenue must ensure, based on information provided by an affected county, that any reduction in amounts distributed pursuant to paragraph (a) does not reduce the amount of distribution to a county below the amount necessary for the timely payment of principal and interest when due on the bonds and the amount necessary to comply with any covenant under the bond resolution or other documents relating to the issuance of the bonds. If a reduction to a county's monthly distribution must be decreased in order to comply with this paragraph, the Department of Revenue must notify the agency of the amount of the decrease and the agency must send a bill for payment of such amount to the affected county.

(10) The agency, in consultation with the Department of Revenue and the Florida Association of Counties, shall develop a process for refund requests which:

(a) Allows counties to submit to the agency written requests for refunds of any amounts by which the distributions were reduced as provided in subsection (9) and which set forth the reasons for the refund requests.

(b) Requires the agency to make a determination as to whether a refund request is appropriate and should be approved, in which case the agency shall certify the amount of the refund to the department.

(c) Requires the department to issue the refund for the certified amount to the county from the General Revenue Fund. The Department of Revenue may issue the refund in the form of a credit against reductions to be applied to subsequent monthly distributions.

(11) Beginning in the 2013-2014 fiscal year and each year thereafter through the 2020-2021 fiscal year, the Chief Financial Officer shall transfer from the General Revenue Fund to the Lawton Chiles Endowment Fund an amount equal to the amounts transferred to the General Revenue Fund in the previous fiscal year pursuant to subsections (8) and (9), reduced by the amount of refunds paid pursuant to subsection (10), which are in excess of the official estimate for medical hospital fees for such previous fiscal year adopted by the Revenue Estimating Conference on January 12, 2012, as reflected in the conference's workpapers. By July 20 of each year, the Office of Economic and Demographic Research shall certify the amount to be transferred to the Chief Financial Officer. Such transfers must be made before July 31 of each year until the total transfers for all years equal \$350 million. In the event that such transfers do not total \$350 million by July 1, 2021, the Legislature shall provide for the transfer of amounts necessary to total \$350 million. The Office of Economic and Demographic Research shall publish the official estimates reflected in the conference's workpapers on its website.

(12) The agency may adopt rules to administer this section.

Section 13. The Agency for Health Care Administration and the Department of Children and Family Services, in consultation with hospitals and nursing homes that serve Medicaid recipients, shall develop a process to update a recipient's address in the Medicaid eligibility system at the time a recipient is admitted to a hospital or nursing home. If a recipient's address information in the Medicaid eligibility system needs to be updated, the update shall be completed within 10 days after the recipient's admission to a hospital or nursing home.

DISCLOSURE

I have an ownership interest in Caregivers, Inc., a company based in Pensacola, Florida. The company provides services to the elderly and the disabled and a minority of its revenues are derived from reimbursements from the Escambia County Council on Aging and the Florida Medicaid program. Because Caregivers, Inc. is among a class of health care providers receiving funds from such state sources, it appears to me that the company may be affected by **HB 5301** which comes before the Senate floor for a vote on March 9, 2012.

Therefore, I believe that, because Caregivers, Inc. is a member of such class, I am required by Senate Rule 1.39 to disclose the above facts.

Senator Don Gaetz, 4th District

311.101 *Intermodal Logistics Center Infrastructure Support Program.*—

(1) There is created within the Department of Transportation the Intermodal Logistics Center Infrastructure Support Program. The purpose of the program is to provide funds for roads, rail facilities, or other means for the conveyance or shipment of goods through a seaport, thereby enabling the state to respond to private sector market demands and meet the state's economic development goal of becoming a hub for trade, logistics, and export-oriented activities. - (d) The extent to which the project efficiently interacts with and supports the transportation network.
- (e) A commitment of a funding match.
- (f) The amount of investment or commitments made by the owner or developer of the existing or proposed facility.
- (g) The extent to which the owner has commitments, including memorandums of understanding or memorandums of agreements, with

Offsite stormwater treatment may occur outside of the established boundaries of the port, but must be within the same drainage basin in which the port activity occurs. A port offsite stormwater treatment project must be constructed and maintained by the seaport or by the seaport in conjunction with an adjacent local government. In order to limit stormwater treatment from individual parcels within a port, a seaport may provide for a regional stormwater treatment facility that must be constructed and maintained by the seaport or by the seaport in conjunction with an adjacent local government.

This plan shall be consistent with the goals of the Florida Transportation Plan developed pursuant to s. 339.155 and shall consider needs identified in individual port master plans and those from the seaport strategic plans required under this section. The plan will identify 5-year, 10-year, and 20-year needs for the seaport system and will include seaport, waterway, road, and rail projects that are needed to ensure the success of the transportation system as a whole in supporting state economic development goals. ~~The Florida Seaport Transportation and Economic Development Council, in cooperation with the Office of the State Public Transportation Administrator within the Department of Transportation, shall develop freight mobility and trade corridor plans to assist in making freight mobility investments that contribute to the economic growth of the state. Such plans should enhance the integration and connectivity of the transportation system across and between transportation modes throughout Florida for people and freight.~~

~~(2) The Office of the State Public Transportation Administrator shall act to integrate freight mobility and trade corridor plans into the Florida Transportation Plan developed pursuant to s. 339.155 and into the plans and programs of metropolitan planning organizations as provided in s. 339.175. The Department of Transportation may contract, as provided in s. 334.044, with any port listed in s. 311.09(1) or any such other statutorily authorized seaport entity to act as an agent in the construction of seaport freight mobility projects.~~

(2)(a) Each port shall develop a strategic plan with a 10-year horizon. Each plan must include the following:

(a) An economic development component that identifies targeted business opportunities for increasing business and attracting new business for which a particular facility has a strategic advantage over its competitors, identifies financial resources and other inducements to encourage growth of existing business and acquisition of new business, and provides a projected schedule for attainment of the plan's goals.

(b) An infrastructure development and improvement component that identifies all projected infrastructure improvements within the plan area which require improvement, expansion, or development in order for a port to attain a strategic advantage for competition with national and international competitors.

(c) A component that identifies all intermodal transportation facilities, including sea, air, rail, or road facilities, which are available or have potential, with improvements, to be available for necessary national and international commercial linkages and provides a plan for the integration of port, airport, and railroad activities with existing and planned transportation infrastructure.

(d) A component that identifies physical, environmental, and regulatory barriers to achievement of the plan's goals and provides recommendations for overcoming those barriers.

(e) An intergovernmental coordination component that specifies modes and methods to coordinate plan goals and missions with the missions of the Department of Transportation, other state agencies, and affected local, general-purpose governments.

To the extent feasible, the port strategic plan must be consistent with the local government comprehensive plans of the units of local government in which the port is located. Upon approval of a plan by the port's board, the plan shall be submitted to the Florida Seaport Transportation and Economic Development Council.

(3)(4) The Florida Seaport Transportation and Economic Development Council shall review the strategic plans submitted by each port and prioritize strategic needs for inclusion in the Florida Seaport Mission Plan prepared pursuant to s. 311.09(3).

Appropriate traffic signs or dynamic lane control signals shall be erected along those portions of the facility affected to give notice to the public of the action to be taken, clearly indicating when the shoulder is open to designated vehicular traffic. This section may not be deemed to authorize such designation in violation of any federal law or any covenant established in a resolution or trust indenture relating to the issuance of turnpike bonds, expressway authority bonds, or other bonds.*

(6) *The Department of Transportation shall establish a 2-year pilot program, in three separate urban areas, in which it shall erect signs and designate marked bicycle lanes indicating highway approaches and bridge segments of limited access highways as open to use by operators of bicycles and other human-powered vehicles, under the following conditions:*

Section 19. Paragraph (a) of subsection (3) and paragraphs (a) and (c) of subsection (5) of section 316.515, Florida Statutes, are amended to read:

316.515 Maximum width, height, length.—

(3) LENGTH LIMITATION.—Except as otherwise provided in this section, length limitations apply solely to a semitrailer or trailer, and not to a truck tractor or to the overall length of a combination of vehicles. No combination of commercial motor vehicles coupled together and operating on the public roads may consist of more than one truck tractor and two trailing units. Unless otherwise specifically provided for in this section, a combination of vehicles not qualifying as commercial motor vehicles may consist of no more than two units coupled together; such nonqualifying combination of vehicles may not exceed a total length of 65 feet, inclusive of the load carried thereon, but exclusive of safety and energy conservation devices approved by the department for use on vehicles using public roads. Notwithstanding any other provision of this section, a truck tractor-semitrailer combination engaged in the transportation of automobiles or boats may transport motor vehicles or boats on part of the power unit; and, except as may otherwise be mandated under federal law, an automobile or boat transporter semitrailer may not exceed 50 feet in length, exclusive of the load; however, the load may extend up to an additional 6 feet beyond the rear of the trailer. The 50-foot length limitation does not apply to non-stinger-steered automobile or boat transporters that are 65 feet or less in overall length, exclusive of the load carried thereon, or to stinger-steered automobile or boat transporters that are 75 feet or less in overall length, exclusive of the load carried thereon. For purposes of this subsection, a “stinger-steered automobile or boat transporter” is an automobile or boat transporter configured as a semitrailer combination wherein the fifth wheel is located on a drop frame located behind and below the rearmost axle of the power unit. Notwithstanding paragraphs (a) and (b), any straight truck or truck tractor-semitrailer combination engaged in the transportation of horticultural trees may allow the load to extend up to an additional 10 feet beyond the rear of the vehicle, provided said trees are resting against a retaining bar mounted above the truck bed so that the root balls of the trees rest on the floor and to the front of the truck bed and the tops of the trees extend up over and to the rear of the truck bed, and provided the overhanging portion of the load is covered with protective fabric.

(a) *Straight trucks.*—A ~~no~~ straight truck may *not* exceed a length of 40 feet in extreme overall dimension, exclusive of safety and energy conservation devices approved by the department for use on vehicles using public roads. A straight truck may tow no more than one trailer, and the overall length of the truck-trailer combination may not exceed 68 feet ~~such trailer may not exceed a length of 28 feet. However, such trailer limitation does not apply if the overall length of the truck-trailer combination is 65 feet or less,~~ including the load thereon. Notwithstanding any other provisions of this section, a truck-trailer combination engaged in the transportation of boats, or boat trailers whose design dictates a front-to-rear stacking method may ~~shall~~ not exceed the length limitations of this paragraph exclusive of the load; however, the load may extend up to an additional 6 feet beyond the rear of the trailer.

(5) IMPLEMENTS OF HUSBANDRY AND FARM EQUIPMENT; AGRICULTURAL TRAILERS; FORESTRY EQUIPMENT; SAFETY REQUIREMENTS.—

(a) Notwithstanding any other provisions of law, straight trucks, agricultural tractors, *citrus harvesting equipment, citrus fruit loaders,* and cotton module movers, not exceeding 50 feet in length, or any combination of up to and including three implements of husbandry, including the towing power unit, and any single agricultural trailer with a load thereon or any agricultural implements attached to a towing power unit, or a self-propelled agricultural implement or an agricultural tractor, is authorized for the purpose of transporting peanuts, grains, soybeans, *citrus, cotton, hay, straw,* or other perishable farm products from their point of production to the first point of change of custody or of long-term storage, and for the purpose of returning to such point of production, or for the purpose of moving such tractors, movers, and implements from one point of agricultural production to another, by a person engaged in the production of any such product or custom hauler, if such vehicle or combination of vehicles otherwise complies with this section. The Department of Transportation may issue overlength permits for cotton module movers greater than 50 feet but not more than 55 feet in overall length. Such vehicles shall be operated in accordance with all safety requirements prescribed by law and rules of the Department of Transportation.

(c) The width and height limitations of this section do not apply to farming or agricultural equipment, whether self-propelled, pulled, or hauled, when temporarily operated during daylight hours upon a public

road that is not a limited access facility as defined in ~~s. 334.03(12) s. 334.03(13)~~, and the width and height limitations may be exceeded by such equipment without a permit. To be eligible for this exemption, the equipment shall be operated within a radius of 50 miles of the real property owned, rented, or leased by the equipment owner. However, equipment being delivered by a dealer to a purchaser is not subject to the 50-mile limitation. Farming or agricultural equipment greater than 174 inches in width must have one warning lamp mounted on each side of the equipment to denote the width and must have a slow-moving vehicle sign. Warning lamps required by this paragraph must be visible from the front and rear of the vehicle and must be visible from a distance of at least 1,000 feet.

Section 20. Subsection (42) of section 320.01, Florida Statutes, is amended to read:

320.01 Definitions, general.—As used in the Florida Statutes, except as otherwise provided, the term:

On and after July 1, 2012, a municipality or county that authorizes a bench or transit shelter to be installed within the right-of-way limits of any road on the State Highway System must require the qualified private supplier, or any other person under contract to install the bench or transit shelter, to indemnify, defend, and hold harmless the department from any suits, actions, proceedings, claims, losses, costs, charges, expenses, damages, liabilities, attorney fees, and court costs relating to the installation, removal, or relocation of such installations, and shall annually certify to the department in a notarized signed statement that this requirement has been met. The certification shall include the name and address of each person responsible for indemnifying the department for an authorized installation. Municipalities and counties that have authorized the installation of benches or transit shelters within the right-of-way limits of any road on the State Highway System must remove or relocate, or cause the removal or relocation of, the installation at no cost to the department within 60 days after written notice by the department that the installation is unreasonably interfering in any way with the convenient, safe, or continuous use of or the maintenance, improvement, extension, or expansion of the State Highway System road. Any contract for the installation of benches or transit shelters or advertising on benches or transit shelters which was entered into before April 8, 1992, without public bidding is ratified and affirmed. Such benches or transit shelters may not interfere with right-of-way preservation and maintenance. Any bench or transit shelter located on a sidewalk within the right-of-way limits of any road on the State Highway System or the county road system shall be located so as to leave at least 36 inches of clearance for pedestrians and persons in wheelchairs. Such clearance shall be measured in a direction perpendicular to the centerline of the road.*

(4) The department has the authority to direct the immediate relocation or removal of any *bus stop*, bench, transit shelter, waste disposal receptacle, public pay telephone, or modular news rack that endangers life or property or that is otherwise not in compliance with applicable laws and rules, except that transit bus benches that were placed in service before April 1, 1992, are not required to comply with bench size and advertising display size requirements established by the department before March 1, 1992. ~~Any transit bus bench that was in service before April 1, 1992, may be replaced with a bus bench of the same size or smaller, if the bench is damaged or destroyed or otherwise becomes unusable.~~ The department may adopt rules relating to the regulation of bench size and advertising display size requirements. If a municipality or county within which a bench is to be located has adopted an ordinance or other applicable regulation that establishes bench size or advertising display sign requirements different from requirements specified in department rule, the local government requirement applies within the respective municipality or county. Placement of any bench or advertising display on the National Highway System under a local ordinance or regulation adopted under this subsection is subject to approval of the Federal Highway Administration.

(5) A *bus stop*, bench, transit shelter, waste disposal receptacle, public pay telephone, or modular news rack, or advertising thereon, may not be erected or placed on the right-of-way of any road in a manner that conflicts with the requirements of federal law, regulations, or safety standards, thereby causing the state or any political subdivision the loss of federal funds. Competition among persons seeking to provide *bus stop*, bench, transit shelter, waste disposal receptacle, public pay telephone, or modular news rack services or advertising on such benches, shelters, receptacles, public pay telephone, or news racks may be regulated, restricted, or denied by the appropriate local government entity consistent with this section.

Except for high-occupancy vehicle lanes, express lanes, the turnpike system, and as otherwise authorized by law, the department may not establish tolls on lanes of limited access facilities that exist on July 1, 2012, unless tolls were in effect for the lanes prior to that date. Such interlocal agreement shall become effective upon its recordation in the official public records of each county in the regional transportation area.

(e) The regional transportation plan developed pursuant to this section must, at a minimum, identify regionally significant transportation facilities located within a regional transportation area and contain a prioritized list of regionally significant projects. (b) During development of major transportation improvements, such as those increasing the capacity of a facility through the addition of new lanes or providing new access to a limited or controlled access facility or construction of a facility in a new location, the department shall hold one or more hearings prior to the selection of the facility to be provided; prior to the selection of the site or corridor of the proposed facility; and prior to the selection of and commitment to a specific design proposal for the proposed facility. Such public hearings shall be conducted so as to provide an opportunity for effective participation by interested persons in the process of transportation planning and site and route selection and in the specific location and design of transportation facilities. The various factors involved in the decision or decisions and any alternative proposals shall be clearly presented so that the persons attending the hearing may present their views relating to the decision or decisions ~~that~~ which will be made.

b. Those ~~who whom~~ the department determines will be substantially affected environmentally, economically, socially, or safetywise.

2. For each subsequent hearing, the department shall publish notice prior to the hearing date in a newspaper of general circulation for the area affected. These notices must be published twice, with the first notice appearing at least 15 days, but no later than 30 days, before the hearing.

3. A copy of the notice of opportunity for the hearing must be furnished to the United States Department of Transportation and to the appropriate departments of the state government at the time of publication.

Section 55. Paragraph (a) of subsection (2), paragraph (a) of subsection (4), and paragraph (b) of subsection (8) of section 339.175, Florida Statutes, are amended to read:

339.175 Metropolitan planning organization.—

(2) DESIGNATION.—

(a)1. An M.P.O. shall be designated for each urbanized area of the state; however, this does not require that an individual M.P.O. be designated for each such area. Such designation shall be accomplished by agreement between the Governor and units of general-purpose local government representing at least 75 percent of the population of the urbanized area; however, the unit of general-purpose local government that represents the central city or cities within the M.P.O. jurisdiction, as defined by the United States Bureau of the Census, must be a party to such agreement.

2. *To the extent possible, only one M.P.O. shall be designated for each urbanized area or group of contiguous urbanized areas.* More than one M.P.O. may be designated within an existing ~~urbanized metropolitan planning~~ *urbanized metropolitan planning* area only if the Governor and the existing M.P.O. determine that the size and complexity of the existing ~~urbanized metropolitan planning~~ *urbanized metropolitan planning* area makes the designation of more than one M.P.O. for the area appropriate.

Each M.P.O. required under this section must be fully operative no later than 6 months following its designation.

(4) APPORTIONMENT.—

(a) The Governor shall, with the agreement of the affected units of general-purpose local government as required by federal rules and regulations, apportion the membership on the applicable M.P.O. among the various governmental entities within the area. At the request of a majority of the affected units of general-purpose local government comprising an M.P.O., the Governor and a majority of units of general-purpose local government serving on an M.P.O. shall cooperatively agree upon and prescribe who may serve as an alternate member and a method for appointing alternate members who may vote at any M.P.O. meeting that an alternate member attends in place of a regular member. The method shall be set forth as a part of the interlocal agreement describing the M.P.O.'s membership or in the M.P.O.'s operating procedures and bylaws. The governmental entity so designated shall appoint the appropriate number of members to the M.P.O. from eligible officials. Representatives of the department shall serve as nonvoting *advisers to members* of the M.P.O. governing board. *Additional* nonvoting advisers may be appointed by the M.P.O. as deemed necessary; however, to the maximum extent feasible, each M.P.O. shall seek to appoint nonvoting representatives of various multimodal forms of transportation not otherwise represented by voting members of the M.P.O. An M.P.O. shall

appoint nonvoting advisers representing major military installations located within the jurisdictional boundaries of the M.P.O. upon the request of the aforesaid major military installations and subject to the agreement of the M.P.O. All nonvoting advisers may attend and participate fully in governing board meetings but ~~may shall not have a vote or and shall not~~ be members of the governing board. The Governor shall review the composition of the M.P.O. membership in conjunction with the decennial census as prepared by the United States Department of Commerce, Bureau of the Census, and reapportion it as necessary to comply with subsection (3).

(8) TRANSPORTATION IMPROVEMENT PROGRAM.—Each M.P.O. shall, in cooperation with the state and affected public transportation operators, develop a transportation improvement program for the area within the jurisdiction of the M.P.O. In the development of the transportation improvement program, each M.P.O. must provide the public, affected public agencies, representatives of transportation agency employees, freight shippers, providers of freight transportation services, private providers of transportation, representatives of users of public transit, and other interested parties with a reasonable opportunity to comment on the proposed transportation improvement program.

(b) Each M.P.O. annually shall prepare a list of project priorities and shall submit the list to the appropriate district of the department by October 1 of each year; however, the department and a metropolitan planning organization may, in writing, agree to vary this submittal date. *Where more than one M.P.O. exists in an urbanized area, the M.P.O.'s shall coordinate in the development of regionally significant project priorities.* The list of project priorities must be formally reviewed by the technical and citizens' advisory committees, and approved by the M.P.O., before it is transmitted to the district. The approved list of project priorities must be used by the district in developing the district work program and must be used by the M.P.O. in developing its transportation improvement program. The annual list of project priorities must be based upon project selection criteria that, at a minimum, consider the following:

1. The approved M.P.O. long-range transportation plan;
2. The Strategic Intermodal System Plan developed under s. 339.64.
3. The priorities developed pursuant to s. 339.2819(4).

339.65 *Strategic Intermodal System highway corridors.—*

(1) The department shall plan and develop Strategic Intermodal System highway corridors, including limited and controlled access facilities, allowing for high-speed and high-volume traffic movements within the state. The primary function of the corridors is to provide such traffic movements. Access to abutting land is subordinate to this function, and such access must be prohibited or highly regulated.

(2) Strategic Intermodal System highway corridors shall include facilities from the following components of the State Highway System that meet the criteria adopted by the department pursuant to s. 339.63:

(a) Interstate highways.

(b) The Florida Turnpike System.

(d) Existing interregional and intercity arterial highways previously upgraded or upgraded in the future to limited access or controlled access facility standards.

(e) New limited access facilities necessary to complete a balanced statewide system.

(3) The department shall adhere to the following policy guidelines in the development of Strategic Intermodal System highway corridors. The department shall:

(a) Make capacity improvements to existing facilities where feasible to minimize costs and environmental impacts.

(b) Identify appropriate arterial highways in major transportation corridors for inclusion in a program to bring these facilities up to limited access or controlled access facility standards.

(c) Coordinate proposed projects with appropriate limited access projects undertaken by expressway authorities and local governmental entities.

(d) Maximize the use of limited access facility standards when constructing new arterial highways.

(e) Identify appropriate new limited access highways for inclusion as a part of the Florida Turnpike System.

(f) To the maximum extent feasible, ensure that proposed projects are consistent with approved local government comprehensive plans of the local jurisdictions in which such facilities are to be located and with the transportation improvement program of any metropolitan planning organization where such facilities are to be located.

(4) The department shall develop and maintain a plan of Strategic Intermodal System highway corridor projects that are anticipated to be let to contract for construction within a time period of at least 20 years.

The plan shall also identify when segments of the corridor will meet the standards and criteria developed pursuant to subsection (5).

(5) The department shall establish the standards and criteria for the functional characteristics and design of facilities proposed as part of Strategic Intermodal System highway corridors.

(6) For the purposes of developing the proposed Strategic Intermodal System highway corridors, beginning in fiscal year 2012-2013 and for each fiscal year thereafter, the minimum amount allocated shall be based on the fiscal year 2003-2004 allocation of \$450 million adjusted annually by the change in the Consumer Price Index for the prior fiscal year compared to the Consumer Price Index for fiscal year 2003-2004.

(7) Any project to be constructed as part of a Strategic Intermodal System highway corridor shall be included in the department's adopted work program. Section 61. Section 341.840, Florida Statutes, is amended to read:

341.840 Tax exemption.—

(1) The exercise of the powers granted ~~under ss. 341.8201-341.842 by this act~~ will be in all respects for the benefit of the people of this state, for the increase of their commerce, welfare, and prosperity, and for the improvement of their health and living conditions. The design, construction, operation, maintenance, and financing of a high-speed rail system by the ~~enterprise authority~~, its agent, or the owner or lessee thereof, as herein authorized, constitutes the performance of an essential public function.

(2)(a) For the purposes of this section, the term "~~enterprise authority~~" does not include agents of the ~~enterprise authority~~ other than contractors who qualify as such pursuant to subsection (7).

(b) For the purposes of this section, any item or property that is within the definition of the term "associated development" in s. 341.8203(1) ~~may shall~~ not be considered ~~to be~~ part of the high-speed rail system as defined in s. 341.8203(3)(~~6~~).

(3)(a) Purchases or leases of tangible personal property or real property by the ~~enterprise authority~~, excluding agents of the ~~enterprise authority~~, are exempt from taxes imposed by chapter 212 as provided in s. 212.08(6). Purchases or leases of tangible personal property that is incorporated into the high-speed rail system as a component part thereof, as determined by the ~~enterprise authority~~, by agents of the ~~enterprise authority~~ or the owner of the high-speed rail system are exempt from sales or use taxes imposed by chapter 212. Leases, rentals, or licenses to use real property granted to agents of the ~~enterprise authority~~ or the owner of the high-speed rail system are exempt from taxes imposed by s. 212.031 if the real property becomes part of such system. The exemptions granted in this subsection do not apply to sales, leases, or licenses by the ~~enterprise authority~~, agents of the authority, or the owner of the high-speed rail system.

(b) The exemption granted in paragraph (a) to purchases or leases of tangible personal property by agents of the ~~enterprise authority~~ or by the owner of the high-speed rail system applies only to property that becomes a component part of such system. It does not apply to items, including, but not limited to, cranes, bulldozers, forklifts, other machinery and equipment, tools and supplies, or other items of tangible personal property used in the construction, operation, or maintenance of the high-speed rail system when such items are not incorporated into the high-speed rail system as a component part thereof.

(4) Any bonds or other security, and all notes, mortgages, security agreements, letters of credit, or other instruments that arise out of or are given to secure the repayment of bonds or other security, issued by the ~~enterprise authority~~, or on behalf of the ~~enterprise authority~~, their transfer, and the income therefrom, including any profit made on the sale thereof, shall at all times be free from taxation of every kind by the state, the counties, and the municipalities and other political subdivisions in the state. This subsection, however, does not exempt from

taxation or assessment the leasehold interest of a lessee in any project or any other property or interest owned by the lessee. The exemption granted by this subsection is not applicable to any tax imposed by chapter 220 on interest income or profits on the sale of debt obligations owned by corporations.

(5) When property of the ~~enterprise authority~~ is leased to another person or entity, the property shall be exempt from ad valorem taxation only if the use by the lessee qualifies the property for exemption under s. 196.199.

(6) A leasehold interest held by the ~~enterprise authority~~ is not subject to intangible tax. However, if a leasehold interest held by the ~~enterprise authority~~ is subleased to a nongovernmental lessee, such subleasehold interest shall be deemed to be an interest described in s. 199.023(1)(d), Florida Statutes 2005, and is subject to the intangible tax.

(7)(a) In order to be considered an agent of the ~~enterprise authority~~ for purposes of the exemption from sales and use tax granted by subsection (3) for tangible personal property incorporated into the high-speed rail system, a contractor of the ~~enterprise authority~~ that purchases or fabricates such tangible personal property must be certified by the ~~enterprise authority~~ as provided in this subsection.

(b)1. A contractor must apply for a renewal of the exemption not later than December 1 of each calendar year.

2. A contractor must apply to the ~~enterprise authority~~ on the application form adopted by the ~~enterprise authority~~, which shall develop the form in consultation with the Department of Revenue.

3. The ~~enterprise authority~~ shall review each submitted application and determine whether it is complete. The ~~enterprise authority~~ shall notify the applicant of any deficiencies in the application within 30 days. Upon receipt of a completed application, the ~~enterprise authority~~ shall evaluate the application for exemption under this subsection and issue a certification that the contractor is qualified to act as an agent of the ~~enterprise authority~~ for purposes of this section or a denial of such certification within 30 days. The ~~enterprise authority~~ shall provide the Department of Revenue with a copy of each certification issued upon approval of an application. Upon receipt of a certification from the ~~enterprise authority~~, the Department of Revenue shall issue an exemption permit to the contractor.

(c)1. The contractor may extend a copy of its exemption permit to its vendors in lieu of paying sales tax on purchases of tangible personal property qualifying for exemption under this section. Possession of a copy of the exemption permit relieves the seller of the responsibility of collecting tax on the sale, and the Department of Revenue shall look solely to the contractor for recovery of tax upon a determination that the contractor was not entitled to the exemption.

2. The contractor may extend a copy of its exemption permit to real property subcontractors supplying and installing tangible personal property that is exempt under subsection (3). Any such subcontractor ~~may is authorized to~~ extend a copy of the permit to the subcontractor's vendors in order to purchase qualifying tangible personal property tax-exempt. If the subcontractor uses the exemption permit to purchase tangible personal property that is determined not to qualify for exemption under subsection (3), the Department of Revenue may assess and collect any tax, penalties, and interest that are due from either the contractor holding the exemption permit or the subcontractor that extended the exemption permit to the seller.

(d) Any contractor authorized to act as an agent of the ~~enterprise authority~~ under this section shall maintain the necessary books and records to document the exempt status of purchases and fabrication costs made or incurred under the permit. In addition, an authorized contractor extending its exemption permit to its subcontractors shall maintain a copy of the subcontractor's books, records, and invoices indicating all purchases made by the subcontractor under the authorized contractor's permit. If, in an audit conducted by the Department of Revenue, it is determined that tangible personal property purchased or fabricated claiming exemption under this section does not meet the criteria for exemption, the amount of taxes not paid at the time of purchase or fabrication shall be immediately due and payable to the Department of Revenue, together with the appropriate interest and pen-

ality, computed from the date of purchase, in the manner prescribed by chapter 212.

(e) If a contractor fails to apply for a high-speed rail system exemption permit, or if a contractor initially determined by the ~~enterprise authority~~ to not qualify for exemption is subsequently determined to be eligible, the contractor shall receive the benefit of the exemption in this subsection through a refund of previously paid taxes for transactions that otherwise would have been exempt. A refund may not be made for such taxes without the issuance of a certification by the ~~enterprise authority~~ that the contractor was authorized to make purchases tax-exempt and a determination by the Department of Revenue that the purchases qualified for the exemption.

(f) The ~~enterprise authority~~ may adopt rules governing the application process for exemption of a contractor as an authorized agent of the ~~enterprise authority~~.

(g) The Department of Revenue may adopt rules governing the issuance and form of high-speed rail system exemption permits, the audit of contractors and subcontractors using such permits, the recapture of taxes on nonqualified purchases, and the manner and form of refund applications.

Section 65. Section 343.56, Florida Statutes, is amended to read:

343.56 Bonds not debts or pledges of credit of state.—Revenue bonds issued under the provisions of this part are not debts of the state or pledges of the faith and credit of the state. Such bonds are payable exclusively from revenues pledged for their payment. All such bonds shall contain a statement on their face that the state is not obligated to pay the same or the interest thereon, except from the revenues pledged for their payment, and that the faith and credit of the state is not pledged to the payment of the principal or interest of such bonds. The issuance of revenue bonds under the provisions of this part does not directly, indirectly, or contingently obligate the state to levy or to pledge any form of taxation whatsoever, or to make any appropriation for their payment. No state funds shall be used or *pledged* to pay the principal or interest of any bonds issued to finance or refinance any portion of the South Florida Regional Transportation Authority transit system, and all such bonds shall contain a statement on their face to this effect. ~~However, federal funds being passed through the department to the South Florida Regional Transportation Authority and those state matching funds required by the United States Department of Transportation as a condition of federal funding may be used to pay principal and interest of any bonds issued.~~

Section 66. Section 343.57, Florida Statutes, is amended to read:

343.57 Pledge to bondholders not to restrict certain rights of authority.—The state pledges to and agrees with the holders of the bonds issued pursuant to this part that the state will not limit or restrict the rights vested in the authority to construct, reconstruct, maintain, and operate any project as defined in this part, to establish and collect such fees or other charges as may be convenient or necessary to produce sufficient revenues to meet the expenses of maintenance and operation of the system, and to fulfill the terms of any agreements made with the holders of bonds authorized by this part. The state further pledges that it will not in any way impair the rights or remedies of the holders of such bonds until the bonds, together with interest thereon, are fully paid and discharged. *Nothing in this section or in any agreement between the authority and the Department of Transportation shall be construed to require the Legislature to make or continue any appropriation of state funds to the authority, including, but not limited to, the amounts specified in s. 343.58(4), nor shall any holder of bonds have any right to require the Legislature to make or continue any appropriation of state funds.*

Section 67. Subsection (4) of section 343.58, Florida Statutes, is amended, and subsection (6) is added to that section, to read:

343.58 County funding for the South Florida Regional Transportation Authority.—

(a)1. If the authority becomes responsible for maintaining and dispatching the South Florida Rail Corridor:

a. \$15 million from the State Transportation Trust Fund to the South Florida Regional Transportation Authority for operations, maintenance, and dispatch; and

b. An amount no less than the work program commitments equal to \$27.1 million for fiscal year 2010-2011, as of July 1, 2009, for operating assistance to the authority and corridor track maintenance and contract maintenance for the South Florida Rail Corridor.

2. If the authority does not become responsible for maintaining and dispatching the South Florida Rail Corridor:

a. \$13.3 million from the State Transportation Trust Fund to the South Florida Regional Transportation Authority for operations; and

b. An amount no less than the work program commitments equal to \$17.3 million for fiscal year 2010-2011, as of July 1, 2009, for operating assistance to the authority.

(c)1. *Funds provided to the authority by the department under this subsection may not be committed by the authority without the approval of the department, which may not be unreasonably withheld. At least 90 days before advertising any procurement or renewing any existing contract that will rely on state funds for payment, the authority shall notify the department of the proposed procurement or renewal and the proposed terms thereof. If the department, within 60 days after receipt of notice, objects in writing to the proposed procurement or renewal, specifying its reasons for objection, the authority may not proceed with the proposed procurement or renewal. Failure of the department to object in writing within 60 days after notice shall be deemed consent. This requirement does not impair or cause the authority to cancel contracts that exist as of June 30, 2012.*

2. *To enable the department to evaluate the authority's proposed uses of state funds, the authority shall annually provide the department with its proposed budget for the following authority fiscal year and shall provide the department with any additional documentation or information required by the department for its evaluation of the proposed uses of the state funds.*

(d) *Funding required by this subsection shall cease upon commencement of an alternate dedicated local funding source sufficient for the*

authority to meet its responsibilities for operating, maintaining, and dispatching the South Florida Rail Corridor. The authority and the department shall cooperate in the effort to identify and implement such an alternate dedicated local funding source before July 1, 2019. (6) *Before the authority undertakes any new capital projects or transit system improvements not approved by the authority board, and not identified in the authority's 5-year capital program, on or before July 1, 2012, the authority shall ensure that the funding available to the authority under this section, together with any revenues available to the authority, are currently, and are anticipated to continue to be, sufficient for the authority to meet its obligations under any agreement through which federal funds have been or are anticipated to be received by the authority.*

348.7645 *Exit sign to university.—Notwithstanding any provision of law to the contrary, the authority, upon request by a university described in this section, shall erect signage at the most convenient, existing exit directing traffic to a university with at least 6,000 full-time students which is located within 5 miles of a roadway operated by the authority. Any such university shall pay to the authority the actual costs of any signage erected.*

349.03 Jacksonville Transportation Authority.—

(3)(a) *The terms of appointed members shall be for 4 years deemed to have commenced on June 1 of the year in which they are appointed. Each member shall hold office until a successor has been appointed and has qualified. A vacancy during a term shall be filled by the respective appointing authority only for the balance of the unexpired term. Any member appointed to the authority for two consecutive full terms shall not be eligible for appointment to the next succeeding term. One of the members so appointed shall be designated annually by the members as chair of the authority, one member shall be designated annually as the vice chair of the authority, one member shall be designated annually as the secretary of the authority, and one member shall be designated annually as the treasurer of the authority. The members of the authority shall not be entitled to compensation, but shall be reimbursed for travel expenses or other expenses actually incurred in their duties as provided by law. The executive director may appoint department directors, deputy directors, division chiefs, and staff assistants to the executive director, as he or she may determine. All employees of the authority shall be exempt from the provisions of part II of chapter 110. The authority may employ such financial advisers and consultants, technical experts, engineers, and agents and employees, permanent or temporary, as it may require and may fix the compensation and qualifications of such persons, firms, or corporations. Such rules are not subject to any special rulemaking requirements related to small business.*

Section 74. Subsection (6) is added to section 373.413, Florida Statutes, to read:

373.413 Permits for construction or alteration.—

(6) *It is the intent of the Legislature that the governing board or department exercise flexibility in the permitting of stormwater management systems associated with the construction or alteration of systems serving state transportation projects and facilities. Because of the unique limitations of linear facilities, the governing board or department shall balance the expenditure of public funds for stormwater treatment for state transportation projects and facilities with the benefits to the public in providing the most cost-efficient and effective method of achieving the treatment objectives. In consideration thereof, the governing board or department shall allow alternatives to onsite treatment, including, but not limited to, regional stormwater treatment systems. The Department of Transportation is responsible for treating stormwater generated from state transportation projects but is not responsible for the abatement of pollutants and flows entering its stormwater management systems from offsite sources; however, this subsection does not prohibit the Department of Transportation from receiving and managing such pollutants and flows when cost effective and prudent. Further, in association with right-of-way acquisition for state transportation projects, the Department of Transportation is responsible for providing stormwater treatment and attenuation for the acquired right-of-way but is not responsible for modifying permits for adjacent lands affected by right-of-way acquisition when it is not the permittee. The governing board or department may establish, by rule, specific criteria to implement the management and treatment alternatives and activities under this subsection.*

Section 75. Section 479.28, Florida Statutes, is repealed.

Section 76. *The Department of Transportation may seek Federal Highway Administration approval of a tourist-oriented commerce sign pilot program for small businesses, as defined in s. 288.703, Florida Statutes, in rural areas of critical economic concern, as defined by s. 288.0656(2)(d) and (e), Florida Statutes. Upon Federal Highway Administration approval, the department shall submit the pilot program for legislative approval in the next regular legislative session.*

Section 77. *There is established a pilot program for the Palm Beach County school district to recognize its business partners. The district may recognize its business partners by publicly displaying such business partners' names on school district property in the unincorporated areas of the county. Project graduation and athletic sponsorships are examples of appropriate recognition. The district shall make every effort to display its business partners' names in a manner that is consistent with the county standards for uniformity in size, color, and placement of signs. If the provisions of this section are inconsistent with county ordinances or regulations relating to signs in the unincorporated areas of the county or inconsistent with chapter 125 or chapter 166, Florida Statutes, the provisions of this section prevail. The pilot program expires June 30, 2014.*

Section 78. *Effective upon this act becoming a law, all administrative rules adopted by the former Pilotage Rate Review Board, which were in effect upon the effective date of ss. 5 and 6, chapter 2010-225, Laws of Florida, are transferred by a type two transfer, as defined in s. 20.06(2), Florida Statutes, to the Pilotage Rate Review Committee of the Board of Pilot Commissioners and shall apply retroactively to the effective date of ss. 5 and 6, chapter 2010-225, Laws of Florida.*

Section 79. *The Florida Transportation Commission shall conduct a study of the potential for cost savings that might be realized through increased efficiencies through the sharing of resources for the accomplishment of design, construction, and maintenance activities by or on behalf of expressway authorities in the state. The commission may retain such experts as are reasonably necessary to complete the study, and the department shall pay the expenses of such experts. The commission shall complete the study and provide a written report of its findings and conclusions to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the chairs of each of the appropriations committees of the Legislature by December 31, 2012. In conducting the study, the commission shall seek input from the existing expressway authorities.*

Section 80. *Notwithstanding s. 120.569, s. 120.57, or s. 373.427, Florida Statutes, or any other provision of law to the contrary, a challenge to a consolidated environmental resource permit or any associated variance or any sovereign submerged lands authorization proposed or issued by the Department of Environmental Protection in connection with the state's deepwater ports, as listed in s. 403.021(9), Florida Statutes, shall be conducted pursuant to the summary hearing provisions of s. 120.574, Florida Statutes; however, the summary proceeding shall be conducted within 30 days after a party files a motion for a summary hearing, regardless of whether the parties agree to the summary proceeding, and the administrative law judge's decision shall be in the form of a recommended order and does not constitute final agency action of the department. The Department of Environmental Protection shall issue the final order within 45 working days after receipt of the administrative law judge's recommended order. The summary hearing provisions of this section apply to pending administrative proceedings; however, s. 120.574(1)(b) and (d) and (2)(a)3. and 5., Florida Statutes, do not apply to pending administrative proceedings. This section shall take effect upon this act becoming a law.*

Section 81. *It is the intent of the Legislature to encourage and facilitate a review by the Pinellas Suncoast Transit Authority (PSTA) and the Hillsborough Area Regional Transit Authority (HART) in order to achieve improvements in regional transit connectivity and implementation of operational efficiencies and service enhancements that are consistent with the regional approach to transit identified in the Tampa Bay Area Regional Transportation Authority's (TBARTA's) Regional Transportation Master Plan. The Legislature finds that such improvements and efficiencies can best be achieved through a joint review, evaluation, and recommendations by the Pinellas Suncoast Transit Authority and the Hillsborough Area Regional Transit Authority.*

(1) *The governing bodies or a designated subcommittee of both the Pinellas Suncoast Transit Authority and the Hillsborough Area Regional Transit Authority shall hold a joint meeting within 30 days after July 1,*

2012, and as often as deemed necessary thereafter, in order to consider and identify opportunities for greater efficiency and service improvements, including specific methods for increasing service connectivity between the jurisdictions of each agency. The elements to be reviewed must also include:

- (a) Governance structure, including governing board membership, terms, responsibilities, officers, powers, duties, and responsibilities;
- (b) Funding options and implementation;
- (c) Facilities ownership and management;
- (d) Current financial obligations and resources; and
- (e) Actions to be taken that are consistent with the Tampa Bay Area Regional Transportation Authority's master plan.

(2) The Pinellas Suncoast Transit Authority and the Hillsborough Area Regional Transit Authority shall jointly submit a report to the Speaker of the House of Representatives and the President of the Senate on the elements described in this section by February 1, 2013. The report must include proposed legislation to implement each recommendation and specific recommendations concerning the reorganization of each agency, the organizational merger of both agencies, or the consolidation of functions within and between each agency.

(3) The Tampa Bay Area Regional Transportation Authority shall assist and facilitate the Pinellas Suncoast Transit Authority and the Hillsborough Area Regional Transit Authority in carrying out the purposes of this section. The Tampa Bay Area Regional Transportation Authority shall provide technical assistance and information regarding its master plan, make recommendations for achieving consistency and improved regional connectivity, and provide support to the Pinellas Suncoast Transit Authority and the Hillsborough Area Regional Transit Authority in the preparation of their joint report and recommendations to the Legislature. For this purpose, the Pinellas Suncoast Transit Authority and the Hillsborough Area Regional Transit Authority shall reimburse the Tampa Bay Area Regional Transportation Authority for necessary and reasonable expense in a total amount not to exceed \$100,000.

Such transportation projects shall be approved only as a consideration to attract new employment opportunities to the state or expand or retain employment in existing companies operating within the state, or to allow for the construction or expansion of a state or federal correctional facility in a county having with a population of 75,000 or less that creates new employment opportunities or expands or retains employment in the county. The department shall institute procedures to ensure that small and minority businesses have equal access to funding provided under this section. Funding for approved transportation projects may include any expenses, other than administrative costs and equipment purchases specified in the contract, necessary for new, or improvement to existing, transportation facilities. Funds made available pursuant to this section may not be expended in connection with the relocation of a business from one community to another community in this state unless the department determines that without such relocation the business will move outside this state or determines that the business has a compelling economic rationale for the relocation which

creates additional jobs. Subject to appropriation for projects under this section, any appropriation greater than \$10 million shall be allocated to each of the districts of the Department of Transportation to ensure equitable geographical distribution. Such allocated funds that remain uncommitted by the third quarter of the fiscal year shall be reallocated among the districts based on pending project requests.

(1) A low-speed vehicle or mini truck may be operated only on streets where the posted speed limit is 35 miles per hour or less. This does not prohibit a low-speed vehicle or mini truck from crossing a road or street at an intersection where the road or street has a posted speed limit of more than 35 miles per hour.

(2) A low-speed vehicle must be equipped with headlamps, stop lamps, turn signal lamps, taillamps, reflex reflectors, parking brakes, rearview mirrors, windshields, seat belts, and vehicle identification numbers.

Section 87. Subsections (3) and (4) of section 320.20, Florida Statutes, are amended to read:

320.20 Disposition of license tax moneys.—The revenue derived from the registration of motor vehicles, including any delinquent fees and excluding those revenues collected and distributed under the provisions of s. 320.081, must be distributed monthly, as collected, as follows:

(3) Notwithstanding any other provision of law except subsections (1) and (2), on July 1, 1996, and annually thereafter, \$15 million shall be deposited in the State Transportation Trust Fund solely for the purposes of funding the Florida Seaport Transportation and Economic Development Program as provided for in chapter 311. Such revenues shall be

distributed on a 50-50 matching basis to any port listed in s. 311.09(1) to be used for funding projects as described in s. 311.07(3)(b). Such revenues may be assigned, pledged, or set aside as a trust for the payment of principal or interest on bonds, tax anticipation certificates, or any other form of indebtedness issued by an individual port or appropriate local government having jurisdiction thereof, or collectively by interlocal agreement among any of the ports, or used to purchase credit support to permit such borrowings. However, such debt shall not constitute a general obligation of the State of Florida. The state does hereby covenant with holders of such revenue bonds or other instruments of indebtedness issued hereunder that it will not repeal or impair or amend in any manner which will materially and adversely affect the rights of such holders so long as bonds authorized by this section are outstanding. Any revenues which are not pledged to the repayment of bonds as authorized by this section may be utilized for purposes authorized under the Florida Seaport Transportation and Economic Development Program. This revenue source is in addition to any amounts provided for and appropriated in accordance with s. 311.07. The Florida Seaport Transportation and Economic Development Council shall approve distribution of funds to ports for projects which have been approved pursuant to s. 311.09(5)-(8) ~~s. 311.09(5)-(9)~~. The council and the Department of Transportation ~~may be authorized to perform such acts as are required to facilitate and implement the provisions of this subsection.~~ To better enable the ports to cooperate to their mutual advantage, the governing body of each port may exercise powers provided to municipalities or counties in s. 163.01(7)(d) subject to the provisions of chapter 311 and special acts, if any, pertaining to a port. The use of funds provided pursuant to this subsection are limited to eligible projects listed in this subsection. Income derived from a project completed with the use of program funds, beyond operating costs and debt service, shall be restricted to further port capital improvements consistent with maritime purposes and for no other purpose. Use of such income for nonmaritime purposes is prohibited. ~~The provisions of s. 311.07(4) do not apply to any funds received pursuant to this subsection.~~ The revenues available under this subsection shall not be pledged to the payment of any bonds other than the Florida Ports Financing Commission Series 1996 and Series 1999 Bonds currently outstanding; provided, however, such revenues may be pledged to secure payment of refunding bonds to refinance the Florida Ports Financing Commission Series 1996 and Series 1999 Bonds. No refunding bonds secured by revenues available under this subsection may be issued with a final maturity later than the final maturity of the Florida Ports Financing Commission Series 1996 and Series 1999 Bonds or which provide for higher debt service in any year than is currently payable on such bonds. Any revenue bonds or other indebtedness issued after July 1, 2000, other than refunding bonds shall be issued by the Division of Bond Finance at the request of the Department of Transportation pursuant to the State Bond Act.

(4) Notwithstanding any other provision of law except subsections (1), (2), and (3), on July 1, 1999, and annually thereafter, \$10 million shall be deposited in the State Transportation Trust Fund solely for the purposes of funding the Florida Seaport Transportation and Economic Development Program as provided in chapter 311 and for funding seaport intermodal access projects of statewide significance as provided in s. 341.053. Such revenues shall be distributed to any port listed in s. 311.09(1), to be used for funding projects as follows:

(a) For any seaport intermodal access projects that are identified in the 1997-1998 Tentative Work Program of the Department of Transportation, up to the amounts needed to offset the funding requirements of this section.

(b) For seaport intermodal access projects as described in s. 341.053(5) that are identified in the 5-year Florida Seaport Mission Plan as provided in s. 311.09(3). Funding for such projects shall be on a matching basis as mutually determined by the Florida Seaport Transportation and Economic Development Council and the Department of Transportation, provided a minimum of 25 percent of total project funds shall come from any port funds, local funds, private funds, or specifically earmarked federal funds.

(c) On a 50-50 matching basis for projects as described in s. 311.07(3)(b).

(d) For seaport intermodal access projects that involve the dredging or deepening of channels, turning basins, or harbors; or the rehabilitation of wharves, docks, or similar structures. Funding for such projects shall require a 25 percent match of the funds received pursuant to this

subsection. Matching funds shall come from any port funds, federal funds, local funds, or private funds.

Such revenues may be assigned, pledged, or set aside as a trust for the payment of principal or interest on bonds, tax anticipation certificates, or any other form of indebtedness issued by an individual port or appropriate local government having jurisdiction thereof, or collectively by interlocal agreement among any of the ports, or used to purchase credit support to permit such borrowings. However, such debt shall not constitute a general obligation of the state. This state does hereby covenant with holders of such revenue bonds or other instruments of indebtedness issued hereunder that it will not repeal or impair or amend this subsection in any manner which will materially and adversely affect the rights of holders so long as bonds authorized by this subsection are outstanding. Any revenues that are not pledged to the repayment of bonds as authorized by this section may be utilized for purposes authorized under the Florida Seaport Transportation and Economic Development Program. This revenue source is in addition to any amounts provided for and appropriated in accordance with s. 311.07 and subsection (3). The Florida Seaport Transportation and Economic Development Council shall approve distribution of funds to ports for projects that have been approved pursuant to s. 311.09(5)-(8) ~~s. 311.09(5)-(9)~~, or for seaport intermodal access projects identified in the 5-year Florida Seaport Mission Plan as provided in s. 311.09(3) and mutually agreed upon by the ~~Florida Seaport Transportation and Economic Development~~ ~~ESTED~~ Council and the Department of Transportation. All contracts for actual construction of projects authorized by this subsection must include a provision encouraging employment of participants in the welfare transition program. The goal for employment of participants in the welfare transition program is 25 percent of all new employees employed specifically for the project, unless the Department of Transportation and the Florida Seaport Transportation and Economic Development Council demonstrate that such a requirement would severely hamper the successful completion of the project. In such an instance, Workforce Florida, Inc., shall establish an appropriate percentage of employees that must be participants in the welfare transition program. The council and the Department of Transportation ~~may be authorized to perform such acts as are required to facilitate and implement the provisions of this subsection.~~ To better enable the ports to cooperate to their mutual advantage, the governing body of each port may exercise powers provided to municipalities or counties in s. 163.01(7)(d) subject to the provisions of chapter 311 and special acts, if any, pertaining to a port. The use of funds provided pursuant to this subsection is limited to eligible projects listed in this subsection. ~~The provisions of s. 311.07(4) do not apply to any funds received pursuant to this subsection.~~ The revenues available under this subsection shall not be pledged to the payment of any bonds other than the Florida Ports Financing Commission Series 1996 and Series 1999 Bonds currently outstanding; provided, however, such revenues may be pledged to secure payment of refunding bonds to refinance the Florida Ports Financing Commission Series 1996 and Series 1999 Bonds. No refunding bonds secured by revenues available under this subsection may be issued with a final maturity later than the final maturity of the Florida Ports Financing Commission Series 1996 and Series 1999 Bonds or which provide for higher debt service in any year than is currently payable on such bonds. Any revenue bonds or other indebtedness issued after July 1, 2000, other than refunding bonds shall be issued by the Division of Bond Finance at the request of the Department of Transportation pursuant to the State Bond Act.

Section 88. Subsection (3) of section 335.02, Florida Statutes, is amended to read:

335.02 Authority to designate transportation facilities and rights-of-way and establish lanes; procedure for redesignation and relocation; application of local regulations.—

(3) The department may establish standards for lanes on the State Highway System, including the *Strategic Intermodal System highway corridors* ~~Florida Intrastate Highway System~~ established pursuant to s. 339.65 ~~s. 339.001~~. In determining the number of lanes for any regional corridor or section of highway on the State Highway System to be funded by the department with state or federal funds, the department shall evaluate all alternatives and seek to achieve the highest degree of efficient mobility for corridor users. In conducting the analysis, the department must give consideration to the following factors consistent with sound engineering principles:

- (a) Overall economic importance of the corridor as a trade or tourism corridor.
- (b) Safety of corridor users, including the importance of the corridor for evacuation purposes.
- (c) Cost-effectiveness of alternative methods of increasing the mobility of corridor users.
- (d) Current and projected traffic volumes on the corridor.
- (e) Multimodal alternatives.
- (f) Use of intelligent transportation technology in increasing the efficiency of the corridor.
- (g) Compliance with state and federal policies related to clean air, environmental impacts, growth management, livable communities, and energy conservation.
- (h) Addition of special use lanes, such as exclusive truck lanes, high-occupancy-vehicle toll lanes, and exclusive interregional traffic lanes.
- (i) Availability and cost of rights-of-way, including associated costs, and the most effective use of existing rights-of-way.
- (j) Regional economic and transportation objectives, where articulated.
- (k) The future land use plan element of local government comprehensive plans, as appropriate, including designated urban infill and redevelopment areas.
- (l) The traffic circulation element, if applicable, of local government comprehensive plans, including designated transportation corridors and public transportation corridors.
- (m) The approved metropolitan planning organization's long-range transportation plan, as appropriate.

This subsection does not preclude a number of lanes in excess of 10 lanes, but an additional factor that must be considered before the department may determine that the number of lanes should be more than 10 is the capacity to accommodate in the future alternative forms of transportation within existing or potential rights-of-way.

Section 89. Subsection (2) of section 338.222, Florida Statutes, is amended to read:

338.222 Department of Transportation sole governmental entity to acquire, construct, or operate turnpike projects; exception.—

(2) The department may contract with any local governmental entity as defined in s. 334.03(13) ~~or 334.03(14)~~ for the design, right-of-way acquisition, or construction of any turnpike project which the Legislature has approved. Local governmental entities may negotiate with the department for the design, right-of-way acquisition, and construction of any section of the turnpike project within areas of their respective jurisdictions or within counties with which they have interlocal agreements.

Section 91. Subsection (2) of section 341.053, Florida Statutes, is amended to read:

341.053 Intermodal Development Program; administration; eligible projects; limitations.—

(2) In recognition of the department's role in the economic development of this state, the department shall develop a proposed intermodal

development plan to connect Florida's airports, deepwater seaports, rail systems serving both passenger and freight, and major intermodal connectors to the *Strategic Intermodal System highway corridors* ~~Florida Intrastate Highway System facilities~~ as the primary system for the movement of people and freight in this state in order to make the intermodal development plan a fully integrated and interconnected system. The intermodal development plan must:

- (a) Define and assess the state's freight intermodal network, including airports, seaports, rail lines and terminals, intercity bus lines and terminals, and connecting highways.
- (b) Prioritize statewide infrastructure investments, including the acceleration of current projects, which are found by the Freight Stakeholders Task Force to be priority projects for the efficient movement of people and freight.
- (c) Be developed in a manner that will assure maximum use of existing facilities and optimum integration and coordination of the various modes of transportation, including both government-owned and privately owned resources, in the most cost-effective manner possible.

Section 92. Subsection (2) of section 341.8225, Florida Statutes, is amended to read:

341.8225 Department of Transportation sole governmental entity to acquire, construct, or operate high-speed rail projects; exception.—

(2) Local governmental entities, as defined in s. 334.03(13) ~~or 334.03(14)~~, may negotiate with the department for the design, right-of-way acquisition, and construction of any component of the high-speed rail system within areas of their respective jurisdictions or within counties with which they have interlocal agreements.

Section 93. Subsection (2) of section 403.7211, Florida Statutes, is amended to read:

403.7211 Hazardous waste facilities managing hazardous wastes generated offsite; federal facilities managing hazardous waste.—

(2) The department ~~may shall~~ not issue any permit under s. 403.722 for the construction, initial operation, or substantial modification of a facility for the disposal, storage, or treatment of hazardous waste generated offsite which is proposed to be located in any of the following locations:

(a) Any area where life-threatening concentrations of hazardous substances could accumulate at any residence or residential subdivision as the result of a catastrophic event at the proposed facility, unless each such residence or residential subdivision is served by at least one arterial road or urban minor arterial road, as *determined under the procedures referenced in s. 334.03(10)* ~~defined in s. 334.03~~, which provides safe and direct egress by land to an area where such life-threatening concentrations of hazardous substances could not accumulate in a catastrophic event. Egress by any road leading from any residence or residential subdivision to any point located within 1,000 yards of the proposed facility is unsafe for the purposes of this paragraph. In determining whether egress proposed by the applicant is safe and direct, the department shall also consider, at a minimum, the following factors:

1. Natural barriers such as water bodies, and whether any road in the proposed evacuation route is impaired by a natural barrier such as a water body.;
2. Potential exposure during egress and potential increases in the duration of exposure.;
3. Whether any road in a proposed evacuation route passes in close proximity to the facility.;
4. Whether any portion of the evacuation route is inherently directed toward the facility.

(b) Any location within 1,500 yards of any hospital, prison, school, nursing home facility, day care facility, stadium, place of assembled worship, or any other similar site where individuals are routinely confined or assembled in such a manner that reasonable access to immediate evacuation is likely to be unavailable.;

(c) Any location within 1,000 yards of any residence. ~~or~~

(d) Any location which is inconsistent with rules adopted by the department under this part.

For the purposes of this subsection, all distances shall be measured from the outer limit of the active hazardous waste management area. "Substantial modification" includes: any physical change in, change in the operations of, or addition to a facility which could increase the potential offsite impact, or risk of impact, from a release at that facility; and any change in permit conditions which is reasonably expected to lead to greater potential impacts or risks of impacts, from a release at that facility. "Substantial modification" does not include a change in operations, structures, or permit conditions which does not substantially increase either the potential impact from, or the risk of, a release. Physical or operational changes to a facility related solely to the management of nonhazardous waste at the facility ~~is shall~~ not be considered a substantial modification. The department shall, by rule, adopt criteria to determine whether a facility has been substantially modified. "Initial operation" means the initial commencement of operations at the facility.

As used in this section, the term "on any portion of the State Highway System, interstate, or federal-aid primary system" means a sign located within the controlled area which is visible from any portion of the main-traveled way of such system.

Section 96. Subsection (5) of section 479.261, Florida Statutes, is amended to read:

479.261 Logo sign program.—

(5) At a minimum, permit fees for businesses that participate in the program must be established in an amount sufficient to offset the total cost to the department for the program, including contract costs. The department shall provide the services in the most efficient and cost-effective manner through department staff or by contracting for some or all of the services. The department shall adopt rules that set reasonable rates based upon factors such as population, traffic volume, market demand, and costs for annual permit fees. However, annual permit fees for sign locations inside an urban area, as defined in s. ~~334.03(31) or~~ ~~334.03(32)~~, may not exceed \$3,500, and annual permit fees for sign locations outside an urban area, as defined in s. ~~334.03(31) or~~ ~~334.03(32)~~, may not exceed \$2,000.
