School districts that provided educational services in 2011-2012 for exceptional students who are residents of other districts shall not discontinue providing such services without the prior approval of the Department of Education. Expenditure requirements for the ESE Guaranteed Allocation shall be as prescribed in section 1010.20(3), Florida Statutes, for programs for exceptional students.

From the funds provided in Specific Appropriations 6 and 84, the value of 43.35 weighted FTE students is provided to supplement the funding for severely handicapped students served in ESE programs 254 and 255 when a school district has less than 10,000 FTE student enrollment and less than 3 FTE eligible students per program. The Commissioner of Education shall allocate the value of the supplemental FTE based on documented evidence of the difference in the cost of the service and the amount of funds received in the district's FEFP allocations for the students being served. The supplemental value shall not exceed 3 FTE.

A student in cooperative education or other types of programs incorporating on-the-job training shall not be counted for more than twenty-five (25) hours per week of membership in all programs when calculating full-time student membership, as provided in section 1011.61, Florida Statutes, for funding pursuant to section 1011.62, Florida Statutes.

Students enrolled in these schools who have level 5 reading assessment scores may choose to participate in the additional hour of instruction on an optional basis. ESE centers shall not be included in the 100 schools.

The Department of Education shall provide guidance to school districts for documentation of the expenditures for the additional hour of instruction to ensure that all local, state, and federal funds are maximized for the total instructional program and that the funds used for the additional hour of instruction in these 100 schools do not supplant federal funds. School districts shall submit a report to the Department of Education in a format prepared by the department that includes summary information, including funding sources, expenditures and student outcomes for each of the participating schools that shall be submitted to the Speaker of the House, President of the Senate, and Governor by September 30, 2013. From the funds in Specific Appropriations 6 and 84, school districts may execute an appropriate contract for full-time virtual instruction through K-8 virtual schools that received funds from Specific Appropriation 93 of chapter 2008-152, Laws of Florida. School districts may expend funds in the amount of \$5,200 per student for each student who was enrolled and served during the 2011-2012 fiscal year and who is re-enrolled and eligible to be served during the 2012-2013 fiscal year. From the funds in Specific Appropriation 198, the calculations of the Medicaid Supplemental Hospital Funding Programs for Medicaid Low Income Pool, Disproportionate Share Hospital, and Hospital Exemptions Programs for the 2012-2013 fiscal year are incorporated by reference in House Bill 5003. The calculations are the basis for the appropriations made in the General Appropriations Act.

Funds in Specific Appropriation 198 reflect a reduction of \$16,358,050 from the General Revenue Fund, \$11,173,488 from the Grants and Donations Trust Fund, \$37,660,899 from the Medical Care Trust Fund, and \$96,046 from the Refugee Assistance Trust Fund as a result of implementing a reduction in outpatient hospital reimbursement rates. The agency shall implement a recurring methodology in the Title XIX Outpatient Hospital Reimbursement Plan to achieve this reduction. Funds provided for the elimination of hospital outpatient ceilings in Specific Appropriation 198 are contingent upon the state share being provided through grants and donations from state, county or other governmental funds. The agency shall submit a revised hospital outpatient reimbursement plan to the Legislative Budget Commission for approval if the state share is not available to fund the removal of hospital outpatient ceilings or if the Centers for Medicare and Medicaid Services does not approve amendments to the Medicaid Hospital Outpatient Reimbursement Plan to eliminate the reimbursement ceilings for certain hospitals.

From the funds in Specific Appropriation 198, \$27,279,957 from the Grants and Donations Trust Fund and \$37,257,438 from the Medical Care Trust Fund are appropriated so that the agency may amend its current facility fees and physician services to allow for payments to hospitals providing primary care to low-income individuals and participating in the Primary Care Disproportionate Share Hospital (DSH) program in Fiscal Year 2003-2004 provided such hospital implements an emergency room diversion program so that non-emergent patients are triaged to lesser acute settings; or a public hospital assumed the fiscal and operating responsibilities for one or more primary care centers previously operated by the Florida Department of Health or the local county government. Any payments made to qualifying hospitals because of this change shall be contingent on the state share being provided through grants and donations from counties, local governments, public entities, or taxing districts, and federal matching funds. JUVENILE JUSTICE, DEPARTMENT OF

From the funds in Specific Appropriations 1186 through 1274A, each provider who contracts with the Department of Juvenile Justice shall provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents shall include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate successful compliance with the performance measures described in the contract.

From the funds in Specific Appropriations 1186 through 1274A, the Department of Juvenile Justice shall establish a performance accountability system for each provider who contracts with the department for the delivery of services to children at-risk of future involvement in the criminal justice system, as determined by the department. The contract shall include both output measures, such as the number of children served, and outcome measures, such as program completion. The contractor shall report performance results annually to the department. The department's Office of Program Accountability shall summarize performance results from all contracts and report the information annually to the Legislature.

From the funds in Specific Appropriations 1186 through 1274A, the Department of Juvenile Justice is directed to withhold funds from contract payments to any provider if that provider failed to comply with contract requirements that it maintain property insurance and if the failure to do so resulted in uninsured losses. The amount withheld shall not exceed the amount of the uninsured loss and may be reduced by other remedial actions agreed upon by the department and the provider.

From the funds in Specific Appropriations 1186 through 1274A, the Department of Juvenile Justice must, before implementing any departmental reorganization plans, submit its proposal to the Governor's Office of Policy and Budget and to the Legislative Budget Commission for approval.

Funds in Specific Appropriations 1186 through 1274A shall not be used to pay for unoccupied space currently being leased by the Department of Juvenile Justice in the event the leases are vacant on or after July 1, 2012, and for which it has been determined by the Secretary of the department that there is no longer a need.

PROGRAM: JUVENILE DETENTION PROGRAM

DETENTION CENTERS

From the funds in Specific Appropriations 1186 through 1198, the department may contract for services consistent with the department's Juvenile Detention Alternative Initiative (JDAI) and the Annie E. Casey Foundation to divert youth from secure detention to alternative community based services. These services should be designed using in-home and community advocacy to reduce the need for more expensive restrictive placements, build community capacity to reduce recidivism, create supported work opportunities for youth, and improve community safety.

From the funds in Specific Appropriations 1238 through 1261, the department shall provide a weekly residential resource utilization report that identifies operating capacity, current placements, vacant placements, number of youth waiting placement and the percent of use for all residential commitment beds. The department may increase or decrease beds or overlay services provided that the change will better serve taxpayers and the youth under its care. Notification and justification of changes will be provided to the Governor's Office of Policy and Budget, the chair of the Senate Budget Committee and the chair of the House Appropriations Committee prior to implementing any change.

From the funds in Specific Appropriations 1238 through 1261, the Department of Juvenile Justice shall first make residential bed reductions in both non-secure and secure beds that are operated by the department before reducing privately operated non-secure or secure residential beds. Should the department need to make additional residential bed reductions in order to meet the reduction in Specific Appropriations 1238 through 1261, per diem cost shall be given primary consideration.

From the funds in Specific Appropriations 2216 through 2314B, any expenditure from the Temporary Assistance for Needy Families (TANF) Block Grant must be expended in accordance with the requirements and limitations of Part A of Title IV of the Social Security Act, as amended, or any other applicable federal requirement or limitation. Before any funds are released by the Department of Children and Family Services, each provider shall identify the number of clients to be served and certify their eligibility under Part A of Title IV of the Social Security Act. Funds may not be released for services to any clients except those so identified and certified.

The department head or a designee shall certify that controls are in place to ensure that such funds are expended in accordance with the requirements and limitations of federal law and that reporting requirements of federal law are met. It shall be the responsibility of any entity to which such funds are appropriated to obtain the required certification prior to any expenditure of funds.

From the funds in Specific Appropriations 2216 through 2314B, no federal or state funds shall be used to pay for space being leased by a Regional Workforce Board, Workforce Florida, Inc., or the Department of Economic Opportunity if it has been determined by whichever entity is the lessee that there is no longer a need for the leased space. All leases, and performance and obligations under the leases, are subject to and contingent upon an annual appropriation by the Florida Legislature. In the event that such annual appropriation does not occur, or in the alternative, there is either a reduction in funding from the prior annual appropriation or the entity which is the lessee determines that the annual appropriation is insufficient to meet the requirements of the leases, then the lessee has the right to terminate the lease upon written notice by the lessee and the lessee shall have no further obligations under the contracts.

PROGRAM: WORKFORCE SERVICES

WORKFORCE DEVELOPMENT

From the funds in Specific Appropriations 2246 through 2257, it is the intent of the Legislature that the administration and delivery of workforce services and programs that are currently provided by department employees working in One Stop Career Centers operated by the Regional Workforce Boards may be transferred from the Department of Economic Opportunity to the Regional Workforce Boards. Such transfers shall only occur if the department determines that the Regional Workforce Boards would more effectively and efficiently deliver services and if such transfers comply with applicable federal regulations. For all transfers made, the department shall submit budget amendments pursuant to chapter 216, Florida Statutes, to move positions to the Executive Office of the Governor's reserve and realign the budget into the appropriate operating budget appropriation categories to implement the transfer of programs and service delivery to the Regional Workforce Boards.

From the funds in Specific Appropriations 2246 through 2257, the Department of Economic Opportunity shall determine whether any funds provided for specific workforce programs, projects or initiatives are not an allowable use of federal funds. If the department finds that any project or initiative for which funds are specifically appropriated in this act is not an allowable use of federal funds, the department shall notify the Executive Office of the Governor, the chair of the Senate Committee on Budget and the chair of the House Appropriations Committee.

DISCLOSURE

I have an ownership interest in Caregivers, Inc., a company based in Pensacola, Florida. The company provides services to the elderly and the disabled and a minority of its revenues are derived from reimbursements from the Escambia County Council on Aging and the Florida Medicaid program. Because Caregivers, Inc. is among a class of health care providers receiving funds from such state sources, it appears to me that the company may be affected by **HB 5001** which comes before the Senate floor for a vote on March 9, 2012.

Therefore, I believe that, because Caregivers, Inc. is a member of such class, I am required by Senate Rule 1.39 to disclose the above facts.

Senator Don Gaetz, 4th District

PRAYER

The following prayer was offered by Pastor Ray Cortese, Seven Rivers Presbyterian Church, Lecanto. Pastor Cortese is the father of Tony Cortese, Staff Director of the Majority Office:

Dear Father, the scriptures say that you oppose the proud and give grace to the humble. While we admit that humility is not our forte, we certainly need grace. We don't deserve your grace, but we need it. We need your favor. On this day, the Senate needs grace to deal wisely and equitably with redistricting. We need your grace to deal patiently with each other. Senators need your grace to consider each other more important than themselves. Senators will need your grace to speak well of each other publicly and privately.

We ask for your grace, that you would give us your grace in abundance. Lord, every day the Senators and the staff need your grace to love their spouses, children, and grandchildren with the love and attention they so want to afford them. Senators need your grace to deal with the vexing concerns of their constituents, particularly those without jobs, without homes, and without hope. This morning, Lord, we pray for the people of Sanford, Florida. We pray for the family of Trayvon Martin. They need your grace, justice, and solace this day. So Father, both the Senators and the citizens of our state desperately need your love and grace. We ask for it in the name of the one who loves to give it. Amen.

PLEDGE

Senator Lynn led the Senate in the pledge of allegiance to the flag of the United States of America.
