(d) “Transportation network company” or “company” means a corporation, partnership, sole proprietorship, or other entity operating in this state which uses a digital network to connect transportation network company riders to transportation network company drivers who provide prearranged rides. A transportation network company may not be deemed to control, direct, or manage the personal vehicles or transportation network company drivers that connect to its digital network, unless agreed to in a written contract. A transportation network company does not include an individual, corporation, partnership, sole proprietorship, or other entity arranging nonemergency medical transportation for individuals qualifying for Medicaid or Medicare pursuant to a contract with the state or a managed care organization.

(e) “Transportation network company driver” or “driver” means an individual who:

1. *Receives connections to potential riders and related services from a transportation network company in exchange for any form of compensation, including payment of a fee to the transportation network company; and*

2. *Uses a personal vehicle to offer or provide a prearranged ride to riders upon connection through a digital network controlled by a transportation network company in return for compensation, including payment of a fee.*

(f) *“Transportation network company rider” or “rider” means an individual who directly or indirectly uses a transportation network company’s digital network to connect with a transportation network company driver who provides transportation services to such individual in the driver’s personal vehicle.*

(2)(a) *A transportation network company driver, or a transportation network company on the driver’s behalf, shall maintain primary automobile insurance that recognizes that the driver is a transportation network company driver or that the driver otherwise uses a personal vehicle to transport riders for compensation. Such primary automobile insurance must cover the driver as required under this section, including while the driver is logged on to the transportation network company’s digital network and engaged in a prearranged ride.*

(b) *The following automobile insurance requirements apply while a participating transportation network company driver is logged on to the transportation network company’s digital network and is available to receive transportation requests, but is not engaged in a prearranged ride:*

1. *Primary automobile liability insurance of at least \$125,000 for death and bodily injury per person, \$250,000 for death and bodily injury per incident, and \$25,000 for property damage; and*

2. *Primary automobile insurance that provides the minimum coverage requirements under ss. 627.730-627.7405.*

(c) *While a transportation network company driver is engaged in a prearranged ride, the automobile insurance requirements that apply are primary automobile liability insurance of at least \$1 million for death and bodily injury and \$50,000 for property damage.*

(d) *The following automobile insurance requirements apply at all times other than the periods specified in paragraph (b) or paragraph (c) if a driver has an agreement with a transportation network company to provide any form of transportation services to riders:*

1. *Primary automobile liability insurance of at least \$100,000 for death and bodily injury per person, \$200,000 for death and bodily injury per incident, and \$25,000 for property damage; and*

2. *Primary automobile insurance that provides the minimum coverage requirements under ss. 627.730-627.7405.*

(e) *The coverage requirements of paragraph (d) shall be satisfied by automobile insurance maintained by the transportation network company driver. The coverage requirements of paragraphs (b) and (c) may be satisfied by any of the following:*

1. *Automobile insurance maintained by the transportation network company driver;*

2. *Automobile insurance maintained by the transportation network company; or*

3. *Any combination of subparagraphs 1. and 2.*

(f) *If automobile insurance maintained by a driver under paragraph (b), paragraph (c), or paragraph (d) has lapsed or does not provide the required coverage, automobile insurance maintained by a transportation network company must provide the coverage required by this section beginning with the first dollar of a claim and must require that the insurer have the duty to defend such claim in this state.*

(g) *Coverage under an automobile insurance policy maintained by the transportation network company may not be dependent on a personal automobile liability insurance policy first denying a claim.*

(h) *Automobile insurance required by this section may be provided by an insurer authorized to do business in this state or an eligible surplus lines insurer.*

(i) *Automobile insurance satisfying the requirements of this section shall be deemed to satisfy the financial responsibility requirements for a motor vehicle under chapter 324 and the security required under s. 627.733.*

(j) *A transportation network company driver shall carry proof of insurance coverage satisfying paragraphs (b), (c), and (d) at all times during his or her use of a personal vehicle. In the event of an accident:*

1. *The driver shall provide the insurance coverage information to the directly involved parties, automobile insurers, and investigating police officers. Proof of financial responsibility may be provided through a digital telephone application under s. 316.646 controlled by a transportation network company.*

2. *The driver, upon request, shall disclose to the directly involved parties, automobile insurers, and investigating police officers whether the driver, at the time of the accident, was logged on to the transportation network company’s digital network or engaged in prearranged ride.*

(k) *Before a driver may accept a request for a prearranged ride on the transportation network company’s digital network, the transportation network company shall disclose in writing to each transportation network company driver each type of:*

1. *Insurance coverage and the limit for each coverage the transportation network company provides; and*

2. *Automobile insurance coverage that the driver must maintain while the driver uses a personal vehicle in connection with the transportation network company.*

(l) *An insurer that provides personal automobile insurance policies under part XI of chapter 627 may exclude from coverage under a policy issued to an owner or operator of a personal vehicle any loss or injury that occurs while a driver is logged on to a transportation network company’s digital network or while a driver is engaged in a prearranged ride. Such right to exclude coverage applies to any coverage under an automobile insurance policy, including, but not limited to:*

1. *Liability coverage for bodily injury and property damage.*

2. *Personal injury protection coverage under s. 627.736.*

3. *Uninsured and underinsured motorist coverage.*

4. *Medical payments coverage.*

5. *Comprehensive physical damage coverage.*

6. *Collision physical damage coverage.*

(m) *The exclusions authorized under paragraph (l) apply notwithstanding any financial responsibility requirements under chapter 324. This section does not require that a personal automobile insurance policy provide coverage while the driver is logged on to the transportation network company’s digital network, while the driver is engaged in a prearranged ride, or while the driver otherwise uses a personal vehicle to transport riders for compensation. However, an insurer may voluntarily elect to provide coverage for such driver’s personal vehicle by contract or endorsement.*

(n) *An insurer that excludes coverage, as authorized under paragraph (l):*

1. *Does not have a duty to defend or indemnify any claim excluded. This section does not invalidate or limit an exclusion contained in a policy, including any policy in use or approved for use in this state before July 1, 2015.*

2. *Has a right of contribution against other insurers that provide automobile insurance to the same driver in satisfaction of the coverage requirements of this section at the time of loss if the insurer defends or indemnifies a claim against a driver which is excluded under the terms of its policy.*

(o) *In a claims investigation, a transportation network company and any insurer potentially providing coverage for such claim under this section shall cooperate to facilitate the exchange of relevant information with directly involved parties and insurers of the transportation network company driver, if applicable. Such information must provide:*

1. *The precise times that a driver logged on and off the transportation network company's digital network during the 12-hour period immediately preceding and immediately after the accident.*

2. *A clear description of the coverage, any exclusions, and limits provided under any automobile insurance maintained under this section.*

(p) *Before allowing an individual to act as a driver on its digital network, a transportation network company shall determine whether the driver's personal vehicle is subject to a lien. If the personal vehicle is subject to a lien, the transportation network company shall verify that the insurance required by this section provides coverage to the lienholder while the driver is logged into the transportation network company's digital network and while the driver is providing a prearranged ride.*

(3) *The office may adopt rules to implement this section.*

Section 4. This act shall take effect October 1, 2015.

And the title is amended as follows:

Amendment 2 (667424) (with title amendment)—Between lines 243 and 244 insert:

Section 3. Paragraph (c) of subsection (6) of section 163.3177, Florida Statutes, is amended to read:

163.3177 Required and optional elements of comprehensive plan; studies and surveys.—

(6) In addition to the requirements of subsections (1)-(5), the comprehensive plan shall include the following elements:

(c) A general sanitary sewer, solid waste, drainage, potable water, and natural groundwater aquifer recharge element correlated to principles and guidelines for future land use, indicating ways to provide for future potable water, drainage, sanitary sewer, solid waste, and aquifer recharge protection requirements for the area. The element may be a detailed engineering plan including a topographic map depicting areas of prime groundwater recharge.

1. Each local government shall address in the data and analyses required by this section those facilities that provide service within the local government's jurisdiction. Local governments that provide facilities to serve areas within other local government jurisdictions shall also address those facilities in the data and analyses required by this section, using data from the comprehensive plan for those areas for the purpose of projecting facility needs as required in this subsection. For shared facilities, each local government shall indicate the proportional capacity of the systems allocated to serve its jurisdiction.

2. The element shall describe the problems and needs and the general facilities that will be required for solution of the problems and needs, including correcting existing facility deficiencies. The element shall address coordinating the extension of, or increase in the capacity of, facilities to meet future needs while maximizing the use of existing facilities and discouraging urban sprawl; conserving potable water resources; and protecting the functions of natural groundwater recharge areas and natural drainage features.

3. Within 18 months after the governing board approves an updated regional water supply plan, the element must incorporate the alternative water supply project or projects selected by the local government from those identified in the regional water supply plan pursuant to s. 373.709(2)(a) or proposed by the local government under s. 373.709(8)(b). If a local government is located within two water management districts, the local government shall adopt its comprehensive plan amendment within 18 months after the later updated regional water supply plan. The element must identify such alternative water supply projects and traditional water supply projects and conservation and reuse necessary to meet the water needs identified in s. 373.709(2)(a) within the local government's jurisdiction and include a work plan, covering at least a 10-year planning period, for building public, private, and regional water supply facilities, including development of alternative water supplies, which are identified in the element as necessary to serve existing and new development. The work plan shall be updated, at a minimum, every 5 years within 18 months after the governing board of a water management district approves an updated regional water supply plan. Local governments, public and private utilities, regional water supply authorities, special districts, and water management districts are encouraged to cooperatively plan for the development of multijurisdictional water supply facilities that are sufficient to meet projected demands for established planning periods, including the development of alternative

water sources to supplement traditional sources of groundwater and surface water supplies.

4. *A local government that does not own, operate, or maintain its own water supply facilities, including but not limited to wells, treatment facilities, and distribution infrastructure, and is served by a public water utility with a permitted allocation of greater than 300 million gallons per day is not required to amend its comprehensive plan in response to an updated regional water supply plan or to maintain a work plan if any such local government's usage of water constitutes less than 1 percent of the public water utility's total permitted allocation. However, any such local government is required to cooperate with, and provide relevant data to, any local government or utility provider that provides service within its jurisdiction, and to keep its general sanitary sewer, solid waste, potable water, and natural groundwater aquifer recharge element updated in accordance with s. 163.3191.*

And the title is amended as follows:

Pursuant to Rule 7.1(1), there being no objection, consideration of the following late-filed amendment was allowed:

Senator Simmons moved the following amendment which was adopted:

Amendment 1 (402804) (with title amendment)—Delete lines 156-343 and insert:

Section 6. *The Division of Law Revision and Information is directed to create part VII of chapter 501, Florida Statutes, consisting of ss. 501.991-501.997, Florida Statutes, to be entitled the “Patent Troll Prevention Act.”*

Section 7. Section 501.991, Florida Statutes, is created to read:

501.991 *Legislative intent.*—

(1) *The Legislature recognizes that it is preempted from passing any law that conflicts with federal patent law. However, the Legislature recognizes that the state is dedicated to building an entrepreneurial and business-friendly economy where businesses and consumers alike are protected from abuse and fraud. This includes protection from abusive and bad faith demands and litigation.*

(2) *Patents encourage research, development, and innovation. Patent holders have a legitimate right to enforce their patents. The Legislature does not wish to interfere with good faith patent litigation or the good faith enforcement of patents. However, the Legislature recognizes a growing issue: the frivolous filing of bad faith patent claims that have led to technical, complex, and especially expensive litigation.*

(3) *The expense of patent litigation, which may cost millions of dollars, can be a significant burden on companies and small businesses. Not only do bad faith patent infringement claims impose undue burdens on individual businesses, they undermine the state’s effort to attract and nurture technological innovations. Funds spent to help avoid the threat of bad faith litigation are no longer available for serving communities through investing in producing new products, helping businesses expand, or hiring new workers. The Legislature wishes to help businesses avoid these costs by encouraging good faith assertions of patent infringement and the expeditious and efficient resolution of patent claims.*

Section 8. Section 501.992, Florida Statutes, is created to read:

501.992 *Definitions.*—As used in this part, the term:

(1) *“Demand letter” means a letter, e-mail, or other written communication asserting or claiming that a person has engaged in patent infringement.*

(2) *“Institution of higher education” means an educational institution as defined in 20 U.S.C. s. 1001(a).*

(3) *“Target” means a person residing in, incorporated in, or organized under the laws of this state who purchases, rents, leases, or otherwise obtains a product or service in the commercial market which is not for resale in the commercial market and who:*

(a) *Has received a demand letter or against whom a written assertion or allegation of patent infringement has been made; or*

(b) *Has been threatened in writing with litigation or against whom a lawsuit has been filed alleging patent infringement.*

Section 9. Section 501.993, Florida Statutes, is created to read:

501.993 *Bad faith assertions of patent infringement.*—A person may not make a bad faith assertion of patent infringement.

(1) *A court may consider the following factors as evidence that a person has made a bad faith assertion of patent infringement:*

(a) *The demand letter does not contain the following information:*

1. *The patent number;*

2. *The name and address of the patent owner and assignee, if any; and*

3. *Factual allegations concerning the specific areas in which the target’s products, services, or technology infringe or are covered by the claims in the patent.*

(b) *Before sending the demand letter, the person failed to conduct an analysis comparing the claims in the patent to the target’s products, services, or technology, or the analysis did not identify specific areas in which the target’s products, services, and technology were covered by the claims of the patent.*

(c) *The demand letter lacked the information listed under paragraph (a), the target requested the information, and the person failed to provide the information within a reasonable period.*

(d) *The demand letter requested payment of a license fee or response within an unreasonable period.*

(e) *The person offered to license the patent for an amount that is not based on a reasonable estimate of the value of the license.*

(f) *The claim or assertion of patent infringement is unenforceable, and the person knew, or should have known, that the claim or assertion was unenforceable.*

(g) *The claim or assertion of patent infringement is deceptive.*

(h) *The person, including its subsidiaries or affiliates, has previously filed or threatened to file one or more lawsuits based on the same or a similar claim of patent infringement and:*

1. *The threats or lawsuits lacked the information listed under paragraph (a); or*

2. *The person sued to enforce the claim of patent infringement and a court found the claim to be meritless.*

(i) *Any other factor the court finds relevant.*

(2) *A court may consider the following factors as evidence that a person has not made a bad faith assertion of patent infringement:*

(a) *The demand letter contained the information listed under paragraph (1)(a).*

(b) *The demand letter did not contain the information listed under paragraph (1)(a), the target requested the information, and the person provided the information within a reasonable period.*

(c) *The person engaged in a good faith effort to establish that the target has infringed the patent and negotiated an appropriate remedy.*

(d) *The person made a substantial investment in the use of the patented invention or discovery or in a product or sale of a product or item covered by the patent.*

(e) *The person is the inventor or joint inventor of the patented invention or discovery, or in the case of a patent filed by and awarded to an assignee of the original inventor or joint inventors, is the original assignee.*

(f) *The person has:*

1. *Demonstrated good faith business practices in previous efforts to enforce the patent, or a substantially similar patent; or*

2. *Successfully enforced the patent, or a substantially similar patent, through litigation.*

(g) *Any other factor the court finds relevant.*

Section 10. Section 501.994, Florida Statutes, is created to read:

501.994 *Bond.*—If a person initiates a proceeding against a target in a court of competent jurisdiction, the target may move that the proceeding involves a bad faith assertion of patent infringement in violation of this part and request that the court issue a protective order. After the motion, and if the court finds that the target has established a reasonable likelihood that the plaintiff has made a bad faith assertion of patent infringement, the court must require the plaintiff to post a bond in an amount equal to the lesser of \$250,000 or a good faith estimate of the

target's expense of litigation, including an estimate of reasonable attorney fees, conditioned on payment of any amount finally determined to be due to the target. The court shall hold a hearing at either party's request. A court may waive the bond requirement for good cause shown or if it finds the plaintiff has available assets equal to the amount of the proposed bond.

Section 11. Section 501.995, Florida Statutes, is created to read:

501.995 Private right of action.—A person aggrieved by a violation of this part may bring an action in a court of competent jurisdiction. A court may award the following remedies to a prevailing plaintiff in an action brought pursuant to this section:

- (1) Equitable relief;*
- (2) Damages;*
- (3) Costs and fees, including reasonable attorney fees; and*
- (4) Punitive damages in an amount equal to \$50,000 or three times the total damages, costs, and fees, whichever is greater.*

Section 12. Section 501.996, Florida Statutes, is created to read:

501.996 Enforcement.—A violation of this part is an unfair or deceptive trade practice under part II of this chapter.

Section 13. Section 501.997, Florida Statutes, is created to read:

501.997 Exemptions.—This part does not apply to an institution of higher education, to a technology transfer organization owned by or affiliated with an institution of higher education, or to a demand letter or an assertion of patent infringement that includes a claim for relief arising under 35 U.S.C. s. 271(e)(2) or 42 U.S.C. s. 262.

PRAYER

The following prayer was offered by Senior Pastor Kyle Peddie, Corinth Baptist Church, Hosford:

Heavenly Father, we come to you this beautiful spring morning to pause and give thanks to the giver of life, the king of kings, the lord of lords, creator, and savior. We pause to give thanks for the day that you have made, and we will rejoice and be glad in it. I ask, Father, that you would bless this day as our Florida Senate convenes and continues to do the work for the people of the great state of Florida.

It has indeed been a great session, and as it ever draws near to the end, I would humbly ask you to continue to impart wisdom and discernment to the Senators in this great chamber. Many have served here in the past and have established a tradition of integrity and statesmanship that continues with the ones serving today. May the attitude of everyone in public service, from the Governor, to the school volunteer in the smallest community, be that of truly loving our neighbor as we love ourselves. I would ask you to bless each and every Senator's family, marriage, children, and extended family while they are away from home serving in this chamber today. May your hedge of protection be upon them. As they work today and for the rest of the session, may your will be done.

We believe in the risen Lord, the finished work of the cross, and *John 14:6* that says, "You are the way, the truth, and the life." Bless all the Senators today, bless Senate President Gardiner as he leads, and bless my Senator, Senator Bill Montford. In Jesus' name I pray. Amen.

PLEDGE

Senate Pages, Marc Geller of Cooper City, son of former Senator Steve Geller; Quinn Huckaba of Tallahassee; Phoebe O'Neill of Lake Wales; and Gracie Darlington of Eustis, led the Senate in the Pledge of Allegiance to the flag of the United States of America.

DOCTOR OF THE DAY

The President recognized Dr. Philip P. Mularoni of St. Petersburg, sponsored by Senator Brandes, as the doctor of the day. Dr. Mularoni specializes in pediatric emergency and sports medicine.

(4)(a) Any district created pursuant to this section may be dissolved by a special act of the Legislature, or the county governing body may by ordinance dissolve the district subject to the approval of the electorate.

(b)1.a. Notwithstanding paragraph (a), the governing body of the county shall submit the question of retention or dissolution of a district with voter-approved taxing authority to the electorate in the general election according to the following schedule:

If a woman has exercised her right to waive the state-mandated delay, the woman's health care provider is not subject to any criminal, civil, or administrative penalty for failure to secure consent 24 hours in advance of the procedure. The patient's signature noting that she has exercised her right to waive the 24-hour waiting period requirement is sufficient proof of the provider's compliance with the requirements of this subparagraph. This subparagraph does not alter the health care provider's duty to obtain voluntary and informed consent as otherwise required by this section.

(a) The Legislature recognizes that early referral and comprehensive treatment can help combat *mental illnesses and substance abuse disorders* in families and that treatment is cost-effective.

(b) The Legislature establishes the following goals for the state related to *mental illness and substance abuse treatment services* in the dependency process:

1. To ensure the safety of children.

2. To prevent and remediate the consequences of *mental illnesses and substance abuse disorders* on families involved in protective supervision or foster care and reduce the occurrences of *mental illnesses and substance abuse disorders*, including alcohol abuse or related disorders, for families who are at risk of being involved in protective supervision or foster care.

3. To expedite permanency for children and reunify healthy, intact families, when appropriate.

4. To support families in recovery.

(c) The Legislature finds that children in the care of the state's dependency system need appropriate health care services, that the impact of *mental illnesses and substance abuse disorders* on health indicates the need for health care services to include *treatment for mental health and substance abuse disorders for services to children and parents where*

appropriate, and that it is in the state's best interest that such children be provided the services they need to enable them to become and remain independent of state care. In order to provide these services, the state's dependency system must have the ability to identify and provide appropriate intervention and treatment for children with personal or family-related *mental illness* and substance abuse problems.

(d) It is the intent of the Legislature to encourage the use of the *treatment-based mental health court program model established under s. 394.47892* and the drug court program model established under ~~by~~ s. 397.334 and authorize courts to assess children and persons who have custody or are requesting custody of children where good cause is shown to identify and address *mental illnesses* and substance abuse ~~problems~~ as the court deems appropriate at every stage of the dependency process. Participation in treatment, including a *treatment-based mental health court program* or a treatment-based drug court program, may be required by the court following adjudication. Participation in assessment and treatment ~~before~~ ~~prior to~~ adjudication is ~~shall~~ be voluntary, except as provided in s. 39.407(16).

(e) It is therefore the purpose of the Legislature to provide authority for the state to contract with *mental health service providers* and community substance abuse treatment providers for the development and operation of specialized support and overlay services for the dependency system, which will be fully implemented and used as resources permit.

(f) Participation in a *treatment-based mental health court program* or a ~~the~~ treatment-based drug court program does not divest any public or private agency of its responsibility for a child or adult, but is intended to enable these agencies to better meet their needs through shared responsibility and resources.

Section 4. Subsection (10) of section 39.507, Florida Statutes, is amended to read:

39.507 Adjudicatory hearings; orders of adjudication.—

(10) After an adjudication of dependency, or a finding of dependency where adjudication is withheld, the court may order a person who has custody or is requesting custody of the child to submit to a *mental health* or substance abuse *disorder* assessment or evaluation. The assessment or evaluation must be administered by a qualified professional, as defined in s. 397.311. The court may also require such person to participate in and comply with treatment and services identified as necessary, including, when appropriate and available, participation in and compliance with a *treatment-based mental health court program established under s. 394.47892* or a treatment-based drug court program established under s. 397.334. In addition to supervision by the department, the court, including the *treatment-based mental health court program* or treatment-based drug court program, may oversee the progress and compliance with treatment by a person who has custody or is requesting custody of the child. The court may impose appropriate available sanctions for noncompliance upon a person who has custody or is requesting custody of the child or make a finding of noncompliance for consideration in determining whether an alternative placement of the child is in the child's best interests. Any order entered under this subsection may be made only upon good cause shown. This subsection does not authorize placement of a child with a person seeking custody, other than the parent or legal custodian, who requires *mental health* or substance abuse *disorder* treatment.

Section 5. Paragraph (b) of subsection (1) of section 39.521, Florida Statutes, is amended to read:

39.521 Disposition hearings; powers of disposition.—

(1) A disposition hearing shall be conducted by the court, if the court finds that the facts alleged in the petition for dependency were proven in the adjudicatory hearing, or if the parents or legal custodians have consented to the finding of dependency or admitted the allegations in the petition, have failed to appear for the arraignment hearing after proper notice, or have not been located despite a diligent search having been conducted.

(b) When any child is adjudicated by a court to be dependent, the court having jurisdiction of the child has the power by order to:

1. Require the parent and, when appropriate, the legal custodian and the child to participate in treatment and services identified as necessary. The court may require the person who has custody or who is requesting custody of the child to submit to a *mental health* or substance abuse *disorder* assessment or evaluation. The assessment or evaluation must be administered by a qualified professional, as defined in s. 397.311. The court may also require such person to participate in and comply with treatment and services identified as necessary, including, when appropriate and available, participation in and compliance with a *treatment-based mental health court program established under s. 394.47892* or treatment-based drug court program established under s. 397.334. In addition to supervision by the department, the court, including the *treatment-based mental health court program* or treatment-based drug court program, may oversee the progress and compliance with treatment by a person who has custody or is requesting custody of the child. The court may impose appropriate available sanctions for noncompliance upon a person who has custody or is requesting custody of the child or make a finding of noncompliance for consideration in determining whether an alternative placement of the child is in the child's best interests. Any order entered under this subparagraph may be made only upon good cause shown. This subparagraph does not authorize placement of a child with a person seeking custody of the child, other than the child's parent or legal custodian, who requires *mental health* or substance abuse *disorder* treatment.

2. Require, if the court deems necessary, the parties to participate in dependency mediation.

3. Require placement of the child either under the protective supervision of an authorized agent of the department in the home of one or both of the child's parents or in the home of a relative of the child or another adult approved by the court, or in the custody of the department. Protective supervision continues until the court terminates it or until the child reaches the age of 18, whichever date is first. Protective supervision shall be terminated by the court whenever the court determines that permanency has been achieved for the child, whether with a parent, another relative, or a legal custodian, and that protective supervision is no longer needed. The termination of supervision may be with or without retaining jurisdiction, at the court's discretion, and shall in either case be considered a permanency option for the child. The order terminating supervision by the department shall set forth the powers of the custodian of the child and shall include the powers ordinarily granted to a guardian of the person of a minor unless otherwise specified. Upon the court's termination of supervision by the department, no further judicial reviews are required, so long as permanency has been established for the child.

Section 35. Section 944.805, Florida Statutes, is created to read:

944.805 Nonviolent offender reentry program.—

(1) As used in this section, the term:

- (a) “Department” means the Department of Corrections.
- (b) “Nonviolent offender” means an offender whose primary offense is a felony of the third degree, who is not the subject of a domestic violence injunction currently in force, and who has never been convicted of:
 - 1. A forcible felony as defined in s. 776.08;
 - 2. An offense specified in s. 775.082(9)(a)1.r., regardless of prior incarceration or release;
 - 3. An offense described in chapter 847;
 - 4. An offense under chapter 827;

5. Any offense specified in s. 784.07, s. 784.074, s. 784.075, s. 784.076, s. 784.08, s. 784.083, or s. 784.085;

6. Any offense involving the possession or use of a firearm;

7. A capital felony or a felony of the first or second degree;

8. Any offense that requires a person to register as a sexual offender pursuant to s. 943.0435.

(2)(a) The department shall develop and administer a reentry program for nonviolent offenders. The reentry program must include prison-based substance abuse treatment, general education development and adult basic education courses, vocational training, training in decision-making and personal development, and other rehabilitation programs.

(b) The reentry program is intended to divert nonviolent offenders from long periods of incarceration when a reduced period of incarceration supplemented by participation in intensive substance abuse treatment and rehabilitative programming could produce the same deterrent effect, protect the public, rehabilitate the offender, and reduce recidivism.

(c) The nonviolent offender must serve at least 6 months in the reentry program. The offender may not count any portion of his or her sentence served before placement in the reentry program as progress toward program completion.

(d) A reentry program may be operated in a secure area in or adjacent to a correctional institution.

(3) The department shall screen offenders committed to the department for eligibility to participate in the reentry program using the criteria in this section. To be eligible, an offender must be a nonviolent offender, must have served at least one-half of his or her original sentence, and must have been identified as needing substance abuse treatment.

(4) In addition, the department must consider the following factors when selecting participants for the reentry program:

- (a) The offender’s history of disciplinary reports.
- (b) The offender’s criminal history.
- (c) The severity of the offender’s addiction.
- (d) The offender’s history of criminal behavior related to substance abuse.
- (e) Whether the offender has participated or requested to participate in any general educational development certificate program or other educational, technical, work, vocational, or self-rehabilitation program.
- (f) The results of any risk assessment of the offender.
- (g) The outcome of all past participation of the offender in substance abuse treatment programs.
- (h) The possible rehabilitative benefits that substance abuse treatment, educational programming, vocational training, and other rehabilitative programming might have on the offender.
- (i) The likelihood that the offender’s participation in the program will produce the same deterrent effect, protect the public, save taxpayer dollars, and prevent or delay recidivism to an equal or greater extent than completion of the sentence previously imposed.

(5)(a) If an offender volunteers to participate in the reentry program, meets the eligibility criteria, and is selected by the department based on the considerations in subsection (4) and if space is available in the reentry program, the department may request the sentencing court to approve the offender’s participation in the reentry program. The request must be made in writing, must include a brief summation of the department’s evaluation under subsection (4), and must identify the documents or other information upon which the evaluation is based. The request and all accompanying documents may be delivered to the sentencing court electronically.

(b)1. The department shall notify the state attorney that the offender is being considered for placement in the reentry program. The notice must

include a copy of all documents provided with the request to the court. The notice and all accompanying documents may be delivered to the state attorney electronically and may take the form of a copy of an electronic delivery made to the sentencing court.

2. The notice must also state that the state attorney may notify the sentencing court in writing of any objection he or she may have to placement of the nonviolent offender in the reentry program. Such notification must be made within 15 days after receipt of the notice by the state attorney from the department. Regardless of whether an objection is raised, the state attorney may provide the sentencing court with any information supplemental or contrary to the information provided by the department which may assist the court in its determination.

(c) In determining whether to approve a nonviolent offender for participation in the reentry program, the sentencing court may consider any facts that the court considers relevant, including, but not limited to, the criteria listed in subsection (4); the original sentencing report and any evidence admitted in a previous sentencing proceeding; the offender's record of arrests without conviction for crimes; any other evidence of allegations of unlawful conduct or the use of violence by the offender; the offender's family ties, length of residence in the community, employment history, and mental condition; the likelihood that participation in the program will produce the same deterrent effect, rehabilitate the offender, and prevent or delay recidivism to an equal or greater extent than completion of the sentence previously imposed; and the likelihood that the offender will engage again in criminal conduct.

(d) The sentencing court shall notify the department in writing of the court's decision to approve or disapprove the requested placement of the nonviolent offender no later than 30 days after the court receives the department's request to place the offender in the reentry program. If the court approves the placement, the notification must list the factors upon which the court relied in making its determination.

(6) After the nonviolent offender is admitted to the reentry program, he or she shall undergo a complete substance abuse assessment to determine his or her substance abuse treatment needs. The offender shall also receive an educational assessment, which must be accomplished using the Test of Adult Basic Education or any other testing instrument approved by the Department of Education. Each offender who has not obtained a high school diploma shall be enrolled in an adult education program designed to aid the offender in improving his or her academic skills and earning a high school diploma. Additional assessments of the offender's vocational skills and future career education shall be provided to the offender as needed. A periodic reevaluation shall be made to assess the progress of each offender.

(7)(a) If a nonviolent offender in the reentry program becomes unmanageable, the department may revoke the offender's gain-time and place the offender in disciplinary confinement in accordance with department rule. Except as provided in paragraph (b), the offender shall be readmitted to the reentry program after completing the ordered discipline. Any period during which the offender cannot participate in the reentry program must be excluded from the specified time requirements in the reentry program.

(b) The department may terminate an offender from the reentry program if:

1. The offender commits or threatens to commit a violent act;
2. The department determines that the offender cannot participate in the reentry program because of the offender's medical condition;
3. The offender's sentence is modified or expires;
4. The department reassigns the offender's classification status; or
5. The department determines that removing the offender from the reentry program is in the best interest of the offender or the security of the reentry program facility.

(8)(a) The department shall submit a report to the sentencing court at least 30 days before the nonviolent offender is scheduled to complete the reentry program. The report must describe the offender's performance in the reentry program and certify whether the performance is satisfactory. The court may schedule a hearing to consider any modification to the imposed sentence. Notwithstanding the eligibility criteria contained in s.

948.20, if the offender's performance is satisfactory to the department and the court, the court shall issue an order modifying the sentence imposed and placing the offender on drug offender probation, as described in s. 948.20(2), subject to the department's certification of the offender's successful completion of the remainder of the reentry program. The term of drug offender probation must not be less than the remaining time the offender would have served in prison had he or she not participated in the program. A condition of drug offender probation may include electronic monitoring or placement in a community residential or nonresidential licensed substance abuse treatment facility under the jurisdiction of the department or the Department of Children and Families or any public or private entity providing such services. The order must include findings that the offender's performance is satisfactory, that the requirements for resentencing under this section are satisfied, and that public safety will not be compromised. If the nonviolent offender violates the conditions of drug offender probation, the court may revoke probation and impose any sentence that it might have originally imposed. An offender may not be released from the custody of the department under this section except pursuant to a judicial order modifying his or her sentence.

(b) If an offender released pursuant to paragraph (a) intends to reside in a county that has established a postadjudicatory drug court program as described in s. 397.334, the sentencing court may require the offender to successfully complete the postadjudicatory drug court program as a condition of drug offender probation. The original sentencing court shall relinquish jurisdiction of the offender's case to the postadjudicatory drug court program until the offender is no longer active in the program, the case is returned to the sentencing court due to the offender's termination from the program for failure to comply with the terms of the program, or the offender's sentence is completed. An offender who is transferred to a postadjudicatory drug court program shall comply with all conditions and orders of the program.

(9) The department shall implement the reentry program to the fullest extent feasible within available resources.

(10) The department may enter into performance-based contracts with qualified individuals, agencies, or corporations for the provision of any or all of the services for the reentry program. However, an offender may not be released from the custody of the department under this section except pursuant to a judicial order modifying a sentence.

(11) A nonviolent offender in the reentry program is subject to rules of conduct established by the department and may have sanctions imposed, including loss of privileges, restrictions, disciplinary confinement, alteration of release plans, or other program modifications in keeping with the nature and gravity of the program violation. Administrative or protective confinement, as necessary, may be imposed.

(12) This section does not create or confer any right to any offender to placement in the reentry program or any right to placement or early release under supervision of any type. An inmate does not have a cause of action under this section against the department, a court, or the state attorney related to the reentry program.

(13) The department may establish a system of incentives within the reentry program which the department may use to promote participation in rehabilitative programs and the orderly operation of institutions and facilities.

(14) The department shall develop a system for tracking recidivism, including, but not limited to, rearrests and recommitment of nonviolent offenders who successfully complete the reentry program, and shall report the recidivism rate in the annual report required under this section.

(15) The department shall submit an annual report to the Governor, the President of the Senate, and the Speaker of the House of Representatives detailing the extent of implementation of the reentry program and the number of participants who are selected by the department, the number of participants who are approved by the court, and the number of participants who successfully complete the program. The report must include a reasonable estimate or description of the additional public costs incurred and any public funds saved with respect to each participant, a brief description of each sentence modification, and a brief description of the subsequent criminal history, if any, of each participant following any modification of sentence under this section. The report must also include future goals and any recommendations that the department has for future legislative action.

(16) *The department shall adopt rules as necessary to administer the reentry program.*

(17) *Nothing in this section is severable from the remaining provisions of this section. If any subsection of this section is determined by any state or federal court to be not fully enforceable, this section shall stand repealed in its entirety.*

Section 55. Effective July 1, 2016, paragraph (a) of subsection (2) of section 790.065, Florida Statutes, is amended to read:

790.065 Sale and delivery of firearms.—

(2) Upon receipt of a request for a criminal history record check, the Department of Law Enforcement shall, during the licensee's call or by return call, forthwith:

(a) Review any records available to determine if the potential buyer or transferee:

1. Has been convicted of a felony and is prohibited from receipt or possession of a firearm pursuant to s. 790.23;

2. Has been convicted of a misdemeanor crime of domestic violence, and therefore is prohibited from purchasing a firearm;

3. Has had adjudication of guilt withheld or imposition of sentence suspended on any felony or misdemeanor crime of domestic violence unless 3 years have elapsed since probation or any other conditions set by the court have been fulfilled or expunction has occurred; or

4. Has been adjudicated mentally defective or has been committed to a mental institution by a court or as provided in sub-sub-paragraph b.(II), and as a result is prohibited by state or federal law from purchasing a firearm.

a. As used in this subparagraph, "adjudicated mentally defective" means a determination by a court that a person, as a result of marked subnormal intelligence, or mental illness, incompetency, condition, or disease, is a danger to himself or herself or to others or lacks the mental capacity to contract or manage his or her own affairs. The phrase includes a judicial finding of incapacity under s. 744.331(6)(a), an acquittal by reason of insanity of a person charged with a criminal offense, and a judicial finding that a criminal defendant is not competent to stand trial.

b. As used in this subparagraph, "committed to a mental institution" means:

(I) Involuntary commitment, commitment for mental defectiveness or mental illness, and commitment for substance abuse. The phrase includes involuntary inpatient placement as defined in s. 394.467, involuntary outpatient placement as defined in s. 394.4655, involuntary assessment and stabilization under s. 394.463(2)(g) ~~s. 397.6818~~, or ~~and~~ involuntary substance abuse treatment under s. 394.463 ~~s. 397.6957~~, but does not include a person in a mental institution for observation or discharged from a mental institution based upon the initial review by the physician or a voluntary admission to a mental institution; or

(II) Notwithstanding sub-sub-paragraph (I), voluntary admission to a mental institution for outpatient or inpatient treatment of a person who had an involuntary examination under s. 394.463, where each of the following conditions have been met:

(A) An examining physician found that the person is an imminent danger to himself or herself or others.

(B) The examining physician certified that if the person did not agree to voluntary treatment, a petition for involuntary outpatient or inpatient treatment would have been filed under s. 394.463(2)(g) ~~s. 394.463(2)(4)~~, or the examining physician certified that a petition was filed and the person subsequently agreed to voluntary treatment prior to a court hearing on the petition.

(C) Before agreeing to voluntary treatment, the person received written notice of that finding and certification, and written notice that as a result of such finding, he or she may be prohibited from purchasing a firearm, and may not be eligible to apply for or retain a concealed weapon or firearms license under s. 790.06 and the person acknowledged such notice in writing, in substantially the following form:

"I understand that the doctor who examined me believes I am a danger to myself or to others. I understand that if I do not agree to voluntary treatment, a petition will be filed in court to require me to receive in-

voluntary treatment. I understand that if that petition is filed, I have the right to contest it. In the event a petition has been filed, I understand that I can subsequently agree to voluntary treatment prior to a court hearing. I understand that by agreeing to voluntary treatment in either of these situations, I may be prohibited from buying firearms and from applying for or retaining a concealed weapons or firearms license until I apply for and receive relief from that restriction under Florida law."

(D) A judge or a magistrate has, pursuant to sub-sub-paragraph c.(II), reviewed the record of the finding, certification, notice, and written acknowledgment classifying the person as an imminent danger to himself or herself or others, and ordered that such record be submitted to the department.

c. In order to check for these conditions, the department shall compile and maintain an automated database of persons who are prohibited from purchasing a firearm based on court records of adjudications of mental defectiveness or commitments to mental institutions.

(I) Except as provided in sub-sub-paragraph (II), clerks of court shall submit these records to the department within 1 month after the rendition of the adjudication or commitment. Reports shall be submitted in an automated format. The reports must, at a minimum, include the name, along with any known alias or former name, the sex, and the date of birth of the subject.

(II) For persons committed to a mental institution pursuant to sub-sub-paragraph b.(II), within 24 hours after the person's agreement to voluntary admission, a record of the finding, certification, notice, and written acknowledgment must be filed by the administrator of the receiving or treatment facility, as defined in s. 394.455, with the clerk of the court for the county in which the involuntary examination under s. 394.463 occurred. No fee shall be charged for the filing under this sub-sub-paragraph. The clerk must present the records to a judge or magistrate within 24 hours after receipt of the records. A judge or magistrate is required and has the lawful authority to review the records ex parte and, if the judge or magistrate determines that the record supports the classifying of the person as an imminent danger to himself or herself or others, to order that the record be submitted to the department. If a judge or magistrate orders the submittal of the record to the department, the record must be submitted to the department within 24 hours.

d. A person who has been adjudicated mentally defective or committed to a mental institution, as those terms are defined in this paragraph, may petition the circuit court that made the adjudication or commitment, or the court that ordered that the record be submitted to the department pursuant to sub-sub-paragraph c.(II), for relief from the firearm disabilities imposed by such adjudication or commitment. A copy of the petition shall be served on the state attorney for the county in which the person was adjudicated or committed. The state attorney may object to and present evidence relevant to the relief sought by the petition. The hearing on the petition may be open or closed as the petitioner may choose. The petitioner may present evidence and subpoena witnesses to appear at the hearing on the petition. The petitioner may confront and cross-examine witnesses called by the state attorney. A record of the hearing shall be made by a certified court reporter or by court-approved electronic means. The court shall make written findings of fact and conclusions of law on the issues before it and issue a final order. The court shall grant the relief requested in the petition if the court finds, based on the evidence presented with respect to the petitioner's reputation, the petitioner's mental health record and, if applicable, criminal history record, the circumstances surrounding the firearm disability, and any other evidence in the record, that the petitioner will not be likely to act in a manner that is dangerous to public safety and that granting the relief would not be contrary to the public interest. If the final order denies relief, the petitioner may not petition again for relief from firearm disabilities until 1 year after the date of the final order. The petitioner may seek judicial review of a final order denying relief in the district court of appeal having jurisdiction over the court that issued the order. The review shall be conducted de novo. Relief from a firearm disability granted under this sub-sub-paragraph has no effect on the loss of civil rights, including firearm rights, for any reason other than the particular adjudication of mental defectiveness or commitment to a mental institution from which relief is granted.

e. Upon receipt of proper notice of relief from firearm disabilities granted under sub-subparagraph d., the department shall delete any mental health record of the person granted relief from the automated

database of persons who are prohibited from purchasing a firearm based on court records of adjudications of mental defectiveness or commitments to mental institutions.

f. The department is authorized to disclose data collected pursuant to this subparagraph to agencies of the Federal Government and other states for use exclusively in determining the lawfulness of a firearm sale or transfer. The department is also authorized to disclose this data to the Department of Agriculture and Consumer Services for purposes of determining eligibility for issuance of a concealed weapons or concealed firearms license and for determining whether a basis exists for revoking or suspending a previously issued license pursuant to s. 790.06(10). When a potential buyer or transferee appeals a nonapproval based on these records, the clerks of court and mental institutions shall, upon request by the department, provide information to help determine whether the potential buyer or transferee is the same person as the subject of the record. Photographs and any other data that could confirm or negate identity must be made available to the department for such purposes, notwithstanding any other provision of state law to the contrary. Any such information that is made confidential or exempt from disclosure by law shall retain such confidential or exempt status when transferred to the department.

394.9082 Behavioral health managing entities.—

(1) **LEGISLATIVE FINDINGS AND INTENT.**—The Legislature finds that untreated behavioral health disorders constitute major health problems for residents of this state, are a major economic burden to the citizens of this state, and substantially increase demands on the state's juvenile and adult criminal justice systems, the child welfare system, and health care systems. The Legislature finds that behavioral health disorders respond to appropriate treatment, rehabilitation, and supportive intervention. The Legislature finds that a regional management structure that facilitates a comprehensive and cohesive system of coordinated care for ~~places the responsibility for publicly financed behavioral health treatment and prevention services within a single private, nonprofit entity at the local level will improve promote improved access to care, promote service continuity, and provide for more efficient and effective delivery of substance abuse and mental health services. The Legislature finds that streamlining administrative processes will create cost efficiencies and provide flexibility to better match available services to consumers' identified needs.~~

(2) **DEFINITIONS.**—As used in this section, the term:

(a) “Behavioral health services” means mental health services and substance abuse prevention and treatment services as defined in this chapter and chapter 397 which are provided using state and federal funds.

(b) “Decisionmaking model” means a comprehensive management information system needed to answer the following management questions at the federal, state, regional, circuit, and local provider levels: who receives what services from which providers with what outcomes and at what costs?

(b)(e) “Geographic area” means a county, circuit, ~~regional~~, or a region as described in s. 409.966 ~~multiregional area in this state.~~

(e) “Provider networks” mean the direct service agencies ~~that are~~ under contract with a managing entity ~~to provide behavioral health services. and that together constitute~~ The provider network may also include noncontracted providers as partners in the delivery of coordinated care and a comprehensive array of emergency, acute care, residential, outpatient, recovery support, and consumer support services.

~~(3) SERVICE DELIVERY STRATEGIES. The department may work through managing entities to develop service delivery strategies that will improve the coordination, integration, and management of the delivery of behavioral health services to people who have mental or substance use disorders. It is the intent of the Legislature that a well-managed service delivery system will increase access for those in need of care, improve the coordination and continuity of care for vulnerable and high risk populations, and redirect service dollars from restrictive care settings to community based recovery services.~~

(3)(4) **CONTRACT FOR SERVICES.**—

(a) The department ~~must~~ may contract for the purchase and management of behavioral health services with community-based organizations to serve as managing entities. The department may require a managing entity to contract for specialized services that are not currently part of the managing entity's network if the department determines that to do so is in the best interests of consumers of services. The secretary shall determine the schedule for phasing in contracts with managing entities. The managing entities shall, at a minimum, be accountable for the operational oversight of the delivery of behavioral health services funded by the department and for the collection and submission of the required data pertaining to these contracted services. A managing entity shall serve a geographic area designated by the department. The geographic area must be of sufficient size in population, funding, and services and have enough public funds for behavioral health services to allow for flexibility and maximum efficiency.

(b) ~~The operating costs of the managing entity contract shall be funded through funds from the department and any savings and efficiencies achieved through the implementation of managing entities when realized by their participating provider network agencies. The department recognizes that managing entities will have infrastructure development costs during start up so that any efficiencies to be realized by providers from consolidation of management functions, and the resulting savings, will not be achieved during the early years of operation. The department shall negotiate a reasonable and appropriate administrative cost rate with the managing entity. The Legislature intends that reduced local and state contract management and other administrative duties passed on to the managing entity allows funds previously allocated for these purposes to be proportionately reduced and the savings used to purchase the administrative functions of the managing entity. Policies and procedures of the department for monitoring contracts with managing entities shall include provisions for eliminating duplication of the department's and the managing entities' contract management and other administrative activities in order to achieve the goals of cost effectiveness and regulatory relief. To the maximum extent possible, provider monitoring activities shall be assigned to the managing entity.~~

(c) Contracting and payment mechanisms for services must promote clinical and financial flexibility and responsiveness and must allow different categorical funds to be integrated at the point of service. The contracted service array must be determined by using public input, needs assessment, and evidence-based and promising best practice models. The department may employ care management methodologies, prepaid capitation, and case rate or other methods of payment which promote flexibility, efficiency, and accountability.

(b) The primary contractual responsibilities of the managing entity are administrative and fiscal management duties necessary to comply with federal requirements for the Substance Abuse and Mental Health Services grant and to enter into subcontracts with behavioral health service providers using funds appropriated by the Legislature for this purpose. Additional duties of the managing entity include:

1. Assessing community needs for behavioral health services;

2. Collecting and reporting data, including use of a unique identifier developed by the department to facilitate consumer care coordination;

3. Monitoring provider performance through application of nationally recognized standards;

4. Promoting quality improvement through dissemination of evidence informed practices;

5. Facilitating effective provider relationships and arrangements that support coordinated service delivery and continuity of care; and

6. Advising the department on ways to improve behavioral health outcomes.

(c) No later than July 1, 2016, the department shall revise contracts with all current managing entities. The revised contract shall be for a term of 5 years with an option to renew for an additional 5 years. The revised contract will be performance based, which means the contract establishes a limited number of measurable outcomes, sets timelines for achievement of those outcomes that are characterized by specific milestones, and establishes a schedule of penalties scaled to the nature and significance of the performance failure. Such penalties may include a corrective action plan, liquidated damages, or termination of the contract.

(d) The revised contract must establish a clear and consistent framework for managing limited resources to serve priority populations identified in federal regulations and state law.

(e) In developing the revised contract, the department must consult with current managing entities, behavioral health service providers, and the Legislature.

(f) The revised contract will incorporate a plan prepared by the managing entity that describes how the managing entity and the provider network in the region will earn, no later than July 1, 2019, the designation of coordinated care organization pursuant to subsection (5).

(g) The department may terminate a contract with a managing entity for causes specified in the contract or for failure to earn designation as a coordinated care organization in accordance with the plan approved by the department.

(h) When necessary due to contract termination or the expiration of the allowable contract term, the department will issue an invitation to negotiate in order to select an organization to serve as a managing entity. Qualified bidders include managing entities, managed behavioral health organizations or nonprofit organizations with experience managing integrated provider networks specializing in behavioral health services. The department shall consider the input and recommendations of the provider network when selecting a new contractor. The invitation to negotiate shall specify the criteria and the relative weight of the criteria that will be used in selecting the new contractor. The department must consider all of the following factors:

1. Experience serving persons with mental health and substance use disorders.

2. Establishment of community partnerships with behavioral health providers.

3. Demonstrated organizational capabilities for network management functions.

4. Capability to integrate behavioral health with primary care services.

(i) When the contractor serving as the managing entity changes, the department is responsible for developing and implementing a transition plan that ensures continuity of care for patients receiving behavioral health services.

(4)(5) GOALS.—The goal of the service delivery strategies is to provide a design for an effective coordination, integration, and management approach for delivering effective behavioral health services to persons who are experiencing a mental health or substance abuse crisis, who have a disabling mental illness or a substance use or co-occurring disorder, and require extended services in order to recover from their illness, or who need brief treatment or longer term supportive interven-

tions to avoid a crisis or disability. Other goals include The department must develop and incorporate into the revised contract with the managing entities, measureable outcome standards that address the following goals:

(a) The provider network in the region delivers effective, quality services that are evidence-informed, coordinated, and integrated with primary care services and other programs such as vocational rehabilitation, education, child welfare, juvenile justice, and criminal justice.

(b)(a) Behavioral health services supported with public funds are accountable to the public and responsive to local needs Improving accountability for a local system of behavioral health care services to meet performance outcomes and standards through the use of reliable and timely data.

(c)(b) Interactions and relationships among members of the provider network are supported by the managing entity in order to effectively coordinate services and provide continuity of care for priority populations Enhancing the continuity of care for all children, adolescents, and adults who enter the publicly funded behavioral health service system.

(c) Preserving the “safety net” of publicly funded behavioral health services and providers, and recognizing and ensuring continued local contributions to these services, by establishing locally designed and community monitored systems of care.

(d) Providing early diagnosis and treatment interventions to enhance recovery and prevent hospitalization.

(e) Improving the assessment of local needs for behavioral health services.

(f) Improving the overall quality of behavioral health services through the use of evidence based, best practice, and promising practice models.

(g) Demonstrating improved service integration between behavioral health programs and other programs, such as vocational rehabilitation, education, child welfare, primary health care, emergency services, juvenile justice, and criminal justice.

(h) Providing for additional testing of creative and flexible strategies for financing behavioral health services to enhance individualized treatment and support services.

(i) Promoting cost effective quality care.

(j) Working with the state to coordinate admissions and discharges from state civil and forensic hospitals and coordinating admissions and discharges from residential treatment centers.

(k) Improving the integration, accessibility, and dissemination of behavioral health data for planning and monitoring purposes.

(l) Promoting specialized behavioral health services to residents of assisted living facilities.

(m) Working with the state and other stakeholders to reduce the admissions and the length of stay for dependent children in residential treatment centers.
