PRAYER

The following prayer was offered by Pastor Steven Kyle, Hiland Park Baptist Church, Panama City:

Dear Heavenly Father,

Today, we thank you for your love, we thank you for your grace, and we thank you for your mercy that sustain us. Father, we thank you for the gift of life and providing for our daily needs. Lord, we thank you for the freedom that you have given to this great country of ours, and we pray for the safety of our many military men and women around this world.

Today, God, we ask for wisdom and guidance for the men and women serving the people of the State of Florida in the Senate. Our prayer is for their safety and that you receive honor and glory through the decisions made. Father, we pray that you will continue to use this Senate to govern our state as they protect the innocent and sustain our God-given freedoms. May they sense your strength and resolve even during the most difficult of times. We ask you to bless and encourage their families.

Lord, even though we do not know tomorrow or even the next hour, we praise you for your omniscient sovereignty. May your hand be the hand that guides the United States of America. God, may your hand be the hand that guides the State of Florida. Please, Father, use these Senators as vessels of your perfect will and accomplish your divine plans through their work.

Father, we thank you for your salvation, peace, and purpose. We thank you, Father, for the power of prayer linking our temporary to your eternal.

I pray this prayer today in the name of my Savior, Jesus Christ. Amen.

PRAYER

The following prayer was offered by Major Timothy Gilliam, Salvation Army Area Commander, Fort Myers:

Gracious heavenly Father, we acknowledge you as creator, preserver, and governor of all things, and as we gather here today, we do so with a spirit of unity and gratitude for all the blessings you've bestowed upon us. We ask that you give our elected leaders your anointing, your protection, and your blessing as they strive to fulfill the sacred trust of the people. Give our leaders your wisdom for every decision and help them to think clearly. Grant them your discernment and endow them with common sense so they will be strong and effective. Help them to govern with integrity, and may that integrity guide them and keep them on track.

We pray that our leaders would follow your principles and that their steps would be directed by your word because the decisions they make have great impact on all our lives. Be their defender, as you keep them alert and on guard for our state. Grant them your encouragement as they make every effort to do what is right; not necessarily what is easy, popular, or convenient.

We thank you for this beautiful state we call Florida. You have called each of us to protect its resources: the lands, the waters, the treasures, but most importantly, the people. Again, we ask that you guide our

Governor and our State Legislators as they enact laws and policies that ensure the peace, liberty, and prosperity of all Floridians.

Father, we offer this prayer and we make these requests today with grateful hearts. Grant us these blessings according to your perfect will as we pray in your name. Amen.

PRAYER

The following prayer was offered by Rabbi Schneur Z. Oirechman, Executive Director of Chabad Lubavitch of the Panhandle, Tallahassee:

Almighty God, creator of the universe: As we approach the holiday of Passover, let us invoke the ancient lessons of Passover today. We pray that we always remember that Passover can happen in our daily lives today, too. We pray for the strength to experience our personal exodus from our personal Egypt: to overcome our obstacles, challenges, and habits.

Almighty God: Grant us the power to take that leap of faith. Give us the strength to look only at the good within us, not at our faults. Let us be like the ancient Hebrews who escaped slavery in mere moments. Let us pass over our personal shortcomings, and let us rise from despair to freedom. And let us remember the teachings of the Sages, who said that darkness is but the absence of light and that a little light drives away much darkness.

Almighty God: As we proceed through the desert, when we feel dry and empty, let us never stray far from our wells of inner goodness and light. Let us be inspired by the life of the Lubavitcher Rebbe Rabbi Schneer-

sohn, whose birthday we just celebrated yesterday. The Rebbe taught us all to focus on the light, not on the darkness, and that every act of goodness and kindness can change our lives and the world, bringing the immediate redemption to the entire universe. Let us add light to our world, both in our lives and the lives of others, by adding acts of goodness and kindness.

We pray that our acts of light finally tip the scale of good and evil to usher in the age of redemption for all mankind. Amen.

PLEDGE

Senator Gaetz led the Senate in the Pledge of Allegiance to the flag of the United States of America.

SR 1608—A resolution to raise awareness of Evans syndrome in this state.

WHEREAS, Evans syndrome is an autoimmune disorder in which a person’s immune system creates antibodies that attack the blood’s red and white cells and platelets, and

WHEREAS, the antibodies’ attack on red cells decreases the oxygen level in the blood, causing those who have the disease to become easily exhausted, and

DISCLOSURE

I have an ownership interest in Caregivers Inc., a company based in Pensacola, Florida. The company provides services to the elderly and the disabled and a minority of its revenues are derived from reimbursements from the Escambia County Council on Aging and the Florida Medicaid program. Because Caregivers Inc. is among a class of health care providers receiving funds from such state sources, it appears to me that the company may be affected by **SB 2500**, **SB 2502**, **SB 2512**, and **SB 2514**, which come before the Senate for a vote on April 1, 2015.

Therefore, I believe that, because Caregivers Inc. is a member of such class, I am required by Senate Rule 1.39 to disclose the above facts.

DISCLOSURE

I have an ownership interest in Caregivers Inc., a company based in Pensacola, Florida. The company provides services to the elderly and the disabled and a minority of its revenues are derived from reimbursements from the Escambia County Council on Aging and the Florida Medicaid program. Because Caregivers Inc. is among a class of health care providers receiving funds from such state sources, it appears to me that the company may be affected by **SB 2500**, **SB 2502**, **SB 2512**, and **SB 2514**, which come before the Senate for a vote on April 1, 2015.

Therefore, I believe that, because Caregivers Inc. is a member of such class, I am required by Senate Rule 1.39 to disclose the above facts.

Excused: Senators Ring and Sobel

PRAYER

The following prayer was offered by Dr. Matthew Carter II, Associate Pastor, Bethel Missionary Baptist Church, Tallahassee:

Bless the Lord, O my soul: and all that is within me, bless his holy name. Bless the Lord, O my soul, and forget not all his benefits: who forgiveth all thine iniquities; who healeth all thy diseases; who redeemeth thy life from destruction; who crowneth thee with loving kindness and tender mercies; who satisfieth thy mouth with good things, so that thy youth is renewed like the eagle's.

We offer this blessing of prayer for the gratitude of your grace and the praise of your peace today on behalf of the members of the Florida Senate. We thank you for blessing our Senators with your wisdom, courage, intellect, dignity, and honor as they meet here in this hallowed edifice to deliberate your greatness in the land of plenty we call Florida. These men and women who hail from the rolling hills of Pensacola to the peaceful sunny shores of Key West, from the cosmopolitan cool of South Beach to the beauty of Tampa Bay, to the humble farms along the rustling shores of the Saint John's River, we are Florida.

Lord, you have commanded us to pray for our leaders and all of those in authority. It is because of this command and the respect for our God, the commitment to our nation, the love of our state, the respect of our fellow citizens that I offer this prayer on their behalf today.

I ask you to grant them your wisdom, courage, and courtesy to make decisions that strengthen and prosper our great state for such a time as

this. As our Senators deliberate on our behalf, bless their families at home to know that they are doing your great work in making Florida a better place to live, a safer enclave of community, an economic juggernaut for jobs, an idyllic quality of life, and a freedom to worship God in peace.

As they near the culmination of their deliberations and the time grows near, give them the second wind of a marathoner and the words of a prophet as they pass another bill, debate another amendment, and attend another meeting for the best interest of Florida and the grace of God. Amen.

PLEDGE

Demi Bussatta and Justin Nipper, Sergeant at Arms staff assisting with the Senate Page Program, joined by Charlotte Brandes and Colin Brandes of St. Petersburg, children of Senator Brandes; and Madison Sarah Phillips of Umatilla, granddaughter of Senator Hays, led the Senate in the Pledge of Allegiance to the flag of the United States of America.

However, instructional accommodations are allowed in the classroom if identified in a student's IEP. Students using instructional accommodations in the classroom that are not allowed on a statewide, standardized assessment may have assessment results waived if the IEP team determines that the assessment cannot accurately measure the student's abilities.

b. If a student is provided with instructional accommodations in the classroom that are not allowed as accommodations for statewide, standardized assessments, the district must inform the parent in writing and provide the parent with information regarding the impact on the student's ability to meet expected performance levels. A parent must provide signed consent for a student to receive classroom instructional accommodations that would not be available or permitted on a statewide, standardized assessment and acknowledge in writing that he or she understands the implications of such instructional accommodations.

c. If a student's IEP states that online administration of a statewide, standardized assessment will significantly impair the student's ability to perform, the assessment shall be administered in hard copy.

The state board shall adopt by rule the passing score for the revised assessment that is statistically equivalent to the passing score on the discontinued assessment for a student who is required to attain a passing score on the discontinued assessment. The commissioner may, with approval of the state board, discontinue administration of the former assessment upon the graduation, based on normal student progression, of students participating in the final regular administration of the former assessment. A student who is not meeting the school district or state requirements for satisfactory performance in English Language Arts and mathematics must proficiency in reading and mathematics shall be covered by one of the following plans to target instruction and identify ways to improve his or her academic achievement:~~

1. A federally required student plan such as an individual education plan;

2. A schoolwide system of progress monitoring for all students, *except a student who scores Level 4 or above on the English Language Arts and mathematics assessments may be exempted from participation by the principal*; or

3. An individualized progress monitoring plan.

~~The plan chosen must be designed to assist the student or the school in meeting state and district expectations for proficiency. If the student has been identified as having a deficiency in reading, the K-12 comprehensive reading plan required by s. 1011.62(9) shall include instructional and support services to be provided to meet the desired levels of performance. District school boards may require low performing students to attend remediation programs held before or after regular school hours or during the summer if transportation is provided.~~

~~(c) Upon subsequent evaluation, if the documented deficiency has not been remediated, the student may be retained. Each student who does not meet the minimum performance expectations defined by the Commissioner of Education for the statewide assessment tests in reading, writing, science, and mathematics must continue to be provided with remedial or supplemental instruction until the expectations are met or the student graduates from high school or is not subject to compulsory school attendance.~~

(5) READING DEFICIENCY AND PARENTAL NOTIFICATION.—

(a) Any student who exhibits a substantial deficiency in reading, based upon locally determined or statewide assessments conducted in kindergarten or grade 1, grade 2, or grade 3, or through teacher observations, must be given intensive reading instruction immediately following the identification of the reading deficiency. The student's reading proficiency must be monitored and the intensive instruction must continue until the student demonstrates grade level proficiency in a manner determined by the district, which may include achieving a Level 3 on the statewide, standardized English Language Arts assessment ~~re-assessed by locally determined assessments or through teacher observations at the beginning of the grade following the intensive reading instruction. The student must continue to be provided with intensive reading instruction until the reading deficiency is remedied.~~

(b) *To be promoted to grade 4, a student must score a Level 2 or higher on the statewide, standardized English Language Arts assessment required under s. 1008.22 for grade 3.* If a student's reading deficiency is not remedied by the end of grade 3, as demonstrated by scoring Level 2 or higher on the statewide, standardized assessment required under s. 1008.22 for grade 3, the student must be retained.

(c) The parent of any student who exhibits a substantial deficiency in reading, as described in paragraph (a), must be notified in writing of the following:

1. That his or her child has been identified as having a substantial deficiency in reading.
2. A description of the current services that are provided to the child.
3. A description of the proposed supplemental instructional services and supports that will be provided to the child that are designed to remediate the identified area of reading deficiency.
4. That if the child's reading deficiency is not remediated by the end of grade 3, the child must be retained unless he or she is exempt from mandatory retention for good cause.
5. Strategies for parents to use in helping their child succeed in reading proficiency.
6. That the *statewide, standardized English Language Arts assessment Florida Comprehensive Assessment Test (FCAT)* is not the sole determiner of promotion and that additional evaluations, portfolio reviews, and assessments are available to the child to assist parents and the school district in knowing when a child is reading at or above grade level and ready for grade promotion.
7. The district's specific criteria and policies for a portfolio as provided in subparagraph (6)(b)4. and the evidence required for a student to demonstrate mastery of Florida's academic standards for English Language Arts. A parent of a student in grade 3 who is identified anytime

during the year as being at risk of retention may request that the school immediately begin collecting evidence for a portfolio.

8. The district's specific criteria and policies for midyear promotion. Midyear promotion means promotion of a retained student at any time during the year of retention once the student has demonstrated ability to read at grade level.

(6) ELIMINATION OF SOCIAL PROMOTION.—

(a) No student may be assigned to a grade level based solely on age or other factors that constitute social promotion.

(b) The district school board may only exempt students from mandatory retention, as provided in paragraph (5)(b), for good cause. A student who is promoted to grade 4 with a good cause exemption shall be provided intensive reading instruction and intervention that include specialized diagnostic information and specific reading strategies to meet the needs of each student so promoted. The school district shall assist schools and teachers with the implementation of reading strategies for students promoted with a good cause exemption which research has shown to be successful in improving reading among students who have reading difficulties. Good cause exemptions are limited to the following:

1. Limited English proficient students who have had less than 2 years of instruction in an English for Speakers of Other Languages program *based on the initial date of entry into a school in the United States.*
2. Students with disabilities whose individual education plan indicates that participation in the statewide assessment program is not appropriate, consistent with the requirements of s. 1008.212.
3. Students who demonstrate an acceptable level of performance on an alternative standardized reading or English Language Arts assessment approved by the State Board of Education.
4. A student who demonstrates through a student portfolio that he or she is performing at least at Level 2 on the statewide, standardized ~~Reading assessment or, upon implementation, the~~ English Language Arts assessment.
5. Students with disabilities who take the statewide, standardized ~~Reading assessment or, upon implementation, the~~ English Language Arts assessment and who have an individual education plan or a Section 504 plan that reflects that the student has received intensive ~~instruction remediation~~ in reading or English Language Arts for more than 2 years but still demonstrates a deficiency and was previously retained in kindergarten, grade 1, grade 2, or grade 3.
6. Students who have received intensive reading intervention for 2 or more years but still demonstrate a deficiency in reading and who were previously retained in kindergarten, grade 1, grade 2, or grade 3 for a total of 2 years. A student may not be retained more than once in grade 3.
7. Students who have received intensive remediation in reading or English Language Arts for 2 or more years but still demonstrate a deficiency and who were previously retained in kindergarten, grade 1, grade 2, or grade 3 for a total of 2 years. Intensive instruction for students so promoted must include an altered instructional day that includes specialized diagnostic information and specific reading strategies for each student. The district school board shall assist schools and teachers to implement reading strategies that research has shown to be successful in improving reading among low-performing readers.

(c) Requests for good cause exemptions for students from the mandatory retention requirement as described in subparagraphs (b)3. and 4. shall be made consistent with the following:

1. Documentation shall be submitted from the student's teacher to the school principal that indicates that the promotion of the student is appropriate and is based upon the student's academic record. In order to minimize paperwork requirements, such documentation shall consist only of the existing progress monitoring plan, individual educational plan, if applicable, report card, or student portfolio.

2. The school principal shall review and discuss such recommendation with the teacher and make the determination as to whether the student should be promoted or retained. If the school principal determines that the student should be promoted, the school principal shall make such recommendation in writing to the district school superintendent. The district school superintendent shall accept or reject the school principal's recommendation in writing.

(7) SUCCESSFUL PROGRESSION FOR RETAINED THIRD GRADE STUDENTS.—

(a) Students retained under the provisions of paragraph (5)(b) must be provided intensive interventions in reading to ameliorate the student's specific reading deficiency, as identified by a valid and reliable diagnostic assessment. This intensive intervention must include effective instructional strategies, participation in the school district's summer reading camp, and appropriate teaching methodologies necessary to assist those students in becoming successful readers, able to read at or above grade level, and ready for promotion to the next grade.

(b) Each school district shall:

1. Provide third grade students who are retained under the provisions of paragraph (5)(b) with intensive instructional services and supports to remediate the identified areas of reading deficiency, including participation in the school district's summer reading camp as required under paragraph (a) and a minimum of 90 minutes of daily, uninterrupted, scientifically research-based reading instruction which includes phonemic awareness, phonics, fluency, vocabulary, and comprehension and other strategies prescribed by the school district, which may include, but are not limited to:

- g. Extended school day, week, or year.

2. Provide written notification to the parent of a student who is retained under the provisions of paragraph (5)(b) that his or her child has not met the proficiency level required for promotion and the reasons the child is not eligible for a good cause exemption as provided in paragraph (6)(b). The notification must comply with the provisions of s. 1002.20(15) and must include a description of proposed interventions and supports that will be provided to the child to remediate the identified areas of reading deficiency.

3. Implement a policy for the midyear promotion of a student retained under the provisions of paragraph (5)(b) who can demonstrate that he or she is a successful and independent reader and performing at or above grade level in reading or, upon implementation of English Language Arts assessments, performing at or above grade level in English Language Arts. Tools that school districts may use in reevaluating a student retained may include subsequent assessments, alternative assessments, and portfolio reviews, in accordance with rules of the State Board of Education. *Students promoted during the school year after November 1 must demonstrate proficiency levels in reading equivalent to the level necessary for the beginning of grade 4. The rules adopted by the State Board of Education must include standards that provide a reasonable expectation that the student's progress is sufficient to master appropriate grade 4 level reading skills.*

4. Provide students who are retained under the provisions of paragraph (5)(b) with a highly effective teacher as determined by the teacher's performance evaluation under s. 1012.34.

5. Establish at each school, when applicable, an Intensive Acceleration Class for retained grade 3 students who subsequently score Level 1 on the required statewide, standardized assessment identified in s. 1008.22. The focus of the Intensive Acceleration Class shall be to in-

crease a child's reading and English Language Arts skill level at least two grade levels in 1 school year. The Intensive Acceleration Class shall:

a. Be provided to a student in grade 3 who scores Level 1 on the statewide, standardized ~~Reading assessment or, upon implementation, the English Language Arts assessment~~ and who was retained in grade 3 the prior year because of scoring Level 1.

Progress reporting must be provided to the parent in writing in a format adopted by the district school board.

(b) Each district school board must annually publish on the district website and in the local newspaper the following information on the prior school year:

2. *An analysis that compares performance evaluation results calculated by each school district to indicators of performance calculated by the department using the standards for performance levels adopted by the state board under subsection (8). The commissioner shall include in the report each district's performance level standards established under subsection (7), a comparative analysis of the district's student academic performance results and evaluation results,*

3. ~~Data reported under s. 1012.341, and the status of any evaluation system revisions requested by a school district pursuant to subsection (6).~~

(2) EVALUATION SYSTEM REQUIREMENTS.—The evaluation systems for instructional personnel and school administrators must:

(a) Be designed to support effective instruction and student learning growth, and performance evaluation results must be used when developing district and school level improvement plans.

(b) Provide appropriate instruments, procedures, *timely feedback*, and criteria for continuous quality improvement of the professional skills of instructional personnel and school administrators, and performance evaluation results must be used when identifying professional development.

(c) Include a mechanism to examine performance data from multiple sources, including opportunities for parents to provide input into employee performance evaluations when appropriate.

(d) Identify those teaching fields for which special evaluation procedures and criteria are necessary.

(e) Differentiate among four levels of performance as follows:

1. Highly effective.
2. Effective.
3. Needs improvement or, for instructional personnel in the first 3 years of employment who need improvement, developing.
4. Unsatisfactory.

The Commissioner of Education shall consult with experts, instructional personnel, school administrators, and education stakeholders in developing the criteria for the performance levels.

~~(h) Include a process for monitoring and evaluating the effectiveness of the system itself in improving instruction and student learning.~~

In addition, each district school board may establish a peer assistance process. This process may be a part of the regular evaluation system or used to assist employees placed on performance probation, newly hired classroom teachers, or employees who request assistance.

(3) EVALUATION PROCEDURES AND CRITERIA.—Instructional personnel and school administrator performance evaluations must be based upon the performance of students assigned to their classrooms or schools, as provided in this section. Pursuant to this section, a school district's performance evaluation system is not limited to basing unsatisfactory performance of instructional personnel and school administrators solely upon student performance, but may include other criteria approved to evaluate instructional personnel and school administrators' performance, or any combination of student performance and other approved criteria. Evaluation procedures and criteria must comply with, but are not limited to, the following:

(a) A performance evaluation must be conducted for each employee at least once a year, except that a classroom teacher, as defined in s. 1012.01(2)(a), excluding substitute teachers, who is newly hired by the district school board must be observed and evaluated at least twice in the first year of teaching in the school district. The performance evaluation must be based upon sound educational principles and contemporary research in effective educational practices. The evaluation criteria must include:

1. Performance of students.—At least ~~one-third~~ ~~50 percent~~ of a performance evaluation must be based upon data and indicators of student performance ~~learning growth assessed annually by statewide assessments or, for subjects and grade levels not measured by statewide assessments, by school district assessments as provided in s. 1008.22(6). Each school district must use the formula adopted pursuant to para-~~

~~graph (7)(a) for measuring student learning growth in all courses associated with statewide assessments and must select an equally appropriate formula for measuring student learning growth for all other grades and subjects, except as otherwise provided in accordance with subsection (7).~~

~~a. For classroom teachers, as defined in s. 1012.01(2)(a), excluding substitute teachers, the student learning growth. This portion of the evaluation must include growth or achievement data of the teacher's students or, for a school administrator, the students attending the school for students assigned to the teacher over the course of at least 3 years. If less than 3 years of data are available, the years for which data are available must be used. The proportion of growth or achievement data may be determined by instructional assignment and the percentage of the evaluation based upon student learning growth may be reduced to not less than 40 percent.~~

~~b. For instructional personnel who are not classroom teachers, the student learning growth portion of the evaluation must include growth data on statewide assessments for students assigned to the instructional personnel over the course of at least 3 years, or may include a combination of student learning growth data and other measurable student outcomes that are specific to the assigned position, provided that the student learning growth data accounts for not less than 30 percent of the evaluation. If less than 3 years of student growth data are available, the years for which data are available must be used and the percentage of the evaluation based upon student learning growth may be reduced to not less than 20 percent.~~

~~c. For school administrators, the student learning growth portion of the evaluation must include growth data for students assigned to the school over the course of at least 3 years. If less than 3 years of data are available, the years for which data are available must be used and the percentage of the evaluation based upon student learning growth may be reduced to not less than 40 percent.~~

2. Instructional practice.—For instructional personnel, at least one-third of the performance evaluation must be based upon instructional practice. Evaluation criteria used when annually observing classroom teachers, as defined in s. 1012.01(2)(a), excluding substitute teachers, must include indicators based upon each of the Florida Educator Accomplished Practices adopted by the State Board of Education. For instructional personnel who are not classroom teachers, evaluation criteria must be based upon indicators of the Florida Educator Accomplished Practices and may include specific job expectations related to student support.

3. Instructional leadership.—For school administrators, at least one-third of the performance evaluation must be based on instructional leadership. Evaluation criteria for instructional leadership must include indicators based upon each of the leadership standards adopted by the State Board of Education under s. 1012.986, including performance measures related to the effectiveness of classroom teachers in the school, the administrator's appropriate use of evaluation criteria and procedures, recruitment and retention of effective and highly effective classroom teachers, improvement in the percentage of instructional personnel evaluated at the highly effective or effective level, and other leadership practices that result in student learning growth. The system may include a means to give parents and instructional personnel an opportunity to provide input into the administrator's performance evaluation.

4. Other indicators of performance ~~Professional and job responsibilities.~~—For instructional personnel and school administrators, the remainder of a performance evaluation may include, but is not limited to, ~~For instructional personnel and school administrators, other professional and job responsibilities must be included as recommended adopted by the State Board of Education or identified by the district school board and, for instructional personnel, peer reviews, objectively reliable survey information from students and parents based on teaching practices that are consistently associated with higher student achievement, and other valid and reliable measures of instructional practice. The district school board may identify additional professional and job responsibilities.~~

(b) All personnel must be fully informed of the criteria, data sources, methodologies, and procedures associated with the evaluation process before the evaluation takes place.

(c) The individual responsible for supervising the employee must evaluate the employee's performance. The evaluation system may provide for the evaluator to consider input from other personnel trained under *subsection (2) paragraph (2)(f)*. The evaluator must submit a written report of the evaluation to the district school superintendent for the purpose of reviewing the employee's contract. The evaluator must submit the written report to the employee no later than 10 days after the evaluation takes place. The evaluator must discuss the written evaluation report with the employee. The employee shall have the right to initiate a written response to the evaluation, and the response shall become a permanent attachment to his or her personnel file.

(d) The evaluator may amend an evaluation based upon assessment data from the current school year if the data becomes available within 90 days after the close of the school year. The evaluator must then comply with the procedures set forth in paragraph (c).

(4) **NOTIFICATION OF UNSATISFACTORY PERFORMANCE.**—If an employee who holds a professional service contract as provided in s. 1012.33 is not performing his or her duties in a satisfactory manner, the evaluator shall notify the employee in writing of such determination. The notice must describe such unsatisfactory performance and include notice of the following procedural requirements:

(a) Upon delivery of a notice of unsatisfactory performance, the evaluator must confer with the employee who holds a professional service contract, make recommendations with respect to specific areas of unsatisfactory performance, and provide assistance in helping to correct deficiencies within a prescribed period of time.

(b)1. The employee who holds a professional service contract shall be placed on performance probation and governed by the provisions of this section for 90 calendar days following the receipt of the notice of unsatisfactory performance to demonstrate corrective action. School holidays and school vacation periods are not counted when calculating the 90-calendar-day period. During the 90 calendar days, the employee who holds a professional service contract must be evaluated periodically and apprised of progress achieved and must be provided assistance and in-service training opportunities to help correct the noted performance deficiencies. At any time during the 90 calendar days, the employee who holds a professional service contract may request a transfer to another appropriate position with a different supervising administrator; however, if a transfer is granted pursuant to ss. 1012.27(1) and 1012.28(6), it does not extend the period for correcting performance deficiencies.

2. Within 14 days after the close of the 90 calendar days, the evaluator must evaluate whether the performance deficiencies have been corrected and forward a recommendation to the district school superintendent. Within 14 days after receiving the evaluator's recommendation, the district school superintendent must notify the employee who holds a professional service contract in writing whether the performance deficiencies have been satisfactorily corrected and whether the district school superintendent will recommend that the district school board continue or terminate his or her employment contract. If the employee wishes to contest the district school superintendent's recommendation, the employee must, within 15 days after receipt of the district school superintendent's recommendation, submit a written request for a hearing. The hearing shall be conducted at the district school board's election in accordance with one of the following procedures:

a. A direct hearing conducted by the district school board within 60 days after receipt of the written appeal. The hearing shall be conducted in accordance with the provisions of ss. 120.569 and 120.57. A majority vote of the membership of the district school board shall be required to sustain the district school superintendent's recommendation. The determination of the district school board shall be final as to the sufficiency or insufficiency of the grounds for termination of employment; or

b. A hearing conducted by an administrative law judge assigned by the Division of Administrative Hearings of the Department of Management Services. The hearing shall be conducted within 60 days after receipt of the written appeal in accordance with chapter 120. The recommendation of the administrative law judge shall be made to the district school board. A majority vote of the membership of the district school board shall be required to sustain or change the administrative law judge's recommendation. The determination of the district school board shall be final as to the sufficiency or insufficiency of the grounds for termination of employment.

(5) **ADDITIONAL NOTIFICATIONS.**—The district school superintendent shall annually notify the department of any instructional personnel or school administrators who receive two consecutive unsatisfactory evaluations. The district school superintendent shall also notify the department of any instructional personnel or school administrators who are given written notice by the district of intent to terminate or not renew their employment. The department shall conduct an investigation to determine whether action shall be taken against the certificateholder pursuant to s. 1012.795.

(6) **ANNUAL REVIEW OF AND REVISIONS TO THE SCHOOL DISTRICT EVALUATION SYSTEMS.**—The district school board shall establish a procedure for annually reviewing instructional personnel and school administrator evaluation systems to determine compliance with this section ~~and s. 1012.3401~~. All substantial revisions to an approved system must be reviewed and approved by the district school board before being used to evaluate instructional personnel or school administrators. Upon request by a school district, the department shall provide assistance in developing, improving, or reviewing an evaluation system.

(7) **MEASUREMENT OF STUDENT PERFORMANCE LEARNING GROWTH.**—

(a) The Commissioner of Education shall approve a formula to measure individual student learning growth on the statewide, standardized assessments in English Language Arts and mathematics administered under s. 1008.22. The formula must take into consideration each student's prior academic performance. The formula must not set different expectations for student learning growth based upon a student's gender, race, ethnicity, or socioeconomic status. In the development of the formula, the commissioner shall consider other factors such as a student's attendance record, disability status, or status as an English language learner. The commissioner ~~may~~ *shall* select additional formulas *to measure student performance* as appropriate for the remainder of the statewide, *standardized* assessments included under s. 1008.22 and continue to select formulas as new assessments are implemented in the state system. After the commissioner approves the formula to measure individual student learning growth, the State Board of Education shall adopt these formulas in rule.

(b) Each school district shall measure student learning growth using the formulas approved by the commissioner under paragraph (a) *and the standards for performance levels adopted by the state board under subsection (8)* for courses associated with the statewide, standardized assessments administered under s. 1008.22 no later than the school year immediately following the year the formula is approved by the commissioner. For grades and subjects not assessed by statewide, standardized assessments ~~but otherwise assessed as required under s. 1008.22(6)~~, each school district shall measure *student* performance of *students* using a methodology determined by the district. ~~The department shall provide models for measuring performance of students which school districts may adopt.~~

(c) ~~For a course that is not measured by a statewide, standardized assessment, a school district may request, through the evaluation system approval process, to use a student's achievement level rather than student learning growth if achievement is demonstrated to be a more appropriate measure of classroom teacher performance. A school district may also request to use a combination of student learning growth and achievement, if appropriate.~~

(d) ~~For a course that is not measured by a statewide, standardized assessment, a school district may request, through the evaluation system approval process, that the performance evaluation for the classroom teacher assigned to that course include the learning growth of his or her students on one or more statewide, standardized assessments. The request must clearly explain the rationale supporting the request.~~

(e) ~~For purposes of this section and only for the 2014-2015 school year, a school district may use measurable learning targets on local assessments administered under s. 1008.22(6) to evaluate the performance of students portion of a classroom teacher's evaluation for courses that are not assessed by statewide, standardized assessments. Learning targets must be approved by the school principal. A district school superintendent may assign to instructional personnel in an instructional team the student learning growth of the instructional team's students on statewide assessments. This paragraph expires July 1, 2015.~~

(8) RULEMAKING.—*No later than August 1, 2015*, the State Board of Education shall adopt rules pursuant to ss. 120.536(1) and 120.54 which establish uniform procedures *and format* for the submission, review, and approval of district evaluation systems and reporting requirements for the annual evaluation of instructional personnel and school administrators; specific, discrete standards for each performance level required under subsection (2), *based on student learning growth models approved by the commissioner*, to ensure clear and sufficient differentiation in the performance levels and to provide consistency in meaning across school districts; the measurement of student learning growth and associated implementation procedures required under subsection (7); and a process for monitoring school district implementation of evaluation systems in accordance with this section. ~~Specifically, the rules shall establish student performance levels that if not met will result in the employee receiving an unsatisfactory performance evaluation rating. In like manner, the rules shall establish a student performance level that must be met in order for an employee to receive a highly effective rating and a student learning growth standard that must be met in order for an employee to receive an effective rating.~~

(9) TRANSITION TO NEW STATEWIDE, STANDARDIZED ASSESSMENTS.—Standards for each performance level required under subsection (2) shall be established by the State Board of Education beginning with the 2015-2016 school year.

~~(10) DISTRICT BONUS REWARDS FOR PERFORMANCE PAY BASED ON EVALUATION PROGRESS. School districts are eligible for bonus rewards as provided for in the 2014 General Appropriations Act for making outstanding progress toward educator effectiveness, including implementation of instructional personnel salaries based on performance results under s. 1012.34 and the use of local assessment results in personnel evaluations when statewide, standardized assessments are not administered.~~

(10) For instructional personnel ~~teachers, managers,~~ and administrative personnel who have been evaluated as less than *effective* ~~satisfactory~~, a district school board shall require participation in specific professional development programs *as provided in subparagraph (4)(b)4.* as part of the improvement prescription.

Amendment 1 (659968) (with title amendment)—Delete lines 64-134 and insert:

(4) The State Child Abuse Death Review Committee and local committees may share *information made confidential and exempt by this section*:

(a) With each other;

(b) With a governmental agency in furtherance of its duties; or

(c) With any person or entity authorized by the Department of Health to use such relevant information for bona fide research or statistical purposes. A person or entity who is authorized to obtain such relevant information for research or statistical purposes must enter into a privacy and security agreement with the Department of Health and comply with all laws and rules governing the use of such records and information for research or statistical purposes. Anything identifying the subjects of such relevant information must be treated as confidential by the person or entity and may not be released in any form ~~any relevant information regarding case reviews involving child death, which information is made confidential and exempt by this section.~~

(5) Any person who knowingly or willfully makes public or discloses to any unauthorized person any information made confidential and exempt under this section commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(6) This section is subject to the Open Government Sunset Review Act in accordance with s. 119.15, and shall stand repealed on October 2, 2020 ~~2015~~, unless reviewed and saved from repeal through reenactment by the Legislature.

Section 2. *The Legislature finds that it is a public necessity that any information held by the State Child Abuse Death Review Committee or a local committee as defined in s. 383.412, Florida Statutes, which reveals the identity of a deceased child whose death has been reported to the*

central abuse hotline but determined not to be the result of abuse or neglect, or the identity of the surviving siblings, family members, or others living in the home of such deceased child, be held confidential and exempt from public records requirements. The Legislature further finds that it is a public necessity that these committees have the authority to maintain the confidential or exempt status of records otherwise confidential or exempt which are provided to them regarding such children. The Legislature also finds that it is a public necessity that portions of meetings of the State Child Abuse Death Review Committee or a local committee wherein the confidential and exempt information is discussed be made exempt from public meeting requirements, and that the recordings of closed portions of such meetings be made exempt from public records requirements. In 1999, the Legislature authorized the creation of the committees to review the facts and circumstances surrounding the deaths of children in this state which occur as the result of reported child abuse or neglect and to prepare an annual statistical report on the incidence and causes of death resulting from child abuse. Since 2004, cases analyzed by the committees have been limited to reports of verified abuse or neglect. The Legislature made identifying information of the surviving siblings, family members, or others living in the home of the child who died as a result of verified abuse or neglect confidential and exempt from public records requirements to ensure that cases could be vetted thoroughly through open communication without risk of disclosure of the identifying information. In 2014, the Legislature expanded the scope of cases reviewed by the committees to include all deaths reported to the child abuse hotline, regardless of whether the deaths were the result of verified abuse or neglect, and this act expands the public records exemption accordingly. If the identifying information related to these reports were to be disclosed, it could result in emotional or reputational harm to the family and caregivers and an unnecessary invasion of their privacy and the privacy of the deceased child. In addition, the committees must be able to maintain the otherwise confidential and exempt status of records that are provided to them to ensure continued access to such records and the opportunity for a thorough and open review of cases. Therefore, the Legislature finds that the harm that may result from the release of such information through a public records request or a public meeting substantially outweighs any minimal public benefit that may be derived from its disclosure.

And the title is amended as follows:

Delete line 15 and insert: of such a deceased child; reenacting the public meeting exemption to incorporate changes made by the act to the public records exemption; authorizing release of such

PRAYER

The following prayer was offered by the Reverend Robert W. Jakoby, Director of Pastoral Care Services, Baptist Health South Florida, Miami:

Dear God and Father of all mankind, we bow before you with a humble attitude. We worship you as God of creation and one who loves us unconditionally. From a grateful heart, we praise you for your manifold blessings, knowing often we do not deserve them. Teach us to love you more and seek your purpose for our lives. We confess our sins of omitting things you want us to do and doing things you do not want us to do. For these we ask for your forgiveness. God, help us daily to surrender our will to yours. We need your divine guidance in every facet of life.

Heavenly Father, please bless each Senator and his or her family with health and safety. Life continues with its difficulties and challenges, both at home and in Tallahassee, during session times, so guide and encourage each Senator through these times. Lord God, with each bill under consideration, may you give each Senator wisdom and insight in the decision each one faces. Empower them with boldness to make decisions that honor you and are for the good of the people they represent. You, O Lord, have always honored "the right thing" throughout history, even when it was difficult. Enlighten and encourage each one with your wisdom and insight.

Heavenly Father, may your blessings of health and safety extend to Governor Scott and his family. Grant him your wisdom of leadership with his staff, the Cabinet, each state department, and the Legislature. May he depend on your guidance as he leads this great State of Florida.

We pray all of this in your holy Son's name. Amen.

Section 1. Paragraph (b) of subsection (2) of section 39.0016, Florida Statutes, is amended to read:

39.0016 Education of abused, neglected, and abandoned children; agency agreements; children having or suspected of having a disability.—

(2) AGENCY AGREEMENTS.—

(b) The department shall enter into agreements with district school boards or other local educational entities regarding education and related services for children known to the department who are of school age and children known to the department who are younger than school age but who would otherwise qualify for services from the district school board. Such agreements shall include, but are not limited to:

1. A requirement that the department shall:

a. ~~Ensure Enroll~~ children known to the department are enrolled in school or in the best educational setting that meets the needs of the child. The agreement shall provide for continuing the enrollment of a child known to the department at the same school of origin when, if possible if it is in the best interest of the child, with the goal of minimal avoiding disruption of education.

b. Notify the school and school district in which a child known to the department is enrolled of the name and phone number of the child known to the department caregiver and caseworker for child safety purposes.

c. Establish a protocol for the department to share information about a child known to the department with the school district, consistent with the Family Educational Rights and Privacy Act, since the sharing of information will assist each agency in obtaining education and related services for the benefit of the child. The protocol must require the district school boards or other local educational entities to access the department's Florida Safe Families Network to obtain information about children known to the department, consistent with the Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. s. 1232g.

d. Notify the school district of the department's case planning for a child known to the department, both at the time of plan development and plan review. b. Identify all educational and other services provided by the school and school district which the school district believes are reasonably necessary to meet the educational needs of a child known to the department.

c. Determine whether transportation is available for a child known to the department when such transportation will avoid a change in school assignment due to a change in residential placement. Recognizing that continued enrollment in the same school throughout the time the child known to the department is in out-of-home care is preferable unless enrollment in the same school would be unsafe or otherwise impractical, the department, the district school board, and the Department of Education shall assess the availability of federal, charitable, or grant funding for such transportation.

d. Provide individualized student intervention or an individual educational plan when a determination has been made through legally appropriate criteria that intervention services are required. The intervention or individual educational plan must include strategies to enable the child known to the department to maximize the attainment of educational goals.

3. A requirement that the department and the district school board shall cooperate in accessing the services and supports needed for a child known to the department who has or is suspected of having a disability to receive an appropriate education consistent with the Individuals with Disabilities Education Act and state implementing laws, rules, and assurances. b. If it is not in the best interest of the child to remain in his or her school or educational setting upon entry into out-of-home care, the caregiver must work with the case manager, guardian ad litem, teachers and guidance counselors, and educational surrogate if one has been appointed, to determine the best educational setting for the child. Those settings may include a public school that is not the school of origin, a private school pursuant to s. 1002.42, virtual education programs pursuant to s. 1002.45, or education at home pursuant to s. 1002.41.

d. The removal is demonstrably in the child's best interest.

2. The department shall establish the adoption incentive program to award incentive payment to community-based care lead agencies, as defined in s. 409.986, and their subcontractors that are involved in the adoption process for achievement of specific and measurable adoption performance standards that lead to permanency, stability, and well-being for children.

(2) *ADMINISTRATION OF THE PROGRAM.*—

(a) The department shall conduct a comprehensive baseline assessment of the performance of lead agencies and providers related to adoption of children from foster care. The assessment shall compile annual data for each of the most recent 5 years for which data is available. The department shall update the assessment annually. (b) Using the information from the baseline assessment, the department shall annually negotiate outcome-based agreements with lead agencies and their subcontracted providers. The agreements must establish measurable outcome targets to increase the number of adoptions resulting in permanent placements that enhance children's well-being. The agreements will define the method for measuring performance and for determining the level of performance required to earn the incentive payment, and the amount of the incentive payment which may be earned for each target.

(3) INCENTIVE PAYMENTS.—

(a) The department shall allocate incentive payments to performance improvement targets in a manner that ensures that total payments do not exceed the amount appropriated for this purpose.

(a) “Child within the child welfare system” has the same meaning as in s. 409.166.

(b) “Qualifying adoptive employee” means a full-time or part-time employee of a state agency who is paid from regular salary appropriations, or otherwise meets the state agency employer's definition of a regular rather than temporary employee, and who adopts a child within the child welfare system pursuant to chapter 63 on or after January 1, 2015. The term includes instructional personnel, as defined in s. 1012.01, employed by the Florida School for the Deaf and the Blind.

(c) “State agency” means a branch, department, or agency of state government for which the Chief Financial Officer processes payroll requisitions, a state university or Florida College System institution as defined in s. 1000.21, a school district unit as defined in s. 1001.30, or a water management district as defined in s. 373.019.

(2) A qualifying adoptive employee that adopts a child within the child welfare system who has special needs as described in s. 409.166(2)(a)2. is eligible to receive a lump sum benefit in the amount of \$10,000 per child, subject to applicable taxes. A qualifying adoptive employee that adopts a child within the child welfare system who does not have the special needs as described in s. 409.166(2)(a)2. is eligible to

receive a lump sum benefit in the amount of \$5,000 per child, subject to applicable taxes.

(a) Benefits paid to a qualifying adoptive employee who is a part-time employee must be prorated based on the qualifying adoptive employee's full-time equivalency at the time of applying for the benefits.

(b) Benefits under this section are limited to one award per adopted child within the child welfare system.

(c) The payment of a lump-sum benefit for adopting a child within the child welfare system under this section is subject to a specific appropriation to the department for such purpose.

(3) A qualifying adoptive employee must apply to his or her agency head to obtain the benefit provided in subsection (2). Applications must be on forms approved by the department and must include a certified copy of the final order of adoption naming the applicant as the adoptive parent.

(4) This section does not preclude a qualifying adoptive employee from receiving adoption assistance he or she may qualify for under s. 409.166 or any other statute that provides financial incentives for the adoption of children.

(5) Parental leave for a qualifying adoptive employee must be provided in accordance with the personnel policies and procedures of the employee's state agency employer.

(6) The department shall adopt rules to administer this section. The rules may provide for an application process such as, but not limited to, an open enrollment period during which qualifying adoptive employees may apply for monetary benefits under this section.

(7) The Chief Financial Officer shall disburse a monetary benefit to a qualifying adoptive employee upon the department's submission of a payroll requisition. The Chief Financial Officer shall transfer funds from the department to a state university, Florida College System institution, school district unit, or water management district, as appropriate, to enable payment to the qualifying adoptive employee through the payroll systems as long as funds are available for such purpose.

(8) Each state agency shall develop a uniform procedure for informing employees about this benefit and for assisting the department in making eligibility determinations and processing applications. Any procedure adopted by a state agency is valid and enforceable if the procedure does not conflict with the express terms of this section.

Section 6. Section 409.1666, Florida Statutes, is created to read:

409.1666 **Annual adoption achievement awards.**—Each year, the Governor shall select and recognize one or more individuals, families, or organizations that make significant contributions to enabling this state's foster children to achieve permanency through adoption. The department shall define appropriate categories for the achievement awards and seek nominations for potential recipients in each category from individuals and organizations knowledgeable about foster care and adoption.

(1) The award shall recognize persons whose contributions involve extraordinary effort or personal sacrifice in order to provide caring and permanent homes for foster children.

(2) A direct-support organization established in accordance with s. 39.0011 by the Office of Adoption and Child Protection within the Executive Office of the Governor may accept donations of products or services from private sources to be given to the recipients of the adoption achievement awards. The direct-support organization may also provide suitable plaques, framed certificates, pins, and other tokens of recognition.

Section 7. Subsection (18) is added to section 409.175, Florida Statutes, to read:

409.175 **Licensure of family foster homes, residential child-caring agencies, and child-placing agencies; public records exemption.**—

1. *All available family and medical history of the birth family;*
2. *All legal documents translated into English;*
3. *All necessary documents obtained by the adoptive parent in order for the child to attain United States citizenship, or if applicable, other legal immigration status; and*
4. *All supervisory reports prepared before an adoption and after the finalization of an adoption.*

Section 8. *For the 2015-2016 fiscal year, the sum of \$6.5 million in recurring funds from the General Revenue Fund is appropriated to the Department of Children and Families for the creation of the adoption incentive program. The Executive Office of the Governor shall place these funds in reserve until such time as the Department of Children and Families submits a plan identifying the performance measures, targeted outcomes, and an expenditure plan for approval to the Executive Office of the Governor and the chair and vice chair of the Legislative Budget Commission in accordance with s. 216.177, Florida Statutes.*

Section 9. *For the 2015-2016 fiscal year, the sum of \$3,425,356 in recurring funds from the General Revenue Fund is appropriated to the Department of Children and Families for the creation of the adoption benefits for qualifying adoptive employees of state agencies. For the 2015-2016 fiscal year, the sum of \$74,644 in recurring funds from the General Revenue Fund is appropriated to the Department of Children and Families and one full-time equivalent position with associated salary rate of 46,382 is authorized for the creation of the adoption benefits for qualifying adoptive employees of state agencies and the development of performance measures and targeted outcomes.*

Section 10. This act shall take effect July 1, 2015.

And the title is amended as follows:

Delete everything before the enacting clause and insert: A bill to be entitled An act relating to adoption and foster care; amending s. 39.0016, F.S.; revising what the Department of Children and Families must do when required to enter into agreements with specified entities; amending s. 39.812, F.S.; requiring the community-based care lead agency to visit in person or contact by telephone the child and the child's adoptive family 1 year after the date the adoption is finalized; requiring the agency to document specified information; requiring the agency to submit a report annually to the department; amending s. 409.145, F.S.; revising caregiver roles and responsibilities; revising the roles and responsibilities of the department, the community-based care lead agency, and other agency staff; creating s. 409.1662, F.S.; providing the purpose of the adoption incentive program; directing the Department of Children and Families to establish an adoption incentive program for certain agencies and subcontractors; requiring that the department conduct a comprehensive baseline assessment of lead agencies and provider performance and compile annual data for the most recent 5 years of available data; requiring the department to update the assessment annually; providing a nonexclusive list of factors for the assessment to identify; requiring that the department negotiate outcome-based agreements; requiring that several factors be included in the agreements; requiring the department to allocate incentive payments; requiring the department to report annually by a certain date specified information to the Governor and the Legislature; creating s. 409.1664, F.S.; defining terms; providing certain amounts payable to a qualifying adoptive employee who adopts specified children under certain circumstances, subject to applicable taxes; providing prorated payments for a part-time employee and limiting the monetary benefit to one award per child; requiring that a qualifying adoptive employee apply to the agency head for the monetary benefit on forms approved by the department and include a certified copy of the final order of adoption; providing that the rights offered by this act do not preclude a qualifying adoptive employee who adopts a special needs child from receiving any other assistance or incentive;

The question recurred on **Amendment 1 (412232)** which was withdrawn.

Senator Stargel moved the following amendment which failed:

Amendment 3 (274192) (with directory and title amendments)—Between lines 192 and 193 insert:

(5) *No person shall be eligible to adopt under this section if the person has ever been determined by a court to be a sexual predator as defined in s. 775.21, designated as a sexual offender under s. 943.0435(1)(a)1., convicted of an offense listed in 63.089(4)(b)2. in this state or a similar offense in another jurisdiction, or convicted of an offense listed in s. 943.0435(1)(a)1.a.(I) in this state or a similar offense in another jurisdiction.*

Section 3. Section 63.092, Florida Statutes, is amended to read:

63.092 Report to the court of intended placement by an adoption entity; at-risk placement; preliminary study.—

(1) **REPORT TO THE COURT.**—The adoption entity must report any intended placement of a minor for adoption with any person who is not a relative or a stepparent if the adoption entity participates in the intended placement. The report must be made to the court before the minor is placed in the home or within 2 business days thereafter.

(2) **AT-RISK PLACEMENT.**—If the minor is placed in the prospective adoptive home before the parental rights of the minor's parents are terminated under s. 63.089, the placement is an at-risk placement. If the placement is an at-risk placement, the prospective adoptive parents must acknowledge in writing before the minor may be placed in the prospective adoptive home that the placement is at risk. The prospective adoptive parents shall be advised by the adoption entity, in writing, that the minor is subject to removal from the prospective adoptive home by the adoption entity or by court order at any time prior to the finalization of the adoption.

(3) **PRELIMINARY HOME STUDY.**—Before placing the minor in the intended adoptive home, a preliminary home study must be performed by a licensed child-placing agency, a child-caring agency registered under s. 409.176, a licensed professional, or an agency described in s. 61.20(2), unless the adoptee is an adult or the petitioner is a stepparent or a relative. If the adoptee is an adult or the petitioner is a stepparent or a relative, a preliminary home study may be required by the court for good cause shown. The department is required to perform the preliminary home study only if there is no licensed child-placing agency, child-caring agency registered under s. 409.176, licensed professional, or agency described in s. 61.20(2), in the county where the prospective adoptive parents reside. The preliminary home study must be made to determine the suitability of the intended adoptive parents and may be completed prior to identification of a prospective adoptive minor. A favorable preliminary home study is valid for 1 year after the date of its completion. Upon its completion, a signed copy of the home study must be provided to the intended adoptive parents who were the subject of the home study. A minor may not be placed in an intended adoptive home before a favorable preliminary home study is completed

unless the adoptive home is also a licensed foster home under s. 409.175. The preliminary home study must include, at a minimum:

- (a) An interview with the intended adoptive parents;
- (b) Records checks of the department's central abuse registry and criminal records correspondence checks under s. 39.0138 through the Department of Law Enforcement on the intended adoptive parents;
- (c) An assessment of the physical environment of the home;
- (d) A determination of the financial security of the intended adoptive parents;
- (e) Documentation of counseling and education of the intended adoptive parents on adoptive parenting;
- (f) Documentation that information on adoption and the adoption process has been provided to the intended adoptive parents;
- (g) Documentation that information on support services available in the community has been provided to the intended adoptive parents; and
- (h) A copy of each signed acknowledgment of receipt of disclosure required by s. 63.085.

If the preliminary home study is favorable, a minor may be placed in the home pending entry of the judgment of adoption. A minor may not be placed in the home if the preliminary home study is unfavorable. If the preliminary home study is unfavorable, the adoption entity may, within 20 days after receipt of a copy of the written recommendation, petition the court to determine the suitability of the intended adoptive home. A determination as to suitability under this subsection does not act as a presumption of suitability at the final hearing. In determining the suitability of the intended adoptive home, the court must consider the totality of the circumstances in the home. A minor may not be placed in a home in which there resides any person determined by the court to be a sexual predator as defined in s. 775.21, *any person who has ever been designated as a sexual offender under s. 943.0435(1)(a)1., or any person who has to have been convicted of an offense listed in s. 63.089(4)(b)2., or s. 943.0435(1)(a)1.a.(I), in this state or a similar offense in another jurisdiction.*

Section 4. For the purpose of incorporating the amendment made by this act to section 63.092, Florida Statutes, in a reference thereto, subsection (2) of section 63.052, Florida Statutes, is reenacted to read:

63.052 Guardians designated; proof of commitment.—

(2) For minors who have been voluntarily surrendered to an intermediary through an execution of a consent to adoption, the intermediary shall be responsible for the minor until the time a court orders preliminary approval of placement of the minor in the prospective adoptive home, after which time the prospective adoptive parents shall become guardians pending finalization of adoption, subject to the intermediary's right and responsibility to remove the child from the prospective adoptive home if the removal is deemed by the intermediary to be in the best interests of the child. The intermediary may not remove the child without a court order unless the child is in danger of imminent harm. The intermediary does not become responsible for the minor child's medical bills that were incurred before taking physical custody of the child after the execution of adoption consents. Prior to the court's entry of an order granting preliminary approval of the placement, the intermediary shall have the responsibility and authority to provide for the needs and welfare of the minor. A minor may not be placed in a prospective adoptive home until that home has received a favorable preliminary home study, as provided in s. 63.092, completed and approved within 1 year before such placement in the prospective home. The provisions of s. 627.6578 shall remain in effect notwithstanding the guardianship provisions in this section.

Section 5. For the purpose of incorporating the amendment made by this act to section 63.092, Florida Statutes, in a reference thereto, subsection (7) of section 63.062, Florida Statutes, is reenacted to read:

63.062 Persons required to consent to adoption; affidavit of non-paternity; waiver of venue.—

(7) If parental rights to the minor have previously been terminated, the adoption entity with which the minor has been placed for subsequent adoption may provide consent to the adoption. In such case, no other consent is required. The consent of the department shall be waived upon a determination by the court that such consent is being unreasonably withheld and if the petitioner has filed with the court a favorable preliminary adoptive home study as required under s. 63.092.

Section 6. For the purpose of incorporating the amendment made by this act to section 63.092, Florida Statutes, in a reference thereto, paragraph (c) of subsection (2) of section 63.097, Florida Statutes, is reenacted to read:

63.097 Fees.—

(2) The following fees, costs, and expenses may be assessed by the adoption entity or paid by the adoption entity on behalf of the prospective adoptive parents:

(c) Expenses necessary to comply with the requirements of this chapter, including, but not limited to, service of process under s. 63.088, investigator fees, a diligent search under s. 63.088, a preliminary home study under s. 63.092, and a final home investigation under s. 63.125.

Section 7. For the purpose of incorporating the amendment made by this act to section 63.092, Florida Statutes, in a reference thereto, paragraph (b) of subsection (2) of section 63.112, Florida Statutes, is reenacted to read:

63.112 Petition for adoption; description; report or recommendation, exceptions; mailing.—

(2) The following documents are required to be filed with the clerk of the court at the time the petition is filed:

(b) The favorable preliminary home study of the department, licensed child-placing agency, or professional pursuant to s. 63.092, as to the suitability of the home in which the minor has been placed, unless the petitioner is a stepparent or a relative.

Section 8. For the purpose of incorporating the amendment made by this act to section 63.092, Florida Statutes, in a reference thereto, subsection (1) of section 63.125, Florida Statutes, is reenacted to read:

63.125 Final home investigation.—

(1) The final home investigation must be conducted before the adoption becomes final. The investigation may be conducted by a licensed child-placing agency or a professional in the same manner as provided in s. 63.092 to ascertain whether the adoptive home is a suitable home for the minor and whether the proposed adoption is in the best interest of the minor. Unless directed by the court, an investigation and recommendation are not required if the petitioner is a stepparent or if the minor is related to one of the adoptive parents within the third degree of consanguinity. The department is required to perform the home investigation only if there is no licensed child-placing agency or professional pursuant to s. 63.092 in the county in which the prospective adoptive parent resides.

And the directory clause is amended as follows:

Delete line 181 and insert:

(3), and a new subsection (4) and subsection (5) are added to that section, to read:

And the title is amended as follows:

Almighty God, our Father, we come to say, "thank you" for all the wonderful blessings you give to us. We pray you draw the people of this country and other countries together. Teach them your truth and understanding that we must learn to love one another as you have loved us. Thank you for giving your life for us.

Lord, look down on these Senators today and every day. Be their head so they can understand; be their eyes so they can see clearly; be their mouth so they can speak; and be their heart so they can think clearly. Thank you for being an understanding God.

SR 174—A resolution recognizing April 2015 as "Fair Housing Month" in Florida.

WHEREAS, Title VIII of the federal Civil Rights Act of 1968, as amended by the federal Fair Housing Amendments Act of 1988, prohibits discrimination based on race, color, religion, sex, national origin, disability, or familial status in the sale, rental, and financing of dwellings, and

WHEREAS, in 1983, the Legislature enacted the Florida Fair Housing Act to ensure that the state makes every effort to promote fair housing for all residents and to prohibit discrimination in the sale or rental of any dwelling because of race, color, national origin, sex, or religion, and the act was amended in 1989 to prohibit discrimination based on familial status or mental impairment, and

WHEREAS, the United States Department of Housing and Urban Development has proclaimed April as "National Fair Housing Month" and conducts awareness campaigns to commemorate the historical passage of this major legislation, increase the public's understanding of the many protections of the Civil Rights Act, and encourage communities to remember and celebrate 47 years of housing successes, and

WHEREAS, as authorized under law, the Florida Commission on Human Relations conducts thorough and timely investigations of housing discrimination complaints and, as a result of its investigative efforts, has found that housing discrimination continues in Florida, with disability, race, national origin, familial status, and sex constituting the top five bases for housing discrimination during the 2013-2014 fiscal year, and

WHEREAS, the Florida Commission on Human Relations continually strives to educate the general public and members of the housing industry to ensure that they are informed of their rights and responsibilities under fair housing laws and to engage in community partnerships so that all persons are provided fair and equal access to adequate and affordable housing without being subjected to discrimination, prejudice, or barriers, NOW, THEREFORE,

Be It Resolved by the Senate of the State of Florida:

SR 550—A resolution celebrating the benefits of routine nutritional screening and therapeutic nutritional intervention, and recognizing September 28 to October 2, 2015, as “Malnutrition Awareness Week” in Florida.

WHEREAS, leading health and nutrition experts agree that nutritional status is a direct measure of patient health, and that good nutrition and good health allow older adults and other vulnerable individuals to continue to live in the community, avoiding the need for institutionalization in a health care facility and reducing health care costs, and

WHEREAS, inadequate or unbalanced nutrition, known as malnutrition, is not routinely viewed as a medical concern in the United States, although it is particularly prevalent in vulnerable individuals, such as older adults, hospitalized patients, and minority populations, who statistically have the highest incidence of the most severe chronic illnesses, such as diabetes, kidney disease, and cardiovascular disease, and

WHEREAS, illness, injury, and malnutrition can result in the loss of lean body mass, which leads to complications that impact patient health outcomes, including longer recovery from surgery, illness, or disease, and

WHEREAS, the elderly lose lean body mass more quickly and to a greater extent than younger adults, and weight assessment that takes into account body weight and body mass index may overlook indicators of lean body mass loss, and

WHEREAS, the American Nursing Association defines therapeutic nutrition as the administration of food and fluids to support the metabolic processes of a patient who is malnourished or at high risk of becoming malnourished, and

WHEREAS, despite the recognized link between good nutrition and good health, nutritional screening and therapeutic nutrition treatment have not been incorporated as routine medical treatments across the spectrum of health care, and

WHEREAS, access to therapeutic nutrition is essential to restoring lean body mass, resolving malnutrition challenges, improving clinical outcomes, reducing health care costs, and promoting good health, NOW, THEREFORE,

Be It Resolved by the Senate of the State of Florida:

That September 28 to October 2, 2015, is recognized as “Malnutrition Awareness Week” in Florida.

(d) By mandatory payment by the municipality or special fire control district of a sum equal to the normal cost of and the amount required to fund any actuarial deficiency shown by an actuarial valuation ~~conducted under as provided in part VII of chapter 112 after taking into account the amounts described in paragraphs (b), (c), (e), (f), and (g) and the tax proceeds described in paragraph (a) which are used to fund benefits in a defined benefit plan component.~~

Nothing in this section shall be construed to require adjustment of member contribution rates in effect on the date this act becomes a law, including rates that exceed 5 percent of salary, provided that such rates are at least one-half of 1 percent of salary.

Section 6. Paragraph (a) of subsection (2) of section 175.162, Florida Statutes, is amended to read:

175.162 Requirements for retirement.—For any municipality, special fire control district, chapter plan, local law municipality, local law special fire control district, or local law plan under this chapter, any firefighter who completes 10 or more years of creditable service as a firefighter and attains age 55, or completes 25 years of creditable service as a firefighter and attains age 52, and who for such minimum period has been a member of the firefighters’ pension trust fund operating under a chapter plan or local law plan, is eligible for normal retirement benefits. Normal retirement under the plan is retirement from the service of the municipality or special fire control district on or after the normal retirement date. In such event, payment of retirement income will be governed by the following provisions of this section:

(2)(a)1. The amount of monthly retirement income payable to a full-time firefighter who retires on or after his or her normal retirement date shall be an amount equal to the number of his or her years of credited service multiplied by 2.75 ~~2~~ percent of his or her average final compensation as a full-time firefighter. ~~However, if current state contributions pursuant to this chapter are not adequate to fund the additional benefits to meet the minimum requirements in this chapter, only such incremental increases shall be required as state moneys are adequate to provide. Such increments shall be provided as state moneys become available.~~

2. Effective July 1, 2015, a plan that is in compliance with this chapter except that the plan provides a benefit that is less than 2.75 percent of the average final compensation of a full-time firefighter for all years of credited service or provides an effective benefit that is less than 2.75 percent as a result of a maximum benefit limitation:

a. *Must maintain, at a minimum, the percentage amount or maximum benefit limitation in effect on July 1, 2015, and is not required to increase the benefit to 2.75 percent of the average final compensation of a full-time firefighter for all years of credited service; or*

b. *If the plan changes the percentage amount or maximum benefit limitation to 2.75 percent or more of the average final compensation of a full-time firefighter for all years of credited service, the plan may not thereafter decrease the percentage amount or maximum benefit limitation to less than 2.75 percent of the average final compensation of a full-time firefighter for all years of credited service.*

Section 7. Section 175.351, Florida Statutes, is amended to read:

175.351 Municipalities and special fire control districts that have ~~having their own retirement pension plans for firefighters.—For any municipality, special fire control district, local law municipality, local law special fire control district, or local law plan under this chapter,~~ In order for a municipality or ~~municipalities and~~ special fire control district that has its ~~districts with their own retirement plan pension plans~~ for firefighters, or for firefighters and police officers if both are included, to participate in the distribution of the tax fund established under ~~pursuant to s. 175.101, a local law plan plans must meet the minimum benefits and minimum standards, except as provided in the mutual consent provisions in paragraph (1)(g) with respect to the minimum benefits not met as of October 1, 2012 set forth in this chapter.~~

(1) If a municipality has a ~~retirement pension~~ plan for firefighters, or a ~~pension plan~~ for firefighters and police officers if both are included, which in the opinion of the division meets the minimum benefits and minimum standards set forth in this chapter, the board of trustees of the retirement pension plan must, ~~as approved by a majority of firefighters of the municipality, may:~~

~~(a) place the income from the premium tax in s. 175.101 in such pension plan for the sole and exclusive use of its firefighters, or for firefighters and police officers if both are included, where it shall become an integral part of that pension plan and shall be used to fund benefits as provided herein. Effective October 1, 2015, for noncollectively bargained service or upon entering into a collective bargaining agreement on or after July 1, 2015:~~

(a) The base premium tax revenues must be used to fund minimum benefits or other retirement benefits in excess of the minimum benefits as determined by the municipality or special fire control district.

(b) Of the additional premium tax revenues received that are in excess of the amount received for the 2012 calendar year, 50 percent must be used to fund minimum benefits or other retirement benefits in excess of the minimum benefits as determined by the municipality or special fire control district, and 50 percent must be placed in a defined contribution plan to fund special benefits.

(c) Additional premium tax revenues not described in paragraph (b) must be used to fund benefits that are not included in the minimum benefits. If the additional premium tax revenues subject to this paragraph exceed the full annual cost of benefits provided through the plan which are in excess of the minimum benefits, any amount in excess of the full annual cost must be used as provided in paragraph (b).

(d) Of any accumulations of additional premium tax revenues which have not been allocated to fund benefits in excess of the minimum benefits, 50 percent of the amount of the accumulations must be used to fund special benefits, and 50 percent must be applied to fund any unfunded actuarial liabilities of the plan; provided that any amount of accumulations in excess of the amount required to fund the unfunded actuarial liabilities must be used to fund special benefits ~~to pay extra benefits to the firefighters included in that pension plan; or~~

~~(b) Place the income from the premium tax in s. 175.101 in a separate supplemental plan to pay extra benefits to firefighters, or to firefighters and police officers if included, participating in such separate supplemental plan.~~

(e) For a plan created after March 1, 2015, 50 percent of the insurance premium tax revenues must be used to fund defined benefit plan component benefits, with the remainder used to fund defined contribution plan component benefits.

(f) If a plan offers benefits in excess of the minimum benefits, such benefits, excluding supplemental plan benefits in effect as of September 30, 2014, may be reduced if the plan continues to meet minimum benefits and minimum standards. The amount of insurance premium tax revenues previously used to fund benefits in excess of minimum benefits before the reduction, excluding the amount of any additional premium tax revenues distributed to a supplemental plan for the 2012 calendar year, must be used as provided in paragraph (b). However, benefits in excess of minimum benefits may not be reduced if a plan does not meet the minimum percentage amount of 2.75 percent of the average final compensation of a full-time firefighter, as required by s. 175.162(2)(a)1., or provides an effective benefit that is below 2.75 percent as a result of a maximum benefit limitation as described in s. 175.162(2)(a)2.

(g) Notwithstanding paragraphs (a)-(f), the use of premium tax revenues, including any accumulations of additional premium tax revenues which have not been allocated to fund benefits in excess of minimum benefits, may deviate from the provisions of this subsection by mutual consent of the members' collective bargaining representative or, if there is no representative, by a majority of the firefighter members of the fund, and by consent of the municipality or special fire control district, provided that the plan continues to meet minimum benefits and minimum standards; however, a plan that operates pursuant to this paragraph and does not meet minimum benefits as of October 1, 2012, may continue to provide the benefits that do not meet the minimum benefits at the same level as was provided as of October 1, 2012, and all other benefit levels must

continue to meet the minimum benefits. Such mutually agreed deviation must continue until modified or revoked by subsequent mutual consent of the members' collective bargaining representative or, if none, by a majority of the firefighter members of the fund, and the municipality or special fire control district. An existing arrangement for the use of premium tax revenues contained within a special act plan or a plan within a supplemental plan municipality is considered, as of July 1, 2015, to be a deviation for which mutual consent has been granted.

(2) The premium tax provided by this chapter must ~~shall in all cases~~ be used in its entirety to provide retirement ~~extra~~ benefits to firefighters, or to firefighters and police officers if both are included. ~~However, local law plans in effect on October 1, 1998, must comply with the minimum benefit provisions of this chapter only to the extent that additional premium tax revenues become available to incrementally fund the cost of such compliance as provided in s. 175.162(2)(a). If a plan is in compliance with such minimum benefit provisions, as subsequent additional premium tax revenues become available, they must be used to provide extra benefits. Local law plans created by special act before May 27, 1939, are deemed to comply with this chapter. For the purpose of this chapter, the term:~~

(a) "Additional premium tax revenues" means revenues received by a municipality or special fire control district pursuant to s. 175.121 which exceed that amount received for calendar year 1997.

(b) "Extra benefits" means benefits in addition to or greater than those provided to general employees of the municipality and in addition to those in existence for firefighters on March 12, 1999.

(3) A retirement plan or amendment to a retirement plan may not be proposed for adoption unless the proposed plan or amendment contains an actuarial estimate of the costs involved. Such proposed plan or proposed plan change may not be adopted without the approval of the municipality, special fire control district, or, where required permitted, the Legislature. Copies of the proposed plan or proposed plan change and the actuarial impact statement of the proposed plan or proposed plan change shall be furnished to the division before the last public hearing on the proposal is held ~~thereon~~. Such statement must also indicate whether the proposed plan or proposed plan change is in compliance with s. 14, Art. X of the State Constitution and those provisions of part VII of chapter 112 which are not expressly provided in this chapter. Notwithstanding any other provision, only those local law plans created by special act of legislation before May 27, 1939, are deemed to meet the minimum benefits and minimum standards ~~only in this chapter~~.

(4) Notwithstanding any other provision, with respect to any supplemental plan municipality:

(a) A local law plan and a supplemental plan may continue to use their definition of compensation or salary in existence on March 12, 1999.

(b) Section 175.061(1)(b) does not apply, and a local law plan and a supplemental plan shall continue to be administered by a board or boards of trustees numbered, constituted, and selected as the board or boards were numbered, constituted, and selected on December 1, 2000.

~~(c) The election set forth in paragraph (1)(b) is deemed to have been made.~~

(5) The retirement plan setting forth the benefits and the trust agreement, if any, covering the duties and responsibilities of the trustees and the regulations of the investment of funds must be in writing, and copies made available to the participants and to the general public.

(6) In addition to the defined benefit plan component of the local law plan, each plan sponsor must have a defined contribution plan component within the local law plan by October 1, 2015, for noncollectively bargained service, upon entering into a collective bargaining agreement on or after July 1, 2015, or upon the creation date of a new participating plan. Depending upon the application of subsection (1), a defined contribution plan component may or may not receive any funding.

(7) Notwithstanding any other provision of this chapter, a municipality or special fire control district that has implemented or proposed changes to a local law plan based on the municipality's or district's re-

liance on an interpretation of this chapter by the Department of Management Services on or after August 14, 2012, and before March 3, 2015, may continue the implemented changes or continue to implement proposed changes. Such reliance must be evidenced by a written collective bargaining proposal or agreement, or formal correspondence between the municipality or district and the Department of Management Services which describes the specific changes to the local law plan, with the initial proposal, agreement, or correspondence from the municipality or district dated before March 3, 2015. Changes to the local law plan which are otherwise contrary to minimum benefits and minimum standards may continue in effect until the earlier of October 1, 2018, or the effective date of a collective bargaining agreement that is contrary to the changes to the local law plan.

Section 8. Subsection (2) of section 185.01, Florida Statutes, is amended to read:

Section 14. Section 185.35, Florida Statutes, is amended to read:

185.35 Municipalities ~~that have~~ *having* their own retirement pension plans for police officers.—~~For any municipality, chapter plan, local law municipality, or local law plan under this chapter, In order for a municipality that has its municipalities with their own retirement plan pension plans for police officers, or for police officers and firefighters if both are included, to participate in the distribution of the tax fund established under pursuant to s. 185.08, a local law plan plans must meet the minimum benefits and minimum standards, except as provided in the mutual consent provisions in paragraph (1)(g) with respect to the minimum benefits not met as of October 1, 2012. set forth in this chapter.~~

(1) If a municipality has a retirement ~~pension~~ plan for police officers, or for police officers and firefighters if *both* are included, which, in the opinion of the division, meets the minimum benefits and minimum standards ~~set forth in this chapter~~, the board of trustees of the retirement pension plan ~~must, as approved by a majority of police officers of the municipality, may:~~

~~(a)~~ place the income from the premium tax in s. 185.08 in such pension plan for the sole and exclusive use of its police officers, or its police officers and firefighters if *both* are included, where it shall become an integral part of that pension plan and ~~shall~~ be used to fund benefits as provided herein. *Effective October 1, 2015, for noncollectively bargained service or upon entering into a collective bargaining agreement on or after July 1, 2015:*

(a) The base premium tax revenues must be used to fund minimum benefits or other retirement benefits in excess of the minimum benefits as determined by the municipality.

(b) *Of the additional premium tax revenues received that are in excess of the amount received for the 2012 calendar year, 50 percent must be used to fund minimum benefits or other retirement benefits in excess of the minimum benefits as determined by the municipality, and 50 percent must be placed in a defined contribution plan component to fund special benefits.*

(c) *Additional premium tax revenues not described in paragraph (b) must be used to fund benefits that are not included in the minimum benefits. If the additional premium tax revenues subject to this paragraph exceed the full annual cost of benefits provided through the plan which are in excess of the minimum benefits, any amount in excess of the full annual cost must be used as provided in paragraph (b).*

(d) *Of any accumulations of additional premium tax revenues which have not been allocated to fund benefits in excess of the minimum benefits, 50 percent of the amount of the accumulations must be used to fund special benefits and 50 percent must be applied to fund any unfunded actuarial liabilities of the plan; provided that any amount of accumulations in excess of the amount required to fund the unfunded actuarial liabilities must be used to fund special benefits pay extra benefits to the police officers included in that pension plan; or*

~~(b)~~ *May place the income from the premium tax in s. 185.08 in a separate supplemental plan to pay extra benefits to the police officers, or police officers and firefighters if included, participating in such separate supplemental plan.*

(e) *For a plan created after March 1, 2015, 50 percent of the insurance premium tax revenues must be used to fund defined benefit plan component benefits, with the remainder used to fund defined contribution plan component benefits.*

(f) If a plan offers benefits in excess of the minimum benefits, such benefits, excluding supplemental plan benefits in effect as of September 30, 2014, may be reduced if the plan continues to meet minimum benefits and the minimum standards. The amount of insurance premium tax revenues previously used to fund benefits in excess of the minimum benefits before the reduction, excluding the amount of any additional premium tax revenues distributed to a supplemental plan for the 2012 calendar year, must be used as provided in paragraph (b). However, benefits in excess of the minimum benefits may not be reduced if a plan does not meet the minimum percentage amount of 2.75 percent of the average final compensation of a police officer or provides an effective benefit that is less than 2.75 percent as a result of a maximum benefit limitation, as described in s. 185.16(2)(b).

(g) Notwithstanding paragraphs (a)-(f), the use of premium tax revenues, including any accumulations of additional premium tax revenues which have not been allocated to fund benefits in excess of the minimum benefits, may deviate from the provisions of this subsection by mutual consent of the members' collective bargaining representative or, if none, by a majority of the police officer members of the fund, and by consent of the municipality, provided that the plan continues to meet minimum benefits and minimum standards; however, a plan that operates pursuant to this paragraph and does not meet the minimum benefits as of October 1, 2012, may continue to provide the benefits that do not meet the minimum benefits at the same level as was provided as of October 1, 2012, and all other benefit levels must continue to meet the minimum benefits. Such mutually agreed deviation must continue until modified or revoked by subsequent mutual consent of the members' collective bargaining representative or, if none, by a majority of the police officer members of the fund, and the municipality. An existing arrangement for the use of premium tax revenues contained within a special act plan or a plan within a supplemental plan municipality is considered, as of July 1, 2015, to be a deviation for which mutual consent has been granted.

(2) The premium tax provided by this chapter ~~must shall in all cases~~ be used in its entirety to provide retirement ~~extra~~ benefits to police officers, or to police officers and firefighters if both are included. ~~However, local law plans in effect on October 1, 1998, must comply with the minimum benefit provisions of this chapter only to the extent that additional premium tax revenues become available to incrementally fund the cost of such compliance as provided in s. 185.16(2). If a plan is in compliance with such minimum benefit provisions, as subsequent additional tax revenues become available, they shall be used to provide extra benefits. Local law plans created by special act before May 27, 1939, shall be deemed to comply with this chapter. For the purpose of this chapter, the term:~~

(a) ~~"Additional premium tax revenues" means revenues received by a municipality pursuant to s. 185.10 which exceed the amount received for calendar year 1997.~~

(b) ~~"Extra benefits" means benefits in addition to or greater than those provided to general employees of the municipality and in addition to those in existence for police officers on March 12, 1999.~~

(3) A retirement plan or amendment to a retirement plan may not be proposed for adoption unless the proposed plan or amendment contains an actuarial estimate of the costs involved. Such proposed plan or proposed plan change may not be adopted without the approval of the municipality or, where ~~required~~ permitted, the Legislature. Copies of the proposed plan or proposed plan change and the actuarial impact statement of the proposed plan or proposed plan change shall be furnished to the division before the last public hearing ~~on the proposal is held thereon~~. Such statement must also indicate whether the proposed plan or proposed plan change is in compliance with s. 14, Art. X of the State Constitution and those provisions of part VII of chapter 112 which are not expressly provided in this chapter. Notwithstanding any other provision, only those local law plans created by special act of legislation before May 27, 1939, are deemed to meet the minimum benefits and minimum standards only in this chapter.

(4) Notwithstanding any other provision, with respect to any supplemental plan municipality:

(a) Section 185.02(6)(a) ~~185.02(4)(a)~~ does not apply, and a local law plan and a supplemental plan may continue to use their definition of compensation or salary in existence on March 12, 1999.

(b) A local law plan and a supplemental plan must continue to be administered by a board or boards of trustees numbered, constituted, and selected as the board or boards were numbered, constituted, and selected on December 1, 2000.

~~(c) The election set forth in paragraph (1)(b) is deemed to have been made.~~

(5) The retirement plan setting forth the benefits and the trust agreement, if any, covering the duties and responsibilities of the trustees and the regulations of the investment of funds must be in writing and copies made available to the participants and to the general public.

(6) In addition to the defined benefit component of the local law plan, each plan sponsor must have a defined contribution plan component within the local law plan by October 1, 2015, for noncollectively bargained service, upon entering into a collective bargaining agreement on or after July 1, 2015, or upon the creation date of a new participating plan. Depending upon the application of subsection (1), a defined contribution component may or may not receive any funding.

(7) Notwithstanding any other provision of this chapter, a municipality that has implemented or proposed changes to a local law plan based on the municipality's reliance on an interpretation of this chapter by the Department of Management Services on or after August 14, 2012, and before March 3, 2015, may continue the implemented changes or continue to implement proposed changes. Such reliance must be evidenced by a written collective bargaining proposal or agreement, or formal correspondence between the municipality and the Department of Management Services which describes the specific changes to the local law plan, with the initial proposal, agreement, or correspondence from the municipality dated before March 3, 2015. Changes to the local law plan which are otherwise contrary to minimum benefits and minimum standards may continue in effect until the earlier of October 1, 2018, or the effective date of a collective bargaining agreement that is contrary to the changes to the local law plan.

Section 15. The Legislature finds that a proper and legitimate state purpose is served when employees and retirees of this state and its political subdivisions, and the dependents, survivors, and beneficiaries of such employees and retirees, are extended the basic protections afforded by governmental retirement systems that provide fair and adequate benefits and that are managed, administered, and funded in an actuarially sound manner as required under s. 14, Article X of the State Constitution and part VII of chapter 112, Florida Statutes. Therefore, the Legislature determines and declares that this act fulfills an important state interest.

Section 16. This act shall take effect July 1, 2015.

SENATOR RICHTER PRESIDING

REMARKS

On motion by Senator Smith, by two-thirds vote the following remarks were ordered spread upon the Journal:

Senator Soto: Would this bill encourage, ultimately, local law enforcement to increase the use of body cameras?

Senator Smith: Yes, in discussion with a lot of the law enforcement, local as well as sheriffs, the language in this bill was deemed as critical for them to incentivize those that don't have body cameras to use them.

Senator Soto: Senator Smith, the City of Orlando had asked me to reach out to clarify a certain matter in the bill. Under subsection 3 of the bill, it allows law enforcement agencies to release body camera recordings, otherwise confidential, in furtherance of its official duties and responsibilities. Does this language allow a police agency to release body camera recordings to establish what actually happened in an incident in which the propriety of the law enforcement action has been questioned?

Senator Smith: Yes, it does.

PRAYER

The following prayer was offered by Reverend David Killeen, St. John's Episcopal Church, Tallahassee:

Accept, O Lord, our thanks and praise for all that you have done for us. We thank you for the splendor of the whole creation, for the beauty of this world, and for the wonder of life.

On this Earth Day, we pray that you will give us wisdom and reverence so to use the resources of nature, that no one may suffer from our abuse of them, and that generations yet to come may continue to praise you for your bounty.

In our capital, districts, and hometowns, we thank you for setting us at tasks which demand our best efforts and for leading us to accomplishments which satisfy and delight us. We thank you also for those disappointments and failures that lead us to acknowledge our dependence on you alone.

Grant that we may not rest until all the people of this land share the benefits of true freedom and gladly accept its disciplines. For yours is the kingdom, O Lord, and you are exalted as head above all. Amen.

Pursuant to Senate Rules, he was required to conduct a hearing and to recommend whether Ms. Rowland should be removed from or reinstated to the office of Notary Public. The Special Master conducted the hearing on April 3, 2015. As required, a Special Master's Final Report was pre-

pared on April 10, 2015. The Special Master presented the Report to the Committee on Ethics and Elections on April 15, 2015.

The Special Master's Final Report states that at the hearing the Governor's counsel only argued that Ms. Rowland failed to provide written notification of the change in her criminal history, name, and address within 60 days. Both parties stipulated that on April 8, 2013, Ms. Rowland entered a nolo contendere plea to the criminal charge and that adjudication of guilt was withheld. The parties also stipulated that Ms. Rowland changed her name and address on October 11, 2013. The Special Master found that on March 24, 2014, Ms. Rowland notified the Notary Section in the Office of the Governor with her change in name and address. This occurred after being contacted by the Notary Section concerning changes in Ms. Rowland's criminal history.

Concerning Ms. Rowland's testimony, the Special Master stated he found Ms. Rowland to be a credible witness and accepted her testimony as true. The Special Master's Final Report indicates that Ms. Rowland asked for leniency and provided additional background. Ms. Rowland testified that she was embroiled in divorce proceedings during 2013. She testified that to bring closure to the ordeal, she accepted a nolo contendere plea offer which included a withhold of adjudication. Ms. Rowland stated that her public defender advised her that she would not have to report the plea as a conviction because adjudication of guilt was not imposed. Based on that advice, she was not aware that she was obligated to report the criminal charge and resolution of the matter. During this time period, Ms. Rowland was not employed. Nor was Ms. Rowland using her notary commission. Additionally, Ms. Rowland provided general letters of recommendation to the Special Master, one of which was from an attorney that she has known for approximately 30 years.

The Special Master concluded:

Based on the foregoing, it is my opinion that counsel for the Governor has demonstrated appropriate grounds for Shawn Rowland to be suspended and removed from office. I make this finding based upon a clear violation of the law. As counsel for the Governor argued, notaries public are public officers subject to a higher standard. My recommendation is based on the law and the facts as proven. While Shawn Rowland presented as a sympathetic and credible witness, it is not my role to say whether leniency or a lesser penalty should apply. This conclusion and report is only a recommendation to the President and the Senate. If leniency or mercy is to be granted, it is within the power and discretion of the Senate to grant it.

At the Committee on Ethics and Elections meeting on April 15, 2015, the Special Master presented the report and responded to questions from members concerning the facts and findings contained therein. Some committee members expressed concern regarding the technical nature of the allegations. To that point, the Special Master acknowledged that no evidence had been presented to suggest Ms. Rowland used her notary commission improperly or for nefarious purposes. Further, some members of the committee viewed the advice provided by Ms. Rowland's public defender that she did not have a felony conviction on her record as an additional mitigating factor. The Special Master was asked whether or not "we've caught a criminal." The Special Master responded in the negative. Further, he explained that in a criminal context, these facts would support the case for leniency. However, he also indicated the issue dealt with the privilege of holding a public office and not a criminal prosecution, and reasonable people may disagree as to how high the standard should be and whether leniency would be appropriate. In light of the technical nature of the violations and the mitigating circumstances, the Committee voted to reject the Special Master's Final Report and recommend to the Senate that Ms. Rowland be reinstated as a Notary Public.

Based on the foregoing, I advise and recommend that the Senate reinstate Ms. Shawn Rowland to the office of Notary Public.

Sincerely,
Garrett Richter, Chair

On motion by Senator Richter, the report was adopted and the Senate confirmed the reinstatement of Ms. Rowland, identified in the foregoing report of the committee to the office of Notary Public in accordance with the recommendation of the committee.
