## PRAYER

The following prayer was offered by LaQuisha Persak, an employee with the Secretary of the Senate's office:

Lord, we thank you for another day of life and for the opportunity to do your will on this earth. We thank you for your protection and guidance over our lives and the lives of our loved ones. Lord, today we ask for a special prayer of guidance for our State Senators as they consider the important legislation that will be before them this special session. We ask that you guide their hearts and minds toward your will and purpose and what is best for the State of Florida. Heavenly Father, we pray that you continue to give our leaders both the wisdom and the grace to carry out this great responsibility that falls upon their shoulders; a responsibility that is filled with many challenges and difficult decisions. For this, your wisdom is needed.

So, as Solomon requested and prayed in *1 Kings 3:9* for wisdom, we also make the same request regarding wisdom for not only our State Senators, but for every leader in the State of Florida, which is, "Give me an understanding heart so that I can govern your people well and know the difference between right and wrong. For who by himself is able to govern this great people of yours?"

For this, Lord, we call on you today for your divine wisdom and guidance. Thank you, Lord, for your grace, favor, and abundant blessings. In your Son's name I pray. Amen.

## DISCLOSURE

A trust of which I am a beneficiary has an interest in property adjacent to certain Florida Department of Transportation right-of-way. I am uncertain to what degree the provisions in Senate Bill 2500-A may benefit the trust or its assets, but I would like to make this disclosure in an abundance of caution.

Therefore, I believe that, because this bill may potentially benefit this trust, I am required by Senate Rule 1.39 to disclose the above facts.

*Senator Travis Hutson, 6th District*

## PRAYER

The following prayer was offered by Senator Montford:

Father, we thank you for the blessings bestowed upon our state and our country. We thank you for the blessing of bringing us back together in this special session. We gather in your name and ask for your divine guidance to govern in a manner that honors you and serves the people of our great state. Please help us remember the impact of what we do on those who are the most vulnerable and the most needy, because we know that you have us here for that purpose. We ask that you instill in us the unwavering commitment to do what is right. If we falter, please forgive us and correct our paths so that we may serve the people and fulfill the duty you have given to us.

Father, we know that we face what some may see as insurmountable challenges, but we also know that you are all powerful. We find in *1 Samuel 16:7*, "People look at outward appearance, but the Lord looks at the heart." It is comforting and reassuring to know that you indeed know what is in our hearts. We know that you search our hearts and souls and move us to do what is right. Because we know when we do your will, when we do what is right, it will be pleasing to you, and we will be serving your people.

We come to you today to ask for your moral leadership. As you have provided for us, you have also given us the task of providing for those around us. You have given each of us the responsibility to care for our neighbors, for your children, and we ask for guidance in that care. Thank you, Lord, for the opportunity for this Senate to be a moral compass and an example of empathy and sacrifice as you have been an example of sacrifice and empathy to us.

In closing, Father, we ask for your continued support and guidance and your blessings to this body, the state, and the country. We ask for special blessings, Father, for the military men and women and their families who sacrifice every day to help ensure the freedom that we enjoy. Father, we are grateful for our Senate President Gardiner who leads this chamber in a moral, ethical, and most importantly, a family-oriented manner. In your name we pray. Amen.

## PLEDGE

Senator Bean led the Senate in the Pledge of Allegiance to the flag of the United States of America.

## PRAYER

The following prayer was offered by Senator Gaetz:

Lord, we are in a place we didn't want to be at a time we didn't want to be here. We are frustrated when we thought we would be finished. We are anxious when we expected things to be settled.

We hear harsh words spoken and see sharp fingers pointed—these are our friends or, at least, not our enemies—and we wonder why it had to be like this. This isn't who we are, is it, Lord?

Let us not furnish a spectacle for the grist-grinders. Let us be worthy of the trust of our people and faithful to our oaths sworn on your scriptures.

We go soon to conference with the women and men of the House of Representatives, who are just as worthy, just as sincere, just as principled as we hope we might be. Great matters for our state have to be decided. Twenty million sets of eyes are on us. Help us set aside the sound and fury of recent days. Sound and fury that, in the end, signified nothing.

Now we turn to you. Now, more than ever, we need you. Quiet our hearts. Soften our tongues. Open our minds. Humble our pride. Awaken our sense of humor, especially about ourselves.

Guide our President, Andy Gardiner, and our Speaker, Steve Crisafulli, and each of us. Put your hand on their shoulders and on ours.

Lead us gently, firmly to your wisdom and, in the words of the prophet Isaiah, "Come now, let us reason together. Let us settle the matter. Do good. Seek justice. Reprove the ruthless. Defend the orphan. Plead for the widow. And if you obey this," God said, "then all the best rewards will be yours." Amen.

Creator God, we marvel at the vastness of the cosmos, the intricacies of nature, and the miracle of life. Thank you, Lord, for trusting us as stewards of your gifts. Open our hearts to enjoy and share the blessings you so freely give.

## PRAYER

The following prayer was offered by Senator Joyner:

O Lord, our God, the members of the Senate of the State of Florida are grateful for your presence in our lives and in this eminent body. We have been elected by people who trust us, and in order to put their needs before our egos, we need your strength, your guidance, and your wisdom.

There are problems far greater than the wisdom of any woman or man in this body or other position of the government of this great state can solve. O God, we cry out to you, "What shall our leaders do at such a time as this?"

Lord, bestow your wisdom and power upon the Governor of this state, this body, our colleagues in the House of Representatives, and every elected and appointed official to whom leadership has been entrusted. May the responsibility to lead weigh heavily on our hearts until we are ready to acknowledge our helplessness and turn to you. Give us the honesty, courage, and integrity to confess that we often don't know what to do. Only then can we, as the Senate of the State of Florida, turn beyond human wisdom to you, who alone has the answer.

All over our state there are those who remind themselves and others that you, God, are our refuge, strength, and a very present help in times of trouble. Remind us that, as our refuge, you are not a hiding place where we can escape, but rather the arsenal of courage and strength that we need to stand together in righteousness and unity to move our state forward.

O God, may we never forget that what we do is meant to honor you and bless the people of the great State of Florida. Amen.

The following prayer was offered by Senator Benacquisto:

Dear Lord, the hours have been long; the days have run together. All in all, we have found ways to come together in service for those folks back home who are counting on us to do the right thing for them and for their neighbors. In all of it, we found fellowship and friendship and sought new purpose in the work that we do here in the Florida Senate and in the Legislature.

We are thankful for you watching out for our families and the folks we love back home while we are here working so hard on our constituents' behalf. If we could have a little extra blessing to bring it home with Godspeed and get home to our families quickly, that would be much appreciated. In your name we pray. Amen.

## PRAYER

The following prayer was offered by Senator Stargel:

Dear Heavenly Father, thank you for this day. Lord, we thank you for this opportunity that we have to serve in this state. Lord, we thank you for all the many blessings that you've given us. Lord, we thank you for the safety in the travels we've had going back and forth throughout this legislative session.

Lord, as we finish out these last few days, I pray that you would be with our leaders as we finish up the budget. Lord, be with our Governor as he looks at the budget and makes decisions concerning it. Lord, be with the constituents we serve here in the State of Florida. Lord, I pray that you would be with the individuals from Charleston, South Carolina, and the tragedy they are dealing with in their state, Lord.

I thank you, Lord, that I have a country that allows me the opportunity to come forward and offer this prayer and also allows us the freedom of religion to be able to practice our faith no matter how diverse it may be. Lord, I thank you for the days we have before us, and as we prepare for our next upcoming session, I pray that you would give us wisdom. I pray that as we go amongst the people that we work with in our state, that you would give us a listening ear and an opportunity to learn, appreciate, have compassion, and understand the issues that are facing them so we can be better policymakers. Lord, I pray that you would help us these last two days and give us traveling mercies as we go home—hopefully on Friday. We pray these things in your name. Amen.

## MOMENT OF SILENCE

At the request of Senator Joyner, the Senate observed a moment of silence in honor of the victims of the shooting at Emanuel AME Church in Charleston, South Carolina, on June 17, 2015. Among the nine victims who lost their lives was South Carolina State Senator Clementa Pinckney, who was also the pastor of the church.

At the request of Senators Soto and Thompson, the Senate observed a moment of silence in honor of Katie Porta who was a Central Florida disabilities advocate. Ms. Porta passed away on June 16, 2015, after a long battle with cancer.

## SPECIAL PRESENTATION

Senator Evers recognized members from the Florida Institute for Human and Machine Cognition (IHMC) team, who were present in the gallery. The Pensacola IHMC team took second place in the DARPA Robotics Challenge Finals, received \$1 million, and was the top finisher in the Atlas Robot competition. A video was played highlighting the team's outstanding performance in the competition, which was held in June 2015.

## ADOPTION OF RESOLUTIONS

### MOTION TO INTRODUCE RESOLUTION

On motion by Senator Evers, by unanimous consent—

By Senator Evers—

**SR 16-A**—A resolution commending the Florida Institute for Human and Machine Cognition team on its outstanding performance in the DARPA Robotics Challenge.

WHEREAS, The Defense Advanced Research Projects Agency (DARPA) is an agency of the United States Department of Defense responsible for the development of emerging technologies for use by the military, and

WHEREAS, launched in response to the humanitarian need that arose during the nuclear disaster at Fukushima, Japan, in 2011, the DARPA Robotics Challenge was a competition of robot systems and software teams vying to develop robots capable of assisting humans in responding to natural and manmade disasters, and

WHEREAS, participating teams representing some of the most advanced robotics research and development organizations in the world collaborate and innovate over a short period of time to develop the hardware, software, sensors, and human-machine control interfaces that will enable their robots to complete a series of challenge tasks selected by DARPA for their relevance to disaster response, and

WHEREAS, the DARPA Robotics Challenge consisted of three increasingly demanding competitions held over the course of a 2-year period in which the goal was to accelerate progress in robotics and hasten the day when robots have sufficient dexterity and robustness to enter areas too dangerous for humans and mitigate the impacts of natural or manmade disasters, and

WHEREAS, the first phase of the competition, the Virtual Robotics Challenge (VRC), occurred in June 2013 on an open-source, cloud-based platform and tested 26 competing software teams' ability to effectively guide a simulated robot through three sample tasks in a virtual environment, with the top six teams moving on to participate in the DARPA Robotics Challenge (DRC), and

WHEREAS, the Florida Institute for Human and Machine Cognition (IHMC), based in Pensacola, entered the competition, placed first in the VRC, and was provided an Atlas robot to continue in the next phase of the competition, the DRC Trials, and

WHEREAS, the DRC Trials occurred in December 2013 at the Homestead-Miami Speedway, where teams guided their robots through eight individual, physical tasks that tested mobility, manipulation, dexterity, perception, and operator control mechanisms, and

WHEREAS, IHMC placed second overall in the competition and placed first in the Atlas robot competition, advancing to the DRC Finals, and

WHEREAS, the DRC Finals challenged participating robotics teams and their robots to complete a difficult course of eight tasks relevant to disaster response, among them driving alone, walking through rubble, tripping circuit breakers, turning valves, and climbing stairs, and

WHEREAS, 12 teams from the United States and 11 teams from Japan, Germany, Italy, Republic of Korea, and Hong Kong competed in the outdoor competition, held June 5-6, 2015, in Pomona, California, and

WHEREAS, in competing in the DARPA Robotics Challenge, the 23 members of the IHMC team brought great honor and distinction to this state and successfully demonstrated the value of robotics in responding to natural and manmade disasters, NOW, THEREFORE,

*Be It Resolved by the Senate of the State of Florida:*

That the Florida Institute for Human and Machine Cognition team is commended on its outstanding performance in the DARPA Robotics Challenge.

## PRAYER

The following prayer was offered by Senator Legg:

Dear Lord, we set this moment aside to honor you and thank you for your goodness. Today, our hearts are still heavy for those in Charleston, South Carolina. We pray for the families and community during this time. We know that you are a God who abhors violence and hatred, because you are a God of love. I believe we are made in your image; an image of love. We were made to be loved and to show your love. I ask that we honor those in Charleston by more than praying for them but by showing love to those all around us, especially those who may be different than ourselves or those who we do not yet understand.

Today, Lord, we find ourselves at the end of a long session. It was much longer and filled with more obstacles than first envisioned all those months ago, but you never promised us that our journey would be swift, easy, or without challenges. You did promise that you would be by our side in the valleys and walk with us in the shadow of struggles. Indeed, you have kept your promise that you would never leave us nor forsake us. Today, we find ourselves at the end of that very long journey, and yes, we are a little more tired, a little more weary, but grateful and stronger.

As we prepare to leave and return home, I ask for rest for our Senators, House members, and their families—not just physical or mental rest and refreshing, but also spiritual rest and renewal. Allow us to set a time aside to seek your face and to listen to your still, small voice. Help us to yield to what the psalmist said when he wrote, “You make us lie down in green pastures and you restore our soul.”

I close by asking you to write on our hearts and minds the words of the prophet Micah when he wrote, “We act justly, love mercy, and walk humbly before our God.” I ask this in your name. Amen.

The Conference Committee Amendment for SB 2514-A, relating to the Florida Department of Transportation (FDOT), provides for the following:

- Redirects an additional portion of the \$225 additional fee imposed on initial registration of motor vehicles (referred to as the "New Wheels Fee") that is currently deposited into the General Revenue Fund to the State Transportation Trust Fund (STTF) within the FDOT.
- The additional revenues directed to the STTF increases the New Wheels Fee revenues for the STTF from \$107 million to \$206 million annually, or an increase of \$99 million.
- Specifies how the revenues from this fee are to be used by the FDOT. The designated uses include the following programs and amounts:
  - o The Florida Shared-Use Nonmotorized Trail Network - \$25 million.
  - o The New Starts Transit Program-3.4 percent (\$7.1 million).
  - o The Small County Outreach Program-5 percent (\$10.2 million).
  - o The Florida Strategic Intermodal System-20.6 percent (\$42.5 million).
  - o The Transportation Regional Incentive Program-6.9 percent (\$14.2 million).
  - o All remaining funds for any transportation purpose authorized by law.
- Creates the Florida Shared-Use Nonmotorized Trail (SunTrail) network as a component of the Florida Greenways and Trails System.
- The SunTrail network consists of multiuse trails or shared-use paths separated from motor vehicle traffic and constructed with asphalt, concrete or other hard surface which provides non-motorized transportation opportunities for bicyclists and pedestrians statewide.
- Includes provisions for the planning, development, operation, and maintenance of the SunTrail network components.
- Requires the FDOT to allocate \$25 million annually in the FDOT work program for the SunTrail network.

**Conference Committee Amendment (876250)(with title amendment)**—Delete everything after the enacting clause and insert:

Section 1. Subsection (4) of s. 320.072, Florida Statutes, is amended to read:

320.072 Additional fee imposed on certain motor vehicle registration transactions.—

(4) A tax collector or other authorized agent of the department shall promptly remit all moneys collected pursuant to this section, less any refunds granted pursuant to subsection (3), to the department. The department shall deposit 85.7 ~~44.5~~ percent of such moneys into the State Transportation Trust Fund; and 14.3 percent into the Highway Safety Operating Trust Fund, ~~and 41.2 percent into the General Revenue Fund.~~ Notwithstanding any other law, the moneys deposited into the State Transportation Trust Fund pursuant to this subsection shall be used by the Department of Transportation for the following:

(a) The Florida Shared-Use Nonmotorized Trail Network established in s. 339.81, \$25 million.

(b) The capital funding for the New Starts Transit Program, authorized by 49 U.S.C. s. 5309 and pursuant to s. 341.051, 3.4 percent.

(c) The Small County Outreach Program pursuant to s. 339.2818, 5 percent.

(d) The Florida Strategic Intermodal System pursuant to ss. 339.61, 339.62, 339.63, and 339.64, 20.6 percent.

(e) The Transportation Regional Incentive Program pursuant to s. 339.2819, 6.9 percent.

(f) All remaining funds for any transportation purpose authorized by law.

Section 2. Section 339.81, Florida Statutes, is created to read:

339.81 Florida Shared-Use Nonmotorized Trail Network.—

(1) The Legislature finds that increasing demands continue to be placed on the state's transportation system by a growing economy, continued population growth, and increasing tourism. The Legislature also finds that significant challenges to providing additional capacity to the conventional transportation system exist and will require enhanced accommodation of alternative travel modes to meet the needs of residents and visitors. The Legislature further finds that improving bicyclist and pedestrian safety for both residents and visitors remains a high priority. Therefore, the Legislature declares that the development of a non-motorized trail network will increase mobility and recreational alternatives for Florida's residents and visitors, enhance economic prosperity, enrich quality of life, enhance safety, and reflect responsible environmental stewardship. To that end, it is the intent of the Legislature that the department make use of its expertise in efficiently providing transportation projects to develop the Florida Shared-Use Nonmotorized Trail Network, consisting of a statewide network of nonmotorized trails which allows nonmotorized vehicles and pedestrians to access a variety of origins and destinations with limited exposure to motorized vehicles.

(2) The Florida Shared-Use Nonmotorized Trail Network is created as a component of the Florida Greenways and Trails System established in chapter 260. The statewide network consists of multiuse trails or shared-use paths physically separated from motor vehicle traffic and constructed with asphalt, concrete, or another hard surface which, by virtue of design, location, extent of connectivity or potential connectivity, and allowable uses, provides nonmotorized transportation opportunities for bicyclists and pedestrians statewide between and within a wide range of points of origin and destinations, including, but not limited to, communities, conservation areas, state parks, beaches, and other natural or cultural attractions for a variety of trip purposes, including work, school, shopping, and other personal business, as well as social, recreational, and personal fitness purposes.

(3) Network components do not include sidewalks, nature trails, loop trails wholly within a single park or natural area, or on-road facilities, such as bicycle lanes or routes other than:

(a) On-road facilities that are no longer than one-half mile connecting two or more nonmotorized trails, if the provision of non-road facilities is infeasible and if such on-road facilities are signed and marked for non-motorized use; or

(b) On-road components of the Florida Keys Overseas Heritage Trail.

(4) The planning, development, operation, and maintenance of the Florida Shared-Use Nonmotorized Trail Network is declared to be a public purpose, and the department, together with other agencies of this state and all counties, municipalities, and special districts of this state, may spend public funds for such purposes and accept gifts and grants of funds, property, or property rights from public or private sources to be used for such purposes.

(5) The department shall include the Florida Shared-Use Nonmotorized Trail Network in its work program developed pursuant to s. 339.135. For purposes of funding and maintaining projects within the network, the department shall allocate in its program and resource plan a

minimum of \$25 million annually, beginning in the 2015-2016 fiscal year.

(6) *The department may enter into a memorandum of agreement with a local government or other agency of the state to transfer maintenance responsibilities of an individual network component. The department may contract with a not-for-profit entity or private sector business or entity to provide maintenance services on an individual network component.*

(7) *The department may adopt rules to aid in the development and maintenance of components of the network.*

Section 3. *If any law amended by this act was also amended by a law enacted during the 2015 Regular Session of the Legislature, such laws shall be construed as if enacted during the same session of the Legislature, and full effect shall be given to each if possible.*

Section 4. Except as otherwise expressly provided in this act and except for this section, which shall take effect upon this act becoming a law, this act shall take effect July 1, 2015, or, if this act fails to become a law until after that date, it shall take effect upon becoming a law and operate retroactively to July 1, 2015.

And the title is amended as follows:

Delete everything before the enacting clause and insert: A bill to be entitled An act relating to the Department of Transportation; amending s. 320.072, F.S.; revising the distribution of revenues from additional fees imposed on certain motor vehicle registration transactions; providing for the use of moneys from such distribution by the department; creating s. 339.81, F.S.; creating the Florida Shared-Use Nonmotorized Trail Network; providing legislative findings and intent; providing descriptions and components of the network; providing for the planning, development, operation, and maintenance of the network; requiring funding to be allocated to the Florida Shared-Use Nonmotorized Trail Network in the program and resource plan of the department; authorizing memoranda of agreement and contracts for maintaining the network; authorizing the department to adopt rules; providing for construction of the act in pari materia with laws enacted during the 2015 Regular Session of the Legislature; providing for contingent retroactive operation; providing effective dates.

On motion by Senator Latvala, the Conference Committee Report on **SB 2514-A** was adopted. **SB 2514-A** passed, as amended by the Conference Committee Report, and was certified to the House together with the Conference Committee Report. The vote on passage was:

The Conference Committee Amendment for SB 2508-A, relating to Medicaid, provides for the following:

- Redefines the definition of "rural hospital" to remove the provision that hospitals qualifying as sole community hospitals under federal guidelines are automatically qualified as rural hospitals under Florida law if they have no more than 340 beds.

- Authorizes the Agency for Health Care Administration (AHCA) to receive intergovernmental transfers (IGTs) of funds from local governmental entities for the advancement of the Medicaid program. Directs AHCA to seek federal waiver authority to maintain a low-income pool under parameters provided in the General Appropriations Act for offsetting shortfalls in Medicaid reimbursement or paying for otherwise uncompensated care.
- Confirms and clarifies existing law regarding reimbursement provisions, provider notification requirements, and the administrative challenge process for Medicaid inpatient and outpatient hospital rates. Specifies that the written notice of the hospital reimbursement rates provided by AHCA constitutes final agency action for purposes of administrative challenges to the hospital reimbursement rates.
- Reenacts three statutory provisions for the purpose of incorporating the bill's clarifications to reimbursement provisions, provider notification requirements, and the administrative challenge process for Medicaid inpatient and outpatient hospital rates.
- Removes community intermediate care facilities for the developmentally disabled from the list of providers for which AHCA is required to set rates at levels that ensure no increase in statewide expenditures resulting from changes in unit costs.
- Provides that quality assessments paid by nursing homes to AHCA are due on the 20th of each month, instead of the 15th of each month as under current law.
- Creates the Graduate Medical Education Startup Bonus Program within the Statewide Medicaid Residency Program (SMRP). In any fiscal year in which funds are appropriated for the startup bonus program, hospitals eligible to participate in the SMRP may apply for up to \$100,000 per newly created residency slot that is dedicated to a physician specialty in state-wide supply/demand deficit. Such physician specialties and subspecialties are those identified in the General Appropriations Act.
- Amends statutes relating to the Disproportionate Share Hospital (DSH) program and requires AHCA to use the average of the 2007, 2008, and 2009 audited disproportionate share data to determine each hospital's Medicaid days and charity care for the 2015-2016 fiscal year, instead of the average of the 2005, 2006, and 2007 data as under current law.
- Amends the Statewide Medicaid Managed Care program to:
  - o Provide that achieved savings rebates that are refunded to the state by Medicaid managed care plans will be placed in the General Revenue Fund, unallocated;
  - o Provide that funds contributed by managed care plans for the purpose of supporting Medicaid indigent care will be deposited into the Grants and Donations Trust Fund;
  - o Provide that when payments from AHCA to managed care plans within the Long-Term Care Managed Care (LTCMC) component are reconciled to reimburse plans for actual payments to nursing facilities, the reconciliations must result from changes in nursing home per diem rates and that payments may not be reconciled to actual nursing home bed-days experienced by the LTCMC plans; and
  - o Repeal s. 409.97, F.S., relating to state and local Medicaid partnerships.
- Deletes a statutory provision requiring AHCA to use certified public expenditures of general revenue appropriated for Healthy Start services, including any associated federal match, for the purpose of supporting AHCA's contract with an administrative services organization representing all Healthy Start coalitions.
- Provides that AHCA may partner with a state or territory for the purpose of providing Medicaid fiscal agent operations only if Florida may terminate such a partnership if the state decides it is not in the best interest of the state.
- Provides that the model, methodology, and framework for hospital funding programs contained in the document titled "Medicaid Hospital Funding Programs," dated June 16, 2015, are incorporated by reference for the purpose of displaying, demonstrating, and explaining the calculations used by the Legislature when making appropriations in the General Appropriations Act for the 2015-2016 fiscal year for various Medicaid programs. Provides Legislative intent regarding the appropriations for various Medicaid programs and provides for the

bill to be deemed invalid, non-severable, and to have never become law under specified conditions.

Section 1. Paragraph (e) of subsection (2) of section 395.602, Florida Statutes, is amended to read:

395.602 Rural hospitals.—

(2) DEFINITIONS.—As used in this part, *the term*:

(e) "Rural hospital" means an acute care hospital licensed under this chapter, having 100 or fewer licensed beds and an emergency room, which is:

1. The sole provider within a county with a population density of up to 100 persons per square mile;

2. An acute care hospital, in a county with a population density of up to 100 persons per square mile, which is at least 30 minutes of travel time, on normally traveled roads under normal traffic conditions, from any other acute care hospital within the same county;

3. A hospital supported by a tax district or subdistrict whose boundaries encompass a population of up to 100 persons per square mile;

~~4. A hospital classified as a sole community hospital under 42 C.F.R. s. 412.92 which has up to 340 licensed beds;~~

4.5. A hospital with a service area that has a population of up to 100 persons per square mile. As used in this subparagraph, the term "service area" means the fewest number of zip codes that account for 75 percent of the hospital's discharges for the most recent 5-year period, based on information available from the hospital inpatient discharge database in the Florida Center for Health Information and Policy Analysis at the agency; or

~~5.6. A hospital designated as a critical access hospital, as defined in s. 408.07.~~

Population densities used in this paragraph must be based upon the most recently completed United States census. A hospital that received funds under s. 409.9116 for a quarter beginning no later than July 1, 2002, is deemed to have been and shall continue to be a rural hospital from that date through June 30, 2021 ~~2015~~, if the hospital continues to have up to 100 licensed beds and an emergency room. An acute care hospital that has not previously been designated as a rural hospital and that meets the criteria of this paragraph shall be granted such designation upon application, including supporting documentation, to the agency. A hospital that was licensed as a rural hospital during the 2010-2011 or 2011-2012 fiscal year shall continue to be a rural hospital from the date of designation through June 30, 2021 ~~2015~~, if the hospital continues to have up to 100 licensed beds and an emergency room.

Section 2. Effective upon this act becoming a law, paragraphs (c) and (d) of subsection (1) of section 409.908, Florida Statutes, are redesignated as paragraphs (d) and (e), respectively, and new paragraphs (c) and (f) are added to that subsection, to read:

409.908 Reimbursement of Medicaid providers.—Subject to specific appropriations, the agency shall reimburse Medicaid providers, in accordance with state and federal law, according to methodologies set forth in the rules of the agency and in policy manuals and handbooks incorporated by reference therein. These methodologies may include fee schedules, reimbursement methods based on cost reporting, negotiated fees, competitive bidding pursuant to s. 287.057, and other mechanisms the agency considers efficient and effective for purchasing services or goods on behalf of recipients. If a provider is reimbursed based on cost reporting and submits a cost report late and that cost report would have been used to set a lower reimbursement rate for a rate semester, then the provider's rate for that semester shall be retroactively calculated using the new cost report, and full payment at the recalculated rate shall be effected retroactively. Medicare-granted extensions for filing cost reports, if applicable, shall also apply to Medicaid cost reports. Payment for Medicaid compensable services made on behalf of Medicaid eligible persons is subject to the availability of moneys and any limitations or directions provided for in the General Appropriations Act or chapter 216.

Further, nothing in this section shall be construed to prevent or limit the agency from adjusting fees, reimbursement rates, lengths of stay, number of visits, or number of services, or making any other adjustments necessary to comply with the availability of moneys and any limitations or directions provided for in the General Appropriations Act, provided the adjustment is consistent with legislative intent.

(1) Reimbursement to hospitals licensed under part I of chapter 395 must be made prospectively or on the basis of negotiation.

(c) *The agency may receive intergovernmental transfers of funds from governmental entities, including, but not limited to, the Department of Health, local governments, and other local political subdivisions, for the advancement of the Medicaid program and for enhancing or supplementing provider reimbursement under this part and part IV. The agency shall seek and maintain a low-income pool in a manner authorized by federal waiver and implemented under spending authority granted in the General Appropriations Act. The low-income pool must be used to support enhanced access to services by offsetting shortfalls in Medicaid reimbursement or paying for otherwise uncompensated care, and the agency shall seek waiver authority to encourage the donation of intergovernmental transfers and to utilize intergovernmental transfers as the state's share of Medicaid funding within the low-income pool.*

(f)1. *Pursuant to chapter 120, the agency shall furnish to providers written notice of the audited hospital cost-based per diem reimbursement rate for inpatient and outpatient care established by the agency. The written notice constitutes final agency action. A substantially affected provider seeking to correct or adjust the calculation of the audited hospital cost-based per diem reimbursement rate for inpatient and outpatient care, other than a challenge to the methodologies set forth in the rules of the agency and in reimbursement plans incorporated by reference therein used to calculate the reimbursement rate for inpatient and outpatient care, may request an administrative hearing to challenge the final agency action by filing a petition with the agency within 180 days after receipt of the written notice by the provider. The petition must include all documentation supporting the challenge upon which the provider intends to rely at the administrative hearing and may not be amended or supplemented except as authorized under uniform rules adopted pursuant to s. 120.54(5). The failure to timely file a petition in compliance with this subparagraph is deemed conclusive acceptance of the audited hospital cost-based per diem reimbursement rate for inpatient and outpatient care established by the agency.*

2. *Any challenge to the methodologies set forth in the rules of the agency and in reimbursement plans incorporated by reference therein used to calculate the reimbursement rate for inpatient and outpatient care may not result in a correction or an adjustment of a reimbursement rate for a rate period that occurred more than 5 years before the date the petition initiating the proceeding was filed.*

3. *This paragraph applies to any challenge to final agency action which seeks the correction or adjustment of a provider's audited hospital cost-based per diem reimbursement rate for inpatient and outpatient care and to any challenge to the methodologies set forth in the rules of the agency and in reimbursement plans incorporated by reference therein used to calculate the reimbursement rate for inpatient and outpatient care, including any right to challenge which arose before July 1, 2015. A correction or adjustment of an audited hospital cost-based per diem reimbursement rate for inpatient and outpatient care which is required by an administrative order or appellate decision:*

a. *Must be reconciled in the first rate period after the order or decision becomes final;*

b. *May not be the basis for any challenge to correct or adjust hospital rates required to be paid by any Medicaid managed care provider pursuant to part IV of chapter 409.*

4. *The agency may not be compelled by an administrative body or a court to pay additional compensation to a hospital relating to the establishment of audited hospital cost-based per diem reimbursement rates by the agency or for remedies relating to such rates, unless an appropriation has been made by law for the exclusive, specific purpose of paying such additional compensation. As used in this subparagraph, the term "appropriation made by law" has the same meaning as provided in s. 11.066.*

5. *Any period of time specified in this paragraph is not tolled by the pendency of any administrative or appellate proceeding.*

6. *The exclusive means to challenge a written notice of an audited hospital cost-based per diem reimbursement rate for inpatient and outpatient care for the purpose of correcting or adjusting such rate before, on, or after July 1, 2015, or to challenge the methodologies set forth in the rules of the agency and in reimbursement plans incorporated by reference therein used to calculate the reimbursement rate for inpatient and outpatient care is through an administrative proceeding pursuant to chapter 120.*

Section 3. For the purpose of incorporating paragraph (f) of subsection (1) of section 409.908, Florida Statutes, as created by this act, in a reference thereto, section 383.18, Florida Statutes, is reenacted to read:

383.18 Contracts; conditions.—Participation in the regional perinatal intensive care centers program under ss. 383.15-383.19 is contingent upon the department entering into a contract with a provider. The contract shall provide that patients will receive services from the center and that parents or guardians of patients who participate in the program and who are in compliance with Medicaid eligibility requirements as determined by the department are not additionally charged for treatment and care which has been contracted for by the department. Financial eligibility for the program is based on the Medicaid income guidelines for pregnant women and for children under 1 year of age. Funding shall be provided in accordance with ss. 383.19 and 409.908.

Section 4. For the purpose of incorporating paragraph (f) of subsection (1) of section 409.908, Florida Statutes, as created by this act, in a reference thereto, subsection (4) of section 409.8132, Florida Statutes, is reenacted to read:

409.8132 Medikids program component.—

(4) **APPLICABILITY OF LAWS RELATING TO MEDICAID.**—The provisions of ss. 409.902, 409.905, 409.906, 409.907, 409.908, 409.912, 409.9121, 409.9122, 409.9123, 409.9124, 409.9127, 409.9128, 409.913, 409.916, 409.919, 409.920, and 409.9205 apply to the administration of the Medikids program component of the Florida Kidcare program, except that s. 409.9122 applies to Medikids as modified by the provisions of subsection (7).

Section 5. For the purpose of incorporating paragraph (f) of subsection (1) of section 409.908, Florida Statutes, as created by this act, in references thereto, paragraph (c) of subsection (5) and paragraph (b) of subsection (6) of section 409.905, Florida Statutes, are reenacted to read:

409.905 **Mandatory Medicaid services.**—The agency may make payments for the following services, which are required of the state by Title XIX of the Social Security Act, furnished by Medicaid providers to recipients who are determined to be eligible on the dates on which the services were provided. Any service under this section shall be provided only when medically necessary and in accordance with state and federal law. Mandatory services rendered by providers in mobile units to Medicaid recipients may be restricted by the agency. Nothing in this section shall be construed to prevent or limit the agency from adjusting fees, reimbursement rates, lengths of stay, number of visits, number of services, or any other adjustments necessary to comply with the availability of moneys and any limitations or directions provided for in the General Appropriations Act or chapter 216.

(5) **HOSPITAL INPATIENT SERVICES.**—The agency shall pay for all covered services provided for the medical care and treatment of a recipient who is admitted as an inpatient by a licensed physician or dentist to a hospital licensed under part I of chapter 395. However, the agency shall limit the payment for inpatient hospital services for a Medicaid recipient 21 years of age or older to 45 days or the number of days necessary to comply with the General Appropriations Act. Effective August 1, 2012, the agency shall limit payment for hospital emergency department visits for a nonpregnant Medicaid recipient 21 years of age or older to six visits per fiscal year.

(c) The agency shall implement a prospective payment methodology for establishing reimbursement rates for inpatient hospital services. Rates shall be calculated annually and take effect July 1 of each year. The methodology shall categorize each inpatient admission into a diagnosis-related group and assign a relative payment weight to the base

rate according to the average relative amount of hospital resources used to treat a patient in a specific diagnosis-related group category. The agency may adopt the most recent relative weights calculated and made available by the Nationwide Inpatient Sample maintained by the Agency for Healthcare Research and Quality or may adopt alternative weights if the agency finds that Florida-specific weights deviate with statistical significance from national weights for high-volume diagnosis-related groups. The agency shall establish a single, uniform base rate for all hospitals unless specifically exempt pursuant to s. 409.908(1).

1. Adjustments may not be made to the rates after October 31 of the state fiscal year in which the rates take effect, except for cases of insufficient collections of intergovernmental transfers authorized under s. 409.908(1) or the General Appropriations Act. In such cases, the agency shall submit a budget amendment or amendments under chapter 216 requesting approval of rate reductions by amounts necessary for the aggregate reduction to equal the dollar amount of intergovernmental transfers not collected and the corresponding federal match. Notwithstanding the \$1 million limitation on increases to an approved operating budget contained in ss. 216.181(11) and 216.292(3), a budget amendment exceeding that dollar amount is subject to notice and objection procedures set forth in s. 216.177.

2. Errors in source data or calculations discovered after October 31 must be reconciled in a subsequent rate period. However, the agency may not make any adjustment to a hospital's reimbursement more than 5 years after a hospital is notified of an audited rate established by the agency. The prohibition against adjustments more than 5 years after notification is remedial and applies to actions by providers involving Medicaid claims for hospital services. Hospital reimbursement is subject to such limits or ceilings as may be established in law or described in the agency's hospital reimbursement plan. Specific exemptions to the limits or ceilings may be provided in the General Appropriations Act.

#### (6) HOSPITAL OUTPATIENT SERVICES.—

(b) The agency shall implement a methodology for establishing base reimbursement rates for outpatient services for each hospital based on allowable costs, as defined by the agency. Rates shall be calculated annually and take effect July 1 of each year based on the most recent complete and accurate cost report submitted by each hospital.

1. Adjustments may not be made to the rates after October 31 of the state fiscal year in which the rates take effect, except for cases of insufficient collections of intergovernmental transfers authorized under s. 409.908(1) or the General Appropriations Act. In such cases, the agency shall submit a budget amendment or amendments under chapter 216 requesting approval of rate reductions by amounts necessary for the aggregate reduction to equal the dollar amount of intergovernmental transfers not collected and the corresponding federal match. Notwithstanding the \$1 million limitation on increases to an approved operating budget under ss. 216.181(11) and 216.292(3), a budget amendment exceeding that dollar amount is subject to notice and objection procedures set forth in s. 216.177.

2. Errors in source data or calculations discovered after October 31 must be reconciled in a subsequent rate period. However, the agency may not make any adjustment to a hospital's reimbursement more than 5 years after a hospital is notified of an audited rate established by the agency. The prohibition against adjustments more than 5 years after notification is remedial and applies to actions by providers involving Medicaid claims for hospital services. Hospital reimbursement is subject to such limits or ceilings as may be established in law or described in the agency's hospital reimbursement plan. Specific exemptions to the limits or ceilings may be provided in the General Appropriations Act.

Section 6. Paragraph (c) of subsection (23) of section 409.908, Florida Statutes, is amended to read:

409.908 Reimbursement of Medicaid providers.—Subject to specific appropriations, the agency shall reimburse Medicaid providers, in accordance with state and federal law, according to methodologies set forth in the rules of the agency and in policy manuals and handbooks incorporated by reference therein. These methodologies may include fee schedules, reimbursement methods based on cost reporting, negotiated fees, competitive bidding pursuant to s. 287.057, and other mechanisms the agency considers efficient and effective for purchasing services or goods on behalf of recipients. If a provider is reimbursed based on cost

reporting and submits a cost report late and that cost report would have been used to set a lower reimbursement rate for a rate semester, then the provider's rate for that semester shall be retroactively calculated using the new cost report, and full payment at the recalculated rate shall be effected retroactively. Medicare-granted extensions for filing cost reports, if applicable, shall also apply to Medicaid cost reports. Payment for Medicaid compensable services made on behalf of Medicaid eligible persons is subject to the availability of moneys and any limitations or directions provided for in the General Appropriations Act or chapter 216. Further, nothing in this section shall be construed to prevent or limit the agency from adjusting fees, reimbursement rates, lengths of stay, number of visits, or number of services, or making any other adjustments necessary to comply with the availability of moneys and any limitations or directions provided for in the General Appropriations Act, provided the adjustment is consistent with legislative intent.

(23)

(c) This subsection applies to the following provider types:

1. Inpatient hospitals.
2. Outpatient hospitals.
3. Nursing homes.
4. County health departments.

~~5. Community intermediate care facilities for the developmentally disabled.~~

~~5.6. Prepaid health plans.~~

Section 7. Subsection (2) of section 409.9082, Florida Statutes, is amended to read:

409.9082 Quality assessment on nursing home facility providers; exemptions; purpose; federal approval required; remedies.—

(2) A quality assessment is imposed upon each nursing home facility. The aggregated amount of assessments for all nursing home facilities in a given year shall be an amount not exceeding the maximum percentage allowed under federal law of the total aggregate net patient service revenue of assessed facilities. The agency shall calculate the quality assessment rate annually on a per-resident-day basis, exclusive of those resident days funded by the Medicare program, as reported by the facilities. The per-resident-day assessment rate must be uniform except as prescribed in subsection (3). Each facility shall report monthly to the agency its total number of resident days, exclusive of Medicare Part A resident days, and remit an amount equal to the assessment rate times the reported number of days. The agency shall collect, and each facility shall pay, the quality assessment each month. The agency shall collect the assessment from nursing home facility providers by the 20<sup>th</sup> 15<sup>th</sup> day of the next succeeding calendar month. The agency shall notify providers of the quality assessment and provide a standardized form to complete and submit with payments. The collection of the nursing home facility quality assessment shall commence no sooner than 5 days after the agency's initial payment of the Medicaid rates containing the elements prescribed in subsection (4). Nursing home facilities may not create a separate line-item charge for the purpose of passing the assessment through to residents.

Section 8. Section 409.909, Florida Statutes, is amended to read:

409.909 Statewide Medicaid Residency Program.—

(1) The Statewide Medicaid Residency Program is established to improve the quality of care and access to care for Medicaid recipients, expand graduate medical education on an equitable basis, and increase the supply of highly trained physicians statewide. The agency shall make payments to hospitals licensed under part I of chapter 395 for graduate medical education associated with the Medicaid program. This system of payments is designed to generate federal matching funds under Medicaid and distribute the resulting funds to participating hospitals on a quarterly basis in each fiscal year for which an appropriation is made.

(2) On or before September 15 of each year, the agency shall calculate an allocation fraction to be used for distributing funds to partici-

pating hospitals. On or before the final business day of each quarter of a state fiscal year, the agency shall distribute to each participating hospital one-fourth of that hospital's annual allocation calculated under subsection (4). The allocation fraction for each participating hospital is based on the hospital's number of full-time equivalent residents and the amount of its Medicaid payments. As used in this section, the term:

(a) "Full-time equivalent," or "FTE," means a resident who is in his or her *residency period*, with the initial residency period, ~~which is~~ defined as the minimum number of years of training required before the resident may become eligible for board certification by the American Osteopathic Association Bureau of Osteopathic Specialists or the American Board of Medical Specialties in the specialty in which he or she first began training, not to exceed 5 years. *The residency specialty is defined as reported using the current residency type codes in the Intern and Resident Information System (IRIS), required by Medicare.* A resident training beyond the initial residency period is counted as 0.5 FTE, unless his or her chosen specialty is in ~~general surgery or~~ primary care, in which case the resident is counted as 1.0 FTE. For the purposes of this section, primary care specialties include:

1. Family medicine;
2. General internal medicine;
3. General pediatrics;
4. Preventive medicine;
5. Geriatric medicine;
6. Osteopathic general practice;
7. Obstetrics and gynecology; ~~and~~
8. Emergency medicine; *and*
9. *General surgery.*

(b) "Medicaid payments" means the estimated total payments for reimbursing a hospital for direct inpatient services for the fiscal year in which the allocation fraction is calculated based on the hospital inpatient appropriation and the parameters for the inpatient diagnosis-related group base rate, including applicable intergovernmental transfers, specified in the General Appropriations Act, as determined by the agency.

(c) "Resident" means a medical intern, fellow, or resident enrolled in a program accredited by the Accreditation Council for Graduate Medical Education, the American Association of Colleges of Osteopathic Medicine, or the American Osteopathic Association at the beginning of the state fiscal year during which the allocation fraction is calculated, as reported by the hospital to the agency.

(3) The agency shall use the following formula to calculate a participating hospital's allocation fraction:

$$\text{HAF} = [0.9 \times (\text{HFTE}/\text{TFTE})] + [0.1 \times (\text{HMP}/\text{TMP})]$$

Where:

HAF=A hospital's allocation fraction.

HFTE=A hospital's total number of FTE residents.

TFTE=The total FTE residents for all participating hospitals.

HMP=A hospital's Medicaid payments.

TMP=The total Medicaid payments for all participating hospitals.

(4) A hospital's annual allocation shall be calculated by multiplying the funds appropriated for the Statewide Medicaid Residency Program in the General Appropriations Act by that hospital's allocation fraction. If the calculation results in an annual allocation that exceeds *two times the average \$50,000 per FTE resident amount for all hospitals*, the hospital's annual allocation shall be reduced to a sum equaling no more than *two times the average \$50,000 per FTE resident*. The funds calculated for that hospital in excess of *two times the average \$50,000 per FTE resident amount for all hospitals* shall be redistributed to participating

hospitals whose annual allocation does not exceed *two times the average \$50,000 per FTE resident amount for all hospitals*, using the same methodology and payment schedule specified in this section.

(5) *The Graduate Medical Education Startup Bonus Program is established to provide resources for the education and training of physicians in specialties which are in a statewide supply-and-demand deficit. Hospitals eligible for participation in subsection (1) are eligible to participate in the Graduate Medical Education Startup Bonus Program established under this subsection. Notwithstanding subsection (4) or an FTE's residency period, and in any state fiscal year in which funds are appropriated for the startup bonus program, the agency shall allocate a \$100,000 startup bonus for each newly created resident position that is authorized by the Accreditation Council for Graduate Medical Education or Osteopathic Postdoctoral Training Institution in an initial or established accredited training program that is in a physician specialty in statewide supply-and-demand deficit. In any year in which funding is not sufficient to provide \$100,000 for each newly created resident position, funding shall be reduced pro rata across all newly created resident positions in physician specialties in statewide supply-and-demand deficit.*

(a) *Hospitals applying for a startup bonus must submit to the agency by March 1 their Accreditation Council for Graduate Medical Education or Osteopathic Postdoctoral Training Institution approval validating the new resident positions approved in physician specialties in statewide supply-and-demand deficit in the current fiscal year. An applicant hospital may validate a change in the number of residents by comparing the number in the prior period Accreditation Council for Graduate Medical Education or Osteopathic Postdoctoral Training Institution approval to the number in the current year.*

(b) *Any unobligated startup bonus funds on April 15 of each fiscal year shall be proportionally allocated to hospitals participating under subsection (3) for existing FTE residents in the physician specialties in statewide supply-and-demand deficit. This nonrecurring allocation shall be in addition to the funds allocated in subsection (4). Notwithstanding subsection (4), the allocation under this subsection may not exceed \$100,000 per FTE resident.*

(c) *For purposes of this subsection, physician specialties and subspecialties, both adult and pediatric, in statewide supply-and-demand deficit are those identified in the General Appropriations Act.*

(d) *The agency shall distribute all funds authorized under the Graduate Medical Education Startup Bonus Program on or before the final business day of the fourth quarter of a state fiscal year.*

(6)(5) Beginning in the 2015-2016 state fiscal year, the agency shall reconcile each participating hospital's total number of FTE residents calculated for the state fiscal year 2 years ~~before~~ *prior* with its most recently available Medicare cost reports covering the same time period. Reconciled FTE counts shall be prorated according to the portion of the state fiscal year covered by a Medicare cost report. Using the same definitions, methodology, and payment schedule specified in this section, the reconciliation shall apply any differences in annual allocations calculated under subsection (4) to the current year's annual allocations.

(7)(6) The agency may adopt rules to administer this section.

Section 9. Paragraph (a) of subsection (2) and paragraph (d) of subsection (4) of section 409.911, Florida Statutes, are amended to read:

409.911 Disproportionate share program.—Subject to specific allocations established within the General Appropriations Act and any limitations established pursuant to chapter 216, the agency shall distribute, pursuant to this section, moneys to hospitals providing a disproportionate share of Medicaid or charity care services by making quarterly Medicaid payments as required. Notwithstanding the provisions of s. 409.915, counties are exempt from contributing toward the cost of this special reimbursement for hospitals serving a disproportionate share of low-income patients.

(2) The Agency for Health Care Administration shall use the following actual audited data to determine the Medicaid days and charity care to be used in calculating the disproportionate share payment:

(a) The average of the ~~2005, 2006, and 2007~~, 2008, and 2009 audited disproportionate share data to determine each hospital's Medicaid days and charity care for the 2015-2016 ~~2014-2015~~ state fiscal year.

(4) The following formulas shall be used to pay disproportionate share dollars to public hospitals:

(d) Any nonstate government owned or operated hospital eligible for payments under this section on July 1, 2011, remains eligible for payments during the 2015-2016 ~~2014-2015~~ state fiscal year.

Section 10. Paragraph (f) of subsection (3) and paragraph (c) of subsection (4) of section 409.967, Florida Statutes, are amended to read:

409.967 Managed care plan accountability.—

(3) ACHIEVED SAVINGS REBATE.—

(f) Achieved savings rebates validated by the certified public accountant are due within 30 days after the report is submitted. Except as provided in paragraph (h), the achieved savings rebate is established by determining pretax income as a percentage of revenues and applying the following income sharing ratios:

1. One hundred percent of income up to and including 5 percent of revenue shall be retained by the plan.

2. Fifty percent of income above 5 percent and up to 10 percent shall be retained by the plan, and the other 50 percent refunded to the state and transferred to the General Revenue Fund, unallocated.

3. One hundred percent of income above 10 percent of revenue shall be refunded to the state and transferred to the General Revenue Fund, unallocated.

(4) MEDICAL LOSS RATIO.—If required as a condition of a waiver, the agency may calculate a medical loss ratio for managed care plans. The calculation shall use uniform financial data collected from all plans and shall be computed for each plan on a statewide basis. The method for calculating the medical loss ratio shall meet the following criteria:

(c) ~~Before~~ Prior to final determination of the medical loss ratio for any period, a plan may contribute to a designated state trust fund for the purpose of supporting Medicaid and indigent care and have the contribution counted as a medical expenditure for the period. *Funds contributed for this purpose shall be deposited into the Grants and Donations Trust Fund.*

Section 11. *Section 409.97, Florida Statutes, is repealed.*

Section 12. Paragraph (a) of subsection (4) of section 409.975, Florida Statutes, is amended to read:

409.975 Managed care plan accountability.—In addition to the requirements of s. 409.967, plans and providers participating in the managed medical assistance program shall comply with the requirements of this section.

(4) MOMCARE NETWORK.—

(a) The agency shall contract with an administrative services organization representing all Healthy Start Coalitions providing risk appropriate care coordination and other services in accordance with a federal waiver and pursuant to s. 409.906. The contract shall require the network of coalitions to provide counseling, education, risk-reduction and case management services, and quality assurance for all enrollees of the waiver. The agency shall evaluate the impact of the MomCare network by monitoring each plan's performance on specific measures to determine the adequacy, timeliness, and quality of services for pregnant women and infants. ~~The agency shall support this contract with certified public expenditures of general revenue appropriated for Healthy Start services and any earned federal matching funds.~~

Section 13. Subsection (6) of section 409.983, Florida Statutes, is amended to read:

409.983 Long-term care managed care plan payment.—In addition to the payment provisions of s. 409.968, the agency shall provide pay-

ment to plans in the long-term care managed care program pursuant to this section.

(6) The agency shall establish nursing-facility-specific payment rates for each licensed nursing home based on facility costs adjusted for inflation and other factors as authorized in the General Appropriations Act. Payments to long-term care managed care plans shall be reconciled to reimburse actual payments to nursing facilities *resulting from changes in nursing home per diem rates, but may not be reconciled to actual days experienced by the long-term care managed care plans.*

Section 14. *Effective upon this act becoming a law, the Agency for Health Care Administration may partner with any other state or territory for the purposes of providing Medicaid fiscal agent operations only if any resulting agreement or contract provides for termination when the State of Florida decides it is not in the best interest of the state. Any such agreement or contract may not impact Florida's current Medicaid Management Information System and each state or territory shall deal directly with the federal Centers for Medicare and Medicaid Services independently regarding any billing or matching requirements.*

Section 15. Subsection (43) of section 408.07, Florida Statutes, is amended to read:

408.07 Definitions.—As used in this chapter, with the exception of ss. 408.031-408.045, the term:

(43) "Rural hospital" means an acute care hospital licensed under chapter 395, having 100 or fewer licensed beds and an emergency room, and which is:

(a) The sole provider within a county with a population density of no greater than 100 persons per square mile;

(b) An acute care hospital, in a county with a population density of no greater than 100 persons per square mile, which is at least 30 minutes of travel time, on normally traveled roads under normal traffic conditions, from another acute care hospital within the same county;

(c) A hospital supported by a tax district or subdistrict whose boundaries encompass a population of 100 persons or fewer per square mile;

(d) A hospital with a service area that has a population of 100 persons or fewer per square mile. As used in this paragraph, the term "service area" means the fewest number of zip codes that account for 75 percent of the hospital's discharges for the most recent 5-year period, based on information available from the hospital inpatient discharge database in the Florida Center for Health Information and Policy Analysis at the Agency for Health Care Administration; or

(e) A critical access hospital.

Population densities used in this subsection must be based upon the most recently completed United States census. A hospital that received funds under s. 409.9116 for a quarter beginning no later than July 1, 2002, is deemed to have been and shall continue to be a rural hospital from that date through June 30, 2015, if the hospital continues to have 100 or fewer licensed beds and an emergency room, ~~or meets the criteria of s. 395.602(2)(c)4.~~ An acute care hospital that has not previously been designated as a rural hospital and that meets the criteria of this subsection shall be granted such designation upon application, including supporting documentation, to the Agency for Health Care Administration.

Section 16. *The model, methodology, and framework for hospital funding programs contained in the document titled "Medicaid Hospital Funding Programs," dated June 16, 2015, and filed with the Secretary of the Senate, are incorporated by reference for the purpose of displaying, demonstrating, and explaining the calculations used by the Legislature, consistent with the requirements of state law, when making appropriations in the General Appropriations Act for the 2015-2016 fiscal year for the Rural Hospital Financial Assistance Program, Hospital Inpatient Services, Hospital Outpatient Services, Low-Income Pool, the Disproportionate Share Hospital Program, Graduate Medical Education, and Prepaid Health Plans. The document titled "Medicaid Hospital Funding Programs" does not allocate or appropriate any funds. The Agency for Health Care Administration shall rely solely on the model, methodology, and framework displayed, demonstrated, and explained in the document*

titled "Medicaid Hospital Funding Programs" and the proviso applicable to appropriations for Medicaid funding when setting hospital rates, calculating the hospital components of prepaid health plan capitation rates, and making payments to hospitals and other providers. This section expires July 1, 2016.

Section 17. *The Legislature has determined that this act, including the document titled "Medicaid Hospital Funding Programs," together with the specific appropriations contained in the fiscal year 2015-2016 General Appropriations Act for the Rural Hospital Financial Assistance Program, Hospital Inpatient Services, Hospital Outpatient Services, Low-Income Pool, the Disproportionate Share Hospital Program, Graduate Medical Education, and Prepaid Health Plans, are interdependent and interrelated, are directly and rationally related to the overall purposes of the state's Medicaid program, and are advisable only if considered together and balanced when allocating the state's resources, especially considering the complexities of Florida's Statewide Medicaid Managed Care program; how hospital rates are determined in the marketplace, including Medicaid; how the individual component Medicaid appropriations impact the rates Florida's Medicaid managed care entities pay for services; and the large amounts of uncompensated care provided by Florida's Medicaid hospital service providers and the relative potential impact of that uncompensated care on the overall economic viability of those institutions. If this act, or any portion of this act, including the document titled "Medicaid Hospital Funding Programs," or any portion thereof, is determined to be unconstitutional or the applicability thereof to any person or circumstance is held invalid, then: (1) such determination shall render all other provisions or applications of this act invalid; (2) the provisions of this act are not severable; and (3) this entire act shall be deemed never to have become law. This section expires July 1, 2016.*

Section 18. *Section 409.908(1)(f), Florida Statutes, as created by this act, is remedial in nature, confirms and clarifies existing law, and applies to all proceedings pending on or commenced after this act takes effect.*

Section 19. *If any law amended by this act was also amended by a law enacted during the 2015 Regular Session of the Legislature, such laws shall be construed as if enacted during the same session of the Legislature, and full effect shall be given to each if possible.*

Section 20. Except as otherwise expressly provided in this act and except for this section, which shall take effect upon this act becoming a law, this act shall take effect July 1, 2015, or, if this act fails to become a law until after that date, it shall take effect upon becoming a law and operate retroactively to July 1, 2015.

And the title is amended as follows:

Delete everything before the enacting clause and insert: A bill to be entitled An act relating to Medicaid; amending s. 395.602, F.S.; revising the term "rural hospital"; amending s. 409.908, F.S.; authorizing the Agency for Health Care Administration to receive intergovernmental transfers of funds from governmental entities for specified purposes; requiring the agency to seek and maintain a low-income pool under certain parameters; requiring the agency to seek Medicaid waiver authority for the use of local intergovernmental transfers under certain parameters; requiring the Agency for Health Care Administration to provide written notice, pursuant to ch. 120, F.S., of reimbursement rates to providers; specifying procedures and requirements to challenge the calculation of or the methodology used to calculate such rates; providing that the failure to timely file a certain challenge constitutes acceptance of the rates; specifying limits on and procedures for the correction or adjustment of the rates; providing applicability; prohibiting the agency from being compelled by an administrative body or a court to pay additional compensation that exceeds a certain amount to a hospital for specified matters unless an appropriation is made by law; prohibiting certain periods of time from being tolled under specified circumstances; specifying that an administrative proceeding is the exclusive means for challenging certain issues; reenacting ss. 383.18, 409.8132(4), and 409.905(5)(c) and (6)(b), F.S., relating to contracts for the regional perinatal intensive care centers program, the Medikids program component, and mandatory Medicaid services, respectively, to incorporate the amendment made to s. 409.908, F.S., in references thereto; amending s. 409.908, F.S.; revising the list of provider types that are subject to certain statutory provisions relating to the establishment of rates; amending s. 409.9082, F.S.; revising the date in each calendar month on which the agency shall collect an assessment from nursing home facility providers; amending s. 409.909, F.S.; revising a term; revising the an-

The Conference Committee Amendment for SB 2510-A, relating to the Department of Children and Families (DCF), provides for the following:

**Section 1** - The allocation methodology for core services funding for community-based care lead agencies (CBC) is amended.

Beginning in Fiscal Year 2015-2016 there will be no adjustment to the base core service funding for each CBC.

Twenty percent of new core services funding shall be allocated to all CBCs, and eighty percent shall be allocated to only CBCs that have base funding that is below their equitable share as determined by the equity allocation model.

The bill also amends the equity allocation model, placing a greater emphasis on the number of children in the care of CBCs.

**Section 2** - Requires DCF to obtain legislative approval before seeking, applying for, accepting, or renewing any waiver of work requirements established by the SNAP Program.

**Conference Committee Amendment (249258)(with title amendment)**—Delete everything after the enacting clause and insert:

The Conference Committee Amendment for SB 2516-A Implementation of the Water and Land Conservation Constitutional Amendment, provides for the following:

SB 2516-A implements Article X, section 28 of the Florida Constitution. The constitutional amendment requires that 33 percent of documentary stamp tax revenue be distributed into the Land Acquisition Trust Fund (LATF) within the Department of Environmental Protection (DEP) and prohibits funds from the LATF from being used for other than specified purposes provided in the amendment. In addition, the amendment prohibits the comingling of the LATF with the General Revenue Fund.

SB 2516-A restructures trust funds to implement the constitutional requirement that documentary stamp taxes directed for environmental purposes must not be comingled with the General Revenue Fund. The bill also ensures that the documentary stamp taxes are not comingled with other revenue sources and can be tracked from distribution into the LATF to appropriations within the General Appropriations Act. The bill terminates certain trust funds currently receiving documentary stamp tax revenue intended for expenditure on environmental programs and redirects those moneys and moneys from other sources deposited into those terminated trust funds to other appropriate trust funds. The terminated trust funds include within the:

- Department of Environmental Protection the:
  - o Florida Communities Trust Fund;
  - o Conservation and Recreation Lands (CARL) Trust Fund;
  - o Ecosystem Management and Restoration Trust Fund;
  - o Florida Preservation 2000 Trust Fund; and
  - o Water Management Lands Trust Fund.
- Department of Agriculture and Consumer Protection the:
  - o Conservation and Recreation Lands (CARL) Trust Fund.
- Fish and Wildlife Conservation Commission the:
  - o Conservation and Recreation Lands (CARL) Trust Fund.

SB 2516-A revises the statutory distributions of revenues derived from the documentary stamp tax to satisfy the water and land conservation constitutional amendment. The bill:

- Requires the LATF to receive 33 percent of net revenues from the documentary stamp tax.
- Requires payment of debt service for Florida Forever and Everglades bonds from the LATF.
- Repeals the existing distributions of documentary stamp taxes to terminated trust funds that serve environmental purposes other than the distribution to the LATF.
- Removes the existing documentary stamp tax distribution for payments in lieu of taxes to local governments.
- Maintains the existing effective percentage distributions to the State Transportation Trust Fund and the Department of Economic Opportunity's Grants and Donations Trust Fund, while reducing the actual distribution to these trust funds.
- Increases the percentage distributions to the State Housing Trust Fund so that the same dollar amounts are distributed to that trust fund as would have been distributed under current law.
- Maintains the percentage distribution from the State Housing Trust Fund to the Local Government Housing Trust Fund.

Finally, the bill addresses the following provisions:

- Specifies that funds in any LATF must be invested separately with the interest deposited into the General Revenue Fund.
- Revises the Land Acquisition Trust Fund within the DEP and the FWC to comply with the constitutional amendment.
- Revises all environmental bonding provisions to comply with the constitutional amendment and repeals all obsolete bonding provisions.
- Redirects the phosphate rock severance tax distribution from the CARL Trust Fund to the State Park Trust Fund within the DEP.
- Specifies that all Land Acquisition Trust Fund balances as of June 30, 2015, in the Fish and Wildlife Conservation Commission are transferred to the Grants and Donations Trust Fund effective when the bill becomes law.
- Removes language that funds shall be made available from the CARL Trust Fund within the DEP for payment in lieu of taxes to qualifying counties and local governments; however, the bill adds language that the Legislature may appropriate funds annually for the payment in lieu of taxes.
- Removes obsolete language and cross references.
- Corrects cross references and conforms provisions to changes made by the act.

This bill provides an effective date of July 1, 2015, except as otherwise expressly provided.

It is the further intent of the Legislature, with regard to the lands described in paragraph (2)(c) ~~(3)(e)~~, that a high priority be given to the acquisition, restoration, and management of such lands in or near counties exhibiting the greatest concentration of population and, with regard to the lands described in subsection (2) ~~(3)~~, that a high priority be given to acquiring lands or rights or interests in lands that advance the goals and objectives of the Fish and Wildlife Conservation Commission's approved species or habitat recovery plans, or lands within any area designated as an area of critical state concern under s. 380.05 which, in the judgment of the advisory council established pursuant to s. 259.035, or its successor, cannot be adequately protected by application of land development regulations adopted pursuant to s. 380.05. Finally, it is the Legislature's intent that lands acquired *for conservation and recreation purposes through this program and any successor programs* be managed in such a way as to protect or restore their natural resource values, and provide the greatest benefit, including public access, to the citizens of this state.

~~(2)(a) The Conservation and Recreation Lands Trust Fund is established within the Department of Environmental Protection. The fund shall be used as a nonlapsing, revolving fund exclusively for the purposes of this section. The fund shall be credited with proceeds from the following excise taxes:~~

- ~~1. The excise taxes on documents as provided in s. 201.15; and~~
- ~~2. The excise tax on the severance of phosphate rock as provided in s. 211.3103.~~

~~The Department of Revenue shall credit to the fund each month the proceeds from such taxes as provided in this paragraph.~~

~~(b) There shall annually be transferred from the Conservation and Recreation Lands Trust Fund to the Land Acquisition Trust Fund that amount, not to exceed \$20 million annually, as shall be necessary to pay the debt service on, or fund debt service reserve funds, rebate obligations, or other amounts with respect to bonds issued pursuant to s. 375.051 to acquire lands on the established priority list developed pursuant to ss. 259.101(4) and 259.105; however, no moneys transferred to the Land Acquisition Trust Fund pursuant to this paragraph, or earnings thereon, shall be used or made available to pay debt service on the Save Our Coast revenue bonds. Amounts transferred annually from the Conservation and Recreation Lands Trust Fund to the Land Acquisition Trust Fund pursuant to this paragraph shall have the highest priority over other payments or transfers from the Conservation and Recreation Lands Trust Fund, and no other payments or transfers shall be made from the Conservation and Recreation Lands Trust Fund until such transfers to the Land Acquisition Trust Fund have been made. Moneys~~

~~in the Conservation and Recreation Lands Trust Fund also shall be used to manage lands and to pay for related costs, activities, and functions pursuant to the provisions of this section.~~

~~(2)(3)~~ The Governor and Cabinet, sitting as the Board of Trustees of the Internal Improvement Trust Fund, may ~~expend~~ *allocate* moneys ~~appropriated by the Legislature from the fund in any one year~~ to acquire the fee or any lesser interest in lands for the following public purposes:

(a) To conserve and protect environmentally unique and irreplaceable lands that contain native, relatively unaltered flora and fauna representing a natural area unique to, or scarce within, a region of this state or a larger geographic area;

(b) To conserve and protect lands within designated areas of critical state concern, if the proposed acquisition relates to the natural resource protection purposes of the designation;

(c) To conserve and protect native species habitat or endangered or threatened species, emphasizing long-term protection for endangered or threatened species designated G-1 or G-2 by the Florida Natural Areas Inventory, and especially those areas that are special locations for breeding and reproduction;

(d) To conserve, protect, manage, or restore important ecosystems, landscapes, and forests, if the protection and conservation of such lands is necessary to enhance or protect significant surface water, groundwater, coastal, recreational, timber, or fish or wildlife resources which cannot otherwise be accomplished through local and state regulatory programs;

(e) To promote water resource development that benefits natural systems and citizens of the state;

(f) To facilitate the restoration and subsequent health and vitality of the Florida Everglades;

(g) To provide areas, including recreational trails, for natural resource based recreation and other outdoor recreation on any part of any site compatible with conservation purposes;

(h) To preserve significant archaeological or historic sites;

(i) To conserve urban open spaces suitable for greenways or outdoor recreation which are compatible with conservation purposes; or

(j) To preserve agricultural lands under threat of conversion to development through less-than-fee acquisitions.

~~(3)(4)~~ Lands acquired *for conservation and recreation purposes under this section* shall be for use as state-designated parks, recreation areas, preserves, reserves, historic or archaeological sites, geologic or botanical sites, recreational trails, forests, wilderness areas, wildlife management areas, urban open space, or other state-designated recreation or conservation lands; or they shall qualify for such state designation and use if they are to be managed by other governmental agencies or nonstate entities as provided for in this section.

~~(4)(5)~~ The board of trustees may *expend funds appropriated by the Legislature allocate, in any year, an amount not to exceed 5 percent of the money credited to the fund in that year, such allocation to be used* for the initiation and maintenance of a natural areas inventory to aid in the identification of areas to be acquired *for conservation and recreation purposes pursuant to this section.*

~~(6)~~ Moneys in the fund not needed to meet obligations incurred under this section shall be deposited with the Chief Financial Officer to the credit of the fund and may be invested in the manner provided by law. Interest received on such investments shall be credited to the Conservation and Recreation Lands Trust Fund.

~~(5)(7)~~ The board of trustees may enter into any contract necessary to accomplish the purposes of this section. The lead land managing agencies designated by the board of trustees also are directed by the Legislature to enter into contracts or interagency agreements with other governmental entities, including local soil and water conservation districts, or private land managers who have the expertise to perform specific management activities which a lead agency lacks, or which would cost more to provide in-house. Such activities shall include, but

not be limited to, controlled burning, road and ditch maintenance, mowing, and wildlife assessments.

(6)(8) ~~Conservation and recreation lands to be considered for purchase under this section~~ are subject to the selection procedures of s. 259.035 and related rules and shall be acquired in accordance with acquisition procedures for state lands provided for in s. 259.041, except as otherwise provided by the Legislature. An inholding or an addition to ~~conservation and recreation lands a project selected for purchase pursuant to this chapter~~ is not subject to the selection procedures of s. 259.035 if the estimated value of such inholding or addition does not exceed \$500,000. When at least 90 percent of the acreage of a project has been purchased for ~~conservation and recreation purposes pursuant to this chapter~~, the project may be removed from the list and the remaining acreage may continue to be purchased. ~~Funds appropriated to acquire conservation and recreation lands~~ ~~Money from the fund~~ may be used for title work, appraisal fees, environmental audits, and survey costs related to acquisition expenses for lands to be acquired, donated, or exchanged which qualify under the categories of this section, at the discretion of the board. When the Legislature has authorized the Department of Environmental Protection to condemn a specific parcel of land and such parcel has already been approved for acquisition ~~under this section~~, the land may be acquired in accordance with the provisions of chapter 73 or chapter 74, and the ~~funds appropriated to acquire conservation and recreation lands fund~~ may be used to pay the condemnation award and all costs, including a reasonable ~~attorney fees~~ ~~attorney's fee~~, associated with condemnation.

(7)(9) All lands managed under this chapter and s. 253.034 shall be:

(a) Managed in a manner that will provide the greatest combination of benefits to the public and to the resources.

(b) Managed for public outdoor recreation which is compatible with the conservation and protection of public lands. Such management may include, but not be limited to, the following public recreational uses: fishing, hunting, camping, bicycling, hiking, nature study, swimming, boating, canoeing, horseback riding, diving, model hobbyist activities, birding, sailing, jogging, and other related outdoor activities compatible with the purposes for which the lands were acquired.

(c) Managed for the purposes for which the lands were acquired, consistent with paragraph (9)(a) ~~(11)(a)~~.

(d) Concurrent with its adoption of the annual ~~Conservation and Recreation Lands~~ list of acquisition projects pursuant to s. 259.035, the board of trustees shall adopt a management prospectus for each project. The management prospectus shall delineate:

1. The management goals for the property;
2. The conditions that will affect the intensity of management;
3. An estimate of the revenue-generating potential of the property, if appropriate;
4. A timetable for implementing the various stages of management and for providing access to the public, if applicable;
5. A description of potential multiple-use activities as described in this section and s. 253.034;
6. Provisions for protecting existing infrastructure and for ensuring the security of the project upon acquisition;
7. The anticipated costs of management and projected sources of revenue, including legislative appropriations, to fund management needs; and
8. Recommendations as to how many employees will be needed to manage the property, and recommendations as to whether local governments, volunteer groups, the former landowner, or other interested parties can be involved in the management.

(e) Concurrent with the approval of the acquisition contract pursuant to s. 259.041(3)(c) for any interest in lands except those lands being acquired under the provisions of s. 259.1052, the board of trustees shall designate an agency or agencies to manage such lands. The board shall evaluate and amend, as appropriate, the management policy

statement for the project as provided by s. 259.035, consistent with the purposes for which the lands are acquired. For any fee simple acquisition of a parcel which is or will be leased back for agricultural purposes, or any acquisition of a less-than-fee interest in land that is or will be used for agricultural purposes, the Board of Trustees of the Internal Improvement Trust Fund shall first consider having a soil and water conservation district, created pursuant to chapter 582, manage and monitor such interests.

(f) State agencies designated to manage lands acquired under this chapter ~~or with funds deposited into the Land Acquisition Trust Fund~~, except those lands acquired under s. 259.1052, may contract with local governments and soil and water conservation districts to assist in management activities, including the responsibility of being the lead land manager. Such land management contracts may include a provision for the transfer of management funding to the local government or soil and water conservation district from the ~~land acquisition~~ ~~Conservation and Recreation Lands~~ trust fund of the lead land managing agency in an amount adequate for the local government or soil and water conservation district to perform its contractual land management responsibilities and proportionate to its responsibilities, and which otherwise would have been expended by the state agency to manage the property.

(g) Immediately following the acquisition of any interest in ~~conservation and recreation lands under this chapter~~, the Department of Environmental Protection, acting on behalf of the board of trustees, may issue to the lead managing entity an interim assignment letter to be effective until the execution of a formal lease.

(8)(10)(a) State, regional, or local governmental agencies or private entities designated to manage lands under this section shall develop and adopt, with the approval of the board of trustees, an individual management plan for each project designed to conserve and protect such lands and their associated natural resources. Private sector involvement in management plan development may be used to expedite the planning process.

(b) Individual management plans required by s. 253.034(5), for parcels over 160 acres, shall be developed with input from an advisory group. Members of this advisory group shall include, at a minimum, representatives of the lead land managing agency, comanaging entities, local private property owners, the appropriate soil and water conservation district, a local conservation organization, and a local elected official. The advisory group shall conduct at least one public hearing within the county in which the parcel or project is located. For those parcels or projects that are within more than one county, at least one areawide public hearing shall be acceptable and the lead managing agency shall invite a local elected official from each county. The areawide public hearing shall be held in the county in which the core parcels are located. Notice of such public hearing shall be posted on the parcel or project designated for management, advertised in a paper of general circulation, and announced at a scheduled meeting of the local governing body before the actual public hearing. The management prospectus required pursuant to paragraph (7)(d) ~~(9)(d)~~ shall be available to the public for a period of 30 days prior to the public hearing.

(c) Once a plan is adopted, the managing agency or entity shall update the plan at least every 10 years in a form and manner prescribed by rule of the board of trustees. Such updates, for parcels over 160 acres, shall be developed with input from an advisory group. Such plans may include transfers of leasehold interests to appropriate conservation organizations or governmental entities designated by the Land Acquisition and Management Advisory Council or its successor, for uses consistent with the purposes of the organizations and the protection, preservation, conservation, restoration, and proper management of the lands and their resources. Volunteer management assistance is encouraged, including, but not limited to, assistance by youths participating in programs sponsored by state or local agencies, by volunteers sponsored by environmental or civic organizations, and by individuals participating in programs for committed delinquents and adults.

(d)1. For each project for which lands are acquired after July 1, 1995, an individual management plan shall be adopted and in place no later than 1 year after the essential parcel or parcels identified in the priority list developed pursuant to s. 259.105 ~~ss. 259.101(4) and 259.105~~ have been acquired. The Department of Environmental Protection shall distribute only 75 percent of the acquisition funds to which a budget entity or water management district would otherwise be entitled ~~from the~~

~~Preservation 2000 Trust Fund~~ to any budget entity or any water management district that has more than one-third of its management plans overdue.

2. The requirements of subparagraph 1. do not apply to the individual management plan for the Babcock Crescent B Ranch being acquired pursuant to s. 259.1052. The management plan for the ranch shall be adopted and in place no later than 2 years following the date of acquisition by the state.

(e) Individual management plans shall conform to the appropriate policies and guidelines of the state land management plan and shall include, but not be limited to:

1. A statement of the purpose for which the lands were acquired, the projected use or uses as defined in s. 253.034, and the statutory authority for such use or uses.

2. Key management activities necessary to achieve the desired outcomes, including, but not limited to, providing public access, preserving and protecting natural resources, protecting cultural and historical resources, restoring habitat, protecting threatened and endangered species, controlling the spread of nonnative plants and animals, performing prescribed fire activities, and other appropriate resource management.

3. A specific description of how the managing agency plans to identify, locate, protect, and preserve, or otherwise use fragile, nonrenewable natural and cultural resources.

4. A priority schedule for conducting management activities, based on the purposes for which the lands were acquired.

5. A cost estimate for conducting priority management activities, to include recommendations for cost-effective methods of accomplishing those activities.

6. A cost estimate for conducting other management activities which would enhance the natural resource value or public recreation value for which the lands were acquired. The cost estimate shall include recommendations for cost-effective methods of accomplishing those activities.

7. A determination of the public uses and public access that would be consistent with the purposes for which the lands were acquired.

(f) The Division of State Lands shall submit a copy of each individual management plan for parcels which exceed 160 acres in size to each member of the Acquisition and Restoration Council, which shall:

1. Within 60 days after receiving a plan from the division, review each plan for compliance with the requirements of this subsection and with the requirements of the rules established by the board pursuant to this subsection.

2. Consider the propriety of the recommendations of the managing agency with regard to the future use or protection of the property.

3. After its review, submit the plan, along with its recommendations and comments, to the board of trustees, with recommendations as to whether to approve the plan as submitted, approve the plan with modifications, or reject the plan.

(g) The board of trustees shall consider the individual management plan submitted by each state agency and the recommendations of the Acquisition and Restoration Council and the Division of State Lands and shall approve the plan with or without modification or reject such plan. The use or possession of any lands owned by the board of trustees which is not in accordance with an approved individual management plan is subject to termination by the board of trustees.

By July 1 of each year, each governmental agency and each private entity designated to manage lands shall report to the Secretary of Environmental Protection on the progress of funding, staffing, and resource management of every project for which the agency or entity is responsible.

(9)(11)(a) The Legislature recognizes that acquiring lands pursuant to this chapter serves the public interest by protecting land, air, and water resources which contribute to the public health and welfare, pro-

viding areas for natural resource based recreation, and ensuring the survival of unique and irreplaceable plant and animal species. The Legislature intends for these lands to be managed and maintained for the purposes for which they were acquired and for the public to have access to and use of these lands where it is consistent with acquisition purposes and would not harm the resources the state is seeking to protect on the public's behalf.

(b) An amount of not less than 1.5 percent of the cumulative total of funds ever deposited into the Florida Preservation 2000 Trust Fund and the Florida Forever Trust Fund shall be made available for the purposes of management, maintenance, and capital improvements ~~not eligible for funding pursuant to s. 11(c), Art. VII of the State Constitution, and for associated contractual services, for conservation and recreation lands acquired with funds deposited into the Land Acquisition Trust Fund pursuant to s. 28(a), Art. X of the State Constitution or pursuant to former s. 259.032, Florida Statutes 2014 this section, former s. 259.101, Florida Statutes 2014, s. 259.105, s. 259.1052, or previous programs for the acquisition of lands for conservation and recreation, including state forests, to which title is vested in the board of trustees and other conservation and recreation lands managed by a state agency. Of this amount, \$250,000 shall be transferred annually to the Plant Industry Trust Fund within the Department of Agriculture and Consumer Services for the purpose of implementing the Endangered or Threatened Native Flora Conservation Grants Program pursuant to s. 581.185(11).~~ Each agency with management responsibilities shall annually request from the Legislature funds sufficient to fulfill such responsibilities to implement individual management plans. For the purposes of this paragraph, capital improvements shall include, but need not be limited to, perimeter fencing, signs, firelanes, access roads and trails, and minimal public accommodations, such as primitive campsites, garbage receptacles, and toilets. Any equipment purchased with funds provided pursuant to this paragraph may be used for the purposes described in this paragraph on any conservation and recreation lands managed by a state agency. The funding requirement created in this paragraph is subject to an annual evaluation by the Legislature ~~in order~~ to ensure that such requirement does not impact the respective trust fund in a manner that would prevent the trust fund from meeting other minimum requirements.

(c) All revenues generated through multiple-use management or compatible secondary-use management shall be returned to the lead agency responsible for such management and shall be used to pay for management activities on all conservation, preservation, and recreation lands under the agency's jurisdiction. In addition, such revenues shall be segregated in an agency trust fund *used for land management activities, other than a land acquisition trust fund*, and such revenues shall remain available to the agency in subsequent fiscal years to support land management appropriations. For the purposes of this paragraph, compatible secondary-use management shall be those activities described in subsection (7) ~~(9)~~ undertaken on parcels designated as single use pursuant to s. 253.034(2)(b).

(d) Up to one-fifth of the funds *appropriated for the purposes identified provided for* in paragraph (b) shall be reserved by the board of trustees for interim management of acquisitions and for associated contractual services, to ensure the conservation and protection of natural resources on project sites and to allow limited public recreational use of lands. Interim management activities may include, but not be limited to, resource assessments, control of invasive, nonnative species, habitat restoration, fencing, law enforcement, controlled burning, and public access consistent with preliminary determinations made pursuant to paragraph (7)(g) ~~(9)(g)~~. The board of trustees shall make these interim funds available immediately upon purchase.

(e) The department shall set long-range and annual goals for the control and removal of nonnative, invasive plant species on public lands. Such goals shall differentiate between aquatic plant species and upland plant species. In setting such goals, the department may rank, in order of adverse impact, species that impede or destroy the functioning of natural systems. Notwithstanding paragraph (a), up to one-fourth of the funds provided for in paragraph (b) may be used by the agencies receiving those funds for control and removal of nonnative, invasive species on public lands.

~~(f) For the 2014-2015 fiscal year only, moneys in the Conservation and Recreation Lands Trust Fund may be transferred to the Florida Forever Trust Fund for the Florida Forever program and to the Save Our Everglades Trust Fund to support Everglades restoration projects in~~

cluded in the final report of the Select Committee on Indian River Lagoon and Lake Okeechobee Basin, dated November 8, 2012, pursuant to nonoperating budget authority under s. 216.181(12). This subsection expires July 1, 2015.

(10)(12)(a) Beginning July 1, 1999, the Legislature ~~may appropriate shall make available sufficient funds annually from the Conservation and Recreation Lands trust fund~~ to the department for payment in lieu of taxes to qualifying counties and local governments as defined in paragraph (b) for all actual tax losses incurred as a result of board of trustees acquisitions for state agencies under the Florida Forever program or the former Florida Preservation 2000 program ~~during any year. Reserved funds not used for payments in lieu of taxes in any year shall revert to the fund to be used for land management in accordance with the provisions of this section.~~

(b) Payment in lieu of taxes shall be available:

1. To all counties that have a population of 150,000 or fewer. Population levels shall be determined pursuant to s. 11.031.

2. To all local governments located in eligible counties.

~~3. To Glades County, where a privately owned and operated prison leased to the state has recently been opened and where privately owned and operated juvenile justice facilities leased to the state have recently been constructed and opened, a payment in lieu of taxes, in an amount that offsets the loss of property tax revenue, which funds have already been appropriated and allocated from the Department of Correction's budget for the purpose of reimbursing amounts equal to lost ad valorem taxes.~~

(c) If insufficient funds are available in any year to make full payments to all qualifying counties and local governments, such counties and local governments shall receive a pro rata share of the moneys available.

(d) The payment amount shall be based on the average amount of actual taxes paid on the property for the 3 years preceding acquisition. Applications for payment in lieu of taxes shall be made no later than January 31 of the year following acquisition. No payment in lieu of taxes shall be made for properties which were exempt from ad valorem taxation for the year immediately preceding acquisition.

(e) If property which was subject to ad valorem taxation was acquired by a tax-exempt entity for ultimate conveyance to the state under this chapter, payment in lieu of taxes shall be made for such property based upon the average amount of taxes paid on the property for the 3 years ~~before~~ prior to its being removed from the tax rolls. The department shall certify to the Department of Revenue those properties that may be eligible under this provision. Once eligibility has been established, that county or local government shall receive annual payments for each tax loss until the qualifying county or local government exceeds the population threshold pursuant to this section.

(f) Payment in lieu of taxes pursuant to this subsection shall be made annually to qualifying counties and local governments after certification by the Department of Revenue that the amounts applied for are reasonably appropriate, based on the amount of actual taxes paid on the eligible property. With the assistance of the local government requesting payment in lieu of taxes, the state agency that acquired the land is responsible for preparing and submitting application requests for payment to the Department of Revenue for certification.

(g) If the board of trustees conveys to a local government title to any land owned by the board, any payments in lieu of taxes on the land made to the local government shall be discontinued as of the date of the conveyance.

For the purposes of this subsection, "local government" includes municipalities, the county school board, mosquito control districts, and any other local government entity which levies ad valorem taxes, with the exception of a water management district.

~~(13) Moneys credited to the fund each year which are not used for management, maintenance, or capital improvements pursuant to subsection (11); for payment in lieu of taxes pursuant to subsection (12); or for the purposes of subsection (5), shall be available for the acquisition of land pursuant to this section.~~

(11)(14) The board of trustees may adopt rules to further define the categories of land for acquisition under this chapter.

(12)(15) Within 90 days after receiving a certified letter from the owner of a property on the ~~Conservation and Recreation Lands list or the~~ priority list established pursuant to s. 259.105 objecting to the property being included in an acquisition project, where such property is a project or part of a project which has not been listed for purchase in the current year's land acquisition work plan, the board of trustees shall delete the property from the list or from the boundary of an acquisition project on the list.

Section 21. Subsections (3), (4), and (6) of section 259.035, Florida Statutes, are amended to read:

259.035 Acquisition and Restoration Council.—

(3) The council shall provide assistance to the board of trustees in reviewing the recommendations and plans for state-owned lands required under s. 253.034 ~~and this chapter ss. 253.034 and 259.032~~. The council shall, in reviewing such recommendations and plans, consider the optimization of multiple-use and conservation strategies to accomplish the provisions funded pursuant to ~~former s. 259.101(3)(a), Florida Statutes 2014, and to s. 259.105(3)(b) ss. 259.101(3)(a) and 259.105(3)(b).~~

~~(4)(a) The council may use existing rules adopted by the board of trustees, until it develops and recommends amendments to those rules, to competitively evaluate, select, and rank projects eligible for the Conservation and Recreation Lands list pursuant to ss. 259.032(3) and 259.101(4).~~

~~(a)(b) By December 1, 2016 2009, the Acquisition and Restoration Council shall develop rules defining specific criteria and numeric performance measures needed for lands that are to be acquired for public purpose under the Florida Forever program pursuant to s. 259.105 or with funds deposited into the Land Acquisition Trust Fund pursuant to s. 28(a), Art. X of the State Constitution. Each recipient of Florida Forever funds shall assist the council in the development of such rules. These rules shall be reviewed and adopted by the board, then submitted to the Legislature for consideration by February 1, 2017 2010. The Legislature may reject, modify, or take no action relative to the proposed rules. If no action is taken, the rules shall be implemented. Subsequent to their approval, each recipient of Florida Forever funds from the Land Acquisition Trust Fund shall annually report to the Division of State Lands on each of the numeric performance measures accomplished during the previous fiscal year.~~

~~(b)(c) In developing or amending rules, the council shall give weight to the criteria included in s. 259.105(9) (10). The board of trustees shall review the recommendations and shall adopt rules necessary to administer this section.~~

(6) The proposal for a project pursuant to this section or s. 259.105(3)(b) may be implemented only if adopted by the council and approved by the board of trustees. The council shall consider and evaluate in writing the merits and demerits of each project that is proposed for acquisition using funds available pursuant to s. 28, Art. X of the State Constitution ~~Conservation and Recreation Lands, Florida Preservation 2000, or Florida Forever funding and shall ensure that each proposed project meets the requirements of s. 28, Art. X of the State Constitution will meet a stated public purpose for the restoration, conservation, or preservation of environmentally sensitive lands and water areas or for providing outdoor recreational opportunities. The council also shall determine whether the project conforms, where applicable, with the comprehensive plan developed pursuant to s. 259.04(1)(a), the comprehensive multipurpose outdoor recreation plan developed pursuant to s. 375.021, the state lands management plan adopted pursuant to s. 253.03(7), the water resources work plans developed pursuant to s. 373.199, and the provisions of s. 259.032, s. 259.101, or s. 259.105, whichever is applicable.~~

Section 22. Subsection (4) of section 259.036, Florida Statutes, is amended to read:

259.036 Management review teams.—

(4) In the event a land management plan has not been adopted within the timeframes specified in s. 259.032(8) ~~s. 259.032(10)~~, the de-

partment may direct a management review of the property, to be conducted by the land management review team. The review shall consider the extent to which the land is being managed for the purposes for which it was acquired and the degree to which actual management practices are in compliance with the management policy statement and management prospectus for that property.

Section 23. Paragraph (b) of subsection (3) of section 259.037, Florida Statutes, is amended to read:

259.037 Land Management Uniform Accounting Council.—

(3)

(b) Each reporting agency shall also:

1. Include a report of the available public use opportunities for each management unit of state land, the total management cost for public access and public use, and the cost associated with each use option.

2. List the acres of land requiring minimal management effort, moderate management effort, and significant management effort pursuant to s. 259.032(9)(c) ~~former s. 259.032(11)(c)~~. For each category created in paragraph (a), the reporting agency shall include the amount of funds requested, the amount of funds received, and the amount of funds expended for land management.

3. List acres managed and cost of management for each park, preserve, forest, reserve, or management area.

4. List acres managed, cost of management, and lead manager for each state lands management unit for which secondary management activities were provided.

5. Include a report of the estimated calculable financial benefits to the public for the ecosystem services provided by conservation lands, based on the best readily available information or science that provides a standard measurement methodology to be consistently applied by the land managing agencies. Such information may include, but need not be limited to, the value of natural lands for protecting the quality and quantity of drinking water through natural water filtration and recharge, contributions to protecting and improving air quality, benefits to agriculture through increased soil productivity and preservation of biodiversity, and savings to property and lives through flood control.

Section 24. Subsection (1) of section 259.04, Florida Statutes, is amended to read:

259.04 Board; powers and duties.—

(1) For projects and acquisitions selected for purchase pursuant to ss. 259.035, ~~259.101~~, and 259.105:

(a) The board is given the responsibility, authority, and power to develop and execute a comprehensive, statewide 5-year plan to conserve, restore, and protect environmentally endangered lands, ecosystems, lands necessary for outdoor recreational needs, and other lands as identified in ss. 259.032, ~~259.101~~, and 259.105. This plan shall be kept current through continual reevaluation and revision. The advisory council or its successor shall assist the board in the development, reevaluation, and revision of the plan.

(b) The board may enter into contracts with the government of the United States or any agency or instrumentality thereof; the state or any county, municipality, district authority, or political subdivision; or any private corporation, partnership, association, or person providing for or relating to the conservation or protection of certain lands in accomplishing the purposes of this chapter.

(c) Within 45 days after the advisory council or its successor submits the lists of projects to the board, the board shall approve, in whole or in part, the lists of projects in the order of priority in which such projects are presented. To the greatest extent practicable, projects on the lists shall be acquired in their approved order of priority.

(d) The board is authorized to acquire, by purchase, gift, or devise or otherwise, the fee title or any lesser interest of lands, water areas, and related resources for environmentally endangered lands.

Section 25. Paragraphs (a) and (b) of subsection (11) and subsection (15) of section 259.041, Florida Statutes, are amended to read:

259.041 Acquisition of state-owned lands for preservation, conservation, and recreation purposes.—

(11)(a) The Legislature finds that, with the increasing pressures on the natural areas of this state and on open space suitable for recreational use, the state must develop creative techniques to maximize the use of acquisition and management funds. The Legislature also finds that the state's conservation and recreational land acquisition agencies should be encouraged to augment their traditional, fee simple acquisition programs with the use of alternatives to fee simple acquisition techniques. Additionally, the Legislature finds that generations of private landowners have been good stewards of their land, protecting or restoring native habitats and ecosystems to the benefit of the natural resources of this state, its heritage, and its citizens. The Legislature also finds that using alternatives to fee simple acquisition by public land acquisition agencies will achieve the following public policy goals:

1. Allow more lands to be brought under public protection for preservation, conservation, and recreational purposes with less expenditure of public funds.

2. Retain, on local government tax rolls, some portion of or interest in lands which are under public protection.

3. Reduce long-term management costs by allowing private property owners to continue acting as stewards of their land, where appropriate.

Therefore, it is the intent of the Legislature that public land acquisition agencies develop programs to pursue alternatives to fee simple acquisition and to educate private landowners about such alternatives and the benefits of such alternatives. It is also the intent of the Legislature that a portion of the shares of ~~Preservation 2000~~ and Florida Forever bond proceeds be used to purchase eligible properties using alternatives to fee simple acquisition.

(b) All project applications shall identify, within their acquisition plans, projects that require a full fee simple interest to achieve the public policy goals, together with the reasons full title is determined to be necessary. The state agencies and the water management districts may use alternatives to fee simple acquisition to bring the remaining projects in their acquisition plans under public protection. For the purposes of this subsection, the term "alternatives to fee simple acquisition" includes, but is not limited to: purchase of development rights; obtaining conservation easements; obtaining flowage easements; purchase of timber rights, mineral rights, or hunting rights; purchase of agricultural interests or silvicultural interests; ~~entering into land protection agreements as defined in s. 380.0677(3);~~ fee simple acquisitions with reservations; creating life estates; or any other acquisition technique that achieves the public policy goals listed in paragraph (a). It is presumed that a private landowner retains the full range of uses for all the rights or interests in the landowner's land which are not specifically acquired by the public agency. The lands upon which hunting rights are specifically acquired pursuant to this paragraph shall be available for hunting in accordance with the management plan or hunting regulations adopted by the Florida Fish and Wildlife Conservation Commission, unless the hunting rights are purchased specifically to protect activities on adjacent lands.

(15) The board of trustees, by an affirmative vote of at least three of its members, may direct the department to purchase lands on an immediate basis using up to 15 percent of the funds allocated to the department pursuant to s. 259.105 ~~ss. 259.101(3)(a) and 259.105~~ for the acquisition of lands that:

(a) Are listed or placed at auction by the Federal Government as part of the Resolution Trust Corporation sale of lands from failed savings and loan associations;

(b) Are listed or placed at auction by the Federal Government as part of the Federal Deposit Insurance Corporation sale of lands from failed banks; or

(c) Will be developed or otherwise lost to potential public ownership, or for which federal matching funds will be lost, by the time the land can be purchased under the program within which the land is listed for acquisition.

For such acquisitions, the board of trustees may waive or modify all procedures required for land acquisition pursuant to this chapter and all competitive bid procedures required pursuant to chapters 255 and 287. Lands acquired pursuant to this subsection must, at the time of purchase, be on one of the acquisition lists established pursuant to this chapter; or be essential for water resource development, protection, or restoration, or a significant portion of the lands must contain natural communities or plant or animal species *that which* are listed by the Florida Natural Areas Inventory as critically imperiled, imperiled, or rare, or as excellent quality occurrences of natural communities.

Section 26. Section 259.101, Florida Statutes, is amended to read:

259.101 Florida Preservation 2000 Act.—

(1) **SHORT TITLE.**—This section may be cited as the “Florida Preservation 2000 Act.”

(2) **LEGISLATIVE FINDINGS.**—The Legislature finds and declares that:

(a) The alteration and development of Florida’s natural areas to accommodate its rapidly growing population have contributed to the degradation of water resources, the fragmentation and destruction of wildlife habitats, the loss of recreation space, and the diminishment of wetlands and forests.

(b) Imminent development of Florida’s remaining natural areas and continuing increases in land values necessitate an aggressive program of public land acquisition during the next decade to preserve the quality of life that attracts so many people to Florida.

(c) Acquisition of public lands, in fee simple or in any lesser interest, should be based on a comprehensive assessment of Florida’s natural resources and planned so as to protect the integrity of ecological systems and to provide multiple benefits, including preservation of fish and wildlife habitat, recreation space, and water recharge areas. Governmental agencies responsible for public land acquisition should work together to purchase lands jointly and to coordinate individual purchases within ecological systems.

(d) One of the purposes of the Florida Communities Trust program is to acquire, protect, and preserve open space and recreation properties within urban areas where pristine animal and plant communities no longer exist. These areas are often overlooked in other programs because of their smaller size and proximity to developed property. These smaller parcels are, however, critically important to the quality of life in these urban areas for the residents who live there as well as to the many visitors to the state. The trust shall consider projects submitted by local governments which further the goals, objectives, and policies of the conservation, recreation and open space, or coastal elements of their local comprehensive plans or which serve to conserve natural resources or resolve land use conflicts.

(e) South Florida’s water supply and unique natural environment depend on the protection of lands buffering the East Everglades and the Everglades water conservation areas.

In addition, the Legislature recognizes the conflicting desires of the citizens of this state to prosper through economic development and to preserve the natural areas of Florida that development threatens to claim. The Legislature further recognizes the urgency of acquiring natural areas in the state for preservation, yet acknowledges the difficulty of ensuring adequate funding for accelerated acquisition in light of other equally critical financial needs of the state. ~~It is the Legislature’s desire and intent to fund the implementation of the Florida Preservation 2000 Act for each of the 10 years of the program’s duration and to do so in a fiscally responsible manner.~~

(3) **TITLE TO CERTAIN PROPERTY ACQUIRED WITH PRESERVATION 2000 BONDS LAND ACQUISITION PROGRAMS SUPPLEMENTED.**—~~Less the costs of issuance, the costs of funding reserve accounts, and other costs with respect to the bonds, the proceeds of bonds issued pursuant to this act shall be deposited into the Florida Preservation 2000 Trust Fund created by s. 375.045. In fiscal year 2000–2001, for each Florida Preservation 2000 program described in paragraphs (a)–(g), that portion of each program’s total remaining cash balance which, as of June 30, 2000, is in excess of that program’s total~~

~~remaining appropriation balances shall be redistributed by the department and deposited into the Save Our Everglades Trust Fund for land acquisition. For purposes of calculating the total remaining cash balances for this redistribution, the Florida Preservation 2000 Series 2000 bond proceeds, including interest thereon, and the fiscal year 1999–2000 General Appropriations Act amounts shall be deducted from the remaining cash and appropriation balances, respectively. The remaining proceeds shall be distributed by the Department of Environmental Protection in the following manner:~~

~~(a) Fifty percent to the Department of Environmental Protection for the purchase of public lands as described in s. 259.032. Of this 50 percent, at least one fifth shall be used for the acquisition of coastal lands.~~

~~(b) Thirty percent to the Department of Environmental Protection for the purchase of water management lands pursuant to s. 373.59, to be distributed among the water management districts as provided in that section. Funds received by each district may also be used for acquisition of lands necessary to implement surface water improvement and management plans or for acquisition of lands necessary to implement the Everglades Construction Project authorized by s. 373.4592.~~

~~(c) Ten percent to the Department of Environmental Protection to provide land acquisition grants and loans to local governments through the Florida Communities Trust pursuant to part III of chapter 380. From funds allocated to the trust, \$3 million annually shall be used by the Division of State Lands within the Department of Environmental Protection to implement the Green Swamp Land Protection Initiative specifically for the purchase of conservation easements, as defined in s. 380.0677(3), of lands, or severable interests or rights in lands, in the Green Swamp Area of Critical State Concern. From funds allocated to the trust, \$3 million annually shall be used by the Monroe County Comprehensive Plan Land Authority specifically for the purchase of a real property interest in those lands subject to the Rate of Growth Ordinances adopted by local governments in Monroe County or those lands within the boundary of an approved Conservation and Recreation Lands project located within the Florida Keys or Key West Areas of Critical State Concern; however, title to lands acquired within the boundary of an approved Conservation and Recreation Lands project may, in accordance with an approved joint acquisition agreement, vest in the Board of Trustees of the Internal Improvement Trust Fund. Of the remaining funds, one half shall be matched by local governments on a dollar for dollar basis. To the extent allowed by federal requirements for the use of bond proceeds, the trust shall expend Preservation 2000 funds to carry out the purposes of part III of chapter 380.~~

~~(d) Two and nine tenths percent to the Department of Environmental Protection for the purchase of inholdings and additions to state parks. For the purposes of this paragraph, “state park” means all real property in the state under the jurisdiction of the Division of Recreation and Parks of the department, or which may come under its jurisdiction.~~

~~(e) Two and nine tenths percent to the Florida Forest Service of the Department of Agriculture and Consumer Services to fund the acquisition of state forest inholdings and additions pursuant to s. 589.07.~~

~~(f) Two and nine tenths percent to the Fish and Wildlife Conservation Commission to fund the acquisition of inholdings and additions to lands managed by the commission which are important to the conservation of fish and wildlife.~~

~~(g) One and three tenths percent to the Department of Environmental Protection for the Florida Greenways and Trails Program, to acquire greenways and trails or greenways and trails systems pursuant to chapter 260, including, but not limited to, abandoned railroad rights-of-way and the Florida National Scenic Trail.~~

Local governments may use federal grants or loans, private donations, or environmental mitigation funds, including environmental mitigation funds required pursuant to s. 338.250, for any part or all of any local match required for the purposes described in this subsection. Bond proceeds allocated pursuant to paragraph (c) may be used to purchase lands on the priority lists developed pursuant to s. 259.035. Title to lands purchased pursuant to former paragraphs (a), (d), (e), (f), or (g) of this subsection, *Florida Statutes 2014*, shall be vested in the Board of Trustees of the Internal Improvement Trust Fund. Title to lands purchased pursuant to former paragraph (c) of this subsection, *Florida Statutes 2014*, may be vested in the Board of Trustees of the Internal

Improvement Trust Fund. The board of trustees shall hold title to land protection agreements and conservation easements that were ~~or will be~~ acquired pursuant to *former s. 380.0677, Florida Statutes 2014*, and the Southwest Florida Water Management District and the St. Johns River Water Management District shall monitor such agreements and easements within their respective districts until the state assumes this responsibility.

~~(4) PROJECT CRITERIA.—~~

~~(a) Proceeds of bonds issued pursuant to this act and distributed pursuant to paragraphs (3)(a) and (b) shall be spent only on projects which meet at least one of the following criteria, as determined pursuant to paragraphs (b) and (c):~~

~~1. A significant portion of the land in the project is in imminent danger of development, in imminent danger of loss of its significant natural attributes, or in imminent danger of subdivision which will result in multiple ownership and may make acquisition of the project more costly or less likely to be accomplished;~~

~~2. Compelling evidence exists that the land is likely to be developed during the next 12 months, or appraisals made during the past 5 years indicate an escalation in land value at an average rate that exceeds the average rate of interest likely to be paid on the bonds;~~

~~3. A significant portion of the land in the project serves to protect or recharge groundwater and to protect other valuable natural resources or provide space for natural resource-based recreation;~~

~~4. The project can be purchased at 80 percent of appraised value or less;~~

~~5. A significant portion of the land in the project serves as habitat for endangered, threatened, or rare species or serves to protect natural communities which are listed by the Florida Natural Areas Inventory as critically imperiled, imperiled, or rare, or as excellent quality occurrences of natural communities; or~~

~~6. A significant portion of the land serves to preserve important archaeological or historical sites.~~

~~(b) Each year that bonds are to be issued pursuant to this act, the Land Acquisition and Management Advisory Council shall review that year's approved Conservation and Recreation Lands priority list and shall, by the first board meeting in February, present to the Board of Trustees of the Internal Improvement Trust Fund for approval a listing of projects on the list which meet one or more of the criteria listed in paragraph (a). The board may remove projects from the list developed pursuant to this paragraph, but may not add projects.~~

~~(c) Each year that bonds are to be issued pursuant to this act, each water management district governing board shall review the lands on its current year's Save Our Rivers 5 year plan and shall, by January 15, adopt a listing of projects from the plan which meet one or more of the criteria listed in paragraph (a).~~

~~(d) In the acquisition of coastal lands pursuant to paragraph (3)(a), the following additional criteria shall also be considered:~~

~~1. The value of acquiring coastal high hazard parcels, consistent with hazard mitigation and postdisaster redevelopment policies, in order to minimize the risk to life and property and to reduce the need for future disaster assistance.~~

~~2. The value of acquiring beachfront parcels, irrespective of size, to provide public access and recreational opportunities in highly developed urban areas.~~

~~3. The value of acquiring identified parcels the development of which would adversely affect coastal resources.~~

~~When a nonprofit environmental organization which is tax exempt pursuant to s. 501(c)(3) of the United States Internal Revenue Code sells land to the state, such land at the time of such sale shall be deemed to meet one or more of the criteria listed in paragraph (a) if such land meets one or more of the criteria at the time the organization purchases it. Listings of projects compiled pursuant to paragraphs (b) and (c) may be revised to include projects on the Conservation and Recreation Lands~~

~~priority list or in a water management district's 5-year plan which come under the criteria in paragraph (a) after the dates specified in paragraph (b) or paragraph (c). The requirement of paragraph (3)(a) regarding coastal lands is met as long as an average of one fifth of the cumulative proceeds allocated through fiscal year 1999-2000 pursuant to that paragraph is used to purchase coastal lands.~~

~~(e) The Legislature finds that the Florida Preservation 2000 Program has provided financial resources that have enabled the acquisition of significant amounts of land for public ownership in the first 7 years of the program's existence. In the remaining years of the Florida Preservation 2000 Program, agencies that receive funds are encouraged to better coordinate their expenditures so that future acquisitions, when combined with previous acquisitions, will form more complete patterns of protection for natural areas and functioning ecosystems to better accomplish the intent of paragraph (2)(c).~~

~~(f) The Legislature intends that, in the remaining years of the Florida Preservation 2000 Program, emphasis be given to the completion of projects in which one or more parcels have already been acquired and to the acquisition of lands containing ecological resources which are either not represented or underrepresented on lands currently in public ownership. The Legislature also intends that future acquisitions under the Florida Preservation 2000 Program be limited to projects on the current project lists, or any additions to the list as determined and prioritized by the study, or those projects that can reasonably be expected to be acquired by the end of the Florida Preservation 2000 Program.~~

~~(4)(5) FLORIDA FOREST SERVICE FUND USE.—Any funds received by the Florida Forest Service from the Preservation 2000 Trust Fund pursuant to paragraph (3)(e) shall be used only to pay the cost of the acquisition of lands in furtherance of outdoor recreation and natural resources conservation in this state. The administration and use of any funds received by the Florida Forest Service from the Preservation 2000 Trust Fund will be subject to such terms and conditions imposed thereon by the agency of the state responsible for the issuance of the revenue bonds, the proceeds of which are deposited in the Preservation 2000 Trust Fund, including restrictions imposed to ensure that the interest on any such revenue bonds issued by the state as tax exempt revenue bonds will not be included in the gross income of the holders of such bonds for federal income tax purposes. All deeds or leases with respect to any real property acquired with Preservation 2000 funds received by the Florida Forest Service must from the Preservation 2000 Trust Fund shall contain sufficient such covenants and restrictions as are sufficient to ensure that the use of such real property at all times complies with s. 375.051 and s. 9, Art. XII of the 1968 Constitution of Florida; and shall contain reverter clauses providing for the reversion of title to such property to the Board of Trustees of the Internal Improvement Trust Fund or, in the case of a lease of such property, providing for termination of the lease upon a failure to use the property conveyed thereby for such purposes.~~

~~(5)(6) DISPOSITION OF LANDS.—~~

~~(a) Any lands acquired pursuant to former paragraphs paragraph (3)(a), paragraph (3)(c), paragraph (3)(d), paragraph (3)(e), paragraph (3)(f), or paragraph (3)(g) of this section, Florida Statutes 2014, if title to such lands is vested in the Board of Trustees of the Internal Improvement Trust Fund, may be disposed of by the Board of Trustees of the Internal Improvement Trust Fund in accordance with the provisions and procedures set forth in s. 253.034(6), and lands acquired pursuant to former paragraph (3)(b) of this section, Florida Statutes 2014, may be disposed of by the owning water management district in accordance with the procedures and provisions set forth in ss. 373.056 and 373.089 provided such disposition also shall satisfy the requirements of paragraphs (b) and (c).~~

~~(b) Before land acquired with Preservation 2000 funds may be surplus as required by s. 253.034(6), or determined to be no longer required for its purposes under s. 373.056(4), as whichever may be applicable, there shall first be a determination by the Board of Trustees of the Internal Improvement Trust Fund, or, in the case of water management district lands, by the owning water management district, that such land no longer needs to be preserved in furtherance of the intent of the Florida Preservation 2000 Act. Any lands eligible to be disposed of under this procedure also may be used to acquire other lands through an exchange of lands if, provided such lands obtained in an exchange are~~

described in the same paragraph of *former* subsection (3) of *this section*, *Florida Statutes 2014*, as the lands disposed.

~~(c) Notwithstanding paragraphs (a) and (b), no such disposition of land shall be made if such disposition would have the effect of causing all or any portion of the interest on any revenue bonds issued to fund the Florida Preservation 2000 Act to lose their exclusion from gross income for purposes of federal income taxation. Any Revenue derived from the disposal of such lands acquired with Preservation 2000 funds may not be used for any purpose except for deposit into the Florida Preservation 2000 Trust Fund, or the Florida Forever Trust Fund within the Department of Environmental Protection, for recredit to the share held under former subsection (3) of this section, Florida Statutes 2014, in which such disposed land is described.~~

#### (6)(7) ALTERNATE USES OF ACQUIRED LANDS.—

(a) The Board of Trustees of the Internal Improvement Trust Fund, or, in the case of water management district lands, the owning water management district, may authorize the granting of a lease, easement, or license for the use of any lands acquired pursuant to *former* subsection (3) of *this section, Florida Statutes 2014*, for any governmental use permitted by s. 17, Art. IX of the State Constitution of 1885, as adopted by s. 9(a), Art. XII of the State Constitution, and any other incidental public or private use that is determined by the board or the owning water management district to be compatible with the purposes for which such lands were acquired.

(b) Any existing lease, easement, or license acquired for incidental public or private use on, under, or across any lands acquired pursuant to *former* subsection (3) of *this section, Florida Statutes 2014*, shall be presumed not to be incompatible with the purposes for which such lands were acquired.

~~(c) Notwithstanding the provisions of paragraph (a), no such lease, easement, or license shall be entered into by the Department of Environmental Protection or other appropriate state agency if the granting of such lease, easement, or license would adversely affect the exclusion of the interest on any revenue bonds issued to fund the acquisition of the affected lands from gross income for federal income tax purposes, as described in s. 375.045(4).~~

#### (7) ALTERNATIVES TO FEE SIMPLE ACQUISITION.—(8)

(a) The Legislature finds that, with the increasing pressures on the natural areas of this state, the state must develop creative techniques to maximize the use of acquisition and management moneys. The Legislature ~~also~~ finds that the state's environmental land-buying agencies should be encouraged to augment their traditional, fee simple acquisition programs with the use of alternatives to fee simple acquisition techniques. The Legislature also finds that using alternatives to fee simple acquisition by public land-buying agencies will achieve the following public policy goals:

1. Allow more lands to be brought under public protection for preservation, conservation, and recreational purposes at less expense using public funds.

2. Retain, on local government tax rolls, some portion of or interest in lands ~~that which~~ are under public protection.

3. Reduce long-term management costs by allowing private property owners to continue acting as stewards of the land, ~~as where~~ appropriate.

Therefore, it is the intent of the Legislature that public land-buying agencies develop programs to pursue alternatives to fee simple acquisition and to educate private landowners about such alternatives and the benefits of such alternatives. It also is the intent of the Legislature that the department and the water management districts spend a portion of their shares of Preservation 2000 bond proceeds to purchase eligible properties using alternatives to fee simple acquisition. Finally, it is the intent of the Legislature that public agencies acquire lands in fee simple for public access and recreational activities. Lands protected using alternatives to fee simple acquisition techniques ~~may shall~~ not be accessible to the public unless such access is negotiated with and agreed to by the private landowners who retain interests in such lands.

(b) The Land Acquisition Advisory Council and the water management districts shall identify, within their 1997 acquisition plans, those

projects ~~that which~~ require a full fee simple interest to achieve the public policy goals, along with the reasons why full title is determined to be necessary. The council and the water management districts may use alternatives to fee simple acquisition to bring the remaining projects in their acquisition plans under public protection. For the purposes of this subsection, the term "alternatives to fee simple acquisition" includes ~~the, but is not limited to:~~ purchase of development rights; conservation easements; flowage easements; ~~the~~ purchase of timber rights, mineral rights, or hunting rights; ~~the~~ purchase of agricultural interests or silvicultural interests; land protection agreements; fee simple acquisitions with reservations; or any other acquisition technique ~~that which~~ achieves the public policy goals ~~identified listed~~ in paragraph (a). It is presumed that a private landowner retains the full range of uses for all the rights or interests in the landowner's land which are not specifically acquired by the public agency. Life estates and fee simple acquisitions with leaseback provisions ~~do shall~~ not qualify as an alternative to fee simple acquisition under this subsection, although the department and the districts are encouraged to use such techniques ~~if where~~ appropriate.

(c) The department and each water management district shall implement initiatives to use alternatives to fee simple acquisition and to educate private landowners about such alternatives. These initiatives ~~must shall~~ include at least two acquisitions a year by the department and each water management district utilizing alternatives to fee simple.

(d) The Legislature finds that the lack of direct sales comparison information has served as an impediment to successful implementation of alternatives to fee simple acquisition. It is the intent of the Legislature that, in the absence of direct comparable sales information, appraisals of alternatives to fee simple acquisitions be based on the difference between the full fee simple valuation and the value of the interests remaining with the seller after acquisition.

(e) The public agency ~~that which~~ has been assigned management responsibility shall inspect and monitor any less-than-fee-simple interest according to the terms of the purchase agreement relating to such interest.

(f) The department and the water management districts may enter into joint acquisition agreements to jointly fund the purchase of lands using alternatives to fee simple techniques.

(8) **PUBLIC RECREATIONAL USE.**—*An agency or water management district that acquired lands using Preservation 2000 funds distributed pursuant to former subsection (3) of this section, Florida Statutes 2014, shall manage such lands to make them available for public recreational use if the recreational use does not interfere with the protection of natural resource values. The agency or district may enter into an agreement with the department or another appropriate state agency to transfer management authority or lease to such agencies' lands purchased with Preservation 2000 funds for the purpose of managing the lands to make them available for public recreational use. The water management districts and the department shall take action to control the growth of nonnative invasive plant species on lands they manage which were purchased with Preservation 2000 funds.*

Section 27. Paragraph (a) of subsection (2), paragraphs (c), (l), and (m) of subsection (3), subsection (4), present subsection (5), paragraph (a) of present subsection (6), present subsection (10), paragraph (i) of present subsection (16), and present subsections (17) and (21) of section 259.105, Florida Statutes, are amended to read:

#### 259.105 The Florida Forever Act.—

(2)(a) The Legislature finds and declares that:

1. Land acquisition programs have provided tremendous financial resources for purchasing environmentally significant lands to protect those lands from imminent development or alteration, thereby ensuring present and future generations' access to important waterways, open spaces, and recreation and conservation lands.

2. The continued alteration and development of Florida's natural and rural areas to accommodate the state's growing population have contributed to the degradation of water resources, the fragmentation and destruction of wildlife habitats, the loss of outdoor recreation space, and the diminishment of wetlands, forests, working landscapes, and coastal open space.

3. The potential development of Florida's remaining natural areas and escalation of land values require government efforts to restore, bring under public protection, or acquire lands and water areas to preserve the state's essential ecological functions and invaluable quality of life.

4. It is essential to protect the state's ecosystems by promoting a more efficient use of land, to ensure opportunities for viable agricultural activities on working lands, and to promote vital rural and urban communities that support and produce development patterns consistent with natural resource protection.

5. Florida's groundwater, surface waters, and springs are under tremendous pressure due to population growth and economic expansion and require special protection and restoration efforts, including the protection of uplands and springsheds that provide vital recharge to aquifer systems and are critical to the protection of water quality and water quantity of the aquifers and springs. To ensure that sufficient quantities of water are available to meet the current and future needs of the natural systems and citizens of the state, and assist in achieving the planning goals of the department and the water management districts, water resource development projects on public lands, where compatible with the resource values of and management objectives for the lands, are appropriate.

6. The needs of urban, suburban, and small communities in Florida for high-quality outdoor recreational opportunities, greenways, trails, and open space have not been fully met by previous acquisition programs. Through such programs as the Florida Communities Trust and the Florida Recreation Development Assistance Program, the state shall place additional emphasis on acquiring, protecting, preserving, and restoring open space, ecological greenways, and recreation properties within urban, suburban, and rural areas where pristine natural communities or water bodies no longer exist because of the proximity of developed property.

7. Many of Florida's unique ecosystems, such as the Florida Everglades, are facing ecological collapse due to Florida's burgeoning population growth and other economic activities. To preserve these valuable ecosystems for future generations, essential parcels of land must be acquired to facilitate ecosystem restoration.

8. Access to public lands to support a broad range of outdoor recreational opportunities and the development of necessary infrastructure, where compatible with the resource values of and management objectives for such lands, promotes an appreciation for Florida's natural assets and improves the quality of life.

9. Acquisition of lands, in fee simple, less-than-fee interest, or other techniques shall be based on a comprehensive science-based assessment of Florida's natural resources which targets essential conservation lands by prioritizing all current and future acquisitions based on a uniform set of data and planned so as to protect the integrity and function of ecological systems and working landscapes, and provide multiple benefits, including preservation of fish and wildlife habitat, recreation space for urban and rural areas, and the restoration of natural water storage, flow, and recharge.

10. The state has embraced performance-based program budgeting as a tool to evaluate the achievements of publicly funded agencies, build in accountability, and reward those agencies which are able to consistently achieve quantifiable goals. While previous and existing state environmental programs have achieved varying degrees of success, few of these programs can be evaluated as to the extent of their achievements, primarily because performance measures, standards, outcomes, and goals were not established at the outset. Therefore, the Florida Forever program shall be developed and implemented in the context of measurable state goals and objectives.

11. The state must play a major role in the recovery and management of its imperiled species through the acquisition, restoration, enhancement, and management of ecosystems that can support the major life functions of such species. It is the intent of the Legislature to support local, state, and federal programs that result in net benefit to imperiled species habitat by providing public and private land owners meaningful incentives for acquiring, restoring, managing, and repopulating habitats for imperiled species. It is the further intent of the Legislature that public lands, both existing and to be acquired, identified by the lead land management agency, in consultation with the Florida Fish and Wildlife

Conservation Commission for animals or the Department of Agriculture and Consumer Services for plants, as habitat or potentially restorable habitat for imperiled species, be restored, enhanced, managed, and repopulated as habitat for such species to advance the goals and objectives of imperiled species management consistent with the purposes for which such lands are acquired without restricting other uses identified in the management plan. It is also the intent of the Legislature that of the proceeds distributed pursuant to subsection (3), additional consideration be given to acquisitions that achieve a combination of conservation goals, including the restoration, enhancement, management, or repopulation of habitat for imperiled species. The Acquisition and Restoration Council, in addition to the criteria in subsection (9), shall give weight to projects that include acquisition, restoration, management, or repopulation of habitat for imperiled species. The term "imperiled species" as used in this chapter and chapter 253, means plants and animals that are federally listed under the Endangered Species Act, or state-listed by the Fish and Wildlife Conservation Commission or the Department of Agriculture and Consumer Services.

a. As part of the state's role, all state lands that have imperiled species habitat shall include as a consideration in management plan development the restoration, enhancement, management, and repopulation of such habitats. In addition, the lead land managing agency of such state lands may use fees received from public or private entities for projects to offset adverse impacts to imperiled species or their habitat in order to restore, enhance, manage, repopulate, or acquire land and to implement land management plans developed under s. 253.034 or a land management prospectus developed and implemented under this chapter. Such fees shall be deposited into a foundation or fund created by each land management agency under s. 379.223, s. 589.012, or s. 259.032(9)(c) ~~s. 259.032(11)(c)~~, to be used solely to restore, manage, enhance, repopulate, or acquire imperiled species habitat.

b. Where habitat or potentially restorable habitat for imperiled species is located on state lands, the Fish and Wildlife Conservation Commission and the Department of Agriculture and Consumer Services shall be included on any advisory group required under chapter 253, and the short-term and long-term management goals required under chapter 253 must advance the goals and objectives of imperiled species management consistent with the purposes for which the land was acquired without restricting other uses identified in the management plan.

12. There is a need to change the focus and direction of the state's major land acquisition programs and to extend funding and bonding capabilities, so that future generations may enjoy the natural resources of this state.

(3) Less the costs of issuing and the costs of funding reserve accounts and other costs associated with bonds, the proceeds of cash payments or bonds issued pursuant to this section shall be deposited into the Florida Forever Trust Fund created by s. 259.1051. The proceeds shall be distributed by the Department of Environmental Protection in the following manner:

(c) Twenty-one percent to the Department of Environmental Protection for use by the Florida Communities Trust for the purposes of part III of chapter 380, as described and limited by this subsection, and grants to local governments or nonprofit environmental organizations that are tax-exempt under s. 501(c)(3) of the United States Internal Revenue Code for the acquisition of community-based projects, urban open spaces, parks, and greenways to implement local government comprehensive plans. From funds available to the trust and used for land acquisition, 75 percent shall be matched by local governments on a dollar-for-dollar basis. The Legislature intends that the Florida Communities Trust emphasize funding projects in low-income or otherwise disadvantaged communities and projects that provide areas for direct water access and water-dependent facilities that are open to the public and offer public access by vessels to waters of the state, including boat ramps and associated parking and other support facilities. At least 30 percent of the total allocation provided to the trust shall be used in Standard Metropolitan Statistical Areas, but one-half of that amount shall be used in localities in which the project site is located in built-up commercial, industrial, or mixed-use areas and functions to intersperse open spaces within congested urban core areas. From funds allocated to the trust, no less than 5 percent shall be used to acquire lands for recreational trail systems, provided that in the event these funds are not needed for such projects, they will be available for other trust projects. Local governments may use federal grants or loans, private donations, or

environmental mitigation funds, ~~including environmental mitigation funds required pursuant to s. 338.250~~, for any part or all of any local match required for acquisitions funded through the Florida Communities Trust. Any lands purchased by nonprofit organizations using funds allocated under this paragraph must provide for such lands to remain permanently in public use through a reversion of title to local or state government, conservation easement, or other appropriate mechanism. No refunding bonds may be issued which mature after the final maturity date of the bonds being refunded or which provide for higher debt service in any year than is payable on such bonds as of February 1, 2009. The department's costs of administration shall be charged proportionally against each district's allocation using the formula provided in subsection (8). Capital improvements shall include, but need not be limited to, perimeter fencing, signs, firelanes, control of invasive exotic species, controlled burning, habitat inventory and restoration, law enforcement, access roads and trails, and minimal public accommodations, such as primitive campsites, garbage receptacles, and toilets. The moneys in the fund may also be appropriated to supplement operational expenditures at the Northwest Florida Water Management District and the Suwannee River Water Management District, with such appropriations allocated prior to the allocations set out in subsection (8) to the five water management districts.

(2) Until the Preservation 2000 Program is concluded, each district shall file with the Legislature and the Secretary of Environmental Protection a report of acquisition activity, by January 15 of each year, together with modifications or additions to its 5 year plan of acquisition. Included in the report shall be an identification of those lands which require a full fee simple interest to achieve water management goals and those lands which can be acquired using alternatives to fee simple acquisition techniques and still achieve such goals. In their evaluation of which lands would be appropriate for acquisition through alternatives to fee simple, district staff shall consider criteria including, but not limited to, acquisition costs, the net present value of future land management costs, the net present value of ad valorem revenue loss to the local government, and the potential for revenue generated from activities compatible with acquisition objectives. The report shall also include a description of land management activity. However, no acquisition of lands shall occur without a public hearing similar to those held pursuant to the provisions set forth in s. 120.54. In the annual update of its 5 year plan for acquisition, each district shall identify lands needed to protect or recharge groundwater and shall establish a plan for their acquisition as necessary to protect potable water supplies. Lands which serve to protect or recharge groundwater identified pursuant to this paragraph shall also serve to protect other valuable natural resources or provide space for natural resource based recreation. Once all Preservation 2000 funds allocated to the water management districts have been expended or committed, this subsection shall be repealed.

(4) The Secretary of Environmental Protection shall release moneys from the Water Management Lands Trust Fund to a district for pre-

acquisition costs within 30 days after receipt of a resolution adopted by the district's governing board which identifies and justifies any such preacquisition costs necessary for the purchase of any lands listed in the district's 5 year plan. The district shall return to the department any funds not used for the purposes stated in the resolution, and the department shall deposit the unused funds into the Water Management Lands Trust Fund.

(6) If a district issues revenue bonds or notes under s. 373.584 prior to July 1, 1999, the district may pledge its share of the moneys in the Water Management Lands Trust Fund as security for such bonds or notes. The Department of Environmental Protection shall pay moneys from the trust fund to a district or its designee sufficient to pay the debt service, as it becomes due, on the outstanding bonds and notes of the district; however, such payments shall not exceed the district's cumulative portion of the trust fund. However, any moneys remaining after payment of the amount due on the debt service shall be released to the district pursuant to subsection (5).

(7) Any unused portion of a district's share of the fund shall accumulate in the trust fund to the credit of that district. Interest earned on such portion shall also accumulate to the credit of that district to be used for management, maintenance, and capital improvements as provided in this section. The total moneys over the life of the fund available to any district under this section shall not be reduced except by resolution of the district governing board stating that the need for the moneys no longer exists. Any water management district with fund balances in the Water Management Lands Trust Fund as of March 1, 1999, may expend those funds for land acquisitions pursuant to s. 373.139, or for the purpose specified in this subsection.

(8) Moneys from the Water Management Lands Trust Fund shall be allocated as follows:

(b) Beginning with the 2009-2010 fiscal year, twenty-five percent shall be used first to transfer \$2,500,000 to the credit of the General Revenue Fund in each fiscal year and then to distribute the remainder to the Southwest Florida Water Management District.

(c) Beginning with the 2009-2010 fiscal year, twenty-five percent shall be used first to pay debt service on bonds issued before February 1, 2009, by the St. Johns River Water Management District which are secured by revenues provided by this section or to fund debt service reserve funds, rebate obligations, or other amounts payable with respect to such bonds, then to transfer \$2,500,000 to the credit of the General Revenue Fund in each fiscal year, and to distribute the remainder to the St. Johns River Water Management District.

(d) Ten percent to the Suwannee River Water Management District.

(e) Ten percent to the Northwest Florida Water Management District.

(9) Moneys in the fund not needed to meet current obligations incurred under this section shall be transferred to the State Board of Administration, to the credit of the fund, to be invested in the manner provided by law. Interest received on such investments shall be credited to the fund.

(2)(b) Payment in lieu of taxes shall be available:

The population estimates published April 1 and used in the revenue-sharing formula pursuant to s. 186.901 shall be used to determine eligibility under this subsection and shall apply to payments made for the subsequent fiscal year.

(b)2- To all local governments located in eligible counties and whose lands are bought and taken off the tax rolls.

For properties acquired after January 1, 2000, in the event that such properties otherwise eligible for payment in lieu of taxes under this subsection are leased or reserved and remain subject to ad valorem taxes, payments in lieu of taxes shall commence or recommence upon the expiration or termination of the lease or reservation. If the lease is terminated for only a portion of the lands at any time, the annual payments shall be made for that portion only commencing the year after such termination, without limiting the requirement that annual payments shall be made on the remaining portion or portions of the land as the lease on each expires. For the purposes of this subsection, "local government" includes municipalities and the county school board.

(3)(e) If sufficient funds are unavailable in any year to make full payments to all qualifying counties and local governments, such counties and local governments shall receive a pro rata share of the moneys available.

(4)(d) The payment amount shall be based on the average amount of actual ad valorem taxes paid on the property for the 3 years preceding acquisition. No payment in lieu of taxes shall be made for properties which were exempt from ad valorem taxation for the year immediately preceding acquisition.

(5)(e) If property that was subject to ad valorem taxation was acquired by a tax-exempt entity for ultimate conveyance to the state under this chapter, payment in lieu of taxes shall be made for such property based upon the average amount of ad valorem taxes paid on the property for the 3 years prior to its being removed from the tax rolls. The water management districts shall certify to the Department of Revenue those properties that may be eligible under this provision. Once eligibility has been established, that governmental entity shall receive annual payments for each tax loss until the qualifying governmental entity exceeds the population threshold pursuant to ~~subsection (2) paragraph (b).~~

(6)(f) Payment in lieu of taxes pursuant to this ~~section~~ subsection shall be made annually to qualifying counties and local governments after certification by the Department of Revenue that the amounts applied for are reasonably appropriate, based on the amount of actual ad valorem taxes paid on the eligible property, and after the water management districts have provided supporting documents to the Chief Financial Officer and have requested that payment be made in accordance with the requirements of this section. With the assistance of the local government requesting payment in lieu of taxes, the water management district that acquired the land is responsible for preparing and submitting application requests for payment to the Department of Revenue for certification.

(7)(g) If a water management district conveys to a county or local government title to any land owned by the district, any payments in lieu of taxes on the land made to the county or local government shall be discontinued as of the date of the conveyance.

~~(11) Notwithstanding any provision of this section to the contrary, the governing board of a water management district may request, and the Secretary of Environmental Protection shall release upon such request, moneys allocated to the districts pursuant to subsection (8) for purposes consistent with the provisions of s. 373.709, s. 373.705, s. 373.139, or ss. 373.451-373.4595 and for legislatively authorized land~~

**Section 2** incorporates the Florida Education Finance Program (FEFP) work papers by reference for the purpose of displaying the calculations used by the Legislature.

**Section 3** provides that funds provided for instructional materials shall be released and expended as required in the proviso language attached to Specific Appropriation 90.

**Section 4** provides that any district school board that generates less than \$2 million dollars in revenue from one mill of ad valorem tax shall contribute 0.75 mill, rather than 1.5 mills, for Fiscal Year 2015-2016 to the cost of funded special facilities projects.

**Section 5** modifies Personal Learning Scholarship Accounts (PLSA) to expand program eligibility and the authorized use of program funds, establish eligibility priority, update the eligibility verification process, strengthen safeguards against unauthorized expenditures, and advance the release of funds for the 2015-2016 fiscal year.

**Section 6** modifies the surety bond requirements for nonprofit scholarship-funding organizations

**Section 7, 8, and 9** make several changes to the Florida Education Finance Program (FEFP) including extending the extra hour of reading for the lowest 300 performing elementary schools, adjusting the sparsity supplement calculation, creating the federal connected student supplement, amending the digital classrooms allocation, and extending for an additional year the authority for school districts to levy the Prior Period Funding Adjustment Millage (PPFAM) before the final taxable value is certified with technical clarifications to ensure that the PPFAM is not levied multiple times for the same year.

(d) Establishing a date and process by which students on the wait list or late-filing applicants may be allowed to participate in the program during the school year, within the amount of funds provided for this program in the General Appropriations Act. *The process must allow timely filed, completed applications to take precedence before late-filed, completed applications for purposes of creating a wait list for participation in the program.*

(f) Verifying qualifying expenditures pursuant to the requirements of subsection (5) ~~paragraph (8)(b)~~.

#### (13) FUNDING AND PAYMENT.—

(a)1. The maximum funding amount granted for an eligible student with a disability, pursuant to *this section* ~~subsection (2)~~, shall be equivalent to the base student allocation in the Florida Education Finance Program multiplied by the appropriate cost factor for the educational program which would have been provided for the student in the district school to which he or she would have been assigned, multiplied by the district cost differential.

2. In addition, an amount equivalent to a share of the guaranteed allocation for exceptional students in the Florida Education Finance Program shall be determined and added to the amount in subparagraph 1. The calculation shall be based on the methodology and the data used to calculate the guaranteed allocation for exceptional students for each district in chapter 2000-166, Laws of Florida. Except as provided in subparagraph 3., the calculation shall be based on the student's grade, the matrix level of services, and the difference between the 2000-2001 basic program and the appropriate level of services cost factor, multiplied by the 2000-2001 base student allocation and the 2000-2001 district cost differential for the sending district. The calculated amount must also include an amount equivalent to the per-student share of supplemental academic instruction funds, instructional materials funds, technology funds, and other categorical funds as provided in the General Appropriations Act.

3. Except as otherwise provided, the calculation for all students participating in the program shall be based on the matrix that assigns the student to support Level III of services. If a parent chooses to request and receive a matrix of services from the school district, when the school district completes the matrix, the amount of the payment shall be adjusted as needed.

(b) The amount of the awarded funds shall be 90 percent of the calculated amount. *One hundred percent of the funds appropriated for the program shall be released to the department at the beginning of the first quarter of each fiscal year. Program funds include both the awarded funds and the accrued interest. Once student eligibility has been confirmed by the scholarship funding organization and communicated to the department, notwithstanding paragraph (9)(e), the department shall make payment of the awarded funds in full to the scholarship-funding organization for deposit into the student's account.*

(d) The eligible nonprofit scholarship-funding organization shall develop a system for payment of benefits by ~~electronic~~ funds transfer, including, but not limited to, debit cards, electronic payment cards, or any other means of ~~electronic~~ payment that the department deems to be commercially viable or cost-effective. Commodities or services related to the development of such a system shall be procured by competitive solicitation unless they are purchased from a state term contract pursuant to s. 287.056.

(e) Moneys received pursuant to this section do not constitute taxable income to the *student* or parent of the qualified student.

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(1) COMPUTATION OF THE BASIC AMOUNT TO BE INCLUDED FOR OPERATION.—The following procedure shall be followed in determining the annual allocation to each district for operation:

(f) Supplemental academic instruction; categorical fund.—

1. There is created a categorical fund to provide supplemental academic instruction to students in kindergarten through grade 12. This paragraph may be cited as the “Supplemental Academic Instruction Categorical Fund.”

2. Categorical funds for supplemental academic instruction shall be allocated annually to each school district in the amount provided in the General Appropriations Act. These funds shall be in addition to the funds appropriated on the basis of FTE student membership in the Florida Education Finance Program and shall be included in the total potential funds of each district. These funds shall be used to provide supplemental academic instruction to students enrolled in the K-12 program. For the 2015-2016 ~~2014-2015~~ fiscal year, each school district that has one or more of the 300 lowest-performing elementary schools based on the state reading assessment shall use these funds, together with the funds provided in the district’s research-based reading instruction allocation and other available funds, to provide an additional hour of instruction beyond the normal school day for each day of the entire school year for intensive reading instruction for the students in each of these schools. This additional hour of instruction must be provided by teachers or reading specialists who are effective in teaching reading or by a K-5 mentoring reading program that is supervised by a teacher who is effective at teaching reading. Students enrolled in these schools who have Level 5 assessment scores may participate in the additional hour of instruction on an optional basis. Exceptional student education centers ~~may not~~ be included in the 300 schools. *For the 2015-2016 fiscal year, the 300 lowest-performing schools shall be the same schools as identified for the 2014-2015 fiscal year.* After this requirement has been met, supplemental instruction strategies may include, but are not limited to: modified curriculum, reading instruction, after-school instruction, tutoring, mentoring, class size reduction, extended school year, intensive skills development in summer school, and other methods for improving student achievement. Supplemental in-

struction may be provided to a student in any manner and at any time during or beyond the regular 180-day term identified by the school as being the most effective and efficient way to best help that student progress from grade to grade and to graduate.

3. Effective with the 1999-2000 fiscal year, funding on the basis of FTE membership beyond the 180-day regular term shall be provided in the FEFP only for students enrolled in juvenile justice education programs or in education programs for juveniles placed in secure facilities or programs under s. 985.19. Funding for instruction beyond the regular 180-day school year for all other K-12 students shall be provided through the supplemental academic instruction categorical fund and other state, federal, and local fund sources with ample flexibility for schools to provide supplemental instruction to assist students in progressing from grade to grade and graduating.

4. The Florida State University School, as a lab school, is authorized to expend from its FEFP or Lottery Enhancement Trust Fund allocation the cost to the student of remediation in reading, writing, or mathematics for any graduate who requires remediation at a postsecondary educational institution.

5. Beginning in the 1999-2000 school year, dropout prevention programs as defined in ss. 1003.52, 1003.53(1)(a), (b), and (c), and 1003.54 shall be included in group 1 programs under subparagraph (d)3.

(4) COMPUTATION OF DISTRICT REQUIRED LOCAL EFFORT.—The Legislature shall prescribe the aggregate required local effort for all school districts collectively as an item in the General Appropriations Act for each fiscal year. The amount that each district shall provide annually toward the cost of the Florida Education Finance Program for kindergarten through grade 12 programs shall be calculated as follows:

(a) *Estimated taxable value calculations.*—

1.a. Not later than 2 working days prior to July 19, the Department of Revenue shall certify to the Commissioner of Education its most recent estimate of the taxable value for school purposes in each school district and the total for all school districts in the state for the current calendar year based on the latest available data obtained from the local property appraisers. The value certified shall be the taxable value for school purposes for that year, and no further adjustments shall be made, except those made pursuant to paragraphs (c) and (d), or an assessment roll change required by final judicial decisions as specified in paragraph (15)(b) ~~(14)(b)~~. Not later than July 19, the Commissioner of Education shall compute a millage rate, rounded to the next highest one one-thousandth of a mill, which, when applied to 96 percent of the estimated state total taxable value for school purposes, would generate the prescribed aggregate required local effort for that year for all districts. The Commissioner of Education shall certify to each district school board the millage rate, computed as prescribed in this subparagraph, as the minimum millage rate necessary to provide the district required local effort for that year.

b. The General Appropriations Act shall direct the computation of the statewide adjusted aggregate amount for required local effort for all school districts collectively from ad valorem taxes to ensure that no school district’s revenue from required local effort millage will produce more than 90 percent of the district’s total Florida Education Finance Program calculation as calculated and adopted by the Legislature, and the adjustment of the required local effort millage rate of each district that produces more than 90 percent of its total Florida Education Finance Program entitlement to a level that will produce only 90 percent of its total Florida Education Finance Program entitlement in the July calculation.

2. On the same date as the certification in sub-subparagraph 1.a., the Department of Revenue shall certify to the Commissioner of Education for each district:

a. Each year for which the property appraiser has certified the taxable value pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a.

b. For each year identified in sub-subparagraph a., the taxable value certified by the appraiser pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a. This is the

certification that reflects all final administrative actions of the value adjustment board.

(e) *Prior period funding adjustment millage.*—

1. There shall be an additional millage to be known as the Prior Period Funding Adjustment Millage levied by a school district if the prior period unrealized required local effort funds are greater than zero. The Commissioner of Education shall calculate the amount of the prior period unrealized required local effort funds as specified in subparagraph 2. and the millage required to generate that amount as specified in this subparagraph. The Prior Period Funding Adjustment Millage shall be the quotient of the prior period unrealized required local effort funds divided by the current year taxable value certified to the Commissioner of Education pursuant to sub-subparagraph (a)1.a. This levy shall be in addition to the required local effort millage certified pursuant to this subsection. Such millage shall not affect the calculation of the current year's required local effort, and the funds generated by such levy shall not be included in the district's Florida Education Finance Program allocation for that fiscal year. For purposes of the millage to be included on the Notice of Proposed Taxes, the Commissioner of Education shall adjust the required local effort millage computed pursuant to paragraph (a) as adjusted by paragraph (b) for the current year for any district that levies a Prior Period Funding Adjustment Millage to include all Prior Period Funding Adjustment Millage. For the purpose of this paragraph, there shall be a Prior Period Funding Adjustment Millage levied for each year certified by the Department of Revenue pursuant to sub-subparagraph (a)2.a. since the previous year certification and for which the calculation in sub-subparagraph 2.b. is greater than zero.

2.a. As used in this subparagraph, the term:

(I) "Prior year" means a year certified under sub-subparagraph (a) 2.a.

(II) "Preliminary taxable value" means:

(A) If the prior year is the 2009-2010 fiscal year or later, the taxable value certified to the Commissioner of Education pursuant to sub-subparagraph (a)1.a.

(B) If the prior year is the 2008-2009 fiscal year or earlier, the taxable value certified pursuant to the final calculation as specified in former paragraph (b) as that paragraph existed in the prior year.

(III) "Final taxable value" means the district's taxable value as certified by the property appraiser pursuant to s. 193.122(2) or (3), if applicable. This is the certification that reflects all final administrative actions of the value adjustment board.

b. For purposes of this subsection and with respect to each year certified pursuant to sub-subparagraph (a)2.a., if the district's prior year preliminary taxable value is greater than the district's prior year final taxable value, the prior period unrealized required local effort funds are the difference between the district's prior year preliminary taxable value and the district's prior year final taxable value, multiplied by the prior year district required local effort millage. If the district's prior year preliminary taxable value is less than the district's prior year final taxable value, the prior period unrealized required local effort funds are zero.

c. For the 2015-2016 ~~2014-2015~~ fiscal year only, if a district's prior period unrealized required local effort funds and prior period district required local effort millage cannot be determined because such district's final taxable value has not yet been certified pursuant to s. 193.122(2) or (3), for the 2015 ~~2014~~ tax levy, the Prior Period Funding Adjustment Millage for such fiscal year shall be levied, *if not previously levied*, in 2015 ~~2014~~ in an amount equal to 75 percent of such district's most recent unrealized required local effort for which a Prior Period Funding Adjustment Millage was determined as provided in this section. Upon certification of the final taxable value for the 2012, 2013, or 2014 tax rolls ~~roll~~ in accordance with s. 193.122(2) or (3), the Prior Period Funding Adjustment Millage levied in 2015 and 2016 shall be adjusted to include any shortfall or surplus in the prior period unrealized required local effort funds that would have been levied in 2014 or 2015, had the district's final taxable value been certified pursuant to s. 193.122(2) or (3) for the 2014 or 2015 tax levy. *If this adjustment is made for a surplus, the*

*reduction in prior period millage may not exceed the prior period funding adjustment millage calculated pursuant to subparagraph 1. and sub-subparagraphs a. and b. and any additional reduction shall be carried forward to the subsequent fiscal year. This provision shall be implemented by a district only if the millage calculated pursuant to this paragraph when added to the millage levied by the district for all purposes for the 2014-2015 fiscal year is less than or equal to the total millage levied for the 2013-2014 fiscal year. This sub-subparagraph expires July 1, 2015.*

(7) DETERMINATION OF SPARSITY SUPPLEMENT.—

(b) The district sparsity index shall be computed by dividing the total number of full-time equivalent students in all programs in the district by the number of senior high school centers in the district, not in excess of three, which centers are approved as permanent centers by a survey made by the Department of Education. *For districts with a full-time equivalent student membership of at least 20,000, but no more than 24,000, the index shall be computed by dividing the total number of full-time equivalent students in all programs by the number of permanent senior high school centers in the district, not to exceed four.*

(9) RESEARCH-BASED READING INSTRUCTION ALLOCATION.—

(a) The research-based reading instruction allocation is created to provide comprehensive reading instruction to students in kindergarten through grade 12. For the 2015-2016 ~~2014-2015~~ fiscal year, in each school district that has one or more of the 300 lowest-performing elementary schools based on the state reading assessment, priority shall be given to providing an additional hour per day of intensive reading instruction beyond the normal school day for each day of the entire school year for the students in each school. *For the 2015-2016 fiscal year, the 300 lowest-performing schools shall be the same schools as identified for the 2014-2015 fiscal year.* Students enrolled in these schools who have Level 5 assessment scores may participate in the additional hour of instruction on an optional basis. Exceptional student education centers ~~may shall~~ not be included in the 300 schools. The intensive reading instruction delivered in this additional hour and for other students shall include: research-based reading instruction that has been proven to accelerate progress of students exhibiting a reading deficiency; differentiated instruction based on student assessment data to meet students' specific reading needs; explicit and systematic reading development in phonemic awareness, phonics, fluency, vocabulary, and comprehension, with more extensive opportunities for guided practice, error correction, and feedback; and the integration of social studies, science, and mathematics-text reading, text discussion, and writing in response to reading. *For the 2012-2013 and 2013-2014 fiscal years, a school district may not hire more reading coaches than were hired during the 2011-2012 fiscal year unless all students in kindergarten through grade 5 who demonstrate a reading deficiency, as determined by district and state assessments, including students scoring Level 1 or Level 2 on the statewide, standardized reading assessment or, upon implementation, the English Language Arts assessment, are provided an additional hour per day of intensive reading instruction beyond the normal school day for each day of the entire school year.*

(12) FLORIDA DIGITAL CLASSROOMS ALLOCATION.—

(b) Each district school board shall adopt a district digital classrooms plan that meets the unique needs of students, schools, and personnel and submit the plan for approval to the Department of Education. In addition, each district school board must, at a minimum, seek input from the district's instructional, curriculum, and information technology staff to develop the district digital classrooms plan. The district's plan must be within the general parameters established in the Florida digital classrooms plan pursuant to s. 1001.20. In addition, if the district participates in federal technology initiatives and grant programs, the district digital classrooms plan must include a plan for meeting requirements of such initiatives and grant programs. Funds allocated under this subsection must be used to support implementation of district digital classrooms plans. By October 1, 2015 ~~2014~~, for the 2015-2016 fiscal year, and by October ~~March~~ 1 of each year thereafter, on a date determined by the department, each district school board shall submit to the department, in a format prescribed by the department, a digital classrooms plan. At a minimum, such plan must include, and be annually updated to reflect, the following:

1. Measurable student performance outcomes. Outcomes related to student performance, including outcomes for students with disabilities, must be tied to the efforts and strategies to improve outcomes related to student performance by integrating technology in classroom teaching and learning. Results of the outcomes shall be reported at least annually for the current school year and subsequent 3 years and be accompanied by an independent evaluation and validation of the reported results.

2. Digital learning and technology infrastructure purchases and operational activities. Such purchases and activities must be tied to the measurable outcomes under subparagraph 1., including, but not limited to, connectivity, broadband access, wireless capacity, Internet speed, and data security, all of which must meet or exceed minimum requirements and protocols established by the department. For each year that the district uses funds for infrastructure, a third-party, independent evaluation of the district's technology inventory and infrastructure needs must accompany the district's plan.

3. Professional development purchases and operational activities. Such purchases and activities must be tied to the measurable outcomes under subparagraph 1., including, but not limited to, using technology in the classroom and improving digital literacy and competency.

4. Digital tool purchases and operational activities. Such purchases and activities must be tied to the measurable outcomes under subparagraph 1., including, but not limited to, competency-based credentials that measure and demonstrate digital competency and certifications; third-party assessments that demonstrate acquired knowledge and use of digital applications; and devices that meet or exceed minimum requirements and protocols established by the department.

5. Online assessment-related purchases and operational activities. Such purchases and activities must be tied to the measurable outcomes under subparagraph 1., including, but not limited to, expanding the capacity to administer assessments and compatibility with minimum assessment protocols and requirements established by the department.

(c) The Legislature shall annually provide in the General Appropriations Act the FEFP allocation for implementation of the Florida digital classrooms plan to be calculated in an amount up to 1 percent of the base student allocation multiplied by the total K-12 full-time equivalent student enrollment included in the FEFP calculations for the legislative appropriation or as provided in the General Appropriations Act. Each school district shall be provided a minimum of \$250,000, with the remaining balance of the allocation to be distributed based on each district's proportion of the total K-12 full-time equivalent student enrollment. Distribution of 2015-2016 funds for the Florida digital classrooms allocation shall begin following submittal of each district's digital classrooms plan, which must include formal verification of the superintendent's receipt approval of the digital classrooms plan of each charter school in the district using a streamlined format prescribed by the department, and approval of the plan by the department. Prior to the distribution of the 2015-2016 Florida digital classrooms allocation funds, the department shall confirm that each district school superintendent has certified ~~shall certify~~ to the Commissioner of Education that the district school board has approved a comprehensive district digital classrooms plan that supports the fidelity of implementation of the Florida digital classrooms allocation; the district has participated in the digital readiness gap analysis assessment conducted pursuant to paragraph (g); and the district's digital classrooms plan reflects the district's commitment to prioritizing the use of 2015-2016 funds to address gaps identified through the digital readiness gap analysis assessment. District allocations shall be recalculated during the fiscal year consistent with the periodic recalculation of the FEFP. School districts shall provide a proportionate share of the digital classrooms allocation to each charter school in the district, as required for categorical programs in s. 1002.33(17)(b). A school district may use a competitive process to distribute funds for the Florida digital classrooms allocation to the schools within the school district.

(g) For the 2015-2016 fiscal year, notwithstanding paragraph (e), the department, in consultation with the Agency for State Technology, shall contract by September 1, 2015, with an independent third-party entity to conduct an assessment of the digital readiness of each school district and public school for the purpose of implementing the distribution of the 2015-2016 Florida digital classrooms allocation funds. The contract must require the contracted entity to:

1. Collaborate with the department and the Agency for State Technology to review and recommend improvements to the state's 5-year digital classrooms strategic plan developed pursuant to s. 1001.20(4) and establish minimum information technology architecture standards upon which the digital readiness of school districts and public schools will be assessed as a basis to implement digital classrooms. The standards must include, but are not limited to requirements for devices, security, network and wireless connectivity, and browsers. The contracted entity must consider, at minimum, technology requirements associated with implementation of ss. 1006.29(4) and 1008.22(3).

2. Conduct digital readiness gap analysis assessments that evaluate the current status of digital readiness, and identify gaps in the digital readiness, of school districts and schools in meeting the minimum information technology architecture standards established pursuant to subparagraph 1.

3. Report to the Governor, the President of the Senate, and the Speaker of the House of Representatives on the status and results of digital readiness gap analysis assessments of school districts and schools conducted pursuant to subparagraph 2. following the timelines specified in this subparagraph. Each report must include, at a minimum, a summary of each district's and school's gaps and the status of compliance with current minimum standards and the minimum information technology architecture standards established pursuant to subparagraph 1. The contracted entity shall report:

a. By December 1, 2015, on the status of a representative sample of school districts and schools.

b. By February 1, 2016, on the status of digital readiness assessment activities, including a report on districts and schools assessed by that date. The report must also include a summary of activities provided by the department to facilitate school district and school implementation of digital classrooms plans.

c. By May 1, 2016, on the contracted entity's completed assessment of all school districts for the purposes of providing districts with the information necessary to receive digital classrooms allocation funds pursuant to paragraph (c). The report must, at a minimum, provide a statewide summary of findings; identify existing funding options to address gaps, including e-rate options; and provide recommendations for improving cost efficiencies.

(13) **FEDERALLY CONNECTED STUDENT SUPPLEMENT.**—The federally connected student supplement is created to provide supplemental funding for school districts to support the education of students connected with federally owned military installations, National Aeronautics and Space Administration (NASA) property, and Indian lands. To be eligible for this supplement, the district must be eligible for federal Impact Aid Program funds under s. 8003 of Title VIII of the Elementary and Secondary Education Act of 1965. The supplement shall be allocated annually to each eligible school district in the amount provided in the General Appropriations Act. The supplement shall be the sum of the student allocation and an exempt property allocation.

(a) The student allocation shall be calculated based on the number of students reported for federal Impact Aid Program funds, including students with disabilities, who meet one of the following criteria:

1. Resides with a parent who is on active duty in the uniformed services or is an accredited foreign government official and military officer. Students with disabilities shall also be reported separately for this condition.

2. Resides on eligible federally owned Indian lands. Students with disabilities shall also be reported separately for this condition.

3. Resides with a civilian parent who lives or works on eligible federal property connected with a military installation or NASA. The number of these students shall be multiplied by a factor of 0.5.

(b) The total number of federally connected students calculated under paragraph (a) shall be multiplied by a percentage of the base student allocation as provided in the General Appropriations Act. The total of the number of students with disabilities as reported separately under subparagraphs (a)1. and (a)2. shall be multiplied by an additional percentage of the base student allocation as provided in the General Approp-

*priations Act. The base amount and the amount for students with disabilities shall be summed to provide the student allocation.*

(c) *The exempt property allocation shall be equal to the tax-exempt value of federal impact aid lands reserved as military installations, real property owned by NASA, or eligible federally owned Indian lands located in the district, as of January 1 of the previous year, multiplied by the millage authorized and levied under s. 1011.71(2).*

(14)(13) **QUALITY ASSURANCE GUARANTEE.**—The Legislature may annually in the General Appropriations Act determine a percentage increase in funds per K-12 unweighted FTE as a minimum guarantee to each school district. The guarantee shall be calculated from prior year base funding per unweighted FTE student which shall include the adjusted FTE dollars as provided in subsection (15) (14), quality guarantee funds, and actual nonvoted discretionary local effort from taxes. From the base funding per unweighted FTE, the increase shall be calculated for the current year. The current year funds from which the guarantee shall be determined shall include the adjusted FTE dollars as provided in subsection (15) (14) and potential nonvoted discretionary local effort from taxes. A comparison of current year funds per unweighted FTE to prior year funds per unweighted FTE shall be computed. For those school districts which have less than the legislatively assigned percentage increase, funds shall be provided to guarantee the assigned percentage increase in funds per unweighted FTE student. Should appropriated funds be less than the sum of this calculated amount for all districts, the commissioner shall prorate each district's allocation. This provision shall be implemented to the extent specifically funded.

Section 8. In order to implement Specific Appropriations 7 and 90 of the 2015-2016 General Appropriations Act, subsection (1) of section 1011.71, Florida Statutes, is amended to read:

1011.71 District school tax.—

(1) If the district school tax is not provided in the General Appropriations Act or the substantive bill implementing the General Appropriations Act, each district school board desiring to participate in the state allocation of funds for current operation as prescribed by s. 1011.62(15) ~~s. 1011.62(14)~~ shall levy on the taxable value for school purposes of the district, exclusive of millage voted under the provisions of s. 9(b) or s. 12, Art. VII of the State Constitution, a millage rate not to exceed the amount certified by the commissioner as the minimum millage rate necessary to provide the district required local effort for the current year, pursuant to s. 1011.62(4)(a)1. In addition to the required local effort millage levy, each district school board may levy a nonvoted current operating discretionary millage. The Legislature shall prescribe annually in the appropriations act the maximum amount of millage a district may levy.

(1) A State University System Performance-Based Incentive shall be awarded to state universities using performance-based metrics adopted by the Board of Governors of the State University System. The performance-based metrics must include graduation rates, retention rates, postgraduation education rates, degree production, affordability, postgraduation employment and salaries, access, and other metrics approved by the board in a formally noticed meeting. The board shall adopt benchmarks to evaluate each state university's performance on the metrics to measure the state university's achievement of institutional excellence or need for improvement and minimum requirements for eligibility to receive performance funding.

(2) Each fiscal year, the amount of funds available for allocation to the state universities based on the performance-based metrics shall consist of the state's appropriation for performance funding, including increases in base funding plus institutional investments consisting of funds deducted from the base funding of each state university in the State University System, in an amount provided in the General Appropriations Act. The institutional investment shall be restored for each institution eligible for the state's investment under the performance-based metrics.

(3)(a) A state university that fails to meet the Board of Governors' minimum performance funding threshold shall have a portion of its institutional investment withheld by the board and must submit an improvement plan to the board that specifies the activities and strategies for improving the state university's performance. The board must review and approve the improvement plan and, if the plan is approved, must monitor the state university's progress in implementing the activities and strategies specified in the improvement plan. The state university shall submit monitoring reports to the board by December 31 and May 31 of each year in which an improvement plan is in place. The ability of a state university to submit an improvement plan to the board is limited to 1 fiscal year.

(b) The Chancellor of the State University System shall withhold disbursement of the institutional investment until the monitoring report is approved by the Board of Governors. A state university that is determined by the board to be making satisfactory progress on implementing the improvement plan shall receive no more than one-half of the withheld institutional investment in January and the balance of the withheld institutional investment in June. A state university that fails to make satisfactory progress may not have its full institutional investment restored. Any institutional investment funds that are not restored shall be redistributed in accordance with the board's performance-based metrics.

(4) Distributions of performance funding, as provided in this section, shall be made to each of the state universities listed in the Education and General Activities category in the General Appropriations Act.

(5) By October 1 of each year, the Board of Governors shall submit to the Governor, the President of the Senate, and the Speaker of the House of Representatives a report on the previous fiscal year's performance funding allocation which must reflect the rankings and award distributions.

(6) This section expires July 1, 2016.

Section 15. (1) In order to implement Specific Appropriation 122 of the 2015-2016 General Appropriations Act, the Florida College System Performance-Based Incentive must be based on indicators of institutional attainment of performance metrics adopted by the State Board of Education. The performance-based funding metrics must be limited to metrics that measure retention; program completion and graduation rates; job

placement; and postgraduation employment, salaries, or further education.

(2) The State Board of Education shall evaluate the institutions' performance on the metrics based on benchmarks adopted by the board which measure the achievement of institutional excellence or improvement. The amount of funds available for allocation to the institutions each fiscal year based on the performance funding model shall be composed of the state's investment in performance funding, plus an institutional investment consisting of funds to be redistributed from the base funding of the Florida College System Program Fund, as determined in the General Appropriations Act. The board shall establish a minimum performance threshold that the institutions must meet in order to be eligible for the state's investment in performance funds. The institutional investment shall be restored for all institutions eligible for the state's investment under the performance funding model. An institution that fails to meet the board's minimum performance funding threshold is not eligible for the state's investment, shall have a portion of its institutional investment withheld, and shall submit an improvement plan to the board which specifies the activities and strategies for improving the institution's performance.

(3) The State Board of Education must review the improvement plan and, if approved, must monitor the institution's progress on implementing the specified activities and strategies. The institutions shall submit monitoring reports to the board no later than December 31, 2015, and May 31, 2016.

(4) The Commissioner of Education shall withhold disbursement of the institutional investment until such time as the monitoring report for the institution is approved by the State Board of Education. An institution that fails to make satisfactory progress will not have its full institutional investment restored. If all institutional investment funds are not restored, any remaining funds shall be redistributed in accordance with the board's performance funding model.

SPECIFIC  
APPROPRIATION

From funds provided in Specific Appropriations 7 and 90, \$429,530,450 is provided for Student Transportation as provided in section 1011.68, Florida Statutes.

From funds provided in Specific Appropriations 7 and 90, \$45,286,750 is provided for the Teachers Classroom Supply Assistance Program and shall be given to teachers pursuant to section 1012.71, Florida Statutes. The allocation shall not be recalculated during the school year.

From the funds provided in Specific Appropriation 7 and 90, \$12,404,401 is provided for a Federally Connected Student Supplement to be calculated to support the education of students connected with federally-owned military installations, National Aeronautics and Space Administration (NASA) property, and Indian lands. The supplement shall be the sum of a student allocation and an exempt property allocation. To participate, districts must be eligible for federal Impact Aid funding under Section 8003, Title VIII of the Elementary and Secondary Education Act of 1965.

The student allocation shall be based on the total number of students, including students with disabilities, reported for federal impact aid who: 1) reside with a parent on active duty in the uniformed services or who is an accredited foreign government official and military officer, 2) reside on eligible Indian lands, or 3) reside with a civilian parent who lives or works on eligible federal property connected with a military installation or NASA. This third category shall be multiplied by a factor of 0.5. Students with disabilities shall also be counted separately for the first two categories. The total number of federally-connected students and the total number of students with disabilities shall be multiplied by 3 percent and 10.5 percent of the base student allocation, respectively. The exempt property allocation shall be equal to the tax-exempt value of federal impact aid lands reserved as military installations, real property owned by NASA, or eligible federally-owned Indian lands located in the district, multiplied by the millage authorized and levied under section 1011.71(2), Florida Statutes.

For the 2015-2016 fiscal year, this allocation shall be derived from the data reported by school districts for the federal Impact Aid Program, Section 8003, Title VIII of the Elementary and Secondary Education Act, for the 2015 federal fiscal year. The Department of Education shall establish a process to collect student enrollment for this allocation during the student surveys for application in subsequent fiscal years. Each district's Federally Connected Student Supplement for the 2015-2016 appropriation shall not be recalculated during the fiscal year.

Funds provided in Specific Appropriations 7 and 90 for the Virtual Education Contribution shall be allocated pursuant to the formula provided in section 1011.62(11), Florida Statutes. The contribution shall be based on \$5,230 per FTE.

Districts may charge a fee for grades K-12 voluntary, non-credit summer school enrollment in basic program courses. The amount of any student's fee shall be based on the student's ability to pay and the student's financial need as determined by district school board policy.

From the funds in Specific Appropriations 7 and 90, school districts may execute an appropriate contract for full-time virtual instruction through K-8 virtual schools that received funds from Specific Appropriation 93 of chapter 2008-152, Laws of Florida. School districts may expend a negotiated amount per student for each student who was enrolled and served during the 2014-2015 fiscal year and who is re-enrolled and eligible to be served during the 2015-2016 fiscal year. Each of the K-8 virtual schools shall provide to the Department of Education the name and address of each student who was enrolled and served during the 2014-2015 fiscal year and who is re-enrolled and is eligible to be served during the 2015-2016 fiscal year. The department shall verify the eligibility of the students, assist with placement of each student in a school district virtual instruction program regardless of the student's district of residence, and assist the school district with executing an appropriate contract with an approved K-8 virtual school for payment for virtual instruction for each student. The maximum number of students to be funded pursuant to this provision is the number

From the \$40,000,000, which includes \$20,000,000 new funding and \$20,000,000 redistributed from the base, for Florida College Performance Based Incentives in Specific Appropriation 122 from the General Revenue Fund, the State Board of Education shall allocate all of such appropriated funds pursuant to a performance funding model approved by the State Board of Education prior to September 1, 2015. The approved model must be based on a modified version of the performance funding model submitted by the Commissioner in her letter of January 23, 2015, which shall be limited to measures addressing the following areas: Job Placement, Program Completion and Graduation Rates, Retention Rates, and Completer Entry Level Wages.

The board must evaluate the institutions' performance on the measures based on benchmarks adopted by the board that measure the achievement of institutional excellence or improvement. The amount of funds available for allocation to the institutions based upon the performance funding model shall consist of new funding, together with funds redistributed from the base funding for the Florida College System Program Fund. The board shall establish a minimum performance threshold that colleges must meet in order to be eligible for new funding under the performance funding model adopted by the board. The minimum threshold shall be set in a manner to ensure that not all colleges are eligible for new funding. All institutions eligible for new funding under the performance funding model shall have their base funding restored. Any institution that fails to meet the board's minimum performance funding threshold will have a portion of its base funding withheld and must submit an improvement plan to the Board that specifies the activities and strategies for improving the institution's performance. The board must review the improvement plan, and if approved, monitor the institution's progress on implementing the activities and strategies specified in the improvement plan.

The Commissioner of Education shall withhold disbursement of the base funds until such time as the monitoring report for the institution is approved by the board. Any institution that fails to make satisfactory progress shall not have its full base funding restored. If all funds are not restored, then any remaining funds shall be redistributed in accordance with the board's adopted performance funding model to the seven state colleges that had the highest overall performance scores.

## SECTION 2 - EDUCATION (ALL OTHER FUNDS)

## SPECIFIC

## APPROPRIATION

Pursuant to section 1011.90, Florida Statutes, the development of these appropriations was based on the planned enrollment for each university as submitted by the Board of Governors on March 18, 2015.

Funds in Specific Appropriation 138 from the Phosphate Research Trust Fund are provided for the Florida Polytechnic University.

From the funds in Specific Appropriation 138, \$400,000,000 is provided for State University System Performance Based Incentives. The Board of Governors shall allocate all appropriated funds for State University System Performance Based Incentives based on indicators of institutional attainment of performance metrics adopted by the Board and as updated by the Board on November 6, 2014.

The Board of Governors shall evaluate the universities' performance on the metrics based on benchmarks, adopted by the board which measure the achievement of institutional excellence or improvement. The funds available for allocation to the universities based on the performance funding model shall consist of the state's investment of \$150,000,000 in performance funding, plus an institutional investment of \$250,000,000 consisting of funds to be redistributed from the base funding of the State University System. The state investment shall be distributed in accordance with the performance funding model. The institutional investment shall be restored for all universities that meet the board's minimum performance funding threshold under the performance funding model. Any university that fails to meet the board's minimum performance funding threshold will be not eligible for the state's investment, will have a portion of its institutional investment withheld, and must submit an improvement plan to the board that specifies the activities and strategies for improving the university's performance.

The board shall review the improvement plan, and if approved, monitor the university's progress in implementing the activities and strategies specified in the improvement plan. The Chancellor of the State University System shall withhold disbursement of the institutional investment until such time as the monitoring report for the university is approved by the board. Any university that fails to make satisfactory progress may not have its full institutional investment restored. If all funds are not restored, any remaining funds shall be redistributed in accordance with the board's performance funding model. The ability of a university to submit an improvement plan to the board is limited to one fiscal year.

By October 1, 2015, the Board of Governors shall submit to the Governor, the President of the Senate, and the Speaker of the House of Representatives a report on the previous year's performance funding allocation which reflects the rankings and award distributions.

From the funds in Specific Appropriation 138 provided to the University of West Florida, \$2,535,616 shall be released to the Florida Academic Library Services Cooperative at the University of West Florida at the beginning of the first quarter and \$4,317,400 shall be released at the beginning of the second quarter in addition to the normal releases. The additional release is provided to maximize cost savings through centralized purchases of subscription-based electronic resources.

------	--	-----------

Funds provided in Specific Appropriations 146A shall be allocated to:  
1) create and fund postsecondary education coordination activities and program options to increase the independence of individuals with disabilities through improved educational and employment opportunities, as referenced in 2013 reports of the Governor's Commission on Jobs for Floridians with Disabilities, created by Executive Order 11-161, and the Students with Disabilities Education Pathway Task Force, created by the Florida Legislature; 2) improve the coordination of information and availability of robust opportunities for individuals with disabilities to attain the academic, technical, and educational skills necessary to prepare them for success in the workforce and life; 3) assist in minimizing the disparity in educational and workforce opportunities through increased postsecondary academic opportunities and work experiences; 4) create a statewide coordination and program management center; and 5) establish criteria and funding incentives for Florida's postsecondary education institutions to establish and operate Florida Postsecondary Comprehensive Transition Programs (FPCTPs) to assist individuals with disabilities in attaining skills and experiences that will lead to sustainable job and life success.

From the funds in Specific Appropriation 146A, \$1,500,000 is provided to the Florida Center for Students with Unique Abilities (center) at the University of Central Florida to serve as the statewide coordinating center responsible for disseminating information about postsecondary education opportunities, programs, support, and services available statewide for individuals with disabilities; manage and facilitate the statewide implementation of FPCTPs and other programs and services; and provide technical assistance to expand best practices and partnerships that facilitate access to meaningful credentials and job opportunities. At a minimum, the center must: 1) disseminate information to students with disabilities and their parents regarding education programs, services, resources, and employment opportunities for such students; 2) consult with the National Center and the Coordinating Center, as identified in 20 U.S.C. s. 1140g, regarding federal requirements and standards, quality indicators, and benchmarks; 3) provide technical assistance regarding programs and services for students with intellectual disabilities to administrators, instructors, staff, and others at eligible institutions; 4) administer FPCTP start-up and enhancement grants, including creating an application to be used by eligible institutions to seek approval of an FPCTP from the center and receive FPCTP start-up and enhancement grants and approving grant applications; 5) administer and oversee implementation of FPCTP scholarship awards to eligible students enrolled in center-approved, grant-receiving FPCTP programs; and 6) provide, by December 31, 2015, and June 15, 2016, implementation status reports and recommendations to the Governor, President of the Senate, and Speaker of the House of Representatives regarding the improvement and statewide expansion of FPCTPs.

enhancement grant, an eligible institution must submit to the center, by a date established by the center, an application for approval of a proposed program that must address the comprehensive transition and postsecondary program requirements under 20 U.S.C. s. 1140. Additionally, the eligible institution must attach to the application: 1) documented evidence of a federally approved comprehensive transition and postsecondary program that is determined to be an eligible program for the federal student aid programs and is currently offered at the institution, 2) documented evidence of the submission of an application for such federal approval of a comprehensive transition and postsecondary program proposed by the institution, or 3) documentation demonstrating the commitment of an institution's governing board to submit an application for federal approval of a program proposed by the institution pursuant to 20 U.S.C. s. 1140. By December 1, 2015, each eligible institution that offers an FPCTP approved by the center must report to the center the status of program implementation and student progress including, but not limited to, recruitment efforts, student enrollment and retention information, business partnerships, and student employment and job placement results. The maximum annual FPCTP start-up and enhancement grant award shall be \$300,000 per institution.

The scholarships will be disbursed for award to each grant-receiving institution for eligible students who are enrolled in the center-approved FPCTP who are not receiving services that are funded through the Florida Education Finance Program or a scholarship under part III of chapter 1002 of the Florida Statutes. Each grant-receiving institution shall provide each eligible student enrolled in its center-approved FPCTP with a \$7,000 FPCTP scholarship, prorated by term, to cover the student's cost of tuition, program fees, instructional materials, and other cost of attendance. The scholarship amount may be prorated if appropriated funds are insufficient to provide the full award to all eligible students in center-approved programs. Each institution shall report to the center demographic and other data requested by the center for students who received the scholarships. By December 31, 2015 and June 15, 2016, for each respective term of the academic year, the center must report to the Governor, President of the Senate, Speaker of the House of Representatives, the Chancellor of the State University System, and the Commissioner of Education, an FPCTP scholarship status report including: 1) the number of students receiving scholarships at each institution, 2) demographic information on scholarship recipients, 3) the amount of scholarship funds disbursed at each institution, 4) student performance indicators, such as credits completed, 5) recommendations to improve and expand FPCTPs, and 6) other applicable information requested by the center.

Actual case mix in state fiscal year 2015-2016 will be assumed to be higher than measured case mix by between zero and three percent based on case mix trending. ## CORRECTIONS, DEPARTMENT OF

From the funds in Specific Appropriations 583 through 771, each provider contracting with the Department of Corrections must provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents must include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate successful compliance with the performance measures described in the contract.

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS  
SPECIFIC  
APPROPRIATION

The Department of Corrections shall continue to submit an annual report on the state prison system to the Governor and to the Legislature using a uniform format and uniform methodologies. The report shall include a comprehensive plan for current facility use and any departures from planned facility use, including opening new facilities, renovating or closing existing facilities, and advancing or delaying the opening of new or renovated facilities. The report shall include the maximum capacity of currently operating facilities and the potential maximum capacity of facilities that the department could make operational within the fiscal year. The report shall also identify appropriate sites for future facilities and provide information to support specified locations, such as availability of personnel in local labor markets. Reports should include updated infrastructure needs for existing or future facilities. Each report should reconcile capacity figures to the immediately preceding report. For the purpose of this paragraph, maximum capacity shall be calculated and displayed pursuant to section 944.023(1)(b), Florida Statutes. The department may provide additional analysis of current and future bed needs based on such factors as deemed necessary by the Secretary. The next report shall be due January 1, 2016.

From the funds in Specific Appropriations 583 through 771, the Department of Corrections shall prepare a report detailing the amount of overtime expended per facility; the number of positions in overlap, with justification for each overlapped position; and identifying the number of unfunded positions that may be eliminated. The report shall be submitted to the chair of the Senate Appropriations Committee and the chair of the House Appropriations Committee by January 1, 2016.

From the funds in Specific Appropriations 583 through 771, the Department of Corrections shall, before closing, substantially reducing the use of, or changing the purpose of any state correctional institution as defined in section 944.02, Florida Statutes, submit its proposal to the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, and the chair of the House Appropriations Committee for review.

From the funds in Specific Appropriations 583 through 771 the Department of Corrections may work within its existing budget, including applicable grants, to implement any corrective action plan that is developed as the result of a Prison Rape Elimination Act audit conducted in accordance with Title 23, Part 115 of the Code of Federal Regulations. The department may request additional resources required through the Legislative Budget Request process as defined in chapter 216, Florida Statutes.

Funds in Specific Appropriation 583 through 771 shall not be used to pay for unoccupied space currently being leased by the Department of Corrections in the event the leases are vacant on or after July 1, 2015, and for which it has been determined by the Secretary of the department that there is no longer a need.

PROGRAM: SECURITY AND INSTITUTIONAL OPERATIONS

From the funds in Specific Appropriations 621, 633 and 646, a total of \$1,074,362 is provided as payment in lieu of ad valorem taxation for distribution to local government taxing authorities. Funding is provided as follows: \$269,324 for the Bay Correctional Facility, \$339,242 for the Moore Haven Correctional Facility, \$275,560 for the South Bay Correctional Facility, \$100,000 for the Gadsden Correctional Facility, and \$90,236 for the Lake City Correctional Facility. These funds may not be distributed if there are outstanding claims for ad valorem taxes due on the property at issue and may not be distributed until the property is reclassified on the real property and tangible personal property rolls as State Government property back to the date the finance corporation or other state entity acquired the title thereto. These distributions shall be adjusted, with respect to any facility, to reimburse the Department of Corrections for the total amounts expended by the state in resisting the imposition of such ad valorem tax claims, including all attorneys' fees and costs actually incurred by the state's agencies.

Funds and positions in Specific Appropriations 583 through 720A and 733 through 771 support the state's inmate population. These funds and positions are sufficient to provide housing and security for 100,290 inmates when fully annualized. Variable expenses, maintenance, and health services funds are provided for an average daily population of 100,359 inmates.

Funds and positions in Specific Appropriations 583 through 720A and 733 through 771 are provided to address security needs for the prison population expected in Fiscal Year 2015-2016, as projected by the Criminal Justice Estimating Conference.

The contractor shall report performance results annually to the department. The department's Office of Program Accountability shall summarize performance results from all contracts and report the information annually to the Legislature.

From the funds in Specific Appropriations 1124 through 1208, the Department of Juvenile Justice is directed to withhold funds from contract payments to any provider if that provider failed to comply with contract requirements that it maintain property insurance and if the failure to do so resulted in uninsured losses. As the result of such review, the department shall prepare a report that includes benchmarking of counties' performance on factors that demonstrate how a county is supporting the department's strategic goals of preventing and diverting more youth from entering the juvenile justice system; providing appropriate, less restrictive, community-based sanctions and services; reserving serious sanctions for youth who pose the greatest risk to public safety; and focusing on rehabilitation. The report shall also include recommendations and strategies that can be implemented by the department or counties to address any identified deficiencies and to assist in developing a statewide, coordinated response across all of Florida's communities to support the department's strategic goals. A copy of the report shall be submitted to the Governor, the President of the Senate, and the Speaker of the House of Representatives by January 1, 2016.

PROGRAM: RESIDENTIAL CORRECTIONS PROGRAM

From the funds in Specific Appropriations 1178 through 1194, the Department of Juvenile Justice shall provide a weekly residential resource utilization report that identifies operating capacity, current placements, vacant placements, number of youth awaiting placement, and the percent of use for all residential commitment beds. The department may increase or decrease beds or overlay services provided that the change will better serve taxpayers and the youth under its care. Notification and justification of changes will be provided to the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, and the chair of the House Appropriations Committee prior to implementing any change.

From the funds in Specific Appropriations 1178 through 1194, in selecting a private provider for operation of secure and non-secure residential programs, the Department of Juvenile Justice must consider the provider's history of performance of services in other jurisdictions as well as its performance of services in Florida. The department must also provide a report of serious incidents to the Governor, President of the Senate, and Speaker of the House of Representatives on no less than a quarterly basis. The report must include, at a minimum: the number of incidents and allegations of staff abuse or abuse by another child, including whether or not an allegation was substantiated; descriptions of incidents or allegations of such abuse that resulted in physical injury or significant psychological trauma, or that involved deprivation of food, water, or medical care; and the failure of a provider to report incidents or allegations within required timeframes established by the department. In addition, the department must conduct an independent review of each out-of-state provider before issuing a new contract. The report must be organized so that the incidents and allegations relating to a particular facility and to a particular provider can be readily ascertained. The department must also immediately report the death or serious bodily injury of a youth in a secure or non-secure residential program to the Governor, President of the Senate, and Speaker of the House of Representatives, and may make any additional reports that it determines to be appropriate based upon the seriousness of an incident or allegation.

## PROGRAM: WORKFORCE SERVICES

## WORKFORCE DEVELOPMENT

From the funds in Specific Appropriations 2193 through 2221, the Department of Economic Opportunity must determine if any funds provided for specific workforce programs, projects, or initiatives are not an allowable use of federal funds. If the department finds that any workforce program, project, or initiative for which funds are specifically appropriated in this act is not an allowable use of federal funds, the department must notify the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, and the chair of the House Appropriations Committee.

When allocating full-time equivalent (FTE) positions to individual regional workforce boards, the Department of Economic Opportunity must ensure that workforce services are effectively and efficiently provided throughout the state. The department is authorized to reallocate any FTE position allocated to a regional workforce board that has been or becomes vacant for more than 180 days. When reallocating a vacant FTE position, the department must give priority to a regional workforce board that would use the FTE position to provide additional services to veterans.

----------------------	-------------

From the funds in Specific Appropriation 2241, each local government must use a minimum of 20 percent of its allocation to serve persons with special needs as defined in section 420.0004, Florida Statutes. Before this portion of the allocation is released by the Florida Housing Finance Corporation (FHFC), a local government must certify that it will meet this requirement through existing approved strategies in the local assistance plan or submit a new local housing assistance plan strategy for this purpose to the FHFC for approval to ensure that it meets these specifications. The first priority of these special needs funds must be to serve persons with developmental disabilities as defined in section 393.063, Florida Statutes, with an emphasis on home modifications, including technological enhancements and devices, which will allow homeowners to remain independent in their own homes and maintain their homeownership.

From the funds in Specific Appropriation 2241, \$4 million shall be used to provide services to homeless persons. Of the \$4 million, \$3,800,000 shall be transferred to the Department of Children and Families to implement the provisions of section 420.622, Florida Statutes, and \$200,000 shall be used by the Department of Economic Opportunity to provide training and technical assistance regarding affordable housing to designated lead agencies of homeless assistance continuums of care.

Funds in Specific Appropriation 3078 shall be distributed to county supervisors of elections to be used for election administration activities such as voter education; pollworker training; standardizing elections results reporting; or other federal election administrative activities as approved by the Department of State.

SECTION 6 - GENERAL GOVERNMENT  
SPECIFIC  
APPROPRIATION

County supervisors of elections will receive funds only after providing the Department of State a detailed description of the programs that will be implemented. Funds distributed to county supervisors of elections require a certification from the county that matching funds will be provided in an amount equal to fifteen percent of the amount to be received from the state.

Also, before a county supervisor of elections receives funds for any software or hardware technology, including, but not limited to any emerging technology that enhances or facilitates the delivery of absentee ballots, the casting and counting of valid votes, voting system audits or recount processes, and the certification of accurate and complete official election results, the software or technology must first be certified or approved, whichever is applicable by the Department of State. Additionally, before the Supervisor can receive funds for emerging or enhancing technology, the county supervisor of elections and the chairperson of the county governing body must certify that the county has purchased and made available sufficient equipment for casting and counting ballots to meet the needs of the county electors including reducing the wait time at the polls during the early voting period and on election day for the next regularly scheduled general election.

To be eligible, a county must segregate federal funds and required county matching dollars in a separate account established to hold only such funds. Funds in this account must be used only for the activities for which the funds were received. Funds shall remain in the account to be used for the same purposes for subsequent years or until such funds are expended. Supervisors of elections shall report to the Department of State any unspent funds remaining on June 30 of each fiscal year.
