14. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

LFIR # 1386

Broward Senior Support Services (BSSS) will serve (82 to175) Non-Medicaid eligible, disabled older adults ages 60+ from all areas of Broward County, and aims to provide a safety-net plan of home health services designed to improve quality of life, and prevent unnecessary hospitalizations and institutional placement. This Program will also reach seniors who are our home town heroes, including retired school teachers, fire fighters, policeman and veterans needing assistance to live independently at home.

b. What activities and services will be provided to meet the intended purpose of these funds?

Broward Senior Support Services (BSSS) will provide qualified home health aides to deliver the highest quality of home health services to Program participants. This Program conducts ACHA Level II Background Screenings to ensure the safety of our senior participants. A Case Manager is assigned to each older adult to assess their home health needs and to activate services. Additionally, the Case Manager also assists seniors to navigate the aging network, and provides information about community resources that are available through the local non-profit provider network. Referrals to these Programs are accepted from the community-at-large. Through community outreach and education activities the public will learn about this Program.

c. What direct services will be provided to citizens by the appropriation project?

Citizens who are Non-Medicaid eligible, disabled older adults age 60+ will have access to a safety-net plan of home health services that will improve their quality of life, helping to prevent unnecessary hospitalizations and institutional placement through the provision of personal care for assistance with bathing, dressing, grooming and ambulating. Another direct service is homemaker services for assistance with cleaning, grocery shopping and laundry. Each senior will be assigned a Case Manager to assess their care needs, coordinate the activation of services and to help them navigate the aging network.

d. Who is the target population served by this project? How many individuals are expected to be served?

The Target Population is Non-Medicaid, disabled older adults age 60+ and include our home town heroes that are retired school teachers, fire fighters, policemen and veterans residing in Broward County. Referrals will be accepted from the community-at-large. These are home bound seniors needing home health support to live independently at home. They are making tough decisions to pay for medicine, housing or food because many have outlived their savings.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The expected benefit for Non-Medicaid eligible disabled older adults that seniors will experience improved quality of life through the provision of a safety net plan of home health services that provides assistance with activities of daily living that they are no longer able to easily do on their own. This Program will help prevent unnecessary hospitalizations and institutional placement. Approximately, 82 to 175 disabled older adults will benefit, and the methodology used to assess the outcomes will include the # of seniors served, duration of seniors in the Program, and the # of seniors that were able to prevent unnecessary hospitalizations and institutional placement with the safety-net services provided by this Program.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

The Program will only draw funds per Participant Enrollment into the Program with activation of service delivery. No funds will be drawn in advance.
