A septage receiving station will service not only the City of Crestview but could also be considered a regional facility and would serve portions of Santa Rosa, Okaloosa, and Walton Counties. Facility offers a service to the community by offering a safe disposal alternative for waste that could pose a serious health hazard

c. What direct services will be provided to citizens by the appropriation project?

Offers a service to the community by offering a safe disposal alternative for waste that could pose a serious health hazard. Offers a more central location to dispose of septage waste.

d. Who is the target population served by this project? How many individuals are expected to be served?

General population. >800 individuals expected to be served.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Creates a safe disposal alternative for waste that could cause serious health and environmental hazards. Provides a more central location for a septage receiving facility. Reduces the burden of the only existing septage receiving facility located in the south end of the county. Outcome can be measured by measuring the amount of waste disposed at the facility.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Not receiving the full contracted amount.
