Fixed Capital Construction/Majo	r Renovation:	
Construction/Renovation/Land/ Planning Engineering		0
Total State Funds Requested (must equal total from question #6)		

### 14. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

## The Florida Senate Local Funding Initiative Request Fiscal Year 2023-2024

LFIR # 2430

The goal is to provide behavioral (mental health and substance abuse) stabilization through Direct Observational Treatment (DOT) as well as access to housing and other services for on-street chronically homeless individuals, who have not benefited from traditional service programs. Through coordinated street outreach activities, the project will continue to engage the hardest to serve chronically homeless mentally ill and substance users in order to get them off the streets and into housing. This includes high systems users such as persons with a history of arrests and/or frequent police interactions and/or hospitalizations to reduce dependency on those systems.

### b. What activities and services will be provided to meet the intended purpose of these funds?

The project will approach (pre-engagement) as many of the on-street chronically homeless and substance abusers in Miami as possible, engage these individuals over time before delivering, treatment and stabilization services along with Housing and Supportive services. Outreach takes place 5 days a week in the early morning or the late evening with medication observation taking place on weekends.

c. What direct services will be provided to citizens by the appropriation project?

The project will engage, assess, treat (medically and mentally) and secure supportive housing placement for persons who are chronically homeless and mentally ill or have substance use disorders or co-occurring disorders, living on the streets in Miami-Dade County.

d. Who is the target population served by this project? How many individuals are expected to be served?

Project Lazarus targets the chronically homeless and substance users, particularly those identified as the most service-resistant and having severe mental and substance use disorders, cognitive and other disabilities. On-street chronic homeless specifically, identified in the 2023 Priority Home Homeless Plan as the population of highest need. The project will seek to make 600 contacts and engage 120 individuals.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Individuals who engage in program services and successfully transition into some form of housing, will demonstrate significantly lower rates of return to homelessness, reducing the cost safety nets services by these high system users including emergency rooms, crisis units, criminal justice and homeless services. The following measures will be used to measure these outcomes:

- 1. Number of on-street contacts (Target: 600)
- 2. Number of persons served (clients roll over from year to year). (Target: 120 persons engaged)
- 3. Exits to housing (Target: 50% of participants no longer on the street)

### f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Corrective action plans may be required for noncompliance, nonperformance, or unacceptable performance. Financial penalties may be imposed for failures to implement or to make acceptable progress on such corrective action plans. Increments of penalty imposition shall apply, unless DCF determines that extenuating circumstances exist, shall be based upon the severity of the noncompliance, nonperformance, or unacceptable performance that generated the need for corrective action plan.
