

THE FLORIDA SENATE
2026 SUMMARY OF LEGISLATION PASSED
Committee on Health Policy

HB 327 — Uterine Fibroid Research Database

by Reps. Dunkley and Valdés (CS/SB 196 by Health Policy Committee and Senators Sharief, Osgood, Davis, Rouson, Bernard, and Berman)

The bill removes the prohibition against including personal identifying information in the Uterine Fibroid Research Database. The Department of Health is unable under preexisting law to effectively implement the legislative purpose of the Uterine Fibroid Research Database without identified information being submitted.

If approved by the Governor, or allowed to become law without the Governor's signature, these provisions take effect on the same date that HB 1515 takes effect if that bill becomes a law.

Vote: Senate 36-0; House 103-0
