BILL: SB 2-C

INTRODUCER: Senator Rodrigues

SUBJECT: Establishing the Congressional Districts of the State

DATE: April 18, 2022

I. Summary:

Senate Bill 2-C apportions the state into 28 single-member Congressional districts as required by the United States (U.S.) Constitution, Federal Voting Rights Act, Florida Constitution, and applicable court decisions.

II. Present Situation:

The 2020 Census revealed an unequal distribution of population growth across Florida's Congressional districts. Therefore, districts must be adjusted to comply with the "one person, one vote" principle such that each district must be substantially equal in total population.¹

According to the 2020 Census, 21,538,187 people resided in Florida as of April 1, 2020. That represents a population growth of 2,736,877 people from 2010 to 2020, approximately a 15 percent increase. Due to the population growth within the last decade, Florida is apportioned an additional congressional seat, increasing its representation to 28.²

Table 1 below shows the changes in population for each of Florida's current congressional and state legislative districts and their respective ideal populations.

¹ See *Reynolds v. Sims*, 377 U.S. 533, 568 (1964).

Table 1. Florida Congressional and State Legislative Districts Summary 2010 – 2020

Florida Fast Facts	2010	2020	Difference
Statewide Population	18,801,310	21,538,187	+2,736,877
Number of Congressional Seats	27	28	+1 seat
Congressional District Ideal Population	696,345	769,221	+72,876
Florida House of Representatives District Ideal Population (based on 120 seats)	156,678	179,485	+22,807
Florida Senate District Ideal Population (based on 40 seats)	470,033	538,455	+68,422

According to the 2020 Census, the congressional district with the largest population has 955,602 people (186,381 more than the ideal), and the congressional district with the smallest population has 727,465 people (41,756 less than ideal).

Background

The terms “redistricting” and “reapportionment” are often used interchangeably to describe the process of redrawing Congressional and state legislative district boundaries after each decennial census. Redrawing districts is necessary to accommodate population growth and shifts, ensuring that each district contains equal or nearly equal populations in compliance with applicable state and federal law.

The U.S. Constitution requires the apportionment of the U.S. House of Representatives after each decennial census to distribute each of the U.S. House of Representatives’ 435 seats between the 50 states and to equalize population between districts within each state.³

The 2020 Census

Established by the U.S. Constitution, the census has been conducted every 10 years by the United States Census Bureau since 1790 to determine the number of people living in the United States. Article I, s. 2 of the U.S. Constitution states that “The actual enumeration shall be made within three years after the first meeting of the Congress of the United States, and within every subsequent term of ten years, in such manner as they shall by law direct.”⁴

Florida is one of 21 states that explicitly requires the use of census data for redistricting.⁵ Article X, s. 8 of the Florida Constitution designates each decennial census of the state taken by the

³ Art. I, s. 2, U.S. Const.

⁴ Art. I, s. 2, U.S. Const.

United States as the official census of the state.⁶ Florida Statutes also designate the most recent federally conducted decennial census as the official census for redistricting.⁷

Public Law (P.L.) 94-171 requires the Census Bureau to provide states the opportunity to identify the small area geography for which data is needed to conduct legislative and congressional redistricting. The law also requires the U.S. Census Bureau to furnish these tabulations of population to each state, at the county, tract, block group, and block levels, within one year of Census Day.⁸

Title 13, U.S. Code requires that the state-level apportionment population counts be delivered to the President of the United States within 9 months of the census date. In the 2020, 2010, and most 20th century censuses, the census date has been April 1, meaning that the statutory deadline for delivering the counts to the President is December 31 of the census year.⁹

The delivery of 2020 Census results was delayed due to several factors affecting the Census Bureau's collection and processing, including the COVID-19 pandemic, natural disasters that included hurricanes and wildfires, civil unrest, and legal challenges.¹⁰

The state population counts for apportionment were delivered to the President on April 26, 2021 (originally due December 31, 2020). The U.S. Census Bureau provided redistricting data as legacy format summary files, which is tabular data, for all states on August 12, 2021 (originally due April 1, 2021). The full redistricting data toolkit was delivered to all 50 states and the public on September 16, 2021 (originally due April 1, 2021).

Redistricting Criteria and Concepts

Florida follows various criteria and standards as it relates to drawing congressional districts, including the United States (U.S.) Constitution, Federal Voting Rights Act, Florida Constitution, and applicable court decisions.

The United States Constitution

The United States (U.S.) Constitution requires the reapportionment of the U.S. House of Representatives after each decennial census to distribute each of the U.S. House of Representatives' 435 seats between the states and to equalize population among districts within each state.¹¹

Article I, s. 4 of the U.S. Constitution grants each state legislature the exclusive authority to apportion seats designated to that state by providing the legislative bodies with the authority to

determine the times, place, and manner of holding elections for senators and representatives. Consistent therewith, Florida adopts its Congressional apportionment plans by legislation subject to gubernatorial approval.

In addition to state-specific requirements to redistrict, states are obligated to redistrict based on provisions within the United States Constitution. In *Wesberry v. Sanders*, the United States Supreme Court held that districts must be as nearly equal in population as practicable.¹² Derived from the Fourteenth Amendment, this principle is commonly referred to as “one person, one vote.”¹³ For Congressional districts, “as practicable” has been interpreted to mean exactly equal based on census data available at the time of redistricting.¹⁴

The requirement that each district be equal in population applies differently to Congressional districts than to state legislative districts. The populations of Congressional districts must achieve absolute mathematical equality (+/- one person from the ideal population), with no de minimis exception.¹⁵ Limited population variances are permitted if they are “unavoidable despite a good faith effort” or if a valid “justification is shown.”¹⁶ In practice, Congressional districting has strictly adhered to the requirement of exact mathematical equality and in *Kirkpatrick v. Preisler*, the Court rejected several justifications for violating this principle.

The Fourteenth Amendment has also been interpreted to prohibit racial predominance.¹⁷ The U.S. Supreme Court has stated: “The equal protection clause prohibits a state, without sufficient justification, from separating its citizens into different voting districts on the basis of race.” A redistricting plan “that expressly distinguishes among citizens because of their race [must] be narrowly tailored to further a compelling government interest.” Such strict scrutiny review applies not only to redistricting plans that expressly distinguish citizens because of race, but also those plans “that, although race neutral, are, on their face, unexplainable on grounds other than race.”¹⁸

The Federal Voting Rights Act

The Federal Voting Rights Act (VRA) prohibits any state or political subdivision from enacting a map that results in the denial or abridgment of any U.S. citizen’s right to vote on account of race, color, or status as a member of a language minority group and purposeful discrimination.¹⁹ The VRA also protects against retrogression—or backsliding—in the ability of racial and language minorities to elect representatives of their choice.²⁰

Section 2 of the VRA requires the creation of a district that performs for racial and language minorities where a minority population is geographically compact and sufficiently numerous to be a majority in a single-member district, the minority population is politically cohesive, the

majority votes sufficiently as a bloc to enable it usually to defeat the minority-preferred candidate, and under all of the circumstances, the minority population has less opportunity than others to participate in the political process and elect representatives of its choice.²¹

Section 5 of the VRA prohibits purposeful discrimination and protects against retrogression—or backsliding—in the ability of racial and language minorities to elect representatives of their choice.²² Section 5 contains a coverage formula that was applied to “covered jurisdictions” to determine if there was a history of discrimination against racial or language minorities.²³ Such jurisdictions had to be “precleared” before any of the changes could take effect, meaning that any substantial changes made to voting laws, including redistricting plans, in these “covered jurisdictions” could not be implemented without first obtaining federal permission.²⁴ In Florida, Collier, Hardee, Hendry, Hillsborough, and Monroe counties were subject to Department of Justice preclearance in regards to redistricting until the coverage formula was invalidated in 2013 in *Shelby County v. Holder*.²⁵ However, as *Apportionment I* states, “Florida’s new constitutional provision, codified the non-retrogression principle of Section 5 (VRA) and has now extended it statewide. In other words, Florida now has a statewide non-retrogression requirement independent of Section 5.”²⁶

The Florida Constitution

In 2010, voters amended the Florida Constitution to create additional standards for establishing Congressional district boundaries.²⁷ The standards are set forth in two tiers.

Tier–One Standards

Article III, s. 20(a) of the Florida Constitution prohibits line-drawing that intentionally favors or disfavors a political party or an incumbent. It also affords protection to racial and language minorities. Districts may not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process; or to diminish their ability to elect representatives of their choice. Finally, it requires that districts must be contiguous. The order in which the tier-one standards are set out in the Constitution does not establish any priority among those standards within the tier.²⁸

The tier-one standards provide that “[n]o apportionment plan or district shall be drawn with the intent to favor or disfavor a political party or an incumbent.”²⁹ The Florida Supreme Court has held that Florida’s constitutional provision “prohibits intent, not effect” because “any redrawing of lines, regardless of intent, will inevitably have an effect on the political composition of a

district and likely whether a political party or incumbent is advantaged or disadvantaged.”³⁰ Nonetheless, there is no acceptable level of improper intent.³¹

The tier-one standards also provide protections for racial and language minorities. Districts may “not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process”; or to “diminish their ability to elect representatives of their choice.”³²

The Court has interpreted the tier-one constitutional provisions that relate to racial or language minorities’ ability to participate in the political process or elect a candidate of their choice to mean that “the Legislature cannot eliminate majority-minority districts or weaken other historically performing minority districts where doing so would actually diminish a minority group’s ability to elect its preferred candidates...in addition to majority-minority districts, coalition or crossover districts that previously provided minority groups with the ability to elect a preferred candidate under the benchmark plan must also be recognized.”³³

The Court went on to say, “that under Florida’s provision, a slight change in percentage of the minority group’s population in a given district does not necessarily have a cognizable effect on a minority group’s ability to elect its preferred candidate of choice. This is because a minority group’s ability to elect a candidate of choice depends upon more than just population figures.”³⁴ In order to draw districts that comply with the tier-one standards, a functional analysis is required to be performed.

A “functional analysis,” as it has been termed, is an inquiry into a racial or language minority group’s ability to elect a candidate of choice that requires “consideration not only of the minority population in the districts, or even the minority voting-age population in those districts, but of political data and how a minority population group has voted in the past.”³⁵ The map drawing application in use for the 2022 Redistricting Cycle includes over 350 data points in the following categories to enable users to perform this type of analysis:³⁶

The last tier-one standard requires that all districts “consist of contiguous territory.” The Florida Supreme Court has previously defined contiguous as “being in actual contact: touching along a boundary or at a point.”³⁷ A district is not contiguous if it consists of isolated parts or meets at a corner or right angle.³⁸ The Florida Supreme Court has also held that the presence in a district of a body of water without a connecting bridge, even if it requires land travel outside the district in order to reach other parts of the district, does not violate contiguity.³⁹

Tier–Two Standards

The tier-two standards of the Florida Constitution encompass what are often called “traditional redistricting criteria,” but make it clear these standards are subordinated to the tier-one standards. Article III, s. 20(b) states that unless compliance with these standards conflicts with tier-one standards or with federal law, districts shall be as nearly equal in population as practicable, districts shall be compact, and districts shall, where feasible, utilize existing political and geographical boundaries.⁴⁰ However, the extent to which the non-diminishment standard of Article III Section 21(a) compels map-drawers to create districts that conflict with the tier-two standards in Article III Section (b) has yet to be clearly interpreted by state or federal courts.⁴¹ As with tier-one, the order in which the tier-two standards are set out in the Constitution does not establish any priority among those standards within the tier.⁴²

The first tier-two standard set forth by the Florida Constitution states that districts shall be as nearly equal in population as is practicable. As interpreted by the United States Supreme Court, the Equal Protection Clause of the Fourteenth Amendment mandates that “state legislatures be

apportioned in such a way that each person's vote carries the same weight—that is, each legislator represents the same number of voters.”⁴³ Congressional districts fall under a stricter standard of variance under the United States Constitution, where Congressional districts must achieve precise mathematical equality of population of +/- one person from the ideal population.⁴⁴

The second tier-two requirement established by Section 20 of the Florida Constitution is compactness. The constitutional amendments adopted in Florida in 2010 state that districts “shall be compact.”⁴⁵

The Florida Supreme Court has held that “compactness is a standard that refers to the shape of the district. The goal is to ensure that districts are logically drawn and that bizarrely shaped districts are avoided. Compactness can be evaluated both visually and by employing standard mathematical measurements.”⁴⁶ However, “limiting the definition of compactness to an assessment of a district’s shape does not eliminate the inherent vagueness of the term; however measured, compactness is a matter of degree. And a district’s compactness can be affected by factors over which the line-drawer has no control, like our state’s unique geographical contours and the distribution of population within the state.”⁴⁷

Florida has historically used three scores to gauge compactness mathematically, all of which fall within a range of 0-1, where a score closer to one indicates a more compact district.⁴⁸ The first score used is the Convex Hull score, which tests for concavities or indentations in district boundaries by calculating the ratio of the area of the district to the area of the minimum convex polygon that can enclose the district’s geometry.⁴⁹ The second score used is the Polsby-Popper score, which tests for jagged or squiggly district boundaries by calculating the ratio of the area of the district to the area of a circle whose circumference is equal to the perimeter of the district. The third score used is the Reock score, which indicates a district’s similarity to a circle by calculating the ratio of the area of the district to the area of the smallest circle that can be drawn around the district.⁵⁰

In the Court’s interpretation of the tier-one and tier-two standards as applied to state legislative districts, they held that “since compactness is set forth in Section 21(b), the criteria of Section 21(a) must predominate to the extent that they conflict with drawing a district that is compact. However, if a district can be drawn more compactly while utilizing political and geographical boundaries and without intentionally favoring a political party or incumbent, compactness must be a yardstick by which to evaluate those other factors.”⁵¹ The same standard applies to

Congressional districts, given that Sections 20 and 21 within Article III of the Florida Constitution are identical.⁵²

The final tier-two standard established by the Florida Constitution is that districts shall, “where feasible, utilize existing political and geographical boundaries.”⁵³ The Florida Supreme court has defined geographic boundaries as features that are “easily ascertainable and commonly understood” such as “rivers, railways, interstates, and state roads.”⁵⁴ Moreover, political boundaries primarily consist of county and municipal boundaries.⁵⁵

The boundaries of Florida’s municipalities are not static. Between January 1, 2010 and December 31, 2019, 200 cities annexed or de-annexed parcels, changing their boundaries 3,552 times.⁵⁶ Additionally, while Florida Statutes⁵⁷ permit municipalities to annex contiguous and compact unincorporated territory, many of Florida’s cities are not contiguous, neither visually nor mathematically compact, and contain holes or enclaves.⁵⁸ Of Florida’s 412 cities, 136 are discontinuous, and 170 have holes or enclaves.⁵⁹

Unlike other objective tier-two standards in the Florida Constitution, there is no widely accepted measurement for compliance with the requirement to, where feasible, utilize existing political and geographic boundaries.⁶⁰

Simply counting the cities or counties kept whole, meaning they have either all geographic territory or all population in a single district⁶¹, fails to account for the degree of usage of existing county or municipal boundaries. It also disregards the co-equal constitutional mandate to, where feasible, use political and geographical boundaries.⁶²

Professional staff of the Florida House of Representatives and the Florida Senate worked to develop a set of quantitative metrics that measure the coincidence of a district’s border with easily ascertainable and commonly understood political and geographic features, and make it publicly available to all users in the redistricting application. This Boundary Analysis independently measures the extent to which district boundaries overlap city boundaries, county boundaries, primary and secondary roads (interstates, U.S. highways, and State highways), railroads, and significant water bodies (contiguous area hydrography features greater than 10

To facilitate the utilization of existing political and geographic boundaries, each of the feature layers used in the computation of the Boundary Analysis is provided in the map-drawing application.

Judicial Review of State Legislative Districts

The state constitution prescribes a mandated review process for state legislative redistricting plans by the Florida Supreme Court.⁶³ During a constitutionally mandated review, the Florida Supreme Court determines if the newly created State Senate and State House districts are valid. When the Florida Supreme Court enters a judgment that the plan is valid, the plan becomes binding upon all citizens of the state.⁶⁴

In contrast, the process for enacting Congressional districts differs in two ways. The districts are not established in a joint resolution, but in a general bill that is subject to a Governor's veto. Additionally, the maps do not require mandatory review by the Florida Supreme Court.

Passage of CS/SB 102 (2022)

On February 1, 2022, Governor DeSantis requested an advisory opinion from the Florida Supreme Court inquiring as to whether Article III, Section 20(a) of the Florida constitution "requires the retention of a district in northern Florida that connects the minority population in Jacksonville with distant and distinct minority populations (either in Leon and Gadsden Counties or outside of Orlando) to ensure sufficient voting strength, even if not a majority, to elect a candidate of their choice."⁶⁵ The Florida Supreme Court declined to provide an opinion in response to the Governor's request, noting that "the scope of the Governor's request is broad and contains multiple questions that implicate complex federal and state constitutional matters and precedents interpreting the Voting Rights Act of 1965...Moreover, the Governor's request might necessitate fact-intensive analysis and consideration of other congressional districts, not just District 5. We have no record before us setting forth a functional analysis of statistical evidence, such as the voting age of minority populations and election results."⁶⁶

On March 4, 2022, the House amended and passed CS/SB 102 to include both a primary and secondary map. The primary map in the House product (H000C8019) sought to address concerns expressed by the Governor's office about the Duval-to-Gadsden configuration of CD 5 by creating a more compact North Florida district located in Duval County alone. The House amendment also contained a secondary map (H000C8015), which would have taken immediate effect if a court determined that the primary map's configuration of CD 5 was found to be invalid

under state or federal law. The secondary map maintained a configuration of CD 5 similar to that in the benchmark map. The Senate concurred with the House amendment and passed CS/SB 102 the same day.

On March 29, 2022, the Governor vetoed CS/SB 102 and issued a proclamation calling the Florida Legislature into Special Session C to consider legislation relating to the establishment of congressional districts. The veto message filed with the Secretary of State included a memorandum containing the rationale for the veto: “Congressional District 5 in both the primary and secondary maps enacted by the Legislature violates the Equal Protection Clause of the Fourteenth Amendment to the U.S. Constitution because it assigns voters primarily on the basis of race but is not narrowly tailored to achieve a compelling state interest.”⁶⁷

III. Effect of Proposed Changes:

Consistent with the United States (U.S.) Constitution, Federal Voting Rights Act, Florida Constitution, and applicable court decisions, the bill apportions the state into 28 single-member Congressional districts.

Section 1 of the bill amends s. 8.0001, F.S., to provide definitions regarding Census geography and the electronic versions of districts. Additionally, it designates the United States Decennial Census of 2020 as the official census of the state for the purposes of Congressional redistricting as provided by Art. X of the Florida Constitution.

Section 2 of the bill amends s. 8.0002, F.S., to describe the state's 28 Congressional districts using Census geography.

Section 3 of the bill amends s. 8.0111, F.S., to update the use of the 2010 Decennial Census to the 2020 Decennial Census.

Section 4 of the bill reenacts s. 8.031, F.S., to establish the districts described in 8.0002 as the official congressional districts of the state.

Section 5 of the bill creates s. 8.051, F.S., to designate electronic maps as the authoritative representation of the state's Congressional districts. Additionally, it establishes the Office of Economic and Demographic Research as the official custodian of electronic maps representing the Congressional districts described in s. 8.0002, F.S.

Section 6 of the bill reenacts s. 8.0611, F.S., to provide severability if any provision of this chapter is invalidated.

Section 7 of the bill amends s. 8.07, F.S., to change the applicable starting date for the qualification, nomination, and election of the new districts from 2012 to 2022.

⁶⁷ See Veto Transmittal Letter and Memo “*RE: Constitutionality of CS/SB 102, An Act Relating to Establishing the Congressional Districts of the State.*”

Section 8 of the bill repeals s. 8.08, 8.081, 8.082, 8.083, 8.084, 8.085, 8.086, 8.087, and 8.088, F.S., to remove obsolete language from a remedial apportionment session.

Section 9 of the bill provides an effective date upon the bill becoming law.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The 2022 reapportionment will have an undetermined fiscal impact on Florida's election officials, including 67 Supervisor of Elections offices and the Department of State, Division of Elections. Local supervisors will incur the cost of data processing and labor to change each of Florida's approximately 14 million voter records to reflect new districts. As precincts are reconfigured for new districts, postage and printing will be required to provide each eligible voter whose precinct has changed with official notification.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 8.0001, 8.0002, and 8.0111.

This bill creates the following sections of the Florida Statutes: 8.051.

This bill repeals the following sections of the Florida Statutes: 8.08, 8.081, 8.082, 8.083, 8.084, 8.085, 8.086, 8.087, and 8.088.

Senate Amendment (with title amendment)

Between lines 3568 and 3569
insert:

Section 7. Effective upon becoming a law, section 8.062,
Florida Statutes, is created to read:

8.062 Limitation on choice of venue for actions challenging
congressional districts.—Notwithstanding any other provision of
law, state court actions challenging the state's congressional
districts shall be brought only in Leon County.

644248

Section 8. Effective upon becoming a law, section 8.063, Florida Statutes, is created to read:

8.063 Limitations on actions challenging congressional districts.—

(1) Actions challenging the state's congressional districts on state constitutional or state law grounds shall be brought exclusively in state court.

(2) A state court action challenging the state's congressional districts may raise any state constitutional or state law claims, and any federal constitutional or federal law claims, regarding the state's congressional districts that are within the jurisdiction of the circuit court.

(3) Nothing within this section shall be construed to preclude federal courts from deciding actions challenging the state's congressional districts on federal constitutional or federal law grounds.

Section 1. Section 8.0001, Florida Statutes, is amended to read:

(Substantial rewording of section. See s. 8.0001, F.S., for present text.)

8.0001 Definitions.—In accordance with s. 8(a), Art. X of the State Constitution, the United States Decennial Census of 2020 is the official census of the state for the purposes of congressional redistricting.

(1) The following delineation of congressional districts employs areas included within official county, tract, block groups, and block boundary descriptions used by the United States Department of Commerce, Bureau of the Census, in compiling the United States Decennial Census of 2020 in this state. The populations within these census geographic units are the population figures reported in the counts of the United States Decennial Census of 2020 provided to the state in accordance with Pub. L. No. 94-171.

(2) As used in this chapter, the term:

(a) "Block" describes the smallest geographic unit for which population was tabulated in the 2020 decennial census. Blocks are nested within tracts and within block groups. A block is identified by a three-character number that is unique within a block group.

(b) "Block equivalency file" describes a list of all blocks within the state and the congressional district number designated for each block. Blocks are listed by a 15-character number that combines the five-character county-level Federal Information Processing (FIPS) code, the six-character tract

number with leading zeros and an implied decimal, the single-character block group number, and the three-character block number.

(c) "Block group" describes a cluster of blocks within the same census tract. Block groups are nested within tracts, and are uniquely identified by a single character number with a valid range of 0 through 9.

(d) "County" describes a legal governmental subdivision of the state. Boundaries of counties described in this chapter reflect those boundaries in effect as of January 1, 2020.

(e) "Geographical information systems map" describes an electronic map that represents the boundaries of the congressional districts of the state in a commonly accepted and readable format.

(f) "Tract" describes a relatively permanent statistical subdivision of a county. Tracts are nested within counties, and are uniquely identified by an up to four-character number and a two-digit suffix.

Section 2. Section 8.0002, Florida Statutes, is amended to read:

(Substantial rewording of section. See s. 8.0002, F.S., for present text.)

8.0002 Division of state into congressional districts.—For the election of representatives to the United States House of Representatives, the state is divided into 28 consecutively numbered, single-member congressional districts of contiguous territory, to be designated by such numbers as follows:

(1) District 1 is composed of:

(a) All of Escambia County.

 - ❑ Maintained the Legislature's Panhandle districts.
 - ❑ Maintained the Legislature's Southeast districts.
 - ❑ Addressed federal constitutional concerns by using the EOG's Northeast districts (w/ minor improvements).
 - ❑ Tier 2 improvements through a compromise (hybrid of the Legislature's and EOG's plans) for Gulf Coast counties, stretching from Citrus to Lee counties and impacting some inland counties.
 - ❑ Tier 2 improvements by returning to concepts from the House Congressional Redistricting Subcommittee's Central Florida in Plan 8011, with inclusion of one concept from the Senate's Plan 8060.
 - ❑ Tier 2 improvements to boundaries by eliminating EOG's adherence to Census Designated Places and adopting the Legislature's Tier 2 focus on use of roadways and waterways.

OFFICE OF THE SECRETARY OF STATE
TALLAHASSEE, FL

Dear Secretary Lee:

By the authority vested in me as Governor of the State of Florida, under the provisions of Article III, Section 8 of the Constitution of Florida, I do hereby veto and transmit my objection to **CS/SB 102**, enacted during the 124th Session of the Legislature of Florida, during Regular Session 2022 and entitled:

An act relating to establishing the congressional districts of the state

As presented in both the primary and secondary maps enacted by the Legislature, Congressional District 5 violates the Equal Protection Clause of the Fourteenth Amendment to the U.S. Constitution for the reasons set forth in the attached memorandum. Although I understand the Legislature's desire to comply with the Florida Constitution, the Legislature is not absolved of its duty to comply with the U.S. Constitution. Where the U.S. and Florida Constitutions conflict, the U.S. Constitution must prevail.

Accordingly, I withhold my approval of **CS/SB 102** and do hereby veto the same.

Sincerely,

A large, stylized blue ink signature of Ron DeSantis.

Re: Constitutionality of CS/SB 102, An Act Relating to Establishing the Congressional Districts of the State

Congressional District 5 in both the primary and secondary maps enacted by the Legislature violates the Equal Protection Clause of the Fourteenth Amendment to the U.S. Constitution because it assigns voters primarily on the basis of race but is not narrowly tailored to achieve a compelling state interest.

"Just as the State may not, absent extraordinary justification, segregate citizens on the basis of race in its public parks, buses, golf courses, beaches, and schools," the U.S. Supreme Court has made clear that the State also "may not separate its citizens into different voting districts on the basis of race." *Miller v. Johnson*, 515 U.S. 900, 911 (1995) (internal citations omitted). "When the State assigns voters on the basis of race," the Court explained, "it engages in the offensive and demeaning assumption that voters of a particular race, because of their race, 'think alike, share the same political interests, and will prefer the same candidates at the polls.'" *Id.* at 911-12 (quoting *Shaw v. Reno*, 509 U.S. 630, 647 (1993)).

For these reasons, the Court has interpreted the Equal Protection Clause of the Fourteenth Amendment to the U.S. Constitution to prohibit state legislatures from using race as the "predominant factor motivating [their] decision to place a significant number of voters within or without a particular district," *id.* at 916, unless they can prove that their "race-based sorting of voters serves a 'compelling interest' and is 'narrowly tailored' to that end," *Cooper v. Harris*, 137 S. Ct. 1455, 1464 (2017) (citation omitted). That race was the predominant factor motivating a legislature's line-drawing decision can be shown "either through circumstantial evidence of a district's shape and demographics or more direct evidence going to legislative purpose." *Miller*, 515 U.S. at 916.

Although non-adherence to traditional districting principles, which results in a non-compact, unusually shaped district, is relevant evidence that race was the predominant motivation of a legislature, such evidence is not required to establish a constitutional violation. “Race may predominate even when a reapportionment plan respects traditional principles, . . . if ‘[r]ace was the criterion that, in the State’s view, . . . could not be compromised,’ and race-neutral considerations ‘came into play only after the race-based decision had been made.’” *Bethune-Hill v. Va. State Bd. of Elections*, 137 S. Ct. 788, 798 (2017) (quoting *Shaw v. Hunt*, 517 U.S. 899, 907 (1996) (alteration in original)). “The racial predominance inquiry concerns the actual considerations that provided the essential basis for the lines drawn, not *post hoc* justifications the legislature in theory could have used but in reality did not.” *Id.* at 799. A legislature “could construct a plethora of potential maps that look consistent with traditional, race-neutral principles,” but “if race for its own sake is the overriding reason for choosing one map over others, race still may predominate.” *Id.* It is the “racial purpose of state action, not its stark manifestation,” that offends the Equal Protection Clause. *Miller*, 515 U.S. at 913.

In light of these well-established constitutional principles, the congressional redistricting bill enacted by the Legislature violates the U.S. Constitution. The bill contains a primary map and secondary map that include a racially gerrymandered district – Congressional District 5 – that is not narrowly tailored to achieve a compelling state interest. *See generally* Fla. H.R. Comm. on Redist., recording of proceedings, at 0:00-2:55:19 (Feb. 25, 2022), <https://thefloridachannel.org/videos/2-25-22-house-redistricting-committee/> (committee presentation and discussion of the maps later passed by the Legislature).

In the secondary map, which was the original map reported out of the House Congressional Redistricting Subcommittee, District 5 is a sprawling district that stretches approximately 200 miles from East to West and cuts across eight counties to connect a minority population in Jacksonville with a separate and distinct minority population in Leon and Gadsden Counties. The district is not compact, does not conform to usual political or geographic boundaries, and is bizarrely shaped to include minority populations in western Leon County and Gadsden County while excluding non-minority populations in eastern Leon County. Because this version of District 5 plainly subordinates traditional districting criteria to avoid diminishment of minority voting age population, there is no question that race was “the predominant factor motivating the legislature’s decision” to draw this district. *Miller*, 515 U.S. at 916.

District 5 in the Secondary Map (Purple)

In response to federal constitutional concerns about the unusual shape of District 5 as it was originally drawn, and which is now reflected in the secondary map, the House Redistricting Committee drew a new version of District 5, which is reflected in the primary map. This configuration of the district is more compact but has caused the adjacent district—District 4—to take on a bizarre doughnut shape that almost completely surrounds District 5. The reason for this unusual configuration is the Legislature’s desire to maximize the black voting age population in District 5. The Chair of the House Redistricting Committee confirmed this motivation when he explained that the new District 5 was drawn to “protect[] a black minority seat in north Florida.” Fla. H.R. Comm. on Redist., recording of proceedings, at 19:15-19:26 (Feb. 25, 2022).

District 5 in the Primary Map (Purple)

Despite the Legislature’s attempt to address the federal constitutional concerns by drawing a more compact district, the constitutional defect nevertheless persists. Where “race was the criterion that, in the State’s view, could not be compromised, and race-neutral considerations came into play only after the race-based decision had been made,” it follows that race was the predominant factor, even though the district

otherwise respects traditional districting principles. *Bethune-Hill*, 137 S. Ct. at 798 (cleaned up).

Such was the case here. Even for the more compact district, the Legislature believed (albeit incorrectly) that the Florida Constitution required it to ensure “a black minority seat in north Florida.” Fla. H.R. Comm. on Redist., recording of proceedings, at 19:15-19:26 (Feb. 25, 2022). Specifically, according to the House Redistricting Chair, the primary map’s version of District 5 is the House’s “attempt at continuing to protect the minority group’s ability to elect a candidate of their choice.” *Id.* at 19:45-19:54. The Legislature thus used “an express racial target” for District 5 of a black voting age population sufficiently large to elect a candidate of its choice. *Bethune-Hill*, 137 S. Ct. at 800.

Because racial considerations predominated even in drawing the new District 5, the Legislature must satisfy strict scrutiny, the U.S. Supreme Court’s “most rigorous and exacting standard of constitutional review.” *Miller*, 515 U.S. at 920. And to satisfy strict scrutiny, the Legislature “must demonstrate that its districting legislation is narrowly tailored to achieve a compelling interest.” *Id.* That, the Legislature cannot do.

There is no good reason to believe that District 5 needed to be drawn as a minority-performing district to comply with Section 2 of the Voting Rights Act (VRA), because the relevant minority group is not sufficiently large to constitute a majority in a geographically compact area. In the primary map, the black voting age population of District 5 is 35.32%, and even in the secondary map, with the racially gerrymandered, non-compact version of District 5, the black voting age population increases only to 43.48%. Compare Fla. Redist. 2022, H000C8019, <https://bit.ly/3uczOXb> (available at floridaredistricting.gov/pages/submitted-plans) (last visited Mar. 28, 2022), with Fla. Redist. 2022, H000C8015, <https://bit.ly/36hFRBB> (available at floridaredistricting.gov/pages/submitted-plans) (last visited Mar. 28, 2022). “When a minority group is not sufficiently large to make up a majority in a reasonably shaped district, § 2 simply does not apply.” *Cooper*, 137 S. Ct. at 1472 (citing *Bartlett v. Strickland*, 556 U.S. 1, 18-20 (2009) (plurality opinion)); see also *Thornburg v. Gingles*, 478 U.S. 30, 50 (1986) (explaining that one of the threshold conditions for proving vote dilution under Section 2 is that the minority group is “sufficiently large and geographically compact to constitute a majority”).

Nor is there good reason to believe that District 5 is required to be drawn to comply with Section 5 of the VRA. Section 5 is no longer operative now that the U.S. Supreme Court invalidated the VRA’s formula for determining which jurisdictions are subject to Section 5. See *Shelby Cnty. v. Holder*, 570 U.S. 529, 553-57 (2013); see also *Ala. Legis. Black Caucus v. Alabama*, 575 U.S. 254, 279 (2015) (suggesting that continued compliance with Section 5 may not remain a compelling interest in light of *Shelby County*). In any event, even before the coverage formula was invalidated, the State of

Florida was not a covered jurisdiction subject to Section 5. *See In re Senate Joint Resolution of Legislative Apportionment 1176 (Apportionment I)*, 83 So. 3d 597, 624 (Fla. 2012). Only five counties in Florida were covered – Collier, Hardee, Hendry, Hillsborough, and Monroe – and none of them are in northern Florida where District 5 is located. *See id.*

The only justification left for drawing a race-based district is compliance with Article III, Section 20(a) of the Florida Constitution. But District 5 does not comply with this provision. Article III, Section 20(a) provides that “districts shall not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process or to diminish their ability to elect representatives of their choice.” The Florida Supreme Court has noted that these “dual constitutional imperatives follow almost verbatim the requirements embodied in the Federal Voting Rights Act.” *Id.* at 619 (cleaned up). The first imperative, which prohibits districts that deny or abridge the equal opportunity of minority groups to participate in the political process, is modeled after Section 2 of the VRA, and the second imperative, which prohibits districts that diminish the ability of minority groups to elect representatives of their choice, is modeled after Section 5. *Id.* at 619-20.

Like the VRA, these provisions of the Florida Constitution “aim[] at safeguarding the voting strength of minority groups against both impermissible dilution and retrogression.” *Id.* at 620. Although judicial interpretation of the VRA is relevant to understanding the Florida Constitution’s non-dilution and non-diminishment provisions, the Florida Supreme Court nonetheless recognizes its “independent constitutional obligation” to interpret these provisions. *Id.* at 621.

Relevant here is the Florida Constitution’s non-diminishment requirement. Unlike Section 5 of the VRA, this requirement “applies to the entire state.” *Id.* at 620. Under this standard, the Legislature “cannot eliminate majority-minority districts or weaken other historically performing minority districts where doing so would actually diminish a minority group’s ability to elect its preferred candidates.” *Id.* at 625. The existing districts “serve[] as the ‘benchmark’ against which the ‘effect’ of voting changes is measured.” *Id.* at 624 (cleaned up). Where a voting change leaves a minority group “less able to elect a preferred candidate of choice” than the benchmark, that change violates the non-diminishment standard. *Id.* at 625 (internal quotation marks omitted); *see also id.* at 702 (Canady, C.J., concurring in part and dissenting in part) (noting that the dictionary definition of “diminish” means “to make less or cause to appear less” (citation omitted)).

The Florida Supreme Court has acknowledged that “a slight change in percentage of the minority group’s population in a given district does not necessarily have a cognizable effect on a minority group’s ability to elect its preferred candidate of choice.” *Id.* at 625. The minority population percentage in each district need not be

“fixed” in perpetuity. *Id.* at 627. But where the reduction in minority population in a given district is more than “slight,” such that the ability of the minority population to elect a candidate of choice has been reduced (even if not eliminated), the Legislature has violated the Florida Constitution’s non-diminishment requirement as interpreted by the Florida Supreme Court.

Given these principles, there is no good reason to believe that District 5, as presented in the primary map, complies with the Florida Constitution’s non-diminishment requirement. The benchmark district contains a black voting age population of 46.20%, whereas the black voting age population of District 5 in the primary map is only 35.32%.¹ Compare Fla. Redist. 2022, FLCD2016, <https://bit.ly/3lv6FeW> (available at floridaredistricting.gov/pages/submitted-plans) (last visited Mar. 28, 2022), with Fla. Redist. 2022, H000C8019, <https://bit.ly/3uczOXb> (available at floridaredistricting.gov/pages/submitted-plans) (last visited Mar. 28, 2022). This nearly eleven percentage point drop is more than slight, and while the House Redistricting Chair represented that the black population of the district could still elect a candidate of choice, *see* Fla. H.R. Comm. on Redist., recording of proceedings, at 59:44-1:00:17 (Feb. 25, 2022), there appears to be little dispute that the ability of the black population to elect such a candidate had nevertheless been reduced, *see id.* at 1:00:18-1:00:58 (noting that the benchmark district performed for the minority candidate of choice in 14 of 14 previous elections and that the new district would not perform for the minority candidate of choice in one-third of the same elections).

Moreover, the House Redistricting Chair claimed that the only criterion that mattered was whether the new district still performed at all. *See id.* at 1:06:09-1:06:30 (“It is not a diminishment unless the district does not perform.”); *see also id.* at 1:05:05-1:05:13 (“Is it less likely to perform? Honestly, I don’t know.”). But that view is plainly inconsistent with the Florida Supreme Court precedent described above, which prohibits any voting change that leaves a minority group “less able to elect a preferred candidate of choice.” *Apportionment I*, 83 So. 3d at 625 (internal quotation marks omitted). In sum, because the reduction of black voting age population is more than slight and because such reduction appears to have diminished the ability of black voters to elect a candidate of their choice, District 5 does not comply with the non-diminishment requirement of Article III, Section 20(a) of the Florida Constitution. Therefore, compliance with the Florida Constitution cannot supply the compelling reason to justify the Legislature’s use of race in drawing District 5 in the primary map.

¹ The benchmark district itself is a sprawling, non-compact racial gerrymander that connects minority communities from two distinct regions of the State; however, for purposes of this point, I assume that the district can be used as a valid benchmark against which to judge the new maps.

In the secondary map, by contrast, District 5 complies with the Florida Constitution's non-diminishment requirement, but in doing so, it violates the Equal Protection Clause of the Fourteenth Amendment to the U.S. Constitution. The U.S. Supreme Court has warned that a "reapportionment plan that includes in one district individuals who belong to the same race, but who are otherwise widely separated by geographical and political boundaries, and who may have little in common with one another but the color of their skin, bears an uncomfortable resemblance to political apartheid." *Shaw*, 509 U.S. at 647. As described earlier, District 5 in the secondary map does precisely this.

That the district is believed to be necessary to comply with the Florida Constitution's non-diminishment requirement does not alone suffice to justify the use of race in drawing bizarre, non-compact district boundaries for the sole purpose of cobbling together disparate minority populations from across northern Florida to form a minority-performing district. Mere compliance with a state constitutional requirement to engage in race-based districting is not, without more, a compelling interest sufficient to satisfy strict scrutiny. The Fourteenth and Fifteenth Amendments to the U.S. Constitution and the VRA, which enforces the Fifteenth Amendment, exist to *prevent* states from engaging in racially discriminatory electoral practices. Indeed, one such weapon that states long used, and that the VRA was designed to combat, "was the racial gerrymander—the deliberate and arbitrary distortion of district boundaries for racial purposes." *Id.* at 640 (cleaned up).

Here, the Florida Constitution's non-diminishment standard would be satisfied only by a sprawling, non-compact district that spans 200 miles and repeatedly violates traditional political boundaries to join minority communities from disparate geographic areas. Such a district is not narrowly tailored to achieve the compelling interest of protecting the voting rights of a minority community in a reasonably cohesive geographic area. As applied to District 5 in the secondary map, therefore, the Florida Constitution's non-diminishment standard cannot survive strict scrutiny and clearly violates the U.S. Constitution.

For the foregoing reasons, Congressional District 5 in both maps is unlawful.

Honorable Ray Rodrigues
Chairman, Committee on Reapportionment
Florida Senate
400 South Monroe Street
Tallahassee, Florida 32399

Dear Chairman Rodrigues:

Today, the Executive Office of the Governor submitted a new proposed reapportionment plan for Florida's congressional districts. This compromise plan is the product of collaboration and consultation with the House and Senate leadership and draws from the maps that were recently passed by the Legislature (SB 102), as well as maps previously proposed by the Executive Office of the Governor (Plans P000C0079 and P000C0094) and the map referred out of the House Congressional Redistricting Subcommittee (Plan H000C8011).

For the reasons set forth in the memorandum accompanying the Governor's veto message, the proposal eliminates the racially gerrymandered versions of Congressional District 5, which were included in both the primary (Plan H000C8019) and secondary (Plan H000C8015) maps passed by the Legislature, and instead creates two new districts in the Jacksonville region consistent with the maps proposed by the Executive Office of the Governor (Plans P000C0079 and P000C0094). The proposal retains the exact configuration of congressional districts in the Florida panhandle (Districts 1-2) and the southeast region of the state (Districts 20-25 and 27-28) as reflected in the Legislature's enacted maps (SB 102). But the proposal adjusts the congressional districts in and around the Tampa region to align more closely with the maps proposed by the Executive Office of the Governor (Plans P000C0079 and P000C0094). And in the Orlando region, the proposal aligns more closely with the map referred out of the House Congressional Redistricting Subcommittee (Plan H000C8011).

Because of these adjustments, the new proposed apportionment plan eliminates the federal constitutional infirmities identified by the Governor and improves on several metrics relative to the maps passed by the Legislature. With respect to compactness, the mean compactness score of the new plan is equivalent to that of the enacted maps, but the new plan improves the compactness score of the least compact district, reduces the number of county splits from 18 to 17, and lessens the reliance on non-geographic and non-political boundaries from 12.50% to 11.50%. With respect to traditional districting metrics, the proposed plan is a significant improvement on the benchmark map. Please see the attached charts for a comparison of the various plans.

law. We look forward to working with you to enact this compromise apportionment plan into

Sincerely,

Ryan Newman

MEMORANDUM

TO: Senator Ray Rodrigues
Chair, Committee on Reapportionment
FROM: Daniel E. Nordby
DATE: April 14, 2022
RE: Initial Review of Proposed Congressional Map

At your request, I have conducted an initial review of the proposed congressional map submitted for the Legislature's consideration by J. Alex Kelly on behalf of the Office of the Governor on April 13, 2022 (P000C0109). Based upon that review, I note that the new proposed congressional map differs substantially from the two previous congressional maps submitted by the Governor's Office (P000C0079 and P000C0094). The changes reflected in the new proposal more closely align its configuration with the Legislature's prior work product throughout many regions of the state.

Specifically, the congressional districts in Southeast Florida in the new proposal now appear to be generally consistent with the configuration initially passed by the Florida Senate in January and with the configuration ultimately passed by the Legislature in CS/SB 102. The congressional districts surrounding Orlando in Central Florida are now generally aligned consistent with the approach taken by the Florida House of Representatives in its Congressional Redistricting Subcommittee. The Gulf Coast congressional districts in the new proposal (from Citrus to Charlotte Counties) have been re-aligned from any prior iteration in a manner that appears to focus on the increasing the number of counties kept

whole, region-wide improvements in visual compactness, and improved use of political and geographical boundaries as compared to CS/SB 102 and the Governor’s prior submissions. The Western Panhandle districts in the new proposal are identical to the configuration passed in CS/SB 102.

The Northeast Florida congressional districts in the Governor’s proposal are divided by the St. Johns River. Consistent with the Governor’s veto message, these districts have been drawn on the basis of a different legal premise than the Legislature’s prior maps regarding an unresolved issue of law: whether the Florida Constitution’s non-diminishment standard can be constitutionally applied, consistent with the Fourteenth Amendment, under the unique geographic and demographic circumstances present in Florida’s current court-imposed Congressional District 5. The Governor presented this question in a request for an advisory opinion from the Florida Supreme Court, but neither that Court—nor any other court—has rendered an opinion on this specific legal issue. Intervening judicial precedent from the United States Supreme Court following the 2022 Regular Session has, however, emphasized the narrow circumstances under which the Fourteenth Amendment permits the “race-based sorting of voters.” *See, e.g., Wisconsin Legislature, et al. v. Wisconsin Elections Comm’n, et al.*, 142 S.Ct. 1245 (2022) (applying strict scrutiny and invalidating Wisconsin State Assembly and Senate maps as inconsistent with the Equal Protection Clause).

The Governor's veto letter provides citation to valid legal precedents in support of his arguments regarding the constitutional standards that should govern the drawing of congressional districts in Northeast Florida. In the absence of controlling judicial precedent contrary to the Governor's position on the precise question presented, the alternative approach to these districts reflected in proposed congressional map P000C0109 is worthy of careful consideration by the Florida Senate as it evaluates congressional redistricting legislation in the upcoming Special Session.
