The law enforcement officer serving a risk protection order, including a temporary ex parte risk protection order, must request that the respondent immediately surrender all firearms and ammunition in his or her custody, control, or possession and any license to carry a concealed weapon or firearm. The law enforcement officer must take possession of all firearms and ammunition belonging to the respondent that are surrendered.

Alternatively, if personal service by a law enforcement officer is not possible or is not required because the respondent was present at the risk protection order hearing, the respondent must surrender the firearms and ammunition in a safe manner to the control of the local law enforcement agency immediately after being served with the order by service or immediately after the hearing at which the respondent was present.

Notwithstanding ss. 933.02 and 933.018, F.S., a law enforcement officer may seek a search warrant from a court to conduct a search for firearms or ammunition if the officer has probable cause to believe that there are firearms or ammunition in the respondent's custody, control, or possession that have not been surrendered.

At the time of surrender, a law enforcement officer taking possession of a firearm, any ammunition, or a license to carry a concealed weapon or firearm must issue a receipt identifying all firearms and the quantity and type of ammunition that have been surrendered and must provide a copy of the receipt to the respondent. Within 72 hours after service of the order, the law enforcement officer serving the order shall file the original receipt with the court and ensure that his or her law enforcement agency retains a copy of the receipt. All law enforcement agencies must develop policies and procedures by January 1, 2019, regarding the acceptance, storage, and return of firearms or ammunition required to be surrendered.

Upon the sworn statement or testimony of any person alleging that the respondent has failed to comply with the surrender of firearms or ammunition as required by a risk protection order or temporary ex parte risk protection order, the court must determine whether probable cause exists to believe that the respondent has failed to surrender all firearms or ammunition in his or her custody, control, or possession. If the court finds that probable cause exists, the court must issue a warrant authorizing a search of the locations where the firearms or ammunition are reasonably believed to be found and the seizure of any firearms or ammunition discovered pursuant to such search.

The respondent may submit one written request for a hearing to vacate a risk protection order starting after the date of the issuance of the order, and may request another hearing after every extension of the order, if any. The respondent shall have the burden of proving by clear and convincing evidence that the he or she does not pose a significant danger of causing personal injury to himself or herself or others by having in his or her custody or control, purchasing, possessing, or receiving a firearm or ammunition. If the court finds after the hearing that the respondent has met his or her burden of proof, the court must vacate the order.

The petitioner may request, by motion, an extension of a risk protection order at any time within 30 calendar days before the end of the order. If the court finds by clear and convincing evidence that the requirements for issuance of a risk protection order continue to be met, the court must extend the order. However, if, after notice, the motion for extension is uncontested and no modification of the order is sought, the order may be extended. The court may extend a risk protection order for a period that it deems appropriate, up to and including but not exceeding 12 months, subject to an order to vacate or to another extension order by the court.

If a risk protection order is vacated or ends without extension, a law enforcement agency holding a firearm or any ammunition that has been surrendered or seized must return such surrendered firearm or ammunition requested by a respondent only after confirming through a background check that the respondent is currently eligible to own or possess firearms and ammunition under federal and state law and after confirming with the court that the risk protection order has been vacated or has ended without extension.

If a risk protection order is vacated or ends without extension, the Department of Agriculture and Consumer Services, if it has suspended a license to carry a concealed weapon or firearm pursuant to this section, must reinstate such license only after confirming that the respondent is currently eligible to have a license to carry a concealed weapon or firearm pursuant to s. 790.06, F.S.

A law enforcement agency must provide notice to any family or household members of the respondent before the return of any surrendered firearm and ammunition.

A respondent may elect to transfer all firearms and ammunition that have been surrendered to or seized by a local law enforcement agency to another person who is willing to receive the respondent's firearms and ammunition. The law enforcement agency may allow such a transfer only if it is determined that the chosen recipient:

- Currently is eligible to own or possess a firearm and ammunition under federal and state law after confirmation through a background check;
- Attests to storing the firearms and ammunition in a manner such that the respondent does not have access to or control of the firearms and ammunition until the risk protection order against the respondent is vacated or ends without extension; and
- Attests not to transfer the firearms or ammunition back to the respondent until the risk protection order against the respondent is vacated or ends without extension.

Within 24 hours after issuance, the clerk of the court shall enter any risk protection order or temporary ex parte risk protection order issued under this section into the uniform case reporting system.

Also within 24 hours after issuance, the clerk of the court shall forward a copy of an order issued under this section to the appropriate law enforcement agency specified in the order. Upon receipt of the copy of the order, the law enforcement agency shall enter the order into the National Instant Criminal Background Check System, any other federal or state computer-based systems used by law enforcement agencies or others to identify prohibited purchasers of firearms or ammunition, and into any computer-based criminal intelligence information system available in this state used by law enforcement agencies to list outstanding warrants. The order must remain in each system for the period stated in the order, and the law enforcement agency shall only remove orders from the systems that have ended or been vacated. Entry into the Florida Crime Information Center and National Crime Information Center constitutes notice to all law enforcement agencies of the existence of the order. The order is fully enforceable in any county in this state.

The issuing court shall forward, within three business days after issuance of a risk protection order or temporary ex parte risk protection order, all available identifying information concerning the respondent, along with the date of order issuance, to the Department of Agriculture and Consumer Services. Upon receipt of the information, the department shall determine if the respondent has a license to carry a concealed weapon or firearm. If the respondent does have a license to carry a concealed weapon or firearm, the department must immediately suspend the license.

If a risk protection order is vacated before its end date, the clerk of the court shall, on the day of the order to vacate, forward a copy of the order to the Department of Agriculture and Consumer Services and the appropriate law enforcement agency specified in the order to vacate. Upon receipt of the order, the law enforcement agency shall promptly remove the order from any computer-based system in which it was entered.

A person who files a petition knowing the information in such petition is materially false, or files with the intent to harass the respondent, commits a first degree misdemeanor.[115]

A person who has in his or her custody or control a firearm or any ammunition or who purchases, possesses, or receives a firearm or any ammunition with knowledge that he or she is prohibited from doing so by a risk protection order commits a felony of the third degree.

The Office of the State Courts Administrator shall develop and prepare instructions and informational brochures, standard petitions and risk protection order forms, and a court staff handbook on the risk protection order process. The standard petition and order forms must be used after January 1, 2019.

School Safety

Present Situation

Office of Safe Schools

The Office of Safe Schools within the Florida Department of Education (DOE) serves to promote and support safe learning environments by addressing issues of student safety and academic success on state, district, and school levels.[116]

District School Board Responsibilities

A district school board must provide for the proper accounting for all students, for the attendance and control of students at school, and for proper attention to health, safety, and other matters relating to the welfare of students.[117] Among other duties, the district school board is required to:[118]

- Formulate and prescribe policies and procedures for emergency drills and for actual emergencies, including, but not limited to, fires, natural disasters, and bomb threats, for all the public schools of the district that comprise grades K-12. District school board policies must include commonly used alarm system responses for specific types of emergencies and verification by each school that drills have been provided as required by law and fire protection codes. The emergency response agency that is responsible for notifying the school district for each type of emergency must be listed in the district's emergency response policy.
- Establish model emergency management and emergency preparedness procedures, including emergency notification procedures for the following life-threatening emergencies:
  - Weapon-use and hostage situations.
  - Hazardous materials or toxic chemical spills.
  - Weather emergencies, including hurricanes, tornadoes, and severe storms.
  - Exposure as a result of a manmade emergency.

Superintendent Responsibilities

The district superintendent must recommend plans to the district school board for the proper attention to health, safety, and other matters that will best promote the welfare of students.[119]

Florida Safe Schools Assessment Tool

Each district school board is required to use the Safety and Security Best Practices developed by the Office of Program Policy Analysis and Government Accountability to conduct a self-assessment of the school districts' current safety and security practices.[120] Based on these self-assessment findings, the district school superintendent must provide to the district school board recommendations that identify strategies and activities that the district school board should implement in order to improve school safety and security.[121]

Annually each district school board must receive the self-assessment results at a publicly noticed district school board meeting to provide the public an opportunity to hear the district school board members discuss and take action on the report findings.[122] Each district school superintendent must report the self-assessment results and school board action to the commissioner within 30 days after the district school board meeting.[123]

The 2013 General Appropriations Act[124] required the DOE to contract with a security consulting firm that specializes in development of risk assessment software solutions with experience in conducting security assessments of public facilities firm to provide a risk assessment tool for conducting security assessments for use by school officials at each public school site in the state. The tool was intended to help school officials to identify threats, vulnerabilities and appropriate safety controls for the schools that they supervise. The assessment was required to address, at a minimum, the following issues:[125]

- School emergency and crisis preparedness planning;
- Security, crime and violence prevention policies and procedures;
- Physical security measures;
- Professional development training needs;
- An examination of support service roles in school safety, security, and emergency planning;
- School security and school police staffing, operational practices, and related services;
- School-community collaboration on school safety;
- Return on investment analysis of the recommended physical security controls.

The system was also required to generate written automated reports on assessment findings for review by the DOE and school and district officials.[126] A final report on implementation was

Safe Schools Allocation

Safe Schools funds are to be used by school districts to help them comply with the sections of Florida law dedicated to school discipline and school safety (sections 1006.07 through 1006.148, F.S.), with priority given to establishing a school resources officer program pursuant to section 1006.12, F.S.[128]

For the 2017-18 fiscal year, $64,456,019 is appropriated for Safe Schools activities with each school district receiving a guaranteed minimum of $62,660.[129] From the remaining appropriation, two-thirds must be allocated to school districts based on the latest official Florida Crime Index provided by the Florida Department of Law Enforcement and one-third must be allocated based on each district's share of the state's total unweighted student enrollment.[130]

Effect of Proposed Changes

Legislative Intent

The bill provides legislative intent that the provisions of the Florida education code be liberally constructed by the State Board of Education (SBE), the Commissioner of Education, district school boards, district school superintendents, and law enforcement agencies to the end that student discipline and school safety policy objectives may be effective.

Additionally, the bill provides legislative intent that school district and law enforcement personnel be authorized to take necessary actions to ensure the fundamental protection and safety of public school students, personnel, and visitors, notwithstanding any other provision of the Florida education code.

Marjory Stoneman Douglas High School Public Safety Commission

The bill creates the Marjory Stoneman Douglas High School Public Safety Commission (commission) within the Florida Department of Law Enforcement.[131] The bill requires the commission to convene before June 1, 2018.

Membership, Chair, and Staff

The bill specifies that the commission must be composed of fifteen members: five appointed by the President of the Senate, five appointed by the Speaker of the House of Representatives, and five appointed by the Governor. The bill provides that members of the task force are entitled to receive reimbursement for per diem and travel expenses as provided in law.

Responsibilities

The bill specifies that the commission must investigate system failures in the Marjory Stoneman Douglas High School shooting and prior mass violence incidents and develop recommendations for system improvements. The bill provides that, at a minimum, the commission must analyze evidence from the Marjory Stoneman Douglas High School shooting and other mass violence incidents in this state and other states, and:

- Develop a timeline of the incident, incident response, and all relevant events preceding the incident, with particular attention to all perpetrator contacts with local, state and national government agencies and any contract providers of such agencies and entities.
- Investigate any failures in incident responses by local law enforcement agencies and school resource officers. As a part of this investigation, the commission must:
    - Identify existing policies and procedures for active assailant incidents on school premises and evaluate the compliance with such policies and procedures in the execution of incident responses.
    - Evaluate existing policies and procedures for active assailant incidents on school premises in comparison with national best practices.
    - Evaluate the extent to which any failures in policy, procedure, or execution contributed to an inability to prevent deaths and injuries.
    - Make specific recommendations for improving law enforcement and school resource officer incident response in the future.
- Investigate any failures in interactions with perpetrators preceding mass violence incidents. As a part of this investigation, the commission must:
    - Identify the history of interactions between perpetrators and government entities such as schools, law enforcement agencies, courts and social service agencies, and identify any

failures to adequately communicate or coordinate regarding indicators of risk or possible threats.
  - Evaluate the extent to which any such failures contributed to an inability to prevent deaths and injuries.
  - Make specific recommendations for improving communication and coordination among entities with knowledge of indicators of risk or possible threats of mass violence in the future.
  - Identify available state and local tools and resources for enhancing communication and coordination regarding indicators of risk or possible threats, including but not limited to the Florida Department of Law Enforcement Fusion Center or the Judicial Inquiry System, and make specific recommendations for using such tools and resources more effectively in the future.

Powers

The bill provides that:

- The commission has the power to investigate and specifies that the commission may delegate the authority to administer oaths and affirmations to its investigators.
- The commission has standing to petition the court for a subpoena to compel the attendance of witnesses to testify before the commission. Additionally, the bill grants the commission standing to petition the court to compel the production of any books, papers, records, documentary evidence, and other items, including confidential information, relevant to the performance of the duties of the commission or to the exercise of its power. The bill states that the commission must specify in the petition to the court for a subpoena, the relevancy of such information to the performance of the commission's duties or to the exercise of the commission's powers.
- The chair and any other member of the commission may administer all oaths and affirmations in the manner prescribed by law to witnesses who appear before the commission for the purpose of testifying in any matter that concerning which the commission desires evidence. The bill specifies that in the case of a refusal to obey a subpoena issued by the court to any person, the commission may make application to any Florida circuit court which must have jurisdiction to order the witness to appear before the commission and to produce evidence, if so ordered, or to give testimony touching on the matter in question. The bill specifies that the failure to obey such order may be punished by the court as contempt.

Additionally, the bill authorizes the commission to call upon appropriate agencies of state government for such professional assistance as may be needed in the discharge of the commission's duties and requires such agencies to provide such assistance in a timely manner.

The bill provides that, notwithstanding any other law, the commission is authorized to request and to be provided with access to any information or records, including confidential and exempt information or records, that pertain to the Marjory Stoneman Douglas High School shooting and prior mass violence incidents in Florida being reviewed by the commission and that are necessary for the commission to carry out its duties. The bill specifies that information or records obtained by the commission that are otherwise confidential and exempt must retain such confidential and exempt status and prohibits the commission from disclosing any such information or records.

Report

The bill requires the commission to submit an initial report on the commission's findings and recommendations to the Governor, the President of the Senate, and the Speaker of the House of Representatives by January 1, 2019, and authorizes the commission to issue reports annually thereafter. The bill provides that on July 1, 2023, the commission sunsets and the statute authorizing the commission is repealed.

Office of Safe Schools

The bill codifies the Office of Safe Schools (office), within the DOE. The bill provides that the office is fully accountable to the Commissioner of Education but must cooperate and coordinate with the Board of Governors of the State University System, public and nonpublic postsecondary institutions, school districts, public and nonpublic schools, state and local agencies, community organizations, and other organizations and persons, as directed by the commissioner.

Purpose

The bill specifies that the purpose of the office is to serve as the state education agency's primary coordinating division assigned to promote and support safe-learning environments by addressing issues of student safety and academic success at the state, district, and school levels. The bill states that the office must, at a minimum:

- Function as the state's primary contact for the coordination of activities, information, and reporting related to the implementation of the student discipline and school safety requirements in law related to education support for learning and student services, as well as other requirements of law pertaining to school safety partnerships and responsibilities, as assigned by the commissioner.
- Function as the state contact and state education agency coordination office for school district safety specialist and primary emergency operations contact staff assigned by Florida College System institutions, state universities, and other entities identified by the commissioner.
- Coordinate with state and local agencies, school district personnel, and safety and security experts to establish safe school and security standards, review school safety and security plans, establish guidelines regarding school district appointments to and functions of public school threat assessment teams and district school safety specialists, and update risk assessment procedures, as appropriate.
- Develop and implement a training program for district school safety specialties designated or appointed by a district school board. Such training program elements must include, but are not limited to:
    - School safety specialist participation in active shooter situation training;
    - Campus safety tours performed pursuant to s. 1006.07(7), F.S.;
    - Program activities of the Public School Emergency Response Learning System Program; and
    - Training associated with the Florida Safe Schools Assessment Tool.

District School Board Responsibilities

Emergency Drills

The bill requires a school district to formulate and prescribe policies and procedures for emergency drills for hostage and active shooter situations and establish model emergency management and emergency preparedness procedures for active shooter situations. The bill specifies that active shooter situation training must be conducted by the law enforcement agency or agencies that are designated as the first responders to the school's campus.

Security Assessment

The bill also requires each school district to conduct security risk assessments at each public school, conduct a self-assessment of the school districts' current safety and security practices using a format prescribed by the DOE, and develop a plan that includes having a secure, single point of entry onto school grounds, using a format prescribed by the DOE.

Safety in Construction Planning

Additionally, the bill requires a district school board or governing board to allow the law enforcement agency or agencies that are designated as first responders to the school's or districts' campus tour such campuses once every 3 years and to document any recommended changes to school safety and emergency issues by the law enforcement agency based on a campus tour.

District School Safety Specialist

The bill requires a district school board to designate or appoint a district school safety specialist to serve at the direction of the superintendent as the district's primary point of public contact regarding the district's coordination, communication, and implementation of policies, procedures, responsibilities, and reporting related to district and public school safety functions. The bill specifies that the school safety specialist must:

- Coordinate with the Office of Safe Schools.
- Facilitate the collection and dissemination of information among and between the school district, school personnel, students and their families, state and local law enforcement agencies, community health entities, and other state and community partners.
- Maintain records and reports and facilitate the implementation of policies regarding the respective duties and responsibilities of the school districts, superintendents, and principals and reporting regarding student discipline and school safety requirements.
- Oversee and coordinate threat assessment teams and provide a coordinated approach to evaluating and responding to students who pose, or appear to pose, a credible potential threat of violence or harm to themselves or others.
- Perform other responsibilities assigned by the superintendent and requested by the Office of Safe Schools to facilitate and coordinate the effective implementation of student discipline and school safety requirements.

Threat Assessment Team

The bill requires each school district to designate a threat assessment team, in accordance with guidelines established by the Office of Safe Schools, at each school in the district. The threat assessment team must operate under the direction of the district school safety specialist.

Florida Sheriff's Marshal Program

The bill establishes the Florida Sheriff's Marshal Program (Marshal Program) within the DOE's Office of Safe Schools as a voluntary program to assist school districts and public schools in enhancing the safety and security of students, faculty, staff, and visitors to Florida's public schools and campuses.

The bill specifies that the purpose of the Marshal Program is to provide comprehensive firearm safety and proficiency training for selected faculty and staff to provide security on campus during an active assailant incident.[132] Additionally, the bill provides that public school faculty and staff who voluntarily participate in and complete the Marshal Program, as recommended by the school district, are designated as special deputy sheriffs with all rights, responsibilities, and obligations[133] in carrying concealed firearms on campus.

The bill establishes program eligibility and participation requirements, which must, at a minimum, include that:

- A school district may sponsor and recommend to the sheriff public school faculty and staff members as candidates for voluntary participation in the program. The sheriff must establish timelines and requirements for participation through a partnership agreement with the sponsoring school district superintendent. To be eligible for consideration and recommendation for the Marshal Program, a candidate must be licensed to carry a concealed weapon or firearm in accordance with law.[134]
- The sheriff may approve a candidate to participate in the program as a sheriff's marshal after screening, which includes performing criminal background checks, drug testing, and a psychological evaluation.
- Upon successful completion of the program, a sheriff's marshal may be appointed by the sheriff as a special deputy sheriff[135] for the limited purpose of responding to an active assailant incident on a campus[136] of his or her school district during an active assailant incident.

The bill requires that a partnership agreement[137] must provide that a special deputy sheriff:

[132] The bill defines an "active assailant incident" as a situation in which an armed assailant is posing an immediate deadly threat to persons on the premises or campus of a public school.
[133] Qualifications of sheriff deputies and special deputies are established in s. 30.09, F.S.
[134] Section 790.06, F.S.
[135] The bill specifies that a "special deputy sheriff" means a program participant who has successfully completed the program and who is appointed as a law enforcement officer in the same manner as a deputy sheriff as provided in s. 30.072(2), F.S. and certified under ch. 943, F.S.
[136] The bill defines a campus as a school, as defined in s. 1003.01(2), F.S., and facilities and school plants operated and controlled by a public school district in accordance with s. 1003.02, F.S..
[137] The bill specifies that a "Partnership agreement" means a jointly-approved contract between the sheriff operating the program and the superintendent of a participating school district sponsor.

- Must participate in and complete the program's professional training requirements as a precondition to meeting the legal requirements of chapter 30 of the Florida Statutes to be eligible to carry a concealed firearm on a campus of his or her sponsoring school district.
- May not act in any law enforcement capacity outside of an active assailant incident on a school district campus and does not have any authority in a law enforcement capacity off campus in any way, except as otherwise expressly authorized by law.
- May carry concealed, approved firearms on campus. The firearms must be specifically purchased and issued for the sole purpose of the program. Only concealed carry safety holsters and firearms approved by the sheriff may be used under the program.
- Must successfully complete training with the sheriff's office before his or her appointment as a special deputy sheriff, including meeting the requirements of this section.

However, the bill specifies that the appointment of a person as a special deputy sheriff does not entitle the person to the special risk category that applies to law enforcement officers established under law.[138]

The bill requires that all training must be conducted by Criminal Justice Standards Training Commission (CJSTC)-certified instructors, with ongoing and annual proficiency retraining conducted by the sheriff, as specified in the agreement.

The required instruction must include 132 total hours of comprehensive firearm safety and proficiency training in the following topics:
- Firearms: An 80-hour block of instruction based on the CJSTC Law Enforcement Academy training model and be enhanced to include 10 percent to 20 percent more rounds fired by each program participant beyond the minimum average of approximately 1,000 training rounds associated with academy training. Program participants must achieve an 85 percent pass rate on the firearms training.
- Firearms precision pistol: A 16-hour block of instruction.
- Firearms discretionary shooting: A 4-hour block of instruction using state-of-the-art simulator exercises.
- Active shooter or assailant: An 8-hour block of instruction.
- Defensive tactics: A 4-hour block of instruction.
- Legal or high liability: A 20-hour block of instruction.
- An optional 16-hour precision pistol course as additional training.

The bill specifies that the sheriff or the district superintendent may deny or terminate a sheriff's marshal or special deputy sheriff's participation in the program for any reason, including, but not limited to, any of the following circumstances:
- An arrest or filing of criminal charges against a program participant by a law enforcement agency.
- The service of process on the program participant as the respondent of an injunction for protection.
- The involuntarily placement of the program participant in a treatment facility for a mental health examination under The Baker Act.

[138] Special risk membership is established for the purposes of the Florida Retirement System. Section 121.0515, F.S.

- A violation of sheriff office policies, orders, or requirements by the program participant.
- A violation of the school district's code of conduct or employee handbook or policy by the program participant.

To implement the Marshal program, the bill requires that:
- The sheriff must maintain documentation of weapon and equipment inspections, as well as the training, certification, inspection, and qualification records of each program participant.
- Each program participant must be distinctly and visually identifiable to responding law enforcement officers, faculty, staff, and students, in the case of any active assailant incident on a sponsoring school district's campus.
- Each sheriff's marshal must execute a volunteer agreement with the sheriff's office outlining duties and responsibilities.
- A sponsoring school district must conduct awareness training about the program for all school district faculty and staff members.
- Specific implementation requirements, responsibilities, and other aspects of implementation must be specified in a partnership agreement.

The bill specifies that costs of participation in the Marshal program must be established in the partnership agreement. Funding may be provided by the Legislature to support school district and sheriff office administration, sponsorship, participation, and implementation of the marshal program.

Florida Safe Schools Assessment Tool

The bill requires the DOE to contract with a security consulting firm that specializes in the development of risk assessment software solutions and has experience in conducting security assessments of public facilities to develop, update, and implement a risk assessment tool, which will be established as the Florida Safe Schools Assessment Tool (FSSAT). The FSSAT must help school officials identify threats, vulnerabilities, and appropriate safety controls for the schools that they supervise, pursuant to the security risk assessment required in law.[139]

The bill requires school officials at each school district and public school site in the state to use the FSSAT to conduct security assessments for use by school officials at each school district and public school site in the state.

The bill requires the FSSAT to address, at a minimum, all of the following components:
- School emergency and crisis preparedness planning;
- Security, crime, and violence prevention policies and procedures;
- Physical security measures;
- Professional development training needs;
- An examination of support service roles in school safety, security, and emergency planning;
- School security and school police staffing, operational practices, and related services;
- School and community collaboration on school safety; and
- A return on investment analysis of the recommended physical security controls.

[139] Section 1006.07(6), F.S.

The bill specifies that the DOE must require by contract that the security consulting firm:

- Generate written automated reports on assessment findings for review by the department and school and district officials;
- Provide training to the department and school officials in the use of the FSSAT and other areas of importance identified by the department; and
- Advise in the development and implementation of templates, formats, guidance, and other resources necessary to facilitate the implementation of this section at state, district, school, and local levels.

The bill requires that, by December 1, 2018, and annually by that date, the DOE must report to the Governor, the President of the Senate, and the Speaker of the House of Representatives on the status of implementation across school districts and schools. The bill specifies that the report must include a summary the positive school safety measures in place at the time of the assessment and any recommendations for policy changes or funding needed to facilitate continued school safety planning, improvement, and response at the state, district, or school levels.

Additionally, the bill requires that data and information related to security risk assessments and the security information contained in the required annual report are confidential and exempt from public records requirements.

Safe Schools Allocation

The bill modifies the safe schools allocation to expand the school district's authorized uses of the funds to incorporate newly created programs, including the Public School Emergency Response Learning System Program, Florida Sheriff's Marshal Program, and the Florida Safe Schools Assessment Tool, in addition to other school safety requirements in law, with priority given to satisfying the requirement of establishing or assigning at least one safe-school officer at each school facility within the district.

Coordination and System Improvements

Present Situation

Educational Multiagency Services for Student with Severe Emotional Disturbance

Florida law provides that an intensive integrated educational program; a continuum of mental health treatment services; and, when needed, residential services are necessary to enable students with severe emotional disturbance to develop appropriate behaviors and demonstrate academic and career education skills.[140] District school boards should provide educational programs, and state departments and agencies administering children's mental health funds should provide mental health treatment and residential services when needed, forming a multiagency network to provide support for students with severe emotional disturbance.[141]

[140] Section 1006.04(1)(a), F.S.
[141] *Id.*

School Resource Officers and School Safety Officers

District school boards may establish school resource officer programs, through a cooperative agreement with law enforcement agencies or in accordance with law, by which personnel are employed by either the school district or a law enforcement agency.[142]

School resource officers are certified law enforcement officers[143] who are employed by a law enforcement agency.[144] School resource officers must abide by district school board policies and must consult with and coordinate activities through the school principal, but are responsible to the law enforcement agency in all matters relating to employment, subject to agreements between a district school board and a law enforcement agency.[145]

School safety officers are certified law enforcement officers and employed either by a law enforcement agency or by the district school board.[146] If the district school board employs the officer, the district school board is the employing agency and must comply with the statutory provisions regarding law enforcement.[147] A district school board may commission one or more school safety officers for the protection and safety of school personnel, property, and students within the school district.[148] Additionally, a school safety officer has the power to make arrests for violations of law on district school board property and to arrest persons, whether on or off such property, who violate any law on such property under the same conditions that deputy sheriffs are authorized to make arrests.[149] A school safety officer has the authority to carry weapons when performing his or her official duties.[150]

Florida law authorizes a district school board to enter into mutual aid agreements with one or more law enforcement agencies.[151] The district school board and the law enforcement agency, as mutually agreed to, may pay a school safety officer's salary jointly.[152]

Student Crime Watch Program

A district school board, must by resolution of the board, implement a student crime watch program to promote responsibility among students and to assist in the control of criminal behavior within the schools.[153]

Effect of Proposed Changes

Multiagency Services Network for Students with Severe Emotional Disturbances

The bill codifies the Multiagency Services Network for Students with Severe Emotional Disturbances (SEDNET) as a function of the DOE in partnership with other state, regional, and local partners as a statewide network of regional projects comprised of major child-serving agencies, community-based service providers, and students and their families. The bill provides that the fundamental goal of SEDNET and its partners is to facilitate the process of cross system collaboration and inclusion of families as full partners. The bill requires, at a minimum, that SEDNET must:

- Focus on developing interagency collaboration and sustaining partnerships among professionals and families in the education, mental health, substance abuse, child welfare, and juvenile justice systems serving children and youth with, and at risk of, emotional and behavioral disabilities.
- Provide technical assistance and support in building service capacity within regional areas and collaborate in related state level activities affecting systems of care.
- Serve as a collaborative resource for school districts, agencies, and families working to promote positive educational and community-based outcomes for children.

The bill specifies that the Legislature may provide funding for the DOE to award grants to district school boards for statewide planning and development of SEDNET. The bill also authorizes state departments and agencies to use appropriate funds for SEDNET.

Safe-School Officer

For the protection and safety of school personnel, property, students, and visitors, the bill requires each district school board and school district superintendent to cooperate with law enforcement to establish or assign one or more safe-school officers at each school facility within the district. The bill provides that the school district may implement a school resource officer, school safety officer, the Florida Sherriff's Marshal Program, or a combination of these options to fulfill this obligation.

The bill modifies the requirements for school resource or safety officers to require such officers to undergo criminal background checks, drug testing, and a psychological evaluation.

School Safety Awareness Program

The bill names the school safety awareness program as "FortifyFL," as recommended by students of Marjory Stoneman Douglas High School. The bill requires the Florida Department of Law Enforcement (FDLE), in collaboration with the Department of Legal Affairs in the Office of the Attorney General, to competitively procure a mobile suspicious activity reporting tool

[153] Section 1006.07(3), F.S.

(reporting tool) that allows students and the community to relay information anonymously concerning unsafe, potentially harmful, dangerous, violent, or criminal activities or the threat of such activities to appropriate public safety agencies and school officials. The bill requires that, at a minimum, the FDLE must receive reports electronically through the reporting tool that is available on both Android and Apple devices.

The bill requires that the reporting tool must notify the reporting party of the following information:

- That the reporting party may provide his or her report anonymously.
- That if the reporting party chooses to disclose his or her identity, such information shall be shared with the appropriate law enforcement agency and school officials; however, the law enforcement agency and school officials shall be required to maintain such information as confidential.

The bill specifies that information received by the tool must be promptly forwarded to the appropriate law enforcement agency or school official.

The bill requires that law enforcement dispatch centers, school districts, schools, and other entities identified by the FDLE shall be made aware of the mobile suspicious activity reporting tool. Additionally, the bill requires the FDLE, in collaboration with the Division of Victims Services within the Office of the Attorney General and the Office of Safe Schools within the Florida Department of Education (DOE), to develop and provide a comprehensive training and awareness program on the use of the reporting tool.

Public School Emergency Response Learning System Program

The bill establishes the Public School Emergency Response Learning System Program (program) within the DOE's Office of Safe Schools to assist school personnel in preparing for and responding to active emergency situations and to implement local notification systems for all Florida public schools. The program requires local law enforcement agencies to partner with participating public preschools, public child care providers, or public school districts and schools.

The bill requires that training, notifications, and resources be available for school personnel and students and families, which must, at a minimum, include:

- Activities and direct training to mitigate risk and save lives in emergency situations, such as lockdown, bomb threat, active shooter, and other emergency situations.
- Vital local notification systems implemented to alert schools of imminent danger.
- Other resources provided in conjunction with the training including, but not limited to, an emergency plan flip chart, communication cards, instructional resources, activity books for children and teachers, and certificates of training and completion.

The bill requires that a school district must include in its emergency notification procedures established in law[154] any program participant who notifies the district of his or her desire to participate.

[154] Section 1006.07, F.S.

Additionally, the bill requires each program participant to develop a preemptive plan of action that includes multiple options for addressing various situations based on the form of danger present and the unique needs and circumstances of each school and its faculty, staff, students, and visitors.

The bill may provide for enhanced collaboration and communication between public schools and local law enforcement entities to appropriately address emergency situations.

The bill authorizes the Legislature to provide funding to implement the Public School Emergency Alert Response Learning System Program.

Mental Health

Present Situation

Mental Health Services in Schools

The Department of Education (DOE), through the Bureau of Exceptional Education and Student Services and the Office of Safe Schools, promotes a system of support, policies, and practices that focus on prevention and early intervention to improve student mental health and school safety. Florida law requires instructional staff members of the public schools to teach comprehensive health education that addresses concepts of mental and emotional health as well as substance use and abuse.[155] Student services personnel, which includes school psychologists, school social workers, and school counselors, are classified as instructional personnel responsible for advising students with regard to their personal and social adjustments, and provide direct and indirect services at the district and school level.[156]

Effect of Proposed Changes

The Mental Health Services Allocation

The purpose of the mental health assistance allocation is to provide supplemental funding to assist school districts and charter schools in establishing or expanding comprehensive school-based mental health programs that:

- Increase awareness of mental health issues among children and school-age youth;
- Train educators and other school staff in detecting and responding to mental health issues; and
- Connect children, youth, and families who may experience behavioral or mental health issues with appropriate services.

The mental health assistance allocation must be allocated in the annual general appropriations act (GAA) to each eligible school district and developmental research school based on each entity's proportionate share of FEFP base funding. The district funding allocation must include a minimum amount as specified in the GAA. Charter schools are eligible for a proportionate share of district funding for this program upon the submission and approval of a plan that includes

[155] Section 1003.42(2)(n), F.S.
[156] Section 1012.01(2)(b), F.S.

specified elements. The mental health assistance funds may not supplant funds that are provided for this purpose from other operating funds and may not be used to increase salaries or provide bonuses, except for personnel hired to implement the required mental health assistance allocation plans.

Prior to the distribution of the allocation, a school district is required to annually develop and submit a detailed plan outlining the local program and planned expenditures to the district school board for approval. Similarly, a charter school must annually develop and submit a detailed plan outlining the local program and planned expenditures of the funds in the plan to its governing body for approval in order to receive the allocation. After the charter school's governing board approves the plan, it must be provided to the school district for submission to the Commissioner of Education. School districts must submit approved plans to the commissioner by August 1 of each fiscal year.

The required mental health assistance allocation plan must include, at a minimum, each of the following elements:

- A contract or memorandum of understanding with at least one local nationally accredited community behavioral health provider or a provider of Community Action Team services to provide a behavioral health presence and services at district schools. Services may include, but are not limited to:
  - Mental health screenings and assessments;
  - Individual, family, and group counseling;
  - Psychiatric or psychological services;
  - Trauma-informed care;
  - Mobile crisis services; and
  - Behavior modification.
- Training opportunities in Mental Health First Aid or other similar nationally recognized evidence-based training for all school personnel who have contact with students. Training topics should include depression and mood disorders, anxiety disorders, trauma, psychosis, substance use disorders, and suicide prevention. The training must cover:
  - Risk factors and warning signs for mental health and addiction concerns;
  - Strategies for providing assistance to individuals in both crisis and non-crisis situations; and
  - The use of referral mechanisms that effectively link individuals to appropriate treatment and intervention services in the school and in the community.
- A mental health crisis intervention strategy that provides for prompt resolution of identified, immediate threats within district schools, including Baker Act referrals and notification of law enforcement personnel, as appropriate.

School districts and charter schools are *strongly encouraged* to include in the required mental health assistance allocation plan each of the following elements:

- Programs to assist students in dealing with anxiety, depression, bullying, trauma, and violence;
- Strategies or programs to reduce the likelihood of at-risk students developing social, emotional, or behavioral health problems; suicidal tendencies; or substance use disorders; and

- Strategies to improve the early identification of social, emotional, or behavioral problems or substance use disorders and to improve the provision of early intervention services.

Beginning September 30, 2019, and annually thereafter, each entity that receives a mental health assistance allocation must submit a final report to the commissioner, in a format prescribed by the Florida Department of Education (DOE), on its program outcomes and expenditures for each element of the program. At a minimum, the report must include the number of each of the following:

- Students who receive screenings or assessments.
- Students who are referred for services or assistance.
- Students who receive services or assistance.
- Parents or guardians notified.
- School personnel who are trained to engage in the services, techniques, strategies, or programs identified in the required mental health assistance allocation plan.

The establishment of the mental health assistance allocation program may assist school districts in providing comprehensive school-based mental health programs that increase awareness of mental health issues among children and school-age youth. This may improve student mental health and school safety.

Public Records Exemptions

Present Situation

Florida law provides that education records of students, as defined in the federal Family Educational Rights and Privacy Act (FERPA), and the federal regulations issued pursuant thereto, are confidential and exempt from state public records laws.[157]

Effect of Proposed Changes

The bill clarifies that Florida law does not limit the application of exemptions from public records requirements for security system plans and public security systems, including security footage, or other information that would relate to or reveal the location or capabilities of such systems.

The bill takes effect upon becoming a law.

Section 7. Present subsection (13) of section 790.065, Florida Statutes, is redesignated as subsection (12), subsections (1), (3), and (10) of that section are amended, and a new subsection (11) is added to that section, to read:
790.065 Sale and delivery of firearms.—
(1)(a) A licensed importer, licensed manufacturer, or

668020

licensed dealer may not sell or deliver from her or his inventory at her or his licensed premises any firearm to another person, other than a licensed importer, licensed manufacturer, licensed dealer, or licensed collector, until she or he has:

1. Obtained a completed form from the potential buyer or transferee, which form shall have been adopted ~~promulgated~~ by the Department of Law Enforcement and provided by the licensed importer, licensed manufacturer, or licensed dealer, which shall include the name, date of birth, gender, race, and social security number or other identification number of such potential buyer or transferee and has inspected proper identification including an identification containing a photograph of the potential buyer or transferee.

2. Collected a fee from the potential buyer for processing the criminal history check of the potential buyer. The fee shall be established by the Department of Law Enforcement and may not exceed $8 per transaction. The Department of Law Enforcement may reduce, or suspend collection of, the fee to reflect payment received from the Federal Government applied to the cost of maintaining the criminal history check system established by this section as a means of facilitating or supplementing the National Instant Criminal Background Check System. The Department of Law Enforcement shall, by rule, establish procedures for the fees to be transmitted by the licensee to the Department of Law Enforcement. All such fees shall be deposited into the Department of Law Enforcement Operating Trust Fund, but shall be segregated from all other funds deposited into such trust fund and must be accounted for separately. Such segregated funds must not be used for any purpose other than the operation

668020

of the criminal history checks required by this section. The Department of Law Enforcement, each year before ~~prior to~~ February 1, shall make a full accounting of all receipts and expenditures of such funds to the President of the Senate, the Speaker of the House of Representatives, the majority and minority leaders of each house of the Legislature, and the chairs of the appropriations committees of each house of the Legislature. In the event that the cumulative amount of funds collected exceeds the cumulative amount of expenditures by more than $2.5 million, excess funds may be used for the purpose of purchasing soft body armor for law enforcement officers.

3. Requested, by means of a toll-free telephone call, the Department of Law Enforcement to conduct a check of the information as reported and reflected in the Florida Crime Information Center and National Crime Information Center systems as of the date of the request.

4. Received a unique approval number for that inquiry from the Department of Law Enforcement, and recorded the date and such number on the consent form.

(b) However, if the person purchasing, or receiving delivery of, the firearm is a holder of a valid concealed weapons or firearms license pursuant to ~~the provisions of~~ s. 790.06 or holds an active certification from the Criminal Justice Standards and Training Commission as a "law enforcement officer," a "correctional officer," or a "correctional probation officer" as defined in s. 943.10(1), (2), (3), (6), (7), (8), or (9), this subsection does not apply.

(c) This subsection does not apply to the purchase, trade, or transfer of a rifle or shotgun by a resident of this state

668020

when the resident makes such purchase, trade, or transfer from a licensed importer, licensed manufacturer, or licensed dealer in another state.

(d)1. If neither party to a prospective firearms sale, lease, or transfer is a licensed dealer, the parties to the transaction must complete the sale, lease, or transfer through a licensed dealer as follows:

a. The seller, lessor, or transferor must deliver the firearm to a licensed dealer, who shall process the sale, lease, or transfer as if she or he were the seller, lessor, or transferor, except that the seller, lessor, or transferor who is not a licensed dealer may remove the firearm from the business premises of the licensed dealer while the background check is being conducted and while the waiting period requirement set forth in s. 790.0655 is being met. Other than allowing the unlicensed seller or transferor to remove the firearm from the licensed dealer's business premises, the licensed dealer shall comply with all requirements of federal and state law which would apply if she or he were the seller, lessor, or transferor of the firearm;

b. The licensed dealer shall conduct a background check on the buyer or other transferee as provided in this section and, unless the transaction is prohibited, and after all other legal requirements are met, including those set forth in s. 790.0655, the licensed dealer shall either:

(I) Deliver the firearm to the seller, lessor, or transferor, who shall complete the transaction and deliver the firearm to the buyer; or

(II) If the seller, lessor, or transferor has removed the

668020

firearm from the licensed dealer's business premises, contact the seller, lessor, or transferor to let her or him know that he or she may complete the transaction and deliver the firearm to the buyer.

c. If the licensed dealer cannot legally complete the transaction, the dealer must:

(I) Return the firearm to the seller, lessor, or transferor; or

(II) If the seller, lessor, or transferor has removed the firearm from the licensed dealer's business premises, contact the seller, lessor, or transferor to let her or him know that the transaction is prohibited, and that the seller, lessor, or transferor may not deliver the firearm to the buyer; and

d. The licensed dealer may require the buyer or other transferee to pay a fee covering the administrative costs incurred by the licensed dealer for facilitating the transfer of the firearm, plus applicable fees pursuant to federal and state law.

2. This paragraph does not apply to:

a. The activities of the United States Marshals Service, members of the United States Armed Forces or the National Guard, or federal officials required to carry firearms while engaged in performing their official duties; or

b. The following activities, unless the lawful owner knows or has reasonable cause to believe that federal, state, or local law prohibits the transferee from purchasing or possessing firearms, or that the transferee is likely to use the firearm for unlawful purposes:

(I) The delivery of a firearm to a gunsmith for service or

668020

repair, or the return of the firearm to its owner by the gunsmith;

(II) The transfer of a firearm to a carrier, warehouseman, or other person engaged in the business of transportation or storage, to the extent that the receipt, possession, or having on or about the person any firearm is in the ordinary course of business and in conformity with federal, state, and local laws, and not for the personal use of any such person;

(III) The loan of a firearm solely for the purpose of shooting at targets, if the loan occurs on the premises of a properly licensed target facility and if the firearm is at all times kept within the premises of the target facility;

(IV) The loan of a firearm to a person who is under 18 years of age for lawful hunting, sporting, or educational purposes while under the direct supervision and control of a responsible adult;

(V) The loan of a firearm to a person who is 18 years of age or older if the firearm remains in the person's possession only while the person is accompanying the lawful owner and using the firearm for lawful hunting, sporting, or recreational purposes; or

(VI) The loan of a firearm to an adult family member of the lawful owner of the firearm if the lawful owner resides with the family member but is not present in the residence, provided that the family member does not maintain control over the firearm for more than 10 consecutive days.

The Committee on Appropriations (Gibson) recommended the following:

Senate Amendment (with title amendment)

Between lines 382 and 383
insert:

Section 9. Section 790.335, Florida Statutes, is amended to read:

~~790.335 Prohibition of registration of firearms; electronic records.—~~

~~(1) LEGISLATIVE FINDINGS AND INTENT.—~~

~~(a) The Legislature finds and declares that:~~

941870

~~1. The right of individuals to keep and bear arms is guaranteed under both the Second Amendment to the United States Constitution and s. 8, Art. I of the State Constitution.~~

~~2. A list, record, or registry of legally owned firearms or law-abiding firearm owners is not a law enforcement tool and can become an instrument for profiling, harassing, or abusing law-abiding citizens based on their choice to own a firearm and exercise their Second Amendment right to keep and bear arms as guaranteed under the United States Constitution. Further, such a list, record, or registry has the potential to fall into the wrong hands and become a shopping list for thieves.~~

~~3. A list, record, or registry of legally owned firearms or law-abiding firearm owners is not a tool for fighting terrorism, but rather is an instrument that can be used as a means to profile innocent citizens and to harass and abuse American citizens based solely on their choice to own firearms and exercise their Second Amendment right to keep and bear arms as guaranteed under the United States Constitution.~~

~~4. Law-abiding firearm owners whose names have been illegally recorded in a list, record, or registry are entitled to redress.~~

~~(b) The Legislature intends through the provisions of this section to:~~

~~1. Protect the right of individuals to keep and bear arms as guaranteed under both the Second Amendment to the United States Constitution and s. 8, Art. I of the State Constitution.~~

~~2. Protect the privacy rights of law-abiding firearm owners.~~

~~(2) PROHIBITIONS.—No state governmental agency or local~~

941870

~~government, special district, or other political subdivision or official, agent, or employee of such state or other governmental entity or any other person, public or private, shall knowingly and willfully keep or cause to be kept any list, record, or registry of privately owned firearms or any list, record, or registry of the owners of those firearms.~~

~~(3) EXCEPTIONS.—The provisions of this section shall not apply to:~~

~~(a) Records of firearms that have been used in committing any crime.~~

~~(b) Records relating to any person who has been convicted of a crime.~~

~~(c) Records of firearms that have been reported stolen that are retained for a period not in excess of 10 days after such firearms are recovered. Official documentation recording the theft of a recovered weapon may be maintained no longer than the balance of the year entered, plus 2 years.~~

~~(d) Firearm records that must be retained by firearm dealers under federal law, including copies of such records transmitted to law enforcement agencies. However, no state governmental agency or local government, special district, or other political subdivision or official, agent, or employee of such state or other governmental entity or any other person, private or public, shall accumulate, compile, computerize, or otherwise collect or convert such written records into any form of list, registry, or database for any purpose.~~

~~(e)1. Records kept pursuant to the recordkeeping provisions of s. 790.065; however, nothing in this section shall be construed to authorize the public release or inspection of~~

941870

~~records that are made confidential and exempt from the provisions of s. 119.07(1) by s. 790.065(4)(a).~~

~~2. Nothing in this paragraph shall be construed to allow the maintaining of records containing the names of purchasers or transferees who receive unique approval numbers or the maintaining of records of firearm transactions.~~

~~(f) Firearm records, including paper pawn transaction forms and contracts on firearm transactions, required by chapters 538 and 539.~~

~~1. Electronic firearm records held pursuant to chapter 538 may only be kept by a secondhand dealer for 30 days after the date of the purchase of the firearm by the secondhand dealer.~~

~~2. Electronic firearm records held pursuant to chapter 539 may only be kept by a pawnbroker for 30 days after the expiration of the loan that is secured by a firearm or 30 days after the date of purchase of a firearm, whichever is applicable.~~

~~3. Except as required by federal law, any firearm records kept pursuant to chapter 538 or chapter 539 shall not, at any time, be electronically transferred to any public or private entity, agency, business, or enterprise, nor shall any such records be copied or transferred for purposes of accumulation of such records into lists, registries, or databases.~~

~~4. Notwithstanding subparagraph 3., secondhand dealers and pawnbrokers may electronically submit firearm transaction records to the appropriate law enforcement agencies as required by chapters 538 and 539; however, the law enforcement agencies may not electronically submit such records to any other person or entity and must destroy such records within 60 days after~~

941870

~~receipt of such records.~~

~~5. Notwithstanding subparagraph 3., secondhand dealers and pawnbrokers may electronically submit limited firearms records consisting solely of the manufacturer, model, serial number, and caliber of pawned or purchased firearms to a third-party private provider that is exclusively incorporated, exclusively owned, and exclusively operated in the United States and that restricts access to such information to only appropriate law enforcement agencies for legitimate law enforcement purposes. Such records must be destroyed within 30 days by the third-party provider. As a condition of receipt of such records, the third-party provider must agree in writing to comply with the requirements of this section. Any pawnbroker or secondhand dealer who contracts with a third-party provider other than as provided in this act or electronically transmits any records of firearms transactions to any third-party provider other than the records specifically allowed by this paragraph commits a felony of the second degree, punishable as provided in s. 775.082 or s. 775.083.~~

~~(g) Records kept by the Department of Law Enforcement of NCIC transactions to the extent required by federal law and a log of dates of requests for criminal history record checks, unique approval and nonapproval numbers, license identification numbers, and transaction numbers corresponding to such dates.~~

~~(h) Records of an insurer that, as a condition to providing insurance against theft or loss of a firearm, identify such firearm. Such records may not be sold, commingled with records relating to other firearms, or transferred to any other person or entity. The insurer may not keep a record of such firearm more than 60 days after the policy of insurance expires or after~~

941870

~~notification by the insured that the insured is no longer the owner of such firearm.~~

~~(i) Lists of customers of a firearm dealer retained by such dealer, provided that such lists do not disclose the particular firearms purchased. Such lists, or any parts thereof, may not be sold, commingled with records relating to other firearms, or transferred to any other person or entity.~~

~~(j) Sales receipts retained by the seller of firearms or by a person providing credit for such purchase, provided that such receipts shall not serve as or be used for the creation of a database for registration of firearms.~~

~~(k) Personal records of firearms maintained by the owner of such firearms.~~

~~(l) Records maintained by a business that stores or acts as the selling agent of firearms on behalf of the lawful owner of the firearms.~~

~~(m) Membership lists of organizations comprised of firearm owners.~~

~~(n) Records maintained by an employer or contracting entity of the firearms owned by its officers, employees, or agents, if such firearms are used in the course of business performed on behalf of the employer.~~

~~(o) Records maintained pursuant to s. 790.06 by the Department of Agriculture and Consumer Services of a person who was a licensee within the prior 2 years.~~

~~(p) Records of firearms involved in criminal investigations, criminal prosecutions, criminal appeals, and postconviction motions, civil proceedings relating to the surrender or seizure of firearms including protective~~

941870

~~injunctions, Baker Act commitments, and sheriff's levies pursuant to court judgments, and voluntary surrender by the owner or custodian of the firearm.~~

~~(q) Paper documents relating to firearms involved in criminal cases, criminal investigations, and criminal prosecutions, civil proceedings relating to the surrender or seizure of firearms including protective injunctions, Baker Act commitments, and sheriff's levies pursuant to court judgments, and voluntary surrender by the owner or custodian of the firearm.~~

~~(4) PENALTIES.—~~

~~(a) Any person who, or entity that, violates a provision of this section commits a felony of the third degree, punishable as provided in s. 775.082 or s. 775.083.~~

~~(b) Except as required by the provisions of s. 16, Art. I of the State Constitution or the Sixth Amendment to the United States Constitution, no public funds shall be used to defend the unlawful conduct of any person charged with a violation of this section, unless the charges against such person are dismissed or such person is determined to be not guilty at trial.~~

941870

~~Notwithstanding this paragraph, public funds may be expended to provide the services of the office of public defender or court-appointed conflict counsel as provided by law.~~

~~(c) The governmental entity, or the designee of such governmental entity, in whose service or employ a list, record, or registry was compiled in violation of this section may be assessed a fine of not more than $5 million, if the court determines that the evidence shows that the list, record, or registry was compiled or maintained with the knowledge or complicity of the management of the governmental entity. Section 3. For the purpose of incorporating the amendment made by this act to section 775.087, Florida Statutes, in a reference thereto, section 27.366, Florida Statutes, is reenacted to read:

27.366 Legislative intent and policy in cases meeting criteria of s. 775.087(2) and (3).—It is the intent of the Legislature that convicted criminal offenders who meet the criteria in s. 775.087(2) and (3) be sentenced to the minimum mandatory prison terms provided therein. It is the intent of the Legislature to establish zero tolerance of criminals who use, threaten to use, or avail themselves of firearms in order to commit crimes and thereby demonstrate their lack of value for human life. It is also the intent of the Legislature that prosecutors should appropriately exercise their discretion in those cases in which the offenders' possession of the firearm is incidental to the commission of a crime and not used in furtherance of the crime, used in order to commit the crime, or used in preparation to commit the crime. For every case in which the offender meets the criteria in this act and does not receive the mandatory minimum prison sentence, the state attorney must explain the sentencing deviation in writing and place such explanation in the case file maintained by the state attorney.

366940

Section 4. For the purpose of incorporating the amendment made by this act to section 775.087, Florida Statutes, in a reference thereto, paragraph (b) of subsection (1) of section 921.0024, Florida Statutes, is reenacted to read:

921.0024 Criminal Punishment Code; worksheet computations; scoresheets.—

(1)

(b) WORKSHEET KEY:

Legal status points are assessed when any form of legal status existed at the time the offender committed an offense before the court for sentencing. Four (4) sentence points are assessed for an offender’s legal status.

Community sanction violation points are assessed when a community sanction violation is before the court for sentencing. Six (6) sentence points are assessed for each community sanction violation and each successive community sanction violation, unless any of the following apply:

1. If the community sanction violation includes a new felony conviction before the sentencing court, twelve (12) community sanction violation points are assessed for the violation, and for each successive community sanction violation involving a new felony conviction.

2. If the community sanction violation is committed by a violent felony offender of special concern as defined in s. 948.06:

a. Twelve (12) community sanction violation points are assessed for the violation and for each successive violation of

366940

felony probation or community control where:

I. The violation does not include a new felony conviction; and

II. The community sanction violation is not based solely on the probationer or offender's failure to pay costs or fines or make restitution payments.

b. Twenty-four (24) community sanction violation points are assessed for the violation and for each successive violation of felony probation or community control where the violation includes a new felony conviction.

Multiple counts of community sanction violations before the sentencing court shall not be a basis for multiplying the assessment of community sanction violation points.

Prior serious felony points: If the offender has a primary offense or any additional offense ranked in level 8, level 9, or level 10, and one or more prior serious felonies, a single assessment of thirty (30) points shall be added. For purposes of this section, a prior serious felony is an offense in the offender's prior record that is ranked in level 8, level 9, or level 10 under s. 921.0022 or s. 921.0023 and for which the offender is serving a sentence of confinement, supervision, or other sanction or for which the offender's date of release from confinement, supervision, or other sanction, whichever is later, is within 3 years before the date the primary offense or any additional offense was committed.

Prior capital felony points: If the offender has one or more

prior capital felonies in the offender's criminal record, points shall be added to the subtotal sentence points of the offender equal to twice the number of points the offender receives for the primary offense and any additional offense. A prior capital felony in the offender's criminal record is a previous capital felony offense for which the offender has entered a plea of nolo contendere or guilty or has been found guilty; or a felony in another jurisdiction which is a capital felony in that jurisdiction, or would be a capital felony if the offense were committed in this state.

Possession of a firearm, semiautomatic firearm, or machine gun: If the offender is convicted of committing or attempting to commit any felony other than those enumerated in s. 775.087(2) while having in his or her possession: a firearm as defined in s. 790.001(6), an additional eighteen (18) sentence points are assessed; or if the offender is convicted of committing or attempting to commit any felony other than those enumerated in s. 775.087(3) while having in his or her possession a semiautomatic firearm as defined in s. 775.087(3) or a machine gun as defined in s. 790.001(9), an additional twenty-five (25) sentence points are assessed.

Sentencing multipliers:

Drug trafficking: If the primary offense is drug trafficking under s. 893.135, the subtotal sentence points are multiplied, at the discretion of the court, for a level 7 or level 8 offense, by 1.5. The state attorney may move the sentencing

366940

court to reduce or suspend the sentence of a person convicted of a level 7 or level 8 offense, if the offender provides substantial assistance as described in s. 893.135(4).

Law enforcement protection: If the primary offense is a violation of the Law Enforcement Protection Act under s. 775.0823(2), (3), or (4), the subtotal sentence points are multiplied by 2.5. If the primary offense is a violation of s. 775.0823(5), (6), (7), (8), or (9), the subtotal sentence points are multiplied by 2.0. If the primary offense is a violation of s. 784.07(3) or s. 775.0875(1), or of the Law Enforcement Protection Act under s. 775.0823(10) or (11), the subtotal sentence points are multiplied by 1.5.

Grand theft of a motor vehicle: If the primary offense is grand theft of the third degree involving a motor vehicle and in the offender’s prior record, there are three or more grand thefts of the third degree involving a motor vehicle, the subtotal sentence points are multiplied by 1.5.

Offense related to a criminal gang: If the offender is convicted of the primary offense and committed that offense for the purpose of benefiting, promoting, or furthering the interests of a criminal gang as defined in s. 874.03, the subtotal sentence points are multiplied by 1.5. If applying the multiplier results in the lowest permissible sentence exceeding the statutory maximum sentence for the primary offense under chapter 775, the court may not apply the multiplier and must sentence the defendant to the statutory maximum sentence.

Domestic violence in the presence of a child: If the offender is convicted of the primary offense and the primary offense is a crime of domestic violence, as defined in s. 741.28, which was committed in the presence of a child under 16 years of age who is a family or household member as defined in s. 741.28(3) with the victim or perpetrator, the subtotal sentence points are multiplied by 1.5.

Adult-on-minor sex offense: If the offender was 18 years of age or older and the victim was younger than 18 years of age at the time the offender committed the primary offense, and if the primary offense was an offense committed on or after October 1, 2014, and is a violation of s. 787.01(2) or s. 787.02(2), if the violation involved a victim who was a minor and, in the course of committing that violation, the defendant committed a sexual battery under chapter 794 or a lewd act under s. 800.04 or s. 847.0135(5) against the minor; s. 787.01(3)(a)2. or 3.; s. 787.02(3)(a)2. or 3.; s. 794.011, excluding s. 794.011(10); s. 800.04; or s. 847.0135(5), the subtotal sentence points are multiplied by 2.0. If applying the multiplier results in the lowest permissible sentence exceeding the statutory maximum sentence for the primary offense under chapter 775, the court may not apply the multiplier and must sentence the defendant to the statutory maximum sentence.

Section 5. For the purpose of incorporating the amendment made by this act to section 775.087, Florida Statutes, in a reference thereto, paragraph (b) of subsection (3) of section 947.146, Florida Statutes, is reenacted to read:

366940

947.146 Control Release Authority.—

(3) Within 120 days prior to the date the state correctional system is projected pursuant to s. 216.136 to exceed 99 percent of total capacity, the authority shall determine eligibility for and establish a control release date for an appropriate number of parole ineligible inmates committed to the department and incarcerated within the state who have been determined by the authority to be eligible for discretionary early release pursuant to this section. In establishing control release dates, it is the intent of the Legislature that the authority prioritize consideration of eligible inmates closest to their tentative release date. The authority shall rely upon commitment data on the offender information system maintained by the department to initially identify inmates who are to be reviewed for control release consideration. The authority may use a method of objective risk assessment in determining if an eligible inmate should be released. Such assessment shall be a part of the department's management information system. However, the authority shall have sole responsibility for determining control release eligibility, establishing a control release date, and effectuating the release of a sufficient number of inmates to maintain the inmate population between 99 percent and 100 percent of total capacity. Inmates who are ineligible for control release are inmates who are parole eligible or inmates who:

(b) Are serving the mandatory minimum portion of a sentence enhanced under s. 775.087(2) or (3), or s. 784.07(3);

In making control release eligibility determinations under this

366940

subsection, the authority may rely on any document leading to or generated during the course of the criminal proceedings, including, but not limited to, any presentence or postsentence investigation or any information contained in arrest reports relating to circumstances of the offense.

(1) DEFINITION.—As used in this section, the term "bump-fire stock" means a gun conversion kit, a tool, an accessory, or a device used to alter the rate of fire of a firearm to mimic automatic weapon fire or which is used to increase the rate of fire of a semiautomatic firearm to a faster rate than is possible for a person to fire such semiautomatic firearm unassisted by a kit, a tool, an accessory, or a device.

Section 10. (1) Section 790.401, Florida Statutes, is intended to temporarily prevent individuals who are at high risk of harming themselves or others from accessing firearms or ammunition by allowing law enforcement officers to obtain a court order when there is demonstrated evidence that a person poses a significant danger to himself or herself or others, including significant danger as a result of a mental health crisis or violent behavior.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

(2) The purpose and intent of s. 790.401, Florida Statutes, is to reduce deaths and injuries as a result of certain individuals' use of firearms while respecting constitutional rights by providing a judicial procedure for law enforcement officers to obtain a court order temporarily restricting a person's access to firearms and ammunition. The process established by s. 790.401, Florida Statutes, is intended to apply only to situations in which the person poses a significant danger of harming himself or herself or others by possessing a firearm or ammunition and to include standards and safeguards to protect the rights of respondents and due process of law.

Section 11. Section 790.401, Florida Statutes, may be cited as "The Risk Protection Order Act."

Section 12. Section 790.401, Florida Statutes, is created to read:

(e) A petition must:

1. Allege that the respondent poses a significant danger of causing personal injury to himself or herself or others by having a firearm or any ammunition in his or her custody or control or by purchasing, possessing, or receiving a firearm or any ammunition, and must be accompanied by an affidavit made under oath stating the specific statements, actions, or facts that give rise to a reasonable fear of significant dangerous acts by the respondent;

1. The clerk of the court shall cause a copy of the notice of hearing and petition to be forwarded on or before the next business day to the appropriate law enforcement agency for service upon the respondent as provided in subsection (5).

2. The court may, as provided in subsection (4), issue a temporary ex parte risk protection order pending the hearing ordered under this subsection. Such temporary ex parte order must be served concurrently with the notice of hearing and petition as provided in subsection (5).

3. The court may conduct a hearing by telephone pursuant to

a local court rule to reasonably accommodate a disability or exceptional circumstances. The court must receive assurances of the petitioner's identity before conducting a telephonic hearing.

(b) Upon notice and a hearing on the matter, if the court finds by clear and convincing evidence that the respondent poses a significant danger of causing personal injury to himself or herself or others by having in his or her custody or control, or by purchasing, possessing, or receiving, a firearm or any ammunition, the court must issue a risk protection order for a period that it deems appropriate, up to and including but not exceeding 12 months.

(c) In determining whether grounds for a risk protection order exist, the court may consider any relevant evidence, including, but not limited to, any of the following:

1. A recent act or threat of violence by the respondent against himself or herself or others, whether or not such violence or threat of violence involves a firearm.

2. An act or threat of violence by the respondent within the past 12 months, including, but not limited to, acts or threats of violence by the respondent against himself or herself or others.

(e) In a hearing under this section, the rules of evidence apply to the same extent as in a domestic violence injunction proceeding under s. 741.30.

(f) During the hearing, the court must consider whether a mental health evaluation or chemical dependency evaluation is appropriate and, if such determination is made, may order such evaluations, if appropriate.

You may not have in your custody or control, or purchase, possess, receive, or attempt to purchase or receive, a

firearm or ammunition while this order is in effect. You have the right to request one hearing to vacate this order, starting after the date of the issuance of this order, and to request another hearing after every extension of the order, if any. You may seek the advice of an attorney as to any matter connected with this order."

(h) If the court issues a risk protection order, the court must inform the respondent that he or she is entitled to request a hearing to vacate the order in the manner provided by subsection (6). The court shall provide the respondent with a form to request a hearing to vacate.

(i) If the court denies the petitioner's request for a risk protection order, the court must state the particular reasons for the denial.

(4) TEMPORARY EX PARTE RISK PROTECTION ORDERS.—

(a) A petitioner may request that a temporary ex parte risk protection order be issued before a hearing for a risk protection order, without notice to the respondent, by including in the petition detailed allegations based on personal knowledge that the respondent poses a significant danger of causing personal injury to himself or herself or others in the near future by having in his or her custody or control, or by purchasing, possessing, or receiving, a firearm or ammunition.

(b) In considering whether to issue a temporary ex parte risk protection order under this section, the court shall consider all relevant evidence, including the evidence described in paragraph (3)(c).

(c) If a court finds there is reasonable cause to believe

that the respondent poses a significant danger of causing personal injury to himself or herself or others in the near future by having in his or her custody or control, or by purchasing, possessing, or receiving, a firearm or ammunition, the court must issue a temporary ex parte risk protection order.

(d) The court must hold a temporary ex parte risk protection order hearing in person or by telephone on the day the petition is filed or on the business day immediately following the day the petition is filed.

5. A description of the requirements for surrender of firearms and ammunition under subsection (7); and

6. The following statement:

"To the subject of this protection order: This order is valid until the date noted above. You are required to surrender all firearms and ammunition in your custody, control, or possession. You may not have in your custody or control, or purchase, possess, receive, or attempt to purchase or receive, a firearm or ammunition while this order is in effect. You must surrender immediately to the (insert name of local law enforcement agency) all firearms and ammunition in your custody, control, or possession and any license to carry a concealed weapon or

firearm issued to you under s. 790.06, Florida Statutes. A hearing will be held on the date and at the time noted above to determine if a risk protection order should be issued. Failure to appear at that hearing may result in a court issuing an order against you which is valid for 1 year. You may seek the advice of an attorney as to any matter connected with this order."

(f) A temporary ex parte risk protection order ends upon the hearing on the risk protection order.

(g) A temporary ex parte risk protection order must be served by a law enforcement officer in the same manner as provided for in subsection (5) for service of the notice of hearing and petition and must be served concurrently with the notice of hearing and petition.

(h) If the court denies the petitioner's request for a temporary ex parte risk protection order, the court must state the particular reasons for the denial.

(5) SERVICE.—

(a) The clerk of the court shall furnish a copy of the notice of hearing, petition, and temporary ex parte risk protection order or risk protection order, as applicable, to the sheriff of the county where the respondent resides or can be found, who shall serve it upon the respondent as soon thereafter as possible on any day of the week and at any time of the day or night. When requested by the sheriff, the clerk of the court may transmit a facsimile copy of a temporary ex parte risk protection order or a risk protection order that has been certified by the clerk of the court, and this facsimile copy may be served in the same manner as a certified copy. Upon receiving

a facsimile copy, the sheriff must verify receipt with the sender before attempting to serve it upon the respondent. The clerk of the court shall be responsible for furnishing to the sheriff information on the respondent's physical description and location. Notwithstanding any other provision of law to the contrary, the chief judge of each circuit, in consultation with the appropriate sheriff, may authorize a law enforcement agency within the jurisdiction to effect service. A law enforcement agency effecting service pursuant to this section shall use service and verification procedures consistent with those of the sheriff. Service under this section takes precedence over the service of other documents, unless the other documents are of a similar emergency nature.

(b) All orders issued, changed, continued, extended, or vacated after the original service of documents specified in paragraph (a) must be certified by the clerk of the court and delivered to the parties at the time of the entry of the order. The parties may acknowledge receipt of such order in writing on the face of the original order. If a party fails or refuses to acknowledge the receipt of a certified copy of an order, the clerk shall note on the original order that service was effected. If delivery at the hearing is not possible, the clerk shall mail certified copies of the order to the parties at the last known address of each party. Service by mail is complete upon mailing. When an order is served pursuant to this subsection, the clerk shall prepare a written certification to be placed in the court file specifying the time, date, and method of service and shall notify the sheriff.

(6) TERMINATION AND EXTENSION OF ORDERS.—

(a) The respondent may submit one written request for a hearing to vacate a risk protection order issued under this section, starting after the date of the issuance of the order, and may request another hearing after every extension of the order, if any.

1. Upon receipt of the request for a hearing to vacate a risk protection order, the court shall set a date for a hearing. Notice of the request must be served on the petitioner in accordance with subsection (5). The hearing must occur no sooner than 14 days and no later than 30 days after the date of service of the request upon the petitioner.

2. The respondent shall have the burden of proving by clear and convincing evidence that the respondent does not pose a significant danger of causing personal injury to himself or herself or others by having in his or her custody or control, purchasing, possessing, or receiving a firearm or ammunition. The court may consider any relevant evidence, including evidence of the considerations listed in paragraph (3)(c).

3. If the court finds after the hearing that the respondent has met his or her burden of proof, the court must vacate the order.

4. The law enforcement agency holding any firearm or ammunition or license to carry a concealed weapon or firearm that has been surrendered pursuant to this section shall be notified of the court order to vacate the risk protection order.

(b) The court must notify the petitioner of the impending end of a risk protection order. Notice must be received by the petitioner at least 30 days before the date the order ends.

(c) The petitioner may, by motion, request an extension of

a risk protection order at any time within 30 days before the end of the order.

1. Upon receipt of the motion to extend, the court shall order that a hearing be held no later than 14 days after the date the order is issued and shall schedule such hearing.

a. The court may schedule a hearing by telephone in the manner provided by subparagraph (3)(a)3.

b. The respondent must be personally served in the same manner provided by subsection (5).

2. In determining whether to extend a risk protection order issued under this section, the court may consider all relevant evidence, including evidence of the considerations listed in paragraph (3)(c).

3. If the court finds by clear and convincing evidence that the requirements for issuance of a risk protection order as provided in subsection (3) continue to be met, the court must extend the order. However, if, after notice, the motion for extension is uncontested and no modification of the order is sought, the order may be extended on the basis of a motion or affidavit stating that there has been no material change in relevant circumstances since entry of the order and stating the reason for the requested extension.

4. The court may extend a risk protection order for a period that it deems appropriate, up to and including but not exceeding 12 months, subject to an order to vacate as provided in paragraph (a) or to another extension order by the court.

(7) SURRENDER OF FIREARMS AND AMMUNITION.—

(a) Upon issuance of a risk protection order under this section, including a temporary ex parte risk protection order,

the court shall order the respondent to surrender to the local law enforcement agency all firearms and ammunition in the respondent's custody, control, or possession except as provided in subsection (9), and any license to carry a concealed weapon or firearm issued under s. 790.06.

(b) The law enforcement officer serving a risk protection order under this section, including a temporary ex parte risk protection order, shall request that the respondent immediately surrender all firearms and ammunition in his or her custody, control, or possession and any license to carry a concealed weapon or firearm issued under s. 790.06, and shall conduct a search authorized by law for such firearms and ammunition. The law enforcement officer shall take possession of all firearms and ammunition belonging to the respondent which are surrendered, in plain sight, or discovered pursuant to a lawful search. Alternatively, if personal service by a law enforcement officer is not possible or is not required because the respondent was present at the risk protection order hearing, the respondent shall surrender the firearms and ammunition in a safe manner to the control of the local law enforcement agency immediately after being served with the order by service or immediately after the hearing at which the respondent was present.

(c) At the time of surrender, a law enforcement officer taking possession of a firearm, any ammunition, or a license to carry a concealed weapon or firearm shall issue a receipt identifying all firearms and the quantity and type of ammunition that have been surrendered and shall provide a copy of the receipt to the respondent. Within 72 hours after service of the

order, the law enforcement officer serving the order shall file the original receipt with the court and shall ensure that his or her law enforcement agency retains a copy of the receipt.

(d) Notwithstanding ss. 933.02 and 933.18, upon the sworn statement or testimony of any person alleging that the respondent has failed to comply with the surrender of firearms or ammunition as required by an order issued under this section, the court shall determine whether probable cause exists to believe that the respondent has failed to surrender all firearms or ammunition in his or her custody, control, or possession. If the court finds that probable cause exists, the court must issue a warrant describing the firearms or ammunition and authorizing a search of the locations where the firearms or ammunition are reasonably believed to be found and the seizure of any firearms or ammunition discovered pursuant to such search.

(e) If a person other than the respondent claims title to any firearms or ammunition surrendered pursuant to this section and he or she is determined by the law enforcement agency to be the lawful owner of the firearm or ammunition, the firearm or ammunition shall be returned to him or her, if:

1. The lawful owner agrees to store the firearm or ammunition in a manner such that the respondent does not have access to or control of the firearm or ammunition.

2. The firearm or ammunition is not otherwise unlawfully possessed by the owner.

(f) Upon the issuance of a risk protection order, the court shall order a new hearing date and require the respondent to appear no later than 3 business days after the issuance of the order. The court shall require proof that the respondent has

surrendered any firearms or ammunition in his or her custody, control, or possession. The court may cancel the hearing upon a satisfactory showing that the respondent is in compliance with the order.

(g) All law enforcement agencies must develop policies and procedures by January 1, 2019, regarding the acceptance, storage, and return of firearms, ammunition, or licenses required to be surrendered under this section.

(8) RETURN AND DISPOSAL OF FIREARMS AND AMMUNITION.—

(a) If a risk protection order is vacated or ends without extension, a law enforcement agency holding a firearm or any ammunition that has been surrendered or seized pursuant to this section must return such surrendered firearm or ammunition requested by a respondent only after confirming through a background check that the respondent is currently eligible to own or possess firearms and ammunition under federal and state law and after confirming with the court that the risk protection order has been vacated or has ended without extension.

(b) If a risk protection order is vacated or ends without extension, the Department of Agriculture and Consumer Services, if it has suspended a license to carry a concealed weapon or firearm pursuant to this section, must reinstate such license only after confirming that the respondent is currently eligible to have a license to carry a concealed weapon or firearm pursuant to s. 790.06.

(c) A law enforcement agency must provide notice to any family or household members of the respondent before the return of any surrendered firearm and ammunition.

(d) Any firearm and ammunition surrendered by a respondent

pursuant to subsection (7) which remains unclaimed by the lawful owner after an order to vacate the risk protection order shall be disposed of in accordance with the law enforcement agency's policies and procedures for the disposal of firearms in police custody.

(9) TRANSFER OF FIREARMS AND AMMUNITION.—A respondent may elect to transfer all firearms and ammunition that have been surrendered to or seized by a local law enforcement agency pursuant to subsection (7) to another person who is willing to receive the respondent's firearms and ammunition. The law enforcement agency may allow such a transfer only if it is determined that the chosen recipient:

(a) Currently is eligible to own or possess a firearm and ammunition under federal and state law after confirmation through a background check;

(b) Attests to storing the firearms and ammunition in a manner such that the respondent does not have access to or control of the firearms and ammunition until the risk protection order against the respondent is vacated or ends without extension; and

(c) Attests not to transfer the firearms or ammunition back to the respondent until the risk protection order against the respondent is vacated or ends without extension.

(10) REPORTING OF ORDERS.—

(a) Within 24 hours after issuance, the clerk of the court shall enter any risk protection order or temporary ex parte risk protection order issued under this section into the uniform case reporting system.

(b) Within 24 hours after issuance, the clerk of the court

shall forward a copy of an order issued under this section to the appropriate law enforcement agency specified in the order. Upon receipt of the copy of the order, the law enforcement agency shall enter the order into the National Instant Criminal Background Check System, any other federal or state computer-based systems used by law enforcement agencies or others to identify prohibited purchasers of firearms or ammunition, and into any computer-based criminal intelligence information system available in this state used by law enforcement agencies to list outstanding warrants. The order must remain in each system for the period stated in the order, and the law enforcement agency shall only remove orders from the systems that have ended or been vacated. Entry into the Florida Crime Information Center and National Crime Information Center constitutes notice to all law enforcement agencies of the existence of the order. The order is fully enforceable in any county in this state.

(c) The issuing court shall, within 3 business days after issuance of a risk protection order or temporary ex parte risk protection order, forward all available identifying information concerning the respondent, along with the date of order issuance, to the Department of Agriculture and Consumer Services. Upon receipt of the information, the department shall determine if the respondent has a license to carry a concealed weapon or firearm. If the respondent does have a license to carry a concealed weapon or firearm, the department must immediately suspend the license.

(d) If a risk protection order is vacated before its end date, the clerk of the court shall, on the day of the order to vacate, forward a copy of the order to the Department of

Agriculture and Consumer Services and the appropriate law enforcement agency specified in the order to vacate. Upon receipt of the order, the law enforcement agency shall promptly remove the order from any computer-based system in which it was entered pursuant to paragraph (b).

(11) PENALTIES.—

(a) A person who files a petition under this section knowing the information in such petition is materially false, or files with the intent to harass the respondent, commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(b) A person who has in his or her custody or control a firearm or any ammunition or who purchases, possesses, or receives a firearm or any ammunition with knowledge that he or she is prohibited from doing so by an order issued under this section commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(12) LAW ENFORCEMENT RETAINS OTHER AUTHORITY.—This section does not affect the ability of a law enforcement officer to remove a firearm or ammunition or license to carry a concealed weapon or concealed firearm from any person or to conduct any search and seizure for firearms or ammunition pursuant to other lawful authority.

(13) LIABILITY.—Except as provided in subsection (10) or subsection (11), this section does not impose criminal or civil liability on any person or entity for acts or omissions related to obtaining a risk protection order or temporary ex parte risk protection order, including, but not limited to, providing notice to the petitioner, a family or household member of the

respondent, and any known third party who may be at risk of violence or failure to provide such notice, or reporting, declining to report, investigating, declining to investigate, filing, or declining to file, a petition under this section.

(14) INSTRUCTIONAL AND INFORMATIONAL MATERIAL.—

(a) The Office of the State Courts Administrator shall develop and prepare instructions and informational brochures, standard petitions and risk protection order forms, and a court staff handbook on the risk protection order process. The standard petition and order forms must be used after January 1, 2019, for all petitions filed and orders issued pursuant to this section. The office shall determine the significant non-English-speaking or limited English-speaking populations in the state and prepare the instructions and informational brochures and standard petitions and risk protection order forms in such languages. The instructions, brochures, forms, and handbook must be prepared in consultation with interested persons, including representatives of gun violence prevention groups, judges, and law enforcement personnel. Materials must be based on best practices and must be available online to the public.

1. The instructions must be designed to assist petitioners in completing the petition and must include a sample of a standard petition and order for protection forms.

2. The instructions and standard petition must include a means for the petitioner to identify, with only layman's knowledge, the firearms or ammunition the respondent may own, possess, receive, or have in his or her custody or control. The instructions must provide pictures of types of firearms and ammunition that the petitioner may choose from to identify the

relevant firearms or ammunition, or must provide an equivalent means to allow petitioners to identify firearms or ammunition without requiring specific or technical knowledge regarding the firearms or ammunition.

3. The informational brochure must describe the use of and the process for obtaining, extending, and vacating a risk protection order under this section and must provide relevant forms.

4. The risk protection order form must include, in a conspicuous location, notice of criminal penalties resulting from violation of the order and the following statement: "You have the sole responsibility to avoid or refrain from violating this order's provisions. Only the court can change the order and only upon written request."

5. The court staff handbook must allow for the addition of a community resource list by the clerk of the court.

(b) Any clerk of court may create a community resource list of crisis intervention, mental health, substance abuse, interpreter, counseling, and other relevant resources serving the county in which the court is located. The court may make the community resource list available as part of or in addition to the informational brochures described in paragraph (a).

(c) The Office of the State Courts Administrator shall distribute a master copy of the petition and order forms, instructions, and informational brochures to the clerks of court. Distribution of all documents shall, at a minimum, be in an electronic format or formats accessible to all courts and clerks of court in the state.

To facilitate solutions to these issues, the Multiagency Service Network for Students with Severe Emotional Disturbance (SEDNET) is established as a function of the department in partnership with other state, regional, and local partners as a statewide network of regional projects comprised of major child-serving agencies, community-based service providers, and students and their families.

(3) ~~(b)~~ The program goals for each component of SEDNET ~~the multiagency network~~ are to enable students with severe emotional disturbance to learn appropriate behaviors, reduce dependency, and fully participate in all aspects of school and community living; to develop individual programs for students with severe emotional disturbance, including necessary educational, residential, and mental health treatment services; to provide programs and services as close as possible to the student's home in the least restrictive manner consistent with the student's needs; and to integrate a wide range of services necessary to support students with severe emotional disturbance and their families.

(4) ~~(2)~~ The Legislature may provide funding for the department to ~~may~~ award grants to district school boards for statewide planning and development of SEDNET ~~the multiagency network~~ for students with severe emotional disturbance. (3) By December 1, 2018, and annually by that date thereafter, the department must report to the Governor, the President of the Senate, and the Speaker of the House of Representatives on the status of implementation across school districts and schools. The report must include a summary of the positive school safety measures in place at the time of the assessment and any recommendations for policy changes or funding needed to facilitate continued school safety planning, improvement, and response at the state, district, or school levels.

(4) In accordance with ss. 119.071(3)(a) and 281.301, data and information related to security risk assessments administered pursuant to this section and s. 1006.07(6) and the security information contained in the annual report required pursuant to subsection (3) are confidential and exempt from public records requirements.

Section 26. Present subsections (16) and (17) of section 1011.62, Florida Statutes, are redesignated as subsections (17) and (18), respectively, subsections (14) and (15) of that section are amended, and a new subsection (16) is added to that section, to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(14) QUALITY ASSURANCE GUARANTEE.—The Legislature may annually in the General Appropriations Act determine a percentage increase in funds per K-12 unweighted FTE as a minimum guarantee to each school district. The guarantee shall be calculated from prior year base funding per unweighted FTE student which shall include the adjusted FTE dollars as provided in subsection (17) ~~(16)~~, quality guarantee funds, and actual nonvoted discretionary local effort from taxes. From the base funding per unweighted FTE, the increase shall be calculated for the current year. The current year funds from which the guarantee shall be determined shall include the adjusted FTE dollars as provided in subsection (17) ~~(16)~~ and potential nonvoted discretionary local effort from taxes. A comparison of current year funds per unweighted FTE to prior year funds per unweighted FTE shall be computed. For those school districts which have less than the legislatively assigned percentage increase, funds shall be provided to guarantee the assigned percentage increase in funds per unweighted FTE student. Should appropriated funds be less than the sum of this calculated amount for all districts, the commissioner shall prorate each district's allocation. This provision shall be implemented to the extent specifically funded.

(15) SAFE SCHOOLS ALLOCATION.—A safe schools allocation is

created to provide funding to assist school districts in their compliance with subpart I.C. of chapter 1006 ~~ss. 1006.07-1006.148~~, with priority given to satisfying the requirement of establishing or assigning at least one safe-school officer at each school facility within the district ~~a school resource officer program~~ pursuant to s. 1006.12. Each school district shall receive a minimum safe schools allocation in an amount provided in the General Appropriations Act. Of the remaining balance of the safe schools allocation, two-thirds shall be allocated to school districts based on the most recent official Florida Crime Index provided by the Department of Law Enforcement and one-third shall be allocated based on each school district's proportionate share of the state's total unweighted full-time equivalent student enrollment.

(16) MENTAL HEALTH ASSISTANCE ALLOCATION.—The mental health assistance allocation is created to provide funding to assist school districts and charter schools in their compliance with the requirements and specifications established in s. 1006.05. These funds must be allocated annually in the General Appropriations Act to each eligible school district and developmental research school based on each entity's proportionate share of Florida Education Finance Program base funding, in accordance with s. 1006.05. The district funding allocation must include a minimum amount, as provided in the General Appropriations Act. Eligible charter schools are entitled to a proportionate share of district funding for the program. The allocated funds may not supplant funds that are provided for this purpose from other operating funds and may not be used to increase salaries or provide bonuses, except for

personnel hired to implement the plans required by s. 1006.05. School districts and schools must maximize third-party funding from Medicaid and private insurance when appropriate.

Section 27. For the purpose of incorporating the amendment made by this act to section 790.065, Florida Statutes, in a reference thereto, subsection (2) of section 397.6760, Florida Statutes, is reenacted to read:

397.6760 Court records; confidentiality.—

(2) This section does not preclude the clerk of the court from submitting the information required by s. 790.065 to the Department of Law Enforcement.

Section 28. For the purpose of incorporating the amendment made by this act to section 790.065, Florida Statutes, in a reference thereto, paragraph (e) of subsection (3) of section 790.335, Florida Statutes, is reenacted to read:

790.335 Prohibition of registration of firearms; electronic records.—

(3) EXCEPTIONS.—The provisions of this section shall not apply to:

(e)1. Records kept pursuant to the recordkeeping provisions of s. 790.065; however, nothing in this section shall be construed to authorize the public release or inspection of records that are made confidential and exempt from the provisions of s. 119.07(1) by s. 790.065(4)(a).

2. Nothing in this paragraph shall be construed to allow the maintaining of records containing the names of purchasers or transferees who receive unique approval numbers or the maintaining of records of firearm transactions.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/HB 7055
INTRODUCER:	Appropriations Committee; Education Committee; and Representatives Bileca and Diaz
SUBJECT:	Education
DATE:	February 28, 2018
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Androff, Bouck, Olenick	Graf	ED	**Fav/1 amendments**
2.	Sikes	Hansen	AP	**Fav/1 amendments**

Please see Section IX. for Additional Information:

AMENDMENTS - Significant amendments were recommended

I. Summary:

CS/HB 7055 creates education scholarship programs and streamlines state school choice scholarship program accountability provisions; specifies district school board oversight responsibilities; and promotes education, certification, and licensure opportunities for members of the U.S. military. Specifically, the bill:

- Establishes the Hope Scholarship Program for students subjected to bullying and other specified incidents in public schools.
- Streamlines and strengthens the oversight provisions for private schools participating in state school choice scholarship programs.
- Establishes Reading Scholarship Accounts for struggling readers in grades 3-5.
- Modifies the charter school application process, charter contract term and consolidation, and due process; and revises eligibility requirements for high-performing charter schools and allows replication of up to two such schools per year.
- Provides for district-independent autonomous schools under independent governing boards; and specifies flexibilities for such boards.
- Specifies district school board oversight and fiscal transparency responsibilities; and enumerates related duties for the district school superintendents, Auditor General, and Department of Education (DOE).
- Requires employee organizations for instructional personnel to include specified information in the application for renewal of registration and specifies recertification requirements for employee organizations.

- Designates March 25 as "Medal of Honor Day;" specifies related required instruction for students in public schools; and creates mechanisms for members of the U.S. military to fulfill certain certification and licensure requirements for specified purposes.
- Requires professional development resources disseminated by the DOE through the web-based statewide performance-support system to include sample course-at-a-glance and unit overview templates that school districts may use when developing curriculum.
- Requires paper-based administration of statewide, standardized English Language Arts and mathematics assessments for grades 7 and 8 by the 2019-2020 school year.
- Authorizes the Commissioner of Education to coordinate with specified education entities in the event of an emergency situation to assess the need for resources and assistance.
- Requires each school district to conduct a security risk assessment at each public school and conduct a self-assessment of the school districts' current safety and security practices using a format developed by the DOE, and deletes an outdated reference in current law to the Safety and Security Best Practices developed by the Office of Program Policy Analysis and Government Accountability.
- Modifies dual enrollment provisions relating to instructional materials for home education program students, and compensation by private schools for dual enrollment instruction provided by postsecondary education institutions.
- Deletes the obsolete July 1, 2007, deadline for the DOE to develop and operate an electronic individual education plan system for statewide use.

Additionally, the bill modifies funding provisions related to the Schools of Hope Program, supplemental academic instruction allocation, research-based reading instruction allocation, and teacher bonus for CAPE industry certifications attained by students.

The bill appropriates $19,350,000 in recurring funds from the General Revenue Fund and $850,000 in nonrecurring funds from the General Revenue Fund for the 2018-2019 fiscal year to implement the provisions of the bill.

The bill takes effect on July 1, 2018.

II. Present Situation:

The present situation for the relevant portions of the bill is discussed in the Effect of Proposed Changes section of this bill analysis.

III. Effect of Proposed Changes:

School Choice Scholarship - Hope Scholarship

Present situation

Florida law has established various scholarship programs to promote school choice and assist parents in the placement of their children in diverse educational settings including private schools.[1]

[1] Sections 1002.385, 1002.39, and 1002.395, F.S.

Bullying and Harassment

Florida law prohibits bullying or harassment of any student or employee of a public K-12 educational institution, [2] and requires each school district to adopt and review, at least every 3 years, a policy prohibiting bullying and harassment of a student or employee of a public K-12 educational institution.[3]

Currently, the School Environmental Safety Incident Reporting (SESIR) System requires all public school districts, including charter schools and traditional public schools, to report 26 types of serious safety incidents. SESIR provides data on incidents that occur, statewide and by school district, on school grounds, on school transportation, and at off-campus, school-sponsored events.[4]

Motor Vehicle Taxes

Florida sales and use tax, plus any applicable discretionary sales surtax, is due at the rate of six percent on all new or used motor vehicles sold, leased, delivered into, imported into, or used in Florida, unless a specific exemption applies.[5]

Effect of Proposed Changes

Purpose and Student Eligibility

The bill creates the Hope Scholarship Program (HSP) to provide the parent of a public school student who was subjected to battery; harassment; hazing; bullying; kidnapping; physical attack; robbery; sexual offenses, harassment, assault or battery; threat or intimidation; or fighting, an opportunity to transfer the student to another public school or to request and receive from the state a scholarship for the student to attend an eligible private school. The bill also specifics that a hope scholarship must remain in force until the student returns to public school or graduates from high school, whichever occurs first.

School District Obligations

The bill provides that upon receipt of a report of a specified incident, the school principal must provide a copy of the report to the parent and investigate the incident to determine if the incident must be reported as required by law.[6] Upon conclusion of the investigation or within 15 days after the incident was reported, whichever occurs first, the school district must notify the parent of the HSP and offer that parent an opportunity to enroll his or her student in another public school or to request and receive a scholarship to attend an eligible private school, subject to available funding.

[2] Section 1006.147(2), F.S.
[3] Section 1006.147(4), F.S.
[4] *Id.*
[5] Sections 212.02, 212.05, 212.07, 212.08, F.S.; Rule 12A-1.007, F.A.C.; *see Florida Department of Revenue, Sales and Use Tax on Motor Vehicles, available at* http://floridarevenue.com/Forms_library/current/gt800030.pdf.
[6] Section 1006.09 provides the duties of a school principal relating to student discipline and school safety.

Parent and Student Responsibilities

The bill requires a parent to apply for the admission of his or her student to an eligible private school, inform the student's school district when the parent withdraws his or her student to attend an eligible private school, and ensure that the student takes norm-referenced assessments offered by the private school or the standard statewide assessments. The bill specifies that a parent who fails to comply with the responsibilities established in the bill forfeits the scholarship and that each parent and student has an obligation to comply with the private school's published policies, including attendance.

Private School Eligibility

The bill specifies that an eligible private school may be sectarian or nonsectarian and must comply with all requirements for private schools to participate in state school choice scholarship programs.

Department of Education Obligations

The bill requires the Department of Education (DOE) to follow all requirements in law with respect to state school choice scholarship programs.[7] Additionally, the bill requires the DOE to contract with an independent entity to provide an annual evaluation of the HSP, which includes a review of the school climate and code of student conduct at specified public schools to determine best practices and areas for improvement involving reporting, investigating, and communicating a parent's and student's rights. The bill directs the annual evaluation to survey participating parents and students and review student participation.

Scholarship Funding Organization Responsibilities

The bill requires scholarship funding organizations (SFOs) to establish and distribute HSP scholarships for eligible students, notify parents and students regarding the HSP, and submit quarterly and annual reports to the DOE. Additionally, the bill requires the auditor general to conduct an annual operational audit of each SFO that participates in the program.

Funding

The bill provides that the maximum amount awarded to a student enrolled in an eligible private school must be determined as a percentage of the unweighted full-time equivalent funding amount for that state fiscal year and thereafter as follows:

- 88 percent for a student enrolled in kindergarten through grade 5.
- 92 percent for a student enrolled in grade 6 through grade 8.
- 96 percent for a student enrolled in grade 9 through grade 12.

The bill limits the maximum amount awarded to a student enrolled in a Florida public school located outside of the district to $750.

[7] The bill references section 1002.421, F.S. This statute is also revised in CS/HB 7055, sections 20-22, 25.

Hope Scholarship Program Tax Credit

The bill specifies that the HSP is funded by taxpayers who make an eligible contribution, limited to a single $105 payment, at the time of a vehicle purchase or registration in Florida and authorizes a credit of 100 percent of the amount of such eligible contribution by the taxpayer against the sales and use tax on the vehicle purchase or registration. Additionally, the bill includes accountability provisions to specify that a person who, with intent to unlawfully deprive or defraud the program of its moneys or the use or benefit thereof, fails to remit a contribution collected under the HSP is guilty of the theft of charitable funds and punishable as specified in law.

Rulemaking

The bill authorizes the State Board of Education and the Department of Revenue to adopt rules to administer the program.

State School Choice Scholarship Program Accountability

Present Situation

Florida law has established various scholarship programs to promote school choice and assist parents in the placement of their children in diverse educational settings, including private schools.[8] Currently, the three state school choice scholarship programs available to students to attend private schools in the state include the Florida Tax Credit (FTC) Scholarship Program, the John M. McKay (McKay) Scholarship for Students with Disabilities Program, and the Gardiner Scholarship Program.[9]

A private school that chooses to participate in a state scholarship program must comply with certain statutory requirements, such as meeting the applicable state and local health, safety, and welfare laws, code, and rules; employing teachers who meet specified requirements; and demonstrating fiscal soundness and accountability.[10]

Accordingly, a private school that chooses to participate in a state scholarship program must submit to the Department of Education (DOE) a Scholarship Compliance Form,[11] and has 60 days to resolve any outstanding compliance issues, if applicable.[12] To renew the school's eligibility for participation in a state scholarship program, the participating private school must

submit the Scholarship Compliance Form, Private School Annual Survey,[13] and fiscal soundness documentation.[14]

Site Visits

Currently, the DOE:

- May not make more than 7 site visits each year to private schools that participate in the FTC scholarship program.[15] However, the department may make additional site visits at any time to a school that has received a notice of noncompliance or a notice of proposed action within the previous two years.[16]
- May not make more than 3 random visits each year and may not make more than 1 random visit each year to the same private school that participates in the McKay Scholarship Program.[17]

The Gardiner Scholarship Program requirements do not address site visits.

Teacher Qualifications

A private school that participates in a state scholarship program must employ or contract with teachers who:[18]

- Hold baccalaureate or higher degrees;
- Have at least 3 years of experience in public or private schools; or
- Have special skills, knowledge, or expertise that qualifies them to provide instruction in the subjects taught.

Safety Inspection Reporting Requirements

Florida law specifies the requirements for private schools to participate in state school choice scholarship programs.[19] The requirements include, but are not limited to, fire safety and building safety.[20]

Currently, fire safety inspections of the private schools that participate in state scholarship programs are conducted by local fire departments.[21] The fire safety inspection reports are submitted by the private schools to the DOE.[22]

Financial Reporting Requirements

Florida law specifies financial reporting requirements for private schools and scholarship funding organizations (SFOs).

A private school that participates in the FTC scholarship program must provide a report from an independent certified public accountant, who performs the agreed-upon procedures developed pursuant to the law if the private school receives more than $250,000 in funds in a state fiscal year from that scholarship program.[23] Florida law specifies a similar provision for the Gardiner Scholarship Program.[24]

SFOs administer both the FTC scholarship program and the Gardiner Scholarship Program.[25] Currently, under the FTC scholarship program, an SFO must participate in the joint development of agreed-upon procedures to be performed by an independent certified accountant if the SFO provided more than $250,000 in scholarship funds to an eligible private school under the FTC scholarship program during the 2009-2010 state fiscal year.[26]

Effect of Proposed Changes

The bill clarifies and strengthens the accountability provisions for private schools that participate in state school choice scholarship programs; and consolidates common provisions regarding private school participation requirements, the DOE's obligations, and commissioner's authority under s. 1002.421, F.S.

Site Visits

The bill:

- Requires the DOE to conduct site visits to private schools entering a scholarship program for the first time and specifies that beginning with the 2019-2020 school year, a private school is not eligible to receive scholarship payments until a satisfactory site visit has been conducted and the private school is in compliance with the specified requirements in law.
- Authorizes the DOE to conduct site visits to any school participating in a scholarship program that has received a complaint about a violation of state law or State Board of Education rule or has received a notice of noncompliance or a notice of proposed action within the previous 2 years.

Teacher Qualifications

The bill modifies the private school eligibility requirements for participation in state scholarship programs to require such schools to publish on the schools' websites, or in a written format, information for parents regarding the school including, but not limited to, programs, services, and the qualifications of classroom teachers.

[26] Section 1002.395(6)(o)1.a., F.S.

Safety Inspection Reporting Requirements

The bill requires the DOE to coordinate with the State Fire Marshal to obtain access to fire inspection reports for private schools. The bill specifies that the authority conducting the fire safety inspection must certify to the State Fire Marshal, electronically or by means directed by the State Fire Marshal, that the annual inspection has been completed and that the private school is in full compliance.

Financial Reporting Requirements

The bill requires a private school that receives more than $250,000 in a state fiscal year from any state scholarship program to submit an annual financial report from an independent certified public accountant to the SFO or the DOE, as applicable.

The bill also clarifies the conditions for ineligibility for private schools to participate in state scholarship programs and requires the owner or operator of a private school to meet the same background screening requirements as owners of SFOs, and report results to the DOE.

Reading Instruction and Scholarship

Present Situation

Any student in kindergarten through grade 3 who exhibits a substantial deficiency in reading based upon screening, diagnostic, progress monitoring, or assessment data; statewide assessments; or teacher observations must be provided intensive, explicit, systematic, and multisensory reading interventions immediately following the identification of the reading deficiency.[27] A school may not wait for a student to receive a failing grade at the end of a grading period to identify the student as having a substantial reading deficiency and initiate intensive reading interventions.[28] The student's reading proficiency must be monitored and the intensive interventions must continue until the student demonstrates grade level proficiency in a manner determined by the district, which may include achieving a Level 3 on the statewide, standardized English Language Arts (ELA) assessment.[29]

To be promoted to grade 4, a student must score a Level 2 or higher on the statewide, standardized ELA assessment required for grade 3.[30] The parent of any student who exhibits a substantial deficiency in reading must be notified in writing of the student's deficiency in reading, current services that are provided to the child, and a description of the proposed intensive interventions and supports that will be provided to the child that are designed to remediate the reading deficiency.[31]

Each school district that has one or more of the 300 lowest-performing elementary schools based on the state reading assessment for the prior year must use supplemental academic instruction funds, along with the funds provided in the district's research-based reading instruction allocation[32] and other available funds, to provide an additional hour of instruction beyond the normal school day for intensive reading instruction.[33,34] The additional hour of instruction must be provided by teachers or reading specialists who have demonstrated effectiveness in teaching reading or by a K-5 mentoring reading program that is supervised by a teacher who is effective at teaching reading.[35]

After this requirement has been met, supplemental instruction strategies may include, but are not limited to: use of a modified curriculum, reading instruction, after-school instruction, tutoring, mentoring, a reduction in class size, extended school year, intensive skills development in summer school, and other methods of improving student achievement.[36] Supplemental instruction may be provided to a student in any manner and at any time during or beyond the regular 180-day term identified by the school as being the most effective and efficient way to best help that student progress from grade to grade and to graduate.[37]

Effect of Proposed Changes

The bill establishes reading scholarship accounts to provide educational options for students, and specifies that each student in grades 3 through 5 who is enrolled in a Florida public school is eligible for the reading scholarship if the student scored below a Level 3 on the grade 3 or grade 4 statewide, standardized ELA assessment in the prior school year. The eligibility requirements for students in grade 3 may apply to students who scored Level 1 on the grade 3 ELA assessment in the prior school year and were retained in grade 3. The bill authorizes an eligible nonprofit scholarship-funding organization (SFO) participating in the Florida Tax Credit Scholarship to establish reading scholarship accounts for eligible students.

The parent of a student receiving a reading scholarship must submit eligible expenses to the SFO for reimbursement of qualifying expenditures, which may include:

- Instructional materials;
- Curriculum;

The intensive reading instruction delivered in the additional hour and for other students must include: research-based reading instruction that has been proven to accelerate progress of students exhibiting a reading deficiency; differentiated instruction based on screening, diagnostic, progress monitoring, or student assessment data to meet students' specific reading needs; explicit and systematic reading strategies to develop phonemic awareness, phonics, fluency, vocabulary, and comprehension, with more extensive opportunities for guided practice, error correction, and feedback; and the integration of social studies, science, and mathematics-text reading, text discussion, and writing in response to reading. Section 1011.62(9)(a), F.S. Funds for comprehensive, research-based reading instruction must be allocated annually to each school district in the amount provided in the General Appropriations Act (GAA). Each eligible school district must receive the same minimum amount as specified in the GAA, and any remaining funds must be distributed to eligible school districts based on each school district's proportionate share of K-12 base funding. - Fees for summer education programs; after-school education programs; or specialized services by approved providers or by a hospital in the state.

The bill also specifies responsibilities for parents of eligible students, school districts, the Department of Education, and eligible SFOs.

Finally, the bill provides that no state liability arises from the award or use of the reading scholarship account.

Charter Schools

Present Situation

Charter School Application Process

Florida law establishes an application and review process for establishing a new charter school.[38] After a charter school application is approved by the sponsor, the initial startup commences with the beginning of the public school calendar for the district in which the charter is granted.[39] A charter school may defer the opening of the school's operations for up to 2 years to provide time for adequate facility planning.[40]

Charter Contract Term and Consolidation

The initial term of a charter contract is for 4 or 5 years.[41] A charter contract may be modified by the consolidation of multiple charters into a single charter if the charters are operated under the same governing board and physically located on the same campus, regardless of the renewal cycle.[42]

Due Process

A charter school sponsor is authorized to terminate or not renew a charter contract for one of the following reasons:[43]

- Failure to participate in the state's educational accountability system or meet student performance requirements.
- Failure to meet generally accepted standards of fiscal management.
- Violation of law.
- Other good cause shown.

At least 90 days before a nonrenewal or termination of a charter contract, the sponsor must notify the governing board of the charter school of the proposed action in writing.[44] The notice must

state in reasonable detail the grounds for the proposed action, and stipulate that the school's governing board may, within 14 days after receiving the notice, request a hearing to be conducted by the sponsor or an administrative law judge assigned by the Division of Administrative Hearings, at the sponsor's election.[45] If the sponsor conducts the hearing, the sponsor must decide upon nonrenewal or termination by majority vote and such decision is the final order.[46] If the sponsor chooses to have a hearing conducted by an administrative law judge, the judge must submit a recommended order to the sponsor.[47] A majority vote by the sponsor is required to adopt or modify the administrative law judge's recommended order.[48] The sponsor must issue a final order.[49]

Florida law also authorizes a dispute resolution hearing before the Charter School Appeal Commission[50] if goods and services are made available to the charter school through the contract with the school district and a dispute over contracted services occurs.[51]

High-Performing Charter School Designation, Replication, and Facility Capacity

Charter schools and operators of systems of charter schools with a track record of academic excellence and financial stability may earn "high-performing" status.[52] A high-performing charter school is a charter school that during each of the three previous years:[53]

- Received at least two school grades of "A" and no school grade below "B;"
- Has received an unqualified opinion[54] on each annual financial audit; and
- Has not received an annual financial audit that reveals a financial emergency condition in the most recent 3 fiscal years for which the audits are available.[55]

Among other benefits, the operator of a high-performing charter school may submit a streamlined application in any Florida school district to establish and operate a new charter school that substantially replicates its educational program.[56] A high-performing charter school may not be replicated more than once within the state in any given year and may not replicate again until each charter school established achieves high-performing status.[57]

A high-performing charter school is also authorized to increase its enrollment once per school year to more than the capacity identified in the charter school contract.[58] However, student enrollment may not exceed current facility capacity.[59]

School Leader Preparation Programs

School leader preparation programs are intended to enable aspiring school leaders to obtain a certificate in educational leadership.[60] School leader preparation programs must be competency-based, aligned to the principal leadership standards adopted by the State Board of Education, and open to individuals employed by public schools, including charter schools and virtual schools.[61] The Department of Education is required to establish a process for the approval of Level I and Level II school leader preparation programs.[62] There are two types of such programs:[63]

- Level I programs may be offered by school districts and postsecondary institutions and lead to initial certification in educational leadership to prepare individuals to serve as school administrators.
- Level II programs may be offered by school districts, build upon Level I training, and lead to renewal certification as a school principal.

Effect of Proposed Changes

Charter School Application Process

The bill extends, from 2 years to 3 years, the authority of charter schools to defer the opening of a school's operations.

Charter Contract Term and Consolidation

The bill extends the initial term of a charter contract from 4 or 5 years, as specified in law, to 5 years, excluding 1 planning year.

The bill authorizes a charter school to consolidate, during any term, multiple charters that are not in the same physical location into a single charter if the charters are operated under the same governing board, regardless of the renewal cycle. The bill requires the school district to report a charter school with a grade "C" or higher that closes as part of a consolidation, as a consolidation.

Due Process

The bill revises the sponsor's authority to not renew or terminate a charter contract to specify that the sponsor may do so only after finding clear and convincing evidence of the disqualifying grounds specified in law.[64] The bill also modifies such disqualifying grounds to provide that a violation of law must be material.

The bill eliminates the opportunity for a charter school governing board to request a direct hearing before the sponsor based on the nonrenewal or termination of its charter contract, effectively providing that such hearing must be before an administrative law judge. The bill also deletes the requirement that a recommended order of an administrative law judge be adopted or modified by the sponsor and requires the administrative law judge to award reasonable attorney fees and costs to the prevailing party.

The bill also modifies the process by which the charter school can resolve disputes over contracted goods and services by eliminating the dispute resolution hearing before the Charter School Appeal Commission. Instead, the bill authorizes a party to appeal to an administrative law judge appointed by the Division of Administrative Hearings, who is granted final order authority to rule on the dispute. The bill provides that the prevailing party must be awarded reasonable attorney fees and costs incurred during the mediation process, administrative proceeding, and any appeals.

High-Performing Charter School Designation, Replication, and Facility Capacity

The bill revises the criteria for determining a high-performing charter school by also allowing a school that receives two consecutive grades of "A" to be determined a high-performing charter school. For schools qualifying under this provision, the bill revises the financial eligibility requirements to require only 2 years of financial audits that received an unqualified opinion and no state of financial emergency. The bill also specifies that a high-performing charter school system must comply with application requirements for such systems, in addition to requirements for high-performing charter schools.

The bill also authorizes a high-performing charter school to replicate to two charter schools within the state in any year.

The bill specifies that student enrollment may not exceed capacity of the facility at the time of enrollment, effectively allowing a high-performing charter school that has expanded its original facility or has access to additional facilities, to increase student enrollment without being limited to the original facility's capacity.[65]

School Leader Preparation Programs

The bill adds charters schools and charter management organizations to the entities authorized to offer Level I or Level II school leader preparation programs.

Autonomous Schools and Independent Boards

Present situation

Principal Autonomy Program

In 2016,[66] the Legislature established the Principal Autonomy Pilot Program Initiative (PAPPI) within the Department of Education (DOE) to provide the highly effective principal of a

participating school with increased autonomy and authority to operate schools in a way that improves student achievement and school management.[67] The PAPPI was initially launched in 7 school districts (Broward, Duval, Jefferson, Madison, Palm Beach, Pinellas, and Seminole Counties) and an evaluation of the performance of all participating schools is required at the end of the 3 years.[68] A participating school is exempt from the school code except for specified laws related to assessments, civil rights, students with disabilities, compensation and salary schedules, educational facilities, and other topics.[69] School districts are authorized to participate in the PAPPI for a period of 3 years upon approval of the principal autonomy proposal and are required to submit an annual report to the State Board of Education.[70]

Effect of Proposed Changes

Principal Autonomy Program Initiative

Beginning with the 2018-2019 school year, the bill expands the principal autonomy program from a pilot authorized for three 3 years in 7 school districts to a statewide program. The bill also deletes the requirement for a 3-year evaluation of program effectiveness and annual reporting requirements for participating schools. The bill specifies that a school retains the exemptions from law provided in the Principal Autonomy Program Initiative (PAPI) as long as the school maintains a grade of "B" or higher.

District-Independent Autonomous Schools and Independent Governing Boards

The bill establishes district-independent autonomous schools to expand the impact of principals participating in the principal autonomy program to manage multiple schools under an independent governing board.

The bill also authorizes a district school superintendent to recommend the organization and operation of schools by an independent governing board, which are required to operate in accordance with the contract between the independent governing board and the district school board and the exemptions in law provided in the PAPI. The bill specifies that a school retains such exemptions from law beyond the term of the PAPI as long as the school maintains a grade of "B" or higher.

The bill authorizes a principal participating in the PAPI who successfully completes specified training to manage one or more schools that are operated by an independent governing board through a contract with the school board. The bill specifies that members of the governing board may not be employees of the school district or any school operated by the governing board. The bill also specifies that the salary supplement for each eligible participating principal may not exceed $10,000 for three years.

The bill provides that for tort liability purposes, the independent governing board, district-independent autonomous school, and its employees are governed by the waiver of state sovereign

immunity contained in law.[71] Additionally, the bill clarifies that the school board is not liable for civil damages under state law for the employment action or personal injury, property damage, or death resulting from an act or omission of an independent governing board, district-independent autonomous school, and its employees or agents.

Additionally, the bill provides that the district-independent autonomous school may be a private or public employer. The bill specifies that as a public employer, the district-independent autonomous school may participate in the Florida Retirement System upon application and approval as a covered group. If a district-independent autonomous school participates in the Florida Retirement System (FRS), the autonomous school's employees must be compulsory members of the FRS.

District School Board Oversight and Responsibility

Present Situation

Investigation and Audit Requirements

The Auditor General (AG) or a Certificated Public Accountant (CPA) is required to perform annual financial audits of district school board, the scope of which includes an examination of the financial statements, the issuance of a report on compliance and internal control in accordance with generally accepted government auditing standards, and the issuance of a report on compliance and internal control for each major Federal program.[72] The AG also conducts operational audits of district school boards in accordance with Government Auditing Standards at least every 3 years.[73] Operational audits must include an evaluation of management's performance in establishing and maintaining internal controls, including controls designed to prevent and detect fraud, waste, and abuse, and in administering assigned responsibilities.[74]

The Department of Education's (DOE's) Inspector General is responsible for promoting accountability, efficiency, and effectiveness and detecting fraud and abuse within school districts.[75] If the Commissioner of Education (commissioner) determines that the district school board is unwilling or unable to address substantiated allegations made by any person relating to waste, fraud, or financial mismanagement, the office must conduct, coordinate, or request investigations into such substantiated allegations.[76]

Currently, district school boards are permitted, but not required to employ an internal auditor to perform ongoing financial verification of the financial records of the school district.[77]

Budget, Expenditures, and Financial Disclosure Requirements

District School Board Budget

Florida law requires district school boards to prepare, adopt, and submit an annual budget to the commissioner,[78] and post a plain language version of each proposed, tentative, and official budget on their website and describe each budget item in terms that are easily understandable to the public.[79]

Expenditures

Florida law provides that district school board expenditures must be limited to amounts budgeted and no expenditures can be authorized or obligations incurred in excess of the budgetary appropriation.[80] However, a district school board may establish policies that allow expenditures to exceed amounts budgeted if the district school board approves the expenditure and amends the budget.[81]

Financial Disclosure

Currently, the Commission on Ethics (COE or commission) determines whether a person owing a public financial disclosure fine is a public officer or public employee.[82] If the COE determines that the person is a current public officer or public employee, the commission may notify the Chief Financial Officer or governing body of the amount owed.[83]

Lobbying, Travel, and Compensation

Lobbying

A person who has been elected to a school district office may not personally lobby the school district for compensation for a period of 2 years after vacating that office.[84]

Travel

Each member of a district school board is allowed, from the district school fund, reimbursement of travel expenses as authorized in law.[85] Any travel outside the district is governed by the rules of the State Board of Education.[86]

Compensation

Each member of the district school board receives a base salary based on the population of the county the district school board member serves.[87] However, for the 2010-2011 fiscal year, the salary of each district school board member was the amount calculated based on district population or the district's beginning salary for teachers who hold baccalaureate degrees, whichever is less.[88]

Equity in School Level Funding

Title I, Part A of the Elementary and Secondary Education Act, provides federal funds to LEAs and schools with high numbers or high percentages of children from low-income families to help ensure that all children meet challenging state academic standards.[89] In 2017, the Legislature amended the equity in school level funding act to require school districts to provide Title I funds directly to all eligible schools and limit the amount the district may withhold as follows:[90]

- One percent for parent involvement.
- A necessary and reasonable amount for administration not to exceed eight percent.
- A reasonable and necessary amount to provide:
  - Homeless programs;
  - Delinquent and neglected programs;
  - Prekindergarten programs and activities;
  - Private school equitable services; and
  - Transportation for foster care children to their school of origin or choice program.

After providing Title I funds to schools above the 75 percent poverty threshold, the district must distribute all remaining Title I funds to all eligible schools in accordance with federal law and regulation.[91]

District School Tax

Each district school board may levy up to 1.5 mills against the taxable value for fixed capital outlay for district schools, including charter schools at the discretion of the school board, to be used for purposes specified in law.[92] Additionally, district school boards are authorized to withhold an administrative fee for certain administrative and educational services provided to charter schools.[93]

Charter School Capital Outlay Funding

Florida law provides that charter school capital outlay funding must consist of revenue that results from the discretionary millage district school boards are authorized to levy[94] and state funds when such funds are appropriated in the General Appropriations Act.[95]

District Personnel Policies

A district school board member may not employ or appoint a relative to work under his or her direct supervision.[96]

Disposal of Property

Florida law requires that tangible personal property that has been properly classified as surplus by a district school board or Florida College System institution board of trustees to be disposed of in accordance with disposal procedures contained in law.[97]

Construction Flexibility

A district school board may, with a supermajority vote at a public meeting that begins no earlier than 5 p.m., adopt a resolution to implement one or more of the exceptions to the educational facilities construction requirements specified in law.[98]

Before voting on the resolution, a district school board must conduct a cost-benefit analysis prepared according to a professionally accepted methodology that describes how each exception selected by the district school board achieves cost savings, improves the efficient use of school district resources, and impacts the life-cycle costs and life span for each educational facility to be constructed, as applicable, and demonstrates that implementation of the exception will not compromise student safety or the quality of student instruction.[99] The district school board must conduct at least one public workshop to discuss and receive public comment on the proposed resolution and cost-benefit analysis.[100]

District school boards may adopt a resolution to implement exceptions to requirements of the uniform statewide building code for the planning and construction of public educational and ancillary plants adopted pursuant to Florida law relating to:[101]

- Interior non-load-bearing walls, by approving the use of fire-rated wood stud walls;
- Paved walkways, roadways, driveways, and parking areas, by approving the use of designated, stabilized, and well-drained gravel or grassed student parking areas;
- Standards for relocatables used as classroom space, by approving construction specifications for installation of relocatable buildings that do not have covered walkways leading to the permanent buildings onsite; and

District school boards must adhere to the State Requirements for Educational Facilities (SREF),[102] the uniform statewide building code for the planning and construction of public educational and ancillary plants, when planning and constructing educational facilities and ancillary plants. Facilities for non-conversion charter schools must meet the requirements of the uniform statewide building code, except for the SREF.[103]

Effect of Proposed Changes

Investigation and Audit Requirements

The bill specifies responsibilities for the AG, the DOE, district school boards, and district school superintendents.

The bill requires the AG to contact each district school board regarding operational audit findings and recommendations, and to contact the Legislative Auditing Committee (LAC) about a district school board's failure or inability to comply within the specified timeframe.

The bill requires the DOE's Office of Inspector General to investigate allegations or reports of possible fraud or abuse against a district school board by any member of the Cabinet, presiding officer of the Legislature, Chair of a substantive committee with jurisdiction, or the member of a board for which an investigation is sought.

Additionally, the bill requires the DOE to contract with an independent third party to conduct an investigation of all accounts and records if certain financial conditions existed in the 2015-2016 school year or thereafter. Such investigation must include a detailed review and analysis of specified documents and the results of the investigation must include recommendations for corrective action and controls to avoid a reoccurrence of future budget shortfalls. A final report must be provided to the district, DOE, LAC, and the district's financial emergency board, if applicable.

Additionally, the bill requires district school boards to:

- Provide evidence of the initiation of corrective action within 45 days after the date the action is requested by the AG and the evidence of completion of such action within 180 days.
- Employ an internal auditor to perform specified duties including the oversight of every functional and program area of the school system, if a school district receives more than $500 million annually in federal, state, and local funds.
- Conduct an audit overview at a public meeting if an audit contains a significant deficiency or material weakness, including the corrective action to be taken and a timeline for the completion of such action.

The bill also authorizes an individual school board member to request and receive budget documents and related information.

[102] Rule 6A-2.0010, F.A.C.
[103] Section 1002.33(18)(a), F.S.

The bill also requires the district school superintendent to reduce the district's administrative expenditures if a school district's approved operating budget general fund falls below 3 percent of projected general revenue funds for two consecutive fiscal years.

Budget, Expenditures, and Financial Disclosure Requirements

District School Board Budget

The bill adds to the school district's budget reporting requirements, which must be published on the district's website, to include graphical representations, for each public school within the district, of a summary financial of efficiency data and three-year fiscal trend information on the:

- Ratio of full-time equivalent (FTE) students to FTE instructional personnel
- Ratio of FTE students to FTE administrative personnel.
- Total operating expenses per FTE student.
- Total instructional expenditures per FTE student.
- General administrative expenses as a percent of the total budget.
- Rate of change in the general fund's ending fund balance which is not classified as restricted.

The bill requires the district school board website to include a link to a fiscal transparency tool, to be developed by the DOE, for taxpayers to evaluate and compare the financial efficiency of school districts. The bill also requires the district school board to provide a full explanation of any budget amendments at the board's scheduled public meeting.

Expenditures

The bill establishes a penalty that requires withholding of the salary of each school board member and district school superintendent if certain financial conditions, specified in law, exist, until such conditions are corrected.[104] The bill also restricts district school boards' travel expenditures under specified financial circumstances.

The bill requires the district school board to reimburse the cost of background screening for charter schools if the district school board does not notify the charter school of the employment eligibility of governing board members and instructional and noninstructional personnel within 14 days after the charter school submits the fingerprints.

Financial Disclosure

The bill:

- Adds district school boards to the entities whom the COE may contact regarding owed fines.
- Modifies collection methods for fines for failure to timely file disclosure of financial interest to require district school boards to withhold a specified amount of funding from employee salaries.
- Authorizes district school boards to retain a portion of the withheld funds to cover administrative costs.

[104] Section 2018.503(1), F.S. specifies such financial conditions.

Lobbying, Travel, and Compensation

Lobbying

The bill applies the restriction on lobbying for 2 years after vacating office to appointed school district superintendents,[105] which currently applies to locally elected school district officers.

Travel

The bill requires prior approval from the district school board for reimbursement of travel expenses for travel outside the district by a district school board member. The bill also requires a detailed, itemized list of travel-related expenses for travel outside the state, after public hearing on the request.

Compensation

The bill aligns school board member salaries with the beginning teacher salaries or the amount calculated by statute, whichever is less. In fiscal year 2016-17, the average salary for district school board member exceeded the beginning average salary for teachers in the following 12 of the 67 school districts in the state: Alachua ($782), Broward ($739), Dade ($850), Duval ($1,810), Hillsborough ($3,554), Lee ($1,525), Leon ($434), Marion ($528), Orange ($1,091), Palm Beach ($747), Pinellas ($544), and Volusia ($416).[106]

Equity in School Level Funding

The bill clarifies that when school districts distribute Title I funds to schools above the 75 percent poverty threshold, the 75 percent may include high schools above the 50 percent threshold as permitted by federal law.

The bill also provides that a district may also withhold a necessary and reasonable amount of Title I funds, not to exceed 1 percent, for eligible schools to provide:

- Extended learning opportunities, such as summer school, before-school and after-school programs, and additional class periods of instruction during the school day; and
- Supplemental academic and enrichment services as well as wrap-around services.

The bill excludes from the above specified 1 percent cap on the amount that a district may withhold for administration, Title I funds used for district-level educational services provided by the school district.

District School Tax

The bill prohibits a district school board from withholding administrative fees authorized in law from any charter school operating in the school district if payments under a lease-purchase agreement entered into by the district school board in the aggregate, including agreements entered into before June 30, 2009, exceed three-fourths of the proceeds from the discretionary millage.

[105] Currently, there are 26 appointed district school superintendents and 41 elected district school superintendents. Florida Department of Education, *Florida Public School Superintendents*, http://www.fldoe.org/accountability/data-sys/school-dis-data/superintendents.stml (last visited Feb. 19, 2018).

[106] Email, Florida Department of Education (Feb. 19, 2018).

Charter School Capital Outlay Funding

The bill deletes the requirement that charter school capital outlay must consist of the revenue from the discretionary millage district school boards are authorized to levy. Instead, the bill provides that such revenue must only be included in charter school capital outlay if the amount of state funds appropriated for charter school capital outlay in any fiscal year is not equal to or is less than the average charter school capital outlay funds per unweighted full-time equivalent student for the 2018-2019 fiscal year, and adjusted by changes in the Consumer Price Index from the previous year.

The bill also requires each school district to certify to the DOE, by October 1, the amount of debt service and participation requirements that can be reduced from the total discretionary millage revenue. The bill requires the AG to verify compliance with this provision during annual school board audits.

District Personnel Policies

The bill prohibits a district school superintendent from appointing or employing a relative to work under his or her direct supervision. The bill also clarifies that the prohibition does not apply to employees appointed or employed before the election or appointment of the board member of superintendent. The bill also requires the COE to accept and investigate any alleged violations of this prohibition.

Disposal of Property

The bill requires any tangible personal property that has been properly classified as surplus, marked for disposal, or otherwise unused by a district school board to be provided for a charter school's use on the same basis as it is made available to other public schools in the district. The bill prohibits a charter school that receives such property from selling or disposing of the property without the written permission of the school district.

Construction Flexibility

The bill expands the available exceptions a district school board may adopt to include any other provisions in SREF that limit the ability of a school to operate in a facility on the same basis as a charter school. To adopt the exception, the regional planning council must determine that there is sufficient shelter capacity within the school district as documented in the Statewide Emergency Shelter Plan.[107]

Collective Bargaining

Present Situation

Florida law authorizes employees to bargain collectively through representatives of their own choosing.[108] Legislative intent directs that district school boards have flexibility through the

[107] *See* s. 252.385(2)(b), F.S.
[108] Section 447.03, F.S.

collective bargaining process to assign teachers more equitably across the schools in the district.[109]

Every employee organization seeking to become a certified bargaining agent for public employees must submit an application for registration, which must be renewed annually by filling a renewal application under oath with the Public Employees Relations Commission (commission).[110] If recognized by the public employer, the organization must immediately petition the commission for certification and the commission must certify the organization if the unit is appropriate.[111] If not recognized by the public employer, the organization may file a petition for certification with the commission accompanied by signed, dated statements of 30 percent of the employees in the unit indicating a desire to be represented for collective bargaining purposes by the organization.[112] The commission is required to investigate the petition for sufficiency, provide for an appropriate hearing, and if found to be sufficient, order an election by secret ballot for certification.[113] The commission must certify an organization that is selected by a majority of employees voting in an election.[114]

Effect of Proposed Changes

The bill requires an employee organization that has been certified as the bargaining agent for a unit of instructional personnel[115] to include the following additional information in its annual registration renewal application:

- Number of employees in the bargaining unit who are eligible for representation by the employee organization.
- Number of employees represented by the organization, specifying the number of employees who pay dues and the number of members who do not pay dues.

The bill also requires an employee organization whose dues paying membership is less than 50 percent of the employees eligible for representation by the organization to petition the commission for recertification[116] as the exclusive representative of all employees in the unit, within one month after the date on which the organization applies for registration renewal. The bill specifies that the certification of an employee organization is revoked if the organization does not comply with the specified requirements.

Recognition of and Educational Opportunities for Members of the U.S. Military

Present Situation

Medal of Honor Day and Required Instruction

Florida law specifies required instruction for students in public schools.[117] Instructional staff must teach specified subject matter such as:[118]

- A character development program in kindergarten through grade 12; and
- The sacrifices that veterans have made in serving our country and protecting democratic values worldwide.[119]

The State Board of Education (SBE) is encouraged to adopt standards and pursue assessment of specified required instruction.[120]

Training and Licensure

Military Training to Meet Education and Licensure Requirements

Florida law provides for the award of college credit for military training and education.[121] Additionally, Florida law requires that for specified professions, to the fullest extent possible, military experience, training, or education must apply toward the requirements for licensure if such training is substantially similar to the experience, training, or education required for licensure.[122]

Apprenticeship Programs

The Department of Education (DOE) is responsible for administering apprenticeship[123] and preapprenticeship[124] programs and standards.[125]

Temporary Certificates

Temporary Certificate in Educational Leadership

The SBE is required to establish certification requirements for all school personnel.[126] Additionally, the SBE must adopt rules to allow an individual who meets the following criteria to be eligible for a temporary certificate in educational leadership:[127]

There are two types of school leader preparation programs:[128]

- Level I programs may be offered by school districts and postsecondary institutions and lead to initial certification in educational leadership to prepare individuals to serve as school administrators.
- Level II programs may be offered by school districts, build upon Level I training, and lead to renewal certification as a school principal.

Temporary Educator Certificate Validity Period

Each temporary certificate is valid for 3 school fiscal years and is nonrenewable.[129] The SBE may authorize the DOE in rule to extend the validity period of a temporary certificate for 2 years when the requirements for the professional certificate[130] were not completed due to the serious illness or injury of the applicant or other extraordinary extenuating circumstances or for 1 year if the temporary certificateholder is rated effective or highly effective based solely on a student learning growth formula approved by the Commissioner of Education.[131]

Junior Reserve Officer Training Instructors

A commissioned or noncommissioned military officer who is an instructor of junior reserve officer training is exempt from requirements for teacher certification, subject to conditions specified in law.[132]

Fee Waiver

The SBE is required to adopt, by rule, separate fees for applications, examinations, certification, certification renewal, late renewal, recordmaking, and recordkeeping.[133] Florida initial teacher certification examination fees are as follows:[134]

- General Knowledge Test, First-Time Registration $130
- Professional Education Test, First-Time Registration $150
- Subject Area Examination, First-Time Registration $200

Additionally, the fee for an initial temporary or professional certificate is $75.[135]

Enrollment in the Florida Virtual School

The Florida Virtual School (FLVS) is intended to develop and deliver online and distance learning education.[136] The school must serve any student in the state who meets the profile for success[137] in the online educational environment and must give priority to:[138]

- Students who need expanded access to courses in order to meet their educational goals, such as home education students and students in inner-city and rural high schools who do not have access to higher-level courses.
- Students seeking accelerated access in order to obtain a high school diploma at least one semester early.

Military families living outside the state may enroll, but must maintain their Florida residency.[139]

Public school students receiving full-time instruction in kindergarten through grade 12 by the FLVS must take all statewide assessments.[140] Unless alternate sites are agreed to, such statewide assessments must be taken at the school to which the student would be assigned according to district school board attendance areas.[141] A school district must provide the student with access to the school's testing facilities.[142]

Effect of Proposed Changes

Medal of Honor Day and Required Instruction

The bill designates March 25 of each year as "Medal of Honor Day" and authorizes the Governor to annually issue a proclamation as such, and call upon public officials and specified entities to commemorate the day and honor Medal of Honor[143] recipients.

The bill specifies that a character development program that incorporates the values of the recipients of the Congressional Medal of Honor and that is offered as part of a social studies, English Language Arts, or other schoolwide character building and veteran awareness initiative meets the required instruction related to character development and the sacrifices of veterans.

Training and Licensure

Military Training to Meet Education and Licensure Requirements

Reserves (USAFR) in place of any interrupted or delayed periods of training, study, apprenticeship, or practical experience if a member of the FNG or USAFR is called to active duty. The training or practical experience must be accepted if the board finds the standard and type of work or training performed in the FNG or USAFR to be substantially the same as the standard and type required under the laws of this state. Additionally, the bill requires that such members must request licensure or qualification by the respective board of examiners or other qualification board within 6 months after release from active duty.

Apprenticeship Programs

The bill requires the DOE to lead and coordinate outreach efforts to educate veterans about apprenticeship and career opportunities. Additionally, the bill specifies that any laws related to apprenticeship and preapprenticeship programs, adopted rules, or rules within approved apprenticeship agreements do not invalidate any special provisions for veterans, minority persons, or women in the standards, qualifications, or operations of apprenticeship programs.

Temporary Certificates

Temporary Certificate in Educational Leadership

The bill creates a pathway for veterans to become school principals. The bill requires the DOE to issue a 3-year temporary certificate in educational leadership to an individual who:

- Has earned a passing score on the Florida Educational Leadership Examination;
- Served as a commissioned or noncommissioned military officer in the U.S. Armed Forces for at least 3 years;
- Has been honorably discharged or has retired from the U.S. Armed forces; and
- Is employed fulltime in a position for which a Florida educator certificate is required in a Florida public school, state-supported school, or nonpublic school that has a Level II program.

The bill also requires that a Level II program must admit applicants who hold such temporary certificate and requires the DOE to issue a permanent school principal certificate to an individual who holds the temporary certificate and successfully completes the Level II program.

Temporary Educator Certificate Validity Period

The bill adds military service of an applicant's spouse as a circumstance for which the validity of a temporary certificate may be extended by the DOE, which must be adopted in SBE rule.

Junior Reserve Officer Training Instructors

The bill authorizes junior reserve officer training instructors to be eligible to receive funding through the Florida Teachers Classroom Supply Assistance program.[144] However, such instructors do not meet the definition of a classroom teacher[145] under the program.

Fee Waiver

The bill requires the SBE to waive initial general knowledge, professional education, and subject area examination fees and certification fees for:

- A member of the United States Armed Forces (USAF) or a reserve component who is serving or has served on active duty and the spouse of such a member.
- The surviving spouse of a member of the USAF or a reserve component who was serving on active duty at the time of death.
- An honorably discharged veteran of the USAF or a veteran of a reserve component who served on active duty and the spouse or surviving spouse of such a veteran.

Enrollment in the Florida Virtual School

The bill adds to the list of student groups who must receive priority for FLVS services. Specifically, the bill requires the FLVS to also give priority to children of an active duty member of the USAF who is not stationed in this state whose home of record[146] or state of legal residence[147] is Florida.

Additionally, the bill requires that industry certification examinations, national assessments, and statewide assessments offered by the school district to be available to all FLVS students. The school district must provide to the student the date and time of the administration of the examination or assessment.

Professional Development

Present Situation

[145] For purposes of the Florida Teachers Classroom Supply Assistance Program, the term "classroom teacher" means a certified teacher employed by a public school district or a public charter school in that district on or before September 1 of each year whose full-time or job-share responsibility is the classroom instruction of students in prekindergarten through grade 12, including full-time media specialists and certified school counselors serving students in prekindergarten through grade 12, who are funded through the Florida Education Finance Program. professional development.[148] The purpose of the professional development system is to increase student achievement, enhance classroom instructional strategies that promote rigor and relevance throughout the curriculum, and prepare students for continuing education and the workforce.[149] The system of professional development must align to the standards adopted by the state and support the framework for standards adopted by the National Staff Development Council.[150]

The DOE must disseminate to the school community proven model professional development programs that have demonstrated success in increasing rigorous and relevant content, increasing student achievement and engagement, meeting identified student needs, and providing effective mentorship activities to new teachers and training to teacher mentors.[151] The methods of dissemination must include a web-based statewide performance-support system including a database of exemplary professional development activities, a listing of available professional development resources, training programs, and available technical assistance.[152]

Effect of Proposed Changes

The bill specifies that professional development resources must include sample course-at-a-glance and unit overview templates that school districts may use when developing curriculum. The templates must provide an organized structure for addressing the Florida Standards, grade-level expectations, evidence outcomes, and 21st century skills that build to student's mastery of the standards at each grade level. Each template must support teaching to greater intellectual depth and emphasize transfer and application of concepts, content, and skills. The template must, at least, provide courses or year-long sequencing on concept-based unit overviews based on Florida Standards, describe the knowledge and vocabulary necessary for comprehension, and promote the instructional shifts required within the standards.

Statewide, Standardized Assessment Program

The purpose of Florida's student assessment program is to provide student academic achievement and learning gains data to students, parents, teachers, school administrators, and school district staff, which can be used to improve instruction.[153]

Present Situation

Statewide, Standardized Assessment Requirements

The statewide, standardized assessment program consists of:

Additionally, the statewide, standardized assessment program also includes the Florida Alternate Assessment (FAA) to assess students with disabilities in the content knowledge and skills necessary for successful grade-to-grade progression and high school graduation.[157]

Implementation Schedule

The Commissioner of Education (commissioner) must establish and publish on the department's website an implementation schedule for the ELA assessments and to the Mathematics assessments, including the Algebra I and Geometry EOC assessments.[158] All such assessments must be delivered through computer-based testing, however, the following assessments must be delivered in a computer-based format, as follows: the grade 3 Mathematics assessment beginning in the 2016-2017 school year; the grade 4 ELA assessment, beginning in the 2015-2016 school year; and the grade 4 Mathematics assessment, beginning in the 2016-2017 school year.[159]

In 2017, the Legislature amended s. 1008.22, F.S., to notwithstand the requirements specified in law, and require that the statewide, standardized ELA and mathematics assessments in grades 3 through 6 must be delivered only in a paper-based format, beginning with the 2017-2018 school year, and all such assessments must be paper-based no later than the 2018-2019 school year.[160]

Publication of Assessments

The DOE must publish each statewide standardized assessment and EOC assessment, excluding assessment retakes, at least once on a triennial basis pursuant to a schedule determined by the commissioner.[161] Each assessment, when published, must have been administered during the most recent school year.

Effect of Proposed Changes

The bill requires all statewide, standardized ELA and math assessments in grades 7 and 8 to be administered in a paper-based format by the 2019-2020 school year. The bill also requires that

[155] Rule 6A-1.09422(3)(c), F.A.C., requires all eligible students in grades five and eight to take the statewide Science assessment.

reading passages and writing prompts used in statewide, standardized ELA assessments incorporate grade-level social studies core curricular content.

Additionally, the bill specifies that the statewide, standardized assessments published by the DOE must be in a format that facilitates sharing of assessment items.

Other Provisions

Present Situation

Emergency Coordination

The Commissioner of Education (commissioner) is appointed by the SBE[162] and serves as the Executive Director of the Department of Education (DOE).[163] The DOE is responsible for coordinating, when necessary, the use of educational facilities during emergency activations among federal and state agencies, local school districts, colleges and universities.[164] The DOE also serves as the primary liaison in coordinating all phases of emergency response from pre-disaster planning through post disaster recovery of educational facilities.[165] Currently, DOE staff members are assigned to serve as contacts (called "Emergency Management (EM) Buddies") to provide the direct communications conduit between the DOE, district school superintendents, Florida College System (FCS) institution presidents, and state and local emergency operations centers.[166]

Electronic Individual Education Plan

In 2006,[167] the Legislature enacted legislation to require the DOE to develop and have an operating electronic individual education plan (IEP) in place for potential statewide use by July 1, 2007.[168] The law required the statewide system to be developed collaboratively with school districts and include input from school districts at that time developing or operating electronic IEP systems.[169]

Student Discipline and Safety

Each district school board is required to use the Safety and Security Best Practices developed by the Office of Program Policy Analysis and Government Accountability (OPPAGA) to conduct a self-assessment of the school districts' current safety and security practices.[170]

Based on these self-assessment findings, the district school superintendent must provide recommendations to the district school board that identify strategies and activities to improve school safety and security.[171]

Dual Enrollment

The dual enrollment articulation agreement required between postsecondary education institution and private schools in its geographic service area governs available courses and programs, student responsibilities, and costs, and must include provisions:[172]

- Expressing that costs associated with tuition and fees, including registration, and laboratory fees, will not be passed along to the student.
- Stating whether the private school will compensate the postsecondary institution for the standard tuition rate per credit hour for each dual enrollment course taken by its students.

Students who participate in dual enrollment from a home education program or private school are responsible for providing their own instructional materials, as specified in the dual enrollment articulation agreements.[173]

Effect of Proposed Changes

Emergency Coordination

The bill authorizes the commissioner to coordinate with school districts, FCS institutions, and the satellite offices of the Division of Blind Services and the Division of Vocational Rehabilitation to assess their need for resources and assistance in the event of an emergency situation. According to the DOE, the expanded authority will likely be helpful in securing necessary information in a timely manner before, during, and after any emergency situation.[174]

Electronic Individual Education Plan

The bill deletes an obsolete July 1, 2007, deadline for the DOE to develop and operate an electronic individual education plan (IEP) system for statewide use. The DOE has developed the required IEP system.[175]

Student Discipline and Safety

The bill requires each school district to conduct a security risk assessment at each public school and conduct a self-assessment of the school districts' current safety and security practices using a format developed by the DOE and deletes an outdated reference in current law to the Safety and Security Best Practices developed by the OPPAGA.[176]

Dual Enrollment

The bill modifies the dual enrollment eligibility requirements for home education program students and the related dual enrollment articulation agreement to remove the requirement that home education program students are responsible for their own instructional materials.

Additionally, the bill removes the requirement for the articulation agreement between a postsecondary education institution and a private school to include a provision indicating whether a private school will compensate a public postsecondary institution for dual enrollment instruction provided by the postsecondary institution to the private school's students. The bill, however, does not specify that the public postsecondary institution may not charge tuition and fees to the private school for the dual enrollment of its students.

Funding

Present Situation

Schools of Hope Grant Funds

In 2017, the Legislature created the Schools of Hope Program to provide funds to eligible schools of hope for specified purposes and to up to 25 traditional public schools that are required to submit a district managed turnaround plan for implementation.[177]

Supplemental Academic Instruction Allocation

Each school district that has one or more of the 300 lowest-performing elementary schools based on the state reading assessment for the prior year must use supplemental academic instruction funds, along with the funds provided in the district's research-based reading instruction allocation[178] and other available funds, to provide an additional hour of instruction beyond the normal school day for intensive reading instruction for the students in each of these schools.[179]

Research-based Reading Allocation

The research-based reading instruction allocation is created to provide comprehensive reading instruction to students in kindergarten through grade 12.[180]

[176] In 2014, the Legislature repealed the Best Financial Management Practices Review that authorized the Office of Program Policy Analysis and Government Accountability to develop best practices. Section 76, ch. 2014-39, L.O.F.

Career and Professional Education Bonus

Florida law authorizes the award of a bonus calculated as an additional full-time equivalent member based on the completion of a Career and Professional Education (CAPE) industry certification and authorizes the State Board of Education to adopt rules establishing programs, industry certifications and courses for which a student participating in such program may earn credit towards high school graduation.[181]

Effect of Proposed Changes

Schools of Hope Grant Funds

The bill authorizes the carryforward, for up to 5 years, of any funds allocated for the Schools of Hope Program which are not disbursed by June 30 of the fiscal year in which the funds are allocated.

Supplemental Academic Instruction Allocation

The bill renames the supplemental academic instruction categorical fund and revises the focus to require, beginning in the 2018-2019 school year, each school that earns a "D" or "F" grade to use the allocation to implement intervention and support strategies for school improvement and salary supplements. The bill also deletes the extra hour of instruction requirement for the 300 lowest-performing elementary schools from the authorized use of the allocation funds[182] and adds dropout prevention programs to the authorized uses of funds.

Research-based Reading Allocation

The bill provides priority within each school district to one or more of the 300 lowest-performing elementary schools, based on a 3-year average, to provide an additional hour per day of reading instruction. The bill authorizes permissive participation in such additional hour for students who scored a level 4 or 5 on the ELA assessment in the prior year. The bill requires the use of teachers who are certified or endorsed in reading in order to be eligible for the allocation and provides that each school district only has to submit a comprehensive reading plan for a school that earns a grade below a "B."

Career and Professional Education Bonus

The bill provides that a teacher may not be awarded a CAPE industry certification bonus if the teacher fails to maintain the security of any CAPE industry certification examination or otherwise violates the security or administration protocol of any assessment instrument that may result in a bonus being awarded to the teacher. Additionally, the bill expands the authority of the SBE to adopt rules by authorizing the SBE to establish the criteria under which a student's industry certification or grade may be rescinded.

Appropriations

The bill appropriates $19,350,000 in recurring funds from the General Revenue Fund to the Department of Education for the following purposes:

[181] *Id.* at (1)(o), F.S.
[182] The bill grants these schools priority in the research-based reading allocation.

- $250,000 for a competitive grant award to a state university to review the Florida Tax Credit scholarship Program; and
- $550,000 for dual enrollment instructional materials for home education program students.

Additionally, the bill appropriates $850,000 in nonrecurring funds from the General Revenue Fund to the Department of Education for the following purposes:

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

School Choice Scholarship - Hope Scholarship

The revenue estimating conference estimated proposed language similar to SB 1172,[183] except that the pertinent language in the proposal authorized a one-time contribution of $20 per vehicle purchase instead of $105 as in the current bill and contained a description of what the contribution form, on which the necessary contribution election must be made, will contain.[184] The contribution form description may impact the participation rate, which could affect the bill's fiscal impact.[185]

[183] SB 1172 is substantively similar to the Hope Scholarship Program provisions in HB 7055.
[184] Florida Office of Economic and Demographic Research, *Revenue Estimating Conference, Proposed Language -- Hope Scholarship,* (Dec. 1, 2017), *available at* http://edr.state.fl.us/Content/conferences/revenueimpact/archives/2018/_pdf/Impact1201.pdf (last visited Jan. 19, 2018).

Based on the proposed language with a $20 contribution amount and the form description, the revenue estimating conference estimates that the proposed language will reduce General Revenue Fund receipts by at least $7.9 million in Fiscal Year 2018-19 and each year thereafter.[186] Using the revenue estimate conference estimate with a $105 contribution amount specified in the bill, the bill may reduce General Revenue Fund receipts by at least $41.5 million.

B. Private Sector Impact:

School Choice Scholarship - Hope Scholarship

Private schools that enroll students who receive a Hope Scholarship Program award may see an increase in revenue.[187]

- Provides that a teacher may not receive the CAPE industry certification bonus if the teacher fails to maintain test security or administration protocol for any CAPE exam.
- Expands the authority the State Board of Education to adopt rules and criteria under which a student's industry certification or grade may be rescinded.
- Makes a technical change to the mental health assistance allocation.
- Requires all schools and district school board buildings to display the state motto, "In God We Trust," in a conspicuous place.
- Modifies charter school contract term and consolidation provisions, including:
  - Extending from 2 years to 3 years, the authority of charter schools to defer the opening of the schools' operations, upon approval of charter school application.
  - Extending the initial term of a charter contract from 4 or 5 years, as specified in law, to 5 years, excluding 1 planning year.

- Modifies charter school due process provisions, including:

  - Revising the charter school sponsor's authority to not renew or terminate a charter contract to specify that the sponsor may do so only after finding clear and convincing evidence of the disqualifying grounds specified in law.
  - Eliminating the opportunity for a charter school governing board to request a direct hearing before the sponsor based on the nonrenewal or termination of its charter contract, effectively providing that such hearing must be before an administrative law judge.
  - Eliminating the dispute resolution hearing before the Charter School Appeal Commission for disputes over contracted goods and services. Instead, a party must appeal to an administrative law judge appointed by the Division of Administrative Hearings, who is granted final order authority to rule on the dispute. The prevailing party must be awarded reasonable attorney fees and costs incurred during the mediation process, administrative proceeding, and any appeals.
- Modifies high-performing charter school provisions, including:

  - Authorizing a high-performing charter school to replicate to two charter schools within the state in any year.
- Requires a district school board to reimburse the cost of background screening for governing board members and instructional and noninstructional personnel if the district does not notify the charter school of the eligibility of such individuals within 14 days after the submission of fingerprints.

- Requires that professional development resources disseminated through the web-based statewide performance-support system include sample course-at-a-glance and unit overview templates that school districts may use when developing curricula. The templates must provide an organized structure for addressing the Florida Standards, grade-level expectations, evidence outcomes, and 21st Century skills that build toward mastery at each grade level.
- Requires, for an employee organization that has been certified as the bargaining agent for a unit of instructional personnel, the following:
  - Information that must be in an application for renewal of registration, including the number of employees eligible for representation by the employee organization and the number who are represented by the employee organization, specifying the

number of members who pay dues and the number of members who do not pay dues.
    - An employee organization whose dues paying membership is less than 50 percent of the employees eligible for representation in the unit to petition the Public Employees Relations Commission for recertification.
- Requires that industry certification examinations, national assessments, and statewide assessments offered by the school district must be available to all Florida Virtual School (FLVS) students.

- Establishes reading scholarship accounts for public school students in grades 3 through 5 who scored below a Level 3 on the grade 3 or grade 4 statewide, standardized ELA assessment in the prior school year. The scholarship must be offered on a first-come, first-served basis, and is contingent upon available funds, with the maximum award established annually in the General Appropriations Act.

The Committee on Appropriations (Passidomo) recommended the following:

Senate Substitute for Amendment (903516) (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Section 212.1832, Florida Statutes, is created to read:

212.1832 Credit for contributions to the Hope Scholarship Program.—

(1) Upon adoption of rules, the purchaser of a motor

240726

vehicle shall be granted a credit of 100 percent of an eligible contribution made to an eligible nonprofit scholarship-funding organization under s. 1002.40 against any tax imposed by the state and collected from the purchaser by a dealer, designated agent, or private tag agent as a result of the purchase or acquisition of a motor vehicle. For purposes of this subsection, the term "purchase" does not include the lease or rental of a motor vehicle.

(2) A dealer shall take a credit against any tax imposed by the state under this chapter on the purchase of a motor vehicle in an amount equal to the credit granted to the purchaser under subsection (1).

(3) For purposes of the distributions of tax revenue under s. 212.20, the department shall disregard any tax credits allowed under this section to ensure that any reduction in tax revenue received that is attributable to the tax credits results only in a reduction in distributions to the General Revenue Fund. The provisions of s. 1002.40 apply to the credit authorized by this section.

Section 2. Subsection (21) is added to section 213.053, Florida Statutes, to read:

213.053 Confidentiality and information sharing.—

(21)(a) The department may provide to an eligible nonprofit scholarship-funding organization, as defined in s. 1002.40, a dealer's name, address, federal employer identification number, and information related to differences between credits taken by the dealer pursuant to s. 212.1832(2) and amounts remitted to the eligible nonprofit scholarship-funding organization under s. 1002.40(13)(b)3. The eligible nonprofit scholarship-funding

240726

organization may use the information for purposes of recovering eligible contributions designated for that organization that were collected by the dealer but never remitted to the organization.

(b) Nothing in this subsection authorizes the disclosure of information if such disclosure is prohibited by federal law. An eligible nonprofit scholarship-funding organization is bound by the same requirements of confidentiality and the same penalties for a violation of the requirements as the department.

A sponsor shall receive and consider charter school applications received on or before August 1 of each calendar year for charter schools to be opened at the beginning of the school district's next school year, or to be opened at a time agreed to by the applicant and the sponsor. A sponsor may not refuse to receive a charter school application submitted before August 1 and may receive an application submitted later than August 1 if it chooses. Beginning in 2018 and thereafter, a sponsor shall receive and consider charter school applications received on or before February 1 of each calendar year for charter schools to be opened 18 months later at the beginning of the school district's

school year, or to be opened at a time agreed to by the applicant and the sponsor. A sponsor may not refuse to receive a charter school application submitted before February 1 and may receive an application submitted later than February 1 if it chooses. A sponsor may not charge an applicant for a charter any fee for the processing or consideration of an application, and a sponsor may not base its consideration or approval of a final application upon the promise of future payment of any kind. Before approving or denying any application, the sponsor shall allow the applicant, upon receipt of written notification, at least 7 calendar days to make technical or nonsubstantive corrections and clarifications, including, but not limited to, corrections of grammatical, typographical, and like errors or missing signatures, if such errors are identified by the sponsor as cause to deny the final application.

1. In order to facilitate an accurate budget projection process, a sponsor shall be held harmless for FTE students who are not included in the FTE projection due to approval of charter school applications after the FTE projection deadline. In a further effort to facilitate an accurate budget projection, within 15 calendar days after receipt of a charter school application, a sponsor shall report to the Department of Education the name of the applicant entity, the proposed charter school location, and its projected FTE.

2. In order to ensure fiscal responsibility, an application for a charter school shall include a full accounting of expected assets, a projection of expected sources and amounts of income, including income derived from projected student enrollments and from community support, and an expense projection that includes

full accounting of the costs of operation, including start-up costs.

3.a. A sponsor shall by a majority vote approve or deny an application no later than 90 calendar days after the application is received, unless the sponsor and the applicant mutually agree in writing to temporarily postpone the vote to a specific date, at which time the sponsor shall by a majority vote approve or deny the application. If the sponsor fails to act on the application, an applicant may appeal to the State Board of Education as provided in paragraph (c). If an application is denied, the sponsor shall, within 10 calendar days after such denial, articulate in writing the specific reasons, based upon good cause, supporting its denial of the application and shall provide the letter of denial and supporting documentation to the applicant and to the Department of Education.

b. An application submitted by a high-performing charter school identified pursuant to s. 1002.331 or a high-performing charter school system identified pursuant to s. 1002.332 may be denied by the sponsor only if the sponsor demonstrates by clear and convincing evidence that:

(II) The charter school proposed in the application does not materially comply with the requirements in paragraphs (9)(a)-(f);

(III) The proposed charter school’s educational program does not substantially replicate that of the applicant or one of the applicant’s high-performing charter schools;

(IV) The applicant has made a material misrepresentation or

false statement or concealed an essential or material fact during the application process; or

(V) The proposed charter school's educational program and financial management practices do not materially comply with the requirements of this section.

Material noncompliance is a failure to follow requirements or a violation of prohibitions applicable to charter school applications, which failure is quantitatively or qualitatively significant either individually or when aggregated with other noncompliance. An applicant is considered to be replicating a high-performing charter school if the proposed school is substantially similar to at least one of the applicant's high-performing charter schools and the organization or individuals involved in the establishment and operation of the proposed school are significantly involved in the operation of replicated schools.

c. If the sponsor denies an application submitted by a high-performing charter school or a high-performing charter school system, the sponsor must, within 10 calendar days after such denial, state in writing the specific reasons, based upon the criteria in sub-subparagraph b., supporting its denial of the application and must provide the letter of denial and supporting documentation to the applicant and to the Department of Education. The applicant may appeal the sponsor's denial of the application in accordance with paragraph (c).

4. For budget projection purposes, the sponsor shall report to the Department of Education the approval or denial of an application within 10 calendar days after such approval or

denial. In the event of approval, the report to the Department of Education shall include the final projected FTE for the approved charter school.

5. Upon approval of an application, the initial startup shall commence with the beginning of the public school calendar for the district in which the charter is granted. A charter school may defer the opening of the school's operations for up to 3 ~~2~~ years to provide time for adequate facility planning. The charter school must provide written notice of such intent to the sponsor and the parents of enrolled students at least 30 calendar days before the first day of school.

Section 9. Subsection (1) of section 1002.331, Florida Statutes, is amended to read:

(c) Did not receive a financial audit that revealed one or more of the financial emergency conditions set forth in s. 218.503(1) in the most recent 3 fiscal years for which such audits are available. However, this requirement is deemed met for a charter school-in-the-workplace if there is a finding in an audit that the school has the monetary resources available to

a. In making such a determination, the commissioner may consider factors that include, but are not limited to, acts or omissions by an owner or operator which led to a previous denial or revocation of participation in an education scholarship program; an owner's or operator's failure to reimburse the department for scholarship funds improperly received or retained by a school; imposition of a prior criminal sanction related to an owner's or operator's management or operation of an educational institution; imposition of a civil fine or administrative fine, license revocation or suspension, or program eligibility suspension, termination, or revocation related to an owner's or operator's management or operation of an educational institution; or other types of criminal proceedings in which an owner or operator was found guilty of, regardless of adjudication, or entered a plea of nolo contendere or guilty to, any offense involving fraud, deceit, dishonesty, or moral turpitude.

b. For purposes of this subparagraph, the term "owner or operator" includes an owner, operator, superintendent, or principal of, or a person who has equivalent decisionmaking authority over, a private school participating in the scholarship program.

(b) The commissioner's determination is subject to the following:

1. If the commissioner intends to deny, suspend, or revoke a private school's participation in the program, the department

shall notify the private school of such proposed action in writing by certified mail and regular mail to the private school's address of record with the department. The notification shall include the reasons for the proposed action and notice of the timelines and procedures set forth in this paragraph.

2. The private school that is adversely affected by the proposed action shall have 15 days after receipt of the notice of proposed action to file with the department's agency clerk a request for a proceeding pursuant to ss. 120.569 and 120.57. If the private school is entitled to a hearing under s. 120.57(1), the department shall refer the request to the Division of Administrative Hearings.

3. Upon receipt of a request referred pursuant to this paragraph, the director of the Division of Administrative Hearings shall expedite the hearing and assign an administrative law judge who shall commence a hearing within 30 days after the receipt of the formal written request by the division and enter a recommended order within 30 days after the hearing or within 30 days after receipt of the hearing transcript, whichever is later. Each party shall be allowed 10 days in which to submit written exceptions to the recommended order. A final order shall be entered by the agency within 30 days after the entry of a recommended order. The provisions of this subparagraph may be waived upon stipulation by all parties.

(c) The commissioner may immediately suspend payment of scholarship funds if it is determined that there is probable cause to believe that there is:

1. An imminent threat to the health, safety, or welfare of the students; or

2. Fraudulent activity on the part of the private school. Notwithstanding s. 1002.22, in incidents of alleged fraudulent activity pursuant to this section, the department's Office of Inspector General is authorized to release personally identifiable records or reports of students to the following persons or organizations:

Any person, entity, or authority issuing a subpoena for law enforcement purposes when the court or other issuing agency has ordered that the existence or the contents of the subpoena or the information furnished in response to the subpoena not be disclosed, consistent with the Family Educational Rights and Privacy Act, 20 U.S.C. s. 1232g, and 34 C.F.R. s. 99.31.

The commissioner's suspension of payment pursuant to this paragraph may be appealed pursuant to the same procedures and timelines as the notice of proposed action set forth in paragraph (b).

(9) PARENT AND STUDENT RESPONSIBILITIES FOR PROGRAM PARTICIPATION.—A parent who applies for a Hope Scholarship is exercising his or her parental option to place his or her

student in an eligible private school.

(a) The parent must select an eligible private school and apply for the admission of his or her student.

(b) The parent must inform the student's school district when the parent withdraws his or her student to attend an eligible private school.

(c) Any student participating in the program must comply with the regular attendance requirements of s. 1003.01(13) and remain in attendance throughout the school year unless excused by the school for illness or other good cause.

(d) Each parent and each student has an obligation to the private school to comply with the private school's published policies.

(e) Upon reasonable notice to the department and the school district, the parent may remove the student from the private school and place the student in a public school in accordance with this section.

(f) The parent must ensure that the student participating in the program takes the norm-referenced assessment offered by the private school. The parent may also choose to have the student participate in the statewide assessments pursuant to s. 1008.22. If the parent requests that the student participating in the program take the statewide assessments pursuant to s. 1008.22 and the private school has not chosen to offer and administer the statewide assessments, the parent is responsible for transporting the student to the assessment site designated by the school district.

(g) Upon receipt of a scholarship warrant, the parent to whom the warrant is made must restrictively endorse the warrant

to the private school for deposit into the account of the private school. The parent may not designate any entity or individual associated with the participating private school as the parent's attorney in fact to endorse a scholarship warrant. A parent who fails to comply with this paragraph forfeits the scholarship.

(10) OBLIGATIONS OF NONPROFIT SCHOLARSHIP-FUNDING ORGANIZATIONS.—An organization may establish scholarships for eligible students by:

(d) Notifying the department of any known or suspected violation of this section by a private school, parent, or student.

(11) FUNDING AND PAYMENT.—

(a) The maximum amount awarded to a student enrolled in an eligible private school shall be determined as a percentage of the unweighted FTE funding amount for that state fiscal year and thereafter as follows:

1. Eighty-eight percent for a student enrolled in kindergarten through grade 5.

2. Ninety-two percent for a student enrolled in grade 6

through grade 8.

3. Ninety-six percent for a student enrolled in grade 9 through grade 12.

(b) The maximum amount awarded to a student enrolled in a Florida public school located outside of the district in which the student resides shall be $750.

(c) When a student enters the program, the organization must receive all documentation required for the student's participation, including a copy of the report of the substantiated incident received pursuant to subsection (5) and the private school's and the student's fee schedules. The initial payment shall be made after verification of admission acceptance, and subsequent payments shall be made upon verification of continued enrollment and attendance at the private school.

(d) Payment of the scholarship by the eligible nonprofit scholarship-funding organization may be by individual warrant made payable to the student's parent or by funds transfer made by debit cards, electronic payment cards, or other means of payment which the department deems to be commercially viable or cost-effective. If payment is made by warrant, the warrant must be delivered by the eligible nonprofit scholarship-funding organization to the private school of the parent's choice, and the parent shall restrictively endorse the warrant to the private school. If payment is made by funds transfer, the parent must approve each payment before the scholarship funds may be deposited. The parent may not designate any entity or individual associated with the participating private school as the parent's attorney in fact to endorse a scholarship warrant or approve a

funds transfer.

(e) An eligible nonprofit scholarship-funding organization shall obtain verification from the private school of a student's continued attendance at the school for each period covered by a scholarship payment.

(f) Payment of the scholarship shall be made by the eligible nonprofit scholarship-funding organization no less frequently than on a quarterly basis.

(g) An organization may use up to 3 percent of eligible contributions received during the state fiscal year in which such contributions are collected for administrative expenses if the organization has operated as an eligible nonprofit scholarship-funding organization for at least the preceding 3 fiscal years and did not have any findings of material weakness or material noncompliance in its most recent audit under s. 1002.395(6)(m). Such administrative expenses must be reasonable and necessary for the organization's management and distribution of eligible contributions under this section. Funds authorized under this paragraph may not be used for lobbying or political activity or expenses related to lobbying or political activity. Up to one-third of the funds authorized for administrative expenses under this paragraph may be used for expenses related to the recruitment of contributions from taxpayers. An eligible nonprofit scholarship-funding organization may not charge an application fee.

(h) Moneys received pursuant to this section do not constitute taxable income to the qualified student or his or her parent.

(12) OBLIGATIONS OF THE AUDITOR GENERAL.—

(a) The Auditor General shall conduct an annual operational audit of accounts and records of each organization that participates in the program. As part of this audit, the Auditor General shall verify, at a minimum, the total number of students served and transmit that information to the department. The Auditor General shall provide the commissioner with a copy of each annual operational audit performed pursuant to this subsection within 10 days after the audit is finalized.

(b) The Auditor General shall notify the department of any organization that fails to comply with a request for information.

(c) An organization shall report to the Department of Revenue, on or before the 20th day of each month, the total amount of contributions received pursuant to paragraph (b) in the preceding calendar month on a form provided by the Department of Revenue. Such report shall include the federal employer identification number of each tax collector, authorized agent of the Department of Revenue, or dealer who remitted contributions to the organization during that reporting period.

(d) A person who, with intent to unlawfully deprive or defraud the program of its moneys or the use or benefit thereof, fails to remit a contribution collected under this section is guilty of theft of charitable funds, punishable as follows:

2. If the total amount stolen is $300 or more, but less than $20,000, the offense is a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

3. If the total amount stolen is $20,000 or more, but less than $100,000, the offense is a felony of the second degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(16) RULES.—The State Board of Education shall adopt rules to administer this section.

Section 16. Present subsection (7) of section 1002.421, Florida Statutes, is amended and redesignated as subsection

240726

(11), a new subsection (7) and subsections (8), (9), and (10) are added to that section, and subsection (1), paragraphs (h) and (i) of subsection (2), and subsections (4) and (5) of that section are amended, to read:

1002.421 Accountability of private schools participating in state school choice scholarship programs.—

(1)(a) A Florida private school participating in the Florida Tax Credit Scholarship Program established pursuant to s. 1002.395 or an educational scholarship program established pursuant to this chapter must comply with all requirements of this section in addition to private school requirements outlined in s. 1002.42, specific requirements identified within respective scholarship program laws, and other provisions of Florida law that apply to private schools.

(b) For purposes of this section, the term "owner or operator" includes an owner, operator, superintendent, or principal of an eligible private school or a person with equivalent decisionmaking authority over an eligible private school.

(2) A private school participating in a scholarship program must be a Florida private school as defined in s. 1002.01(2), must be registered in accordance with s. 1002.42, and must:

(h) Employ or contract with teachers who:

1. Unless otherwise specified under this paragraph, hold baccalaureate or higher degrees, have at least 3 years of teaching experience in public or private schools, or have objectively identified special skills, knowledge, or expertise that qualifies them to provide instruction in subjects taught.

2. Hold baccalaureate or higher degrees from a regionally

or nationally accredited college or university in the United States or from a recognized college or university in another country. This subparagraph applies to full-time teachers hired after July 1, 2018, who are teaching students in grade 2 or above.

The private school must report to the department, in a format developed by the department, the qualifications of each teacher hired by the school, including, but not limited to, an explanation of the objectively identified special skills or expertise of such teachers, as applicable. Additionally, the private school must provide to the parent of each scholarship student, on the school's website or on a written form provided by the school, the qualifications of each classroom teacher.

(i) Require each employee and contracted personnel with direct student contact, upon employment or engagement to provide services, to undergo a state and national background screening, pursuant to s. 943.0542, by electronically filing with the Department of Law Enforcement a complete set of fingerprints taken by an authorized law enforcement agency or an employee of the private school, a school district, or a private company who is trained to take fingerprints and deny employment to or terminate an employee if he or she fails to meet the screening standards under s. 435.04. Results of the screening shall be provided to the participating private school. For purposes of this paragraph:

1. An "employee or contracted personnel with direct student contact" means any employee or contracted personnel who has unsupervised access to a scholarship student for whom the

private school is responsible.

2. The costs of fingerprinting and the background check shall not be borne by the state.

3. Continued employment of an employee or contracted personnel after notification that he or she has failed the background screening under this paragraph shall cause a private school to be ineligible for participation in a scholarship program.

4. An employee or contracted personnel holding a valid Florida teaching certificate who has been fingerprinted pursuant to s. 1012.32 and who is not ineligible for employment pursuant to s. 1012.315 is not required to comply with the provisions of this paragraph.

(4) A private school that accepts scholarship students under this chapter ~~s. 1002.39 or s. 1002.395~~ must:

(a) Disqualify instructional personnel and school administrators, as defined in s. 1012.01, from employment in any position that requires direct contact with students if the personnel or administrators are ineligible for such employment under s. 1012.315.

(b) Adopt and faithfully implement policies establishing standards of ethical conduct for instructional personnel and school administrators. The policies must require all instructional personnel and school administrators, as defined in s. 1012.01, to complete training on the standards; establish the duty of instructional personnel and school administrators to report, and procedures for reporting, alleged misconduct by other instructional personnel and school administrators which affects the health, safety, or welfare of a student; and include

an explanation of the liability protections provided under ss. 39.203 and 768.095. A private school, or any of its employees, may not enter into a confidentiality agreement regarding terminated or dismissed instructional personnel or school administrators, or personnel or administrators who resign in lieu of termination, based in whole or in part on misconduct that affects the health, safety, or welfare of a student, and may not provide the instructional personnel or school administrators with employment references or discuss the personnel's or administrators' performance with prospective employers in another educational setting, without disclosing the personnel's or administrators' misconduct. Any part of an agreement or contract that has the purpose or effect of concealing misconduct by instructional personnel or school administrators which affects the health, safety, or welfare of a student is void, is contrary to public policy, and may not be enforced.

(c) Before employing instructional personnel or school administrators in any position that requires direct contact with students, conduct employment history checks of each of the personnel's or administrators' previous employers, screen the personnel or administrators through use of the educator screening tools described in s. 1001.10(5), and document the findings. If unable to contact a previous employer, the private school must document efforts to contact the employer.

The department shall suspend the payment of funds under this chapter ~~ss. 1002.39 and 1002.395~~ to a private school that ~~knowingly~~ fails or refuses to comply with this subsection, and

shall prohibit the school from enrolling new scholarship students, for 1 fiscal year and until the school complies.

(5) The failure or refusal ~~inability~~ of a private school to meet the requirements of this section shall constitute a basis for the ineligibility of the private school to participate in a scholarship program as determined by the department. Additionally, a private school is ineligible to participate in a state scholarship program under this chapter if the owner or operator of the private school was a debtor in a voluntary or involuntary bankruptcy petition within the most recent 5 years.

(7)(a) The department must annually visit at least 5 percent, and may annually visit up to 7 percent, of the private schools that participate in the state scholarship programs under this chapter. Site visits required under subsection (8) are not included in the annual site visits authorized under this paragraph.

(b) The purposes of the site visits are to verify compliance with the provisions of this section aimed at protecting the health, safety, and welfare of students and to verify the information reported by the schools concerning the enrollment and attendance of students, the credentials of teachers, background screening of teachers, and teachers' fingerprinting results, as required by rules of the State Board of Education and this section.

(c) The department may make followup site visits at any time to any school that has received a notice of noncompliance or a notice of proposed action within the previous 2 years, or for a cause that affects the health, safety, and welfare of a student.

240726

(8)(a) The department shall visit each private school that notifies the department of the school's intent to participate in a state scholarship program under this chapter.

(b) The purpose of the site visit is to determine that the school meets the applicable state and local health, safety, and welfare codes and rules pursuant to this section.

(9) The Division of State Fire Marshal shall annually provide to the department a fire safety inspection report, prepared by the local fire departments or by entities with whom they contract to perform fire safety inspections of private schools, for each private school that participates in a state scholarship program under this chapter.

(10) If a private school that participates in a state scholarship program under this chapter receives more than $250,000 in funds from the scholarships awarded under this chapter in a state fiscal year, the school must provide to the department a report of the balance sheet and statement of income expenditures in accordance with generally accepted accounting procedures from an independent certified public accountant who performs the agreed-upon procedures.

(11) ~~(7)~~ The State Board of Education shall adopt rules pursuant to ss. 120.536(1) and 120.54 to administer and enforce this section.

Section 17. Section 1002.43, Florida Statutes, is repealed.

Section 18. Subsection (5) of section 1002.55, Florida Statutes, is amended to read:

1002.55 School-year prekindergarten program delivered by private prekindergarten providers.—

(5)(a) Notwithstanding paragraph (3)(b), a private

240726

prekindergarten provider may not participate in the Voluntary Prekindergarten Education Program if the provider has child disciplinary policies that do not prohibit children from being subjected to discipline that is severe, humiliating, frightening, or associated with food, rest, toileting, spanking, or any other form of physical punishment as provided in s. 402.305(12).

(b) Notwithstanding any other provision of law, if a private prekindergarten provider has been cited for a class I violation, as defined by rule, the coalition may refuse to contract with the provider.

Section 19. Subsection (13) of section 1003.01, Florida Statutes, is amended to read:

1003.01 Definitions.—As used in this chapter, the term:

(13) "Regular school attendance" means the actual attendance of a student during the school day as defined by law and rules of the State Board of Education. Regular attendance within the intent of s. 1003.21 may be achieved by a student's full-time attendance in one of the following options:

~~(b) A parochial, religious, or denominational school;~~

(b)~~(c)~~ A private school, as defined in s. 1002.01(2) and in compliance with s. 1002.42, including, but not limited to, a private parochial, religious, or denominational school; and a private school supported in whole or in part by tuition charges

240726

or by endowments or gifts. This option includes an eligible private school in which a student attends as a participant in a scholarship program, as defined in s. 1002.01(3).~~;~~

(c)~~(d)~~ A home education program, as defined in s. 1002.01(1), which ~~that~~ meets the requirements of chapter 1002.~~;~~ ~~or~~

~~(e) A private tutoring program that meets the requirements of chapter 1002.~~

Section 20. Paragraph (f) of subsection (1) of section 1003.26, Florida Statutes, is amended to read:

1003.26 Enforcement of school attendance.—The Legislature finds that poor academic performance is associated with nonattendance and that school districts must take an active role in promoting and enforcing attendance as a means of improving student performance. It is the policy of the state that each district school superintendent be responsible for enforcing school attendance of all students subject to the compulsory school age in the school district and supporting enforcement of school attendance by local law enforcement agencies. The responsibility includes recommending policies and procedures to the district school board that require public schools to respond in a timely manner to every unexcused absence, and every absence for which the reason is unknown, of students enrolled in the schools. District school board policies shall require the parent of a student to justify each absence of the student, and that justification will be evaluated based on adopted district school board policies that define excused and unexcused absences. The policies must provide that public schools track excused and unexcused absences and contact the home in the case of an

unexcused absence from school, or an absence from school for which the reason is unknown, to prevent the development of patterns of nonattendance. The Legislature finds that early intervention in school attendance is the most effective way of producing good attendance habits that will lead to improved student learning and achievement. Each public school shall implement the following steps to promote and enforce regular school attendance:

(1) CONTACT, REFER, AND ENFORCE.—

(f)1. If the parent of a child who has been identified as exhibiting a pattern of nonattendance enrolls the child in a home education program pursuant to chapter 1002, the district school superintendent shall provide the parent a copy of s. 1002.41 and the accountability requirements of this paragraph. The district school superintendent shall also refer the parent to a home education review committee composed of the district contact for home education programs and at least two home educators selected by the parent from a district list of all home educators who have conducted a home education program for at least 3 years and who have indicated a willingness to serve on the committee. The home education review committee shall review the portfolio of the student, as defined by s. 1002.41, every 30 days during the district's regular school terms until the committee is satisfied that the home education program is in compliance with s. 1002.41(1)(b). The first portfolio review must occur within the first 30 calendar days of the establishment of the program. The provisions of subparagraph 2. do not apply once the committee determines the home education program is in compliance with s. 1002.41(1)(b).

240726

2. If the parent fails to provide a portfolio to the committee, the committee shall notify the district school superintendent. The district school superintendent shall then terminate the home education program and require the parent to enroll the child in an attendance option that meets the definition of "regular school attendance" under s. 1003.01(13)(a) or (b) ~~s. 1003.01(13)(a), (b), (c), or (e)~~, within 3 days. Upon termination of a home education program pursuant to this subparagraph, the parent shall not be eligible to reenroll the child in a home education program for 180 calendar days. Failure of a parent to enroll the child in an attendance option as required by this subparagraph after termination of the home education program pursuant to this subparagraph shall constitute noncompliance with the compulsory attendance requirements of s. 1003.21 and may result in criminal prosecution under s. 1003.27(2). Nothing contained herein shall restrict the ability of the district school superintendent, or the ability of his or her designee, to review the portfolio pursuant to s. 1002.41(1)(b).

Section 21. Paragraph (d) of subsection (2) of section 1003.41, Florida Statutes, is amended and paragraph (f) is added to that subsection, to read:

2. ~~In addition,~~ The state board may prescribe reporting requirements to review and monitor the progress of the schools. The rule must define the intervention and support strategies for school improvement for schools earning a grade of "D" or "F" and the roles for the district and department.

(4)(a) The state board shall apply intensive intervention and support strategies tailored to the needs of schools earning two consecutive grades of "D" or a grade of "F." In the first full school year after a school initially earns two consecutive grades of "D" or a grade of "F," the school district must immediately implement intervention and support strategies prescribed in rule under paragraph (3)(c) and, by September 1, provide the department with the memorandum of understanding negotiated pursuant to s. 1001.42(21) and, by October 1, a district-managed turnaround plan for approval by the state board. The district-managed turnaround plan may include a proposal for the district to implement an extended school day, a summer program, or a combination of an extended school day and summer program. Upon approval by the state board, the school district must implement the plan for the remainder of the school year and continue the plan for 1 full school year. The state

240726

board may allow a school an additional year of implementation before the school must implement a turnaround option required under paragraph (b) if it determines that the school is likely to improve to a grade of "C" or higher after the first full school year of implementation.

(b) Unless an additional year of implementation is provided pursuant to paragraph (a), a school that has completed 2 school years of a district-managed turnaround plan required under paragraph (a) and has not improved its school grade to a "C" or higher, pursuant to s. 1008.34, ~~earns three consecutive grades below a "C"~~ must implement one of the following options:

1. Reassign students to another school and monitor the progress of each reassigned student.~~;~~

2. Close the school and reopen the school as one or more charter schools, each with a governing board that has a demonstrated record of effectiveness. Such charter schools are eligible for funding from the hope supplemental services allocation established by s. 1011.62(16).~~; or~~

A district-managed charter school is eligible for funding from the hope supplemental services allocation established by s. 1011.62(16); or

b. A hope operator that submits to a school district a

240726

notice of intent of a performance-based agreement pursuant to s. 1002.333. A school of hope established pursuant to this sub-subparagraph is eligible for funding from the hope supplemental services allocation for up to 5 years, beginning in the school year in which the school of hope is established, if the school of hope:

(I) Is established at the district-owned facilities of the persistently low-performing school;

(II) Gives priority enrollment to students who are enrolled in, or are eligible to attend and are living in the attendance area of, the persistently low-performing school that the school of hope operates, consistent with the enrollment lottery exemption provided under s. 1002.333(5)(c); and

(III) Meets the requirements of its performance-based agreement pursuant to s. 1002.333.

4. Implement a franchise model school in which a highly effective principal, pursuant to s. 1012.34, leads the persistently low-performing school in addition to the principal's currently assigned school. The franchise model school principal may allocate resources and personnel between the schools he or she leads. The persistently low-performing school is eligible for funding from the hope supplemental services allocation established under s. 1011.62(16).

(c) Implementation of the turnaround option is no longer required if the school improves to a grade of "C" or higher.

(d) If a school ~~earning two consecutive grades of "D" or a grade of "F"~~ does not improve to a grade of "C" or higher after 2 full school years of implementing the turnaround option selected by the school district under paragraph (b), the school

district must implement another turnaround option. Implementation of the turnaround option must begin the school year following the implementation period of the existing turnaround option, unless the state board determines that the school is likely to improve to a grade of "C" or higher if additional time is provided to implement the existing turnaround option.

Section 31. Present subsections (16) and (17) of section 1011.62, Florida Statutes, are redesignated as subsections (19) and (20), respectively, new subsections (16) and (17) and subsection (18) are added to that section, and paragraphs (o) and (t) of subsection (1), paragraph (a) of subsection (4), and subsection (14) of that section are amended, to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(1) COMPUTATION OF THE BASIC AMOUNT TO BE INCLUDED FOR OPERATION.—The following procedure shall be followed in determining the annual allocation to each district for operation:

(o) *Calculation of additional full-time equivalent membership based on successful completion of a career-themed course pursuant to ss. 1003.491, 1003.492, and 1003.493, or courses with embedded CAPE industry certifications or CAPE Digital Tool certificates, and issuance of industry certification identified on the CAPE Industry Certification*

Funding List pursuant to rules adopted by the State Board of Education or CAPE Digital Tool certificates pursuant to s. 1003.4203.—

1.a. A value of 0.025 full-time equivalent student membership shall be calculated for CAPE Digital Tool certificates earned by students in elementary and middle school grades.

b. A value of 0.1 or 0.2 full-time equivalent student membership shall be calculated for each student who completes a course as defined in s. 1003.493(1)(b) or courses with embedded CAPE industry certifications and who is issued an industry certification identified annually on the CAPE Industry Certification Funding List approved under rules adopted by the State Board of Education. A value of 0.2 full-time equivalent membership shall be calculated for each student who is issued a CAPE industry certification that has a statewide articulation agreement for college credit approved by the State Board of Education. For CAPE industry certifications that do not articulate for college credit, the Department of Education shall assign a full-time equivalent value of 0.1 for each certification. Middle grades students who earn additional FTE membership for a CAPE Digital Tool certificate pursuant to sub-subparagraph a. may not use the previously funded examination to satisfy the requirements for earning an industry certification under this sub-subparagraph. Additional FTE membership for an elementary or middle grades student may not exceed 0.1 for certificates or certifications earned within the same fiscal year. The State Board of Education shall include the assigned values on the CAPE Industry Certification Funding List under

rules adopted by the state board. Such value shall be added to the total full-time equivalent student membership for grades 6 through 12 in the subsequent year. CAPE industry certifications earned through dual enrollment must be reported and funded pursuant to s. 1011.80. However, if a student earns a certification through a dual enrollment course and the certification is not a fundable certification on the postsecondary certification funding list, or the dual enrollment certification is earned as a result of an agreement between a school district and a nonpublic postsecondary institution, the bonus value shall be funded in the same manner as other nondual enrollment course industry certifications. In such cases, the school district may provide for an agreement between the high school and the technical center, or the school district and the postsecondary institution may enter into an agreement for equitable distribution of the bonus funds.

c. A value of 0.3 full-time equivalent student membership shall be calculated for student completion of the courses and the embedded certifications identified on the CAPE Industry Certification Funding List and approved by the commissioner pursuant to ss. 1003.4203(5)(a) and 1008.44.

d. A value of 0.5 full-time equivalent student membership shall be calculated for CAPE Acceleration Industry Certifications that articulate for 15 to 29 college credit hours, and 1.0 full-time equivalent student membership shall be calculated for CAPE Acceleration Industry Certifications that articulate for 30 or more college credit hours pursuant to CAPE Acceleration Industry Certifications approved by the commissioner pursuant to ss. 1003.4203(5)(b) and 1008.44.

2. Each district must allocate at least 80 percent of the funds provided for CAPE industry certification, in accordance with this paragraph, to the program that generated the funds. This allocation may not be used to supplant funds provided for basic operation of the program.

3. For CAPE industry certifications earned in the 2013-2014 school year and in subsequent years, the school district shall distribute to each classroom teacher who provided direct instruction toward the attainment of a CAPE industry certification that qualified for additional full-time equivalent membership under subparagraph 1.:

a. A bonus of $25 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.1.

b. A bonus of $50 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.2.

c. A bonus of $75 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.3.

d. A bonus of $100 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.5 or 1.0.

Bonuses awarded pursuant to this paragraph shall be provided to

240726

teachers who are employed by the district in the year in which the additional FTE membership calculation is included in the calculation. Bonuses shall be calculated based upon the associated weight of a CAPE industry certification on the CAPE Industry Certification Funding List for the year in which the certification is earned by the student. Any bonus awarded to a teacher pursuant to ~~under~~ this paragraph is in addition to any regular wage or other bonus the teacher received or is scheduled to receive. A bonus may not be awarded to a teacher who fails to maintain the security of any CAPE industry certification examination or who otherwise violates the security or administration protocol of any assessment instrument that may result in a bonus being awarded to the teacher under this paragraph.

(t) *Computation for funding through the Florida Education Finance Program.*—The State Board of Education may adopt rules establishing programs, industry certifications, and courses for which the student may earn credit toward high school graduation and the criteria under which a student's industry certification or grade may be rescinded.

(4) COMPUTATION OF DISTRICT REQUIRED LOCAL EFFORT.—The Legislature shall prescribe the aggregate required local effort for all school districts collectively as an item in the General Appropriations Act for each fiscal year. The amount that each district shall provide annually toward the cost of the Florida Education Finance Program for kindergarten through grade 12 programs shall be calculated as follows:

(a) *Estimated taxable value calculations.*—

1.a. Not later than 2 working days before July 19, the

Department of Revenue shall certify to the Commissioner of Education its most recent estimate of the taxable value for school purposes in each school district and the total for all school districts in the state for the current calendar year based on the latest available data obtained from the local property appraisers. The value certified shall be the taxable value for school purposes for that year, and no further adjustments shall be made, except those made pursuant to paragraphs (c) and (d), or an assessment roll change required by final judicial decisions as specified in paragraph (19)(b) ~~(16)(b)~~. Not later than July 19, the Commissioner of Education shall compute a millage rate, rounded to the next highest one one-thousandth of a mill, which, when applied to 96 percent of the estimated state total taxable value for school purposes, would generate the prescribed aggregate required local effort for that year for all districts. The Commissioner of Education shall certify to each district school board the millage rate, computed as prescribed in this subparagraph, as the minimum millage rate necessary to provide the district required local effort for that year.

b. The General Appropriations Act shall direct the computation of the statewide adjusted aggregate amount for required local effort for all school districts collectively from ad valorem taxes to ensure that no school district’s revenue from required local effort millage will produce more than 90 percent of the district’s total Florida Education Finance Program calculation as calculated and adopted by the Legislature, and the adjustment of the required local effort millage rate of each district that produces more than 90 percent

of its total Florida Education Finance Program entitlement to a level that will produce only 90 percent of its total Florida Education Finance Program entitlement in the July calculation.

2. On the same date as the certification in sub-subparagraph 1.a., the Department of Revenue shall certify to the Commissioner of Education for each district:

a. Each year for which the property appraiser has certified the taxable value pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a.

b. For each year identified in sub-subparagraph a., the taxable value certified by the appraiser pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a. This is the certification that reflects all final administrative actions of the value adjustment board.

(14) QUALITY ASSURANCE GUARANTEE.—The Legislature may annually in the General Appropriations Act determine a percentage increase in funds per K-12 unweighted FTE as a minimum guarantee to each school district. The guarantee shall be calculated from prior year base funding per unweighted FTE student which shall include the adjusted FTE dollars as provided in subsection (19) ~~(16)~~, quality guarantee funds, and actual nonvoted discretionary local effort from taxes. From the base funding per unweighted FTE, the increase shall be calculated for the current year. The current year funds from which the guarantee shall be determined shall include the adjusted FTE dollars as provided in subsection (19) ~~(16)~~ and potential nonvoted discretionary local effort from taxes. A comparison of

current year funds per unweighted FTE to prior year funds per unweighted FTE shall be computed. For those school districts which have less than the legislatively assigned percentage increase, funds shall be provided to guarantee the assigned percentage increase in funds per unweighted FTE student. Should appropriated funds be less than the sum of this calculated amount for all districts, the commissioner shall prorate each district's allocation. This provision shall be implemented to the extent specifically funded.

(16) HOPE SUPPLEMENTAL SERVICES ALLOCATION.-The hope supplemental services allocation is created to provide district-managed turnaround schools, as required under s. 1008.33(4)(a), charter schools authorized under s. 1008.33(4)(b)2., district-managed charter schools authorized under s. 1008.33(4)(b)3.a., schools of hope authorized under s. 1008.33(4)(b)3.b., and franchise model schools as authorized under s. 1008.33(4)(b)4., with funds to offer services designed to improve the overall academic and community welfare of the schools' students and their families.

(a) Services funded by the allocation may include, but are not limited to, tutorial and after-school programs, student counseling, nutrition education, and parental counseling. In addition, services may also include models that develop a culture that encourages students to complete high school and to attend college or career training, set high academic expectations, inspire character development, and include an extended school day and school year.

(b) Prior to distribution of the allocation, a school district, for a district turnaround school and persistently low-

240726

performing schools that use a franchise model; a hope operator, for a school of hope; or the charter school governing board for a charter school, as applicable, shall develop and submit a plan for implementation to its respective governing body for approval no later than August 1 of the fiscal year.

(c) At a minimum, the plans required under paragraph (b) must:

1. Establish comprehensive support services that develop family and community partnerships;

2. Establish clearly defined and measurable high academic and character standards;

3. Increase parental involvement and engagement in the child's education;

4. Describe how instructional personnel will be identified, recruited, retained, and rewarded;

5. Provide professional development that focuses on academic rigor, direct instruction, and creating high academic and character standards; and

6. Provide focused instruction to improve student academic proficiency, which may include additional instruction time beyond the normal school day or school year.

(d) Each school district and hope operator shall submit approved plans to the commissioner by September 1 of each fiscal year.

(e) For the 2018-2019 fiscal year, a school that is selected to receive funding in the 2017-2018 fiscal year pursuant to s. 1002.333(10)(c) shall receive $2,000 per FTE. A district-managed turnaround school required under s. 1008.33(4)(a), charter school authorized under s.

1008.33(4)(b)2., district-managed charter school authorized under s. 1008.33(4)(b)3.a., school of hope authorized under s. 1008.33(4)(b)3.b., and franchise model school authorized under s. 1008.33(4)(b)4. are eligible for the remaining funds based on the school's unweighted FTE, up to $2,000 per FTE or as provided in the General Appropriations Act.

(f) For the 2019-2020 fiscal year and thereafter, each school district's allocation shall be based on the unweighted FTE student enrollment at the eligible schools and a per-FTE funding amount of up to $2,000 per FTE or as provided in the General Appropriations Act. If the calculated funds for unweighted FTE student enrollment at the eligible schools exceed the per-FTE funds appropriated, the allocation of funds to each school district must be prorated based on each school district's share of the total unweighted FTE student enrollment for the eligible schools.

(17) MENTAL HEALTH ASSISTANCE ALLOCATION.—The mental health assistance allocation is created to provide funding to assist school districts and charter schools in their compliance with the requirements and specifications established in s. 1006.05. These funds must be allocated annually in the General Appropriations Act to each eligible school district and developmental research school based on each entity's proportionate share of Florida Education Finance Program base funding. The district funding allocation must include a minimum amount, as provided in the General Appropriations Act. Eligible charter schools are entitled to a proportionate share of district funding for the program. The allocated funds may not supplant funds that are provided for this purpose from other

240726

operating funds and may not be used to increase salaries or provide bonuses, except for personnel hired to implement the plans required by s. 1006.05. School districts and schools must maximize third-party funding from Medicaid and private insurance when appropriate.

(18) FUNDING COMPRESSION ALLOCATION.—The Legislature may provide an annual funding compression allocation in the General Appropriations Act. The allocation is created to provide additional funding to school districts and developmental research schools whose total funds per FTE in the prior year were less than the statewide average. Using the most recent prior year FEFP calculation for each eligible school district, the total funds per FTE shall be subtracted from the state average funds per FTE, not including any adjustments made pursuant to paragraph (19)(b). The resulting funds per FTE difference, or a portion thereof, as designated in the General Appropriations Act, shall then be multiplied by the school district's total unweighted FTE to provide the allocation. If the calculated funds are greater than the amount included in the General Appropriations Act, they must be prorated to the appropriation amount based on each participating school district's share.

(2) A resolution adopted under this section may propose implementation of exceptions to requirements of the uniform statewide building code for the planning and construction of public educational and ancillary plants adopted pursuant to ss. 553.73 and 1013.37 relating to:

(e) Any other provisions that limit the ability of a school to operate in a facility on the same basis as a charter school pursuant to s. 1002.33(18) if the regional planning council determines that there is sufficient shelter capacity within the school district as documented in the Statewide Emergency Shelter Plan.

Section 40. Subsection (3) of section 1013.62, Florida Statutes, is amended, and paragraph (c) is added to subsection (1) of that section, to read:

1013.62 Charter schools capital outlay funding.—

(1) Charter school capital outlay funding shall consist of revenue resulting from the discretionary millage authorized in s. 1011.71(2) and state funds when such funds are appropriated in the General Appropriations Act.

(c) It is the intent of the Legislature that the public interest be protected by prohibiting personal financial enrichment by owners, operators, managers, real estate developers, and other affiliated parties of charter schools.

240726

Therefore, a charter school is not eligible for a funding allocation unless the chair of the governing board and the chief administrative officer of the charter school annually certify under oath that the funds will be used solely and exclusively for constructing, renovating, or improving charter school facilities that are:

1. Owned by a school district, a political subdivision of the state, a municipality, a Florida College System institution, or a state university;

2. Owned by an organization that is qualified as an exempt organization under s. 501(c)(3) of the Internal Revenue Code whose articles of incorporation specify that, upon the organization's dissolution, the subject property will be transferred to a school district, a political subdivision of the state, a municipality, a Florida College System institution, or a state university; or

3. Owned by and leased, at a fair market value in the school district in which the charter school is located, from a person or entity that is not an affiliated party of the charter school. For the purposes of this subparagraph, the term "affiliated party of the charter school" means the applicant for the charter school pursuant to s. 1002.33; the governing board of the charter school or a member of the governing board; the charter school owner; the charter school principal; an employee of the charter school; an independent contractor of the charter school or the governing board of the charter school; a relative, as defined in s. 1002.33(24)(a)2., of a charter school governing board member, a charter school owner, a charter school principal, a charter school employee, or an independent

contractor of a charter school or charter school governing board; a subsidiary corporation, a service corporation, an affiliated corporation, a parent corporation, a limited liability company, a limited partnership, a trust, a partnership, or a related party that, individually or through one or more entities, shares common ownership or control and directly or indirectly manages, administers, controls, or oversees the operation of the charter school; or any person or entity, individually or through one or more entities that share common ownership, which directly or indirectly manages, administers, controls, or oversees the operation of any of the foregoing.

(3) If the school board levies the discretionary millage authorized in s. 1011.71(2), the department shall use the following calculation methodology to determine the amount of revenue that a school district must distribute to each eligible charter school:

(a) Reduce the total discretionary millage revenue by the school district’s annual debt service obligation incurred as of March 1, 2017, and any amount of participation requirement pursuant to s. 1013.64(2)(a)8. that is being satisfied by revenues raised by the discretionary millage.

(b) Divide the school district’s adjusted discretionary millage revenue by the district’s total capital outlay full-time equivalent membership and the total number of unweighted full-time equivalent students of each eligible charter school to determine a capital outlay allocation per full-time equivalent student.

(c) Multiply the capital outlay allocation per full-time

equivalent student by the total number of full-time equivalent students for all ~~of each~~ eligible charter schools within the district ~~school~~ to determine the total charter school capital outlay allocation for each district ~~charter school~~.

(d) If applicable, reduce the capital outlay allocation identified in paragraph (c) by the total amount of state funds allocated pursuant to subsection (2) to all ~~each~~ eligible charter schools within a district ~~school in subsection (2)~~ to determine the net total ~~maximum~~ calculated capital outlay allocation from local funds. If state funds are not allocated pursuant to subsection (2), the amount determined in paragraph (c) is equal to the net total calculated capital outlay allocation from local funds for each district.

(e) For each charter school within each district, the net capital outlay amount from local funds shall be calculated in the same manner as the state funds in paragraphs (2)(a)-(d), except that the base charter school per weighted FTE allocation amount shall be determined by dividing the net total capital outlay amount from local funds by the total weighted FTE for all eligible charter schools within the district. The per weighted FTE allocation amount from local funds shall be multiplied by the weighted FTE for each charter school to determine each charter school's capital outlay allocation from local funds.

(f) ~~(e)~~ School districts shall distribute capital outlay funds to charter schools no later than February 1 of each year~~,~~ ~~beginning on February 1, 2018, for the 2017-2018 fiscal year~~.

Section 41. Effective July 1, 2019, subsection (13) of section 212.08, Florida Statutes, is amended to read:

(6) APPLICATION PROCESS AND REVIEW.—Charter school applications are subject to the following requirements:

(b) A sponsor shall receive and review all applications for a charter school using the evaluation instrument developed by the Department of Education. A sponsor shall receive and consider charter school applications received on or before August 1 of each calendar year for charter schools to be opened at the beginning of the school district's next school year, or to be opened at a time agreed to by the applicant and the sponsor. A sponsor may not refuse to receive a charter school application submitted before August 1 and may receive an application submitted later than August 1 if it chooses. Beginning in 2018 and thereafter, a sponsor shall receive and consider charter school applications received on or before February 1 of each calendar year for charter schools to be opened 18 months later at the beginning of the school district's school year, or to be opened at a time agreed to by the applicant and the sponsor. A sponsor may not refuse to receive a charter school application submitted before February 1 and may receive an application submitted later than February 1 if it chooses. A sponsor may not charge an applicant for a charter any fee for the processing or consideration of an application, and a sponsor may not base its consideration or approval of a final

application upon the promise of future payment of any kind. Before approving or denying any application, the sponsor shall allow the applicant, upon receipt of written notification, at least 7 calendar days to make technical or nonsubstantive corrections and clarifications, including, but not limited to, corrections of grammatical, typographical, and like errors or missing signatures, if such errors are identified by the sponsor as cause to deny the final application.

1. In order to facilitate an accurate budget projection process, a sponsor shall be held harmless for FTE students who are not included in the FTE projection due to approval of charter school applications after the FTE projection deadline. In a further effort to facilitate an accurate budget projection, within 15 calendar days after receipt of a charter school application, a sponsor shall report to the Department of Education the name of the applicant entity, the proposed charter school location, and its projected FTE.

2. In order to ensure fiscal responsibility, an application for a charter school shall include a full accounting of expected assets, a projection of expected sources and amounts of income, including income derived from projected student enrollments and from community support, and an expense projection that includes full accounting of the costs of operation, including start-up costs.

3.a. A sponsor shall by a majority vote approve or deny an application no later than 90 calendar days after the application is received, unless the sponsor and the applicant mutually agree in writing to temporarily postpone the vote to a specific date, at which time the sponsor shall by a majority vote approve or

deny the application. If the sponsor fails to act on the application, an applicant may appeal to the State Board of Education as provided in paragraph (c). If an application is denied, the sponsor shall, within 10 calendar days after such denial, articulate in writing the specific reasons, based upon good cause, supporting its denial of the application and shall provide the letter of denial and supporting documentation to the applicant and to the Department of Education.

b. An application submitted by a high-performing charter school identified pursuant to s. 1002.331 or a high-performing charter school system identified pursuant to s. 1002.332 may be denied by the sponsor only if the sponsor demonstrates by clear and convincing evidence that:

(I) The application does not materially comply with the requirements in paragraph (a);

(II) The charter school proposed in the application does not materially comply with the requirements in paragraphs (9)(a)-(f);

(III) The proposed charter school's educational program does not substantially replicate that of the applicant or one of the applicant's high-performing charter schools;

(IV) The applicant has made a material misrepresentation or false statement or concealed an essential or material fact during the application process; or

(V) The proposed charter school's educational program and financial management practices do not materially comply with the requirements of this section.

Material noncompliance is a failure to follow requirements or a

violation of prohibitions applicable to charter school applications, which failure is quantitatively or qualitatively significant either individually or when aggregated with other noncompliance. An applicant is considered to be replicating a high-performing charter school if the proposed school is substantially similar to at least one of the applicant's high-performing charter schools and the organization or individuals involved in the establishment and operation of the proposed school are significantly involved in the operation of replicated schools.

c. If the sponsor denies an application submitted by a high-performing charter school or a high-performing charter school system, the sponsor must, within 10 calendar days after such denial, state in writing the specific reasons, based upon the criteria in sub-subparagraph b., supporting its denial of the application and must provide the letter of denial and supporting documentation to the applicant and to the Department of Education. The applicant may appeal the sponsor's denial of the application in accordance with paragraph (c).

4. For budget projection purposes, the sponsor shall report to the Department of Education the approval or denial of an application within 10 calendar days after such approval or denial. In the event of approval, the report to the Department of Education shall include the final projected FTE for the approved charter school.

5. Upon approval of an application, the initial startup shall commence with the beginning of the public school calendar for the district in which the charter is granted. A charter school may defer the opening of the school's operations for up

881182

to 3 ~~2~~ years to provide time for adequate facility planning. The charter school must provide written notice of such intent to the sponsor and the parents of enrolled students at least 30 calendar days before the first day of school.

Section 4. Subsection (1) of section 1002.331, Florida Statutes, is amended to read:

1002.331 High-performing charter schools.—

(1) A charter school is a high-performing charter school if it:

(a) Received at least two school grades of "A" and no school grade below "B," pursuant to s. 1008.34, during each of the previous 3 school years or received at least two consecutive school grades of "A" in the most recent 2 school years.

(c) Did not receive a financial audit that revealed one or more of the financial emergency conditions set forth in s. 218.503(1) in the most recent 3 fiscal years for which such audits are available. However, this requirement is deemed met for a charter school-in-the-workplace if there is a finding in an audit that the school has the monetary resources available to cover any reported deficiency or that the deficiency does not result in a deteriorating financial condition pursuant to s. 1002.345(1)(a)3.

For purposes of determining initial eligibility, the requirements of paragraphs (b) and (c) only apply to the most recent 2 fiscal years if the charter school earns two

881182

consecutive grades of "A." A virtual charter school established under s. 1002.33 is not eligible for designation as a high-performing charter school.

Section 5. Present subsections (11) and (12) of section 1002.333, Florida Statutes, are redesignated as subsections (12) and (13), respectively, a new subsection (11) is added to that section, and subsections (1) and (2), paragraph (a) of subsection (4), paragraphs (b), (g), and (i) of subsection (5), paragraph (a) of subsection (7), subsection (9), and paragraph (b) of subsection (10) of that section are amended, to read:

(b) A student who enrolls in the structured program and successfully completes at least 30 college credit hours during a school year through the dual enrollment program under s. 1007.271 generates a 0.5 full-time equivalent (FTE) bonus. A student who enrolls in the structured program and successfully completes an additional 30 college credit hours during a school year, resulting in at least 60 college credit hours through the dual enrollment program under s. 1007.271 applicable toward fulfilling the requirements for an associate in arts degree or an associate in science degree or a baccalaureate degree pursuant to the student performance contract under subsection (3), before graduating from high school, generates an additional 0.5 FTE bonus. Each district school board that is a contractual partner with a Florida College System institution or other eligible postsecondary institution shall report to the commissioner the total FTE bonus for each structured program for the students from that school district. The total FTE bonus shall be added to each school district's total weighted FTE for funding in the subsequent fiscal year.

(c) For any industry certification a student attains under this section, the FTE bonus shall be calculated and awarded in accordance with s. 1011.62(1)(o).

881182

(6) REPORTING REQUIREMENTS.—

(a) By September 1 of each school year, each district school superintendent shall report to the commissioner, at a minimum, the following information on each structured program administered during the prior school year:

4. Any barriers to executing contracts to establish one or more structured programs.

(b) By November 30 of each school year, the commissioner must report to the Governor, the President of the Senate, and the Speaker of the House of Representatives the status of structured programs, including, at a minimum, a summary of student enrollment and completion information pursuant to this subsection; barriers, if any, to establishing such programs; and recommendations for expanding access to such programs statewide.

Section 20. Paragraph (c) of subsection (3) and subsection (4) of section 1008.33, Florida Statutes, are amended to read:

1008.33 Authority to enforce public school improvement.—

(3)

881182

(c) The state board shall adopt by rule a differentiated matrix of intervention and support strategies for assisting traditional public schools identified under this section and rules for implementing s. 1002.33(9)(n), relating to charter schools.

1. The intervention and support strategies must address efforts to improve student performance through one or more of the following strategies: ~~and may include~~

a. Improvement planning;

b. Leadership quality improvement;

c. Educator quality improvement;

d. Professional development;

e. Curriculum review, pacing, and alignment across grade levels to improve background knowledge in social studies, science, and the arts; and

f. The use of continuous improvement and monitoring plans and processes.

2. ~~In addition,~~ The state board may prescribe reporting requirements to review and monitor the progress of the schools. The rule must define the intervention and support strategies for school improvement for schools earning a grade of "D" or "F" and the roles for the district and department.

(4)(a) The state board shall apply intensive intervention and support strategies tailored to the needs of schools earning two consecutive grades of "D" or a grade of "F." In the first full school year after a school initially earns two consecutive grades of "D" or a grade of "F," the school district must immediately implement intervention and support strategies prescribed in rule under paragraph (3)(c) and, by September 1,

881182

provide the department with the memorandum of understanding negotiated pursuant to s. 1001.42(21) and, by October 1, a district-managed turnaround plan for approval by the state board. The district-managed turnaround plan may include a proposal for the district to implement an extended school day, a summer program, or a combination of an extended school day and summer program. Upon approval by the state board, the school district must implement the plan for the remainder of the school year and continue the plan for 1 full school year. The state board may allow a school an additional year of implementation before the school must implement a turnaround option required under paragraph (b) if it determines that the school is likely to improve to a grade of "C" or higher after the first full school year of implementation.

(b) Unless an additional year of implementation is provided pursuant to paragraph (a), a school that has completed 2 school years of a district-managed turnaround plan required under paragraph (a) and has not improved its school grade to a "C" or higher, pursuant to s. 1008.34, ~~earns three consecutive grades below a "C"~~ must implement one of the following options:

1. Reassign students to another school and monitor the progress of each reassigned student.~~;~~

2. Close the school and reopen the school as one or more charter schools, each with a governing board that has a demonstrated record of effectiveness. Such charter schools are eligible for funding from the hope supplemental services allocation established by s. 1011.62(16).~~; or~~

3. Contract with an outside entity that has a demonstrated record of effectiveness to operate the school. An outside entity

881182

may include:

a. A district-managed charter school in which all instructional personnel are not employees of the school district, but are employees of an independent governing board composed of members who did not participate in the review or approval of the charter. A district-managed charter school is eligible for funding from the hope supplemental services allocation established by s. 1011.62(16); or

b. A hope operator that submits to a school district a notice of intent of a performance-based agreement pursuant to s. 1002.333. A school of hope established pursuant to this sub-subparagraph is eligible for funding from the hope supplemental services allocation for up to 5 years, beginning in the school year in which the school of hope is established, if the school of hope:

(I) Is established at the district-owned facilities of the persistently low-performing school;

(II) Gives priority enrollment to students who are enrolled in, or are eligible to attend and are living in the attendance area of, the persistently low-performing school that the school of hope operates, consistent with the enrollment lottery exemption provided under s. 1002.333(5)(c); and

(III) Meets the requirements of its performance-based agreement pursuant to s. 1002.333.

4. Implement a franchise model school in which a highly effective principal, pursuant to s. 1012.34, leads the persistently low-performing school in addition to the principal's currently assigned school. The franchise model school principal may allocate resources and personnel between

881182

the schools he or she leads. The persistently low-performing school is eligible for funding from the hope supplemental services allocation established under s. 1011.62(16).

(c) Implementation of the turnaround option is no longer required if the school improves to a grade of "C" or higher.

(d) If a school ~~earning two consecutive grades of "D" or a grade of "F"~~ does not improve to a grade of "C" or higher after 2 full school years of implementing the turnaround option selected by the school district under paragraph (b), the school district must implement another turnaround option. Implementation of the turnaround option must begin the school year following the implementation period of the existing turnaround option, unless the state board determines that the school is likely to improve to a grade of "C" or higher if additional time is provided to implement the existing turnaround option.

Section 21. Present subsections (16) and (17) of section 1011.62, Florida Statutes, are redesignated as subsections (19) and (20), respectively, new subsections (16) and (17) and subsection (18) are added to that section, and paragraph (a) of subsection (4) and subsection (14) of that section are amended, to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(4) COMPUTATION OF DISTRICT REQUIRED LOCAL EFFORT.—The

881182

Legislature shall prescribe the aggregate required local effort for all school districts collectively as an item in the General Appropriations Act for each fiscal year. The amount that each district shall provide annually toward the cost of the Florida Education Finance Program for kindergarten through grade 12 programs shall be calculated as follows:

(a) *Estimated taxable value calculations.*—

1.a. Not later than 2 working days before July 19, the Department of Revenue shall certify to the Commissioner of Education its most recent estimate of the taxable value for school purposes in each school district and the total for all school districts in the state for the current calendar year based on the latest available data obtained from the local property appraisers. The value certified shall be the taxable value for school purposes for that year, and no further adjustments shall be made, except those made pursuant to paragraphs (c) and (d), or an assessment roll change required by final judicial decisions as specified in paragraph (19)(b) ~~(16)(b)~~. Not later than July 19, the Commissioner of Education shall compute a millage rate, rounded to the next highest one one-thousandth of a mill, which, when applied to 96 percent of the estimated state total taxable value for school purposes, would generate the prescribed aggregate required local effort for that year for all districts. The Commissioner of Education shall certify to each district school board the millage rate, computed as prescribed in this subparagraph, as the minimum millage rate necessary to provide the district required local effort for that year.

b. The General Appropriations Act shall direct the

computation of the statewide adjusted aggregate amount for required local effort for all school districts collectively from ad valorem taxes to ensure that no school district's revenue from required local effort millage will produce more than 90 percent of the district's total Florida Education Finance Program calculation as calculated and adopted by the Legislature, and the adjustment of the required local effort millage rate of each district that produces more than 90 percent of its total Florida Education Finance Program entitlement to a level that will produce only 90 percent of its total Florida Education Finance Program entitlement in the July calculation.

2. On the same date as the certification in sub-subparagraph 1.a., the Department of Revenue shall certify to the Commissioner of Education for each district:

a. Each year for which the property appraiser has certified the taxable value pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a.

b. For each year identified in sub-subparagraph a., the taxable value certified by the appraiser pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a. This is the certification that reflects all final administrative actions of the value adjustment board.

(14) QUALITY ASSURANCE GUARANTEE.—The Legislature may annually in the General Appropriations Act determine a percentage increase in funds per K-12 unweighted FTE as a minimum guarantee to each school district. The guarantee shall be calculated from prior year base funding per unweighted FTE

881182

student which shall include the adjusted FTE dollars as provided in subsection (19) ~~(16)~~, quality guarantee funds, and actual nonvoted discretionary local effort from taxes. From the base funding per unweighted FTE, the increase shall be calculated for the current year. The current year funds from which the guarantee shall be determined shall include the adjusted FTE dollars as provided in subsection (19) ~~(16)~~ and potential nonvoted discretionary local effort from taxes. A comparison of current year funds per unweighted FTE to prior year funds per unweighted FTE shall be computed. For those school districts which have less than the legislatively assigned percentage increase, funds shall be provided to guarantee the assigned percentage increase in funds per unweighted FTE student. Should appropriated funds be less than the sum of this calculated amount for all districts, the commissioner shall prorate each district's allocation. This provision shall be implemented to the extent specifically funded.

(16) HOPE SUPPLEMENTAL SERVICES ALLOCATION.-The hope supplemental services allocation is created to provide district-managed turnaround schools, as required under s. 1008.33(4)(a), charter schools authorized under s. 1008.33(4)(b)2., district-managed charter schools authorized under s. 1008.33(4)(b)3.a., schools of hope authorized under s. 1008.33(4)(b)3.b., and franchise model schools as authorized under s. 1008.33(4)(b)4., with funds to offer services designed to improve the overall academic and community welfare of the schools' students and their families.

(a) Services funded by the allocation may include, but are not limited to, tutorial and after-school programs, student

881182

counseling, nutrition education, and parental counseling. In addition, services may also include models that develop a culture that encourages students to complete high school and to attend college or career training, set high academic expectations, inspire character development, and include an extended school day and school year.

(b) Prior to distribution of the allocation, a school district, for a district turnaround school and persistently low-performing schools that use a franchise model; a hope operator, for a school of hope; or the charter school governing board for a charter school, as applicable, shall develop and submit a plan for implementation to its respective governing body for approval no later than August 1 of the fiscal year.

(c) At a minimum, the plans required under paragraph (b) must:

1. Establish comprehensive support services that develop family and community partnerships;

2. Establish clearly defined and measurable high academic and character standards;

3. Increase parental involvement and engagement in the child's education;

4. Describe how instructional personnel will be identified, recruited, retained, and rewarded;

5. Provide professional development that focuses on academic rigor, direct instruction, and creating high academic and character standards; and

6. Provide focused instruction to improve student academic proficiency, which may include additional instruction time beyond the normal school day or school year.

881182

(d) Each school district and hope operator shall submit approved plans to the commissioner by September 1 of each fiscal year.

(e) For the 2018-2019 fiscal year, a school that is selected to receive funding in the 2017-2018 fiscal year pursuant to s. 1002.333(10)(c) shall receive $2,000 per FTE. A district-managed turnaround school required under s. 1008.33(4)(a), charter school authorized under s. 1008.33(4)(b)2., district-managed charter school authorized under s. 1008.33(4)(b)3.a., school of hope authorized under s. 1008.33(4)(b)3.b., and franchise model school authorized under s. 1008.33(4)(b)4. are eligible for the remaining funds based on the school's unweighted FTE, up to $2,000 per FTE or as provided in the General Appropriations Act.

(f) For the 2019-2020 fiscal year and thereafter, each school district's allocation shall be based on the unweighted FTE student enrollment at the eligible schools and a per-FTE funding amount of up to $2,000 per FTE or as provided in the General Appropriations Act. If the calculated funds for unweighted FTE student enrollment at the eligible schools exceed the per-FTE funds appropriated, the allocation of funds to each school district must be prorated based on each school district's share of the total unweighted FTE student enrollment for the eligible schools.

(17) MENTAL HEALTH ASSISTANCE ALLOCATION.—The mental health assistance allocation is created to provide supplemental funding to assist school districts in establishing or expanding comprehensive school-based mental health programs that increase awareness of mental health issues among children and school-age

881182

youth; train educators and other school staff in detecting and responding to mental health issues; and connect children, youth, and families who may experience behavioral health issues with appropriate services. These funds may be allocated annually in the General Appropriations Act to each eligible school district and developmental research school based on each entity's proportionate share of Florida Education Finance Program base funding. The district funding allocation must include a minimum amount as specified in the General Appropriations Act. Upon submission and approval of a plan that includes the elements specified in paragraph (b), charter schools are also entitled to a proportionate share of district funding for this program. The allocated funds may not supplant funds that are provided for this purpose from other operating funds and may not be used to increase salaries or provide bonuses.

(a) Prior to the distribution of the allocation:

1. The district must annually develop and submit a detailed plan outlining the local program and planned expenditures to the district school board for approval.

2. A charter school must annually develop and submit a detailed plan outlining the local program and planned expenditures of the funds in the plan to its governing body for approval. After the plan is approved by the governing body, it must be provided to its school district for submission to the commissioner.

(b) The plans required under paragraph (a) must include, at a minimum, all of the following elements:

1. A collaborative effort or partnership between the school district and at least one local community program or agency

881182

involved in mental health to provide or to improve prevention, diagnosis, and treatment services for students;

2. Programs to assist students in dealing with bullying, trauma, and violence;

3. Strategies or programs to reduce the likelihood of at-risk students developing social, emotional, or behavioral health problems or substance use disorders;

4. Strategies to improve the early identification of social, emotional, or behavioral problems or substance use disorders and to improve the provision of early intervention services;

5. Strategies to enhance the availability of school-based crisis intervention services and appropriate referrals for students in need of mental health services; and

6. Training opportunities for school personnel in the techniques and supports needed to identify students who have trauma histories and who have or are at risk of having a mental illness, and in the use of referral mechanisms that effectively link such students to appropriate treatment and intervention services in the school and in the community.

(c) The districts shall submit approved plans to the commissioner by August 1 of each fiscal year.

(d) Beginning September 30, 2019, and by each September 30 thereafter, each entity that receives an allocation under this subsection shall submit to the commissioner, in a format prescribed by the department, a final report on its program outcomes and its expenditures for each element of the program.

(18) FUNDING COMPRESSION ALLOCATION.—The Legislature may provide an annual funding compression allocation in the General

Appropriations Act. The allocation is created to provide additional funding to school districts and developmental research schools whose total funds per FTE in the prior year were less than the statewide average. Using the most recent prior year FEFP calculation for each eligible school district, the total funds per FTE shall be subtracted from the state average funds per FTE, not including any adjustments made pursuant to paragraph (19)(b). The resulting funds per FTE difference, or a portion thereof, as designated in the General Appropriations Act, shall then be multiplied by the school district's total unweighted FTE to provide the allocation. If the calculated funds are greater than the amount included in the General Appropriations Act, they must be prorated to the appropriation amount based on each participating school district's share.

Section 22. Subsection (5) of section 1011.69, Florida Statutes, is amended to read:

Section 30. Subsection (3) of section 1013.62, Florida Statutes, is amended, and paragraph (c) is added to subsection (1) of that section, to read:

1013.62 Charter schools capital outlay funding.—

(1) Charter school capital outlay funding shall consist of revenue resulting from the discretionary millage authorized in s. 1011.71(2) and state funds when such funds are appropriated in the General Appropriations Act.

(c) It is the intent of the Legislature that the public interest be protected by prohibiting personal financial enrichment by owners, operators, managers, real estate developers, and other affiliated parties of charter schools. Therefore, a charter school is not eligible for a funding allocation unless the chair of the governing board and the chief administrative officer of the charter school annually certify under oath that the funds will be used solely and exclusively for constructing, renovating, or improving charter school facilities that are:

1. Owned by a school district, a political subdivision of

the state, a municipality, a Florida College System institution, or a state university;

2. Owned by an organization that is qualified as an exempt organization under s. 501(c)(3) of the Internal Revenue Code whose articles of incorporation specify that, upon the organization's dissolution, the subject property will be transferred to a school district, a political subdivision of the state, a municipality, a Florida College System institution, or a state university; or

3. Owned by and leased, at a fair market value in the school district in which the charter school is located, from a person or entity that is not an affiliated party of the charter school. For the purposes of this subparagraph, the term "affiliated party of the charter school" means the applicant for the charter school pursuant to s. 1002.33; the governing board of the charter school or a member of the governing board; the charter school owner; the charter school principal; an employee of the charter school; an independent contractor of the charter school or the governing board of the charter school; a relative, as defined in s. 1002.33(24)(a)2., of a charter school governing board member, a charter school owner, a charter school principal, a charter school employee, or an independent contractor of a charter school or charter school governing board; a subsidiary corporation, a service corporation, an affiliated corporation, a parent corporation, a limited liability company, a limited partnership, a trust, a partnership, or a related party that, individually or through one or more entities, shares common ownership or control and directly or indirectly manages, administers, controls, or

oversees the operation of the charter school; or any person or entity, individually or through one or more entities that share common ownership, which directly or indirectly manages, administers, controls, or oversees the operation of any of the foregoing.

(3) If the school board levies the discretionary millage authorized in s. 1011.71(2), the department shall use the following calculation methodology to determine the amount of revenue that a school district must distribute to each eligible charter school:

(a) Reduce the total discretionary millage revenue by the school district's annual debt service obligation incurred as of March 1, 2017, and any amount of participation requirement pursuant to s. 1013.64(2)(a)8. that is being satisfied by revenues raised by the discretionary millage.

(b) Divide the school district's adjusted discretionary millage revenue by the district's total capital outlay full-time equivalent membership and the total number of unweighted full-time equivalent students of each eligible charter school to determine a capital outlay allocation per full-time equivalent student.

(c) Multiply the capital outlay allocation per full-time equivalent student by the total number of full-time equivalent students for all ~~of each~~ eligible charter schools within the district ~~school~~ to determine the total charter school capital outlay allocation for each district ~~charter school~~.

(d) If applicable, reduce the capital outlay allocation identified in paragraph (c) by the total amount of state funds allocated pursuant to subsection (2) to all ~~each~~ eligible

881182

charter schools within a district ~~school in subsection (2)~~ to determine the net total ~~maximum~~ calculated capital outlay allocation from local funds. If state funds are not allocated pursuant to subsection (2), the amount determined in paragraph (c) is equal to the net total calculated capital outlay allocation from local funds for each district.

(e) For each charter school within each district, the net capital outlay amount from local funds shall be calculated in the same manner as the state funds in paragraphs (2)(a)-(d), except that the base charter school per weighted FTE allocation amount shall be determined by dividing the net total capital outlay amount from local funds by the total weighted FTE for all eligible charter schools within the district. The per weighted FTE allocation amount from local funds shall be multiplied by the weighted FTE for each charter school to determine each charter school's capital outlay allocation from local funds.

(f) ~~(e)~~ School districts shall distribute capital outlay funds to charter schools no later than February 1 of each year~~, beginning on February 1, 2018, for the 2017-2018 fiscal year~~.

Section 31. For the 2018-2019 fiscal year, the sum of $596,560 in recurring funds from the General Revenue Fund and the sum of $392,134 in nonrecurring funds from the General Revenue Funds are appropriated to the Department of Education to implement this act as follows: the sum of $596,560 in recurring funds and $142,134 in nonrecurring funds shall be used to implement the additional oversight requirements pursuant to s. 1002.421, Florida Statutes and the sum of $250,000 in nonrecurring funds shall be used to issue a competitive grant award pursuant to s. 1002.395(9), Florida Statutes.

Section 32. This act shall take effect July 1, 2018.

(6) APPLICATION PROCESS AND REVIEW.—Charter school applications are subject to the following requirements:

(b) A sponsor shall receive and review all applications for a charter school using the evaluation instrument developed by the Department of Education. A sponsor shall receive and consider charter school applications received on or before August 1 of each calendar year for charter schools to be opened at the beginning of the school district's next school year, or to be opened at a time agreed to by the applicant and the sponsor. A sponsor may not refuse to receive a charter school application submitted before August 1 and may receive an application submitted later than August 1 if it chooses. Beginning in 2018 and thereafter, a sponsor shall receive and consider charter school applications received on or before February 1 of each calendar year for charter schools to be opened 18 months later at the beginning of the school district's school year, or to be opened at a time agreed to by the applicant and the sponsor. A sponsor may not refuse to receive a charter school application submitted before February 1 and may receive an application submitted later than February 1 if it chooses. A sponsor may not charge an applicant for a charter any fee for the processing or consideration of an application, and a sponsor may not base its consideration or approval of a final application upon the promise of future payment of any kind. Before approving or denying any application, the sponsor shall allow the applicant, upon receipt of written notification, at

583458

least 7 calendar days to make technical or nonsubstantive corrections and clarifications, including, but not limited to, corrections of grammatical, typographical, and like errors or missing signatures, if such errors are identified by the sponsor as cause to deny the final application.

1. In order to facilitate an accurate budget projection process, a sponsor shall be held harmless for FTE students who are not included in the FTE projection due to approval of charter school applications after the FTE projection deadline. In a further effort to facilitate an accurate budget projection, within 15 calendar days after receipt of a charter school application, a sponsor shall report to the Department of Education the name of the applicant entity, the proposed charter school location, and its projected FTE.

2. In order to ensure fiscal responsibility, an application for a charter school shall include a full accounting of expected assets, a projection of expected sources and amounts of income, including income derived from projected student enrollments and from community support, and an expense projection that includes full accounting of the costs of operation, including start-up costs.

3.a. A sponsor shall by a majority vote approve or deny an application no later than 90 calendar days after the application is received, unless the sponsor and the applicant mutually agree in writing to temporarily postpone the vote to a specific date, at which time the sponsor shall by a majority vote approve or deny the application. If the sponsor fails to act on the application, an applicant may appeal to the State Board of Education as provided in paragraph (c). If an application is

583458

denied, the sponsor shall, within 10 calendar days after such denial, articulate in writing the specific reasons, based upon good cause, supporting its denial of the application and shall provide the letter of denial and supporting documentation to the applicant and to the Department of Education.

b. An application submitted by a high-performing charter school identified pursuant to s. 1002.331 or a high-performing charter school system identified pursuant to s. 1002.332 may be denied by the sponsor only if the sponsor demonstrates by clear and convincing evidence that:

(I) The application of a high-performing charter school does not materially comply with the requirements in paragraph (a) or, for a high-performing charter school system, the application does not materially comply with s. 1002.332(2)(b);

(II) The charter school proposed in the application does not materially comply with the requirements in paragraphs (9)(a)-(f);

(III) The proposed charter school's educational program does not substantially replicate that of the applicant or one of the applicant's high-performing charter schools;

(IV) The applicant has made a material misrepresentation or false statement or concealed an essential or material fact during the application process; or

(V) The proposed charter school's educational program and financial management practices do not materially comply with the requirements of this section.

Material noncompliance is a failure to follow requirements or a violation of prohibitions applicable to charter school

applications, which failure is quantitatively or qualitatively significant either individually or when aggregated with other noncompliance. An applicant is considered to be replicating a high-performing charter school if the proposed school is substantially similar to at least one of the applicant's high-performing charter schools and the organization or individuals involved in the establishment and operation of the proposed school are significantly involved in the operation of replicated schools.

c. If the sponsor denies an application submitted by a high-performing charter school or a high-performing charter school system, the sponsor must, within 10 calendar days after such denial, state in writing the specific reasons, based upon the criteria in sub-subparagraph b., supporting its denial of the application and must provide the letter of denial and supporting documentation to the applicant and to the Department of Education. The applicant may appeal the sponsor's denial of the application in accordance with paragraph (c).

4. For budget projection purposes, the sponsor shall report to the Department of Education the approval or denial of an application within 10 calendar days after such approval or denial. In the event of approval, the report to the Department of Education shall include the final projected FTE for the approved charter school.

5. Upon approval of an application, the initial startup shall commence with the beginning of the public school calendar for the district in which the charter is granted. A charter school may defer the opening of the school's operations for up to 3 ~~2~~ years to provide time for adequate facility planning. The

583458

charter school must provide written notice of such intent to the sponsor and the parents of enrolled students at least 30 calendar days before the first day of school.

(7) CHARTER.—The terms and conditions for the operation of a charter school shall be set forth by the sponsor and the applicant in a written contractual agreement, called a charter. The sponsor and the governing board of the charter school shall use the standard charter contract pursuant to subsection (21), which shall incorporate the approved application and any addenda approved with the application. Any term or condition of a proposed charter contract that differs from the standard charter contract adopted by rule of the State Board of Education shall be presumed a limitation on charter school flexibility. The sponsor may not impose unreasonable rules or regulations that violate the intent of giving charter schools greater flexibility to meet educational goals. The charter shall be signed by the governing board of the charter school and the sponsor, following a public hearing to ensure community input.

(a) The charter shall address and criteria for approval of the charter shall be based on:

1. The school’s mission, the students to be served, and the ages and grades to be included.

2. The focus of the curriculum, the instructional methods to be used, any distinctive instructional techniques to be employed, and identification and acquisition of appropriate technologies needed to improve educational and administrative performance which include a means for promoting safe, ethical, and appropriate uses of technology which comply with legal and professional standards.

583458

a. The charter shall ensure that reading is a primary focus of the curriculum and that resources are provided to identify and provide specialized instruction for students who are reading below grade level. The curriculum and instructional strategies for reading must be consistent with the Next Generation Sunshine State Standards and grounded in scientifically based reading research.

b. In order to provide students with access to diverse instructional delivery models, to facilitate the integration of technology within traditional classroom instruction, and to provide students with the skills they need to compete in the 21st century economy, the Legislature encourages instructional methods for blended learning courses consisting of both traditional classroom and online instructional techniques. Charter schools may implement blended learning courses which combine traditional classroom instruction and virtual instruction. Students in a blended learning course must be full-time students of the charter school pursuant to s. 1011.61(1)(a)1. Instructional personnel certified pursuant to s. 1012.55 who provide virtual instruction for blended learning courses may be employees of the charter school or may be under contract to provide instructional services to charter school students. At a minimum, such instructional personnel must hold an active state or school district adjunct certification under s. 1012.57 for the subject area of the blended learning course. The funding and performance accountability requirements for blended learning courses are the same as those for traditional courses.

3. The current incoming baseline standard of student

583458

academic achievement, the outcomes to be achieved, and the method of measurement that will be used. The criteria listed in this subparagraph shall include a detailed description of:

a. How the baseline student academic achievement levels and prior rates of academic progress will be established.

b. How these baseline rates will be compared to rates of academic progress achieved by these same students while attending the charter school.

c. To the extent possible, how these rates of progress will be evaluated and compared with rates of progress of other closely comparable student populations.

The district school board is required to provide academic student performance data to charter schools for each of their students coming from the district school system, as well as rates of academic progress of comparable student populations in the district school system.

4. The methods used to identify the educational strengths and needs of students and how well educational goals and performance standards are met by students attending the charter school. The methods shall provide a means for the charter school to ensure accountability to its constituents by analyzing student performance data and by evaluating the effectiveness and efficiency of its major educational programs. Students in charter schools shall, at a minimum, participate in the statewide assessment program created under s. 1008.22.

5. In secondary charter schools, a method for determining that a student has satisfied the requirements for graduation in s. 1002.3105(5), s. 1003.4281, or s. 1003.4282.

583458

6. A method for resolving conflicts between the governing board of the charter school and the sponsor.

7. The admissions procedures and dismissal procedures, including the school's code of student conduct. Admission or dismissal must not be based on a student's academic performance.

8. The ways by which the school will achieve a racial/ethnic balance reflective of the community it serves or within the racial/ethnic range of other public schools in the same school district.

9. The financial and administrative management of the school, including a reasonable demonstration of the professional experience or competence of those individuals or organizations applying to operate the charter school or those hired or retained to perform such professional services and the description of clearly delineated responsibilities and the policies and practices needed to effectively manage the charter school. A description of internal audit procedures and establishment of controls to ensure that financial resources are properly managed must be included. Both public sector and private sector professional experience shall be equally valid in such a consideration.

10. The asset and liability projections required in the application which are incorporated into the charter and shall be compared with information provided in the annual report of the charter school.

11. A description of procedures that identify various risks and provide for a comprehensive approach to reduce the impact of losses; plans to ensure the safety and security of students and staff; plans to identify, minimize, and protect others from

583458

violent or disruptive student behavior; and the manner in which the school will be insured, including whether or not the school will be required to have liability insurance, and, if so, the terms and conditions thereof and the amounts of coverage.

12. The term of the charter which shall provide for cancellation of the charter if insufficient progress has been made in attaining the student achievement objectives of the charter and if it is not likely that such objectives can be achieved before expiration of the charter. The initial term of a charter shall be for ~~4 or~~ 5 years, excluding 1 planning year. In order to facilitate access to long-term financial resources for charter school construction, charter schools that are operated by a municipality or other public entity as provided by law are eligible for up to a 15-year charter, subject to approval by the district school board. A charter lab school is eligible for a charter for a term of up to 15 years. In addition, to facilitate access to long-term financial resources for charter school construction, charter schools that are operated by a private, not-for-profit, s. 501(c)(3) status corporation are eligible for up to a 15-year charter, subject to approval by the district school board. Such long-term charters remain subject to annual review and may be terminated during the term of the charter, but only according to the provisions set forth in subsection (8).

13. The facilities to be used and their location. The sponsor may not require a charter school to have a certificate of occupancy or a temporary certificate of occupancy for such a facility earlier than 15 calendar days before the first day of school.

14. The qualifications to be required of the teachers and

the potential strategies used to recruit, hire, train, and retain qualified staff to achieve best value.

15. The governance structure of the school, including the status of the charter school as a public or private employer as required in paragraph (12)(i).

16. A timetable for implementing the charter which addresses the implementation of each element thereof and the date by which the charter shall be awarded in order to meet this timetable.

17. In the case of an existing public school that is being converted to charter status, alternative arrangements for current students who choose not to attend the charter school and for current teachers who choose not to teach in the charter school after conversion in accordance with the existing collective bargaining agreement or district school board rule in the absence of a collective bargaining agreement. However, alternative arrangements shall not be required for current teachers who choose not to teach in a charter lab school, except as authorized by the employment policies of the state university which grants the charter to the lab school.

18. Full disclosure of the identity of all relatives employed by the charter school who are related to the charter school owner, president, chairperson of the governing board of directors, superintendent, governing board member, principal, assistant principal, or any other person employed by the charter school who has equivalent decisionmaking authority. For the purpose of this subparagraph, the term “relative” means father, mother, son, daughter, brother, sister, uncle, aunt, first cousin, nephew, niece, husband, wife, father-in-law, mother-in-

583458

19. Implementation of the activities authorized under s. 1002.331 by the charter school when it satisfies the eligibility requirements for a high-performing charter school. A high-performing charter school shall notify its sponsor in writing by March 1 if it intends to increase enrollment or expand grade levels the following school year. The written notice shall specify the amount of the enrollment increase and the grade levels that will be added, as applicable.

(d) A charter may be modified during its initial term or any renewal term upon the recommendation of the sponsor or the charter school's governing board and the approval of both parties to the agreement. Modification during any term may include, but is not limited to, consolidation of multiple charters into a single charter if the charters are operated under the same governing board ~~and physically located on the same campus~~, regardless of the renewal cycle. A charter school with a grade of "C" or higher that closes as part of a consolidation shall be reported by the school district as a consolidation.

(e) A charter may be terminated by a charter school's governing board through voluntary closure. The decision to cease operations must be determined at a public meeting. The governing board shall notify the parents and sponsor of the public meeting in writing before the public meeting. The governing board must notify the sponsor, parents of enrolled students, and the department in writing within 24 hours after the public meeting

583458

of its determination. The notice shall state the charter school's intent to continue operations or the reason for the closure and acknowledge that the governing board agrees to follow the procedures for dissolution and reversion of public funds pursuant to paragraphs (8)(d)-(f) and (9)(o) ~~paragraphs (8)(e)-(g) and (9)(o)~~.

(8) CAUSES FOR NONRENEWAL OR TERMINATION OF CHARTER.—

(a) The sponsor shall make student academic achievement for all students the most important factor when determining whether to renew or terminate the charter. The sponsor may also choose not to renew or may terminate the charter if the sponsor finds that one of the grounds set forth below exists by clear and convincing evidence ~~for any of the following grounds~~:

1. Failure to participate in the state's education accountability system created in s. 1008.31, as required in this section, or failure to meet the requirements for student performance stated in the charter.

2. Failure to meet generally accepted standards of fiscal management.

3. Material violation of law.

4. Other good cause shown.

(b) At least 90 days before renewing, nonrenewing, or terminating a charter, the sponsor shall notify the governing board of the school of the proposed action in writing. The notice shall state in reasonable detail the grounds for the proposed action and stipulate that the school's governing board may, within 14 calendar days after receiving the notice, request a hearing. The hearing shall be conducted ~~at the sponsor's election in accordance with one of the following procedures:~~

583458

~~1. A direct hearing conducted by the sponsor within 60 days after receipt of the request for a hearing. The hearing shall be conducted in accordance with ss. 120.569 and 120.57. ~~(c) The final order shall state the specific reasons for the sponsor's decision. The sponsor shall provide its final order to the charter school's governing board and the Department of Education no later than 10 calendar days after its issuance.~~ The charter school's governing board may, within 30 calendar days after receiving the ~~sponsor's~~ final order, appeal the decision pursuant to s. 120.68.

(9) CHARTER SCHOOL REQUIREMENTS.—

(n)1. The director and a representative of the governing board of a charter school that has earned a grade of "D" or "F" pursuant to s. 1008.34 shall appear before the sponsor to present information concerning each contract component having noted deficiencies. The director and a representative of the

583458

governing board shall submit to the sponsor for approval a school improvement plan to raise student performance. Upon approval by the sponsor, the charter school shall begin implementation of the school improvement plan. The department shall offer technical assistance and training to the charter school and its governing board and establish guidelines for developing, submitting, and approving such plans.

2.a. If a charter school earns three consecutive grades below a "C," the charter school governing board shall choose one of the following corrective actions:

(I) Contract for educational services to be provided directly to students, instructional personnel, and school administrators, as prescribed in state board rule;

(II) Contract with an outside entity that has a demonstrated record of effectiveness to operate the school;

(III) Reorganize the school under a new director or principal who is authorized to hire new staff; or

(IV) Voluntarily close the charter school.

b. The charter school must implement the corrective action in the school year following receipt of a third consecutive grade below a "C."

c. The sponsor may annually waive a corrective action if it determines that the charter school is likely to improve a letter grade if additional time is provided to implement the intervention and support strategies prescribed by the school improvement plan. Notwithstanding this sub-subparagraph, a charter school that earns a second consecutive grade of "F" is subject to subparagraph 3.

d. A charter school is no longer required to implement a

corrective action if it improves to a "C" or higher. However, the charter school must continue to implement strategies identified in the school improvement plan. The sponsor must annually review implementation of the school improvement plan to monitor the school's continued improvement pursuant to subparagraph 4.

e. A charter school implementing a corrective action that does not improve to a "C" or higher after 2 full school years of implementing the corrective action must select a different corrective action. Implementation of the new corrective action must begin in the school year following the implementation period of the existing corrective action, unless the sponsor determines that the charter school is likely to improve to a "C" or higher if additional time is provided to implement the existing corrective action. Notwithstanding this sub-subparagraph, a charter school that earns a second consecutive grade of "F" while implementing a corrective action is subject to subparagraph 3.

3. A charter school's charter contract is automatically terminated if the school earns two consecutive grades of "F" after all school grade appeals are final unless:

a. The charter school is established to turn around the performance of a district public school pursuant to s. 1008.33(4)(b)2. Such charter schools shall be governed by s. 1008.33;

b. The charter school serves a student population the majority of which resides in a school zone served by a district public school subject to s. 1008.33(4) and the charter school earns at least a grade of "D" in its third year of operation.

583458

The exception provided under this sub-subparagraph does not apply to a charter school in its fourth year of operation and thereafter; or

c. The state board grants the charter school a waiver of termination. The charter school must request the waiver within 15 days after the department's official release of school grades. The state board may waive termination if the charter school demonstrates that the Learning Gains of its students on statewide assessments are comparable to or better than the Learning Gains of similarly situated students enrolled in nearby district public schools. The waiver is valid for 1 year and may only be granted once. Charter schools that have been in operation for more than 5 years are not eligible for a waiver under this sub-subparagraph.

The sponsor shall notify the charter school's governing board, the charter school principal, and the department in writing when a charter contract is terminated under this subparagraph. ~~The letter of termination must meet the requirements of paragraph (8)(c).~~ A charter terminated under this subparagraph must follow the procedures for dissolution and reversion of public funds pursuant to paragraphs (8)(d)-(f) and (9)(o) ~~paragraphs (8)(e)-(g) and (9)(o)~~.

4. The director and a representative of the governing board of a graded charter school that has implemented a school improvement plan under this paragraph shall appear before the sponsor at least once a year to present information regarding the progress of intervention and support strategies implemented by the school pursuant to the school improvement plan and

583458

corrective actions, if applicable. The sponsor shall communicate at the meeting, and in writing to the director, the services provided to the school to help the school address its deficiencies.

5. Notwithstanding any provision of this paragraph except sub-subparagraphs 3.a.-c., the sponsor may terminate the charter at any time pursuant to subsection (8).

(20) SERVICES.—

(b) If goods and services are made available to the charter school through the contract with the school district, they shall be provided to the charter school at a rate no greater than the district's actual cost unless mutually agreed upon by the charter school and the sponsor in a contract negotiated separately from the charter. When mediation has failed to resolve disputes over contracted services or contractual matters not included in the charter, an appeal may be made to an administrative law judge appointed by the Division of Administrative Hearings. The administrative law judge has final order authority to rule on the dispute. The administrative law judge shall award the prevailing party reasonable attorney fees and costs incurred during the mediation process, administrative proceeding, and any appeals, to be paid by the party whom the administrative law judge rules against ~~for a dispute resolution hearing before the Charter School Appeal Commission~~. To maximize the use of state funds, school districts shall allow charter schools to participate in the sponsor's bulk purchasing program if applicable.

Section 9. Paragraph (a) of subsection (2) and paragraph (b) of subsection (3) of section 1002.331, Florida Statutes, are

583458

amended to read:

1002.331 High-performing charter schools.—

(2) A high-performing charter school is authorized to:

(a) Increase its student enrollment once per school year to more than the capacity identified in the charter, but student enrollment may not exceed the ~~current facility~~ capacity of the facility at the time of enrollment. Facility capacity for purposes of grade level expansion shall include any improvements to an existing facility or any new facility in which a majority of the students of the high-performing charter school will enroll.

A high-performing charter school shall notify its sponsor in writing by March 1 if it intends to increase enrollment or expand grade levels the following school year. The written notice shall specify the amount of the enrollment increase and the grade levels that will be added, as applicable. If a charter school notifies the sponsor of its intent to expand, the sponsor shall modify the charter within 90 days to include the new enrollment maximum and may not make any other changes. The sponsor may deny a request to increase the enrollment of a high-performing charter school if the commissioner has declassified the charter school as high-performing. If a high-performing charter school requests to consolidate multiple charters, the sponsor shall have 40 days after receipt of that request to provide an initial draft charter to the charter school. The sponsor and charter school shall have 50 days thereafter to negotiate and notice the charter contract for final approval by the sponsor.

583458

(3)

(b) A high-performing charter school may not establish more than two ~~one~~ charter schools ~~school~~ within the state under paragraph (a) in any year. A subsequent application to establish a charter school under paragraph (a) may not be submitted unless each charter school established in this manner achieves high-performing charter school status. However, a high-performing charter school may establish more than one charter school within the state under paragraph (a) in any year if it operates in the area of a persistently low-performing school and serves students from that school.

Section 10. Subsection (2) of section 1012.32, Florida Statutes, is amended to read:

1012.32 Qualifications of personnel.—

(2)(a) Instructional and noninstructional personnel who are hired or contracted to fill positions that require direct contact with students in any district school system or university lab school must, upon employment or engagement to provide services, undergo background screening as required under s. 1012.465 or s. 1012.56, whichever is applicable.

If the district school board does not notify the charter school of the eligibility of governing board members and instructional and noninstructional personnel within 14 days after the submission of the fingerprints, it shall reimburse the cost of background screening.

Level II programs ~~may be offered by school districts,~~ build upon Level I training~~,~~ and lead to renewal certification as a school principal.

(1) PURPOSE.—The purpose of school leader preparation programs are to:

583458

(a) Increase the supply of effective school leaders in the public schools of this state.

(b) Produce school leaders who are prepared to lead the state's diverse student population in meeting high standards for academic achievement.

(c) "Public institution of higher education" means any public technical center, state university, law school, medical school, dental school, or Florida College System institution as defined in s. 1000.21.

(2) RIGHT TO FREE SPEECH ACTIVITIES.—

(a) Expressive activities protected under this section include, but are not limited to, any lawful verbal or written means by which an individual may communicate ideas to others, including all forms of peaceful assembly, protests, speeches, and guest speakers; distributing literature; carrying signs; circulating petitions; and the recording and publication, including Internet publication, of video or audio recorded in outdoor areas of campus of public institutions of higher education.

(1) As used in this section, the term ~~A~~ "home education

157794

program" has the same meaning as ~~is defined~~ in s. 1002.01. A home education program is not a school district program and is registered with the district school superintendent only for the purpose of complying with the state's attendance requirements under s. 1003.21(1). The parent is not required to hold a valid regular Florida teaching certificate.

(a) The parent, as defined in s. 1000.21, who establishes and maintains a home education program shall notify the district school superintendent of the county in which the parent resides of her or his intent to establish and maintain a home education program. The notice must ~~shall~~ be filed in the district school superintendent's office within 30 days of the establishment of the home education program.

(b) The district school superintendent shall accept the notice and immediately register the home education program upon receipt of the notice. The district may not require any additional information or verification from the parent unless the student chooses to participate in a school district program or service. The district school superintendent may not assign a grade level to the home education student or include a social security number or any other personal information of the student in any school district or state database unless the student chooses to participate in a school district program or service; and

(c) The parent shall file a written notice of termination upon completion of the home education program with ~~shall be~~

~~filed in~~ the district school superintendent, along with the annual evaluation required in paragraph (f), within ~~superintendent's office within~~ 30 days of ~~after said~~ termination.

(d) ~~(b)~~ The parent shall maintain a portfolio of records and materials. The portfolio must ~~shall~~ consist of the following:

1. A log of educational activities that is made contemporaneously with the instruction and that designates by title any reading materials used.

2. Samples of any writings, worksheets, workbooks, or creative materials used or developed by the student.

(e) The parent shall determine the content of the portfolio, preserve it ~~shall be preserved by the parent~~ for 2 years, and make it ~~shall be made~~ available for inspection, if requested, by the district school superintendent, or the district school superintendent's agent, upon 15 days' written notice. Nothing in this section shall require the district school superintendent to inspect the portfolio.

(f) ~~(c)~~ The parent shall provide for an annual educational evaluation in which is documented the student's demonstration of educational progress at a level commensurate with her or his ability. The parent shall select the method of evaluation and shall file a copy of the evaluation annually with the district school superintendent's office in the county in which the student resides. The annual educational evaluation shall consist of one of the following:

1. A teacher selected by the parent shall evaluate the student's educational progress upon review of the portfolio and discussion with the student. Such teacher shall hold a valid

regular Florida certificate to teach academic subjects at the elementary or secondary level;

3. The student shall take a state student assessment test used by the school district and administered by a certified teacher, at a location and under testing conditions approved by the school district;

5. The student shall be evaluated with any other valid measurement tool as mutually agreed upon by the district school superintendent of the district in which the student resides and the student's parent.

(2) The district school superintendent shall ~~review and~~ accept the results of the annual educational evaluation of the student in a home education program. If the student does not demonstrate educational progress at a level commensurate with her or his ability, the district school superintendent shall notify the parent, in writing, that such progress has not been achieved. The parent shall have 1 year from the date of receipt of the written notification to provide remedial instruction to the student. At the end of the 1-year probationary period, the student shall be reevaluated as specified in paragraph (1)(f) ~~(1)(c)~~. Continuation in a home education program shall be contingent upon the student demonstrating educational progress commensurate with her or his ability at the end of the probationary period.

(11) A school district may provide access to career and technical courses and programs for a home education program student who enrolls in a public school solely for the career and technical courses or programs. The school district that provides the career and technical courses and programs shall report each student as a full-time equivalent student in the class and in a manner prescribed by the department, and funding shall be provided through the Florida Education Finance Program pursuant to s. 1011.62.

(12) Industry certifications, national assessments, and statewide, standardized assessments offered by the school district shall be available to home education program students. Each school district shall notify home education program students of the available certifications and assessments; the date, time, and locations for the administration of each certification and assessment; and the deadline for notifying the school district of the student's intent to participate and the student's preferred location.

(13) A school district may not further regulate, exercise control over, or require documentation from parents of home education program students beyond the requirements of this section unless the regulation, control, or documentation is necessary for participation in a school district program.

Section 42. Subsection (4) of section 1003.21, Florida Statutes, is amended to read:

1003.21 School attendance.—

(4) Before admitting a child to kindergarten, the principal shall require evidence that the child has attained the age at which he or she should be admitted in accordance with the

provisions of subparagraph (1)(a)2. The district school superintendent may require evidence of the age of any child who is being enrolled in public school who the district school superintendent ~~whom he or she~~ believes to be within the limits of compulsory attendance as provided for by law; however, the district school superintendent may not require evidence from any child who meets regular attendance requirements by attending a school or program listed in s. 1003.01(13)(b)-(e). If the first prescribed evidence is not available, the next evidence obtainable in the order set forth below shall be accepted:

(a) A duly attested transcript of the child's birth record filed according to law with a public officer charged with the duty of recording births;

(b) A duly attested transcript of a certificate of baptism showing the date of birth and place of baptism of the child, accompanied by an affidavit sworn to by the parent;

(e) A passport or certificate of arrival in the United States showing the age of the child;

(f) A transcript of record of age shown in the child's school record of at least 4 years prior to application, stating date of birth; or

(g) If none of these evidences can be produced, an affidavit of age sworn to by the parent, accompanied by a certificate of age signed by a public health officer or by a

public school physician, or, if these are not available in the county, by a licensed practicing physician designated by the district school board, which states that the health officer or physician has examined the child and believes that the age as stated in the affidavit is substantially correct. Children and youths who are experiencing homelessness and children who are known to the department, as defined in s. 39.0016, shall be given temporary exemption from this section for 30 school days.

Section 43. Paragraph (f) of subsection (1) and paragraph (a) of subsection (2) of section 1003.26, Florida Statutes, are amended to read:

1003.26 Enforcement of school attendance.—The Legislature finds that poor academic performance is associated with nonattendance and that school districts must take an active role in promoting and enforcing attendance as a means of improving student performance. It is the policy of the state that each district school superintendent be responsible for enforcing school attendance of all students subject to the compulsory school age in the school district and supporting enforcement of school attendance by local law enforcement agencies. The responsibility includes recommending policies and procedures to the district school board that require public schools to respond in a timely manner to every unexcused absence, and every absence for which the reason is unknown, of students enrolled in the schools. District school board policies shall require the parent of a student to justify each absence of the student, and that justification will be evaluated based on adopted district school board policies that define excused and unexcused absences. The policies must provide that public schools track excused and

157794

unexcused absences and contact the home in the case of an unexcused absence from school, or an absence from school for which the reason is unknown, to prevent the development of patterns of nonattendance. The Legislature finds that early intervention in school attendance is the most effective way of producing good attendance habits that will lead to improved student learning and achievement. Each public school shall implement the following steps to promote and enforce regular school attendance:

(1) CONTACT, REFER, AND ENFORCE.—

(f)1. If the parent of a child who has been identified as exhibiting a pattern of nonattendance enrolls the child in a home education program pursuant to chapter 1002, the district school superintendent shall provide the parent a copy of s. 1002.41 and the accountability requirements of this paragraph. The district school superintendent shall also refer the parent to a home education review committee composed of the district contact for home education programs and at least two home educators selected by the parent from a district list of all home educators who have conducted a home education program for at least 3 years and who have indicated a willingness to serve on the committee. The home education review committee shall review the portfolio of the student, as defined by s. 1002.41, every 30 days during the district's regular school terms until the committee is satisfied that the home education program is in compliance with s. 1002.41(1)(d) ~~s. 1002.41(1)(b)~~. The first portfolio review must occur within the first 30 calendar days of the establishment of the program. The provisions of subparagraph 2. do not apply once the committee determines the home education

157794

program is in compliance with s. 1002.41(1)(d) ~~s. 1002.41(1)(b)~~.

2. If the parent fails to provide a portfolio to the committee, the committee shall notify the district school superintendent. The district school superintendent shall then terminate the home education program and require the parent to enroll the child in an attendance option that meets the definition of "regular school attendance" under s. 1003.01(13)(a), (b), (c), or (e), within 3 days. Upon termination of a home education program pursuant to this subparagraph, the parent shall not be eligible to reenroll the child in a home education program for 180 calendar days. Failure of a parent to enroll the child in an attendance option as required by this subparagraph after termination of the home education program pursuant to this subparagraph shall constitute noncompliance with the compulsory attendance requirements of s. 1003.21 and may result in criminal prosecution under s. 1003.27(2). Nothing contained herein shall restrict the ability of the district school superintendent, or the ability of his or her designee, to review the portfolio pursuant to s. 1002.41(1)(e) ~~s. 1002.41(1)(b)~~.

(2) GIVE WRITTEN NOTICE.—

(a) Under the direction of the district school superintendent, a designated school representative shall give written notice that requires enrollment or attendance within 3 days after the date of notice, in person or by return-receipt mail, to the parent when no valid reason is found for a student's nonenrollment in school. If the notice and requirement are ignored, the designated school representative shall report the case to the district school superintendent, who ~~and~~ may

refer the case to the child study team in paragraph (1)(b) at the school the student would be assigned according to district school board attendance area policies or to the case staffing committee, established pursuant to s. 984.12. The child study team shall diligently facilitate intervention services and shall report the case back to the district school superintendent only when all reasonable efforts to resolve the nonenrollment behavior are exhausted. If the parent still refuses to cooperate or enroll the child in school, the district school superintendent shall take such steps as are necessary to bring criminal prosecution against the parent.

Section 44. Subsection (2) of section 1003.27, Florida Statutes, is amended to read:

1003.27 Court procedure and penalties.—The court procedure and penalties for the enforcement of the provisions of this part, relating to compulsory school attendance, shall be as follows:

(2) NONENROLLMENT AND NONATTENDANCE CASES.—

(a) In each case of nonenrollment or of nonattendance upon the part of a student who is required to attend some school, when no valid reason for such nonenrollment or nonattendance is found, the district school superintendent shall institute a criminal prosecution against the student's parent. However, criminal prosecution may not be instituted against the student's parent until the school and school district have complied with s. 1003.26.

(3) Student eligibility requirements for initial enrollment in college credit dual enrollment courses must include a 3.0 unweighted high school grade point average and the minimum score

Student eligibility requirements for continued enrollment in college credit dual enrollment courses must include the maintenance of a 3.0 unweighted high school grade point average and the minimum postsecondary grade point average established by the postsecondary institution. Regardless of meeting student eligibility requirements for continued enrollment, a student may lose the opportunity to participate in a dual enrollment course if the student is disruptive to the learning process such that the progress of other students or the efficient administration of the course is hindered. Student eligibility requirements for initial and continued enrollment in career certificate dual enrollment courses must include a 2.0 unweighted high school grade point average. Exceptions to the required grade point averages may be granted on an individual student basis if the educational entities agree and the terms of the agreement are contained within the dual enrollment articulation agreement established pursuant to subsection (21). Additional requirements included in the agreement may not arbitrarily prohibit students who have demonstrated the ability to master advanced courses from participating in dual enrollment courses or limit the number of dual enrollment courses in which a student may enroll based solely upon enrollment by the student at an independent postsecondary

institution.

(13)

(b) Each postsecondary institution eligible to participate in the dual enrollment program pursuant to s. 1011.62(1)(i) must enter into a home education articulation agreement with each home education student seeking enrollment in a dual enrollment course and the student's parent. 2. The initial and continued eligibility requirements for home education student participation, not to exceed those required of other dually enrolled students. A high school grade point average may not be required for home education students who meet the minimum score on a common placement test adopted by the State Board of Education which indicates that the student is ready for college-level coursework; however, home education student eligibility requirements for continued enrollment in dual enrollment courses must include the maintenance of the minimum postsecondary grade point average established by the postsecondary institution.

3. The student's responsibilities for providing his or her own instructional materials and transportation.

A parent, student, or provider of any services may not bill an insurance company, Medicaid, or any other agency for the same services that are paid for using Gardiner Scholarship funds.

157794

(11) PARENT AND STUDENT RESPONSIBILITIES FOR PROGRAM PARTICIPATION.—A parent who applies for program participation under this section is exercising his or her parental option to determine the appropriate placement or the services that best meet the needs of his or her child. The scholarship award for a student is based on a matrix that assigns the student to support Level III services. If a parent receives an IEP and a matrix of services from the school district pursuant to subsection (7), the amount of the payment shall be adjusted as needed, when the school district completes the matrix.

The department shall conduct an inquiry of any written complaint of a violation of this section, or make a referral to the appropriate agency for an investigation, if the complaint is signed by the complainant and is legally sufficient. A complaint is legally sufficient if it contains ultimate facts that show that a violation of this section or any rule adopted by the State Board of Education has occurred. In order to determine legal sufficiency, the department may require supporting information or documentation from the complainant. A department inquiry is not subject to the requirements of chapter 120.

(d) Require an annual, notarized, sworn compliance statement by participating private schools certifying compliance with state laws and shall retain such records.

(e) Cross-check the list of participating scholarship students with the public school enrollment lists prior to each scholarship payment to avoid duplication.

(7) COMMISSIONER OF EDUCATION AUTHORITY AND OBLIGATIONS.—

(a) The Commissioner of Education:

1. Shall deny, suspend, or revoke a private school's participation in the scholarship program if it is determined that the private school has failed to comply with the provisions of this section. However, if the noncompliance is correctable within a reasonable amount of time and if the health, safety, or

welfare of the students is not threatened, the commissioner may issue a notice of noncompliance which provides the private school with a timeframe within which to provide evidence of compliance before taking action to suspend or revoke the private school's participation in the scholarship program.

2. May deny, suspend, or revoke a private school's participation in the scholarship program if the commissioner determines that an owner or operator of the private school is operating or has operated an educational institution in this state or in another state or jurisdiction in a manner contrary to the health, safety, or welfare of the public.

a. In making such a determination, the commissioner may consider factors that include, but are not limited to, acts or omissions by an owner or operator which led to a previous denial or revocation of participation in an education scholarship program; an owner's or operator's failure to reimburse the Department of Education for scholarship funds improperly received or retained by a school; imposition of a prior criminal sanction related to an owner's or operator's management or operation of an educational institution; imposition of a civil fine or administrative fine, license revocation or suspension, or program eligibility suspension, termination, or revocation related to an owner's or operator's management or operation of an educational institution; or other types of criminal proceedings in which an owner or operator was found guilty of, regardless of adjudication, or entered a plea of nolo contendere or guilty to, any offense involving fraud, deceit, dishonesty, or moral turpitude.

b. For purposes of this subparagraph, the term "owner or

operator" includes an owner, operator, superintendent, or principal of, or a person who has equivalent decisionmaking authority over, a private school participating in the scholarship program.

(b) The commissioner's determination is subject to the following:

1. If the commissioner intends to deny, suspend, or revoke a private school's participation in the scholarship program, the department shall notify the private school of such proposed action in writing by certified mail and regular mail to the private school's address of record with the department. The notification shall include the reasons for the proposed action and notice of the timelines and procedures set forth in this paragraph.

2. The private school that is adversely affected by the proposed action shall have 15 days from receipt of the notice of proposed action to file with the department's agency clerk a request for a proceeding pursuant to ss. 120.569 and 120.57. If the private school is entitled to a hearing under s. 120.57(1), the department shall forward the request to the Division of Administrative Hearings.

3. Upon receipt of a request referred pursuant to this paragraph, the director of the Division of Administrative Hearings shall expedite the hearing and assign an administrative law judge who shall commence a hearing within 30 days after the receipt of the formal written request by the division and enter a recommended order within 30 days after the hearing or within 30 days after receipt of the hearing transcript, whichever is later. Each party shall be allowed 10 days in which to submit

written exceptions to the recommended order. A final order shall be entered by the agency within 30 days after the entry of a recommended order. The provisions of this subparagraph may be waived upon stipulation by all parties.

(c) The commissioner may immediately suspend payment of scholarship funds if it is determined that there is probable cause to believe that there is:

1. An imminent threat to the health, safety, or welfare of the students; or

2. Fraudulent activity on the part of the private school. Notwithstanding s. 1002.22, in incidents of alleged fraudulent activity pursuant to this section, the Department of Education's Office of Inspector General is authorized to release personally identifiable records or reports of students to the following persons or organizations:

Such a private school must annually submit the required report by September 15 to the organization that awarded the majority of the school's scholarship funds. The agreed-upon procedures must be conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants.

The parent may not designate any entity or individual associated with the participating private school as the parent's attorney in fact to endorse a scholarship warrant. A participant who fails to comply with this paragraph forfeits the scholarship.

(10) TRANSITION-TO-WORK PROGRAM.—A student participating in the John M. McKay Scholarships for Students with Disabilities Program who is at least 17 years, but not older than 22 years, of age and who has not received a high school diploma or certificate of completion is eligible for enrollment in his or her private school's transition-to-work program. The maximum scholarship granted for an eligible student with disabilities shall be equivalent to the base student allocation in the Florida Education Finance Program multiplied by the appropriate cost factor for the educational program that would have been provided for the student in the district school to which he or she was assigned, multiplied by the district cost differential.

2. In addition, a share of the guaranteed allocation for exceptional students shall be determined and added to the amount in subparagraph 1. The calculation shall be based on the methodology and the data used to calculate the guaranteed allocation for exceptional students for each district in chapter 2000-166, Laws of Florida. Except as provided in subparagraphs 3. and 4., the calculation shall be based on the student's grade, matrix level of services, and the difference between the 2000-2001 basic program and the appropriate level of services cost factor, multiplied by the 2000-2001 base student allocation and the 2000-2001 district cost differential for the sending district. The calculated amount shall include the per-student

share of supplemental academic instruction funds, instructional materials funds, technology funds, and other categorical funds as provided in the General Appropriations Act.

3. The scholarship amount for a student who is eligible under sub-subparagraph (2)(a)2.b. shall be calculated as provided in subparagraphs 1. and 2. However, the calculation shall be based on the school district in which the parent resides at the time of the scholarship request.

4. Until the school district completes the matrix required by paragraph (5)(b), the calculation shall be based on the matrix that assigns the student to support Level I of service as it existed prior to the 2000-2001 school year. When the school district completes the matrix, the amount of the payment shall be adjusted as needed.

5. The scholarship amount for a student eligible under s. 504 of the Rehabilitation Act of 1973 or paragraph (1)(c) shall be based on the program cost factor the student currently generates through the Florida Education Finance Program.

6. The scholarship amount granted for an eligible student with disabilities is not subject to the maximum value for funding a student under s. 1011.61(4).

(b) The amount of the John M. McKay Scholarship shall be the calculated amount or the amount of the private school’s tuition and fees, whichever is less. The amount of any assessment fee required by the participating private school may be paid from the total amount of the scholarship.

(c)1. The school district shall report all students who are attending a private school under this program. The students with disabilities attending private schools on John M. McKay

515880

Scholarships shall be reported separately from other students reported for purposes of the Florida Education Finance Program.

2. For program participants who are eligible under sub-subparagraph (2)(a)2.b., the school district that is used as the basis for the calculation of the scholarship amount as provided in subparagraph (a)3. shall:

a. Report to the department all such students who are attending a private school under this program.

b. Be held harmless for such students from the weighted enrollment ceiling for group 2 programs in s. 1011.62(1)(d)3.b. during the first school year in which the students are reported.

(d) Following notification on July 1, September 1, December 1, or February 1 of the number of program participants, the department shall transfer, from General Revenue funds only, the amount calculated under paragraph (b) from the school district's total funding entitlement under the Florida Education Finance Program and from authorized categorical accounts to a separate account for the scholarship program for quarterly disbursement to the parents of participating students. Funds may not be transferred from any funding provided to the Florida School for the Deaf and the Blind for program participants who are eligible under sub-subparagraph (2)(a)2.b. For a student exiting a Department of Juvenile Justice commitment program who chooses to participate in the scholarship program, the amount of the John M. McKay Scholarship calculated pursuant to paragraph (b) shall be transferred from the school district in which the student last attended a public school before commitment to the Department of Juvenile Justice. When a student enters the scholarship program, the department must receive all

documentation required for the student's participation, including the private school's and the student's fee schedules, at least 30 days before the first quarterly scholarship payment is made for the student.

(e) Upon notification by the department that it has received the documentation required under paragraph (d), the Chief Financial Officer shall make scholarship payments in four equal amounts no later than September 1, November 1, February 1, and April 1 of each academic year in which the scholarship is in force. The initial payment shall be made after department verification of admission acceptance, and subsequent payments shall be made upon verification of continued enrollment and attendance at the private school. Payment must be by individual warrant made payable to the student's parent and mailed by the department to the private school of the parent's choice, and the parent shall restrictively endorse the warrant to the private school for deposit into the account of the private school.

(f) Subsequent to each scholarship payment, the department shall request from the Department of Financial Services a sample of endorsed warrants to review and confirm compliance with endorsement requirements.

(12) LIABILITY.—No liability shall arise on the part of the state based on the award or use of a John M. McKay Scholarship.

(13) SCOPE OF AUTHORITY.—The inclusion of eligible private schools within options available to Florida public school students does not expand the regulatory authority of the state, its officers, or any school district to impose any additional regulation of private schools beyond those reasonably necessary to enforce requirements expressly set forth in this section.

(14) RULES.—The State Board of Education shall adopt rules pursuant to ss. 120.536(1) and 120.54 to administer this section, including rules that school districts must use to expedite the development of a matrix of services based on an active individual education plan from another state or a foreign country for a transferring student with a disability who is a dependent child of a member of the United States Armed Forces. The rules must identify the appropriate school district personnel who must complete the matrix of services. For purposes of these rules, a transferring student with a disability is one who was previously enrolled as a student with a disability in an out-of-state or an out-of-country public or private school or agency program and who is transferring from out of state or from a foreign country pursuant to a parent's permanent change of station orders.

1002.33 Charter schools.—

(6) APPLICATION PROCESS AND REVIEW.—Charter school applications are subject to the following requirements:

(b) A sponsor shall receive and review all applications for a charter school using the evaluation instrument developed by the Department of Education. A sponsor shall receive and consider charter school applications received on or before August 1 of each calendar year for charter schools to be opened at the beginning of the school district's next school year, or to be opened at a time agreed to by the applicant and the sponsor. A sponsor may not refuse to receive a charter school application submitted before August 1 and may receive an application submitted later than August 1 if it chooses. Beginning in 2018 and thereafter, a sponsor shall receive and consider charter school applications received on or before February 1 of each calendar year for charter schools to be opened 18 months later at the beginning of the school district's school year, or to be opened at a time agreed to by the applicant and the sponsor. A sponsor may not refuse to receive a charter school application submitted before February 1 and may receive an application submitted later than February 1 if it chooses. A sponsor may not charge an applicant for a charter any fee for the processing or consideration of an application, and a sponsor may not base its consideration or approval of a final application upon the promise of future payment of any kind.

Before approving or denying any application, the sponsor shall allow the applicant, upon receipt of written notification, at least 7 calendar days to make technical or nonsubstantive corrections and clarifications, including, but not limited to, corrections of grammatical, typographical, and like errors or missing signatures, if such errors are identified by the sponsor as cause to deny the final application.

1. In order to facilitate an accurate budget projection process, a sponsor shall be held harmless for FTE students who are not included in the FTE projection due to approval of charter school applications after the FTE projection deadline. In a further effort to facilitate an accurate budget projection, within 15 calendar days after receipt of a charter school application, a sponsor shall report to the Department of Education the name of the applicant entity, the proposed charter school location, and its projected FTE.

2. In order to ensure fiscal responsibility, an application for a charter school shall include a full accounting of expected assets, a projection of expected sources and amounts of income, including income derived from projected student enrollments and from community support, and an expense projection that includes full accounting of the costs of operation, including start-up costs.

3.a. A sponsor shall by a majority vote approve or deny an application no later than 90 calendar days after the application is received, unless the sponsor and the applicant mutually agree in writing to temporarily postpone the vote to a specific date, at which time the sponsor shall by a majority vote approve or deny the application. If the sponsor fails to act on the

809628

application, an applicant may appeal to the State Board of Education as provided in paragraph (c). If an application is denied, the sponsor shall, within 10 calendar days after such denial, articulate in writing the specific reasons, based upon good cause, supporting its denial of the application and shall provide the letter of denial and supporting documentation to the applicant and to the Department of Education.

b. An application submitted by a high-performing charter school identified pursuant to s. 1002.331 or a high-performing charter school system identified pursuant to s. 1002.332 may be denied by the sponsor only if the sponsor demonstrates by clear and convincing evidence that:

(I) The application does not materially comply with the requirements in paragraph (a);

(II) The charter school proposed in the application does not materially comply with the requirements in paragraphs (9)(a)-(f);

(III) The proposed charter school's educational program does not substantially replicate that of the applicant or one of the applicant's high-performing charter schools;

(IV) The applicant has made a material misrepresentation or false statement or concealed an essential or material fact during the application process; or

(V) The proposed charter school's educational program and financial management practices do not materially comply with the requirements of this section.

Material noncompliance is a failure to follow requirements or a violation of prohibitions applicable to charter school

809628

applications, which failure is quantitatively or qualitatively significant either individually or when aggregated with other noncompliance. An applicant is considered to be replicating a high-performing charter school if the proposed school is substantially similar to at least one of the applicant's high-performing charter schools and the organization or individuals involved in the establishment and operation of the proposed school are significantly involved in the operation of replicated schools.

c. If the sponsor denies an application submitted by a high-performing charter school or a high-performing charter school system, the sponsor must, within 10 calendar days after such denial, state in writing the specific reasons, based upon the criteria in sub-subparagraph b., supporting its denial of the application and must provide the letter of denial and supporting documentation to the applicant and to the Department of Education. The applicant may appeal the sponsor's denial of the application in accordance with paragraph (c).

4. For budget projection purposes, the sponsor shall report to the Department of Education the approval or denial of an application within 10 calendar days after such approval or denial. In the event of approval, the report to the Department of Education shall include the final projected FTE for the approved charter school.

5. Upon approval of an application, the initial startup shall commence with the beginning of the public school calendar for the district in which the charter is granted. A charter school may defer the opening of the school's operations for up to 3 ~~2~~ years to provide time for adequate facility planning. The

charter school must provide written notice of such intent to the sponsor and the parents of enrolled students at least 30 calendar days before the first day of school.

Section 4. Subsection (1) of section 1002.331, Florida Statutes, is amended to read:

1002.331 High-performing charter schools.—

(1) A charter school is a high-performing charter school if it:

(a) Received at least two school grades of "A" and no school grade below "B," pursuant to s. 1008.34, during each of the previous 3 school years or received at least two consecutive school grades of "A" in the most recent 2 school years.

(b) Received an unqualified opinion on each annual financial audit required under s. 218.39 in the most recent 3 fiscal years for which such audits are available.

(c) Did not receive a financial audit that revealed one or more of the financial emergency conditions set forth in s. 218.503(1) in the most recent 3 fiscal years for which such audits are available. However, this requirement is deemed met for a charter school-in-the-workplace if there is a finding in an audit that the school has the monetary resources available to cover any reported deficiency or that the deficiency does not result in a deteriorating financial condition pursuant to s. 1002.345(1)(a)3.

For purposes of determining initial eligibility, the requirements of paragraphs (b) and (c) only apply to the most recent 2 fiscal years if the charter school earns two consecutive grades of "A." A virtual charter school established

809628

under s. 1002.33 is not eligible for designation as a high-performing charter school.

Section 5. Present subsections (11) and (12) of section 1002.333, Florida Statutes, are redesignated as subsections (12) and (13), respectively, a new subsection (11) is added to that section, and subsections (1) and (2), paragraph (a) of subsection (4), paragraphs (b), (g), and (i) of subsection (5), paragraph (a) of subsection (7), subsection (9), and paragraph (b) of subsection (10) of that section are amended, to read:

b. Leadership quality improvement;

c. Educator quality improvement;

d. Professional development;

e. Curriculum review, pacing, and alignment across grade levels to improve background knowledge in social studies, science, and the arts; and

2. ~~In addition,~~ The state board may prescribe reporting requirements to review and monitor the progress of the schools. The rule must define the intervention and support strategies for school improvement for schools earning a grade of "D" or "F" and the roles for the district and department.

(4)(a) The state board shall apply intensive intervention and support strategies tailored to the needs of schools earning two consecutive grades of "D" or a grade of "F." In the first full school year after a school initially earns two consecutive grades of "D" or a grade of "F," the school district must immediately implement intervention and support strategies prescribed in rule under paragraph (3)(c) and, by September 1, provide the department with the memorandum of understanding

809628

negotiated pursuant to s. 1001.42(21) and, by October 1, a district-managed turnaround plan for approval by the state board. The district-managed turnaround plan may include a proposal for the district to implement an extended school day, a summer program, or a combination of an extended school day and summer program. Upon approval by the state board, the school district must implement the plan for the remainder of the school year and continue the plan for 1 full school year. The state board may allow a school an additional year of implementation before the school must implement a turnaround option required under paragraph (b) if it determines that the school is likely to improve to a grade of "C" or higher after the first full school year of implementation.

(b) Unless an additional year of implementation is provided pursuant to paragraph (a), a school that has completed 2 school years of a district-managed turnaround plan required under paragraph (a) and has not improved its school grade to a "C" or higher, pursuant to s. 1008.34, ~~earns three consecutive grades below a "C"~~ must implement one of the following options:

A district-managed charter school is eligible for funding from the hope supplemental services allocation established by s. 1011.62(16); or

b. A hope operator that submits to a school district a notice of intent of a performance-based agreement pursuant to s. 1002.333. A school of hope established pursuant to this sub-subparagraph is eligible for funding from the hope supplemental services allocation for up to 5 years, beginning in the school year in which the school of hope is established, if the school of hope:

(I) Is established at the district-owned facilities of the persistently low-performing school;

(II) Gives priority enrollment to students who are enrolled in, or are eligible to attend and are living in the attendance area of, the persistently low-performing school that the school of hope operates, consistent with the enrollment lottery exemption provided under s. 1002.333(5)(c); and

(III) Meets the requirements of its performance-based agreement pursuant to s. 1002.333.

4. Implement a franchise model school in which a highly effective principal, pursuant to s. 1012.34, leads the persistently low-performing school in addition to the principal’s currently assigned school. The franchise model school principal may allocate resources and personnel between the schools he or she leads. The persistently low-performing

809628

school is eligible for funding from the hope supplemental services allocation established under s. 1011.62(16).

(c) Implementation of the turnaround option is no longer required if the school improves to a grade of "C" or higher.

(d) If a school ~~earning two consecutive grades of "D" or a grade of "F"~~ does not improve to a grade of "C" or higher after 2 full school years of implementing the turnaround option selected by the school district under paragraph (b), the school district must implement another turnaround option. Implementation of the turnaround option must begin the school year following the implementation period of the existing turnaround option, unless the state board determines that the school is likely to improve to a grade of "C" or higher if additional time is provided to implement the existing turnaround option.

Section 21. Present subsections (16) and (17) of section 1011.62, Florida Statutes, are redesignated as subsections (19) and (20), respectively, new subsections (16) and (17) and subsection (18) are added to that section, and paragraph (a) of subsection (4) and subsection (14) of that section are amended, to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(4) COMPUTATION OF DISTRICT REQUIRED LOCAL EFFORT.—The Legislature shall prescribe the aggregate required local effort

809628

for all school districts collectively as an item in the General Appropriations Act for each fiscal year. The amount that each district shall provide annually toward the cost of the Florida Education Finance Program for kindergarten through grade 12 programs shall be calculated as follows:

(a) *Estimated taxable value calculations.*—

1.a. Not later than 2 working days before July 19, the Department of Revenue shall certify to the Commissioner of Education its most recent estimate of the taxable value for school purposes in each school district and the total for all school districts in the state for the current calendar year based on the latest available data obtained from the local property appraisers. The value certified shall be the taxable value for school purposes for that year, and no further adjustments shall be made, except those made pursuant to paragraphs (c) and (d), or an assessment roll change required by final judicial decisions as specified in paragraph (19)(b) ~~(16)(b)~~. Not later than July 19, the Commissioner of Education shall compute a millage rate, rounded to the next highest one one-thousandth of a mill, which, when applied to 96 percent of the estimated state total taxable value for school purposes, would generate the prescribed aggregate required local effort for that year for all districts. The Commissioner of Education shall certify to each district school board the millage rate, computed as prescribed in this subparagraph, as the minimum millage rate necessary to provide the district required local effort for that year.

b. The General Appropriations Act shall direct the computation of the statewide adjusted aggregate amount for

required local effort for all school districts collectively from ad valorem taxes to ensure that no school district's revenue from required local effort millage will produce more than 90 percent of the district's total Florida Education Finance Program calculation as calculated and adopted by the Legislature, and the adjustment of the required local effort millage rate of each district that produces more than 90 percent of its total Florida Education Finance Program entitlement to a level that will produce only 90 percent of its total Florida Education Finance Program entitlement in the July calculation.

2. On the same date as the certification in sub-subparagraph 1.a., the Department of Revenue shall certify to the Commissioner of Education for each district:

a. Each year for which the property appraiser has certified the taxable value pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a.

b. For each year identified in sub-subparagraph a., the taxable value certified by the appraiser pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a. This is the certification that reflects all final administrative actions of the value adjustment board.

(14) QUALITY ASSURANCE GUARANTEE.—The Legislature may annually in the General Appropriations Act determine a percentage increase in funds per K-12 unweighted FTE as a minimum guarantee to each school district. The guarantee shall be calculated from prior year base funding per unweighted FTE student which shall include the adjusted FTE dollars as provided

809628

in subsection (19) ~~(16)~~, quality guarantee funds, and actual nonvoted discretionary local effort from taxes. From the base funding per unweighted FTE, the increase shall be calculated for the current year. The current year funds from which the guarantee shall be determined shall include the adjusted FTE dollars as provided in subsection (19) ~~(16)~~ and potential nonvoted discretionary local effort from taxes. A comparison of current year funds per unweighted FTE to prior year funds per unweighted FTE shall be computed. For those school districts which have less than the legislatively assigned percentage increase, funds shall be provided to guarantee the assigned percentage increase in funds per unweighted FTE student. Should appropriated funds be less than the sum of this calculated amount for all districts, the commissioner shall prorate each district's allocation. This provision shall be implemented to the extent specifically funded.

(16) HOPE SUPPLEMENTAL SERVICES ALLOCATION.-The hope supplemental services allocation is created to provide district-managed turnaround schools, as required under s. 1008.33(4)(a), charter schools authorized under s. 1008.33(4)(b)2., district-managed charter schools authorized under s. 1008.33(4)(b)3.a., schools of hope authorized under s. 1008.33(4)(b)3.b., and franchise model schools as authorized under s. 1008.33(4)(b)4., with funds to offer services designed to improve the overall academic and community welfare of the schools' students and their families.

(a) Services funded by the allocation may include, but are not limited to, tutorial and after-school programs, student counseling, nutrition education, and parental counseling. In

809628

addition, services may also include models that develop a culture that encourages students to complete high school and to attend college or career training, set high academic expectations, inspire character development, and include an extended school day and school year.

(b) Prior to distribution of the allocation, a school district, for a district turnaround school and persistently low-performing schools that use a franchise model; a hope operator, for a school of hope; or the charter school governing board for a charter school, as applicable, shall develop and submit a plan for implementation to its respective governing body for approval no later than August 1 of the fiscal year.

(c) At a minimum, the plans required under paragraph (b) must:

1. Establish comprehensive support services that develop family and community partnerships;

2. Establish clearly defined and measurable high academic and character standards;

3. Increase parental involvement and engagement in the child's education;

4. Describe how instructional personnel will be identified, recruited, retained, and rewarded;

5. Provide professional development that focuses on academic rigor, direct instruction, and creating high academic and character standards; and

6. Provide focused instruction to improve student academic proficiency, which may include additional instruction time beyond the normal school day or school year.

(d) Each school district and hope operator shall submit

809628

approved plans to the commissioner by September 1 of each fiscal year.

(e) For the 2018-2019 fiscal year, a school that is selected to receive funding in the 2017-2018 fiscal year pursuant to s. 1002.333(10)(c) shall receive $2,000 per FTE. A district-managed turnaround school required under s. 1008.33(4)(a), charter school authorized under s. 1008.33(4)(b)2., district-managed charter school authorized under s. 1008.33(4)(b)3.a., school of hope authorized under s. 1008.33(4)(b)3.b., and franchise model school authorized under s. 1008.33(4)(b)4. are eligible for the remaining funds based on the school's unweighted FTE, up to $2,000 per FTE or as provided in the General Appropriations Act.

(f) For the 2019-2020 fiscal year and thereafter, each school district's allocation shall be based on the unweighted FTE student enrollment at the eligible schools and a per-FTE funding amount of up to $2,000 per FTE or as provided in the General Appropriations Act. If the calculated funds for unweighted FTE student enrollment at the eligible schools exceed the per-FTE funds appropriated, the allocation of funds to each school district must be prorated based on each school district's share of the total unweighted FTE student enrollment for the eligible schools.

(17) MENTAL HEALTH ASSISTANCE ALLOCATION.—The mental health assistance allocation is created to provide supplemental funding to assist school districts in establishing or expanding comprehensive school-based mental health programs that increase awareness of mental health issues among children and school-age youth; train educators and other school staff in detecting and

809628

responding to mental health issues; and connect children, youth, and families who may experience behavioral health issues with appropriate services. These funds may be allocated annually in the General Appropriations Act to each eligible school district and developmental research school based on each entity's proportionate share of Florida Education Finance Program base funding. The district funding allocation must include a minimum amount as specified in the General Appropriations Act. Upon submission and approval of a plan that includes the elements specified in paragraph (b), charter schools are also entitled to a proportionate share of district funding for this program. The allocated funds may not supplant funds that are provided for this purpose from other operating funds and may not be used to increase salaries or provide bonuses.

(a) Prior to the distribution of the allocation:

1. The district must annually develop and submit a detailed plan outlining the local program and planned expenditures to the district school board for approval.

2. A charter school must annually develop and submit a detailed plan outlining the local program and planned expenditures of the funds in the plan to its governing body for approval. After the plan is approved by the governing body, it must be provided to its school district for submission to the commissioner.

(b) The plans required under paragraph (a) must include, at a minimum, all of the following elements:

1. A collaborative effort or partnership between the school district and at least one local community program or agency involved in mental health to provide or to improve prevention,

809628

The school shall include all known information relating to the complaint with the filing of the complaint. This paragraph does not limit or restrict the power and duty of the department to investigate complaints, regardless of the school's untimely filing, or failure to file, complaints and followup reports.

(e) Any other provisions that limit the ability of a school to operate in a facility on the same basis as a charter school pursuant to s. 1002.33(18) if the regional planning council determines that there is sufficient shelter capacity within the school district as documented in the Statewide Emergency Shelter Plan.

Section 30. Subsection (3) of section 1013.62, Florida Statutes, is amended, and paragraph (c) is added to subsection (1) of that section, to read:

1013.62 Charter schools capital outlay funding.—

(1) Charter school capital outlay funding shall consist of revenue resulting from the discretionary millage authorized in s. 1011.71(2) and state funds when such funds are appropriated in the General Appropriations Act.

(c) It is the intent of the Legislature that the public interest be protected by prohibiting personal financial enrichment by owners, operators, managers, real estate developers, and other affiliated parties of charter schools. Therefore, a charter school is not eligible for a funding allocation unless the chair of the governing board and the chief administrative officer of the charter school annually certify under oath that the funds will be used solely and exclusively for constructing, renovating, or improving charter school facilities that are:

1. Owned by a school district, a political subdivision of the state, a municipality, a Florida College System institution,

or a state university;

2. Owned by an organization that is qualified as an exempt organization under s. 501(c)(3) of the Internal Revenue Code whose articles of incorporation specify that, upon the organization's dissolution, the subject property will be transferred to a school district, a political subdivision of the state, a municipality, a Florida College System institution, or a state university; or

3. Owned by and leased, at a fair market value in the school district in which the charter school is located, from a person or entity that is not an affiliated party of the charter school. For the purposes of this subparagraph, the term "affiliated party of the charter school" means the applicant for the charter school pursuant to s. 1002.33; the governing board of the charter school or a member of the governing board; the charter school owner; the charter school principal; an employee of the charter school; an independent contractor of the charter school or the governing board of the charter school; a relative, as defined in s. 1002.33(24)(a)2., of a charter school governing board member, a charter school owner, a charter school principal, a charter school employee, or an independent contractor of a charter school or charter school governing board; a subsidiary corporation, a service corporation, an affiliated corporation, a parent corporation, a limited liability company, a limited partnership, a trust, a partnership, or a related party that, individually or through one or more entities, shares common ownership or control and directly or indirectly manages, administers, controls, or oversees the operation of the charter school; or any person or

entity, individually or through one or more entities that share common ownership, which directly or indirectly manages, administers, controls, or oversees the operation of any of the foregoing.

(3) If the school board levies the discretionary millage authorized in s. 1011.71(2), the department shall use the following calculation methodology to determine the amount of revenue that a school district must distribute to each eligible charter school:

(a) Reduce the total discretionary millage revenue by the school district's annual debt service obligation incurred as of March 1, 2017, and any amount of participation requirement pursuant to s. 1013.64(2)(a)8. that is being satisfied by revenues raised by the discretionary millage.

(b) Divide the school district's adjusted discretionary millage revenue by the district's total capital outlay full-time equivalent membership and the total number of unweighted full-time equivalent students of each eligible charter school to determine a capital outlay allocation per full-time equivalent student.

(c) Multiply the capital outlay allocation per full-time equivalent student by the total number of full-time equivalent students for all ~~of each~~ eligible charter schools within the district ~~school~~ to determine the total charter school capital outlay allocation for each district ~~charter school~~.

(d) If applicable, reduce the capital outlay allocation identified in paragraph (c) by the total amount of state funds allocated pursuant to subsection (2) to all ~~each~~ eligible charter schools within a district ~~school in subsection (2)~~ to

809628

determine the net total ~~maximum~~ calculated capital outlay allocation from local funds. If state funds are not allocated pursuant to subsection (2), the amount determined in paragraph (c) is equal to the net total calculated capital outlay allocation from local funds for each district.

(e) For each charter school within each district, the net capital outlay amount from local funds shall be calculated in the same manner as the state funds in paragraphs (2)(a)-(d), except that the base charter school per weighted FTE allocation amount shall be determined by dividing the net total capital outlay amount from local funds by the total weighted FTE for all eligible charter schools within the district. The per weighted FTE allocation amount from local funds shall be multiplied by the weighted FTE for each charter school to determine each charter school's capital outlay allocation from local funds.

(f) ~~(e)~~ School districts shall distribute capital outlay funds to charter schools no later than February 1 of each year~~, beginning on February 1, 2018, for the 2017-2018 fiscal year~~.

Section 31. For the 2018-2019 fiscal year, the sum of $596,560 in recurring funds from the General Revenue Fund and the sum of $392,134 in nonrecurring funds from the General Revenue Funds are appropriated to the Department of Education to implement this act as follows: the sum of $596,560 in recurring funds and $142,134 in nonrecurring funds shall be used to implement the additional oversight requirements pursuant to s. 1002.421, Florida Statutes and the sum of $250,000 in nonrecurring funds shall be used to issue a competitive grant award pursuant to s. 1002.395(9), Florida Statutes.

Section 32. This act shall take effect July 1, 2018.

The Committee on Appropriations (Passidomo) recommended the following:

Senate Substitute for Amendment (903516) (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Section 212.1832, Florida Statutes, is created to read:

212.1832 Credit for contributions to the Hope Scholarship Program.—

(1) Upon adoption of rules, the purchaser of a motor

692180

vehicle shall be granted a credit of 100 percent of an eligible contribution made to an eligible nonprofit scholarship-funding organization under s. 1002.40 against any tax imposed by the state and collected from the purchaser by a dealer, designated agent, or private tag agent as a result of the purchase or acquisition of a motor vehicle. For purposes of this subsection, the term "purchase" does not include the lease or rental of a motor vehicle.

(2) A dealer shall take a credit against any tax imposed by the state under this chapter on the purchase of a motor vehicle in an amount equal to the credit granted to the purchaser under subsection (1).

(3) For purposes of the distributions of tax revenue under s. 212.20, the department shall disregard any tax credits allowed under this section to ensure that any reduction in tax revenue received that is attributable to the tax credits results only in a reduction in distributions to the General Revenue Fund. The provisions of s. 1002.40 apply to the credit authorized by this section.

Section 2. Subsection (21) is added to section 213.053, Florida Statutes, to read:

213.053 Confidentiality and information sharing.—

(21)(a) The department may provide to an eligible nonprofit scholarship-funding organization, as defined in s. 1002.40, a dealer's name, address, federal employer identification number, and information related to differences between credits taken by the dealer pursuant to s. 212.1832(2) and amounts remitted to the eligible nonprofit scholarship-funding organization under s. 1002.40(13)(b)3. The eligible nonprofit scholarship-funding

692180

organization may use the information for purposes of recovering eligible contributions designated for that organization that were collected by the dealer but never remitted to the organization.

(b) Nothing in this subsection authorizes the disclosure of information if such disclosure is prohibited by federal law. An eligible nonprofit scholarship-funding organization is bound by the same requirements of confidentiality and the same penalties for a violation of the requirements as the department.

(b) A sponsor shall receive and review all applications for a charter school using the evaluation instrument developed by the Department of Education. A sponsor shall receive and consider charter school applications received on or before August 1 of each calendar year for charter schools to be opened at the beginning of the school district's next school year, or to be opened at a time agreed to by the applicant and the sponsor. A sponsor may not refuse to receive a charter school application submitted before August 1 and may receive an

692180

application submitted later than August 1 if it chooses. Beginning in 2018 and thereafter, a sponsor shall receive and consider charter school applications received on or before February 1 of each calendar year for charter schools to be opened 18 months later at the beginning of the school district's school year, or to be opened at a time agreed to by the applicant and the sponsor. A sponsor may not refuse to receive a charter school application submitted before February 1 and may receive an application submitted later than February 1 if it chooses. A sponsor may not charge an applicant for a charter any fee for the processing or consideration of an application, and a sponsor may not base its consideration or approval of a final application upon the promise of future payment of any kind. Before approving or denying any application, the sponsor shall allow the applicant, upon receipt of written notification, at least 7 calendar days to make technical or nonsubstantive corrections and clarifications, including, but not limited to, corrections of grammatical, typographical, and like errors or missing signatures, if such errors are identified by the sponsor as cause to deny the final application.

1. In order to facilitate an accurate budget projection process, a sponsor shall be held harmless for FTE students who are not included in the FTE projection due to approval of charter school applications after the FTE projection deadline. In a further effort to facilitate an accurate budget projection, within 15 calendar days after receipt of a charter school application, a sponsor shall report to the Department of Education the name of the applicant entity, the proposed charter school location, and its projected FTE.

692180

2. In order to ensure fiscal responsibility, an application for a charter school shall include a full accounting of expected assets, a projection of expected sources and amounts of income, including income derived from projected student enrollments and from community support, and an expense projection that includes full accounting of the costs of operation, including start-up costs.

3.a. A sponsor shall by a majority vote approve or deny an application no later than 90 calendar days after the application is received, unless the sponsor and the applicant mutually agree in writing to temporarily postpone the vote to a specific date, at which time the sponsor shall by a majority vote approve or deny the application. If the sponsor fails to act on the application, an applicant may appeal to the State Board of Education as provided in paragraph (c). If an application is denied, the sponsor shall, within 10 calendar days after such denial, articulate in writing the specific reasons, based upon good cause, supporting its denial of the application and shall provide the letter of denial and supporting documentation to the applicant and to the Department of Education.

b. An application submitted by a high-performing charter school identified pursuant to s. 1002.331 or a high-performing charter school system identified pursuant to s. 1002.332 may be denied by the sponsor only if the sponsor demonstrates by clear and convincing evidence that:

(I) The application <u>of a high-performing charter school</u> does not materially comply with the requirements in paragraph (a) <u>or, for a high-performing charter school system, the application does not materially comply with s. 1002.332(2)(b)</u>;

692180

(II) The charter school proposed in the application does not materially comply with the requirements in paragraphs (9)(a)-(f);

(III) The proposed charter school's educational program does not substantially replicate that of the applicant or one of the applicant's high-performing charter schools;

(IV) The applicant has made a material misrepresentation or false statement or concealed an essential or material fact during the application process; or

(V) The proposed charter school's educational program and financial management practices do not materially comply with the requirements of this section.

Material noncompliance is a failure to follow requirements or a violation of prohibitions applicable to charter school applications, which failure is quantitatively or qualitatively significant either individually or when aggregated with other noncompliance. An applicant is considered to be replicating a high-performing charter school if the proposed school is substantially similar to at least one of the applicant's high-performing charter schools and the organization or individuals involved in the establishment and operation of the proposed school are significantly involved in the operation of replicated schools.

c. If the sponsor denies an application submitted by a high-performing charter school or a high-performing charter school system, the sponsor must, within 10 calendar days after such denial, state in writing the specific reasons, based upon the criteria in sub-subparagraph b., supporting its denial of

692180

the application and must provide the letter of denial and supporting documentation to the applicant and to the Department of Education. The applicant may appeal the sponsor's denial of the application in accordance with paragraph (c).

4. For budget projection purposes, the sponsor shall report to the Department of Education the approval or denial of an application within 10 calendar days after such approval or denial. In the event of approval, the report to the Department of Education shall include the final projected FTE for the approved charter school.

5. Upon approval of an application, the initial startup shall commence with the beginning of the public school calendar for the district in which the charter is granted. A charter school may defer the opening of the school's operations for up to 3 ~~2~~ years to provide time for adequate facility planning. The charter school must provide written notice of such intent to the sponsor and the parents of enrolled students at least 30 calendar days before the first day of school.

(7) CHARTER.—The terms and conditions for the operation of a charter school shall be set forth by the sponsor and the applicant in a written contractual agreement, called a charter. The sponsor and the governing board of the charter school shall use the standard charter contract pursuant to subsection (21), which shall incorporate the approved application and any addenda approved with the application. Any term or condition of a proposed charter contract that differs from the standard charter contract adopted by rule of the State Board of Education shall be presumed a limitation on charter school flexibility. The sponsor may not impose unreasonable rules or regulations that

692180

violate the intent of giving charter schools greater flexibility to meet educational goals. The charter shall be signed by the governing board of the charter school and the sponsor, following a public hearing to ensure community input.

(a) The charter shall address and criteria for approval of the charter shall be based on:

1. The school’s mission, the students to be served, and the ages and grades to be included.

The curriculum and instructional strategies for reading must be consistent with the Next Generation Sunshine State Standards and grounded in scientifically based reading research.

b. In order to provide students with access to diverse instructional delivery models, to facilitate the integration of technology within traditional classroom instruction, and to provide students with the skills they need to compete in the 21st century economy, the Legislature encourages instructional methods for blended learning courses consisting of both traditional classroom and online instructional techniques.

692180

Charter schools may implement blended learning courses which combine traditional classroom instruction and virtual instruction. Students in a blended learning course must be full-time students of the charter school pursuant to s. 1011.61(1)(a)1. Instructional personnel certified pursuant to s. 1012.55 who provide virtual instruction for blended learning courses may be employees of the charter school or may be under contract to provide instructional services to charter school students. At a minimum, such instructional personnel must hold an active state or school district adjunct certification under s. 1012.57 for the subject area of the blended learning course. The funding and performance accountability requirements for blended learning courses are the same as those for traditional courses.

3. The current incoming baseline standard of student academic achievement, the outcomes to be achieved, and the method of measurement that will be used. The criteria listed in this subparagraph shall include a detailed description of:

a. How the baseline student academic achievement levels and prior rates of academic progress will be established.

b. How these baseline rates will be compared to rates of academic progress achieved by these same students while attending the charter school.

c. To the extent possible, how these rates of progress will be evaluated and compared with rates of progress of other closely comparable student populations.

The district school board is required to provide academic student performance data to charter schools for each of their

students coming from the district school system, as well as rates of academic progress of comparable student populations in the district school system.

4. The methods used to identify the educational strengths and needs of students and how well educational goals and performance standards are met by students attending the charter school. Students in charter schools shall, at a minimum, participate in the statewide assessment program created under s. 1008.22.

5. In secondary charter schools, a method for determining that a student has satisfied the requirements for graduation in s. 1002.3105(5), s. 1003.4281, or s. 1003.4282.

7. The admissions procedures and dismissal procedures, including the school’s code of student conduct. Admission or dismissal must not be based on a student’s academic performance.

8. The ways by which the school will achieve a racial/ethnic balance reflective of the community it serves or within the racial/ethnic range of other public schools in the same school district.

9. The financial and administrative management of the school, including a reasonable demonstration of the professional experience or competence of those individuals or organizations applying to operate the charter school or those hired or retained to perform such professional services and the

description of clearly delineated responsibilities and the policies and practices needed to effectively manage the charter school. A description of internal audit procedures and establishment of controls to ensure that financial resources are properly managed must be included. Both public sector and private sector professional experience shall be equally valid in such a consideration.

10. The asset and liability projections required in the application which are incorporated into the charter and shall be compared with information provided in the annual report of the charter school.

11. A description of procedures that identify various risks and provide for a comprehensive approach to reduce the impact of losses; plans to ensure the safety and security of students and staff; plans to identify, minimize, and protect others from violent or disruptive student behavior; and the manner in which the school will be insured, including whether or not the school will be required to have liability insurance, and, if so, the terms and conditions thereof and the amounts of coverage.

12. The term of the charter which shall provide for cancellation of the charter if insufficient progress has been made in attaining the student achievement objectives of the charter and if it is not likely that such objectives can be achieved before expiration of the charter. The initial term of a charter shall be for ~~4 or~~ 5 years, excluding 1 planning year. In order to facilitate access to long-term financial resources for charter school construction, charter schools that are operated by a municipality or other public entity as provided by law are eligible for up to a 15-year charter, subject to approval by the

692180

district school board. A charter lab school is eligible for a charter for a term of up to 15 years. In addition, to facilitate access to long-term financial resources for charter school construction, charter schools that are operated by a private, not-for-profit, s. 501(c)(3) status corporation are eligible for up to a 15-year charter, subject to approval by the district school board. Such long-term charters remain subject to annual review and may be terminated during the term of the charter, but only according to the provisions set forth in subsection (8).

14. The qualifications to be required of the teachers and the potential strategies used to recruit, hire, train, and retain qualified staff to achieve best value.

15. The governance structure of the school, including the status of the charter school as a public or private employer as required in paragraph (12)(i).

17. In the case of an existing public school that is being converted to charter status, alternative arrangements for current students who choose not to attend the charter school and for current teachers who choose not to teach in the charter school after conversion in accordance with the existing

collective bargaining agreement or district school board rule in the absence of a collective bargaining agreement. However, alternative arrangements shall not be required for current teachers who choose not to teach in a charter lab school, except as authorized by the employment policies of the state university which grants the charter to the lab school.

18. Full disclosure of the identity of all relatives employed by the charter school who are related to the charter school owner, president, chairperson of the governing board of directors, superintendent, governing board member, principal, assistant principal, or any other person employed by the charter school who has equivalent decisionmaking authority. 19. Implementation of the activities authorized under s. 1002.331 by the charter school when it satisfies the eligibility requirements for a high-performing charter school. A high-performing charter school shall notify its sponsor in writing by March 1 if it intends to increase enrollment or expand grade levels the following school year. The written notice shall specify the amount of the enrollment increase and the grade levels that will be added, as applicable.

(d) A charter may be modified during its initial term or any renewal term upon the recommendation of the sponsor or the charter school's governing board and the approval of both

692180

parties to the agreement. Modification during any term may include, but is not limited to, consolidation of multiple charters into a single charter if the charters are operated under the same governing board ~~and physically located on the same campus~~, regardless of the renewal cycle. A charter school with a grade of "C" or higher that closes as part of a consolidation shall be reported by the school district as a consolidation.

(e) A charter may be terminated by a charter school's governing board through voluntary closure. The decision to cease operations must be determined at a public meeting. The governing board shall notify the parents and sponsor of the public meeting in writing before the public meeting. The governing board must notify the sponsor, parents of enrolled students, and the department in writing within 24 hours after the public meeting of its determination. The notice shall state the charter school's intent to continue operations or the reason for the closure and acknowledge that the governing board agrees to follow the procedures for dissolution and reversion of public funds pursuant to paragraphs (8)(d)-(f) and (9)(o) ~~paragraphs (8)(c)-(g) and (9)(o)~~.

(8) CAUSES FOR NONRENEWAL OR TERMINATION OF CHARTER.—

(a) The sponsor shall make student academic achievement for all students the most important factor when determining whether to renew or terminate the charter. (9) CHARTER SCHOOL REQUIREMENTS.—

(n)1. The director and a representative of the governing board of a charter school that has earned a grade of "D" or "F" pursuant to s. 1008.34 shall appear before the sponsor to present information concerning each contract component having noted deficiencies. The director and a representative of the governing board shall submit to the sponsor for approval a school improvement plan to raise student performance. Upon approval by the sponsor, the charter school shall begin implementation of the school improvement plan. The department shall offer technical assistance and training to the charter school and its governing board and establish guidelines for developing, submitting, and approving such plans.

2.a. If a charter school earns three consecutive grades below a "C," the charter school governing board shall choose one of the following corrective actions:

(I) Contract for educational services to be provided directly to students, instructional personnel, and school administrators, as prescribed in state board rule;

(II) Contract with an outside entity that has a

692180

demonstrated record of effectiveness to operate the school;

(III) Reorganize the school under a new director or principal who is authorized to hire new staff; or

(IV) Voluntarily close the charter school.

b. The charter school must implement the corrective action in the school year following receipt of a third consecutive grade below a "C."

c. The sponsor may annually waive a corrective action if it determines that the charter school is likely to improve a letter grade if additional time is provided to implement the intervention and support strategies prescribed by the school improvement plan. Notwithstanding this sub-subparagraph, a charter school that earns a second consecutive grade of "F" is subject to subparagraph 3.

d. A charter school is no longer required to implement a corrective action if it improves to a "C" or higher. However, the charter school must continue to implement strategies identified in the school improvement plan. The sponsor must annually review implementation of the school improvement plan to monitor the school's continued improvement pursuant to subparagraph 4.

e. A charter school implementing a corrective action that does not improve to a "C" or higher after 2 full school years of implementing the corrective action must select a different corrective action. Implementation of the new corrective action must begin in the school year following the implementation period of the existing corrective action, unless the sponsor determines that the charter school is likely to improve to a "C" or higher if additional time is provided to implement the

692180

existing corrective action. Notwithstanding this sub-subparagraph, a charter school that earns a second consecutive grade of "F" while implementing a corrective action is subject to subparagraph 3.

3. A charter school's charter contract is automatically terminated if the school earns two consecutive grades of "F" after all school grade appeals are final unless:

a. The charter school is established to turn around the performance of a district public school pursuant to s. 1008.33(4)(b)2. Such charter schools shall be governed by s. 1008.33;

b. The charter school serves a student population the majority of which resides in a school zone served by a district public school subject to s. 1008.33(4) and the charter school earns at least a grade of "D" in its third year of operation. The exception provided under this sub-subparagraph does not apply to a charter school in its fourth year of operation and thereafter; or

c. The state board grants the charter school a waiver of termination. The charter school must request the waiver within 15 days after the department's official release of school grades. The state board may waive termination if the charter school demonstrates that the Learning Gains of its students on statewide assessments are comparable to or better than the Learning Gains of similarly situated students enrolled in nearby district public schools. The waiver is valid for 1 year and may only be granted once. Charter schools that have been in operation for more than 5 years are not eligible for a waiver under this sub-subparagraph.

692180

678
679 The sponsor shall notify the charter school's governing board,
680 the charter school principal, and the department in writing when
681 a charter contract is terminated under this subparagraph. ~~The~~
682 ~~letter of termination must meet the requirements of paragraph~~
683 ~~(8)(c).~~ A charter terminated under this subparagraph must follow
684 the procedures for dissolution and reversion of public funds
685 pursuant to paragraphs (8)(d)-(f) and (9)(o) ~~paragraphs (8)(c)-~~
686 ~~(g) and (9)(o)~~.
687 4. The director and a representative of the governing board
688 of a graded charter school that has implemented a school
689 improvement plan under this paragraph shall appear before the
690 sponsor at least once a year to present information regarding
691 the progress of intervention and support strategies implemented
692 by the school pursuant to the school improvement plan and
693 corrective actions, if applicable. The sponsor shall communicate
694 at the meeting, and in writing to the director, the services
695 provided to the school to help the school address its
696 deficiencies.
697 5. Notwithstanding any provision of this paragraph except
698 sub-subparagraphs 3.a.-c., the sponsor may terminate the charter
699 at any time pursuant to subsection (8).
700 (20) SERVICES.—
701 (b) If goods and services are made available to the charter
702 school through the contract with the school district, they shall
703 be provided to the charter school at a rate no greater than the
704 district's actual cost unless mutually agreed upon by the
705 charter school and the sponsor in a contract negotiated
706 separately from the charter. When mediation has failed to

692180

resolve disputes over contracted services or contractual matters not included in the charter, an appeal may be made to an administrative law judge appointed by the Division of Administrative Hearings. The administrative law judge has final order authority to rule on the dispute. The administrative law judge shall award the prevailing party reasonable attorney fees and costs incurred during the mediation process, administrative proceeding, and any appeals, to be paid by the party whom the administrative law judge rules against ~~for a dispute resolution hearing before the Charter School Appeal Commission~~. To maximize the use of state funds, school districts shall allow charter schools to participate in the sponsor's bulk purchasing program if applicable.

Section 9. Subsection (1), paragraph (a) of subsection (2), and paragraph (b) of subsection (3) of section 1002.331, Florida Statutes, are amended to read:

1002.331 High-performing charter schools.—

(1) A charter school is a high-performing charter school if it:

(a) Received at least two school grades of "A" and no school grade below "B," pursuant to s. 1008.34, during each of the previous 3 school years or received at least two consecutive school grades of "A" in the most recent 2 school years.

(b) Received an unqualified opinion on each annual financial audit required under s. 218.39 in the most recent 3 fiscal years for which such audits are available.

(c) Did not receive a financial audit that revealed one or more of the financial emergency conditions set forth in s. 218.503(1) in the most recent 3 fiscal years for which such

692180

audits are available. However, this requirement is deemed met for a charter school-in-the-workplace if there is a finding in an audit that the school has the monetary resources available to cover any reported deficiency or that the deficiency does not result in a deteriorating financial condition pursuant to s. 1002.345(1)(a)3.

For purposes of determining initial eligibility, the requirements of paragraphs (b) and (c) only apply to the most recent 2 fiscal years if the charter school earns two consecutive grades of "A." A virtual charter school established under s. 1002.33 is not eligible for designation as a high-performing charter school.

(2) A high-performing charter school is authorized to:

(a) Increase its student enrollment once per school year to more than the capacity identified in the charter, but student enrollment may not exceed the ~~current facility~~ capacity of the facility at the time of enrollment. Facility capacity for purposes of grade level expansion shall include any improvements to an existing facility or any new facility in which a majority of the students of the high-performing charter school will enroll.

A high-performing charter school shall notify its sponsor in writing by March 1 if it intends to increase enrollment or expand grade levels the following school year. The written notice shall specify the amount of the enrollment increase and the grade levels that will be added, as applicable. If a charter school notifies the sponsor of its intent to expand, the sponsor

shall modify the charter within 90 days to include the new enrollment maximum and may not make any other changes. The sponsor may deny a request to increase the enrollment of a high-performing charter school if the commissioner has declassified the charter school as high-performing. If a high-performing charter school requests to consolidate multiple charters, the sponsor shall have 40 days after receipt of that request to provide an initial draft charter to the charter school. The sponsor and charter school shall have 50 days thereafter to negotiate and notice the charter contract for final approval by the sponsor.

(3)

(b) A high-performing charter school may not establish more than two ~~one~~ charter schools ~~school~~ within the state under paragraph (a) in any year. A subsequent application to establish a charter school under paragraph (a) may not be submitted unless each charter school established in this manner achieves high-performing charter school status. However, a high-performing charter school may establish more than one charter school within the state under paragraph (a) in any year if it operates in the area of a persistently low-performing school and serves students from that school.

Section 10. Present subsections (11) and (12) of section 1002.333, Florida Statutes, are redesignated as subsections (12) and (13), respectively, a new subsection (11) is added to that section, and subsections (1) and (2), paragraph (a) of subsection (4), paragraphs (b), (g), and (i) of subsection (5), paragraph (a) of subsection (7), subsection (9), and paragraphs (b) and (d) of subsection (10) of that section are amended, to

A private school that chooses to administer statewide assessments under s. 1008.22 shall follow the requirements set forth in ss. 1008.22 and 1008.24, rules adopted by the State Board of Education to implement those sections, and district-level testing policies established by the district school board.

A department inquiry is not subject to the requirements of chapter 120.

(j)1. Conduct site visits to participating private schools. (8) COMMISSIONER OF EDUCATION AUTHORITY AND OBLIGATIONS.—

(a) The Commissioner of Education:

1. Shall deny, suspend, or revoke a private school's participation in the program if it is determined that the private school has failed to comply with the provisions of this section. However, if the noncompliance is correctable within a reasonable amount of time and if the health, safety, or welfare of the students is not threatened, the commissioner may issue a notice of noncompliance which provides the private school with a timeframe within which to provide evidence of compliance before taking action to suspend or revoke the private school's participation in the program.

2. May deny, suspend, or revoke a private school's participation in the program if the commissioner determines that

692180

an owner or operator of the private school is operating or has operated an educational institution in this state or in another state or jurisdiction in a manner contrary to the health, safety, or welfare of the public.

a. In making such a determination, the commissioner may consider factors that include, but are not limited to, acts or omissions by an owner or operator which led to a previous denial or revocation of participation in an education scholarship program; an owner's or operator's failure to reimburse the department for scholarship funds improperly received or retained by a school; imposition of a prior criminal sanction related to an owner's or operator's management or operation of an educational institution; imposition of a civil fine or administrative fine, license revocation or suspension, or program eligibility suspension, termination, or revocation related to an owner's or operator's management or operation of an educational institution; or other types of criminal proceedings in which an owner or operator was found guilty of, regardless of adjudication, or entered a plea of nolo contendere or guilty to, any offense involving fraud, deceit, dishonesty, or moral turpitude.

b. For purposes of this subparagraph, the term "owner or operator" includes an owner, operator, superintendent, or principal of, or a person who has equivalent decisionmaking authority over, a private school participating in the scholarship program.

(b) The commissioner's determination is subject to the following:

1. If the commissioner intends to deny, suspend, or revoke

692180

a private school's participation in the program, the department shall notify the private school of such proposed action in writing by certified mail and regular mail to the private school's address of record with the department. The notification shall include the reasons for the proposed action and notice of the timelines and procedures set forth in this paragraph.

3. Upon receipt of a request referred pursuant to this paragraph, the director of the Division of Administrative Hearings shall expedite the hearing and assign an administrative law judge who shall commence a hearing within 30 days after the receipt of the formal written request by the division and enter a recommended order within 30 days after the hearing or within 30 days after receipt of the hearing transcript, whichever is later. Each party shall be allowed 10 days in which to submit written exceptions to the recommended order. A final order shall be entered by the agency within 30 days after the entry of a recommended order. The provisions of this subparagraph may be waived upon stipulation by all parties.

(c) The commissioner may immediately suspend payment of scholarship funds if it is determined that there is probable cause to believe that there is:

1. An imminent threat to the health, safety, or welfare of

692180

the students; or

2. Fraudulent activity on the part of the private school. Notwithstanding s. 1002.22, in incidents of alleged fraudulent activity pursuant to this section, the department's Office of Inspector General is authorized to release personally identifiable records or reports of students to the following persons or organizations:

a. A court of competent jurisdiction in compliance with an order of that court or the attorney of record in accordance with a lawfully issued subpoena, consistent with the Family Educational Rights and Privacy Act, 20 U.S.C. s. 1232g.

This subparagraph applies to full-time teachers hired after July 1, 2018, who are teaching students in grade 2 or above.

The private school must report to the department, in a format developed by the department, the qualifications of each teacher

692180

hired by the school, including, but not limited to, an explanation of the objectively identified special skills or expertise of such teachers, as applicable. Additionally, the private school must provide to the parent of each scholarship student, on the school's website or on a written form provided by the school, the qualifications of each classroom teacher.

Additionally, a private school is ineligible to participate in a state scholarship program under this chapter if the owner or

692180

operator of the private school was a debtor in a voluntary or involuntary bankruptcy petition within the most recent 5 years.

(7)(a) The department must annually visit at least 5 percent, and may annually visit up to 7 percent, of the private schools that participate in the state scholarship programs under this chapter. (11) ~~(7)~~ The State Board of Education shall adopt rules pursuant to ss. 120.536(1) and 120.54 to administer and enforce this section.

Section 23. Paragraph (f) of subsection (1) of section 1003.26, Florida Statutes, is amended to read:

1003.26 Enforcement of school attendance.—The Legislature finds that poor academic performance is associated with nonattendance and that school districts must take an active role in promoting and enforcing attendance as a means of improving student performance. It is the policy of the state that each district school superintendent be responsible for enforcing school attendance of all students subject to the compulsory school age in the school district and supporting enforcement of school attendance by local law enforcement agencies. The responsibility includes recommending policies and procedures to the district school board that require public schools to respond in a timely manner to every unexcused absence, and every absence for which the reason is unknown, of students enrolled in the

692180

schools. District school board policies shall require the parent of a student to justify each absence of the student, and that justification will be evaluated based on adopted district school board policies that define excused and unexcused absences. The policies must provide that public schools track excused and unexcused absences and contact the home in the case of an unexcused absence from school, or an absence from school for which the reason is unknown, to prevent the development of patterns of nonattendance. The Legislature finds that early intervention in school attendance is the most effective way of producing good attendance habits that will lead to improved student learning and achievement. Each public school shall implement the following steps to promote and enforce regular school attendance:

(1) CONTACT, REFER, AND ENFORCE.—

(f)1. If the parent of a child who has been identified as exhibiting a pattern of nonattendance enrolls the child in a home education program pursuant to chapter 1002, the district school superintendent shall provide the parent a copy of s. 1002.41 and the accountability requirements of this paragraph. The district school superintendent shall also refer the parent to a home education review committee composed of the district contact for home education programs and at least two home educators selected by the parent from a district list of all home educators who have conducted a home education program for at least 3 years and who have indicated a willingness to serve on the committee. The home education review committee shall review the portfolio of the student, as defined by s. 1002.41, every 30 days during the district’s regular school terms until

692180

the committee is satisfied that the home education program is in compliance with s. 1002.41(1)(b). The first portfolio review must occur within the first 30 calendar days of the establishment of the program. The provisions of subparagraph 2. do not apply once the committee determines the home education program is in compliance with s. 1002.41(1)(b).

2. If the parent fails to provide a portfolio to the committee, the committee shall notify the district school superintendent. The district school superintendent shall then terminate the home education program and require the parent to enroll the child in an attendance option that meets the definition of "regular school attendance" under s. 1003.01(13)(a) or (b) ~~s. 1003.01(13)(a), (b), (c), or (e)~~, within 3 days. Upon termination of a home education program pursuant to this subparagraph, the parent shall not be eligible to reenroll the child in a home education program for 180 calendar days. Failure of a parent to enroll the child in an attendance option as required by this subparagraph after termination of the home education program pursuant to this subparagraph shall constitute noncompliance with the compulsory attendance requirements of s. 1003.21 and may result in criminal prosecution under s. 1003.27(2). Nothing contained herein shall restrict the ability of the district school superintendent, or the ability of his or her designee, to review the portfolio pursuant to s. 1002.41(1)(b).

2. ~~In addition,~~ The state board may prescribe reporting requirements to review and monitor the progress of the schools. The rule must define the intervention and support strategies for school improvement for schools earning a grade of "D" or "F" and the roles for the district and department.

(4)(a) The state board shall apply intensive intervention and support strategies tailored to the needs of schools earning two consecutive grades of "D" or a grade of "F." In the first full school year after a school initially earns two consecutive grades of "D" or a grade of "F," the school district must immediately implement intervention and support strategies prescribed in rule under paragraph (3)(c) and, by September 1, provide the department with the memorandum of understanding negotiated pursuant to s. 1001.42(21) and, by October 1, a district-managed turnaround plan for approval by the state board. The district-managed turnaround plan may include a proposal for the district to implement an extended school day, a summer program, or a combination of an extended school day and summer program. Upon approval by the state board, the school district must implement the plan for the remainder of the school year and continue the plan for 1 full school year. The state board may allow a school an additional year of implementation before the school must implement a turnaround option required under paragraph (b) if it determines that the school is likely to improve to a grade of "C" or higher after the first full school year of implementation.

692180

(b) Unless an additional year of implementation is provided pursuant to paragraph (a), a school that has completed 2 school years of a district-managed turnaround plan required under paragraph (a) and has not improved its school grade to a "C" or higher, pursuant to s. 1008.34, ~~earns three consecutive grades below a "C"~~ must implement one of the following options:

1. Reassign students to another school and monitor the progress of each reassigned student.~~;~~

2. Close the school and reopen the school as one or more charter schools, each with a governing board that has a demonstrated record of effectiveness. Such charter schools are eligible for funding from the hope supplemental services allocation established by s. 1011.62(16).~~; or~~

3. Contract with an outside entity that has a demonstrated record of effectiveness to operate the school. An outside entity may include:

a. A district-managed charter school in which all instructional personnel are not employees of the school district, but are employees of an independent governing board composed of members who did not participate in the review or approval of the charter. A district-managed charter school is eligible for funding from the hope supplemental services allocation established by s. 1011.62(16); or

b. A hope operator that submits to a school district a notice of intent of a performance-based agreement pursuant to s. 1002.333. A school of hope established pursuant to this sub-subparagraph is eligible for funding from the hope supplemental services allocation for up to 5 years, beginning in the school year in which the school of hope is established, if the school

692180

of hope:

(I) Is established at the district-owned facilities of the persistently low-performing school;

(II) Gives priority enrollment to students who are enrolled in, or are eligible to attend and are living in the attendance area of, the persistently low-performing school that the school of hope operates, consistent with the enrollment lottery exemption provided under s. 1002.333(5)(c); and

(III) Meets the requirements of its performance-based agreement pursuant to s. 1002.333.

4. Implement a franchise model school in which a highly effective principal, pursuant to s. 1012.34, leads the persistently low-performing school in addition to the principal's currently assigned school. The franchise model school principal may allocate resources and personnel between the schools he or she leads. The persistently low-performing school is eligible for funding from the hope supplemental services allocation established under s. 1011.62(16).

(c) Implementation of the turnaround option is no longer required if the school improves to a grade of "C" or higher.

(d) If a school ~~earning two consecutive grades of "D" or a grade of "F"~~ does not improve to a grade of "C" or higher after 2 full school years of implementing the turnaround option selected by the school district under paragraph (b), the school district must implement another turnaround option. Implementation of the turnaround option must begin the school year following the implementation period of the existing turnaround option, unless the state board determines that the school is likely to improve to a grade of "C" or higher if

692180

additional time is provided to implement the existing turnaround option.

Section 36. Present subsections (16) and (17) of section 1011.62, Florida Statutes, are redesignated as subsections (19) and (20), respectively, new subsections (16) and (17) and subsection (18) are added to that section, and paragraphs (o) and (t) of subsection (1), paragraph (a) of subsection (4), and subsection (14) of that section are amended, to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(1) COMPUTATION OF THE BASIC AMOUNT TO BE INCLUDED FOR OPERATION.—The following procedure shall be followed in determining the annual allocation to each district for operation:

(o) *Calculation of additional full-time equivalent membership based on successful completion of a career-themed course pursuant to ss. 1003.491, 1003.492, and 1003.493, or courses with embedded CAPE industry certifications or CAPE Digital Tool certificates, and issuance of industry certification identified on the CAPE Industry Certification Funding List pursuant to rules adopted by the State Board of Education or CAPE Digital Tool certificates pursuant to s. 1003.4203.*—

1.a. A value of 0.025 full-time equivalent student membership shall be calculated for CAPE Digital Tool

692180

certificates earned by students in elementary and middle school grades.

b. A value of 0.1 or 0.2 full-time equivalent student membership shall be calculated for each student who completes a course as defined in s. 1003.493(1)(b) or courses with embedded CAPE industry certifications and who is issued an industry certification identified annually on the CAPE Industry Certification Funding List approved under rules adopted by the State Board of Education. A value of 0.2 full-time equivalent membership shall be calculated for each student who is issued a CAPE industry certification that has a statewide articulation agreement for college credit approved by the State Board of Education. For CAPE industry certifications that do not articulate for college credit, the Department of Education shall assign a full-time equivalent value of 0.1 for each certification. Middle grades students who earn additional FTE membership for a CAPE Digital Tool certificate pursuant to sub-subparagraph a. may not use the previously funded examination to satisfy the requirements for earning an industry certification under this sub-subparagraph. Additional FTE membership for an elementary or middle grades student may not exceed 0.1 for certificates or certifications earned within the same fiscal year. The State Board of Education shall include the assigned values on the CAPE Industry Certification Funding List under rules adopted by the state board. Such value shall be added to the total full-time equivalent student membership for grades 6 through 12 in the subsequent year. CAPE industry certifications earned through dual enrollment must be reported and funded pursuant to s. 1011.80. However, if a student earns a

692180

certification through a dual enrollment course and the certification is not a fundable certification on the postsecondary certification funding list, or the dual enrollment certification is earned as a result of an agreement between a school district and a nonpublic postsecondary institution, the bonus value shall be funded in the same manner as other nondual enrollment course industry certifications. In such cases, the school district may provide for an agreement between the high school and the technical center, or the school district and the postsecondary institution may enter into an agreement for equitable distribution of the bonus funds.

c. A value of 0.3 full-time equivalent student membership shall be calculated for student completion of the courses and the embedded certifications identified on the CAPE Industry Certification Funding List and approved by the commissioner pursuant to ss. 1003.4203(5)(a) and 1008.44.

d. A value of 0.5 full-time equivalent student membership shall be calculated for CAPE Acceleration Industry Certifications that articulate for 15 to 29 college credit hours, and 1.0 full-time equivalent student membership shall be calculated for CAPE Acceleration Industry Certifications that articulate for 30 or more college credit hours pursuant to CAPE Acceleration Industry Certifications approved by the commissioner pursuant to ss. 1003.4203(5)(b) and 1008.44.

2. Each district must allocate at least 80 percent of the funds provided for CAPE industry certification, in accordance with this paragraph, to the program that generated the funds. This allocation may not be used to supplant funds provided for basic operation of the program.

692180

3. For CAPE industry certifications earned in the 2013-2014 school year and in subsequent years, the school district shall distribute to each classroom teacher who provided direct instruction toward the attainment of a CAPE industry certification that qualified for additional full-time equivalent membership under subparagraph 1.:

a. A bonus of $25 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.1.

b. A bonus of $50 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.2.

c. A bonus of $75 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.3.

d. A bonus of $100 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.5 or 1.0.

Bonuses awarded pursuant to this paragraph shall be provided to teachers who are employed by the district in the year in which the additional FTE membership calculation is included in the calculation. Bonuses shall be calculated based upon the associated weight of a CAPE industry certification on the CAPE Industry Certification Funding List for the year in which the

692180

certification is earned by the student. Any bonus awarded to a teacher pursuant to ~~under~~ this paragraph is in addition to any regular wage or other bonus the teacher received or is scheduled to receive. A bonus may not be awarded to a teacher who fails to maintain the security of any CAPE industry certification examination or who otherwise violates the security or administration protocol of any assessment instrument that may result in a bonus being awarded to the teacher under this paragraph.

(t) *Computation for funding through the Florida Education Finance Program.*—The State Board of Education may adopt rules establishing programs, industry certifications, and courses for which the student may earn credit toward high school graduation and the criteria under which a student's industry certification or grade may be rescinded.

(4) COMPUTATION OF DISTRICT REQUIRED LOCAL EFFORT.—The Legislature shall prescribe the aggregate required local effort for all school districts collectively as an item in the General Appropriations Act for each fiscal year. The amount that each district shall provide annually toward the cost of the Florida Education Finance Program for kindergarten through grade 12 programs shall be calculated as follows:

(a) *Estimated taxable value calculations.*—

1.a. Not later than 2 working days before July 19, the Department of Revenue shall certify to the Commissioner of Education its most recent estimate of the taxable value for school purposes in each school district and the total for all school districts in the state for the current calendar year based on the latest available data obtained from the local

692180

property appraisers. The value certified shall be the taxable value for school purposes for that year, and no further adjustments shall be made, except those made pursuant to paragraphs (c) and (d), or an assessment roll change required by final judicial decisions as specified in paragraph (19)(b) ~~(16)(b)~~. Not later than July 19, the Commissioner of Education shall compute a millage rate, rounded to the next highest one one-thousandth of a mill, which, when applied to 96 percent of the estimated state total taxable value for school purposes, would generate the prescribed aggregate required local effort for that year for all districts. The Commissioner of Education shall certify to each district school board the millage rate, computed as prescribed in this subparagraph, as the minimum millage rate necessary to provide the district required local effort for that year.

b. The General Appropriations Act shall direct the computation of the statewide adjusted aggregate amount for required local effort for all school districts collectively from ad valorem taxes to ensure that no school district's revenue from required local effort millage will produce more than 90 percent of the district's total Florida Education Finance Program calculation as calculated and adopted by the Legislature, and the adjustment of the required local effort millage rate of each district that produces more than 90 percent of its total Florida Education Finance Program entitlement to a level that will produce only 90 percent of its total Florida Education Finance Program entitlement in the July calculation.

2. On the same date as the certification in sub-subparagraph 1.a., the Department of Revenue shall certify to

692180

the Commissioner of Education for each district:

a. Each year for which the property appraiser has certified the taxable value pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a.

b. For each year identified in sub-subparagraph a., the taxable value certified by the appraiser pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a. This is the certification that reflects all final administrative actions of the value adjustment board.

(14) QUALITY ASSURANCE GUARANTEE.—The Legislature may annually in the General Appropriations Act determine a percentage increase in funds per K-12 unweighted FTE as a minimum guarantee to each school district. The guarantee shall be calculated from prior year base funding per unweighted FTE student which shall include the adjusted FTE dollars as provided in subsection (19) ~~(16)~~, quality guarantee funds, and actual nonvoted discretionary local effort from taxes. From the base funding per unweighted FTE, the increase shall be calculated for the current year. The current year funds from which the guarantee shall be determined shall include the adjusted FTE dollars as provided in subsection (19) ~~(16)~~ and potential nonvoted discretionary local effort from taxes. A comparison of current year funds per unweighted FTE to prior year funds per unweighted FTE shall be computed. For those school districts which have less than the legislatively assigned percentage increase, funds shall be provided to guarantee the assigned percentage increase in funds per unweighted FTE student. Should

692180

appropriated funds be less than the sum of this calculated amount for all districts, the commissioner shall prorate each district's allocation. This provision shall be implemented to the extent specifically funded.

(16) HOPE SUPPLEMENTAL SERVICES ALLOCATION.-The hope supplemental services allocation is created to provide district-managed turnaround schools, as required under s. 1008.33(4)(a), charter schools authorized under s. 1008.33(4)(b)2., district-managed charter schools authorized under s. 1008.33(4)(b)3.a., schools of hope authorized under s. 1008.33(4)(b)3.b., and franchise model schools as authorized under s. 1008.33(4)(b)4., with funds to offer services designed to improve the overall academic and community welfare of the schools' students and their families.

(a) Services funded by the allocation may include, but are not limited to, tutorial and after-school programs, student counseling, nutrition education, and parental counseling. In addition, services may also include models that develop a culture that encourages students to complete high school and to attend college or career training, set high academic expectations, inspire character development, and include an extended school day and school year.

(b) Prior to distribution of the allocation, a school district, for a district turnaround school and persistently low-performing schools that use a franchise model; a hope operator, for a school of hope; or the charter school governing board for a charter school, as applicable, shall develop and submit a plan for implementation to its respective governing body for approval no later than August 1 of the fiscal year.

692180

(c) At a minimum, the plans required under paragraph (b) must:

1. Establish comprehensive support services that develop family and community partnerships;

2. Establish clearly defined and measurable high academic and character standards;

3. Increase parental involvement and engagement in the child's education;

4. Describe how instructional personnel will be identified, recruited, retained, and rewarded;

5. Provide professional development that focuses on academic rigor, direct instruction, and creating high academic and character standards; and

6. Provide focused instruction to improve student academic proficiency, which may include additional instruction time beyond the normal school day or school year.

(d) Each school district and hope operator shall submit approved plans to the commissioner by September 1 of each fiscal year.

(e) For the 2018-2019 fiscal year, a school that is selected to receive funding in the 2017-2018 fiscal year pursuant to s. 1002.333(10)(c) shall receive $2,000 per FTE. A district-managed turnaround school required under s. 1008.33(4)(a), charter school authorized under s. 1008.33(4)(b)2., district-managed charter school authorized under s. 1008.33(4)(b)3.a., school of hope authorized under s. 1008.33(4)(b)3.b., and franchise model school authorized under s. 1008.33(4)(b)4. are eligible for the remaining funds based on the school's unweighted FTE, up to $2,000 per FTE or as provided

692180

in the General Appropriations Act.

(f) For the 2019-2020 fiscal year and thereafter, each school district's allocation shall be based on the unweighted FTE student enrollment at the eligible schools and a per-FTE funding amount of up to $2,000 per FTE or as provided in the General Appropriations Act. If the calculated funds for unweighted FTE student enrollment at the eligible schools exceed the per-FTE funds appropriated, the allocation of funds to each school district must be prorated based on each school district's share of the total unweighted FTE student enrollment for the eligible schools.

(17) MENTAL HEALTH ASSISTANCE ALLOCATION.—The mental health assistance allocation is created to provide funding to assist school districts and charter schools in their compliance with the requirements and specifications established in s. 1006.05. These funds must be allocated annually in the General Appropriations Act to each eligible school district and developmental research school based on each entity's proportionate share of Florida Education Finance Program base funding. The district funding allocation must include a minimum amount, as provided in the General Appropriations Act. Eligible charter schools are entitled to a proportionate share of district funding for the program. The allocated funds may not supplant funds that are provided for this purpose from other operating funds and may not be used to increase salaries or provide bonuses, except for personnel hired to implement the plans required by s. 1006.05. School districts and schools must maximize third-party funding from Medicaid and private insurance when appropriate.

692180

(18) FUNDING COMPRESSION ALLOCATION.—The Legislature may provide an annual funding compression allocation in the General Appropriations Act. The allocation is created to provide additional funding to school districts and developmental research schools whose total funds per FTE in the prior year were less than the statewide average. Using the most recent prior year FEFP calculation for each eligible school district, the total funds per FTE shall be subtracted from the state average funds per FTE, not including any adjustments made pursuant to paragraph (19)(b). The resulting funds per FTE difference, or a portion thereof, as designated in the General Appropriations Act, shall then be multiplied by the school district's total unweighted FTE to provide the allocation. If the calculated funds are greater than the amount included in the General Appropriations Act, they must be prorated to the appropriation amount based on each participating school district's share.

Section 37. Subsection (5) of section 1011.69, Florida Statutes, is amended to read:

1011.69 Equity in School-Level Funding Act.—

(5) After providing Title I, Part A, Basic funds to schools above the 75 percent poverty threshold, which may include high schools above the 50 percent threshold as allowed by federal law, school districts shall provide any remaining Title I, Part A, Basic funds directly to all eligible schools as provided in this subsection. For purposes of this subsection, an eligible school is a school that is eligible to receive Title I funds, including a charter school. The threshold for identifying eligible schools may not exceed the threshold established by a

1013.62 Charter schools capital outlay funding.—

(1) Charter school capital outlay funding shall consist of revenue resulting from the discretionary millage authorized in s. 1011.71(2) and state funds when such funds are appropriated in the General Appropriations Act.

(c) It is the intent of the Legislature that the public interest be protected by prohibiting personal financial enrichment by owners, operators, managers, real estate developers, and other affiliated parties of charter schools. Therefore, a charter school is not eligible for a funding allocation unless the chair of the governing board and the chief administrative officer of the charter school annually certify under oath that the funds will be used solely and exclusively for constructing, renovating, or improving charter school facilities that are:

1. Owned by a school district, a political subdivision of

692180

the state, a municipality, a Florida College System institution, or a state university;

2. Owned by an organization that is qualified as an exempt organization under s. 501(c)(3) of the Internal Revenue Code whose articles of incorporation specify that, upon the organization's dissolution, the subject property will be transferred to a school district, a political subdivision of the state, a municipality, a Florida College System institution, or a state university; or

For the purposes of this subparagraph, the term "affiliated party of the charter school" means the applicant for the charter school pursuant to s. 1002.33; the governing board of the charter school or a member of the governing board; the charter school owner; the charter school principal; an employee of the charter school; an independent contractor of the charter school or the governing board of the charter school; a relative, as defined in s. 1002.33(24)(a)2., of a charter school governing board member, a charter school owner, a charter school principal, a charter school employee, or an independent contractor of a charter school or charter school governing board; a subsidiary corporation, a service corporation, an affiliated corporation, a parent corporation, a limited liability company, a limited partnership, a trust, a partnership, or a related party that, individually or through one or more entities, shares common ownership or control and directly or indirectly manages, administers, controls, or

692180

oversees the operation of the charter school; or any person or entity, individually or through one or more entities that share common ownership, which directly or indirectly manages, administers, controls, or oversees the operation of any of the foregoing.

(3) If the school board levies the discretionary millage authorized in s. 1011.71(2), the department shall use the following calculation methodology to determine the amount of revenue that a school district must distribute to each eligible charter school:

(a) Reduce the total discretionary millage revenue by the school district's annual debt service obligation incurred as of March 1, 2017, and any amount of participation requirement pursuant to s. 1013.64(2)(a)8. that is being satisfied by revenues raised by the discretionary millage.

(b) Divide the school district's adjusted discretionary millage revenue by the district's total capital outlay full-time equivalent membership and the total number of unweighted full-time equivalent students of each eligible charter school to determine a capital outlay allocation per full-time equivalent student.

(c) Multiply the capital outlay allocation per full-time equivalent student by the total number of full-time equivalent students for all ~~of each~~ eligible charter schools within the district ~~school~~ to determine the total charter school capital outlay allocation for each district ~~charter school~~.

(d) If applicable, reduce the capital outlay allocation identified in paragraph (c) by the total amount of state funds allocated pursuant to subsection (2) to all ~~each~~ eligible

692180

charter schools within a district ~~school in subsection (2)~~ to determine the net total ~~maximum~~ calculated capital outlay allocation from local funds. If state funds are not allocated pursuant to subsection (2), the amount determined in paragraph (c) is equal to the net total calculated capital outlay allocation from local funds for each district.

(e) For each charter school within each district, the net capital outlay amount from local funds shall be calculated in the same manner as the state funds in paragraphs (2)(a)-(d), except that the base charter school per weighted FTE allocation amount shall be determined by dividing the net total capital outlay amount from local funds by the total weighted FTE for all eligible charter schools within the district. The per weighted FTE allocation amount from local funds shall be multiplied by the weighted FTE for each charter school to determine each charter school's capital outlay allocation from local funds.

(f) ~~(e)~~ School districts shall distribute capital outlay funds to charter schools no later than February 1 of each year~~, beginning on February 1, 2018, for the 2017-2018 fiscal year~~.

(6) APPLICATION PROCESS AND REVIEW.—Charter school applications are subject to the following requirements:

(b) A sponsor shall receive and review all applications for a charter school using the evaluation instrument developed by the Department of Education. A sponsor shall receive and consider charter school applications received on or before August 1 of each calendar year for charter schools to be opened at the beginning of the school district's next school year, or to be opened at a time agreed to by the applicant and the sponsor. A sponsor may not refuse to receive a charter school application submitted before August 1 and may receive an application submitted later than August 1 if it chooses. Beginning in 2018 and thereafter, a sponsor shall receive and consider charter school applications received on or before February 1 of each calendar year for charter schools to be opened 18 months later at the beginning of the school district's school year, or to be opened at a time agreed to by the applicant and the sponsor. A sponsor may not refuse to receive a charter school application submitted before February 1 and may receive an application submitted later than February 1 if it chooses. A sponsor may not charge an applicant for a charter any fee for the processing or consideration of an application, and a sponsor may not base its consideration or approval of a final application upon the promise of future payment of any kind. Before approving or denying any application, the sponsor shall allow the applicant, upon receipt of written notification, at least 7 calendar days to make technical or nonsubstantive

corrections and clarifications, including, but not limited to, corrections of grammatical, typographical, and like errors or missing signatures, if such errors are identified by the sponsor as cause to deny the final application.

1. In order to facilitate an accurate budget projection process, a sponsor shall be held harmless for FTE students who are not included in the FTE projection due to approval of charter school applications after the FTE projection deadline. In a further effort to facilitate an accurate budget projection, within 15 calendar days after receipt of a charter school application, a sponsor shall report to the Department of Education the name of the applicant entity, the proposed charter school location, and its projected FTE.

2. In order to ensure fiscal responsibility, an application for a charter school shall include a full accounting of expected assets, a projection of expected sources and amounts of income, including income derived from projected student enrollments and from community support, and an expense projection that includes full accounting of the costs of operation, including start-up costs.

3.a. A sponsor shall by a majority vote approve or deny an application no later than 90 calendar days after the application is received, unless the sponsor and the applicant mutually agree in writing to temporarily postpone the vote to a specific date, at which time the sponsor shall by a majority vote approve or

deny the application. If the sponsor fails to act on the application, an applicant may appeal to the State Board of Education as provided in paragraph (c). If an application is denied, the sponsor shall, within 10 calendar days after such denial, articulate in writing the specific reasons, based upon good cause, supporting its denial of the application and shall provide the letter of denial and supporting documentation to the applicant and to the Department of Education.

b. An application submitted by a high-performing charter school identified pursuant to s. 1002.331 or a high-performing charter school system identified pursuant to s. 1002.332 may be denied by the sponsor only if the sponsor demonstrates by clear and convincing evidence that:

(I) The application of a high-performing charter school does not materially comply with the requirements in paragraph (a) or, for a high-performing charter school system, the application does not materially comply with s. 1002.332(2)(b);

(II) The charter school proposed in the application does not materially comply with the requirements in paragraphs (9)(a)-(f);

(III) The proposed charter school's educational program does not substantially replicate that of the applicant or one of the applicant's high-performing charter schools;

(IV) The applicant has made a material misrepresentation or false statement or concealed an essential or material fact

during the application process; or

(V) The proposed charter school's educational program and financial management practices do not materially comply with the requirements of this section.

Material noncompliance is a failure to follow requirements or a violation of prohibitions applicable to charter school applications, which failure is quantitatively or qualitatively significant either individually or when aggregated with other noncompliance. An applicant is considered to be replicating a high-performing charter school if the proposed school is substantially similar to at least one of the applicant's high-performing charter schools and the organization or individuals involved in the establishment and operation of the proposed school are significantly involved in the operation of replicated schools.

c. If the sponsor denies an application submitted by a high-performing charter school or a high-performing charter school system, the sponsor must, within 10 calendar days after such denial, state in writing the specific reasons, based upon the criteria in sub-subparagraph b., supporting its denial of the application and must provide the letter of denial and supporting documentation to the applicant and to the Department of Education. The applicant may appeal the sponsor's denial of the application in accordance with paragraph (c).

4. For budget projection purposes, the sponsor shall report to the Department of Education the approval or denial of an application within 10 calendar days after such approval or denial. In the event of approval, the report to the Department of Education shall include the final projected FTE for the approved charter school.

5. Upon approval of an application, the initial startup shall commence with the beginning of the public school calendar for the district in which the charter is granted. A charter school may defer the opening of the school's operations for up to 3 ~~2~~ years to provide time for adequate facility planning. The charter school must provide written notice of such intent to the sponsor and the parents of enrolled students at least 30 calendar days before the first day of school.

(7) CHARTER.—The terms and conditions for the operation of a charter school shall be set forth by the sponsor and the applicant in a written contractual agreement, called a charter. The sponsor and the governing board of the charter school shall use the standard charter contract pursuant to subsection (21), which shall incorporate the approved application and any addenda approved with the application. Any term or condition of a proposed charter contract that differs from the standard charter contract adopted by rule of the State Board of Education shall be presumed a limitation on charter school flexibility. The sponsor may not impose unreasonable rules or regulations that

violate the intent of giving charter schools greater flexibility to meet educational goals. The charter shall be signed by the governing board of the charter school and the sponsor, following a public hearing to ensure community input.

(a) The charter shall address and criteria for approval of the charter shall be based on:

1. The school's mission, the students to be served, and the ages and grades to be included.

The charter shall ensure that reading is a primary focus of the curriculum and that resources are provided to identify and provide specialized instruction for students who are reading below grade level. The curriculum and instructional strategies for reading must be consistent with the Next Generation Sunshine State Standards and grounded in scientifically based reading research.

b. In order to provide students with access to diverse instructional delivery models, to facilitate the integration of technology within traditional classroom instruction, and to

provide students with the skills they need to compete in the 21st century economy, the Legislature encourages instructional methods for blended learning courses consisting of both traditional classroom and online instructional techniques. Charter schools may implement blended learning courses which combine traditional classroom instruction and virtual instruction. Students in a blended learning course must be full-time students of the charter school pursuant to s. 1011.61(1)(a)1. Instructional personnel certified pursuant to s. 1012.55 who provide virtual instruction for blended learning courses may be employees of the charter school or may be under contract to provide instructional services to charter school students. At a minimum, such instructional personnel must hold an active state or school district adjunct certification under s. 1012.57 for the subject area of the blended learning course. The funding and performance accountability requirements for blended learning courses are the same as those for traditional courses.

3. The current incoming baseline standard of student academic achievement, the outcomes to be achieved, and the method of measurement that will be used. The criteria listed in this subparagraph shall include a detailed description of:

a. How the baseline student academic achievement levels and prior rates of academic progress will be established.

b. How these baseline rates will be compared to rates of

academic progress achieved by these same students while attending the charter school.

c. To the extent possible, how these rates of progress will be evaluated and compared with rates of progress of other closely comparable student populations.

The district school board is required to provide academic student performance data to charter schools for each of their students coming from the district school system, as well as rates of academic progress of comparable student populations in the district school system.

4. The methods used to identify the educational strengths and needs of students and how well educational goals and performance standards are met by students attending the charter school. 9. The financial and administrative management of the school, including a reasonable demonstration of the professional experience or competence of those individuals or organizations applying to operate the charter school or those hired or retained to perform such professional services and the description of clearly delineated responsibilities and the policies and practices needed to effectively manage the charter school. A description of internal audit procedures and establishment of controls to ensure that financial resources are properly managed must be included. Both public sector and private sector professional experience shall be equally valid in such a consideration.

10. The asset and liability projections required in the application which are incorporated into the charter and shall be compared with information provided in the annual report of the charter school.

11. A description of procedures that identify various risks and provide for a comprehensive approach to reduce the

12. The term of the charter which shall provide for cancellation of the charter if insufficient progress has been made in attaining the student achievement objectives of the charter and if it is not likely that such objectives can be achieved before expiration of the charter. The initial term of a charter shall be for ~~4 or~~ 5 years, excluding 1 planning year. In order to facilitate access to long-term financial resources for charter school construction, charter schools that are operated by a municipality or other public entity as provided by law are eligible for up to a 15-year charter, subject to approval by the district school board. A charter lab school is eligible for a charter for a term of up to 15 years. In addition, to facilitate access to long-term financial resources for charter school construction, charter schools that are operated by a private, not-for-profit, s. 501(c)(3) status corporation are eligible for up to a 15-year charter, subject to approval by the district school board. Such long-term charters remain subject to annual review and may be terminated during the term of the charter, but

14. The qualifications to be required of the teachers and the potential strategies used to recruit, hire, train, and retain qualified staff to achieve best value.

15. The governance structure of the school, including the status of the charter school as a public or private employer as required in paragraph (12)(i).

16. A timetable for implementing the charter which addresses the implementation of each element thereof and the date by which the charter shall be awarded in order to meet this timetable.

However, alternative arrangements shall not be required for current teachers who choose not to teach in a charter lab school, except

as authorized by the employment policies of the state university which grants the charter to the lab school.

18. Full disclosure of the identity of all relatives employed by the charter school who are related to the charter school owner, president, chairperson of the governing board of directors, superintendent, governing board member, principal, assistant principal, or any other person employed by the charter school who has equivalent decisionmaking authority. The written notice shall specify the amount of the enrollment increase and the grade levels that will be added, as applicable.

(d) A charter may be modified during its initial term or any renewal term upon the recommendation of the sponsor or the charter school's governing board and the approval of both

parties to the agreement. The governing board must notify the sponsor, parents of enrolled students, and the department in writing within 24 hours after the public meeting of its determination. The notice shall state the charter school's intent to continue operations or the reason for the closure and acknowledge that the governing board agrees to follow the procedures for dissolution and reversion of public funds pursuant to paragraphs (8)(d)-(f) and (9)(o) ~~paragraphs (8)(c)-(g) and (9)(o)~~.

(8) CAUSES FOR NONRENEWAL OR TERMINATION OF CHARTER.—

(IV) Voluntarily close the charter school.

b. The charter school must implement the corrective action in the school year following receipt of a third consecutive grade below a "C."

c. The sponsor may annually waive a corrective action if it determines that the charter school is likely to improve a letter grade if additional time is provided to implement the intervention and support strategies prescribed by the school improvement plan. Notwithstanding this sub-subparagraph, a charter school that earns a second consecutive grade of "F" is

subject to subparagraph 3.

d. A charter school is no longer required to implement a corrective action if it improves to a "C" or higher. However, the charter school must continue to implement strategies identified in the school improvement plan. The sponsor must annually review implementation of the school improvement plan to monitor the school's continued improvement pursuant to subparagraph 4.

e. A charter school implementing a corrective action that does not improve to a "C" or higher after 2 full school years of implementing the corrective action must select a different corrective action. Implementation of the new corrective action must begin in the school year following the implementation period of the existing corrective action, unless the sponsor determines that the charter school is likely to improve to a "C" or higher if additional time is provided to implement the existing corrective action. Notwithstanding this sub-subparagraph, a charter school that earns a second consecutive grade of "F" while implementing a corrective action is subject to subparagraph 3.

3. A charter school's charter contract is automatically terminated if the school earns two consecutive grades of "F" after all school grade appeals are final unless:

c. The state board grants the charter school a waiver of termination. The charter school must request the waiver within 15 days after the department's official release of school grades. The state board may waive termination if the charter school demonstrates that the Learning Gains of its students on statewide assessments are comparable to or better than the Learning Gains of similarly situated students enrolled in nearby district public schools. The waiver is valid for 1 year and may only be granted once. Charter schools that have been in operation for more than 5 years are not eligible for a waiver under this sub-subparagraph.

The sponsor shall notify the charter school's governing board, the charter school principal, and the department in writing when a charter contract is terminated under this subparagraph. ~~The letter of termination must meet the requirements of paragraph~~

~~(8)(c).~~ A charter terminated under this subparagraph must follow the procedures for dissolution and reversion of public funds pursuant to paragraphs (8)(d)-(f) and (9)(o) ~~paragraphs (8)(c)-(g) and (9)(o)~~.

When mediation has failed to resolve disputes over contracted services or

contractual matters not included in the charter, an appeal may be made to an administrative law judge appointed by the Division of Administrative Hearings. The administrative law judge has final order authority to rule on the dispute. The administrative law judge shall award the prevailing party reasonable attorney fees and costs incurred during the mediation process, administrative proceeding, and any appeals, to be paid by the party whom the administrative law judge rules against ~~for a dispute resolution hearing before the Charter School Appeal Commission~~. To maximize the use of state funds, school districts shall allow charter schools to participate in the sponsor's bulk purchasing program if applicable.

The Department of Education shall conduct an inquiry of any written complaint of a violation of this section, or make a referral to the appropriate agency for an investigation, if the complaint is signed by the complainant and is legally sufficient. A complaint is legally sufficient if it contains ultimate facts that show that a violation of this section or any rule adopted by the State Board of Education has occurred. In order to determine legal sufficiency, the Department of Education may require supporting information or documentation from the complainant. (f) ~~(j)~~ Issue a project grant award to a state university ~~the Learning System Institute at the Florida State University~~, to which participating private schools must report the scores of participating students on the nationally norm-referenced tests or the statewide assessments administered by the private school in grades 3 through 10. evaluation, the Department of Education shall coordinate with the state university ~~Learning System Institute~~ to provide data to the state university ~~Learning System Institute~~ in order to conduct analyses of matched students from public school assessment data and calculate control group student performance using an agreed-upon methodology with the state university ~~Learning System Institute~~; and

b. On an individual school basis. The annual report must include student performance for each participating private school in which at least 51 percent of the total enrolled students in the private school participated in the Florida Tax Credit Scholarship Program in the prior school year. The report shall be according to each participating private school, and for participating students, in which there are at least 30 participating students who have scores for tests administered. If the state university ~~Learning System Institute~~ determines that the 30-participating-student cell size may be reduced without disclosing personally identifiable information, as described in 34 C.F.R. s. 99.12, of a participating student, the state university ~~Learning System Institute~~ may reduce the participating-student cell size, but the cell size must not be reduced to less than 10 participating students. The department shall provide each private school's prior school year's student enrollment information to the state university ~~Learning System Institute~~ no later than June 15 of each year, or as requested by

the state university ~~Learning System Institute~~.

2. The sharing and reporting of student performance data under this paragraph must be in accordance with requirements of ss. 1002.22 and 1002.221 and 20 U.S.C. s. 1232g, the Family Educational Rights and Privacy Act, and the applicable rules and regulations issued pursuant thereto, and shall be for the sole purpose of creating the annual report required by subparagraph 1. All parties must preserve the confidentiality of such information as required by law. The annual report must not disaggregate data to a level that will identify individual participating schools, except as required under sub-subparagraph 1.b., or disclose the academic level of individual students.

3. The annual report required by subparagraph 1. shall be published by the Department of Education on its website.

(g) ~~(k)~~ Notify an eligible nonprofit scholarship-funding organization of any of the organization's identified students who are receiving educational scholarships pursuant to chapter 1002.

~~(p) Upon the request of a participating private school, provide at no cost to the school the statewide assessments administered under s. 1008.22 and any related materials for administering the assessments. Students at a private school may be assessed using the statewide assessments if the addition of those students and the school does not cause the state to exceed its contractual caps for the number of students tested and the number of testing sites. The state shall provide the same materials and support to a private school that it provides to a public school. A private school that chooses to administer statewide assessments under s. 1008.22 shall follow the requirements set forth in ss. 1008.22 and 1008.24, rules adopted by the State Board of Education to implement those sections, and district-level testing policies established by the district school board.~~

~~(b) The commissioner's determination is subject to the following:~~

~~1. If the commissioner intends to deny, suspend, or revoke a private school's participation in the scholarship program, the Department of Education shall notify the private school of such proposed action in writing by certified mail and regular mail to the private school's address of record with the Department of Education. The notification shall include the reasons for the proposed action and notice of the timelines and procedures set forth in this paragraph.~~

Each party shall be allowed 10 days in which to submit written exceptions to the recommended order. A final order shall be entered by the agency within 30 days after the entry of a recommended order. The provisions of this subparagraph may be waived upon stipulation by all parties.~~

~~(c) The commissioner may immediately suspend payment of scholarship funds if it is determined that there is probable cause to believe that there is:~~

~~1. An imminent threat to the health, safety, and welfare of the students;~~

~~2. A previous pattern of failure to comply with this section or s. 1002.421; or~~

~~3. Fraudulent activity on the part of the private school. (2) DEPARTMENT OF EDUCATION OBLIGATIONS.—

(a) The Department of Education shall:

1. Annually verify the eligibility of private schools that meet the requirements of this section, specific requirements identified within respective scholarship program laws, and other provisions of state law that apply to private schools.

2. Establish a toll-free hotline that provides parents and private schools with information on participation in the

scholarship programs.

3. Establish a process by which individuals may notify the department of any violation by a parent, private school, or school district of state laws relating to program participation. If the department has reasonable cause to believe that a violation of this section or any rule adopted by the State Board of Education has occurred, it shall conduct an inquiry or make a referral to the appropriate agency for an investigation. A department inquiry is not subject to the requirements of chapter 120.

4. Require an annual, notarized, sworn compliance statement from participating private schools certifying compliance with state laws, and retain such records.

5. Coordinate with the entities conducting the health inspection for a private school to obtain copies of the inspection reports.

6. Conduct site visits to private schools entering a scholarship program for the first time. Beginning with the 2019-2020 school year, a private school is not eligible to receive scholarship payments until a satisfactory site visit has been conducted and the school is in compliance with all other requirements of this section.

7. Coordinate with the State Fire Marshal to obtain access to fire inspection reports for private schools. The authority conducting the fire safety inspection shall certify to the State

Fire Marshal that the annual inspection has been completed and that the school is in full compliance. The certification shall be made electronically or by such other means as directed by the State Fire Marshal.

8. Upon the request of a participating private school authorized to administer statewide assessments, provide at no cost to the school the statewide assessments administered under s. 1008.22 and any related materials for administering the assessments. Students at a private school may be assessed using the statewide assessments if the addition of those students and the school does not cause the state to exceed its contractual caps for the number of students tested and the number of testing sites. The state shall provide the same materials and support to a private school that it provides to a public school. A private school that chooses to administer statewide assessments under s. 1008.22 shall follow the requirements set forth in ss. 1008.22 and 1008.24, rules adopted by the State Board of Education to implement those sections, and district-level testing policies established by the district school board.

(b) The department may conduct site visits to any private school participating in a scholarship program pursuant to this chapter that has received a complaint about a violation of state law or state board rule pursuant to subparagraph (a)3. or has received a notice of noncompliance or a notice of proposed action within the previous 2 years.

(c) Annually, by December 15, the department shall report to the Governor, the President of the Senate, and the Speaker of the House of Representatives its actions in implementing accountability in the scholarship programs under this section, any substantiated allegations or violations of law or rule by an eligible private school under this section, and the corrective action taken.

(3) COMMISSIONER OF EDUCATION AUTHORITY AND OBLIGATIONS.—The Commissioner of Education:

(a) Shall deny, suspend, or revoke a private school's participation in a scholarship program if it is determined that the private school has failed to comply with this section or exhibits a previous pattern of failure to comply. However, if the noncompliance is correctable within a reasonable amount of time, not to exceed 45 days, and if the health, safety, or welfare of the students is not threatened, the commissioner may issue a notice of noncompliance which provides the private school with a timeframe within which to provide evidence of compliance before taking action to suspend or revoke the private school's participation in the scholarship program.

(b) May deny, suspend, or revoke a private school's participation in a scholarship program if the commissioner determines that an owner or operator of the private school is operating or has operated an educational institution in this state or in another state or jurisdiction in a manner contrary

to the health, safety, or welfare of the public or if the owner or operator has exhibited a previous pattern of failure to comply with this section or specific requirements identified within respective scholarship program laws. For purposes of this subsection, the term "owner or operator" has the same meaning as provided in paragraph (1)(p).

(c)1. In making such a determination, may consider factors that include, but are not limited to, acts or omissions by an owner or operator which led to a previous denial, suspension, or revocation of participation in a state or federal education scholarship program; an owner's or operator's failure to reimburse the department or scholarship-funding organization for scholarship funds improperly received or retained by a school; the imposition of a prior criminal sanction related to an owner's or operator's management or operation of an educational institution; the imposition of a civil fine or administrative fine, license revocation or suspension, or program eligibility suspension, termination, or revocation related to an owner's or operator's management or operation of an educational institution; or other types of criminal proceedings in which an owner or operator was found guilty of, regardless of adjudication, or entered a plea of nolo contendere or guilty to, any offense involving fraud, deceit, dishonesty, or moral turpitude.

2. The commissioner's determination is subject to the

following:

a. If the commissioner intends to deny, suspend, or revoke a private school's participation in the scholarship program, the department shall notify the private school of such proposed action in writing by certified mail and regular mail to the private school's address of record with the department. The notification shall include the reasons for the proposed action and notice of the timelines and procedures set forth in this paragraph.

b. The private school that is adversely affected by the proposed action shall have 15 days after receipt of the notice of proposed action to file with the department's agency clerk a request for a proceeding pursuant to ss. 120.569 and 120.57. If the private school is entitled to a hearing under s. 120.57(1), the department shall forward the request to the Division of Administrative Hearings.

c. Upon receipt of a request referred pursuant to this subparagraph, the director of the Division of Administrative Hearings shall expedite the hearing and assign an administrative law judge who shall commence a hearing within 30 days after the receipt of the formal written request by the division and enter a recommended order within 30 days after the hearing or within 30 days after receipt of the hearing transcript, whichever is later. Each party shall be allowed 10 days in which to submit written exceptions to the recommended order. A final order shall

be entered by the agency within 30 days after the entry of a recommended order. The provisions of this sub-subparagraph may be waived upon stipulation by all parties.

(d) May immediately suspend payment of scholarship funds if it is determined that there is probable cause to believe that there is:

1. An imminent threat to the health, safety, or welfare of the students;

2. A previous pattern of failure to comply with this section; or

3. Fraudulent activity on the part of the private school. Notwithstanding s. 1002.22, in incidents of alleged fraudulent activity pursuant to this section, the department's Office of Inspector General is authorized to release personally identifiable records or reports of students to the following persons or organizations:

a. A court of competent jurisdiction in compliance with an order of that court or the attorney of record in accordance with a lawfully issued subpoena, consistent with the Family Educational Rights and Privacy Act, 20 U.S.C. s. 1232g.

b. A person or entity authorized by a court of competent jurisdiction in compliance with an order of that court or the attorney of record pursuant to a lawfully issued subpoena, consistent with the Family Educational Rights and Privacy Act, 20 U.S.C. s. 1232g.

c. Any person, entity, or authority issuing a subpoena for law enforcement purposes when the court or other issuing agency has ordered that the existence or the contents of the subpoena or the information furnished in response to the subpoena not be disclosed, consistent with the Family Educational Rights and Privacy Act, 20 U.S.C. s. 1232g, and 34 C.F.R. s. 99.31.

The commissioner's order suspending payment pursuant to this paragraph may be appealed pursuant to the same procedures and timelines as the notice of proposed action set forth in subparagraph (c)2.

(4) ~~(6)~~ The inclusion of eligible private schools within options available to Florida public school students does not expand the regulatory authority of the state, its officers, or any school district to impose any additional regulation of private schools beyond those reasonably necessary to enforce requirements expressly set forth in this section.

(5) ~~(7)~~ The State Board of Education shall adopt rules pursuant to ss. 120.536(1) and 120.54 to administer this section, including rules to establish a deadline for private school applications for participation and timelines for the department to conduct site visits.

2. Each district must allocate at least 80 percent of the funds provided for CAPE industry certification, in accordance with this paragraph, to the program that generated the funds. This allocation may not be used to supplant funds provided for basic operation of the program.

3. For CAPE industry certifications earned in the 2013-2014 school year and in subsequent years, the school district shall distribute to each classroom teacher who provided direct instruction toward the attainment of a CAPE industry certification that qualified for additional full-time equivalent membership under subparagraph 1.:

b. A bonus of $50 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.2.

c. A bonus of $75 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.3.

d. A bonus of $100 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.5 or 1.0.

Bonuses awarded pursuant to this paragraph shall be provided to teachers who are employed by the district in the year in which the additional FTE membership calculation is included in the calculation. Bonuses shall be calculated based upon the associated weight of a CAPE industry certification on the CAPE Industry Certification Funding List for the year in which the certification is earned by the student. Any bonus awarded to a teacher pursuant to ~~under~~ this paragraph is in addition to any regular wage or other bonus the teacher received or is scheduled to receive. A bonus may not be awarded to a teacher who fails to maintain the security of any CAPE industry certification examination or who otherwise violates the security or administration protocol of any assessment instrument that may result in a bonus being awarded to the teacher under this paragraph.

However, if the amount of state funds appropriated for charter school capital outlay in any fiscal year is not equal to or is less than the average charter school capital outlay funds per unweighted full-time equivalent student for the 2018-2019 fiscal year, multiplied by the estimated number of charter school students for the applicable fiscal year, and adjusted by changes in the Consumer Price Index from the previous fiscal year, charter school capital outlay funding shall also consist of revenue resulting from the discretionary millage authorized in s. 1011.71(2).

(a) To be eligible to receive capital outlay funds, a charter school must:

1.a. Have been in operation for 2 or more years;

b. Be governed by a governing board established in the state for 2 or more years which operates both charter schools and conversion charter schools within the state;

c. Be an expanded feeder chain of a charter school within the same school district that is currently receiving charter school capital outlay funds;

(b) A charter school is not eligible to receive capital outlay funds if it was created by the conversion of a public school and operates in facilities provided by the charter school's sponsor for a nominal fee, or at no charge, or if it is directly or indirectly operated by the school district.

(3) If the school board levies the discretionary millage authorized in s. 1011.71(2), and the state funds appropriated for charter school capital outlay in any fiscal year are not equal to or are less than the average charter school capital outlay funds per unweighted full-time equivalent student for the 2018-2019 fiscal year, multiplied by the estimated number of charter school students for the applicable fiscal year, and adjusted by changes in the Consumer Price Index from the previous fiscal year, the department shall use the following calculation methodology to determine the amount of revenue that

a school district must distribute to each eligible charter school:

(a) Reduce the total discretionary millage revenue by the school district's annual debt service obligation incurred as of March 1, 2017, which has not been subsequently retired, and any amount of participation requirement pursuant to s. 1013.64(2)(a)8. that is being satisfied by revenues raised by the discretionary millage.

(b) Divide the school district's adjusted discretionary millage revenue by the district's total capital outlay full-time equivalent membership and the total number of unweighted full-time equivalent students of each eligible charter school to determine a capital outlay allocation per full-time equivalent student.

(c) Multiply the capital outlay allocation per full-time equivalent student by the total number of full-time equivalent students of each eligible charter school to determine the capital outlay allocation for each charter school.

(d) If applicable, reduce the capital outlay allocation identified in paragraph (c) by the total amount of state funds allocated to each eligible charter school in subsection (2) to determine the maximum calculated capital outlay allocation.

(e) School districts shall distribute capital outlay funds to charter schools no later than February 1 of each year if required by this subsection~~, beginning on February 1, 2018, for~~

~~the 2017-2018 fiscal year~~.

By October 1 of each year, each school district shall certify to the department the amount of debt service and participation requirement that complies with the requirement of paragraph (a) and can be reduced from the total discretionary millage revenue. The Auditor General shall verify compliance with the requirements of paragraph (a) and s. 1011.71(2)(e) during scheduled operational audits of school districts.

(5) If a charter school is nonrenewed or terminated, any unencumbered funds and all equipment and property purchased with district public funds shall revert to the ownership of the district school board, as provided for in s. 1002.33(8)(d) and (e) ~~s. 1002.33(8)(e) and (f)~~. In the case of a charter lab school, any unencumbered funds and all equipment and property purchased with university public funds shall revert to the ownership of the state university that issued the charter. The reversion of such equipment, property, and furnishings shall focus on recoverable assets, but not on intangible or irrecoverable costs such as rental or leasing fees, normal maintenance, and limited renovations. The reversion of all property secured with public funds is subject to the complete satisfaction of all lawful liens or encumbrances. If there are additional local issues such as the shared use of facilities or partial ownership of facilities or property, these issues shall

be agreed to in the charter contract prior to the expenditure of funds.

Section 58. For the 2018-2019 fiscal year, the sum of $19,350,000 in recurring funds from the General Revenue Fund and the sum of $850,000 in nonrecurring funds from the General Revenue Fund are appropriated to the Department of Education to implement this act. (6) APPLICATION PROCESS AND REVIEW.—Charter school applications are subject to the following requirements:

(b) A sponsor shall receive and review all applications for a charter school using the evaluation instrument developed by the Department of Education. A sponsor shall receive and consider charter school applications received on or before August 1 of each calendar year for charter schools to be opened at the beginning of the school district's next school year, or to be opened at a time agreed to by the applicant and the sponsor. A sponsor may not refuse to receive a charter school application submitted before August 1 and may receive an application submitted later than August 1 if it chooses. Beginning in 2018 and thereafter, a sponsor shall receive and consider charter school applications received on or before February 1 of each calendar year for charter schools to be opened 18 months later at the beginning of the school district's school year, or to be opened at a time agreed to by the applicant and the sponsor. A sponsor may not refuse to receive a

903516

charter school application submitted before February 1 and may receive an application submitted later than February 1 if it chooses. A sponsor may not charge an applicant for a charter any fee for the processing or consideration of an application, and a sponsor may not base its consideration or approval of a final application upon the promise of future payment of any kind. Before approving or denying any application, the sponsor shall allow the applicant, upon receipt of written notification, at least 7 calendar days to make technical or nonsubstantive corrections and clarifications, including, but not limited to, corrections of grammatical, typographical, and like errors or missing signatures, if such errors are identified by the sponsor as cause to deny the final application.

1. In order to facilitate an accurate budget projection process, a sponsor shall be held harmless for FTE students who are not included in the FTE projection due to approval of charter school applications after the FTE projection deadline. In a further effort to facilitate an accurate budget projection, within 15 calendar days after receipt of a charter school application, a sponsor shall report to the Department of Education the name of the applicant entity, the proposed charter school location, and its projected FTE.

2. In order to ensure fiscal responsibility, an application for a charter school shall include a full accounting of expected assets, a projection of expected sources and amounts of income, including income derived from projected student enrollments and from community support, and an expense projection that includes full accounting of the costs of operation, including start-up costs.

903516

3.a. A sponsor shall by a majority vote approve or deny an application no later than 90 calendar days after the application is received, unless the sponsor and the applicant mutually agree in writing to temporarily postpone the vote to a specific date, at which time the sponsor shall by a majority vote approve or deny the application. If the sponsor fails to act on the application, an applicant may appeal to the State Board of Education as provided in paragraph (c). If an application is denied, the sponsor shall, within 10 calendar days after such denial, articulate in writing the specific reasons, based upon good cause, supporting its denial of the application and shall provide the letter of denial and supporting documentation to the applicant and to the Department of Education.

b. An application submitted by a high-performing charter school identified pursuant to s. 1002.331 or a high-performing charter school system identified pursuant to s. 1002.332 may be denied by the sponsor only if the sponsor demonstrates by clear and convincing evidence that:

(I) The application does not materially comply with the requirements in paragraph (a);

(II) The charter school proposed in the application does not materially comply with the requirements in paragraphs (9)(a)-(f);

(III) The proposed charter school's educational program does not substantially replicate that of the applicant or one of the applicant's high-performing charter schools;

(IV) The applicant has made a material misrepresentation or false statement or concealed an essential or material fact during the application process; or

903516

(V) The proposed charter school's educational program and financial management practices do not materially comply with the requirements of this section.

Material noncompliance is a failure to follow requirements or a violation of prohibitions applicable to charter school applications, which failure is quantitatively or qualitatively significant either individually or when aggregated with other noncompliance. An applicant is considered to be replicating a high-performing charter school if the proposed school is substantially similar to at least one of the applicant's high-performing charter schools and the organization or individuals involved in the establishment and operation of the proposed school are significantly involved in the operation of replicated schools.

c. If the sponsor denies an application submitted by a high-performing charter school or a high-performing charter school system, the sponsor must, within 10 calendar days after such denial, state in writing the specific reasons, based upon the criteria in sub-subparagraph b., supporting its denial of the application and must provide the letter of denial and supporting documentation to the applicant and to the Department of Education. The applicant may appeal the sponsor's denial of the application in accordance with paragraph (c).

4. For budget projection purposes, the sponsor shall report to the Department of Education the approval or denial of an application within 10 calendar days after such approval or denial. In the event of approval, the report to the Department of Education shall include the final projected FTE for the

903516

approved charter school.

5. Upon approval of an application, the initial startup shall commence with the beginning of the public school calendar for the district in which the charter is granted. A charter school may defer the opening of the school's operations for up to 3 ~~2~~ years to provide time for adequate facility planning. The charter school must provide written notice of such intent to the sponsor and the parents of enrolled students at least 30 calendar days before the first day of school.

(c) Did not receive a financial audit that revealed one or more of the financial emergency conditions set forth in s. 218.503(1) in the most recent 3 fiscal years for which such audits are available. However, this requirement is deemed met for a charter school-in-the-workplace if there is a finding in an audit that the school has the monetary resources available to cover any reported deficiency or that the deficiency does not result in a deteriorating financial condition pursuant to s.

The state shall provide the same materials and support to a private school that it provides to a public school. A private school that chooses to administer statewide assessments under s. 1008.22 shall follow the requirements set forth in ss. 1008.22 and 1008.24, rules adopted by the State Board of Education to implement those sections, and district-level testing policies established by the district school board.

A complaint is legally sufficient if such complaint contains ultimate facts that show that a violation of this section or any rule adopted by the State Board of Education pursuant to this section has occurred. In order to determine legal sufficiency, the department may require supporting information or documentation from the complainant. A department inquiry is not subject to the requirements of chapter 120.

(j)1. Conduct site visits to participating private schools. The purpose of the site visits is solely to verify the information reported by the schools concerning the enrollment and attendance of students, the credentials of teachers, background screening of teachers, teachers' fingerprinting results, and other conditions required pursuant to s. 1002.421 and this section. (8) COMMISSIONER OF EDUCATION AUTHORITY AND OBLIGATIONS.—

(a) The Commissioner of Education:

1. Shall deny, suspend, or revoke a private school's participation in the program if it is determined that the private school has failed to comply with the provisions of this section. However, if the noncompliance is correctable within a reasonable amount of time and if the health, safety, or welfare of the students is not threatened, the commissioner may issue a notice of noncompliance which provides the private school with a timeframe within which to provide evidence of compliance before taking action to suspend or revoke the private school's participation in the program.

2. May deny, suspend, or revoke a private school's participation in the program if the commissioner determines that an owner or operator of the private school is operating or has operated an educational institution in this state or in another state or jurisdiction in a manner contrary to the health, safety, or welfare of the public.

a. In making such a determination, the commissioner may consider factors that include, but are not limited to, acts or omissions by an owner or operator which led to a previous denial or revocation of participation in an education scholarship program; an owner's or operator's failure to reimburse the

903516

department for scholarship funds improperly received or retained by a school; imposition of a prior criminal sanction related to an owner's or operator's management or operation of an educational institution; imposition of a civil fine or administrative fine, license revocation or suspension, or program eligibility suspension, termination, or revocation related to an owner's or operator's management or operation of an educational institution; or other types of criminal proceedings in which an owner or operator was found guilty of, regardless of adjudication, or entered a plea of nolo contendere or guilty to, any offense involving fraud, deceit, dishonesty, or moral turpitude.

b. For purposes of this subparagraph, the term "owner or operator" includes an owner, operator, superintendent, or principal of, or a person who has equivalent decisionmaking authority over, a private school participating in the scholarship program.

request for a proceeding pursuant to ss. 120.569 and 120.57. If the private school is entitled to a hearing under s. 120.57(1), the department shall refer the request to the Division of Administrative Hearings.

3. Upon receipt of a request referred pursuant to this paragraph, the director of the Division of Administrative Hearings shall expedite the hearing and assign an administrative law judge who shall commence a hearing within 30 days after the receipt of the formal written request by the division and enter a recommended order within 30 days after the hearing or within 30 days after receipt of the hearing transcript, whichever is later. Each party shall be allowed 10 days in which to submit written exceptions to the recommended order. A final order shall be entered by the agency within 30 days after the entry of a recommended order. The provisions of this subparagraph may be waived upon stipulation by all parties.

(c) The commissioner may immediately suspend payment of scholarship funds if it is determined that there is probable cause to believe that there is:

1. An imminent threat to the health, safety, or welfare of the students; or

2. Fraudulent activity on the part of the private school. Notwithstanding s. 1002.22, in incidents of alleged fraudulent activity pursuant to this section, the department's Office of Inspector General is authorized to release personally identifiable records or reports of students to the following persons or organizations:

a. A court of competent jurisdiction in compliance with an order of that court or the attorney of record in accordance with

The initial payment shall be made after verification of admission acceptance, and subsequent payments shall be made upon verification of continued enrollment and attendance at the private school.

(d) Payment of the scholarship by the eligible nonprofit scholarship-funding organization may be by individual warrant made payable to the student's parent or by funds transfer made by debit cards, electronic payment cards, or other means of payment which the department deems to be commercially viable or cost-effective. (b) For purposes of this section, the term "owner or operator" includes an owner, operator, superintendent, or principal of an eligible private school or a person with equivalent decisionmaking authority over an eligible private school.

(2) A private school participating in a scholarship program must be a Florida private school as defined in s. 1002.01(2), must be registered in accordance with s. 1002.42, and must:

(h) Employ or contract with teachers who:

1. Unless otherwise specified under this paragraph, hold baccalaureate or higher degrees, have at least 3 years of teaching experience in public or private schools, or have objectively identified special skills, knowledge, or expertise that qualifies them to provide instruction in subjects taught.

2. Hold baccalaureate or higher degrees from a regionally or nationally accredited college or university in the United States or from a recognized college or university in another country. This subparagraph applies to full-time teachers hired after July 1, 2018, who are teaching students in grade 2 or above.

The private school must report to the department, in a format developed by the department, the qualifications of each teacher

903516

hired by the school, including, but not limited to, an explanation of the objectively identified special skills or expertise of such teachers, as applicable. Additionally, the private school must provide to the parent of each scholarship student, on the school's website or on a written form provided by the school, the qualifications of each classroom teacher.

(i) Require each employee and contracted personnel with direct student contact, upon employment or engagement to provide services, to undergo a state and national background screening, pursuant to s. 943.0542, by electronically filing with the Department of Law Enforcement a complete set of fingerprints taken by an authorized law enforcement agency or an employee of the private school, a school district, or a private company who is trained to take fingerprints and deny employment to or terminate an employee if he or she fails to meet the screening standards under s. 435.04. Results of the screening shall be provided to the participating private school. For purposes of this paragraph:

1. An "employee or contracted personnel with direct student contact" means any employee or contracted personnel who has unsupervised access to a scholarship student for whom the private school is responsible.

2. The costs of fingerprinting and the background check shall not be borne by the state.

3. Continued employment of an employee or contracted personnel after notification that he or she has failed the background screening under this paragraph shall cause a private school to be ineligible for participation in a scholarship program.

903516

4. An employee or contracted personnel holding a valid Florida teaching certificate who has been fingerprinted pursuant to s. 1012.32 and who is not ineligible for employment pursuant to s. 1012.315 is not required to comply with the provisions of this paragraph.

(4) A private school that accepts scholarship students under this chapter ~~s. 1002.39 or s. 1002.395~~ must:

A private school, or any of its employees, may not enter into a confidentiality agreement regarding terminated or dismissed instructional personnel or school administrators, or personnel or administrators who resign in lieu of termination, based in whole or in part on misconduct that affects the health, safety, or welfare of a student, and may not provide the instructional personnel or school

903516

administrators with employment references or discuss the personnel's or administrators' performance with prospective employers in another educational setting, without disclosing the personnel's or administrators' misconduct. Any part of an agreement or contract that has the purpose or effect of concealing misconduct by instructional personnel or school administrators which affects the health, safety, or welfare of a student is void, is contrary to public policy, and may not be enforced.

(c) Before employing instructional personnel or school administrators in any position that requires direct contact with students, conduct employment history checks of each of the personnel's or administrators' previous employers, screen the personnel or administrators through use of the educator screening tools described in s. 1001.10(5), and document the findings. If unable to contact a previous employer, the private school must document efforts to contact the employer.

The department shall suspend the payment of funds under this chapter ~~ss. 1002.39 and 1002.395~~ to a private school that ~~knowingly~~ fails or refuses to comply with this subsection, and shall prohibit the school from enrolling new scholarship students, for 1 fiscal year and until the school complies.

(5) The failure or refusal ~~inability~~ of a private school to meet the requirements of this section shall constitute a basis for the ineligibility of the private school to participate in a scholarship program as determined by the department. Additionally, a private school is ineligible to participate in a state scholarship program under this chapter if the owner or

903516

operator of the private school was a debtor in a voluntary or involuntary bankruptcy petition within the most recent 5 years.

(7)(a) The department must annually visit at least 5 percent, and may annually visit up to 7 percent, of the private schools that participate in the state scholarship programs under this chapter. Site visits required under subsection (8) are not included in the annual site visits authorized under this paragraph.

(b) The purposes of the site visits are to verify compliance with the provisions of this section aimed at protecting the health, safety, and welfare of students and to verify the information reported by the schools concerning the enrollment and attendance of students, the credentials of teachers, background screening of teachers, and teachers' fingerprinting results, as required by rules of the State Board of Education and this section.

(c) The department may make followup site visits at any time to any school that has received a notice of noncompliance or a notice of proposed action within the previous 2 years, or for a cause that affects the health, safety, and welfare of a student.

(8)(a) The department shall visit each private school that notifies the department of the school's intent to participate in a state scholarship program under this chapter.

(9) The Division of State Fire Marshal shall annually provide to the department a fire safety inspection report,

(b) Notwithstanding any other provision of law, if a

903516

Section 20. Paragraph (f) of subsection (1) of section 1003.26, Florida Statutes, is amended to read:

1003.26 Enforcement of school attendance.—The Legislature finds that poor academic performance is associated with nonattendance and that school districts must take an active role in promoting and enforcing attendance as a means of improving student performance. It is the policy of the state that each district school superintendent be responsible for enforcing school attendance of all students subject to the compulsory school age in the school district and supporting enforcement of school attendance by local law enforcement agencies. The responsibility includes recommending policies and procedures to the district school board that require public schools to respond in a timely manner to every unexcused absence, and every absence for which the reason is unknown, of students enrolled in the schools. District school board policies shall require the parent of a student to justify each absence of the student, and that justification will be evaluated based on adopted district school board policies that define excused and unexcused absences. The policies must provide that public schools track excused and unexcused absences and contact the home in the case of an unexcused absence from school, or an absence from school for which the reason is unknown, to prevent the development of patterns of nonattendance. The Legislature finds that early intervention in school attendance is the most effective way of producing good attendance habits that will lead to improved student learning and achievement. Each public school shall implement the following steps to promote and enforce regular school attendance:

903516

(1) CONTACT, REFER, AND ENFORCE.—

(f)1. If the parent of a child who has been identified as exhibiting a pattern of nonattendance enrolls the child in a home education program pursuant to chapter 1002, the district school superintendent shall provide the parent a copy of s. 1002.41 and the accountability requirements of this paragraph. The district school superintendent shall also refer the parent to a home education review committee composed of the district contact for home education programs and at least two home educators selected by the parent from a district list of all home educators who have conducted a home education program for at least 3 years and who have indicated a willingness to serve on the committee. The home education review committee shall review the portfolio of the student, as defined by s. 1002.41, every 30 days during the district's regular school terms until the committee is satisfied that the home education program is in compliance with s. 1002.41(1)(b). The first portfolio review must occur within the first 30 calendar days of the establishment of the program. The provisions of subparagraph 2. do not apply once the committee determines the home education program is in compliance with s. 1002.41(1)(b).

2. If the parent fails to provide a portfolio to the committee, the committee shall notify the district school superintendent. The district school superintendent shall then terminate the home education program and require the parent to enroll the child in an attendance option that meets the definition of "regular school attendance" under s. 1003.01(13)(a) or (b) ~~s. 1003.01(13)(a), (b), (c), or (e)~~, within 3 days. Upon termination of a home education program

pursuant to this subparagraph, the parent shall not be eligible to reenroll the child in a home education program for 180 calendar days. Failure of a parent to enroll the child in an attendance option as required by this subparagraph after termination of the home education program pursuant to this subparagraph shall constitute noncompliance with the compulsory attendance requirements of s. 1003.21 and may result in criminal prosecution under s. 1003.27(2). Nothing contained herein shall restrict the ability of the district school superintendent, or the ability of his or her designee, to review the portfolio pursuant to s. 1002.41(1)(b).

Section 21. Paragraph (d) of subsection (2) of section 1003.41, Florida Statutes, is amended and paragraph (f) is added to that subsection, to read:

A student who enrolls in the structured program and successfully completes an additional 30 college credit hours during a school year, resulting in at least 60 college credit hours through the dual enrollment program under s. 1007.271 applicable toward fulfilling the requirements for an associate in arts degree or an associate in science degree or a baccalaureate degree pursuant to the student performance contract under subsection (3), before graduating from high school, generates an additional 0.5 FTE bonus. Each district school board that is a contractual partner with a Florida College System institution or other eligible postsecondary institution shall report to the commissioner the total FTE bonus for each structured program for the students from that school district. The total FTE bonus shall be added to each school district's total weighted FTE for funding in the subsequent fiscal year.

(c) For any industry certification a student attains under this section, the FTE bonus shall be calculated and awarded in accordance with s. 1011.62(1)(o).

1008.33 Authority to enforce public school improvement.—

(3)

(c) The state board shall adopt by rule a differentiated matrix of intervention and support strategies for assisting traditional public schools identified under this section and rules for implementing s. 1002.33(9)(n), relating to charter schools.

f. The use of continuous improvement and monitoring plans and processes.

2. ~~In addition,~~ The state board may prescribe reporting requirements to review and monitor the progress of the schools. The rule must define the intervention and support strategies for school improvement for schools earning a grade of "D" or "F" and the roles for the district and department.

(4)(a) The state board shall apply intensive intervention and support strategies tailored to the needs of schools earning two consecutive grades of "D" or a grade of "F." In the first full school year after a school initially earns two consecutive grades of "D" or a grade of "F," the school district must immediately implement intervention and support strategies prescribed in rule under paragraph (3)(c) and, by September 1, provide the department with the memorandum of understanding negotiated pursuant to s. 1001.42(21) and, by October 1, a district-managed turnaround plan for approval by the state board. The district-managed turnaround plan may include a proposal for the district to implement an extended school day, a summer program, or a combination of an extended school day and summer program. Upon approval by the state board, the school district must implement the plan for the remainder of the school year and continue the plan for 1 full school year. The state board may allow a school an additional year of implementation

903516

before the school must implement a turnaround option required under paragraph (b) if it determines that the school is likely to improve to a grade of "C" or higher after the first full school year of implementation.

(b) Unless an additional year of implementation is provided pursuant to paragraph (a), a school that has completed 2 school years of a district-managed turnaround plan required under paragraph (a) and has not improved its school grade to a "C" or higher, pursuant to s. 1008.34, ~~earns three consecutive grades below a "C"~~ must implement one of the following options:

1. Reassign students to another school and monitor the progress of each reassigned student.~~;~~

A district-managed charter school in which all instructional personnel are not employees of the school district, but are employees of an independent governing board composed of members who did not participate in the review or approval of the charter. A district-managed charter school is eligible for funding from the hope supplemental services allocation established by s. 1011.62(16); or

b. A hope operator that submits to a school district a notice of intent of a performance-based agreement pursuant to s.

903516

1002.333. A school of hope established pursuant to this sub-subparagraph is eligible for funding from the hope supplemental services allocation for up to 5 years, beginning in the school year in which the school of hope is established, if the school of hope:

(I) Is established at the district-owned facilities of the persistently low-performing school;

(II) Gives priority enrollment to students who are enrolled in, or are eligible to attend and are living in the attendance area of, the persistently low-performing school that the school of hope operates, consistent with the enrollment lottery exemption provided under s. 1002.333(5)(c); and

(III) Meets the requirements of its performance-based agreement pursuant to s. 1002.333.

4. Implement a franchise model school in which a highly effective principal, pursuant to s. 1012.34, leads the persistently low-performing school in addition to the principal's currently assigned school. The franchise model school principal may allocate resources and personnel between the schools he or she leads. The persistently low-performing school is eligible for funding from the hope supplemental services allocation established under s. 1011.62(16).

(c) Implementation of the turnaround option is no longer required if the school improves to a grade of "C" or higher.

(d) If a school ~~earning two consecutive grades of "D" or a grade of "F"~~ does not improve to a grade of "C" or higher after 2 full school years of implementing the turnaround option selected by the school district under paragraph (b), the school district must implement another turnaround option.

Implementation of the turnaround option must begin the school year following the implementation period of the existing turnaround option, unless the state board determines that the school is likely to improve to a grade of "C" or higher if additional time is provided to implement the existing turnaround option.

Section 30. Present subsections (16) and (17) of section 1011.62, Florida Statutes, are redesignated as subsections (19) and (20), respectively, new subsections (16) and (17) and subsection (18) are added to that section, and paragraph (a) of subsection (4) and subsection (14) of that section are amended, to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(4) COMPUTATION OF DISTRICT REQUIRED LOCAL EFFORT.—The Legislature shall prescribe the aggregate required local effort for all school districts collectively as an item in the General Appropriations Act for each fiscal year. The amount that each district shall provide annually toward the cost of the Florida Education Finance Program for kindergarten through grade 12 programs shall be calculated as follows:

(a) *Estimated taxable value calculations.*—

1.a. Not later than 2 working days before July 19, the Department of Revenue shall certify to the Commissioner of Education its most recent estimate of the taxable value for

903516

school purposes in each school district and the total for all school districts in the state for the current calendar year based on the latest available data obtained from the local property appraisers. The value certified shall be the taxable value for school purposes for that year, and no further adjustments shall be made, except those made pursuant to paragraphs (c) and (d), or an assessment roll change required by final judicial decisions as specified in paragraph (19)(b) ~~(16)(b)~~. Not later than July 19, the Commissioner of Education shall compute a millage rate, rounded to the next highest one one-thousandth of a mill, which, when applied to 96 percent of the estimated state total taxable value for school purposes, would generate the prescribed aggregate required local effort for that year for all districts. The Commissioner of Education shall certify to each district school board the millage rate, computed as prescribed in this subparagraph, as the minimum millage rate necessary to provide the district required local effort for that year.

b. The General Appropriations Act shall direct the computation of the statewide adjusted aggregate amount for required local effort for all school districts collectively from ad valorem taxes to ensure that no school district’s revenue from required local effort millage will produce more than 90 percent of the district’s total Florida Education Finance Program calculation as calculated and adopted by the Legislature, and the adjustment of the required local effort millage rate of each district that produces more than 90 percent of its total Florida Education Finance Program entitlement to a level that will produce only 90 percent of its total Florida

903516

Education Finance Program entitlement in the July calculation.

2. On the same date as the certification in sub-subparagraph 1.a., the Department of Revenue shall certify to the Commissioner of Education for each district:

a. Each year for which the property appraiser has certified the taxable value pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a.

b. For each year identified in sub-subparagraph a., the taxable value certified by the appraiser pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a. This is the certification that reflects all final administrative actions of the value adjustment board.

(14) QUALITY ASSURANCE GUARANTEE.—The Legislature may annually in the General Appropriations Act determine a percentage increase in funds per K-12 unweighted FTE as a minimum guarantee to each school district. The guarantee shall be calculated from prior year base funding per unweighted FTE student which shall include the adjusted FTE dollars as provided in subsection (19) ~~(16)~~, quality guarantee funds, and actual nonvoted discretionary local effort from taxes. From the base funding per unweighted FTE, the increase shall be calculated for the current year. The current year funds from which the guarantee shall be determined shall include the adjusted FTE dollars as provided in subsection (19) ~~(16)~~ and potential nonvoted discretionary local effort from taxes. A comparison of current year funds per unweighted FTE to prior year funds per unweighted FTE shall be computed. For those school districts

903516

which have less than the legislatively assigned percentage increase, funds shall be provided to guarantee the assigned percentage increase in funds per unweighted FTE student. Should appropriated funds be less than the sum of this calculated amount for all districts, the commissioner shall prorate each district's allocation. This provision shall be implemented to the extent specifically funded.

(16) HOPE SUPPLEMENTAL SERVICES ALLOCATION.-The hope supplemental services allocation is created to provide district-managed turnaround schools, as required under s. 1008.33(4)(a), charter schools authorized under s. 1008.33(4)(b)2., district-managed charter schools authorized under s. 1008.33(4)(b)3.a., schools of hope authorized under s. 1008.33(4)(b)3.b., and franchise model schools as authorized under s. 1008.33(4)(b)4., with funds to offer services designed to improve the overall academic and community welfare of the schools' students and their families.

(a) Services funded by the allocation may include, but are not limited to, tutorial and after-school programs, student counseling, nutrition education, and parental counseling. In addition, services may also include models that develop a culture that encourages students to complete high school and to attend college or career training, set high academic expectations, inspire character development, and include an extended school day and school year.

(b) Prior to distribution of the allocation, a school district, for a district turnaround school and persistently low-performing schools that use a franchise model; a hope operator, for a school of hope; or the charter school governing board for

903516

a charter school, as applicable, shall develop and submit a plan for implementation to its respective governing body for approval no later than August 1 of the fiscal year.

(c) At a minimum, the plans required under paragraph (b) must:

1. Establish comprehensive support services that develop family and community partnerships;

2. Establish clearly defined and measurable high academic and character standards;

3. Increase parental involvement and engagement in the child's education;

4. Describe how instructional personnel will be identified, recruited, retained, and rewarded;

5. Provide professional development that focuses on academic rigor, direct instruction, and creating high academic and character standards; and

6. Provide focused instruction to improve student academic proficiency, which may include additional instruction time beyond the normal school day or school year.

(d) Each school district and hope operator shall submit approved plans to the commissioner by September 1 of each fiscal year.

(e) For the 2018-2019 fiscal year, a school that is selected to receive funding in the 2017-2018 fiscal year pursuant to s. 1002.333(10)(c) shall receive $2,000 per FTE. A district-managed turnaround school required under s. 1008.33(4)(a), charter school authorized under s. 1008.33(4)(b)2., district-managed charter school authorized under s. 1008.33(4)(b)3.a., school of hope authorized under s.

903516

1008.33(4)(b)3.b., and franchise model school authorized under s. 1008.33(4)(b)4. are eligible for the remaining funds based on the school's unweighted FTE, up to $2,000 per FTE or as provided in the General Appropriations Act.

(f) For the 2019-2020 fiscal year and thereafter, each school district's allocation shall be based on the unweighted FTE student enrollment at the eligible schools and a per-FTE funding amount of up to $2,000 per FTE or as provided in the General Appropriations Act. If the calculated funds for unweighted FTE student enrollment at the eligible schools exceed the per-FTE funds appropriated, the allocation of funds to each school district must be prorated based on each school district's share of the total unweighted FTE student enrollment for the eligible schools.

(17) MENTAL HEALTH ASSISTANCE ALLOCATION.—The mental health assistance allocation is created to provide supplemental funding to assist school districts in establishing or expanding comprehensive school-based mental health programs that increase awareness of mental health issues among children and school-age youth; train educators and other school staff in detecting and responding to mental health issues; and connect children, youth, and families who may experience behavioral health issues with appropriate services. These funds may be allocated annually in the General Appropriations Act to each eligible school district and developmental research school based on each entity's proportionate share of Florida Education Finance Program base funding. The district funding allocation must include a minimum amount as specified in the General Appropriations Act. Upon submission and approval of a plan that includes the elements

903516

specified in paragraph (b), charter schools are also entitled to a proportionate share of district funding for this program. The allocated funds may not supplant funds that are provided for this purpose from other operating funds and may not be used to increase salaries or provide bonuses.

(a) Prior to the distribution of the allocation:

1. The district must annually develop and submit a detailed plan outlining the local program and planned expenditures to the district school board for approval.

2. A charter school must annually develop and submit a detailed plan outlining the local program and planned expenditures of the funds in the plan to its governing body for approval. After the plan is approved by the governing body, it must be provided to its school district for submission to the commissioner.

(b) The plans required under paragraph (a) must include, at a minimum, all of the following elements:

1. A collaborative effort or partnership between the school district and at least one local community program or agency involved in mental health to provide or to improve prevention, diagnosis, and treatment services for students;

2. Programs to assist students in dealing with bullying, trauma, and violence;

3. Strategies or programs to reduce the likelihood of at-risk students developing social, emotional, or behavioral health problems or substance use disorders;

4. Strategies to improve the early identification of social, emotional, or behavioral problems or substance use disorders and to improve the provision of early intervention

903516

services;

5. Strategies to enhance the availability of school-based crisis intervention services and appropriate referrals for students in need of mental health services; and

6. Training opportunities for school personnel in the techniques and supports needed to identify students who have trauma histories and who have or are at risk of having a mental illness, and in the use of referral mechanisms that effectively link such students to appropriate treatment and intervention services in the school and in the community.

(c) The districts shall submit approved plans to the commissioner by August 1 of each fiscal year.

(d) Beginning September 30, 2019, and by each September 30 thereafter, each entity that receives an allocation under this subsection shall submit to the commissioner, in a format prescribed by the department, a final report on its program outcomes and its expenditures for each element of the program.

(18) FUNDING COMPRESSION ALLOCATION.—The Legislature may provide an annual funding compression allocation in the General Appropriations Act. The allocation is created to provide additional funding to school districts and developmental research schools whose total funds per FTE in the prior year were less than the statewide average. Using the most recent prior year FEFP calculation for each eligible school district, the total funds per FTE shall be subtracted from the state average funds per FTE, not including any adjustments made pursuant to paragraph (19)(b). The resulting funds per FTE difference, or a portion thereof, as designated in the General Appropriations Act, shall then be multiplied by the school

903516

district’s total unweighted FTE to provide the allocation. If the calculated funds are greater than the amount included in the General Appropriations Act, they must be prorated to the appropriation amount based on each participating school district’s share.

Section 31. Subsection (5) of section 1011.69, Florida Statutes, is amended to read:

For purposes of this subsection, an eligible school is a school that is eligible to receive Title I funds, including a charter school. The threshold for identifying eligible schools may not exceed the threshold established by a school district for the 2016-2017 school year or the statewide percentage of economically disadvantaged students, as determined annually.

903516

Section 39. Subsection (3) of section 1013.62, Florida Statutes, is amended, and paragraph (c) is added to subsection (1) of that section, to read:

1013.62 Charter schools capital outlay funding.—

(1) Charter school capital outlay funding shall consist of revenue resulting from the discretionary millage authorized in s. 1011.71(2) and state funds when such funds are appropriated in the General Appropriations Act.

(c) It is the intent of the Legislature that the public interest be protected by prohibiting personal financial enrichment by owners, operators, managers, real estate developers, and other affiliated parties of charter schools. Therefore, a charter school is not eligible for a funding allocation unless the chair of the governing board and the chief administrative officer of the charter school annually certify under oath that the funds will be used solely and exclusively for constructing, renovating, or improving charter school facilities that are:

1. Owned by a school district, a political subdivision of the state, a municipality, a Florida College System institution, or a state university;

2. Owned by an organization that is qualified as an exempt organization under s. 501(c)(3) of the Internal Revenue Code whose articles of incorporation specify that, upon the organization’s dissolution, the subject property will be transferred to a school district, a political subdivision of the state, a municipality, a Florida College System institution, or a state university; or

3. Owned by and leased, at a fair market value in the

903516

school district in which the charter school is located, from a person or entity that is not an affiliated party of the charter school. For the purposes of this subparagraph, the term "affiliated party of the charter school" means the applicant for the charter school pursuant to s. 1002.33; the governing board of the charter school or a member of the governing board; the charter school owner; the charter school principal; an employee of the charter school; an independent contractor of the charter school or the governing board of the charter school; a relative, as defined in s. 1002.33(24)(a)2., of a charter school governing board member, a charter school owner, a charter school principal, a charter school employee, or an independent contractor of a charter school or charter school governing board; a subsidiary corporation, a service corporation, an affiliated corporation, a parent corporation, a limited liability company, a limited partnership, a trust, a partnership, or a related party that, individually or through one or more entities, shares common ownership or control and directly or indirectly manages, administers, controls, or oversees the operation of the charter school; or any person or entity, individually or through one or more entities that share common ownership, which directly or indirectly manages, administers, controls, or oversees the operation of any of the foregoing.

(3) If the school board levies the discretionary millage authorized in s. 1011.71(2), the department shall use the following calculation methodology to determine the amount of revenue that a school district must distribute to each eligible charter school:

903516

(a) Reduce the total discretionary millage revenue by the school district's annual debt service obligation incurred as of March 1, 2017, and any amount of participation requirement pursuant to s. 1013.64(2)(a)8. that is being satisfied by revenues raised by the discretionary millage.

(b) Divide the school district's adjusted discretionary millage revenue by the district's total capital outlay full-time equivalent membership and the total number of unweighted full-time equivalent students of each eligible charter school to determine a capital outlay allocation per full-time equivalent student.

(c) Multiply the capital outlay allocation per full-time equivalent student by the total number of full-time equivalent students for all ~~of each~~ eligible charter schools within the district ~~school~~ to determine the total charter school capital outlay allocation for each district ~~charter school~~.

(d) If applicable, reduce the capital outlay allocation identified in paragraph (c) by the total amount of state funds allocated pursuant to subsection (2) to all ~~each~~ eligible charter schools within a district ~~school in subsection (2)~~ to determine the net total ~~maximum~~ calculated capital outlay allocation from local funds. If state funds are not allocated pursuant to subsection (2), the amount determined in paragraph (c) is equal to the net total calculated capital outlay allocation from local funds for each district.

(e) For each charter school within each district, the net capital outlay amount from local funds shall be calculated in the same manner as the state funds in paragraphs (2)(a)-(d), except that the base charter school per weighted FTE allocation

903516

amount shall be determined by dividing the net total capital outlay amount from local funds by the total weighted FTE for all eligible charter schools within the district. The per weighted FTE allocation amount from local funds shall be multiplied by the weighted FTE for each charter school to determine each charter school's capital outlay allocation from local funds.

(f) ~~(e)~~ School districts shall distribute capital outlay funds to charter schools no later than February 1 of each year~~, beginning on February 1, 2018, for the 2017-2018 fiscal year~~.

Section 40. Effective July 1, 2019, subsection (13) of section 212.08, Florida Statutes, is amended to read:

The Committee on Appropriations (Passidomo) recommended the following:

Senate Substitute for Amendment (903516) (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Section 212.1832, Florida Statutes, is created to read:

212.1832 Credit for contributions to the Hope Scholarship Program.—

(1) Upon adoption of rules, the purchaser of a motor

692180

vehicle shall be granted a credit of 100 percent of an eligible contribution made to an eligible nonprofit scholarship-funding organization under s. 1002.40 against any tax imposed by the state and collected from the purchaser by a dealer, designated agent, or private tag agent as a result of the purchase or acquisition of a motor vehicle. For purposes of this subsection, the term "purchase" does not include the lease or rental of a motor vehicle.

(2) A dealer shall take a credit against any tax imposed by the state under this chapter on the purchase of a motor vehicle in an amount equal to the credit granted to the purchaser under subsection (1).

(3) For purposes of the distributions of tax revenue under s. 212.20, the department shall disregard any tax credits allowed under this section to ensure that any reduction in tax revenue received that is attributable to the tax credits results only in a reduction in distributions to the General Revenue Fund. The provisions of s. 1002.40 apply to the credit authorized by this section.

Section 2. Subsection (21) is added to section 213.053, Florida Statutes, to read:

213.053 Confidentiality and information sharing.—

(21)(a) The department may provide to an eligible nonprofit scholarship-funding organization, as defined in s. 1002.40, a dealer's name, address, federal employer identification number, and information related to differences between credits taken by the dealer pursuant to s. 212.1832(2) and amounts remitted to the eligible nonprofit scholarship-funding organization under s. 1002.40(13)(b)3. The eligible nonprofit scholarship-funding

692180

organization may use the information for purposes of recovering eligible contributions designated for that organization that were collected by the dealer but never remitted to the organization.

(b) Nothing in this subsection authorizes the disclosure of information if such disclosure is prohibited by federal law. An eligible nonprofit scholarship-funding organization is bound by the same requirements of confidentiality and the same penalties for a violation of the requirements as the department.

(b) A sponsor shall receive and review all applications for a charter school using the evaluation instrument developed by the Department of Education. A sponsor shall receive and consider charter school applications received on or before August 1 of each calendar year for charter schools to be opened at the beginning of the school district's next school year, or to be opened at a time agreed to by the applicant and the sponsor. A sponsor may not refuse to receive a charter school application submitted before August 1 and may receive an

692180

application submitted later than August 1 if it chooses. Beginning in 2018 and thereafter, a sponsor shall receive and consider charter school applications received on or before February 1 of each calendar year for charter schools to be opened 18 months later at the beginning of the school district's school year, or to be opened at a time agreed to by the applicant and the sponsor. A sponsor may not refuse to receive a charter school application submitted before February 1 and may receive an application submitted later than February 1 if it chooses. A sponsor may not charge an applicant for a charter any fee for the processing or consideration of an application, and a sponsor may not base its consideration or approval of a final application upon the promise of future payment of any kind. Before approving or denying any application, the sponsor shall allow the applicant, upon receipt of written notification, at least 7 calendar days to make technical or nonsubstantive corrections and clarifications, including, but not limited to, corrections of grammatical, typographical, and like errors or missing signatures, if such errors are identified by the sponsor as cause to deny the final application.

1. In order to facilitate an accurate budget projection process, a sponsor shall be held harmless for FTE students who are not included in the FTE projection due to approval of charter school applications after the FTE projection deadline. In a further effort to facilitate an accurate budget projection, within 15 calendar days after receipt of a charter school application, a sponsor shall report to the Department of Education the name of the applicant entity, the proposed charter school location, and its projected FTE.

692180

2. In order to ensure fiscal responsibility, an application for a charter school shall include a full accounting of expected assets, a projection of expected sources and amounts of income, including income derived from projected student enrollments and from community support, and an expense projection that includes full accounting of the costs of operation, including start-up costs.

3.a. A sponsor shall by a majority vote approve or deny an application no later than 90 calendar days after the application is received, unless the sponsor and the applicant mutually agree in writing to temporarily postpone the vote to a specific date, at which time the sponsor shall by a majority vote approve or deny the application. If the sponsor fails to act on the application, an applicant may appeal to the State Board of Education as provided in paragraph (c). If an application is denied, the sponsor shall, within 10 calendar days after such denial, articulate in writing the specific reasons, based upon good cause, supporting its denial of the application and shall provide the letter of denial and supporting documentation to the applicant and to the Department of Education.

b. An application submitted by a high-performing charter school identified pursuant to s. 1002.331 or a high-performing charter school system identified pursuant to s. 1002.332 may be denied by the sponsor only if the sponsor demonstrates by clear and convincing evidence that:

(I) The application <u>of a high-performing charter school</u> does not materially comply with the requirements in paragraph (a) <u>or, for a high-performing charter school system, the application does not materially comply with s. 1002.332(2)(b)</u>;

Material noncompliance is a failure to follow requirements or a violation of prohibitions applicable to charter school applications, which failure is quantitatively or qualitatively significant either individually or when aggregated with other noncompliance. An applicant is considered to be replicating a high-performing charter school if the proposed school is substantially similar to at least one of the applicant's high-performing charter schools and the organization or individuals involved in the establishment and operation of the proposed school are significantly involved in the operation of replicated schools.

692180

the application and must provide the letter of denial and supporting documentation to the applicant and to the Department of Education. The applicant may appeal the sponsor's denial of the application in accordance with paragraph (c).

4. For budget projection purposes, the sponsor shall report to the Department of Education the approval or denial of an application within 10 calendar days after such approval or denial. In the event of approval, the report to the Department of Education shall include the final projected FTE for the approved charter school.

5. Upon approval of an application, the initial startup shall commence with the beginning of the public school calendar for the district in which the charter is granted. A charter school may defer the opening of the school's operations for up to 3 ~~2~~ years to provide time for adequate facility planning. The charter school must provide written notice of such intent to the sponsor and the parents of enrolled students at least 30 calendar days before the first day of school.

(7) CHARTER.—The terms and conditions for the operation of a charter school shall be set forth by the sponsor and the applicant in a written contractual agreement, called a charter. The sponsor and the governing board of the charter school shall use the standard charter contract pursuant to subsection (21), which shall incorporate the approved application and any addenda approved with the application. Any term or condition of a proposed charter contract that differs from the standard charter contract adopted by rule of the State Board of Education shall be presumed a limitation on charter school flexibility. 692180

violate the intent of giving charter schools greater flexibility to meet educational goals. The charter shall be signed by the governing board of the charter school and the sponsor, following a public hearing to ensure community input.

The curriculum and instructional strategies for reading must be consistent with the Next Generation Sunshine State Standards and grounded in scientifically based reading research.

b. In order to provide students with access to diverse instructional delivery models, to facilitate the integration of technology within traditional classroom instruction, and to provide students with the skills they need to compete in the 21st century economy, the Legislature encourages instructional methods for blended learning courses consisting of both traditional classroom and online instructional techniques.

692180

b. How these baseline rates will be compared to rates of academic progress achieved by these same students while attending the charter school.

c. To the extent possible, how these rates of progress will be evaluated and compared with rates of progress of other closely comparable student populations.

The district school board is required to provide academic student performance data to charter schools for each of their

students coming from the district school system, as well as rates of academic progress of comparable student populations in the district school system.

12. The term of the charter which shall provide for cancellation of the charter if insufficient progress has been made in attaining the student achievement objectives of the charter and if it is not likely that such objectives can be achieved before expiration of the charter. The initial term of a charter shall be for ~~4 or~~ 5 years, excluding 1 planning year. In order to facilitate access to long-term financial resources for charter school construction, charter schools that are operated by a municipality or other public entity as provided by law are eligible for up to a 15-year charter, subject to approval by the

692180

district school board. A charter lab school is eligible for a charter for a term of up to 15 years. In addition, to facilitate access to long-term financial resources for charter school construction, charter schools that are operated by a private, not-for-profit, s. 501(c)(3) status corporation are eligible for up to a 15-year charter, subject to approval by the district school board. collective bargaining agreement or district school board rule in the absence of a collective bargaining agreement. However, alternative arrangements shall not be required for current teachers who choose not to teach in a charter lab school, except as authorized by the employment policies of the state university which grants the charter to the lab school.

The written notice shall specify the amount of the enrollment increase and the grade levels that will be added, as applicable.

(d) A charter may be modified during its initial term or any renewal term upon the recommendation of the sponsor or the charter school's governing board and the approval of both

Section 9. Subsection (1), paragraph (a) of subsection (2), and paragraph (b) of subsection (3) of section 1002.331, Florida Statutes, are amended to read:

1002.331 High-performing charter schools.—

(1) A charter school is a high-performing charter school if it:

(a) Received at least two school grades of "A" and no school grade below "B," pursuant to s. 1008.34, during each of the previous 3 school years or received at least two consecutive school grades of "A" in the most recent 2 school years.

(b) Received an unqualified opinion on each annual financial audit required under s. 218.39 in the most recent 3 fiscal years for which such audits are available.

(c) Did not receive a financial audit that revealed one or more of the financial emergency conditions set forth in s. 218.503(1) in the most recent 3 fiscal years for which such

692180

audits are available. However, this requirement is deemed met for a charter school-in-the-workplace if there is a finding in an audit that the school has the monetary resources available to cover any reported deficiency or that the deficiency does not result in a deteriorating financial condition pursuant to s. 1002.345(1)(a)3.

For purposes of determining initial eligibility, the requirements of paragraphs (b) and (c) only apply to the most recent 2 fiscal years if the charter school earns two consecutive grades of "A." A virtual charter school established under s. 1002.33 is not eligible for designation as a high-performing charter school.

(2) A high-performing charter school is authorized to:

(a) Increase its student enrollment once per school year to more than the capacity identified in the charter, but student enrollment may not exceed the ~~current facility~~ capacity of the facility at the time of enrollment. Facility capacity for purposes of grade level expansion shall include any improvements to an existing facility or any new facility in which a majority of the students of the high-performing charter school will enroll.

A high-performing charter school shall notify its sponsor in writing by March 1 if it intends to increase enrollment or expand grade levels the following school year. The written notice shall specify the amount of the enrollment increase and the grade levels that will be added, as applicable. If a charter school notifies the sponsor of its intent to expand, the sponsor

shall modify the charter within 90 days to include the new enrollment maximum and may not make any other changes. The sponsor may deny a request to increase the enrollment of a high-performing charter school if the commissioner has declassified the charter school as high-performing. If a high-performing charter school requests to consolidate multiple charters, the sponsor shall have 40 days after receipt of that request to provide an initial draft charter to the charter school. The sponsor and charter school shall have 50 days thereafter to negotiate and notice the charter contract for final approval by the sponsor.

(3)

(b) A high-performing charter school may not establish more than two ~~one~~ charter schools ~~school~~ within the state under paragraph (a) in any year. A subsequent application to establish a charter school under paragraph (a) may not be submitted unless each charter school established in this manner achieves high-performing charter school status. However, a high-performing charter school may establish more than one charter school within the state under paragraph (a) in any year if it operates in the area of a persistently low-performing school and serves students from that school.

Section 10. Present subsections (11) and (12) of section 1002.333, Florida Statutes, are redesignated as subsections (12) and (13), respectively, a new subsection (11) is added to that section, and subsections (1) and (2), paragraph (a) of subsection (4), paragraphs (b), (g), and (i) of subsection (5), paragraph (a) of subsection (7), subsection (9), and paragraphs (b) and (d) of subsection (10) of that section are amended, to

(7) DEPARTMENT OF EDUCATION OBLIGATIONS.—The department shall:

(a) Establish a toll-free hotline that provides parents and private schools with information on participation in the program.

(b) Annually verify the eligibility of private schools that

(e) Maintain a list of nationally norm-referenced tests identified for purposes of satisfying the testing requirement in paragraph (9)(f). The tests must meet industry standards of quality in accordance with State Board of Education rule.

(f) Require quarterly reports by an eligible nonprofit scholarship-funding organization regarding the number of students participating in the scholarship program, the private schools in which the students are enrolled, and other information deemed necessary by the department.

(g) Contract with an independent entity to provide an annual evaluation of the program by:

1. Reviewing the school climate and code of student conduct of each public school that reported the occurrence of a monthly average of 10 or more substantiated incidents to determine areas in the school or school district procedures involving reporting, investigating, and communicating a parent’s and student’s rights which are in need of improvement. At a minimum, the review must include:

a. An assessment of the investigation time and quality of the response of the school and the school district;

3. Reviewing the performance of participating students enrolled in a private school in which the majority of the school's total enrolled students in the prior school year participated in one or more scholarship programs, as defined in s. 1002.01, in which there are at least 10 participating students who have scores for tests administered; and reviewing the school climate and code of student conduct of the private school if one or more scholarship participants were involved in a reported incident at the school during the prior school year.

4. Surveying the parents of participating students to determine academic, safety, and school climate satisfaction and to identify any challenges or obstacles in addressing the incident or relating to the use of the scholarship.

(h) Upon the request of a participating private school, provide at no cost to the school the statewide assessments administered under s. 1008.22 and any related materials for administering the assessments. Students at a private school may be assessed using the statewide assessments if the addition of those students and the school does not cause the state to exceed

692180

its contractual caps for the number of students tested and the number of testing sites. The state shall provide the same materials and support to a private school that it provides to a public school. A private school that chooses to administer statewide assessments under s. 1008.22 shall follow the requirements set forth in ss. 1008.22 and 1008.24, rules adopted by the State Board of Education to implement those sections, and district-level testing policies established by the district school board.

The department shall conduct an inquiry or make a referral to the appropriate agency for an investigation of any written complaint of a violation of this section if the complaint is signed by the complainant and is legally sufficient. A complaint is legally sufficient if such complaint contains ultimate facts that show that a violation of this section or any rule adopted by the State Board of Education pursuant to this section has occurred. In order to determine legal sufficiency, the department may require supporting information or documentation from the complainant. A department inquiry is not subject to the requirements of chapter 120.

(j)1. Conduct site visits to participating private schools. The purpose of the site visits is solely to verify the information reported by the schools concerning the enrollment and attendance of students, the credentials of teachers, background screening of teachers, teachers' fingerprinting results, and other conditions required pursuant to s. 1002.421

692180

and this section. The department may not make more than seven site visits each year; however, the department may make additional site visits at any time to a school that is the subject of a violation complaint submitted pursuant to paragraph (i), is identified by an organization for a known or suspected violation, or has received a notice of noncompliance or a notice of proposed action within the current year or the previous 2 years.

2. Annually, by December 15, report to the Governor, the President of the Senate, and the Speaker of the House of Representatives the department's actions with respect to implementing accountability in the program under this section and s. 1002.421, any substantiated allegations or violations of law or rule by an eligible private school under this program, and the corrective action taken by the department.

(8) COMMISSIONER OF EDUCATION AUTHORITY AND OBLIGATIONS.—

(a) The Commissioner of Education:

1. Shall deny, suspend, or revoke a private school's participation in the program if it is determined that the private school has failed to comply with the provisions of this section. However, if the noncompliance is correctable within a reasonable amount of time and if the health, safety, or welfare of the students is not threatened, the commissioner may issue a notice of noncompliance which provides the private school with a timeframe within which to provide evidence of compliance before taking action to suspend or revoke the private school's participation in the program.

2. May deny, suspend, or revoke a private school's participation in the program if the commissioner determines that

692180

an owner or operator of the private school is operating or has operated an educational institution in this state or in another state or jurisdiction in a manner contrary to the health, safety, or welfare of the public.

a. In making such a determination, the commissioner may consider factors that include, but are not limited to, acts or omissions by an owner or operator which led to a previous denial or revocation of participation in an education scholarship program; an owner's or operator's failure to reimburse the department for scholarship funds improperly received or retained by a school; imposition of a prior criminal sanction related to an owner's or operator's management or operation of an educational institution; imposition of a civil fine or administrative fine, license revocation or suspension, or program eligibility suspension, termination, or revocation related to an owner's or operator's management or operation of an educational institution; or other types of criminal proceedings in which an owner or operator was found guilty of, regardless of adjudication, or entered a plea of nolo contendere or guilty to, any offense involving fraud, deceit, dishonesty, or moral turpitude.

b. For purposes of this subparagraph, the term "owner or operator" includes an owner, operator, superintendent, or principal of, or a person who has equivalent decisionmaking authority over, a private school participating in the scholarship program.

(b) The commissioner's determination is subject to the following:

1. If the commissioner intends to deny, suspend, or revoke

692180

a private school's participation in the program, the department shall notify the private school of such proposed action in writing by certified mail and regular mail to the private school's address of record with the department. The notification shall include the reasons for the proposed action and notice of the timelines and procedures set forth in this paragraph.

The private school that is adversely affected by the proposed action shall have 15 days after receipt of the notice of proposed action to file with the department's agency clerk a request for a proceeding pursuant to ss. 120.569 and 120.57. If the private school is entitled to a hearing under s. 120.57(1), the department shall refer the request to the Division of Administrative Hearings.

3. Upon receipt of a request referred pursuant to this paragraph, the director of the Division of Administrative Hearings shall expedite the hearing and assign an administrative law judge who shall commence a hearing within 30 days after the receipt of the formal written request by the division and enter a recommended order within 30 days after the hearing or within 30 days after receipt of the hearing transcript, whichever is later. Each party shall be allowed 10 days in which to submit written exceptions to the recommended order. A final order shall be entered by the agency within 30 days after the entry of a recommended order. The provisions of this subparagraph may be waived upon stipulation by all parties.

(c) The commissioner may immediately suspend payment of scholarship funds if it is determined that there is probable cause to believe that there is:

1. An imminent threat to the health, safety, or welfare of

692180

the students; or

2. Fraudulent activity on the part of the private school. Notwithstanding s. 1002.22, in incidents of alleged fraudulent activity pursuant to this section, the department's Office of Inspector General is authorized to release personally identifiable records or reports of students to the following persons or organizations:

a. A court of competent jurisdiction in compliance with an order of that court or the attorney of record in accordance with a lawfully issued subpoena, consistent with the Family Educational Rights and Privacy Act, 20 U.S.C. s. 1232g.

b. A person or entity authorized by a court of competent jurisdiction in compliance with an order of that court or the attorney of record pursuant to a lawfully issued subpoena, consistent with the Family Educational Rights and Privacy Act, 20 U.S.C. s. 1232g.

c. Any person, entity, or authority issuing a subpoena for law enforcement purposes when the court or other issuing agency has ordered that the existence or the contents of the subpoena or the information furnished in response to the subpoena not be disclosed, consistent with the Family Educational Rights and Privacy Act, 20 U.S.C. s. 1232g, and 34 C.F.R. s. 99.31.

The parent may also choose to have the student participate in the statewide assessments pursuant to s. 1008.22. If the parent requests that the student participating in the program take the statewide assessments pursuant to s. 1008.22 and the private school has not chosen to offer and administer the statewide assessments, the parent is responsible for transporting the student to the assessment site designated by the school district.

(g) Upon receipt of a scholarship warrant, the parent to

692180

whom the warrant is made must restrictively endorse the warrant to the private school for deposit into the account of the private school. The parent may not designate any entity or individual associated with the participating private school as the parent's attorney in fact to endorse a scholarship warrant. The initial payment shall be made after verification of admission acceptance, and subsequent payments shall be made upon verification of continued enrollment and attendance at the private school.

(d) Payment of the scholarship by the eligible nonprofit scholarship-funding organization may be by individual warrant made payable to the student's parent or by funds transfer made by debit cards, electronic payment cards, or other means of payment which the department deems to be commercially viable or cost-effective. If payment is made by warrant, the warrant must be delivered by the eligible nonprofit scholarship-funding organization to the private school of the parent's choice, and the parent shall restrictively endorse the warrant to the private school. If payment is made by funds transfer, the parent must approve each payment before the scholarship funds may be deposited. Such administrative expenses must be reasonable and necessary for the organization's management and distribution of eligible contributions under this section. Funds authorized under this paragraph may not be used for lobbying or political activity or expenses related to lobbying or political activity. (b) For purposes of this section, the term "owner or operator" includes an owner, operator, superintendent, or principal of an eligible private school or a person with equivalent decisionmaking authority over an eligible private school.

(2) A private school participating in a scholarship program must be a Florida private school as defined in s. 1002.01(2), must be registered in accordance with s. 1002.42, and must:

(h) Employ or contract with teachers who:

1. Unless otherwise specified under this paragraph, hold baccalaureate or higher degrees, have at least 3 years of teaching experience in public or private schools, or have objectively identified special skills, knowledge, or expertise that qualifies them to provide instruction in subjects taught.

2. Hold baccalaureate or higher degrees from a regionally or nationally accredited college or university in the United States or from a recognized college or university in another country. This subparagraph applies to full-time teachers hired after July 1, 2018, who are teaching students in grade 2 or above.

The private school must report to the department, in a format developed by the department, the qualifications of each teacher

692180

hired by the school, including, but not limited to, an explanation of the objectively identified special skills or expertise of such teachers, as applicable. Additionally, the private school must provide to the parent of each scholarship student, on the school's website or on a written form provided by the school, the qualifications of each classroom teacher.

(i) Require each employee and contracted personnel with direct student contact, upon employment or engagement to provide services, to undergo a state and national background screening, pursuant to s. 943.0542, by electronically filing with the Department of Law Enforcement a complete set of fingerprints taken by an authorized law enforcement agency or an employee of the private school, a school district, or a private company who is trained to take fingerprints and deny employment to or terminate an employee if he or she fails to meet the screening standards under s. 435.04. Results of the screening shall be provided to the participating private school. For purposes of this paragraph:

1. An "employee or contracted personnel with direct student contact" means any employee or contracted personnel who has unsupervised access to a scholarship student for whom the private school is responsible.

2. The costs of fingerprinting and the background check shall not be borne by the state.

3. Continued employment of an employee or contracted personnel after notification that he or she has failed the background screening under this paragraph shall cause a private school to be ineligible for participation in a scholarship program.

692180

4. An employee or contracted personnel holding a valid Florida teaching certificate who has been fingerprinted pursuant to s. 1012.32 and who is not ineligible for employment pursuant to s. 1012.315 is not required to comply with the provisions of this paragraph.

The policies must require all instructional personnel and school administrators, as defined in s. 1012.01, to complete training on the standards; establish the duty of instructional personnel and school administrators to report, and procedures for reporting, alleged misconduct by other instructional personnel and school administrators which affects the health, safety, or welfare of a student; and include an explanation of the liability protections provided under ss. 39.203 and 768.095. A private school, or any of its employees, may not enter into a confidentiality agreement regarding terminated or dismissed instructional personnel or school administrators, or personnel or administrators who resign in lieu of termination, based in whole or in part on misconduct that affects the health, safety, or welfare of a student, and may not provide the instructional personnel or school

692180

administrators with employment references or discuss the personnel's or administrators' performance with prospective employers in another educational setting, without disclosing the personnel's or administrators' misconduct. Any part of an agreement or contract that has the purpose or effect of concealing misconduct by instructional personnel or school administrators which affects the health, safety, or welfare of a student is void, is contrary to public policy, and may not be enforced.

(c) Before employing instructional personnel or school administrators in any position that requires direct contact with students, conduct employment history checks of each of the personnel's or administrators' previous employers, screen the personnel or administrators through use of the educator screening tools described in s. 1001.10(5), and document the findings. If unable to contact a previous employer, the private school must document efforts to contact the employer.

The department shall suspend the payment of funds under this chapter ~~ss. 1002.39 and 1002.395~~ to a private school that ~~knowingly~~ fails or refuses to comply with this subsection, and shall prohibit the school from enrolling new scholarship students, for 1 fiscal year and until the school complies.

(5) The failure or refusal ~~inability~~ of a private school to meet the requirements of this section shall constitute a basis for the ineligibility of the private school to participate in a scholarship program as determined by the department. Additionally, a private school is ineligible to participate in a state scholarship program under this chapter if the owner or

692180

operator of the private school was a debtor in a voluntary or involuntary bankruptcy petition within the most recent 5 years.

(7)(a) The department must annually visit at least 5 percent, and may annually visit up to 7 percent, of the private schools that participate in the state scholarship programs under this chapter. Site visits required under subsection (8) are not included in the annual site visits authorized under this paragraph.

(b) The purposes of the site visits are to verify compliance with the provisions of this section aimed at protecting the health, safety, and welfare of students and to verify the information reported by the schools concerning the enrollment and attendance of students, the credentials of teachers, background screening of teachers, and teachers' fingerprinting results, as required by rules of the State Board of Education and this section.

(c) The department may make followup site visits at any time to any school that has received a notice of noncompliance or a notice of proposed action within the previous 2 years, or for a cause that affects the health, safety, and welfare of a student.

(8)(a) The department shall visit each private school that notifies the department of the school's intent to participate in a state scholarship program under this chapter.

(b) The purpose of the site visit is to determine that the school meets the applicable state and local health, safety, and welfare codes and rules pursuant to this section.

(9) The Division of State Fire Marshal shall annually provide to the department a fire safety inspection report,

692180

prepared by the local fire departments or by entities with whom they contract to perform fire safety inspections of private schools, for each private school that participates in a state scholarship program under this chapter.

(11) ~~(7)~~ The State Board of Education shall adopt rules pursuant to ss. 120.536(1) and 120.54 to administer and enforce this section.

Section 19. Section 1002.43, Florida Statutes, is repealed.

Section 23. Paragraph (f) of subsection (1) of section 1003.26, Florida Statutes, is amended to read:

1003.26 Enforcement of school attendance.—The Legislature finds that poor academic performance is associated with nonattendance and that school districts must take an active role in promoting and enforcing attendance as a means of improving student performance. It is the policy of the state that each district school superintendent be responsible for enforcing school attendance of all students subject to the compulsory school age in the school district and supporting enforcement of school attendance by local law enforcement agencies. The responsibility includes recommending policies and procedures to the district school board that require public schools to respond in a timely manner to every unexcused absence, and every absence for which the reason is unknown, of students enrolled in the

692180

schools. District school board policies shall require the parent of a student to justify each absence of the student, and that justification will be evaluated based on adopted district school board policies that define excused and unexcused absences. The policies must provide that public schools track excused and unexcused absences and contact the home in the case of an unexcused absence from school, or an absence from school for which the reason is unknown, to prevent the development of patterns of nonattendance. The Legislature finds that early intervention in school attendance is the most effective way of producing good attendance habits that will lead to improved student learning and achievement. Each public school shall implement the following steps to promote and enforce regular school attendance:

(1) CONTACT, REFER, AND ENFORCE.—

(f)1. If the parent of a child who has been identified as exhibiting a pattern of nonattendance enrolls the child in a home education program pursuant to chapter 1002, the district school superintendent shall provide the parent a copy of s. 1002.41 and the accountability requirements of this paragraph. The district school superintendent shall also refer the parent to a home education review committee composed of the district contact for home education programs and at least two home educators selected by the parent from a district list of all home educators who have conducted a home education program for at least 3 years and who have indicated a willingness to serve on the committee. The home education review committee shall review the portfolio of the student, as defined by s. 1002.41, every 30 days during the district’s regular school terms until

692180

the committee is satisfied that the home education program is in compliance with s. 1002.41(1)(b). The first portfolio review must occur within the first 30 calendar days of the establishment of the program. The provisions of subparagraph 2. do not apply once the committee determines the home education program is in compliance with s. 1002.41(1)(b).

2. If the parent fails to provide a portfolio to the committee, the committee shall notify the district school superintendent. The district school superintendent shall then terminate the home education program and require the parent to enroll the child in an attendance option that meets the definition of "regular school attendance" under s. 1003.01(13)(a) or (b) ~~s. 1003.01(13)(a), (b), (c), or (e)~~, within 3 days. Upon termination of a home education program pursuant to this subparagraph, the parent shall not be eligible to reenroll the child in a home education program for 180 calendar days. Failure of a parent to enroll the child in an attendance option as required by this subparagraph after termination of the home education program pursuant to this subparagraph shall constitute noncompliance with the compulsory attendance requirements of s. 1003.21 and may result in criminal prosecution under s. 1003.27(2). Nothing contained herein shall restrict the ability of the district school superintendent, or the ability of his or her designee, to review the portfolio pursuant to s. 1002.41(1)(b).

Section 24. Paragraph (d) of subsection (2) of section 1003.41, Florida Statutes, is amended and paragraph (f) is added to that subsection, to read:

1003.41 Next Generation Sunshine State Standards.—

692180

A value of 0.2 full-time equivalent membership shall be calculated for each student who is issued a CAPE industry certification that has a statewide articulation agreement for college credit approved by the State Board of Education. For CAPE industry certifications that do not articulate for college credit, the Department of Education shall assign a full-time equivalent value of 0.1 for each certification. Middle grades students who earn additional FTE membership for a CAPE Digital Tool certificate pursuant to sub-subparagraph a. may not use the previously funded examination to satisfy the requirements for earning an industry certification under this sub-subparagraph. Additional FTE membership for an elementary or middle grades student may not exceed 0.1 for certificates or certifications earned within the same fiscal year. The State Board of Education shall include the assigned values on the CAPE Industry Certification Funding List under rules adopted by the state board. Such value shall be added to the total full-time equivalent student membership for grades 6 through 12 in the subsequent year. CAPE industry certifications earned through dual enrollment must be reported and funded pursuant to s. 1011.80. However, if a student earns a

692180

certification through a dual enrollment course and the certification is not a fundable certification on the postsecondary certification funding list, or the dual enrollment certification is earned as a result of an agreement between a school district and a nonpublic postsecondary institution, the bonus value shall be funded in the same manner as other nondual enrollment course industry certifications. In such cases, the school district may provide for an agreement between the high school and the technical center, or the school district and the postsecondary institution may enter into an agreement for equitable distribution of the bonus funds.

c. A value of 0.3 full-time equivalent student membership shall be calculated for student completion of the courses and the embedded certifications identified on the CAPE Industry Certification Funding List and approved by the commissioner pursuant to ss. 1003.4203(5)(a) and 1008.44.

d. A value of 0.5 full-time equivalent student membership shall be calculated for CAPE Acceleration Industry Certifications that articulate for 15 to 29 college credit hours, and 1.0 full-time equivalent student membership shall be calculated for CAPE Acceleration Industry Certifications that articulate for 30 or more college credit hours pursuant to CAPE Acceleration Industry Certifications approved by the commissioner pursuant to ss. 1003.4203(5)(b) and 1008.44.

2. Each district must allocate at least 80 percent of the funds provided for CAPE industry certification, in accordance with this paragraph, to the program that generated the funds. This allocation may not be used to supplant funds provided for basic operation of the program.

692180

3. For CAPE industry certifications earned in the 2013-2014 school year and in subsequent years, the school district shall distribute to each classroom teacher who provided direct instruction toward the attainment of a CAPE industry certification that qualified for additional full-time equivalent membership under subparagraph 1.:

a. A bonus of $25 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.1.

b. A bonus of $50 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.2.

c. A bonus of $75 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.3.

d. A bonus of $100 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.5 or 1.0.

Bonuses awarded pursuant to this paragraph shall be provided to teachers who are employed by the district in the year in which the additional FTE membership calculation is included in the calculation. Bonuses shall be calculated based upon the associated weight of a CAPE industry certification on the CAPE Industry Certification Funding List for the year in which the

692180

certification is earned by the student. Any bonus awarded to a teacher pursuant to ~~under~~ this paragraph is in addition to any regular wage or other bonus the teacher received or is scheduled to receive. A bonus may not be awarded to a teacher who fails to maintain the security of any CAPE industry certification examination or who otherwise violates the security or administration protocol of any assessment instrument that may result in a bonus being awarded to the teacher under this paragraph.

(t) *Computation for funding through the Florida Education Finance Program.*—The State Board of Education may adopt rules establishing programs, industry certifications, and courses for which the student may earn credit toward high school graduation and the criteria under which a student's industry certification or grade may be rescinded.

(4) COMPUTATION OF DISTRICT REQUIRED LOCAL EFFORT.—The Legislature shall prescribe the aggregate required local effort for all school districts collectively as an item in the General Appropriations Act for each fiscal year. The amount that each district shall provide annually toward the cost of the Florida Education Finance Program for kindergarten through grade 12 programs shall be calculated as follows:

(a) *Estimated taxable value calculations.*—

1.a. Not later than 2 working days before July 19, the Department of Revenue shall certify to the Commissioner of Education its most recent estimate of the taxable value for school purposes in each school district and the total for all school districts in the state for the current calendar year based on the latest available data obtained from the local

692180

property appraisers. The value certified shall be the taxable value for school purposes for that year, and no further adjustments shall be made, except those made pursuant to paragraphs (c) and (d), or an assessment roll change required by final judicial decisions as specified in paragraph (19)(b) ~~(16)(b)~~. Not later than July 19, the Commissioner of Education shall compute a millage rate, rounded to the next highest one one-thousandth of a mill, which, when applied to 96 percent of the estimated state total taxable value for school purposes, would generate the prescribed aggregate required local effort for that year for all districts. The Commissioner of Education shall certify to each district school board the millage rate, computed as prescribed in this subparagraph, as the minimum millage rate necessary to provide the district required local effort for that year.

b. The General Appropriations Act shall direct the computation of the statewide adjusted aggregate amount for required local effort for all school districts collectively from ad valorem taxes to ensure that no school district's revenue from required local effort millage will produce more than 90 percent of the district's total Florida Education Finance Program calculation as calculated and adopted by the Legislature, and the adjustment of the required local effort millage rate of each district that produces more than 90 percent of its total Florida Education Finance Program entitlement to a level that will produce only 90 percent of its total Florida Education Finance Program entitlement in the July calculation.

2. On the same date as the certification in sub-subparagraph 1.a., the Department of Revenue shall certify to

692180

the Commissioner of Education for each district:

a. Each year for which the property appraiser has certified the taxable value pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a.

b. For each year identified in sub-subparagraph a., the taxable value certified by the appraiser pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a. This is the certification that reflects all final administrative actions of the value adjustment board.

(14) QUALITY ASSURANCE GUARANTEE.—The Legislature may annually in the General Appropriations Act determine a percentage increase in funds per K-12 unweighted FTE as a minimum guarantee to each school district. The guarantee shall be calculated from prior year base funding per unweighted FTE student which shall include the adjusted FTE dollars as provided in subsection (19) ~~(16)~~, quality guarantee funds, and actual nonvoted discretionary local effort from taxes. From the base funding per unweighted FTE, the increase shall be calculated for the current year. The current year funds from which the guarantee shall be determined shall include the adjusted FTE dollars as provided in subsection (19) ~~(16)~~ and potential nonvoted discretionary local effort from taxes. A comparison of current year funds per unweighted FTE to prior year funds per unweighted FTE shall be computed. For those school districts which have less than the legislatively assigned percentage increase, funds shall be provided to guarantee the assigned percentage increase in funds per unweighted FTE student. Should

692180

appropriated funds be less than the sum of this calculated amount for all districts, the commissioner shall prorate each district's allocation. This provision shall be implemented to the extent specifically funded.

(16) HOPE SUPPLEMENTAL SERVICES ALLOCATION.-The hope supplemental services allocation is created to provide district-managed turnaround schools, as required under s. 1008.33(4)(a), charter schools authorized under s. 1008.33(4)(b)2., district-managed charter schools authorized under s. 1008.33(4)(b)3.a., schools of hope authorized under s. 1008.33(4)(b)3.b., and franchise model schools as authorized under s. 1008.33(4)(b)4., with funds to offer services designed to improve the overall academic and community welfare of the schools' students and their families.

(a) Services funded by the allocation may include, but are not limited to, tutorial and after-school programs, student counseling, nutrition education, and parental counseling. In addition, services may also include models that develop a culture that encourages students to complete high school and to attend college or career training, set high academic expectations, inspire character development, and include an extended school day and school year.

(b) Prior to distribution of the allocation, a school district, for a district turnaround school and persistently low-performing schools that use a franchise model; a hope operator, for a school of hope; or the charter school governing board for a charter school, as applicable, shall develop and submit a plan for implementation to its respective governing body for approval no later than August 1 of the fiscal year.

692180

(c) At a minimum, the plans required under paragraph (b) must:

1. Establish comprehensive support services that develop family and community partnerships;

2. Establish clearly defined and measurable high academic and character standards;

3. Increase parental involvement and engagement in the child's education;

4. Describe how instructional personnel will be identified, recruited, retained, and rewarded;

5. Provide professional development that focuses on academic rigor, direct instruction, and creating high academic and character standards; and

6. Provide focused instruction to improve student academic proficiency, which may include additional instruction time beyond the normal school day or school year.

(d) Each school district and hope operator shall submit approved plans to the commissioner by September 1 of each fiscal year.

(e) For the 2018-2019 fiscal year, a school that is selected to receive funding in the 2017-2018 fiscal year pursuant to s. 1002.333(10)(c) shall receive $2,000 per FTE. A district-managed turnaround school required under s. 1008.33(4)(a), charter school authorized under s. 1008.33(4)(b)2., district-managed charter school authorized under s. 1008.33(4)(b)3.a., school of hope authorized under s. 1008.33(4)(b)3.b., and franchise model school authorized under s. 1008.33(4)(b)4. are eligible for the remaining funds based on the school's unweighted FTE, up to $2,000 per FTE or as provided

692180

in the General Appropriations Act.

(f) For the 2019-2020 fiscal year and thereafter, each school district's allocation shall be based on the unweighted FTE student enrollment at the eligible schools and a per-FTE funding amount of up to $2,000 per FTE or as provided in the General Appropriations Act. If the calculated funds for unweighted FTE student enrollment at the eligible schools exceed the per-FTE funds appropriated, the allocation of funds to each school district must be prorated based on each school district's share of the total unweighted FTE student enrollment for the eligible schools.

(17) MENTAL HEALTH ASSISTANCE ALLOCATION.—The mental health assistance allocation is created to provide funding to assist school districts and charter schools in their compliance with the requirements and specifications established in s. 1006.05. These funds must be allocated annually in the General Appropriations Act to each eligible school district and developmental research school based on each entity's proportionate share of Florida Education Finance Program base funding. The district funding allocation must include a minimum amount, as provided in the General Appropriations Act. Eligible charter schools are entitled to a proportionate share of district funding for the program. The allocated funds may not supplant funds that are provided for this purpose from other operating funds and may not be used to increase salaries or provide bonuses, except for personnel hired to implement the plans required by s. 1006.05. School districts and schools must maximize third-party funding from Medicaid and private insurance when appropriate.

692180

(18) FUNDING COMPRESSION ALLOCATION.—The Legislature may provide an annual funding compression allocation in the General Appropriations Act. The allocation is created to provide additional funding to school districts and developmental research schools whose total funds per FTE in the prior year were less than the statewide average. Using the most recent prior year FEFP calculation for each eligible school district, the total funds per FTE shall be subtracted from the state average funds per FTE, not including any adjustments made pursuant to paragraph (19)(b). The resulting funds per FTE difference, or a portion thereof, as designated in the General Appropriations Act, shall then be multiplied by the school district's total unweighted FTE to provide the allocation. If the calculated funds are greater than the amount included in the General Appropriations Act, they must be prorated to the appropriation amount based on each participating school district's share.

1013.62 Charter schools capital outlay funding.—

(1) Charter school capital outlay funding shall consist of revenue resulting from the discretionary millage authorized in s. 1011.71(2) and state funds when such funds are appropriated in the General Appropriations Act.

(c) It is the intent of the Legislature that the public interest be protected by prohibiting personal financial enrichment by owners, operators, managers, real estate developers, and other affiliated parties of charter schools. Therefore, a charter school is not eligible for a funding allocation unless the chair of the governing board and the chief administrative officer of the charter school annually certify under oath that the funds will be used solely and exclusively for constructing, renovating, or improving charter school facilities that are:

1. Owned by a school district, a political subdivision of

692180

the state, a municipality, a Florida College System institution, or a state university;

2. Owned by an organization that is qualified as an exempt organization under s. 501(c)(3) of the Internal Revenue Code whose articles of incorporation specify that, upon the organization's dissolution, the subject property will be transferred to a school district, a political subdivision of the state, a municipality, a Florida College System institution, or a state university; or

3. Owned by and leased, at a fair market value in the school district in which the charter school is located, from a person or entity that is not an affiliated party of the charter school. For the purposes of this subparagraph, the term "affiliated party of the charter school" means the applicant for the charter school pursuant to s. 1002.33; the governing board of the charter school or a member of the governing board; the charter school owner; the charter school principal; an employee of the charter school; an independent contractor of the charter school or the governing board of the charter school; a relative, as defined in s. 1002.33(24)(a)2., of a charter school governing board member, a charter school owner, a charter school principal, a charter school employee, or an independent contractor of a charter school or charter school governing board; a subsidiary corporation, a service corporation, an affiliated corporation, a parent corporation, a limited liability company, a limited partnership, a trust, a partnership, or a related party that, individually or through one or more entities, shares common ownership or control and directly or indirectly manages, administers, controls, or

692180

oversees the operation of the charter school; or any person or entity, individually or through one or more entities that share common ownership, which directly or indirectly manages, administers, controls, or oversees the operation of any of the foregoing.

(3) If the school board levies the discretionary millage authorized in s. 1011.71(2), the department shall use the following calculation methodology to determine the amount of revenue that a school district must distribute to each eligible charter school:

(a) Reduce the total discretionary millage revenue by the school district's annual debt service obligation incurred as of March 1, 2017, and any amount of participation requirement pursuant to s. 1013.64(2)(a)8. that is being satisfied by revenues raised by the discretionary millage.

(b) Divide the school district's adjusted discretionary millage revenue by the district's total capital outlay full-time equivalent membership and the total number of unweighted full-time equivalent students of each eligible charter school to determine a capital outlay allocation per full-time equivalent student.

(c) Multiply the capital outlay allocation per full-time equivalent student by the total number of full-time equivalent students for all ~~of each~~ eligible charter schools within the district ~~school~~ to determine the total charter school capital outlay allocation for each district ~~charter school~~.

(d) If applicable, reduce the capital outlay allocation identified in paragraph (c) by the total amount of state funds allocated pursuant to subsection (2) to all ~~each~~ eligible

692180

charter schools within a district ~~school in subsection (2)~~ to determine the net total ~~maximum~~ calculated capital outlay allocation from local funds. If state funds are not allocated pursuant to subsection (2), the amount determined in paragraph (c) is equal to the net total calculated capital outlay allocation from local funds for each district.

(e) For each charter school within each district, the net capital outlay amount from local funds shall be calculated in the same manner as the state funds in paragraphs (2)(a)-(d), except that the base charter school per weighted FTE allocation amount shall be determined by dividing the net total capital outlay amount from local funds by the total weighted FTE for all eligible charter schools within the district. The per weighted FTE allocation amount from local funds shall be multiplied by the weighted FTE for each charter school to determine each charter school's capital outlay allocation from local funds.

(f) ~~(e)~~ School districts shall distribute capital outlay funds to charter schools no later than February 1 of each year~~, beginning on February 1, 2018, for the 2017-2018 fiscal year~~.
