BILL:	PCS/CS/SB 1144 (175328)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Finance and Tax); Community Affairs Committee; and Senator Perry
SUBJECT:	Permit Fees
DATE:	February 26, 2018 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Present	Yeatman	CA	**Fav/CS**
2.	Gross	Diez-Arguelles	AFT	**Recommend: Fav/CS**
3.	Gross	Hansen	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 1144 requires the governing body of a local government to post its building permit and inspection fee schedules on its website. The bill also requires that before December 31, 2019, the governing body of a local government must publish its building permit and inspection utilization report on its website. After December 31, 2019, a local government must update the report prior to amending its building permit and inspection fee schedule. The report must use the most recently completed financial audit.

The bill does not affect state revenues or expenditures. Municipalities and counties may incur costs related to the implementation of this act.

The bill takes effect July 1, 2018.

II. Present Situation:

Florida Building Codes Act

Part IV of chapter 553, F.S., is known as the "Florida Building Codes Act." The purpose and intent of the Florida Building Codes Act is to provide a mechanism for the uniform adoption, updating, interpretation, and enforcement of a single, unified state building code. The Florida Building Code must be applied, administered, and enforced uniformly and consistently from

jurisdiction to jurisdiction. It is the intent of the Legislature that local governments have the power to inspect all buildings, structures, and facilities within their jurisdictions in protection of the public's health, safety, and welfare.[1]

Enforcement of the Florida Building Code

The board of county commissioners of each county is authorized to enforce the Building Code and issue building permits.[2] It is unlawful for a person, firm, or corporation to construct, erect, alter, repair, secure, or demolish any building without first obtaining a permit and paying reasonable fees as set forth in a schedule of fees adopted by the board.[3]

The board of county commissioners of each county and the governing body of a municipality are authorized to provide a schedule of reasonable inspection fees in order to defer the costs of inspection and enforcement of the Building Code.[4] A county that issues building permits must post each type of building permit application on its website.[5] Completed applications must be submitted electronically to the county or local enforcement agency building department, which must provide accepted methods of electronic submission.[6] However, payments, attachments, or drawings required as part of the permit application may be submitted in person in a nonelectronic format, at the discretion of the building official.[7]

Local Government Fees

It is unlawful for any person, firm, corporation, or governmental entity to construct, erect, alter, modify, repair, or demolish any building without first obtaining a permit from the appropriate enforcing agency or from such persons delegated the authority to issue permits, upon the payment of reasonable fees adopted by the enforcing agency.[8]

Except for construction regarding correctional and mental health facilities, elevators, storage facilities, educational institutions, and toll collection facilities, each local government and each legally constituted enforcement district with statutory authority must regulate building construction.[9] Local governments are authorized to provide a schedule of consistent reasonable fees to be used solely for carrying out the local government's responsibilities in enforcing the Florida Building Code.[10] The basis for the fee structure must relate to the level of service provided by the local government.[11] Fees charged must be consistently applied.[12]

---

[1] Section 553.72(1), F.S.
[2] Sections 125.56(1) and 125.01(1)(bb), F.S.
[3] Section 125.56(4)(a), F.S.
[4] Sections 125.56(2) and 166.222, F.S.
[5] Section 125.56(4)(b), F.S.
[6] *Id.*
[7] *Id.*
[8] Section 553.79(1), F.S.
[9] Section 553.80(1), F.S.
[10] The phrase "enforcing the Building Code" includes the direct costs and reasonable indirect costs associated with review of building plans, building inspections, reinspections, and building permit processing; building code enforcement; and fire inspections associated with new construction. *See* s. 553.80(7)(a), F.S.
[11] Section 553.80(7), F.S.
[12] *Id.*

Local enforcement agencies, independent special districts,[13] or dependent special districts[14] may not require additional fees, charges, or expenses for:

- Providing proof of licensure pursuant to ch. 489, F.S.;
- Recording or filing a license issued; and
- Providing, recording, or filing evidence of workers' compensation insurance coverage required by ch. 440, F.S.[15]

A "local enforcement agency" means the agency of local government, a local school board, a community college board of trustees, or a university board of trustees in the State University System with jurisdiction to make inspections of buildings and to enforce the codes which establish standards for the design, construction, erection, alteration, repair, modification, or demolition of public or private buildings, structures, or facilities.[16]

III. Effect of Proposed Changes:

Section 1 amends s. 125.56, F.S., to require the governing body of a county authorized to issue fees under this section or s. 553.80, F.S., to post its building permit and inspection fee schedule and its building permit and inspection report required under s. 553.80(7), F.S., on its website.

Section 2 amends s. 166.222, F.S., to require the governing body of a municipality authorized to issue fees under s. 553.80, F.S., to post its building permit and inspection fee schedule and its building permit and inspection report required under s. 553.80(7), F.S., on its website.

Section 3 amends s. 553.80, F.S., to require the governing body of a local government to publish its building permit and inspection report on its website by December 31, 2019. After December 31, 2019, a local government must update the report prior to amending its building permit and inspection fee schedules. The report must use the most recently completed financial audit.

Additionally, the report must include:

- Direct and indirect costs incurred by the local government to enforce the Florida Building Code, including costs related to:
  - The review of building plans.
  - Building inspections.
  - Building reinspections.
  - Building permit processing.
  - Building code enforcement.

---

[13] Section 189.012(3), F.S., defines an "independent special district" as a special district that is not a dependent special district as defined in s. 189.012(2), F.S.

[14] A dependent special district has a governing board comprised of members, which are identical in membership to, or all appointed by, or removable at will by, the governing body of a single county or municipality. A dependent special district also includes a district that has a budget that requires approval through an affirmative vote or can be vetoed by the governing body of a single county or municipality. *See* s. 189.012(2), F.S. A "special district" is a unit of local government created for a particular purpose, with jurisdiction to operate within a limited geographic boundary. *See 2017-2018 Local Gov't Formation Manual* at pg. 64, available at http://www.myfloridahouse.gov/Sections/Committees/committeesdetail.aspx?CommitteeId=2911.

[15] Section 553.80(7)(d), F.S.

[16] Section 553.71(5), F.S.

- Number of building permits requested.
- Number of building permits issued.
- Number of building inspections and reinspections conducted.
- Number of personnel employed by the local government to enforce the Florida Building Code, issue building permits, and conduct inspections.
- Salary and related employee benefit costs incurred by the local government to enforce the Florida Building Code, issue building permits, and conduct inspections.
- Revenue derived from fees pursuant to this subsection.
- Revenue derived from fines pursuant to this subsection.
- When applicable, investment earnings derived from the local government's investment of revenue derived from fees and fines pursuant to this subsection.
- Balances carried forward by the local government pursuant to this subsection.
- Balances refunded by the local government pursuant to this subsection.

Section 4 provides an effective date of July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, s. 18(a), of the Florida Constitution provides that no county or municipality is bound by any general law that requires the expenditure of money unless the legislature determines that the law fulfills an important state interest and the bill is passed by a two-thirds vote of the membership of each house of the Legislature.

This bill requires local governments to revise their websites and post their permit and inspection fee schedules and their building permit and inspection utilization report on their websites, which may require expenditures. However, the mandates requirements do not apply to laws having an insignificant impact, which for Fiscal Year 2017-2018 is approximately $2.05 million or less.[17,18,19]

In so far as a county or municipality currently provides a schedule of reasonable permit and inspection fees on its website, the fiscal impact of this bill may be insignificant.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

---

[17] FLA. CONST. art. VII, s. 18(d).
[18] Based on the Demographic Estimating Conference's population estimate adopted on December 5, 2017. The conference packet is available at http://edr.state.fl.us/Content/conferences/population/ConferenceResults.pdf.
[19] An insignificant fiscal impact is the amount not greater than the average statewide population for the applicable fiscal year times $0.10. *See* Florida Senate Committee on Community Affairs, *Interim Report 2012-115: Insignificant Impact*, (Sept. 2011), available at http://www.flsenate.gov/PublishedContent/Session/2012/InterimReports/2012-115ca.pdf (last visited Dec. 19, 2017).

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Requiring a local government to post its permit and inspection fee schedules as well as a building permit and inspection utilization report on its website will help applicants for building permits assess the associated costs of the permit.

C. Government Sector Impact:

Local governments will be required to post permit and inspection fee schedules as well as a building permit and inspection utilization report on their websites. Some local governments that do not currently post documents on their websites may have to make an initial expenditure of funds to revise their existing website to include the ability to post permit and inspection fee schedules as well as a report on the local government's website.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 125.56, 166.222, and 553.80.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Finance and Tax on February 5, 2018:
The committee substitute:

- Removes the requirement that the building permit and inspection report, which must be posted on the local government's website, be accessible through a link.
- Clarifies that local governments must post on their websites the building and inspection utilization report by December 31, 2019.
- Clarifies that after December 31, 2019, any local government that intends to amend its schedule of fees shall first update its building permit and inspection utilization report.

- Requires local governments to use information available in the most recently completed financial audit as the basis for the building permit and inspection utilization report.
- Replaces the term "implement the Florida Building Code" with "enforce the Florida Building Code," which is consistent with current law.
- Removes "building fire inspections" as a requisite in the required report.

CS by Community Affairs Committee on January 16, 2018:

- Adds the permit and inspection fee schedule requirements to s. 166.222, F.S., so that the permit and inspection fee schedule requirements for municipalities are properly placed in the municipality chapter of the Florida Statutes.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

175328

576-02869-18

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Finance and Tax)

A bill to be entitled

An act relating to permit fees; amending ss. 125.56 and 166.222, F.S.; requiring the governing bodies of counties and municipalities to post their permit and inspection fee schedules and building permit and inspection utilization reports on their websites; amending s. 553.80, F.S.; requiring certain governing bodies of local governments to post their building permit and inspection utilization reports on their websites by a specified date; providing reporting requirements; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (c) is added to subsection (4) of section 125.56, Florida Statutes, to read:

125.56 Enforcement and amendment of the Florida Building Code and the Florida Fire Prevention Code; inspection fees; inspectors; etc.—

(4)

(c) The governing body of a county authorized under this section or s. 553.80 to issue fees shall post its permit and inspection fee schedules and its building permit and inspection utilization report required under s. 553.80(7) on its website.

Section 2. Section 166.222, Florida Statutes, is amended to read:

166.222 Building code inspection fees.—

175328

576-02869-18

(1) The governing body of a municipality may provide a schedule of reasonable inspection fees in order to defer the costs of inspection and enforcement of the provisions of its building code.

(2) The governing body of a municipality authorized under s. 553.80 to issue fees shall post its permit and inspection fee schedules and its building permit and inspection utilization report required under s. 553.80(7) on its website.

Section 3. Subsection (7) of section 553.80, Florida Statutes, is amended to read:

553.80 Enforcement.—

(7)(a) The governing bodies of local governments may provide a schedule of reasonable fees, as authorized by s. 125.56(2) or s. 166.222 and this section, for enforcing this part. These fees, and any fines or investment earnings related to the fees, shall be used solely for carrying out the local government's responsibilities in enforcing the Florida Building Code. When providing a schedule of reasonable fees, the total estimated annual revenue derived from fees, and the fines and investment earnings related to the fees, may not exceed the total estimated annual costs of allowable activities. Any unexpended balances shall be carried forward to future years for allowable activities or shall be refunded at the discretion of the local government. The basis for a fee structure for allowable activities shall relate to the level of service provided by the local government and shall include consideration for refunding fees due to reduced services based on services provided as prescribed by s. 553.791, but not provided by the local government. Fees charged shall be consistently applied.

1.~~(a)~~ As used in this subsection, the phrase "enforcing the Florida Building Code" includes the direct costs and reasonable indirect costs associated with review of building plans, building inspections, reinspections, and building permit processing; building code enforcement; and fire inspections associated with new construction. The phrase may also include training costs associated with the enforcement of the Florida Building Code and enforcement action pertaining to unlicensed contractor activity to the extent not funded by other user fees.

2.~~(b)~~ The following activities may not be funded with fees adopted for enforcing the Florida Building Code:

a.~~1.~~ Planning and zoning or other general government activities.

b.~~2.~~ Inspections of public buildings for a reduced fee or no fee.

c.~~3.~~ Public information requests, community functions, boards, and any program not directly related to enforcement of the Florida Building Code.

d.~~4.~~ Enforcement and implementation of any other local ordinance, excluding validly adopted local amendments to the Florida Building Code and excluding any local ordinance directly related to enforcing the Florida Building Code as defined in subparagraph 1 ~~paragraph (a)~~.

3.~~(c)~~ A local government shall use recognized management, accounting, and oversight practices to ensure that fees, fines, and investment earnings generated under this subsection are maintained and allocated or used solely for the purposes described in subparagraph 1 ~~paragraph (a)~~.

4.~~(d)~~ The local enforcement agency, independent district,

or special district may not require at any time, including at the time of application for a permit, the payment of any additional fees, charges, or expenses associated with:

a.~~1.~~ Providing proof of licensure pursuant to chapter 489;

b.~~2.~~ Recording or filing a license issued pursuant to this chapter; or

c.~~3.~~ Providing, recording, or filing evidence of workers' compensation insurance coverage as required by chapter 440.

(b) By December 31, 2019, the governing body of a local government that provides a schedule of fees shall post its building permit and inspection utilization report on its website. The report shall be based on the information available in the most recently completed financial audit. After December 31, 2019, the governing body of a local government that provides a schedule of fees shall update its building permit and inspection utilization report on its website prior to making any adjustments to the fee schedule. The report shall include:

1. Direct and indirect costs incurred by the local government to enforce the Florida Building Code, including costs related to:

a. The review of building plans.

b. Building inspections.

c. Building reinspections.

d. Building permit processing.

e. Building code enforcement.

2. Number of building permits requested.

3. Number of building permits issued.

4. Number of building inspections and reinspections conducted.

5. Number of personnel employed by the local government to enforce the Florida Building Code, issue building permits, and conduct inspections.

6. Salary and related employee benefit costs incurred by the local government to enforce the Florida Building Code, issue building permits, and conduct inspections.

7. Revenue derived from fees pursuant to paragraph (a).

8. Revenue derived from fines pursuant to paragraph (a).

9. When applicable, investment earnings derived from the local government's investment of revenue derived from fees and fines pursuant to paragraph (a).

10. Balances carried forward by the local government pursuant to paragraph (a).

11. Balances refunded by the local government pursuant to paragraph (a).

Section 4. This act shall take effect July 1, 2018.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

3.	Gross	Hansen	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1144 requires the governing body of a local government to post its building permit and inspection fee schedules on its website. The bill also requires that before December 31, 2019, the governing body of a local government must publish its building permit and inspection utilization report on its website. After December 31, 2019, a local government must update the report prior to amending its building permit and inspection fee schedule. The report must use the most recently completed financial audit.

The bill does not affect state revenues or expenditures. Municipalities and counties may incur costs related to the implementation of this act.

The bill takes effect July 1, 2018.

II. Present Situation:

Florida Building Codes Act

Part IV of chapter 553, F.S., is known as the "Florida Building Codes Act." The purpose and intent of the Florida Building Codes Act is to provide a mechanism for the uniform adoption, updating, interpretation, and enforcement of a single, unified state building code. The Florida Building Code must be applied, administered, and enforced uniformly and consistently from

jurisdiction to jurisdiction. It is the intent of the Legislature that local governments have the power to inspect all buildings, structures, and facilities within their jurisdictions in protection of the public's health, safety, and welfare.[1]

Enforcement of the Florida Building Code

The board of county commissioners of each county is authorized to enforce the Building Code and issue building permits.[2] It is unlawful for a person, firm, or corporation to construct, erect, alter, repair, secure, or demolish any building without first obtaining a permit and paying reasonable fees as set forth in a schedule of fees adopted by the board.[3]

The board of county commissioners of each county and the governing body of a municipality are authorized to provide a schedule of reasonable inspection fees in order to defer the costs of inspection and enforcement of the Building Code.[4] A county that issues building permits must post each type of building permit application on its website.[5] Completed applications must be submitted electronically to the county or local enforcement agency building department, which must provide accepted methods of electronic submission.[6] However, payments, attachments, or drawings required as part of the permit application may be submitted in person in a nonelectronic format, at the discretion of the building official.[7]

Local Government Fees

It is unlawful for any person, firm, corporation, or governmental entity to construct, erect, alter, modify, repair, or demolish any building without first obtaining a permit from the appropriate enforcing agency or from such persons delegated the authority to issue permits, upon the payment of reasonable fees adopted by the enforcing agency.[8]

Except for construction regarding correctional and mental health facilities, elevators, storage facilities, educational institutions, and toll collection facilities, each local government and each legally constituted enforcement district with statutory authority must regulate building construction.[9] Local governments are authorized to provide a schedule of consistent reasonable fees to be used solely for carrying out the local government's responsibilities in enforcing the Florida Building Code.[10] The basis for the fee structure must relate to the level of service provided by the local government.[11] Fees charged must be consistently applied.[12]

---

[1] Section 553.72(1), F.S.
[2] Sections 125.56(1) and 125.01(1)(bb), F.S.
[3] Section 125.56(4)(a), F.S.
[4] Sections 125.56(2) and 166.222, F.S.
[5] Section 125.56(4)(b), F.S.
[6] *Id.*
[7] *Id.*
[8] Section 553.79(1), F.S.
[9] Section 553.80(1), F.S.
[10] The phrase "enforcing the Building Code" includes the direct costs and reasonable indirect costs associated with review of building plans, building inspections, reinspections, and building permit processing; building code enforcement; and fire inspections associated with new construction. *See* s. 553.80(7)(a), F.S.
[11] Section 553.80(7), F.S.
[12] *Id.*

Local enforcement agencies, independent special districts,[13] or dependent special districts[14] may not require additional fees, charges, or expenses for:

- Providing proof of licensure pursuant to ch. 489, F.S.;
- Recording or filing a license issued; and
- Providing, recording, or filing evidence of workers' compensation insurance coverage required by ch. 440, F.S.[15]

A "local enforcement agency" means the agency of local government, a local school board, a community college board of trustees, or a university board of trustees in the State University System with jurisdiction to make inspections of buildings and to enforce the codes which establish standards for the design, construction, erection, alteration, repair, modification, or demolition of public or private buildings, structures, or facilities.[16]

III. Effect of Proposed Changes:

Section 1 amends s. 125.56, F.S., to require the governing body of a county authorized to issue fees under this section or s. 553.80, F.S., to post its building permit and inspection fee schedule and its building permit and inspection report required under s. 553.80(7), F.S., on its website.

Section 2 amends s. 166.222, F.S., to require the governing body of a municipality authorized to issue fees under s. 553.80, F.S., to post its building permit and inspection fee schedule and its building permit and inspection report required under s. 553.80(7), F.S., on its website.

Section 3 amends s. 553.80, F.S., to require the governing body of a local government to publish its building permit and inspection report on its website by December 31, 2019. After December 31, 2019, a local government must update the report prior to amending its building permit and inspection fee schedules. The report must use the most recently completed financial audit.

Additionally, the report must include:

- Direct and indirect costs incurred by the local government to enforce the Florida Building Code, including costs related to:
  - The review of building plans.
  - Building inspections.
  - Building reinspections.
  - Building permit processing.
  - Building code enforcement.

---

[13] Section 189.012(3), F.S., defines an "independent special district" as a special district that is not a dependent special district as defined in s. 189.012(2), F.S.

[14] A dependent special district has a governing board comprised of members, which are identical in membership to, or all appointed by, or removable at will by, the governing body of a single county or municipality. A dependent special district also includes a district that has a budget that requires approval through an affirmative vote or can be vetoed by the governing body of a single county or municipality. *See* s. 189.012(2), F.S. A "special district" is a unit of local government created for a particular purpose, with jurisdiction to operate within a limited geographic boundary. *See 2017-2018 Local Gov't Formation Manual* at pg. 64, available at http://www.myfloridahouse.gov/Sections/Committees/committeesdetail.aspx?CommitteeId=2911.

[15] Section 553.80(7)(d), F.S.

[16] Section 553.71(5), F.S.

- Number of building permits requested.
- Number of building permits issued.
- Number of building inspections and reinspections conducted.
- Number of personnel employed by the local government to enforce the Florida Building Code, issue building permits, and conduct inspections.
- Salary and related employee benefit costs incurred by the local government to enforce the Florida Building Code, issue building permits, and conduct inspections.
- Revenue derived from fees pursuant to this subsection.
- Revenue derived from fines pursuant to this subsection.
- When applicable, investment earnings derived from the local government's investment of revenue derived from fees and fines pursuant to this subsection.
- Balances carried forward by the local government pursuant to this subsection.
- Balances refunded by the local government pursuant to this subsection.

Section 4 provides an effective date of July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, s. 18(a), of the Florida Constitution provides that no county or municipality is bound by any general law that requires the expenditure of money unless the legislature determines that the law fulfills an important state interest and the bill is passed by a two-thirds vote of the membership of each house of the Legislature.

This bill requires local governments to revise their websites and post their permit and inspection fee schedules and their building permit and inspection utilization report on their websites, which may require expenditures. However, the mandates requirements do not apply to laws having an insignificant impact, which for Fiscal Year 2017-2018 is approximately $2.05 million or less.[17,18,19]

In so far as a county or municipality currently provides a schedule of reasonable permit and inspection fees on its website, the fiscal impact of this bill may be insignificant.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

---

[17] FLA. CONST. art. VII, s. 18(d).
[18] Based on the Demographic Estimating Conference's population estimate adopted on December 5, 2017. The conference packet is available at http://edr.state.fl.us/Content/conferences/population/ConferenceResults.pdf.
[19] An insignificant fiscal impact is the amount not greater than the average statewide population for the applicable fiscal year times $0.10. *See* Florida Senate Committee on Community Affairs, *Interim Report 2012-115: Insignificant Impact*, (Sept. 2011), available at http://www.flsenate.gov/PublishedContent/Session/2012/InterimReports/2012-115ca.pdf (last visited Dec. 19, 2017).

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Requiring a local government to post its permit and inspection fee schedules as well as a building permit and inspection utilization report on its website will help applicants for building permits assess the associated costs of the permit.

C. Government Sector Impact:

Local governments will be required to post permit and inspection fee schedules as well as a building permit and inspection utilization report on their websites. Some local governments that do not currently post documents on their websites may have to make an initial expenditure of funds to revise their existing website to include the ability to post permit and inspection fee schedules as well as a report on the local government's website.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 125.56, 166.222, and 553.80.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on February 27, 2018:
The committee substitute:

- Removes the requirement that the building permit and inspection report, which must be posted on the local government's website, be accessible through a link.
- Clarifies that local governments must post on their websites the building and inspection utilization report by December 31, 2019.
- Clarifies that after December 31, 2019, any local government that intends to amend its schedule of fees shall first update its building permit and inspection utilization report.

- Requires local governments to use information available in the most recently completed financial audit as the basis for the building permit and inspection utilization report.
- Replaces the term "implement the Florida Building Code" with "enforce the Florida Building Code," which is consistent with current law.
- Removes "building fire inspections" as a requisite in the required report.

CS by Community Affairs Committee on January 16, 2018:

- Adds the permit and inspection fee schedule requirements to s. 166.222, F.S., so that the permit and inspection fee schedule requirements for municipalities are properly placed in the municipality chapter of the Florida Statutes.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

578-02145-18 20181144c1

A bill to be entitled

An act relating to permit fees; amending s. 125.56, F.S.; requiring the governing body of certain counties to post its permit and inspection fee schedules and a link to the annual building permit and inspection report on its website; amending s. 166.222, F.S.; requiring the governing body of a municipality to post its permit and inspection fee schedules and a link to the annual building permit and inspection report on its website; amending s. 553.80, F.S.; requiring the governing body of a local government, before making any adjustment to a fee schedule, to publish a building permit and inspection report and post it on the local government's website; requiring the report to be updated annually on such website and be easily accessible to the public; requiring the report to include specified information; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (c) is added to subsection (4) of section 125.56, Florida Statutes, to read:

125.56 Enforcement and amendment of the Florida Building Code and the Florida Fire Prevention Code; inspection fees; inspectors; etc.—

(4)

(c) The governing body of a county authorized under this section or s. 553.80 to issue fees shall post its permit fee and

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

578-02145-18 20181144c1

inspection fee schedule on its website with a link to the building permit and inspection report required under s. 553.80(7).

Section 2. Section 166.222, Florida Statutes, is amended to read:

166.222 Building code inspection fees.—

(1) The governing body of a municipality may provide a schedule of reasonable inspection fees in order to defer the costs of inspection and enforcement of the provisions of its building code.

(2) The governing body of a municipality authorized under s. 553.80 to issue fees shall post its permit and inspection fee schedules on its website with a link to the building permit and inspection report required under s. 553.80(7).

Section 3. Subsection (7) of section 553.80, Florida Statutes, is amended to read:

553.80 Enforcement.—

(7)(a) The governing bodies of local governments may provide a schedule of reasonable fees, as authorized by s. 125.56(2) or s. 166.222 and this section, for enforcing this part. These fees, and any fines or investment earnings related to the fees, shall be used solely for carrying out the local government's responsibilities in enforcing the Florida Building Code. When providing a schedule of reasonable fees, the total estimated annual revenue derived from fees, and the fines and investment earnings related to the fees, may not exceed the total estimated annual costs of allowable activities. Any unexpended balances shall be carried forward to future years for allowable activities or shall be refunded at the discretion of

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

the local government. The basis for a fee structure for allowable activities shall relate to the level of service provided by the local government and shall include consideration for refunding fees due to reduced services based on services provided as prescribed by s. 553.791, but not provided by the local government. Fees charged shall be consistently applied.

1.~~(a)~~ As used in this subsection, the phrase "enforcing the Florida Building Code" includes the direct costs and reasonable indirect costs associated with review of building plans, building inspections, reinspections, and building permit processing; building code enforcement; and fire inspections associated with new construction. The phrase may also include training costs associated with the enforcement of the Florida Building Code and enforcement action pertaining to unlicensed contractor activity to the extent not funded by other user fees.

2.~~(b)~~ The following activities may not be funded with fees adopted for enforcing the Florida Building Code:

a.~~1.~~ Planning and zoning or other general government activities.

b.~~2.~~ Inspections of public buildings for a reduced fee or no fee.

c.~~3.~~ Public information requests, community functions, boards, and any program not directly related to enforcement of the Florida Building Code.

d.~~4.~~ Enforcement and implementation of any other local ordinance, excluding validly adopted local amendments to the Florida Building Code and excluding any local ordinance directly related to enforcing the Florida Building Code as defined in subparagraph 1 ~~paragraph (a)~~.

3.~~(c)~~ A local government shall use recognized management, accounting, and oversight practices to ensure that fees, fines, and investment earnings generated under this subsection are maintained and allocated or used solely for the purposes described in subparagraph 1 ~~paragraph (a)~~.

4.~~(d)~~ The local enforcement agency, independent district, or special district may not require at any time, including at the time of application for a permit, the payment of any additional fees, charges, or expenses associated with:

a.~~1.~~ Providing proof of licensure pursuant to chapter 489;

b.~~2.~~ Recording or filing a license issued pursuant to this chapter; or

c.~~3.~~ Providing, recording, or filing evidence of workers' compensation insurance coverage as required by chapter 440.

(b) Before making any adjustment to a fee schedule, the governing body of a local government shall publish a building permit and inspection report and post it on the local government's website. The report must be updated annually on such website and be easily accessible to the public. The report must include:

1. Direct and indirect costs incurred by the local government to implement the Florida Building Code, including costs related to the review of:

a. Building plans.

b. Building inspections.

c. Building reinspections.

d. Building permit processing.

e. Building code enforcement.

f. Building fire inspections.

2. Number of building permits requested.

3. Number of building permits issued.

4. Number of building inspections and reinspections conducted.

5. Number of personnel employed by the local government to implement the Florida Building Code, issue building permits, and conduct inspections.

6. Salary and related employee benefit costs incurred by the local government to implement the Florida Building Code, issue building permits, and conduct inspections.

7. Revenue derived from fees pursuant to this subsection.

8. Revenue derived from fines pursuant to this subsection.

9. Investment earnings derived from the local government's investment of revenue derived from fees and fines pursuant to this subsection.

10. Balances carried forward by the local government pursuant to this subsection.

11. Balances refunded by the local government pursuant to this subsection.

Section 4. This act shall take effect July 1, 2018.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/SB 1156 (522090)
INTRODUCER:	Appropriations Subcommittee on Higher Education and Senator Perry
SUBJECT:	Missing Persons with Special Needs
DATE:	February 26, 2018 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Olenick	Graf	ED	**Favorable**
2.	Sikes	Elwell	AHE	**Recommend: Fav/CS**
3.	Sikes	Hansen	AP	**Pre-meeting**

I. Summary:

PCS/SB 1156 expands "Project Leo" statewide to all Centers for Autism and Related Disabilities (CARD) to aid search-and-rescue efforts for persons with special needs in case of elopement. Additionally, the bill:

- Makes each CARD program responsible for developing eligibility criteria for the selection of participants based on the specific needs of that program's service area counties.
- Removes obsolete reporting requirements related to program implementation and operation.
- Extends the project from June 30, 2018, to June 30, 2019.

The bill does not affect state revenues or expenditures. SB 2500, the Senate General Appropriations Bill for Fiscal Year 2018-2019, provides $9.4 million to the CARD programs statewide. By law, the project operates at each CARD program to the extent that funding is available within that program's existing resources.

The bill takes effect July 1, 2018.

II. Present Situation:

The Legislature has established supports to aid search-and-rescue efforts for persons with special needs.

Project Leo

In 2016, the Legislature created the "Project Leo" pilot project to provide personal devices to aid search-and-rescue efforts for persons with special needs in the case of elopement.[1]

[1] Chapter 2016-186, L.O.F.

Elopement, which means leaving an area without supervision or caregiver permission, is prevalent among persons with certain special needs and may expose them to dangerous situations.[2] Individuals with Alzheimer's disease or autism are two populations at higher risk to elope.[3]

The pilot is a collaboration between each Center for Autism and Related Disabilities (CARD)[4] at the University of Florida (UF)[5], Florida Atlantic University (FAU)[6], and the University of South Florida (USF).[7] Each pilot project provides personal devices to aid in search-and-rescue efforts for person with special needs in cases of elopement in their respective areas.[8] Participants are selected based on criteria developed by the three participating universities and must, at a minimum, consider the individuals risk of elopement.[9] For instance, both CARD UF and CARD USF require that the individual:[10]

- Reside in a county served by the university's CARD;
- Have documentation of a diagnosis of autism spectrum disorder or related disability;
- Be at risk of wandering; and
- Be under constant supervision and monitoring of a responsible adult, who can prevent wandering and can contact 911 in the event the individual is missing.

The number of participants is determined based on available funding within each center's existing resources, and participation in the project is voluntary and free of charge.[11] Participants are provided with a personal device to aid in search-and rescue efforts which is attachable to clothing or otherwise wearable.[12] The respective county sheriff's offices distribute the devices to

[3] AWAARE collaboration, *Autism & Wandering*, http://awaare.nationalautismassociation.org/autism-wandering / (last visited Jan. 18, 2018).
[4] There are seven non-residential CARD centers across the state. The Center for Autism and Related Disabilities (CARD) works with families, caregivers, and professionals to optimize the potential of people with autism and related disabilities. CARD serves children and adults of all levels of intellectual functioning who have autism, autistic-like disabilities, pervasive developmental disorder, dual sensory impairments (deaf-blindness), or a vision or hearing loss with another disabling condition. University of Florida, Center for Autism Related Disabilities, *About CARD FAQ*, http://card.ufl.edu/about-card/faq/ (last visited Jan. 18, 2018).
[5].The Center for Autism and Related Disabilities at the University of Florida (CARD UF) serves fourteen counties in North Central Florida. The counties served by CARD UF are Alachua, Bradford, Citrus, Columbia, Dixie, Gilchrist, Hamilton, Hernando, Lafayette, Levy, Marion, Putnam, Suwannee, and Union. Section 1004.55(1)(b), F.S.
[6] The counties served by CARD at Florida Atlantic University (CARD FAU) are Indian River, Martin, Okeechobee, Palm Beach, and St. Lucie. Section 1004.55(1)(g), F.S.
[7] The counties served by CARD at the University of South Florida (CARD USF) are Charlotte, Collier, DeSoto, Glades, Hardee, Hendry, Highlands, Hillsborough, Lee, Manatee, Pasco, Pinellas, Polk, and Sarasota Counties. Section. 1004.55(1)(d), F.S.
[8] Section 937.041, F.S.
[9] *Id.* at (1)(b).

[11] Section 937.041(2), F.S.
[12] *Id.* at (3).

the project participants.[13] CARD UF, CARD FAU, and CARD USF are tasked with funding any costs associated with monitoring the devices.[14]

Additionally, Project Leo requires CARD UF, CARD FAU, and CARD USF to submit a preliminary report by December 1, 2016, and final report by December 15, 2017, to the Governor, the Speaker of the House of Representatives, and the President of the Senate.[15] Both reports are required to include:[16]

- The criteria used to select the participants;
- The number of participants;
- The nature of the participants special needs;
- The number of participants who elope;
- The amount of time taken to rescue a participant following elopement; and
- The outcome of any rescue attempts.

The final report must include recommendations for modification or continued implementation of the program.[17]

Each of the three CARD programs received nonrecurring appropriation of $100,000 when the project was implemented in 2016.[18] The project's continued operation is subject to available funding within the existing resources of CARD UF, CARD FAU, and CARD USF.[19]

The project expires on June 30, 2018.[20]

III. Effect of Proposed Changes:

This bill expands "Project Leo" statewide to all Centers for Autism and Related Disabilities (CARD) to aid search-and-rescue efforts for persons with special needs in case of elopement. This expansion adds the CARD programs at Florida State University (FSU), the University of Central Florida (UCF), and the University of Miami to the project. Additionally, the bill:

- Makes each CARD program responsible for developing eligibility criteria for the selection of participants based on the specific needs of that program's service area counties.
- Removes obsolete reporting requirements related to program implementation and operation.
- Extends the project from June 30, 2018, to June 30, 2019.

The bill may expand access to supports for search-and-rescue efforts for individuals with special needs as more CARD programs throughout state may be able to take advantage of the program.

The bill takes effect July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The bill does not affect state revenues and no additional impact on state expenditures. SB 2500, the Senate General Appropriations Bill for Fiscal Year 2018-2019, provides $9.4 million to the CARD programs statewide. By law, the project operates at each CARD program to the extent that funding is available within that program's existing resources.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends section 937.041 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS by Appropriations Subcommittee on Higher Education on February 8, 2018:

The committee substitute expands "Project Leo" to all CARD programs statewide and makes each CARD program responsible for developing eligibility criteria for the selection of participants based on the specific needs of that program's service area counties.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

551402

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
02/28/2018	.	
	.	
	.	
	.	

The Committee on Appropriations (Perry) recommended the following:

Senate Amendment (with title amendment)

Before line 15
insert:
Section 1. Section 683.231, Florida Statutes, is amended to read:
683.231 Citizen support organization for Florida Missing Children's Day.—
(1) The Department of Law Enforcement may establish a citizen support organization to provide assistance, funding, and

promotional support for activities authorized for Florida Missing Children's Day under s. 683.23.

(2) As used in this section, the term "citizen support organization" means an organization that is:

(a) A Florida corporation not for profit incorporated under chapter 617 and approved by the Department of State.

(b) Organized and operated to conduct programs and activities; raise funds; request and receive grants, gifts, and bequests of money; acquire, receive, hold, invest, and administer, in its own name, securities, funds, objects of value, or other property, either real or personal; and make expenditures to or for the direct or indirect benefit of the department in furtherance of Florida Missing Children's Day.

(3) The citizen support organization is not a registered lobbyist within the meaning of s. 11.045.

(4) The citizen support organization is specifically authorized to collect and expend funds to be used for awards; public awareness and awards ceremonies, workshops, and other meetings, including distribution materials for public education and awareness; travel; Internet and web-hosting services; administrative costs, including personnel costs; costs of audits; and costs of facilities rental.

(5) The activities of the citizen support organization must be determined by the department to be consistent with the goals and mission of the department and in the best interests of the state and approved in writing by the department to operate for the direct or indirect benefit of the department. The approval shall be given in a letter of agreement from the department.

(6)(a) The department may fix and collect charges for the

551402

rental of facilities and properties managed by the department and may permit, without charge, appropriate use of administrative services, property, and facilities of the department by the citizen support organization, subject to this section. The use must be directly in keeping with the approved purposes of the citizen support organization and may not be made at times or places that would unreasonably interfere with opportunities for the public to use such facilities for established purposes. Any money received from rentals of facilities and properties managed by the department may be held in the Operating Trust Fund of the department or in a separate depository account in the name of the citizen support organization and subject to the provisions of the letter of agreement with the department. The letter of agreement must provide that any funds held in the separate depository account in the name of the citizen support organization must revert to the department if the citizen support organization is no longer approved by the department to operate in the best interests of the state.

(b) The department may adopt rules with which a citizen support organization must comply in order to use department administrative services, property, or facilities.

(c) The department may not authorize ~~permit~~ the use of any administrative services, property, or facilities of the state by a citizen support organization that does not provide equal membership and employment opportunities to all persons regardless of race, color, religion, gender, age, or national origin.

(7) The citizen support organization shall provide for an

551402

independent annual financial audit in accordance with s. 215.981. Copies of the audit shall be provided to the department, the Office of Policy and Budget in the Executive Office of the Governor, and the ~~Florida~~ Cabinet.

~~(8) This section is repealed October 1, 2018, unless reviewed and saved from repeal by the Legislature.~~

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

Delete lines 2 - 10

and insert:

An act relating to missing persons; amending s. 683.231, F.S.; abrogating the scheduled repeal of provisions relating to a citizen support organization for Florida Missing Children's Day; amending s. 937.041, F.S.; expanding a pilot project for missing persons with special needs from specified counties to statewide, through regional autism centers; requiring each center that opts to join the pilot project to distribute personal devices to aid search-and-rescue efforts; requiring that participants be selected based on criteria developed by the respective participating centers; revising the requirements for personal devices used in the pilot project; deleting a reporting requirement; delaying the scheduled repeal of the pilot project; conforming provisions to changes made by the act; providing an

522090

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Higher Education)

A bill to be entitled

An act relating to missing persons with special needs; amending s. 937.041, F.S.; expanding pilot projects for missing persons with special needs to the regional autism centers; requiring each center that opts to join the pilot project to distribute personal devices under certain circumstances; revising the requirements for personal devices used in the pilot project; conforming provisions to changes made by the act; deleting a reporting requirement; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 937.041, Florida Statutes, is amended to read:

937.041 Missing persons with special needs pilot project ~~projects~~.—

(1)~~(a)~~ There is created a statewide pilot project ~~in Alachua, Baker, Columbia, Hamilton, and Suwannee Counties~~, to be known as "Project Leo," through regional autism centers established under s. 1004.55. Each center that opts to join the pilot project shall distribute ~~to provide~~ personal devices to aid search-and-rescue efforts for persons with special needs in the case of elopement.

~~(b) There is created an additional pilot project in Palm Beach County to provide personal devices to aid search-and-rescue efforts for persons with special needs in the case of elopement.~~

~~(c) There is created an additional pilot project in Hillsborough County to provide personal devices to aid search-and-rescue efforts for persons with special needs in the case of elopement.~~

(2)~~(a)1.~~ Participants for the pilot project ~~specified in paragraph (1)(a)~~ shall be selected based on criteria developed by each participating center based on the specific needs of that center's service area counties prescribed under s. 1004.55 ~~the Center for Autism and Related Disabilities at the University of Florida~~.

~~2. Participants for the pilot project specified in paragraph (1)(b) shall be selected based on criteria developed by the Center for Autism and Related Disabilities at Florida Atlantic University.~~

~~3. Participants for the pilot project specified in paragraph (1)(c) shall be selected based on criteria developed by the Center for Autism and Related Disabilities at the University of South Florida.~~

~~(b)~~ Criteria for participation in the pilot project ~~projects~~ must include, at a minimum, the person's risk of elopement. The qualifying participants shall be selected on a first-come, first-served basis by the respective centers to the extent of available funding within their existing resources. The ~~Each~~ project must be voluntary and free of charge to participants.

(3) Under the ~~each~~ pilot project, personal devices to aid search-and-rescue efforts ~~which are attachable to clothing or~~

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 1156
INTRODUCER:	Appropriations Committee; (Recommend by Appropriations Subcommittee on Higher Education) and Senator Perry
SUBJECT:	Missing Persons with Special Needs
DATE:	March 1, 2018 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Olenick	Graf	ED	**Favorable**
2.	Sikes	Elwell	AHE	**Recommend: Fav/CS**
3.	Sikes	Hansen	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1156 expands "Project Leo" statewide to all Centers for Autism and Related Disabilities (CARD) to aid search-and-rescue efforts for persons with special needs in case of elopement. Additionally, the bill:

- Makes each CARD program responsible for developing eligibility criteria for the selection of participants based on the specific needs of that program's service area counties.
- Removes obsolete reporting requirements related to program implementation and operation.
- Extends the project from June 30, 2018, to June 30, 2019.

The bill removes the scheduled repeal of the citizen support organization for Florida Missing Children's Day.

The bill does not affect state revenues or expenditures. SB 2500, the Senate General Appropriations Bill for Fiscal Year 2018-2019, provides $9.4 million to the CARD programs statewide. By law, the project operates at each CARD program to the extent that funding is available within that program's existing resources.

The bill takes effect July 1, 2018.

II. Present Situation:

The Legislature has established supports to aid search-and-rescue efforts for persons with special needs.

Citizen Support Organizations

The Florida Department of Law Enforcement (FDLE) may establish a citizen support organization to provide assistance, funding, and promotional support for activities authorized for Florida Missing Children's Day.[1] A citizen support organization means an organization that is:[2]

- A Florida not-for-profit corporation incorporated under chapter 617 and approved by the Department of State;
- Organized and operated to conduct programs and activities; raise funds; request and receive grants, gifts, and bequests of money; acquire, receive, hold, invest, and administer, in its own name, securities, funds, objects of value, or other property, either real or personal; and make expenditures to or for the direct or indirect benefit of the department in furtherance of Florida Missing Children's Day;

The Florida Missing Children's Day Foundation (FMCDF) is the citizen support organization for Florida Missing Children's Day. FMCDF was formed in 2010 and is committed to financially supporting FDLE to ensure that Florida annually honors and recognizes victims, families, and first responders on Florida Missing Children's Day.[3]

The citizen support organization is scheduled to be repealed on October 1, 2018, unless reviewed and saved from repeal by the Legislature.[4]

Project Leo

In 2016, the Legislature created the "Project Leo" pilot project to provide personal devices to aid search-and-rescue efforts for persons with special needs in the case of elopement.[5]

Elopement, which means leaving an area without supervision or caregiver permission, is prevalent among persons with certain special needs and may expose them to dangerous situations.[6] Individuals with Alzheimer's disease or autism are two populations at higher risk to elope.[7]

---

[1] Section 683.231, F.S. The second Monday in September of each year is designated as "Florida Missing Children's Day" in remembrance of Florida's past and present missing children and in recognition of the state's continued efforts to protect the safety of children through prevention, education, and community involvement. The pilot is a collaboration between each Center for Autism and Related Disabilities (CARD)[8] at the University of Florida (UF)[9], Florida Atlantic University (FAU)[10], and the University of South Florida (USF).[11] Each pilot project provides personal devices to aid in search-and-rescue efforts for person with special needs in cases of elopement in their respective areas.[12] Participants are selected based on criteria developed by the three participating universities and must, at a minimum, consider the individuals risk of elopement.[13] For instance, both CARD UF and CARD USF require that the individual:[14]

- Reside in a county served by the university's CARD;
- Have documentation of a diagnosis of autism spectrum disorder or related disability;
- Be at risk of wandering; and
- Be under constant supervision and monitoring of a responsible adult, who can prevent wandering and can contact 911 in the event the individual is missing.

The number of participants is determined based on available funding within each center's existing resources, and participation in the project is voluntary and free of charge.[15] Participants are provided with a personal device to aid in search-and rescue efforts which is attachable to clothing or otherwise wearable.[16] The respective county sheriff's offices distribute the devices to the project participants.[17] CARD UF, CARD FAU, and CARD USF are tasked with funding any costs associated with monitoring the devices.[18]

Additionally, Project Leo requires CARD UF, CARD FAU, and CARD USF to submit a preliminary report by December 1, 2016, and final report by December 15, 2017, to the Governor, the Speaker of the House of Representatives, and the President of the Senate.[19] Both reports are required to include:[20]

- The criteria used to select the participants;

---

[8] There are seven non-residential CARD centers across the state. The Center for Autism and Related Disabilities (CARD) works with families, caregivers, and professionals to optimize the potential of people with autism and related disabilities. CARD serves children and adults of all levels of intellectual functioning who have autism, autistic-like disabilities, pervasive developmental disorder, dual sensory impairments (deaf-blindness), or a vision or hearing loss with another disabling condition. [20] *Id.*

- The number of participants;
- The nature of the participants special needs;
- The number of participants who elope;
- The amount of time taken to rescue a participant following elopement; and
- The outcome of any rescue attempts.

The final report must include recommendations for modification or continued implementation of the program.[21]

Each of the three CARD programs received nonrecurring appropriation of $100,000 when the project was implemented in 2016.[22] The project's continued operation is subject to available funding within the existing resources of CARD UF, CARD FAU, and CARD USF.[23]

The project expires on June 30, 2018.[24]

III. Effect of Proposed Changes:

Section 1 amends s. 683.231, F.S., to remove the scheduled repeal of the citizen support organization for Florida Missing Children's Day.

Section 2 amends s. 937.041, F.S., to expand "Project Leo" statewide to all Centers for Autism and Related Disabilities (CARD) to aid search-and-rescue efforts for persons with special needs in case of elopement. This expansion adds the CARD programs at Florida State University (FSU), the University of Central Florida (UCF), and the University of Miami to the project. Additionally, the bill:

- Makes each CARD program responsible for developing eligibility criteria for the selection of participants based on the specific needs of that program's service area counties.
- Removes obsolete reporting requirements related to program implementation and operation.
- Extends the project from June 30, 2018, to June 30, 2019.

Section 2 may expand access to supports for search-and-rescue efforts for individuals with special needs, as more CARD programs throughout state may be able to take advantage of the program.

The bill takes effect July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

[21] Section 937.041(4), F.S.
[22] Section 2, ch. 2016-186, L.O.F.
[23] Section 937.041(5), F.S.
[24] *Id.* at (6).

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The bill does not affect state revenues and no additional impact on state expenditures. SB 2500, the Senate General Appropriations Bill for Fiscal Year 2018-2019, provides $9.4 million to the CARD programs statewide. By law, the project operates at each CARD program to the extent that funding is available within that program's existing resources.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 683.231 and 937.014.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations on February 27, 2018:
The committee substitute

- Expands "Project Leo" to all CARD programs statewide and makes each CARD program responsible for developing eligibility criteria for the selection of participants based on the specific needs of that program's service area counties.

- Repeals the statutory sunset date for the citizen support organization for Florida Missing Children's Day by deleting the repeal date in the authorizing statute.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By Senator Perry

8-01454-18 20181156__

A bill to be entitled

An act relating to missing persons with special needs; amending s. 937.041, F.S.; expanding pilot projects for missing persons with special needs to all centers for autism and related disabilities at institutions in the State University System; conforming provisions to changes made by the act; deleting a reporting requirement; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 937.041, Florida Statutes, is amended to read:

937.041 Missing persons with special needs pilot project ~~projects~~.—

(1)~~(a)~~ There is created a statewide pilot project ~~in Alachua, Baker, Columbia, Hamilton, and Suwannee Counties~~, to be known as "Project Leo," through the centers for autism and related disabilities at institutions in the State University System to provide personal devices to aid search-and-rescue efforts for persons with special needs in the case of elopement.

~~(b) There is created an additional pilot project in Palm Beach County to provide personal devices to aid search-and-rescue efforts for persons with special needs in the case of elopement.~~

~~(c) There is created an additional pilot project in Hillsborough County to provide personal devices to aid search-and-rescue efforts for persons with special needs in the case of elopement.~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

8-01454-18 20181156__

(2)~~(a)1.~~ Participants for the pilot project ~~specified in paragraph (1)(a)~~ shall be selected based on criteria developed by the Center for Autism and Related Disabilities at the University of Florida.

~~2. Participants for the pilot project specified in paragraph (1)(b) shall be selected based on criteria developed by the Center for Autism and Related Disabilities at Florida Atlantic University.~~

~~3. Participants for the pilot project specified in paragraph (1)(c) shall be selected based on criteria developed by the Center for Autism and Related Disabilities at the University of South Florida.~~

~~(b)~~ Criteria for participation in the pilot project ~~projects~~ must include, at a minimum, the person's risk of elopement. The qualifying participants shall be selected on a first-come, first-served basis by the respective centers to the extent of available funding within their existing resources. The ~~Each~~ project must be voluntary and free of charge to participants.

(3) Under the ~~each~~ pilot project, personal devices to aid search-and-rescue efforts which are attachable to clothing or otherwise worn shall be provided by the respective center to the sheriff's offices of the participating counties. The devices shall be distributed to project participants by the county sheriff's offices in conjunction with the respective center. The respective center shall fund any costs associated with monitoring the devices.

~~(4) Each center shall submit a preliminary report by December 1, 2016, and a final report by December 15, 2017, to~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~the Governor, the President of the Senate, and the Speaker of the House of Representatives describing the implementation and operation of its pilot project. At a minimum, each report must include the criteria used to select participants, the number of participants, the nature of the participants' special needs, the number of participants who elope, the amount of time taken to rescue such participants following elopement, and the outcome of any rescue attempts. Each final report shall also provide recommendations for modification or continued implementation of the project.~~

(4) ~~(5)~~ The ~~Each~~ project shall operate to the extent of available funding within the respective center's existing resources.

(5) ~~(6)~~ This section expires June 30, 2019 ~~2018~~.

Section 2. This act shall take effect July 1, 2018.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 1244 amends provisions related to existing development of regional impact (DRI) development orders. The DRI program ended in 2015, but existing development orders continue to exist. The bill repeals provisions related to the state land planning agency's (Department of Economic Opportunity) role in the process and shifts the remaining responsibilities to local governments. Specifically, the bill:

- Repeals obsolete language for the application and review of DRIs;
- Changes the process for existing DRIs to amend a development order;
- Retains current statewide guidelines and standards for determining when a development is subject to state coordinated review;
- Updates reporting requirements;
- Preserves certain unexpired letters, development orders, and agreements;
- Ends all DRI appeals to the Administration Commission except decisions by local governments under the DRI abandonment process;
- Repeals state land planning agency rules related to DRIs and Administration Commission rules related to aggregation of developments for the purpose of DRI review; and
- Repeals the Florida Quality Developments (FQD) program and requires FQD development orders to be replaced by local government development orders.

The bill adds a requirement for an independent special district to commence a municipal conversion – that the independent special district has a minimum population, depending on the population of the county in which the district is located.

The Department of Economic Opportunity will incur less expenses related to the DRI process.

The bill is effective upon becoming law.

II. Present Situation:

Development of Regional Impact

A development of regional impact (DRI) is defined in s. 380.06, F.S., as "any development which, because of its character, magnitude, or location, would have a substantial effect upon the health, safety, or welfare of citizens of more than one county." The DRI program was initially created in 1972 as an interim program intended to be replaced by comprehensive planning and permitting programs. The DRI program provided a lengthy and complicated review process for proposed projects that was largely duplicated by the successor comprehensive planning review process.

Comprehensive planning was first required by law in 1975. However, the Growth Management Act of 1985 is considered the watershed law that brought truly modern planning requirements into force. In recognition of this fact, the Environmental Land Management Study Committee in 1992 recommended that the DRI program be eliminated and relegated to an enhanced version of the Intergovernmental Coordination Element (ICE) that is required to be included in local comprehensive plans.[1] After much controversy, this recommendation was not implemented, and the DRI program continued in its previous form.

In 2015, the Florida Legislature eliminated the requirement that new developments be reviewed pursuant to the DRI process. Instead, the Legislature directed that proposed developments only need to comply with the requirements of the State Coordinated Review Process for the review of local government comprehensive plan amendments.[2]

DRI Review

Before the program ended, all developments that met the DRI thresholds and standards provided by statute[3] and rules adopted by the Administration Commission[4] were required to undergo DRI review, unless the Legislature provided an exemption for that particular type of project or for the planning area in which the development was located (such as a sector plan or a rural land stewardship area) or unless the development was located within a "dense urban land area."[5] The types of developments required to undergo DRI review upon meeting the specified thresholds

[1] *See* Richard G. Rubino and Earl M. Starnes, *Lessons Learned? The History of Planning in Florida*. Tallahassee, FL: Sentry Press, 2008. ISBN 978-1-889574-31-8.

[3] Section 380.0651, F.S.
[4] Chapter 28-24, F.A.C.
[5] The criteria for qualification as a dense urban land area are contained in s. 380.06(29), F.S. Currently, eight counties and 243 cities qualify as dense urban land areas that are exempt from the DRI program.

and standards included attraction and recreation facilities, office developments, retail and service developments, mixed-use developments, residential developments, schools, and recreational vehicle developments.[6] Over the years, the Legislature enacted many exemptions and increased the thresholds that projects must have surpassed in order to trigger DRI review.

Florida's 11 regional planning councils (RPC) coordinated the multi-agency review of proposed DRIs. A DRI review began by a developer contacting the RPC with jurisdiction over a proposed development to arrange a pre-application conference.[7] The developer or the RPC could request other affected state and regional agencies participate in the conference to identify issues raised by the proposed project and the level of information that each agency would require in the application to assess those issues. At the pre-application conference, the RPC provided the developer with information about the DRI process and coordinated the identification of issues and the appropriate state and local agency requirements.

Upon completion of the pre-application conference with all parties, the developer filed an application for development approval with the local government, the RPC, and the state land planning agency (the Department of Economic Opportunity). The RPC reviewed the application for sufficiency and could request additional information (no more than twice, unless waived by the developer) if the application was deemed insufficient.[8]

When the RPC determined that the application was sufficient or the developer declined to provide additional information, the local government had to hold a public hearing on the application for development within 90 days.[9] Within 50 days after receiving notice of the public hearing, the RPC was required to prepare and submit to the local government a report and recommendations on the regional impact of the proposed development.[10] The RPC was required to identify regional issues specifically examining the extent to which:

- The development would have a favorable or unfavorable impact on state or regional resources or facilities identified in the applicable state (state comprehensive plan) or regional (strategic regional policy plan) plans;
- The development would significantly impact adjacent jurisdictions; and
- While reviewing the first two issues, the development would favorably or adversely affect the ability of people to find adequate housing reasonably accessible to their places of employment.[11]

If the proposed project would have impacts within the purview of other state agencies, those agencies would also prepare reports and recommendations on the issues raised by the project and within their statutorily-prescribed jurisdictions. These reports became part of the RPC's report, but the RPC could attach dissenting views.[12] When water management district (WMD) and Department of Environmental Protection (DEP) permits had been issued pursuant to ch. 373, F.S., or ch. 403, F.S., the RPC could comment on the regional implications of the permits but

[6] Section 380.0651, F.S.
[7] Section 380.06(7), F.S.
[8] Section 380.06(10), F.S.
[9] Section 380.06(11), F.S.
[10] Section 380.06(12), F.S.
[11] Section 380.06(12)(a), F.S.
[12] Section 380.06(12)(c), F.S.

could not offer conflicting recommendations.[13] Finally, the state land planning agency also reviewed DRIs for compliance with state laws, to identify regional and state impacts, and to make recommendations to local governments for approving, not approving, or suggesting mitigation conditions.[14]

At the local public hearing on the proposed DRI, concurrent comprehensive plan amendments associated with the proposed DRI had to be heard as well. When considering whether the development must be approved, denied, or approved subject to conditions, restrictions, or limitations, the local government considered the extent to which:

- The development was consistent with the local government's comprehensive plan and land development regulations;
- The development was consistent with the report and recommendations of the RPC; and
- The development was consistent with the state comprehensive plan.[15]

Within 30 days of the public hearing on the application for development approval, the local government had to decide whether to issue a development order or not.[16] Within 45 days after a development order was or was not rendered, the owner or developer of the property or the state land planning agency could appeal the order to the Governor and Cabinet, sitting as the Florida Land and Water Adjudicatory Commission.[17] An "aggrieved or adversely affected party" could appeal and challenge the consistency of a development order with the local comprehensive plan.[18]

Completion of this entire process could take one to two years and require the expenditure of significant resources, both on the part of private developers and state agencies.

Substantial Deviation[19]

After a development order was issued, any proposed change to a previously approved DRI development order that created a reasonable likelihood of additional regional impact or any type of regional impact created by the change not previously reviewed by the regional planning agency, constituted a "substantial deviation" and required such proposed change to be subject to further DRI review. The process to amend DRIs still applies to existing DRIs that received local government development orders prior to July 1, 2015, and that have not been abandoned or rescinded.[20] The statute sets forth criteria and situations to determine whether a proposed change requires further DRI review, including:

- Certain threshold criteria beyond which a change constitutes a substantial deviation;
- Certain changes in development that do not amount to a substantial deviation;
- Scenarios in which a substantial deviation is presumed; and
- Scenarios in which a change is presumed not to create a substantial deviation.

The DEO (state land planning agency) has adopted rules setting standard forms for submittal of proposed changes to a previously approved DRI development order. At a minimum, the form requires the developer to provide the precise language that the developer proposes to delete or add as an amendment to the development order. The developer must submit the form to the local government, the regional planning agency, and the DEO.

After the developer submits the form, the appropriate regional planning agency or the DEO reviews the proposed change. No later than 45 days after submittal of the form, the DEO advises the local government in writing whether the DEO objects to the proposed change, specifying the reasons for the objection if applicable, and provides a copy to the developer.

The local government schedules a public hearing with 15 days' notice to consider the change. This public hearing is held within 60 days after submittal of the proposed change, unless the developer requests to extend the time.

At the public hearing, the local government determines whether the proposed change requires further DRI review based on the thresholds and standards set out in law. The local government can deny the proposed change based on matters relating to local issues.

If the local government determines that the proposed change does not require further DRI review and is otherwise approved, the local government issues an amendment to the development order incorporating the approved change and conditions of approval relating to the change. If, however, the local government determines that proposed change requires further DRI review, the local government determines whether to approve, approve with conditions, or deny the proposed change as it related to the entire development.

DRI Exemptions

Over the years, the DRI program was amended to include a number of exemptions. The following list of exemptions is not exhaustive, but illustrates the number and variety of the exemptions from the DRI program that were enacted:[21]

- Certain projects that created at least 100 jobs that met certain qualifications – 1997;
- Certain expansions to port harbors, certain port transportation facilities, and certain intermodal transportation facilities – 1999;
- The thresholds used to identify projects subject to the program were increased by 150 percent for development in areas designated as rural areas of critical economic concern (now known as rural areas of opportunity) – 2001;
- Certain proposed facilities for the storage of any petroleum product or certain expansions of existing petroleum product storage facilities – 2002;
- Any renovation or redevelopment within the same land parcel which does not change land use or increase density or intensity of use – 2002;
- Certain water port or marina developments – 2002; and
- The establishment, relocation, or expansion of any military installation as defined in s. 163.3175, F.S. – 2005.

[21] Section 360.06(24), F.S.

In 2009, the Legislature enacted the most significant exemption from the DRI program: the exemption for Dense Urban Land Areas (DULAs).[22] In 2015, 8 counties and 243 cities qualified as DULAs. This meant that all projects within those counties and cities were exempted from the DRI program. The areas qualifying as DULAs accounted for more than half of Florida's population.[23]

Comprehensive Plans and the Comprehensive Plan Amendment Process

The Growth Management Act of 1985 required every city and county to create and implement a comprehensive plan to guide future development.[24] A locality's comprehensive plan lays out the locations for future public facilities, including roads, water and sewer facilities, neighborhoods, parks, schools, and commercial and industrial developments. Development that does not conform to the comprehensive plan may not be approved by a local government unless the local government first amends its comprehensive plan.

State law requires a proposed comprehensive plan amendment to receive three public hearings, the first held by the local planning board.[25] The local commission (city or county) must then hold an initial public hearing regarding the proposed amendment and subsequently transmit it to several statutorily identified reviewing agencies, including the Department of Economic Opportunity (DEO) (as the state land planning agency), the relevant RPC, and adjacent local governments that request to participate in the review process.[26]

The state and regional agencies review the proposed amendment for impacts related to their statutory purviews. The RPC reviews the amendment specifically for "extrajurisdictional impacts that would be inconsistent with the comprehensive plan of any affected local government within the region" as well as adverse effects on regional resources or facilities.[27] The DEO compiles reports from the various involved agencies and issues an Objections, Recommendation, and Comments Report, which consolidates the reports received.[28] Upon receipt of the consolidated report, the local government holds a second public hearing at which the governing body votes to approve the amendment or not. If the amendment receives a favorable vote it is transmitted to the DEO for final review.[29] The DEO then has either 31 days or 45 days (depending on the review process to which the amendment is subject) to determine whether the proposed comprehensive plan amendment is in compliance with all relevant agency rules and laws.[30]

The Expedited State Review Process vs. the State Coordinated Review Process

In 2011, the Florida Legislature bifurcated the process for approving comprehensive plan amendments.[31] Most plan amendments were placed into the Expedited State Review Process, while plan amendments related to large-scale developments were placed into the State Coordinated Review Process. The two processes operate in much the same way, however, the State Coordinated Review Process provides a longer review period and requires all agency comments to be coordinated by the DEO, rather than communicated directly to the permitting local government by each individual reviewing agency.

Florida Quality Developments

Florida Quality Developments (FQDs) are DRI-sized projects that receive a Florida Quality Development designation if they meet certain statutory criteria.[32] The criteria is designed to enhance the a development, by, as example, protecting and preserving environmentally sensitive lands including wildlife habitat and wetlands; participating in a downtown reuse or redevelopment program to improve and rehabilitate a declining downtown area; providing for construction and maintenance of all onsite infrastructure necessary to support the project; or including open space, recreation areas, Florida-friendly landscaping, and energy conservation.[33] An application for a FQD is handled in much the same way as an application for a DRI was processed prior to the 2015 statutory change. The DRI impact application form is used and an additional section is added to consider the FQD-specific requirements. The "DEO and the appropriate local government determine if a development has met the Florida Quality Development requirements. A finding of no designation may be appealed. Unlike developments of regional impact, development orders for Florida Quality Developments are issued by DEO, not by the local government."[34] According to the DEO, there are 18 developments designated as FQDs, the last of which was designated on June 9, 1999, and the last FQD development order was requested and issued in 2002.[35]

III. Effect of Proposed Changes:

Independent Special Districts

Under current law, the electors of an independent special district can petition the governing body of the district to commence a municipal conversion if the independent special district meets all of the following criteria:

- It was created by special act of the Legislature.

[31] Chapter 2011-14, L.O.F. *See* s. 163.3184(3) and (4), F.S.
[32] Section 380.061, F.S. *See also* Department of Economic Opportunity. *2018 Agency Legislative Bill Analysis: SB 1244*. January 12, 2018.
[33] Department of Economic Opportunity. *2018 Agency Legislative Bill Analysis: SB 1244*. January 12, 2018.
[34] Department of Economic Opportunity. Community Planning, Development, and Services. Community Planning. *General Information About Developments of Regional Impact and Florida Quality Developments*. Available at http://www.floridajobs.org/community-planning-and-development/programs/community-planning-table-of-contents/general-information (last visited February 3, 2018).
[35] *Id*. Department of Economic Opportunity. *2018 Agency Legislative Bill Analysis: SB 1244*. January 12, 2018.

- It is designated as an improvement district, created pursuant to chapter 298, F.S., or is designated as a stewardship district, created pursuant to s. 189.031, F.S.
- Its governing board is elected and agrees to the conversion.
- It provides at least four of the following municipal services: water, sewer, solid waste, drainage, roads, transportation, public works, fire and rescue, street lighting, parks and recreation, or library or cultural facilities.
- No portion of the district is located within the jurisdictional limits of a municipality.

Section 1 amends s. 165.0615, F.S., to add a criterion requiring the independent special district to have a minimum population. If the independent special district is in a county that has a population of less than 75,000 people, then population of the independent special district must be a minimum of 1,500 people. If the county has more than 75,000 people, then the independent special district must have a minimum population of 5,000 people.

DRIs and FQD Development Orders

The bill repeals the current DRI and FQD development order provisions and shifts the remaining responsibilities of reviewing amendments to DRIs and FQD development orders from the RPCs and the DEO to the local governments.

Section 2 amends s. 380.06, F.S., to repeal the DRI process. The bill retains statewide guidelines and standards and exemptions for DRIs in effective as of the effective date of the bill for local governments to use them to determine whether a development is subject to the review process. These guidelines will remain in effect unless repealed by statute.[36]

This section also:
- Repeals provisions that are obsolete with the repeal of the DRI program by this bill.
- Maintains the thresholds that determine whether a development will be subject to review.
- Preserves the following letters and agreements that are unexpired as of the effective date of the bill: binding letters, "essentially built out" agreements, "capital contribution front loading agreements" between a developer and local government, any agreements between a local government and a developer to reimburse the developer for voluntary contributions paid in excess of his or her fair share, agreements related to projects that include more than one DRI, and area-wide DRI development orders.
- Authorizes local governments to amend a binding letter of vested rights pursuant to the local government's comprehensive plan and land development regulations upon request of the developer.
- Prohibits a local government from changing to an earlier date, the date that the local government agreed that the development will not be subject to downsizing or other reduction based upon an amendment, unless the local government can demonstrate certain information.
- Specifies that selection of a contractor or design professional by the developer for work related to the construction or expansion of a public facility that is undertaken as a condition of the development order, is not subject to competitive bidding or negotiation.

[36] Effectively the guidelines and standards will not be amended in the future because the bill repeals provisions directing the Administration Commission to adopt the guidelines and standards.

- Limits a local government from changing any credit for a development order exaction or fee granted to the developer when an amendment to the development order is adopted, when the credit against impact fees, mobility fees, or exactions are based upon the developer's contribution of land or a public facility.
- Adds mobility fees to the types of fees a developer can petition a local government to give the developer a credit against for any contribution when such fees are imposes or increased after a development order is issued.
- Requires a developer to follow any reporting requirements set by the local government with jurisdiction over the development and permits the local government to set penalties for failure to file required reports.[37]
- Requires any proposed change to a previously approved DRI to be reviewed by the local government based on the standards and procedures in its adopted local comprehensive plan and adopted local land development regulations, including but not limited to procedures for notice to the applicant and the public regarding issuance of development orders.[38] As under current law, a local government may approve any change that has the effect of *reducing* the originally approved height, density, or intensity of the development if the change is consistent with the comprehensive plan in effect when the development was originally approved. There must be at least one public hearing on the proposed change to the development order, and the local governing body must approve any change before it becomes effective. Development within a portion of the DRI that is not directly affected by a proposed change can continue during the review of the proposed change, and review is limited to impacts created by the proposed change. Changes to extend a phase date, buildout date, expiration date, or termination date may also extend any required mitigation (which is consistent with current law). These provisions do not alter or limit any extension previously granted by statute.
- Provides that abandonment of a DRI development order shall be deemed to have occurred when the required notice of abandonment is filed with the county clerk. Local governments must issue an abandonment order if requested by a developer if all development that exists at the time of abandonment has been mitigated or will be mitigated pursuant to an existing permit enforceable through an administrative or judicial proceeding.
- Requires proposed developments that exceed the statewide guidelines and standards and are not otherwise exempt to be approved by a local government following the statewide coordinated review process in s. 163.3184(4), F.S.

Section 3 amends s. 380.061, F.S., to repeal the FQD program. FQD development orders in place prior to the effective date of the bill must be replaced by local government development orders, which will be subject to the DRI provisions discussed above in **Section 2**.

Section 4 amends s. 380.0651, F.S., to maintain the guidelines and standards formerly used for developments required to undergo DRI review. The guidelines and standards are retained to determine whether developments are subject to the DRI provisions discussed above in **Section 2**.

[37] Current law requires a biennial report submitted by the developer in alternate years as specified by the development order and sets a penalty of a temporary suspension of the development order as the penalty for failing to report. s. 380.06(18), F.S.
[38] This new provision for review of a change is applicable over any provision to the contrary in an existing development order, agreement, local comprehensive plan, or local land development regulation. The bill also changes the term "substantial deviation" to "changes."

Additionally, the statutory exemptions, partial statutory exemptions, and exemptions for DULAs from the DRI program are transferred from current s. 380.06, F.S., to s. 380.0651, F.S., so that the exemptions continue apply.[39]

Section 5 amends s. 380.07, F.S., to remove DRIs from the Florida Land and Water Adjudicatory Commission's (the Administration Commission) rulemaking authority and repeal related provisions. Under the bill, the state land planning agency may only challenge a local order *abandoning* a DRI; and appeals of development orders based upon consistency of the order with local comprehensive plans may only be made for development orders in areas of critical state concern.

Section 6 amends s. 380.115, F.S., to allow a development that has received a DRI development order but is no longer required to undergo DRI review to elect to rescind the development order pursuant to certain procedures. The local government issuing the development order must monitor the development and enforce the development order. The local government may not issue any permits or approvals or provide any service if the developer fails to act in substantial compliance with the development order.

Section 8 amends s. 163.3245, F.S., to continue to require a development subject to a master plan to remain subject to the master plan, unless the development order is abandoned or rescinded.

Section 10 amends s. 189.08, F.S., to allow a special district that is building, improving, or expanding public facilities addressed by a DRI development order to use the most recent report required by s. 380.06, F.S., to the extent needed to submit the special district's own public facilities report required by the statute (special district public facilities report).

Sections 7, 9, 11 – 18, 20, and 21 amend ss. 125.68, 163.3246, 190.005, 190.012, 252.363, 369.303, 369.307, 373.236, 373.414, 378.601, 380.11, and 403.524, F.S., to correct cross references and make conforming changes.

Section 19 repeals s. 380.065, F.S., which governed the certification of local government review of development.

Section 22 repeals the rules adopted by the DEO governing DRIs that are codified in ch. 73C-40, Florida Administrative Code. It also repeals rules adopted by the Administration Commission related to when two or more developments that are represented by their owners or developers to be separate developments are to be aggregated and treated as a single development.

Section 23 directs the Division of Law Revision and Information to replace the phrase "the effective date of this act" with the date the act takes effect.

Section 24 provides that the bill is effective upon becoming a law.

[39] The exemptions are discussed above in the Present Situation.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Local governments currently have responsibilities related to reviewing and administering development orders.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The DEO will have decreased responsibilities to review various processes for DRIs and FQDs. Many of these responsibilities have been transferred to local governments, which currently have responsibilities related to reviewing and administering development orders.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 165.0615, 380.06, 380.061, 380.0651, 380.07, 380.115, 125.68, 163.3245, 163.3246, 189.08, 190.005, 190.012, 252.363, 369.303, 369.307, 373.236, 373.414, 378.601, 380.11, and 403.524.

This bill repeals section 380.065 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Transportation, Tourism, and Economic Development on February 8, 2018:
The committee substitute:

- Clarifies that a local government may not change to an earlier date, the date that the local government agreed that the development will not be subject to downsizing or other reduction based upon an amendment.
- Restores current law, which allows a local government to approve any change that has the effect of *reducing* the originally approved height, density, or intensity of the development if the change is consistent with the comprehensive plan in effect when the development was originally approved.

CS by Community Affairs on January 23, 2018:

- Reinserts language omitted in the moving of the DRI exemptions from one section to the other.
- Adds a minimum population standard as a criteria that must be met before qualified electors of an independent special district commence a certain municipal conversion proceeding.
- Makes technical wording changes.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

Senate Amendment (with title amendment)

Delete lines 2583 - 2594

and insert:

(12)~~(30)~~ PROPOSED DEVELOPMENTS.—

(a) A proposed development that exceeds the statewide guidelines and standards specified in s. 380.0651 and is not otherwise exempt pursuant to s. 380.0651 must ~~otherwise subject to the review requirements of this section shall~~ be approved by a local government pursuant to s. 163.3184(4) in lieu of proceeding in accordance with this section. However, if the

447718

proposed development is consistent with the comprehensive plan as provided in s. 163.3194(3)(b), the development is not required to undergo review pursuant to s. 163.3184(4) or this section.

(b) This subsection does not apply to:

1. Amendments to a development order governing an existing development of regional impact; or

2. Any application for development approval filed with a concurrent plan amendment application pending as of May 14, 2015, if the applicant elects to have the application reviewed pursuant to the provisions of this section as it existed on such date. Such election must be in writing and filed with the affected local government, regional planning council, and state land planning agency, before December 31, 2018.

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Transportation, Tourism, and Economic Development)

A bill to be entitled

An act relating to growth management; amending s. 165.0615, F.S.; adding a minimum population standard as a criteria that must be met before qualified electors of an independent special district commence a certain municipal conversion proceeding; amending s. 380.06, F.S.; revising the statewide guidelines and standards for developments of regional impact; deleting criteria that the Administration Commission is required to consider in adopting its guidelines and standards; revising provisions relating to the application of guidelines and standards; revising provisions relating to variations and thresholds for such guidelines and standards; deleting provisions relating to the issuance of binding letters; specifying that previously issued letters remain valid unless previously expired; specifying the procedure for amending a binding letter of interpretation; specifying that previously issued clearance letters remain valid unless previously expired; deleting provisions relating to authorizations to develop, applications for approval of development, concurrent plan amendments, preapplication procedures, preliminary development agreements, conceptual agency review, application sufficiency, local notice, regional reports, and criteria for the approval of

113064

576-03010A-18

developments inside and outside areas of critical state concern; revising provisions relating to local government development orders; specifying that amendments to a development order for an approved development may not amend to an earlier date the date before when a development would be subject to downzoning, unit density reduction, or intensity reduction, except under certain conditions; removing a requirement that certain conditions of a development order meet specified criteria; specifying that construction of certain mitigation-of-impact facilities is not subject to competitive bidding or competitive negotiation for selection of a contractor or design professional; removing requirements relating to local government approval of developments of regional impact that do not meet certain requirements; removing a requirement that the Department of Economic Opportunity and other agencies cooperate in preparing certain ordinances; authorizing developers to record notice of certain rescinded development orders; specifying that certain agreements regarding developments that are essentially built out remain valid unless previously expired; deleting requirements for a local government to issue a permit for a development subsequent to the buildout date contained in the development order; specifying that amendments to development orders do not diminish or otherwise alter certain credits for a development order exaction or fee against impact fees, mobility fees, or

exactions; deleting a provision relating to the determination of certain credits for impact fees or extractions; deleting a provision exempting a nongovernmental developer from being required to competitively bid or negotiate construction or design of certain facilities except under certain circumstances; specifying that certain capital contribution front-ending agreements remain valid unless previously expired; deleting a provision relating to local monitoring; revising requirements for developers regarding reporting to local governments and specifying that such reports are not required unless required by a local government with jurisdiction over a development; revising the requirements and procedure for proposed changes to a previously approved development of regional impact and deleting rulemaking requirements relating to such procedure; revising provisions relating to the approval of such changes; specifying that certain extensions previously granted by statute are still valid and not subject to review or modification; deleting provisions relating to determinations as to whether a proposed change is a substantial deviation; deleting provisions relating to comprehensive development-of-regional-impact applications and master plan development orders; specifying that certain agreements that include two or more developments of regional impact which were the subject of a comprehensive development-of-regional-impact

application remain valid unless previously expired; deleting provisions relating to downtown development authorities; deleting provisions relating to adoption of rules by the state land planning agency; deleting statutory exemptions from development-of-regional-impact review; specifying that an approval of an authorized developer for an areawide development of regional impact remains valid unless previously expired; deleting provisions relating to areawide developments of regional impact; deleting an authorization for the state land planning agency to adopt rules relating to abandonment of developments of regional impact; requiring local governments to file a notice of abandonment under certain conditions; deleting an authorization for the state land planning agency to adopt a procedure for filing such notice; requiring a development-of-regional-impact development order to be abandoned by a local government under certain conditions; deleting a provision relating to abandonment of developments of regional impact in certain high-hazard coastal areas; authorizing local governments to approve abandonment of development orders for an approved development under certain conditions; deleting a provision relating to rights, responsibilities, and obligations under a development order; deleting partial exemptions from development-of regional-impact review; deleting exemptions for dense urban land areas; specifying that proposed developments that exceed the statewide guidelines and

standards and that are not otherwise exempt be approved by local governments instead of through specified development-of-regional-impact proceedings; amending s. 380.061, F.S.; specifying that the Florida Quality Developments program only applies to previously approved developments in the program before the effective date of the act; specifying a process for local governments to adopt a local development order to replace and supersede the development order adopted by the state land planning agency for the Florida Quality Developments; deleting program intent, eligibility requirements, rulemaking authorizations, and application and approval requirements and processes; deleting an appeals process and the Quality Developments Review Board; amending s. 380.0651, F.S.; deleting provisions relating to the superseding of guidelines and standards adopted by the Administration Commission and the publishing of guidelines and standards by the Administration Commission; conforming a provision to changes made by the act; specifying exemptions and partial exemptions from development-of-regional-impact review; deleting provisions relating to determining whether there is a unified plan of development; deleting provisions relating to the circumstances where developments should be aggregated; deleting a provision relating to prospective application of certain provisions; deleting a provision authorizing state land planning agencies to enter into agreements for the joint planning, sharing,

or use of specified public infrastructure, facilities, or services by developers; deleting an authorization for the state land planning agency to adopt rules; amending s. 380.07, F.S.; deleting an authorization for the Florida Land and Water Adjudicatory Commission to adopt rules regarding the requirements for developments of regional impact; revising when a local government must transmit a development order to the state land planning agency, the regional planning agency, and the owner or developer of the property affected by such order; deleting a process for regional planning agencies to undertake appeals of development-of-regional-impact development orders; revising a process for appealing development orders for consistency with a local comprehensive plan to be available only for developments in areas of critical state concern; deleting a procedure regarding certain challenges to development orders relating to developments of regional impact; amending s. 380.115, F.S.; deleting a provision relating to changes in development-of-regional-impact guidelines and standards and the impact of such changes on vested rights, duties, and obligations pursuant to any development order or agreement; requiring local governments to monitor and enforce development orders and prohibiting local governments from issuing permits, approvals, or extensions of services if a developer does not act in substantial compliance with an order; deleting provisions relating to changes in

development of regional impact guidelines and standards and their impact on the development approval process; amending s. 125.68, F.S.; conforming a cross-reference; amending s. 163.3245, F.S.; conforming cross-references; conforming provisions to changes made by the act; revising the circumstances in which applicants who apply for master development approval for an entire planning area must remain subject to a master development order; specifying an exception; deleting a provision relating to the level of review for applications for master development approval; amending s. 163.3246, F.S.; conforming provisions to changes made by the act; conforming cross-references; amending s. 189.08, F.S.; conforming a cross-reference; conforming a provision to changes made by the act; amending s. 190.005, F.S.; conforming cross-references; amending ss. 190.012 and 252.363, F.S.; conforming cross-references; amending s. 369.303, F.S.; conforming a provision to changes made by the act; amending ss. 369.307, 373.236, and 373.414, F.S.; conforming cross-references; amending s. 378.601, F.S.; conforming a provision to changes made by the act; repealing s. 380.065, F.S., relating to a process to allow local governments to request certification to review developments of regional impact that are located within their jurisdictions in lieu of the regional review requirements; amending ss. 380.11 and 403.524, F.S.; conforming cross-references; repealing specified rules regarding uniform review of

developments of regional impact by the state land planning agency and regional planning agencies; repealing the rules adopted by the Administration Commission regarding whether two or more developments, represented by their owners or developers to be separate developments, shall be aggregated; providing a directive to the Division of Law Revision and Information; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (1) of section 165.0615, Florida Statutes, is amended to read:

165.0615 Municipal conversion of independent special districts upon elector-initiated and approved referendum.—

(1) The qualified electors of an independent special district may commence a municipal conversion proceeding by filing a petition with the governing body of the independent special district proposed to be converted if the district meets all of the following criteria:

(a) It was created by special act of the Legislature.

(b) It is designated as an improvement district and created pursuant to chapter 298 or is designated as a stewardship district and created pursuant to s. 189.031.

(c) Its governing board is elected.

(d) Its governing board agrees to the conversion.

(e) It provides at least four of the following municipal services: water, sewer, solid waste, drainage, roads, transportation, public works, fire and rescue, street lighting,

parks and recreation, or library or cultural facilities.

(f) No portion of the district is located within the jurisdictional limits of a municipality.

(g) It meets the minimum population standards specified in s. 165.061(1)(b).

Section 2. Section 380.06, Florida Statutes, is amended to read:

380.06 Developments of regional impact.—

(1) DEFINITION.—The term "development of regional impact," as used in this section, means any development that ~~which~~, because of its character, magnitude, or location, would have a substantial effect upon the health, safety, or welfare of citizens of more than one county.

(2) STATEWIDE GUIDELINES AND STANDARDS.—

~~(a)~~ The statewide guidelines and standards and the exemptions specified in s. 380.0651 and the statewide guidelines and standards adopted by the Administration Commission and codified in chapter 28-24, Florida Administrative Code, must be ~~state land planning agency shall recommend to the Administration Commission specific statewide guidelines and standards for adoption pursuant to this subsection. The Administration Commission shall by rule adopt statewide guidelines and standards to be~~ used in determining whether particular developments are subject to the requirements of subsection (12) ~~shall undergo development-of-regional-impact review~~. The statewide guidelines and standards previously adopted by the Administration Commission and approved by the Legislature shall remain in effect unless ~~revised pursuant to this section or~~ superseded or repealed by statute ~~by other provisions of law~~.

~~(b) In adopting its guidelines and standards, the Administration Commission shall consider and shall be guided by:~~

~~1. The extent to which the development would create or alleviate environmental problems such as air or water pollution or noise.~~

~~2. The amount of pedestrian or vehicular traffic likely to be generated.~~

~~3. The number of persons likely to be residents, employees, or otherwise present.~~

~~4. The size of the site to be occupied.~~

~~5. The likelihood that additional or subsidiary development will be generated.~~

~~6. The extent to which the development would create an additional demand for, or additional use of, energy, including the energy requirements of subsidiary developments.~~

~~7. The unique qualities of particular areas of the state.~~

~~(c) With regard to the changes in the guidelines and standards authorized pursuant to this act, in determining whether a proposed development must comply with the review requirements of this section, the state land planning agency shall apply the guidelines and standards which were in effect when the developer received authorization to commence development from the local government. If a developer has not received authorization to commence development from the local government prior to the effective date of new or amended guidelines and standards, the new or amended guidelines and standards shall apply.~~

~~(d)~~ The statewide guidelines and standards shall be applied as follows:

(a) ~~1. Fixed thresholds.—~~

~~a.~~ A development that is below 100 percent of all numerical thresholds in the statewide guidelines and standards is not subject to subsection (12) ~~is not required to undergo development-of-regional-impact review~~.

(b) ~~b.~~ A development that is at or above 100 ~~120~~ percent of any numerical threshold in the statewide guidelines and standards is subject to subsection (12) ~~shall be required to undergo development-of-regional-impact review~~.

~~c. Projects certified under s. 403.973 which create at least 100 jobs and meet the criteria of the Department of Economic Opportunity as to their impact on an area's economy, employment, and prevailing wage and skill levels that are at or below 100 percent of the numerical thresholds for industrial plants, industrial parks, distribution, warehousing or wholesaling facilities, office development or multiuse projects other than residential, as described in s. 380.0651(3)(c) and (f) are not required to undergo development-of-regional-impact review.~~

~~2. Rebuttable presumption.—It shall be presumed that a development that is at 100 percent or between 100 and 120 percent of a numerical threshold shall be required to undergo development-of-regional-impact review.~~

~~(c) With respect to residential, hotel, motel, office, and retail developments, the applicable guidelines and standards shall be increased by 50 percent in urban central business districts and regional activity centers of jurisdictions whose local comprehensive plans are in compliance with part II of chapter 163. With respect to multiuse developments, the~~

~~applicable individual use guidelines and standards for residential, hotel, motel, office, and retail developments and multiuse guidelines and standards shall be increased by 100 percent in urban central business districts and regional activity centers of jurisdictions whose local comprehensive plans are in compliance with part II of chapter 163, if one land use of the multiuse development is residential and amounts to not less than 35 percent of the jurisdiction's applicable residential threshold. With respect to resort or convention hotel developments, the applicable guidelines and standards shall be increased by 150 percent in urban central business districts and regional activity centers of jurisdictions whose local comprehensive plans are in compliance with part II of chapter 163 and where the increase is specifically for a proposed resort or convention hotel located in a county with a population greater than 500,000 and the local government specifically designates that the proposed resort or convention hotel development will serve an existing convention center of more than 250,000 gross square feet built before July 1, 1992. The applicable guidelines and standards shall be increased by 150 percent for development in any area designated by the Governor as a rural area of opportunity pursuant to s. 288.0656 during the effectiveness of the designation.~~

~~(3) VARIATION OF THRESHOLDS IN STATEWIDE GUIDELINES AND STANDARDS.—The state land planning agency, a regional planning agency, or a local government may petition the Administration Commission to increase or decrease the numerical thresholds of any statewide guideline and standard. The state land planning agency or the regional planning agency may petition for an~~

~~increase or decrease for a particular local government's jurisdiction or a part of a particular jurisdiction. A local government may petition for an increase or decrease within its jurisdiction or a part of its jurisdiction. A number of requests may be combined in a single petition.~~

~~(a) When a petition is filed, the state land planning agency shall have no more than 180 days to prepare and submit to the Administration Commission a report and recommendations on the proposed variation. The report shall evaluate, and the Administration Commission shall consider, the following criteria:~~

~~1. Whether the local government has adopted and effectively implemented a comprehensive plan that reflects and implements the goals and objectives of an adopted state comprehensive plan.~~

~~2. Any applicable policies in an adopted strategic regional policy plan.~~

~~3. Whether the local government has adopted and effectively implemented both a comprehensive set of land development regulations, which regulations shall include a planned unit development ordinance, and a capital improvements plan that are consistent with the local government comprehensive plan.~~

~~4. Whether the local government has adopted and effectively implemented the authority and the fiscal mechanisms for requiring developers to meet development order conditions.~~

~~5. Whether the local government has adopted and effectively implemented and enforced satisfactory development review procedures.~~

~~(b) The affected regional planning agency, adjoining local governments, and the local government shall be given a~~

~~reasonable opportunity to submit recommendations to the Administration Commission regarding any such proposed variations.~~

~~(c) The Administration Commission shall have authority to increase or decrease a threshold in the statewide guidelines and standards up to 50 percent above or below the statewide presumptive threshold. The commission may from time to time reconsider changed thresholds and make additional variations as it deems necessary.~~

~~(d) The Administration Commission shall adopt rules setting forth the procedures for submission and review of petitions filed pursuant to this subsection.~~

~~(e) Variations to guidelines and standards adopted by the Administration Commission under this subsection shall be transmitted on or before March 1 to the President of the Senate and the Speaker of the House of Representatives for presentation at the next regular session of the Legislature. Unless approved as submitted by general law, the revisions shall not become effective.~~

(3)~~(4)~~ BINDING LETTER.—

(a) Any binding letter previously issued to a developer by the state land planning agency as to ~~If any developer is in doubt~~ whether his or her proposed development must undergo development-of-regional-impact review ~~under the guidelines and standards~~, whether his or her rights have vested pursuant to subsection (8) ~~(20)~~, or whether a proposed substantial change to a development of regional impact concerning which rights had previously vested pursuant to subsection (8) ~~(20)~~ would divest such rights, remains valid unless it expired on or before the

effective date of this act ~~the developer may request a determination from the state land planning agency~~. ~~The developer or the appropriate local government having jurisdiction may request that the state land planning agency determine whether the amount of development that remains to be built in an approved development of regional impact meets the criteria of subparagraph (15)(g)3.~~

(b) Upon a request by the developer, a binding letter of interpretation regarding which rights had previously vested in a development of regional impact may be amended by the local government of jurisdiction, based on standards and procedures in the adopted local comprehensive plan or the adopted local land development code, to reflect a change to the plan of development and modification of vested rights, provided that any such amendment to a binding letter of vested rights must be consistent with s. 163.3167(5). Review of a request for an amendment to a binding letter of vested rights may not include a review of the impacts created by previously vested portions of the development ~~Unless a developer waives the requirements of this paragraph by agreeing to undergo development-of-regional-impact review pursuant to this section, the state land planning agency or local government with jurisdiction over the land on which a development is proposed may require a developer to obtain a binding letter if the development is at a presumptive numerical threshold or up to 20 percent above a numerical threshold in the guidelines and standards~~.

~~(c) Any local government may petition the state land planning agency to require a developer of a development located in an adjacent jurisdiction to obtain a binding letter of~~

~~interpretation. The petition shall contain facts to support a finding that the development as proposed is a development of regional impact. This paragraph shall not be construed to grant standing to the petitioning local government to initiate an administrative or judicial proceeding pursuant to this chapter.~~

~~(d) A request for a binding letter of interpretation shall be in writing and in such form and content as prescribed by the state land planning agency. Within 15 days of receiving an application for a binding letter of interpretation or a supplement to a pending application, the state land planning agency shall determine and notify the applicant whether the information in the application is sufficient to enable the agency to issue a binding letter or shall request any additional information needed. The applicant shall either provide the additional information requested or shall notify the state land planning agency in writing that the information will not be supplied and the reasons therefor. If the applicant does not respond to the request for additional information within 120 days, the application for a binding letter of interpretation shall be deemed to be withdrawn. Within 35 days after acknowledging receipt of a sufficient application, or of receiving notification that the information will not be supplied, the state land planning agency shall issue a binding letter of interpretation with respect to the proposed development. A binding letter of interpretation issued by the state land planning agency shall bind all state, regional, and local agencies, as well as the developer.~~

~~(e) In determining whether a proposed substantial change to a development of regional impact concerning which rights had~~

~~previously vested pursuant to subsection (20) would divest such rights, the state land planning agency shall review the proposed change within the context of:~~

~~1. Criteria specified in paragraph (19)(b);~~

~~2. Its conformance with any adopted state comprehensive plan and any rules of the state land planning agency;~~

~~3. All rights and obligations arising out of the vested status of such development;~~

~~4. Permit conditions or requirements imposed by the Department of Environmental Protection or any water management district created by s. 373.069 or any of their successor agencies or by any appropriate federal regulatory agency; and~~

~~5. Any regional impacts arising from the proposed change.~~

~~(f) If a proposed substantial change to a development of regional impact concerning which rights had previously vested pursuant to subsection (20) would result in reduced regional impacts, the change shall not divest rights to complete the development pursuant to subsection (20). Furthermore, where all or a portion of the development of regional impact for which rights had previously vested pursuant to subsection (20) is demolished and reconstructed within the same approximate footprint of buildings and parking lots, so that any change in the size of the development does not exceed the criteria of paragraph (19)(b), such demolition and reconstruction shall not divest the rights which had vested.~~

(c) ~~(g)~~ Every binding letter determining that a proposed development is not a development of regional impact, but not including binding letters of vested rights or of modification of vested rights, shall expire and become void unless the plan of

development has been substantially commenced within:

1. Three years from October 1, 1985, for binding letters issued prior to the effective date of this act; or

2. Three years from the date of issuance of binding letters issued on or after October 1, 1985.

(d) ~~(h)~~ The expiration date of a binding letter begins~~,~~ ~~established pursuant to paragraph (g), shall begin~~ to run after final disposition of all administrative and judicial appeals of the binding letter and may be extended by mutual agreement of the state land planning agency, the local government of jurisdiction, and the developer.

(e) ~~(i)~~ ~~In response to an inquiry from a developer or the appropriate local government having jurisdiction, the state land planning agency may issue~~ An informal determination by the state land planning agency, in the form of a clearance letter as to whether a development is required to undergo development-of-regional-impact review or whether the amount of development that remains to be built in an approved development of regional impact, remains valid unless it expired on or before the effective date of this act ~~meets the criteria of subparagraph (15)(g)3. A clearance letter may be based solely on the information provided by the developer, and the state land planning agency is not required to conduct an investigation of that information. If any material information provided by the developer is incomplete or inaccurate, the clearance letter is not binding upon the state land planning agency. A clearance letter does not constitute final agency action~~.

~~(5) AUTHORIZATION TO DEVELOP.—~~

~~(a)1. A developer who is required to undergo development~~

~~of-regional-impact review may undertake a development of regional impact if the development has been approved under the requirements of this section.~~

~~2. If the land on which the development is proposed is within an area of critical state concern, the development must also be approved under the requirements of s. 380.05.~~

~~(b) State or regional agencies may inquire whether a proposed project is undergoing or will be required to undergo development-of-regional-impact review. If a project is undergoing or will be required to undergo development-of-regional-impact review, any state or regional permit necessary for the construction or operation of the project that is valid for 5 years or less shall take effect, and the period of time for which the permit is valid shall begin to run, upon expiration of the time allowed for an administrative appeal of the development or upon final action following an administrative appeal or judicial review, whichever is later. However, if the application for development approval is not filed within 18 months after the issuance of the permit, the time of validity of the permit shall be considered to be from the date of issuance of the permit. If a project is required to obtain a binding letter under subsection (4), any state or regional agency permit necessary for the construction or operation of the project that is valid for 5 years or less shall take effect, and the period of time for which the permit is valid shall begin to run, only after the developer obtains a binding letter stating that the project is not required to undergo development-of-regional-impact review or after the developer obtains a development order pursuant to this section.~~

~~(c) Prior to the issuance of a final development order, the developer may elect to be bound by the rules adopted pursuant to chapters 373 and 403 in effect when such development order is issued. The rules adopted pursuant to chapters 373 and 403 in effect at the time such development order is issued shall be applicable to all applications for permits pursuant to those chapters and which are necessary for and consistent with the development authorized in such development order, except that a later adopted rule shall be applicable to an application if:~~

~~1. The later adopted rule is determined by the rule-adopting agency to be essential to the public health, safety, or welfare;~~

~~2. The later adopted rule is adopted pursuant to s. 403.061(27);~~

~~3. The later adopted rule is being adopted pursuant to a subsequently enacted statutorily mandated program;~~

~~4. The later adopted rule is mandated in order for the state to maintain delegation of a federal program; or~~

~~5. The later adopted rule is required by state or federal law.~~

~~(d) The provision of day care service facilities in developments approved pursuant to this section is permissible but is not required.~~

~~Further, in order for any developer to apply for permits pursuant to this provision, the application must be filed within 5 years from the issuance of the final development order and the permit shall not be effective for more than 8 years from the issuance of the final development order. Nothing in this~~

~~paragraph shall be construed to alter or change any permitting agency's authority to approve permits or to determine applicable criteria for longer periods of time.~~

~~(6) APPLICATION FOR APPROVAL OF DEVELOPMENT; CONCURRENT PLAN AMENDMENTS.—~~

~~(a) Prior to undertaking any development, a developer that is required to undergo development-of-regional-impact review shall file an application for development approval with the appropriate local government having jurisdiction. The application shall contain, in addition to such other matters as may be required, a statement that the developer proposes to undertake a development of regional impact as required under this section.~~

~~(b) Any local government comprehensive plan amendments related to a proposed development of regional impact, including any changes proposed under subsection (19), may be initiated by a local planning agency or the developer and must be considered by the local governing body at the same time as the application for development approval using the procedures provided for local plan amendment in s. 163.3184 and applicable local ordinances, without regard to local limits on the frequency of consideration of amendments to the local comprehensive plan. This paragraph does not require favorable consideration of a plan amendment solely because it is related to a development of regional impact. The procedure for processing such comprehensive plan amendments is as follows:~~

~~1. If a developer seeks a comprehensive plan amendment related to a development of regional impact, the developer must so notify in writing the regional planning agency, the~~

~~applicable local government, and the state land planning agency no later than the date of preapplication conference or the submission of the proposed change under subsection (19).~~

~~2. When filing the application for development approval or the proposed change, the developer must include a written request for comprehensive plan amendments that would be necessitated by the development-of-regional-impact approvals sought. That request must include data and analysis upon which the applicable local government can determine whether to transmit the comprehensive plan amendment pursuant to s. 163.3184.~~

~~3. The local government must advertise a public hearing on the transmittal within 30 days after filing the application for development approval or the proposed change and must make a determination on the transmittal within 60 days after the initial filing unless that time is extended by the developer.~~

~~4. If the local government approves the transmittal, procedures set forth in s. 163.3184 must be followed.~~

~~5. Notwithstanding subsection (11) or subsection (19), the local government may not hold a public hearing on the application for development approval or the proposed change or on the comprehensive plan amendments sooner than 30 days after reviewing agency comments are due to the local government pursuant to s. 163.3184.~~

~~6. The local government must hear both the application for development approval or the proposed change and the comprehensive plan amendments at the same hearing. However, the local government must take action separately on the application for development approval or the proposed change and on the~~

~~comprehensive plan amendments.~~

~~7. Thereafter, the appeal process for the local government development order must follow the provisions of s. 380.07, and the compliance process for the comprehensive plan amendments must follow the provisions of s. 163.3184.~~

~~(7) PREAPPLICATION PROCEDURES.—~~

~~(a) Before filing an application for development approval, the developer shall contact the regional planning agency having jurisdiction over the proposed development to arrange a preapplication conference. Upon the request of the developer or the regional planning agency, other affected state and regional agencies shall participate in this conference and shall identify the types of permits issued by the agencies, the level of information required, and the permit issuance procedures as applied to the proposed development. The levels of service required in the transportation methodology shall be the same levels of service used to evaluate concurrency in accordance with s. 163.3180. The regional planning agency shall provide the developer information about the development-of-regional-impact process and the use of preapplication conferences to identify issues, coordinate appropriate state and local agency requirements, and otherwise promote a proper and efficient review of the proposed development. If an agreement is reached regarding assumptions and methodology to be used in the application for development approval, the reviewing agencies may not subsequently object to those assumptions and methodologies unless subsequent changes to the project or information obtained during the review make those assumptions and methodologies inappropriate. The reviewing agencies may make only

~~recommendations or comments regarding a proposed development which are consistent with the statutes, rules, or adopted local government ordinances that are applicable to developments in the jurisdiction where the proposed development is located.~~

~~(b) The regional planning agency shall establish by rule a procedure by which a developer may enter into binding written agreements with the regional planning agency to eliminate questions from the application for development approval when those questions are found to be unnecessary for development-of-regional-impact review. It is the legislative intent of this subsection to encourage reduction of paperwork, to discourage unnecessary gathering of data, and to encourage the coordination of the development-of-regional-impact review process with federal, state, and local environmental reviews when such reviews are required by law.~~

~~(c) If the application for development approval is not submitted within 1 year after the date of the preapplication conference, the regional planning agency, the local government having jurisdiction, or the applicant may request that another preapplication conference be held.~~

~~(8) PRELIMINARY DEVELOPMENT AGREEMENTS.—~~

~~(a) A developer may enter into a written preliminary development agreement with the state land planning agency to allow a developer to proceed with a limited amount of the total proposed development, subject to all other governmental approvals and solely at the developer's own risk, prior to issuance of a final development order. All owners of the land in the total proposed development shall join the developer as parties to the agreement. Each agreement shall include and be

~~subject to the following conditions:~~

~~1. The developer shall comply with the preapplication conference requirements pursuant to subsection (7) within 45 days after the execution of the agreement.~~

~~2. The developer shall file an application for development approval for the total proposed development within 3 months after execution of the agreement, unless the state land planning agency agrees to a different time for good cause shown. Failure to timely file an application and to otherwise diligently proceed in good faith to obtain a final development order shall constitute a breach of the preliminary development agreement.~~

~~3. The agreement shall include maps and legal descriptions of both the preliminary development area and the total proposed development area and shall specifically describe the preliminary development in terms of magnitude and location. The area approved for preliminary development must be included in the application for development approval and shall be subject to the terms and conditions of the final development order.~~

~~4. The preliminary development shall be limited to lands that the state land planning agency agrees are suitable for development and shall only be allowed in areas where adequate public infrastructure exists to accommodate the preliminary development, when such development will utilize public infrastructure. The developer must also demonstrate that the preliminary development will not result in material adverse impacts to existing resources or existing or planned facilities.~~

~~5. The preliminary development agreement may allow development which is:~~

~~a. Less than 100 percent of any applicable threshold if the~~

~~developer demonstrates that such development is consistent with subparagraph 4.; or~~

~~b. Less than 120 percent of any applicable threshold if the developer demonstrates that such development is part of a proposed downtown development of regional impact specified in subsection (22) or part of any areawide development of regional impact specified in subsection (25) and that the development is consistent with subparagraph 4.~~

~~6. The developer and owners of the land may not claim vested rights, or assert equitable estoppel, arising from the agreement or any expenditures or actions taken in reliance on the agreement to continue with the total proposed development beyond the preliminary development. The agreement shall not entitle the developer to a final development order approving the total proposed development or to particular conditions in a final development order.~~

~~7. The agreement shall not prohibit the regional planning agency from reviewing or commenting on any regional issue that the regional agency determines should be included in the regional agency's report on the application for development approval.~~

~~8. The agreement shall include a disclosure by the developer and all the owners of the land in the total proposed development of all land or development within 5 miles of the total proposed development in which they have an interest and shall describe such interest.~~

~~9. In the event of a breach of the agreement or failure to comply with any condition of the agreement, or if the agreement was based on materially inaccurate information, the state land~~

~~planning agency may terminate the agreement or file suit to enforce the agreement as provided in this section and s. 380.11, including a suit to enjoin all development.~~

~~10. A notice of the preliminary development agreement shall be recorded by the developer in accordance with s. 28.222 with the clerk of the circuit court for each county in which land covered by the terms of the agreement is located. The notice shall include a legal description of the land covered by the agreement and shall state the parties to the agreement, the date of adoption of the agreement and any subsequent amendments, the location where the agreement may be examined, and that the agreement constitutes a land development regulation applicable to portions of the land covered by the agreement. The provisions of the agreement shall inure to the benefit of and be binding upon successors and assigns of the parties in the agreement.~~

~~11. Except for those agreements which authorize preliminary development for substantial deviations pursuant to subsection (19), a developer who no longer wishes to pursue a development of regional impact may propose to abandon any preliminary development agreement executed after January 1, 1985, including those pursuant to s. 380.032(3), provided at the time of abandonment:~~

~~a. A final development order under this section has been rendered that approves all of the development actually constructed; or~~

~~b. The amount of development is less than 100 percent of all numerical thresholds of the guidelines and standards, and the state land planning agency determines in writing that the development to date is in compliance with all applicable local~~

~~regulations and the terms and conditions of the preliminary development agreement and otherwise adequately mitigates for the impacts of the development to date.~~

~~In either event, when a developer proposes to abandon said agreement, the developer shall give written notice and state that he or she is no longer proposing a development of regional impact and provide adequate documentation that he or she has met the criteria for abandonment of the agreement to the state land planning agency. Within 30 days of receipt of adequate documentation of such notice, the state land planning agency shall make its determination as to whether or not the developer meets the criteria for abandonment. Once the state land planning agency determines that the developer meets the criteria for abandonment, the state land planning agency shall issue a notice of abandonment which shall be recorded by the developer in accordance with s. 28.222 with the clerk of the circuit court for each county in which land covered by the terms of the agreement is located.~~

~~(b) The state land planning agency may enter into other types of agreements to effectuate the provisions of this act as provided in s. 380.032.~~

~~(c) The provisions of this subsection shall also be available to a developer who chooses to seek development approval of a Florida Quality Development pursuant to s. 380.061.~~

~~(9) CONCEPTUAL AGENCY REVIEW.—~~

~~(a)1. In order to facilitate the planning and preparation of permit applications for projects that undergo development of—~~

~~regional-impact review, and in order to coordinate the information required to issue such permits, a developer may elect to request conceptual agency review under this subsection either concurrently with development-of-regional-impact review and comprehensive plan amendments, if applicable, or subsequent to a preapplication conference held pursuant to subsection (7).~~

~~2. "Conceptual agency review" means general review of the proposed location, densities, intensity of use, character, and major design features of a proposed development required to undergo review under this section for the purpose of considering whether these aspects of the proposed development comply with the issuing agency's statutes and rules.~~

~~3. Conceptual agency review is a licensing action subject to chapter 120, and approval or denial constitutes final agency action, except that the 90-day time period specified in s. 120.60(1) shall be tolled for the agency when the affected regional planning agency requests information from the developer pursuant to paragraph (10)(b). If proposed agency action on the conceptual approval is the subject of a proceeding under ss. 120.569 and 120.57, final agency action shall be conclusive as to any issues actually raised and adjudicated in the proceeding, and such issues may not be raised in any subsequent proceeding under ss. 120.569 and 120.57 on the proposed development by any parties to the prior proceeding.~~

~~4. A conceptual agency review approval shall be valid for up to 10 years, unless otherwise provided in a state or regional agency rule, and may be reviewed and reissued for additional periods of time under procedures established by the agency.~~

~~(b) The Department of Environmental Protection, each water~~

~~management district, and each other state or regional agency that requires construction or operation permits shall establish by rule a set of procedures necessary for conceptual agency review for the following permitting activities within their respective regulatory jurisdictions:~~

~~1. The construction and operation of potential sources of water pollution, including industrial wastewater, domestic wastewater, and stormwater.~~

~~2. Dredging and filling activities.~~

~~3. The management and storage of surface waters.~~

~~4. The construction and operation of works of the district, only if a conceptual agency review approval is requested under subparagraph 3.~~

~~Any state or regional agency may establish rules for conceptual agency review for any other permitting activities within its respective regulatory jurisdiction.~~

~~(c)1. Each agency participating in conceptual agency reviews shall determine and establish by rule its information and application requirements and furnish these requirements to the state land planning agency and to any developer seeking conceptual agency review under this subsection.~~

~~2. Each agency shall cooperate with the state land planning agency to standardize, to the extent possible, review procedures, data requirements, and data collection methodologies among all participating agencies, consistent with the requirements of the statutes that establish the permitting programs for each agency.~~

~~(d) At the conclusion of the conceptual agency review, the~~

~~agency shall give notice of its proposed agency action as required by s. 120.60(3) and shall forward a copy of the notice to the appropriate regional planning council with a report setting out the agency's conclusions on potential development impacts and stating whether the agency intends to grant conceptual approval, with or without conditions, or to deny conceptual approval. If the agency intends to deny conceptual approval, the report shall state the reasons therefor. The agency may require the developer to publish notice of proposed agency action in accordance with s. 403.815.~~

~~(e) An agency's decision to grant conceptual approval shall not relieve the developer of the requirement to obtain a permit and to meet the standards for issuance of a construction or operation permit or to meet the agency's information requirements for such a permit. Nevertheless, there shall be a rebuttable presumption that the developer is entitled to receive a construction or operation permit for an activity for which the agency granted conceptual review approval, to the extent that the project for which the applicant seeks a permit is in accordance with the conceptual approval and with the agency's standards and criteria for issuing a construction or operation permit. The agency may revoke or appropriately modify a valid conceptual approval if the agency shows:~~

~~1. That an applicant or his or her agent has submitted materially false or inaccurate information in the application for conceptual approval;~~

~~2. That the developer has violated a condition of the conceptual approval; or~~

~~3. That the development will cause a violation of the~~

~~agency's applicable laws or rules.~~

~~(f) Nothing contained in this subsection shall modify or abridge the law of vested rights or estoppel.~~

~~(g) Nothing contained in this subsection shall be construed to preclude an agency from adopting rules for conceptual review for developments which are not developments of regional impact.~~

~~(10) APPLICATION; SUFFICIENCY.—~~

~~(a) When an application for development approval is filed with a local government, the developer shall also send copies of the application to the appropriate regional planning agency and the state land planning agency.~~

~~(b) If a regional planning agency determines that the application for development approval is insufficient for the agency to discharge its responsibilities under subsection (12), it shall provide in writing to the appropriate local government and the applicant a statement of any additional information desired within 30 days of the receipt of the application by the regional planning agency. The applicant may supply the information requested by the regional planning agency and shall communicate its intention to do so in writing to the appropriate local government and the regional planning agency within 5 working days of the receipt of the statement requesting such information, or the applicant shall notify the appropriate local government and the regional planning agency in writing that the requested information will not be supplied. Within 30 days after receipt of such additional information, the regional planning agency shall review it and may request only that information needed to clarify the additional information or to answer new questions raised by, or directly related to, the additional~~

~~information. The regional planning agency may request additional information no more than twice, unless the developer waives this limitation. If an applicant does not provide the information requested by a regional planning agency within 120 days of its request, or within a time agreed upon by the applicant and the regional planning agency, the application shall be considered withdrawn.~~

~~(c) The regional planning agency shall notify the local government that a public hearing date may be set when the regional planning agency determines that the application is sufficient or when it receives notification from the developer that the additional requested information will not be supplied, as provided for in paragraph (b).~~

~~(11) LOCAL NOTICE.—Upon receipt of the sufficiency notification from the regional planning agency required by paragraph (10)(c), the appropriate local government shall give notice and hold a public hearing on the application in the same manner as for a rezoning as provided under the appropriate special or local law or ordinance, except that such hearing proceedings shall be recorded by tape or a certified court reporter and made available for transcription at the expense of any interested party. When a development of regional impact is proposed within the jurisdiction of more than one local government, the local governments, at the request of the developer, may hold a joint public hearing. The local government shall comply with the following additional requirements:~~

~~(a) The notice of public hearing shall state that the proposed development is undergoing a development-of-regional-impact review.~~

~~(b) The notice shall be published at least 60 days in advance of the hearing and shall specify where the information and reports on the development of regional impact application may be reviewed.~~

~~(c) The notice shall be given to the state land planning agency, to the applicable regional planning agency, to any state or regional permitting agency participating in a conceptual agency review process under subsection (9), and to such other persons as may have been designated by the state land planning agency as entitled to receive such notices.~~

~~(d) A public hearing date shall be set by the appropriate local government at the next scheduled meeting. The public hearing shall be held no later than 90 days after issuance of notice by the regional planning agency that a public hearing may be set, unless an extension is requested by the applicant.~~

~~(12) REGIONAL REPORTS.—~~

~~(a) Within 50 days after receipt of the notice of public hearing required in paragraph (11)(c), the regional planning agency, if one has been designated for the area including the local government, shall prepare and submit to the local government a report and recommendations on the regional impact of the proposed development. In preparing its report and recommendations, the regional planning agency shall identify regional issues based upon the following review criteria and make recommendations to the local government on these regional issues, specifically considering whether, and the extent to which:~~

~~1. The development will have a favorable or unfavorable impact on state or regional resources or facilities identified~~

~~in the applicable state or regional plans. As used in this subsection, the term "applicable state plan" means the state comprehensive plan. As used in this subsection, the term "applicable regional plan" means an adopted strategic regional policy plan.~~

~~2. The development will significantly impact adjacent jurisdictions. At the request of the appropriate local government, regional planning agencies may also review and comment upon issues that affect only the requesting local government.~~

~~3. As one of the issues considered in the review in subparagraphs 1. and 2., the development will favorably or adversely affect the ability of people to find adequate housing reasonably accessible to their places of employment if the regional planning agency has adopted an affordable housing policy as part of its strategic regional policy plan. The determination should take into account information on factors that are relevant to the availability of reasonably accessible adequate housing. Adequate housing means housing that is available for occupancy and that is not substandard.~~

~~(b) The regional planning agency report must contain recommendations that are consistent with the standards required by the applicable state permitting agencies or the water management district.~~

~~(c) At the request of the regional planning agency, other appropriate agencies shall review the proposed development and shall prepare reports and recommendations on issues that are clearly within the jurisdiction of those agencies. Such agency reports shall become part of the regional planning agency~~

~~report; however, the regional planning agency may attach dissenting views. When water management district and Department of Environmental Protection permits have been issued pursuant to chapter 373 or chapter 403, the regional planning council may comment on the regional implications of the permits but may not offer conflicting recommendations.~~

~~(d) The regional planning agency shall afford the developer or any substantially affected party reasonable opportunity to present evidence to the regional planning agency head relating to the proposed regional agency report and recommendations.~~

~~(e) If the location of a proposed development involves land within the boundaries of multiple regional planning councils, the state land planning agency shall designate a lead regional planning council. The lead regional planning council shall prepare the regional report.~~

~~(13) CRITERIA IN AREAS OF CRITICAL STATE CONCERN.—If the development is in an area of critical state concern, the local government shall approve it only if it complies with the land development regulations therefor under s. 380.05 and the provisions of this section. The provisions of this section shall not apply to developments in areas of critical state concern which had pending applications and had been noticed or agendaed by local government after September 1, 1985, and before October 1, 1985, for development order approval. In all such cases, the state land planning agency may consider and address applicable regional issues contained in subsection (12) as part of its area-of-critical-state-concern review pursuant to ss. 380.05, 380.07, and 380.11.~~

~~(14) CRITERIA OUTSIDE AREAS OF CRITICAL STATE CONCERN.—If~~

~~the development is not located in an area of critical state concern, in considering whether the development is approved, denied, or approved subject to conditions, restrictions, or limitations, the local government shall consider whether, and the extent to which:~~

~~(a) The development is consistent with the local comprehensive plan and local land development regulations.~~

~~(b) The development is consistent with the report and recommendations of the regional planning agency submitted pursuant to subsection (12).~~

~~(c) The development is consistent with the State Comprehensive Plan. In consistency determinations, the plan shall be construed and applied in accordance with s. 187.101(3).~~

~~However, a local government may approve a change to a development authorized as a development of regional impact if the change has the effect of reducing the originally approved height, density, or intensity of the development and if the revised development would have been consistent with the comprehensive plan in effect when the development was originally approved. If the revised development is approved, the developer may proceed as provided in s. 163.3167(5).~~

(4) ~~(15)~~ LOCAL GOVERNMENT DEVELOPMENT ORDER.—

(a) Notwithstanding any provision of any adopted local comprehensive plan or adopted local government land development regulation to the contrary, an amendment to a development order for an approved development of regional impact adopted pursuant to subsection (7) may not amend to an earlier date the ~~appropriate local government shall render a decision on the~~

~~application within 30 days after the hearing unless an extension is requested by the developer~~.

~~(b) When possible, local governments shall issue development orders concurrently with any other local permits or development approvals that may be applicable to the proposed development.~~

~~(c) The development order shall include findings of fact and conclusions of law consistent with subsections (13) and (14). The development order:~~

~~1. Shall specify the monitoring procedures and the local official responsible for assuring compliance by the developer with the development order.~~

~~2. Shall establish compliance dates for the development order, including a deadline for commencing physical development and for compliance with conditions of approval or phasing requirements, and shall include a buildout date that reasonably reflects the time anticipated to complete the development.~~

~~3. Shall establish a~~ date until when ~~which~~ the local government agrees that the approved development of regional impact will ~~shall~~ not be subject to downzoning, unit density reduction, or intensity reduction, unless the local government can demonstrate that substantial changes in the conditions underlying the approval of the development order have occurred or the development order was based on substantially inaccurate information provided by the developer or that the change is clearly established by local government to be essential to the public health, safety, or welfare. The date established pursuant to this paragraph may not be ~~subparagraph shall be no~~ sooner than the buildout date of the project.

~~4. Shall specify the requirements for the biennial report designated under subsection (18), including the date of submission, parties to whom the report is submitted, and contents of the report, based upon the rules adopted by the state land planning agency. Such rules shall specify the scope of any additional local requirements that may be necessary for the report.~~

~~5. May specify the types of changes to the development which shall require submission for a substantial deviation determination or a notice of proposed change under subsection (19).~~

~~6. Shall include a legal description of the property.~~

~~(d) Conditions of a development order that require a developer to contribute land for a public facility or construct, expand, or pay for land acquisition or construction or expansion of a public facility, or portion thereof, shall meet the following criteria:~~

~~1. The need to construct new facilities or add to the present system of public facilities must be reasonably attributable to the proposed development.~~

~~2. Any contribution of funds, land, or public facilities required from the developer shall be comparable to the amount of funds, land, or public facilities that the state or the local government would reasonably expect to expend or provide, based on projected costs of comparable projects, to mitigate the impacts reasonably attributable to the proposed development.~~

~~3. Any funds or lands contributed must be expressly designated and used to mitigate impacts reasonably attributable to the proposed development.~~

~~4. Construction or expansion of a public facility by a nongovernmental developer as a condition of a development order to mitigate the impacts reasonably attributable to the proposed development is not subject to competitive bidding or competitive negotiation for selection of a contractor or design professional for any part of the construction or design.~~

(b) ~~(c)~~ 1. A local government may ~~shall~~ not include~~,~~ as a development order condition for a development of regional impact~~,~~ any requirement that a developer contribute or pay for land acquisition or construction or expansion of public facilities or portions thereof unless the local government has enacted a local ordinance which requires other development not subject to this section to contribute its proportionate share of the funds, land, or public facilities necessary to accommodate any impacts having a rational nexus to the proposed development, and the need to construct new facilities or add to the present system of public facilities must be reasonably attributable to the proposed development.

2. Selection of a contractor or design professional for any aspect of construction or design related to the construction or expansion of a public facility by a nongovernmental developer which is undertaken as a condition of a development order to mitigate the impacts reasonably attributable to the proposed development is not subject to competitive bidding or competitive negotiation ~~A local government shall not approve a development of regional impact that does not make adequate provision for the public facilities needed to accommodate the impacts of the proposed development unless the local government includes in the development order a commitment by the local government to~~

~~provide these facilities consistently with the development schedule approved in the development order; however, a local government's failure to meet the requirements of subparagraph 1. and this subparagraph shall not preclude the issuance of a development order where adequate provision is made by the developer for the public facilities needed to accommodate the impacts of the proposed development. Any funds or lands contributed by a developer must be expressly designated and used to accommodate impacts reasonably attributable to the proposed development~~.

~~3. The Department of Economic Opportunity and other state and regional agencies involved in the administration and implementation of this act shall cooperate and work with units of local government in preparing and adopting local impact fee and other contribution ordinances.~~

(c) ~~(f)~~ Notice of the adoption of an amendment ~~a development order or the subsequent amendments~~ to an adopted development order shall be recorded by the developer, in accordance with s. 28.222, with the clerk of the circuit court for each county in which the development is located. The notice shall include a legal description of the property covered by the order and shall state which unit of local government adopted the development order, the date of adoption, the date of adoption of any amendments to the development order, the location where the adopted order with any amendments may be examined, and that the development order constitutes a land development regulation applicable to the property. The recording of this notice does ~~shall~~ not constitute a lien, cloud, or encumbrance on real property, or actual or constructive notice of any such lien,

cloud, or encumbrance. This paragraph applies only to developments initially approved under this section after July 1, 1980. If the local government of jurisdiction rescinds a development order for an approved development of regional impact pursuant to s. 380.115, the developer may record notice of the rescission.

(d) ~~(g)~~ Any agreement entered into by the state land planning agency, the developer, and the ~~A~~ local government with respect to an approved development of regional impact previously classified as essentially built out, or any other official determination that an approved development of regional impact is essentially built out, remains valid unless it expired on or before the effective date of this act. ~~may not issue a permit for a development subsequent to the buildout date contained in the development order unless:~~

~~1. The proposed development has been evaluated cumulatively with existing development under the substantial deviation provisions of subsection (19) after the termination or expiration date;~~

~~2. The proposed development is consistent with an abandonment of development order that has been issued in accordance with subsection (26);~~

~~3. The development of regional impact is essentially built out, in that all the mitigation requirements in the development order have been satisfied, all developers are in compliance with all applicable terms and conditions of the development order except the buildout date, and the amount of proposed development that remains to be built is less than 40 percent of any applicable development of regional impact threshold; or~~

~~4. The project has been determined to be an essentially built-out development of regional impact through an agreement executed by the developer, the state land planning agency, and the local government, in accordance with s. 380.032, which will establish the terms and conditions under which the development may be continued. If the project is determined to be essentially built out, development may proceed pursuant to the s. 380.032 agreement after the termination or expiration date contained in the development order without further development-of-regional-impact review subject to the local government comprehensive plan and land development regulations. The parties may amend the agreement without submission, review, or approval of a notification of proposed change pursuant to subsection (19). For the purposes of this paragraph, a development of regional impact is considered essentially built out, if:~~

~~a. The developers are in compliance with all applicable terms and conditions of the development order except the buildout date or reporting requirements; and~~

~~b.(I) The amount of development that remains to be built is less than the substantial deviation threshold specified in paragraph (19)(b) for each individual land use category, or, for a multiuse development, the sum total of all unbuilt land uses as a percentage of the applicable substantial deviation threshold is equal to or less than 100 percent; or~~

~~(II) The state land planning agency and the local government have agreed in writing that the amount of development to be built does not create the likelihood of any additional regional impact not previously reviewed.~~

~~The single-family residential portions of a development may be considered essentially built out if all of the workforce housing obligations and all of the infrastructure and horizontal development have been completed, at least 50 percent of the dwelling units have been completed, and more than 80 percent of the lots have been conveyed to third-party individual lot owners or to individual builders who own no more than 40 lots at the time of the determination. The mobile home park portions of a development may be considered essentially built out if all the infrastructure and horizontal development has been completed, and at least 50 percent of the lots are leased to individual mobile home owners. In order to accommodate changing market demands and achieve maximum land use efficiency in an essentially built out project, when a developer is building out a project, a local government, without the concurrence of the state land planning agency, may adopt a resolution authorizing the developer to exchange one approved land use for another approved land use as specified in the agreement. Before the issuance of a building permit pursuant to an exchange, the developer must demonstrate to the local government that the exchange ratio will not result in a net increase in impacts to public facilities and will meet all applicable requirements of the comprehensive plan and land development code. For developments previously determined to impact strategic intermodal facilities as defined in s. 339.63, the local government shall consult with the Department of Transportation before approving the exchange.~~

~~(h) If the property is annexed by another local jurisdiction, the annexing jurisdiction shall adopt a new~~

~~development order that incorporates all previous rights and obligations specified in the prior development order.~~

(5) ~~(16)~~ CREDITS AGAINST LOCAL IMPACT FEES.—

(a) Notwithstanding any provision of an adopted local comprehensive plan or adopted local government land development regulations to the contrary, the adoption of an amendment to a development order for an approved development of regional impact pursuant to subsection (7) does not diminish or otherwise alter any credits for a development order exaction or fee as against impact fees, mobility fees, or exactions when such credits are based upon the developer's contribution of land or a public facility or the construction, expansion, or payment for land acquisition or construction or expansion of a public facility, or a portion thereof ~~If the development order requires the developer to contribute land or a public facility or construct, expand, or pay for land acquisition or construction or expansion of a public facility, or portion thereof, and the developer is also subject by local ordinance to impact fees or exactions to meet the same needs, the local government shall establish and implement a procedure that credits a development order exaction or fee toward an impact fee or exaction imposed by local ordinance for the same need; however, if the Florida Land and Water Adjudicatory Commission imposes any additional requirement, the local government shall not be required to grant a credit toward the local exaction or impact fee unless the local government determines that such required contribution, payment, or construction meets the same need that the local exaction or impact fee would address. The nongovernmental developer need not be required, by virtue of this credit, to~~

~~competitively bid or negotiate any part of the construction or design of the facility, unless otherwise requested by the local government~~.

(b) If the local government imposes or increases an impact fee, mobility fee, or exaction by local ordinance after a development order has been issued, the developer may petition the local government, and the local government shall modify the affected provisions of the development order to give the developer credit for any contribution of land for a public facility, or construction, expansion, or contribution of funds for land acquisition or construction or expansion of a public facility, or a portion thereof, required by the development order toward an impact fee or exaction for the same need.

(c) Any ~~The local government and the developer may enter into~~ capital contribution front-ending agreement entered into by a local government and a developer which is still in effect as of the effective date of this act ~~agreements~~ as part of a development-of-regional-impact development order to reimburse the developer, or the developer's successor, for voluntary contributions paid in excess of his or her fair share remains valid.

(d) This subsection does not apply to internal, onsite facilities required by local regulations or to any offsite facilities to the extent that such facilities are necessary to provide safe and adequate services to the development.

~~(17) LOCAL MONITORING. The local government issuing the development order is primarily responsible for monitoring the development and enforcing the provisions of the development order. Local governments shall not issue any permits or~~

~~approvals or provide any extensions of services if the developer fails to act in substantial compliance with the development order.~~

(6) ~~(18)~~ ~~BIENNIAL~~ REPORTS.—Notwithstanding any condition in a development order for an approved development of regional impact, the developer is not required to ~~shall~~ submit an annual or a biennial report on the development of regional impact to the local government, the regional planning agency, the state land planning agency, and all affected permit agencies ~~in alternate years on the date specified in the development order,~~ unless required to do so by the local government that has jurisdiction over the development. The penalty for failure to file such a required report is as prescribed by the local government ~~development order by its terms requires more frequent monitoring. If the report is not received, the state land planning agency shall notify the local government. If the local government does not receive the report or receives notification that the state land planning agency has not received the report, the local government shall request in writing that the developer submit the report within 30 days. The failure to submit the report after 30 days shall result in the temporary suspension of the development order by the local government. If no additional development pursuant to the development order has occurred since the submission of the previous report, then a letter from the developer stating that no development has occurred shall satisfy the requirement for a report. Development orders that require annual reports may be amended to require biennial reports at the option of the local government~~.

(7) ~~(19)~~ CHANGES ~~SUBSTANTIAL DEVIATIONS~~.—

(a) Notwithstanding any provision to the contrary in any development order, agreement, local comprehensive plan, or local land development regulation, any proposed change to a previously approved development of regional impact must be reviewed by the local government based on the standards and procedures in its adopted local comprehensive plan and adopted local land development regulations, including, but not limited to, procedures for notice to the applicant and the public regarding the issuance of development orders. However, a change to a development of regional impact that has the effect of reducing the originally approved height, density, or intensity of the development must be reviewed by the local government based on the standards in the local comprehensive plan at the time the development was originally approved, and if the development would have been consistent with the comprehensive plan in effect when the development was originally approved, the local government may approve the change. If the revised development is approved, the developer may proceed as provided in s. 163.3167(5). For any proposed change to a previously approved development of regional impact, at least one public hearing must be held on the application for change, and any change must be approved by the local governing body before it becomes effective. The review must abide by any prior agreements or other actions vesting the laws and policies governing the development. Development within the previously approved development of regional impact may continue, as approved, during the review in portions of the development which are not directly affected by the proposed change ~~which creates a reasonable likelihood of additional regional impact, or any type of~~

~~regional impact created by the change not previously reviewed by the regional planning agency, shall constitute a substantial deviation and shall cause the proposed change to be subject to further development-of-regional-impact review. There are a variety of reasons why a developer may wish to propose changes to an approved development of regional impact, including changed market conditions. The procedures set forth in this subsection are for that purpose~~.

(b) The local government shall either adopt an amendment to the development order that approves the application, with or without conditions, or deny the application for the proposed change. Any new conditions in the amendment to the development order issued by the local government may address only those impacts directly created by the proposed change, and must be consistent with s. 163.3180(5), the adopted comprehensive plan, and adopted land development regulations. Changes to a phase date, buildout date, expiration date, or termination date may also extend any required mitigation associated with a phased construction project so that mitigation takes place in the same timeframe relative to the impacts as approved ~~Any proposed change to a previously approved development of regional impact or development order condition which, either individually or cumulatively with other changes, exceeds any of the criteria in subparagraphs 1.-11. constitutes a substantial deviation and shall cause the development to be subject to further development of regional impact review through the notice of proposed change process under this section~~.

~~1. An increase in the number of parking spaces at an attraction or recreational facility by 15 percent or 500 spaces,~~

~~whichever is greater, or an increase in the number of spectators that may be accommodated at such a facility by 15 percent or 1,500 spectators, whichever is greater.~~

~~2. A new runway, a new terminal facility, a 25 percent lengthening of an existing runway, or a 25 percent increase in the number of gates of an existing terminal, but only if the increase adds at least three additional gates.~~

~~3. An increase in land area for office development by 15 percent or an increase of gross floor area of office development by 15 percent or 100,000 gross square feet, whichever is greater.~~

~~4. An increase in the number of dwelling units by 10 percent or 55 dwelling units, whichever is greater.~~

~~5. An increase in the number of dwelling units by 50 percent or 200 units, whichever is greater, provided that 15 percent of the proposed additional dwelling units are dedicated to affordable workforce housing, subject to a recorded land use restriction that shall be for a period of not less than 20 years and that includes resale provisions to ensure long-term affordability for income-eligible homeowners and renters and provisions for the workforce housing to be commenced before the completion of 50 percent of the market rate dwelling. For purposes of this subparagraph, the term "affordable workforce housing" means housing that is affordable to a person who earns less than 120 percent of the area median income, or less than 140 percent of the area median income if located in a county in which the median purchase price for a single-family existing home exceeds the statewide median purchase price of a single-family existing home. For purposes of this subparagraph, the~~

~~term "statewide median purchase price of a single-family existing home" means the statewide purchase price as determined in the Florida Sales Report, Single Family Existing Homes, released each January by the Florida Association of Realtors and the University of Florida Real Estate Research Center.~~

~~6. An increase in commercial development by 60,000 square feet of gross floor area or of parking spaces provided for customers for 425 cars or a 10 percent increase, whichever is greater.~~

~~7. An increase in a recreational vehicle park area by 10 percent or 110 vehicle spaces, whichever is less.~~

~~8. A decrease in the area set aside for open space of 5 percent or 20 acres, whichever is less.~~

~~9. A proposed increase to an approved multiuse development of regional impact where the sum of the increases of each land use as a percentage of the applicable substantial deviation criteria is equal to or exceeds 110 percent. The percentage of any decrease in the amount of open space shall be treated as an increase for purposes of determining when 110 percent has been reached or exceeded.~~

~~10. A 15 percent increase in the number of external vehicle trips generated by the development above that which was projected during the original development-of-regional-impact review.~~

~~11. Any change that would result in development of any area which was specifically set aside in the application for development approval or in the development order for preservation or special protection of endangered or threatened plants or animals designated as endangered, threatened, or~~

~~species of special concern and their habitat, any species protected by 16 U.S.C. ss. 668a-668d, primary dunes, or archaeological and historical sites designated as significant by the Division of Historical Resources of the Department of State. The refinement of the boundaries and configuration of such areas shall be considered under sub-subparagraph (c)2.j.~~

~~The substantial deviation numerical standards in subparagraphs 3., 6., and 9., excluding residential uses, and in subparagraph 10., are increased by 100 percent for a project certified under s. 403.973 which creates jobs and meets criteria established by the Department of Economic Opportunity as to its impact on an area's economy, employment, and prevailing wage and skill levels. The substantial deviation numerical standards in subparagraphs 3., 4., 5., 6., 9., and 10. are increased by 50 percent for a project located wholly within an urban infill and redevelopment area designated on the applicable adopted local comprehensive plan future land use map and not located within the coastal high hazard area.~~

(c) This section is not intended to alter or otherwise limit the extension, previously granted by statute, of a commencement, buildout, phase, termination, or expiration date in any development order for an approved development of regional impact and any corresponding modification of a related permit or agreement. Any such extension is not subject to review or modification in any future amendment to a development order pursuant to the adopted local comprehensive plan and adopted local land development regulations ~~An extension of the date of buildout of a development, or any phase thereof, by more than 7~~

~~years is presumed to create a substantial deviation subject to further development-of-regional-impact review~~.

~~1. An extension of the date of buildout, or any phase thereof, of more than 5 years but not more than 7 years is presumed not to create a substantial deviation. The extension of the date of buildout of an areawide development of regional impact by more than 5 years but less than 10 years is presumed not to create a substantial deviation. These presumptions may be rebutted by clear and convincing evidence at the public hearing held by the local government. An extension of 5 years or less is not a substantial deviation.~~

~~2. In recognition of the 2011 real estate market conditions, at the option of the developer, all commencement, phase, buildout, and expiration dates for projects that are currently valid developments of regional impact are extended for 4 years regardless of any previous extension. Associated mitigation requirements are extended for the same period unless, before December 1, 2011, a governmental entity notifies a developer that has commenced any construction within the phase for which the mitigation is required that the local government has entered into a contract for construction of a facility with funds to be provided from the development's mitigation funds for that phase as specified in the development order or written agreement with the developer. The 4-year extension is not a substantial deviation, is not subject to further development-of-regional-impact review, and may not be considered when determining whether a subsequent extension is a substantial deviation under this subsection. The developer must notify the local government in writing by December 31, 2011, in order to receive the 4-year extension.~~

~~For the purpose of calculating when a buildout or phase date has been exceeded, the time shall be tolled during the pendency of administrative or judicial proceedings relating to development permits. Any extension of the buildout date of a project or a phase thereof shall automatically extend the commencement date of the project, the termination date of the development order, the expiration date of the development of regional impact, and the phases thereof if applicable by a like period of time.~~

~~(d) A change in the plan of development of an approved development of regional impact resulting from requirements imposed by the Department of Environmental Protection or any water management district created by s. 373.069 or any of their successor agencies or by any appropriate federal regulatory agency shall be submitted to the local government pursuant to this subsection. The change shall be presumed not to create a substantial deviation subject to further development of-regional-impact review. The presumption may be rebutted by clear and convincing evidence at the public hearing held by the local government.~~

~~(c)1. Except for a development order rendered pursuant to subsection (22) or subsection (25), a proposed change to a development order which individually or cumulatively with any previous change is less than any numerical criterion contained in subparagraphs (b)1. 10. and does not exceed any other criterion, or which involves an extension of the buildout date of a development, or any phase thereof, of less than 5 years is not subject to the public hearing requirements of subparagraph~~

~~(f)3., and is not subject to a determination pursuant to subparagraph (f)5. Notice of the proposed change shall be made to the regional planning council and the state land planning agency. Such notice must include a description of previous individual changes made to the development, including changes previously approved by the local government, and must include appropriate amendments to the development order.~~

~~2. The following changes, individually or cumulatively with any previous changes, are not substantial deviations:~~

~~a. Changes in the name of the project, developer, owner, or monitoring official.~~

~~b. Changes to a setback which do not affect noise buffers, environmental protection or mitigation areas, or archaeological or historical resources.~~

~~c. Changes to minimum lot sizes.~~

~~d. Changes in the configuration of internal roads which do not affect external access points.~~

~~e. Changes to the building design or orientation which stay approximately within the approved area designated for such building and parking lot, and which do not affect historical buildings designated as significant by the Division of Historical Resources of the Department of State.~~

~~f. Changes to increase the acreage in the development, if no development is proposed on the acreage to be added.~~

~~g. Changes to eliminate an approved land use, if there are no additional regional impacts.~~

~~h. Changes required to conform to permits approved by any federal, state, or regional permitting agency, if these changes do not create additional regional impacts.~~

~~i. Any renovation or redevelopment of development within a previously approved development of regional impact which does not change land use or increase density or intensity of use.~~

~~j. Changes that modify boundaries and configuration of areas described in subparagraph (b)11. due to science-based refinement of such areas by survey, by habitat evaluation, by other recognized assessment methodology, or by an environmental assessment. In order for changes to qualify under this sub-subparagraph, the survey, habitat evaluation, or assessment must occur before the time that a conservation easement protecting such lands is recorded and must not result in any net decrease in the total acreage of the lands specifically set aside for permanent preservation in the final development order.~~

~~k. Changes that do not increase the number of external peak hour trips and do not reduce open space and conserved areas within the project except as otherwise permitted by sub-subparagraph j.~~

~~l. A phase date extension, if the state land planning agency, in consultation with the regional planning council and subject to the written concurrence of the Department of Transportation, agrees that the traffic impact is not significant and adverse under applicable state agency rules.~~

~~m. Any other change that the state land planning agency, in consultation with the regional planning council, agrees in writing is similar in nature, impact, or character to the changes enumerated in sub-subparagraphs a.-l. and that does not create the likelihood of any additional regional impact.~~

~~This subsection does not require the filing of a notice of~~

~~proposed change but requires an application to the local government to amend the development order in accordance with the local government's procedures for amendment of a development order. In accordance with the local government's procedures, including requirements for notice to the applicant and the public, the local government shall either deny the application for amendment or adopt an amendment to the development order which approves the application with or without conditions. Following adoption, the local government shall render to the state land planning agency the amendment to the development order. The state land planning agency may appeal, pursuant to s. 380.07(3), the amendment to the development order if the amendment involves sub-subparagraph g., sub-subparagraph h., sub-subparagraph j., sub-subparagraph k., or sub-subparagraph m. and if the agency believes that the change creates a reasonable likelihood of new or additional regional impacts.~~

~~3. Except for the change authorized by sub-subparagraph 2.f., any addition of land not previously reviewed or any change not specified in paragraph (b) or paragraph (c) shall be presumed to create a substantial deviation. This presumption may be rebutted by clear and convincing evidence.~~

~~4. Any submittal of a proposed change to a previously approved development must include a description of individual changes previously made to the development, including changes previously approved by the local government. The local government shall consider the previous and current proposed changes in deciding whether such changes cumulatively constitute a substantial deviation requiring further development-of-regional-impact review.~~

~~5. The following changes to an approved development of regional impact shall be presumed to create a substantial deviation. Such presumption may be rebutted by clear and convincing evidence:~~

~~a. A change proposed for 15 percent or more of the acreage to a land use not previously approved in the development order. Changes of less than 15 percent shall be presumed not to create a substantial deviation.~~

~~b. Notwithstanding any provision of paragraph (b) to the contrary, a proposed change consisting of simultaneous increases and decreases of at least two of the uses within an authorized multiuse development of regional impact which was originally approved with three or more uses specified in s. 380.0651(3)(c) and (d) and residential use.~~

~~6. If a local government agrees to a proposed change, a change in the transportation proportionate share calculation and mitigation plan in an adopted development order as a result of recalculation of the proportionate share contribution meeting the requirements of s. 163.3180(5)(h) in effect as of the date of such change shall be presumed not to create a substantial deviation. For purposes of this subsection, the proposed change in the proportionate share calculation or mitigation plan may not be considered an additional regional transportation impact.~~

~~(f)1. The state land planning agency shall establish by rule standard forms for submittal of proposed changes to a previously approved development of regional impact which may require further development-of-regional-impact review. At a minimum, the standard form shall require the developer to provide the precise language that the developer proposes to~~

~~delete or add as an amendment to the development order.~~

~~2. The developer shall submit, simultaneously, to the local government, the regional planning agency, and the state land planning agency the request for approval of a proposed change.~~

~~3. No sooner than 30 days but no later than 45 days after submittal by the developer to the local government, the state land planning agency, and the appropriate regional planning agency, the local government shall give 15 days' notice and schedule a public hearing to consider the change that the developer asserts does not create a substantial deviation. This public hearing shall be held within 60 days after submittal of the proposed changes, unless that time is extended by the developer.~~

~~4. The appropriate regional planning agency or the state land planning agency shall review the proposed change and, no later than 45 days after submittal by the developer of the proposed change, unless that time is extended by the developer, and prior to the public hearing at which the proposed change is to be considered, shall advise the local government in writing whether it objects to the proposed change, shall specify the reasons for its objection, if any, and shall provide a copy to the developer.~~

~~5. At the public hearing, the local government shall determine whether the proposed change requires further development-of-regional-impact review. The provisions of paragraphs (a) and (e), the thresholds set forth in paragraph (b), and the presumptions set forth in paragraphs (c) and (d) and subparagraph (c)3. shall be applicable in determining whether further development-of-regional-impact review is~~

~~required. The local government may also deny the proposed change based on matters relating to local issues, such as if the land on which the change is sought is plat restricted in a way that would be incompatible with the proposed change, and the local government does not wish to change the plat restriction as part of the proposed change.~~

~~6. If the local government determines that the proposed change does not require further development-of-regional-impact review and is otherwise approved, or if the proposed change is not subject to a hearing and determination pursuant to subparagraphs 3. and 5. and is otherwise approved, the local government shall issue an amendment to the development order incorporating the approved change and conditions of approval relating to the change. The requirement that a change be otherwise approved shall not be construed to require additional local review or approval if the change is allowed by applicable local ordinances without further local review or approval. The decision of the local government to approve, with or without conditions, or to deny the proposed change that the developer asserts does not require further review shall be subject to the appeal provisions of s. 380.07. However, the state land planning agency may not appeal the local government decision if it did not comply with subparagraph 4. The state land planning agency may not appeal a change to a development order made pursuant to subparagraph (c)1. or subparagraph (c)2. for developments of regional impact approved after January 1, 1980, unless the change would result in a significant impact to a regionally significant archaeological, historical, or natural resource not previously identified in the original development-of-regional-~~

~~impact review.~~

~~(g) If a proposed change requires further development-of-regional-impact review pursuant to this section, the review shall be conducted subject to the following additional conditions:~~

~~1. The development-of-regional-impact review conducted by the appropriate regional planning agency shall address only those issues raised by the proposed change except as provided in subparagraph 2.~~

~~2. The regional planning agency shall consider, and the local government shall determine whether to approve, approve with conditions, or deny the proposed change as it relates to the entire development. If the local government determines that the proposed change, as it relates to the entire development, is unacceptable, the local government shall deny the change.~~

~~3. If the local government determines that the proposed change should be approved, any new conditions in the amendment to the development order issued by the local government shall address only those issues raised by the proposed change and require mitigation only for the individual and cumulative impacts of the proposed change.~~

~~4. Development within the previously approved development of regional impact may continue, as approved, during the development-of-regional-impact review in those portions of the development which are not directly affected by the proposed change.~~

~~(h) When further development-of-regional-impact review is required because a substantial deviation has been determined or admitted by the developer, the amendment to the development~~

~~order issued by the local government shall be consistent with the requirements of subsection (15) and shall be subject to the hearing and appeal provisions of s. 380.07. The state land planning agency or the appropriate regional planning agency need not participate at the local hearing in order to appeal a local government development order issued pursuant to this paragraph.~~

~~(i) An increase in the number of residential dwelling units shall not constitute a substantial deviation and shall not be subject to development-of-regional-impact review for additional impacts, provided that all the residential dwelling units are dedicated to affordable workforce housing and the total number of new residential units does not exceed 200 percent of the substantial deviation threshold. The affordable workforce housing shall be subject to a recorded land use restriction that shall be for a period of not less than 20 years and that includes resale provisions to ensure long-term affordability for income-eligible homeowners and renters. For purposes of this paragraph, the term "affordable workforce housing" means housing that is affordable to a person who earns less than 120 percent of the area median income, or less than 140 percent of the area median income if located in a county in which the median purchase price for a single-family existing home exceeds the statewide median purchase price of a single-family existing home. For purposes of this paragraph, the term "statewide median purchase price of a single-family existing home" means the statewide purchase price as determined in the Florida Sales Report, Single-Family Existing Homes, released each January by the Florida Association of Realtors and the University of Florida Real Estate Research Center.~~

(8)~~(20)~~ VESTED RIGHTS.—Nothing in this section shall limit or modify the rights of any person to complete any development that was authorized by registration of a subdivision pursuant to former chapter 498, by recordation pursuant to local subdivision plat law, or by a building permit or other authorization to commence development on which there has been reliance and a change of position and which registration or recordation was accomplished, or which permit or authorization was issued, prior to July 1, 1973. If a developer has, by his or her actions in reliance on prior regulations, obtained vested or other legal rights that in law would have prevented a local government from changing those regulations in a way adverse to the developer's interests, nothing in this chapter authorizes any governmental agency to abridge those rights.

(a) For the purpose of determining the vesting of rights under this subsection, approval pursuant to local subdivision plat law, ordinances, or regulations of a subdivision plat by formal vote of a county or municipal governmental body having jurisdiction after August 1, 1967, and prior to July 1, 1973, is sufficient to vest all property rights for the purposes of this subsection; and no action in reliance on, or change of position concerning, such local governmental approval is required for vesting to take place. Anyone claiming vested rights under this paragraph must notify the department in writing by January 1, 1986. Such notification shall include information adequate to document the rights established by this subsection. When such notification requirements are met, in order for the vested rights authorized pursuant to this paragraph to remain valid after June 30, 1990, development of the vested plan must be

commenced prior to that date upon the property that the state land planning agency has determined to have acquired vested rights following the notification or in a binding letter of interpretation. When the notification requirements have not been met, the vested rights authorized by this paragraph shall expire June 30, 1986, unless development commenced prior to that date.

(b) For the purpose of this act, the conveyance of, or the agreement to convey, property to the county, state, or local government as a prerequisite to zoning change approval shall be construed as an act of reliance to vest rights as determined under this subsection, provided such zoning change is actually granted by such government.

(9)~~(21)~~ VALIDITY OF COMPREHENSIVE APPLICATION~~; MASTER PLAN DEVELOPMENT ORDER~~.—

~~(a)~~ Any agreement previously entered into by a developer, a regional planning agency, and a local government regarding ~~If~~ a development project that includes two or more developments of regional impact and was the subject of~~, a developer may file~~ a comprehensive development-of-regional-impact application remains valid unless it expired on or before the effective date of this act.

~~(b) If a proposed development is planned for development over an extended period of time, the developer may file an application for master development approval of the project and agree to present subsequent increments of the development for preconstruction review. This agreement shall be entered into by the developer, the regional planning agency, and the appropriate local government having jurisdiction. The provisions of subsection (9) do not apply to this subsection, except that a~~

~~developer may elect to utilize the review process established in subsection (9) for review of the increments of a master plan.~~

~~1. Prior to adoption of the master plan development order, the developer, the landowner, the appropriate regional planning agency, and the local government having jurisdiction shall review the draft of the development order to ensure that anticipated regional impacts have been adequately addressed and that information requirements for subsequent incremental application review are clearly defined. The development order for a master application shall specify the information which must be submitted with an incremental application and shall identify those issues which can result in the denial of an incremental application.~~

~~2. The review of subsequent incremental applications shall be limited to that information specifically required and those issues specifically raised by the master development order, unless substantial changes in the conditions underlying the approval of the master plan development order are demonstrated or the master development order is shown to have been based on substantially inaccurate information.~~

~~(c) The state land planning agency, by rule, shall establish uniform procedures to implement this subsection.~~

~~(22) DOWNTOWN DEVELOPMENT AUTHORITIES.—~~

~~(a) A downtown development authority may submit a development-of-regional-impact application for development approval pursuant to this section. The area described in the application may consist of any or all of the land over which a downtown development authority has the power described in s. 380.031(5). For the purposes of this subsection, a downtown~~

~~development authority shall be considered the developer whether or not the development will be undertaken by the downtown development authority.~~

~~(b) In addition to information required by the development-of-regional-impact application, the application for development approval submitted by a downtown development authority shall specify the total amount of development planned for each land use category. In addition to the requirements of subsection (15), the development order shall specify the amount of development approved within each land use category. Development undertaken in conformance with a development order issued under this section does not require further review.~~

~~(c) If a development is proposed within the area of a downtown development plan approved pursuant to this section which would result in development in excess of the amount specified in the development order for that type of activity, changes shall be subject to the provisions of subsection (19), except that the percentages and numerical criteria shall be double those listed in paragraph (19)(b).~~

~~(d) The provisions of subsection (9) do not apply to this subsection.~~

~~(23) ADOPTION OF RULES BY STATE LAND PLANNING AGENCY.—~~

~~(a) The state land planning agency shall adopt rules to ensure uniform review of developments of regional impact by the state land planning agency and regional planning agencies under this section. These rules shall be adopted pursuant to chapter 120 and shall include all forms, application content, and review guidelines necessary to implement development-of-regional-impact reviews. The state land planning agency, in consultation with~~

~~the regional planning agencies, may also designate types of development or areas suitable for development in which reduced information requirements for development of regional impact review shall apply.~~

~~(b) Regional planning agencies shall be subject to rules adopted by the state land planning agency. At the request of a regional planning council, the state land planning agency may adopt by rule different standards for a specific comprehensive planning district upon a finding that the statewide standard is inadequate to protect or promote the regional interest at issue. If such a regional standard is adopted by the state land planning agency, the regional standard shall be applied to all pertinent development-of-regional-impact reviews conducted in that region until rescinded.~~

~~(c) Within 6 months of the effective date of this section, the state land planning agency shall adopt rules which:~~

~~1. Establish uniform statewide standards for development-of-regional-impact review.~~

~~2. Establish a short application for development approval form which eliminates issues and questions for any project in a jurisdiction with an adopted local comprehensive plan that is in compliance.~~

~~(d) Regional planning agencies that perform development-of-regional-impact and Florida Quality Development review are authorized to assess and collect fees to fund the costs, direct and indirect, of conducting the review process. The state land planning agency shall adopt rules to provide uniform criteria for the assessment and collection of such fees. The rules providing uniform criteria shall not be subject to rule~~

~~challenge under s. 120.56(2) or to drawout proceedings under s. 120.54(3)(c)2., but, once adopted, shall be subject to an invalidity challenge under s. 120.56(3) by substantially affected persons. Until the state land planning agency adopts a rule implementing this paragraph, rules of the regional planning councils currently in effect regarding fees shall remain in effect. Fees may vary in relation to the type and size of a proposed project, but shall not exceed $75,000, unless the state land planning agency, after reviewing any disputed expenses charged by the regional planning agency, determines that said expenses were reasonable and necessary for an adequate regional review of the impacts of a project.~~

~~(24) STATUTORY EXEMPTIONS.—~~

~~(a) Any proposed hospital is exempt from this section.~~

~~(b) Any proposed electrical transmission line or electrical power plant is exempt from this section.~~

~~(c) Any proposed addition to an existing sports facility complex is exempt from this section if the addition meets the following characteristics:~~

~~1. It would not operate concurrently with the scheduled hours of operation of the existing facility.~~

~~2. Its seating capacity would be no more than 75 percent of the capacity of the existing facility.~~

~~3. The sports facility complex property is owned by a public body before July 1, 1983.~~

~~This exemption does not apply to any pari-mutuel facility.~~

~~(d) Any proposed addition or cumulative additions subsequent to July 1, 1988, to an existing sports facility~~

~~complex owned by a state university is exempt if the increased seating capacity of the complex is no more than 30 percent of the capacity of the existing facility.~~

~~(c) Any addition of permanent seats or parking spaces for an existing sports facility located on property owned by a public body before July 1, 1973, is exempt from this section if future additions do not expand existing permanent seating or parking capacity more than 15 percent annually in excess of the prior year's capacity.~~

~~(f) Any increase in the seating capacity of an existing sports facility having a permanent seating capacity of at least 50,000 spectators is exempt from this section, provided that such an increase does not increase permanent seating capacity by more than 5 percent per year and not to exceed a total of 10 percent in any 5-year period, and provided that the sports facility notifies the appropriate local government within which the facility is located of the increase at least 6 months before the initial use of the increased seating, in order to permit the appropriate local government to develop a traffic management plan for the traffic generated by the increase. Any traffic management plan shall be consistent with the local comprehensive plan, the regional policy plan, and the state comprehensive plan.~~

~~(g) Any expansion in the permanent seating capacity or additional improved parking facilities of an existing sports facility is exempt from this section, if the following conditions exist:~~

~~1.a. The sports facility had a permanent seating capacity on January 1, 1991, of at least 41,000 spectator seats;~~

~~b. The sum of such expansions in permanent seating capacity does not exceed a total of 10 percent in any 5-year period and does not exceed a cumulative total of 20 percent for any such expansions; or~~

~~c. The increase in additional improved parking facilities is a one-time addition and does not exceed 3,500 parking spaces serving the sports facility; and~~

~~2. The local government having jurisdiction of the sports facility includes in the development order or development permit approving such expansion under this paragraph a finding of fact that the proposed expansion is consistent with the transportation, water, sewer and stormwater drainage provisions of the approved local comprehensive plan and local land development regulations relating to those provisions.~~

~~Any owner or developer who intends to rely on this statutory exemption shall provide to the department a copy of the local government application for a development permit. Within 45 days after receipt of the application, the department shall render to the local government an advisory and nonbinding opinion, in writing, stating whether, in the department's opinion, the prescribed conditions exist for an exemption under this paragraph. The local government shall render the development order approving each such expansion to the department. The owner, developer, or department may appeal the local government development order pursuant to s. 380.07, within 45 days after the order is rendered. The scope of review shall be limited to the determination of whether the conditions prescribed in this paragraph exist. If any sports facility expansion undergoes~~

~~development-of-regional-impact review, all previous expansions which were exempt under this paragraph shall be included in the development of regional impact review.~~

~~(h) Expansion to port harbors, spoil disposal sites, navigation channels, turning basins, harbor berths, and other related inwater harbor facilities of ports listed in s. 403.021(9)(b), port transportation facilities and projects listed in s. 311.07(3)(b), and intermodal transportation facilities identified pursuant to s. 311.09(3) are exempt from this section when such expansions, projects, or facilities are consistent with comprehensive master plans that are in compliance with s. 163.3178.~~

~~(i) Any proposed facility for the storage of any petroleum product or any expansion of an existing facility is exempt from this section.~~

~~(j) Any renovation or redevelopment within the same land parcel which does not change land use or increase density or intensity of use.~~

~~(k) Waterport and marina development, including dry storage facilities, are exempt from this section.~~

~~(l) Any proposed development within an urban service boundary established under s. 163.3177(14), Florida Statutes (2010), which is not otherwise exempt pursuant to subsection (29), is exempt from this section if the local government having jurisdiction over the area where the development is proposed has adopted the urban service boundary and has entered into a binding agreement with jurisdictions that would be impacted and with the Department of Transportation regarding the mitigation of impacts on state and regional transportation facilities.~~

~~(m) Any proposed development within a rural land stewardship area created under s. 163.3248.~~

~~(n) The establishment, relocation, or expansion of any military installation as defined in s. 163.3175, is exempt from this section.~~

~~(o) Any self-storage warehousing that does not allow retail or other services is exempt from this section.~~

~~(p) Any proposed nursing home or assisted living facility is exempt from this section.~~

~~(q) Any development identified in an airport master plan and adopted into the comprehensive plan pursuant to s. 163.3177(6)(b)4. is exempt from this section.~~

~~(r) Any development identified in a campus master plan and adopted pursuant to s. 1013.30 is exempt from this section.~~

~~(s) Any development in a detailed specific area plan which is prepared and adopted pursuant to s. 163.3245 is exempt from this section.~~

~~(t) Any proposed solid mineral mine and any proposed addition to, expansion of, or change to an existing solid mineral mine is exempt from this section. A mine owner will enter into a binding agreement with the Department of Transportation to mitigate impacts to strategic intermodal system facilities pursuant to the transportation thresholds in subsection (19) or rule 9J-2.045(6), Florida Administrative Code. Proposed changes to any previously approved solid mineral mine development of regional impact development orders having vested rights are is not subject to further review or approval as a development-of-regional-impact or notice-of-proposed-change review or approval pursuant to subsection (19), except for those~~

~~applications pending as of July 1, 2011, which shall be governed by s. 380.115(2). Notwithstanding the foregoing, however, pursuant to s. 380.115(1), previously approved solid mineral mine development-of-regional-impact development orders shall continue to enjoy vested rights and continue to be effective unless rescinded by the developer. All local government regulations of proposed solid mineral mines shall be applicable to any new solid mineral mine or to any proposed addition to, expansion of, or change to an existing solid mineral mine.~~

~~(u) Notwithstanding any provisions in an agreement with or among a local government, regional agency, or the state land planning agency or in a local government's comprehensive plan to the contrary, a project no longer subject to development-of-regional-impact review under revised thresholds is not required to undergo such review.~~

~~(v) Any development within a county with a research and education authority created by special act and that is also within a research and development park that is operated or managed by a research and development authority pursuant to part V of chapter 159 is exempt from this section.~~

~~(w) Any development in an energy economic zone designated pursuant to s. 377.809 is exempt from this section upon approval by its local governing body.~~

~~(x) Any proposed development that is located in a local government jurisdiction that does not qualify for an exemption based on the population and density criteria in paragraph (29)(a), that is approved as a comprehensive plan amendment adopted pursuant to s. 163.3184(4), and that is the subject of an agreement pursuant to s. 288.106(5) is exempt from this section. This exemption shall only be effective upon a written agreement executed by the applicant, the local government, and the state land planning agency. The state land planning agency shall only be a party to the agreement upon a determination that the development is the subject of an agreement pursuant to s. 288.106(5) and that the local government has the capacity to adequately assess the impacts of the proposed development. The local government shall only be a party to the agreement upon approval by the governing body of the local government and upon providing at least 21 days' notice to adjacent local governments that includes, at a minimum, information regarding the location, density and intensity of use, and timing of the proposed development. This exemption does not apply to areas within the boundary of any area of critical state concern designated pursuant to s. 380.05, within the boundary of the Wekiva Study Area as described in s. 369.316, or within 2 miles of the boundary of the Everglades Protection Area as defined in s. 373.4592(2).~~

~~If a use is exempt from review as a development of regional impact under paragraphs (a)-(u), but will be part of a larger project that is subject to review as a development of regional impact, the impact of the exempt use must be included in the review of the larger project, unless such exempt use involves a development of regional impact that includes a landowner, tenant, or user that has entered into a funding agreement with the Department of Economic Opportunity under the Innovation Incentive Program and the agreement contemplates a state award of at least $50 million.~~

(10)~~(25)~~ AREAWIDE DEVELOPMENT OF REGIONAL IMPACT.—

~~(a)~~ Any approval of an authorized developer for ~~may submit~~ an areawide development of regional impact remains valid unless it expired on or before the effective date of this act. ~~to be reviewed pursuant to the procedures and standards set forth in this section. The areawide development-of-regional-impact review shall include an areawide development plan in addition to any other information required under this section. After review and approval of an areawide development of regional impact under this section, all development within the defined planning area shall conform to the approved areawide development plan and development order. Individual developments that conform to the approved areawide development plan shall not be required to undergo further development-of-regional-impact review, unless otherwise provided in the development order. As used in this subsection, the term:~~

~~1. "Areawide development plan" means a plan of development that, at a minimum:~~

~~a. Encompasses a defined planning area approved pursuant to this subsection that will include at least two or more developments;~~

~~b. Maps and defines the land uses proposed, including the amount of development by use and development phasing;~~

~~c. Integrates a capital improvements program for transportation and other public facilities to ensure development staging contingent on availability of facilities and services;~~

~~d. Incorporates land development regulation, covenants, and other restrictions adequate to protect resources and facilities of regional and state significance; and~~

~~e. Specifies responsibilities and identifies the mechanisms for carrying out all commitments in the areawide development plan and for compliance with all conditions of any areawide development order.~~

~~2. "Developer" means any person or association of persons, including a governmental agency as defined in s. 380.031(6), that petitions for authorization to file an application for development approval for an areawide development plan.~~

~~(b) A developer may petition for authorization to submit a proposed areawide development of regional impact for a defined planning area in accordance with the following requirements:~~

~~1. A petition shall be submitted to the local government, the regional planning agency, and the state land planning agency.~~

~~2. A public hearing or joint public hearing shall be held if required by paragraph (c), with appropriate notice, before the affected local government.~~

~~3. The state land planning agency shall apply the following criteria for evaluating a petition:~~

~~a. Whether the developer is financially capable of processing the application for development approval through final approval pursuant to this section.~~

~~b. Whether the defined planning area and anticipated development therein appear to be of a character, magnitude, and location that a proposed areawide development plan would be in the public interest. Any public interest determination under this criterion is preliminary and not binding on the state land planning agency, regional planning agency, or local government.~~

~~4. The state land planning agency shall develop and make~~

~~available standard forms for petitions and applications for development approval for use under this subsection.~~

~~(c) Any person may submit a petition to a local government having jurisdiction over an area to be developed, requesting that government to approve that person as a developer, whether or not any or all development will be undertaken by that person, and to approve the area as appropriate for an areawide development of regional impact.~~

~~(d) A general purpose local government with jurisdiction over an area to be considered in an areawide development of regional impact shall not have to petition itself for authorization to prepare and consider an application for development approval for an areawide development plan. However, such a local government shall initiate the preparation of an application only:~~

~~1. After scheduling and conducting a public hearing as specified in paragraph (c); and~~

~~2. After conducting such hearing, finding that the planning area meets the standards and criteria pursuant to subparagraph (b)3. for determining that an areawide development plan will be in the public interest.~~

~~(c) The local government shall schedule a public hearing within 60 days after receipt of the petition. The public hearing shall be advertised at least 30 days prior to the hearing. In addition to the public hearing notice by the local government, the petitioner, except when the petitioner is a local government, shall provide actual notice to each person owning land within the proposed areawide development plan at least 30 days prior to the hearing. If the petitioner is a local~~

~~government, or local governments pursuant to an interlocal agreement, notice of the public hearing shall be provided by the publication of an advertisement in a newspaper of general circulation that meets the requirements of this paragraph. The advertisement must be no less than one-quarter page in a standard size or tabloid size newspaper, and the headline in the advertisement must be in type no smaller than 18 point. The advertisement shall not be published in that portion of the newspaper where legal notices and classified advertisements appear. The advertisement must be published in a newspaper of general paid circulation in the county and of general interest and readership in the community, not one of limited subject matter, pursuant to chapter 50. Whenever possible, the advertisement must appear in a newspaper that is published at least 5 days a week, unless the only newspaper in the community is published less than 5 days a week. The advertisement must be in substantially the form used to advertise amendments to comprehensive plans pursuant to s. 163.3184. The local government shall specifically notify in writing the regional planning agency and the state land planning agency at least 30 days prior to the public hearing. At the public hearing, all interested parties may testify and submit evidence regarding the petitioner's qualifications, the need for and benefits of an areawide development of regional impact, and such other issues relevant to a full consideration of the petition. If more than one local government has jurisdiction over the defined planning area in an areawide development plan, the local governments shall hold a joint public hearing. Such hearing shall address, at a minimum, the need to resolve conflicting ordinances or~~

~~comprehensive plans, if any. The local government holding the joint hearing shall comply with the following additional requirements:~~

~~1. The notice of the hearing shall be published at least 60 days in advance of the hearing and shall specify where the petition may be reviewed.~~

~~2. The notice shall be given to the state land planning agency, to the applicable regional planning agency, and to such other persons as may have been designated by the state land planning agency as entitled to receive such notices.~~

~~3. A public hearing date shall be set by the appropriate local government at the next scheduled meeting.~~

~~(f) Following the public hearing, the local government shall issue a written order, appealable under s. 380.07, which approves, approves with conditions, or denies the petition. It shall approve the petitioner as the developer if it finds that the petitioner and defined planning area meet the standards and criteria, consistent with applicable law, pursuant to subparagraph (b)3.~~

~~(g) The local government shall submit any order which approves the petition, or approves the petition with conditions, to the petitioner, to all owners of property within the defined planning area, to the regional planning agency, and to the state land planning agency within 30 days after the order becomes effective.~~

~~(h) The petitioner, an owner of property within the defined planning area, the appropriate regional planning agency by vote at a regularly scheduled meeting, or the state land planning agency may appeal the decision of the local government to the~~

~~Florida Land and Water Adjudicatory Commission by filing a notice of appeal with the commission. The procedures established in s. 380.07 shall be followed for such an appeal.~~

~~(i) After the time for appeal of the decision has run, an approved developer may submit an application for development approval for a proposed areawide development of regional impact for land within the defined planning area, pursuant to subsection (6). Development undertaken in conformance with an areawide development order issued under this section shall not require further development-of-regional-impact review.~~

~~(j) In reviewing an application for a proposed areawide development of regional impact, the regional planning agency shall evaluate, and the local government shall consider, the following criteria, in addition to any other criteria set forth in this section:~~

~~1. Whether the developer has demonstrated its legal, financial, and administrative ability to perform any commitments it has made in the application for a proposed areawide development of regional impact.~~

~~2. Whether the developer has demonstrated that all property owners within the defined planning area consent or do not object to the proposed areawide development of regional impact.~~

~~3. Whether the area and the anticipated development are consistent with the applicable local, regional, and state comprehensive plans, except as provided for in paragraph (k).~~

~~(k) In addition to the requirements of subsection (14), a development order approving, or approving with conditions, a proposed areawide development of regional impact shall specify the approved land uses and the amount of development approved~~

~~within each land use category in the defined planning area. The development order shall incorporate by reference the approved areawide development plan. The local government shall not approve an areawide development plan that is inconsistent with the local comprehensive plan, except that a local government may amend its comprehensive plan pursuant to paragraph (6)(b).~~

~~(l) Any owner of property within the defined planning area may withdraw his or her consent to the areawide development plan at any time prior to local government approval, with or without conditions, of the petition; and the plan, the areawide development order, and the exemption from development-of-regional-impact review of individual projects under this section shall not thereafter apply to the owner's property. After the areawide development order is issued, a landowner may withdraw his or her consent only with the approval of the local government.~~

~~(m) If the developer of an areawide development of regional impact is a general purpose local government with jurisdiction over the land area included within the areawide development proposal and if no interest in the land within the land area is owned, leased, or otherwise controlled by a person, corporate or natural, for the purpose of mining or beneficiation of minerals, then:~~

~~1. Demonstration of property owner consent or lack of objection to an areawide development plan shall not be required; and~~

~~2. The option to withdraw consent does not apply, and all property and development within the areawide development planning area shall be subject to the areawide plan and to the~~

~~development order conditions.~~

~~(n) After a development order approving an areawide development plan is received, changes shall be subject to the provisions of subsection (19), except that the percentages and numerical criteria shall be double those listed in paragraph (19)(b).~~

(11)~~(26)~~ ABANDONMENT OF DEVELOPMENTS OF REGIONAL IMPACT.—

(a) There is hereby established a process to abandon a development of regional impact and its associated development orders. A development of regional impact and its associated development orders may be proposed to be abandoned by the owner or developer. The local government in whose jurisdiction ~~in which~~ the development of regional impact is located also may propose to abandon the development of regional impact, provided that the local government gives individual written notice to each development-of-regional-impact owner and developer of record, and provided that no such owner or developer objects in writing to the local government before ~~prior to~~ or at the public hearing pertaining to abandonment of the development of regional impact. ~~The state land planning agency is authorized to promulgate rules that shall include, but not be limited to, criteria for determining whether to grant, grant with conditions, or deny a proposal to abandon, and provisions to ensure that the developer satisfies all applicable conditions of the development order and adequately mitigates for the impacts of the development.~~ If there is no existing development within the development of regional impact at the time of abandonment and no development within the development of regional impact is proposed by the owner or developer after such abandonment, an

abandonment order may ~~shall~~ not require the owner or developer to contribute any land, funds, or public facilities as a condition of such abandonment order. The local government must file ~~rules shall also provide a procedure for filing~~ notice of the abandonment pursuant to s. 28.222 with the clerk of the circuit court for each county in which the development of regional impact is located. Abandonment will be deemed to have occurred upon the recording of the notice. Any decision by a local government concerning the abandonment of a development of regional impact is ~~shall be~~ subject to an appeal pursuant to s. 380.07. The issues in any such appeal must ~~shall~~ be confined to whether the provisions of this subsection ~~or any rules promulgated thereunder~~ have been satisfied.

(b) If requested by the owner, developer, or local government, the development-of-regional-impact development order must be abandoned by the local government having jurisdiction upon a showing that all required mitigation related to the amount of development which existed on the date of abandonment has been completed or will be completed under an existing permit or equivalent authorization issued by a governmental agency as defined in s. 380.031(6), provided such permit or authorization is subject to enforcement through administrative or judicial remedies ~~Upon receipt of written confirmation from the state land planning agency that any required mitigation applicable to completed development has occurred, an industrial development of regional impact located within the coastal high hazard area of a rural area of opportunity which was approved before the adoption of the local government's comprehensive plan required under s. 163.3167 and which plan's future land use map and zoning~~

~~designates the land use for the development of regional impact as commercial may be unilaterally abandoned without the need to proceed through the process described in paragraph (a) if the developer or owner provides a notice of abandonment to the local government and records such notice with the applicable clerk of court. Abandonment shall be deemed to have occurred upon the recording of the notice~~. All development following abandonment must ~~shall~~ be fully consistent with the current comprehensive plan and applicable zoning.

(c) A development order for abandonment of an approved development of regional impact may be amended by a local government pursuant to subsection (7), provided that the amendment does not reduce any mitigation previously required as a condition of abandonment, unless the developer demonstrates that changes to the development no longer will result in impacts that necessitated the mitigation.

~~(27) RIGHTS, RESPONSIBILITIES, AND OBLIGATIONS UNDER A DEVELOPMENT ORDER. If a developer or owner is in doubt as to his or her rights, responsibilities, and obligations under a development order and the development order does not clearly define his or her rights, responsibilities, and obligations, the developer or owner may request participation in resolving the dispute through the dispute resolution process outlined in s. 186.509. The Department of Economic Opportunity shall be notified by certified mail of any meeting held under the process provided for by this subsection at least 5 days before the meeting.~~

~~(28) PARTIAL STATUTORY EXEMPTIONS.—~~

~~(a) If the binding agreement referenced under paragraph~~

~~(24)(l) for urban service boundaries is not entered into within 12 months after establishment of the urban service boundary, the development of regional impact review for projects within the urban service boundary must address transportation impacts only.~~

~~(b) If the binding agreement referenced under paragraph (24)(m) for rural land stewardship areas is not entered into within 12 months after the designation of a rural land stewardship area, the development-of-regional-impact review for projects within the rural land stewardship area must address transportation impacts only.~~

~~(c) If the binding agreement for designated urban infill and redevelopment areas is not entered into within 12 months after the designation of the area or July 1, 2007, whichever occurs later, the development-of-regional-impact review for projects within the urban infill and redevelopment area must address transportation impacts only.~~

~~(d) A local government that does not wish to enter into a binding agreement or that is unable to agree on the terms of the agreement referenced under paragraph (24)(l) or paragraph (24)(m) shall provide written notification to the state land planning agency of the decision to not enter into a binding agreement or the failure to enter into a binding agreement within the 12-month period referenced in paragraphs (a), (b) and (c). Following the notification of the state land planning agency, development-of-regional-impact review for projects within an urban service boundary under paragraph (24)(l), or a rural land stewardship area under paragraph (24)(m), must address transportation impacts only.~~

~~(e) The vesting provision of s. 163.3167(5) relating to an~~

~~authorized development of regional impact does not apply to those projects partially exempt from the development-of-regional impact review process under paragraphs (a)-(d).~~

~~(29) EXEMPTIONS FOR DENSE URBAN LAND AREAS.—~~

~~(a) The following are exempt from this section:~~

~~1. Any proposed development in a municipality that has an average of at least 1,000 people per square mile of land area and a minimum total population of at least 5,000;~~

~~2. Any proposed development within a county, including the municipalities located in the county, that has an average of at least 1,000 people per square mile of land area and is located within an urban service area as defined in s. 163.3164 which has been adopted into the comprehensive plan;~~

~~3. Any proposed development within a county, including the municipalities located therein, which has a population of at least 900,000, that has an average of at least 1,000 people per square mile of land area, but which does not have an urban service area designated in the comprehensive plan; or~~

~~4. Any proposed development within a county, including the municipalities located therein, which has a population of at least 1 million and is located within an urban service area as defined in s. 163.3164 which has been adopted into the comprehensive plan.~~

~~The Office of Economic and Demographic Research within the Legislature shall annually calculate the population and density criteria needed to determine which jurisdictions meet the density criteria in subparagraphs 1.-4. by using the most recent land area data from the decennial census conducted by the Bureau~~

~~of the Census of the United States Department of Commerce and the latest available population estimates determined pursuant to s. 186.901. If any local government has had an annexation, contraction, or new incorporation, the Office of Economic and Demographic Research shall determine the population density using the new jurisdictional boundaries as recorded in accordance with s. 171.091. The Office of Economic and Demographic Research shall annually submit to the state land planning agency by July 1 a list of jurisdictions that meet the total population and density criteria. The state land planning agency shall publish the list of jurisdictions on its Internet website within 7 days after the list is received. The designation of jurisdictions that meet the criteria of subparagraphs 1.-4. is effective upon publication on the state land planning agency's Internet website. If a municipality that has previously met the criteria no longer meets the criteria, the state land planning agency shall maintain the municipality on the list and indicate the year the jurisdiction last met the criteria. However, any proposed development of regional impact not within the established boundaries of a municipality at the time the municipality last met the criteria must meet the requirements of this section until such time as the municipality as a whole meets the criteria. Any county that meets the criteria shall remain on the list in accordance with the provisions of this paragraph. Any jurisdiction that was placed on the dense urban land area list before June 2, 2011, shall remain on the list in accordance with the provisions of this paragraph.~~

~~(b) If a municipality that does not qualify as a dense~~

~~urban land area pursuant to paragraph (a) designates any of the following areas in its comprehensive plan, any proposed development within the designated area is exempt from the development-of-regional-impact process:~~

~~1. Urban infill as defined in s. 163.3164;~~

~~2. Community redevelopment areas as defined in s. 163.340;~~

~~3. Downtown revitalization areas as defined in s. 163.3164;~~

~~4. Urban infill and redevelopment under s. 163.2517; or~~

~~5. Urban service areas as defined in s. 163.3164 or areas within a designated urban service boundary under s. 163.3177(14), Florida Statutes (2010).~~

~~(c) If a county that does not qualify as a dense urban land area designates any of the following areas in its comprehensive plan, any proposed development within the designated area is exempt from the development-of-regional-impact process:~~

~~1. Urban infill as defined in s. 163.3164;~~

~~2. Urban infill and redevelopment under s. 163.2517; or~~

~~3. Urban service areas as defined in s. 163.3164.~~

~~(d) A development that is located partially outside an area that is exempt from the development-of-regional-impact program must undergo development-of-regional-impact review pursuant to this section. However, if the total acreage that is included within the area exempt from development-of-regional-impact review exceeds 85 percent of the total acreage and square footage of the approved development of regional impact, the development of regional impact development order may be rescinded in both local governments pursuant to s. 380.115(1), unless the portion of the development outside the exempt area meets the threshold criteria of a development-of-regional-~~

~~impact.~~

~~(c) In an area that is exempt under paragraphs (a)-(c), any previously approved development of regional impact development orders shall continue to be effective, but the developer has the option to be governed by s. 380.115(1). A pending application for development approval shall be governed by s. 380.115(2).~~

~~(f) Local governments must submit by mail a development order to the state land planning agency for projects that would be larger than 120 percent of any applicable development-of-regional-impact threshold and would require development-of-regional-impact review but for the exemption from the program under paragraphs (a)-(c). For such development orders, the state land planning agency may appeal the development order pursuant to s. 380.07 for inconsistency with the comprehensive plan adopted under chapter 163.~~

~~(g) If a local government that qualifies as a dense urban land area under this subsection is subsequently found to be ineligible for designation as a dense urban land area, any development located within that area which has a complete, pending application for authorization to commence development may maintain the exemption if the developer is continuing the application process in good faith or the development is approved.~~

~~(h) This subsection does not limit or modify the rights of any person to complete any development that has been authorized as a development of regional impact pursuant to this chapter.~~

~~(i) This subsection does not apply to areas:~~

~~1. Within the boundary of any area of critical state concern designated pursuant to s. 380.05;~~

~~2. Within the boundary of the Wekiva Study Area as described in s. 369.316; or~~

~~3. Within 2 miles of the boundary of the Everglades Protection Area as described in s. 373.4592(2).~~

(12) ~~(30)~~ PROPOSED DEVELOPMENTS.—A proposed development that exceeds the statewide guidelines and standards specified in s. 380.0651 and is not otherwise exempt pursuant to s. 380.0651 must ~~otherwise subject to the review requirements of this section shall~~ be approved by a local government pursuant to s. 163.3184(4) in lieu of proceeding in accordance with this section. However, if the proposed development is consistent with the comprehensive plan as provided in s. 163.3194(3)(b), the development is not required to undergo review pursuant to s. 163.3184(4) or this section. This subsection does not apply to amendments to a development order governing an existing development of regional impact.

Section 3. Section 380.061, Florida Statutes, is amended to read:

380.061 The Florida Quality Developments program.—

(1) This section only applies to developments approved as Florida Quality Developments before the effective date of this act ~~There is hereby created the Florida Quality Developments program. The intent of this program is to encourage development which has been thoughtfully planned to take into consideration protection of Florida's natural amenities, the cost to local government of providing services to a growing community, and the high quality of life Floridians desire. It is further intended that the developer be provided, through a cooperative and coordinated effort, an expeditious and timely review by all~~

~~agencies with jurisdiction over the project of his or her proposed development~~.

(2) Following written notification to the state land planning agency and the appropriate regional planning agency, a local government with an approved Florida Quality Development within its jurisdiction must set a public hearing pursuant to its local procedures and shall adopt a local development order to replace and supersede the development order adopted by the state land planning agency for the Florida Quality Development. Thereafter, the Florida Quality Development shall follow the procedures and requirements for developments of regional impact as specified in this chapter ~~Developments that may be designated as Florida Quality Developments are those developments which are above 80 percent of any numerical thresholds in the guidelines and standards for development-of-regional-impact review pursuant to s. 380.06~~.

~~(3)(a) To be eligible for designation under this program, the developer shall comply with each of the following requirements if applicable to the site of a qualified development:~~

~~1. Donate or enter into a binding commitment to donate the fee or a lesser interest sufficient to protect, in perpetuity, the natural attributes of the types of land listed below. In lieu of this requirement, the developer may enter into a binding commitment that runs with the land to set aside such areas on the property, in perpetuity, as open space to be retained in a natural condition or as otherwise permitted under this subparagraph. Under the requirements of this subparagraph, the developer may reserve the right to use such areas for passive~~

~~recreation that is consistent with the purposes for which the land was preserved.~~

~~a. Those wetlands and water bodies throughout the state which would be delineated if the provisions of s. 373.4145(1)(b) were applied. The developer may use such areas for the purpose of site access, provided other routes of access are unavailable or impracticable; may use such areas for the purpose of stormwater or domestic sewage management and other necessary utilities if such uses are permitted pursuant to chapter 403; or may redesign or alter wetlands and water bodies within the jurisdiction of the Department of Environmental Protection which have been artificially created if the redesign or alteration is done so as to produce a more naturally functioning system.~~

~~b. Active beach or primary and, where appropriate, secondary dunes, to maintain the integrity of the dune system and adequate public accessways to the beach. However, the developer may retain the right to construct and maintain elevated walkways over the dunes to provide access to the beach.~~

~~c. Known archaeological sites determined to be of significance by the Division of Historical Resources of the Department of State.~~

~~d. Areas known to be important to animal species designated as endangered or threatened by the United States Fish and Wildlife Service or by the Fish and Wildlife Conservation Commission, for reproduction, feeding, or nesting; for traveling between such areas used for reproduction, feeding, or nesting; or for escape from predation.~~

~~e. Areas known to contain plant species designated as endangered by the Department of Agriculture and Consumer~~

~~Services.~~

~~2. Produce, or dispose of, no substances designated as hazardous or toxic substances by the United States Environmental Protection Agency, the Department of Environmental Protection, or the Department of Agriculture and Consumer Services. This subparagraph does not apply to the production of these substances in nonsignificant amounts as would occur through household use or incidental use by businesses.~~

~~3. Participate in a downtown reuse or redevelopment program to improve and rehabilitate a declining downtown area.~~

~~4. Incorporate no dredge and fill activities in, and no stormwater discharge into, waters designated as Class II, aquatic preserves, or Outstanding Florida Waters, except as permitted pursuant to s. 403.813(1), and the developer demonstrates that those activities meet the standards under Class II waters, Outstanding Florida Waters, or aquatic preserves, as applicable.~~

~~5. Include open space, recreation areas, Florida-friendly landscaping as defined in s. 373.185, and energy conservation and minimize impermeable surfaces as appropriate to the location and type of project.~~

~~6. Provide for construction and maintenance of all onsite infrastructure necessary to support the project and enter into a binding commitment with local government to provide an appropriate fair-share contribution toward the offsite impacts that the development will impose on publicly funded facilities and services, except offsite transportation, and condition or phase the commencement of development to ensure that public facilities and services, except offsite transportation, are

~~available concurrent with the impacts of the development. For the purposes of offsite transportation impacts, the developer shall comply, at a minimum, with the standards of the state land planning agency's development-of-regional-impact transportation rule, the approved strategic regional policy plan, any applicable regional planning council transportation rule, and the approved local government comprehensive plan and land development regulations adopted pursuant to part II of chapter 163.~~

~~7. Design and construct the development in a manner that is consistent with the adopted state plan, the applicable strategic regional policy plan, and the applicable adopted local government comprehensive plan.~~

~~(b) In addition to the foregoing requirements, the developer shall plan and design his or her development in a manner which includes the needs of the people in this state as identified in the state comprehensive plan and the quality of life of the people who will live and work in or near the development. The developer is encouraged to plan and design his or her development in an innovative manner. These planning and design features may include, but are not limited to, such things as affordable housing, care for the elderly, urban renewal or redevelopment, mass transit, the protection and preservation of wetlands outside the jurisdiction of the Department of Environmental Protection or of uplands as wildlife habitat, provision for the recycling of solid waste, provision for onsite child care, enhancement of emergency management capabilities, the preservation of areas known to be primary habitat for significant populations of species of special concern designated

~~by the Fish and Wildlife Conservation Commission, or community economic development. These additional amenities will be considered in determining whether the development qualifies for designation under this program.~~

~~(4) The department shall adopt an application for development designation consistent with the intent of this section.~~

~~(5)(a) Before filing an application for development designation, the developer shall contact the Department of Economic Opportunity to arrange one or more preapplication conferences with the other reviewing entities. Upon the request of the developer or any of the reviewing entities, other affected state or regional agencies shall participate in this conference. The department, in coordination with the local government with jurisdiction and the regional planning council, shall provide the developer information about the Florida Quality Developments designation process and the use of preapplication conferences to identify issues, coordinate appropriate state, regional, and local agency requirements, fully address any concerns of the local government, the regional planning council, and other reviewing agencies and the meeting of those concerns, if applicable, through development order conditions, and otherwise promote a proper, efficient, and timely review of the proposed Florida Quality Development. The department shall take the lead in coordinating the review process.~~

~~(b) The developer shall submit the application to the state land planning agency, the appropriate regional planning agency, and the appropriate local government for review. The review~~

~~shall be conducted under the time limits and procedures set forth in s. 120.60, except that the 90-day time limit shall cease to run when the state land planning agency and the local government have notified the applicant of their decision on whether the development should be designated under this program.~~

~~(c) At any time prior to the issuance of the Florida Quality Development development order, the developer of a proposed Florida Quality Development shall have the right to withdraw the proposed project from consideration as a Florida Quality Development. The developer may elect to convert the proposed project to a proposed development of regional impact. The conversion shall be in the form of a letter to the reviewing entities stating the developer's intent to seek authorization for the development as a development of regional impact under s. 380.06. If a proposed Florida Quality Development converts to a development of regional impact, the developer shall resubmit the appropriate application and the development shall be subject to all applicable procedures under s. 380.06, except that:~~

~~1. A preapplication conference held under paragraph (a) satisfies the preapplication procedures requirement under s. 380.06(7); and~~

~~2. If requested in the withdrawal letter, a finding of completeness of the application under paragraph (a) and s. 120.60 may be converted to a finding of sufficiency by the regional planning council if such a conversion is approved by the regional planning council.~~

~~The regional planning council shall have 30 days to notify the developer if the request for conversion of completeness to~~

~~sufficiency is granted or denied. If granted and the application is found sufficient, the regional planning council shall notify the local government that a public hearing date may be set to consider the development for approval as a development of regional impact, and the development shall be subject to all applicable rules, standards, and procedures of s. 380.06. If the request for conversion of completeness to sufficiency is denied, the developer shall resubmit the appropriate application for review and the development shall be subject to all applicable procedures under s. 380.06, except as otherwise provided in this paragraph.~~

~~(d) If the local government and state land planning agency agree that the project should be designated under this program, the state land planning agency shall issue a development order which incorporates the plan of development as set out in the application along with any agreed-upon modifications and conditions, based on recommendations by the local government and regional planning council, and a certification that the development is designated as one of Florida's Quality Developments. In the event of conflicting recommendations, the state land planning agency, after consultation with the local government and the regional planning agency, shall resolve such conflicts in the development order. Upon designation, the development, as approved, is exempt from development-of-regional-impact review pursuant to s. 380.06.~~

~~(e) If the local government or state land planning agency, or both, recommends against designation, the development shall undergo development-of-regional-impact review pursuant to s. 380.06, except as provided in subsection (6) of this section.~~

~~(6)(a) In the event that the development is not designated under subsection (5), the developer may appeal that determination to the Quality Developments Review Board. The board shall consist of the secretary of the state land planning agency, the Secretary of Environmental Protection and a member designated by the secretary, the Secretary of Transportation, the executive director of the Fish and Wildlife Conservation Commission, the executive director of the appropriate water management district created pursuant to chapter 373, and the chief executive officer of the appropriate local government. When there is a significant historical or archaeological site within the boundaries of a development which is appealed to the board, the director of the Division of Historical Resources of the Department of State shall also sit on the board. The staff of the state land planning agency shall serve as staff to the board.~~

~~(b) The board shall meet once each quarter of the year. However, a meeting may be waived if no appeals are pending.~~

~~(c) On appeal, the sole issue shall be whether the development meets the statutory criteria for designation under this program. An affirmative vote of at least five members of the board, including the affirmative vote of the chief executive officer of the appropriate local government, shall be necessary to designate the development by the board.~~

~~(d) The state land planning agency shall adopt procedural rules for consideration of appeals under this subsection.~~

~~(7)(a) The development order issued pursuant to this section is enforceable in the same manner as a development order issued pursuant to s. 380.06.~~

~~(b) Appeal of a development order issued pursuant to this section shall be available only pursuant to s. 380.07.~~

~~(8)(a) Any local government comprehensive plan amendments related to a Florida Quality Development may be initiated by a local planning agency and considered by the local governing body at the same time as the application for development approval. Nothing in this subsection shall be construed to require favorable consideration of a Florida Quality Development solely because it is related to a development of regional impact.~~

~~(b) The department shall adopt, by rule, standards and procedures necessary to implement the Florida Quality Developments program. The rules must include, but need not be limited to, provisions governing annual reports and criteria for determining whether a proposed change to an approved Florida Quality Development is a substantial change requiring further review.~~

Section 4. Section 380.0651, Florida Statutes, is amended to read:

380.0651 Statewide guidelines, ~~and~~ standards, and exemptions.—

(1) STATEWIDE GUIDELINES AND STANDARDS.—~~The statewide guidelines and standards for developments required to undergo development-of-regional-impact review provided in this section supersede the statewide guidelines and standards previously adopted by the Administration Commission that address the same development. Other standards and guidelines previously adopted by the Administration Commission, including the residential standards and guidelines, shall not be superseded. The guidelines and standards shall be applied in the manner~~

~~described in s. 380.06(2)(a).~~

~~(2) The Administration Commission shall publish the statewide guidelines and standards established in this section in its administrative rule in place of the guidelines and standards that are superseded by this act, without the proceedings required by s. 120.54 and notwithstanding the provisions of s. 120.545(1)(c). The Administration Commission shall initiate rulemaking proceedings pursuant to s. 120.54 to make all other technical revisions necessary to conform the rules to this act. Rule amendments made pursuant to this subsection shall not be subject to the requirement for legislative approval pursuant to s. 380.06(2).~~

~~(3)~~ Subject to the exemptions and partial exemptions specified in this section, the following statewide guidelines and standards shall be applied in the manner described in s. 380.06(2) to determine whether the following developments are subject to the requirements of s. 380.06 ~~shall be required to undergo development-of-regional-impact review~~:

(a) *Airports.*—

1. Any of the following airport construction projects is ~~shall be~~ a development of regional impact:

a. A new commercial service or general aviation airport with paved runways.

b. A new commercial service or general aviation paved runway.

c. A new passenger terminal facility.

2. Lengthening of an existing runway by 25 percent or an increase in the number of gates by 25 percent or three gates, whichever is greater, on a commercial service airport or a

general aviation airport with regularly scheduled flights is a development of regional impact. However, expansion of existing terminal facilities at a nonhub or small hub commercial service airport is ~~shall~~ not ~~be~~ a development of regional impact.

3. Any airport development project which is proposed for safety, repair, or maintenance reasons alone and would not have the potential to increase or change existing types of aircraft activity is not a development of regional impact. Notwithstanding subparagraphs 1. and 2., renovation, modernization, or replacement of airport airside or terminal facilities that may include increases in square footage of such facilities but does not increase the number of gates or change the existing types of aircraft activity is not a development of regional impact.

(b) *Attractions and recreation facilities.*—Any sports, entertainment, amusement, or recreation facility, including, but not limited to, a sports arena, stadium, racetrack, tourist attraction, amusement park, or pari-mutuel facility, the construction or expansion of which:

1. For single performance facilities:

a. Provides parking spaces for more than 2,500 cars; or

b. Provides more than 10,000 permanent seats for spectators.

2. For serial performance facilities:

a. Provides parking spaces for more than 1,000 cars; or

b. Provides more than 4,000 permanent seats for spectators.

For purposes of this subsection, "serial performance facilities" means those using their parking areas or permanent seating more

than one time per day on a regular or continuous basis.

(c) *Office development.*—Any proposed office building or park operated under common ownership, development plan, or management that:

1. Encompasses 300,000 or more square feet of gross floor area; or

2. Encompasses more than 600,000 square feet of gross floor area in a county with a population greater than 500,000 and only in a geographic area specifically designated as highly suitable for increased threshold intensity in the approved local comprehensive plan.

(d) *Retail and service development.*—Any proposed retail, service, or wholesale business establishment or group of establishments which deals primarily with the general public onsite, operated under one common property ownership, development plan, or management that:

1. Encompasses more than 400,000 square feet of gross area; or

2. Provides parking spaces for more than 2,500 cars.

(e) *Recreational vehicle development.*—Any proposed recreational vehicle development planned to create or accommodate 500 or more spaces.

(f) *Multiuse development.*—Any proposed development with two or more land uses where the sum of the percentages of the appropriate thresholds identified in chapter 28-24, Florida Administrative Code, or this section for each land use in the development is equal to or greater than 145 percent. Any proposed development with three or more land uses, one of which is residential and contains at least 100 dwelling units or 15

percent of the applicable residential threshold, whichever is greater, where the sum of the percentages of the appropriate thresholds identified in chapter 28-24, Florida Administrative Code, or this section for each land use in the development is equal to or greater than 160 percent. This threshold is in addition to, and does not preclude, a development from being required to undergo development-of-regional-impact review under any other threshold.

(g) *Residential development.*—A rule may not be adopted concerning residential developments which treats a residential development in one county as being located in a less populated adjacent county unless more than 25 percent of the development is located within 2 miles or less of the less populated adjacent county. The residential thresholds of adjacent counties with less population and a lower threshold may not be controlling on any development wholly located within areas designated as rural areas of opportunity.

(h) *Workforce housing.*—The applicable guidelines for residential development and the residential component for multiuse development shall be increased by 50 percent where the developer demonstrates that at least 15 percent of the total residential dwelling units authorized within the development of regional impact will be dedicated to affordable workforce housing, subject to a recorded land use restriction that shall be for a period of not less than 20 years and that includes resale provisions to ensure long-term affordability for income-eligible homeowners and renters and provisions for the workforce housing to be commenced prior to the completion of 50 percent of the market rate dwelling. For purposes of this paragraph, the

term "affordable workforce housing" means housing that is affordable to a person who earns less than 120 percent of the area median income, or less than 140 percent of the area median income if located in a county in which the median purchase price for a single-family existing home exceeds the statewide median purchase price of a single-family existing home. For the purposes of this paragraph, the term "statewide median purchase price of a single-family existing home" means the statewide purchase price as determined in the Florida Sales Report, Single-Family Existing Homes, released each January by the Florida Association of Realtors and the University of Florida Real Estate Research Center.

(i) *Schools.*—

1. The proposed construction of any public, private, or proprietary postsecondary educational campus which provides for a design population of more than 5,000 full-time equivalent students, or the proposed physical expansion of any public, private, or proprietary postsecondary educational campus having such a design population that would increase the population by at least 20 percent of the design population.

2. As used in this paragraph, "full-time equivalent student" means enrollment for 15 or more quarter hours during a single academic semester. In career centers or other institutions which do not employ semester hours or quarter hours in accounting for student participation, enrollment for 18 contact hours shall be considered equivalent to one quarter hour, and enrollment for 27 contact hours shall be considered equivalent to one semester hour.

3. This paragraph does not apply to institutions which are

the subject of a campus master plan adopted by the university board of trustees pursuant to s. 1013.30.

(2) STATUTORY EXEMPTIONS.—The following developments are exempt from s. 380.06:

(a) Any proposed hospital.

(b) Any proposed electrical transmission line or electrical power plant.

(c) Any proposed addition to an existing sports facility complex if the addition meets the following characteristics:

1. It would not operate concurrently with the scheduled hours of operation of the existing facility;

2. Its seating capacity would be no more than 75 percent of the capacity of the existing facility; and

3. The sports facility complex property was owned by a public body before July 1, 1983.

This exemption does not apply to any pari-mutuel facility as defined in s. 550.002.

(d) Any proposed addition or cumulative additions subsequent to July 1, 1988, to an existing sports facility complex owned by a state university, if the increased seating capacity of the complex is no more than 30 percent of the capacity of the existing facility.

(e) Any addition of permanent seats or parking spaces for an existing sports facility located on property owned by a public body before July 1, 1973, if future additions do not expand existing permanent seating or parking capacity more than 15 percent annually in excess of the prior year's capacity.

(f) Any increase in the seating capacity of an existing

sports facility having a permanent seating capacity of at least 50,000 spectators, provided that such an increase does not increase permanent seating capacity by more than 5 percent per year and does not exceed a total of 10 percent in any 5-year period. The sports facility must notify the appropriate local government within which the facility is located of the increase at least 6 months before the initial use of the increased seating in order to permit the appropriate local government to develop a traffic management plan for the traffic generated by the increase. Any traffic management plan must be consistent with the local comprehensive plan, the regional policy plan, and the state comprehensive plan.

(g) Any expansion in the permanent seating capacity or additional improved parking facilities of an existing sports facility, if the following conditions exist:

1.a. The sports facility had a permanent seating capacity on January 1, 1991, of at least 41,000 spectator seats;

b. The sum of such expansions in permanent seating capacity does not exceed a total of 10 percent in any 5-year period and does not exceed a cumulative total of 20 percent for any such expansions; or

c. The increase in additional improved parking facilities is a one-time addition and does not exceed 3,500 parking spaces serving the sports facility; and

2. The local government having jurisdiction over the sports facility includes in the development order or development permit approving such expansion under this paragraph a finding of fact that the proposed expansion is consistent with the transportation, water, sewer, and stormwater drainage provisions

of the approved local comprehensive plan and local land development regulations relating to those provisions.

Any owner or developer who intends to rely on this statutory exemption shall provide to the state land planning agency a copy of the local government application for a development permit. Within 45 days after receipt of the application, the state land planning agency shall render to the local government an advisory and nonbinding opinion, in writing, stating whether, in the state land planning agency's opinion, the prescribed conditions exist for an exemption under this paragraph. The local government shall render the development order approving each such expansion to the state land planning agency. The owner, developer, or state land planning agency may appeal the local government development order pursuant to s. 380.07 within 45 days after the order is rendered. The scope of review shall be limited to the determination of whether the conditions prescribed in this paragraph exist. If any sports facility expansion undergoes development-of-regional-impact review, all previous expansions that were exempt under this paragraph must be included in the development-of-regional-impact review.

(h) Expansion to port harbors, spoil disposal sites, navigation channels, turning basins, harbor berths, and other related inwater harbor facilities of the ports specified in s. 403.021(9)(b), port transportation facilities and projects listed in s. 311.07(3)(b), and intermodal transportation facilities identified pursuant to s. 311.09(3) when such expansions, projects, or facilities are consistent with port master plans and are in compliance with s. 163.3178.

(i) Any proposed facility for the storage of any petroleum product or any expansion of an existing facility.

(j) Any renovation or redevelopment within the same parcel as the existing development if such renovation or redevelopment does not change land use or increase density or intensity of use.

(k) Waterport and marina development, including dry storage facilities.

(l) Any proposed development within an urban service area boundary established under s. 163.3177(14), Florida Statutes 2010, that is not otherwise exempt pursuant to subsection (3),if the local government having jurisdiction over the area where the development is proposed has adopted the urban service area boundary and has entered into a binding agreement with jurisdictions that would be impacted and with the Department of Transportation regarding the mitigation of impacts on state and regional transportation facilities.

(m) Any proposed development within a rural land stewardship area created under s. 163.3248.

(n) The establishment, relocation, or expansion of any military installation as specified in s. 163.3175.

(o) Any self-storage warehousing that does not allow retail or other services.

(p) Any proposed nursing home or assisted living facility.

(q) Any development identified in an airport master plan and adopted into the comprehensive plan pursuant to s. 163.3177(6)(b)4.

(r) Any development identified in a campus master plan and adopted pursuant to s. 1013.30.

(s) Any development in a detailed specific area plan prepared and adopted pursuant to s. 163.3245.

(t) Any proposed solid mineral mine and any proposed addition to, expansion of, or change to an existing solid mineral mine. A mine owner must, however, enter into a binding agreement with the Department of Transportation to mitigate impacts to strategic intermodal system facilities. Proposed changes to any previously approved solid mineral mine development-of-regional-impact development orders having vested rights are not subject to further review or approval as a development-of-regional-impact or notice-of-proposed-change review or approval pursuant to subsection (19), except for those applications pending as of July 1, 2011, which are governed by s. 380.115(2). Notwithstanding this requirement, pursuant to s. 380.115(1), a previously approved solid mineral mine development-of-regional impact development order continues to have vested rights and continues to be effective unless rescinded by the developer. All local government regulations of proposed solid mineral mines are applicable to any new solid mineral mine or to any proposed addition to, expansion of, or change to an existing solid mineral mine.

(u) Notwithstanding any provision in an agreement with or among a local government, regional agency, or the state land planning agency or in a local government's comprehensive plan to the contrary, a project no longer subject to development-of regional-impact review under the revised thresholds specified in s. 380.06(2)(b) and this section.

(v) Any development within a county that has a research and education authority created by special act and which is also

within a research and development park that is operated or managed by a research and development authority pursuant to part V of chapter 159.

(w) Any development in an energy economic zone designated pursuant to s. 377.809 upon approval by its local governing body.

If a use is exempt from review pursuant to paragraphs (a)-(u), but will be part of a larger project that is subject to review pursuant to s. 380.06(12), the impact of the exempt use must be included in the review of the larger project, unless such exempt use involves a development that includes a landowner, tenant, or user that has entered into a funding agreement with the state land planning agency under the Innovation Incentive Program and the agreement contemplates a state award of at least $50 million.

(3) EXEMPTIONS FOR DENSE URBAN LAND AREAS.

(a) The following are exempt from the requirements of s. 380.06:

1. Any proposed development in a municipality having an average of at least 1,000 people per square mile of land area and a minimum total population of at least 5,000;

2. Any proposed development within a county, including the municipalities located therein, having an average of at least 1,000 people per square mile of land area and the development is located within an urban service area as defined in s. 163.3164 which has been adopted into the comprehensive plan as defined in s. 163.3164;

3. Any proposed development within a county, including the

municipalities located therein, having a population of at least 900,000 and an average of at least 1,000 people per square mile of land area, but which does not have an urban service area designated in the comprehensive plan; and

4. Any proposed development within a county, including the municipalities located therein, having a population of at least 1 million and the development is located within an urban service area as defined in s. 163.3164 which has been adopted into the comprehensive plan.

The Office of Economic and Demographic Research within the Legislature shall annually calculate the population and density criteria needed to determine which jurisdictions meet the density criteria in subparagraphs 1.-4. by using the most recent land area data from the decennial census conducted by the Bureau of the Census of the United States Department of Commerce and the latest available population estimates determined pursuant to s. 186.901. If any local government has had an annexation, contraction, or new incorporation, the Office of Economic and Demographic Research shall determine the population density using the new jurisdictional boundaries as recorded in accordance with s. 171.091. The Office of Economic and Demographic Research shall annually submit to the state land planning agency by July 1 a list of jurisdictions that meet the total population and density criteria. The state land planning agency shall publish the list of jurisdictions on its website within 7 days after the list is received. The designation of jurisdictions that meet the criteria of subparagraphs 1.-4. is effective upon publication on the state land planning agency's

website. If a municipality that has previously met the criteria no longer meets the criteria, the state land planning agency must maintain the municipality on the list and indicate the year the jurisdiction last met the criteria. However, any proposed development of regional impact not within the established boundaries of a municipality at the time the municipality last met the criteria must meet the requirements of this section until the municipality as a whole meets the criteria. Any county that meets the criteria must remain on the list. Any jurisdiction that was placed on the dense urban land area list before June 2, 2011, must remain on the list.

(b) If a municipality that does not qualify as a dense urban land area pursuant to paragraph (a) designates any of the following areas in its comprehensive plan, any proposed development within the designated area is exempt from s. 380.06 unless otherwise required by part II of chapter 163:

1. Urban infill as defined in s. 163.3164;

2. Community redevelopment areas as defined in s. 163.340;

3. Downtown revitalization areas as defined in s. 163.3164;

4. Urban infill and redevelopment under s. 163.2517; or

5. Urban service areas as defined in s. 163.3164 or areas within a designated urban service area boundary pursuant to s. 163.3177(14), Florida Statutes 2010.

(c) If a county that does not qualify as a dense urban land area designates any of the following areas in its comprehensive plan, any proposed development within the designated area is exempt from the development-of-regional-impact process:

1. Urban infill as defined in s. 163.3164;

2. Urban infill and redevelopment pursuant to s. 163.2517;

or

3. Urban service areas as defined in s. 163.3164.

(d) If any portion of a development is located in an area that is not exempt from review under s. 380.06, the development must undergo review pursuant to that section.

(e) In an area that is exempt under paragraphs (a), (b), and (c), any previously approved development-of-regional-impact development orders shall continue to be effective. However, the developer has the option to be governed by s. 380.115(1).

(f) If a local government qualifies as a dense urban land area under this subsection and is subsequently found to be ineligible for designation as a dense urban land area, any development located within that area which has a complete, pending application for authorization to commence development shall maintain the exemption if the developer is continuing the application process in good faith or the development is approved.

(g) This subsection does not limit or modify the rights of any person to complete any development that has been authorized as a development of regional impact pursuant to this chapter.

(h) This subsection does not apply to areas:

1. Within the boundary of any area of critical state concern designated pursuant to s. 380.05;

2. Within the boundary of the Wekiva Study Area as described in s. 369.316; or

3. Within 2 miles of the boundary of the Everglades Protection Area as defined in s. 373.4592.

(4) PARTIAL STATUTORY EXEMPTIONS.—

(a) If the binding agreement referenced under paragraph

(2)(l) for urban service boundaries is not entered into within 12 months after establishment of the urban service area boundary, the review pursuant to s. 380.06(12) for projects within the urban service area boundary must address transportation impacts only.

(b) If the binding agreement referenced under paragraph (2)(m) for rural land stewardship areas is not entered into within 12 months after the designation of a rural land stewardship area, the review pursuant to s. 380.06(12) for projects within the rural land stewardship area must address transportation impacts only.

(c) If the binding agreement for designated urban infill and redevelopment areas is not entered into within 12 months after the designation of the area or July 1, 2007, whichever occurs later, the review pursuant to s. 380.06(12) for projects within the urban infill and redevelopment area must address transportation impacts only.

(d) A local government that does not wish to enter into a binding agreement or that is unable to agree on the terms of the agreement referenced under paragraph (2)(l) or paragraph (2)(m) must provide written notification to the state land planning agency of the decision to not enter into a binding agreement or the failure to enter into a binding agreement within the 12-month period referenced in paragraphs (a), (b), and (c). Following the notification of the state land planning agency, a review pursuant to s. 380.06(12) for projects within an urban service area boundary under paragraph (2)(l), or a rural land stewardship area under paragraph (2)(m), must address transportation impacts only.

(e) The vesting provision of s. 163.3167(5) relating to an authorized development of regional impact does not apply to those projects partially exempt from s. 380.06 under paragraphs (a)-(d) of this subsection.

~~(4) Two or more developments, represented by their owners or developers to be separate developments, shall be aggregated and treated as a single development under this chapter when they are determined to be part of a unified plan of development and are physically proximate to one other.~~

~~(a) The criteria of three of the following subparagraphs must be met in order for the state land planning agency to determine that there is a unified plan of development:~~

~~1.a. The same person has retained or shared control of the developments;~~

~~b. The same person has ownership or a significant legal or equitable interest in the developments; or~~

~~c. There is common management of the developments controlling the form of physical development or disposition of parcels of the development.~~

~~2. There is a reasonable closeness in time between the completion of 80 percent or less of one development and the submission to a governmental agency of a master plan or series of plans or drawings for the other development which is indicative of a common development effort.~~

~~3. A master plan or series of plans or drawings exists covering the developments sought to be aggregated which have been submitted to a local general-purpose government, water management district, the Florida Department of Environmental Protection, or the Division of Florida Condominiums, Timeshares,~~

~~and Mobile Homes for authorization to commence development. The existence or implementation of a utility's master utility plan required by the Public Service Commission or general purpose local government or a master drainage plan shall not be the sole determinant of the existence of a master plan.~~

~~4. There is a common advertising scheme or promotional plan in effect for the developments sought to be aggregated.~~

~~(b) The following activities or circumstances shall not be considered in determining whether to aggregate two or more developments:~~

~~1. Activities undertaken leading to the adoption or amendment of any comprehensive plan element described in part II of chapter 163.~~

~~2. The sale of unimproved parcels of land, where the seller does not retain significant control of the future development of the parcels.~~

~~3. The fact that the same lender has a financial interest, including one acquired through foreclosure, in two or more parcels, so long as the lender is not an active participant in the planning, management, or development of the parcels in which it has an interest.~~

~~4. Drainage improvements that are not designed to accommodate the types of development listed in the guidelines and standards contained in or adopted pursuant to this chapter or which are not designed specifically to accommodate the developments sought to be aggregated.~~

~~(c) Aggregation is not applicable when the following circumstances and provisions of this chapter apply:~~

~~1. Developments that are otherwise subject to aggregation~~

~~with a development of regional impact which has received approval through the issuance of a final development order may not be aggregated with the approved development of regional impact. However, this subparagraph does not preclude the state land planning agency from evaluating an allegedly separate development as a substantial deviation pursuant to s. 380.06(19) or as an independent development of regional impact.~~

~~2. Two or more developments, each of which is independently a development of regional impact that has or will obtain a development order pursuant to s. 380.06.~~

~~3. Completion of any development that has been vested pursuant to s. 380.05 or s. 380.06, including vested rights arising out of agreements entered into with the state land planning agency for purposes of resolving vested rights issues. Development-of-regional-impact review of additions to vested developments of regional impact shall not include review of the impacts resulting from the vested portions of the development.~~

~~4. The developments sought to be aggregated were authorized to commence development before September 1, 1988, and could not have been required to be aggregated under the law existing before that date.~~

~~5. Any development that qualifies for an exemption under s. 380.06(29).~~

~~6. Newly acquired lands intended for development in coordination with a developed and existing development of regional impact are not subject to aggregation if the newly acquired lands comprise an area that is equal to or less than 10 percent of the total acreage subject to an existing development-of-regional-impact development order.~~

~~(d) The provisions of this subsection shall be applied prospectively from September 1, 1988. Written decisions, agreements, and binding letters of interpretation made or issued by the state land planning agency prior to July 1, 1988, shall not be affected by this subsection.~~

~~(e) In order to encourage developers to design, finance, donate, or build infrastructure, public facilities, or services, the state land planning agency may enter into binding agreements with two or more developers providing that the joint planning, sharing, or use of specified public infrastructure, facilities, or services by the developers shall not be considered in any subsequent determination of whether a unified plan of development exists for their developments. Such binding agreements may authorize the developers to pool impact fees or impact-fee credits, or to enter into front-end agreements, or other financing arrangements by which they collectively agree to design, finance, donate, or build such public infrastructure, facilities, or services. Such agreements shall be conditioned upon a subsequent determination by the appropriate local government of consistency with the approved local government comprehensive plan and land development regulations. Additionally, the developers must demonstrate that the provision and sharing of public infrastructure, facilities, or services is in the public interest and not merely for the benefit of the developments which are the subject of the agreement. Developments that are the subject of an agreement pursuant to this paragraph shall be aggregated if the state land planning agency determines that sufficient aggregation factors are present to require aggregation without considering the design~~

~~features, financial arrangements, donations, or construction that are specified in and required by the agreement.~~

~~(f) The state land planning agency has authority to adopt rules pursuant to ss. 120.536(1) and 120.54 to implement the provisions of this subsection.~~

Section 5. Section 380.07, Florida Statutes, is amended to read:

380.07 Florida Land and Water Adjudicatory Commission.—

(1) There is hereby created the Florida Land and Water Adjudicatory Commission, which shall consist of the Administration Commission. The commission may adopt rules necessary to ensure compliance with the area of critical state concern program ~~and the requirements for developments of regional impact as set forth in this chapter~~.

(2) Whenever any local government issues any development order in any area of critical state concern, or in regard to the abandonment of any approved development of regional impact, copies of such orders as prescribed by rule by the state land planning agency shall be transmitted to the state land planning agency, the regional planning agency, and the owner or developer of the property affected by such order. The state land planning agency shall adopt rules describing development order rendition and effectiveness in designated areas of critical state concern. Within 45 days after the order is rendered, the owner, the developer, or the state land planning agency may appeal the order to the Florida Land and Water Adjudicatory Commission by filing a petition alleging that the development order is not consistent with ~~the provisions of~~ this part. ~~The appropriate regional planning agency by vote at a regularly scheduled~~

~~meeting may recommend that the state land planning agency undertake an appeal of a development-of-regional-impact development order. Upon the request of an appropriate regional planning council, affected local government, or any citizen, the state land planning agency shall consider whether to appeal the order and shall respond to the request within the 45-day appeal period.~~

(3) Notwithstanding any other provision of law, an appeal of a development order in an area of critical state concern by the state land planning agency under this section may include consistency of the development order with the local comprehensive plan. ~~However, if a development order relating to a development of regional impact has been challenged in a proceeding under s. 163.3215 and a party to the proceeding serves notice to the state land planning agency of the pending proceeding under s. 163.3215, the state land planning agency shall:~~

~~(a) Raise its consistency issues by intervening as a full party in the pending proceeding under s. 163.3215 within 30 days after service of the notice; and~~

~~(b) Dismiss the consistency issues from the development order appeal.~~

(4) ~~The appellant shall furnish a copy of the petition to the opposing party, as the case may be, and to the local government that issued the order. The filing of the petition stays the effectiveness of the order until after the completion of the appeal process.~~

~~(5) The 45-day appeal period for a development of regional impact within the jurisdiction of more than one local government~~

~~shall not commence until after all the local governments having jurisdiction over the proposed development of regional impact have rendered their development orders.~~ The appellant shall furnish a copy of the notice of appeal to the opposing party, as the case may be, and to the local government that ~~which~~ issued the order. The filing of the notice of appeal stays ~~shall stay~~ the effectiveness of the order until after the completion of the appeal process.

(5)~~(6)~~ Before ~~Prior to~~ issuing an order, the Florida Land and Water Adjudicatory Commission shall hold a hearing pursuant to ~~the provisions of~~ chapter 120. The commission shall encourage the submission of appeals on the record made pursuant to subsection (7) ~~below~~ in cases in which the development order was issued after a full and complete hearing before the local government or an agency thereof.

(6)~~(7)~~ The Florida Land and Water Adjudicatory Commission shall issue a decision granting or denying permission to develop pursuant to the standards of this chapter and may attach conditions and restrictions to its decisions.

(7)~~(8)~~ If an appeal is filed with respect to any issues within the scope of a permitting program authorized by chapter 161, chapter 373, or chapter 403 and for which a permit or conceptual review approval has been obtained before ~~prior to~~ the issuance of a development order, any such issue shall be specifically identified in the notice of appeal which is filed pursuant to this section, together with other issues that ~~which~~ constitute grounds for the appeal. The appeal may proceed with respect to issues within the scope of permitting programs for which a permit or conceptual review approval has been obtained

before ~~prior to~~ the issuance of a development order only after the commission determines by majority vote at a regularly scheduled commission meeting that statewide or regional interests may be adversely affected by the development. In making this determination, there is ~~shall be~~ a rebuttable presumption that statewide and regional interests relating to issues within the scope of the permitting programs for which a permit or conceptual approval has been obtained are not adversely affected.

Section 6. Section 380.115, Florida Statutes, is amended to read:

380.115 Vested rights and duties; effect of size reduction, changes in statewide guidelines and standards.—

~~(1) A change in a development-of-regional-impact guideline and standard does not abridge or modify any vested or other right or any duty or obligation pursuant to any development order or agreement that is applicable to a development of regional impact.~~ A development that has received a development-of-regional-impact development order pursuant to s. 380.06 but is no longer required to undergo development-of-regional-impact review by operation of law may elect ~~a change in the guidelines and standards, a development that has reduced its size below the thresholds as specified in s. 380.0651, a development that is exempt pursuant to s. 380.06(24) or (29), or a development that elects~~ to rescind the development order pursuant to ~~are governed by~~ the following procedures:

(1)~~(a)~~ The development shall continue to be governed by the development-of-regional-impact development order and may be completed in reliance upon and pursuant to the development order

unless the developer or landowner has followed the procedures for rescission in subsection (2) ~~paragraph (b)~~. Any proposed changes to developments which continue to be governed by a development-of-regional-impact development order must be approved pursuant to s. 380.06(7) ~~s. 380.06(19) as it existed before a change in the development-of-regional-impact guidelines and standards, except that all percentage criteria are doubled and all other criteria are increased by 10 percent~~. The local government issuing the development order must monitor the development and enforce the development order. Local governments may not issue any permits or approvals or provide any extensions of services if the developer fails to act in substantial compliance with the development order. The development-of-regional-impact development order may be enforced ~~by the local government~~ as provided in s. 380.11 ~~ss. 380.06(17) and 380.11~~.

(2)~~(b)~~ If requested by the developer or landowner, the development-of-regional-impact development order shall be rescinded by the local government having jurisdiction upon a showing that all required mitigation related to the amount of development that existed on the date of rescission has been completed or will be completed under an existing permit or equivalent authorization issued by a governmental agency as defined in s. 380.031(6), if such permit or authorization is subject to enforcement through administrative or judicial remedies.

~~(2) A development with an application for development approval pending, pursuant to s. 380.06, on the effective date of a change to the guidelines and standards, or a notification of proposed change pending on the effective date of a change to~~

~~the guidelines and standards, may elect to continue such review pursuant to s. 380.06. At the conclusion of the pending review, including any appeals pursuant to s. 380.07, the resulting development order shall be governed by the provisions of subsection (1).~~

~~(3) A landowner that has filed an application for a development-of-regional-impact review prior to the adoption of a sector plan pursuant to s. 163.3245 may elect to have the application reviewed pursuant to s. 380.06, comprehensive plan provisions in force prior to adoption of the sector plan, and any requested comprehensive plan amendments that accompany the application.~~

Section 7. Paragraph (c) of subsection (1) of section 125.68, Florida Statutes, is amended to read:

125.68 Codification of ordinances; exceptions; public record.—

(1)

(c) The following ordinances are exempt from codification and annual publication requirements:

1. Any development agreement, or amendment to such agreement, adopted by ordinance pursuant to ss. 163.3220-163.3243.

2. Any development order, or amendment to such order, adopted by ordinance pursuant to s. 380.06(4) ~~s. 380.06(15)~~.

Section 8. Paragraph (e) of subsection (3), subsection (6), and subsection (12) of section 163.3245, Florida Statutes, are amended to read:

163.3245 Sector plans.—

(3) Sector planning encompasses two levels: adoption

pursuant to s. 163.3184 of a long-term master plan for the entire planning area as part of the comprehensive plan, and adoption by local development order of two or more detailed specific area plans that implement the long-term master plan and within which s. 380.06 is waived.

(e) Whenever a local government issues a development order approving a detailed specific area plan, a copy of such order shall be rendered to the state land planning agency and the owner or developer of the property affected by such order, as prescribed by rules of the state land planning agency for a development order for a development of regional impact. Within 45 days after the order is rendered, the owner, the developer, or the state land planning agency may appeal the order to the Florida Land and Water Adjudicatory Commission by filing a petition alleging that the detailed specific area plan is not consistent with the comprehensive plan or with the long-term master plan adopted pursuant to this section. The appellant shall furnish a copy of the petition to the opposing party, as the case may be, and to the local government that issued the order. The filing of the petition stays the effectiveness of the order until after completion of the appeal process. However, if a development order approving a detailed specific area plan has been challenged by an aggrieved or adversely affected party in a judicial proceeding pursuant to s. 163.3215, and a party to such proceeding serves notice to the state land planning agency, the state land planning agency shall dismiss its appeal to the commission and shall have the right to intervene in the pending judicial proceeding pursuant to s. 163.3215. Proceedings for administrative review of an order approving a detailed specific

area plan shall be conducted consistent with s. 380.07(5) ~~s. 380.07(6)~~. The commission shall issue a decision granting or denying permission to develop pursuant to the long-term master plan and the standards of this part and may attach conditions or restrictions to its decisions.

(6) An applicant who applied ~~Concurrent with or subsequent to review and adoption of a long-term master plan pursuant to paragraph (3)(a), an applicant may apply~~ for master development approval pursuant to s. 380.06 ~~s. 380.06(21)~~ for the entire planning area shall remain subject to the master development order ~~in order to establish a buildout date until which the approved uses and densities and intensities of use of the master plan are not subject to downzoning, unit density reduction, or intensity reduction,~~ unless the developer elects to rescind the development order pursuant to s. 380.115, the development order is abandoned pursuant to s. 380.06(11), or the local government can demonstrate that implementation of the master plan is not continuing in good faith based on standards established by plan policy, that substantial changes in the conditions underlying the approval of the master plan have occurred, that the master plan was based on substantially inaccurate information provided by the applicant, or that change is clearly established to be essential to the public health, safety, or welfare. ~~Review of the application for master development approval shall be at a level of detail appropriate for the long-term and conceptual nature of the long-term master plan and, to the maximum extent possible, may only consider information provided in the application for a long-term master plan.~~ Notwithstanding s. 380.06, an increment of development in such an approved master

development plan must be approved by a detailed specific area plan pursuant to paragraph (3)(b) and is exempt from review pursuant to s. 380.06.

(12) Notwithstanding s. 380.06, this part, or any planning agreement or plan policy, a landowner or developer who has received approval of a master development-of-regional-impact development order pursuant to s. 380.06(9) ~~s. 380.06(21)~~ may apply to implement this order by filing one or more applications to approve a detailed specific area plan pursuant to paragraph (3)(b).

Section 9. Subsections (11), (12), and (14) of section 163.3246, Florida Statutes, are amended to read:

163.3246 Local government comprehensive planning certification program.—

(11) If the local government of an area described in subsection (10) does not request that the state land planning agency review the developments of regional impact that are proposed within the certified area, an application for approval of a development order within the certified area is ~~shall be~~ exempt from ~~review under~~ s. 380.06.

(12) A local government's certification shall be reviewed by the local government and the state land planning agency as part of the evaluation and appraisal process pursuant to s. 163.3191. Within 1 year after the deadline for the local government to update its comprehensive plan based on the evaluation and appraisal, the state land planning agency must ~~shall~~ renew or revoke the certification. The local government's failure to timely adopt necessary amendments to update its comprehensive plan based on an evaluation and appraisal, which

are found to be in compliance by the state land planning agency, is ~~shall be~~ cause for revoking the certification agreement. The state land planning agency's decision to renew or revoke is ~~shall be considered~~ agency action subject to challenge under s. 120.569.

(14) It is the intent of the Legislature to encourage the creation of connected-city corridors that facilitate the growth of high-technology industry and innovation through partnerships that support research, marketing, workforce, and entrepreneurship. It is the further intent of the Legislature to provide for a locally controlled, comprehensive plan amendment process for such projects that are designed to achieve a cleaner, healthier environment; limit urban sprawl by promoting diverse but interconnected communities; provide a range of intergenerational housing types; protect wildlife and natural areas; assure the efficient use of land and other resources; create quality communities of a design that promotes alternative transportation networks and travel by multiple transportation modes; and enhance the prospects for the creation of jobs. The Legislature finds and declares that this state's connected-city corridors require a reduced level of state and regional oversight because of their high degree of urbanization and the planning capabilities and resources of the local government.

(a) Notwithstanding subsections (2), (4), (5), (6), and (7), Pasco County is named a pilot community and shall be considered certified for a period of 10 years for connected-city corridor plan amendments. The state land planning agency shall provide a written notice of certification to Pasco County by July 15, 2015, which shall be considered a final agency action

subject to challenge under s. 120.569. The notice of certification must include:

1. The boundary of the connected-city corridor certification area; and

2. A requirement that Pasco County submit an annual or biennial monitoring report to the state land planning agency according to the schedule provided in the written notice. The monitoring report must, at a minimum, include the number of amendments to the comprehensive plan adopted by Pasco County, the number of plan amendments challenged by an affected person, and the disposition of such challenges.

(b) A plan amendment adopted under this subsection may be based upon a planning period longer than the generally applicable planning period of the Pasco County local comprehensive plan, must specify the projected population within the planning area during the chosen planning period, may include a phasing or staging schedule that allocates a portion of Pasco County's future growth to the planning area through the planning period, and may designate a priority zone or subarea within the connected-city corridor for initial implementation of the plan. A plan amendment adopted under this subsection is not required to demonstrate need based upon projected population growth or on any other basis.

(c) If Pasco County adopts a long-term transportation network plan and financial feasibility plan, and subject to compliance with the requirements of such a plan, the projects within the connected-city corridor are deemed to have satisfied all concurrency and other state agency or local government transportation mitigation requirements except for site-specific

access management requirements.

(d) If Pasco County does not request that the state land planning agency review the developments of regional impact that are proposed within the certified area, an application for approval of a development order within the certified area is exempt from ~~review under~~ s. 380.06.

(e) The Office of Program Policy Analysis and Government Accountability (OPPAGA) shall submit to the Governor, the President of the Senate, and the Speaker of the House of Representatives by December 1, 2024, a report and recommendations for implementing a statewide program that addresses the legislative findings in this subsection. In consultation with the state land planning agency, OPPAGA shall develop the report and recommendations with input from other state and regional agencies, local governments, and interest groups. OPPAGA shall also solicit citizen input in the potentially affected areas and consult with the affected local government and stakeholder groups. Additionally, OPPAGA shall review local and state actions and correspondence relating to the pilot program to identify issues of process and substance in recommending changes to the pilot program. At a minimum, the report and recommendations must include:

1. Identification of local governments other than the local government participating in the pilot program which should be certified. The report may also recommend that a local government is no longer appropriate for certification; and

2. Changes to the certification pilot program.

Section 10. Subsection (4) of section 189.08, Florida Statutes, is amended to read:

189.08 Special district public facilities report.—

(4) Those special districts building, improving, or expanding public facilities addressed by a development order issued to the developer pursuant to s. 380.06 may use the most recent local government ~~annual~~ report required by s. 380.06(6) ~~s. 380.06(15) and (18)~~ and submitted by the developer, to the extent the annual report provides the information required by subsection (2).

Section 11. Subsection (2) of section 190.005, Florida Statutes, is amended to read:

190.005 Establishment of district.—

(2) The exclusive and uniform method for the establishment of a community development district of less than 2,500 acres in size or a community development district of up to 7,000 acres in size located within a connected-city corridor established pursuant to s. 163.3246(13) ~~s. 163.3246(14)~~ shall be pursuant to an ordinance adopted by the county commission of the county having jurisdiction over the majority of land in the area in which the district is to be located granting a petition for the establishment of a community development district as follows:

(a) A petition for the establishment of a community development district shall be filed by the petitioner with the county commission. The petition shall contain the same information as required in paragraph (1)(a).

(b) A public hearing on the petition shall be conducted by the county commission in accordance with the requirements and procedures of paragraph (1)(d).

(c) The county commission shall consider the record of the public hearing and the factors set forth in paragraph (1)(e) in

making its determination to grant or deny a petition for the establishment of a community development district.

(d) The county commission may ~~shall~~ not adopt any ordinance which would expand, modify, or delete any provision of the uniform community development district charter as set forth in ss. 190.006-190.041. An ordinance establishing a community development district shall only include the matters provided for in paragraph (1)(f) unless the commission consents to any of the optional powers under s. 190.012(2) at the request of the petitioner.

(e) If all of the land in the area for the proposed district is within the territorial jurisdiction of a municipal corporation, then the petition requesting establishment of a community development district under this act shall be filed by the petitioner with that particular municipal corporation. In such event, the duties of the county, hereinabove described, in action upon the petition shall be the duties of the municipal corporation. If any of the land area of a proposed district is within the land area of a municipality, the county commission may not create the district without municipal approval. If all of the land in the area for the proposed district, even if less than 2,500 acres, is within the territorial jurisdiction of two or more municipalities or two or more counties, except for proposed districts within a connected-city corridor established pursuant to s. 163.3246(13) ~~s. 163.3246(14)~~, the petition shall be filed with the Florida Land and Water Adjudicatory Commission and proceed in accordance with subsection (1).

(f) Notwithstanding any other provision of this subsection, within 90 days after a petition for the establishment of a

community development district has been filed pursuant to this subsection, the governing body of the county or municipal corporation may transfer the petition to the Florida Land and Water Adjudicatory Commission, which shall make the determination to grant or deny the petition as provided in subsection (1). A county or municipal corporation shall have no right or power to grant or deny a petition that has been transferred to the Florida Land and Water Adjudicatory Commission.

Section 12. Paragraph (g) of subsection (1) of section 190.012, Florida Statutes, is amended to read:

190.012 Special powers; public improvements and community facilities.—The district shall have, and the board may exercise, subject to the regulatory jurisdiction and permitting authority of all applicable governmental bodies, agencies, and special districts having authority with respect to any area included therein, any or all of the following special powers relating to public improvements and community facilities authorized by this act:

(1) To finance, fund, plan, establish, acquire, construct or reconstruct, enlarge or extend, equip, operate, and maintain systems, facilities, and basic infrastructures for the following:

(g) Any other project within or without the boundaries of a district when a local government issued a development order pursuant to s. 380.06 ~~or s. 380.061~~ approving or expressly requiring the construction or funding of the project by the district, or when the project is the subject of an agreement between the district and a governmental entity and is consistent

with the local government comprehensive plan of the local government within which the project is to be located.

Section 13. Paragraph (a) of subsection (1) of section 252.363, Florida Statutes, is amended to read:

252.363 Tolling and extension of permits and other authorizations.—

(1)(a) The declaration of a state of emergency by the Governor tolls the period remaining to exercise the rights under a permit or other authorization for the duration of the emergency declaration. Further, the emergency declaration extends the period remaining to exercise the rights under a permit or other authorization for 6 months in addition to the tolled period. This paragraph applies to the following:

1. The expiration of a development order issued by a local government.

2. The expiration of a building permit.

3. The expiration of a permit issued by the Department of Environmental Protection or a water management district pursuant to part IV of chapter 373.

4. The buildout date of a development of regional impact, including any extension of a buildout date that was previously granted as specified in s. 380.06(7)(c) ~~pursuant to s. 380.06(19)(c)~~.

Section 14. Subsection (4) of section 369.303, Florida Statutes, is amended to read:

369.303 Definitions.—As used in this part:

(4) "Development of regional impact" means a development that ~~which~~ is subject to ~~the review procedures established by~~ s. 380.06 ~~or s. 380.065, and s. 380.07~~.

Section 15. Subsection (1) of section 369.307, Florida Statutes, is amended to read:

369.307 Developments of regional impact in the Wekiva River Protection Area; land acquisition.—

(1) Notwithstanding s. 380.06(4) ~~the provisions of s. 380.06(15)~~, the counties shall consider and issue the development permits applicable to a proposed development of regional impact which is located partially or wholly within the Wekiva River Protection Area at the same time as the development order approving, approving with conditions, or denying a development of regional impact.

Section 16. Subsection (8) of section 373.236, Florida Statutes, is amended to read:

373.236 Duration of permits; compliance reports.—

(8) A water management district may issue a permit to an applicant, as set forth in s. 163.3245(13), for the same period of time as the applicant's approved master development order if the master development order was issued under s. 380.06(9) ~~s. 380.06(21)~~ by a county which, at the time the order was issued, was designated as a rural area of opportunity under s. 288.0656, was not located in an area encompassed by a regional water supply plan as set forth in s. 373.709(1), and was not located within the basin management action plan of a first magnitude spring. In reviewing the permit application and determining the permit duration, the water management district shall apply s. 163.3245(4)(b).

Section 17. Subsection (13) of section 373.414, Florida Statutes, is amended to read:

373.414 Additional criteria for activities in surface

waters and wetlands.—

(13) Any declaratory statement issued by the department under s. 403.914, 1984 Supplement to the Florida Statutes 1983, as amended, or pursuant to rules adopted thereunder, or by a water management district under s. 373.421, in response to a petition filed on or before June 1, 1994, shall continue to be valid for the duration of such declaratory statement. Any such petition pending on June 1, 1994, shall be exempt from the methodology ratified in s. 373.4211, but the rules of the department or the relevant water management district, as applicable, in effect prior to the effective date of s. 373.4211, shall apply. Until May 1, 1998, activities within the boundaries of an area subject to a petition pending on June 1, 1994, and prior to final agency action on such petition, shall be reviewed under the rules adopted pursuant to ss. 403.91-403.929, 1984 Supplement to the Florida Statutes 1983, as amended, and this part, in existence prior to the effective date of the rules adopted under subsection (9), unless the applicant elects to have such activities reviewed under the rules adopted under this part, as amended in accordance with subsection (9). In the event that a jurisdictional declaratory statement pursuant to the vegetative index in effect prior to the effective date of chapter 84-79, Laws of Florida, has been obtained and is valid prior to the effective date of the rules adopted under subsection (9) or July 1, 1994, whichever is later, and the affected lands are part of a project for which a master development order has been issued pursuant to s. 380.06(9) ~~s. 380.06(21)~~, the declaratory statement shall remain valid for the duration of the buildout period of the project.

Any jurisdictional determination validated by the department pursuant to rule 17-301.400(8), Florida Administrative Code, as it existed in rule 17-4.022, Florida Administrative Code, on April 1, 1985, shall remain in effect for a period of 5 years following the effective date of this act if proof of such validation is submitted to the department prior to January 1, 1995. In the event that a jurisdictional determination has been revalidated by the department pursuant to this subsection and the affected lands are part of a project for which a development order has been issued pursuant to s. 380.06(4) ~~s. 380.06(15)~~, a final development order to which s. 163.3167(5) applies has been issued, or a vested rights determination has been issued pursuant to s. 380.06(8) ~~s. 380.06(20)~~, the jurisdictional determination shall remain valid until the completion of the project, provided proof of such validation and documentation establishing that the project meets the requirements of this sentence are submitted to the department prior to January 1, 1995. Activities proposed within the boundaries of a valid declaratory statement issued pursuant to a petition submitted to either the department or the relevant water management district on or before June 1, 1994, or a revalidated jurisdictional determination, prior to its expiration shall continue thereafter to be exempt from the methodology ratified in s. 373.4211 and to be reviewed under the rules adopted pursuant to ss. 403.91-403.929, 1984 Supplement to the Florida Statutes 1983, as amended, and this part, in existence prior to the effective date of the rules adopted under subsection (9), unless the applicant elects to have such activities reviewed under the rules adopted under this part, as amended in accordance with subsection (9).

Section 18. Subsection (5) of section 378.601, Florida Statutes, is amended to read:

378.601 Heavy minerals.—

(5) Any heavy mineral mining operation which annually mines less than 500 acres and whose proposed consumption of water is 3 million gallons per day or less may ~~shall~~ not be subject ~~required to undergo development of regional impact review pursuant~~ to s. 380.06, provided permits and plan approvals pursuant to either this section and part IV of chapter 373, or s. 378.901, are issued.

Section 19. Section 380.065, Florida Statutes, is repealed.

Section 20. Paragraph (a) of subsection (2) of section 380.11, Florida Statutes, is amended to read:

380.11 Enforcement; procedures; remedies.—

(2) ADMINISTRATIVE REMEDIES.—

(a) If the state land planning agency has reason to believe a violation of this part or any rule, development order, or other order issued hereunder or of any agreement entered into under s. 380.032(3) ~~or s. 380.06(8)~~ has occurred or is about to occur, it may institute an administrative proceeding pursuant to this section to prevent, abate, or control the conditions or activity creating the violation.

Section 21. Paragraph (b) of subsection (2) of section 403.524, Florida Statutes, is amended to read:

403.524 Applicability; certification; exemptions.—

(2) Except as provided in subsection (1), construction of a transmission line may not be undertaken without first obtaining certification under this act, but this act does not apply to:

(b) Transmission lines that have been exempted by a binding

letter of interpretation issued under s. 380.06(3) ~~s. 380.06(4)~~, or in which the Department of Economic Opportunity or its predecessor agency has determined the utility to have vested development rights within the meaning of s. 380.05(18) or s. 380.06(8) ~~s. 380.06(20)~~.

Section 22. (1) The rules adopted by the state land planning agency to ensure uniform review of developments of regional impact by the state land planning agency and regional planning agencies and codified in chapter 73C-40, Florida Administrative Code, are repealed.

(2) The rules adopted by the Administration Commission, as defined in s. 380.031, Florida Statutes, regarding whether two or more developments, represented by their owners or developers to be separate developments, shall be aggregated and treated as a single development under chapter 380, Florida Statutes, are repealed.

Section 23. The Division of Law Revision and Information is directed to replace the phrase "the effective date of this act" where it occurs in this act with the date this act takes effect.

Section 24. This act shall take effect upon becoming a law.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations	
BILL:	CS/CS/SB 1244
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Transportation, Tourism, and Economic Development); Community Affairs Committee; and Senator Lee
SUBJECT:	Growth Management
DATE:	February 28 , 2018 REVISED:

2.	Hrdlicka	Hrdlicka	ATD	**Recommend: Fav/CS**
3.	Hrdlicka	Hansen	AP	**Fav/CS**
4.			RC	

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1244 amends provisions related to existing development of regional impact (DRI) development orders. The DRI program ended in 2015, but existing development orders continue to exist. The bill repeals provisions related to the state land planning agency's (Department of Economic Opportunity) role in the process and shifts the remaining responsibilities to local governments. Specifically, the bill:

- Repeals obsolete language for the application and review of DRIs;
- Changes the process for existing DRIs to amend a development order;
- Retains current statewide guidelines and standards for determining when a development is subject to state coordinated review;
- Updates reporting requirements;
- Preserves certain unexpired letters, development orders, and agreements;
- Ends all DRI appeals to the Administration Commission except decisions by local governments under the DRI abandonment process;
- Repeals state land planning agency rules related to DRIs and Administration Commission rules related to aggregation of developments for the purpose of DRI review; and
- Repeals the Florida Quality Developments (FQD) program and requires FQD development orders to be replaced by local government development orders.

The bill adds a requirement for an independent special district to commence a municipal conversion – that the independent special district has a minimum population, depending on the population of the county in which the district is located.

- The Department of Economic Opportunity will incur less expenses related to the DRI process.

The bill is effective upon becoming law.

II. Present Situation:

Development of Regional Impact

A development of regional impact (DRI) is defined in s. 380.06, F.S., as "any development which, because of its character, magnitude, or location, would have a substantial effect upon the health, safety, or welfare of citizens of more than one county." The DRI program was initially created in 1972 as an interim program intended to be replaced by comprehensive planning and permitting programs. The DRI program provided a lengthy and complicated review process for proposed projects that was largely duplicated by the successor comprehensive planning review process.

Comprehensive planning was first required by law in 1975. However, the Growth Management Act of 1985 is considered the watershed law that brought truly modern planning requirements into force. In recognition of this fact, the Environmental Land Management Study Committee in 1992 recommended that the DRI program be eliminated and relegated to an enhanced version of the Intergovernmental Coordination Element (ICE) that is required to be included in local comprehensive plans.[1] After much controversy, this recommendation was not implemented, and the DRI program continued in its previous form.

In 2015, the Florida Legislature eliminated the requirement that new developments be reviewed pursuant to the DRI process. Instead, the Legislature directed that proposed developments only need to comply with the requirements of the State Coordinated Review Process for the review of local government comprehensive plan amendments.[2]

DRI Review

Before the program ended, all developments that met the DRI thresholds and standards provided by statute[3] and rules adopted by the Administration Commission[4] were required to undergo DRI review, unless the Legislature provided an exemption for that particular type of project or for the planning area in which the development was located (such as a sector plan or a rural land stewardship area) or unless the development was located within a "dense urban land area."[5] The

[4] Chapter 28-24, F.A.C.
[5] The criteria for qualification as a dense urban land area are contained in s. 380.06(29), F.S. Currently, eight counties and 243 cities qualify as dense urban land areas that are exempt from the DRI program.

types of developments required to undergo DRI review upon meeting the specified thresholds and standards included attraction and recreation facilities, office developments, retail and service developments, mixed-use developments, residential developments, schools, and recreational vehicle developments.[6] Over the years, the Legislature enacted many exemptions and increased the thresholds that projects must have surpassed in order to trigger DRI review.

Florida's 11 regional planning councils (RPC) coordinated the multi-agency review of proposed DRIs. A DRI review began by a developer contacting the RPC with jurisdiction over a proposed development to arrange a pre-application conference.[7] The developer or the RPC could request other affected state and regional agencies participate in the conference to identify issues raised by the proposed project and the level of information that each agency would require in the application to assess those issues. At the pre-application conference, the RPC provided the developer with information about the DRI process and coordinated the identification of issues and the appropriate state and local agency requirements.

Upon completion of the pre-application conference with all parties, the developer filed an application for development approval with the local government, the RPC, and the state land planning agency (the Department of Economic Opportunity). The RPC reviewed the application for sufficiency and could request additional information (no more than twice, unless waived by the developer) if the application was deemed insufficient.[8]

When the RPC determined that the application was sufficient or the developer declined to provide additional information, the local government had to hold a public hearing on the application for development within 90 days.[9] Within 50 days after receiving notice of the public hearing, the RPC was required to prepare and submit to the local government a report and recommendations on the regional impact of the proposed development.[10] The RPC was required to identify regional issues specifically examining the extent to which:

- The development would have a favorable or unfavorable impact on state or regional resources or facilities identified in the applicable state (state comprehensive plan) or regional (strategic regional policy plan) plans;
- The development would significantly impact adjacent jurisdictions; and
- While reviewing the first two issues, the development would favorably or adversely affect the ability of people to find adequate housing reasonably accessible to their places of employment.[11]

If the proposed project would have impacts within the purview of other state agencies, those agencies would also prepare reports and recommendations on the issues raised by the project and within their statutorily-prescribed jurisdictions. These reports became part of the RPC's report, but the RPC could attach dissenting views.[12] When water management district (WMD) and Department of Environmental Protection (DEP) permits had been issued pursuant to ch. 373,

[10] Section 380.06(12), F.S.
[11] Section 380.06(12)(a), F.S.
[12] Section 380.06(12)(c), F.S.

F.S., or ch. 403, F.S., the RPC could comment on the regional implications of the permits but could not offer conflicting recommendations.[13] Finally, the state land planning agency also reviewed DRIs for compliance with state laws, to identify regional and state impacts, and to make recommendations to local governments for approving, not approving, or suggesting mitigation conditions.[14]

At the local public hearing on the proposed DRI, concurrent comprehensive plan amendments associated with the proposed DRI had to be heard as well. When considering whether the development must be approved, denied, or approved subject to conditions, restrictions, or limitations, the local government considered the extent to which:

- The development was consistent with the local government's comprehensive plan and land development regulations;
- The development was consistent with the report and recommendations of the RPC; and
- The development was consistent with the state comprehensive plan.[15]

Within 30 days of the public hearing on the application for development approval, the local government had to decide whether to issue a development order or not.[16] Within 45 days after a development order was or was not rendered, the owner or developer of the property or the state land planning agency could appeal the order to the Governor and Cabinet, sitting as the Florida Land and Water Adjudicatory Commission.[17] An "aggrieved or adversely affected party" could appeal and challenge the consistency of a development order with the local comprehensive plan.[18]

Completion of this entire process could take one to two years and require the expenditure of significant resources, both on the part of private developers and state agencies.

Substantial Deviation[19]

After a development order was issued, any proposed change to a previously approved DRI development order that created a reasonable likelihood of additional regional impact or any type of regional impact created by the change not previously reviewed by the regional planning agency, constituted a "substantial deviation" and required such proposed change to be subject to further DRI review. The process to amend DRIs still applies to existing DRIs that received local government development orders prior to July 1, 2015, and that have not been abandoned or rescinded.[20] The statute sets forth criteria and situations to determine whether a proposed change requires further DRI review, including:

- Certain threshold criteria beyond which a change constitutes a substantial deviation;
- Certain changes in development that do not amount to a substantial deviation;
- Scenarios in which a substantial deviation is presumed; and

- Scenarios in which a change is presumed not to create a substantial deviation.

The DEO (state land planning agency) has adopted rules setting standard forms for submittal of proposed changes to a previously approved DRI development order. At a minimum, the form requires the developer to provide the precise language that the developer proposes to delete or add as an amendment to the development order. The developer must submit the form to the local government, the regional planning agency, and the DEO.

After the developer submits the form, the appropriate regional planning agency or the DEO reviews the proposed change. No later than 45 days after submittal of the form, the DEO advises the local government in writing whether the DEO objects to the proposed change, specifying the reasons for the objection if applicable, and provides a copy to the developer.

The local government schedules a public hearing with 15 days' notice to consider the change. This public hearing is held within 60 days after submittal of the proposed change, unless the developer requests to extend the time.

At the public hearing, the local government determines whether the proposed change requires further DRI review based on the thresholds and standards set out in law. The local government can deny the proposed change based on matters relating to local issues.

If the local government determines that the proposed change does not require further DRI review and is otherwise approved, the local government issues an amendment to the development order incorporating the approved change and conditions of approval relating to the change. If, however, the local government determines that proposed change requires further DRI review, the local government determines whether to approve, approve with conditions, or deny the proposed change as it related to the entire development.

DRI Exemptions

Over the years, the DRI program was amended to include a number of exemptions. The following list of exemptions is not exhaustive, but illustrates the number and variety of the exemptions from the DRI program that were enacted:[21]

- Certain projects that created at least 100 jobs that met certain qualifications – 1997;
- Certain expansions to port harbors, certain port transportation facilities, and certain intermodal transportation facilities – 1999;
- The thresholds used to identify projects subject to the program were increased by 150 percent for development in areas designated as rural areas of critical economic concern (now known as rural areas of opportunity) – 2001;
- Certain proposed facilities for the storage of any petroleum product or certain expansions of existing petroleum product storage facilities – 2002;
- Any renovation or redevelopment within the same land parcel which does not change land use or increase density or intensity of use – 2002;
- Certain water port or marina developments – 2002; and

[21] Section 360.06(24), F.S.

- The establishment, relocation, or expansion of any military installation as defined in s. 163.3175, F.S. – 2005.

In 2009, the Legislature enacted the most significant exemption from the DRI program: the exemption for Dense Urban Land Areas (DULAs).[22] In 2015, 8 counties and 243 cities qualified as DULAs. This meant that all projects within those counties and cities were exempted from the DRI program. The areas qualifying as DULAs accounted for more than half of Florida's population.[23]

Comprehensive Plans and the Comprehensive Plan Amendment Process

The Growth Management Act of 1985 required every city and county to create and implement a comprehensive plan to guide future development.[24] A locality's comprehensive plan lays out the locations for future public facilities, including roads, water and sewer facilities, neighborhoods, parks, schools, and commercial and industrial developments. Development that does not conform to the comprehensive plan may not be approved by a local government unless the local government first amends its comprehensive plan.

State law requires a proposed comprehensive plan amendment to receive three public hearings, the first held by the local planning board.[25] The local commission (city or county) must then hold an initial public hearing regarding the proposed amendment and subsequently transmit it to several statutorily identified reviewing agencies, including the Department of Economic Opportunity (DEO) (as the state land planning agency), the relevant RPC, and adjacent local governments that request to participate in the review process.[26]

The state and regional agencies review the proposed amendment for impacts related to their statutory purviews. The RPC reviews the amendment specifically for "extrajurisdictional impacts that would be inconsistent with the comprehensive plan of any affected local government within the region" as well as adverse effects on regional resources or facilities.[27] The DEO compiles reports from the various involved agencies and issues an Objections, Recommendation, and Comments Report, which consolidates the reports received.[28] Upon receipt of the consolidated report, the local government holds a second public hearing at which the governing body votes to approve the amendment or not. If the amendment receives a favorable vote it is transmitted to the DEO for final review.[29] The DEO then has either 31 days or 45 days (depending on the review

process to which the amendment is subject) to determine whether the proposed comprehensive plan amendment is in compliance with all relevant agency rules and laws.[30]

The Expedited State Review Process vs. the State Coordinated Review Process

In 2011, the Florida Legislature bifurcated the process for approving comprehensive plan amendments.[31] Most plan amendments were placed into the Expedited State Review Process, while plan amendments related to large-scale developments were placed into the State Coordinated Review Process. The two processes operate in much the same way, however, the State Coordinated Review Process provides a longer review period and requires all agency comments to be coordinated by the DEO, rather than communicated directly to the permitting local government by each individual reviewing agency.

Florida Quality Developments

Florida Quality Developments (FQDs) are DRI-sized projects that receive a Florida Quality Development designation if they meet certain statutory criteria.[32] The criteria is designed to enhance the a development, by, as example, protecting and preserving environmentally sensitive lands including wildlife habitat and wetlands; participating in a downtown reuse or redevelopment program to improve and rehabilitate a declining downtown area; providing for construction and maintenance of all onsite infrastructure necessary to support the project; or including open space, recreation areas, Florida-friendly landscaping, and energy conservation.[33] An application for a FQD is handled in much the same way as an application for a DRI was processed prior to the 2015 statutory change. The DRI impact application form is used and an additional section is added to consider the FQD-specific requirements. The "DEO and the appropriate local government determine if a development has met the Florida Quality Development requirements. A finding of no designation may be appealed. Unlike developments of regional impact, development orders for Florida Quality Developments are issued by DEO, not by the local government."[34] According to the DEO, there are 18 developments designated as FQDs, the last of which was designated on June 9, 1999, and the last FQD development order was requested and issued in 2002.[35]

III. Effect of Proposed Changes:

Independent Special Districts

Under current law, the electors of an independent special district can petition the governing body of the district to commence a municipal conversion if the independent special district meets all of the following criteria:

---

[35] *Id*. Department of Economic Opportunity. *2018 Agency Legislative Bill Analysis: SB 1244*. January 12, 2018.

- It was created by special act of the Legislature.
- It is designated as an improvement district, created pursuant to chapter 298, F.S., or is designated as a stewardship district, created pursuant to s. 189.031, F.S.
- Its governing board is elected and agrees to the conversion.
- It provides at least four of the following municipal services: water, sewer, solid waste, drainage, roads, transportation, public works, fire and rescue, street lighting, parks and recreation, or library or cultural facilities.
- No portion of the district is located within the jurisdictional limits of a municipality.

Section 1 amends s. 165.0615, F.S., to add a criterion requiring the independent special district to have a minimum population. If the independent special district is in a county that has a population of less than 75,000 people, then population of the independent special district must be a minimum of 1,500 people. If the county has more than 75,000 people, then the independent special district must have a minimum population of 5,000 people.

DRIs and FQD Development Orders

The bill repeals the current DRI and FQD development order provisions and shifts the remaining responsibilities of reviewing amendments to DRIs and FQD development orders from the RPCs and the DEO to the local governments.

Section 2 amends s. 380.06, F.S., to repeal the DRI process. The bill retains statewide guidelines and standards and exemptions for DRIs in effective as of the effective date of the bill for local governments to use them to determine whether a development is subject to the review process. These guidelines will remain in effect unless repealed by statute.[36]

This section also:

- Repeals provisions that are obsolete with the repeal of the DRI program by this bill.
- Maintains the thresholds that determine whether a development will be subject to review.
- Preserves the following letters and agreements that are unexpired as of the effective date of the bill: binding letters, "essentially built out" agreements, "capital contribution front loading agreements" between a developer and local government, any agreements between a local government and a developer to reimburse the developer for voluntary contributions paid in excess of his or her fair share, agreements related to projects that include more than one DRI, and area-wide DRI development orders.
- Authorizes local governments to amend a binding letter of vested rights pursuant to the local government's comprehensive plan and land development regulations upon request of the developer.
- Prohibits a local government from changing to an earlier date, the date that the local government agreed that the development will not be subject to downsizing or other reduction based upon an amendment, unless the local government can demonstrate certain information.
- Specifies that selection of a contractor or design professional by the developer for work related to the construction or expansion of a public facility that is undertaken as a condition of the development order, is not subject to competitive bidding or negotiation.

[36] Effectively the guidelines and standards will not be amended in the future because the bill repeals provisions directing the Administration Commission to adopt the guidelines and standards.

- Limits a local government from changing any credit for a development order exaction or fee granted to the developer when an amendment to the development order is adopted, when the credit against impact fees, mobility fees, or exactions are based upon the developer's contribution of land or a public facility.
- Adds mobility fees to the types of fees a developer can petition a local government to give the developer a credit against for any contribution when such fees are imposes or increased after a development order is issued.
- Requires a developer to follow any reporting requirements set by the local government with jurisdiction over the development and permits the local government to set penalties for failure to file required reports.[37]
- Requires any proposed change to a previously approved DRI to be reviewed by the local government based on the standards and procedures in its adopted local comprehensive plan and adopted local land development regulations, including but not limited to procedures for notice to the applicant and the public regarding issuance of development orders.[38] As under current law, a local government may approve any change that has the effect of *reducing* the originally approved height, density, or intensity of the development if the change is consistent with the comprehensive plan in effect when the development was originally approved. There must be at least one public hearing on the proposed change to the development order, and the local governing body must approve any change before it becomes effective. Development within a portion of the DRI that is not directly affected by a proposed change can continue during the review of the proposed change, and review is limited to impacts created by the proposed change. Changes to extend a phase date, buildout date, expiration date, or termination date may also extend any required mitigation (which is consistent with current law). These provisions do not alter or limit any extension previously granted by statute.
- Provides that abandonment of a DRI development order shall be deemed to have occurred when the required notice of abandonment is filed with the county clerk. Local governments must issue an abandonment order if requested by a developer if all development that exists at the time of abandonment has been mitigated or will be mitigated pursuant to an existing permit enforceable through an administrative or judicial proceeding.
- Requires proposed developments that exceed the statewide guidelines and standards and are not otherwise exempt to be approved by a local government following the statewide coordinated review process in s. 163.3184(4), F.S. This does not apply to any application for a development approval filed with a concurrent plan amendment application pending as of May 14, 2015, if the applicant elects to have the application reviewed pursuant to the provisions of s. 380.06, F.S., as it existed on May 14, 2015. The election must be in writing and filed with the local government, regional planning council, and the DEO before December 31, 2018.

[37] Current law requires a biennial report submitted by the developer in alternate years as specified by the development order and sets a penalty of a temporary suspension of the development order as the penalty for failing to report. s. 380.06(18), F.S.
[38] This new provision for review of a change is applicable over any provision to the contrary in an existing development order, agreement, local comprehensive plan, or local land development regulation. The bill also changes the term "substantial deviation" to "changes."

Section 3 amends s. 380.061, F.S., to repeal the FQD program. FQD development orders in place prior to the effective date of the bill must be replaced by local government development orders, which will be subject to the DRI provisions discussed above in **Section 2**.

Section 4 amends s. 380.0651, F.S., to maintain the guidelines and standards formerly used for developments required to undergo DRI review. The guidelines and standards are retained to determine whether developments are subject to the DRI provisions discussed above in **Section 2**. Additionally, the statutory exemptions, partial statutory exemptions, and exemptions for DULAs from the DRI program are transferred from current s. 380.06, F.S., to s. 380.0651, F.S., so that the exemptions continue apply.[39]

Section 5 amends s. 380.07, F.S., to remove DRIs from the Florida Land and Water Adjudicatory Commission's (the Administration Commission) rulemaking authority and repeal related provisions. Under the bill, the state land planning agency may only challenge a local order *abandoning* a DRI; and appeals of development orders based upon consistency of the order with local comprehensive plans may only be made for development orders in areas of critical state concern.

Section 6 amends s. 380.115, F.S., to allow a development that has received a DRI development order but is no longer required to undergo DRI review to elect to rescind the development order pursuant to certain procedures. The local government issuing the development order must monitor the development and enforce the development order. The local government may not issue any permits or approvals or provide any service if the developer fails to act in substantial compliance with the development order.

Section 8 amends s. 163.3245, F.S., to continue to require a development subject to a master plan to remain subject to the master plan, unless the development order is abandoned or rescinded.

Section 10 amends s. 189.08, F.S., to allow a special district that is building, improving, or expanding public facilities addressed by a DRI development order to use the most recent report required by s. 380.06, F.S., to the extent needed to submit the special district's own public facilities report required by the statute (special district public facilities report).

Sections 7, 9, 11 – 18, 20, and 21 amend ss. 125.68, 163.3246, 190.005, 190.012, 252.363, 369.303, 369.307, 373.236, 373.414, 378.601, 380.11, and 403.524, F.S., to correct cross references and make conforming changes.

Section 19 repeals s. 380.065, F.S., which governed the certification of local government review of development.

Section 22 repeals the rules adopted by the DEO governing DRIs that are codified in ch. 73C-40, Florida Administrative Code. It also repeals rules adopted by the Administration Commission related to when two or more developments that are represented by their owners or developers to be separate developments are to be aggregated and treated as a single development.

[39] The exemptions are discussed above in the Present Situation.

Section 23 directs the Division of Law Revision and Information to replace the phrase "the effective date of this act" with the date the act takes effect.

Section 24 provides that the bill is effective upon becoming a law.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Local governments currently have responsibilities related to reviewing and administering development orders.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The DEO will have decreased responsibilities to review various processes for DRIs and FQDs. Many of these responsibilities have been transferred to local governments, which currently have responsibilities related to reviewing and administering development orders.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 165.0615, 380.06, 380.061, 380.0651, 380.07, 380.115, 125.68, 163.3245, 163.3246, 189.08, 190.005, 190.012, 252.363, 369.303, 369.307, 373.236, 373.414, 378.601, 380.11, and 403.524.

This bill repeals section 380.065 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on February 27, 2018:
The committee substitute:

- Clarifies that a local government may not change to an earlier date, the date that the local government agreed that the development will not be subject to downsizing or other reduction based upon an amendment.
- Restores current law, which allows a local government to approve any change that has the effect of *reducing* the originally approved height, density, or intensity of the development if the change is consistent with the comprehensive plan in effect when the development was originally approved.
- Exempts certain proposed developments from being approved by a local government following the statewide coordinated review process in s. 163.3184(4), F.S. The exemption is for any application for a development approval filed with a concurrent plan amendment application pending as of May 14, 2015, if the applicant elects to have the application reviewed pursuant to the provisions of s. 380.06, F.S., as it existed on May 14, 2015. The election must be in writing and filed with the local government, regional planning council, and the DEO before December 31, 2018.

CS by Community Affairs on January 23, 2018:

- Reinserts language omitted in the moving of the DRI exemptions from one section to the other.
- Adds a minimum population standard as a criteria that must be met before qualified electors of an independent special district commence a certain municipal conversion proceeding.
- Makes technical wording changes.

B. Amendments:

None.

By the Committee on Community Affairs; and Senator Lee

578-02388-18 20181244c1

A bill to be entitled

An act relating to growth management; amending s. 165.0615, F.S.; adding a minimum population standard as a criteria that must be met before qualified electors of an independent special district commence a certain municipal conversion proceeding; amending s. 380.06, F.S.; revising the statewide guidelines and standards for developments of regional impact; deleting criteria that the Administration Commission is required to consider in adopting its guidelines and standards; revising provisions relating to the application of guidelines and standards; revising provisions relating to variations and thresholds for such guidelines and standards; deleting provisions relating to the issuance of binding letters; specifying that previously issued letters remain valid unless previously expired; specifying the procedure for amending a binding letter of interpretation; specifying that previously issued clearance letters remain valid unless previously expired; deleting provisions relating to authorizations to develop, applications for approval of development, concurrent plan amendments, preapplication procedures, preliminary development agreements, conceptual agency review, application sufficiency, local notice, regional reports, and criteria for the approval of developments inside and outside areas of critical state concern; revising provisions relating to local government development orders; specifying that

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

578-02388-18 20181244c1

amendments to a development order for an approved development may not alter the dates before which a development would be subject to downzoning, unit density reduction, or intensity reduction, except under certain conditions; removing a requirement that certain conditions of a development order meet specified criteria; specifying that construction of certain mitigation-of-impact facilities is not subject to competitive bidding or competitive negotiation for selection of a contractor or design professional; removing requirements relating to local government approval of developments of regional impact that do not meet certain requirements; removing a requirement that the Department of Economic Opportunity and other agencies cooperate in preparing certain ordinances; authorizing developers to record notice of certain rescinded development orders; specifying that certain agreements regarding developments that are essentially built out remain valid unless previously expired; deleting requirements for a local government to issue a permit for a development subsequent to the buildout date contained in the development order; specifying that amendments to development orders do not diminish or otherwise alter certain credits for a development order exaction or fee against impact fees, mobility fees, or exactions; deleting a provision relating to the determination of certain credits for impact fees or extractions; deleting a provision exempting a nongovernmental developer from being required to

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

competitively bid or negotiate construction or design of certain facilities except under certain circumstances; specifying that certain capital contribution front-ending agreements remain valid unless previously expired; deleting a provision relating to local monitoring; revising requirements for developers regarding reporting to local governments and specifying that such reports are not required unless required by a local government with jurisdiction over a development; revising the requirements and procedure for proposed changes to a previously approved development of regional impact and deleting rulemaking requirements relating to such procedure; revising provisions relating to the approval of such changes; specifying that certain extensions previously granted by statute are still valid and not subject to review or modification; deleting provisions relating to determinations as to whether a proposed change is a substantial deviation; deleting provisions relating to comprehensive development-of-regional-impact applications and master plan development orders; specifying that certain agreements that include two or more developments of regional impact which were the subject of a comprehensive development-of-regional-impact application remain valid unless previously expired; deleting provisions relating to downtown development authorities; deleting provisions relating to adoption of rules by the state land planning agency; deleting

statutory exemptions from development-of-regional-impact review; specifying that an approval of an authorized developer for an areawide development of regional impact remains valid unless previously expired; deleting provisions relating to areawide developments of regional impact; deleting an authorization for the state land planning agency to adopt rules relating to abandonment of developments of regional impact; requiring local governments to file a notice of abandonment under certain conditions; deleting an authorization for the state land planning agency to adopt a procedure for filing such notice; requiring a development-of-regional-impact development order to be abandoned by a local government under certain conditions; deleting a provision relating to abandonment of developments of regional impact in certain high-hazard coastal areas; authorizing local governments to approve abandonment of development orders for an approved development under certain conditions; deleting a provision relating to rights, responsibilities, and obligations under a development order; deleting partial exemptions from development-of regional-impact review; deleting exemptions for dense urban land areas; specifying that proposed developments that exceed the statewide guidelines and standards and that are not otherwise exempt be approved by local governments instead of through specified development-of-regional-impact proceedings; amending s. 380.061, F.S.; specifying that the Florida

Quality Developments program only applies to previously approved developments in the program before the effective date of the act; specifying a process for local governments to adopt a local development order to replace and supersede the development order adopted by the state land planning agency for the Florida Quality Developments; deleting program intent, eligibility requirements, rulemaking authorizations, and application and approval requirements and processes; deleting an appeals process and the Quality Developments Review Board; amending s. 380.0651, F.S.; deleting provisions relating to the superseding of guidelines and standards adopted by the Administration Commission and the publishing of guidelines and standards by the Administration Commission; conforming a provision to changes made by the act; specifying exemptions and partial exemptions from development-of-regional-impact review; deleting provisions relating to determining whether there is a unified plan of development; deleting provisions relating to the circumstances where developments should be aggregated; deleting a provision relating to prospective application of certain provisions; deleting a provision authorizing state land planning agencies to enter into agreements for the joint planning, sharing, or use of specified public infrastructure, facilities, or services by developers; deleting an authorization for the state land planning agency to adopt rules; amending s. 380.07, F.S.; deleting an authorization

for the Florida Land and Water Adjudicatory Commission to adopt rules regarding the requirements for developments of regional impact; revising when a local government must transmit a development order to the state land planning agency, the regional planning agency, and the owner or developer of the property affected by such order; deleting a process for regional planning agencies to undertake appeals of development-of-regional-impact development orders; revising a process for appealing development orders for consistency with a local comprehensive plan to be available only for developments in areas of critical state concern; deleting a procedure regarding certain challenges to development orders relating to developments of regional impact; amending s. 380.115, F.S.; deleting a provision relating to changes in development-of-regional-impact guidelines and standards and the impact of such changes on vested rights, duties, and obligations pursuant to any development order or agreement; requiring local governments to monitor and enforce development orders and prohibiting local governments from issuing permits, approvals, or extensions of services if a developer does not act in substantial compliance with an order; deleting provisions relating to changes in development of regional impact guidelines and standards and their impact on the development approval process; amending s. 125.68, F.S.; conforming a cross-reference; amending s. 163.3245, F.S.; conforming

cross-references; conforming provisions to changes made by the act; revising the circumstances in which applicants who apply for master development approval for an entire planning area must remain subject to a master development order; specifying an exception; deleting a provision relating to the level of review for applications for master development approval; amending s. 163.3246, F.S.; conforming provisions to changes made by the act; conforming cross-references; amending s. 189.08, F.S.; conforming a cross-reference; conforming a provision to changes made by the act; amending s. 190.005, F.S.; conforming cross-references; amending ss. 190.012 and 252.363, F.S.; conforming cross-references; amending s. 369.303, F.S.; conforming a provision to changes made by the act; amending ss. 369.307, 373.236, and 373.414, F.S.; conforming cross-references; amending s. 378.601, F.S.; conforming a provision to changes made by the act; repealing s. 380.065, F.S., relating to a process to allow local governments to request certification to review developments of regional impact that are located within their jurisdictions in lieu of the regional review requirements; amending ss. 380.11 and 403.524, F.S.; conforming cross-references; repealing specified rules regarding uniform review of developments of regional impact by the state land planning agency and regional planning agencies; repealing the rules adopted by the Administration Commission regarding whether two or more developments,

represented by their owners or developers to be separate developments, shall be aggregated; providing a directive to the Division of Law Revision and Information; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (1) of section 165.0615, Florida Statutes, is amended to read:

165.0615 Municipal conversion of independent special districts upon elector-initiated and approved referendum.—

(1) The qualified electors of an independent special district may commence a municipal conversion proceeding by filing a petition with the governing body of the independent special district proposed to be converted if the district meets all of the following criteria:

(a) It was created by special act of the Legislature.

(b) It is designated as an improvement district and created pursuant to chapter 298 or is designated as a stewardship district and created pursuant to s. 189.031.

(c) Its governing board is elected.

(d) Its governing board agrees to the conversion.

(e) It provides at least four of the following municipal services: water, sewer, solid waste, drainage, roads, transportation, public works, fire and rescue, street lighting, parks and recreation, or library or cultural facilities.

(f) No portion of the district is located within the jurisdictional limits of a municipality.

(g) It meets the minimum population standards specified in

s. 165.061(1)(b).

Section 2. Section 380.06, Florida Statutes, is amended to read:

380.06 Developments of regional impact.—

(1) DEFINITION.—The term "development of regional impact," as used in this section, means any development that ~~which~~, because of its character, magnitude, or location, would have a substantial effect upon the health, safety, or welfare of citizens of more than one county.

(2) STATEWIDE GUIDELINES AND STANDARDS.—

~~(a)~~ The statewide guidelines and standards and the exemptions specified in s. 380.0651 and the statewide guidelines and standards adopted by the Administration Commission and codified in chapter 28-24, Florida Administrative Code, must be ~~state land planning agency shall recommend to the Administration Commission specific statewide guidelines and standards for adoption pursuant to this subsection. The Administration Commission shall by rule adopt statewide guidelines and standards to be~~ used in determining whether particular developments are subject to the requirements of subsection (12) ~~shall undergo development-of-regional-impact review~~. The statewide guidelines and standards previously adopted by the Administration Commission and approved by the Legislature shall remain in effect unless ~~revised pursuant to this section or~~ superseded or repealed by statute ~~by other provisions of law~~.

~~(b) In adopting its guidelines and standards, the Administration Commission shall consider and shall be guided by:~~

~~1. The extent to which the development would create or alleviate environmental problems such as air or water pollution or noise.~~

~~2. The amount of pedestrian or vehicular traffic likely to be generated.~~

~~3. The number of persons likely to be residents, employees, or otherwise present.~~

~~4. The size of the site to be occupied.~~

~~5. The likelihood that additional or subsidiary development will be generated.~~

~~6. The extent to which the development would create an additional demand for, or additional use of, energy, including the energy requirements of subsidiary developments.~~

~~7. The unique qualities of particular areas of the state.~~

~~(c) With regard to the changes in the guidelines and standards authorized pursuant to this act, in determining whether a proposed development must comply with the review requirements of this section, the state land planning agency shall apply the guidelines and standards which were in effect when the developer received authorization to commence development from the local government. If a developer has not received authorization to commence development from the local government prior to the effective date of new or amended guidelines and standards, the new or amended guidelines and standards shall apply.~~

~~(d)~~ The statewide guidelines and standards shall be applied as follows:

(a)~~1.~~ Fixed thresholds.—

~~a.~~ A development that is below 100 percent of all numerical thresholds in the statewide guidelines and standards is not subject to subsection (12) ~~is not required to undergo~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

development-of-regional-impact review.

(b)b. A development that is at or above 100 120 percent of any numerical threshold in the statewide guidelines and standards is subject to subsection (12) shall be required to undergo development of regional impact review.

c. Projects certified under s. 403.973 which create at least 100 jobs and meet the criteria of the Department of Economic Opportunity as to their impact on an area's economy, employment, and prevailing wage and skill levels that are at or below 100 percent of the numerical thresholds for industrial plants, industrial parks, distribution, warehousing or wholesaling facilities, office development or multiuse projects other than residential, as described in s. 380.0651(3)(c) and (f) are not required to undergo development-of-regional-impact review.

2. Rebuttable presumption.—It shall be presumed that a development that is at 100 percent or between 100 and 120 percent of a numerical threshold shall be required to undergo development-of-regional-impact review.

(c) With respect to residential, hotel, motel, office, and retail developments, the applicable guidelines and standards shall be increased by 50 percent in urban central business districts and regional activity centers of jurisdictions whose local comprehensive plans are in compliance with part II of chapter 163. With respect to multiuse developments, the applicable individual use guidelines and standards for residential, hotel, motel, office, and retail developments and multiuse guidelines and standards shall be increased by 100 percent in urban central business districts and regional

activity centers of jurisdictions whose local comprehensive plans are in compliance with part II of chapter 163, if one land use of the multiuse development is residential and amounts to not less than 35 percent of the jurisdiction's applicable residential threshold. With respect to resort or convention hotel developments, the applicable guidelines and standards shall be increased by 150 percent in urban central business districts and regional activity centers of jurisdictions whose local comprehensive plans are in compliance with part II of chapter 163 and where the increase is specifically for a proposed resort or convention hotel located in a county with a population greater than 500,000 and the local government specifically designates that the proposed resort or convention hotel development will serve an existing convention center of more than 250,000 gross square feet built before July 1, 1992. The applicable guidelines and standards shall be increased by 150 percent for development in any area designated by the Governor as a rural area of opportunity pursuant to s. 288.0656 during the effectiveness of the designation.

(3) VARIATION OF THRESHOLDS IN STATEWIDE GUIDELINES AND STANDARDS.—The state land planning agency, a regional planning agency, or a local government may petition the Administration Commission to increase or decrease the numerical thresholds of any statewide guideline and standard. The state land planning agency or the regional planning agency may petition for an increase or decrease for a particular local government's jurisdiction or a part of a particular jurisdiction. A local government may petition for an increase or decrease within its jurisdiction or a part of its jurisdiction. A number of requests

~~may be combined in a single petition.~~

~~(a) When a petition is filed, the state land planning agency shall have no more than 180 days to prepare and submit to the Administration Commission a report and recommendations on the proposed variation. The report shall evaluate, and the Administration Commission shall consider, the following criteria:~~

~~1. Whether the local government has adopted and effectively implemented a comprehensive plan that reflects and implements the goals and objectives of an adopted state comprehensive plan.~~

~~2. Any applicable policies in an adopted strategic regional policy plan.~~

~~3. Whether the local government has adopted and effectively implemented both a comprehensive set of land development regulations, which regulations shall include a planned unit development ordinance, and a capital improvements plan that are consistent with the local government comprehensive plan.~~

~~4. Whether the local government has adopted and effectively implemented the authority and the fiscal mechanisms for requiring developers to meet development order conditions.~~

~~5. Whether the local government has adopted and effectively implemented and enforced satisfactory development review procedures.~~

~~(b) The affected regional planning agency, adjoining local governments, and the local government shall be given a reasonable opportunity to submit recommendations to the Administration Commission regarding any such proposed variations.~~

~~(c) The Administration Commission shall have authority to~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~increase or decrease a threshold in the statewide guidelines and standards up to 50 percent above or below the statewide presumptive threshold. The commission may from time to time reconsider changed thresholds and make additional variations as it deems necessary.~~

~~(d) The Administration Commission shall adopt rules setting forth the procedures for submission and review of petitions filed pursuant to this subsection.~~

~~(e) Variations to guidelines and standards adopted by the Administration Commission under this subsection shall be transmitted on or before March 1 to the President of the Senate and the Speaker of the House of Representatives for presentation at the next regular session of the Legislature. Unless approved as submitted by general law, the revisions shall not become effective.~~

(3)~~(4)~~ BINDING LETTER.—

(a) Any binding letter previously issued to a developer by the state land planning agency as to ~~If any developer is in doubt~~ whether his or her proposed development must undergo development-of-regional-impact review ~~under the guidelines and standards~~, whether his or her rights have vested pursuant to subsection (8) ~~(20)~~, or whether a proposed substantial change to a development of regional impact concerning which rights had previously vested pursuant to subsection (8) ~~(20)~~ would divest such rights, remains valid unless it expired on or before the effective date of this act ~~the developer may request a determination from the state land planning agency~~. ~~The developer or the appropriate local government having jurisdiction may request that the state land planning agency determine whether~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~the amount of development that remains to be built in an approved development of regional impact meets the criteria of subparagraph (15)(g)3.~~

(b) Upon a request by the developer, a binding letter of interpretation regarding which rights had previously vested in a development of regional impact may be amended by the local government of jurisdiction, based on standards and procedures in the adopted local comprehensive plan or the adopted local land development code, to reflect a change to the plan of development and modification of vested rights, provided that any such amendment to a binding letter of vested rights must be consistent with s. 163.3167(5). Review of a request for an amendment to a binding letter of vested rights may not include a review of the impacts created by previously vested portions of the development ~~Unless a developer waives the requirements of this paragraph by agreeing to undergo development-of-regional-impact review pursuant to this section, the state land planning agency or local government with jurisdiction over the land on which a development is proposed may require a developer to obtain a binding letter if the development is at a presumptive numerical threshold or up to 20 percent above a numerical threshold in the guidelines and standards~~.

~~(c) Any local government may petition the state land planning agency to require a developer of a development located in an adjacent jurisdiction to obtain a binding letter of interpretation. The petition shall contain facts to support a finding that the development as proposed is a development of regional impact. This paragraph shall not be construed to grant standing to the petitioning local government to initiate an~~

~~administrative or judicial proceeding pursuant to this chapter.~~

~~(d) A request for a binding letter of interpretation shall be in writing and in such form and content as prescribed by the state land planning agency. Within 15 days of receiving an application for a binding letter of interpretation or a supplement to a pending application, the state land planning agency shall determine and notify the applicant whether the information in the application is sufficient to enable the agency to issue a binding letter or shall request any additional information needed. The applicant shall either provide the additional information requested or shall notify the state land planning agency in writing that the information will not be supplied and the reasons therefor. If the applicant does not respond to the request for additional information within 120 days, the application for a binding letter of interpretation shall be deemed to be withdrawn. Within 35 days after acknowledging receipt of a sufficient application, or of receiving notification that the information will not be supplied, the state land planning agency shall issue a binding letter of interpretation with respect to the proposed development. A binding letter of interpretation issued by the state land planning agency shall bind all state, regional, and local agencies, as well as the developer.~~

~~(e) In determining whether a proposed substantial change to a development of regional impact concerning which rights had previously vested pursuant to subsection (20) would divest such rights, the state land planning agency shall review the proposed change within the context of:~~

~~1. Criteria specified in paragraph (19)(b);~~

~~2. Its conformance with any adopted state comprehensive plan and any rules of the state land planning agency;~~

~~3. All rights and obligations arising out of the vested status of such development;~~

~~4. Permit conditions or requirements imposed by the Department of Environmental Protection or any water management district created by s. 373.069 or any of their successor agencies or by any appropriate federal regulatory agency; and~~

~~5. Any regional impacts arising from the proposed change.~~

~~(f) If a proposed substantial change to a development of regional impact concerning which rights had previously vested pursuant to subsection (20) would result in reduced regional impacts, the change shall not divest rights to complete the development pursuant to subsection (20). Furthermore, where all or a portion of the development of regional impact for which rights had previously vested pursuant to subsection (20) is demolished and reconstructed within the same approximate footprint of buildings and parking lots, so that any change in the size of the development does not exceed the criteria of paragraph (19)(b), such demolition and reconstruction shall not divest the rights which had vested.~~

(c) ~~(g)~~ Every binding letter determining that a proposed development is not a development of regional impact, but not including binding letters of vested rights or of modification of vested rights, shall expire and become void unless the plan of development has been substantially commenced within:

1. Three years from October 1, 1985, for binding letters issued prior to the effective date of this act; or

2. Three years from the date of issuance of binding letters

issued on or after October 1, 1985.

(d) ~~(h)~~ The expiration date of a binding letter begins~~,~~ ~~established pursuant to paragraph (g), shall begin~~ to run after final disposition of all administrative and judicial appeals of the binding letter and may be extended by mutual agreement of the state land planning agency, the local government of jurisdiction, and the developer.

(e) ~~(i) In response to an inquiry from a developer or the appropriate local government having jurisdiction, the state land planning agency may issue~~ An informal determination by the state land planning agency, in the form of a clearance letter as to whether a development is required to undergo development-of-regional-impact review or whether the amount of development that remains to be built in an approved development of regional impact, remains valid unless it expired on or before the effective date of this act ~~meets the criteria of subparagraph (15)(g)3. A clearance letter may be based solely on the information provided by the developer, and the state land planning agency is not required to conduct an investigation of that information. If any material information provided by the developer is incomplete or inaccurate, the clearance letter is not binding upon the state land planning agency. A clearance letter does not constitute final agency action~~.

~~(5) AUTHORIZATION TO DEVELOP.—~~

~~(a)1. A developer who is required to undergo development-of-regional-impact review may undertake a development of regional impact if the development has been approved under the requirements of this section.~~

~~2. If the land on which the development is proposed is~~

~~within an area of critical state concern, the development must also be approved under the requirements of s. 380.05.~~

~~(b) State or regional agencies may inquire whether a proposed project is undergoing or will be required to undergo development of regional impact review. If a project is undergoing or will be required to undergo development of regional impact review, any state or regional permit necessary for the construction or operation of the project that is valid for 5 years or less shall take effect, and the period of time for which the permit is valid shall begin to run, upon expiration of the time allowed for an administrative appeal of the development or upon final action following an administrative appeal or judicial review, whichever is later. However, if the application for development approval is not filed within 18 months after the issuance of the permit, the time of validity of the permit shall be considered to be from the date of issuance of the permit. If a project is required to obtain a binding letter under subsection (4), any state or regional agency permit necessary for the construction or operation of the project that is valid for 5 years or less shall take effect, and the period of time for which the permit is valid shall begin to run, only after the developer obtains a binding letter stating that the project is not required to undergo development of regional impact review or after the developer obtains a development order pursuant to this section.~~

~~(c) Prior to the issuance of a final development order, the developer may elect to be bound by the rules adopted pursuant to chapters 373 and 403 in effect when such development order is issued. The rules adopted pursuant to chapters 373 and 403 in~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~effect at the time such development order is issued shall be applicable to all applications for permits pursuant to those chapters and which are necessary for and consistent with the development authorized in such development order, except that a later adopted rule shall be applicable to an application if:~~

~~1. The later adopted rule is determined by the rule adopting agency to be essential to the public health, safety, or welfare;~~

~~2. The later adopted rule is adopted pursuant to s. 403.061(27);~~

~~3. The later adopted rule is being adopted pursuant to a subsequently enacted statutorily mandated program;~~

~~4. The later adopted rule is mandated in order for the state to maintain delegation of a federal program; or~~

~~5. The later adopted rule is required by state or federal law.~~

~~(d) The provision of day care service facilities in developments approved pursuant to this section is permissible but is not required.~~

~~Further, in order for any developer to apply for permits pursuant to this provision, the application must be filed within 5 years from the issuance of the final development order and the permit shall not be effective for more than 8 years from the issuance of the final development order. Nothing in this paragraph shall be construed to alter or change any permitting agency's authority to approve permits or to determine applicable criteria for longer periods of time.~~

~~(6) APPLICATION FOR APPROVAL OF DEVELOPMENT; CONCURRENT~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~PLAN AMENDMENTS.—~~

~~(a) Prior to undertaking any development, a developer that is required to undergo development-of-regional-impact review shall file an application for development approval with the appropriate local government having jurisdiction. The application shall contain, in addition to such other matters as may be required, a statement that the developer proposes to undertake a development of regional impact as required under this section.~~

~~(b) Any local government comprehensive plan amendments related to a proposed development of regional impact, including any changes proposed under subsection (19), may be initiated by a local planning agency or the developer and must be considered by the local governing body at the same time as the application for development approval using the procedures provided for local plan amendment in s. 163.3184 and applicable local ordinances, without regard to local limits on the frequency of consideration of amendments to the local comprehensive plan. This paragraph does not require favorable consideration of a plan amendment solely because it is related to a development of regional impact. The procedure for processing such comprehensive plan amendments is as follows:~~

~~1. If a developer seeks a comprehensive plan amendment related to a development of regional impact, the developer must so notify in writing the regional planning agency, the applicable local government, and the state land planning agency no later than the date of preapplication conference or the submission of the proposed change under subsection (19).~~

~~2. When filing the application for development approval or~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~the proposed change, the developer must include a written request for comprehensive plan amendments that would be necessitated by the development-of-regional-impact approvals sought. That request must include data and analysis upon which the applicable local government can determine whether to transmit the comprehensive plan amendment pursuant to s. 163.3184.~~

~~3. The local government must advertise a public hearing on the transmittal within 30 days after filing the application for development approval or the proposed change and must make a determination on the transmittal within 60 days after the initial filing unless that time is extended by the developer.~~

~~4. If the local government approves the transmittal, procedures set forth in s. 163.3184 must be followed.~~

~~5. Notwithstanding subsection (11) or subsection (19), the local government may not hold a public hearing on the application for development approval or the proposed change or on the comprehensive plan amendments sooner than 30 days after reviewing agency comments are due to the local government pursuant to s. 163.3184.~~

~~6. The local government must hear both the application for development approval or the proposed change and the comprehensive plan amendments at the same hearing. However, the local government must take action separately on the application for development approval or the proposed change and on the comprehensive plan amendments.~~

~~7. Thereafter, the appeal process for the local government development order must follow the provisions of s. 380.07, and the compliance process for the comprehensive plan amendments~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

must follow the provisions of s. 163.3184.

(7) PREAPPLICATION PROCEDURES.—

(a) Before filing an application for development approval, the developer shall contact the regional planning agency having jurisdiction over the proposed development to arrange a preapplication conference. Upon the request of the developer or the regional planning agency, other affected state and regional agencies shall participate in this conference and shall identify the types of permits issued by the agencies, the level of information required, and the permit issuance procedures as applied to the proposed development. The levels of service required in the transportation methodology shall be the same levels of service used to evaluate concurrency in accordance with s. 163.3180. The regional planning agency shall provide the developer information about the development-of-regional-impact process and the use of preapplication conferences to identify issues, coordinate appropriate state and local agency requirements, and otherwise promote a proper and efficient review of the proposed development. If an agreement is reached regarding assumptions and methodology to be used in the application for development approval, the reviewing agencies may not subsequently object to those assumptions and methodologies unless subsequent changes to the project or information obtained during the review make those assumptions and methodologies inappropriate. The reviewing agencies may make only recommendations or comments regarding a proposed development which are consistent with the statutes, rules, or adopted local government ordinances that are applicable to developments in the jurisdiction where the proposed development is located.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

(b) The regional planning agency shall establish by rule a procedure by which a developer may enter into binding written agreements with the regional planning agency to eliminate questions from the application for development approval when those questions are found to be unnecessary for development-of-regional-impact review. It is the legislative intent of this subsection to encourage reduction of paperwork, to discourage unnecessary gathering of data, and to encourage the coordination of the development-of-regional-impact review process with federal, state, and local environmental reviews when such reviews are required by law.

(c) If the application for development approval is not submitted within 1 year after the date of the preapplication conference, the regional planning agency, the local government having jurisdiction, or the applicant may request that another preapplication conference be held.

(8) PRELIMINARY DEVELOPMENT AGREEMENTS.—

(a) A developer may enter into a written preliminary development agreement with the state land planning agency to allow a developer to proceed with a limited amount of the total proposed development, subject to all other governmental approvals and solely at the developer's own risk, prior to issuance of a final development order. All owners of the land in the total proposed development shall join the developer as parties to the agreement. Each agreement shall include and be subject to the following conditions:

1. The developer shall comply with the preapplication conference requirements pursuant to subsection (7) within 45 days after the execution of the agreement.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~2. The developer shall file an application for development approval for the total proposed development within 3 months after execution of the agreement, unless the state land planning agency agrees to a different time for good cause shown. Failure to timely file an application and to otherwise diligently proceed in good faith to obtain a final development order shall constitute a breach of the preliminary development agreement.~~

~~3. The agreement shall include maps and legal descriptions of both the preliminary development area and the total proposed development area and shall specifically describe the preliminary development in terms of magnitude and location. The area approved for preliminary development must be included in the application for development approval and shall be subject to the terms and conditions of the final development order.~~

~~4. The preliminary development shall be limited to lands that the state land planning agency agrees are suitable for development and shall only be allowed in areas where adequate public infrastructure exists to accommodate the preliminary development, when such development will utilize public infrastructure. The developer must also demonstrate that the preliminary development will not result in material adverse impacts to existing resources or existing or planned facilities.~~

~~5. The preliminary development agreement may allow development which is:~~

~~a. Less than 100 percent of any applicable threshold if the developer demonstrates that such development is consistent with subparagraph 4.; or~~

~~b. Less than 120 percent of any applicable threshold if the developer demonstrates that such development is part of a~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~proposed downtown development of regional impact specified in subsection (22) or part of any areawide development of regional impact specified in subsection (25) and that the development is consistent with subparagraph 4.~~

~~6. The developer and owners of the land may not claim vested rights, or assert equitable estoppel, arising from the agreement or any expenditures or actions taken in reliance on the agreement to continue with the total proposed development beyond the preliminary development. The agreement shall not entitle the developer to a final development order approving the total proposed development or to particular conditions in a final development order.~~

~~7. The agreement shall not prohibit the regional planning agency from reviewing or commenting on any regional issue that the regional agency determines should be included in the regional agency's report on the application for development approval.~~

~~8. The agreement shall include a disclosure by the developer and all the owners of the land in the total proposed development of all land or development within 5 miles of the total proposed development in which they have an interest and shall describe such interest.~~

~~9. In the event of a breach of the agreement or failure to comply with any condition of the agreement, or if the agreement was based on materially inaccurate information, the state land planning agency may terminate the agreement or file suit to enforce the agreement as provided in this section and s. 380.11, including a suit to enjoin all development.~~

~~10. A notice of the preliminary development agreement shall~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~be recorded by the developer in accordance with s. 28.222 with the clerk of the circuit court for each county in which land covered by the terms of the agreement is located. The notice shall include a legal description of the land covered by the agreement and shall state the parties to the agreement, the date of adoption of the agreement and any subsequent amendments, the location where the agreement may be examined, and that the agreement constitutes a land development regulation applicable to portions of the land covered by the agreement. The provisions of the agreement shall inure to the benefit of and be binding upon successors and assigns of the parties in the agreement.~~

~~11. Except for those agreements which authorize preliminary development for substantial deviations pursuant to subsection (19), a developer who no longer wishes to pursue a development of regional impact may propose to abandon any preliminary development agreement executed after January 1, 1985, including those pursuant to s. 380.032(3), provided at the time of abandonment:~~

~~a. A final development order under this section has been rendered that approves all of the development actually constructed; or~~

~~b. The amount of development is less than 100 percent of all numerical thresholds of the guidelines and standards, and the state land planning agency determines in writing that the development to date is in compliance with all applicable local regulations and the terms and conditions of the preliminary development agreement and otherwise adequately mitigates for the impacts of the development to date.~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~In either event, when a developer proposes to abandon said agreement, the developer shall give written notice and state that he or she is no longer proposing a development of regional impact and provide adequate documentation that he or she has met the criteria for abandonment of the agreement to the state land planning agency. Within 30 days of receipt of adequate documentation of such notice, the state land planning agency shall make its determination as to whether or not the developer meets the criteria for abandonment. Once the state land planning agency determines that the developer meets the criteria for abandonment, the state land planning agency shall issue a notice of abandonment which shall be recorded by the developer in accordance with s. 28.222 with the clerk of the circuit court for each county in which land covered by the terms of the agreement is located.~~

~~(b) The state land planning agency may enter into other types of agreements to effectuate the provisions of this act as provided in s. 380.032.~~

~~(c) The provisions of this subsection shall also be available to a developer who chooses to seek development approval of a Florida Quality Development pursuant to s. 380.061.~~

~~(9) CONCEPTUAL AGENCY REVIEW.—~~

~~(a)1. In order to facilitate the planning and preparation of permit applications for projects that undergo development-of-regional-impact review, and in order to coordinate the information required to issue such permits, a developer may elect to request conceptual agency review under this subsection either concurrently with development-of-regional-impact review~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~and comprehensive plan amendments, if applicable, or subsequent to a preapplication conference held pursuant to subsection (7).~~

~~2. "Conceptual agency review" means general review of the proposed location, densities, intensity of use, character, and major design features of a proposed development required to undergo review under this section for the purpose of considering whether these aspects of the proposed development comply with the issuing agency's statutes and rules.~~

~~3. Conceptual agency review is a licensing action subject to chapter 120, and approval or denial constitutes final agency action, except that the 90-day time period specified in s. 120.60(1) shall be tolled for the agency when the affected regional planning agency requests information from the developer pursuant to paragraph (10)(b). If proposed agency action on the conceptual approval is the subject of a proceeding under ss. 120.569 and 120.57, final agency action shall be conclusive as to any issues actually raised and adjudicated in the proceeding, and such issues may not be raised in any subsequent proceeding under ss. 120.569 and 120.57 on the proposed development by any parties to the prior proceeding.~~

~~4. A conceptual agency review approval shall be valid for up to 10 years, unless otherwise provided in a state or regional agency rule, and may be reviewed and reissued for additional periods of time under procedures established by the agency.~~

~~(b) The Department of Environmental Protection, each water management district, and each other state or regional agency that requires construction or operation permits shall establish by rule a set of procedures necessary for conceptual agency review for the following permitting activities within their~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~respective regulatory jurisdictions:~~

~~1. The construction and operation of potential sources of water pollution, including industrial wastewater, domestic wastewater, and stormwater.~~

~~2. Dredging and filling activities.~~

~~3. The management and storage of surface waters.~~

~~4. The construction and operation of works of the district, only if a conceptual agency review approval is requested under subparagraph 3.~~

~~Any state or regional agency may establish rules for conceptual agency review for any other permitting activities within its respective regulatory jurisdiction.~~

~~(c)1. Each agency participating in conceptual agency reviews shall determine and establish by rule its information and application requirements and furnish these requirements to the state land planning agency and to any developer seeking conceptual agency review under this subsection.~~

~~2. Each agency shall cooperate with the state land planning agency to standardize, to the extent possible, review procedures, data requirements, and data collection methodologies among all participating agencies, consistent with the requirements of the statutes that establish the permitting programs for each agency.~~

~~(d) At the conclusion of the conceptual agency review, the agency shall give notice of its proposed agency action as required by s. 120.60(3) and shall forward a copy of the notice to the appropriate regional planning council with a report setting out the agency's conclusions on potential development~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~impacts and stating whether the agency intends to grant conceptual approval, with or without conditions, or to deny conceptual approval. If the agency intends to deny conceptual approval, the report shall state the reasons therefor. The agency may require the developer to publish notice of proposed agency action in accordance with s. 403.815.~~

~~(c) An agency's decision to grant conceptual approval shall not relieve the developer of the requirement to obtain a permit and to meet the standards for issuance of a construction or operation permit or to meet the agency's information requirements for such a permit. Nevertheless, there shall be a rebuttable presumption that the developer is entitled to receive a construction or operation permit for an activity for which the agency granted conceptual review approval, to the extent that the project for which the applicant seeks a permit is in accordance with the conceptual approval and with the agency's standards and criteria for issuing a construction or operation permit. The agency may revoke or appropriately modify a valid conceptual approval if the agency shows:~~

~~1. That an applicant or his or her agent has submitted materially false or inaccurate information in the application for conceptual approval;~~

~~2. That the developer has violated a condition of the conceptual approval; or~~

~~3. That the development will cause a violation of the agency's applicable laws or rules.~~

~~(f) Nothing contained in this subsection shall modify or abridge the law of vested rights or estoppel.~~

~~(g) Nothing contained in this subsection shall be construed~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~to preclude an agency from adopting rules for conceptual review for developments which are not developments of regional impact.~~

~~(10) APPLICATION; SUFFICIENCY.—~~

~~(a) When an application for development approval is filed with a local government, the developer shall also send copies of the application to the appropriate regional planning agency and the state land planning agency.~~

~~(b) If a regional planning agency determines that the application for development approval is insufficient for the agency to discharge its responsibilities under subsection (12), it shall provide in writing to the appropriate local government and the applicant a statement of any additional information desired within 30 days of the receipt of the application by the regional planning agency. The applicant may supply the information requested by the regional planning agency and shall communicate its intention to do so in writing to the appropriate local government and the regional planning agency within 5 working days of the receipt of the statement requesting such information, or the applicant shall notify the appropriate local government and the regional planning agency in writing that the requested information will not be supplied. Within 30 days after receipt of such additional information, the regional planning agency shall review it and may request only that information needed to clarify the additional information or to answer new questions raised by, or directly related to, the additional information. The regional planning agency may request additional information no more than twice, unless the developer waives this limitation. If an applicant does not provide the information requested by a regional planning agency within 120 days of its~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~request, or within a time agreed upon by the applicant and the regional planning agency, the application shall be considered withdrawn.~~

~~(c) The regional planning agency shall notify the local government that a public hearing date may be set when the regional planning agency determines that the application is sufficient or when it receives notification from the developer that the additional requested information will not be supplied, as provided for in paragraph (b).~~

~~(11) LOCAL NOTICE.—Upon receipt of the sufficiency notification from the regional planning agency required by paragraph (10)(c), the appropriate local government shall give notice and hold a public hearing on the application in the same manner as for a rezoning as provided under the appropriate special or local law or ordinance, except that such hearing proceedings shall be recorded by tape or a certified court reporter and made available for transcription at the expense of any interested party. When a development of regional impact is proposed within the jurisdiction of more than one local government, the local governments, at the request of the developer, may hold a joint public hearing. The local government shall comply with the following additional requirements:~~

~~(a) The notice of public hearing shall state that the proposed development is undergoing a development-of-regional-impact review.~~

~~(b) The notice shall be published at least 60 days in advance of the hearing and shall specify where the information and reports on the development of regional impact application may be reviewed.~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~(c) The notice shall be given to the state land planning agency, to the applicable regional planning agency, to any state or regional permitting agency participating in a conceptual agency review process under subsection (9), and to such other persons as may have been designated by the state land planning agency as entitled to receive such notices.~~

~~(d) A public hearing date shall be set by the appropriate local government at the next scheduled meeting. The public hearing shall be held no later than 90 days after issuance of notice by the regional planning agency that a public hearing may be set, unless an extension is requested by the applicant.~~

~~(12) REGIONAL REPORTS.~~

~~(a) Within 50 days after receipt of the notice of public hearing required in paragraph (11)(c), the regional planning agency, if one has been designated for the area including the local government, shall prepare and submit to the local government a report and recommendations on the regional impact of the proposed development. In preparing its report and recommendations, the regional planning agency shall identify regional issues based upon the following review criteria and make recommendations to the local government on these regional issues, specifically considering whether, and the extent to which:~~

~~1. The development will have a favorable or unfavorable impact on state or regional resources or facilities identified in the applicable state or regional plans. As used in this subsection, the term "applicable state plan" means the state comprehensive plan. As used in this subsection, the term "applicable regional plan" means an adopted strategic regional~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~policy plan.~~

~~2. The development will significantly impact adjacent jurisdictions. At the request of the appropriate local government, regional planning agencies may also review and comment upon issues that affect only the requesting local government.~~

~~3. As one of the issues considered in the review in subparagraphs 1. and 2., the development will favorably or adversely affect the ability of people to find adequate housing reasonably accessible to their places of employment if the regional planning agency has adopted an affordable housing policy as part of its strategic regional policy plan. The determination should take into account information on factors that are relevant to the availability of reasonably accessible adequate housing. Adequate housing means housing that is available for occupancy and that is not substandard.~~

~~(b) The regional planning agency report must contain recommendations that are consistent with the standards required by the applicable state permitting agencies or the water management district.~~

~~(c) At the request of the regional planning agency, other appropriate agencies shall review the proposed development and shall prepare reports and recommendations on issues that are clearly within the jurisdiction of those agencies. Such agency reports shall become part of the regional planning agency report; however, the regional planning agency may attach dissenting views. When water management district and Department of Environmental Protection permits have been issued pursuant to chapter 373 or chapter 403, the regional planning council may~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~comment on the regional implications of the permits but may not offer conflicting recommendations.~~

~~(d) The regional planning agency shall afford the developer or any substantially affected party reasonable opportunity to present evidence to the regional planning agency head relating to the proposed regional agency report and recommendations.~~

~~(e) If the location of a proposed development involves land within the boundaries of multiple regional planning councils, the state land planning agency shall designate a lead regional planning council. The lead regional planning council shall prepare the regional report.~~

~~(13) CRITERIA IN AREAS OF CRITICAL STATE CONCERN. If the development is in an area of critical state concern, the local government shall approve it only if it complies with the land development regulations therefor under s. 380.05 and the provisions of this section. The provisions of this section shall not apply to developments in areas of critical state concern which had pending applications and had been noticed or agendaed by local government after September 1, 1985, and before October 1, 1985, for development order approval. In all such cases, the state land planning agency may consider and address applicable regional issues contained in subsection (12) as part of its area-of-critical-state-concern review pursuant to ss. 380.05, 380.07, and 380.11.~~

~~(14) CRITERIA OUTSIDE AREAS OF CRITICAL STATE CONCERN.—If the development is not located in an area of critical state concern, in considering whether the development is approved, denied, or approved subject to conditions, restrictions, or limitations, the local government shall consider whether, and~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~the extent to which:~~

~~(a) The development is consistent with the local comprehensive plan and local land development regulations.~~

~~(b) The development is consistent with the report and recommendations of the regional planning agency submitted pursuant to subsection (12).~~

~~(c) The development is consistent with the State Comprehensive Plan. In consistency determinations, the plan shall be construed and applied in accordance with s. 187.101(3).~~

~~However, a local government may approve a change to a development authorized as a development of regional impact if the change has the effect of reducing the originally approved height, density, or intensity of the development and if the revised development would have been consistent with the comprehensive plan in effect when the development was originally approved. If the revised development is approved, the developer may proceed as provided in s. 163.3167(5).~~

(4) ~~(15)~~ LOCAL GOVERNMENT DEVELOPMENT ORDER.—

(a) Notwithstanding any provision of any adopted local comprehensive plan or adopted local government land development regulation to the contrary, an amendment to a development order for an approved development of regional impact adopted pursuant to subsection (7) may not alter the ~~appropriate local government shall render a decision on the application within 30 days after the hearing unless an extension is requested by the developer~~.

~~(b) When possible, local governments shall issue development orders concurrently with any other local permits or development approvals that may be applicable to the proposed~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~development.~~

~~(c) The development order shall include findings of fact and conclusions of law consistent with subsections (13) and (14). The development order:~~

~~1. Shall specify the monitoring procedures and the local official responsible for assuring compliance by the developer with the development order.~~

~~2. Shall establish compliance dates for the development order, including a deadline for commencing physical development and for compliance with conditions of approval or phasing requirements, and shall include a buildout date that reasonably reflects the time anticipated to complete the development.~~

~~3. Shall establish a~~ date until which the local government agrees that the approved development of regional impact will ~~shall~~ not be subject to downzoning, unit density reduction, or intensity reduction, unless the local government can demonstrate that substantial changes in the conditions underlying the approval of the development order have occurred or the development order was based on substantially inaccurate information provided by the developer or that the change is clearly established by local government to be essential to the public health, safety, or welfare. The date established pursuant to this paragraph may not be ~~subparagraph shall be no~~ sooner than the buildout date of the project.

~~4. Shall specify the requirements for the biennial report designated under subsection (18), including the date of submission, parties to whom the report is submitted, and contents of the report, based upon the rules adopted by the state land planning agency. Such rules shall specify the scope~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~of any additional local requirements that may be necessary for the report.~~

~~5. May specify the types of changes to the development which shall require submission for a substantial deviation determination or a notice of proposed change under subsection (19).~~

~~6. Shall include a legal description of the property.~~

~~(d) Conditions of a development order that require a developer to contribute land for a public facility or construct, expand, or pay for land acquisition or construction or expansion of a public facility, or portion thereof, shall meet the following criteria:~~

~~1. The need to construct new facilities or add to the present system of public facilities must be reasonably attributable to the proposed development.~~

~~2. Any contribution of funds, land, or public facilities required from the developer shall be comparable to the amount of funds, land, or public facilities that the state or the local government would reasonably expect to expend or provide, based on projected costs of comparable projects, to mitigate the impacts reasonably attributable to the proposed development.~~

~~3. Any funds or lands contributed must be expressly designated and used to mitigate impacts reasonably attributable to the proposed development.~~

~~4. Construction or expansion of a public facility by a nongovernmental developer as a condition of a development order to mitigate the impacts reasonably attributable to the proposed development is not subject to competitive bidding or competitive negotiation for selection of a contractor or design professional~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~for any part of the construction or design.~~

(b) ~~(c)~~ 1. A local government may ~~shall~~ not include~~,~~ as a development order condition for a development of regional impact~~,~~ any requirement that a developer contribute or pay for land acquisition or construction or expansion of public facilities or portions thereof unless the local government has enacted a local ordinance which requires other development not subject to this section to contribute its proportionate share of the funds, land, or public facilities necessary to accommodate any impacts having a rational nexus to the proposed development, and the need to construct new facilities or add to the present system of public facilities must be reasonably attributable to the proposed development.

2. Selection of a contractor or design professional for any aspect of construction or design related to the construction or expansion of a public facility by a nongovernmental developer which is undertaken as a condition of a development order to mitigate the impacts reasonably attributable to the proposed development is not subject to competitive bidding or competitive negotiation ~~A local government shall not approve a development of regional impact that does not make adequate provision for the public facilities needed to accommodate the impacts of the proposed development unless the local government includes in the development order a commitment by the local government to provide these facilities consistently with the development schedule approved in the development order; however, a local government's failure to meet the requirements of subparagraph 1. and this subparagraph shall not preclude the issuance of a development order where adequate provision is made by the~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~developer for the public facilities needed to accommodate the impacts of the proposed development. Any funds or lands contributed by a developer must be expressly designated and used to accommodate impacts reasonably attributable to the proposed development~~.

~~3. The Department of Economic Opportunity and other state and regional agencies involved in the administration and implementation of this act shall cooperate and work with units of local government in preparing and adopting local impact fee and other contribution ordinances.~~

(c) ~~(f)~~ Notice of the adoption of an amendment ~~a development order or the subsequent amendments~~ to an adopted development order shall be recorded by the developer, in accordance with s. 28.222, with the clerk of the circuit court for each county in which the development is located. The notice shall include a legal description of the property covered by the order and shall state which unit of local government adopted the development order, the date of adoption, the date of adoption of any amendments to the development order, the location where the adopted order with any amendments may be examined, and that the development order constitutes a land development regulation applicable to the property. The recording of this notice does ~~shall~~ not constitute a lien, cloud, or encumbrance on real property, or actual or constructive notice of any such lien, cloud, or encumbrance. This paragraph applies only to developments initially approved under this section after July 1, 1980. If the local government of jurisdiction rescinds a development order for an approved development of regional impact pursuant to s. 380.115, the developer may record notice of the

rescission.

(d) ~~(g)~~ Any agreement entered into by the state land planning agency, the developer, and the ~~A~~ local government with respect to an approved development of regional impact previously classified as essentially built out, or any other official determination that an approved development of regional impact is essentially built out, remains valid unless it expired on or before the effective date of this act. ~~may not issue a permit for a development subsequent to the buildout date contained in the development order unless:~~

~~1. The proposed development has been evaluated cumulatively with existing development under the substantial deviation provisions of subsection (19) after the termination or expiration date;~~

~~2. The proposed development is consistent with an abandonment of development order that has been issued in accordance with subsection (26);~~

~~3. The development of regional impact is essentially built out, in that all the mitigation requirements in the development order have been satisfied, all developers are in compliance with all applicable terms and conditions of the development order except the buildout date, and the amount of proposed development that remains to be built is less than 40 percent of any applicable development-of-regional-impact threshold; or~~

~~4. The project has been determined to be an essentially built-out development of regional impact through an agreement executed by the developer, the state land planning agency, and the local government, in accordance with s. 380.032, which will establish the terms and conditions under which the development~~

~~may be continued. If the project is determined to be essentially built out, development may proceed pursuant to the s. 380.032 agreement after the termination or expiration date contained in the development order without further development-of-regional-impact review subject to the local government comprehensive plan and land development regulations. The parties may amend the agreement without submission, review, or approval of a notification of proposed change pursuant to subsection (19). For the purposes of this paragraph, a development of regional impact is considered essentially built out, if:~~

~~a. The developers are in compliance with all applicable terms and conditions of the development order except the buildout date or reporting requirements; and~~

~~b.(I) The amount of development that remains to be built is less than the substantial deviation threshold specified in paragraph (19)(b) for each individual land use category, or, for a multiuse development, the sum total of all unbuilt land uses as a percentage of the applicable substantial deviation threshold is equal to or less than 100 percent; or~~

~~(II) The state land planning agency and the local government have agreed in writing that the amount of development to be built does not create the likelihood of any additional regional impact not previously reviewed.~~

~~The single-family residential portions of a development may be considered essentially built out if all of the workforce housing obligations and all of the infrastructure and horizontal development have been completed, at least 50 percent of the dwelling units have been completed, and more than 80 percent of~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~the lots have been conveyed to third-party individual lot owners or to individual builders who own no more than 40 lots at the time of the determination. The mobile home park portions of a development may be considered essentially built out if all the infrastructure and horizontal development has been completed, and at least 50 percent of the lots are leased to individual mobile home owners. In order to accommodate changing market demands and achieve maximum land use efficiency in an essentially built out project, when a developer is building out a project, a local government, without the concurrence of the state land planning agency, may adopt a resolution authorizing the developer to exchange one approved land use for another approved land use as specified in the agreement. Before the issuance of a building permit pursuant to an exchange, the developer must demonstrate to the local government that the exchange ratio will not result in a net increase in impacts to public facilities and will meet all applicable requirements of the comprehensive plan and land development code. For developments previously determined to impact strategic intermodal facilities as defined in s. 339.63, the local government shall consult with the Department of Transportation before approving the exchange.~~

~~(h) If the property is annexed by another local jurisdiction, the annexing jurisdiction shall adopt a new development order that incorporates all previous rights and obligations specified in the prior development order.~~

(5) ~~(16)~~ CREDITS AGAINST LOCAL IMPACT FEES.—

(a) Notwithstanding any provision of an adopted local comprehensive plan or adopted local government land development

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

regulations to the contrary, the adoption of an amendment to a development order for an approved development of regional impact pursuant to subsection (7) does not diminish or otherwise alter any credits for a development order exaction or fee as against impact fees, mobility fees, or exactions when such credits are based upon the developer's contribution of land or a public facility or the construction, expansion, or payment for land acquisition or construction or expansion of a public facility, or a portion thereof ~~If the development order requires the developer to contribute land or a public facility or construct, expand, or pay for land acquisition or construction or expansion of a public facility, or portion thereof, and the developer is also subject by local ordinance to impact fees or exactions to meet the same needs, the local government shall establish and implement a procedure that credits a development order exaction or fee toward an impact fee or exaction imposed by local ordinance for the same need; however, if the Florida Land and Water Adjudicatory Commission imposes any additional requirement, the local government shall not be required to grant a credit toward the local exaction or impact fee unless the local government determines that such required contribution, payment, or construction meets the same need that the local exaction or impact fee would address. The nongovernmental developer need not be required, by virtue of this credit, to competitively bid or negotiate any part of the construction or design of the facility, unless otherwise requested by the local government~~.

(b) If the local government imposes or increases an impact fee, mobility fee, or exaction by local ordinance after a

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

development order has been issued, the developer may petition the local government, and the local government shall modify the affected provisions of the development order to give the developer credit for any contribution of land for a public facility, or construction, expansion, or contribution of funds for land acquisition or construction or expansion of a public facility, or a portion thereof, required by the development order toward an impact fee or exaction for the same need.

(c) Any ~~The local government and the developer may enter into~~ capital contribution front-ending agreement entered into by a local government and a developer which is still in effect as of the effective date of this act ~~agreements~~ as part of a development-of-regional-impact development order to reimburse the developer, or the developer's successor, for voluntary contributions paid in excess of his or her fair share remains valid.

(d) This subsection does not apply to internal, onsite facilities required by local regulations or to any offsite facilities to the extent that such facilities are necessary to provide safe and adequate services to the development.

~~(17) LOCAL MONITORING.—The local government issuing the development order is primarily responsible for monitoring the development and enforcing the provisions of the development order. Local governments shall not issue any permits or approvals or provide any extensions of services if the developer fails to act in substantial compliance with the development order.~~

(6)~~(18)~~ ~~BIENNIAL~~ REPORTS.—Notwithstanding any condition in a development order for an approved development of regional

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

impact, the developer is not required to ~~shall~~ submit an annual or a biennial report on the development of regional impact to the local government, the regional planning agency, the state land planning agency, and all affected permit agencies ~~in alternate years on the date specified in the development order,~~ unless required to do so by the local government that has jurisdiction over the development. The penalty for failure to file such a required report is as prescribed by the local government ~~development order by its terms requires more frequent monitoring. If the report is not received, the state land planning agency shall notify the local government. If the local government does not receive the report or receives notification that the state land planning agency has not received the report, the local government shall request in writing that the developer submit the report within 30 days. The failure to submit the report after 30 days shall result in the temporary suspension of the development order by the local government. If no additional development pursuant to the development order has occurred since the submission of the previous report, then a letter from the developer stating that no development has occurred shall satisfy the requirement for a report. Development orders that require annual reports may be amended to require biennial reports at the option of the local government~~.

(7) ~~(19)~~ CHANGES ~~SUBSTANTIAL DEVIATIONS~~.—

(a) Notwithstanding any provision to the contrary in any development order, agreement, local comprehensive plan, or local land development regulation, any proposed change to a previously approved development of regional impact shall be reviewed by the local government based on the standards and procedures in its

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

adopted local comprehensive plan and adopted local land development regulations, including, but not limited to, procedures for notice to the applicant and the public regarding the issuance of development orders. At least one public hearing must be held on the application for change, and any change must be approved by the local governing body before it becomes effective. The review must abide by any prior agreements or other actions vesting the laws and policies governing the development. Development within the previously approved development of regional impact may continue, as approved, during the review in portions of the development which are not directly affected by the proposed change ~~which creates a reasonable likelihood of additional regional impact, or any type of regional impact created by the change not previously reviewed by the regional planning agency, shall constitute a substantial deviation and shall cause the proposed change to be subject to further development-of-regional-impact review. There are a variety of reasons why a developer may wish to propose changes to an approved development of regional impact, including changed market conditions. The procedures set forth in this subsection are for that purpose~~.

(b) The local government shall either adopt an amendment to the development order that approves the application, with or without conditions, or deny the application for the proposed change. Any new conditions in the amendment to the development order issued by the local government may address only those impacts directly created by the proposed change, and must be consistent with s. 163.3180(5), the adopted comprehensive plan, and adopted land development regulations. Changes to a phase

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

date, buildout date, expiration date, or termination date may also extend any required mitigation associated with a phased construction project so that mitigation takes place in the same timeframe relative to the impacts as approved ~~Any proposed change to a previously approved development of regional impact or development order condition which, either individually or cumulatively with other changes, exceeds any of the criteria in subparagraphs 1.-11. constitutes a substantial deviation and shall cause the development to be subject to further development-of-regional-impact review through the notice of proposed change process under this section~~.

~~1. An increase in the number of parking spaces at an attraction or recreational facility by 15 percent or 500 spaces, whichever is greater, or an increase in the number of spectators that may be accommodated at such a facility by 15 percent or 1,500 spectators, whichever is greater.~~

~~2. A new runway, a new terminal facility, a 25 percent lengthening of an existing runway, or a 25 percent increase in the number of gates of an existing terminal, but only if the increase adds at least three additional gates.~~

~~3. An increase in land area for office development by 15 percent or an increase of gross floor area of office development by 15 percent or 100,000 gross square feet, whichever is greater.~~

~~4. An increase in the number of dwelling units by 10 percent or 55 dwelling units, whichever is greater.~~

~~5. An increase in the number of dwelling units by 50 percent or 200 units, whichever is greater, provided that 15 percent of the proposed additional dwelling units are dedicated~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~to affordable workforce housing, subject to a recorded land use restriction that shall be for a period of not less than 20 years and that includes resale provisions to ensure long-term affordability for income-eligible homeowners and renters and provisions for the workforce housing to be commenced before the completion of 50 percent of the market rate dwelling. For purposes of this subparagraph, the term "affordable workforce housing" means housing that is affordable to a person who earns less than 120 percent of the area median income, or less than 140 percent of the area median income if located in a county in which the median purchase price for a single-family existing home exceeds the statewide median purchase price of a single-family existing home. For purposes of this subparagraph, the term "statewide median purchase price of a single-family existing home" means the statewide purchase price as determined in the Florida Sales Report, Single-Family Existing Homes, released each January by the Florida Association of Realtors and the University of Florida Real Estate Research Center.~~

~~6. An increase in commercial development by 60,000 square feet of gross floor area or of parking spaces provided for customers for 425 cars or a 10 percent increase, whichever is greater.~~

~~7. An increase in a recreational vehicle park area by 10 percent or 110 vehicle spaces, whichever is less.~~

~~8. A decrease in the area set aside for open space of 5 percent or 20 acres, whichever is less.~~

~~9. A proposed increase to an approved multiuse development of regional impact where the sum of the increases of each land use as a percentage of the applicable substantial deviation~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~criteria is equal to or exceeds 110 percent. The percentage of any decrease in the amount of open space shall be treated as an increase for purposes of determining when 110 percent has been reached or exceeded.~~

~~10. A 15 percent increase in the number of external vehicle trips generated by the development above that which was projected during the original development-of-regional-impact review.~~

~~11. Any change that would result in development of any area which was specifically set aside in the application for development approval or in the development order for preservation or special protection of endangered or threatened plants or animals designated as endangered, threatened, or species of special concern and their habitat, any species protected by 16 U.S.C. ss. 668a-668d, primary dunes, or archaeological and historical sites designated as significant by the Division of Historical Resources of the Department of State. The refinement of the boundaries and configuration of such areas shall be considered under sub-subparagraph (c)2.j.~~

~~The substantial deviation numerical standards in subparagraphs 3., 6., and 9., excluding residential uses, and in subparagraph 10., are increased by 100 percent for a project certified under s. 403.973 which creates jobs and meets criteria established by the Department of Economic Opportunity as to its impact on an area's economy, employment, and prevailing wage and skill levels. The substantial deviation numerical standards in subparagraphs 3., 4., 5., 6., 9., and 10. are increased by 50 percent for a project located wholly within an urban infill and~~

~~redevelopment area designated on the applicable adopted local comprehensive plan future land use map and not located within the coastal high hazard area.~~

(c) This section is not intended to alter or otherwise limit the extension, previously granted by statute, of a commencement, buildout, phase, termination, or expiration date in any development order for an approved development of regional impact and any corresponding modification of a related permit or agreement. Any such extension is not subject to review or modification in any future amendment to a development order pursuant to the adopted local comprehensive plan and adopted local land development regulations ~~An extension of the date of buildout of a development, or any phase thereof, by more than 7 years is presumed to create a substantial deviation subject to further development-of-regional-impact review~~.

~~1. An extension of the date of buildout, or any phase thereof, of more than 5 years but not more than 7 years is presumed not to create a substantial deviation. The extension of the date of buildout of an areawide development of regional impact by more than 5 years but less than 10 years is presumed not to create a substantial deviation. These presumptions may be rebutted by clear and convincing evidence at the public hearing held by the local government. An extension of 5 years or less is not a substantial deviation.~~

~~2. In recognition of the 2011 real estate market conditions, at the option of the developer, all commencement, phase, buildout, and expiration dates for projects that are currently valid developments of regional impact are extended for 4 years regardless of any previous extension. Associated~~

~~mitigation requirements are extended for the same period unless, before December 1, 2011, a governmental entity notifies a developer that has commenced any construction within the phase for which the mitigation is required that the local government has entered into a contract for construction of a facility with funds to be provided from the development's mitigation funds for that phase as specified in the development order or written agreement with the developer. The 4-year extension is not a substantial deviation, is not subject to further development-of-regional-impact review, and may not be considered when determining whether a subsequent extension is a substantial deviation under this subsection. The developer must notify the local government in writing by December 31, 2011, in order to receive the 4-year extension.~~

~~For the purpose of calculating when a buildout or phase date has been exceeded, the time shall be tolled during the pendency of administrative or judicial proceedings relating to development permits. Any extension of the buildout date of a project or a phase thereof shall automatically extend the commencement date of the project, the termination date of the development order, the expiration date of the development of regional impact, and the phases thereof if applicable by a like period of time.~~

~~(d) A change in the plan of development of an approved development of regional impact resulting from requirements imposed by the Department of Environmental Protection or any water management district created by s. 373.069 or any of their successor agencies or by any appropriate federal regulatory agency shall be submitted to the local government pursuant to~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~this subsection. The change shall be presumed not to create a substantial deviation subject to further development-of-regional-impact review. The presumption may be rebutted by clear and convincing evidence at the public hearing held by the local government.~~

~~(e)1. Except for a development order rendered pursuant to subsection (22) or subsection (25), a proposed change to a development order which individually or cumulatively with any previous change is less than any numerical criterion contained in subparagraphs (b)1.-10. and does not exceed any other criterion, or which involves an extension of the buildout date of a development, or any phase thereof, of less than 5 years is not subject to the public hearing requirements of subparagraph (f)3., and is not subject to a determination pursuant to subparagraph (f)5. Notice of the proposed change shall be made to the regional planning council and the state land planning agency. Such notice must include a description of previous individual changes made to the development, including changes previously approved by the local government, and must include appropriate amendments to the development order.~~

~~2. The following changes, individually or cumulatively with any previous changes, are not substantial deviations:~~

~~a. Changes in the name of the project, developer, owner, or monitoring official.~~

~~b. Changes to a setback which do not affect noise buffers, environmental protection or mitigation areas, or archaeological or historical resources.~~

~~c. Changes to minimum lot sizes.~~

~~d. Changes in the configuration of internal roads which do~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~not affect external access points.~~

~~e. Changes to the building design or orientation which stay approximately within the approved area designated for such building and parking lot, and which do not affect historical buildings designated as significant by the Division of Historical Resources of the Department of State.~~

~~f. Changes to increase the acreage in the development, if no development is proposed on the acreage to be added.~~

~~g. Changes to eliminate an approved land use, if there are no additional regional impacts.~~

~~h. Changes required to conform to permits approved by any federal, state, or regional permitting agency, if these changes do not create additional regional impacts.~~

~~i. Any renovation or redevelopment of development within a previously approved development of regional impact which does not change land use or increase density or intensity of use.~~

~~j. Changes that modify boundaries and configuration of areas described in subparagraph (b)11. due to science-based refinement of such areas by survey, by habitat evaluation, by other recognized assessment methodology, or by an environmental assessment. In order for changes to qualify under this sub-subparagraph, the survey, habitat evaluation, or assessment must occur before the time that a conservation easement protecting such lands is recorded and must not result in any net decrease in the total acreage of the lands specifically set aside for permanent preservation in the final development order.~~

~~k. Changes that do not increase the number of external peak hour trips and do not reduce open space and conserved areas within the project except as otherwise permitted by sub-~~

~~subparagraph j.~~

~~l. A phase date extension, if the state land planning agency, in consultation with the regional planning council and subject to the written concurrence of the Department of Transportation, agrees that the traffic impact is not significant and adverse under applicable state agency rules.~~

~~m. Any other change that the state land planning agency, in consultation with the regional planning council, agrees in writing is similar in nature, impact, or character to the changes enumerated in sub-subparagraphs a.-l. and that does not create the likelihood of any additional regional impact.~~

~~This subsection does not require the filing of a notice of proposed change but requires an application to the local government to amend the development order in accordance with the local government's procedures for amendment of a development order. In accordance with the local government's procedures, including requirements for notice to the applicant and the public, the local government shall either deny the application for amendment or adopt an amendment to the development order which approves the application with or without conditions. Following adoption, the local government shall render to the state land planning agency the amendment to the development order. The state land planning agency may appeal, pursuant to s. 380.07(3), the amendment to the development order if the amendment involves sub-subparagraph g., sub-subparagraph h., sub-subparagraph j., sub-subparagraph k., or sub-subparagraph m. and if the agency believes that the change creates a reasonable likelihood of new or additional regional impacts.~~

~~3. Except for the change authorized by sub-subparagraph 2.f., any addition of land not previously reviewed or any change not specified in paragraph (b) or paragraph (c) shall be presumed to create a substantial deviation. This presumption may be rebutted by clear and convincing evidence.~~

~~4. Any submittal of a proposed change to a previously approved development must include a description of individual changes previously made to the development, including changes previously approved by the local government. The local government shall consider the previous and current proposed changes in deciding whether such changes cumulatively constitute a substantial deviation requiring further development-of-regional-impact review.~~

~~5. The following changes to an approved development of regional impact shall be presumed to create a substantial deviation. Such presumption may be rebutted by clear and convincing evidence:~~

~~a. A change proposed for 15 percent or more of the acreage to a land use not previously approved in the development order. Changes of less than 15 percent shall be presumed not to create a substantial deviation.~~

~~b. Notwithstanding any provision of paragraph (b) to the contrary, a proposed change consisting of simultaneous increases and decreases of at least two of the uses within an authorized multiuse development of regional impact which was originally approved with three or more uses specified in s. 380.0651(3)(c) and (d) and residential use.~~

~~6. If a local government agrees to a proposed change, a change in the transportation proportionate share calculation and~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~mitigation plan in an adopted development order as a result of recalculation of the proportionate share contribution meeting the requirements of s. 163.3180(5)(h) in effect as of the date of such change shall be presumed not to create a substantial deviation. For purposes of this subsection, the proposed change in the proportionate share calculation or mitigation plan may not be considered an additional regional transportation impact.~~

~~(f)1. The state land planning agency shall establish by rule standard forms for submittal of proposed changes to a previously approved development of regional impact which may require further development-of-regional-impact review. At a minimum, the standard form shall require the developer to provide the precise language that the developer proposes to delete or add as an amendment to the development order.~~

~~2. The developer shall submit, simultaneously, to the local government, the regional planning agency, and the state land planning agency the request for approval of a proposed change.~~

~~3. No sooner than 30 days but no later than 45 days after submittal by the developer to the local government, the state land planning agency, and the appropriate regional planning agency, the local government shall give 15 days' notice and schedule a public hearing to consider the change that the developer asserts does not create a substantial deviation. This public hearing shall be held within 60 days after submittal of the proposed changes, unless that time is extended by the developer.~~

~~4. The appropriate regional planning agency or the state land planning agency shall review the proposed change and, no later than 45 days after submittal by the developer of the~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~proposed change, unless that time is extended by the developer, and prior to the public hearing at which the proposed change is to be considered, shall advise the local government in writing whether it objects to the proposed change, shall specify the reasons for its objection, if any, and shall provide a copy to the developer.~~

~~5. At the public hearing, the local government shall determine whether the proposed change requires further development-of-regional-impact review. The provisions of paragraphs (a) and (c), the thresholds set forth in paragraph (b), and the presumptions set forth in paragraphs (c) and (d) and subparagraph (e)3. shall be applicable in determining whether further development-of-regional-impact review is required. The local government may also deny the proposed change based on matters relating to local issues, such as if the land on which the change is sought is plat restricted in a way that would be incompatible with the proposed change, and the local government does not wish to change the plat restriction as part of the proposed change.~~

~~6. If the local government determines that the proposed change does not require further development-of-regional-impact review and is otherwise approved, or if the proposed change is not subject to a hearing and determination pursuant to subparagraphs 3. and 5. and is otherwise approved, the local government shall issue an amendment to the development order incorporating the approved change and conditions of approval relating to the change. The requirement that a change be otherwise approved shall not be construed to require additional local review or approval if the change is allowed by applicable~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~local ordinances without further local review or approval. The decision of the local government to approve, with or without conditions, or to deny the proposed change that the developer asserts does not require further review shall be subject to the appeal provisions of s. 380.07. However, the state land planning agency may not appeal the local government decision if it did not comply with subparagraph 4. The state land planning agency may not appeal a change to a development order made pursuant to subparagraph (c)1. or subparagraph (c)2. for developments of regional impact approved after January 1, 1980, unless the change would result in a significant impact to a regionally significant archaeological, historical, or natural resource not previously identified in the original development-of-regional-impact review.~~

~~(g) If a proposed change requires further development-of-regional-impact review pursuant to this section, the review shall be conducted subject to the following additional conditions:~~

~~1. The development-of-regional-impact review conducted by the appropriate regional planning agency shall address only those issues raised by the proposed change except as provided in subparagraph 2.~~

~~2. The regional planning agency shall consider, and the local government shall determine whether to approve, approve with conditions, or deny the proposed change as it relates to the entire development. If the local government determines that the proposed change, as it relates to the entire development, is unacceptable, the local government shall deny the change.~~

~~3. If the local government determines that the proposed~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~change should be approved, any new conditions in the amendment to the development order issued by the local government shall address only those issues raised by the proposed change and require mitigation only for the individual and cumulative impacts of the proposed change.~~

~~4. Development within the previously approved development of regional impact may continue, as approved, during the development-of-regional-impact review in those portions of the development which are not directly affected by the proposed change.~~

~~(h) When further development-of-regional-impact review is required because a substantial deviation has been determined or admitted by the developer, the amendment to the development order issued by the local government shall be consistent with the requirements of subsection (15) and shall be subject to the hearing and appeal provisions of s. 380.07. The state land planning agency or the appropriate regional planning agency need not participate at the local hearing in order to appeal a local government development order issued pursuant to this paragraph.~~

~~(i) An increase in the number of residential dwelling units shall not constitute a substantial deviation and shall not be subject to development-of-regional-impact review for additional impacts, provided that all the residential dwelling units are dedicated to affordable workforce housing and the total number of new residential units does not exceed 200 percent of the substantial deviation threshold. The affordable workforce housing shall be subject to a recorded land use restriction that shall be for a period of not less than 20 years and that includes resale provisions to ensure long-term affordability for~~

~~income-eligible homeowners and renters. For purposes of this paragraph, the term "affordable workforce housing" means housing that is affordable to a person who earns less than 120 percent of the area median income, or less than 140 percent of the area median income if located in a county in which the median purchase price for a single-family existing home exceeds the statewide median purchase price of a single-family existing home. For purposes of this paragraph, the term "statewide median purchase price of a single-family existing home" means the statewide purchase price as determined in the Florida Sales Report, Single-Family Existing Homes, released each January by the Florida Association of Realtors and the University of Florida Real Estate Research Center.~~

(8) ~~(20)~~ VESTED RIGHTS.—Nothing in this section shall limit or modify the rights of any person to complete any development that was authorized by registration of a subdivision pursuant to former chapter 498, by recordation pursuant to local subdivision plat law, or by a building permit or other authorization to commence development on which there has been reliance and a change of position and which registration or recordation was accomplished, or which permit or authorization was issued, prior to July 1, 1973. If a developer has, by his or her actions in reliance on prior regulations, obtained vested or other legal rights that in law would have prevented a local government from changing those regulations in a way adverse to the developer's interests, nothing in this chapter authorizes any governmental agency to abridge those rights.

(a) For the purpose of determining the vesting of rights under this subsection, approval pursuant to local subdivision

plat law, ordinances, or regulations of a subdivision plat by formal vote of a county or municipal governmental body having jurisdiction after August 1, 1967, and prior to July 1, 1973, is sufficient to vest all property rights for the purposes of this subsection; and no action in reliance on, or change of position concerning, such local governmental approval is required for vesting to take place. Anyone claiming vested rights under this paragraph must notify the department in writing by January 1, 1986. Such notification shall include information adequate to document the rights established by this subsection. When such notification requirements are met, in order for the vested rights authorized pursuant to this paragraph to remain valid after June 30, 1990, development of the vested plan must be commenced prior to that date upon the property that the state land planning agency has determined to have acquired vested rights following the notification or in a binding letter of interpretation. When the notification requirements have not been met, the vested rights authorized by this paragraph shall expire June 30, 1986, unless development commenced prior to that date.

(b) For the purpose of this act, the conveyance of, or the agreement to convey, property to the county, state, or local government as a prerequisite to zoning change approval shall be construed as an act of reliance to vest rights as determined under this subsection, provided such zoning change is actually granted by such government.

(9) ~~(21)~~ VALIDITY OF COMPREHENSIVE APPLICATION~~; MASTER PLAN DEVELOPMENT ORDER~~.—

~~(a)~~ Any agreement previously entered into by a developer, a regional planning agency, and a local government regarding ~~If~~ a

development project that includes two or more developments of regional impact and was the subject of~~, a developer may file~~ a comprehensive development-of-regional-impact application remains valid unless it expired on or before the effective date of this act.

~~(b) If a proposed development is planned for development over an extended period of time, the developer may file an application for master development approval of the project and agree to present subsequent increments of the development for preconstruction review. This agreement shall be entered into by the developer, the regional planning agency, and the appropriate local government having jurisdiction. The provisions of subsection (9) do not apply to this subsection, except that a developer may elect to utilize the review process established in subsection (9) for review of the increments of a master plan.~~

~~1. Prior to adoption of the master plan development order, the developer, the landowner, the appropriate regional planning agency, and the local government having jurisdiction shall review the draft of the development order to ensure that anticipated regional impacts have been adequately addressed and that information requirements for subsequent incremental application review are clearly defined. The development order for a master application shall specify the information which must be submitted with an incremental application and shall identify those issues which can result in the denial of an incremental application.~~

~~2. The review of subsequent incremental applications shall be limited to that information specifically required and those issues specifically raised by the master development order,~~

~~unless substantial changes in the conditions underlying the approval of the master plan development order are demonstrated or the master development order is shown to have been based on substantially inaccurate information.~~

~~(c) The state land planning agency, by rule, shall establish uniform procedures to implement this subsection.~~

~~(22) DOWNTOWN DEVELOPMENT AUTHORITIES.—~~

~~(a) A downtown development authority may submit a development-of-regional-impact application for development approval pursuant to this section. The area described in the application may consist of any or all of the land over which a downtown development authority has the power described in s. 380.031(5). For the purposes of this subsection, a downtown development authority shall be considered the developer whether or not the development will be undertaken by the downtown development authority.~~

~~(b) In addition to information required by the development-of-regional-impact application, the application for development approval submitted by a downtown development authority shall specify the total amount of development planned for each land use category. In addition to the requirements of subsection (15), the development order shall specify the amount of development approved within each land use category. Development undertaken in conformance with a development order issued under this section does not require further review.~~

~~(c) If a development is proposed within the area of a downtown development plan approved pursuant to this section which would result in development in excess of the amount specified in the development order for that type of activity,~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~changes shall be subject to the provisions of subsection (19), except that the percentages and numerical criteria shall be double those listed in paragraph (19)(b).~~

~~(d) The provisions of subsection (9) do not apply to this subsection.~~

~~(23) ADOPTION OF RULES BY STATE LAND PLANNING AGENCY.—~~

~~(a) The state land planning agency shall adopt rules to ensure uniform review of developments of regional impact by the state land planning agency and regional planning agencies under this section. These rules shall be adopted pursuant to chapter 120 and shall include all forms, application content, and review guidelines necessary to implement development of regional impact reviews. The state land planning agency, in consultation with the regional planning agencies, may also designate types of development or areas suitable for development in which reduced information requirements for development-of-regional-impact review shall apply.~~

~~(b) Regional planning agencies shall be subject to rules adopted by the state land planning agency. At the request of a regional planning council, the state land planning agency may adopt by rule different standards for a specific comprehensive planning district upon a finding that the statewide standard is inadequate to protect or promote the regional interest at issue. If such a regional standard is adopted by the state land planning agency, the regional standard shall be applied to all pertinent development-of-regional-impact reviews conducted in that region until rescinded.~~

~~(c) Within 6 months of the effective date of this section, the state land planning agency shall adopt rules which:~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~1. Establish uniform statewide standards for development of regional impact review.~~

~~2. Establish a short application for development approval form which eliminates issues and questions for any project in a jurisdiction with an adopted local comprehensive plan that is in compliance.~~

~~(d) Regional planning agencies that perform development of regional impact and Florida Quality Development review are authorized to assess and collect fees to fund the costs, direct and indirect, of conducting the review process. The state land planning agency shall adopt rules to provide uniform criteria for the assessment and collection of such fees. The rules providing uniform criteria shall not be subject to rule challenge under s. 120.56(2) or to drawout proceedings under s. 120.54(3)(c)2., but, once adopted, shall be subject to an invalidity challenge under s. 120.56(3) by substantially affected persons. Until the state land planning agency adopts a rule implementing this paragraph, rules of the regional planning councils currently in effect regarding fees shall remain in effect. Fees may vary in relation to the type and size of a proposed project, but shall not exceed $75,000, unless the state land planning agency, after reviewing any disputed expenses charged by the regional planning agency, determines that said expenses were reasonable and necessary for an adequate regional review of the impacts of a project.~~

~~(24) STATUTORY EXEMPTIONS.—~~

~~(a) Any proposed hospital is exempt from this section.~~

~~(b) Any proposed electrical transmission line or electrical power plant is exempt from this section.~~

~~(c) Any proposed addition to an existing sports facility complex is exempt from this section if the addition meets the following characteristics:~~

~~1. It would not operate concurrently with the scheduled hours of operation of the existing facility.~~

~~2. Its seating capacity would be no more than 75 percent of the capacity of the existing facility.~~

~~3. The sports facility complex property is owned by a public body before July 1, 1983.~~

~~This exemption does not apply to any pari-mutuel facility.~~

~~(d) Any proposed addition or cumulative additions subsequent to July 1, 1988, to an existing sports facility complex owned by a state university is exempt if the increased seating capacity of the complex is no more than 30 percent of the capacity of the existing facility.~~

~~(e) Any addition of permanent seats or parking spaces for an existing sports facility located on property owned by a public body before July 1, 1973, is exempt from this section if future additions do not expand existing permanent seating or parking capacity more than 15 percent annually in excess of the prior year's capacity.~~

~~(f) Any increase in the seating capacity of an existing sports facility having a permanent seating capacity of at least 50,000 spectators is exempt from this section, provided that such an increase does not increase permanent seating capacity by more than 5 percent per year and not to exceed a total of 10 percent in any 5-year period, and provided that the sports facility notifies the appropriate local government within which~~

~~the facility is located of the increase at least 6 months before the initial use of the increased seating, in order to permit the appropriate local government to develop a traffic management plan for the traffic generated by the increase. Any traffic management plan shall be consistent with the local comprehensive plan, the regional policy plan, and the state comprehensive plan.~~

~~(g) Any expansion in the permanent seating capacity or additional improved parking facilities of an existing sports facility is exempt from this section, if the following conditions exist:~~

~~1.a. The sports facility had a permanent seating capacity on January 1, 1991, of at least 41,000 spectator seats;~~

~~b. The sum of such expansions in permanent seating capacity does not exceed a total of 10 percent in any 5-year period and does not exceed a cumulative total of 20 percent for any such expansions; or~~

~~c. The increase in additional improved parking facilities is a one-time addition and does not exceed 3,500 parking spaces serving the sports facility; and~~

~~2. The local government having jurisdiction of the sports facility includes in the development order or development permit approving such expansion under this paragraph a finding of fact that the proposed expansion is consistent with the transportation, water, sewer and stormwater drainage provisions of the approved local comprehensive plan and local land development regulations relating to those provisions.~~

~~Any owner or developer who intends to rely on this statutory~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~exemption shall provide to the department a copy of the local government application for a development permit. Within 45 days after receipt of the application, the department shall render to the local government an advisory and nonbinding opinion, in writing, stating whether, in the department's opinion, the prescribed conditions exist for an exemption under this paragraph. The local government shall render the development order approving each such expansion to the department. The owner, developer, or department may appeal the local government development order pursuant to s. 380.07, within 45 days after the order is rendered. The scope of review shall be limited to the determination of whether the conditions prescribed in this paragraph exist. If any sports facility expansion undergoes development-of-regional-impact review, all previous expansions which were exempt under this paragraph shall be included in the development-of-regional-impact review.~~

~~(h) Expansion to port harbors, spoil disposal sites, navigation channels, turning basins, harbor berths, and other related inwater harbor facilities of ports listed in s. 403.021(9)(b), port transportation facilities and projects listed in s. 311.07(3)(b), and intermodal transportation facilities identified pursuant to s. 311.09(3) are exempt from this section when such expansions, projects, or facilities are consistent with comprehensive master plans that are in compliance with s. 163.3178.~~

~~(i) Any proposed facility for the storage of any petroleum product or any expansion of an existing facility is exempt from this section.~~

~~(j) Any renovation or redevelopment within the same land~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~parcel which does not change land use or increase density or intensity of use.~~

~~(k) Waterport and marina development, including dry storage facilities, are exempt from this section.~~

~~(l) Any proposed development within an urban service boundary established under s. 163.3177(14), Florida Statutes (2010), which is not otherwise exempt pursuant to subsection (29), is exempt from this section if the local government having jurisdiction over the area where the development is proposed has adopted the urban service boundary and has entered into a binding agreement with jurisdictions that would be impacted and with the Department of Transportation regarding the mitigation of impacts on state and regional transportation facilities.~~

~~(m) Any proposed development within a rural land stewardship area created under s. 163.3248.~~

~~(n) The establishment, relocation, or expansion of any military installation as defined in s. 163.3175, is exempt from this section.~~

~~(o) Any self-storage warehousing that does not allow retail or other services is exempt from this section.~~

~~(p) Any proposed nursing home or assisted living facility is exempt from this section.~~

~~(q) Any development identified in an airport master plan and adopted into the comprehensive plan pursuant to s. 163.3177(6)(b)4. is exempt from this section.~~

~~(r) Any development identified in a campus master plan and adopted pursuant to s. 1013.30 is exempt from this section.~~

~~(s) Any development in a detailed specific area plan which is prepared and adopted pursuant to s. 163.3245 is exempt from~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~this section.~~

~~(t) Any proposed solid mineral mine and any proposed addition to, expansion of, or change to an existing solid mineral mine is exempt from this section. A mine owner will enter into a binding agreement with the Department of Transportation to mitigate impacts to strategic intermodal system facilities pursuant to the transportation thresholds in subsection (19) or rule 9J-2.045(6), Florida Administrative Code. Proposed changes to any previously approved solid mineral mine development-of-regional-impact development orders having vested rights are is not subject to further review or approval as a development of regional impact or notice of proposed change review or approval pursuant to subsection (19), except for those applications pending as of July 1, 2011, which shall be governed by s. 380.115(2). Notwithstanding the foregoing, however, pursuant to s. 380.115(1), previously approved solid mineral mine development-of-regional-impact development orders shall continue to enjoy vested rights and continue to be effective unless rescinded by the developer. All local government regulations of proposed solid mineral mines shall be applicable to any new solid mineral mine or to any proposed addition to, expansion of, or change to an existing solid mineral mine.~~

~~(u) Notwithstanding any provisions in an agreement with or among a local government, regional agency, or the state land planning agency or in a local government's comprehensive plan to the contrary, a project no longer subject to development-of-regional impact review under revised thresholds is not required to undergo such review.~~

~~(v) Any development within a county with a research and~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~education authority created by special act and that is also within a research and development park that is operated or managed by a research and development authority pursuant to part V of chapter 159 is exempt from this section.~~

~~(w) Any development in an energy economic zone designated pursuant to s. 377.809 is exempt from this section upon approval by its local governing body.~~

~~(x) Any proposed development that is located in a local government jurisdiction that does not qualify for an exemption based on the population and density criteria in paragraph (29)(a), that is approved as a comprehensive plan amendment adopted pursuant to s. 163.3184(4), and that is the subject of an agreement pursuant to s. 288.106(5) is exempt from this section. This exemption shall only be effective upon a written agreement executed by the applicant, the local government, and the state land planning agency. The state land planning agency shall only be a party to the agreement upon a determination that the development is the subject of an agreement pursuant to s. 288.106(5) and that the local government has the capacity to adequately assess the impacts of the proposed development. The local government shall only be a party to the agreement upon approval by the governing body of the local government and upon providing at least 21 days' notice to adjacent local governments that includes, at a minimum, information regarding the location, density and intensity of use, and timing of the proposed development. This exemption does not apply to areas within the boundary of any area of critical state concern designated pursuant to s. 380.05, within the boundary of the Wekiva Study Area as described in s. 369.316, or within 2 miles of the~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~boundary of the Everglades Protection Area as defined in s. 373.4592(2).~~

~~If a use is exempt from review as a development of regional impact under paragraphs (a)-(u), but will be part of a larger project that is subject to review as a development of regional impact, the impact of the exempt use must be included in the review of the larger project, unless such exempt use involves a development of regional impact that includes a landowner, tenant, or user that has entered into a funding agreement with the Department of Economic Opportunity under the Innovation Incentive Program and the agreement contemplates a state award of at least $50 million.~~

(10)~~(25)~~ AREAWIDE DEVELOPMENT OF REGIONAL IMPACT.—

~~(a)~~ Any approval of an authorized developer for ~~may submit~~ an areawide development of regional impact remains valid unless it expired on or before the effective date of this act. ~~to be reviewed pursuant to the procedures and standards set forth in this section. The areawide development-of-regional-impact review shall include an areawide development plan in addition to any other information required under this section. After review and approval of an areawide development of regional impact under this section, all development within the defined planning area shall conform to the approved areawide development plan and development order. Individual developments that conform to the approved areawide development plan shall not be required to undergo further development of regional impact review, unless otherwise provided in the development order. As used in this subsection, the term:~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~1. "Areawide development plan" means a plan of development that, at a minimum:~~

~~a. Encompasses a defined planning area approved pursuant to this subsection that will include at least two or more developments;~~

~~b. Maps and defines the land uses proposed, including the amount of development by use and development phasing;~~

~~c. Integrates a capital improvements program for transportation and other public facilities to ensure development staging contingent on availability of facilities and services;~~

~~d. Incorporates land development regulation, covenants, and other restrictions adequate to protect resources and facilities of regional and state significance; and~~

~~e. Specifies responsibilities and identifies the mechanisms for carrying out all commitments in the areawide development plan and for compliance with all conditions of any areawide development order.~~

~~2. "Developer" means any person or association of persons, including a governmental agency as defined in s. 380.031(6), that petitions for authorization to file an application for development approval for an areawide development plan.~~

~~(b) A developer may petition for authorization to submit a proposed areawide development of regional impact for a defined planning area in accordance with the following requirements:~~

~~1. A petition shall be submitted to the local government, the regional planning agency, and the state land planning agency.~~

~~2. A public hearing or joint public hearing shall be held if required by paragraph (c), with appropriate notice, before~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~the affected local government.~~

~~3. The state land planning agency shall apply the following criteria for evaluating a petition:~~

~~a. Whether the developer is financially capable of processing the application for development approval through final approval pursuant to this section.~~

~~b. Whether the defined planning area and anticipated development therein appear to be of a character, magnitude, and location that a proposed areawide development plan would be in the public interest. Any public interest determination under this criterion is preliminary and not binding on the state land planning agency, regional planning agency, or local government.~~

~~4. The state land planning agency shall develop and make available standard forms for petitions and applications for development approval for use under this subsection.~~

~~(c) Any person may submit a petition to a local government having jurisdiction over an area to be developed, requesting that government to approve that person as a developer, whether or not any or all development will be undertaken by that person, and to approve the area as appropriate for an areawide development of regional impact.~~

~~(d) A general purpose local government with jurisdiction over an area to be considered in an areawide development of regional impact shall not have to petition itself for authorization to prepare and consider an application for development approval for an areawide development plan. However, such a local government shall initiate the preparation of an application only:~~

~~1. After scheduling and conducting a public hearing as~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~specified in paragraph (c); and~~

~~2. After conducting such hearing, finding that the planning area meets the standards and criteria pursuant to subparagraph (b)3. for determining that an areawide development plan will be in the public interest.~~

~~(c) The local government shall schedule a public hearing within 60 days after receipt of the petition. The public hearing shall be advertised at least 30 days prior to the hearing. In addition to the public hearing notice by the local government, the petitioner, except when the petitioner is a local government, shall provide actual notice to each person owning land within the proposed areawide development plan at least 30 days prior to the hearing. If the petitioner is a local government, or local governments pursuant to an interlocal agreement, notice of the public hearing shall be provided by the publication of an advertisement in a newspaper of general circulation that meets the requirements of this paragraph. The advertisement must be no less than one-quarter page in a standard size or tabloid size newspaper, and the headline in the advertisement must be in type no smaller than 18 point. The advertisement shall not be published in that portion of the newspaper where legal notices and classified advertisements appear. The advertisement must be published in a newspaper of general paid circulation in the county and of general interest and readership in the community, not one of limited subject matter, pursuant to chapter 50. Whenever possible, the advertisement must appear in a newspaper that is published at least 5 days a week, unless the only newspaper in the community is published less than 5 days a week. The advertisement must be**

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~in substantially the form used to advertise amendments to comprehensive plans pursuant to s. 163.3184. The local government shall specifically notify in writing the regional planning agency and the state land planning agency at least 30 days prior to the public hearing. At the public hearing, all interested parties may testify and submit evidence regarding the petitioner's qualifications, the need for and benefits of an areawide development of regional impact, and such other issues relevant to a full consideration of the petition. If more than one local government has jurisdiction over the defined planning area in an areawide development plan, the local governments shall hold a joint public hearing. Such hearing shall address, at a minimum, the need to resolve conflicting ordinances or comprehensive plans, if any. The local government holding the joint hearing shall comply with the following additional requirements:~~

~~1. The notice of the hearing shall be published at least 60 days in advance of the hearing and shall specify where the petition may be reviewed.~~

~~2. The notice shall be given to the state land planning agency, to the applicable regional planning agency, and to such other persons as may have been designated by the state land planning agency as entitled to receive such notices.~~

~~3. A public hearing date shall be set by the appropriate local government at the next scheduled meeting.~~

~~(f) Following the public hearing, the local government shall issue a written order, appealable under s. 380.07, which approves, approves with conditions, or denies the petition. It shall approve the petitioner as the developer if it finds that~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~the petitioner and defined planning area meet the standards and criteria, consistent with applicable law, pursuant to subparagraph (b)3.~~

~~(g) The local government shall submit any order which approves the petition, or approves the petition with conditions, to the petitioner, to all owners of property within the defined planning area, to the regional planning agency, and to the state land planning agency within 30 days after the order becomes effective.~~

~~(h) The petitioner, an owner of property within the defined planning area, the appropriate regional planning agency by vote at a regularly scheduled meeting, or the state land planning agency may appeal the decision of the local government to the Florida Land and Water Adjudicatory Commission by filing a notice of appeal with the commission. The procedures established in s. 380.07 shall be followed for such an appeal.~~

~~(i) After the time for appeal of the decision has run, an approved developer may submit an application for development approval for a proposed areawide development of regional impact for land within the defined planning area, pursuant to subsection (6). Development undertaken in conformance with an areawide development order issued under this section shall not require further development-of-regional-impact review.~~

~~(j) In reviewing an application for a proposed areawide development of regional impact, the regional planning agency shall evaluate, and the local government shall consider, the following criteria, in addition to any other criteria set forth in this section:~~

~~1. Whether the developer has demonstrated its legal,~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~financial, and administrative ability to perform any commitments it has made in the application for a proposed areawide development of regional impact.~~

~~2. Whether the developer has demonstrated that all property owners within the defined planning area consent or do not object to the proposed areawide development of regional impact.~~

~~3. Whether the area and the anticipated development are consistent with the applicable local, regional, and state comprehensive plans, except as provided for in paragraph (k).~~

~~(k) In addition to the requirements of subsection (14), a development order approving, or approving with conditions, a proposed areawide development of regional impact shall specify the approved land uses and the amount of development approved within each land use category in the defined planning area. The development order shall incorporate by reference the approved areawide development plan. The local government shall not approve an areawide development plan that is inconsistent with the local comprehensive plan, except that a local government may amend its comprehensive plan pursuant to paragraph (6)(b).~~

~~(l) Any owner of property within the defined planning area may withdraw his or her consent to the areawide development plan at any time prior to local government approval, with or without conditions, of the petition; and the plan, the areawide development order, and the exemption from development-of-regional-impact review of individual projects under this section shall not thereafter apply to the owner's property. After the areawide development order is issued, a landowner may withdraw his or her consent only with the approval of the local government.~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~(m) If the developer of an areawide development of regional impact is a general purpose local government with jurisdiction over the land area included within the areawide development proposal and if no interest in the land within the land area is owned, leased, or otherwise controlled by a person, corporate or natural, for the purpose of mining or beneficiation of minerals, then:~~

~~1. Demonstration of property owner consent or lack of objection to an areawide development plan shall not be required; and~~

~~2. The option to withdraw consent does not apply, and all property and development within the areawide development planning area shall be subject to the areawide plan and to the development order conditions.~~

~~(n) After a development order approving an areawide development plan is received, changes shall be subject to the provisions of subsection (19), except that the percentages and numerical criteria shall be double those listed in paragraph (19)(b).~~

(11)~~(26)~~ ABANDONMENT OF DEVELOPMENTS OF REGIONAL IMPACT.—

(a) There is hereby established a process to abandon a development of regional impact and its associated development orders. A development of regional impact and its associated development orders may be proposed to be abandoned by the owner or developer. The local government in whose jurisdiction ~~in which~~ the development of regional impact is located also may propose to abandon the development of regional impact, provided that the local government gives individual written notice to each development-of-regional-impact owner and developer of

record, and provided that no such owner or developer objects in writing to the local government before ~~prior to~~ or at the public hearing pertaining to abandonment of the development of regional impact. ~~The state land planning agency is authorized to promulgate rules that shall include, but not be limited to, criteria for determining whether to grant, grant with conditions, or deny a proposal to abandon, and provisions to ensure that the developer satisfies all applicable conditions of the development order and adequately mitigates for the impacts of the development.~~ If there is no existing development within the development of regional impact at the time of abandonment and no development within the development of regional impact is proposed by the owner or developer after such abandonment, an abandonment order may ~~shall~~ not require the owner or developer to contribute any land, funds, or public facilities as a condition of such abandonment order. The local government must file ~~rules shall also provide a procedure for filing~~ notice of the abandonment pursuant to s. 28.222 with the clerk of the circuit court for each county in which the development of regional impact is located. Abandonment will be deemed to have occurred upon the recording of the notice. Any decision by a local government concerning the abandonment of a development of regional impact is ~~shall be~~ subject to an appeal pursuant to s. 380.07. The issues in any such appeal must ~~shall~~ be confined to whether the provisions of this subsection ~~or any rules promulgated thereunder~~ have been satisfied.

(b) If requested by the owner, developer, or local government, the development-of-regional-impact development order must be abandoned by the local government having jurisdiction

upon a showing that all required mitigation related to the amount of development which existed on the date of abandonment has been completed or will be completed under an existing permit or equivalent authorization issued by a governmental agency as defined in s. 380.031(6), provided such permit or authorization is subject to enforcement through administrative or judicial remedies ~~Upon receipt of written confirmation from the state land planning agency that any required mitigation applicable to completed development has occurred, an industrial development of regional impact located within the coastal high-hazard area of a rural area of opportunity which was approved before the adoption of the local government's comprehensive plan required under s. 163.3167 and which plan's future land use map and zoning designates the land use for the development of regional impact as commercial may be unilaterally abandoned without the need to proceed through the process described in paragraph (a) if the developer or owner provides a notice of abandonment to the local government and records such notice with the applicable clerk of court. Abandonment shall be deemed to have occurred upon the recording of the notice~~. All development following abandonment must ~~shall~~ be fully consistent with the current comprehensive plan and applicable zoning.

(c) A development order for abandonment of an approved development of regional impact may be amended by a local government pursuant to subsection (7), provided that the amendment does not reduce any mitigation previously required as a condition of abandonment, unless the developer demonstrates that changes to the development no longer will result in impacts that necessitated the mitigation.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~(27) RIGHTS, RESPONSIBILITIES, AND OBLIGATIONS UNDER A DEVELOPMENT ORDER.—If a developer or owner is in doubt as to his or her rights, responsibilities, and obligations under a development order and the development order does not clearly define his or her rights, responsibilities, and obligations, the developer or owner may request participation in resolving the dispute through the dispute resolution process outlined in s. 186.509. The Department of Economic Opportunity shall be notified by certified mail of any meeting held under the process provided for by this subsection at least 5 days before the meeting.~~

~~(28) PARTIAL STATUTORY EXEMPTIONS.~~

~~(a) If the binding agreement referenced under paragraph (24)(l) for urban service boundaries is not entered into within 12 months after establishment of the urban service boundary, the development-of-regional-impact review for projects within the urban service boundary must address transportation impacts only.~~

~~(b) If the binding agreement referenced under paragraph (24)(m) for rural land stewardship areas is not entered into within 12 months after the designation of a rural land stewardship area, the development-of-regional-impact review for projects within the rural land stewardship area must address transportation impacts only.~~

~~(c) If the binding agreement for designated urban infill and redevelopment areas is not entered into within 12 months after the designation of the area or July 1, 2007, whichever occurs later, the development-of-regional-impact review for projects within the urban infill and redevelopment area must address transportation impacts only.~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~(d) A local government that does not wish to enter into a binding agreement or that is unable to agree on the terms of the agreement referenced under paragraph (24)(l) or paragraph (24)(m) shall provide written notification to the state land planning agency of the decision to not enter into a binding agreement or the failure to enter into a binding agreement within the 12-month period referenced in paragraphs (a), (b) and (c). Following the notification of the state land planning agency, development-of-regional-impact review for projects within an urban service boundary under paragraph (24)(l), or a rural land stewardship area under paragraph (24)(m), must address transportation impacts only.~~

~~(e) The vesting provision of s. 163.3167(5) relating to an authorized development of regional impact does not apply to those projects partially exempt from the development-of-regional-impact review process under paragraphs (a)-(d).~~

~~(29) EXEMPTIONS FOR DENSE URBAN LAND AREAS.—~~

~~(a) The following are exempt from this section:~~

~~1. Any proposed development in a municipality that has an average of at least 1,000 people per square mile of land area and a minimum total population of at least 5,000;~~

~~2. Any proposed development within a county, including the municipalities located in the county, that has an average of at least 1,000 people per square mile of land area and is located within an urban service area as defined in s. 163.3164 which has been adopted into the comprehensive plan;~~

~~3. Any proposed development within a county, including the municipalities located therein, which has a population of at least 900,000, that has an average of at least 1,000 people per square mile of land area, but which does not have an urban service area designated in the comprehensive plan; or~~

~~4. Any proposed development within a county, including the municipalities located therein, which has a population of at least 1 million and is located within an urban service area as defined in s. 163.3164 which has been adopted into the comprehensive plan.~~

~~The Office of Economic and Demographic Research within the Legislature shall annually calculate the population and density criteria needed to determine which jurisdictions meet the density criteria in subparagraphs 1.-4. by using the most recent land area data from the decennial census conducted by the Bureau of the Census of the United States Department of Commerce and the latest available population estimates determined pursuant to s. 186.901. If any local government has had an annexation, contraction, or new incorporation, the Office of Economic and Demographic Research shall determine the population density using the new jurisdictional boundaries as recorded in accordance with s. 171.091. The Office of Economic and Demographic Research shall annually submit to the state land planning agency by July 1 a list of jurisdictions that meet the total population and density criteria. The state land planning agency shall publish the list of jurisdictions on its Internet website within 7 days after the list is received. The designation of jurisdictions that meet the criteria of subparagraphs 1.-4. is effective upon publication on the state land planning agency's Internet website. If a municipality that has previously met the criteria no longer meets the criteria,~~

~~the state land planning agency shall maintain the municipality on the list and indicate the year the jurisdiction last met the criteria. However, any proposed development of regional impact not within the established boundaries of a municipality at the time the municipality last met the criteria must meet the requirements of this section until such time as the municipality as a whole meets the criteria. Any county that meets the criteria shall remain on the list in accordance with the provisions of this paragraph. Any jurisdiction that was placed on the dense urban land area list before June 2, 2011, shall remain on the list in accordance with the provisions of this paragraph.~~

~~(b) If a municipality that does not qualify as a dense urban land area pursuant to paragraph (a) designates any of the following areas in its comprehensive plan, any proposed development within the designated area is exempt from the development-of-regional-impact process:~~

~~1. Urban infill as defined in s. 163.3164;~~

~~2. Community redevelopment areas as defined in s. 163.340;~~

~~3. Downtown revitalization areas as defined in s. 163.3164;~~

~~4. Urban infill and redevelopment under s. 163.2517; or~~

~~5. Urban service areas as defined in s. 163.3164 or areas within a designated urban service boundary under s. 163.3177(14), Florida Statutes (2010).~~

~~(c) If a county that does not qualify as a dense urban land area designates any of the following areas in its comprehensive plan, any proposed development within the designated area is exempt from the development-of-regional-impact process:~~

~~1. Urban infill as defined in s. 163.3164;~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~2. Urban infill and redevelopment under s. 163.2517; or~~

~~3. Urban service areas as defined in s. 163.3164.~~

~~(d) A development that is located partially outside an area that is exempt from the development-of-regional-impact program must undergo development-of-regional-impact review pursuant to this section. However, if the total acreage that is included within the area exempt from development-of-regional-impact review exceeds 85 percent of the total acreage and square footage of the approved development of regional impact, the development-of-regional-impact development order may be rescinded in both local governments pursuant to s. 380.115(1), unless the portion of the development outside the exempt area meets the threshold criteria of a development-of-regional-impact.~~

~~(e) In an area that is exempt under paragraphs (a)-(c), any previously approved development-of-regional-impact development orders shall continue to be effective, but the developer has the option to be governed by s. 380.115(1). A pending application for development approval shall be governed by s. 380.115(2).~~

~~(f) Local governments must submit by mail a development order to the state land planning agency for projects that would be larger than 120 percent of any applicable development-of-regional-impact threshold and would require development-of-regional-impact review but for the exemption from the program under paragraphs (a)-(c). For such development orders, the state land planning agency may appeal the development order pursuant to s. 380.07 for inconsistency with the comprehensive plan adopted under chapter 163.~~

~~(g) If a local government that qualifies as a dense urban~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~land area under this subsection is subsequently found to be ineligible for designation as a dense urban land area, any development located within that area which has a complete, pending application for authorization to commence development may maintain the exemption if the developer is continuing the application process in good faith or the development is approved.~~

~~(h) This subsection does not limit or modify the rights of any person to complete any development that has been authorized as a development of regional impact pursuant to this chapter.~~

~~(i) This subsection does not apply to areas:~~

~~1. Within the boundary of any area of critical state concern designated pursuant to s. 380.05;~~

~~2. Within the boundary of the Wekiva Study Area as described in s. 369.316; or~~

~~3. Within 2 miles of the boundary of the Everglades Protection Area as described in s. 373.4592(2).~~

(12)~~(30)~~ PROPOSED DEVELOPMENTS.—A proposed development that exceeds the statewide guidelines and standards specified in s. 380.0651 and is not otherwise exempt pursuant to s. 380.0651 must ~~otherwise subject to the review requirements of this section shall~~ be approved by a local government pursuant to s. 163.3184(4) in lieu of proceeding in accordance with this section. However, if the proposed development is consistent with the comprehensive plan as provided in s. 163.3194(3)(b), the development is not required to undergo review pursuant to s. 163.3184(4) or this section. This subsection does not apply to amendments to a development order governing an existing development of regional impact.

Section 3. Section 380.061, Florida Statutes, is amended to read:

380.061 The Florida Quality Developments program.—

(1) This section only applies to developments approved as Florida Quality Developments before the effective date of this act ~~There is hereby created the Florida Quality Developments program. The intent of this program is to encourage development which has been thoughtfully planned to take into consideration protection of Florida's natural amenities, the cost to local government of providing services to a growing community, and the high quality of life Floridians desire. It is further intended that the developer be provided, through a cooperative and coordinated effort, an expeditious and timely review by all agencies with jurisdiction over the project of his or her proposed development~~.

(2) Following written notification to the state land planning agency and the appropriate regional planning agency, a local government with an approved Florida Quality Development within its jurisdiction must set a public hearing pursuant to its local procedures and shall adopt a local development order to replace and supersede the development order adopted by the state land planning agency for the Florida Quality Development. Thereafter, the Florida Quality Development shall follow the procedures and requirements for developments of regional impact as specified in this chapter ~~Developments that may be designated as Florida Quality Developments are those developments which are above 80 percent of any numerical thresholds in the guidelines and standards for development of regional impact review pursuant to s. 380.06~~.

~~(3)(a) To be eligible for designation under this program, the developer shall comply with each of the following requirements if applicable to the site of a qualified development:~~

~~1. Donate or enter into a binding commitment to donate the fee or a lesser interest sufficient to protect, in perpetuity, the natural attributes of the types of land listed below. In lieu of this requirement, the developer may enter into a binding commitment that runs with the land to set aside such areas on the property, in perpetuity, as open space to be retained in a natural condition or as otherwise permitted under this subparagraph. Under the requirements of this subparagraph, the developer may reserve the right to use such areas for passive recreation that is consistent with the purposes for which the land was preserved.~~

~~a. Those wetlands and water bodies throughout the state which would be delineated if the provisions of s. 373.4145(1)(b) were applied. The developer may use such areas for the purpose of site access, provided other routes of access are unavailable or impracticable; may use such areas for the purpose of stormwater or domestic sewage management and other necessary utilities if such uses are permitted pursuant to chapter 403; or may redesign or alter wetlands and water bodies within the jurisdiction of the Department of Environmental Protection which have been artificially created if the redesign or alteration is done so as to produce a more naturally functioning system.~~

~~b. Active beach or primary and, where appropriate, secondary dunes, to maintain the integrity of the dune system and adequate public accessways to the beach. However, the~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~developer may retain the right to construct and maintain elevated walkways over the dunes to provide access to the beach.~~

~~c. Known archaeological sites determined to be of significance by the Division of Historical Resources of the Department of State.~~

~~d. Areas known to be important to animal species designated as endangered or threatened by the United States Fish and Wildlife Service or by the Fish and Wildlife Conservation Commission, for reproduction, feeding, or nesting; for traveling between such areas used for reproduction, feeding, or nesting; or for escape from predation.~~

~~e. Areas known to contain plant species designated as endangered by the Department of Agriculture and Consumer Services.~~

~~2. Produce, or dispose of, no substances designated as hazardous or toxic substances by the United States Environmental Protection Agency, the Department of Environmental Protection, or the Department of Agriculture and Consumer Services. This subparagraph does not apply to the production of these substances in nonsignificant amounts as would occur through household use or incidental use by businesses.~~

~~3. Participate in a downtown reuse or redevelopment program to improve and rehabilitate a declining downtown area.~~

~~4. Incorporate no dredge and fill activities in, and no stormwater discharge into, waters designated as Class II, aquatic preserves, or Outstanding Florida Waters, except as permitted pursuant to s. 403.813(1), and the developer demonstrates that those activities meet the standards under Class II waters, Outstanding Florida Waters, or aquatic~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~preserves, as applicable.~~

~~5. Include open space, recreation areas, Florida-friendly landscaping as defined in s. 373.185, and energy conservation and minimize impermeable surfaces as appropriate to the location and type of project.~~

~~6. Provide for construction and maintenance of all onsite infrastructure necessary to support the project and enter into a binding commitment with local government to provide an appropriate fair-share contribution toward the offsite impacts that the development will impose on publicly funded facilities and services, except offsite transportation, and condition or phase the commencement of development to ensure that public facilities and services, except offsite transportation, are available concurrent with the impacts of the development. For the purposes of offsite transportation impacts, the developer shall comply, at a minimum, with the standards of the state land planning agency's development-of-regional-impact transportation rule, the approved strategic regional policy plan, any applicable regional planning council transportation rule, and the approved local government comprehensive plan and land development regulations adopted pursuant to part II of chapter 163.~~

~~7. Design and construct the development in a manner that is consistent with the adopted state plan, the applicable strategic regional policy plan, and the applicable adopted local government comprehensive plan.~~

~~(b) In addition to the foregoing requirements, the developer shall plan and design his or her development in a manner which includes the needs of the people in this state as~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~identified in the state comprehensive plan and the quality of life of the people who will live and work in or near the development. The developer is encouraged to plan and design his or her development in an innovative manner. These planning and design features may include, but are not limited to, such things as affordable housing, care for the elderly, urban renewal or redevelopment, mass transit, the protection and preservation of wetlands outside the jurisdiction of the Department of Environmental Protection or of uplands as wildlife habitat, provision for the recycling of solid waste, provision for onsite child care, enhancement of emergency management capabilities, the preservation of areas known to be primary habitat for significant populations of species of special concern designated by the Fish and Wildlife Conservation Commission, or community economic development. These additional amenities will be considered in determining whether the development qualifies for designation under this program.~~

~~(4) The department shall adopt an application for development designation consistent with the intent of this section.~~

~~(5)(a) Before filing an application for development designation, the developer shall contact the Department of Economic Opportunity to arrange one or more preapplication conferences with the other reviewing entities. Upon the request of the developer or any of the reviewing entities, other affected state or regional agencies shall participate in this conference. The department, in coordination with the local government with jurisdiction and the regional planning council, shall provide the developer information about the Florida~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~Quality Developments designation process and the use of preapplication conferences to identify issues, coordinate appropriate state, regional, and local agency requirements, fully address any concerns of the local government, the regional planning council, and other reviewing agencies and the meeting of those concerns, if applicable, through development order conditions, and otherwise promote a proper, efficient, and timely review of the proposed Florida Quality Development. The department shall take the lead in coordinating the review process.~~

~~(b) The developer shall submit the application to the state land planning agency, the appropriate regional planning agency, and the appropriate local government for review. The review shall be conducted under the time limits and procedures set forth in s. 120.60, except that the 90-day time limit shall cease to run when the state land planning agency and the local government have notified the applicant of their decision on whether the development should be designated under this program.~~

~~(c) At any time prior to the issuance of the Florida Quality Development development order, the developer of a proposed Florida Quality Development shall have the right to withdraw the proposed project from consideration as a Florida Quality Development. The developer may elect to convert the proposed project to a proposed development of regional impact. The conversion shall be in the form of a letter to the reviewing entities stating the developer's intent to seek authorization for the development as a development of regional impact under s. 380.06. If a proposed Florida Quality Development converts to a development of regional impact, the developer shall resubmit the~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~appropriate application and the development shall be subject to all applicable procedures under s. 380.06, except that:~~

~~1. A preapplication conference held under paragraph (a) satisfies the preapplication procedures requirement under s. 380.06(7); and~~

~~2. If requested in the withdrawal letter, a finding of completeness of the application under paragraph (a) and s. 120.60 may be converted to a finding of sufficiency by the regional planning council if such a conversion is approved by the regional planning council.~~

~~The regional planning council shall have 30 days to notify the developer if the request for conversion of completeness to sufficiency is granted or denied. If granted and the application is found sufficient, the regional planning council shall notify the local government that a public hearing date may be set to consider the development for approval as a development of regional impact, and the development shall be subject to all applicable rules, standards, and procedures of s. 380.06. If the request for conversion of completeness to sufficiency is denied, the developer shall resubmit the appropriate application for review and the development shall be subject to all applicable procedures under s. 380.06, except as otherwise provided in this paragraph.~~

~~(d) If the local government and state land planning agency agree that the project should be designated under this program, the state land planning agency shall issue a development order which incorporates the plan of development as set out in the application along with any agreed-upon modifications and~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~conditions, based on recommendations by the local government and regional planning council, and a certification that the development is designated as one of Florida's Quality Developments. In the event of conflicting recommendations, the state land planning agency, after consultation with the local government and the regional planning agency, shall resolve such conflicts in the development order. Upon designation, the development, as approved, is exempt from development-of-regional-impact review pursuant to s. 380.06.~~

~~(c) If the local government or state land planning agency, or both, recommends against designation, the development shall undergo development of regional impact review pursuant to s. 380.06, except as provided in subsection (6) of this section.~~

~~(6)(a) In the event that the development is not designated under subsection (5), the developer may appeal that determination to the Quality Developments Review Board. The board shall consist of the secretary of the state land planning agency, the Secretary of Environmental Protection and a member designated by the secretary, the Secretary of Transportation, the executive director of the Fish and Wildlife Conservation Commission, the executive director of the appropriate water management district created pursuant to chapter 373, and the chief executive officer of the appropriate local government. When there is a significant historical or archaeological site within the boundaries of a development which is appealed to the board, the director of the Division of Historical Resources of the Department of State shall also sit on the board. The staff of the state land planning agency shall serve as staff to the board.~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~(b) The board shall meet once each quarter of the year. However, a meeting may be waived if no appeals are pending.~~

~~(c) On appeal, the sole issue shall be whether the development meets the statutory criteria for designation under this program. An affirmative vote of at least five members of the board, including the affirmative vote of the chief executive officer of the appropriate local government, shall be necessary to designate the development by the board.~~

~~(d) The state land planning agency shall adopt procedural rules for consideration of appeals under this subsection.~~

~~(7)(a) The development order issued pursuant to this section is enforceable in the same manner as a development order issued pursuant to s. 380.06.~~

~~(b) Appeal of a development order issued pursuant to this section shall be available only pursuant to s. 380.07.~~

~~(8)(a) Any local government comprehensive plan amendments related to a Florida Quality Development may be initiated by a local planning agency and considered by the local governing body at the same time as the application for development approval. Nothing in this subsection shall be construed to require favorable consideration of a Florida Quality Development solely because it is related to a development of regional impact.~~

~~(b) The department shall adopt, by rule, standards and procedures necessary to implement the Florida Quality Developments program. The rules must include, but need not be limited to, provisions governing annual reports and criteria for determining whether a proposed change to an approved Florida Quality Development is a substantial change requiring further review.~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Section 4. Section 380.0651, Florida Statutes, is amended to read:

380.0651 Statewide guidelines, ~~and~~ standards, and exemptions.—

(1) STATEWIDE GUIDELINES AND STANDARDS.—~~The statewide guidelines and standards for developments required to undergo development-of-regional-impact review provided in this section supersede the statewide guidelines and standards previously adopted by the Administration Commission that address the same development. Other standards and guidelines previously adopted by the Administration Commission, including the residential standards and guidelines, shall not be superseded. The guidelines and standards shall be applied in the manner described in s. 380.06(2)(a).~~

~~(2) The Administration Commission shall publish the statewide guidelines and standards established in this section in its administrative rule in place of the guidelines and standards that are superseded by this act, without the proceedings required by s. 120.54 and notwithstanding the provisions of s. 120.545(1)(c). The Administration Commission shall initiate rulemaking proceedings pursuant to s. 120.54 to make all other technical revisions necessary to conform the rules to this act. Rule amendments made pursuant to this subsection shall not be subject to the requirement for legislative approval pursuant to s. 380.06(2).~~

~~(3)~~ Subject to the exemptions and partial exemptions specified in this section, the following statewide guidelines and standards shall be applied in the manner described in s. 380.06(2) to determine whether the following developments are

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

subject to the requirements of s. 380.06 ~~shall be required to undergo development-of-regional-impact review~~:

(a) *Airports.*—

1. Any of the following airport construction projects is ~~shall be~~ a development of regional impact:

a. A new commercial service or general aviation airport with paved runways.

b. A new commercial service or general aviation paved runway.

c. A new passenger terminal facility.

2. Lengthening of an existing runway by 25 percent or an increase in the number of gates by 25 percent or three gates, whichever is greater, on a commercial service airport or a general aviation airport with regularly scheduled flights is a development of regional impact. However, expansion of existing terminal facilities at a nonhub or small hub commercial service airport is ~~shall~~ not ~~be~~ a development of regional impact.

3. Any airport development project which is proposed for safety, repair, or maintenance reasons alone and would not have the potential to increase or change existing types of aircraft activity is not a development of regional impact. Notwithstanding subparagraphs 1. and 2., renovation, modernization, or replacement of airport airside or terminal facilities that may include increases in square footage of such facilities but does not increase the number of gates or change the existing types of aircraft activity is not a development of regional impact.

(b) *Attractions and recreation facilities.*—Any sports, entertainment, amusement, or recreation facility, including, but

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

not limited to, a sports arena, stadium, racetrack, tourist attraction, amusement park, or pari-mutuel facility, the construction or expansion of which:

1. For single performance facilities:

a. Provides parking spaces for more than 2,500 cars; or

b. Provides more than 10,000 permanent seats for spectators.

2. For serial performance facilities:

a. Provides parking spaces for more than 1,000 cars; or

b. Provides more than 4,000 permanent seats for spectators.

For purposes of this subsection, "serial performance facilities" means those using their parking areas or permanent seating more than one time per day on a regular or continuous basis.

(c) *Office development.*—Any proposed office building or park operated under common ownership, development plan, or management that:

1. Encompasses 300,000 or more square feet of gross floor area; or

2. Encompasses more than 600,000 square feet of gross floor area in a county with a population greater than 500,000 and only in a geographic area specifically designated as highly suitable for increased threshold intensity in the approved local comprehensive plan.

(d) *Retail and service development.*—Any proposed retail, service, or wholesale business establishment or group of establishments which deals primarily with the general public onsite, operated under one common property ownership, development plan, or management that:

1. Encompasses more than 400,000 square feet of gross area; or

2. Provides parking spaces for more than 2,500 cars.

(e) *Recreational vehicle development.*—Any proposed recreational vehicle development planned to create or accommodate 500 or more spaces.

(f) *Multiuse development.*—Any proposed development with two or more land uses where the sum of the percentages of the appropriate thresholds identified in chapter 28-24, Florida Administrative Code, or this section for each land use in the development is equal to or greater than 145 percent. Any proposed development with three or more land uses, one of which is residential and contains at least 100 dwelling units or 15 percent of the applicable residential threshold, whichever is greater, where the sum of the percentages of the appropriate thresholds identified in chapter 28-24, Florida Administrative Code, or this section for each land use in the development is equal to or greater than 160 percent. This threshold is in addition to, and does not preclude, a development from being required to undergo development-of-regional-impact review under any other threshold.

(g) *Residential development.*—A rule may not be adopted concerning residential developments which treats a residential development in one county as being located in a less populated adjacent county unless more than 25 percent of the development is located within 2 miles or less of the less populated adjacent county. The residential thresholds of adjacent counties with less population and a lower threshold may not be controlling on any development wholly located within areas designated as rural

areas of opportunity.

(h) *Workforce housing.*—The applicable guidelines for residential development and the residential component for multiuse development shall be increased by 50 percent where the developer demonstrates that at least 15 percent of the total residential dwelling units authorized within the development of regional impact will be dedicated to affordable workforce housing, subject to a recorded land use restriction that shall be for a period of not less than 20 years and that includes resale provisions to ensure long-term affordability for income-eligible homeowners and renters and provisions for the workforce housing to be commenced prior to the completion of 50 percent of the market rate dwelling. For purposes of this paragraph, the term "affordable workforce housing" means housing that is affordable to a person who earns less than 120 percent of the area median income, or less than 140 percent of the area median income if located in a county in which the median purchase price for a single-family existing home exceeds the statewide median purchase price of a single-family existing home. For the purposes of this paragraph, the term "statewide median purchase price of a single-family existing home" means the statewide purchase price as determined in the Florida Sales Report, Single-Family Existing Homes, released each January by the Florida Association of Realtors and the University of Florida Real Estate Research Center.

(i) *Schools.*—

1. The proposed construction of any public, private, or proprietary postsecondary educational campus which provides for a design population of more than 5,000 full-time equivalent

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

students, or the proposed physical expansion of any public, private, or proprietary postsecondary educational campus having such a design population that would increase the population by at least 20 percent of the design population.

2. As used in this paragraph, "full-time equivalent student" means enrollment for 15 or more quarter hours during a single academic semester. In career centers or other institutions which do not employ semester hours or quarter hours in accounting for student participation, enrollment for 18 contact hours shall be considered equivalent to one quarter hour, and enrollment for 27 contact hours shall be considered equivalent to one semester hour.

3. This paragraph does not apply to institutions which are the subject of a campus master plan adopted by the university board of trustees pursuant to s. 1013.30.

(2) STATUTORY EXEMPTIONS.—The following developments are exempt from s. 380.06:

(a) Any proposed hospital.

(b) Any proposed electrical transmission line or electrical power plant.

(c) Any proposed addition to an existing sports facility complex if the addition meets the following characteristics:

1. It would not operate concurrently with the scheduled hours of operation of the existing facility;

2. Its seating capacity would be no more than 75 percent of the capacity of the existing facility; and

3. The sports facility complex property was owned by a public body before July 1, 1983.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

This exemption does not apply to any pari-mutuel facility as defined in s. 550.002.

(d) Any proposed addition or cumulative additions subsequent to July 1, 1988, to an existing sports facility complex owned by a state university, if the increased seating capacity of the complex is no more than 30 percent of the capacity of the existing facility.

(e) Any addition of permanent seats or parking spaces for an existing sports facility located on property owned by a public body before July 1, 1973, if future additions do not expand existing permanent seating or parking capacity more than 15 percent annually in excess of the prior year's capacity.

(f) Any increase in the seating capacity of an existing sports facility having a permanent seating capacity of at least 50,000 spectators, provided that such an increase does not increase permanent seating capacity by more than 5 percent per year and does not exceed a total of 10 percent in any 5-year period. The sports facility must notify the appropriate local government within which the facility is located of the increase at least 6 months before the initial use of the increased seating in order to permit the appropriate local government to develop a traffic management plan for the traffic generated by the increase. Any traffic management plan must be consistent with the local comprehensive plan, the regional policy plan, and the state comprehensive plan.

(g) Any expansion in the permanent seating capacity or additional improved parking facilities of an existing sports facility, if the following conditions exist:

1.a. The sports facility had a permanent seating capacity

on January 1, 1991, of at least 41,000 spectator seats;

b. The sum of such expansions in permanent seating capacity does not exceed a total of 10 percent in any 5-year period and does not exceed a cumulative total of 20 percent for any such expansions; or

c. The increase in additional improved parking facilities is a one-time addition and does not exceed 3,500 parking spaces serving the sports facility; and

2. The local government having jurisdiction over the sports facility includes in the development order or development permit approving such expansion under this paragraph a finding of fact that the proposed expansion is consistent with the transportation, water, sewer, and stormwater drainage provisions of the approved local comprehensive plan and local land development regulations relating to those provisions.

Any owner or developer who intends to rely on this statutory exemption shall provide to the state land planning agency a copy of the local government application for a development permit. Within 45 days after receipt of the application, the state land planning agency shall render to the local government an advisory and nonbinding opinion, in writing, stating whether, in the state land planning agency's opinion, the prescribed conditions exist for an exemption under this paragraph. The local government shall render the development order approving each such expansion to the state land planning agency. The owner, developer, or state land planning agency may appeal the local government development order pursuant to s. 380.07 within 45 days after the order is rendered. The scope of review shall be

limited to the determination of whether the conditions prescribed in this paragraph exist. If any sports facility expansion undergoes development-of-regional-impact review, all previous expansions that were exempt under this paragraph must be included in the development-of-regional-impact review.

(h) Expansion to port harbors, spoil disposal sites, navigation channels, turning basins, harbor berths, and other related inwater harbor facilities of the ports specified in s. 403.021(9)(b), port transportation facilities and projects listed in s. 311.07(3)(b), and intermodal transportation facilities identified pursuant to s. 311.09(3) when such expansions, projects, or facilities are consistent with port master plans and are in compliance with s. 163.3178.

(i) Any proposed facility for the storage of any petroleum product or any expansion of an existing facility.

(j) Any renovation or redevelopment within the same parcel as the existing development if such renovation or redevelopment does not change land use or increase density or intensity of use.

(k) Waterport and marina development, including dry storage facilities.

(l) Any proposed development within an urban service area boundary established under s. 163.3177(14), Florida Statutes 2010, that is not otherwise exempt pursuant to subsection (3),if the local government having jurisdiction over the area where the development is proposed has adopted the urban service area boundary and has entered into a binding agreement with jurisdictions that would be impacted and with the Department of Transportation regarding the mitigation of impacts on state and

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

regional transportation facilities.

(m) Any proposed development within a rural land stewardship area created under s. 163.3248.

(n) The establishment, relocation, or expansion of any military installation as specified in s. 163.3175.

(o) Any self-storage warehousing that does not allow retail or other services.

(p) Any proposed nursing home or assisted living facility.

(q) Any development identified in an airport master plan and adopted into the comprehensive plan pursuant to s. 163.3177(6)(b)4.

(r) Any development identified in a campus master plan and adopted pursuant to s. 1013.30.

(s) Any development in a detailed specific area plan prepared and adopted pursuant to s. 163.3245.

(t) Any proposed solid mineral mine and any proposed addition to, expansion of, or change to an existing solid mineral mine. A mine owner must, however, enter into a binding agreement with the Department of Transportation to mitigate impacts to strategic intermodal system facilities. Proposed changes to any previously approved solid mineral mine development-of-regional-impact development orders having vested rights are not subject to further review or approval as a development-of-regional-impact or notice-of-proposed-change review or approval pursuant to subsection (19), except for those applications pending as of July 1, 2011, which are governed by s. 380.115(2). Notwithstanding this requirement, pursuant to s. 380.115(1), a previously approved solid mineral mine development-of-regional impact development order continues to

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

have vested rights and continues to be effective unless rescinded by the developer. All local government regulations of proposed solid mineral mines are applicable to any new solid mineral mine or to any proposed addition to, expansion of, or change to an existing solid mineral mine.

(u) Notwithstanding any provision in an agreement with or among a local government, regional agency, or the state land planning agency or in a local government's comprehensive plan to the contrary, a project no longer subject to development-of regional-impact review under the revised thresholds specified in s. 380.06(2)(b) and this section.

(v) Any development within a county that has a research and education authority created by special act and which is also within a research and development park that is operated or managed by a research and development authority pursuant to part V of chapter 159.

(w) Any development in an energy economic zone designated pursuant to s. 377.809 upon approval by its local governing body.

If a use is exempt from review pursuant to paragraphs (a)-(u), but will be part of a larger project that is subject to review pursuant to s. 380.06(12), the impact of the exempt use must be included in the review of the larger project, unless such exempt use involves a development that includes a landowner, tenant, or user that has entered into a funding agreement with the state land planning agency under the Innovation Incentive Program and the agreement contemplates a state award of at least $50 million.

(3) EXEMPTIONS FOR DENSE URBAN LAND AREAS.

(a) The following are exempt from the requirements of s. 380.06:

1. Any proposed development in a municipality having an average of at least 1,000 people per square mile of land area and a minimum total population of at least 5,000;

2. Any proposed development within a county, including the municipalities located therein, having an average of at least 1,000 people per square mile of land area and the development is located within an urban service area as defined in s. 163.3164 which has been adopted into the comprehensive plan as defined in s. 163.3164;

3. Any proposed development within a county, including the municipalities located therein, having a population of at least 900,000 and an average of at least 1,000 people per square mile of land area, but which does not have an urban service area designated in the comprehensive plan; and

4. Any proposed development within a county, including the municipalities located therein, having a population of at least 1 million and the development is located within an urban service area as defined in s. 163.3164 which has been adopted into the comprehensive plan.

The Office of Economic and Demographic Research within the Legislature shall annually calculate the population and density criteria needed to determine which jurisdictions meet the density criteria in subparagraphs 1.-4. by using the most recent land area data from the decennial census conducted by the Bureau of the Census of the United States Department of Commerce and

the latest available population estimates determined pursuant to s. 186.901. If any local government has had an annexation, contraction, or new incorporation, the Office of Economic and Demographic Research shall determine the population density using the new jurisdictional boundaries as recorded in accordance with s. 171.091. The Office of Economic and Demographic Research shall annually submit to the state land planning agency by July 1 a list of jurisdictions that meet the total population and density criteria. The state land planning agency shall publish the list of jurisdictions on its website within 7 days after the list is received. The designation of jurisdictions that meet the criteria of subparagraphs 1.-4. is effective upon publication on the state land planning agency's website. If a municipality that has previously met the criteria no longer meets the criteria, the state land planning agency must maintain the municipality on the list and indicate the year the jurisdiction last met the criteria. However, any proposed development of regional impact not within the established boundaries of a municipality at the time the municipality last met the criteria must meet the requirements of this section until the municipality as a whole meets the criteria. Any county that meets the criteria must remain on the list. Any jurisdiction that was placed on the dense urban land area list before June 2, 2011, must remain on the list.

(b) If a municipality that does not qualify as a dense urban land area pursuant to paragraph (a) designates any of the following areas in its comprehensive plan, any proposed development within the designated area is exempt from s. 380.06 unless otherwise required by part II of chapter 163:

1. Urban infill as defined in s. 163.3164;

2. Community redevelopment areas as defined in s. 163.340;

3. Downtown revitalization areas as defined in s. 163.3164;

4. Urban infill and redevelopment under s. 163.2517; or

5. Urban service areas as defined in s. 163.3164 or areas within a designated urban service area boundary pursuant to s. 163.3177(14), Florida Statutes 2010.

(c) If a county that does not qualify as a dense urban land area designates any of the following areas in its comprehensive plan, any proposed development within the designated area is exempt from the development-of-regional-impact process:

1. Urban infill as defined in s. 163.3164;

2. Urban infill and redevelopment pursuant to s. 163.2517; or

3. Urban service areas as defined in s. 163.3164.

(d) If any portion of a development is located in an area that is not exempt from review under s. 380.06, the development must undergo review pursuant to that section.

(e) In an area that is exempt under paragraphs (a), (b), and (c), any previously approved development-of-regional-impact development orders shall continue to be effective. However, the developer has the option to be governed by s. 380.115(1).

(f) If a local government qualifies as a dense urban land area under this subsection and is subsequently found to be ineligible for designation as a dense urban land area, any development located within that area which has a complete, pending application for authorization to commence development shall maintain the exemption if the developer is continuing the application process in good faith or the development is

approved.

(g) This subsection does not limit or modify the rights of any person to complete any development that has been authorized as a development of regional impact pursuant to this chapter.

(h) This subsection does not apply to areas:

1. Within the boundary of any area of critical state concern designated pursuant to s. 380.05;

2. Within the boundary of the Wekiva Study Area as described in s. 369.316; or

3. Within 2 miles of the boundary of the Everglades Protection Area as defined in s. 373.4592.

(4) PARTIAL STATUTORY EXEMPTIONS.—

(a) If the binding agreement referenced under paragraph (2)(l) for urban service boundaries is not entered into within 12 months after establishment of the urban service area boundary, the review pursuant to s. 380.06(12) for projects within the urban service area boundary must address transportation impacts only.

(b) If the binding agreement referenced under paragraph (2)(m) for rural land stewardship areas is not entered into within 12 months after the designation of a rural land stewardship area, the review pursuant to s. 380.06(12) for projects within the rural land stewardship area must address transportation impacts only.

(c) If the binding agreement for designated urban infill and redevelopment areas is not entered into within 12 months after the designation of the area or July 1, 2007, whichever occurs later, the review pursuant to s. 380.06(12) for projects within the urban infill and redevelopment area must address

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

transportation impacts only.

(d) A local government that does not wish to enter into a binding agreement or that is unable to agree on the terms of the agreement referenced under paragraph (2)(l) or paragraph (2)(m) must provide written notification to the state land planning agency of the decision to not enter into a binding agreement or the failure to enter into a binding agreement within the 12-month period referenced in paragraphs (a), (b), and (c). Following the notification of the state land planning agency, a review pursuant to s. 380.06(12) for projects within an urban service area boundary under paragraph (2)(l), or a rural land stewardship area under paragraph (2)(m), must address transportation impacts only.

(e) The vesting provision of s. 163.3167(5) relating to an authorized development of regional impact does not apply to those projects partially exempt from s. 380.06 under paragraphs (a)-(d) of this subsection.

~~(4) Two or more developments, represented by their owners or developers to be separate developments, shall be aggregated and treated as a single development under this chapter when they are determined to be part of a unified plan of development and are physically proximate to one other.~~

~~(a) The criteria of three of the following subparagraphs must be met in order for the state land planning agency to determine that there is a unified plan of development:~~

~~1.a. The same person has retained or shared control of the developments;~~

~~b. The same person has ownership or a significant legal or equitable interest in the developments; or~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~c. There is common management of the developments controlling the form of physical development or disposition of parcels of the development.~~

~~2. There is a reasonable closeness in time between the completion of 80 percent or less of one development and the submission to a governmental agency of a master plan or series of plans or drawings for the other development which is indicative of a common development effort.~~

~~3. A master plan or series of plans or drawings exists covering the developments sought to be aggregated which have been submitted to a local general-purpose government, water management district, the Florida Department of Environmental Protection, or the Division of Florida Condominiums, Timeshares, and Mobile Homes for authorization to commence development. The existence or implementation of a utility's master utility plan required by the Public Service Commission or general-purpose local government or a master drainage plan shall not be the sole determinant of the existence of a master plan.~~

~~4. There is a common advertising scheme or promotional plan in effect for the developments sought to be aggregated.~~

~~(b) The following activities or circumstances shall not be considered in determining whether to aggregate two or more developments:~~

~~1. Activities undertaken leading to the adoption or amendment of any comprehensive plan element described in part II of chapter 163.~~

~~2. The sale of unimproved parcels of land, where the seller does not retain significant control of the future development of the parcels.~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~3. The fact that the same lender has a financial interest, including one acquired through foreclosure, in two or more parcels, so long as the lender is not an active participant in the planning, management, or development of the parcels in which it has an interest.~~

~~4. Drainage improvements that are not designed to accommodate the types of development listed in the guidelines and standards contained in or adopted pursuant to this chapter or which are not designed specifically to accommodate the developments sought to be aggregated.~~

~~(c) Aggregation is not applicable when the following circumstances and provisions of this chapter apply:~~

~~1. Developments that are otherwise subject to aggregation with a development of regional impact which has received approval through the issuance of a final development order may not be aggregated with the approved development of regional impact. However, this subparagraph does not preclude the state land planning agency from evaluating an allegedly separate development as a substantial deviation pursuant to s. 380.06(19) or as an independent development of regional impact.~~

~~2. Two or more developments, each of which is independently a development of regional impact that has or will obtain a development order pursuant to s. 380.06.~~

~~3. Completion of any development that has been vested pursuant to s. 380.05 or s. 380.06, including vested rights arising out of agreements entered into with the state land planning agency for purposes of resolving vested rights issues. Development of regional impact review of additions to vested developments of regional impact shall not include review of the~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~impacts resulting from the vested portions of the development.~~

~~4. The developments sought to be aggregated were authorized to commence development before September 1, 1988, and could not have been required to be aggregated under the law existing before that date.~~

~~5. Any development that qualifies for an exemption under s. 380.06(29).~~

~~6. Newly acquired lands intended for development in coordination with a developed and existing development of regional impact are not subject to aggregation if the newly acquired lands comprise an area that is equal to or less than 10 percent of the total acreage subject to an existing development of regional impact development order.~~

~~(d) The provisions of this subsection shall be applied prospectively from September 1, 1988. Written decisions, agreements, and binding letters of interpretation made or issued by the state land planning agency prior to July 1, 1988, shall not be affected by this subsection.~~

~~(e) In order to encourage developers to design, finance, donate, or build infrastructure, public facilities, or services, the state land planning agency may enter into binding agreements with two or more developers providing that the joint planning, sharing, or use of specified public infrastructure, facilities, or services by the developers shall not be considered in any subsequent determination of whether a unified plan of development exists for their developments. Such binding agreements may authorize the developers to pool impact fees or impact fee credits, or to enter into front-end agreements, or other financing arrangements by which they collectively agree to~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~design, finance, donate, or build such public infrastructure, facilities, or services. Such agreements shall be conditioned upon a subsequent determination by the appropriate local government of consistency with the approved local government comprehensive plan and land development regulations. Additionally, the developers must demonstrate that the provision and sharing of public infrastructure, facilities, or services is in the public interest and not merely for the benefit of the developments which are the subject of the agreement. Developments that are the subject of an agreement pursuant to this paragraph shall be aggregated if the state land planning agency determines that sufficient aggregation factors are present to require aggregation without considering the design features, financial arrangements, donations, or construction that are specified in and required by the agreement.~~

~~(f) The state land planning agency has authority to adopt rules pursuant to ss. 120.536(1) and 120.54 to implement the provisions of this subsection.~~

Section 5. Section 380.07, Florida Statutes, is amended to read:

380.07 Florida Land and Water Adjudicatory Commission.—

(1) There is hereby created the Florida Land and Water Adjudicatory Commission, which shall consist of the Administration Commission. The commission may adopt rules necessary to ensure compliance with the area of critical state concern program ~~and the requirements for developments of regional impact as set forth in this chapter~~.

(2) Whenever any local government issues any development order in any area of critical state concern, or in regard to the

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

abandonment of any approved development of regional impact, copies of such orders as prescribed by rule by the state land planning agency shall be transmitted to the state land planning agency, the regional planning agency, and the owner or developer of the property affected by such order. The state land planning agency shall adopt rules describing development order rendition and effectiveness in designated areas of critical state concern. Within 45 days after the order is rendered, the owner, the developer, or the state land planning agency may appeal the order to the Florida Land and Water Adjudicatory Commission by filing a petition alleging that the development order is not consistent with ~~the provisions of~~ this part. ~~The appropriate regional planning agency by vote at a regularly scheduled meeting may recommend that the state land planning agency undertake an appeal of a development-of-regional-impact development order. Upon the request of an appropriate regional planning council, affected local government, or any citizen, the state land planning agency shall consider whether to appeal the order and shall respond to the request within the 45-day appeal period.~~

(3) Notwithstanding any other provision of law, an appeal of a development order in an area of critical state concern by the state land planning agency under this section may include consistency of the development order with the local comprehensive plan. ~~However, if a development order relating to a development of regional impact has been challenged in a proceeding under s. 163.3215 and a party to the proceeding serves notice to the state land planning agency of the pending proceeding under s. 163.3215, the state land planning agency~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~shall:~~

~~(a) Raise its consistency issues by intervening as a full party in the pending proceeding under s. 163.3215 within 30 days after service of the notice; and~~

~~(b) Dismiss the consistency issues from the development order appeal.~~

(4) ~~The appellant shall furnish a copy of the petition to the opposing party, as the case may be, and to the local government that issued the order. The filing of the petition stays the effectiveness of the order until after the completion of the appeal process.~~

~~(5) The 45-day appeal period for a development of regional impact within the jurisdiction of more than one local government shall not commence until after all the local governments having jurisdiction over the proposed development of regional impact have rendered their development orders.~~ The appellant shall furnish a copy of the notice of appeal to the opposing party, as the case may be, and to the local government that ~~which~~ issued the order. The filing of the notice of appeal stays ~~shall stay~~ the effectiveness of the order until after the completion of the appeal process.

(5) ~~(6)~~ Before ~~Prior to~~ issuing an order, the Florida Land and Water Adjudicatory Commission shall hold a hearing pursuant to ~~the provisions of~~ chapter 120. The commission shall encourage the submission of appeals on the record made pursuant to subsection (7) ~~below~~ in cases in which the development order was issued after a full and complete hearing before the local government or an agency thereof.

(6) ~~(7)~~ The Florida Land and Water Adjudicatory Commission

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

shall issue a decision granting or denying permission to develop pursuant to the standards of this chapter and may attach conditions and restrictions to its decisions.

(7) ~~(8)~~ If an appeal is filed with respect to any issues within the scope of a permitting program authorized by chapter 161, chapter 373, or chapter 403 and for which a permit or conceptual review approval has been obtained before ~~prior to~~ the issuance of a development order, any such issue shall be specifically identified in the notice of appeal which is filed pursuant to this section, together with other issues that ~~which~~ constitute grounds for the appeal. The appeal may proceed with respect to issues within the scope of permitting programs for which a permit or conceptual review approval has been obtained before ~~prior to~~ the issuance of a development order only after the commission determines by majority vote at a regularly scheduled commission meeting that statewide or regional interests may be adversely affected by the development. In making this determination, there is ~~shall be~~ a rebuttable presumption that statewide and regional interests relating to issues within the scope of the permitting programs for which a permit or conceptual approval has been obtained are not adversely affected.

Section 6. Section 380.115, Florida Statutes, is amended to read:

380.115 Vested rights and duties; effect of size reduction, changes in statewide guidelines and standards.—

~~(1) A change in a development-of-regional-impact guideline and standard does not abridge or modify any vested or other right or any duty or obligation pursuant to any development~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~order or agreement that is applicable to a development of regional impact.~~ A development that has received a development-of-regional-impact development order pursuant to s. 380.06 but is no longer required to undergo development-of-regional-impact review by operation of law may elect ~~a change in the guidelines and standards, a development that has reduced its size below the thresholds as specified in s. 380.0651, a development that is exempt pursuant to s. 380.06(24) or (29), or a development that elects~~ to rescind the development order pursuant to ~~are governed by~~ the following procedures:

(1) ~~(a)~~ The development shall continue to be governed by the development-of-regional-impact development order and may be completed in reliance upon and pursuant to the development order unless the developer or landowner has followed the procedures for rescission in subsection (2) ~~paragraph (b)~~. Any proposed changes to developments which continue to be governed by a development-of-regional-impact development order must be approved pursuant to s. 380.06(7) ~~s. 380.06(19) as it existed before a change in the development-of-regional-impact guidelines and standards, except that all percentage criteria are doubled and all other criteria are increased by 10 percent~~. The local government issuing the development order must monitor the development and enforce the development order. Local governments may not issue any permits or approvals or provide any extensions of services if the developer fails to act in substantial compliance with the development order. The development-of-regional-impact development order may be enforced ~~by the local government~~ as provided in s. 380.11 ~~ss. 380.06(17) and 380.11~~.

(2) ~~(b)~~ If requested by the developer or landowner, the

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

development-of-regional-impact development order shall be rescinded by the local government having jurisdiction upon a showing that all required mitigation related to the amount of development that existed on the date of rescission has been completed or will be completed under an existing permit or equivalent authorization issued by a governmental agency as defined in s. 380.031(6), if such permit or authorization is subject to enforcement through administrative or judicial remedies.

~~(2) A development with an application for development approval pending, pursuant to s. 380.06, on the effective date of a change to the guidelines and standards, or a notification of proposed change pending on the effective date of a change to the guidelines and standards, may elect to continue such review pursuant to s. 380.06. At the conclusion of the pending review, including any appeals pursuant to s. 380.07, the resulting development order shall be governed by the provisions of subsection (1).~~

~~(3) A landowner that has filed an application for a development-of-regional-impact review prior to the adoption of a sector plan pursuant to s. 163.3245 may elect to have the application reviewed pursuant to s. 380.06, comprehensive plan provisions in force prior to adoption of the sector plan, and any requested comprehensive plan amendments that accompany the application.~~

Section 7. Paragraph (c) of subsection (1) of section 125.68, Florida Statutes, is amended to read:

125.68 Codification of ordinances; exceptions; public record.—

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

(1)

(c) The following ordinances are exempt from codification and annual publication requirements:

1. Any development agreement, or amendment to such agreement, adopted by ordinance pursuant to ss. 163.3220-163.3243.

2. Any development order, or amendment to such order, adopted by ordinance pursuant to s. 380.06(4) ~~s. 380.06(15)~~.

Section 8. Paragraph (e) of subsection (3), subsection (6), and subsection (12) of section 163.3245, Florida Statutes, are amended to read:

163.3245 Sector plans.—

(3) Sector planning encompasses two levels: adoption pursuant to s. 163.3184 of a long-term master plan for the entire planning area as part of the comprehensive plan, and adoption by local development order of two or more detailed specific area plans that implement the long-term master plan and within which s. 380.06 is waived.

(e) Whenever a local government issues a development order approving a detailed specific area plan, a copy of such order shall be rendered to the state land planning agency and the owner or developer of the property affected by such order, as prescribed by rules of the state land planning agency for a development order for a development of regional impact. Within 45 days after the order is rendered, the owner, the developer, or the state land planning agency may appeal the order to the Florida Land and Water Adjudicatory Commission by filing a petition alleging that the detailed specific area plan is not consistent with the comprehensive plan or with the long-term

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

master plan adopted pursuant to this section. The appellant shall furnish a copy of the petition to the opposing party, as the case may be, and to the local government that issued the order. The filing of the petition stays the effectiveness of the order until after completion of the appeal process. However, if a development order approving a detailed specific area plan has been challenged by an aggrieved or adversely affected party in a judicial proceeding pursuant to s. 163.3215, and a party to such proceeding serves notice to the state land planning agency, the state land planning agency shall dismiss its appeal to the commission and shall have the right to intervene in the pending judicial proceeding pursuant to s. 163.3215. Proceedings for administrative review of an order approving a detailed specific area plan shall be conducted consistent with s. 380.07(5) ~~s. 380.07(6)~~. The commission shall issue a decision granting or denying permission to develop pursuant to the long-term master plan and the standards of this part and may attach conditions or restrictions to its decisions.

(6) An applicant who applied ~~Concurrent with or subsequent to review and adoption of a long-term master plan pursuant to paragraph (3)(a), an applicant may apply~~ for master development approval pursuant to s. 380.06 ~~s. 380.06(21)~~ for the entire planning area shall remain subject to the master development order ~~in order to establish a buildout date until which the approved uses and densities and intensities of use of the master plan are not subject to downzoning, unit density reduction, or intensity reduction,~~ unless the developer elects to rescind the development order pursuant to s. 380.115, the development order is abandoned pursuant to s. 380.06(11), or the local government

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

can demonstrate that implementation of the master plan is not continuing in good faith based on standards established by plan policy, that substantial changes in the conditions underlying the approval of the master plan have occurred, that the master plan was based on substantially inaccurate information provided by the applicant, or that change is clearly established to be essential to the public health, safety, or welfare. ~~Review of the application for master development approval shall be at a level of detail appropriate for the long-term and conceptual nature of the long-term master plan and, to the maximum extent possible, may only consider information provided in the application for a long-term master plan.~~ Notwithstanding s. 380.06, an increment of development in such an approved master development plan must be approved by a detailed specific area plan pursuant to paragraph (3)(b) and is exempt from review pursuant to s. 380.06.

(12) Notwithstanding s. 380.06, this part, or any planning agreement or plan policy, a landowner or developer who has received approval of a master development-of-regional-impact development order pursuant to s. 380.06(9) ~~s. 380.06(21)~~ may apply to implement this order by filing one or more applications to approve a detailed specific area plan pursuant to paragraph (3)(b).

Section 9. Subsections (11), (12), and (14) of section 163.3246, Florida Statutes, are amended to read:

163.3246 Local government comprehensive planning certification program.—

(11) If the local government of an area described in subsection (10) does not request that the state land planning

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

agency review the developments of regional impact that are proposed within the certified area, an application for approval of a development order within the certified area is ~~shall be~~ exempt from ~~review under~~ s. 380.06.

(12) A local government's certification shall be reviewed by the local government and the state land planning agency as part of the evaluation and appraisal process pursuant to s. 163.3191. Within 1 year after the deadline for the local government to update its comprehensive plan based on the evaluation and appraisal, the state land planning agency must ~~shall~~ renew or revoke the certification. The local government's failure to timely adopt necessary amendments to update its comprehensive plan based on an evaluation and appraisal, which are found to be in compliance by the state land planning agency, is ~~shall be~~ cause for revoking the certification agreement. The state land planning agency's decision to renew or revoke is ~~shall be considered~~ agency action subject to challenge under s. 120.569.

(14) It is the intent of the Legislature to encourage the creation of connected-city corridors that facilitate the growth of high-technology industry and innovation through partnerships that support research, marketing, workforce, and entrepreneurship. It is the further intent of the Legislature to provide for a locally controlled, comprehensive plan amendment process for such projects that are designed to achieve a cleaner, healthier environment; limit urban sprawl by promoting diverse but interconnected communities; provide a range of intergenerational housing types; protect wildlife and natural areas; assure the efficient use of land and other resources;

create quality communities of a design that promotes alternative transportation networks and travel by multiple transportation modes; and enhance the prospects for the creation of jobs. The Legislature finds and declares that this state's connected-city corridors require a reduced level of state and regional oversight because of their high degree of urbanization and the planning capabilities and resources of the local government.

(a) Notwithstanding subsections (2), (4), (5), (6), and (7), Pasco County is named a pilot community and shall be considered certified for a period of 10 years for connected-city corridor plan amendments. The state land planning agency shall provide a written notice of certification to Pasco County by July 15, 2015, which shall be considered a final agency action subject to challenge under s. 120.569. The notice of certification must include:

1. The boundary of the connected-city corridor certification area; and

2. A requirement that Pasco County submit an annual or biennial monitoring report to the state land planning agency according to the schedule provided in the written notice. The monitoring report must, at a minimum, include the number of amendments to the comprehensive plan adopted by Pasco County, the number of plan amendments challenged by an affected person, and the disposition of such challenges.

(b) A plan amendment adopted under this subsection may be based upon a planning period longer than the generally applicable planning period of the Pasco County local comprehensive plan, must specify the projected population within the planning area during the chosen planning period, may include

a phasing or staging schedule that allocates a portion of Pasco County's future growth to the planning area through the planning period, and may designate a priority zone or subarea within the connected-city corridor for initial implementation of the plan. A plan amendment adopted under this subsection is not required to demonstrate need based upon projected population growth or on any other basis.

(c) If Pasco County adopts a long-term transportation network plan and financial feasibility plan, and subject to compliance with the requirements of such a plan, the projects within the connected-city corridor are deemed to have satisfied all concurrency and other state agency or local government transportation mitigation requirements except for site-specific access management requirements.

(d) If Pasco County does not request that the state land planning agency review the developments of regional impact that are proposed within the certified area, an application for approval of a development order within the certified area is exempt from ~~review under~~ s. 380.06.

(e) The Office of Program Policy Analysis and Government Accountability (OPPAGA) shall submit to the Governor, the President of the Senate, and the Speaker of the House of Representatives by December 1, 2024, a report and recommendations for implementing a statewide program that addresses the legislative findings in this subsection. In consultation with the state land planning agency, OPPAGA shall develop the report and recommendations with input from other state and regional agencies, local governments, and interest groups. OPPAGA shall also solicit citizen input in the

potentially affected areas and consult with the affected local government and stakeholder groups. Additionally, OPPAGA shall review local and state actions and correspondence relating to the pilot program to identify issues of process and substance in recommending changes to the pilot program. At a minimum, the report and recommendations must include:

1. Identification of local governments other than the local government participating in the pilot program which should be certified. The report may also recommend that a local government is no longer appropriate for certification; and

2. Changes to the certification pilot program.

Section 10. Subsection (4) of section 189.08, Florida Statutes, is amended to read:

189.08 Special district public facilities report.—

(4) Those special districts building, improving, or expanding public facilities addressed by a development order issued to the developer pursuant to s. 380.06 may use the most recent local government ~~annual~~ report required by s. 380.06(6) ~~s. 380.06(15) and (18)~~ and submitted by the developer, to the extent the annual report provides the information required by subsection (2).

Section 11. Subsection (2) of section 190.005, Florida Statutes, is amended to read:

190.005 Establishment of district.—

(2) The exclusive and uniform method for the establishment of a community development district of less than 2,500 acres in size or a community development district of up to 7,000 acres in size located within a connected-city corridor established pursuant to s. 163.3246(13) ~~s. 163.3246(14)~~ shall be pursuant to

an ordinance adopted by the county commission of the county having jurisdiction over the majority of land in the area in which the district is to be located granting a petition for the establishment of a community development district as follows:

(a) A petition for the establishment of a community development district shall be filed by the petitioner with the county commission. The petition shall contain the same information as required in paragraph (1)(a).

(b) A public hearing on the petition shall be conducted by the county commission in accordance with the requirements and procedures of paragraph (1)(d).

(c) The county commission shall consider the record of the public hearing and the factors set forth in paragraph (1)(e) in making its determination to grant or deny a petition for the establishment of a community development district.

(d) The county commission may ~~shall~~ not adopt any ordinance which would expand, modify, or delete any provision of the uniform community development district charter as set forth in ss. 190.006-190.041. An ordinance establishing a community development district shall only include the matters provided for in paragraph (1)(f) unless the commission consents to any of the optional powers under s. 190.012(2) at the request of the petitioner.

(e) If all of the land in the area for the proposed district is within the territorial jurisdiction of a municipal corporation, then the petition requesting establishment of a community development district under this act shall be filed by the petitioner with that particular municipal corporation. In such event, the duties of the county, hereinabove described, in

action upon the petition shall be the duties of the municipal corporation. If any of the land area of a proposed district is within the land area of a municipality, the county commission may not create the district without municipal approval. If all of the land in the area for the proposed district, even if less than 2,500 acres, is within the territorial jurisdiction of two or more municipalities or two or more counties, except for proposed districts within a connected-city corridor established pursuant to s. 163.3246(13) ~~s. 163.3246(14)~~, the petition shall be filed with the Florida Land and Water Adjudicatory Commission and proceed in accordance with subsection (1).

(f) Notwithstanding any other provision of this subsection, within 90 days after a petition for the establishment of a community development district has been filed pursuant to this subsection, the governing body of the county or municipal corporation may transfer the petition to the Florida Land and Water Adjudicatory Commission, which shall make the determination to grant or deny the petition as provided in subsection (1). A county or municipal corporation shall have no right or power to grant or deny a petition that has been transferred to the Florida Land and Water Adjudicatory Commission.

Section 12. Paragraph (g) of subsection (1) of section 190.012, Florida Statutes, is amended to read:

190.012 Special powers; public improvements and community facilities.—The district shall have, and the board may exercise, subject to the regulatory jurisdiction and permitting authority of all applicable governmental bodies, agencies, and special districts having authority with respect to any area included

therein, any or all of the following special powers relating to public improvements and community facilities authorized by this act:

(1) To finance, fund, plan, establish, acquire, construct or reconstruct, enlarge or extend, equip, operate, and maintain systems, facilities, and basic infrastructures for the following:

(g) Any other project within or without the boundaries of a district when a local government issued a development order pursuant to s. 380.06 ~~or s. 380.061~~ approving or expressly requiring the construction or funding of the project by the district, or when the project is the subject of an agreement between the district and a governmental entity and is consistent with the local government comprehensive plan of the local government within which the project is to be located.

Section 13. Paragraph (a) of subsection (1) of section 252.363, Florida Statutes, is amended to read:

252.363 Tolling and extension of permits and other authorizations.—

(1)(a) The declaration of a state of emergency by the Governor tolls the period remaining to exercise the rights under a permit or other authorization for the duration of the emergency declaration. Further, the emergency declaration extends the period remaining to exercise the rights under a permit or other authorization for 6 months in addition to the tolled period. This paragraph applies to the following:

1. The expiration of a development order issued by a local government.

2. The expiration of a building permit.

3. The expiration of a permit issued by the Department of Environmental Protection or a water management district pursuant to part IV of chapter 373.

4. The buildout date of a development of regional impact, including any extension of a buildout date that was previously granted as specified in s. 380.06(7)(c) ~~pursuant to s. 380.06(19)(c)~~.

Section 14. Subsection (4) of section 369.303, Florida Statutes, is amended to read:

369.303 Definitions.—As used in this part:

(4) "Development of regional impact" means a development that ~~which~~ is subject to ~~the review procedures established by~~ s. 380.06 ~~or s. 380.065, and s. 380.07~~.

Section 15. Subsection (1) of section 369.307, Florida Statutes, is amended to read:

369.307 Developments of regional impact in the Wekiva River Protection Area; land acquisition.—

(1) Notwithstanding s. 380.06(4) ~~the provisions of s. 380.06(15)~~, the counties shall consider and issue the development permits applicable to a proposed development of regional impact which is located partially or wholly within the Wekiva River Protection Area at the same time as the development order approving, approving with conditions, or denying a development of regional impact.

Section 16. Subsection (8) of section 373.236, Florida Statutes, is amended to read:

373.236 Duration of permits; compliance reports.—

(8) A water management district may issue a permit to an applicant, as set forth in s. 163.3245(13), for the same period

of time as the applicant's approved master development order if the master development order was issued under s. 380.06(9) ~~s. 380.06(21)~~ by a county which, at the time the order was issued, was designated as a rural area of opportunity under s. 288.0656, was not located in an area encompassed by a regional water supply plan as set forth in s. 373.709(1), and was not located within the basin management action plan of a first magnitude spring. In reviewing the permit application and determining the permit duration, the water management district shall apply s. 163.3245(4)(b).

Section 17. Subsection (13) of section 373.414, Florida Statutes, is amended to read:

373.414 Additional criteria for activities in surface waters and wetlands.—

(13) Any declaratory statement issued by the department under s. 403.914, 1984 Supplement to the Florida Statutes 1983, as amended, or pursuant to rules adopted thereunder, or by a water management district under s. 373.421, in response to a petition filed on or before June 1, 1994, shall continue to be valid for the duration of such declaratory statement. Any such petition pending on June 1, 1994, shall be exempt from the methodology ratified in s. 373.4211, but the rules of the department or the relevant water management district, as applicable, in effect prior to the effective date of s. 373.4211, shall apply. Until May 1, 1998, activities within the boundaries of an area subject to a petition pending on June 1, 1994, and prior to final agency action on such petition, shall be reviewed under the rules adopted pursuant to ss. 403.91-403.929, 1984 Supplement to the Florida Statutes 1983, as

amended, and this part, in existence prior to the effective date of the rules adopted under subsection (9), unless the applicant elects to have such activities reviewed under the rules adopted under this part, as amended in accordance with subsection (9). In the event that a jurisdictional declaratory statement pursuant to the vegetative index in effect prior to the effective date of chapter 84-79, Laws of Florida, has been obtained and is valid prior to the effective date of the rules adopted under subsection (9) or July 1, 1994, whichever is later, and the affected lands are part of a project for which a master development order has been issued pursuant to s. 380.06(9) ~~s. 380.06(21)~~, the declaratory statement shall remain valid for the duration of the buildout period of the project. Any jurisdictional determination validated by the department pursuant to rule 17-301.400(8), Florida Administrative Code, as it existed in rule 17-4.022, Florida Administrative Code, on April 1, 1985, shall remain in effect for a period of 5 years following the effective date of this act if proof of such validation is submitted to the department prior to January 1, 1995. In the event that a jurisdictional determination has been revalidated by the department pursuant to this subsection and the affected lands are part of a project for which a development order has been issued pursuant to s. 380.06(4) ~~s. 380.06(15)~~, a final development order to which s. 163.3167(5) applies has been issued, or a vested rights determination has been issued pursuant to s. 380.06(8) ~~s. 380.06(20)~~, the jurisdictional determination shall remain valid until the completion of the project, provided proof of such validation and documentation establishing that the project meets the requirements of this

sentence are submitted to the department prior to January 1, 1995. Activities proposed within the boundaries of a valid declaratory statement issued pursuant to a petition submitted to either the department or the relevant water management district on or before June 1, 1994, or a revalidated jurisdictional determination, prior to its expiration shall continue thereafter to be exempt from the methodology ratified in s. 373.4211 and to be reviewed under the rules adopted pursuant to ss. 403.91-403.929, 1984 Supplement to the Florida Statutes 1983, as amended, and this part, in existence prior to the effective date of the rules adopted under subsection (9), unless the applicant elects to have such activities reviewed under the rules adopted under this part, as amended in accordance with subsection (9).

Section 18. Subsection (5) of section 378.601, Florida Statutes, is amended to read:

378.601 Heavy minerals.—

(5) Any heavy mineral mining operation which annually mines less than 500 acres and whose proposed consumption of water is 3 million gallons per day or less may ~~shall~~ not be subject ~~required to undergo development of regional impact review pursuant~~ to s. 380.06, provided permits and plan approvals pursuant to either this section and part IV of chapter 373, or s. 378.901, are issued.

Section 19. Section 380.065, Florida Statutes, is repealed.

Section 20. Paragraph (a) of subsection (2) of section 380.11, Florida Statutes, is amended to read:

380.11 Enforcement; procedures; remedies.—

(2) ADMINISTRATIVE REMEDIES.—

(a) If the state land planning agency has reason to believe

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

a violation of this part or any rule, development order, or other order issued hereunder or of any agreement entered into under s. 380.032(3) ~~or s. 380.06(8)~~ has occurred or is about to occur, it may institute an administrative proceeding pursuant to this section to prevent, abate, or control the conditions or activity creating the violation.

Section 21. Paragraph (b) of subsection (2) of section 403.524, Florida Statutes, is amended to read:

403.524 Applicability; certification; exemptions.—

(2) Except as provided in subsection (1), construction of a transmission line may not be undertaken without first obtaining certification under this act, but this act does not apply to:

(b) Transmission lines that have been exempted by a binding letter of interpretation issued under s. 380.06(3) ~~s. 380.06(4)~~, or in which the Department of Economic Opportunity or its predecessor agency has determined the utility to have vested development rights within the meaning of s. 380.05(18) or s. 380.06(8) ~~s. 380.06(20)~~.

Section 22. (1) The rules adopted by the state land planning agency to ensure uniform review of developments of regional impact by the state land planning agency and regional planning agencies and codified in chapter 73C-40, Florida Administrative Code, are repealed.

(2) The rules adopted by the Administration Commission, as defined in s. 380.031, Florida Statutes, regarding whether two or more developments, represented by their owners or developers to be separate developments, shall be aggregated and treated as a single development under chapter 380, Florida Statutes, are repealed.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Section 23. The Division of Law Revision and Information is directed to replace the phrase "the effective date of this act" where it occurs in this act with the date this act takes effect.

Section 24. This act shall take effect upon becoming a law.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 1314 creates the Institute for Commercialization of Florida Technology (institute) to increase the availability of seed and early stage investment capital in Florida without requiring an ongoing state expenditure for such support.

The institute will replace the Institute for Commercialization of Public Research (ICPR). The institute will differ from the ICPR in several ways. Namely, the institute will:

- Be operated by a private fund manager who will be paid from fees based on the institute's investment activities, rather than a professional staff;
- No longer partner with publicly supported universities or research institutes to support their commercialization efforts; and
- Not be supported by or function under the Department of Economic Opportunity (department).

Like the ICPR, however, the institute will partner with innovation and target industry businesses to foster investment funding, especially in seed-stage, startup, and early stage companies; advise companies about successful management, operations, and development processes; and provide opportunities to attract further investment.

The bill has minimal impact on state expenditures.

The bill takes effect July 1, 2018.

II. Present Situation:

Venture Capital and Early Stage Business Investments

Venture capital is money provided by investors who choose to fund young companies that have the potential to develop into profitable businesses. Venture capital is an important source of equity for startup companies because its investment does not typically require security (such as a guarantee of repayment) from the business.[1]

Venture capital investments are typically made in lieu of traditional bank loans because the start-up or expansion-oriented companies they fund have a higher level of investment risk. The investor may eventually share in the risk of a failed business or the reward of a successful one. These investments are also characterized by a higher level of equity participation in the business by the investor, including mentorship or networking to assist the company with management and other obstacles.[2]

Investment in a technology or idea that has not yet been developed into a fully-fledged product or business is also known as "seed investing" or "early-stage investing."[3]

As of September 2017, one Florida website lists approximately 38 venture capital firms in the state.[4] Although the venture capital industry has grown in the last 20 years, it has done so only in limited geographic regions – generally limiting the investment of capital in businesses in or near those regions.[5]

Florida Capital Formation Act

In 2007, the Florida Capital Formation Act was enacted to address the need to increase the availability of seed capital and early stage venture capital for emerging Florida companies.[6] The act created the Florida Opportunity Fund and the Institute for the Commercialization of Public Research.

The intent of the act, in part, is to "mobilize private investment in a broad variety of venture capital partnerships in diversified industries and geographies" and "mobilize venture equity

capital for investment in such a manner as to result in a significant potential to create new businesses and jobs in this state."[7]

The Opportunity Fund was created to invest in seed and early stage venture capital funds (fund of funds), focusing on opportunities in Florida, and it can also make direct investments, including loans, in individual businesses and infrastructure projects. Enterprise Florida, Inc., facilitates the fund.

Further, the Legislature intended to create an institute "to mentor, market, and attract capital to such commercialization ventures throughout the state." The Institute for the Commercialization of Public Research (ICPR) assists in the commercialization of products developed by research and development activities of innovation businesses, publicly supported universities and colleges, research institutes, and other publicly supported organizations within Florida.[8]

Institute for the Commercialization of Public Research

The ICPR is a private-public partnership that operates as a nonprofit corporation. It administers company support services and seed capital funding programs to help early-stage businesses or ideas for businesses grow and thrive in Florida.[9] The ICPR operates with the support of mentors, advisors, and donors, and the Division of Strategic Business Development of the department provides support for and works closely with the ICPR.[10]

The ICPR has two primary locations, one at the University of Florida in Gainesville and the other at Florida Atlantic University in Boca Raton. A board of directors governs the ICPR and is responsible for managing the ICPR's funds, presenting the ICPR's annual report, and overseeing the ICPR's general affairs.[11] The board of directors is composed of the executive director of the department (or designee); the president of the university where the ICPR is located, or when the ICPR is located at multiple universities, the presidents' agreed upon designee; and three directors appointed by the Governor.[12]

The ICPR matches commercially viable technologies with management talent and capital. Additionally, the ICPR focuses on technologies and companies that originate from publicly supported organizations across the state and companies in Florida's innovation businesses and target industries.[13]

[12] Section 288.9625(4), F.S.
[13] Sections 288.0189 and 288.106(2)(q), F.S., sets forth the innovation businesses and target industries. Institute for the Commercialization of Public Research, *Annual Report Brochure FY 2016-2017* (Nov. 22, 2017), available at http://www.florida-institute.com/news/florida-institutes-2016-17-brochure (last visited Feb. 17, 2018).

Before the institute facilitates a company or organization's efforts to commercialize its products, it must be accepted by the institute through an application process. Publicly supported organizations may recommend that a company attempting to commercialize its research, technology, or patents be accepted by the institute. Upon acceptance by the institute, a company receives mentoring and other services, which includes developing marketing information on the company, using institute resources to attract capital investment into the company, and other resources that may encourage effective management, growth, capitalization technology protection, or marketing or business success.[14]

Current law prohibits the ICPR from charging for its services unless they are provided to a private company, as compared to a state university or its affiliated organizations.

Since 2007, the Legislature has appropriated an estimated total of $33 million in state funds to the ICPR for operating costs, grants, loans, and seed stage funds.[15] The ICPR did not receive any funding in Fiscal Year 2017-2018.

Florida Technology Seed Capital Fund[16]

The ICPR also administers the Florida Technology Seed Capital Fund as a corporate subsidiary. The fund was preceded by the Florida Research Commercialization Matching Grant Program, which expired in 2013, and the Seed Capital Accelerator Program (SCAP).[17]

The fund was established to "foster greater private-sector investment funding, to encourage seed-stage investments in start-up companies, and to advise companies about how to restructure existing management, operation, or production to attract advantageous business opportunities."[18] Proceeds from sale of equity or debt repayments are returned to the fund for reinvestment.

A company at the initial seed-stage investment is eligible to receive investment from the fund only after undergoing a peer-reviewed process undertaken by the fund's investor advisory board. The ICRP will invest in a company if:[19]

- The company's overall health and ability for growth is strong, including its intellectual property position, management capability, paths to market or commercialization, growth-potential, and ability to leverage additional funding;
- The company was identified by a publicly funded research institution;
- The company is a target industry business;
- The company was identified by a private-sector lead investor who has performed industry-standard due diligence; and
- The advisory board and fund manager reviewed and recommended the company's proposal.

[18] Section 288.26255(1), F.S.
[19] Section 288.96255(3)-(4), F.S.

Through the fund, the ICPR provides seed funding in amounts of $50,000 up to $300,000 to qualified companies, either as debt or equity. A cumulative investment of $500,000 is the maximum the ICPR will invest in a single company before it requires a 2:1, private sector match of the investment. The ICPR has invested in a total of 66 companies through this program.[20]

III. Effect of Proposed Changes:

Institute for Commercialization of Florida Technology

The bill creates the Institute for Commercialization of Florida Technology (institute) as a successor to the ICPR. The institute differs from the ICPR in several ways. Namely, the institute: (1) will be operated by a private fund manager rather than a professional staff; (2) will no longer partner with publicly supported universities or research institutes to support their commercialization efforts; and (3) will not be supported by or function under the department.

Section 3 amends s. 288.9622, F.S., to evince legislative intent to permit the use of a private asset manager familiar with the seed and early stage investment industry in Florida to reduce the operational costs of the Florida Technology Seed Capital Fund (Technology Fund) and the SCAP. It is the goal of the Legislature to operate these entities without requiring ongoing state expenditures.

Section 5 amends s. 288.9655, F.S., to replace the ICPR with the Institute for Commercialization of Florida Technology. The purpose of the institute is to assist in the commercialization of products developed by innovation businesses; advise the businesses about how to restructure existing management, operations, product development, or service development to attract further business opportunities; foster greater private sector investment funding; and encourage seed stage investments in startup and early stage companies.[21]

Creation of the Institute

Section 1 amends s. 20.60, F.S. to remove management of the ICPR and promotion of the commercialization of products, services, or ideas developed in public universities or institutions from the department's duties and purposes. The bill specifies that the institute is not a direct-support organization of the department.

Section 5 amends s. 288.9625(1), F.S., to provide that the institute is not subject to the control, supervision, or direction by the department in any manner. The section also amends s. 288.9625(3), F.S., to remove the requirement that the institute's articles of incorporation be approved by the department.

Board of Directors

Section 5 reorganizes the Board of Directors to consist of three members instead of five and provides for currently appointed directors of the ICPR to finish out their terms. Going forward,

[20] Institute for Commercialization of Public Research, *For Entrepreneurs: Company Funding*, available at http://www.florida-institute.com/programs/company-funding (last visited Feb. 5, 2018).
[21] See lines 206-213 and 415-424 of the bill.

to replace a vacant board position the private fund manager will submit three recommendations to the board for consideration. The board and the private fund manager each have a vote to select a new board member from the recommended list or "from a new list of three nominees that were not included on the previous list." It is unclear who nominates the new list.

The board's duties include oversight of the private fund manager's activities; performance of duties as outlined by the institute's bylaws; and provision of an annual report of the institute's activities to the Governor, President of the Senate, and Speaker of the House.

The directors must have expertise in selecting and supervising early stage investment managers or in fiduciary management of investment funds and other pertinent areas of expertise.

The directors may not receive compensation for their service but may be reimbursed for expenses as approved by the private fund manager pursuant to s. 112.061, F.S. Additionally, the directors may not have a financial interest in any investment in any of the institute's portfolio companies and are subject to any restriction on conflicts of interest as specified in the institute's organizational documents. The institute must indemnify its directors and the private fund manager to the broadest extent possible.

Private Fund Manager

The bill states that the "purpose of the institute's use of a private fund manager is to alleviate the state's burden of the continued and future operational and management costs related to the [Technology Fund] and [SCAP] program."

Eligibility

Section 5 provides that the private fund manager (fund manager) must be a for-profit limited liability company or a for-profit corporation that was formed and is governed and operated in accordance with ch. 605 or 607, F.S. Additionally, the fund manager may not be a public corporation or instrumentality of the state; is not a state agency; cannot claim sovereign immunity; is not subject to ch. 287, F.S., regarding procurement of goods and services; and is not governed by code of ethics provisions in part III of ch. 112, F.S.

The fund manager must be experienced in the field and must specifically have:

- Expertise and experience in the management and operation of early stage companies in Florida;
- Experience with early stage business ventures investments in Florida;
- Working knowledge and understanding of the institute's investment portfolio and relevant industries of those companies; and
- Individuals in its employ who have knowledge of the institute's investment portfolio and its companies, as well as financial, technical, and business expertise to manage the Technology Fund activity.

Duties

Section 5 provides for the fund manager's duties as they relate to the institute; **section 6** provides for the duties as they relate to the Technology Fund. They are substantially the same duties.

The fund manager is required to manage the investment-related affairs of the institute, including management of the assets of the institute's Technology Fund and SCAP investment portfolios; and conduct activities on the institute's behalf in accordance with law.

The fund manager must also issue an annual report to the Board of Directors by November 1 each year. The annual report is a public record, and must include:
- Information on any assistance provided to an innovation business;
- Description of the benefits that accrue to the state as a result of the institute's activity; and
- Independently audited financial statements, including information related to the receipt and calculation of the net profits of the investment portfolio.

The fund manager is authorized to:
- Negotiate terms of investment, sale, and liquidation with portfolio and nonportfolio companies;
- Execute contracts and contract amendments with portfolio and nonportfolio companies;
- Seek new qualified companies to participate in the Technology Fund;
- Receive and remit investment capital from the sale or liquidation of any part of the institute's investment portfolio, loan proceeds, or other investment returns;
- Mentor, assist with the development of marketing information or business plans, and assist with attracting capital investment and other resources to a portfolio company in order to foster its growth, marketing, or business success;
- Market the Technology Fund and accelerator program to potential investors;
- Facilitate meetings between prospective investors and the institute's portfolio companies; and
- Collaborate with publicly supported organizations that may be able to provide further resources or special knowledge to the institute's portfolio companies.

The fund manager is paid reasonable fees consistent with the standard practices of the fund management industry, consisting of:
- An operational management fee, including reimbursement of expenses that is paid from the proceeds of loans repaid to the SCAP or other capital, proceeds, and returns available in the Technology Fund;
- A portfolio fee paid from proceeds of each sale or asset liquidation from the institute's investment portfolio; and
- A closing fee paid from the investment amount paid by the Technology Fund to a company at the closing of each investment.

Florida Technology Seed Capital Fund

Section 5 outlines the institute's mission, which is to develop partnerships with, in particular, "innovation businesses" as defined in s. 288.1089, F.S., relating to the Innovation Incentive Program.

Section 6 provides that the institute must also strive to invest in target industry businesses, as defined in s. 288.106(2)(q), F.S., which represent diverse and stable markets.

Section 6 amends s. 288.96255, F.S., the Technology Fund, to revise the authorized investments and requirements for investment. The institute may select a company or organization for partnership with the institute or for funding from the Technology Fund only after the fund manager, using processes modeled on the investment industry's standard practices, has evaluated whether the company meets the statutory requirements, which are similar to current law. The fund manager must complete due diligence before approving a company for investment.

The bill repeals statutory limitations on investments from the fund – specifically the current limitation of initial investments of $50,000-$300,000, a cumulative maximum of $500,000, and a required 2:1 match for additional investment.

Net profits from proceeds of sale or liquidation of assets or portions of assets of the investment portfolio will be returned to the Technology Fund for reinvestment, after payment of applicable costs, professional fees, expenses, fees paid to the private fund manager, and disbursement to private investors.

Fees paid to the private fund manager include are for performing due diligence and an investment closing fee, in addition to reasonable attorney fees, the operational management fee, the portfolio fee, the closing fee, and other costs in connection with making the investment.

The institute or the private fund manager can disburse payments to private investors if the institute or the private fund manager decides to transfer any portion of the Technology Fund into a private fund or special purpose vehicle. Such private fund or special purpose vehicle can receive additional private investment. The disbursement from such private fund or special purpose vehicle back to the Technology Fund or private investors is the respective pro rata portion of any net profits from the sale or liquidation of assets in the private fund or special purpose vehicle.

Public Records and Meetings Exemption

Section 7 amends s. 288.9627, F.S., to transfer the public records and meetings exemption that previously applied to the ICPR to the institute.

This section makes the following materials held by the institute exempt from disclosure pursuant to s. 119.07(1), F.S., and s. 24(a), Art. I of the Florida Constitution:

- Documents and materials that related to a business' methods of manufacture or production, potential trade secrets, or patentable material that is provided to the institute by a proprietor;
- Information that would identify an anonymous investor or potential investor;
- Information received from another person, state, nation, or the federal government, which is confidential or exempt pursuant to the originator's laws; and
- Proprietary confidential business information.

Additionally, the bill exempts from Florida's public meetings laws those portions of the institute's meetings wherein information that is confidential and exempt according to Florida law is discussed.

Miscellaneous

Section 2 makes conforming changes to s. 288.9621, F.S., the short title for the Florida Capital Formation Act.

Section 4 provides definitions for terms used in the Florida Capital Formation Act.

Section 8 provides an effective date of July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

The bill transfers the current public records and meetings exemptions for the ICPR to the institute. The bill also expands the scope and authority of the institute to make investments in seed and early stage businesses. It is unclear if the amendments made by the bill to ss. 288.9625 and 288.96255, F.S., would be an expansion of the current public records and meetings exemptions.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Depending on the financial performance of the Technology Fund and the institute, there may be a reduction in the funds available for investment in private businesses that seek investment capital.

C. Government Sector Impact:

The ICPR did not receive an appropriation in Fiscal Year 2017-2018. The bill attempts to reduce future appropriations to the successor institute for its investment, management, and related expenses, by permitting the institute to fund itself through its activities. According to the most recent independent audit of the ICPR completed in Fiscal Year 2016 filed with the Florida Auditor General, the total program expenses were

$3,732,937.[22] The fund manager will require expenditures pursuant to statute, but these will be made from profits of the institute, rather than state appropriation.

University and other publicly funded research institutes may see a reduction in funds available for the commercialization of their technologies because of the privatization of the institute.

The Department of Economic Opportunity may experience minimal cost savings by eliminating the contracting and related oversight responsibilities of the department over the institute.

VI. Technical Deficiencies:

It is unclear whether the duties outlined in s. 288.9625(5), F.S., apply to the Board of Directors or the fund manager.

VII. Related Issues:

The bill refers to the SCAP or "Accelerator Program." The Accelerator Program expired in 2013, and therefore does not require any ongoing operational funding. The Accelerator Program, however, does have outstanding loans that will not be due until December 2019, and therefore may require actions by the fund manager for purposes of collection and reinvestment of the funds.[23]

The bill provides that the institute must create the Fund; the Legislature could directly create the Fund.

The bill requires that a company or organization be "based in" Florida to receive assistance from the institute. This term may need to be defined to provide clarity in interpretation.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 20.60, 288.9621, 288.9622, 288.9623, 288.9625, 288.96255, and 288.9627.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Transportation, Tourism, and Economic Development on February 21, 2018:
The committee substitute:

- Restores a portion of current law legislative intent related to the Florida Opportunity Fund;
- Adds a provision that the Institute for Commercialization of Florida Technology is not subject to the control, supervision, or direction of the DEO; and
- Corrects a grammar issue.

CS by Commerce and Tourism on February 6, 2018:
The CS clarifies the terms for directors appointed before July 1, 2018, and the succession of any director appointed thereafter.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Transportation, Tourism, and Economic Development)

A bill to be entitled

An act relating to the Florida Capital Formation Act; amending s. 20.60, F.S.; deleting the requirement that the Department of Economic Opportunity manage certain activities related to the commercialization of specified products, services, and ideas; specifying that the Institute for Commercialization of Florida Technology is not an appropriate direct-support organization; amending s. 288.9621, F.S.; including s. 288.96255, F.S., in the Florida Capital Formation Act; amending s. 288.9622, F.S.; revising legislative intent; amending s. 288.9623, F.S.; defining terms; amending s. 288.9625, F.S.; redesignating the Institute for the Commercialization of Public Research as the Institute for Commercialization of Florida Technology; specifying that the institute is not subject to control, supervision, or direction by the department; deleting provisions regarding the institute's responsibilities; requiring that the investment-related affairs of the institute be managed by the private fund manager and overseen by the board of directors; restructuring the board of directors and the selection process for the board of directors; specifying term limits of the board members under certain circumstances; requiring the board of directors to amend the bylaws of the institute under

188068

576-03516-18

certain circumstances; providing that a director is subject to restrictions on certain conflicts of interest; prohibiting a director from having a financial interest in certain investments; authorizing a director to be reimbursed for certain expenses; granting the institute certain powers; requiring the institute to indemnify certain persons; delegating certain duties to the board of directors; revising to whom the board must provide a copy of the annual report and who may require and receive supplemental data relative to the institute's operation; specifying that certain requirements be met before the private fund manager is authorized to make an investment in a company, on behalf of the institute; deleting provisions relating to certain duties of the institute; deleting provisions relating to certain fees charged by the institute and the prohibition on using capital in support of certain entities; specifying that the annual report is considered a public record subject to certain exemptions; revising the requirements of the institute's annual report; listing requirements and prohibitions for the private fund manager; stating the purpose of the institute's use of the private fund manager; requiring the private fund manager to assume the management of certain assets; authorizing the private fund manager to act on behalf of the institute for certain purposes; requiring that the private fund manager be paid certain fees; authorizing the private fund manager to

undertake certain activities on behalf of the institute; requiring the private fund manager to issue an annual report to the board of directors by a specific date; specifying that the annual report is considered a public record subject to certain exemptions; requiring that the report contain certain information; amending s. 288.96255, F.S.; requiring that certain proceeds be returned to the Florida Technology Seed Capital Fund after the payment of certain costs and fees; requiring the institute to employ a private fund manager; requiring the private fund manager to perform specific duties; requiring that the private fund manager receive certain fees and costs at a specified time; requiring the private fund manager to use a certain process to evaluate a proposal; requiring the private fund manager to consider certain factors when approving a company for investment; deleting specific requirements for the investment of funds; authorizing the private fund manager, in addition to the institute, to perform certain tasks; amending s. 288.9627, F.S.; conforming provisions to changes made by this act; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (e) of subsection (4) and paragraph (b) of subsection (9) of section 20.60, Florida Statutes, are amended to read:

20.60 Department of Economic Opportunity; creation; powers and duties.—

(4) The purpose of the department is to assist the Governor in working with the Legislature, state agencies, business leaders, and economic development professionals to formulate and implement coherent and consistent policies and strategies designed to promote economic opportunities for all Floridians. To accomplish such purposes, the department shall:

(e) Manage the activities of public-private partnerships and state agencies in order to avoid duplication and promote coordinated and consistent implementation of programs in areas including, but not limited to, tourism; international trade and investment; business recruitment, creation, retention, and expansion; minority and small business development; rural community development; ~~commercialization of products, services, or ideas developed in public universities or other public institutions;~~ and the development and promotion of professional and amateur sporting events.

(9) The executive director shall:

(b) Serve as the manager for the state with respect to contracts with Enterprise Florida, Inc., ~~the Institute for the Commercialization of Public Research,~~ and all applicable direct-support organizations. To accomplish the provisions of this section and applicable provisions of chapter 288, and notwithstanding the provisions of part I of chapter 287, the director shall enter into specific contracts with Enterprise Florida, Inc., ~~the Institute for the Commercialization of Public Research,~~ and other appropriate direct-support organizations. Such contracts may be for multiyear terms and must ~~shall~~ include

specific performance measures for each year. For purposes of this section, the Florida Tourism Industry Marketing Corporation and the Institute for Commercialization of Florida Technology are not ~~is not an~~ appropriate direct-support organizations ~~organization~~.

Section 2. Section 288.9621, Florida Statutes, is amended to read:

288.9621 Short title.—Sections 288.9621-288.96255 ~~Sections 288.9621-288.9625~~ may be cited as the "Florida Capital Formation Act."

Section 3. Section 288.9622, Florida Statutes, is amended to read:

288.9622 Findings and intent.—

(1) The Legislature finds and declares that there is a need to increase the availability of seed capital and early stage investment ~~venture equity~~ capital for emerging companies in the state, including, without limitation, businesses ~~enterprises~~ in life sciences, information technology, advanced manufacturing processes, aviation and aerospace, and homeland security and defense, as well as other industries of strategic importance to this state ~~strategic technologies~~.

(2) It is the intent of the Legislature that ss. 288.9621-288.96255 ~~ss. 288.9621-288.9625~~ serve to mobilize private investment in a broad variety of ~~venture capital~~ partnerships in diversified industries and geographies; retain private sector investment criteria focused on rate of return; allow the Institute for Commercialization of Florida Technology to use ~~the services of~~ highly qualified private fund managers experienced in the seed and early stage development industry in this state;

outline the use, qualifications, and activities of the private management by a private fund manager of the assets of the Seed Capital Accelerator Program and the Florida Technology Seed Capital Fund investment portfolio of the Institute for Commercialization of Florida Technology ~~venture capital industry regardless of location~~; facilitate the organization of the Florida Opportunity Fund as an investor in seed and early stage businesses, infrastructure projects, venture capital funds, and angel funds; and precipitate capital investment and extensions of credit to and in the Florida Opportunity Fund.

(3) It is the intent of the Legislature to mobilize investment ~~venture equity~~ capital ~~for investment~~ in such a manner as to result in a significant potential to create new businesses and jobs in this state which ~~that~~ are based on high growth potential technologies, products, or services and which ~~that~~ will further diversify the economy of this state.

(4) It is the intent of the Legislature to reduce the ongoing operational cost and burden of managing the Florida Technology Seed Capital Fund and the Seed Capital Accelerator Program to this state by engaging a private asset management entity in this state which is familiar with the seed and early stage investment industry in this state. This entity would be responsible for the management of the assets of the Seed Capital Accelerator Program and the Florida Technology Seed Capital Fund investment portfolio without requiring ongoing budget expenditures by this state ~~that an institute be created to mentor, market, and attract capital to such commercialization ventures throughout the state~~.

Section 4. Section 288.9623, Florida Statutes, is amended

to read:

288.9623 Definitions.—As used in ss. 288.9621-288.96255, the term ~~ss. 288.9621-288.9625~~:

(1) "Accelerator program" means the Seed Capital Accelerator Program managed by the institute.

(2)~~(1)~~ "Board" means the board of directors of the Florida Opportunity Fund.

(3)~~(2)~~ "Fund" means the Florida Opportunity Fund.

(4) "Institute" means the Institute for Commercialization of Florida Technology.

(5) "Investment portfolio" means individual or collective investment assets held under the technology fund.

(6) "Net profits" means the total gross proceeds received from the sale or liquidation of an asset of the investment portfolio less any costs, legal fees, professional fees, consulting fees, government fees, brokerage fees, taxes, management fees pursuant to s. 288.9625(12)(b), disbursement to private investors pursuant to s. 288.96255(6), or other fees, costs, and expenses incurred in the sale or liquidation of any of the investment portfolio assets.

(7) "Portfolio companies" means the companies who are part of the Florida Technology Seed Capital Fund investment portfolio.

(8) "Private fund manager" means the private entity, or its designee, selected to manage the investment portfolio on behalf of the institute.

(9) "Technology fund" means the Florida Technology Seed Capital Fund managed by the institute.

Section 5. Section 288.9625, Florida Statutes, is amended

to read:

288.9625 Institute for ~~the~~ Commercialization of Florida Technology ~~Public Research~~. ~~There is established at a public university or research center in this state the Institute for the Commercialization of Public Research~~.

(1) The institute is ~~shall be~~ a nonprofit ~~not-for-profit~~ corporation registered, incorporated, and operated in accordance with chapter 617. The institute is not subject to control, supervision, or direction by the department in any manner, including, but not limited to, personnel, purchasing, transactions involving real or personal property, and budgetary matters.

(2) The purpose of the institute is to assist in the commercialization of products developed by the research and development activities of an innovation business, including, but not limited to, those ~~as~~ defined in s. 288.1089~~; a publicly supported college, university, or research institute; or any other publicly supported organization in this state~~. The institute shall fulfill its purpose in the best interests of the state. The institute:

(a) Is a corporation primarily acting as an instrumentality of the state pursuant to s. 768.28(2), for the purposes of sovereign immunity;

(b) Is not an agency within the meaning of s. 20.03(11);

(c) Is subject to the open records and meetings requirements of s. 24, Art. I of the State Constitution, chapter 119, and s. 286.011;

(d) Is not subject to ~~the provisions of~~ chapter 287;

(e) Is ~~Shall be~~ governed by the code of ethics for public

officers and employees as set forth in part III of chapter 112; and

(f) May create corporate subsidiaries. ~~;~~

~~(g) Shall support existing commercialization efforts at state universities; and~~

~~(h) May not supplant, replace, or direct existing technology transfer operations or other commercialization programs, including incubators and accelerators.~~

(3) The articles of incorporation of the institute must ~~be approved in a written agreement with the department. The agreement and the articles of incorporation shall~~:

(a) Provide that the institute shall provide equal employment opportunities for all persons regardless of race, color, religion, gender, national origin, age, handicap, or marital status;

(b) Provide that the institute is subject to the public records and meeting requirements of s. 24, Art. I of the State Constitution;

(c) Provide that all officers, directors, and employees of the institute are ~~shall be~~ governed by the code of ethics for public officers and employees as set forth in part III of chapter 112;

(d) Provide that members of the board of directors of the institute are responsible for the prudent use of all public and private funds and that they will ensure that the use of funds is in accordance with all applicable laws, bylaws, and contractual requirements; and

(e) Provide that the fiscal year of the institute is from July 1 to June 30.

(4) The investment-related affairs of the institute shall be managed by the private fund manager, and overseen by a board of directors who shall serve without compensation. Each director shall have only one vote. The chair of the board of directors shall be selected by a majority vote of the directors, a quorum being present. ~~The board of directors shall consist of the following five members:~~

~~(a) The executive director of the department, or the director's designee.~~

~~(b) The president of the university where the institute is located or the president's designee unless multiple universities jointly sponsor the institute, in which case the presidents of the sponsoring universities shall agree upon a designee.~~

(a) ~~(c)~~ The board of directors shall consist of three directors appointed pursuant to the procedures and requirements of this section ~~by the Governor~~ to 3-year staggered terms, to which the directors may be reappointed.

(b) For any director appointed before July 1, 2018, the term of service for that director may continue through the end of his or her current term. The vacancy created by the expiration of such term must be filled pursuant to the procedures and requirements of this section.

(c) The bylaws of the institute shall be amended accordingly by the board of directors to reflect the requirements of this section.

(d) Upon vacancy, or within 90 days before an anticipated vacancy by the expiration of a term of a director, the private fund manager shall submit a list of three eligible nominees, which may include the incumbent director, to replace the

outgoing director. The board of directors, voting along with the private fund manager, may appoint a director from the nominee list or may request and appoint a director from a new list of three nominees that were not included on the previous list.

(e) The persons appointed as replacement directors must include persons who have expertise in the area of the selection and supervision of early stage investment managers or in the fiduciary management of investment funds and other areas of expertise as considered appropriate.

(f) Directors are subject to any restrictions on conflicts of interest specified in the organizational documents and may not have a financial interest in any venture capital investment in any portfolio company.

(g) Directors may be reimbursed for all reasonable, necessary, and actual expenses as determined and approved by the private fund manager pursuant to s. 112.061.

(h) The institute shall have all powers granted under its organizational documents and shall indemnify its directors and the private fund manager to the broadest extent permissible under the laws of this state.

(5) The board of directors shall oversee the private fund manager to ensure consistency with the Florida Capital Formation Act, perform those duties as may be delegated to it in the bylaws of the institute, and provide a copy of the institute's annual report to the Governor, the President of the Senate, and the Speaker of the House of Representatives~~, and the president of the university at which the institute is located~~.

(6) The ~~department, the president and the board of trustees of the university where the institute is located, the~~ Auditor

General~~,~~ and the Office of Program Policy Analysis and Government Accountability may require and receive from the institute or its independent auditor any detail or supplemental data relative to the operation of the institute.

(7) To the extent funds for investment are available in the technology fund, the private fund manager, on behalf of the institute, may make an investment in a company or organization if all of the following requirements are met:

(a) Before providing assistance, the institute accepted ~~To be eligible for assistance,~~ the company or organization attempting to commercialize its product based on the guidelines under s. 288.96255(4) ~~must be accepted by the institute before receiving the institute's assistance~~.

(b) The company or organization is based in this state ~~institute shall receive recommendations from any publicly supported organization that a company that is commercializing the research, technology, or patents from a qualifying publicly supported organization should be accepted into the institute~~.

~~(c) The institute shall thereafter review the business plans and technology information of each such recommended company. If accepted, the institute shall mentor the company, develop marketing information on the company, and use its resources to attract capital investment into the company, as well as bring other resources to the company which may foster its effective management, growth, capitalization, technology protection, or marketing or business success.~~

~~(8) The institute shall:~~

~~(a) Maintain a centralized location to showcase companies and their technologies and products;~~

~~(b) Develop an efficient process to inventory and publicize companies and products that have been accepted by the institute for commercialization;~~

~~(c) Routinely communicate with private investors and venture capital organizations regarding the investment opportunities in its showcased companies;~~

~~(d) Facilitate meetings between prospective investors and eligible organizations in the institute;~~

~~(c) Hire full-time staff who understand relevant technologies needed to market companies to the angel investors and venture capital investment community; and~~

~~(f) Develop cooperative relationships with publicly supported organizations all of which work together to provide resources or special knowledge that is likely to be helpful to institute companies.~~

(8)~~(9)~~ Except as provided under s. 288.96255, the institute may not develop or accrue any ownership, royalty, patent, or other such rights over or interest in companies or products in the institute except in connection with financing provided directly to client companies and shall maintain the confidentiality of proprietary information.

~~(10) The institute may not charge for services provided to state universities and affiliated organizations, community colleges, or state agencies; however, the institute may deliver and charge for services to private companies and affiliated organizations if providing a service does not interfere with the core mission of the institute. The institute may not use its capital in support of private companies or affiliated organizations whose products were not developed by research and~~

~~development activities of a publicly supported college, university, or research institute, or any other organization.~~

(9)~~(11)~~ By December 1 of each year, the institute shall issue an annual report concerning its activities to the Governor, the President of the Senate, and the Speaker of the House of Representatives. The annual report shall be considered a public record, as provided in paragraph (3)(b), subject to any appropriate exemptions under s. 288.9627. The annual report must ~~shall~~ include the following:

(a) Information on any assistance provided by the institute to an innovation business, as defined in s. 288.1089~~; a publicly supported college, university, or research institute; or any other publicly supported organization in the state~~.

(b) A description of the benefits to this state resulting from the institute, including the number of businesses created, associated industries started, the number of jobs created, and the growth of related projects.

(c) Independently audited financial statements, including statements that show receipts and expenditures during the preceding fiscal year for personnel, management fees, administration, and operational costs of the institute.

(10) The private fund manager:

(a) Must be a for-profit limited liability company or a for-profit corporation formed, governed, and operated in accordance with chapter 605 or chapter 607, respectively.

(b) Shall conduct activities on behalf of the institute which are consistent with the purposes set forth in this section.

(c) Must have expertise and experience in the management

and operation of early stage companies in this state.

(d) Must have experience with investment in early stage ventures in this state and have a working knowledge and understanding of the investment portfolio and the relevant industries of the portfolio companies in this state.

(e) Shall employ personnel and professionals who have knowledge of the investment portfolio and portfolio companies of the institute, as well as financial, technical, and business expertise to manage the technology fund activity.

(f) May not be a public corporation or instrumentality of the state.

(g) Is not a corporation primarily acting as an instrumentality of the state pursuant to s. 768.28(2), for the purposes of sovereign immunity.

(h) Is not an agency within the meaning of s. 20.03(11).

(i) Is not subject to chapter 287.

(j) May not be governed by the code of ethics for public officers and employees as set forth in part III of chapter 112.

(11) The purpose of the institute's use of a private fund manager is to alleviate the state's burden of the continued and future operational and management costs related to the technology fund and accelerator program, while allowing the institute, through the activities of the private fund manager, to continue to foster greater private-sector investment funding, to encourage seed-stage investments in startup and early stage companies, and to advise companies about how to restructure existing management, operations, product development, or service development to attract advantageous business opportunities.

(12) The private fund manager shall assume the management

of the assets of the accelerator program and the technology fund investment portfolios associated with the institute.

(a) The private fund manager has the authority on behalf of the institute to:

1. Negotiate investment, sale, and liquidation terms with portfolio and nonportfolio companies;

2. Develop and execute contracts, or amendments thereto, with portfolio and nonportfolio companies;

3. Seek new qualified companies for the investment of funds from the technology fund;

4. Receive, on behalf of the institute, investment capital from the sale or liquidation of any portion of the investment portfolio, loan proceeds, or other investment returns, and remit such capital, proceeds, and returns to the technology fund pursuant to s. 288.96255, except as otherwise provided in this section and s. 288.96255; and

5. Perform additional duties set forth in s. 288.96255.

(b) The private fund manager shall be paid reasonable fees consistent with industry fund management practices and consisting of:

1. An operational management fee, including the reimbursement of expenses, paid from the proceeds of the repayment of loans from the accelerator program or other capital, proceeds, and returns available in the technology fund;

2. A portfolio fee paid from the proceeds of each sale or liquidation of assets or portions of the assets of the investment portfolio; and

3. A closing fee paid from the investment amount paid by the technology fund to a company at the closing of each

investment.

(13) The private fund manager may undertake the following activities on behalf of the institute:

(a) Mentor, assist with the development of marketing information, and assist with attracting capital investment, as well as bring other resources to the company which may foster its effective management, growth, capitalization, technology protection, or marketing or business success;

(b) Communicate with private investors and venture capital organizations regarding investment opportunities in the portfolio companies of the technology fund and accelerator program;

(c) Facilitate meetings between prospective investors and the companies; and

(d) Develop cooperative relationships with publicly supported organizations that work together to provide resources or special knowledge likely to be helpful to portfolio companies.

(14) By November 1 of each year, the private fund manager shall issue an annual report to the board of directors of the institute concerning the activities the private fund manager conducted which relate to existing accelerator program and technology fund investments in order for the board to be in compliance with its report obligations under subsection (9). The annual report provided by the private fund manager shall be considered a public record, as provided in paragraph (3)(b), subject to any appropriate exemptions under s. 288.9627. The annual report, at a minimum, must include:

(a) A description of the benefits to this state resulting

from the assets of the accelerator program and technology fund, including the number of jobs created, the amount of capital the companies raised, and other benefits relating to increased research expenditures and company growth.

(b) Independently audited financial statements related to the receipt and calculation of the net profits of the investment portfolio.

Section 6. Subsection (1) and subsections (3) through (7) of section 288.96255, Florida Statutes, are amended to read:

288.96255 Florida Technology Seed Capital Fund; creation; duties.—

(1) The Institute for ~~the~~ Commercialization of Florida Technology ~~Public Research~~ shall create the Florida Technology Seed Capital Fund as a corporate subsidiary. The purpose of the technology fund is to foster greater private-sector investment funding, to encourage seed-stage investments in start-up companies, and to advise companies about how to restructure existing management, operation, or production to attract advantageous business opportunities. The net profits of the proceeds of each sale or liquidation of assets or portions of the assets of the investment portfolio must ~~a sale of the equity held by the fund shall~~ be returned to the technology fund for reinvestment after payment of the applicable costs, professional fees, expenses, fees pursuant to s. 288.9625(12)(b), and disbursement to private investors pursuant to paragraph (6)(e).

(3) The institute shall employ a private fund manager pursuant to s. 288.9625 ~~professionals who have both technical and business expertise~~ to manage the investment portfolio and technology fund activity. The private fund manager ~~institute~~

~~shall establish an investor advisory board comprised of venture capital professionals and early-stage investors from this and other states who~~ shall advise the institute and guide the ~~fund~~ management of the technology fund and make funding recommendations, provided that capital for investment is available in the technology fund. The private fund manager shall receive reasonable fees consistent with industry practices for performing due diligence and an investment closing fee paid out of the technology fund at the closing of each investment in addition to reasonable attorney fees, other fees prescribed in s. 288.9625(12)(b), and other costs in connection with making an investment. ~~Administrative costs paid out of the fund shall be determined by the investor advisory board.~~

(4) The private fund manager ~~institute~~ shall use a thorough and detailed process that is modeled after investment industry practices ~~the best practices of the investment industry~~ to evaluate a proposal. In order to approve a company for investment, the private fund manager, on behalf of the institute, must consider if:

(a) The company has a strong intellectual property position, a capable management team, readily identifiable paths to market or commercialization, significant job-growth potential, the ability to provide other sources of capital to leverage the state's investment, and the potential to attract additional funding;

(b) The private fund manager has had an opportunity to complete due diligence to its satisfaction ~~company has been identified by a publicly funded research institution~~;

(c) The ~~start-up~~ company is a target industry business as

defined in s. 288.106(2); and

(d) ~~The company has been identified by~~ An approved private-sector lead investor who has demonstrated due diligence typical of start-up investments in evaluating the potential of the company has identified the company.~~; and~~

~~(c) The advisory board and fund manager have reviewed the company's proposal and recommended it.~~

(5) ~~(a) Seed~~ Funds from the technology fund may be invested if the institute approves a company and the initial seed-stage investment. ~~The initial seed-stage investment must be at least $50,000, but no more than $300,000. The initial seed-stage investment requires a one-to-one, private-sector match of investment.~~

~~(b) Additional seed funds may be invested in a company if approved by the institute. The cumulative total of investment in a single company may not exceed $500,000. Any additional investment amount requires a two-to-one, private-sector match of investment.~~

(6) The institute or private fund manager may:

(a) Provide a company with value-added support services in the areas of business plan development and strategy, the preparation of investor presentations, and other critical areas identified by the private fund manager ~~institute~~ to increase its chances for long-term viability and success;

(b) Encourage appropriate investment funds to become preapproved to match investment funds;

(c) Market the attractiveness of the state as an early-stage investment location; ~~and~~

(d) Collaborate with state economic-development

organizations, national associations of seed and angel funds, and other innovation-based associations to create an enhanced state entrepreneurial ecosystem; and~~.~~

(e) Transfer any portion of the assets of the investment portfolio, on behalf of the institute, into a private fund or special purpose vehicle, receive additional private investment in the private fund or special purpose vehicle, manage the private fund or special purpose vehicle, and distribute to the technology fund and the private investors the respective pro rata portion of any net profits from the sale or liquidation of the assets of such private fund or special purpose vehicle.

~~(7) The institute shall annually evaluate the activities and results of the funding, taking into consideration that seed investment horizons span from 3 to 7 years.~~

Section 7. Section 288.9627, Florida Statutes, is amended to read:

288.9627 Exemptions from public records and public meetings requirements for the Institute for ~~the~~ Commercialization of Florida Technology ~~Public Research~~.—

(1) DEFINITIONS.—As used in this section, the term:

(a) "Institute for ~~the~~ Commercialization of Florida Technology ~~Public Research~~" or "institute" means the institute established by s. 288.9625.

(b)1. "Proprietary confidential business information" means information that has been designated by the proprietor when provided to the institute as information that is owned or controlled by a proprietor; that is intended to be and is treated by the proprietor as private, the disclosure of which would harm the business operations of the proprietor and has not

188068

576-03516-18

been intentionally disclosed by the proprietor unless pursuant to a private agreement that provides that the information will not be released to the public except as required by law or legal process, or pursuant to law or an order of a court or administrative body; and that concerns:

a. Trade secrets as defined in s. 688.002.

b. Financial statements and internal or external auditor reports of a proprietor corporation, partnership, or person requesting confidentiality under this statute, unless publicly released by the proprietor.

c. Meeting materials related to financial, operating, investment, or marketing information of the proprietor corporation, partnership, or person.

d. Information concerning private investors in the proprietor corporation, partnership, or person.

2. "Proprietary confidential business information" does not include:

a. The identity and primary address of the proprietor's principals.

b. The dollar amount and date of the financial commitment or contribution made by the institute.

c. The dollar amount, on a fiscal-year-end basis, of cash repayments or other fungible distributions received by the institute from each proprietor.

d. The dollar amount, if any, of the total management fees and costs paid on an annual fiscal-year-end basis by the institute.

(c) "Proprietor" means a corporation, partnership, or person that has applied for or received assistance, financial or

otherwise, from the institute and that controls or owns the proprietary confidential business information.

(2) PUBLIC RECORDS EXEMPTION.—

(a) The following records held by the institute are confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution:

1. Materials that relate to methods of manufacture or production, potential trade secrets, or patentable material received, generated, ascertained, or discovered during the course of research or through research projects conducted by universities and other publicly supported organizations in this state and that are provided to the institute by a proprietor.

2. Information that would identify an investor or potential investor who desires to remain anonymous in projects reviewed by the institute for assistance.

3. Any information received from a person from another state or nation or the Federal Government which is otherwise confidential or exempt pursuant to the laws of that state or nation or pursuant to federal law.

4. Proprietary confidential business information for 7 years after the termination of the institute's financial commitment to the company.

(b) At the time any record made confidential and exempt by this subsection, or portion thereof, is legally available or subject to public disclosure for any other reason, that record, or portion thereof, shall no longer be confidential and exempt and shall be made available for inspection and copying.

(3) PUBLIC MEETINGS EXEMPTION.—

(a) That portion of a meeting of the institute's board of

directors at which information is discussed which is confidential and exempt under subsection (2) is exempt from s. 286.011 and s. 24(b), Art. I of the State Constitution.

(b) Any exempt portion of a meeting shall be recorded and transcribed. The board of directors shall record the times of commencement and termination of the meeting, all discussion and proceedings, the names of all persons present at any time, and the names of all persons speaking. An exempt portion of any meeting may not be off the record.

(c) A transcript and minutes of exempt portions of meetings are confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution.

(4) REQUEST TO INSPECT OR COPY A RECORD.—

(a) Records made confidential and exempt by this section may be released, upon written request, to a governmental entity in the performance of its official duties and responsibilities.

(b) Notwithstanding the provisions of paragraph (2)(a), a request to inspect or copy a public record that contains proprietary confidential business information shall be granted if the proprietor of the information fails, within a reasonable period of time after the request is received by the institute, to verify the following to the institute through a written declaration in the manner provided by s. 92.525:

1. That the requested record contains proprietary confidential business information and the specific location of such information within the record;

2. If the proprietary confidential business information is a trade secret, a verification that it is a trade secret as defined in s. 688.002;

694 3. That the proprietary confidential business information
695 is intended to be and is treated by the proprietor as private,
696 is the subject of efforts of the proprietor to maintain its
697 privacy, and is not readily ascertainable or publicly available
698 from any other source; and
699 4. That the disclosure of the proprietary confidential
700 business information to the public would harm the business
701 operations of the proprietor.
702 (c)1. Any person may petition a court of competent
703 jurisdiction for an order for the public release of those
704 portions of any record made confidential and exempt by
705 subsection (2).
706 2. Any action under this subsection must be brought in Palm
707 Beach County or Alachua County, and the petition or other
708 initial pleading shall be served on the institute and, if
709 determinable upon diligent inquiry, on the proprietor of the
710 information sought to be released.
711 3. In any order for the public release of a record under
712 this subsection, the court shall make a finding that:
713 a. The record or portion thereof is not a trade secret as
714 defined in s. 688.002;
715 b. A compelling public interest is served by the release of
716 the record or portions thereof which exceed the public necessity
717 for maintaining the confidentiality of such record; and
718 c. The release of the record will not cause damage to or
719 adversely affect the interests of the proprietor of the released
720 information, other private persons or business entities, or the
721 institute.
722 (5) PENALTIES.—Any person who willfully and knowingly

723 violates this section commits a misdemeanor of the first degree,
724 punishable as provided in s. 775.082 or s. 775.083.
725 Section 8. This act shall take effect July 1, 2018.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations	
BILL:	CS/CS/SB 1314
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Transportation, Tourism, and Economic Development); Commerce and Tourism Committee; and Senator Brandes
SUBJECT:	Florida Capital Formation Act
DATE:	March 5, 2018 REVISED:

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1314 creates the Institute for Commercialization of Florida Technology (institute) to increase the availability of seed and early stage investment capital in Florida without requiring an ongoing state expenditure for such support.

The institute will replace the Institute for Commercialization of Public Research (ICPR). The institute will differ from the ICPR in several ways. Namely, the institute will:

- Be operated by a private fund manager who will be paid from fees based on the institute's investment activities, rather than a professional staff;
- No longer partner with publicly supported universities or research institutes to support their commercialization efforts; and
- Not be supported by or function under the Department of Economic Opportunity (department).

Like the ICPR, however, the institute will partner with innovation and target industry businesses to foster investment funding, especially in seed-stage, startup, and early stage companies; advise companies about successful management, operations, and development processes; and provide opportunities to attract further investment.

The bill has minimal impact on state expenditures.

The bill takes effect July 1, 2018.

II. Present Situation:

Venture Capital and Early Stage Business Investments

Venture capital is money provided by investors who choose to fund young companies that have the potential to develop into profitable businesses. Venture capital is an important source of equity for startup companies because its investment does not typically require security (such as a guarantee of repayment) from the business.[1]

Venture capital investments are typically made in lieu of traditional bank loans because the start-up or expansion-oriented companies they fund have a higher level of investment risk. The investor may eventually share in the risk of a failed business or the reward of a successful one. These investments are also characterized by a higher level of equity participation in the business by the investor, including mentorship or networking to assist the company with management and other obstacles.[2]

Investment in a technology or idea that has not yet been developed into a fully-fledged product or business is also known as "seed investing" or "early-stage investing."[3]

As of September 2017, one Florida website lists approximately 38 venture capital firms in the state.[4] Although the venture capital industry has grown in the last 20 years, it has done so only in limited geographic regions – generally limiting the investment of capital in businesses in or near those regions.[5]

Florida Capital Formation Act

In 2007, the Florida Capital Formation Act was enacted to address the need to increase the availability of seed capital and early stage venture capital for emerging Florida companies.[6] The act created the Florida Opportunity Fund and the Institute for the Commercialization of Public Research.

The intent of the act, in part, is to "mobilize private investment in a broad variety of venture capital partnerships in diversified industries and geographies" and "mobilize venture equity

capital for investment in such a manner as to result in a significant potential to create new businesses and jobs in this state."[7]

The Opportunity Fund was created to invest in seed and early stage venture capital funds (fund of funds), focusing on opportunities in Florida, and it can also make direct investments, including loans, in individual businesses and infrastructure projects. Enterprise Florida, Inc., facilitates the fund.

Further, the Legislature intended to create an institute "to mentor, market, and attract capital to such commercialization ventures throughout the state." The Institute for the Commercialization of Public Research (ICPR) assists in the commercialization of products developed by research and development activities of innovation businesses, publicly supported universities and colleges, research institutes, and other publicly supported organizations within Florida.[8]

Institute for the Commercialization of Public Research

The ICPR is a private-public partnership that operates as a nonprofit corporation. It administers company support services and seed capital funding programs to help early-stage businesses or ideas for businesses grow and thrive in Florida.[9] The ICPR operates with the support of mentors, advisors, and donors, and the Division of Strategic Business Development of the department provides support for and works closely with the ICPR.[10]

The ICPR has two primary locations, one at the University of Florida in Gainesville and the other at Florida Atlantic University in Boca Raton. A board of directors governs the ICPR and is responsible for managing the ICPR's funds, presenting the ICPR's annual report, and overseeing the ICPR's general affairs.[11] The board of directors is composed of the executive director of the department (or designee); the president of the university where the ICPR is located, or when the ICPR is located at multiple universities, the presidents' agreed upon designee; and three directors appointed by the Governor.[12]

The ICPR matches commercially viable technologies with management talent and capital. Additionally, the ICPR focuses on technologies and companies that originate from publicly supported organizations across the state and companies in Florida's innovation businesses and target industries.[13]

[12] Section 288.9625(4), F.S.
[13] Sections 288.0189 and 288.106(2)(q), F.S., sets forth the innovation businesses and target industries. Institute for the Commercialization of Public Research, *Annual Report Brochure FY 2016-2017* (Nov. 22, 2017), available at http://www.florida-institute.com/news/florida-institutes-2016-17-brochure (last visited Feb. 17, 2018).

Before the institute facilitates a company or organization's efforts to commercialize its products, it must be accepted by the institute through an application process. Publicly supported organizations may recommend that a company attempting to commercialize its research, technology, or patents be accepted by the institute. Upon acceptance by the institute, a company receives mentoring and other services, which includes developing marketing information on the company, using institute resources to attract capital investment into the company, and other resources that may encourage effective management, growth, capitalization technology protection, or marketing or business success.[14]

Current law prohibits the ICPR from charging for its services unless they are provided to a private company, as compared to a state university or its affiliated organizations.

Since 2007, the Legislature has appropriated an estimated total of $33 million in state funds to the ICPR for operating costs, grants, loans, and seed stage funds.[15] The ICPR did not receive any funding in Fiscal Year 2017-2018.

Florida Technology Seed Capital Fund[16]

The ICPR also administers the Florida Technology Seed Capital Fund as a corporate subsidiary. The fund was preceded by the Florida Research Commercialization Matching Grant Program, which expired in 2013, and the Seed Capital Accelerator Program (SCAP).[17]

The fund was established to "foster greater private-sector investment funding, to encourage seed-stage investments in start-up companies, and to advise companies about how to restructure existing management, operation, or production to attract advantageous business opportunities."[18] Proceeds from sale of equity or debt repayments are returned to the fund for reinvestment.

A company at the initial seed-stage investment is eligible to receive investment from the fund only after undergoing a peer-reviewed process undertaken by the fund's investor advisory board. The ICRP will invest in a company if:[19]

- The company's overall health and ability for growth is strong, including its intellectual property position, management capability, paths to market or commercialization, growth-potential, and ability to leverage additional funding;
- The company was identified by a publicly funded research institution;
- The company is a target industry business;
- The company was identified by a private-sector lead investor who has performed industry-standard due diligence; and
- The advisory board and fund manager reviewed and recommended the company's proposal.

[18] Section 288.26255(1), F.S.
[19] Section 288.96255(3)-(4), F.S.

Through the fund, the ICPR provides seed funding in amounts of $50,000 up to $300,000 to qualified companies, either as debt or equity. A cumulative investment of $500,000 is the maximum the ICPR will invest in a single company before it requires a 2:1, private sector match of the investment. The ICPR has invested in a total of 66 companies through this program.[20]

III. Effect of Proposed Changes:

Institute for Commercialization of Florida Technology

The bill creates the Institute for Commercialization of Florida Technology (institute) as a successor to the ICPR. The institute differs from the ICPR in several ways. Namely, the institute: (1) will be operated by a private fund manager rather than a professional staff; (2) will no longer partner with publicly supported universities or research institutes to support their commercialization efforts; and (3) will not be supported by or function under the department.

Section 3 amends s. 288.9622, F.S., to evince legislative intent to permit the use of a private asset manager familiar with the seed and early stage investment industry in Florida to reduce the operational costs of the Florida Technology Seed Capital Fund (Technology Fund) and the SCAP. It is the goal of the Legislature to operate these entities without requiring ongoing state expenditures.

Section 5 amends s. 288.9655, F.S., to replace the ICPR with the Institute for Commercialization of Florida Technology. The purpose of the institute is to assist in the commercialization of products developed by innovation businesses; advise the businesses about how to restructure existing management, operations, product development, or service development to attract further business opportunities; foster greater private sector investment funding; and encourage seed stage investments in startup and early stage companies.[21]

Creation of the Institute

Section 1 amends s. 20.60, F.S. to remove management of the ICPR and promotion of the commercialization of products, services, or ideas developed in public universities or institutions from the department's duties and purposes. The bill specifies that the institute is not a direct-support organization of the department.

Section 5 amends s. 288.9625(1), F.S., to provide that the institute is not subject to the control, supervision, or direction by the department in any manner. The section also amends s. 288.9625(3), F.S., to remove the requirement that the institute's articles of incorporation be approved by the department.

Board of Directors

Section 5 reorganizes the Board of Directors to consist of three members instead of five and provides for currently appointed directors of the ICPR to finish out their terms. Going forward,

[20] Institute for Commercialization of Public Research, *For Entrepreneurs: Company Funding*, available at http://www.florida-institute.com/programs/company-funding (last visited Feb. 5, 2018).
[21] See lines 206-213 and 415-424 of the bill.

to replace a vacant board position the private fund manager will submit three recommendations to the board for consideration. The board and the private fund manager each have a vote to select a new board member from the recommended list or "from a new list of three nominees that were not included on the previous list." It is unclear who nominates the new list.

The board's duties include oversight of the private fund manager's activities; performance of duties as outlined by the institute's bylaws; and provision of an annual report of the institute's activities to the Governor, President of the Senate, and Speaker of the House.

The directors must have expertise in selecting and supervising early stage investment managers or in fiduciary management of investment funds and other pertinent areas of expertise.

The directors may not receive compensation for their service but may be reimbursed for expenses as approved by the private fund manager pursuant to s. 112.061, F.S. Additionally, the directors may not have a financial interest in any investment in any of the institute's portfolio companies and are subject to any restriction on conflicts of interest as specified in the institute's organizational documents. The institute must indemnify its directors and the private fund manager to the broadest extent possible.

Private Fund Manager

The bill states that the "purpose of the institute's use of a private fund manager is to alleviate the state's burden of the continued and future operational and management costs related to the [Technology Fund] and [SCAP] program."

Eligibility

Section 5 provides that the private fund manager (fund manager) must be a for-profit limited liability company or a for-profit corporation that was formed and is governed and operated in accordance with ch. 605 or 607, F.S. Additionally, the fund manager may not be a public corporation or instrumentality of the state; is not a state agency; cannot claim sovereign immunity; is not subject to ch. 287, F.S., regarding procurement of goods and services; and is not governed by code of ethics provisions in part III of ch. 112, F.S.

The fund manager must be experienced in the field and must specifically have:

- Expertise and experience in the management and operation of early stage companies in Florida;
- Experience with early stage business ventures investments in Florida;
- Working knowledge and understanding of the institute's investment portfolio and relevant industries of those companies; and
- Individuals in its employ who have knowledge of the institute's investment portfolio and its companies, as well as financial, technical, and business expertise to manage the Technology Fund activity.

Duties

Section 5 provides for the fund manager's duties as they relate to the institute; **section 6** provides for the duties as they relate to the Technology Fund. They are substantially the same duties.

The fund manager is required to manage the investment-related affairs of the institute, including management of the assets of the institute's Technology Fund and SCAP investment portfolios; and conduct activities on the institute's behalf in accordance with law.

The fund manager must also issue an annual report to the Board of Directors by November 1 each year. The annual report is a public record, and must include:
- Information on any assistance provided to an innovation business;
- Description of the benefits that accrue to the state as a result of the institute's activity; and
- Independently audited financial statements, including information related to the receipt and calculation of the net profits of the investment portfolio.

The fund manager is authorized to:
- Negotiate terms of investment, sale, and liquidation with portfolio and nonportfolio companies;
- Execute contracts and contract amendments with portfolio and nonportfolio companies;
- Seek new qualified companies to participate in the Technology Fund;
- Receive and remit investment capital from the sale or liquidation of any part of the institute's investment portfolio, loan proceeds, or other investment returns;
- Mentor, assist with the development of marketing information or business plans, and assist with attracting capital investment and other resources to a portfolio company in order to foster its growth, marketing, or business success;
- Market the Technology Fund and accelerator program to potential investors;
- Facilitate meetings between prospective investors and the institute's portfolio companies; and
- Collaborate with publicly supported organizations that may be able to provide further resources or special knowledge to the institute's portfolio companies.

The fund manager is paid reasonable fees consistent with the standard practices of the fund management industry, consisting of:
- An operational management fee, including reimbursement of expenses that is paid from the proceeds of loans repaid to the SCAP or other capital, proceeds, and returns available in the Technology Fund;
- A portfolio fee paid from proceeds of each sale or asset liquidation from the institute's investment portfolio; and
- A closing fee paid from the investment amount paid by the Technology Fund to a company at the closing of each investment.

Florida Technology Seed Capital Fund

Section 5 outlines the institute's mission, which is to develop partnerships with, in particular, "innovation businesses" as defined in s. 288.1089, F.S., relating to the Innovation Incentive Program.

Section 6 provides that the institute must also strive to invest in target industry businesses, as defined in s. 288.106(2)(q), F.S., which represent diverse and stable markets.

Section 6 amends s. 288.96255, F.S., the Technology Fund, to revise the authorized investments and requirements for investment. The institute may select a company or organization for partnership with the institute or for funding from the Technology Fund only after the fund manager, using processes modeled on the investment industry's standard practices, has evaluated whether the company meets the statutory requirements, which are similar to current law. The fund manager must complete due diligence before approving a company for investment.

The bill repeals statutory limitations on investments from the fund – specifically the current limitation of initial investments of $50,000-$300,000, a cumulative maximum of $500,000, and a required 2:1 match for additional investment.

Net profits from proceeds of sale or liquidation of assets or portions of assets of the investment portfolio will be returned to the Technology Fund for reinvestment, after payment of applicable costs, professional fees, expenses, fees paid to the private fund manager, and disbursement to private investors.

Fees paid to the private fund manager include are for performing due diligence and an investment closing fee, in addition to reasonable attorney fees, the operational management fee, the portfolio fee, the closing fee, and other costs in connection with making the investment.

The institute or the private fund manager can disburse payments to private investors if the institute or the private fund manager decides to transfer any portion of the Technology Fund into a private fund or special purpose vehicle. Such private fund or special purpose vehicle can receive additional private investment. The disbursement from such private fund or special purpose vehicle back to the Technology Fund or private investors is the respective pro rata portion of any net profits from the sale or liquidation of assets in the private fund or special purpose vehicle.

Public Records and Meetings Exemption

Section 7 amends s. 288.9627, F.S., to transfer the public records and meetings exemption that previously applied to the ICPR to the institute.

This section makes the following materials held by the institute exempt from disclosure pursuant to s. 119.07(1), F.S., and s. 24(a), Art. I of the Florida Constitution:

- Documents and materials that related to a business' methods of manufacture or production, potential trade secrets, or patentable material that is provided to the institute by a proprietor;
- Information that would identify an anonymous investor or potential investor;
- Information received from another person, state, nation, or the federal government, which is confidential or exempt pursuant to the originator's laws; and
- Proprietary confidential business information.

Additionally, the bill exempts from Florida's public meetings laws those portions of the institute's meetings wherein information that is confidential and exempt according to Florida law is discussed.

Miscellaneous

Section 2 makes conforming changes to s. 288.9621, F.S., the short title for the Florida Capital Formation Act.

Section 4 provides definitions for terms used in the Florida Capital Formation Act.

Section 8 provides an effective date of July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

The bill transfers the current public records and meetings exemptions for the ICPR to the institute. The bill also expands the scope and authority of the institute to make investments in seed and early stage businesses. It is unclear if the amendments made by the bill to ss. 288.9625 and 288.96255, F.S., would be an expansion of the current public records and meetings exemptions.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Depending on the financial performance of the Technology Fund and the institute, there may be a reduction in the funds available for investment in private businesses that seek investment capital.

C. Government Sector Impact:

The ICPR did not receive an appropriation in Fiscal Year 2017-2018. The bill attempts to reduce future appropriations to the successor institute for its investment, management, and related expenses, by permitting the institute to fund itself through its activities. According to the most recent independent audit of the ICPR completed in Fiscal Year 2016 filed with the Florida Auditor General, the total program expenses were

$3,732,937.[22] The fund manager will require expenditures pursuant to statute, but these will be made from profits of the institute, rather than state appropriation.

University and other publicly funded research institutes may see a reduction in funds available for the commercialization of their technologies because of the privatization of the institute.

The Department of Economic Opportunity may experience minimal cost savings by eliminating the contracting and related oversight responsibilities of the department over the institute.

VI. Technical Deficiencies:

It is unclear whether the duties outlined in s. 288.9625(5), F.S., apply to the Board of Directors or the fund manager.

VII. Related Issues:

The bill refers to the SCAP or "Accelerator Program." The Accelerator Program expired in 2013, and therefore does not require any ongoing operational funding. The Accelerator Program, however, does have outstanding loans that will not be due until December 2019, and therefore may require actions by the fund manager for purposes of collection and reinvestment of the funds.[23]

The bill provides that the institute must create the Fund; the Legislature could directly create the Fund.

The bill requires that a company or organization be "based in" Florida to receive assistance from the institute. This term may need to be defined to provide clarity in interpretation.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 20.60, 288.9621, 288.9622, 288.9623, 288.9625, 288.96255, and 288.9627.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on March 2, 2018:
The committee substitute:

- Restores a portion of current law legislative intent related to the Florida Opportunity Fund;

[22] Florida Auditor General, *Institute for Commercialization of Public Research: 2015-16 Fiscal Year*, available at https://flauditor.gov/pages/nonprofit_forprofit%20pages/institute%20for%20the%20commercialization%20of%20public%20research.htm (last visited Feb. 16, 2018).
[23] *Id*. at p. 21.

- Adds a provision that the Institute for Commercialization of Florida Technology is not subject to the control, supervision, or direction of the DEO; and
- Corrects a grammar issue.

CS by Commerce and Tourism on February 6, 2018:
The CS clarifies the terms for directors appointed before July 1, 2018, and the succession of any director appointed thereafter.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By the Committee on Commerce and Tourism; and Senator Brandes

577-02897-18 20181314c1

A bill to be entitled

An act relating to the Florida Capital Formation Act; amending s. 20.60, F.S.; deleting the requirement that the Department of Economic Opportunity manage certain activities related to the commercialization of specified products, services, and ideas; specifying that the Institute for Commercialization of Florida Technology is not an appropriate direct-support organization; amending s. 288.9621, F.S.; including s. 288.96255, F.S., in the Florida Capital Formation Act; amending s. 288.9622, F.S.; revising legislative intent; amending s. 288.9623, F.S.; defining terms; amending s. 288.9625, F.S.; redesignating the Institute for the Commercialization of Public Research as the Institute for Commercialization of Florida Technology; deleting provisions regarding the institute's responsibilities; requiring that the investment-related affairs of the institute be managed by the private fund manager and overseen by the board of directors; restructuring the board of directors and the selection process for the board of directors; specifying term limits of the board members under certain circumstances; requiring the board of directors to amend the bylaws of the institute under certain circumstances; providing that a director is subject to restrictions on certain conflicts of interest; prohibiting a director from having a financial interest in certain investments; authorizing a director to be reimbursed for certain expenses;

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

577-02897-18 20181314c1

granting the institute certain powers; requiring the institute to indemnify certain persons; delegating certain duties to the board of directors; revising to whom the board must provide a copy of the annual report and who may require and receive supplemental data relative to the institute's operation; specifying that certain requirements be met before the private fund manager is authorized to make an investment in a company, on behalf of the institute; deleting provisions relating to certain duties of the institute; deleting provisions relating to certain fees charged by the institute and the prohibition on using capital in support of certain entities; specifying that the annual report is considered a public record subject to certain exemptions; revising the requirements of the institute's annual report; listing requirements and prohibitions for the private fund manager; stating the purpose of the institute's use of the private fund manager; requiring the private fund manager to assume the management of certain assets; authorizing the private fund manager to act on behalf of the institute for certain purposes; requiring that the private fund manager be paid certain fees; authorizing the private fund manager to undertake certain activities on behalf of the institute; requiring the private fund manager to issue an annual report to the board of directors by a specific date; specifying that the annual report is considered a public record subject to certain

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

exemptions; requiring that the report contain certain information; amending s. 288.96255, F.S.; requiring that certain proceeds be returned to the Florida Technology Seed Capital Fund after the payment of certain costs and fees; requiring the institute to employ a private fund manager; requiring the private fund manager to perform specific duties; requiring that the private fund manager receive certain fees and costs at a specified time; requiring the private fund manager to use a certain process to evaluate a proposal; requiring the private fund manager to consider certain factors when approving a company for investment; deleting specific requirements for the investment of funds; authorizing the private fund manager, in addition to the institute, to perform certain tasks; amending s. 288.9627, F.S.; conforming provisions to changes made by this act; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (e) of subsection (4) and paragraph (b) of subsection (9) of section 20.60, Florida Statutes, are amended to read:

20.60 Department of Economic Opportunity; creation; powers and duties.—

(4) The purpose of the department is to assist the Governor in working with the Legislature, state agencies, business leaders, and economic development professionals to formulate and

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

implement coherent and consistent policies and strategies designed to promote economic opportunities for all Floridians. To accomplish such purposes, the department shall:

(e) Manage the activities of public-private partnerships and state agencies in order to avoid duplication and promote coordinated and consistent implementation of programs in areas including, but not limited to, tourism; international trade and investment; business recruitment, creation, retention, and expansion; minority and small business development; rural community development; ~~commercialization of products, services, or ideas developed in public universities or other public institutions;~~ and the development and promotion of professional and amateur sporting events.

(9) The executive director shall:

(b) Serve as the manager for the state with respect to contracts with Enterprise Florida, Inc., ~~the Institute for the Commercialization of Public Research,~~ and all applicable direct-support organizations. To accomplish the provisions of this section and applicable provisions of chapter 288, and notwithstanding the provisions of part I of chapter 287, the director shall enter into specific contracts with Enterprise Florida, Inc., ~~the Institute for the Commercialization of Public Research,~~ and other appropriate direct-support organizations. Such contracts may be for multiyear terms and must ~~shall~~ include specific performance measures for each year. For purposes of this section, the Florida Tourism Industry Marketing Corporation and the Institute for Commercialization of Florida Technology are not ~~is not an~~ appropriate direct-support organizations ~~organization~~.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Section 2. Section 288.9621, Florida Statutes, is amended to read:

288.9621 Short title.—Sections 288.9621-288.96255 ~~Sections 288.9621-288.9625~~ may be cited as the "Florida Capital Formation Act."

Section 3. Section 288.9622, Florida Statutes, is amended to read:

288.9622 Findings and intent.—

(1) The Legislature finds and declares that there is a need to increase the availability of seed capital and early stage investment ~~venture equity~~ capital for emerging companies in the state, including, without limitation, businesses ~~enterprises~~ in life sciences, information technology, advanced manufacturing processes, aviation and aerospace, and homeland security and defense, as well as other industries of strategic importance to this state ~~strategic technologies~~.

(2) It is the intent of the Legislature that ss. 288.9621-288.96255 ~~ss. 288.9621-288.9625~~ serve to mobilize private investment in a broad variety of ~~venture capital~~ partnerships in diversified industries and geographies; retain private sector investment criteria focused on rate of return; allow the use ~~the services~~ of highly qualified private fund managers experienced in the seed and early stage development industry in this state; and outline the use, qualifications, and activities of the private management by a private fund manager of the assets of the Seed Capital Accelerator Program and the Florida Technology Seed Capital Fund investment portfolio of the Institute for Commercialization of Florida Technology ~~venture capital industry regardless of location; facilitate the organization of the~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~Florida Opportunity Fund as an investor in seed and early stage businesses, infrastructure projects, venture capital funds, and angel funds; and precipitate capital investment and extensions of credit to and in the Florida Opportunity Fund~~.

(3) It is the intent of the Legislature to mobilize investment ~~venture equity~~ capital ~~for investment~~ in such a manner as to result in a significant potential to create new businesses and jobs in this state which ~~that~~ are based on high growth potential technologies, products, or services and which ~~that~~ will further diversify the economy of this state.

(4) It is the intent of the Legislature to reduce the ongoing operational cost and burden of managing the Florida Technology Seed Capital Fund and the Seed Capital Accelerator Program to this state by engaging a private asset management entity in this state which is familiar with the seed and early stage investment industry in this state. This entity would be responsible for the management of the assets of the Seed Capital Accelerator Program and the Florida Technology Seed Capital Fund investment portfolio without requiring ongoing budget expenditures by this state ~~that an institute be created to mentor, market, and attract capital to such commercialization ventures throughout the state~~.

Section 4. Section 288.9623, Florida Statutes, is amended to read:

288.9623 Definitions.—As used in ss. 288.9621-288.96255, the term ~~ss. 288.9621-288.9625~~:

(1) "Accelerator program" means the Seed Capital Accelerator Program managed by the institute.

(2) ~~(1)~~ "Board" means the board of directors of the Florida

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Opportunity Fund.

(3)~~(2)~~ "Fund" means the Florida Opportunity Fund.

(4) "Institute" means the Institute for Commercialization of Florida Technology.

(5) "Investment portfolio" means individual or collective investment assets held under the technology fund.

(6) "Net profits" means the total gross proceeds received from the sale or liquidation of an asset of the investment portfolio less any costs, legal fees, professional fees, consulting fees, government fees, brokerage fees, taxes, management fees pursuant to s. 288.9625(12)(b), disbursement to private investors pursuant to s. 288.96255(6), or other fees, costs, and expenses incurred in the sale or liquidation of any of the investment portfolio assets.

(7) "Portfolio companies" means the companies who are part of the Florida Technology Seed Capital Fund investment portfolio.

(8) "Private fund manager" means the private entity, or its designee, selected to manage the investment portfolio on behalf of the institute.

(9) "Technology fund" means the Florida Technology Seed Capital Fund managed by the institute.

Section 5. Section 288.9625, Florida Statutes, is amended to read:

288.9625 Institute for ~~the~~ Commercialization of Florida Technology ~~Public Research~~.~~—~~There is established ~~at a public university or research center~~ in this state the Institute for ~~the~~ Commercialization of Florida Technology ~~Public Research~~.

(1) The institute shall be a nonprofit ~~not-for-profit~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

corporation registered, incorporated, and operated in accordance with chapter 617.

(2) The purpose of the institute is to assist in the commercialization of products developed by the research and development activities of an innovation business, including, but not limited to, those ~~as~~ defined in s. 288.1089~~; a publicly supported college, university, or research institute; or any other publicly supported organization in this state~~. The institute shall fulfill its purpose in the best interests of the state. The institute:

(a) Is a corporation primarily acting as an instrumentality of the state pursuant to s. 768.28(2), for the purposes of sovereign immunity;

(b) Is not an agency within the meaning of s. 20.03(11);

(c) Is subject to the open records and meetings requirements of s. 24, Art. I of the State Constitution, chapter 119, and s. 286.011;

(d) Is not subject to ~~the provisions of~~ chapter 287;

(e) Is ~~Shall be~~ governed by the code of ethics for public officers and employees as set forth in part III of chapter 112; and

(f) May create corporate subsidiaries.~~;~~

~~(g) Shall support existing commercialization efforts at state universities; and~~

~~(h) May not supplant, replace, or direct existing technology transfer operations or other commercialization programs, including incubators and accelerators.~~

(3) The articles of incorporation of the institute must ~~be approved in a written agreement with the department. The~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~agreement and the articles of incorporation shall~~:

(a) Provide that the institute shall provide equal employment opportunities for all persons regardless of race, color, religion, gender, national origin, age, handicap, or marital status;

(b) Provide that the institute is subject to the public records and meeting requirements of s. 24, Art. I of the State Constitution;

(c) Provide that all officers, directors, and employees of the institute are ~~shall be~~ governed by the code of ethics for public officers and employees as set forth in part III of chapter 112;

(d) Provide that members of the board of directors of the institute are responsible for the prudent use of all public and private funds and that they will ensure that the use of funds is in accordance with all applicable laws, bylaws, and contractual requirements; and

(e) Provide that the fiscal year of the institute is from July 1 to June 30.

(4) The investment-related affairs of the institute shall be managed by the private fund manager, and overseen by a board of directors who shall serve without compensation. Each director shall have only one vote. The chair of the board of directors shall be selected by a majority vote of the directors, a quorum being present. ~~The board of directors shall consist of the following five members:~~

~~(a) The executive director of the department, or the director's designee.~~

~~(b) The president of the university where the institute is~~

~~located or the president's designee unless multiple universities jointly sponsor the institute, in which case the presidents of the sponsoring universities shall agree upon a designee.~~

(a) ~~(c)~~ The board of directors shall consist of three directors appointed pursuant to the procedures and requirements of this section ~~by the Governor~~ to 3-year staggered terms, to which the directors may be reappointed.

(b) For any director appointed before July 1, 2018, the term of service for that director may continue through the end of his or her current term. The vacancy created by the expiration of such term must be filled pursuant to the procedures and requirements of this section.

(c) The bylaws of the institute shall be amended accordingly by the board of directors to reflect the requirements of this section.

(d) Upon vacancy, or within 90 days before an anticipated vacancy by the expiration of a term of a director, the private fund manager shall submit a list of three eligible nominees, which may include the incumbent director, to replace the outgoing director. The board of directors, voting along with the private fund manager, may appoint a director from the nominee list or may request and appoint a director from a new list of three nominees that were not included on the previous list.

(e) The persons appointed as replacement directors must include persons who have expertise in the area of the selection and supervision of early stage investment managers or in the fiduciary management of investment funds and other areas of expertise as considered appropriate.

(f) Directors are subject to any restrictions on conflicts

of interest specified in the organizational documents and may not have a financial interest in any venture capital investment in any portfolio company.

(g) Directors may be reimbursed for all reasonable, necessary, and actual expenses as determined and approved by the private fund manager pursuant to s. 112.061.

(h) The institute shall have all powers granted under its organizational documents and shall indemnify its directors and the private fund manager to the broadest extent permissible under the laws of this state.

(5) The board of directors shall oversee the private fund manager to ensure consistency with the Florida Capital Formation Act, to perform those duties as may be delegated to it in the bylaws of the institute, and to provide a copy of the institute's annual report to the Governor, the President of the Senate, and the Speaker of the House of Representatives~~, and the president of the university at which the institute is located~~.

(6) The ~~department, the president and the board of trustees of the university where the institute is located, the~~ Auditor General~~,~~ and the Office of Program Policy Analysis and Government Accountability may require and receive from the institute or its independent auditor any detail or supplemental data relative to the operation of the institute.

(7) To the extent funds for investment are available in the technology fund, the private fund manager, on behalf of the institute, may make an investment in a company or organization if all of the following requirements are met:

(a) Before providing assistance, the institute accepted ~~To be eligible for assistance,~~ the company or organization

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

attempting to commercialize its product based on the guidelines under s. 288.96255(4) ~~must be accepted by the institute before receiving the institute's assistance~~.

(b) The company or organization is based in this state ~~institute shall receive recommendations from any publicly supported organization that a company that is commercializing the research, technology, or patents from a qualifying publicly supported organization should be accepted into the institute~~.

~~(c) The institute shall thereafter review the business plans and technology information of each such recommended company. If accepted, the institute shall mentor the company, develop marketing information on the company, and use its resources to attract capital investment into the company, as well as bring other resources to the company which may foster its effective management, growth, capitalization, technology protection, or marketing or business success.~~

~~(8) The institute shall:~~

~~(a) Maintain a centralized location to showcase companies and their technologies and products;~~

~~(b) Develop an efficient process to inventory and publicize companies and products that have been accepted by the institute for commercialization;~~

~~(c) Routinely communicate with private investors and venture capital organizations regarding the investment opportunities in its showcased companies;~~

~~(d) Facilitate meetings between prospective investors and eligible organizations in the institute;~~

~~(e) Hire full-time staff who understand relevant technologies needed to market companies to the angel investors~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~and venture capital investment community; and~~

~~(f) Develop cooperative relationships with publicly supported organizations all of which work together to provide resources or special knowledge that is likely to be helpful to institute companies.~~

(8)~~(9)~~ Except as provided under s. 288.96255, the institute may not develop or accrue any ownership, royalty, patent, or other such rights over or interest in companies or products in the institute except in connection with financing provided directly to client companies and shall maintain the confidentiality of proprietary information.

~~(10) The institute may not charge for services provided to state universities and affiliated organizations, community colleges, or state agencies; however, the institute may deliver and charge for services to private companies and affiliated organizations if providing a service does not interfere with the core mission of the institute. The institute may not use its capital in support of private companies or affiliated organizations whose products were not developed by research and development activities of a publicly supported college, university, or research institute, or any other organization.~~

(9)~~(11)~~ By December 1 of each year, the institute shall issue an annual report concerning its activities to the Governor, the President of the Senate, and the Speaker of the House of Representatives. The annual report shall be considered a public record, as provided in paragraph (3)(b), subject to any appropriate exemptions under s. 288.9627. The annual report must ~~shall~~ include the following:

(a) Information on any assistance provided by the institute

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

to an innovation business, as defined in s. 288.1089~~; a publicly supported college, university, or research institute; or any other publicly supported organization in the state~~.

(b) A description of the benefits to this state resulting from the institute, including the number of businesses created, associated industries started, the number of jobs created, and the growth of related projects.

(c) Independently audited financial statements, including statements that show receipts and expenditures during the preceding fiscal year for personnel, management fees, administration, and operational costs of the institute.

(10) The private fund manager:

(a) Must be a for-profit limited liability company or a for-profit corporation formed, governed, and operated in accordance with chapter 605 or chapter 607, respectively.

(b) Shall conduct activities on behalf of the institute which are consistent with the purposes set forth in this section.

(c) Must have expertise and experience in the management and operation of early stage companies in this state.

(d) Must have experience with investment in early stage ventures in this state and have a working knowledge and understanding of the investment portfolio and the relevant industries of the portfolio companies in this state.

(e) Shall employ personnel and professionals who have knowledge of the investment portfolio and portfolio companies of the institute, as well as financial, technical, and business expertise to manage the technology fund activity.

(f) May not be a public corporation or instrumentality of

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

the state.

(g) Is not a corporation primarily acting as an instrumentality of the state pursuant to s. 768.28(2), for the purposes of sovereign immunity.

(h) Is not an agency within the meaning of s. 20.03(11).

(i) Is not subject to chapter 287.

(j) May not be governed by the code of ethics for public officers and employees as set forth in part III of chapter 112.

(11) The purpose of the institute's use of a private fund manager is to alleviate the state's burden of the continued and future operational and management costs related to the technology fund and accelerator program, while allowing the institute, through the activities of the private fund manager, to continue to foster greater private-sector investment funding, to encourage seed-stage investments in startup and early stage companies, and to advise companies about how to restructure existing management, operations, product development, or service development to attract advantageous business opportunities.

(12) The private fund manager shall assume the management of the assets of the accelerator program and the technology fund investment portfolios associated with the institute.

(a) The private fund manager has the authority on behalf of the institute to:

1. Negotiate investment, sale, and liquidation terms with portfolio and nonportfolio companies;

2. Develop and execute contracts, or amendments thereto, with portfolio and nonportfolio companies;

3. Seek new qualified companies for the investment of funds from the technology fund;

4. Receive, on behalf of the institute, investment capital from the sale or liquidation of any portion of the investment portfolio, loan proceeds, or other investment returns, and remit such capital, proceeds, and returns to the technology fund pursuant to s. 288.96255, except as otherwise provided in this section and s. 288.96255; and

5. Perform additional duties set forth in s. 288.96255.

(b) The private fund manager shall be paid reasonable fees consistent with industry fund management practices and consisting of:

1. An operational management fee, including the reimbursement of expenses, paid from the proceeds of the repayment of loans from the accelerator program or other capital, proceeds, and returns available in the technology fund;

2. A portfolio fee paid from the proceeds of each sale or liquidation of assets or portions of the assets of the investment portfolio; and

3. A closing fee paid from the investment amount paid by the technology fund to a company at the closing of each investment.

(13) The private fund manager may undertake the following activities on behalf of the institute:

(a) Mentor, assist with the development of marketing information, and assist with attracting capital investment, as well as bring other resources to the company which may foster its effective management, growth, capitalization, technology protection, or marketing or business success;

(b) Communicate with private investors and venture capital organizations regarding investment opportunities in the

portfolio companies of the technology fund and accelerator program;

(c) Facilitate meetings between prospective investors and the companies; and

(d) Develop cooperative relationships with publicly supported organizations that work together to provide resources or special knowledge likely to be helpful to portfolio companies.

(14) By November 1 of each year, the private fund manager shall issue an annual report to the board of directors of the institute concerning the activities the private fund manager conducted which relate to existing accelerator program and technology fund investments in order for the board to be in compliance with its report obligations under subsection (9). The annual report provided by the private fund manager shall be considered a public record, as provided in paragraph (3)(b), subject to any appropriate exemptions under s. 288.9627. The annual report, at a minimum, must include:

(a) A description of the benefits to this state resulting from the assets of the accelerator program and technology fund, including the number of jobs created, the amount of capital the companies raised, and other benefits relating to increased research expenditures and company growth.

(b) Independently audited financial statements related to the receipt and calculation of the net profits of the investment portfolio.

Section 6. Subsection (1) and subsections (3) through (7) of section 288.96255, Florida Statutes, are amended to read:

288.96255 Florida Technology Seed Capital Fund; creation;

duties.—

(1) The Institute for ~~the~~ Commercialization of Florida Technology ~~Public Research~~ shall create the Florida Technology Seed Capital Fund as a corporate subsidiary. The purpose of the technology fund is to foster greater private-sector investment funding, to encourage seed-stage investments in start-up companies, and to advise companies about how to restructure existing management, operation, or production to attract advantageous business opportunities. The net profits of the proceeds of each sale or liquidation of assets or portions of the assets of the investment portfolio must ~~a sale of the equity held by the fund shall~~ be returned to the technology fund for reinvestment after payment of the applicable costs, professional fees, expenses, fees pursuant to s. 288.9625(12)(b), and disbursement to private investors pursuant to paragraph (6)(e).

(3) The institute shall employ a private fund manager pursuant to s. 288.9625 ~~professionals who have both technical and business expertise~~ to manage the investment portfolio and technology fund activity. The private fund manager ~~institute shall establish an investor advisory board comprised of venture capital professionals and early-stage investors from this and other states who~~ shall advise the institute and guide the ~~fund~~ management of the technology fund and make funding recommendations, provided that capital for investment is available in the technology fund. The private fund manager shall receive reasonable fees consistent with industry practices for performing due diligence and an investment closing fee paid out of the technology fund at the closing of each investment in addition to reasonable attorney fees, other fees prescribed in

s. 288.9625(12)(b), and other costs in connection with making an investment. ~~Administrative costs paid out of the fund shall be determined by the investor advisory board.~~

(4) The private fund manager ~~institute~~ shall use a thorough and detailed process that is modeled after investment industry practices ~~the best practices of the investment industry~~ to evaluate a proposal. In order to approve a company for investment, the private fund manager, on behalf of the institute, must consider if:

(a) The company has a strong intellectual property position, a capable management team, readily identifiable paths to market or commercialization, significant job-growth potential, the ability to provide other sources of capital to leverage the state's investment, and the potential to attract additional funding;

(b) The private fund manager has had an opportunity to complete due diligence to its satisfaction ~~company has been identified by a publicly funded research institution~~;

(c) The ~~start-up~~ company is a target industry business as defined in s. 288.106(2); and

(d) ~~The company has been identified by~~ An approved private-sector lead investor who has demonstrated due diligence typical of start-up investments in evaluating the potential of the company has identified the company.~~; and~~

~~(c) The advisory board and fund manager have reviewed the company's proposal and recommended it.~~

(5) ~~(a) Seed~~ Funds from the technology fund may be invested if the institute approves a company and the initial seed-stage investment. ~~The initial seed-stage investment must be at least~~

~~$50,000, but no more than $300,000. The initial seed-stage investment requires a one-to-one, private-sector match of investment.~~

~~(b) Additional seed funds may be invested in a company if approved by the institute. The cumulative total of investment in a single company may not exceed $500,000. Any additional investment amount requires a two-to-one, private-sector match of investment.~~

(6) The institute or private fund manager may:

(a) Provide a company with value-added support services in the areas of business plan development and strategy, the preparation of investor presentations, and other critical areas identified by the private fund manager ~~institute~~ to increase its chances for long-term viability and success;

(b) Encourage appropriate investment funds to become preapproved to match investment funds;

(c) Market the attractiveness of the state as an early-stage investment location; ~~and~~

(d) Collaborate with state economic-development organizations, national associations of seed and angel funds, and other innovation-based associations to create an enhanced state entrepreneurial ecosystem; and~~.~~

(e) Transfer any portion of the assets of the investment portfolio, on behalf of the institute, into a private fund or special purpose vehicle, receive additional private investment in the private fund or special purpose vehicle, manage the private fund or special purpose vehicle, and distribute to the technology fund and the private investors the respective pro rata portion of any net profits from the sale or liquidation of

the assets of such private fund or special purpose vehicle.

~~(7) The institute shall annually evaluate the activities and results of the funding, taking into consideration that seed investment horizons span from 3 to 7 years.~~

Section 7. Section 288.9627, Florida Statutes, is amended to read:

288.9627 Exemptions from public records and public meetings requirements for the Institute for ~~the~~ Commercialization of Florida Technology ~~Public Research~~.—

(1) DEFINITIONS.—As used in this section, the term:

(a) "Institute for ~~the~~ Commercialization of Florida Technology ~~Public Research~~" or "institute" means the institute established by s. 288.9625.

(b)1. "Proprietary confidential business information" means information that has been designated by the proprietor when provided to the institute as information that is owned or controlled by a proprietor; that is intended to be and is treated by the proprietor as private, the disclosure of which would harm the business operations of the proprietor and has not been intentionally disclosed by the proprietor unless pursuant to a private agreement that provides that the information will not be released to the public except as required by law or legal process, or pursuant to law or an order of a court or administrative body; and that concerns:

a. Trade secrets as defined in s. 688.002.

b. Financial statements and internal or external auditor reports of a proprietor corporation, partnership, or person requesting confidentiality under this statute, unless publicly released by the proprietor.

c. Meeting materials related to financial, operating, investment, or marketing information of the proprietor corporation, partnership, or person.

d. Information concerning private investors in the proprietor corporation, partnership, or person.

2. "Proprietary confidential business information" does not include:

a. The identity and primary address of the proprietor's principals.

b. The dollar amount and date of the financial commitment or contribution made by the institute.

c. The dollar amount, on a fiscal-year-end basis, of cash repayments or other fungible distributions received by the institute from each proprietor.

d. The dollar amount, if any, of the total management fees and costs paid on an annual fiscal-year-end basis by the institute.

(c) "Proprietor" means a corporation, partnership, or person that has applied for or received assistance, financial or otherwise, from the institute and that controls or owns the proprietary confidential business information.

(2) PUBLIC RECORDS EXEMPTION.—

(a) The following records held by the institute are confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution:

1. Materials that relate to methods of manufacture or production, potential trade secrets, or patentable material received, generated, ascertained, or discovered during the course of research or through research projects conducted by

universities and other publicly supported organizations in this state and that are provided to the institute by a proprietor.

2. Information that would identify an investor or potential investor who desires to remain anonymous in projects reviewed by the institute for assistance.

3. Any information received from a person from another state or nation or the Federal Government which is otherwise confidential or exempt pursuant to the laws of that state or nation or pursuant to federal law.

4. Proprietary confidential business information for 7 years after the termination of the institute's financial commitment to the company.

(b) At the time any record made confidential and exempt by this subsection, or portion thereof, is legally available or subject to public disclosure for any other reason, that record, or portion thereof, shall no longer be confidential and exempt and shall be made available for inspection and copying.

(3) PUBLIC MEETINGS EXEMPTION.—

(a) That portion of a meeting of the institute's board of directors at which information is discussed which is confidential and exempt under subsection (2) is exempt from s. 286.011 and s. 24(b), Art. I of the State Constitution.

(b) Any exempt portion of a meeting shall be recorded and transcribed. The board of directors shall record the times of commencement and termination of the meeting, all discussion and proceedings, the names of all persons present at any time, and the names of all persons speaking. An exempt portion of any meeting may not be off the record.

(c) A transcript and minutes of exempt portions of meetings

are confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution.

(4) REQUEST TO INSPECT OR COPY A RECORD.—

(a) Records made confidential and exempt by this section may be released, upon written request, to a governmental entity in the performance of its official duties and responsibilities.

(b) Notwithstanding the provisions of paragraph (2)(a), a request to inspect or copy a public record that contains proprietary confidential business information shall be granted if the proprietor of the information fails, within a reasonable period of time after the request is received by the institute, to verify the following to the institute through a written declaration in the manner provided by s. 92.525:

1. That the requested record contains proprietary confidential business information and the specific location of such information within the record;

2. If the proprietary confidential business information is a trade secret, a verification that it is a trade secret as defined in s. 688.002;

3. That the proprietary confidential business information is intended to be and is treated by the proprietor as private, is the subject of efforts of the proprietor to maintain its privacy, and is not readily ascertainable or publicly available from any other source; and

4. That the disclosure of the proprietary confidential business information to the public would harm the business operations of the proprietor.

(c)1. Any person may petition a court of competent jurisdiction for an order for the public release of those

portions of any record made confidential and exempt by subsection (2).

2. Any action under this subsection must be brought in Palm Beach County or Alachua County, and the petition or other initial pleading shall be served on the institute and, if determinable upon diligent inquiry, on the proprietor of the information sought to be released.

3. In any order for the public release of a record under this subsection, the court shall make a finding that:

a. The record or portion thereof is not a trade secret as defined in s. 688.002;

b. A compelling public interest is served by the release of the record or portions thereof which exceed the public necessity for maintaining the confidentiality of such record; and

c. The release of the record will not cause damage to or adversely affect the interests of the proprietor of the released information, other private persons or business entities, or the institute.

(5) PENALTIES.—Any person who willfully and knowingly violates this section commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

Section 8. This act shall take effect July 1, 2018.

The Florida Senate

Committee Agenda Request

To: Senator Rob Bradley
Committee on Appropriations

Subject: Committee Agenda Request

Date: February 22, 2018

I respectfully request that **Senate Bill #1314**, relating to **Florida Capital Formation Act**, be placed on the:

☒ committee agenda at your earliest possible convenience.

☐ next committee agenda.

Senator Jeff Brandes
Florida Senate, District 24

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/SB 1318 (578002)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Criminal and Civil Justice); and Senator Rouson
SUBJECT:	Education for Prisoners
DATE:	February 26, 2018 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Cox	Jones	CJ	**Favorable**
2.	Forbes	Sadberry	ACJ	**Recommend: Fav/CS**
3.	Forbes	Hansen	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/SB 1318 authorizes a county or municipal detention facility or the Department of Corrections (DOC) to contract with a district school board, the Florida Virtual School, a Florida College System institution, a virtual education provider approved by the State Board of Education, or a charter school (school provider) to provide educational services to its inmates. The educational services may include any educational, career, or vocational training.

The bill allows state funding for postsecondary education to be used for an inmate with less than 60 months of time remaining on his or her sentence.

The bill also makes various changes to procedures related to business licensing for persons who have previously been convicted of a criminal offense, including:

- Permits a person to submit a petition for declaratory statement to any Florida agency to determine the effect of a criminal background on his or her eligibility for occupational or professional licensure;
- Requires the agency to indicate specified information in its declaratory statement conclusion;
- Requires the agency's conclusion in the declaratory statement is binding on the agency as to the petitioner;
- Requires specified submissions to be included with the petition for declaratory statement, including a fee of not more than $100;

- Prohibits an agency from denying an application for licensure for certain professions if a specific duration has passed since the applicant's conviction;
- Authorizes a person to apply for licensing from Department of Business and Professional Regulation (DBPR) prior to being released from incarceration and provides a process for the staying of the issuance of the license until the person's release from custody;
- Specifies accommodations that an agency must make for applicants who are under confinement or supervision at the time of their application; and
- Requires pertinent boards under the DBPR and Department of Health to adopt rules that specify crimes that constitute grounds for licensure denial.

The bill will likely have no fiscal impact on the school districts. If the DOC or county or municipal detention facilities elect to contract with a school provider to provide services under such contract, the services will need to be funded out of an appropriation specific for this purpose. The bill may result in an increased workload and revenues to agencies that must process the petitions for declaratory statements from a licensing agency. See Section V. Fiscal Impact Statement.

The bill is effective July 1, 2018.

II. Present Situation:

Sentencing of Inmates – Overview

A defendant that is convicted of a crime in the state of Florida may be incarcerated in either county jail or state prison based upon the degree of the offense. A number of factors are taken into consideration when determining whether a defendant will be committed to the custody of the jail or the DOC. A defendant convicted of a misdemeanor offense can be committed to the custody of the county's chief correctional officer for no more than one year for a first degree misdemeanor or 60 days for a second degree misdemeanor.[1]

For a defendant convicted of a felony offense, the Criminal Punishment Code[2] (Code) applies to sentencing for felony offenses committed on or after October 1, 1998.[3] The permissible sentence (absent a downward departure) for an offense ranges from the calculated lowest permissible sentence as determined by the Code to the statutory maximum for the primary offense. The statutory maximum sentence for a first-degree felony is 30 years, for a second-degree felony is 15 years, and for a third degree felony is 5 years.[4]

[1] Section 775.082(4), F.S.
[2] Sections 921.002-921.0027, F.S. *See* chs. 97-194 and 98-204, L.O.F. The Code is effective for offenses committed on or after October 1, 1998.
[3] Section 921.0022, F.S.
[4] *See* s. 775.082, F.S.

Education for County Inmates

Section 951.176, F.S., requires county and municipal detention facilities[5] to provide educational services to minors detained in such facilities if the minor has not graduated from high school or is an eligible student with disabilities under the age of 22 who has not graduated with a standard diploma or its equivalent. The educational services must be offered by the local school district in which the facility is located.[6] These educational services are based on the estimated length of time the youth will be in the facility and the youth's current level of functioning. School district superintendents or their designees must be notified by the county's chief correctional officer if a youth under the age of 21 is accepted into the facility.[7]

Florida law is silent as to whether a county or municipal detention facility is required to provide educational services to its adult inmates. However, The County Corrections Equality Act requires that females have access to educational, vocational training, rehabilitation and substance abuse treatment that are equivalent to that provided to male inmates.[8]

Education for State Prisoners

Florida law establishes (under the DOC) a Correctional Education Program (CEP), which must be composed of the educational facilities and services of all institutions, and facilities housing inmates operated by the DOC.[9] The duties of the CEP include, but are not limited to:

- Developing guidelines for collecting education-related information during the inmate reception process and for disseminating such information to the classification staff of the DOC.[10]
- Approving educational programs of the appropriate levels and types in the correctional institutions and developing procedures for the admission of inmate students into such programs.[11]
- Entering into agreements with public or private school districts, entities, community colleges, junior colleges, colleges, or universities as may be deemed appropriate for the purpose of carrying out the CEP duties.[12]
- Ensuring that such local agreements require minimum performance standards and standards for measurable objectives, in accordance with established Department of Education standards.[13]

[5] Section 951.23(1)(a) and (d), F.S., define county detention facility to mean a county jail, a county stockade, a county work camp, a county residential probation center, and any other place except a municipal detention facility used by a county or county officer for the detention of persons charged with or convicted of either a felony or misdemeanor; and a municipal detention facility to mean a city jail, a city stockade, a city prison camp, and any other place except a county detention facility used by a municipality or municipal officer for the detention of persons charged with or convicted of violation of municipal laws or ordinances.
[6] Section 951.176, F.S.
[7] Section 951.176, F.S., also requires the development of a cooperative agreement with the local school district and applicable law enforcement units to address the notification requirement and the provision of educational services to these youth.
[8] Section 951.175, F.S.
[9] Section 944.801(1), F.S.
[10] Section 944.801(3)(a), F.S., also provides that the information collected must include the inmate's areas of educational or vocational interest, vocational skills, and level of education.
[11] Section 944.801(3)(d), F.S.
[12] Section 944.801(3)(e), F.S.
[13] *Id*.

- Developing and maintaining complete and reliable statistics on the number of high school equivalency diplomas and vocational certificates issued by each institution in each skill area, the change in inmate literacy levels, and the number of inmate admissions to and withdrawals from education courses.[14]
- Ensuring every inmate who has two years or more on his or her sentence at the time of being received at an institution and who lacks basic and functional literacy skills as defined in s. 1004.02, F.S.,[15] attends not less than 150 hours of sequential instruction in a correctional adult basic education program.[16]
- Ensure that all education staff are certified in accordance with the Department of Education standards.[17]

Providers of K-20 Education in Florida

School Districts

A district school system includes all public schools, classes, and courses of instruction and all services and activities directly related to education in that district which are under the direction of the district school officials.[18] Any district school board, after first obtaining the approval of the Department of Education, may, as a part of the district school system, organize, establish, and operate a career center, or acquire and operate a career center previously established.[19]

Charter Schools

Charter schools are nonsectarian, public schools that operate under a performance contract with a sponsor. This performance contract is known as a "charter."[20] The charter exempts the school from many regulations applicable to traditional public schools to encourage the use of innovative learning methods.[21] One of the guiding principles of charter schools is to meet high standards of student achievement while providing parents flexibility to choose among diverse educational opportunities within the state's public school system.[22] The school must be operated by a Florida College System institution, municipality, or nonprofit organization. While a charter school must be a public or nonprofit entity, it may be managed by a for-profit education management

[14] Section 944.801(3)(g), F.S.
[15] Section 1004.02(4), F.S., defines basic literacy to mean the demonstration of academic competence from 2.0 through 5.9 educational grade levels as measured by means approved for this purpose by the State Board of Education. Section 1004.02(15), F.S., defines functional literacy to mean the demonstration of academic competence from 6.0 through 8.9 educational grade levels as measured by means approved for this purpose by the State Board of Education.
[16] Section 944.801(3)(i), F.S., further provides that highest priority of inmate participation must be focused on youthful offenders and those inmates nearing release from the correctional system and that an inmate is not allowed to participate in the adult basic education program if he or she is serving a life sentence or is under sentence of death, specifically exempted for security or health reasons, housed at a community correctional center, road prison, work camp, or vocational center, attains a functional literacy level after attendance in fewer than 150 hours of adult basic education instruction, or is unable to enter such instruction because of insufficient facilities, staff, or classroom capacity.
[17] Section 944.801(3)(k), F.S. *See* ss. 1002.33(12)(f), 1012.54, 1012.55, and 1012.56, F.S.

[22] Section 1002.33(2)(a)1., F.S.

organization.[23] A district school board may sponsor a charter school in the county over which the district school board has jurisdiction.[24]

Virtual Instruction

The Florida Virtual School (FVS) is established for the development and delivery of online and distance learning education and its mission is to provide students with technology-based educational opportunities to gain the knowledge and skills necessary to succeed.[25] The school must serve any student in the state and must give priority to:

- Students who need expanded access to courses in order to meet their educational goals, such as home education students and students in inner-city and rural high schools who do not have access to higher-level courses; and
- Students seeking accelerated access in order to obtain a high school diploma at least one semester early.[26]

There is no specific prohibition against district, charter, or virtual schools providing classes to local or state inmates or in defining "student" to exclude inmates from such instruction.

Workforce Education Through K-20 School Providers

Florida school districts are encouraged to develop educational opportunities for adults who have earned a diploma or high school equivalency diploma, but who lack the basic skills necessary to function effectively in everyday situations, to enter the job market, or to enter career certificate instruction.[27] Each district school board or Florida College System institution board of trustees must negotiate with the local workforce development board for basic and functional literacy skills assessments for participants in the welfare transition employment and training programs. Such assessments are conducted at a site mutually acceptable to the district school board or Florida College System institution board of trustees and the local workforce development board.[28]

Any workforce education program may be conducted by a Florida College System institution and school district unless restricted by statute.[29] Additionally, s. 1004.98, F.S., establishes the workforce literacy program within the Florida College System institutions and school districts. Workforce literacy programs are designed:

- To ensure that a sufficient numbers of employees who possess the skills necessary to perform in entry-level occupations exist;
- To adapt to technological advances in the workplace; and

[28] Section 1004.93(3)(a), F.S.
[29] Section 1011.80(2), F.S. Section 1011.80(1), F.S., defines the terms workforce education and workforce education program to include: a) adult general education programs designed to improve the employability skills of the state's workforce as defined in s. 1004.02(3), F.S; b) career certificate programs, as defined in s. 1004.02(20), F.S.; c) applied technology diploma programs; d) continuing workforce education courses; e) degree career education programs; f) apprenticeship and preapprenticeship programs as defined in s. 446.021, F.S.

- With the intention of supporting economic development in Florida by increasing adult literacy and producing an educated workforce.[30]

Florida College System institutions and school districts may also offer courses that assist adults with gaining the communication and computation skills necessary to complete a career program, to gain or maintain entry-level employment, or to upgrade employment.[31]

Funding for Workforce Education Programs

Expenditures for the continuing workforce education programs provided by the Florida College System institutions or school districts must be fully supported by fees. For all other workforce education programs, state funding must equal 75 percent of the average cost of instruction with the remaining 25 percent made up from student fees, which are based on a uniform fee calculated and set at the state level, as adopted by the State Board of Education, unless otherwise specified in the General Appropriations Act. For fee-exempt students pursuant to s. 1009.25, F.S., unless otherwise provided for in law, state funding must equal 100 percent of the average cost of instruction.[32]

Since 2011, state funds allocated for postsecondary workforce programs are explicitly prohibited from being used to educate state or federal inmates.[33]

Agency Declaratory Statements

The Administrative Procedure Act provides uniform procedures for agencies to exercise their authority, and is applicable to every Florida administrative agency.[34]

A declaratory statement is meant to "'enable members of the public to definitively resolve ambiguities of law arising in the conduct of their daily affairs or in the planning of their future affairs' and 'to enable the public to secure definitive binding advice as to the applicability of agency-enforced law to a particular set of facts.'"[35] A petition for declaratory statement must include a petitioner's specific set of circumstances and the applicable law, rule, or order he or she wishes to have interpreted in light of those circumstances.[36]

When a petitioner files a petition for a declaratory statement with an agency, the agency must file a notice of the petition in the next available issue of the Florida Administrative Register and transmit copies of the petition to the Joint Administrative Procedures Committee.[37] Within 90

[35] Section 120.565(1), F.S.; *Fla. Dept. of Bus. & Pro. Reg., Div. of Pari-Mutuel Wagering v. Invest. Corp. of Palm Bch.*, 747 So. 2d 374, 376 (Fla. 1999), *quoting* Patricia A. Dore, *Access to Florida Administrative Proceedings*, 13 Fla. St. U. L. Rev. 965 (1986).
[36] Section 120.565(2), F.S.
[37] Section 120.565(3), F.S. The Joint Administrative Procedures Committee (JAPC) is a joint standing committee of the Legislature created by Rule 4.1 of the Joint Rules of the Florida Legislature. It is composed of five Senators appointed by the President of the Senate and six Representatives appointed by the Speaker of the House of Representatives. The primary function of JAPC is to generally review agency action pursuant to the operation of the Administrative Procedure Act in

days from the petition's filing, the agency must either issue a declaratory statement or deny the petition. The agency must give notice of its action in the next available issue of the Florida Administrative Register.[38]

Generally, an agency will only issue a declaratory statement on actions that will take place in the future.[39] However, the fact pattern must not be hypothetical so as to amount to a request for an advisory opinion regarding facts that are only 'contingent, uncertain, [and] rest in the future."[40]

Current law does not require a fee for filing a petition for declaratory statement with an agency.

Department of Business and Professional Regulation

Section 20.165, F.S., establishes the organizational structure of the Department of Business and Professional Regulation (DBPR), which has 12 divisions tasked with the regulation of several professions and businesses.[41]

Chapter 455, F.S., provides the general powers of the DBPR and sets forth the procedural and administrative framework for all of the professional boards housed under the DBPR as well as the Divisions of Certified Public Accounting, Professions, Real Estate, and Regulation.[42]
The DBPR may engage in the regulation of professions "only for the preservation of the health, safety, and welfare of the public under the police powers of the state."[43] Regulation is required when:

- The potential for harming or endangering public health, safety, and welfare is recognizable and outweighs any anticompetitive impact that may result;
- The public is not effectively protected by other state statutes, local ordinances, federal legislation, or other means; and
- Less restrictive means of regulation are not available.[44]

However, "neither the department nor any board may create a regulation that has an unreasonable effect on job creation or job retention," or a regulation that unreasonably restricts the ability of those who desire to engage in a profession or occupation to find employment.[45]

When a person is authorized to engage in a profession or occupation in Florida, the DBPR issues a "permit, registration, certificate, or license" to the licensee.[46]

[44] *Id.*
[45] Section 455.201(4)(b), F.S.
[46] Section 455.01(4) and (5), F.S.

In Fiscal Year 2016-2017, there were 412,872 active licensees in the Division of Professions,[47] including:

- Architects and interior designers;
- Asbestos consultants and contractors;
- Athlete agents;
- Auctioneers;
- Barbers (19,098 active and 199 inactive);
- Building code administrators and inspectors;
- Community association managers;
- Construction industry contractors (71,818 active and 15,004 inactive);
- Cosmetologists (237,090 active and 1,600 inactive);
- Electrical contractors (11,960 active and 1,285 inactive);
- Employee leasing companies;
- Geologists;
- Home inspectors;
- Harbor pilots;
- Landscape architects;
- Mold-related services;
- Talent agencies; and
- Veterinarians.[48]

Sections 455.203 and 455.213, F.S., establish general licensing authority for the DBPR, including the authority to charge license fees and license renewal fees. Each board within the DBPR must determine by rule the amount of license fees for each profession, based on estimates of the required revenue to implement the regulatory laws affecting the profession.[49]

Barbering

The term "barbering" in ss. 476.014 through 476.254, F.S., (the Barbers' Act) includes any of the following practices when done for payment: shaving, cutting, trimming, coloring, shampooing, arranging, dressing, curling, or waving the hair or beard or applying oils, creams, lotions, or other preparations to the face, scalp, or neck, either by hand or by mechanical appliances.[50]

An applicant for licensure as a barber must pass an examination. To be eligible to take the examination, the applicant must:

- Be at least 16 years of age;
- Pay the application fee; and

[47] *See* Department of Business and Professional Regulation, *Annual Report, Fiscal Year 2016-2017*, available at http://www.myfloridalicense.com/dbpr/os/documents/DivisionAnnualReport.pdf?x40199 (last visited Feb. 15, 2018) at pages 21 and 22. Of the total 434,574 licensees in the Division of Professions, 21,702 are inactive. *Id*. at page 22.
[48] *Id*.
[49] Section 455.219(1), F.S.
[50] *See* s. 476.034(2), F.S. The term does not include those services when done for the treatment of disease or physical or mental ailments.

- Have held an active valid license in another state for at least one year,[51] or have a minimum of 1,200 hours of specified training.[52]

Alternatively, a person may apply for and receive a "restricted license" to practice barbering, which authorizes the licensee to practice only in areas in which he or she has demonstrated competency pursuant to rules of the Barbers' Board.[53]

Nail and Facial Specialists, Hair Braiders, Hair Wrappers, and Body Wrappers

Chapter 477, F.S., governs the licensing and regulation of cosmetologists, hair braiders, hair wrappers, nail specialists, facial specialists, full specialists, body wrappers, and related salons in the state. The Board of Cosmetology, within the DBPR's Division of Professions, processes license applications, reviews disciplinary cases, and conducts informal administrative hearings relating to licensure and discipline.[54]

Individuals are prohibited from providing manicures, pedicures, or facials without first becoming licensed as a cosmetologist or registered as a nail specialist, facial specialist, or full specialist.[55]

A "specialist" is "any person holding a specialty registration in one or more of the specialties registered under [ch. 477, F.S.]."[56] The term "specialty" is defined as "the practice of one or more of the following:

- Manicuring, or the cutting, polishing, tinting, coloring, cleansing, adding, or extending of the nails, and massaging of the hands. This term includes any procedure or process for the affixing of artificial nails, except those nails which may be applied solely by use of a simple adhesive.
- Pedicuring, or the shaping, polishing, tinting, or cleansing of the nails of the feet, and massaging or beautifying of the feet.
- Facials, or the massaging or treating of the face or scalp with oils, creams, lotions, or other preparations, and skin care services."[57]

An applicant for a specialist license must:

- Be at least 16 years of age;
- Obtain a certificate of completion from an approved specialty education program; and

---

[51] Licensure by endorsement may also allow a practitioner holding an active license in another state or country to qualify for licensure in Florida. *See* s. 476.144(5), F.S.

[52] *See* s. 476.114(2), F.S.; the training must include, but is not limited to the completion of services directly related to the practice of barbering at a licensed school of barbering, a public school barbering program, or a government-operated barbering program in Florida.

[53] *See* s. 476.144(6), F.S.

[54] *See* Department of Business and Professional Regulation, *Cosmetology*, available at http://www.myfloridalicense.com/DBPR/cosmetology/ (last visited Feb. 15, 2018).

[55] *See* Florida Department of Business and Professional Regulation, *Board of Cosmetology Frequently Asked Questions and Answers* (Aug. 2017), available at http://www.myfloridalicense.com/dbpr/pro/cosmo/documents/cosmo_faq.pdf (last visited Feb. 14, 2018). The application of polish to fingernails and toenails is considered manicuring, even though the individual is not cutting, cleansing, adding, or extending the nails. Therefore, a registration as a specialist or licensure as a cosmetologist is required to apply polish to fingernails and toenails for compensation. *See* s. 477.013(6)(a) and (b), F.S.

[56] *See* s. 477.013(5), F.S.

[57] *See* s. 477.013(6), F.S.

- Submit an application for registration to the DBPR with the registration fee.[58]

A "cosmetologist" is a person who is licensed to engage in the practice of cosmetology.[59] "Cosmetology" is "the mechanical or chemical treatment of the head, face, and scalp for aesthetic rather than for medical purposes, including, but not limited to, hair shampooing, hair cutting, hair arranging, hair coloring, permanent waving, and hair relaxing for compensation. This term also includes performing hair removal, including wax treatments, manicures, pedicures, and skin care services."[60]

Certain persons who apply cosmetic products (makeup) are exempt from ch. 477, F.S., under limited conditions, including application of such products in photography studio salons, in connection with certain retail sales, or during the production of qualified films.[61] In addition, persons who provide makeup in a theme park or entertainment complex to actors and others or the general public are exempt from licensing requirements.[62]

An applicant for a cosmetologist license must pass a licensure examination and:
- Be at least 16 years of age;
- Have a high school diploma;
- Submit an application with the applicable fee and examination fee; and
- Be licensed in another state or country for at least one year, or received 1,200 hours training, including completion of an education at an approved cosmetology school or program.

Licensing and Criminal Background

Section 112.011, F.S., outlines general guidelines for considering criminal convictions during licensure determinations. Generally, a person may be denied a professional license based on his or her prior conviction of a crime if the crime was a felony or first-degree misdemeanor that is directly related to the standards determined by the regulatory authority to be necessary and reasonably related to the protection of the public health, safety, and welfare for the specific profession for which the license is sought.[63] Notwithstanding any law to the contrary, a state agency may not deny an application for a license based solely on the applicant's lack of civil rights.[64]

DBPR

The regulatory boards of the DBPR, or the department if there is no board, may deny a license application for any person who it finds guilty of any of the grounds for discipline set forth in s. 455.227(1), F.S., or set forth in the profession's practice act.[65] Specifically, the regulatory

[58] *See* s. 477.0201, F.S.
[59] *See* s. 477.013(3), F.S.
[60] *See* s. 477.013(4), F.S. A licensed cosmetologist is not required to register separately as a hair braider, hair wrapper, body wrapper, or specialist. *See supra* at note 55.
[61] *See* ss. 477.013(11), 477.0135(1)(f), and 477.0135(5), F.S.

[65] Section 455.227(2), F.S.

board, or the department if there is no board, may deny a license application for any person having been:

> convicted or found guilty of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction which relates to the practice of, or the ability to practice, a licensee's profession.[66]

Section 455.227, F.S., does not specifically require the DBPR or the applicable regulatory board to consider the passage of time since the disqualifying criminal offense before denying or granting a license.

Department of Health

The Department of Health (DOH) or an applicable board may deny the licensure of any applicant who has been "convicted of or pled guilty or nolo contendere to, regardless of adjudication, any felony or misdemeanor related to the practice of a health care profession regulated by this state"[67] or related to certain types of fraud,[68] or for other reasons in the applicable practice act.

There are no statutory provisions or rules that prohibit individuals from applying for licensure while they are still incarcerated or under some form of supervised release.[69]

Certified Nursing Assistants

The Board of Nursing within the DOH is responsible for licensing and regulating the certified nursing assistants (CNA) under part II of ch. 464, F.S.[70] In Fiscal Year 2015-2016, there were 146,495 active certified nursing assistants.[71]

The "practice of a certified nursing assistant" means:

> providing care and assisting persons with tasks relating to the activities of daily living. Such tasks are those associated with personal care, maintaining mobility, nutrition and hydration, toileting and elimination, assistive devices, safety and cleanliness, data gathering, reporting abnormal signs and symptoms, postmortem care, patient socialization and reality orientation, end-of-life care, cardiopulmonary resuscitation and emergency care, residents' or patients' rights, documentation of nursing-assistant services, and other tasks that a certified nurse assistant may

[67] Sections 456.024(3)(c), 456.072(1)(c), (x), (ii) and (ll), and 456.071(2)(a), F.S.
[68] Section 456.0635, F.S.
[69] Florida Department of Health, *Agency Analysis of HB 1041*, p. 2 (Jan. 24, 2018) (on file with the Criminal Justice Committee).
[70] *See* s. 489.107, F.S.
[71] See Florida Department of Health, Division of Medical Quality Assurance, *Annual Report & Long-range Plan, Fiscal Year 2016-2017*, p. 14, available at http://mqawebteam.com/annualreports/1617/#1/z (last visited Feb. 14, 2018). Of the total 193,637 certified nursing assistants, 42,209 are in-state delinquent, 2,019 are out-of-state delinquent, and are active military.

> perform after training beyond that required for initial certification and upon validation of competence in that skill by a registered nurse.[72]

The definition of "practice of a certified nursing assistant" does not restrict a person who is otherwise trained and educated from performing the tasks specified in the definition.[73]

To be certified in Florida, a person must have a high school diploma, or its equivalent; or be at least 18 years of age, and pass a nursing assistant competency examination. Alternatively, a person may be certified in Florida if he or she is certified by another state and has not been found to have committed abuse, neglect, or exploitation in that state.[74]

The qualifications for certification as a CNA do not specifically refer to a person's criminal background, but an applicant must pass a background screening pursuant to s. 400.215, F.S., which requires the personnel of nursing homes and related healthcare facilities to pass a level two background screening, or s. 408.809, F.S.[75] The background screening must be completed every five years following licensure, employment, or entering into contract in a capacity that requires background screening.[76]

Level two background screening ensures that a subject of the screening has not been arrested for, is not awaiting final disposition of, has not been found guilty of, regardless of adjudication, or not entered a plea of nolo contendere or guilty to, or has been adjudicated delinquent and the record has not been sealed or expunged for, any of the 52 prohibited offenses.[77] The prohibited offenses include violent crimes, property crimes, and sexual offenses.[78]

In addition to the crimes specified under s. 435.04, F.S., a CNA may not have a felony record for certain specified felony financial crimes, including Medicaid fraud and forgery.[79]

A level two background screening includes fingerprinting for statewide criminal history records checks through the Florida Department of Law Enforcement (FDLE) and national criminal history checks through the Federal Bureau of Investigation (FBI), and may include local criminal records checks through local law enforcement agencies. Once the background screening is complete, and the FDLE receives the information from the FBI, the criminal history information is transmitted to the DOH. The DOH determines if the screening contains any disqualifying information for employment.

If a person is disqualified from employment due to failing the required background screening, the DOH may grant an exemption from disqualification for:

[73] *Id*.
[74] Section 464.203, F.S.
[75] Section 408.809(1), F.S.
[76] Section 408.809(2), F.S.
[77] Section 435.04, F.S.
[78] *See* s. 435.04(2), F.S.
[79] *See* s. 408.809(4), F.S.

- Felonies for which at least three years have elapsed since the applicant for the exemption has completed or been lawfully released from confinement, supervision, or nonmonetary condition imposed by the court for the disqualifying felony;
- Misdemeanors prohibited under any of the statutes cited in this chapter or under similar statutes of other jurisdictions for which the applicant for the exemption has completed or been lawfully released from confinement, supervision, or nonmonetary condition imposed by the court;
- Offenses that were felonies when committed but that are now misdemeanors and for which the applicant for the exemption has completed or been lawfully released from confinement, supervision, or nonmonetary condition imposed by the court; or
- Findings of delinquency.[80]

However, DOH may not grant an exemption until at least three years have elapsed since the applicant's completion or lawful release from confinement, supervision, or nonmonetary condition imposed by the court for the offense if the:

- Applicant was a juvenile at the time of the commission of the offense;
- Offense committed is a disqualifying crime that would be considered a felony if committed by an adult; and
- Record has not been sealed or expunged.[81]

An applicant who seeks an exemption must first pay any court-ordered amount for any fee, fine, fund, lien, civil judgment, application, costs of prosecution, trust, or restitution as part of the judgment and sentence for the disqualifying crime.[82]

However, the DOH may not grant an exemption to an individual who is found guilty of, regardless of adjudication, or who has entered a plea of nolo contendere or guilty to, any felony covered by s. 435.03, F.S., or s. 435.04, F.S., solely by reason of any pardon, executive clemency, or restoration of civil rights.[83]

An exemption may also not be granted to anyone who is a sexual predator, career offender, or sexual offender (unless not required to register).[84] The agency may not grant an exemption from disqualification to persons with a criminal history that includes other violent felonies, crimes against children, and sex-related crimes, such as felony domestic violence, luring or enticing a child, sexual battery, child pornography, and child abuse.[85]

III. Effect of Proposed Changes:

Education of State and County Inmates (Sections 5 through 7)

The bill amends ss. 951.176 and 944.801, F.S., respectively, to authorize a county or municipal detention facility or the DOC to contract with a district school board, the Florida Virtual School,

[80] Section 435.07(1)(a), F.S.

[85] *See* s. 435.07(4)(c), F.S.

a Florida College System institution, a virtual education provider approved by the State Board of Education, or a charter school to provide educational services. The educational services may include any educational, career, or vocational training that is authorized by a county or municipal detention facility or the DOC.

The bill amends s. 1011.80, F.S., to allow state funding for postsecondary education to be used on inmates with less than 60 months of time remaining on his or her sentence.

Declaratory Statements (Section 1)

The bill creates a new declaratory statement process that permits a person who desires to become licensed in a state-regulated profession or occupation to obtain a binding determination of whether his or her criminal conviction or sanction will prevent such licensure, registration, or certification in the profession or occupation.

A person may seek the agency's opinion prior to the person possessing the training or education required for the license, registration, or certificate in the profession or occupation. Additionally, he or she may request the agency's determination while still under criminal confinement or supervision.

The petition may include mitigating factors or other information the petitioner believes relevant to establish the petitioner's eligibility, including, but not limited to:

- The time elapsed since completion of or lawful release from confinement, supervision, or nonmonetary condition imposed by the court for a disqualifying offense; and
- The petitioner's standing in his or her community.

The agency's declaratory statement must further indicate whether:

- The petitioner is disqualified from obtaining the license, registration, or certification due to the petitioner's criminal background, regardless of the petitioner's education, training, experience, or other prerequisites required for the license, registration, or certification.
- The petitioner is not eligible for a specified occupational or professional license, registration, or certification because of his or her criminal background.
- The agency's determination of disqualification as a result of criminal background may be reversed based on evidence of rehabilitation or mitigation.
- Any federal laws or regulations or any conditions imposed by the court on the petitioner may impede his or her licensure, registration, or certification in the profession or occupation.
- Conditions or restrictions imposed by the court on the petitioner for a disqualifying offense may impede the petitioner's licensure, registration, or certification in the profession or occupation.

The agency's conclusion is binding on the agency as to the petitioner, but any subsequent criminal history may form an independent basis for denial of licensure, registration, or certification.

An agency may require a petitioner to submit the following with his or her petition for declaratory statement:

- A fee of not more than $100;

- A certified copy of each criminal judgment rendered against the petitioner;
- A complete set of fingerprints; and
- A fingerprint processing fee.

The agency must submit the fingerprints to the FDLE for a state criminal history record check and the FDLE must forward the fingerprints to the FBI for a national criminal history record check.

Licensing and Criminal Background (Sections 2 through 4)

The bill creates a process for reviewing the criminal history of applicants for specified professions or occupations regulated by the DBPR and the DOH.

The bill amends s. 455.213, F.S., dealing with the general licensing provisions of the DBPR, and s. 464.203, F.S., dealing with the certification requirements for certified nursing assistants under the DOH.

The license application review process in the bill applies to the following professions and occupations:

- Barbers.
- Cosmetologists and cosmetology specialists (i.e., hair braiders, hair wrappers, and body wrappers).
- Construction Professionals, including:
  - Air-conditioning contractor;
  - Electrical contractor;
  - Mechanical contractor;
  - Plumbing contractor;
  - Pollutant storage systems contractor;
  - Roofing contractor;
  - Septic tank contractor;
  - Sheet metal contractor;
  - Solar contractor;
  - Swimming pool and spa contractor;
  - Underground utility and excavation contractor; and
  - Other specialty contractors whose scope of work and responsibility is limited to a particular phase of construction, e.g. drywall, glazing, swimming pool excavation, etc.
- Certified Nursing Assistants.

The process created in the bill:

- Permits a person to apply for a license while under criminal confinement (incarceration) or supervision.
- Limits the period during which the agency may consider criminal history as an impairment to licensure to seven years from the date of the criminal conviction for CNAs and five years from the date of criminal conviction for all other professions covered by the bill.
- Requires each agency to identify by rule the crimes that <u>do not</u> impair a person's qualifications for licensure.

- Requires each agency to identify by rule the crimes that do impair a person's qualifications for licensure.
- Prohibits the board from denying an application for a license solely on the basis of the applicant's current confinement or supervision.
- Authorizes board to stay the issuance of a license until the applicant is lawfully released from confinement or supervision, the applicant notifies the board of such release, and the board has verified the release with the DOC.
- Requires an agency to permit applicants who are incarcerated or under supervision to appear by teleconference or video conference at a meeting of a board or the agency for a hearing concerning the person's license application.
- Requires the DOC to cooperate and coordinate with the board or department, as applicable, to facilitate the appearance of the applicant at the hearing in person, by teleconference, or by video conference, as appropriate.

The bill amends s. 400.211, F.S., incorporating changes made by the act.

The bill takes effect July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The bill authorizes a charter school or virtual instruction provider, which can be managed by a for-profit entity, to contract with the DOC or a county or municipal entity to provide educational services to inmates. To the extent that this bill increases the pool of students that a private company can serve, it may result in a positive fiscal impact to the private company.

Additionally, persons who submit a petition for a declaratory statement from an agency to determine whether the petitioner's criminal history affects the person's eligibility for a

license, registration, or certificate, must pay a filing fee not to exceed $100 for the petition and the actual cost of state and federal processing related to the criminal background check. However, such individuals may also forego certain unnecessary schooling, training, or application costs, depending on the agency's determination.

C. Government Sector Impact:

The bill authorizes the state or a local entity to contract with district, charter, or virtual school entities (school providers) to offer educational services to its inmates. Such services will be provided by the school providers through the workforce education models that currently exist. The DOC or a county and municipal detention facility may use funds appropriated for the education of inmates to contract with the school providers to offer such educational services.

The bill authorizes persons to submit a petition for a declaratory statement from an agency to determine whether the petitioner's criminal history affects the person's eligibility for a license, etc. To the extent that the bill results in an increase in submissions of petitions for declaratory statements, this may result in an increased workload to government agencies that provide occupational or professional licenses. Additionally, the agencies will likely have increased revenues associated with the declaratory statement petition fee of not more than $100.

VI. Technical Deficiencies:

None.

VII. Related Issues:

SB 2500 appropriates $2,000,000 from the General Revenue Fund for postsecondary education of state inmates.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 120.565, 400.211, 455.213, 464.203, 944.801, 951.176, and 1011.80.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS by Appropriations Subcommittee on Criminal and Civil Justice on February 14, 2018:
The committee substitute:

- Permits a person to submit a petition for declaratory statement to any Florida agency to determine the effect of a criminal background on his or her eligibility for occupational or professional licensure;

- Requires the agency to indicate specified information in its declaratory statement conclusion;
- Requires the agency's conclusion in the declaratory statement is binding on the agency as to the petitioner;
- Requires specified submissions to be included with the petition for declaratory statement, including a fee of not more than $100;
- Prohibits an agency from denying an application for licensure for certain professions if a specific duration has passed since the applicant's conviction;
- Authorizes a person to apply for licensing from the DBPR prior to being released from incarceration and provides a process for the staying of the issuance of the license until the person's release from custody;
- Specifies accommodations that an agency must make for applicants who are under confinement or supervision at the time of their application;
- Requires pertinent boards under the DBPR and the DOH to adopt rules that specify crimes that constitute grounds for licensure denial;
- Expands the entities that the DOC or a county may contract with to provide educational services for inmates to include a Florida College System institution or a virtual education provider approved by the State Board of Education; and
- Allows state funds to be expended for inmates that have 60 months left on the term of incarceration.

B. Amendments:

None.

Senate Amendment (with title amendment)

Delete lines 181 - 265

and insert:

(b) Except as provided in s. 435.07(4) and convictions pursuant to chapter 812, a conviction for a crime more than 5 years before the date of the application may not be grounds for denial of a license specified in paragraph (a). For purposes of this paragraph, the term "conviction" means having been found guilty, with or without adjudication of guilt, as a result of a

jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

(c)1. A person may apply for a license before his or her lawful release from confinement or supervision. The department may not charge an applicant an additional fee for being confined or under supervision. The board may not deny an application for a license solely on the basis of the applicant's current confinement or supervision.

2. After a license application is approved, the board may stay the issuance of a license until the applicant is lawfully released from confinement or supervision and the applicant notifies the board of such release. The board must verify the applicant's release with the Department of Corrections before it issues a license.

3. If an applicant is unable to appear in person due to his or her confinement or supervision, the board must permit the applicant to appear by teleconference or video conference, as appropriate, at any meeting of the board or other hearing by the agency concerning his or her application.

4. If an applicant is confined or under supervision, the Department of Corrections and the board shall cooperate and coordinate to facilitate the appearance of the applicant at a board meeting or agency hearing in person, by teleconference, or by video conference, as appropriate.

(d) The board shall adopt rules specifying the crimes that, if committed, and regardless of adjudication, relate to the practice of the profession or the ability to practice the profession and may constitute grounds for denial of a license.

Section 13. Present subsections (2) through (8) of section

464.203, Florida Statutes, are redesignated as subsections (3) through (9), respectively, and a new subsection (2) is added to that section, to read:

464.203 Certified nursing assistants; certification requirement.—

(2)(a)1. Except as provided in s. 435.07(4), a conviction for a crime more than 7 years before the date of the application may not be grounds for denial of a certificate to practice as a certified nursing assistant.

2. Except as provided in s. 435.07(4), a conviction for a crime more than 7 years before the date of the application may not be grounds for failure of a required background screening.

3. For purposes of this paragraph, the term "conviction" means having been found guilty, with or without adjudication of guilt, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

(b)1. A person may apply for a certificate to practice as a certified nursing assistant before his or her lawful release from confinement or supervision. The department may not charge an applicant an additional fee for being confined or under supervision. The board may not deny an application for a certificate solely on the basis of the person's current confinement or supervision.

2. After a certification application is approved, the board may stay the issuance of a certificate until the applicant notifies the board of his or her lawful release from confinement or supervision. The board must verify the applicant's release with the Department of Corrections before it issues a license.

3. If an applicant is unable to appear in person due to his

or her confinement or supervision, the board must permit the applicant to appear by teleconference or video conference, as appropriate, at any meeting of the board or other hearing by the agency concerning his or her application.

4. If an applicant is confined or under supervision, the Department of Corrections and the board shall cooperate and coordinate to facilitate the appearance of the applicant at a board meeting or agency hearing in person, by teleconference, or by video conference, as appropriate.

(c) The board shall adopt rules specifying the crimes that, if committed, and regardless of adjudication, relate to the practice of the profession or the ability to practice the profession and may constitute grounds for denial of a certification.

additional fees for an applicant confined or under supervision; prohibiting the board from basing a denial of a license application solely on the applicant's current confinement or supervision; authorizing the board to stay the issuance of an approved license under certain circumstances; requiring the board to verify an applicant's release with the Department of Corrections; providing requirements for the appearance of certain applicants at certain meetings; requiring the board to adopt rules specifying how certain crimes affect an applicant's eligibility for licensure; conforming a cross-reference; amending s. 464.203, F.S.; providing that the conviction of a crime before a specified date may not serve as grounds for the denial of a certification under certain circumstances; providing that the conviction of a crime before a specified date may not serve as grounds for the failure of a background screening; defining the term "conviction"; authorizing a person to apply for certification before his or her lawful release from confinement or supervision; prohibiting additional fees for an applicant confined or under supervision; prohibiting the board from basing the denial of a certification solely on the applicant's current confinement or supervision; authorizing the board to stay the issuance of an approved certificate under certain circumstances; requiring the board to verify an applicant's release with the Department of

Corrections; providing requirements for the appearance of certain applicants at certain meetings; requiring the board to adopt rules specifying how certain crimes may affect an applicant's eligibility for certification; amending s. 400.211, F.S.; conforming a cross-reference; amending s. 944.801, F.S.; authorizing the Department of Corrections to contract with certain entities to provide educational services for the Correctional Education Program; amending s. 951.176, F.S.; authorizing each county to contract with certain entities to provide educational services for county inmates; amending s. 1011.80, F.S.; removing a provision prohibiting state funds for the operation of postsecondary workforce programs from being used for the education of certain state inmates; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (4) is added to section 120.565, Florida Statutes, to read:

120.565 Declaratory statement by agencies.—

(4)(a) Any person may seek a declaratory statement regarding an agency's opinion as to the effect of the petitioner's criminal background on his or her eligibility for a specific occupational or professional license, registration, or certificate issued by the agency based on the applicable statutes and rules for the occupation or profession. The petition may include mitigating factors or other information the

petitioner believes relevant to establish the petitioner's eligibility, including, but not limited to, the time elapsed since completion of or lawful release from confinement, supervision, or nonmonetary condition imposed by the court for a disqualifying offense, and the petitioner's standing in his or her community. A person may seek a declaratory statement under this subsection before attaining any education, training, experience, or other prerequisites for the license, registration, or certification.

(b) The agency's conclusion in the declaratory statement must indicate whether:

1. The petitioner is disqualified from obtaining the license, registration, or certification due to the petitioner's criminal background, regardless of the petitioner's education, training, experience, or other prerequisites required for the license, registration, or certification.

2. The petitioner is not eligible for a specified occupational or professional license, registration, or certification because of his or her criminal background, but that the conclusion may be reversed upon the petitioner's presentation of evidence of rehabilitation or mitigation identified by the agency in the declaratory statement at any time subsequent to the issuance of the declaratory statement.

3. Federal laws or regulations may impede the petitioner's licensure, registration, or certification in the profession or occupation.

4. Conditions or restrictions imposed by the court on the petitioner for a disqualifying offense may impede the petitioner's licensure, registration, or certification in the

profession or occupation.

(c) The agency's conclusion in the declaratory statement shall be binding on the agency as to the petitioner, unless the petitioner's subsequent criminal history constitutes an independent basis for denial of the petitioner's application for a license, registration, or certification in the profession or occupation. The agency's conclusion is subject to judicial review pursuant to s. 120.68.

(d) A person seeking a declaratory statement under this subsection must submit to the agency, in addition to the petition for a declaratory statement:

1. A fee set by the agency not to exceed $100;

2. A certified copy of each criminal judgment rendered against the petitioner; and

3. A complete set of electronic fingerprints.

(e) The agency shall submit the fingerprints to the Department of Law Enforcement for a state criminal history record check and the Department of Law Enforcement shall forward them to the Federal Bureau of Investigation for a national criminal history record check. The agency shall review the criminal history record results to determine if the petitioner meets licensure, registration, or certification requirements. The petitioner shall pay the actual cost of state and federal processing in addition to the fee in subparagraph (d)1.

Section 2. Present subsections (3) through (12) of section 455.213, Florida Statutes, are redesignated as subsections (4) through (13), respectively, subsection (2) of that section is amended, and a new subsection (3) is added to that section, to read:

455.213 General licensing provisions.—

(2) Before the issuance of any license, the department may charge an initial license fee as determined by rule of the applicable board or, if no such board exists, by rule of the department. Upon receipt of the appropriate license fee, except as provided in subsection (4) ~~(3)~~, the department shall issue a license to any person certified by the appropriate board, or its designee, or the department when there is no board, as having met the applicable requirements imposed by law or rule. However, an applicant who is not otherwise qualified for licensure is not entitled to licensure solely based on a passing score on a required examination. Upon a determination by the department that it erroneously issued a license, or upon the revocation of a license by the applicable board, or by the department when there is no board, the licensee must surrender his or her license to the department.

(3)(a) Notwithstanding any other provision of law, the board shall use the process in this subsection for review of an applicant's criminal record to determine his or her eligibility for licensure as a:

1. Barber under chapter 476;

2. Cosmetologist or cosmetology specialist under chapter 477; or

3. Any of the following construction professions under chapter 489:

a. Air-conditioning contractor;

b. Electrical contractor;

c. Mechanical contractor;

d. Plumbing contractor;

e. Pollutant storage systems contractor;

f. Roofing contractor;

g. Septic tank contractor;

h. Sheet metal contractor;

i. Solar contractor;

j. Swimming pool and spa contractor;

k. Underground utility and excavation contractor; and

l. Other specialty contractors.

(b) A conviction for a crime more than 5 years before the date of the application may not be grounds for denial of a license specified in paragraph (a). For purposes of this paragraph, the term "conviction" means a determination of guilt that is the result of a plea or trial, regardless of whether adjudication is withheld.

(c)1. A person may apply for a license before his or her lawful release from confinement or supervision. The department may not charge an applicant an additional fee for being confined or under supervision. The board may not deny an application for a license solely on the basis of the applicant's current confinement or supervision.

2. After a license application is approved, the board may stay the issuance of a license until the applicant is lawfully released from confinement or supervision and the applicant notifies the board of such release. The board must verify the applicant's release with the Department of Corrections before it issues a license.

3. If an applicant is unable to appear in person due to his or her confinement or supervision, the board must permit the applicant to appear by teleconference or video conference, as

appropriate, at any meeting of the board or other hearing by the agency concerning his or her application.

4. If an applicant is confined or under supervision, the Department of Corrections and the board shall cooperate and coordinate to facilitate the appearance of the applicant at a board meeting or agency hearing in person, by teleconference, or by video conference, as appropriate.

(d) The board shall adopt rules specifying the crimes that, if committed, and regardless of adjudication, do not relate to the practice of the profession or the ability to practice the profession and do not constitute grounds for denial of a license.

(e) The board shall adopt rules specifying the crimes that, if committed, and regardless of adjudication, relate to the practice of the profession or the ability to practice the profession and may constitute grounds for denial of a license.

Section 3. Present subsections (2) through (8) of section 464.203, Florida Statutes, are redesignated as subsections (3) through (9), respectively, and a new subsection (2) is added to that section, to read:

464.203 Certified nursing assistants; certification requirement.—

(2)(a)1. Except as provided in s. 435.07(4), a conviction for a crime more than 7 years before the date of the application may not be grounds for denial of a certificate to practice as a certified nursing assistant.

2. Except as provided in s. 435.07(4), a conviction for a crime more than 7 years before the date of the application may not be grounds for failure of a required background screening.

3. For purposes of this paragraph, the term "conviction" means a determination of guilt that is the result of a plea or trial, regardless of whether adjudication is withheld.

(b)1. A person may apply for a certificate to practice as a certified nursing assistant before his or her lawful release from confinement or supervision. The department may not charge an applicant an additional fee for being confined or under supervision. The board may not deny an application for a certificate solely on the basis of the person's current confinement or supervision.

2. After a certification application is approved, the board may stay the issuance of a certificate until the applicant notifies the board of his or her lawful release from confinement or supervision. The board must verify the applicant's release with the Department of Corrections before it issues a license.

3. If an applicant is unable to appear in person due to his or her confinement or supervision, the board must permit the applicant to appear by teleconference or video conference, as appropriate, at any meeting of the board or other hearing by the agency concerning his or her application.

4. If an applicant is confined or under supervision, the Department of Corrections and the board shall cooperate and coordinate to facilitate the appearance of the applicant at a board meeting or agency hearing in person, by teleconference, or by video conference, as appropriate.

(c) The board shall adopt rules specifying the crimes that, if committed, and regardless of adjudication, do not relate to the practice of the profession or the ability to practice the profession and do not constitute grounds for denial of a

certification.

(d) The board shall adopt rules specifying the crimes that, if committed, and regardless of adjudication, relate to the practice of the profession or the ability to practice the profession and may constitute grounds for denial of a certification.

Section 4. Subsection (4) of section 400.211, Florida Statutes, is amended to read:

400.211 Persons employed as nursing assistants; certification requirement.—

(4) When employed by a nursing home facility for a 12-month period or longer, a nursing assistant, to maintain certification, shall submit to a performance review every 12 months and must receive regular inservice education based on the outcome of such reviews. The inservice training must meet all of the following requirements:

(a) Be sufficient to ensure the continuing competence of nursing assistants and must meet the standard specified in s. 464.203(8). ~~s. 464.203(7);~~

(b) Include, at a minimum:

1. Techniques for assisting with eating and proper feeding;

2. Principles of adequate nutrition and hydration;

3. Techniques for assisting and responding to the cognitively impaired resident or the resident with difficult behaviors;

4. Techniques for caring for the resident at the end-of-life; and

5. Recognizing changes that place a resident at risk for pressure ulcers and falls.~~; and~~

(c) Address areas of weakness as determined in nursing assistant performance reviews and may address the special needs of residents as determined by the nursing home facility staff.

Costs associated with this training may not be reimbursed from additional Medicaid funding through interim rate adjustments.

Section 5. Present subsections (4) and (5) of section 944.801, Florida Statutes, are renumbered as subsections (5) and (6), respectively, and a new subsection (4) is added to that section, to read:

944.801 Education for state prisoners.—

(4) The department may contract with a district school board, the Florida Virtual School, a Florida College System institution, a virtual education provider approved by the State Board of Education, or a charter school authorized to operate under s. 1002.33 to provide educational services for the Correctional Education Program. The educational services may include any educational, career, or workforce education training that is authorized by the department.

Section 6. Section 951.176, Florida Statutes, is amended to read:

951.176 Provision of education ~~programs for youth~~.—

(1) Each county may contract with a district school board, the Florida Virtual School, a Florida College System institution, a virtual education provider approved by the State Board of Education, or a charter school authorized to operate under s. 1002.33 to provide educational services for inmates at county detention facilities. The educational services may include any educational, career, or workforce education training

that is authorized by the sheriff or chief correctional officer, or his or her designee.

(2) Minors who have not graduated from high school and eligible students with disabilities under the age of 22 who have not graduated with a standard diploma or its equivalent who are detained in a county or municipal detention facility as defined in s. 951.23 shall be offered educational services by the local school district in which the facility is located. These educational services shall be based upon the estimated length of time the youth will be in the facility and the youth's current level of functioning. School district superintendents or their designees shall be notified by the county sheriff or chief correctional officer, or his or her designee, upon the assignment of a youth under the age of 21 to the facility. A cooperative agreement with the local school district and applicable law enforcement units shall be developed to address the notification requirement and the provision of educational services to these youth.

Section 7. Paragraph (b) of subsection (7) of section 1011.80, Florida Statutes, is amended to read:

1011.80 Funds for operation of workforce education programs.—

(7)

(b) State funds provided for the operation of postsecondary workforce programs may not be expended for the education of state inmates with more than 60 months of time remaining to serve on their sentence or federal inmates.

Section 8. This act shall take effect July 1, 2018.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 1318
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Criminal and Civil Justice) and Senator Rouson
SUBJECT:	Education for Prisoners
DATE:	March 1, 2018 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Cox	Jones	CJ	**Favorable**
2.	Forbes	Sadberry	ACJ	**Recommend: Fav/CS**
3.	Forbes	Hansen	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1318 authorizes a county or municipal detention facility or the Department of Corrections (DOC) to contract with a district school board, the Florida Virtual School, a Florida College System institution, a virtual education provider approved by the State Board of Education, or a charter school (school provider) to provide educational services to its inmates. The educational services may include any educational, career, or vocational training.

The bill allows state funding for postsecondary education and Florida College System institutions to be used for an inmate with less than 48 months of time remaining on his or her sentence.

The bill also makes various changes to procedures related to business licensing for persons who have previously been convicted of a criminal offense, including:

- Permits a person to submit a petition for declaratory statement to any Florida agency to determine the effect of a criminal background on his or her eligibility for occupational or professional licensure;
- Requires the agency to indicate specified information in its declaratory statement conclusion;
- Requires the agency's conclusion in the declaratory statement is binding on the agency as to the petitioner;
- Requires specified submissions to be included with the petition for declaratory statement, including a fee of not more than $100;

- Prohibits an agency from denying an application for licensure for certain professions if a specific duration has passed since the applicant's conviction of a specified offense;
- Authorizes a person to apply for licensing from the Department of Business and Professional Regulation (DBPR) prior to being released from incarceration and provides a process for the staying of the issuance of the license until the person's release from custody;
- Specifies accommodations that an agency must make for applicants who are under confinement or supervision at the time of their application; and
- Requires pertinent boards under the DBPR and Department of Health to adopt rules that specify crimes that constitute grounds for licensure denial.

The bill will likely have no fiscal impact on the school districts. If the DOC or county or municipal detention facilities elect to contract with a school provider to provide services under such contract, the services will need to be funded out of an appropriation specific for this purpose. The bill may result in an increased workload and revenues to agencies that must process the petitions for declaratory statements from a licensing agency. See Section V. Fiscal Impact Statement.

The bill is effective July 1, 2018.

II. Present Situation:

Sentencing of Inmates – Overview

A defendant that is convicted of a crime in the state of Florida may be incarcerated in either county jail or state prison based upon the degree of the offense. A number of factors are taken into consideration when determining whether a defendant will be committed to the custody of the jail or the DOC. A defendant convicted of a misdemeanor offense can be committed to the custody of the county's chief correctional officer for no more than one year for a first degree misdemeanor or 60 days for a second degree misdemeanor.[1]

For a defendant convicted of a felony offense, the Criminal Punishment Code[2] (Code) applies to sentencing for felony offenses committed on or after October 1, 1998.[3] The permissible sentence (absent a downward departure) for an offense ranges from the calculated lowest permissible sentence as determined by the Code to the statutory maximum for the primary offense. The statutory maximum sentence for a first-degree felony is 30 years, for a second-degree felony is 15 years, and for a third degree felony is 5 years.[4]

[1] Section 775.082(4), F.S.
[2] Sections 921.002-921.0027, F.S. *See* chs. 97-194 and 98-204, L.O.F. The Code is effective for offenses committed on or after October 1, 1998.
[3] Section 921.0022, F.S.
[4] *See* s. 775.082, F.S.

Education for County Inmates

Section 951.176, F.S., requires county and municipal detention facilities[5] to provide educational services to minors detained in such facilities if the minor has not graduated from high school or is an eligible student with disabilities under the age of 22 who has not graduated with a standard diploma or its equivalent. The educational services must be offered by the local school district in which the facility is located.[6] These educational services are based on the estimated length of time the youth will be in the facility and the youth's current level of functioning. School district superintendents or their designees must be notified by the county's chief correctional officer if a youth under the age of 21 is accepted into the facility.[7]

Florida law is silent as to whether a county or municipal detention facility is required to provide educational services to its adult inmates. However, the County Corrections Equality Act requires that females have access to educational, vocational training, rehabilitation and substance abuse treatment that are equivalent to that provided to male inmates.8

Education for State Prisoners

Florida law establishes (under the DOC) a Correctional Education Program (CEP), which must be composed of the educational facilities and services of all institutions, and facilities housing inmates operated by the DOC.[9] The duties of the CEP include, but are not limited to:

- Developing guidelines for collecting education-related information during the inmate reception process and for disseminating such information to the classification staff of the DOC.[10]
- Approving educational programs of the appropriate levels and types in the correctional institutions and developing procedures for the admission of inmate students into such programs.[11]
- Entering into agreements with public or private school districts, entities, community colleges, junior colleges, colleges, or universities as may be deemed appropriate for the purpose of carrying out the CEP duties.[12]

[5] Section 951.23(1)(a) and (d), F.S., define county detention facility to mean a county jail, a county stockade, a county work camp, a county residential probation center, and any other place except a municipal detention facility used by a county or county officer for the detention of persons charged with or convicted of either a felony or misdemeanor; and a municipal detention facility to mean a city jail, a city stockade, a city prison camp, and any other place except a county detention facility used by a municipality or municipal officer for the detention of persons charged with or convicted of violation of municipal laws or ordinances.
[6] Section 951.176, F.S.
[7] Section 951.176, F.S., also requires the development of a cooperative agreement with the local school district and applicable law enforcement units to address the notification requirement and the provision of educational services to these youth.
[8] Section 951.175, F.S.
[9] Section 944.801(1), F.S.
[10] Section 944.801(3)(a), F.S., also provides that the information collected must include the inmate's areas of educational or vocational interest, vocational skills, and level of education.
[11] Section 944.801(3)(d), F.S.
[12] Section 944.801(3)(e), F.S.

- Ensuring that such local agreements require minimum performance standards and standards for measurable objectives, in accordance with established Department of Education standards.[13]
- Developing and maintaining complete and reliable statistics on the number of high school equivalency diplomas and vocational certificates issued by each institution in each skill area, the change in inmate literacy levels, and the number of inmate admissions to and withdrawals from education courses.[14]
- Ensuring every inmate who has two years or more on his or her sentence at the time of being received at an institution and who lacks basic and functional literacy skills as defined in s. 1004.02, F.S.,[15] attends not less than 150 hours of sequential instruction in a correctional adult basic education program.[16]
- Ensure that all education staff are certified in accordance with the Department of Education standards.[17]

Providers of K-20 Education in Florida

School Districts

A district school system includes all public schools, classes, and courses of instruction and all services and activities directly related to education in that district which are under the direction of the district school officials.[18] Any district school board, after first obtaining the approval of the Department of Education, may, as a part of the district school system, organize, establish, and operate a career center, or acquire and operate a career center previously established.[19]

Charter Schools

Charter schools are nonsectarian, public schools that operate under a performance contract with a sponsor. This performance contract is known as a "charter."[20] The charter exempts the school from many regulations applicable to traditional public schools to encourage the use of innovative learning methods.[21] One of the guiding principles of charter schools is to meet high standards of student achievement while providing parents flexibility to choose among diverse educational

[13] *Id*.
[14] Section 944.801(3)(g), F.S.
[15] Section 1004.02(4), F.S., defines basic literacy to mean the demonstration of academic competence from 2.0 through 5.9 educational grade levels as measured by means approved for this purpose by the State Board of Education. Section 1004.02(15), F.S., defines functional literacy to mean the demonstration of academic competence from 6.0 through 8.9 educational grade levels as measured by means approved for this purpose by the State Board of Education.
[16] Section 944.801(3)(i), F.S., further provides that highest priority of inmate participation must be focused on youthful offenders and those inmates nearing release from the correctional system and that an inmate is not allowed to participate in the adult basic education program if he or she is serving a life sentence or is under sentence of death, specifically exempted for security or health reasons, housed at a community correctional center, road prison, work camp, or vocational center, attains a functional literacy level after attendance in fewer than 150 hours of adult basic education instruction, or is unable to enter such instruction because of insufficient facilities, staff, or classroom capacity.
[17] Section 944.801(3)(k), F.S. *See* ss. 1002.33(12)(f), 1012.54, 1012.55, and 1012.56, F.S.

[21] Section 1002.33(2)(b)3. and (16), F.S.

opportunities within the state's public school system.[22] The school must be operated by a Florida College System institution, municipality, or nonprofit organization. While a charter school must be a public or nonprofit entity, it may be managed by a for-profit education management organization.[23] A district school board may sponsor a charter school in the county over which the district school board has jurisdiction.[24]

Virtual Instruction

The Florida Virtual School (FVS) is established for the development and delivery of online and distance learning education and its mission is to provide students with technology-based educational opportunities to gain the knowledge and skills necessary to succeed.[25] The school must serve any student in the state and must give priority to:

- Students who need expanded access to courses in order to meet their educational goals, such as home education students and students in inner-city and rural high schools who do not have access to higher-level courses; and
- Students seeking accelerated access in order to obtain a high school diploma at least one semester early.[26]

There is no specific prohibition against district, charter, or virtual schools providing classes to local or state inmates or in defining "student" to exclude inmates from such instruction.

Workforce Education Through K-20 School Providers

Florida school districts are encouraged to develop educational opportunities for adults who have earned a diploma or high school equivalency diploma, but who lack the basic skills necessary to function effectively in everyday situations, to enter the job market, or to enter career certificate instruction.[27] Each district school board or Florida College System institution board of trustees must negotiate with the local workforce development board for basic and functional literacy skills assessments for participants in the welfare transition employment and training programs. Such assessments are conducted at a site mutually acceptable to the district school board or Florida College System institution board of trustees and the local workforce development board.[28]

Any workforce education program may be conducted by a Florida College System institution and school district unless restricted by statute.[29] Additionally, s. 1004.98, F.S., establishes the

[25] Section 1002.37(1), F.S.
[26] Section 1002.37(b), F.S.
[27] Section 1004.93(1), F.S.
[28] Section 1004.93(3)(a), F.S.
[29] Section 1011.80(2), F.S. Section 1011.80(1), F.S., defines the terms workforce education and workforce education program to include: a) adult general education programs designed to improve the employability skills of the state's workforce as defined in s. 1004.02(3), F.S; b) career certificate programs, as defined in s. 1004.02(20), F.S.; c) applied technology diploma programs; d) continuing workforce education courses; e) degree career education programs; f) apprenticeship and preapprenticeship programs as defined in s. 446.021, F.S.

workforce literacy program within the Florida College System institutions and school districts. Workforce literacy programs are designed:

- To ensure that a sufficient numbers of employees who possess the skills necessary to perform in entry-level occupations exist;
- To adapt to technological advances in the workplace; and
- With the intention of supporting economic development in Florida by increasing adult literacy and producing an educated workforce.[30]

Florida College System institutions and school districts may also offer courses that assist adults with gaining the communication and computation skills necessary to complete a career program, to gain or maintain entry-level employment, or to upgrade employment.[31]

Funding for Workforce Education Programs

Expenditures for the continuing workforce education programs provided by the Florida College System institutions or school districts must be fully supported by fees. For all other workforce education programs, state funding must equal 75 percent of the average cost of instruction with the remaining 25 percent made up from student fees, which are based on a uniform fee calculated and set at the state level, as adopted by the State Board of Education, unless otherwise specified in the General Appropriations Act. For fee-exempt students pursuant to s. 1009.25, F.S., unless otherwise provided for in law, state funding must equal 100 percent of the average cost of instruction.[32]

Since 2011, state funds allocated for postsecondary workforce programs and the Florida College System institutions are explicitly prohibited from being used to educate state or federal inmates.[33] Additionally, s. 1011.84(1)(e), F.S., which addresses the procedure for calculating apportionment of funding for Florida College System institutions, provides that funds used for the instruction of state inmates must not be included in the full-time equivalent student enrollment for funding calculations.[34]

Agency Declaratory Statements

The Administrative Procedure Act provides uniform procedures for agencies to exercise their authority, and is applicable to every Florida administrative agency.35

A declaratory statement is meant to "'enable members of the public to definitively resolve ambiguities of law arising in the conduct of their daily affairs or in the planning of their future affairs' and 'to enable the public to secure definitive binding advice as to the applicability of

[30] Section 1004.98, F.S.
[31] *See* s. 1004.98, F.S.
[32] Section 1011.80(5), F.S.
[33] Sections 1011.80(7) and 1011.81(4), F.S.; ch. 2011-63, ss. 35 and 36, L.O.F.
[34] *See* s. 1011.84, F.S.
[35] *See* ss. 120.50-120.515, F.S.

agency-enforced law to a particular set of facts.'"[36] A petition for declaratory statement must include a petitioner's specific set of circumstances and the applicable law, rule, or order he or she wishes to have interpreted in light of those circumstances.[37]

When a petitioner files a petition for a declaratory statement with an agency, the agency must file a notice of the petition in the next available issue of the Florida Administrative Register and transmit copies of the petition to the Joint Administrative Procedures Committee.[38] Within 90 days from the petition's filing, the agency must either issue a declaratory statement or deny the petition. The agency must give notice of its action in the next available issue of the Florida Administrative Register.[39]

Generally, an agency will only issue a declaratory statement on actions that will take place in the future.[40] However, the fact pattern must not be hypothetical so as to amount to a request for an advisory opinion regarding facts that are only "contingent, uncertain, [and] rest in the future."[41]

Current law does not require a fee for filing a petition for declaratory statement with an agency.

Department of Business and Professional Regulation

Section 20.165, F.S., establishes the organizational structure of the Department of Business and Professional Regulation (DBPR), which has 12 divisions tasked with the regulation of several professions and businesses.[42]

Chapter 455, F.S., provides the general powers of the DBPR and sets forth the procedural and administrative framework for all of the professional boards housed under the DBPR as well as the Divisions of Certified Public Accounting, Professions, Real Estate, and Regulation.[43] The DBPR may engage in the regulation of professions "only for the preservation of the health, safety, and welfare of the public under the police powers of the state."[44] Regulation is required when:

[37] Section 120.565(2), F.S.
[38] Section 120.565(3), F.S. The Joint Administrative Procedures Committee (JAPC) is a joint standing committee of the Legislature created by Rule 4.1 of the Joint Rules of the Florida Legislature. It is composed of five Senators appointed by the President of the Senate and six Representatives appointed by the Speaker of the House of Representatives. The primary function of JAPC is to generally review agency action pursuant to the operation of the Administrative Procedure Act in ch. 120, F.S., related to the rulemaking process, to ensure that rules adopted by the executive branch agencies do not create new law and stay within the authority specifically delegated to them by the Legislature.
[39] Section 120.565(3), F.S.
[40] *Fed'n of Mobile Home Owners of Fla., Inc. v. Dept. of Bus. Regulation*, 479 So. 2d 252 (Fla. Dist. Ct. App. 1985).

[42] *See* s. 20.165, F.S., creating the divisions of Administration; Alcoholic Beverages and Tobacco; Certified Public Accounting; Drugs, Devices, and Cosmetics; Florida Condominiums, Timeshares, and Mobile Homes; Hotels and Restaurants; Pari-mutuel Wagering; Professions; Real Estate; Regulation; Service Operations; and Technology.
[43] *See* s. 455.203, F.S. The DBPR must also provide legal counsel for boards within the DBPR by contracting with the Department of Legal Affairs, by retaining private counsel, or by providing the DBPR staff counsel. *See* s. 455.221(1), F.S.
[44] Section 455.201(2), F.S.

- The potential for harming or endangering public health, safety, and welfare is recognizable and outweighs any anticompetitive impact that may result;
- The public is not effectively protected by other state statutes, local ordinances, federal legislation, or other means; and
- Less restrictive means of regulation are not available.[45]

However, "neither the department nor any board may create a regulation that has an unreasonable effect on job creation or job retention," or a regulation that unreasonably restricts the ability of those who desire to engage in a profession or occupation to find employment.[46]

When a person is authorized to engage in a profession or occupation in Florida, the DBPR issues a "permit, registration, certificate, or license" to the licensee.[47]

In Fiscal Year 2016-2017, there were 412,872 active licensees in the Division of Professions,[48] including:

- Architects and interior designers;
- Asbestos consultants and contractors;
- Athlete agents;
- Auctioneers;
- Barbers (19,098 active and 199 inactive);
- Building code administrators and inspectors;
- Community association managers;
- Construction industry contractors (71,818 active and 15,004 inactive);
- Cosmetologists (237,090 active and 1,600 inactive);
- Electrical contractors (11,960 active and 1,285 inactive);
- Employee leasing companies;
- Geologists;
- Home inspectors;
- Harbor pilots;
- Landscape architects;
- Mold-related services;
- Talent agencies; and
- Veterinarians.[49]

Sections 455.203 and 455.213, F.S., establish general licensing authority for the DBPR, including the authority to charge license fees and license renewal fees. Each board within the

Of the total 434,574 licensees in the Division of Professions, 21,702 are inactive. *Id.* at page 22.
[49] *Id*.

DBPR must determine by rule the amount of license fees for each profession, based on estimates of the required revenue to implement the regulatory laws affecting the profession.[50]

Barbering

The term "barbering" in ss. 476.014 through 476.254, F.S., (the Barbers' Act) includes any of the following practices when done for payment: shaving, cutting, trimming, coloring, shampooing, arranging, dressing, curling, or waving the hair or beard or applying oils, creams, lotions, or other preparations to the face, scalp, or neck, either by hand or by mechanical appliances.51

An applicant for licensure as a barber must pass an examination. To be eligible to take the examination, the applicant must:

- Be at least 16 years of age;
- Pay the application fee; and
- Have held an active valid license in another state for at least one year,52 or have a minimum of 1,200 hours of specified training.53

Alternatively, a person may apply for and receive a "restricted license" to practice barbering, which authorizes the licensee to practice only in areas in which he or she has demonstrated competency pursuant to rules of the Barbers' Board.54

Nail and Facial Specialists, Hair Braiders, Hair Wrappers, and Body Wrappers

Chapter 477, F.S., governs the licensing and regulation of cosmetologists, hair braiders, hair wrappers, nail specialists, facial specialists, full specialists, body wrappers, and related salons in the state. The Board of Cosmetology, within the DBPR's Division of Professions, processes license applications, reviews disciplinary cases, and conducts informal administrative hearings relating to licensure and discipline.55

Individuals are prohibited from providing manicures, pedicures, or facials without first becoming licensed as a cosmetologist or registered as a nail specialist, facial specialist, or full specialist.56

---

[50] Section 455.219(1), F.S.
[51] *See* s. 476.034(2), F.S. The term does not include those services when done for the treatment of disease or physical or mental ailments.
[52] Licensure by endorsement may also allow a practitioner holding an active license in another state or country to qualify for licensure in Florida. *See* s. 476.144(5), F.S.
[53] *See* s. 476.114(2), F.S.; the training must include, but is not limited to the completion of services directly related to the practice of barbering at a licensed school of barbering, a public school barbering program, or a government-operated barbering program in Florida.
[54] *See* s. 476.144(6), F.S.
[55] *See* Department of Business and Professional Regulation, *Cosmetology*, available at http://www.myfloridalicense.com/DBPR/cosmetology/ (last visited Feb. 15, 2018).
[56] *See* Florida Department of Business and Professional Regulation, *Board of Cosmetology Frequently Asked Questions and Answers* (Aug. 2017), available at http://www.myfloridalicense.com/dbpr/pro/cosmo/documents/cosmo_faq.pdf (last visited Feb. 14, 2018). The application of polish to fingernails and toenails is considered manicuring, even though the individual is not cutting, cleansing, adding, or extending the nails. Therefore, a registration as a specialist or licensure as a cosmetologist is required to apply polish to fingernails and toenails for compensation. *See* s. 477.013(6)(a) and (b), F.S.

A "specialist" is defined to mean any person holding a specialty registration in one or more of the specialties registered under ch. 477, F.S.[57] The term "specialty" is defined as the practice of one or more of the following:

- Manicuring, or the cutting, polishing, tinting, coloring, cleansing, adding, or extending of the nails, and massaging of the hands. This term includes any procedure or process for the affixing of artificial nails, except those nails which may be applied solely by use of a simple adhesive.
- Pedicuring, or the shaping, polishing, tinting, or cleansing of the nails of the feet, and massaging or beautifying of the feet.
- Facials, or the massaging or treating of the face or scalp with oils, creams, lotions, or other preparations, and skin care services.[58]

An applicant for a specialist license must:

- Be at least 16 years of age;
- Obtain a certificate of completion from an approved specialty education program; and
- Submit an application for registration to the DBPR with the registration fee.[59]

A "cosmetologist" is a person who is licensed to engage in the practice of cosmetology.[60] "Cosmetology" is "the mechanical or chemical treatment of the head, face, and scalp for aesthetic rather than for medical purposes, including, but not limited to, hair shampooing, hair cutting, hair arranging, hair coloring, permanent waving, and hair relaxing for compensation. This term also includes performing hair removal, including wax treatments, manicures, pedicures, and skin care services."[61]

Certain persons who apply cosmetic products (makeup) are exempt from ch. 477, F.S., under limited conditions, including application of such products in photography studio salons, in connection with certain retail sales, or during the production of qualified films.62 In addition, persons who provide makeup in a theme park or entertainment complex to actors and others or the general public are exempt from licensing requirements.63

An applicant for a cosmetologist license must pass a licensure examination and:

- Be at least 16 years of age;
- Have a high school diploma;
- Submit an application with the applicable fee and examination fee; and
- Be licensed in another state or country for at least one year, or received 1,200 hours training, including completion of an education at an approved cosmetology school or program.

Employment Background Screening and Exemptions from Disqualification

Level 1 Employment Screening

A level 1 background screening includes, but is not limited to, employment history checks and statewide criminal correspondence checks through the FDLE, and a check of the Dru Sjodin National Sex Offender Public Website, and may include local criminal records checks through local law enforcement agencies.[64] Any person required by law to have a level 1 employment screening must not have a criminal history record related to any offense prohibited with a level 2 background screening or similar law of another jurisdiction.[65] Additionally, a person screened for a level 1 employment screening must not have been found guilty of, regardless of adjudication, or entered a plea of nolo contendere or guilty to, any offense that constitutes domestic violence,[66] whether such act was committed in this state or in another jurisdiction.[67]

Level 2 Employment Screening

A level 2 background screening includes, but is not limited to, fingerprinting for statewide criminal history records checks through the Florida Department of Law Enforcement (FDLE) and national criminal history checks through the Federal Bureau of Investigation (FBI), and may include local criminal records checks through local law enforcement agencies.[68] The applicant has fingerprints taken by a vendor that submits the electronic fingerprints to the FDLE for an agency. The FDLE then runs statewide checks and submits the electronic file to the FBI for national checks.

Once the background screening is completed, and the FDLE receives the information from the FBI, the criminal history information is transmitted to the requesting agency (agency). The agency then determines if the screening contains any disqualifying information for employment. The agency must ensure that no applicant has been arrested for, is awaiting final disposition of, has been found guilty of, or entered a plea of nolo contendere or guilty to any prohibited offense including, but not limited to, such crimes as sexual misconduct, murder, assault, kidnapping, arson, exploitation, lewd and lascivious behavior, drugs, and domestic violence.[69] If the agency finds that an individual has a history containing any of these offenses, it must disqualify that individual from employment with the agency as is proscribed in agency rule.

Exemptions from Disqualification

If a person is disqualified from employment due to failing the required employment screening, the agency may grant an exemption from disqualification for:

- Felonies for which at least three years have elapsed since the applicant for the exemption has completed or been lawfully released from confinement, supervision, or nonmonetary condition imposed by the court for the disqualifying felony;

[64] Section 435.03(1), F.S.
[65] Section 435.03(2), F.S. A criminal history record for this purpose includes an arrest awaiting final disposition, a finding of guilt, regardless of adjudication, or the entering of plea of nolo contendere or guilt, or an adjudication of delinquency where the record has not been sealed or expunged.
[66] Section 435.03(3), F.S., provides that this is an act that meets the definition of conduct in s. 741.28, F.S.
[67] Section 435.03(3), F.S.
[68] *See* s. 435.04, F.S.
[69] *Id*.

- Misdemeanors prohibited under any of the statutes cited in ch. 435, F.S., or under similar statutes of other jurisdictions for which the applicant for the exemption has completed or been lawfully released from confinement, supervision, or nonmonetary condition imposed by the court;
- Offenses that were felonies when committed but that are now misdemeanors and for which the applicant for the exemption has completed or been lawfully released from confinement, supervision, or nonmonetary condition imposed by the court; or
- Findings of delinquency.70

However, an agency may not grant an exemption until at least three years have elapsed since the applicant's completion or lawful release from confinement, supervision, or nonmonetary condition imposed by the court for the offense if the:

- Applicant was a juvenile at the time of the commission of the offense;
- Offense committed is a disqualifying crime that would be considered a felony if committed by an adult; and
- Record has not been sealed or expunged.71

An applicant who seeks an exemption must first pay any court-ordered amount for any fee, fine, fund, lien, civil judgment, application, costs of prosecution, trust, or restitution as part of the judgment and sentence for the disqualifying crime.72

However, an agency may not grant an exemption to an individual who is found guilty of, regardless of adjudication, or who has entered a plea of nolo contendere or guilty to, any felony covered by s. 435.03, F.S., or s. 435.04, F.S., solely by reason of any pardon, executive clemency, or restoration of civil rights.[73]

An exemption may also not be granted to anyone who is a sexual predator, career offender, or sexual offender (unless not required to register).[74] The agency may not grant an exemption from disqualification to persons with a criminal history that includes other violent felonies, crimes against children, and sex-related crimes, such as felony domestic violence, luring or enticing a child, sexual battery, child pornography, and child abuse.[75]

Licensing and Criminal Background

Section 112.011, F.S., outlines general guidelines for considering criminal convictions during licensure determinations. Generally, a person may be denied a professional license based on his or her prior conviction of a crime if the crime was a felony or first-degree misdemeanor that is directly related to the standards determined by the regulatory authority to be necessary and reasonably related to the protection of the public health, safety, and welfare for the specific

[70] Section 435.07(1)(a), F.S.
[71] *Id.*
[72] Section 435.07(1)(b), F.S.
[73] *See* s. 435.07(4)(a), F.S
[74] *See* s. 435.07(4)(b), F.S.
[75] *See* s. 435.07(4)(c), F.S.

profession for which the license is sought.[76] Notwithstanding any law to the contrary, a state agency may not deny an application for a license based solely on the applicant's lack of civil rights.[77]

DBPR

The regulatory boards of the DBPR, or the department if there is no board, may deny a license application for any person who it finds guilty of any of the grounds for discipline set forth in s. 455.227(1), F.S., or set forth in the profession's practice act.[78] Specifically, the regulatory board, or the department if there is no board, may deny a license application for any person having been:

> …convicted or found guilty of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction which relates to the practice of, or the ability to practice, a licensee's profession.[79]

Section 455.227, F.S., does not specifically require the DBPR or the applicable regulatory board to consider the passage of time since the disqualifying criminal offense before denying or granting a license.

Department of Health

The Department of Health (DOH) or an applicable board may deny the licensure of any applicant who has been "convicted of or pled guilty or nolo contendere to, regardless of adjudication, any felony or misdemeanor related to the practice of a health care profession regulated by this state"[80] or related to certain types of fraud,[81] or for other reasons in the applicable practice act.

There are no statutory provisions or rules that prohibit individuals from applying for licensure while they are still incarcerated or under some form of supervised release.[82]

Certified Nursing Assistants

The Board of Nursing within the DOH is responsible for licensing and regulating the certified nursing assistants (CNA) under part II of ch. 464, F.S.[83] In Fiscal Year 2015-2016, there were 146,495 active certified nursing assistants.[84]

[79] Section 455.227(1)(c), F.S.
[80] Sections 456.024(3)(c), 456.072(1)(c), (x), (ii) and (ll), and 456.071(2)(a), F.S.
[81] Section 456.0635, F.S.
[82] Florida Department of Health, *Agency Analysis of HB 1041*, p. 2 (Jan. 24, 2018) (on file with the Criminal Justice Committee).
[83] *See* s. 489.107, F.S.
[84] See Florida Department of Health, Division of Medical Quality Assurance, *Annual Report & Long-range Plan, Fiscal Year 2016-2017*, p. 14, available at http://mqawebteam.com/annualreports/1617/#1/z (last visited Feb. 14, 2018). Of the total 193,637 certified nursing assistants, 42,209 are in-state delinquent, 2,019 are out-of-state delinquent, and are active military.

The "practice of a certified nursing assistant" means:

> …providing care and assisting persons with tasks relating to the activities of daily living. Such tasks are those associated with personal care, maintaining mobility, nutrition and hydration, toileting and elimination, assistive devices, safety and cleanliness, data gathering, reporting abnormal signs and symptoms, postmortem care, patient socialization and reality orientation, end-of-life care, cardiopulmonary resuscitation and emergency care, residents' or patients' rights, documentation of nursing-assistant services, and other tasks that a certified nurse assistant may perform after training beyond that required for initial certification and upon validation of competence in that skill by a registered nurse.[85]

The definition of "practice of a certified nursing assistant" does not restrict a person who is otherwise trained and educated from performing the tasks specified in the definition.[86]

To be certified in Florida, a person must have a high school diploma, or its equivalent; or be at least 18 years of age, and pass a nursing assistant competency examination. Alternatively, a person may be certified in Florida if he or she is certified by another state and has not been found to have committed abuse, neglect, or exploitation in that state.[87]

The qualifications for certification as a CNA do not specifically refer to a person's criminal background, but an applicant must pass a background screening pursuant to s. 400.215, F.S., which requires the personnel of nursing homes and related healthcare facilities to pass a level two background screening, or s. 408.809, F.S.[88] The background screening must be completed every five years following licensure, employment, or entering into contract in a capacity that requires background screening.[89]

Level two background screening ensures that a subject of the screening has not been arrested for, is not awaiting final disposition of, has not been found guilty of, regardless of adjudication, or not entered a plea of nolo contendere or guilty to, or has been adjudicated delinquent and the record has not been sealed or expunged for any of the enumerated prohibited offenses.[90] The prohibited offenses include violent crimes, property crimes, and sexual offenses.[91] In addition to the crimes specified under s. 435.04, F.S., a CNA may not have a felony record for certain specified felony financial crimes, including Medicaid fraud and forgery, and public welfare fraud.[92]

---

[85] Section 464.201(5), F.S.
[86] *Id.*
[87] Section 464.203, F.S.
[88] Section 408.809(1), F.S.
[89] Section 408.809(2), F.S.
[90] Section 435.04, F.S.
[91] *See* s. 435.04(2), F.S.
[92] *See* ss. 408.809(4) and 456.0635, F.S.

Section 456.0635, F.S., provides that a health care professional, including a CAN, who has been convicted for a specified offense is prohibited from obtaining a license for a certain amount of time ranging from five to 15 years, depending on the severity of the degree of offense.[93]

III. Effect of Proposed Changes:

Education of State and County Inmates (Sections 5 through 7)

The bill amends ss. 951.176 and 944.801, F.S., respectively, to authorize a county or municipal detention facility or the DOC to contract with a district school board, the Florida Virtual School, a Florida College System institution, a virtual education provider approved by the State Board of Education, or a charter school to provide educational services. The educational services may include any educational, career, or vocational training that is authorized by a county or municipal detention facility or the DOC.

The bill amends ss. 1011.80 and 1011.81, F.S., allowing state funding for postsecondary education and the Florida College System institutions to be used on inmates with less than 48 months of time remaining on his or her sentence. Lastly, the bill amends s. 1011.84, F.S., clarifying that the instruction of inmates with less than 48 months of time remaining on his or her sentence cannot be included in the full-time equivalent student enrollment for funding through the Florida College System Program Fund.

Declaratory Statements (Section 1)

The bill creates a new declaratory statement process that permits a person who desires to become licensed in a state-regulated profession or occupation to obtain a binding determination of whether his or her criminal conviction or sanction will prevent such licensure, registration, or certification in the profession or occupation.

A person may seek the agency's opinion prior to the person possessing the training or education required for the license, registration, or certificate in the profession or occupation. Additionally, he or she may request the agency's determination while still under criminal confinement or supervision.

The petition may include mitigating factors or other information the petitioner believes relevant to establish the petitioner's eligibility, including, but not limited to:

- The time elapsed since completion of or lawful release from confinement, supervision, or nonmonetary condition imposed by the court for a disqualifying offense; and
- The petitioner's standing in his or her community.

The agency's declaratory statement must further indicate whether:

- The petitioner is disqualified from obtaining the license, registration, or certification due to the petitioner's criminal background, regardless of the petitioner's education, training, experience, or other prerequisites required for the license, registration, or certification.

[93] *See* s. 456.0635, F.S., for specified offenses that are prohibited and time frames that are applicable to persons applying for health care professional licenses.

- The petitioner is not eligible for a specified occupational or professional license, registration, or certification because of his or her criminal background.
- The agency's determination of disqualification as a result of criminal background may be reversed based on evidence of rehabilitation or mitigation.
- Any federal laws or regulations or any conditions imposed by the court on the petitioner may impede his or her licensure, registration, or certification in the profession or occupation.
- Conditions or restrictions imposed by the court on the petitioner for a disqualifying offense may impede the petitioner's licensure, registration, or certification in the profession or occupation.

The agency's conclusion is binding on the agency as to the petitioner, but any subsequent criminal history may form an independent basis for denial of licensure, registration, or certification.

An agency may require a petitioner to submit the following with his or her petition for declaratory statement:
- A fee of not more than $100;
- A certified copy of each criminal judgment rendered against the petitioner;
- A complete set of fingerprints; and
- A fingerprint processing fee.

The agency must submit the fingerprints to the FDLE for a state criminal history record check and the FDLE must forward the fingerprints to the FBI for a national criminal history record check.

Licensing and Criminal Background (Sections 2 through 4)

The bill creates a process for reviewing the criminal history of applicants for specified professions or occupations regulated by the DBPR and the DOH.

The bill amends s. 455.213, F.S., dealing with the general licensing provisions of the DBPR, and s. 464.203, F.S., dealing with the certification requirements for certified nursing assistants under the DOH.

The license application review process in the bill applies to the following professions and occupations:
- Barbers.
- Cosmetologists and cosmetology specialists (i.e., hair braiders, hair wrappers, and body wrappers).
- Construction Professionals, including:
  - Air-conditioning contractor;
  - Electrical contractor;
  - Mechanical contractor;
  - Plumbing contractor;
  - Pollutant storage systems contractor;
  - Roofing contractor;

  - Septic tank contractor;
  - Sheet metal contractor;
  - Solar contractor;
  - Swimming pool and spa contractor;
  - Underground utility and excavation contractor; and
  - Other specialty contractors, excluding alarm system contractors, whose scope of work and responsibility is limited to a particular phase of construction, e.g. drywall, glazing, swimming pool excavation, etc.
- Certified Nursing Assistants.

The process created in the bill:
- Permits a person to apply for a license while under criminal confinement (incarceration) or supervision.
- Limits the period during which the agency may consider criminal history as an impairment to licensure to seven years from the date of the criminal conviction for CNAs, notwithstanding s. 456.0635, F.S., and unless the conviction relates to an offense that is disqualified from exemption as provided for in s. 435.07, F.S.;
- Limits the period during which the agency may consider criminal history as an impairment to licensure to five years from the date of criminal conviction for all other professions covered by the bill, unless the conviction relates to an offense that is disqualified from exemption as provided for in s. 435.07, F.S, or are included in ch. 812, F.S.[94]
- Requires each agency to identify by rule the crimes that do not impair a person's qualifications for licensure.
- Requires each agency to identify by rule the crimes that do impair a person's qualifications for licensure.
- Prohibits the board from denying an application for a license solely on the basis of the applicant's current confinement or supervision.
- Authorizes the board to stay the issuance of a license until the applicant is lawfully released from confinement or supervision, the applicant notifies the board of such release, and the board has verified the release with the DOC.
- Requires an agency to permit applicants who are incarcerated or under supervision to appear by teleconference or video conference at a meeting of a board or the agency for a hearing concerning the person's license application.
- Requires the DOC to cooperate and coordinate with the board or department, as applicable, to facilitate the appearance of the applicant at the hearing in person, by teleconference, or by video conference, as appropriate.

The bill defines the term "conviction" to mean having been found guilty, with or without adjudication of guilt, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

The bill amends s. 400.211, F.S., incorporating changes made by the act.

The bill takes effect July 1, 2018.

[94] Chapter 812, F.S., relates to theft, robbery, and related crimes.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The bill authorizes a charter school or virtual instruction provider, which can be managed by a for-profit entity, to contract with the DOC or a county or municipal entity to provide educational services to inmates. To the extent that this bill increases the pool of students that a private company can serve, it may result in a positive fiscal impact to the private company.

Additionally, persons who submit a petition for a declaratory statement from an agency to determine whether the petitioner's criminal history affects the person's eligibility for a license, registration, or certificate, must pay a filing fee not to exceed $100 for the petition and the actual cost of state and federal processing related to the criminal background check. However, such individuals may also forego certain unnecessary schooling, training, or application costs, depending on the agency's determination.

C. Government Sector Impact:

The bill authorizes the state or a local entity to contract with district, charter, or virtual school entities (school providers) to offer educational services to its inmates. Such services will be provided by the school providers through the workforce education models that currently exist. The DOC or a county and municipal detention facility may use funds appropriated for the education of inmates to contract with the school providers to offer such educational services.

The bill authorizes persons to submit a petition for a declaratory statement from an agency to determine whether the petitioner's criminal history affects the person's eligibility for a license, etc. To the extent that the bill results in an increase in submissions of petitions for declaratory statements, this may result in an increased workload to government agencies that provide occupational or professional licenses.

Additionally, the agencies will likely have increased revenues associated with the declaratory statement petition fee of not more than $100.

VI. Technical Deficiencies:

None.

VII. Related Issues:

SB 2500 appropriates $2,000,000 from the General Revenue Fund for postsecondary education of state inmates.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 120.565, 400.211, 455.213, 464.203, 944.801, 951.176, and 1011.80.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations on February 27, 2018:
The committee substitute:

- Permits a person to submit a petition for declaratory statement to any Florida agency to determine the effect of a criminal background on his or her eligibility for occupational or professional licensure;
- Requires the agency to indicate specified information in its declaratory statement conclusion;
- Requires the agency's conclusion in the declaratory statement is binding on the agency as to the petitioner;
- Requires specified submissions to be included with the petition for declaratory statement, including a fee of not more than $100;
- Prohibits an agency from denying an application for licensure for certain professions if a specific duration has passed since the applicant's specified conviction;
- Authorizes a person to apply for licensing from the DBPR prior to being released from incarceration and provides a process for the staying of the issuance of the license until the person's release from custody;
- Specifies accommodations that an agency must make for applicants who are under confinement or supervision at the time of their application;
- Requires pertinent boards under the DBPR and the DOH to adopt rules that specify crimes that constitute grounds for licensure denial;
- Expands the entities that the DOC or a county may contract with to provide educational services for inmates to include a Florida College System institution or a virtual education provider approved by the State Board of Education;
- Allows state funds to be expended through workforce education or Florida College System institutions for inmates that have 48 months left on the term of incarceration; and

- Clarifies that instruction of inmates with less than 48 months of time remaining on his or her sentence cannot be included in the full-time equivalent student enrollment for funding through the Florida College System Program Fund.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By Senator Rouson

19-00514D-18 20181318__

A bill to be entitled

An act relating to education for prisoners; amending s. 944.801, F.S.; authorizing the Department of Corrections to contract with certain entities to provide educational services for the Correctional Education Program; amending s. 951.176, F.S.; authorizing each county to contract with certain entities to provide educational services for county inmates; amending s. 1011.80, F.S.; removing a provision prohibiting state funds for the operation of postsecondary workforce programs from being used for the education of certain state inmates; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Present subsections (4) and (5) of section 944.801, Florida Statutes, are renumbered as subsections (5) and (6), respectively, and a new subsection (4) is added to that section, to read:

944.801 Education for state prisoners.—

(4) The department may contract with a district school board, the Florida Virtual School, or a charter school authorized to operate under s. 1002.33 to provide educational services for the Correctional Education Program. The educational services may include any educational, career, or vocational training that is authorized by the department.

Section 2. Section 951.176, Florida Statutes, is amended to read:

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

19-00514D-18 20181318__

951.176 Provision of education ~~programs for youth~~.—

(1) Each county may contract with a district school board, the Florida Virtual School, or a charter school authorized to operate under s. 1002.33 to provide educational services for inmates at county detention facilities. The educational services may include any educational, career, or vocational training that is authorized by the sheriff or chief correctional officer, or his or her designee.

(2) Minors who have not graduated from high school and eligible students with disabilities under the age of 22 who have not graduated with a standard diploma or its equivalent who are detained in a county or municipal detention facility as defined in s. 951.23 shall be offered educational services by the local school district in which the facility is located. These educational services shall be based upon the estimated length of time the youth will be in the facility and the youth's current level of functioning. School district superintendents or their designees shall be notified by the county sheriff or chief correctional officer, or his or her designee, upon the assignment of a youth under the age of 21 to the facility. A cooperative agreement with the local school district and applicable law enforcement units shall be developed to address the notification requirement and the provision of educational services to these youth.

Section 3. Paragraph (b) of subsection (7) of section 1011.80, Florida Statutes, is amended to read:

1011.80 Funds for operation of workforce education programs.—

(7)

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

(b) State funds provided for the operation of postsecondary workforce programs may not be expended for the education of state inmates with more than 24 months of time remaining to serve on their sentence or federal inmates.

Section 4. This act shall take effect July 1, 2018.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/SB 1328 creates the Hurricane Housing Recovery Program (HHRP) and the Rental Recovery Loan Program (RRLP) to expedite the creation of additional affordable housing in response to the needs created by the recent hurricanes. The Florida Housing Finance Corporation will fund the HHRP and RRLP as provided in the General Appropriations Act.

The bill requires the Department of Environmental Protection, the Department of Transportation, and the water management districts, in conjunction with the Florida Housing Finance Corporation, to evaluate all nonconservation surplus lands for suitability for residential use and the development of permanent affordable housing and to offer such parcels to the county or municipality where the land is located. The bill provides for additional evaluation criteria intended to address specific needs and characteristics for the development of affordable housing.

The bill exempts housing authorities from "user fees" and nonprofit housing corporations created by housing authorities from taxes, user fees, and assessments. The Revenue Estimating Conference has not yet estimated the fiscal impact of this provision. The term "user fees" is not defined in the bill but could be interpreted broadly to include fees for services such as garbage, electricity, storm water, etc.

The bill also provides for an expedited local permit approval process for affordable housing by reducing the time a local government entity has to approve or deny permit applications from 120 days to 60 days.

The bill authorizes the Florida Housing Finance Corporation to take certain administrative actions against an applicant or its affiliate for good cause, including a determination that the applicant or its affiliate made a material misrepresentation or engaged in fraudulent actions in connection with any application for an affordable housing program.

The bill limits the terms of agreements for multifamily rental projects to 30 years, unless the Florida Housing Finance Corporation finds that the project will be "economically feasible" beyond that time.

The HHRP and RRLP will be funded as provided in the General Appropriations Act. The Revenue Estimating Conference has not yet estimated the fiscal impact of the provision exempting housing authorities from "user fees" and nonprofit housing corporations created by housing authorities from taxes, user fees, and assessments

The bill takes effect July 1, 2018.

II. Present Situation:

The present situation is included in the effect of proposed changes.

III. Effect of Proposed Changes:

Affordable Housing

Present Situation

Affordable housing is defined in terms of household income. Housing is considered affordable when monthly rent or mortgage payments including taxes and insurance do not exceed 30 percent of the household income.[1] Resident eligibility for Florida's state and federally funded housing programs is typically governed by area median income (AMI) levels, published annually by the U.S. Department of Housing and Urban Development (HUD) for every county and metropolitan area. The following are standard household income level definitions and their relationship to the 2017 Florida state median of $59,000 for a family of four (as family size increases or decreases, the income range also increases or decreases):[2]

- Extremely low income – earning up to 30 percent AMI (at or below $17,700);[3]
- Very low income – earning from 30.01 to 50 percent AMI ($17,701 to $29,500);[4]
- Low income – earning from 50.01 to 80 percent AMI ($29,501 to $47,200);[5] and
- Moderate income – earning from 80.01 to 120 percent of AMI ($47,201 to $70,800).[6]

[1] Section 420.9071(2), F.S. Public housing, commonly referred to as Section 8 Housing, is provided by local housing agencies (HAs) for low-income residents. Funding for HAs is provided directly from HUD.
[2] U.S. Department of Housing and Urban Development, Office of Policy Research and Development, *FY 2017 HUD Income Limits Briefing Material*, March 21, 2017, p. 41, available at https://www.huduser.gov/portal/datasets/il/il17/IncomeLimitsBriefingMaterial-FY17.pdf.
[3] Section 420.0004(9), F.S.
[4] Section 420.9071(28), F.S.
[5] Section 420.9071(19), F.S.
[6] Section 420.9071(20), F.S.

The two primary state housing assistance programs are the State Housing Initiatives Partnership (SHIP)[7] and the State Apartment Incentive Loan (SAIL)[8] programs. The SHIP program provides funds to eligible local governments, allocated using a population-based formula, to address local housing needs as adopted in the Local Housing Assistance Plan. Eligible local government entities must develop and adopt local housing assistance plans that include, but are not limited to, strategies and incentives for the construction, rehabilitation, repair, or financing of affordable housing production.[9] The SAIL program provides low interest loans on a competitive basis as gap financing for the construction or substantial rehabilitation of multifamily affordable housing developments.[10]

Local Government Surplus Land (Sections 1 and 2)

Present Situation

Since July 1, 2007, all counties and municipalities have been required to prepare, every 3 years, an inventory list of all real property held in fee simple by the respective government entity that is appropriate for use as affordable housing. The list must be reviewed at a public hearing of the appropriate local governing body and may be revised at the conclusion of the public hearing. The governing body must adopt a resolution that includes the inventory following the meeting.[11]

Properties identified as appropriate for affordable housing may be:
- Offered for sale by the local government and the proceeds used to purchase land for the development of affordable housing or to increase the local government fund earmarked for affordable housing.
- Sold with a restriction that requires the development of the property as permanent affordable housing.
- Offered for donation to a nonprofit housing organization for the construction of permanent affordable housing.
- Otherwise made available for use for the production and preservation of permanent affordable housing.[12]

Effect of the Bill

Sections 1 and **2** amend ss. 125.379 and 166.0451, F.S., respectively, to require each county and municipality to include the following criteria when preparing the inventory list of real property and evaluating for use as affordable housing:
- Environmental suitability for construction;
- Site characteristics;
- Current land use designation;
- Current or anticipated zoning;

[7] Sections 420.907-9079, F.S.
[8] Section 420.5087, F.S.
[9] Section 420.9071(14), (15), & (16), F.S. These local housing plans must also align with the requirements for housing under the Local Government Comprehensive Planning and Land Development Regulation Act of 1985. Chapter 163, Part II, F.S.
[10] Section 420.5087, F.S.
[11] Sections 125.379 and 166.0451, F.S.
[12] *Id.*

- Whether the property is included in at least one special district;
- Existing infrastructure; and
- Proximity to employment opportunities, public transportation, and existing services.

Using Surplus State Lands for Affordable Housing (Sections 8, 3, 4, and 5)

Present Situation

The Board of Trustees of the Internal Improvement Trust Fund (Board of Trustees),[13] the five water management districts (WMDs), and the Department of Transportation (DOT) may each acquire and hold real property for various public purposes.[14] Each agency must follow certain procedures to dispose of property that is no longer needed (surplus).

Board of Trustees

The Board of Trustees may determine which state lands may be surplused. To dispose of conservation lands, the Board of Trustees must determine whether the land is no longer needed for conservation purposes and may dispose of such lands by an affirmative vote of at least three members. To dispose of nonconservation lands, the Board of Trustees must determine whether the land is no longer needed and may dispose of such lands by an affirmative vote of at least three members.[15]

"Conservation lands" are lands managed for conservation, outdoor resource-based recreation, or archaeological or historic preservation, except those lands acquired solely to facilitate the acquisition of other conservation lands. Lands acquired for uses other than conservation, outdoor resource-based recreation, or archaeological or historic preservation are "nonconservation lands." Nonconservation lands include the following: correction and detention facilities, military installations and facilities, state office buildings, maintenance yards, State University or Florida College System institution campuses, agricultural field stations or offices, tower sites, law enforcement and license facilities, laboratories, hospitals, clinics, and other sites that possess no significant natural or historical resources.[16]

Any public or private entity or person may ask the Board of Trustees to surplus lands. The lead managing agency must review the request and make a recommendation to Acquisition and Restoration Council within 90 days. The council must immediately schedule a hearing to review the request at the next regularly scheduled hearing for any surplusing requests that have not been acted upon within 90 days.[17]

[13] The Board of Trustees consists of the Governor, Attorney General, Chief Financial Officer, and Commissioner of Agriculture. Art. IV, s. 4(f), Fla. Const., and s. 253.02(1), F.S. The Department of Environmental Protection, through its Division of State Lands, performs all staff duties and functions related to the acquisition, administration, and disposition of state lands. Section 253.002(1), F.S.
[14] Sections 253.001, 253.02, 337.25(1), and 373.089, F.S.
[15] Section 253.0341(1), F.S.
[16] Section 253.034(2)(c), F.S.
[17] Section 253.0341(11), F.S. The Acquisition and Restoration Council assists the Board of Trustees in reviewing the recommendations and plans for state-owned conservation lands. Section 259.035, F.S.

Before a building or parcel of land is offered for lease or sale, the Division of State Lands within the Department of Environmental Protection (DEP) must first offer the land for lease to state agencies, state universities, and Florida College System institutions.[18]

The division must determine the sale price of the land by considering an appraisal. If the value of the land is estimated at $500,000 or less, division may use a comparable sales analysis or broker's opinion.[19] The division must offer parcels valued at more than $500,000 by competitive bid first. If the parcel is not successfully sold by competitive bid, or the parcel is valued at $500,000 or less, then division may sell the property by any reasonable means.[20]

Water Management Districts

A WMD may sell lands its governing board determines to be surplus at any time. These lands must be sold at the highest price obtainable, but not less than the appraised value of the land determined by a certified appraiser 360 days before the sale.[21] Such sales must be in cash and on the terms set by the governing board of the WMD.[22] The WMD must publish notice of its intent to sell the land in a newspaper in the county where the land is located. The notice of intent must be published three times for three successive weeks at least 30 days, and not more than 360 days, before any sale. The notice of intent must describe the land or the interest or rights to be sold.[23]

Public and private entities may request that a WMD make its lands available for purchase when those lands are not essential or necessary to meet conservation. If so requested and the lands are determined to be surplus, the WMD must give priority consideration to public or private buyers who are willing to return the property to productive use so long as the property can reenter the county ad valorem tax roll.[24]

When deciding whether to sell lands designated as acquired for conservation purposes, the governing board of the WMD must determine by a two-thirds vote that the land is no longer needed for conservation purposes.[25] For all other lands, the governing board of the WMD must determine by a majority vote that the land is no longer needed.[26]

Prior to selling land, a WMD must generally first offer title to lands acquired in whole or in part with Florida Forever funds[27] to the Board of Trustees.[28] If the Board of Trustees declines to accept title to the land, the WMD may dispose of the land.[29]

[24] Section 373.089(5), F.S.
[25] Section 373.089(6)(a), F.S.
[26] Section 373.089(6)(b), F.S.
[27] *See* ss. 259.105 and 259.1051, F.S.
[28] Section 373.089(7), F.S.
[29] Section 373.089, F.S.

Department of Transportation

The DOT may convey any land, building, or other property, real or personal, when it determines the property is not needed for the construction, operation, and maintenance of a transportation facility. The DOT may dispose of its surplus property through negotiations, sealed competitive bids, auctions, or any other means it deems to be in its best interest. The DOT must advertise the sale of property valued by the DOT at greater than $10,000.[30] The DOT may generally not sell property for less than the DOT's current estimate of value.[31]

DOT may afford a right of first refusal to the local government or other political subdivision in the jurisdiction where the parcel is situated in certain circumstances.[32]

Effect of the Bill

Section 8 creates s. 420.56, F.S., to make all surplus lands designated as nonconservation available for affordable housing before making the parcels available for purchase by other governmental entities or the public. As nonconservation land becomes available for surplus, the DEP (acting on behalf of the Board of Trustees), WMDs, and DOT must notify the Florida Housing Finance Corporation (FHFC) that the land is available for surplus before making the parcel available for any other use, including for purchase by other governmental entities or the public. The WMDs must only identify nonconservation surplus lands originally acquired using state funds.

The bill requires the FHFC to evaluate, in consultation with the DEP, WMDs, and DOT, whether the surplus lands identified by the DEP, WMDs, and DOT are suitable for affordable housing based on the following characteristics of the property:

- Environmental suitability for construction;
- Current and anticipated land use and zoning;
- Inclusion in one or more special districts;
- Existing infrastructure on the land such as roads, water, sewer, and electricity;
- Access to grocery stores within walking distance or by public transportation;
- Access to employment opportunities within walking distance or by public transportation;
- Access to public transportation within one-half mile; and
- Access to community services such as public libraries, food kitchens, and employment centers.

If the FHFC determines that the nonconservation surplus land is suitable for affordable housing, the bill requires the Board of Trustees, the WMDs, and DOT to first offer the land to the county and municipality where the land is located to be used for affordable housing before the entity offers the land to other governmental entities or the public. If the county and municipality where the parcel is located do not wish to use the parcel for affordable housing, the Board of Trustees, WMDs, or DOT may dispose of the parcel using the procedures in existing law.

[30] Section 337.25(4), F.S.
[31] Exceptions provided in Section 337.25(4)(a)-(d), F.S.
[32] Exceptions provided in Section 337.25(4)(a), (c), and (e), F.S.

The bill authorizes the Board of Trustees, WMDs, and DOT to sell the parcels identified as suitable for affordable housing for less than the appraised value to any party. If the agency sells the parcels for less than appraised value, the agency must place an encumbrance on the parcels to ensure the purchaser uses the land for affordable housing for a period of not less than 99 years.

The bill exempts the Board of Trustees, WMDs, and DOT from certain disposal procedures to expedite the sales of surplus land for affordable housing, specifically:

- The Board of Trustees does not need to follow appraisal and competitive bidding procedures;
- The WMDs do not need to follow their appraisal and advertising requirements and the procedures for selling land valued at $25,000 or less; and
- The DOT does not need to follow its disposal procedures.

The bill authorizes the Board of Trustees, WMDs, and DOT to determine the sale price of the parcels. The bill requires Board of Trustees, WMDs, and DOT to consider at least one appraisal, or if the estimated value of the land is $500,000 or less, a comparable sales analysis or a broker's opinion of value.

Section 3 amends s. 253.0341, F.S., to require the land manager of Board of Trustees owned land to evaluate and indicate whether state lands it manages are still being used for the purpose for which they were originally leased from the Board of Trustees every 3 years instead of every 10 years.

Section 3 also requires the Board of Trustees to offer nonconservation surplus lands to the county and municipality where the land is located for use for the construction of affordable housing as identified by the FHFC before offering it to other potential buyers. This allows those counties and municipalities the opportunity to purchase nonconservation lands for affordable housing prior to state agencies, state universities, and Florida College System institutions, who currently have the first opportunity to either lease or buy surplus lands. All lands not needed for affordable housing will still be offered first to state agencies, state universities, and Florida College System institutions before other being offered to other entities. If the surplus land is not used for affordable housing and not leased by a state agency, state university, or Florida College System institution, the Board of Trustees shall offer the parcel for lease or sale to a local or federal unit of government or a private party.

Section 4 amends s. 337.25, F.S., to require the DOT to evaluate all of its land not within a transportation corridor or within the right-of-way of a transportation facility at least every 10 years on a rotating basis to determine whether the DOT should retain the property. This change is consistent with the Board of Trustee’s current duty to review the management of its lands every 10 years in s. 253.0341(4), F.S., to determine if the lands should be kept.

Section 4 also requires the DOT to offer nonconservation surplus lands to the county and municipality where the land is located for use as affordable housing as identified by the FHFC before offering it to other potential buyers except when:

- The property was donated to the state for transportation purposes and a transportation facility has not been constructed for at least 5 years, plans have not been prepared for the construction of such facility, and the property is not located in a transportation corridor (then

the donated property is returned to the donor or his or her heirs, successors, assigns, or representatives);
- The DOT originally acquired the property specifically to provide replacement housing for persons displaced by transportation projects (then the DOT may negotiate for the sale of such property as replacement housing); or
- The DOT determines a sale to a person other than an abutting owner would be inequitable (then the property may be sold to the abutting owner for DOT's current estimate of value).

Section 13 amends s. 373.089, F.S., to require the WMDs to review all lands and interests or rights in lands every 10 years on a rotating basis to determine whether the lands are still needed for the purpose for which they were acquired. This change is consistent with the Board of Trustee's current duty to review the management of its lands every 10 years in s. 253.0341(4), F.S., to determine if the lands should be kept.

Section 13 also requires WMDs to offer nonconservation surplus lands to the county and municipality where the land is located for use as affordable housing as identified by the FHFC before offering it to other potential buyers. This requirement only applies to nonconservation surplus lands originally acquired using state funds.

Ineligible Applicants for Programs (Section 6)

Present Situation

Section 420.507, F.S., sets forth the powers of the FHFC to carry out the statutory requirements for affordable housing. These include typical corporation powers and duties as well as housing-specific powers, including the ability to preclude any applicant or its affiliate from participating in FHFC programs if the applicant or affiliate has made any material misrepresentations or engaged in fraudulent actions in connection with any application for a FHFC program.

An applicant is ineligible for funding under FHFC programs if the FHFC determines that an applicant or its affiliate has made material misrepresentations or engaged in fraudulent actions in connection with an FHFC application. Before the FHFC makes such a determination, it serves an administrative complaint on the applicant or its affiliate that "affords reasonable notice to the Applicant of the facts or conduct that warrant the intended action, specifies the proposed duration of ineligibility,[33] and advises the Applicant of the opportunity to request a hearing." An applicant is presumed to have engaged in fraudulent actions if the applicant or its affiliate has been convicted of fraud, theft, or misappropriation of funds or a felony in connection with any FHFC program; excluded from any federal or Florida procurement programs for any reason; or offered or given consideration with respect to a local contribution. Any business between the applicant or its affiliate and the FHFC is suspended pending issuance of a final order on the compliant or if the complaint is dismissed.[34]

[33] When establishing the period of ineligibility, the FHFC considers the applicant's compliance history, type of misrepresentation or fraud, and the degree of harm to the program that has been or may have been done.
[34] *See* Rules 67-21.003 and 67-48.004, F.A.C.

The 2017-2018 General Appropriation Act prohibits the FHFC from distributing or allocating funds to any applicant or its affiliate that has been served an administrative complaint based on making a material misrepresentation or engaging in fraudulent actions in connection with any application for a FHFC program, until the period of ineligibility has expired. "Any preliminary funding or allocation award made to an applicant or affiliate subject to such administrative complaint is rescinded unless the developer, applicant or affiliate has completed credit underwriting or has commenced construction at the time the administrative complaint is served."[35]

Effect of Proposed Changes

Section 6 amends s. 420.507, F.S., to add to the powers of the FHFC, the power to take certain actions against any applicant or its affiliate upon a determination of good cause by the FHFC and after the service of an administrative complaint and adequate notice. The FHFC may take one or more of the following actions:

- Preclude the applicant or affiliate from applying for funding from any FHFC program for a specified period.
- Revoke any previously awarded funding for any development for which construction or rehabilitation has not started.
- Suspend any funding, credit underwriting procedures, or application review for any development for which construction or rehabilitation has not started. The suspension may run from the date of filing of the administrative complaint until a final order is issued in regard to the complaint.

The bill defines "good cause" as meaning that the applicant or its affiliate has:

- Made a material misrepresentation or engaged in fraudulent actions in connection with any application for a corporation program;
- Been convicted or found guilty of, or entered a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction that directly relates to the financing, construction, or management of affordable housing or the fraudulent procurement of state or federal funds.[36]
- Been excluded from federal or state procurement programs for any reason; or
- Offered or given consideration with respect to a local contribution in violation of rules of the FHFC.

The bill repeals the current authority of the FHFC to preclude any applicant or its affiliate from participating in FHFC programs if the applicant or affiliate has made any material misrepresentations or engaged in fraudulent actions in connection with any application for a FHFC program.

[35] Section 2225, proviso, ch. 2017-70, L.O.F.

[36] The bill states that the "record of a conviction certified or authenticated in such form as to be admissible in evidence under the laws of this state shall be admissible as prima facie evidence of such guilt."

Terms of Multifamily Rental Projects (Section 6)

Present Situation

Section 420.507, F.S., grants the FHFC the authority to require, as a condition of financing a multifamily rental project, that an agreement be recorded in the official records of the county where the real property is located, which requires that the project be used for affordable housing.

The federal government grants federal tax credits for the acquisition, rehabilitation, or construction of rental housing targeted to low-income households (the low-income housing tax credit).[37] In order to qualify for the tax credit, the developer must agree to rent the housing to people with low incomes and to charge rents that are no more than a certain amount. The developer must agree to preserve this "affordability" for the first 15 years of the program, called the initial compliance period, and then for an additional 15 years during the extended use period (also referred to as the "extended low-income housing commitment"). There is a process by which the developer can convert the property to market-rate units during the extended use period.

About 32 states require extended use periods greater than 30 years, some states provide incentives for projects that voluntarily agree to longer commitments, and some developments agree to local financing that comes with longer use restrictions.[38] The FHFC has stated that generally developers agree to enter into agreements with the FHFC for terms of 30 years, except for large-scale multifamily or elderly housing developments, which are generally for terms of 50 years.

Effect of Proposed Changes

Section 6 amends s. 420.507, F.S., related to the FHFC's authority to make certain requirements for financing multifamily rental projects. The FHFC may require an agreement to be recorded in the official records of the county where the property is located as a condition of financing the project, *including allocating competitive low-income housing tax credits*.

The bill limits the term of any for agreement for a multifamily rental project to the period of time required in federal law for the "extended low-income housing commitment" or extended use period. This effectively limits any agreement entered into by the FHFC for a multifamily rental project to 30 years. However, if the FHFC affirms at the time of the initial credit underwriting that the project will remain "economically feasible" beyond 30 years, then the agreement may be longer. The term "economically feasible" is not defined.

State Apartment Incentive Loan Program Local Government Contribution (Section 7)

Present Situation

The SAIL program provides low-interest loans on a competitive basis to affordable housing developers each year. This money often serves to bridge the gap between the primary financing and the total cost of the development. SAIL dollars are available to individuals, public entities, nonprofit organizations, or for-profit organizations that propose the construction or substantial rehabilitation of multifamily units affordable to very low income individuals and families.[39]

The Florida Housing Finance Corporation administers the SAIL program and is required to establish a review committee for the competitive evaluation and selection of applications submitted. The evaluation criteria include local government contributions and local government comprehensive planning and activities that promote affordable housing.[40]

Effect of the Bill

Section 7 amends s. 420.5087, F.S., to require the evaluation of additional components related to local government contributions, including policies that promote access to public transportation, reduce the need for on-site parking, and expedite permits for affordable housing projects.

Hurricane Recovery Programs (Sections 9 and 10)

Present Situation

Following the 2004 hurricane season, a statewide Hurricane Housing Work Group was created to recommend how best to leverage funding recommended by the Governor for hurricane housing recovery needs. The work group recommended, and the Legislature subsequently funded, the Hurricane Housing Recovery Program (HHRP) and the Rental Recovery Loan Program (RRLP). As a result of the work group's recommendation, the 2005 Legislature appropriated $250 million for housing recovery: $208 million for the HHRP and another $42 million for the RRLP.[41] With those resources, and an additional $93 million appropriation in 2006 for hurricane rental funding, the FHFC states that it assisted over 10,000 families with the HHRP and created over 1,600 units with the RRLP.

Hurricane Housing Recovery Program

The Hurricane Housing Recovery Program was created as a local housing recovery program and modeled after the existing State Housing Incentive Program (SHIP) aimed at assisting homeowners with post-hurricane recovery efforts. The HHRP funds were distributed to local governments using a need-based formula to allow local communities to evaluate and address needs as appropriate.[42]

[42] Florida Housing Finance Corporation, *Hurricane Housing Recovery Program*, available at http://floridahousing.org/webdocs/disasterrelief/HHRP/HHRPPage.PDF (last visited February 17, 2018).

Rental Recovery Loan Program

The Rental Recovery Loan Program was created to provide affordable rental units needed to promote the housing recovery needs of local communities. Modeled in part after the State Apartment Incentive Loan (SAIL) Program, the RRLP program allowed the state to leverage existing federal rental financing programs to provide units that served a range of incomes, including extremely low income households, throughout the areas impacted by the hurricanes.

Effects of the Bill

Section 9 creates s. 420.57, F.S., to establish the Hurricane Housing Recovery Program (HHRP) and the Rental Recovery Loan Program (RRLP) to provide funds to local governments for affordable housing recovery efforts.

The HHRP will provide resources to local governments according to a need-based formula that reflects affordable housing damage estimates and population impacts resulting from hurricanes. Eligible local governments must submit a strategy outlining proposed recovery actions, income levels and number of units to be served, and funding requests. Program funds must be used as follows:

- To serve households with incomes up to 120 percent of the AMI, except that at least 30 percent of program funds should be reserved for households with incomes up to 50 percent AMI and an additional 30 percent of program funds reserved for households with incomes up to 80 percent AMI.
- At least 65 percent of the funds *must* be used for homeownership.
- Up to 15 percent *may* be used for administrative expenses.
- Up to 0.25 percent *may* be used for compliance monitoring.

The RRLP will provide resources to build additional rental housing and allow the state to leverage federal rental financing similar to the SAIL program.

Both programs operate subject to specific appropriation in the General Appropriations Act.

Each participating local entity will be required submit a report of its use of HHRP funding. The FHFC is required to compile and submit the reports to the Senate President and Speaker of the House of Representatives.

The FHFC is granted rulemaking authority to administer the programs. **Section 10** provides the FHFC the authority to adopt emergency rules pursuant to s. 120.54, F.S., for the purpose of implementing these programs. The emergency rules remain in effect for 6 months and may be renewed until final rules are adopted for the programs.

Local Permit Approval Process (Section 11 and 13)

Present Situation

Local governments may enforce requirements to obtain building or development permits, including the processing applications and granting building permits.[43]

[43] Sections 553.79 and 553.792, F.S.

Counties, municipalities, and most special districts are not required to comply with the notice and procedural requirements of ch. 120, F.S., the Administrative Procedure Act.[44] For certain types of building permit applications,[45] the local government must meet certain deadlines:

- Within 10 days of the application being submitted, the local government must inform the applicant in writing of what information is needed to complete the application, if any.
- If no written notice of deficiency is provided, the application is deemed properly completed and accepted.
- Within 45 days of receiving a completed application, the local government must notify the applicant if additional information is needed to determine whether the application is sufficient.
- Within 120 days after receiving a completed application, the local government must approve, approve with conditions, or deny the application.[46]

Effect of the Bill

Section 13 creates s. 553.7923, F.S., to establish a new process for local government permit approval for affordable housing. A local government has 15 days after receiving an application for a development permit, construction permit, or certificate of occupancy for affordable housing to examine the application, notify the applicant of any apparent errors or omissions, and request any additional information the local government is authorized by law to require.

The local government may require any additional required information to be submitted within 10 days after the date it gives notice to the applicant. The local government must grant a request for an extension of time for submitting the additional information for good cause.

If a local government does not timely request addition information, it may not deny the development permit, construction permit, or certificate of occupancy for affordable housing if the applicant fails to correct an error or omission or to supply additional information.

An application is complete when the local government has received all of the requested information and the correction of any error or omission as necessary or when the time for notification has expired.

The local government must approve or deny an application for a development permit, construction permit, or certificate of occupancy for affordable housing within 60 days after receipt of a completed application, unless a shorter period of time for local government is provided by law. If the local government does not approve or deny within the time period, the application is considered approved, and the local government must issue the development permit, construction permit, or certificate of occupancy.

[44] *See* s. 120.52(1), F.S.
[45] The list includes permits for the following types of construction: accessory structure, alarm, nonresidential buildings less than 25,000 square feet, electric, irrigation, landscaping, mechanical, plumbing, residential units other than a single family unit, multifamily residential not exceeding 50 units, roofing, signs, site-plan approvals and subdivision plats not requiring public hearings or public notice, and lot grading and site alteration associated with the application. *See* s. 553.792(2), F.S.
[46] Section 553.792(1), F.S.

An applicant for a development permit, construction permit, or certificate of occupancy seeking to receive a permit by default must notify the local government in writing of its intent to rely upon the default approval. However, the applicant may not take any action based upon the default development permit, construction permit, or certificate of occupancy until the applicant receives notification or a receipt acknowledging that the local government received the notice. The applicant must retain the notification or receipt.

Section 11 amends s. 420.9071, F.S., to revise the definition of "local housing incentive strategies" to include expediting permits for affordable housing projects provided in s. 553.7923, F.S. Local housing incentive strategies are included in local housing assistance plans and must be included in various reports as required in the SHIP program provisions in part VII, ch. 420, F.S.

Housing Projects Exemptions (Section 12)

Present Situation

Section 423.02, F.S., exempts housing authorities from payment of taxes and special assessments for housing projects, including all property of the authority used for or in connection with the project. The authority may agree to make payments to the local government in lieu of taxes for services, improvements, or facilities furnished by the local government for the benefit of the project. Such payments are not allowed to exceed the estimated cost to the local government for the services, improvements, or facilities.

Public housing authorities have the power to create a for-profit or nonprofit corporation, limited liability company, or other similar business entity to develop, acquire, lease, construct, rehabilitate, manage, or operate multifamily or single family residential projects. The housing authority may hold an ownership interest or participate in the governance of the business entity.

Effect of Proposed Changes

Section 12 amends s. 423.02, F.S., to exempt housing authorities from "user fees" and to exempt nonprofit housing corporations created by housing authorities from taxes, user fees, and assessments. The authorities or their instrumentalities may still agree to make payments of to the local government in lieu of payment of such taxes, user fees, or assessments. The bill does not define the term "user fees." The term could be interpreted broadly to include fees for services such as garbage, electricity, etc. The term likely includes storm water fees.[47]

Effective Date (Section 14)

The bill takes effect July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

The county/municipality mandates provision of Art. VII, s. 18 of the Florida Constitution may apply because this bill reduces the revenue raising authority of municipalities and

[47] *See City of Gainesville v. State*, 863 So. 2d 138 (Fla. 2003).

counties by exempting housing authorities from paying user fees and their nonprofit housing corporations from paying taxes, user fees, and assessments.

However, there are several exemptions and exceptions to the mandate requirements. The mandate requirements do not apply to laws having an insignificant impact, which for Fiscal Year 2017-2018 was approximately $2.05 million or less.[48,49,50]

This bill does not appear to qualify under any exemption or exception. If the bill does qualify as a mandate, final passage must be approved by two-thirds of the membership of each house of the Legislature.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference has not yet estimated the fiscal impact of section 12 exempting housing authorities from paying user fees and their nonprofit housing corporations from paying taxes, user fees, and assessments. The term "user fees" is not defined in the bill but could be interpreted broadly to include fees for services such as garbage, electricity, storm water, etc.

B. Private Sector Impact:

Developers of large-scale affordable housing developments will benefit from the limitation on the duration of the agreements with the FHFC.

Nonprofit business entities created by local housing authorities will benefit from the exemption from taxes, user fees, and assessments.

C. Government Sector Impact:

Local governments may need to replace the funds that would normally be derived from taxes, user fees, and assessments with other sources of revenue. The Revenue Estimating

[48] FLA. CONST. art. VII, s. 18(d).
[49] An insignificant fiscal impact is the amount not greater than the average statewide population for the applicable fiscal year times $0.10. *See* Florida Senate Committee on Community Affairs, *Interim Report 2012-115: Insignificant Impact*, (Sept. 2011), available at http://www.flsenate.gov/PublishedContent/Session/2012/InterimReports/2012-115ca.pdf (last visited February 21, 2018).
[50] Based on the Demographic Estimating Conference's population adopted on April 1, 2017. The executive summary is available at http://edr.state.fl.us/Content/conferences/population/demographicsummary.pdf (last visited February 21, 2018).

Conference has not yet estimated the fiscal impact of section 12 exempting housing authorities from paying user fees and their nonprofit housing corporations from paying taxes, user fees, and assessments. The term "user fees" is not defined in the bill but could be interpreted broadly to include fees for services such as garbage, electricity, storm water, etc.

The hurricane recovery programs will be funded as provided in the General Appropriations Act. The bill allows the FHFC to use 15 percent of any appropriated funds for administrative costs and 0.25 percent for compliance monitoring.

The bill requires the FHFC to evaluate nonconservation surplus lands for suitable for the construction of affordable housing. Currently, the FHFC requires anyone proposing to develop affordable housing to demonstrate that the property is suitable for such purpose. This bill would require the FHFC to develop a new program and develop or contract for expertise to evaluate surplus lands. The cost for such activity it unknown at this time.

VI. Technical Deficiencies:

None.

VII. Related Issues:

Section 3 amends s. 253.0341(4), F.S., to require the land manager of land owned by the Board of Trustees of the Internal Improvement Trust Fund to evaluate and indicate whether state lands it manages are still being used for the purpose for which they were originally leased every 3 years instead of every 10 years. This change appears to be inconsistent with the Board of Trustee's duty to review the management of its lands at least every 10 years in s. 253.034(5), F.S., and the changes in this bill to require the WMDs and DOT to review their lands every 10 years to determine if the lands are still needed.

Section 1 adds as a new criterion in s. 125.379, F.S., for evaluating land for affordable housing purposes whether the land is located within a special district. Section 9 creates a similar criterion to evaluate land but refers to lands located in "special districts meant to revitalize the community." It is unclear whether the language in the two sections should be the same. Additionally, in its bill analysis, the FHFC noted that the corporation promotes new housing opportunities in economically vibrant areas not in need of revitalization and that the criterion may be more inclusive if it was expanded to properties suitable for residential use.[51]

Related to section 8, the FHFC notes that local governments, developers, and others may still conduct their own analysis and evaluations of the property for suitability for affordable housing, instead of only relying upon the evaluation by the state. Local governments would likely still rely upon their own local zoning and land use compatibility analysis and developers would still continue their own "due diligence" reviews to determine if a property was right for their purposes. The FHFC recommended that it might be more efficient for the local governments to evaluate the property to make the determination if the land is suitable for affordable housing and decide to purchase the land from the Board of Trustees, WMD, or DOT.

[51] Florida Housing Finance Corporation, *Bill Analysis for SB 1328*, p. 6, January 10, 2018.

The bill provides the FHFC the authority to adopt emergency rules pursuant to s. 120.54, F.S., for the purpose of implementing the hurricane recovery programs.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 125.379, 163.3180, 163.31801, 166.0451, 420.5087, 420.9071, 253.0341, 337.25, and 373.089.

This bill creates the following sections of the Florida Statutes: 420.0007, 420.54, and 420.56.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS by Appropriations Subcommittee on Transportation, Tourism, and Economic Development on February 21, 2018:
The committee substitute:

- Removes the portions of the bill that amended ss. 163.3180 and 163.31801, F.S., which created a 5-year prohibition on local governments to charge concurrency and impact fees.
- Removes the amendment to s. 163.31801, F.S., which required local governments to provide reports on impact fees charged.
- Creates the local expedited permit statute in ch. 553, F.S., related to the building code instead of ch. 420, F.S., related to affordable housing.
- Clarifies that "local housing incentive strategies" include expedited development permits, construction permits, and certificates of occupancy.
- Allows the FHFC to take certain administrative action against a developer or an affiliate of the developer for good cause.
- Limit contracts for financing multi-family rental housing projects to 30 years, unless at the time of initial credit writing the FHFC finds that the project will remain "economically feasible" beyond 30 years.
- Revises the hurricane recovery programs by:
  - Making the programs generally applicable to hurricanes, instead of specifically applicable to the impacts of Hurricanes Irma and Maria.
  - Removing the appropriation from the housing trust funds, and instead stating that the programs are funded as provided in the General Appropriations Act.
  - Directing the FHFC to allocate funds to local governments based on affordable housing damage estimates and *population impacts resulting from hurricanes*.
  - Allowing the FHFC to use 0.25 percent of the appropriation for compliance monitoring.
  - Clarifying that local governments annual reports are on their participation in the HHRP, removing the required dates for such annual reports, and requiring such reports to be made to the legislature.
  - Granting the FHFC emergency rulemaking authority to implement the programs.
- Exempts housing projects from "user fees."

- Exempts from all taxes, user fees, and special assessments the nonprofit instrumentalities of housing authorities (for nonprofit corporations, LLCs, etc., created by housing authorities to manage certain housing projects).

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

Senate Amendment (with title amendment)

Delete lines 86 - 397

and insert:

services. As long as a parcel is in an area suitable for residential development, it may be found to be suitable for use as affordable housing, even if the parcel does not meet one or more of these other criteria. The inventory list must include the address and legal description of each such real property and specify whether the property is vacant or improved. The

618886

governing body of the county must review the inventory list at a public hearing and may revise it at the conclusion of the public hearing. The governing body of the county shall adopt a resolution that includes an inventory list of such property following the public hearing.

Section 2. Subsection (6) is added to section 163.31801, Florida Statutes, to read:

163.31801 Impact fees; short title; intent; definitions; ordinances levying impact fees.—

(6) In addition to the items that must be reported in the annual financial reports under s. 218.32, counties, municipalities, and special districts must report the following data on all impact fees charged:

(a) The specific purpose of the impact fee, including the specific infrastructure need to be met, such as transportation, parks, water, sewer, and schools.

(b) The Impact Fee Schedule Policy, describing the method of calculating impact fees, such as flat fee, tiered scale based on number of bedrooms, and tiered scale based on square footage.

(c) The amount assessed for each purpose and type of dwelling.

(d) The total amount of impact fees charged by type of dwelling.

(e) Each exception and waiver provided for affordable housing developments.

Section 3. Subsection (1) of section 166.0451, Florida Statutes, is amended to read:

166.0451 Disposition of municipal property for affordable housing.—

618886

(1) Beginning July 1, 2018 ~~By July 1, 2007~~, and every 3 years thereafter, each municipality shall prepare an inventory list of all real property within its jurisdiction to which the municipality holds fee simple title that is appropriate for use as affordable housing. Such real property shall be evaluated on criteria that include the environmental suitability for construction, site characteristics, currently designated land use, current or anticipated zoning, inclusion in one or more special districts, existing infrastructure, proximity to employment opportunities, proximity to public transportation, and proximity to existing services. As long as a parcel is in an area suitable for residential development, it may be found to be suitable for use as affordable housing, even if the parcel does not meet one or more of these other criteria. The inventory list must include the address and legal description of each such property and specify whether the property is vacant or improved. The governing body of the municipality must review the inventory list at a public hearing and may revise it at the conclusion of the public hearing. Following the public hearing, the governing body of the municipality shall adopt a resolution that includes an inventory list of such property.

Section 4. Subsection (7) of section 253.0341, Florida Statutes, is amended to read:

253.0341 Surplus of state-owned lands.—

(7)(a) The board of trustees must first offer nonconservation surplus lands to the county and municipality where the land is located for use as affordable housing as identified by the Florida Housing Finance Corporation pursuant to s. 420.56. All surplus buildings or land not needed for

affordable housing ~~Before a building or parcel of land is offered for lease or sale to a local or federal unit of government or a private party, it~~ shall first be offered for lease to state agencies, state universities, and Florida College System institutions, with priority consideration given to state universities and Florida College System institutions. If a surplus building or land is not used for affordable housing or leased by a state agency, state university, or Florida College System institution, the board of trustees shall offer the building or land for lease or sale to a local or federal unit of government or a private party.

(b) Within 60 days after the offer for lease of a surplus building or parcel, a state university or Florida College System institution that requests the lease must submit a plan for review and approval by the Board of Trustees of the Internal Improvement Trust Fund regarding the intended use, including future use, of the building or parcel of land before approval of a lease. Within 60 days after the offer for lease of a surplus building or parcel, a state agency that requests the lease of such facility or parcel must submit a plan for review and approval by the board of trustees regarding the intended use. The state agency plan must, at a minimum, include the proposed use of the facility or parcel, the estimated cost of renovation, a capital improvement plan for the building, evidence that the building or parcel meets an existing need that cannot otherwise be met, and other criteria developed by rule by the board of trustees. The board or its designee shall compare the estimated value of the building or parcel to any submitted business plan to determine if the lease or sale is in the best interest of the

state. The board of trustees shall adopt rules pursuant to chapter 120 for the implementation of this section.

Section 5. Subsection (3) is amended, and subsection (12) is added to section 337.25, Florida Statutes, to read:

337.25 Acquisition, lease, and disposal of real and personal property.—

(3) Beginning July 1, 2018, the department shall evaluate all of its land not within a transportation corridor or within the right-of-way of a transportation facility at least every 10 years, on a rotating basis, to determine whether the property should be retained. ~~The inventory of real property that was acquired by the state after December 31, 1988, that has been owned by the state for 10 or more years, and that is not within a transportation corridor or within the right-of-way of a transportation facility shall be evaluated to determine the necessity for retaining the property.~~ If the property is not needed for the construction, operation, and maintenance of a transportation facility or is not located within a transportation corridor, the department may dispose of the property pursuant to subsection (4).

(12) Except in a conveyance transacted under paragraphs (4)(a), (c), and (e), the department must first offer parcels of nonconservation surplus land to the county and municipality where the land is located for use as affordable housing as identified by the Florida Housing Finance Corporation pursuant to s. 420.56.

Section 6. Subsection (1) is amended, and subsection (9) is added to section 373.089, Florida Statutes, to read:

373.089 Sale or exchange of lands, or interests or rights

618886

in lands.—The governing board of the district may sell lands, or interests or rights in lands, to which the district has acquired title or to which it may hereafter acquire title in the following manner:

(1) Beginning on July 1, 2018, the district shall review all lands and interests or rights in lands every 10 years, on a rotating basis, to determine whether the lands are still needed for the purpose for which they were acquired. Any lands, or interests or rights in lands, determined by the governing board to be surplus may be sold by the district, at any time, for the highest price obtainable; however, in no case shall the selling price be less than the appraised value of the lands, or interests or rights in lands, as determined by a certified appraisal obtained within 360 days before the effective date of a contract for sale.

(9) The governing board must first offer nonconservation surplus lands to the county and municipality where the land is located for use as affordable housing as identified by the Florida Housing Finance Corporation pursuant to s. 420.56. Districts must only offer nonconservation surplus lands originally acquired using state funds.

If the Board of Trustees of the Internal Improvement Trust Fund declines to accept title to the lands offered under this section, the land may be disposed of by the district under the provisions of this section.

Section 7. Subsections (35) and (46) of section 420.507, Florida Statutes, are amended to read:

420.507 Powers of the corporation.—The corporation shall

618886

have all the powers necessary or convenient to carry out and effectuate the purposes and provisions of this part, including the following powers which are in addition to all other powers granted by other provisions of this part:

(35) Upon a determination of good cause and after service of an administrative complaint and adequate notice, to take one or more of the following actions against any applicant or affiliate of an applicant:

(a) Preclude such applicant or affiliate from applying for funding from any corporation program for a specified period;

(b) Revoke any funding previously awarded by the corporation for any development for which construction or rehabilitation has not commenced; and

(c) Suspend any funding, credit underwriting procedures, or application review for any development for which construction or rehabilitation has not commenced, from the time an administrative complaint is filed until a final order is issued in regard to that complaint. For purposes of this subsection, the term "good cause" means that the applicant or affiliate of an applicant:

1. Has made a material misrepresentation or engaged in fraudulent actions in connection with any application for a corporation program;

2. Has been convicted or found guilty of, or entered a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction which directly relates to the financing, construction, or management of affordable housing or the fraudulent procurement of state or federal funds. The record of a conviction certified or authenticated in such form as to be

admissible in evidence under the laws of this state shall be admissible as prima facie evidence of such guilt;

3. Has been excluded from federal or state procurement programs for any reason; or

4. Has offered or given consideration with respect to a local contribution in violation of corporation rules ~~To preclude from further participation in any of the corporation's programs, any applicant or affiliate of an applicant which has made a material misrepresentation or engaged in fraudulent actions in connection with any application for a corporation program~~.

(46) To require, as a condition of financing a multifamily rental project, which may include allocating competitive low-income housing tax credits, that an agreement be recorded in the official records of the county where the real property is located, which requires that the project be used for housing defined as affordable in s. 420.0004(3) by persons defined in s. 420.0004(9), (11), (12), and (17). The term of such agreement may not extend beyond the period of time required by 26 U.S.C. 42(h)(6)(D)(ii)(II), unless the corporation affirms at the time of the initial credit underwriting that the project will remain economically feasible beyond such period. Such an agreement is a state land use regulation that limits the highest and best use of the property within the meaning of s. 193.011(2).

Section 8. Paragraph (c) of subsection (6) of section 420.5087, Florida Statutes, is amended to read:

420.5087 State Apartment Incentive Loan Program.—There is hereby created the State Apartment Incentive Loan Program for the purpose of providing first, second, or other subordinated mortgage loans or loan guarantees to sponsors, including for-

profit, nonprofit, and public entities, to provide housing affordable to very-low-income persons.

(6) On all state apartment incentive loans, except loans made to housing communities for the elderly to provide for lifesafety, building preservation, health, sanitation, or security-related repairs or improvements, the following provisions shall apply:

(c) The corporation shall provide by rule for the establishment of a review committee for the competitive evaluation and selection of applications submitted in this program, including, but not limited to, the following criteria:

1. Tenant income and demographic targeting objectives of the corporation.

2. Targeting objectives of the corporation which will ensure an equitable distribution of loans between rural and urban areas.

3. Sponsor’s agreement to reserve the units for persons or families who have incomes below 50 percent of the state or local median income, whichever is higher, for a time period that exceeds the minimum required by federal law or this part.

4. Sponsor’s agreement to reserve more than:

a. Twenty percent of the units in the project for persons or families who have incomes that do not exceed 50 percent of the state or local median income, whichever is higher; or

b. Forty percent of the units in the project for persons or families who have incomes that do not exceed 60 percent of the state or local median income, whichever is higher, without requiring a greater amount of the loans as provided in this section.

5. Provision for tenant counseling.

6. Sponsor’s agreement to accept rental assistance certificates or vouchers as payment for rent.

7. Projects requiring the least amount of a state apartment incentive loan compared to overall project cost, except that the share of the loan attributable to units serving extremely-low-income persons must be excluded from this requirement.

8. Local government contributions and local government comprehensive planning and activities that promote affordable housing and policies that promote access to public transportation, reduce the need for onsite parking where appropriate, and expedite permits for affordable housing projects as provided in s. 553.7923.

9. Project feasibility.

10. Economic viability of the project.

11. Commitment of first mortgage financing.

12. Sponsor’s prior experience.

13. Sponsor’s ability to proceed with construction.

14. Projects that directly implement or assist welfare-to-work transitioning.

15. Projects that reserve units for extremely-low-income persons.

16. Projects that include green building principles, storm-resistant construction, or other elements that reduce long-term costs relating to maintenance, utilities, or insurance.

17. Job-creation rate of the developer and general contractor, as provided in s. 420.507(47).

Section 9. Section 420.56, Florida Statutes, is created to read:

618886

420.56 Disposal of surplus lands for use as affordable housing.—

(1) It is intent of the Legislature to make all suitable surplus lands designated as nonconservation available for affordable housing before making the parcels available for purchase by other governmental entities or the public.

(2) The Department of Environmental Protection acting on the behalf of the Board of Trustees of the Internal Improvement Trust Fund, the Department of Transportation, and each water management district shall notify the corporation when nonconservation land becomes available for surplus as part of the entity's regular review of lands under the provisions of s. 253.0341, s. 337.25, or s. 373.089 before making the parcel available for any other use, including for purchase by other governmental entities or the public. Water management districts must only identify nonconservation surplus lands originally acquired using state funds.

(3) In consultation with the Department of Environmental Protection, the Department of Transportation, and the water management districts, the corporation must issue an advisory opinion as to whether these surplus lands may be suitable for affordable housing. The corporation shall first determine whether the parcel is within a special district set up to revitalize a community. Only parcels determined to be outside these areas will be further evaluated for suitability. The corporation's evaluation shall consider at least the following criteria: the property's environmental suitability for construction; current and anticipated land use and zoning; existing and anticipated infrastructure on the land, such as

618886

roads, water, sewer, and electricity; access to grocery stores; access to employment opportunities; access to public transportation; and access to community services, such as public libraries, health care, and employment centers. As long as a parcel is in an area suitable for residential development, it may be found by the corporation to be suitable for use as affordable housing, even if the parcel does not meet one or more of these or other criteria.

(4) If the corporation issues an advisory opinion finding that the nonconservation surplus land may be suitable for affordable housing, the entity seeking to dispose of the parcel must first offer the land to the county and municipality where the land is located, to be used for affordable housing, before the entity offers the land to other governmental entities or the public. If the county and municipality where the parcel is located do not wish to use the parcel for affordable housing, the entity may dispose of the parcel as otherwise provided by law or herein.

(5) The Board of Trustees of the Internal Improvement Trust Fund, the Department of Transportation, and the water management districts may sell the parcels identified by the corporation for affordable housing for less than the appraised value to any party so long as the agency places an encumbrance on the parcels to ensure the purchaser uses the land for affordable housing for a period of not less than 99 years.

(6)(a) The Board of Trustees of the Internal Improvement Trust Fund, the Department of Transportation, and the water management districts are exempt from the disposal procedures of ss. 253.0341(8) and (9), 337.25(4) and (7), 373.089(1), (2),

618886

(3), and (8) when disposing of nonconservation surplus lands under this section.

(b) The sale price of land parcels disposed of pursuant to this section shall be determined by the entity disposing of the parcels. The Department of Transportation, the Board of Trustees of the Internal Improvement Trust Fund, and the water management districts must consider at least one appraisal of the property or, if the estimated value of the land is $500,000 or less, a comparable sales analysis or a broker's opinion of value; however, if a property owned by the Department of Transportation was acquired with federal participation and the estimated value of the property is more than $25,000, an appraisal of the property must be considered.

providing legislative intent; providing a process for certain entities to dispose of surplus lands for use as affordable housing; creating s. 420.57, F.S.; creating the Hurricane Housing Recovery Program to provide funds for certain affordable housing recovery efforts; requiring the corporation to administer the program and allocate resources to local governments that meet certain criteria; specifying requirements for receiving and using funds; requiring participating local governments to submit a report; requiring the corporation to compile the reports and submit them to the Legislature; creating the Rental Recovery Loan Program to provide funds for additional rental housing due to specified impacts; providing a rationale for the program; authorizing the corporation to adopt rules to administer specified provisions; authorizing the corporation to adopt emergency rules; providing legislative findings; providing that the corporation is not required to make specified findings; providing an exemption; requiring the emergency rules to remain in effect for a specified period after adoption; authorizing the emergency rules to be renewed during the pendency of procedures to adopt rules addressing the subject of the emergency rules; amending s. 420.9071, F.S.; revising the definition of the term "local housing incentive strategies"; amending s. 423.02, F.S.; exempting housing projects, including certain property, of housing authorities or their nonprofit instrumentalities from all taxes, user fees,

and special assessments of the state or any city, town, county, or political subdivision of the state; providing that, in lieu of such taxes, user fees, or special assessments, a housing authority or its nonprofit instrumentality may agree to make payments to any city, town, county, or political subdivision of the state for services, improvements, or facilities furnished by such city, town, county, or political subdivision for the benefit of a housing project owned by the housing authority or its nonprofit instrumentality; creating s. 553.7923, F.S.; providing a local permit approval process for affordable housing; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (1) of section 125.379, Florida Statutes, is amended to read:

125.379 Disposition of county property for affordable housing.—

(1) Beginning July 1, 2018 ~~By July 1, 2007~~, and every 3 years thereafter, each county shall prepare an inventory list of all real property within its jurisdiction to which the county holds fee simple title that is appropriate for use as affordable housing. The real property must be evaluated on criteria that include environmental suitability for construction, site characteristics, current land use designation, current or anticipated zoning, inclusion in at least one special district, existing infrastructure, proximity to employment opportunities,

proximity to public transportation, and proximity to existing services. The inventory list must include the address and legal description of each such real property and specify whether the property is vacant or improved. The governing body of the county must review the inventory list at a public hearing and may revise it at the conclusion of the public hearing. The governing body of the county shall adopt a resolution that includes an inventory list of such property following the public hearing.

Section 2. Subsection (1) of section 166.0451, Florida Statutes, is amended to read:

166.0451 Disposition of municipal property for affordable housing.—

(1) Beginning July 1, 2018 ~~By July 1, 2007~~, and every 3 years thereafter, each municipality shall prepare an inventory list of all real property within its jurisdiction to which the municipality holds fee simple title that is appropriate for use as affordable housing. Such real property shall be evaluated on criteria that include the environmental suitability for construction, site characteristics, currently designated land use, current or anticipated zoning, inclusion in one or more special districts, existing infrastructure, proximity to employment opportunities, proximity to public transportation, and proximity to existing services. The inventory list must include the address and legal description of each such property and specify whether the property is vacant or improved. The governing body of the municipality must review the inventory list at a public hearing and may revise it at the conclusion of the public hearing. Following the public hearing, the governing body of the municipality shall adopt a resolution that includes

an inventory list of such property.

Section 3. Subsections (4) and (7) of section 253.0341, Florida Statutes, are amended to read:

253.0341 Surplus of state-owned lands.—

(4) Beginning July 1, 2018, and continuing every 3 years thereafter ~~At least every 10 years~~, as a component of each land management plan or land use plan and in a form and manner adopted by rule of the board of trustees, each manager shall evaluate and indicate to the board of trustees those lands that are not being used for the purpose for which they were originally leased. For conservation lands, the Acquisition and Restoration Council shall review and recommend to the board of trustees whether such lands should be retained in public ownership or disposed of by the board of trustees. For nonconservation lands, the Division of State Lands shall review and recommend to the board of trustees whether such lands should be retained in public ownership or disposed of by the board of trustees.

(7)(a) The board of trustees must first offer nonconservation surplus lands to the county and municipality where the land is located for use as affordable housing as identified by the Florida Housing Finance Corporation pursuant to s. 420.56. All surplus buildings or land not needed for affordable housing ~~Before a building or parcel of land is offered for lease or sale to a local or federal unit of government or a private party, it~~ shall first be offered for lease to state agencies, state universities, and Florida College System institutions, with priority consideration given to state universities and Florida College System institutions. If the

surplus building or land is not used for affordable housing or leased by a state agency, state university, or Florida College System institution, then the board of trustees shall offer the building or parcel for lease or sale to a local or federal unit of government or a private party.

(b) Within 60 days after the offer for lease of a surplus building or parcel, a state university or Florida College System institution that requests the lease must submit a plan for review and approval by the Board of Trustees of the Internal Improvement Trust Fund regarding the intended use, including future use, of the building or parcel of land before approval of a lease. Within 60 days after the offer for lease of a surplus building or parcel, a state agency that requests the lease of such facility or parcel must submit a plan for review and approval by the board of trustees regarding the intended use. The state agency plan must, at a minimum, include the proposed use of the facility or parcel, the estimated cost of renovation, a capital improvement plan for the building, evidence that the building or parcel meets an existing need that cannot otherwise be met, and other criteria developed by rule by the board of trustees. The board or its designee shall compare the estimated value of the building or parcel to any submitted business plan to determine if the lease or sale is in the best interest of the state. The board of trustees shall adopt rules pursuant to chapter 120 for the implementation of this section.

Section 4. Subsection (3) is amended, and subsection (12) is added to section 337.25, Florida Statutes, to read:

337.25 Acquisition, lease, and disposal of real and personal property.—

(3) Beginning July 1, 2018, the department shall evaluate all of its land not within a transportation corridor or within the right-of-way of a transportation facility at least every 10 years on a rotating basis to determine whether the property should be retained. ~~The inventory of real property that was acquired by the state after December 31, 1988, that has been owned by the state for 10 or more years, and that is not within a transportation corridor or within the right-of-way of a transportation facility shall be evaluated to determine the necessity for retaining the property.~~ If the property is not needed for the construction, operation, and maintenance of a transportation facility or is not located within a transportation corridor, the department may dispose of the property pursuant to subsection (4).

(12) Except in a conveyance transacted under paragraphs (4)(a), (c), and (e), the department must first offer parcels of nonconservation surplus land to the county and municipality where the land is located for use as affordable housing as identified by the Florida Housing Finance Corporation pursuant to s. 420.56.

Section 5. Subsection (1) is amended, and subsection (9) is added to section 373.089, Florida Statutes, to read:

373.089 Sale or exchange of lands, or interests or rights in lands.—The governing board of the district may sell lands, or interests or rights in lands, to which the district has acquired title or to which it may hereafter acquire title in the following manner:

(1) Beginning on July 1, 2018, the district shall review all lands and interests or rights in lands every 10 years on a

rotating basis to determine whether the lands are still needed for the purpose for which they were acquired. Any lands, or interests or rights in lands, determined by the governing board to be surplus may be sold by the district, at any time, for the highest price obtainable; however, in no case shall the selling price be less than the appraised value of the lands, or interests or rights in lands, as determined by a certified appraisal obtained within 360 days before the effective date of a contract for sale.

(9) The governing board must first offer nonconservation surplus lands to the county and municipality where the land is located for use as affordable housing as identified by the Florida Housing Finance Corporation pursuant to s. 420.56. Districts must only offer nonconservation surplus lands originally acquired using state funds.

If the Board of Trustees of the Internal Improvement Trust Fund declines to accept title to the lands offered under this section, the land may be disposed of by the district under the provisions of this section.

Section 6. Subsections (35) and (46) of section 420.507, Florida Statutes, are amended to read:

420.507 Powers of the corporation.—The corporation shall have all the powers necessary or convenient to carry out and effectuate the purposes and provisions of this part, including the following powers which are in addition to all other powers granted by other provisions of this part:

(35)(a) Upon a determination of good cause and after service of an administrative complaint and adequate notice, to

take one or more of the following actions against any applicant or affiliate of an applicant:

1. Preclude such applicant or affiliate from applying for funding from any corporation program for a specified period;

2. Revoke any funding previously awarded by the corporation for any development for which construction or rehabilitation has not commenced; and

3. Suspend any funding, credit underwriting procedures, or application review for any development for which construction or rehabilitation has not commenced from the time an administrative complaint is filed until a final order is issued in regard to that complaint.

(b) For purposes of this subsection, the term "good cause" means that the applicant or affiliate of an applicant:

1. Has made a material misrepresentation or engaged in fraudulent actions in connection with any application for a corporation program;

2. Has been convicted or found guilty of, or entered a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction which directly relates to the financing, construction, or management of affordable housing or the fraudulent procurement of state or federal funds. The record of a conviction certified or authenticated in such form as to be admissible in evidence under the laws of this state shall be admissible as prima facie evidence of such guilt;

3. Has been excluded from federal or state procurement programs for any reason; or

4. Has offered or given consideration with respect to a local contribution in violation of corporation rules ~~To preclude~~

~~from further participation in any of the corporation's programs, any applicant or affiliate of an applicant which has made a material misrepresentation or engaged in fraudulent actions in connection with any application for a corporation program~~.

(46) To require, as a condition of financing a multifamily rental project, including allocating competitive low-income housing tax credits, that an agreement be recorded in the official records of the county where the real property is located, which requires that the project be used for housing defined as affordable in s. 420.0004(3) by persons defined in s. 420.0004(9), (11), (12), and (17). The term of such agreement does not extend beyond that period of time required by 26 U.S.C. 42(h)(6)(D)(ii)(II), unless the corporation affirms at the time of the initial credit underwriting that the project will remain economically feasible beyond such period. Such an agreement is a state land use regulation that limits the highest and best use of the property within the meaning of s. 193.011(2).

Section 7. Paragraph (c) of subsection (6) of section 420.5087, Florida Statutes, is amended to read:

420.5087 State Apartment Incentive Loan Program.—There is hereby created the State Apartment Incentive Loan Program for the purpose of providing first, second, or other subordinated mortgage loans or loan guarantees to sponsors, including for-profit, nonprofit, and public entities, to provide housing affordable to very-low-income persons.

(6) On all state apartment incentive loans, except loans made to housing communities for the elderly to provide for lifesafety, building preservation, health, sanitation, or security-related repairs or improvements, the following

provisions shall apply:

(c) The corporation shall provide by rule for the establishment of a review committee for the competitive evaluation and selection of applications submitted in this program, including, but not limited to, the following criteria:

1. Tenant income and demographic targeting objectives of the corporation.

2. Targeting objectives of the corporation which will ensure an equitable distribution of loans between rural and urban areas.

3. Sponsor's agreement to reserve the units for persons or families who have incomes below 50 percent of the state or local median income, whichever is higher, for a time period that exceeds the minimum required by federal law or this part.

4. Sponsor's agreement to reserve more than:

a. Twenty percent of the units in the project for persons or families who have incomes that do not exceed 50 percent of the state or local median income, whichever is higher; or

b. Forty percent of the units in the project for persons or families who have incomes that do not exceed 60 percent of the state or local median income, whichever is higher, without requiring a greater amount of the loans as provided in this section.

5. Provision for tenant counseling.

6. Sponsor's agreement to accept rental assistance certificates or vouchers as payment for rent.

7. Projects requiring the least amount of a state apartment incentive loan compared to overall project cost, except that the share of the loan attributable to units serving extremely-low-

income persons must be excluded from this requirement.

8. Local government contributions and local government comprehensive planning and activities that promote affordable housing, policies that promote access to public transportation, reduce the need for onsite parking, and expedite permits for affordable housing projects as provided in s. 553.7923.

9. Project feasibility.

10. Economic viability of the project.

11. Commitment of first mortgage financing.

12. Sponsor's prior experience.

13. Sponsor's ability to proceed with construction.

14. Projects that directly implement or assist welfare-to-work transitioning.

15. Projects that reserve units for extremely-low-income persons.

16. Projects that include green building principles, storm-resistant construction, or other elements that reduce long-term costs relating to maintenance, utilities, or insurance.

17. Job-creation rate of the developer and general contractor, as provided in s. 420.507(47).

Section 8. Section 420.56, Florida Statutes, is created to read:

420.56 Disposal of surplus lands for use as affordable housing.—

(1) It is intent of the Legislature to make all surplus lands designated as nonconservation available for affordable housing before making the parcels available for purchase by other governmental entities or the public.

(2) The Department of Environmental Protection acting on

the behalf of the Board of Trustees of the Internal Improvement Trust Fund, the Department of Transportation, and each water management district shall notify the corporation when nonconservation land becomes available for surplus as part of the entity's regular review of lands under the provisions of s. 253.0341, s. 337.25, or s. 373.089 before making the parcel available for any other use, including for purchase by other governmental entities or the public. Water management districts must only identify nonconservation surplus lands originally acquired using state funds.

(3) In consultation with the Department of Environmental Protection, the Department of Transportation, and the water management districts, the corporation must evaluate whether these surplus lands are suitable for affordable housing based on the property's environmental suitability for construction; current and anticipated land use and zoning; inclusion in one or more special districts; existing infrastructure on the land, such as roads, water, sewer, and electricity; access to grocery stores within walking distance or by public transportation; access to employment opportunities within walking distance or by public transportation; access to public transportation within one half mile; and access to community services, such as public libraries, food kitchens, and employment centers.

(4) If the corporation determines that the nonconservation surplus land is suitable for affordable housing, the entity seeking to dispose of the parcel must first offer the land to the county and municipality where the land is located, to be used for affordable housing, before the entity offers the land to other governmental entities or the public. If the county and

municipality where the parcel is located do not wish to use the parcel for affordable housing, the entity may dispose of the parcel as otherwise provided by law or herein.

(5) The Board of Trustees of the Internal Improvement Trust Fund, the Department of Transportation, and the water management districts may sell the parcels identified by the corporation for affordable housing for less than the appraised value to any party so long as the agency places an encumbrance on the parcels to ensure the purchaser uses the land for affordable housing for a period of not less than 99 years.

(6)(a) The Board of Trustees of the Internal Improvement Trust Fund, the Department of Transportation, and the water management districts are exempt from the disposal procedures of ss. 253.0341(8) and (9), 337.25(4) and (7), 373.089(1), (2), (3), and (8) when disposing of nonconservation surplus lands under this section.

(b) The sale price of land parcels disposed of pursuant to this section shall be determined by the entity disposing of the parcels. The Department of Transportation, the Board of Trustees of the Internal Improvement Trust Fund, and the water management districts must consider at least one appraisal of the property or, if the estimated value of the land is $500,000 or less, a comparable sales analysis or a broker's opinion of value.

Section 9. Section 420.57, Florida Statutes, is created to read:

420.57 Hurricane recovery programs.—

(1) The Hurricane Housing Recovery Program is created to provide funds to local governments for affordable housing recovery efforts, similar to the State Housing Initiatives

Partnership Program as set forth in ss. 420.907-420.9079. Subject to a specific appropriation as authorized by the General Appropriations Act, the Florida Housing Finance Corporation shall administer the program. Notwithstanding ss. 420.9072 and 420.9073, the Florida Housing Finance Corporation shall allocate resources to local governments according to a need-based formula that reflects housing damage estimates and population impacts resulting from hurricanes. Eligible local governments must submit a strategy outlining proposed recovery actions, household income levels and number of residential units to be served, and funding requests. Program funds shall be used to serve households with incomes up to 120 percent of area median income, except that at least 30 percent of program funds should be reserved for households with incomes up to 50 percent of area median income and an additional 30 percent of program funds should be reserved for households with incomes up to 80 percent of area median income. Program funds shall be used as follows:

(a) At least 65 percent of funds shall be used for homeownership.

(b) Up to 15 percent of the funds may be used for administrative expenses to ensure expeditious use of funds.

(c) Up to one-quarter of 1 percent may be used by the Florida Housing Finance Corporation for compliance monitoring.

(2) Each participating local government shall submit to the Florida Housing Finance Corporation an annual report of its use of funds from the Hurricane Housing Recovery Program. The corporation shall compile the reports and submit them to the President of the Senate and the Speaker of the House of Representatives.

(3) The Rental Recovery Loan Program is created to provide funds to build additional rental housing due to impacts to the affordable housing stock and changes to the population resulting from hurricanes. The program is intended to allow the state to leverage additional federal rental financing similar to the State Apartment Incentive Loan Program as described in s. 420.5087 and is subject to a specific appropriation in the General Appropriations Act.

(4) The Florida Housing Finance Corporation may adopt rules to administer this section.

Section 10. The Florida Housing Finance Corporation may adopt emergency rules pursuant to s. 120.54, Florida Statutes, to implement s. 420.57, Florida Statutes. The Legislature finds that emergency rules adopted to implement this section meet the health, safety, and welfare requirements of s. 120.54(4), Florida Statutes. The Legislature also finds that such emergency rulemaking is necessary to preserve the rights and welfare of the people and to provide additional funds to assist those areas of the state that sustained impacts to available affordable housing stock due to recent hurricanes. Therefore, in adopting such emergency rules, the corporation is not required to make the findings required by s. 120.54(4)(a), Florida Statutes. Emergency rules adopted under this section are exempt from s. 120.54(4)(c), Florida Statutes. The emergency rules shall remain in effect for 6 months after adoption and may be renewed during the pendency of procedures to adopt rules addressing the subject of the emergency rules.

Section 11. Subsection (16) of section 420.9071, Florida Statutes, is amended to read:

420.9071 Definitions.—As used in ss. 420.907-420.9079, the term:

(16) "Local housing incentive strategies" means local regulatory reform or incentive programs to encourage or facilitate affordable housing production, which include, at a minimum, expediting development permits as defined in s. 163.3164(16), construction permits, and certificates of occupancy for affordable housing projects as provided in s. 553.7923 ~~assurance that permits for affordable housing projects are expedited to a greater degree than other projects, as provided in s. 163.3177(6)(f)3.~~; an ongoing process for review of local policies, ordinances, regulations, and plan provisions that increase the cost of housing prior to their adoption; and a schedule for implementing the incentive strategies. Local housing incentive strategies may also include other regulatory reforms, such as those enumerated in s. 420.9076 or those recommended by the affordable housing advisory committee in its triennial evaluation of the implementation of affordable housing incentives, and adopted by the local governing body.

Section 12. Section 423.02, Florida Statutes, is amended to read:

423.02 Housing projects exempted from taxes, user fees, and assessments; payments in lieu thereof.—The housing projects, including all property of housing authorities used for or in connection therewith or appurtenant thereto, of housing authorities, or their nonprofit instrumentalities as authorized by s. 421.08(8), shall be exempt from all taxes, user fees, and special assessments of the state or any city, town, county, or political subdivision of the state, provided, however, that in

lieu of such taxes, user fees, or special assessments, a housing authority or its nonprofit instrumentality may agree to make payments to any city, town, county, or political subdivision of the state for services, improvements, or facilities furnished by such city, town, county, or political subdivision for the benefit of a housing project owned by the housing authority or its nonprofit instrumentality, but in no event shall such payments exceed the estimated cost to such city, town, county, or political subdivision of the services, improvements, or facilities to be so furnished.

Section 13. Section 553.7923, Florida Statutes, is created to read:

553.7923 Local Permit Approval Process for Affordable Housing.—

(1) A local government has 15 days after the date it receives an application for a development permit, construction permit, or certificate of occupancy for affordable housing to examine the application and notify the applicant of any apparent errors or omissions and request any additional information the local government is permitted by law to require.

(2) If a local government does not request additional information within the required time, the local government may not deny a development permit, construction permit, or certificate of occupancy for affordable housing if the applicant has failed to correct an error or omission or to supply additional information.

(3) The local government may require any additional requested information to be submitted no later than 10 days after the date of the notice specified in subsection (1).

(4) For good cause shown, the local government shall grant a request for an extension of time for submitting the additional information.

(5) An application is complete upon receipt of all requested information and the correction of any error or omission for which the applicant was timely notified or when the time for notification has expired.

(6) The local government must approve or deny an application for a development permit, construction permit, or certificate of occupancy for affordable housing within 60 days after receipt of a completed application unless a shorter period of time for local government action is provided by law.

(7) If the local government does not approve or deny an application for a development permit, construction permit, or certificate of occupancy for affordable housing within the 60-day or shorter period, the permit is considered approved and the local government must issue the development permit, construction permit, or certificate of occupancy and may include such reasonable conditions as authorized by law.

(8) An applicant for a development permit, construction permit, or certificate of occupancy seeking to receive a permit by default under this section must notify the local government in writing of the intent to rely upon the default approval provision of this section but may not take any action based upon the default development permit, construction permit, or certificate of occupancy until the applicant receives notification or a receipt that the local government received the notice. The applicant must retain the notification or receipt.

Section 14. This act shall take effect July 1, 2018.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations	
BILL:	CS/SB 1328
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Transportation, Tourism, and Economic Development); and Senator Perry
SUBJECT:	Affordable Housing
DATE:	March 1, 2018 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Present	Yeatman	CA	**Favorable**
2.	Hrdlicka	Hrdlicka	ATD	**Recommend: Fav/CS**
3.	Hrdlicka	Hansen	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1328 creates the Hurricane Housing Recovery Program (HHRP) and the Rental Recovery Loan Program (RRLP) to expedite the creation of additional affordable housing in response to the needs created by the recent hurricanes. The Florida Housing Finance Corporation will fund the HHRP and RRLP as provided in the General Appropriations Act.

The bill requires the Department of Environmental Protection, the Department of Transportation, and the water management districts, in conjunction with the Florida Housing Finance Corporation, to evaluate all nonconservation surplus lands for suitability for residential use and the development of permanent affordable housing and to offer such parcels to the county or municipality where the land is located. The bill provides for additional evaluation criteria intended to address specific needs and characteristics for the development of affordable housing.

The bill exempts housing authorities from "user fees" and nonprofit housing corporations created by housing authorities from taxes, user fees, and assessments. The Revenue Estimating Conference has not yet estimated the fiscal impact of this provision. The term "user fees" is not defined in the bill but could be interpreted broadly to include fees for services such as garbage, electricity, storm water, etc.

The bill also provides for an expedited local permit approval process for affordable housing by reducing the time a local government entity has to approve or deny permit applications from 120 days to 60 days.

The bill requires counties, municipalities, and special districts to report certain information about impact fees as part of their annual financial reports.

The bill authorizes the Florida Housing Finance Corporation to take certain administrative actions against an applicant or its affiliate for good cause, including a determination that the applicant or its affiliate made a material misrepresentation or engaged in fraudulent actions in connection with any application for an affordable housing program.

The bill limits the terms of agreements for multifamily rental projects to 30 years, unless the Florida Housing Finance Corporation finds that the project will be "economically feasible" beyond that time.

The HHRP and RRLP will be funded as provided in the General Appropriations Act. The Revenue Estimating Conference has not yet estimated the fiscal impact of the provision exempting housing authorities from "user fees" and nonprofit housing corporations created by housing authorities from taxes, user fees, and assessments

The bill takes effect July 1, 2018.

II. Present Situation:

The present situation is included in the effect of proposed changes.

III. Effect of Proposed Changes:

Affordable Housing

Present Situation

Affordable housing is defined in terms of household income. Housing is considered affordable when monthly rent or mortgage payments including taxes and insurance do not exceed 30 percent of the household income.[1] Resident eligibility for Florida's state and federally funded housing programs is typically governed by area median income (AMI) levels, published annually by the U.S. Department of Housing and Urban Development (HUD) for every county and metropolitan area. The following are standard household income level definitions and their relationship to the 2017 Florida state median of $59,000 for a family of four (as family size increases or decreases, the income range also increases or decreases):[2]

- Extremely low income – earning up to 30 percent AMI (at or below $17,700);[3]
- Very low income – earning from 30.01 to 50 percent AMI ($17,701 to $29,500);[4]

[1] Section 420.9071(2), F.S. Public housing, commonly referred to as Section 8 Housing, is provided by local housing agencies (HAs) for low-income residents. Funding for HAs is provided directly from HUD.
[2] U.S. Department of Housing and Urban Development, Office of Policy Research and Development, *FY 2017 HUD Income Limits Briefing Material*, March 21, 2017, p. 41, available at https://www.huduser.gov/portal/datasets/il/il17/IncomeLimitsBriefingMaterial-FY17.pdf.
[3] Section 420.0004(9), F.S.
[4] Section 420.9071(28), F.S.

- Low income – earning from 50.01 to 80 percent AMI ($29,501 to $47,200);[5] and
- Moderate income – earning from 80.01 to 120 percent of AMI ($47,201 to $70,800).[6]

The two primary state housing assistance programs are the State Housing Initiatives Partnership (SHIP)[7] and the State Apartment Incentive Loan (SAIL)[8] programs. The SHIP program provides funds to eligible local governments, allocated using a population-based formula, to address local housing needs as adopted in the Local Housing Assistance Plan. Eligible local government entities must develop and adopt local housing assistance plans that include, but are not limited to, strategies and incentives for the construction, rehabilitation, repair, or financing of affordable housing production.[9] The SAIL program provides low interest loans on a competitive basis as gap financing for the construction or substantial rehabilitation of multifamily affordable housing developments.[10]

Local Government Surplus Land (Sections 1 and 3)

Present Situation

Since July 1, 2007, all counties and municipalities have been required to prepare, every 3 years, an inventory list of all real property held in fee simple by the respective government entity that is appropriate for use as affordable housing. The list must be reviewed at a public hearing of the appropriate local governing body and may be revised at the conclusion of the public hearing. The governing body must adopt a resolution that includes the inventory following the meeting.[11]

Properties identified as appropriate for affordable housing may be:
- Offered for sale by the local government and the proceeds used to purchase land for the development of affordable housing or to increase the local government fund earmarked for affordable housing.
- Sold with a restriction that requires the development of the property as permanent affordable housing.
- Offered for donation to a nonprofit housing organization for the construction of permanent affordable housing.
- Otherwise made available for use for the production and preservation of permanent affordable housing.[12]

[5] Section 420.9071(19), F.S.
[6] Section 420.9071(20), F.S.
[7] Sections 420.907-9079, F.S.
[8] Section 420.5087, F.S.
[9] Section 420.9071(14), (15), & (16), F.S. These local housing plans must also align with the requirements for housing under the Local Government Comprehensive Planning and Land Development Regulation Act of 1985. Chapter 163, Part II, F.S.
[10] Section 420.5087, F.S.
[11] Sections 125.379 and 166.0451, F.S.
[12] *Id.*

Effect of the Bill

Sections 1 and **3** amend ss. 125.379 and 166.0451, F.S., respectively, to require each county and municipality to include the following criteria when preparing the inventory list of real property and evaluating for use as affordable housing:

- Environmental suitability for construction;
- Site characteristics;
- Current land use designation;
- Current or anticipated zoning;
- Whether the property is included in at least one special district;
- Existing infrastructure; and
- Proximity to employment opportunities, public transportation, and existing services.

A property in an area suitable for residential development may be found to be suitable for use as affordable housing even if the property doesn't meet one of the criteria listed above.

Local Government Impact Fees (Section 2)

Present Situation

Impact fees are amounts imposed by local governments to fund local infrastructure required to provide for increased local services needs caused by new growth.[13] Adopted by ordinance of a county, municipality, or special district, impact fees must meet the following minimum criteria:

- The fee must be calculated using the most recent localized data;
- The local government adopting the impact fee must account for and report fee collections and expenditures. If the fee is imposed for a specific infrastructure need, the local government must account for those revenues and expenditures in a separate accounting fund;
- Administrative charges imposed for the collection of impact fees are limited to the actual costs; and
- All local governments are required to give notice of a new or increased impact fee at least 90 days before the new or increased fee takes effect. However, counties and municipalities do not need to wait 90 days before decreasing, suspending, or eliminating an impact fee.[14]

The types of impact fees, amounts, and timing of collection are within the discretion of the local government authorities choosing to impose the fees.[15] The courts have found the imposition of impact fees appropriate where the local government meets two fundamental requirements:

- A reasonable connection, or nexus, between the need for additional capital facilities and the population growth generated by the project; and
- A reasonable connection, or nexus, between the expenditures of the funds collected from the impact fees and the benefits accruing to the subdivision or project.

---

[13] Section 163.31801(2), F.S.
[14] Section 163.31801(3), F.S.
[15] Currently, in Florida there are 67 counties, 413 municipalities, 1,059 independent special districts, and 633 dependent special districts. *See* ch. 7, F.S.; Florida House of Representatives, *The Local Government Formation Manual 2017-2018*, Appx. B, at http://www.flsenate.gov/Reference/Publications; Lists of Independent and Dependent Districts available through Department of Economic Opportunity, Special District Accountability Program, at http://specialdistrictreports.floridajobs.org/webreports/criteria.aspx (both sites last visited February 17, 2018).

Meeting the second criteria requires the local government ordinance imposing the impact fee to earmark the funds collected to acquire the new capital facilities necessary to benefit the new residents.[16]

In 2015, 38 counties reported total impact fee revenues of $503.9 million and 193 cities reported total impact fee revenues of $225.3 million.[17] In 2016, 28 school districts reported total impact fee revenues of $265.3 million.[18]

The 2017 Affordable Housing Workgroup[19] was charged with providing recommendations for, among other components, a review of land use for affordable housing developments.[20] The review included fee impacts of fees such as impact fees, exactions, mitigation fees, and development fees.[21] To provide context to workgroup members, the Florida Housing Finance Corporation queried local SHIP administrators regarding impact fee calculations and waivers in their locales. Based on responses from approximately two-thirds of those surveyed, nearly 25 percent do not currently assess any impact fees. For the remaining cities and counties that do impose impact fees, the fees are calculated using a combination of methodologies, including by square footage, number of bedrooms, geographic location, resident status as a senior citizen, or as a flat fee. Approximately 30 percent of the reporting entities indicated the existence of mechanisms to waive fees in part or whole for affordable housing development.[22]

A local governments, including a special district, is required to submit an annual financial report to the Department of Financial Services no later than 9 months of the close of the local government's fiscal year.[23]

Effect of the Bill

Section 2 amends s. 163.31801, F.S., to require each county, municipality, and special district to include, in their annual financial reports, the following information pertaining to impact fees imposed:

- The specific purpose of each impact fee, including the specific infrastructure need to be met, such as transportation, parks, water, sewer, and schools;
- The impact fee schedule policy, describing the method of calculating impact fees, such as flat fee, tiered scale based on number of bedrooms, and tiered scale based on square footage;
- The amount assessed for each purpose and type of dwelling;
- The total amount of impact fees charged by type of dwelling; and
- Each exception and waiver provided for affordable housing developments.

[23] Section 218.32, F.S.

Using Surplus State Lands for Affordable Housing (Sections 9, 4, 5, and 6)

Present Situation

The Board of Trustees of the Internal Improvement Trust Fund (Board of Trustees),[24] the five water management districts (WMDs), and the Department of Transportation (DOT) may each acquire and hold real property for various public purposes.[25] Each agency must follow certain procedures to dispose of property that is no longer needed (surplus).

Board of Trustees

The Board of Trustees may determine which state lands may be surplused. To dispose of conservation lands, the Board of Trustees must determine whether the land is no longer needed for conservation purposes and may dispose of such lands by an affirmative vote of at least three members. To dispose of nonconservation lands, the Board of Trustees must determine whether the land is no longer needed and may dispose of such lands by an affirmative vote of at least three members.[26]

"Conservation lands" are lands managed for conservation, outdoor resource-based recreation, or archaeological or historic preservation, except those lands acquired solely to facilitate the acquisition of other conservation lands. Lands acquired for uses other than conservation, outdoor resource-based recreation, or archaeological or historic preservation are "nonconservation lands." Nonconservation lands include the following: correction and detention facilities, military installations and facilities, state office buildings, maintenance yards, State University or Florida College System institution campuses, agricultural field stations or offices, tower sites, law enforcement and license facilities, laboratories, hospitals, clinics, and other sites that possess no significant natural or historical resources.[27]

Any public or private entity or person may ask the Board of Trustees to surplus lands. The lead managing agency must review the request and make a recommendation to Acquisition and Restoration Council within 90 days. The council must immediately schedule a hearing to review the request at the next regularly scheduled hearing for any surplusing requests that have not been acted upon within 90 days.[28]

Before a building or parcel of land is offered for lease or sale, the Division of State Lands within the Department of Environmental Protection (DEP) must first offer the land for lease to state agencies, state universities, and Florida College System institutions.[29]

---

[24] The Board of Trustees consists of the Governor, Attorney General, Chief Financial Officer, and Commissioner of Agriculture. Art. IV, s. 4(f), Fla. Const., and s. 253.02(1), F.S. The Department of Environmental Protection, through its Division of State Lands, performs all staff duties and functions related to the acquisition, administration, and disposition of state lands. Section 253.002(1), F.S.
[25] Sections 253.001, 253.02, 337.25(1), and 373.089, F.S.
[26] Section 253.0341(1), F.S.
[27] Section 253.034(2)(c), F.S.
[28] Section 253.0341(11), F.S. The Acquisition and Restoration Council assists the Board of Trustees in reviewing the recommendations and plans for state-owned conservation lands. Section 259.035, F.S.
[29] Section 253.0341(7), F.S.

The division must determine the sale price of the land by considering an appraisal. If the value of the land is estimated at $500,000 or less, division may use a comparable sales analysis or broker's opinion.[30] The division must offer parcels valued at more than $500,000 by competitive bid first. If the parcel is not successfully sold by competitive bid, or the parcel is valued at $500,000 or less, then division may sell the property by any reasonable means.[31]

Water Management Districts

A WMD may sell lands its governing board determines to be surplus at any time. These lands must be sold at the highest price obtainable, but not less than the appraised value of the land determined by a certified appraiser 360 days before the sale.[32] Such sales must be in cash and on the terms set by the governing board of the WMD.[33] The WMD must publish notice of its intent to sell the land in a newspaper in the county where the land is located. The notice of intent must be published three times for three successive weeks at least 30 days, and not more than 360 days, before any sale. The notice of intent must describe the land or the interest or rights to be sold.[34]

Public and private entities may request that a WMD make its lands available for purchase when those lands are not essential or necessary to meet conservation. If so requested and the lands are determined to be surplus, the WMD must give priority consideration to public or private buyers who are willing to return the property to productive use so long as the property can reenter the county ad valorem tax roll.[35]

When deciding whether to sell lands designated as acquired for conservation purposes, the governing board of the WMD must determine by a two-thirds vote that the land is no longer needed for conservation purposes.[36] For all other lands, the governing board of the WMD must determine by a majority vote that the land is no longer needed.[37]

Prior to selling land, a WMD must generally first offer title to lands acquired in whole or in part with Florida Forever funds[38] to the Board of Trustees.[39] If the Board of Trustees declines to accept title to the land, the WMD may dispose of the land.[40]

Department of Transportation

The DOT may convey any land, building, or other property, real or personal, when it determines the property is not needed for the construction, operation, and maintenance of a transportation facility. The DOT may dispose of its surplus property through negotiations, sealed competitive bids, auctions, or any other means it deems to be in its best interest. The DOT must advertise the

[39] Section 373.089(7), F.S.
[40] Section 373.089, F.S.

sale of property valued by the DOT at greater than $10,000.[41] The DOT may generally not sell property for less than the DOT's current estimate of value.[42]

The DOT may afford a right of first refusal to the local government or other political subdivision in the jurisdiction where the parcel is situated in certain circumstances.[43]

Effect of the Bill

Section 9 creates s. 420.56, F.S., to make all suitable surplus lands designated as nonconservation available for affordable housing before making the parcels available for purchase by other governmental entities or the public. As nonconservation land becomes available for surplus, the DEP (acting on behalf of the Board of Trustees), WMDs, and the DOT must notify the Florida Housing Finance Corporation (FHFC) that the land is available for surplus before making the parcel available for any other use, including for purchase by other governmental entities or the public. The WMDs must only identify nonconservation surplus lands originally acquired using state funds.

The bill requires the FHFC to issue an advisory opinion, in consultation with the DEP, WMDs, and the DOT, whether the surplus lands identified by the DEP, WMDs, and the DOT are suitable for affordable housing based. The FHFC will only evaluate property that is outside of a special district set up to revitalize a community. The evaluation will consider at least the following characteristics of the property:

- Environmental suitability for construction;
- Current and anticipated land use and zoning;
- Existing and anticipated infrastructure on the land such as roads, water, sewer, and electricity;
- Access to grocery stores;
- Access to employment opportunities;
- Access to public transportation; and
- Access to community services such as public libraries, health care, and employment centers.

Further, a property in an area suitable for residential development may be found to be suitable for use as affordable housing even if the property doesn't meet one of the criteria listed above.

If the FHFC issues an opinion that the nonconservation surplus land is suitable for affordable housing, the bill requires the Board of Trustees, the WMDs, and the DOT to first offer the land to the county and municipality where the land is located to be used for affordable housing before the entity offers the land to other governmental entities or the public. If the county and municipality where the parcel is located do not wish to use the parcel for affordable housing, the Board of Trustees, WMDs, or the DOT may dispose of the parcel using the procedures in existing law.

The bill authorizes the Board of Trustees, WMDs, and the DOT to sell the parcels identified as suitable for affordable housing for less than the appraised value to any party. If the agency sells

[41] Section 337.25(4), F.S.
[42] Exceptions provided in Section 337.25(4)(a)-(d), F.S.
[43] Exceptions provided in Section 337.25(4)(a), (c), and (e), F.S.

the parcels for less than appraised value, the agency must place an encumbrance on the parcels to ensure the purchaser uses the land for affordable housing for a period of not less than 99 years.

The bill exempts the Board of Trustees, WMDs, and the DOT from certain disposal procedures to expedite the sales of surplus land for affordable housing, specifically:

- The Board of Trustees does not need to follow appraisal and competitive bidding procedures;
- The WMDs do not need to follow their appraisal and advertising requirements and the procedures for selling land valued at $25,000 or less; and
- The DOT does not need to follow its disposal procedures.

The bill authorizes the Board of Trustees, WMDs, and the DOT to determine the sale price of the parcels. The bill requires Board of Trustees, WMDs, and the DOT to consider at least one appraisal, or if the estimated value of the land is $500,000 or less, a comparable sales analysis or a broker's opinion of value. If the DOT property was acquired with federal participation and the estimated value is more than $25,000, then an appraisal of the property must be considered.

Section 4 amends s. 253.0341, F.S., to require the Board of Trustees to offer nonconservation surplus lands to the county and municipality where the land is located for use for the construction of affordable housing as identified by the FHFC before offering it to other potential buyers. This allows those counties and municipalities the opportunity to purchase nonconservation lands for affordable housing prior to state agencies, state universities, and Florida College System institutions, who currently have the first opportunity to either lease or buy surplus lands. All lands not needed for affordable housing will still be offered first to state agencies, state universities, and Florida College System institutions before other being offered to other entities. If the surplus land is not used for affordable housing and not leased by a state agency, state university, or Florida College System institution, the Board of Trustees shall offer the parcel for lease or sale to a local or federal unit of government or a private party.

Section 5 amends s. 337.25, F.S., to require the DOT to evaluate all of its land not within a transportation corridor or within the right-of-way of a transportation facility at least every 10 years on a rotating basis to determine whether the DOT should retain the property. This change is consistent with the Board of Trustee's current duty to review the management of its lands every 10 years in s. 253.0341(4), F.S., to determine if the lands should be kept.

Section 5 also requires the DOT to offer nonconservation surplus lands to the county and municipality where the land is located for use as affordable housing as identified by the FHFC before offering it to other potential buyers except when:

- The property was donated to the state for transportation purposes and a transportation facility has not been constructed for at least 5 years, plans have not been prepared for the construction of such facility, and the property is not located in a transportation corridor (then the donated property is returned to the donor or his or her heirs, successors, assigns, or representatives);
- The DOT originally acquired the property specifically to provide replacement housing for persons displaced by transportation projects (then the DOT may negotiate for the sale of such property as replacement housing); or

- The DOT determines a sale to a person other than an abutting owner would be inequitable (then the property may be sold to the abutting owner for the DOT's current estimate of value).

Section 6 amends s. 373.089, F.S., to require the WMDs to review all lands and interests or rights in lands every 10 years on a rotating basis to determine whether the lands are still needed for the purpose for which they were acquired. This change is consistent with the Board of Trustee's current duty to review the management of its lands every 10 years in s. 253.0341(4), F.S., to determine if the lands should be kept.

Section 6 also requires WMDs to offer nonconservation surplus lands to the county and municipality where the land is located for use as affordable housing as identified by the FHFC before offering it to other potential buyers. This requirement only applies to nonconservation surplus lands originally acquired using state funds.

Ineligible Applicants for Programs (Section 7)

Present Situation

Section 420.507, F.S., sets forth the powers of the FHFC to carry out the statutory requirements for affordable housing. These include typical corporation powers and duties as well as housing-specific powers, including the ability to preclude any applicant or its affiliate from participating in FHFC programs if the applicant or affiliate has made any material misrepresentations or engaged in fraudulent actions in connection with any application for a FHFC program.

An applicant is ineligible for funding under FHFC programs if the FHFC determines that an applicant or its affiliate has made material misrepresentations or engaged in fraudulent actions in connection with an FHFC application. Before the FHFC makes such a determination, it serves an administrative complaint on the applicant or its affiliate that "affords reasonable notice to the Applicant of the facts or conduct that warrant the intended action, specifies the proposed duration of ineligibility,[44] and advises the Applicant of the opportunity to request a hearing." An applicant is presumed to have engaged in fraudulent actions if the applicant or its affiliate has been convicted of fraud, theft, or misappropriation of funds or a felony in connection with any FHFC program; excluded from any federal or Florida procurement programs for any reason; or offered or given consideration with respect to a local contribution. Any business between the applicant or its affiliate and the FHFC is suspended pending issuance of a final order on the compliant or if the complaint is dismissed.[45]

The 2017-2018 General Appropriation Act prohibits the FHFC from distributing or allocating funds to any applicant or its affiliate that has been served an administrative complaint based on making a material misrepresentation or engaging in fraudulent actions in connection with any application for a FHFC program, until the period of ineligibility has expired. "Any preliminary funding or allocation award made to an applicant or affiliate subject to such administrative

[44] When establishing the period of ineligibility, the FHFC considers the applicant's compliance history, type of misrepresentation or fraud, and the degree of harm to the program that has been or may have been done.
[45] *See* Rules 67-21.003 and 67-48.004, F.A.C.

complaint is rescinded unless the developer, applicant or affiliate has completed credit underwriting or has commenced construction at the time the administrative complaint is served."[46]

Effect of Proposed Changes

Section 7 amends s. 420.507, F.S., to add to the powers of the FHFC, the power to take certain actions against any applicant or its affiliate upon a determination of good cause by the FHFC and after the service of an administrative complaint and adequate notice. The FHFC may take one or more of the following actions:

- Preclude the applicant or affiliate from applying for funding from any FHFC program for a specified period.
- Revoke any previously awarded funding for any development for which construction or rehabilitation has not started.
- Suspend any funding, credit underwriting procedures, or application review for any development for which construction or rehabilitation has not started. The suspension may run from the date of filing of the administrative complaint until a final order is issued in regard to the complaint.

The bill defines "good cause" as meaning that the applicant or its affiliate has:

- Made a material misrepresentation or engaged in fraudulent actions in connection with any application for a corporation program;
- Been convicted or found guilty of, or entered a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction that directly relates to the financing, construction, or management of affordable housing or the fraudulent procurement of state or federal funds.[47]
- Been excluded from federal or state procurement programs for any reason; or
- Offered or given consideration with respect to a local contribution in violation of rules of the FHFC.

The bill repeals the current authority of the FHFC to preclude any applicant or its affiliate from participating in FHFC programs if the applicant or affiliate has made any material misrepresentations or engaged in fraudulent actions in connection with any application for a FHFC program.

Terms of Multifamily Rental Projects (Section 7)

Present Situation

Section 420.507, F.S., grants the FHFC the authority to require, as a condition of financing a multifamily rental project, that an agreement be recorded in the official records of the county where the real property is located, which requires that the project be used for affordable housing.

[46] Section 2225, proviso, ch. 2017-70, L.O.F.

[47] The bill states that the "record of a conviction certified or authenticated in such form as to be admissible in evidence under the laws of this state shall be admissible as prima facie evidence of such guilt."

The federal government grants federal tax credits for the acquisition, rehabilitation, or construction of rental housing targeted to low-income households (the low-income housing tax credit).[48] In order to qualify for the tax credit, the developer must agree to rent the housing to people with low incomes and to charge rents that are no more than a certain amount. The developer must agree to preserve this "affordability" for the first 15 years of the program, called the initial compliance period, and then for an additional 15 years during the extended use period (also referred to as the "extended low-income housing commitment"). There is a process by which the developer can convert the property to market-rate units during the extended use period.

About 32 states require extended use periods greater than 30 years, some states provide incentives for projects that voluntarily agree to longer commitments, and some developments agree to local financing that comes with longer use restrictions.[49] The FHFC has stated that generally developers agree to enter into agreements with the FHFC for terms of 30 years, except for large-scale multifamily or elderly housing developments, which are generally for terms of 50 years.

Effect of Proposed Changes

Section 7 amends s. 420.507, F.S., related to the FHFC's authority to make certain requirements for financing multifamily rental projects. The FHFC may require an agreement to be recorded in the official records of the county where the property is located as a condition of financing the project, *including allocating competitive low-income housing tax credits*.

The bill limits the term of any for agreement for a multifamily rental project to the period of time required in federal law for the "extended low-income housing commitment" or extended use period. This effectively limits any agreement entered into by the FHFC for a multifamily rental project to 30 years. However, if the FHFC affirms at the time of the initial credit underwriting that the project will remain "economically feasible" beyond 30 years, then the agreement may be longer. The term "economically feasible" is not defined.

State Apartment Incentive Loan Program Local Government Contribution (Section 8)

Present Situation

The SAIL program provides low-interest loans on a competitive basis to affordable housing developers each year. This money often serves to bridge the gap between the primary financing and the total cost of the development. SAIL dollars are available to individuals, public entities,

[48] 26 U.S.C. 42. U.S. Department of Housing and Urban Development, Office of Policy Development and Research, *Low-Income Housing Tax Credits*, July 10, 2017, available at https://www.huduser.gov/portal/datasets/lihtc.html (last visited February 21, 2018).

nonprofit organizations, or for-profit organizations that propose the construction or substantial rehabilitation of multifamily units affordable to very low income individuals and families.[50]

The Florida Housing Finance Corporation administers the SAIL program and is required to establish a review committee for the competitive evaluation and selection of applications submitted. The evaluation criteria include local government contributions and local government comprehensive planning and activities that promote affordable housing.[51]

Effect of the Bill

Section 8 amends s. 420.5087, F.S., to require the evaluation of additional components related to local government contributions, including policies that promote access to public transportation, reduce the need for on-site parking where appropriate, and expedite permits for affordable housing projects.

Hurricane Recovery Programs (Sections 10 and 11)

Present Situation

Following the 2004 hurricane season, a statewide Hurricane Housing Work Group was created to recommend how best to leverage funding recommended by the Governor for hurricane housing recovery needs. The work group recommended, and the Legislature subsequently funded, the Hurricane Housing Recovery Program (HHRP) and the Rental Recovery Loan Program (RRLP). As a result of the work group's recommendation, the 2005 Legislature appropriated $250 million for housing recovery: $208 million for the HHRP and another $42 million for the RRLP.[52] With those resources, and an additional $93 million appropriation in 2006 for hurricane rental funding, the FHFC states that it assisted over 10,000 families with the HHRP and created over 1,600 units with the RRLP.

Hurricane Housing Recovery Program

The Hurricane Housing Recovery Program was created as a local housing recovery program and modeled after the existing State Housing Incentive Program (SHIP) aimed at assisting homeowners with post-hurricane recovery efforts. The HHRP funds were distributed to local governments using a need-based formula to allow local communities to evaluate and address needs as appropriate.[53]

Rental Recovery Loan Program

The Rental Recovery Loan Program was created to provide affordable rental units needed to promote the housing recovery needs of local communities. Modeled in part after the State Apartment Incentive Loan (SAIL) Program, the RRLP program allowed the state to leverage

existing federal rental financing programs to provide units that served a range of incomes, including extremely low income households, throughout the areas impacted by the hurricanes.

Effects of the Bill

Section 10 creates s. 420.57, F.S., to establish the Hurricane Housing Recovery Program (HHRP) and the Rental Recovery Loan Program (RRLP) to provide funds to local governments for affordable housing recovery efforts.

The HHRP will provide resources to local governments according to a need-based formula that reflects affordable housing damage estimates and population impacts resulting from hurricanes. Eligible local governments must submit a strategy outlining proposed recovery actions, income levels and number of units to be served, and funding requests. Program funds must be used as follows:

- To serve households with incomes up to 120 percent of the AMI, except that at least 30 percent of program funds should be reserved for households with incomes up to 50 percent AMI and an additional 30 percent of program funds reserved for households with incomes up to 80 percent AMI.
- At least 65 percent of the funds *must* be used for homeownership.
- Up to 15 percent *may* be used for administrative expenses.
- Up to 0.25 percent *may* be used for compliance monitoring.

The RRLP will provide resources to build additional rental housing and allow the state to leverage federal rental financing similar to the SAIL program.

Both programs operate subject to specific appropriation in the General Appropriations Act.

Each participating local entity will be required submit a report of its use of HHRP funding. The FHFC is required to compile and submit the reports to the Senate President and Speaker of the House of Representatives.

The FHFC is granted rulemaking authority to administer the programs. **Section 11** provides the FHFC the authority to adopt emergency rules pursuant to s. 120.54, F.S., for the purpose of implementing these programs. The emergency rules remain in effect for 6 months and may be renewed until final rules are adopted for the programs.

Local Permit Approval Process (Section 12 and 14)

Present Situation

Local governments may enforce requirements to obtain building or development permits, including the processing applications and granting building permits.[54] A development permit pertains to any building permit, zoning permit, subdivision approval, rezoning, certification, special exception, variance, or any other official action of local government having the effect of permitting the development of land.[55]

[54] Sections 553.79 and 553.792, F.S.
[55] Section 163.3164(16), F.S.

A certificate of occupancy is required before a building or structure may be used or occupied.[56] The certificate is issued by the appropriate local building official after completion of all work and a final inspection of the building or structure shows no violations of the Florida Building Code or other applicable laws.[57]

Counties, municipalities, and most special districts are not required to comply with the notice and procedural requirements of ch. 120, F.S., the Administrative Procedure Act.[58] For certain types of building permit applications,[59] the local government must meet certain deadlines:

- Within 10 days of the application being submitted, the local government must inform the applicant in writing of what information is needed to complete the application, if any.
- If no written notice of deficiency is provided, the application is deemed properly completed and accepted.
- Within 45 days of receiving a completed application, the local government must notify the applicant if additional information is needed to determine whether the application is sufficient.
- Within 120 days after receiving a completed application, the local government must approve, approve with conditions, or deny the application.[60]

Effect of the Bill

Section 14 creates s. 553.7923, F.S., to establish a new process for local government permit approval for affordable housing. A local government has 15 days after receiving an application for a development permit, construction permit, or certificate of occupancy for affordable housing to examine the application, notify the applicant of any apparent errors or omissions, and request any additional information the local government is authorized by law to require.

The local government may require any additional required information to be submitted within 10 days after the date it gives notice to the applicant. The local government must grant a request for an extension of time for submitting the additional information for good cause.

If a local government does not timely request addition information, it may not deny the development permit, construction permit, or certificate of occupancy for affordable housing if the applicant fails to correct an error or omission or to supply additional information.

---

[56] Section 111.1, Florida Building Code – Building (6th ed. 2017), at https://codes.iccsafe.org/public/document/FBC2017/chapter-1-scope-and-administration (last visited February 17, 2018).
[57] Section 111.2, Florida Building Code – Building (6th ed. 2017). *See also* Broward County Amendments to the 5th Edition (2014) Florida Building Code (Effective June 30, 2015, with amendments through March 2017), s. 110, "Inspections," p. 1.38, at http://www.broward.org/CodeAppeals/AboutUs/Documents/ch%201-5thEdition%20-PAssed%2003-09-2017.pdf (last visited February 17, 2018).
[58] *See* s. 120.52(1), F.S.
[59] The list includes permits for the following types of construction: accessory structure, alarm, nonresidential buildings less than 25,000 square feet, electric, irrigation, landscaping, mechanical, plumbing, residential units other than a single family unit, multifamily residential not exceeding 50 units, roofing, signs, site-plan approvals and subdivision plats not requiring public hearings or public notice, and lot grading and site alteration associated with the application. *See* s. 553.792(2), F.S.
[60] Section 553.792(1), F.S.

An application is complete when the local government has received all of the requested information and the correction of any error or omission as necessary or when the time for notification has expired.

The local government must approve or deny an application for a development permit, construction permit, or certificate of occupancy for affordable housing within 60 days after receipt of a completed application, unless a shorter period of time for local government is provided by law. If the local government does not approve or deny within the time period, the application is considered approved, and the local government must issue the development permit, construction permit, or certificate of occupancy.

An applicant for a development permit, construction permit, or certificate of occupancy seeking to receive a permit by default must notify the local government in writing of its intent to rely upon the default approval. However, the applicant may not take any action based upon the default development permit, construction permit, or certificate of occupancy until the applicant receives notification or a receipt acknowledging that the local government received the notice. The applicant must retain the notification or receipt.

Section 12 amends s. 420.9071, F.S., to revise the definition of "local housing incentive strategies" to include expediting permits for affordable housing projects provided in s. 553.7923, F.S. Local housing incentive strategies are included in local housing assistance plans and must be included in various reports as required in the SHIP program provisions in part VII, ch. 420, F.S.

Housing Projects Exemptions (Section 13)

Present Situation

Section 423.02, F.S., exempts housing authorities from payment of taxes and special assessments for housing projects, including all property of the authority used for or in connection with the project. The authority may agree to make payments to the local government in lieu of taxes for services, improvements, or facilities furnished by the local government for the benefit of the project. Such payments are not allowed to exceed the estimated cost to the local government for the services, improvements, or facilities.

Public housing authorities have the power to create a for-profit or nonprofit corporation, limited liability company, or other similar business entity to develop, acquire, lease, construct, rehabilitate, manage, or operate multifamily or single family residential projects. The housing authority may hold an ownership interest or participate in the governance of the business entity.

Effect of Proposed Changes

Section 13 amends s. 423.02, F.S., to exempt housing authorities from "user fees" and to exempt nonprofit housing corporations created by housing authorities from taxes, user fees, and assessments. The authorities or their instrumentalities may still agree to make payments of to the local government in lieu of payment of such taxes, user fees, or assessments. The bill does not

define the term "user fees." The term could be interpreted broadly to include fees for services such as garbage, electricity, etc. The term likely includes storm water fees.[61]

Effective Date (Section 15)

The bill takes effect July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

The county/municipality mandates provision of Art. VII, s. 18 of the Florida Constitution may apply because this bill reduces the revenue raising authority of municipalities and counties by exempting housing authorities from paying user fees and their nonprofit housing corporations from paying taxes, user fees, and assessments.

However, there are several exemptions and exceptions to the mandate requirements. The mandate requirements do not apply to laws having an insignificant impact, which for Fiscal Year 2017-2018 was approximately $2.05 million or less.[62,63,64]

This bill does not appear to qualify under any exemption or exception. If the bill does qualify as a mandate, final passage must be approved by two-thirds of the membership of each house of the Legislature.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference has not yet estimated the fiscal impact of section 13 exempting housing authorities from paying user fees and their nonprofit housing corporations from paying taxes, user fees, and assessments. The term "user fees" is not defined in the bill but could be interpreted broadly to include fees for services such as garbage, electricity, storm water, etc.

---

[61] *See City of Gainesville v. State*, 863 So. 2d 138 (Fla. 2003).
[62] FLA. CONST. art. VII, s. 18(d).
[63] An insignificant fiscal impact is the amount not greater than the average statewide population for the applicable fiscal year times $0.10. *See* Florida Senate Committee on Community Affairs, *Interim Report 2012-115: Insignificant Impact*, (Sept. 2011), available at http://www.flsenate.gov/PublishedContent/Session/2012/InterimReports/2012-115ca.pdf (last visited February 21, 2018).
[64] Based on the Demographic Estimating Conference's population adopted on April 1, 2017. The executive summary is available at http://edr.state.fl.us/Content/conferences/population/demographicsummary.pdf (last visited February 21, 2018).

B. Private Sector Impact:

Developers of large-scale affordable housing developments will benefit from the limitation on the duration of the agreements with the FHFC.

Nonprofit business entities created by local housing authorities will benefit from the exemption from taxes, user fees, and assessments.

C. Government Sector Impact:

Local governments may need to replace the funds that would normally be derived from taxes, user fees, and assessments with other sources of revenue. The Revenue Estimating Conference has not yet estimated the fiscal impact of section 13 exempting housing authorities from paying user fees and their nonprofit housing corporations from paying taxes, user fees, and assessments. The term "user fees" is not defined in the bill but could be interpreted broadly to include fees for services such as garbage, electricity, storm water, etc.

The hurricane recovery programs will be funded as provided in the General Appropriations Act. The bill allows the FHFC to use 15 percent of any appropriated funds for administrative costs and 0.25 percent for compliance monitoring.

The bill requires the FHFC to evaluate nonconservation surplus lands for suitable for the construction of affordable housing. Currently, the FHFC requires anyone proposing to develop affordable housing to demonstrate that the property is suitable for such purpose. This bill would require the FHFC to develop a new program and develop or contract for expertise to evaluate surplus lands. The cost for such activity it unknown at this time.

VI. Technical Deficiencies:

None.

VII. Related Issues:

The bill provides the FHFC the authority to adopt emergency rules pursuant to s. 120.54, F.S., for the purpose of implementing the hurricane recovery programs.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 125.379, 163.31801, 166.0451, 253.0341, 337.25, 373.089, 420.507, 420.5087, 420.9071, and 423.02.

This bill creates the following sections of the Florida Statutes: 420.56, 420.57, and 553.7923.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations on February 27, 2018:
The committee substitute:

- Removes the portions of the bill that amended ss. 163.3180 and 163.31801, F.S., which created a 5-year prohibition on local governments to charge concurrency and impact fees.
- Allows property that is an area suitable for residential development, but that does not meet other criteria, to be considered suitable for use as affordable housing.
- Requires special districts to also provide reports on impact fees charged.
- Removes the amendment that changed the surplus lands survey by the Board of Trustees from every 10 years to every 3 years.
- Creates the local expedited permit statute in ch. 553, F.S., related to the building code instead of ch. 420, F.S., related to affordable housing.
- Clarifies that "local housing incentive strategies" include expedited development permits, construction permits, and certificates of occupancy.
- Allows the FHFC to take certain administrative action against a developer or an affiliate of the developer for good cause.
- Limit contracts for financing multi-family rental housing projects to 30 years, unless at the time of initial credit writing the FHFC finds that the project will remain "economically feasible" beyond 30 years.
- Allows the FHFC to provide an advisory opinion, instead of an evaluation, of surplus lands suitable for housing, limits the review to property outside of special districts set up to revitalize communities; and revises the review criteria, in part, to remove the requirement for certain criteria to be within walking distance to the housing.
- Requires the sales price of any surplus land sold by the DOT that was acquired with federal participation and has an estimated value of greater than $25,000, to consider an appraisal as part of the sale.
- Revises the hurricane recovery programs by:
  - Making the programs generally applicable to hurricanes, instead of specifically applicable to the impacts of Hurricanes Irma and Maria.
  - Removing the appropriation from the housing trust funds, and instead stating that the programs are funded as provided in the General Appropriations Act.
  - Directing the FHFC to allocate funds to local governments based on affordable housing damage estimates and *population impacts resulting from hurricanes*.
  - Allowing the FHFC to use 0.25 percent of the appropriation for compliance monitoring.
  - Clarifying that local governments annual reports are on their participation in the HHRP, removing the required dates for such annual reports, and requiring such reports to be made to the legislature.
  - Granting the FHFC emergency rulemaking authority to implement the programs.
- Exempts housing projects from "user fees."

- Exempts from all taxes, user fees, and special assessments the nonprofit instrumentalities of housing authorities (for nonprofit corporations, LLCs, etc., created by housing authorities to manage certain housing projects).

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By Senator Perry

8-01486-18 20181328__

A bill to be entitled

An act relating to affordable housing; amending ss. 125.379 and 166.0451, F.S.; revising the criteria that counties and municipalities must use when evaluating real property as part of their inventory for disposal of lands; amending s. 163.3180, F.S.; prohibiting local governments from charging certain mobility fees for a specified period; preempting to the state the right to impose such fees; amending s. 163.31801, F.S.; prohibiting local governments from charging certain impact fees for a specified period; preempting to the state the right to impose such fees; specifying additional information that must be submitted by specified entities when submitting their annual financial reports; creating s. 420.0007, F.S.; providing a local permit approval process for affordable housing; amending s. 420.5087, F.S.; revising the criteria used by a review committee when evaluating and selecting specified applications for state apartment incentive loans; creating s. 420.54, F.S.; creating the Hurricane Housing Recovery Program to provide funds for specified purposes related to affordable housing; requiring that the Florida Housing Finance Corporation administer the program according to specified procedures; specifying how program funds are to be used; creating the Recovery Rental Loan Program to provide funds for specified purposes related to rental housing; providing legislative intent; requiring an annual report regarding the

8-01486-18 20181328__

housing recovery program; authorizing the corporation to adopt emergency rules to implement the programs; providing legislative findings regarding such emergency rulemaking; exempting the emergency rules from specified requirements; providing appropriations; creating s. 420.56, F.S.; providing a process for certain entities to dispose of surplus lands for use for the construction of affordable housing; amending s. 420.9071, F.S.; revising the definition of "local housing incentive strategies"; amending ss. 253.0341, 337.25, and 373.089, F.S.; revising the procedures under which the board of trustees, the Department of Transportation, and the water management districts must dispose of nonconservation surplus lands; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (1) of section 125.379, Florida Statutes, is amended to read:

125.379 Disposition of county property for affordable housing.—

(1) Beginning July 1, 2018 ~~By July 1, 2007~~, and every 3 years thereafter, each county shall prepare an inventory list of all real property within its jurisdiction to which the county holds fee simple title which ~~that~~ is appropriate for use as affordable housing. The real property must be evaluated on criteria including environmental suitability for construction, site characteristics, current land use designation, current or

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

anticipated zoning, whether the property is included in at least one special district, existing infrastructure, proximity to employment opportunities, proximity to public transportation, and proximity to existing services. The inventory list must include the address and legal description of each such real property and specify whether the property is vacant or improved. The governing body of the county must review the inventory list at a public hearing and may revise it at the conclusion of the public hearing. The governing body of the county shall adopt a resolution that includes an inventory list of such property following the public hearing.

Section 2. Paragraph (i) of subsection (5) of section 163.3180, Florida Statutes, is amended to read:

163.3180 Concurrency.—

(5)

(i)1. If a local government elects to repeal transportation concurrency, it is encouraged to adopt an alternative mobility funding system that uses one or more of the tools and techniques identified in paragraph (f). Any alternative mobility funding system adopted may not be used to deny, time, or phase an application for site plan approval, plat approval, final subdivision approval, building permits, or the functional equivalent of such approvals provided that the developer agrees to pay for the development's identified transportation impacts via the funding mechanism implemented by the local government. The revenue from the funding mechanism used in the alternative system must be used to implement the needs of the local government's plan which serves as the basis for the fee imposed. A mobility fee-based funding system must comply with the dual

rational nexus test applicable to impact fees. An alternative system that is not mobility fee-based shall not be applied in a manner that imposes upon new development any responsibility for funding an existing transportation deficiency as defined in paragraph (h).

2. Beginning July 1, 2018, and ending June 20, 2023, a local government may not charge a mobility fee for the development or construction of housing that is affordable, as defined in s. 420.9071.

Section 3. Subsection (6) is added to section 163.31801, Florida Statutes, to read:

163.31801 Impact fees; short title; intent; definitions; ordinances levying impact fees.—

(6)(a) Beginning July 1, 2018, and ending June 20, 2023, a local government may not charge an impact fee for the development or construction of housing that is affordable, as defined in s. 420.9071.

(b) In addition to the items that must be reported in the annual financial reports required under s. 218.32, counties and municipalities shall report the following data on all impact fees charged:

1. The specific purpose of the impact fee, including the specific infrastructure need to be met, such as transportation, parks, water, sewer, and schools;

2. The impact fee schedule policy, describing the method of calculating impact fees, such as a flat fee, a tiered scale based on number of bedrooms, and a tiered scale based on square footage;

3. The amount assessed for each purpose and type of

dwelling;

4. The total amount of impact fees charged by type of dwelling; and

5. Each exception and waiver provided for affordable housing developments.

Section 4. Subsection (1) of section 166.0451, Florida Statutes, is amended to read:

166.0451 Disposition of municipal property for affordable housing.—

(1) Beginning July 1, 2018 ~~By July 1, 2007~~, and every 3 years thereafter, each municipality shall prepare an inventory list of all real property within its jurisdiction to which the municipality holds fee simple title which ~~that~~ is appropriate for use as affordable housing. Such real property shall be evaluated on criteria that include the environmental suitability for construction, site characteristics, currently designated land use, current or anticipated zoning, whether the property is included in one or more special districts, existing infrastructure, proximity to employment opportunities, proximity to public transportation, and proximity to services. The inventory list must include the address and legal description of each such property and specify whether the property is vacant or improved. The governing body of the municipality must review the inventory list at a public hearing and may revise it at the conclusion of the public hearing. Following the public hearing, the governing body of the municipality shall adopt a resolution that includes an inventory list of such property.

Section 5. Section 420.0007, Florida Statutes, is created to read:

420.0007 Local permit approval process for affordable housing.—

(1) A local government has 15 days from the date it receives an application for a development permit, construction permit, or certificate of occupancy for affordable housing to examine the application, notify the applicant of any apparent errors or omissions, and request any additional information the local government is authorized by law to require.

(2) If a local government does not timely request additional information, it may not deny a development permit, construction permit, or certificate of occupancy for affordable housing if the applicant fails to correct an error or omission or to supply additional information.

(3) The local government may require any additional requested information to be submitted no later than 10 days after the date that it gives notice to the applicant, as specified in subsection (1).

(4) For good cause shown, the local government must grant a request for an extension of time for submitting the additional information.

(5) An application is complete upon receipt of all requested information and the correction of any error or omission of which the applicant was timely notified or when the time for notification has expired.

(6) The local government must approve or deny an application for a development permit, construction permit, or certificate of occupancy for affordable housing within 60 days after receipt of a completed application, unless a shorter period of time for local government action is provided by law.

(7) If the local government does not approve or deny within the 60-day or shorter time period, as appropriate, an application for a development permit, construction permit, or certificate of occupancy for affordable housing, the permit is considered approved and the local government must issue the development permit, construction permit, or certificate of occupancy, which may include such reasonable conditions as authorized by law.

(8) An applicant for a development permit, construction permit, or certificate of occupancy seeking to receive a permit by default under this section shall notify the local government, in writing, of its intent to rely upon the default approval under this section but may not take any action based upon the default development permit, construction permit, or certificate of occupancy until the applicant receives notification or a receipt acknowledging that the local government received the notice. The applicant must retain the notification or receipt.

Section 6. Paragraph (c) of subsection (6) of section 420.5087, Florida Statutes, is amended to read:

420.5087 State Apartment Incentive Loan Program.—There is hereby created the State Apartment Incentive Loan Program for the purpose of providing first, second, or other subordinated mortgage loans or loan guarantees to sponsors, including for-profit, nonprofit, and public entities, to provide housing affordable to very-low-income persons.

(6) On all state apartment incentive loans, except loans made to housing communities for the elderly to provide for lifesafety, building preservation, health, sanitation, or security-related repairs or improvements, the following

provisions shall apply:

(c) The corporation shall provide by rule for the establishment of a review committee for the competitive evaluation and selection of applications submitted in this program, including, but not limited to, the following criteria:

1. Tenant income and demographic targeting objectives of the corporation.

2. Targeting objectives of the corporation which will ensure an equitable distribution of loans between rural and urban areas.

3. Sponsor's agreement to reserve the units for persons or families who have incomes below 50 percent of the state or local median income, whichever is higher, for a time period that exceeds the minimum required by federal law or this part.

4. Sponsor's agreement to reserve more than:

a. Twenty percent of the units in the project for persons or families who have incomes that do not exceed 50 percent of the state or local median income, whichever is higher; or

b. Forty percent of the units in the project for persons or families who have incomes that do not exceed 60 percent of the state or local median income, whichever is higher, without requiring a greater amount of the loans as provided in this section.

5. Provision for tenant counseling.

6. Sponsor's agreement to accept rental assistance certificates or vouchers as payment for rent.

7. Projects requiring the least amount of a state apartment incentive loan compared to overall project cost, except that the share of the loan attributable to units serving extremely-low-

income persons must be excluded from this requirement.

8. Local government contributions and local government comprehensive planning and activities that promote affordable housing, and policies that promote access to public transportation, reduce the need for onsite parking, and expedite permits for affordable housing projects as provided in s. 420.0007.

9. Project feasibility.

10. Economic viability of the project.

11. Commitment of first mortgage financing.

12. Sponsor's prior experience.

13. Sponsor's ability to proceed with construction.

14. Projects that directly implement or assist welfare-to-work transitioning.

15. Projects that reserve units for extremely-low-income persons.

16. Projects that include green building principles, storm-resistant construction, or other elements that reduce long-term costs relating to maintenance, utilities, or insurance.

17. Job-creation rate of the developer and general contractor, as provided in s. 420.507(47).

Section 7. Section 420.54, Florida Statutes, is created to read:

420.54 Hurricane recovery programs.—

(1) The Hurricane Housing Recovery Program is created to provide funding to local governments for recovery efforts related to the impact of Hurricanes Irma and Maria during the 2017 Atlantic hurricane season on the affordable housing inventory. The corporation shall administer the program,

allocating resources to local governments according to a need-based formula that reflects affordable housing damage estimates. Eligible local governments must submit a strategy outlining proposed recovery actions, income levels, number of units to be served, and funding requests. Program funds must be used as follows:

(a) To serve households with incomes of up to 120 percent of area median income; however, at least 30 percent of program funds must be reserved for households with incomes of up to 50 percent of area median income, and an additional 30 percent of program funds must be reserved for households with incomes of up to 80 percent of area median income.

(b) At least 65 percent of funds allocated must be used for homeownership and distributed as provided in paragraph (a).

(c) Up to 15 percent of the allocation may be used for administrative expenses to ensure expeditious use of funds.

(2) The Recovery Rental Loan Program is created to provide funds to build additional rental housing in light of the impact of Hurricanes Irma and Maria during the 2017 Atlantic hurricane season on the rental housing inventory. The program is intended to allow the state to leverage federal funds as it does in the State Apartment Incentive Loan Program described in s. 420.5087.

(3) By September 15, 2019, and each year thereafter, each participating local entity shall submit a report of its housing recovery program and accomplishments through June 30 of that year, as specified by the corporation.

(4) The corporation may adopt emergency rules pursuant to s. 120.54 to implement this section. The Legislature finds that emergency rules adopted pursuant to this section meet the

immediate danger to the public health, safety, and welfare standard established in s. 120.54(4). The Legislature finds that such emergency rulemaking is necessary to preserve the rights and welfare of the people and to provide additional funds to assist those areas of the state which sustained impacts to available affordable housing inventory due to Hurricanes Irma and Maria. Therefore, in adopting such emergency rules, the corporation need not establish that the standard established in s. 120.54(4)(a) has been met. Emergency rules adopted under this section are exempt from s. 120.54(4)(c).

Section 8. For the 2018-2019 fiscal year, 20 percent of the most recent revenue estimate from the Revenue Estimating Conference for the 2018-2019 fiscal year for both the Local Government Housing Trust Fund and the State Housing Trust Fund is appropriated to the Florida Housing Finance Corporation for the purpose of affordable housing hurricane recovery efforts. Funds from the Local Government Housing Trust Fund must be used for the Hurricane Housing Recovery Program created in s. 420.54, Florida Statutes, and must be allocated based on the review of Federal Emergency Management Agency damage assessment data by the Florida Housing Finance Corporation. Funds from the State Housing Trust Fund must be used for the Recovery Rental Loan Program created in s. 420.54, Florida Statutes, to assist with building and rehabilitating affordable rental housing to help communities respond to hurricane recovery needs. The Florida Housing Finance Corporation shall use $100,000 from the funds appropriated from the State Housing Trust Fund to provide technical and training assistance.

Section 9. Section 420.56, Florida Statutes, is created to

read:

420.56 Disposal of surplus lands for use as affordable housing.—

(1) It is the intent of the Legislature to make all surplus lands designated as nonconservation available for affordable housing before making the parcels available for purchase by other governmental entities or the public.

(2) The Department of Environmental Protection, acting on the behalf of the Board of Trustees of the Internal Improvement Trust Fund; the Department of Transportation; and each water management district shall notify the corporation when nonconservation land becomes available for surplus as part of the entity's regular review of lands under s. 253.0341, s. 337.25, or s. 373.089 before making the parcel available for any other use, including for purchase by other governmental entities or the public. Water management districts must identify only nonconservation surplus lands originally acquired using state funds.

(3) In consultation with the Department of Environmental Protection, the Department of Transportation, and the water management districts, the corporation must evaluate whether these surplus lands are suitable for the construction of affordable housing based on the property's environmental suitability for such construction; current and anticipated land use and zoning; inclusion in one or more special districts intended to revitalize the community; existing infrastructure on the land such as roads, water, sewer, and electricity; access to grocery stores within walking distance or by public transportation; access to employment opportunities within

walking distance or by public transportation; access to public transportation within one-half mile; and access to community services such as public libraries, food kitchens, and employment centers.

(4) If the corporation determines that the nonconservation surplus land is suitable for the construction of affordable housing, the entity seeking to dispose of the parcel must first offer the land to the county and any municipality in which the land is located to be used for the construction of affordable housing before the entity offers the land to other governmental entities or the public. If the county and any municipality where the parcel is located do not wish to use the parcel for affordable housing, the entity may dispose of the parcel as otherwise provided by law or this section.

(5) The Board of Trustees of the Internal Improvement Trust Fund, the Department of Transportation, and the water management districts may sell the parcels identified by the corporation as suitable for affordable housing for less than the appraised value to any party so long as the agency places an encumbrance on the parcels to ensure that the purchaser uses the land for the construction and maintenance of affordable housing for a period of at least 99 years.

(6)(a) The Board of Trustees of the Internal Improvement Trust Fund, the Department of Transportation, and the water management districts are exempt from the disposal procedures provided in ss. 253.0341(8) and (9), 337.25(4) and (7), and 373.089(1), (2), (3), and (8) when disposing of nonconservation surplus lands under this section.

(b) The sale price of land parcels disposed of pursuant to

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

this section shall be determined by the entity disposing of the parcel. The Department of Transportation, the Board of Trustees of the Internal Improvement Trust Fund, and the water management districts must consider at least one appraisal of the property or, if the estimated value of the land is $500,000 or less, a comparable sales analysis or a broker's opinion of value.

Section 10. Subsection (16) of section 420.9071, Florida Statutes, is amended to read:

420.9071 Definitions.—As used in ss. 420.907-420.9079, the term:

(16) "Local housing incentive strategies" means local regulatory reform or incentive programs to encourage or facilitate affordable housing production, which include at a minimum, expediting permits for affordable housing projects as provided in s. 420.0007 ~~assurance that permits for affordable housing projects are expedited to a greater degree than other projects, as provided in s. 163.3177(6)(f)3.~~; an ongoing process for review of local policies, ordinances, regulations, and plan provisions that increase the cost of housing prior to their adoption; and a schedule for implementing the incentive strategies. Local housing incentive strategies may also include other regulatory reforms, such as those enumerated in s. 420.9076 or those recommended by the affordable housing advisory committee in its triennial evaluation of the implementation of affordable housing incentives, and adopted by the local governing body.

Section 11. Subsections (4) and (7) of section 253.0341, Florida Statutes, are amended to read:

253.0341 Surplus of state-owned lands.—

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

(4) Beginning July 1, 2018, and continuing every 3 years thereafter, ~~At least every 10 years,~~ as a component of each land management plan or land use plan and in a form and manner adopted by rule of the board of trustees, each manager shall evaluate and indicate to the board of trustees those lands that are not being used for the purpose for which they were originally leased. For conservation lands, the Acquisition and Restoration Council shall review and recommend to the board of trustees whether such lands should be retained in public ownership or disposed of by the board of trustees. For nonconservation lands, the Division of State Lands shall review and recommend to the board of trustees whether such lands should be retained in public ownership or disposed of by the board of trustees.

(7)(a) The board of trustees must first offer nonconservation surplus lands to the county and any municipality in which the land is located for use for the construction of affordable housing as identified by the Florida Housing Finance Corporation pursuant to s. 420.56. All surplus buildings or land not needed for affordable housing ~~Before a building or parcel of land is offered for lease or sale to a local or federal unit of government or a private party, it~~ shall first be offered for lease to state agencies, state universities, and Florida College System institutions, with priority consideration given to state universities and Florida College System institutions. If the surplus building or land is not used for the construction of affordable housing or leased by a state agency, state university, or Florida College System institution, the board of trustees shall offer the building or parcel for lease or sale to

a local or federal unit of government or a private party.

(b) Within 60 days after the offer for lease of a surplus building or parcel, a state university or Florida College System institution that requests the lease must submit a plan for review and approval by the Board of Trustees of the Internal Improvement Trust Fund regarding the intended use, including future use, of the building or parcel of land before approval of a lease. Within 60 days after the offer for lease of a surplus building or parcel, a state agency that requests the lease of such facility or parcel must submit a plan for review and approval by the board of trustees regarding the intended use. The state agency plan must, at a minimum, include the proposed use of the facility or parcel, the estimated cost of renovation, a capital improvement plan for the building, evidence that the building or parcel meets an existing need that cannot otherwise be met, and other criteria developed by rule by the board of trustees. The board or its designee shall compare the estimated value of the building or parcel to any submitted business plan to determine if the lease or sale is in the best interest of the state. The board of trustees shall adopt rules pursuant to chapter 120 for the implementation of this section.

Section 12. Subsection (3) is amended and subsection (12) is added to section 337.25, Florida Statutes, to read:

337.25 Acquisition, lease, and disposal of real and personal property.—

(3) Beginning July 1, 2018, the department shall evaluate all of its land not within a transportation corridor or within the right-of-way of a transportation facility at least every 10 years on a rotating basis to determine whether the property

should be retained. ~~The inventory of real property that was acquired by the state after December 31, 1988, that has been owned by the state for 10 or more years, and that is not within a transportation corridor or within the right-of-way of a transportation facility shall be evaluated to determine the necessity for retaining the property.~~ If the property is not needed for the construction, operation, and maintenance of a transportation facility or is not located within a transportation corridor, the department may dispose of the property pursuant to subsection (4).

(12) Except in a conveyance transacted under paragraphs (4)(a), (c), and (e), the department must first offer nonconservation surplus lands to the county and any municipality in which the lands are located for use as affordable housing as identified by the Florida Housing Finance Corporation pursuant to s. 420.56.

Section 13. Subsection (1) is amended and subsection (9) is added to section 373.089, Florida Statutes, to read:

373.089 Sale or exchange of lands, or interests or rights in lands.—The governing board of the district may sell lands, or interests or rights in lands, to which the district has acquired title or to which it may hereafter acquire title in the following manner:

(1) Beginning on July 1, 2018, the district shall review all lands and interests or rights in lands every 10 years on a rotating basis to determine whether the lands are still needed for the purpose for which they were acquired. Any lands, or interests or rights in lands, determined by the governing board to be surplus may be sold by the district, at any time, for the

highest price obtainable; however, in no case shall the selling price be less than the appraised value of the lands, or interests or rights in lands, as determined by a certified appraisal obtained within 360 days before the effective date of a contract for sale.

(9) The governing board must first offer nonconservation surplus lands to the county and any municipality in which the land is located for use for the construction of affordable housing as identified by the Florida Housing Finance Corporation pursuant to s. 420.56. Districts must only offer nonconservation surplus lands originally acquired using state funds.

If the Board of Trustees of the Internal Improvement Trust Fund declines to accept title to the lands offered under this section, the land may be disposed of by the district under the provisions of this section.

Section 14. This act shall take effect July 1, 2018.

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 1360 makes a number of changes to the child welfare system related to fingerprinting a member of a household being considered as a prospective placement for a child in out-of-home care and the allocation formula used to distribute additional funding to community-based lead agencies (CBCs).

Specifically, the bill adds two federal Child Care and Development Block Grant Act requirements, not previously addressed in state law, to align background screening requirements for child care personnel. The change will allow the Department of Children and Families (DCF or department) to utilize out-of-state criminal history records results for the past five years. The bill also adds drug offenses to the list of disqualifying offenses in ch. 893, F.S., for child care personnel.

The bill makes changes to the equity allocation model for the community-based care lead agencies (CBCs) that contract with the department, by revising the formula that directs the allocation of new core services funding, to more closely align the model with factors that affect the CBC's performance.

The bill amends the definition of the term "abuse" to include the birth of a new child into a family during the course of an open dependency case for those parents or caregivers who are

determined to lack the protective capacity to safely care for the children in the home, and have not substantially complied with their case plan, or met the conditions for return of the children into the home. The bill requires parents to provide accurate contact information to the department, update the information as necessary, and contact the DCF or the CBC at least every 14 days.

The bill requires child care facilities, family day care homes, and large family child care homes to provide public service information related to distracted adults leaving children in vehicles to parents of enrolled children.

The bill authorizes the Walton County sheriff's office to assume responsibility for child protective investigations. By transferring existing recurring funding between appropriation categories within the DCF, funding for the sheriff's office of $860,607 is included in Senate Bill 2500, the Senate Fiscal Year 2018-2019 General Appropriations Bill.

The bill is not expected to have a fiscal impact on state government.

The bill is effective July 1, 2018.

II. Present Situation:

Limitations on Placement of a Child

When the Department of Children and Families (DCF or department) considers placement of a child in the child welfare system, the department must conduct a records check through the State Automated Child Welfare Information System (SACWIS) and a local and statewide criminal history records check on all persons under consideration for child placement, including all nonrelative placement decisions, and all members of the household, 12 years of age and older, of the person being considered.[1] This records check may include, but is not limited to, submission of fingerprints to the Department of Law Enforcement for processing and forwarding to the Federal Bureau of Investigation for state and national criminal history information.[2]

Current law prohibits the department from considering out-of-home placements with persons who have been convicted of a felony that falls within any of the following categories:

- Child abuse, abandonment, or neglect;
- Domestic violence;
- Child pornography or other felony in which a child was a victim of the offense; or
- Homicide, sexual battery, or other felony involving violence, other than felony assault or felony battery when an adult was the victim of the assault or battery.

In addition, the DCF may not place a child with a person other than a parent if that person has been convicted of assault, battery, or a drug-related offense within the previous five years.[3]

[1] Section 39.0138, F.S.
[2] *Id*.
[3] Section 39.0138(3), F.S.

Community-Based Care Lead Agencies

Section 409.986, Florida Statutes, provides legislative intent for the department to contract with community-based care lead agencies (CBCs) to provide foster care and related services.[4] These services include family support and family preservation, independent living, emergency shelter, facility or family-based foster care, dependency case management, adoptions, services for victims of sexual exploitation, postplacement supervision, and family reunification. CBCs contract with a number of subcontractors for case management and direct care services to children and their families, and must give priority to services that are evidence-based and trauma informed.[5]

There are 19 CBCs statewide, which together serve the state's 20 judicial circuits. Section 409.991, F.S., requires the department to allocate funds to the CBCs based on an equity allocation model. The model is designed to allocate funds among these lead agencies based on the differing needs and services required by the particular population served by each organization.

The model includes "core services funding," which is defined as all funds allocated to CBCs operating under contract with the DCF pursuant to s. 409.987, F.S., except funds appropriated for independent living, maintenance adoption subsidies, protective investigations training, or mental health wrap-around services; designated special projects; or those appropriated from nonrecurring funds.

Since Fiscal Year 2015-2016, recurring core services funding to each CBC has been based on the prior year's recurring base funding.[6] However, additional or new core services funding that becomes available is directed to be distributed based on the equity allocation model, as follows:

- 20 percent is allocated among all CBCs;
- 80 percent is allocated to CBCs that are currently funded below their equitable share. Funds are weighted based on each CBC's proportion of the total amount of funding below the equitable share.[7]

The equity allocation model requires that any additional core services funding be distributed to the CBCs based on the following factors:

- Proportion of the child population;
- Proportion of the child abuse hotline workload; and
- Proportion of children in care, weighted as 60 percent based on children in out-of-home care and 40 percent based on children in in-home care.[8]

These factors are then used by the DCF for funding allocation purposes, with the distribution of core services funds for each CBC calculated as follows:

- Proportion of the child population, weighted as 5 percent of the total;

[4] *Id*.
[5] Section 409.988, F.S.
[6] *Id*.
[7] *Id*.
[8] *Id*.

- Proportion of child abuse hotline workload, weighted as 15 percent of the total; and
- Proportion of children in care, weighted as 80 percent of the total.[9]
-

Child Care Licensure

The department has responsibility for regulation of child care facilities, family day care homes, and large family child care homes, including those that are also School Readiness providers. Current law requires personnel of these providers to have good moral character based upon screening.[10] Additionally, some entities caring for children are not subject to regulation by the DCF's child care program but their personnel are subject to background screening.[11] Screening must be conducted as provided in ch. 435, F.S., using Level 2 standards.[12]

Child Care and Development Block Grant

The Office of Child Care (OCC) of the United States Department of Health and Human Services supports low-income working families by providing access to affordable, high-quality child care. OCC works with state, territory and tribal governments to provide support for children and their families to promote family economic self-sufficiency and to help children succeed in school and life through affordable, high-quality early care and afterschool programs.[13]

Florida's Office of Early Learning (OEL)[14] provides state-level administration for the School Readiness program. The School Readiness program is a state-federal partnership between OEL and the Office of Child Care of the United States Department of Health and Human Services.[15] The School Readiness program receives funding from a mix of state and federal sources, including the federal Child Care and Development Block Grant (CCDBG), the federal Temporary Assistance for Needy Families (TANF) block grant, general revenue and other state funds. The School Readiness program subsidizes for child care services and early childhood education for low-income families and for children in protective services who are at risk of abuse, neglect, or abandonment, and for children with disabilities.

The program uses a variety of providers, such as licensed and unlicensed child care providers and public and nonpublic schools.[16] The Department of Children and Families (DCF), Office of

[14] In 2013, the Legislature established the Office of Early Learning in the Office of Independent Education and Parental Choice within the Department of Education (DOE). The office is administered by an executive director and is fully accountable to the Commissioner of Education but shall independently exercise all powers, duties, and functions prescribed by law, as well as adopt rules for the establishment and operation of the School Readiness program and the Voluntary Prekindergarten Education Program. Section 1001.213, F.S.
[15] Part VI, ch. 1002, F.S.
[16] Section 1002.88(1)(a), F.S.

Child Care Regulation, as the agency responsible for the state's child care provider licensing program, regulates many, but not all, child care providers that provide early learning programs.[17]

On November 19, 2014, the Child Care and Development Block Grant (CCDBG) Act of 2014 was signed into law. The new law prescribed health and safety requirements that apply to school readiness program providers and required better information to parents and the general public about available child care choices.

Based on the new requirements of the block grant, to continue to receive federal funding, states must require that screening for child care staff include searches of the National Sex Offender Registry, as well as searches of state criminal records, sex offender registry and child abuse and neglect registry of any state in which the child care personnel resided during the preceding five years.[18] Additionally, a state must make ineligible for employment by school readiness providers any person who is registered, or is required to be registered, on a state sex offender registry or the National Sex Offender Registry[19] or has been convicted of:

- Murder;
- Child abuse or neglect;
- A crime against children, including child pornography;
- Spousal abuse;
- A crime involving rape or sexual assault;
- Kidnapping;
- Arson;
- Physical assault or battery;
- A drug-related offense committed during the preceding five years; or
- A violent misdemeanor committed as an adult against a child, including the following crimes: child abuse, child endangerment, sexual assault, or a misdemeanor involving child pornography.[20]

In 2016, the Legislature aligned the state's child care personnel screening standards with the CCDBG Act of 2014 requirements, specifying new screening requirements in ch. 402, F.S., and including these limitations on granting disqualifications in ch. 435, F.S.[21]

Parental Responsibilities and Terminations of Parental Rights

Parents involved in the child welfare system have a number of responsibilities they must carry out in order to be reunified with their children, if permanency is a goal. A primary responsibility is to comply with the case plan. Parental lack of compliance with a case plan constitutes grounds for termination of parental rights. Specifically, noncompliance is shown if a parent fails to substantially comply for 12 months after the child's adjudication of dependency or if a child has been in care for 12 of the last 22 months, or a parent materially breaches the case plan such that noncompliance is likely before the expiration of time to comply. However, generally if

[17] See ss. 402.301-319, F.S., and part VI, ch. 1002, F.S.
[18] Pub. Law No. 113-186, 128 Stat. 1971, Sec. 658H(b)
[19] 42 U.S.C. s. 9858f(c)(1)(C).
[20] 42 U.S.C. s. 9858f(c)(1).
[21] Chapter 2016-238, Laws of Fla.

noncompliance is due to the parent's lack of financial resources or the department's failure to make reasonable efforts, grounds for termination are not established.[22]

Section 39.6011, F.S., requires the case plan to contain a written notice that a parent's noncompliance with the case plan may lead to the termination of parental rights. This message is also delivered by the judge during the hearing on the child's placement in a shelter[23] and the adjudicatory hearing.[24]

The U.S. Department of Health and Human Services, through the Children's Bureau, conducts periodic Child and Family Services Reviews (CFSR) in each state. As authorized by federal law, these reviews assess state compliance with the federal requirements for child welfare systems in Title IV-B and Title IV-E of the Social Security Act. In particular, the Children's Bureau examines whether desired child outcomes are being achieved and whether the child welfare system is structured appropriately and operates effectively. Reviews are conducted every 4 years.

The report summarizing Florida's most recent results was issued in late 2016. The report indicated the following related to achieving permanency:

- Despite establishing timely and appropriate permanency goals, case review results found that agencies and courts struggle to make concerted efforts to achieve identified permanency goals in a timely manner.
- Delays in achieving reunification and guardianship goals are affected by case plans not being updated timely to reflect the current needs of the family, delays in referral for services, and any failure to engage parents.
- The agency and court do not make concerted efforts to achieve the goal of adoption timely in nearly half of applicable cases.
- Barriers affecting timely adoptions include the lack of concurrent planning when a parent's compliance level is minimal, and providing parents additional time to work on case plan goals.
- In over half of applicable cases, the agency failed to make concerted efforts to provide services, removed children without providing appropriate services, or did not monitor safety plans and engage the family in needed safety-related services.[25]

The report also concluded that there are concerns with gaps in key services, long waiting lists, insurance barriers, and an inability to tailor services to meet the cultural needs of the diverse population. Substance abuse and domestic violence are the main reasons for agency involvement. The review found that substance abuse, in particular, contributes to various safety concerns for children. Stakeholders noted that there are major gaps in services to address both substance abuse and domestic violence in the non-metro areas of the state.[26]

[26] *Id*.

This indicates that while lack of case plan compliance by parents causes delays in permanency, inadequacies in the system are also contributing factors.

Sheriffs Conducting Child Protective Investigations

Child protective investigation units are responsible for receiving and responding to reports of child abuse and neglect, which involves whether the report meets the criteria to be accepted for a protective investigation, gathering information, and making a determination of whether child maltreatment occurred or the child is at risk of abuse or neglect.

The DCF has been authorized to enter into contracts with county sheriffs to provide child protective investigations since 1998.[27] Currently, the department is responsible for performing child protective investigations in 61 counties statewide. Sheriff's offices in 6 counties (Broward, Manatee, Pinellas, Seminole, Hillsborough, and Pasco) are responsible for performing child protective investigations.[28] Child protective investigations in Walton County are conducted by DCF staff.[29] The department currently employs 12 full-time equivalent (FTE) positions to provide these investigative services for the county.

The department is also required to enter into agreements with the jurisdictionally responsible county sheriffs' offices and local police departments that will assume the lead in conducting any potential criminal investigations arising from allegations of child abuse, abandonment, or neglect.[30] The following types of calls to the DCF Child Abuse Hotline are automatically transferred to the appropriate county sheriff's office:

- Reports of known or suspected child abuse by an adult other than a parent, legal custodian, caregiver, or other person responsible for the child's welfare, as defined in s. 39.01, F.S.;
- Reports involving juvenile sexual abuse or a child who has exhibited inappropriate sexual behavior; and
- Reports of an instance of known or suspected child abuse involving impregnation of a child under 16 years of age by a person 21 years of age or older solely under s. 827.04(3), F.S.[31]

All child protective investigations, regardless of the entity administering this function, must be done in accordance with state and federal laws, and regulations. The county sheriffs must conduct investigations, at a minimum, in accordance with the performance standards and outcome measures established by the Legislature for protective investigations conducted by the department. Each individual child protective investigator must complete, at a minimum, the training provided to and required of protective investigators employed by the department.[32]

Funds for providing child protective investigations must be identified in the annual appropriation made to the department, which shall award grants to the respective sheriffs' offices. Funds for child protective investigations may not be integrated into the sheriffs' regular budgets. Budgetary data and other data relating to the performance of child protective investigations must be

[27] Section 39.3065, F.S.
[28] Those county sheriffs are Broward, Hillsborough, Manatee, Pasco, Pinellas and Seminole.
[29] Staff in Walton County include 12 positions that are responsible for child protective investigative functions.

[31] Section 39.201, F.S.
[32] Section 39.3065, F.S.

maintained separately from all other records of the sheriffs' offices and reported to the department as specified in the grant agreement.[33]

The grants funding from the DCF is from several sources, including state general revenue and federal funds from the Welfare Transition Trust Fund (Temporary Assistance for Needy Families Block Grant), Social Services Block Grant Trust Fund, Child Welfare Training Trust Fund, Federal Grants Trust Fund, and Title IV-E funds.

Performance and Cost

The DCF and the sheriff's offices generally use similar investigative processes and procedures, although the higher level of funding for the sheriffs results in their investigators having greater resources than typically available to DCF investigators. Due to their law enforcement affiliation, child abuse investigators working for sheriffs also generally have greater access to training and specialists, as well as enhanced cooperation and community respect not always afforded to DCF investigators.[34] The additional resources available to sheriffs' offices enhance their investigators' ability to perform their job duties and the office's ability to attract and retain experienced investigators. Sheriffs:

- Have slightly lower overall investigator caseloads;
- Tend to have more investigative aides and support staff positions;
- Provide vehicles for investigators;
- Provide investigator uniforms;
- Provide additional equipment to investigators;
- Provide supplies for children awaiting placement, including diapers, formula, food, and clothes;
- Have well-equipped visitation rooms with furniture, rugs, toys, television, games, kitchens, and bathrooms to provide children with a comfortable and safe environment after removal, further enabling investigators to perform their job more easily;
- Provide investigators with office space either in the sheriff's office or collocated with or near community-based care lead agencies, which facilitates communication between supervisors and investigators and enhances accountability; and
- Often provide higher salaries for investigators, which enhances morale and also contributes to lower turnover. In addition to higher salaries, sheriffs' child protective investigators are normally awarded merit and cost-of-living raises.[35]

Child protective investigation units administered by sheriffs' offices also have advantages that are not entirely due to their higher state funding. Because sheriff's offices are law enforcement agencies, they can provide protective investigators with access to training and resource specialists, and a higher degree of cooperation with local law enforcement agencies and the community.[36]

[35] *Id*.
[36] *Id*.

However, the higher funding and other advantages enjoyed by the sheriff's offices does not appear to result in better outcomes and the cost per investigation is higher.[37]

Vehicular Heat Stroke Deaths in Children

Hyperthermia or vehicular heat stroke deaths have become much more prevalent in children since federal law required that children ride in the backseat due to the danger of front passenger seat airbags.[38] The national average number of these deaths is 39 per year.[39] Thirty-one percent of hyperthermia deaths involve children under the age of one.[40] Between 1998 and 2015, Florida had the second highest number of child deaths from vehicular heat stroke.[41]

Licensing Standards for Child Care Facilities and Large Family Child Care Homes Relating to Vehicles

The department establishes licensing standards that each licensed child care facility in the state must meet.[42] A child care facility is defined in Florida law as "any child care center or child care arrangement which provides child care for more than five children unrelated to the operator and which receives a payment, fee, or grant for any of the children receiving care, wherever operated, and whether or not operated for profit."[43]

A large family child care home is defined as an occupied residence in which child care is regularly provided for children from at least two unrelated families, which receives a payment, fee, or grant for any of the children receiving care, whether or not operated for profit, and which has at least two full-time child care personnel on the premises during the hours of operation.[44]

The department currently oversees just over 6,000 licensed child care entities including child care facilities, large family child care homes and family day care homes.[45] In addition, there are homes that are only registered by the agency, facilities that are exempt from licensure due to a

religious affiliation,[46] and homes currently licensed by five counties in the state.[47] Of these homes, a total 1,490 child care facilities and large family child care homes regulated by the department reported that they transport children.[48]

Statutory licensing standards for child care facilities are extensive and reference transportation and vehicles, including the requirement that minimum standards include accountability for children being transported.[49] The Florida Administrative Code provides requirements for licensed child care facilities and large family child care homes to follow in relation to vehicles that are owned, operated, or regularly used by the facility or home, as well as vehicles that provide transportation through a contract or agreement with an outside entity.[50]

Providers are required to maintain a driver's log for all children being transported. This log must include the child's name, date, time of departure, time of arrival, signature of driver, and signature of second staff member to verify the driver's log and that all children have left the vehicle. Upon arrival at the destination, the driver of the vehicle must mark each child off the log as the child departs the vehicle, conduct a physical inspection and visual sweep of the vehicle, and sign, date, and record the driver's log immediately to verify all children were accounted for and that the sweep was conducted. Upon arrival at the destination, a second staff member must also conduct a physical inspection and visual sweep of the vehicle and sign, date, and record the driver's log to verify all children were accounted for and that the driver's log is complete.[51]

Current standards for child care facilities and large family child care homes do not address providing information to parents related to being distracted and leaving a child in a vehicle.

III. Effect of Proposed Changes:

Section 1 amends s. 39.01, relating to definitions, to provide that the definition of the term "abuse" includes birth of a new child into a family during the course of an open dependency case when the parent or caregiver has been determined to lack the protective capacity to safely care for the children in the home and has not substantially complied with the case plan towards successful reunification or met the conditions for return of the children into the home.

Section 2 amends s. 39.0138, F.S., relating to criminal history and other records checks and the limits on placing a child, to allow the department to grant an exemption from a fingerprinting requirement to a household member with a physical, developmental, or cognitive disability that prevents him or her from being fingerprinted. The department is granted rulemaking authority to administer the provision. The section requires that if a fingerprint exemption is granted, a Level 1 background screening pursuant to s. 435.03, F.S., must be completed on the person who is granted the exemption.

---

[50] See 65C-22.001(6) and 65C-20.13(8), F.A.C.
[51] *Id*.

The section also clarifies that “resisting arrest with violence” is a disqualifier for placement of a child in the home if the offense occurred within the previous five years rather than if the offense was committed at any time.

Section 3 amends s. 39.3065, F.S., relating to sheriffs providing child protective investigations, to authorize the Walton County Sheriff to assume responsibility for the investigations beginning with the 2018-2019 fiscal year.

Section 4 amends s. 39.6012, F.S., relating to case plan tasks and services, to require parents to provide accurate contact information, including updates of contact information, to the department or the contracted case management agency. Parents must also proactively contact the department or the contracted case management agency at least every 14 calendar days to provide information on the status of case plan task completion, barriers to completion, and plans towards reunification.

Section 5 amends s. 39.6013, F.S., relating to case plan amendments, to require additional considerations by the court before determining whether to amend a case plan.

Section 6 amends s. 39.621, F.S., relating to permanency determinations by the court, to add as a factor for the court to consider in determining permanency at the permanency hearing, whether the frequency, duration, manner, and level of engagement of the parent or legal guardian meets the case plan requirements.

Section 7 amends s. 39.701, F.S., relating to judicial review, to provide that the court at the judicial review hearing must make written findings regarding the parent or legal guardian’s compliance with the case plan and demonstrable change in parental capacity to achieve timely reunification.

Section 8 amends s. 63.092, F.S., relating to the requirements of preliminary home studies of intended adoptive parents, to:

- Require the "records check of the department's Central Abuse Registry" be provided directly to the entity conducting the home study to ensure the integrity of the results and protect the best interest of children being placed for adoption; and
- Allow licensed adoption agencies to use their professional judgement to determine the appropriate counseling and education, dependent upon the type of adoption and the child being adopted. The bill exempts adoptive parents in private adoptions from the training requirements in s. 409.175(14), F.S.

Section 9 amends s. 402.305, F.S., relating to licensure standards for child care facilities, to add two federal Child Care and Development Block Grant Act requirements not previously addressed in state law, to align background screening requirements for child care personnel with federal requirements. The change allows the department to utilize results from out-of-state employment history checks, criminal history records, sexual predator and sexual offender registries, and child abuse and neglect registry of any state in which the person resided during the past five years, and requires fingerprint submissions for child care personnel to comply with s. 435.12, F.S.

The bill also requires each child care facility to provide parents of enrolled children information relating to the potential hazard of becoming distracted and leaving a child in a vehicle. The department is directed to develop a flyer or brochure and post it on the agency website.

Section 10 amends s. 402.30501, F.S., relating to modification of introductory child care course for community college credit, to conform references to changes made by the bill.

Section 11 amends s. 402.313, F.S., relating to family day care homes, to add a requirement that such homes provide parents of enrolled children information relating to the potential hazard of becoming distracted and leaving a child in a vehicle. The department is to develop a flyer or brochure and post in on the agency website.

Section 12 amends s. 402.3231, F.S., relating to large family child care homes, to add a requirement that such homes provide parents of enrolled children information relating to the potential hazard of becoming distracted and leaving a child in a vehicle. The department is to develop a flyer or brochure and post in on the agency website.

Section 13 amends s. 409.175, F.S., relating to licensure of family foster homes, residential child-caring agencies, and child-placing agencies, to define the term "severe disability" when determining whether a person should be exempt from being fingerprinted because of a physical, developmental, or cognitive disability. If a person is exempt from being fingerprinted, the department would be able to license the family foster home without fingerprinting all individuals in the home.

Section 14 amends s. 409.991, F.S., relating to allocation of funds for community-based care lead agencies, to modify the definition of the term "children in care" and revise the formula for the allocation of new core services funding to CBCs. Children in care will now include only new entries of children into out-of-home care over the most recent 24 months, instead of all children in out-of-home over the most recent 12 months. The term will also include children whose families have received family support services over the most recent 12 months. Children receiving in-home services will continue to be included over the most recent 12 months. The bill modifies the weights of children in care as 15 percent for family support services, 55 percent for children in out-of-home care, and 30 percent for children in in-home care.

The bill directs the department to distribute new core services funding to CBCs pursuant to the following amended equity allocation model:

- Proportion of the child population, remaining as 5 percent of the total;
- Proportion of child abuse hotline workload, weighted as 35 percent of the total rather than 15 percent; and
- Proportion of children in care, weighted as 60 percent of the total, rather than 80 percent. The
- proportion of children in care is calculated based on 55 percent weight for children in out-of-home care (instead of 60 percent), 30 percent weight for children in in-home care (instead of 40 percent), and 15 percent weight based on children in family support services which is a new category.

Lastly, the bill changes the distribution of new core services funding as follows:

- 70 percent is allocated among all CBCs;

- 30 percent is allocated to CBCs that are currently funded below their equitable share. Funds are weighted based on each CBC's proportion of total funding below their equitable share.

- **Section 15** amends s. 435.07, F.S., relating to exemptions from disqualification, to add drug offenses to the list of disqualifying offenses in Ch. 893, F.S., for child care personnel.

  Section 16 amends s. 1002.55, F.S., relating to school-year prekindergarten programs delivered by private providers, to conform references to changes made by the bill.

  Section 17 amends s. 1002.57, F.S., relating to prekindergarten director credentials, to conform references to changes made by the bill.

  Section 18 amends s. 1002.59, F.S., relating to emergent literacy and performance standards, to conform references to changes made by the bill.

  Section 19 directs the Division of Law Revision and Information to prepare a reviser's bill for the 2019 session of the Legislature to capitalize the first letter of each word of the term "child protection team" wherever it occurs in the Florida Statutes.

  Section 20 provides an effective date of July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

PCS/CS/SB 1360 revises the equity allocation model used for distributing funds among the CBCs. The bill will have an indeterminate fiscal impact on the individual CBCs. In the event that new core services funding is made available for the CBCs, it is expected that some will receive more funding than they would have under the previous formula, while others would receive less. The equity allocation model only affects how new core

services funding will be distributed. As an example, if a new appropriation of $10 million was made for core services funding, the following chart shows the difference between the distribution under current law and under the bill. Conversely, if new core services funding was not appropriated, the distribution of core services funding to the CBCs would remain unchanged from the previous year.

CBC Funding Formula Changes with $10 million of New Core Services Funding

		A	B	C	C-B	A+C
			New Core Services Funding

	Total	100%	100%

* Out-of-home care weighted formula is changing from the number of children in out-of-home care during the last 12-month period to the number of children who "enter" out-of-home care during the last 24-month period.

Collectively, CBC lead agencies were appropriated $878 million for the 2017-2018 fiscal year. Funds are provided for core services as well as for specific programs such as maintenance adoptions subsidies, independent living, and others. The amount of core

services funding for Fiscal Year 2017-2018 is included in the chart below, along with the projected expenditures for the year. Several CBCs are projected to have a funding deficit for the year. The change in the equity allocation model and its impact on the CBCs for Fiscal Year 2018-2019 may provide some assistance to the CBCs if new core services funding were to be appropriated. At present, Senate Bill 2500, the Senate General Appropriations Bill, does not provide an increase for CBC core services funding.

CBC Funding and Projected Expenditures for Fiscal Year 2017-18:

	Lead Agency (CBC)	Core Services Funding, as Proposed	Carry Forward Balance at 7/1/2017	Total Available for Core Services	Projected Expenditures	Projected Surplus/ (Deficit)
1	Lakeview Center (Families First)	$ 34,748,921	$ (335,809)	$ 34,413,112	$ 34,354,262	$ 58,850

C. Government Sector Impact:

The bill authorizes the Walton County sheriff's office to assume responsibility for child protective investigations. The DCF currently conducts these investigations with 12 full-time equivalent (FTE) positions at a cost of $860,607 ($334,652 from the General Revenue Fund and $525,955 from various trust funds). By eliminating the FTE and the corresponding salary rate of 457,659, and transferring the recurring funding between appropriation categories, total funding of $860,607 is included in Senate Bill 2500, the Senate Fiscal Year 2018-2019 General Appropriations Bill for the outsourced services.

The bill is not expected to have a fiscal impact on state government.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 39.01, 39.0138, 39.3065, 39.6012, 39.6013, 39.621, 39.701, 63.092, 402.305, 402.313, 402.3131, 409.175, 409.991, 435.07, 402.30501, 1002.55, 1002.57 and 1002.59.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Health and Human Services on February 21, 2018:
The committee substitute:

- Amends the definition of the term "abuse" to include the birth of a new child into a family during the course of an open dependency case when the parent or caregiver has been determined to lack the protective capacity to safely care for the children in the home and has not substantially complied with the case plan towards successful reunification or met the conditions for return of the children into the home;
- Requires parents to provide accurate contact information to the department, update the information as necessary and contact the DCF or the CBC lead agency at least every 14 days;
- Authorizes the Walton County Sheriff to assume responsibility for child protective investigations beginning with the 2018-2019 fiscal year;
- Requires child care facilities, family day care homes and large family child care homes to provide parents of enrolled children information related to distracted adults leaving children in vehicles;
- Requires the "records check of the department's Central Abuse Registry" be provided directly to the entity conducting the home study to ensure the integrity of the results and protect the best interest of children being placed for adoption; and
- Allows licensed adoption agencies to use their professional judgement to determine the appropriate counseling and education, dependent upon the type of adoption and the child being adopted.

CS by Children, Families, and Elder Affairs on February 6, 2018:
The CS:

- Clarifies that a Level 1 background screening is required when an exemption is approved for placement of a child;

- Adds two federal Child Care and Development Block Grant Act requirements, not previously addressed in state law, to align background screening requirements for child care personnel. The changes allow the department to use out-of-state criminal history records results for the past five years, and require fingerprint submissions for child care personnel to comply with s. 435.12, F.S;
- Adds drug offenses to the list of disqualifying offenses in Ch. 893, F.S., for child care personnel; and
- Adjusts the formula for the allocation of funding for the community-based care lead agencies.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

Proposed Committee Substitute by the Committee on Appropriations
(Appropriations Subcommittee on Health and Human Services)

A bill to be entitled

An act relating to child welfare; amending s. 39.01, F.S.; revising the definition of the term "abuse"; amending s. 39.0138, F.S.; requiring the Department of Children and Families to establish rules for granting exemptions from criminal history and certain other records checks required for persons being considered for placement of a child; requiring the department or its designee to assess the limitations that justify the exemption and the limitation's effects on the child before granting the exemption; requiring level 1 screening for persons granted such exemption; prohibiting placement of a child with persons convicted of a certain felony; amending s. 39.3065, F.S.; requiring the Sheriff of Walton County to provide all child protective investigations in the county beginning with a specified fiscal year; amending s. 39.6012, F.S.; requiring parents to make proactive contact with the department or contracted case management agency at regular intervals; amending s. 39.6013, F.S.; requiring the court to consider certain case details before amending a case plan; amending s. 39.621, F.S.; requiring the court, during permanency hearings, to determine case plan compliance; amending s. 39.701, F.S.; requiring the court, during judicial review hearings, to determine case plan compliance; amending s. 63.092, F.S.;

580822

576-03510-18

requiring the department to release specified records to entities conducting preliminary home studies; providing that certain specified training is required only for persons who adopt children from the department; amending s. 402.305, F.S.; revising minimum requirements for child care personnel related to screening and fingerprinting; requiring child care facilities to provide information during specified months to parents intended to prevent children from being left in vehicles; requiring the department to develop a flyer or brochure containing specified information; specifying the minimum standards the department must adopt regarding transportation of children by child care facilities; specifying that a child care facility is not responsible for children when they are transported by a parent or guardian; amending ss. 402.313 and 402.3131, F.S.; requiring family day care homes and large family child care homes to provide information during specified months to parents intended to prevent children from being left in vehicles; requiring the department to develop a flyer or brochure containing specified information; amending s. 409.175, F.S.; defining the term "severe disability" and providing an exemption from fingerprint requirements for adult household members with severe disabilities; amending s. 409.991, F.S.; revising the equity allocation formula for community-based care lead agencies; amending s. 435.07, F.S.; revising the offenses that disqualify certain child

care personnel from specified employment; amending ss. 402.30501, 1002.55, 1002.57, and 1002.59, F.S.; conforming cross-references; providing a directive to the Division of Law Revision and Information; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (2) of section 39.01, Florida Statutes, is amended to read:

39.01 Definitions.—When used in this chapter, unless the context otherwise requires:

(2) "Abuse" means any willful act or threatened act that results in any physical, mental, or sexual abuse, injury, or harm that causes or is likely to cause the child's physical, mental, or emotional health to be significantly impaired. Abuse of a child includes the birth of a new child into a family during the course of an open dependency case when the parent or caregiver has been determined to lack the protective capacity to safely care for the children in the home and has not substantially complied with the case plan towards successful reunification or met the conditions for return of the children into the home. Abuse of a child includes acts or omissions. Corporal discipline of a child by a parent or legal custodian for disciplinary purposes does not in itself constitute abuse when it does not result in harm to the child.

Section 2. Subsections (2) through (7) of section 39.0138, Florida Statutes, are renumbered as subsections (3) through (8), respectively, present subsections (2) and (3) are amended, and a

new subsection (2) is added to that section, to read:

39.0138 Criminal history and other records checks; limit on placement of a child.—

(2)(a) The department shall establish rules for granting an exemption from the fingerprinting requirements under subsection (1) for a household member who has a physical, developmental, or cognitive disability that prevents that person from safely submitting fingerprints.

(b) Before granting an exemption, the department or its designee shall assess and document the physical, developmental, or cognitive limitations that justify the exemption and the effect of such limitations on the safety and well-being of the child being placed in the home.

(c) If a fingerprint exemption is granted, a level 1 screening pursuant to s. 435.03 shall be completed on the person who is granted the exemption.

(3) ~~(2)~~ The department may not place a child with a person other than a parent if the criminal history records check reveals that the person has been convicted of any felony that falls within any of the following categories:

(a) Child abuse, abandonment, or neglect;

(b) Domestic violence;

(c) Child pornography or other felony in which a child was a victim of the offense; or

(d) Homicide, sexual battery, or other felony involving violence, other than felony assault or felony battery when an adult was the victim of the assault or battery, or resisting arrest with violence.

(4) ~~(3)~~ The department may not place a child with a person

other than a parent if the criminal history records check reveals that the person has, within the previous 5 years, been convicted of a felony that falls within any of the following categories:

(a) Assault;

(b) Battery; ~~or~~

(c) A drug-related offense; or

(d) Resisting arrest with violence.

Section 3. Paragraph (a) of subsection (3) of section 39.3065, Florida Statutes, is amended to read:

39.3065 Sheriffs of certain counties to provide child protective investigative services; procedures; funding.—

(3)(a) Beginning in fiscal year 1999-2000, the sheriffs of Pasco County, Manatee County, Broward County, and Pinellas County shall ~~have the responsibility to~~ provide all child protective investigations in their respective counties. Beginning in fiscal year 2018-2019, the Sheriff of Walton County shall provide all child protective investigations in his or her county. Beginning in fiscal year 2000-2001, the Department of Children and Families is authorized to enter into grant agreements with sheriffs of other counties to perform child protective investigations in their respective counties.

Section 4. Paragraph (d) is added to subsection (1) of section 39.6012, Florida Statutes, to read:

39.6012 Case plan tasks; services.—

(1) The services to be provided to the parent and the tasks that must be completed are subject to the following:

(d) Parents must provide accurate contact information to the department or the contracted case management agency, update

such information as appropriate, and make proactive contact with the department or the contracted case management agency at least every 14 calendar days to provide information on the status of case plan task completion, barriers to completion, and plans toward reunification.

Section 5. Subsections (6) and (7) of section 39.6013, Florida Statutes, are renumbered as subsections (7) and (8), respectively, and a new subsection (6) is added to that section, to read:

39.6013 Case plan amendments.—

(6) When determining whether to amend the case plan, the court must consider the length of time the case has been open, the level of parental engagement to date, the number of case plan tasks completed, the child's type of placement and attachment, and the potential for successful reunification.

Section 6. Subsection (5) of section 39.621, Florida Statutes, is amended to read:

39.621 Permanency determination by the court.—

(5) At the permanency hearing, the court shall determine:

(a) Whether the current permanency goal for the child is appropriate or should be changed;

(b) When the child will achieve one of the permanency goals; ~~and~~

(c) Whether the department has made reasonable efforts to finalize the permanency plan currently in effect; and

(d) Whether the frequency, duration, manner, and level of engagement of the parent or legal guardian's visitation with the child meets the case plan requirements.

Section 7. Paragraph (d) of subsection (2) of section

39.701, Florida Statutes, is amended to read:

39.701 Judicial review.—

(2) REVIEW HEARINGS FOR CHILDREN YOUNGER THAN 18 YEARS OF AGE.—

(d) *Orders.*—

1. Based upon the criteria set forth in paragraph (c) and the recommended order of the citizen review panel, if any, the court shall determine whether or not the social service agency shall initiate proceedings to have a child declared a dependent child, return the child to the parent, continue the child in out-of-home care for a specified period of time, or initiate termination of parental rights proceedings for subsequent placement in an adoptive home. Amendments to the case plan must be prepared as prescribed in s. 39.6013. If the court finds that the prevention or reunification efforts of the department will allow the child to remain safely at home or be safely returned to the home, the court shall allow the child to remain in or return to the home after making a specific finding of fact that the reasons for the creation of the case plan have been remedied to the extent that the child's safety, well-being, and physical, mental, and emotional health will not be endangered.

2. The court shall return the child to the custody of the parents at any time it determines that they have substantially complied with the case plan, if the court is satisfied that reunification will not be detrimental to the child's safety, well-being, and physical, mental, and emotional health.

3. If, in the opinion of the court, the social service agency has not complied with its obligations as specified in the written case plan, the court may find the social service agency

in contempt, shall order the social service agency to submit its plans for compliance with the agreement, and shall require the social service agency to show why the child could not safely be returned to the home of the parents.

4. If, at any judicial review, the court finds that the parents have failed to substantially comply with the case plan to the degree that further reunification efforts are without merit and not in the best interest of the child, on its own motion, the court may order the filing of a petition for termination of parental rights, whether or not the time period as contained in the case plan for substantial compliance has expired.

5. Within 6 months after the date that the child was placed in shelter care, the court shall conduct a judicial review hearing to review the child's permanency goal as identified in the case plan. At the hearing the court shall make findings regarding the likelihood of the child's reunification with the parent or legal custodian. In making such findings, the court shall consider the level of the parent or legal custodian's compliance with the case plan and demonstrated change in protective capacities compared to that necessary to achieve timely reunification within 12 months after the removal of the child from the home. The court shall also consider the frequency, duration, manner, and level of engagement of the parent or legal custodian's visitation with the child in compliance with the case plan. If the court makes a written finding that it is not likely that the child will be reunified with the parent or legal custodian within 12 months after the child was removed from the home, the department must file with

the court, and serve on all parties, a motion to amend the case plan under s. 39.6013 and declare that it will use concurrent planning for the case plan. The department must file the motion within 10 business days after receiving the written finding of the court. The department must attach the proposed amended case plan to the motion. If concurrent planning is already being used, the case plan must document the efforts the department is taking to complete the concurrent goal.

6. The court may issue a protective order in assistance, or as a condition, of any other order made under this part. In addition to the requirements included in the case plan, the protective order may set forth requirements relating to reasonable conditions of behavior to be observed for a specified period of time by a person or agency who is before the court; and the order may require any person or agency to make periodic reports to the court containing such information as the court in its discretion may prescribe.

Section 8. Paragraphs (b) and (e) of subsection (3) of section 63.092, Florida Statutes, are amended to read:

63.092 Report to the court of intended placement by an adoption entity; at-risk placement; preliminary study.—

(3) PRELIMINARY HOME STUDY.—Before placing the minor in the intended adoptive home, a preliminary home study must be performed by a licensed child-placing agency, a child-caring agency registered under s. 409.176, a licensed professional, or an agency described in s. 61.20(2), unless the adoptee is an adult or the petitioner is a stepparent or a relative. If the adoptee is an adult or the petitioner is a stepparent or a relative, a preliminary home study may be required by the court

for good cause shown. The department is required to perform the preliminary home study only if there is no licensed child-placing agency, child-caring agency registered under s. 409.176, licensed professional, or agency described in s. 61.20(2), in the county where the prospective adoptive parents reside. The preliminary home study must be made to determine the suitability of the intended adoptive parents and may be completed prior to identification of a prospective adoptive minor. A favorable preliminary home study is valid for 1 year after the date of its completion. Upon its completion, a signed copy of the home study must be provided to the intended adoptive parents who were the subject of the home study. A minor may not be placed in an intended adoptive home before a favorable preliminary home study is completed unless the adoptive home is also a licensed foster home under s. 409.175. The preliminary home study must include, at a minimum:

(b) Records checks of the department's central abuse registry<u>, which the department shall provide to the entity conducting the preliminary home study,</u> and criminal records correspondence checks under s. 39.0138 through the Department of Law Enforcement on the intended adoptive parents;

(e) Documentation of counseling and education of the intended adoptive parents on adoptive parenting<u>, as determined by the entity conducting the preliminary home study. The training specified in s. 409.175(14) shall only be required for persons who adopt children from the department</u>;

If the preliminary home study is favorable, a minor may be placed in the home pending entry of the judgment of adoption. A

minor may not be placed in the home if the preliminary home study is unfavorable. If the preliminary home study is unfavorable, the adoption entity may, within 20 days after receipt of a copy of the written recommendation, petition the court to determine the suitability of the intended adoptive home. A determination as to suitability under this subsection does not act as a presumption of suitability at the final hearing. In determining the suitability of the intended adoptive home, the court must consider the totality of the circumstances in the home. A minor may not be placed in a home in which there resides any person determined by the court to be a sexual predator as defined in s. 775.21 or to have been convicted of an offense listed in s. 63.089(4)(b)2.

Section 9. Paragraphs (b) through (f) of subsection (2) of section 402.305, Florida Statutes, are redesignated as paragraphs (c) through (g), respectively, paragraph (a) of subsection (2) and subsections (9) and (10) are amended, and a new paragraph (b) is added to that subsection (2), to read:

402.305 Licensing standards; child care facilities.—

(2) PERSONNEL.—Minimum standards for child care personnel shall include minimum requirements as to:

(a) Good moral character based upon screening as defined in s. 402.302(15). This screening shall be conducted as provided in chapter 435, using the level 2 standards for screening set forth in that chapter, and must include employment history checks, a search of criminal history records, sexual predator and sexual offender registries, and child abuse and neglect registry of any state in which the current or prospective child care personnel resided during the preceding 5 years.

(b) Fingerprint submission for child care personnel, which shall comply with s. 435.12.

(9) ADMISSIONS AND RECORDKEEPING.—

(a) Minimum standards shall include requirements for preadmission and periodic health examinations, requirements for immunizations, and requirements for maintaining emergency information and health records on all children.

(b) During the months of August and September of each year, each child care facility shall provide parents of children enrolled in the facility detailed information regarding the causes, symptoms, and transmission of the influenza virus in an effort to educate those parents regarding the importance of immunizing their children against influenza as recommended by the Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention.

(c) During the months of April and September of each year, at a minimum, each facility shall provide parents of children enrolled in the facility with information regarding the potential for a distracted adult to fail to drop off a child at the facility and instead leave the child in the adult's vehicle upon arrival at the adult's destination. The child care facility shall also give parents information about resources with suggestions to avoid this occurrence. The department shall develop a flyer or brochure with this information, which shall be posted to the department's website, which child care facilities may choose to reproduce and provide to parents to satisfy the requirements of this paragraph.

(d) ~~(c)~~ Because of the nature and duration of drop-in child care, requirements for preadmission and periodic health

examinations and requirements for medically signed records of immunization required for child care facilities shall not apply. A parent of a child in drop-in child care shall, however, be required to attest to the child's health condition and the type and current status of the child's immunizations.

(e)~~(d)~~ Any child shall be exempt from medical or physical examination or medical or surgical treatment upon written request of the parent or guardian of such child who objects to the examination and treatment. However, the laws, rules, and regulations relating to contagious or communicable diseases and sanitary matters shall not be violated because of any exemption from or variation of the health and immunization minimum standards.

(10) TRANSPORTATION SAFETY.—Minimum standards shall include requirements for child restraints or seat belts in vehicles used by child care facilities and large family child care homes to transport children, requirements for annual inspections of the vehicles, limitations on the number of children in the vehicles, procedures to avoid leaving children in vehicles when transported by the facility, and accountability for children ~~being~~ transported by the child care facility. A child care facility is not responsible for children when they are transported by a parent or guardian.

Section 10. Section 402.30501, Florida Statutes, is amended to read:

402.30501 Modification of introductory child care course for community college credit authorized.—The Department of Children and Families may modify the 40-clock-hour introductory course in child care under s. 402.305 or s. 402.3131 to meet the

requirements of articulating the course to community college credit. Any modification must continue to provide that the course satisfies the requirements of s. 402.305(2)(e) ~~s. 402.305(2)(d)~~.

Section 11. Subsection (15) is added to section 402.313, Florida Statutes, to read:

402.313 Family day care homes.—

(15) During the months of April and September of each year, at a minimum, each family day care home shall provide parents of children attending the family day care home with information regarding the potential for a distracted adult to fail to drop off a child at the family day care home and instead leave the child in the adult's vehicle upon arrival at the adult's destination. The family day care home shall also give parents information about resources with suggestions to avoid this occurrence. The department shall develop a flyer or brochure with this information, which shall be posted to the department's website, which family day care homes may choose to reproduce and provide to parents to satisfy the requirements of this subsection.

Section 12. Subsection (10) is added to section 402.3131, Florida Statutes, to read:

402.3131 Large family child care homes.—

(10) During the months of April and September of each year, at a minimum, each large family child care home shall provide parents of children attending the large family child care home with information regarding the potential for a distracted adult to fail to drop off a child at the large family child care home and instead leave the child in the adult's vehicle upon arrival

at the adult's destination. The large family child care home shall also give parents information about resources with suggestions to avoid this occurrence. The department shall develop a flyer or brochure with this information, which shall be posted to the department's website, which large family child care homes may choose to reproduce and provide to parents to satisfy the requirements of this subsection.

Section 13. Paragraphs (l) and (m) of subsection (2) of section 409.175, Florida Statutes, are redesignated as paragraphs (m) and (n), respectively, a new paragraph (l) is added to that subsection, and paragraph (a) of subsection (6) of that section is amended, to read:

409.175 Licensure of family foster homes, residential child-caring agencies, and child-placing agencies; public records exemption.—

(2) As used in this section, the term:

(l) "Severe disability" means a physical, developmental, or cognitive limitation affecting an individual's ability to safely submit fingerprints.

(6)(a) An application for a license shall be made on forms provided, and in the manner prescribed, by the department. The department shall make a determination as to the good moral character of the applicant based upon screening. The department may grant an exemption from fingerprinting requirements, pursuant to s. 39.0138, for an adult household member who has a severe disability.

Section 14. Paragraph (e) of subsection (1) and subsections (2) and (4) of section 409.991, Florida Statutes, are amended to read:

409.991 Allocation of funds for community-based care lead agencies.—

(1) As used in this section, the term:

(e) "Proportion of children in care" means the proportion of the number of children in care receiving in-home services over the most recent 12-month period, the number of children whose families were receiving family support services during the most recent 12-month period, and the number of children who have entered into ~~in~~ out-of-home care with a case management overlay during the most recent 24-month ~~12-month~~ period. This subcomponent shall be weighted as follows:

1. Fifteen percent shall be based on children whose families are receiving family support services.

2.~~1.~~ Fifty-five ~~Sixty~~ percent shall be based on children in out-of-home care.

3.~~2.~~ Thirty ~~Forty~~ percent shall be based on children in in-home care.

(2) The equity allocation of core services funds shall be calculated based on the following weights:

(a) Proportion of the child population shall be weighted as 5 percent of the total.~~;~~

(b) Proportion of child abuse hotline workload shall be weighted as 35 ~~15~~ percent of the total.~~; and~~

(c) Proportion of children in care shall be weighted as 60 ~~80~~ percent of the total.

(4) Unless otherwise specified in the General Appropriations Act, any new core services funds shall be allocated based on the equity allocation model as follows:

(a) Seventy ~~Twenty~~ percent of new funding shall be

allocated among all community-based care lead agencies.

(b) Thirty ~~Eighty~~ percent of new funding shall be allocated among community-based care lead agencies that are funded below their equitable share. Funds allocated pursuant to this paragraph shall be weighted based on each community-based care lead agency's relative proportion of the total amount of funding below the equitable share.

Section 15. Subsection (4) of section 435.07, Florida Statutes, is amended to read:

435.07 Exemptions from disqualification.—Unless otherwise provided by law, the provisions of this section apply to exemptions from disqualification for disqualifying offenses revealed pursuant to background screenings required under this chapter, regardless of whether those disqualifying offenses are listed in this chapter or other laws.

(4)(a) Disqualification from employment under this chapter may not be removed from, nor may an exemption be granted to, any personnel who is found guilty of, regardless of adjudication, or who has entered a plea of nolo contendere or guilty to, any felony covered by s. 435.03 or s. 435.04 solely by reason of any pardon, executive clemency, or restoration of civil rights.

(b) Disqualification from employment under this chapter may not be removed from, nor may an exemption be granted to, any person who is a:

1. Sexual predator as designated pursuant to s. 775.21;

2. Career offender pursuant to s. 775.261; or

3. Sexual offender pursuant to s. 943.0435, unless the requirement to register as a sexual offender has been removed pursuant to s. 943.04354.

(c) Disqualification from employment under this chapter may not be removed from, and an exemption may not be granted to, any current or prospective child care personnel, as defined in s. 402.302(3), and such a person is disqualified from employment as child care personnel, regardless of any previous exemptions from disqualification, if the person has been registered as a sex offender as described in 42 U.S.C. s. 9858f(c)(1)(C) or has been arrested for and is awaiting final disposition of, has been convicted or found guilty of, or entered a plea of guilty or nolo contendere to, regardless of adjudication, or has been adjudicated delinquent and the record has not been sealed or expunged for, any offense prohibited under any of the following provisions of state law or a similar law of another jurisdiction:

1. A felony offense prohibited under any of the following statutes:

a. Chapter 741, relating to domestic violence.

b. Section 782.04, relating to murder.

c. Section 782.07, relating to manslaughter, aggravated manslaughter of an elderly person or disabled adult, aggravated manslaughter of a child, or aggravated manslaughter of an officer, a firefighter, an emergency medical technician, or a paramedic.

d. Section 784.021, relating to aggravated assault.

e. Section 784.045, relating to aggravated battery.

f. Section 787.01, relating to kidnapping.

g. Section 787.025, relating to luring or enticing a child.

h. Section 787.04(2), relating to leading, taking, enticing, or removing a minor beyond the state limits, or

concealing the location of a minor, with criminal intent pending custody proceedings.

i. Section 787.04(3), relating to leading, taking, enticing, or removing a minor beyond the state limits, or concealing the location of a minor, with criminal intent pending dependency proceedings or proceedings concerning alleged abuse or neglect of a minor.

j. Section 794.011, relating to sexual battery.

k. Former s. 794.041, relating to sexual activity with or solicitation of a child by a person in familial or custodial authority.

l. Section 794.05, relating to unlawful sexual activity with certain minors.

m. Section 794.08, relating to female genital mutilation.

n. Section 806.01, relating to arson.

o. Section 826.04, relating to incest.

p. Section 827.03, relating to child abuse, aggravated child abuse, or neglect of a child.

q. Section 827.04, relating to contributing to the delinquency or dependency of a child.

r. Section 827.071, relating to sexual performance by a child.

s. Chapter 847, relating to child pornography.

t. Chapter 893, relating to a drug abuse prevention and control offense, if that offense was committed in the preceding 5 years.

u.~~t.~~ Section 985.701, relating to sexual misconduct in juvenile justice programs.

2. A misdemeanor offense prohibited under any of the

following statutes:

a. Section 784.03, relating to battery, if the victim of the offense was a minor.

b. Section 787.025, relating to luring or enticing a child.

c. Chapter 847, relating to child pornography.

3. A criminal act committed in another state or under federal law which, if committed in this state, constitutes an offense prohibited under any statute listed in subparagraph 1. or subparagraph 2.

Section 16. Paragraph (g) of subsection (3) of section 1002.55, Florida Statutes, is amended to read:

1002.55 School-year prekindergarten program delivered by private prekindergarten providers.—

(3) To be eligible to deliver the prekindergarten program, a private prekindergarten provider must meet each of the following requirements:

(g) The private prekindergarten provider must have a prekindergarten director who has a prekindergarten director credential that is approved by the office as meeting or exceeding the minimum standards adopted under s. 1002.57. Successful completion of a child care facility director credential under s. 402.305(2)(g) ~~s. 402.305(2)(f)~~ before the establishment of the prekindergarten director credential under s. 1002.57 or July 1, 2006, whichever occurs later, satisfies the requirement for a prekindergarten director credential under this paragraph.

Section 17. Subsections (3) and (4) of section 1002.57, Florida Statutes, are amended to read:

1002.57 Prekindergarten director credential.—

(3) The prekindergarten director credential must meet or exceed the requirements of the Department of Children and Families for the child care facility director credential under s. 402.305(2)(g) ~~s. 402.305(2)(f)~~, and successful completion of the prekindergarten director credential satisfies these requirements for the child care facility director credential.

(4) The department shall, to the maximum extent practicable, award credit to a person who successfully completes the child care facility director credential under s. 402.305(2)(g) ~~s. 402.305(2)(f)~~ for those requirements of the prekindergarten director credential which are duplicative of requirements for the child care facility director credential.

Section 18. Subsection (1) of section 1002.59, Florida Statutes, is amended to read:

1002.59 Emergent literacy and performance standards training courses.—

(1) The office shall adopt minimum standards for one or more training courses in emergent literacy for prekindergarten instructors. Each course must comprise 5 clock hours and provide instruction in strategies and techniques to address the age-appropriate progress of prekindergarten students in developing emergent literacy skills, including oral communication, knowledge of print and letters, phonemic and phonological awareness, and vocabulary and comprehension development. Each course must also provide resources containing strategies that allow students with disabilities and other special needs to derive maximum benefit from the Voluntary Prekindergarten Education Program. Successful completion of an emergent literacy training course approved under this section satisfies

requirements for approved training in early literacy and language development under ss. 402.305(2)(e)5. ~~402.305(2)(d)5.~~, 402.313(6), and 402.3131(5).

Section 19. The Division of Law Revision and Information is directed to prepare, with the assistance of the staffs of the appropriate substantive committees of the House of Representatives and the Senate, a reviser's bill for the 2019 Regular Session of the Legislature to capitalize the first letter of each word of the term "child protection team" wherever it occurs in Florida Statutes.

Section 20. This act shall take effect July 1, 2018.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 1360
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Health and Human Services); Children, Families, and Elder Affairs Committee; and Senator Broxson
SUBJECT:	Child Welfare
DATE:	February 27, 2018
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Preston	Hendon	CF	**Fav/CS**
2.	Sneed	Williams	AHS	**Recommend: Fav/CS**
3.	Sneed	Hansen	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1360 makes a number of changes to the child welfare system related to fingerprinting a member of a household being considered as a prospective placement for a child in out-of-home care and the allocation formula used to distribute additional funding to community-based lead agencies (CBCs).

Specifically, the bill adds two federal Child Care and Development Block Grant Act requirements, not previously addressed in state law, to align background screening requirements for child care personnel. The change will allow the Department of Children and Families (DCF or department) to utilize out-of-state criminal history records results for the past five years. The bill also adds drug offenses to the list of disqualifying offenses in ch. 893, F.S., for child care personnel.

The bill makes changes to the equity allocation model for the community-based care lead agencies (CBCs) that contract with the department, by revising the formula that directs the allocation of new core services funding, to align more closely the model with factors that affect the CBC's performance.

The bill amends the definition of the term "abuse" to include the birth of a new child into a family during the course of an open dependency case for those parents or caregivers who are

determined to lack the protective capacity to safely care for the children in the home, and have not substantially complied with their case plan, or met the conditions for return of the children into the home. The bill requires parents to provide accurate contact information to the department, update the information as necessary, and contact the DCF or the CBC at least every 14 days.

The bill requires child care facilities, family day care homes, and large family child care homes to provide public service information related to distracted adults leaving children in vehicles to parents of enrolled children.

The bill authorizes the Walton County sheriff's office to assume responsibility for child protective investigations. Existing recurring funding is available within the DCF to fund the sheriff's office.

The bill is not expected to have a fiscal impact on state government.

The bill is effective July 1, 2018.

II. Present Situation:

Limitations on Placement of a Child

When the Department of Children and Families (DCF or department) considers placement of a child in the child welfare system, the department must conduct a records check through the State Automated Child Welfare Information System (SACWIS) and a local and statewide criminal history records check on all persons under consideration for child placement, including all nonrelative placement decisions, and all members of the household, 12 years of age and older, of the person being considered.[1] This records check may include, but is not limited to, submission of fingerprints to the Department of Law Enforcement for processing and forwarding to the Federal Bureau of Investigation for state and national criminal history information.[2]

Current law prohibits the department from considering out-of-home placements with persons who have been convicted of a felony that falls within any of the following categories:

- Child abuse, abandonment, or neglect;
- Domestic violence;
- Child pornography or other felony in which a child was a victim of the offense; or
- Homicide, sexual battery, or other felony involving violence, other than felony assault or felony battery when an adult was the victim of the assault or battery.

In addition, the DCF may not place a child with a person other than a parent if that person has been convicted of assault, battery, or a drug-related offense within the previous five years.[3]

[1] Section 39.0138, F.S.
[2] *Id*.
[3] Section 39.0138(3), F.S.

Community-Based Care Lead Agencies

Section 409.986, Florida Statutes, provides legislative intent for the department to contract with community-based care lead agencies (CBCs) to provide foster care and related services.[4] These services include family support and family preservation, independent living, emergency shelter, facility or family-based foster care, dependency case management, adoptions, services for victims of sexual exploitation, postplacement supervision, and family reunification. CBCs contract with a number of subcontractors for case management and direct care services to children and their families, and must give priority to services that are evidence-based and trauma informed.[5]

There are 19 CBCs statewide, which together serve the state's 20 judicial circuits. Section 409.991, F.S., requires the department to allocate funds to the CBCs based on an equity allocation model. The model is designed to allocate funds among these lead agencies based on the differing needs and services required by the particular population served by each organization.

The model includes "core services funding," which is defined as all funds allocated to CBCs operating under contract with the DCF pursuant to s. 409.987, F.S., except funds appropriated for independent living, maintenance adoption subsidies, protective investigations training, or mental health wrap-around services; designated special projects; or those appropriated from nonrecurring funds.

Since Fiscal Year 2015-2016, recurring core services funding to each CBC has been based on the prior year's recurring base funding.[6] However, additional or new core services funding that becomes available is directed to be distributed based on the equity allocation model, as follows:

- 20 percent is allocated among all CBCs;
- 80 percent is allocated to CBCs that are currently funded below their equitable share. Funds are weighted based on each CBC's proportion of the total amount of funding below the equitable share.[7]

The equity allocation model requires that any additional core services funding be distributed to the CBCs based on the following factors:

- Proportion of the child population;
- Proportion of the child abuse hotline workload; and
- Proportion of children in care, weighted as 60 percent based on children in out-of-home care and 40 percent based on children in in-home care.[8]

These factors are then used by the DCF for funding allocation purposes, with the distribution of core services funds for each CBC calculated as follows:

- Proportion of the child population, weighted as 5 percent of the total;

[4] *Id*.
[5] Section 409.988, F.S.
[6] *Id*.
[7] *Id*.
[8] *Id*.

- Proportion of child abuse hotline workload, weighted as 15 percent of the total; and
- Proportion of children in care, weighted as 80 percent of the total.[9]
-

Child Care Licensure

The department has responsibility for regulation of child care facilities, family day care homes, and large family child care homes, including those that are also School Readiness providers. Current law requires personnel of these providers to have good moral character based upon screening.[10] Additionally, some entities caring for children are not subject to regulation by the DCF's child care program but their personnel are subject to background screening.[11] Screening must be conducted as provided in ch. 435, F.S., using Level 2 standards.[12]

Child Care and Development Block Grant

The Office of Child Care (OCC) of the United States Department of Health and Human Services supports low-income working families by providing access to affordable, high-quality child care. OCC works with state, territory and tribal governments to provide support for children and their families to promote family economic self-sufficiency and to help children succeed in school and life through affordable, high-quality early care and afterschool programs.[13]

Florida's Office of Early Learning (OEL)[14] provides state-level administration for the School Readiness program. The School Readiness program is a state-federal partnership between OEL and the Office of Child Care of the United States Department of Health and Human Services.[15] The School Readiness program receives funding from a mix of state and federal sources, including the federal Child Care and Development Block Grant (CCDBG), the federal Temporary Assistance for Needy Families (TANF) block grant, general revenue and other state funds. The School Readiness program subsidizes for child care services and early childhood education for low-income families and for children in protective services who are at risk of abuse, neglect, or abandonment, and for children with disabilities.

The program uses a variety of providers, such as licensed and unlicensed child care providers and public and nonpublic schools.[16] The Department of Children and Families (DCF), Office of

[14] In 2013, the Legislature established the Office of Early Learning in the Office of Independent Education and Parental Choice within the Department of Education (DOE). The office is administered by an executive director and is fully accountable to the Commissioner of Education but shall independently exercise all powers, duties, and functions prescribed by law, as well as adopt rules for the establishment and operation of the School Readiness program and the Voluntary Prekindergarten Education Program. Section 1001.213, F.S.
[15] Part VI, ch. 1002, F.S.
[16] Section 1002.88(1)(a), F.S.

Child Care Regulation, as the agency responsible for the state's child care provider licensing program, regulates many, but not all, child care providers that provide early learning programs.[17]

On November 19, 2014, the Child Care and Development Block Grant (CCDBG) Act of 2014 was signed into law. The new law prescribed health and safety requirements that apply to school readiness program providers and required better information to parents and the general public about available child care choices.

Based on the new requirements of the block grant, to continue to receive federal funding, states must require that screening for child care staff include searches of the National Sex Offender Registry, as well as searches of state criminal records, sex offender registry and child abuse and neglect registry of any state in which the child care personnel resided during the preceding five years.[18] Additionally, a state must make ineligible for employment by school readiness providers any person who is registered, or is required to be registered, on a state sex offender registry or the National Sex Offender Registry[19] or has been convicted of:

- Murder;
- Child abuse or neglect;
- A crime against children, including child pornography;
- Spousal abuse;
- A crime involving rape or sexual assault;
- Kidnapping;
- Arson;
- Physical assault or battery;
- A drug-related offense committed during the preceding five years; or
- A violent misdemeanor committed as an adult against a child, including the following crimes: child abuse, child endangerment, sexual assault, or a misdemeanor involving child pornography.[20]

In 2016, the Legislature aligned the state's child care personnel screening standards with the CCDBG Act of 2014 requirements, specifying new screening requirements in ch. 402, F.S., and including these limitations on granting disqualifications in ch. 435, F.S.[21]

Parental Responsibilities and Terminations of Parental Rights

Parents involved in the child welfare system have a number of responsibilities they must carry out in order to be reunified with their children, if permanency is a goal. A primary responsibility is to comply with the case plan. Parental lack of compliance with a case plan constitutes grounds for termination of parental rights. Specifically, noncompliance is shown if a parent fails to substantially comply for 12 months after the child's adjudication of dependency or if a child has been in care for 12 of the last 22 months, or a parent materially breaches the case plan such that noncompliance is likely before the expiration of time to comply. However, generally if

[17] See ss. 402.301-319, F.S., and part VI, ch. 1002, F.S.
[18] Pub. Law No. 113-186, 128 Stat. 1971, Sec. 658H(b)
[19] 42 U.S.C. s. 9858f(c)(1)(C).
[20] 42 U.S.C. s. 9858f(c)(1).
[21] Chapter 2016-238, Laws of Fla.

noncompliance is due to the parent's lack of financial resources or the department's failure to make reasonable efforts, grounds for termination are not established.[22]

Section 39.6011, F.S., requires the case plan to contain a written notice that a parent's noncompliance with the case plan may lead to the termination of parental rights. This message is also delivered by the judge during the hearing on the child's placement in a shelter[23] and the adjudicatory hearing.[24]

The U.S. Department of Health and Human Services, through the Children's Bureau, conducts periodic Child and Family Services Reviews (CFSR) in each state. As authorized by federal law, these reviews assess state compliance with the federal requirements for child welfare systems in Title IV-B and Title IV-E of the Social Security Act. In particular, the Children's Bureau examines whether desired child outcomes are being achieved and whether the child welfare system is structured appropriately and operates effectively. Reviews are conducted every 4 years.

The report summarizing Florida's most recent results was issued in late 2016. The report indicated the following related to achieving permanency:

- Despite establishing timely and appropriate permanency goals, case review results found that agencies and courts struggle to make concerted efforts to achieve identified permanency goals in a timely manner.
- Delays in achieving reunification and guardianship goals are affected by case plans not being updated timely to reflect the current needs of the family, delays in referral for services, and any failure to engage parents.
- The agency and court do not make concerted efforts to achieve the goal of adoption timely in nearly half of applicable cases.
- Barriers affecting timely adoptions include the lack of concurrent planning when a parent's compliance level is minimal, and providing parents additional time to work on case plan goals.
- In over half of applicable cases, the agency failed to make concerted efforts to provide services, removed children without providing appropriate services, or did not monitor safety plans and engage the family in needed safety-related services.[25]

The report also concluded that there are concerns with gaps in key services, long waiting lists, insurance barriers, and an inability to tailor services to meet the cultural needs of the diverse population. Substance abuse and domestic violence are the main reasons for agency involvement. The review found that substance abuse, in particular, contributes to various safety concerns for children. Stakeholders noted that there are major gaps in services to address both substance abuse and domestic violence in the non-metro areas of the state.[26]

[26] *Id*.

This indicates that while lack of case plan compliance by parents causes delays in permanency, inadequacies in the system are also contributing factors.

Sheriffs Conducting Child Protective Investigations

Child protective investigation units are responsible for receiving and responding to reports of child abuse and neglect, which involves whether the report meets the criteria to be accepted for a protective investigation, gathering information, and making a determination of whether child maltreatment occurred or the child is at risk of abuse or neglect.

The DCF has been authorized to enter into contracts with county sheriffs to provide child protective investigations since 1998.[27] Currently, the department is responsible for performing child protective investigations in 61 counties statewide. Sheriff's offices in six counties (Broward, Manatee, Pinellas, Seminole, Hillsborough, and Pasco) are responsible for performing child protective investigations.[28] Child protective investigations in Walton County are conducted by DCF staff.[29] The department currently employs 12 full-time equivalent (FTE) positions to provide these investigative services for the county.

The department is also required to enter into agreements with the jurisdictionally responsible county sheriffs' offices and local police departments that will assume the lead in conducting any potential criminal investigations arising from allegations of child abuse, abandonment, or neglect.[30] The following types of calls to the DCF Child Abuse Hotline are automatically transferred to the appropriate county sheriff's office:

- Reports of known or suspected child abuse by an adult other than a parent, legal custodian, caregiver, or other person responsible for the child's welfare, as defined in s. 39.01, F.S.;
- Reports involving juvenile sexual abuse or a child who has exhibited inappropriate sexual behavior; and
- Reports of an instance of known or suspected child abuse involving impregnation of a child under 16 years of age by a person 21 years of age or older solely under s. 827.04(3), F.S.[31]

All child protective investigations, regardless of the entity administering this function, must be done in accordance with state and federal laws, and regulations. The county sheriffs must conduct investigations, at a minimum, in accordance with the performance standards and outcome measures established by the Legislature for protective investigations conducted by the department. Each individual child protective investigator must complete, at a minimum, the training provided to and required of protective investigators employed by the department.[32]

Funds for providing child protective investigations must be identified in the annual appropriation made to the department, which shall award grants to the respective sheriffs' offices. Funds for child protective investigations may not be integrated into the sheriffs' regular budgets. Budgetary data and other data relating to the performance of child protective investigations must be

[27] Section 39.3065, F.S.
[28] Those county sheriffs are Broward, Hillsborough, Manatee, Pasco, Pinellas and Seminole.
[29] Staff in Walton County include 12 positions that are responsible for child protective investigative functions.
[30] Section 39.306, F.S.
[31] Section 39.201, F.S.
[32] Section 39.3065, F.S.

maintained separately from all other records of the sheriffs' offices and reported to the department as specified in the grant agreement.[33]

The grants funding from the DCF is from several sources, including state general revenue and federal funds from the Welfare Transition Trust Fund (Temporary Assistance for Needy Families Block Grant), Social Services Block Grant Trust Fund, Child Welfare Training Trust Fund, Federal Grants Trust Fund, and Title IV-E funds.

Performance and Cost

The DCF and the sheriff's offices generally use similar investigative processes and procedures, although the higher level of funding for the sheriffs results in their investigators having greater resources than typically available to DCF investigators. Due to their law enforcement affiliation, child abuse investigators working for sheriffs also generally have greater access to training and specialists, as well as enhanced cooperation and community respect not always afforded to DCF investigators.[34] The additional resources available to sheriffs' offices enhance their investigators' ability to perform their job duties and the office's ability to attract and retain experienced investigators. Sheriffs:

- Have slightly lower overall investigator caseloads;
- Tend to have more investigative aides and support staff positions;
- Provide vehicles for investigators;
- Provide investigator uniforms;
- Provide additional equipment to investigators;
- Provide supplies for children awaiting placement, including diapers, formula, food, and clothes;
- Have well-equipped visitation rooms with furniture, rugs, toys, television, games, kitchens, and bathrooms to provide children with a comfortable and safe environment after removal, further enabling investigators to perform their job more easily;
- Provide investigators with office space either in the sheriff's office or collocated with or near community-based care lead agencies, which facilitates communication between supervisors and investigators and enhances accountability; and
- Often provide higher salaries for investigators, which enhances morale and contributes to lower turnover. In addition to higher salaries, sheriffs' child protective investigators are normally awarded merit and cost-of-living raises.[35]

Child protective investigation units administered by sheriffs' offices also have advantages that are not entirely due to their higher state funding. Because sheriff's offices are law enforcement agencies, they can provide protective investigators with access to training and resource specialists, and a higher degree of cooperation with local law enforcement agencies and the community.[36]

[35] *Id*.
[36] *Id*.

However, the higher funding and other advantages enjoyed by the sheriff's offices does not appear to result in better outcomes and the cost per investigation is higher.[37]

Vehicular Heat Stroke Deaths in Children

Hyperthermia or vehicular heat stroke deaths have become much more prevalent in children since federal law required that children ride in the backseat due to the danger of front passenger seat airbags.[38] The national average number of these deaths is 39 per year.[39] Thirty-one percent of hyperthermia deaths involve children under the age of one.[40] Between 1998 and 2015, Florida had the second highest number of child deaths from vehicular heat stroke.[41]

Licensing Standards for Child Care Facilities and Large Family Child Care Homes Relating to Vehicles

The department establishes licensing standards that each licensed child care facility in the state must meet.[42] A child care facility is defined in Florida law as "any child care center or child care arrangement which provides child care for more than five children unrelated to the operator and which receives a payment, fee, or grant for any of the children receiving care, wherever operated, and whether or not operated for profit."[43]

A large family child care home is defined as an occupied residence in which child care is regularly provided for children from at least two unrelated families, which receives a payment, fee, or grant for any of the children receiving care, whether or not operated for profit, and which has at least two full-time child care personnel on the premises during the hours of operation.[44]

The department currently oversees just over 6,000 licensed child care entities including child care facilities, large family child care homes and family day care homes.[45] In addition, there are homes that are only registered by the agency, facilities that are exempt from licensure due to a

[43] See s. 402.302(2), F.S.
[44] See s. 402.302(11), F.S.
[45] Florida Department of Children and Families, DCF Quick Facts, 7 (Quarter 1, Fiscal Year 2017-2018), *available at*: http://www.dcf.state.fl.us/general-information/quick-facts/cc / (last visited February 7, 2018).

religious affiliation,[46] and homes currently licensed by five counties in the state.[47] Of these homes, a total 1,490 child care facilities and large family child care homes regulated by the department reported that they transport children.[48]

Statutory licensing standards for child care facilities are extensive and reference transportation and vehicles, including the requirement that minimum standards include accountability for children being transported.[49] The Florida Administrative Code provides requirements for licensed child care facilities and large family child care homes to follow in relation to vehicles that are owned, operated, or regularly used by the facility or home, as well as vehicles that provide transportation through a contract or agreement with an outside entity.[50]

Providers are required to maintain a driver's log for all children being transported. This log must include the child's name, date, time of departure, time of arrival, signature of driver, and signature of second staff member to verify the driver's log and that all children have left the vehicle. Upon arrival at the destination, the driver of the vehicle must mark each child off the log as the child departs the vehicle, conduct a physical inspection and visual sweep of the vehicle, and sign, date, and record the driver's log immediately to verify all children were accounted for and that the sweep was conducted. Upon arrival at the destination, a second staff member must also conduct a physical inspection and visual sweep of the vehicle and sign, date, and record the driver's log to verify all children were accounted for and that the driver's log is complete.[51]

Current standards for child care facilities and large family child care homes do not address providing information to parents related to being distracted and leaving a child in a vehicle.

III. Effect of Proposed Changes:

Section 1 amends s. 39.01, relating to definitions, to provide that the definition of the term "abuse" includes birth of a new child into a family during the course of an open dependency case when the parent or caregiver has been determined to lack the protective capacity to safely care for the children in the home and has not substantially complied with the case plan towards successful reunification or met the conditions for return of the children into the home.

Section 2 amends s. 39.0138, F.S., relating to criminal history and other records checks and the limits on placing a child, to allow the department to grant an exemption from a fingerprinting requirement to a household member with a physical, developmental, or cognitive disability that prevents him or her from being fingerprinted. The department is granted rulemaking authority to administer the provision. The section requires that if a fingerprint exemption is granted, a Level 1 background screening pursuant to s. 435.03, F.S., must be completed on the person who is granted the exemption.

---

[46] See s. 402.316, F.S.
[47] See s. 402.306, F.S. Those five counties are Broward, Hillsborough, Palm Beach, Pinellas and Sarasota.
[48] Florida Department of Children and Families, 2018 Agency Legislative Bill Analysis, SB 486. On file with the Senate Committee on Children, Families and Elder Affairs.
[49] See s. 402.305, F.S
[50] See 65C-22.001(6) and 65C-20.13(8), F.A.C.
[51] *Id*.

The section also clarifies that "resisting arrest with violence" is a disqualifier for placement of a child in the home if the offense occurred within the previous five years rather than if the offense was committed at any time.

Section 3 amends s. 39.3065, F.S., relating to sheriffs providing child protective investigations, to authorize the Walton County Sheriff to assume responsibility for the investigations beginning with the 2018-2019 fiscal year.

Section 4 amends s. 39.6012, F.S., relating to case plan tasks and services, to require parents to provide accurate contact information, including updates of contact information, to the department or the contracted case management agency. Parents must also proactively contact the department or the contracted case management agency at least every 14 calendar days to provide information on the status of case plan task completion, barriers to completion, and plans towards reunification.

Section 5 amends s. 39.6013, F.S., relating to case plan amendments, to require additional considerations by the court before determining whether to amend a case plan.

Section 6 amends s. 39.621, F.S., relating to permanency determinations by the court, to add as a factor for the court to consider in determining permanency at the permanency hearing, whether the frequency, duration, manner, and level of engagement of the parent or legal guardian meets the case plan requirements.

Section 7 amends s. 39.701, F.S., relating to judicial review, to provide that the court at the judicial review hearing must make written findings regarding the parent or legal guardian's compliance with the case plan and demonstrable change in parental capacity to achieve timely reunification.

Section 8 amends s. 63.092, F.S., relating to the requirements of preliminary home studies of intended adoptive parents, to:

- Require the "records check of the department's Central Abuse Registry" be provided directly to the entity conducting the home study to ensure the integrity of the results and protect the best interest of children being placed for adoption; and
- Allow licensed adoption agencies to use their professional judgement to determine the appropriate counseling and education, dependent upon the type of adoption and the child being adopted. The bill exempts adoptive parents in private adoptions from the training requirements in s. 409.175(14), F.S.

Section 9 amends s. 402.305, F.S., relating to licensure standards for child care facilities, to add two federal Child Care and Development Block Grant Act requirements not previously addressed in state law, to align background screening requirements for child care personnel with federal requirements. The change allows the department to utilize results from out-of-state employment history checks, criminal history records, sexual predator and sexual offender registries, and child abuse and neglect registry of any state in which the person resided during the past five years, and requires fingerprint submissions for child care personnel to comply with s. 435.12, F.S.

The bill also requires each child care facility to provide parents of enrolled children information relating to the potential hazard of becoming distracted and leaving a child in a vehicle. The department is directed to develop a flyer or brochure and post it on the agency website.

Section 10 amends s. 402.30501, F.S., relating to modification of introductory child care course for community college credit, to conform references to changes made by the bill.

Section 11 amends s. 402.313, F.S., relating to family day care homes, to add a requirement that such homes provide parents of enrolled children information relating to the potential hazard of becoming distracted and leaving a child in a vehicle. The department is to develop a flyer or brochure and post in on the agency website.

Section 12 amends s. 402.3231, F.S., relating to large family child care homes, to add a requirement that such homes provide parents of enrolled children information relating to the potential hazard of becoming distracted and leaving a child in a vehicle. The department is to develop a flyer or brochure and post in on the agency website.

Section 13 amends s. 409.175, F.S., relating to licensure of family foster homes, residential child-caring agencies, and child-placing agencies, to define the term "severe disability" when determining whether a person should be exempt from being fingerprinted because of a physical, developmental, or cognitive disability. If a person is exempt from being fingerprinted, the department would be able to license the family foster home without fingerprinting all individuals in the home.

Section 14 amends s. 409.991, F.S., relating to allocation of funds for community-based care lead agencies, to modify the definition of the term "children in care" and revise the formula for the allocation of new core services funding to CBCs. Children in care will now include only new entries of children into out-of-home care over the most recent 24 months, instead of all children in out-of-home over the most recent 12 months. The term will also include children whose families have received family support services over the most recent 12 months. Children receiving in-home services will continue to be included over the most recent 12 months. The bill modifies the weights of children in care as 15 percent for family support services, 55 percent for children in out-of-home care, and 30 percent for children in in-home care.

The bill directs the department to distribute new core services funding to CBCs pursuant to the following amended equity allocation model:

- Proportion of the child population, remaining as 5 percent of the total;
- Proportion of child abuse hotline workload, weighted as 35 percent of the total rather than 15 percent; and
- Proportion of children in care, weighted as 60 percent of the total, rather than 80 percent. The
- proportion of children in care is calculated based on 55 percent weight for children in out-of-home care (instead of 60 percent), 30 percent weight for children in in-home care (instead of 40 percent), and 15 percent weight based on children in family support services which is a new category.

Lastly, the bill changes the distribution of new core services funding as follows:

- 70 percent is allocated among all CBCs;

- 30 percent is allocated to CBCs that are currently funded below their equitable share. Funds are weighted based on each CBC's proportion of total funding below their equitable share.

- **Section 15** amends s. 435.07, F.S., relating to exemptions from disqualification, to add drug offenses to the list of disqualifying offenses in Ch. 893, F.S., for child care personnel.

  Section 16 amends s. 1002.55, F.S., relating to school-year prekindergarten programs delivered by private providers, to conform references to changes made by the bill.

  Section 17 amends s. 1002.57, F.S., relating to prekindergarten director credentials, to conform references to changes made by the bill.

  Section 18 amends s. 1002.59, F.S., relating to emergent literacy and performance standards, to conform references to changes made by the bill.

  Section 19 directs the Division of Law Revision and Information to prepare a reviser's bill for the 2019 session of the Legislature to capitalize the first letter of each word of the term "child protection team" wherever it occurs in the Florida Statutes.

  Section 20 provides an effective date of July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

CS/CS/SB 1360 revises the equity allocation model used for distributing funds among the CBCs. The bill will have an indeterminate fiscal impact on the individual CBCs. In the event that new core services funding is made available for the CBCs, it is expected that some will receive more funding than they would have under the previous formula, while others would receive less. The equity allocation model only affects how new core

services funding will be distributed. As an example, if a new appropriation of $10 million was made for core services funding, the following chart shows the difference between the distribution under current law and under the bill. Conversely, if new core services funding was not appropriated, the distribution of core services funding to the CBCs would remain unchanged from the previous year.

CBC Funding Formula Changes with $10 million of New Core Services Funding

		A	B	C	C-B	A+C
			New Core Services Funding			
	Community Based Care Lead Agencies	Base Core Services Funding	Current Allocation Formula	Proposed Formula	Difference Increase/ (Decrease)	Total Core Services Funding as Proposed

	Percentage to All CBCs	20%	70%
	Percentage to Below Equity	80%	30%
	Total	100%	100%
	Child in Care (weighted):		
	In-Home	40%	30%
	Out-of-Home Care (*)	60%	55%
	Family Support Services	0%	15%
	Total	100%	100%

* Out-of-home care weighted formula is changing from the number of children in out-of-home care during the last 12-month period to the number of children who "enter" out-of-home care during the last 24-month period.

Collectively, CBC lead agencies were appropriated $878 million for the 2017-2018 fiscal year. Funds are provided for core services as well as for specific programs such as maintenance adoptions subsidies, independent living, and others. The amount of core

services funding for Fiscal Year 2017-2018 is included in the chart below, along with the projected expenditures for the year. Several CBCs are projected to have a funding deficit for the year. The change in the equity allocation model and its impact on the CBCs for Fiscal Year 2018-2019 may assist the CBCs if new core services funding were to be appropriated. At present, Senate Bill 2500, the Senate General Appropriations Bill, does not provide an increase for CBC core services funding.

CBC Funding and Projected Expenditures for Fiscal Year 2017-18:

	Lead Agency (CBC)	Core Services Funding, as Proposed	Carry Forward Balance at 7/1/2017	Total Available for Core Services	Projected Expenditures	Projected Surplus/ (Deficit)
1	Lakeview Center (Families First)	$ 34,748,921	$ (335,809)	$ 34,413,112	$ 34,354,262	$ 58,850

Source: FY 2017-18 budget projections provided by CBCs; Analysis by Department of Children and Families.

C. Government Sector Impact:

The bill authorizes the Walton County sheriff's office to assume responsibility for child protective investigations. The DCF currently conducts these investigations with 12 full-time equivalent (FTE) positions at a cost of $893,881 ($348,127 from the General Revenue Fund and $545,754 from various trust funds). By eliminating the FTE and the corresponding salary rate of 457,659, and transferring the recurring funding between appropriation categories, DCF has sufficient funding to pay the sheriff's office for the services.

The bill is not expected to have a fiscal impact on state government.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 39.01, 39.0138, 39.3065, 39.6012, 39.6013, 39.621, 39.701, 63.092, 402.305, 402.313, 402.3131, 409.175, 409.991, 435.07, 402.30501, 1002.55, 1002.57 and 1002.59.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on February 27, 2018:
The committee substitute:

- Amends the definition of the term “abuse” to include the birth of a new child into a family during the course of an open dependency case when the parent or caregiver has been determined to lack the protective capacity to safely care for the children in the home and has not substantially complied with the case plan towards successful reunification or met the conditions for return of the children into the home;
- Requires parents to provide accurate contact information to the department, update the information as necessary and contact the DCF or the CBC lead agency at least every 14 days;
- Authorizes the Walton County Sheriff to assume responsibility for child protective investigations beginning with the 2018-2019 fiscal year;
- Requires child care facilities, family day care homes and large family child care homes to provide parents of enrolled children information related to distracted adults leaving children in vehicles;
- Requires the "records check of the department's Central Abuse Registry" be provided directly to the entity conducting the home study to ensure the integrity of the results and protect the best interest of children being placed for adoption; and
- Allows licensed adoption agencies to use their professional judgement to determine the appropriate counseling and education, dependent upon the type of adoption and the child being adopted.

CS by Children, Families, and Elder Affairs on February 6, 2018:
The CS:

- Clarifies that a Level 1 background screening is required when an exemption is approved for placement of a child;

- Adds two federal Child Care and Development Block Grant Act requirements, not previously addressed in state law, to align background screening requirements for child care personnel. The changes allow the department to use out-of-state criminal history records results for the past five years, and require fingerprint submissions for child care personnel to comply with s. 435.12, F.S;
- Adds drug offenses to the list of disqualifying offenses in Ch. 893, F.S., for child care personnel; and
- Adjusts the formula for the allocation of funding for the community-based care lead agencies.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By the Committee on Children, Families, and Elder Affairs; and Senator Broxson

586-02910-18 20181360c1

A bill to be entitled

An act relating to child welfare; amending s. 39.0138, F.S.; requiring the Department of Children and Families to establish rules for granting exemptions from criminal history and certain other records checks required for persons being considered for placement of a child; requiring level 1 screening for persons granted such exemption; prohibiting placement of a child with persons convicted of a certain felony; amending s. 402.305, F.S.; revising minimum requirements for child care personnel related to screening and fingerprinting; amending s. 409.175, F.S.; defining the term "severe disability" and providing an exemption from fingerprint requirements for adult household members with severe disabilities; amending s. 409.991, F.S.; revising the equity allocation formula for community-based care lead agencies; amending s. 435.07, F.S.; revising the offenses that disqualify certain child care personnel from specified employment; amending ss. 402.30501, 1002.59, 1002.55, and 1002.57, F.S.; conforming cross-references; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsections (2) through (7) of section 39.0138, Florida Statutes, are redesignated as subsections (3) through (8), respectively, present subsections (2) and (3) are amended, and a new subsection (2) is added to that section, to read:

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

586-02910-18 20181360c1

39.0138 Criminal history and other records checks; limit on placement of a child.—

(2)(a) The department shall establish rules for granting an exemption from the fingerprinting requirements under subsection (1) for a household member who has a physical, developmental, or cognitive disability that prevents that person from safely submitting fingerprints.

(b) Before granting an exemption, the department or its designee shall assess and document the physical, developmental, or cognitive limitations that justified the exemption and the effect of such limitations on the safety and well-being of the child being placed in the home.

(c) If a fingerprint exemption is granted, a level 1 screening pursuant to s. 435.03 shall be completed on the person who is granted the exemption.

(3)~~(2)~~ The department may not place a child with a person other than a parent if the criminal history records check reveals that the person has been convicted of any felony that falls within any of the following categories:

(a) Child abuse, abandonment, or neglect;

(b) Domestic violence;

(c) Child pornography or other felony in which a child was a victim of the offense; or

(d) Homicide, sexual battery, or other felony involving violence, other than felony assault or felony battery when an adult was the victim of the assault or battery, or resisting arrest with violence.

(4)~~(3)~~ The department may not place a child with a person other than a parent if the criminal history records check

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

reveals that the person has, within the previous 5 years, been convicted of a felony that falls within any of the following categories:

(a) Assault;

(b) Battery; ~~or~~

(c) A drug-related offense; or

(d) Resisting arrest with violence.

Section 2. Paragraphs (b) through (f) of subsection (2) of section 402.305, Florida Statutes, are redesignated as paragraphs (c) through (g), respectively, paragraph (a) of that subsection is amended, and a new paragraph (b) is added to that subsection, to read:

402.305 Licensing standards; child care facilities.—

(2) PERSONNEL.—Minimum standards for child care personnel shall include minimum requirements as to:

(a) Good moral character based upon screening as defined in s. 402.302(15). This screening shall be conducted as provided in chapter 435, using the level 2 standards for screening set forth in that chapter, and shall include employment history checks, a search of criminal history records, sexual predator and sexual offender registries, and child abuse and neglect registry of any state in which the current or prospective child care personnel resided during the preceding 5 years.

(b) Fingerprint submission for child care personnel, which shall comply with s. 435.12.

Section 3. Paragraphs (l) and (m) of subsection (2) of section 409.175, Florida Statutes, are redesignated as paragraphs (m) and (n), respectively, a new paragraph (l) is added to that subsection, and paragraph (a) of subsection (6) of

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

that section is amended, to read:

409.175 Licensure of family foster homes, residential child-caring agencies, and child-placing agencies; public records exemption.—

(2) As used in this section, the term:

(l) "Severe disability" means a physical, developmental, or cognitive limitation affecting an individual's ability to safely submit fingerprints.

(6)(a) An application for a license shall be made on forms provided, and in the manner prescribed, by the department. The department shall make a determination as to the good moral character of the applicant based upon screening. The department may grant an exemption from fingerprinting requirements, pursuant to s. 39.0138, for an adult household member who has a severe disability.

Section 4. Paragraph (e) of subsection (1) and subsections (2) and (4) of section 409.991, Florida Statutes, are amended to read:

409.991 Allocation of funds for community-based care lead agencies.—

(1) As used in this section, the term:

(e) "Proportion of children in care" means the proportion of the number of children in care receiving in-home services over the most recent 12-month period, the number of children whose families are receiving family support services over the most recent 12-month period, and the number of children who have entered into ~~in~~ out-of-home care with a case management overlay during the most recent 24-month ~~12-month~~ period. This subcomponent shall be weighted as follows:

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

1. Fifteen percent shall be based on children whose families are receiving family support services.

2.~~1.~~ Fifty-five ~~Sixty~~ percent shall be based on children in out-of-home care.

3.~~2.~~ Thirty ~~Forty~~ percent shall be based on children in in-home care.

(2) The equity allocation of core services funds shall be calculated based on the following weights:

(a) Proportion of the child population shall be weighted as 5 percent of the total.~~;~~

(b) Proportion of child abuse hotline workload shall be weighted as 35 ~~15~~ percent of the total.~~; and~~

(c) Proportion of children in care shall be weighted as 60 ~~80~~ percent of the total.

(4) Unless otherwise specified in the General Appropriations Act, any new core services funds shall be allocated based on the equity allocation model as follows:

(a) Seventy ~~Twenty~~ percent of new funding shall be allocated among all community-based care lead agencies.

(b) Thirty ~~Eighty~~ percent of new funding shall be allocated among community-based care lead agencies that are funded below their equitable share. Funds allocated pursuant to this paragraph shall be weighted based on each community-based care lead agency's relative proportion of the total amount of funding below the equitable share.

Section 5. Subsection (4) of section 435.07, Florida Statutes, is amended to read:

435.07 Exemptions from disqualification.—Unless otherwise provided by law, the provisions of this section apply to

exemptions from disqualification for disqualifying offenses revealed pursuant to background screenings required under this chapter, regardless of whether those disqualifying offenses are listed in this chapter or other laws.

(4)(a) Disqualification from employment under this chapter may not be removed from, nor may an exemption be granted to, any personnel who is found guilty of, regardless of adjudication, or who has entered a plea of nolo contendere or guilty to, any felony covered by s. 435.03 or s. 435.04 solely by reason of any pardon, executive clemency, or restoration of civil rights.

(b) Disqualification from employment under this chapter may not be removed from, nor may an exemption be granted to, any person who is a:

1. Sexual predator as designated pursuant to s. 775.21;

2. Career offender pursuant to s. 775.261; or

3. Sexual offender pursuant to s. 943.0435, unless the requirement to register as a sexual offender has been removed pursuant to s. 943.04354.

(c) Disqualification from employment under this chapter may not be removed from, and an exemption may not be granted to, any current or prospective child care personnel, as defined in s. 402.302(3), and such a person is disqualified from employment as child care personnel, regardless of any previous exemptions from disqualification, if the person has been registered as a sex offender as described in 42 U.S.C. s. 9858f(c)(1)(C) or has been arrested for and is awaiting final disposition of, has been convicted or found guilty of, or entered a plea of guilty or nolo contendere to, regardless of adjudication, or has been adjudicated delinquent and the record has not been sealed or

expunged for, any offense prohibited under any of the following provisions of state law or a similar law of another jurisdiction:

1. A felony offense prohibited under any of the following statutes:

a. Chapter 741, relating to domestic violence.

b. Section 782.04, relating to murder.

c. Section 782.07, relating to manslaughter, aggravated manslaughter of an elderly person or disabled adult, aggravated manslaughter of a child, or aggravated manslaughter of an officer, a firefighter, an emergency medical technician, or a paramedic.

d. Section 784.021, relating to aggravated assault.

e. Section 784.045, relating to aggravated battery.

f. Section 787.01, relating to kidnapping.

g. Section 787.025, relating to luring or enticing a child.

h. Section 787.04(2), relating to leading, taking, enticing, or removing a minor beyond the state limits, or concealing the location of a minor, with criminal intent pending custody proceedings.

i. Section 787.04(3), relating to leading, taking, enticing, or removing a minor beyond the state limits, or concealing the location of a minor, with criminal intent pending dependency proceedings or proceedings concerning alleged abuse or neglect of a minor.

j. Section 794.011, relating to sexual battery.

k. Former s. 794.041, relating to sexual activity with or solicitation of a child by a person in familial or custodial authority.

l. Section 794.05, relating to unlawful sexual activity with certain minors.

m. Section 794.08, relating to female genital mutilation.

n. Section 806.01, relating to arson.

o. Section 826.04, relating to incest.

p. Section 827.03, relating to child abuse, aggravated child abuse, or neglect of a child.

q. Section 827.04, relating to contributing to the delinquency or dependency of a child.

r. Section 827.071, relating to sexual performance by a child.

s. Chapter 847, relating to child pornography.

t. Chapter 893, relating to drug abuse prevention and control.

u.~~t.~~ Section 985.701, relating to sexual misconduct in juvenile justice programs.

2. A misdemeanor offense prohibited under any of the following statutes:

a. Section 784.03, relating to battery, if the victim of the offense was a minor.

b. Section 787.025, relating to luring or enticing a child.

c. Chapter 847, relating to child pornography.

3. A criminal act committed in another state or under federal law which, if committed in this state, constitutes an offense prohibited under any statute listed in subparagraph 1. or subparagraph 2.

Section 6. Section 402.30501, Florida Statutes, is amended to read:

402.30501 Modification of introductory child care course

for community college credit authorized.—The Department of Children and Families may modify the 40-clock-hour introductory course in child care under s. 402.305 or s. 402.3131 to meet the requirements of articulating the course to community college credit. Any modification must continue to provide that the course satisfies the requirements of s. 402.305(2)(e) ~~s. 402.305(2)(d)~~.

Section 7. Subsection (1) of section 1002.59, Florida Statutes, is amended to read:

1002.59 Emergent literacy and performance standards training courses.—

(1) The office shall adopt minimum standards for one or more training courses in emergent literacy for prekindergarten instructors. Each course must comprise 5 clock hours and provide instruction in strategies and techniques to address the age-appropriate progress of prekindergarten students in developing emergent literacy skills, including oral communication, knowledge of print and letters, phonemic and phonological awareness, and vocabulary and comprehension development. Each course must also provide resources containing strategies that allow students with disabilities and other special needs to derive maximum benefit from the Voluntary Prekindergarten Education Program. Successful completion of an emergent literacy training course approved under this section satisfies requirements for approved training in early literacy and language development under ss. 402.305(2)(e)5. ~~402.305(2)(d)5.~~, 402.313(6), and 402.3131(5).

Section 8. Paragraph (g) of subsection (3) of section 1002.55, Florida Statutes, is amended to read:

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

1002.55 School-year prekindergarten program delivered by private prekindergarten providers.—

(3) To be eligible to deliver the prekindergarten program, a private prekindergarten provider must meet each of the following requirements:

(g) The private prekindergarten provider must have a prekindergarten director who has a prekindergarten director credential that is approved by the office as meeting or exceeding the minimum standards adopted under s. 1002.57. Successful completion of a child care facility director credential under s. 402.305(2)(g) ~~s. 402.305(2)(f)~~ before the establishment of the prekindergarten director credential under s. 1002.57 or July 1, 2006, whichever occurs later, satisfies the requirement for a prekindergarten director credential under this paragraph.

Section 9. Subsections (3) and (4) of section 1002.57, Florida Statutes, are amended to read:

1002.57 Prekindergarten director credential.—

(3) The prekindergarten director credential must meet or exceed the requirements of the Department of Children and Families for the child care facility director credential under s. 402.305(2)(g) ~~s. 402.305(2)(f)~~, and successful completion of the prekindergarten director credential satisfies these requirements for the child care facility director credential.

(4) The department shall, to the maximum extent practicable, award credit to a person who successfully completes the child care facility director credential under s. 402.305(2)(g) ~~s. 402.305(2)(f)~~ for those requirements of the prekindergarten director credential which are duplicative of

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

requirements for the child care facility director credential.

Section 10. This act shall take effect July 1, 2018.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 1392
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Criminal and Civil Justice); Criminal Justice Committee; and Senators Brandes and Perry
SUBJECT:	Prearrest Diversion Programs
DATE:	February 27, 2018 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Storch	Jones	CJ	**Fav/CS**
2.	Harkness	Sadberry	ACJ	**Recommend: Favorable**
3.	Harkness	Hansen	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1392 requires the state attorney, the public defender, the clerk of the circuit court, and law enforcement agencies to establish a prearrest diversion program for adults and a civil citation or similar prearrest diversion program for juveniles in each judicial circuit.

Each judicial circuit's prearrest and civil citation or similar prearrest diversion program must specify:

- The misdemeanor offenses that qualify an offender for participation in the program;
- The eligibility criteria for the program;
- The program's implementation and operation;
- The program's requirements, including, but not limited to:
  - The completion of community service hours;
  - Payment of restitution, if applicable; and
  - Intervention services indicated by a needs assessment of the offender; and
- A program fee, if any, to be paid by a participant of the program.

The bill requires the Florida Department of Law Enforcement (FDLE) to adopt rules to provide for the expunction of a nonjudicial record of the arrest of a juvenile who has successfully completed a diversion program for a misdemeanor offense.

The bill requires the civil citation or similar prearrest diversion programs to submit certain information to the FDLE and the Department of Juvenile Justice (DJJ) regarding a juvenile's participation in the program. The bill also requires each law enforcement agency to submit to the DJJ certain information relating to each juvenile who is eligible for the diversion program but is instead referred to the DJJ, provided a notice to appear, or is arrested.

The bill requires the DJJ to compile such data relating to juvenile civil citation or similar prearrest diversion programs and publish it on the DJJ's website.

The bill's expunction and data collection provisions may have an impact on state expenditures. The creation of a prearrest diversion program could result in cost savings for local governments. See Section V. Fiscal Impact Statement.

The bill is effective October 1, 2018.

II. Present Situation:

The civil citation process is designed to provide an alternative to formal judicial handling for first time misdemeanant offenses.[1] The term "diversion" has been used broadly through the years to refer to programs that permit an individual to avoid incarceration, but still result in a criminal conviction. In recent years, the term diversion has also begun to refer to programs that address an individual's behavior but do not result in a conviction. An example of diversion is prearrest diversion.[2] One form of prearrest diversion is a civil citation program where a law enforcement officer has discretion to issue a civil citation to an individual who commits an eligible misdemeanor offense, meets other eligibility requirements, and agrees to participate in a diversion program. If the individual successfully completes the program, he or she does not have an arrest record.[3]

Adult prearrest diversion programs and juvenile civil citation programs are handled differently in Florida. Juvenile civil citation programs are encouraged by Florida law[4] and are in operation throughout the state. Florida law does not specifically address adult civil citation programs or other prearrest diversion programs for adults. However, sheriffs and counties across the state have implemented their own prearrest diversion programs for adults.

Adult Prearrest Diversion Programs

Leon County has established an adult civil citation program for first-time misdemeanants. Citations are issued by law enforcement based on the officer's discretion, the qualifying offense, and the individual's eligibility. The chief judge, state attorney, and public defender for the

Second Judicial Circuit cooperate in the program, along with the Leon County Commission and Sheriff's Office, and the City of Tallahassee Commission and Police Department.[5]

Pinellas County Sheriff's Office has also established a prearrest diversion program for adults. The Adult Pre-Arrest Diversion Program (APAD) is designed to help adults who commit low-level crimes avoid a criminal record. Rather than going to jail, the adults are required to complete community service, along with counseling or drug treatment.[6] The program was created as a way to prevent adults from getting a criminal record, while simultaneously lessening the burden on the Pinellas County court system. Since the APAD's launch in October 2016, there have been 1,851 adults who have participated in the program, resulting in the completion of nearly 25,000 community service hours and more than $17,000 paid in restitution.[7]

Juvenile Civil Citation

Section 985.12, F.S., encourages local entities to establish juvenile civil citation programs that provide law enforcement an alternative to arresting juveniles for nonserious delinquent acts. The DJJ is required to assist in the implementation of civil citation or other similar diversion programs. The DJJ must also develop guidelines for these programs that include intervention services based upon proven civil citation or similar diversion programs within the state.[8]

The civil citation process is designed to divert juveniles prior to arrest and prevent the juvenile's further involvement in the juvenile justice system.[9] A civil citation or similar diversion program has been implemented in 61 counties in Florida, with Taylor County in the process of implementation.[10] The following counties have not established a civil citation program: Bradford, Calhoun, Gulf, Hardee, and Washington.[11]

If established at the local level, the program must be created with the concurrence of the chief judge of the circuit, state attorney, public defender, and the head of each local law enforcement agency. The program may be operated by a law enforcement agency, the DJJ, a juvenile assessment center, the county or municipality, or another entity selected by the county or municipality.[12]

[11] *Id.*
[12] Section 985.12(1), F.S.

Currently, a law enforcement officer who makes contact with a juvenile who admits to having committed a misdemeanor[13] has the discretion to:

- Issue a warning or inform the juvenile's parent or guardian of the child's infraction;
- Issue a civil citation or require participation in a similar diversion program; or
- Arrest the juvenile.[14]

A copy of each civil citation issued is provided to the DJJ, the county sheriff, state attorney, the appropriate intake office of the DJJ, or the community service performance monitor designated by the DJJ, the parent or guardian of the child, and the victim.[15]

From December 2016 to November 2017, there were 18,101 juveniles eligible to receive a civil citation. Of those eligible, 10,335 juveniles were issued a civil citation and the remaining 7,766 were arrested.[16]

A law enforcement officer can issue a civil citation to any juvenile who admits to committing a first-time, second-time, or third-time misdemeanor.[17] The officer must advise the juvenile of the option to refuse the civil citation and instead be referred to the DJJ. The juvenile may exercise that option at any time prior to completion of the program.[18] An officer who issues a civil citation or requires participation in a similar diversion program may also assess up to 50 hours of community service and require participation in intervention services.[19]

The juvenile must report to the community service performance monitor within seven business days after being issued the civil citation and complete at least five hours of work per week. The monitor must inform the DJJ intake office when the juvenile has reported to them and the expected date that the work assignment will be completed.[20]

The issuance of a civil citation is not considered a referral to the DJJ. However, the law enforcement officer must issue a report alleging the juvenile has committed a delinquent act, resulting in the juvenile probation officer processing the act as a referral to the DJJ, if:

- The child fails to report on time for a work assignment or fails to complete a work assignment;
- The child fails to comply with assigned intervention services within the prescribed time; or
- The child commits a subsequent misdemeanor.[21]

Expunction of Juvenile Criminal History Record

Expunction is the physical destruction or obliteration of a record or portion of a record by any criminal justice agency having custody thereof, or as prescribed by the court issuing the order.[22] Section 943.0582(1), F.S., authorizes the FDLE to adopt rules to provide for the expunction of a nonjudicial arrest record of a juvenile who has successfully completed a prearrest or postarrest diversion program.[23]

The FDLE must expunge the nonjudicial arrest record of a juvenile who has successfully completed a prearrest or postarrest diversion program if that juvenile:

- Submits an application for prearrest or postarrest diversion expunction, on a form prescribed by the FDLE, signed by the juvenile's parent or legal guardian, or by the juvenile if he or she has reached the age of majority at the time of applying;
- Submits to the FDLE, with the application, an official written statement from the state attorney for the county in which the arrest occurred certifying that:
  - He or she has successfully completed that county's prearrest or postarrest diversion program;
  - His or her participation in the program was based on an arrest for a nonviolent misdemeanor; and
  - He or she has not otherwise been charged by the state attorney with, or found to have committed, any criminal offense or comparable ordinance violation.
- Participated in a prearrest or postarrest diversion program that expressly authorizes or permits such expunction;
- Participated in a prearrest or postarrest diversion program based on an arrest for a nonviolent misdemeanor that would not qualify as an act of domestic violence;[24] and
- Has never been, before filing the application for expunction, charged by the state attorney with, or found to have committed, any criminal offense or comparable ordinance violation.[25]

The FDLE is authorized to charge a $75 processing fee for each request received for prearrest or postarrest diversion program expunction. The fee may be waived by the executive director.[26]

Generally, a person who has his or her nonjudicial arrest record expunged by the FDLE may lawfully deny or fail to acknowledge the arrest and the charge covered by the expunged record.[27] However, the expunged nonjudicial arrest record will be made available to criminal justice agencies for the following purposes:

- Determining eligibility for prearrest, postarrest, or teen court diversion programs;
- When the record is sought as part of a criminal investigation; or

[22] Section 943.045(16), F.S.
[23] Section 943.0582(1), F.S.
[24] Section 741.287, F.S., defines domestic violence to mean any assault, aggravated assault, battery, aggravated battery, sexual assault, sexual battery, stalking, aggravated stalking, kidnapping, false imprisonment, or any criminal offense resulting in physical injury or death of one family or household member by another family or household member.
[25] Section 943.0582(3)(a)-(e), F.S.
[26] Section 943.0582(4), F.S.
[27] *Id.*

- When the subject of the record is a candidate for employment with a criminal justice agency.[28]

The nonjudicial arrest record eligible for expunction by the FDLE is not expunged by the local criminal justice agencies in the county in which the arrest occurred.[29] Section 943.0582(2)(a)2., F.S., requires that the records maintained by these local criminal justice agencies be sealed.[30]

Expunction or sealing granted pursuant to s. 943.0582, F.S., does not prevent a juvenile from petitioning for the expunction or sealing of a later criminal history record as provided for in other provisions of Florida law, if the juvenile is otherwise eligible.[31]

III. Effect of Proposed Changes:

Prearrest Diversion Programs (Adults and Juveniles)

The Legislature finds that the creation and implementation of a prearrest diversion program for adults and a civil citation or similar diversion program for juveniles (collectively referred to as prearrest diversion programs) at the judicial circuit level promotes public safety, aids interagency cooperation, and provides the greatest chance of success for prearrest diversion programs. Further, the Legislature finds that the widespread use of prearrest diversion programs has a positive effect on the criminal justice system and contributes to an overall reduction in the crime rate and recidivism in the state. The Legislature encourages counties, municipalities, and public or private educational institutions to participate in the prearrest diversion programs created by their judicial circuits.

The bill requires the establishment of two prearrest diversion programs in each judicial circuit in the state, one for adults and one for juveniles. The bill requires the programs to be created with the collaboration of the public defender, the state attorney, the clerk of the court for each county in the circuit, and representatives of participating law enforcement agencies in the circuit. The bill requires the DJJ to develop and provide guidelines for best practice models for civil citation or similar prearrest diversion programs to the judicial circuits to use as a resource in developing and refining the circuit-wide programs.

The bill provides that each judicial circuit's prearrest diversion program must specify:
- The misdemeanor offenses that qualify an adult or juvenile for participation in the program;
- The eligibility criteria for the program;
- The program's implementation and operation;
- The program's requirements, including, but not limited to:
  - The completion of community service hours;
  - Payment of restitution, if applicable; and
  - Intervention services indicated by a needs assessment of the adult or juvenile; and

[28] Section 943.0582(2)(a)1., F.S.
[29] Section 943.0582(2)(a)2., F.S.
[30] Sealing of a record means the preservation of a record under such circumstances that it is secure and inaccessible to any person not having a legal right of access to the record of the information contained and preserved therein. *See* s. 943.054(19), F.S.
[31] Section 943.0582(5), F.S. *See* ss. 943.0583, 943.0585, and 943.059, F.S.

- A program fee, if any, to be paid by an adult or juvenile participating in the program.[32]

The bill requires the state attorney of each circuit to operate both prearrest diversion programs. A sheriff, police department, county, municipality, or public or private educational institution may continue to operate an independent prearrest diversion program if it is in operation as of October 1, 2018, and is determined by the state attorney of that circuit to be substantially similar to the prearrest diversion program developed by the circuit. If the independent program is not substantially similar to the program developed by the circuit, the operator of the independent program may revise the program and the state attorney may conduct an additional review of the independent program.

The bill provides that a judicial circuit may look to model the circuit's programs after an existing sheriff, police department, county, municipality or public or private educational institution's prearrest diversion program.

The bill provides that if an adult or juvenile does not successfully complete the prearrest diversion program, the arresting law enforcement officer must determine if there is good cause to arrest the adult or juvenile for the original misdemeanor offense and refer the case to the state attorney to determine if prosecution is appropriate or rather, allow the adult or juvenile to continue in the prearrest diversion program.

The bill handles an adult participant's personal identifying information differently than that of a juvenile participant. Upon intake of an adult participating in the program, the state attorney or the person operating the independent program must electronically provide the adult's personal identifying information to the clerk of the court for the county in which the adult is participating in the program. This personal identifying information is not considered a court record and the confidentiality of the information must be maintained. The bill requires the clerk of the court to maintain this information in the Comprehensive Case Information System, which provides a single point of access for all such statewide information.

Whereas, when a juvenile participates in a prearrest diversion program, the DJJ receives a copy of the civil citation or similar diversion program notice and enters the appropriate information into the juvenile offender information system. The notice of a juvenile's civil citation or similar diversion program is also sent to the juvenile's parent or guardian and the victim. At the conclusion of a juvenile's participation in a civil citation or similar diversion program, the state attorney operating the program must report the outcome to the DJJ.

Expunction of Juvenile Criminal History Record

The bill amends s. 943.0582, F.S., to require the FDLE to adopt rules to provide for the expunction of a nonjudicial record of the arrest of a juvenile who has successfully completed a diversion program for a misdemeanor offense. The bill specifies that an expunction under this section is limited to misdemeanor offenses.

[32] If the program imposes a fee, the clerk of the court of the applicable county must receive a reasonable portion of the fee.

The bill defines "diversion program" as a program under s. 985.12, F.S. (civil citation), s. 985.125, F.S. (prearrest or postarrest diversion programs), s. 985.155, F.S. (neighborhood restorative justice), or s. 985.16, F.S. (community arbitration), or a program to which a referral is made by a state attorney under s. 985.15(1)(g), F.S.

The bill requires the FDLE to expunge the nonjudicial arrest record of a juvenile if the juvenile has never previously received an expunction under s. 943.0582, F.S. The bill also requires the diversion program to submit a certification for expunction to the FDLE as a prerequisite to expunging the juvenile's nonjudicial arrest record under this section.

The bill removes the requirements for the juvenile to submit an application and official written statement from the state attorney to the FDLE prior to obtaining an expunction of his or her nonjudicial arrest record. The bill also removes the authority granted to the FDLE to charge a $75 processing fee for seeking an expunction under this section.

The bill maintains that "expunction" has the same meaning and effect as in s. 943.0585, F.S., providing that a person who has his or her nonjudicial arrest record expunged may lawfully deny or fail to acknowledge the arrest and the charge covered by the expunged record. However, the bill limits the purposes in which an expunged nonjudicial arrest record will be made available to criminal justice agencies to the following:

- Determining eligibility for diversion programs;
- A criminal investigation; or
- Making a prosecutorial decision under s. 985.15, F.S.

Thus, the bill provides that the nonjudicial arrest record of a person whose record is expunged under this section will no longer be made available when the subject of the record is a candidate for employment with a criminal justice agency.

Diversion Program Data Collection

The bill provides that the term "diversion program" has the same meaning as provided in s. 943.0582, F.S.[33]

The bill requires each diversion program to submit the following:

- A certification for expunction to the FDLE of the juvenile's nonjudicial arrest record under s. 943.0582, F.S., if the juvenile:
  - Successfully completes the diversion program for a first-time misdemeanor offense; and
  - Has not otherwise been charged by the state attorney with, or been found to have committed, a criminal offense or comparable ordinance violation.
- Data to the DJJ in a form prescribed by the DJJ which identifies the following for each juvenile who participates in the diversion program:
  - The race, ethnicity, gender, and age of the juvenile;
  - The offense committed, with citation to the specific law establishing the offense; and

[33] The bill defines "diversion program" as a program under s. 985.12, F.S. (civil citation), s. 985.125, F.S. (prearrest or postarrest diversion programs), s. 985.155, F.S. (neighborhood restorative justice), or s. 985.16, F.S. (community arbitration), or a program to which a referral is made by a state attorney under s. 985.15(1)(g), F.S.

- The judicial circuit and county in which the offense was committed and the law enforcement agency that had contact with the juvenile for the offense.[34]

Additionally, each law enforcement agency must submit the following data to the DJJ for each juvenile who is eligible for the diversion program, but who is instead referred to the DJJ, provided a notice to appear, or arrested:

- Whether the juvenile was offered the opportunity to participate in the diversion program. If the juvenile was:
  - Not offered such opportunity, the reason such offer was not made.
  - Offered such opportunity, whether juvenile or his or her parent or legal guardian declined to participate in the diversion program.

The DJJ must compile the data listed above and publish it on the DJJ's website in a format that is, at a minimum, sortable by:

- Judicial circuit;
- County;
- Law enforcement agency;
- Race or ethnicity;
- Gender;
- Age; and
- Offense committed.

The bill takes effect October 1, 2018.

IV. Constitutional Issues:

A. Tax/Fee Issues:

None.

[34] Each law enforcement agency is also required to collect and submit this data to the DJJ for each juvenile who was eligible for a diversion program, but was instead referred to the DJJ, provided a notice to appear, or arrested.

B. Private Sector Impact:

Adults and juveniles who wish to participate in a prearrest diversion program may have to pay a fee, depending on the guidelines established by each individual judicial circuit. The participant may also have to pay restitution as part of the prearrest diversion program, depending on what is indicated by the assessment of the adult or juvenile.

C. Government Sector Impact:

The bill provides that if there is a fee imposed, a reasonable portion of the fee must be given to the clerk of the court of the applicable county. The amount of fee revenue the clerks will collect from this provision is indeterminate.

The Florida Department of Law Enforcement will experience an increase in workload related to the implementation of the expunction processing. The magnitude of the costs associated with this additional workload, along with costs for computer programming, are indeterminate. The department will also experience a reduction in revenue associated with the removal of its authority to charge a $75 processing fee for those seeking a prearrest or postarrest diversion program expunction. The magnitude of the revenue loss is indeterminate.

In addition, the Department of Juvenile Justice will experience an increase in workload relating to data collection and website publishing requirements. The costs associated with this workload is indeterminate.

Creation of a prearrest diversion program for adults may result in cost savings for local government (reduced booking/arrest-processing costs), depending on the number of eligible offenses, other eligibility criteria chosen, the pool of eligible adults, the number of participating law enforcement agencies, the use of the prearrest diversion program, and any impact the program may have in reducing arrests.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 943.0582, 985.12, and 985.125.

This bill creates the following sections of the Florida Statutes: 901.40 and 985.126.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on February 27, 2018:
The committee substitute clarifies that juvenile diversion programs are prearrest programs.

CS by Criminal Justice on January 22, 2018:
The Committee Substitute:

- Requires the DJJ to develop and provide guidelines for best practice models for civil citation or similar diversion programs to the judicial circuits as a resource;
- Clarifies that the state attorney will be required to operate the prearrest diversion programs for the circuit;
- Clarifies that an independent prearrest diversion program may continue to operate in addition to the circuit-wide program;
- Specifies that the clerk of the court will store an adult's personal identifying information in the Comprehensive Case Information System; and
- Requires each law enforcement agency to submit certain information to the DJJ relating to a juvenile who is eligible to participate in a civil citation or similar diversion program, but was instead referred to the DJJ, provided a notice to appear, or arrested.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

and insert:

Section 3. Section 985.12, Florida Statutes, is amended to read:

985.12 Civil citation or similar prearrest diversion programs.—

(1) LEGISLATIVE FINDINGS AND INTENT.—The Legislature finds that the creation and implementation of civil citation or

similar prearrest diversion programs at the judicial circuit level promotes public safety, aids interagency cooperation, and provides the greatest chance of success for civil citation and similar prearrest diversion programs. The Legislature further finds that the widespread use of civil citation and similar prearrest diversion programs has a positive effect on the criminal justice system and contributes to an overall reduction in the crime rate and recidivism in the state. The Legislature encourages but does not mandate that counties, municipalities, and public or private educational institutions participate in a civil citation or similar prearrest diversion program created by their judicial circuit under this section. ~~There is established a juvenile civil citation process for the purpose of providing an efficient and innovative alternative to custody by the Department of Juvenile Justice for children who commit nonserious delinquent acts and to ensure swift and appropriate consequences. The department shall encourage and assist in the implementation and improvement of civil citation programs or other similar diversion programs around the state.~~

(2) JUDICIAL CIRCUIT CIVIL CITATION OR SIMILAR PREARREST DIVERSION PROGRAM DEVELOPMENT, IMPLEMENTATION AND OPERATION.—

(a) A ~~The~~ civil citation or similar prearrest diversion program shall be established in each judicial circuit in the state. The ~~at the local level with the concurrence of the chief judge of the circuit,~~ state attorney and~~,~~ public defender of each circuit, the clerk of the court for each county in the circuit, and representatives of participating law enforcement agencies in the circuit shall create a civil citation or similar prearrest diversion program and develop its policies and

procedures. In developing the program's policies and procedures, input from other interested stakeholders may be solicited. The department shall annually develop and provide guidelines on best practice models for civil citation or similar prearrest diversion programs to the judicial circuits as a resource.

(b) Each judicial circuit's civil citation or similar prearrest diversion program must specify:

1. The misdemeanor offenses that qualify a juvenile for participation in the program;

2. The eligibility criteria for the program;

3. The program's implementation and operation;

4. The program's requirements, including, but not limited to, the completion of community service hours, payment of restitution, if applicable, and intervention services indicated by a needs assessment of the juvenile, approved by the department, such as family counseling, urinalysis monitoring, and substance abuse and mental health treatment services; and

5. A program fee, if any, to be paid by a juvenile participating in the program. If the program imposes a fee, the clerk of the court of the applicable county must receive a reasonable portion of the fee.

(c) The state attorney of each circuit shall operate a civil citation or similar prearrest diversion program in each circuit. A sheriff, police department, county, municipality, or public or private educational institution may continue to operate an independent civil citation or similar prearrest diversion program that is in operation as of October 1, 2018, if the independent program is reviewed by the state attorney of the applicable circuit and he or she determines that the independent

program is substantially similar to the civil citation or similar prearrest diversion program developed by the circuit. If the state attorney determines that the independent program is not substantially similar to the civil citation or similar prearrest diversion program developed by the circuit, the operator of the independent diversion program may revise the program and the state attorney may conduct an additional review of the independent program.

(d) A judicial circuit may model an existing sheriff, police department, county, municipality, or public or private educational institution's independent civil citation or similar prearrest diversion program in developing the civil citation or similar prearrest diversion program for the circuit.

(e) If a juvenile does not successfully complete the civil citation or similar prearrest diversion program, the arresting law enforcement officer shall determine if there is good cause to arrest the juvenile for the original misdemeanor offense and refer the case to the state attorney to determine if prosecution is appropriate or allow the juvenile to continue in the program ~~and the head of each local law enforcement agency involved~~. ~~The program may be operated by an entity such as a law enforcement agency, the department, a juvenile assessment center, the county or municipality, or another entity selected by the county or municipality. An entity operating the civil citation or similar diversion program must do so in consultation and agreement with the state attorney and local law enforcement agencies. Under such a juvenile civil citation or similar diversion program, a law enforcement officer, upon making contact with a juvenile who admits having committed a misdemeanor, may choose to issue a~~

~~simple warning or inform the child's guardian or parent of the child's infraction, or may issue a civil citation or require participation in a similar diversion program, and assess up to 50 community service hours, and require participation in intervention services as indicated by an assessment of the needs of the juvenile, including family counseling, urinalysis monitoring, and substance abuse and mental health treatment services.~~

(f) A copy of each civil citation or similar prearrest diversion program notice issued under this section shall be provided to the department, and the department shall enter appropriate information into the juvenile offender information system. ~~Use of the civil citation or similar diversion program is not limited to first-time misdemeanors and may be used in up to two subsequent misdemeanors. If an arrest is made, a law enforcement officer must provide written documentation as to why an arrest was warranted.~~

(g) At the conclusion of a juvenile's civil citation ~~program~~ or similar prearrest diversion program, the state attorney or operator of the independent program ~~agency operating the program~~ shall report the outcome to the department. The issuance of a civil citation or similar prearrest diversion program notice is not considered a referral to the department.

~~(2) The department shall develop guidelines for the civil citation program which include intervention services that are based upon proven civil citation or similar diversion programs within the state.~~

(h) ~~(3)~~ Upon issuing ~~such~~ a civil citation or similar prearrest diversion program notice, the law enforcement officer

shall send a copy of ~~to~~ the civil citation or similar prearrest diversion program notice to ~~county sheriff, state attorney, the appropriate intake office of the department, or the community service performance monitor designated by the department,~~ the parent or guardian of the child~~,~~ and to the victim.

~~(4) The child shall report to the community service performance monitor within 7 working days after the date of issuance of the citation. The work assignment shall be accomplished at a rate of not less than 5 hours per week. The monitor shall advise the intake office immediately upon reporting by the child to the monitor, that the child has in fact reported and the expected date upon which completion of the work assignment will be accomplished.~~

~~(5) If the child fails to report timely for a work assignment, complete a work assignment, or comply with assigned intervention services within the prescribed time, or if the juvenile commits a subsequent misdemeanor, the law enforcement officer shall issue a report alleging the child has committed a delinquent act, at which point a juvenile probation officer shall process the original delinquent act as a referral to the department and refer the report to the state attorney for review.~~

~~(6) At the time of issuance of the citation by the law enforcement officer, such officer shall advise the child that the child has the option to refuse the citation and to be referred to the intake office of the department. That option may be exercised at any time before completion of the work assignment.~~

A bill to be entitled

An act relating to prearrest diversion programs; creating s. 901.40, F.S.; providing legislative findings and intent; encouraging counties, municipalities, and public or private educational institutions to implement prearrest diversion programs; requiring that in each judicial circuit the public defender, the state attorney, the clerks of the court, and representatives of participating law enforcement agencies create a prearrest diversion program and develop its policies and procedures; authorizing such entities to solicit stakeholders for input in developing the program's policies and procedures; providing requirements for the prearrest diversion program; requiring the state attorney of each circuit to operate the prearrest diversion program; providing an exception; providing construction; requiring the arresting law enforcement officer to make a determination if an adult does not successfully complete the prearrest diversion program; requiring the state attorney or the person operating an independent prearrest diversion program to electronically provide certain information to the clerk of the court; requiring the clerk of the court to maintain the confidentiality of such information; requiring the clerk of the court to maintain that information in a statewide database; amending s. 943.0582, F.S.; requiring, rather than authorizing, the Department of Law Enforcement to adopt rules for

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

591-02326-18 20181392c1

the expunction of certain nonjudicial records of the arrest of a minor upon his or her successful completion of a certain diversion program; authorizing such expunctions for certain first-time misdemeanor offenses; defining and revising terms; revising the circumstances under which the department must expunge certain nonjudicial arrest records; deleting the department's authority to charge a processing fee for the expunction; amending s. 985.12, F.S.; providing legislative findings and intent; deleting provisions establishing a juvenile civil citation process with a certain purpose; establishing a civil citation or similar diversion program in each judicial circuit, rather than at the local level with the concurrence of specified persons; requiring that the state attorney and public defender of each circuit, the clerk of the court for each county in the circuit, and representatives of participating law enforcement agencies create a civil citation or similar diversion program and develop its policies and procedures; authorizing such entities to solicit stakeholders for input in developing the program's policies and procedures; requiring the Department of Juvenile Justice to annually develop and provide guidelines on civil citation or similar diversion programs to the judicial circuits; providing requirements for the civil citation or similar diversion program; requiring the state attorney of each judicial circuit to operate the civil citation or similar diversion program;

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

providing an exception; providing construction; requiring the arresting law enforcement officer to make a determination if a juvenile does not successfully complete the civil citation or similar diversion program; deleting provisions relating to the operation of and requirements for a civil citation or similar diversion program; requiring that a copy of each civil citation or similar diversion program notice be provided to the Department of Juvenile Justice; conforming provisions to changes made by the act; deleting provisions relating to requirements for a civil citation or similar diversion program; amending s. 985.125, F.S.; conforming a provision to changes made by the act; creating s. 985.126, F.S.; defining the term "diversion program"; requiring a diversion program to submit to the Department of Law Enforcement a certification for expunction of the nonjudicial arrest record of a juvenile under specified circumstances; requiring a diversion program to submit to the Department of Juvenile Justice specified data relating to diversion programs; requiring each law enforcement agency to submit to the Department of Juvenile Justice specified data about juveniles eligible to participate in diversion programs; requiring the Department of Juvenile Justice to compile and publish the data in a specified manner; authorizing a juvenile under certain circumstances to deny or fail to acknowledge his or her participation in a diversion program or the expunction of a certain

nonjudicial arrest record unless an exception applies; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 901.40, Florida Statutes, is created to read:

901.40 Prearrest diversion programs.—

(1) LEGISLATIVE FINDINGS AND INTENT.—The Legislature finds that the creation and implementation of prearrest diversion programs at the judicial circuit level promotes public safety, aids interagency cooperation, and provides the greatest chance of success for prearrest diversion programs. The Legislature further finds that the widespread use of prearrest diversion programs has a positive effect on the criminal justice system and contributes to an overall reduction in the crime rate and recidivism in the state. The Legislature encourages but does not mandate that counties, municipalities, and public or private educational institutions participate in a prearrest diversion program created by their judicial circuit under this section.

(2) JUDICIAL CIRCUIT PREARREST DIVERSION PROGRAM DEVELOPMENT, IMPLEMENTATION, OPERATION.—

(a) In each judicial circuit in the state, the public defender, the state attorney, the clerk of the court for each county in the circuit, and representatives of participating law enforcement agencies in the circuit shall create a prearrest diversion program and develop its policies and procedures. In developing the program's policies and procedures, input from other interested stakeholders may be solicited.

(b) Each judicial circuit's prearrest diversion program must specify:

1. The misdemeanor offenses that qualify an adult for participation in the program;

2. The eligibility criteria for the program;

3. The program's implementation and operation;

4. The program's requirements, including, but not limited to, the completion of community service hours, payment of restitution, if applicable, and intervention services indicated by a needs assessment of the adult, such as urinalysis monitoring and substance abuse and mental health treatment services; and

5. A program fee, if any, to be paid by an adult participating in the program. If the program imposes a fee, the clerk of the court of the applicable county must receive a reasonable portion of the fee.

(c) The state attorney of each circuit shall operate a prearrest diversion program in each circuit. A sheriff, police department, county, municipality, or public or private educational institution may continue to operate an independent prearrest diversion program that is in operation as of October 1, 2018, if the independent program is reviewed by the state attorney of the applicable circuit and he or she determines that the independent program is substantially similar to the prearrest diversion program developed by the circuit. If the state attorney determines that the independent program is not substantially similar to the prearrest diversion program developed by the circuit, the operator of the independent diversion program may revise the program and the state attorney

may conduct an additional review of the independent program.

(d) A judicial circuit may model an existing sheriff, police department, county, municipality, or public or private educational institution's independent prearrest diversion program in developing the prearrest diversion program for the circuit.

(e) If an adult does not successfully complete the prearrest diversion program, the arresting law enforcement officer shall determine if there is good cause to arrest the adult for the original misdemeanor offense and refer the case to the state attorney to determine if prosecution is appropriate or allow the adult to continue in the program.

(f) Upon intake of an adult participating in the prearrest diversion program, the state attorney or the person operating the independent prearrest diversion program shall electronically provide the adult's personal identifying information to the clerk of the court for the county in which the adult is participating in the prearrest diversion program. Such information is not a court record, and the clerk of the court shall maintain the confidentiality of the adult's personal identifying information as provided in subsection (3). The clerk of the court shall maintain such information as a separate component of the Comprehensive Case Information System created and operated pursuant to s. 28.24, which must provide a single point of access for all such statewide information.

Section 2. Section 943.0582, Florida Statutes, is amended to read:

943.0582 Prearrest, postarrest, or teen court diversion program expunction.—

(1) Notwithstanding any law dealing generally with the preservation and destruction of public records, the department shall adopt rules to ~~may~~ provide~~, by rule adopted pursuant to chapter 120,~~ for the expunction of a ~~any~~ nonjudicial record of the arrest of a minor who has successfully completed a ~~prearrest or postarrest~~ diversion program for a misdemeanor offense ~~minors as authorized by s. 985.125~~.

(2)~~(a)~~ As used in this section, the term:

(a) "Diversion program" means a program under s. 985.12, s. 985.125, s. 985.155, or s. 985.16 or a program to which a referral is made by a state attorney under s. 985.15(1)(g).

(b) "Expunction" has the same meaning ascribed in and has the same effect as in s. 943.0585, except that:

1. Section ~~The provisions of s.~~ 943.0585(4)(a) does ~~do~~ not apply, except that the criminal history record of a person whose record is expunged pursuant to this section shall be made available only to criminal justice agencies for the purpose of:

a. Determining eligibility for ~~prearrest, postarrest, or teen court~~ diversion programs;

b. ~~when the record is sought as part of~~ A criminal investigation; or

c. Making a prosecutorial decision under s. 985.15~~; or when the subject of the record is a candidate for employment with a criminal justice agency. For all other purposes, a person whose record is expunged under this section may lawfully deny or fail to acknowledge the arrest and the charge covered by the expunged record~~.

2. Records maintained by local criminal justice agencies in the county in which the arrest occurred that are eligible for

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

expunction pursuant to this section shall be sealed as the term is used in s. 943.059.

~~(b) As used in this section, the term "nonviolent misdemeanor" includes simple assault or battery when prearrest or postarrest diversion expunction is approved in writing by the state attorney for the county in which the arrest occurred.~~

(3) The department shall expunge the nonjudicial arrest record of a minor ~~who has successfully completed a prearrest or postarrest diversion program~~ if the minor has never previously received an expunction under this section and the diversion program submits a certification for expunction ~~that minor:~~

~~(a) Submits an application for prearrest or postarrest diversion expunction,~~ on a form prescribed by the department~~,~~ ~~signed by the minor's parent or legal guardian, or by the minor if he or she has reached the age of majority at the time of applying~~.

~~(b) Submits to the department, with the application, an official written statement from the state attorney for the county in which the arrest occurred certifying that he or she has successfully completed that county's prearrest or postarrest diversion program, that his or her participation in the program was based on an arrest for a nonviolent misdemeanor, and that he or she has not otherwise been charged by the state attorney with, or found to have committed, any criminal offense or comparable ordinance violation.~~

~~(c) Participated in a prearrest or postarrest diversion program that expressly authorizes or permits such expunction.~~

~~(d) Participated in a prearrest or postarrest diversion program based on an arrest for a nonviolent misdemeanor that~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~would not qualify as an act of domestic violence as that term is defined in s. 741.28.~~

~~(c) Has never been, before filing the application for expunction, charged by the state attorney with, or found to have committed, any criminal offense or comparable ordinance violation.~~

(4) ~~The department is authorized to charge a $75 processing fee for each request received for prearrest or postarrest diversion program expunction, for placement in the Department of Law Enforcement Operating Trust Fund, unless such fee is waived by the executive director.~~

~~(5)~~ Expunction or sealing granted under this section does not prevent the minor who receives such relief from petitioning for the expunction or sealing of a later criminal history record as provided for in ss. 943.0583, 943.0585, and 943.059, if the minor is otherwise eligible under those sections.

Section 3. Section 985.12, Florida Statutes, is amended to read:

985.12 Civil citation or similar diversion programs.—

(1) LEGISLATIVE FINDINGS AND INTENT.—The Legislature finds that the creation and implementation of civil citation or similar diversion programs at the judicial circuit level promotes public safety, aids interagency cooperation, and provides the greatest chance of success for civil citation and similar diversion programs. The Legislature further finds that the widespread use of civil citation and similar diversion programs has a positive effect on the criminal justice system and contributes to an overall reduction in the crime rate and recidivism in the state. The Legislature encourages but does not

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

mandate that counties, municipalities, and public or private educational institutions participate in a civil citation or similar diversion program created by their judicial circuit under this section. ~~There is established a juvenile civil citation process for the purpose of providing an efficient and innovative alternative to custody by the Department of Juvenile Justice for children who commit nonserious delinquent acts and to ensure swift and appropriate consequences. The department shall encourage and assist in the implementation and improvement of civil citation programs or other similar diversion programs around the state.~~

(2) JUDICIAL CIRCUIT CIVIL CITATION OR SIMILAR DIVERSION PROGRAM DEVELOPMENT, IMPLEMENTATION AND OPERATION.—

(a) A ~~The~~ civil citation or similar diversion program shall be established in each judicial circuit in the state. The ~~at the local level with the concurrence of the chief judge of the circuit,~~ state attorney and~~,~~ public defender of each circuit, the clerk of the court for each county in the circuit, and representatives of participating law enforcement agencies in the circuit shall create a civil citation or similar diversion program and develop its policies and procedures. In developing the program's policies and procedures, input from other interested stakeholders may be solicited. The department shall annually develop and provide guidelines on best practice models for civil citation or similar diversion programs to the judicial circuits as a resource.

(b) Each judicial circuit's civil citation or similar diversion program must specify:

1. The misdemeanor offenses that qualify a juvenile for

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

participation in the program;

2. The eligibility criteria for the program;

3. The program's implementation and operation;

4. The program's requirements, including, but not limited to, the completion of community service hours, payment of restitution, if applicable, and intervention services indicated by a needs assessment of the juvenile, approved by the department, such as family counseling, urinalysis monitoring, and substance abuse and mental health treatment services; and

5. A program fee, if any, to be paid by a juvenile participating in the program. If the program imposes a fee, the clerk of the court of the applicable county must receive a reasonable portion of the fee.

(c) The state attorney of each circuit shall operate a civil citation or similar diversion program in each circuit. A sheriff, police department, county, municipality, or public or private educational institution may continue to operate an independent civil citation or similar diversion program that is in operation as of October 1, 2018, if the independent program is reviewed by the state attorney of the applicable circuit and he or she determines that the independent program is substantially similar to the civil citation or similar diversion program developed by the circuit. If the state attorney determines that the independent program is not substantially similar to the civil citation or similar diversion program developed by the circuit, the operator of the independent diversion program may revise the program and the state attorney may conduct an additional review of the independent program.

(d) A judicial circuit may model an existing sheriff,

police department, county, municipality, or public or private educational institution's independent civil citation or similar diversion program in developing the civil citation or similar diversion program for the circuit.

(e) If a juvenile does not successfully complete the civil citation or similar diversion program, the arresting law enforcement officer shall determine if there is good cause to arrest the juvenile for the original misdemeanor offense and refer the case to the state attorney to determine if prosecution is appropriate or allow the juvenile to continue in the program ~~and the head of each local law enforcement agency involved~~. ~~The program may be operated by an entity such as a law enforcement agency, the department, a juvenile assessment center, the county or municipality, or another entity selected by the county or municipality. An entity operating the civil citation or similar diversion program must do so in consultation and agreement with the state attorney and local law enforcement agencies. Under such a juvenile civil citation or similar diversion program, a law enforcement officer, upon making contact with a juvenile who admits having committed a misdemeanor, may choose to issue a simple warning or inform the child's guardian or parent of the child's infraction, or may issue a civil citation or require participation in a similar diversion program, and assess up to 50 community service hours, and require participation in intervention services as indicated by an assessment of the needs of the juvenile, including family counseling, urinalysis monitoring, and substance abuse and mental health treatment services.~~

(f) A copy of each civil citation or similar diversion

program notice issued under this section shall be provided to the department, and the department shall enter appropriate information into the juvenile offender information system. ~~Use of the civil citation or similar diversion program is not limited to first-time misdemeanors and may be used in up to two subsequent misdemeanors. If an arrest is made, a law enforcement officer must provide written documentation as to why an arrest was warranted.~~

(g) At the conclusion of a juvenile's civil citation ~~program~~ or similar diversion program, the state attorney or operator of the independent program ~~agency operating the program~~ shall report the outcome to the department. The issuance of a civil citation or similar diversion program notice is not considered a referral to the department.

~~(2) The department shall develop guidelines for the civil citation program which include intervention services that are based upon proven civil citation or similar diversion programs within the state.~~

(h) ~~(3)~~ Upon issuing ~~such~~ a civil citation or similar diversion program notice, the law enforcement officer shall send a copy of ~~to~~ the civil citation or similar diversion program notice to ~~county sheriff, state attorney, the appropriate intake office of the department, or the community service performance monitor designated by the department,~~ the parent or guardian of the child~~,~~ and to the victim.

~~(4) The child shall report to the community service performance monitor within 7 working days after the date of issuance of the citation. The work assignment shall be accomplished at a rate of not less than 5 hours per week. The~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~monitor shall advise the intake office immediately upon reporting by the child to the monitor, that the child has in fact reported and the expected date upon which completion of the work assignment will be accomplished.~~

~~(5) If the child fails to report timely for a work assignment, complete a work assignment, or comply with assigned intervention services within the prescribed time, or if the juvenile commits a subsequent misdemeanor, the law enforcement officer shall issue a report alleging the child has committed a delinquent act, at which point a juvenile probation officer shall process the original delinquent act as a referral to the department and refer the report to the state attorney for review.~~

~~(6) At the time of issuance of the citation by the law enforcement officer, such officer shall advise the child that the child has the option to refuse the citation and to be referred to the intake office of the department. That option may be exercised at any time before completion of the work assignment.~~

Section 4. Subsection (3) of section 985.125, Florida Statutes, is amended to read:

985.125 Prearrest or postarrest diversion programs.—

~~(3) The prearrest or postarrest diversion program may, upon agreement of the agencies that establish the program, provide for the expunction of the nonjudicial arrest record of a minor who successfully completes such a program pursuant to s. 943.0582.~~

Section 5. Section 985.126, Florida Statutes, is created to read:

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

985.126 Diversion programs; data collection; denial of participation or expunged record.—

(1) As used in this section, the term "diversion program" has the same meaning as in s. 943.0582.

(2) Each diversion program shall submit:

(a) A certification for expunction to the Department of Law Enforcement of the juvenile's nonjudicial arrest record under s. 943.0582 if the juvenile:

1. Successfully completes the diversion program for a first-time misdemeanor offense; and

2. Has not otherwise been charged by the state attorney with, or been found to have committed, a criminal offense or comparable ordinance violation.

(b) Data to the department in a form prescribed by the department which identifies for each juvenile who participates in the diversion program:

1. The race, ethnicity, gender, and age of the juvenile;

2. The offense committed, with citation to the specific law establishing the offense; and

3. The judicial circuit and county in which the offense was committed and the law enforcement agency that had contact with the juvenile for the offense.

(3) Each law enforcement agency shall submit to the department data that identifies for each juvenile who was eligible for a diversion program, but was instead referred to the department, provided a notice to appear, or arrested:

(a) The data required under paragraph (2)(b).

(b) Whether the juvenile was offered the opportunity to participate in the diversion program. If the juvenile was:

1. Not offered such opportunity, the reason such offer was not made.

2. Offered such opportunity, whether the juvenile or his or her parent or legal guardian declined to participate in the diversion program.

(4) The department shall compile the data required under subsections (2) and (3) and publish it on the department's website in a format that is, at a minimum, sortable by judicial circuit, county, law enforcement agency, race or ethnicity, gender, age, and offense committed.

(5) A juvenile who successfully completes a diversion program for a first-time misdemeanor offense may lawfully deny or fail to acknowledge his or her participation in the program and an expunction of a nonjudicial arrest record under s. 943.0582, unless the inquiry is made by a criminal justice agency, as defined in s. 943.045, for a purpose described in s. 943.0582(2)(a)1.

Section 6. This act shall take effect October 1, 2018.

The Florida Senate

Committee Agenda Request

To: Senator Rob Bradley
Committee on Appropriations

Subject: Committee Agenda Request

Date: February 15, 2018

I respectfully request that **Senate Bill #1392**, relating to **Prearrest Diversion Programs**, be placed on the:

☒ committee agenda at your earliest possible convenience.

☐ next committee agenda.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 1486
INTRODUCER:	Appropriations Committee; Health Policy Committee; and Senator Grimsley
SUBJECT:	Department of Health
DATE:	March 5, 2018 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Rossitto-Van Winkle	Stovall	HP	**Fav/CS**
2.	Loe	Hansen	AP	**Fav/CS**
3.			RC	

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1486 provides rulemaking authority to the Department of Health (DOH) to implement the Conrad 30 Waiver Program.

The bill has no impact on state revenues or expenditures.

The effective date of the bill is July 1, 2018.

II. Present Situation:

The Conrad 30 Program

The Conrad 30 Waiver Program, authorized by the United States Department of State (USDOS), and the United States Citizenship and Immigration Services (USCIS), addresses the shortage of qualified doctors in medically underserved areas. The program allow a medical doctor holding a J-1 Visa to apply for a waiver of the two-year residence requirement upon completion of the J-1Visa exchange visitor program under s. 214(1) of the Immigration and Nationality Act (INA).

State public health agencies are authorized to sponsor up to 30 physicians annually to serve in a designated U.S. Department of Health and Human Services (HHS) Health Professional Shortage Area (HPSA), Medically Underserved Area (MUA), or Medically Underserved Population

(MUP). The program requires a medical doctor holding a J-1 Visa who wishes to participate in a Conrad 30 Waiver Program to:

- Agree to be employed full-time in H-1B nonimmigrant status at a health care facility located in an area designated by the HHS as a HPSA, MUA, or MUP;
- Obtain a contract from the health care facility located in an area designated by HHS as an HPSA, MUA, or MUP;
- Obtain a "no objection" letter from his or her home country if the home government funded his or her exchange program; and
- Agree to begin employment at the health care facility within 90 days of receipt of the waiver, not the date his or her J-1 visa expires.

The DOH has administered the Conrad 30 Waiver Program since 1994. In recent years, the number of applicants has exceeded the maximum number of 30 slots allowed by the program. The DOH does not have rulemaking authority to establish additional criteria for selecting Conrad 30 Waiver Program applicants for sponsorship, thereby limiting the DOH's ability to place qualified physicians in areas of highest need.[1]

III. Effect of Proposed Changes:

Section 1 amends s. 381.4018, F.S., to require the DOH to adopt rules, following federal requirements, to implement the Conrad 30 Program to further encourage qualified physicians to relocate to Florida and practice in underserved areas. This rulemaking authority allows the DOH to establish criteria beyond the federal minimum requirements and prioritize applications, thereby placing physicians in areas of highest need.

Section 2 provides that the bill takes effect July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

[1] Florida Department of Health, *House Bill 1047 Analysis* (December 19, 2017) (on file with the Senate Committee on Health Policy).

B. Private Sector Impact:

None.

C. Government Sector Impact:

The bill has no impact on state revenues or expenditures.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

The bill substantially amends section 381.4018 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on March 2, 2018:
The committee substitute changes the bill title to, "an act relating to workforce development;" and deletes provisions of the bill related to:

- Requiring dates of birth on health care professional licensure applications;
- Expediting licensure for dentistry for spouses of active duty military;
- Repealing the requirement for the Board of Medicine (BOM) to conduct a review of organizations that board certify physicians in dermatology;
- Defining a contact classroom hour for chiropractic continuing education (CE) and authorizing 10 hours of online general chiropractic CE credit;
- Deregulating registered chiropractic assistants;
- Granting rulemaking authority to the Board of Nursing (BON) to establish standards of care, including discipline and standards of care for certified nursing assistants (CNA);
- Recognizing CNA certification in a territory of the United States or the District of Columbia for certification in Florida and eliminating the element of intent for violations of practice laws for CNAs;
- Requiring an institutional, nuclear, special, or internet pharmacy to pass a DOH onsite inspection before licensure;
- Establishing the licensure of in-state sterile compounding pharmacies;
- Deleting the requirement for Florida dentists and dental hygienists to grade dental and dental hygienist licensure examinations;
- Requiring dentists and dental hygienists to report adverse incidents;

- Expanding the definition of dental laboratory to include a person who provides onsite consultation during dental procedures;
- Requiring dental laboratories to be inspected at least biennially, rather than annually;
- Restricting an athletic trainer to working within his or her scope of practice;
- Requiring athletic trainers to maintain certification in good standing without lapse;
- Requiring supervision of athletic training students to be in accordance with board rules rather than an external entity's standards;
- Authorizing a joint registration for orthotics and prosthetics residency and providing a licensure pathway for a joint educational program;
- Eliminating the massage therapy apprenticeship program, except for the study of colonic irrigation; clarifying that the massage therapist licensure examination is a national examination approved by the board; and expanding circumstances for the revocation, or denial, of initial licensure of a massage establishment license;
- Eliminating outdated language, clarifying education accreditation requirements, and streamlining licensure by endorsement requirements for psychology licensure;
- Clarifying, streamlining, and correcting inconsistencies in provisions regulating the licensure of marriage and family therapy, mental health counseling, and clinical social work; and
- Requiring applicants for licensure as a mental health counselor to have a master's degree that is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP), beginning July 1, 2024.

CS by Health Policy January 30, 2018:
The committee substitute:

- Repeals the requirement that the BOM conduct a review of organizations that board certify physicians in dermatology;
- Defines "contact classroom hour" for ch. 460, F.S.; authorizes chiropractic physicians to take up to 10 hours of general CE online; and deregulates registered chiropractic assistants;
- Removes provisions that sought to create regulatory and rulemaking authority to the BOM and the BOOM to oversee all office surgery centers (OSCs);
- Removes provisions that sought to deregulate laboratory personnel; and
- Removes provisions relating to the timing for submission of an application for examination for licensure as an optometrist; and provisions creating a pathway for licensure by endorsement.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

The Committee on Appropriations (Grimsley) recommended the following:

Senate Amendment (with title amendment)

Delete lines 145 - 1408.

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

Delete lines 2 - 114

and insert:

An act relating to physician workforce development; amending s. 381.4018, F.S.; requiring the Department

485676

of Health to adopt any rules necessary to implement a specified federal program to further encourage qualified physicians to relocate to and practice in underserved areas;

By the Committee on Health Policy; and Senator Grimsley

588-02622-18 20181486c1

A bill to be entitled

An act relating to the Department of Health; amending s. 381.4018, F.S.; requiring the department to adopt any rules necessary to implement a specified federal program to further encourage qualified physicians to relocate to and practice in underserved areas; amending s. 456.013, F.S.; revising health care practitioner licensure application requirements; amending s. 456.024, F.S.; revising health care practitioner licensure eligibility for certain members of the armed forces and their spouses to include licensed dentists; removing a provision requiring a certain applicant issued a temporary professional license to practice as a dentist to practice under supervision; amending s. 458.3312, F.S.; removing a provision prohibiting a physician from holding himself or herself out as a board-certified specialist in dermatology unless the recognizing agency is reviewed and reauthorized on a specified basis by the Board of Medicine; amending s. 460.408, F.S.; defining the term "contact classroom hour"; revising provisions relating to continuing chiropractic education requirements; repealing s. 460.4166, F.S., relating to registered chiropractic assistants; amending s. 464.006, F.S.; authorizing the Board of Nursing to establish certain standards of care; amending s. 464.202, F.S.; requiring the board to adopt by rule discipline and standards of care for certified nursing assistants; amending s. 464.203, F.S.; revising certification

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

588-02622-18 20181486c1

requirements for nursing assistants; amending s. 464.204, F.S.; revising grounds for board-imposed disciplinary sanctions; amending s. 465.019, F.S.; requiring an institutional pharmacy to pass an onsite inspection by the department within a specified time before the issuance of an initial permit or a permit for change of location; amending s. 465.0193, F.S.; requiring a nuclear pharmacy to pass an onsite inspection by the department within a specified time before issuance of an initial permit or a permit for change of location; creating s. 465.0195, F.S.; requiring certain pharmacies and outsourcing facilities located in this state to obtain a permit in order to create, ship, mail, deliver, or dispense compounded sterile products; providing application requirements; providing inspection requirements; providing permit requirements; authorizing the Board of Pharmacy to adopt certain rules; providing applicability; amending s. 465.0196, F.S.; requiring a special pharmacy to pass an onsite inspection by the department within a specified time before the issuance of an initial permit or a permit for change of location; amending s. 465.0197, F.S.; requiring an Internet pharmacy to pass an onsite inspection by the department within a specified time before the issuance of an initial permit or a permit for change of location; amending s. 466.006, F.S.; revising certain requirements for examinations to be completed by applicants seeking dental licensure; amending s.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

466.007, F.S.; revising requirements for examinations of dental hygienists; amending s. 466.017, F.S.; providing adverse incident reporting requirements; defining the term "adverse incident"; providing for disciplinary action by the Board of Dentistry; authorizing the board to adopt rules; amending s. 466.031, F.S.; expanding the definition of the term "dental laboratory" to include any person who performs an onsite consultation during dental procedures; amending s. 466.036, F.S.; requiring the periodic inspection of dental laboratories at least once during a specified period; amending s. 468.701, F.S.; revising a definition; amending s. 468.707, F.S.; revising athletic trainer licensure requirements; amending s. 468.711, F.S.; revising requirements for the renewal of a license relating to continuing education; amending s. 468.723, F.S.; revising a definition; amending s. 468.803, F.S.; revising orthotic, prosthetic, and pedorthic licensure, registration, and examination requirements; amending s. 480.033, F.S.; revising a definition; amending s. 480.041, F.S.; revising qualifications for licensure as a massage therapist; specifying that a massage apprentice who was licensed before a specified date may continue to perform massage therapy as authorized under his or her license; authorizing a massage apprentice to apply for full licensure upon completion of the apprenticeship under certain conditions; repealing s. 480.042, F.S., relating to examinations;

amending s. 480.046, F.S.; revising instances under which disciplinary action may be taken against massage establishments; prohibiting a certain disciplined massage establishment from applying for relicensure; providing an exception; amending s. 490.003, F.S.; revising definitions; amending s. 490.005, F.S.; revising examination requirements for licensure of a psychologist; amending s. 490.006, F.S.; revising requirements for licensure by endorsement of certain psychologists; amending s. 491.0045, F.S.; providing an exemption for intern registration requirements under certain circumstances; amending s. 491.005, F.S.; revising education requirements for the licensure of marriage and family therapists; revising examination requirements for the licensure of mental health counselors; amending s. 491.006, F.S.; revising requirements for licensure or certification by endorsement for certain professions; amending s. 491.007, F.S.; removing a biennial intern registration fee; amending s. 491.009, F.S.; authorizing the Board of Clinical Social Work, Marriage and Family Therapy, and Mental Health Counseling, or the department under certain circumstances, to enter an order denying licensure or imposing penalties against an applicant for licensure under certain circumstances; providing penalties; amending ss. 491.0046 and 945.42, F.S.; conforming provisions to changes made by the act; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (f) of subsection (3) of section 381.4018, Florida Statutes, is amended to read:

381.4018 Physician workforce assessment and development.—

(3) GENERAL FUNCTIONS.—The department shall maximize the use of existing programs under the jurisdiction of the department and other state agencies and coordinate governmental and nongovernmental stakeholders and resources in order to develop a state strategic plan and assess the implementation of such strategic plan. In developing the state strategic plan, the department shall:

(f) Develop strategies to maximize federal and state programs that provide for the use of incentives to attract physicians to this state or retain physicians within the state. Such strategies should explore and maximize federal-state partnerships that provide incentives for physicians to practice in federally designated shortage areas. Strategies shall also consider the use of state programs, such as the Medical Education Reimbursement and Loan Repayment Program pursuant to s. 1009.65, which provide for education loan repayment or loan forgiveness and provide monetary incentives for physicians to relocate to underserved areas of the state. To further encourage qualified physicians to relocate to and practice in underserved areas, the department, following federal requirements, shall adopt any rules necessary for the implementation of the Conrad 30 Waiver Program established under s. 214(1) of the Immigration and Nationality Act.

Section 2. Paragraph (a) of subsection (1) of section

456.013, Florida Statutes, is amended to read:

456.013 Department; general licensing provisions.—

(1)(a) Any person desiring to be licensed in a profession within the jurisdiction of the department shall apply to the department in writing ~~to take the licensure examination~~. The application shall be made on a form prepared and furnished by the department. The application form must be available on the World Wide Web and the department may accept electronically submitted applications beginning July 1, 2001. The application shall require the social security number and date of birth of the applicant, except as provided in paragraphs (b) and (c). The form shall be supplemented as needed to reflect any material change in any circumstance or condition stated in the application which takes place between the initial filing of the application and the final grant or denial of the license and which might affect the decision of the department. If an application is submitted electronically, the department may require supplemental materials, including an original signature of the applicant and verification of credentials, to be submitted in a nonelectronic format. An incomplete application shall expire 1 year after initial filing. In order to further the economic development goals of the state, and notwithstanding any law to the contrary, the department may enter into an agreement with the county tax collector for the purpose of appointing the county tax collector as the department's agent to accept applications for licenses and applications for renewals of licenses. The agreement must specify the time within which the tax collector must forward any applications and accompanying application fees to the department.

Section 3. Paragraphs (a) and (b) of subsection (3) and paragraph (j) of subsection (4) of section 456.024, Florida Statutes, are amended to read:

456.024 Members of Armed Forces in good standing with administrative boards or the department; spouses; licensure.—

(3)(a) A person is eligible for licensure as a health care practitioner in this state if he or she:

1. Serves or has served as a health care practitioner in the United States Armed Forces, the United States Reserve Forces, or the National Guard;

2. Serves or has served on active duty with the United States Armed Forces as a health care practitioner in the United States Public Health Service; or

3. Is a health care practitioner~~, other than a dentist,~~ in another state, the District of Columbia, or a possession or territory of the United States and is the spouse of a person serving on active duty with the United States Armed Forces.

The department shall develop an application form, and each board, or the department if there is no board, shall waive the application fee, licensure fee, and unlicensed activity fee for such applicants. For purposes of this subsection, "health care practitioner" means a health care practitioner as defined in s. 456.001 and a person licensed under part III of chapter 401 or part IV of chapter 468.

(b) The board, or the department if there is no board, shall issue a license to practice in this state to a person who:

1. Submits a complete application.

2. If he or she is a member of the United States Armed

Forces, the United States Reserve Forces, or the National Guard, submits proof that he or she has received an honorable discharge within 6 months before, or will receive an honorable discharge within 6 months after, the date of submission of the application.

3.a. Holds an active, unencumbered license issued by another state, the District of Columbia, or a possession or territory of the United States and who has not had disciplinary action taken against him or her in the 5 years preceding the date of submission of the application;

b. Is a military health care practitioner in a profession for which licensure in a state or jurisdiction is not required to practice in the United States Armed Forces, if he or she submits to the department evidence of military training or experience substantially equivalent to the requirements for licensure in this state in that profession and evidence that he or she has obtained a passing score on the appropriate examination of a national or regional standards organization if required for licensure in this state; or

c. Is the spouse of a person serving on active duty in the United States Armed Forces and is a health care practitioner in a profession~~, excluding dentistry,~~ for which licensure in another state or jurisdiction is not required, if he or she submits to the department evidence of training or experience substantially equivalent to the requirements for licensure in this state in that profession and evidence that he or she has obtained a passing score on the appropriate examination of a national or regional standards organization if required for licensure in this state.

4. Attests that he or she is not, at the time of submission of the application, the subject of a disciplinary proceeding in a jurisdiction in which he or she holds a license or by the United States Department of Defense for reasons related to the practice of the profession for which he or she is applying.

5. Actively practiced the profession for which he or she is applying for the 3 years preceding the date of submission of the application.

6. Submits a set of fingerprints for a background screening pursuant to s. 456.0135, if required for the profession for which he or she is applying.

The department shall verify information submitted by the applicant under this subsection using the National Practitioner Data Bank.

(4)

~~(j) An applicant who is issued a temporary professional license to practice as a dentist pursuant to this section must practice under the indirect supervision, as defined in s. 466.003, of a dentist licensed pursuant to chapter 466.~~

Section 4. Section 458.3312, Florida Statutes, is amended to read:

458.3312 Specialties.—A physician licensed under this chapter may not hold himself or herself out as a board-certified specialist unless the physician has received formal recognition as a specialist from a specialty board of the American Board of Medical Specialties or other recognizing agency that has been approved by the board. However, a physician may indicate the services offered and may state that his or her practice is

limited to one or more types of services when this accurately reflects the scope of practice of the physician. ~~A physician may not hold himself or herself out as a board-certified specialist in dermatology unless the recognizing agency, whether authorized in statute or by rule, is triennially reviewed and reauthorized by the Board of Medicine.~~

Section 5. Subsection (1) of section 460.408, Florida Statutes, is amended to read:

460.408 Continuing chiropractic education.—

(1) The board shall require licensees to periodically demonstrate their professional competence as a condition of renewal of a license by completing up to 40 contact classroom hours of continuing education. For purposes of this subsection, term "contact classroom hour" means a presentation in which the persons presenting and the persons attending the course are present on site. Up to 10 general credit continuing education hours may be completed online in place of contact classroom hours, as determined by board rule. Online continuing education courses must be competency based and must use the Sharable Content Objective Reference Model standard or more stringent standards, as determined by the board.

(a) Continuing education courses sponsored by chiropractic colleges whose graduates are eligible for examination under any provision of this chapter may be approved upon review by the board if all other requirements of board rules setting forth criteria for course approval are met.

(b) The board shall approve those courses that build upon the basic courses required for the practice of chiropractic medicine, and the board may also approve courses in adjunctive

modalities. Courses that consist of instruction in the use, application, prescription, recommendation, or administration of a specific company's brand of products or services are not eligible for approval.

Section 6. Section 460.4166, Florida Statutes, is repealed.

Section 7. Section 464.006, Florida Statutes, is amended to read:

464.006 Rulemaking authority.—The board may ~~has authority to~~ adopt rules pursuant to ss. 120.536(1) and 120.54 to implement the provisions of this part conferring duties upon it and establish standards of care.

Section 8. Section 464.202, Florida Statutes, is amended to read:

464.202 Duties and powers of the board.—The board shall maintain, or contract with or approve another entity to maintain, a state registry of certified nursing assistants. The registry must consist of the name of each certified nursing assistant in this state; other identifying information defined by board rule; certification status; the effective date of certification; other information required by state or federal law; information regarding any crime or any abuse, neglect, or exploitation as provided under chapter 435; and any disciplinary action taken against the certified nursing assistant. The registry shall be accessible to the public, the certificateholder, employers, and other state agencies. The board shall adopt by rule testing procedures for use in certifying nursing assistants and shall adopt rules regulating the practice of certified nursing assistants, including discipline and establishing standards of care, and specifying

the scope of practice authorized and the level of supervision required for the practice of certified nursing assistants. The board may contract with or approve another entity or organization to provide the examination services, including the development and administration of examinations. The board shall require that the contract provider offer certified nursing assistant applications via the Internet, and may require the contract provider to accept certified nursing assistant applications for processing via the Internet. The board shall require the contract provider to provide the preliminary results of the certified nursing examination on the date the test is administered. The provider shall pay all reasonable costs and expenses incurred by the board in evaluating the provider's application and performance during the delivery of services, including examination services and procedures for maintaining the certified nursing assistant registry.

Section 9. Paragraph (c) of subsection (1) of section 464.203, Florida Statutes, is amended to read:

464.203 Certified nursing assistants; certification requirement.—

(1) The board shall issue a certificate to practice as a certified nursing assistant to any person who demonstrates a minimum competency to read and write and successfully passes the required background screening pursuant to s. 400.215. If the person has successfully passed the required background screening pursuant to s. 400.215 or s. 408.809 within 90 days before applying for a certificate to practice and the person's background screening results are not retained in the clearinghouse created under s. 435.12, the board shall waive the

requirement that the applicant successfully pass an additional background screening pursuant to s. 400.215. The person must also meet one of the following requirements:

(c) Is currently certified in another state or territory or the District of Columbia; is listed on that state's certified nursing assistant registry; and has not been found to have committed abuse, neglect, or exploitation in that state.

Section 10. Subsection (1) of section 464.204, Florida Statutes, is amended to read:

464.204 Denial, suspension, or revocation of certification; disciplinary actions.—

(1) The following acts constitute grounds for which the board may impose disciplinary sanctions as specified in subsection (2):

(a) Obtaining or attempting to obtain certification or an exemption, or possessing or attempting to possess certification or a letter of exemption, by bribery, misrepresentation, deceit, or through an error of the board.

(b) ~~Intentionally~~ Violating any provision of this chapter, chapter 456, or the rules adopted by the board.

Section 11. Subsection (7) is added to section 465.019, Florida Statutes, to read:

465.019 Institutional pharmacies; permits.—

(7) An institutional pharmacy must pass an onsite inspection by the department as a prerequisite to the issuance of an initial permit or a permit for a change of location. The inspection must be completed within 90 days before the issuance of the permit.

Section 12. Section 465.0193, Florida Statutes, is amended

to read:

465.0193 Nuclear pharmacy permits.—Any person desiring a permit to operate a nuclear pharmacy shall apply to the department. If the board certifies that the application complies with applicable law, the department shall issue the permit. No permit shall be issued unless a duly licensed and qualified nuclear pharmacist is designated as being responsible for activities described in s. 465.0126. A nuclear pharmacy must pass an onsite inspection by the department as a prerequisite to the issuance of an initial permit or a permit for a change of location. The inspection must be completed within 90 days before the issuance of the permit. The permittee shall notify the department within 10 days of any change of the licensed pharmacist responsible for the compounding and dispensing of nuclear pharmaceuticals.

Section 13. Section 465.0195, Florida Statutes, is created to read:

465.0195 Pharmacy or outsourcing facility; sterile compounding permit.—Before a pharmacy or outsourcing facility located in this state dispenses, creates, delivers, ships, or mails, in any manner, a compounded sterile product, the pharmacy or outsourcing facility must hold a sterile compounding permit.

(1) An application for a sterile compounding permit shall be submitted on a form furnished by the board. The board may require such information as it deems reasonably necessary to carry out the purposes of this section.

(2) If the board certifies that the application complies with applicable laws and rules of the board governing pharmacies, the department shall issue the permit.

(3) A pharmacy or outsourcing facility must pass an onsite inspection by the department as a prerequisite to the issuance of an initial permit or a permit for a change of location. The inspection must be completed within 90 days before the issuance of the permit. The board may adopt by rule standards for conducting an onsite inspection for issuance of a sterile compounding permit.

(4) A permit may not be issued unless a licensed pharmacist is designated to undertake the professional supervision of the compounding and dispensing of all drugs dispensed by the permittee.

(5) A permittee must notify the department within 10 days after any change of the licensed pharmacist under subsection (4). Each permittee that employs or otherwise uses registered pharmacy technicians shall have a written policy and procedures manual specifying those duties, tasks, and functions that a registered pharmacy technician is authorized to perform.

(6) The board may adopt by rule standards of practice for sterile compounding. In adopting such rules, the board shall give due consideration to the standards and requirements provided in chapter 797 of the United States Pharmacopeia, or other professionally accepted standards deemed authoritative by the board. In adopting such rules for an outsourcing facility, the board shall consider the standards and requirements of current good manufacturing practices as set forth by federal law and any other professionally accepted standards deemed authoritative by the board.

(7) All provisions relating to pharmacy permits found in ss. 465.022 and 465.023 apply to permits issued pursuant to this

section.

Section 14. Section 465.0196, Florida Statutes, is amended to read:

465.0196 Special pharmacy permits.—Any person desiring a permit to operate a special pharmacy shall apply to the department for a special pharmacy permit. If the board certifies that the application complies with the applicable laws and rules of the board governing the practice of the profession of pharmacy, the department shall issue the permit. A special pharmacy must pass an onsite inspection by the department as a prerequisite to the issuance of an initial permit or a permit for a change of location. The inspection must be completed within 90 days before the issuance of the permit. A permit may not be issued unless a licensed pharmacist is designated to undertake the professional supervision of the compounding and dispensing of all drugs dispensed by the pharmacy. The licensed pharmacist shall be responsible for maintaining all drug records and for providing for the security of the area in the facility in which the compounding, storing, and dispensing of medicinal drugs occurs. The permittee shall notify the department within 10 days after any change of the licensed pharmacist responsible for such duties. Each permittee that employs or otherwise uses registered pharmacy technicians shall have a written policy and procedures manual specifying those duties, tasks, and functions that a registered pharmacy technician is allowed to perform.

Section 15. Subsection (2) of section 465.0197, Florida Statutes, is amended to read:

465.0197 Internet pharmacy permits.—

(2) An Internet pharmacy must obtain a permit under this

section to sell medicinal drugs to persons in this state. An Internet pharmacy must pass an onsite inspection by the department as a prerequisite to the issuance of an initial permit or a permit for a change of location. The inspection must be completed within 90 days before the issuance of the permit.

Section 16. Subsection (4) of section 466.006, Florida Statutes, is amended to read:

466.006 Examination of dentists.—

(4) Notwithstanding any other provision of law in chapter 456 pertaining to the clinical dental licensure examination or national examinations, to be licensed as a dentist in this state, an applicant must successfully complete the following:

(a) A written examination on the laws and rules of the state regulating the practice of dentistry;

(b)1. A practical or clinical examination, which shall be the American Dental Licensing Examination produced by the American Board of Dental Examiners, Inc., or its successor entity, if any, that is administered in this state ~~and graded by dentists licensed in this state and employed by the department for just such purpose~~, provided that the board has attained, and continues to maintain thereafter, representation on the board of directors of the American Board of Dental Examiners, the examination development committee of the American Board of Dental Examiners, and such other committees of the American Board of Dental Examiners as the board deems appropriate by rule to assure that the standards established herein are maintained organizationally. A passing score on the American Dental Licensing Examination administered in this state ~~and graded by dentists who are licensed in this state~~ is valid for 365 days

after the date the official examination results are published.

2.a. As an alternative to the requirements of subparagraph 1., an applicant may submit scores from an American Dental Licensing Examination previously administered in a jurisdiction other than this state after October 1, 2011, and such examination results shall be recognized as valid for the purpose of licensure in this state. A passing score on the American Dental Licensing Examination administered out-of-state shall be the same as the passing score for the American Dental Licensing Examination administered in this state ~~and graded by dentists who are licensed in this state~~. The examination results are valid for 365 days after the date the official examination results are published. The applicant must have completed the examination after October 1, 2011.

b. This subparagraph may not be given retroactive application.

3. If the date of an applicant's passing American Dental Licensing Examination scores from an examination previously administered in a jurisdiction other than this state under subparagraph 2. is older than 365 days, then such scores shall nevertheless be recognized as valid for the purpose of licensure in this state, but only if the applicant demonstrates that all of the following additional standards have been met:

a.(I) The applicant completed the American Dental Licensing Examination after October 1, 2011.

(II) This sub-subparagraph may not be given retroactive application;

b. The applicant graduated from a dental school accredited by the American Dental Association Commission on Dental

Accreditation or its successor entity, if any, or any other dental accrediting organization recognized by the United States Department of Education. Provided, however, if the applicant did not graduate from such a dental school, the applicant may submit proof of having successfully completed a full-time supplemental general dentistry program accredited by the American Dental Association Commission on Dental Accreditation of at least 2 consecutive academic years at such accredited sponsoring institution. Such program must provide didactic and clinical education at the level of a D.D.S. or D.M.D. program accredited by the American Dental Association Commission on Dental Accreditation;

c. The applicant currently possesses a valid and active dental license in good standing, with no restriction, which has never been revoked, suspended, restricted, or otherwise disciplined, from another state or territory of the United States, the District of Columbia, or the Commonwealth of Puerto Rico;

d. The applicant submits proof that he or she has never been reported to the National Practitioner Data Bank, the Healthcare Integrity and Protection Data Bank, or the American Association of Dental Boards Clearinghouse. This sub-subparagraph does not apply if the applicant successfully appealed to have his or her name removed from the data banks of these agencies;

e.(I) In the 5 years immediately preceding the date of application for licensure in this state, the applicant must submit proof of having been consecutively engaged in the full-time practice of dentistry in another state or territory of the

United States, the District of Columbia, or the Commonwealth of Puerto Rico, or, if the applicant has been licensed in another state or territory of the United States, the District of Columbia, or the Commonwealth of Puerto Rico for less than 5 years, the applicant must submit proof of having been engaged in the full-time practice of dentistry since the date of his or her initial licensure.

(II) As used in this section, "full-time practice" is defined as a minimum of 1,200 hours per year for each and every year in the consecutive 5-year period or, where applicable, the period since initial licensure, and must include any combination of the following:

(A) Active clinical practice of dentistry providing direct patient care.

(B) Full-time practice as a faculty member employed by a dental or dental hygiene school approved by the board or accredited by the American Dental Association Commission on Dental Accreditation.

(C) Full-time practice as a student at a postgraduate dental education program approved by the board or accredited by the American Dental Association Commission on Dental Accreditation.

(III) The board shall develop rules to determine what type of proof of full-time practice is required and to recoup the cost to the board of verifying full-time practice under this section. Such proof must, at a minimum, be:

(A) Admissible as evidence in an administrative proceeding;

(B) Submitted in writing;

(C) Submitted by the applicant under oath with penalties of

perjury attached;

(D) Further documented by an affidavit of someone unrelated to the applicant who is familiar with the applicant's practice and testifies with particularity that the applicant has been engaged in full-time practice; and

(E) Specifically found by the board to be both credible and admissible.

(IV) An affidavit of only the applicant is not acceptable proof of full-time practice unless it is further attested to by someone unrelated to the applicant who has personal knowledge of the applicant's practice. If the board deems it necessary to assess credibility or accuracy, the board may require the applicant or the applicant's witnesses to appear before the board and give oral testimony under oath;

f. The applicant must submit documentation that he or she has completed, or will complete, prior to licensure in this state, continuing education equivalent to this state's requirements for the last full reporting biennium;

g. The applicant must prove that he or she has never been convicted of, or pled nolo contendere to, regardless of adjudication, any felony or misdemeanor related to the practice of a health care profession in any jurisdiction;

h. The applicant must successfully pass a written examination on the laws and rules of this state regulating the practice of dentistry and must successfully pass the computer-based diagnostic skills examination; and

i. The applicant must submit documentation that he or she has successfully completed the National Board of Dental Examiners dental examination.

Section 17. Paragraph (b) of subsection (4) and paragraph (a) of subsection (6) of section 466.007, Florida Statutes, are amended to read:

466.007 Examination of dental hygienists.—

(4) Effective July 1, 2012, to be licensed as a dental hygienist in this state, an applicant must successfully complete the following:

(b) A practical or clinical examination approved by the board. The examination shall be the Dental Hygiene Examination produced by the American Board of Dental Examiners, Inc. (ADEX) or its successor entity, if any, if the board finds that the successor entity's clinical examination meets or exceeds the provisions of this section. The board shall approve the ADEX Dental Hygiene Examination if the board has attained and continues to maintain representation on the ADEX House of Representatives, the ADEX Dental Hygiene Examination Development Committee, and such other ADEX Dental Hygiene committees as the board deems appropriate through rulemaking to ensure that the standards established in this section are maintained organizationally. The ADEX Dental Hygiene Examination or the examination produced by its successor entity is a comprehensive examination in which an applicant must demonstrate skills within the dental hygiene scope of practice on a live patient and any other components that the board deems necessary for the applicant to successfully demonstrate competency for the purpose of licensure. ~~The ADEX Dental Hygiene Examination or the examination by the successor entity administered in this state shall be graded by dentists and dental hygienists licensed in this state who are employed by the department for this purpose.~~

(6)(a) A passing score on the ADEX Dental Hygiene Examination administered out of state shall be considered the same as a passing score for the ADEX Dental Hygiene Examination administered in this state ~~and graded by licensed dentists and dental hygienists~~.

Section 18. Subsections (9) through (15) are added to section 466.017, Florida Statutes, to read:

466.017 Prescription of drugs; anesthesia.—

(9) Any adverse incident that occurs in an office maintained by a dentist must be reported to the department. The required notification to the department must be submitted in writing by certified mail and postmarked within 48 hours after the incident occurs.

(10) A dentist practicing in this state must notify the board in writing by certified mail within 48 hours of any mortality or other adverse incident that occurs in the dentist's outpatient facility. A complete written report must be filed with the board within 30 days after the mortality or other adverse incident.

(11) For purposes of notification to the department pursuant to this section, the term "adverse incident" means any mortality that occurs during or as the result of a dental procedure, or an incident that results in a temporary or permanent physical or mental injury that requires hospitalization or emergency room treatment of a dental patient which occurred during or as a direct result of the use of anesthesia, deep sedation, moderate sedation, pediatric moderate sedation, oral sedation, minimal sedation(anxiolysis), nitrous oxide, or local anesthesia.

(12) Any certified registered dental hygienist administering local anesthesia must notify the board, in writing by registered mail within 48 hours of any adverse incident that was related to or the result of the administration of local anesthesia. A complete written report must be filed with the board within 30 days after the mortality or other adverse incident.

(13) A failure by the dentist or dental hygienist to timely and completely comply with all the reporting requirements in this section is the basis for disciplinary action by the board pursuant to s. 466.028(1).

(14) The department shall review each incident and determine whether it involved conduct by a health care professional subject to disciplinary action, in which case s. 456.073 applies. Disciplinary action, if any, shall be taken by the board under which the health care professional is licensed.

(15) The board may adopt rules to administer this section.

Section 19. Subsection (1) of section 466.031, Florida Statutes, is amended to read:

466.031 "Dental laboratory" defined.—The term "dental laboratory" as used in this chapter:

(1) Includes any person, firm, or corporation who performs for a fee of any kind, gratuitously, or otherwise, directly or through an agent or employee, by any means or method, or who in any way supplies or manufactures artificial substitutes for the natural teeth, or who furnishes, supplies, constructs, or reproduces or repairs any prosthetic denture, bridge, or appliance to be worn in the human mouth, or who provides onsite consultation during dental procedures, or who in any way holds

itself out as a dental laboratory.

Section 20. Section 466.036, Florida Statutes, is amended to read:

466.036 Information; periodic inspections; equipment and supplies.—The department may require from the applicant for a registration certificate to operate a dental laboratory any information necessary to carry out the purpose of this chapter, including proof that the applicant has the equipment and supplies necessary to operate as determined by rule of the department, and shall require periodic inspection of all dental laboratories operating in this state at least once each biennial registration period. Such inspections shall include, but not be limited to, inspection of sanitary conditions, equipment, supplies, and facilities on the premises. The department shall specify dental equipment and supplies that are not permitted in a registered dental laboratory.

Section 21. Subsection (1) of section 468.701, Florida Statutes, is amended to read:

468.701 Definitions.—As used in this part, the term:

(1) "Athletic trainer" means a person licensed under this part who has met the requirements under this part, including education requirements as set forth by the Commission on Accreditation of Athletic Training Education or its successor and necessary credentials from the Board of Certification. An athletic trainer must work within his or her scope of practice as established in the rules adopted by the board under s. 468.705. An individual who is licensed as an athletic trainer may not otherwise provide, offer to provide, or represent that he or she is qualified to provide any care or services beyond

his or her scope of practice, or that he or she lacks the education, training, or experience to provide, or that he or she is otherwise prohibited by law from providing.

Section 22. Section 468.707, Florida Statutes, is amended to read:

468.707 Licensure requirements.—Any person desiring to be licensed as an athletic trainer shall apply to the department on a form approved by the department. An applicant shall also provide records or other evidence, as determined by the board, to prove he or she has met the requirements of this section. The department shall license each applicant who:

(1) Has completed the application form and remitted the required fees.

(2) ~~For a person who applies on or after July 1, 2016,~~ Has submitted to background screening pursuant to s. 456.0135. The board may require a background screening for an applicant whose license has expired or who is undergoing disciplinary action.

(3)(a) Has obtained a baccalaureate or higher degree from a college or university professional athletic training degree program accredited by the Commission on Accreditation of Athletic Training Education or its successor recognized and approved by the United States Department of Education or the Commission on Recognition of Postsecondary Accreditation, approved by the board, or recognized by the Board of Certification, and has passed the national examination to be certified by the Board of Certification; or~~.~~

(b) ~~(4)~~ Has obtained, at a minimum, a bachelor's degree and has completed the Board of Certification internship requirements and ~~If graduated before 2004,~~ has a current certification from

the Board of Certification.

(4) ~~(5)~~ Has current certification in both cardiopulmonary resuscitation and the use of an automated external defibrillator set forth in the continuing education requirements as determined by the board pursuant to s. 468.711.

(5) ~~(6)~~ Has completed any other requirements as determined by the department and approved by the board.

Section 23. Subsection (3) of section 468.711, Florida Statutes, is amended to read:

468.711 Renewal of license; continuing education.—

(3) If initially licensed after January 1, 1998, the licensee must be currently certified by the Board of Certification or its successor agency and maintain that certification in good standing without lapse.

Section 24. Subsection (2) of section 468.723, Florida Statutes, is amended to read:

468.723 Exemptions.—This part does not prevent or restrict:

(2) An athletic training student acting under the direct supervision of a licensed athletic trainer. For purposes of this subsection, "direct supervision" means the physical presence of an athletic trainer so that the athletic trainer is immediately available to the athletic training student and able to intervene on behalf of the athletic training student. The supervision must be in accordance with rules adopted by the board ~~the standards set forth by the Commission on Accreditation of Athletic Training Education or its successor~~.

Section 25. Subsections (1), (3), and (4) of section 468.803, Florida Statutes, are amended to read:

468.803 License, registration, and examination

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

requirements.—

(1) The department shall issue a license to practice orthotics, prosthetics, or pedorthics, or a registration for a resident to practice orthotics or prosthetics, to qualified applicants. Licenses shall be granted independently in orthotics, prosthetics, or pedorthics, but a person may be licensed in more than one such discipline, and a prosthetist-orthotist license may be granted to persons meeting the requirements for both a prosthetist and an orthotist license. Registrations shall be granted independently in orthotics or prosthetics, and a person may be registered in both fields at the same time or jointly in orthotics and prosthetics as a dual registration.

(3) A person seeking to attain the required orthotics or prosthetics experience in this state must be approved by the board and registered as a resident by the department. Although a registration may be held in both practice fields, for independent registrations, the board shall not approve a second registration until at least 1 year after the issuance of the first registration. Notwithstanding subsection (2), an applicant for independent registrations who has been approved by the board and registered by the department in one practice field may apply for registration in the second practice field without an additional state or national criminal history check during the period in which the first registration is valid. Each independent registration or dual registration is valid for 2 years from the date of issuance unless otherwise revoked by the department upon recommendation of the board. The board shall set a registration fee not to exceed $500 to be paid by the

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

applicant. A registration may be renewed once by the department upon recommendation of the board for a period no longer than 1 year, as such renewal is defined by the board by rule. The registration renewal fee shall not exceed one-half the current registration fee. To be considered by the board for approval of registration as a resident, the applicant must have:

(a) A Bachelor of Science or higher-level postgraduate degree in Orthotics and Prosthetics from a regionally accredited college or university recognized by the Commission on Accreditation of Allied Health Education Programs or, at a minimum, a bachelor's degree from a regionally accredited college or university and a certificate in orthotics from a program recognized by the Commission on Accreditation of Allied Health Education Programs, or its equivalent, as determined by the board; ~~or~~

(b) A Bachelor of Science or higher-level postgraduate degree in Orthotics and Prosthetics from a regionally accredited college or university recognized by the Commission on Accreditation of Allied Health Education Programs or, at a minimum, a bachelor's degree from a regionally accredited college or university and a certificate in prosthetics from a program recognized by the Commission on Accreditation of Allied Health Education Programs, or its equivalent, as determined by the board; or

(c) A Bachelor of Science or higher-level postgraduate degree in Orthotics and Prosthetics from a regionally accredited college or university recognized by the Commission on Accreditation of Allied Health Education Programs or, at a minimum, a bachelor's degree from a regionally accredited

college or university and a dual certificate in both orthotics and prosthetics from a program recognized by the Commission on Accreditation of Allied Health Education Programs, or its equivalent, as determined by the board.

(4) The department may develop and administer a state examination for an orthotist or a prosthetist license, or the board may approve the existing examination of a national standards organization. The examination must be predicated on a minimum of a baccalaureate-level education and formalized specialized training in the appropriate field. Each examination must demonstrate a minimum level of competence in basic scientific knowledge, written problem solving, and practical clinical patient management. The board shall require an examination fee not to exceed the actual cost to the board in developing, administering, and approving the examination, which fee must be paid by the applicant. To be considered by the board for examination, the applicant must have:

(a) For an examination in orthotics:

1. A Bachelor of Science or higher-level postgraduate degree in Orthotics and Prosthetics from a regionally accredited college or university recognized by the Commission on Accreditation of Allied Health Education Programs or, at a minimum, a bachelor's degree from a regionally accredited college or university and a certificate in orthotics from a program recognized by the Commission on Accreditation of Allied Health Education Programs, or its equivalent, as determined by the board; and

2. An approved orthotics internship of 1 year of qualified experience, as determined by the board, or an orthotic residency

program or a dual residency program recognized by the board.

(b) For an examination in prosthetics:

1. A Bachelor of Science or higher-level postgraduate degree in Orthotics and Prosthetics from a regionally accredited college or university recognized by the Commission on Accreditation of Allied Health Education Programs or, at a minimum, a bachelor's degree from a regionally accredited college or university and a certificate in prosthetics from a program recognized by the Commission on Accreditation of Allied Health Education Programs, or its equivalent, as determined by the board; and

2. An approved prosthetics internship of 1 year of qualified experience, as determined by the board, or a prosthetic residency program or dual residency program recognized by the board.

Section 26. Subsection (5) of section 480.033, Florida Statutes, is amended to read:

480.033 Definitions.—As used in this act:

(5) "Apprentice" means a person approved by the board to study colonic irrigation ~~massage~~ under the instruction of a licensed massage therapist practicing colonic irrigation.

Section 27. Subsections (1) and (2) of section 480.041, Florida Statutes, are amended, and subsection (8) is added to that section, to read:

480.041 Massage therapists; qualifications; licensure; endorsement.—

(1) Any person is qualified for licensure as a massage therapist under this act who:

(a) Is at least 18 years of age or has received a high

school diploma or high school equivalency diploma;

(b) Has completed a course of study at a board-approved massage school ~~or has completed an apprenticeship program~~ that meets standards adopted by the board; and

(c) Has received a passing grade on a national ~~an~~ examination designated ~~administered~~ by the board ~~department~~.

(2) Every person desiring to be examined for licensure as a massage therapist shall apply to the department in writing upon forms prepared and furnished by the department. Such applicants shall be subject to the provisions of s. 480.046(1). ~~Applicants may take an examination administered by the department only upon meeting the requirements of this section as determined by the board.~~

(8) A person issued a license as a massage apprentice before July 1, 2018, may continue that apprenticeship and perform massage therapy as authorized under that license until its expiration. Upon completion of the apprenticeship, before July 1, 2021, a massage apprentice may apply to the board for full licensure and be granted a license if all other applicable licensure requirements are met.

Section 28. Section 480.042, Florida Statutes, is repealed.

Section 29. Subsection (3) of section 480.046, Florida Statutes, is amended, and subsection (5) is added to that section, to read:

480.046 Grounds for disciplinary action by the board.—

(3) The board may ~~shall have the power to~~ revoke or suspend the license of a massage establishment licensed under this act, or ~~to~~ deny subsequent licensure of such an establishment, if the establishment is owned by an individual or entity who has had a

prior establishment license revoked, in any ~~either~~ of the following cases:

(a) Upon proof that a license has been obtained by fraud or misrepresentation.

(b) Upon proof that the holder of a license is guilty of fraud or deceit or of gross negligence, incompetency, or misconduct in the operation of the establishment so licensed.

(c) Upon proof that the owner of the massage establishment or any individual or individuals providing massage therapy services within the establishment, in the aggregate or individually, have had three convictions of, or pleas of guilty or nolo contendere to, or dismissals of a criminal action after a successful completion of a pretrial intervention, diversion, or substance abuse program for any misdemeanor or felony, regardless of adjudication, a crime in any jurisdiction related to prostitution and related acts as defined in s. 796.07, which occurred at or within the establishment.

(5) An establishment may not apply for relicensure if disciplined under this section unless there is a change in ownership.

Section 30. Subsection (3) of section 490.003, Florida Statutes, is amended to read:

490.003 Definitions.—As used in this chapter:

(3)~~(a) Prior to July 1, 1999, "doctoral-level psychological education" and "doctoral degree in psychology" mean a Psy.D., an Ed.D. in psychology, or a Ph.D. in psychology from:~~

~~1. An educational institution which, at the time the applicant was enrolled and graduated, had institutional accreditation from an agency recognized and approved by the~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~United States Department of Education or was recognized as a member in good standing with the Association of Universities and Colleges of Canada; and~~

~~2. A psychology program within that educational institution which, at the time the applicant was enrolled and graduated, had programmatic accreditation from an accrediting agency recognized and approved by the United States Department of Education or was comparable to such programs.~~

~~(b)~~ Effective July 1, 1999, "doctoral-level psychological education" and "doctoral degree in psychology" mean a Psy.D., an Ed.D. in psychology, or a Ph.D. in psychology from:

(a)~~1.~~ An educational institution that ~~which~~, at the time the applicant was enrolled and graduated, had institutional accreditation from an agency recognized and approved by the United States Department of Education or was recognized as a member in good standing with the Association of Universities and Colleges of Canada; and

(b)~~2.~~ A psychology program within that educational institution which, at the time the applicant was enrolled and graduated, had programmatic accreditation from the American Psychological Association ~~an agency recognized and approved by the United States Department of Education~~.

Section 31. Paragraph (b) of subsection (1) and paragraph (b) of subsection (2) of section 490.005, Florida Statutes, are amended to read:

490.005 Licensure by examination.—

(1) Any person desiring to be licensed as a psychologist shall apply to the department to take the licensure examination. The department shall license each applicant who the board

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

certifies has:

(b) Submitted proof satisfactory to the board that the applicant has:

1. Received doctoral-level psychological education, as defined in s. 490.003(3); or

2. Received the equivalent of a doctoral-level psychological education, as defined in s. 490.003(3), from a program at a school or university located outside the United States of America ~~and Canada~~, which was officially recognized by the government of the country in which it is located as an institution or program to train students to practice professional psychology. The burden of establishing that the requirements of this provision have been met shall be upon the applicant~~:~~

~~3. Received and submitted to the board, prior to July 1, 1999, certification of an augmented doctoral-level psychological education from the program director of a doctoral-level psychology program accredited by a programmatic agency recognized and approved by the United States Department of Education; or~~

~~4. Received and submitted to the board, prior to August 31, 2001, certification of a doctoral-level program that at the time the applicant was enrolled and graduated maintained a standard of education and training comparable to the standard of training of programs accredited by a programmatic agency recognized and approved by the United States Department of Education. Such certification of comparability shall be provided by the program director of a doctoral-level psychology program accredited by a programmatic agency recognized and approved by the United States~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~Department of Education~~.

(2) Any person desiring to be licensed as a school psychologist shall apply to the department to take the licensure examination. The department shall license each applicant who the department certifies has:

(b) Submitted satisfactory proof to the department that the applicant:

1. Has received a doctorate, specialist, or equivalent degree from a program primarily psychological in nature and has completed 60 semester hours or 90 quarter hours of graduate study, in areas related to school psychology as defined by rule of the department, from a college or university which at the time the applicant was enrolled and graduated was accredited by an accrediting agency recognized and approved by the Council for Higher Education Accreditation, its successor, ~~Commission on Recognition of Postsecondary Accreditation~~ or an institution which is publicly recognized as a member in good standing with the Association of Universities and Colleges of Canada.

2. Has had a minimum of 3 years of experience in school psychology, 2 years of which must be supervised by an individual who is a licensed school psychologist or who has otherwise qualified as a school psychologist supervisor, by education and experience, as set forth by rule of the department. A doctoral internship may be applied toward the supervision requirement.

3. Has passed an examination provided by the department.

Section 32. Subsection (1) of section 490.006, Florida Statutes, is amended to read:

490.006 Licensure by endorsement.—

(1) The department shall license a person as a psychologist

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

or school psychologist who, upon applying to the department and remitting the appropriate fee, demonstrates to the department or, in the case of psychologists, to the board that the applicant:

~~(a) Holds a valid license or certificate in another state to practice psychology or school psychology, as applicable, provided that, when the applicant secured such license or certificate, the requirements were substantially equivalent to or more stringent than those set forth in this chapter at that time; and, if no Florida law existed at that time, then the requirements in the other state must have been substantially equivalent to or more stringent than those set forth in this chapter at the present time;~~

(a) ~~(b)~~ Is a diplomate in good standing with the American Board of Professional Psychology, Inc.; or

(b) ~~(c)~~ Possesses a doctoral degree in psychology as described in s. 490.003 and has at least 10 ~~20~~ years of experience as a licensed psychologist in any jurisdiction or territory of the United States within 25 years preceding the date of application.

Section 33. Subsection (6) of section 491.0045, Florida Statutes, as amended by chapter 2016-80 and chapter 2016-241, Laws of Florida, is amended to read:

491.0045 Intern registration; requirements.—

(6) A registration issued on or before March 31, 2017, expires March 31, 2022, and may not be renewed or reissued. Any registration issued after March 31, 2017, expires 60 months after the date it is issued. The board may make a one-time exception from the requirements of this section in emergency or

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

hardship cases, as defined by board rule, if ~~A subsequent intern registration may not be issued unless~~ the candidate has passed the theory and practice examination described in s. 491.005(1)(d), (3)(d), and (4)(d).

Section 34. Subsections (3) and (4) of section 491.005, Florida Statutes, are amended to read:

491.005 Licensure by examination.—

(3) MARRIAGE AND FAMILY THERAPY.—Upon verification of documentation and payment of a fee not to exceed $200, as set by board rule, plus the actual cost ~~to the department~~ for the purchase of the examination from the Association of Marital and Family Therapy Regulatory Board, or similar national organization, the department shall issue a license as a marriage and family therapist to an applicant who the board certifies:

(a) Has submitted an application and paid the appropriate fee.

(b)1. Has a minimum of a master's degree with major emphasis in marriage and family therapy from a program accredited by the Commission on Accreditation for Marriage and Family Therapy Education or from a Florida university program accredited by the Council for Accreditation of Counseling and Related Educational Programs, or a closely related field, and has completed graduate courses approved by the Board of Clinical Social Work, Marriage and Family Therapy, and Mental Health Counseling. ~~has completed all of the following requirements:~~

~~a. Thirty-six semester hours or 48 quarter hours of graduate coursework, which must include a minimum of 3 semester hours or 4 quarter hours of graduate-level course credits in each of the following nine areas: dynamics of marriage and~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~family systems; marriage therapy and counseling theory and techniques; family therapy and counseling theory and techniques; individual human development theories throughout the life cycle; personality theory or general counseling theory and techniques; psychopathology; human sexuality theory and counseling techniques; psychosocial theory; and substance abuse theory and counseling techniques. Courses in research, evaluation, appraisal, assessment, or testing theories and procedures; thesis or dissertation work; or practicums, internships, or fieldwork may not be applied toward this requirement.~~

~~b. A minimum of one graduate-level course of 3 semester hours or 4 quarter hours in legal, ethical, and professional standards issues in the practice of marriage and family therapy or a course determined by the board to be equivalent.~~

~~c. A minimum of one graduate-level course of 3 semester hours or 4 quarter hours in diagnosis, appraisal, assessment, and testing for individual or interpersonal disorder or dysfunction; and a minimum of one 3-semester-hour or 4-quarter-hour graduate-level course in behavioral research which focuses on the interpretation and application of research data as it applies to clinical practice. Credit for thesis or dissertation work, practicums, internships, or fieldwork may not be applied toward this requirement.~~

~~d. A minimum of one supervised clinical practicum, internship, or field experience in a marriage and family counseling setting, during which the student provided 180 direct client contact hours of marriage and family therapy services under the supervision of an individual who met the requirements for supervision under paragraph (c). This requirement may be met~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~by a supervised practice experience which took place outside the academic arena, but which is certified as equivalent to a graduate-level practicum or internship program which required a minimum of 180 direct client contact hours of marriage and family therapy services currently offered within an academic program of a college or university accredited by an accrediting agency approved by the United States Department of Education, or an institution which is publicly recognized as a member in good standing with the Association of Universities and Colleges of Canada or a training institution accredited by the Commission on Accreditation for Marriage and Family Therapy Education recognized by the United States Department of Education. Certification shall be required from an official of such college, university, or training institution.~~

2. If the course title which appears on the applicant's transcript does not clearly identify the content of the coursework, the applicant shall be required to provide additional documentation, including, but not limited to, a syllabus or catalog description published for the course.

The required master's degree must have been received in an institution of higher education which at the time the applicant graduated was: fully accredited by a regional accrediting body recognized by the Commission on Recognition of Postsecondary Accreditation; publicly recognized as a member in good standing with the Association of Universities and Colleges of Canada; or an institution of higher education located outside the United States and Canada, which at the time the applicant was enrolled and at the time the applicant graduated maintained a standard of

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

training substantially equivalent to the standards of training of those institutions in the United States which are accredited by a regional accrediting body recognized by the Commission on Recognition of Postsecondary Accreditation. Such foreign education and training must have been received in an institution or program of higher education officially recognized by the government of the country in which it is located as an institution or program to train students to practice as professional marriage and family therapists or psychotherapists. The burden of establishing that the requirements of this provision have been met shall be upon the applicant, and the board shall require documentation, such as, but not limited to, an evaluation by a foreign equivalency determination service, as evidence that the applicant's graduate degree program and education were equivalent to an accredited program in this country. An applicant with a master's degree from a program which did not emphasize marriage and family therapy may complete the coursework requirement in a training institution fully accredited by the Commission on Accreditation for Marriage and Family Therapy Education recognized by the United States Department of Education.

(c) Has had at least 2 years of clinical experience during which 50 percent of the applicant's clients were receiving marriage and family therapy services, which must be at the post-master's level under the supervision of a licensed marriage and family therapist with at least 5 years of experience, or the equivalent, who is a qualified supervisor as determined by the board. An individual who intends to practice in Florida to satisfy the clinical experience requirements must register

pursuant to s. 491.0045 before commencing practice. If a graduate has a master's degree with a major emphasis in marriage and family therapy or a closely related field that did not include all the coursework required under subparagraph (b)1. ~~sub-subparagraphs (b)1.a.-c.~~, credit for the post-master's level clinical experience shall not commence until the applicant has completed a minimum of 10 of the courses required under subparagraph (b)1. ~~sub-subparagraphs (b)1.a.-c.~~, as determined by the board, and at least 6 semester hours or 9 quarter hours of the course credits must have been completed in the area of marriage and family systems, theories, or techniques. Within the 2 ~~3~~ years of required experience, the applicant shall provide direct individual, group, or family therapy and counseling, to include the following categories of cases: unmarried dyads, married couples, separating and divorcing couples, and family groups including children. A doctoral internship may be applied toward the clinical experience requirement. A licensed mental health professional must be on the premises when clinical services are provided by a registered intern in a private practice setting.

(d) Has passed a theory and practice examination provided by the department for this purpose.

(e) Has demonstrated, in a manner designated by rule of the board, knowledge of the laws and rules governing the practice of clinical social work, marriage and family therapy, and mental health counseling.

(f) For the purposes of dual licensure, the department shall license as a marriage and family therapist any person who meets the requirements of s. 491.0057. Fees for dual licensure

shall not exceed those stated in this subsection.

(4) MENTAL HEALTH COUNSELING.—Upon verification of documentation and payment of a fee not to exceed $200, as set by board rule, plus the actual per applicant cost to the department for purchase of the examination from the National Board for Certified Counselors or its successor ~~Professional Examination Service for the National Academy of Certified Clinical Mental Health Counselors or a similar national organization~~, the department shall issue a license as a mental health counselor to an applicant who the board certifies:

(a) Has submitted an application and paid the appropriate fee.

(b)1. Has a minimum of an earned master's degree from a mental health counseling program accredited by the Council for the Accreditation of Counseling and Related Educational Programs that consists of at least 60 semester hours or 80 quarter hours of clinical and didactic instruction, including a course in human sexuality and a course in substance abuse. If the master's degree is earned from a program related to the practice of mental health counseling that is not accredited by the Council for the Accreditation of Counseling and Related Educational Programs, then the coursework and practicum, internship, or fieldwork must consist of at least 60 semester hours or 80 quarter hours and meet the following requirements:

a. Thirty-three semester hours or 44 quarter hours of graduate coursework, which must include a minimum of 3 semester hours or 4 quarter hours of graduate-level coursework in each of the following 11 content areas: counseling theories and practice; human growth and development; diagnosis and treatment

of psychopathology; human sexuality; group theories and practice; individual evaluation and assessment; career and lifestyle assessment; research and program evaluation; social and cultural foundations; ~~counseling in community settings; and~~ substance abuse; and legal, ethical, and professional standards issues in the practice of mental health counseling. Courses in research, thesis or dissertation work, practicums, internships, or fieldwork may not be applied toward this requirement.

b. A minimum of 3 semester hours or 4 quarter hours of graduate-level coursework addressing diagnostic processes, including differential diagnosis and the use of the current diagnostic tools, such as the current edition of the American Psychiatric Association's Diagnostic and Statistical Manual of Mental Disorders. The graduate program must have emphasized the common core curricular experience ~~in legal, ethical, and professional standards issues in the practice of mental health counseling, which includes goals, objectives, and practices of professional counseling organizations, codes of ethics, legal considerations, standards of preparation, certifications and licensing, and the role identity and professional obligations of mental health counselors. Courses in research, thesis or dissertation work, practicums, internships, or fieldwork may not be applied toward this requirement~~.

c. The equivalent, as determined by the board, of at least 700 ~~1,000~~ hours of university-sponsored supervised clinical practicum, internship, or field experience that includes at least 280 hours of direct client services, as required in the accrediting standards of the Council for Accreditation of Counseling and Related Educational Programs for mental health

counseling programs. This experience may not be used to satisfy the post-master's clinical experience requirement.

2. If the course title which appears on the applicant's transcript does not clearly identify the content of the coursework, the applicant shall be required to provide additional documentation, including, but not limited to, a syllabus or catalog description published for the course.

Education and training in mental health counseling must have been received in an institution of higher education which at the time the applicant graduated was: fully accredited by a regional accrediting body recognized by the Council for Higher Education or its successor ~~Commission on Recognition of Postsecondary Accreditation~~; publicly recognized as a member in good standing with the Association of Universities and Colleges of Canada; or an institution of higher education located outside the United States and Canada, which at the time the applicant was enrolled and at the time the applicant graduated maintained a standard of training substantially equivalent to the standards of training of those institutions in the United States which are accredited by a regional accrediting body recognized by the Council for Higher Education or its successor ~~Commission on Recognition of Postsecondary Accreditation~~. Such foreign education and training must have been received in an institution or program of higher education officially recognized by the government of the country in which it is located as an institution or program to train students to practice as mental health counselors. The burden of establishing that the requirements of this provision have been met shall be upon the applicant, and the board shall require

documentation, such as, but not limited to, an evaluation by a foreign equivalency determination service, as evidence that the applicant's graduate degree program and education were equivalent to an accredited program in this country. Beginning July 1, 2024, an applicant must have a master's degree that is accredited by the Council for Accreditation of Counseling and Related Educational Programs which consists of at least 60 semester hours or 80 quarter hours to apply for licensure under this paragraph.

(c) Has had at least 2 years of clinical experience in mental health counseling, which must be at the post-master's level under the supervision of a licensed mental health counselor or the equivalent who is a qualified supervisor as determined by the board. An individual who intends to practice in Florida to satisfy the clinical experience requirements must register pursuant to s. 491.0045 before commencing practice. If a graduate has a master's degree with a major related to the practice of mental health counseling that did not include all the coursework required under sub-subparagraphs (b)1.a.-b., credit for the post-master's level clinical experience shall not commence until the applicant has completed a minimum of seven of the courses required under sub-subparagraphs (b)1.a.-b., as determined by the board, one of which must be a course in psychopathology or abnormal psychology. A doctoral internship may be applied toward the clinical experience requirement. A licensed mental health professional must be on the premises when clinical services are provided by a registered intern in a private practice setting.

(d) Has passed a theory and practice examination provided

by the department for this purpose.

(e) Has demonstrated, in a manner designated by rule of the board, knowledge of the laws and rules governing the practice of clinical social work, marriage and family therapy, and mental health counseling.

Section 35. Paragraph (b) of subsection (1) of section 491.006, Florida Statutes, is amended to read:

491.006 Licensure or certification by endorsement.—

(1) The department shall license or grant a certificate to a person in a profession regulated by this chapter who, upon applying to the department and remitting the appropriate fee, demonstrates to the board that he or she:

(b)1. Holds an active valid license to practice and has actively practiced the profession for which licensure is applied in another state for 3 of the last 5 years immediately preceding licensure.

~~2. Meets the education requirements of this chapter for the profession for which licensure is applied.~~

2.~~3.~~ Has passed a substantially equivalent licensing examination in another state or has passed the licensure examination in this state in the profession for which the applicant seeks licensure.

3.~~4.~~ Holds a license in good standing, is not under investigation for an act that would constitute a violation of this chapter, and has not been found to have committed any act that would constitute a violation of this chapter. The fees paid by any applicant for certification as a master social worker under this section are nonrefundable.

Section 36. Subsection (3) of section 491.007, Florida

Statutes, is amended to read:

491.007 Renewal of license, registration, or certificate.—

~~(3) The board or department shall prescribe by rule a method for the biennial renewal of an intern registration at a fee set by rule, not to exceed $100.~~

Section 37. Subsection (2) of section 491.009, Florida Statutes, is amended to read:

491.009 Discipline.—

(2) The board ~~department~~, or, in the case of certified master social workers ~~psychologists~~, the department ~~board~~, may enter an order denying licensure or imposing any of the penalties in s. 456.072(2) against any applicant for licensure or licensee who is found guilty of violating any provision of subsection (1) of this section or who is found guilty of violating any provision of s. 456.072(1).

Section 38. Paragraph (c) of subsection (2) of section 491.0046, Florida Statutes, is amended to read:

491.0046 Provisional license; requirements.—

(2) The department shall issue a provisional clinical social worker license, provisional marriage and family therapist license, or provisional mental health counselor license to each applicant who the board certifies has:

(c) Has met the following minimum coursework requirements:

1. For clinical social work, a minimum of 15 semester hours or 22 quarter hours of the coursework required by s. 491.005(1)(b)2.b.

2. For marriage and family therapy, 10 of the courses required by s. 491.005(3)(b)1. ~~s. 491.005(3)(b)1.a.-c.~~, as determined by the board, and at least 6 semester hours or 9

quarter hours of the course credits must have been completed in the area of marriage and family systems, theories, or techniques.

3. For mental health counseling, a minimum of seven of the courses required under s. 491.005(4)(b)1.a.-c.

Section 39. Subsection (11) of section 945.42, Florida Statutes, is amended to read:

945.42 Definitions; ss. 945.40-945.49.—As used in ss. 945.40-945.49, the following terms shall have the meanings ascribed to them, unless the context shall clearly indicate otherwise:

(11) "Psychological professional" means a behavioral practitioner who has an approved doctoral degree in psychology as defined in s. 490.003(3) ~~s. 490.003(3)(b)~~ and is employed by the department or who is licensed as a psychologist pursuant to chapter 490.

Section 40. This act shall take effect July 1, 2018.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/CS/SB 1494
INTRODUCER:	Appropriations Committee; Banking and Insurance Committee; Health Policy Committee; and Senator Montford and others
SUBJECT:	Prescription Drug Pricing Transparency
DATE:	March 5, 2018
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Lloyd	Stovall	HP	**Fav/CS**
2.	Johnson	Knudson	BI	**Fav/CS**
3.	Sanders	Hansen	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/CS/SB 1494 requires a pharmacist or his or her authorized employee to inform customers of potential lower cost generically equivalent alternatives for their prescriptions and whether a prescription's cost sharing amount exceeds the retail price in the absence of insurance coverage. The bill also requires pharmacy benefit managers (PBMs) to register with the Office of Insurance Regulation (OIR) and pay a biennial registration fee not to exceed $500. A PBM is a person or entity doing business in this state, which contracts to administer or manage prescription drug benefits on behalf of a health insurer or a health maintenance organization (HMO) to residents of this state.

Further, the bill requires that contracts of PBMs with insurers or HMOs must require the PBM to update the maximum allowable cost (MAC) information every seven calendar days and include specific terms to prohibit PBMs from limiting a pharmacist's ability to disclose to customers when cost sharing may exceed the retail price of a drug or the availability of a more affordable alternative drug. The bill also prohibits any contract between a PBM and a health insurer or HMO from requiring a customer to pay an amount that exceeds the applicable cost-sharing amount or the retail price of the drug in the absence of prescription drug coverage.

The bill appropriates $74,141 for one full time equivalent (FTE) position, with associated salary rate of 45,043, and $5,000 for technology upgrades to the Office of Insurance Regulation.

The effective date of the act is July 1, 2018.

II. Present Situation:

Prescription Drugs Costs

In 2016, total health care expenditures in the United States reached $3.3 trillion or $10,348 per person, which is a 4.3 percent increase over the 2015 level.[1,2] Of that amount, prescription drug coverage accounted for $328.6 billion, up from $324.5 billion, which was only a year-to-year growth rate of 1.3 percent.[3] In the prior year, 2014 to 2015, the annual growth trend in prescription drugs had been 8.9 percent and then 12.4 percent in the annual period of 2013 to 2014.[4] The significant growth rates of these periods are attributed largely to new medicines for hepatitis C and higher use rates for brand-names medications due to losses in certain patent protections.[5]

The graph below from the Centers for Medicare and Medicaid Services, Office of the Actuary, shows the Annual Growth in Retail Prescription Drug Spending from 2012 through 2016 highlighting the moderate increase in spending from 2015 to 2016 of 1.3 percent.[6] The 2016 decline in spending is linked to the approval of fewer new drugs, slower growth in brand name drugs, and a drop in spending in hepatitis C drugs.[7]

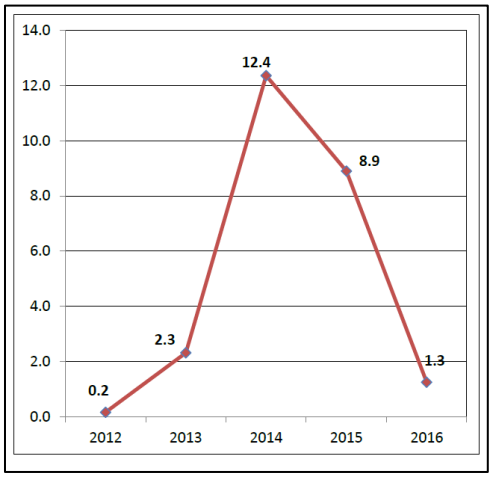
Graph 1 - Annual Growth in Retail Prescription Drug Spending - 2012 - 2016



SOURCE: Centers for Medicare & Medicaid Services, Office of the Actuary, National Health Statistics

As shown in *Table 1* below, the largest payer for prescription drugs is private health insurance coverage at 43 percent.[8]

Utilization data shows an increase in 2016 in the number of prescriptions dispensed, especially for drugs that treat high blood pressure, high cholesterol, and mental health.[9]

Table 1: Retail Prescription Growth Rates, 2015-2016[10,11] (in percent)			
Payer	**Percentage of Market**	**Percent Growth**	
		2015	**2016**
Overall – All Payers	100	8.9	1.3
Private Health Insurance	43	10.4	0.8
Medicare	29	9.3	2.8
Medicaid	10	13.4	5.5
Out-of-pocket spending	14	1.6	(1.0)

The United States Department of Health and Human Services (USDHHS), in a brief issued on March 8, 2016, found the rise in prescription drug costs can be attributed to:

- Population growth (10 percent);
- Increase in the number of prescriptions dispensed per person (30 percent);
- Economy-wide inflation (30 percent); and,

[8] *Supra* note 5, at 155.
[9] *Supra* note 1, at 156.

[11] Centers for Medicare and Medicaid Services, National Health Expenditure Data – Historical, *2016 - Table 16 – Retail Prescription Expenditures (Average Annual Percent Change from Previous Year Shown)* (Jan. 8, 2018) available at https://www.cms.gov/Research-Statistics-Data-and-Systems/Statistics-Trends-and-Reports/NationalHealthExpendData/NationalHealthAccountsHistorical.html (last viewed Feb. 22, 2018).

- Changes in the composition of drugs prescribed toward higher priced products or price increases for drugs that drove average price increases in excess of general inflation (30 percent).[12]

An increase in the use of specialty drugs may have also played a part in the increased costs. Expenditures on specialty drugs are rising more rapidly than expenditures on other drugs; however, there is no clear definition of what is considered a "specialty drug."[13] The estimates do not include non-retail drug spending.[14] The USDHHS estimates the 2015 non-retail drug spending at $128 billion. These estimates are based on data from the National Health Expenditure Accounts (NHEA) and account for 28 percent of all drug spending.[15]

Pharmacy Benefits Managers (PBMs)

Health insurers, HMOs, and other purchasers of health benefits coverage increasingly utilize pharmacy benefits managers (PBMs) to provide a range of services related to the acquisition and management of prescription drugs. The PBMs negotiate with retail pharmacies to obtain various discounts on prescription drug prices. The PBMs also provide the following services to its customers:

- Pharmacy claims processing;
- Mail-order pharmacy services;
- Rebate negotiations with drug manufacturers;
- Development of pharmacy networks;
- Formulary management;[16]
- Prospective and retrospective drug utilization reviews;
- Offer incentives to plan participations to use generic drug substitutions; and
- Disease management programs.

The decision of plan sponsors to use PBMs to control pharmacy benefit costs, however, can shift business away from retail pharmacies. A PBM can often use aggregate volume to offer its clients savings with discounts from pharmaceutical manufacturers and pharmacies.[17] An estimated 266 million Americans have their pharmacy benefits managed by a PBM.[18] An industry advocacy group estimates that PBMs have saved an average of $941 per person per year

compared to unmanaged expenditures,[19] including a total of $43.4 billion across all payors[20] in Florida.[21]

Approximately 60 PBMs are operational nationally[22], and the three largest – Express Scripts, CVS/Caremark, and OptumRx – report filling or managing a combined 5.1 billion prescriptions annually.[23,24, 25] PBMs use different tools and methods to reduce costs and find savings for payors through:

- Reductions in the unit costs of drugs;
- The mix of drugs that are prescribed; and,
- The modification of patient behavior through either reduction of inappropriate use of certain prescriptions or improvements in patient adherence to drug regimens.[26]

Examples of unit cost reductions may be in discounts to pharmacy network participants, use of manufacturer rebates, or the increased use of mail order pharmacies. PBMs may also encourage a greater use of generic drugs over certain brand name drugs, require step therapy, or implement tiered copayment levels for different types of prescriptions to achieve desired savings. Reducing or eliminating certain types of patient behaviors through quantity limits, prior authorization requirements, or other patient management programs are also tools that may be used.[27] Each PBM may generate savings from these actions, which may also translate into savings for the patient and the payor.

Most patients assume that their share of cost of that prescription will be less than the actual retail cost of the prescription (or the non-insured cash price) of the drug. However, this may not always be the case. In cases where the retail price of the drug is less than a patient's applicable cost share, a patient could pay the regular cost sharing, regardless of the retail price; pay the lower retail price; or, some other amount based on the contract terms between the PBM and the pharmacy. If a pharmacist is obligated to charge this higher price, the PBM may collect as revenue the difference between a patient's cost share and the lower retail price.[28] One recent *New York Times* article cited a statistic that for up to 10 percent of drug transactions, the patient could

have gotten a better price without an insurance card for a prescription than with his or her coverage.[29]

Maximum Allowable Cost Pricing List

Contracts between a PBM and health plan sponsors, insurers, or health maintenance organizations (HMOs) specify how much such entities will pay the PBMs for brand name and generic drugs. These prices are typically set as a discount off the average wholesale price[30] for brand-name drugs and at a maximum allowable cost (MAC)[31] for generic drugs, plus a dispensing fee. The MAC represents the upper limit price that a payor, such as a state or a plan sponsor has through its PBM, will pay or reimburse for generic and brand drugs that have generic versions available.[32] A national survey represents that 92 percent of large employers have such a list in place through their PBM.[33]

A MAC pricing list creates a standard reimbursement amount for identical products, and is a common cost management tool developed from a proprietary survey of wholesale prices in the marketplace, taking into account market share, inventory, reasonable profits margins, and other factors. The purpose of the MAC pricing list is to ensure that the pharmacy is motivated to seek and purchase generic drugs at the lowest price in the marketplace. The federal Medicare Part D program and 44 state Medicaid programs use some type of MAC price lists to reduce costs.[34]

Regulation of Pharmacies and Pharmacy Benefit Management Companies

In Florida, PBMs are not regulated or licensed. However, the Board of Pharmacy under ch. 465, F.S., regulates pharmacies, adopts rules to implement the provisions of the Pharmacy Act, and takes other actions according to duties conferred upon it.[35] Each pharmacy is subject to inspection by the Department of Health (DOH) and may be disciplined for violations of applicable laws and rules relating to a pharmacy.[36]

[35] Sections 465.005 and 465.022, F.S.
[36] Sections 465.015 and 465.016, F.S.

A PBM administers the prescription drug part of a health plan on behalf of plan sponsors, insurers, and HMOs. Some states require PBMs to either register with state insurance regulators or be licensed as third-party administrators.[37] Types of state regulation of PBMs include: [38]

Licensure/Registration of PBMs		Patient Protections and Pricing Transparency	Both Licensure and Patient Protections
Iowa (2007) Kansas (2006) Kentucky (2016) Maryland (2003) New Mexico (2016)	North Dakota (2005) Rhode Island (2004) South Dakota (2004) Wyoming (2016)	Georgia (2017) Louisiana (2016) North Carolina (2017) Tennessee (2009) Texas (2017)	Arkansas (2015) Connecticut (2007, 2017) Washington (2014)

A PBM may obtain accreditation from various accrediting bodies that determine if certain national standards are met. Accreditation is an evaluative, rigorous, transparent, and comprehensive process in which a health care organization undergoes an examination of its systems, processes, and performance by an accrediting body to ensure that it is conducting business in a manner that meets predetermined criteria and is consistent with national standards. Current law provides that a contract between a PBM and a pharmacy must include requirements that the PBM:

- Update the MAC pricing at least every seven calendar days; and
- Maintains a process to eliminate drugs in a timely manner from the MAC lists or drug price lists, and to remain consistent with changes in pricing data that is used in formulating the MAC prices and product availability.[39]

However, no state agency is responsible for enforcing these provisions.

III. Effect of Proposed Changes:

Section 1 amends s. 465.0244, F.S., to require a pharmacist or his or her authorized employee to notify customers:

- If a less expensive, generically equivalent drug product is available for his or her prescription; and
- If the customer's cost sharing obligation for his or her prescription exceeds the retail price of the customer's prescription in the absence of prescription drug coverage.

Section 2 repeals s. 465.1862, F.S., relating to contracts between pharmacy benefit managers (PBM) and pharmacies.

Section 3 creates s. 624.490, F.S., to require the Office of Insurance Regulation (OIR) to implement a PBM registration and biennial registration renewal process beginning January 1,

[39] Section 465.1862(2), F.S.

2019. The bill also defines a PBM to mean a person or entity who is doing business in this state, which contracts to administer prescription drug benefits on behalf of a health insurer or a health maintenance organization to residents of this state.

To register, a PBM is required to submit a completed registration on a form, which contains the name and address of the registrant and the directors and officers of the registrant. Upon receipt of a completed registration form, the registration fee, and required documents, the OIR must issue a registration certification to the PBM. The registration certificate is valid for two years. The certificate is nontransferable.

The PBM must report to the OIR any changes in the information required for registration within 60 days of the change. The Financial Services Commission must adopt by rule an initial registration fee not to exceed $500 and a registration renewal fee not to exceed $500. The commission must adopt rules to implement the registration process.

Sections 4, 5 and 6 create ss. 627.64741, 627.6572, and 641.314, F.S., respectively, to require a contract between a PBM and a health insurer, or a PBM and a health maintenance organization (HMO), mandate that the PBM:

- Update its maximum allowable cost (MAC) information at least every seven calendar days. The term "MAC" is defined as the per unit amount that a PBM reimburses a pharmacist for a prescription drug, excluding dispensing fees.
- Maintain a process that will, in a timely manner, eliminate drugs from the MAC lists or modify drug prices to remain consistent with changes in pricing data used in formulating MAC and product availability.
- May not limit a pharmacist's ability to disclose to the consumer whether the consumer's cost sharing obligation exceeds the retail price for a covered prescription drug and disclosure of the availability of a more affordable alternative drug.

These provisions would apply to individual and group policies and contracts of insurers and HMOs, respectively. Further, these sections prohibit a PBM from requiring a consumer to pay for a prescription in an amount that exceeds the lesser of the applicable cost sharing amount or the retail price in the absence of prescription drug coverage. The changes in these sections are effective for contracts entered into or renewed on or after July 1, 2018.

Section 7 provides an effective date for the act of July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The bill creates a registration program within the Office of Insurance Regulation (OIR) for pharmacy benefit managers (PBMs). The Financial Services Commission must adopt by rule an initial registration fee that may not exceed $500 and a renewal fee that may not exceed $500.

B. Private Sector Impact:

Each pharmacy benefit manager seeking to do business in the state will be required to complete the new registration process with the OIR and will be required to pay a biennial registration fee and renewal fee. The PBM will incur administrative costs to complete the registration process and to maintain updated information with the OIR.

The bill prohibits a PBM from limiting a pharmacist from notifying a patient if the patient's cost sharing obligation exceeds the retail price for a covered drug and of the availability of a more affordable alternative drug. This could reduce the out-of-pocket costs of some consumers. However, some insurers suggest that this practice may increase the costs of health care.

C. Government Sector Impact:

The bill requires the OIR to implement and maintain a registration process for PBMs. The initial registration fee and the biennial registration certificate fees are capped at $500 each, and the Financial Services Commission must adopt by rule such fees. This will result in revenues deposited into the Insurance Regulatory Trust Fund.

The bill appropriates $74,141 for one full time equivalent position and $5,000 for technology upgrades and provides 45,043 in associated salary rate to the OIR.

VI. Technical Deficiencies:

None.

VII. Related Issues:

PBM Registration Process

The Office of Insurance Regulation (OIR) notes that the bill does not include any guidelines by which the OIR could evaluate, approve, or disapprove the registration application or renewal of a

pharmacy benefits manager (PBM) other than the completeness of a form.[40] This may result in the approval of an individual with a criminal background, for example.

OIR Oversight and Enforcement Authority

The OIR requests the statutory authority to conduct market examinations on the registered PBMs and to require the PBMs to pay for the costs of those exams under s. 624.3161, F.S., as is done for all other market conduct examinations. The bill does not provide the OIR with statutory authority to determine or enforce a PBM's compliance with the provisions of this bill.

VIII. Statutes Affected:

This bill substantially amends section 465.0244 of the Florida Statutes.

This bill creates the following sections of the Florida Statutes: 624.490, 627.64741, 627.6572, and 641.314.

This bill repeals section 465.1862 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS/CS by Appropriations on March 2, 2018:
The committee substitute appropriates the following to the Office of Insurance Regulation:

- $74,141 in recurring funds for one full time equivalent position from the Insurance Regulatory Trust Fund;
- $5,000 in nonrecurring funds for technology upgrades from the Insurance Regulatory Trust Fund; and
- Associated salary rate of 45,034.

CS/CS by Banking and Insurance on February 20, 2018:
The CS/CS revises the Office of Insurance Regulation (OIR) registration process for pharmacy benefit managers (PBMs) in the following manner:

- Requires PBMs to register with the OIR beginning January 1, 2019.
- Caps the initial registration fee at $500 and renewal fee at $500.
- Clarifies that the PBM must submit all required registration information prior to the issuance of the registration certificate by the OIR.
- Provides technical conforming changes.

CS by Health Policy on February 6, 2018:
The CS adds the ability for a pharmacist's authorized employee, in addition to the requirement for a pharmacist, to inform a customer of the availability of less expensive, generically equivalent drug product for his or her prescription and as to whether a

[40] *Id.*

customer's cost-sharing obligation exceeds the retail price of the prescription drug in the absence of prescription drug coverage.

The CS repeals s. 465.1862, F.S., relating to pharmacy benefits manager contracts; however, these provisions are moved to the insurance code under the jurisdiction of the OIR.

Additionally, the CS modifies the PBM registration process by:

- Eliminating requirements for an individual's social security number;
- Removing the requirement that PBM's submit the names of those individuals or entities with 10 percent or greater controlling ownership interest with the registration or biennial renewal;
- Deleting the definition of controlling interest;
- Extending the notice period for information changes to 60 days from 30 days; and
- Capping the maximum fees that may be charged by the OIR for administering the process at $500.

The CS deletes the requirement that the contracts between PBMs and insurers and HMOs include a prohibition against limiting the ability of the pharmacy or PBM to substitute a less expensive, generically equivalent drug product for a brand name drug.

For contracts between health insurers and HMOs and the PBMs, the CS amends the comparison points relating to the consumer's out of pocket cost for prescription drugs from three to two, so the consumer pays the lesser of the applicable cost-sharing amount or the retail price of the drug in the absence of prescription drug coverage. The third reference point, the allowable claim amount for the prescription drug, is deleted.
The CS also creates s. 627.6572, F.S, making the provisions relating to PBM contract reporting on MAC cost information and contract provision requirements applicable to group health insurance policies.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

Senate Amendment

Delete lines 116 - 192
and insert:
(5) This section applies to contracts entered into, modified, amended, altered, or renewed on or after July 1, 2018.
Section 5. Section 627.6572, Florida Statutes, is created to read:
627.6572 Pharmacy benefit manager contracts.—
(1) As used in this section, the term:

722650

(a) "Maximum allowable cost" means the per-unit amount that a pharmacy benefit manager reimburses a pharmacist for a prescription drug, excluding dispensing fees, prior to the application of copayments, coinsurance, and any other cost-sharing charges.

(b) "Pharmacy benefit manager" means a person or entity doing business in this state which contracts to administer or manage prescription drug benefits on behalf of a health insurer to residents of this state.

(2) A contract between a health insurer and a pharmacy benefit manager must require that the pharmacy benefit manager:

(a) Update maximum allowable cost pricing information at least every 7 calendar days.

(b) Maintain a process that will, in a timely manner, eliminate drugs from maximum allowable cost lists or modify drug prices to remain consistent with changes in pricing data used in formulating maximum allowable cost prices and product availability.

(3) A contract between a health insurer and a pharmacy benefit manager must prohibit the pharmacy benefit manager from limiting a pharmacist's ability to disclose whether the cost-sharing obligation exceeds the retail price for a covered prescription drug, and the availability of a more affordable alternative drug, pursuant to s. 465.0244.

(4) A contract between a health insurer and a pharmacy benefit manager must prohibit the pharmacy benefit manager from requiring an insured to make a payment for a prescription drug at the point of sale in an amount that exceeds the lesser of:

(a) The applicable cost-sharing amount; or

722650

(b) The retail price of the drug in the absence of prescription drug coverage.

(5) This section applies to contracts entered into, modified, amended, altered, or renewed on or after July 1, 2018.

Section 6. Section 641.314, Florida Statutes, is created to read:

641.314 Pharmacy benefit manager contracts.—

(1) As used in this section, the term:

(a) "Maximum allowable cost" means the per-unit amount that a pharmacy benefit manager reimburses a pharmacist for a prescription drug, excluding dispensing fees, prior to the application of copayments, coinsurance, and any other cost-sharing charges.

(b) "Pharmacy benefit manager" means a person or entity doing business in this state which contracts to administer or manage prescription drug benefits on behalf of a health maintenance organization to residents of this state.

(2) A contract between a health maintenance organization and a pharmacy benefit manager must require that the pharmacy benefit manager:

(a) Update maximum allowable cost pricing information at least every 7 calendar days.

(b) Maintain a process that will, in a timely manner, eliminate drugs from maximum allowable cost lists or modify drug prices to remain consistent with changes in pricing data used in formulating maximum allowable cost prices and product availability.

(3) A contract between a health maintenance organization and a pharmacy benefit manager must prohibit the pharmacy

A bill to be entitled

An act relating to prescription drug pricing transparency; amending s. 465.0244, F.S.; requiring pharmacists to inform customers of less expensive, generically equivalent drugs for their prescriptions and as to whether customers' cost-sharing obligations exceed the retail price of their prescriptions; repealing s. 465.1862, F.S., relating to pharmacy benefit manager contracts; creating s. 624.490, F.S.; defining the term "pharmacy benefit manager"; requiring a pharmacy benefit manager to register with the Office of Insurance Regulation beginning on a specified date; providing requirements and terms of registration, including the payment of a nonrefundable fee; requiring the office to issue certificates of registration; specifying that certificates are nontransferable; requiring the Financial Services Commission to set an initial registration fee and a renewal fee which are nonrefundable and may not exceed a specified amount; requiring the commission to adopt rules; creating ss. 627.64741, 627.6572, and 641.314, F.S.; defining the terms "maximum allowable cost" and "pharmacy benefit manager"; requiring that certain terms be included in a contract between a health insurer or a health maintenance organization and a pharmacy benefit manager; providing applicability; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

597-03453-18 20181494c2

Section 1. Section 465.0244, Florida Statutes, is amended to read:

465.0244 Information disclosure.—

(1) Every pharmacy shall make available on its website a hyperlink to the health information that is disseminated by the Agency for Health Care Administration pursuant to s. 408.05(3) and shall place in the area where customers receive filled prescriptions notice that such information is available electronically and the address of its Internet website.

(2) In addition to the requirements of s. 465.025, a pharmacist or her or his authorized employee must inform a customer of a less expensive, generically equivalent drug product for her or his prescription and as to whether the customer's cost-sharing obligation exceeds the retail price of the prescription in the absence of prescription drug coverage.

Section 2. Section 465.1862, Florida Statutes, is repealed.

Section 3. Section 624.490, Florida Statutes, is created to read:

624.490 Registration of pharmacy benefit managers.—

(1) As used in this section, the term "pharmacy benefit manager" means a person or entity doing business in this state which contracts to administer prescription drug benefits on behalf of a health insurer or a health maintenance organization to residents of this state.

(2) Beginning January 1, 2019, a pharmacy benefit manager must register with the office to conduct business in this state. To initially register or renew a registration, a pharmacy benefit manager must submit:

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

(a) A nonrefundable fee;

(b) A copy of the registrant's corporate charter, articles of incorporation, or other charter document; and

(c) A completed registration on a form adopted by the commission which contains:

1. The name and address of the registrant; and

2. The name, address, and official position of each officer and director of the registrant.

(3) The registrant shall report any change in information required by subsection (2) to the office in writing within 60 days after the change occurs.

(4) Upon receipt of a completed registration form, required documents, and the registration fee, the office shall issue a registration certificate. The certificate may be in paper or electronic form, and must indicate the expiration date of the registration. Registration certificates are nontransferable.

(5) A registration certificate is valid for 2 years from its date of issue. The commission shall adopt by rule an initial registration fee not to exceed $500 and a registration renewal fee not to exceed $500, both of which are nonrefundable.

(6) The commission shall adopt rules necessary to implement this section.

Section 4. Section 627.64741, Florida Statutes, is created to read:

627.64741 Pharmacy benefit manager contracts.—

(1) As used in this section, the term:

(a) "Maximum allowable cost" means the per-unit amount that a pharmacy benefit manager reimburses a pharmacist for a prescription drug, excluding dispensing fees, prior to the

application of copayments, coinsurance, and other cost-sharing charges, if any.

(b) "Pharmacy benefit manager" means a person or entity doing business in this state which contracts to administer or manage prescription drug benefits on behalf of a health insurer to residents of this state.

(2) A contract between a health insurer and a pharmacy benefit manager must require that the pharmacy benefit manager:

(a) Update maximum allowable cost pricing information at least every 7 calendar days.

(b) Maintain a process that will, in a timely manner, eliminate drugs from maximum allowable cost lists or modify drug prices to remain consistent with changes in pricing data used in formulating maximum allowable cost prices and product availability.

(3) A contract between a health insurer and a pharmacy benefit manager must prohibit the pharmacy benefit manager from limiting a pharmacist's ability to disclose whether the cost-sharing obligation exceeds the retail price for a covered prescription drug, and the availability of a more affordable alternative drug, pursuant to s. 465.0244.

(4) A contract between a health insurer and a pharmacy benefit manager must prohibit the pharmacy benefit manager from requiring an insured to make a payment for a prescription drug at the point of sale in an amount that exceeds the lesser of:

(a) The applicable cost-sharing amount; or

(b) The retail price of the drug in the absence of prescription drug coverage.

(5) This section applies to contracts entered into or

renewed on or after July 1, 2018.

Section 5. Section 627.6572, Florida Statutes, is created to read:

627.6572 Pharmacy benefit manager contracts.—

(1) As used in this section, the term:

(a) "Maximum allowable cost" means the per-unit amount that a pharmacy benefit manager reimburses a pharmacist for a prescription drug, excluding dispensing fees, prior to the application of copayments, coinsurance, and any other cost-sharing charges.

(b) "Pharmacy benefit manager" means a person or entity doing business in this state which contracts to administer or manage prescription drug benefits on behalf of a health insurer to residents of this state.

(2) A contract between a health insurer and a pharmacy benefit manager must require that the pharmacy benefit manager:

(a) Update maximum allowable cost pricing information at least every 7 calendar days.

(b) Maintain a process that will, in a timely manner, eliminate drugs from maximum allowable cost lists or modify drug prices to remain consistent with changes in pricing data used in formulating maximum allowable cost prices and product availability.

(3) A contract between a health insurer and a pharmacy benefit manager must prohibit the pharmacy benefit manager from limiting a pharmacist's ability to disclose whether the cost-sharing obligation exceeds the retail price for a covered prescription drug, and the availability of a more affordable alternative drug, pursuant to s. 465.0244.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

(4) A contract between a health insurer and a pharmacy benefit manager must prohibit the pharmacy benefit manager from requiring an insured to make a payment for a prescription drug at the point of sale in an amount that exceeds the lesser of:

(a) The applicable cost-sharing amount; or

(b) The retail price of the drug in the absence of prescription drug coverage.

(5) This section applies to contracts entered into or renewed on or after July 1, 2018.

Section 6. Section 641.314, Florida Statutes, is created to read:

641.314 Pharmacy benefit manager contracts.—

(1) As used in this section, the term:

(a) "Maximum allowable cost" means the per-unit amount that a pharmacy benefit manager reimburses a pharmacist for a prescription drug, excluding dispensing fees, prior to the application of copayments, coinsurance, and any other cost-sharing charges.

(b) "Pharmacy benefit manager" means a person or entity doing business in this state which contracts to administer or manage prescription drug benefits on behalf of a health maintenance organization to residents of this state.

(2) A contract between a health maintenance organization and a pharmacy benefit manager must require that the pharmacy benefit manager:

(a) Update maximum allowable cost pricing information at least every 7 calendar days.

(b) Maintain a process that will, in a timely manner, eliminate drugs from maximum allowable cost lists or modify drug

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

prices to remain consistent with changes in pricing data used in formulating maximum allowable cost prices and product availability.

(3) A contract between a health maintenance organization and a pharmacy benefit manager must prohibit the pharmacy benefit manager from limiting a pharmacist's ability to disclose whether the cost-sharing obligation exceeds the retail price for a covered prescription drug, and the availability of a more affordable alternative drug, pursuant to s. 465.0244.

(4) A contract between a health maintenance organization and a pharmacy benefit manager must prohibit the pharmacy benefit manager from requiring a subscriber to make a payment for a prescription drug at the point of sale in an amount that exceeds the lesser of:

(a) The applicable cost-sharing amount; or

(b) The retail price of the drug in the absence of prescription drug coverage.

(5) This section applies to contracts entered into or renewed on or after July 1, 2018.

Section 7. This act shall take effect July 1, 2018.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	SB 1508
INTRODUCER:	Senator Young
SUBJECT:	Use of Stem Cells in a Clinic Setting
DATE:	February 26, 2018
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Rossitto-Van Winkle	Stovall	HP	**Favorable**
2.	Loe	Hansen	AP	**Favorable**
3.			RC	

I. Summary:

SB 1508 creates a regulatory framework for the use of stem cells by doctors in a clinic setting. The bill:

- Requires clinics that do not meet specific requirements to register with the Department of Health (DOH) when stem cells are used in performing certain medical acts or procedures.
- Provides responsibilities for physicians in the performance of any procedure using, or purporting to use, stem cells or products containing stem cells.
- Authorizes the DOH to render disciplinary sanctions for clinics or physicians that are non-compliant with the requirements under the bill.
- Provides rulemaking authority for the DOH and its applicable health care professional regulatory boards.

The bill will increase expenditures in the DOH by an indeterminate, yet significant amount; however, the regulatory fees authorized under the bill and collected by the DOH will offset the increase in expenditures.

The effective date of the bill is July 1, 2018.

II. Present Situation:

Stem Cells

Stem cells are unspecialized cells that have the ability to divide for indefinite periods of time in culture median, and to give rise to specialized cells.[1] Stem cells have the potential to develop into

[1] National Institutes of Health, Stem Cell Information, Glossary, *Stem Cell* https://stemcells.nih.gov/glossary.htm#stemcells (last visited Feb. 4, 2018).

many different types of cells during early life and growth. In addition, in many tissues, stem cells serve as an internal repair system, dividing essentially without limit, to replenish other cells as long as the person is still alive. When a stem cell divides, each new cell has the potential to either remain an undifferentiated stem cell, or become a cell with a specialized function such as a muscle, red blood, or brain cell.[2]

Stem cells are distinguished from other cells by two important characteristics:

- Unspecialized cells capable of renewing themselves through cell division; and
- Can be induced to become tissue-specific or organ-specific cells under certain physiologic or experimental conditions.[3]

In some organs – such as the alimentary canal (gut) – and bone marrow, stem cells regularly divide to repair and replace worn out or damaged tissues. In other organs, such as the pancreas and the heart, stem cells only divide under special conditions.[4]

Until recently, scientists primarily worked with two kinds of stem cells from animals and humans: embryonic stem cells[5] and non-embryonic "somatic," or "adult," stem cells.[6] Stem cells offer new potentials for treating diseases such as diabetes and heart disease given their unique regenerative abilities. More research is needed to understand how to use these cells for cell-based therapies to treat disease. This practice is referred to as regenerative or reparative medicine.[7]

Federal Regulation of Stem Cells

Under 21 C.F.R. 1271, certain stem cells are labeled as a drug[8] and subject to FDA regulation if the stem cell has been derived from structural tissue or non-structural tissue in a manufacturing process involving more than minimal manipulation.[9]

---

[2]National Institutes of Health, *Stem Cell Basics I.*, https://stemcells.nih.gov/info/basics/1.htm (last visited Jan. 10, 2018).
[3] *Id.*
[4] *Id.*
[5] Embryonic stem cells are primitive undifferentiated cells that are derived from preimplantation-stage embryos. They are capable of dividing without differentiating for a prolonged period in culture; and are known to develop into cells and tissues of the three primary germ layers. The three germ layers are the ectoderm, the mesoderm, and the endoderm. *See* National Institutes of Health, *Stem Cell Information, Glossary, Embryonic Stem Cells,* https://stemcells.nih.gov/glossary.htm#stemcells (last visited Jan. 10, 2018).
[6] Somatic (adult) stem cells are relatively rare undifferentiated cells found in many organs and differentiated tissues with a limited capacity for both self-renewal (in the laboratory) and differentiation. Such cells vary in their differentiation capacity, but it is usually limited to cell types in the organ of origin. *See* National Institutes of Health, *Stem Cell Information, Glossary, Somatic (adult) Stem Cells,* https://stemcells.nih.gov/glossary.htm#stemcells (last visited Jan. 10, 2018).
[7] National Institutes of Health, *Stem Cell Basics I.*, https://stemcells.nih.gov/info/basics/1.htm (last visited Jan. 10, 2018).
[8] See 21 U.S.C. s. 321(g). The FDA defines a "drug" as an article intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease and "articles (other than food) intended to affect the structure or function of the body."
[9] U.S Department of Health and Human Services, Food and Drug Administration, Center for Evaluation and Research, Center for Devices and Radiological Health, Office of Combination Products, (Nov. 2017, corrected Dec. 2017), *Regulatory Considerations for Human Cells, Tissues, and Cellular and Tissue-Based Products: Minimal Manipulation and Homologous Use, Guidance for Industry and Food and Drug Administration Staff,* https://www.fda.gov/downloads/biologicsbloodvaccines/guidancecomplianceregulatoryinformation/guidances/cellularandgenetherapy/ucm585403.pdf (last visited Jan. 19, 2018). Section 1271.10(a)(1) provides that one of the criteria for an HCT/P to be regulated solely under s. 361 of the PHSA and the regulations in Part 1271, is that the HCT/P is only "minimally manipulated." As defined in 21 CFR 1271.3(f), "minimal manipulation" means: 1) For *structural tissue*, processing that *does not alter the original relevant characteristics of the tissue relating to the tissue's utility for reconstruction, repair, or*

The FDA regulates articles containing or consisting of human cells or tissues that are intended for implantation, transplantation, infusion or transfer into a human recipient as human cells, tissues, or cellular or tissue-based products (HCT/Ps) which are known as stem cells.[10]

The U.S. Center for Biologics Evaluation and Research (CBER) regulates HCT/Ps.[11] The CBER does not regulate the transplantation of vascularized human organ transplants such as the kidney, liver, heart, lung, or pancreas. The Health Resources and Services Administration (HRSA) of the United States Department of Health and Human Services oversees the transplantation of vascularized human organs.[12]

Minimally manipulated bone marrow is also used in stem cell treatments, but not considered by the FDA to be an HCT/Ps,[13] and thus is not regulated by the FDA.[14] The HRSA regulates minimally manipulated bone marrow stem cells used for transplant.[15]

Due to the unique nature of HCT/Ps, the FDA uses a tiered, risk-based approach to the regulation of HCT/Ps, rather than the Federal Food, Drug and Cosmetic Act (FDCA), for products that meet the definition of a drug, biologic, or device.[16] The tiered, risk-based approach includes recommendations on how the transmission of communicable diseases can be prevented; what process controls are necessary to prevent contamination and preserve the integrity and function of the products; and how clinical safety and effectiveness can be assured.[17]

The tiered, risk-based approach is contained in regulations referred to as the "tissue rules" issued by the FDA under the communicable disease authority of s. 361 of the Public Health Service Act (PHSA).[18]

---

replacement (emphasis added); or 2) For *cells or nonstructural tissues,* processing *does not alter the relevant biological characteristics of cells or tissues*. Note: the FDA considers the processing of an HCT/P to be, "more than minimal manipulation," if information does not exist to show that the HCT/P qualifies for regulation solely under s. 361 of the PHSA. *See* 21 C.F.R. 1271.21 and 1271.10.

[10] 21 C.F.R. 1271.3(d).

[11] See 21 C.F.R., 1270 and 1271. The CBER is a part of the Food and Drug Administration.

[16] Although the FDA is authorized to apply the requirements in the Federal Food, Drug, and Cosmetic Act and the Public Health Service Act to those products that meet the definition of drug, biologic, or device, under this tiered, risk-based approach, those HCT/Ps that meet specific criteria or fall within detailed exceptions do not require premarket review or approval. *See* U.S Department of Health and Human Services, Food and Drug Administration, Center for Evaluation and Research, Center for Devices and Radiological Health, Office of Combination Products, Nov. 2017, corrected Dec. 2017, *Regulatory Considerations for Human Cells, Tissues, and Cellular and Tissue-Based Products: Minimal Manipulation and Homologous Use, Guidance for Industry and Food and Drug Administration Staff,* https://www.fda.gov/downloads/biologicsbloodvaccines/guidancecomplianceregulatoryinformation/guidances/cellularandgenetherapy/ucm585403.pdf (last visited Jan. 19, 2018).

[17] *Id.*

[18] 42 U.S.C. s. 264.

For an HCT/P to be regulated solely under the requirements of s. 361 of the PHSA and 21 C.F.R. 1271 it must meet all of the following criteria:[19]

- The HCT/P is minimally manipulated;[20]
- The HCT/P is intended for homologous use only;[21]
- The HCT/P is not combined with any other article, except water, crystalloids, or a sterilizing, preserving, or storage agent; and
- The HCT/P either:
  - Does not have a systemic effect, and is not dependent upon the metabolic activity of living cells, for its primary function; or
  - Has a systemic effect, or is dependent upon the metabolic activity of living cells for its primary function, and:
    - Is for autologous use;[22]
    - Is for allogeneic use;[23] or
    - Is for reproductive use.[24]

To apply the minimally manipulated criteria, the FDA first determines if the HCT/P to be transplanted was derived from structural tissue or cellular/nonstructural tissue. This determination is made based on the characteristics of the HCT/P in the donor, prior to recovery, and before any processing takes place.[25]

In applying the minimally manipulated analysis, the FDA acknowledges that HCT/Ps perform multiple functions and that structural tissues contain cells. The FDA also acknowledges that some manufacturers assert that an HCT/P has both a structural and cellular/nonstructural function. However, under FDA regulations, HCT/Ps are considered either structural tissues or cells/nonstructural tissues. HCT/Ps that physically support or serve as a barrier or conduit, or connect, cover, or cushion are generally considered structural tissues for the purpose of applying the HCT/P regulatory framework. The FDA gives the following examples of what it considers

---

[19] 21 C.F.R. 1271.10.

[20] 21 C.F.R. 1271.10(a)(1) provides that one of the criteria for an HCT/P to be regulated solely under s. 361 of the PHSA and the regulations in 1271, is that the HCT/P is only "minimally manipulated". As defined in 21 C.F.R. 1271.3(f), "minimal manipulation" means: 1) For *structural tissue*, processing that *does not alter the original relevant characteristics of the tissue relating to the tissue's utility for reconstruction, repair, or replacement* (emphasis added); or 2) For *cells or nonstructural tissues*, processing *does not alter the relevant biological characteristics of cells or tissues*. Note: the FDA considers the processing of an HCT/P to be, "more than minimal manipulation," if information does not exist to show that the HCT/P qualifies for regulation solely under s. 361 of the PHSA.

[21] 21 C.F.R. 1271.10(a)(2), provides that one of the criteria for an HCT/P to be regulated solely under s. 361 of the PHSA, and the regulations in 1271, is that the "HCT/P is intended for homologous use only, as reflected by the labeling, advertising, or other indications of the manufacturer's objective intent." As defined in 21 C.F.R. 1271.3(c), "homologous use" means the repair, reconstruction, replacement, or supplementation of a recipient's cells or tissues with an HCT/P that performs the same basic function or functions in the recipient as in the donor. This criterion reflects the FDA's conclusion that there would be increased safety and effectiveness concerns for HCT/Ps that are intended for a non-homologous use, because there is less basis on which to predict the product's behavior. *See supra* note 8, at 4.

[22] *"Autologous use"* means the implantation, transplantation, infusion, or transfer of human cells or tissue back into the individual from whom the cells or tissue were recovered. *See* 21 C.F.R. 1271.3(a).

[23] *"Allogeneic use"* means taken from different individuals of the same species. Two or more individuals are said to be allogeneic to one another when the genes at one or more loci are not identical. Medicinenet.com, *Medical Definition of Allogeneic*, https://www.medicinenet.com/script/main/art.asp?articlekey=25266 (last visited Jan. 10, 2018).

[24] 21 C.F.R. 1271.10(a).

[25] *Supra* note 9.

structural tissue: bone, skin, amniotic membrane and umbilical cord, blood vessel, adipose tissue, articular cartilage, non-articular cartilage, and tendon or ligament.[26]

HCT/Ps that serve metabolic or other biochemical roles in the body, such as hematopoietic, immune, and endocrine functions, are generally considered cells/nonstructural tissues for the purpose of applying the FDA HCT/P regulatory framework. The FDA examples of cells or nonstructural tissues include: reproductive cells or tissues (oocytes), hematopoietic stem/progenitor cells (cord blood), lymph nodes and thymus, parathyroid glands, peripheral nerve, and pancreatic tissue.[27]

The FDA defines processing as any activity performed on an HCT/P, other than: rinsing, cleaning, recovery, donor screening, donor testing, storage, sizing, labeling, packaging, distribution, testing for microorganisms, preparation, sterilizations, steps to inactivate or remove adventitious agents, preservation for storage, and removal from storage.[28] Under this definition, processing includes: cutting, grinding, shaping, culturing, enzymatic digestion, and decellurization.[29]

An HCT/P is exempt from registration and regulation under the PHSA and 21 C.F.R. 1271, if the establishment:[30]

- Uses the HTC/P's solely for nonclinical scientific or educational purposes;
- Removes HCT/P's from an individual, and implants such HCT/P's into the same individual, during the same surgical procedure;
- Is a carrier who accepts, receives, carries, or delivers HCT/P's in the usual course of business;
- Does not recover, screen, test, process, label, package, or distribute, but only receives or stores HCT/P's, solely for implantation, transplantation, infusion, or transfer within its facility; or
- Only recovers reproductive cells or tissue and immediately transfers them into a sexually intimate partner of the cell or tissue donor.

If an individual is under contract with a registered establishment, and engaged solely in recovering cells or tissues and sending the recovered cells or tissues to the registered establishment, he or she is not required to register or list the establishment's HCT/P's independently, but he or she must comply with all other applicable requirements. [31]

[26] *Id.*
[27] *Supra* note 9.
[28] See 21 C.F.R. 1271.3(ff).
[29] *Supra* note 9.
[30] Establishment means a place of business under one management, at one general physical location, that engages in the manufacture of human cells, tissues, and cellular and tissue-based products. Establishment includes: (1) Any individual, partnership, corporation, association, or other legal entity engaged in the manufacture of human cells, tissues, and cellular and tissue-based products; and (2) Facilities that engage in contract manufacturing services for a manufacturer of human cells, tissues, and cellular and tissue-based products. 21 C.F.R. 1271.3(b).
[31] 21 C.F.R. 1271.15.

If an HCT/P does not meet the above criteria, and the manufacturer of the HCT/P does not qualify for an exception,[32] the HCT/P will be regulated as a drug, device, and/or biological product under the FDCA, the PHSA,[33] and applicable regulations;[34] and premarket review will be required.[35]

According to the FDA, if a manufacturer or establishment isolates cells from structural tissue to produce a cellular therapy product, the definition of minimal manipulation applies regardless of the method used to isolate the cells. The definition applies because the assessment of whether the HCT/P is a structural tissue or cellular/nonstructural tissue is based on the characteristics of the HCT/P as it exists in the donor, prior to recovery, and prior to any processing that takes place.[36]

Federal law requires tissue establishments[37] that do not meet an exemption to:
- Screen and test donors;
- Prepare and follow written procedures for prevention of the spread of communicable disease; and
- Maintain records.[38]

The FDA has published rules to broaden the scope of products subject to regulation, and to include more comprehensive requirements to prevent the introduction, transmission, and spread of communicable disease. Those rules include requiring tissue establishments to:
- Register and submit a list to the FDA of every HCT/P it manufactures within five days after operations begin, or within 30 days of the effective date of the registration;[39]
- Determine donor eligibility, including screening and testing;[40] and
- Recover, process, store, label, package, and distribute HCT/Ps, and screen and test cell and tissue donors, in such a way that prevents the introduction, transmission, or spread of communicable diseases.[41]

The requirements are intended to improve protection of the public health while minimizing regulatory burden.[42]

The only HCT/Ps that are FDA-approved for use in the United States consist of blood-forming stem cells, referred to as hematopoietic progenitor cells, derived from cord blood. These products are approved for limited use in patients with disorders that affect the hematopoietic system – the

body system that is involved in the production of blood. The FDA-approved stem cell products are listed on the FDA website.[43]

Stem Cells from Adipose Tissue

Structural HCT/Ps include cells obtained from adipose tissue. Adipose tissue is typically defined as a connective tissue that stores energy in the form of lipids, insulates the body, and provides cushioning and support for subcutaneous tissues and internal organs. It is composed of clusters of cells, referred to as adipocytes, surrounded by a reticular fiber network and interspersed small blood vessels and is divided into lobes and lobules by connective tissue septa.[44] Additionally, adipose tissue contains other cells, including pre-adipocytes, fibroblasts, vascular endothelial cells, and a variety of immune cells.[45]

The FDA, by way of example, specifically addresses the original relevant characteristics of adipose tissue relating to its utility to provide cushioning and support, which includes its bulk and lipid storage capacity. A manufacturer that recovers adipose tissue by tumescent liposuction and processes (e.g., enzymatically digests, mechanically disrupts, etc.) the adipose tissue to isolate cellular components (with or without subsequent cell culture or expansion), to stromal vascular fraction (SVF), is considered by the FDA to be more than minimally manipulating the HCT/P. It is considered more than minimally manipulating the HCT/P because the processing breaks down and eliminates the adipocytes and the surrounding structural components that provide cushioning and support, thereby altering the original relevant characteristics of the HCT/P relating to its utility for reconstruction, repair, or replacement.[46]

The FDA treats the recovery of adipose tissue from a donor for allogenic or autologous use as the recovery of a structural tissue. If the adipose tissue is then processed through enzymatic digestion, mechanical disruption, or other means, to isolate non-adipocyte, or non-structural components, from the adipose tissue – with or without subsequent cell culture or expansion – the processing of the structural tissues becomes stromal vascular fraction (SVF) and is considered more than minimally manipulated.[47] If the SVF is then administered intravenously or intrathecally to a recipient to treat a variety of diseases or conditions it will not be solely regulated the PHSA.[48]

---

[43] U.S. Department of Health and Human Services, Food and Drug Administration, *Approved Cellular and Gene Therapy Products*, (page last updated Feb. 2, 2018) *available at* https://www.fda.gov/biologicsbloodvaccines/cellulargenetherapyproducts/approvedproducts/default.htm (last visited Jan. 18, 2018).

[44] Some HCT/Ps from adipose tissue may also be regulated as devices. For more information about device regulation, See *CDRH's webpage Device Advice – Overview of Medical Device Regulation*, (page last updated Aug. 14, 2015) *available at* http://www.fda.gov/MedicalDevices/DeviceRegulationandGuidance/Overview/default.htm (last visited Jan.10, 2018).

Florida Regulation of Stem Cells

Stem Cell Preparation/Manufacturing

The Department of Business and Professional Regulation (DBPR) administers and enforces the Florida Drug and Cosmetic Act (FDCA) to prevent fraud, adulteration, misbranding, or false advertising in the preparation, manufacture, repackaging, or distribution of drugs, devices, and cosmetics.[49] In Florida, "a person may not sell, offer for sale, hold for sale, manufacture, repackage, distribute, or give away any new drug unless an approved application has become effective under the federal act or unless otherwise permitted by the Secretary of the United States Department of Health and Human Services for shipment in interstate commerce."[50]

The FDCA defines a "drug" as an article, or a component of an article,[51] that is:

- Recognized in the current edition of the United States Pharmacopoeia and National Formulary (USP-FM),[52] official Homeopathic Pharmacopoeia of the United States (HPUS),[53] or any supplement to any of those publications;
- Intended for use in the diagnosis, cure, mitigation, treatment, therapy, or prevention of disease in humans or other animals; or
- Intended to affect the structure or any function of the body of humans or other animals.[54]

The FDCA defines the manufacturing of a drug to mean the preparation, deriving, compounding, propagation, processing, producing, or fabrication of a substance into a drug.[55] Under the FDCA, a manufacturer of a drug is a person, co-licensed partner, or affiliate of a person who holds a New Drug Application, an Abbreviated New Drug Application, a Biologics License Application, or a New Animal Drug Application approved or licensed under the federal Public Health Service Act[56] for such drug or biologics, or the person who manufactured the drug or biologics if such drug or biologics are not the subject of an approved application or license.

Stem cells recovered, processed, and implanted in Florida that fit the above definitions are "unapproved new drugs" under both federal and state regulation and require a manufacturing

[49] *See* part I of ch. 499, F.S.
[50] Section 499.023, F.S.
[51] Includes active pharmaceutical ingredients, but does not include devices or their non-drug components, parts, or accessories. *Also see* Section 499,003(1), F.S. The term "active pharmaceutical ingredient" includes any substance or mixture of substances intended, represented, or labeled for use in drug manufacturing that furnishes or is intended to furnish, in a finished dosage form, any pharmacological activity or other direct effect in the diagnosis, cure, mitigation, treatment, therapy, or prevention of disease in humans or other animals, or to affect the structure or any function of the body of humans or animals.
[52] USP-NF is a combination of two compendia, the United States Pharmacopeia (USP) and the National Formulary (NF). It contains standards for medicines, dosage forms, drug substances, excipients, biologics, compounded preparations, medical devices, dietary supplements, and other therapeutics. *See* 21 U.S.C. s. 301(g)(1).
[53] The HPUS is declared a legal source of information on drug products (along with the USP/NF) in the Federal Food Drug and Cosmetic Act, 21 U.S.C. § 301. Section 201(g)(1) of the Act. 21 U.S.C. s. 321 defines the term "drug" as articles recognized in the official United States Pharmacopoeia, official Homeopathic Pharmacopeia of the United States, or official National Formulary or any supplement to any of them.
[54] Section 499.003(17), F.S.
[55] Section 499.003(28), F.S.

permit issued by the DBPR to ensure the drugs are manufactured in accordance with good manufacturing practices.[57]

Stem Cell Implantation or Transplantation

Stem cells may be collected, processed, and implanted or transplanted in a physician's office, health care clinic, ambulatory surgical center, or hospital.

Physician's Office

The DOH Office of Surgery Registration and Inspection Program was established to register and set standards for allopathic and osteopathic physicians performing surgery in an office setting. The DOH requires all physicians who perform the following to register their office with the DOH:

- Liposuction procedures where more than 1,000 cubic centimeters of supernatant fat is removed;
- Level II procedures lasting more than five minutes; and
- All Level III surgical procedures.[58]

The DOH will inspect those registered that are not nationally accredited to ensure the safety of the people of Florida.[59]

Under current regulations, it is unclear whether stem cell implantation or transplantation in physicians' offices is subject to inspection and regulation by the DOH. Hypothetically, it is not subject to the DOH regulation if the physician performs a procedure by removing less than 4000 cc of supernatant fat, uses no sedation, and the procedure lasts less than five minutes.[60]

Health Care Clinics

The Health Care Clinic Act[61] provides the Agency for Health Care Administration (AHCA) with licensing and regulatory authority to provide standards and oversite for health care clinics.[62] A clinic is defined as an entity where health care services are provided and which tenders charges for reimbursement for such services. Numerous exceptions to licensure exist.[63]The AHCA interprets the scope of its regulatory powers to solely include entities that bill third parties, such as Medicare, Medicaid, and insurance companies. Entities that provide health care services and

[63] Section 400.9905(4). F.S.

accept "cash only" for services are excluded from the definition of "clinic" and are not subject to licensure or regulation by the AHCA.[64]

Hospitals and Ambulatory Surgical Centers

The AHCA is responsible for licensing, registering, and regulating hospitals and Ambulatory Surgical Centers (ASC) pursuant to ch. 395, F.S.[65]

An ASC is a facility, not a part of a hospital, that has as its primary purpose to provide elective surgical care in which the patient is admitted and discharged in the same working day and is not permitted to stay overnight.

Regulation of Physicians in Florida

The BOM and the BOOM (the boards), within the DOH, have the authority to adopt rules to regulate the practice of medicine and osteopathic medicine, respectively. The boards have authority to establish, by rule, standards of practice and standards of care for particular settings.[66] Such standards may include education and training, medications including anesthetics, assistance of and delegation to other personnel, sterilization, performance of complex or multiple procedures, records, informed consent, and policy and procedures manuals.[67]

Currently, the BOM is warning physicians and consumers that they should be aware of the risks involved in stem cell therapies and regenerative medicine that have not been FDA-approved.[68] The BOM warns physicians providing stem cell treatment that he or she should have an investigational new drug application (IND) or a single patient IND for Compassionate or Emergency Use.[69] Florida does not specifically regulate clinics that perform treatments using stem cells, but the Boards have authority to investigate and discipline physicians who fail to meet the standard of care for providing any medical services. In 2013, the BOM revoked the licenses of two physicians in administrative cases involving stem cells for failing to meet the standard of care.[70]

III. Effect of Proposed Changes:

Stem Cell Clinic Registration and Regulation

The bill requires a clinic or physician who advertises, uses, or purports to use stem cells or products containing stems cells to register with the DOH.

[69] *Id*.
[70] Department of Health, *Senate Bill 1508 Analysis* (Jan. 11, 2018) (on file with the Senate Committee on Health Policy).

The bill defines a "clinic" as a privately or publicly owned facility or office that:

- Advertises a service that uses, or purports to use, stem cells or a product containing stem cells to diagnose, cure, mitigate, treat, provide therapy for, or prevent an injury or disease; or
- Performs any procedure that is intended to diagnose, cure, mitigate, treat, provide therapy for, or prevent an injury or disease that uses, or purports to use, stem cells or a product containing stem cells that has not been approved by, or is not the subject of a clinical trial approved by the FDA.

The bill defines a "stem cell" as an allogenic or autologous cell that has been altered or processed to become undifferentiated, losing its original structural function, so that it can become differentiated into a specialized cell type. The definition excludes cells that are only rinsed, cleaned, or sized and remain differentiated.

The bill does not require a clinic to register with the DOH if it:

- Is licensed under ch. 395, F.S.;[71]
- Is wholly owned and operated by one or more Florida-licensed physicians;
- Is affiliated with an accredited medical school that provides training to medical students, residents, or fellows; or
- Solely performs one or more of the following:
  - Collection of umbilical cord blood cells for blood banking;
  - Collection, transfer, or insemination of oocytes; or
  - Injection or infusion of platelet-rich plasma.

Each clinic must be registered separately. A clinic or physician must submit a new registration if there is a change of ownership. The bill requires each clinic to designate a physician who holds a full, active, and unencumbered Florida license to be responsible for compliance with clinic registration and operation requirements. A clinic must notify the DOH within ten days of a change in the designated physician. If a clinic fails to have a designated physician, the DOH may issue an emergency suspension[72] of the clinic's registration.

The bill authorizes the DOH to impose a fine of up to $5,000 per violation if the clinic fails to comply with the registration requirement, the DOH and applicable Board rules, the Florida Drug and Cosmetic Act,[73] or the federal Food, Drug, and Cosmetic Act.[74] When determining if a fine should be imposed, and the amount of the fine, the DOH must consider:

- The gravity of the violation, including the existence and severity of patient deception, serious or physical mental harm, or the potential of such deception or harm;
- The actions taken by the physician, clinic, or designated physician to correct the violation;
- Whether there were previous violations at the clinic; and
- The financial benefits derived by the physician, clinic, or designated physician from committing or continuing to commit the violation.

[71] Chapter 395, F.S., governs the licensure and regulation of hospitals and ambulatory surgery centers.
[72] The DOH may issue an emergency suspension, restriction, or limitation of a license if it finds that an immediate serious danger to the public health, safety, or welfare exists.
[73] Chapter 499, F.S.
[74] 21 U.S.C. ss. 301 and 25, Stat. 1040 et seq.

If the physician, clinic, or designated physician fails to cease the violating behavior as of the date required by the DOH, each day the violation continues constitutes an additional, separate, and distinct violation. The DOH may impose a fine if the designated physician knowingly misrepresents that action had been taken to correct a violation. However, if it is an owner-operated clinic, the DOH may impose a fine and revoke or deny a clinic registration.

The bill requires the DOH to adopt rules for the implementation of the registration requirement as well as an annual inspection of registered clinics. All costs for the registration and inspections must be borne by the clinic. The BOM and BOOM must adopt rules regarding advertising, adverse incident reporting, and informed consent guidelines for the use, or purported use, of stem cells or products containing stem cells in a clinic required to register.

Physician Responsibilities

The bill requires a physician who performs a procedure using, or purporting to use, stem cells or products containing stem cells to follow the applicable good manufacturing practices for collecting, removing, processing, implanting, and transferring stem cells, or products containing stems cells, pursuant to the federal Food, Drug, and Cosmetic Act[75] and federal law governing human cells, tissues, and cellular and tissue-based products.[76]

A physician who practices at a clinic that is not registered as required may be disciplined by his or her Board.

The bill provides an effective date of July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The DOH will experience an increase in revenue associated with the registration and inspections of clinics that use stem cells. SB 1508 provides that the person or entity that

[75] 21 U.S.C. ss. 301, et seq., and 52 Stat. 1040 et seq.
[76] 21 C.F.R. s. 1271.

wants to register and operate a clinic must pay all costs for registration and inspection. The DOH estimates approximately 20 clinics would register initially.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The DOH will experience a significant increase in costs and workload associated with the registration, regulation, and inspections of clinics that use stem cells. The costs associated with the increase in workload will be offset by the regulatory fees established under the bill.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill creates the following sections of the Florida Statutes: 458.352 and 459.027.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

By Senator Young

18-00337B-18 20181508__

A bill to be entitled

An act relating to the use of stem cells in a clinic setting; creating ss. 458.352 and 459.027, F.S.; defining the terms "clinic" and "stem cell"; requiring a physician or osteopathic physician or a clinic owner to register a clinic with the Department of Health if the clinic meets certain criteria; specifying that each clinic location must be registered separately and must designate a physician to be responsible for complying with certain requirements; requiring the clinic to notify the department of a change of designated physician within a specified timeframe; providing that summary suspension of a clinic's registration certificate may occur if a designated physician or designated osteopathic physician is not practicing at the clinic location; prohibiting a physician from practicing medicine or an osteopathic physician from practicing osteopathic medicine in a certain clinic that is not registered with the department; specifying certain disciplinary action for violations; requiring a physician or osteopathic physician to adhere to specified regulations in the performance of any procedure using or purporting to use stem cells or products containing stem cells; requiring the department to adopt rules to administer registration and an annual inspection of registered clinics; specifying that a person or entity seeking to register and operate a clinic must pay all costs of registration and inspection; authorizing the

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

18-00337B-18 20181508__

department to impose fines on a physician or osteopathic physician or clinic that violates specified requirements; requiring the Board of Medicine and the Board of Osteopathic Medicine, respectively, to adopt certain rules and guidelines; authorizing the department to impose certain fines; requiring the department to consider certain factors in determining the imposition of such a fine; authorizing the department to impose a fine and revoke or deny a clinic registration in certain circumstances; requiring the imposition of certain fines for specified violations of clinic registration requirements; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 458.352, Florida Statutes, is created to read:

458.352 Use of stem cells in a clinic setting.—

(1) DEFINITIONS.-As used in this section, the term:

(a) "Clinic" means a publicly or privately owned facility or office that:

1. Advertises for any service that uses, or purports to use, stem cells or any product containing stem cells that is intended to diagnose, cure, mitigate, treat, provide therapy for, or prevent an injury or a disease; or

2. Performs any procedure that is intended to diagnose, cure, mitigate, treat, provide therapy for, or prevent an injury or a disease that uses, or purports to use, stem cells or any

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

product containing stem cells which has not been approved by the United States Food and Drug Administration or is not the subject of a clinical trial approved by the United States Food and Drug Administration.

(b) "Stem cell" means an allogenic or autologous cell that is altered or processed to become undifferentiated, losing its original structural function, so that it can become differentiated into a specialized cell type. The term does not include cells that are only rinsed, cleaned, or sized and remain differentiated.

(2) REGISTRATION.—

(a) A physician or clinic owner who advertises, uses, or purports to use stem cells or products containing stem cells in a clinic must register the clinic with the department, unless any of the following apply:

1. The clinic is a facility licensed under chapter 395;

2. The clinic is wholly owned and operated by one or more physicians licensed under this chapter or chapter 459;

3. The clinic is affiliated with an accredited medical school that provides training to medical students, residents, or fellows; or

4. The clinic solely performs one or more of the following procedures:

a. The collection of umbilical cord blood cells for blood banking;

b. The collection, transfer, or insemination of oocytes; or

c. The injection or infusion of platelet-rich plasma.

(b) Each clinic location must be registered separately.

(c) As a part of registration, a clinic must designate a

physician who is responsible for complying with all requirements related to registration and operation of the clinic in compliance with this section. Within 10 days after termination of a designated physician, the clinic must notify the department of the identity of another designated physician for that clinic. A designated physician must have a full, active, and unencumbered license issued under this chapter or chapter 459 and must practice at the clinic location for which he or she has assumed responsibility. Failing to have a licensed designated physician practicing at the location of the registered clinic may be the basis for a summary suspension of the clinic registration certificate as described in s. 456.073(8) for a license or in s. 120.60(6).

(3) PHYSICIAN RESPONSIBILITIES.—

(a) A physician may not practice medicine in a clinic that is not registered with the department as required by this section or s. 459.027. A physician who violates this paragraph is subject to disciplinary action by his or her appropriate medical regulatory board.

(b) In the performance of any procedure using or purporting to use stem cells or products containing stem cells, the physician shall adhere to the applicable current good manufacturing practices for the collection, removal, processing, implantation, and transfer of stem cells, or products containing stem cells, pursuant to the Federal Food, Drug, and Cosmetic Act, 21 U.S.C. ss. 301 et seq.; 52 Stat. 1040 et seq.; and 21 C.F.R. 1271, Human Cells, Tissues, and Cellular and Tissue-Based Products.

(4) RULEMAKING.—

(a) The department shall adopt rules necessary to administer registration and an annual inspection of registered clinics. The person or entity seeking to register and operate the clinic must pay all costs of registration and inspection.

(b) The board shall adopt rules regarding advertising, adverse incident reporting, and informed consent guidelines for the use or purported use of stem cells or products containing stem cells in a clinic required to register under this section.

(5) PENALTIES; ENFORCEMENT.—

(a) The department may impose an administrative fine on a physician or a clinic of up to $5,000 per violation for violating the requirements of this section; chapter 499, the Florida Drug and Cosmetic Act; the Federal Food, Drug, and Cosmetic Act, 21 U.S.C. ss. 301 et seq.; 52 Stat. 1040 et seq.; 21 C.F.R. 1271, Human Cells, Tissues, and Cellular and Tissue-Based Products; or the rules of the department. In determining whether a penalty is to be imposed, and in fixing the amount of the fine, the department shall consider the following factors:

1. The gravity of the violation, including the probability that patient deception, or serious physical or emotional harm, has resulted or could have resulted; the severity of the deception, harm, or potential harm; and the extent to which the provisions of the applicable laws or rules were violated.

2. What actions, if any, the physician, clinic owner, or designated physician took to correct the violations.

3. Whether there were any previous violations at the clinic.

4. The financial benefits that the physician, clinic, or designated physician derived from committing or continuing to

commit the violation.

(b) Each day a violation continues after the date fixed for termination of the violation as ordered by the department constitutes an additional, separate, and distinct violation.

(c) The department may impose a fine and, in the case of an owner-operated clinic, revoke or deny a clinic registration if the clinic's designated physician knowingly misrepresents actions taken to correct a violation.

(d) A physician, clinic, or designated physician that concurrently operates an unregistered clinic is subject to an administrative fine of $5,000 per day for each clinic location.

(e) If the physician or owner of a clinic that is required to register fails to apply to register upon a change of ownership and operates the clinic under the new ownership, the new owner is also subject to a fine of $5,000 per day for each location.

Section 2. Section 459.027, Florida Statutes, is created to read:

459.027 Use of stem cells in clinic setting.—

(1) DEFINITIONS.-As used in this section, the term:

(a) "Clinic" means a publicly or privately owned facility or office that:

1. Advertises for any service that uses, or purports to use, stem cells or any product containing stem cells that is intended to diagnose, cure, mitigate, treat, provide therapy for, or prevent an injury or a disease; or

2. Performs any procedure that is intended to diagnose, cure, mitigate, treat, provide therapy for, or prevent an injury or a disease that uses, or purports to use, stem cells or any

product containing stem cells which has not been approved by the United States Food and Drug Administration or is not the subject of a clinical trial approved by the United States Food and Drug Administration.

(b) "Stem cell" means an allogenic or autologous cell that is altered or processed to become undifferentiated, losing its original structural function, so that it can become differentiated into a specialized cell type. The term does not include cells that are only rinsed, cleaned, or sized and remain differentiated.

(2) REGISTRATION.—

(a) An osteopathic physician or clinic owner who advertises, uses, or purports to use stem cells or products containing stem cells in a clinic must register the clinic with the department, unless any of the following apply:

1. The clinic is a facility licensed under chapter 395;

2. The clinic is wholly owned and operated by one or more physicians licensed under this chapter or chapter 458;

3. The clinic is affiliated with an accredited medical school that provides training to medical students, residents, or fellows; or

4. The clinic solely performs one or more of the following procedures:

a. The collection of umbilical cord blood cells for blood banking;

b. The collection, transfer, or insemination of oocytes; or

c. The injection or infusion of platelet-rich plasma.

(b) Each clinic location must be registered separately.

(c) As a part of registration, a clinic must designate a

physician who is responsible for complying with all requirements related to registration and operation of the clinic in compliance with this section. Within 10 days after termination of a designated physician, the clinic must notify the department of the identity of another designated physician for that clinic. A designated physician must have a full, active, and unencumbered license issued under this chapter or chapter 458 and must practice at the clinic location for which he or she has assumed responsibility. Failing to have a licensed designated physician practicing at the location of the registered clinic may be the basis for a summary suspension of the clinic registration certificate as described in s. 456.073(8) for a license or in s. 120.60(6).

(3) PHYSICIAN RESPONSIBILITIES.—

(a) An osteopathic physician may not practice osteopathic medicine in a clinic that is not registered with the department as required by this section or s. 458.352. An osteopathic physician who violates this paragraph is subject to disciplinary action by his or her appropriate medical regulatory board.

(b) In the performance of any procedure using or purporting to use stem cells or products containing stem cells, the osteopathic physician shall adhere to the applicable current good manufacturing practices for the collection, removal, processing, implantation, and transfer of stem cells, or products containing stem cells, pursuant to the Federal Food, Drug, and Cosmetic Act, 21 U.S.C. ss. 301 et seq.; 52 Stat. 1040 et seq.; and 21 C.F.R. 1271, Human Cells, Tissues, and Cellular and Tissue-Based Products.

(4) RULEMAKING.—

(a) The department shall adopt rules necessary to administer registration and an annual inspection of registered clinics. The person or entity seeking to register and operate the clinic must pay all costs of registration and inspection.

(b) The board shall adopt rules regarding advertising, adverse incident reporting, and informed consent guidelines for the use or purported use of stem cells or products containing stem cells in a clinic required to register under this section.

(5) PENALTIES; ENFORCEMENT.—

(a) The department may impose an administrative fine on an osteopathic physician or a clinic of up to $5,000 per violation for violating the requirements of this section; chapter 499, the Florida Drug and Cosmetic Act; the Federal Food, Drug, and Cosmetic Act, 21 U.S.C. ss. 301 et seq.; 52 Stat. 1040 et seq.; 21 C.F.R. 1271, Human Cells, Tissues, and Cellular and Tissue-Based Products; or the rules of the department. In determining whether a penalty is to be imposed, and in fixing the amount of the fine, the department shall consider the following factors:

1. The gravity of the violation, including the probability that patient deception, or serious physical or emotional harm, has resulted or could have resulted; the severity of the deception, harm, or potential harm; and the extent to which the provisions of the applicable laws or rules were violated.

2. What actions, if any, the osteopathic physician, clinic owner, or designated physician took to correct the violations.

3. Whether there were any previous violations at the clinic.

4. The financial benefits that the osteopathic physician, clinic, or designated physician derived from committing or

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

continuing to commit the violation.

(b) Each day a violation continues after the date fixed for termination of the violation as ordered by the department constitutes an additional, separate, and distinct violation.

(c) The department may impose a fine and, in the case of an owner-operated clinic, revoke or deny a clinic registration if the clinic's designated physician knowingly misrepresents actions taken to correct a violation.

(d) An osteopathic physician, clinic, or designated physician that concurrently operates an unregistered clinic is subject to an administrative fine of $5,000 per day for each clinic location.

(e) If the osteopathic physician or owner of a clinic that is required to register fails to apply to register upon a change of ownership and operates the clinic under the new ownership, the new owner is also subject to a fine of $5,000 per day for each location.

Section 3. This act shall take effect July 1, 2018.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 1608 (705324)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Finance and Tax); Transportation Committee; and Senator Grimsley
SUBJECT:	Agricultural Recovery
DATE:	February 26, 2018 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Price	Miller	TR	**Fav/CS**
2.	Gross	Diez-Arguelles	AFT	**Recommend: Fav/CS**
3.	Gross	Hansen	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 1608 addresses a number of provisions related to the agriculture industry. Specifically, the bill:

- Allows certain lands classified as agricultural for tax purposes to continue to be classified as such for 5 years after being damaged by a natural disaster. The assessment applies retroactively to lands damaged by a natural disaster that occurred on or after July 1, 2017.
- Reduces the assessment of certain screened enclosed horticultural structures for ad valorem assessment purposes.
- Exempts certain materials related to agriculture and aquaculture from sales and use tax, and provides for retroactive application and a process for claiming a refund.
- Codifies the State Agricultural Response Team within the Department of Agriculture & Consumer Services (DACS) and assigns it certain duties.
- Provides for the emergency transportation of agricultural products, as well as revising the authority and duties of the Florida Department of Transportation (FDOT) with respect to electronic permit verification during a declared emergency.

For Fiscal Year 2018-2019, the bill appropriates $5 million in nonrecurring funds from the General Revenue Fund to the Department of Agriculture and Consumer Services for the Florida Agricultural Promotion Campaign.

The Revenue Estimating Conference estimates that this bill will reduce General Revenue Fund receipts by $59.5 million in Fiscal Year 2018-2019, and $27.8 million each year thereafter. Local government revenues will be reduced by $15.4 million in Fiscal Year 2018-2019, and $8.9 million each year thereafter.

II. Present Situation:

The present situation for each section of the bill is discussed below in conjunction with the Effect of Proposed Changes.

III. Effect of Proposed Changes:

Section 1 provides that the bill may be cited as the "Farmers and Ranchers Matter Act."

Assessment of Agricultural Lands (Section 2)

Present Situation:

The ad valorem tax or "property tax" is an annual tax levied by counties, municipalities, school districts, and some special districts. The tax is based on the taxable value of property as of January 1 of each year.[1] The property appraiser annually determines the "just value"[2] of property within the taxing authority and then applies relevant exclusions, assessment limitations, and exemptions to determine the property's "taxable value."[3]

The Florida Constitution limits the Legislature's authority to provide for property valuations at less than just value, unless expressly authorized.[4] The just valuation standard generally requires the property appraiser to consider the highest and best use of property;[5] however, the Florida Constitution authorizes certain types of property to be valued based on their current use (classified use assessments), which often result in lower assessments. Agricultural land is one example of property that is assessed based on its current use rather than its fair market value.[6]

Currently, certain structures that are attached physically to the land are considered to be a part of the average yields per acre and have no separately assessable contributory (taxable) value.[7] These structures include:

- Irrigation systems, including pumps and motors;

[1] Both real property and tangible personal property are subject to tax. Section 192.001(12), F.S., defines "real property" as land, buildings, fixtures, and all other improvements to land. Section 192.001(11)(d), F.S., defines "tangible personal property" as all goods, chattels, and other articles of value capable of manual possession and whose chief value is intrinsic to the article itself.

[2] Property must be valued at "just value" for purposes of property taxation, unless the Florida Constitution provides otherwise. FLA. CONST. art VII, s. 4. Just value has been interpreted by the courts to mean the fair market value that a willing buyer would pay a willing seller for the property in an arm's-length transaction. *See Walter v. Shuler,* 176 So. 2d 81 (Fla. 1965); *Deltona Corp. v. Bailey*, 336 So. 2d 1163 (Fla. 1976); *Southern Bell Tel. & Tel. Co. v. Dade County*, 275 So. 2d 4 (Fla. 1973).

[3] *See* s. 192.001(2) and (16), F.S.

[4] *See* FLA. CONST. art. VII, s. 4.

[5] Section 193.011(2), F.S.

[6] FLA. CONST. art. VII, s. 4(a).

[7] Section 193.461(6)(c), F.S. This treatment of these structures applies when using the income approach in determining value.

- Litter containment structures located on producing poultry farms and animal waste nutrient containment structures located on producing dairy farms; and
- Structures or improvements used in horticultural production for frost or freeze protection, which are consistent with the interim measures or best management practices adopted by the DACS.[8]

Effect of Proposed Changes:

Section 2 amends s. 193.461(7), F.S., to allow agricultural lands that incur damage as a result of a natural disaster for which a state of emergency is declared,[9] and which results in the halting of agricultural production, must continue to be classified as agricultural lands for five years following termination of the emergency declaration. However, if such lands are diverted from agricultural use to nonagricultural use during or after the five-year recovery period, such lands must be assessed at fair market value using the factors for deriving just valuation in s. 193.011, F.S. This provision applies retroactively to natural disasters that occurred on or after July 1, 2017.

The bill also amends s. 193.461(6)(c), F.S., to provide that screened enclosed structures used in horticultural production for protection from pests and diseases or to comply with state or federal eradication or compliance agreements are considered a part of the average yields per acre and have no separately assessable value.

Exemption from Taxation (Sections 3 and 4)

Present Situation:

Florida levies a six percent sales and use tax on the sale or rental of most tangible personal property, admissions,[10] transient rentals,[11] rental of commercial real estate,[12] and a limited number of services. Sales tax is added to the price of the taxable good or service and collected from the purchaser at the time of sale.[13] There are currently more than 250 exemptions, exclusions, deductions and credits from the sales and use tax.[14]

In addition to the state tax, s. 212.055, F.S., authorizes counties to impose nine local discretionary sales surtaxes. A surtax applies to "all transactions occurring in the county which transactions are subject to the state tax imposed on sales, use, services, rental, admissions, and other transactions by [ch. 212, F.S.], and on communications services as defined in ch. 202,

[8] Section 193.461(6)(c), F.S.
[9] Section 252.36(2), F.S., provides for declaration of a state of emergency by executive order or proclamation of the Governor, if he or she finds an emergency or the threat of an emergency has occurred or is about to occur. The law provides that the state of emergency "shall continue until the Governor finds that the threat or danger has been dealt with to the extent that the emergency conditions no longer exist and she or he terminates the state of emergency by executive order or proclamation, but no state of emergency may continue for longer than 60 days unless renewed by the Governor.
[10] Section 212.04, F.S.
[11] Section 212.03, F.S.
[12] Section 212.031, F.S.
[13] Florida Dept. of Revenue, *Who must pay tax? Partial list of taxable business activities, available at* http://dor.myflorida.com/dor/taxes/sales_tax.html (last visited Nov. 15, 2017).
[14] *See* Office of Economic and Demographic Research, The Florida Legislature, *Florida Tax Handbook*, 164-170 (2017).

F.S."[15] The discretionary sales surtax is based on the tax rate imposed by the county where the taxable goods or services are sold, or where they are delivered. Discretionary sales surtax rates currently levied vary by county in a range from 0.5 percent to 1.5.[16]

Building materials are exempt from the sales and use tax and county discretionary sales surtaxes when they are used for certain purposes (e.g., building materials used in rehabilitation of real property located in an enterprise zone[17] or in a rural area of economic opportunity).[18]

Effect of Proposed Changes:

Section 3 amends s. 212.08, F.S., to exempt the following from the sales and use tax:

- Building materials used in the construction of a nonresidential farm building;[19]
- Poles, nets, and other materials used for aquaculture leases; and
- Fencing materials used in the construction of farm fences on lands classified as agricultural land.

The bill provides the exemption through a refund of previously paid taxes and is available only for materials purchased on or after September 1, 2017, which allows purchasers the opportunity to receive a refund of taxes paid prior to the effective date of the bill.

The bill defines "building materials" as tangible personal property that becomes a component part of a nonresidential farm building.

The Department of Revenue (DOR) will accept refund applications within six months of the transaction or the effective date of the bill, whichever occurs later. The bill requires an applicant to submit to the DOR:

- An affidavit executed by the owner of the materials or the real property into which the materials will be or were incorporated, including a statement that the materials were or will be used exclusively as required by this exemption;
- The name and address of the person claiming the refund;
- The address and assessment roll parcel number of the property where the improvement is made;
- A description of the improvement; and
- The sales invoice or other proof of purchase of the materials, showing the amount of sales tax paid, the date of purchase, and the name and address of the dealer from whom the materials were purchased.

[17] Section 212.08(5)(g), F.S.

[18] Section 212.08(5)(r), F.S

[19] Section 604.50(2)(d), F.S., defines "nonresidential farm building" as any temporary or permanent building or support structure classified as a nonresidential farm building on a farm [which is exempt from the Florida building code] or that is used primarily for agricultural purposes, is located on land that is an integral part of a farm operation or is classified as agricultural land under s. 193.461, F.S., and is not intended to be used as a residential building. The term includes, but is not limited to, a barn, greenhouse, shade house, farm office, storage building, or poultry house.

Section 4 provides the Department of Revenue with emergency rulemaking authority.

State Agricultural Response Team (Section 5)

Present Situation:

Section 252.35, F.S., requires the Division of Emergency Management (DEM) to prepare a statewide comprehensive emergency management plan (CEMP). The state CEMP is the master operations document in responding to all emergencies, and all catastrophic, major, and minor disasters. It also:

- Defines the responsibilities of all levels of government, private, volunteer and non-governmental organizations that make up the State Emergency Response Team (SERT); and
- Ensures that all levels of government are able to mobilize as a unified emergency organization to safeguard the well-being of Florida's residents and visitors.[20]

The SERT is comprised of agency-appointed emergency coordination officers and staff from state agencies, volunteer and non-governmental organizations, and is sorted into 18 emergency support functions (ESFs) that carry out coordination and completion of response and recovery activities in the State Emergency Operations Center. The ESFs are grouped by function, rather than agency, with each ESF headed by a primary state agency and supported by additional agencies. Under the CEMP, the DACS is assigned to ESF 17 for animal and agricultural issues.

The DACS facilitated the development of the State Agricultural Response Team (SART), along with other partners, with the mission to "support an effective and coordinated incident response for the animal and agricultural sectors in the State of Florida."[21] The SART's strategic imperatives are to:

- Support a multi-agency coordination group for state-level response activities for animal and agriculture issues.
- Develop and support an Incident Management Team with equipment and training.
- Develop and support response resources such as the Mobile Animal Response Equipment Units, College of Veterinary Medicine Veterinary Emergency Treatment Service, and Florida Veterinary Corps with funding and or training.
- Develop and support county and regional outreach, training and information coordination in order to enhance local and regional response capabilities.[22]

Currently, the SART is not expressly identified or addressed in statute.

Effect of Proposed Changes:

Section 5 creates s. 252.3569, F.S., to establish the SART within the DACS. The bill provides that the duties of the SART include, but are not limited, to:

[20] See the current CEMP at p. 5, available at: https://floridadisaster.org/globalassets/importedpdfs/2016-state-cemp-complete-final-draft.pdf. (Last visited February 7, 2018.) Section 252.35(2)(a), F.S., requires submission of the CEMP to the Senate President, House Speaker, and Governor on February 1 of every even-numbered year.
[21] See the *FloridaSART* website available at: http://flsart.org/about/. (Last visited February 7, 2018.)
[22] *Id.*

- Oversight of the emergency management functions of preparedness, recovery, mitigation, and response with all agencies and organizations that are involved with the state's response activities to animal, agricultural, and vector issues;
- The development, training, and support of county agricultural response teams; and
- Staffing the Emergency Support Function 17 at the State Emergency Operations Center and staffing as necessary at county emergency operations centers.

This section of the bill codifies existing practice.

Emergency Transportation/Permit Verification (Section 6)

Present Situation:

Section 316.565, F.S., currently authorizes the Governor to declare an emergency when a breakdown occurs in the normal public transportation facilities necessary in moving *perishable food* crops grown in this state. The FDOT may establish (increase or eliminate) weight loads during such emergency for hauling perishable foods over the highways from the fields or packinghouses to the nearest available public transportation facility as circumstances demand. The FDOT is required to designate special highway routes, *excluding* the interstate highway system, to facilitate the trucking and render any other assistance needed to expedite moving the perishables.

Effect of Proposed Changes:

Section 6 amends s. 316.565, F.S., to replace the term "perishable food crops" with "agricultural products."[23] This allows the Governor to declare an emergency when a breakdown occurs in the normal public transportation facilities necessary in moving agricultural products raised in the state.

The bill authorizes the FDOT to issue, and any law enforcement office authorized to enforce the traffic laws may accept, electronic verification of permits during such emergency. Permits issued under this directive are valid for up to 60 days; however, the validity of the permit may not exceed the period of the declared state of emergency or any extension thereof.

The legislative intent is also revised to supersede any existing laws when necessary to protect and save agricultural products, rather than to protect and save any perishable food crops grown in the state.

Florida Agricultural Promotional Campaign/"Fresh From Florida" (Section 7)

Present Situation:

The Florida Agricultural Promotional Campaign (FAPC) was created by the Florida legislature in 1990 to increase consumer awareness and expand the market for Florida agricultural products. Farmers who join the FAPC gain access to industry information and the ability to participate in

[23] Section 604.60, F.S., defines "agricultural product" as the natural products from a farm, nursery, grove, orchard, vineyard, garden, or apiary, including livestock, tobacco, and vegetables, and includes aquacultural, horticultural, viticultural, forestry, aquatic, dairy, livestock, poultry, bee, and any farm products.

offers such as reduced entrance rates at trade shows, research that includes up-to-date analysis and sales data, and incentive programs for use of the "Fresh From Florida" logo.[24] Additionally, the promotional campaign markets Florida's agricultural products to consumers through a mix of media, retail outreach, and events.

Effect of Proposed Changes:

Section 7 appropriates, for Fiscal Year 2018-2019, $5 million in nonrecurring funds from the General Revenue Fund to the Department of Agriculture and Consumer Services for the Florida Agriculture Promotion Campaign to expand initiatives promoting agricultural products of this state.

Other Provisions (Section 8)

Section 8 directs the Division of Law Revision and Information to replace the phrase "effective date of this act" wherever it occurs in the act with the date the act becomes a law.

Section 9 provides that the bill takes effect July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, s. 18 of the Florida Constitution governs laws that require counties and municipalities to spend funds or that limit their ability to raise revenue or receive state tax revenues. Subsection (b) of s. 18, Art. VII, Florida Constitution, provides that except upon approval of each house of the legislature by two-thirds vote of the membership, the legislature may not enact, amend, or repeal any general law if the anticipated effect of doing so would be to reduce the authority that municipalities or counties have to raise revenue in the aggregate, as such authority existed on February 1, 1989. However, the mandates requirements do not apply to laws having an insignificant impact,[25] which for Fiscal Year 2017-2018, is $2.05 million or less.[26]

The Revenue Estimating Conference estimates this bill will reduce the authority that counties have to raise revenue from the local options sales tax by $7.6 million in Fiscal Year 2018-2019. Therefore, the bill may require passage by a two-thirds vote of the membership of each house.

[24] The Florida Department of Agriculture and Consumer Services, *"Fresh From Florida" Industry Membership,* https://www.freshfromflorida.com/es/Business-Services/Fresh-From-Florida-Industry-Membership (last visited February 20, 2018).

[25] An insignificant fiscal impact is the amount not greater than the average statewide population for the applicable fiscal year times $0.10. *See* Florida Senate Committee on Community Affairs, *Interim Report 2012-115: Insignificant Impact*, (September 2011), *available at* http://www.flsenate.gov/PublishedContent/Session/2012/InterimReports/2012-115ca.pdf. (Last visited February 7, 2018.)

[26] Based on the Demographic Estimating Conference's population adopted on December 5, 2017. The conference packet is available at http://edr.state.fl.us/Content/conferences/population/ConferenceResults.pdf. (Last visited February 7, 2018).

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference estimates that this bill will reduce General Revenue Fund receipts by $59.5 million in Fiscal Year 2018-2019, and $27.8 million each year thereafter. Local government revenues will be reduced by $15.4 million in Fiscal Year 2018-2019, and $8.9 million each year thereafter.

The table below outlines the revenue impact of the bill.

	GR		Trust		Local		Total	
Issue	1st year	Recur.	1st year	Recur.	1st year	Recur.	1st year	Recur.
5-year agricultural assessment	-	-	-	-	-	-	-	-
Screened enclosed structures	-	-	-	-	-	(1.9)	-	(1.9)
Building materials	(40.8)	(18.4)	(*)	(*)	(10.5)	(4.7)	(51.3)	(23.1)
Fencing materials	(18.5)	(9.2)	(*)	(*)	(4.8)	(2.3)	(24.1)	(11.4)
Aquaculture leases	(0.2)	(0.2)	(*)	(*)	(0.1)	(*)	(0.3)	(0.2)
Total	**(59.5)**	**(27.8)**	**(*)**	**(*)**	**(15.4)**	**(8.9)**	**(75.7)**	**(36.6)**

(*) Impact less than $50,000.

B. Private Sector Impact:

Some owners of agricultural land will experience lower ad valorem tax assessments.

Purchasers of materials may receive a reduction in the cost of construction if they receive a refund of the sales and use tax paid for certain agriculture and aquaculture materials.

C. Government Sector Impact:

For Fiscal Year 2018-2019, the bill appropriates $5 million in nonrecurring funds from the General Revenue Fund to the Department of Agriculture and Consumer Services for the Florida Agriculture Promotion Campaign.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 193.461, 212.08, and 316.565.

This bill creates the following sections of the Florida Statutes: 252.3569 and 604.71.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Finance and Tax on February 21, 2018:
The committee substitute:

- Provides an agricultural assessment retroactively to lands damaged as a result of a natural disaster that occurred on or after July 1, 2017.
- Removes the exemption for the cost of labor associated with the materials exemption, labor costs are not currently taxable, and makes technical changes.
- Removes the Agritourism Signage provision.
- Extends to the Department of Transportation the option to issue electronic permit verifications during declared emergencies. The permit is valid for up to 60 days or for the duration of the emergency, whichever comes first.
- Appropriates $5 million in nonrecurring funds from the General Revenue Fund to the Department of Agriculture and Consumer Services for the Florida Agriculture Promotion Campaign.

CS by Transportation on February 6, 2018:
The committee substitute:

- Provides an additional set of circumstances under which an existing agricultural classification of lands may be extended or continued.
- Adds certain screened enclosed horticultural structures to a list of structures currently deemed to have no separately assessable value for purposes of the income methodology approach to ad valorem assessment of agricultural property.
- Exempts certain agriculture and aquaculture related materials and labor costs from sales, use, and transaction taxation under Chapter 212, F.S., and provides a process for claiming a refund.
- Codifies the SART within the DACS and assigns it certain emergency management related duties.

- Revises provisions relating to emergency transportation of perishable food, revising applicability of those provisions to crops grown and livestock raised in the state, as well as revising related authority and duties of the FDOT related to truck weight restriction waivers.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

353206

LEGISLATIVE ACTION

Senate . House

. . . . .

The Committee on Appropriations (Grimsley) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. This act may be cited as the "Farmers and Ranchers Matter Act."

Section 2. Section 193.461, Florida Statutes, is amended to read:

193.461 Agricultural lands; classification and assessment; mandated eradication or quarantine program; natural disasters.—

(1) The property appraiser shall, on an annual basis, classify for assessment purposes all lands within the county as either agricultural or nonagricultural.

(2) Any landowner whose land is denied agricultural classification by the property appraiser may appeal to the value adjustment board. The property appraiser shall notify the landowner in writing of the denial of agricultural classification on or before July 1 of the year for which the application was filed. The notification shall advise the landowner of his or her right to appeal to the value adjustment board and of the filing deadline. The property appraiser shall have available at his or her office a list by ownership of all applications received showing the acreage, the full valuation under s. 193.011, the valuation of the land under the provisions of this section, and whether or not the classification requested was granted.

(3)(a) Lands may not be classified as agricultural lands unless a return is filed on or before March 1 of each year. Before classifying such lands as agricultural lands, the property appraiser may require the taxpayer or the taxpayer’s representative to furnish the property appraiser such information as may reasonably be required to establish that such lands were actually used for a bona fide agricultural purpose. Failure to make timely application by March 1 constitutes a waiver for 1 year of the privilege granted in this section for agricultural assessment. However, an applicant who is qualified to receive an agricultural classification who fails to file an application by March 1 must file an application for the classification with the property appraiser on or before the 25th

353206

day after the mailing by the property appraiser of the notice required under s. 194.011(1). Upon receipt of sufficient evidence, as determined by the property appraiser, that demonstrates that the applicant was unable to apply for the classification in a timely manner or that otherwise demonstrates extenuating circumstances that warrant the granting of the classification, the property appraiser may grant the classification. If the applicant files an application for the classification and fails to provide sufficient evidence to the property appraiser as required, the applicant may file, pursuant to s. 194.011(3), a petition with the value adjustment board requesting that the classification be granted. The petition may be filed at any time during the taxable year on or before the 25th day following the mailing of the notice by the property appraiser as provided in s. 194.011(1). Notwithstanding s. 194.013, the applicant must pay a nonrefundable fee of $15 upon filing the petition. Upon reviewing the petition, if the person is qualified to receive the classification and demonstrates particular extenuating circumstances judged by the value adjustment board to warrant granting the classification, the value adjustment board may grant the classification for the current year. The owner of land that was classified agricultural in the previous year and whose ownership or use has not changed may reapply on a short form as provided by the department. The lessee of property may make original application or reapply using the short form if the lease, or an affidavit executed by the owner, provides that the lessee is empowered to make application for the agricultural classification on behalf of the owner and a copy of the lease or affidavit accompanies the

application. A county may, at the request of the property appraiser and by a majority vote of its governing body, waive the requirement that an annual application or statement be made for classification of property within the county after an initial application is made and the classification granted by the property appraiser. Such waiver may be revoked by a majority vote of the governing body of the county.

(b) Subject to the restrictions specified in this section, only lands that are used primarily for bona fide agricultural purposes shall be classified agricultural. The term "bona fide agricultural purposes" means good faith commercial agricultural use of the land.

1. In determining whether the use of the land for agricultural purposes is bona fide, the following factors may be taken into consideration:

a. The length of time the land has been so used.

b. Whether the use has been continuous.

c. The purchase price paid.

d. Size, as it relates to specific agricultural use, but a minimum acreage may not be required for agricultural assessment.

e. Whether an indicated effort has been made to care sufficiently and adequately for the land in accordance with accepted commercial agricultural practices, including, without limitation, fertilizing, liming, tilling, mowing, reforesting, and other accepted agricultural practices.

f. Whether the land is under lease and, if so, the effective length, terms, and conditions of the lease.

g. Such other factors as may become applicable.

2. Offering property for sale does not constitute a primary

use of land and may not be the basis for denying an agricultural classification if the land continues to be used primarily for bona fide agricultural purposes while it is being offered for sale.

(c) The maintenance of a dwelling on part of the lands used for agricultural purposes does ~~shall~~ not in itself preclude an agricultural classification.

(d) When property receiving an agricultural classification contains a residence under the same ownership, the portion of the property consisting of the residence and curtilage must be assessed separately, pursuant to s. 193.011, to qualify for the assessment limitation set forth in s. 193.155. The remaining property may be classified under the provisions of paragraphs (a) and (b).

(e) Notwithstanding the provisions of paragraph (a), land that has received an agricultural classification from the value adjustment board or a court of competent jurisdiction pursuant to this section is entitled to receive such classification in any subsequent year until such agricultural use of the land is abandoned or discontinued, the land is diverted to a nonagricultural use, or the land is reclassified as nonagricultural pursuant to subsection (4). The property appraiser must, no later than January 31 of each year, provide notice to the owner of land that was classified agricultural in the previous year informing the owner of the requirements of this paragraph and requiring the owner to certify that neither the ownership nor the use of the land has changed. The department shall, by administrative rule, prescribe the form of the notice to be used by the property appraiser under this

paragraph. If a county has waived the requirement that an annual application or statement be made for classification of property pursuant to paragraph (a), the county may, by a majority vote of its governing body, waive the notice and certification requirements of this paragraph and shall provide the property owner with the same notification provided to owners of land granted an agricultural classification by the property appraiser. Such waiver may be revoked by a majority vote of the county's governing body. This paragraph does not apply to any property if the agricultural classification of that property is the subject of current litigation.

(4) The property appraiser shall reclassify the following lands as nonagricultural:

(a) Land diverted from an agricultural to a nonagricultural use.

(b) Land no longer being utilized for agricultural purposes.

(5) For the purpose of this section, the term "agricultural purposes" includes, but is not limited to, horticulture; floriculture; viticulture; forestry; dairy; livestock; poultry; bee; pisciculture, if the land is used principally for the production of tropical fish; aquaculture, including algaculture; sod farming; and all forms of farm products as defined in s. 823.14(3) and farm production.

(6)(a) In years in which proper application for agricultural assessment has been made and granted pursuant to this section, the assessment of land shall be based solely on its agricultural use. The property appraiser shall consider the following use factors only:

353206

1. The quantity and size of the property;

2. The condition of the property;

3. The present market value of the property as agricultural land;

4. The income produced by the property;

5. The productivity of land in its present use;

6. The economic merchantability of the agricultural product; and

7. Such other agricultural factors as may from time to time become applicable, which are reflective of the standard present practices of agricultural use and production.

(b) Notwithstanding any provision relating to annual assessment found in s. 192.042, the property appraiser shall rely on 5-year moving average data when utilizing the income methodology approach in an assessment of property used for agricultural purposes.

(c)1. For purposes of the income methodology approach to assessment of property used for agricultural purposes, irrigation systems, including pumps and motors, physically attached to the land shall be considered a part of the average yields per acre and shall have no separately assessable contributory value.

2. Litter containment structures located on producing poultry farms and animal waste nutrient containment structures located on producing dairy farms shall be assessed by the methodology described in subparagraph 1.

3. Structures or improvements used in horticultural production for frost or freeze protection, which are consistent with the interim measures or best management practices adopted

353206

by the Department of Agriculture and Consumer Services pursuant to s. 570.93 or s. 403.067(7)(c), shall be assessed by the methodology described in subparagraph 1.

4. Screen-enclosed structures used in horticultural production for protection from pests and diseases or to comply with state or federal eradication or compliance agreements shall be assessed by the methodology described in subparagraph 1.

(d) In years in which proper application for agricultural assessment has not been made, the land shall be assessed under the provisions of s. 193.011.

(7)(a) Lands classified for assessment purposes as agricultural lands which are taken out of production by a state or federal eradication or quarantine program, including the Citrus Health Response Program, shall continue to be classified as agricultural lands for 5 years after the date of execution of a compliance agreement between the landowner and the Department of Agriculture and Consumer Services or a federal agency, as applicable, pursuant to such program or successor programs. Lands under these programs which are converted to fallow or otherwise nonincome-producing uses shall continue to be classified as agricultural lands and shall be assessed at a de minimis value of up to $50 per acre on a single-year assessment methodology while fallow or otherwise used for nonincome-producing purposes. Lands under these programs which are replanted in citrus pursuant to the requirements of the compliance agreement shall continue to be classified as agricultural lands and shall be assessed at a de minimis value of up to $50 per acre, on a single-year assessment methodology, during the 5-year term of agreement. However, lands converted to

353206

other income-producing agricultural uses permissible under such programs shall be assessed pursuant to this section. Land under a mandated eradication or quarantine program which is diverted from an agricultural to a nonagricultural use shall be assessed under s. 193.011.

(b) Lands classified for assessment purposes as agricultural lands that participate in a dispersed water storage program pursuant to a contract with the Department of Environmental Protection or a water management district which requires flooding of land shall continue to be classified as agricultural lands for the duration of the inclusion of the lands in such program or successor programs and shall be assessed as nonproductive agricultural lands. Land that participates in a dispersed water storage program that is diverted from an agricultural to a nonagricultural use shall be assessed under s. 193.011.

(c) Lands classified for assessment purposes as agricultural lands which are not being used for agricultural production as a result of a natural disaster for which a state of emergency is declared pursuant to s. 252.36, when such disaster results in the halting of agricultural production, must continue to be classified as agricultural lands for 5 years following termination of the emergency declaration. However, if such lands are diverted from agricultural use to nonagricultural use during or after the 5-year recovery period, such lands must be assessed under s. 193.011. This paragraph applies retroactively to natural disasters that occurred on or after July 1, 2017.

Section 3. Section 252.3569, Florida Statutes, is created

to read:

252.3569 Florida state agricultural response team.—The Legislature finds that the Department of Agriculture and Consumer Services is the lead agency for animal, agricultural, and vector issues in Florida during emergency or disaster situations, as described by the Florida Comprehensive Emergency Management Plan. Pursuant to this responsibility, there is established within the department a state agricultural response team. Duties of the team include, but are not limited to:

(1) Oversight of the emergency management functions of preparedness, recovery, mitigation, and response with all agencies and organizations that are involved with the state's response activities to animal, agricultural, and vector issues in coordination with the Division of Emergency Management;

(2) Development, training, and support of county agricultural response teams; and

(3) Staffing the Emergency Support Function 17 at the State Emergency Operations Center and staffing as necessary at county emergency operations centers.

Section 4. Section 316.565, Florida Statutes, is amended to read:

316.565 Emergency transportation, agricultural products ~~perishable food~~; establishment of weight loads, etc.—

(1) The Governor may declare an emergency to exist when there is a breakdown in the normal public transportation facilities necessary in moving agricultural products, as defined in s. 604.60, produced ~~perishable food crops grown~~ in the state. The Department of Transportation is authorized during such emergency to establish such weight loads for hauling over the

highways ~~from the fields or packinghouses to the nearest available public transportation facility~~ as circumstances demand. The Department of Transportation may issue, and any law enforcement officer authorized to enforce the traffic laws of this state must accept, electronic verification of permits during such an emergency. A permit issued pursuant to this section is valid for up to 60 days; however, the validity of the permit may not exceed the period of the declared state of emergency or any extension thereof. The Department of Transportation shall designate special highway routes, excluding the interstate highway system, to facilitate the trucking and render any other assistance needed to expedite moving the agricultural products ~~perishables~~.

(2) It is the intent of the Legislature in this chapter to supersede any existing laws when necessary to protect and save any agricultural products produced ~~perishable food crops grown~~ in the state and give authority for agencies to provide necessary temporary assistance requested during any such emergency. The department shall consult with the Department of Agriculture and Consumer Services and stakeholders in the agricultural industry in implementing this section.

Section 5. Materials used in the repair of damage by Hurricane Irma.—

(1) The purchase of the following materials is exempt from the tax imposed under chapter 212, Florida Statutes, during the period from September 10, 2017, through May 31, 2018, if the materials were or will be used to repair damage that occurred as a direct result of the impact of Hurricane Irma:

(a) Building materials used to repair a nonresidential farm

353206

building.

(b) Poles, nets, and other materials used for aquaculture leases.

(c) Fencing materials used in the repair of farm fences on land classified as agricultural under s. 193.461, Florida Statutes.

(2) For purposes of the exemption provided in this section, the term:

(a) "Building materials" means tangible personal property that becomes a component part of a nonresidential farm building.

(b) "Nonresidential farm building" has the same meaning as in s. 604.50, Florida Statutes.

(3) The exemption provided by this section is available only through a refund from the Department of Revenue of previously paid taxes. To receive a refund pursuant to this section, the owner of the materials or the real property into which the materials will be or were incorporated must apply to the Department of Revenue by December 31, 2018. The refund application must include the following information:

(a) The name and address of the person claiming the refund.

(b) The address and assessment roll parcel number of the real property where the materials were or will be used.

(c) The sales invoice or other proof of purchase of the materials, showing the amount of sales tax paid, the date of purchase, and the name and address of the dealer from whom the materials were purchased.

(d) An affidavit executed by the owner of the materials or the real property into which the materials will be or were incorporated, including a statement that the materials were or

will be used to repair a nonresidential farm building, used for aquaculture leases, or used to repair fences damaged as a direct result of the impact of Hurricane Irma.

(4) A person furnishing a false affidavit to the Department of Revenue pursuant to subsection (3) is subject to the penalty set forth in s. 212.085, Florida Statutes, and as otherwise provided by law.

(5) The Department of Revenue may, and all conditions are deemed met to, adopt emergency rules pursuant to s. 120.54(4), Florida Statutes, to administer this section.

(6) Notwithstanding any other provision of law, emergency rules adopted pursuant to subsection (5) are effective for 6 months after adoption and may be renewed during the pendency of procedures to adopt permanent rules addressing the subject of the emergency rules.

(7) This section is considered a revenue law for the purposes of ss. 213.05 and 213.06, Florida Statutes, and s. 72.011, Florida Statutes, applies to this section.

(8) This section operates retroactively to September 10, 2017.

(9) This section is effective upon becoming a law.

Section 6. Fencing materials used in agriculture.—

(1) The purchase of fencing materials used in the construction of farm fences on land classified as agricultural under s. 193.461, Florida Statutes, is exempt from the tax imposed under chapter 212, Florida Statutes, during the period from June 1, 2018, through May 31, 2019.

(2) To obtain the exemption provided by this section the purchaser must sign a certificate stating that the item to be

exempted is for the exclusive use designated in subsection (1). Possession of a written certification from the purchaser which certifies the purchaser's entitlement to the exemption, relieves the seller of the responsibility of collecting the tax on the sale of such items, and the Department of Revenue shall look solely to the purchaser for recovery of the tax if it determines that the purchaser was not entitled to the exemption.

(3) A person furnishing a false certificate to a dealer pursuant to subsection (2) is subject to the penalty set forth in s. 212.085, Florida Statutes, and as otherwise provided by law.

(4) The Department of Revenue may, and all conditions are deemed met to, adopt emergency rules pursuant to s. 120.54(4), Florida Statutes, to administer this section.

(5) Notwithstanding any other provision of law, emergency rules adopted pursuant to subsection (4) are effective for 6 months after adoption and may be renewed during the pendency of procedures to adopt permanent rules addressing the subject of the emergency rules.

(6) This section is considered a revenue law for the purposes of ss. 213.05 and 213.06, Florida Statutes, and the provisions of s. 72.011, Florida Statutes, applies to this section.

(7) This section is effective upon becoming a law.

Section 7. For the 2018-2019 fiscal year, the sum of $5 million in nonrecurring funds from the General Revenue Fund is appropriated to the Department of Agriculture and Consumer Services for the Florida Agriculture Promotion Campaign to expand initiatives promoting agricultural products of this

353206

state.

Section 8. Except as otherwise expressly provided in this act and except for this section, which shall take effect upon this act becoming a law, this act shall take effect July 1, 2018.

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

Delete everything before the enacting clause and insert:

A bill to be entitled

An act relating to agricultural recovery; providing a short title; amending s. 193.461, F.S.; specifying the methodology for the assessment of certain structures in horticultural production; specifying, subject to certain conditions, that lands classified as agricultural remain classified as such for a specified period if such lands are not being used for agricultural production as a result of certain natural disasters; providing for retroactive application; creating s. 252.3569, F.S.; providing legislative findings; establishing a state agricultural response team within the Department of Agriculture and Consumer Services; specifying the duties of the team; requiring that oversight of certain functions be coordinated with the Division of Emergency Management; amending s. 316.565, F.S.; revising the Governor’s authority, to include agricultural products instead of only perishable food, in declaring an emergency relating to

the transport of such products when there is a breakdown in the normal public transportation facilities necessary to move such products; authorizing the Department of Transportation to issue, and requiring specified law enforcement officers to accept, electronic verification of permits during a declared state of emergency; providing that such permits are valid for up to a specified period of time, but no longer than the duration of the declared state of emergency or any extension thereof; requiring the Department of Transportation to consult with the Department of Agriculture and Consumer Services and stakeholders in the agricultural industry in implementing emergency transportation assistance for agricultural products; creating an exemption from the sales, rental, use, consumption, distribution, and storage tax for specified materials purchased during a specified period to repair damage caused by Hurricane Irma; defining terms; specifying that the exemption is only available through a refund of previously paid taxes; specifying a deadline for the submission of applications for such refunds; specifying the requirements for obtaining a refund on taxes paid; providing a penalty for filing a false affidavit; authorizing the Department of Revenue to adopt emergency rules; providing for the expiration of such emergency rules; specifying that certain provisions constitute a revenue law; providing for retroactive application; providing an effective date for the

353206

exemption; creating an exemption from the sales, rental, use, consumption, distribution, and storage tax for certain fencing materials used in agriculture purchased during a later specified period; specifying the requirements for obtaining the exemption; specifying that possession of a written certification by a purchaser relieves a seller from the responsibility to collect sales tax; specifying that the department must look solely to purchasers for recovery of tax under certain conditions; providing a penalty for furnishing a false certificate; authorizing the department to adopt emergency rules; providing for the expiration of such rules; specifying that certain provisions constitute a revenue law; providing an appropriation; providing effective dates.

Proposed Committee Substitute by the Committee on Appropriations
(Appropriations Subcommittee on Finance and Tax)

A bill to be entitled

An act relating to agricultural recovery; providing a short title; amending s. 193.461, F.S.; specifying the methodology for the assessment of certain structures in horticultural production; specifying, subject to certain conditions, that land classified as agricultural remains classified as such for a specified period if such lands are not being used for agricultural production as a result of certain natural disasters; providing for retroactive application; amending s. 212.08, F.S.; creating a new exemption from the sales, rental, use, consumption, distribution, and storage tax for specified materials; specifying that such exemption is only available through a refund of previously paid taxes; specifying the effective date of the exemption; defining the term "building materials"; specifying the requirements for obtaining a refund on taxes paid; specifying a deadline for the submission of applications for such refunds; providing a penalty for filing a false affidavit; authorizing the department to adopt emergency rules; providing for future expiration of the emergency rulemaking authority; creating s. 252.3569, F.S.; providing legislative findings; establishing a state agricultural response team within the Department of Agriculture and Consumer Services; specifying the duties of the team; amending s.

705324

576-03427-18

316.565, F.S.; revising the Governor's authority, to include agricultural products instead of only perishable food, in declaring an emergency relating to the transport of such products when there is a breakdown in the normal public transportation facilities necessary to move such products; authorizing the Department of Transportation to issue, and specified law enforcement officers to accept, electronic verification of permits during a declared state of emergency; providing that such permits are valid for up to a specified period of time, but no longer than the duration of the declared state of emergency or any extension thereof; requiring the Department of Transportation to consult with the Department of Agriculture and Consumer Services and stakeholders in the agricultural industry in implementing emergency transportation assistance for agricultural products; providing an appropriation; providing a directive to the Division of Law Revision and Information; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. This act may be cited as the "Farmers and Ranchers Matter Act."

Section 2. Section 193.461, Florida Statutes, is amended to read:

193.461 Agricultural lands; classification and assessment; mandated eradication or quarantine program; natural disasters.—

705324

576-03427-18

(1) The property appraiser shall, on an annual basis, classify for assessment purposes all lands within the county as either agricultural or nonagricultural.

(2) Any landowner whose land is denied agricultural classification by the property appraiser may appeal to the value adjustment board. The property appraiser shall notify the landowner in writing of the denial of agricultural classification on or before July 1 of the year for which the application was filed. The notification shall advise the landowner of his or her right to appeal to the value adjustment board and of the filing deadline. The property appraiser shall have available at his or her office a list by ownership of all applications received showing the acreage, the full valuation under s. 193.011, the valuation of the land under the provisions of this section, and whether or not the classification requested was granted.

(3)(a) Lands may not be classified as agricultural lands unless a return is filed on or before March 1 of each year. Before classifying such lands as agricultural lands, the property appraiser may require the taxpayer or the taxpayer's representative to furnish the property appraiser such information as may reasonably be required to establish that such lands were actually used for a bona fide agricultural purpose. Failure to make timely application by March 1 constitutes a waiver for 1 year of the privilege granted in this section for agricultural assessment. However, an applicant who is qualified to receive an agricultural classification who fails to file an application by March 1 must file an application for the classification with the property appraiser on or before the 25th

705324

576-03427-18

day after the mailing by the property appraiser of the notice required under s. 194.011(1). Upon receipt of sufficient evidence, as determined by the property appraiser, that demonstrates that the applicant was unable to apply for the classification in a timely manner or that otherwise demonstrates extenuating circumstances that warrant the granting of the classification, the property appraiser may grant the classification. If the applicant files an application for the classification and fails to provide sufficient evidence to the property appraiser as required, the applicant may file, pursuant to s. 194.011(3), a petition with the value adjustment board requesting that the classification be granted. The petition may be filed at any time during the taxable year on or before the 25th day following the mailing of the notice by the property appraiser as provided in s. 194.011(1). Notwithstanding s. 194.013, the applicant must pay a nonrefundable fee of $15 upon filing the petition. Upon reviewing the petition, if the person is qualified to receive the classification and demonstrates particular extenuating circumstances judged by the value adjustment board to warrant granting the classification, the value adjustment board may grant the classification for the current year. The owner of land that was classified agricultural in the previous year and whose ownership or use has not changed may reapply on a short form as provided by the department. The lessee of property may make original application or reapply using the short form if the lease, or an affidavit executed by the owner, provides that the lessee is empowered to make application for the agricultural classification on behalf of the owner and a copy of the lease or affidavit accompanies the

705324

576-03427-18

application. A county may, at the request of the property appraiser and by a majority vote of its governing body, waive the requirement that an annual application or statement be made for classification of property within the county after an initial application is made and the classification granted by the property appraiser. Such waiver may be revoked by a majority vote of the governing body of the county.

(b) Subject to the restrictions specified in this section, only lands that are used primarily for bona fide agricultural purposes shall be classified agricultural. The term "bona fide agricultural purposes" means good faith commercial agricultural use of the land.

1. In determining whether the use of the land for agricultural purposes is bona fide, the following factors may be taken into consideration:

a. The length of time the land has been so used.

b. Whether the use has been continuous.

c. The purchase price paid.

d. Size, as it relates to specific agricultural use, but a minimum acreage may not be required for agricultural assessment.

e. Whether an indicated effort has been made to care sufficiently and adequately for the land in accordance with accepted commercial agricultural practices, including, without limitation, fertilizing, liming, tilling, mowing, reforesting, and other accepted agricultural practices.

f. Whether the land is under lease and, if so, the effective length, terms, and conditions of the lease.

g. Such other factors as may become applicable.

2. Offering property for sale does not constitute a primary

705324

576-03427-18

use of land and may not be the basis for denying an agricultural classification if the land continues to be used primarily for bona fide agricultural purposes while it is being offered for sale.

(c) The maintenance of a dwelling on part of the lands used for agricultural purposes does ~~shall~~ not in itself preclude an agricultural classification.

(d) When property receiving an agricultural classification contains a residence under the same ownership, the portion of the property consisting of the residence and curtilage must be assessed separately, pursuant to s. 193.011, to qualify for the assessment limitation set forth in s. 193.155. The remaining property may be classified under the provisions of paragraphs (a) and (b).

(e) Notwithstanding the provisions of paragraph (a), land that has received an agricultural classification from the value adjustment board or a court of competent jurisdiction pursuant to this section is entitled to receive such classification in any subsequent year until such agricultural use of the land is abandoned or discontinued, the land is diverted to a nonagricultural use, or the land is reclassified as nonagricultural pursuant to subsection (4). The property appraiser must, no later than January 31 of each year, provide notice to the owner of land that was classified agricultural in the previous year informing the owner of the requirements of this paragraph and requiring the owner to certify that neither the ownership nor the use of the land has changed. The department shall, by administrative rule, prescribe the form of the notice to be used by the property appraiser under this

paragraph. If a county has waived the requirement that an annual application or statement be made for classification of property pursuant to paragraph (a), the county may, by a majority vote of its governing body, waive the notice and certification requirements of this paragraph and shall provide the property owner with the same notification provided to owners of land granted an agricultural classification by the property appraiser. Such waiver may be revoked by a majority vote of the county's governing body. This paragraph does not apply to any property if the agricultural classification of that property is the subject of current litigation.

(4) The property appraiser shall reclassify the following lands as nonagricultural:

(a) Land diverted from an agricultural to a nonagricultural use.

(b) Land no longer being utilized for agricultural purposes.

(5) For the purpose of this section, the term "agricultural purposes" includes, but is not limited to, horticulture; floriculture; viticulture; forestry; dairy; livestock; poultry; bee; pisciculture, if the land is used principally for the production of tropical fish; aquaculture, including algaculture; sod farming; and all forms of farm products as defined in s. 823.14(3) and farm production.

(6)(a) In years in which proper application for agricultural assessment has been made and granted pursuant to this section, the assessment of land shall be based solely on its agricultural use. The property appraiser shall consider the following use factors only:

1. The quantity and size of the property;

2. The condition of the property;

3. The present market value of the property as agricultural land;

4. The income produced by the property;

5. The productivity of land in its present use;

6. The economic merchantability of the agricultural product; and

7. Such other agricultural factors as may from time to time become applicable, which are reflective of the standard present practices of agricultural use and production.

(b) Notwithstanding any provision relating to annual assessment found in s. 192.042, the property appraiser shall rely on 5-year moving average data when utilizing the income methodology approach in an assessment of property used for agricultural purposes.

(c)1. For purposes of the income methodology approach to assessment of property used for agricultural purposes, irrigation systems, including pumps and motors, physically attached to the land shall be considered a part of the average yields per acre and shall have no separately assessable contributory value.

2. Litter containment structures located on producing poultry farms and animal waste nutrient containment structures located on producing dairy farms shall be assessed by the methodology described in subparagraph 1.

3. Structures or improvements used in horticultural production for frost or freeze protection, which are consistent with the interim measures or best management practices adopted

576-03427-18

by the Department of Agriculture and Consumer Services pursuant to s. 570.93 or s. 403.067(7)(c), shall be assessed by the methodology described in subparagraph 1.

4. Screened enclosed structures used in horticultural production for protection from pests and diseases or to comply with state or federal eradication or compliance agreements shall be assessed by the methodology described in subparagraph 1.

(d) In years in which proper application for agricultural assessment has not been made, the land shall be assessed under the provisions of s. 193.011.

(7)(a) Lands classified for assessment purposes as agricultural lands which are taken out of production by a state or federal eradication or quarantine program, including the Citrus Health Response Program, shall continue to be classified as agricultural lands for 5 years after the date of execution of a compliance agreement between the landowner and the Department of Agriculture and Consumer Services or a federal agency, as applicable, pursuant to such program or successor programs. Lands under these programs which are converted to fallow or otherwise nonincome-producing uses shall continue to be classified as agricultural lands and shall be assessed at a de minimis value of up to $50 per acre on a single-year assessment methodology while fallow or otherwise used for nonincome-producing purposes. Lands under these programs which are replanted in citrus pursuant to the requirements of the compliance agreement shall continue to be classified as agricultural lands and shall be assessed at a de minimis value of up to $50 per acre, on a single-year assessment methodology, during the 5-year term of agreement. However, lands converted to

576-03427-18

other income-producing agricultural uses permissible under such programs shall be assessed pursuant to this section. Land under a mandated eradication or quarantine program which is diverted from an agricultural to a nonagricultural use shall be assessed under s. 193.011.

(b) Lands classified for assessment purposes as agricultural lands that participate in a dispersed water storage program pursuant to a contract with the Department of Environmental Protection or a water management district which requires flooding of land shall continue to be classified as agricultural lands for the duration of the inclusion of the lands in such program or successor programs and shall be assessed as nonproductive agricultural lands. Land that participates in a dispersed water storage program that is diverted from an agricultural to a nonagricultural use shall be assessed under s. 193.011.

(c) Lands classified for assessment purposes as agricultural lands which are not being used for agricultural production as a result of a natural disaster for which a state of emergency is declared pursuant to s. 252.36, when such disaster results in the halting of agricultural production, must continue to be classified as agricultural lands for 5 years following termination of the emergency declaration. However, if such lands are diverted from agricultural use to nonagricultural use during or after the 5-year recovery period, such lands must be assessed under s. 193.011. This paragraph applies retroactively to natural disasters that occurred on or after July 1, 2017.

Section 3. Subsection (19) is added to section 212.08,

Florida Statutes, to read:

212.08 Sales, rental, use, consumption, distribution, and storage tax; specified exemptions.—The sale at retail, the rental, the use, the consumption, the distribution, and the storage to be used or consumed in this state of the following are hereby specifically exempt from the tax imposed by this chapter.

(19) SALES TAX REFUND FOR MATERIALS RELATING TO AGRICULTURE AND AQUACULTURE.—

(a) Building materials used in the construction of a nonresidential farm building as defined in s. 604.50; poles, nets, and other materials used for aquaculture leases; and fencing materials used in the construction of farm fences on land classified as agricultural under s. 193.461 are exempt from the tax imposed under this chapter. The exemption provided in this subsection is available only through a refund of previously paid taxes and is available only for materials purchased on or after September 1, 2017.

(b) For purposes of the exemption provided in this subsection, the term "building materials" means tangible personal property that becomes a component part of a nonresidential farm building.

(c) To receive a refund pursuant to this subsection, the owner of the materials or the real property into which the materials will be or were incorporated must apply to the department within 6 months after the transaction or the effective date of this act, whichever occurs later. The refund application must include the following information:

1. An affidavit executed by the owner of the materials or

the real property into which the materials will be or were incorporated, including a statement that the materials were or will be used exclusively as required under this subsection.

2. The name and address of the person claiming the refund.

3. The address and assessment roll parcel number of the real property where the improvement is made.

4. A description of the improvement.

5. The sales invoice or other proof of purchase of the materials, showing the amount of sales tax paid, the date of purchase, and the name and address of the dealer from whom the materials were purchased.

(d) A person who furnishes a false affidavit to the department in an application submitted pursuant to paragraph (c) is subject to the penalty specified in s. 212.085 and as otherwise provided by law.

Section 4. (1) The Department of Revenue may, and all conditions are deemed met to, adopt emergency rules pursuant to ss. 120.536(1) and 120.54(4), Florida Statutes, to implement s. 212.08(19), Florida Statutes.

(2) This section expires January 1, 2024.

Section 5. Section 252.3569, Florida Statutes, is created to read:

252.3569 Florida state agricultural response team.—The Legislature finds that the Department of Agriculture and Consumer Services is the lead agency for animal, agricultural, and vector issues in Florida during emergency or disaster situations, as described by the Florida Comprehensive Emergency Management Plan. Pursuant to this responsibility, there is established within the department a state agricultural response

team. Duties of the team include, but are not limited to:

(1) Oversight of the emergency management functions of preparedness, recovery, mitigation, and response with all agencies and organizations that are involved with the state's response activities to animal, agricultural, and vector issues;

(2) Development, training, and support of county agricultural response teams; and

(3) Staffing the Emergency Support Function 17 at the State Emergency Operations Center and staffing as necessary at county emergency operations centers.

Section 6. Section 316.565, Florida Statutes, is amended to read:

316.565 Emergency transportation, agricultural products ~~perishable food~~; establishment of weight loads, etc.—

(1) The Governor may declare an emergency to exist when there is a breakdown in the normal public transportation facilities necessary in moving agricultural products, as defined in s. 604.60, ~~perishable food crops~~ grown in the state. The Department of Transportation is authorized during such emergency to establish such weight loads for hauling over the highways ~~from the fields or packinghouses to the nearest available public transportation facility~~ as circumstances demand. The Department of Transportation may issue, and any law enforcement officer authorized to enforce the traffic laws of this state may accept, electronic verification of permits during such an emergency. A permit issued pursuant to this section is valid for up to 60 days; however, the validity of the permit may not exceed the period of the declared state of emergency or any extension thereof. The Department of Transportation shall designate

special highway routes, excluding the interstate highway system, to facilitate the trucking and render any other assistance needed to expedite moving the agricultural products ~~perishables~~.

(2) It is the intent of the Legislature in this chapter to supersede any existing laws when necessary to protect and save any agricultural products ~~perishable food crops~~ grown in the state and give authority for agencies to provide necessary temporary assistance requested during any such emergency. The department shall consult with the Department of Agriculture and Consumer Services and stakeholders in the agricultural industry in implementing this section.

Section 7. For the 2018-2019 fiscal year, the sum of $5 million in nonrecurring funds from the General Revenue Fund is appropriated to the Department of Agriculture and Consumer Services for the Florida Agriculture Promotion Campaign to expand initiatives promoting agricultural products of this state.

Section 8. The Division of Law Revision and Information is directed to replace the phrase "the effective date of this act" wherever it occurs in this act with the date this act becomes a law.

Section 9. This act shall take effect July 1, 2018.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 1608
INTRODUCER:	Transportation Committee and Senator Grimsley
SUBJECT:	Agricultural Recovery
DATE:	February 26, 2018 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Price	Miller	TR	**Fav/CS**
2.	Gross	Diez-Arguelles	AFT	**Recommend: Fav/CS**
3.	Gross	Hansen	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1608 addresses a number of provisions related to the agriculture industry. Specifically, the bill:

- Allows certain lands classified as agricultural for tax purposes to continue to be classified as such for 5 years after being damaged by a natural disaster.
- Reduces the assessment of certain screened enclosed horticultural structures for ad valorem assessment purposes.
- Exempts certain materials and labor costs related to agriculture and aquaculture from sales and use tax, and provides for retroactive application and a process for claiming a refund.
- Codifies the State Agricultural Response Team within the Department of Agriculture & Consumer Services (DACS) and assigns it certain duties.
- Provides for the emergency transportation of crops grown and livestock raised in the state, as well as revising the authority and duties of the Florida Department of Transportation (FDOT) with respect to truck weight restrictions.
- Requires the FDOT to create a program to provide directional signs at certain locations on major public highways for commercial agricultural facilities that promote tourism.

The Revenue Estimating Conference estimates that this bill will reduce General Revenue Fund receipts by $59.5 million in Fiscal Year 2018-2019, and $27.8 million each year thereafter. Local government revenues will be reduced by $15.4 million in Fiscal Year 2018-2019, and $8.9 million each year thereafter.

II. Present Situation:

The present situation for each section of the bill is discussed below in conjunction with the Effect of Proposed Changes.

III. Effect of Proposed Changes:

Section 1 provides that the bill may be cited as the "Farmers and Ranchers Matter Act."

Assessment of Agricultural Lands (Section 2)

Present Situation:

The ad valorem tax or "property tax" is an annual tax levied by counties, municipalities, school districts, and some special districts. The tax is based on the taxable value of property as of January 1 of each year.[1] The property appraiser annually determines the "just value"[2] of property within the taxing authority and then applies relevant exclusions, assessment limitations, and exemptions to determine the property's "taxable value."[3]

The Florida Constitution limits the Legislature's authority to provide for property valuations at less than just value, unless expressly authorized.[4] The just valuation standard generally requires the property appraiser to consider the highest and best use of property;[5] however, the Florida Constitution authorizes certain types of property to be valued based on their current use (classified use assessments), which often result in lower assessments. Agricultural land is one example of property that is assessed based on its current use rather than its fair market value.[6]

Currently, certain structures that are attached physically to the land are considered to be a part of the average yields per acre and have no separately assessable contributory (taxable) value.[7] These structures include:

- Irrigation systems, including pumps and motors;
- Litter containment structures located on producing poultry farms and animal waste nutrient containment structures located on producing dairy farms; and

[1] Both real property and tangible personal property are subject to tax. Section 192.001(12), F.S., defines "real property" as land, buildings, fixtures, and all other improvements to land. Section 192.001(11)(d), F.S., defines "tangible personal property" as all goods, chattels, and other articles of value capable of manual possession and whose chief value is intrinsic to the article itself.

[2] Property must be valued at "just value" for purposes of property taxation, unless the Florida Constitution provides otherwise. FLA. CONST. art VII, s. 4. Just value has been interpreted by the courts to mean the fair market value that a willing buyer would pay a willing seller for the property in an arm's-length transaction. *See Walter v. Shuler,* 176 So. 2d 81 (Fla. 1965); *Deltona Corp. v. Bailey*, 336 So. 2d 1163 (Fla. 1976); *Southern Bell Tel. & Tel. Co. v. Dade County*, 275 So. 2d 4 (Fla. 1973).

[3] *See* s. 192.001(2) and (16), F.S.

[4] *See* FLA. CONST. art. VII, s. 4.

[5] Section 193.011(2), F.S.

[6] FLA. CONST. art. VII, s. 4(a).

[7] Section 193.461(6)(c), F.S. This treatment of these structures applies when using the income approach in determining value.

- Structures or improvements used in horticultural production for frost or freeze protection, which are consistent with the interim measures or best management practices adopted by the DACS.[8]

Effect of Proposed Changes:

Section 2 amends s. 193.461(7), F.S., to allow agricultural lands that incur damage as a result of a natural disaster for which a state of emergency is declared,[9] and which results in the halting or reduction of agricultural production, must continue to be classified as agricultural lands for five years following termination of the emergency declaration. However, if such lands are diverted from agricultural use to nonagricultural use during or after the five-year recovery period, such lands must be assessed at fair market value using the factors for deriving just valuation in s. 193.011, F.S.

The bill also amends s. 193.461(6)(c), F.S., to provide that screened enclosed structures used in horticultural production for protection from pests and diseases or to comply with state or federal eradication or compliance agreements are considered a part of the average yields per acre and have no separately assessable value.

Exemption from Taxation (Section 3)

Present Situation:

Florida levies a six percent sales and use tax on the sale or rental of most tangible personal property, admissions,[10] transient rentals,[11] rental of commercial real estate,[12] and a limited number of services. Sales tax is added to the price of the taxable good or service and collected from the purchaser at the time of sale.[13] There are currently more than 250 exemptions, exclusions, deductions and credits from the sales and use tax.[14]

In addition to the state tax, s. 212.055, F.S., authorizes counties to impose nine local discretionary sales surtaxes. A surtax applies to "all transactions occurring in the county which transactions are subject to the state tax imposed on sales, use, services, rental, admissions, and other transactions by [ch. 212, F.S.], and on communications services as defined in ch. 202, F.S."[15] The discretionary sales surtax is based on the tax rate imposed by the county where the

[8] Section 193.461(6)(c), F.S.
[9] Section 252.36(2), F.S., provides for declaration of a state of emergency by executive order or proclamation of the Governor, if he or she finds an emergency or the threat of an emergency has occurred or is about to occur. The law provides that the state of emergency "shall continue until the Governor finds that the threat or danger has been dealt with to the extent that the emergency conditions no longer exist and she or he terminates the state of emergency by executive order or proclamation, but no state of emergency may continue for longer than 60 days unless renewed by the Governor.
[10] Section 212.04, F.S.
[11] Section 212.03, F.S.
[12] Section 212.031, F.S.
[13] Florida Dept. of Revenue, *Who must pay tax? Partial list of taxable business activities, available at* http://dor.myflorida.com/dor/taxes/sales_tax.html (last visited Nov. 15, 2017).
[14] *See* Office of Economic and Demographic Research, The Florida Legislature, *Florida Tax Handbook*, 164-170 (2017).
[15] Section 212.054, F.S.

taxable goods or services are sold, or where they are delivered. Discretionary sales surtax rates currently levied vary by county in a range from 0.5 percent to 1.5.[16]

Building materials are exempt from the sales and use tax and county discretionary sales surtaxes when they are used for certain purposes(e.g., building materials used in rehabilitation of real property located in an enterprise zone[17] or in a rural area of economic opportunity).[18]

Effect of Proposed Changes:

Section 3 of the bill amends s. 212.08, F.S., to exempt the following from the sales and use tax:

- Building materials used in the construction of a nonresidential farm building;[19]
- Poles, nets, and other materials used for aquaculture leases;
- Building materials used in the construction of farm fences on agricultural land; and
- The cost of labor associated with the construction or installation of the specified items.

The bill provides the exemption retroactively to September 1, 2017, which allows purchasers the opportunity to receive a refund of taxes paid prior to the effective date of the bill.

The Department of Revenue (DOR) will accept refund applications within six months of the transaction or the effective date of the bill, whichever occurs later. The bill requires an applicant to submit to the DOR a signed certificate stating that the materials and labor are used exclusively as required under the new provisions. The applications must also include:

- The name and address of the person claiming the refund;
- The address and assessment roll parcel number of the property where the improvement is made; and
- A description of the improvement.

State Agricultural Response Team (Section 4)

Present Situation:

Section 252.35, F.S., requires the Division of Emergency Management (DEM) to prepare a statewide comprehensive emergency management plan (CEMP). The state CEMP is the master operations document in responding to all emergencies, and all catastrophic, major, and minor disasters. It also:

- Defines the responsibilities of all levels of government, private, volunteer and non-governmental organizations that make up the State Emergency Response Team (SERT); and

[16] Florida Legislature, Office of Economic and Demographic Research, *Florida Tax Handbook,* 2017 Local Discretionary Sales Surtax Rates in Florida's Counties, 224-225 (2017), *available at* http://edr.state.fl.us/Content/revenues/reports/tax-handbook/taxhandbook2017.pdf (last visited Nov. 15, 2017).
[17] Section 212.08(5)(g), F.S.
[18] Section 212.08(5)(r), F.S
[19] Defined in s. 604.50(2)(d), F.S., as "any temporary or permanent building or support structure classified as a nonresidential farm building on a farm [which is exempt from the Florida building code] or that is used primarily for agricultural purposes, is located on land that is an integral part of a farm operation or is classified as agricultural land under s. 193.461, F.S., and is not intended to be used as a residential building." The term includes, but is not limited to, a barn, greenhouse, shade house, farm office, storage building, or poultry house.

- Ensures that all levels of government are able to mobilize as a unified emergency organization to safeguard the well-being of Florida's residents and visitors.[20]

The DACS facilitated the development of the State Agricultural Response Team (SART), along with other partners, with the mission to "support an effective and coordinated incident response for the animal and agricultural sectors in the State of Florida."[21] The SART's strategic imperatives are to:

- Support a multi-agency coordination group for state-level response activities for animal and agriculture issues.
- Develop and support an Incident Management Team with equipment and training.
- Develop and support response resources such as the Mobile Animal Response Equipment Units, College of Veterinary Medicine Veterinary Emergency Treatment Service, and Florida Veterinary Corps with funding and or training.
- Develop and support county and regional outreach, training and information coordination in order to enhance local and regional response capabilities.[22]

Currently, the SART is not expressly identified or addressed in statute.

Effect of Proposed Changes:

Section 4 creates s. 252.3569, F.S., to require the Florida CEMP to allow the DACS, working from DACS offices or in the Emergency Operations Center, to create the SART. If created, the bill provides that the duties and responsibilities of the SART include, but are not limited, to:

- The development, training, and support of county agricultural response teams;
- Asset acquisition; and
- Colocation of a team member at activated local emergency operations centers.

This section of the bill codifies existing practice.

Emergency Transportation/Weight Loads (Section 5)

Present Situation:

Section 316.565, F.S., currently authorizes the Governor to declare an emergency when a breakdown occurs in the normal public transportation facilities necessary in moving *perishable food* crops grown in this state. The FDOT may establish (increase or eliminate) weight loads during such emergency for hauling perishable foods over the highways from the fields or packinghouses to the nearest available public transportation facility as circumstances demand. The FDOT is required to designate special highway routes, *excluding* the interstate highway system, to facilitate the trucking and render any other assistance needed to expedite moving the perishables.

[20] See the current CEMP at p. 5, available at: https://floridadisaster.org/globalassets/importedpdfs/2016-state-cemp-complete-final-draft.pdf. (Last visited February 7, 2018.) Section 252.35(2)(a), F.S., requires submission of the CEMP to the Senate President, House Speaker, and Governor on February 1 of every even-numbered year.
[21] See the *FloridaSART* website available at: http://flsart.org/about/. (Last visited February 7, 2018.)
[22] *Id.*

Effect of Proposed Changes:

Section 5 amends s. 316.565, F.S., to replace the term "perishable food crops" with "crops grown and livestock raised in the state." This allows, the Governor to declare an emergency when a breakdown occurs in the normal public transportation facilities necessary in moving crops grown and livestock raised in the state.

The FDOT, rather than establishing weight loads, may *waive* weight load restrictions and permit verifications for hauling certain items from the fields or packinghouses to the nearest public transportation facility during a declared emergency. The bill authorizes the FDOT to extend such waivers beyond the end of a declared emergency to provide for protracted harvesting and disaster recovery efforts. (See the "Related Issues" heading below for further information.) The bill also authorizes the FDOT to issue or accept electronic verification of permits during such emergency and protracted periods. The bill eliminates the exclusion of the interstate highway system from the FDOT's duty to designate special highway routes; thus, the FDOT is charged with designating such routes on all highways including the interstate highway system, to expedite moving agricultural products.

The legislative intent is also revised to supersede any existing laws when necessary to protect and save crops grown and livestock raised in the state, rather than to protect and save any perishable food crops grown in the state.

Agritourism Signage (Section 6)

Present Situation:

Federal Law: Since the passage of the Highway Beautification Act (HBA) in 1965,[23] the Federal Highway Administration has established controls for outdoor advertising along Federal-Aid Primary, Interstate, and National Highway System (NHS) roads. The HBA allows billboards in commercial and industrial areas, mandates a state compliance program, requires the development of state standards, promotes the expeditious removal of illegal signs, and requires just compensation for takings. The HBA mandates state compliance and the development of standards for certain signs, as well as the removal of nonconforming signs. While the states are not directly forced to control signs, failure to impose the required controls can result in a 10 percent reduction of the state's annual federal-aid highway apportionment.[24]

State Law: Florida law currently authorizes a number of outdoor advertising signs, primarily in Chapter 479, F.S.[25] Pursuant to its statutory authority,[26] the FDOT administers a system of guide signs under Chapter 14-51, F.A.C., entitled "Florida's Highway Guide Sign Program," which

[23] 23 U.S.C. 131.
[24] 23 U.S.C. 131(b).
[25] As examples of signs authorized other than in Chapter 479, F.S., see s. 599.004, F.S., relating to signs on the rights-of-way of the limited access highway system for the Florida Farm Winery Program; s. 565.03, F.S., relating to signage for licensed craft distilleries; and s. 563.13, F.S., relating to Florida brewery directional signs. Chapter 14-51, F.A.C., addresses these signs respectively in Chapter 14-51.020(3)(h), (i), and (j); and in Chapter 14-51.030(3)(j), (k), and (l), F.A.C., available at: https://www.flrules.org/gateway/ChapterHome.asp?Chapter=14-51. (Last visited February 1, 2018.)
[26] Section 479.02(7), F.S.

includes guide signs,[27] place name signs,[28] community wayfinding guide signs,[29] and tourist-oriented directional signs.[30] No provision of current law or rule specifically addresses guide signage for commercial agricultural facilities.[31]

Effect of Proposed Changes:

Section 6 creates s. 604.71, F.S., relating to the Florida Agritourism Signage Program. The FDOT must create and administer a program to provide and install directional signs for commercial agricultural facilities that promote tourism by providing tours and onsite sales or samples of Florida agricultural products to tourists. The signs will be located on major public highways at, or in reasonable proximity to, the nearest interchange or within one mile of roads leading to the agritoursim facility. Placement of directional signage must be at intervals in a manner that provides visitors with sufficient information to locate the agricultural facility.

To qualify for participation in the program, an agricultural facility must:
- Be open for business at least four days a week for 10 months of the year;
- Have a working growing or ranching area of at least two acres that can be toured from the facility location specified in the signage;
- Offer tours of the growing and ranching area; and
- Apply to and be approved by the FDOT.

Upon application by a facility, the FDOT must assess:
- The facility as to its suitability for the program; and
- The reasonable costs of creating and installing directional signs.

The bill directs the FDOT to adopt rules to administer the new section of law, including, but not limited to, an application and approval process for applicants.

Lastly, the FDOT is required to coordinate with the Department of Agriculture and Consumer Services in administering the new section of law.

Other Provisions (Section 7)

Section 7 directs the Division of Law Revision and Information to replace the phrase "effective date of this act" wherever it occurs in the act with the date the act becomes a law.

[27] "Guide sign" is defined to mean a sign that shows route designations, destinations, directions, distances, services, points of interest, or other geographical, recreational, or cultural information. Chapter 14-51.011(7), F.A.C.
[28] "Place name sign" is defined to mean a sign identifying the geographic boundary of a municipality or county, lying on or along a road on the state highway system. Chapter 14-51.011(15), F.A.C.
[29] "Community wayfinding guide sign" is defined to mean a directional guide sign that is part of a coordinated and continuous system of signs directing tourists
[30] "Tourist oriented directional signs" or "TODS" means guide sign assemblies with individual panels displaying the identity and directional information for a business, service, or activity facilities. Per s.479.262, F.S., this program is authorized only when approved and permitted by county or local governmental entities within their respective jurisdictional areas.
[31] However, the subject legislation appears to be modeled in a fashion similar, but not identical, to the Florida Farm Winery Program contained in Chapter 599, entitled "Viticulture," which is the production and utilization of grapes. Section 599.001(1), F.S.

Section 8 provides that the bill takes effect July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, s. 18 of the Florida Constitution governs laws that require counties and municipalities to spend funds or that limit their ability to raise revenue or receive state tax revenues. Subsection (b) of s. 18, Art. VII, Florida Constitution, provides that except upon approval of each house of the Legislature by two-thirds vote of the membership, the legislature may not enact, amend, or repeal any general law if the anticipated effect of doing so would be to reduce the authority that municipalities or counties have to raise revenue in the aggregate, as such authority existed on February 1, 1989. However, the mandates requirements do not apply to laws having an insignificant impact,[32] which for Fiscal Year 2017-2018, is $2.05 million or less.[33]

The Revenue Estimating Conference estimates this bill will reduce the authority that counties have to raise revenue from the local options sales tax by $7.6 million in Fiscal Year 2018-2019. Therefore, the bill may require passage by a two-thirds vote of the membership of each house.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference estimates that this bill will reduce General Revenue Fund receipts by $59.5 million in Fiscal Year 2018-2019, and $27.8 million each year thereafter. Local government revenues will be reduced by $15.4 million in Fiscal Year 2018-2019, and $8.9 million each year thereafter.

The table below outlines the revenue impact of the bill.

[32] An insignificant fiscal impact is the amount not greater than the average statewide population for the applicable fiscal year times $0.10. *See* Florida Senate Committee on Community Affairs, *Interim Report 2012-115: Insignificant Impact*, (September 2011), *available at* http://www.flsenate.gov/PublishedContent/Session/2012/InterimReports/2012-115ca.pdf. (Last visited February 7, 2018.)

[33] Based on the Demographic Estimating Conference's population adopted on December 5, 2017. The conference packet is available at http://edr.state.fl.us/Content/conferences/population/ConferenceResults.pdf. (Last visited February 7, 2018).

	GR		Trust		Local		Total	
Issue	1st year	Recur.	1st year	Recur.	1st year	Recur.	1st year	Recur.
5-year agricultural assessment	-	-	-	-	-	-	-	-
Screened enclosed structures	-	-	-	-	-	(1.9)	-	(1.9)
Building materials	(40.8)	(18.4)	(*)	(*)	(10.5)	(4.7)	(51.3)	(23.1)
Fencing materials	(18.5)	(9.2)	(*)	(*)	(4.8)	(2.3)	(24.1)	(11.4)
Aquaculture leases	(0.2)	(0.2)	(*)	(*)	(0.1)	ins	(0.3)	(0.2)
Total	**(59.5)**	**(27.8)**	**(*)**	**(*)**	**(15.4)**	**(8.9)**	**(75.7)**	**(36.6)**

B. Private Sector Impact:

Some owners of agricultural land will experience lower ad valorem tax assessments.

Purchasers of materials may receive a reduction in the cost of construction if they receive a refund of the sales and use tax paid for certain agriculture and aquaculture materials.

To the extent that the FDOT waives any permit fees for transportation of crops grown or livestock raised during or after a declared emergency, those who would otherwise be required to obtain an overweight permit or be subject to overweight penalties will benefit in an indeterminate amount as a result of reduced permit fees and potential penalties.

Whether the reasonable costs of creating and installing the agritourism signage are to be borne by the applicant or by the FDOT is unclear (see discussion below under the "Related Issues" heading). If the applicant is responsible, the applicant will incur expenses in an amount representing the reasonable costs of creating and installing the directional signs, as determined by the FDOT.

C. Government Sector Impact:

The FDOT will incur indeterminate administrative expenses associated with the required rulemaking for, and administration of, the agritourism signage program, as well as for coordinating with the DACS in administering the program. Whether the reasonable costs of creating and installing the directional signage are to be borne by the applicant or by the FDOT is unclear (see discussion below under the "Related Issues" heading). If the FDOT is responsible, the FDOT will also incur these costs in an indeterminate amount, depending on the number of applicants and signs installed. The FDOT has indicated it has no concerns regarding federal law.[34]

VI. Technical Deficiencies:

None.

[34] Telephone conversation with FDOT staff January 11, 2018. A conflict with federal law could impact the state's annual federal-aid highway apportionment.

VII. Related Issues:

The bill would allow waiver of weight load restrictions and permit verifications during periods of time when no emergency is declared. According to the FDOT, extension of a waiver of weight load restrictions and permit verifications beyond the end of a declared emergency is "inconsistent with a declared emergency." Further, "If an emergency still exists, the declared emergency would be extended or a separate declared emergency would be issued."

Additionally, 49 C.F.R. 390.23 provides for exemption from certain provisions of federal law on the interstate highway system, if an emergency has been declared by the President of the United States, the Governor of a state, or their authorized representative having authority to declare emergencies. The federal regulation does not expressly include weight exemption, but a Governor's declaration of emergency may add exemptions for weight.[35] If the FDOT waives federally required weight load restrictions[36] on the interstate system during a period of time in which no declared emergency exists, such waiver may conflict with federal law. However, the bill provides FDOT with permissive waiver authority, rather than making the waiver mandatory.

With respect to the agritourism signage program, because the bill's language only authorizes FDOT to *"assess"* the suitability and costs of the signage, but does not specifically provide for who will pay for reimbursement of these costs, it is unclear whether the reasonable costs of creating and installing the directional signage are to be borne by the applicant or by the FDOT.[37] The FDOT has requested clarification that the signs will be installed by permit at the agricultural facility's expense.[38]

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 193.461, 212.08, and 316.565.

This bill creates the following sections of the Florida Statutes: 252.3569 and 604.71.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Transportation on February 6, 2018:
The committee substitute:

[35] See the Federal Motor Carrier Safety Administration website available at: https://www.fmcsa.dot.gov/emergency. (Last visited February 7, 2018.)
[36] Generally, 80,000 pounds on the Interstate Highway System See the FHWA website available at: https://ops.fhwa.dot.gov/Freight/sw/overview/index.htm. (Last visited February 7, 2018.)
[37] Section 599.004(2)(c), F.S., specifically requires each certified Florida Farm Winery requesting an authorized sign to be responsible for all costs for placing each sign. The cost for placement is limited to a maximum of $250, and the annual permit fee is limited to $50. Section 563.13, F.S., specifically requires a brewery licensed in this state and requesting a directional sign through the FDOT's permit process to pay all associated costs; and s. 565.03(6), F.S., specifically requires the same for a licensed craft distillery requesting a directional sign.
[38] See the FDOT email dated February 6, 2018. (On file in the Senate Transportation Committee.)

- Provides an additional set of circumstances under which an existing agricultural classification of lands may be extended or continued.
- Adds certain screened enclosed horticultural structures to a list of structures currently deemed to have no separately assessable value for purposes of the income methodology approach to ad valorem assessment of agricultural property.
- Exempts certain agriculture and aquaculture related materials and labor costs from sales, use, and transaction taxation under Chapter 212, F.S., and provides a process for claiming a refund.
- Codifies the SART within the DACS and assigns it certain emergency management related duties.
- Revises provisions relating to emergency transportation of perishable food, revising applicability of those provisions to crops grown and livestock raised in the state, as well as revising related authority and duties of the FDOT related to truck weight restriction waivers.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By the Committee on Transportation; and Senator Grimsley

596-02945A-18 20181608c1

A bill to be entitled

An act relating to agricultural recovery; providing a short title; amending s. 193.461, F.S.; specifying the methodology for the assessment of certain structures in horticultural production; specifying, subject to certain conditions, that land classified as agricultural remains classified as such for a specified period if such lands are damaged by certain natural disasters and agricultural production is halted or reduced; amending s. 212.08, F.S.; creating a new exemption from sales, rental, use, consumption, distribution, and storage tax for specified materials and labor costs; providing for retroactive application; specifying the requirements for obtaining a refund on taxes paid; specifying a deadline for submissions for such refunds; specifying that possession of a written certification of a purchaser's entitlement to the exemption by a seller, lessor, or other dealer relieves him or her from the obligation of collecting the tax on nontaxable amounts; requiring the department to look solely to the purchaser for the recovery of certain taxes; creating s. 252.3569, F.S.; requiring the Florida Comprehensive Emergency Management Plan to allow the Department of Agriculture and Consumer Services to create the State Agricultural Response Team; specifying requirements, responsibilities, and duties of the team; amending s. 316.565, F.S.; authorizing the Department of Transportation to waive certain weight load

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

596-02945A-18 20181608c1

restrictions and permit verifications for the transport of agricultural products from fields or packinghouses to public transportation facilities after certain natural disasters; authorizing the extension of such waivers for certain purposes; authorizing the department to issue or accept electronic verification of permits during specified periods; requiring the department to designate certain routes and render assistance in moving agricultural products under such circumstances; requiring the Department of Highway Safety and Motor Vehicles to consult with certain entities in implementing specified emergency provisions; creating s. 604.71, F.S.; requiring the Department of Transportation to create and administer a program to install directional signs to assist visitors in locating certain agritourism facilities; specifying requirements for the placement of signs; specifying qualifications for the program; requiring the department to adopt rules and coordinate with the Department of Agriculture and Consumer Services in administering the program; providing a directive to the Division of Law Revision and Information; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. This act may be cited as the "Farmers and Ranchers Matter Act."

Section 2. Section 193.461, Florida Statutes, is amended to

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

read:

193.461 Agricultural lands; classification and assessment; mandated eradication or quarantine program; natural disasters.—

(1) The property appraiser shall, on an annual basis, classify for assessment purposes all lands within the county as either agricultural or nonagricultural.

(2) Any landowner whose land is denied agricultural classification by the property appraiser may appeal to the value adjustment board. The property appraiser shall notify the landowner in writing of the denial of agricultural classification on or before July 1 of the year for which the application was filed. The notification shall advise the landowner of his or her right to appeal to the value adjustment board and of the filing deadline. The property appraiser shall have available at his or her office a list by ownership of all applications received showing the acreage, the full valuation under s. 193.011, the valuation of the land under the provisions of this section, and whether or not the classification requested was granted.

(3)(a) Lands may not be classified as agricultural lands unless a return is filed on or before March 1 of each year. Before classifying such lands as agricultural lands, the property appraiser may require the taxpayer or the taxpayer's representative to furnish the property appraiser such information as may reasonably be required to establish that such lands were actually used for a bona fide agricultural purpose. Failure to make timely application by March 1 constitutes a waiver for 1 year of the privilege granted in this section for agricultural assessment. However, an applicant who is qualified

to receive an agricultural classification who fails to file an application by March 1 must file an application for the classification with the property appraiser on or before the 25th day after the mailing by the property appraiser of the notice required under s. 194.011(1). Upon receipt of sufficient evidence, as determined by the property appraiser, that demonstrates that the applicant was unable to apply for the classification in a timely manner or that otherwise demonstrates extenuating circumstances that warrant the granting of the classification, the property appraiser may grant the classification. If the applicant files an application for the classification and fails to provide sufficient evidence to the property appraiser as required, the applicant may file, pursuant to s. 194.011(3), a petition with the value adjustment board requesting that the classification be granted. The petition may be filed at any time during the taxable year on or before the 25th day following the mailing of the notice by the property appraiser as provided in s. 194.011(1). Notwithstanding s. 194.013, the applicant must pay a nonrefundable fee of $15 upon filing the petition. Upon reviewing the petition, if the person is qualified to receive the classification and demonstrates particular extenuating circumstances judged by the value adjustment board to warrant granting the classification, the value adjustment board may grant the classification for the current year. The owner of land that was classified agricultural in the previous year and whose ownership or use has not changed may reapply on a short form as provided by the department. The lessee of property may make original application or reapply using the short form if the lease, or an affidavit executed by

the owner, provides that the lessee is empowered to make application for the agricultural classification on behalf of the owner and a copy of the lease or affidavit accompanies the application. A county may, at the request of the property appraiser and by a majority vote of its governing body, waive the requirement that an annual application or statement be made for classification of property within the county after an initial application is made and the classification granted by the property appraiser. Such waiver may be revoked by a majority vote of the governing body of the county.

(b) Subject to the restrictions specified in this section, only lands that are used primarily for bona fide agricultural purposes shall be classified agricultural. The term "bona fide agricultural purposes" means good faith commercial agricultural use of the land.

1. In determining whether the use of the land for agricultural purposes is bona fide, the following factors may be taken into consideration:

a. The length of time the land has been so used.

b. Whether the use has been continuous.

c. The purchase price paid.

d. Size, as it relates to specific agricultural use, but a minimum acreage may not be required for agricultural assessment.

e. Whether an indicated effort has been made to care sufficiently and adequately for the land in accordance with accepted commercial agricultural practices, including, without limitation, fertilizing, liming, tilling, mowing, reforesting, and other accepted agricultural practices.

f. Whether the land is under lease and, if so, the

effective length, terms, and conditions of the lease.

g. Such other factors as may become applicable.

2. Offering property for sale does not constitute a primary use of land and may not be the basis for denying an agricultural classification if the land continues to be used primarily for bona fide agricultural purposes while it is being offered for sale.

(c) The maintenance of a dwelling on part of the lands used for agricultural purposes does ~~shall~~ not in itself preclude an agricultural classification.

(d) When property receiving an agricultural classification contains a residence under the same ownership, the portion of the property consisting of the residence and curtilage must be assessed separately, pursuant to s. 193.011, to qualify for the assessment limitation set forth in s. 193.155. The remaining property may be classified under the provisions of paragraphs (a) and (b).

(e) Notwithstanding the provisions of paragraph (a), land that has received an agricultural classification from the value adjustment board or a court of competent jurisdiction pursuant to this section is entitled to receive such classification in any subsequent year until such agricultural use of the land is abandoned or discontinued, the land is diverted to a nonagricultural use, or the land is reclassified as nonagricultural pursuant to subsection (4). The property appraiser must, no later than January 31 of each year, provide notice to the owner of land that was classified agricultural in the previous year informing the owner of the requirements of this paragraph and requiring the owner to certify that neither

the ownership nor the use of the land has changed. The department shall, by administrative rule, prescribe the form of the notice to be used by the property appraiser under this paragraph. If a county has waived the requirement that an annual application or statement be made for classification of property pursuant to paragraph (a), the county may, by a majority vote of its governing body, waive the notice and certification requirements of this paragraph and shall provide the property owner with the same notification provided to owners of land granted an agricultural classification by the property appraiser. Such waiver may be revoked by a majority vote of the county's governing body. This paragraph does not apply to any property if the agricultural classification of that property is the subject of current litigation.

(4) The property appraiser shall reclassify the following lands as nonagricultural:

(a) Land diverted from an agricultural to a nonagricultural use.

(b) Land no longer being utilized for agricultural purposes.

(5) For the purpose of this section, the term "agricultural purposes" includes, but is not limited to, horticulture; floriculture; viticulture; forestry; dairy; livestock; poultry; bee; pisciculture, if the land is used principally for the production of tropical fish; aquaculture, including algaculture; sod farming; and all forms of farm products as defined in s. 823.14(3) and farm production.

(6)(a) In years in which proper application for agricultural assessment has been made and granted pursuant to

this section, the assessment of land shall be based solely on its agricultural use. The property appraiser shall consider the following use factors only:

1. The quantity and size of the property;

2. The condition of the property;

3. The present market value of the property as agricultural land;

4. The income produced by the property;

5. The productivity of land in its present use;

6. The economic merchantability of the agricultural product; and

7. Such other agricultural factors as may from time to time become applicable, which are reflective of the standard present practices of agricultural use and production.

(b) Notwithstanding any provision relating to annual assessment found in s. 192.042, the property appraiser shall rely on 5-year moving average data when utilizing the income methodology approach in an assessment of property used for agricultural purposes.

(c)1. For purposes of the income methodology approach to assessment of property used for agricultural purposes, irrigation systems, including pumps and motors, physically attached to the land shall be considered a part of the average yields per acre and shall have no separately assessable contributory value.

2. Litter containment structures located on producing poultry farms and animal waste nutrient containment structures located on producing dairy farms shall be assessed by the methodology described in subparagraph 1.

3. Structures or improvements used in horticultural production for frost or freeze protection, which are consistent with the interim measures or best management practices adopted by the Department of Agriculture and Consumer Services pursuant to s. 570.93 or s. 403.067(7)(c), shall be assessed by the methodology described in subparagraph 1.

4. Screened enclosed structures used in horticultural production for protection from pests and diseases or to comply with state or federal eradication or compliance agreements shall be assessed by the methodology described in subparagraph 1.

(d) In years in which proper application for agricultural assessment has not been made, the land shall be assessed under the provisions of s. 193.011.

(7)(a) Lands classified for assessment purposes as agricultural lands which are taken out of production by a state or federal eradication or quarantine program, including the Citrus Health Response Program, shall continue to be classified as agricultural lands for 5 years after the date of execution of a compliance agreement between the landowner and the Department of Agriculture and Consumer Services or a federal agency, as applicable, pursuant to such program or successor programs. Lands under these programs which are converted to fallow or otherwise nonincome-producing uses shall continue to be classified as agricultural lands and shall be assessed at a de minimis value of up to $50 per acre on a single-year assessment methodology while fallow or otherwise used for nonincome-producing purposes. Lands under these programs which are replanted in citrus pursuant to the requirements of the compliance agreement shall continue to be classified as

agricultural lands and shall be assessed at a de minimis value of up to $50 per acre, on a single-year assessment methodology, during the 5-year term of agreement. However, lands converted to other income-producing agricultural uses permissible under such programs shall be assessed pursuant to this section. Land under a mandated eradication or quarantine program which is diverted from an agricultural to a nonagricultural use shall be assessed under s. 193.011.

(b) Lands classified for assessment purposes as agricultural lands that participate in a dispersed water storage program pursuant to a contract with the Department of Environmental Protection or a water management district which requires flooding of land shall continue to be classified as agricultural lands for the duration of the inclusion of the lands in such program or successor programs and shall be assessed as nonproductive agricultural lands. Land that participates in a dispersed water storage program that is diverted from an agricultural to a nonagricultural use shall be assessed under s. 193.011.

(c) Lands classified for assessment purposes as agricultural lands which incur damage as a result of a natural disaster for which a state of emergency is declared pursuant to s. 252.36 and which results in the halting or reduction of agricultural production must continue to be classified as agricultural lands for 5 years following termination of the emergency declaration. However, if such lands are diverted from agricultural use to nonagricultural use during or after the 5-year recovery period, such lands must be assessed under s. 193.011.

Section 3. Subsection (19) is added to section 212.08, Florida Statutes, to read:

212.08 Sales, rental, use, consumption, distribution, and storage tax; specified exemptions.—The sale at retail, the rental, the use, the consumption, the distribution, and the storage to be used or consumed in this state of the following are hereby specifically exempt from the tax imposed by this chapter.

(19) EXEMPTIONS; MATERIALS AND LABOR COSTS RELATING TO AGRICULTURE AND AQUACULTURE.—

(a) The following are exempt from the tax imposed by this chapter.

1. Building materials used in the construction of a nonresidential farm building as defined in s. 604.50; poles, nets, and other materials used for aquaculture leases; and building materials used in the construction of farm fences on land classified as agriculture as defined in s. 193.461; and

2. The cost of labor associated with the construction or installation of any item specified in subparagraph 1.

The exemptions specified in this paragraph apply retroactively to September 1, 2017.

(b) In order to claim a refund on taxes paid for the materials and labor costs identified in paragraph (a), the purchaser must submit a signed certificate stating that the materials and labor are to be used exclusively as required under this subsection. Such submission must also include the name and address of the person claiming the refund, the address and assessment roll parcel number of the real property where the

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

improvement is made, and a description of the improvement. Application for refunds must be submitted to the department within 6 months after the transaction or the effective date of this act, whichever occurs later.

(c) Possession by a seller, lessor, or other dealer of a written certification by the purchaser certifying the purchaser's entitlement to an exemption allowed under this subsection relieves the seller from the responsibility of collecting the tax on the nontaxable amounts, and the department shall look solely to the purchaser for recovery of such tax if it determines that the purchaser was not entitled to the exemption.

Section 4. Section 252.3569, Florida Statutes, is created to read:

252.3569 Monitoring of agriculture and livestock safety during disaster.—The Florida Comprehensive Emergency Management Plan must allow the Department of Agriculture and Consumer Services, working from the department's offices or in the Emergency Operations Center, ESF-17, to create the State Agricultural Response Team. If created, the duties and responsibilities of the team must include, but are not limited to, the development, training, and support of county agricultural response teams; asset acquisition; and, as necessary, colocation of a team member at activated local emergency operations centers.

Section 5. Section 316.565, Florida Statutes, is amended to read:

316.565 Emergency transportation, crops and livestock ~~perishable food~~; establishment of weight loads, etc.—

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

(1) The Governor may declare an emergency to exist when there is a breakdown in the normal public transportation facilities necessary in moving ~~perishable food~~ crops grown and livestock raised in the state. The Department of Transportation is authorized during such emergency to waive any ~~establish such~~ weight load restrictions and permit verifications ~~loads~~ for hauling over the highways from the fields or packinghouses to the nearest available public transportation facility as circumstances demand. Such waivers may be extended beyond the end of a declared emergency to provide for protracted harvesting and disaster recovery efforts. The department is authorized to issue or accept electronic verification of permits during such emergency and protracted periods. The Department of Transportation shall designate special highway routes~~, excluding the interstate highway system,~~ to facilitate the trucking and render any other assistance needed to expedite moving agricultural products ~~the perishables~~.

(2) It is the intent of the Legislature in this chapter to supersede any existing laws when necessary to protect and save ~~any perishable food~~ crops grown and livestock raised in the state and give authority for agencies to provide necessary temporary assistance requested during any such emergency. The department shall consult with the Department of Agriculture and Consumer Services and stakeholders in the agricultural industry in implementing this section.

Section 6. Section 604.71, Florida Statutes, is created to read:

604.71 Florida agritourism signage program.—The department shall create and administer a program to provide and install

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

directional signs on major public highways at, or in reasonable proximity to, the nearest interchange or within 1 mile of roads leading to commercial agricultural facilities that promote tourism by providing tours and onsite sales or samples of Florida agricultural products to tourists.

(1) Directional signage must be placed at intervals in a manner that provides visitors with sufficient information to locate the agricultural facility.

(2) To qualify for participation in the program, an agricultural facility must:

(a) Be open for business at least 4 days a week, 10 months of the year;

(b) Have a working growing or ranching area of at least 2 acres that can be toured from the facility location specified in the signage;

(c) Offer tours of the growing or ranching area; and

(d) Apply to and be approved by the department under this section. Upon application by a facility, the department shall assess the facility as to its suitability for the program and the reasonable costs of creating and installing directional signs.

(3) The department shall adopt rules to administer this section, including, but not limited to, an application and approval process for applicants.

(4) The department shall coordinate with the Department of Agriculture and Consumer Services in administering this section.

Section 7. The Division of Law Revision and Information is directed to replace the phrase “the effective date of this act” wherever it occurs in this act with the date this act becomes a

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

law.

Section 8. This act shall take effect July 1, 2018.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 1646 (952426)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Transportation, Tourism, and Economic Development); Commerce and Tourism Committee; and Senators Montford and Gainer
SUBJECT:	Regional Rural Development Grants
DATE:	February 26, 2018 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Swift	McKay	CM	**Fav/CS**
2.	Hrdlicka	Hrdlicka	ATD	**Recommend: Fav/CS**
3.	Hrdlicka	Hansen	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 1646 amends the Regional Rural Development Grant Program to:

- Increase the maximum annual grant amount to $250,000 from $150,000 that three regional economic development organizations that serve the entire region of a rural area of opportunity may receive.
- Increase the funds allocated for the program to up to $1 million annually from up to $750,000 annually.
- Reduce the required match of non-state resources for grant funds from 100 percent to 25 percent of the state's contribution.
- Define the uses of grant funds to build the professional capacity of regional economic development organizations; and
- Allow a regional economic development organization to use these grants to provide technical assistance to local governments, local economic development organizations, and existing and prospective businesses within the rural community it serves.

The bill amends the Rural Infrastructure Fund program to increase the grant awards to 50 percent of infrastructure project costs from 30 percent of infrastructure project costs (or 40 percent of projects costs at a catalyst site in a rural area of opportunity). The bill also amends the program to clarify that eligible infrastructure projects include access to broadband Internet service and require such projects that improve service and access must be through a partnership with a dealer

of communications services that was publicly noticed and competitively bid. The bill requires the Department of Economic Opportunity to review the grant program application and award procedures by September 1, 2019.

Related to contracts or agreements for the Regional Rural Development Grant Program or the Rural Infrastructure Fund, the bill:

- Requires contracts or agreements that include the spending of these funds to be posted online at least 14 days prior to execution.
- Requires a plain language version of the contract or agreement to be posted online, if the contract agreement exceeds $35,000, is between certain entities, or is for certain purposes.
- Specifies required provisions for contracts or agreements expending state grant funds.

The bill has no impact on state funds. Under the bill, from the $1.6 million recurring appropriation to the Rural Community Development Revolving Loan Fund, the Department of Economic Opportunity may expend up to $1 million on the Rural Development Grant Program; if the maximum amount is expended on the grant program, then $600,000 would be available for the loan fund (up to $250,000 less annually).

The bill takes effect July 1, 2018.

II. Present Situation:

Rural Economic Development Initiative

The Rural Economic Development Initiative (REDI) was established in 1997 by the Legislature to encourage and facilitate the location and expansion of major economic development projects of significant scale in rural communities.[1] The REDI is responsible for coordinating and focusing the efforts and resources of state and regional agencies on the problems that affect the fiscal, economic, and community viability of Florida's economically distressed rural communities.[2] The REDI works with local governments, community-based organizations, and private organizations that have an interest in the growth and development of these communities to find ways to balance environmental and growth management issues with local needs.

Rural Areas of Opportunity

A rural area of opportunity (RAO) is a rural community, or region of rural communities, that has been adversely affected by an extraordinary economic event, severe or chronic distress, or a natural disaster or that presents a unique economic development opportunity of regional impact.[3] By executive order, the Governor may designate up to three RAOs, establishing each region as a priority assignment for REDI agencies. The Governor can waive the criteria, requirements, or any similar provisions of any state economic development incentive for projects in a RAO.[4]

[1] Section 288.0656, F.S.
[2] Agencies required to participate in the REDI are found in s. 288.0656(6)(a), F.S.
[3] Section 288.0656(1)(d), F.S.
[4] Section 288.0656(7), F.S.

The currently designated RAOs are:[5]

- **Northwestern RAO**: Calhoun, Franklin, Gadsden, Gulf, Holmes, Jackson, Liberty, Wakulla, and Washington counties, and the City of Freeport in Walton County.
- **South Central RAO**: DeSoto, Glades, Hardee, Hendry, Highlands, and Okeechobee counties, and the cities of Pahokee, Belle Glade, South Bay (Palm Beach County), and Immokalee (Collier County).
- **North Central RAO**: Baker, Bradford, Columbia, Dixie, Gilchrist, Hamilton, Jefferson, Lafayette, Levy, Madison, Putnam, Suwannee, Taylor, and Union counties.

Regional Economic Development Organizations

Three regional economic development organizations that operate in the state coincide with the current RAOs. These public/private 501(c)(6) organizations provide economic development support to the local governments that represent the RAOs. Opportunity Florida serves the Northwestern RAO.[6] Florida's Heartland Regional Economic Development Initiative, Inc., serves the South Central RAO.[7] The North Florida Economic Development Partnership serves the North Central RAO.[8]

Regional Rural Development Grant Program[9]

The Regional Rural Development Grant Program was established to provide funding, through matching grants, to build the professional capacity of regional economic development organizations in Florida. Additionally, grants from the program may be used by an economic development organization to provide technical assistance to businesses within the rural counties and communities that the organization serves. The Department of Economic Opportunity (DEO) administers the grant program through contract with Enterprise Florida, Inc.

To be approved, an applying organization must provide proof to the DEO of:

- The organization's need for the assistance;
- The official commitments of support from all the local governments represented by the organization
- Financial or in-kind commitments to the organization by each local government and the private sector;
- The organization's existence and active involvement in economic development activities in the region; and
- The manner in which the organization coordinates its efforts with those of other local and state organizations.

[5] Department of Economic Opportunity, *Rural Areas of Opportunity*, available at http://www.floridajobs.org/community-planning-and-development/rural-community-programs/rural-areas-of-opportunity (last visited February 15, 2018).
[6] *See generally*, Opportunity Florida, available at http://www.opportunityflorida.com/ (last visited February 15, 2018).
[7] *See generally*, Florida's Heartland Regional Economic Development Initiative, Inc., available at http://flaheartland.com/ (last visited February 15, 2018).
[8] *See generally*, North Florida Economic Development Partnership, available at http://nflp.org/, (last visited February 15, 2018).
[9] Section 288.018, F.S.

The maximum amount any organization can receive is $50,000, or $150,000 in a rural area of opportunity, and the grant must be matched by an equivalent amount of non-state resources. Because the Governor can waive criteria, requirements, or any similar provisions of any state economic development incentive in RAOs, the matching requirement is likely eligible to be waived.[10] The DEO may expend up to $750,000 each fiscal year from funds appropriated to the Rural Community Development Revolving Loan Fund for the program.

Rural Infrastructure Fund[11]

The Rural Infrastructure Fund was created to facilitate the planning, preparation, and financing of tourism infrastructure and economic development projects that encourage job growth and capital investment in rural communities. The DEO administers the fund and awards grants that maximize the use of federal, local, and private resources.

There are three grants that DEO awards from this fund: the total project participation grant, the infrastructure feasibility grant, and the preclearance review grant.[12]

The total project participation grant allows for awards up to 30 percent of the total infrastructure project cost for projects related to access to federal funds; and up to 40 percent if the project is a RAO catalyst site.[13] Eligible projects must be related to specific job creation or retention opportunities, and may include improving certain inadequate infrastructure that is prohibiting economic or community growth or reducing costs to community users of proposed infrastructure improvements that exceed costs in comparable communities. Infrastructure can include public or public-private partnership facilities, like storm water systems, roads, nature-based tourism facilities, and broadband facilities.

The infrastructure feasibility grant provides awards of up to 30 percent of the total project costs for infrastructure feasibility studies, design and engineering activities, or other infrastructure planning and preparation activities.[14] Maximum awards are dependent on the number of jobs that a business commits to create and may be up to $300,000 if the project is located in a RAO. The total project participation grant and infrastructure feasibility grant may be used in conjunction.

The preclearance review grant provides awards to help a local government participate in expedited permitting processes through technical assistance in preparing permit applications and local comprehensive plan amendments.[15] Grants may be used for surveys, feasibility studies, and other activities related to the identification and preclearance review of land use modifications. Grants are limited to $75,000 (or $300,000 for a project in a RAO) and must be matched 50

[10] Section 288.0656(7) and 288.018(1), F.S.
[11] Section 288.0655, F.S.
[12] Department of Economic Opportunity, *Rural Infrastructure Fund*, available at http://www.floridajobs.org/community-planning-and-development/rural-community-programs/rural-infrastructure-fund (last visited February 15, 2018).
[13] Section 288.0655(2)(b), F.S. A "catalyst site" is "a parcel or parcels of land within a rural area of opportunity that has been prioritized as a geographic site for economic development through partnerships with state, regional, and local organizations. The site must be reviewed by REDI and approved by the department for the purposes of locating a catalyst project." Section 288.0656(2)(b), F.S.
[14] Section 288.0655(2)(c), F.S.
[15] Section 288.0655(2)(e), F.S. Expedited permitting is pursuant to s. 403.973(18), F.S.

percent with local funds (or 33 percent for a project in a RAO, or waived for a project in a catalyst site).

The DEO reviews and certifies the grant applications in consultation with Enterprise Florida, Inc., the Florida Tourism Industry Marketing Corporation (VISIT Florida), the Department of Environmental Protection, and the Florida Fish and Wildlife Conservation Commission, as appropriate.

In Fiscal Year 2017-2018, the funding appropriated for the Rural Infrastructure Fund was $1.6 million.[16]

III. Effect of Proposed Changes:

Regional Rural Development Grant Program

Section 1 amends the Regional Rural Development Grants Program in s. 288.018, F.S., to specify what the term "building the professional capacity" of regional economic development organizations includes, revise and increase the grant amount for certain organizations in RAOs, and to require certain contract requirements.

The bill specifies that "building the professional capacity" of a regional economic development organizations includes hiring professional staff to develop, facilitate, and provide economic development professional services. Economic development services include technical assistance, education and leadership development, and marketing and project recruitment. Grant funds under the bill may be used for these purposes.

Currently, grant funds may be used to provide technical assistance to businesses within the area that the regional economic development organization services. The bill expands the use of the grant funds to allow technical assistance to be provided to local governments, local economic development organizations, and existing and prospective businesses.

Related to the grant amount for organizations in RAOs, the bill increases the maximum grant amount from $150,000 to $250,000 specifically for each of the three regional economic development organizations recognized by the DEO that are serving the entire region of each RAO currently: Opportunity Florida; Florida Heartland Regional Economic Region of Opportunity; and the North Florida Economic Development Partnership. Regional economic development organizations not located in a RAO would still be eligible for a $50,000 grant and regional economic development organizations in a RAO would still be eligible for a $150,000 grant.

The bill reduces the required match for a grant under this program to 25 percent of the state contribution, instead of the current requirement for a 100 percent match (one to one match).

[16] Specific appropriation 2226Q, ch. 2017-70, L.O.F.

The bill increases the amount that the DEO may expend up each fiscal year on the program from up to $750,000 to up to $1 million. These funds are from the funds appropriated to the Rural Community Development Revolving Loan Fund.

Rural Infrastructure Fund

Section 2 amends the total project participation grant of the Rural Infrastructure Fund program in s. 288.0655, F.S., to increase the amount of the total infrastructure project costs that the grant can pay for from 30 percent to 50 percent. The bill repeals the grant award for up to 40 percent of total infrastructure project costs if the project is a RAO catalyst site.

The bill specifies that eligible projects may include improving certain inadequate infrastructure that reduces costs to community users of proposed infrastructure improvements that exceed costs in comparable communities, *including improving access to and the availability of broadband Internet service*. Further, eligible uses of funds are expanded to include "improvements to broadband Internet service and access in unserved or underserved rural communities." Such eligible use must be conducted through a partnership or partnerships with one or more dealers of communications services,[17] and the partnership must be established by a publicly noticed and competitively selected process.

The bill requires the DEO, in consultation with Enterprise Florida, Inc., the Florida Tourism Industry Marketing Corporation (VISIT Florida), the Department of Environmental Protection, and the Florida Fish and Wildlife Conservation Commission, to review and edit any guidelines or criteria for grant applications by September 1, 2019.

Contracts or Agreements Under the Regional Rural Development Grant Program and the Rural Infrastructure Fund

The bill amends both ss. 288.018 and 288.0655, F.S., relating to the Regional Rural Development Grant Program and the Rural Infrastructure Fund, respectively, to include the same requirements for contracts or agreements that expend grant funds.

The bill requires the contract or agreement to be posted on the contracting regional economic development organization's or the DEO's website for at least 14 days before execution. It is unclear from the text of the bill, but this may include the contract or agreement that the organization enters into with the DEO or Enterprise Florida, Inc., to receive the grant funds.

A contract or agreement to expend grant funds must include:
- The purpose of the contract or agreement;
- Specific performance standards and responsibilities of all involved parties;
- A detailed budget, if applicable;
- The value of services provided; and
- Estimated travel and entertainment expenses of board members and staff, if applicable.

[17] A "dealer of communications services" is defined as a person registered with the Department of Revenue as a provider of communications services in this state. *See* s. 202.11, F.S.

These required contract provisions apply to any contract or agreement that expends grant funds, but the bill specifies that this include any contract or agreement between another entity and a regional economic development organization, a unit of local government, or an economic development organization substantially underwritten by a unit of local government. Again, it is unclear from the text of the bill, but this may include the contract or agreement that the organization enters into with the DEO or Enterprise Florida, Inc., to receive the grant funded.

The bill requires specific contracts or agreements that exceed $35,000 and expend grant funds to be posted on the contracting regional economic development organization's or the DEO's website in a "plain language version." This applies to a contract or agreement with a private entity, a municipality, or a vendor of services, supplies, or programs (including marketing) or a contract or agreement for the purchase, lease, or use of lands, facilities, or properties.

Effective Date

The bill takes effect July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The bill requires 25 percent of all disbursed Regional Rural Development Grant funds to be matched annually by a nonstate source, a reduction from the current 100 percent (one to one) match.

C. Government Sector Impact:

The Rural Community Development Revolving Loan Fund receives a recurring appropriation of $1.6 million, of which up to $750,000 is statutorily distributed to the Regional Rural Development Grant program. The bill increases the maximum grant

amount that three regional economic development organizations that serve the entire region of a RAO may receive, from $150,000 to $250,000 annually.

The bill increases the amount that the DEO may expend up each fiscal year on the program from up to $750,000 to up to $1 million. These funds are from the funds appropriated to the Rural Community Development Revolving Loan Fund. From the $1.6 million recurring appropriation to the Rural Community Development Revolving Loan Fund, if the DEO expends the maximum amount on the Rural Development Grant Program (up to $1 million annually), then at least $600,000 would be available for the loan fund (up to $250,000 less annually).

The Rural Infrastructure Fund receives a recurring appropriation of $1.6 million. Specific inclusion of certain broadband Internet infrastructure projects as eligible for the total project participation grant may increase the competition for grant funds in the Rural Infrastructure Fund. Additionally, the bill increases the amount of total infrastructure project costs for which the grant will pay from 30 percent (or 40 percent if the project is at a catalyst site in a RAO) to 50 percent for all infrastructure projects, no matter the location. This change may lead to fewer grants awarded.

The cost to regional economic development organizations (Rural Development Grant Fund) to post contracts and "plain language" versions of contracts online is unknown. The DEO indicated that the bill would have no impact on state expenditures.[18]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends sections 288.018 and 288.0655 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Transportation, Tourism, and Economic Development on February 21, 2018:
The committee substitute:

- Revises the maximum grant amounts that may be awarded under the Rural Development Grant Program.

[18] DEO, *2018 Agency Legislative Bill Analysis: SB 1646*, January 22, 2018.

- Increases the cap on the Rural Development Grant program from up to $750,000 to up to $1 million.
- Removes reference to 3 specifically named regional economic development organizations to receive grants under the Rural Development Grant program.
- Increases the amount of infrastructure project costs from 30 percent to 50 percent that a Rural Infrastructure Grant can be awarded to pay.
- Requires any infrastructure project funded for broadband Internet to be through a partnership with a communication services dealer, the partnership with which must be publicly noticed and competitively selected.

CS by Commerce and Tourism Committee on January 29, 2017:
The committee substitute made technical changes by correcting the name of a regional economic development organization.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

The Committee on Appropriations (Montford) recommended the following:

Senate Amendment (with title amendment)

Between lines 223 and 224
insert:

Section 3. In order to enhance and fortify the competitiveness of Florida rural communities for new businesses and job creation, the Department of Economic Opportunity is directed to review best practices and methods and make recommendations for the establishment of a site readiness

677446

program to assist rural communities in evaluating property in their jurisdictions, promoting the availability and benefits of such sites, and other related issues. The department must identify technical requirements and quality control standards that would best benefit such a program, and must provide options for the implementation of such a program. The department must seek the input of stakeholders and persons, groups, and organizations that are knowledgeable about rural areas and site readiness issues. The department must submit a report to the Legislature by December 1, 2018, of its findings.

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Transportation, Tourism, and Economic Development)

A bill to be entitled

An act relating to regional rural development grants; amending s. 288.018, F.S.; providing that regional rural development grants may be used to hire regional economic development organization professional staff; authorizing the use of matching grant funds to provide technical assistance to certain entities; increasing the annual maximum amount of grant funding that specified economic development organizations may receive; revising the amount of nonstate matching funds required; increasing the amount the Department of Economic Opportunity may expend each fiscal year for the program; requiring that contracts or agreements involving the expenditure of grant funds be placed on a certain website for a specified time period; requiring that certain information be included in a contract or agreement involving the expenditure of grant funds; requiring that a plain language version of certain contracts or agreements be placed on a certain website; deleting an obsolete provision authorizing the Department of Economic Opportunity to contract for the development of certain enterprise zone web portals or websites; amending s. 288.0655, F.S.; increasing the maximum percent of total infrastructure project costs for which the department may award a grant; repealing a provision for increased

952426

576-03502-18

maximum percent of total infrastructure project costs that may be awarded for a catalyst site; providing that improving access to and availability of broadband Internet service may be included in a project that is eligible for rural infrastructure grant funds; providing that grants for improvements to broadband Internet service and access must be conducted through certain partnerships; extending the date by which the department is required to reevaluate certain guidelines and criteria; requiring that contracts or agreements involving the expenditure of grant funds be placed on a certain website for a specified time period; requiring that certain information be included in a contract or agreement involving the expenditure of grant funds; requiring that a plain language version of certain contracts or agreements be placed on a certain website; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsections (1), (3), and (4) of section 288.018, Florida Statutes, are amended to read:

288.018 Regional Rural Development Grants Program.—

(1)(a) The department shall establish a matching grant program to provide funding to regional ~~regionally based~~ economic development organizations representing rural counties and communities to build ~~for the purpose of building~~ the professional capacity of such regional economic development ~~their~~ organizations. Building the professional capacity of

regional economic development organizations includes hiring professional staff to develop, facilitate the delivery of, and directly provide needed economic development professional services, including technical assistance, education and leadership development, marketing and project recruitment, and other services that are important for rural economic development. ~~Such~~ Matching grants may also be used by a regional ~~an~~ economic development organization to provide technical assistance to local governments, local economic development organizations, and existing and prospective businesses within the rural counties and communities that it serves.

(b) A regional economic development organization may apply to the department for a matching grant each year. The department is authorized to approve an application for a grant up to~~, on an annual basis, grants~~:

1. Fifty thousand dollars to a regional economic development organization;

2. One hundred fifty thousand dollars to an organization located ~~to such regionally based economic development organizations. The maximum amount an organization may receive in any year will be $50,000, or $150,000~~ in a rural area of opportunity designated pursuant to s. 288.0656; or

3. Two hundred fifty thousand dollars to any of the three regional economic development organizations that serve an entire region of a rural area of opportunity designated pursuant to s. 288.0656 and that are recognized by the department as serving such regions.

(c) Grant funds received by a regional economic development organization ~~recommended by the Rural Economic Development~~

~~Initiative and designated by the Governor, and~~ must be matched each year by ~~an equivalent amount of~~ nonstate resources in an amount equal to 25 percent of the state contribution.

(3)(a) A contract or agreement that involves the expenditure of grant funds provided under this section must be placed on the contracting regional economic development organization's website at least 14 days before execution.

(b) A contract or agreement that involves the expenditure of grant funds provided under this section, including a contract or agreement entered into between another entity and a regional economic development organization, a unit of local government, or an economic development organization substantially underwritten by a unit of local government, must include:

1. The purpose of the contract or agreement.

2. Specific performance standards and responsibilities for each entity.

3. A detailed project or contract budget, if applicable.

4. The value of any services provided.

5. The projected travel and entertainment expenses for employees and board members, if applicable.

(c) A plain language version of a contract or agreement with a private entity, a municipality, or a vendor of services, supplies, or programs, including marketing, or for the purchase or lease or use of lands, facilities, or properties which involves the expenditure of grant funds provided under this section and which is estimated to exceed $35,000 must be posted on the contracting regional economic development organization's website ~~The department may also contract for the development of an enterprise zone web portal or websites for each enterprise~~

~~zone which will be used to market the program for job creation in disadvantaged urban and rural enterprise zones. Each enterprise zone web page should include downloadable links to state forms and information, as well as local message boards that help businesses and residents receive information concerning zone boundaries, job openings, zone programs, and neighborhood improvement activities~~.

(4) The department may expend up to $1,000,000 ~~$750,000~~ each fiscal year from funds appropriated to the Rural Community Development Revolving Loan Fund for the purposes outlined in this section. The department may contract with Enterprise Florida, Inc., for the administration of the purposes specified in this section. Funds released to Enterprise Florida, Inc., for this purpose shall be released quarterly and shall be calculated based on the applications in process.

Section 2. Subsection (5) of section 288.0655, Florida Statutes, is redesignated as subsection (6), paragraph (b) of subsection (2) and subsection (4) of that section are amended, and a new subsection (5) is added to that section, to read:

288.0655 Rural Infrastructure Fund.—

(2)(b) To facilitate access of rural communities and rural areas of opportunity as defined by the Rural Economic Development Initiative to infrastructure funding programs of the Federal Government, such as those offered by the United States Department of Agriculture and the United States Department of Commerce, and state programs, including those offered by Rural Economic Development Initiative agencies, and to facilitate local government or private infrastructure funding efforts, the department may award grants for up to 50 ~~30~~ percent of the total

infrastructure project cost. ~~If an application for funding is for a catalyst site, as defined in s. 288.0656, the department may award grants for up to 40 percent of the total infrastructure project cost.~~ Eligible projects must be related to specific job-creation or job-retention opportunities. Eligible projects may also include improving any inadequate infrastructure that has resulted in regulatory action that prohibits economic or community growth or reducing the costs to community users of proposed infrastructure improvements that exceed such costs in comparable communities, which includes improving access to and the availability of broadband Internet service. Eligible uses of funds shall include improvements to public infrastructure for industrial or commercial sites, ~~and~~ upgrades to or development of public tourism infrastructure, and improvements to broadband Internet service and access in unserved or underserved rural communities. Improvements to broadband Internet service and access must be conducted through a partnership or partnerships with one or more dealers of communications services, as defined in s. 202.11(2), and the partnership must be established by a publicly noticed and competitively selected process. Authorized infrastructure may include the following public or public-private partnership facilities: storm water systems; telecommunications facilities; broadband facilities; roads or other remedies to transportation impediments; nature-based tourism facilities; or other physical requirements necessary to facilitate tourism, trade, and economic development activities in the community. Authorized infrastructure may also include publicly or privately owned self-powered nature-based tourism facilities, publicly owned

telecommunications facilities, and broadband facilities, and additions to the distribution facilities of the existing natural gas utility as defined in s. 366.04(3)(c), the existing electric utility as defined in s. 366.02, or the existing water or wastewater utility as defined in s. 367.021(12), or any other existing water or wastewater facility, which owns a gas or electric distribution system or a water or wastewater system in this state where:

1. A contribution-in-aid of construction is required to serve public or public-private partnership facilities under the tariffs of any natural gas, electric, water, or wastewater utility as defined herein; and

2. Such utilities as defined herein are willing and able to provide such service.

(4) By September 1, 2019 ~~2012~~, the department shall, in consultation with the organizations listed in subsection (3), and other organizations, reevaluate existing guidelines and criteria governing submission of applications for funding, review and evaluation of such applications, and approval of funding under this section. The department shall consider factors including, but not limited to, the project's potential for enhanced job creation or increased capital investment, the demonstration and level of local public and private commitment, whether the project is located ~~in an enterprise zone,~~ in a community development corporation service area~~,~~ or in an urban high-crime area as designated under s. 212.097, the unemployment rate of the county in which the project would be located, and the poverty rate of the community.

(5)(a) A contract or agreement that involves the

expenditure of grant funds provided under this section must be placed on the department's website at least 14 days before execution.

(b) A contract or agreement that includes the expenditure of grant funds provided under this section, including a contract or agreement entered into between an entity and a regional economic development organization, a unit of local government, or an economic development organization substantially underwritten by a unit of local government, must include:

1. The purpose of the contract or agreement.

2. Specific performance standards and responsibilities for each entity.

3. A detailed project or contract budget, if applicable.

4. The value of any services provided.

5. The projected travel and entertainment expenses for employees and board members, if applicable.

(c) A plain language version of a contract or agreement with a private entity, a municipality, or a vendor of services, supplies, or programs, including marketing, or for the purchase or lease or use of lands, facilities, or properties which involves the expenditure of grant funds provided under this section and which is estimated to exceed $35,000 must be posted on the department's website.

Section 3. This act shall take effect July 1, 2018.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations	
BILL:	CS/CS/SB 1646
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Transportation, Tourism, and Economic Development); Commerce and Tourism Committee; and Senators Montford and Gainer
SUBJECT:	Regional Rural Development Grants
DATE:	March 2, 2018 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Swift	McKay	CM	**Fav/CS**
2.	Hrdlicka	Hrdlicka	ATD	**Recommend: Fav/CS**
3.	Hrdlicka	Hansen	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1646 amends the Regional Rural Development Grant Program to:

- Increase the maximum annual grant amount to $250,000 from $150,000 that three regional economic development organizations that serve the entire region of a rural area of opportunity may receive.
- Increase the funds allocated for the program to up to $1 million annually from up to $750,000 annually.
- Reduce the required match of non-state resources for grant funds from 100 percent to 25 percent of the state's contribution.
- Define the uses of grant funds to build the professional capacity of regional economic development organizations; and
- Allow a regional economic development organization to use these grants to provide technical assistance to local governments, local economic development organizations, and existing and prospective businesses within the rural community it serves.

The bill amends the Rural Infrastructure Fund program to increase the grant awards to 50 percent of infrastructure project costs from 30 percent of infrastructure project costs (or 40 percent of projects costs at a catalyst site in a rural area of opportunity). The bill also amends the program to clarify that eligible infrastructure projects include access to broadband Internet service and require such projects that improve service and access must be through a partnership with a dealer

of communications services that was publicly noticed and competitively bid. The bill requires the Department of Economic Opportunity to review the grant program application and award procedures by September 1, 2019.

Related to contracts or agreements for the Regional Rural Development Grant Program or the Rural Infrastructure Fund, the bill:

- Requires contracts or agreements that include the spending of these funds to be posted online at least 14 days prior to execution.
- Requires a plain language version of the contract or agreement to be posted online, if the contract agreement exceeds $35,000, is between certain entities, or is for certain purposes.
- Specifies required provisions for contracts or agreements expending state grant funds.

Related to site readiness, the bill directs the DEO to review best practices and methods and to make recommendations for the establishment of a site readiness program for rural communities.

The bill has no impact on state funds. Under the bill, from the $1.6 million recurring appropriation to the Rural Community Development Revolving Loan Fund, the Department of Economic Opportunity may expend up to $1 million on the Rural Development Grant Program; if the maximum amount is expended on the grant program, then $600,000 would be available for the loan fund (up to $250,000 less annually).

The bill takes effect July 1, 2018.

II. Present Situation:

Rural Economic Development Initiative

The Rural Economic Development Initiative (REDI) was established in 1997 by the Legislature to encourage and facilitate the location and expansion of major economic development projects of significant scale in rural communities.[1] The REDI is responsible for coordinating and focusing the efforts and resources of state and regional agencies on the problems that affect the fiscal, economic, and community viability of Florida's economically distressed rural communities.[2] The REDI works with local governments, community-based organizations, and private organizations that have an interest in the growth and development of these communities to find ways to balance environmental and growth management issues with local needs.

Rural Areas of Opportunity

A rural area of opportunity (RAO) is a rural community, or region of rural communities, that has been adversely affected by an extraordinary economic event, severe or chronic distress, or a natural disaster or that presents a unique economic development opportunity of regional impact.[3] By executive order, the Governor may designate up to three RAOs, establishing each region as a

[1] Section 288.0656, F.S.
[2] Agencies required to participate in the REDI are found in s. 288.0656(6)(a), F.S.
[3] Section 288.0656(1)(d), F.S.

priority assignment for REDI agencies. The Governor can waive the criteria, requirements, or any similar provisions of any state economic development incentive for projects in a RAO.[4]

The currently designated RAOs are:[5]

- **Northwestern RAO**: Calhoun, Franklin, Gadsden, Gulf, Holmes, Jackson, Liberty, Wakulla, and Washington counties, and the City of Freeport in Walton County.
- **South Central RAO**: DeSoto, Glades, Hardee, Hendry, Highlands, and Okeechobee counties, and the cities of Pahokee, Belle Glade, South Bay (Palm Beach County), and Immokalee (Collier County).
- **North Central RAO**: Baker, Bradford, Columbia, Dixie, Gilchrist, Hamilton, Jefferson, Lafayette, Levy, Madison, Putnam, Suwannee, Taylor, and Union counties.

Regional Economic Development Organizations

Three regional economic development organizations that operate in the state coincide with the current RAOs. These public/private 501(c)(6) organizations provide economic development support to the local governments that represent the RAOs. Opportunity Florida serves the Northwestern RAO.[6] Florida's Heartland Regional Economic Development Initiative, Inc., serves the South Central RAO.[7] The North Florida Economic Development Partnership serves the North Central RAO.[8]

Regional Rural Development Grant Program[9]

The Regional Rural Development Grant Program was established to provide funding, through matching grants, to build the professional capacity of regional economic development organizations in Florida. Additionally, grants from the program may be used by an economic development organization to provide technical assistance to businesses within the rural counties and communities that the organization serves. The Department of Economic Opportunity (DEO) administers the grant program through contract with Enterprise Florida, Inc.

To be approved, an applying organization must provide proof to the DEO of:

- The organization's need for the assistance;
- The official commitments of support from all the local governments represented by the organization
- Financial or in-kind commitments to the organization by each local government and the private sector;
- The organization's existence and active involvement in economic development activities in the region; and

[4] Section 288.0656(7), F.S.
[5] Department of Economic Opportunity, *Rural Areas of Opportunity*, available at http://www.floridajobs.org/community-planning-and-development/rural-community-programs/rural-areas-of-opportunity (last visited February 15, 2018).

[8] *See generally*, North Florida Economic Development Partnership, available at http://nflp.org/, (last visited February 15, 2018).
[9] Section 288.018, F.S.

- The manner in which the organization coordinates its efforts with those of other local and state organizations.

The maximum amount any organization can receive is $50,000, or $150,000 in a rural area of opportunity, and the grant must be matched by an equivalent amount of non-state resources. Because the Governor can waive criteria, requirements, or any similar provisions of any state economic development incentive in RAOs, the matching requirement is likely eligible to be waived.[10] The DEO may expend up to $750,000 each fiscal year from funds appropriated to the Rural Community Development Revolving Loan Fund for the program.

Rural Infrastructure Fund[11]

The Rural Infrastructure Fund was created to facilitate the planning, preparation, and financing of tourism infrastructure and economic development projects that encourage job growth and capital investment in rural communities. The DEO administers the fund and awards grants that maximize the use of federal, local, and private resources.

There are three grants that DEO awards from this fund: the total project participation grant, the infrastructure feasibility grant, and the preclearance review grant.[12]

The total project participation grant allows for awards up to 30 percent of the total infrastructure project cost for projects related to access to federal funds; and up to 40 percent if the project is a RAO catalyst site.[13] Eligible projects must be related to specific job creation or retention opportunities, and may include improving certain inadequate infrastructure that is prohibiting economic or community growth or reducing costs to community users of proposed infrastructure improvements that exceed costs in comparable communities. Infrastructure can include public or public-private partnership facilities, like storm water systems, roads, nature-based tourism facilities, and broadband facilities.

The infrastructure feasibility grant provides awards of up to 30 percent of the total project costs for infrastructure feasibility studies, design and engineering activities, or other infrastructure planning and preparation activities.[14] Maximum awards are dependent on the number of jobs that a business commits to create and may be up to $300,000 if the project is located in a RAO. The total project participation grant and infrastructure feasibility grant may be used in conjunction.

The preclearance review grant provides awards to help a local government participate in expedited permitting processes through technical assistance in preparing permit applications and local comprehensive plan amendments.[15] Grants may be used for surveys, feasibility studies, and

[10] Section 288.0656(7) and 288.018(1), F.S.
[11] Section 288.0655, F.S.
[12] Department of Economic Opportunity, *Rural Infrastructure Fund*, available at http://www.floridajobs.org/community-planning-and-development/rural-community-programs/rural-infrastructure-fund (last visited February 15, 2018).
[13] Section 288.0655(2)(b), F.S. A "catalyst site" is "a parcel or parcels of land within a rural area of opportunity that has been prioritized as a geographic site for economic development through partnerships with state, regional, and local organizations. The site must be reviewed by REDI and approved by the department for the purposes of locating a catalyst project." Section 288.0656(2)(b), F.S.
[14] Section 288.0655(2)(c), F.S.
[15] Section 288.0655(2)(e), F.S. Expedited permitting is pursuant to s. 403.973(18), F.S.

other activities related to the identification and preclearance review of land use modifications. Grants are limited to $75,000 (or $300,000 for a project in a RAO) and must be matched 50 percent with local funds (or 33 percent for a project in a RAO, or waived for a project in a catalyst site).

The DEO reviews and certifies the grant applications in consultation with Enterprise Florida, Inc., the Florida Tourism Industry Marketing Corporation (VISIT Florida), the Department of Environmental Protection, and the Florida Fish and Wildlife Conservation Commission, as appropriate.

In Fiscal Year 2017-2018, the funding appropriated for the Rural Infrastructure Fund was $1.6 million.[16]

III. Effect of Proposed Changes:

Regional Rural Development Grant Program

Section 1 amends the Regional Rural Development Grants Program in s. 288.018, F.S., to specify what the term "building the professional capacity" of regional economic development organizations includes, revise and increase the grant amount for certain organizations in RAOs, and to require certain contract requirements.

The bill specifies that "building the professional capacity" of a regional economic development organizations includes hiring professional staff to develop, facilitate, and provide economic development professional services. Economic development services include technical assistance, education and leadership development, and marketing and project recruitment. Grant funds under the bill may be used for these purposes.

Currently, grant funds may be used to provide technical assistance to businesses within the area that the regional economic development organization services. The bill expands the use of the grant funds to allow technical assistance to be provided to local governments, local economic development organizations, and existing and prospective businesses.

Related to the grant amount for organizations in RAOs, the bill increases the maximum grant amount from $150,000 to $250,000 specifically for each of the three regional economic development organizations recognized by the DEO that are serving the entire region of each RAO currently: Opportunity Florida; Florida Heartland Regional Economic Region of Opportunity; and the North Florida Economic Development Partnership. Regional economic development organizations not located in a RAO would still be eligible for a $50,000 grant and regional economic development organizations in a RAO would still be eligible for a $150,000 grant.

The bill reduces the required match for a grant under this program to 25 percent of the state contribution, instead of the current requirement for a 100 percent match (one to one match).

[16] Specific appropriation 2226Q, ch. 2017-70, L.O.F.

The bill increases the amount that the DEO may expend up each fiscal year on the program from up to $750,000 to up to $1 million. These funds are from the funds appropriated to the Rural Community Development Revolving Loan Fund.

Rural Infrastructure Fund

Section 2 amends the total project participation grant of the Rural Infrastructure Fund program in s. 288.0655, F.S., to increase the amount of the total infrastructure project costs that the grant can pay for from 30 percent to 50 percent. The bill repeals the grant award for up to 40 percent of total infrastructure project costs if the project is a RAO catalyst site.

The bill specifies that eligible projects may include improving certain inadequate infrastructure that reduces costs to community users of proposed infrastructure improvements that exceed costs in comparable communities, *including improving access to and the availability of broadband Internet service*. Further, eligible uses of funds are expanded to include "improvements to broadband Internet service and access in unserved or underserved rural communities." Such eligible use must be conducted through a partnership or partnerships with one or more dealers of communications services,[17] and the partnership must be established by a publicly noticed and competitively selected process.

The bill requires the DEO, in consultation with Enterprise Florida, Inc., the Florida Tourism Industry Marketing Corporation (VISIT Florida), the Department of Environmental Protection, and the Florida Fish and Wildlife Conservation Commission, to review and edit any guidelines or criteria for grant applications by September 1, 2019.

Contracts or Agreements Under the Regional Rural Development Grant Program and the Rural Infrastructure Fund

The bill amends both ss. 288.018 and 288.0655, F.S., relating to the Regional Rural Development Grant Program and the Rural Infrastructure Fund, respectively, to include the same requirements for contracts or agreements that expend grant funds.

The bill requires the contract or agreement to be posted on the contracting regional economic development organization's or the DEO's website for at least 14 days before execution. It is unclear from the text of the bill, but this may include the contract or agreement that the organization enters into with the DEO or Enterprise Florida, Inc., to receive the grant funds.

A contract or agreement to expend grant funds must include:
- The purpose of the contract or agreement;
- Specific performance standards and responsibilities of all involved parties;
- A detailed budget, if applicable;
- The value of services provided; and
- Estimated travel and entertainment expenses of board members and staff, if applicable.

[17] A "dealer of communications services" is defined as a person registered with the Department of Revenue as a provider of communications services in this state. *See* s. 202.11, F.S.

These required contract provisions apply to any contract or agreement that expends grant funds, but the bill specifies that this include any contract or agreement between another entity and a regional economic development organization, a unit of local government, or an economic development organization substantially underwritten by a unit of local government. Again, it is unclear from the text of the bill, but this may include the contract or agreement that the organization enters into with the DEO or Enterprise Florida, Inc., to receive the grant funded.

The bill requires specific contracts or agreements that exceed $35,000 and expend grant funds to be posted on the contracting regional economic development organization's or the DEO's website in a "plain language version." This applies to a contract or agreement with a private entity, a municipality, or a vendor of services, supplies, or programs (including marketing) or a contract or agreement for the purchase, lease, or use of lands, facilities, or properties.

Site Readiness

Section 3 directs the DEO to review best practices and methods and to make recommendations for the establishment of a site readiness program for rural communities. The program would include assisting a rural community to evaluate property in its jurisdiction and promote the availability and benefits of the property. The DEO must:

- Identify technical requirements and quality control standards that would best benefit such a program;
- Provide options for implementation of a program; and
- Seek the input of stakeholders and persons, groups, and organizations that are knowledgeable about rural areas and site readiness issues.

The DEO must submit a report of its findings to the Legislature by December 1, 2018.

Effective Date

The bill takes effect July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The bill requires 25 percent of all disbursed Regional Rural Development Grant funds to be matched annually by a nonstate source, a reduction from the current 100 percent (one to one) match.

C. Government Sector Impact:

The Rural Community Development Revolving Loan Fund receives a recurring appropriation of $1.6 million, of which up to $750,000 is statutorily distributed to the Regional Rural Development Grant program. The bill increases the maximum grant amount that three regional economic development organizations that serve the entire region of a RAO may receive, from $150,000 to $250,000 annually.

The bill increases the amount that the DEO may expend up each fiscal year on the program from up to $750,000 to up to $1 million. These funds are from the funds appropriated to the Rural Community Development Revolving Loan Fund. From the $1.6 million recurring appropriation to the Rural Community Development Revolving Loan Fund, if the DEO expends the maximum amount on the Rural Development Grant Program (up to $1 million annually), then at least $600,000 would be available for the loan fund (up to $250,000 less annually).

The Rural Infrastructure Fund receives a recurring appropriation of $1.6 million. Specific inclusion of certain broadband Internet infrastructure projects as eligible for the total project participation grant may increase the competition for grant funds in the Rural Infrastructure Fund. Additionally, the bill increases the amount of total infrastructure project costs for which the grant will pay from 30 percent (or 40 percent if the project is at a catalyst site in a RAO) to 50 percent for all infrastructure projects, no matter the location. This change may lead to fewer grants awarded.

The cost to regional economic development organizations (Rural Development Grant Fund) to post contracts and "plain language" versions of contracts online is unknown. The DEO indicated that the bill would have no impact on state expenditures.[18]

The DEO stated that the site readiness report could be done with existing resources.

VI. Technical Deficiencies:

None.

[18] DEO, *2018 Agency Legislative Bill Analysis: SB 1646*, January 22, 2018.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends sections 288.018 and 288.0655 of the Florida Statutes.

The bill creates an undesignated section of Florida law.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on March 2, 2018:
The committee substitute:

- Revises the maximum grant amounts that may be awarded under the Rural Development Grant Program.
- Increases the cap on the Rural Development Grant program from up to $750,000 to up to $1 million.
- Removes reference to 3 specifically named regional economic development organizations to receive grants under the Rural Development Grant program.
- Increases the amount of infrastructure project costs from 30 percent to 50 percent that a Rural Infrastructure Grant can be awarded to pay.
- Requires any infrastructure project funded for broadband Internet to be through a partnership with a communication services dealer, the partnership with which must be publicly noticed and competitively selected.
- Directs the DEO to review best practices and methods and to make recommendations for the establishment of a site readiness program for rural communities.

CS by Commerce and Tourism Committee on January 29, 2017:
The committee substitute made technical changes by correcting the name of a regional economic development organization.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By the Committee on Commerce and Tourism; and Senators Montford and Gainer

577-02597-18 20181646c1

A bill to be entitled

An act relating to regional rural development grants; amending s. 288.018, F.S.; providing that regional rural development grants may be used to hire regional economic development organization professional staff; authorizing the use of matching grant funds to provide technical assistance to certain entities; increasing the annual maximum amount of grant funding that specified economic development organizations may receive; revising the amount of nonstate matching funds required; requiring that contracts or agreements involving the expenditure of grant funds be placed on a certain website for a specified time period; requiring that certain information be included in a contract or agreement involving the expenditure of grant funds; requiring that a plain language version of certain contracts or agreements be placed on a certain website; deleting a provision authorizing the Department of Economic Opportunity to contract for the development of certain enterprise zone web portals or websites; amending s. 288.0655, F.S.; providing that improving access to and availability of broadband Internet service may be included in a project that is eligible for rural infrastructure grant funds; extending the date by which the department is required to reevaluate certain guidelines and criteria; revising the factors that the department must consider when awarding grant funds; requiring that contracts or agreements involving the expenditure of grant funds be

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

577-02597-18 20181646c1

placed on a certain website for a specified time period; requiring that certain information be included in a contract or agreement involving the expenditure of grant funds; requiring that a plain language version of certain contracts or agreements be placed on a certain website; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsections (1) and (3) of section 288.018, Florida Statutes, are amended to read:

288.018 Regional Rural Development Grants Program.—

(1) The department shall establish a matching grant program to provide funding to regional ~~regionally based~~ economic development organizations representing rural counties and communities to build ~~for the purpose of building~~ the professional capacity of such regional economic development ~~their~~ organizations. Building the professional capacity of regional economic development organizations includes hiring professional staff to develop, facilitate the delivery of, and directly provide needed economic development professional services, including technical assistance, education and leadership development, marketing and project recruitment, and other services that are important for rural economic development. ~~Such~~ Matching grants may also be used by a regional ~~an~~ economic development organization to provide technical assistance to local governments, local economic development organizations, and existing and prospective businesses within the rural counties and communities that it serves. The

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

department is authorized to approve, on an annual basis, grants to such regional ~~regionally based~~ economic development organizations. The maximum amount an organization may receive in any year is ~~will be~~ $50,000, or $250,000 for each of the three regional economic development organizations serving rural areas of opportunity designated pursuant to s. 288.0656. The three regional economic development organizations include the North Florida Economic Development Partnership, Opportunity Florida, and Florida Heartland Economic Region of Opportunity. Grant funds received by a regional economic development organization ~~$150,000 in a rural area of opportunity recommended by the Rural Economic Development Initiative and designated by the Governor, and~~ must be matched each year by ~~an equivalent amount of~~ nonstate resources in an amount equal to 25 percent of the state contribution.

(3)(a) A contract or agreement that involves the expenditure of grant funds provided under this section must be placed on the contracting regional economic development organization's website for review at least 14 days before execution.

(b) A contract or agreement that involves the expenditure of grant funds provided under this section, including a contract or agreement entered into between another entity and a regional economic development organization, a unit of local government, or an economic development organization substantially underwritten by a unit of local government, must include:

1. The purpose of the contract or agreement.

2. Specific performance standards and responsibilities for each entity.

3. A detailed project or contract budget, if applicable.

4. The value of any services provided.

5. The projected travel and entertainment expenses for employees and board members, if applicable.

(c) A plain language version of a contract or agreement with a private entity, a municipality, or a vendor of services, supplies, or programs, including marketing, or for the purchase or lease or use of lands, facilities, or properties which involves the expenditure of grant funds provided under this section and which is estimated to exceed $35,000 must be posted on the contracting regional economic development organization's website ~~The department may also contract for the development of an enterprise zone web portal or websites for each enterprise zone which will be used to market the program for job creation in disadvantaged urban and rural enterprise zones. Each enterprise zone web page should include downloadable links to state forms and information, as well as local message boards that help businesses and residents receive information concerning zone boundaries, job openings, zone programs, and neighborhood improvement activities~~.

Section 2. Subsection (5) of section 288.0655, Florida Statutes, is redesignated as subsection (6), paragraph (b) of subsection (2) and subsection (4) of that section are amended, and a new subsection (5) is added to that section, to read:

288.0655 Rural Infrastructure Fund.—

(2)(b) To facilitate access of rural communities and rural areas of opportunity as defined by the Rural Economic Development Initiative to infrastructure funding programs of the Federal Government, such as those offered by the United States

Department of Agriculture and the United States Department of Commerce, and state programs, including those offered by Rural Economic Development Initiative agencies, and to facilitate local government or private infrastructure funding efforts, the department may award grants for up to 30 percent of the total infrastructure project cost. If an application for funding is for a catalyst site, as defined in s. 288.0656, the department may award grants for up to 40 percent of the total infrastructure project cost. Eligible projects must be related to specific job-creation or job-retention opportunities. Eligible projects may also include improving any inadequate infrastructure that has resulted in regulatory action that prohibits economic or community growth or reducing the costs to community users of proposed infrastructure improvements that exceed such costs in comparable communities, which includes improving access to and the availability of broadband Internet service. Eligible uses of funds shall include improvements to public infrastructure for industrial or commercial sites, ~~and~~ upgrades to or development of public tourism infrastructure, and improvements to broadband Internet service and access in unserved or underserved rural communities. Authorized infrastructure may include the following public or public-private partnership facilities: storm water systems; telecommunications facilities; broadband facilities; roads or other remedies to transportation impediments; nature-based tourism facilities; or other physical requirements necessary to facilitate tourism, trade, and economic development activities in the community. Authorized infrastructure may also include publicly or privately owned self-powered nature-based tourism

facilities, publicly owned telecommunications facilities, and broadband facilities, and additions to the distribution facilities of the existing natural gas utility as defined in s. 366.04(3)(c), the existing electric utility as defined in s. 366.02, or the existing water or wastewater utility as defined in s. 367.021(12), or any other existing water or wastewater facility, which owns a gas or electric distribution system or a water or wastewater system in this state where:

1. A contribution-in-aid of construction is required to serve public or public-private partnership facilities under the tariffs of any natural gas, electric, water, or wastewater utility as defined herein; and

2. Such utilities as defined herein are willing and able to provide such service.

(4) By September 1, 2019 ~~2012~~, the department shall, in consultation with the organizations listed in subsection (3), and other organizations, reevaluate existing guidelines and criteria governing submission of applications for funding, review and evaluation of such applications, and approval of funding under this section. The department shall consider factors including, but not limited to, the project's potential for enhanced job creation or increased capital investment, the demonstration and level of local public and private commitment, whether the project is located ~~in an enterprise zone,~~ in a community development corporation service area~~,~~ or in an urban high-crime area as designated under s. 212.097, the unemployment rate of the county in which the project would be located, and the poverty rate of the community.

(5)(a) A contract or agreement that involves the

expenditure of grant funds provided under this section must be placed on the department's website for review at least 14 days before execution.

(b) A contract or agreement that includes the expenditure of grant funds provided under this section, including a contract or agreement entered into between an entity and a regional economic development organization, a unit of local government, or an economic development organization substantially underwritten by a unit of local government, must include:

1. The purpose of the contract or agreement.

2. Specific performance standards and responsibilities for each entity.

3. A detailed project or contract budget, if applicable.

4. The value of any services provided.

5. The projected travel and entertainment expenses for employees and board members, if applicable.

(c) A plain language version of a contract or agreement with a private entity, a municipality, or a vendor of services, supplies, or programs, including marketing, or for the purchase or lease or use of lands, facilities, or properties which involves the expenditure of grant funds provided under this section and which is estimated to exceed $35,000 must be posted on the department's website.

Section 3. This act shall take effect July 1, 2018.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 1678
INTRODUCER:	Judiciary Committee; Criminal Justice Committee; and Senator Stargel
SUBJECT:	Reports Concerning Seized or Forfeited Property
DATE:	February 26, 2018 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Storch	Jones	CJ	**Fav/CS**
2.	Farach	Cibula	JU	**Fav/CS**
3.	Sadberry	Hansen	AP	**Favorable**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1678 changes the deadline for the annual submission of reports concerning seized or forfeited property by law enforcement agencies pursuant to the Florida Contraband Forfeiture Act from October 10 to December 1.

The bill is not expected to affect state or local revenues or expenditures.

The bill is effective July 1, 2018.

II. Present Situation:

Florida Contraband Forfeiture Act

The Florida Contraband Forfeiture Act (act), ss. 932.701-932.7062, F.S., provides for the seizure and civil forfeiture of property related to criminal and non-criminal violations of law.[1] Contraband and other property may be seized when used during a violation of, or for the purpose of violating, the act. Property constituting a "contraband article" includes, but is not limited to, a controlled substance as defined in ch. 893, F.S., any gambling paraphernalia being used or attempted to be used in violation of the state's gambling laws, and any motor fuel upon which the motor fuel tax has not been paid as required by law.[2]

[1] Section 932.701(1), F.S.
[2] *See* s. 932.701(2)(a)1.-12., F.S.

Currently, any contraband article, vessel, motor vehicle, aircraft, other personal property, or real property used in violation of any provision of the act, or in, upon, or by means of which any violation of the act has taken or is taking place, may be seized and forfeited subject to the act.[3] If the court finds that the seizure occurred lawfully[4] and that probable cause exists for the seizure, the forfeiture may proceed as set forth in the act.[5]

When a seizing agency obtains a final judgment granting forfeiture of real or personal property, it may elect to:

- Retain the property for the agency's use;
- Sell the property at public auction or by sealed bid to the highest bidder;[6] or
- Salvage, trade, or transfer the property to any public or nonprofit organization.[7]

Reports Concerning Seized or Forfeited Property

Section 932.7061, F.S., requires every law enforcement agency to submit an annual report by October 10 indicating whether the agency has seized or forfeited property under the act.[8] In the event that a law enforcement agency received or expended forfeited property or proceeds from the sale of forfeited property in accordance with the act, the annual report must document such receipts and expenditures.

The report must be submitted in electronic form to the FDLE and the entity that has budgetary authority over the law enforcement agency. The report must specify, at a minimum, the type, approximate value, court case number, type of offense, disposition of property received, and amount of any proceeds received or expended. The report must be maintained by the FDLE in consultation with the Office of Program Policy Analysis and Government Accountability (OPPAGA).[9]

The FDLE must submit an annual report to the OPPAGA that compiles the information and data in the annual reports. The FDLE must also include a list of law enforcement agencies that failed to meet the reporting requirements and a summary of any action taken against such noncomplying agency by the office of Chief Financial Officer (CFO).[10]

Penalty for Noncompliance with Reporting Requirements

An agency that is in noncompliance with the reporting requirements in s. 932.7061, F.S., must be notified by the FDLE. Such agency has 60 days within receipt of the notification of noncompliance to comply with the reporting requirements. An agency that fails to comply within

[3] Section 932.703(1)(a), F.S.
[4] Section 932.703(1)(a), F.S., sets forth the circumstances that permit for a lawful seizure of property.
[5] Section 932.703(2)(c), F.S.
[6] Real property should be listed on the market and sold in a commercially reasonable manner after appraisal. Section 932.7055(1)(b), F.S.
[7] Section 932.7055(1)(a)-(c), F.S.
[8] Section 932.7061(1), F.S.
[9] *Id.*
[10] Section 932.7061(2), F.S.

60 days is subject to a civil fine of $5,000. The fine is determined by the CFO and payable to the General Revenue Fund.[11]

The FDLE must submit any substantial noncompliance to the office of the CFO, which will then be responsible for the enforcement of the fine.[12]

The fiscal year for sheriff departments runs from October 1-September 30, making it difficult to gather all required information and submit it by October 10 to comply with the statutory mandate. An agency that does not meet the deadline for submission of the annual report is subject to negative implications associated with a noncompliance status.[13]

III. Effect of Proposed Changes:

Reports Concerning Seized or Forfeited Property (amending s. 932.7061, F.S.)

Current law requires agencies having seized or forfeited property pursuant to the Florida Contraband Forfeiture Act to submit an annual report by October 10 documenting the receipts and expenditures of forfeited property or proceeds from the sale of forfeited property pursuant to the act. The bill changes the deadline for the submission of the reports to December 1.

The bill is effective July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

[11] Section 932.7062, F.S.
[12] *Id.*
[13] Polk County Sheriff's Office, *Proposal for the 2018 FSA Legislative Summit*, (on file with the Senate Criminal Justice Committee).

B. Private Sector Impact:

None.

C. Government Sector Impact:

Reports Concerning Seized or Forfeited Property

The bill will likely have no fiscal impact with regards to the reports. While law enforcement agencies are subject to a fine if they are in noncompliance with the reporting requirements pursuant to s. 932.7061, F.S., the agencies have 60 days after receiving notification of noncompliance to comply. Sections 932.7061 and 932.7062, F.S., went into effect July 1, 2016.[14] Since the law has gone into effect, no law enforcement agencies have been in noncompliance after the passage of the 60 days.[15] No fines have been collected pursuant to s. 932.7062, F.S., to date,[16] and the modification to the submission deadline will enable law enforcement agencies a greater opportunity to achieve initial compliant status.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill amends section 932.7061 of the Florida Statutes.

The bill reenacts section 932.7062 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Judiciary on February 20, 2018:
The Committee Substitute includes only sections 5, 8, and 11 of the underlying bill. The removed provisions related to the collection and reporting of criminal justice data.

CS by Criminal Justice on February 12, 2018:
The Committee Substitute:
- Creates a model of uniform criminal justice data collection;
- Defines terms used in the bill as they relate to data collection;

[14] Chapter 2016-179, Laws of Fla.
[15] Conversation with Tabitha Krol, Government Affairs Coordinator, Florida Sheriffs Association (February 8, 2018).
[16] *Id.*

- Requires the clerks of the circuit court, state attorneys, public defenders, county jail operators, and the Department of Corrections (DOC) to collect certain data and transmit it to the Florida Department of Law Enforcement (FDLE) on a weekly basis;
- Requires the FDLE to publish the data on the FDLE's website and make it searchable and accessible to the public;
- Digitizes the Criminal Punishment Code sentencing scoresheet;
- Requires additional information to be reported in the annual report for pretrial release programs;
- Authorizes a pilot project in the Sixth Judicial Circuit for the purposes of implementing the bill; and
- Appropriates $1,750,000 in nonrecurring funds to the FDLE for the hiring of nine full-time employees for purposes of implementing the requirements of the bill and to assist in the transition to incident-based crime reporting to meet the requirements of the FBI under the National Incident-Based Reporting System.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By the Committees on Judiciary; and Criminal Justice; and
Senator Stargel

590-03467-18 20181678c2

A bill to be entitled

An act relating to reports concerning seized or forfeited property; amending s. 932.7061, F.S.; revising the deadline for submitting an annual report by law enforcement agencies concerning property seized or forfeited under the Florida Contraband Forfeiture Act; reenacting s. 932.7062, F.S., relating to a penalty for noncompliance with reporting requirements, to incorporate the amendment made to s. 932.7061, F.S., in a reference thereto; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (1) of section 932.7061, Florida Statutes, is amended to read:

932.7061 Reporting seized property for forfeiture.—

(1) Every law enforcement agency shall submit an annual report to the Department of Law Enforcement indicating whether the agency has seized or forfeited property under the Florida Contraband Forfeiture Act. A law enforcement agency receiving or expending forfeited property or proceeds from the sale of forfeited property in accordance with the Florida Contraband Forfeiture Act shall submit a completed annual report by December 1 ~~October 10~~ documenting the receipts and expenditures. The report shall be submitted in an electronic form, maintained by the Department of Law Enforcement in consultation with the Office of Program Policy Analysis and Government Accountability, to the entity that has budgetary authority over such agency and

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Florida Senate - 2018 CS for CS for SB 1678

590-03467-18 20181678c2

to the Department of Law Enforcement. The annual report must, at a minimum, specify the type, approximate value, court case number, type of offense, disposition of property received, and amount of any proceeds received or expended.

Section 2. For the purpose of incorporating the amendment made by this act to section 932.7061, Florida Statutes, in a reference thereto, section 932.7062, Florida Statutes, is reenacted to read:

932.7062 Penalty for noncompliance with reporting requirements.—A seizing agency that fails to comply with the reporting requirements in s. 932.7061 is subject to a civil fine of $5,000, to be determined by the Chief Financial Officer and payable to the General Revenue Fund. However, such agency is not subject to the fine if, within 60 days after receipt of written notification from the Department of Law Enforcement of noncompliance with the reporting requirements of the Florida Contraband Forfeiture Act, the agency substantially complies with those requirements. The Department of Law Enforcement shall submit any substantial noncompliance to the office of Chief Financial Officer, which shall be responsible for the enforcement of this section.

Section 3. This act shall take effect July 1, 2018.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	SB 1712
INTRODUCER:	Senators Montford and Thurston
SUBJECT:	Postsecondary Revenue Bonds and Debt
DATE:	February 26, 2018
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Bouck	Graf	ED	**Favorable**
2.	Sikes	Elwell	AHE	**Recommend: Favorable**
3.	Sikes	Hansen	AP	**Favorable**

I. Summary:

SB 1712 modifies restrictions on debt payment sources for state universities by authorizing them to use federal grant and contract funds to secure revenue bonds, but only as required for an institution to participate in the Historically Black College and University Capital Financing Program (HBCU Program). In effect, the bill may allow Florida Agricultural and Mechanical University to participate in the HBCU Program.

The bill does not affect state revenues or expenditures.

The law takes effect July 1, 2018.

II. Present Situation:

Historically Black College and University Capital Financing Program

The Higher Education Act of 1965, as amended, defines a historically black college and university (HBCU) as "... any historically black college or university that was established prior to 1964, whose principal mission was, and is, the education of Black Americans, and that is accredited by a nationally recognized accrediting agency or association determined by the Secretary [of Education] to be a reliable authority as to the quality of training offered or is, according to such an agency or association, making reasonable progress toward accreditation...."[1]

[1] U.S. Department of Education, *Historically Black College and University Capital Financing Program, Eligibility*, https://www2.ed.gov/programs/hbcucapfinance/eligibility.html (last visited Feb. 5, 2018). The Florida HBCUs are Florida Agricultural and Mechanical University (public), Bethune-Cookman University (private), Edward Waters College (private), and Florida Memorial University (private). National Center for Education Statistics, *College Navigator*, https://nces.ed.gov/COLLEGENAVIGATOR/?s=FL&sp=4 (last visited Feb. 5, 2018).

The Historically Black College and University Capital Financing Program (HBCU Program), administered by the United States Department of Education (USDOE), provides low-cost capital to finance improvements to the infrastructure of the nation's HBCUs.[2] Specifically, the HBCU Program provides HBCUs with access to capital financing or refinancing for the repair, renovation, and construction of classrooms, libraries, laboratories, dormitories, instructional equipment, and research instrumentation.[3] This assistance comes through the issuance of federal guarantees on the full payment of principal and interest on qualified bonds, the proceeds of which are used for loans.[4] Public HBCUs have received about $530 million in loan proceeds and private HBCUs have received about $1.27 billion in loan proceeds[5] through the HBCU Program

The HBCU Program specifies, as a part of the loan agreement, the procedures for repayment of the loan and procedures in the event of delinquency or default on the loan.[6] Federal law requires that, for delinquent debt or a default on debt to the United States, the debts or payments may be collected by administrative offset.[7] In order to borrow funds under the HBCU Program, the participating HBCU must permit the use of revenue from grants and contracts via administrative offset if the pledged revenues are insufficient to pay debt service.[8] The USDOE may hold other federal funds, including grants and contracts owed to the HBCU, and apply those federal funds to debt service for the HBCU Program loan.[9]

State University Revenue Bonds and Debt

The Board of Governors (BOG), each state university, and any state university direct-support organization must comply with the provisions of law in order to issue or enter into agreements

[2] U.S. Department of Education, *Historically Black College and University Capital Financing Program, Purpose*, https://www2.ed.gov/programs/hbcucapfinance/index.html (last visited Feb. 5, 2018).

[7] 31 C.F.R. 901.3. "Administrative offset" means withholding funds payable by the United States (including funds payable by the United States on behalf of a State government) to, or held by the United States for, a person to satisfy a claim. 31 U.S.C., s. 3701.
[8] Telephone interview, Board of Governors (Feb. 2, 2018).
[9] *Id.*

for the issuance of revenue bonds or debt.[10] The law authorizes the BOG to request the issuance of revenue bonds[11] to finance or refinance capital outlay projects[12] permitted by law.[13] Revenue bonds may not be secured by or be payable from, directly or indirectly, the following sources:[14]

- Tuition;
- The financial aid fee;
- Sales and services of educational departments;
- Revenues from grants and contracts, except for money received for overhead and indirect costs and other moneys not required for the payment of direct costs; or
- Any other operating revenues of a state university.

The issuance of debt must be approved by the BOG and must be:[15]

- For a purpose consistent with the mission of the state university.
- Structured in a manner appropriate for the prudent financial management of the state university.
- Secured by revenues adequate to provide for all payments relating to the debt.
- Analyzed by the Division of Bond Finance,[16] and issues raised by such analysis must be appropriately considered by the BOG.
- Consistent with the requirements of any policies or criteria adopted by the BOG for the approval of debt.[17]

III. Effect of Proposed Changes:

The bill modifies restrictions on debt payments sources for state universities by authorizing them to use federal grant and contract funds to secure revenue bonds but only as required for an institution to participate in the Historically Black College and University Capital Financing Program (HBCU Program).

---

[10] Section 1010.62(8), F.S.
[11] Revenue bonds may be issued by the state or its agencies without a vote of the electors to finance or refinance the cost of state fixed capital outlay projects authorized by law, and purposes incidental thereto, and shall be payable solely from funds derived directly from sources other than state tax revenues. Art. VII, s. 11(d), Fla. Const.
[12] A capital outlay project is any project to acquire, construct, improve, or change the functional use of land, buildings, and other facilities, including furniture and equipment necessary to operate a new or improved building or facility. Section 1010.62(1)(b), F.S.
[13] Section 1010.62(2)(a), F.S.
[14] *Id.*
[15] *Id.* at (3)(b).
[16] The duties of the Division of Bond Finance within the State Board of Administration include the issuance of bonds for or on behalf of State agencies and providing technical assistance on new financing programs.
[17] The Board of Governors *Debt Management Guidelines* confirm that the state universities and their direct-support organizations must engage in sound debt management practices and, to that end, the Board of Governors has formalized guiding principles for the issuance of debt by the state universities and their DSOs, Board of Governors, *Debt Management Guidelines* (June 17, 2016), *available at* http://www.flbog.edu/documents_regulations/guidelines/REVISED%20FAC%207%202%20Debt%20Management%20Guidelines%202016%20-%20DRAFT.pdf, at 1.

By permitting FAMU to pledge revenue from federal grants and contracts for the repayment of revenue bonds, the bill allows Florida Agricultural and Mechanical University (FAMU), as the only public historically black college and university (HBCU) in the state, to become eligible to participate in the HBCU Program. This authorization aligns with the federal requirements regarding collection by administrative offset.

The bill does not change the prohibition on the use of state funds to pay debt service on revenue bonds. Additionally, the bill does not change the requirement for analysis by the Division of Bond Finance and approval by the Board of Governors for the issuance of debt. [18]

The bill takes effect July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The bill may provide FAMU access to competitive financing through the HBCU Program, which may result in interest rate savings for FAMU. The benefits may be extended to refinancing existing revenue bonds and for loans under the HBCU Program for future capital outlay projects.

The Board of Governors reports that, in 2016, Florida Agricultural and Mechanical University (FAMU) had researched refinancing its existing housing revenue bonds, which at the time totaled $80 million.[19] Projections at that time estimated that FAMU

[20] *Id.*

By Senator Montford

3-01149A-18 20181712__

A bill to be entitled

An act relating to postsecondary revenue bonds and debt; amending s. 1010.62, F.S.; authorizing state universities to use specified moneys to pay debt service on revenue bonds if required by a specified federal program; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (a) of subsection (2) of section 1010.62, Florida Statutes, is amended to read:

1010.62 Revenue bonds and debt.—

(2)(a) The Board of Governors may request the issuance of revenue bonds pursuant to the State Bond Act and s. 11(d), Art. VII of the State Constitution to finance or refinance capital outlay projects permitted by law. Revenue bonds may be secured by or payable only from those revenues authorized for such purpose, including the Capital Improvement Trust Fund fee, the building fee, the health fee, the transportation access fee, hospital revenues, or those revenues derived from or received in relation to sales and services of auxiliary enterprises or component units of the university, including, but not limited to, housing, transportation, health care, research or research-related activities, food service, retail sales, athletic activities, or other similar services, other revenues attributable to the projects to be financed or refinanced, any other revenue approved by the Legislature for facilities construction or for securing revenue bonds issued pursuant to s. 11(d), Art. VII of the State Constitution, or any other revenues

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

3-01149A-18 20181712__

permitted by law. Revenues from the activity and service fee and the athletic fee may be used to pay and secure revenue bonds except that the annual debt service shall not exceed an amount equal to 5 percent of the fees collected during the most recent 12 consecutive months for which collection information is available prior to the sale of the bonds. The assets of a university foundation and the earnings thereon may also be used to pay and secure revenue bonds of the university or its direct-support organizations. Revenues from royalties and licensing fees may also be used to pay and secure revenue bonds so long as the facilities being financed are functionally related to the university operation or direct-support organization reporting such royalties and licensing fees. Revenue bonds may not be secured by or be payable from, directly or indirectly, tuition, the financial aid fee, sales and services of educational departments, revenues from grants and contracts, except for money received for overhead and indirect costs and other moneys not required for the payment of direct costs, or any other operating revenues of a state university. However, moneys due to the state university from the federal government for the payment of grants and contracts may be used to pay debt service on revenue bonds only as required through the United States Department of Education's Historically Black College and University Capital Financing Program. Revenues from one auxiliary enterprise may not be used to secure revenue bonds of another unless the Board of Governors, after review and analysis, determines that the facilities being financed are functionally related to the auxiliary enterprise revenues being used to secure such revenue bonds.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Section 2. This act shall take effect July 1, 2018.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 1804
INTRODUCER:	Appropriations Committee; Education Committee; and Senator Stargel
SUBJECT:	School District Accountability
DATE:	February 28, 2018 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Olenick, Bouck	Graf	ED	**Fav/CS**
2.	Sikes	Hansen	AP	**Fav/CS**
3.			RC	

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1804 increases fiscal accountability and expands fiscal transparency requirements for district school boards. Specifically, the bill:

- Increases fiscal accountability requirements by:
  - Adding to the Auditor General's (AG's) duties, the requirement to contact each district school board with findings and recommendations contained within the AG's previous operational audit report; and specifying compliance requirements for the district school boards.
  - Requiring the Department of Education's (DOE's) Inspector General to investigate allegations and reports of possible fraud or abuse against a district school board made by specified entities.
  - Requiring school districts receiving annual federal, state, and local funds in excess of $500 million to employ an internal auditor.
- Expands fiscal transparency by:
  - Requiring district school boards to provide a full explanation of any budget amendments at the boards' next scheduled public meeting.
  - Modifying the information that each district school board must post on its website to add graphical representations, for each public school within the district and for the school district, of summary financial efficiency data and 3-year fiscal trend information.
  - Specifying additional information that each school district must report to the DOE including the total operating costs and expenditures for classroom instruction.

- Requiring the DOE to calculate specified expenditure information for each public school, school district, and the state; and develop a web-based fiscal transparency tool that identifies public schools and districts that produce high academic achievement based on the ratio of classroom instruction expenditures to total expenditures.
- Requiring the DOE to contract with an independent third party to conduct an investigation of all accounts and records when the conditions of a financial emergency exist.
- Requiring the withholding of each district school board member's and district school superintendent's salary, with some exceptions, if any of the conditions of a financial emergency exist, until such conditions are corrected.
- Requires prior approval by the district school board for reimbursement of out-of-district travel expenses that exceed $500, and requires a detailed itemized list of all anticipated travel expenses for any travel outside the state.

Additionally, the bill applies the restriction on lobbying for 2 years after vacating office to appointed school district superintendents, which currently applies to locally elected school district officers; and prohibits a district superintendent from appointing or employing a relative to work under his or her direct supervision.

The bill appropriates $850,000 in nonrecurring funds from the General Revenue Fund to the DOE to implement this act.

The bill takes effect July 1, 2018.

II. Present Situation:

The present situation for the relevant portions of the bill is discussed in the Effect of Proposed Changes section of this bill analysis.

III. Effect of Proposed Changes:

Florida law specifies audit and oversight requirements for district school boards.

Fiscal Accountability

Auditor General (Sections 1 and 9)

Present Situation

The Auditor General (AG) or a Certified Public Accountant (CPA) is required to perform annual financial audits of district school boards.[1] If the AG does not perform a financial audit of a district school board, the school board must have a financial audit completed within nine months of its fiscal year end by an independent CPA.[2] The scope of financial audits includes an examination of the financial statements, the issuance of a report on compliance and internal

[1] State of Florida Auditor General, *Summary of Significant Findings and Financial Trends Identified in District School Board Audit Reports for the Fiscal Year Ended June 30, 2016,*(June, 2016), at 1, *available at* https://flauditor.gov/pages/pdf_files/2018-030.pdf. Section 11.45(2), F.S. and s. 218.39(1), F.S.
[2] Section 218.39(1), F.S.

control in accordance with generally accepted government auditing standards, and the issuance of a report on compliance and internal control for each major Federal program.[3]

The AG also conducts operational audits of district school boards in accordance with Government Auditing Standards at least every 3 years.[4] Operational audits must include an evaluation of management's performance in establishing and maintaining internal controls, including controls designed to prevent and detect fraud, waste, and abuse, and in administering assigned responsibilities.[5]

The AG is required to report material weaknesses in internal control and significant control deficiencies that are disclosed during the course of a financial audit.[6] A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the financial statements would not be prevented or detected and corrected on a timely basis.[7] A significant deficiency is a deficiency, or a combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention.[8] The AG must report material noncompliance or abuse that has a material effect on a financial statement audit.[9]

The AG must annually compile and transmit a summary of significant findings and financial trends to the Senate President, the Speaker of the House of Representatives, and the Legislative Auditing Committee (LAC).[10] If an audit contains any significant findings, district school boards must conduct an audit overview during a public meeting.[11]

The AG has authority to perform follow-up procedures necessary to determine a district school board's progress in addressing the findings and recommendations in the previous audit report.[12] The AG must also notify the LAC of any financial or operational audit report that indicates that a district school board failed to take full corrective action in response to a finding included in the two preceding financial or operational audits.[13]

Upon notification, the LAC may direct a school board to provide a written statement explaining the reason the school board failed to take corrective action or, if the school board intends to take full corrective action, describing the corrective action and state when it will occur.[14] If the LAC determines that the written statement is not sufficient, it may require the chair of the school

board to appear before the committee.[15] The LAC must refer the matter to the State Board of Education (state board) to proceed in accordance with its oversight enforcement authority if it determines that the school board has failed to take full corrective action for which there is no justifiable reason or has failed to comply with the LAC requests.[16]

Effect of Proposed Changes

Section 1 amends s. 11.45, F.S., to add to the AG's duties, the requirement for the AG to contact each district school board with findings and recommendations contained within the AG's previous operational audit report. Additionally, this section:

- Requires the district school board to provide the Auditor General with evidence of the initiation of corrective action within 45 days after the date it is requested by the AG and evidence of completion of corrective action within 180 days after the date it is requested by the AG.
- Specifies that if the district school board fails to comply with the AG's request or is unable to take corrective action within the required timeframe, the AG must notify the LAC.

Section 9 amends s. 1010.30, F.S., to specify that, if an AG audit contains a significant deficiency or material weakness, the district school board, the Florida College System institution board of trustees, or the university board of trustees, as applicable, must conduct an audit overview during a public meeting. The audit overview must describe the corrective action to be taken and a timeline for the completion of the corrective action.

Inspector General (Section 4)

Present Situation

Each state agency, including the DOE, is required to have an Inspector General (IG)[17] to provide a central point for the coordination of activities that promote accountability, integrity, and efficiency in government.[18] The Office of the Chief Inspector General (CIG), within the Executive Office of the Governor,[19] monitors the activities of the agency inspectors general under the Governor's jurisdiction.[20]

The DOE's IG is responsible for promoting accountability, efficiency, and effectiveness and detecting fraud and abuse within school districts.[21] If the commissioner determines that the district school board is unwilling or unable to address substantiated allegations made by any person relating to waste, fraud, or financial mismanagement, the office must conduct, coordinate, or request investigations into such substantiated allegations.[22]

[20] *Id*.
[21] Section 1001.20(4)(e), F.S.
[22] Section 1001.20(4)(e), F.S.

Effect of Proposed Changes

Section 4 amends s. 1001.20, F.S., to require the DOE's IG to investigate allegations and reports of possible fraud or abuse against a district school board made by:

- Any member of the Cabinet;
- Any presiding officer of the Senate or the House;
- A chair of a substantive or appropriations committee with appropriate jurisdiction; or
- A member of the board for which investigation is sought.

Internal Auditor (Section 7)

Present Situation

District school boards may employ an internal auditor to perform ongoing financial verification of the financial records of the school district.[23] The internal auditor must report directly to the district school board or its designee.[24]

Bay, Brevard, Broward, Clay, Duval, Escambia, Hillsborough, Lake, Lee, Leon, Marion, Martin, Miami Dade, Orange, Palm Beach, Pasco, Pinellas, and Polk district school boards employ internal auditors.[25]

On February 2, 2014, as part of its presentation to the LAC, the AG's office recommended that school districts of a specified size employ internal auditors to periodically report on the effectiveness of budgetary control procedures.[26]

Effect of Proposed Changes

Section 7 amends s. 1001.42, F.S, to require school districts receiving annual federal, state, and local funds in excess of $500 million to employ an internal auditor. The scope of the internal auditor must not be restricted and must include every functional and program area of the school system.

Additionally, this section requires the internal auditor to perform a comprehensive risk assessment of all areas of the school system every 5 years, and conduct other audits and reviews as the district school board directs to determine:

- The adequacy of internal controls designed to prevent and detect fraud, waste, and abuse.
- Compliance with applicable laws, rules, contracts, grant agreements, district school board-approved policies, and best practices.
- The efficiency of operations.
- The reliability of financial records and reports.
- The safeguarding of assets.
- Financial solvency.
- Projected revenues and expenditures.

- The rate of change in the general fund balance.

This section requires the internal auditor to prepare audit reports of his or her findings and establishes penalties for failure to produce financial records to the internal auditor.[27]

Cost Accounting and Reporting (Section 8)

Present Situation

Each school district must account for expenditures of all state, local, and federal funds on a school-by-school and a district-aggregate basis in accordance with the manual developed by the DOE or as provided by law.[28] Each district must report on a district-aggregate basis expenditures for inservice training and categorical programs; and on a school-by school basis and aggregate district basis for each program funded by the state for the operation of schools.[29] The commissioner must present to the Legislature a district-by-district report of the expenditures reported.[30]

Each district must expend at least the percent of the funds generated by each of the programs listed on the aggregate total school costs for such programs, as follows:[31]

- Ninety percent for kindergarten and grades 1, 2, and 3.
- Eighty percent for grades 4, 5, 6, 7, and 8.
- Eighty percent for grades 9, 10, 11, and 12.
- Ninety percent for programs for exceptional students, on an aggregate program basis.
- Eighty percent for grades 7 through 12 career education programs, on an aggregate program basis.
- Eighty percent for students-at-risk programs, on an aggregate program basis.
- Ninety percent for juvenile justice programs, on an aggregate program basis.

Effect of Proposed Changes

Section 8 amends s. 1010.20, F.S., to modify the expenditure reporting requirements for the school districts to specify that such expenditures must be reported to the DOE and must include total operating costs and expenditures for instruction and instructional support services.

This section requires the DOE to:

- Categorize all public schools and districts into appropriate groups based primarily on average full-time equivalent (FTE) student enrollment as reported on the most recent student membership survey and in the state board rule to determine groups of peer schools and districts.
- Annually calculate the percentage of classroom expenditures to total operating cost expenditures for *each* public school, district, and for the entire state.

[27] Section 11.47(3), F.S. Any person who willfully fails or refuses to furnish or produce any book, record, paper, document, data, or sufficient information necessary to a proper audit or examination which the Auditor General or the Office of Program Policy Analysis and Government Accountability is by law authorized to perform is guilty of a misdemeanor of the first degree. Section 11.47(4), F.S.
[28] Section 1010.20(1), F.S.
[29] *Id* at (2)(a)-(b).
[30] *Id.* at (2)(c), F.S.
[31] Section 1010.20(1)-(3), F.S.

- Annually calculate the *average* percentage of classroom expenditures to total operating cost and expenditures for *all* public schools, districts, and the state.
- Develop a web-based fiscal transparency tool that identifies public schools and districts that produce high academic achievement based on the ratio of classroom instruction expenditures to total expenditures. The fiscal transparency tool must combine this financial data with the student performance measurements calculated as part of Florida's value-added models[32] to determine the financial efficiency of each public school and district. The results must be displayed in an easy-to-use format that enables the user to compare performance among public schools and districts.

Fiscal Transparency

School districts are required to account for expenditures for all state, local, and federal funds on a school-by-school and a district aggregate basis.[33]

District School Board Budget Transparency (Sections 7, 12, and 14)

Present Situation

Each district school board must prepare, adopt, and submit an annual operating budget to the commissioner.[34] Estimated expenditures in a school district's tentative budget cannot exceed estimated income.[35] District expenditures must be limited to amount budgeted under the classification of accounts provided for each fund and to the total amount of the budget after the same have been amended as prescribed by law and rules of the state board.[36] However, a district school board may establish policies that allow expenditures to exceed the amount budgeted by function and object, provided that the district school board approves the expenditure and amends the budget within timelines established by school board policies.[37]

Each district school board must post on its website a plain language version of each proposed, tentative, and official budget that describes each budget item in terms that are easily understandable to the public.[38] This information must be prominently posted on the school district's website in a manner that is readily accessible to the public.[39]

Effect of Proposed Changes

Section 14 amends s. 1011.06, F.S., to require district school boards to approve budget amendments at the district school board's next scheduled public meeting. The district school board must provide a full explanation of the budget amendments at the public meeting.

---

[32] Florida's value-added models are used to measure the contribution of a teacher or school to student learning growth. Florida Department of Education, *Florida's Value Added Models (VAM) Frequently Asked Questions*, available at http://www.fldoe.org/teaching/performance-evaluation/.
[33] Section 1010.20(1), F.S.
[34] Section 1011.01(3)(a), F.S.
[35] Section 1011.02(4), F.S.
[36] Section 1011.06(1), F.S.
[37] *Id.* at (2).
[38] Section 1011.035(2), F.S.
[39] *Id.*

Section 12 amends s. 1011.035, F.S., to expand the information that each district school board must prominently post on its website to add graphical representations, for each public school within the district and for the school district, of the following:

- Summary of financial efficiency data.
- Three-year fiscal trend information on:
  - The ratio of FTE students to FTE instructional personnel.
  - The ratio of FTE students to FTE administrative personnel.
  - The total operating expenditures per FTE student.
  - The total instructional expenditures per FTE student.
  - The general administrative expenditures as a percentage of total budget.
  - The rate of change in the general fund's ending fund balance not classified as restricted.

Section 7 amends s. 1001.42, F.S., to authorizes an individual school board member to request and receive proposed, tentative, and official budget documents, including all supporting and background information.

General Funds Guidelines (Section 13 and 15)

Present Situation

The district school board must maintain a general fund ending fund balance that is sufficient to address normal contingencies.[40] If at any time the portion of the general fund's ending fund balance not classified as restricted, committed, or nonspendable in the district's approved operating budget is projected to fall below 3 percent of projected general fund revenues during the current fiscal year, the district school superintendent must provide written notification to the district school board and the Commissioner of Education.[41]

Effect of Proposed Changes

Section 13 amends s. 1011.051, F.S., to require the superintendent of a district school board that has an ending fund balance that falls below the 3 percent threshold for 2 consecutive years to reduce the district school board's administrative expenditures in proportion to the reduction in the general fund's ending balance or the reduction in student enrollment, whichever is greater. Section 15 amends s. 1011.09, F.S., to prohibit any district school board with an ending fund balance below the 3 percent threshold from making expenditures for travel outside of the district and other expenses enumerated in law, while the financial conditions exist.

Financial Emergency (Section 13 and 16)

Present Situation

District school boards are subject to review and oversight by the commissioner when the district is unable to timely pay current debts and liabilities.[42] A district school board is in a state of financial emergency when the district is unable to timely pay current debts and liabilities and

[40] Section 1011.051, F.S.
[41] *Id.* at (1).
[42] Section 218.503(1), F.S.

state assistance is needed for corrective action.[43] While in a state of financial emergency, the Governor or the commissioner may implement measures which:[44]

- Require commissioner approval of the district school board's budget;
- Prohibit a district school board from issuing debt;
- Require inspections and reviews of district school board records, reports and information;
- Establish a financial emergency board to oversee the activities of the district school board; and
- Require a plan of action that will cause the district school board to no longer be in a financial emergency.

Effect of Proposed Changes

Section 13 amends s. 1011.051, F.S, to require the DOE to contract with an independent third party to conduct an investigation of all accounts and records when the conditions of a financial emergency exist within a school district. The investigation must examine all accounts and records to determine the cause of the deficit, what efforts, if any, were made to avoid the deficit, and whether any of the conditions for malfeasance or misfeasance, as specified in law,[45] have occurred. The investigation must include a detailed review and analysis of documents and records, including, but not limited to, budget reports, journal entries, budget methodologies, staff e-mails, hard copy records, monthly financial statements, quarterly revenue and expenditure reports, finance staff job descriptions, and minutes from meetings. The results of the investigation must include recommendations for corrective action and controls to avoid a reoccurrence of a future budget shortfall. A final report must be provided to the district school board, the department, the Legislative Auditing Committee, and the district's financial emergency board, if applicable.

Section 16 amends s. 1011.10, F.S., to require the withholding of each district school board member's and district school superintendent's salaries if any of the financial emergency conditions specified in law exist, until such conditions are corrected. However, the salary withholding provision do not apply to a district school board member or district superintendent elected or appointed within 1 year after the identification of the financial emergency conditions if he or she did not participate in the approval or preparation of the final school district budget adopted before the identification of such conditions.

School District Minimum Classroom Expenditure Requirements (Section 18)

Present Situation

The Legislature may require any school district that fails to meet minimum academic performance standards to increase emphasis on classroom instruction activities from operating

[43] *Id.* at (1) and (3).
[44] *Id.* at (3)(a)-(h)1.
[45] Section 1011.10, F.S. Each member of any district school board voting to incur an indebtedness against the district school funds in excess of the expenditure allowed by law, or in excess of any appropriation as adopted in the original official budget or amendments thereto, or to approve or pay any illegal charge against the funds, and any chair of a district school board or district school superintendent who signs a warrant for payment of any such claim or bill of indebtedness against any of the funds shall be personally liable for the amount, and shall be guilty of malfeasance in office and subject to removal by the Governor.

funds, including, but not limited to, those provided for the operation of schools.[46] In determining the classroom expenditure requirement, the DOE is required to calculate the total K-12 operating and classroom instruction expenditures for each district and the percentage of classroom expenditures to total operating expenditures for each district and the state.[47] School districts required to increase emphasis on classroom activities must submit a final report to the DOE explaining proposed budget actions and the district's level of compliance with spending requirements.[48]

Effect of Proposed Changes

Section 18 repeals s. 1011.64, F.S., regarding school district minimum classroom expenditure requirements. However, sections 8 and 12 require school districts to report additional classroom expenditures information.

Sections 10, 11, and 17 making conforming and cross-reference changes to correspond to the repeal of s. 1011.64, F.S.

Ethical and Other Fiscal Issues

Lobbying (Section 2)

Present Situation

A person who has been elected to any county, municipal, special district, or school district office may not personally represent another person or entity for compensation before the government body or agency of which the person was an officer for a period of 2 years after vacating that office.[49]

Effect of Proposed Changes

Section 2 amends s. 112.313, F.S., to apply the restriction on lobbying for 2 years after vacating office to appointed school district superintendents,[50] which currently applies to locally elected school district officers.

District School Board Member Salary (Section 6)

Present Situation

Each member of the district school board must receive a base salary based on the population of the county the district school board member serves, as specified in law.[51] In addition, compensation must be made for population increments over the minimum for each population

[46] Section 1011.64(1), F.S.
[47] *Id.* at 3(b)1.
[48] *Id.* at (4).
[49] Section 112.313(14), F.S.
[50] Currently, there are 26 appointed district school superintendents and 41 elected district school superintendents. Florida Department of Education, *Florida Public School Superintendents*, http://www.fldoe.org/accountability/data-sys/school-dis-data/superintendents.stml (last visited Feb. 18, 2018).
[51] Section 1001.395(1), F.S.

group, which shall be determined by multiplying the population in excess of the minimum for the group times the group rate.[52]

Effect of Proposed Changes

Section 6 amends s. 1001.395, F.S., to align school board member salaries with the beginning teacher salaries or the amount calculated by statute, whichever is less. In fiscal year 2016-17, the average salary for district school board member exceeded the beginning average salary for teachers in the following 12 of the 67 school districts in the state: Alachua ($782), Broward ($739), Dade ($850), Duval ($1,810), Hillsborough ($3,554), Lee ($1,525), Leon ($434), Marion ($528), Orange ($1,091), Palm Beach ($747), Pinellas ($544), and Volusia ($416).[53]

District School Board Member Travel Expenses (Section 5)

Present Situation

Each district school board member is reimbursed for authorized travel expenses. Any travel outside the district must also be governed by the rules of the state board.[54]

Effect of Proposed Changes

Section 5 amends s. 1001.39, F.S., to require prior approval by the district school board for reimbursement of out-of-district travel expenses that exceed $500. The district school board must confirm that such travel is for official business of the school district and complies with the rules of the state board.

This section also requires the district school board to include a detailed itemized list of all anticipated travel expenses for any request for travel outside the state. The public must be provided an opportunity to speak on the specific travel agenda item.

Financial Disclosure Fines (Section 3)

Present Situation

The Commission on Ethics (COE) determines whether a person owing a public financial disclosure fine is a public officer or public employee.[55] If the COE determines that the person is a current public officer or public employee, the commission may notify the Chief Financial Officer or governing body of the amount owed.[56]

Effect of Proposed Changes

Section 3 amends s. 112.31455, F.S., to:

- Add district school boards to the entities whom the COE may contact regarding owed fines.
- Require district school boards to withhold a specified amount of funding from employee salaries for fines for failure to timely file disclosure of financial interest.

[52] *Id*.
[53] Email, Florida Department of Education (Feb. 19, 2018).
[54] Section 1001.39, F.S.
[55] Sections 112.3144(5) and (7), and 112.3145(7), F.S.
[56] Section 112.31455(1), F.S.

- Authorize district school boards to retain a portion of the withheld funds to cover administrative costs.

School District Personnel Policies (Section 19)

Present Situation

Except as otherwise provided by law or the State Constitution, district school boards may adopt rules governing personnel matters, including the assignment of duties and responsibilities for all district employees.[57] However, a district school board member may not employ or appoint a relative to work under the direct supervision of the district school board member.[58]

Effect of Proposed Changes

Section 19 amends a. 1012.23, F.S., to specify that a district superintendent is prohibited from appointing or employing a relative, as specified in law, to work under his or her direct supervision. This section clarifies that this prohibition does not apply to employees appointed or employed before the election or appointment of a school board member or district school superintendent. The COE must accept and investigate any alleged violations of the prohibition against appointing or employing a relative.

Standards of Ethical Conduct (Section 7)

Present Situation

District school boards are required to adopt policies establishing standards of ethical conduct for instructional personnel and school administrators.[59] The policies must require all instructional personnel and school administrators to complete specific training, establish the duty of instructional personnel and school administrators to report, and procedures for reporting misconduct that affects the health, safety, or welfare of a student.[60] Current law prohibits district school boards, instructors, and administrators from entering into confidentiality agreements regarding termination, dismissal, or resignation based on specified misconduct.[61] District school boards are prohibited from providing employment references or discussing the performance of instructors or administrators with prospective employers in another educational setting without disclosing misconduct.[62] Any part of an agreement that conceals instructor or administrator misconduct is void.[63]

Effect of Proposed Changes

Section 7 amends s. 1001.42, F.S., to extend the standards of ethical conduct to apply to administrative personnel and school officers. This section clarifies that such personnel and

officers are subject to ethics standards, including training, reporting procedures, reference requirements and contract requirements.

The bill takes effect July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. Other Constitutional Issues:

Section 16 requires the salaries of school board members and the superintendent to be withheld if any of the conditions specified in s. 218.503(1), F.S. exists. The salary suspension continues until these conditions are corrected. The conditions specified in s. 218.503(1), F.S., are:

- Failure pay a short term loan or failure to make a bond debt service payment or other long-term debt payment during the fiscal year the payment is due, as a result of a lack of funds;
- Failure to pay uncontested claims from creditors within 90 days after the claim is presented, as a result of a lack of funds;
- Failure to transfer at the appropriate time, due to a lack of funds:
  - Taxes withheld on the income of employees or
  - Employer and employee contributions for social security or any retirement or benefit plan of an employee.
- Failure for one pay period to pay, due to lack of funds.

As constitutional officers, the school board members and the superintendent have legal rights to receive salary as long as they hold those offices and perform the requisite duties.[64, 65]

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

[64] Section 111.045, F.S.
[65] *see Flack v. Graham*, 453 So. 2d 819 (Fla. 1984).

B. Private Sector Impact:

None.

C. Government Sector Impact:

The bill appropriates $850,000 in nonrecurring funds from the General Revenue Fund to the Department of Education (DOE) to implement this act. According to the DOE, the state costs of implementing the bill will require approximately $250,000 in additional nonrecurring funds above the appropriation in the bill, and $300,000 in additional recurring funds. Furthermore, the fiscal transparency provisions of the bill may impose significant costs to the school districts.[66]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 11.45, 112.313, 112.31455, 1001.20, 1001.39, 1001.395, 1001.42, 1010.20, 1010.30, 1011.01, 1011.03, 1011.035, 1011.051, 1011.06, 1011.09, 1011.10, 1011.60, and 1012.23.

This bill repeals section 1011.64 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on February 27, 2018:
The committee substitute specifies that the scope of the internal auditor must not be restricted and must include every functional and program area of the school system.

CS by Education on February 20, 2018:
The committee substitute maintains the substance of the bill with modifications to*:*

- Fiscal accountability requirements by:
  - Adding to the Auditor General's (AG's) duties, the requirement for the AG to contact each district school board with findings and recommendations contained within the AG's previous operational audit report; and specifies compliance requirements for the district school boards.

[66] Email, Florida Department of Education (Feb 22, 2018).

- Requiring the Department of Education to contract with an independent third party to conduct an investigation, which must include specified review and analysis of documents and records.

- Fiscal transparency requirements by:
  - Authorizing an individual school board member to request proposed, tentative, and official budget documents, including all supporting and background information; and requiring such documents to be provided to such board member.
  - Providing that the salary withholding provision does not apply to a district school board member or district superintendent elected or appointed within 1 year after the identification of the specified financial conditions if he or she did not participate in the approval or preparation of the final school district budget adopted before the identification of such conditions.
  - Specifying prior approval by the district school board for reimbursement of out-of-district travel expenses that exceed $500; and requiring a detailed itemized list of all anticipated travel expenses for any travel outside the state and additionally, requiring the public to be provided an opportunity to speak on the specific travel agenda item.
- Appropriates $850,000 in nonrecurring funds from the General Revenue Fund to the DOE to implement this act.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

relating to the scope of such internal auditors;

By the Committee on Education; and Senator Stargel

581-03448-18 20181804c1

A bill to be entitled

An act relating to school district accountability; amending s. 11.45, F.S.; revising the duties of the Auditor General; amending s. 112.313, F.S.; prohibiting former appointed district school superintendents from conducting certain lobbying activities; amending s. 112.31455, F.S.; requiring the governing body of a district school board to be notified if an officer or employee of the body owes a certain fine; requiring the governing body of a district school board to take specified actions under such circumstances; amending s. 1001.20, F.S.; requiring the Office of Inspector General to investigate certain allegations and reports made by specified individuals; amending s. 1001.39, F.S.; requiring certain district school board member travel outside of the school district to be preapproved and meet certain criteria; providing requirements for a school board member's request for travel outside of the state; providing an opportunity for the public to speak on such travel; amending s. 1001.395, F.S.; providing that certain requirements for the salaries of district school board members apply every fiscal year, rather than one specific fiscal year; amending s. 1001.42, F.S.; providing that the standards of ethical conduct apply to administrative personnel and school officers; authorizing district school board members to request and receive specified budget information; requiring employment of internal auditors

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

581-03448-18 20181804c1

in certain school districts; revising provisions relating to the duties of such internal auditors; amending s. 1010.20, F.S.; requiring each school district to report certain expenditures to the Department of Education; providing department responsibilities; amending s. 1010.30, F.S.; requiring certain entities to provide an audit overview under certain circumstances; providing the contents of the overview; amending ss. 1011.01 and 1011.03, F.S.; conforming cross-references; amending s. 1011.035, F.S.; requiring each district school board to post on its website certain graphical representations and a link to a certain web-based tool on the department's website; providing requirements for such graphical representations; amending s. 1011.051, F.S.; requiring a district school board to limit certain expenditures by a specified amount if certain financial conditions exist for a specified period of time; requiring the department to contract with a third party to conduct an investigation under certain circumstances; providing requirements for such investigation; requiring the results of such investigation to include certain information and be provided to certain entities; amending s. 1011.06, F.S.; requiring each district school board to approve certain expenditures by amending its budget and provide a public explanation for such budget amendments; amending s. 1011.09, F.S.; providing certain expenditure limitations for a school district that meets specified

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

criteria; amending s. 1011.10, F.S.; requiring certain school districts to withhold certain district school board member and school district superintendent salaries until certain conditions are met; amending s. 1011.60, F.S.; conforming cross-references; repealing s. 1011.64, F.S., relating to school district minimum classroom expenditure requirements; amending s. 1012.23, F.S.; prohibiting a school district superintendent and district school board from appointing or employing certain individuals in certain positions; providing an exception; requiring the Commission on Ethics to investigate alleged violations; amending s. 1002.395, F.S.; conforming a cross-reference; providing a contingent appropriation; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (k) of subsection (2) of section 11.45, Florida Statutes, is redesignated as paragraph (l), and a new paragraph (k) is added to that subsection, to read:

11.45 Definitions; duties; authorities; reports; rules.—

(2) DUTIES.—The Auditor General shall:

(k) Contact each district school board, as defined in s. 1003.01(1), with the findings and recommendations contained within the Auditor General's previous operational audit report. The district school board shall provide the Auditor General with evidence of the initiation of corrective action within 45 days after the date it is requested by the Auditor General and

evidence of completion of corrective action within 180 days after the date it is requested by the Auditor General. If the district school board fails to comply with the Auditor General's request or is unable to take corrective action within the required timeframe, the Auditor General shall notify the Legislative Auditing Committee.

The Auditor General shall perform his or her duties independently but under the general policies established by the Legislative Auditing Committee. This subsection does not limit the Auditor General's discretionary authority to conduct other audits or engagements of governmental entities as authorized in subsection (3).

Section 2. Subsection (14) of section 112.313, Florida Statutes, is amended to read:

112.313 Standards of conduct for public officers, employees of agencies, and local government attorneys.—

(14) LOBBYING BY FORMER LOCAL OFFICERS; PROHIBITION.—A person who has been elected to any county, municipal, special district, or school district office or appointed superintendent of a school district may not personally represent another person or entity for compensation before the government body or agency of which the person was an officer for a period of 2 years after vacating that office. For purposes of this subsection:

(a) The "government body or agency" of a member of a board of county commissioners consists of the commission, the chief administrative officer or employee of the county, and their immediate support staff.

(b) The "government body or agency" of any other county

elected officer is the office or department headed by that officer, including all subordinate employees.

(c) The "government body or agency" of an elected municipal officer consists of the governing body of the municipality, the chief administrative officer or employee of the municipality, and their immediate support staff.

(d) The "government body or agency" of an elected special district officer is the special district.

(e) The "government body or agency" of an elected school district officer is the school district.

Section 3. Subsection (1) of section 112.31455, Florida Statutes, is amended to read:

112.31455 Collection methods for unpaid automatic fines for failure to timely file disclosure of financial interests.—

(1) Before referring any unpaid fine accrued pursuant to s. 112.3144(5) or s. 112.3145(7) to the Department of Financial Services, the commission shall attempt to determine whether the individual owing such a fine is a current public officer or current public employee. If so, the commission may notify the Chief Financial Officer or the governing body of the appropriate county, municipality, district school board, or special district of the total amount of any fine owed to the commission by such individual.

(a) After receipt and verification of the notice from the commission, the Chief Financial Officer or the governing body of the county, municipality, district school board, or special district shall begin withholding the lesser of 10 percent or the maximum amount allowed under federal law from any salary-related payment. The withheld payments shall be remitted to the

commission until the fine is satisfied.

(b) The Chief Financial Officer or the governing body of the county, municipality, district school board, or special district may retain an amount of each withheld payment, as provided in s. 77.0305, to cover the administrative costs incurred under this section.

Section 4. Paragraph (e) of subsection (4) of section 1001.20, Florida Statutes, is amended to read:

1001.20 Department under direction of state board.—

(4) The Department of Education shall establish the following offices within the Office of the Commissioner of Education which shall coordinate their activities with all other divisions and offices:

(e) *Office of Inspector General.*—Organized using existing resources and funds and responsible for promoting accountability, efficiency, and effectiveness and detecting fraud and abuse within school districts, the Florida School for the Deaf and the Blind, and Florida College System institutions in Florida. If the Commissioner of Education determines that a district school board, the Board of Trustees for the Florida School for the Deaf and the Blind, or a Florida College System institution board of trustees is unwilling or unable to address substantiated allegations made by any person relating to waste, fraud, or financial mismanagement within the school district, the Florida School for the Deaf and the Blind, or the Florida College System institution, the office shall conduct, coordinate, or request investigations into such substantiated allegations. The office shall investigate allegations or reports of possible fraud or abuse against a district school board made

by any member of the Cabinet; the presiding officer of either house of the Legislature; a chair of a substantive or appropriations committee with jurisdiction; or a member of the board for which an investigation is sought. The office shall have access to all information and personnel necessary to perform its duties and shall have all of its current powers, duties, and responsibilities authorized in s. 20.055.

Section 5. Subsection (1) of section 1001.39, Florida Statutes, is amended to read:

1001.39 District school board members; travel expenses.—

(1) In addition to the salary provided in s. 1001.395, each member of a district school board shall be allowed, from the district school fund, reimbursement of travel expenses as authorized in s. 112.061, ~~except as~~ provided that ~~in subsection (2).~~ any travel outside the district that exceeds $500 requires prior approval by the district school board to confirm that such travel is for official business of the school district and complies with ~~shall also be governed by the~~ rules of the State Board of Education. Any request for travel outside the state must include an itemized list detailing all anticipated travel expenses, including, but not limited to, the anticipated costs of all means of travel, lodging, and subsistence. Immediately preceding a request, the public must have an opportunity to speak on the specific travel agenda item.

Section 6. Subsection (3) of section 1001.395, Florida Statutes, is amended to read:

1001.395 District school board members; compensation.—

(3) Notwithstanding the provisions of this section and s. 145.19, ~~for the 2010-2011 fiscal year,~~ the salary of each

district school board member shall be the amount calculated pursuant to subsection (1) or the district's beginning salary for teachers who hold baccalaureate degrees, whichever is less.

Section 7. Subsections (6) and (7), paragraphs (b) and (l) of subsection (12), and paragraph (b) of subsection (17) of section 1001.42, Florida Statutes, are amended to read:

1001.42 Powers and duties of district school board.—The district school board, acting as a board, shall exercise all powers and perform all duties listed below:

(6) STANDARDS OF ETHICAL CONDUCT FOR INSTRUCTIONAL PERSONNEL, ADMINISTRATIVE PERSONNEL, AND SCHOOL OFFICERS ~~ADMINISTRATORS~~.—Adopt policies establishing standards of ethical conduct for instructional personnel, administrative personnel, and school officers ~~administrators~~. The policies must require all instructional personnel, administrative personnel, and school officers ~~administrators~~, as defined in s. 1012.01, to complete training on the standards; establish the duty of instructional personnel, administrative personnel, and school officers ~~administrators~~ to report, and procedures for reporting, alleged misconduct by other instructional or administrative personnel and school officers ~~administrators~~ which affects the health, safety, or welfare of a student; and include an explanation of the liability protections provided under ss. 39.203 and 768.095. A district school board, or any of its employees, may not enter into a confidentiality agreement regarding terminated or dismissed instructional or administrative personnel or school officers ~~administrators, or personnel or administrators~~ who resign in lieu of termination, based in whole or in part on misconduct that affects the health,

safety, or welfare of a student, and may not provide instructional personnel, administrative personnel, or school officers ~~administrators~~ with employment references or discuss the personnel's or officers' ~~administrators'~~ performance with prospective employers in another educational setting, without disclosing the personnel's or officers' ~~administrators'~~ misconduct. Any part of an agreement or contract that has the purpose or effect of concealing misconduct by instructional personnel, administrative personnel, or school officers ~~administrators~~ which affects the health, safety, or welfare of a student is void, is contrary to public policy, and may not be enforced.

(7) DISQUALIFICATION FROM EMPLOYMENT.—Disqualify instructional personnel and administrative personnel ~~school administrators~~, as defined in s. 1012.01, from employment in any position that requires direct contact with students if the personnel ~~or administrators~~ are ineligible for such employment under s. 1012.315. An elected or appointed school board official forfeits his or her salary for 1 year if:

(a) The school board official knowingly signs and transmits to any state official a report of alleged misconduct by instructional personnel or administrative personnel ~~school administrators~~ which affects the health, safety, or welfare of a student and the school board official knows the report to be false or incorrect; or

(b) The school board official knowingly fails to adopt policies that require instructional personnel and administrative personnel ~~school administrators~~ to report alleged misconduct by other instructional personnel and administrative personnel

~~school administrators~~, or that require the investigation of all reports of alleged misconduct by instructional personnel and administrative personnel ~~school administrators~~, if the misconduct affects the health, safety, or welfare of a student.

(12) FINANCE.—Take steps to assure students adequate educational facilities through the financial procedure authorized in chapters 1010 and 1011 and as prescribed below:

(b) *Annual budget.*—

1. Cause to be prepared, adopt, and have submitted to the Department of Education as required by law and rules of the State Board of Education, the annual school budget, such budget to be so prepared and executed as to promote the improvement of the district school system.

2. An individual school board member may request and shall receive any proposed, tentative, and official budget documents, including all supporting and background information.

(l) *Internal auditor.*—May or, in the case of a school district receiving annual federal, state, and local funds in excess of $500 million, shall employ an internal auditor. The duties of the internal auditor shall include oversight of every functional and program area of the school system.

1. The internal auditor shall ~~to~~ perform ongoing financial verification of the financial records of the school district, a comprehensive risk assessment of all areas of the school system every 5 years, and other audits and reviews as the district school board directs for determining:

a. The adequacy of internal controls designed to prevent and detect fraud, waste, and abuse.

b. Compliance with applicable laws, rules, contracts, grant

agreements, district school board-approved policies, and best practices.

c. The efficiency of operations.

d. The reliability of financial records and reports.

e. The safeguarding of assets.

f. Financial solvency.

g. Projected revenues and expenditures.

h. The rate of change in the general fund balance.

2. The internal auditor shall prepare audit reports of his or her findings and report directly to the district school board or its designee.

3. Any person responsible for furnishing or producing any book, record, paper, document, data, or sufficient information necessary to conduct a proper audit or examination which the internal auditor is by law authorized to perform is subject to the provisions of s. 11.47(3) and (4).

(17) PUBLIC INFORMATION AND PARENTAL INVOLVEMENT PROGRAM.—

(b) Adopt rules to strengthen family involvement and empowerment pursuant to s. 1002.23. The rules shall be developed in collaboration with administrative personnel ~~school administrators~~, parents, teachers, and community partners.

Section 8. Subsection (2) of section 1010.20, Florida Statutes, is amended to read:

1010.20 Cost accounting and reporting for school districts.—

(2) COST REPORTING.—

(a) Each district shall report on a district-aggregate basis expenditures for inservice training pursuant to s. 1011.62(3) and for categorical programs as provided in s.

1011.62(6).

(b) Each district shall report to the department on a school-by-school and on an aggregate district basis expenditures for:

1. Each program funded in s. 1011.62(1)(c).

2. Total operating costs as reported pursuant to s. 1010.215.

3. Expenditures for classroom instruction pursuant to the calculation in s. 1010.215(4)(b)1. and 2.

(c) The department shall:

1. Categorize all public schools and districts into appropriate groups based primarily on average full-time equivalent student enrollment as reported on the most recent student membership survey under s. 1011.62 and in state board rule to determine groups of peer schools and districts.

2. Annually calculate for each public school, district, and for the entire state, the percentage of classroom expenditures to total operating costs expenditures reported in subparagraphs (b)2. and 3. The results shall be categorized pursuant to this paragraph.

3. Annually calculate for all public schools, districts, and the state, the average percentage of classroom expenditures to total operating costs and expenditures reported in subparagraphs (b)2. and 3. The results shall be categorized pursuant to this paragraph.

4. Develop a web-based fiscal transparency tool that identifies public schools and districts that produce high academic achievement based on the ratio of classroom instruction expenditures to total expenditures. The fiscal transparency tool

shall combine the data calculated pursuant to this paragraph with the student performance measurements calculated pursuant to s. 1012.34(7) to determine the financial efficiency of each public school and district. The results shall be displayed in an easy-to-use format that enables the user to compare performance among public schools and districts.

(d) ~~(c)~~ The Commissioner of Education shall present to the Legislature, prior to the opening of the regular session each year, a district-by-district report of the expenditures reported pursuant to paragraphs (a) and (b). The report shall include total expenditures, a detailed analysis showing expenditures for each program, and such other data as may be useful for management of the education system. The Commissioner of Education shall also compute cost factors relative to the base student allocation for each funded program in s. 1011.62(1)(c).

Section 9. Subsection (2) of section 1010.30, Florida Statutes, is amended to read:

1010.30 Audits required.—

(2) If an audit contains a significant deficiency or material weakness ~~finding~~, the district school board, the Florida College System institution board of trustees, or the university board of trustees shall conduct an audit overview during a public meeting. The audit overview shall describe the corrective action to be taken and a timeline for completion of such action.

Section 10. Paragraph (a) of subsection (3) of section 1011.01, Florida Statutes, is amended to read:

1011.01 Budget system established.—

(3)(a) Each district school board and each Florida College

System institution board of trustees shall prepare, adopt, and submit to the Commissioner of Education an annual operating budget. Operating budgets shall be prepared and submitted in accordance with the provisions of law, rules of the State Board of Education, the General Appropriations Act, and for district school boards in accordance with the provisions of s. 200.065 ~~ss. 200.065 and 1011.64~~.

Section 11. Subsection (2) of section 1011.03, Florida Statutes, is amended to read:

1011.03 Public hearings; budget to be submitted to Department of Education.—

~~(2) The advertisement of a district that has been required by the Legislature to increase classroom expenditures pursuant to s. 1011.64 must include the following statement: "This proposed budget reflects an increase in classroom expenditures as a percent of total current operating expenditures of XX percent over the (previous fiscal year) fiscal year. This increase in classroom expenditures is required by the Legislature because the district has performed below the required performance standard on XX of XX student performance standards for the (previous school year) school year. In order to achieve the legislatively required level of classroom expenditures as a percentage of total operating expenditures, the proposed budget includes an increase in overall classroom expenditures of $XX,XXX,XXX above the amount spent for this same purpose during the (previous fiscal year) fiscal year. In order to achieve improved student academic performance, this proposed increase is being budgeted for the following activities: ...(list activities and amount budgeted)...."~~

Section 12. Section 1011.035, Florida Statutes, is amended to read:

1011.035 School district fiscal ~~budget~~ transparency.—

(1) It is important for school districts to provide budgetary transparency to enable taxpayers, parents, and education advocates to obtain school district budget and related information in a manner that is simply explained and easily understandable. Budgetary transparency leads to more responsible spending, more citizen involvement, and improved accountability. A budget that is not transparent, accessible, and accurate cannot be properly analyzed, its implementation thoroughly monitored, or its outcomes evaluated.

(2) Each district school board shall post on its website a plain language version of each proposed, tentative, and official budget which describes each budget item in terms that are easily understandable to the public and includes:

(a) Graphical representations, for each public school within the district and for the school district, of the following:

1. Summary financial efficiency data.

2. Fiscal trend information for the previous 3 years on:

a. The ratio of full-time equivalent students to full-time equivalent instructional personnel.

b. The ratio of full-time equivalent students to full-time equivalent administrative personnel.

c. The total operating expenditures per full-time equivalent student.

d. The total instructional expenditures per full-time equivalent student.

e. The general administrative expenditures as a percentage of total budget.

f. The rate of change in the general fund's ending fund balance not classified as restricted.

(b) A link to the web-based fiscal transparency tool developed by the department pursuant to s. 1010.20 to enable taxpayers to evaluate the financial efficiency of the school district and compare the financial efficiency of the school district with other similarly situated school districts.

This information must be prominently posted on the school district's website in a manner that is readily accessible to the public.

(3) Each district school board is encouraged to post the following information on its website:

(a) Timely information as to when a budget hearing will be conducted.

(b) Each contract between the district school board and the teachers' union.

(c) Each contract between the district school board and noninstructional staff.

(d) Each contract exceeding $35,000 between the school board and a vendor of services, supplies, or programs or for the purchase or lease of lands, facilities, or properties.

(e) Each contract exceeding $35,000 that is an emergency procurement or is with a single source as authorized under s. 287.057(3).

(f) Recommendations of the citizens' budget advisory committee.

(g) Current and archived video recordings of each district school board meeting and workshop.

(4) The website should contain links to:

(a) Help explain or provide background information on various budget items that are required by state or federal law.

(b) Allow users to navigate to related sites to view supporting details.

(c) Enable taxpayers, parents, and education advocates to send e-mails asking questions about the budget and enable others to view the questions and responses.

Section 13. Section 1011.051, Florida Statutes, is amended to read:

1011.051 Guidelines for general funds.—The district school board shall maintain a general fund ending fund balance that is sufficient to address normal contingencies.

(1) If at any time the portion of the general fund's ending fund balance not classified as restricted, committed, or nonspendable in the district's approved operating budget is projected to fall below 3 percent of projected general fund revenues during the current fiscal year, the superintendent shall provide written notification to the district school board and the Commissioner of Education. If such financial condition exists for 2 consecutive fiscal years, the superintendent shall reduce the district's administrative expenditures reported pursuant to s. 1010.215(4)(a) in proportion to the reduction in the general fund's ending balance or the reduction in student enrollment, whichever is greater.

(2)(a) If at any time the portion of the general fund's ending fund balance not classified as restricted, committed, or

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

nonspendable in the district's approved operating budget is projected to fall below 2 percent of projected general fund revenues during the current fiscal year, the superintendent shall provide written notification to the district school board and the Commissioner of Education. Within 14 days after receiving such notification, if the commissioner determines that the district does not have a plan that is reasonably anticipated to avoid a financial emergency as determined pursuant to s. 218.503, the commissioner shall appoint a financial emergency board that shall operate under the requirements, powers, and duties specified in s. 218.503(3)(g).

(b) If any of the conditions identified in s. 218.503(1) existed in the 2015-2016 school year or thereafter, the department shall contract with an independent third party to conduct an investigation of all accounts and records to determine the cause of the deficit, what efforts, if any, were made to avoid the deficit, and whether any of the conditions identified in s. 1011.10 have occurred. The investigation must include a detailed review and analysis of documents and records, including, but not limited to, budget reports, journal entries, budget methodologies, staff e-mails, hard copy records, monthly financial statements, quarterly revenue and expenditure reports, finance staff job descriptions, and minutes from meetings. The results of the investigation must include recommendations for corrective action and controls to avoid a reoccurrence of a future budget shortfall. A final report shall be provided to the district school board, the department, the Legislative Auditing Committee, and the district's financial emergency board, if applicable.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Section 14. Subsection (2) of section 1011.06, Florida Statutes, is amended to read:

1011.06 Expenditures.—

(2) EXPENDITURES FROM DISTRICT AND OTHER FUNDS.—Expenditures from district and all other funds available for the public school program of any district shall be authorized by law and must be in accordance with procedures prescribed by the district school board. A district school board may establish policies that allow expenditures to exceed the amount budgeted by function and object, provided that the district school board complies with s. 1011.09(4) and approves the expenditure by amending ~~and amends~~ the budget at the next scheduled public meeting. The district school board must provide a full explanation of any amendments at the public meeting ~~within timelines established by school board policies~~.

Section 15. Subsection (4) of section 1011.09, Florida Statutes, is amended to read:

1011.09 Expenditure of funds by district school board.—All state funds apportioned to the credit of any district constitute a part of the district school fund of that district and must be budgeted and expended under authority of the district school board subject to the provisions of law and rules of the State Board of Education.

(4) If the financial conditions in s. 1011.051 exist, a district school board ~~During the 2009-2010 fiscal year, unless otherwise specifically approved by the district school board, public funds~~ may not make expenditures ~~be expended~~ for ~~out-of-state~~ travel outside of the district or cellular phones, cellular phone service, personal digital assistants, or any

other mobile wireless communication device or service, including text messaging, whether through purchasing, leasing, contracting, or any other method, while the financial conditions exist. The expenditure of public funds for art programs, music programs, sports programs, and extracurricular programs for students is a higher priority than expending funds for employee travel and cellular phones.

Section 16. Subsection (3) is added to section 1011.10, Florida Statutes, to read:

1011.10 Penalty.—

(3) If any of the conditions identified in s. 218.503(1) exist within a school district, the salary of each district school board member and district superintendent, calculated pursuant to ss. 1001.395 and 1001.47, shall be withheld until the conditions are corrected. This subsection does not apply to a district school board member or district superintendent elected or appointed within 1 year after the identification of the conditions in s. 218.503(1) if he or she did not participate in the approval or preparation of the final school district budget adopted before the identification of such conditions.

Section 17. Subsection (8) of section 1011.60, Florida Statutes, is amended to read:

1011.60 Minimum requirements of the Florida Education Finance Program.—Each district which participates in the state appropriations for the Florida Education Finance Program shall provide evidence of its effort to maintain an adequate school program throughout the district and shall meet at least the following requirements:

~~(8) MINIMUM CLASSROOM EXPENDITURE REQUIREMENTS.—Comply with~~

~~the minimum classroom expenditure requirements and associated reporting pursuant to s. 1011.64.~~

Section 18. Section 1011.64, Florida Statutes, is repealed.

Section 19. Subsection (2) of section 1012.23, Florida Statutes, is amended to read:

1012.23 School district personnel policies.—

(2) The district school superintendent or a district school board member may not appoint or employ ~~or appoint~~ a relative, as defined in s. 112.3135, to work under the direct supervision of that district school board member or district school superintendent. The limitations of this subsection do not apply to employees appointed or employed before the election or appointment of a school board member or district school superintendent. The Commission on Ethics shall accept and investigate any alleged violations of this section pursuant to the procedures contained in ss. 112.322-112.3241.

Section 20. Paragraph (d) of subsection (9) of section 1002.395, Florida Statutes, is amended to read:

1002.395 Florida Tax Credit Scholarship Program.—

(9) DEPARTMENT OF EDUCATION OBLIGATIONS.—The Department of Education shall:

(d) Annually verify the eligibility of expenditures as provided in paragraph (6)(d) using the audit required by paragraph (6)(m) and s. 11.45(2)(l) ~~s. 11.45(2)(k)~~.

Section 21. For the 2018-2019 fiscal year, the sum of $850,000 in nonrecurring funds from the General Revenue Fund is appropriated to the Department of Education to implement the provisions of this act.

Section 22. This act shall take effect July 1, 2018.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	HJR 7001
INTRODUCER:	Ways and Means Committee and Representative Leek and others
SUBJECT:	Supermajority Vote for State Taxes or Fees
DATE:	March 2, 2018 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Fournier	Diez-Arguelles	AFT	**Recommend: Fav/1 amendment**
2.	Fournier	Hansen	AP	**Favorable**

I. Summary:

HJR 7001 proposes an amendment to the State Constitution providing that no state tax or fee may be imposed, authorized, raised by the Legislature, or authorized by the Legislature to be raised, except through legislation approved by two-thirds of the membership of each house of the Legislature. The joint resolution also requires that any proposed state tax or fee imposition, authorization or increase must be contained in a separate bill that contains no other subject.

The joint resolution specifies that the proposed amendment does not authorize the imposition of any state tax or fee otherwise prohibited by the State Constitution, and does not apply to any tax or fee imposed by, or authorized to be imposed by, a county, municipality, school board, or special district.

The amendment proposed in the joint resolution will take effect on January 8, 2019, if approved by sixty percent of the voters during the 2018 general election or earlier special election.

The Revenue Estimating Conference determined that the joint resolution does not affect state revenue.[1]

Article XI, s. 5(d) of the State Constitution requires proposed amendments or constitutional revisions to be published in a newspaper of general circulation in each county where a newspaper is published. Based on 2016 advertising costs, staff estimates full publication costs for advertising the proposed constitutional amendment to be approximately $43,732, which would likely be paid from nonrecurring General Revenue funds.

[1] Revenue Estimating Conference, Supermajority Vote for State Taxes and Fees, 2018 HB 7001, p. 138, http://edr.state.fl.us/Content/conferences/revenueimpact/archives/2018/_pdf/page138-139.pdf (Analyzed Nov 17, 2017).

II. Present Situation:

Background

Under current law the Legislature has broad power to enact and modify the state's revenue policy through legislation, subject to state and federal constitutional constraints. Such legislation is generally subject to the normal constitutional requirements for the enactment of general law. Passage of a bill requires a majority vote in each house of the Legislature,[2] and presentation to the Governor for approval.[3] The bill becomes a law if the Governor approves it, or fails to veto it within the timeframes prescribed in the State Constitution.[4] Vetoes can be overcome by a two-thirds vote of each house of the Legislature.[5]

Corporate Income Tax

Florida's constitution requires three-fifths approval of the membership of each house of the Legislature for increases in the corporate income tax rate above 5 percent.[6]

Other Types of Bills Requiring a Supermajority Vote

There are several other types of bills that require something greater than a majority vote to become law. These include:

- Bills that would authorize the conveyance of property taken by eminent domain to a natural person or private entity require a three-fifths vote of each house of the Legislature.[7]
- Bills that would appropriate nonrecurring general revenue funds for recurring purposes cannot exceed three percent of the total general revenue funds estimated to be available unless approved by a three-fifths vote of the membership of each house of the Legislature.[8]
- Bills that would repeal court rules of practice or procedure require a two-thirds vote of the membership of each house of the Legislature.[9]
- Bills that would increase or decrease judicial offices by a number different from that certified by the Supreme Court to the Legislature.[10]
- Bills that would create special laws or general laws of local application that are prohibited by general law (but not by the constitution), or bills that would amend or repeal such a prohibition, require a three-fifths vote of the membership of each house of the Legislature.[11]

- Bills that would create certain local mandates that would require counties or municipalities to expend funds,[12] reduce their authority to raise revenues,[13] or reduce the percentage of a state shared tax,[14] require a two-thirds vote of the membership of each house of the Legislature.
- Bills that would create or recreate a trust fund require a vote of three-fifths of the membership of each house of the Legislature.[15]
- Bills that would raise revenue above certain constitutionally prescribed limits require a two-thirds vote of the membership of each house of the Legislature.[16]
- Bills that would exempt public access from certain public records or meetings require a two-thirds vote of the membership of each house of the Legislature.[17]
- Joint resolutions proposing an amendment to the State Constitution require a three-fifths vote of the membership of each house of the Legislature.[18]
- Bills creating a special election for voter approval of a constitutional amendment proposed by joint resolution, a report of a revision commission, a constitutional convention or the taxation and budget reform commission, require a three-fourths vote of the membership of each house of the Legislature.[19]

Constitutional Amendments Approving New State Taxes or Fees

In 1996, Florida voters approved an amendment to the State Constitution raising the threshold by which amendments imposing new state taxes or fees must be approved. It provides, "No new State tax or fee may be imposed on or after November 8, 1994 by any amendment to this State Constitution unless the proposed amendment is approved by not fewer than two-thirds of the voters voting in the election in which such proposed amendment is considered For purposes of this section, the phrase "new State tax or fee" means any tax or fee which would produce revenue subject to lump sum or other appropriation by the Legislature, either for the State general revenue fund or any trust fund, which tax or fee is not in effect on November 7, 1994 including without limitation such taxes and fees as are the subject of proposed constitutional amendments appearing on the ballot on November 8, 1994."[20]

Other States with Supermajority Vote Requirements for Tax or Revenue Increases

Currently, 15 states (including Florida) require a supermajority vote to impose or increase some or all taxes and fees. Except for Wisconsin, these requirements are found in the states' constitutions. These requirements vary widely in their application. The following table summarizes the requirements for each affected state:

---

power, rights, or privileges to a water control district formed pursuant to ch. 298, F.S.); s. 373.503(2)(b), F.S. (Pertaining to allocation of millage for water management purposes); s. 1011.77, F.S. (Pertaining to taxation for school purposes and the Florida Education Finance Program); s. 1013.37(5), F.S. (Pertaining to the "State Uniform Building Code for Public Educational Facilities Construction").

III. Effect of Proposed Changes:

This joint resolution proposes an amendment to the State Constitution that would provide that no state tax or fee may be imposed, authorized, or raised by the Legislature, or authorized by the Legislature to be raised, except through legislation approved by two-thirds of the membership of each house of the Legislature. The joint resolution defines the following terms:

- "Fee" means any charge or payment required by law, including any fee for service, fee or cost for licenses, and charge for service.
- "Raise" means:
  - To increase or authorize an increase in the rate of a state tax or fee imposed on a percentage or per mill basis;
  - To increase or authorize an increase in the amount of a state tax or fee imposed on a flat or fixed amount basis; or
  - To decrease or eliminate a state tax or fee exemption or credit.

The joint resolution requires that any proposed state tax or fee imposition, authorization or increase must be contained in a separate bill that contains no other subject. The joint resolution also specifies that the proposed amendment does not authorize the imposition of any state tax or fee otherwise prohibited by this Constitution, and does not apply to any tax or fee imposed by, or authorized to be imposed by, a county, municipality, school board, or special district.

The amendment proposed by the joint resolution does not contain an effective date. Therefore, pursuant to Art. XI, Fla. Const., s. 5(e), it shall be effective on the first Tuesday after the first Monday in January following the election, which is January 8, 2019.

While this joint resolution does not affect existing taxes and fees, it affects the Legislature's ability to respond to future conditions.

For example, fees are typically used to recover the costs of providing a service or benefit. "User fees" are used to recover the costs of goods and services provided by the government to individuals or businesses that use them, such as highway tolls, parks admissions, and university tuition. "Regulatory fees" are used to recover the costs of providing a license or permit under laws enacted to protect health, welfare, and public safety. The joint resolution limits the Legislature's ability to impose increased costs upon those persons receiving services or benefits.

The joint resolution limits the Legislature's ability to change the state's revenue structure in response to changing circumstances even when the result of any change is revenue-neutral. Exemptions or tax credits that have outlived their intended purposes will be more difficult to repeal under this joint resolution. Also, the Legislature's ability to enact a bill to correct a court or administrative decision that results in an interpretation of a tax statute that was not intended by the Legislature will be limited.

The joint resolution limits the Legislature's ability to change legislatively established premiums and copayments associated with the State Employee Health Insurance Program or the Florida Medicaid Program.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Not applicable to joint resolutions.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

"The Revenue Estimating Conference adopted a zero impact for the joint resolution. This is a joint resolution proposing a constitutional amendment to be submitted to the voters, and whether the constitutional amendment passes or not, the impact is zero. If it passes, the amendment creates a new constraint on the Legislature's ability to enact, authorize or increase state taxes and fees. It does not directly impact current baseline revenue forecasts because they are based on current law and current administration and do not contain assumptions regarding future legislative changes. Future positive state and local revenue impacts from proposed legislation that could pass under current legislative authority may not occur if the amendment is approved by voters." [36]

B. Private Sector Impact:

None.

C. Government Sector Impact:

None.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This resolution creates Article VII, section 19 of the State Constitution.

[36]Revenue Estimating Conference, Supermajority Vote for State Taxes and Fees, 2018 HB 7001, p. 138, http://edr.state.fl.us/Content/conferences/revenueimpact/archives/2018/_pdf/page138-139.pdf (Analyzed Nov 17, 2017).

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

House Joint Resolution

A joint resolution proposing the creation of section 19 of Article VII of the State Constitution to provide that no state tax or fee may be imposed, authorized, or raised by the legislature except through legislation approved by two-thirds of the membership of each house of the legislature and presented to the Governor for approval; providing for applicability; providing definitions; requiring any tax or fee imposed or raised under this section to be contained in a separate bill that contains no other subject.

Be It Resolved by the Legislature of the State of Florida:

That the following creation of Section 19 of Article VII of the State Constitution is agreed to and shall be submitted to the electors of this state for approval or rejection at the next general election or at an earlier special election specifically authorized by law for that purpose:

ARTICLE VII

FINANCE AND TAXATION

SECTION 19. Supermajority vote required to impose, authorize, or raise state taxes or fees.—

(a) SUPERMAJORITY VOTE REQUIRED TO IMPOSE OR AUTHORIZE NEW STATE TAX OR FEE. No new state tax or fee may be imposed or

CODING: Words stricken are deletions; words underlined are additions.

FLORIDA HOUSE OF REPRESENTATIVES

HJR 7001 2018

authorized by the legislature except through legislation approved by two-thirds of the membership of each house of the legislature and presented to the Governor for approval pursuant to Article III, Section 8.

(b) SUPERMAJORITY VOTE REQUIRED TO RAISE STATE TAXES OR FEES. No state tax or fee may be raised by the legislature except through legislation approved by two-thirds of the membership of each house of the legislature and presented to the Governor for approval pursuant to Article III, Section 8.

(c) APPLICABILITY. This section does not authorize the imposition of any state tax or fee otherwise prohibited by this Constitution, and does not apply to any tax or fee imposed by, or authorized to be imposed by, a county, municipality, school board, or special district.

(d) DEFINITIONS. As used in this section, the following terms shall have the following meanings:

(1) "Fee" means any charge or payment required by law, including any fee for service, fee or cost for licenses, and charge for service.

(2) "Raise" means:

a. To increase or authorize an increase in the rate of a state tax or fee imposed on a percentage or per mill basis;

b. To increase or authorize an increase in the amount of a state tax or fee imposed on a flat or fixed amount basis; or

c. To decrease or eliminate a state tax or fee exemption

CODING: Words stricken are deletions; words underlined are additions.

hjr7001-00

or credit.

(e) SINGLE-SUBJECT. A state tax or fee imposed, authorized, or raised under this section must be contained in a separate bill that contains no other subject.

BE IT FURTHER RESOLVED that the following statement be placed on the ballot:

CONSTITUTIONAL AMENDMENT

ARTICLE VII, SECTION 19

SUPERMAJORITY VOTE REQUIRED TO IMPOSE, AUTHORIZE, OR RAISE STATE TAXES OR FEES.—Prohibits the legislature from imposing, authorizing, or raising a state tax or fee except through legislation approved by a two-thirds vote of each house of the legislature in a bill containing no other subject. This proposal does not authorize a state tax or fee otherwise prohibited by the Constitution and does not apply to fees or taxes imposed or authorized to be imposed by a county, municipality, school board, or special district.

BE IT FURTHER RESOLVED that the following statement be placed on the ballot if a court declares the preceding statement defective and the decision of the court is not reversed:

CONSTITUTIONAL AMENDMENT

ARTICLE VII, SECTION 19

SUPERMAJORITY VOTE REQUIRED TO IMPOSE, AUTHORIZE, OR RAISE

STATE TAXES OR FEES.—Proposing the following amendment to the State Constitution:

ARTICLE VII

FINANCE AND TAXATION

SECTION 19. Supermajority vote required to impose, authorize, or raise state taxes or fees.—

(a) SUPERMAJORITY VOTE REQUIRED TO IMPOSE OR AUTHORIZE NEW STATE TAX OR FEE. No new state tax or fee may be imposed or authorized by the legislature except through legislation approved by two-thirds of the membership of each house of the legislature and presented to the Governor for approval pursuant to Article III, Section 8.

(b) SUPERMAJORITY VOTE REQUIRED TO RAISE STATE TAXES OR FEES. No state tax or fee may be raised by the legislature except through legislation approved by two-thirds of the membership of each house of the legislature and presented to the Governor for approval pursuant to Article III, Section 8.

(c) APPLICABILITY. This section does not authorize the imposition of any state tax or fee otherwise prohibited by this Constitution, and does not apply to any tax or fee imposed by, or authorized to be imposed by, a county, municipality, school board, or special district.

(d) DEFINITIONS. As used in this section, the following terms shall have the following meanings:

(1) "Fee" means any charge or payment required by law,

including any fee for service, fee or cost for licenses, and charge for service.

(2) "Raise" means:

a. To increase or authorize an increase in the rate of a state tax or fee imposed on a percentage or per mill basis;

b. To increase or authorize an increase in the amount of a state tax or fee imposed on a flat or fixed amount basis; or

c. To decrease or eliminate a state tax or fee exemption or credit.

(e) SINGLE-SUBJECT. A state tax or fee imposed, authorized, or raised under this section must be contained in a separate bill that contains no other subject.

Senate Amendment (with ballot and title amendments)

Delete everything after the resolving clause and insert:

That the following creation of Section 19 of Article VII of the State Constitution is agreed to and shall be submitted to the electors of this state for approval or rejection at the next general election or at an earlier special election specifically authorized by law for that purpose:

ARTICLE VII

813842

FINANCE AND TAXATION

SECTION 19. Supermajority vote required to increase state tax revenues by increasing taxes.—

(a) A law that imposes a new tax, increases the rate or amount of a tax, or expands a tax base, and that results in a net increase in state revenues, must be approved by three-fifths of the membership of each house of the legislature.

(b) As used in this section, the term:

(1) "Expands a tax base" means broadening the scope of a tax to include additional classes of property, activity, or income, but does not include the amendment or repeal of a credit or exemption.

(2) "Net increase in state revenues" means the revenues produced by the tax increases contained in the law, minus any revenue reductions contained in the law. For purposes of this paragraph, whether a law results in a net increase is determined by the annual net revenues estimated to be collected in the first state fiscal year when all the changes in the bill are fully effective. For a law that both increases and reduces revenues, a revenue increase of less than one percent (1%) of the tax increases contained in the law is not considered a net increase in state revenues.

(c) This section does not authorize the imposition of any state tax otherwise prohibited by this constitution, and does not apply to any tax imposed by, or authorized to be imposed by, a county, municipality, school board, or special district.

====== B A L L O T S T A T E M E N T A M E N D M E N T ======
And the ballot statement is amended as follows:

813842

Delete everything after the resolving clause and insert:

CONSTITUTIONAL AMENDMENT

ARTICLE VII, SECTION 19

SUPERMAJORITY VOTE REQUIRED TO INCREASE STATE TAX REVENUES BY INCREASING TAXES.—Requires a law that imposes a new tax, increases the rate or amount of a tax, or expands a tax base, and that results in a net increase in state revenues, to be approved by three-fifths of the membership of each house of the Legislature. Defines the terms "expands a tax base" and "net increase in state revenues." This amendment does not apply to county, municipality, school board, or special district taxes.

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

Delete everything before the resolving clause and insert:

House Joint Resolution

A joint resolution proposing the creation of Section 19 of Article VII of the State Constitution to require a law that imposes a new tax, increases the rate or amount of a tax, or expands a tax base, and that results in a net increase in state revenues, to be approved by three-fifths of the membership of each house of the Legislature.

FOR CONSIDERATION By the Committee on Rules

595-03525-18 20187022pb

A bill to be entitled

An act relating to firearm safety; amending s. 394.463, F.S.; authorizing a law enforcement officer to seize and hold firearms and ammunition if taking custody of a person who poses a potential danger to himself or herself or others and who has made a credible threat against another person; requiring the law enforcement officer's agency to hold seized firearms and ammunition under certain circumstances; requiring law enforcement agencies to develop certain policies and procedures; authorizing a law enforcement officer to petition a court for a risk protection order under certain circumstances; creating s. 790.064, F.S.; prohibiting a person who has been adjudicated mentally defective or been committed to a mental institution from owning or possessing a firearm until certain relief is obtained; specifying that the firearm possession and ownership disability runs concurrently with the firearm purchase disability under certain provisions; authorizing a person to petition for relief from the firearm possession and ownership disability; requiring that petitions for relief follow certain procedures; authorizing such person to petition for simultaneous relief; amending s. 790.065, F.S.; prohibiting a person younger than a certain age from purchasing a firearm; prohibiting the sale or transfer, or facilitation of a sale or transfer, of a firearm to a person younger than a certain age by a licensed importer, licensed

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

595-03525-18 20187022pb

manufacturer, or licensed dealer; providing criminal penalties; providing an exception; amending s. 790.0655, F.S.; revising the mandatory waiting period to the later of either 3 days, excluding weekends and legal holidays, or upon the completion of certain records checks, whichever occurs first; prohibiting the waiting period from being longer than a certain time; revising and redefining terms; requiring that records of firearm sales be available for inspection by any law enforcement agency during normal business hours; revising applicability of the waiting period; conforming provisions to changes made by the act; creating s. 790.34, F.S.; defining the term "bump-fire stock"; prohibiting the importation, transfer, distribution, transport, sale, or giving of a bump-fire stock in this state; providing criminal penalties; providing legislative intent; providing a short title; creating s. 790.401, F.S.; defining terms; creating an action known as a petition for a risk protection order to prevent persons who are at high risk of harming themselves or others from accessing firearms or ammunition; providing requirements for petitions for such orders; providing duties for courts and clerks of court; prohibiting fees for the filing of or service of process of such petitions; providing for jurisdiction for such petitions; requiring hearings on petitions within a specified period; providing service requirements; providing grounds that may be considered in

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

determining whether to grant such a petition; providing requirements for proceedings; providing requirements for risk protection orders; requiring the court to inform a respondent of his or her right to request a certain hearing; authorizing temporary ex parte orders under certain circumstances; providing requirements for petitions for such ex parte orders; providing for service of orders; providing for the termination or extension of an order; providing for the surrender and storage of firearms and ammunition after issuance of a risk protection order; requiring law enforcement agencies to develop certain policies and procedures by a certain date; providing for return of firearms and ammunition upon the vacating or end without the extension of an order under certain circumstances; authorizing a respondent to elect to transfer all firearms and ammunition surrendered or seized by a law enforcement agency to another person under certain circumstances; requiring an issuing court to forward specified information concerning a respondent to the department; requiring the department to suspend a license to carry a concealed weapon or firearm which is held by a person subject to such an order; prohibiting a person from knowingly filing a petition for such an order which contains materially false or misleading information; providing criminal penalties; prohibiting violations of such an order; providing criminal penalties; providing construction; providing that the risk protection order provisions do

not create liability for certain acts or omissions; requiring the Office of the State Courts Administrator to development and distribute certain instructional and informational material; reenacting ss. 397.6760(2) and 790.335(3)(e), F.S., relating to the confidentiality of court records and exceptions to the prohibition of registration of firearms, respectively, to incorporate the amendment made to s. 790.065, F.S., in references thereto; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraphs (c) and (d) of subsection (2) of section 394.463, Florida Statutes, are amended to read:

394.463 Involuntary examination.—

(2) INVOLUNTARY EXAMINATION.—

(c) A law enforcement officer acting in accordance with an ex parte order issued pursuant to this subsection may:

1. Serve and execute such order on any day of the week, at any time of the day or night; and

2. Use such reasonable physical force as is necessary to gain entry to the premises, and any dwellings, buildings, or other structures located on the premises, and take custody of the person who is the subject of the ex parte order.

(d) A law enforcement officer taking custody of a person under this subsection may seize and hold a firearm or any ammunition the person possesses at the time of taking him or her into custody if the person poses a potential danger to himself or herself or others and has made a credible threat of violence

against another person.

1. If a law enforcement officer seizes a firearm or any ammunition, the law enforcement officer's agency must hold the seized firearm or ammunition for at least a 72-hour period or until the person goes to the law enforcement agency to retrieve the seized firearm or ammunition. Law enforcement agencies must develop policies and procedures relating to the seizure, storage, and return of such seized firearms or ammunition.

2. If the person has a firearm or any ammunition that was not seized when he or she was taken into custody, a law enforcement officer may petition the appropriate court for a risk protection order against the person pursuant to s. 790.401. ~~A law enforcement officer acting in accordance with an ex parte order issued pursuant to this subsection may use such reasonable physical force as is necessary to gain entry to the premises, and any dwellings, buildings, or other structures located on the premises, and to take custody of the person who is the subject of the ex parte order.~~

Section 2. Section 790.064, Florida Statutes, is created to read:

790.064 Firearm possession and firearm ownership disability.—

(1) A person who has been adjudicated mentally defective or who has been committed to a mental institution as those terms are defined in s. 790.065(2) may not own a firearm or possess a firearm until relief from the firearm possession and firearm ownership disability is obtained.

(2) The firearm possession and firearm ownership disability runs concurrently with the firearm purchase disability provided

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

in s. 790.065(2).

(3) A person may petition the court that made the adjudication or commitment, or that ordered the record be submitted to the Department of Law Enforcement pursuant to s. 790.065(2), for relief from the firearm possession and firearm ownership disability.

(4) The person seeking relief must follow the procedures set forth in s. 790.065(2) for obtaining relief from the firearm purchase disability in seeking relief from the firearm possession and firearm ownership disability.

(5) The person may seek relief from the firearm possession and firearm ownership disability simultaneously with the relief being sought from the firearm purchase disability, if such relief is sought, pursuant to the procedure set forth in s. 790.065(2).

Section 3. Present subsection (13) of section 790.065, Florida Statutes, is redesignated as subsection (14), and a new subsection (13) is added to that section, to read:

790.065 Sale and delivery of firearms.—

(13) A person younger than 21 years of age may not purchase a firearm. The sale or transfer of a firearm to a person younger than 21 years of age may not be made or facilitated by a licensed importer, licensed manufacturer, or licensed dealer. A person who violates this subsection commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084. The prohibition on the purchase of a firearm by a person younger than 21 years of age or the sale or transfer by a licensed importer, licensed manufacturer, or licensed dealer to a person younger than 21 years of age does not apply to a member

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

of the military or naval forces of this state or of the United States or to a law enforcement officer or a correctional officer, as those terms are defined in s. 943.10.

Section 4. Section 790.0655, Florida Statutes, is amended to read:

790.0655 Purchase and delivery of firearms ~~handguns~~; mandatory waiting period; exceptions; penalties.—

(1)(a) ~~There shall be~~ A mandatory ~~3-day~~ waiting period is imposed between the purchase and delivery of a firearm. The mandatory waiting period is~~, which shall be~~ 3 days, excluding weekends and legal holidays, or upon the completion of the records checks required under s. 790.065, whichever occurs later ~~between the purchase and the delivery at retail of any handgun~~. "Purchase" means the transfer of money or other valuable consideration to the retailer. ~~"Handgun" means a firearm capable of being carried and used by one hand, such as a pistol or revolver.~~ "Retailer" means and includes a licensed importer, licensed manufacturer, or licensed dealer ~~every person~~ engaged in the business of making firearm sales at retail or for distribution, or use, or consumption, or storage to be used or consumed in this state, as defined in s. 212.02(13).

(b) Records of firearm ~~handgun~~ sales must be available for inspection by any law enforcement agency, as defined in s. 934.02, during normal business hours.

(2) The ~~3-day~~ waiting period does ~~shall~~ not apply in the following circumstances:

(a) When a firearm ~~handgun~~ is being purchased by a holder of a concealed weapons permit as defined in s. 790.06.

(b) To a trade-in of another firearm ~~handgun~~.

(c) To a person who completes a 16-hour hunter education or hunter safety course approved by the Fish and Wildlife Conservation Commission or similar agency of another state.

(3) It is a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084:

(a) For any retailer, or any employee or agent of a retailer, to deliver a firearm ~~handgun~~ before the expiration of the ~~3-day~~ waiting period, subject to the exceptions provided in subsection (2).

(b) For a purchaser to obtain delivery of a firearm ~~handgun~~ by fraud, false pretense, or false representation.

Section 5. Section 790.34, Florida Statutes, is created to read:

790.34 Prohibited device for firearm.—

(1) DEFINITION.—As used in this section, the term "bump-fire stock" means a gun conversion kit, a tool, an accessory, or a device used to alter the rate of fire of a firearm to mimic automatic weapon fire or which is used to increase the rate of fire of a semiautomatic firearm to a faster rate than is possible for a person to fire such semiautomatic firearm unassisted by a kit, a tool, an accessory, or a device.

(2) SALE OR TRANSFER.—A person may not import into this state or, within this state, transfer, distribute, transport, sell, keep for sale, offer or expose for sale, or give a bump-fire stock to another person. A person who violates this subsection commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

Section 6. (1) Section 790.401, Florida Statutes, is intended to temporarily prevent individuals who are at high risk

of harming themselves or others from accessing firearms or ammunition by allowing law enforcement officers to obtain a court order when there is demonstrated evidence that a person poses a significant danger to himself or herself or others, including significant danger as a result of a mental health crisis or violent behavior.

(2) The purpose and intent of s. 790.401, Florida Statutes, is to reduce deaths and injuries as a result of certain individuals' use of firearms while respecting constitutional rights by providing a judicial procedure for law enforcement officers to obtain a court order temporarily restricting a person's access to firearms and ammunition. The process established by s. 790.401, Florida Statutes, is intended to apply only to situations in which the person poses a significant danger of harming himself or herself or others by possessing a firearm or ammunition and to include standards and safeguards to protect the rights of respondents and due process of law.

Section 7. Section 790.401, Florida Statutes, may be cited as "The Risk Protection Order Act."

Section 8. Section 790.401, Florida Statutes, is created to read:

790.401 Risk protection orders.—

(1) DEFINITIONS.—As used in this section, the term:

(a) "Petitioner" means a law enforcement officer or a law enforcement agency who petitions a court for a risk protection order under this section.

(b) "Respondent" means the individual who is identified as the respondent in a petition filed under this section.

(c) "Risk protection order" means a temporary ex parte

order or a final order granted under this section.

(2) PETITION FOR A RISK PROTECTION ORDER.—There is created an action known as a petition for a risk protection order.

(a) A petition for a risk protection order may be filed by a law enforcement officer or law enforcement agency.

(b) An action under this section must be filed in the county where the petitioner's law enforcement office is located or the county where the respondent resides.

(c) Such petition for a risk protection order does not require either party to be represented by an attorney.

(d) Notwithstanding any other law, attorney fees may not be awarded in any proceeding under this section.

(e) A petition must:

1. Allege that the respondent poses a significant danger of causing personal injury to himself or herself or others by having a firearm or any ammunition in his or her custody or control or by potentially purchasing, possessing, or receiving a firearm or any ammunition, and must be accompanied by an affidavit made under oath stating the specific statements, actions, or facts that give rise to a reasonable fear of significant dangerous acts by the respondent;

2. Identify the quantities, types, and locations of all firearms and ammunition the petitioner believes to be in the respondent's current ownership, possession, custody, or control; and

3. Identify whether there is a known existing protection order governing the respondent under s. 741.30, s. 784.046, or s. 784.0485, or under any other applicable statute.

(f) The petitioner must make a good faith effort to provide

notice to a family or household member of the respondent and to any known third party who may be at risk of violence. The notice must state that the petitioner intends to petition the court for a risk protection order or has already done so, and must include referrals to appropriate resources, including mental health, domestic violence, and counseling resources. The petitioner must attest in the petition to having provided such notice or must attest to the steps that will be taken to provide such notice.

(g) A petitioner must list the address of record on the petition as being where the appropriate law enforcement agency is located.

(h) A court or a public agency may not charge fees for filing or for service of process to a petitioner seeking relief under this section and must provide the necessary number of certified copies, forms, and instructional brochures free of charge.

(i) A person is not required to post a bond to obtain relief in any proceeding under this section.

(j) The circuit courts of this state have jurisdiction over proceedings under this section.

(3) RISK PROTECTION ORDER HEARINGS AND ISSUANCE.—

(a) Upon receipt of a petition, the court must order a hearing to be held no later than 14 days after the date of the order and must issue a notice of hearing to the respondent for the same.

1. The clerk of the court shall cause a copy of the notice of hearing and petition to be forwarded on or before the next business day to the appropriate law enforcement agency for service upon the respondent as provided in subsection (5).

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

2. The court may, as provided in subsection (4), issue a temporary ex parte risk protection order pending the hearing ordered under this subsection. Such temporary ex parte order must be served concurrently with the notice of hearing and petition as provided in subsection (5).

3. The court may conduct a hearing by telephone pursuant to a local court rule to reasonably accommodate a disability or exceptional circumstances. The court must receive assurances of the petitioner's identity before conducting a telephonic hearing.

(b) Upon notice and a hearing on the matter, if the court finds by clear and convincing evidence that the respondent poses a significant danger of causing personal injury to himself or herself or others by having in his or her custody or control, or by purchasing, possessing, or receiving, a firearm or any ammunition, the court must issue a risk protection order for a period that it deems appropriate, up to and including but not exceeding 12 months.

(c) In determining whether grounds for a risk protection order exist, the court may consider any relevant evidence, including, but not limited to, any of the following:

1. A recent act or threat of violence by the respondent against himself or herself or others, whether or not such violence or threat of violence involves a firearm.

2. An act or threat of violence by the respondent within the past 12 months, including, but not limited to, acts or threats of violence by the respondent against himself or herself or others.

3. Evidence of the respondent being seriously mentally ill

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

or having recurring mental health issues.

4. A violation by the respondent of a protection order or a no contact order issued under s. 741.30, s. 784.046, or s. 784.0485.

5. A previous or existing risk protection order issued against the respondent.

6. A violation of a previous or existing risk protection order issued against the respondent.

7. Whether the respondent, in this state or any other state, has been convicted of, had adjudication withheld on, or pled nolo contendere to a crime that constitutes domestic violence as defined in s. 741.28.

8. The respondent's ownership of, access to, or intent to possess firearms or ammunition.

9. The unlawful or reckless use, display, or brandishing of a firearm by the respondent.

10. The recurring use of, or threat to use, physical force by the respondent against another person, or the respondent stalking another person.

11. Whether the respondent, in this state or any other state, has been arrested, convicted of, had adjudication withheld on, or pled nolo contendere to a crime involving violence or a threat of violence.

12. Corroborated evidence of the abuse of controlled substances or alcohol by the respondent.

13. Evidence of recent acquisition of firearms or ammunition by the respondent.

14. Any relevant information from family and household members concerning the respondent.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

(d) A person, including an officer of the court, who offers evidence or recommendations relating to the cause of action must either present the evidence or recommendations in writing to the court with copies to each party and their attorney, if one is retained, or must present the evidence under oath at a hearing at which all parties are present.

(e) In a hearing under this section, the rules of evidence apply to the same extent as in a domestic violence injunction proceeding under s. 741.30.

(f) During the hearing, the court must consider whether a mental health evaluation or chemical dependency evaluation is appropriate and, if such determination is made, may order such evaluations, if appropriate.

(g) A risk protection order must include all of the following:

1. A statement of the grounds supporting the issuance of the order;

2. The date the order was issued;

3. The date the order ends;

4. Whether a mental health evaluation or chemical dependency evaluation of the respondent is required;

5. The address of the court in which any responsive pleading should be filed;

6. A description of the requirements for the surrender of firearms and ammunition under subsection (7); and

7. The following statement:

"To the subject of this protection order: This order will last until the date noted above. If you have not done so already, you

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

must surrender immediately to the (insert name of local law enforcement agency) all firearms and ammunition in your custody, control, or possession and any license to carry a concealed weapon or firearm issued to you under s. 790.06, Florida Statutes. You may not have in your custody or control, or purchase, possess, receive, or attempt to purchase or receive, a firearm or ammunition while this order is in effect. You have the right to request one hearing to vacate this order, starting after the date of the issuance of this order, and to request another hearing after every extension of the order, if any. You may seek the advice of an attorney as to any matter connected with this order."

(h) If the court issues a risk protection order, the court must inform the respondent that he or she is entitled to request a hearing to vacate the order in the manner provided by subsection (6). The court shall provide the respondent with a form to request a hearing to vacate.

(i) If the court denies the petitioner's request for a risk protection order, the court must state the particular reasons for the denial.

(4) TEMPORARY EX PARTE RISK PROTECTION ORDERS.—

(a) A petitioner may request that a temporary ex parte risk protection order be issued before a hearing for a risk protection order, without notice to the respondent, by including in the petition detailed allegations based on personal knowledge that the respondent poses a significant danger of causing personal injury to himself or herself or others in the near future by having in his or her custody or control, or by

purchasing, possessing, or receiving a firearm or ammunition.

(b) In considering whether to issue a temporary ex parte risk protection order under this section, the court shall consider all relevant evidence, including the evidence described in paragraph (3)(c).

(c) If a court finds there is reasonable cause to believe that the respondent poses a significant danger of causing personal injury to himself or herself or others in the near future by having in his or her custody or control, or by purchasing, possessing, or receiving a firearm or ammunition, the court must issue a temporary ex parte risk protection order.

(d) The court must hold a temporary ex parte risk protection order hearing in person or by telephone on the day the petition is filed or on the business day immediately following the day the petition is filed.

(e) A temporary ex parte risk protection order must include all of the following:

1. A statement of the grounds asserted for the order;

2. The date the order was issued;

3. The address of the court in which any responsive pleading may be filed;

4. The date and time of the scheduled hearing;

5. A description of the requirements for surrender of firearms and ammunition under subsection (7); and

6. The following statement:

"To the subject of this protection order: This order is valid until the date noted above. You are required to surrender all firearms and ammunition in your custody, control, or possession.

You may not have in your custody or control, or purchase, possess, receive, or attempt to purchase or receive, a firearm or ammunition while this order is in effect. You must surrender immediately to the (insert name of local law enforcement agency) all firearms and ammunition in your custody, control, or possession and any license to carry a concealed weapon or firearm issued to you under s. 790.06, Florida Statutes. A hearing will be held on the date and at the time noted above to determine if a risk protection order should be issued. Failure to appear at that hearing may result in a court ruling on an order against you which is valid for 1 year. You may seek the advice of an attorney as to any matter connected with this order."

(f) A temporary ex parte risk protection order ends upon the hearing on the risk protection order.

(g) A temporary ex parte risk protection order must be served by a law enforcement officer in the same manner as provided for in subsection (5) for service of the notice of hearing and petition and must be served concurrently with the notice of hearing and petition.

(h) If the court denies the petitioner's request for a temporary ex parte risk protection order, the court must state the particular reasons for the denial.

(5) SERVICE.—

(a) The clerk of the court shall furnish a copy of the notice of hearing, petition, and temporary ex parte risk protection order or risk protection order, as applicable, to the sheriff of the county where the respondent resides or can be

found, who shall serve it upon the respondent as soon thereafter as possible on any day of the week and at any time of the day or night. When requested by the sheriff, the clerk of the court may transmit a facsimile copy of a temporary ex parte risk protection order or a risk protection order that has been certified by the clerk of the court, and this facsimile copy may be served in the same manner as a certified copy. Upon receiving a facsimile copy, the sheriff must verify receipt with the sender before attempting to serve it upon the respondent. The clerk of the court shall be responsible for furnishing to the sheriff information on the respondent's physical description and location. Notwithstanding any other provision of law to the contrary, the chief judge of each circuit, in consultation with the appropriate sheriff, may authorize a law enforcement agency within the jurisdiction to effect service. A law enforcement agency effecting service pursuant to this section shall use service and verification procedures consistent with those of the sheriff. Service under this section takes precedence over the service of other documents, unless the other documents are of a similar emergency nature.

(b) All orders issued, changed, continued, extended, or vacated after the original service of documents specified in paragraph (a) must be certified by the clerk of the court and delivered to the parties at the time of the entry of the order. The parties may acknowledge receipt of such order in writing on the face of the original order. In the event a party fails or refuses to acknowledge the receipt of a certified copy of an order, the clerk shall note on the original order that service was effected. If delivery at the hearing is not possible, the

clerk shall mail certified copies of the order to the parties at the last known address of each party. Service by mail is complete upon mailing. When an order is served pursuant to this subsection, the clerk shall prepare a written certification to be placed in the court file specifying the time, date, and method of service and shall notify the sheriff.

(6) TERMINATION AND EXTENSION OF ORDERS.—

(a) The respondent may submit one written request for a hearing to vacate a risk protection order issued under this section, starting after the date of the issuance of the order, and may request another hearing after every extension of the order, if any.

1. Upon receipt of the request for a hearing to vacate a risk protection order, the court shall set a date for a hearing. Notice of the request must be served on the petitioner in accordance with subsection (5). The hearing must occur no sooner than 14 days and no later than 30 days after the date of service of the request upon the petitioner.

2. The respondent shall have the burden of proving by clear and convincing evidence that the respondent does not pose a significant danger of causing personal injury to himself or herself or others by having in his or her custody or control, purchasing, possessing, or receiving a firearm or ammunition. The court may consider any relevant evidence, including evidence of the considerations listed in paragraph (3)(c).

3. If the court finds after the hearing that the respondent has met his or her burden of proof, the court must vacate the order.

4. The law enforcement agency holding any firearm or

ammunition that has been surrendered pursuant to this section shall be notified of the court order to vacate the risk protection order.

(b) The court must notify the petitioner of the impending end of a risk protection order. Notice must be received by the petitioner 30 calendar days before the date the order ends.

(c) The petitioner may, by motion, request an extension of a risk protection order at any time within 30 calendar days before the end of the order.

1. Upon receipt of the motion to extend, the court shall order that a hearing be held no later than 14 days after the date the order is issued and shall schedule such hearing.

a. The court may schedule a hearing by telephone in the manner provided by subparagraph (3)(a)3.

b. The respondent must be personally served in the same manner provided by subsection (5).

2. In determining whether to extend a risk protection order issued under this section, the court may consider all relevant evidence, including evidence of the considerations listed in paragraph (3)(c).

3. If the court finds by clear and convincing evidence that the requirements for issuance of a risk protection order as provided in subsection (3) continue to be met, the court must extend the order. However, if, after notice, the motion for extension is uncontested and no modification of the order is sought, the order may be extended on the basis of a motion or affidavit stating that there has been no material change in relevant circumstances since entry of the order and stating the reason for the requested extension.

4. The court may extend a risk protection order for a period that it deems appropriate, up to and including but not exceeding 12 months, subject to an order to vacate as provided in paragraph (a) or to another extension order by the court.

(7) SURRENDER OF FIREARMS AND AMMUNITION.—

(a) Upon issuance of a risk protection order under this section, including a temporary ex parte risk protection order, the court shall order the respondent to surrender to the local law enforcement agency all firearms and ammunition in the respondent's custody, control, or possession except as provided in subsection (9), and any license to carry a concealed weapon or firearm issued under s. 790.06.

(b) The law enforcement officer serving a risk protection order under this section, including a temporary ex parte risk protection order, shall request that the respondent immediately surrender all firearms and ammunition in his or her custody, control, or possession and any license to carry a concealed weapon or firearm issued under s. 790.06, and shall conduct a search authorized by law for such firearms and ammunition. The law enforcement officer shall take possession of all firearms and ammunition belonging to the respondent which are surrendered, in plain sight, or discovered pursuant to a lawful search. Alternatively, if personal service by a law enforcement officer is not possible or is not required because the respondent was present at the risk protection order hearing, the respondent shall surrender the firearms and ammunition in a safe manner to the control of the local law enforcement agency immediately after being served with the order by service or immediately after the hearing at which the respondent was

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

present.

(c) At the time of surrender, a law enforcement officer taking possession of a firearm, any ammunition, or a license to carry a concealed weapon or firearm shall issue a receipt identifying all firearms and the quantity and type of ammunition that have been surrendered and shall provide a copy of the receipt to the respondent. Within 72 hours after service of the order, the law enforcement officer serving the order shall file the original receipt with the court and shall ensure that his or her law enforcement agency retains a copy of the receipt.

(d) Notwithstanding ss. 933.02 and 933.18, upon the sworn statement or testimony of any person alleging that the respondent has failed to comply with the surrender of firearms or ammunition as required by an order issued under this section, the court shall determine whether probable cause exists to believe that the respondent has failed to surrender all firearms or ammunition in his or her custody, control, or possession. If the court finds that probable cause exists, the court must issue a warrant describing the firearms or ammunition and authorizing a search of the locations where the firearms or ammunition are reasonably believed to be found and the seizure of any firearms or ammunition discovered pursuant to such search.

(e) If a person other than the respondent claims title to any firearms or ammunition surrendered pursuant to this section, and he or she is determined by the law enforcement agency to be the lawful owner of the firearm or ammunition, the firearm or ammunition shall be returned to him or her, provided that:

1. The lawful owner agrees to store the firearm or ammunition in a manner such that the respondent does not have

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

access to or control of the firearm or ammunition.

2. The firearm or ammunition is not otherwise unlawfully possessed by the owner.

(f) Upon the issuance of a risk protection order, the court shall order a new hearing date and require the respondent to appear no later than 3 business days after the issuance of the order. The court shall require proof that the respondent has surrendered any firearms or ammunition in his or her custody, control, or possession. The court may cancel the hearing upon a satisfactory showing that the respondent is in compliance with the order.

(g) All law enforcement agencies must develop policies and procedures by January 1, 2019, regarding the acceptance, storage, and return of firearms or ammunition required to be surrendered under this section.

(8) RETURN AND DISPOSAL OF FIREARMS AND AMMUNITION.—

(a) If a risk protection order is vacated or ends without extension, a law enforcement agency holding a firearm or any ammunition that has been surrendered or seized pursuant to this section must return such surrendered firearm or ammunition requested by a respondent only after confirming through a background check that the respondent is currently eligible to own or possess firearms and ammunition under federal and state law and after confirming with the court that the risk protection order has been vacated or has ended without extension.

(b) If a risk protection order is vacated or ends without extension, the Department of Agriculture and Consumer Services, if it has suspended a license to carry a concealed weapon or firearm pursuant to this section, must reinstate such license

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

only after confirming that the respondent is currently eligible to have a license to carry a concealed weapon or firearm pursuant to s. 790.06.

(c) A law enforcement agency must provide notice to any family or household members of the respondent before the return of any surrendered firearm and ammunition.

(d) Any firearm and ammunition surrendered by a respondent pursuant to subsection (7) which remains unclaimed by the lawful owner after an order to vacate the risk protection order shall be disposed of in accordance with the law enforcement agency's policies and procedures for the disposal of firearms in police custody.

(9) TRANSFER OF FIREARMS AND AMMUNITION.—A respondent may elect to transfer all firearms and ammunition that have been surrendered to or seized by a local law enforcement agency pursuant to subsection (7) to another person who is willing to receive the respondent's firearms and ammunition. The law enforcement agency may allow such a transfer only if it is determined that the chosen recipient:

(a) Currently is eligible to own or possess a firearm and ammunition under federal and state law after confirmation through a background check;

(b) Attests to storing the firearms and ammunition in a manner such that the respondent does not have access to or control of the firearms and ammunition until the risk protection order against the respondent is vacated or ends without extension; and

(c) Attests not to transfer the firearms or ammunition back to the respondent until the risk protection order against the

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

respondent is vacated or ends without extension.

(10) REPORTING OF ORDERS.—

(a) Within 24 hours after issuance, the clerk of the court shall enter any risk protection order or temporary ex parte risk protection order issued under this section into the uniform case reporting system.

(b) Within 24 hours after issuance, the clerk of the court shall forward a copy of an order issued under this section to the appropriate law enforcement agency specified in the order. Upon receipt of the copy of the order, the law enforcement agency shall enter the order into the National Instant Criminal Background Check System, any other federal or state computer-based systems used by law enforcement agencies or others to identify prohibited purchasers of firearms or ammunition, and into any computer-based criminal intelligence information system available in this state used by law enforcement agencies to list outstanding warrants. The order must remain in each system for the period stated in the order, and the law enforcement agency shall only remove orders from the systems that have ended or been vacated. Entry into the Florida Crime Information Center and National Crime Information Center constitutes notice to all law enforcement agencies of the existence of the order. The order is fully enforceable in any county in this state.

(c) The issuing court shall, within 3 business days after issuance of a risk protection order or temporary ex parte risk protection order, forward all available identifying information concerning the respondent, along with the date of order issuance, to the Department of Agriculture and Consumer Services. Upon receipt of the information, the department shall

determine if the respondent has a license to carry a concealed weapon or firearm. If the respondent does have a license to carry a concealed weapon or firearm, the department must immediately suspend the license.

(d) If a risk protection order is vacated before its end date, the clerk of the court shall, on the day of the order to vacate, forward a copy of the order to the Department of Agriculture and Consumer Services and the appropriate law enforcement agency specified in the order to vacate. Upon receipt of the order, the law enforcement agency shall promptly remove the order from any computer-based system in which it was entered pursuant to paragraph (b).

(11) PENALTIES.—

(a) A person who files a petition under this section knowing the information in such petition is materially false, or files with the intent to harass the respondent, commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(b) A person who has in his or her custody or control a firearm or any ammunition or who purchases, possesses, or receives a firearm or any ammunition with knowledge that he or she is prohibited from doing so by an order issued under this section commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(12) LAW ENFORCEMENT RETAINS OTHER AUTHORITY.—This section does not affect the ability of a law enforcement officer to remove a firearm or ammunition or license to carry a concealed weapon or concealed firearm from any person or to conduct any search and seizure for firearms or ammunition pursuant to other

lawful authority.

(13) LIABILITY.—Except as provided in subsection (10), this section does not impose criminal or civil liability on any person or entity for acts or omissions related to obtaining a risk protection order or temporary ex parte risk protection order, including, but not limited to, providing notice to the petitioner, a family or household member of the respondent, and any known third party who may be at risk of violence or failure to provide such notice, or reporting, declining to report, investigating, declining to investigate, filing, or declining to file, a petition under this section.

(14) INSTRUCTIONAL AND INFORMATIONAL MATERIAL.—

(a) The Office of the State Courts Administrator shall develop and prepare instructions and informational brochures, standard petitions and risk protection order forms, and a court staff handbook on the risk protection order process. The standard petition and order forms must be used after January 1, 2019, for all petitions filed and orders issued pursuant to this section. The office shall determine the significant non-English-speaking or limited English-speaking populations in the state and prepare the instructions and informational brochures, standard petitions and risk protection order forms in these languages. The instructions, brochures, forms, and handbook must be prepared in consultation with interested persons, including representatives of gun violence prevention groups, judges, and law enforcement personnel. Materials must be based on best practices and must be available online to the public.

1. The instructions must be designed to assist petitioners in completing the petition and must include a sample of a

standard petition and order for protection forms.

2. The instructions and standard petition must include a means for the petitioner to identify, with only layman's knowledge, the firearms or ammunition the respondent may own, possess, receive, or have in his or her custody or control. The instructions must provide pictures of types of firearms and ammunition that the petitioner may choose from to identify the relevant firearms or ammunition, or must provide an equivalent means to allow petitioners to identify firearms or ammunition without requiring specific or technical knowledge regarding the firearms or ammunition.

3. The informational brochure must describe the use of and the process for obtaining, extending, and vacating a risk protection order under this section, and must provide relevant forms.

4. The risk protection order form must include, in a conspicuous location, notice of criminal penalties resulting from violation of the order, and the following statement: "You have the sole responsibility to avoid or refrain from violating this order's provisions. Only the court can change the order and only upon written request."

5. The court staff handbook must allow for the addition of a community resource list by the clerk of the court.

(b) Any clerk of court may create a community resource list of crisis intervention, mental health, substance abuse, interpreter, counseling, and other relevant resources serving the county in which the court is located. The court may make the community resource list available as part of or in addition to the informational brochures described in paragraph (a).

(c) The Office of the State Courts Administrator shall distribute a master copy of the petition and order forms, instructions, and informational brochures to the clerks of court. Distribution of all documents shall, at a minimum, be in an electronic format or formats accessible to all courts and clerks of court in the state.

(d) Within 90 days of receipt of the master copy from the Office of the State Courts Administrator, the clerk of the court shall make available the standardized forms, instructions, and informational brochures required by this subsection.

(e) The Office of the State Courts Administrator shall update the instructions, brochures, standard petition and risk protection order forms, and court staff handbook as necessary, including when changes in the law make an update necessary.

Section 9. For the purpose of incorporating the amendment made by this act to section 790.065, Florida Statutes, in a reference thereto, subsection (2) of section 397.6760, Florida Statutes, is reenacted to read:

397.6760 Court records; confidentiality.—

(2) This section does not preclude the clerk of the court from submitting the information required by s. 790.065 to the Department of Law Enforcement.

Section 10. For the purpose of incorporating the amendment made by this act to section 790.065, Florida Statutes, in a reference thereto, paragraph (e) of subsection (3) of section 790.335, Florida Statutes, is reenacted to read:

790.335 Prohibition of registration of firearms; electronic records.—

(3) EXCEPTIONS.—The provisions of this section shall not

apply to:

(e)1. Records kept pursuant to the recordkeeping provisions of s. 790.065; however, nothing in this section shall be construed to authorize the public release or inspection of records that are made confidential and exempt from the provisions of s. 119.07(1) by s. 790.065(4)(a).

2. Nothing in this paragraph shall be construed to allow the maintaining of records containing the names of purchasers or transferees who receive unique approval numbers or the maintaining of records of firearm transactions.

Section 11. This act shall take effect October 1, 2018.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	SB 7024
INTRODUCER:	Rules Committee
SUBJECT:	Public Records/Victim of an Incident of Mass Violence
DATE:	February 26, 2018
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
		Phelps		**RC Submitted as Committee Bill**
1.	McVaney	Hansen	AP	**Favorable**

I. Summary:

SB 7024 makes the address of a victim of an incident of mass violence exempt from public records disclosure and copying requirements of Art. I, s. 24(a) of the State Constitution and s. 119.07(1), Florida Statutes. The bill defines "an incident of mass violence" as an incident in which three or more people, other than the perpetrator, are severely injured or killed by an intentional act of violence. A victim is considered to be a person killed or injured during an incident of mass violence.

The bill includes the required statement of public necessity.

The bill provides for an Open Government Sunset Review and specifies that the bill stands repealed October 2, 2023, unless the Legislature reviews and saves the exemption from repeal before that time.

An agency applying the exemption created by this bill may incur minimal costs.

A two-thirds vote of each chamber is required for passage of the bill because the bill creates a new public records exemption.

The bill takes effect upon becoming a law.

II. Present Situation:

Public Records Law

The Florida Constitution provides that the public has the right to inspect or copy records made or received in connection with official governmental business.[1] This applies to the official business

[1] FLA. CONST., art. I, s. 24(a).

of any public body, officer, or employee of the state, including all three branches of state government, local governmental entities, and any person acting on behalf of the government.[2]

In addition to the Florida Constitution, the Florida Statutes provide that the public may access legislative and executive branch records.[3] Chapter 119, F.S., constitutes the main body of public records laws, and is known as the Public Records Act.[4] The Public Records Act states that

> [it] is the policy of this state that all state, county, and municipal records are open for personal inspection and copying by any person. Providing access to public records is a duty of each agency.[5]

According to the Public Records Act, a public record includes virtually any document or recording, regardless of its physical form or how it may be transmitted.[6] The Florida Supreme Court has interpreted public records as being "any material prepared in connection with official agency business which is intended to perpetuate, communicate, or formalize knowledge of some type."[7] A violation of the Public Records Act may result in civil or criminal liability.[8]

The Legislature may create an exemption to public records requirements by passing a general law by a two-thirds vote of the House of Representatives and the Senate.[9] The exemption must explicitly lay out the public necessity justifying the exemption, and must be no broader than necessary to accomplish the stated purpose of the exemption.[10] A statutory exemption which does not meet these two criteria may be unconstitutional and may not be judicially saved.[11]

---

[2] FLA. CONST., art. I, s. 24(a).
[3] The Public Records Act does not apply to legislative or judicial records. *Locke v. Hawkes*, 595 So. 2d 32 (Fla. 1992). Also see *Times Pub. Co. v. Ake*, 660 So. 2d 255 (Fla. 1995). The Legislature's records are public pursuant to s. 11.0431, F.S. Public records exemptions for the Legislature are primarily located in s. 11.0431(2)-(3), F.S.
[4] Public records laws are found throughout the Florida Statutes.
[5] Section 119.01(1), F.S.
[6] Section 119.011(12), F.S., defines "public record" to mean "all documents, papers, letters, maps, books, tapes, photographs, films, sound recordings, data processing software, or other material, regardless of the physical form, characteristics, or means of transmission, made or received pursuant to law or ordinance or in connection with the transaction of official business by any agency." Section 119.011(2), F.S., defines "agency" as "any state, county, district, authority, or municipal officer, department, division, board, bureau, commission, or other separate unit of government created or established by law including, for the purposes of this chapter, the Commission on Ethics, the Public Service Commission, and the Office of Public Counsel, and any other public or private agency, person, partnership, corporation, or business entity acting on behalf of any public agency."
[7] *Shevin v. Byron, Harless, Schaffer, Reid, and Assoc. Inc*., 379 So. 2d 633, 640 (Fla. 1980).
[8] Section 119.10, F.S. Public records laws are found throughout the Florida Statutes, as are the penalties for violating those laws.
[9] FLA. CONST., art. I, s. 24(c).
[10] FLA. CONST., art. I, s. 24(c).
[11] *Halifax Hosp. Medical Center v. New-Journal Corp.,* 724 So. 2d 567 (Fla. 1999). In *Halifax Hospital*, the Florida Supreme Court found that a public meetings exemption was unconstitutional because the statement of public necessity did not define important terms and did not justify the breadth of the exemption. *Id*. at 570. The Florida Supreme Court also declined to narrow the exemption in order to save it. *Id.* In *Baker County Press, Inc. v. Baker County Medical Services, Inc.*, 870 So. 2d 189 (Fla. 1st DCA 2004), the court found that the intent of a statute was to create a public records exemption. The *Baker County Press* court found that since the law did not contain a public necessity statement, it was unconstitutional. *Id*. at 196.

When creating a public records exemption, the Legislature may provide that a record is 'confidential and exempt' or 'exempt.'[12] Records designated as 'confidential and exempt' may be released by the records custodian only under the circumstances defined by the Legislature. Records designated as 'exempt' may be released at the discretion of the records custodian under certain circumstances.[13]

Open Government Sunset Review Act

The Open Government Sunset Review Act (referred to hereafter as the "OGSR") prescribes a legislative review process for newly created or substantially amended public records or open meetings exemptions.[14] The OGSR provides that an exemption automatically repeals on October 2nd of the fifth year after creation or substantial amendment; in order to save an exemption from repeal, the Legislature must reenact the exemption.[15] In practice, many exemptions are continued by repealing the sunset date rather than reenacting the exemption.

The OGSR provides that a public records or open meetings exemption may be created or maintained only if it serves an identifiable public purpose and is no broader than is necessary.[16] An exemption serves an identifiable purpose if it meets one of the following purposes *and* the Legislature finds that the purpose of the exemption outweighs open government policy and cannot be accomplished without the exemption:

- It allows the state or its political subdivision to effectively and efficiently administer a program, and administration would be significantly impaired without the exemption;[17]
- Releasing sensitive personal information would be defamatory or would jeopardize an individual's safety. If this public purpose is cited as the basis of an exemption, however, only personal identifying information is exempt;[18] or
- It protects trade or business secrets.[19]

The OGSR also requires specified questions to be considered during the review process.[20] In examining an exemption, the OGSR asks the Legislature to carefully question the purpose and necessity of reenacting the exemption.

---

[12] If the Legislature designates a record as confidential, such record may not be released to anyone other than the persons or entities specifically designated in the statutory exemption. *WFTV, Inc. v. The School Board of Seminole*, 874 So. 2d 48 (Fla. 5th DCA 2004).

[13] *Williams v. City of Minneola*, 575 So. 2d 683 (Fla. 5th DCA 1991).

[14] Section 119.15, F.S. Section 119.15(4)(b), F.S., provides that an exemption is considered to be substantially amended if it is expanded to include more information or to include meetings. The OGSR does not apply to an exemption that is required by federal law or that applies solely to the Legislature or the State Court System pursuant to s. 119.15(2), F.S.

[15] Section 119.15(3), F.S.

[16] Section 119.15(6)(b), F.S.

[17] Section 119.15(6)(b)1., F.S.

[18] Section 119.15(6)(b)2., F.S.

[19] Section 119.15(6)(b)3., F.S.

[20] Section 119.15(6)(a), F.S. The specified questions are:

1. What specific records or meetings are affected by the exemption?
2. Whom does the exemption uniquely affect, as opposed to the general public?
3. What is the identifiable public purpose or goal of the exemption?
4. Can the information contained in the records or discussed in the meeting be readily obtained by alternative means? If so, how?
5. Is the record or meeting protected by another exemption?

If, in reenacting an exemption, the exemption is expanded, then a public necessity statement and a two-thirds vote for passage are required.[21] If the exemption is reenacted without substantive changes or if the exemption is narrowed, then a public necessity statement and a two-thirds vote for passage are *not* required. If the Legislature allows an exemption to sunset, the previously exempt records will remain exempt unless provided for by law.[22]

Public Records and Information about a Victim

General exemptions from public records disclosure are provided in s. 119.071, F.S. Certain information that is received or held by an agency regarding an agency investigation including a criminal investigation is protected from disclosure under public records law. The following are examples of exemptions that apply to information about a victim:

- Any document that reveals the identity, home or employment telephone number, home or employment address, or personal assets of the victim of a crime and identifies that person as the victim of a crime received by an agency that regularly receives information from or concerning victims of a crime, is exempt from public records requirements;[23]
- Criminal intelligence or criminal investigative information that reveals the identity of a victim of child abuse, human trafficking of a child, or a sexual offense is confidential and exempt from public records requirements[24]; and
- Personal identifying information of an alleged victim in an allegation of sexual harassment is confidential and exempt from public records requirements.[25]

Although an exemption may apply to protect from disclosure addresses of victims in certain instances, current law does not specifically make exempt the address of a victim of an incident of mass violence.

III. Effect of Proposed Changes:

This bill creates a public records exemption in s. 119.071(2), F.S., relating to agency investigations, for the address of a victim of a certain crime. Specifically, the bill makes exempt from public disclosure the address of a victim of an incident of mass violence.

The bill defines an incident of mass violence as an incident in which three or more people, not including the perpetrator, are severely injured or killed by an intentional act of violence by a perpetrator. Further, the bill defines a victim as a person who is injured or killed by an incident of mass violence.

In its statement of public necessity, the bill provides as justification that without the exemption the victim may be harassed, taken advantage of, or otherwise subjected to additional pain and suffering. After an incident of mass violence, victims are in a vulnerable state as they assist law

6. Are there multiple exemptions for the same type of record or meeting that it would be appropriate to merge?

[21] FLA. CONST. art. I, s. 24(c).
[22] Section 119.15(7), F.S.
[23] Section 119.071(2)(j)1., F.S.
[24] Section 119.071(2)(h)1. a. and b., F.S.
[25] Section 119.071(n), F.S.

enforcement with the investigation and try to recover from the traumatic event. The public availability of the victim's address may be used to locate the victim or the victim's family. Therefore, without the exemption, victims and their families may encounter media intrusions at their homes and other unwelcome intrusions into their privacy.

The bill provides for an Open Government Sunset Review and specifies that the bill will stand repealed on October 2, 2023, unless the Legislature reviews the exemption and saves it from repeal before that date.

The bill takes effect upon becoming a law.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

The mandate restrictions do not apply because the bill does not require counties and municipalities to spend funds, reduce counties' or municipalities' ability to raise revenue, or reduce the percentage of state tax shared with counties and municipalities.

B. Public Records/Open Meetings Issues:

Voting Requirement

Article I, s. 24(c) of the Florida Constitution requires a two-thirds vote of each chamber for newly created or expanded public records exemptions to pass. This bill creates a new public records exemption. Therefore, a two-thirds vote is required for passage.

Public Necessity Statement

Article I, s. 24(c) of the Florida Constitution requires a public necessity statement for a newly created or expanded public-records exemption. The Florida Constitution provides that an exemption must state with specificity the public necessity of the exemption. The public necessity statement provides that without the exemption the victim may be harassed, taken advantage of, or otherwise subjected to additional pain and suffering. After an incident of mass violence, victims are in a vulnerable state as they assist law enforcement with the investigation and try to recover from the traumatic event. The public availability of the victim's address may be used to locate the victim or the victim's family. Therefore, without the exemption, victims and their families may encounter media intrusions at their homes and other unwelcome intrusions into their privacy.

Breadth of Exemption

Article I, s. 24(c) of the Florida Constitution requires a newly created public records exemption to be no broader than necessary to accomplish the stated purpose of the law. The bill creates an exemption for the address of a victim of an incident of mass violence, and defines as an incident of mass violence an incident in which three or more people other than the perpetrator are killed or severely injured. Further, the bill limits as a victim a person who is injured or killed during the incidence of mass violence. The bill appears

to be no broader than necessary to accomplish the public necessity for the public records exemption.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

An agency may incur an indeterminate but de minimus cost in administering the exemption in this bill.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends section 119.071 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

By the Committee on Rules

595-03732-18 20187024__

A bill to be entitled

An act relating to public records; amending s. 119.071, F.S.; creating an exemption from public records requirements for the address of a victim of an incident of mass violence; providing definitions; providing for future legislative review and repeal of the exemption; amending s. 119.011, F.S.; designating the address of a victim of an incident of mass violence as criminal intelligence information and criminal investigative information; providing a statement of public necessity; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (o) is added to subsection (2) of section 119.071, Florida Statutes, to read:

119.071 General exemptions from inspection or copying of public records.—

(2) AGENCY INVESTIGATIONS.—

(o) The address of a victim of an incident of mass violence is exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution. For purposes of this paragraph, the term "incident of mass violence" means an incident in which three or more people, not including the perpetrator, are severely injured or killed by an intentional act of violence of another. For purposes of this paragraph, the term "victim" means a person killed or injured during an incident of mass violence, not including the perpetrator. This paragraph is subject to the Open

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

595-03732-18 20187024__

Government Sunset Review Act in accordance with s. 119.15 and shall stand repealed on October 2, 2023, unless reviewed and saved from repeal through reenactment by the Legislature.

Section 2. Paragraph (c) of subsection (3) of section 119.011, Florida Statutes, is amended to read:

119.011 Definitions.—As used in this chapter, the term:

(3)

(c) "Criminal intelligence information" and "criminal investigative information" shall not include:

1. The time, date, location, and nature of a reported crime.

2. The name, sex, age, and address of a person arrested or of the victim of a crime except as provided in s. 119.071(2)(h) or (o).

3. The time, date, and location of the incident and of the arrest.

4. The crime charged.

5. Documents given or required by law or agency rule to be given to the person arrested, except as provided in s. 119.071(2)(h) or (m), and, except that the court in a criminal case may order that certain information required by law or agency rule to be given to the person arrested be maintained in a confidential manner and exempt from the provisions of s. 119.07(1) until released at trial if it is found that the release of such information would:

a. Be defamatory to the good name of a victim or witness or would jeopardize the safety of such victim or witness; and

b. Impair the ability of a state attorney to locate or prosecute a codefendant.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

6. Informations and indictments except as provided in s. 905.26.

Section 3. The Legislature finds that it is a public necessity that the address of victims of an incident of mass violence be made exempt from s. 119.07(1), Florida Statutes, and s. 24(a), Article I of the State Constitution. After an incident of mass violence has occurred, victims of such an incident are in a vulnerable state as they assist law enforcement with the investigation of the incident and try to recover from the events that occurred. In some instances, the victim may have been killed or injured leaving their families to deal with the aftermath of the crime. The public availability of such victim's address may be used to locate the victim or the victim's family. The availability of such information has allowed people to take advantage of the victims or their families by subjecting the victims or their families to media intrusions at their homes and other unwelcome intrusions into their privacy. Therefore, it is necessary that the address of victims of incidents of mass violence be protected to ensure that persons affected by such incidents are not harassed, taken advantage of, or otherwise subjected to additional pain and suffering.

Section 4. This act shall take effect upon becoming a law.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 7026
INTRODUCER:	Appropriations Committee and Rules Committee
SUBJECT:	Public Safety
DATE:	February 28, 2018 REVISED:

ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
Androff, Bouck, Cellon	Phelps		**RC Submitted as Committee Bill**
McVaney	Hansen	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 7026 provides law enforcement, the courts, and schools with the tools to enhance public safety by temporarily restricting firearm possession by a person who is undergoing a mental health crisis and when there is evidence of a threat of violence. The bill also promotes school safety and enhanced coordination between education and law enforcement entities at the state and local level. Specifically, the bill:

- Creates the Medical Reimbursement Program for Victims of Mass Shootings to reimburse trauma centers from the medical costs of treating victims for injuries associated with a mass shooting.
- Authorizes a law enforcement officer who is taking a person into custody for an involuntary examination under the Baker Act to seize and hold a firearm or ammunition the person possesses at the time of being taken into custody if the person poses a potential danger to himself or herself or others and has made a credible threat of violence against another person.
- Allows an officer who is taking a person into custody at his or her residence to seek the voluntary surrender of firearms or ammunition kept in the residence not already seized.
- Prohibits a person who has been adjudicated mentally defective or who has been committed to a mental institution from owning or possessing a firearm until a court orders otherwise.
- Requires a three-day waiting period for all firearms, not just handguns or until the background check is complete, whichever is later.
- Prohibits a person under 21 years of age from purchasing a firearm.
- Prohibits a licensed firearm dealer, importer, or manufacturer, from making or facilitating the sale or transfer of a firearm to a person under the age of 21. This prohibition does not apply

to the purchase of a rifle or shotgun by a law enforcement officer or a correctional officer or to a member of the military.

- Prohibits a bump-fire stock from being imported, transferred, distributed, transported, sold, keeping for sale, offering or exposing for sale, or given away within the state.
- Creates a process for a law enforcement officer or law enforcement agency to petition a court for a risk protection order to temporarily prevent persons who are at high risk of harming themselves or others from accessing firearms when a person poses a significant danger to himself or herself or others, including significant danger as a result of a mental health crisis or violent behavior.
- Provides a court can issue a risk protection order for up to 12 months.
- Allows a court to issue temporary ex parte risk protection order in certain circumstances.
- Requires the surrender of all firearms and ammunition if a risk protection order or ex parte risk protection order is issued.
- Provides a process for a risk protection order to be vacated or extended.
- Establishes the Marjory Stoneman Douglas High School Public Safety Commission within the Florida Department of Law Enforcement (FDLE) to investigate system failures in the Parkland school shooting and prior mass violence incidents, and develop recommendations for system improvements.
- Codifies the Office of Safe Schools (office) within the Florida Department of Education (DOE) and specifies the purpose of the office is to serve as the state education agency's primary coordinating division for promoting and supporting safe-learning environments.
- Creates the Florida Sheriff's Marshal Program within the DOE as a voluntary program to assist school districts and public schools in enhancing the safety and security of students, faculty, staff, and visitors to Florida's public schools and campuses.
- Codifies the Multiagency Service Network for Students with Severe Emotional Disturbance (SEDNET) as a function of the DOE in partnership with other state, regional, and local entities to facilitate collaboration and communication between the specified entities.
- Establishes the Public School Emergency Response Learning System Program to assist school personnel in preparing for and responding to active emergency situations and to implement local notification systems for all Florida public schools.
- Establishes the "FortifyFL" program and requires the FDLE to procure a mobile suspicious activity reporting tool that allows students and the community to report information anonymously about specified activities or the threat of such activities to appropriate public safety agencies and school officials.
- Requires each district school board and school district superintendent to cooperate with law enforcement agencies to assign one or more safe-school officers at each school facility, and:
  - Requires each district school board to designate a district school safety specialist to serve as the district's primary point of public contact for public school safety functions.
  - Requires each school district to designate a threat assessment team at each school, and requires the team to operate under the district school safety specialist's direction.
- Creates the mental health assistance allocation to provide supplemental funding to assist school districts and charter schools in establishing or expanding comprehensive mental health programs and to connect students and families with appropriate services.
- Clarifies the applicability of public records exemptions for security systems and plans.

Local law enforcement agencies may incur additional expense resulting from the law enforcement officer's participation in the newly-created risk protection order process and related administration of the firearms and ammunition seizure, storage and release. These costs are expected to be insignificant.

The school safety provisions contained in the bill may have a significant fiscal impact.

The bill appropriates $200 million in nonrecurring and $200 million in recurring funds from the General Revenue Fund to implement the bill provisions.

The bill takes effect upon becoming a law.

II. Present Situation:

The present situation for the relevant portions of the bill is discussed in Section III. Effect of Proposed Changes of this bill analysis.

III. Effect of Proposed Changes:

Mass Shootings in Recent History

On February 14, 2018, a mass shooting occurred at Marjory Stoneman Douglas High School in Parkland, Florida, which left 17 people dead.[1] It was the deadliest school shooting since the December 2012 Sandy Hook Elementary School shooting in Connecticut that resulted in the death of 28 people.

The Parkland shooter was 19 years of age and used an AR-15 semi-automatic rifle during the shooting spree, the same type of firearm used during the Sandy Hook shooting and the Pulse Nightclub shooting in Orlando that left 49 dead and 53 injured on June 12, 2016.[2]

Broward County Sheriff Scott Israel has said that the sheriff's office received about 20 calls for service over the past few years regarding the Parkland shooter and his younger brother.[3] Apparently, the Federal Bureau of Investigation (FBI) had received information in 2017 about a YouTube comment ("I'm going to be a professional school shooter.") that some had attributed to the Parkland shooter. However, the identity of the person who posted the comment could not be

ascertained by the FBI.[4] It has also been reported that the FBI failed to investigate a tip it received in January 2018 concerning the Parkland shooter.[5]

It has been reported that the Parkland shooter had been expelled from Marjory Stoneman Douglas High School for disciplinary reasons and that he may have had what could be described as a hard time fitting in at school.[6] It has also been reported that the Parkland shooter began legally buying firearms, including the one used during the Valentine's Day shooting, on or around his eighteenth birthday in September 2016, and that he had collected at least seven rifles during that time.[7]

Effect of Proposed Changes

The Legislature finds there is a need to comprehensively address the crisis of gun violence, including but not limited to, gun violence on school campuses. The Legislature intends to address this crisis by providing law enforcement and the courts with the tools to enhance public safety by temporarily restricting firearm possession by a person who is undergoing a mental health crisis and when there is evidence of a threat of violence, and by promoting school safety and enhanced coordination between education and law enforcement entities at the state and local level.

Trauma Centers

The regulation of trauma centers in Florida is established under part II of ch. 395, F.S. Trauma centers treat individuals who have incurred single or multiple injuries because of blunt or penetrating means or burns, and who require immediate medical intervention or treatment. Currently, there are 36 verified and provisional trauma centers in the state.[8] A hospital may operate as a provisional trauma center based on approval of the Department of Health pending verification of full compliance with trauma center standards for the applicable category of trauma center.[9]

Trauma centers in Florida are divided into three categories including Level I, Level II, and Pediatric trauma centers.

- A Level I trauma center has formal research and education programs for the enhancement of trauma care; serves as a resource facility to Level II trauma centers, pediatric trauma centers, and general hospitals; and meets the Level I trauma center standards for adult and pediatric patients.[10]

- A Level II trauma center serves as a resource to general hospitals and meets the trauma center standards for a Level II trauma center for adult patients.[11]
- A Pediatric trauma center meets the pediatric trauma center standards.[12, 13]

Effect of Proposed Changes

The bill creates the Medical Reimbursement Program for Victims of Mass Shootings to reimburse trauma centers verified or designated pursuant to s. 395.4025, F.S., for the medical costs of treating victims for injuries associated with a mass shooting. The bill defines a "mass shooting" to mean an incident in which four or more people are killed or injured by firearms in one or more locations in close proximity.

The Medical Reimbursement Program for Victims of Mass Shootings requires the Department of Legal Affairs to reimburse such trauma centers based on a department-approved fee schedule for the documented medical costs of treating victims for injuries associated with a mass shooting. A trauma center that requests a reimbursement through the program must accept the reimbursement as payment in full and may not bill the victim of a mass shooting or his or her family.

Second Amendment

The Second Amendment to the United States Constitution states, "[a] well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed."[14] Courts have consistently held that the Second Amendment is fully applicable to the states through the due process clause of the Fourteenth Amendment.[15]

State laws restricting gun possession and ownership have consistently been challenged on constitutional grounds. In *District of Columbia v. Heller*, a landmark case on interpreting the Second Amendment, a special police officer brought action to enjoin the District of Columbia from enforcing gun-control statutes.[16] In *Heller*, the Court found that while the Second Amendment confers an individual right to keep and bear arms, that right is not unlimited.[17] The Court held that the Second Amendment does not protect the right of citizens to carry arms for any sort of confrontation, but rather that it guarantees the individual right to possess and carry weapons in case of confrontation.[18] The Court struck down the District of Columbia's ban on handgun possession in the home and the requirement that any lawful firearm in the home be disassembled or bound by a trigger lock because both provisions made it impossible for citizens to use arms for the core lawful purpose of self-defense, making such provisions unconstitutional.[19]

[16] 554 U.S. 570 (2008).
[17] *Id.* at 595.
[18] *Id.* at 592 and 595.
[19] *Id.* at 570.

The Court in *Heller* determined that the Second Amendment protects only "the sorts of weapons" that are "in common use" and "typically possessed by law-abiding citizens for lawful purposes."[20] From *Heller*, courts have derived a two-prong approach to Second Amendment challenges. First, the court considers whether the challenged law imposes a burden on conduct falling within the scope of the Second Amendment's guarantee.[21] If it does not, the inquiry is complete.[22] If it does, the court must evaluate the law under some form of means-end scrutiny. If the law passes muster under that standard, it is constitutional. If it fails, it is invalid.[23] In Second Amendment challenges, courts have consistently invoked intermediate scrutiny, which provides that a challenged law must further an important government interest and must do so by means that are substantially related to that interest in order to be upheld.[24] If the law passes muster under this standard, then it survives intermediate scrutiny and is constitutional.[25]

Since *Heller*, overbroad prohibitions on gun possession have been struck down, but more narrowly tailored restrictions on possession and control of guns have been upheld. The court in *Kachalsky v. County of Westchester* applied intermediate scrutiny to a state law that restricted individuals' ability to carry firearms in public.[26] The *Kachalsky* court held that the state's ability to regulate firearms is qualitatively different in public from in the home.[27]

Subsequently, in *New York State Rifle and Pistol Association, Inc. v. Cuomo*, the court was faced with two appeals challenging gun-control legislation enacted by the New York and Connecticut legislatures.[28] The court held that laws prohibiting possession of certain semiautomatic assault rifles and large-capacity magazines did not violate the Second Amendment.[29] The court also found that while semiautomatic assault weapons and large-capacity magazines are commonly owned by many law-abiding Americans, such weapons are not nearly as popularly owned and used for self-defense as the handgun.[30] Thus, the court applied intermediate scrutiny and found that prohibitions on semiautomatic assault weapons and large-capacity magazines were substantially related to the achievement of a compelling governmental interest in public safety and crime prevention.[31]

Firearm Purchase Process

Firearms are available for purchase from primarily two groups of people: private citizens and federally-licensed gun dealers. A private citizen does not necessarily engage in a business selling firearms but is able to sell firearms at a gun show or elsewhere. A federal firearms licensee (FFL) is licensed by the Federal Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF) to sell or

transfer a firearm. An individual must be licensed with the ATF to engage in the business of firearms.[32] A private citizen does not necessarily have to follow the processes required of FFLs.

Private Firearm Sale "Loophole"

The widely-used term "gun show loophole" refers to the difference between the way private sales or transfers of firearms occur as compared to the requirements that must be met by FFLs. A FFL must have FDLE conduct a background check for all firearm purchases and deliveries and wait 3 days between the purchase and delivery of all handgun sales; a person conducting a private transaction is not subject these requirements.

Background Checks

FFL's must facilitate a background check on a person making a firearm purchase from the dealer. The National Instant Criminal Background Check System (NICS) was established for dealers to contact by telephone, or other electronic means, for information to be supplied immediately on whether the transfer of a firearm would be in violation of 18 U.S.C. s. 922(g) or (n), or state law.[33]

In Florida, the Florida Department of Law Enforcement (FDLE) acts as the contact for a FFL initiating a background check.[34] The background check for firearm purchases queries five FDLE and FBI Criminal Justice Information Systems.[35] Of the 990,314 inquiries the FDLE received in 2017, over 96 percent received an initial decision approving the firearm transfer at the time the transaction was processed. [36]

All FFLs who sell firearms in Florida to persons must:

- Obtain a completed form which provides the purchaser's identification information and verify identification by inspecting a photo ID;
- Collect a fee from the purchaser for processing the criminal history check of the purchaser;
- Contact the FDLE by means of a toll-free telephone number to conduct a criminal history check; and
- Receive an approval number from the FDLE and record the number on the consent form.[37]

Firearm Purchase Disqualifiers

Under 18 U.S.C. s. 922(g), a person is disqualified from purchasing a firearm if the person:

- Is convicted of a crime punishable by imprisonment exceeding one year;
- Is a fugitive from justice;
- Is a unlawful user or addicted to any controlled substance as defined in 21 U.S.C s. 802;
- Has been adjudicated as a mental defective or has been committed to any mental institution;

[36] Email from the FDLE staff to Senate Committee on Criminal Justice staff on February 21, 2018 (on file with Senate Committee on Criminal Justice).
[37] Section 790.065(1), F.S. Other FFLs are exempt from this provision.

- Is an illegal alien;
- Has been discharged from the Armed Forces under dishonorable conditions;
- Has renounced his or her U.S. citizenship;
- Is subject to a court order restraining the person from harassing, stalking or threatening an intimate partner or child of the intimate partner; or
- Has been convicted of a misdemeanor crime of domestic violence.

In Florida, s. 790.065(2)(a), F.S., disqualifies a person from purchasing a firearm if the person:
- Has been convicted of a felony and is prohibited from receipt or possession of a firearm pursuant to s. 790.23, F.S.[38]
- Has been convicted of a misdemeanor crime of domestic violence,[39] and therefore is prohibited from purchasing a firearm.
- Has had an withhold of adjudication or imposition of sentence suspended on any felony or misdemeanor crime of domestic violence unless 3 years have elapsed since probation or any other court set conditions have been fulfilled or an expunction has occurred.
- Has been adjudicated mentally defective, or has been committed to a mental institution by a court or by voluntary admission to a mental institution after having been involuntarily examined where additional criteria are met.[40]

The FDLE must also determine if a person has any of the following in his or her background check that disqualifies him or her from purchasing a firearm:
- Has been indicted or had an information filed against her or him for a felony offense.
- Has had an injunction for protection against domestic violence under s. 741.30, F.S., entered against him or her.
- Has had an injunction for protection against repeat violence under s. 784.046, F.S., entered against him or her.
- Has been arrested for a dangerous crime as specified in s. 907.041(4)(a), F.S.[41]
- Has been arrested for any of the offenses enumerated in s. 790.065, F.S.[42]

[38] Section 790.23(1), F.S., provides that anyone who has been convicted of a felony in Florida, another state or a crime against the U.S. that would be a felony, or has committed a delinquent act in Florida or another state that would be a felony if committed by an adult and the person is under 24 years old is prohibited from possessing a firearm.
[39] Section 741.28, F.S., defines domestic violence as any assault, aggravated assault, battery, aggravated battery, sexual assault, sexual battery, stalking, aggravated stalking, kidnapping, false imprisonment, or any criminal offense resulting in physical injury or death of one family or household member by another family or household member.
[40] Section 790.065(2)(a)4., F.S.
[41] Section 907.041(4)(a), F.S., specifies the following as a dangerous crime: arson; aggravated assault; aggravated battery; illegal use of explosives; child abuse or aggravated child abuse; abuse of an elderly person or disabled adult, or aggravated abuse of an elderly person or disabled adult; aircraft piracy; kidnapping; homicide; manslaughter; sexual battery; robbery; carjacking; lewd, lascivious, or indecent assault or act upon or in presence of a child under the age of 16 years; sexual activity with a child, who is 12 years of age or older but less than 18 years of age, by or at solicitation of person in familial or custodial authority; burglary of a dwelling; stalking and aggravated stalking; act of domestic violence as defined in s. 741.28, F.S., home invasion robbery; act of terrorism as defined in s. 775.30, F.S.; manufacturing any substances in violation of ch. 893, F.S.; attempting or conspiring to commit any such crime; and human trafficking.
[42] Section 790.065(2)(c), F.S., lists the following offenses: criminal anarchy under ss. 876.01 and 876.02, F.S.; Extortion under s. 836.05, F.S., explosives violations under s. 552.22(1) and (2), F.S.; controlled substances violations under ch. 893 F.S.; resisting an officer with violence under s. 843.01, F.S.; weapons and firearms violations under ch. 790, F.S.; treason under s. 876.32, F.S.; assisting self-murder under s. 782.08, F.S.; sabotage under s. 876.38, F.S.; stalking or aggravated stalking under s. 784.048, F.S.

The FDLE has 24 working hours to make such determinations as to whether the potential buyer is prohibited from receiving or possessing a firearm.[43] Section 790.065(2)(c)2., F.S., defines working hours to mean from the hours from 8 a.m. to 5 p.m. Monday through Friday excluding legal holidays.

The FDLE reports the following numbers and reasons for not approving a firearm sale during 2017:

- 4,170 for a felony conviction;
- 717 for being under indictment;
- 556 for being a fugitive from justice;
- 920 for being user or addicted to any controlled substance;
- 871 for having been adjudicated as a mental defective or having been committed to any mental institution;
- 449 for being an illegal alien;
- 11 for having been dishonorably discharged from the Armed Forces;
- 3 for renouncing his or her U.S. citizenship;
- 1,185 for being subject to a protection order;
- 1,174 for a misdemeanor crime of domestic violence; and
- 2,587 for a state disqualifier.[44]

Firearm Purchase Disability

A person who has been adjudicated mentally defective or has been committed to a mental institution cannot purchase a firearm in Florida until the firearm disability is removed by the court.[45]

The term "adjudicated mentally defective" means a determination by a court that a person, as a result of marked subnormal intelligence, or mental illness, incompetency, condition, or disease, is a danger to himself or herself or to others or lacks the mental capacity to contract or manage his or her own affairs. The phrase includes a judicial finding of incapacity,[46] an acquittal by reason of insanity of a person charged with a criminal offense, and a judicial finding that a criminal defendant is not competent to stand trial.[47]

"Committed to a mental institution" means involuntary commitment, commitment for mental defectiveness or mental illness, and commitment for substance abuse. The phrase includes

[43] Section 790.065(2)(c)2., F.S.
[44] The numbers reflect non-approvals as of February 21, 2018. E-mail from the FDLE staff to the Senate Committee on Criminal Justice, February 21, 2018 (on file with Senate Committee on Criminal Justice).
[45] Section 790.065(2)(a)4., F.S.
[46] Section 744.331(6)(a), F.S., provides that a court should consider the person's unique needs and abilities and may only remove those rights that the court finds the person does not have the capacity to exercise.
[47] Section 790.065(2)(a)4.b., F.S.

involuntary inpatient placement,[48] involuntary outpatient placement,[49] involuntary[50] assessment and stabilization,[51] and involuntary substance abuse treatment,[52] but does not include a person in a mental institution for observation or discharged from a mental institution based upon the initial review by the physician or a voluntary admission to a mental institution.[53] The term also includes when a person has been involuntary examined under the Baker Act statute but then consents to voluntary inpatient or outpatient treatment if certain conditions are met.[54]

[48] Section 394.4655, F.S., provides a person may be ordered for involuntary impatient placement if he or she has a mental illness and because of his or her mental illness: has refused voluntary inpatient placement for treatment after sufficient and conscientious explanation and disclosure of the purpose of inpatient placement for treatment; or is unable to determine for himself or herself whether inpatient placement is necessary; and is incapable of surviving alone or with the help of willing and responsible family or friends, including available alternative services, and, without treatment, is likely to suffer from neglect or refuse to care for himself or herself, and such neglect or refusal poses a real and present threat of substantial harm to his or her well-being; or there is substantial likelihood that in the near future he or she will inflict serious bodily harm on self or others, as evidenced by recent behavior causing, attempting, or threatening such harm; and all available less restrictive treatment alternatives that would offer an opportunity for improvement of his or her condition have been judged to be inappropriate.

[49] Section 397.6818, F.S., provides a person may be ordered to involuntary outpatient services if the person is18 years of age or older; has a mental illness; is unlikely to survive safely in the community without supervision, based on a clinical determination; has a history of lack of compliance with treatment for mental illness; the person has: at least twice within the immediately preceding 36 months been involuntarily admitted to a receiving or treatment facility as defined in s. 394.455, F.S., or has received mental health services in a forensic or correctional facility; or engaged in one or more acts of serious violent behavior toward self or others, or attempts at serious bodily harm to himself or herself or others, within the preceding 36 months; as a result of his or her mental illness, unlikely to voluntarily participate in the recommended treatment plan and has refused voluntary services for treatment after sufficient and conscientious explanation and disclosure of why the services are necessary or is unable to determine for himself or herself whether services are necessary; in view of the person's treatment history and current behavior, is in need of involuntary outpatient services in order to prevent a relapse or deterioration that would be likely to result in serious bodily harm to himself or herself or others, or a substantial harm to his or her well-being as set forth in s. 394.463(1), F.S., it is likely that the person will benefit from involuntary outpatient services; and all available, less restrictive alternatives that would offer an opportunity for improvement of his or her condition have been judged to be inappropriate or unavailable.

[50] A person meets the criteria for involuntary admission if there is good faith reason to believe that the person is substance abuse impaired or has a co-occurring mental health disorder and, because of such impairment or disorder: has lost the power of self-control with respect to substance abuse; and is in need of substance abuse services and, by reason of substance abuse impairment, his or her judgment has been so impaired that he or she is incapable of appreciating his or her need for such services and of making a rational decision in that regard, although mere refusal to receive such services does not constitute evidence of lack of judgment with respect to his or her need for such services; or without care or treatment, is likely to suffer from neglect or refuse to care for himself or herself; that such neglect or refusal poses a real and present threat of substantial harm to his or her well-being; and that it is not apparent that such harm may be avoided through the help of willing family members or friends or the provision of other services, or there is substantial likelihood that the person has inflicted, or threatened to or attempted to inflict, or, unless admitted, is likely to inflict, physical harm on himself, herself, or another. Section 397.675, F.S.

[51] A person who meets the criteria for involuntary admission may be admitted for a period of 5 days to a hospital or licensed detoxification facility or addictions receiving facility, for involuntary assessment and stabilization. Sections 397.6811(1), and 397.6818, F.S.

[52] A person who meets the criteria for involuntary admission may be the subject of petition of a for involuntary treatment if the person has been placed under a protective custody within the previous 10 days; has been subject to an emergency admission within the previous 10 days; has been assessed by a qualified professional within 5 days; has been subject to involuntary assessment and stabilization within the previous 12 days; or has been subject to alternative involuntary admission within the previous 12 days. Sections 397.693 and 397.6957, F.S.

[53] Section 790.065(2)(a)4., F.S

[54] Section 790.065(2)(a)4.b.(II), F.S.

A person with a firearm disability may petition the court that adjudicated or committed him or her to have the firearm disability removed. The petition must be served on the state attorney of the county in which the person was adjudicated or committed. The petitioner can choose whether the hearing is open or closed. The petitioner and the state attorney present evidence. The court must make written findings. For the firearm disability to be removed, the court must find that the petitioner will not be likely to act in a manner that is dangerous to public safety and that removing the firearm disability would not be contrary to the public interest. If the court denies the petition, the person must wait one year from the date of the final order denying the removal of the firearm disability to petition the court again for such relief.[55]

Effect of Proposed Changes

The bill provides that a person who has been adjudicated mentally defective or who has been committed to a mental institution as those terms are defined in s. 790.065(2)(a)4., F.S., may not own a firearm or possess a firearm until relief from the firearm possession and firearm ownership disability is obtained.

The bill provides a process for the person who has the firearm disability related to possession and ownership of a firearm to petition a court to have the disability removed. This mirrors the process provided in s. 790.065(2), F.S., as it relates to the firearm purchase disability.

Three-Day Waiting Period

Article I, section 8(b) of the Florida Constitution requires a three-day waiting period between the purchase and delivery at retail of handguns. Specifically, the Florida Constitution provides:

> There shall be a mandatory period of three days, excluding weekends and legal holidays, between the purchase and delivery at retail of any handgun. For the purposes of this section, 'purchase' means the transfer of money or other valuable consideration to the retailer, and 'handgun' means a firearm capable of being carried and used by one hand, such as a pistol or revolver. Holders of a concealed weapon permit as prescribed in Florida law shall not be subject to the provisions of this paragraph.[56]

Section 790.0655, F.S., implements article I, section 8(b), of the Florida Constitution.[57] The three-day waiting period only applies to handgun sales transacted by retailers, not private sales. A retailer includes every person engaged in the business of making sales at retail or for distribution, use, or consumption, or storage to be used or consumed in this state.[58]

The Florida Constitution and s. 790.0655, F.S., exempt the following circumstances from the three-day handgun waiting period:

---

[55] Section 790.065(2)(a)4.d., F.S.
[56] FLA. CONST. art. I, s. 8(b).
[57] There is a mandatory 3-day waiting period, which is 3 days, excluding weekends and legal holidays, between the purchase and the delivery at retail of any handgun. “Purchase” means the transfer of money or other valuable consideration to the retailer. “Handgun” means a firearm capable of being carried and used by one hand, such as a pistol or revolver. Section 790.0655, F.S.
[58] Section 790.0655, F.S.

- A holder of a concealed weapons permit as defined in s. 790.06; F.S., and
- To a trade-in of another handgun.

It is a third degree felony for any retailer, or any employee or agent of a retailer, to deliver a handgun before the expiration of the three-day waiting period.[59]

Effect of Proposed Changes

The three-day waiting period between the purchase of and the delivery of a handgun as provided in s. 790.0655, F.S., is amended by the bill to create a three-day waiting period for all firearms, not just handguns.

Additionally, the bill extends the waiting period beyond three days if more time is necessary to complete the firearm purchase background check.

The bill adds a new exception to the waiting period requirement for a person who completes minimum of a 16-hour hunter education or hunter safety course approved by the Fish and Wildlife Conservation Commission or similar agency of another state, if that person is not purchasing a handgun.

Age Restrictions on Purchase and Use of Firearms

Federal law prohibits FFLs from selling a handgun to a person less than 21 years of age.[60]

Florida law prohibits the sale or transfer of a firearm to a minor by *any* person although ownership of the firearm may be transferred to the minor with a parent or guardian's permission. A person who violates this prohibition commits a third degree felony.[61]

In Florida, it is unlawful for any firearm dealer to sell or transfer to a minor any firearm, pistol, Springfield rifle or other repeating rifle, bowie knife or dirk knife, brass knuckles, or electric weapon or device. A firearm dealer who violates this provision commits a second degree felony.[62]

A minor under 18 years of age may not possess a firearm in Florida, other than an unloaded firearm at his or her home. There are exceptions to the general rule for these circumstances:

- The minor is engaged in a lawful hunting activity and is:
  - At least 16 years of age; or
  - Under 16 years of age and supervised by an adult.

[59] Subject to the exceptions noted above and provided in s. 790.0655(2), F.S. A third degree felony is punishable by up to five years imprisonment and up to a $5,000 fine. Sections 775.082, 775.083, and 775.084, F.S

[60] 18 U.S.C. s. 922(8)(b)1, specifically provides that it shall be unlawful for any licensed importer, licensed manufacturer, licensed dealer, or licensed collector to sell or deliver any firearm or ammunition to any individual who the licensee knows or has reasonable cause to believe is less than eighteen years of age, and, if the firearm, or ammunition is other than a shotgun or rifle, or ammunition for a shotgun or rifle, to any individual who the licensee knows or has reasonable cause to believe is less than twenty-one years of age.

[61] Section 790.17, F.S.

[62] Section 790.18, F.S. A second degree felony is punishable by up to 15 years imprisonment and up to a $10,000 fine. Sections 775.082 and 775.083, F.S.

- The minor is engaged in a lawful marksmanship competition or practice or other lawful recreational shooting activity and is:
  - At least 16 years of age or
  - Under 16 years of age and supervised by an adult who is acting with the consent of the minor's parent or guardian.
- The firearm is unloaded and is being transported by the minor directly to or from an event authorized above.[63]

Effect of the Proposed Changes

The bill amends s. 790.065, F.S., to raise the age from 18 to 21 years of age for all firearm purchases. The bill also prohibits the sale or transfer of a firearm to a person under the age of 21 from being made or facilitated by a licensed firearm dealers, importer, or manufacturer. A person who violates this prohibition commits a third degree felony.

The prohibition on the purchase of a firearm by a person younger than 21 years of age or the sale or transfer by a licensed importer, licensed manufacturer, or licensed dealer to a person younger than 21 years of age does not apply to a member of the military or naval forces of this state or of the United States or to a law enforcement or correctional officer as defined in s. 943.10, F.S.

Bump-Fire Stocks

A bump stock (or bump-fire stock) is a piece of plastic or metal molded that attaches to the lower end of a rifle. The device allows a semi-automatic rifle to mimic a fully automatic rifle firing rate. This can allow a person to fire dozens of rounds in seconds by harnessing the gun's natural recoil without much concern for accuracy, as the recoil from simulated automatic fire would make it difficult to hit specific targets at a long range. A rifle with this type of mechanism works best with a high-capacity magazine that can hold between 60 and 100 rounds and a hand grip that allows a shooter to push the rifle away from the body to bounce, or bump, the weapon into the trigger finger.[64] Experts have stated that semi-automatic rifles with bump stocks could fire hundreds of rounds per minute.[65]

The shooter at the October 2017 Las Vegas music festival had 12 rifles with bump stocks, which allowed him to kill 59 people and injure more than 500 others.[66]

---

[63] Section 790.22(3), F.S.

[66] *Id.*; *See also* The Washington Post, *At least 59 killed in Las Vegas shooting rampage, more than 500 others injured*, Matt Zapotosky, Devlin Barrett and Mark Berman, October 3, 2017, available at https://www.msn.com/en-us/news/breakingnews/at-least-59-killed-in-las-vegas-shooting-rampage-more-than-500-others-injured/ar-AAsM6kd (last visited February 22, 2018).

While machine guns are regulated under the National Firearms Act, the ATF concluded that bump stocks did not convert a semi-automatic firearm into one that is fully automatic, which would make it equivalent to machine guns. Currently, bump stocks are legal and not regulated by the ATF.[67]

Other States, Congress, Presidential Memorandum

Following the Las Vegas shooting and the recent shooting at Marjory Stoneman Douglas High School in Parkland, Florida, much public attention has been focused on bump stock-type devices.

Congress has not passed any legislation to restrict bump stocks, but there is a bill filed that would require persons who possess bump-fire stocks to register them with the Secretary of the Treasury.[68]

At least four states have banned the possession and sale of bump-fire stocks, although the definitions and descriptions of the devices vary.[69] At least 15 states are considering legislation that would ban bump stocks.[70]

Additionally, President Trump issued a Memorandum on February 20, 2018, directing the Department of Justice to propose a rule banning "all devices that turn legal weapons into machine guns."[71]

Effect of Proposed Changes

The bill defines "bump-fire stock" as a gun conversion kit, a tool, an accessory, or a device used to alter the rate of fire of a firearm to mimic automatic weapon fire or increase the rate of fire of a semiautomatic firearm to a faster rate than is possible for a person to fire such semiautomatic firearm unassisted by a kit, a tool, an accessory, or a device.

The bill prohibits the importation, transfer, distribution, transport, sale, keeping for sale, offering or exposing for sale, or giving away of a bump-fire stock. A violation of the prohibition is a felony of the third degree.

Baker Act

In 1971, the Legislature adopted the Florida Mental Health Act, otherwise known as the Baker Act.[72] The Baker Act authorizes treatment programs for mental, emotional, and behavioral disorders. The Baker Act requires programs to include comprehensive health, social, educational, and rehabilitative services to persons requiring intensive short-term and continued treatment to facilitate recovery. Additionally, the Baker Act provides protections and rights to individuals examined or treated for mental illness. Legal procedures are addressed for mental health examination and treatment, including voluntary admission, involuntary admission, involuntary inpatient treatment, and involuntary outpatient treatment.

Receiving Facility

Individuals in acute mental or behavioral health crisis may require emergency treatment to stabilize their condition. Emergency mental health examination and stabilization services may be provided on a voluntary or involuntary basis.[73] Involuntary patients must be taken to a receiving facility, which is a public or private facility or hospital designated by the Department of Children and Families (DCF) to receive and hold or refer, as appropriate, involuntary patients under emergency conditions for mental health evaluation and to provide treatment or transportation to the appropriate service provider. A county jail is not a receiving facility.[74]

Criteria for Taking a Person to a Receiving Facility for Involuntary Examination

An involuntary examination includes an examination performed under s. 394.463, F.S.[75] The purpose of the examination is to determine whether a person qualifies for involuntary services.[76] Involuntary services include court-ordered outpatient services or inpatient placement for mental health treatment.[77] Section 394.463, F.S., provides that a person may be taken to a receiving facility for involuntary examination if there is reason to believe that the person has a mental illness[78] and because of his or her mental illness:

- The person has refused voluntary examination after conscientious explanation and disclosure of the purpose of the examination; **or**
- The person is unable to determine for himself or herself whether examination is necessary; **and**
- Either of the following applies:
  - Without care or treatment, the person is likely to suffer from neglect or refuse to care for himself or herself; such neglect or refusal poses a real and present threat of substantial

[72] Section 394.451, F.S. The act was created by ch. 71-131, L.O.F., and is codified in Part I of ch. 394, F.S. (ss. 394.451-394.47892, F.S.).
[73] Sections 394.4625 and 394.463, F.S.
[74] Section 394.455(39), F.S.
[75] Section 394.455(22), F.S.
[76] *Id*.
[77] Section 394.455(23), F.S.
[78] "Mental illness" means an impairment of the mental or emotional processes that exercise conscious control of one's actions or of the ability to perceive or understand reality, which impairment substantially interferes with the person's ability to meet the ordinary demands of living. For purposes of Part I of ch. 394, F.S., the term does not include a developmental disability as defined in ch. 393, F.S., intoxication, or conditions manifested only by antisocial behavior or substance abuse. Section 394.455(28), F.S.

harm to his or her well-being, and it is not apparent that such harm may be avoided through the help of willing family members or friends or the provision of other services.
- There is a substantial likelihood that without care or treatment the person will cause serious bodily harm to himself, herself, or others in the near future, as evidenced by recent behavior.[79]

Initiation of Involuntary Examination

There are three means of initiating an involuntary examination. First, a court may enter an ex parte order stating that a person appears to meet the criteria for involuntary examination and specifying the findings on which that conclusion is based. If other less restrictive means are not available, such as voluntary appearance for outpatient evaluation, a law enforcement officer or other designated agent of the court takes the person into custody and delivers him or her to an appropriate, or the nearest, facility within the designated receiving system for examination.[80]

Second, a law enforcement officer must take a person who appears to meet the criteria for involuntary examination into custody and deliver the person or have him or her delivered to an appropriate, or the nearest, facility for examination. The officer executes a written report detailing the circumstances under which the person was taken into custody, which is made a part of the patient's clinical record.[81]

Third, a physician, clinical psychologist, psychiatric nurse, mental health counselor, marriage and family therapist, or clinical social worker may execute a certificate stating that he or she has examined a person within the preceding 48 hours and finds that the person appears to meet the criteria for involuntary examination and stating the observations upon which that conclusion is based. If other less restrictive means, such as voluntary appearance for outpatient evaluation, are not available, a law enforcement officer takes the person named in the certificate into custody and delivers him or her to the appropriate, or nearest, facility for examination. The law enforcement officer executes a written report detailing the circumstances under which the person was taken into custody. The certificate and the law enforcement officer's report are made a part of the patient's clinical record.[82]

Transportation to a Receiving Facility

The Baker Act requires each county to designate a single law enforcement agency within the county to transfer the person in need of services to a receiving facility for involuntary examination.[83] If the person is in custody based on noncriminal or minor criminal behavior that meets the statutory guidelines for involuntary examination under s. 394.463, F.S., the law enforcement officer must transport the person to the appropriate facility within the designated receiving system pursuant to a transportation plan or an exception granted by the DCF Secretary or to the nearest receiving facility if neither apply[84]

[79] Section 394.463(1), F.S.
[80] Section 394.463(2)(a)1., F.S.
[81] Section 394.463(2)(a)2., F.S.
[82] Section 394.463(2)(a)3., F.S.
[83] Section 394.462(1)(a), F.S.
[84] Section 394.462(1)(g), F.S.

If the person is arrested for a felony and it appears the person meets the statutory guidelines for involuntary examination or placement under Part I of ch. 394, F.S., the person must first be processed in the same manner as any other criminal suspect. Thereafter, the law enforcement officer must immediately notify the appropriate facility within the designated receiving system pursuant to a transportation plan or an exception granted by the DCF Secretary or to the nearest receiving facility if neither apply. The receiving facility is responsible for promptly arranging for the examination and treatment of the person, but is not required to admit a person charged with a crime for whom the facility determines and documents that it is unable to provide adequate security.[85]

If the law enforcement officer believes the person has an emergency medical condition, the person may be transported first to a hospital for emergency medical treatment, regardless of whether the hospital is a designated receiving facility.[86]

A designated law enforcement agency may decline to transport a person to a receiving facility only if:

- The jurisdiction designated by the county has contracted on an annual basis with an emergency medical transport service or private transport company for transportation of persons to receiving facilities pursuant to this section at the sole cost of the county; and
- The law enforcement agency and the emergency medical transport service or private transport company agree that the continued presence of law enforcement personnel is not necessary for the safety of the person or others.[87]

The appropriate facility within the designated receiving system pursuant to a transportation plan or an exception granted by the DCF Secretary, or the nearest receiving facility if neither apply, must accept a person brought by a law enforcement officer, or an emergency medical transport service or private transport company authorized by the county, for involuntary examination pursuant to s. 394.463, F.S.[88]

Time Limitations for Conducting an Involuntary Examination

Specified time periods apply to holding a person in a receiving facility for involuntary examination. Generally, the examination period must be for up to72 hours.[89] However, for a minor, the examination must be initiated within 12 hours after the minor arrives at the facility.[90] Within the examination period or, if the examination period ends on a weekend or holiday, no later than the next working day thereafter, one of the following actions must be taken, based on the individual needs of the patient:

- The patient must be released, unless he or she is charged with a crime, in which case law enforcement will resume custody;
- The patient must be released into voluntary outpatient treatment;

[85] Section 394.462(1)(h), F.S. If the facility is unable to provide adequate security, examination or treatment of the person is provided where he or she is held. *Id.*
[86] Section 394.462(1)(i), F.S.
[87] Section 394.462(1)(b)1., F.S.
[88] Section 394.462(1)(k), F.S.
[89] Section 394.463(2)(g), F.S.
[90] *Id.*

- The patient must be asked to give consent to be placed as a voluntary patient if placement is recommended; or
- A petition for involuntary placement must be filed in circuit court for outpatient or inpatient treatment.[91]

Effect of Proposed Changes

The bill amends s. 394.463, F.S., to authorize a law enforcement officer who is taking a person into custody for an involuntary examination under a court's ex parte order under the Baker Act to seize and hold a firearm or ammunition the person possesses if the person:

- Poses a potential danger to himself or herself or others; and
- Has made a credible threat of violence against another person.

If the law enforcement officer takes custody of the person at his or her residence and he or she meets the above stated criteria, the officer may seek a voluntary surrender of firearms or ammunition kept in the residence not already seized. If such firearms or ammunition are not voluntarily surrendered, or of the person has other firearms or ammunition that were not voluntarily surrendered the law enforcement officer may petition a court for a risk protection order pursuant to a newly-created procedure in the bill.

Any seized or voluntarily surrendered firearm or ammunition must be made available for return no later than 24 hours after the person taken into custody can document that he or she is no longer subject to involuntary examination and has been released or discharged from an inpatient treatment provided or ordered under s. 394.463(1)(g), F.S. However, the firearms or ammunition will not be released if a risk protection order has been entered directing the law enforcement agency to hold the firearms or ammunition for a longer period. The agency must develop policies and procedures relative to the seizure, storage, and return of the firearms or ammunition provided for in the bill.

Gun Violence Protective Orders

Gun violence protective order laws, also known as gun violence restraining orders and extreme risk protection orders, operate as a temporary restraint on a person's possession of his or her guns. Specifically, gun violence protective order laws enable law enforcement, and in some states, family and household members, to petition a court to remove a person's access to guns if

[91] *Id.* A person for whom an involuntary examination has been initiated who is being evaluated or treated at a hospital for an emergency medical condition must be examined by a facility within the examination period specified in s. 394.463(2)(g), F.S. The examination period begins when the patient arrives at the hospital and ceases when the attending physician documents that the patient has an emergency medical condition. If the patient is examined at a hospital providing emergency medical services by a professional qualified to perform an involuntary examination and is found as a result of that examination not to meet the criteria for involuntary outpatient services or involuntary inpatient placement, the patient may be offered voluntary services or placement, if appropriate, or released directly from the hospital providing emergency medical services. Section 394.463(2)(h), F.S. One of the following must occur within 12 hours after the patient's attending physician documents that the patient's medical condition has stabilized or that an emergency medical condition does not exist: the patient must be examined by a facility and released; or the patient must be transferred to a designated facility in which appropriate medical treatment is available. However, the facility must be notified of the transfer within two hours after the patient's condition has been stabilized or after determination that an emergency medical condition does not exist. Section 394.463(2)(i), F.S.

he or she poses an imminent danger to self or others.[92] With a court-ordered gun violence protective order, a person's access to firearms is blocked temporarily until they can demonstrate that there is no longer a risk.[93]
Under federal law, as discussed above, a person who has committed a violent act towards others is not prohibited from possessing guns unless he or she is the subject of a domestic violence restraining order, has been convicted of a felony, or has been convicted of a domestic violence misdemeanor.[94] Additionally, federal law provides that a person suffering from mental illness is not prohibited from purchasing and possessing a gun unless he or she has been formally, and involuntarily, committed to a mental institution, or undergone some other formalized court proceeding regarding his or her mental illness.[95]

Individual states have begun to implement laws that restrict a person's access to possession and control of firearms. Connecticut became the first state to pass a law providing for a gun violence protective order in 1999.[96] The state's risk-warrant law grants law enforcement or a state attorney the authority to remove temporarily firearms from individuals when there is probable cause to believe they pose a significant risk of harm to themselves or to others.[97] Indiana, California, Oregon, and Washington have also implemented a gun violence protective order-type law.[98] Gun violence protective orders or "red flag" laws are currently pending in 18 states.[99]

A nationwide study of mass shootings from 2009 to 2016 indicated that in at least 42 percent of those incidents, the attacker exhibited dangerous warning signs prior to the shooting.[100] A recent analysis of Connecticut's risk-warrant law demonstrates that risk-based firearm removal laws provide effective tools to save lives. Specifically, research estimates that for every 10-20 risk-warrants issued, one life is saved.[101] Research also indicates that 29 percent of gun owners who had a risk-warrant ordered against them went on to receive mental health and substance abuse services in the state system.[102] Additionally, a study of Connecticut's risk-warrant laws found

that, 99 percent of warrants issued from 1999 to 2013, which led to the confiscation of at least one gun, resulted in the gun owner receiving psychiatric treatment.[103]

States with a gun violence protective order-type law have a process outlined in statute for obtaining a court order. Typically, before a gun violence protective order may be issued, the person is entitled to a full legal proceeding. However, an emergency order may be issued when a person poses an immediate danger. Standard protocol for obtaining a gun violence protective order or similar type of restraining order requires a family or household member or a law enforcement officer or agency to submit a petition that alleges that the gun owner poses a significant danger to themselves or to others by virtue of his or her custody or control of a firearm.[104]

Notice must be issued to the gun owner, or respondent, to make them aware of the impending court hearing, with certain exceptions provided if such notice would put others at risk of imminent danger or harm. At the hearing, the petitioner must establish that the respondent poses a significant danger of causing personal injury to themselves or to others. In the event that the petitioner meets the burden of proof, the court must issue a protection order. Though gun violence protective order-type laws vary between each state, they are uniform in the duration of such issued order – one year.[105]

Upon entering an order to restrain temporarily a gun owner from his or her firearms, the respondent must surrender his or her firearms. Additionally, the order must detail that the respondent has a right to request one hearing to terminate the order every 12-month period that such order is in effect.[106]

The question of constitutionality of such protective orders has been raised with respect to the Second Amendment to the United States Constitution. In *Heller*, the United States Supreme Court recognized that the Second Amendment protects "the right of law-abiding, responsible citizens to use arms in defense of hearth and home."[107] However, in the same case, the Supreme Court also recognized that the Second Amendment does not confer the "right to keep and carry any weapon whatsoever in any manner whatsoever and for whatever purpose," and that legislatures may use a variety of regulatory measures to prevent violence associated with firearms.[108]

The Supreme Court stated that lawful regulatory measures implemented by the legislatures include "longstanding prohibitions on the possession of firearms by felons and the mentally ill, or laws forbidding the carrying of firearms in sensitive places such as schools and government buildings, or laws imposing conditions and qualifications on the commercial sale of arms."[109] In

Hope v. State, the court held that the Connecticut risk-warrant law did not implicate the Second Amendment because it does not restrict the right of law-abiding, responsible citizens to use arms in defense of their homes.[110] The court in *Hope* echoed the Supreme Court's sentiments in *Heller*, reasoning that Connecticut's risk-warrant statute was an example of the longstanding "presumptively lawful regulatory measures" that can be adopted by legislatures.[111]

Additionally, similar measures have been upheld in California. In *City of San Diego v. Boggess*, the court held that the protections of the Second Amendment do not extend to persons whose firearms are seized because they were found to be a danger to themselves by reason of their mental health.[112] Furthermore, the court reasoned that the government is not prohibited from regulating the possession of guns by persons proven to be dangerous due to mental illness and further held that such regulations do not appear to be in direct conflict with the Second Amendment.[113] The court held that California case law has affirmed that the state may ensure that firearms are not in the hands of someone who may use them dangerously.[114]

Effect of Proposed Changes

The bill creates a process for a law enforcement officer to petition a court for a temporary ex parte risk protection order and a final risk protection order in s. 790.401, F.S. The intent of the process and court intervention is to temporarily prevent persons from accessing firearms when there is demonstrated evidence that a person poses a significant danger to himself or herself or others, including significant danger as a result of a mental health crisis or violent behavior. The process strikes a balance between the rights of the person (respondent) including due process of law, and reducing death or injury as a result of his or her use of firearms during a mental health crisis.

The court must find by clear and convincing evidence based on the following considerations that the respondent poses a significant danger of causing personal injury to himself or herself or others by having in his or her custody or control, or by purchasing, possessing, or receiving, a firearm to issue a risk protection order:

- A recent act or threat of violence by the respondent against himself or herself or others, whether or not such violence or threat of violence involves a firearm;
- An act or threat of violence by the respondent within the past 12 months, including, but not limited to, acts or threats of violence by the respondent against himself or herself or others;
- Evidence of the respondent being seriously mentally ill or having recurring mental health issues;
- A violation by the respondent of a protection order or a no contact order issued under ss. 741.30, 784.046, or 784.0485, F.S.;
- A previous or existing risk protection order issued against the respondent;
- A violation of a previous or existing risk protection order issued against the respondent;

[114] *Id.*

- Whether the respondent, in this state or any other state, has been convicted of, had adjudication withheld on, or pled nolo contendere to a crime that constitutes domestic violence as defined in s. 741.28, F.S.;
- The respondent's ownership of, access to, or intent to possess firearms;
- The unlawful or reckless use, display, or brandishing of a firearm by the respondent;
- The recurring use of, or threat to use, physical force by the respondent against another person, or the respondent stalking another person;
- Whether the respondent, in this state or any other state, has been arrested, convicted of, had adjudication withheld on, or pled nolo contendere to a crime involving violence or a threat of violence;
- Corroborated evidence of the abuse of controlled substances or alcohol by the respondent;
- Evidence of recent acquisition of firearms by the respondent; and
- Any relevant information from family and household members concerning the respondent.

If the court issues a risk protection order it may do so for a period that it deems appropriate, up to and including but not exceeding 12 months.

The bill allows a petitioner to request a temporary ex parte risk protection order be issued before the hearing for a risk protection order has occurred. The court must find that the respondent poses a significant danger of causing personal injury to himself or herself or to others in the near future by having in his or her custody or control or by purchasing, possessing or receiving a firearm or ammunition to issue an ex parte temporary risk protection order.

Upon issuance of a risk protection order, including a temporary ex parte risk protection order, the court must order the respondent to surrender to the local law enforcement agency all firearms and ammunition in the respondent's custody, control, or possession, and any license to carry a concealed weapon or firearm issued under s. 790.06, F.S.
