II. Present Situation:

Debate and Public Speaking

History

Debate is an ancient form of argumentation. It was first used as a way to resolve quarrels, but it soon became apparent that it could also be used as a tool to teach people how to think critically and argue effectively. It originated in Greece, around 500 B.C. There, Socrates used it in his philosophy classes at the Academy in Athens.

The Roman orators Cicero and Quintilian were masters of debate. They taught their students how to argue both sides of an issue so well that their opponents didn't even know they were being argued into a corner until it was too late!

Medieval scholars also used debate as a method of discussing important ideas with each other in order to come up with new ways of thinking, from science to religion.¹

The development of public speaking as a specific skill is strongly linked to the development of democracy in Ancient Greece. Starting in 621 B.C. in Athens, laws began to convert from an oral tradition heavily controlled by nobility to a written form that could be applied equally and consistently. This codification (creating an organized system of laws) took power from the nobility and moved it into the courts. Assemblies were formed to review, revise, and create laws. Accordingly, there had to be substantive debate and persuasion to reach agreements on how to manage this evolution of legal doctrine, and those coming before the courts needed to engage in public speaking to advocate for their position.

Democracy demands public speaking as a tool for self-governance. Since being proficient in public speaking was so valuable, the study of how it works likewise became important, emerging as the study of rhetoric.²

Movements in the United States and Florida

As a working democracy, speech and debate have had profound effects on the United States, highlighted by the selected examples below:

- Alexander Hamilton-Thomas Jefferson debates after the Constitution was ratified in 1788 in their clash over the Bank of the United States became a defining moment in shaping America's economic direction and in clarifying the meaning of the Constitution.³
- The Lincoln-Douglas debates were a series of seven debates during the 1858 Illinois senatorial campaign that largely centered on the issue of extending slavery into the new U.S. territories following the Mexican War and would have a profound effect on the future of the United States.⁴
- The Kennedy-Nixon debates in 1960 when a debate for the presidency was presented for the first time on television and reached an estimated 70 million people.⁵

The National Speech and Debate Association provides recognition and support to high school students participating in speech and debate activities. Established in 1925, the Association held its first national tournament in 1931 with 49 schools from 17 states. Recent membership from 2023-2024 shows 141,132 students on school rosters with 3,152 high school members.⁶ The association reported 200 Florida high school members with 10,344 students participating.⁷

There are two organizations that facilitate and promote speech and debate in Florida, the Florida Debate Initiative (FDI) and the Florida Civics & Debate Initiative (FCDI).

The FDI is a Florida not-for-profit corporation. It began as the Central Florida Debate Initiative from 2014 to 2019 and later became the FDI. The FDI is dedicated to fostering a new generation of leaders by providing access to exceptional civics education resources, debate programs, and expertly trained teachers. Programs offered by the FDI include:

- The American Dream Debate (a bilingual debate tournament);
- Civic immersion experience in Washington, D.C.;
- DebateED 201(instruction for coaches);
- DebateED 101 (resources for educators);
- Speech and Debate Learning Retreat (for educators);
- Pro Camps FDI (student workshop);
- Salute to Service (leadership program);
- FDI Fellow Program (internship for college students);
- Florida Speech and Debate Summer Camp; and

- Turning Tides (a partnership program to empower youth in the juvenile justice system).⁸

The program is funded with a specific appropriation in the Florida budget of \$2.4 million in the 2025-2026 fiscal year.⁹

The FCDI is a program under the Department of Education (DOE) and the Florida Education Foundation. The FCDI was created in response to an Executive Order by the Governor that called for a comprehensive review of academic standards that included opportunities to equip high school graduates with sufficient knowledge of American Civics.¹⁰ In 2020 the Governor announced the establishment of the FCDI along with funding from the Marcus foundation for elevating civic knowledge, civic skills and civic disposition for middle and high school students. The Marcus Foundation¹¹ committed \$5 million over a three-year period towards the initiative with the following goals:

- Promote the expansion of middle and high school debate and speech programs to all of Florida's public school districts;
- Increase middle school civics end of course state passage rates;
- Increase high school U.S. History end of course state passage rates;
- Implement a National Civics, Speech, and Debate competition for all students; and
- Make Florida a nationwide leader in training Florida high school teachers and train other states to continue or begin to successfully run competitive school speech and debate teams.¹²

The FDI contributes both financial resources and programmatic support to the FCDI to help advance FCDI's statewide goals of increasing civic literacy, amplifying student voice, and preparing the next generation of active, informed citizens. As FCDI's educational support organization, FDI focuses on:

- Educating and training coaches and students;
- Training judges and volunteers;
- Promoting educational competition opportunities;
- Leading training and leadership development experiences; and
- Establishing competition standards.¹³

Special Observances in Florida

The legislature has designated specific days, weeks or months to provide special appreciation, celebration, or remembrance for various purposes. For each designation the day, week or month is described and in some cases either allows or requires the Governor to issue a proclamation for the observance.¹⁴ Florida Law designates the following example observances:

Florida law allows the Department of Education (DOE) to adopt endorsements as add-ons to an existing educator certificate.²⁰ Endorsements demonstrate specialized expertise in a subject area, instructional strategy or specific student population. The following are current adopted endorsements:

- American sign language;
- Athletic coaching;
- Autism spectrum disorders;
- Driver education;
- English for speakers of other languages (ESOL);
- Gifted;
- Orientation and mobility;
- Prekindergarten disabilities;
- Reading; and
- Severe or profound disabilities.²¹

Florida's Charter Schools

Charter schools are tuition-free public schools created through an agreement or “charter” that provides flexibility relative to regulations created for traditional public schools. During the 2025-2026 school year there are 408,481 students²² enrolled at 640 charter schools in 47 counties.²³

Charter schools are open to all students residing within the district; however, charter schools are allowed to target students within specific age groups or grade levels, students considered at-risk of dropping out or failing, students wishing to enroll in a charter school-in-the-workplace or charter school-in-a-municipality, students residing within a reasonable distance of the school,

students who meet reasonable academic, artistic or other eligibility standards established by the charter school, or students articulating from one charter school to another.²⁴

Charter schools are created when an individual, a group of parents or teachers, a business, a municipality, or a legal entity applies to the sponsoring entity (a school district, a state university or Florida College System institution); the sponsoring entity approves the application; the applicants form a governing board that negotiates a contract with the sponsoring entity; and the applicants and sponsor agree upon a charter or contract. The negotiated contract outlines the expectations of both parties regarding the school's academic and financial performance.

A charter school must be organized as, or be operated by, a nonprofit organization. The charter school may serve at-risk students, or offer a specialized curriculum or core academic program, provide early intervention programs, or serve exceptional education students.

All charter applicants must prepare and submit an application on a model application form prepared by the Department of Education, which:

- Demonstrates how the school will implement the guiding principles.
- Provides a detailed curriculum.
- Contains goals and objectives for improving student learning.
- Describes the separate reading curricula and differentiated strategies.
- Contains an annual financial plan.²⁵

Florida Graduation Requirements

Florida's graduation requirements for receiving a standard high school diploma are outlined in statute.²⁶ Florida students entering grade nine may choose from one of five options to earn a standard diploma. The five options are:

- 24-credit program.
- 18-credit program, Academically Challenging Curriculum to Enhance Learning or ACCEL.
- A Career and Technical Education (CTE) Pathway.
- An International Baccalaureate (IB) curriculum.
- An Advanced International Certificate of Education (AICE) curriculum.²⁷

To be awarded a standard high school diploma under the 24-credit program requires students entering the ninth grade in 2023-2024 or later must earn the following credits:

- Four credits in English Language Arts (ELA).
- Four credits in mathematics.
- Three credits in science.
- Three credits in social studies.
- One credit in fine or performing arts, speech and debate, or career and technical education.

- Seven and one-half credits in electives.
- One-half credit in personal financial literacy.²⁹

Florida Virtual School

The Florida Virtual School (FLVS)³⁰ was established in 1997 as a pilot project to create Florida first internet -based public high school. Currently, as a fully accredited, statewide public school district, FLVS offers more than 190 online courses to kindergarten through grade 12 students and has enrolled more than 4.6 million students. The FLVS exists as a not-for-profit corporation.³¹

Features of the FLVS include the following:

- The FLVS is included in Florida's accountability system and receives a school grade based on the same criteria as other public schools.
- Florida school districts may choose to enter an agreement with FLVS to operate a district franchise/district virtual school.
- FLVS Flex Offers more than 190 tuition-free courses to Kindergarten-Grade 12 public, private, charter, and homeschool Florida students with year-round enrollment and 24/7 course availability. Students take FLVS courses to get ahead or graduate early, to allow flexibility for extracurricular activities, or to take courses not offered by their district.
- FLVS Full Time offers a comprehensive, full-time curriculum to Kindergarten-Grade 12 students in the state and follows the traditional 180-day academic calendar. FLVS Full Time combines the structure of a traditional school with the flexibility of online learning.
- Students enrolled in FLVS Flex and FLVS Full Time are funded based on courses successfully completed.
- Students attending a private school can enroll in FLVS Flex courses when their school affiliates with FLVS.³²

III. Effect of Proposed Changes:

The bill creates the “Florida Speech and Debate Education Act,” and creates s. 1000.09, F.S., to provide the following legislative findings:

- That speech and debate significantly improve literacy, critical thinking, research ability, civic knowledge, and leadership for students.
- That the state’s civics and debate expansion has become a national model, increasing access to this instruction in all regions and that sustaining and improving this success requires a permanent statewide organization with specialized expertise, program capacity, and year-round operational support.

- That the Florida Debate Initiative (FDI) has demonstrated statewide effectiveness and is uniquely positioned to ensure continuity, equitable access, quality programming, tournament infrastructure, and instructional rigor and that it is the intent of the Legislature to establish a comprehensive statewide infrastructure, under the FDI's direction, that expands, supports, and elevates K–20 speech and debate education.

The section designates the FDI as the official statewide speech and debate organization, however districts, schools, and students are permitted to participate in speech activities outside of the FDI. The FDI is given the following tasks:

- Manage the official Florida Speech and Debate League and its regional teams.
- Establish statewide competition rules, ballots, judging standards, and tournament calendars.
- Operate or supervise district, regional, and state tournaments.
- Train and certify coaches, judges, volunteers, and tournament staff.
- Provide statewide programmatic support, including student programs, educator training, and public service initiatives.
- Maintain statewide data reporting and annual accountability.
- Work constructively with nonstate-sanctioned leagues while upholding Florida's civic and patriotic development goals.

The FDI is given specific authorization to establish and maintain partnerships with school districts, charter schools, state agencies, postsecondary institutions, nonprofit organizations, private entities, and national or international organizations to achieve its goals.

Additionally, the FDI is required to implement and maintain a comprehensive suite of statewide programs, including each of the following:

- Student speech and debate programs;
- Student leadership and service programs;
- Competitive speech and debate training for students;
- Educator training;
- Postsecondary and workforce internships;
- Operation of speech and debate tournaments.

BILL: SB 1718

INTRODUCER: Senator Calatayud

SUBJECT: Educator Preparation and Certification

DATE: February 17, 2026 REVISED: _____

ANALYST	STAFF DIRECTOR	REFERENCE	ACTION

2. Gray	Elwell	AED	Pre-meeting
3. _____	_____	RC	_____

I. Summary:

SB 1718 increases flexibility and efficiency in educator preparation, certification, and professional learning. The bill allows educator preparation institute participants to complete coursework while obtaining a statement of status of eligibility, expands access to temporary certification for certain educators with expired professional certificates, and streamlines the reinstatement process by removing duplicative subject area examination requirements while maintaining existing eligibility safeguards.

The bill also updates statutory references relating to the Florida Center for Teaching Excellence and expands the Center's responsibilities to provide no-cost professional learning and administrative support to educators seeking to renew or reinstate their certificates.

This bill has an indeterminate fiscal impact on state revenues and expenditures. **See Section V., Fiscal Impact Statement.**

The bill takes effect July 1, 2026

II. Present Situation:

Teacher Preparation Programs

Teacher preparation programs are accountable for producing individuals with the competencies and skills necessary to achieve the state education goals. State-approved teacher preparation programs are offered by Florida public and private postsecondary institutions, public school districts, and private providers, through which candidates for educator certification can, depending on the type of program, demonstrate mastery of general knowledge, professional

preparation and education competence, and/or subject area knowledge for purposes of attaining an educator certificate.¹

There are various state-approved teacher preparation programs that individuals may use to receive the training needed to attain an educator certificate, including:

- Initial Teacher Preparation programs in public and private colleges and universities that require candidates to demonstrate mastery of subject area knowledge² in one or more specific subject areas, mastery of general knowledge,³ and mastery of professional preparation and education competence. Program completers qualify for a professional educator certificate.
- Educator Preparation Institutes (EPIs) that offer alternative certification programs by postsecondary institutions and qualified private providers for baccalaureate degree holders. These programs provide professional preparation for career-changers and recent college graduates who do not already possess a Professional Educator Certificate and require mastery of general knowledge, subject-area knowledge, and professional preparation and education competence.
- District professional learning certification and education competency programs. Such programs are cohesive competency-based professional preparation certification programs offered by school districts, charter schools, and charter management districts, through which instructional staff can satisfy the mastery of professional preparation and education competence requirements. In addition to completing the district program, candidates must demonstrate mastery of general knowledge and subject area knowledge.⁴

Educator Preparation Institute Participant Criteria

Each EPI participant must:

- Meet certification application requirements, including obtaining a statement of eligibility, established in law, and meet all basic eligibility requirements for an educator certificate before participating in field experiences. Generally, a student must receive a statement of eligibility for a certificate prior to enrollment in an EPI.
- Demonstrate competency and participate in field experiences that are appropriate to the participant's educational plan, including completion of all competencies for a reading endorsement when seeking certification in a certificate area that includes reading instruction or interventions in kindergarten through grade six.
- Before completion of the program, fully demonstrate his or her ability to teach the subject area for which he or she is seeking certification by documenting a positive impact on student learning growth in a prekindergarten through grade 12 setting.

- Achieve a passing score on the professional education competency examination,⁵ the General Knowledge Test, and the subject area examination for the subject area certification, as required by the State Board of Education (SBE) rule.⁶

Educator Certification

To serve as an educator in a traditional public school, charter school, virtual school, or other publicly operated school, a person must hold a certificate issued by the DOE.⁷ The purpose of certification is to require school-based personnel to “possess the credentials, knowledge, and skills necessary to allow the opportunity for a high-quality education in the public schools.”⁸

To be eligible for an educator certificate, a person must meet the following basic eligibility requirements:

- Be at least 18 years of age;
- Sign an affidavit attesting that the applicant will uphold the U.S. and State Constitutions;
- Earn a bachelor’s or higher degree from an accredited institution of higher learning or from a non-accredited institution identified by the DOE as having a quality program resulting in a bachelor’s or higher degree and have attained at least a 2.5 overall grade point average in the applicant’s major field of study;⁹
- Submit to fingerprinting and background screening and not have a criminal history that requires the applicant’s disqualification from certification or employment;
- Be of good moral character; and
- Be competent and capable of performing the duties, functions, and responsibilities of a teacher.¹⁰

Temporary Educator Certificate

A temporary teaching certificate is valid for five school years and is nonrenewable.¹¹ the Department of Education (DOE) is required to issue a temporary certificate to a qualifying applicant within 14 calendar days after receipt of a request from an employer and is required to electronically notify the applicant’s employer that the temporary certificate has been issued and provide the applicant with an official statement of status of eligibility at the time the certificate is issued.¹²

The DOE must issue a temporary certificate to any applicant who:

- Meets the basic eligibility requirements for certification:¹³

⁵ Section 1012.56(7), F.S. An individual who completes an educator preparation institute and is rated highly effective by his or her performance evaluation is not required to take or achieve a passing score on the professional education competency examination in order to be awarded a professional certificate.

⁷ Sections 1012.55(1) and 1002.33(12)(f), F.S.

¹³ Section 1012.56(2)(a)-(f), F.S.

- Completes applicable subject area content requirements or demonstrates mastery of subject area knowledge by, for example, successful completion of an approved exam; and
- Holds an accredited degree or a degree approved by the DOE at the level required for the subject area specialization in the SBE rule.¹⁴

Professional Educator Certificate

A professional certificate is valid for five school years and is renewable. A professional certificate is awarded to an applicant who meets the basic eligibility requirements for certification and demonstrates mastery of:

- General knowledge;
- Subject area knowledge; and
- Professional preparation and education competence.¹⁵

Reinstatement of Professional Educator Certificate

To reinstate an expired professional educator certificate, the certificate holder must submit an application; complete 6 college credits, 120 inservice points, or a combination thereof, in specified areas during the 5 years immediately preceding reinstatement; and pass a subject area exam for each subject to be shown on the reinstated certificate during those same prior 5 years.¹⁶ The requirements for reinstatement may not be satisfied by subject area exams or college credits completed for issuance of the expired certificate.¹⁷

The Florida Center for Teaching Excellence

The Florida Center for Teaching Excellence (Center) is established at Miami Dade College to prepare high-quality teachers in Florida through rigorous, evidence-based programs grounded in cognitive science, high-impact teaching strategies, and the implementation of knowledge-rich curricula. The Center works in collaboration with the Center for Innovative Teaching and Learning at the University of South Florida. Among other functions, the center is authorized to submit a professional learning system for approval under the School Community Professional Learning Act. The Miami-Dade College Board of Trustees, in collaboration with the DOE, is responsible for establishing policies governing the supervision, administration, and governance of the Center.¹⁸

III. Effect of Proposed Changes:

The bill amends s. 1004.85, F.S., to authorize educator preparation institutes to enroll participants and allow them to complete coursework while the participants are working to obtain an “eligible” statement of status of eligibility in the certification subject area included in the participant’s educational plan. Therefore, a student may begin coursework in an EPI prior to a determination of eligibility for a certificate.

¹⁴ Section 1012.56(7)(b) and (d), F.S. As specified in law, alternative pathways for a temporary certificate are available for military service members and participants in the Teacher Apprenticeship Program.

¹⁵ Section 1012.56(2), F.S.

¹⁶ Section 1012.585(5)(b), F.S. *See also* Section 1012.585(3)(a) and (e), F.S.

¹⁷ Section 1012.585, F.S.

¹⁸ Section 1012.981, F.S.

The bill amends s. 1012.56, F.S., to require the Florida Department of Education (DOE) to issue a temporary certificate to an educator whose previously issued professional certificate has expired, provided the educator meets basic eligibility requirements for certification.¹⁹ This allows the educator to begin teaching while completing required college coursework or inservice points without having to again demonstrate subject area mastery and may expedite the educator's return to the classroom.

The bill amends s. 1012.585, F.S., to require an applicant seeking reinstatement of a professional educator certificate to complete specified statutory certification eligibility requirements,²⁰ but removes the requirement that an educator retake subject area examinations for each subject included on the certificate when the educator has previously demonstrated mastery of subject area knowledge. Upon reinstatement, the professional certificate must include all subject area coverages and endorsements held at the time of expiration. The bill also specifies that inservice points that were earned in order to earn or renew a professional certificate that has since expired may not be used to satisfy reinstatement requirements.

The bill amends s. 1012.981, F.S., to update the name of the Center for Innovative Teaching and Learning at the University of South Florida with the David C. Anchin Center for the Advancement of Teaching as the required collaborating entity for the Florida Center for Teaching Excellence (Center).

The bill requires, rather than authorizes, the Center to submit to the DOE a professional learning system. The bill requires the Center to offer professional learning, at no cost, to certified educators seeking to renew or reinstate their certificate and to submit any inservice points earned to the DOE on the educator's behalf. The bill also requires the Center to provide such educators with information on school district professional learning systems that provide access to inservice training to individuals not employed by the school district.

The bill takes effect July 1, 2026.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

¹⁹ Section 1012.56(2)(a)-(f), F.S.

²⁰ *See Id.* To seek certification, a person must be at least 18 years old; swear allegiance to constitutional principles; hold a bachelor's or higher degree; submit to background screening; be of good moral character; and be competent and capable of performing the duties, functions, and responsibilities of an educator.

None.

E. Other Constitutional Issues:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The bill provides a positive fiscal impact to the individuals that would otherwise have to pay to take a fee-based exam in order to reinstate certifications, such as the Florida subject area or standard examinations.

C. Government Sector Impact:

The bill has a negative fiscal impact to the Florida Center for Teaching Excellence as the bill requires the center to allow individuals to utilize their system at no cost and to submit their in-service hours to the Department.

The bill has an indeterminate fiscal impact on the DOE, as it is unclear whether streamlining the reinstatement of certifications may provide an increase in the number of certifications issued by the Department.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 1004.85, 1012.56, 1012.585, and 1012.981.

I. Summary:

SB 7038 modifies provisions related to public postsecondary education, workforce development, and related regulation, focusing on tuition and fee policies, consumer protections, career and technical education, student acceleration, and institutional operations. Specifically, the bill modifies the following:

- Relating to residency, tuition, and fee waivers, the bill:
 - Provides that an individual who qualifies as a resident for tuition purposes may not lose resident status solely due to incarceration in a state or federal correctional facility located in Florida.
 - Revises eligibility for the grandparent out-of-state fee waiver by limiting the waiver to full-time undergraduate students, removing the Classic Learning Test as a qualifying assessment, and delaying implementation until the 2026–2027 academic year.
 - Requires Florida College System (FCS) institutions and state universities to waive tuition and fees for active members of the Florida State Guard who enroll in up to six credit hours per academic term on a space-available basis, subject to approval by the Director of the Division of the State Guard.
- Relating to consumer protections and disability services, the bill:
 - Requires fee-based service providers serving individuals who are blind or visually impaired to disclose, in writing and in accessible formats upon request, whether equivalent or substantially similar services are available at no cost through the Division of Blind Services or another public agency.
 - Provides that failure to provide the required disclosure constitutes an unfair or deceptive trade practice.
 - Replaces the vocational rehabilitation service provider registration process with an application and approval framework, establishes minimum qualifications and annual approval requirements, and requires the development of an annual effectiveness report for approved providers.
- Relating to postsecondary program oversight and governance, the bill:

- Narrows the exemption from licensure and jurisdiction of the Commission for Independent Education by removing “course” from the exemption and clarifying that colleges or schools approved by another state agency solely to offer licensed programs do not qualify for the exemption.
- Authorizes the chair of the Florida Prepaid College Board to appoint a qualified designee to serve as a director of its direct-support organization and on the board of directors of Florida ABLE, Inc.
- Relating to transfer pathways and student acceleration, the bill:
 - Reduces from 60 to 30 days the timeframe for FCS institutions and state universities to submit comments on proposed Specialized Associate in Arts Transfer degree programs.
 - Requires the State Board of Education (SBE) to establish a statewide uniform weighted grading system for honors courses and articulated acceleration mechanisms, including dual enrollment and advanced coursework.
 - Revises the dual enrollment program by limiting eligibility to Florida students, clarifying eligible postsecondary institutions, and removing statutory requirements related to grade point average (GPA) weighting while prohibiting discriminatory grading practices.
 - Expands reimbursement eligibility under the Dual Enrollment Scholarship Program to include tuition and instructional materials costs for public school students enrolled at eligible independent postsecondary institutions during fall and spring terms.
- Relating to college readiness and developmental education, the bill:
 - Expands the use of SBE-approved alternative assessment methods for determining college readiness to include FCS institutions and school district career centers.
 - Revises readiness exemptions, assessment requirements, and developmental education protections, and applies developmental education requirements to school district career centers.
- Relating to workforce education and student financial incentives, the bill:
 - Removes geographic limitations on supplemental funding eligibility for regional and local demand certifications on the Career and Professional Education (CAPE) Industry Certification Funding List.
 - Modifies eligibility requirements for the Florida Gold Seal CAPE Scholars Award by reducing required postsecondary credit hours earned through CAPE certifications and adding a minimum weighted GPA requirement.
 - Allows eligible students to defer receipt of an initial Benacquisto Scholarship Program award for up to one year while retaining eligibility.
- Relating to funding models and institutional fiscal requirements, the bill:
 - Establishes an additional Florida Education and Finance Program (FEFP) funding incentive for student performance in the Florida Advanced Courses and Tests (FACT) College Algebra course, including associated teacher bonuses.
 - Revises the FCS Program Fund apportionment model to require recognition of a minimum funding level per full-time equivalent (FTE) student and additional economic factors, and standardizes institutional reserve thresholds.
 - Standardizes end-of-year carry-forward reserve requirements at 7 percent for all FCS institutions, revises reporting and notification requirements, and authorizes retention of excess reserves for future authorized expenditures.

This bill has an indeterminate fiscal impact on state revenues and expenditures. **See Section V., Fiscal Impact Statement.**

The bill takes effect July 1, 2026.

II. Present Situation:

The present situation for the relevant portions of the bill is discussed under the Effect of Proposed Changes of this bill analysis.

III. Effect of Proposed Changes:

Residency Status for Tuition Purposes

Present Situation

Students must be classified as residents or nonresidents for the purpose of assessing tuition in postsecondary educational programs offered by charter technical career centers, career centers operated by school districts, Florida College System (FCS) institutions, and state universities. Students pay differing tuition rates based on their status as residents or nonresidents of Florida.¹ A “resident for tuition purposes” means an admitted or currently enrolled student who meets the residency requirements in statute and rule or regulation and is therefore eligible to pay the resident tuition and fee rate.²

Specifically, to qualify as a resident for tuition purposes a person, or if that person is a dependent child, his or her parent or parents must have established legal residence in Florida and must have maintained legal residence for at least 12 consecutive months immediately prior to his or her initial enrollment in an institution of higher education.³

A person must provide proof that he or she should be classified as a resident for tuition purposes and may not receive the in-state tuition rate until clear and convincing evidence related to legal residence and its duration has been provided. Each institution of higher education must make a residency determination that is documented by the submission of written or electronic verification that includes two or more specified documents that:

- Must include at least one of the following (“Tier 1”):
 - A Florida voter’s registration card.
 - A Florida driver license.
 - A State of Florida identification card.
 - A Florida vehicle registration.
 - Proof of a permanent home in Florida which is occupied as a primary residence by the individual or by the individual’s parent if the individual is a dependent child.
 - Proof of a homestead exemption in Florida.
 - Transcripts from a Florida high school for multiple years if the Florida high school diploma or high school equivalency diploma was earned within the last 12 months.
 - Proof of permanent full-time employment in Florida for at least 30 hours per week for a 12-month period.

¹ Section 1009.21. F.S.

² Rule 6A-10.044, F.A.C. and Board of Governors Regulation 7.005.

³ Section 1009.21(2)(a), F.S.

- May include one or more of the following (“Tier 2”):
 - A declaration of domicile in Florida.
 - A Florida professional or occupational license.
 - Florida incorporation.
 - A document evidencing family ties in Florida.
 - Proof of membership in a Florida-based charitable or professional organization.
 - Any other documentation that supports the student’s request for resident status, including, but not limited to, utility bills and proof of 12 consecutive months of payments; a lease agreement and proof of 12 consecutive months of payments; or an official state, federal, or court document evidencing legal ties to Florida.⁴

Florida Residency for Incarcerated Individuals

Each FCS institution and state university must develop regulations, policies, and procedures for determining each admitted student’s Florida residency status for tuition purposes.⁵ Therefore, each institution of higher education must establish policies regarding incarcerated individuals. For example, Tallahassee State College and St. Petersburg College both require an incarcerated individual to provide documentation that he or she lived in Florida for 12 months before incarceration, and require Tier 1 and Tier 2 documentation to prove his or her physical presence in Florida for 12 months before incarceration. If the individual has been released for a year or longer, he or she must provide documentation for the most recent 12 months.⁶

Effect of Proposed Changes

The bill modifies s. 1009.21, F.S., by providing that an individual who has met the requirements to be classified as a resident for tuition purposes may not lose his or her resident status for tuition purposes solely because of incarceration in a state or federal correctional facility in Florida.

Public Postsecondary Tuition and Fees

Present Situation

Florida law defines “tuition” as the basic fee charged to a student for instruction provided by a public postsecondary educational institution.⁷ In addition to tuition, institutions charge a variety of required fees, such as student activity, technology, financial aid, and capital improvement fees, which together make up the total per-credit-hour cost.⁸

⁷ Section 1009.01(1), F.S.

⁸ Sections 1009.23 and 1009.24, F.S.

For the 2025-2026 academic year, the resident undergraduate tuition rate for the State University System (SUS) is currently set in statute at \$105.07 per credit hour.⁹ When combined with required fees, the SUS average undergraduate tuition and fees total is \$200.08 per credit hour.¹⁰

Within the Florida College System (FCS), standard tuition for college credit courses is \$71.98 per credit hour, with additional required fees set by each institution. Tuition for the baccalaureate degree program is \$91.79 per credit hour for students classified as residents for tuition purposes, plus required fees.¹¹

Florida law extends fee waivers to students who meet specified conditions. Some fee waivers are mandatory,¹² while others are permissive.¹³

Grandparent Out-of-State Fee Waiver

State universities are required to waive the out-of-state fee for certain nonresident undergraduate students whose grandparent is a legal resident of Florida. To be eligible for the waiver, a student must earn a high school diploma comparable to a Florida standard high school diploma or complete a home education program, achieve designated SAT, ACT, or Classic Learning Test score thresholds, and enroll as a full-time undergraduate student at a state university in the fall academic term immediately following high school graduation.¹⁴

State Employee Tuition and Fee Waiver

Each SUS and FCS institution must waive tuition and fees for state employees for up to six credit hours per academic term, on a space-available basis. Participation is subject to approval by the employee's agency head. The waiver applies to tuition and required fees charged per credit hour.¹⁵ Institutions may continue to charge non-waivable fees, such as laboratory or materials fees, as authorized elsewhere in statute.¹⁶

For purposes of this waiver, employees of the state include individuals employed by the executive, legislative, and judicial branches of state government, but exclude employees of state universities. The Chief Financial Officer, in cooperation with SUS and FCS institutions, must identify and implement measures to reduce administrative burdens associated with the waiver program, including streamlining how institutions verify state employment.

¹¹ Section 1009.23(3), F.S.

¹² Section 1009.26 (5), (7)-(8), (12)-(14), (17)-(20) F.S. Mandatory fee waivers include, but are not limited to, waivers for graduate students in state-approved school psychology internship programs, spouses of deceased state employees, recipients of a Purple Heart or other qualifying combat decoration, and active duty members of the Armed Forces.

¹³ Section 1009.26 (1)-(4), (6), (9)-(11), (15)-(16), and (21), F.S. Permissive fee waivers include, but are not limited to, waivers for full-time university employees, Florida residents 60 years of age or older on a space-available basis, purposes that support and enhance the mission of the university, and intercollegiate student athletes receiving an athletic scholarship.

¹⁴ Section 1009.26(20)(a), F.S. The term "grandparent" means a person who has a legal relationship to a student's parent as the natural or adoptive parent or legal guardian of the student's parent.

¹⁵ Section 1009.265(1), F.S.

¹⁶ Sections 1009.23(12) and 1009.24(14), F.S.

Eligible employees may be required to wait until after priority registration periods to enroll in courses. Participation in the waiver does not guarantee placement in a specific course or section and is dependent on institutional capacity.

SUS and FCS institutions are reimbursed for administrative costs associated with the waiver program from funds specifically appropriated for that purpose, and the Auditor General reviews the related cost assessment data as part of his or her regular audit responsibilities.¹⁷

Florida State Guard

The Florida State Guard (FSG) was created in 2022¹⁸ as a component of the state's organized guard and operates separately from the Florida National Guard.¹⁹ The FSG is a state-funded volunteer force that supports disaster-response and humanitarian efforts during state activations.²⁰

The FSG operates under the Governor's command and control and may be activated for use within the state or in other states for specific purposes.²¹ The FSG may also provide support to other states under the Emergency Management Assistance compact.²² The Division of the State Guard within the Department of Military Affairs is responsible for administering and managing the FSG.²³

Effect of Proposed Changes

Grandparent Out-of-State Fee Waiver

The bill amends s. 1009.26, F.S., by revising eligibility for the out-of-state fee waiver for certain nonresident students with a Florida-resident grandparent to apply only to full-time undergraduate students, eliminating the Classic Learning Test as a qualifying assessment option, and shifting the effective academic year for the changes to the waiver to 2026–2027.

Florida State Guard

The bill amends s. 251.001, F.S., by requiring each FCS institution and state university to waive tuition and fees for active members of the Florida State Guard who enroll in up to six credit hours per term on a space-available basis, subject to approval by the Director of the Division of the State Guard.

Blind Services

Present Situation

The Division of Blind Services, within the Department of Education, helps blind and visually impaired individuals achieve their goals and live their lives with as much independence and self-

direction as possible.²⁴ All programs, projects, and activities of the division are to be carried out in a manner consistent with the following principles:

- Respect for individual dignity, personal responsibility, self-determination to live independently, and pursuit of meaningful careers, based on informed choice;
- Support for the involvement of an individual's representative if an individual requests, desires, or needs such support;
- Respect for the individual's privacy and equal access, including the use of information in accessible formats; and
- Integration and full participation of individuals who are blind in society on equal terms with others.²⁵

Effect of Proposed Changes

The bill creates s. 413.0114, F.S., to require individuals and entities that offer fee-based services to individuals who are blind or visually impaired to provide a written disclosure, before entering into a contract or accepting payment, indicating whether equivalent or substantially similar services are available at no cost through the Division of Blind Services or another public agency.

The bill requires the written disclosure to:

- Be provided in plain language, and upon request in an accessible format, such as braille, large print, or audio;
- Include contact information for the Division of Blind Services; and
- Be signed or electronically acknowledged by the consumer or his or her representative.

The bill provides that a violation constitutes an unfair or deceptive trade practice subject to enforcement and penalties under part II of ch. 501, F.S. The bill also authorizes the Department of Education to adopt rules to implement the section.

Vocational Rehabilitation Service Providers

Present Situation

The State Vocational Rehabilitation Services Program is authorized by the Rehabilitation Act of 1973²⁶ 2 (Rehabilitation Act), as amended by the Workforce Innovation and Opportunity Act (WIOA)²⁷ and provides federal funding to states to operate vocational rehabilitation (VR) programs within a statewide workforce development system.²⁸

In Florida, vocational rehabilitation services are administered by two agencies housed within the Department of Education: the Division of Blind Services, which serves individuals who are blind

or visually impaired, and the Division of Vocational Rehabilitation (DVR), which serves individuals with other disabilities.²⁹

Service providers must register with the DVR. To qualify for registration, the DVR must ensure that the service provider maintains an internal quality assurance system, has proven functional systems, and is subject to a due diligence inquiry into its fitness to undertake service responsibilities.³⁰

Effect of Proposed Changes

The bill amends s. 413.208, F.S., by replacing service provider registration with an application and approval framework. The bill specifies that, to qualify for approval, a service provider must maintain an internal quality assurance system, have a proven functional system, meet minimum qualifications, and be subject to a due diligence inquiry into its fitness to undertake service responsibilities.

The bill requires the DVR to establish minimum qualifications and an annual application process for service providers offering employment-related vocational rehabilitation services. The bill allows the DVR to approve or deny any service provider application. Beginning January 1, 2027, only service providers that meet the minimum qualifications and that have been approved to provide employment-related services to individuals with disabilities may participate in the vocational rehabilitation program.

The bill also requires the DVR to develop and publish an annual report on service provider effectiveness, including an evaluation system that measures the effectiveness of all service providers approved by the DVR to provide employment-related services to individuals with disabilities.

The bill requires service providers participating in the VR program to meet minimum standards of effectiveness, including successful placement of individuals in competitive and integrated employment, in order to maintain approved status with the division. The bill requires rates for VR services to be allocable, reasonable, and necessary, as determined by the division.

The Commission for Independent Education

Present Situation

The Commission for Independent Education (CIE) was established in 2001 and is responsible for matters related to nonpublic postsecondary educational institutions. The CIE's functions include consumer protection, program improvements, institutional policies and administration, data management, and the licensure of independent schools, colleges, and universities.³¹ Under current law, any college, school, or course that is licensed or approved for establishment and

operation by another state agency is not under the jurisdiction of the CIE and is not required to obtain CIE licensure.³²

Effect of Proposed Changes

The bill amends s. 1005.06, F.S., by removing “course” from the exemption from CIE licensure and jurisdiction, limiting the exemption to a college or school licensed or approved by another state agency. The bill also specifies that colleges or schools approved by another state agency to offer one or more courses or programs in nursing, dentistry, real estate, or other licensed programs do not qualify for the exemption solely because the course or program is licensed or approved.

Specialized Associate in Arts Transfer Degree

Present Situation

In 2024, the Legislature authorized Florida College System (FCS) institutions to offer Specialized Associate in Arts Transfer (SAAT) degrees designed for students who need supplemental lower-division coursework to prepare for transfer to another institution. These degrees must include 36 semester hours of general education coursework and require 60 semester hours or more of college credit.³³

The State Board of Education (SBE) is required to establish criteria for the review and approval of new SAAT degrees. As part of the approval process, an FCS institution seeking to offer a SAAT degree must submit a notice of intent to the Division of Florida Colleges (division). The division is required to forward the notice within 10 business days to all FCS institutions and to the Chancellor of the State University System, who must distribute the notice to all state universities. State universities and FCS institutions have 60 days after receipt of the notice to submit comments on the proposed SAAT degree before the proposing institution may submit a formal program proposal.³⁴

Effect of Proposed Changes

The bill amends s. 1007.25, F.S., by reducing the comment submission timeframe on proposed SAAT degree programs from 60 to 30 days.

Middle and High School Grading System

Present Situation

The grading system and interpretation of letter grades used to measure student success in grade 6 through grade 12 courses for students in public schools is as follows:

³² Section 1005.06(1)(b), F.S. This includes colleges, schools, or courses licensed under part I of chapter 464 (Nurse Practice Act), chapter 466 (Dentistry, Dental Hygiene, and Dental Laboratories), chapter 475 (Real Estate Brokers, Sales Associates, Schools, and Appraisers), or any other chapter of the Florida Statutes.

³³ Section 1007.25(9), F.S.; Rule 6A-14.094, F.A.C.

³⁴ *Id.* See also Florida Department of Education, Florida College System, *SAAT Proposal Approval Process Timeline*, <https://www.fl DOE.org/schools/higher-ed/fl-college-system/administrators/saat.shtml> (last visited Feb. 11, 2026).

- Grade “A” equals 90 percent through 100 percent, has a grade point average value of 4, and is defined as “outstanding progress.”
- Grade “B” equals 80 percent through 89 percent, has a grade point average value of 3, and is defined as “above average progress.”
- Grade “C” equals 70 percent through 79 percent, has a grade point average value of 2, and is defined as “average progress.”
- Grade “D” equals 60 percent through 69 percent, has a grade point average value of 1, and is defined as “lowest acceptable progress.”
- Grade “F” equals zero percent through 59 percent, has a grade point average value of zero, and is defined as “failure.”
- Grade “I” equals zero percent, has a grade point average value of zero, and is defined as “incomplete.”³⁵

For class ranking, district school boards are authorized to use a weighted grading system. School districts and Florida College System institutions must weigh dual enrollment courses the same as Advanced Placement (AP), International Baccalaureate (IB), and Advanced International Certificate of Education (AICE) courses when calculating grade point averages (GPAs). Alternative grade calculation systems, alternative grade weighting systems, and information about student education options that discriminate against dual enrollment courses are prohibited.³⁶

Generally, school districts apply a 0.5 GPA weight to honors, pre-IB, or pre-AICE courses, and a 1.0 weight to AP, IB, AICE, and dual enrollment courses.

Effect of Proposed Changes

The bill amends s. 1003.437, F.S., by requiring the State Board of Education to establish a statewide uniform weighted grading system for honors courses and articulated acceleration mechanisms, including dual enrollment, AP, IB, and AICE. The bill also requires school boards to use the weighted grading system to calculate weighted high school GPAs.

Dual Enrollment

Present Situation

The dual enrollment program allows an eligible secondary student or home education student to enroll in a postsecondary course that is creditable toward high school completion and a career certificate or an associate or baccalaureate degree.³⁷ School districts and Florida College System (FCS) institutions are required to weigh dual enrollment courses the same as Advanced Placement (AP), International Baccalaureate (IB), and Advanced International Certificate of Education (AICE) courses when calculating a student’s high school grade point average (GPA). Alternative grade calculation systems, alternative grade weighting systems, and information

³⁶ Section 1007.271(18), F.S.

³⁷ Section 1007.271(1), F.S.

about student education options that discriminate against dual enrollment courses are prohibited.³⁸

Dual enrollment instruction may be provided by a Florida College System institution, a state university, or an eligible independent college or university. An eligible independent college or university is a nonprofit institution that is accredited by a regional or national accrediting agency recognized by the United States Department of Education and that confers degrees.³⁹ The statute does not specify that an eligible school must be located in Florida.

Effect of Proposed Changes

The bill amends s. 1007.271, F.S., by specifying that the postsecondary institutions eligible to participate in the dual enrollment program are Florida public postsecondary institutions and eligible not-for-profit independent colleges and universities.

Dual Enrollment Scholarship Program

Present Situation

The Dual Enrollment Scholarship Program (program) is established to reimburse eligible postsecondary institutions for the cost of providing dual enrollment instruction to certain secondary students. The program is administered by the Department of Education and operates subject to annual appropriations.

Eligible postsecondary institutions are reimbursed for tuition and related instructional materials costs for dual enrollment courses taken by eligible secondary students, with reimbursement for fall and spring term courses limited to eligible private school, home education program, and personalized education program secondary students. and reimbursement for summer term courses extended for public school, private school, home education program, and personalized education program secondary students.⁴⁰

Public postsecondary institutions that provide dual enrollment instruction to public high school students receive payment through school district FEFP funds during the fall and spring terms, as specified in the dual enrollment articulation agreement.⁴¹ The program reimburses eligible postsecondary institutions when district funding is not provided. However, private postsecondary institutions do not receive district funding, but are not authorized to receive program funds in the fall and spring terms.⁴²

To receive reimbursement, participating institutions must report eligible student enrollments to the Department of Education within statutorily prescribed timeframes, and reimbursement payments are contingent upon funding provided in the General Appropriations Act.⁴³

⁴³ Section 1009.30(5) and (7), F.S.

Reimbursement amounts vary by institution type and are based on statutorily established tuition rates, with instructional materials costs reimbursed separately.⁴⁴

Effect of Proposed Changes

The bill amends s. 1009.30, F.S., by expanding reimbursement eligibility under the Dual Enrollment Scholarship Program. Specifically, the bill authorizes reimbursement to eligible independent postsecondary institutions for tuition and related instructional materials costs for dual enrollment courses taken by public school students during the fall and spring terms.

College Readiness Assessment Alternatives

Present Situation

Florida public postsecondary institutions determine whether students demonstrate readiness for college-level communication and computation skills to place students in appropriate coursework and identify the need for developmental education. The State Board of Education (SBE) adopts rules establishing common placement tests and alternative methods for assessing readiness for college-level coursework in communication and computation readiness.⁴⁵

Readiness for college-level communication and computation may be demonstrated by achieving or exceeding standard scores on approved placement assessments, including the Florida Postsecondary Education Readiness Test (PERT), ACT, SAT, ACCUPLACER, and other approved assessments. Readiness may also be demonstrated through alternative methods, including specified concordant scores on approved national assessments, successful performance in designated high school coursework with a minimum grade point average, credit-by-examination, or the use of institution-approved local placement methods for developmental education at Florida College System (FCS) institutions.⁴⁶

Students who entered 9th grade in a Florida public school in the 2003–2004 school year or thereafter and earned a Florida standard high school diploma, as well as students serving as active-duty members of any branch of the United States Armed Services, are exempt from being assessed for readiness for college-level work in communication and computation and from enrollment in developmental education instruction at an FCS institution. Exempt students may elect to be assessed and to enroll in developmental education instruction upon request. Students assessed for readiness in college-level communication and computation whose assessment results indicate a need for developmental education must be advised of all developmental education options offered at the institution and, after advisement, may enroll in the developmental education option of their choice. Students who demonstrate readiness by achieving or exceeding test scores established by the SBE and enroll in an FCS institution within two years are not required to retest or complete developmental education.⁴⁷

⁴⁴ Section 1009.30(6), F.S.

⁴⁵ Section 1008.30(1) and (2), F.S.

⁴⁶ Rule 6A-10.0315, F.A.C.

⁴⁷ Section 1008.30(3), F.S.

FCS institutions are required to implement the developmental education strategies defined in statute⁴⁸ and SBE rule.⁴⁹ Institutions must use placement test results or alternative methods established by the SBE to determine the extent to which each student demonstrates sufficient communication and computation skills for the student's chosen meta-major, and must counsel students into college-credit coursework as quickly as possible, with developmental education limited to the content necessary for success in the meta-major.⁵⁰

Effect of Proposed Changes

The bill amends s. 1008.30, F.S., by expanding the use of alternative assessment methods to allow both FCS and school district career centers to assess students' communication and computational skills using SBE-approved alternatives to common placement tests. The bill authorizes FCS institutions to request approval of institution-specific alternative methods in accordance with the SBE rule.

The bill revises student readiness exemptions by specifying that students who earned a Florida Standard High School Diploma and demonstrated readiness through an approved common placement test or alternative assessment method are exempt from assessment and developmental education.

The bill requires assessment opportunities for non-ready graduates by specifying that students who earned a Florida standard high school diploma but have not demonstrated readiness must be offered the opportunity to be assessed and, if necessary, advised of available developmental education options before enrolling.

The bill extends retesting and developmental education protections to both FCS institutions and school district career centers, providing that students who demonstrate readiness and enroll within two years may not be required to retest or complete developmental education.

Additionally, the bill applies developmental education requirements to school district career centers, including implementing SBE-defined strategies, using placement or alternative assessments tied to a student's chosen meta-major, and counseling students into college-credit coursework as quickly as possible, with developmental education limited to content necessary for success.

Career and Professional Education (CAPE) Certification Funding List

Present Situation

The Career and Professional Education (CAPE) Industry Certification Funding List identifies industry certifications that are eligible for additional funding when earned by students. The State Board of Education (SBE) must adopt the funding list at least annually, based on recommendations from the Commissioner of Education. The list assigns categories of industry

certificates and certifications⁵¹ to certifications identified in the Master Credentials List⁵² that meet statewide, regional, or local workforce demand. Certifications designated as meeting regional or local demand are eligible for supplemental funding only in the areas where such demand has been identified by the Credentials Review Committee.⁵³

Effect of Proposed Changes

The bill amends s. 1008.44, F.S., by removing the limitation that supplemental funding for regional and local demand certifications may only be earned in demand areas as identified by the Credentials Review Committee.

Florida Gold Seal CAPE Scholars Awards

Present Situation

The Florida Gold Seal CAPE Scholars Award, established within the Florida Bright Futures Scholarship Program,⁵⁴ recognizes high school students who earn postsecondary credit through CAPE industry certifications that articulate for college credit.⁵⁵ To be eligible for the award, a student must meet the general eligibility requirements for the Bright Futures Scholarship Program,⁵⁶ earn at least five postsecondary credit hours through eligible CAPE industry certifications, and complete a required number of volunteer service or paid work hours, or a combination of both.⁵⁷ The award may be used to fund career-focused postsecondary programs, including technical degrees, applied technology diplomas, or career certificates, and may also be applied toward baccalaureate degree programs in specified articulated pathways.⁵⁸

Effect of Proposed Changes

The bill amends s. 1009.536, F.S., by modifying the eligibility requirements for the Florida Gold Seal CAPE Scholars award. Specifically, the bill reduces the required minimum postsecondary credit hours earned through CAPE industry certifications from five to three and adds a requirement that students earn a minimum cumulative weighted grade point average (GPA) of 2.5 in all subjects required for high school graduation, excluding electives.

The bill also expands eligibility by allowing students who complete the GATE Program to apply for the award before or within three months of completion.

The Benacquisto Scholarship Program

Present Situation

The Benacquisto Scholarship Program is established to reward high school graduates who are recognized as National Merit Scholars and enroll in a baccalaureate degree program at an eligible Florida public or independent postsecondary educational institution. The program applies to students who initially enroll in the 2014–2015 academic year or later.

The Department of Education administers the program in accordance with rules and procedures adopted by the State Board of Education and is responsible for advertising the availability of the scholarship and notifying students, parents, educators, and school administrators of the eligibility criteria.

To qualify for an initial award, a student must meet specified residency, academic, and enrollment requirements. A Florida resident student must earn a standard Florida high school diploma or its equivalent, subject to statutory exceptions for home education students and students who earn a diploma from a non-Florida school while residing with a parent on a military or public service assignment out of state. The student must also be accepted by and enroll full time in a baccalaureate degree program at a regionally accredited Florida public or independent postsecondary educational institution during the fall academic term immediately following high school graduation.⁵⁹

Effect of Proposed Changes

The bill amends s. 1009.893, F.S., by allowing an eligible student to defer receipt of an initial Benacquisto Scholarship Program award for up to one year while retaining eligibility for the scholarship.

Florida Prepaid College Board

Present Situation

The Florida Prepaid College Board is authorized to establish a direct-support organization (DSO) organized as a Florida not-for-profit corporation to receive, hold, invest, and administer property and to make expenditures for the benefit of the board and the Florida Prepaid College Program. The DSO must be certified by the board as operating in a manner consistent with the board's goals and in the best interests of the state, and may not use the name of the prepaid or savings program unless so certified.

The DSO operates under a written contract with the board that governs its structure and oversight, including board approval of its articles of incorporation and bylaws, submission of an annual budget for board approval, annual certification of compliance by the board, reversion of assets to the board or the state if the organization ceases to operate, and required disclosures to donors. The DSO's fiscal year runs from July 1 through June 30.

⁵⁹ Section 1009.893, F.S.

The DSO is subject to financial oversight requirements, including an annual financial audit, and donor identities may remain confidential as provided by law. The chair of the Florida Prepaid College Board serves as a director of the DSO, and the chair and the executive director jointly appoint additional directors. The board may authorize the DSO to use board property, facilities, and personal services under conditions established by rule.

The board may invest certain DSO funds related to advance payment contracts and the DSO is responsible for administering the Florida Prepaid Tuition Scholarship Program. The board may also establish additional scholarship programs funded by escheated funds, subject to statutory criteria and reporting requirements.⁶⁰

Effect of Proposed Changes

The bill amends s. 1009.983, F.S., by authorizing the chair of the board of the Florida Prepaid College Board to appoint a designee who possesses knowledge, skill, and experience in accounting, risk management, or investment management to serve as the director of the direct-support organization.

Florida ABLE Program

Present Situation

The Florida ABLE Program is established to encourage and assist individuals with disabilities in saving private funds in tax-advantaged accounts to pay for qualified disability expenses, consistent with federal law authorizing ABLE programs.⁶¹ The program is administered by Florida ABLE, Inc., a direct-support organization established by the Florida Prepaid College Board as a Florida not-for-profit corporation to receive, hold, invest, and administer property for the benefit of the Florida ABLE Program.⁶²

The board of directors of Florida ABLE, Inc. consists of the chair of the Florida Prepaid College Board or his or her designee; up to three individuals appointed by the Florida Prepaid College Board with expertise in accounting, risk management, or investment management; one individual with similar expertise appointed by the Governor; and two individuals appointed by legislative leadership who are advocates for persons with disabilities, including at least one advocate for persons with developmental disabilities.⁶³

Effect of Proposed Changes

The bill amends s. 1009.986, F.S., by authorizing the chair of the Florida Prepaid College Board to appoint a designee to serve on the board of directors of Florida ABLE, Inc., provided that the designee possesses knowledge, skill, and experience in accounting, risk management, or investment management.

Academic Acceleration Options Supplement

Present Situation

The Academic Acceleration Options Supplement is established to assist school districts in providing academic acceleration options, career-themed courses, and courses that lead to digital tool certificates and industry certifications for prekindergarten through grade 12 students. The supplement is allocated annually under the General Appropriations Act, based on each school district's proportionate share of the state's total academic acceleration value.⁶⁴ For the 2025–2026 fiscal year, the total Academic Acceleration Options Supplement is \$596.8 million.⁶⁵

The weighted full-time equivalent (FTE) values for student attainment in specified academic acceleration programs vary based on the type of program and the level of achievement and include, but are not limited to, the following:

- **Advanced Placement (AP)**
 - 0.16 FTE for a score of 3 or higher on an AP examination.
 - 0.30 FTE for receipt of an AP Capstone diploma.
- **International Baccalaureate (IB)**
 - 0.16 FTE for a score of 4 or higher on an IB subject examination or a score of “C” or higher in the Theory of Knowledge course.
 - 0.30 FTE for receipt of an IB diploma.
- **Advanced International Certificate of Education (AICE)**
 - 0.16 FTE for completion of a full-credit AICE course with a score of “E” or higher.
 - 0.08 FTE for completion of a half-credit AICE course with a score of “E” or higher.
 - 0.30 FTE for receipt of an AICE diploma.
- **Dual Enrollment**
 - 0.16 FTE for early college program students who complete a general education core course with a grade of “A” or better.
 - 0.08 FTE for non-early college students who complete a general education core course or qualifying career course with a grade of “A”.
 - 0.30 FTE for receipt of an associate degree through dual enrollment with a 3.0 GPA or higher.
- **Career and Professional Education (CAPE)**
 - 0.025 FTE for CAPE Digital Tool certificates earned by elementary and middle school students.
 - 0.10–0.30 FTE for completion of career-themed courses or embedded industry certifications.
 - 0.50–1.0 FTE for CAPE Acceleration industry certifications articulating to postsecondary credit.
- **Early High School Graduation**
 - 0.25 FTE for graduation one semester early.
 - 0.50 FTE for graduation one year or more early.⁶⁶

⁶⁶ Section 1011.62(17)(b)-(f) and (h), F.S.

Using funds received through the supplement, school districts must award performance-based bonuses to teachers whose instruction results in qualifying student achievement. Teacher bonuses are awarded in addition to any regular salary or other bonus received by the teacher:

- \$50 per student for qualifying AP, IB, or AICE examination scores.
- Additional bonuses of up to \$500 for eligible teachers in schools designated with a grade of “D” or “F”.
- \$25 to \$100 per student for instruction leading to the attainment of qualifying CAPE industry certifications, depending on the assigned acceleration value.⁶⁷

School districts must use remaining supplement funds for expenses associated with the applicable acceleration courses and programs, and such funds may not be used to supplant base FEFP funding.⁶⁸

Florida Advanced Courses and Tests

In 2023,⁶⁹ the Legislature established advanced courses developed by the Department of Education (DOE) in collaboration with public postsecondary institutions as an additional acceleration option for students. The DOE collaborated with secondary and postsecondary faculty to develop a high school advanced mathematics course and associated assessment that will offer students an opportunity to earn college credit in college algebra. The DOE launched a pilot of the Florida Advanced Courses and Tests (FACT) College Algebra in the 2025-26 academic year, coordinated by the Division of Florida Colleges and the Florida Student Success Center. Participating secondary instructors received professional learning and will provide feedback to the DOE on the course. Full statewide implementation is scheduled for the 2026-27 school year.

The FACT College Algebra assessment will be based on the B.E.S.T. Standards in the 9-12 Florida Advanced College Algebra course and aligned with the competencies and outcomes identified in the College Algebra (MAC X105) course curriculum. The assessment will be offered during the normal spring (March – May) K-12 testing window. Upon passing the FACT College Algebra assessment, students will receive college credit for MAC X105 good at any public college or university in the state of Florida. Additionally, students who pass the assessment will be prepared for courses in the “Algebra through Calculus” postsecondary mathematics pathway, including pre-calculus, statistics, and/or business calculus.⁷⁰

Effect of Proposed Changes

The bill amends s. 1011.62, F.S., by adding a new funding incentive that generates additional full-time equivalent (FTE) student membership based on student performance in the Florida Advanced Courses and Tests (FACT) College Algebra course, similar to incentives provided for other advanced courses, such as AP, IB, AICE, and CAPE industry certifications. Specifically, the bill:

- Awards additional FEFP FTE membership for each student enrolled in a FACT College Algebra course who achieves a minimum qualifying score on an approved assessment.
- Assigns a value of 0.16 FTE for each qualifying student and adds the additional FTE to the district's total FTE membership in basic programs for grades 9 through 12 in the subsequent fiscal year.
- Requires school districts to allocate at least 80 percent of the funds generated from the additional FTE to the high school that generated the funds through FACT College Algebra instruction.
- Requires districts to distribute performance-based bonuses to teachers who provided FACT College Algebra course instruction, including:
 - A \$50 bonus for each student taught by the teacher who achieves a qualifying score; and
 - An additional one-time \$500 bonus to each FACT College Algebra course teacher in a school graded "D" or "F" who has at least one qualifying student, regardless of the number of qualifying students or courses taught.

Florida College System Program Funding Model

Present Situation

State financial support for FCS institutions is determined through an annual process that establishes the amount to be included in the FCS Program Fund for institutional operating programs. The DOE annually analyzes operating costs to determine costs per FTE student and submits this information, along with current college operating budgets, as part of the legislative budget request process. Funding allocations are based on advanced and professional disciplines, developmental education, and other adult education programs, including lifelong learning and education for disabled adults, while certain enrollments, including state inmate education and courses fully funded by external agencies, are excluded from FTE calculations for state funding purposes.⁷¹

The annual apportionment of state funds to each FCS institution is determined through the General Appropriations Act. In determining each institution's apportionment, the Legislature considers multiple components, including the base budget and a cost-to-continue allocation consisting of incremental changes to the base budget. The cost-to-continue allocation is distributed through a funding model approved by the Legislature and may recognize differing economic factors among institutions, including direct instructional funding, academic support, student services support, library support, special projects, operations and maintenance of plant, and comparable wage factors. The apportionment process also accounts for certain enrollments that are not counted toward FTE workload adjustments, operating cost adjustments for new facilities, and new or improved program enhancements. Student fee revenues included in the base budget and generated by fee increases are deducted from the total of these components to determine the net annual state apportionment to each institution.⁷²

FCS institutions are prohibited from obligating funds for personnel or resources beyond those required to maintain the lower of the previously approved or revised enrollment level. Capital

⁷¹ Section 1011.84(1), F.S.

⁷² Section 1011.84(3), F.S.

outlay and debt service funds are apportioned separately and transmitted to institution boards of trustees in accordance with SBE rules.

Institutional reserve levels are monitored, and written notification to the SBE is required when unencumbered general fund balances fall below 5 percent for institutions with a final FTE enrollment of less than 15,000 in the prior year, or below 7 percent for institutions with a final FTE enrollment of 15,000 or greater. FCS institutions are also required to certify unexpended state funds remaining as of June 30 of the prior fiscal year by September 30 of each year.⁷³

Expenditures for apprenticeship programs and upper-division enrollment are reported separately, and institutions are required to report the volume and cost of developmental education options as a distinct component of their annual cost accounting system.⁷⁴

Effect of Proposed Changes

The bill amends s. 1011.84, F.S., by revising the components used to determine the annual apportionment to FCS institutions from the FCS Program Fund. The bill specifies that the cost-to-continue funding model used in the apportionment process is developed by FCS presidents in consultation with the DOE and approved by the Legislature. The bill requires the funding model to recognize a minimum level of funding per FTE student and account for differing economic factors among FCS institutions, including, but not limited to:

- Program offerings, weighting workforce FTE to account for priorities and costs;
- Completion of credentials, including certificates, certifications, and degrees;
- Size of the college;
- Economies of scale; and
- Regional cost differentials.

In addition, the bill removes provisions related to operating cost adjustments for new facilities. The bill also removes the statutory direction to deduct student fee revenues from the calculation of state apportionment amounts.

The bill retains institutional reserve notification and certification requirements and standardizes the reserve threshold to seven percent for all Florida College System institutions, regardless of institutional size. The bill requires FCS institution presidents to provide written notification when reserves fall below the threshold and to annually certify unexpended state funds.

End-of-Year Carry Forward Balances

Present Situation

Each Florida College System (FCS) institution must maintain a minimum carry forward balance of its state operating budget based on prior-year full-time equivalent (FTE) enrollment. An institution with a final FTE enrollment of less than 15,000 must maintain a minimum carry forward balance of at least 5 percent,⁷⁵ while an institution with a final FTE enrollment of 15,000

⁷³ *Id.*

⁷⁴ Sections 1011.84(3) and 1011.84(5), F.S.

⁷⁵ Section 1013.841(2)(a), F.S.

or greater must maintain a minimum carry forward balance of at least 7 percent.⁷⁶ If an institution fails to maintain the applicable minimum balance, an institution with fewer than 15,000 FTE must provide written notification to the State Board of Education (SBE),⁷⁷ and an institution with 15,000 or more FTE must submit a plan to the SBE to attain the required balance.⁷⁸ An institution that retains a carry forward balance in excess of the applicable minimum must submit a spending plan for the excess carry forward balance to its board of trustees for approval by September 30 of each year, and the SBE must review and publish the plan by November 15 of each year.⁷⁹

For institutions required to submit a carry forward spending plan, the plan must include the estimated cost and a timeline for completion for each planned expenditure. Authorized expenditures in a carry forward spending plan may include commitments of funds to public education capital outlay projects requiring additional funds for completion, renovation, repair, or maintenance projects, remodeling or infrastructure projects that are survey-recommended, repair or replacement projects necessitated by natural disasters, operating expenditures that support the institution's mission, purposes approved by the SBE or specified in the General Appropriations Act, and commitments of funds to a contingency reserve for expenses related to a state of emergency declared by the Governor.⁸⁰

Effect of Proposed Changes

The bill amends s. 1013.841, F.S., by standardizing the minimum carry-forward reserve threshold at 7 percent for all FCS institutions, regardless of institutional FTE enrollment size. The bill authorizes FCS institutions to retain and report to the SBE an annual reserve balance exceeding that amount. The bill also requires FCS institution presidents to provide written notification when reserves fall below the threshold and to annually certify unexpended state funds.

The bill requires each FCS institution with a carry-forward balance exceeding the 7 percent minimum to submit an annual spending plan addressing the excess carry forward balance. In addition, the bill removes the separate carry forward balance and spending plan framework for institutions with a final FTE of 15,000 or more.

The bill authorizes spending plans to include retention of the carry forward balance as a reserve fund to be used for authorized expenses in subsequent years.

The bill is effective July 1, 2026.

Florida College System institutions and state universities may have a negative fiscal impact by granting a waiver of tuition and fees for active members of the Florida State Guard if the institution increases the number of spaces available to accommodate the expanded eligibility.

There is a potential indeterminate negative impact on fee-based providers of blind services and VR services, but a potential positive impact for consumers of those services. The impact on the Department of Education (DOE) to establish application and approval framework for the Division of Vocational Rehabilitation will have an indeterminate fiscal impact.

There is an indeterminate cost to the DOE and school districts for the State Board of Education (SBE) to establish a statewide uniform weighted grading system.

Adjustments to the grandparent fee waiver has an indeterminate fiscal impact to the institutions required to waive out of state fees.

Postsecondary institutions whose policies regarding incarcerated individuals do not currently allow individuals who were incarcerated to qualify for in-state tuition would incur a fiscal impact.

Expanding reimbursement eligibility under the Dual Enrollment Scholarship Program to independent postsecondary institutions for the fall and spring term may result in the distribution of additional program funds.

The changes to the Florida Gold Seal CAPE Scholars award are indeterminate. It is assumed that reducing the required minimum postsecondary credit hours earned through CAPE would increase the number of eligible participants. There would be a negative fiscal impact on the Florida Gold Seal CAPE Scholars award by expanding it to include GATE Program completers.

Establishing bonus funds for the FACT College Algebra course will not have an impact on state revenues or expenditures, however the bill has a positive impact for teachers of the FACT College Algebra course who receive bonuses based on student assessment scores.
