Overview

Purpose
The Tampa Bay Regional Aeronautics Academies are staged to overcome institutional silos through opportunities for Hillsborough, Pasco and Pinellas County school districts and Embry-Riddle Aeronautical University, to develop new, more effective and integrative modes of instruction. The partnership will result in a more coherent system anchored in collaboration and designed to produce clearer pathways from high school to college and careers. Moreover, Pasco, Pinellas and Hillsborough school districts are working together to create a regional aeronautics career pipeline.

Unique Curriculum
The premise of the Tampa Bay Regional Aeronautics Academies is simple: the concurrent enrollment model introduces high school students to rigorous STEM-related courses that prepare students for college, college graduation and high-paying jobs in exciting and dynamic industries. Our three school districts are encouraging student interest in aviation-based STEM programs through educational opportunities from elementary school to dual enrollment, as follows:

- Elementary students are introduced to aerospace technology through entry-level flight simulation, unmanned aircraft systems (UAS), and programmed developmental aviation software programs;
- Middle school students receive an advanced level of the principles of aeronautical science including a higher fidelity of flight simulation, and enhanced UASs that are more complex and versatile in flight;
- High school students learn in an environment that includes collegiate level coursework and credit.

Students Served
During the 2014-2015 school year, approximately 350 students were enrolled in the Tampa Bay Regional Aeronautics Academies program. For the 2015-2016 school year, there will be approximately 750 students enrolled. The projected enrollments for each county are Hillsborough (150), Pasco (400) and Pinellas (200).

Pasco County Schools’ Role
In addition to being the fiscal agent for the three school districts, Pasco County Schools coordinates all aspects of the regional aeronautics academies, including the hiring of an airport professional, managing student internships, teaching courses on aeronautics and airport management, and working with Hillsborough County Aviation Authority (HCAA) employees to develop the student program.
Partnerships

**Embry-Riddle Aeronautical University**
Students are officially registered in Embry Riddle courses that will reflect on their college transcripts. The concurrent enrollment courses administered at high school reflect the pedagogical, theoretical, and philosophical orientation of Embry-Riddle courses. Embry-Riddle instructors provide discipline-specific training and orientation regarding course curriculum, assessment criteria, pedagogy, and course philosophy to the high school instructor. Assessments are evaluated at the same standards of achievement as those expected at the Daytona Beach campus.

**Hillsborough County Aviation Authority**
Hillsborough County Aviation Authority (HCAA) assists in the supervision of the airport professional, provides office space and supports, and assists in the development of the regional aeronautics academies, including the development of courses and curriculum, providing student internships and coordination with the various HCAA departments. An Inter-local Agreement has been executed by and on behalf of Hillsborough County Aviation Authority (Tampa International Airport’s Governing Body) and the District School Board of Pasco County.

**American Association of Airport Executives**
A collaborative project is underway with the American Association of Airport Executives (AAAE) to develop a curriculum and Industry Certification attainable by high school students to have a clear pathway to an airport management career.

**Additional Partnerships**
- Atlas Aviation FBO – Peter O’ Knight Airport (TPF);
- American Aviation – Brooksville Airport (BKV);
- Experiment Aviation Association (EAA) Chapter 1158 – Plant City Airport (PCM);
- Tru-Simulation (Part 142 Training Center) – Lutz, Florida;
- CAE USA (Flight Simulation) – Tampa; and
- FlyMotion (Unmanned Aerospace Systems Training) - Tampa
Funding Background and Request

**FY 2014-2015 State Appropriation**

The Tampa Bay Regional Aeronautics Academies first received a state appropriation during the 2014 Legislative Session for FY 2014-2015. Total: $1,500,000 (Non-recurring: $1,000,000; Recurring: $500,000). The state funding was received late this past fiscal year, which resulted in later than anticipated purchases and budget amendments. The funds received for FY 2014-2015 were used to provide the foundation for our Tampa Bay Regional Aeronautics Academies success and sustainability in providing students from Hillsborough, Pasco and Pinellas a streamlined, cohesive, and optimized K-12 STEM curriculum. All stakeholders from the Aeronautics Academies collaborated to establish equipment lists to be purchased to close out the 2014-2015 fiscal year in preparation of course offerings for the 2015-2016 school year.

The three Tampa Bay Region school districts, along with Embry Riddle Aeronautical University and business partners, joined forces to identify the classroom resources that would engage students and integrate learning at all levels and lead to a highly skilled graduates prepared for college and careers. Each school district did an inventory of these components and reported back what they needed. The funding was distributed throughout the region for the following resources:

*An Aeronautics Academy/Airport Manager are critical positions added to the regional partnership that will emphasize ongoing communication, open information sharing, and joint planning among the school districts and university to establish the conditions of trust required for collaboration to take hold, with clear goals and an agreed-upon vision for the success of all students enrolled in the regional academies. The new funding will fund the next phase of Aeronautics Curriculum tracks to the existing and new schools in the region.

**FY2016-2017 Legislative Budget Request**

We respectfully request to maintain our recurring funding ($500,000) for the Tampa Bay Regional Aeronautics Academies program. Continued investment with our stakeholders is necessary to make education more relevant to our students, while preparing them for continuing education at all educational levels.
Current Proviso Language:
104 SPECIAL CATEGORIES
GRANTS AND AIDS - SCHOOL DISTRICT MATCHING
GRANTS PROGRAM
FROM GENERAL REVENUE FUND . . . . $4,500,000
Funds in Specific Appropriation 104 are provided as challenge grants to public school district education foundations for programs that serve low-performing students, technical career education, literacy initiatives, Science, Technology, Engineering, Math (STEM) Education, initiatives, increased teaching quality and/or increased graduation rates. The amount of each grant shall be equal to the private contribution made to a qualifying public school district education foundation. In-kind contributions shall not be considered for matching purposes. Administrative costs for the program shall not exceed five percent. Before any funds provided in Specific Appropriation 104 may be disbursed to any public school district education foundation, the public school district foundation must certify to the Commissioner of Education that the private cash has actually been received by the public school education foundation seeking matching funds. The Consortium of Florida Education Foundations shall be the fiscal agent for this program.

Overview:
• More than $34 million appropriated by the Florida Legislature since 2001
• Leverages state dollars with $1 for $1 match from private, local contributions

• Funds are flexible, but highly accountable with measurable outcomes
• Locally developed projects must target one or more of the following:
  o Low-performing students
  o Career and technical education
  o Literacy initiatives
  o STEM initiatives
  o Teaching quality
  o Increasing graduation rates

For more Information:
Mary Chance
marychance@cfef.net

www.educationfoundationsfl.org
In 2015-2016, the CFEF expects the following results and outcomes:

- With $4.5 million level funding from 2014-15, an investment total (private and State dollars) of $10 million;

- 59 participating school districts (three additional from 2014-15) serving 99% of Florida's K-12 public school students.

- 147 projects;

- 1.2 million students impacted across the state;

Each year, we ask participating foundations to report measurable outcomes from their projects and describe, if those outcomes were less than expected, how they would improve the positive impact to students going forward. With this in mind, 2014-15 was the first year foundations were required to specifically report results in each applicable priority area to the CFEF in a format that we could more easily collate and aggregate to provide meaningful program impact on a statewide level. In reviewing reports received from 2014-15, we expect overall 2015-16 outcomes in all priority areas to improve not only in actual impact to students and teachers, but also in terms of quality in measurement.
May 4, 2015  **ESTIMATED** First Round distribution schedule emailed to members

June 30, 2015  **2014-15 SDEF Matching Grants Final Reports Due.** Failure to submit by deadline may result in no funding for the 2015-16 grant year.

July and August 2015  **Mandatory** One-Hour SDEFMG Training Sessions Conducted (Must attend one session.)
- **Wednesday, July 15, 2015**  2:00-3:00 p.m. EDT
- **Thursday, July 16, 2015**  10:00-11:00 a.m. EDT  **(For First-Time Participants)**
- **Tuesday, July 21, 2015**  2:00-3:00 p.m. EDT
- **Wednesday, July 22, 2015**  10:00-11:00 a.m. EDT  **(For First-Time Participants)**
- **Tuesday, August 11, 2015**  2:00-3:00 p.m. EDT
- **Wednesday, August 12, 2015**  2:00-3:00 p.m. EDT

August 3, 2015  Online applications open; rolling applications accepted. Certification of Cash Received form must be submitted with application.

September 4, 2015  **Certification of Cash Received Forms and First Round Applications Due.** First distribution of funds for approved projects will be disbursed upon the CFEF receiving a disbursement from the FLDOE.

October 1, 2015  **ESTIMATED Second Round Amounts Announced.** This is a guide for participants to make an educated decision about participating in Second Round funding. All who participate in First Round will receive a Second Round allocation. Once all participating foundations are confirmed by their certification form total (that you have certified for First Round plus Second Round amounts) the **FINAL ACTUAL** distribution will be confirmed.

October 15, 2015  **Second Round Certification of Cash Received Forms Due**
If you did not certify enough to cover both First and Second Round allocations, you can submit a second certification form. If a certification form is NOT received by this date, participation in Second Round will be forfeit.

October 21, 2015  Final Second Round distribution amount released.

October 30, 2015  Second Round budget modifications to original applications and new project applications due.

December 1, 2015  Online Mid-Year Reports open to participants.

January 8, 2016  **Mid-Year Reports Due**

January 2016  **Second** disbursement received from FLDOE. Remaining balances will be distributed to members upon receipt of this disbursement.

February 1, 2016  Deadline to notify the CFEF if returning funds.

June 30, 2016  **All Final Reports Due and Funds Expended**

Overview
- Established in 2008 via F.S. 409.147 to “move the needle” on academic achievement, teen births, and crime in targeted Florida neighborhoods.
- 3 neighborhoods have been designated:
  - Liberty City in Miami (Miami Children’s Initiative)
  - Parramore in Orlando (Parramore Kidz Zone)
  - New Town in Jacksonville (New Town Success Zone)
- Overseen by Ounce of Prevention.
- The State provided $1.5 million in funding in FY14-15. An additional $3.2 million is contributed by local governments, United Way, fundraisers, and foundations.
- Other communities seeking designation include Sulphur Springs Neighborhood of Promise (Tampa), Overtown (Miami), and Franklin’s Promise Coalition (Apalachicola).

RESULTS: Academic Achievement
- **Jacksonville**: 100% of students were promoted to the next grade level, 79% had a GPA of 2.0 or better, 94% were absent from school no more than 4 days and 97% were tardy fewer than 4 days/year.
- **Miami**: Math scores increased 5.6%, Reading +.2%, Science +7.5%, Writing +.7%, and GPA increased 4.6%.
- **Orlando**: 90% of preschool-aged children met or exceeded developmental expectations. 90% of K-12 students maintained 2.0+ GPA, 98% were promoted to next grade level; 100% of seniors graduated high school; at least 63 participants attend college.

RESULTS: Crime
- **Jacksonville**: Crime incidents have declined 28% in New Town compared to 16% citywide.
- **Miami**: Juvenile arrests have dropped 57% and violent charges on juveniles have dropped 44% in Liberty City.
- **Orlando**: Juvenile arrests have declined 74% in Parramore, compared to 47% citywide.

RESULTS: Child Abuse and Teen Births
- **Jacksonville**: Births to girls under age 19 have declined 48% in New Town.
- **Orlando**: Verified Reports of Child Maltreatment have declined 50% in Parramore, compared to 18% county wide.
- **Orlando**: Births to girls under age 19 have declined 66% in Parramore, compared to 35% county wide.

ABOUT WECARE

WeCare of South Dade, a 501c3, began as a community-organizing model developed by public school and law enforcement leaders in the early-1980's. It was designed to bring together representatives from local social service agencies in an effort to network and share information. Today, WeCare has more than 100 members that include social service providers, educators, businesses, clergy, and residents.

WeCare serves Deep South Miami-Dade County, Homestead/Florida City, and its mission is to promote and advocate for the well-being of the South Dade community by addressing its critical issues and concerns through the collaborative efforts of WeCare member organizations.

IN SHORT, WECARE:
Provides training and networking to non-profits
Convenes community-based organizations to address concerns in South Miami Dade
Teaches low-income children to read and lead healthy lifestyles through quality afterschool programs and services for them and their families
Provides emergency energy assistance to Homestead residents
Connects individuals in crisis to needed resources

REQUEST OVERVIEW

WeCare will emphasize educational achievement, guarantee opportunities for success and create a pipeline that leads to college and life success. We will engage an entire neighborhood by:

(1) Reaching children in numbers significant enough to affect the culture of a community;

(2) Transforming the physical and social environments that impact the children’s development; and

(3) Creating programs at a scale large enough to meet the local need.

We will develop excellent, accessible programs and schools linking them to one another so that they provide uninterrupted support for children’s healthy growth, starting with pre-natal programs for parents and finishing when young people graduate from college. The pipeline will be surrounded by additional wrap-around programs that support families and the larger community.

This project will assistance youth, including those transitioning from foster care, with developing their employment skills by providing on-the-job training through internships thereby increasing their opportunities for obtaining full-time employment.

RECOGNITIONS

Featured in July 2015 Commission District 8 Newsletter for “Outstanding Advocacy”
“Outstanding Non-profit Organization”, City of Homestead South Dade Advisory Committee. 2015
“Non-profit of the Year”, South Dade Chamber of Commerce, 2014
“Proclamation for Years of Service”, Miami Dade County School Board, 2012
**COMMUNICATION**
Enhance communication to and between organizations/agencies serving South Dade Community.

- Host monthly networking meetings with average attendance of 40 community representatives. Providers share information about upcoming events, available and needed community resources, community issues, opportunities for collaboration, and needs within their organization.

- Distribute monthly newsletter with employment opportunities, funding alerts, community events.

- Host annual *South Dade Care Awards* honoring individuals and organizations for outstanding service to South Dade.

- Produce the *South Dade Directory of Social Services*.

Complete a neighborhood inquiry to inventory the available social services in South Dade and to identify gaps.

**COLLABORATION**
Improve collaboration between organizations/agencies to maximize resources.

- Develop and coordinate the *South Dade Out-of-School Collaborative* which provides afterschool programs to 195 children from low-income families.

- Partner with Department of Children and Families as an ACCESS site assisting clients with completing online applications for food stamps, unemployment, Medicaid, child support, etc.

- Form Action Teams to address critical community issues.

**COORDINATION**
Coordinate services to address the critical needs of South Dade residents and service providers.

- Coordinate Homestead Energy Lend-A-Hand Program (HELP), a partnership with the City of Homestead and local agencies to provide emergency utility assistance to 100 families in crisis.

- Provide information and referral for emergency food distribution, housing, financial assistance, and other social and human service needs to 400 individuals each year.

- Coordinate community education events around critical neighborhood issues.

- Host quarterly luncheons for Executive Directors/CEOs of non-profit organizations serving South Dade.

- Identify and coordinate training needs of local community-based and faith-based organizations and organize related workshops in South Dade.
Partnerships are key to maximizing resources. Through the collaborative efforts of its members, WeCare identifies community needs then forms partnerships to address the needs. The South Dade Out-of-School Collaborative and the HELP program are two of WeCare's longstanding partnerships.
SENATE EDUCATION FUNDING REQUEST: WHAT WE WILL DO

• Provide tutor, modeled after the Reading Pals program, at two afterschool programs to assist children pre-k to third grade learn to read
• Provide funding to up to two afterschool programs to hire a Creole-speaking teacher to assist low performing students with literacy and homework.
• Provide resources and funding to one early learning centers (Le Jardin) to enable children – specifically of Haitian decent - in Homestead/Florida City to be adequately nurtured during the first 3 years of life and to participate in an Early Head Start program.
• Provide academic support and resources to low performing schools, West Homestead K-8 Center and Florida City Elementary that are implementing effective, innovative improvement strategies
• Provide career-related, summer jobs/internships for youth in school and youth transitioning from foster care.
• Assist parents of children served through the program with access urgent services such as emergency housing, food, and employment. Assist with completing DCF applications for TANF, food stamps, unemployment compensation, and Medicaid.
TARGET AREA

Florida City is referred to as a distressed community. Poverty rates are 43%, compared to the County average of 14%. Areas of Florida City produce the second Highest Temporary Assistance to Needy Families (TANF) rate and the third highest Food Stamp rate in the County; double the rate throughout the entire county – 28 out of 100 persons use food stamps. 98% of students in the school feeder pattern are on free lunches. 100% of children served in our program receive free lunch. Educational levels for the community are very low - The average overall dropout rate for Homestead Senior High School was 4.8%. This average is higher than the state average of 3%. Only four (4) of the parents we serve graduated high school.
NEED

- Critical need for effective intervention at Florida City Elementary School and West Homestead K-8;
- Need for improved literacy and STEM programming at afterschool programs;
- Need to increase Pre-K and VPK classes to children – specifically children of Haitian decent - feeding into Florida City Elementary, enabling every child to be adequately nurtured during the first 3-years of life;
- Insufficient and fragmented programs for reading and writing, financial and computer literacy, health, career, and parenting;
- Lack of a coherent, relationship-based point of access to the services already available;
- The absence of an integrated system of civic engagement, college and career preparation, and employability supports in line with 21st Century needs; and
Investment back into community through employment:
- Provide summer employment for 10 fostercare youth
- 2 Tutors hired year-round PT
- 1 Teacher hired year-round PT
- 1 Administrative staff increased hours

Leveraging Funds:
$31,500 Matching funds and in-kind from LeJardin, Little Kingdom
$18,200 matching program support from Miami Dade County for Administration
$5000 matching for Interns

Educational Achievement/Investment:
- Increase enrollment in afterschool program by 15 children primarily of Haitian decent.
- 85% of children increase reading level
- 90% of children increase physical fitness
- More children at LeJardin ready for kindergarten
- Improved academic success for children at Florida City Elementary and West Homestead K-8
- Improved marketable skills and employability for youth in/transitioning from fostercare
- Assist additional 50 individuals with accessing emergency services including housing, food and employment training and referrals.

Annual **Multicultural Event** was held in December and featured traditional holiday food and children from afterschool programs of the South Dade Out-of-School Collaborative performing holiday dances from Egypt, Japan, Italy, China, and El Salvador.
WeCare coordinated and hosted several community-wide trainings and workshops.
Networking meetings held the first Thursday of each month. Average attendance - 35.
The experienced Board of Directors meet bi-monthly to provide organizational governance and support to WeCare's staff.
ANNUAL SUPPORT: $425,695

2015 Funding
Allegany Franciscan Foundation
The Rosenberg Foundation
Harlem Academy, Clewiston – Keeping our Children Safe

- 5 lock downs in the past year, due to suspected criminal activity near the Center
- Facility was built in the 1950's as the Negro school
- Open campus with the office and three classroom wings as separate buildings connected by covered walkways (see pictures in folder)
- County library on site
- Only Nationally Accredited 4 STAR program in Clewiston
- According to available data, the Harlem neighborhood is below the State average in the following areas:
  - Median household income,
  - Median home value,
  - Median age and household age,
  - College graduates,
  - But, unfortunately ABOVE the State average in unemployment which is why we want parents to have a high-quality safe place for their kids to be while they work.

- Over 40 percent of the families in the community of Harlem are below 200 percent of the poverty level compared to 20 percent of the families in the county and 12 percent of the families in Florida. This community has many needs, as proof by the statistic mentioned above. Having a safe, high-quality early learning program in the Harlem community is a key building block to helping families become self-sufficient.

- The majority of the renovation costs are to improve safety measures at the center, including:
  - A perimeter decorative security fence, which will also connect all the buildings with a coded key pad at each wing to allow authorized access only,
  - An intercom system to better communicate from the office to every classroom. Currently we are using walkie-talkies,
  - A new fire and security alarm system installed,
They Graduated!

Nearly half (47%) of our 2015 students were academically behind their peers, yet 96% of our seniors graduated on time. Just one month after graduation day, 56% of our graduates are serving in the military, enrolled in college and/or working full time.

They Moved Up!

Overall GPA's increased from 2.49 to 2.68 while our seniors improved their GPA from 2.4 to 2.9 average.

They Blossomed!

High school students were averaging 3.65 days absent and high school seniors were averaging 7.97 days absent. Those averages dropped to .73, .41 and .15 respectively.

They Maximized Their Opportunities!

Our 12th and 8th grade students are followed for one year after completing Jobs for Florida’s Graduates to insure maximum success as they move into a new chapter. Our 2013-14 students really took advantage of all they learned. We served approximately 275 seniors; 100% of whom earned a diploma. They didn't stop there. Forty-six (46) percent went to college and seventy-four percent (74) went to work full time. A whopping 95% are working, serving in the military and/or attending college full time.

Our eight graders took equal advantage of the skills they learned with 100% of them transitioning successfully into 9th grade in 2014 and, as of the end of follow up services, a jaw dropping 100% of them moving into 10th grade successfully!
Expanding Our Reach

Bullying: We have long recognized bullying as a workforce development. In an effort to help schools foster environments free of excluding, isolating, shaming, labeling, gossiping, humiliating, belittling and physical violence, we created an app. This technology advance gives students, parents and educators 24/7 access to professional help.

Vocational Training: In partnership with the Home Builders Institute, we opened a vocational training center in Palatka, Florida. To date, thirty students have gone through HBI’s pre-apprenticeship training in facility maintenance; 80% of whom are now working.

STEM: We received over fifty app ideas from girls all over Florida. The Girls Get I.T. club of Waverly Middle School was selected as the winner. The app allows girls to engineer a solution to common, every day problems. This year, we are hosting Florida’s only all-girl STEM competition.

Serving Military Kids

According to research published by the DoDea and the Military Child Coalition; 92% of military dependents attend public, charter, private, independent, and parochial schools.

Consistent with the findings in the Secondary Education Transition Study (SETS), DoD data also indicates that military children move an average of every 2.9 years (three times more frequently than their civilian classmates). Constant moving and the stress of multiple deployments has left 40 to 60% of military dependent student chronically disengaged from school. Half drop out.

2,000,000 children have had a parent deployed to Iraq or Afghanistan

900,000 children have had a parent deployed more than once to Iraq or Afghanistan

50,000 have both parents serving in uniform.
Students at Florida A&M University, Florida Gulf Coast University, Florida State University, Tallahassee Community College, Santa Fe College, and University of Florida may apply to the Southern Scholarship Foundation if they are currently enrolled and in good standing at their respective university/college and exhibit significant financial need.

With 470 beds, each scholarship house is made up of 9-31 students (depending on house capacity) from diverse backgrounds. While living in the house, they are required to live cooperatively by cooking, cleaning, and managing the household budget, as well as maintaining a 3.0 GPA. All houses split a Food & Services bill that consists of utilities, consumables, and other services.

*2001-02 data was determined by taking the average of four random schools, the schools ranged by about $30 per student.
The Boys & Girls Clubs of the Emerald Coast was established in 1968 as the Boys Club of the Playground Area with 15 Members. Today, an average of over 1,000 Members participates in Club activities during the school year and nearly 2,000 enjoy Club activities each summer. The Boys & Girls Clubs of the Emerald Coast employs staff members that are caring, youth-development professionals specifically trained to work with children and teens. Club staff serve as mentors who guide and form positive relationships with youth. Their focus is to provide a safe, learning-centered environment to nurture the mind and body of every child - instilling a sense of belongingness, usefulness, influence and competence. Every Club offers resources for schools, communities and families through a variety of different programs. Examples of programming include: Bullying Prevention, Healthy Habits, SMART Programs (prevention of at-risk behaviors) and Brain Gain (fun summer learning). The Club implements proven social and academic interventions to best impact each child’s achievement in school and life.

**Boys & Girls Club Programs Keep Kids Safe, Inspire Learning and Support Working Families:**

- An evaluation of Florida’s 21st CCLC programs found more than 90% of student participants reported the structured afterschool programs helped them get along with others and solve problems; 87% reported the programs helped them improve their grades; and 85% reported the programs helped them with their reading and math skills (FDOE, 2014).

- A 2009 Public/Private Ventures study of 322 middle school students attending Boys & Girls Clubs for at least 30 months found those attending afterschool programs skipped school fewer times over the course of the academic year.

- A 2014 independent study found that 94% of students in Florida Boys & Girls Clubs were under the age of 16. Moreover, 49% of students served are identified as Black or African American students, 20% are White or Caucasian American, and 19% are Hispanic/Latina(o). Outcomes were impressive, with 72% of students missing no days of school in the time period explored; 80% reporting grades of “Mostly As & Bs”; 66% reporting volunteering; and 71% reporting no fights during the school year.

---

**Afterschool’s role in the ABCs of dropout prevention**

Attendance, Behavior and Coursework are three key indicators of whether middle school students will likely graduate from high school. An analysis of 68 afterschool studies found that participants in high-quality afterschool programs attend school more often, have more positive behaviors, receive higher grades, and perform better on standardized achievement tests compared to students who do not participate in structured afterschool programs.

State budget cuts impact Boys & Girls Clubs

BRADENTON, FL – When the state budget was signed on June 23, it included a 47 percent funding cut totaling $4,966,500 for the Florida Alliance of Boys & Girls Clubs. This funding supports critical afterschool programming and outreach services to disengaged youth (not in school and not working). For the Boys & Girls Clubs of Manatee County the reality of the projected $219,000 cut in local funds translates into 14 lost jobs and an estimated 370 kids that will not receive the positive impact of the Clubs.

Dawn Stanhope, President of Boys & Girls Clubs of Manatee County stated, “A common misconception in the community is that we are funded by Boys & Girls Clubs of America. This couldn’t be further from the truth. Our $3.4 million budget is supported primarily by local philanthropic contributions from individuals and foundations, with county and state funding accounting for the remainder.”

To minimize the impact of the budget cuts, some employees were moved into other open roles within the organization. Staff members that lost their jobs have been put on an eligible-for-rehire list until a position meeting their qualifications becomes available. Due to the staffing reduction, there will be no
outreach services provided to disengaged youth. Additionally, all seven Club locations have been
directed to use a waiting list for families in order to maintain proper staff-to-child ratios.

The economic impact to the community goes beyond job loss. More kids will be left unsupervised,
unguided and unsafe during afterschool hours. In 2013, an independent Florida TaxWatch Study found
that the economic impact of participation in Boys & Girls Club programs provides taxpayer benefits of
$5,000 for each student kept out of the juvenile justice system; $46,000 by not incarcerating a youth;
more than $9,000 for each student not held back a grade; and an aggregate lifetime earnings increase
of nearly $29,080,000 for each 100 additional high school graduates (See the full report by visiting

Stanhope pointed out that this significant cutback is occurring when Manatee County lags behind both
the state and nation for on-time graduation rates and has more disengaged youth and instances of
violent crime (source: www.opportunityindex.org).

Members of the community who feel strongly about this issue are encouraged to contact their local
legislators to voice their support for increased funding for these vital afterschool and outreach services.

“Our future stability and success lies in the health and well-being of our youth,” said Stanhope. “An
investment in our children is an investment in our community. We need to put children first in order to
redefine the economic opportunity equation for future generations.”

About Boys & Girls Clubs of Manatee County

Boys & Girls Clubs of Manatee County is an afterschool and summer program that offers hope and
opportunity to every child in the community, especially those who need it most. In operation since 1946,
Boys & Girls Clubs of Manatee County currently serves over 4,100 young people at seven locations (2 traditional Clubs and 5 school-based Clubs). The Clubs provide a safe place to learn and grow, where young members experience both life-enhancing and character-building programs focused on academic success, healthy lifestyles, and good character and citizenship. For more information or to arrange a tour, call 761-2582 or visit www.bgcmnanatee.org.

###
What is The Family Café?

The Family Café, a 501c3 non-profit organization that provides information and training to individuals with disabilities, has been in existence since 1998. The organization was founded by families who found that they needed information and resources to navigate the service delivery system in Florida. They created The Annual Family Café, a unique three-day event that would bring together individuals with disabilities and their families with state agencies, non-profit organizations and other service providers, so families could network with each other, learn what services are available to them, and find out the best way to go about accessing those services.

The Family Café has always believed that well-informed people make the best possible decisions for themselves and their loved ones. The Annual Family Café provides the opportunity to put that principle into action. By connecting families with information and resources, The Family Café empowers families to identify community-based strategies to support their loved ones with disabilities that can augment or supplant public services, while decreasing the need for expensive institutionalizations. Additionally, The Annual Family Café offers resources to those currently on wait lists for state services, enabling them to identify solutions in the community to help meet their needs for supports and services.

From modest beginnings in 1998, when it attracted some 1,250 participants, The Annual Family Café has grown to be the largest cross-disability event of its kind in the nation. It is a comprehensive, large-scale event that features 160+ breakout sessions, 200+ exhibitors, leadership training, a series of keynotes, networking opportunities and multiple occasions to engage with policy makers, including The Annual Governor’s Summit on Disabilities. This event is truly unique, not only because it attracts thousands of attendees (including nearly 9,000 attendees in 2015), but because it engenders collaboration among the full range of community stakeholders by bringing together families representing all types of disability experience with State Agencies, providers, experts and peers to create a truly family-centered space for collaboration, advocacy, friendship and empowerment.

Individuals with disabilities and their family members are not required to pay a registration fee to attend The Annual Family Café. Additionally, The Family Café offers financial assistance for accommodation to a limited number of families selected through a lottery process. The Family Café recognizes that caring for a family member with a disability or a profound health care need can create financial hardship for the families we serve, and it is part of the organization’s mission to connect indigent and low-income families with the information and training they need to better meet the needs of their loved ones at minimal cost to them.
The Value of The Family Café

The Family Café has been fortunate to have the State of Florida as a partner in its efforts to engage, inform and empower people with disabilities and their families since its founding. In return for its investment in the organization and its mission, The Family Café provides tremendous value to the State of Florida. Specifically, the organization:

- Hosts up to 10,000 individuals with disabilities and family members at The Annual Family Café, in order to promote effective family involvement, access to community-based supports and services and meaningful parent leadership by connecting families with information, resources and support.
- Hosts The Annual Governor’s Summit on Disabilities to provide a forum where elected officials and policy makers, including the Governor, can engage in dialogue with individuals with disabilities and their families.
- Encourages interaction between persons with disabilities and their families and various State of Florida Health and Human Service Agencies, the Division of Emergency Management, the Department of Education and policy makers.
- Provides resources and information to families on a state agency waitlists for services, by offering attendees the opportunity to collect accurate information about the availability and nature of state services, and to develop strategies to meet their needs during the period between application for state services and actually beginning to receive them. (Approximately 75% of Annual Conference registrants are on a state agency waiting list.)
- Allows state agencies to outreach to the population they serve, with 27% of attendees receiving APD services, 51% participating in school ESE programs, over 78% receiving Medicaid.
- Provides a cost-effective means for outreach and training, with a cost per training hour per Annual Conference attendee of roughly $1.09.
- Makes information from 25% of presentations at The Annual Family Café Annual available in one or more alternative formats (e.g. handout, internet download, audio or video).
- Provides Leadership Training designed to foster public policy engagement, self-advocacy and peer support in Florida communities
- Provides “Women’s Summit” Self-Care Training to support the health and wellness of all caregivers of people with disabilities
- Provides The Annual Youth Summit to foster leadership, advocacy and engagement among transition-age youth with disabilities
Beyond The Annual Family Café

Beyond The Annual Family Café, The Family Café also serves as source of information for individuals with disabilities on an ongoing basis. It produces an annual resource guide every fall called The Questions & Answers Book. This publication is created by distributing unanswered questions submitted by attendees for The Annual Governor’s Summit on Disabilities at The Annual Family Café. The Family Café distributes those questions to the relevant state agencies, and collates the responses in a single reference guide. Families have this annually updated document to refer to for simple answers to common questions year-round.

The Family Café also engages in a number of year-round activities to support, network and empower Floridians with disabilities and their families. The organization operates two volunteer groups composed of families and advocates. The first, The Change Agent Network (CAN), provides a platform for leadership development and advocacy around the legislative and policy-making process. The second, The Family Café Delegates, supports the activities of volunteers in local communities throughout the State of Florida. During the Legislative Session, The Family Café hosts a series of weekly “Let’s Talk!” Legislative Conference Calls to inform people with disabilities and their family members of legislative action that may impact their daily lives.

The Family Café also operates The Florida Youth Council, a group of youth and emerging leaders that are dedicated to promoting leadership among their peers with disabilities, including mental health needs. This group plans and implements its own Annual Youth Summit for youth and emerging leaders with disabilities, and was also instrumental in Florida’s adoption of Disability History and Awareness legislation in 2008.

Finally, The Family Café is fortunate to have a network of collaborators and supporters that play key roles in making its various efforts successful. Over its eighteen-year history, the organization has built numerous partnerships with all manner of stakeholders, including key State Agencies. Long-time supporters of The Family Café’s efforts to educate and involve families in Florida include the Department of Education, Department of Children and Families, Department of Health, the Agency for Persons with Disabilities, the Division of Vocational Rehabilitation and the Division of Emergency Management.

Taken as a whole, the organizational capacity and experience of The Family Café make it a truly unique and valuable resource for individuals with disabilities and their families in Florida. The organization has a long track record of success and collaboration, bringing together thousands of individuals and families, providing them with information, training and networking opportunities, and empowering them to advocate for a more responsive, family-centered youth-guided system of care. In all of its efforts, The Family Café embodies the idea that well-informed, empowered people will make the best decisions for themselves and their loved ones. By engendering the principles of Collaboration, Advocacy, Friendship and Empowerment that give The Family Café its name, the organization helps those it serves to flourish in their communities, and enjoy the best possible quality of their life.
The Family Café
“Collaboration, Advocacy, Friendship and Empowerment!”

What is The Family Café?

The Family Café, a 501c3 non-profit organization that provides information and training to individuals with disabilities and their families, has been in existence since 1998. It provides the people it serves with an opportunity for collaboration, advocacy, friendship and empowerment by serving as a facilitator of communication, a space for dialogue and a source of information.

The organization was founded by families who found that they needed information and resources to navigate the service delivery system in Florida. They created The Annual Family Café, a unique three-day event to bring together individuals with disabilities and their families with state agencies, non-profit organizations and other service providers, so families can network with each other, learn what services are available to them, and find out the best way to go about accessing those services.

What does The Family Café do?

The Family Café provides tremendous value to the State of Florida:

- Hosts up to 10,000 individuals with disabilities and family members at The Annual Family Café
- Hosts The Annual Governor’s Summit on Disabilities where policy makers, including the Governor, can engage in dialogue with individuals with disabilities and their families
- Encourages interaction between persons with disabilities and their families and various State of Florida Health and Human Service Agencies, the Division of Emergency Management, the Department of Education and policy makers
- Provides resources and information to families on a state agency waitlists for services
- Allows state agencies to outreach to the population they serve, with 27% of attendees receiving APD services, 51% participating in school ESE programs, over 78% receiving Medicaid.
- Provides a cost-effective means for outreach and training, with a cost per training hour per Annual Conference attendee of roughly $1.09
- Produces The Questions & Answers Book resource guide every fall
- Operates The Florida Youth Council to promote leadership among youth with disabilities
- Supports, networks and empowers Floridians with disabilities and their families year round

October 27, 2015

The Honorable Don Gaetz
Appropriations Subcommittee on Education, Chair
201 The Capitol
404 South Monroe Street
Tallahassee, FL 32399

RE: Excused Absence

Dear Chair Gaetz:

Sadly, I was just informed that my brother, Douglas Legg, passed away suddenly. I would appreciate your understanding and granting of an excused absence for the Appropriations Subcommittee on Education meeting scheduled Tuesday, November 3, 2015, so I may assist my family. Thank you for your consideration.

Sincerely,

John Legg
State Senator, District 17

cc: Tim Elwell, Staff Director
JoAnne Bennett, Committee Administrative Assistant
