## II. Present Situation:

### Florida's Charter Schools

Charter schools are tuition-free public schools created through an agreement or “charter” that provides flexibility relative to regulations for traditional public schools. During the 2022–2023 school year, 382,367 students were enrolled in 726 charter schools in 46 school districts.<sup>1</sup> In general, charter schools are exempt for most Florida laws that govern public schools. The specific regulations that charter schools must comply with are named in law.<sup>2</sup> Charter school governing board members are provided with requirements regarding standards of conduct and financial disclosure.<sup>3</sup>

Charter schools are open to all students residing within the district; however, charter schools are allowed to target students within specific age groups or grade levels, students considered at-risk of dropping out or failing, students wishing to enroll in a charter school-in-the-workplace or charter school-in-a-municipality, students residing within a reasonable distance of the school, students who meet reasonable academic, artistic or other eligibility standards established by the charter school, or students articulating from one charter school to another.<sup>4</sup>

Charter schools are created when an individual, a group of parents or teachers, a business, a municipality, or a legal entity applies to the school district; the school district approves the application; the applicants form a governing board that negotiates a contract with the district school board; and the applicants and district school board agree upon a charter or contract. The district school board then becomes the sponsor of the charter school. The negotiated contract outlines the expectations of both parties regarding the school's academic and financial performance.<sup>5</sup>

Charter schools are required to employ or contract with employees who have undergone background screening that is the same as required for school district employees.<sup>6</sup> Members of the governing board of a charter school are also required to undergo similar background screening.

A charter school must be organized as, or be operated by, a nonprofit organization. The charter school may serve at-risk students, or offer a specialized curriculum or core academic program,

- Siblings of a student enrolled in the charter school.
- Children of a member of the governing board of the charter school.
- Children of an employee of the charter school.
- Children of specific residents or employees related to a charter school-in-the-workplace or a charter school-in-a-municipality.

- Children of an active duty member of any branch of the United States Armed Forces.
- Students who attended or are assigned to failing schools.
- Children of a safe-school officer at the school.
- Students who transfer from a classical school in this state to a charter classical school in this state.<sup>8</sup>

All charter applicants must prepare and submit an application on a model application form prepared by the Department of Education (DOE), which:

- Demonstrates how the school will use the guiding principles.
- Provides a detailed curriculum.
- Contains goals and objectives for improving student learning.
- Describes the separate reading curricula and differentiated strategies.
- Contains an annual financial plan.<sup>9</sup>

A school board is required to review all charter school applications and, within 90 days of receipt, approve or deny the application.<sup>10</sup>

A charter school may be sponsored by any of the following:

- A district school board.
- A state university approved to sponsor certain lab schools.

- Monitor the revenues and expenditures of the charter school and perform the duties related to deteriorating financial conditions of charter schools.
- Approve a charter before the applicant has identified space, equipment, or personnel, when necessary.
- Ensure that the charter is innovative and consistent with the state education goals established in Florida law.
- Ensure that the charter school participates in the state's education accountability system and report any shortcoming to the DOE.

Charter school sponsors are also subject to additional provisions, specifically the sponsor:

- Cannot apply its policies to a charter school unless mutually agreed to by both the sponsor and the charter school.
- Is not liable for civil damages under state law for personal injury, property damage, or death resulting from an act or omission of an officer, employee, agent, or governing body of the charter school.

- Cannot impose additional reporting requirements on a charter school except when the charter school has been identified as having a deteriorating financial condition or a financial emergency.
- Is required to submit an annual report to the DOE in a web-based format determined by the DOE.<sup>12</sup>

The charter agreement is a written agreement that sets forth the terms and conditions for the operation of a charter school, including a virtual charter school, by the sponsor and the applicant. The sponsor and the governing board of the charter school are required to use the standard charter contract or standard virtual charter contract. The charter must be signed by the governing board of the charter school and the sponsor, following a public hearing. The charter agreement is required to include or address the following elements:

- The school's mission, the types of students to be served, and, for a virtual charter school, the types of students the school intends to serve who reside outside of the sponsoring school district.
- The ages and grades to be served.
- The focus of the curriculum, the instructional methods to be used, any distinctive instructional techniques to be employed, and identification and acquisition of appropriate technologies needed to improve educational and administrative performance.
- Ensure that reading is a primary focus. The curriculum and instructional strategies for reading must be consistent with the state's academic standards and grounded in scientifically based reading research.
- Ensure that mathematics is a focus of the curriculum.

### **High Performing Charter Schools**

A high-performing charter school is a school that has met each of the following criteria:

- Received at least two school grades of "A" and no school grade below "B" for the last three years or received at least two consecutive school grades of "A" in the most recent two school years.
- Received an unqualified opinion on each annual audit in the most recent three years for which such audits are available
- Has not received a financial audit that revealed one or more of the financial emergency conditions set described in Florida law in the most three recent fiscal years for which audits

---

<sup>13</sup> Section 1002.33(7), F.S.

are available or for initial eligibility, for the most recent two fiscal years if the charter school has earned two consecutive grades of “A.”<sup>14</sup>

High performance charter schools are allowed additional considerations that include:

- Increasing the school’s student enrollment once per school year to more than the capacity identified in the charter but limited to the capacity of the facility.
- Expanding grade levels within kindergarten through grade 12 to add grade levels not already served.
- Submitting a quarterly, rather than a monthly, financial statement to the sponsor.
- Consolidation under a single charter the charters of multiple high-performing charter schools operated in the same school district by the charter schools’ governing board.
- Receiving a modification of its charter to a term of 15 years or a 15-year charter renewal.<sup>15</sup>

### **Student Code of Conduct**

Each district school board is required to adopt a code of student conduct for elementary schools and a code of student conduct for middle and high schools. The school district is required to distribute the codes to all teachers, school personnel, students, and parents, at the beginning of every school year. The code of conduct is required to be made available in the student handbook or a similar publication. Each code is required to include the following elements:

- Consistent policies and specific grounds for disciplinary action for the possession or use of alcohol.
- Procedures to be followed for acts requiring discipline, including corporal punishment.
- Responsibilities and rights of students with regard to attendance, respect for persons and property, knowledge and observation of rules of conduct, the right to learn, free speech and student publications, assembly, privacy, and participation in school programs and activities.
- Responsibilities of each student with regard to appropriate dress, respect for self and others.
- Notice that illegal use, possession, or sale of controlled substances is grounds for disciplinary action by the school and can result in criminal penalties being imposed.

- Policies regarding the assignment of violent or disruptive students to an alternative educational program and referral to mental health services.
- Notice regarding a student having made a threat or false report involving school or school personnel’s property, school transportation, or a school-sponsored activity.

### III. Effect of Proposed Changes:

This bill modifies numerous provisions related to charter schools including administrative, enrollment, control of students, student safety, facilities, and high-performing charter schools. The bill modifies s. 1002.33, F.S., which:

- Prohibits a charter school sponsor from imposing upon a charter school administrative deadlines that are earlier than the sponsor's own corresponding deadlines for similar reports or submissions. The bill prohibits any deadline imposed upon a charter school for financial audits or other administrative requirements that is earlier than 15 days before the sponsor's own deadline for similar submissions to the Department of Education (DOE).
- Allows a charter school meeting certain criteria to increase its student enrollment to more than the capacity identified in the charter, as long as the increase does not exceed the facility capacity, including new or expanded facilities. The bill requires the charter school to notify its sponsor by March 1 if the school intends to increase enrollment capacity in the following school year and is required to specify the amount of increase.
- Allows a charter school governing board to adopt its own code of student conduct, which the sponsor may review and offer recommendations. The code of student conduct must meet or exceed the minimum standards in the sponsor's code of student conduct. If a provision of the code of student conduct is more stringent than the sponsor's code of student conduct it must align with the mission of the charter school. The bill requires that any complaint or appeal related to the code of student conduct has to be resolved by the charter school's governing board using the board's established procedures and must be in compliance with applicable law and rules.
- Removes the reference for priority enrollment in charter schools that specifically referred to Voluntary Prekindergarten (VPK) and allows for any child completing a prekindergarten program that meets certain conditions to have a priority.
- Requires charter schools to comply with s. 1001.42(8)(c), F.S., regarding procedures for notification of a student's parents related to a student's mental, emotional, or physical well-being.
- Requires that the sponsor and the DOE ensure that student data, including student assessment data, are promptly and efficiently shared with charter schools, including a charter school's contractor. The sponsor or the DOE must comply with law that may limit sharing or providing data.
- Adds a requirement that a landlord of a charter school or his or her spouse or an officer, director, or employee of an entity that is a landlord of a charter school or his or her spouse may not be a member of a governing board of a charter school unless the charter school was established as a charter school-in-a-municipality.

The bill modifies s. 1002.331, F.S., to allow a high performing charter school to assume the charter of an existing charter school within the same school district in which the high-performing charter school operates. The request to be assumed is required to be initiated by the school being assumed and is required to be in writing to the high performing charter school.

106 immunity.

107 4. A Florida College System institution may work with the  
108 school district or school districts in its designated service  
109 area to develop charter schools that offer secondary education.  
110 These charter schools must include an option for students to  
111 receive an associate degree upon high school graduation. If a  
112 Florida College System institution operates an approved teacher  
113 preparation program under s. 1004.04 or s. 1004.85, the  
114 institution may operate charter schools that serve students in  
115 kindergarten through grade 12 in any school district within the  
116 service area of the institution. District school boards shall

117 cooperate with and assist the Florida College System institution  
 118 on the charter application. Florida College System institution  
 119 applications for charter schools are not subject to the time  
 120 deadlines outlined in subsection (6) and may be approved by the  
 121 district school board at any time during the year. Florida  
 122 College System institutions may not report FTE for any students  
 123 participating under this subparagraph who receive FTE funding  
 124 through the Florida Education Finance Program.

125 5. For purposes of assisting the development of a charter  
 126 school, a school district may enter into nonexclusive interlocal  
 127 agreements with federal and state agencies, counties,  
 128 municipalities, and other governmental entities that operate  
 129 within the geographical borders of the school district to act on  
 130 behalf of such governmental entities in the inspection,  
 131 issuance, and other necessary activities for all necessary  
 132 permits, licenses, and other permissions that a charter school  
 133 needs in order for development, construction, or operation. A  
 134 charter school may use, but may not be required to use, a school  
 135 district for these services. The interlocal agreement must  
 136 include, but need not be limited to, the identification of fees  
 137 that charter schools will be charged for such services. The fees  
 138 must consist of the governmental entity's fees plus a fee for  
 139 the school district to recover no more than actual costs for  
 140 providing such services. These services and fees are not  
 141 included within the services to be provided pursuant to  
 142 subsection (20). Notwithstanding any other provision of law, an  
 143 interlocal agreement or ordinance that imposes a greater  
 144 regulatory burden on charter schools than school districts or  
 145 that prohibits or limits the creation of a charter school is

581-03083-25

2025822c1

146 void and unenforceable. An interlocal agreement entered into by  
 147 a school district for the development of only its own schools,  
 148 including provisions relating to the extension of  
 149 infrastructure, may be used by charter schools.

150 6. The board of trustees of a sponsoring state university  
 151 or Florida College System institution under paragraph (a) is the  
 152 local educational agency for all charter schools it sponsors for  
 153 purposes of receiving federal funds and accepts full  
 154 responsibility for all local educational agency requirements and  
 155 the schools for which it will perform local educational agency  
 156 responsibilities. A student enrolled in a charter school that is  
 157 sponsored by a state university or Florida College System  
 158 institution may not be included in the calculation of the school  
 159 district's grade under s. 1008.34(5) for the school district in  
 160 which he or she resides.

161 (c) *Sponsor accountability.*—

162 1. The department shall, in collaboration with charter  
 163 school sponsors and charter school operators, develop a sponsor  
 164 evaluation framework that must address, at a minimum:

165 a. The sponsor's strategic vision for charter school  
 166 authorization and the sponsor's progress toward that vision.

167 b. The alignment of the sponsor's policies and practices to  
 168 best practices for charter school authorization.

169 c. The academic and financial performance of all operating  
 170 charter schools overseen by the sponsor.

171 d. The status of charter schools authorized by the sponsor,  
 172 including approved, operating, and closed schools.

173 2. The department shall compile the results by sponsor and  
 174 include the results in the report required under sub-sub-

581-03083-25

2025822c1

175 subparagraph ~~(b)1.1.(III)~~ ~~(b)1.k.(III)~~.

176 (9) CHARTER SCHOOL REQUIREMENTS.—

177 (s) A charter school governing board may adopt its own code

178 of student conduct. The code of student conduct must meet or

179 exceed the minimum standards set forth in the sponsor's code of

180 student conduct. Any provision of the code of student conduct

181 which is more stringent than the sponsor's code of student

182 conduct must align with the mission of the charter school. The

183 sponsor may review the code and offer recommendations. Any

184 complaint or appeal related to the code of student conduct must

185 be resolved by the charter school's governing board using the

186 board's established procedures and must be in compliance with

187 applicable law and rules.

188 (10) ELIGIBLE STUDENTS.—

189 (d) A charter school may give enrollment preference to the

190 following student populations:

191 1. Students who are siblings of a student enrolled in the

192 charter school.

193 2. Students who are the children of a member of the

194 governing board of the charter school.

195 3. Students who are the children of an employee of the

196 charter school.

197 4. Students who are the children of:

198 a. An employee of the business partner of a charter school-

199 in-the-workplace established under paragraph (15)(b) or a

200 resident of the municipality in which such charter school is

201 located; or

202 b. A resident or employee of a municipality that operates a

203 charter school-in-a-municipality pursuant to paragraph (15)(c)

205 of land provided by the municipality for the operation of the

206 charter school.

207 5. Students who have successfully completed, during the

208 previous year, a ~~voluntary~~ prekindergarten education program

209 ~~under ss. 1002.51-1002.79~~ provided by the charter school, the

210 charter school's governing board, or a ~~voluntary~~ prekindergarten

211 provider that has a written agreement with the governing board.

212 6. Students who are the children of an active duty member

213 of any branch of the United States Armed Forces.

214 7. Students who attended or are assigned to failing schools

215 pursuant to s. 1002.38(2).

216 8. Students who are the children of a safe-school officer,

217 as defined in s. 1006.12, at the school.

218 9. Students who transfer from a classical school in this

219 state to a charter classical school in this state. For purposes

220 of this subparagraph, the term "classical school" means a

221 traditional public school or charter school that implements a

222 classical education model that emphasizes the development of

223 students in the principles of moral character and civic virtue

224 through a well-rounded education in the liberal arts and

225 sciences which is based on the classical trivium stages of

226 grammar, logic, and rhetoric.

227 (h) The capacity of the charter school shall be determined

228 annually by the governing board, in conjunction with the

229 sponsor, of the charter school in consideration of the factors

230 identified in this subsection and subsection (18) unless the

231 charter school is designated as a high-performing charter school

232 pursuant to s. 1002.331. A sponsor may not require a charter

 234 student enrollment cap that prohibits a high-performing charter  
 235 school from increasing enrollment in accordance with s.  
 236 1002.331(2) as a condition of approval or renewal of a charter.  
 237 (16) EXEMPTION FROM STATUTES.—  
 238 (b) Additionally, a charter school shall be in compliance  
 239 with the following statutes:  
 240 1. Section 286.011, relating to public meetings and  
 241 records, public inspection, and criminal and civil penalties.

 243 3. Section 1003.03, relating to the maximum class size,  
 244 except that the calculation for compliance pursuant to s.

 247 salary schedules.  
 248 5. Section 1012.33(5), relating to workforce reductions.

 269 high school start times. A charter school-in-the-workplace is  
 270 exempt from this requirement.  
 271 17. Section 1001.42(8)(c), relating to student welfare.  
 272 (18) FACILITIES.—  
 273 (h) A charter school that is not implementing a school  
 274 improvement plan pursuant to paragraph (9)(n) or a corrective  
 275 action plan pursuant to s. 1002.345 may increase its student  
 276 enrollment to more than the capacity identified in the charter,  
 277 but student enrollment may not exceed the capacity of the  
 278 facility at the time the enrollment increase will take effect.  
 279 Facility capacity for purposes of expansion must include any  
 280 improvements to an existing facility or any new facility in  
 281 which the students of the charter school will enroll. A charter  
 282 school must notify its sponsor in writing by March 1 if it  
 283 intends to increase enrollment for the following school year.  
 284 The written notice must specify the amount of the enrollment  
 285 increase.

 295 request of the charter school, that any funds due to the charter  
 296 school under the National School Lunch Program be paid to the  
 297 charter school as soon as the charter school begins serving food  
 298 under the National School Lunch Program, and that the charter  
 299 school is paid at the same time and in the same manner under the  
 300 National School Lunch Program as other public schools serviced  
 301 by the sponsor or the school district; test administration  
 302 services, including payment of the costs of state-required or  
 303 district-required student assessments; processing of teacher  
 304 certificate data services; and information services, including  
 305 equal access to the sponsor's student information systems that  
 306 are used by public schools in the district in which the charter  
 307 school is located or by schools in the sponsor's portfolio of  
 308 charter schools if the sponsor is not a school district. Access  
 309 to the sponsor's student information system must be provided to  
 310 the charter school and its contractor, unless prohibited by

 322 2. A sponsor shall provide training to charter schools on  
 323 systems the sponsor will require the charter school to use.  
 324 3. A sponsor may withhold an administrative fee for the  
 325 provision of such services which shall be a percentage of the  
 326 available funds defined in paragraph (17)(b) calculated based on  
 327 weighted full-time equivalent students. If the charter school  
 328 serves 75 percent or more exceptional education students as

354 4. A sponsor may not charge charter schools any additional  
355 fees or surcharges for administrative and educational services  
356 in addition to the maximum percentage of administrative fees

COMMITTEE SUBSTITUTE - Substantial Changes

---

**I. Summary:**

CS/SB 1150 provides an exemption to a person who is employed as a school social worker from the demonstration of mastery of general knowledge and subject area knowledge requirements for educator certification.

This bill does not have a fiscal impact on state revenues and expenditures. **See Section V. Fiscal Impact Statement.**

The bill is effective on July 1, 2025.

**II. Present Situation:**

**Licensure of Social Workers in Florida**

In Florida, the social work profession is under the oversight of the Florida Department of Health, specifically the Board of Clinical Social Work, Marriage and Family Therapy and Mental Health Counseling (CSW Board).<sup>1</sup> The CSW Board was legislatively established to ensure that every clinical social worker, marriage and family therapist, and mental health counselor practicing in this state meet minimum requirements for safe practice. The CSW Board is responsible for

---

<sup>1</sup> Section 491.004, F.S.

licensing, monitoring, disciplining and educating clinical social workers, marriage and family therapists, and mental health counselors to assure competency and safety to practice in Florida.<sup>2</sup>

The CSW Board offers three licenses for social workers: registered clinical social worker intern<sup>3</sup>, licensed clinical social worker by examination<sup>4</sup>, and certified master social worker<sup>5</sup>. All three licenses require, among other requirements, a master's degree in social work from a Council on Social Work Education accredited school of social work showing graduate level coursework.

### **Educator Certification**

In order for a person to serve as an educator in a traditional public school, charter school, virtual school, or other publicly operated school, the person must hold a certificate issued by the DOE. Persons seeking employment at a public school as a school supervisor, principal, teacher, library media specialist, counselor, athletic coach, or in other instructional capacity must be certified.<sup>6</sup> The purpose of certification is to require school-based personnel to “possess the credentials, knowledge, and skills necessary to allow the opportunity for a high-quality education in the public schools.”<sup>7</sup>

The DOE issues three main types of educator certificates:

- Professional Certificate: The professional certificate is Florida's highest type of full-time educator certification.<sup>8</sup> The professional certificate is valid for five years and is renewable.<sup>9</sup>
- Temporary Certificate: The temporary certificate covers employment in full-time positions for which educator certification is required.<sup>10</sup> Generally, a temporary certificate is valid for five years and is nonrenewable.<sup>11</sup>
- Athletic Coaching Certificate: The athletic coaching certificate covers full-time and part-time employment as a public school's athletic coach.<sup>12</sup> The DOE issues two types of athletic coaching certificates – one is valid for five years and may be issued for subsequent five-year periods while the other is valid for three years and may be issued only once. The five-year certificate requires satisfaction of certain specialization requirements established in rule.<sup>13</sup>

<sup>16</sup> Section 1012.56(5), F.S

- Successful completion of a competency-based certification program and achievement of a passing score on the professional education competency examination required by SBE rule.<sup>17</sup>

### ***Educator Certification Examination Fees***

The DOE sets registration fees for the various exams required for educator certification, including initial registration and retakes. For the general knowledge exam, the initial registration fee is \$130.00 for the full battery of four subjects. An individual is able to retake the general knowledge exam by subtest with the retake registration fees being the following:

- One subtest - \$32.50;
- Two subtests - \$65.00;
- Three subtests - \$97.50;
- Full battery retake - \$130.00.

For subject area examinations and the professional educational test, the initial and retake registration fee is \$150.00. For subject area exams with subparts, the \$150.00 fee is divided evenly among the subparts for retakes.<sup>18</sup>

Current law and rule provide for several fee waivers including the Military Testing Fee Waiver, Retired First Responder Fee Waiver,<sup>19</sup> and Exceptional Student Education K–12/Elementary Education K–6 Waivers.<sup>20</sup>

### ***Restricted Professional Certificate***

In addition to the professional certification described above, the DOE issues restricted professional certificates, a renewable type of certificate valid for five school years. To receive a restricted professional certificate an applicant must:

- Complete the application adopted in SBE rule;

- Serve as instructional personnel, who is not a classroom teacher, in one of the following fields:
  - Educational Media Specialist;
  - School Counseling;
  - School Psychologist;
  - School Social Work; or
  - Speech-Language Impaired.

An applicant who meets these requirements must only be assigned to non-classroom instructional positions for which they are certified.<sup>21</sup>

<sup>21</sup> Rule 6A-4.004(9), F.S.

### ***Educator Certification Specializations***

An individual holding an educator certification from the DOE may apply for an additional coverage or endorsement indicating advanced education or experience in a particular subject, area, or field.<sup>22</sup> The DOE offers a specialization for certification in school social worker that can be earned in under two plans:

- Plan One. A master's or higher degree with a graduate major in social work that includes 300 hours or more of field placement in a K-12 school setting from a program accredited by the National Council on Social Work Education or accredited by and entity approved by DOE in rule; or
- Plan Two. A master's or higher degree with a graduate major in social work that includes 300 hours or more of field placement with diverse individuals in a community setting other than a prekindergarten, an elementary or a secondary school.<sup>23</sup>

### ***Background Screening Requirements***

Individuals who work in or provide services to school districts, charter schools, alternative schools, and private schools participating in state school choice scholarship programs must undergo a fingerprint based background screening before being permitted access to school grounds.<sup>24</sup> The individuals who must undergo background screening fall under three personnel classifications: instructional and noninstructional personnel;<sup>25</sup> noninstructional school district employees and contracted personnel;<sup>26</sup> and noninstructional contractors.<sup>27</sup> Candidates for educator certification must also undergo background screening.<sup>28</sup>

The background screening requirements for each personnel classification vary depending upon the individual's duties, whether or not the individual is a school district employee, and the degree of contact the individual has with students.<sup>29</sup> Because they are more likely to have direct contact with students, candidates for educator certification, instructional and noninstructional personnel, and noninstructional school district employees and contracted personnel must be screened against a distinct list of 52 disqualifying offenses applicable to employment with public schools and school districts.<sup>30</sup>

### **III. Effect of Proposed Changes:**

This bill amends section 1012.55, F.S., to exempt school social workers from the demonstration of mastery of general knowledge and subject area knowledge requirements for educator certification.

---

**I. Summary:**

CS/CS/SB 1514 adds requirements to ensure schools that serve students in kindergarten through grade eight are equipped with the necessary plans and training to effectively respond to allergic reactions and anaphylaxis, particularly for students who require emergency interventions such as epinephrine. Specifically, the bill:

- Requires district school boards and charter school governing boards to ensure that a student's emergency action plan is in effect and accessible at all times when the student is on campus.
- Requires school personnel and contracted personnel to be provided training on preventing and responding to allergic reactions, including anaphylaxis.
- Specifies that the required training must include the administration of an FDA-approved epinephrine delivery device.
- Authorizes the State Board of Education, in consultation with the Department of Health, to adopt rules, including the identification of an approved training curriculum for the required training.

The bill has an indeterminate fiscal impact for school districts. **See Section V., Fiscal Impact Statement.**

The bill is effective July 1, 2025.

## II. Present Situation:

### Anaphylaxis

Anaphylaxis is a severe, life-threatening allergic reaction that can occur rapidly and can be fatal if not treated immediately. The condition is typically triggered by allergens such as foods, insect stings, medications, and latex. According to the American Academy of Family Physicians, anaphylaxis affects approximately one in 20 people at some point in their lives.<sup>1</sup>

Anaphylaxis involves a range of symptoms affecting multiple systems in the body. These can include one or more of the following:

- Hives or itching (of any body part);
- Flushed or pale skin, dizziness;
- Vomiting, diarrhea, or stomach cramps;
- Swelling (of any body part);
- Red, watery eyes, runny nose;
- Fainting or loss of consciousness;
- Wheezing, coughing, difficulty breathing, shortness of breath;
- Throat tightness or closing, difficulty swallowing, change of voice;
- A sense of doom;
- Change in mental status; and
- Itchy or scratchy lips, tongue, mouth or throat.<sup>2</sup>

Life-threatening allergies in students present significant challenges in schools. According to the Florida Department of Health's 2022-2023 Annual School Health Services Report, approximately 76,000 students in Florida have life-threatening allergies. Additionally, 112,680 students diagnosed with asthma may also experience severe allergic reactions if exposed to allergens.<sup>3</sup> For these students, the immediate administration of epinephrine through an auto-injector syringe may be life-saving.<sup>4</sup>

### Epinephrine in Schools

Students who have experienced or are at risk for life-threatening allergic reactions may carry and self-administer epinephrine auto-injectors at school, during school-sponsored activities, or while traveling to and from these activities with proper parental and physician authorization. The State Board of Education, in collaboration with the Department of Health, must establish rules

ensuring the safe use of epinephrine auto-injectors, including protections against misuse or abuse.

Schools may also maintain a supply of epinephrine auto-injectors secured in a designated location, accessible to trained school personnel or authorized students. Schools must adopt a physician-developed protocol for the administration of these auto-injectors by school personnel who are trained to recognize an anaphylactic reaction and to administer an epinephrine auto-injection during emergencies. School districts, employees, agents, and the physician who provides the protocol are protected from liability related to injuries from administration, provided the trained personnel follow the protocol in response to a suspected anaphylactic reaction. School personnel and volunteers involved in administering epinephrine to students during an emergency are protected from liability, provided they adhere to established guidelines and procedures.<sup>5</sup>

Schools must establish clear protocols for effectively managing allergic reactions, including procedures for administering epinephrine either by trained school personnel or by authorized students themselves. Protocols require an annual Individual Health Care Plan (IHCP) developed by the school nurse in collaboration with the student, parents or guardians, healthcare provider, and school personnel. This plan must include an Emergency Action Plan (EAP) specifying immediate contact with emergency services (911) during an anaphylaxis event and detailing actions if the student cannot self-administer epinephrine.<sup>6</sup>

Schools are required to develop written policies, procedures, and protocols to manage health emergencies, including maintaining updated emergency information cards for each student, listing key health details and contacts. Schools must ensure emergency supplies and equipment are clearly identified and accessible, with locations and lists of staff certified in first aid and cardiopulmonary resuscitation (CPR) visibly posted in high-risk areas. Additionally, schools must have at least two staff members (excluding health room personnel) certified in first aid and CPR. The school nurse, in collaboration with school administration, assists in training staff to provide care during emergencies and ensures first aid supplies and emergency equipment are adequately stocked and maintained.<sup>7</sup>

### **Administration of Medication and Medical Services by District School Personnel**

District school personnel may assist students with the administration of prescription medication at school, provided certain conditions are met, including:

- Providing training to designated school personnel by a registered nurse, licensed practical nurse, advanced practice registered nurse, physician, or physician assistant.
- Adopting formal policies and procedures to guide medication administration by school personnel.
- Obtaining written permission from the student's parent or guardian, clearly stating the necessity of medication administration during school hours or school-sponsored events.

<sup>6</sup> Rule 6A-6.0251, F.A.C.

<sup>7</sup> Rule 64F-6.004, F.A.C.

- Receiving, counting, and securely storing medication in its original container, accessible only to authorized personnel.<sup>8</sup>

Nonmedical district personnel may also perform specific health-related services following the successful completion of child-specific training and periodic monitoring by medical professionals.<sup>9</sup> However, nonmedical district personnel are prohibited from performing invasive medical procedures such as sterile catheterization, nasogastric tube feeding, and tracheostomy care requiring deep suctioning.<sup>10</sup>

District school personnel administering medication in compliance with established policies and procedures are protected from liability for civil damages, provided they act reasonably and prudently under similar circumstances.<sup>11</sup>

Schools must establish emergency procedures specifically designed for life-threatening emergencies as part of a school health services plan developed jointly with the county health department and local school health advisory committee.<sup>12</sup>

### **III. Effect of Proposed Changes:**

This bill amends s. 1002.20, F.S., to require district school boards and charter school governing boards to ensure that each student in kindergarten through grade 8 who has an emergency action plan for anaphylaxis is in effect and accessible at all times when the student is on campus, including during extracurricular activities, athletics, school dances, and contracted before-and-after-school programs at the school.

District school boards and charter school governing boards are required to ensure that each school that serves students in kindergarten through grade eight provide training to an adequate number of school personnel and contracted personnel in preventing and responding to allergic reactions, including anaphylaxis. The bill specifies that the required training must include recognizing the signs of an anaphylactic reaction and administering an FDA-approved epinephrine delivery device that has a pre-measured, appropriate weight-based dose. The bill also requires the State Board of Education, in consultation with the Department of Health, to adopt rules for implementation, including the identification of an approved training curriculum for the required training by October 1, 2025.

The bill is effective July 1, 2025.

COMMITTEE SUBSTITUTE - Substantial Changes

---

**I. Summary:**

CS/SB 1708 modifies provisions related to persistently low performing school and Schools of Hope. Specifically, the bill:

- Adds another category of “persistently low-performing schools.”
- Specifies that an operator of one or more Schools of Hope designated as a local education agency may directly report students to the Department of Education (DOE).
- Allows the operator of a School of Hope to submit a notice of intent to a school district to use underused, vacant or surplus facilities and requires the school district to negotiate an agreement for the use of those facilities.
- Allows a School of Hope to co-locate with another public school under certain circumstances and provides provisions regarding maintenance of the facilities and non-instructional services.
- Authorizes the State Board of Education to resolve disputes arising from a mutual management agreement.

This bill could have both positive and negative fiscal impacts on the school districts that are required to meet the provisions of this bill. **See Section V., Fiscal Impact Statement.**

The bill takes effect on July 1, 2025.

## II. Present Situation:

### Persistently Low-Performing Schools

Florida law defines a persistently low-performing school as a school that has earned three grades lower than a “C” in a least three of the previous five years that the school has received a school grade and has not earned a grade of “B” or higher the most recent two school years, or a school that was closed within two years after a submission of a notice of intent to implement a district managed turnaround plan.<sup>1</sup> Based on 2023-2024 data, there are 51 Florida public schools identified as persistently low-performing schools. All 51 schools are Title I schools, 50 schools served 100 percent economically disadvantaged students and 46 of the 51 schools were comprised of more than 75 percent minority students.<sup>2</sup>

### Florida’s Charter Schools

Charter schools are tuition-free public schools created through an agreement or “charter” that provides flexibility relative to regulations created for traditional public schools. During the 2022-2023 school year, 382,367 students were enrolled in 726 charter schools in 46 school districts.<sup>3</sup>

Charter schools are open to all students residing within the district; however, charter schools are allowed to target students within specific age groups or grade levels, students considered at-risk of dropping out or failing, students wishing to enroll in a charter school-in-the-workplace or charter school-in-a-municipality, students residing within a reasonable distance of the school, students who meet reasonable academic, artistic or other eligibility standards established by the charter school, or students articulating from one charter school to another.

Charter schools are created when an individual, a group of parents or teachers, a business, a municipality, or a legal entity applies to the school district or other charter school sponsor; the sponsor district approves the application; the applicants form a governing board that negotiates a contract with the sponsor; and the applicants and sponsor agree upon a charter or contract. The negotiated contract outlines the expectations of both parties regarding the school's academic and financial performance.

A charter school must be organized as, or be operated by, a nonprofit organization. The charter school may serve at-risk students, or offer a specialized curriculum or core academic program, provide early intervention programs, or serve exceptional education students.<sup>4</sup>

All charter applicants must prepare and submit an application on a model application form prepared by the Department of Education (DOE), which:

- Demonstrates how the school will use the guiding principles.

- Provides a detailed curriculum.
- Contains goals and objectives for improving student learning.
- Describes the separate reading curricula and differentiated strategies.
- Contains an annual financial plan.

A school board or other sponsor is required to review all charter school applications and, within 90 days of receipt, approve or deny the application. A charter school may be sponsored by any of the following:

- A district school board.
- A state university approved to sponsor certain lab schools.
- A state university approved by the DOE.
- A Florida College System institution approved by the DOE.<sup>5</sup>

Florida law outlines the duties of charter school sponsors. The sponsor is required to monitor and review the charter school to ensure progress toward the goals established in the charter and to monitor revenues and expenditures of the charter school. The sponsor is also required to ensure that the charter school participates in the state's educational accountability system but is prohibited from applying its policies to a charter school or imposing additional reporting requirements except when the charter school is experiencing a deteriorating financial condition or emergency. The sponsor is required to submit to the DOE via a web-based format an annual report that includes the following:

- The number of applications for charter school received annually.
- The applicant's contact information.
- The date each application was approved, denied or withdrawn.
- The date each final contract was executed.

The DOE is required to compile an annual report by sponsor each year and post the report on the DOE website by January 15 of each year.

Florida law also provides for accountability of charter school sponsors that requires the DOE to develop a sponsor evaluation framework. At a minimum the framework is required to address the following:

- The sponsor's vision toward charter school authorization and progress toward that vision.
- The alignment of sponsor policies and practices for charter school authorization and best practices.
- The academic and financial performance of charter schools overseen by the sponsor.
- The status of charters schools authorized by the sponsor.

The DOE is required to compile the results of the evaluations and publish the results as part of the required reporting of monitoring of charter schools.<sup>6</sup>

### *Schools of Hope*

Schools of Hope are charter schools operated by a Hope operator which serves students from one or more persistently low-performing schools. These schools are located in the attendance zone or within a five-mile radius of a persistently low-performing school, whichever is greater. Schools of Hope are Title I eligible schools.<sup>7</sup> There are currently 12 Schools of Hope operating in Florida.<sup>8</sup>

A Hope operator is a nonprofit organization with tax exempt status under s. 501(c)(3) of the Internal Revenue Code that operates three or more charter schools that serve students in grades K-12 in Florida or other states with a record of serving students from low-income families, and is designated by the State Board of Education (SBE) as a Hope operator based on a determination that the past performance of the Hope operator meets or exceeds the following criteria:

- The achievement of enrolled students exceeds the district and state averages of the states in which the operator's schools operate.
- The average college attendance rate of previously enrolled students at all schools currently operated by the operator exceeds 80 percent, if data is available.
- The percentage of students eligible for a free or reduced price lunch under the National School Lunch Act enrolled at all schools currently operated by the operator exceeds 70 percent.
- The operator is in good standing with the authorizer in each state in which it operates.
- The audited financial statements of the operator are free of material misstatements and going concern issues.
- Additional outcome measures as determined by the SBE.<sup>9</sup>

Additionally, the Hope operator is required to have been awarded a United States Department of Education Charter School Program Grant for Replication and Expansion of High-Quality Charter Schools within the preceding three years before applying to be a Hope operator. The hope operator must either be receiving funding through the National Fund of the Charter School Growth Fund to accelerate the growth of the nation's best charter schools or has been selected by a district school board in accordance with Florida law.<sup>10</sup>

The seven Florida designated Hope operators are: Mater Academy, Redlands Christian Migrant Association (RCMA), Democracy Prep Public Schools, Inc., IDEA Public Schools, Success Academy, Renaissance/Warrington Preparatory Academy and KIPP New Jersey.<sup>11</sup>

A Hope operator must enter into a performance-based agreement with a school district in order to serve students from persistently low-performing schools or students residing in a Florida Opportunity Zone.<sup>12</sup> The performance-based agreement is required to include the following:

- The notice of intent, which is incorporated by reference and attached to the agreement.
- The location or geographic area proposed for the School of Hope and its proximity to the persistently low-performing school.
- The grades to be served in each year of the agreement and whether the school will serve children in the school readiness or prekindergarten programs.
- A plan of action and specific milestones for student recruitment and the enrollment of students from persistently low-performing schools and students residing in a Florida Opportunity Zone.
- Outline the current incoming baseline standard of student academic achievement, the outcomes to be achieved, and the method of measurement that will be used.
- A description of the methods of involving parents.
- The grounds for termination.
- A provision allowing the Hope operator to open additional schools.
- A provision establishing the initial term as five years.
- A requirement to provide transportation.
- A requirement that any debt incurred by the School of Hope from a source other than the state or a school district does not incur a liability for the state or school district.
- A provision that any loans, bonds, or other financial agreements are not obligations of the state or the school district.
- A prohibition on the pledge of credit or taxing power of the state or the school district.<sup>13</sup>

A School of Hope is required to provide the school district with a concise, uniform, quarterly financial statement summary that contains a balance sheet and a statement of revenue, expenditures, and changes in fund balance. The balance sheet and the statement of revenue, expenditures, and changes in fund balance are required to be in the format prescribed by the Governmental Accounting Standards Board. Additionally, a School of Hope is required to comply with the annual audit requirement for charter schools.<sup>14</sup>

### Facilities

School districts must periodically update their inventory of educational facilities into the Florida Inventory of School Houses as new capacity becomes available and as unsatisfactory space is eliminated.<sup>15</sup> By each April 1, the DOE must update and publish a final list of all underused, vacant, or surplus facilities owned or operated by each school district. A Hope operator establishing a School of Hope may use an educational facility identified in this list at no cost or at a mutually agreeable cost not to exceed \$600 per student.<sup>16</sup>

### **State Board of Education Authority**

In addition to obligations relating to the identification of persistently low-performing schools and development of standard notice of intent and performance-based agreements, the State Board of Education must resolve disputes between a Hope operator and a school district arising from a performance-based agreement or a contract between a charter operator and a school district under its authority to enforce public school improvement.<sup>17</sup>

### **III. Effect of Proposed Changes:**

This bill modifies s. 1002.333, F.S., to provide an additional category of a persistently low-performing school by designating as persistently low-performing those schools that are in the bottom 10 percent of schools statewide for performance on the grade three statewide standardized English Language Arts assessment or the grade four statewide standardized mathematics assessment in at least two of the previous three years. The modification will greatly increase the number of schools being designated as persistently low-performing schools compared to the current 51 schools.

The bill clarifies that a nonprofit entity designated as a local education agency may directly report its students to the Department of Education (DOE).

The bill modifies provisions for Schools of Hope to allow a School of Hope operator to submit to a school district a notice of intent to utilize all or a portion of underused, vacant or surplus facilities owned or operated by the school district. The bill requires that the school district negotiate an agreement for the noticed use.

Additionally, the bill provides a provision allowing for a School of Hope to co-locate with another public school that has a utilization rate below 50 percent or a surplus of 500 student stations as long as the total combined enrollment does not exceed the capacity of the facility. The provision requires that the enrolled students in the School of Hope be included in the school district's total for capital outlay full-time equivalent membership and for calculating the Public Education Capital Outlay maintenance funds for the facility. The bill prohibits the school district from charging the School of Hope a rental or leasing fee but allows for a charge for use, operation, and maintenance as agreed upon but not to exceed \$600 per student. The terms are to be spelled out in a mutual management agreement. The bill provides specific requirements for the agreement and requires that the School of Hope receive non-instructional services from the school district on a pro rata basis. The provision will only apply to schools seeking to co-locate in Miami-Dade County Public schools.

The bill requires that the State Board of Education resolve disputes between the school district and the School of Hope operator that arise from the mutual management agreement.

The bill takes effect on July 1, 2025.

70 board agrees to maintain the school facilities in the same  
71 manner as its other public schools within the district. The  
72 local governing authority ~~may shall~~ not adopt or impose any  
73 local building requirements or site-development restrictions,  
74 such as parking and site-size criteria, student enrollment, and  
75 occupant load, that are addressed by and more stringent than  
76 those found in the State Requirements for Educational Facilities  
77 of the Florida Building Code. A local governing authority must  
78 treat schools of hope equitably in comparison to similar  
79 requirements, restrictions, and site planning processes imposed  
80 upon public schools. The agency having jurisdiction for  
81 inspection of a facility and issuance of a certificate of  
82 occupancy or use shall be the local municipality or, if in an  
83 unincorporated area, the county governing authority. If an  
84 official or employee of the local governing authority refuses to  
85 comply with this paragraph, the aggrieved school or entity has  
86 an immediate right to bring an action in circuit court to  
87 enforce its rights by injunction. An aggrieved party that

90 (d)1. No later than January 1, the department shall  
91 annually provide to school districts a list of all underused,  
92 vacant, or surplus facilities owned or operated by the school  
93 district as reported in the Florida Inventory of School Houses.  
94 A school district may provide evidence to the department that  
95 the list contains errors or omissions within 30 days after  
96 receipt of the list. By each April 1, the department shall  
97 update and publish a final list of all underused, vacant, or  
98 surplus facilities owned or operated by each school district,  
99 based upon updated information provided by each school district.  
100 A hope operator establishing a school of hope may submit to a  
101 school district a notice of intent to use, and the school  
102 district must negotiate an agreement authorizing the use of, an  
103 educational facility identified in this paragraph at no cost or  
104 at a mutually agreeable cost not to exceed \$600 per student. A  
105 hope operator using a facility pursuant to this paragraph may  
106 not sell or dispose of such facility without the written  
107 permission of the school district. For purposes of this  
108 subparagraph ~~paragraph~~, the term “underused, vacant, or surplus  
109 facility” means an entire facility or portion thereof which is  
110 not fully used or is used irregularly or intermittently by the  
111 school district for instructional or program use.

112 2. A school of hope located in a county as defined in s.  
113 125.011(1) may collocate with another public school in any  
114 facility that has a utilization rate of less than 50 percent or  
115 a surplus of at least 500 student stations if the combined total  
116 enrollment of the school does not exceed the capacity of the

 118 included in the school district's total capital outlay full-time  
 119 equivalent membership for purposes of s. 1013.62 and for  
 120 calculating the Public Education Capital Outlay maintenance  
 121 funds or any other maintenance funds for the facility. A rental  
 122 or leasing fee may not be charged, but the use, operation, and  
 123 maintenance of such facility must be provided to the school of  
 124 hope at a mutually agreeable cost, not to exceed \$600 per  
 125 student, pursuant to a mutual management agreement negotiated  
 126 with the district school board. The agreement must include  
 127 provisions related to student ages and grade levels, student and  
 128 school safety requirements, supervision authority, applicable  
 129 school board rules, and emergency shelter protocols. To avoid  
 130 unnecessary duplication, the school of hope shall receive  
 131 noninstructional services from the school district on a pro rata  
 132 basis based on the number of students enrolled.

133 (11) STATE BOARD OF EDUCATION AUTHORITY AND OBLIGATIONS.-  
 134 Pursuant to Art. IX of the State Constitution, which prescribes  
 135 the duty of the State Board of Education to supervise the public  
 136 school system, the State Board of Education shall:

137 (c) Resolve disputes between a hope operator and a school  
 138 district arising from a performance-based agreement, a mutual  
 139 management agreement, or a contract between a charter operator  
 140 and a school district under the requirements of s. 1008.33. The  
 141 Commissioner of Education shall appoint a special magistrate who  
 142 is a member of The Florida Bar in good standing and who has at  
 143 least 5 years' experience in administrative law. The special  
 144 magistrate shall hold hearings to determine facts relating to  
 145 the dispute and to render a recommended decision for resolution

146 to the State Board of Education. The recommendation may not  
 147 alter in any way the provisions of the performance-based  
 148 agreement under subsection (5). The special magistrate may  
 149 administer oaths and issue subpoenas on behalf of the parties to  
 150 the dispute or on his or her own behalf. Within 15 calendar days  
 151 after the close of the final hearing, the special magistrate  
 152 shall transmit a recommended decision to the State Board of  
 153 Education and to the representatives of both parties by  
 154 registered mail, return receipt requested. The State Board of  
 155 Education must approve or reject the recommended decision at its  
 156 next regularly scheduled meeting that is more than 7 calendar  
 157 days and no more than 30 days after the date the recommended  
 158 decision is transmitted. The decision by the State Board of  
 159 Education is a final agency action that may be appealed to the  
 160 District Court of Appeal, First District in accordance with s.  
 161 120.68. A charter school may recover attorney fees and costs if  
 162 the State Board of Education determines that the school district  
 163 unlawfully implemented or otherwise impeded implementation of  
 164 the performance-based agreement pursuant to this paragraph.

165 Section 2. This act shall take effect July 1, 2025.
