I. Summary:

PCS/SB 234 authorizes the creation of joint state and local dental care access accounts to promote local economic development and to encourage Florida-licensed dentists to practice in dental health professional shortage areas or medically underserved areas, or serve a medically underserved population, subject to the availability of funds.

The bill directs the Department of Health (DOH) to create individual benefit accounts through an electronic benefits transfer system for each dentist who satisfies the requirements of participation. A qualifying dentist must be actively employed by a public health program in a targeted area or demonstrate a commitment to opening a dental practice that serves at least 1,200 patients and obtaining local financial support from the community where the dentist will practice in that targeted area. No more than 10 new dental care access accounts may be established per fiscal year.

Funds from the account may be used to repay dental school loans; purchase property, facilities, or equipment for a dental office; or pay for transitional expenses relating to relocating or opening a dental practice. Subject to availability, a practitioner may receive funds for up to five years. An account may be terminated under certain conditions and any unspent funds returned to the donor or redistributed to other available applicants.

The DOH estimates first-year implementation expenditures of $306,064 in general revenue and recurring maintenance and support costs of $277,296 in general revenue.
The effective date of the bill is July 1, 2016.

II. Present Situation:

Health Professional Shortage Areas

Health Professional Shortage Areas (HPSAs) are designated by the Health Resources and Services Administration (HRSA) within the U.S. Department of Health and Human Services according to criteria developed in accordance with section 332 of the Public Health Services Act. HPSA designations are used to identify areas and population groups within the United States that are experiencing a shortage of health professionals.

There are three categories of HPSA designation: (1) primary medical; (2) dental; and (3) mental health. For each discipline category, there are three types of HPSA designations based on the area or population group that is experiencing the shortage: (1) geographic area; (2) population group; and (3) facility.¹

A geographic HPSA indicates that the entire area may experience barriers in accessing care, while a population HPSA indicates that a particular subpopulation of an area (e.g., homeless or low-income) may be underserved. Finally, a facility HPSA is a unique facility that primarily cares for an underserved population.

The primary factor used to determine a HPSA designation is the number of health professionals relative to the population with consideration of high need. The threshold for a dental HPSA is a population-to-provider ratio of at least 5,000 to 1 (or 4,000 to 1 in high-need communities).²

Medically Underserved Area

Medically Underserved Areas (MUA) are also designated by the U.S. Department of Health and Human Services. These areas are designated using one of three methods and can consist of a whole county, a group of contiguous counties, or census tracts.³

The first method, the Index of Medical Underservice (IMU), calculates a score based on the ratio of primary medical care physicians per 1,000 in population, percentage of the population with incomes below the federal poverty level, infant mortality rate, and percentage of population aged 65 or older.

The second method, Medically Underserved Populations (MUP), is based on data collected under the MUA process and reviews the ratio of primary care physicians serving the population seeking the designation. A MUP is a group of people who encounter economic or cultural barriers to primary health care services.

² Id.
³ Id.
The third process, Exceptional MUP Designations, includes those population groups which do not meet the criteria of an IMU but may be considered for designation because of unusual conditions with a request by the governor or another senior executive level official and a local state health official.4

The Dental Workforce

Nationally, the pool of dentists to serve the growing population of Americans is shrinking. The American Dental Association has found that 6,000 dentists retire each year in the U.S., while only 4,000 dental school students graduate each year. The projected shortage of dentists is even greater in rural America. Of the approximately 150,000 general dentists in practice in the U.S., only 14 percent practice in rural areas, 7.7 percent practice in large rural areas, 3.7 percent practice in small rural areas, and 2.2 percent practice in isolated rural areas. In 2003, there were 2,235 federally designated dental health professional shortage areas (HPSAs).5 Today, the number of dental HPSAs has increased to over 4,900.

While the dental workforce is projected to grow by six percent between 2012 and 2025, it is not expected to meet the overall national demand. Florida is listed as the second neediest state, with 1,152 fewer dentists than the number required to serve the population.6 Similar to the national trend, most dentists in Florida are concentrated in the more populous areas of the state, while rural areas, especially the central Panhandle counties and interior counties of south Florida, have a noticeable lack of dentists.7 This is true for both general dentistry as well as for dental specialists. Additionally, over 20 percent of Florida licensed dentists that responded to the 2011-2012 Florida Workforce Survey of Dentists (survey) currently do not practice in Florida.8

Most dentists – 77.8 percent – practice in general dentistry.9 In many rural communities, the county health department may be the primary provider of health care services, including dental care. Florida currently has 220 designated dental HPSAs, which have only enough dentists to serve 17 percent of the population living within them. For 2012, HRSA estimated that 853 additional dentists were required to meet the total need. This puts Florida among the states with

---

8 Id. at 46.
9 Id.
the highest proportion of their populations that are deemed underserved. By 2025, Florida’s need grows to 1,152 dentists.\textsuperscript{10}

The American Dental Association has also studied this issue and found that while there may be a sufficient number of dentists overall, there may be an inadequate number among certain populations or in certain geographic areas.\textsuperscript{11} Children are acutely affected by the shortage of dentists to serve low income patients. In 2012, 26 percent of Medicaid-enrolled children in Florida received one or more dental care services, according data from the Agency for Health Care Administration (AHCA).\textsuperscript{12} The survey noted a noticeable participation difference between private-practice dentists and those who practice in a safety-net setting. Of those in a private-office setting, only 13.7 percent report seeing Medicaid enrollees while over 60 percent of safety-net providers report Medicaid participation.\textsuperscript{13}

In 2011, the Legislature passed HB 7107\textsuperscript{14} creating the Statewide Medicaid Managed Care (SMMC) program as part IV of ch. 409, F.S. The program has two primary components: Managed Medical Assistance program (MMA) and Long Term Care program. To implement MMA, the law required the AHCA to create an integrated managed care program for the delivery of Medicaid primary and acute care services, including dental. Medicaid recipients who are enrolled in MMA receive their dental services through managed care plans. Although most dental services are designated as a required benefit only for Medicaid recipients under age 21, many of the managed care plans also provide dental services for adults as an enhanced benefit.

The Cost of Dental Education

Among U.S. dental schools, the cost of a four-year degree has risen dramatically over the last 10 years – by 93 percent for in-state residents (from about $89,000 to $171,000) and by 82 percent for out-of-state residents (from $128,000 to $234,000). Dental school debt has increased proportionately. The average debt for dental school graduates in 2014 was $247,227.\textsuperscript{15}

In 2013, Congress enacted the Bipartisan Student Loan Certainty Act of 2013 (Public Law 113-28) that tied student loan interest rates to the 10-year Treasury Note. For graduate and professional student loans, the interest rate is tied to 10-year Treasury Note plus 3.6 percent, but may not exceed 9.5 percent in any given year.\textsuperscript{16} In June 2014, through a Presidential Memorandum, President Barack Obama directed the Secretary of Education to propose regulations to allow additional students with student loan debt to cap their payments at 10 percent of income.

\textsuperscript{16} \textit{Id.}
percent of their income, by December 31, 2015. The Presidential Memorandum called the plan, “Pay as You Earn Plan.”

Some studies indicate that increasing education costs and the prospect of indebtedness after dental school graduation could further erode access to care for vulnerable, underserved populations. At least three studies, including a 2011 Florida Senate Report, have recommended consideration of loan forgiveness programs as one strategy for addressing dental workforce shortage concerns.

Florida does not have a current state program to address the dental health professional shortage areas or medically underserved areas. According to the DOH, there are 16 vacant positions (out of 82 or 19.5 percent) for dentists in the DOH. Additionally, according to the Health Resources and Services Administration, there are 16 vacant dentist positions in Florida Dental Health Professional Shortage Areas as of September 16, 2015.

**Florida Health Services Corps**

In 1992, the Legislature created the Florida Health Services Corps (FHSC), administered by the DOH, to encourage medical professionals to practice in locations that are underserved because of a shortage of qualified professionals. The FHSC was defined as a program that offered scholarships to allopathic, osteopathic, chiropractic, podiatric, dental, physician assistant, and

---

17 Id.
20 Comm. on Health Regulation, The Florida Senate, Review Eligibility of Dentist Licensure in Florida and Other Jurisdictions, p.15 (Interim Report 2012-127) (Sept. 2011) [http://www.flsenate.gov/PublishedContent/Session/2012/InterimReports/2012-127hr.pdf](http://www.flsenate.gov/PublishedContent/Session/2012/InterimReports/2012-127hr.pdf) (last visited Sept. 21, 2015). The report concluded, in part: “Florida may become more competitive in its recruitment of dentists in rural areas and may enhance Florida’s dental care for underserved populations if it offers a loan forgiveness program. The program could require dentists seeking loan assistance to serve in a rural area (the Panhandle or central, south Florida) and require dentists to serve a certain percentage of Medicaid recipients or participate in the provider network of managed care entities participating in the Medicaid program for a particular period of time. Considering the current lack of state resources, it may be beneficial to limit the number of dentists that may apply to the loan forgiveness program and target resources to areas with the most need for general dentists or specialists.” At the time, Florida was one of only eight states that did not have a state loan forgiveness program. According to the American Dental Association, it is one of only 11 states: Alabama, Arkansas, Connecticut, Florida, Georgia, Hawaii, Idaho, Indiana, Montana, Texas, and Utah as of July 2014. [http://www.ada.org/~/media/ADA/Education%20and%20Careers/Files/dental-student-loan-repayment-resource.ashx](http://www.ada.org/~/media/ADA/Education%20and%20Careers/Files/dental-student-loan-repayment-resource.ashx) (Last visited Mar. 2, 2015).

23 Id.
24 Chapter 92-33, s. 111, Laws of Fla. (creating s. 381.0302, F.S., effective July 1, 1992).
25 Section 381.0302(2)(b)1., F.S. (2011).
nursing students, and loan repayment assistance and travel and relocation expenses to allopathic and osteopathic residents and physicians, chiropractic physicians, podiatric physicians, nurse practitioners, dentists, and physician assistants, in return for service in a public health care program or in a medically underserved area. Membership in the FHSC could be extended to any health care practitioner who provided uncompensated care to medically indigent patients. All FHSC members were required to enroll in Medicaid and to accept all patients referred by the DOH pursuant to the program agreement. In exchange for this service, an FHSC member was made an agent of the state and granted sovereign immunity under s. 768.28(9), F.S., when providing uncompensated care to medically indigent patients referred for treatment by the DOH.

The statute authorized the DOH to provide loan repayment assistance and travel and relocation reimbursement to allopathic and osteopathic medical residents with primary care specialties during their last two years of residency training or upon completion of residency training, and to physician assistants and nurse practitioners with primary care specialties, in return for an agreement to serve a minimum of two years in the FHSC. During the period of service, the maximum amount of annual financial payments was limited to no more than the annual total of loan repayment assistance and tax subsidies authorized by the National Health Services Corps (NHSC) loan repayment program.

During the 20 years the program was authorized by law, it was funded only three times. A total of $3,684,000 was appropriated in the 1994-1995 fiscal year, 1995-1996 fiscal year, and 1996-1997 fiscal year for loan assistance payments to all categories of eligible health care practitioners. Of that amount, $971,664 was directed to 18 dentists for an average award of $25,570 per year of service in the program. The 2007 Legislature attempted to reinvigorate the program by appropriating $700,000 to fund loan repayment assistance for dentists only. However, the appropriation and a related substantive bill were vetoed. The Legislature repealed the program in 2012.

26 “Public health program” was defined to include a county health department, a children’s medical services program, a federally funded community health center, a federally funded migrant health center, or other publicly funded or nonprofit health care program designated by the department. Section 381.0302(2)(e), F.S. (2011).
27 “Medically underserved area” was defined to include: a geographic area, a special population, or a facility that has a shortage of health professionals as defined by federal regulations; a county health department, community health center, or migrant health center; or a geographic area or facility designated by rule of the department that has a shortage of health care practitioners who serve Medicaid and other low-income patients. Section 381.0302(2)(c), F.S. (2011).
28 “Medically indigent person” was defined as a person who lacks public or private health insurance, is unable to pay for care, and is a member of a family with income at or below 185 percent of the federal poverty level. Section 381.0302(2)(d), F.S. (2011).
29 Section 381.0302(10), F.S. (2011).
30 Section 381.0302(11), F.S. (2011).
31 Section 381.0302(6), F.S. (2011).

35 Chapter 2012-184, s. 45, Laws of Fla.
National Health Service Corps

The NHSC programs provide scholarships and educational loan repayment to primary care providers,\(^{36}\) who agree to practice in areas that are medically underserved. NHSC loan repayment program (LRP) participants fulfill their service requirement by working at NHSC-approved sites in HPSAs. The NHSC-approved sites are community-based health care facilities that provide comprehensive outpatient, ambulatory, primary health care services. Eligible dental facilities must be located in a dental HPSA and offer comprehensive primary dental health services. NHSC-approved sites (with the exception of correctional facilities and free clinics) are required to provide services for free or on a sliding fee scale (SFS) or discounted fee schedule for low-income individuals. The SFS or discounted fee schedule is based upon the Federal Poverty Guidelines, and patient eligibility is determined by annual income and family size.\(^{37}\)

The LRP provides funds to participants to repay their outstanding qualifying educational loans. Maximum loan reimbursement under the program is $50,000 for a two-year, full-time practice or up to $15,000 for a two-year, half-time clinical practice, although participants may be eligible to continue loan repayment beyond the initial term.\(^{38,39}\) Participants who breach their LRP agreement are subject to monetary damages, which are the sum of the amount of assistance received by the participant representing any period of obligated service not completed, a penalty, and interest. Loan repayments are exempt from federal income and employment taxes and are not included as wages when determining benefits under the Social Security Act.\(^{40}\) As of September 2015, there were 47 full-time-equivalent NHSC dentists in Florida.\(^{41}\)

A second NHSC program, the State Loan Repayment Program (SLRP) offers cost-sharing grants to states to operate their own state educational loan repayment programs for primary care providers, including dental professionals, working in HPSAs within the state. The SLRP varies from state to state and may differ in eligible categories of providers, practice sites, length of required service commitment, and the amount of loan repayment assistance offered. However, there are certain statutory requirements SLRP grantees must meet. There is a minimum two-year service commitment with an additional one-year commitment for each year of additional support requested. Any SLRP program participant must practice at an eligible site located in a federally-designated HPSA. Like the NHSC loan repayment program awards, assistance provided through an SLRP is not taxable.

\(^{36}\) Primary care physicians, nurse practitioners, certified nurse midwives, physician assistants, dentists, dental hygienists, and behavioral and mental health providers, including health service psychologists, licensed clinical social workers, marriage and family therapists, psychiatrist nurse specialists, and licensed professional counselors.

\(^{38}\) The definition of part-time and full-time vary by discipline. The guidelines for both can be found in the Fiscal Year 2015 Application and Program Guidance packet beginning on 19 [http://www.nhsc.hrsa.gov/loanrepayment/lrpapplicationguidance.pdf](http://www.nhsc.hrsa.gov/loanrepayment/lrpapplicationguidance.pdf) (last viewed Feb. 27, 2015).

\(^{40}\) U.S. Dept. of Health and Human Services, Health Resources and Services Administration, National Health Service Corps 101 (on file in the Senate Committee on Health Policy).

\(^{41}\) E-mail from Debbie Reich, Supervisor, State Primary Care Office, Health Statistics and Performance Management, Florida Dept. of Health (Sept. 22, 2015) (on file with the Senate Committee on Health Policy).
In addition, the SLRP requires a $1 state match for every $1 provided under the federal grant. While the SLRP does not limit award amounts, the maximum award amount per provider that the federal government will support through its grant is $50,000 per year, with a minimum service commitment of two years.

Florida does not currently participate in SLRP.

III. Effect of Proposed Changes:

The bill creates the dental care access accounts initiative at the Department of Health (DOH). The initiative is conditioned on the availability of funds and is intended to encourage dentists to practice in dental health professional shortage areas or medically underserved areas or serve a medically underserved population. The bill defines several key terms:

- Dental health professional shortage area: A geographic area so designated by the Health Resources and Services Administration of the U.S. Department of Health and Human Services;
- Medically underserved area: A designated health professional shortage area that lacks an adequate number of dental health professionals to serve Medicaid and other low income patients; and
- Public health program: A county health department, the Children’s Medical Services program, a federally qualified community health center, a federally-funded migrant health center, or other publicly-funded or not-for-profit health care program designated by the DOH.

The initiative will be developed by the DOH to benefit dentists licensed to practice in this state who demonstrate, as required by DOH rule:

- Active employment by a public health program in a dental health professional shortage area or a medically underserved area; or
- A commitment to opening a private practice in a dental health professional shortage area or medically underserved area by residing in the area, maintaining a Medicaid provider agreement, enrolling with one or more Medicaid managed care plans, expending capital to open an office to serve at least 1,200 patients, and obtaining community financial support.

The DOH is required to establish dental access accounts for dentists who meet the requirements in the bill and to implement an electronic benefits transfer system. The bill requires that no more than 10 new dental care access accounts may be established per fiscal year. Funds from an account may be used only for specific purposes, such as payment of student loans; investment in property, facilities, or equipment necessary to establish an office and payment of transitional expenses related to relocating or opening a dental practice.

Subject to available appropriations, the DOH is required to distribute funds to the dental access accounts in amounts not to exceed $100,000 and no less than $10,000. A state award may not exceed three times the amount contributed to an account in the same year from a local source. The DOH is authorized to accept funds for deposit from local sources.

If a dentist qualifies for an account on the basis of his or her employment with a public health program, the dentist’s salary and associated employer expenditures may count as local match for
a state award if the salary and employer expenditures are not state funds. State funds may not be used to calculate amounts contributed from local sources.

Accounts may be terminated if the dentist no longer works for a public health program and does not open a dental practice in a designated area within 30 days of terminating employment, the dentist’s practice is no longer located in a dental professional shortage area or a medically underserved area, the provider has been terminated from Medicaid, or the provider has participated in any fraudulent activity. The DOH is directed to close an account five years after the first deposit or upon a dentist’s termination from the program.

Any remaining funds after five years or from terminated accounts may be awarded to another account or returned to the donor. A dentist is required to repay any funds withdrawn from the account after the occurrence of an event which requires account closure, if the dentist fails to maintain eligibility for the program through employment in a public health program or establishing a dental practice for a minimum of two years, or uses the funds for unauthorized purposes. The DOH is authorized to recover the withdrawn funds through disciplinary enforcement actions and other methods authorized by law.

The DOH is authorized to adopt rules for application procedures that:

- Limit the number of applicants;
- Incorporate a documentation process for evidence of sufficient capital expenditures in opening a dental practice, such as contracts or leases or other acquisitions of a practice location of at least 30 percent of the value of equipment or supplies necessary to operate a practice; and
- Give priority to those applicants practicing in the areas receiving higher rankings by the Department of Economic Opportunity.

The DOH may also establish by rule a process to verify that funds withdrawn from an account have been used for the purposes authorized.

The Department of Economic Opportunity is directed to rank the dental professional shortage areas and medically underserved areas based on the extent to which limited access to dental care is impeding economic development.

The DOH must develop a marketing plan for the dental care access account initiative with the University of Florida’s College of Dentistry, the Nova Southeastern College of Dental Medicine, the Lake Erie College of Osteopathic Medicine’s School of Dental Medicine, and the Florida Dental Association.

Beginning in January 2018, the DOH is required to issue a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives which must include:

- The number of patients served by dentists who receive funding under the bill;
- The number of Medicaid recipients served by dentists who receive funding under the bill;
- The average number of hours worked and patients served per week by dentists who receive funding under the bill;
• The number of dentists in each dental health professional shortage area or medically underserved area who receive funding under the bill;
• The amount and source of local matching funds received by the DOH;
• The amount of state funds awarded to dentists under the bill; and
• A complete accounting of the use of funds, by categories identified by the DOH, including, but not limited to, loans, supplies, equipment, rental property payments, real property purchases, and salary and wages.

The DOH is directed under the bill to adopt rules to require dentists to report information to the DOH that is necessary for the DOH to fulfill the reporting requirement.

The bill’s effective date is July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Under PCS/SB 234, Floridians living in those areas identified as medically underserved and have little or no access to dental care could benefit from this initiative. The program could bring additional dental professionals to underserved communities. The initiative also permits the grantees to utilize the funds to transition or relocate to new areas and to build or renovate office space in rural communities, which would generate economic growth for small towns and cities. Additionally, dentists who qualify for loan repayment assistance will benefit from a reduction in their student loan debt.

C. Government Sector Impact:

If the program receives an appropriation, the bill will create a fiscal impact to the Department of Health (DOH) in order to implement and manage the dental care access account initiative. The estimated cost is $306,064 for the 2016-2017 fiscal year with a
recurring cost of $277,296 beginning with Fiscal Year 2017-2018. These costs would need to be funded with general revenue.

The initial cost for the electronic benefit transfer contract/vendor is estimated at $100,000 for the first year and $50,000 for the second year. The DOH reports that there is a current EBT system that could be used to implement this system, but it is unknown if it could accommodate all of the provisions of this bill. The EBT systems charge a nominal fee of approximately $0.50 per participant per month as a maintenance fee. The DOH also anticipates a withdrawal fee of at least $1 per transaction when a dentist makes a withdrawal from his or her account.

The number of dentists qualifying for this initiative is unknown. However, the DOH estimates at least 32 dentists could be served annually. The cost of the EBT system would have to be negotiated based on the number of dentists participating in the program.

The DOH also reports the bill will create a workload impact that current staff is unable to meet. Two additional full-time equivalent (FTE) staff members would be required to develop the application process and adopt rules. Staff will also be needed to monitor activity, dentist conduct, dentist membership status, and rulings by the Board of Dentistry on recipients.

The following are the estimated expenditures for the DOH:

*The DOH is also directed to develop a marketing plan with Florida-based dental schools.

VI. **Technical Deficiencies:**

None.

VII. **Related Issues:**

None.

VIII. **Statutes Affected:**

This bill creates section 381.4019 of the Florida Statutes.

IX. **Additional Information:**

A. **Committee Substitute – Statement of Substantial Changes:**

(Summarizing differences between the Committee Substitute and the prior version of the bill.)

**Recommended CS by Appropriations Subcommittee on Health and Human Services on November 18, 2015:**

The proposed committee substitute requires that no more than 10 new dental care access accounts may be established per fiscal year.

B. **Amendments:**

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill’s introducer or the Florida Senate.
Appropriations Subcommittee on Health and Human Services (Richter) recommended the following:

Senate Amendment (with title amendment)

Delete line 95
and insert:
the department for participation. The department may not establish more than 10 new dental care access accounts per fiscal year. The department shall implement

And the title is amended as follows:
Delete line 10
and insert:
accounts; limiting the number of new accounts that may
be established per fiscal year; requiring the
Department of Health to
A bill to be entitled An act relating to dental care; creating s. 381.4019, F.S.; establishing a joint local and state dental care access account initiative, subject to the availability of funding; authorizing the creation of dental care access accounts; specifying the purpose of the initiative; defining terms; providing criteria for the selection of dentists for participation in the initiative; providing for the establishment of accounts; requiring the Department of Health to implement an electronic benefit transfer system; providing for the use of funds deposited in the accounts; requiring the department to distribute state funds to accounts, subject to legislative appropriations; authorizing the department to accept contributions from a local source for deposit in a designated account; limiting the number of years that an account may remain open; providing for the immediate closing of accounts under certain circumstances; authorizing the department to transfer state funds remaining in a closed account at a specified time and to return unspent funds from local sources; requiring a dentist to repay funds in certain circumstances; authorizing the department to pursue disciplinary enforcement actions and to use other legal means to recover funds; requiring the department to establish by rule application procedures and a process to verify the use of funds withdrawn from a dental care access account; requiring the department to give priority to applications from dentists practicing in certain areas; requiring the Department of Economic Opportunity to rank dental health professional shortage areas and medically underserved areas; requiring the Department of Health to develop a marketing plan in cooperation with certain dental colleges and the Florida Dental Association; requiring the Department of Health to annually submit a report with certain information to the Governor and the Legislature; providing rulemaking authority to require the submission of information for such reporting; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 381.4019, Florida Statutes, is created to read:

381.4019 Dental care access accounts.—Subject to the availability of funds, the Legislature establishes a joint local and state dental care access account initiative and authorizes the creation of dental care access accounts to promote economic development by supporting qualified dentists who practice in dental health professional shortage areas or medically underserved areas or who treat a medically underserved population. The Legislature recognizes that maintaining good oral health is integral to overall health status and that the good health of residents of this state is an important contributing factor in economic development. Better health, including better oral health, enables workers to be more...
(1) As used in this section, the term:
(a) "Dental health professional shortage area" means a geographic area so designated by the Health Resources and Services Administration of the United States Department of Health and Human Services.
(b) "Department" means the Department of Health.
(c) "Medically underserved area" means a geographic area so designated by the Health Resources and Services Administration of the United States Department of Health and Human Services.
(d) "Public health program" means a county health department, the Children's Medical Services Network, a federally qualified community health center, a federally funded migrant health center, or other publicly funded or nonprofit health care program as designated by the department.
(2) The department shall develop and implement a dental care access account initiative to benefit dentists licensed to practice in this state who demonstrate, as required by the department by rule:
(a) Active employment by a public health program located in a dental health professional shortage area or a medically underserved area; or
(b) A commitment to opening a private practice in a dental health professional shortage area or a medically underserved area, as demonstrated by the dentist residing in the designated area, maintaining an active Medicaid provider agreement, enrolling in one or more Medicaid managed care plans, expending sufficient capital to make substantial progress in opening a dental practice that is capable of serving at least 1,200 patients, and obtaining financial support from the local community in which the dentist is practicing or intending to open a practice.
(3) The department shall establish dental care access accounts as individual benefit accounts for each dentist who satisfies the requirements of subsection (2) and is selected by the department for participation. The department shall implement an electronic benefit transfer system that enables each dentist to spend funds from his or her account for the purposes described in subsection (4).
(4) Funds contributed from state and local sources to a dental care access account may be used for one or more of the following purposes:
(a) Repayment of dental school student loans.
(b) Investment in property, facilities, or equipment necessary to establish and operate a dental office consisting of no fewer than two operatories.
(c) Payment of transitional expenses related to the relocation or opening of a dental practice which are specifically approved by the department.
(5) Subject to legislative appropriation, the department shall distribute state funds as an award to each dental care access account. An individual award may be in an amount not more than $100,000 and not less than $10,000, except that a state award may not exceed 3 times the amount contributed to an account in the same year from local sources. If a dentist qualifies for a dental care access account under paragraph (2)(a), the dentist's salary and associated employer...
(9) If the department determines that a dentist has withdrawn account funds after the occurrence of an event specified in subsection (7), has used funds for purposes not authorized in subsection (4), or has not remained eligible for a dental care access account for a minimum of 2 years, the dentist shall repay the funds to his or her account. The department may recover the withdrawn funds through disciplinary enforcement actions and other methods authorized by law.

(10) The department shall establish by rule:

(a) Application procedures for dentists who wish to apply for a dental care access account. An applicant may demonstrate that he or she has expended sufficient capital to make substantial progress in opening a dental practice that is capable of serving at least 1,200 patients by documenting contracts for the purchase or lease of a practice location and providing executed obligations for the purchase or other acquisition of at least 30 percent of the value of equipment or supplies necessary to operate a dental practice. The department may limit the number of applicants selected and shall give priority to those applicants practicing in the areas receiving higher rankings pursuant to subsection (11). The department may establish additional criteria for selection which recognize an applicant’s active engagement with and commitment to the community providing a local match.

(b) A process to verify that funds withdrawn from a dental care access account have been used solely for the purposes described in subsection (4).

(11) The Department of Economic Opportunity shall rank the dental health professional shortage areas and medically underserved areas.
underserved areas of the state based on the extent to which limited access to dental care is impeding the areas’ economic development, with a higher ranking indicating a greater impediment to development.

(12) The department shall develop a marketing plan for the dental care access account initiative in cooperation with the University of Florida College of Dentistry, the Nova Southeastern University College of Dental Medicine, the Lake Erie College of Osteopathic Medicine School of Dental Medicine, and the Florida Dental Association.

(13)(a) By January 1 of each year, beginning in 2018, the department shall issue a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives which must include:

1. The number of patients served by dentists receiving funding under this section.
2. The number of Medicaid recipients served by dentists receiving funding under this section.
3. The average number of hours worked and patients served in a week by dentists receiving funding under this section.
4. The number of dentists in each dental health professional shortage area or medically underserved area receiving funding under this section.
5. The amount and source of local matching funds received by the department.
6. The amount of state funds awarded to dentists under this section.
7. A complete accounting of the use of funds by categories identified by the department, including, but not limited to,

loans, supplies, equipment, rental property payments, real property purchases, and salary and wages.

(b) The department shall adopt rules to require dentists to report information to the department which is necessary for the department to fulfill its reporting requirement under this subsection.

Section 2. This act shall take effect July 1, 2016.

This form is part of the public record for this meeting.

S-001 (10/14/14)
I. Summary:

PCS/CS/SB 242 creates the Miami-Dade Infectious Disease Elimination Act (IDEA), which authorizes the University of Miami and its affiliates to establish a single sterile needle and syringe exchange pilot program in Miami-Dade County as a means to prevent the transmission of blood-borne diseases. The bill provides duties and requirements for the operation of the pilot program.

The bill prohibits state, county, or municipal funds from being used to operate the pilot program. Instead, the pilot program must be funded through grants and donations from private resources.

The pilot program expires on July 1, 2021.

The bill has no fiscal impact. The bill has an effective date of July 1, 2016.

II. Present Situation:

Needle and syringe exchange programs (NSEPs) provide sterile needles and syringes in exchange for used needles and syringes to reduce the transmission of human immunodeficiency virus (HIV) and other blood-borne infections associated with the reuse of contaminated needles and syringes by injection-drug-users (IDUs).
Intravenous Drug Use in Florida

In 2013, the majority of Florida counties with high rates of persons living with HIV/AIDS (PLWHA), and with a high IDU-associated risk, were in the southeast or central parts of the state. The Department of Health (DOH) reports that 50 to 90 percent of HIV-infected IDUs are also co-infected with Hepatitis C Virus. The chart below displays data from 2013 of the 11 Florida counties with the highest incidence of PLWHA with an IDU-associated risk.

Intravenous Drug Use in Miami-Dade County

In a 2011 study, researchers from the University of Miami estimated that there are more than 10,000 IDUs in Miami and that one in five of these IDUs are HIV positive while one in three are Hepatitis C positive. The researchers also found that IDUs in Miami—a city without a needle and syringe exchange program—had over 34 times the adjusted odds of disposal of a used syringe in a public location relative to IDUs in San Francisco—a city with multiple exchange programs.

Needle and Syringe Exchange Programs

In the mid-1980s, the National Institute on Drug Abuse (NIDA) undertook a research program to develop, implement, and evaluate the effectiveness of intervention strategies to reduce risk behaviors and prevent the spread of HIV/AIDS, particularly among IDUs, their sexual partners, and offspring. The studies found that comprehensive strategies—in the absence of a vaccine or

2 Florida Dep’t of Health, HIV Disease and Hepatitis C Virus (HCV) Co-Infection – Florida, 2013 (Revised Sept. 3, 2014) (on file with the Senate Committee on Health Policy).
3 Supra note 1. Percent IDU adjusted to conform to previous data charts.
5 Id.
cure for AIDS—are the most cost effective and reliable approaches to prevent new blood-borne infections. The strategies NIDA recommends are community-based outreach, drug abuse treatment, and sterile syringe access programs, including needle and syringe exchange programs (NSEPs). In general, these strategies are referred to as harm reduction.6

Needle and syringe exchange programs provide free sterile needles and syringe units and collect used needles and syringes from IDUs to reduce transmission of blood-borne pathogens, including HIV, hepatitis B virus, and hepatitis C virus (HCV). In addition, the programs help to:

- Increase the number of drug users who enter and remain in available treatment programs;
- Disseminate HIV risk reduction information and referrals for HIV testing and counseling and drug treatment;
- Reduce injection frequency and needle-sharing behaviors;
- Reduce the number of contaminated syringes in circulation in a community; and
- Increase the availability of sterile needles, thereby reducing the risk that new infections will spread.7

The first sanctioned NSEP in the world began in Amsterdam, the Netherlands, in 1984. The first sanctioned program to operate in North America originated in Tacoma, Washington, in 1988. As of June 2014, there are 194 NSEPs in 33 states, the District of Columbia, the Commonwealth of Puerto Rico, and the Indian Nations.8

**Safe Sharps Disposal**

Improperly discarded sharps pose a serious risk for injury and infection to sanitation workers and the community. “Sharps” is a medical term for devices with sharp points or edges that can puncture or cut skin.9

Examples of sharps include:

- Needles - hollow needles used to inject drugs (medication) under the skin;
- Syringes - devices used to inject medication into or withdraw fluid from the body;
- Lancets - also called “fingerstick” devices - instruments with a short, two-edged blade used to get drops of blood for testing;
- Auto injectors - including epinephrine and insulin pens - syringes pre-filled with fluid medication designed to be self-injected into the body;
- Infusion sets - tubing systems with a needle used to deliver drugs to the body; and

---

- Connection needles/sets - needles that connect to a tub to transfer fluids in and out of the body.¹⁰

Used needles and other sharps pose a dangerous risk to people and animals if not properly disposed as they can spread disease and cause injury. On November 8, 2011, the Federal Drug Administration (FDA) launched a new web site for patients and caregivers on the safe disposal of sharps.¹¹ The most common infections from such injuries are Hepatitis B (HBV), Hepatitis C (HCV), and Human Immunodeficiency Virus (HIV).¹² The FDA’s guidelines for disposal are to never place loose needles or other sharps into household or public trash cans or recycling bins, and to never flush them down toilets.¹³

**Federal Ban on Funding Needle and Syringe Exchange Programs**

In 1988, Congress enacted an initial ban on the use of federal funds for NSEPs which remained in place until 2009. In 2009, Congress passed the 2010 Consolidated Appropriations Act, which removed the ban on federal funding of NSEPs. In July 2010, the U.S. Department of Health and Human Services issued implementation guidelines for programs interested in using federal dollars for NSEPs.¹⁴

However, on December 23, 2011, President Barack Obama signed the 2012 omnibus spending bill that reinstated the ban on the use of federal funds for NSEPs, which reversed the 111th Congress’s 2009 decision to allow federal funds to be used for NSEPs.¹⁵ The ban on federal funding for NSEPs remains in effect.

**Florida Comprehensive Drug Abuse Prevention and Control Act**

In Florida, the term “drug paraphernalia” is defined as all equipment, products, and materials of any kind which are used, intended for use, or designed for use in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, containing, concealing, transporting, injecting, ingesting, inhaling, or otherwise introducing into the human body, a controlled substance in violation of ch. 893, F.S., or s. 877.111, F.S.¹⁶

Section 893.147, F.S., regulates the use or possession of drug paraphernalia. Currently, it is unlawful for any person to use, or to possess with intent to use, drug paraphernalia:
- To plant, propagate, cultivate, grow, harvest, manufacture, compound, convert, produce, process, prepare, test, analyze, pack, repack, store, contain, or conceal a controlled substance in violation of this chapter; or

---

¹⁰ Id.
¹² Supra, note 10.
¹³ Id.
¹⁵ Id.
¹⁶ Section 893.145, F.S.
To inject, ingest, inhale, or otherwise introduce into the human body a controlled substance in violation of ch. 893, F.S.

Any person who violates this provision commits a first degree misdemeanor.\(^{17}\)

It is unlawful for any person to deliver, possess with intent to deliver, or manufacture with intent to deliver drug paraphernalia, knowing, or under circumstances where one reasonably should know, that it will be used:

- To plant, propagate, cultivate, grow, harvest, manufacture, compound, convert, produce, process, prepare, test, analyze, pack, repack, store, contain, or conceal a controlled substance in violation of this act, or
- To inject, ingest, inhale, or otherwise introduce into the human body a controlled substance in violation of this act.

Any person who violates this provision commits a third degree felony.\(^{18}\)

A court, jury, or other authority, when determining in a criminal case whether an object constitutes drug paraphernalia, must consider specified facts surrounding the connection between the item and the individual arrested for possessing drug paraphernalia. A court or jury is required to consider a number of factors in determining whether an object is drug paraphernalia, such as proximity of the object in time and space to a controlled substance, the existence of residue of controlled substances on the object, and expert testimony concerning its use.\(^{19}\)

**Federal Law Exemption**

Any person authorized by local, state, or federal law to manufacture, possess, or distribute drug paraphernalia is exempt from the federal drug paraphernalia statute.\(^{20}\)

### III. Effect of Proposed Changes:

**Section 1**

titles the bill as the “Miami-Dade Infectious Disease Elimination Act ("IDEA").”

**Section 2**

amends s. 381.0038, F.S., to create a sterile needle and syringe exchange pilot program in Miami-Dade County.

The bill authorizes the University of Miami and its affiliates to establish a single sterile needle and syringe exchange pilot program in Miami-Dade County. The pilot program may operate at a fixed location or through a mobile health unit. The pilot program is designed to offer the free exchange of clean, unused needles and hypodermic syringes for used needles and hypodermic syringes as a means to prevent the transmission of HIV, AIDS, viral hepatitis, or other blood-borne diseases.

\(^{17}\) A first degree misdemeanor is punishable by up to 1-year imprisonment in a county jail, a fine of up to $1,000, or both. See ss. 775.082 and 775.083, F.S.

\(^{18}\) A third degree felony is punishable by up to 5 years in state prison, a fine not to exceed $5,000, or both. See ss. 775.082 and 775.083, F.S.

\(^{19}\) Section 893.146, F.S.

The bill provides that the pilot program must provide for maximum security of exchange sites and equipment, including:

- An accounting of the number of needles and syringes in use;
- The number of needles and syringes in storage;
- Safe disposal of returned needles; and
- Any other measure required to control the use and dispersal of needles and syringes.

The pilot program must operate a one-for-one exchange, whereby participants receive one sterile needle and syringe unit in exchange for each used one. In addition to the needle and syringe exchange, the pilot program must make available:

- Educational materials;
- HIV, AIDS, and viral hepatitis counseling and testing;
- Referral services to provide education regarding HIV, AIDS, viral hepatitis, and other blood-borne disease transmission; and
- Drug-abuse prevention and treatment counseling and referral services.

The bill specifies that the possession, distribution, or exchange of needles or syringes as part of the pilot program is not a violation of any law. However, a pilot program staff member, volunteer, or participant is not immune for criminal prosecution for:

- Possession of needles or syringes that are not a part of the pilot program; or
- Redistribution of needles or syringes in any form, if acting outside the pilot program.

The pilot program must collect data for annual and final reporting purposes, including information on:

- The number of participants served;
- The number of needles and syringes exchanged and distributed;
- The demographic profiles of the participants served;
- The number of participants entering drug counseling and treatment;
- The number of participants receiving testing for HIV, AIDS, viral hepatitis, or other blood-borne diseases, and
- Other data deemed necessary for the pilot program.

The bill specifies that personal identifying information may not be collected from a participant for any purpose.

State, county, or municipal funds may not be used to operate the pilot program, and the pilot program must be funded through grants and donations from private resources and funds.

The bill provides that the pilot program will expire July 1, 2021.

Section 3 creates an undesignated section of Florida law to provide a severability clause, providing that if any provision of this act or its application to any person or circumstances is held invalid, the invalidity does not affect other provisions or applications of the bill that can be given effect without the invalid provision or application, and to this end the provisions of the bill are severable.
Section 4 provides an effective date of July 1, 2016.

IV. Constitutional Issues:
   A. Municipality/County Mandates Restrictions:
      None.
   B. Public Records/Open Meetings Issues:
      None.
   C. Trust Funds Restrictions:
      None.

V. Fiscal Impact Statement:
   A. Tax/Fee Issues:
      None.
   B. Private Sector Impact:
      Under PCS/CS/SB 242, the University of Miami will be responsible for securing funding through grants and donations from private sources. According to the Department of Health, the needle exchange site must obtain a Biomedical Waste Operating Permit as a sharps collection program in accordance with Chapter 64E-16, Florida Administrative Code, through the Department’s Miami-Dade Environmental Health office.
   C. Government Sector Impact:
      The pilot program may reduce state and local government expenditures for the treatment of blood-borne diseases associated with intravenous drug use in Miami-Dade County. As one example, the state and local governments currently pay for medical expenditures through a number of programs for patients with AIDS, such as Medicaid, the AIDS Drug Assistance Program, and the AIDS Insurance Continuation Program. In 2010 dollars, the lifetime treatment of an HIV infection is estimated to cost $379,668.²¹

VI. Technical Deficiencies:
   None.

VII. Related Issues:
   The bill requires the pilot program to collect various data for the purpose of annual reports and the program’s final report, including “other data deemed necessary for the pilot program.”

The bill does not provide guidance as to standards under which data may be deemed necessary or which entity may deem data to be necessary. Furthermore, the bill does not identify to whom the annual and final reports are to be submitted.

VIII. Statutes Affected:

This bill substantially amends section 381.0038 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Health and Human Services on November 18, 2015:
The proposed committee substitute changes the pilot program’s expiration date from July 1, 2020, to July 1, 2021.

CS by Health Policy on November 2, 2015:
The CS added county and municipal funds as other sources of public funding that may not be used to operate the pilot program. The CS also removed the requirement for the Office of Program Policy Analysis and Government Accountability to submit a report on the pilot program.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill’s introducer or the Florida Senate.
Appropriations Subcommittee on Health and Human Services (Smith) recommended the following:

**Senate Amendment**

1. Delete line 121
2. and insert:
   3. (f) The pilot program shall expire July 1, 2021.
By the Committee on Health Policy; and Senators Braynon and Flores

A bill to be entitled

An act relating to an infectious disease elimination pilot program; creating the “Miami-Dade Infectious Disease Elimination Act (IDEA)”; amending s. 381.0038, F.S.; authorizing the University of Miami and its affiliates to establish a sterile needle and syringe exchange pilot program in Miami-Dade County; establishing the pilot program criteria; providing that the possession, distribution, or exchange of needles and syringes under the pilot program is not a violation of the Florida Comprehensive Drug Abuse Prevention and Control Act or any other law; providing conditions under which a pilot program staff member, volunteer, or participant may be prosecuted; requiring the pilot program to collect certain data; prohibiting the collection of personal identifying information from program participants; prohibiting state, county, or municipal funds from being used to operate the pilot program; requiring the pilot program to be funded through private grants and donations; providing for expiration of the pilot program; providing for severability; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. This act may be cited as the “Miami-Dade Infectious Disease Elimination Act (IDEA).”

Section 2. Section 381.0038, Florida Statutes, is amended to read:

381.0038 Education; sterile needle and syringe exchange program.—The Department of Health shall establish a program to educate the public about the threat of acquired immune deficiency syndrome.

(1) The acquired immunity deficiency syndrome education program shall:

(a) Be designed to reach all segments of Florida’s population;

(b) Contain special components designed to reach non-English-speaking and other minority groups within the state;

(c) Impart knowledge to the public about methods of transmission of acquired immune deficiency syndrome and methods of prevention;

(d) Educate the public about transmission risks in social, employment, and educational situations;

(e) Educate health care workers and health facility employees about methods of transmission and prevention in their unique workplace environments;

(f) Contain special components designed to reach persons who may frequently engage in behaviors placing them at a high risk for acquiring acquired immune deficiency syndrome;

(g) Provide information and consultation to state agencies to educate all state employees; and

(h) Provide information and consultation to state and local agencies to educate law enforcement and correctional personnel and inmates;

(i) Provide information and consultation to local governments to educate local government employees;

(j) Make information available to private employers and
encourage them to distribute this information to their employees.

(k) Contain special components which emphasize appropriate behavior and attitude change; and

(1) Contain components that include information about domestic violence and the risk factors associated with domestic violence and AIDS.

(2) The education program designed by the Department of Health shall utilize all forms of the media and shall place emphasis on the design of educational materials that can be used by businesses, schools, and health care providers in the regular course of their business.

(3) The department may contract with other persons in the design, development, and distribution of the components of the education program.

(4) The University of Miami and its affiliates may establish a single sterile needle and syringe exchange pilot program in Miami-Dade County. The pilot program may operate at a fixed location or through a mobile health unit. The pilot program shall offer the free exchange of clean, unused needles and hypodermic syringes for used needles and hypodermic syringes as a means to prevent the transmission of HIV, AIDS, viral hepatitis, or other blood-borne diseases among intravenous drug users and their sexual partners and offspring.

(a) The pilot program must:

1. Provide for maximum security of exchange sites and equipment, including an accounting of the number of needles and syringes in use, the number of needles and syringes in storage, safe disposal of returned needles, and any other measure that
be collected from a participant for any purpose.

(e) State, county, or municipal funds may not be used to operate the pilot program. The pilot program shall be funded through grants and donations from private resources and funds.

(f) The pilot program shall expire July 1, 2020.

Section 3. If any provision of this act or its application to any person or circumstance is held invalid, the invalidity does not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

Section 4. This act shall take effect July 1, 2016.
To: Senator Rene Garcia, Chair
    Appropriations Subcommittee on Health and Human Services

Subject: Committee Agenda Request

Date: October 20, 2015

I respectfully request that Senate Bill # 284, relating to Commercial Transactions in Fresh Produce, be placed on the:

☐ committee agenda at your earliest possible convenience.

☐ next committee agenda.

[Signature]
Senator Geraldine F. Thompson
Florida Senate, District 12

File signed original with committee office
The Florida Senate
BILL ANALYSIS AND FISCAL IMPACT STATEMENT
(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Appropriations Subcommittee on Health and Human Services

BILL: SB 284
INTRODUCER: Senator Thompson
SUBJECT: Commercial Transactions in Fresh Produce Markets
DATE: November 17, 2015

ANALYST STAFF DIRECTOR REFERENCE ACTION
1. Akhavein Becker AG Favorable
2. Brown Pigott AHS Recommend: Favorable
3.--------- AP---------

I. Summary:

SB 284 permits an owner or operator of a market that sells fresh produce to allow a non-competing third party that has been authorized by the U.S. Department of Agriculture (USDA) to be a Supplemental Nutrition Services Program (SNAP) retailer to establish an Electronic Benefit Transfer (EBT) system to accept SNAP payments for the market’s produce sellers, to the extent allowed by federal law and regulation. The bill does not require a market owner or operator to operate or maintain an EBT system for its produce sellers. It also does not prohibit an authorized Food Nutrition Service produce seller from operating its own EBT system for its own customers.

The bill has no fiscal impact to the state.

The bill has an effective date of July 1, 2016.

II. Present Situation:

According to the Food Research and Action Center, it is well documented that the SNAP program that delivers monthly benefits through EBT cards (formerly known as the federal Food Stamp Program) is beneficial to the health of children and adults and the well-being of low-income people in the United States by enhancing the food purchasing power of eligible low-income families. However, many venues, especially in low-income communities, do not accept SNAP cards.¹

The Johns Hopkins Center for a Livable Future issued a report in the summer of 2012 detailing the relationship between nutritious food, farmers’ markets, and the SNAP program. The report states that low-income consumers lack access to farmers’ markets because the SNAP program cannot be used at many such markets since they lack wireless terminals to process EBT sales.

According to the Johns Hopkins report, SNAP redemptions at farmers’ markets fell by half between 1992 and 2009 with the transition to EBT, which started in 1993. The report concludes that improving EBT technology at farmers’ markets has the potential to improve SNAP participants’ diets and health by increasing access to fresh, local fruits and vegetables.²

The federal government pays 100 percent of the SNAP benefits while the federal and state governments share administrative costs.³ The SNAP program for retailers and the certification of a retailer to use an EBT system to process SNAP payments are administered by the USDA Food and Nutrition Service.⁴

The USDA defines farmers’ market as a multi-stall market at which farmer-producers sell agricultural products directly to the general public at a central or fixed location, particularly fresh fruit and vegetables (but also meat products, dairy products, and/or grains).⁵ While there has been a boom in the number of farmers’ markets in the last two decades, there is still limited access for the nation’s poorest consumers. Data from USDA shows there were 7,864 farmers’ markets of which 1,645, about one out of five, accepted SNAP payments as of mid-year 2012.⁶

In order to encourage greater EBT participation by farmers’ markets, the USDA provided grant money for a farmers’ market to implement an EBT system if the market was not already an authorized SNAP retailer on or before November 18, 2011. On July 27, 2012, the Florida Department of Children and Families (DCF) announced the availability of the USDA grant money and engaged in a marketing campaign to encourage more farmers’ markets to participate in EBT. That effort has resulted in fourteen markets participating in the program with one more in the implementation phase.⁷ Grant money is still available to provide EBT systems to authorized participants.

The Florida Department of Agriculture and Consumer Services (DACS) operates 12 “State Farmers’ Markets” under the authority contained in s. 570.07(18), F.S. Of the 12 markets, five have retail businesses that sell products to the public and three of these have installed EBT systems at their own expense. Other farmers’ markets are operated by local governments, not-for-profit organizations, private organizations, business development groups, and individuals, each of which has its own system for accepting payment for products.⁸

There are various reasons why a farmers’ market might not have an EBT system. These include a decision by the owner not to accept SNAP benefits, a lack of access to electricity and phone lines needed for vendors to accept EBT cards, or a business decision not to fund the wireless technology and associated costs of implementation that are typically necessary to handle EBT sales. Southern Food Policy Advocates, an organization whose self-defined mission is to address

⁷ See SB 552 by Senator Thompson from the 2014 Legislative Session.
⁸ Correspondence dated October 29, 2015, from Office of Legislative Affairs, Department of Agriculture and Consumer Services. (on file with Senate Agriculture Committee).
issues concerning food, nutrition, and fitness of Floridians, points out that while the USDA program gives emphasis to farmers’ markets, fresh produce is also sold at other venues, such as flea markets and open air markets.10

III. Effect of Proposed Changes:

Section 1 creates an undesignated section of Florida law relating to transactions in markets that sell fresh produce. The bill provides the following definitions: a “market” means a farmers’ market, community farmers’ market, flea market, or other open air market, and “SNAP” means the federal Supplemental Nutrition Assistance Program.

The bill permits an owner or operator of a market that sells fresh produce, but who is not already a SNAP retailer, to allow specified, authorized third parties, which may not be a competitor market, to accept SNAP benefits on behalf of the market’s produce sellers to the extent allowed by federal law and regulation. It requires the market owner or operator to reasonably accommodate the authorized third party in the implementation and operation of an EBT system.

The bill does not apply to a market selling fresh produce whose owner or operator has a system in place for accepting SNAP benefits nor does it prohibit an authorized Food and Nutrition Service produce seller from operating its own EBT system for its customers’ transactions. Finally, the bill does not require a market owner or operator to create, operate, or maintain an EBT system on behalf of its produce sellers.

Section 2 provides that the bill takes effect July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

See http://southfpa.blogspot.com/ (last visited October 26, 2015).

See SB 552 by Senator Thompson from the 2014 Legislative Session.
B. Private Sector Impact:

Under SB 284, SNAP beneficiaries will be able to use their EBT cards to purchase fresh produce at additional markets if markets selling fresh produce allow an EBT system to be established in their marketplace. Food and Nutrition Service groups, associations, or other specified parties that are authorized SNAP retailers may be able to offer EBT services at participating fresh produce markets.

C. Government Sector Impact:

None.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. StatutesAffected:

This bill creates an undesignated section of Florida law.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:

(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill’s introducer or the Florida Senate.
A bill to be entitled

An act relating to commercial transactions in fresh
produce markets; defining terms; authorizing owners or
operators of certain farmers’ markets, community
farmers’ markets, flea markets, and other open-air
markets to allow certain Food and Nutrition Service
groups, associations, or third-party organizations to
implement and operate an electronic benefits transfer
system in such markets for the purpose of accepting
SNAP benefits; requiring the owners or operators of
such markets to reasonably accommodate such groups in
the implementation and operation of an electronic
benefits transfer system in the market; providing
applicability; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. (1) As used in this section, the term:
(a) “Market” means a farmers’ market, community farmers’
market, flea market, or other open-air market.
(b) “SNAP” means the Supplemental Nutrition Assistance
Program established under 7 U.S.C. ss. 2011 et seq.

(2) The owner or operator of a market selling fresh produce
who is not an authorized SNAP retailer may, to the extent and
manner allowed by federal law and regulation, allow an
authorized Food and Nutrition Service group or association of
produce sellers which is actively participating in fresh produce
sales in the market, or an authorized Food and Nutrition Service
third-party organization, to implement and operate an electronic
benefits transfer system in the market for the purpose of
accepting SNAP benefits on behalf of the market’s fresh produce
sellers.

(a) The market owner or operator shall reasonably
accommodate the authorized Food and Nutrition Service group,
association, or third-party organization in the implementation
and operation of the electronic benefits transfer system.

(b) The authorized Food and Nutrition Service group,
association, or third-party organization responsible for the
implementation and operation of the electronic benefits transfer
system may not be a competing market.

(3) This section does not:
(a) Apply to a market selling fresh produce whose owner or
operator has an electronic benefits transfer system for
accepting SNAP benefits in the market;
(b) Prohibit an authorized Food and Nutrition Service
produce seller in a market selling fresh produce from operating
his or her own electronic benefits transfer system as part of
his or her customer transaction options; or
(c) Require a market owner or operator to create, operate,
or maintain an electronic benefits transfer system on behalf of
the market produce sellers.

Section 2. This act shall take effect July 1, 2016.
To: Senator Rene Garcia, Chair  
Appropriations Subcommittee on Health and Human Services

Subject: Committee Agenda Request

Date: November 2, 2015

---

I respectfully request that Senate Bill #152, relating to Ordering of Medication, Senate Bill #238 relating to Medical Assistant Certification and Senate Bill #450 relating to Physical Therapy, be placed on the:

☐ committee agenda at your earliest possible convenience.

☒ next committee agenda.

S-001 (10/14/14)
I. **Summary:**

SB 152 provides express authority for an advanced registered nurse practitioner to order *any* medication for administration to a patient in a hospital, ambulatory surgical center, or mobile surgical facility within the framework of an established protocol. The bill provides express authority in chapter 893, Florida Statutes, the Florida Comprehensive Drug Abuse Prevention and Control Act, for a supervisory physician to authorize a physician assistant or an advanced registered nurse practitioner to order controlled substances for administration to a patient in a hospital, ambulatory surgical center, or mobile surgical facility.

The bill has an indeterminate fiscal impact. See Section V.

The bill has an effective date of July 1, 2016.

II. **Present Situation:**

**Regulation of Physician Assistants in Florida**

Chapter 458, F.S., sets forth the provisions for the regulation of the practice of medicine by the Board of Medicine. Chapter 459, F.S., similarly sets forth the provisions for the regulation of the practice of osteopathic medicine by the Board of Osteopathic Medicine. Physician assistants (PAs) are regulated by both boards. Licensure of PAs is overseen jointly by the boards through the Council on Physician Assistants.¹

---

¹ The council consists of three physicians who are members of the Board of Medicine; one physician who is a member of the Board of Osteopathic Medicine; and a physician assistant appointed by the State Surgeon General. *(See ss. 458.347(9) and 459.022(9), F.S.)*
Physician assistants are trained and required by statute to work under the supervision and control of medical physicians or osteopathic physicians. The Board of Medicine and the Board of Osteopathic Medicine have adopted rules that set out the general principles a supervising physician must use in developing the scope of practice of the PA under both direct and indirect supervision.

A supervising physician’s decision to permit a PA to perform a task or procedure under direct or indirect supervision must be based on reasonable medical judgment regarding the probability of morbidity and mortality to the patient. The supervising physician must be certain that the PA is knowledgeable and skilled in performing the tasks and procedures assigned. Each physician or group of physicians supervising a licensed PA must be qualified in the medical areas in which the PA is to perform and must be individually or collectively responsible and liable for the performance and the acts and omissions of the PA.

Current law allows a supervisory physician to delegate to a licensed PA the authority to prescribe or dispense any medication used in the physician’s practice, except controlled substances, general anesthetics, and radiographic contrast materials. However, Florida law does allow a supervisory physician to delegate authority to a PA to order any medication, including controlled substances, general anesthetics, and radiographic contrast materials, for a patient of the physician during the patient’s stay in a facility licensed under ch. 395, F.S.

**Regulation of Advanced Registered Nurse Practitioners in Florida**

Chapter 464, F.S., governs the licensure and regulation of nurses in Florida. Nurses are licensed by the Department of Health and are regulated by the Board of Nursing.

An advanced registered nurse practitioner (ARNP) is a licensed nurse who is certified in advanced or specialized nursing. Florida recognizes three types of ARNP: nurse practitioner

---

2 Sections 458.347(4) and 459.022(4), F.S.
3 “Direct supervision” requires the physician to be on the premises and immediately available. (See Fla. Admin. Code R. 64B8-30.001(4) and 64B15-6.001(4).
4 “Indirect supervision” refers to the easy availability of the supervising physician to the physician assistant, which includes the ability to communicate by telecommunications, and requires the physician to be within reasonable physical proximity. (See Fla. Admin. Code R. 64B8-30.001(5) and 64B15-6.001(5).
5 Fla. Admin. Code R. 64B8-30.012(2) and 64B15-6.010(2).
6 Sections 458.347(3) and 459.022(3), F.S.
7 Sections 458.347(4)(e) and (f)1 and 459.022(4)(e), F.S.
8 See s. 395.002(16), F.S. The facilities licensed under ch. 395, F.S., are hospitals, ambulatory surgical centers, and mobile surgical facilities.
9 The Board of Nursing is composed of 13 members appointed by the Governor and confirmed by the Senate who serve 4-year terms. Seven of the 13 members must be nurses who reside in Florida and have been engaged in the practice of professional nursing for at least 4 years. Of those seven members, one must be an advanced registered nurse practitioner, one a nurse educator at an approved nursing program, and one a nurse executive. Three members of the BON must be licensed practical nurses who reside in the state and have engaged in the practice of practical nursing for at least 4 years. The remaining three members must be Florida residents who have never been licensed as nurses and are in no way connected to the practice of nursing, any health care facility, agency, or insurer. Additionally, one member must be 60 years of age or older. (See s. 464.004(2), F.S.)
10 “Advanced or specialized nursing practice” is defined as the performance of advanced-level nursing acts approved by the Board of Nursing which, by virtue of post-basic specialized education, training and experience, are appropriately performed by an advanced registered nurse practitioner. (See s. 464.003(2), F.S.)
(NP), certified registered nurse anesthetist (CRNA), and certified nurse midwife (CNM).\textsuperscript{11} To be certified as an ARNP, a nurse must hold a current license as a registered nurse\textsuperscript{12} and submit proof to the Board of Nursing that he or she meets one of the following requirements:\textsuperscript{13}

- Satisfactory completion of a formal post-basic educational program of specialized or advanced nursing practice;
- Certification by an appropriate specialty board;\textsuperscript{14} or
- Graduation from a master’s degree program in a nursing clinical specialty area with preparation in specialized practitioner skills.

Advanced or specialized nursing acts may only be performed under protocol of a supervising physician or dentist.\textsuperscript{15} Within the established framework of the protocol, an ARNP may:\textsuperscript{16}

- Monitor and alter drug therapies;
- Initiate appropriate therapies for certain conditions; and
- Order diagnostic tests and physical and occupational therapy.

The statute further describes additional acts that may be performed within an ARNP’s specialty certification (CRNA, CNM, and NP).\textsuperscript{17}

Advanced registered nurse practitioners must meet financial responsibility requirements, as determined by rule of the Board of Nursing, and the practitioner profiling requirements.\textsuperscript{18} The Board of Nursing requires professional liability coverage of at least $100,000 per claim with a minimum annual aggregate of at least $300,000 or an unexpired irrevocable letter of credit in the same amounts payable to the ARNP.\textsuperscript{19}

Florida law does not authorize ARNPs to prescribe controlled substances.\textsuperscript{20} However, s. 464.012(4)(a), F.S., provides express authority for a CRNA to order certain controlled substances “to the extent authorized by established protocol approved by the medical staff of the facility in which the anesthetic service is performed.”

\begin{itemize}
  \item \textsuperscript{11} Section 464.003(3), F.S. Florida certifies clinical nurse specialists as a category distinct from advanced registered nurse practitioners. (See ss. 464.003(7) and 464.0115, F.S.)
  \item \textsuperscript{12} Practice of professional nursing. (See s. 464.003(20), F.S.)
  \item \textsuperscript{13} Section 464.012(1), F.S.
  \item \textsuperscript{14} Specialty boards expressly recognized by the Board of Nursing include: Council on Certification of Nurse Anesthetists, or Council on Recertification of Nurse Anesthetists; American College of Nurse Midwives; American Nurses Association (American Nurses Credentialing Center); National Certification Corporation for OB/GYN, Neonatal Nursing Specialties; National Board of Pediatric Nurse Practitioners and Associates; National Board for Certification of Hospice and Palliative Nurses; American Academy of Nurse Practitioners; Oncology Nursing Certification Corporation; American Association of Critical-Care Nurses Adult Acute Care Nurse Practitioner Certification. (See Fla. Admin. Code R. 64B9-4.002(2)).
  \item \textsuperscript{15} Section 464.003(2), F.S.
  \item \textsuperscript{16} Section 464.012(3), F.S.
  \item \textsuperscript{17} Section 464.012(4), F.S.
  \item \textsuperscript{18} Sections 456.0391 and 456.041, F.S.
  \item \textsuperscript{19} Fla. Admin. Code R. 64B9-4.002(5).
  \item \textsuperscript{20} Sections 893.02(21) and 893.05(1), F.S.
\end{itemize}
Definitions related to the Ordering of Medicinal Drugs

Chapter 464, F.S., does not contain a definition of the terms “order” or “prescribe.” Chapter 465, F.S., relating to pharmacy, defines “prescription” as “any order for drugs or medicinal supplies written or transmitted by any means of communication by a duly licensed practitioner authorized by the laws of the state to prescribe such drugs or medicinal supplies and intended to be dispensed by a pharmacist."21 “Dispense” is defined as “the transfer of possession of one or more doses of a medicinal drug by a pharmacist to the ultimate consumer or her or his agent.”22 “Administration” is defined as “the obtaining and giving of a single dose of medicinal drugs by a legally authorized person to a patient for her or his consumption.”23 Chapter 893, F.S., relating to drug abuse prevention and control, contains similar definitions.24

ARNP Petition for Declaratory Statement

On January 22, 2014, a petition for declaratory statement25 was filed with the Board of Nursing which asked, “Can ARNPs legally order narcotics for patients we treat in the institution with written protocols from our attending Doctors [sic]?”26 The petition noted that prior to January 1, 2014, ARNPs ordered controlled substances for patients. Effective January 1, 2014, the hospital disallowed the practice and required all ARNPs to get an order from a physician. The hospital cited passage of legislation in 2013 which clarified the authority of physician assistants to order controlled substances but did not address the authority of ARNPs.27 The Board of Nursing dismissed the petition, finding that it failed to comply with the requirements of chapter 120 and that it sought an opinion regarding the scope of practice of a category of licensees based on an employer’s policies.

Drug Enforcement Agency Registration

An individual practitioner28 who is an agent or employee of another practitioner (other than a mid-level practitioner)29 registered to dispense controlled substances, may, when acting in the normal course of business or employment, administer or dispense (other than by issuance of a prescription) controlled substances if and to the extent authorized by state law, under the registration of the employer or principal practitioner in lieu of being registered himself or herself.30

---

21 Section 465.003(14), F.S.
22 Section 465.003(6), F.S.
23 Section 465.003(1), F.S.
24 See ss. 893.02(1), 893.02(7), and 893.02(22), F.S.
25 A declaratory statement is an agency’s opinion regarding the applicability of a statutory provision, rule, or agency order to a petitioner’s set of circumstances. (See s. 120.565(1), F.S.)
26 Petition for Declaratory Statement filed by Carolann Robley ARNP, MSN, BC, FNP (on file with the Senate Committee on Health Policy).
28 “Practitioner” means a physician, dentist, veterinarian, scientific investigator, pharmacy, hospital, or other person licensed, registered, or otherwise permitted, by the United States of the jurisdiction in which he practices or does research, to distribute, dispense, conduct research with respect to, administer, or use in teaching or chemical analysis, a controlled substance in the course of professional practice or research. See 21 U.S.C. s. 802(21) (2011).
29 Examples of mid-level practitioners include, but are not limited to: nurse practitioners, nurse midwives, nurse anesthetists, clinical nurse specialists, and physician assistants.
30 21 C.F.R. 1301.22.
Health care practitioners who are agents or employees of a hospital or other institution, may, when acting in the usual course of business or employment, administer, dispense, or prescribe controlled substances under the registration of the hospital or other institution in which he or she is employed, in lieu of individual registration, provided that:

• The dispensing, administering, or prescribing is in the usual course of professional practice;
• The practitioner is authorized to do so by the state in which he or she practices;
• The hospital or other institution has verified that the practitioner is permitted to administer, dispense, or prescribe controlled substances within the state;
• The practitioner acts only within the scope of employment in the hospital or other institution;
• The hospital or other institution authorizes the practitioner to administer, dispense, or prescribe under its registration and assigns a specific internal code number for each practitioner; and
• The hospital or other institution maintains a current list of internal codes and the corresponding practitioner.\(^\text{31}\)

### III. Effect of Proposed Changes:

This bill expressly authorizes an advanced registered nurse practitioner (ARNP) to order any medication, including a controlled substance, for administration to a patient in a hospital, ambulatory surgical center, or mobile surgical facility within the framework of an established protocol. This authority is comparable to the express authority previously granted by the Legislature to physician assistants (PAs).

The bill also provides express authority in ch. 893, F.S., for a supervisory physician to authorize a PA or ARNP to order controlled substances for administration to a patient in a hospital, ambulatory surgical center, or mobile surgical facility.

The bill conforms ss. 458.347(4)(g) and 459.022(4)(f), F.S., relating to the authority of a PA to order medications, to changes made elsewhere in the act, but does not alter the authority of supervisory physicians or PAs.

The bill clarifies the distinction between a prescription and an order for administration by amending the definition of “prescription” in ch. 465 and ch. 893, F.S., to exclude an order that is dispensed for administration and making conforming changes in s. 893.04, F.S. The bill also revises the definition of “administer” in ch. 893, F.S., to include the term “administration.”

The bill reenacts various sections of Florida law as required to incorporate amendments made in the act.

The bill takes effect July 1, 2016.

---

IV. **Constitutional Issues:**

A. **Municipality/County Mandates Restrictions:**
   
   None.

B. **Public Records/Open Meetings Issues:**
   
   None.

C. **Trust Funds Restrictions:**
   
   None.

V. **Fiscal Impact Statement:**

A. **Tax/Fee Issues:**
   
   None.

B. **Private Sector Impact:**

   Under SB 152, physicians who use advanced registered nurse practitioners to serve hospitalized patients, physicians who supervise ARNPs with a hospital practice, and hospitals that employ ARNPs may see increased efficiencies if ARNPs can order controlled substances directly under a supervisory protocol without the need for obtaining a physician’s order. These efficiencies include time savings for the practitioners and ARNPs and better utilization of potentially limited space, such as emergency room beds where patients might otherwise wait while a supervising physician is located.

C. **Government Sector Impact:**

   The impact described in Section V. B., above, would also apply to public hospitals and physicians employed in public hospitals.

VI. **Technical Deficiencies:**

   None.

VII. **Related Issues:**

   None.

VIII. **Statutes Affected:**

   This bill substantially amends the following sections of the Florida Statutes: 458.347, 459.022, 464.012, 465.003, 893.02, 893.04, and 893.05.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
   (Summarizing differences between the Committee Substitute and the prior version of the bill.)
   
   None.

B. Amendments:

   None.

This Senate Bill Analysis does not reflect the intent or official position of the bill’s introducer or the Florida Senate.
By Senator Grimsley

A bill to be entitled
An act relating to the ordering of medication;
amending ss. 458.347 and 459.022, F.S.; revising the
authority of a licensed physician assistant to order
medication under the direction of a supervisory
physician for a specified patient; amending s.
464.012, F.S.; authorizing an advanced registered
nurse practitioner to order medication for
administration to a specified patient; amending s.
465.003, F.S.; revising the term "prescription" to
displaced for administration; amending s. 893.02,
F.S.; revising the term "administer" to include the
term "administration"; revising the term
"prescription" to exclude an order for drugs or
medicinal supplies dispensed for administration;
amending s. 893.04, F.S.; conforming provisions to
changes made by act; amending s. 893.05, F.S.;
authorizing a licensed practitioner to authorize a
licensed physician assistant or advanced registered
nurse practitioner to order controlled substances for
a specified patient under certain circumstances;
reenacting ss. 400.462(26), 401.445(1), 409.906(18),
and 766.103(3), F.S., to incorporate the amendments
made to ss. 458.347 and 459.022, F.S., in references
thereeto; reenacting ss. 401.445(1) and 766.103(3),
F.S., to incorporate the amendment made to s. 464.012,
F.S., in references thereto; reenacting ss.

made to s. 893.05, F.S., in a reference thereto;
providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (g) of subsection (4) of section
458.347, Florida Statutes, is amended to read:
458.347 Physician assistants.—
(4) PERFORMANCE OF PHYSICIAN ASSISTANTS.—
(g) A supervisory physician may delegate to a licensed
physician assistant the authority to, and the licensed physician
assistant acting under the direction of the supervisory
physician may, order any medication medications for
administration to the supervisory physician's patient during his
(3) An advanced registered nurse practitioner shall perform those functions authorized in this section within the framework of an established protocol that is filed with the board upon biennial license renewal and within 30 days after entering into a supervisory relationship with a physician or changes to the protocol. The board shall review the protocol to ensure compliance with applicable regulatory standards for protocols. The board shall refer to the department licensees submitting protocols that are not compliant with the regulatory standards for protocols. A practitioner currently licensed under chapter 458, chapter 459, or chapter 466 shall maintain supervision for directing the specific course of medical treatment. Within the established framework, an advanced registered nurse practitioner may:

(a) Monitor and alter drug therapies and order any medication for administration to a patient in a facility licensed under chapter 395.

Section 4. Subsection (14) of section 465.003, Florida Statutes, is amended to read:

465.003 Definitions.—As used in this chapter, the term:

(14) “Prescription” includes any order for drugs or medicinal supplies written or transmitted by any means of communication by a duly licensed practitioner authorized by the laws of this state to prescribe such drugs or medicinal supplies and intended to be dispensed by a pharmacist, except for an order that is dispensed for administration. The term also includes an orally transmitted order by the legally designated agent of such practitioner. The term also includes an order written or transmitted by a practitioner licensed to practice in a jurisdiction other than this state, but only if the pharmacist called upon to dispense such order determines, in the exercise
The term also includes an order for drugs or medicinal supplies so transmitted or written by a physician, dentist, or other practitioner licensed to practice in a state other than Florida, but only if the pharmacist called upon to fill such an order determines, in the exercise of his or her professional judgment, that the order was issued pursuant to a valid patient-physician relationship, that it is authentic, and that the drugs or medicinal supplies ordered are considered necessary for the continuation of treatment of a chronic or recurrent illness.

(b) The term does not include an order that is dispensed for administration by a licensed practitioner authorized by the laws of this state to administer such drugs or medicinal supplies.

(c) However, if the physician writing the prescription is not known to the pharmacist, the pharmacist shall obtain proof to a reasonable certainty of the validity of the prescription.

(d) A prescription order for a controlled substance may not be issued on the same prescription blank with another prescription order for a controlled substance that is named or described in a different schedule or with another prescription order for a controlled substance issued on the same prescription blank as a prescription order for a medicinal drug, as defined in s. 465.003(8), that is which does not fall within the definition of a controlled substance as defined in this sub.

Section 6. Paragraphs (a), (d), and (f) of subsection (2) of section 893.04, Florida Statutes, are amended to read:

93.04 Pharmacist and practitioner.—

(2)(a) A pharmacist may not dispense a controlled substance...
A pharmacist may not knowingly dispense a prescription that has been forged for a controlled substance.

(d) Each written prescription prescribed by a practitioner in this state for a controlled substance listed in Schedule II, Schedule III, or Schedule IV must include both a written and a numerical notation of the quantity of the controlled substance prescribed and a notation of the date in numerical, month/day/year format, or with the abbreviated month written out, or the month written out in whole. A pharmacist may, upon verification by the prescriber, document any information required by this paragraph. If the prescriber is not available to verify a prescription, the pharmacist may dispense the controlled substance, but may insist that the person to whom the controlled substance is dispensed provide valid photographic identification. If a prescription includes a numerical notation of the quantity of the controlled substance or date, but does not include the quantity or date written out in textual format, the pharmacist may dispense the controlled substance without verification by the prescriber of the quantity or date if the pharmacy previously dispensed another prescription for the person to whom the prescription was written.

(f) A pharmacist may not knowingly dispense a prescription that has been forged for a controlled substance.

Section 7. Subsection (1) of section 893.05, Florida Statutes, is amended to read:

893.05 Practitioners and persons administering controlled substances in their absence.—

(1)(a) A practitioner, in good faith and in the course of his or her professional practice only, may prescribe, administer, dispense, mix, or otherwise prepare a controlled substance, or the practitioner may cause the controlled substance to be administered by a licensed nurse or an intern practitioner under his or her direction and supervision only. 

(b) Pursuant to s. 458.347(4)(g), s. 459.022(4)(f), or s. 464.012(3), as applicable, a practitioner who supervises a licensed physician assistant or advanced registered nurse practitioner may authorize the licensed physician assistant or advanced registered nurse practitioner to order controlled substances for administration to a patient in a facility licensed under chapter 395. 

(c) A veterinarian may prescribe, administer, dispense, mix, or prepare a controlled substance for use on animals only, and may cause the controlled substance to be administered by an assistant or orderly under the veterinarian’s direction and supervision only. 

(d) A certified optometrist licensed under chapter 463 may not administer or prescribe a controlled substance listed in Schedule I or Schedule II of s. 893.03.
s. 766.103, Florida Statutes, are reenacted for the purpose of incorporating the amendments made by this act to ss. 458.347 and 459.022, Florida Statutes, in references thereto.

Section 9. Subsection (1) of s. 401.445 and subsection (3) of s. 766.103, Florida Statutes, are reenacted for the purpose of incorporating the amendment made by this act to s. 464.012, Florida Statutes, in references thereto.

Section 10. Paragraph (a) of subsection (1) of s. 401.445 and paragraph (rr) of subsection (1) of s. 458.015, subsection (1) of s. 465.014, paragraph (c) of subsection (2) of s. 465.015, paragraph (s) of subsection (1) of s. 465.016, paragraph (i) of subsection (5) of s. 465.022, paragraph (h) of subsection (1) of s. 465.023, s. 465.1901, subsection (43) of s. 499.003, and subsection (1) of s. 831.30, Florida Statutes, are reenacted for the purpose of incorporating the amendments made by this act to s. 465.003, Florida Statutes, in references thereto.

Section 11. Paragraph (i) of subsection (5) of s. 112.0455, paragraph (b) of subsection (7) of s. 381.986, paragraph (1) of subsection (1) of s. 440.102, paragraph (pp) of subsection (1) of s. 458.331, paragraph (rr) of subsection (1) of s. 459.003, subsection (3) of s. 459.003, and subsection (1) of s. 812.014, Florida Statutes, are reenacted for the purpose of incorporating the amendments made by this act to s. 812.014, Florida Statutes, in references thereto.

Section 12. Paragraph (e) of subsection (3) of s. 893.0551, Florida Statutes, is reenacted for the purpose of incorporating the amendments made by this act to s. 893.04, Florida Statutes, in a reference thereto.

Section 13. Paragraph (d) of subsection (3) of s. 893.0551, Florida Statutes, is reenacted for the purpose of incorporating the amendments made by this act to s. 893.05, Florida Statutes, in a reference thereto.

Section 14. This act shall take effect July 1, 2016.
The Florida Senate

Committee Agenda Request

To: Senator Rene Garcia, Chair
   Appropriations Subcommittee on Health and Human Services

Subject: Committee Agenda Request

Date: November 2, 2015

I respectfully request that Senate Bill #152, relating to Ordering of Medication, Senate Bill #238 relating to Medical Assistant Certification and Senate Bill #450 relating to Physical Therapy, be placed on the:

☐ committee agenda at your earliest possible convenience.

☒ next committee agenda.

While it is a Senate tradition to encourage public testimony, time may not permit all persons wishing to speak to be heard at this meeting. Those who do speak may be asked to limit their remarks so that as many persons as possible can be heard.

This form is part of the public record for this meeting.

S-001 (10/14/4)
I. Summary:

SB 238 amends section 458.3485(3), Florida Statutes, to remove a voluntary provision which recognizes two certification organizations for medical assistants.

The bill has no fiscal impact to the state.

The effective date of the bill is July 1, 2016.

II. Present Situation:

Medical Assistants (MAs) provide medical assistance under the direct supervision and responsibility of a physician. An MA is not a licensed profession in Florida.

Under the supervision of a physician, an MA may perform certain procedures, including:

- Clinical procedures, such as:
  - Aseptic procedures;
  - Taking vital signs;
  - Preparing patients for a physician’s care;
  - Performing venipunctures and non-intravenous injections; and
  - Observing and reporting patients’ signs or symptoms.
- Administering basic first aid;
- Assisting with patient examinations or treatments;
- Operating office medical equipment;
- Collecting routine laboratory specimens as directed by the physician;
- Administering medication as directed by the physician;
- Performing basic laboratory procedures;
• Performing office procedures including all general administrative duties required by the physician; and
• Performing dialysis procedures, including home dialysis.\(^1\)

According to U.S. Department of Labor statistics, Florida has the third highest number of MAs in the country with 40,770.\(^2\) The mean hourly wage is $14.13 or an annual mean wage of $29,400.\(^3\) Nationally, the mean hourly wage is $15.01 and mean annual wage is $31,220 with the 90th percentile at $20.56 and $42,760, respectively.\(^4\) Overwhelmingly, MAs find employment within the offices of physicians, health care practitioners, or medical and surgical hospitals.\(^5\) In the next 10 years, job growth in this occupation is expected to increase by 29 percent nationally.\(^6\)

**Certification of Medical Assistants**

Under current Florida law, an MA is not required to be certified. The law, however, recognizes two certifying entities for MAs. An MA may be certified by either the American Association of Medical Assistants (AAMA) or as a Registered Medical Assistant (RMA) by the American Medical Technologists (AMT).\(^7\) Both of these organizations are not-for-profit, but only the AAMA certifies medical assistants exclusively.\(^8\) At least two other organizations, both for-profit, that certify several allied health professions, also offer certifications for medical assistants. The AAMA has offered exams the longest, since 1963.\(^9\)

To be eligible for the AAMA certification examination, applicants must be one of the following:

• A completing student\(^10\) or recent graduate\(^11\) from a medical assisting program accredited by the Commission on Accreditation of Allied Health Education Program (CAAHEP) or the Accrediting Bureau of Health Education Schools (ABHES);
• A non-recent graduate of a CAAHEP or ABHES accredited medical assisting program; or
• An MA re-certificant.\(^12\)

\(^1\) Section 458.3485, F.S.
\(^3\) Id.
\(^4\) Id.
\(^5\) Id.
\(^7\) Section 458.3485(3), F.S.
\(^9\) Id.
\(^10\) A completing student may take the exam no more than 30 days prior to completing their formal education and practicum.
\(^11\) Recent graduates are defined by the AAMA as those students who apply for the exam within 12 months of graduation.
The non-refundable fee for the examination is $125. For non-recent graduates, or re-certificants who are not members of the AAMA, the examination fee is $250. In 2014, the AAMA reported over 75,000 MAAs were credentialed through its organization.

An accredited medical assisting program includes academic and clinical training in areas such as human anatomy, physiology, and pathology; medical terminology, record keeping and accounting; laboratory techniques; pharmacology; first aid; office practices and patient relations; and medical law and ethics. A practicum or an unpaid, supervised on-site work experience in an ambulatory health care setting is also a required component of the certification process.

Certifications are current for 60 months and may be re-certified through either re-examination or by continuing education. Expired certifications greater than 60 months may only be re-certified through examination.

The AMT is accredited by the National Commission for Certifying Agency (NCCA) through April 2018. In its 2012-13 Annual Report, the AMT reported certification of 38,518 members as RMAs.

Certification for the AMT’s nine different specialties may be accomplished through passage of the appropriate examinations and compliance with one of the following five pathways:

- Graduation from an accredited medical assisting program with a minimum of 720 clock hours, including 160 hours of clinical externship within the last four years of application for certification;
- Graduation from a formal medical services training program of the U.S. Armed Forces within four years of application for certification or, if greater than four years from application, provide evidence of relevant work experience in three of the last five years prior to application;
- Employment as a medical assistant for a minimum of five out of the last seven years with both clinical and administrative duties, no more than two years as an instructor in a post-secondary medical assistant program, and proof of high school graduation;
- Employment as an instructor in an accredited medical assisting program, completion of a course of instruction in healthcare discipline related to medical assisting that includes both clinical and administrative duties, and if the applicant has less than three years teaching experience, but more than one year, documentation of at least three years of clinical

experience in a healthcare profession in which the scope is equal to the medical assisting scope of practice; or
- Passage of another certification examination that has been approved by the AMT Board of Directors and the applicant has met one of the other eligibility routes.\(^{21}\)

The application fee, exam cost, and initial annual fee is $100.\(^{22}\) RMAs are required to maintain their certifications through an annual fee. The current fee is $50.\(^{23}\)

At least two other organizations certify MAs, the National Healthcareer Association (NHA) and the National Center for Competency Testing (NCCT). Under the NHA, individuals who have completed a training program for a Medical Assistant and have graduated high school qualify to take the certification examination for a Clinical Medical Assistant (CCMA).\(^{24}\) The examination fee is $149. A certification is valid for two years and must be maintained through continuing education credits of at least 10 credit hours every certification cycle.\(^{25}\)

The National Center for Competency Testing (NCCT) is also accredited by the NCCA and offers three mechanisms for eligibility for exam eligibility:
- Current or graduated student in a Medical Assistant program from an NCCT authorized school within the past five years;
- Two years of verifiable full-time experience as a Medical Assistant practitioner within the past five years; or
- Completion of Medical Assistant training or its equivalent during U.S. Military service within the past five years.\(^{26}\)

Examination fees through the NCCT vary based on the route taken by the applicant. For current students, graduates testing within six months of graduation date, and military, the examination cost is $90. For all other applicants, the examination cost is $135.\(^{27}\) Annual recertification is required and includes both a recertification fee and the completion of continuing education courses. Fourteen clock hours are required each year per certification.\(^{28}\)

**III. Effect of Proposed Changes:**

**Section 1** repeals subsection (3) of s. 458.3485, F.S., to remove the voluntary certification provision through the American Association of Medical Assistants (AAMA) or as a Registered

While it is a Senate tradition to encourage public testimony, time may not permit all persons wishing to speak to be heard at this meeting. Those who do speak may be asked to limit their remarks so that as many persons as possible can be heard.

This form is part of the public record for this meeting.
I. Summary:

SB 450 authorizes a physical therapist to implement a plan of treatment provided for a patient by a physician licensed in a state other than Florida. The bill increases the time frame for physical therapy treatment of a patient for a condition not previously assessed by a practitioner of record or a physician licensed in another state. The time frame is increased from 21 to 30 days before the physical therapist must obtain a Florida practitioner who will review and sign the treatment plan.

The bill authorizes any person who holds a physical therapy license, and obtains a degree of Doctor of Physical Therapy, to use the letters “D.P.T.” and “P.T.” However, a physical therapist may not use the title “doctor” without also clearly informing the public of his or her profession as a physical therapist.

The bill revises terms prohibited from use by a person who is not licensed as a physical therapist or a physical therapist assistant and makes it a first degree misdemeanor to falsely represent licensure.

The bill has no fiscal impact on government entities.

The bill is effective upon becoming a law.

II. Present Situation:

Physical Therapy Practice in Florida

The Physical Therapy Practice Act (the Act) is codified in ch. 486, F.S. Physical therapists (PTs) in Florida are regulated by the Board of Physical Therapy Practice (Board) within the
Department of Health (DOH).\(^1\) A licensed PT or a licensed physical therapist assistant (PTA), must practice physical therapy in accordance with the provisions of the Act and Board rules. To be eligible for licensing as a PT in Florida, an applicant must:\(^2\)

- Be at least 18 years of age;
- Be of good moral character;
- Have graduated from an approved school of physical therapy recognized by the Commission on Recognition of Postsecondary Accreditation or the U.S. Department of Education at the time of her or his graduation; and
- Have passed a national examination approved by the Board.

Alternatively, an applicant for a PT license may also:\(^3\)

- Have received a diploma from a program in physical therapy in a foreign country and have educational credentials deemed equivalent to those required for the educational preparation of PTs in the United States; or
- Be entitled to licensure without examination as provided in s. 486.081, F.S.\(^4\)

Under ch. 486, F.S., a “physical therapist assistant” means a person who is licensed to perform patient-related activities, including the use of physical agents, whose license is in good standing, and whose activities are performed under the direction of a PT as set forth in rules adopted pursuant to ch. 486., F.S. Patient-related activities performed by a PTA for a board-certified orthopedic physician or physiatrist licensed pursuant to chs. 458 or 459, F.S., or a chiropractor licensed under ch. 460, F.S., must be under the general supervision of a PT, but do not require on-site supervision by a PT. Patient-related activities performed for all other health care practitioners licensed under chapters 458 and 459, F.S., and those patient-related activities performed for podiatrists licensed under ch. 461, or dentists licensed under ch. 466, F.S., must be performed under the onsite supervision of a PT.\(^5\)

Currently, there are 14,108 PTs and 7,616 PTAs who hold active Florida licenses.\(^6\)

**Physical Therapy Scope of Practice**

“Practice of physical therapy” is defined in s. 486.021(11), F.S., as the performance of physical therapy assessments and treatment, or prevention of any disability, injury, disease, or other health condition of human beings and rehabilitation as it relates to the use of various modalities

---

\(^1\) Section 486.023, F.S.
\(^2\) Section 486.031, F.S.
\(^3\) Id.
\(^4\) The Board may issue a license without examination in Florida to any applicant who presents evidence of having passed the American Registry Examination prior to 1971 or an examination in physical therapy before a similar lawfully authorized examining board of another state, the District of Columbia, a territory, or a foreign country, if the standards for licensure in physical therapy are determined by the Board to be as high as those of Florida.
\(^5\) Section 486.021(6), F.S.
such as: exercise, massage, ultrasound, ice, heat, water, and equipment. A PT’s professional responsibilities include:

- Interpretation of a practitioner’s referral;
- Delivery of the initial physical therapy assessment of the patient;
- Identification of and documentation of precautions, special problems, contraindications;
- Development of a treatment plan for a patient including the long and short term goals;
- Implementation of or directing implementation of the treatment plan;
- Delegation of appropriate tasks;
- Direction and supervision of supportive staff in a manner appropriate for the patient’s individual needs;
- Reassessment of the patient in reference to goals and, when necessary, modification of the treatment plan; and
- Collaboration with members of the health care team when appropriate.

Section 486.021(11), F.S., limits treatments that PTs may provide or what procedures may be performed for diagnosing a condition. A PT must refer a patient to, or consult with, a practitioner of record if a patient’s condition is found to be outside the scope of physical therapy. Under s. 486.021(11), F.S., a “practitioner of record” is a health care practitioner licensed under chs. 458 (Medical Practice), 459 (Osteopathic Medicine), 460 (Chiropractic Medicine), 461 (Podiatric Medicine), or 466 (Dentistry), F.S., and engaged in active practice. A PT may not practice chiropractic medicine, including specific spinal manipulation, and must refer a patient with the need for such to a chiropractor licensed under ch. 460, F.S. Additionally a PT is not authorized to implement a plan for a patient being treated in a hospital or an ambulatory surgical center licensed under ch. 395, F.S.

Section 486.081(1), F.S., authorizes a licensed PT to use the words “physical therapist” or “physiotherapist,” or the letters “P.T.” in connection with his or her name or place of business to denote his or her licensure. False representation of a PT license, or willful misrepresentation or false representation to obtain a PT license is unlawful.

Physical Therapy Treatment Plan and Referral for Treatment

Florida law provides that a PT may implement a plan of treatment developed by the PT for a patient or provided for a patient by a practitioner of record or by an advanced registered nurse practitioner licensed under s. 464.012, F.S. Currently, a PT may implement a treatment plan for a patient without a written order from a practitioner of record if the recommended treatment plan is performed within a 21-day timeframe. If the treatment plan requires treatment beyond 21 days, the condition must be assessed by a practitioner of record who is required to review and sign the treatment plan.

Rule 64B17-6.001, F.A.C.
Section 486.021(11)(a), F.S.
Section 486.021(11)(c), F.S.
Section 486.021(11)(d), F.S.
See s. 486.135, F.S.
Supra note 8.
Id.
III. **Effect of Proposed Changes:**

This bill amends the definition of the “practice of physical therapy,” set out in s. 486.021 (11), F.S., to increase the time from 21 to 30 days that a physical therapist may treat a patient for a condition not previously assessed by a practitioner of record. If physical therapy treatment of a patient is required beyond 30 days the physical therapist must have a practitioner of record review and sign the treatment plan.

The requirements for a physical therapist to have a practitioner of record review and sign a plan of treatment do not apply when a physician, licensed in another state:
- Has physically examined the patient;
- Has diagnosed the patient as having a condition for which physical therapy is required, and
- The physical therapist has been treating that specific condition.

The bill amends s. 486.081, F.S., authorizes a licensed physical therapist to use the letters “D.P.T.” and “P.T.” in connection with her or his name or place of business when he or she has a doctoral degree in physical therapy. Physical therapists may not use the title “doctor” unless he or she holds a degree of Doctor of Physical Therapy and the public is clearly informed that his or her profession is a physical therapist.

The bill amends s. 486.135, F.S., to revise terms prohibited from use by a person who is not licensed as a PT or a PTA. The bill provides that use of the letters “D.P.T.” in connection with a name or business is unlawful for any person who is not licensed as a PT under ch. 486, F.S., and holds a doctoral degree in PT. The prohibitions on use of the letters “Ph.T.,” “R.P.T.,” and “L.P.T.” by a person to indicate they are a physical therapist and of the use of the letters “L.P.T.A.,” “R.P.T.A.,” or “P.T.T.” by a person to indicate they are a physical therapist assistant, are removed from statute by the bill. The bill also provides for a penalty for false representation of licensures under this section of law. A violation is punishable as a misdemeanor of the first degree.

The bill amends s. 486.151, F.S., to add that the use of the letters “D.P.T.” is unlawful, and a first degree misdemeanor, unless the person holds a valid license under ch. 486, F.S., and has a doctoral degree in physical therapy.

The bill takes effect upon becoming law.

IV. **Constitutional Issues:**

A. **Municipality/County Mandates Restrictions:**

None.

B. **Public Records/Open Meetings Issues:**

None.
C. Trust Funds Restrictions:
   None.

V. Fiscal Impact Statement:
A. Tax/Fee Issues:
   None.
B. Private Sector Impact:
   Under SB 450, visitors to the state and patients who have an order for physical therapy from a practitioner licensed in another state will be able to receive the ordered physical therapy in this state without incurring additional costs for a medical examination from or assessment by a practitioner of record. Increasing the period of time in which a physical therapist may provide treatment for a patient without a practitioner of record assessing the patient may save patients the cost of examination by a practitioner of record.
C. Government Sector Impact:
   None.

VI. Technical Deficiencies:
   None.

VII. Related Issues:
   None.

VIII. Statutes Affected:
   This bill substantially amends the following sections of the Florida Statutes: 486.021, 486.081, 486.135, and 486.151

IX. Additional Information:
A. Committee Substitute – Statement of Changes:
   (Summarizing differences between the Committee Substitute and the prior version of the bill.)
   None.
B. Amendments:
   None.

This Senate Bill Analysis does not reflect the intent or official position of the bill’s introducer or the Florida Senate.
By Senator Grimsley

A bill to be entitled An act relating to physical therapy; amending s. 486.021, F.S.; revising the definition of the term "practice of physical therapy"; amending s. 486.081, F.S.; providing that a licensed physical therapist who holds a specified doctoral degree may use specified letters in connection with her or his name or place of business; prohibiting a physical therapist with a specified doctoral degree from using the title "doctor" without informing the public of his or her profession as a physical therapist; amending s. 486.135, F.S.; revising the terms and specified letters prohibited from being used by certain unlicensed persons; providing a criminal penalty; amending s. 486.151, F.S.; prohibiting an unlicensed person from using specified letters; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (a) of subsection (11) of section 486.021, Florida Statutes, is amended to read:

"Practice of physical therapy" means the performance of physical therapy assessments and the treatment of any disability, injury, disease, or other health condition of human beings, or the prevention of such disability, injury, disease, or other condition of health, and rehabilitation as related to the prevention of such disability, injury, disease, or other condition of health, and rehabilitation as related thereto by the use of the physical, chemical, and other properties of air; electricity; exercise; massage; the performance of acupuncture only upon compliance with the criteria set forth by the Board of Medicine, when no penetration of the skin occurs; the use of radiant energy, including ultraviolet, visible, and infrared rays; ultrasound; water; the use of apparatus and equipment in the application of the foregoing or related thereto; the performance of tests of neuromuscular functions as an aid to the diagnosis or treatment of any human condition; or the performance of electromyography as an aid to the diagnosis of any human condition only upon compliance with the criteria set forth by the Board of Medicine.

(a) A physical therapist may implement a plan of treatment developed by the physical therapist for a patient or provided for a patient by a practitioner of record or by an advanced registered nurse practitioner licensed under s. 464.012. The physical therapist shall refer the patient to or consult with a practitioner of record if the patient’s condition is found to be outside the scope of physical therapy. If physical therapy treatment for a patient is required beyond 30 days for a condition not previously assessed by a practitioner of record, the physical therapist shall have obtained a practitioner of record review and sign a plan of treatment does not apply when a patient has been physically examined by a physician licensed in another state, the patient has been diagnosed by the physician as having a condition for which physical therapy is required, and the physical therapist is treating the condition. For purposes of
Section 3. Subsection (1) of section 486.135, Florida Statutes, is amended, subsection (2) is renumbered as subsection (3), and a new subsection (2) is added to that section, to read:

486.135 False representation of licensure, or willful misrepresentation or fraudulent representation to obtain license, unlawful.—

(1) (a) It is unlawful for any person who is not licensed under this chapter as a physical therapist, or whose license has been suspended or revoked, to use in connection with her or his name or place of business the words "physical therapist," "physiotherapist," "physical therapy," "physiotherapy," "registered physical therapist," or "licensed physical therapist"; or the letters "P.T." or "R.P.T." or "Ph.T." or "R.Ph.T." or any other words, letters, abbreviations, or insignia indicating or implying that she or he is a physical therapist or to represent herself or himself as a physical therapist in any other way, orally, in writing, in print, or by sign, directly or by implication, unless physical therapy services are provided or supplied by a physical therapist licensed in accordance with this chapter.

(b) It is unlawful for a person who is not licensed under this chapter as a physical therapist and who does not hold a doctoral degree in physical therapy to use the letters "D.P.T." in connection with his or her name or place of business.

(c) It is unlawful for any person who is not licensed under this chapter as a physical therapist assistant, or whose license has been suspended or revoked, to use in connection with her or his name the words "physical therapist assistant," "licensed physical therapist assistant," or "registered physical therapist assistant."
Section 4. Paragraph (d) of subsection (1) of section 486.151, Florida Statutes, is amended to read:

486.151 Prohibited acts; penalty.—

(1) It is unlawful for any person to:

(d) Use the name or title "Physical Therapist" or "Physical Therapist Assistant" or any other name or title which would lead the public to believe that the person using the name or title is licensed to practice physical therapy, unless such person holds a valid license, or use the letters "D.P.T.," unless such person holds a valid license under this chapter and a doctoral degree in physical therapy.

Section 5. This act shall take effect upon becoming a law.

While it is a Senate tradition to encourage public testimony, time may not permit all persons wishing to speak to be heard at this meeting. Those who do speak may be asked to limit their remarks so that as many persons as possible can be heard.

This form is part of the public record for this meeting.
I. Summary:

SB 248 extends Medicaid and Children’s Health Insurance Program (CHIP) eligibility to a “lawfully residing child” who is not a citizen or national of the United States but meets other applicable eligibility qualifications of Medicaid or CHIP. The federal programs permit states the option of covering this population.

The bill defines “lawfully residing child” to conform to the federal program eligibility requirements and deletes references to “qualified alien.” The bill specifies that the statutory changes do not extend Kidcare program eligibility or Medicaid eligibility to undocumented immigrants.

The fiscal impact for the 2016-2017 fiscal year for matching funds is estimated to be $1,721,252 in recurring state general revenue and $39,854,590 in recurring trust fund dollars.

The effective date of the bill is July 1, 2016.

II. Present Situation:

The Medicaid Program

The Florida Medicaid program is a partnership between the federal and state governments. Each state operates its own Medicaid program under a state plan that must be approved by the federal Centers for Medicare & Medicaid Services. The state plan outlines Medicaid eligibility standards, policies, and reimbursement methodologies.

Florida Medicaid is administered by the Agency for Health Care Administration (AHCA) and financed with federal and state funds. Over 3.7 million Floridians are currently enrolled in...
Medicaid, and the program’s estimated expenditures for the 2015-2016 fiscal year are over $23.4 billion.¹

Eligibility for Florida Medicaid is based on a number of factors, including age, household or individual income, and assets. State Medicaid eligibility payment guidelines are provided in statute under s. 409.903, F.S., (Mandatory Payments for Eligible Persons) and s. 409.904, F.S., (Optional Payments for Eligible Persons). Minimum coverage thresholds are established in federal law for certain population groups, such as children.

**Florida Kidcare Program**

The Florida Kidcare Program (Kidcare) was created in 1998 by the Florida Legislature in response to the federal enactment of the Children’s Health Insurance Program (CHIP) in 1997.² Initially authorized for 10 years, the program was re-authorized³ by Congress through 2019 with federal funding through September 30, 2015.

To address re-authorization again, federal funding for the CHIP was extended in April 2015 for an additional two-year period through September 30, 2017.⁴ Figure 1 below illustrates the re-authorization timeline for CHIP since its inception.

*Figure 1-Milestones in the Medicaid and CHIP Program*

1997  
Congress passes CHIP  
(10 yr authorization)

1998  
Florida KidCare enacted by Florida Legislature

2007  
Medicare, Medicaid and SCHIP Extension Act of 2007  
(2 yr authorization)

2009  
CHIPRA  
(State option to cover “lawfully residing children” added; 10 year authorization; funding ends 2015)

2015  
(2 yr funding extension; funding ends 2017)

The CHIP provides subsidized health insurance to uninsured children who do not qualify for Medicaid but who have family incomes under 200 percent of the federal poverty level (FPL) and meet other eligibility criteria.

---

The state statutory authority for Kidcare is found under part II of ch. 409, ss. 409.810 through 409.821, F.S. Kidcare includes four operating components: Medicaid for children, Medikids, the Children’s Medical Services Network (CMS Network), and the Florida Healthy Kids Corporation (FHKC). The following chart illustrates the different program components and funding sources:  

![Florida KidCare Eligibility Chart]

Coverage for the non-Medicaid components are funded through Title XXI of the federal Social Security Act. Title XIX of the Social Security Act (Medicaid), state funds, and family contributions also provide funding for the different components. Family contributions under the Title XXI component are based on family size, household incomes, and other eligibility factors. Families above the income limits for premium assistance or who are not otherwise eligible for premium assistance are offered the opportunity to participate in Kidcare at a non-subsidized rate (full pay). Currently, the income limit for premium assistance is 200 percent of the FPL.

Several state agencies and the FHKC share responsibilities for Kidcare. The AHCA, the Department of Children and Families (DCF), the Department of Health (DOH), and the FHKC

---

have specific duties under Kidcare as detailed in part II of ch. 409, F.S. The DCF determines eligibility for Medicaid. The FHKC receives all Kidcare applications and screens for Medicaid eligibility and determines eligibility for all Title XXI programs, referring applications to the DCF, as appropriate, for a complete Medicaid determination.

To enroll in Kidcare, families may apply online or use a paper application that determines eligibility for multiple programs, including Medicaid and CHIP, for the entire family. Applications are available in English, Spanish, and Creole. Eligibility for premium assistance is determined first through electronic data matches with available databases or, in cases where income cannot be verified electronically, through submission of current pay stubs, tax returns, or W-2 forms.

The 2015-2016 General Appropriations Act appropriated $405,203,249 for the Title XXI (CHIP) components. As of September 1, 2015, a total of 2,391,259 children were enrolled in Kidcare.

Under s. 409.814, F.S., Kidcare’s eligibility guidelines are described in conformity with current Title XIX and Title XXI terminology and requirements for each funding component. A child who is an alien, but does not meet the definition of a qualified alien in the United States, is specifically excluded from eligibility from Title XXI premium assistance.

**Eligibility of Alien Children for Medicaid and the CHIP**

The Immigration and Nationality Act (INA) was created in 1952 to consolidate a variety of statutes governing immigration law. The INA has been amended numerous times since 1952. The INA defines the term “alien” as “any person not a citizen or national of the United States.” Nationals of the United States are citizens of the United States, or persons who, though not a citizen of the United States, owe permanent allegiance to the United States.

Generally, under the INA, an alien is not eligible for any state or local public benefit, including health benefits, unless the alien is:

- A qualified alien;

---

7 Agency for Health Care Administration, *Florida Kidcare Enrollment Report - September 2015*, (on file with the Senate Committee on Health Policy).
8 See 8 U.S.C. s. 1101(a)(3).
9 See 8 U.S.C. s. 1101(a)(21) and (22).
10 See 8 U.S.C. s. 1621(a).
11 See 8 U.S.C. s. 1641(b) and (c). There are nine classes of qualified aliens.
• A nonimmigrant alien;¹² or
• An alien who is paroled into the United States under the INA.¹³

There are limited exceptions to the ineligibility for public benefits for treatment of emergency medical conditions, emergency disaster relief, immunizations, and services such as soup kitchens, crisis counseling and intervention, and short-term shelter.¹⁴

The INA gives states the authority to provide that an alien who is not lawfully present in the United States is eligible for any state or local public benefit for which the alien would otherwise not be eligible, but only through the enactment of a state law which affirmatively provides for such eligibility.¹⁵

The enactment of the Personal Responsibility and Work Opportunity Reconciliation Act (PRWORA) of 1996 (Pub. Law 104-193), placed limitations on federal funding for health care of immigrant families. The law imposed a 5-year waiting period on certain groups of qualified aliens, including most children and pregnant women who were otherwise eligible for Medicaid.¹⁶ Medicaid coverage for individuals subject to the 5-year waiting period and for those who do not meet the definition of qualified alien was limited to treatment of an emergency medical condition. The 5-year waiting period also applies to children and pregnant women under the CHIP. The PRWORA did not affect eligibility of undocumented aliens, and these individuals remain ineligible for services, except for emergency services under Medicaid.

The Children’s Health Insurance Program Reauthorization Act (CHIPRA) of 2009 (Public Law No. 111-3), permits states to cover certain children and pregnant women who are “lawfully residing in the United States” in both Medicaid and CHIP, notwithstanding certain provisions under PRWORA. States may elect to cover these groups under Medicaid only or under both Medicaid and CHIP. The law does not permit states to cover these new groups in the CHIP without also extending the option to Medicaid children.¹⁷

Prior to the enactment of the CHIPRA, the term “lawfully residing” had not been used to define eligibility for either Medicaid or CHIP; however, the term has been used by the U.S. Department of Agriculture (USDA) and the Social Security Administration (SSA). The federal Centers for Medicare & Medicaid Services utilized existing regulations from these agencies to define a lawful presence for Medicaid and CHIP through a letter to state health officials dated July 1, 2010.¹⁸ The letter states that children and pregnant women who fall into one of the following categories will be considered “lawfully present.” These individuals are eligible for Medicaid and CHIP, if the state elects the option under the CHIPRA and the child or pregnant woman meets the state residency requirements and other Medicaid or CHIP eligibility requirements.

---

¹² See 8 U.S.C. s. 1101(a)(15). There are 22 classes of nonimmigrant aliens identified in this section.
¹⁴ See 8 U.S.C. s. 1621(b).
¹⁵ See 8 U.S.C. s. 1621(d).
¹⁷ See 42 U.S.C. s. 1397gg(e).
A qualified alien as defined in section 431 of the PRWORA;

An alien in non-immigrant status who has not violated the terms of the status under which he or she was admitted or to which he or she has changed after admission;

An alien who has been paroled into the United States pursuant to section 212(d)(5) of the INA for less than 1 year, except for an alien paroled for prosecution, for deferred inspection or pending removal proceedings;

An alien who belongs to one of the following classes:
- Temporary resident status pursuant to section 210 or 245A of the INA (8 U.S.C. s. 1160 or 1255a, respectively);
- Temporary Protected Status (TPS) pursuant to section 244 of the INA (8 U.S.C. s. 1254a), and pending applicants for TPS who have been granted employment authorization under 8 C.F.R. s. 274a.12(c)(9), (10), (16), (18), (20), (22), or (24);
- Family Unity beneficiaries pursuant to section 301 of Public Law 101-649, as amended;
- Deferred Enforced Departure (DED) pursuant to a decision made by the president of the United States;
- Deferred action status; or,
- Visa petition has been approved and has a pending application for adjustment of status;

A pending applicant for asylum under section 208(a) of the INA (8 U.S.C. s. 1158) or for withholding of removal under section 241(b)(3) of the INA (8 U.S.C. s. 1231) or under the Convention Against Torture, who has been guaranteed employment authorization, and such an applicant under the age of 14 who has had an application pending for at least 180 days;

An alien who has been granted withholding of removal under the Convention Against Torture;

A child who has a pending application for Special Immigrant Juvenile status as described in section 101(a)(27)(J) of the INA (8 U.S.C. s. 1101 (a)(27)(J));

An alien who is lawfully present in the Commonwealth of the Northern Mariana Islands under 48 U.S.C. s. 1806(e); or

An alien who is lawfully present in American Samoa under the immigration laws of American Samoa.

As of January 2015, 28 states cover lawfully residing children under Medicaid or CHIP without the five-year waiting period.\(^\text{19}\)

III. Effect of Proposed Changes:

Section 1 amends definitions under s. 409.811, F.S., to permit certain non-citizen children to receive federal financial premium assistance under Medicaid or the Children’s Health Insurance Program (CHIP).

The definition of a “lawfully residing child” is added as a child who:
- Is present in the United States as defined under 8 C.F.R. s. 103.12(a); and
- Meets Medicaid or CHIP residency requirements, and

• May be eligible for federal financial premium assistance under s. 214 of the CHIPRA and related federal regulations.

The definition of a “resident” is amended to substitute a “lawfully residing child” rather than a “qualified alien.”

The definition for a “qualified alien” is deleted from s. 409.811, F.S.

**Section 2** amends s. 409.814, F.S., to replace a reference to “qualified alien” with “lawfully residing child” when referring to children who are not eligible for Title XXI funded premium assistance. The bill also clarifies that Kidcare program eligibility is not being extended to undocumented immigrants.

**Section 3** amends s. 409.904, F.S., relating to optional Medicaid payments, to designate that a child younger than 19 years of age who is a lawfully residing child as defined in s. 409.811, F.S., is eligible for Medicaid under s. 409.903, F.S. The bill also clarifies that Medicaid eligibility is not being extended to undocumented immigrants.

**Section 4** amends s. 624.91, F.S., the Florida Healthy Kids Corporation Act, to conform to changes made under the bill and update references to modified or deleted terms.

**Section 5** provides an effective date of July 1, 2016.

**IV. Constitutional Issues:**

A. Municipality/County Mandates Restrictions:

   None.

B. Public Records/Open Meetings Issues:

   None.

C. Trust Funds Restrictions:

   None.

**V. Fiscal Impact Statement:**

A. Tax/Fee Issues:

   None.

B. Private Sector Impact:

   Expanding eligibility to additional children who may currently be uninsured under SB 248 may have a positive impact on health care providers that currently provide health care services to this population without compensation or at a discount. Accordingly,
uncompensated care costs incurred by health care providers may be reduced if the insured population is increased.

C. Government Sector Impact:

The total state funds required for the 2016-2017 fiscal year for recurring and non-recurring state costs is related to enrollment of an estimated 15,097 children in Medicaid and an additional 2,077 children per month in the CHIP for the first 12 months.

Section 214 of the federal CHIPRA legislation allows states to claim the CHIP enhanced federal match rate for both CHIP and Medicaid children during their five-year waiting period. Additionally, family premiums collected from Title XXI enrollees will be used to offset federal and state costs.

During SFY 2016-17, under Title XXI (CHIP), the break-out is:

<table>
<thead>
<tr>
<th>Enrollment Costs</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Total Additional Cost</td>
<td>$4,672,735</td>
</tr>
<tr>
<td>Less Federal Funds under Title XXI (96.1%)</td>
<td>($4,191,532)</td>
</tr>
<tr>
<td>Less Grants &amp; Donation Trust Fund (6.39%)</td>
<td>($298,811)</td>
</tr>
<tr>
<td>State General Revenue Required (3.90%)</td>
<td>$182,393</td>
</tr>
</tbody>
</table>

During SFY 2016-17, under Title XIX (Medicaid), the break-out is:

<table>
<thead>
<tr>
<th>Enrollment Costs</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Total Additional Cost</td>
<td>$36,903,107</td>
</tr>
<tr>
<td>Less Federal Funds under Title XXI (95.83%)</td>
<td>($35,364,247)</td>
</tr>
<tr>
<td>Less Grants &amp; Donation Trust Fund</td>
<td>($0)</td>
</tr>
<tr>
<td>State General Revenue Required (9.81%)</td>
<td>$1,538,860</td>
</tr>
</tbody>
</table>

A total of $1,721,252 recurring general revenue will be required to implement the bill.

**Department of Children and Families**

In addition to the enrollment costs above, the DCF estimates the bill will generate administrative costs for workload increases related to additional enrollment and non-recurring costs for programming changes to the eligibility system. These costs are indeterminate and will be absorbed within existing resources.¹⁰

**Florida Healthy Kids Corporation**

The Florida Healthy Kids Corporation reports no additional impact.²¹

---

²¹ Email from Fred Knapp (10/27/2015) (on file with the Senate Committee on Health Policy).
**Children’s Medical Services Network**

Enrollment in the Children’s Medical Services Network component is incorporated in the Title XXI and Title XIX projections. The Department of Health reports no fiscal impact.\(^{22}\)

VI. **Technical Deficiencies:**

None.

VII. **Related Issues:**

Amendments to the federally-required state plans for both Medicaid and CHIP will need to be submitted by the Agency for Health Care Administration for federal approval to implement the eligibility changes.

VIII. **Statutes Affected:**

This bill substantially amends the following sections of the Florida Statutes: 409.811, 409.814, 409.904, and 624.91.

IX. **Additional Information:**

A. **Committee Substitute – Statement of Changes:**

(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. **Amendments:**

None.

---

By Senator Garcia

A bill to be entitled An act relating to medical assistance funding for lawfully residing children; amending s. 409.811, F.S.; defining the term "lawfully residing child"; deleting the definition of the term "qualified alien"; conforming provisions to changes made by the act; amending s. 409.814, F.S.; revising eligibility for the Florida Kidcare program to conform to changes made by the act; clarifying that undocumented immigrants are excluded from eligibility; amending s. 409.904, F.S.; providing eligibility for optional payments for medical assistance and related services for certain lawfully residing children; clarifying that undocumented immigrants are excluded from eligibility for optional Medicaid payments or related services; amending s. 624.91, F.S.; conforming provisions to changes made by the act; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Present subsections (17) through (22) of section 409.811, Florida Statutes, are redesignated as subsections (18) through (23), respectively, a new subsection (17) is added to that section, and present subsections (23) and (24) of that section are amended, to read:

409.811 Definitions relating to Florida Kidcare Act.—As used in ss. 409.810-409.821, the term:

(17) "Lawfully residing child" means a child who is lawfully present in the United States, meets Medicaid or the

requirements, and may be eligible for medical assistance with federal financial participation as provided under s. 214 of the Children’s Health Insurance Program Reauthorization Act of 2009, Pub. L. No. 111-3, and related federal regulations.

(23) "Qualified alien" means an alien as defined in s. 431 of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, as amended, Pub. L. No. 105-172.

(24) "Resident" means a United States citizen, or lawfully residing child qualified alien, who is domiciled in this state.

Section 2. Paragraph (c) of subsection (4) of section 409.814, Florida Statutes, is amended to read:

409.814 Eligibility.—A child who has not reached 19 years of age whose family income is equal to or below 200 percent of the federal poverty level is eligible for the Florida Kidcare program as provided in this section. If an enrolled individual is determined to be ineligible for coverage, he or she must be immediately disenrolled from the respective Florida Kidcare program component.

(4) The following children are not eligible to receive Title XXI-funded premium assistance for health benefits coverage under the Florida Kidcare program, except under Medicaid if the child would have been eligible for Medicaid under s. 409.903 or s. 409.904 as of June 1, 1997:

(c) A child who is an alien, but who does not meet the definition of a lawfully residing child qualified alien in the United States. This paragraph does not extend eligibility for the Florida Kidcare program to an undocumented immigrant.

Section 3. Present subsections (8) and (9) of section...
409.904, Florida Statutes, are redesignated as subsections (9) and (10), respectively, and a new subsection (8) is added to that section, to read:

409.904 Optional payments for eligible persons.—The agency may make payments for medical assistance and related services on behalf of the following persons who are determined to be eligible subject to the income, assets, and categorical eligibility tests set forth in federal and state law. Payment on behalf of these Medicaid eligible persons is subject to the availability of moneys and any limitations established by the General Appropriations Act or chapter 216.

(8) A child who has not attained the age of 19 who, notwithstanding s. 414.095(3), would be eligible for Medicaid under s. 409.903, except that the child is a lawfully residing child as defined in s. 409.811. This subsection does not extend eligibility for optional Medicaid payments or related services to an undocumented immigrant.

Section 4. Paragraph (b) of subsection (3) of section 624.91, Florida Statutes, is amended to read:

624.91 The Florida Healthy Kids Corporation Act.—
(3) ELIGIBILITY FOR STATE-FUNDED ASSISTANCE.—Only the following individuals are eligible for state-funded assistance in paying Florida Healthy Kids premiums:

(b) Notwithstanding s. 409.814, a legal alien who is enrolled in the Florida Healthy Kids program as of January 31, 2004, who does not qualify for Title XXI federal funds because he or she is not a lawfully residing qualified alien as defined in s. 409.811.

Section 5. This act shall take effect July 1, 2016.
Agency for Health Care Administration
Fiscal Year 2016-17 Base Budget Review - Agency Summary

The mission of the Agency for Health Care Administration is to provide better health care for all Floridians. The agency is responsible for the administration of the Florida Medicaid program, licensure and regulation of Florida’s health facilities and for providing information to Floridians about the quality of care they receive.

**Program: Administration and Support**
**Budget Entity/Service: Executive Leadership/Support Services**
Provides leadership and administrative support for the agency's health-related programs by delivering logistical support services such as planning and budgeting, finance and accounting, general counsel, internal audit, legislative affairs and human resources. This service also has oversight of the detection of fraud and abuse in Florida's Medicaid program and throughout the health care system; collects, analyzes, reports and distributes health care information to consumers, legislators and other agency stakeholders; and develops plans and policies for the state's health care system.

**Program: Health Care Services**

<table>
<thead>
<tr>
<th>Budget Entity/Service: Children's Special Health Care</th>
</tr>
</thead>
<tbody>
<tr>
<td>The Florida KidCare Program is the Title XXI Florida State Children’s Health Insurance Program. The KidCare Program is composed of four entities which partner to ensure affordable services that are accessible to eligible children: Medicaid for Children, Florida Healthy Kids, MediKids and Children’s Medical Services Network (CMS). Children must have income below 200 percent of the federal poverty level to participate in the Title XXI program and be uninsured at application. The agency contracts with the Florida Healthy Kids Corporation to process Kid Care applications; determine eligibility for the Children's Health Insurance Plans under Title XXI of the Social Security Act (Title XXI SCHIP Program); refer children to Medicaid or CMS; enroll children in Title XXI programs; collect premiums; and administer the Healthy Kids program including selecting networks for care. The Corporation also establishes rates: does program outreach; collects required local contributions; purchases insurance coverage for school aged children and their siblings; purchases choice counseling and health care coverage for children enrolled in the MediKids program through Medicaid Managed Care, as well as special needs children enrolled under Title XXI CMS.</td>
</tr>
</tbody>
</table>

**Total - Children's Special Health Care Budget Entity: Executive Direction and Support Services**

**23 Brief Description of Entity:** Management of the state's Medicaid and child health insurance programs. Specific activities include helping to reduce the rate and number of uninsured Floridians; improving the quality of care provided to beneficiaries; eliminating waste, fraud and abuse; increasing the efficiency of administration; incorporating best practices in the delivery of financed services; purchasing care and ensuring that care purchased is appropriate and medically necessary; improving access and availability of health care services for Florida's special needs populations; and anticipating future needs and trends so that the program remains responsive and efficient.

**Budget Entity: Medicaid Services to Individuals**

42 **Brief Description of Entity:** Recruit and enroll sufficient providers to meet the medical needs of eligible beneficiaries. Develop programs to improve client outcomes and set standards for service. Purchase medically needed services for beneficiaries under the Medicaid program in which enrolled. Monitor quality of care provided and compliance with standards. Institute steps to improve quality, efficiency, cost, and access to care. Recruit managed care organizations (MCO) to participate in Medicaid, set standards, and contract with MCOs electing to participate in Medicaid. Annually set rates for pre-paid plans and ensure compliance with standards. Promote quality improvement by plans. Resolve beneficiary and provider complaints. *Although Medicaid Services are classified as optional or mandatory, all medically necessary services are mandatory for children and pregnant women.*

Agency for Persons with Disabilities
Fiscal Year 2016-17 Base Budget Review - Agency Summary

The Agency for Persons with Disabilities' mission is to provide support services to persons with developmental disabilities so they may live, learn, and work in their community. This includes a comprehensive range of services for individuals three years of age and older with a diagnosis of autism, cerebral palsy, intellectual disability, spina bifida, Down syndrome, or Prader-Willi syndrome. The Agency has established four goals to strive toward over the next five years. These goals are identified in the Agency's Long-Range Program Plan, and include: (1) Efficiently manage Agency budget within fiscal allocation; (2) Increase employment opportunities for individuals with developmental disabilities; (3) Increase access to community-based services, treatment, and residential options for persons on the waitlist and not eligible for the Home and Community Based Services waiver; and (4) Improve management and oversight of Agency and provider services.

# Agency for Persons with Disabilities

## Program & Services Descriptions

### Program: Services to Persons with Disabilities
The program provides a comprehensive range of services for individuals three years of age and older with a diagnosis of autism, cerebral palsy, intellectual disability, spina bifida, Down syndrome or Prader-Willi syndrome to assist them in living, learning and working in their communities.

### Budget Entity/Service: Home and Community Services
This program provides services for people with developmental disabilities based on their individual support plans. These services may include residential services (e.g., group homes and supported living) day activities, supported employment, personal care, health services, therapies, respite care, therapeutic equipment, transportation, behavior management, and other services to address needs of the individual.

### Budget Entity/Service: Program Management and Compliance
The functions performed in this service involve staff that provide overall direction, administrative and operational support to the entire agency.

### Budget Entity/Service: Developmental Disability Centers - Civil Program
The agency has two regional facilities located in Marianna (Sunland) and Gainesville (Tacachale). These facilities are licensed according to state law and certified in accordance with federal regulations as providers of Medicaid services.

### Budget Entity/Service: Developmental Disability Centers - Forensic Program
The agency serves individuals accused of crimes who are found to be incompetent to proceed to trial through the Developmental Disabilities Defendant Program (at the Chattahoochee-Florida State Hospital facility).

Department of Children and Families
Fiscal Year 2016-17 Base Budget Review - Agency Summary

The mission of the Department of Children and Families is to work in partnership with local communities to protect the vulnerable, promote strong and economically self-sufficient families, and advance personal and family recovery and resiliency. Client services are provided through one of the following program areas: Family Safety and Preservation Services, Mental Health Services, Community Substance Abuse and Mental Health, or Economic Self-Sufficiency Services. People with one or more of the following characteristics are served by the department: children in families known to be at risk of abuse or neglect or who have been abused or neglected by their families; child victims of abuse or neglect; children with or at risk of substance abuse problems; children with mental health problems; children incompetent to proceed to the delinquency system; adults with substance abuse problems; adults with mental illness; adults with disabilities and frail elderly at-risk of or victims of abuse, neglect, or exploitation; adults with disabilities who need assistance to remain in the community; adults and their families who need assistance to become economically self-sufficient; victims of domestic violence; and people who are homeless. The Department has established four core competencies that are included in the Long-Range Program Plan; (1) systems integration, (2) vendor relationship management, (3) data analytics, and (4) world class workforce.

| Fiscal Year 2015-16 Appropriations: | 11,830.50 | 2,936,051,588 | 73,286,412 | 3,009,338,000 |

Executive Leadership & Support Services  
**FY 2016-17 Base Budget Summary**

Program Description
Executive Leadership & Support provides direction and leadership for department employees through the offices of the Secretary, Communications, Legislative Affairs, General Counsel, and the Inspector General. Executive Leadership & Support provides administrative guidance and support to region, facilities, and central office staff in the areas of fiscal, budget, contract management, human resources, data processing services and general services, and ensures statewide compliance and adherence to state and federal regulations.

**Family Safety Program**

**FY 2016-17 Base Budget Summary**

**Program Description**

Working with local communities, Family Safety services are provided to children and their families if the children are alleged or known to be at risk of abuse or neglect or are unsafe due to abuse and/or neglect by their caregivers; to individuals under the age of 18 reported as victims of human trafficking; to victims of domestic violence; to frail elderly or disabled adults who are alleged to be abused, neglected or exploited or at risk of becoming abused, neglected, or exploited and need protective services. Child Care Regulation services are provided for children and families to protect the health and welfare of children through a regulatory framework that promotes the quality and stability of the child care industry through the regulation of licensed child care facilities and inspections of family day care homes.

Mental Health Program
FY 2016-17 Base Budget Summary

Program Description
Mental Health Services for adults and children includes both acute and long-term mental health services, as well as oversight of state mental health treatment facilities and the Sexually Violent Predator Program. There are seven mental health treatment facilities – three operated by the state of Florida and four outsourced using contracts managed from the central office and local circuit staff. Three of the facilities provide services for civil commitments, three provide services for forensic commitments and one provides services for both civil and forensic commitments. Forensic commitments are determined by the courts in cases when an individual has been adjudicated incompetent to proceed or not guilty by reason of insanity.

Program Description
Working with local communities, the Economic Self-Sufficiency (ESS) Program ensures services are provided to promote strong and economically self-sufficient families. ESS determines eligibility for the Supplemental Nutrition Assistance Program (SNAP, formerly known as food stamps), Cash Assistance, and Medicaid. The Office on Homelessness provides needed assistance to local agencies and individuals to assist persons who have become homeless, or are at risk of becoming homeless to restore them to suitable living conditions and self-sufficiency. The Office of Refugee Services provides cash and medical assistance, employment, and social services to eligible refugees. The Office of Public Benefits Integrity safeguards the integrity of public assistance benefits through anti-fraud initiatives and overpayment recoveries.

Community Substance Abuse and Mental Health Services
FY 2016-17 Base Budget Summary

Program Description
The Community Mental Health and Substance Abuse Services Program is responsible for the oversight and program management of community mental health and substance abuse services, and provides direction for a continuum of community-based prevention. This includes policy and standard of care development, licensure of substance abuse services, designation of receiving facilities, contract development and management, grant administration, data management, training and technical assistance, strategic planning, and developing budgeting issues relative to behavioral health programs. Mental health and substance abuse services provided include, but are not limited to, prevention, assessment, intervention, outpatient, home and community-based supports, recovery supports, case management, intensive community treatment teams, residential, crisis stabilization, detoxification, and aftercare services.

## Programs & Services Descriptions

### A  Program: Executive Leadership & Support
This program provides departmental policy leadership, planning guidance, performance assessment, evaluation, quality assurance/quality improvement oversight, service delivery oversight, and other supports to promote effective management practice and quality service delivery.

*Executive Leadership* encompasses the offices of the Secretary, Communications, Legislative Affairs, General Counsel, and the Inspector General which provide direction and leadership for department functions and staff.

*The Assistant Secretary for Administration* provides administrative guidance and support to support circuit, region facilities, and headquarters staff in the areas of fiscal, budget, contract management, and general services, and ensures statewide compliance and adherence to state and federal regulations. The demand for this type of service is directly related to the size and complexity of the department's programs.

*The Assistant Secretary for Operations* provides operational guidance and support at the region and circuit level by implementing administrative, management and operational policies, generating quality assurance/quality improvement reports, and providing the communication linkages to local staff and the community.

### B  Program: Support Services
The service provides administrative guidance and support to region and central office staff in the area of information technology support and data processing services.

1  **Budget Entity/Service: Information Technology**
The Office of Information Technology Services (OITS) provides technology services to internal and external customers by developing and maintaining operational and programmatic applications including applications such as the Florida On-Line Recipient Integrated Data Access (FLORIDA) System, State Automated Child Welfare Information System (Florida Safe Families Network), Enterprise Client Index. OITS provides a variety of additional technology services including web services, help desk, desktop, file server, electronic and messaging, network administration, as well as supporting the department’s technology operations.

### C  Program: Family Safety
Working with local communities, services are provided to children and their families if the children are alleged or known to be at risk of abuse or neglect or are unsafe due to abuse and/or neglect by their caregivers; to individuals under the age of 18 reported as victims of human trafficking; to victims of domestic violence; to frail elderly or disabled adults who are alleged to be abused, neglected, or exploited or at risk of becoming abused, neglected, or exploited and need protective services. Child Care Regulation services are provided for children and families to protect the health and welfare of children through a regulatory framework that promotes the quality and stability of the child care industry through the regulation of licensed child care facilities and inspections of family day care homes.

1  **Budget Entity/Service: Family Safety & Preservation**
*Child Care Regulation and Information* includes the licensure and registration of licensed child care facilities and homes, and training for child care provider staff mandated by law. Minimum standards are established to protect the health, safety, and well-being of the children of the state and to promote their intellectual and emotional development while in care. The Child Care Information System captures demographic data on all licensed and registered homes and facilities in the state, provides public information to assist parents in making informed choices about quality child care and tracks statutorily required training for child care provider staff statewide. The website is used to meet the requirement of the federal 2014 Child Care Development Fund reauthorization that states must make available by electronic means specific results of monitoring and inspection reports, as well as the number of deaths, serious injuries, and instances of substantiated child abuse that occur in child care settings.
### Adult Protection

Upon receipt of a report of abuse, neglect, or exploitation of a vulnerable adult, an on-site investigation is initiated to determine if there is an indication of abuse, neglect, or exploitation. The investigation seeks to determine the individual(s) apparently responsible for the abuse, neglect, or exploitation and attend to the long-term risks to the vulnerable adult and determine the protective, treatment, and ameliorative services necessary to safeguard and ensure the vulnerable adult's well-being. The protective investigations also include the immediate provision, or arrangement for the provision of, protective services for vulnerable adults that consent to the services, or court ordered services for those lacking the ability to consent to services. In addition, the Domestic Violence Office provides guidance and contract management services for the provision of statewide services to victims of domestic violence and for services to prevent domestic violence.

### Child Protection and Permanency

Includes investigation of reports of child abuse, neglect, and human trafficking of children, assessment of child safety and risk, prevention services, safety management services, family support services to safe but at risk children, in-home protective services and out-of-home placement services to unsafe child victims of abuse/neglect, treatment services to children and caregivers, well-being services to children, children's legal services, adoption placements and services, and post adoption services and supports. Services may be provided directly by the department or by contract or grant through other entities such as community based care lead agencies, sheriffs' offices, the Attorney General, or state attorney offices.

**The Florida Abuse Hotline** receives reports of alleged abuse, neglect and abandonment of children by a caregiver, alleged abuse, neglect and exploitation of vulnerable adults, and alleged human trafficking of children for investigation; assesses the information and determines if the report meets the criteria for investigation; completes background searches and assigns to local areas for investigation.

**Executive Leadership & Support Services** include direction and support from regional, circuit, and headquarters staff for state and contracted direct services staff by developing rules and procedures, establishing performance standards and objectives, developing allocation methodologies, and providing direction on programmatic funding topics, conducting research and data analysis, procuring and managing contracts, and providing technical assistance and monitoring to ensure programs are implemented according to state and federal laws, rules, procedures, and best practices.

### Program: Mental Health

Chapters 394 and 916, F.S., provide direction for the delivery of mental health services for adults and children. These services include both acute and long-term mental health services, as well as oversight of state mental health treatment facilities and the Sexually Violent Predator Program. There are seven mental health treatment facilities—three operated by the state of Florida and four outsourced using contracts managed from the central office and local circuit staff. Three of the facilities serve individuals committed pursuant to the civil statute, chapter 394, F.S., three serve individuals committed pursuant to the forensic statute, chapter 916, F.S. as either incompetent to proceed or not guilty by reason of insanity, and one serves both civil and forensic individuals. All of the facilities serve people with severe and persistent mental illness who need more intensive services than can be provided in the community. These facilities work in partnership with local communities to provide mental health services and supports for adults with severe and persistent mental illness within a highly structured, in-patient residential setting.

#### 1 Budget Entity/Service: Mental Health Services

The **Sexually Violent Predator Program** administers the post-incarceration civil commitment of sexually violent predators. The program provides for the review, screening, and evaluation of referrals, recommends commitment or release, and provides secure confinement, care and treatment for persons detained/committed under the Jimmy Ryce Act.

**Executive Leadership & Support Services** by staff in headquarters and regions are responsible for developing and managing service provision, contracts, licensure and budgetary issues relative to all state mental health programs.
E  Program: Economic Self-Sufficiency
Working with local communities, this program provides services to promote strong and economically self-sufficient families. Provides food, cash and Medicaid assistance to those who qualify. Provides needed assistance to local agencies and individuals to assist persons who have become homeless or are at risk of becoming homeless. Provides federally funded benefits to newly arrived eligible refugees. Provides program integrity and anti-fraud initiatives to safeguard assistance efforts.

1  Budget Entity/Service: Economic Self Sufficiency Services
Services to the Most Vulnerable includes Optional State Supplementation as a general revenue public assistance program that provides payments to supplement the income of indigent elderly and disabled individuals who can no longer live by themselves and who live in non-institutional settings such as assisted living facilities, adult family care homes or mental health residential treatment facilities. The Homelessness Program provides needed assistance to local agencies and individuals to serve both those homeless and those at risk of homelessness to restore them to suitable living conditions and self-sufficiency. The department provides cash and medical assistance, employment and social services to eligible refugee clients. The department provides for the effective resettlement of refugees by assisting them to achieve economic self-sufficiency as quickly as possible.

F  Program: Community Services
Chapters 394 and 397, F.S., govern the provision of substance abuse and mental health services, and provides direction for a continuum of community-based prevention, intervention, case management, treatment services, and detoxification. The program office is also responsible for oversight of the licensure and regulation process of the community-based provider system. Staff at the local level are responsible for licensing public and private substance abuse service providers and designating public and private receiving facilities.

1  Budget Entity/Service: Community Mental Health and Substance Abuse Services
Executive Leadership & Support Services staff in headquarters and regions responsible for the oversight and program management of community mental health and substance abuse services, and provides direction for a continuum of community-based prevention. This includes policy and standard of care development, licensure of substance abuse services, designation of receiving facilities, contract development and management, grant administration, data management, training and technical assistance, strategic planning, and developing budgeting issues relative to behavioral health programs. Contract funds at headquarters are used for statewide research, evaluations, and training initiatives.

Community Subsstance Abuse Services employs an array of assessment, detoxification, prevention, treatment, recovery support, and aftercare services provided to children and adults who are either at-risk of developing substance abuse problems or have been identified as having substance abuse problems.

Community Mental Health Services are provided to adults with serious mental illnesses, mental health problems, or forensic involvement, and children 0 - 17 years of age who have an emotional disturbance, or are experiencing an acute mental or emotional crisis. The services that are provided include but are not limited to assessments, crisis stabilization, residential services, case management, outpatient services, home and community supports, services for infants, family therapy and support, respite, and intensive community treatment teams.

**Brief Description of Entity:** The Sexually Violent Predator Program administers the post-incarceration civil commitment of sexually violent predators. The program provides for the review, screening, and evaluation of referrals, recommends commitment or release, and provides secure confinement, care and treatment for persons detained/committed under the Jimmy Ryce Act. Program Management and Compliance staff in headquarters and regions are responsible for developing and managing service provision, contracts, licensure and budgetary issues relative to all state mental health programs. There are seven mental health treatment facilities – three operated by the state of Florida and four outsourced using contracts managed from the central office and local circuit staff. Three of the facilities serve individuals committed pursuant to the civil statute, Chapter 394, F.S., three serve individuals committed pursuant to the forensic statute, Chapter 916, F.S. as either incompetent to proceed or not guilty by reason of insanity, and one serves both civil and forensic individuals. All of the facilities work in partnership with local communities to serve people with severe and persistent mental illness who need more intensive services within a highly structured, in-patient setting.

<td>Brief Description of Entity: Comprehensive Eligibility Services provides eligibility determination for public assistance, including cash, food assistance, and Medicaid. The Office of Public Benefits Integrity maintains a front-end fraud prevention program to detect and prevent waste, fraud, and abuse in public assistance benefits, as well as a benefit recovery claims establishment and recoupmment program. Services to the Most Vulnerable include Optional State Supplementation, a general revenue public assistance program which provides payments to supplement the income of indigent elderly and disabled individuals who can no longer live by themselves and who live in non-institutional settings, such as assisted living facilities, adult family care homes or mental health residential treatment facilities. The Homelessness Program provides needed assistance to local agencies and individuals to serve both those homeless and those at risk of homelessness to restore them to suitable living conditions and self-sufficiency. The department provides cash and medical assistance, employment and social services to eligible refugee clients. The department also provides for the effective resettlement of refugees by assisting them to achieve economic self-sufficiency as quickly as possible.</td>

Department of Elder Affairs
Fiscal Year 2016-17 Base Budget Review - Agency Summary

The Department of Elder Affairs’ (DOEA) mission is to foster an environment that promotes well-being for Florida's elders and enables them to remain in their homes and communities. The Department is responsible for community based programs and services for older Floridians to enhance their quality of life and prevent unnecessary institutionalization. In addition, the department is responsible for developing policy recommendations for long term care, as well as initiatives which include volunteerism and information retrieval and distribution to the elderly. In pursuit of this mission, the Department has established six goals for the next five years. These goals are identified in the Department's Long-Range Program Plan. The goals are to: (1) Enable older people, individuals with disabilities, their families, and other consumers to choose and easily access options for existing mental and physical health, and long-term and end-of-life care; (2) Provide home and community-based services and access to medical care to enable individuals to maintain a high quality of life for as long as possible, including supports for family caregivers; (3) Empower older people and their caregivers to live active, healthy lives to improve their mental, behavioral, and physical health status (4) Prevent the abuse, neglect, and exploitation of elders and ensure that their legal rights are protected; (5) Maintain effective and responsive management; and (6) Promote planning and collaboration at the community level that recognize the benefits and needs of its aging population.

Base budget differs from the FY 2015-16 appropriation as the base budget does not include any nonrecurring funds but does include annualizations and other adjustments.

## Home and Community Services
### FY 2016-17 Base Budget Summary

**Program Description**
This service allows elders to age in place with dignity and security, prevents or delays premature nursing home placement, and is far more cost effective than institutional care. This service reflects the continuum of care that ranges from positive aging and self-care to community-based care, including congregate meals and in-home care.

Department of Elder Affairs
Consumer Advocate Services
FY 2016-17 Base Budget Summary

Program Description
This service focuses on providing protection and oversight for the most vulnerable elders who are in nursing homes, or those who are incapacitated and require guardianship services but have no private guardian. It ensures the security of vulnerable elders by providing quality assurance functions for elder Floridians to voice concerns and to have those concerns properly addressed. It establishes guardianship plans that protect vulnerable, frail elderly who do not have adequate resources for a private guardian, a family member, or a primary caregiver that is willing to serve in that capacity.

<td>Brief Description of Entity: This service focuses on providing protection and oversight for the most vulnerable elders -- those who are in nursing homes, or those who are incapacitated and require guardianship services but have no private guardian. It ensures the security of vulnerable elders by providing quality assurance functions for elder Floridians to voice concerns and to have those concerns properly addressed. It establishes guardianship plans that protect vulnerable, frail elderly who do not have adequate resources for a private guardian, a family member, or a primary caregiver that is willing to serve in that capacity.</td>

The mission of the Department of Health is to protect, promote, and improve the health of all people in Florida through integrated state, county, and community efforts. The department is statutorily responsible for the health and safety of all citizens and visitors to the state. There are nine agency goals delineated in the Long Range Program Plan (LRPP): (1) prevent and treat diseases of public health interest, (2) provide access to care for children with special health care needs, (3) ensure Florida's health and medical system achieves and maintains national preparedness capabilities, (4) improve access to basic family health care services, (5) prevent diseases of environmental origin, (6) prevent and reduce tobacco use, (7) ensure health care practitioners meet relevant standards of knowledge and care, (8) enhance and improve emergency medical services, and (9) process medical disability determinations. The head of the Department of Health is the State Surgeon General. Public health services are provided to the public through a partnership between the state and the counties and are administered by 67 county health departments at no charge or a small fee, based on a patient’s income. The department, in conjunction with 22 boards and 6 councils, works to maintain a high-quality system of health care in Florida by regulating over one million health care practitioners and facilities.
Program Description
Executive Direction and Support provides policy and administrative development and direction, public outreach, supervision of operations, administration of financial functions, and development and support of information technology services and systems. The Office of the State Surgeon General includes the Offices of Chief Operating Officer, General Counsel, Legislative Planning, Communications, Inspector General, Minority Health, and Performance and Quality Improvement. The Deputy Secretary for Administration includes the Office of Budget and Revenue Management. The Division of Administration includes the Bureaus of Finance and Accounting, Human Resource Management, and General Services.

Program Description
The Community Public Health program provides support for Community Health Promotion, Disease Control and Health Protection, County Health Departments-Local Health Needs and Statewide Public Health Support Services. Community Health Promotion facilitates access to basic family health care services for persons with difficulty obtaining this care from the private sector by administration of programs through contracts with local providers and through allocations to county health departments. It is also responsible for the implementation of the Comprehensive Statewide Tobacco Education and Use Prevention Program as required by the Florida Constitution. Disease Control and Health Protection provides a broad array of services designed to detect, control, prevent and treat diseases. Specific services include immunizations, infectious disease counseling and testing, infectious disease reporting and surveillance, epidemiological investigation, partner elicitation and notification, and health education and medical treatment including drug therapy for HIV/AIDS, state laboratory services, and tuberculosis to cure or mitigate illness. County Health Departments-Local Health Need services maintain and improve the health of the public through the provision of personal health, disease control and environmental sanitation services. Statewide Health Services includes, dispensing pharmaceuticals, support of emergency medical services, vital statistics, radiation control, and support for enhancing the state's bioterrorism preparedness and response capabilities.

**Program Description**

Children's Medical Services (CMS) is a statewide integrated system of care for children up to 21 years of age who have special health care needs. As Florida's Title V Program under the Maternal and Child Health State Plan, CMS provides a comprehensive continuum of medical and supporting services to eligible children who are medically involved, complex or fragile, or who are delayed in their development. The continuum of care includes prevention and early intervention programs, primary care, medical and therapeutic care, long-term care and medical services for abused/neglected children. CMS operates as a public/private partnership where medical and medically related services are purchased and delivered through a network of private sector providers such as physicians, multidisciplinary health providers, hospitals, medical schools, and regional health clinics, collectively known as the CMS Network.

Department of Health
Programs and Services Descriptions

A  Program: Executive Direction and Support
   Executive Direction and Support provides oversight, direction, and coordination for the Administrative Support and Information Technology.

   1 Budget Entity/Service: Administrative Support
   Administrative Support provides leadership and policy development for the Department of Health programs and operations. Administrative support services such as finance and accounting, budget, personnel, public information, general counsel, general services, inspector general, equal opportunity and minority affairs, and legislative affairs are provided. Information Technology provides support to information resources including support of the Department of Health’s computer information systems for 16,000 users. Systems include those supporting 67 county health departments and 22 regional Children's Medical Services Networks.

B  Program: Community Public Health
   The Community Public Health Program provides support for Community Health Promotion services, Disease Control and Health Protection services, county health departments-Local Health Needs, and Statewide Public Health Support services.

   1 Budget Entity/Service: Community Health Promotion
   Community Health Promotion facilitates access to basic family health care services for persons who have difficulty obtaining this care from the private sector by administration of programs through contracts with local providers and through allocations to county health departments. Activities include statewide programmatic oversight of nutrition services to at-risk women and children, child nutrition programs, dental health prevention and treatment, chronic disease screening and risk reduction activities. Provides administrative oversight of maternal and child health care, the Healthy Start program, the Family Planning program, the abstinence education program and school health services program. It is also responsible for the implementation of the Comprehensive Statewide Tobacco Education and Use Prevention Program as required by the Florida Constitution.

   2 Budget Entity/Service: Disease Control and Health Protection
   Disease Control and Health Protection provides a broad array of services designed to detect, control, prevent and treat diseases. Specific services include immunizations, infectious disease counseling and testing, infectious disease reporting and surveillance, epidemiological investigation, partner elicitation and notification, health education and medical treatment including drug therapy for HIV/AIDS and tuberculosis to cure or mitigate illness. The department also provides housing assistance for persons with AIDS and assists in paying insurance premiums for HIV infected persons. The department delivers infectious disease control services directly through county health departments and in collaboration with hospitals, private providers, laboratories and other entities. Environmental Health Services protect the public from diseases of environmental origin such as salmonella, giardia, hepatitis A, rabies, encephalitis and protect the public from exposure to hazardous substances such as lead, heavy metals and pesticides. Environmental epidemiological activities provide an early warning system to detect health threats of environmental origin, investigate disease clusters and investigate toxicological issues of public concern. The state laboratory provides screening and testing services to identify sexually transmitted diseases, tuberculosis, HIV/AIDS, rabies, parasitology, the presence of hereditary diseases, and contaminants in water, food and the workplace as well as certifying environmental and water testing laboratories.
3 Budget Entity/Service: Children's Special Health Care

As Florida's Title V Program under the Maternal and Child Health State Plan, CMS provides a comprehensive continuum of medical and supporting services to eligible children who are medically involved, complex, or fragile, or who are delayed in their development. The continuum of care includes prevention and early intervention programs, primary care, medical and therapeutic care, long-term care and medical services for abused/neglected children. CMS operates as a public/private partnership where medical and medically related services are purchased and delivered through a network of private sector providers such as physicians, multidisciplinary health care providers, hospitals, medical schools, and regional health clinics, known collectively as the CMS Network. CMS staff monitor utilization, quality of care, premiums, and capitation rates as well as provide case management services to coordinate the delivery of care from multiple providers.

4 Budget Entity/Service: County Health Departments- Local Health Needs

County Health Departments-Local Health Needs services maintain and improve the health of the public through the provision of personal health, disease control, and environmental sanitation services. Family Health programs provide personal health services improve access to basic family health care services for persons who have difficulty obtaining this care from the private sector. Disease control services provide a broad array of services designed to detect, control, prevent, and treat infectious diseases. Environmental health services protect the public from diseases of environmental origin such as salmonella, giardia, hepatitis A, rabies, encephalitis and protect the public from exposure to hazardous substances such as lead, heavy metals and pesticides. The majority of services are delivered by the county health departments although many services are provided through contracts with private providers. In addition, county health departments play a pivotal role with regards to detecting and responding to bioterrorist attacks, recording vital events, and improving the health outcomes of racial and ethnic populations.

4 Budget Entity/Service: Statewide Public Health Support Services

Statewide Health Services includes support for enhancing the state’s bioterrorism preparedness and response capabilities. The Pharmacy dispenses pharmaceuticals, including HIV/AIDS treatment drugs, insulin, vaccines, antibiotics, contraceptives, and other medications to county health departments and other providers, and purchases drugs for agencies and organizations under a statewide contract that results in significant cost savings to the state. Vital Statistics provides registration of vital records such as birth, death, marriage and divorce documents. Emergency Medical Services supports statewide trauma systems and system development, and provides grants to improve and expand emergency medical services systems. Radiation control services protect the public from unnecessary exposure to radiation from x-ray machines, phosphate mines, shipments of radioactive waste, and other radiation emitting sources. Services also recruit and place health care practitioners in underserved areas, support the delivery of continuing education services including services to practitioners in underserved areas, help persons who have suffered brain and spinal cord injuries to return to their communities at an appropriate level of functioning, assist local health planning councils, rural health networks, the medically fragile, and support the volunteer health care provider program.

C Program: Children's Medical Services

Children's Medical Services (CMS) is a statewide, integrated system of care for children up to 21 years of age who have special, chronic health care needs.

1 Budget Entity/Service: Children's Special Health Care

As Florida's Title V Program under the Maternal and Child Health State Plan, CMS provides a comprehensive continuum of medical and supporting services to eligible children who are medically involved, complex, or fragile, or who are delayed in their development. The continuum of care includes prevention and early intervention programs, primary care, medical and therapeutic care, long-term care and medical services for abused/neglected children. CMS operates as a public/private partnership where medical and medically related services are purchased and delivered through a network of private sector providers such as physicians, multidisciplinary health care providers, hospitals, medical schools, and regional health clinics, known collectively as the CMS Network. CMS staff monitor utilization, quality of care, premiums, and capitation rates as well as provide case management services to coordinate the delivery of care from multiple providers.
## Program: Disability Determination

The Disability Determination program provides oversight, direction, and coordination for the Disability Benefits Determination services.

1. **Budget Entity/Service: Disability Benefits Determination**
   
   The Division of Disability Determinations provides timely and accurate disability decisions on claims filed by Florida citizens applying for disability benefits under the Social Security Administration (SSA) and the state’s Medically Needy Program. Claims are adjudicated based upon information gathered that demonstrates the claimant’s ability to function in activities of daily living and to engage in work activities according to SSA guidelines and policies.

## Program: Health Care Practitioner and Access

The Health Care Practitioner and Access Program provides oversight, direction, and coordination for Medical Quality Assurance services.

1. **Budget Entity/Service: Medical Quality Assurance**
   
   Medical Quality Assurance regulates health care practitioners through licensing and enforcement, evaluation and approval of training programs and continuing education providers, administering policies of the boards and councils that oversee each profession, and disseminating information to the public.

Specific services include immunizations, infectious disease counseling and testing, infections disease reporting and surveillance, epidemiological investigation, partner elicitation and notification, health education and medical treatment including drug therapy for HIV/AIDS and tuberculosis to cure or mitigate illness. The department also provides housing assistance for persons with AIDS and assists in paying insurance premiums for HIV infected persons. The department delivers infectious disease control services directly through county health departments and in collaboration with hospitals, private providers, laboratories and other entities. Environmental Health Services protect the public from diseases of environmental origin such as salmonella, giardia, hepatitis A, rabies, encephalitis and protect the public from exposure to hazardous substances such as lead, heavy metals and pesticides. Environmental epidemiological activities provide an early warning system to detect health threats of environmental origin, investigate disease clusters and investigate toxicological issue of public concern. The state laboratory provides screening and testing services to identify sexually transmitted diseases, tuberculosis, HIV/AIDS, rabies, parasitology, the presence of hereditary diseases, and contaminates in the water, food and the workplace as well as certifying environmental and water testing laboratories.</td>

<td>78 County Health Departments-Local Health Needs services maintain and improve the health of the public through the provision of personal health, disease control and environmental sanitation services. The Department of Health’s county health departments (CHDs) are the primary delivery system of public health services in Florida. The department operates CHDs in all 67 counties. In addition, the CHDs are major safety net providers with more than 200 clinic sites offering varying levels of personal health care services. The CHD service delivery system has the responsibility to provide direct client services relating to basic family health, outpatient and nutrition services, infectious disease prevention and control and environmental health services. CHDs also play a pivotal role in detecting and responding to bioterrorist attacks, recording vital events and improving the health outcomes of racial and ethnic populations.</td>

Department of Veterans’ Affairs  
Fiscal Year 2016-17 Base Budget Review - Agency Summary

The mission of the Department of Veterans’ Affairs is to advocate for Florida's veterans and link them to services, benefits, and support. In pursuit of this mission, the Department has established three goals to strive toward over the next five years. These goals are identified in the Department's Long-Range Program Plan. The three goals are to: (1) Provide information and advocacy to Florida veterans, their families, and survivors, and assist them in obtaining all federal and state benefits due to them; (2) Provide quality long-term healthcare services to eligible Florida veterans; and (3) Provide effective and responsive management to support divisions and programs serving veterans.

Veterans' Benefits and Assistance
FY 2016-17 Base Budget Summary

Program Description
Veterans' Benefits and Assistance assists Florida's veterans, their families, and survivors to improve their health and economic well-being through quality benefit information, advocacy, and education. The Division accomplishes its purpose through three Bureaus: (1) the Bureau of Claim Services, which provides counseling services and assistance to veterans, their dependents, and survivors with the preparation, submission and prosecution of claims and appeals for state and federal benefits, as well as application to correct military records; (2) the Bureau of Field Services, which provides counseling and benefits assistance to all inpatients and outpatients at 16 VA Medical facilities, State Veterans Nursing Homes and Domiciliary, and conducts outreach activities throughout the state; (3) the Bureau of State Approving Agency, which provides school and program approval services to Florida educational institutions and monitors these institutions to ensure continued compliance with federal and state regulatory requirements of the federal G.I. Bill.

Percent Change by Fiscal Year
Program : Services to Veterans'

1  Budget Entity/Service: Veterans' Homes

The Veterans’ Homes division provides comprehensive, high-quality health care services on a cost-effective basis to eligible Florida veterans who are in need of assisted living or skilled long-term nursing home care. The State Domiciliary Home provides shelter, sustenance, and incidental medical care on an ambulatory self-care basis to assist eligible veterans who are disabled by age or disease, but who are not in need of hospitalization or skilled nursing home services. The Domiciliary is intended for eligible Florida residents who can attend to their personal needs, dress unattended, and use a general dining facility, or who are in need of extended congregate care, which provides more assistance to residents. The Domiciliary is located in Lake City and is licensed for 149 beds. The State Veterans Nursing Homes (SVNH) provide full-service long-term residential care that includes supervision 24 hours daily by registered and licensed nurses. Nursing home staff prepare a care plan for each resident, which includes medical, social, dietary services, and therapeutic and recreational programs. The program operates five licensed 120-bed nursing homes: Emory L. Bennett SVNH in Daytona Beach; Baldomero Lopez SVNH in Land O'Lakes; Alexander "Sandy" Nininger SVNH in Pembroke Pines; Clifford Chester Sims SVNH in Panama City; Douglas T. Jacobson SVNH in Port Charlotte; and Clyde E. Lassen SVNH in St. Augustine. The construction of a seventh 120-bed nursing home in Port St. Lucie began in Fiscal Year 2014-2015.

2  Budget Entity/Service: Executive Direction & Support Services

Executive Direction and Support Services provides leadership and administrative support to the Benefits and Assistance, Veterans Homes, and Veterans Employment and Training Services Program Divisions. Executive Direction and Support comprises the Director's Office, accounting, administration, budget, Homes billing, communications, general counsel, internal audit, legislative and cabinet affairs, information technology, personnel, purchasing, staff development, and training. Executive Direction and Support is responsible for setting policy; preparation, administration, and monitoring of the Agency's Legislative Budget Request and any legislative proposals; providing central support services in the billing, collection, and proper identification of revenues, disbursement of payroll, payment of vendor invoices and reimbursements to departmental employees and non employees for travel expenses; administering a comprehensive personnel program including recruitment, employment, classification and pay, attendance and leave, grievances and appeals, labor relations, workers' compensation claims, personnel records, payroll changes and employment benefits; purchasing responsibilities including solicitation, evaluation and awarding Invitations to Bid/Requests for Proposals, and the issuance of purchase orders for both commodities and contractual services; maintenance of property records, storage and record keeping of property, and purchasing card issuance; and providing public records upon request.
3 Budget Entity/Service: Veterans' Benefits and Assistance

Veterans' Benefits and Assistance assists Florida's veterans, their families and survivors to improve their health and economic well being through quality benefit information, advocacy and education. The Division accomplishes its purpose through three Bureaus: 1) the Bureau of Claim Services which provides counseling services and assistance to veterans, their dependents and survivors with the preparation, submission and prosecution of claims and appeals for state and federal entitlements, as well as application to correct military records; 2) the Bureau of Field Services which provides counseling and benefits assistance to all inpatients and outpatients at 16 VA Medical facilities, State Veterans Nursing Homes and Domiciliary and conducts outreach activities throughout the state; 3) the Bureau of State Approving Agency which provides school and program approval services to Florida educational institutions and monitors these institutions to ensure continued compliance with federal and state regulatory requirements governing administration of the GI Bill.

4 Budget Entity/Service: Veterans' Employment and Training Services

Veterans' Employment and Training Services supports the staffing and operational costs of the Florida Is for Veterans, Inc., a not-for-profit corporation established by the Florida G.I. Bill in the 2014 Legislative Session (s. 295.21, F.S.). Florida Is For Veterans, Inc., was created to strengthen Florida’s standing as a veteran-friendly state to retired and recently separated military personnel by expanding veterans’ education and career development opportunities. The corporation is administratively housed at the Florida Department of Veteran Affairs and is governed by a 9-member board, each serving a 4-year appointment. The corporation is responsible for promoting the value of military skill sets to businesses in Florida, assisting in training veterans to meet the needs of employers, and enhancing veterans’ entrepreneurial skills.

Florida Is For Veterans, Inc., administers the Veterans Employment and Training Services (VETS) Program, a workforce training program that caters to the specific training needs of veterans. The VETS program will serve as a hub where employers can be connected with veterans looking for jobs. The program will assist veterans with skills assessments, skill gap analysis, the translation of military skills and experience into civilian workforce skills, résumé building, and helping veterans learn about academic and/or industry certifications. The VETS program will assist Florida businesses recruit and hire veterans and the program will administer a grant program to veterans to assist them in obtaining the workforce skills of businesses seeking to hire veterans.
