COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 748 authorizes a physician assistant (PA) to perform services delegated by a supervising physician related to the PA’s practice in accordance with his or her education and training unless expressly prohibited under ch. 458, ch. 459, F.S., or by rules adopted under the allopathic and osteopathic medical practice acts.

The bill creates a definition of “designated supervising physician,” which means a physician designated by a facility or practice to be the primary contact and supervising physician for the PAs in a practice where PAs are supervised by multiple supervising physicians.

The bill streamlines a PA’s reporting requirements to the Department of Health (DOH) with respect to multiple supervising physicians.

The bill also clarifies that a PA, with delegated prescribing authority, may use prescriptions in both paper and electronic form. The bill deletes obsolete provisions relating to PA examinations by the DOH in favor of national proficiency examinations. The bill streamlines the PA licensure and application process by eliminating the requirement for letters of recommendation and substituting acknowledgments for sworn statements that required notarization.

The bill’s potential fiscal impacts on state government are indeterminate but are likely minimal.
The effective date of the bill is July 1, 2016.

II. Present Situation:

Supervision of Physician Assistants

Chapter 458, F.S., sets forth the provisions for the regulation of the practice of allopathic medicine by the Board of Medicine (BOM). Chapter 459, F.S., sets forth the provisions for the regulation of the practice of osteopathic medicine by the Board of Osteopathic Medicine (BOOM). Physician assistants (PAs) are regulated by both boards. Licensure of PAs is overseen jointly by the boards through the Council on Physician Assistants.¹

PAs are trained and required by statute to work under the supervision and control of allopathic physicians or osteopathic physicians.² The BOM and the BOOM have adopted rules that set out the general principles a supervising physician must use in developing the scope of practice of the PA under both direct³ and indirect⁴ supervision. These principles are required to recognize the diversity of both specialty and practice settings in which PAs are used.⁵

A supervising physician’s decision to permit a PA to perform a task or procedure under direct or indirect supervision must be based on reasonable medical judgment regarding the probability of morbidity and mortality to the patient. The supervising physician must be certain that the PA is knowledgeable and skilled in performing the tasks and procedures assigned.⁶ Each physician or group of physicians supervising a licensed PA must be qualified in the medical areas in which the PA is to perform and must be individually or collectively responsible and liable for the performance and the acts and omissions of the PA.⁷

The following duties are not permitted to be performed by a PA under indirect supervision:

- Routine insertion of chest tubes and removal of pacer wires or left atrial monitoring lines;
- Performance of a cardiac stress testing;
- Routine insertion of central venous catheters;
- Injection of intrathecal⁸ medication without prior approval of the supervising physician;
- Interpretation of laboratory tests, X-ray studies and EKG’s without the supervising physician’s interpretation and final review;

¹ The council consists of three physicians who are members of the Board of Medicine; one physician who is a member of the Board of Osteopathic Medicine; and a PA appointed by the State Surgeon General. (See ss. 458.347(9) and 459.022(9), F.S.)
² Sections 458.347(4) and 459.022(4), F.S.
³ “Direct supervision” requires the physician to be on the premises and immediately available. (See Rules 64B8-30.001(4) and 64B15-6.001(4), F.A.C.)
⁴ “Indirect supervision” refers to the easy availability of the supervising physician to the PA, which includes the ability to communicate by telecommunications, and requires the physician to be within reasonable physical proximity. (See Rules 64B8-30.001(5) and 64B15-6.001(5), F.A.C.)
⁵ Sections 458.347(4)(a) and 459.002(4)(a), F.S.
⁶ Rules 64B8-30.012(2) and 64B15-6.010(2), F.A.C.
⁷ Sections 458.347(3) and 459.022(3), F.S.
• Administration of general, spinal, or epidural anesthetics; and then only by physician assistants who graduated from Board-approved programs for the education of anesthesiology assistants.\(^9\)

Current law allows a supervising physician to delegate to a licensed PA the authority to prescribe or dispense any medication used in the physician’s practice, except controlled substances, general anesthetics, and radiographic contrast materials.\(^{10}\)

Licensure of a PA requires that the PA:
• Is at least 18 years of age;
• Has graduated from an BOM- or BOOM-approved PA program\(^{11}\) or its equivalent, or meets standards approved by the boards;
• Has passed a proficiency examination with an acceptable score established by the National Commission on Certification of Physician Assistants (NCCPA);
• Has completed the DOH application form\(^{12}\) and remitted an application fee; and
• Has passed a criminal background check.

The PA application form requires, among other things, two letters of recommendation and sworn statements that require notarization, pertaining to prior felony convictions and any previous revocation or denial of licensure or certification in any state.

Renewal of a PA’s license is biennial and contingent upon completion of certain continuing medical education requirements. A PA with delegated prescribing authority must submit a signed affidavit that he or she has completed a minimum of 10 continuing medical education hours in the specialty practice in which the PA has prescriptive privileges.\(^{13}\)

Section 458.347(7)(b), F.S., contains obsolete provisions relating to PA examinations by the DOH. The DOH no longer administers a PA examination for licensure because s. 456.017(1)(c)2., F.S., prohibits a board or department to use state-developed written examinations if a national examination has been certified by the department. The current provision regarding foreign medical school trained unlicensed physicians who had not previously taken, or who had failed the NCCPA examination, but who had been certified by the BOM as

---

\(^9\) Rules 64B8-30.012 and 64B15-6.010, F.A.C.

\(^{10}\) Sections 458.347(4)(e) and (f)1. and 459.022(4)(e), F.S.

\(^{11}\) The DOH, BOM and BOOM have delegated their responsibility to approve PA programs to the NCCPA who used the Accreditation Review Commission on Education for the Physician Assistant (ARC-PA) to accredit PA schools. The ARC-PA defines the standards for PA education and evaluating PA educational programs in the United States to ensure their compliance with those standards. The ARC-PA is an independent accrediting body and accredited programs located in institutions offering, associate, baccalaureate or master’s degrees in conjunction with the PA credential awarded. See Accreditation Review Commission on Education for the Physician Assistants, Inc., available at [http://www.arc-pa.com/about/index.html](http://www.arc-pa.com/about/index.html) (last visited Nov. 6, 2015).

\(^{12}\) The DOH PA licensure application must include: a certificate of completion of a specified physician assistant training program; a sworn statement of any prior felony convictions; a sworn statement of any previous revocation or denial of licensure or certification in any state; two letters of recommendation; and a copy of course transcripts and a copy of the course description from the physician assistant’s training program describing course content in pharmacotherapy, if the applicant wishes to apply for prescribing authority. These documents must meet the evidence requirements for prescribing authority. See s. 458.347(7)(a)3., F.S.

\(^{13}\) Sections 458.347(4)(e)3. and 459.022(4)(e)3., F.S.
having met the requirements for licensure as a medical doctor by examination, was only available from July 1, 1990 through June 30, 1991. A temporary PA license was authorized and was valid until the receipt of passing scores from the examination of the NCCPA. Furthermore, because there is no department administered examination, the timetable for notice and administration of a department administered examination is now obsolete.\(^\text{14}\)

All licensed PAs, as a condition of practice, must also, upon employment or any subsequent change of employment, notify the DOH in writing,\(^\text{15}\) within 30 days, with the following:

- Complete mailing address of all current practice locations; and
- The names and license numbers of all supervising physicians, the specialties of supervising physicians, and the date or dates supervision began.\(^\text{16}\)

Additionally, any subsequent change in the supervising physician must be communicated in writing to the DOH within 30 days after the change.

Board rules\(^\text{17}\) define a primary supervising physician as a physician licensed pursuant to ch. 458 or ch. 459, F.S., who assumes responsibility and legal liability for the services rendered by the PA at all times and the PA is not under the supervision and control of an alternate supervising physician. An alternate supervising physician is defined as physician(s) licensed pursuant to ch. 458 or ch. 459, F.S., who assume responsibility and legal liability for the services rendered by the PA while the PA is under his or her supervision and control. A physician may not supervise more than four licensed physician assistants at any one time.\(^\text{18}\)

Section 458.347(4)(e)5., F.S., and s. 459.022(4)(e)5., F.S., dealing with delegated prescribing authority, allow for the use of prescriptions in written form only.

### III. Effect of Proposed Changes:

CS/SB 748 amends the virtually identical provisions relating to physician assistants (PAs) in both the Medical Practice Act, ch.458, F.S., and the Osteopathic Medical Practice Act, ch. 459, F.S.

**Affirmative Delegation Authority**

The bill authorizes a PA to perform services delegated by the supervising physician in the PA’s practice in accordance with his or her education and training unless expressly prohibited under ch. 458, F.S., ch. 459, F.S., or by rules adopted under either chapter.

\(^{14}\) See the Florida Dep’t of Health, *House Bill 375 Analysis*, p. 3 (Oct. 27, 2015) (on file with the Senate Committee on Health Policy).

\(^{16}\) Sections 458.347(7)(e) and 459.022(7)(d), F.S., and Rules 64B15-6.003 and 64B8-30.003, F.A.C.

\(^{17}\) Rules 64B8-30.001 and 64B15-6.001, F.A.C.

\(^{18}\) Sections 458.347(3) and 459.022(3), F.S.
Designated Supervising Physician

The bill amends s. 458.347(4)(e)5, F.S., and s. 459.002(4)(e)5, F.S., to create and define a new type of supervising physician for PAs, the “designated supervising physician.” The bill gives a PA a choice of whether to report his or her supervising physician(s) or the designated supervising physician for employment by a facility or practice. If the PA chooses the option of reporting only the designated supervising physician, a PA would no longer be required to report changes in physicians who actually supervise the PA in a facility or practice within 30 days of the changes. Any changes to the designated supervising physicians must be reported to the DOH within 30 days of the change.

Current law limits the number of PAs a physician my supervise at one time to four. Under the bill, in order for the DOH to obtain that information, the DOH is required to make a written request to the facility’s or practice’s designated supervising physician for a list which must contain the names of all supervising physicians along with each supervising physician’s practice area and be up-to-date with respect to additions and terminations of physicians. It does not require the designated supervising physician to include in the list which physicians supervised which PAs at which facility or location on a daily basis. There are also no sanctions in the bill for not maintaining the list, not keeping it up-to-date, or not providing it to the DOH in a timely manner. General disciplinary provisions in s. 458.072, F.S., and s. 459.015, F.S., however, might be applicable.

Form of Prescription

The bill amends s. 458.347(4)(e)5, F.S., and s. 459.022(4)(e)5, F.S., to clarify that a PA, with delegated prescribing authority, may use prescriptions in both paper and electronic form. The prescription must comply with provisions in s. 456.0392(1), F.S., s. 456.42(1), F.S., and ch. 499, which require identification of the PA, i.e., name and prescriber number, and other essential elements for dispensing such as name and address of the patient, name and strength of the drug, quantity prescribed, directions for use, date prescribed, and the prescriber’s signature.

Licensure Efficiencies

The bill amends s. 458.347(7)(a), F.S., and s.459.022(7)(a), F.S., to streamline and simplify the PA licensure and application process by eliminating the requirement for two letters of recommendation and substituting acknowledgments for sworn statements that required notarization pertaining to continuing medical education, prior felony convictions, and certain regulatory actions for licensure or certification in any state.

The bill deletes obsolete provisions relating to PA examinations by the DOH in favor of national proficiency examinations. This language appears only in the Medical Practice Act in s. 458.347(7)(b), F.S.

---

19 Section 458.347(3), F.S.
20 Section 459.022(3), F.S.
Effective Date

The effective date of the bill is July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:
   None.

B. Public Records/Open Meetings Issues:
   None.

C. Trust Funds Restrictions:
   None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:
   None.

B. Private Sector Impact:

   Applicants for licensure as a PA, and PAs renewing their licenses, will experience reduced costs and time savings due to the administrative efficiencies.

   Physician Assistants may also avoid disciplinary action for missing the filing deadlines, whether intentionally or unintentionally, when changes in supervising physicians occur.

C. Government Sector Impact:

   The Department of Health and medical boards may experience fewer investigations and probable cause hearings with fewer complaints relating to PAs missing filing deadlines associated with changes in supervising physicians, which could lead to some level of cost savings. However, additional efforts may be required to monitor responsibilities of the designated supervising physician. Any resulting fiscal impacts, if any, are indeterminate at this time but are likely minimal.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.
VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 458.347 and 459.022.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
   (Summarizing differences between the Committee Substitute and the prior version of the bill.)

   **CS by Health Policy on December 1, 2015:**
   Provides that a PA may perform services that are delegated by the supervising physician in accordance with his or her education and training, unless expressly prohibited by law; provides that prescriptions may be in paper or electronic form; reinstates the requirement that prescriptions comply with ch. 499, F.S.; and removes the provision for designated supervising physicians to be “approved.”

B. Amendments.

   None.

This Senate Bill Analysis does not reflect the intent or official position of the bill’s introducer or the Florida Senate.
Appropriations Subcommittee on Health and Human Services (Bean) recommended the following:

**Senate Amendment (with title amendment)**

Delete lines 236 - 241

and insert:

3. The designated supervising physician shall maintain a list including the name of each supervising physician, his or her practice area, and the name of each physician assistant. The list must be kept current with respect to additions and terminations of both supervising physicians and physician assistants; and must include a daily record identifying the
supervising physician that is supervising each physician assistant. The list must be provided, in a timely manner, to the department upon written request. Failure of the designated supervising physician to comply with this subparagraph is a violation of ss. 456.072(1)(dd) and 458.331(g), F.S.

4. The department shall adopt rules to periodically obtain and review the designated supervising physician lists required under this section.

Delete lines 383 - 388

and insert:

3. The designated supervising physician shall maintain a list including the name of each supervising physician, his or her practice area, and the name of each physician assistant. By the Committee on Health Policy; and Senator Flores

An act relating to physician assistants; amending s. 458.347, F.S.; revising circumstances under which a physician assistant may prescribe medication; authorizing a licensed physician assistant to perform certain services as delegated by a supervising physician; revising physician assistant licensure and license renewal requirements; removing a requirement for letters of recommendation; defining the term "designated supervising physician"; requiring licensed physician assistants to report any changes in the designated supervising physician within a specified time; requiring a designated supervising physician to maintain a list of supervising physicians at the practice or facility; amending s. 459.022, F.S.; revising circumstances under which a physician assistant may prescribe medication; authorizing a licensed physician assistant to perform certain services as delegated by a supervising physician; revising physician assistant licensure and license renewal requirements; removing a requirement for letters of recommendation; defining the term "designated supervising physician"; requiring licensed physician assistants to report any changes in the designated supervising physician within a specified time; requiring a designated supervising physician to maintain a list of supervising physicians at the practice or facility; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (e) of subsection (4) of section 458.347, Florida Statutes, is amended, paragraph (h) is added to that subsection, paragraphs (c) through (h) of subsection (7) are redesignated as paragraphs (b) through (g), respectively, and present paragraphs (a), (b), (c), (e), and (f) of that subsection are amended, to read:

458.347 Physician assistants.—

(4) PERFORMANCE OF PHYSICIAN ASSISTANTS.—

(e) A supervising supervisory physician may delegate to a fully licensed physician assistant the authority to prescribe or dispense any medication used in the physician’s practice unless such medication is listed on the formulary created pursuant to paragraph (f). A fully licensed physician assistant may only prescribe or dispense such medication under the following circumstances:

1. A physician assistant must clearly identify to the patient that he or she is a physician assistant. Furthermore, the physician assistant must inform the patient that the patient has the right to see the physician before authorizing any prescription in being prescribed or dispensed by the physician assistant.

2. The supervising supervisory physician must notify the department of his or her intent to delegate, on a department-approved form, before delegating such authority and notify the department of any change in prescriptive privileges of the physician assistant. Authority to dispense may be delegated only
3. The physician assistant must acknowledge with a signed affidavit that he or she has completed a minimum of 10 continuing medical education hours in the specialty practice in which the physician assistant has prescriptive privileges with each licensure renewal application.

4. The department may issue a prescriber number to the physician assistant granting authority for the prescribing of medicinal drugs authorized within this paragraph upon completion of the foregoing requirements. The physician assistant shall not be required to independently register pursuant to s. 465.0276.

5. The prescription may be written in paper or electronic form but must comply with ss. 456.0392(1) and 456.42(1) and chapter 499 and must contain, in addition to the supervising physician’s name, address, and telephone number, the physician assistant’s prescriber number. Unless it is a drug or drug sample dispensed by the physician assistant, the prescription must be filled in a pharmacy permitted under chapter 465 and must be dispensed in that pharmacy by a pharmacist licensed under chapter 465. The appearance of the prescriber number creates a presumption that the physician assistant is authorized to prescribe the medicinal drug and the prescription is valid.

6. The physician assistant must note the prescription or dispensing of medication in the appropriate medical record.

(h) A licensed physician assistant may perform services delegated by the supervising physician in the physician assistant’s practice in accordance with his or her education and training unless expressly prohibited under this chapter, chapter 459, or rules adopted under this chapter or chapter 459.

7. Physician Assistant Licensure.—

(a) Any person desiring to be licensed as a physician assistant must apply to the department. The department shall issue a license to any person certified by the council as having met the following requirements:

1. Is at least 18 years of age.
2. Has satisfactorily passed a proficiency examination by an acceptable score established by the National Commission on Certification of Physician Assistants. If an applicant does not hold a current certificate issued by the National Commission on Certification of Physician Assistants and has not actively practiced as a physician assistant within the immediately preceding 4 years, the applicant must retake and successfully complete the entry-level examination of the National Commission on Certification of Physician Assistants to be eligible for licensure.

3. Has completed the application form and remitted an application fee not to exceed $300 as set by the boards. An application for licensure made by a physician assistant must include:

a. A certificate of completion of a physician assistant training program specified in subsection (6).

b. Acknowledgment of a sworn statement of any prior felony convictions.

c. Acknowledgment of a sworn statement of any previous revocation or denial of licensure or certification in any state.

d. Two letters of recommendation.
A copy of course transcripts and a copy of the course description from a physician assistant training program describing course content in pharmacotherapy, if the applicant wishes to apply for prescribing authority. These documents must meet the evidence requirements for prescribing authority.

(b) Notwithstanding subparagraph (a)2. and subparagraph (a)3.a., the department shall examine each applicant who the Board of Medicine certifies:

1. Has completed the application form and remitted a nonrefundable application fee not to exceed $500 and an examination fee not to exceed $300, provided that the translation request is filed with the Board of Medicine no later than 2 months before the scheduled examination and the applicant remits translation fees as specified by the department no later than 6 months before the scheduled examination, and provided that the applicant demonstrates to the department the ability to communicate orally in basic English. If the applicant is unable to pay translation costs, the applicant may take the next available examination in English if the applicant submits a request in writing by the application deadline and if the applicant is otherwise eligible under this section. To demonstrate the ability to communicate orally in basic English, a passing score or grade is required, as determined by the department or organization that developed it, on the test for spoken English (TSE) by the Educational Testing Service (ETS), the test of English as a foreign language (TOEFL) by ETS, a high school or college-level English course, or the English examination for citizenship, Bureau of Citizenship and Immigration Services. A notarized copy of an Educational Commission for Foreign Medical Graduates (ECFMG) certificate may also be used to demonstrate the ability to communicate in basic English.

2. Is an unlicensed physician who graduated from a foreign medical school listed with the World Health Organization who has not previously taken and failed the examination of the National Commission on Certification of Physician Assistants and who has been certified by the Board of Medicine certifying under s. 458.311 or hold a valid, active certificate issued by the Board of Medicine certifying under s. 458.311(1), (3), (4), and (5), with the exception that the applicant is not required to have completed an approved residency of at least 1 year and the applicant is not required to have passed the licensing examination specified under s. 458.311 or hold a valid, active certificate issued by the Educational Commission for Foreign Medical Graduates. The applicant shall be eligible and made initial application for certification as a physician assistant in this state between July 1, 1990, and June 30, 1992, and was a resident of this state on July 1, 1990, as was licensed or certified in any state in the United States as a physician assistant on July 1, 1990.
2. The department may grant temporary licensure to an applicant who meets the requirements of subparagraph 1. Between meetings of the council, the department may grant temporary licensure to practice based on the completion of all temporary licensure requirements. All such administratively issued licenses shall be reviewed and acted on at the next regular meeting of the council. A temporary license expires 30 days after receipt and notice of score to the licenseholder from the first available examination specified in subparagraph 1. following licensure by the department. Applicant who fails the proficiency examination is no longer temporarily licensed, but may apply for a one-time extension of temporary licensure after reapplying for the next available examination. Extended licensure shall expire upon failure of the licenseholder to sit for the next available examination or upon receipt and notice of score to the licenseholder from such examination.

3. Notwithstanding any other provision of law, the examination specified pursuant to subparagraph 1. shall be administered by the department only five times. Applicants certified by the board for examination shall receive at least 6 months’ notice of eligibility prior to the administration of the initial examination. Subsequent examinations shall be administered at 1-year intervals following the reporting of the scores of the first and subsequent examinations. For the purposes of this paragraph, the department may develop, contract for the development of, purchase, or approve an examination that adequately measures an applicant’s ability to practice with reasonable skill and safety. The minimum passing score on the examination shall be established by the department, with the skill and safety. The minimum passing score on the examination shall be established by the department, with the physician assistant with all rights defined thereby.

The license must be renewed biennially. Each renewal must include:

1. A renewal fee not to exceed $500 as set by the boards.
2. A sworn statement of no felony convictions in the previous 2 years.

(d) Upon employment as a physician assistant, a licensed physician assistant must notify the department in writing within 30 days after such employment or after any subsequent change in the supervising physician or the designated supervising physician. The notification must include the full name, Florida medical license number, specialty, and address of the supervising physician or the designated supervising physician. For purposes of this paragraph, the term “designated supervising physician” means a physician designated by the facility or practice to be the primary contact and supervising physician for the physician assistants in a practice where physician assistants are supervised by multiple supervising physicians.

2. A licensed physician assistant shall notify the department of any subsequent change in the designated supervising physician within 30 days after the change. Assignment of a designated supervising physician does not

Section 2. Paragraph (e) of subsection (4) of section 459.022, Florida Statutes, is amended, paragraph (g) is added to that subsection, and paragraphs (a), (b), and (d) of subsection (7) of that section are amended, to read:

(4) PERFORMANCE OF PHYSICIAN ASSISTANTS.—

(e) A supervising physician may delegate to a fully licensed physician assistant the authority to prescribe or dispense any medication used in the supervising physician’s practice unless such medication is listed on the formulary created pursuant to s. 458.347. A fully licensed physician assistant may only prescribe or dispense such medication under the following circumstances:

1. A physician assistant must clearly identify to the patient that she or he is a physician assistant. Furthermore, the physician assistant must inform the patient that the patient has the right to see the physician before taking any prescription that has been prescribed or dispensed by the physician assistant.
2. The supervising physician must notify the department of her or his intent to delegate, on a department-approved form, before delegating such authority and notify the department of any change in prescriptive privileges of the physician assistant. Authority to dispense may be delegated only by a supervising physician who is registered as a dispensing practitioner in compliance with s. 465.0276.

3. The physician assistant must acknowledge with file with the department a signed affidavit that she or he has completed a minimum of 10 continuing medical education hours in the specialty practice in which the physician assistant has prescriptive privileges with each licensure renewal application.

4. The department may issue a prescriber number to the physician assistant granting authority for the prescribing of medicinal drugs authorized within this paragraph upon completion of the foregoing requirements. The physician assistant shall not be required to independently register pursuant to s. 465.0276.

5. The prescription may be written in paper or electronic form but must comply that complies with ss. 456.0392(1) and 456.42(1) and chapter 499 and must contain, in addition to the supervising physician’s name, address, and telephone number, the physician assistant’s prescriber number. Unless it is a drug or drug sample dispensed by the physician assistant, the prescription must be filled in a pharmacy permitted under chapter 465, and must be dispensed in that pharmacy by a pharmacist licensed under chapter 465. The appearance of the prescriber number creates a presumption that the physician assistant is authorized to prescribe the medicinal drug and the prescription is valid.

CODING: Words underlined are additions; words stricken are deletions.
b. Acknowledgment of any prior felony convictions.

c. Acknowledgment of any previous revocation or denial of licensure or certification in any state.

d. Two letters of recommendation.

   A copy of course transcripts and a copy of the course description from a physician assistant training program describing course content in pharmacotherapy, if the applicant wishes to apply for prescribing authority. These documents must meet the evidence requirements for prescribing authority.

(b) The licensure must be renewed biennially. Each renewal must include:

   1. A renewal fee not to exceed $500 as set by the boards.

   2. Acknowledgment of no felony convictions in the previous 2 years.

   (d)(1) Upon employment as a physician assistant, a licensed physician assistant must notify the department in writing within 30 days after such employment or after any subsequent changes in the supervising physician or the designated supervising physician. The notification must include the full name, Florida medical license number, specialty, and address of the supervising physician or the designated supervising physician.

For purposes of this paragraph, the term “designated supervising physician” means a physician designated by the facility or practice to be the primary contact and supervising physician for the physician assistants in a practice where physician assistants are supervised by multiple supervising physicians.

   2. A licensed physician assistant shall notify the department of any subsequent change in the designated supervisor within 30 days after the change.

Assignment of a designated supervising physician does not preclude a physician assistant from practicing under the supervision of a physician other than the designated supervising physician.

3. The designated supervising physician shall maintain a list of all supervising physicians at the practice or facility. Such list must include the name of each supervising physician and his or her area of practice, must be kept up to date with respect to additions and terminations, and must be provided, in a timely manner, to the department upon written request.

Section 3. This act shall take effect July 1, 2016.
To: Senator Rene Garcia, Chair
   Appropriations Subcommittee on Health and Human Services

Subject: Committee Agenda Request

Date: December 1, 2015

I respectfully request that Senate Bill #7018, relating to Child Welfare, be placed on the:

☐ committee agenda at your earliest possible convenience.
☒ next committee agenda.

Senator Nancy C. Detert
Florida Senate, District 28
December 11, 2015

Senator Rene Garcia  
Chair of Appropriations Subcommittee on Health and Human Services  
310 Senate Office Building  
404 South Monroe Street  
Tallahassee, Florida 32399

Dear Chair Garcia,

This letter is to request that SB 7018, relating to Child Welfare, be placed on the agenda of the next scheduled meeting of the Appropriations Subcommittee on Health and Human Services. SB 7018 extends court jurisdiction to age 22 for young adults with disabilities in foster care; provides conditions under which a child may be returned home with an in-home safety plan; requires specified intervention services and supports; requires every child placed in out-of-home care to be referred within a certain time for a comprehensive behavioral health assessment, and requires lead agencies to ensure the availability of a full array of family support services.

Thank you for your consideration of this request.

Respectfully,

Eleanor Sobel  
State Senator, 33rd District

Cc: Scarlet Pigott, Robin Jackson, Miguel Abad, Chastity Acosta
The Florida Senate

While it is a Senate tradition to encourage public testimony, time may not permit all persons wishing to speak to be heard at this meeting. Those who do speak may be asked to limit their remarks so that as many persons as possible can be heard.

This form is part of the public record for this meeting.

S-001 (10/14/14)
I. Summary:

SB 7018 revises the state’s approach to out-of-home placement services for children living in foster care. Among the revisions, the bill:

- Requires a two-pronged assessment process to determine the service and support needs, as well as the appropriate placement for each child who enters the foster care system;
- Requires the Department of Children and Families to develop a continuum of care that provides appropriate services based on the level of care for both foster home and group home placements; and
- Requires data collection on every aspect of the assessment, placement, and service provision process for children in foster care.

The bill also requires community-based care lead agencies\(^1\) to have available a full array of services, including intervention services, to help keep children from coming into foster care and requires more accountability for the outcomes of services delivered. Once a child enters the child welfare system, however, the bill requires the child to be assessed through a standardized assessment process to determine the appropriate placement. Finally, the bill repeals a number of residential group home statutes that are rendered obsolete under the bill.

The bill’s fiscal impact on state government is indeterminate.

The bill has an effective date of July 1, 2016.

---

\(^1\) A community-based care lead agency is a single entity with which the Department of Children and Families has a contract for the provision of care for children in the child protection and child welfare system in a community that is no smaller than a county and no larger than two contiguous judicial circuits. See part V, ch. 409, F.S.
II. Present Situation:

State Trends in Child Welfare

Many states are seeking to reduce the use of residential group homes for children in foster care. This shift reflects a growing consensus within the child-welfare field that group home settings for foster children, while sometimes necessary, should be used sparingly. To lower the number of group care placements, states have two main options: provide more preventive support for unsafe families; and recruiting more people, including relatives and non-relatives with whom children have a strong emotional relationship, to serve as foster parents.

Research shows an association between frequent placement disruptions and outcomes that are adverse to the child, including poor academic performance and social or emotional adjustment difficulties such as aggression, withdrawal, and poor social interaction with peers and teachers. Despite this evidence, there has been limited intervention by child welfare systems to reduce placement instability as a mechanism for improving outcomes for children.

Placement Options for Children in Out-of-Home Care

Federal law has long supported the belief that children should grow up in families whenever possible. The Adoption Assistance and Child Welfare Act of 1980 codified the concept that children should be cared for in their own homes whenever it is possible to do so safely and in new permanent homes when it is not. To preserve the well-being of children who enter the system, out-of-home placements must be in the least restrictive setting possible that is most like a family. Florida has likewise codified the concept of least restrictive setting.

The federal Adoption and Safe Families Act of 1997 (ASFA) was considered the most significant piece of legislation addressing child welfare since the enactment of the Adoption Assistance and Child Welfare Act 17 years earlier. The legislation was enacted as a response to increasing concerns voiced around the nation that child welfare systems were not providing for the safety, well-being, and permanent placement of children in a timely and adequate manner. The ASFA sought to focus on child safety when making case decisions and make certain that children did not languish or grow up in foster care but were instead connected with permanent families. Florida was one of the first states to enact the provisions of the ASFA.

Placement with Relatives or Kinship Care

A substantial amount of research acknowledges that children in the care of relatives, or what is often referred to as “kinship care,” are less likely to change placements and benefit from increased placement stability, as compared to children placed in general foster care. Most child welfare systems strive to place children in stable conditions without multiple living arrangement changes because it has consistently demonstrated a better result for all children living in out-of-

---

5 Chapter 98-403, Laws of Fla.
home care. As opposed to children living in foster care, children living in kinship care are more likely to remain in their own neighborhoods, be placed with their siblings, and have more consistent interactions with their birth parents than do children who are placed in foster care, all of which might contribute to less disruptive transitions into out-of-home care.\(^6\)

Among the appropriate placement options for children who could not be reunified with their parents, the ASFA included placement with relatives, legal guardians, or another planned permanent-living arrangement. Even though the ASFA encouraged states to seek fit and willing relatives as permanent family options, it did not offer ongoing financial assistance for relatives who were foster parents caring for children as their guardians outside of foster care.\(^7\) The ASFA provided incentives to encourage the movement of children to adoptive families, but did not provide similar fiscal incentives that would help children leave care to live permanently with legal guardians or relatives who were not adopting them.\(^8\)

Additional provisions of the ASFA created challenges for placing a child with a fit and willing relative. In particular, ASFA regulations require that foster homes of relatives be licensed in the same manner as foster homes for children in non-relative placements, with few case-specific exceptions.\(^9\)

More recent federal legislation, the 2008 Fostering Connections to Success and Increasing Adoptions Act (Fostering Connections Act, or FCA), makes this requirement a bit less restrictive by allowing states to waive non-safety related licensing standards for relative homes on a case-by-case basis. The FCA also supports states in providing financial subsidies to kinship legal guardianship placement as long as certain conditions have been met. Florida has not implemented the provisions of the FCA related to relative guardianship.\(^10\)

Florida did, however, recognize the importance of relative placements by creating the Relative Caregiver Program in 1998 to provide financial assistance to eligible relatives caring for children who would otherwise be in the foster care system.\(^11\) In 2014 the program was expanded to include specified nonrelative caregivers.\(^12\)

According to the Department of Children and Families (DCF), as of September 30, 2015, Florida had 12,343 children receiving in-home services, 12,341 children who are in kinship foster care placements, and 10,029 children who are in licensed foster care placements.\(^13\)

---

\(^8\) While some relatives want to adopt, grandparents are often hesitant to do so. This is because it is necessary to first terminate their own children’s parental rights and because of their hope that their adult sons or daughters will one day be able to resume parenting.

\(^11\) Section 39.5085, F.S.

\(^12\) Chapter 2014-224, Laws of Florida.

**Family Foster Homes**

Family foster homes offer the next least-restrictive environment following kinship care for children who need out-of-home placements. For at least 15 years, Florida has not had enough family foster homes nor an adequate array of homes necessary to meet the variety of needs of children in out-of-home placements. In 2001, it was reported that “Florida’s foster care system was overwhelmed with many problems during the past several years as evidenced by lawsuits, grand jury investigations, and special investigations...”\(^{14}\)

In February 2001, the Office of Program Policy Analysis and Government Accountability (OPPAGA)\(^ {15}\) reported the following problems with Florida’s foster care system:

- The number of children admitted to foster care increased by 28.8 percent between June 1996 and June 2000;
- The DCF increased its foster home capacity by only five percent between fiscal year 1997-98 and 1998-99 even after receiving 70 new full-time equivalent positions from the 1999 Legislature solely for the purpose of recruiting new foster families; and
- The number of children needing care outpaced the number of foster homes, leaving many foster homes overcrowded.

Lawsuits also alleged numerous problems associated with the foster care system, including failure on the part of the state to develop an array of foster care settings to ensure a safe and secure placement for each foster child, particularly in respect to foster homes for teenagers.\(^ {16}\)

Florida responded to the lack of foster homes by enacting legislation in 2001 and 2002 to increase the utilization of residential group home placements until additional foster homes could be recruited.\(^ {17}\) The 2001 and 2002 provisions required that any dependent child 11 years of age or older who has been in licensed family foster care for six months or longer, who is then moved more than once and who is a child with extraordinary needs, must be assessed for placement in licensed residential group care. Additionally, funds were authorized to be used for one-time start-up funding for residential group care purposes that include, but are not limited to, remodeling or renovation of existing facilities, construction costs, leasing costs, purchase of equipment and furniture, site development, and other necessary and reasonable costs associated with the start-up of facilities or programs.\(^ {18}\)

However, while the 2001 and 2002 legislation was being considered by the Legislature, the DCF expressed concerns that the provisions of the proposed legislation were contrary to published

\(^{14}\) Information contained in this portion of this bill analysis is from the analysis for CS/CS/SB 1214 by the Senate Committee on Children and Families (March 29, 2001) available at: [http://archive.flsenate.gov/session/index.cfm?Mode=Bills&SubMenu=1&B1_Mode=ViewBillInfo&BillNum=1214&Year=2001&Chamber=Senate#Analysis](http://archive.flsenate.gov/session/index.cfm?Mode=Bills&SubMenu=1&B1_Mode=ViewBillInfo&BillNum=1214&Year=2001&Chamber=Senate#Analysis).

literature, contrary to guidance from the federal government, and contrary to the actions of other states that were moving away from group home care.\textsuperscript{19}

**Residential Group Care**

Residential group care as a placement option for children in the child welfare system has many forms and functions, including serving as a child placement option and as a treatment component of a child’s mental health system of care. The multiple roles of group care make an analysis of its effectiveness difficult and complex.\textsuperscript{20}

Some schools of thought contend that all residential group care has the potential to be harmful and should be eliminated. Others support the position that those placements can be beneficial for some children under certain circumstances. Still others support the wholesale use of residential group care as an alternative to the limited supply of family placements or dependence on family placements that could expose children to additional risks. However, both favorable and unfavorable claims about the effectiveness of residential group care and other options are often made without adequate supporting evidence.\textsuperscript{21}

There appears to be a growing consensus within the child welfare community that residential group home settings for children in out-of-home care are sometimes necessary but should be used sparingly and only for the length of time necessary to place the child in a less restrictive environment. Some states have been more successful than others in efforts to decrease reliance on group home care.\textsuperscript{22}

A number of child welfare organizations are supporting an overhaul of the federal funding system for child welfare. Their goal is to shift funding from residential group home settings to alternative placements such as family-based care. The Annie E. Casey Foundation and one of its partners, the Jim Casey Youth Opportunities Initiative, supports the proposal that federal reimbursement should be eliminated for shelters and group care for children under 13 years of age but should be allowed for older children’s group care but only for short periods of time when psychiatric treatment or other specialized care is needed.\textsuperscript{23}

Nationally, according to the Adoption and Foster Care Analysis and Reporting System (AFCARS) data, in 2014, 46 percent of all children in foster care lived in the foster family homes of non-relatives. Twenty-nine percent lived in family foster homes with relatives or in kinship care. Six percent lived in group homes, eight percent lived in institutions, four percent

\textsuperscript{23} Id.
lived in pre-adoptive families, and the remainder lived in other types of facilities. These statistics do not differ substantially from the distributions at the beginning of the decade, although there has been a small decrease of foster children living in group homes and institutions, and a corresponding increase of foster children in home care. In Florida during the 2013-14 fiscal year, 11 percent of children in foster care were in residential group care, and 83 percent of the children in group care were 11 years of age and older, compared to 17 percent of children in family care settings.

**Cost of Residential Group Home Care**

Residential group homes are one of the most expensive placement options for children in the child welfare system. The costs associated with institutional care far exceed the costs for foster care or treatment foster care. The difference in monthly costs are often six to 10 times higher than foster care. Because there is essentially no evidence that these additional costs yield better outcomes for foster children, according to at least one researcher, there is no justification for the cost benefit for group care, if other placement options are available.

In Florida, unlike rates for foster parents and relative caregivers, which are set in statute and in rule, community-based care lead agencies annually negotiate rates for residential group home placements with providers. According to a 2014 OPPAGA study, in the 2013-2014 fiscal year, the per diem rate for the shift-care group home model averaged $124, and costs ranged from $52 to $283. The per diem rate for a family group home model averaged $97, and costs ranged from $17 to $175. Family foster home care pays an average daily rate of $15. The cost of group home care in Florida for the 2013-14 fiscal year was $81.7 million.

### III. Effect of Proposed Changes:

**Section 1** amends s. 39.01, F.S., relating to definitions, to create a definition of the term “conditions for return” which applies when consideration is being given to the DCF returning a child.

**Section 2** amends s. 39.013, F.S., relating to procedures, jurisdiction, and right to counsel, to continue court jurisdiction until the age of 22 for young adults having a disability who choose to remain in extended foster care. This is consistent with the provisions of s. 39.6251, F.S.

**Section 3** amends s. 39.402, F.S., relating to placement in a shelter, to require that the court order for placement of a child in shelter contain a written finding that the placement proposed by the DCF is in the least restrictive and most family-like setting that meets the needs of the child, unless that type of placement is unavailable.

---

27 Supra at 20.

28 Supra at 26.

29 Id.
Section 4 amends s. 39.521, F.S., relating to disposition hearings, to require that a court order for disposition contain a written finding that the placement of the child is in the least restrictive and most family-like setting that meets the needs of the child, as determined by the required assessments.

Section 5 amends s. 39.522, F.S., relating to post-disposition change of custody, to change the standard for the court to return a child to the home from “substantially complied with the terms of the case plan” to whether the “circumstances that caused the out-of-home placement have been remedied” with an in-home safety plan in place.

Section 6 amends s. 39.6011, F.S., relating to the development of case plans, to rearrange and restructure the statutory section. The section now states the purpose of a case plan and requires documentation that a preplacement assessment of the service needs of the child and family, and preplacement preventive services, if appropriate, have been provided and that reasonable efforts to prevent out-of-home placement have been made. Under the bill, procedures for involving the child in the case planning process are revised and put in a separate subsection.

Section 7 amends s. 39.6012, F.S., relating to case plan requirements for services and tasks for parents and safety, permanency, and well-being for children, to rearrange and restructure the statutory section. The bill requires documentation in the case plan that the required placement assessments have been completed; that the child has been placed in the least restrictive, most family-like setting, or if not, the reason for the alternative placement; and that if the child has been placed in a residential group care setting, regular reviews and updates to the case plan must be completed.

The bill also requires that provisions in the case plan relating to visitation and contact of the child with his or her parents and/or siblings also apply to extended family members and fictive kin. The term “fictive kin” is defined as individuals that are unrelated to the child by either birth or marriage, but have an emotionally significant relationship with the child that would take on the characteristics of a family relationship.

Section 8 amends s. 39.6035, F.S., relating to the transition plan, to clarify that the transition plan must be approved by the court before the child’s 18th birthday.

Section 9 amends s. 39.621, F.S., relating to permanency determinations by the court, to add provisions relating to maintaining and strengthening the placement. These provisions are current law in s. 39.6011, F.S., and they are being relocated to s. 39.621, F.S.

Section 10 amends s. 39.701, F.S., relating to judicial review, to add a requirement to the social study report for judicial review to include documentation that the placement of the child is in the least restrictive, most family-like setting that meets the needs of the child as determined through assessment. The section also requires the court to order the DCF and the community-based care lead agency to file a written notification before a child changes placements, if possible. If the notification before changing placements is not possible, the notification must be filed immediately following a change. This flexibility would accommodate those cases when a child must be moved on short notice or after work hours.
**Section 11** creates s. 409.142, F.S., relating to intervention services for unsafe children, to provide legislative findings that intervention services and supports are designed to strengthen and support families in order to keep them safely together and to prevent children from entering foster care. The bill also states legislative intent for the DCF to identify evidence-based intervention programs that remedy child abuse and neglect, reduce the likelihood of foster care placement by supporting parents and relative or nonrelative caregivers, increase family reunification with parents or other relatives, and promote placement stability for children living with relatives or nonrelative caregivers. The section defines the term “intervention services and supports,” provides the types of intervention services that must be available for eligible individuals, provides eligibility for intervention services, and requires each community-based care lead agency to submit a monitoring plan to the DCF by October 1, 2016. Each community-based care lead agency must also submit an annual report to the DCF detailing specified collected data as part of the Results Oriented Accountability Program under s. 409.997, F.S. The DCF is also given rulemaking authority to adopt rules to administer this section.

**Section 12** creates s. 409.143, F.S., relating to assessment and determination of appropriate placements for children in care, and provides state legislative findings and intent relating to the assessment of children in order to determine the most appropriate placement for each child in out-of-home care. The bill defines the terms “child functioning level,” “comprehensive behavioral health assessment,” and “level of care.” The bill requires an initial placement assessment whenever a child has been determined to need an out-of-home placement and requires the DCF to document these initial assessments in the Florida Safe Families Network (FSFN) and update the case plan.

The bill requires procedures in s. 39.407, F.S., to be followed whenever a child is being placed in a residential treatment facility and prohibits placement decisions from being made by an individual or entity that has a conflict of interest with an agency being considered for placement.

The bill also requires a follow-up comprehensive behavioral health assessment to be completed for each child placed in out-of-home care; requires certain information to be included in the assessment; requires that the assessment be completed within 30 calendar days after the child enters out-of-home care; and requires the DCF to use the results of the comprehensive assessment to determine the child’s functioning level and the level of care needed by the child.

The bill requires the establishment of permanency teams by the DCF or the community-based care lead agencies to regularly convene a multi-disciplinary staffing every 180 days to review the appropriateness of the child’s placement and provides the contents of the review. An annual report must be submitted to the Governor, the President of the Senate, and the Speaker of the House of Representatives by October 1 of each year that includes specified data on child placements and services.

**Section 13** creates s. 409.144, F.S., relating to a continuum of care. The bill provides legislative findings and intent pertaining to the safety, permanency, and well-being of children in out-of-home care. The bill defines the terms “continuum of care,” “family foster care,” “level of care,” “out-of-home care,” and “residential group care.”
The bill requires the DCF, in collaboration with the Florida Institute for Child Welfare, the Quality Parenting Initiative, and the Florida Coalition for Children to develop a continuum of care for the placement of children in out-of-home care that includes both family foster care and residential group care by December 31, 2017. To implement the continuum, the DCF must:

- Establish levels of care that are clearly defined with the qualifying criteria for placement at each level identified;
- Revise licensure standards and rules to reflect the services and supports provided by a placement at each level of care and include the quality standards that must be met by licensed providers;
- Develop policies and procedures to ensure that placements are appropriate for each child as determined by the required assessments and staffing and last only long enough to resolve the issue that required the placement;
- Develop a plan to recruit, train, and retain specialized foster homes for pregnant and parenting teens that are designed to provide an out-of-home placement option that will enable them to live in the same foster family home while caring for the child and working towards independent care of the child; and
- Work with the Department of Juvenile Justice to develop specialized placements for children who are involved with both the dependency and the juvenile justice systems.

The bill requires an annual report by the DCF to the Governor, the President of the Senate, and the Speaker of the House of Representatives and specifies what the report must contain.

Section 14 amends s. 409.1451, F.S., relating to the Road-to-Independence Program, to create a process for making federal education and training vouchers available to a child or young adult in out-of-home care if he or she meets certain eligibility requirements. The bill provides that the DCF may adopt rules to implement the program which must include an appeals process.

Section 15 amends s. 409.988, F.S., relating to the duties of community-based care lead agencies. The bill requires lead agencies to ensure the availability of a full array of services necessary to meet the needs of all individuals within their local system of care. The bill also requires the DCF to report annually to the Governor, the President of the Senate, and the Speaker of the House of Representatives on the adequacy of the available service array by lead agency.

Section 16 amends s. 39.202, F.S., relating to the confidentiality of records and reports in cases of child abuse or neglect and to revise the designation of an agency.

Section 17 amends s. 39.302, F.S., relating to protective investigations of institutional child abuse, abandonment, or neglect, to correct a cross reference.

Section 18 amends s. 39.524, F.S., relating to safe-harbor placement, to correct a cross reference.

Section 19 amends s. 39.6013, F.S., relating to case plan amendments, to correct a cross reference.

Section 20 amends s. 394.495, F.S., relating to child adolescent mental health system of care, to correct a cross reference.
Section 21 amends s. 409.1678, F.S., relating to specialized residential options for children who are victims of sexual exploitation, to correct a cross reference.

Section 22 amends s. 960.065, F.S., relating to eligibility for awards, to correct a cross reference.

Section 23 amends s. 1002.3305, F.S., relating to the College-Preparatory Boarding Academy Pilot Program for at-risk students, to correct a cross reference.

Section 24 repeals s. 39.523, F.S., relating to placement in residential group care.

Section 25 repeals s. 409.141, F.S., relating to equitable reimbursement methodology for residential group home care.

Section 26 repeals s. 409.1676, F.S., relating to comprehensive residential group care services to children who have extraordinary needs.

Section 27 repeals s. 409.1677, F.S., relating to model comprehensive residential services programs.

Section 28 repeals, s. 409.1679, F.S., relating to additional requirements and reimbursement methodology for residential group care.

Section 29 provides an effective date of July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Most community-based care lead agencies make the determination to place a child in foster care. In some areas of the state, however, private, non-profit agencies under
contract with the community-based care lead agency determine placements of foster children. The bill prohibits an agency under contract with a community-based care lead agency from providing placement services while operating group homes. The bill does this to ensure there is no conflict of interest for the placement agency in recommending placements in group homes operated by that same agency. Under the requirements of this bill, some providers may have to choose between providing placement services and operating group homes.

C. Government Sector Impact:

To the extent the bill reduces the number of children in group home care and increases the number of children in foster homes, the bill would have a positive fiscal impact on the state. The average cost of group care with shift care workers is $124 per day per child, the average cost of group care with house parents is $97 per day per child, and the average cost of foster homes is $15 per day per child. The amount of such an impact is indeterminate.

The bill revises current practices in assessment and placement of children in foster care. To the extent that these new procedures are more costly than current practices, this aspect of the bill could have a negative fiscal impact on the state. The amount of such an impact is indeterminate.

The bill revises current court procedures in the case planning and placement of children in foster care. To the extent that these new procedures are more costly than current practices, this aspect of the bill could have a negative fiscal impact on the state. The amount of such an impact is indeterminate.

Finally, the bill authorizes education and training vouchers for certain children in foster care under certain circumstances. The fiscal impact of this change is indeterminate.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

59 circumstances; requiring every child placed in out-of-home care to be referred within a certain time for a
60 comprehensive behavioral health assessment; requiring
61 the department or the community-based care lead agency
62 to establish special permanency teams to assist
63 children in adjusting to home placement; requiring the
64 department to submit an annual report to the Governor
65 and the Legislature on the placement of children in
66 licensed out-of-home care; creating s. 409.144, F.S.;
67 providing legislative findings and intent; defining
68 terms; requiring the department to develop a continuum
69 of care for the placement of children in care
70 settings; requiring the department to submit a report
71 annually to the Governor and the Legislature;
72 requiring the department to adopt rules; amending s.
73 409.1451, F.S.; requiring that a child be living in
74 licensed care on or after his or her 18th birthday as
75 a condition for receiving aftercare services;
76 requiring the department to provide education training
77 vouchers; providing eligibility requirements;
78 prohibiting vouchers from exceeding a certain amount;
79 providing rulemaking authority; amending s. 409.988,
80 F.S.; requiring lead agencies to ensure the
81 availability of a full array of family support
82 services; requiring the department to submit annually
83 to the Governor and Legislature a report that
84 evaluates the adequacy of family support services;
85 requiring the department to adopt rules; amending s.
86 39.202, F.S.; revising the designation of an agency

87 require the department to provide education training programs; requiring that a child be living in
88 licensed care on or after his or her 18th birthday as
89 a condition for receiving aftercare services;
90 requiring the department to provide education training
91 vouchers; providing eligibility requirements;
92 prohibiting vouchers from exceeding a certain amount;
93 providing rulemaking authority; amending s. 409.988,
94 F.S.; requiring lead agencies to ensure the
95 availability of a full array of family support
96 services; requiring the department to submit annually
97 to the Governor and Legislature a report that
98 evaluates the adequacy of family support services;
99 requiring the department to adopt rules; amending s.
100 39.202, F.S.; revising the designation of an agency
101
102 Be It Enacted by the Legislature of the State of Florida:
103
104 Section 1. Subsection (10) of section 39.01, Florida Statutes, is amended, present subsections (20) through (79) of
105 that section are redesignated as subsections (21) through (80), respectively, a new subsection (20) is added to that section,
106 and present subsection (32) of that section is amended, to read:
107
108 39.01 Definitions.—When used in this chapter, unless the
109 context otherwise requires:
110 (10) "Caregiver" means the parent, legal custodian,
111 permanent guardian, adult household member, or other person
112 responsible for a child's welfare as defined in subsection (48)
113 of this chapter.
114 (20) "Conditions for return" means the circumstances that
115 caused the out-of-home placement have been remedied to the

CODING: Words [strike] are deletions; words [underline] are additions.

586-00943A-16 20167018__
117 extent that the return of the child to the home with an in-home
118 safety plan will not be detrimental to the child’s safety, well-
119 being, and physical, mental, and emotional health.
120
121 (32) “Institutional child abuse or neglect” means
122 situations of known or suspected child abuse or neglect in which
123 the person allegedly perpetrating the child abuse or neglect is
124 an employee of a private school, public or private day care
125 center, residential home, institution, facility, or agency or
126 any other person at such institution responsible for the child’s
127 care as defined in subsection (48), subsection (11).
128
129 Section 2. Paragraph (e) is added to subsection (2) of
130 section 39.013, Florida Statutes, to read:
131
132 39.013 Procedures and jurisdiction; right to counsel.—
133
134 (2) The circuit court has exclusive original jurisdiction
135 of all proceedings under this chapter, of a child voluntarily
136 placed with a licensed child-caring agency, a licensed child-
137 placing agency, or the department, and of the adoption of
138 children whose parental rights have been terminated under this
139 chapter. Jurisdiction attaches when the initial shelter
140 petition, dependency petition, or termination of parental rights
141 petition, or a petition for an injunction to prevent child abuse
142 issued pursuant to s. 39.504, is filed or when a child is taken
143 into the custody of the department. The circuit court may assume
144 jurisdiction over any such proceeding regardless of whether the
145 child was in the physical custody of both parents, was in the
146 sole legal or physical custody of only one parent, caregiver, or
147 some other person, or was not in the physical or legal custody
148 of any person when the event or condition occurred that brought
149 the child to the attention of the court. When the court obtains

Page 5 of 49
CODING: Words [strike through] are deletions; words [underline] are additions.

586-00943A-16 20167018__
146 jurisdiction of any child who has been found to be dependent,
147 the court shall retain jurisdiction, unless relinquished by its
148 order, until the child reaches 21 years of age, with the
149 following exceptions:
150
(e) If a young adult with a disability remains in foster
151 care, jurisdiction shall continue until the young adult chooses
152 to leave foster care or upon the young adult reaching 22 years
153 of age, whichever occurs first.
154
Section 3. Paragraphs (f) and (h) of subsection (8) of
155 section 39.402, Florida Statutes, are amended to read:
156 39.402 Placement in a shelter.—
157
(8)
158
(f) At the shelter hearing, the department shall inform the
159 court of:
160 1. Any identified current or previous case plans negotiated
161 under this chapter in any judicial circuit district with the
162 parents or caregivers under this chapter and problems associated
163 with compliance;
164 2. Any adjudication of the parents or caregivers of
165 delinquency;
166 3. Any past or current injunction for protection from
167 domestic violence; and
168 4. All of the child’s places of residence during the prior
169 12 months.
170
(h) The order for placement of a child in shelter care must
171 identify the parties present at the hearing and must contain
172 written findings:
173 1. That placement in shelter care is necessary based on the
174 criteria in subsections (1) and (2).

Page 6 of 49
CODING: Words [strike through] are deletions; words [underline] are additions.
2. That placement in shelter care is in the best interest of the child.

3. That the placement proposed by the department is in the least restrictive and most family-like setting that meets the needs of the child, unless it is otherwise documented that the identified type of placement needed is not available.

4. That continuation of the child in the home is contrary to the welfare of the child because the home situation presents a substantial and immediate danger to the child’s physical, mental, or emotional health or safety which cannot be mitigated by the provision of preventive services.

5. That based upon the allegations of the petition for placement in shelter care, there is probable cause to believe that the child is dependent or that the court needs additional time, which may not exceed 72 hours, in which to obtain and review documents pertaining to the family in order to appropriately determine the risk to the child.

6. That the department has made reasonable efforts to prevent or eliminate the need for removal of the child from the home. A finding of reasonable effort by the department to prevent or eliminate the need for removal may be made and the department is deemed to have made reasonable efforts to prevent or eliminate the need for removal if:
   a. The first contact of the department with the family occurs during an emergency;
   b. The appraisal of the home situation by the department indicates that the home situation presents a substantial and immediate danger to the child’s physical, mental, or emotional health or safety which cannot be mitigated by the provision of preventive services;

   c. The child cannot safely remain at home, either because there are no preventive services that can ensure the health and safety of the child or because, even with appropriate and available services being provided, the health and safety of the child cannot be ensured; or
   d. The parent or legal custodian is alleged to have committed any of the acts listed as grounds for expedited termination of parental rights in s. 39.806(1)(f)-(i).

7. That the department has made reasonable efforts to keep siblings together if they are removed and placed in out-of-home care unless such placement is not in the best interest of each child. It is preferred that siblings be kept together in a foster home, if available. Other reasonable efforts shall include short-term placement in a group home with the ability to accommodate sibling groups if such a placement is available. The department shall report to the court its efforts to place siblings together unless the court finds that such placement is not in the best interest of a child or his or her sibling.

8. That the court notified the parents, relatives that are providing out-of-home care for the child, or legal custodians of the time, date, and location of the next dependency hearing and of the importance of the active participation of the parents, relatives that are providing out-of-home care for the child, or legal custodians in all proceedings and hearings.

9. That the court notified the parents or legal custodians of their right to counsel to represent them at the shelter hearing and at each subsequent hearing or proceeding,
4. The persons or entities responsible for supervising or monitoring services to the child and parent.

5. Continuation or discharge of the guardian ad litem, as appropriate.

6. The date, time, and location of the next scheduled review hearing, which must occur within the earlier of:
   a. Ninety days after the disposition hearing;
   b. Ninety days after the court accepts the case plan;
   c. Six months after the last review hearing; or
   d. Six months after the child’s removal from his or her home, if no review hearing has been held since the child’s removal from the home.

7. If the child is in an out-of-home placement, child support to be paid by the parents, or the guardian of the child’s estate if possessed of assets which under law may be disbursed for the care, support, and maintenance of the child.

The court may exercise jurisdiction over all child support matters, shall adjudicate the financial obligation, including health insurance, of the child’s parents or guardian, and shall enforce the financial obligation as provided in chapter 61. The state’s child support enforcement agency shall enforce child support orders under this section in the same manner as child support orders under the state’s child support enforcement agency shall enforce child support orders under chapter 61. Placement of the child shall not be contingent upon issuance of a support order.

8.a. If the court does not commit the child to the temporary legal custody of an adult relative, legal custodian, or other adult approved by the court, the disposition order shall include the reasons for such a decision and shall include a determination as to whether diligent efforts were made by the department to locate an adult relative, legal custodian, or other adult willing to care for the child in order to present
that placement option to the court instead of placement with the department.

b. If no suitable relative is found and the child is placed with the department or a legal custodian or other adult approved by the court, both the department and the court shall consider transferring temporary legal custody to an adult relative approved by the court at a later date, but neither the department nor the court is obligated to so place the child if it is in the child’s best interest to remain in the current placement.

For the purposes of this section, “diligent efforts to locate an adult relative” means a search similar to the diligent search for a parent, but without the continuing obligation to search after an initial adequate search is completed.

9. Other requirements necessary to protect the health, safety, and well-being of the child, to preserve the stability of the child’s educational placement, and to promote family preservation or reunification whenever possible.

Section 5. Subsection (2) of section 39.522, Florida Statutes, is amended to read:

39.522 Postdisposition change of custody.—The court may change the temporary legal custody or the conditions of protective supervision at a postdisposition hearing, without the necessity of another adjudicatory hearing.

(2) In cases where the issue before the court is whether a child should be reunited with a parent, the court shall determine whether the circumstances that caused the out-of-home placement have been remedied parent has substantially complied with the terms of the case plan to the extent that the return of the child to the home with an in-home safety plan will not be detrimental to the child’s safety, well-being, and physical, mental, and emotional health of the child or is not endangered by the return of the child to the home.

Section 6. Section 39.6011, Florida Statutes, is amended to read:

(Substantial rewording of section. See s. 39.6011, F.S., for present text.)

39.6011 Case plan purpose; requirements; procedures.—

(1) PURPOSE.—The purpose of the case plan is to promote and facilitate change in parental behavior and to address the treatment and long-term well-being of children receiving services under this chapter.

(2) GENERAL REQUIREMENTS.—The department shall draft a case plan for each child receiving services under this chapter. The case plan must:

(a) Document that a preplacement assessment of the service needs of the child and family, and preplacement preventive services, if appropriate, have been provided pursuant to s. 409.142, and that reasonable efforts to prevent out-of-home placement have been made.

(b) Be developed in a face-to-face conference with the parent of the child, any court-appointed guardian ad litem, the child’s attorney, and, if appropriate, the temporary custodian of the child. The parent may receive assistance from any person or social service agency in preparing the case plan. The social service agency, the department, and the court, when applicable, shall inform the parent of the right to receive such assistance.
(3) PARTICIPATION BY THE CHILD.—It is important that the child be involved in all aspects of the case planning process, including development of the plan, as well as the opportunity to review, sign, and receive a copy of the case plan. The child may not be included in any aspect of the case planning process when information will be revealed or discussed that is of a nature that would best be presented to the child in a more therapeutic setting. The child, when the child has attained 14 years of age or the child is otherwise at the appropriate age and capacity, must:

(a) Be included in the face-to-face conference to develop the plan under this section, have the opportunity to express a placement preference, and have the option to choose two members of the case planning team who are not a foster parent or caseworker for the child.

(b) Sign the case plan, unless there is reason to waive the child’s signature.

(c) Receive an explanation of the provisions of the case plan from the department.

(d) Be provided a copy of the case plan:

1. After the case plan has been agreed upon and signed; and

2. Within 3 business days before the disposition hearing after jurisdiction attaches and the plan has been filed with the court.

(4) NOTICE TO PARENTS.—The case plan must document that each parent has been advised of the following by written notice:

(a) That he or she may not be coerced or threatened with the loss of custody or parental rights for failing to admit the abuse, neglect, or abandonment of the child in the case plan.

Participation in the development of a case plan is not an
After the case plan has been agreed upon and signed by the parties, a copy of the case plan must immediately be given to the parties and to other persons, as directed by the court.

(b) In each case in which a child has been placed in out-of-home care, a case plan must be prepared within 60 days after the department removes the child from the home and must be submitted to the court for review and approval before the disposition hearing.

(c) After jurisdiction attaches, all case plans must be filed with the court, and a copy provided to all of the parties whose whereabouts are known not less than 3 business days before the disposition hearing. The department shall file with the court and provide copies of such to all of the parties, all case plans prepared before jurisdiction of the court attached.

(d) A case plan must be prepared, but need not be submitted to the court, for a child who will be in care for 30 days or less unless that child is placed in out-of-home care for a second time within a 12-month period.

Section 7. Section 39.6012, Florida Statutes, is amended to read:

(§Substantial rewording of section. See s. 39.6012, F.S., for present text.)

39.6012 Services and parental tasks under the case plan; safety, permanency, and well-being of the child.—The case plan must include a description of the identified problem that is being addressed, including the parent’s behavior or acts that have resulted in a threat to the safety of the child and the reason for the department’s intervention. The case plan must be designed to improve conditions in the child’s home to facilitate the child’s safe return and ensure proper care of the child, or to facilitate the child’s permanent placement. The services...

The date by which the parent must complete each task. 492

4. The frequency of services or treatment to be provided, 493

(1) CASE PLAN SERVICES AND TASKS.—The case plan must be 494

based upon an assessment of the circumstances that required

intervention by the child welfare system. The case plan must

describe the role of the foster parents or legal custodians, and

must be developed in conjunction with the determination of the

services that are to be provided under the case plan to the

child, foster parents, or legal custodians. If a parent’s

substantial compliance with the case plan requires the

department to provide services to the parent or the child and

the parent agrees to begin compliance with the case plan before

it is accepted by the court, the department shall make

appropriate referrals for services which will allow the parent

to immediately begin the agreed-upon tasks and services.

(a) Itemization in the case plan.—The case plan must

describe each of the tasks which the parent must complete and

the services that will be provided to the parent, in the context

of the identified problem, including:

1. The type of services or treatment which will be

provided.

2. If the service is being provided by the department or

its agent, the date the department will provide each service or

referral for service.

3. The date by which the parent must complete each task.

4. The frequency of services or treatment to be provided,

which shall be determined by the professionals providing the

services and may be adjusted as needed based on the best

professional judgment of the provider.

5. The location of the delivery of the services.

6. Identification of the staff of the department or the

service provider who are responsible for the delivery of

services or treatment.

7. A description of measurable outcomes, including the

timeframes specified for achieving the objectives of the case

plan and addressing the identified problem.

(b) Meetings with case manager.—The case plan must include

a schedule of the minimum number of face-to-face meetings to be

held each month between the parent and the case manager to

review the progress of the case plan, eliminate barriers to

completion of the plan, and resolve conflicts or disagreements.

(c) Request for notification from relative.—The case

manager shall advise the attorney for the department of a

relative’s request to receive notification of proceedings and

hearings submitted pursuant to s. 39.301(14) (b).

(d) Financial support.—The case plan must specify the

parent’s responsibility for the financial support of the child,

including, but not limited to, health insurance and child

support. The case plan must list the costs associated with any

services or treatment that the parent and child are expected to

receive which are the financial responsibility of the parent.

The determination of child support and other financial support

must be made independently of any determination of dependency

under s. 39.013.

(2) SAFETY, PERMANENCY, AND WELL-BEING OF THE CHILD.—The
case plan must include all available information that is relevant to the child’s care, including a detailed description of the identified needs of the child while in care and a description of the plan for ensuring that the child receives safe and proper care that is appropriate to his or her needs. Participation by the child must meet the requirements under § 39.6011.

(a) Placement.—To comply with federal law, the department must ensure that the placement of a child in foster care be in the least restrictive, most family-like environment; must review the family assessment, safety plan, and case plan for the child to assess the necessity for and the appropriateness of the placement; must assess the progress that has been made toward case plan outcomes; and must project a likely date by which the child can be safely reunified or placed for adoption or legal guardianship. The family assessment must indicate the type of placement to which the child has been assigned and must document the following:

1. That the child has undergone the placement assessments required pursuant to s. 409.143.

2. That the child has been placed in the least restrictive and most family-like setting available consistent with the best interest and special needs of the child, and in as close proximity as possible to the child’s home.

3. If the child is placed in a setting that is more restrictive than recommended by the placement assessments or is placed more than 50 miles from the child’s home, the reasons why the placement is necessary and in the best interest of the child and the steps required to place the child in the placement recommended by the assessment.

4. If residential group care is recommended for the child, the needs of the child which necessitate such placement, the plan for transitioning the child to a family setting, and the projected timeline for the child’s transition to a less restrictive environment. If the child is placed in residential group care, his or her case plan shall be reviewed and updated within 90 days after the child’s admission to the residential group care facility and at least every 60 days thereafter.

(b) Permanency.—If reunifying a child with his or her family is not possible, the department shall make every effort to provide other forms of permanency, such as adoption or guardianship. If a child is placed in an out-of-home placement, the case plan, in addition to any other requirements imposed by law or department rule, must include:

1. If concurrent planning is being used, a description of the permanency goal of reunification with the parent or legal custodian and a description of one of the remaining permanency goals defined in s. 39.01; or, if concurrent case planning is not being used, an explanation as to why it is not being used.

2. If the case plan has as its goal the adoption of the child or his or her placement in another permanent home, a statement of the child’s wishes regarding his or her permanent placement plan and an assessment of those stated wishes. The case plan must also include documentation of the steps the agency is taking to find an adoptive family or other permanent living arrangements for the child; to place the child with an adoptive family, an appropriate and willing relative, or a legal guardian; and to finalize the adoption or legal guardianship. At
a minimum, the documentation must include child-specific
recruitment efforts, such as the use of state, regional, and
contact with family, extended family, and fictive kin.—
To the extent that they are available and
accessible, the names and addresses of the child’s health and
behavioral health providers, a record of the child’s
immunizations, the child’s known medical history, including any
known health issues, the child’s medications, and any other
relevant health and behavioral health information must be
attached to the case plan and updated throughout the judicial
review process.

(c) Education.—A case plan must ensure the educational
stability of the child while in foster care. To the extent
available and accessible, the names and addresses of the child’s
educational providers, a record of his or her grade level
performance, and his or her school record must be attached to
the case plan and updated throughout the judicial review
process. The case plan must also include documentation that the
placement:

1. Takes into account the appropriateness of the current
   educational setting and the proximity to the school in which the
   child is enrolled at the time of placement.

2. Has been coordinated with appropriate local educational
   agencies to ensure that the child remains in the school in which
   the child is enrolled at the time of placement, or, if remaining
   in that school is not in the best interest of the child,
   assurances by the department and the local education agency to
   provide immediate and appropriate enrollment in a new school and
to provide all of the child’s educational records to the new
   school.

(d) Health care.—To the extent that they are available and
accessible, the names and addresses of the child’s health and
behavioral health providers, a record of the child’s
immunizations, the child’s known medical history, including any
known health issues, the child’s medications, and any other
relevant health and behavioral health information must be
attached to the case plan and updated throughout the judicial
review process.

(e) Contact with family, extended family, and fictive kin.—
When out-of-home placement is made, the case plan must include
provisions for the development and maintenance of sibling
relationships and visitation, if the child has siblings and is
separated from them, a description of the parent’s visitation
rights and obligations, and a description of any visitation
rights with extended family members as defined in s. 751.011. As
used in this paragraph, the term “fictive kin” means individuals
who are unrelated to the child by either birth or marriage, but
who have an emotionally significant relationship with the child
that would take on the characteristics of a family relationship.
As soon as possible after a court order is entered, the
following must be provided to the child’s out-of-home caregiver:

1. Information regarding any court-ordered visitation
   between the child and the parents, and the terms and conditions
   necessary to facilitate such visits and protect the safety of
   the child.

2. Information regarding the schedule and frequency of the
   visits between the child and his or her siblings, as well as any
   court-ordered terms and conditions necessary to facilitate the
   visits and protect the safety of the child.
(f) Independent living.—

1. When appropriate, the case plan for a child who is 13 years of age or older, must include a written description of the life skills services to be provided by the caregiver which will assist the child, consistent with his or her best interests, in preparing for the transition from foster care to independent living. The case plan must be developed with the child and individuals identified as important to the child, and must include the steps the agency is taking to ensure that the child has a connection with a caring adult.

2. During the 180-day period after a child reaches 17 years of age, the department and the community-based care provider, in collaboration with the caregiver and any other individual whom the child would like to include, shall assist the child in developing a transition plan pursuant to s. 39.6035, which is in addition to standard case management requirements. The transition plan must address specific options that the child may use in obtaining services, including housing, health insurance, education, and workforce support and employment services. The transition plan must also consider establishing and maintaining naturally occurring mentoring relationships and other personal support services. The transition plan may be as detailed as the child chooses and must be attached to the case plan and updated before each judicial review.

CODING: Words underlined are additions; words underlined are additions.
found to be dependent, even if adjudication of dependency is withheld, the court may leave the child in the current placement with maintaining and strengthening the placement as a permanency option.

(b) If a child has been removed from a parent and is placed with the parent from whom the child was not removed, the court may leave the child in the placement with the parent from whom the child was not removed with maintaining and strengthening the placement as a permanency option.

(c) If a child has been removed from a parent and is subsequently reunified with that parent, the court may leave the child with that parent with maintaining and strengthening the placement as a permanency option.

Section 10. Paragraphs (a) and (d) of subsection (2) of section 39.701, Florida Statutes, are amended to read:

39.701 Judicial review.—

(2) REVIEW HEARINGS FOR CHILDREN YOUNGER THAN 18 YEARS OF AGE.—

(a) Social study report for judicial review.—Before every judicial review hearing or citizen review panel hearing, the social service agency shall make an investigation and social study concerning all pertinent details relating to the child and shall furnish to the court or citizen review panel a written report that includes, but is not limited to:

1. A description of the type of placement the child is in at the time of the hearing, including the safety of the child, and the continuing necessity for and appropriateness of the placement, and that the placement is in the least restrictive and most family-like setting that meets the needs of the child.
9. The number of times a child’s educational placement has been changed, the number and types of educational placements which have occurred, and the reason for any change in placement.

10. If the child has reached 13 years of age but is not yet 18 years of age, a statement from the caregiver on the progress the child has made in acquiring independent living skills.

11. Copies of all medical, psychological, and educational records that support the terms of the case plan and that have been produced concerning the parents or any caregiver since the last judicial review hearing.

12. Copies of the child’s current health, mental health, and education records as identified in s. 39.6012.

(d) Orders.—
1. Based upon the criteria set forth in paragraph (c) and the recommended order of the citizen review panel, if any, the court shall determine whether or not the social service agency shall initiate proceedings to have a child declared a dependent child, return the child to the parent, continue the child in out-of-home care for a specified period of time, or initiate termination of parental rights proceedings for subsequent placement in an adoptive home. Amendments to the case plan must be prepared as prescribed in s. 39.6013. If the court finds that the prevention or reunification efforts of the department will allow the child can safely remain in the safety at home with an in-home safety plan or be safely returned to the home, the court shall allow the child to remain in or return to the home after making a specific finding of fact that the reasons for the creation of the case plan have been remedied to the extent that the child’s safety, well-being, and physical, mental, and emotional health will not be endangered.

2. The court shall return the child to the custody of the parents with an in-home safety plan at any time it determines that they have met conditions for return substantially complied with the case plan, and if the court is satisfied that return of the child to the home reunification will not be detrimental to the child’s safety, well-being, and physical, mental, and emotional health.

3. If, in the opinion of the court, the social service agency has not complied with its obligations as specified in the written case plan, the court may find the social service agency in contempt, shall order the social service agency to submit its plans for compliance with the agreement, and shall require the social service agency to show why the child could not safely be returned to the home of the parents.

4. If possible, the court shall order the department to file a written notification before a child changes placements or living arrangements. If such notification is not possible before the change, the department must file a notification immediately after a change. A written notification filed with the court must include assurances from the department that the provisions of s. 409.145 and administrative rule relating to placement changes have been met.

5. If, at any judicial review, the court finds that the parents have failed to substantially comply with the case plan to the degree that further reunification efforts are without merit and not in the best interest of the child, on its own motion, the court may order the filing of a petition for...
termination of parental rights, whether or not the time period as contained in the case plan for substantial compliance has expired.

Within 6 months after the date that the child was placed in shelter care, the court shall conduct a judicial review hearing to review the child’s permanency goal as identified in the case plan. At the hearing the court shall make findings regarding the likelihood of the child’s reunification with the parent or legal custodian within 12 months after the removal of the child from the home. If the court makes a written finding that it is not likely that the child will be reunified with the parent or legal custodian within 12 months after the child was removed from the home, the department must file with the court, and serve on all parties, a motion to amend the case plan under s. 39.6013 and declare that it will use concurrent planning for the case plan. The department must file the motion within 10 business days after receiving the written finding of the court. The department must attach the proposed amended case plan to the motion. If concurrent planning is already being used, the case plan must document the efforts the department is taking to complete the concurrent goal.

The court may issue a protective order in assistance, or as a condition, of any other order made under this part. In addition to the requirements included in the case plan, the protective order may set forth requirements relating to reasonable conditions of behavior to be observed for a specified period of time by a person or agency who is before the court; and the order may require any person or agency to make periodic reports to the court containing such information as the court in

its discretion may prescribe.

Section 11. Section 409.142, Florida Statutes, is created to read:

409.142 Intervention services for unsafe children.—

(1) LEGISLATIVE FINDINGS AND INTENT.—The Legislature finds that intervention services and supports are designed to strengthen and support families in order to keep them together and to prevent children from entering foster care.

Therefore, it is the intent of the Legislature for the department to identify evidence-based intervention programs that remedy child abuse and neglect, reduce the likelihood of foster care placement by supporting parents and relative or nonrelative caregivers, increase family reunification with parents or other relatives, and promote placement stability for children living with relatives or nonrelative caregivers.

(2) DEFINITION.—As used in this section the term “intervention services and supports” means assistance provided to a child or to the parents or relative and nonrelative caregivers of a child determined by a child protection investigation to be in present or impending danger.

(3) SERVICES AND SUPPORTS.—Intervention services and supports that shall be made available to eligible individuals include, but are not limited to:

(a) Safety management services provided to unsafe children which immediately and actively protect the child from dangerous threats if the parent or other caregiver cannot, as part of a safety plan.

(b) Parenting skills training, including parent advocates, peer-to-peer mentoring, and support groups for parents and

CODING: Words **stricken** are deletions; words _underlined_ are additions.
(6) ASSESSMENT AND REPORTING.—
(a) By October 1, 2016, each community-based care lead agency shall submit a monitoring plan to the department describing how the lead agency will monitor and oversee the

The Legislature finds that it is a basic tenet of child welfare practice and the law that children be placed in the

2. The specific services provided and the total expenditures for each such service;
3. The child’s placement status at the beginning and at the end of the period; and
4. The child’s placement status 1 year after the end of the period.

(c) Outcomes for this subsection shall be included in the annual report required under s. 409.997.

(7) RULEMAKING.—The department shall adopt rules to administer this section.

Section 12. Section 409.143, Florida Statutes, is created to read:
409.143 Assessment and determination of appropriate placement.—

(a) The Legislature finds that it is a basic tenet of child welfare practice and the law that children be placed in the

(c) The monitoring plan shall include a description of training and support for caseworkers handling intervention cases, including how caseload size and type will be determined, managed, and overseen.

(b) Beginning October 1, 2016, each community-based care lead agency shall collect and report annually to the department, as part of the child welfare Results Oriented Accountability Program required under s. 409.997, the following with respect to each child for whom, or on whose behalf, intervention services and supports are provided during a 12-month period:
1. The number of children and families served;
2. The specific services provided and the total expenditures for each such service;
3. The child’s placement status at the beginning and at the end of the period; and
4. The child’s placement status 1 year after the end of the period.

(c) Outcomes for this subsection shall be included in the annual report required under s. 409.997.

(7) RULEMAKING.—The department shall adopt rules to administer this section.

Section 12. Section 409.143, Florida Statutes, is created to read:
409.143 Assessment and determination of appropriate placement.—

(a) The Legislature finds that it is a basic tenet of child welfare practice and the law that children be placed in the

2. The specific services provided and the total expenditures for each such service;
3. The child’s placement status at the beginning and at the end of the period; and
4. The child’s placement status 1 year after the end of the period.

(c) Outcomes for this subsection shall be included in the annual report required under s. 409.997.

(7) RULEMAKING.—The department shall adopt rules to administer this section.

Section 12. Section 409.143, Florida Statutes, is created to read:
409.143 Assessment and determination of appropriate placement.—

(a) The Legislature finds that it is a basic tenet of child welfare practice and the law that children be placed in the

2. The specific services provided and the total expenditures for each such service;
3. The child’s placement status at the beginning and at the end of the period; and
4. The child’s placement status 1 year after the end of the period.
least restrictive, most family-like setting available in close proximity to the home of their parents, consistent with the best interests and needs of the child, and that children be placed in permanent homes in a timely manner.

(b) The Legislature also finds that behavior problems can create difficulties in a child’s placement and ultimately lead to multiple placements, which have been linked to negative outcomes for children.

(c) The Legislature further finds that given the harm associated with multiple placements, the ideal is connecting children to the most appropriate setting at the time they come into care.

(d) Therefore, it is the intent of the Legislature that through the use of a standardized assessment process and the availability of an adequate array of appropriate placement options, that the first placement be the best placement for every child entering care.

(2) DEFINITIONS.—As used in this section, the term:

(a) “Child functioning level” means specific categories of child behaviors and needs.

(b) “Comprehensive behavioral health assessment” means an in-depth and detailed assessment of the child’s emotional, social, behavioral, and developmental functioning within the family home, school, and community that must include direct observation of the child in the home, school, and community, as well as in the clinical setting.

(c) “Level of care” means a tiered approach to the types of placement used and the acuity and intensity of intervention services provided to meet the severity of a dependent child’s

specific physical, emotional, psychological, and social needs.

(3) INITIAL PLACEMENT ASSESSMENT.—

(a) Each child that has been determined by the department, a sheriff’s office conducting protective investigations, or a community-based care provider to require an out-of-home placement must be assessed prior to placement selection to determine the best placement option to meet the child’s immediate and ongoing intervention and services and supports needs. The department shall develop and adopt by rule a preplacement assessment tool, which must include an analysis based on information available to the department at the time of the assessment, of the child’s age, maturity level, known behavioral health diagnosis, behaviors, prior placement arrangements, physical and medical needs, and educational commitments.

(b) If it is determined during the preplacement evaluation that a child may be suitable for residential treatment as defined in s. 39.407, the procedures in that section must be followed.

(c) A decision to place a child in group care with a residential child care agency may not be made by any individual or entity who has an actual or perceived conflict of interest with any agency being considered for placement.

(d) The department shall document initial placement assessments in the Florida Safe Families Network.

(4) COMPREHENSIVE ASSESSMENT.—

(a) Each child placed in out-of-home care shall be referred by the department for a comprehensive behavioral health assessment. The comprehensive assessment is intended to support
the family assessment, which will guide the case plan outcomes, treatment, and well-being service provisions for a child in out-of-home care, in addition to providing information to help determine if the child’s initial placement was the most appropriate out-of-home care setting for the child.

(b) The referral for the comprehensive behavioral health assessment shall be made within 7 calendars days of the child entering out-of-home care.

(c) The comprehensive assessment will measure the strengths and needs of the child and the services and supports that are necessary to maintain the child in the least restrictive out-of-home care setting. In developing the assessment, consideration must be given to:

1. Current and historical information from any psychological testing or evaluation of the child;
2. Current behaviors exhibited by the child which interfere with or limit the child’s role or ability to function in a less restrictive, family-like setting;
3. Current and historical information from the guardian ad litem, if one has been appointed;
4. Current and historical information from any current therapist, teacher, or other professional who has knowledge of the child or has worked with the child;
5. Information related to the placement of any siblings of the child; and
6. If the child has been moved more than once, the circumstances necessitating the moves and the recommendations of the former foster families or other caregivers, if available.

(d) Completion of the comprehensive assessment must occur within 30 calendar days after the child entering out-of-home care.

(e) The department shall use the results of the comprehensive assessment and any additional information gathered to determine the child’s functioning level and the level of care needed for continued placement.

(f) Upon receipt of a child’s completed comprehensive assessment, the child’s case manager shall review the assessment, and document whether a less restrictive, more family-like setting for the child is recommended and available. The department shall document determinations resulting from the comprehensive assessment in the Florida Safe Families Network and update the case plan to include identified needs of the child, specified services and supports to be provided by the out-of-home care placement setting to meet the needs of the child, and diligent efforts to transition the child to a less restrictive, family-like setting.

(5) PERMANENCY TEAMS.—The department or community-based care lead agency that places children pursuant to this section shall establish special permanency teams dedicated to overcoming the permanency challenges occurring for children in out-of-home care. The special permanency team shall convene a multidisciplinary staffing every 180 calendar days, to coincide with the judicial review, to reassess the appropriateness of the child’s current placement. At a minimum, the staffing shall be attended by the community-based care lead agency, the caseworker for the child, out-of-home care provider, guardian ad litem, and any other agency or provider of services to the child. The multidisciplinary staffing shall consider, at a minimum, the
The Legislature finds that permanency, well-being, and safety are critical goals for all children, especially for those in care, and that children in foster care are best supported through a continuum of care that provides appropriate ongoing services, supports and place to live from entry to exit.

(b) The Legislature also finds that federal law requires that out-of-home placements for children are to be in the least restrictive, most family-like setting available that is in close proximity to the home of their parents and consistent with the best interests and needs of the child, and that children be transitioned from out-of-home care to a permanent home in a timely manner.

(c) The Legislature further finds that permanency can be achieved through preservation of the family, reunification with the birth family, or through legal guardianship or adoption by relatives or other caring and committed adults. Planning for permanency should begin at entry into care and should be child-driven, family-focused, culturally appropriate, continuous, and approached with the highest degree of urgency.

(d) It is, therefore, the intent of the Legislature that the department and the larger child welfare community establish and maintain a continuum of care that affords every child the opportunity to benefit from the most appropriate and least restrictive interventions, both in or out of the home, while ensuring that well-being and safety are addressed.

(2) DEFINITIONS.—As used in this section, the term:

(a) “Continuum of care” means the complete range of programs and services for children served by, or at risk of being served by, the dependency system.

(b) “Family foster care” means a family foster home as defined in s. 409.175.

(c) “Level of care” means a tiered approach to the type of placements used and the acuity and intensity of intervention services provided to meet the severity of a dependent child’s specific physical, emotional, psychological, and social needs.

(d) “Out-of-home care” means the placement of a child in...
(e) “Residential group care” means a 24-hour, live-in environment that provides supervision, care, and services to meet the physical, emotional, social, and life skills needs of children served by the dependency system. Services may be provided by residential group care staff who are qualified to perform the needed service or a community-based service provider with clinical expertise, credentials, and training to provide services to the children being served.

(3) DEVELOPMENT OF CONTINUUM.—The department, in collaboration with the Florida Institute for Child Welfare, the Quality Parenting Initiative, and the Florida Coalition for Children, Inc., shall develop a continuum of care for the placement of children in care, including, but not limited to,

both family foster care and residential group care. To implement the continuum of care, the department shall by December 31, 2017:

(a) Establish levels of care in the continuum which are clearly and concisely defined with the qualifying criteria for placement for each level identified.

(b) Revise licensure standards and rules to reflect the supports and services provided by a placement at each level of care and the complexity of the needs of the children served. This must include attention to the need for a particular category of provider in a community before licensure can be considered; quality standards of operation that must be met by all licensed providers; numbers and qualifications of staff.

(c) Develop policies and procedures necessary to ensure that placement in any level of care is appropriate for each specific child, is determined by the required assessments and staffing, and lasts only as long as necessary to resolve the issue that required the placement.

(d) Develop a plan to recruit, train, and retain specialized family foster homes for pregnant and parenting children and young adults. These family foster homes must be designed to provide an out-of-home placement option for young parents and their children to enable them to live in the same family foster home while caring for their children and working toward independent care of the child.

(e) Develop, in collaboration with the Department of Juvenile Justice, a plan to develop specialized out-of-home placements for children who are involved in both the dependency and the juvenile justice systems.

(4) REPORTING REQUIREMENT.—The department shall submit a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives by October 1 of each year, with the first report due October 1, 2016. At a minimum, the report must include the following:

(a) An update on the development of the continuum of care required by this section.

(b) An inventory of existing placements for children by type and by community-based care lead agency.
(c) An inventory of existing services available by
community-based care lead agency and a plan for filling any
identified gap, as well as a determination of what services are
available that can be provided to children in family foster care
without having to move the child to a more restrictive
placement.
(d) The strategies being used by community-based care lead
agencies to recruit, train, and support an adequate number of
families to provide home-based family care.
(e) For every placement of a child made that is contrary to
an appropriate placement as determined by the assessment process
in s. 409.142, an explanation from the community-based care lead
agency as to why the placement was made.
(f) The strategies being used by the community-based care
lead agencies to reduce the high percentage of turnover in
caseworkers.
(g) A plan for oversight by the department over the
implementation of the continuum by the community-based care lead
agencies.
(5) RULEMAKING.—The department shall adopt rules to
implement this section.
Section 14. Subsection (3) of section 409.1451, Florida
Statutes, is amended, and subsection (11) is added to that
section, to read:
409.1451 The Road-to-Independence Program.—
(3) AFTERCARE SERVICES.—
(a) Aftercare services are available to a young adult who
was living in licensed care on his or her 18th birthday, who has
reached 18 years of age but is not yet 23 years of age, and is:
1. Not in foster care.
2. Temporarily not receiving financial assistance under
subsection (2) to pursue postsecondary education.
(II) EDUCATION AND TRAINING VOUCHERS.—The department shall
make available education and training vouchers.
(a) A child or young adult is eligible for services and
support under this subsection if he or she is ineligible for
services under subsection (2) and:
1. Was living in licensed care on his or her 18th birthday,
is currently living in licensed care, or is at least 16 years of
age and has been adopted from foster care or placed with a
court-approved dependency guardian.
2. Has earned a standard high school diploma pursuant to s.
1002.3105(5), s. 1003.4281, or s. 1003.4282, or its equivalent
as provided in s. 1003.435.
3. Has been admitted for enrollment as a student in a
postsecondary educational institution.
4. Has made the initial application to participate before
age 21 and is not yet 23 years of age.
5. Has applied, with assistance from his or her caregiver
and the community-based care lead agency, for any other grants and
scholarships for which he or she is qualified.
6. Has submitted a Free Application for Federal Student Aid
which is complete and error free.
7. Has signed an agreement to allow the department and the
community-based care lead agency access to school records.
8. Has maintained satisfactory academic progress as
determined by the postsecondary institution.
(b) The voucher provided for an individual under this

CODING: Words [ ] are deletions; words _ are additions.
(1) The department shall conduct a child protective services investigation of institutional child abuse, abandonment, or neglect.—

(1) The department shall annually complete an evaluation of institutional child abuse, abandonment, or neglect and the impact of available services on outcomes for the children served by the lead agencies and any subcontracted providers of lead agencies. The evaluation report shall be submitted to the Governor, the President of the Senate, and the Speaker of the House of Representatives by December 31 of each year.

(d) The department shall adopt rules to implement this section.

Section 16. Paragraph (a) of subsection (2) of section 39.202, Florida Statutes, is amended to read:

(2) Except as provided in subsection (4), access to such records, excluding the name of the reporter which shall be released only as provided in subsection (5), shall be granted only to the following persons, officials, and agencies:

(a) Persons with whom the department is seeking to place the child or to whom placement has been granted, including foster parents for whom an approved home study has been conducted, the designee of a licensed residential child-caring agency defined in s. 409.175, an approved relative or nonrelative with whom a child is placed pursuant to s. 39.402, preadoptive parents for whom a favorable preliminary adoptive home study has been conducted, adoptive parents, or an adoption entity acting on behalf of preadoptive or adoptive parents.

Section 17. Subsection (1) of section 39.302, Florida Statutes, is amended to read:

(1) The department shall conduct a child protective services investigation of institutional child abuse, abandonment, or neglect.
investigation of each report of institutional child abuse, abandonment, or neglect. Upon receipt of a report that alleges
that an employee or agent of the department, or any other entity
or person covered by s. 39.01(33) or (48) — 39.01(32) or (42) —
acting in an official capacity, has committed an act of child
abuse, abandonment, or neglect, the department shall initiate a
child protective investigation within the timeframe established
under s. 39.201(5) and notify the appropriate state attorney,
the child protective investigation of the safety of the child. If a facility is exempt from licensing, the
law enforcement agency, and licensing agency, which shall
immediately conduct a joint investigation, unless independent
investigations are more feasible. When conducting investigations
or having face-to-face interviews with the child, investigation
visits shall be unannounced unless it is determined by the
department or its agent that unannounced visits threaten the
department or its agent that unannounced visits threaten the
safety of the child. If a facility is exempt from licensing, the
department shall inform the owner or operator of the facility of
the report. Each agency conducting a joint investigation is
entitled to full access to the information gathered by the
department in the course of the investigation. A protective
investigation must include an interview with the child’s parent
or legal guardian. The department shall make a full written
report to the state attorney within 3 working days after making
the report. A criminal investigation shall be coordinated,
whenever possible, with the child protective investigation of
the department. Any interested person who has information
regarding the offenses described in this subsection may forward
a statement to the state attorney as to whether prosecution is
warranted and appropriate. Within 15 days after the completion
of the investigation, the state attorney shall report the

findings to the department and shall include in the report a
determination of whether or not prosecution is justified and
appropriate in view of the circumstances of the specific case.
Section 18. Subsection (1) of section 39.524, Florida
Statutes, is amended to read:

(1) Except as provided in s. 39.407 or s. 985.801, a
dependent child 6 years of age or older who has been found to be
a victim of sexual exploitation as defined in s. 39.01(70)(g) — 39.01(70)(g) —
must be assessed for placement in a safe house or
safe foster home as provided in s. 409.1678 using the initial
screening and assessment instruments provided in s. 409.1754(1).
If such placement is determined to be appropriate for the child
as a result of this assessment, the child may be placed in a
safe house or safe foster home, if one is available. However,
the child may be placed in another setting, if the other setting
is more appropriate to the child’s needs or if a safe house or
safe foster home is unavailable, as long as the child’s
behaviors are managed so as not to endanger other children
served in that setting.

Section 19. Subsection (7) of section 39.6013, Florida
Statutes, is amended to read:

39.6013 Case plan amendments.—
(7) Amendments must include service interventions that are
the least intrusive into the life of the parent and child, must
focus on clearly defined objectives, and must provide the most
efficient path to quick reunification or permanent placement
given the circumstances of the case and the child’s need for
safe and proper care. A copy of the amended plan must be
Section 20. Paragraph (p) of subsection (4) of section 39.495, Florida Statutes, is amended to read:
39.495 Child and adolescent mental health system of care; programs and services.—
(4) The array of services may include, but is not limited to:
(p) Trauma-informed services for children who have suffered sexual exploitation as defined in s. 39.01(70)(g).

Section 21. Paragraph (c) of subsection (1) and paragraphs (a) and (b) of subsection (6) of section 409.1678, Florida Statutes, are amended to read:
409.1678 Specialized residential options for children who are victims of sexual exploitation.—
(1) DEFINITIONS.—As used in this section, the term:
(c) “Sexually exploited child” means a child who has suffered sexual exploitation as defined in s. 39.01(70)(g) and is ineligible for relief and benefits under the federal Trafficking Victims Protection Act, 22 U.S.C. ss. 7101 et seq.

(6) LOCATION INFORMATION.—
(a) Information about the location of a safe house, safe foster home, or other residential facility serving victims of sexual exploitation, as defined in s. 39.01(70)(g), which is held by an agency, as defined in s. 119.011, is confidential and exempt from s. 119.07(1) and s. 1362(a), Art. I of the State Constitution. This exemption applies immediately given to the persons identified in s. 39.6011(5).

(b) Information about the location of a safe house, safe foster home, or other residential facility serving victims of sexual exploitation, as defined in s. 39.01(70)(g), may be provided to an agency, as defined in s. 119.011, as necessary to maintain health and safety standards and to address emergency situations in the safe house, safe foster home, or other residential facility.

Section 22. Subsection (5) of section 960.065, Florida Statutes, is amended to read:
960.065 Eligibility for awards.—
(5) A person is not ineligible for an award pursuant to paragraph (2)(a), paragraph (2)(b), or paragraph (2)(c) if that person is a victim of sexual exploitation of a child as defined in s. 39.01(70)(g) and is not limited by any other provision of law, an operator may house and educate dependent, at-risk youth in its residential school for the purpose of facilitating the mission of the program and encouraging innovative practices.

Section 23. Subsection (11) of section 1002.3305, Florida Statutes, is amended to read:
1002.3305 College-Preparatory Boarding Academy Pilot Program for at-risk students.—
(11) STUDENT HOUSING.—Notwithstanding s. 409.176 and 409.1761 or any other provision of law, an operator may house and educate dependent, at-risk youth in its residential school for the purpose of facilitating the mission of the program and encouraging innovative practices.
Section 27. Section 409.1677, Florida Statutes, is repealed.

Section 28. Section 409.1679, Florida Statutes, is repealed.

Section 29. This act shall take effect July 1, 2016.

S-001 (10/14/14)
I. Summary:

PCS/SB 7034 revises the Early Steps program in the Department of Health (DOH). The program provides screening and early intervention services to parents with infants and toddlers who have or may have a developmental delay. The program is funded with both state and federal funds.

The bill expands the duties of the DOH clearinghouse for information on early intervention services for parents and providers of early intervention services. The bill provides goals for the Early Steps program, defines terms, and assigns duties to the DOH as well as the local Early Steps offices. The bill sets eligibility criteria for the program. The bill requires a statewide plan, performance standards, and an accountability report each year. The bill designates the Florida Interagency Coordinating Council for Infants and Toddlers as the state interagency coordination council required under federal law. The bill provides procedures for the successful transition of children from the Early Steps program to the local school districts. Finally, the bill repeals outdated sections of statute relating to the Early Steps program.

The bill, according to the DOH, has a negative fiscal impact of approximately $221,640 in general revenue, $7,998 of which is nonrecurring, plus an additional $1,317,000 in recurring general revenue if the bill’s new eligibility criteria are implemented.

The bill has an effective date of July 1, 2016.

II. Present Situation:

Florida’s Early Steps program has its foundation in federal law. The Individuals with Disabilities Education Act (IDEA) was originally enacted by Congress in 1975 to help ensure that children with disabilities have the opportunity to receive a free appropriate public education, just like other children. The law has been revised many times. The most recent amendments expanded the
program to pre-school children and were passed by Congress in December 2004, with final regulations published in August 2006 (Part B for school-aged children) and in September 2011 (Part C, for babies and toddlers).

The Early Steps program (Part C of the IDEA) provides services to families with infants and toddlers from birth until three years of age who have or are at risk of developmental delays or disabilities. The federal government created grants to assist states in providing early intervention programs under Part C of the IDEA. The program has no financial eligibility requirements and is an entitlement to any eligible child. Florida’s Early Steps program is administered by Children’s Medical Services within the Department of Health (DOH). The DOH contracts with hospitals and not-for-profit organizations such as Easter Seals across the state for coordination and delivery of services.

States are not required to participate in Early Steps. The federal government encourages states to participate through its grant funding. By accepting a grant, states are required to abide by federal law and regulations for the program. For Fiscal Year 2015-2016, Florida’s federal grant award is $22.6 million. The 2015-2016 General Appropriations Act provides $45.2 million general revenue for the program.

The amount of a state’s federal grant award is based each year on the number of children in the state’s general population under three years of age using United States Census Bureau data. The amount of the grant is capped annually on that basis, regardless of the number of children receiving services. Federal data indicate that Florida served 1.9 percent of the population of infants and toddlers younger than three years of age in 2012, or 12,036 children.

Federal rules governing early intervention programs for infants and toddlers with disabilities are found in Part 303 of Title 34, Code of Federal Regulations. The rules provide the purpose of the early intervention program, the activities that may be supported, the children that are eligible to be served, the types of services available, the definition of service coordination activities, and use of service coordinators.

Subpart D of Part 303 provides for a statewide system of early intervention services. This system must include a public awareness program; a comprehensive “child find” system that includes

---

1 s. 391.302, F.S.
2 34 Code of Federal Regulations Part 303
3 Id.
referral procedures; and procedures and timelines for comprehensive, multidisciplinary evaluations of children and an identification of family needs. States must also develop policies and procedures for individualized family support plans (IFSP). Early Steps lead agencies must ensure the IFSP is developed and implemented for each eligible child.

Federal law allows for early intervention services for an eligible child and the child’s family to begin before the completion of the evaluation and assessment, under certain conditions. While each agency or person involved in the provision of early intervention services is responsible for making good-faith efforts to assist the eligible child in achieving the outcomes in the IFSP, the law states that any agency or person cannot be held accountable if an eligible child does not achieve the growth projected in the child’s IFSP.

States must establish qualifications for personnel providing early intervention services to eligible children and families. States must have standards to ensure that necessary personnel carry out the purposes of the program and are appropriately and adequately prepared and trained. Parents must give written consent before the Early Steps program may evaluate, assess, and provide early intervention services to a child. In the event parents do not give consent, reasonable efforts should be made to ensure the parent is aware of the nature of the evaluation, assessment, and services available, and understands that without consent, the child will not be able to receive the evaluation, assessment, or services.

Federal regulations require that service providers give written notice to parents before the provider initiates or changes the identification, evaluation, or placement of the child, or provides the appropriate early intervention services to the child and the child’s family. Procedures to resolve disputes through a mediation process, at a minimum, must be available whenever a parent requests a hearing. The mediation process is voluntary, must be conducted by a qualified mediator, and cannot be used to deny or delay a parent’s right to a due process hearing. Mediation must be timely scheduled. Any agreement reached by the parties to the dispute must be in writing, and discussions that occur during mediation are confidential and cannot be used as evidence in any subsequent proceeding. The state must bear the cost of the mediation process. During the mediation, the child must continue to receive early intervention services currently being provided. If the complaint involves an application for initial services, the child must receive any services that are not in dispute.

State policy must specify which functions and services will be provided at no cost to all parents and which will be subject to a system of payments. The inability of parents of an eligible child

19 Id.
20 34 CFR s. 303.520
to pay for services must not result in a denial of services to the child or the child’s family.\textsuperscript{21} States may establish a schedule of sliding fees for early intervention services but some functions such as evaluation, assessment, and service coordination are not subject to fees.\textsuperscript{22}

Funds provided by the federal grant may be used only for early intervention services for an eligible child who is not entitled to these services under any other federal, state, local or private source.\textsuperscript{23} Interim payments to avoid delay in providing needed services to an eligible child are allowed but the agency that has ultimate responsibility for the payment must reimburse the program.\textsuperscript{24}

Each State that receives financial assistance for the program must establish a State Interagency Coordinating Council (council). The council must be appointed by the Governor and membership must reasonably represent the population of the state.\textsuperscript{25} The council is to advise and assist the lead agency in:

- The development and implementation of the policies that constitute the statewide system;
- Achieving the full participation, coordination, and cooperation of all appropriate public agencies in the state; and
- The integration of services for infants and toddlers with disabilities and at-risk toddlers and their families regardless of whether at-risk infants and toddlers are eligible for early intervention services.\textsuperscript{26}

Eligible infants and toddlers are identified through referrals from hospitals, healthcare providers, and childcare staff who may interact on a regular basis with infants and toddlers. Parents may also contact the state’s program directly for an evaluation and assessment. Before any evaluation can be conducted, parental consent is required. Evaluations and assessments must be completed within 45 days of the referral.\textsuperscript{27}

Early intervention skills for this population focus on five areas:

- Physical (reaching, rolling, crawling, and walking);
- Cognitive (thinking, learning, and solving problems);
- Communication (talking, listening, and understanding);
- Social/emotional (playing and feeling secure and happy); and
- Adaptive/self-help (eating and dressing).\textsuperscript{28}

States must have various components under 20 U.S.C. 1435, which broadly covers administrative, oversight, and regulatory functions, such as:

\textsuperscript{21} Id.  
\textsuperscript{22} 34 CFR s. 303.521  
\textsuperscript{23} 34 CFR s.303.527  
\textsuperscript{24} Id.  
\textsuperscript{25} 34 CFR s. 303.600  
\textsuperscript{26} 34 CFR s. 303.650  
\textsuperscript{28} Center for Parent Information and Resources, Overview of Early Intervention - What is Early Intervention? \url{http://www.parentcenterhub.org/repository/ei-overview/} (last visited: Nov. 16, 2015).
• Policies to ensure appropriate delivery of early intervention services to infants, toddlers, and their families;
• Individualized family service plans (IFSP) for each infant or toddler with a disability;
• A properly functioning administrative structure that identifies eligible infants and toddlers using a rigorous definition of “developmental delay,” makes referrals, centrally collects information, provides a directory of services and resources, incorporates data, and has a comprehensive system for personnel development;
• A single line of responsibility in a lead agency designated by the Governor, including financial responsibility, provision of services, resolution of disputes, and development of procedures to ensure timeliness of services; and
• A state interagency coordination council.

The IDEA requires that early intervention services be provided, to the maximum extent appropriate, in natural environments\(^{29}\) such as the child’s home.\(^{30}\) Florida has increased the delivery of services in the home or community based setting since 2008 but still falls below the national average for home-based services.\(^{31}\)

### III. Effect of Proposed Changes:

**Section 1** amends s. 383.141, F.S., to provide additional direction to the information clearinghouse administered by the Department of Health (DOH). The bill requires the clearinghouse to provide comprehensive information to educate parents and providers of early intervention services. The DOH is directed to refer to children with developmental disabilities or delays as children with “unique abilities” whenever possible in the clearinghouse. The DOH is to provide education and training to parents and providers through the clearinghouse. The clearinghouse is to promote public awareness of intervention services available to parents of children with unique abilities.

The bill deletes from Florida Statutes the requirement for the DOH to establish access to clearinghouse information on its Internet website. The program is already subject to similar requirements under federal regulations.

**Section 2** amends s. 391.025, F.S., to rename the Florida Infants and Toddlers Early Intervention Program under the Children’s Medical Services program as the Early Steps program.

**Section 3** amends s. 391.026, F.S., to add to the DOH’s responsibilities the administration of the Early Steps program.

---

\(^{29}\) A “natural environment” includes the child’s home or a community setting where children would typically be participating if they did not have a disability. See “Program Description,” U.S. Department of Education, available at [http://www2.ed.gov/programs/osepeip/index.html](http://www2.ed.gov/programs/osepeip/index.html) (last visited Dec. 11, 2015).

Section 4 amends s. 391.301, F.S., to update the legislative intent of the Early Steps program and to establish goals for the program. Under the bill, the program must:

- Integrate information and coordinate services with other programs serving infants and toddlers;
- Enhance the development of infants and toddlers with disabilities and delays;
- Increase the awareness among parents, health care providers, and the public of the importance of the first three years of life for the development of the brain;
- Maintain the importance of the family in early intervention services;
- Provide comprehensive and coordinated services;
- Ensure timely evaluation of infants and toddlers and provide individual planning for intervention services;
- Improve the capacity of health care providers to serve children with unique needs; and
- Ensure programmatic and financial accountability through the establishment of a high-capacity data system, active monitoring of performance indicators, and ongoing quality improvement.

Section 5 amends s. 391.302, F.S., to add definitions for “developmental delay,” “developmental disability,” “habilitative services and devices,” “local program office,” and “rehabilitative services and devices” for the Early Steps program. The bill also deletes the definitions of “in-hospital intervention services” and “parent support and training.”

Section 6 amends s. 391.308, F.S., to provide additional structure and guidance for the Early Steps program. The bill establishes performance standards for the program relating to services and referrals, individualized family support plans, and outcomes for infants and toddlers served.

The bill provides new duties to the DOH for the Early Steps program. The bill requires the DOH to:

- Develop a statewide plan for the program;
- Ensure that local program offices educate hospitals providing Level II and Level III neonatal intensive care about the program and the referral process for evaluation and intervention services;
- Establish standards and qualifications for service providers used by the program;
- Develop uniform procedures to determine eligibility for the program;
- Provide a statewide format for individualized family support plans;
- Promote interagency cooperation with the Medicaid program, the Department of Education, and programs providing child screening;
- Provide guidance to local program offices for coordinating Early Step program benefits with other programs such as Medicaid and private insurance;
- Provide a mediation process and, if necessary, an appeals process under ch. 120, F.S., for parents whose infant or toddler is determined not to be eligible for developmental evaluation or early intervention services or who were denied financial support for such services;
- Competitively procure local offices to administer the Early Steps program;
- Establish performance measures and standards to evaluate local Early Step offices; and
- Provide technical assistance to local Early Step offices.
The bill establishes eligibility criteria for the Early Steps program. The eligibility criteria are based on federal law with the underlying premise that infants and toddlers are eligible for an evaluation to determine the presence of a developmental disability or the risk of a developmental delay based on a physical or medical condition. The DOH is directed to apply specified criteria to determine eligibility for post-evaluation services if funding is provided in the General Appropriations Act. Infants and toddlers meeting the following criteria will be determined eligible:

- Having a developmental delay based on a standardized evaluation instrument that results in a score that is 1.5 standard deviations from the mean in two or more of the following domains: physical, cognitive, communication, social or emotional, and adaptive;
- Having a developmental delay based on a standardized evaluation instrument that results in a score that is 2.0 standard deviations from the mean in one of the following domains: physical, cognitive, communication, social/emotional, and adaptive;
- Having a developmental delay based on informed clinical opinion; or
- Being at risk of developmental delay based on an established condition known to result in developmental delay, or a physical or mental condition known to create a risk of developmental delay.

The bill provides duties to the Early Steps offices. These offices must:

- Evaluate a child within 45 days after referral;
- Notify parents if the child is eligible for services and provide an appeal process to those parents whose child is found ineligible;
- Make interagency agreements with local school districts;
- Provide services directly or procure early intervention services;
- Provide services in a natural environment to the extent possible;
- Develop an individualized family support plan for each child served in the program;
- Assess the progress of the child in meeting the goals of the individualized family support plan;
- Provide service coordination to ensure that assistance for families is properly managed, regardless of whether the program provides the services directly or through referral to other service providers;
- Make agreements with local Medicaid managed care organizations;
- Make agreements with local private insurers; and
- Provide data required by the DOH to assess the performance of the program.

The bill requires the DOH to report to the Governor and Legislature on the performance of the Early Steps program December 1st each year.

The bill designates the Florida Interagency Coordinating Council for Infants and Toddlers as the state interagency coordination council required under federal law.

The bill provides requirements to the local Early Steps offices to improve the transition to the local school district after age three if the child may need special education or related services.
Section 7 amends s. 413.092, F.S., relating to the Blind Babies program to conform the name change of the Florida Infants and Toddlers Early Intervention Program to the Early Steps program.

Section 8 amends s. 1003.575, F.S., relating to assistive technology devices for special education to conform the name change of the Florida Infants and Toddlers Early Intervention Program to the Early Steps program.

Section 9 repeals s. 391.303, F.S., relating to program requirements of the Florida Infants and Toddlers Early Intervention Program.

Section 10 repeals s. 391.304, F.S., relating to program coordination of the Florida Infants and Toddlers Early Intervention Program.

Section 11 repeals s. 391.305, F.S., relating to program standards for the Florida Infants and Toddlers Early Intervention Program.

Section 12 repeals s. 391.306, F.S., relating to funding and contracts for the Florida Infants and Toddlers Early Intervention Program.

Section 13 repeals s. 391.307, F.S., relating to program reviews under the Florida Infants and Toddlers Early Intervention Program.

Section 14 provides an effective date of July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

   None.

B. Public Records/Open Meetings Issues:

   None.

C. Trust Funds Restrictions:

   None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

   None.
B. Private Sector Impact:

Additional guidance provided for the administration of the Early Steps program may result in additional opportunities for private providers of early childhood intervention services.

The Department of Health (DOH) reports that local Early Steps agencies under contract with the DOH might experience an increased workload associated with additional duties under the bill. Such an effect, if any, has an indeterminate cost.\textsuperscript{32}

C. Government Sector Impact:

The DOH reports that eligibility criteria created under the bill, if applied, will result in at least 1,000 children becoming eligible for Early Steps who would not otherwise qualify, at a cost of $1,317,000 recurring general revenue.\textsuperscript{33} However, the bill directs the DOH to apply the new eligibility criteria “as authorized in the General Appropriations Act” (GAA), and the GAA might or might not include such authorization.

The DOH also reports that, under the bill:\textsuperscript{34}

- The requirements for new hotlines specific to Down syndrome and other prenatally diagnosed developmental disabilities, the expansion of the clearinghouse database, and the accompanying duties to revise the DOH website, will cost $130,988 in general revenue, $3,999 of which is nonrecurring, which includes funding for a new full-time equivalent (FTE) position;
- An additional FTE for an attorney position will be required to handle appeals and hearings under ch. 120, F.S., at a cost of approximately $90,652 in general revenue, $3,999 of which is nonrecurring; and
- The DOH might experience a recurring, but indeterminate, increase in workload associated with other duties that existing DOH resources cannot absorb.

VI. Technical Deficiencies:

Section 6 of the bill amends s. 391.308, F.S., to provide eligibility criteria for the Early Steps program. One of the criteria (at lines 424-425) specifies infants and toddlers with a developmental delay based on “informed clinical opinion.” However, neither the bill nor existing law in ch. 391, F.S., defines the term “informed clinical opinion.”

VII. Related Issues:

The Department of Health (DOH) reports that:

\textsuperscript{32} Department of Health, 2016 Agency Legislative Bill Analysis, SB 7034, Nov. 23, 2015, on file with the Appropriations Subcommittee on Health and Human Services.

\textsuperscript{33} Id.

\textsuperscript{34} Id.
• The bill’s requirement for the DOH to provide an appeals process under ch. 120, F.S., is in conflict with federal regulations that provide the right to file a due process complaint, along with specific resolution procedures; 35 and
• The bill’s requirements for posting public information do not meet the federal requirements for stakeholder input and that a more realistic implementation date for the bill’s changes to eligibility criteria would be December 2016 or January 2017. 36

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 383.141, 391.025, 391.026, 391.301, 391.302, 391.308, 413.092, 1003.575,

This bill repeals the following sections of the Florida Statutes: 391.303, 391.304, 391.305, 391.306, and 391.307.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:

(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS by Appropriations Subcommittee on Health and Human Services on January 13, 2016:

The proposed CS:
• Requires the Early Steps program to coordinate services with other programs serving infants and toddlers, as opposed to coordinating services with other early intervention programs as in the underlying bill;
• Deletes from statute the definitions of “in-hospital intervention services” and “parent support and training;”
• Requires the Department of Health (DOH) to educate certain hospitals about the Early Steps program, as opposed to ensuring that those hospitals provide certain services as in the underlying bill;
• Requires the DOH to provide a mediation process and, if necessary, an appeals process under ch. 120, F.S., to applicants found ineligible for services or who are denied financial support, as opposed to the underlying bill, which does not include the provision for a mediation process;
• Removes from the bill the requirement for local Early Steps offices to secure and maintain contracts with Medicaid managed care plans; and
• Changes all references in the bill to “Medicaid managed care entities” to “Medicaid managed care organizations;”

B. Amendments:

None.

35 Id.
36 Testimony before the Senate Appropriations Subcommittee on Health and Human Services from Cassandra Pasley, Division Director of Children’s Medical Services at the Department of Health, January 13, 2016.
This Senate Bill Analysis does not reflect the intent or official position of the bill’s introducer or the Florida Senate.
Appropriations Subcommittee on Health and Human Services (Sobel) recommended the following:

**Senate Amendment (with title amendment)**

Delete everything after the enacting clause and insert:

Section 1. Subsections (2) and (3) of section 383.141, Florida Statutes, are amended, and subsection (4) is added to that section, to read:

383.141 Prenatally diagnosed conditions; patient to be provided information; definitions; information clearinghouse; advisory council.
(2) When a developmental disability is diagnosed based on the results of a prenatal test, the health care provider who ordered the prenatal test, or his or her designee, shall provide the patient with current information about the nature of the developmental disability, the accuracy of the prenatal test, and resources for obtaining relevant support services, including hotlines, resource centers, and information clearinghouses related to Down syndrome or other prenatally diagnosed developmental disabilities; support programs for parents and families; and developmental evaluation and intervention services under this part s. 391.303.

(3) The Department of Health shall develop and implement a comprehensive information clearinghouse to educate health care providers, inform parents, and increase public awareness regarding brain development, developmental disabilities and delays, and all services, resources, and interventions available to mitigate the effects of impaired development among children. The clearinghouse must use the term “unique abilities” as much as possible when identifying infants or children with developmental disabilities and delays. The clearinghouse must provide:

(a) Health information on conditions that may lead to impaired development of physical, learning, language, or behavioral skills.

(b) Education and information to support parents whose unborn children have been prenatally diagnosed with developmental disabilities or whose children have diagnosed or suspected developmental delays.

(c) Education and training for health care providers to
recognize and respond appropriately to developmental disabilities, delays, and conditions related to disabilities or delays. Specific information approved by the advisory council shall be made available to health care providers for use in counseling parents whose unborn children have been prenatally diagnosed with developmental disabilities or whose children have diagnosed or suspected developmental delays.

(d) Promotion of public awareness of availability of supportive services, such as resource centers, educational programs, other support programs for parents and families, and developmental evaluation and intervention services.

(e) Hotlines specific to Down syndrome and other prenatally diagnosed developmental disabilities. The hotlines and the department’s clearinghouse must provide information to parents and families or other caregivers regarding the Early Steps Program under s. 391.301, the Florida Diagnostic Learning and Resource System, the Early Learning program, Healthy Start, Help Me Grow, and any other intervention programs. Information offered must include directions on how to obtain early intervention, rehabilitative, and habilitative services and devices establish on its Internet website a clearinghouse of information related to developmental disabilities concerning providers of supportive services, information hotlines specific to Down syndrome and other prenatally diagnosed developmental disabilities, resource centers, educational programs, other support programs for parents and families, and developmental evaluation and intervention services under s. 391.303. Such information shall be made available to health care providers for use in counseling pregnant women whose unborn children have been diagnosed or suspected developmental disabilities.
(4) (a) There is established an advisory council within the Department of Health which consists of health care providers and caregivers who perform health care services for persons who have developmental disabilities, including Down syndrome and autism. This group shall consist of nine members as follows:

1. Three members appointed by the Governor;
2. Three members appointed by the President of the Senate;
and
3. Three members appointed by the Speaker of the House of Representatives.

(b) The advisory council shall provide technical assistance to the Department of Health in the establishment of the information clearinghouse and give the department the benefit of the council members’ knowledge and experience relating to the needs of patients and families of patients with developmental disabilities and available support services.

(c) Members of the council shall elect a chairperson and a vice chairperson. The elected chairperson and vice chairperson shall serve in these roles until their terms of appointment on the council expire.

(d) The advisory council shall meet quarterly to review this clearinghouse of information, and may meet more often at the call of the chairperson or as determined by a majority of members.

(e) The council members shall be appointed to 4-year terms, except that, to provide for staggered terms, one initial appointee each from the Governor, the President of the Senate, and the Speaker of the House of Representatives shall be
appointed to a 2-year term, one appointee each from these
officials shall be appointed to a 3-year term, and the remaining
initial appointees shall be appointed to 4-year terms. All
subsequent appointments shall be for 4-year terms. A vacancy
shall be filled for the remainder of the unexpired term in the
same manner as the original appointment.
(f) Members of the council shall serve without
compensation. Meetings of the council may be held in person,
without reimbursement for travel expenses, or by teleconference
or other electronic means.
(g) The Department of Health shall provide administrative
support for the advisory council.
Section 2. Paragraph (c) of subsection (1) of section
391.025, Florida Statutes, is amended to read:
391.025 Applicability and scope.—
(1) The Children’s Medical Services program consists of the
following components:
(c) The developmental evaluation and intervention program,
including the Early Steps Florida Infants and Toddlers Early
Intervention Program.
Section 3. Subsection (19) is added to section 391.026,
Florida Statutes, to read:
391.026 Powers and duties of the department.—The department
shall have the following powers, duties, and responsibilities:
(19) To serve as the lead agency in administering the Early
Steps Program pursuant to part C of the federal Individuals with
Disabilities Education Act and part III of this chapter.
Section 4. Section 391.301, Florida Statutes, is amended to
read:
391.301 Early Steps Program; establishment and goals

Developmental evaluation and intervention programs; legislative findings and intent.—

(1) The Early Steps Program is established within the department to serve infants and toddlers who are at risk of developmental disabilities based on a physical or mental condition and infants and toddlers with developmental delays by providing developmental evaluation and early intervention and by providing families with training and support services in a variety of home and community settings in order to enhance family and caregiver competence, confidence, and capacity to meet their child’s developmental needs and desired outcomes. The Legislature finds that the high-risk and disabled newborn infants in this state need in hospital and outpatient developmental evaluation and intervention and that their families need training and support services. The Legislature further finds that there is an identifiable and increasing number of infants who need developmental evaluation and intervention and family support due to the fact that increased numbers of low-birthweight and sick full-term newborn infants are now surviving because of the advances in neonatal intensive care medicine; increased numbers of medically involved infants are remaining inappropriately in hospitals because their parents lack the confidence or skills to care for these infants without support; and increased numbers of infants are at risk due to parent risk factors, such as substance abuse, teenage pregnancy, and other high-risk conditions.

(2) The program may include screening and referral. It is the intent of the Legislature to establish developmental
evaluation and intervention services at all hospitals providing Level II or Level III neonatal intensive care services, in order to promptly identify newborns with disabilities or with conditions associated with risks of developmental delays so that families with high-risk or disabled infants may gain as early as possible the services and skills they need to support their infants’ development.

(3) The program must It is the intent of the Legislature that a methodology be developed to integrate information and coordinate services on infants with potentially disabling conditions with other programs serving infants and toddlers early intervention programs, including, but not limited to, Part C of Pub. L. No. 105-17 and the Healthy Start program, the newborn screening program, and the Blind Babies Program.

(4) The program must:
   (a) Provide services to enhance the development of infants and toddlers with disabilities and delays.
   (b) Expand the recognition by health care providers, families, and the public of the significant brain development that occurs during a child’s first 3 years of life.
   (c) Maintain the importance of the family in all areas of the child’s development and support the family’s participation in early intervention services and decisions affecting the child.
   (d) Operate a comprehensive, coordinated interagency system of early intervention services and supports in accordance with part C of the federal Individuals with Disabilities Education Act.
   (e) Ensure timely evaluation, individual planning, and
early intervention services necessary to meet the unique needs of eligible infants and toddlers.

(f) Build the service capacity and enhance the competencies of health care providers serving infants and toddlers with unique needs and abilities.

(g) Ensure programmatic and fiscal accountability through establishment of a high-capacity data system, active monitoring of performance indicators, and ongoing quality improvement.

Section 5. Section 391.302, Florida Statutes, is amended to read:

391.302 Definitions.—As used in ss. 391.301-391.308, the term:

(1) “Developmental delay” means a condition, identified and measured through appropriate instruments and procedures, which may delay physical, cognitive, communication, social/emotional, or adaptive development.

(2) “Developmental disability” means a condition, identified and measured through appropriate instruments and procedures, which may impair physical, cognitive, communication, social/emotional, or adaptive development.

(3) “Developmental intervention” or “early intervention” means individual and group individualized therapies and services needed to enhance both the infant’s or toddler’s growth and development and family functioning. The term includes habilitative services and assistive technology devices, rehabilitative services and assistive technology devices, and parent support and training.

(4) “Habilitative services and devices” means health care services and assistive technology devices that help a child
maintain, learn, or improve skills and functioning for daily living.

(5) “Infant or toddler” or “child” means a child from birth until the child’s third birthday.

(3) “In-hospital intervention services” means the provision of assessments; the provision of individualized services; monitoring and modifying the delivery of medical interventions; and enhancing the environment for the high-risk, developmentally disabled, or medically involved infant or toddler in order to achieve optimum growth and development.

(7) “Local program office” means an office that administers the Early Steps Program within a municipality, county, or region.

(4) “Parent support and training” means a range of services to families of high-risk, developmentally disabled, or medically involved infants or toddlers, including family counseling; financial planning; agency referral; development of parent-to-parent support groups; education concerning growth, development, and developmental intervention and objective measurable skills, including abuse avoidance skills; training of parents to advocate for their child; and bereavement counseling.

(9) “Rehabilitative services and devices” means restorative and remedial services that maintain or enhance the current level of functioning of a child if there is a possibility of improvement or reversal of impairment.

Section 6. Section 391.308, Florida Statutes, is amended to read:

391.308 Early Steps Infants and Toddlers Early Intervention Program.—The department shall implement
and administer part C of the federal Individuals with Disabilities Education Act (IDEA), which shall be known as the “Early Steps “Florida Infants and Toddlers Early Intervention Program.”

(1) PERFORMANCE STANDARDS.—The department shall ensure that the Early Steps Program complies with the following performance standards:

(a) The program must provide services from referral through transition in a family-centered manner that recognizes and responds to unique circumstances and needs of infants and toddlers and their families as measured by a variety of qualitative data, including satisfaction surveys, interviews, focus groups, and input from stakeholders.

(b) The program must provide individualized family support plans that are understandable and usable by families, health care providers, and payers and that identify the current level of functioning of the infant or toddler, family supports and resources, expected outcomes, and specific early intervention services needed to achieve the expected outcomes, as measured by periodic system independent evaluation.

(c) The program must help each family to use available resources in a way that maximizes the child’s access to services necessary to achieve the outcomes of the individualized family support plan, as measured by family feedback and by independent assessments of services used by each child.

(d) The program must offer families access to quality services that effectively enable infants and toddlers with developmental disabilities and developmental delays to achieve optimal functional levels as measured by an independent
evaluation of outcome indicators in social emotional skills, communication, and adaptive behaviors.

(2) DUTIES OF THE DEPARTMENT.—The department shall:
(a) Jointly with the Department of Education, shall annually prepare a grant application to the United States Department of Education for funding early intervention services for infants and toddlers with disabilities, from birth through 36 months of age, and their families pursuant to part C of the federal Individuals with Disabilities Education Act.

(b) The department, jointly with the Department of Education, shall include a reading initiative as an early intervention service for infants and toddlers.

(c) Annually develop a state plan for the Early Steps Program.
1. The plan must assess the need for early intervention services, evaluate the extent of the statewide need that is met by the program, identify barriers to fully meeting the need, and recommend specific action steps to improve program performance.

2. The plan must be developed through an inclusive process that involves families, local program offices, health care providers, and other stakeholders.

(d) Ensure local program offices educate hospitals that provide Level II and Level III neonatal intensive care services about the Early Steps Program and the referral process for the provision of developmental evaluation and intervention services.

(e) Establish standards and qualifications for developmental evaluation and early intervention service providers, including standards for determining the adequacy of provider networks in each local program office service area.
(f) Establish statewide uniform protocols and procedures to determine eligibility for developmental evaluation and early intervention services.

(g) Establish a consistent, statewide format and procedure for preparing and completing an individualized family support plan.

(h) Promote interagency cooperation and coordination, with the Medicaid program, the Department of Education program pursuant to part B of the federal Individuals with Disabilities Education Act, and programs providing child screening such as the Florida Diagnostic Learning and Resource System, the Office of Early Learning, Healthy Start, and Help Me Grow program.

1. Coordination with the Medicaid program shall be developed and maintained through written agreements with the Agency for Health Care Administration and Medicaid managed care organizations as well as through active and ongoing communication with these organizations. The department shall assist local program offices to negotiate agreements with Medicaid managed care organizations in the service areas of the local program offices. Such agreements may be formal or informal.

2. Coordination with education programs pursuant to part B of the federal Individuals with Disabilities Education Act shall be developed and maintained through written agreements with the Department of Education. The department shall assist local program offices to negotiate agreements with school districts in the service areas of the local program offices.

(i) Develop and disseminate the knowledge and methods necessary to effectively coordinate benefits among various payer
(j) Provide a mediation process and if necessary, an appeals process under chapter 120 for applicants found ineligible for developmental evaluation or early intervention services or denied financial support for such services.

(k) Competitively procure local program offices to provide services throughout the state in accordance with chapter 287. The department shall specify the requirements and qualifications for local program offices in the procurement document.

(l) Establish performance standards and other metrics for evaluation of local program offices, including standards for measuring timeliness of services, outcomes of early intervention services, and administrative efficiency. Performance standards and metrics shall be developed in consultation with local program offices.

(m) Provide technical assistance to the local program offices.

(3) ELIGIBILITY.—The department shall apply the following eligibility criteria if specific funding is provided in the General Appropriations Act.

(a) Infants and toddlers are eligible for an evaluation to determine the presence of a developmental disability or risk of a developmental delay based on a physical or medical condition.

(b) Infants and toddlers determined to have a developmental delay based on a standardized evaluation instrument that results in a score that is 1.5 standard deviations from the mean in two or more of the following domains: physical, cognitive, communication, social or emotional, and adaptive.

(c) Infants and toddlers determined to have a developmental
delay based on a standardized evaluation instrument that results
in a score that is 2.0 standard deviations from the mean in one
of the following domains: physical, cognitive, communication,
social/emotional, and adaptive.

(d) Infants and toddlers with a developmental delay based
on informed clinical opinion.

(e) Infants and toddlers at risk of developmental delay
based on an established condition known to result in
developmental delay, or a physical or mental condition known to
create a risk of developmental delay.

(4) DUTIES OF THE LOCAL PROGRAM OFFICES.—A local program
office shall:

(a) Evaluate a child to determine eligibility within 45
calendar days after the child is referred to the program.

(b) Notify the parent or legal guardian of his or her
child’s eligibility status initially and at least annually
thereafter. If a child is determined not to be eligible, the
local program office must provide the parent or legal guardian
with written information on the right to an appeal and the
process for making such an appeal.

(c) Secure and maintain interagency agreements or contracts
with local school districts in a local service area.

(d) Provide services directly or procure services from
health care providers that meet or exceed the minimum
qualifications established for service providers. The local
program office must become a Medicaid provider if it provides
services directly.

(e) Provide directly or procure services that are, to the
extent possible, delivered in a child’s natural environment,
such as in the child’s home or community setting. The inability to provide services in the natural environment is not a sufficient reason to deny services.

(f) Develop an individualized family support plan for each child served. The plan must:

1. Be completed within 45 calendar days after the child is referred to the program;

2. Be developed in conjunction with the child’s parent or legal guardian who provides written consent for the services included in the plan;

3. Be reviewed at least every six months with the parent or legal guardian and updated if needed; and

4. Include steps to transition to school or other future services by the child’s third birthday.

(g) Assess the progress of the child and his or her family in meeting the goals of the individualized family support plan.

(h) For each service required by the individualized family support plan, refer the child to an appropriate service provider or work with Medicaid managed care organizations or private insurers to secure the needed services.

(i) Provide service coordination, including contacting the appropriate service provider to determine whether the provider can timely deliver the service, providing the parent or legal guardian with the name and contact information of the service provider and the date and location of the service of any appointment made on behalf of the child, and contacting the parent or legal guardian after the service is provided to ensure that the service is delivered timely and to determine whether the family requests additional services.
(j) Negotiate and maintain agreements with Medicaid providers and Medicaid managed care organizations in its area.

1. With the parent’s or legal guardian’s permission, the services in the child’s approved individualized family support plan shall be communicated to the Medicaid managed care organization. Services that cannot be funded by Medicaid must be specifically identified and explained to the family.

2. The agreement between the local program office and Medicaid managed care organizations must establish methods of communication and procedures for the timely approval of services covered by Medicaid.

(k) Develop agreements and arrangements with private insurers in order to coordinate benefits and services for any mutual enrollee.

1. The child’s approved individualized family support plan may be communicated to the child’s insurer with the parent’s or legal guardian’s permission.

2. The local program office and private insurers shall establish methods of communication and procedures for the timely approval of services covered by the child’s insurer, if appropriate and approved by the child’s parent or legal guardian.

(l) Provide to the department data necessary for an evaluation of the local program office performance.

(5) ACCOUNTABILITY REPORTING.—By December 1 of each year, the department shall prepare and submit a report that assesses the performance of the Early Steps Program to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Florida Interagency Coordinating
Council for Infants and Toddlers. The department must address the performance standards in subsection (1) and report actual performance compared to the standards for the prior fiscal year. The data used to compile the report must be submitted by each local program office in the state. The department shall report on all of the following measures:

(a) Number and percentage of infants and toddlers served with an individualized family support plan.

(b) Number and percentage of infants and toddlers demonstrating improved social/emotional skills after the program.

(c) Number and percentage of infants and toddlers demonstrating improved use of knowledge and cognitive skills after the program.

(d) Number and percentage of families reporting positive outcomes in their infant’s and toddler’s development as a result of early intervention services.

(e) Progress toward meeting the goals of individualized family support plans.

(f) Any additional measures established by the department.

(6) STATE INTERAGENCY COORDINATING COUNCIL.—The Florida Interagency Coordinating Council for Infants and Toddlers shall serve as the state interagency coordinating council required by 34 C.F.R. s. 303.600. The council shall be housed for administrative purposes in the department, and the department shall provide administrative support to the council.

(7) TRANSITION TO EDUCATION.—

(a) At least 90 days before a child reaches 3 years of age, the local program office shall initiate transition planning to
ensure the child’s successful transition from the Early Steps Program to a school district program for children with disabilities or to another program as part of an individual family support plan.

(b) At least 90 days before a child reaches 3 years of age, the local program office shall:

1. Notify the local school district in which the child resides and the Department of Education that the child may be eligible for special education or related services as determined by the local school district pursuant to ss. 1003.21 and 1003.57, unless the child’s parent or legal guardian has opted out of such notification; and

2. Upon approval by the child’s parent or legal guardian, convene a transition conference that includes participation of a local school district representative and the parent or legal guardian to discuss options for and availability of services.

(c) The local school district shall evaluate and determine a child’s eligibility to receive special education or related services pursuant to part B of the federal Individuals with Disabilities Education Act and ss. 1003.21 and 1003.57.

(d) The local program office, in conjunction with the local school district, shall modify a child’s individual family support plan or, if applicable, the local school district shall develop an individual education plan for the child pursuant to ss. 1003.57, 1003.571, and 1003.5715, which identifies special education or related services that the child will receive and the providers or agencies that will provide such services.

(e) If a child is determined to be ineligible for school district program services, the local program office and the
local school district shall provide the child’s parent or legal
guardian with written information on other available services or
community resources.

(f) The local program office shall negotiate and maintain
an interagency agreement with each local school district in its
service area pursuant to the Individuals with Disabilities
agreement must be reviewed at least annually and updated upon
review, if needed.

Section 7. Subsections (1) and (2) of section 413.092,
Florida Statutes, are amended to read:

413.092 Blind Babies Program.—

(1) The Blind Babies Program is created within the Division
of Blind Services of the Department of Education to provide
community-based early-intervention education to children from
birth through 5 years of age who are blind or visually impaired,
and to their parents, families, and caregivers, through
community-based provider organizations. The division shall
enlist parents, ophthalmologists, pediatricians, schools, the
Early Steps Program Infant and Toddlers Early Intervention
Programs, and therapists to help identify and enroll blind and
visually impaired children, as well as their parents, families,
and caregivers, in these educational programs.

(2) The program is not an entitlement but shall promote
early development with a special emphasis on vision skills to
minimize developmental delays. The education shall lay the
groundwork for future learning by helping a child progress
through normal developmental stages. It shall teach children to
discover and make the best use of their skills for future
success in school. It shall seek to ensure that visually impaired and blind children enter school as ready to learn as their sighted classmates. The program shall seek to link these children, and their parents, families, and caregivers, to other available services, training, education, and employment programs that could assist these families in the future. This linkage may include referrals to the school districts and the Early Steps Infants and Toddlers Early Intervention Program for assessments to identify any additional services needed which are not provided by the Blind Babies Program. The division shall develop a formula for eligibility based on financial means and may create a means-based matrix to set a copayment fee for families having sufficient financial means.

Section 8. Subsection (1) of section 1003.575, Florida Statutes, is amended to read:

1003.575 Assistive technology devices; findings; interagency agreements.—Accessibility, utilization, and coordination of appropriate assistive technology devices and services are essential as a young person with disabilities moves from early intervention to preschool, from preschool to school, from one school to another, and from school to employment or independent living. If an individual education plan team makes a recommendation in accordance with State Board of Education rule for a student with a disability, as defined in s. 1003.01(3), to receive an assistive technology assessment, that assessment must be completed within 60 school days after the team’s recommendation. To ensure that an assistive technology device issued to a young person as part of his or her individualized family support plan, individual support plan, or an individual
education plan remains with the individual through such transitions, the following agencies shall enter into interagency agreements, as appropriate, to ensure the transaction of assistive technology devices:

(1) The Early Steps Florida Infants and Toddlers Early Intervention Program in the Division of Children’s Medical Services of the Department of Health.

Interagency agreements entered into pursuant to this section shall provide a framework for ensuring that young persons with disabilities and their families, educators, and employers are informed about the utilization and coordination of assistive technology devices and services that may assist in meeting transition needs, and shall establish a mechanism by which a young person or his or her parent may request that an assistive technology device remain with the young person as he or she moves through the continuum from home to school to postschool.

Section 9. Section 391.303, Florida Statutes, is repealed.
Section 10. Section 391.304, Florida Statutes, is repealed.
Section 11. Section 391.305, Florida Statutes, is repealed.
Section 12. Section 391.306, Florida Statutes, is repealed.
Section 13. Section 391.307, Florida Statutes, is repealed.
Section 14. This act shall take effect July 1, 2016.

================= T I T L E A M E N D M E N T =================
And the title is amended as follows:
Delete everything before the enacting clause and insert:

A bill to be entitled
An act relating to prenatal services and early childhood development; amending s. 383.141, F.S.; revising the requirements for the Department of Health to maintain a clearinghouse of information for parents and health care providers and to increase public awareness on developmental evaluation and early intervention programs; requiring the clearinghouse to use a specified term; revising the information to be included in the clearinghouse; amending s. 391.025, F.S.; renaming the “Infants and Toddlers Early Intervention Program” as the “Early Steps Program”; revising the components of the Children’s Medical Services program; amending s. 391.026, F.S.; requiring the department to serve as the lead agency in administering the Early Steps Program; amending s. 391.301, F.S.; establishing the Early Steps Program within the department; deleting provisions relating to legislative findings; authorizing the program to include certain screening and referral services for specified purposes; providing requirements and responsibilities for the program; amending s. 391.302, F.S.; defining terms; revising the definitions of certain terms; and deleting outdated terms; amending s. 391.308, F.S.; renaming the “Infants and Toddlers Early Intervention Program” as the “Early Steps Program”; requiring, rather than authorizing, the department to implement and administer the program; requiring the department to ensure that the program follows specified performance standards; providing
requirements of the program to meet such performance standards; revising the duties of the department; requiring the department to apply specified eligibility criteria for the program based on an appropriation of funds; providing duties for local program offices; requiring the development of an individualized family support plan for each child served in the program; requiring referral for services by a local program office under certain circumstances; requiring the local program office to negotiate and maintain agreements with specified providers and managed care organizations; requiring the local program office to coordinate with managed care organizations; requiring the department to submit an annual report, subject to certain requirements, to the Governor, the Legislature, and the Florida Interagency Coordinating Council for Infants and Toddlers by a specified date; designating the Florida Interagency Coordinating Council for Infants and Toddlers as the state interagency coordinating council required by federal rule subject to certain requirements; providing requirements for the local program office and local school district to prepare certain children for the transition to school under certain circumstances; amending ss. 413.092 and 1003.575, F.S.; conforming provisions to changes made by the act; repealing ss. 391.303, 391.304, 391.305, 391.306, and 391.307, F.S., relating to requirements for the Children’s Medical Services program, program...
coordination, program standards, program funding and contracts, and program review, respectively; providing an effective date.
A bill to be entitled An act relating to prenatal services and early childhood development; amending s. 383.141, F.S.; revising the requirements for the Department of Health to maintain a clearinghouse of information for parents and health care providers and to increase public awareness on developmental evaluation and early intervention programs; requiring the clearinghouse to use a specified term; revising the information to be included in the clearinghouse; amending s. 391.025, F.S.; renaming the "Infants and Toddlers Early Intervention Program" as the "Early Steps Program"; revising the components of the Children’s Medical Services program; amending s. 391.026, F.S.; requiring the department to serve as the lead agency in administering the Early Steps Program; amending s. 391.301, F.S.; establishing the Early Steps Program within the department; deleting provisions relating to legislative findings; authorizing the program to include certain screening and referral services for specified purposes; providing requirements and responsibilities for the program; amending s. 391.302, F.S.; defining terms; revising the definitions of certain terms; amending s. 391.308, F.S.; renaming the "Infants and Toddlers Early Intervention Program" as the "Early Steps Program"; requiring, rather than authorizing, the department to implement and administer the program; requiring the department to ensure that the program follows specified performance standards; providing requirements of the program to meet such performance standards; revising the duties of the department; requiring the department to apply specified eligibility criteria for the program; providing duties for local program offices; requiring the development of an individualized family support plan for each child served in the program; requiring referral for services by a local program office under certain circumstances; requiring the local program office to negotiate and maintain agreements with specified providers and managed care entities; requiring the local program office to coordinate with managed care plans; requiring the department to submit an annual report, subject to certain requirements, to the Governor, the Legislature, and the Florida Interagency Coordinating Council for Infants and Toddlers by a specified date; designating the Florida Interagency Coordinating Council for Infants and Toddlers as the state interagency coordinating council required by federal rule subject to certain requirements; providing requirements for the local program office and local school district to prepare certain children for the transition to school under certain circumstances; amending ss. 413.092 and 1003.575, F.S.; conforming provisions to changes made by the act; repealing ss. 391.303, 391.304, 391.305, 391.306, and 391.307, F.S., relating to requirements for the Children’s Medical Services program, program coordination, program standards, program funding and...
Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsections (2) and (3) of section 383.141, Florida Statutes, are amended, and subsection (4) is added to that section, to read:

383.141 Prenatally diagnosed conditions; patient to be provided information; definitions; information clearinghouse; advisory council.—

(2) When a developmental disability is diagnosed based on the results of a prenatal test, the health care provider who ordered the prenatal test, or his or her designee, shall provide the patient with current information about the nature of the developmental disability, the accuracy of the prenatal test, and resources for obtaining relevant support services, including hotlines, resource centers, and information clearings for Down syndrome or other prenatally diagnosed developmental disabilities; support programs for parents and families; and developmental evaluation and intervention services under this part 391.303.

(3) The Department of Health shall develop and implement a comprehensive information clearinghouse to educate health care providers, inform parents, and increase public awareness regarding brain development, developmental disabilities and delays, and all services, resources, and interventions available to mitigate the effects of impaired development among children. The clearinghouse must use the term “unique abilities” as much as possible when identifying infants or children with developmental disabilities and delays. The clearinghouse must provide:

(a) Health information on conditions that may lead to impaired development of physical, learning, language, or behavioral skills.

(b) Education and information to support parents whose unborn children have been prenatally diagnosed with developmental disabilities or whose children have diagnosed or suspected developmental delays.

(c) Education and training for health care providers to recognize and respond appropriately to developmental disabilities, delays, and conditions related to disabilities or delays. Specific information approved by the advisory council shall be made available to health care providers for use in counseling parents whose unborn children have been prenatally diagnosed with developmental disabilities or whose children have diagnosed or suspected developmental delays.

(d) Promotion of public awareness of availability of supportive services, such as resource centers, educational programs, other support programs for parents and families, and developmental evaluation and intervention services.

(e) Hotlines specific to Down syndrome and other prenatally diagnosed developmental disabilities. The hotlines and the department’s clearinghouse must provide information to parents and families or other caregivers regarding the Early Steps Program under s. 391.301, the Florida Diagnostic Learning and Resource System, the Early Learning program, Healthy Start, Help Me Grow, and any other intervention programs. Information
Members of the council shall elect a chairperson and a vice chairperson. The elected chairperson and vice chairperson shall serve in these roles until their terms of appointment on the council expire.

(d) The advisory council shall meet quarterly to review this clearinghouse of information, and may meet more often at the call of the chairperson or as determined by a majority of members.

(e) The council members shall be appointed to 4-year terms, except that, to provide for staggered terms, one initial appointee each from the Governor, the President of the Senate, and the Speaker of the House of Representatives shall be appointed to a 2-year term, one appointee each from these officials shall be appointed to a 3-year term, and the remaining initial appointees shall be appointed to 4-year terms. All subsequent appointments shall be for 4-year terms. A vacancy shall be filled for the remainder of the unexpired term in the same manner as the original appointment.

(f) Members of the council shall serve without compensation. Meetings of the council may be held in person, without reimbursement for travel expenses, or by teleconference or other electronic means.

(g) The Department of Health shall provide administrative support for the advisory council.

Paragraph (c) of subsection (1) of section 391.025, Florida Statutes, is amended to read:

(1) The Children’s Medical Services program consists of the following components:

(c) The developmental evaluation and intervention program,
are now surviving because of the advances in neonatal intensive care medicine; increased numbers of medically involved infants are remaining inappropriately in hospitals because their parents lack the confidence or skills to care for these infants without support; and increased numbers of infants are at risk due to parent risk factors, such as substance abuse, teenage pregnancy, and other high-risk conditions.

(2) The program may include screening and referral to establish developmental evaluation and intervention services at all hospitals providing Level II or Level III neonatal intensive care services, in order to promptly identify newborns with disabilities or with conditions associated with risks of developmental delays so that families with high-risk or disabled infants may gain as early as possible the services and skills they need to support their infants’ development.

(3) The program must include a methodology to develop and coordinate services for infants with potentially disabling conditions with other early intervention programs, including, but not limited to, Part C of Pub. L. No. 105-17 and the Healthy Start program, the newborn screening program, and the Blind Babies Program.

(4) The program must:

(a) Provide services to enhance the development of infants and toddlers with disabilities or delays.

(b) Expand the recognition by health care providers, families, and the public of the significant brain development that occurs during a child’s first 3 years of life.

(c) Maintain the importance of the family in all areas of support; and increased numbers of infants are at risk due to parent risk factors, such as substance abuse, teenage pregnancy, and other high-risk conditions.

(c) Maintain the importance of the family in all areas of
(3) "Developmental intervention" or "early intervention"

Page 9 of 23  
CODING: Words [ ] are deletions; words _ are additions.
(3) "Rehabilitative services and devices" means restorative and remedial services that maintain or enhance the current level of functioning of a child if there is a possibility of improvement or reversal of impairment.

Section 6. Section 391.308, Florida Statutes, is amended to read:

391.308 Early Steps Infants and Toddlers Early Intervention Program.—The department shall implement and administer part C of the federal Individuals with Disabilities Education Act (IDEA), which shall be known as the "Early Steps Infants and Toddlers Early Intervention Program."

(i) PERFORMANCE STANDARDS.—The department shall ensure that the Early Steps Program complies with the following performance standards:

(a) The program must provide services from referral through transition in a family-centered manner that recognizes and responds to unique circumstances and needs of infants and toddlers and their families as measured by a variety of qualitative data, including satisfaction surveys, interviews, focus groups, and input from stakeholders.

(b) The program must provide individualized family support plans that are understandable and usable by families, health care providers, and payors and that identify the current level of functioning of the infant or toddler, family supports and resources, expected outcomes, and specific early intervention services needed to achieve the expected outcomes, as measured by periodic system independent evaluation.

(c) The program must help each family to use available resources in a way that maximizes the child’s access to services necessary to achieve the outcomes of the individualized family support plan, as measured by family feedback and by independent assessments of services used by each child.

(d) The program must offer families access to quality services that effectively enable infants and toddlers with developmental disabilities and developmental delays to achieve optimal functional levels as measured by an independent evaluation of outcome indicators in social emotional skills, communication, and adaptive behaviors.

(2) DUTIES OF THE DEPARTMENT.—The department shall:

(a) Jointly with the Department of Education, shall annually prepare a grant application to the United States Department of Education for funding early intervention services for infants and toddlers with disabilities, from birth through 36 months of age, and their families pursuant to part C of the federal Individuals with Disabilities Education Act.

(b) The department, Jointly with the Department of Education, provide shall include a reading initiative as an early intervention service for infants and toddlers.

(c) Annually develop a state plan for the Early Steps Program.

1. The plan must assess the need for early intervention services, evaluate the extent of the statewide need that is met by the program, identify barriers to fully meeting the need, and recommend specific action steps to improve program performance.

2. The plan must be developed through an inclusive process that involves families, local program offices, health care
(d) Ensure the provision of developmental evaluation and intervention services in each hospital that provides Level II and Level III neonatal intensive care services to an infant or a toddler identified as being at risk for developmental disabilities who along with his or her family, would benefit from early intervention services.

(e) Establish standards and qualifications for developmental evaluation and early intervention service providers, including standards for determining the adequacy of provider networks in each local program office service area.

(f) Establish statewide uniform protocols and procedures to determine eligibility for developmental evaluation and early intervention services.

(g) Establish a consistent, statewide format and procedure for preparing and completing an individualized family support plan.

(h) Promote interagency cooperation and coordination, with the Medicaid program, the Department of Education program pursuant to part B of the federal Individuals with Disabilities Education Act, and programs providing child screening such as the Florida Diagnostic Learning and Resource System, the Early Learning program, Healthy Start, and Help Me Grow program.

1. Coordination with the Medicaid program shall be developed and maintained through written agreements with the Agency for Health Care Administration and Medicaid managed care entities as well as through active and ongoing communication with these entities. The department shall assist local program offices to negotiate agreements with Medicaid managed care entities in the service areas of the local program offices. Such agreements may be formal or informal.

2. Coordination with education programs pursuant to part B of the federal Individuals with Disabilities Education Act shall be developed and maintained through written agreements with the Department of Education. The department shall assist local program offices to negotiate agreements with school districts in the service areas of the local program offices.

(i) Develop and disseminate the knowledge and methods necessary to effectively coordinate benefits among various payor types.

(j) Provide an appeals process under chapter 120 for applicants found ineligible for developmental evaluation or early intervention services or denied financial support for such services.

(k) Competitively procure local program offices to provide services throughout the state in accordance with chapter 287. The department shall specify the requirements and qualifications for local program offices in the procurement document.

(l) Establish performance standards and other metrics for evaluation of local program offices, including standards for measuring timeliness of services, outcomes of early intervention services, and administrative efficiency. Performance standards and metrics shall be developed in consultation with local program offices.

(m) Provide technical assistance to the local program offices.

(3) ELIGIBILITY.—The department shall apply the following eligibility criteria as authorized in the General Appropriations Acts:
DUTIES OF THE LOCAL PROGRAM OFFICES.—A local program office shall:

(a) Evaluate a child to determine eligibility within 45 calendar days after the child is referred to the program.

(b) Notify the parent or legal guardian of his or her child’s eligibility status initially and at least annually thereafter. If a child is determined not to be eligible, the local program office must provide the parent or legal guardian with written information on the right to an appeal and the process for making such an appeal.

(c) Secure and maintain interagency agreements or contracts with local school districts and the Medicaid managed care plans in a local service area.

(d) Provide services directly or procure services from health care providers that meet or exceed the minimum qualifications established for service providers. The local program office must become a Medicaid provider if it provides services directly.

(e) Provide directly or procure services that are, to the extent possible, delivered in a child’s natural environment, such as in the child’s home or community setting. The inability to provide services in the natural environment is not a sufficient reason to deny services.

(f) Develop an individualized family support plan for each child served. The plan must:

1. Be completed within 45 calendar days after referral in the program;

2. Be developed in conjunction with the child’s parent or legal guardian who provides written consent for the services included in the plan;

3. Be reviewed at least every six months with the parent or legal guardian and updated if needed; and

4. Include steps to transition to school or other future services by the child’s third birthday.

(g) Assess the progress of the child and his or her family's developmental status and set future goals.

(h) Review the eligibility status of children and transition plans periodically.
(h) For each service required by the individualized family support plan, refer the child to an appropriate service provider or work with Medicaid managed care entities or private insurers to secure the needed services.

(i) Provide service coordination services, including contacting the appropriate service provider to determine whether the provider can timely deliver the service, providing the parent or legal guardian with the name and location of the service and the date of any appointment made on behalf of the child, and contacting the parent or legal guardian after the service is provided to ensure that the service is delivered timely and to determine whether the family requests additional services.

(j) Negotiate and maintain agreements with Medicaid providers and Medicaid managed care entities in its area.

1. With the parent’s or legal guardian’s permission, the services in the child’s approved individualized family support plan shall be communicated to the Medicaid managed care entity. Services that cannot be funded by Medicaid must be specifically identified and explained to the family.

2. The agreement between the local program office and Medicaid managed care entities must establish methods of communication and procedures for the timely approval of services covered by Medicaid.

(k) Develop agreements and arrangements with private insurers in order to coordinate benefits and services for any mutual enrollee.

1. The child’s approved individualized family support plan may be communicated to the child’s insurer with the parent’s or legal guardian’s permission.

2. The local program office and private insurers shall establish methods of communication and procedures for the timely approval of services covered by the child’s insurer, if appropriate and approved by the child’s parent or legal guardian.

(1) Provide to the department data necessary for an evaluation of the local program office performance.

(2) ACCOUNTABILITY REPORTING.—By December 1 of each year, the department shall prepare and submit a report that assesses the performance of the Early Steps Program to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Florida Interagency Coordinating Council for Infants and Toddlers. The department must address the performance standards in subsection (1) and report actual performance compared to the standards for the prior fiscal year. The data used to compile the report must be submitted by each local program office in the state. The department shall report on all of the following measures:

(a) Number and percentage of infants and toddlers served with an individualized family support plan.

(b) Number and percentage of infants and toddlers demonstrating improved social/emotional skills after the program.

(c) Number and percentage of infants and toddlers demonstrating improved use of knowledge and cognitive skills after the program.

(d) Number and percentage of families reporting positive
outcomes in their infant’s and toddler’s development as a result of early intervention services.

(e) Progress toward meeting the goals of individualized family support plans.

(f) Any additional measures established by the department.

(6) STATE INTERAGENCY COORDINATING COUNCIL.—The Florida Interagency Coordinating Council for Infants and Toddlers shall serve as the state interagency coordinating council required by 34 C.F.R. s. 303.600. The council shall be housed for administrative purposes in the department, and the department shall provide administrative support to the council.

(7) TRANSITION TO EDUCATION.—

(a) At least 90 days before a child reaches 3 years of age, the local program office shall initiate transition planning to ensure the child’s successful transition from the Early Steps Program to a school district program for children with disabilities or to another program as part of an individual family support plan.

(b) At least 3 months before a child reaches 3 years of age, the local program office shall:

1. Notify the local school district in which the child resides and the Department of Education that the child may be eligible for special education or related services as determined by the local school district pursuant to ss. 1003.21 and 1003.57, unless the child’s parent or legal guardian has opted out of such notification; and

2. Upon approval by the child’s parent or legal guardian, convene a transition conference that includes participation of a local school district representative and the parent or legal guardian to discuss options for and availability of services.

(c) The local school district shall evaluate and determine a child’s eligibility to receive special education or related services pursuant to part B of the federal Individuals with Disabilities Education Act and ss. 1003.21 and 1003.57.

(d) The local program office, in conjunction with the local school district, shall modify a child’s individual family support plan or, if applicable, the local school district shall develop an individual education plan for the child pursuant to ss. 1003.57, 1003.571, and 1003.5715, which identifies special education or related services that the child will receive and the providers or agencies that will provide such services.

(e) If a child is determined to be ineligible for school district program services, the local program office and the local school district shall provide the child’s parent or legal guardian with written information on other available services or community resources.

(f) The local program office shall negotiate and maintain an interagency agreement with each local school district in its service area pursuant to the Individuals with Disabilities Education Act, 20 U.S.C. s. 1435(a)(10)(F). Each interagency agreement must be reviewed at least annually and updated upon review, if needed.

Section 7. Subsections (1) and (2) of section 413.092, Florida Statutes, are amended to read:

413.092 Blind Babies Program.—

(1) The Blind Babies Program is created within the Division of Blind Services of the Department of Education to provide community-based early-intervention education to children from
Section 8. Subsection (1) of section 1003.575, Florida Statutes, is amended to read:

(1) The Early Steps Florida Infants and Toddlers Early Intervention Program in the Division of Children’s Medical Services of the Department of Health.

Interagency agreements entered into pursuant to this section shall provide a framework for ensuring that young persons with disabilities and their families, educators, and employers are informed about the utilization and coordination of assistive technology devices and services that may assist in meeting transition needs, and shall establish a mechanism by which a young person or his or her parent may request that an assistive technology device be provided by the Blind Babies Program. The division shall develop interagency agreements, as appropriate, to ensure the transaction of assistive technology devices.
technology device remain with the young person as he or she moves through the continuum from home to school to postschool.

Section 9. Section 391.303, Florida Statutes, is repealed.

Section 10. Section 391.304, Florida Statutes, is repealed.

Section 11. Section 391.305, Florida Statutes, is repealed.

Section 12. Section 391.306, Florida Statutes, is repealed.

Section 13. Section 391.307, Florida Statutes, is repealed.

Section 14. This act shall take effect July 1, 2016.
To: Senator Rene Garcia, Chair
   Appropriations Subcommittee on Health and Human Services

Subject: Committee Agenda Request

Date: December 7, 2015

I respectfully request that **Senate Bill #504**, relating to Laser Hair Removal, and **Senate Bill #580**, relating to Reimbursement to Health Access Settings for Dental Hygiene Services for Children be placed on the:

- [ ] committee agenda at your earliest possible convenience.
- [x] next committee agenda.

Thank you.

While it is a Senate tradition to encourage public testimony, time may not permit all persons wishing to speak to be heard at this meeting. Those who do speak may be asked to limit their remarks so that as many persons as possible can be heard.

This form is part of the public record for this meeting.

S-001 (10/14/14)
I. Summary:

CS/SB 504 requires a licensed electrologist who uses a laser or pulse-light device to be certified by a nationally recognized electrology organization and have appropriate training, as defined by the Board of Medicine, for each device used. The bill defines a laser or pulsed light device as an electronic device approved by the U.S. Food and Drug Administration for laser hair removal.

The bill has no fiscal impact.

The effective date of the bill is July 1, 2016.

II. Present Situation:

State Regulation of Electrology

Chapter 478, F.S., governs the regulation of electrologists and the practice of electrolysis or electrology. It defines “electrolysis or electrology” as the permanent removal of hair by destroying the hair-producing cells of the skin and vascular system, using equipment and devices approved by the Board of Medicine (BOM) which have been cleared by, and registered with, the U.S. Food and Drug Administration (FDA), and that are used pursuant to protocols approved by the BOM.1

---

1 Section 478.42(5), F.S.
Section 478.45, F.S., sets out the current requirements for licensure as an electrologist and directs the Department of Health (DOH) to perform certain functions in connection with the issuance, or non-issuance, of that license. Specifically, an applicant must:

- Be at least 18 years old;
- Be of good moral character;
- Possess a high school diploma or high school equivalency diploma;
- Have not committed an act that constitutes grounds for discipline as an electrologist in Florida;
- Have successfully completed the academic and practical training requirements of an electrolysis training program approved of by the BOM, not to exceed 120 hours; and
- Have passed a written examination developed by the DOH or a national examination approved of by the BOM.

A person may not practice electrolysis, or hold himself or herself out as an electrologist, unless that person has an active, valid Florida license under ch. 478, F.S.\(^2\)

The BOM, with the assistance of the Electrolysis Council, establishes minimum standards for the delivery of electrolysis services and adopts rules to implement ch. 478, F.S.\(^3\)

Rule 64B8-56.002 of the Florida Administrative Code lists FDA-registered devices an electrologist may use as needle-type epilators, lasers, and light-based hair removal devices. Under that rule, laser and light-based devices may only be used by a licensed electrologist who:

- Has completed training in laser and light-based hair removal and reduction that meets specified requirements;
- Has been certified in the use of laser and light-based devices by a national certification organization approved of by the Electrolysis Council and the BOM;
- Is using only the laser and light-based devices upon which he or she has been trained; and
- Is operating under the direct supervision of a physician trained in hair removal and licensed under ch. 458 or ch. 459, F.S.

Sections 458.348(3) and 459.025(2), F.S., also regulate the practice of electrolysis and electrologists. All services using laser or light-based hair removal or reduction by persons other than physicians licensed under ch. 458 or ch. 459, F.S., require that the person performing such service be appropriately trained and work only under the direct supervision and responsibility of a physician licensed under ch. 458 or ch. 459, F.S.

Currently there are 1,240 individuals who hold active Florida electrologist licenses. The DOH does not distinguish in its reporting between those certified and those not certified in use of lasers.\(^4\)

\(^2\) Section 478.49(1), F.S.
\(^3\) Section 478.43, F.S. See Rules 64B8-50 through 64B8-56, F.A.C., which regulate the licensure, practice, continuing education, and discipline of electrologists.
Certification for Use of Laser and Light-based Hair Removal

Florida electrologists are currently permitted to perform laser and light-based hair removal only if they have completed the following requirements:

- A 30-hour continuing education course approved by the Electrolysis Council;\(^5\)
- Are certified in the use of laser and light-based hair devices for the removal or reduction of hair by a national certification organization approved by the Electrolysis Council and the BOM;
- Are using only the laser and light-based hair removal or reduction devices upon which they have been trained;
- Have developed with his or her supervising physician written protocols and furnished them to the Electrolysis Council prior to beginning the practice of laser hair removal;
- Are operating under the direct supervision and responsibility of a physician properly trained in laser hair removal and licensed pursuant to the provisions of ch. 458 or ch. 459, F.S.; and
- Meet all the requirements for a licensed electrology facility where laser and light-based hair removal is performed.

Florida has only one approved national certification organization, the Society for Clinical and Medical Hair Removal,\(^6\) that has been approved by the Electrolysis Council and the BOM, although at least one other national certifying organization exists.\(^7\)

III. Effect of Proposed Changes:

CS/SB 504 amends s. 478.42, F.S., to provide the following definitions:

- “Laser hair removal” is defined as the use of a laser or pulsed-light device in a hair removal procedure that does not remove the epidermis;\(^8\) and
- “Laser or pulsed-light device” is defined as an electronic device approved of by the FDA for laser hair removal.

The bill also amends s. 478.49, F.S., to require that an electrologist who uses a laser or pulse light device must be certified by a nationally-recognized electrology organization in the use of these devices and have appropriate training, as determined by the BOM, for each device used.

   (Summarizing differences between the Committee Substitute and the prior version of the bill.)

   **CS by Health Policy on December 1, 2015:**

   Places the definitions in s. 478.42, F.S., and the certification requirements in s. 478.49, F.S., instead of placing both in s. 478.45, F.S., as in the underlying bill.
B. The Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill’s introducer or the Florida Senate.
By the Committee on Health Policy; and Senator Grimsley

A bill to be entitled
An act relating to laser hair removal; amending s. 478.42, F.S.; defining terms; amending s. 478.49, F.S.; providing certification and training requirements for licensed electrologists who use laser or pulse-light devices in hair removal; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsections (6) and (7) are added to section 478.42, Florida Statutes, to read:

478.42 Definitions.—As used in this chapter, the term:
6 (6) “Laser hair removal” means the use of a laser or pulse-light device in a hair removal procedure that does not remove the epidermis.
7 (7) “Laser or pulse-light device” means an electronic device approved by the United States Food and Drug Administration for laser hair removal.

Section 2. Section 478.49, Florida Statutes, is amended to read:

478.49 License and certification required.—
1 (1) No person may practice electrology or hold herself or himself out as an electrologist in this state unless the person has been issued a license by the department and holds an active license pursuant to the requirements of this chapter.
2 (2) A licensee shall display her or his license in a conspicuous location in her or his place of practice and provide it to the department or the board upon request.

Section 3. This act shall take effect July 1, 2016.
To: Senator Rene Garcia, Chair  
Appropriations Subcommittee on Health and Human Services

Subject: Committee Agenda Request

Date: December 7, 2015

I respectfully request that Senate Bill #504, relating to Laser Hair Removal, and Senate Bill #580, relating to Reimbursement to Health Access Settings for Dental Hygiene Services for Children be placed on the:

☐ committee agenda at your earliest possible convenience.
☒ next committee agenda.

Thank you.

S-001 (10/14/14)
I. **Summary:**

CS/SB 580 authorizes the Agency for Health Care Administration (AHCA) to reimburse a health access setting under the Medicaid program for remedial dental services (remedial tasks) delivered by a dental hygienist when provided to a Medicaid recipient younger than 21 years of age. Remedial tasks are defined as intra-oral tasks that do not create unalterable changes in the mouth or contiguous structures, are reversible, and do not expose the patient to increased risks.

This bill has no fiscal impact.

The effective date of the bill is July 1, 2016.

II. **Present Situation:**

**Florida Medicaid Program**

Medicaid is a joint federal and state funded program that provides health care for low income Floridians. The program is administered by the AHCA and financed with federal and state funds. Florida has an estimated monthly caseload of over 4 million Floridians enrolled in Medicaid for...
Fiscal Year 2015-2016. Of those enrollees, more than 2.1 million are children. The statutory authority for the Medicaid program is contained in ch. 409, F.S.

Federal law establishes the minimum benefit levels to be covered in order to receive federal matching funds. Benefit requirements can vary by eligibility category. For example, more benefits are required for children than for the adult population. Florida’s mandatory and optional benefits are prescribed in state law under ss. 409.905 and 409.906, F.S., respectively. Children’s dental benefits and authorization for reimbursement and treatment levels are specifically covered under s. 409.906(6), F.S., and provided in more detail in the Medicaid Dental Services Coverage and Limitations Handbook.

Comprehensive dental benefits are required for children under Florida Medicaid’s Managed Medical Assistance (MMA) component of the Statewide Medicaid Managed Care (SMMC) program and may be offered by MMA health plans as an expanded benefit for adults. Dental may also be offered as an expanded benefit under the Long Term Care Managed Care (LTCMC) component of SMMC. Dental services delivered through the MMA and LTCMC health plans must comply with the Medicaid Dental Services Coverage and Limitations Handbook as must services delivered through the Medicaid fee-for-service system.

Florida Medicaid currently reimburses dental services provided to Medicaid recipients by a registered dental hygienist who is employed by or in a contractual agreement with a health access setting, as defined under s. 466.003(14), F.S., and is under the general supervision of a dentist as defined under s. 466.003(10), F.S. The supervising dentist at the facility where the registered dental hygienist is employed or is under contract, is listed as the treating provider for these services.

2 Agency for Health Care Administration, Florida KidCare Enrollment Report, October 2015 (on file with the Senate Committee on Health Policy).
5 A health access setting is defined under the statute as a program or an institution of the Department of Children and Family Services, the Department of Health, the Department of Juvenile Justice, a nonprofit community health center, a Head Start center, a federally qualified health center or look-alike as defined by federal law, a school-based prevention program, a clinic operated by an accredited college of dentistry, or an accredited dental hygiene program in this state if such community service program or institution immediately reports to the Board of Dentistry all violations of ss. 466.027, and 466.028, or other practice act or standard of care violations related to the actions or inactions of a dentist, dental hygienist, or dental assistant engaged in the delivery of dental care in such setting.
6 “General Supervision” means a dentist authorizes the procedures that are being carried out but is not required to be present when those authorized procedures are being performed under the statutory definition.
Practice of Dentistry

Chapter 466, F.S., addresses the practice of dentistry and dental hygiene. Section 466.024(2), F.S., identifies the specific services that dental hygienists are permitted to perform under specified parameters, including dental cleanings and applications of topical fluoride and sealants.

Legislation to expand the scope of practice of dental hygienists was enacted in 2011, which permitted licensed dental hygienists to perform certain functions without the physical presence, prior examination, or authorization of a dentist, in health access settings. The MMA plans provide health care services through certain health access setting providers as part of their contract obligations with the AHCA, including contracting with county health departments and federally qualified health centers.

However, while the scope of services that could be performed without supervision was expanded for dental hygienists, the 2011 legislation did not specifically permit the health access setting provider to bill Medicaid for these expanded services unless the services are performed under the general supervision of a dentist. Statutory authorization for Medicaid dental reimbursement delivered at a health care access setting by a dental hygienist is addressed separately under s. 409.906(6), F.S.

The administrative rules under Chapter 64B5-16, F.A.C., provide additional guidance as to the level of supervision required for dental hygienists and the tasks that may be delegated or performed at those levels. Under Rule 64B5-16.001, F.A.C., remedial tasks are defined as those intra-oral tasks that do not create unalterable changes in the mouth or contiguous structures, are reversible, and do not expose the patient to increased risks. The rule permits a dentist to delegate any task to a dental hygienist that meets this criteria and where the training and supervision requirements of the rule have also been achieved.

III. Effect of Proposed Changes:

Section 1 amends s. 409.906(6), F.S., to authorize the AHCA to reimburse a health access setting for remedial tasks that a licensed dental hygienist is authorized to perform on a Medicaid recipient under the age of 21. These reimbursable services are provided by a licensed dental hygienist on a Medicaid recipient under an appropriate statutory delegation of duties by a licensed dentist.

Section 2 provides an effective date of July 1, 2016.

---

7 See Chapter Law 2011-95, ss. 4-8, L.O.F., and s. 466.024(2), F.S.
9 See supra note 5.
IV. Constitutional Issues:
   A. Municipality/County Mandates Restrictions:
      None.
   B. Public Records/Open Meetings Issues:
      None.
   C. Trust Funds Restrictions:
      None.

V. Fiscal Impact Statement:
   A. Tax/Fee Issues:
      None.
   B. Private Sector Impact:
      Additional health access settings may benefit from increased revenue resources from the newly reimbursable services. These health access settings may also be able to provide services in a more cost efficient manner through the expanded use of dental hygienists, thereby improving access to certain dental services.
   C. Government Sector Impact:
      The AHCA indicates that CS/SB 580 has no fiscal impact.

VI. Technical Deficiencies:
    None.

VII. Related Issues:
    None.

VIII. Statutes Affected:
    This bill substantially amends section 409.906 of the Florida Statutes.

IX. Additional Information:
   A. Committee Substitute – Statement of Substantial Changes:
      (Summarizing differences between the Committee Substitute and the prior version of the bill.)

      CS by Health Policy on December 1, 2015
      The CS clarifies that the AHCA may reimburse the health access setting rather than the
dental hygienist for remedial tasks that the licensed dental hygienist is authorized to perform.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill’s introducer or the Florida Senate.
Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (6) of section 409.906, Florida Statutes, is amended to read:

409.906 Optional Medicaid services.—Subject to specific appropriations, the agency may make payments for services which are optional to the state under Title XIX of the Social Security Act and are furnished by Medicaid providers to recipients who are determined to be eligible on the dates on which the services were provided. Any optional service that is provided shall be provided only when medically necessary and in accordance with state and federal law. Optional services rendered by providers in mobile units to Medicaid recipients may be restricted or prohibited by the agency. Nothing in this section shall be construed to prevent or limit the agency from adjusting fees, reimbursement rates, lengths of stay, number of visits, or number of services, or making any other adjustments necessary to comply with the availability of moneys and any limitations or directions provided for in the General Appropriations Act or chapter 216. If necessary to safeguard the state’s systems of providing services to elderly and disabled persons and subject to the notice and review provisions of s. 216.177, the Governor may direct the Agency for Health Care Administration to amend the Medicaid state plan to delete the optional Medicaid service known as “Intermediate Care Facilities for the Developmentally Disabled.” Optional services may include:

(6) CHILDREN’S DENTAL SERVICES.—The agency may pay for diagnostic, preventive, or corrective procedures, including orthodontia in severe cases, provided to a recipient under age 21, by or under the supervision of a licensed dentist. The agency may also reimburse a health access setting as defined in s. 466.003 for the remedial tasks that a licensed dental hygienist is authorized to perform under s. 466.024(2). Services provided under this program include treatment of the teeth and associated structures of the oral cavity, as well as treatment of disease, injury, or impairment that may affect the oral or general health of the individual. However, Medicaid will not provide reimbursement for dental services provided in a mobile dental unit, except for a mobile dental unit:

(a) Owned by, operated by, or having a contractual agreement with the Department of Health and complying with Medicaid’s county health department clinic services program specifications as a county health department clinic services provider.

(b) Owned by, operated by, or having a contractual arrangement with a federally qualified health center and complying with Medicaid’s federally qualified health center specifications as a federally qualified health center provider.

(c) Rendering dental services to Medicaid recipients, 21 years of age and older, at nursing facilities.
(d) Owned by, operated by, or having a contractual agreement with a state-approved dental educational institution.

Section 2. This act shall take effect July 1, 2016.

CODING: Words stricken are deletions; words underlined are additions.
Direction to AHCA to Consider an OPPS

SFY 2015/16 General Appropriations Act ...

“… the Agency for Health Care Administration to contract with an independent consultant to develop a plan to convert Medicaid payments for outpatient services from a cost based reimbursement methodology to a prospective payment system. The study shall identify steps necessary for the transition to be completed in a budget neutral manner. The report shall be submitted to the Governor, the President of the Senate, and the Speaker of the House of Representatives no later than November 30, 2015.”
Activity Performed by AHCA and Consultant

- 5 meetings held with an internal AHCA “Governance Committee” comprised of executives from AHCA and representatives from Navigant Healthcare
- 4 public stakeholder meetings with phone and webinar external access were held to review and solicit feedback from the provider community for recommendations defined by the Governance Committee
- Minutes from the AHCA “Governance Committee” meetings and recordings of the public meetings were published on the AHCA website
- EAPG pricing modeling performed using historical Medicaid fee-for-service and managed care outpatient claims
Acronyms and Vocabulary

» APCs – Ambulatory Patient Classifications
» ASCs – Ambulatory Surgical Centers
» EAPGs – Enhanced Ambulatory Patient Groups
» OPPS – Outpatient Prospective Payment System

» Bundling – Combining the payments for individual components related to an outpatient service visit into a single outpatient payment amount

» Discounting – Paying less than 100% for a service when provided in conjunction with another similar or more expensive service

» Outpatient services – a.k.a. ambulatory care – patient is not admitted – examples include Emerg Dept, chemo, lab, MRI, therapy

» Outpatient payment – payment for use of the facility, nursing staff, drugs, materials, and administration (separate payment is made for physician services)
Current Versus Proposed New Payment Method

Current Method - Hospitals
» Hospital-specific cost-based rates
» The same, “flat” rate is paid for all non-lab services, independent of complexity
» Lab services paid via a fee schedule
» Payments are retroactively cost-settled
» More services equates to more payment

Current Method - ASCs
» ASCs are paid based on a limited fee schedule which groups each procedure into one of 14 different rates
» Secondary procedures are generally discounted

Proposed OPPS
» Payment is visit-based and considers full range of services performed in an outpatient setting
» Payment is better aligned with cost of care for different types of services
» Creates incentives to avoid performing unnecessary services
» Provides the same payment for the same service across all facilities with similar characteristics
» Hospitals and ASCs paid under the same method (but amounts may vary)
» Payment is prospective – cost settlements are no longer necessary
OPPS Classification Systems

» Most OPPS payment methods utilize one of two service classification systems to calculate payment:
  › Enhanced Ambulatory Patient Groups – EAPGs – proprietary product of 3M HIS
  › Ambulatory Patient Classifications – APCs – used by Medicare

» Both methods attempt to balance fair payment with incentives to control cost of care and avoid providing unnecessary services

» Both methods determine payment for individual services performed with some consideration given to the set of services included in the outpatient visit

» EAPGs are less familiar to the healthcare provider community, but are becoming more commonplace for Medicaid payment across the country
Outpatient Payment Method - Other Medicaid Agencies

- **EAPGs**
- APC or APC-based fee schedule

* Indicates Moving Towards / Considering
** Using EAPGs for case mix adjustment
Recommending Use of EAPGs

» EAPGs provide enhanced incentives to better manage the cost of care through bundling and discounting of secondary services

» EAPGs support calculation of payment for the full range of services offered in an outpatient setting, whereas the APC classification system has to be supplemented with fee schedules for some services, most notably laboratory, physical therapy, and durable medical equipment

» EAPGs are designed for use with any population, whereas APCs are specifically designed for the Medicare population
Recommendations Included in the OPPS Study

» Implement an OPPS using Enhanced Ambulatory Patient Groups (EAPGs)
» Apply the OPPS for calculation of payment for hospital outpatient services and services provided by Ambulatory Surgical Centers (ASCs)
» Apply EAPG pricing to all outpatient services at hospitals and ASCs
» Utilize two EAPG base rates – one for hospitals and one for ASCs
» Apply a provider policy adjustor for hospitals with an unusually high percentage of their outpatient utilization coming from Medicaid recipients
» Apply automatic rate enhancements through supplemental payments (outside the base rate) similar to the method used for hospital inpatient payments
» Implement a 5% documentation and coding improvement adjustment for hospitals; no adjustment for ASCs

Timing of Implementation

» Inpatient DRG implementation required,
  › 6 months of payment policy design
  › 6 months of software development

» Outpatient OPPS implementation is more complicated and will require
  › 6 months of payment policy design (already complete)
  › At least 9 months of software development
  › Earliest implementation would be fall of 2016, potentially with OPPS pricing applied retroactively back to July 1, 2016

Dear Chair Garcia:

I respectfully request permission to be excused from our committee meeting on January 13, 2016. My father is in the hospital.

In my absence, I would like my legislatives aides to present my bills. Marty Mielke will present CS/SB 504, Laser Hair Removal, and Anne Bell will be presenting CS/SB 580, Reimbursement to Health Access Settings for Dental Hygiene Services for Children.

Sincerely,

Denise Grimsley
Senator, District 21
