The bill focuses on reducing risks associated with the Section 108 loan guarantee program by **amending s. 290.0455, F.S.**, to require an applicant approved by HUD to receive a Section 108 loan to enter into an agreement with the department that requires the applicant to pledge half the amount necessary to guarantee the loan in the event of default. The department must review all Section 108 loan applications in the order received, provided the applications meet all eligibility requirements and have been deemed financially feasible by a loan underwriter approved by the department. If the statewide maximum available for loan guarantees has not been met, the department may submit the application to HUD with a recommendation that the loan be approved, with or without conditions, or denied.

The bill reduces the maximum amount of an individual loan guarantee commitment from $7 million to $5 million and decreases the maximum statewide amount of loan guarantees from five times to two times the amount of the most recent grant received by the department under the Florida Small Cities CDBG Program. The $5 million loan guarantee limit does not apply to loans guaranteed prior to July 1, 2013, so that they may be refinanced.

If a local government defaults on a Section 108 loan requiring the department to reduce its annual grant award to pay the annual debt service on the loan, any future CDBG program funds

that the local government receives must be reduced in the amount equal to the amount of the state's grant award used in payment of debt service on the loan.

If a local government, that has received a Section 108 loan through the Florida Small Cities CDBG Program, is granted entitlement community status by HUD, then the local government must pledge its entitlement allocation as a guarantee of its previous loan and request HUD to release the department as guarantor of the loan.

Grant Application Procedures and Requirements **(Section 35)**

Section 290.046, F.S., currently provides the application procedures that the department must employ. The bill **substantially amends s. 290.046, F.S.**, to grant the department rule-making authority to establish application procedures for the Florida Small Cities CDBG Program. Eligible local governments may only submit one application for a noneconomic development project during an application cycle. An eligible local government may apply for an economic development grant up to three times each funding cycle and is permitted to have more than one open economic development grant.

The department is directed to establish minimum criteria pertaining to the number of jobs created for low or moderate-income persons, the degree of private sector financial commitment, the economic feasibility of the proposed project, and any other criteria it deems appropriate. A grant may not be awarded until the department has completed a site visit to verify the information contained in the award application.

The department must rank each application received based on criteria established by rule. The rule must allow the department to consider factors such as community need, unemployment, poverty levels, low and moderate-income populations, health and safety, and the condition of physical structures. The rankings must incorporate a procedure intended to reduce or eliminate any existing population-related bias that places exceptionally small communities at a competitive disadvantage.

Project funding must be determined by the rankings established in each application cycle. If, at the conclusion of a funding cycle, economic development funding remains, those funds will be awarded to eligible projects on a first-come, first-served basis until funding for this category is fully obligated.

The bill repeals the requirement that a local government establish a citizen advisory board to provide input relative to all phases of the project process. However, citizen participation provisions required by HUD are retained. Those provisions include conducting an initial public hearing to inform the public of the available funding opportunities and eliciting input on community needs; publishing a summary of the proposed application so that the public can examine the contents of the application and submit comments; and conducting a second public hearing to obtain public comment about the proposed application and make appropriate modifications.

Establishment of Grant Ceilings **(Section 36)**

The bill maintains the department's current rule-making authority for establishing grant ceilings, the maximum percentage of block grants funds that may be spent on administrative costs, and the grant administration procurement procedures for eligible local governments.

However, the bill **substantially amends s. 290.047, F.S.**, to prohibit an eligible local government from contracting with the same individual or business entity for more than one service to be performed in connection with a Small Cities CDBG, unless it can demonstrate that the individual or business entity is the sole source of the service or is the responsive proposer whose proposal is determined, in writing from a competitive process, to be the most advantageous to the local government. The department must adopt a rule that provides a methodology to determine the maximum amount of block grant funds that an eligible local government may spend on architectural and engineering costs.

Rejection of Applications **(Section 37)**

The bill **amends s. 290.0475, F.S.**, to update references to statutes and department rule. It repeals a provision that an application is deemed ineligible if it is found to contain a misrepresentation of information that is not attributable to a mathematical error that may be readily corrected by computation of numbers or formulas provided in the application.

General Powers of the Department **(Section 38)**

The bill **repeals ss. 290.048(5) and (7), F.S.**, which grants the department the power to adopt and enforce requirements concerning an applicant's written description of a service area, and to establish an advisory committee to solicit participation in the design, administration, and evaluation of the program, respectively.

Reemployment Assistance Program

The bill **amends s. 443.131, F.S.**, to provide that no assessment will be levied against contributing employers if the amount of assessments on deposit, plus any earned interest, is at least 80 percent of the estimated amount of interest. The bill further provides that any assessments that remain on deposit, including associated interest, 4 months after all federal advances and associated interest have been repaid are to be transferred to the Unemployment Compensation Trust Fund. The provisions relating to interest assessments on federal advances will expire on July 1, 2014. (**Section 45**)

Reemployment Assistance Claims and Benefits Information System

In 2009, the Legislature authorized the Department of Economic Opportunity to upgrade and enhance its Unemployment Compensation Claims and Benefits Information System.[22] The statute provides a project completion date of no later than June 30, 2013.

[22] Chapter 2009-73, L.O.F. At the time, the Unemployment Compensation program was housed in the Agency for Workforce Innovation, whose functions were transferred to the Department of Economic Opportunity in 2011.

In early 2012, the vendor indicated that an extension of the timeline would be required. The vendor paid $1,965,000 in liquidated damages and provided a credit of $2,500,000 to cover the costs incurred by the DEO caused by the delay. After negotiations and a corrective action plan, the revised project schedule calls for an October 28, 2013, implementation date.[23]

The bill **amends s. 443.1113, F.S.**, to extend the operational deadline for the Reemployment Assistance Claims and Benefits Information System to June 30, 2014. (**Section 44**)

Fraudulent Claims

A fraudulent claim is one that knowingly contains a false or fraudulent statement or fails to disclose a material fact for the purpose of obtaining or increasing reemployment benefits.[24] A claimant found to be collecting benefits fraudulently is disqualified from received benefits beginning the week that the fraudulent claim was made. The disqualification will continue for a period not to exceed 1 year after the DEO discovered the fraud and until any resulting overpayment of benefits has been repaid. Reemployment Assistance fraud can also be prosecuted as a third degree felony.

Federal law requires states to assess a penalty, of at least 15 percent of the amount of the erroneous payment, on any claimant who fraudulently obtained benefits.[25] Florida does not currently assess a penalty for fraudulent overpayments.

The bill **amends s. 443.151, F.S.**, to impose a penalty equal to 15 percent of the amount overpaid, on any claimant who fraudulently receives reemployment benefits. (**Section 46**) This provision will bring Florida into compliance with federal law. Any amounts collected for penalties are to be deposited into the Unemployment Compensation Trust Fund. (**Section 50, amends s. 443.191, F.S.**)

Confidentiality

Information received from an employing unit or individual that reveals an employing unit's or individual's identity under the administration of the RA program is confidential and exempt from disclosure.[26]

---

[23] See Project Connect, Executive Steering Committee Meeting Minutes for August 8, 2012, http://sitefinity.floridajobs.org/Unemployment/UC_ModernizationProject/documents/MinutesAgendas/20120808%20RA%20ESC%20Meeting%20Minutes%20%20FINAL.pdf (last visited February 7, 2013).

[24] Sections 443.071 and 443.101(6), F.S., discuss fraud and associated penalties.

[25] 42 U.S.C. s. 503(a)(11).

[26] Section 443.1715, F.S. This subsection authorizes a number of exceptions for disclosure. Information may be released to the extent necessary for presentation of a claim or upon written authorization of a claimant who has a workers' compensation claim pending or is receiving compensation benefits. Public employees may receive this information in the performance of their public duties but must maintain the confidentiality of the information. A claimant or his or her legal representative is entitled to this information, to the extent necessary, to present a claim at a hearing before an appeals referee or the commission. DEO or DOR may provide a copy of any report submitted by an employer to the employer or a copy of any report submitted by the claimant to the claimant, upon request. Confidential information may also be released pursuant to 20 C.F.R. part 603.

In 2012, the statute was amended and the language that made disclosure of such confidential information a second-degree misdemeanor was inadvertently repealed.[27] Federal regulations require Florida to provide penalties for the unlawful disclosure of confidential information related to reemployment assistance.[28]

Section 443.1715, F.S., is amended to restore penalties for the disclosure of confidential information that were inadvertently repealed in 2012. This provision will bring Florida into compliance with federal law. (**Section 49**)

Disqualification for Reemployment Assistance Benefits

Under current law, an individual may be disqualified from receiving reemployment assistance benefits for any week in which the department finds that he or she was discharged by his or her employer for misconduct. The bill adds specific examples of "misconduct" to be included in the definition, but the examples are not intended to limit the definition. (**Section 41, amends s. 443.036(30), F.S.**)

Current law also provides additional grounds for which an individual may be disqualified from obtaining reemployment benefits, such as voluntarily leaving employment. The bill adds loss of employment due to failure without good cause to maintain a license, registration, or certification, required by law for the employee to perform her or his assigned duties. "Good cause" is defined as failure of the employer to submit required information for the license, registration, or certification; short term physical injury that prevents the employee from completing a required test; and inability to complete a required test that is outside the employee's control. (**Section 43, creates subsection (13) of s. 443.101, F.S.)**

Work Registration Requirements

The bill **amends s. 443.091, F.S.**, to require unemployed individuals to complete the department's online work registration. Individuals unable to complete the online work registration or initial skills review due to illiteracy, physical or mental impairment, a legal prohibition from using a computer, or a language impediment are exempt from the online work registration and initial skills review. **(Section 42)**

Section 443.1715, F.S., is amended to restore penalties for the disclosure of confidential information that were inadvertently repealed in 2012. This provision will bring Florida into compliance with federal law. (**Section 49**)

Reemployment Assistance Benefits- Determinations, Redeterminations and Appeals

The DEO issues determinations and redeterminations on the monetary and non-monetary eligibility requirements[29] for reemployment assistance benefits. Determinations and redeterminations are statements by the department regarding the application of law to an

[27] Chapter 2012-30, L.O.F.
[28] 20 C.F.R. part 603.
[29] Section 443.151(3), F.S.

individual's eligibility for benefits or the effect of the benefits on an employer's tax account. A party who believes a determination is inaccurate may request reconsideration within 20 days from date the determination was mailed. The DEO must review the information on which the request is based and issue a redetermination.

If a party disagrees with either the determination or redetermination, the applicant or employer may request an administrative hearing before an appeals referee. Appeals referees in the DEO's Office of Appeals hold hearings and issue decisions to resolve disputes related to eligibility for unemployment compensation and the payment and collection of unemployment compensation taxes.[30] Special deputies within the Office of Appeals handle appeals related to matters on tax, reimbursement, and liability protests. Generally, an appeal must be filed within 20 days of the determination date.

> Upon receiving an appeal, the Office of Appeals will schedule a hearing involving all interested parties to address the issues. The parties will be mailed a *Notice of Hearing* telling them when the hearing will be held and whether they are expected to participate in-person or by telephone… The parties are expected to present all of their evidence and testimony to the appeals referee, who will then make a decision based only upon the evidence and testimony presented during the hearing. An audio recording of the hearing will be made by the referee. When the hearing is completed, the referee will issue a written decision.[31]

In the 2012 calendar year, there were a total of 116,534 appeals filed, and the Office of Appeals issued 128,968 decisions. Most appeals were filed by applicants (about 74 percent of the filed appeals), but the outcomes of the decisions were evenly split between decisions to pay or deny benefits to the applicants.[32] A decision by an appeals referee can be appealed to the Reemployment Assistance Appeals Commission.

Currently, appeals referees are not required to be licensed attorneys. The DEO currently employs 79 appeals referees, of which approximately 12% are attorneys in good standing with the Florida Bar. The bill **amends s. 443.151, F.S.**, to require that an appeals referee employed by the DEO be an attorney in good standing with the Florida Bar within a specified timeframe depending upon whether the referee is a current employee (must be an attorney by September 30, 2014) or a new employee hired on or after January 1, 2014 (must be an attorney within 8 months of his or her employment date). Effective January 1, 2014, an appeals referee currently employed by the DEO that does not have a degree from a law school accredited by the American Bar Association would no longer meet the qualifications for the appeals referee position. (**Sections 47 and 48**)

---

[30] Appeals are governed by s. 443.151(4), F.S., and the Administrative Procedures Act, ch. 120, F.S. Information about the Office of Appeals and the appeals process may be found on the DEO website at http://www.floridajobs.org/job-seekers-community-services/reemployment-assistance-center/file-an-appeal (last visited 1/13/2013).

[31] The DEO, "Reemployment Assistance Appeals Process, Reemployment Assistance Appeals Commission," available at http://www.floridajobs.org/job-seekers-community-services/reemployment-assistance-center/reemployment-assistance-appeals-commission/reemployment-assistance-appeals-process (last visited 1/13/2013).

[32] Data from the DEO, "Reemployment Assistance Data, 1st Quarter 2007 through 4th Quarter 2012," January 7, 2013, on file with the Senate Commerce and Tourism Committee. Note, that not all outcomes that award benefits impact an employer's taxes, as some cases find that the former employee separated from work due to reasons not attributable to the employer.

The bill takes effective upon becoming law, except as otherwise expressly provided in the act. (**Section 51**).

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The transfer of any remaining funds to the Unemployment Compensation Trust Fund after the final federal interest payment is made may have a positive impact on employer contribution rates.

Revenues generated by the imposition and collection of the penalty created in the bill for fraudulently obtaining unemployment compensation benefits could have a positive impact on employer contribution rates.

B. Private Sector Impact:

To the extent that more small businesses are assisted through increased performance by the network and regional centers, the bill may have a positive impact on the private sector.

The bill may impose costs on prospective economic development incentive applicants due to the requirement to secure or guarantee the award amount. The costs imposed may be in the form of premiums or other professional fees related to creating the secured transaction.

To the extent that more eligible local governments apply for and receive funding for eligible activities under the Florida Small Cities CDBG Program, the private sector will benefit.

If the amount of assessments collected in previous years to pay the interest due on federal advances is at least 80 percent of the estimated interest payment, the Department of

Revenue may not make an assessment against employers, which would have a positive fiscal impact to the private sector.

Also, see Tax/Fee Issues.

C. Government Sector Impact:

This bill is projected to have a fiscal impact to the Office of Economic and Demographic Research and the Office of Program Policy Analysis and Government Accountability, as follows:

- Office of Economic and Demographic Research (EDR)
  - Economic Development Program Evaluation Workload - three positions and $302,324 to cover salaries, benefits and expenses associated with the new positions ($37,002 of the expenses are nonrecurring).
  - Modifications to Statewide Model - $34,400 to design and develop an employment module for the statewide model.

Funding for EDR would need to be appropriated in the General Appropriation Bill.

- Office of Program Policy Analysis and Government Accountability (OPPAGA)
  - Economic Development Program Evaluation Workload - two positions and a part-time intern - $178,163 for salaries and benefits. OPPAGA has indicated that they can absorb the additional workload within existing resources.

These estimates assume that EDR and OPPAGA will obtain access to all information related to economic development programs that is needed to complete the Economic Development Program Evaluations without cost to EDR or OPPAGA.

Failure to provide a penalty for individuals who fraudulently collect unemployment benefits or restore the penalty for disclosing confidential information puts Florida at risk of being deemed out of conformity with federal law. If the United States Department of Labor made such a finding, it may not certify the state's reemployment assistance program and could withhold all administrative funding (approximately $77 million for Federal FY 2013) or cause the employer federal tax rates to increase to the total of 6.0 percent because of loss of the entire Federal Unemployment Tax Act tax credit.

Imposing the 15 percent penalty upon individuals who fraudulently receive unemployment compensation benefits could have a positive impact to the Unemployment Compensation Trust Fund. According to the department, during FY 2011-12, the department made 25,294 fraud determinations totaling $33.2 million in benefit overpayments. If these benefit overpayments had been subject to the 15 percent penalty, approximately $4.9 million could have been deposited in the Unemployment Compensation Trust Fund. Revenues generated by the imposition and collection of the penalty created in the bill could have a positive impact on employer contribution rates.

The provisions of the bill that streamline reporting requirements, delete duplicative reports, and consolidate reporting due dates may improve efficiencies and are not expected to have a fiscal impact to the Department of Economic Opportunity, Enterprise Florida, Inc., the Office of Film and Entertainment, or Space Florida.

The provisions of the bill related to the Small Business Development Center Network are expected to have a minimal, but indeterminate, impact on the operating budgets of the Board of Governors and the department. The Senate proposed General Appropriations Bill, SPB 7040, includes $7 million of recurring general revenue funds for Small Business Development Centers in Specific Appropriation 142 (Grants and Aids – Education and General Activities appropriation category).

The bill requires the department to establish a process for determining compliance with, or waiving, the securitization requirements created in the bill. The department may promulgate rules to implement the bill. The costs associated with establishing and maintaining processes and rulemaking that the department may incur are indeterminate, but anticipated to be insignificant.

The provisions of the bill that authorize the department to adopt rules to implement the revisions to the Florida Small Cities CDBG Program will have an indeterminate fiscal impact to the department. It is anticipated that this impact could be absorbed by the department within existing resources.

The Department of Economic Opportunity projects that the provisions of the bill that require the DEO's appeals referees to be attorneys in good standing with the Florida Bar will have a fiscal impact of approximately $1.6 million in Fiscal Year 2013-2014, of which approximately $1.2 million is recurring. The impact is based on the following assumptions:

- Average annual Salaries and Benefits paid to 79 appeals referees will increase from $58,870 to $73,688 ($1,170,622)
- New Employee Training Costs - $45,000
- 50 current employees will not obtain law degrees and become attorneys in good standing with the Florida Bar and will lose their jobs, making them eligible for reemployment assistance benefits (for an average of 10 weeks, the employer's cost is $137,500) and leave payouts (average of 250 hours per employee - $250,000).

The department indicates that federal funding received to administer the state's reemployment assistance program could be redirected to cover the increased salaries and benefits and training costs. Indirect cost assessments would be used to cover the costs associated with current employees losing their jobs because they do not meet the new job qualifications.

VI. Technical Deficiencies:

None.

VII. Related Issues:

The bill authorizes the department to adopt rules relating to the guidelines for the distribution of Small Cities CDBG Program grants; application procedures; grant ceilings; the maximum percentage of funds which can be spent on administrative costs by a local government; and the methodology used to determine the maximum amount of funding that may be spent on architectural and engineering costs by an eligible local government.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Transportation, Tourism, and Economic Development on March 27, 2013:
The committee substitute:

- Creates a rotating, 3-year review schedule for all incentives and programs to be evaluated by the Office of Economic and Demographic Research (EDR) and the Office of Program Policy Analysis and Government Accountability (OPPAGA).
- Provides EDR and OPPAGA access to all data necessary to complete its evaluations of the economic development programs.
- Defines "jobs" as full-time equivalent positions, and excludes any temporary construction jobs involved with the construction of facilities for a project.
- Repeals duplicative evaluations of economic development programs.
- Aligns the Small Business Development Center Network's (network) statewide policies with the statewide strategic economic development plan and statewide goals of the university system.
- Specifies the composition of the network's statewide advisory board.
- Specifies the support services offered by the network.
- Requires the network to provide a match to any direct state appropriation.
- Requires the network to set up incentives for the regional centers to create jobs, institute best practices, and serve new areas of the state or underserved areas.
- Requires regular reporting by the network on programs, services, and outcomes, including information on the network's economic benefits to the state.
- Requires the department to evaluate each application for economic incentives for the economic benefits of the proposed award to the state, and EDR is to review and report on the methodology used to calculate the economic benefit.
- Requires recipients of incentives under the Quick Action Closing Fund and the Innovation Incentive Programs to secure the award with a surety bond, letter of credit, or other security; provides procedures for the department to waive securitization requirements.
- Eliminates school boards as entities for which funds from the Grants and Donations Trust Fund in the Department of Economic Opportunity may be used to provide community planning technical assistance.
- Creates specific examples of misconduct for which an individual may be disqualified for benefits.

- Prohibits a claimant from counting the same prospective employer at the same location more than once during his or her claim as proof of work search efforts, unless the employer indicates that it is hiring after the initial contact by the claimant.
- Provides that an individual is disqualified from receiving benefits if his or her unemployment is due to a discharge from employment for failure, without good cause, to maintain a license, registration, or certification required by law for the performance of his or her assigned duties and provides examples of good cause.
- Requires an appeals referee to be a member in good standing with the Florida Bar or be successfully admitted to the Florida Bar within 8 months of his or her employment date, effective January 1, 2014, and current appeals referees who have law degrees but are not members in good standing in the Florida Bar must be successfully admitted by September 30, 2014.

CS by Community Affairs on March 7, 2013:
The CS provides the $5 million loan guarantee limit for the Florida Small Cities Community Development Block Grant Program does not apply to loans guaranteed prior to July 1, 2013, that may be refinanced. The CS creates an exemption for people who are unable to complete the online work registration due to various stated reasons from having to complete the department's online work registration.

B. Amendments:

None.

317422

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
04/25/2013	.	
	.	
	.	
	.	

The Committee on Appropriations (Gardiner) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Economic Development Programs Evaluation.—The Office of Economic and Demographic Research and the Office of Program Policy Analysis and Government Accountability (OPPAGA) shall develop and present to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the chairs of the legislative appropriations committees the Economic Development Programs Evaluation.

(1) The Office of Economic and Demographic Research and

317422

OPPAGA shall coordinate the development of a work plan for completing the Economic Development Programs Evaluation and shall submit the work plan to the President of the Senate and the Speaker of the House of Representatives by July 1, 2013.

(2) The Office of Economic and Demographic Research and OPPAGA shall provide a detailed analysis of economic development programs as provided in the following schedule:

(a) By January 1, 2014, and every 3 years thereafter, an analysis of the following:

1. The capital investment tax credit established under s. 220.191, Florida Statutes.

2. The qualified target industry tax refund established under s. 288.106, Florida Statutes.

3. The brownfield redevelopment bonus refund established under s. 288.107, Florida Statutes.

4. High-impact business performance grants established under s. 288.108, Florida Statutes.

5. The Quick Action Closing Fund established under s. 288.1088, Florida Statutes.

6. The Innovation Incentive Program established under s. 288.1089, Florida Statutes.

7. Enterprise Zone Program incentives established under ss. 212.08(5), 212.08(15), 212.096, 220.181, and 220.182, Florida Statutes.

(b) By January 1, 2015, and every 3 years thereafter, an analysis of the following:

1. The entertainment industry financial incentive program established under s. 288.1254, Florida Statutes.

2. The entertainment industry sales tax exemption program

317422

established under s. 288.1258, Florida Statutes.

3. VISIT Florida and its programs established or funded under ss. 288.122, 288.1226, 288.12265, and 288.124, Florida Statutes.

4. The Florida Sports Foundation and related programs established under ss. 288.1162, 288.11621, 288.1166, 288.1167, 288.1168, 288.1169, and 288.1171, Florida Statutes.

(c) By January 1, 2016, and every 3 years thereafter, an analysis of the following:

1. The qualified defense contractor and space flight business tax refund program established under s. 288.1045, Florida Statutes.

2. The tax exemption for semiconductor, defense, or space technology sales established under s. 212.08(5)(j), Florida Statutes.

3. The Military Base Protection Program established under s. 288.980, Florida Statutes.

4. The Manufacturing and Spaceport Investment Incentive Program established under s. 288.1083, Florida Statutes.

5. The Quick Response Training Program established under s. 288.047, Florida Statutes.

6. The Incumbent Worker Training Program established under s. 445.003, Florida Statutes.

7. International trade and business development programs established or funded under s. 288.826, Florida Statutes.

(3) Pursuant to the schedule established in subsection (2), the Office of Economic and Demographic Research shall evaluate and determine the economic benefits, as defined in s. 288.005, Florida Statutes, of each program over the previous 3 years. The

317422

analysis must also evaluate the number of jobs created, the increase or decrease in personal income, and the impact on state gross domestic product from the direct, indirect, and induced effects of the state's investment in each program over the previous 3 years.

(a) For the purpose of evaluating tax credits, tax refunds, sales tax exemptions, cash grants, and similar programs, the Office of Economic and Demographic Research shall evaluate data only from those projects in which businesses received state funds during the evaluation period. Such projects may be fully completed, partially completed with future fund disbursal possible pending performance measures, or partially completed with no future fund disbursal possible as a result of a business's inability to meet performance measures.

(b) The analysis must use the model developed by the Office of Economic and Demographic Research, as required in s. 216.138, Florida Statutes, to evaluate each program. The office shall provide a written explanation of the key assumptions of the model and how it is used. If the office finds that another evaluation model is more appropriate to evaluate a program, it may use another model, but it must provide an explanation as to why the selected model was more appropriate.

(4) Pursuant to the schedule established in subsection (2), OPPAGA shall evaluate each program over the previous 3 years for its effectiveness and value to the taxpayers of this state and include recommendations on each program for consideration by the Legislature. The analysis may include relevant economic development reports or analyses prepared by the Department of Economic Opportunity, Enterprise Florida, Inc., or local or

317422

regional economic development organizations; interviews with the parties involved; or any other relevant data.

(5) The Office of Economic and Demographic Research and OPPAGA must be given access to all data necessary to complete the Economic Development Programs Evaluation, including any confidential data. The offices may collaborate on data collection and analysis.

Section 2. Subsection (10) of section 20.60, Florida Statutes, is amended to read:

20.60 Department of Economic Opportunity; creation; powers and duties.—

(10) The department, with assistance from Enterprise Florida, Inc., shall, by November 1 ~~January 1~~ of each year, submit an annual report to the Governor, the President of the Senate, and the Speaker of the House of Representatives on the condition of the business climate and economic development in the state.

(a) The report must ~~shall~~ include the identification of problems and a prioritized list of recommendations.

(b) The report must incorporate annual reports of other programs, including:

1. The displaced homemaker program established under s. 446.50.

2. Information provided by the Department of Revenue under s. 290.014.

3. Information provided by enterprise zone development agencies under s. 290.0056 and an analysis of the activities and accomplishments of each enterprise zone.

4. The Economic Gardening Business Loan Pilot Program

established under s. 288.1081 and the Economic Gardening Technical Assistance Pilot Program established under s. 288.1082.

5. A detailed report of the performance of the Black Business Loan Program and a cumulative summary of quarterly report data required under s. 288.714.

6. The Rural Economic Development Initiative established under s. 288.0656.

Section 3. Paragraph (c) of subsection (1) of section 201.15, Florida Statutes, is amended to read:

201.15 Distribution of taxes collected.—All taxes collected under this chapter are subject to the service charge imposed in s. 215.20(1). Prior to distribution under this section, the Department of Revenue shall deduct amounts necessary to pay the costs of the collection and enforcement of the tax levied by this chapter. Such costs and the service charge may not be levied against any portion of taxes pledged to debt service on bonds to the extent that the costs and service charge are required to pay any amounts relating to the bonds. After distributions are made pursuant to subsection (1), all of the costs of the collection and enforcement of the tax levied by this chapter and the service charge shall be available and transferred to the extent necessary to pay debt service and any other amounts payable with respect to bonds authorized before January 1, 2013, secured by revenues distributed pursuant to subsection (1). All taxes remaining after deduction of costs and the service charge shall be distributed as follows:

(1) Sixty-three and thirty-one hundredths percent of the remaining taxes shall be used for the following purposes:

(c) After the required payments under paragraphs (a) and (b), the remainder shall be paid into the State Treasury to the credit of:

1. The State Transportation Trust Fund in the Department of Transportation in the amount of the lesser of 38.2 percent of the remainder or $541.75 million in each fiscal year. Out of such funds, the first $50 million for the 2012-2013 fiscal year; $65 million for the 2013-2014 fiscal year; and $75 million for the 2014-2015 fiscal year and all subsequent years, shall be transferred to the State Economic Enhancement and Development Trust Fund within the Department of Economic Opportunity. The remainder is to be used for the following specified purposes, notwithstanding any other law to the contrary:

a. For the purposes of capital funding for the New Starts Transit Program, authorized by Title 49, U.S.C. s. 5309 and specified in s. 341.051, 10 percent of these funds;

b. For the purposes of the Small County Outreach Program specified in s. 339.2818, 5 percent of these funds. Effective July 1, 2014, the percentage allocated under this sub-subparagraph shall be increased to 10 percent;

c. For the purposes of the Strategic Intermodal System specified in ss. 339.61, 339.62, 339.63, and 339.64, 75 percent of these funds after allocating for the New Starts Transit Program described in sub-subparagraph a. and the Small County Outreach Program described in sub-subparagraph b.; and

d. For the purposes of the Transportation Regional Incentive Program specified in s. 339.2819, 25 percent of these funds after allocating for the New Starts Transit Program described in sub-subparagraph a. and the Small County Outreach

317422

Program described in sub-subparagraph b. Effective July 1, 2014, the first $60 million of the funds allocated pursuant to this sub-subparagraph shall be allocated annually to the Florida Rail Enterprise for the purposes established in s. 341.303(5).

2. The Grants and Donations Trust Fund in the Department of Economic Opportunity in the amount of the lesser of .23 percent of the remainder or $3.25 million in each fiscal year to fund technical assistance to local governments ~~and school boards on the requirements and implementation of this act~~.

3. The Ecosystem Management and Restoration Trust Fund in the amount of the lesser of 2.12 percent of the remainder or $30 million in each fiscal year, to be used for the preservation and repair of the state's beaches as provided in ss. 161.091-161.212.

4. General Inspection Trust Fund in the amount of the lesser of .02 percent of the remainder or $300,000 in each fiscal year to be used to fund oyster management and restoration programs as provided in s. 379.362(3).

Moneys distributed pursuant to this paragraph may not be pledged for debt service unless such pledge is approved by referendum of the voters.

Section 4. Paragraph (o) of subsection (5) of section 212.08, Florida Statutes, is amended to read:

212.08 Sales, rental, use, consumption, distribution, and storage tax; specified exemptions.—The sale at retail, the rental, the use, the consumption, the distribution, and the storage to be used or consumed in this state of the following are hereby specifically exempt from the tax imposed by this

317422

chapter.

(5) EXEMPTIONS; ACCOUNT OF USE.—

(o) *Building materials in redevelopment projects.*—

1. As used in this paragraph, the term:

a. "Building materials" means tangible personal property that becomes a component part of a housing project or a mixed-use project.

b. "Housing project" means the conversion of an existing manufacturing or industrial building to a housing unit which is ~~units~~ in an urban high-crime area, an enterprise zone, an empowerment zone, a Front Porch Community, a designated brownfield site for which a rehabilitation agreement with the Department of Environmental Protection or a local government delegated by the Department of Environmental Protection has been executed under s. 376.80 and any abutting real property parcel within a brownfield area, or an urban infill area; and in which the developer agrees to set aside at least 20 percent of the housing units in the project for low-income and moderate-income persons or the construction in a designated brownfield area of affordable housing for persons described in s. 420.0004(9), (11), (12), or (17) or in s. 159.603(7).

c. "Mixed-use project" means the conversion of an existing manufacturing or industrial building to mixed-use units that include artists' studios, art and entertainment services, or other compatible uses. A mixed-use project must be located in an urban high-crime area, an enterprise zone, an empowerment zone, a Front Porch Community, a designated brownfield site for which a rehabilitation agreement with the Department of Environmental Protection or a local government delegated by the Department of

317422

Environmental Protection has been executed under s. 376.80 and any abutting real property parcel within a brownfield area, or an urban infill area; ~~,~~ and the developer must agree to set aside at least 20 percent of the square footage of the project for low-income and moderate-income housing.

d. "Substantially completed" has the same meaning as provided in s. 192.042(1).

2. Building materials used in the construction of a housing project or mixed-use project are exempt from the tax imposed by this chapter upon an affirmative showing to the satisfaction of the department that the requirements of this paragraph have been met. This exemption inures to the owner through a refund of previously paid taxes. To receive this refund, the owner must file an application under oath with the department which includes:

a. The name and address of the owner.

b. The address and assessment roll parcel number of the project for which a refund is sought.

c. A copy of the building permit issued for the project.

d. A certification by the local building code inspector that the project is substantially completed.

e. A sworn statement, under penalty of perjury, from the general contractor licensed in this state with whom the owner contracted to construct the project, which statement lists the building materials used in the construction of the project and the actual cost thereof, and the amount of sales tax paid on these materials. If a general contractor was not used, the owner shall provide this information in a sworn statement, under penalty of perjury. Copies of invoices evidencing payment of

sales tax must be attached to the sworn statement.

3. An application for a refund under this paragraph must be submitted to the department within 6 months after the date the project is deemed to be substantially completed by the local building code inspector. Within 30 working days after receipt of the application, the department shall determine if it meets the requirements of this paragraph. A refund approved pursuant to this paragraph shall be made within 30 days after formal approval of the application by the department.

4. The department shall establish by rule an application form and criteria for establishing eligibility for exemption under this paragraph.

5. The exemption shall apply to purchases of materials on or after July 1, 2000.

Section 5. The amendments to sections 212.08 and 288.107, Florida Statutes, made by this act do not apply to building materials purchased before the effective date of this act or to contracts for brownfield redevelopment bonus refunds executed by the Department of Economic Opportunity or Enterprise Florida, Inc., before the effective date of this act.

Section 6. Paragraph (bb) is added to subsection (8) of section 213.053, Florida Statutes, to read:

213.053 Confidentiality and information sharing.—

(8) Notwithstanding any other provision of this section, the department may provide:

(bb) Information to the director of the Office of Program Policy Analysis and Government Accountability or his or her authorized agent, and to the coordinator of the Office of Economic and Demographic Research or his or her authorized

317422

agent, for purposes of completing the Economic Development Programs Evaluation. Information obtained from the department pursuant to this paragraph may be shared by the director and the coordinator, or the director's or coordinator's authorized agent, for purposes of completing the Economic Development Programs Evaluation.

Disclosure of information under this subsection shall be pursuant to a written agreement between the executive director and the agency. Such agencies, governmental or nongovernmental, shall be bound by the same requirements of confidentiality as the Department of Revenue. Breach of confidentiality is a misdemeanor of the first degree, punishable as provided by s. 775.082 or s. 775.083.

Section 7. Subsection (9) of section 220.194, Florida Statutes, is amended to read:

220.194 Corporate income tax credits for spaceflight projects.—

(9) ANNUAL REPORT.—Beginning in 2014, the Department of Economic Opportunity, in cooperation with Space Florida and the department, shall include in the ~~submit an~~ annual incentives report required under s. 288.907 a summary of ~~summarizing~~ activities relating to the Florida Space Business Incentives Act established under this section ~~to the Governor, the President of the Senate, and the Speaker of the House of Representatives by each November 30~~.

Section 8. Section 288.001, Florida Statutes, is amended to read:

288.001 The Florida Small Business Development Center

317422

Network~~; purpose~~.—

(1) PURPOSE.—The Florida Small Business Development Center Network is the principal business assistance organization for small businesses in the state. The purpose of the network is to serve emerging and established for-profit, privately held businesses that maintain a place of business in the state.

(2) DEFINITIONS.—As used in this section, the term:

(a) "Board of Governors" is the Board of Governors of the State University System.

(b) "Host institution" is the university designated by the Board of Governors to be the recipient organization in accordance with 13 C.F.R. s. 130.200.

(c) "Network" means the Florida Small Business Development Center Network.

(3) OPERATION; POLICIES AND PROGRAMS.—

(a) The network's statewide director shall operate the network in compliance with the federal laws and regulations governing the network and the Board of Governors Regulation 10.015.

(b) The network's statewide director shall consult with the Board of Governors, the department, and the network's statewide advisory board to ensure that the network's policies and programs align with the statewide goals of the State University System and the statewide strategic economic development plan as provided under s. 20.60.

(4) STATEWIDE ADVISORY BOARD.—

(a) The network shall maintain a statewide advisory board to advise, counsel, and confer with the statewide director on matters pertaining to the operation of the network.

317422

(b) The statewide advisory board shall consist of 19 members from across the state. At least 12 members must be representatives of the private sector who are knowledgeable of the needs and challenges of small businesses. The members must represent various segments and industries of the economy in this state and must bring knowledge and skills to the statewide advisory board which would enhance the board's collective knowledge of small business assistance needs and challenges. Minority and gender representation must be considered when making appointments to the board. The board must include the following members:

1. Three members appointed from the private sector by the President of the Senate.

2. Three members appointed from the private sector by the Speaker of the House of Representatives.

3. Three members appointed from the private sector by the Governor.

4. Three members appointed from the private sector by the network's statewide director.

5. One member appointed by the host institution.

6. The President of Enterprise Florida, Inc., or his or her designee.

7. The Chief Financial Officer or his or her designee.

8. The President of the Florida Chamber of Commerce or his or her designee.

9. The Small Business Development Center Project Officer from the U.S. Small Business Administration at the South Florida District Office or his or her designee.

10. The executive director of the National Federation of

317422

Independent Businesses, Florida, or his or her designee.

11. The executive director of the Florida United Business Association or his or her designee.

(c) The term of an appointed member shall be for 4 years, beginning August 1, 2013, except that at the time of initial appointments, two members appointed by the Governor, one member appointed by the President of the Senate, one member appointed by the Speaker of the House of Representatives, and one member appointed by the network's statewide director shall be appointed for 2 years. An appointed member may be reappointed to a subsequent term. Members of the statewide advisory board may not receive compensation but may be reimbursed for per diem and travel expenses in accordance with s. 112.061.

(5) SMALL BUSINESS SUPPORT SERVICES; AGREEMENT.—

(a) The statewide director, in consultation with the advisory board, shall develop support services that are delivered through regional small business development centers. Support services must target the needs of businesses that employ fewer than 100 persons and demonstrate an assessed capacity to grow in employment or revenue.

(b) Support services must include, but need not be limited to, providing information or research, consulting, educating, or assisting businesses in the following activities:

1. Planning related to the start-up, operation, or expansion of a small business enterprise in this state. Such activities include providing guidance on business formation, structure, management, registration, regulation, and taxes.

2. Developing and implementing strategic or business plans. Such activities include analyzing a business's mission, vision,

317422

strategies, and goals; critiquing the overall plan; and creating performance measures.

3. Developing the financial literacy of existing businesses related to their business cash flow and financial management plans. Such activities include conducting financial analysis health checks, assessing cost control management techniques, and building financial management strategies and solutions.

4. Developing and implementing plans for existing businesses to access or expand to new or existing markets. Such activities include conducting market research, researching and identifying expansion opportunities in international markets, and identifying opportunities in selling to units of government.

5. Supporting access to capital for business investment and expansion. Such activities include providing technical assistance relating to obtaining surety bonds; identifying and assessing potential debt or equity investors or other financing opportunities; assisting in the preparation of applications, projections, or pro forma or other support documentation for surety bond, loan, financing, or investment requests; and facilitating conferences with lenders or investors.

6. Assisting existing businesses to plan for a natural or man-made disaster, and assisting businesses when such an event occurs. Such activities include creating business continuity and disaster plans, preparing disaster and bridge loan applications, and carrying out other emergency support functions.

(c) A business receiving support services must agree to participate in assessments of such services. The agreement, at a minimum, must request the business to report demographic characteristics, changes in employment and sales, debt and

317422

equity capital attained, and government contracts acquired. The host institution may require additional reporting requirements for funding described in subsection (7).

(6) REQUIRED MATCH.—The network must provide a match equal to the total amount of any direct legislative appropriation which is received directly by the host institution and is specifically designated for the network. The match may include funds from federal or other nonstate funding sources designated for the network. At least 50 percent of the match must be cash. The remaining 50 percent may be provided through any allowable combination of additional cash, in-kind contributions, or indirect costs.

(7) ADDITIONAL STATE FUNDS; USES; PAY-PER-PERFORMANCE INCENTIVES; STATEWIDE SERVICE; SERVICE ENHANCEMENTS; BEST PRACTICES; ELIGIBILITY.—

(a) The statewide director, in coordination with the host institution, shall establish a pay-per-performance incentive for regional small business development centers. Such incentive shall be funded from half of any state appropriation received directly by the host institution, which appropriation is specifically designated for the network. These funds shall be distributed to the regional small business development centers based upon data collected from the businesses as provided under paragraph (5)(c). The distribution formula must provide for the distribution of funds in part on the gross number of jobs created annually by each center and in part on the number of jobs created per support service hour. The pay-per-performance incentive must supplement the operations and support services of each regional small business development center.

317422

(b) Half of any state funds received directly by the host institution which are specifically designated for the network shall be distributed by the statewide director, in coordination with the advisory board, for the following purposes:

1. Ensuring that support services are available statewide, especially in underserved and rural areas of the state, to assist eligible businesses;

2. Enhancing participation in the network among state universities and colleges; and

3. Facilitating the adoption of innovative small business assistance best practices by the regional small business development centers.

(c) The statewide director, in coordination with the advisory board, shall develop annual programs to distribute funds for each of the purposes described in paragraph (b). The network shall announce the annual amount of available funds for each program, performance expectations, and other requirements. For each program, the statewide director shall present applications and recommendations to the advisory board. The advisory board shall make the final approval of applications. Approved applications must be publicly posted. At a minimum, programs must include:

1. New regional small business development centers; and

2. Awards for the top six regional small business development centers that adopt best practices, as determined by the advisory board. Detailed information about best practices must be made available to regional small business development centers for voluntary implementation.

(d) A regional small business development center that has

317422

been found by the statewide director to perform poorly, to engage in improper activity affecting the operation and integrity of the network, or to fail to follow the rules and procedures set forth in the laws, regulations, and policies governing the network, is not eligible for funds under this subsection.

(e) Funds awarded under this subsection may not reduce matching funds dedicated to the regional small business development centers.

(8) REPORTING.—

(a) The statewide director shall quarterly update the Board of Governors, the department, and the advisory board on the network's progress and outcomes, including aggregate information on businesses assisted by the network.

(b) The statewide director, in coordination with the advisory board, shall annually report, on October 1, to the President of the Senate and the Speaker of the House of Representatives on the network's progress and outcomes for the previous fiscal year. The report must include aggregate information on businesses assisted by the network; network services and programs; the use of all federal, state, local, and private funds received by the network and the regional small business development centers, including any additional funds specifically appropriated by the Legislature for the purposes described in subsection (7); and the network's economic benefit to the state. The report must contain specific information on performance-based metrics and contain the methodology used to calculate the network's economic benefit to the state.

Section 9. Subsection (4) is added to section 288.005,

317422

Florida Statutes, to read:

288.005 Definitions.—As used in this chapter, the term:

(4) "Jobs" means full-time equivalent positions, including, but not limited to, positions obtained from a temporary employment agency or employee leasing company or through a union agreement or coemployment under a professional employer organization agreement, which result directly from a project in this state. This number does not include temporary construction jobs involved with the construction of facilities for the project.

Section 10. Subsection (3) of section 288.012, Florida Statutes, is amended to read:

288.012 State of Florida international offices; state protocol officer; protocol manual.—The Legislature finds that the expansion of international trade and tourism is vital to the overall health and growth of the economy of this state. This expansion is hampered by the lack of technical and business assistance, financial assistance, and information services for businesses in this state. The Legislature finds that these businesses could be assisted by providing these services at State of Florida international offices. The Legislature further finds that the accessibility and provision of services at these offices can be enhanced through cooperative agreements or strategic alliances between private businesses and state, local, and international governmental entities.

(3) ~~By October 1 of each year,~~ Each international office shall annually submit to Enterprise Florida, Inc., ~~the department~~ a complete and detailed report on its activities and accomplishments during the previous ~~preceding~~ fiscal year for

317422

inclusion in the annual report required under s. 288.906. In the ~~a~~ format and by the annual date prescribed ~~provided~~ by Enterprise Florida, Inc., the report must set forth information on:

(a) The number of Florida companies assisted.

(b) The number of inquiries received about investment opportunities in this state.

(c) The number of trade leads generated.

(d) The number of investment projects announced.

(e) The estimated U.S. dollar value of sales confirmations.

(f) The number of representation agreements.

(g) The number of company consultations.

(h) Barriers or other issues affecting the effective operation of the office.

(i) Changes in office operations which are planned for the current fiscal year.

(j) Marketing activities conducted.

(k) Strategic alliances formed with organizations in the country in which the office is located.

(l) Activities conducted with Florida's other international offices.

(m) Any other information that the office believes would contribute to an understanding of its activities.

Section 11. Section 288.061, Florida Statutes, is amended to read:

288.061 Economic development incentive application process.—

(1) Upon receiving a submitted economic development incentive application, the Division of Strategic Business

317422

Development of the Department of Economic Opportunity and designated staff of Enterprise Florida, Inc., shall review the application to ensure that the application is complete, whether and what type of state and local permits may be necessary for the applicant's project, whether it is possible to waive such permits, and what state incentives and amounts of such incentives may be available to the applicant. The department shall recommend to the executive director to approve or disapprove an applicant business. If review of the application demonstrates that the application is incomplete, the executive director shall notify the applicant business within the first 5 business days after receiving the application.

(2) Beginning July 1, 2013, the department shall review and evaluate each economic development incentive application for the economic benefits of the proposed award of state incentives proposed for the project. The term "economic benefits" has the same meaning as in s. 288.005. The Office of Economic and Demographic Research shall review and evaluate the methodology and model used to calculate the economic benefits. For purposes of this requirement, an amended definition of economic benefits may be developed in conjunction with the Office of Economic and Demographic Research. The Office of Economic and Demographic Research shall report on the methodology and model by September 1, 2013, and every third year thereafter, to the President of the Senate and the Speaker of the House of Representatives.

(3) ~~(2)~~ Within 10 business days after the department receives the submitted economic development incentive application, the executive director shall approve or disapprove the application and issue a letter of certification to the

317422

applicant which includes a justification of that decision, unless the business requests an extension of that time.

(a) The contract or agreement with the applicant must ~~shall~~ specify the total amount of the award, the performance conditions that must be met to obtain the award, the schedule for payment, and sanctions that would apply for failure to meet performance conditions. The department may enter into one agreement or contract covering all of the state incentives that are being provided to the applicant. The contract must provide that release of funds is contingent upon sufficient appropriation of funds by the Legislature.

(b) The release of funds for the incentive or incentives awarded to the applicant depends upon the statutory requirements of the particular incentive program, except as provided in subsection (4).

(4)(a) In order to receive an incentive under s. 288.1088 or s. 288.1089, an applicant must provide the department with a surety bond, issued by an insurer authorized to do business in this state, for the amount of the award under the incentive contract or agreement. Funds may not be paid to an applicant until the department certifies compliance with this subsection.

1. The contract or agreement must provide that the bond remain in effect until all performance conditions in the contract or agreement have been satisfied. The department may require the bond to cover the entire amount of the contract or agreement or allow for a bond to be renewed upon the completion of scheduled performance measurements specified in the contract or agreement. The contract or agreement must provide that the release of any funds is contingent upon receipt by the

317422

department of the surety bond.

2. The contract or agreement must provide that up to half of the premium payment on the surety bond may be paid from the award amount, not to exceed 3 percent of the award.

3. The applicant shall notify the department at least 10 days before each premium payment is due.

4. Any notice of cancellation or nonrenewal issued by an insurer must comply with the notice requirements of s. 626.9201. If the applicant receives a notice of cancellation or nonrenewal, the applicant must immediately notify the department.

5. The cancellation of the surety bond is a violation of the contract or agreement between the applicant and the department. The department is released from any obligation to make future scheduled payments unless the applicant is able to secure a new surety bond or comply with the requirements of paragraphs (b) and (c) within 90 days before the effective date of the cancellation.

(b) If an applicant is unable to secure a surety bond or can demonstrate that obtaining a bond is unreasonable in cost, the department may waive the requirements specified in paragraph (a) by certifying in writing to the Governor, President of the Senate, and Speaker of the House of Representatives the following information:

1. An explanation stating the reasons why the applicant could not obtain a bond, to the extent such information is not confidential under s. 288.075;

2. A description of the economic benefits expected to be generated by the incentive award which indicates that the

317422

project warrants waiver of the requirement; and

3. An evaluation of the quality and value of the applicant which supports the selection of the alternative securitization under paragraph (c). The department's evaluation must consider the following information when determining the form for securing the award amount:

a. A financial analysis of the company, including an evaluation of the company's short-term liquidity ratio as measured by its assets to liability, the company's profitability ratio, and the company's long-term solvency as measured by its debt-to-equity ratio;

b. The historical market performance of the company;

c. Any independent evaluations of the company;

d. The latest audit of the company's financial statement and the related auditor's management letter; and

e. Any other types of reports that are related to the internal controls or management of the company.

(c)1. If the department grants a waiver under paragraph (b), the incentives contract or agreement must provide for securing the award amount in one of the following forms:

a. An irrevocable letter of credit issued by a financial institution, as defined in s. 655.005;

b. Cash or securities held in trust by a financial institution, as defined in s. 655.005, and subject to a control agreement; or

c. A secured transaction in collateral under the control or possession of the applicant for the value of the award amount. The department is authorized to negotiate the terms and conditions of the security agreement.

317422

2. The contract or agreement must provide that the release of any funds is contingent upon the receipt of documentation by the department which satisfies all of the requirements found in this paragraph. Funds may not be paid to the applicant until the department certifies compliance with this subsection.

3. The irrevocable letter of credit, trust, or security agreement must remain in effect until all performance conditions specified in the contract or agreement have been satisfied. Failure to comply with this provision results in a violation of the contract or agreement between the applicant and the department and releases the department from any obligation to make future scheduled payments.

(d) The department may waive the requirements of paragraphs (a) through (c) by certifying to the Governor and the chair and vice chair of the Legislative Budget Commission the following information:

1. The applicant demonstrates the financial ability to fulfill the requirements of the contract and has submitted an independently audited financial statement for the previous 5 years;

2. If applicable, the applicant was previously a recipient of an incentive under an economic development program, was subject to clawback requirements, and timely complied with those provisions; and

3. The department has determined that waiver of the requirements of paragraphs (a) through (c) is in the best interest of the state.

(e) For waivers granted under paragraph (d), the department shall provide a written description and evaluation of the waiver

317422

to the chair and vice chair of the Legislative Budget Commission. Such information may be provided at the same time that the information for the project consultation is provided to the Legislative Budget Commission under s. 288.1088 or s. 288.1089. If the chair or vice chair of the Legislative Budget Commission timely advises the department that such action or proposed action exceeds delegated authority or is contrary to legislative policy or intent, the department shall void the waiver until the Legislative Budget Commission or the Legislature addresses the issue. A waiver granted by the department for any project exceeding $5 million must be approved by the Legislative Budget Commission.

(f) The provisions of this subsection shall apply to any contract entered into on or after July 1, 2013.

(5) In the event of default on the performance conditions specified in the contract or agreement, or violation of any of the provisions found in this section, the state may, in addition to any other remedy provided by law, bring suit to enforce its interest.

(6) ~~(3)~~ The department shall validate contractor performance and report~~.~~ such ~~Such~~ validation ~~shall be reported~~ in the annual incentives ~~incentive~~ report required under s. 288.907.

(7) The department is authorized to adopt rules to implement this section.

Section 12. Subsection (8) of section 288.0656, Florida Statutes, is amended to read:

288.0656 Rural Economic Development Initiative.—

(8) REDI shall submit a report to the department ~~Governor, the President of the Senate, and the Speaker of the House of~~

317422

~~Representatives each year on or before September 1~~ on all REDI activities for the previous ~~prior~~ fiscal year as a supplement to the department's annual report required under s. 20.60. This supplementary report must ~~shall~~ include:

(a) A status report on all projects currently being coordinated through REDI, the number of preferential awards and allowances made pursuant to this section, the dollar amount of such awards, and the names of the recipients.

(b) ~~The report shall also include~~ A description of all waivers of program requirements granted.

(c) ~~The report shall also include~~ Information as to the economic impact of the projects coordinated by REDI.~~, and~~

(d) Recommendations based on the review and evaluation of statutes and rules having an adverse impact on rural communities~~,~~ and proposals to mitigate such adverse impacts.

Section 13. Effective October 1, 2013, section 288.076, Florida Statutes, is created to read:

288.076 Return on investment reporting for economic development programs.—

(1) As used in this section, the term:

(a) "Jobs" has the same meaning as provided in s. 288.106(2)(i).

(b) "Participant business" means an employing unit, as defined in s. 443.036, that has entered into an agreement with the department to receive a state investment.

(c) "Project" has the same meaning as provided in s. 288.106(2)(m).

(d) "Project award date" means the date a participant business enters into an agreement with the department to receive

317422

a state investment.

(e) "State investment" means any state grants, tax exemptions, tax refunds, tax credits, or other state incentives provided to a business under a program administered by the department, including the capital investment tax credit under s. 220.191.

(2) The department shall maintain a website for the purpose of publishing the information described in this section. The information required to be published under this section must be provided in a format accessible to the public which enables users to search for and sort specific data and to easily view and retrieve all data at once.

(3) Within 48 hours after expiration of the period of confidentiality for project information deemed confidential and exempt pursuant to s. 288.075, the department shall publish the following information pertaining to each project:

(a) *Projected economic benefits.*—The projected economic benefits at the time of the initial project award date.

(b) *Project information.*—

1. The program or programs through which state investment is being made.

2. The maximum potential cumulative state investment in the project.

3. The target industry or industries, and any high impact sectors implicated by the project.

4. The county or counties that will be impacted by the project.

5. The total cumulative local financial commitment and in-kind support for the project.

317422

(c) *Participant business information.*—

1. The location of the headquarters of the participant business or, if a subsidiary, the headquarters of the parent company.

2. The firm size class of the participant business, or where owned by a parent company the firm size class of the participant business's parent company, using the firm size classes established by the United States Department of Labor Bureau of Labor Statistics, and whether the participant business qualifies as a small business as defined in s. 288.703.

3. The date of the project award.

4. The expected duration of the contract.

5. The anticipated dates when the participant business will claim the last state investment.

(d) *Project evaluation criteria.*—

1. Economic benefits generated by the project.

2. The net indirect and induced incremental jobs to be generated by the project.

3. The net indirect and induced incremental capital investment to be generated by the project.

(e) *Project performance goals.*—

1. The incremental direct jobs attributable to the project, identifying the number of jobs generated and the number of jobs retained.

2. The number of jobs generated and the number of jobs retained by the project, and for projects commencing after October 1, 2013, the median annual wage of persons holding such jobs.

3. The incremental direct capital investment in the state

317422

generated by the project.

(f) *Total state investment to date.*—The total amount of state investment disbursed to the participant business to date under the terms of the contract, itemized by incentive program.

(4) The department shall use methodology and formulas established by the Office of Economic and Demographic Research to calculate the economic benefits of each project. The department shall calculate and publish on its website the economic benefits of each project within 48 hours after the conclusion of the agreement between each participant business and the department. The Office of Economic and Demographic Research shall provide a description of the methodology used to calculate the economic benefits of a project to the department, and the department must publish the information on its website within 48 hours after receiving such information.

(5) At least annually, from the project award date, the department shall:

(a) Publish verified results to update the information described in paragraphs (3)(b)-(f) to accurately reflect any changes in the published information since the project award date.

(b) Publish on its website the date on which the information collected and published for each project was last updated.

(6) Annually, the department shall publish information relating to the progress of Quick Action Closing Fund projects, including the average number of days between the date the department receives a completed application and the date on which the application is approved.

317422

(7) The department shall publish the following documents at the times specified herein:

(a) Within 48 hours after expiration of the period of confidentiality provided under s. 288.075, the department shall publish the contract or agreement described in s. 288.061. The contract or agreement must be redacted to protect the participant business from disclosure of information that remains confidential or exempt by law.

(b) Within 48 hours after submitting any report of findings and recommendations made pursuant to s. 288.106(7)(d) concerning a business's failure to complete a tax refund agreement pursuant to the tax refund program for qualified target industry businesses, the department shall publish such report.

(8) For projects completed before October 1, 2013, the department shall compile and, by October 1, 2014, shall publish the information described in subsections (3), (4), and (5), to the extent such information is available and applicable.

(9) The provisions of this section that restrict the department's publication of information are intended only to limit the information that the department may publish on its website and shall not be construed to create an exemption from public records requirements under s. 119.07(1) or s. 24(a), Art. I of the State Constitution.

(10) The department may adopt rules to administer this section.

Section 14. Paragraph (c) of subsection (3) of section 288.095, Florida Statutes, is repealed.

Section 15. Paragraph (c) of subsection (4) and paragraph (d) of subsection (7) of section 288.106, Florida Statutes, are

317422

amended to read:

288.106 Tax refund program for qualified target industry businesses.—

(4) APPLICATION AND APPROVAL PROCESS.—

(c) Each application meeting the requirements of paragraph (b) must be submitted to the department for determination of eligibility. The department shall review and evaluate each application based on, but not limited to, the following criteria:

1. Expected contributions to the state's economy, consistent with the state strategic economic development plan prepared by the department.

2. The economic benefits of the proposed award of tax refunds under this section ~~and the economic benefits of state incentives proposed for the project~~. ~~The term "economic benefits" has the same meaning as in s. 288.005. The Office of Economic and Demographic Research shall review and evaluate the methodology and model used to calculate the economic benefits and shall report its findings by September 1 of every 3rd year, to the President of the Senate and the Speaker of the House of Representatives.~~

3. The amount of capital investment to be made by the applicant in this state.

4. The local financial commitment and support for the project.

5. The <u>expected</u> effect of the project on the <u>unemployed and underemployed</u> ~~unemployment rate~~ in the county where the project will be located.

6. The <u>expected</u> effect of the award on the viability of the

317422

project and the probability that the project would be undertaken in this state if such tax refunds are granted to the applicant.

~~7. The expected long-term commitment of the applicant to economic growth and employment in this state resulting from the project.~~

7.~~8.~~ A review of the business's past activities in this state or other states, including whether the ~~such~~ business has been subjected to criminal or civil fines and penalties and whether the business received economic development incentives in other states and the results of such incentive agreements. This subparagraph does not require the disclosure of confidential information.

(7) ADMINISTRATION.—

(d) Beginning with tax refund agreements signed after July 1, 2010, the department shall attempt to ascertain the causes for any business's failure to complete its agreement and ~~shall report~~ its findings and recommendations must be included in the annual incentives report under s. 288.907 ~~to the Governor, the President of the Senate, and the Speaker of the House of Representatives~~. ~~The report shall be submitted by December 1 of each year beginning in 2011.~~

Section 16. Paragraphs (c) and (d) of subsection (1), subsections (2) and (3), and paragraphs (a), (b), and (f) of subsection (4) of section 288.107, Florida Statutes, are amended to read:

288.107 Brownfield redevelopment bonus refunds.—

(1) DEFINITIONS.—As used in this section:

(c) "Brownfield area eligible for bonus refunds" means a brownfield site for which a rehabilitation agreement with the

317422

Department of Environmental Protection or a local government delegated by the Department of Environmental Protection has been executed under s. 376.80 and any abutting real property parcel within a brownfield ~~contiguous~~ area ~~of one or more brownfield sites, some of which may not be contaminated, and~~ which has been designated by a local government by resolution under s. 376.80. ~~Such areas may include all or portions of community redevelopment areas, enterprise zones, empowerment zones, other such designated economically deprived communities and areas, and Environmental Protection Agency designated brownfield pilot projects.~~

(d) "Eligible business" means:

1. A qualified target industry business as defined in s. 288.106(2); or

2. A business that can demonstrate a fixed capital investment of at least $2 million in mixed-use business activities, including multiunit housing, commercial, retail, and industrial in brownfield areas eligible for bonus refunds, ~~or at least $500,000 in brownfield areas that do not require site cleanup,~~ and that provides benefits to its employees.

(2) BROWNFIELD REDEVELOPMENT BONUS REFUND.—Bonus refunds shall be approved by the department as specified in the final order and allowed from the account as follows:

(a) A bonus refund of $2,500 shall be allowed to any qualified target industry business as defined in s. 288.106 for each new Florida job created in a brownfield area eligible for bonus refunds which ~~that~~ is claimed on the qualified target industry business's annual refund claim authorized in s. 288.106(6).

317422

(b) A bonus refund of up to $2,500 shall be allowed to any other eligible business as defined in subparagraph (1)(d)2. for each new Florida job created in a brownfield area eligible for bonus refunds which ~~that~~ is claimed under an annual claim procedure similar to the annual refund claim authorized in s. 288.106(6). The amount of the refund shall be equal to 20 percent of the average annual wage for the jobs created.

(3) CRITERIA.—The minimum criteria for participation in the brownfield redevelopment bonus refund are:

(a) The creation of at least 10 new full-time permanent jobs. Such jobs shall not include construction or site rehabilitation jobs associated with the implementation of a brownfield site agreement as described in s. 376.80(5).

(b) The completion of a fixed capital investment of at least $2 million in mixed-use business activities, including multiunit housing, commercial, retail, and industrial in brownfield areas eligible for bonus refunds, ~~or at least $500,000 in brownfield areas that do not require site cleanup,~~ by an eligible business applying for a refund under paragraph (2)(b) which provides benefits to its employees.

~~(c) That the designation as a brownfield will diversify and strengthen the economy of the area surrounding the site.~~

~~(d) That the designation as a brownfield will promote capital investment in the area beyond that contemplated for the rehabilitation of the site.~~

~~(e) A resolution adopted by the governing board of the county or municipality in which the project will be located that recommends that certain types of businesses be approved.~~

(4) PAYMENT OF BROWNFIELD REDEVELOPMENT BONUS REFUNDS.—

(a) To be eligible to receive a bonus refund for new Florida jobs created in a brownfield area eligible for bonus refunds, a business must have been certified as a qualified target industry business under s. 288.106 or eligible business as defined in paragraph (1)(d) and must have indicated on the qualified target industry business tax refund application form submitted in accordance with s. 288.106(4) or other similar agreement for other eligible business as defined in paragraph (1)(d) that the project for which the application is submitted is or will be located in a brownfield area eligible for bonus refunds and that the business is applying for certification as a qualified brownfield business under this section, and must have signed a qualified target industry business tax refund agreement with the department that indicates that the business has been certified as a qualified target industry business located in a brownfield area eligible for bonus refunds and specifies the schedule of brownfield redevelopment bonus refunds that the business may be eligible to receive in each fiscal year.

(b) To be considered to receive an eligible brownfield redevelopment bonus refund payment, the business meeting the requirements of paragraph (a) must submit a claim once each fiscal year on a claim form approved by the department which indicates the location of the brownfield site for which a rehabilitation agreement with the Department of Environmental Protection or a local government delegated by the Department of Environmental Protection has been executed under s. 376.80, the address of the business facility's brownfield location, the name of the brownfield in which it is located, the number of jobs created, and the average wage of the jobs created by the

317422

business within the brownfield as defined in s. 288.106 or other eligible business as defined in paragraph (1)(d) and the administrative rules and policies for that section.

(f) Applications shall be reviewed and certified pursuant to s. 288.061. The department shall review all applications submitted under s. 288.106 or other similar application forms for other eligible businesses as defined in paragraph (1)(d) which indicate that the proposed project will be located in a brownfield area eligible for bonus refunds and determine, with the assistance of the Department of Environmental Protection, that the project location is within a brownfield area eligible for bonus refunds as provided in this act.

Section 17. Subsection (8) of section 288.1081, Florida Statutes, is amended to read:

288.1081 Economic Gardening Business Loan Pilot Program.—

(8) The annual report required under s. 20.60 must describe ~~On June 30 and December 31 of each year, the department shall submit a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives which describes~~ in detail the use of the loan funds. The report must include, at a minimum, the number of businesses receiving loans, the number of full-time equivalent jobs created as a result of the loans, the amount of wages paid to employees in the newly created jobs, the locations and types of economic activity undertaken by the borrowers, the amounts of loan repayments made to date, and the default rate of borrowers.

Section 18. Subsection (8) of section 288.1082, Florida Statutes, is amended to read:

288.1082 Economic Gardening Technical Assistance Pilot

317422

Program.—

(8) The annual report required under s. 20.60 must describe ~~On December 31 of each year, the department shall submit a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives which describes~~ in detail the progress of the pilot program. The report must include, at a minimum, the number of businesses receiving assistance, the number of full-time equivalent jobs created as a result of the assistance, if any, the amount of wages paid to employees in the newly created jobs, and the locations and types of economic activity undertaken by the businesses.

Section 19. Paragraph (e) of subsection (3) of section 288.1088, Florida Statutes, is amended to read:

288.1088 Quick Action Closing Fund.—

(3)

(e) The department ~~Enterprise Florida, Inc.,~~ shall validate contractor performance and report~~.~~ such validation in the annual incentives report required under s. 288.907 ~~shall be reported within 6 months after completion of the contract to the Governor, President of the Senate, and the Speaker of the House of Representatives~~.

Section 20. Paragraphs (b) and (d) of subsection (4), and subsections (9) and (11) of section 288.1089, Florida Statutes, are amended to read:

288.1089 Innovation Incentive Program.—

(4) To qualify for review by the department, the applicant must, at a minimum, establish the following to the satisfaction of the department:

(b) A research and development project must:

317422

1. Serve as a catalyst for an emerging or evolving technology cluster.

2. Demonstrate a plan for significant higher education collaboration.

3. Provide the state, at a minimum, a cumulative break-even economic benefit ~~return on investment~~ within a 20-year period.

4. Be provided with a one-to-one match from the local community. The match requirement may be reduced or waived in rural areas of critical economic concern or reduced in rural areas, brownfield areas, and enterprise zones.

(d) For an alternative and renewable energy project in this state, the project must:

1. Demonstrate a plan for significant collaboration with an institution of higher education;

2. Provide the state, at a minimum, a cumulative break-even economic benefit ~~return on investment~~ within a 20-year period;

3. Include matching funds provided by the applicant or other available sources. The match requirement may be reduced or waived in rural areas of critical economic concern or reduced in rural areas, brownfield areas, and enterprise zones;

4. Be located in this state; and

5. Provide at least 35 direct, new jobs that pay an estimated annual average wage that equals at least 130 percent of the average private sector wage.

(9) The department shall validate the performance of an innovation business, a research and development facility, or an alternative and renewable energy business that has received an award. At the conclusion of the innovation incentive award agreement, or its earlier termination, the department shall

317422

include in the annual incentives report required under s. 288.907 a detailed description of~~, within 90 days, submit a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives detailing~~ whether the recipient of the innovation incentive grant achieved its specified outcomes.

(11)~~(a)~~ The department shall include in ~~submit to the Governor, the President of the Senate, and the Speaker of the House of Representatives, as part of~~ the annual incentives report required under s. 288.907~~,~~ a report summarizing the activities and accomplishments of the recipients of grants from the Innovation Incentive Program during the previous 12 months and an evaluation of whether the recipients are catalysts for additional direct and indirect economic development in Florida.

~~(b) Beginning March 1, 2010, and every third year thereafter, the Office of Program Policy Analysis and Government Accountability, in consultation with the Auditor General's Office, shall release a report evaluating the Innovation Incentive Program's progress toward creating clusters of high-wage, high-skilled, complementary industries that serve as catalysts for economic growth specifically in the regions in which they are located, and generally for the state as a whole. Such report should include critical analyses of quarterly and annual reports, annual audits, and other documents prepared by the Innovation Incentive Program awardees; relevant economic development reports prepared by the department, Enterprise Florida, Inc., and local or regional economic development organizations; interviews with the parties involved; and any other relevant data. Such report should also include legislative~~

317422

~~recommendations, if necessary, on how to improve the Innovation Incentive Program so that the program reaches its anticipated potential as a catalyst for direct and indirect economic development in this state.~~

Section 21. Subsection (3) of section 288.1253, Florida Statutes, is amended to read:

288.1253 Travel and entertainment expenses.—

(3) The Office of Film and Entertainment ~~department~~ shall include in the annual report for the entertainment industry financial incentive program required under s. 288.1254(10) a ~~prepare an annual~~ report of the office's expenditures ~~of the Office of Film and Entertainment and provide such report to the Legislature no later than December 30 of each year~~ for ~~the expenditures of~~ the previous fiscal year. The report must ~~shall~~ consist of a summary of all travel, entertainment, and incidental expenses incurred within the United States and all travel, entertainment, and incidental expenses incurred outside the United States, as well as a summary of all successful projects that developed from such travel.

Section 22. Subsection (10) of section 288.1254, Florida Statutes, is amended to read:

288.1254 Entertainment industry financial incentive program.—

(10) ANNUAL REPORT.—Each November 1 ~~October 1~~, the Office of Film and Entertainment shall submit ~~provide~~ an annual report for the previous fiscal year to the Governor, the President of the Senate, and the Speaker of the House of Representatives which outlines the incentive program's return on investment and economic benefits to the state. The report must ~~shall~~ also

317422

include an estimate of the full-time equivalent positions created by each production that received tax credits under this section and information relating to the distribution of productions receiving credits by geographic region and type of production. The report must also include the expenditures report required under s. 288.1253(3) and the information describing the relationship between tax exemptions and incentives to industry growth required under s. 288.1258(5).

Section 23. Subsection (5) of section 288.1258, Florida Statutes, is amended to read:

288.1258 Entertainment industry qualified production companies; application procedure; categories; duties of the Department of Revenue; records and reports.—

(5) RELATIONSHIP OF TAX EXEMPTIONS AND INCENTIVES TO INDUSTRY GROWTH; REPORT TO THE LEGISLATURE.—The Office of Film and Entertainment shall keep annual records from the information provided on taxpayer applications for tax exemption certificates beginning January 1, 2001. These records also must ~~shall~~ reflect a ratio of the annual amount of sales and use tax exemptions under this section, plus the incentives awarded pursuant to s. 288.1254 to the estimated amount of funds expended by certified productions. In addition, the office shall maintain data showing annual growth in Florida-based entertainment industry companies and entertainment industry employment and wages. The employment information must ~~shall~~ include an estimate of the full-time equivalent positions created by each production that received tax credits pursuant to s. 288.1254. The Office of Film and Entertainment shall include ~~report~~ this information in the annual report for the entertainment industry financial incentive

317422

program required under s. 288.1254(10) ~~to the Legislature no later than December 1 of each year~~.

Section 24. Subsection (3) of section 288.714, Florida Statutes, is amended to read:

288.714 Quarterly and annual reports.—

(3) ~~By August 31 of each year,~~ The department shall include in its annual report required under s. 20.60 ~~provide to the Governor, the President of the Senate, and the Speaker of the House of Representatives~~ a detailed report of the performance of the Black Business Loan Program. The report must include a cumulative summary of the quarterly report data compiled pursuant to ~~required by~~ subsection (2) ~~(1)~~.

Section 25. Section 288.7771, Florida Statutes, is amended to read:

288.7771 Annual report of Florida Export Finance Corporation.—The corporation shall annually prepare and submit to Enterprise Florida, Inc., ~~the department~~ for inclusion in its annual report required under s. 288.906 ~~by s. 288.095~~ a complete and detailed report setting forth:

(1) The report required in s. 288.776(3).

(2) Its assets and liabilities at the end of its most recent fiscal year.

Section 26. Subsections (3), (4), and (5) of section 288.903, Florida Statutes, are amended to read:

288.903 Duties of Enterprise Florida, Inc.—Enterprise Florida, Inc., shall have the following duties:

(3) Prepare an annual report pursuant to s. 288.906.

(4) Prepare, in conjunction with the department, ~~and~~ an annual incentives report pursuant to s. 288.907.

317422

(5) ~~(4)~~ Assist the department with the development of an annual and a long-range strategic business blueprint for economic development required in s. 20.60.

(6) ~~(5)~~ In coordination with Workforce Florida, Inc., identify education and training programs that will ensure Florida businesses have access to a skilled and competent workforce necessary to compete successfully in the domestic and global marketplace.

Section 27. Subsection (6) of section 288.904, Florida Statutes, is repealed.

Section 28. Subsection (3) is added to section 288.906, Florida Statutes, to read:

288.906 Annual report of Enterprise Florida, Inc., and its divisions; audits.—

(3) The following reports must be included as supplements to the detailed report required by this section:

(a) The annual report of the Florida Export Finance Corporation required under s. 288.7771.

(b) The report on international offices required under s. 288.012.

Section 29. Section 288.907, Florida Statutes, is amended to read:

288.907 Annual incentives report.—

~~(1)~~ By December 30 of each year, ~~In addition to the annual report required under s. 288.906,~~ Enterprise Florida, Inc., in conjunction with the department, ~~by December 30 of each year,~~ shall provide the Governor, the President of the Senate, and the Speaker of the House of Representatives a detailed incentives report quantifying the economic benefits for all of the economic

317422

development incentive programs marketed by Enterprise Florida, Inc.

~~(a)~~ The annual incentives report must include:

(1) For each incentive program:

(a)~~1.~~ A brief description of the incentive program.

(b)~~2.~~ The amount of awards granted, by year, since inception and the annual amount actually transferred from the state treasury to businesses or for the benefit of businesses for each of the previous 3 years.

~~3. The economic benefits, as defined in s. 288.005, based on the actual amount of private capital invested, actual number of jobs created, and actual wages paid for incentive agreements completed during the previous 3 years.~~

(c)~~4.~~ ~~The report shall also include~~ The actual amount of private capital invested, actual number of jobs created, and actual wages paid for incentive agreements completed during the previous 3 years for each target industry sector.

(2)~~(b)~~ For projects completed during the previous state fiscal year~~, the report must include~~:

(a)~~1.~~ The number of economic development incentive applications received.

(b)~~2.~~ The number of recommendations made to the department by Enterprise Florida, Inc., including the number recommended for approval and the number recommended for denial.

(c)~~3.~~ The number of final decisions issued by the department for approval and for denial.

(d)~~4.~~ The projects for which a tax refund, tax credit, or cash grant agreement was executed, identifying for each project:

1.~~a.~~ The number of jobs committed to be created.

2.~~b.~~ The amount of capital investments committed to be made.

3.~~c.~~ The annual average wage committed to be paid.

4.~~d.~~ The amount of state economic development incentives committed to the project from each incentive program under the project's terms of agreement with the Department of Economic Opportunity.

5.~~e.~~ The amount and type of local matching funds committed to the project.

(e) Tax refunds paid or other payments made funded out of the Economic Development Incentives Account for each project.

(f) The types of projects supported.

(3)~~(c)~~ For economic development projects that received tax refunds, tax credits, or cash grants under the terms of an agreement for incentives~~, the report must identify~~:

(a)~~1.~~ The number of jobs actually created.

(b)~~2.~~ The amount of capital investments actually made.

(c)~~3.~~ The annual average wage paid.

(4)~~(d)~~ For a project receiving economic development incentives approved by the department and receiving federal or local incentives, ~~the report must include~~ a description of the federal or local incentives, if available.

(5)~~(e)~~ The ~~report must state the~~ number of withdrawn or terminated projects that did not fulfill the terms of their agreements with the department and, consequently, are not receiving incentives.

(6) For any agreements signed after July 1, 2010, findings and recommendations on the efforts of the department to ascertain the causes of any business's inability to complete its

317422

agreement made under s. 288.106.

(7) ~~(f)~~ The amount ~~report must include an analysis of the economic benefits, as defined in s. 288.005,~~ of tax refunds, tax credits, or other payments made to projects locating or expanding in state enterprise zones, rural communities, brownfield areas, or distressed urban communities. The report must include a separate analysis of the impact of such tax refunds on state enterprise zones designated under s. 290.0065, rural communities, brownfield areas, and distressed urban communities.

(8) The name of and tax refund amount for each business that has received a tax refund under s. 288.1045 or s. 288.106 during the preceding fiscal year.

(9) ~~(g)~~ An identification of ~~The report must identify~~ the target industry businesses and high-impact businesses.

(10) ~~(h)~~ A description of ~~The report must describe~~ the trends relating to business interest in, and usage of, the various incentives, and the number of minority-owned or woman-owned businesses receiving incentives.

(11) ~~(i)~~ An identification of ~~The report must identify~~ incentive programs not used and recommendations for program changes or program elimination ~~utilized~~.

(12) Information related to the validation of contractor performance required under s. 288.061.

(13) Beginning in 2014, a summation of the activities related to the Florida Space Business Incentives Act.

~~(2) The Division of Strategic Business Development within the department shall assist Enterprise Florida, Inc., in the preparation of the annual incentives report.~~

317422

Section 30. Subsection (3) of section 288.92, Florida Statutes, is amended to read:

288.92 Divisions of Enterprise Florida, Inc.—

(3) ~~By October 15 each year,~~ Each division shall draft and submit an annual report for inclusion in the report required under 288.906 which details the division's activities during the previous ~~prior~~ fiscal year and includes ~~any~~ recommendations for improving current statutes related to the division's ~~related~~ area of responsibility.

Section 31. Subsection (5) of section 288.95155, Florida Statutes, is amended to read:

288.95155 Florida Small Business Technology Growth Program.—

(5) Enterprise Florida, Inc., shall prepare for inclusion in the annual report ~~of the department~~ required under s. 288.907 ~~by s. 288.095~~ a report on the financial status of the program. The report must specify the assets and liabilities of the program within the current fiscal year and must include a portfolio update that lists all of the businesses assisted, the private dollars leveraged by each business assisted, and the growth in sales and in employment of each business assisted.

Section 32. Section 288.9918, Florida Statutes, is amended to read:

288.9918 Annual reporting by a community development entity.—

(1) A community development entity that has issued a qualified investment shall submit an annual report to the department by January 31 ~~April 30~~ after the end of each year which includes a credit allowance date. The report shall include

317422

information on investments made in the preceding calendar year to include but not limited to the following:

~~(1) The entity's annual financial statements for the preceding tax year, audited by an independent certified public accountant~~.

(a) ~~(2)~~ The identity of the types of industries, identified by the North American Industry Classification System Code, in which qualified low-income community investments were made.

(b) ~~(3)~~ The names of the counties in which the qualified active low-income businesses are located which received qualified low-income community investments.

(c) ~~(4)~~ The number of jobs created and retained by qualified active low-income community businesses receiving qualified low-income community investments, including verification that the average wages paid meet or exceed 115 percent of the federal poverty income guidelines for a family of four.

(d) ~~(5)~~ A description of the relationships that the entity has established with community-based organizations and local community development offices and organizations and a summary of the outcomes resulting from those relationships.

(e) ~~(6)~~ Other information and documentation required by the department to verify continued certification as a qualified community development entity under 26 U.S.C. s. 45D.

(2) By April 30 after the end of each year which includes a credit allowance date, a community development entity shall submit annual financial statements for the preceding tax year, audited by an independent certified public accountant.

Section 33. Subsection (6) of section 290.0055, Florida Statutes, is amended to read:

317422

290.0055 Local nominating procedure.—

(6)(a) The department may approve a change in the boundary of any enterprise zone which was designated pursuant to s. 290.0065. A boundary change must continue to satisfy the requirements of subsections (3), (4), and (5).

(b) Upon a recommendation by the enterprise zone development agency, the governing body of the jurisdiction which authorized the application for an enterprise zone may apply to the department for a change in boundary once every 3 years by adopting a resolution that:

1. States with particularity the reasons for the change; and

2. Describes specifically and, to the extent required by the department, the boundary change to be made.

(c) At least 90 days before adopting a resolution seeking a change in the boundary of an enterprise zone, the governing body shall include in a notice of the meeting at which the resolution will be considered an explanation that a change in the boundary of an enterprise zone will be considered and that the change may result in loss of enterprise zone eligibility for the area affected by the boundary change.

(d)1. The governing body of a jurisdiction which has nominated an application for an enterprise zone that is at least 15 square miles and less than 20 square miles ~~no larger than 12 square miles~~ and includes a portion of the state designated as a rural area of critical economic concern under s. 288.0656(7) may apply to the department to expand the boundary of the existing enterprise zone by not more than 3 square miles. ~~An application to expand the boundary of an enterprise zone under this~~

317422

~~paragraph must be submitted by December 31, 2012.~~

2. The governing body of a jurisdiction which has nominated an application for an enterprise zone that is at least 20 square miles and includes a portion of the state designated as a rural area of critical economic concern under s. 288.0656(7) may apply to the department to expand the boundary of the existing enterprise zone by not more than 5 square miles.

3. An application to expand the boundary of an enterprise zone under this paragraph must be submitted by December 31, 2013.

4.~~2.~~ Notwithstanding the area limitations specified in subsection (4), the department may approve the request for a boundary amendment if the area continues to satisfy the remaining requirements of this section.

5.~~3.~~ The department shall establish the initial effective date of an enterprise zone designated under this paragraph.

Section 34. Subsection (11) of section 290.0056, Florida Statutes, is amended to read:

290.0056 Enterprise zone development agency.—

(11) Before October 1 ~~December 1~~ of each year, the agency shall submit to the department for inclusion in the annual report required under s. 20.60 a complete and detailed written report setting forth:

(a) Its operations and accomplishments during the fiscal year.

(b) The accomplishments and progress concerning the implementation of the strategic plan or measurable goals, and any updates to the strategic plan or measurable goals.

(c) The number and type of businesses assisted by the

317422

agency during the fiscal year.

(d) The number of jobs created within the enterprise zone during the fiscal year.

(e) The usage and revenue impact of state and local incentives granted during the calendar year.

(f) Any other information required by the department.

Section 35. Section 290.014, Florida Statutes, is amended to read:

290.014 Annual reports on enterprise zones.—

(1) By October 1 ~~February 1~~ of each year, the Department of Revenue shall submit an annual report to the department detailing the usage and revenue impact by county of the state incentives listed in s. 290.007.

(2) ~~By March 1 of each year, the department shall submit an annual report to the Governor, the Speaker of the House of Representatives, and the President of the Senate.~~ The annual report required under s. 20.60 shall include the information provided by the Department of Revenue pursuant to subsection (1) and the information provided by enterprise zone development agencies pursuant to s. 290.0056. In addition, the report shall include an analysis of the activities and accomplishments of each enterprise zone.

Section 36. Section 290.0455, Florida Statutes, is amended to read:

290.0455 Small Cities Community Development Block Grant Loan Guarantee Program; Section 108 loan guarantees.—

(1) The Small Cities Community Development Block Grant Loan Guarantee Program is created. The department shall administer the loan guarantee program pursuant to Section 108 ~~s. 108~~ of

Title I of the Housing and Community Development Act of 1974, as amended, and as further amended by s. 910 of the Cranston-Gonzalez National Affordable Housing Act. The purpose of the Small Cities Community Development Block Grant Loan Guarantee Program is to guarantee, or to make commitments to guarantee, notes or other obligations issued by public entities for the purposes of financing activities enumerated in 24 C.F.R. s. 570.703.

(2) Activities assisted under the loan guarantee program must meet the requirements contained in 24 C.F.R. ss. 570.700-570.710 and may not otherwise be financed in whole or in part from the Florida Small Cities Community Development Block Grant Program.

(3) The department may pledge existing revenues on deposit or future revenues projected to be available for deposit in the Florida Small Cities Community Development Block Grant Program in order to guarantee~~, in whole or in part,~~ the payment of principal and interest on a Section 108 loan ~~made under the loan guarantee program~~.

(4) An applicant approved by the United States Department of Housing and Urban Development to receive a Section 108 loan shall enter into an agreement with the Department of Economic Opportunity which requires the applicant to pledge half of the amount necessary to guarantee the loan in the event of default.

(5) The department shall review all Section 108 loan applications that it receives from local governments. The department shall review the applications ~~must submit all applications it receives to the United States Department of Housing and Urban Development for loan approval,~~ in the order

317422

received, subject to a determination by the department ~~determining~~ that each ~~the~~ application meets all eligibility requirements contained in 24 C.F.R. ss. 570.700-570.710~~,~~ and has been deemed financially feasible by a loan underwriter approved by the department. If the statewide maximum available for loan guarantee commitments established in subsection (6) has not been committed, the department may submit the Section 108 loan application to the United States Department of Housing and Urban Development with a recommendation that the loan be approved, with or without conditions, or be denied ~~provided that the applicant has submitted the proposed activity to a loan underwriter to document its financial feasibility~~.

(6)~~(5)~~ The maximum amount of an individual loan guarantee commitment that an ~~commitments that any~~ eligible local government may receive is ~~may be~~ limited to $5 ~~$7~~ million ~~pursuant to 24 C.F.R. s. 570.705,~~ and the maximum amount of loan guarantee commitments statewide may not exceed an amount equal to two ~~five~~ times the amount of the most recent grant received by the department under the Florida Small Cities Community Development Block Grant Program. The $5 million loan guarantee limit does not apply to loans guaranteed prior to July 1, 2013, that may be refinanced.

(7)~~(6)~~ Section 108 loans guaranteed by the Small Cities Community Development Block Grant Program ~~loan guarantee~~ ~~program~~ must be repaid within 20 years.

(8)~~(7)~~ Section 108 loan applicants must demonstrate ~~guarantees may be used for an activity only if the local government provides evidence~~ to the department that the applicant investigated alternative financing services ~~were~~

317422

~~investigated~~ and the services were unavailable or insufficient to meet the financing needs of the proposed activity.

(9) If a local government defaults on a Section 108 loan received from the United States Department of Housing and Urban Development and guaranteed through the Florida Small Cities Community Development Block Grant Program, thereby requiring the department to reduce its annual grant award in order to pay the annual debt service on the loan, any future community development block grants that the local government receives must be reduced in an amount equal to the amount of the state's grant award used in payment of debt service on the loan.

(10) If a local government receives a Section 108 loan guaranteed through the Florida Small Cities Community Development Block Grant Program and is granted entitlement community status as defined in subpart D of 24 C.F.R. part 570 by the United States Department of Housing and Urban Development before paying the loan in full, the local government must pledge its community development block grant entitlement allocation as a guarantee of its previous loan and request that the United States Department of Housing and Urban Development release the department as guarantor of the loan.

~~(8) The department must, before approving an application for a loan, evaluate the applicant's prior administration of block grant funds for community development. The evaluation of past performance must take into account the procedural aspects of previous grants or loans as well as substantive results. If the department finds that any applicant has failed to substantially accomplish the results proposed in the applicant's last previously funded application, the department may prohibit~~

317422

~~the applicant from receiving a loan or may penalize the applicant in the rating of the current application.~~

Section 37. Subsection (11) of section 331.3051, Florida Statutes, is amended to read:

331.3051 Duties of Space Florida.—Space Florida shall:

(11) Annually report on its performance with respect to its business plan, to include finance, spaceport operations, research and development, workforce development, and education. Space Florida shall submit the report ~~shall be submitted~~ to the Governor, the President of the Senate, and the Speaker of the House of Representatives by November 30 ~~no later than September 1~~ for the previous ~~prior~~ fiscal year. The annual report must include operations information as required under s. 331.310(2)(e).

Section 38. Paragraph (e) of subsection (2) of section 331.310, Florida Statutes, is amended to read:

331.310 Powers and duties of the board of directors.—

(2) The board of directors shall:

(e) Prepare an annual report of operations as a supplement to the annual report required under s. 331.3051(11). The report must ~~shall~~ include, but not be limited to, a balance sheet, an income statement, a statement of changes in financial position, a reconciliation of changes in equity accounts, a summary of significant accounting principles, the auditor's report, a summary of the status of existing and proposed bonding projects, comments from management about the year's business, and prospects for the next year~~, which shall be submitted each year by November 30 to the Governor, the President of the Senate, the Speaker of the House of Representatives, the minority leader of~~

317422

~~the Senate, and the minority leader of the House of Representatives~~.

Section 39. Paragraphs (a) and (e) of subsection (30) of section 443.036, Florida Statutes, is amended to read:

443.036 Definitions.—As used in this chapter, the term:

(30) "Misconduct," irrespective of whether the misconduct occurs at the workplace or during working hours, includes, but is not limited to, the following, which may not be construed in pari materia with each other:

(a) Conduct demonstrating conscious disregard of an employer's interests and found to be a deliberate violation or disregard of the reasonable standards of behavior which the employer expects of his or her employee. Such conduct may include, but is not limited to, willful damage to an employer's property that results in damage of more than $50; or theft of employer property or property of a customer or invitee of the employer.

(e)1. A violation of an employer's rule, unless the claimant can demonstrate that:

a.~~1.~~ He or she did not know, and could not reasonably know, of the rule's requirements;

b.~~2.~~ The rule is not lawful or not reasonably related to the job environment and performance; or

c.~~3.~~ The rule is not fairly or consistently enforced.

2. Such conduct may include, but is not limited to, committing criminal assault or battery on another employee, or on a customer or invitee of the employer; or committing abuse or neglect of a patient, resident, disabled person, elderly person, or child in her or his professional care.

317422

Section 40. Paragraphs (b), (c), and (d) of subsection (1) of section 443.091, Florida Statutes, are amended to read:

443.091 Benefit eligibility conditions.—

(1) An unemployed individual is eligible to receive benefits for any week only if the Department of Economic Opportunity finds that:

(b) She or he has completed the department's online work registration ~~registered with the department for work~~ and subsequently reports to the one-stop career center as directed by the regional workforce board for reemployment services. This requirement does not apply to persons who are:

1. Non-Florida residents;

2. On a temporary layoff;

3. Union members who customarily obtain employment through a union hiring hall; or

4. Claiming benefits under an approved short-time compensation plan as provided in s. 443.1116.

5. Unable to complete the online work registration due to illiteracy, physical or mental impairment, a legal prohibition from using a computer, or a language impediment. If a person is exempted from the online work registration under this subparagraph, then the filing of his or her claim constitutes registration for work.

(c) To make continued claims for benefits, she or he is reporting to the department in accordance with this paragraph and department rules, and participating in an initial skills review, as directed by the department. Department rules may not conflict with s. 443.111(1)(b), which requires that each claimant continue to report regardless of any pending appeal

relating to her or his eligibility or disqualification for benefits.

1. For each week of unemployment claimed, each report must, at a minimum, include the name, address, and telephone number of each prospective employer contacted, or the date the claimant reported to a one-stop career center, pursuant to paragraph (d).

2. The administrator or operator of the initial skills review shall notify the department when the individual completes the initial skills review and report the results of the review to the regional workforce board or the one-stop career center as directed by the workforce board. The department shall prescribe a numeric score on the initial skills review that demonstrates a minimal proficiency in workforce skills. The department, workforce board, or one-stop career center shall use the initial skills review to develop a plan for referring individuals to training and employment opportunities. The failure of the individual to comply with this requirement will result in the individual being determined ineligible for benefits for the week in which the noncompliance occurred and for any subsequent week of unemployment until the requirement is satisfied. However, this requirement does not apply if the individual ~~is able to affirmatively attest to being unable to complete such review due to illiteracy or a language impediment or~~ is exempt from the work registration requirement as set forth in paragraph (b).

3. Any individual who falls below the minimal proficiency score prescribed by the department in subparagraph 2. on the initial skills review shall be offered training opportunities and encouraged to participate in such training at no cost to the individual in order to improve his or her workforce skills to

the minimal proficiency level.

4. The department shall coordinate with Workforce Florida, Inc., the workforce boards, and the one-stop career centers to identify, develop, and utilize best practices for improving the skills of individuals who choose to participate in training opportunities and who have a minimal proficiency score below the score prescribed in subparagraph 2.

5. The department, in coordination with Workforce Florida, Inc., the workforce boards, and the one-stop career centers, shall evaluate the use, effectiveness, and costs associated with the training prescribed in subparagraph 3. and report its findings and recommendations for training and the use of best practices to the Governor, the President of the Senate, and the Speaker of the House of Representatives by January 1, 2013.

(d) She or he is able to work and is available for work. In order to assess eligibility for a claimed week of unemployment, the department shall develop criteria to determine a claimant's ability to work and availability for work. A claimant must be actively seeking work in order to be considered available for work. This means engaging in systematic and sustained efforts to find work, including contacting at least five prospective employers for each week of unemployment claimed. The department may require the claimant to provide proof of such efforts to the one-stop career center as part of reemployment services. A claimant's proof of work search efforts may not include the same prospective employer at the same location in three consecutive weeks, unless the employer has indicated since the time of the initial contact that the employer is hiring. The department shall conduct random reviews of work search information provided

by claimants. As an alternative to contacting at least five prospective employers for any week of unemployment claimed, a claimant may, for that same week, report in person to a one-stop career center to meet with a representative of the center and access reemployment services of the center. The center shall keep a record of the services or information provided to the claimant and shall provide the records to the department upon request by the department. However:

1. Notwithstanding any other provision of this paragraph or paragraphs (b) and (e), an otherwise eligible individual may not be denied benefits for any week because she or he is in training with the approval of the department, or by reason of s. 443.101(2) relating to failure to apply for, or refusal to accept, suitable work. Training may be approved by the department in accordance with criteria prescribed by rule. A claimant's eligibility during approved training is contingent upon satisfying eligibility conditions prescribed by rule.

2. Notwithstanding any other provision of this chapter, an otherwise eligible individual who is in training approved under s. 236(a)(1) of the Trade Act of 1974, as amended, may not be determined ineligible or disqualified for benefits due to enrollment in such training or because of leaving work that is not suitable employment to enter such training. As used in this subparagraph, the term "suitable employment" means work of a substantially equal or higher skill level than the worker's past adversely affected employment, as defined for purposes of the Trade Act of 1974, as amended, the wages for which are at least 80 percent of the worker's average weekly wage as determined for purposes of the Trade Act of 1974, as amended.

317422

3. Notwithstanding any other provision of this section, an otherwise eligible individual may not be denied benefits for any week because she or he is before any state or federal court pursuant to a lawfully issued summons to appear for jury duty.

4. Union members who customarily obtain employment through a union hiring hall may satisfy the work search requirements of this paragraph by reporting daily to their union hall.

5. The work search requirements of this paragraph do not apply to persons who are unemployed as a result of a temporary layoff or who are claiming benefits under an approved short-time compensation plan as provided in s. 443.1116.

6. In small counties as defined in s. 120.52(19), a claimant engaging in systematic and sustained efforts to find work must contact at least three prospective employers for each week of unemployment claimed.

7. The work search requirements of this paragraph do not apply to persons required to participate in reemployment services under paragraph (e).

Section 41. Subsection (13) is added to section 443.101, Florida Statutes, to read:

443.101 Disqualification for benefits.—An individual shall be disqualified for benefits:

(13) For any week with respect to which the department finds that his or her unemployment is due to a discharge from employment for failure without good cause to maintain a license, registration, or certification required by applicable law necessary for the employee to perform her or his assigned job duties. For purposes of this paragraph, the term "good cause" includes, but is not limited to, failure of the employer to

submit information required for a license, registration, or certification; short-term physical injury which prevents the employee from completing or taking a required test; and inability to take or complete a required test that is outside the employee's control.

Section 42. Paragraph (b) of subsection (4) of section 443.1113, Florida Statutes, is amended to read:

443.1113 Reemployment Assistance Claims and Benefits Information System.—

(4) The project to implement the Reemployment Assistance Claims and Benefits Information System is ~~shall be~~ comprised of the following phases and corresponding implementation timeframes:

(b) The Reemployment Assistance Claims and Benefits Internet portal that replaces the Florida Unemployment Internet Direct and the Florida Continued Claims Internet Directory systems, the Call Center Interactive Voice Response System, the Benefit Overpayment Screening System, the Internet and Intranet Appeals System, and the Claims and Benefits Mainframe System shall be deployed to full operational status no later than the end of fiscal year 2013-2014 ~~2012-2013~~.

Section 43. Subsection (5) of section 443.131, Florida Statutes, is amended to read:

443.131 Contributions.—

(5) ADDITIONAL RATE FOR INTEREST ON FEDERAL ADVANCES.—

(a) When the Unemployment Compensation Trust Fund has received advances from the Federal Government under the provisions of 42 U.S.C. s. 1321, each contributing employer shall be assessed an additional rate solely for the purpose of

317422

paying interest due on such federal advances. The additional rate shall be assessed no later than February 1 in each calendar year in which an interest payment is due.

(b) The Revenue Estimating Conference shall estimate the amount of ~~such~~ interest due on federal advances by ~~no later than~~ December 1 of the calendar year before ~~preceding~~ the calendar year in which an interest payment is due. The Revenue Estimating Conference shall, at a minimum, consider the following as the basis for the estimate:

1. The amounts actually advanced to the trust fund.

2. Amounts expected to be advanced to the trust fund based on current and projected unemployment patterns and employer contributions.

3. The interest payment due date.

4. The interest rate that will be applied by the Federal Government to any accrued outstanding balances.

(c) ~~(b)~~ The tax collection service provider shall calculate the additional rate to be assessed against contributing employers. The additional rate assessed for a calendar year is ~~shall be~~ determined by dividing the estimated amount of interest to be paid in that year by 95 percent of the taxable wages as described in s. 443.1217 paid by all employers for the year ending June 30 of the previous ~~immediately preceding~~ calendar year. The amount to be paid by each employer is ~~shall be~~ the product obtained by multiplying such employer's taxable wages as described in s. 443.1217 for the year ending June 30 of the previous ~~immediately preceding~~ calendar year by the rate as determined by this subsection. An assessment may not be made if the amount of assessments on deposit from previous years, plus

317422

any earned interest, is at least 80 percent of the estimated amount of interest.

(d) The tax collection service provider shall make a separate collection of such assessment, which may be collected at the time of employer contributions and subject to the same penalties for failure to file a report, imposition of the standard rate pursuant to paragraph (3)(h), and interest if the assessment is not received on or before June 30. Section 443.141(1)(d) and (e) does not apply to this separately collected assessment. The tax collection service provider shall maintain those funds in the tax collection service provider's Audit and Warrant Clearing Trust Fund until the provider is directed by the Governor or the Governor's designee to make the interest payment to the Federal Government. Assessments on deposit must be available to pay the interest on advances received from the Federal Government under 42 U.S.C. s. 1321. Assessments on deposit may be invested and any interest earned shall be part of the balance available to pay the interest on advances received from the Federal Government under 42 U.S.C. s. 1321.

(e) Four months after ~~In the calendar year that~~ all advances from the Federal Government under 42 U.S.C. s. 1321 and associated interest are repaid, ~~if there are assessment funds in excess of the amount required to meet the final interest payment,~~ any ~~such~~ excess assessed funds in the Audit and Warrant Clearing Trust Fund, including associated interest, shall be transferred to ~~credited to employer accounts in~~ the Unemployment Compensation Trust Fund. Any assessment amounts subsequently collected shall also be transferred to the Unemployment

317422

Compensation Trust Fund ~~in an amount equal to the employer's contribution to the assessment for that year divided by the total amount of the assessment for that year, the result of which is multiplied by the amount of excess assessed funds~~.

(f) If ~~However, if~~ the state is permitted to defer interest payments due during a calendar year under 42 U.S.C. s. 1322, payment of the interest assessment is ~~shall~~ not ~~be~~ due. If a deferral of interest expires or is subsequently disallowed by the Federal Government, either prospectively or retroactively, the interest assessment shall be immediately due and payable. Notwithstanding any other provision of this section, if interest due during a calendar year on federal advances is forgiven or postponed under federal law and is no longer due during that calendar year, no interest assessment shall be assessed against an employer for that calendar year, and any assessment already assessed and collected against an employer before the forgiveness or postponement of the interest for that calendar year shall be credited to such employer's account in the Unemployment Compensation Trust Fund. However, such funds may be used only to pay benefits or refunds of erroneous contributions.

(g) This subsection expires July 1, 2014.

Section 44. Paragraph (b) of subsection (2) and paragraph (a) of subsection (3), and paragraph (a) of subsection (6) of section 443.151, Florida Statutes, are amended to read:

443.151 Procedure concerning claims.—

(2) FILING OF CLAIM INVESTIGATIONS; NOTIFICATION OF CLAIMANTS AND EMPLOYERS.—

(b) *Process.*—When the Reemployment Assistance Claims and Benefits Information System described in s. 443.1113 is fully

317422

operational, the process for filing claims must incorporate the process for registering for work with the workforce information systems established pursuant to s. 445.011. Unless exempted under s. 443.091(1)(b)5., a claim for benefits may not be processed until the work registration requirement is satisfied. The department may adopt rules as necessary to administer the work registration requirement set forth in this paragraph.

(3) DETERMINATION OF ELIGIBILITY.—

(a) *Notices of claim.*—The Department of Economic Opportunity shall promptly provide a notice of claim to the claimant's most recent employing unit and all employers whose employment records are liable for benefits under the monetary determination. The employer must respond to the notice of claim within 20 days after the mailing date of the notice, or in lieu of mailing, within 20 days after the delivery of the notice. If a contributing employer or its agent fails to timely or adequately respond to the notice of claim or request for information, the employer's account may not be relieved of benefit charges as provided in s. 443.131(3)(a), notwithstanding paragraph (5)(b). The department may adopt rules as necessary to implement the processes described in this paragraph relating to notices of claim.

(6) RECOVERY AND RECOUPMENT.—

(a) Any person who, by reason of her or his fraud, receives benefits under this chapter to which she or he is not entitled is liable for repaying those benefits to the Department of Economic Opportunity on behalf of the trust fund or, in the discretion of the department, to have those benefits deducted from future benefits payable to her or him under this chapter.

317422

In addition, the department shall impose upon the claimant a penalty equal to 15 percent of the amount overpaid. To enforce this paragraph, the department must find the existence of fraud through a redetermination or decision under this section within 2 years after the fraud was committed. Any recovery or recoupment of benefits must be commenced within 7 years after the redetermination or decision.

Section 45. Effective January 1, 2014, paragraph (a) of subsection (4) of section 443.151, Florida Statutes, is amended to read:

(4) APPEALS.—

(a) Appeals referees.—The Department of Economic Opportunity shall appoint one or more impartial salaried appeals referees in accordance with s. 443.171(3) to hear and decide appealed claims. An appeals referee must be an attorney in good standing with the Florida Bar, or must be successfully admitted to the Florida Bar within 8 months of his or her date of employment. A person may not participate on behalf of the department as an appeals referee in any case in which she or he is an interested party. The department may designate alternates to serve in the absence or disqualification of any appeals referee on a temporary basis. These alternates must have the same qualifications required of appeals referees. The department shall provide the commission and the appeals referees with proper facilities and assistance for the execution of their functions.

Section 46. After January 1, 2014, the department must, through attrition of staff, meet the requirements of Section 45 of this bill.

317422

Section 47. Subsection (1) of section 443.1715, Florida Statutes, is amended to read:

443.1715 Disclosure of information; confidentiality.—

(1) RECORDS AND REPORTS.—Information revealing an employing unit's or individual's identity obtained from the employing unit or any individual under the administration of this chapter, and any determination revealing that information, is confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution. This confidential information may be released in accordance with the provisions in 20 C.F.R. part 603. A person receiving confidential information who violates this subsection commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083. The Department of Economic Opportunity or its tax collection service provider may, however, furnish to any employer copies of any report submitted by that employer upon the request of the employer and may furnish to any claimant copies of any report submitted by that claimant upon the request of the claimant. The department or its tax collection service provider may charge a reasonable fee for copies of these reports as prescribed by rule, which may not exceed the actual reasonable cost of the preparation of the copies. Fees received for copies under this subsection must be deposited in the Employment Security Administration Trust Fund.

Section 48. Subsection (1) of section 443.191, Florida Statutes, is amended to read:

443.191 Unemployment Compensation Trust Fund; establishment and control.—

(1) There is established, as a separate trust fund apart from all other public funds of this state, an Unemployment

Compensation Trust Fund, which shall be administered by the Department of Economic Opportunity exclusively for the purposes of this chapter. The fund must ~~shall~~ consist of:

(a) All contributions and reimbursements collected under this chapter;

(b) Interest earned on any moneys in the fund;

(c) Any property or securities acquired through the use of moneys belonging to the fund;

(d) All earnings of these properties or securities;

(e) All money credited to this state's account in the federal Unemployment Compensation Trust Fund under 42 U.S.C. s. 1103; ~~and~~

(f) All money collected for penalties imposed pursuant to s. 443.151(6)(a); and

(g) Advances on the amount in the federal Unemployment Compensation Trust Fund credited to the state under 42 U.S.C. s. 1321, as requested by the Governor or the Governor's designee.

Except as otherwise provided in s. 443.1313(4), all moneys in the fund must ~~shall~~ be mingled and undivided.

Section 49. Paragraph (b) of subsection (3) and subsection (4) of section 446.50, Florida Statutes, are amended to read:

446.50 Displaced homemakers; multiservice programs; report to the Legislature; Displaced Homemaker Trust Fund created.—

(3) POWERS AND DUTIES OF THE DEPARTMENT OF ECONOMIC OPPORTUNITY.—

(b)1. The department shall enter into contracts with, and make grants to, public and nonprofit private entities for purposes of establishing multipurpose service programs for

317422

displaced homemakers under this section. Such grants and contracts must ~~shall~~ be awarded pursuant to chapter 287 and based on criteria established in the program ~~state~~ plan as provided in subsection (4) ~~developed pursuant to this section~~. The department shall designate catchment areas that together, must ~~shall~~ compose the entire state, and, to the extent possible from revenues in the Displaced Homemaker Trust Fund, the department shall contract with, and make grants to, entities that will serve entire catchment areas so that displaced homemaker service programs are available statewide. These catchment areas must ~~shall~~ be coterminous with the state's workforce development regions. The department may give priority to existing displaced homemaker programs when evaluating bid responses to the request for proposals.

2. In order to receive funds under this section, and unless specifically prohibited by law from doing so, an entity that provides displaced homemaker service programs must receive at least 25 percent of its funding from one or more local, municipal, or county sources or nonprofit private sources. In-kind contributions may be evaluated by the department and counted as part of the required local funding.

3. The department shall require an entity that receives funds under this section to maintain appropriate data to be compiled in an annual report to the department. Such data must ~~shall~~ include, but is ~~shall~~ not ~~be~~ limited to, the number of clients served, the units of services provided, designated client-specific information including intake and outcome information specific to each client, costs associated with specific services and program administration, total program

317422

revenues by source and other appropriate financial data, and client followup information at specified intervals after the placement of a displaced homemaker in a job.

(4) DISPLACED HOMEMAKER PROGRAM ~~STATE~~ PLAN.—

~~(a)~~ The Department of Economic Opportunity shall include in its annual report required under s. 20.60 a ~~develop a 3-year state~~ plan for the displaced homemaker program ~~which shall be updated annually~~. The plan must address, at a minimum, the need for programs specifically designed to serve displaced homemakers, any necessary service components for such programs in addition to those described ~~enumerated~~ in this section, goals of the displaced homemaker program with an analysis of the extent to which those goals are being met, and recommendations for ways to address any unmet program goals. Any request for funds for program expansion must be based on the ~~state~~ plan.

~~(b)~~ The displaced homemaker program ~~Each annual update must address any changes in the components of the 3-year state~~ plan ~~and a report that~~ must include, but need not be limited to, the following:

(a)~~1.~~ The scope of the incidence of displaced homemakers;

(b)~~2.~~ A compilation and report, by program, of data submitted to the department pursuant to subparagraph (3)(b)3. ~~subparagraph 3.~~ by funded displaced homemaker service programs;

(c)~~3.~~ An identification and description of the programs in the state which receive funding from the department, including funding information; and

(d)~~4.~~ An assessment of the effectiveness of each displaced homemaker service program based on outcome criteria established by rule of the department.

~~(c) The 3-year state plan must be submitted to the President of the Senate, the Speaker of the House of Representatives, and the Governor on or before January 1, 2001, and annual updates of the plan must be submitted by January 1 of each subsequent year.~~

Section 50. Section 288.80, Florida Statutes, is created to read:

288.80 Short title.—Sections 288.80-288.84 may be cited as the "Gulf Coast Economic Corridor Act."

Section 51. Section 288.801, Florida Statutes, is created to read:

288.801 Gulf Coast Economic Corridor, Legislative Intent.—The Legislature recognizes that fully supporting areas affected by the Deepwater Horizon disaster to ensure goals for economic recovery and diversification are achieved is in the best interest of the citizens of the state. The Legislature intends to provide a long-term source of funding for efforts of economic recovery and enhancement in the gulf coast region. The Legislature finds that it is important to help businesses, individuals, and local governments in the Gulf Coast region recover.

Section 52. Section 288.81, Florida Statutes, is created to read:

288.81 Definitions.—As used in this section, the term:

(a) "Awardee" means a person, organization, or local government granted an award of funds from the Recovery Fund for a program or project.

(b) "Disproportionately affected county" means Bay County, Escambia County, Franklin County, Gulf County, Okaloosa County,

Santa Rosa County, Walton County, or Wakulla County.

(c) "Earnings" means all the income generated by investments and interest.

(d) "Recovery Fund" means a trust account established by Triumph Gulf Coast, Inc., for the benefit of the disproportionately affected counties.

Section 53. Section 288.82, Florida Statutes, is created to read:

288.82 Triumph Gulf Coast, Inc.; Recovery Fund; Creation; Investment.—

(1) There is created within the Department of Economic Opportunity a nonprofit corporation, to be known as Triumph Gulf Coast, Inc., which shall be registered, incorporated, organized, and operated in compliance with chapter 617, and which is not a unit or entity of state government. Triumph Gulf Coast, Inc., may receive, hold, invest, and administer the Recovery Fund in support of this act. Triumph Gulf Coast, Inc., is a separate budget entity and is not subject to control, supervision, or direction by the Department of Economic Opportunity in any manner, including, but not limited to, personnel, purchasing, transactions involving real or personal property, and budgetary matters.

(2) Triumph Gulf Coast, Inc., must create and administer the Recovery Fund for the benefit of the disproportionately affected counties. The principal of the fund shall derive from:

(a) Seventy-five percent of all funds recovered by the Attorney General for economic damage to the state resulting from the Deepwater Horizon disaster, including penalties, fines, fees, and settlements; and

(b) Any funds distributed under 33 U.S.C. 1321(t)(1)(C)(i)(I).

(3) The Recovery Fund must be maintained as a long-term and stable source of revenue, which shall decline over a 30-year period in equal amounts each year. Triumph Gulf Coast, Inc., shall establish a trust account at a federally insured financial institution to hold funds and make deposits and payments. Earnings generated by investments and interest of the fund, plus the amount of principal available each year, shall be available to make awards pursuant to this act and pay administrative costs. Earnings shall be accounted for separated from principal funds. Principal funds set forth in subsection (2) must be accounted for separately. Administrative costs are limited to 1 percent of the earnings in a calendar year. Administrative costs include payment of investment fees, travel and per diem expenses of board members, audits, salary or other costs for employed or contracted staff, including required staff under s. 288.83(9), and other allowable costs. Any funds remaining in the Recovery Fund after 30 years shall revert to the State Treasury.

(4) Triumph Gulf Coast, Inc., shall invest and reinvest the principal of the Recovery Fund in accordance with s. 617.2104, in such a manner not to subject the funds to state or federal taxes, and consistent with an investment policy statement adopted by the corporation.

(a) The board of directors shall formulate an investment policy governing the investment of the principal of the Recovery Fund. The policy shall pertain to the types, kinds or nature of investment of any of the funds, and any limitations, conditions or restrictions upon the methods, practices or procedures for

317422

investment, reinvestments, purchases, sales or exchange transactions, provided such policies shall not conflict with nor be in derogation of any state constitutional provision or law. The policy shall be formulated with the advice of the financial advisor in consultation with the State Board of Administration

(b) Triumph Gulf Coast, Inc., must competitively procure one or more money managers, under the advice of the financial advisor in consultation with the State Board of Administration, to invest the principal of the Recovery Fund. The applicant manager or mangers may not include representatives from the financial institution housing the trust account for the Recovery Fund. The applicant manager or managers must present a plan to invest the Recovery Fund to maximize earnings while prioritizing the preservation of Recovery Fund principal. Any agreement with a money manager must be reviewed by Triumph Gulf Coast, Inc., for continuance at least every 5 years. Plans should include investment in technology and growth businesses domiciled in, or that will be domiciled in, this state or businesses whose principal address is in this state.

(c) Costs and fees for investment services shall be deducted from the earnings as administrative costs. Fees for investment services shall be no greater than 1.5 basis points.

(d) Annually, Triumph Gulf Coast, Inc., shall cause an audit to be conducted of the investment of the Recovery Fund by the independent certified public accountant retained in s. 288.83. The expense of such audit shall be paid from earnings for administrative purposes.

(5) Triumph Gulf Coast, Inc., shall report on June 30 and December 30 each year to the Governor, the President of the

317422

Senate, and the Speaker of the House of Representatives on the financial status of the Recovery Fund and its investments, the established priorities, the program and project selection process, including a list of all submitted projects and reasons for approval or denial, and the status of all approved awards.

(6) The Auditor General shall conduct an audit of the Recovery Fund and Triumph Gulf Coast, Inc., annually. Triumph Gulf Coast, Inc., shall provide to the Auditor General any detail or supplemental data required.

Section 54. Section 288.83, Florida Statutes, is created to read:

288.83 Triumph Gulf Coast, Inc.; Organization; Board of Directors.—

(1) Triumph Gulf Coast, Inc., is subject to the provisions of chapter 119 relating to public records and those provisions of chapter 286 relating to public meetings and records.

(2) Triumph Gulf Coast, Inc., shall be governed by a 5-member board of directors. Each of the Trustees of the State Board of Administration, the President of the Senate, and the Speaker of the House of Representatives shall each appoint one member from the private sector. The board of directors shall annually elect a chairperson from among the board's members. The chairperson may be removed by a majority vote of the members. His or her successor shall be elected to serve for the balance of the removed chairperson's term. The chairperson is responsible to ensure records are kept of the proceedings of the board of directors and is the custodian of all books, documents, and papers filed with the board; the minutes of meetings of the board; and the official seal of Triumph Gulf Coast, Inc.

317422

(3) Each member of the board of directors shall serve for a term of 4 years, except that initially the appointments of the President of the Senate and the Speaker of the House of Representatives each shall serve a term of 2 years to achieve staggered terms among the members of the board. A member is not eligible for reappointment to the board, except, however, any member appointed to a term of 2 years or less may be reappointed for an additional term of 4 years. The initial appointments to the board must be made by November 15, 2013. Vacancies on the board of directors shall be filled by the officer who originally appointed the member. A vacancy that occurs before the scheduled expiration of the term of the member shall be filled for the remainder of the unexpired term.

(4) The Legislature determines that it is in the public interest for the members of the board of directors to be subject to the requirements of ss. 112.3135, 112.3143, and 112.313, notwithstanding the fact that the board members are not public officers or employees. For purposes of those sections, the board members shall be considered to be public officers or employees. In addition to the postemployment restrictions of s. 112.313(9), a person appointed to the board of directors must agree to refrain from having any direct interest in any contract, franchise, privilege, program, project or other benefit arising from an award by Triumph Gulf Coast, Inc., during the term of his or her appointment and for 2 years after the termination of such appointment. It is a misdemeanor of the first degree, punishable as provided in s. 775.083 or s. 775.084, for a person to accept appointment to the board of directors in violation of this subsection or to accept a direct interest in any contract,

317422

franchise, privilege, program, project, or other benefit granted by Triumph Gulf Coast, Inc., to an awardee within 2 years after the termination of his or her service on the board. Further, each member of the board of directors who is not otherwise required to file financial disclosure under s. 8, Art. II of the State Constitution or s. 112.3144 shall file disclosure of financial interests under s. 112.3145.

(5) Each member of the board of directors shall serve without compensation, but shall receive travel and per diem expenses as provided in s. 112.061 while in the performance of his or her duties.

(6) Each member of the board of directors is accountable for the proper performance of the duties of office, and each member owes a fiduciary duty to the people of the state to ensure that awards provided are disbursed and used, and investments are made, as prescribed by law and contract. An appointed member of the board of directors may be removed by the officer that appointed the member for malfeasance, misfeasance, neglect of duty, incompetence, permanent inability to perform official duties, unexcused absence from three consecutive meetings of the board, arrest or indictment for a crime that is a felony or a misdemeanor involving theft or a crime of dishonesty, or pleading nolo contendere to, or being found guilty of, any crime.

(7) The board of directors shall meet at least quarterly, upon the call of the chairperson or at the request of a majority of the membership, to review the Recovery Fund, establish and review priorities for economic recovery in disproportionately affected counties, and determine use of the earnings available.

317422

A majority of the members of the board of directors constitutes a quorum. Members may not vote by proxy.

(8) The executive director of the Department of Economic Opportunity, or his or her designee, the secretary of the Department of Environmental Protection, or his or her designee, and the chair of the Committee of 8 Disproportionally Affected Counties, or his or her designee, shall be available to consult with the board of directors and may be requested to attend meetings of the board of directors. These individuals shall not be permitted to vote on any matter before the board.

(9)(a) Triumph Gulf Coast, Inc., is permitted to hire or contract for all staff necessary to the proper execution of its powers and duties to implement this act. The corporation is required to retain:

1. An independent certified public accountant licensed in this state pursuant to chapter 473 to inspect the records of and to audit the expenditure of the earnings and available principal disbursed by Triumph Gulf Coast, Inc.,.

2. An independent financial advisor to assist Triumph Gulf Coast, Inc., in the development and implementation of a strategic plan consistent with the requirements of this act.

3. An economic advisor who will assist in the award process, including the development of priorities, allocation decisions, and the application and process; will assist the board in determining eligibility of award applications and the evaluation and scoring of applications; and will assist in the development of award documentation.

4. A legal advisor with expertise in not-for-profit investing and contracting and who is a member of the Florida Bar

317422

to assist with contracting and carrying out the intent of this statute.

(b) Triumph Gulf Coast, Inc., shall require all employees of the corporation to comply with the code of ethics for public employees under part III of chapter 112. Retained staff under paragraph (a) must agree to refrain from having any direct interest in any contract, franchise, privilege, program, project or other benefit arising from an award by Triumph Gulf Coast, Inc., during the term of his or her appointment and for 2 years after the termination of such appointment.

(c) Retained staff under paragraph (a) shall be available to consult with the board of directors and shall attend meetings of the board of directors. These individuals shall not be permitted to vote on any matter before the board.

Section 55. Section 288.831, Florida Statutes, is created to read:

288.831 Board of Directors; Powers.—In addition to the powers and duties prescribed in chapter 617 and the articles and bylaws adopted in compliance with that chapter, the board of directors may:

(1) Make and enter into contracts and other instruments necessary or convenient for the exercise of its powers and functions.

(2) Make expenditures including any necessary administrative expenditure from earnings consistent with its powers.

(3) Adopt, use, and alter a common corporate seal. Notwithstanding any provision of chapter 617 to the contrary, this seal is not required to contain the words "corporation not

for profit.”

(4) Adopt, amend, and repeal bylaws, not inconsistent with the powers granted to it or the articles of incorporation, for the administration of the activities of Triumph Gulf Coast, Inc., and the exercise of its corporate powers.

(5) Use the state seal, notwithstanding the provisions of s. 15.03, when appropriate, for standard corporate identity applications. Use of the state seal is not intended to replace use of a corporate seal as provided in this section.

Under no circumstances may the credit of the State of Florida be pledged on behalf of Triumph Gulf Coast, Inc.

Section 56. Section 288.832, Florida Statutes, is created to read:

288.832 Triumph Gulf Coast, Inc.; Duties.—Triumph Gulf Coast, Inc., shall have the following duties:

(1) Manage responsibly and prudently all funds received, and ensure that the use of such funds is in accordance with all applicable laws, bylaws, or contractual requirements.

(2) Administer the program created under this act.

(3) Monitor, review, and annually evaluate awardees and their programs or projects to determine whether an award should be continued, terminated, reduced, or increased.

(4) Operate in a transparent manner, providing public access to information, notice of meetings, awards, and the status of programs and projects. To this end, Triumph Gulf Coast, Inc., shall maintain a website that provides public access to this information.

Section 57. Section 288.84, Florida Statutes, is created to

317422

read:

288.84 Awards.—

(1)(a) Triumph Gulf Coast, Inc., shall make awards from available earnings and principal derived under s. 288.82(2)(a) to programs or projects that meet the priorities for economic recovery, diversification, and enhancement of the disproportionately affected counties, notwithstanding s. 377.43. Awards may be provided for:

1. Ad valorem tax reduction within disproportionately affected counties;

2. Payment of impact fees adopted pursuant to s. 163.31801 and imposed within disproportionately affected counties;

3. Administrative funding for economic development organizations located within the disproportionately affected counties;

4. Local match requirements of ss. 288.0655, 288.0659, 288.1045, and 288.106 for projects in the disproportionately affected counties;

5. Economic development projects in the disproportionately affected counties;

6. Infrastructure projects that are shown to enhance economic development in the disproportionately affected counties;

7. Grants to local governments in the disproportionately affected counties to establish and maintain equipment and trained personnel for local action plans of response to respond to disasters, such as plans created for the Coastal Impacts Assistance Program;

8. Grants to support programs of excellence that prepare

317422

students for future occupations and careers at K-20 institutions that have home campuses in the disproportionately affected counties. Eligible programs include those that increase students' technology skills and knowledge; encourage industry certifications; provide rigorous, alternative pathways for students to meet high school graduation requirements; strengthen career readiness initiatives; fund high-demand programs of emphasis at the bachelor's and master's level designated by the Board of Governors; and, similar to or the same as talent retention programs created by the Chancellor of the State University System and the Commission of Education, encourage students with interest or aptitude for science, technology, engineering, mathematics, and medical disciplines to pursue postsecondary education at a state university within the disproportionately affected counties; and

9. Grants to the tourism entity created under s. 288.1226 for the purpose of advertising and promoting tourism, Fresh From Florida, or related content on behalf of one or all of the disproportionately affected counties.

(b) Triumph Gulf Coast, Inc., shall make awards from earnings and principal derived under s. 288.82(2)(b) to programs or projects that meet the priorities for economic recovery, diversification, and enhancement of the disproportionately affected counties, notwithstanding s. 377.43. Awards may be provided for the following purposes as eligible under 33 U.S. 1321(t)(1)(B):

1. Administrative funding for economic development organizations located within the disproportionately affected counties;

2. Local match requirements of ss. 288.0655, 288.0659, 288.1045, and 288.106 for projects in the disproportionately affected counties;

3. Economic development projects in the disproportionately affected counties;

4. Infrastructure projects that are shown to enhance economic development in the disproportionately affected counties;

5. Grants to local governments in the disproportionately affected counties to establish and maintain equipment and trained personnel for local action plans of response to respond to disasters, such as plans created for the Coastal Impacts Assistance Program; and

6. Grants to the tourism entity created under s. 288.1226 for the purpose of advertising and promoting tourism, Fresh From Florida, or related content on behalf of one or all of the disproportionately affected counties.

(2) Triumph Gulf Coast, Inc., shall establish an application procedure for awards and a scoring process for the selection of programs and projects that have the potential to generate increased economic activity in the disproportionately affected counties, giving priority to projects that:

(a) Generate maximum estimated economic benefits, based on tools and models not generally employed by economic input-output analyses, including cost-benefit, return-on-investment, or dynamic scoring techniques to determine how the long-term economic growth potential of the disproportionately affected counties may be enhanced by the investment.

(b) Expand household income in the disproportionately

317422

affected counties above national average household income.

(c) Expand high growth industries or establish new high growth industries in the region.

1. Industries that are supported must have strong growth potential in the disproportionately affected counties.

2. An industry's growth potential is defined based on a detailed review of the current industry trends nationally and the necessary supporting asset base for that industry in the disproportionately affected counties region.

(d) Leverage or further enhance key regional assets, including educational institutions, research facilities, and military bases.

(e) Partner with local governments to provide funds, infrastructure, land, or other assistance for the project.

(f) Have investment commitments from private equity or private venture capital funds.

(g) Provide or encourage seed stage investments in start-up companies.

(h) Provide advice and technical assistance to companies on restructuring existing management, operations, or production to attract advantageous business opportunities.

(i) Benefit the environment in addition to the economy.

(j) Provide outcome measures for programs of excellence support, including terms of intent and metrics.

(k) Partner with K-20 educational institutions or school districts located within the disproportionately affected counties.

(l) Partner with convention and visitor bureaus, tourist development councils, or chambers of commerce located within the

disproportionately affected counties.

(3) Triumph Gulf Coast, Inc., may make awards as applications are received or may establish application periods for selection. Earnings may not be used to finance 100 percent of any project or program. Triumph Gulf Coast, Inc., may require a one-to-one private-sector match or higher for an award, if applicable and deemed prudent by the board of directors. An awardee may not receive all of the earnings or available principal in any given year.

(4) A contract executed by Triumph Gulf Coast, Inc., with an awardee must include provisions requiring a performance report on the contracted activities, must account for the proper use of funds provided under the contract, and must include provisions for recovery of awards in the event the award was based upon fraudulent information or the awardee is not meeting the performance requirements of the award. Awardees must regularly report to Triumph Gulf Coast, Inc., the status of the program or project on a schedule determined by the corporation.

Section 58. Except as otherwise expressly provided in this act, this act shall take effect upon becoming a law.

================ T I T L E A M E N D M E N T ================

And the title is amended as follows:

Delete everything before the enacting clause and insert:

A bill to be entitled

An act the Department of Economic Opportunity; establishing the Economic Development Programs Evaluation; requiring the Office of Economic and

Demographic Research and the Office of Program Policy Analysis and Government Accountability to present the evaluation; requiring the offices to develop and submit a work plan for completing the evaluation by a certain date; requiring the offices to provide an analysis of certain economic development programs and specifying a schedule; requiring the Office of Economic and Demographic Research to make certain evaluations in its analysis; limiting the office's evaluation for the purposes of tax credits, tax refunds, sales tax exemptions, cash grants, and similar programs; requiring the office to use a certain model to evaluate each program; requiring the Office of Program Policy Analysis and Government Accountability to make certain evaluations in its analysis; providing the offices access to all data necessary to complete the evaluation; amending s. 20.60, F.S.; revising the date on which the Department of Economic Opportunity and Enterprise Florida, Inc., are required to report on the business climate and economic development in the state; specifying reports and information that must be included; amending s. 201.15, F.S.; revising the distribution of funds in the Grants and Donations Trust Fund; amending s. 212.08, F.S.; revising definitions; clarifying the application of certain amendments; amending s. 213.053, F.S.; authorizing the Department of Revenue to make certain information available to the director of the Office of Program Policy Analysis and

Government Accountability and the coordinator of the Office of Economic and Demographic Research; authorizing the offices to share certain information; amending s. 220.194, F.S.; requiring the annual report for the Florida Space Business Incentives Act to be included in the annual incentives report; deleting certain reporting requirements; amending s. 288.001, F.S.; providing a network purpose; providing definitions; requiring the statewide director and the network to operate the program in compliance with federal laws and regulations and a Board of Governors regulation; requiring the statewide director to consult with the Board of Governors, the Department of Economic Opportunity, and the network's statewide advisory board to establish certain policies and goals; requiring the network to maintain a statewide advisory board; providing for advisory board membership; providing for terms of membership; providing for certain member reimbursement; requiring the director to develop support services; specifying support service requirements; requiring businesses that receive support services to participate in certain assessments; requiring the network to provide a match equal to certain state funding; providing criteria for the match; requiring the statewide director to coordinate with the host institution to establish a pay-per-performance incentive; providing for pay-per-performance incentive funding and distribution; providing a distribution formula

requirement; requiring the statewide director to coordinate with the advisory board to distribute funds for certain purposes and develop programs to distribute funds for those purposes; requiring the network to announce available funding, performance expectations, and other requirements; requiring the statewide director to present applications and recommendations to the advisory board; requiring applications approved by the advisory board to be publicly posted; providing minimum requirements for a program; prohibiting certain regional small business development centers from receiving funds; providing that match funding may not be reduced for regional small business development centers receiving additional funds; requiring the statewide director to regularly update the Board of Governors, the department, and the advisory board with certain information; requiring the statewide director, in coordination with the advisory board, to annually report certain information to the President of the Senate and the Speaker of the House of Representatives; amending s. 288.005, F.S.; providing a definition; amending s. 288.012, F.S.; requiring each State of Florida international office to submit a report to Enterprise Florida, Inc., for inclusion in its annual report; deleting a reporting date; amending s. 288.061, F.S.; requiring the Department of Economic Opportunity to analyze each economic development incentive application; requiring an applicant to

317422

provide a surety bond to the Department of Economic Opportunity before the applicant receives incentive awards through the Quick Action Closing Fund or the Innovation Incentive Program; requiring the contract or agreement to provide that the bond remain in effect until all conditions have been satisfied; providing that the department may require the bond to cover the entire contracted amount or allow for bonds to be renewed upon completion of certain performance measures; requiring the contract or agreement to provide that funds are contingent upon receipt of the surety bond; requiring the contract or agreement to provide that up to half of the premium payment on the bond may be paid from the award up to a certain amount; requiring an applicant to notify the department of premium payments; providing for certain notice requirements upon cancellation or nonrenewal by an insurer; providing that the cancellation of the surety bond violates the contract or agreement; providing an exception; providing for a waiver if certain information is provided; providing that if the department grants a waiver, the contract or agreement must provide for securing the award in a certain form; requiring the contract or agreement to provide that the release of funds is contingent upon satisfying certain requirements; requiring the irrevocable letter of credit, trust, or security agreement to remain in effect until certain conditions have been satisfied; providing for a waiver of the surety bond or other

security if certain information is provided and the department determines it to be in the best interest of the state; providing that the waiver of the surety bond or other security, for funding in excess of $5 million, must be approved by the Legislative Budget Commission; providing that the state may bring suit upon default or upon a violation of this section; providing that the department may adopt rules to implement this section; amending s. 288.0656, F.S.; requiring the Rural Economic Development Initiative to submit a report to supplement the Department of Economic Opportunity's annual report; deleting certain reporting requirements; amending s. 288.076, F.S.; providing definitions; requiring the Department of Economic Opportunity to publish on a website specified information concerning state investment in economic development programs; requiring the department to use methodology and formulas established by the Office of Economic and Demographic Research for specified calculations; requiring the Office of Economic and Demographic Research to provide a description of specified methodology and formulas to the department and the department to publish the description on its website within a specified period; providing procedures and requirements for reviewing, updating, and supplementing specified published information; requiring the department to annually publish information relating to the progress of Quick Action Closing Fund projects; requiring the department to

317422

publish certain confidential information pertaining to participant businesses upon expiration of a specified confidentiality period; requiring the department to publish certain reports concerning businesses that fail to complete tax refund agreements under the tax refund program for qualified target industry businesses; providing for construction and legislative intent; authorizing the department to adopt rules; repealing s. 288.095(3)(c), F.S., relating to the annual report by Enterprise Florida, Inc., of programs funded by the Economic Development Incentives Account; amending s. 288.106, F.S.; deleting and adding provisions relating to the application and approval process of the tax refund program for qualified target industry businesses; requiring the Department of Economic Opportunity to include information on qualified target industry businesses in the annual incentives report; deleting certain reporting requirements; amending 288.107, F.S.; revising definitions; revising provisions to conform to changes made by the act; revising the minimum criteria for participation in the brownfield redevelopment bonus refund; amending s. 288.1081, F.S.; requiring the use of loan funds from the Economic Gardening Business Loan Pilot Program to be included in the department’s annual report; deleting certain reporting requirements; amending s. 288.1082, F.S.; requiring the progress of the Economic Gardening Technical Assistance Pilot Program to be included in the

department's annual report; deleting certain reporting requirements; amending s. 288.1088, F.S.; requiring the department to validate contractor performance for the Quick Action Closing Fund and include the performance validation in the annual incentives report; deleting certain reporting requirements; amending s. 288.1089, F.S.; requiring that certain projects in the Innovation Incentive Program provide a cumulative break-even economic benefit; requiring the department to report information relating to the Innovation Incentive Program in the annual incentives report; deleting certain reporting requirements; deleting provisions that require the Office of Program Policy Analysis and Government Accountability and the Auditor General's Office to report on the Innovation Incentive Program; amending s. 288.1253, F.S.; revising a reporting date; requiring expenditures of the Office of Film and Entertainment to be included in the annual entertainment industry financial incentive program report; amending s. 288.1254, F.S.; revising a reporting date; requiring the annual entertainment industry financial incentive program report to include certain information; amending s. 288.1258, F.S.; revising a reporting date; requiring the report detailing the relationship between tax exemptions and incentives to industry growth to be included in the annual entertainment industry financial incentive program report; amending s. 288.714, F.S.; requiring the Department of Economic Opportunity's annual report

317422

to include a report on the Black Business Loan Program; deleting certain reporting requirements; amending s. 288.7771, F.S.; requiring the Florida Export Finance Corporation to submit a report to Enterprise Florida, Inc.; amending s. 288.903, F.S.; requiring Enterprise Florida, Inc., with the Department of Economic Opportunity, to prepare an annual incentives report; repealing s. 288.904(6), F.S., relating to Enterprise Florida, Inc., which requires the department to report the return on the public's investment; amending s. 288.906, F.S.; requiring certain reports to be included in the Enterprise Florida, Inc., annual report; amending s. 288.907, F.S.; requiring Enterprise Florida, Inc., with the Department of Economic Opportunity, to prepare the annual incentives report; requiring the annual incentives report to include certain information; deleting a provision requiring the Division of Strategic Business Development to assist Enterprise Florida, Inc., with the report; 288.92, F.S.; requiring each division of Enterprise Florida, Inc., to submit a report; amending s. 288.95155, F.S.; requiring the financial status of the Florida Small Business Technology Growth Program to be included in the annual incentives report; amending s. 288.9918, F.S.; revising reporting requirements related to community development entities; amending s. 290.0055, F.S.; providing for the expansion of the boundaries of enterprise zones that meet certain requirements;

317422

providing an application deadline; amending s. 290.0056, F.S.; revising a reporting date; requiring the enterprise zone development agency to submit certain information for the Department of Economic Opportunity's annual report; amending s. 290.014, F.S.; revising a reporting date; requiring certain reports on enterprise zones to be included in the Department of Economic Opportunity's annual report; amending s. 290.0455, F.S.; providing for the state's guarantee of certain federal loans to local governments; requiring applicants for such loans to pledge a specified amount of revenues to guarantee the loans; revising requirements for the department to submit recommendations to the Federal Government for such loans; revising the maximum amount of the loan guarantee commitment that a local government may receive and providing exceptions; providing for reduction of a local government's future community development block grants if the local government defaults on the federal loan; providing procedures if a local government is granted entitlement community status; amending ss. 331.3051 and 331.310, F.S.; revising requirements for annual reports by Space Florida; amending s. 443.036, F.S.; providing examples of misconduct; amending s. 443.091, F.S.; providing for online work registration and providing exceptions; limiting a claimant's use of the same prospective employer to meet work search requirements; providing an exception; providing that work search requirements

317422

do not apply to individuals required to participate in reemployment services; amending s. 443.101, F.S.; providing for disqualification in any week with respect to which the department finds that his or her unemployment is due to failure without good cause to maintain a license, registration, or certification required by applicable law necessary for the employee to perform her or his assigned job duties; providing examples of "good cause"; amending s. 443.1113, F.S., relating to the Reemployment Assistance Claims and Benefits Information System; revising timeframe for deployment of a certain Internet portal as part of such system; amending s. 443.131, F.S.; requiring the tax collection service provider to calculate a certain additional rate; providing for when an assessment may not be made; requiring assessments to be available to pay interest on federal advances; requiring certain excess funds to be transferred to the Unemployment Compensation Trust Fund after a certain time period; deleting the provision referring to crediting employer accounts; providing an expiration date; amending ss. 443.151 F.S.; revising provisions to conform to changes made to benefit eligibility; providing that an employer or its agent may not be relieved of benefit charges for failure to timely and adequately respond to notice of claim or request for information; requiring the department to impose a penalty against a claimant who is overpaid reemployment assistance benefits due to fraud by the claimant; requiring an

317422

appeals referee to be an attorney in good standing with the Florida Bar or successfully admitted within 8 months of hire; requiring the Department of Economic Opportunity to meet the requirements of the bill through attrition after January 1, 2014; amending s. 443.1715, F.S.; prohibiting the unlawful disclosure of certain confidential information relating to employing units and individuals under the Reemployment Assistance Program Law; providing criminal penalties; amending 443.191, F.S.; providing for the deposit of moneys recovered and penalties collected due to fraud in the Unemployment Compensation Trust Fund; amending s. 446.50, F.S.; requiring the Department of Economic Opportunity's annual report to include a plan for the displaced homemaker program; deleting certain reporting requirements; creating s. 288.80, F.S.; providing a short title; creating s. 288.801, F.S.; providing Legislative intent; creating s. 288.81, F.S.; providing definitions; creating s. 288.82, F.S.; creating Triumph Gulf Coast, Inc., as nonprofit corporation; requiring the Triumph Gulf Coast, Inc., to create and administer the Recovery Fund for the benefit of disproportionately affected counties; providing for principal of the fund; providing for payment of administrative costs from the earnings of the fund; providing any remaining funds after 30 years revert to the State Treasury; authorizing investment of the principal of the fund; requiring an investment policy; requiring competitive procurement of money

317422

managers; requiring annual audits; requiring biannual reports; creating s. 288.83, F.S.; providing for application of public records and meetings laws; providing for governance by a 5 member board of directors; providing membership; providing for terms; providing for appointment for vacancies; providing limitations on board members; limiting postemployment activities; providing for a misdemeanor for violations; requiring financial disclosures; providing travel and per diem expenses; providing for removal; requiring quarterly meetings; providing for staffing; creating s. 288.831, F.S.; providing the powers and duties of the board of directors; creating s. 288.832, F.S.; providing the duties of Triumph Gulf Coast, Inc.; creating s. 288.84, F.S.; permitting awards for projects or programs from available earnings and principal; proscribing the award categories; proscribing the award categories for certain funds; establishing priority ranking for applications; prohibiting award from financing 100 percent of a program or project; permitting Triumph Gulf Coast, Inc., to requiring a one-to-one match; prohibiting an awardee from receiving all available funds; requiring a contract for an award; requiring regular reporting; providing effective dates.

576-03039-13

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Transportation, Tourism, and Economic Development)

A bill to be entitled

An act relating to the Department of Economic Opportunity; establishing the Economic Development Programs Evaluation; requiring the Office of Economic and Demographic Research and the Office of Program Policy Analysis and Government Accountability to present the evaluation; requiring the offices to develop and submit a work plan for completing the evaluation by a certain date; requiring the offices to provide an analysis of certain economic development programs and specifying a schedule; requiring the Office of Economic and Demographic Research to make certain evaluations in its analysis; limiting the office's evaluation for the purposes of tax credits, tax refunds, sales tax exemptions, cash grants, and similar programs; requiring the office to use a certain model to evaluate each program; requiring the Office of Program Policy Analysis and Government Accountability to make certain evaluations in its analysis; providing the offices access to all data necessary to complete the evaluation; amending s. 20.60, F.S.; revising the date on which the Department of Economic Opportunity and Enterprise Florida, Inc., are required to report on the business climate and economic development in the state; specifying reports and information that must be included; amending s.

389672

576-03039-13

201.15, F.S.; revising the distribution of funds in the Grants and Donations Trust Fund; amending s. 213.053, F.S.; authorizing the Department of Revenue to make certain information available to the director of the Office of Program Policy Analysis and Government Accountability and the coordinator of the Office of Economic and Demographic Research; authorizing the offices to share certain information; amending s. 220.194, F.S.; requiring the annual report for the Florida Space Business Incentives Act to be included in the annual incentives report; deleting certain reporting requirements; amending s. 288.001, F.S.; providing a network purpose; providing definitions; requiring the statewide director and the network to operate the program in compliance with federal laws and regulations and a Board of Governors regulation; requiring the statewide director to consult with the Board of Governors, the Department of Economic Opportunity, and the network's statewide advisory board to establish certain policies and goals; requiring the network to maintain a statewide advisory board; providing for advisory board membership; providing for terms of membership; providing for certain member reimbursement; requiring the director to develop support services; specifying support service requirements; requiring businesses that receive support services to participate in certain assessments; requiring the network to provide a match equal to certain state funding; providing

576-03039-13

criteria for the match; requiring the statewide director to coordinate with the host institution to establish a pay-per-performance incentive; providing for pay-per-performance incentive funding and distribution; providing a distribution formula requirement; requiring the statewide director to coordinate with the advisory board to distribute funds for certain purposes and develop programs to distribute funds for those purposes; requiring the network to announce available funding, performance expectations, and other requirements; requiring the statewide director to present applications and recommendations to the advisory board; requiring applications approved by the advisory board to be publicly posted; providing minimum requirements for a program; prohibiting certain regional small business development centers from receiving funds; providing that match funding may not be reduced for regional small business development centers receiving additional funds; requiring the statewide director to regularly update the Board of Governors, the department, and the advisory board with certain information; requiring the statewide director, in coordination with the advisory board, to annually report certain information to the President of the Senate and the Speaker of the House of Representatives; amending s. 288.005, F.S.; providing a definition; amending s. 288.012, F.S.; requiring each State of Florida international office to submit a

576-03039-13

report to Enterprise Florida, Inc., for inclusion in its annual report; deleting a reporting date; amending s. 288.061, F.S.; requiring the Department of Economic Opportunity to analyze each economic development incentive application; requiring an applicant to provide a surety bond to the Department of Economic Opportunity before the applicant receives incentive awards through the Quick Action Closing Fund or the Innovation Incentive Program; requiring the contract or agreement to provide that the bond remain in effect until all conditions have been satisfied; providing that the department may require the bond to cover the entire contracted amount or allow for bonds to be renewed upon completion of certain performance measures; requiring the contract or agreement to provide that funds are contingent upon receipt of the surety bond; requiring the contract or agreement to provide that up to half of the premium payment on the bond may be paid from the award up to a certain amount; requiring an applicant to notify the department of premium payments; providing for certain notice requirements upon cancellation or nonrenewal by an insurer; providing that the cancellation of the surety bond violates the contract or agreement; providing an exception; providing for a waiver if certain information is provided; providing that if the department grants a waiver, the contract or agreement must provide for securing the award in a certain form; requiring the contract or agreement to provide that

576-03039-13

the release of funds is contingent upon satisfying certain requirements; requiring the irrevocable letter of credit, trust, or security agreement to remain in effect until certain conditions have been satisfied; providing for a waiver of the surety bond or other security if certain information is provided and the department determines it to be in the best interest of the state; providing that the waiver of the surety bond or other security, for funding in excess of $5 million, must be approved by the Legislative Budget Commission; providing that the state may bring suit upon default or upon a violation of this section; providing that the department may adopt rules to implement this section; amending s. 288.0656, F.S.; requiring the Rural Economic Development Initiative to submit a report to supplement the Department of Economic Opportunity's annual report; deleting certain reporting requirements; repealing s. 288.095(3)(c), F.S., relating to the annual report by Enterprise Florida, Inc., of programs funded by the Economic Development Incentives Account; amending s. 288.106, F.S.; deleting and adding provisions relating to the application and approval process of the tax refund program for qualified target industry businesses; requiring the Department of Economic Opportunity to include information on qualified target industry businesses in the annual incentives report; deleting certain reporting requirements; amending s. 288.1081, F.S.; requiring the use of loan funds from the

576-03039-13

Economic Gardening Business Loan Pilot Program to be included in the department's annual report; deleting certain reporting requirements; amending s. 288.1082, F.S.; requiring the progress of the Economic Gardening Technical Assistance Pilot Program to be included in the department's annual report; deleting certain reporting requirements; amending s. 288.1088, F.S.; requiring the department to validate contractor performance for the Quick Action Closing Fund and include the performance validation in the annual incentives report; deleting certain reporting requirements; amending s. 288.1089, F.S.; requiring that certain projects in the Innovation Incentive Program provide a cumulative break-even economic benefit; requiring the department to report information relating to the Innovation Incentive Program in the annual incentives report; deleting certain reporting requirements; deleting provisions that require the Office of Program Policy Analysis and Government Accountability and the Auditor General's Office to report on the Innovation Incentive Program; amending s. 288.1226, F.S.; revising membership of the board of directors of the Florida Tourism Industry Marketing Corporation; providing that the Governor shall serve as a nonvoting member; amending s. 288.1253, F.S.; revising a reporting date; requiring expenditures of the Office of Film and Entertainment to be included in the annual entertainment industry financial incentive program report; amending s.

288.1254, F.S.; revising a reporting date; requiring the annual entertainment industry financial incentive program report to include certain information; amending s. 288.1258, F.S.; revising a reporting date; requiring the report detailing the relationship between tax exemptions and incentives to industry growth to be included in the annual entertainment industry financial incentive program report; amending s. 288.714, F.S.; requiring the Department of Economic Opportunity's annual report to include a report on the Black Business Loan Program; deleting certain reporting requirements; amending s. 288.7771, F.S.; requiring the Florida Export Finance Corporation to submit a report to Enterprise Florida, Inc.; amending s. 288.903, F.S.; requiring Enterprise Florida, Inc., with the Department of Economic Opportunity, to prepare an annual incentives report; repealing s. 288.904(6), F.S., relating to Enterprise Florida, Inc., which requires the department to report the return on the public's investment; amending s. 288.906, F.S.; requiring certain reports to be included in the Enterprise Florida, Inc., annual report; amending s. 288.907, F.S.; requiring Enterprise Florida, Inc., with the Department of Economic Opportunity, to prepare the annual incentives report; requiring the annual incentives report to include certain information; deleting a provision requiring the Division of Strategic Business Development to assist Enterprise Florida, Inc., with

the report; 288.92, F.S.; requiring each division of Enterprise Florida, Inc., to submit a report; amending s. 288.95155, F.S.; requiring the financial status of the Florida Small Business Technology Growth Program to be included in the annual incentives report; amending s. 290.0056, F.S.; revising a reporting date; requiring the enterprise zone development agency to submit certain information for the Department of Economic Opportunity's annual report; amending s. 290.014, F.S.; revising a reporting date; requiring certain reports on enterprise zones to be included in the Department of Economic Opportunity's annual report; amending ss. 290.0411 and 290.042, F.S.; revising legislative intent and definitions applicable to the Florida Small Cities Community Development Block Grant Program Act; amending s. 290.044, F.S.; requiring the department to adopt rules for the distribution of block grant funds to eligible local governments; deleting authority for block grant funds to be distributed as loan guarantees to local governments; requiring that block grant funds be distributed to achieve the department's community development objectives; requiring such objectives to be consistent with certain national objectives; amending s. 290.0455, F.S.; providing for the state's guarantee of certain federal loans to local governments; requiring applicants for such loans to pledge a specified amount of revenues to guarantee the loans; revising requirements for the department to

576-03039-13

submit recommendations to the Federal Government for such loans; revising the maximum amount of the loan guarantee commitment that a local government may receive and providing exceptions; providing for reduction of a local government's future community development block grants if the local government defaults on the federal loan; providing procedures if a local government is granted entitlement community status; amending s. 290.046, F.S.; revising application requirements for community development block grants and procedures for the ranking of applications and the determination of project funding; amending s. 290.047, F.S.; revising requirements for the establishment of grant ceilings and maximum expenditures on administrative costs from community development block grants; limiting an eligible local government's authority to contract for specified services in connection with community development block grants; amending s. 290.0475, F.S.; revising conditions under which grant applications are ineligible for funding; amending s. 290.048, F.S.; revising the department's duties to administer the Small Cities Community Development Block Grant Loan Guarantee Program; deleting provisions authorizing the establishment of an advisory committee; amending ss. 331.3051 and 331.310, F.S.; revising requirements for annual reports by Space Florida; amending s. 443.036, F.S.; providing examples of misconduct; amending s. 443.091, F.S.; providing for online work registration

576-03039-13

and providing exceptions; limiting a claimant's use of the same prospective employer to meet work search requirements; providing an exception; providing that work search requirements do not apply to individuals required to participate in reemployment services; amending s. 443.101, F.S.; providing for disqualification in any week with respect to which the department finds that his or her unemployment is due to failure without good cause to maintain a license, registration, or certification required by applicable law necessary for the employee to perform her or his assigned job duties; providing examples of "good cause"; amending s. 443.1113, F.S., relating to the Reemployment Assistance Claims and Benefits Information System; revising timeframe for deployment of a certain Internet portal as part of such system; amending s. 443.131, F.S.; requiring the tax collection service provider to calculate a certain additional rate; providing for when an assessment may not be made; requiring assessments to be available to pay interest on federal advances; requiring certain excess funds to be transferred to the Unemployment Compensation Trust Fund after a certain time period; deleting the provision referring to crediting employer accounts; providing an expiration date; amending ss. 443.151 F.S.; revising provisions to conform to changes made to benefit eligibility; requiring the department to impose a penalty against a claimant who is overpaid reemployment assistance benefits due to

576-03039-13

fraud by the claimant; requiring an appeals referee to be an attorney in good standing with the Florida Bar or successfully admitted within 8 months of hire; providing for a person who is an appeals referee as of the effective date of this act to become licensed by the Florida Bar by September 30, 2014; amending s. 443.1715, F.S.; prohibiting the unlawful disclosure of certain confidential information relating to employing units and individuals under the Reemployment Assistance Program Law; providing criminal penalties; amending 443.191, F.S.; providing for the deposit of moneys recovered and penalties collected due to fraud in the Unemployment Compensation Trust Fund; amending s. 446.50, F.S.; requiring the Department of Economic Opportunity's annual report to include a plan for the displaced homemaker program; deleting certain reporting requirements; providing effective dates.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Economic Development Programs Evaluation.—The Office of Economic and Demographic Research and the Office of Program Policy Analysis and Government Accountability (OPPAGA) shall develop and present to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the chairs of the legislative appropriations committees the Economic Development Programs Evaluation.

(1) The Office of Economic and Demographic Research and OPPAGA shall coordinate the development of a work plan for

576-03039-13

completing the Economic Development Programs Evaluation and shall submit the work plan to the President of the Senate and the Speaker of the House of Representatives by July 1, 2013.

(2) The Office of Economic and Demographic Research and OPPAGA shall provide a detailed analysis of economic development programs as provided in the following schedule:

(a) By January 1, 2014, and every 3 years thereafter, an analysis of the following:

1. The capital investment tax credit established under s. 220.191, Florida Statutes.

2. The qualified target industry tax refund established under s. 288.106, Florida Statutes.

3. The brownfield redevelopment bonus refund established under s. 288.107, Florida Statutes.

4. High-impact business performance grants established under s. 288.108, Florida Statutes.

5. The Quick Action Closing Fund established under s. 288.1088, Florida Statutes.

6. The Innovation Incentive Program established under s. 288.1089, Florida Statutes.

7. Enterprise Zone Program incentives established under ss. 212.08(5), 212.08(15), 212.096, 220.181, and 220.182, Florida Statutes.

(b) By January 1, 2015, and every 3 years thereafter, an analysis of the following:

1. The entertainment industry financial incentive program established under s. 288.1254, Florida Statutes.

2. The entertainment industry sales tax exemption program established under s. 288.1258, Florida Statutes.

3. VISIT Florida and its programs established or funded under ss. 288.122, 288.1226, 288.12265, and 288.124, Florida Statutes.

4. The Florida Sports Foundation and related programs established under ss. 288.1162, 288.11621, 288.1166, 288.1167, 288.1168, 288.1169, and 288.1171, Florida Statutes.

(c) By January 1, 2016, and every 3 years thereafter, an analysis of the following:

1. The qualified defense contractor and space flight business tax refund program established under s. 288.1045, Florida Statutes.

2. The tax exemption for semiconductor, defense, or space technology sales established under s. 212.08(5)(j), Florida Statutes.

3. The Military Base Protection Program established under s. 288.980, Florida Statutes.

4. The Manufacturing and Spaceport Investment Incentive Program established under s. 288.1083, Florida Statutes.

5. The Quick Response Training Program established under s. 288.047, Florida Statutes.

6. The Incumbent Worker Training Program established under s. 445.003, Florida Statutes.

7. International trade and business development programs established or funded under s. 288.826, Florida Statutes.

(3) Pursuant to the schedule established in subsection (2), the Office of Economic and Demographic Research shall evaluate and determine the economic benefits, as defined in s. 288.005, Florida Statutes, of each program over the previous 3 years. The analysis must also evaluate the number of jobs created, the

increase or decrease in personal income, and the impact on state gross domestic product from the direct, indirect, and induced effects of the state's investment in each program over the previous 3 years.

(a) For the purpose of evaluating tax credits, tax refunds, sales tax exemptions, cash grants, and similar programs, the Office of Economic and Demographic Research shall evaluate data only from those projects in which businesses received state funds during the evaluation period. Such projects may be fully completed, partially completed with future fund disbursal possible pending performance measures, or partially completed with no future fund disbursal possible as a result of a business's inability to meet performance measures.

(b) The analysis must use the model developed by the Office of Economic and Demographic Research, as required in s. 216.138, Florida Statutes, to evaluate each program. The office shall provide a written explanation of the key assumptions of the model and how it is used. If the office finds that another evaluation model is more appropriate to evaluate a program, it may use another model, but it must provide an explanation as to why the selected model was more appropriate.

(4) Pursuant to the schedule established in subsection (2), OPPAGA shall evaluate each program over the previous 3 years for its effectiveness and value to the taxpayers of this state and include recommendations on each program for consideration by the Legislature. The analysis may include relevant economic development reports or analyses prepared by the Department of Economic Opportunity, Enterprise Florida, Inc., or local or regional economic development organizations; interviews with the

parties involved; or any other relevant data.

(5) The Office of Economic and Demographic Research and OPPAGA must be given access to all data necessary to complete the Economic Development Programs Evaluation, including any confidential data. The offices may collaborate on data collection and analysis.

Section 2. Subsection (10) of section 20.60, Florida Statutes, is amended to read:

20.60 Department of Economic Opportunity; creation; powers and duties.—

(10) The department, with assistance from Enterprise Florida, Inc., shall, by November 1 ~~January 1~~ of each year, submit an annual report to the Governor, the President of the Senate, and the Speaker of the House of Representatives on the condition of the business climate and economic development in the state.

(a) The report must ~~shall~~ include the identification of problems and a prioritized list of recommendations.

(b) The report must incorporate annual reports of other programs, including:

1. The displaced homemaker program established under s. 446.50.

2. Information provided by the Department of Revenue under s. 290.014.

3. Information provided by enterprise zone development agencies under s. 290.0056 and an analysis of the activities and accomplishments of each enterprise zone.

4. The Economic Gardening Business Loan Pilot Program established under s. 288.1081 and the Economic Gardening

Technical Assistance Pilot Program established under s. 288.1082.

5. A detailed report of the performance of the Black Business Loan Program and a cumulative summary of quarterly report data required under s. 288.714.

6. The Rural Economic Development Initiative established under s. 288.0656.

Section 3. Paragraph (c) of subsection (1) of section 201.15, Florida Statutes, is amended to read:

201.15 Distribution of taxes collected.—All taxes collected under this chapter are subject to the service charge imposed in s. 215.20(1). Prior to distribution under this section, the Department of Revenue shall deduct amounts necessary to pay the costs of the collection and enforcement of the tax levied by this chapter. Such costs and the service charge may not be levied against any portion of taxes pledged to debt service on bonds to the extent that the costs and service charge are required to pay any amounts relating to the bonds. After distributions are made pursuant to subsection (1), all of the costs of the collection and enforcement of the tax levied by this chapter and the service charge shall be available and transferred to the extent necessary to pay debt service and any other amounts payable with respect to bonds authorized before January 1, 2013, secured by revenues distributed pursuant to subsection (1). All taxes remaining after deduction of costs and the service charge shall be distributed as follows:

(1) Sixty-three and thirty-one hundredths percent of the remaining taxes shall be used for the following purposes:

(c) After the required payments under paragraphs (a) and

(b), the remainder shall be paid into the State Treasury to the credit of:

1. The State Transportation Trust Fund in the Department of Transportation in the amount of the lesser of 38.2 percent of the remainder or $541.75 million in each fiscal year. Out of such funds, the first $50 million for the 2012-2013 fiscal year; $65 million for the 2013-2014 fiscal year; and $75 million for the 2014-2015 fiscal year and all subsequent years, shall be transferred to the State Economic Enhancement and Development Trust Fund within the Department of Economic Opportunity. The remainder is to be used for the following specified purposes, notwithstanding any other law to the contrary:

a. For the purposes of capital funding for the New Starts Transit Program, authorized by Title 49, U.S.C. s. 5309 and specified in s. 341.051, 10 percent of these funds;

b. For the purposes of the Small County Outreach Program specified in s. 339.2818, 5 percent of these funds. Effective July 1, 2014, the percentage allocated under this sub-subparagraph shall be increased to 10 percent;

c. For the purposes of the Strategic Intermodal System specified in ss. 339.61, 339.62, 339.63, and 339.64, 75 percent of these funds after allocating for the New Starts Transit Program described in sub-subparagraph a. and the Small County Outreach Program described in sub-subparagraph b.; and

d. For the purposes of the Transportation Regional Incentive Program specified in s. 339.2819, 25 percent of these funds after allocating for the New Starts Transit Program described in sub-subparagraph a. and the Small County Outreach Program described in sub-subparagraph b. Effective July 1, 2014,

the first $60 million of the funds allocated pursuant to this sub-subparagraph shall be allocated annually to the Florida Rail Enterprise for the purposes established in s. 341.303(5).

2. The Grants and Donations Trust Fund in the Department of Economic Opportunity in the amount of the lesser of .23 percent of the remainder or $3.25 million in each fiscal year to fund technical assistance to local governments ~~and school boards on the requirements and implementation of this act~~.

3. The Ecosystem Management and Restoration Trust Fund in the amount of the lesser of 2.12 percent of the remainder or $30 million in each fiscal year, to be used for the preservation and repair of the state's beaches as provided in ss. 161.091-161.212.

4. General Inspection Trust Fund in the amount of the lesser of .02 percent of the remainder or $300,000 in each fiscal year to be used to fund oyster management and restoration programs as provided in s. 379.362(3).

Moneys distributed pursuant to this paragraph may not be pledged for debt service unless such pledge is approved by referendum of the voters.

Section 4. Paragraph (bb) is added to subsection (8) of section 213.053, Florida Statutes, to read:

213.053 Confidentiality and information sharing.—

(8) Notwithstanding any other provision of this section, the department may provide:

(bb) Information to the director of the Office of Program Policy Analysis and Government Accountability or his or her authorized agent, and to the coordinator of the Office of

576-03039-13

Economic and Demographic Research or his or her authorized agent, for purposes of completing the Economic Development Programs Evaluation. Information obtained from the department pursuant to this paragraph may be shared by the director and the coordinator, or the director's or coordinator's authorized agent, for purposes of completing the Economic Development Programs Evaluation.

Disclosure of information under this subsection shall be pursuant to a written agreement between the executive director and the agency. Such agencies, governmental or nongovernmental, shall be bound by the same requirements of confidentiality as the Department of Revenue. Breach of confidentiality is a misdemeanor of the first degree, punishable as provided by s. 775.082 or s. 775.083.

Section 5. Subsection (9) of section 220.194, Florida Statutes, is amended to read:

220.194 Corporate income tax credits for spaceflight projects.—

(9) ANNUAL REPORT.—Beginning in 2014, the Department of Economic Opportunity, in cooperation with Space Florida and the department, shall include in the ~~submit an~~ annual incentives report required under s. 288.907 a summary of ~~summarizing~~ activities relating to the Florida Space Business Incentives Act established under this section ~~to the Governor, the President of the Senate, and the Speaker of the House of Representatives by each November 30~~.

Section 6. Section 288.001, Florida Statutes, is amended to read:

576-03039-13

288.001 The Florida Small Business Development Center Network~~; purpose~~.—

(1) PURPOSE.—The Florida Small Business Development Center Network is the principal business assistance organization for small businesses in the state. The purpose of the network is to serve emerging and established for-profit, privately held businesses that maintain a place of business in the state.

(2) DEFINITIONS.—As used in this section, the term:

(a) "Board of Governors" is the Board of Governors of the State University System.

(b) "Host institution" is the university designated by the Board of Governors to be the recipient organization in accordance with 13 C.F.R. s. 130.200.

(c) "Network" means the Florida Small Business Development Center Network.

(3) OPERATION; POLICIES AND PROGRAMS.—

(a) The network's statewide director shall operate the network in compliance with the federal laws and regulations governing the network and the Board of Governors Regulation 10.015.

(b) The network's statewide director shall consult with the Board of Governors, the department, and the network's statewide advisory board to ensure that the network's policies and programs align with the statewide goals of the State University System and the statewide strategic economic development plan as provided under s. 20.60.

(4) STATEWIDE ADVISORY BOARD.—

(a) The network shall maintain a statewide advisory board to advise, counsel, and confer with the statewide director on

matters pertaining to the operation of the network.

(b) The statewide advisory board shall consist of 19 members from across the state. At least 12 members must be representatives of the private sector who are knowledgeable of the needs and challenges of small businesses. The members must represent various segments and industries of the economy in this state and must bring knowledge and skills to the statewide advisory board which would enhance the board's collective knowledge of small business assistance needs and challenges. Minority and gender representation must be considered when making appointments to the board. The board must include the following members:

1. Three members appointed from the private sector by the President of the Senate.

2. Three members appointed from the private sector by the Speaker of the House of Representatives.

3. Three members appointed from the private sector by the Governor.

4. Three members appointed from the private sector by the network's statewide director.

5. One member appointed by the host institution.

6. The President of Enterprise Florida, Inc., or his or her designee.

7. The Chief Financial Officer or his or her designee.

8. The President of the Florida Chamber of Commerce or his or her designee.

9. The Small Business Development Center Project Officer from the U.S. Small Business Administration at the South Florida District Office or his or her designee.

10. The executive director of the National Federation of Independent Businesses, Florida, or his or her designee.

11. The executive director of the Florida United Business Association or his or her designee.

(c) The term of an appointed member shall be for 4 years, beginning August 1, 2013, except that at the time of initial appointments, two members appointed by the Governor, one member appointed by the President of the Senate, one member appointed by the Speaker of the House of Representatives, and one member appointed by the network's statewide director shall be appointed for 2 years. An appointed member may be reappointed to a subsequent term. Members of the statewide advisory board may not receive compensation but may be reimbursed for per diem and travel expenses in accordance with s. 112.061.

(5) SMALL BUSINESS SUPPORT SERVICES; AGREEMENT.—

(a) The statewide director, in consultation with the advisory board, shall develop support services that are delivered through regional small business development centers. Support services must target the needs of businesses that employ fewer than 100 persons and demonstrate an assessed capacity to grow in employment or revenue.

(b) Support services must include, but need not be limited to, providing information or research, consulting, educating, or assisting businesses in the following activities:

1. Planning related to the start-up, operation, or expansion of a small business enterprise in this state. Such activities include providing guidance on business formation, structure, management, registration, regulation, and taxes.

2. Developing and implementing strategic or business plans.

Such activities include analyzing a business's mission, vision, strategies, and goals; critiquing the overall plan; and creating performance measures.

3. Developing the financial literacy of existing businesses related to their business cash flow and financial management plans. Such activities include conducting financial analysis health checks, assessing cost control management techniques, and building financial management strategies and solutions.

4. Developing and implementing plans for existing businesses to access or expand to new or existing markets. Such activities include conducting market research, researching and identifying expansion opportunities in international markets, and identifying opportunities in selling to units of government.

5. Supporting access to capital for business investment and expansion. Such activities include providing technical assistance relating to obtaining surety bonds; identifying and assessing potential debt or equity investors or other financing opportunities; assisting in the preparation of applications, projections, or pro forma or other support documentation for surety bond, loan, financing, or investment requests; and facilitating conferences with lenders or investors.

6. Assisting existing businesses to plan for a natural or man-made disaster, and assisting businesses when such an event occurs. Such activities include creating business continuity and disaster plans, preparing disaster and bridge loan applications, and carrying out other emergency support functions.

(c) A business receiving support services must agree to participate in assessments of such services. The agreement, at a minimum, must request the business to report demographic

characteristics, changes in employment and sales, debt and equity capital attained, and government contracts acquired. The host institution may require additional reporting requirements for funding described in subsection (7).

(6) REQUIRED MATCH.—The network must provide a match equal to the total amount of any direct legislative appropriation which is received directly by the host institution and is specifically designated for the network. The match may include funds from federal or other nonstate funding sources designated for the network. At least 50 percent of the match must be cash. The remaining 50 percent may be provided through any allowable combination of additional cash, in-kind contributions, or indirect costs.

(7) ADDITIONAL STATE FUNDS; USES; PAY-PER-PERFORMANCE INCENTIVES; STATEWIDE SERVICE; SERVICE ENHANCEMENTS; BEST PRACTICES; ELIGIBILITY.—

(a) The statewide director, in coordination with the host institution, shall establish a pay-per-performance incentive for regional small business development centers. Such incentive shall be funded from half of any state appropriation received directly by the host institution, which appropriation is specifically designated for the network. These funds shall be distributed to the regional small business development centers based upon data collected from the businesses as provided under paragraph (5)(c). The distribution formula must provide for the distribution of funds in part on the gross number of jobs created annually by each center and in part on the number of jobs created per support service hour. The pay-per-performance incentive must supplement the operations and support services of

576-03039-13

each regional small business development center, and may not reduce matching funds dedicated to the regional small business development center.

(b) Half of any state funds received directly by the host institution which are specifically designated for the network shall be distributed by the statewide director, in coordination with the advisory board, for the following purposes:

1. Ensuring that support services are available statewide, especially in underserved and rural areas of the state, to assist eligible businesses;

2. Enhancing participation in the network among state universities and colleges; and

3. Facilitating the adoption of innovative small business assistance best practices by the regional small business development centers.

(c) The statewide director, in coordination with the advisory board, shall develop annual programs to distribute funds for each of the purposes described in paragraph (b). The network shall announce the annual amount of available funds for each program, performance expectations, and other requirements. For each program, the statewide director shall present applications and recommendations to the advisory board. The advisory board shall make the final approval of applications. Approved applications must be publicly posted. At a minimum, programs must include:

1. New regional small business development centers; and

2. Awards for the top six regional small business development centers that adopt best practices, as determined by the advisory board. Detailed information about best practices

576-03039-13

must be made available to regional small business development centers for voluntary implementation.

(d) A regional small business development center that has been found by the statewide director to perform poorly, to engage in improper activity affecting the operation and integrity of the network, or to fail to follow the rules and procedures set forth in the laws, regulations, and policies governing the network, is not eligible for funds under this subsection.

(e) Funds awarded under this subsection may not reduce matching funds dedicated to the regional small business development centers.

(8) REPORTING.—

(a) The statewide director shall quarterly update the Board of Governors, the department, and the advisory board on the network's progress and outcomes, including aggregate information on businesses assisted by the network.

(b) The statewide director, in coordination with the advisory board, shall annually report, on June 30, to the President of the Senate and the Speaker of the House of Representatives on the network's progress and outcomes for the previous fiscal year. The report must include aggregate information on businesses assisted by the network, network services and programs, the use of funds specifically dedicated to the network, and the network's economic benefit to the state. The report must contain specific information on performance-based metrics and contain the methodology used to calculate the network's economic benefit to the state.

Section 7. Subsection (4) is added to section 288.005,

Florida Statutes, to read:

288.005 Definitions.—As used in this chapter, the term:

(4) "Jobs" means full-time equivalent positions, including, but not limited to, positions obtained from a temporary employment agency or employee leasing company or through a union agreement or coemployment under a professional employer organization agreement, which result directly from a project in this state. This number does not include temporary construction jobs involved with the construction of facilities for the project.

Section 8. Subsection (3) of section 288.012, Florida Statutes, is amended to read:

288.012 State of Florida international offices; state protocol officer; protocol manual.—The Legislature finds that the expansion of international trade and tourism is vital to the overall health and growth of the economy of this state. This expansion is hampered by the lack of technical and business assistance, financial assistance, and information services for businesses in this state. The Legislature finds that these businesses could be assisted by providing these services at State of Florida international offices. The Legislature further finds that the accessibility and provision of services at these offices can be enhanced through cooperative agreements or strategic alliances between private businesses and state, local, and international governmental entities.

(3) ~~By October 1 of each year,~~ Each international office shall annually submit to Enterprise Florida, Inc., ~~the department~~ a complete and detailed report on its activities and accomplishments during the previous ~~preceding~~ fiscal year for

inclusion in the annual report required under s. 288.906. In the ~~a~~ format and by the annual date prescribed ~~provided~~ by Enterprise Florida, Inc., the report must set forth information on:

(a) The number of Florida companies assisted.

(b) The number of inquiries received about investment opportunities in this state.

(c) The number of trade leads generated.

(d) The number of investment projects announced.

(e) The estimated U.S. dollar value of sales confirmations.

(f) The number of representation agreements.

(g) The number of company consultations.

(h) Barriers or other issues affecting the effective operation of the office.

(i) Changes in office operations which are planned for the current fiscal year.

(j) Marketing activities conducted.

(k) Strategic alliances formed with organizations in the country in which the office is located.

(l) Activities conducted with Florida's other international offices.

(m) Any other information that the office believes would contribute to an understanding of its activities.

Section 9. Section 288.061, Florida Statutes, is amended to read:

288.061 Economic development incentive application process.—

(1) Upon receiving a submitted economic development incentive application, the Division of Strategic Business

Development of the Department of Economic Opportunity and designated staff of Enterprise Florida, Inc., shall review the application to ensure that the application is complete, whether and what type of state and local permits may be necessary for the applicant's project, whether it is possible to waive such permits, and what state incentives and amounts of such incentives may be available to the applicant. The department shall recommend to the executive director to approve or disapprove an applicant business. If review of the application demonstrates that the application is incomplete, the executive director shall notify the applicant business within the first 5 business days after receiving the application.

(2) Beginning July 1, 2013, the department shall review and evaluate each economic development incentive application for the economic benefits of the proposed award of state incentives proposed for the project. The term "economic benefits" has the same meaning as in s. 288.005. The Office of Economic and Demographic Research shall review and evaluate the methodology and model used to calculate the economic benefits. For purposes of this requirement, an amended definition of economic benefits may be developed in conjunction with the Office of Economic and Demographic Research. The Office of Economic and Demographic Research shall report on the methodology and model by September 1, 2013, and every third year thereafter, to the President of the Senate and the Speaker of the House of Representatives.

(3) ~~(2)~~ Within 10 business days after the department receives the submitted economic development incentive application, the executive director shall approve or disapprove the application and issue a letter of certification to the

applicant which includes a justification of that decision, unless the business requests an extension of that time.

(a) The contract or agreement with the applicant must ~~shall~~ specify the total amount of the award, the performance conditions that must be met to obtain the award, the schedule for payment, and sanctions that would apply for failure to meet performance conditions. The department may enter into one agreement or contract covering all of the state incentives that are being provided to the applicant. The contract must provide that release of funds is contingent upon sufficient appropriation of funds by the Legislature.

(b) The release of funds for the incentive or incentives awarded to the applicant depends upon the statutory requirements of the particular incentive program, except as provided in subsection (4).

(4)(a) In order to receive an incentive under s. 288.1088 or s. 288.1089, an applicant must provide the department with a surety bond, issued by an insurer authorized to do business in this state, for the amount of the award under the incentive contract or agreement. Funds may not be paid to an applicant until the department certifies compliance with this subsection.

1. The contract or agreement must provide that the bond remain in effect until all performance conditions in the contract or agreement have been satisfied. The department may require the bond to cover the entire amount of the contract or agreement or allow for a bond to be renewed upon the completion of scheduled performance measurements specified in the contract or agreement. The contract or agreement must provide that the release of any funds is contingent upon receipt by the

576-03039-13

department of the surety bond.

2. The contract or agreement must provide that up to half of the premium payment on the surety bond may be paid from the award amount, not to exceed 3 percent of the award.

3. The applicant shall notify the department at least 10 days before each premium payment is due.

4. Any notice of cancellation or nonrenewal issued by an insurer must comply with the notice requirements of s. 626.9201. If the applicant receives a notice of cancellation or nonrenewal, the applicant must immediately notify the department.

5. The cancellation of the surety bond is a violation of the contract or agreement between the applicant and the department. The department is released from any obligation to make future scheduled payments unless the applicant is able to secure a new surety bond or comply with the requirements of paragraphs (b) and (c) within 90 days before the effective date of the cancellation.

(b) If an applicant is unable to secure a surety bond or can demonstrate that obtaining a bond is unreasonable in cost, the department may waive the requirements specified in paragraph (a) by certifying in writing to the Governor, President of the Senate, and Speaker of the House of Representatives the following information:

1. An explanation stating the reasons why the applicant could not obtain a bond, to the extent such information is not confidential under s. 288.075;

2. A description of the economic benefits expected to be generated by the incentive award which indicates that the

576-03039-13

project warrants waiver of the requirement; and

3. An evaluation of the quality and value of the applicant which supports the selection of the alternative securitization under paragraph (c). The department's evaluation must consider the following information when determining the form for securing the award amount:

a. A financial analysis of the company, including an evaluation of the company's short-term liquidity ratio as measured by its assets to liability, the company's profitability ratio, and the company's long-term solvency as measured by its debt-to-equity ratio;

b. The historical market performance of the company;

c. Any independent evaluations of the company;

d. The latest audit of the company's financial statement and the related auditor's management letter; and

e. Any other types of reports that are related to the internal controls or management of the company.

(c)1. If the department grants a waiver under paragraph (b), the incentives contract or agreement must provide for securing the award amount in one of the following forms:

a. An irrevocable letter of credit issued by a financial institution, as defined in s. 655.005;

b. Cash or securities held in trust by a financial institution, as defined in s. 655.005, and subject to a control agreement; or

c. A secured transaction in collateral under the control or possession of the applicant for the value of the award amount. The department is authorized to negotiate the terms and conditions of the security agreement.

576-03039-13

2. The contract or agreement must provide that the release of any funds is contingent upon the receipt of documentation by the department which satisfies all of the requirements found in this paragraph. Funds may not be paid to the applicant until the department certifies compliance with this subsection.

3. The irrevocable letter of credit, trust, or security agreement must remain in effect until all performance conditions specified in the contract or agreement have been satisfied. Failure to comply with this provision results in a violation of the contract or agreement between the applicant and the department and releases the department from any obligation to make future scheduled payments.

(d) The department may waive the requirements of paragraphs (a) through (c) by certifying to the Governor and the chair and vice chair of the Legislative Budget Commission the following information:

1. The applicant demonstrates the financial ability to fulfill the requirements of the contract and has submitted an independently audited financial statement for the previous 5 years;

2. If applicable, the applicant was previously a recipient of an incentive under an economic development program, was subject to clawback requirements, and timely complied with those provisions; and

3. The department has determined that waiver of the requirements of paragraphs (a) through (c) is in the best interest of the state.

(e) For waivers granted under paragraph (d), the department shall provide a written description and evaluation of the waiver

576-03039-13

to the chair and vice chair of the Legislative Budget Commission. Such information may be provided at the same time that the information for the project consultation is provided to the Legislative Budget Commission under s. 288.1088 or s. 288.1089. If the chair or vice chair of the Legislative Budget Commission timely advises the department that such action or proposed action exceeds delegated authority or is contrary to legislative policy or intent, the department shall void the waiver until the Legislative Budget Commission or the Legislature addresses the issue. A waiver granted by the department for any project exceeding $5 million must be approved by the Legislative Budget Commission.

(f) The provisions of this subsection shall apply to any contract entered into on or after July 1, 2013.

(5) In the event of default on the performance conditions specified in the contract or agreement, or violation of any of the provisions found in this section, the state may, in addition to any other remedy provided by law, bring suit to enforce its interest.

(6)~~(3)~~ The department shall validate contractor performance and report~~.~~ such ~~Such~~ validation ~~shall be reported~~ in the annual incentives ~~incentive~~ report required under s. 288.907.

(7) The department is authorized to adopt rules to implement this section.

Section 10. Subsection (8) of section 288.0656, Florida Statutes, is amended to read:

288.0656 Rural Economic Development Initiative.—

(8) REDI shall submit a report to the department ~~Governor, the President of the Senate, and the Speaker of the House of~~

576-03039-13

~~Representatives each year on or before September 1~~ on all REDI activities for the previous ~~prior~~ fiscal year as a supplement to the department's annual report required under s. 20.60. This supplementary report must ~~shall~~ include:

(a) A status report on all projects currently being coordinated through REDI, the number of preferential awards and allowances made pursuant to this section, the dollar amount of such awards, and the names of the recipients.

(b) ~~The report shall also include~~ A description of all waivers of program requirements granted.

(c) ~~The report shall also include~~ Information as to the economic impact of the projects coordinated by REDI.~~, and~~

(d) Recommendations based on the review and evaluation of statutes and rules having an adverse impact on rural communities~~,~~ and proposals to mitigate such adverse impacts.

Section 11. Paragraph (c) of subsection (3) of section 288.095, Florida Statutes, is repealed.

Section 12. Paragraph (c) of subsection (4) and paragraph (d) of subsection (7) of section 288.106, Florida Statutes, are amended to read:

288.106 Tax refund program for qualified target industry businesses.—

(4) APPLICATION AND APPROVAL PROCESS.—

(c) Each application meeting the requirements of paragraph (b) must be submitted to the department for determination of eligibility. The department shall review and evaluate each application based on, but not limited to, the following criteria:

1. Expected contributions to the state's economy,

576-03039-13

consistent with the state strategic economic development plan prepared by the department.

2. The economic benefits of the proposed award of tax refunds under this section ~~and the economic benefits of state incentives proposed for the project~~. ~~The term "economic benefits" has the same meaning as in s. 288.005. The Office of Economic and Demographic Research shall review and evaluate the methodology and model used to calculate the economic benefits and shall report its findings by September 1 of every 3rd year, to the President of the Senate and the Speaker of the House of Representatives.~~

3. The amount of capital investment to be made by the applicant in this state.

4. The local financial commitment and support for the project.

5. The expected effect of the project on the unemployed and underemployed ~~unemployment rate~~ in the county where the project will be located.

6. The expected effect of the award on the viability of the project and the probability that the project would be undertaken in this state if such tax refunds are granted to the applicant.

~~7. The expected long-term commitment of the applicant to economic growth and employment in this state resulting from the project.~~

7.~~8.~~ A review of the business's past activities in this state or other states, including whether the ~~such~~ business has been subjected to criminal or civil fines and penalties and whether the business received economic development incentives in other states and the results of such incentive agreements. This

subparagraph does not require the disclosure of confidential information.

(7) ADMINISTRATION.—

(d) Beginning with tax refund agreements signed after July 1, 2010, the department shall attempt to ascertain the causes for any business's failure to complete its agreement and ~~shall report~~ its findings and recommendations must be included in the annual incentives report under s. 288.907 ~~to the Governor, the President of the Senate, and the Speaker of the House of Representatives~~. ~~The report shall be submitted by December 1 of each year beginning in 2011.~~

Section 13. Subsection (8) of section 288.1081, Florida Statutes, is amended to read:

288.1081 Economic Gardening Business Loan Pilot Program.—

(8) The annual report required under s. 20.60 must describe ~~On June 30 and December 31 of each year, the department shall submit a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives which describes~~ in detail the use of the loan funds. The report must include, at a minimum, the number of businesses receiving loans, the number of full-time equivalent jobs created as a result of the loans, the amount of wages paid to employees in the newly created jobs, the locations and types of economic activity undertaken by the borrowers, the amounts of loan repayments made to date, and the default rate of borrowers.

Section 14. Subsection (8) of section 288.1082, Florida Statutes, is amended to read:

288.1082 Economic Gardening Technical Assistance Pilot Program.—

(8) The annual report required under s. 20.60 must describe ~~On December 31 of each year, the department shall submit a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives which describes~~ in detail the progress of the pilot program. The report must include, at a minimum, the number of businesses receiving assistance, the number of full-time equivalent jobs created as a result of the assistance, if any, the amount of wages paid to employees in the newly created jobs, and the locations and types of economic activity undertaken by the businesses.

Section 15. Paragraph (e) of subsection (3) of section 288.1088, Florida Statutes, is amended to read:

288.1088 Quick Action Closing Fund.—

(3)

(e) The department ~~Enterprise Florida, Inc.,~~ shall validate contractor performance and report~~.~~ such validation in the annual incentives report required under s. 288.907 ~~shall be reported within 6 months after completion of the contract to the Governor, President of the Senate, and the Speaker of the House of Representatives~~.

Section 16. Paragraphs (b) and (d) of subsection (4), and subsections (9) and (11) of section 288.1089, Florida Statutes, are amended to read:

288.1089 Innovation Incentive Program.—

(4) To qualify for review by the department, the applicant must, at a minimum, establish the following to the satisfaction of the department:

(b) A research and development project must:

1. Serve as a catalyst for an emerging or evolving

technology cluster.

2. Demonstrate a plan for significant higher education collaboration.

3. Provide the state, at a minimum, a cumulative break-even economic benefit ~~return on investment~~ within a 20-year period.

4. Be provided with a one-to-one match from the local community. The match requirement may be reduced or waived in rural areas of critical economic concern or reduced in rural areas, brownfield areas, and enterprise zones.

(d) For an alternative and renewable energy project in this state, the project must:

1. Demonstrate a plan for significant collaboration with an institution of higher education;

2. Provide the state, at a minimum, a cumulative break-even economic benefit ~~return on investment~~ within a 20-year period;

3. Include matching funds provided by the applicant or other available sources. The match requirement may be reduced or waived in rural areas of critical economic concern or reduced in rural areas, brownfield areas, and enterprise zones;

4. Be located in this state; and

5. Provide at least 35 direct, new jobs that pay an estimated annual average wage that equals at least 130 percent of the average private sector wage.

(9) The department shall validate the performance of an innovation business, a research and development facility, or an alternative and renewable energy business that has received an award. At the conclusion of the innovation incentive award agreement, or its earlier termination, the department shall include in the annual incentives report required under s.

288.907 a detailed description of~~, within 90 days, submit a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives detailing~~ whether the recipient of the innovation incentive grant achieved its specified outcomes.

(11)~~(a)~~ The department shall include in ~~submit to the Governor, the President of the Senate, and the Speaker of the House of Representatives, as part of~~ the annual incentives report required under s. 288.907~~,~~ a report summarizing the activities and accomplishments of the recipients of grants from the Innovation Incentive Program during the previous 12 months and an evaluation of whether the recipients are catalysts for additional direct and indirect economic development in Florida.

~~(b) Beginning March 1, 2010, and every third year thereafter, the Office of Program Policy Analysis and Government Accountability, in consultation with the Auditor General's Office, shall release a report evaluating the Innovation Incentive Program's progress toward creating clusters of high-wage, high-skilled, complementary industries that serve as catalysts for economic growth specifically in the regions in which they are located, and generally for the state as a whole. Such report should include critical analyses of quarterly and annual reports, annual audits, and other documents prepared by the Innovation Incentive Program awardees; relevant economic development reports prepared by the department, Enterprise Florida, Inc., and local or regional economic development organizations; interviews with the parties involved; and any other relevant data. Such report should also include legislative recommendations, if necessary, on how to improve the Innovation~~

~~Incentive Program so that the program reaches its anticipated potential as a catalyst for direct and indirect economic development in this state.~~

Section 17. Subsection (4) of section 288.1226, Florida Statutes, is amended to read:

288.1226 Florida Tourism Industry Marketing Corporation; use of property; board of directors; duties; audit.—

(4) BOARD OF DIRECTORS.—The board of directors of the corporation shall be composed of the Governor and 31 tourism-industry-related members, appointed by Enterprise Florida, Inc., in conjunction with the department.

(a) The Governor shall serve ex officio as a nonvoting member of the board.

(b) ~~(a)~~ The board shall consist of 16 members, appointed in such a manner as to equitably represent all geographic areas of the state, with no fewer than two members from any of the following regions:

1. Region 1, composed of Bay, Calhoun, Escambia, Franklin, Gadsden, Gulf, Holmes, Jackson, Jefferson, Leon, Liberty, Okaloosa, Santa Rosa, Wakulla, Walton, and Washington Counties.

2. Region 2, composed of Alachua, Baker, Bradford, Clay, Columbia, Dixie, Duval, Flagler, Gilchrist, Hamilton, Lafayette, Levy, Madison, Marion, Nassau, Putnam, St. Johns, Suwannee, Taylor, and Union Counties.

3. Region 3, composed of Brevard, Indian River, Lake, Okeechobee, Orange, Osceola, St. Lucie, Seminole, Sumter, and Volusia Counties.

4. Region 4, composed of Citrus, Hernando, Hillsborough, Manatee, Pasco, Pinellas, Polk, and Sarasota Counties.

5. Region 5, composed of Charlotte, Collier, DeSoto, Glades, Hardee, Hendry, Highlands, and Lee Counties.

6. Region 6, composed of Broward, Martin, Miami-Dade, Monroe, and Palm Beach Counties.

(c) ~~(b)~~ The 15 additional tourism-industry-related members shall include 1 representative from the statewide rental car industry; 7 representatives from tourist-related statewide associations, including those that represent hotels, campgrounds, county destination marketing organizations, museums, restaurants, retail, and attractions; 3 representatives from county destination marketing organizations; 1 representative from the cruise industry; 1 representative from an automobile and travel services membership organization that has at least 2.8 million members in Florida; 1 representative from the airline industry; and 1 representative from the space tourism industry, who will each serve for a term of 2 years.

Section 18. Subsection (3) of section 288.1253, Florida Statutes, is amended to read:

288.1253 Travel and entertainment expenses.—

(3) The Office of Film and Entertainment ~~department~~ shall include in the annual report for the entertainment industry financial incentive program required under s. 288.1254(10) a ~~prepare an annual~~ report of the office's expenditures ~~of the Office of Film and Entertainment and provide such report to the Legislature no later than December 30 of each year~~ for ~~the expenditures of~~ the previous fiscal year. The report must ~~shall~~ consist of a summary of all travel, entertainment, and incidental expenses incurred within the United States and all travel, entertainment, and incidental expenses incurred outside

576-03039-13

the United States, as well as a summary of all successful projects that developed from such travel.

Section 19. Subsection (10) of section 288.1254, Florida Statutes, is amended to read:

288.1254 Entertainment industry financial incentive program.—

(10) ANNUAL REPORT.—Each November 1 ~~October 1~~, the Office of Film and Entertainment shall submit ~~provide~~ an annual report for the previous fiscal year to the Governor, the President of the Senate, and the Speaker of the House of Representatives which outlines the incentive program's return on investment and economic benefits to the state. The report must ~~shall~~ also include an estimate of the full-time equivalent positions created by each production that received tax credits under this section and information relating to the distribution of productions receiving credits by geographic region and type of production. The report must also include the expenditures report required under s. 288.1253(3) and the information describing the relationship between tax exemptions and incentives to industry growth required under s. 288.1258(5).

Section 20. Subsection (5) of section 288.1258, Florida Statutes, is amended to read:

288.1258 Entertainment industry qualified production companies; application procedure; categories; duties of the Department of Revenue; records and reports.—

(5) RELATIONSHIP OF TAX EXEMPTIONS AND INCENTIVES TO INDUSTRY GROWTH; REPORT TO THE LEGISLATURE.—The Office of Film and Entertainment shall keep annual records from the information provided on taxpayer applications for tax exemption certificates

576-03039-13

beginning January 1, 2001. These records also must ~~shall~~ reflect a ratio of the annual amount of sales and use tax exemptions under this section, plus the incentives awarded pursuant to s. 288.1254 to the estimated amount of funds expended by certified productions. In addition, the office shall maintain data showing annual growth in Florida-based entertainment industry companies and entertainment industry employment and wages. The employment information must ~~shall~~ include an estimate of the full-time equivalent positions created by each production that received tax credits pursuant to s. 288.1254. The Office of Film and Entertainment shall include ~~report~~ this information in the annual report for the entertainment industry financial incentive program required under s. 288.1254(10) ~~to the Legislature no later than December 1 of each year~~.

Section 21. Subsection (3) of section 288.714, Florida Statutes, is amended to read:

288.714 Quarterly and annual reports.—

(3) ~~By August 31 of each year,~~ The department shall include in its annual report required under s. 20.60 ~~provide to the Governor, the President of the Senate, and the Speaker of the House of Representatives~~ a detailed report of the performance of the Black Business Loan Program. The report must include a cumulative summary of the quarterly report data compiled pursuant to ~~required by~~ subsection (2) ~~(1)~~.

Section 22. Section 288.7771, Florida Statutes, is amended to read:

288.7771 Annual report of Florida Export Finance Corporation.—The corporation shall annually prepare and submit to Enterprise Florida, Inc., ~~the department~~ for inclusion in its

annual report required under s. 288.906 ~~by s. 288.095~~ a complete and detailed report setting forth:

(1) The report required in s. 288.776(3).

(2) Its assets and liabilities at the end of its most recent fiscal year.

Section 23. Subsections (3), (4), and (5) of section 288.903, Florida Statutes, are amended to read:

288.903 Duties of Enterprise Florida, Inc.—Enterprise Florida, Inc., shall have the following duties:

(3) Prepare an annual report pursuant to s. 288.906.

(4) Prepare, in conjunction with the department, ~~and~~ an annual incentives report pursuant to s. 288.907.

(5) ~~(4)~~ Assist the department with the development of an annual and a long-range strategic business blueprint for economic development required in s. 20.60.

(6) ~~(5)~~ In coordination with Workforce Florida, Inc., identify education and training programs that will ensure Florida businesses have access to a skilled and competent workforce necessary to compete successfully in the domestic and global marketplace.

Section 24. Subsection (6) of section 288.904, Florida Statutes, is repealed.

Section 25. Subsection (3) is added to section 288.906, Florida Statutes, to read:

288.906 Annual report of Enterprise Florida, Inc., and its divisions; audits.—

(3) The following reports must be included as supplements to the detailed report required by this section:

(a) The annual report of the Florida Export Finance

Corporation required under s. 288.7771.

(b) The report on international offices required under s. 288.012.

Section 26. Section 288.907, Florida Statutes, is amended to read:

288.907 Annual incentives report.—

~~(1)~~ By December 30 of each year, ~~In addition to the annual report required under s. 288.906,~~ Enterprise Florida, Inc., in conjunction with the department, ~~by December 30 of each year,~~ shall provide the Governor, the President of the Senate, and the Speaker of the House of Representatives a detailed incentives report quantifying the economic benefits for all of the economic development incentive programs marketed by Enterprise Florida, Inc.

~~(a)~~ The annual incentives report must include:

(1) For each incentive program:

(a) ~~1.~~ A brief description of the incentive program.

(b) ~~2.~~ The amount of awards granted, by year, since inception and the annual amount actually transferred from the state treasury to businesses or for the benefit of businesses for each of the previous 3 years.

~~3. The economic benefits, as defined in s. 288.005, based on the actual amount of private capital invested, actual number of jobs created, and actual wages paid for incentive agreements completed during the previous 3 years.~~

(c) ~~4. The report shall also include~~ The actual amount of private capital invested, actual number of jobs created, and actual wages paid for incentive agreements completed during the previous 3 years for each target industry sector.

(2) ~~(b)~~ For projects completed during the previous state fiscal year~~, the report must include~~:

(a) ~~1.~~ The number of economic development incentive applications received.

(b) ~~2.~~ The number of recommendations made to the department by Enterprise Florida, Inc., including the number recommended for approval and the number recommended for denial.

(c) ~~3.~~ The number of final decisions issued by the department for approval and for denial.

(d) ~~4.~~ The projects for which a tax refund, tax credit, or cash grant agreement was executed, identifying for each project:

1. ~~a.~~ The number of jobs committed to be created.

2. ~~b.~~ The amount of capital investments committed to be made.

3. ~~c.~~ The annual average wage committed to be paid.

4. ~~d.~~ The amount of state economic development incentives committed to the project from each incentive program under the project's terms of agreement with the Department of Economic Opportunity.

5. ~~e.~~ The amount and type of local matching funds committed to the project.

(e) Tax refunds paid or other payments made funded out of the Economic Development Incentives Account for each project.

(f) The types of projects supported.

(3) ~~(c)~~ For economic development projects that received tax refunds, tax credits, or cash grants under the terms of an agreement for incentives~~, the report must identify~~:

(a) ~~1.~~ The number of jobs actually created.

(b) ~~2.~~ The amount of capital investments actually made.

(c) ~~3.~~ The annual average wage paid.

(4) ~~(d)~~ For a project receiving economic development incentives approved by the department and receiving federal or local incentives, ~~the report must include~~ a description of the federal or local incentives, if available.

(5) ~~(c)~~ The ~~report must state the~~ number of withdrawn or terminated projects that did not fulfill the terms of their agreements with the department and, consequently, are not receiving incentives.

(6) For any agreements signed after July 1, 2010, findings and recommendations on the efforts of the department to ascertain the causes of any business's inability to complete its agreement made under s. 288.106.

(7) ~~(f)~~ The amount ~~report must include an analysis of the economic benefits, as defined in s. 288.005,~~ of tax refunds, tax credits, or other payments made to projects locating or expanding in state enterprise zones, rural communities, brownfield areas, or distressed urban communities. The report must include a separate analysis of the impact of such tax refunds on state enterprise zones designated under s. 290.0065, rural communities, brownfield areas, and distressed urban communities.

(8) The name of and tax refund amount for each business that has received a tax refund under s. 288.1045 or s. 288.106 during the preceding fiscal year.

(9) ~~(g)~~ An identification of ~~The report must identify~~ the target industry businesses and high-impact businesses.

(10) ~~(h)~~ A description of ~~The report must describe~~ the trends relating to business interest in, and usage of, the

various incentives, and the number of minority-owned or woman-owned businesses receiving incentives.

(11)~~(i)~~ An identification of ~~The report must identify~~ incentive programs not used and recommendations for program changes or program elimination ~~utilized~~.

(12) Information related to the validation of contractor performance required under s. 288.061.

(13) Beginning in 2014, a summation of the activities related to the Florida Space Business Incentives Act.

~~(2) The Division of Strategic Business Development within the department shall assist Enterprise Florida, Inc., in the preparation of the annual incentives report.~~

Section 27. Subsection (3) of section 288.92, Florida Statutes, is amended to read:

288.92 Divisions of Enterprise Florida, Inc.—

(3) ~~By October 15 each year,~~ Each division shall draft and submit an annual report for inclusion in the report required under 288.906 which details the division's activities during the previous ~~prior~~ fiscal year and includes ~~any~~ recommendations for improving current statutes related to the division's ~~related~~ area of responsibility.

Section 28. Subsection (5) of section 288.95155, Florida Statutes, is amended to read:

288.95155 Florida Small Business Technology Growth Program.—

(5) Enterprise Florida, Inc., shall prepare for inclusion in the annual report ~~of the department~~ required under s. 288.907 ~~by s. 288.095~~ a report on the financial status of the program. The report must specify the assets and liabilities of the

program within the current fiscal year and must include a portfolio update that lists all of the businesses assisted, the private dollars leveraged by each business assisted, and the growth in sales and in employment of each business assisted.

Section 29. Subsection (11) of section 290.0056, Florida Statutes, is amended to read:

290.0056 Enterprise zone development agency.—

(11) Before October 1 ~~December 1~~ of each year, the agency shall submit to the department for inclusion in the annual report required under s. 20.60 a complete and detailed written report setting forth:

(a) Its operations and accomplishments during the fiscal year.

(b) The accomplishments and progress concerning the implementation of the strategic plan or measurable goals, and any updates to the strategic plan or measurable goals.

(c) The number and type of businesses assisted by the agency during the fiscal year.

(d) The number of jobs created within the enterprise zone during the fiscal year.

(e) The usage and revenue impact of state and local incentives granted during the calendar year.

(f) Any other information required by the department.

Section 30. Section 290.014, Florida Statutes, is amended to read:

290.014 Annual reports on enterprise zones.—

(1) By October 1 ~~February 1~~ of each year, the Department of Revenue shall submit an annual report to the department detailing the usage and revenue impact by county of the state

incentives listed in s. 290.007.

(2) ~~By March 1 of each year, the department shall submit an annual report to the Governor, the Speaker of the House of Representatives, and the President of the Senate.~~ The annual report required under s. 20.60 shall include the information provided by the Department of Revenue pursuant to subsection (1) and the information provided by enterprise zone development agencies pursuant to s. 290.0056. In addition, the report shall include an analysis of the activities and accomplishments of each enterprise zone.

Section 31. Section 290.0411, Florida Statutes, is amended to read:

290.0411 Legislative intent and purpose of ss. 290.0401-290.048.—It is the intent of the Legislature to provide the necessary means to develop, preserve, redevelop, and revitalize Florida communities exhibiting signs of decline, ~~or~~ distress, or economic need by enabling local governments to undertake the necessary community and economic development programs. The overall objective is to create viable communities by eliminating slum and blight, fortifying communities in urgent need, providing decent housing and suitable living environments, and expanding economic opportunities, principally for persons of low or moderate income. The purpose of ss. 290.0401-290.048 is to assist local governments in carrying out effective community and economic development and project planning and design activities to arrest and reverse community decline and restore community vitality. Community development and project planning activities to maintain viable communities, revitalize existing communities, expand economic development and employment opportunities, and

improve housing conditions and expand housing opportunities, providing direct benefit to persons of low or moderate income, are the primary purposes of ss. 290.0401-290.048. The Legislature, therefore, declares that the development, redevelopment, preservation, and revitalization of communities in this state and all the purposes of ss. 290.0401-290.048 are public purposes for which public money may be borrowed, expended, loaned, pledged to guarantee loans, and granted.

Section 32. Subsections (1) and (6) of section 290.042, Florida Statutes, are amended to read:

290.042 Definitions relating to Florida Small Cities Community Development Block Grant Program Act.—As used in ss. 290.0401-290.048, the term:

(1) "Administrative closeout" means the notification of a grantee by the department that all applicable administrative actions and all required work of an existing ~~the~~ grant have been completed with the exception of the final audit.

(6) "Person of low or moderate income" means any person who meets the definition established by the department in accordance with the guidelines established in Title I of the Housing and Community Development Act of 1974, as amended, and the definition of the term "low- and moderate-income person" as provided in 24 C.F.R. s. 570.3.

Section 33. Subsections (2), (3), and (4) of section 290.044, Florida Statutes, are amended to read:

290.044 Florida Small Cities Community Development Block Grant Program Fund; administration; distribution.—

(2) The department shall adopt rules establishing guidelines for the distribution of ~~distribute such funds as loan~~

576-03039-13

~~guarantees and~~ grants to eligible local governments through ~~on the basis of~~ a competitive selection process.

(3) The department shall define ~~the~~ broad community development objectives consistent with national objectives established by 42 U.S.C. s. 5304 and 24 C.F.R. s. 570.483 ~~objective~~ to be achieved through the distribution of block grant funds under this section. ~~by the activities in each of the following grant program categories, and require applicants for grants to compete against each other in these grant program categories:~~

~~(a) Housing.~~

~~(b) Economic development.~~

~~(c) Neighborhood revitalization.~~

~~(d) Commercial revitalization.~~

~~(e) Project planning and design.~~

(4) The department may set aside an amount of up to 5 percent of the funds annually for use in any eligible local government jurisdiction for which an emergency or natural disaster has been declared by executive order. Such funds may only be provided to a local government to fund eligible emergency-related activities but must not be provided unless ~~for which~~ no other source of federal, state, or local disaster funds is available. The department may provide for such set-aside by rule. In the last quarter of the state fiscal year, any funds not allocated under the emergency-related set-aside must ~~shall~~ be distributed to unfunded applications from the most recent funding cycle.

Section 34. Section 290.0455, Florida Statutes, is amended to read:

576-03039-13

290.0455 Small Cities Community Development Block Grant Loan Guarantee Program; Section 108 loan guarantees.—

(1) The Small Cities Community Development Block Grant Loan Guarantee Program is created. The department shall administer the loan guarantee program pursuant to Section 108 ~~s. 108~~ of Title I of the Housing and Community Development Act of 1974, as amended, and as further amended by s. 910 of the Cranston-Gonzalez National Affordable Housing Act. The purpose of the Small Cities Community Development Block Grant Loan Guarantee Program is to guarantee, or to make commitments to guarantee, notes or other obligations issued by public entities for the purposes of financing activities enumerated in 24 C.F.R. s. 570.703.

(2) Activities assisted under the loan guarantee program must meet the requirements contained in 24 C.F.R. ss. 570.700-570.710 and may not otherwise be financed in whole or in part from the Florida Small Cities Community Development Block Grant Program.

(3) The department may pledge existing revenues on deposit or future revenues projected to be available for deposit in the Florida Small Cities Community Development Block Grant Program in order to guarantee~~, in whole or in part,~~ the payment of principal and interest on a Section 108 loan ~~made under the loan guarantee program~~.

(4) An applicant approved by the United States Department of Housing and Urban Development to receive a Section 108 loan shall enter into an agreement with the Department of Economic Opportunity which requires the applicant to pledge half of the amount necessary to guarantee the loan in the event of default.

576-03039-13

(5) The department shall review all Section 108 loan applications that it receives from local governments. The department shall review the applications ~~must submit all applications it receives to the United States Department of Housing and Urban Development for loan approval,~~ in the order received, subject to a determination by the department ~~determining~~ that each ~~the~~ application meets all eligibility requirements contained in 24 C.F.R. ss. 570.700-570.710~~,~~ and has been deemed financially feasible by a loan underwriter approved by the department. If the statewide maximum available for loan guarantee commitments established in subsection (6) has not been committed, the department may submit the Section 108 loan application to the United States Department of Housing and Urban Development with a recommendation that the loan be approved, with or without conditions, or be denied ~~provided that the applicant has submitted the proposed activity to a loan underwriter to document its financial feasibility~~.

(6)~~(5)~~ The maximum amount of an individual loan guarantee commitment that an ~~commitments that any~~ eligible local government may receive is ~~may be~~ limited to $5 ~~$7~~ million ~~pursuant to 24 C.F.R. s. 570.705,~~ and the maximum amount of loan guarantee commitments statewide may not exceed an amount equal to two ~~five~~ times the amount of the most recent grant received by the department under the Florida Small Cities Community Development Block Grant Program. The $5 million loan guarantee limit does not apply to loans guaranteed prior to July 1, 2013, that may be refinanced.

(7)~~(6)~~ Section 108 loans guaranteed by the Small Cities Community Development Block Grant Program ~~loan guarantee~~ ~~program~~

576-03039-13

must be repaid within 20 years.

(8)~~(7)~~ Section 108 loan applicants must demonstrate ~~guarantees may be used for an activity only if the local government provides evidence~~ to the department that the applicant investigated alternative financing services ~~were investigated~~ and the services were unavailable or insufficient to meet the financing needs of the proposed activity.

(9) If a local government defaults on a Section 108 loan received from the United States Department of Housing and Urban Development and guaranteed through the Florida Small Cities Community Development Block Grant Program, thereby requiring the department to reduce its annual grant award in order to pay the annual debt service on the loan, any future community development block grants that the local government receives must be reduced in an amount equal to the amount of the state's grant award used in payment of debt service on the loan.

(10) If a local government receives a Section 108 loan guaranteed through the Florida Small Cities Community Development Block Grant Program and is granted entitlement community status as defined in subpart D of 24 C.F.R. part 570 by the United States Department of Housing and Urban Development before paying the loan in full, the local government must pledge its community development block grant entitlement allocation as a guarantee of its previous loan and request that the United States Department of Housing and Urban Development release the department as guarantor of the loan.

~~(8) The department must, before approving an application for a loan, evaluate the applicant's prior administration of block grant funds for community development. The evaluation of~~

~~past performance must take into account the procedural aspects of previous grants or loans as well as substantive results. If the department finds that any applicant has failed to substantially accomplish the results proposed in the applicant's last previously funded application, the department may prohibit the applicant from receiving a loan or may penalize the applicant in the rating of the current application.~~

Section 35. Section 290.046, Florida Statutes, is amended to read:

(Substantial rewording of section. See s. 290.046, F.S., for present text.)

290.046 Applications for grants; procedures; requirements.—

(1) The department shall adopt rules establishing application procedures.

(2)(a) Except for economic development projects, each local government that is eligible by rule to apply for a grant during an application cycle may submit one application for a noneconomic development project during the application cycle. A local government that is eligible by rule to apply for an economic development grant may apply up to three times each funding cycle for an economic development grant and may have more than one open economic development grant.

(b) The department shall establish minimum criteria pertaining to the number of jobs created for persons of low or moderate income, the degree of private sector financial commitment, the economic feasibility of the proposed project, and any other criteria the department deems appropriate.

(c) The department may not award a grant until the department has completed a site visit to verify the information

contained in the application.

(3)(a) The department shall adopt rules establishing criteria for evaluating applications received during each application cycle and the department must rank each application in accordance with those rules. Such rules must allow the department to consider relevant factors, including, but not limited to, community need, unemployment, poverty levels, low and moderate income populations, health and safety, and the condition of physical structures. The department shall incorporate into its ranking system a procedure intended to eliminate or reduce any existing population-related bias that places exceptionally small communities at a disadvantage in the competition for funds.

(b) Project funding must be determined by the rankings established in each application cycle. If economic development funding remains available after the application cycle closes, funding will be awarded to eligible projects on a first-come, first-served basis until funding for this category is fully obligated.

(4) In order to provide the public with information concerning an applicant's proposed program before an application is submitted to the department, the applicant shall, for each funding cycle:

(a) Conduct an initial public hearing to inform the public of funding opportunities available to meet community needs and eligible activities and to solicit public input on community needs.

(b) Publish a summary of the proposed application which affords the public an opportunity to examine the contents of the

application and submit comments.

(c) Conduct a second public hearing to obtain public comments on the proposed application and make appropriate modifications to the application.

Section 36. Section 290.047, Florida Statutes, is amended to read:

(Substantial rewording of section. See s. 290.047, F.S., for present text.)

290.047 Establishment of grant ceilings and maximum administrative cost percentages.—

(1) The department shall adopt rules to establish:

(a) Grant ceilings.

(b) The maximum percentage of block grant funds that may be spent on administrative costs by an eligible local government.

(c) Grant administration procurement procedures for eligible local governments.

(2) An eligible local government may not contract with the same individual or business entity for more than one service to be performed in connection with a community development block grant, including, but not limited to, application preparation services, administrative services, architectural and engineering services, and construction services, unless it can be demonstrated by the eligible local government that the individual or business entity is the sole source of the service or is the responsive proposer whose proposal is determined in writing from a competitive process to be the most advantageous to the local government.

(3) The maximum amount of block grant funds that may be spent on architectural and engineering costs by an eligible

local government must be determined by a methodology adopted by the department by rule.

Section 37. Section 290.0475, Florida Statutes, is amended to read:

290.0475 Rejection of grant applications; penalties for failure to meet application conditions.—Applications received for funding are ineligible if ~~under all program categories shall be rejected without scoring only in the event that any of the following circumstances arise~~:

(1) The application is not received by the department by the application deadline.

(2) The proposed project does not meet one of the three national objectives as described ~~contained~~ in s. 290.044(3) ~~federal and state legislation~~.

(3) The proposed project is not an eligible activity as contained in the federal legislation.

(4) The application is not consistent with the local government's comprehensive plan adopted pursuant to s. 163.3184.

(5) The applicant has an open community development block grant, except as provided in s. 290.046(2)(a) and department rule ~~s. 290.046(2)(c)~~.

(6) The local government is not in compliance with the citizen participation requirements prescribed in ss. 104(a)(1) and (2) and 106(d)(5)(c) of Title I of the Housing and Community Development Act of 1984, s. 290.046(4), and department rule ~~rules~~.

~~(7) Any information provided in the application that affects eligibility or scoring is found to have been misrepresented, and the information is not a mathematical error~~

~~which may be discovered and corrected by readily computing available numbers or formulas provided in the application.~~

Section 38. Subsections (5), (6), and (7) of section 290.048, Florida Statutes, are amended to read:

290.048 General powers of department under ss. 290.0401-290.048.—The department has all the powers necessary or appropriate to carry out the purposes and provisions of the program, including the power to:

~~(5) Adopt and enforce strict requirements concerning an applicant's written description of a service area. Each such description shall contain maps which illustrate the location of the proposed service area. All such maps must be clearly legible and must:~~

~~(a) Contain a scale which is clearly marked on the map.~~

~~(b) Show the boundaries of the locality.~~

~~(c) Show the boundaries of the service area where the activities will be concentrated.~~

~~(d) Display the location of all proposed area activities~~.

~~(c) Include the names of streets, route numbers, or easily identifiable landmarks where all service activities are located.~~

(5) ~~(6)~~ Pledge community development block grant revenues from the Federal Government in order to guarantee notes or other obligations of a public entity which are approved pursuant to s. 290.0455.

~~(7) Establish an advisory committee of no more than 13 members to solicit participation in designing, administering, and evaluating the program and in linking the program with other housing and community development resources.~~

Section 39. Subsection (11) of section 331.3051, Florida

Statutes, is amended to read:

331.3051 Duties of Space Florida.—Space Florida shall:

(11) Annually report on its performance with respect to its business plan, to include finance, spaceport operations, research and development, workforce development, and education. Space Florida shall submit the report ~~shall be submitted~~ to the Governor, the President of the Senate, and the Speaker of the House of Representatives by November 30 ~~no later than September 1~~ for the previous ~~prior~~ fiscal year. The annual report must include operations information as required under s. 331.310(2)(e).

Section 40. Paragraph (e) of subsection (2) of section 331.310, Florida Statutes, is amended to read:

331.310 Powers and duties of the board of directors.—

(2) The board of directors shall:

(e) Prepare an annual report of operations as a supplement to the annual report required under s. 331.3051(11). The report must ~~shall~~ include, but not be limited to, a balance sheet, an income statement, a statement of changes in financial position, a reconciliation of changes in equity accounts, a summary of significant accounting principles, the auditor's report, a summary of the status of existing and proposed bonding projects, comments from management about the year's business, and prospects for the next year~~, which shall be submitted each year by November 30 to the Governor, the President of the Senate, the Speaker of the House of Representatives, the minority leader of the Senate, and the minority leader of the House of Representatives~~.

Section 41. Paragraphs (a) and (e) of subsection (30) of

section 443.036, Florida Statutes, is amended to read:

443.036 Definitions.—As used in this chapter, the term:

(30) "Misconduct," irrespective of whether the misconduct occurs at the workplace or during working hours, includes, but is not limited to, the following, which may not be construed in pari materia with each other:

(a) Conduct demonstrating conscious disregard of an employer's interests and found to be a deliberate violation or disregard of the reasonable standards of behavior which the employer expects of his or her employee. Such conduct may include, but is not limited to, willful damage to an employer's property that results in damage of more than $50; or theft of employer property or property of a customer or invitee of the employer.

(e)1. A violation of an employer's rule, unless the claimant can demonstrate that:

a.~~1.~~ He or she did not know, and could not reasonably know, of the rule's requirements;

b.~~2.~~ The rule is not lawful or not reasonably related to the job environment and performance; or

c.~~3.~~ The rule is not fairly or consistently enforced.

2. Such conduct may include, but is not limited to, committing criminal assault or battery on another employee, or on a customer or invitee of the employer; or committing abuse or neglect of a patient, resident, disabled person, elderly person, or child in her or his professional care.

Section 42. Paragraphs (b), (c), and (d) of subsection (1) of section 443.091, Florida Statutes, are amended to read:

443.091 Benefit eligibility conditions.—

(1) An unemployed individual is eligible to receive benefits for any week only if the Department of Economic Opportunity finds that:

(b) She or he has completed the department's online work registration ~~registered with the department for work~~ and subsequently reports to the one-stop career center as directed by the regional workforce board for reemployment services. This requirement does not apply to persons who are:

1. Non-Florida residents;

2. On a temporary layoff;

3. Union members who customarily obtain employment through a union hiring hall; or

4. Claiming benefits under an approved short-time compensation plan as provided in s. 443.1116.

5. Unable to complete the online work registration due to illiteracy, physical or mental impairment, a legal prohibition from using a computer, or a language impediment. If a person is exempted from the online work registration under this subparagraph, then the filing of his or her claim constitutes registration for work.

(c) To make continued claims for benefits, she or he is reporting to the department in accordance with this paragraph and department rules, and participating in an initial skills review, as directed by the department. Department rules may not conflict with s. 443.111(1)(b), which requires that each claimant continue to report regardless of any pending appeal relating to her or his eligibility or disqualification for benefits.

1. For each week of unemployment claimed, each report must,

576-03039-13

at a minimum, include the name, address, and telephone number of each prospective employer contacted, or the date the claimant reported to a one-stop career center, pursuant to paragraph (d).

2. The administrator or operator of the initial skills review shall notify the department when the individual completes the initial skills review and report the results of the review to the regional workforce board or the one-stop career center as directed by the workforce board. The department shall prescribe a numeric score on the initial skills review that demonstrates a minimal proficiency in workforce skills. The department, workforce board, or one-stop career center shall use the initial skills review to develop a plan for referring individuals to training and employment opportunities. The failure of the individual to comply with this requirement will result in the individual being determined ineligible for benefits for the week in which the noncompliance occurred and for any subsequent week of unemployment until the requirement is satisfied. However, this requirement does not apply if the individual ~~is able to affirmatively attest to being unable to complete such review due to illiteracy or a language impediment or~~ is exempt from the work registration requirement as set forth in paragraph (b).

3. Any individual who falls below the minimal proficiency score prescribed by the department in subparagraph 2. on the initial skills review shall be offered training opportunities and encouraged to participate in such training at no cost to the individual in order to improve his or her workforce skills to the minimal proficiency level.

4. The department shall coordinate with Workforce Florida, Inc., the workforce boards, and the one-stop career centers to

576-03039-13

identify, develop, and utilize best practices for improving the skills of individuals who choose to participate in training opportunities and who have a minimal proficiency score below the score prescribed in subparagraph 2.

5. The department, in coordination with Workforce Florida, Inc., the workforce boards, and the one-stop career centers, shall evaluate the use, effectiveness, and costs associated with the training prescribed in subparagraph 3. and report its findings and recommendations for training and the use of best practices to the Governor, the President of the Senate, and the Speaker of the House of Representatives by January 1, 2013.

(d) She or he is able to work and is available for work. In order to assess eligibility for a claimed week of unemployment, the department shall develop criteria to determine a claimant's ability to work and availability for work. A claimant must be actively seeking work in order to be considered available for work. This means engaging in systematic and sustained efforts to find work, including contacting at least five prospective employers for each week of unemployment claimed. The department may require the claimant to provide proof of such efforts to the one-stop career center as part of reemployment services. A claimant's proof of efforts may not include the same prospective employer at the same location for the duration of benefits, unless the employer has indicated since the time of the initial contact that the employer is hiring. The department shall conduct random reviews of work search information provided by claimants. As an alternative to contacting at least five prospective employers for any week of unemployment claimed, a claimant may, for that same week, report in person to a one-stop

389672

576-03039-13

career center to meet with a representative of the center and access reemployment services of the center. The center shall keep a record of the services or information provided to the claimant and shall provide the records to the department upon request by the department. However:

1. Notwithstanding any other provision of this paragraph or paragraphs (b) and (e), an otherwise eligible individual may not be denied benefits for any week because she or he is in training with the approval of the department, or by reason of s. 443.101(2) relating to failure to apply for, or refusal to accept, suitable work. Training may be approved by the department in accordance with criteria prescribed by rule. A claimant's eligibility during approved training is contingent upon satisfying eligibility conditions prescribed by rule.

2. Notwithstanding any other provision of this chapter, an otherwise eligible individual who is in training approved under s. 236(a)(1) of the Trade Act of 1974, as amended, may not be determined ineligible or disqualified for benefits due to enrollment in such training or because of leaving work that is not suitable employment to enter such training. As used in this subparagraph, the term "suitable employment" means work of a substantially equal or higher skill level than the worker's past adversely affected employment, as defined for purposes of the Trade Act of 1974, as amended, the wages for which are at least 80 percent of the worker's average weekly wage as determined for purposes of the Trade Act of 1974, as amended.

3. Notwithstanding any other provision of this section, an otherwise eligible individual may not be denied benefits for any week because she or he is before any state or federal court

389672

576-03039-13

pursuant to a lawfully issued summons to appear for jury duty.

4. Union members who customarily obtain employment through a union hiring hall may satisfy the work search requirements of this paragraph by reporting daily to their union hall.

5. The work search requirements of this paragraph do not apply to persons who are unemployed as a result of a temporary layoff or who are claiming benefits under an approved short-time compensation plan as provided in s. 443.1116.

6. In small counties as defined in s. 120.52(19), a claimant engaging in systematic and sustained efforts to find work must contact at least three prospective employers for each week of unemployment claimed.

7. The work search requirements of this paragraph do not apply to persons required to participate in reemployment services under paragraph (e).

Section 43. Subsection (13) is added to section 443.101, Florida Statutes, to read:

443.101 Disqualification for benefits.—An individual shall be disqualified for benefits:

(13) For any week with respect to which the department finds that his or her unemployment is due to a discharge from employment for failure without good cause to maintain a license, registration, or certification required by applicable law necessary for the employee to perform her or his assigned job duties. For purposes of this paragraph, the term "good cause" includes, but is not limited to, failure of the employer to submit information required for a license, registration, or certification; short-term physical injury which prevents the employee from completing or taking a required test; and

389672

576-03039-13

inability to take or complete a required test that is outside the employee's control.

Section 44. Paragraph (b) of subsection (4) of section 443.1113, Florida Statutes, is amended to read:

443.1113 Reemployment Assistance Claims and Benefits Information System.—

(4) The project to implement the Reemployment Assistance Claims and Benefits Information System is ~~shall be~~ comprised of the following phases and corresponding implementation timeframes:

(b) The Reemployment Assistance Claims and Benefits Internet portal that replaces the Florida Unemployment Internet Direct and the Florida Continued Claims Internet Directory systems, the Call Center Interactive Voice Response System, the Benefit Overpayment Screening System, the Internet and Intranet Appeals System, and the Claims and Benefits Mainframe System shall be deployed to full operational status no later than the end of fiscal year 2013-2014 ~~2012-2013~~.

Section 45. Subsection (5) of section 443.131, Florida Statutes, is amended to read:

443.131 Contributions.—

(5) ADDITIONAL RATE FOR INTEREST ON FEDERAL ADVANCES.—

(a) When the Unemployment Compensation Trust Fund has received advances from the Federal Government under the provisions of 42 U.S.C. s. 1321, each contributing employer shall be assessed an additional rate solely for the purpose of paying interest due on such federal advances. The additional rate shall be assessed no later than February 1 in each calendar year in which an interest payment is due.

389672

576-03039-13

(b) The Revenue Estimating Conference shall estimate the amount of ~~such~~ interest due on federal advances by ~~no later than~~ December 1 of the calendar year before ~~preceding~~ the calendar year in which an interest payment is due. The Revenue Estimating Conference shall, at a minimum, consider the following as the basis for the estimate:

1. The amounts actually advanced to the trust fund.

2. Amounts expected to be advanced to the trust fund based on current and projected unemployment patterns and employer contributions.

3. The interest payment due date.

4. The interest rate that will be applied by the Federal Government to any accrued outstanding balances.

(c) ~~(b)~~ The tax collection service provider shall calculate the additional rate to be assessed against contributing employers. The additional rate assessed for a calendar year is ~~shall be~~ determined by dividing the estimated amount of interest to be paid in that year by 95 percent of the taxable wages as described in s. 443.1217 paid by all employers for the year ending June 30 of the previous ~~immediately preceding~~ calendar year. The amount to be paid by each employer is ~~shall be~~ the product obtained by multiplying such employer's taxable wages as described in s. 443.1217 for the year ending June 30 of the previous ~~immediately preceding~~ calendar year by the rate as determined by this subsection. An assessment may not be made if the amount of assessments on deposit from previous years, plus any earned interest, is at least 80 percent of the estimated amount of interest.

(d) The tax collection service provider shall make a

separate collection of such assessment, which may be collected at the time of employer contributions and subject to the same penalties for failure to file a report, imposition of the standard rate pursuant to paragraph (3)(h), and interest if the assessment is not received on or before June 30. Section 443.141(1)(d) and (e) does not apply to this separately collected assessment. The tax collection service provider shall maintain those funds in the tax collection service provider's Audit and Warrant Clearing Trust Fund until the provider is directed by the Governor or the Governor's designee to make the interest payment to the Federal Government. Assessments on deposit must be available to pay the interest on advances received from the Federal Government under 42 U.S.C. s. 1321. Assessments on deposit may be invested and any interest earned shall be part of the balance available to pay the interest on advances received from the Federal Government under 42 U.S.C. s. 1321.

(e) Four months after ~~In the calendar year that~~ all advances from the Federal Government under 42 U.S.C. s. 1321 and associated interest are repaid, ~~if there are assessment funds in excess of the amount required to meet the final interest payment,~~ any ~~such~~ excess assessed funds in the Audit and Warrant Clearing Trust Fund, including associated interest, shall be transferred to ~~credited to employer accounts in~~ the Unemployment Compensation Trust Fund. Any assessment amounts subsequently collected shall also be transferred to the Unemployment Compensation Trust Fund ~~in an amount equal to the employer's contribution to the assessment for that year divided by the total amount of the assessment for that year, the result of~~

~~which is multiplied by the amount of excess assessed funds~~.

(f) If ~~However, if~~ the state is permitted to defer interest payments due during a calendar year under 42 U.S.C. s. 1322, payment of the interest assessment is ~~shall~~ not ~~be~~ due. If a deferral of interest expires or is subsequently disallowed by the Federal Government, either prospectively or retroactively, the interest assessment shall be immediately due and payable. Notwithstanding any other provision of this section, if interest due during a calendar year on federal advances is forgiven or postponed under federal law and is no longer due during that calendar year, no interest assessment shall be assessed against an employer for that calendar year, and any assessment already assessed and collected against an employer before the forgiveness or postponement of the interest for that calendar year shall be credited to such employer's account in the Unemployment Compensation Trust Fund. However, such funds may be used only to pay benefits or refunds of erroneous contributions.

(g) This subsection expires July 1, 2014.

Section 46. Paragraph (b) of subsection (2) and paragraph (a) of subsection (6) of section 443.151, Florida Statutes, are amended to read:

443.151 Procedure concerning claims.—

(2) FILING OF CLAIM INVESTIGATIONS; NOTIFICATION OF CLAIMANTS AND EMPLOYERS.—

(b) *Process.*—When the Reemployment Assistance Claims and Benefits Information System described in s. 443.1113 is fully operational, the process for filing claims must incorporate the process for registering for work with the workforce information systems established pursuant to s. 445.011. Unless exempted

under s. 443.091(1)(b)5., a claim for benefits may not be processed until the work registration requirement is satisfied. The department may adopt rules as necessary to administer the work registration requirement set forth in this paragraph.

(6) RECOVERY AND RECOUPMENT.—

(a) Any person who, by reason of her or his fraud, receives benefits under this chapter to which she or he is not entitled is liable for repaying those benefits to the Department of Economic Opportunity on behalf of the trust fund or, in the discretion of the department, to have those benefits deducted from future benefits payable to her or him under this chapter. In addition, the department shall impose upon the claimant a penalty equal to 15 percent of the amount overpaid. To enforce this paragraph, the department must find the existence of fraud through a redetermination or decision under this section within 2 years after the fraud was committed. Any recovery or recoupment of benefits must be commenced within 7 years after the redetermination or decision.

Section 47. Effective January 1, 2014, paragraph (a) of subsection (4) of section 443.151, Florida Statutes, is amended to read:

(4) APPEALS.—

(a) Appeals referees.—The Department of Economic Opportunity shall appoint one or more impartial salaried appeals referees in accordance with s. 443.171(3) to hear and decide appealed claims. An appeals referee must be an attorney in good standing with the Florida Bar, or must be successfully admitted to the Florida Bar within 8 months of his or her date of employment. A person may not participate on behalf of the

department as an appeals referee in any case in which she or he is an interested party. The department may designate alternates to serve in the absence or disqualification of any appeals referee on a temporary basis. These alternates must have the same qualifications required of appeals referees. The department shall provide the commission and the appeals referees with proper facilities and assistance for the execution of their functions.

Section 48. A person who is an employee of the Department of Economic Opportunity as of the effective date of this act who acts as an appeals referee and who has received the degree of Bachelor of Laws or Juris Doctor from a law school accredited by the American Bar Association, but is not licensed with the Florida Bar, must become successfully admitted to the Florida Bar by September 30, 2014.

Section 49. Subsection (1) of section 443.1715, Florida Statutes, is amended to read:

443.1715 Disclosure of information; confidentiality.—

(1) RECORDS AND REPORTS.—Information revealing an employing unit's or individual's identity obtained from the employing unit or any individual under the administration of this chapter, and any determination revealing that information, is confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution. This confidential information may be released in accordance with the provisions in 20 C.F.R. part 603. A person receiving confidential information who violates this subsection commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083. The Department of Economic Opportunity or its tax collection service provider may, however,

furnish to any employer copies of any report submitted by that employer upon the request of the employer and may furnish to any claimant copies of any report submitted by that claimant upon the request of the claimant. The department or its tax collection service provider may charge a reasonable fee for copies of these reports as prescribed by rule, which may not exceed the actual reasonable cost of the preparation of the copies. Fees received for copies under this subsection must be deposited in the Employment Security Administration Trust Fund.

Section 50. Subsection (1) of section 443.191, Florida Statutes, is amended to read:

443.191 Unemployment Compensation Trust Fund; establishment and control.—

(1) There is established, as a separate trust fund apart from all other public funds of this state, an Unemployment Compensation Trust Fund, which shall be administered by the Department of Economic Opportunity exclusively for the purposes of this chapter. The fund must ~~shall~~ consist of:

(a) All contributions and reimbursements collected under this chapter;

(b) Interest earned on any moneys in the fund;

(c) Any property or securities acquired through the use of moneys belonging to the fund;

(d) All earnings of these properties or securities;

(e) All money credited to this state's account in the federal Unemployment Compensation Trust Fund under 42 U.S.C. s. 1103; ~~and~~

(f) All money collected for penalties imposed pursuant to s. 443.151(6)(a); and

(g) Advances on the amount in the federal Unemployment Compensation Trust Fund credited to the state under 42 U.S.C. s. 1321, as requested by the Governor or the Governor's designee.

Except as otherwise provided in s. 443.1313(4), all moneys in the fund must ~~shall~~ be mingled and undivided.

Section 51. Paragraph (b) of subsection (3) and subsection (4) of section 446.50, Florida Statutes, are amended to read:

446.50 Displaced homemakers; multiservice programs; report to the Legislature; Displaced Homemaker Trust Fund created.—

(3) POWERS AND DUTIES OF THE DEPARTMENT OF ECONOMIC OPPORTUNITY.—

(b)1. The department shall enter into contracts with, and make grants to, public and nonprofit private entities for purposes of establishing multipurpose service programs for displaced homemakers under this section. Such grants and contracts must ~~shall~~ be awarded pursuant to chapter 287 and based on criteria established in the program ~~state~~ plan as provided in subsection (4) ~~developed pursuant to this section~~. The department shall designate catchment areas that together, must ~~shall~~ compose the entire state, and, to the extent possible from revenues in the Displaced Homemaker Trust Fund, the department shall contract with, and make grants to, entities that will serve entire catchment areas so that displaced homemaker service programs are available statewide. These catchment areas must ~~shall~~ be coterminous with the state's workforce development regions. The department may give priority to existing displaced homemaker programs when evaluating bid responses to the request for proposals.

2. In order to receive funds under this section, and unless specifically prohibited by law from doing so, an entity that provides displaced homemaker service programs must receive at least 25 percent of its funding from one or more local, municipal, or county sources or nonprofit private sources. In-kind contributions may be evaluated by the department and counted as part of the required local funding.

3. The department shall require an entity that receives funds under this section to maintain appropriate data to be compiled in an annual report to the department. Such data must ~~shall~~ include, but is ~~shall~~ not ~~be~~ limited to, the number of clients served, the units of services provided, designated client-specific information including intake and outcome information specific to each client, costs associated with specific services and program administration, total program revenues by source and other appropriate financial data, and client followup information at specified intervals after the placement of a displaced homemaker in a job.

(4) DISPLACED HOMEMAKER PROGRAM ~~STATE~~ PLAN.—

~~(a)~~ The Department of Economic Opportunity shall include in its annual report required under s. 20.60 a ~~develop a 3-year state~~ plan for the displaced homemaker program ~~which shall be updated annually~~. The plan must address, at a minimum, the need for programs specifically designed to serve displaced homemakers, any necessary service components for such programs in addition to those described ~~enumerated~~ in this section, goals of the displaced homemaker program with an analysis of the extent to which those goals are being met, and recommendations for ways to address any unmet program goals. Any request for

funds for program expansion must be based on the ~~state~~ plan.

~~(b)~~ The displaced homemaker program ~~Each annual update must address any changes in the components of the 3-year state~~ plan ~~and a report that~~ must include, but need not be limited to, the following:

(a)~~1.~~ The scope of the incidence of displaced homemakers;

(b)~~2.~~ A compilation and report, by program, of data submitted to the department pursuant to subparagraph (3)(b)3. ~~subparagraph 3.~~ by funded displaced homemaker service programs;

(c)~~3.~~ An identification and description of the programs in the state which receive funding from the department, including funding information; and

(d)~~4.~~ An assessment of the effectiveness of each displaced homemaker service program based on outcome criteria established by rule of the department.

~~(c) The 3-year state plan must be submitted to the President of the Senate, the Speaker of the House of Representatives, and the Governor on or before January 1, 2001, and annual updates of the plan must be submitted by January 1 of each subsequent year.~~

Section 52. Except as otherwise expressly provided in this act, this act shall take effect upon becoming a law.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations	
BILL:	CS/CS/SB 1024
INTRODUCER:	Appropriations Committee; Community Affairs Committee; and Commerce Committee
SUBJECT:	Department of Economic Opportunity
DATE:	April 25, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION

5.				
6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/CS/SB 1024 modifies several activities under the jurisdiction of the Department of Economic Opportunity (DEO or department). The bill creates the Gulf Coast Economic Corridor Act and establishes a nonprofit corporation administratively housed in the DEO to administer, invest, and award certain funds received by the state related to the Deepwater Horizon oil spill. The bill amends provisions related to: the Florida Small Business Development Center Network; the reporting and evaluation of economic development programs; economic development incentives; and the Reemployment Assistance Program. Several of the changes to the Reemployment Assistance Program conform Florida law to federal requirements.

The bill has a fiscal impact on both state revenues and expenditures. The Revenue Estimating Conference adopted an impact for the provisions of the bill related to the sales tax exemption for building materials in redevelopment projects and for the brownfield redevelopment bonus refund of positive $1.5 million (a combination of increased revenues and decreased expenditures) for FY 2013-2014, and adopted a cash impact of negative $120,000 (decreased revenues) for FY 2013-2014 for the provisions allowing the expansion of certain enterprise zones located in rural areas of critical economic concern. In Fiscal Year 2013-2014, the bill is projected to have fiscal impacts on the Office of Economic and Demographic Research (EDR), the Office of Program Policy Analysis and Government Accountability (OPPAGA), and the DEO, which are either

addressed in the development of the Fiscal Year 2013-2014 General Appropriations Act or can be handled within existing resources. See Section V.

Highlights of the bill include:

Reporting and Evaluations of Economic Development Programs

- Streamlines the process by which all incentive program applicants are evaluated by requiring that all applicants be evaluated for the "economic benefits" of the proposed project.
- Creates a rotating, 3-year review schedule for specified incentives and programs to be evaluated by the EDR and the OPPAGA.
- Consolidates required reports and reporting dates for various economic development program reports by the DEO, Enterprise Florida, Inc. (EFI), the Office of Film and Entertainment, and Space Florida.
- Creates a project-based reporting system to be developed by the DEO to allow the public to view information relating to economic development projects receiving state incentives.
- Moves the reporting date for the Florida New Markets Tax Credit program from April 1 to January 31.

Florida Small Business Development Center Network

- Aligns the network's statewide policies with the statewide strategic economic development plan and statewide goals of the university system.
- Specifies the composition of the network's statewide advisory board.
- Specifies the support services offered by the network.
- Requires the network to provide a match to any direct state appropriation.
- Requires the network to set up incentives for the regional centers to create jobs, institute best practices, and serve new areas of the state or underserved areas.
- Requires regular reporting by the network on programs, services, and outcomes, including information on the network's economic benefits to the state.

Economic Development Incentives

- Requires the DEO to evaluate each application for economic incentives for the economic benefits of the proposed award to the state, and the EDR is to review and report on the methodology used to calculate the economic benefit.
- Requires recipients of incentives under the Quick Action Closing Fund and the Innovation Incentive Programs to secure the award with a surety bond, letter of credit, or other security before any state funds can be disbursed.
- Provides that the DEO may waive the securitization requirements upon certifying specific information, in writing, to the Governor and the Legislature. The Legislative Budget Commission must approve any waiver granted by the DEO for a project exceeding $5 million.
- Specifies the meaning of the term "brownfield" for purposes of the sales tax exemption for building materials in redevelopment projects and for the brownfield redevelopment bonus refund.

- Allows enterprise zones that are between 15 and 20 square miles located in rural areas of critical economic concern to increase the zone by 3 square miles, and enterprise zones that are at least 20 square miles located in rural areas of critical economic concern to increase the zone by 5 square miles.

Reemployment Assistance Program

- Requires that an appeals referee employed by the DEO be an attorney in good standing with the Florida Bar. The DEO is permitted to fill the positions through attrition, beginning January 1, 2014.
- Prohibits a claimant from counting the same prospective employer at the same location for three consecutive weeks as proof of work search efforts, unless the employer indicates that it is hiring after the initial contact by the claimant.
- Provides that any excess assessments previously collected to pay interest on federal advances taken to cover unemployment compensation benefit claims be applied to federal interest payments due before additional assessments are made. The bill prohibits the collection of assessments if the amount on deposit is at least 80 percent of the estimated amount of interest.
- Assesses a 15 percent penalty on individuals who fraudulently collect unemployment compensation benefits, in order to comply with the requirements of federal law.
- Reenacts a provision that provides a penalty for disclosing confidential information that was inadvertently repealed in 2012 and required by federal law.
- Extends the deployment date of the Reemployment Assistance Claims and Benefits Information System to June 30, 2014.

Gulf Coast Economic Corridor Act

- Creates the Gulf Coast Economic Corridor Act;
- Creates Triumph Gulf Coast, Inc., a nonprofit corporation administratively housed within the DEO, to administer and invest certain funds received by the state related to the Deepwater Horizon oil spill;
- Directs Triumph Gulf Coast, Inc., to make awards to projects and programs in the 8 disproportionately affected counties that meet certain criteria and priorities.

This bill is effective upon becoming law, except as otherwise provided in the bill.

This bill substantially amends the following sections of the Florida Statutes: 20.60, 201.15, 212.08, 213.053, 220.194, 288.001, 288.005, 288.012, 288.061, 288.0656, 288.106, 288.107, 288.1081, 288.1082, 288.1088, 288.1089, 288.1253, 288.1254, 288.1258, 288.714, 288.7771, 288.903, 288.906, 288.907, 288.92, 288.95155, 288.9918, 290.0055, 290.0056, 290.014, 290.0455, 331.3051, 331.310, 443.036, 443.091, 443.101, 443.1113, 443.131, 443.151, 443.1715, 443.191, and 446.50.

This bill repeals sections 288.095(3)(c) and 288.904(6), Florida Statutes.

This bill creates sections 288.076, 288.80, 288.801, 288.81, 288.82, 288.83, 288.831, 288.832, and 288.84, Florida Statutes.

This bill creates three undesignated sections of the Florida Statutes.

II. Present Situation:

The Department of Economic Opportunity (DEO or department) is charged with supporting the economic and community development of Florida and facilitating the workforce development of Floridians. The department accomplishes these functions under three main divisions: Community Development, Strategic Business Development, and Workforce Services.[1]

The Division of Community Development manages the state's land use planning and community development. Under its responsibilities, the division provides technical assistance to local governments on a variety of land use planning topics, provides economic development assistance to rural and urban small businesses, and administers state and federal grant programs for community development, including grants to local governments for infrastructure and revitalization.[2]

The Division of Strategic Business Development is charged with attracting out-of-state businesses, as well as promoting the creation and expansion of Florida businesses. This division is also responsible for facilitating economic development partnerships.[3] Among other things, the division provides oversight and evaluation of the state's economic development incentive programs and coordinates with public and private entities, including Enterprise Florida, Inc. (EFI), to strategically plan for Florida's short-term and long-term economic development needs. The department contracts with Enterprise Florida, Inc. (EFI) to attract businesses to locate, expand, or remain in Florida.

Under Florida's current economic development framework, Enterprise Florida, Inc. (EFI) serves as the state's economic development organization, operating under a contract with the DEO. EFI is a public-private partnership that serves as the state's primary contact for businesses interested in pursuing relocation, expansion, or retention possibilities.[4] EFI works with businesses to match business needs with state and local resources, including developing an economic development incentive proposal for the prospective business. EFI performs an evaluation of each potential project to determine its prospective economic impact. After EFI has offered an incentive proposal to a business, EFI submits the incentive application to the DEO and the department evaluates the application based on the statutorily defined requirements for the incentive(s). The DEO makes the final determination of incentive eligibility, executes incentive contracts, and is responsible for contract monitoring and compliance.[5]

[3] *Id.*
[4] Section 288.901, F.S.
[5] Section 288.061, F.S.

On August 2, 2012, the DEO launched an online portal for the public to view economic development projects receiving state funds.[6] Generally, information related to all non-confidential projects is available on the portal. The portal does not include projects "that are confidential or approved but do not yet have an executed agreement and projects that have withdrawn or decided not to proceed with the incentive."[7] Projects whose confidentiality has expired will be added to the website quarterly. The portal website allows users to view projects by incentive program, by the county of the project's location, by the date of the project, and by the recipient business's name. Information provided includes the total state incentive awarded, payments to date, job requirements, and capital investment requirements.

The Division of Workforce Services administers the reemployment assistance program and partners with Workforce Florida, Inc. (WFI) and the state's 24 Regional Workforce Boards (RWBs) to administer a number of federally funded workforce development programs. The division also provides technical assistance to One-Stop Career Centers that directly provide employment and training services.[8]

According to the U.S. Department of Labor (USDOL), the Federal-State Unemployment Insurance Program provides unemployment benefits to eligible workers who are unemployed through no fault of their own (as determined under state law) and who meet the requirements of state law.[9] Individual states collect payroll taxes on a quarterly basis, which are used to pay benefits, while the Internal Revenue Service collects an annual federal payroll tax under the Federal Unemployment Tax Act (FUTA).[10] FUTA collections go to the states for costs related to the administration of state unemployment insurance and job service programs. In addition, the FUTA pays one-half the cost of extended unemployment benefits (during periods of high unemployment) and provides for a fund from which states may borrow, if necessary, to pay benefits.[11]

States are permitted to set benefit eligibility requirements, the amount and duration of benefits and the state tax structure, as long as state law does not conflict with the FUTA or the Social Security Act requirements. Florida's unemployment insurance program was created by the Legislature in 1937.[12] The program was rebranded as the "reemployment assistance program" in 2012.[13] The Department of Economic Opportunity (DEO) is responsible for administering Florida's reemployment assistance (RA) laws, primarily through its Division for Workforce

Services. The DEO contracts with the Florida Department of Revenue (DOR) to provide unemployment tax collection services.[14]

In Florida, Reemployment Assistance (RA) benefits are financed solely through contributions by employers – employers pay taxes on the first $8,000 of each employee's wages.[15] The calculation for determining each employer's tax rate is statutorily set, and takes into consideration an employer's "experience" (as former employees collect RA benefits, these benefits are charged to the employer), the balance of the Unemployment Compensation Trust Fund, and other factors.

The Internal Revenue Service charges each liable employer a federal unemployment tax of 6.0 percent of employees' annual wages.[16] If, however, a state program meets the federal requirements and has no delinquent federal loans, employers are eligible for up to a 5.4 percent tax credit, making the net tax rate 0.6 percent. Employers file an annual return with the Internal Revenue Service each January for taxes on the first $7,000 of employee's annual wages during the previous year.

The USDOL provides the DEO with administrative resource grants from the taxes collected from employers pursuant to the FUTA. These grants are used to fund the operations of the state's program, including the processing of claims for benefits by DEO, state unemployment tax collections performed by the DOR, appeals conducted by the DEO and the Reemployment Assistance Appeals Commission, and related administrative functions.

Unfortunately, due to the past few years of high unemployment in Florida, more funds have been paid out of the Unemployment Compensation Trust Fund than have been collected. The trust fund fell into deficit in August 2009, and since that time, the state has requested over $2 billion in federal advances in order to continue to fund unemployment compensation claims. Through voluntary repayment and partial loss of the federal tax credit, Florida has substantially paid down its debt.[17] It is estimated that all federal advances should be repaid by mid-2013.[18]

Federal advances accrue interest on a federal fiscal year basis (October to September), and such interest is due no later than September 30 each year. The interest rate for 2013 is 2.5765

[14] Section 443.1316, F.S.
[15] Nonprofit employers may choose to finance compensation through either the contributory method or the reimbursement method. A reimbursing employer is one who must pay the Unemployment Compensation Trust Fund on a dollar-for-dollar basis for the benefits paid to its former employees. The employer is otherwise not required to make payments to the trust fund. See s. 443.1312, F.S. State and local governments are reimbursing employers. Most employers are contributory employers. In January 2015, the "wage base" will be reduced to $7,000. See s. 443.1217(2)(a), F.S.
[16] 26 U.S.C. s. 3301.
[17] As of April 17, 2013, Florida had an outstanding advance balance of slightly less than $509 million. See U.S. Department of Treasury, Bureau of Public Debt, Treasury Direct's Title XII Advance Activities Schedule at http://treasurydirect.gov/govt/reports/tfmp/tfmp_advactivitiessched.htm (last visited Apr. 20, 2013).
[18] The most recent forecast by the Revenue Estimating Conference shows repayment of all federal advances by June 2013. On file with the Senate Commerce and Tourism Committee.

percent.[19] The Revenue Estimating Conference estimated on January 15, 2013, that the interest due for 2013 would be $9.6 million.[20]

The interest due on advances cannot be paid from funds from the Unemployment Compensation Trust Fund. In order to repay the interest, a state may make an appropriation from general revenue, issue bonds, or impose an assessment on employers.[21] In 2010, the Legislature imposed an additional assessment on employers to pay interest on federal advances.[22]

Section 443.131(5)(b), F.S., sets forth the calculations for the assessment. To determine the additional rate for the assessment, the formula divides the estimated amount of interest owed by 95 percent of total wages paid by employers for the previous year ending June 30. To determine an employer's payment amount, the formula multiplies an employer's taxable wages by the additional rate. DOR is required to calculate and bill the assessment prior to February 1 of the year, based upon the interest estimated by the Revenue Estimating Conference. An employer has 5 months, until June 30th, to pay the assessment. The assessments are paid into the DOR's Audit and Warrant Clearing Trust Fund and may earn interest. Any interest earned is part of the balance available to pay the interest due to the federal government.

On April 20, 2010, the Transocean drilling rig known as Deepwater Horizon exploded in the Gulf of Mexico with the loss of 11 missing and presumed dead crewmembers. An estimated 4.2 million barrels of crude oil spilled from the well into the Gulf waters before it was capped on July 15, 2010. BP p.l.c., one of the responsible parties, set up a process for individuals and businesses to submit claims for losses due to the oil spill. Currently, individual and business claims for economic and property damages and medical benefits are being processed through a court-ordered settlement process.[23] On July 6, 2012 President Obama signed the Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies (RESTORE) of the Gulf Coast Act of 2012.[24] The RESTORE Act requires 80 percent of the administrative and civil penalties paid by responsible parties under provisions of the federal Clean Water Act (formerly known as the Federal Water Pollution Control Act) be distributed to the Gulf Coast States through five programs outlined in the RESTORE Act.[25] The remaining 20 percent of the administrative and civil penalties paid by the responsible parties is deposited in the Oil Spill Liability Trust Fund, which can fund removal costs or damages resulting from discharges of oil.[26]

---

[19] The interest rate charged is equal to the fourth calendar quarter yield on the Unemployment Trust Fund for the previous year, capped at 10 percent. See U.S. Department of Treasury, Bureau of Public Debt, Treasury Direct's Unemployment Trust Fund Quarterly Yields at http://treasurydirect.gov/govt/rates/rates_tfr.htm (last visited Apr. 20, 2013).

[20] Revenue Estimating Conference forecast, available at http://edr.state.fl.us/content/revenues/reports/unemployment-compensation-trust-fund/UnemploymentCompensationTax2013InterestDueonFederalAdvancesRevised.pdf (last visited Apr. 20, 2013).

[21] The option of issuing bonds to repay the interest may be unavailable to Florida, See Art. VII, s. 11, Fla. Const.

In 2011, the Legislature addressed the negative economic impacts of the Deepwater Horizon oil spill.[27] For "disproportionally affected counties," the law provided for the tolling of permits and waiver of certain requirements for certain economic development programs.[28] The law also created s. 377.43, F.S., to direct how funds received by the state for damages caused by the Deepwater Horizon oil spill may be distributed and spent.[29] Section 377.43, F.S., provides that 75 percent of "[a]ny funds received by the state from any governmental or private entity for damages caused by the Deepwater Horizon oil spill" may be used in disproportionally affected counties and 25 percent may be used for other counties for the following purposes:

- Scientific research into the impact of the oil spill on fisheries and coastal wildlife and vegetation along the shoreline and the development of strategies to implement restoration measures suggested by that research;
- Environmental restoration of coastal areas damaged by the oil spill;
- Economic incentives directed to any county; and
- Initiatives to expand and diversify the economies of the counties.

Section 377.43, F.S., designates the Department of Environmental Protection as the lead agency for expending funds directed to environmental restoration and the DEO is the lead agency for expending funds directed to economic incentives and diversification efforts.

The Legislature also created the Commission on Oil Spill Response Coordination in 2011. The commission issued its final report in December 2012 for "Recommendations for Improving Oil Spill Planning and Response Capability in Florida".[30] The commission made several recommendations, including recommending that local governments acquire and maintain equipment and trained personnel to respond to disasters, and that local governments work with federal agencies to update response plans.

On April 23, 2013, Attorney General Pam Bondi announced that Florida has filed a lawsuit against HP and Halliburton seeking $5.48 billion in economic damages related to the oil spill.

III. Effect of Proposed Changes:

Evaluation of Economic Development Programs

The bill creates the Economic Development Programs Evaluation (evaluation). (**Section 1 – undesignated section of the Florida Statutes.**) EDR and OPPAGA are required to jointly present the evaluation to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the chairs of the legislative appropriations committees. The offices are

[27] Chapter 2011-142, L.O.F.
[28] The "disproportionally affected counties" are Bay, Escambia, Franklin, Gulf, Okaloosa, Santa Rosa, Walton and Wakulla counties.
[29] See 2011 Bill Summary for Senate Bill 2156 – Governmental Reorganization, available at http://www.flsenate.gov/Committees/BillSummaries/2011/html/2156BC (last visited April 24, 2013).
[30] Report available at http://www.dep.state.fl.us/deepwater horizon/files2/corc/122112_fcosrc_finalreport.pdf (last visited April 24, 2013). See also Department of Environmental Protection, website for the Commission on Oil Spill Response Coordination, available at http://www.dep.state.fl.us/deepwaterhorizon/commission.htm (last visited April 24, 2013).

required to evaluate specified economic development programs according to a 3-year review schedule. Programs are grouped together based on general program type. The evaluation schedule is as follows:

YEAR 1 (January 1, 2014) and every 3rd year	
Programs	**Florida Statute(s)**
Quick Action Closing Fund	s. 288.1088
Brownfield Redevelopment Bonus Tax Refund	s. 288.107
High Impact Sector Performance Grants	s. 288.108
Capital Investment Tax Credit	s. 220.191
Qualified Target Industry Tax Refund	s. 288.106
Innovation Incentive Program	s. 288.1089
Enterprise Zone Programs	ss. 220.181-182, 212.08(5), 212.096, 212.08(15)

YEAR 2 (January 1, 2015) and every 3rd year	
Programs	**Florida Statute(s)**
Entertainment Industry Financial Incentive Program	s. 288.1254
Entertainment Industry Sales Tax Exemption Program	s. 288.1258
The Florida Commission on Tourism/Visit Florida	ss. 288.122-124
Florida Sports Foundation	ss. 288.1162-1171

YEAR 3 (January 1, 2016) and every 3rd year	
Programs	**Florida Statute(s)**
Qualified Defense Contractor and Space Flight Business Tax Refund Program	s. 288.1045
Semiconductor, Defense, or Space Technology Sales Tax Exemption	s. 212.08(5)(j)
Military Base Protection	s. 288.980
Manufacturing & Spaceport Investment Incentive Program	s. 288.1083
Quick Response Training	s. 288.047
Incumbent Worker Training	s. 445.003
International Trade & Business Development	s. 288.826

EDR and OPPAGA are required to coordinate and submit a work plan for the evaluation to the President of the Senate and the Speaker of the House of Representatives by July 1, 2013.

The bill requires EDR to use specialized modeling techniques to evaluate the economic development programs listed above. EDR is required to evaluate each program for "economic benefits," as well as jobs created, the increase or decrease in personal income, and the impact on state GDP of each program using data from the previous 3 years. The data used to evaluate any tax credits, tax refunds, sales tax exemptions, cash grants, and similar programs is specified as being data from projects that are either fully complete, partially complete with future fund disbursal possible pending performance measures, or partially completed with no future fund disbursal possible as a result of a business's inability to meet performance measures. EDR is required to provide an explanation of the model used in its analysis, and the model's key assumptions. EDR is permitted to use another model if it explains why another model is more appropriate.

The OPPAGA is required to evaluate each program for effectiveness and value to Florida taxpayers, and to provide recommendations to the Legislature based on its evaluation of each program. OPPAGA's analysis is required to include information from interviews, reviews of relevant reports, or other data.

The bill gives EDR and the OPPAGA access to all data necessary to complete the Economic Development Programs Evaluation, including confidential data. The offices may coordinate data collection and analysis. (**Section 6, amends s. 213.053, F.S.**)

The bill updates requirements for the Annual Incentives Report currently produced by EFI (**Section 29, amends s. 288.907, F.S.**) and requires the report to be a joint report by the DEO and EFI. The agencies will no longer be required to report on the "economic benefits" of each project or program in the Annual Incentives Report. The evaluation of "economic benefits" will now be conducted as part of the Economic Development Programs Evaluation, conducted jointly by EDR and the OPPAGA. See above and discussions below under "Evaluation of Incentive Program Applicants" and "Return on Investment Reporting for Economic Development Programs."

"Jobs" is defined to ensure that all jobs data is reported and evaluated in the same manner across programs. The term means only full-time equivalent positions, and excludes any temporary construction jobs involved with the construction of facilities for a project. (**Section 9, amends s. 288.005, F.S.**)

The bill repeals a required OPPAGA report on the Innovation Incentive Program. (**Section 20, amends s. 288.1089(11)(b), F.S.**) This report is duplicative as a result of the evaluation of the Innovation Incentive Program required as part of the Economic Development Programs Evaluation created in Section 1 of the bill.

A duplicative analysis of EFI's return on the public's investment is repealed. (**Section 27, repeals s. 288.904(6), F.S.**) Current law requires the analysis to be included as part of the EFI annual report. Currently, section 20.601(3), F.S., requires the OPPAGA to conduct a similar analysis in 2016.

Agency Reporting Consolidation

Presently, there are multiple reporting requirements for the state's various economic development programs and activities. Some entities are required to submit reports to the Governor, Legislature, and/or the department and the report due dates lack uniformity. The bill consolidates several independent program reports and reporting dates.

Department of Economic Opportunity's Annual Report

The bill makes several changes to the department's annual report. (**Section 2, amends s. 20.60, F.S.**) The report's due date is changed from January 1st to November 1st. The department is directed to include supplements to its annual report on several programs. As a result, the independent due dates for each of the reports are deleted. The programs to be included in the department's annual report are:

- Displaced Homemaker program. (**Section 49, amends s. 446.50, F.S.**)
- Enterprise Zone program. (Sections 29 and 30).
  - Changes the due date of each enterprise zone development agency's report to the department from December 1st to October 1st. (**Section 34, amends s. 290.0056, F.S.**)
  - Changes the due date of the Department of Revenue's report on the usage and revenue impacts, by county, of state incentives relating to enterprise zones from February 1st to October 1st. (**Section 35, amends s. 290.014, F.S.**)
- Economic Gardening Business Loan Pilot Program. (**Section 17, amends s. 288.1081, F.S.**)
- Economic Gardening Technical Assistance Pilot Program. (**Section 18, amends s. 288.1082, F.S.**)
- Black Business Loan Program. (**Section 24, amends s. 288.714, F.S.**)
- Rural Economic Development Initiative. (**Section 12, amends s. 288.0656, F.S.**)

EFI's Annual Report

The bill requires EFI to include, as a supplement in its annual report, information on: (**Section 28, amends s. 288.906, F.S.**)

- State of Florida International Offices. (**Section 10, amends s. 288.012, F.S.**)
- Florida Export Finance Corporation annual report. (**Section 25, amends s. 288.7771, F.S.**)

Additionally, under current law EFI division reports are due independently on October 1st, for inclusion in EFI's annual report. The bill repeals this independent due date. (**Section 30, amends s. 288.92, F.S.**)

Annual Incentives Report

The bill revises the duties of EFI to require the Annual Incentives Report to be a joint report by EFI and the DEO. (**Section 26, amends s. 288.903, F.S.**) The report is currently produced independently by EFI using data supplied by the department.

Information on the Economic Development Trust Fund is required to be included in the Annual Incentives Report. The information is currently required under s. 288.095(3)(c), F.S. The bill repeals this paragraph (**Section 14**) and incorporates the information into the Annual Incentives Report. (**Section 29, amends s. 288.907, F.S.**) The information includes:

- The types of projects supported;
- Tax refunds or other payments made out of the Economic Development Incentives Account for each project supported;
- A separate analysis of the impact of tax refunds on Enterprise Zones, rural communities, brownfield areas, and distressed urban communities; and
- The name and tax refund amounts for each business receiving a qualified target industry or qualified defense space contractor and space flight business tax refund.

Several other stand-alone program reports are incorporated as supplements to the Annual Incentives Report. As a result, the independent due dates for the reports are deleted. The reports required to be included as supplements to the Annual Incentives Report include:

- Florida Space Business Incentives Act annual report (**Section 7, amends s. 220.194, F.S.**), beginning in 2014.
- Information on the causes of a business's failure to complete its qualified target industry incentive agreement. (**Section 15, amends s. 288.106, F.S.**)
- Information relating to Innovation Incentive Program recipients, including the evaluation as to whether the recipients were catalysts for additional economic development. (**Section 20, amends s. 288.1089(11)(a), F.S.**)
- Florida Small Business Technology Growth Program annual report. (**Section 31, amends s. 288.95155, F.S.**)

Validation of contractor performance for all incentive programs is currently required as part of the Annual Incentives Report. The bill adds a cross-reference to s. 288.061, F.S., clarifying that validation of contractor performance is to be included in the Annual Incentives Report. (**Section 29, amends s. 288.907, F.S.)**

The bill clarifies that the DEO, rather than EFI, is responsible for validating contractor performance for the Quick Action Closing Fund incentives and that such information is to be included in the Annual Incentives Report. Current law requires the contractor performance validation to be reported within 6 months of completion. This requirement is deleted by the bill. (**Section 19, amends s. 288.1088, F.S.**)

Validation of contractor performance for the Innovation Incentive Program recipients is required to be included in the Annual Incentives Report. The current law requirement that a report on contractor performance be submitted within 90 days of an agreement's conclusion is repealed. (**Section 20, amends s. 288.1089(9), F.S.**)

Office of Film and Entertainment's Annual Report

The bill changes the due date of the Office of Film and Entertainment's (OFE) Annual Report on the entertainment industry financial incentive program from October 1st to November 1st. (**Section 22, amends s. 288.1254, F.S.**) The OFE's Annual Report is also required to include the OFE expenditures report (**Section 21, amends s. 288.1253, F.S.**) and the report detailing the relationship between tax exemptions and incentives to industry growth. (**Section 23, amends s. 288.1258, F.S.**)

Space Florida's Annual Report

The bill changes the due date for the Space Florida annual performance report from September 1st to November 30th (**Section 37, amends s. 331.3051, F.S.**), and requires Space Florida's annual operations report to be included in the performance report. (**Section 38, amends s. 331.310, F.S.**)

New Markets Tax Credit Program
Section 32 amends s. 288.9918, F.S., to change the due date for a community development entity to issue its annual report to the DEO from April 30 to January 31. The bill requires the annual report to include information on investments made under the New Markets Tax Credit program in the preceding calendar year. Due to financial reporting, the report due date for annual financial statements of a community development entity remains April 30 each year.

Community Planning – Use of Documentary Stamp Tax Distribution

Section 3 amends s. 201.15(1)(c), F.S., to delete obsolete language and clarify that the share of the documentary stamp distribution that DEO receives in the Grants and Donations Trust Fund must be used by the Community Planning Program to provide technical assistance to local governments.

Brownfields

In 1997, the Legislature enacted the Brownfields Redevelopment Act (Act).[31] The act provides financial and regulatory incentives to encourage voluntary remediation and redevelopment of brownfield sites[32] in order to improve public health and reduce environmental hazards.[33] The act also created the Brownfield Redevelopment Bonus Refund to provide a refund to qualified businesses for new jobs that are created in a brownfield area.[34, 35] The act identifies specific

[31] Chapter 97-277, Laws of Fla.
[32] Section 376.79(3), F.S., defines "brownfield sites" as real property, the expansion, redevelopment, or reuse of which may be complicated by actual or *perceived* environmental contamination.
[33] DEP, *Florida Brownfields Redevelopment Act-1998 Annual Report, available at* http://www.dep.state.fl.us/waste/quick_topics/publications/wc/brownfields/leginfo/1998/98final.pdf (last visited Feb. 15, 2013).
[34] Section 376.79(4), F.S., defines "brownfield area" as a contiguous are of one or more brownfield site, some of which may not be contaminated, and which has been designated by a local government by resolution. Such areas may include all or portions of community redevelopment area, enterprise zones, empowerment zones, other such designated economically deprived communities and areas, and Environmental Protection Agency-designated brownfield pilot projects.
[35] Section 288.107, F.S.

procedures and criteria for the designation of a brownfield area by local governments,[36] counties,[37] and municipalities.[38] Brownfield areas are also eligible for a number of other incentives created throughout the years.

Section 4 amends s. 212.08, F.S., to specify that a redevelopment project is eligible for the sales tax exemption if it is located in a brownfield site for which a rehabilitation agreement with the Department of Environmental Protection (DEP), or a local government delegated by the DEP, has been executed under s. 376.80, F.S., or any abutting real property parcel within a brownfield area designated by the local government.

Section 16 amends s. 288.107, F.S., to specify that in order to be eligible for the brownfield redevelopment bonus refund for a qualified target industry agreement, the jobs must be created in a brownfield area eligible for bonus refunds. The term "brownfield area eligible for bonus refunds" is defined as a brownfield site for which a rehabilitation agreement with the DEP, or a local government delegated by the DEP, has been executed under s. 376.80, F.S., or any abutting real property parcel within a brownfield area designated by the local government.

Section 5 provides that amendments to ss. 212.08 and 288.107, F.S., do not apply to building materials purchased before the effective date of the bill, or to contracts for brownfield redevelopment bonus refunds executed by the DEO or EFI prior to the bill's effective date. (**Undesignated section of the Florida Statutes**)

Enterprise Zones

The Florida Enterprise Zone Program was created in 1982 to encourage economic development in economically distressed areas of the state by providing incentives and inducing private investment. Currently, Florida has 65 enterprise zones.[39] The DEO is responsible for approving applications for enterprise zones, and also approves changes in enterprise zone boundaries when authorized by the Legislature. Florida's enterprise zones qualify for various state and local incentives from credits for corporate income tax and exemptions from sales and use tax. The program expires on December 31, 2015.[40]

Section 33 amends s. 290.0055, F.S., to allow certain enterprise zones to expand. A local government may apply to DEO to expand its enterprise zone by December 31, 2013, for any enterprise zone that is:

- At least 15 square miles and less than 20 square miles and includes a portion of a rural area of critical economic concern (RACEC) may apply to expand the boundary of the enterprise zone up to 3 square miles.
- At least 20 square miles and includes a portion of the state designated as a RACEC may apply to expand the boundary of the enterprise zone up to 5 square miles.

[36] Section 376.80, F.S.
[37] Section 125.66, F.S.
[38] Section 166.041, F.S.
[39] For more information on enterprise zones, see Appropriations Subcommittee on Finance and Tax, Meeting Packet for March 6, 2013, p. 82, available at http://www.flsenate.gov/Committees/Show/AFT/ (last visited Apr. 21, 2013).
[40] Section 11, ch. 2005-287, L.O.F.

Florida Small Business Development Center Network

Section 8 significantly amends s. 288.001, F.S., relating to the Florida Small Business Development Center Network (network). The bill provides that the purpose of the network is to serve emerging and established private, for-profit businesses that maintain a place of business in Florida. Florida's network is a consortium of regional small business development centers throughout the state that offer consulting services, training opportunities, and access to other resources and information to current and prospective small businesses.

The national Small Business Development Center program is administered by the U.S. Small Business Administration (SBA) and federal laws and regulations require that various state-level programs be located at higher education institutions. Regional centers are based at several of Florida's colleges and universities, with a total of 39 locations in the state. The network's state headquarters are located at the University of West Florida (UWF).[41]

Statewide Director

The bill requires the statewide director to:

- Operate the network in compliance with federal law and Board of Governors Regulation 10.015;
- Consult with the Board of Governors, the DEO, and the network's statewide advisory board to ensure that the network's policies and programs align with the statewide economic development plan and the statewide goals of the State University System;
- Develop support services, in consultation with the advisory board, to be delivered through regional small business development centers;
- Develop a pay-per-performance incentive for regional small business development centers, in coordination with the center's host institution;
- Develop annual programs that support small business assistance best practices, enhance network participation among state universities and colleges, and ensure that network services are offered statewide, especially in rural and underserved areas;
- Update the Board of Governors, the DEO, and the advisory board quarterly on the network's performance, including aggregate information on businesses assisted by the network; and
- Present an annual report on June 30th to the President of the Senate and the Speaker of the House of Representatives on the network's progress and outcomes for the previous fiscal year, including the network's economic benefit to the state.

Statewide Advisory Board

Federal requirements do not specify how members of the network's statewide advisory board are selected or the size of the board, but the board must have members who are small business owners and representative of the program's entire Service Area (in Florida, the Service Area is the entire state). The bill codifies the current membership of the statewide advisory board, with the exception of two additional members to be appointed by the network's statewide director.

[41] See History of the Florida SBDC Network, available at http://floridasbdc.org/history.php (last visited March 26, 2013).

The bill requires the statewide advisory board to consist of 19 members from across the state, with at least twelve members being representatives of the private sector who are knowledgeable of the needs and challenges of small businesses, as follows:

- Three members from the private sector appointed by the Governor - two of whom initially serve 2-year terms.
- Three members from the private sector appointed by the President of the Senate - one of whom initially serves a 2-year term.
- Three members from the private sector appointed by the Speaker of the House of Representatives - one of whom initially serves a 2-year term.
- Three members appointed by the statewide director - one of whom initially serves a 2-year term.
- One member appointed by the host institution (the University of West Florida).
- The President of Enterprise Florida, Inc., or his or her designee.
- The Chief Financial Officer or his or her designee.
- The President of the Florida Chamber of Commerce or his or her designee.
- The Small Business Development Center Project Officer from the U.S. Small Business Administration's South Florida District Office or his or her designee.
- The Executive Director of the National Federation of Independent Businesses, Florida or his or her designee.
- The Executive Director of the Florida United Business Association or his or her designee.

The bill requires that minority and gender representation be considered when making appointments to the statewide advisory board.

The bill sets a member's term on the board at 4 years, except for five members who initially serve 2 year terms (as specified above). Statewide advisory board members may be reappointed to a subsequent term. Board members cannot receive compensation for serving on the board but may receive reimbursement for per diem and travel expenses as provided in s. 112.061, F.S.

Small Business Support Services

The bill specifies that the statewide director and the statewide advisory board must develop support services that are delivered by regional small business development centers. Support services must target the needs of businesses that employ fewer than 100 persons and demonstrate an assessed capacity to grow in employment or revenue. Businesses receiving support services must agree to participate in assessments of services received. Information requested of participating businesses includes demographic information, changes in employment and sales, debt and equity capital attained, government contracts obtained, and other information as required by the host institution (UWF).

The bill requires regional small business development centers to provide businesses with support services that include, but are not limited to providing information or research, consulting, educating, or otherwise assisting businesses in specific activities. These activities largely codify the support services already offered by the network and include:

- Planning related to starting-up, operating, or expanding a small business.
- Developing and implementing strategic or business plans.
- Developing the financial literacy of existing businesses.
- Developing and implementing plans for existing businesses to access or expand to new or existing markets.
- Supporting access to capital for business investment and expansion, including providing technical assistance related to obtaining surety bonds.
- Assisting existing business with natural or man-made disaster planning.

Additional State Funds

The bill requires the network to provide a match equal to the amount of any direct legislative appropriation. The match provided by the network must consist of 50 percent cash, with the remaining 50 percent coming from any allowable combination of additional cash, in-kind contributions or indirect costs. The 50 percent cash requirement may include funds from federal or other non-state funding sources designated for the network.

If the host institution (UWF) receives additional state funding specifically designated for the network, half of the funds must be used to establish a pay-per-performance incentive for regional small business development centers. The statewide director, in coordination with the host institution (UWF), will develop the pay-per-performance incentive. The incentive must be distributed based data collected from businesses as provided in the bill. The distribution formula must include recognition of the gross number of jobs created annually by each regional center and the number of jobs created per support service hour. Pay-per-performance incentive funds received by regional centers must be used to supplement operations and services provided by regional centers.

The remaining half of any additional state funds received by the host institution (UWF) for the network must be distributed by the statewide director, in coordination with the advisory board, for the purposes of:

- Ensuring support services are available statewide, especially in underserved and rural areas of the state;
- Encouraging colleges and universities to participate in the program; and
- Encouraging the adoption of small business assistance best practices by regional centers.

The network must announce the annual amount of available funds for each program, as well as any performance expectations or other requirements. The statewide director must present applications and recommendations to the statewide advisory board. The advisory board must approve applications and publicly post approved applications. At a minimum, programs must include new regional small business development centers and awards for the top six regional centers that adopt best practices, as determined by the advisory board. Detailed information about best practices must be made available to regional centers for voluntary implementation.

A regional center cannot receive an award from this allocation of additional state funds if the statewide director has found that the regional center has:

- Performed poorly,
- Engaged in improper activity affecting the operation and integrity of the network, or
- Failed to follow the rules and procedures set forth in the laws, regulations and policies governing the network.

Additional state funds awarded may not reduce matching funds dedicated to the small business development centers.

Reporting Requirements

The bill requires that the statewide director update the Board of Governors, the Department of Economic Opportunity, and the advisory board each quarter on the network's progress and outcomes, including aggregate information on businesses assisted by the network. In addition to quarterly updates, the statewide director and the advisory board must produce an annual report, due by June 30th, to the President of the Senate and the Speaker of the House of Representatives. The report must include: the information provided quarterly; information regarding network services and programs; the use of all federal, state, local, and private funds received by the network and the small business development centers, including the additional state funds discussed above; and the network's economic benefit to the state. The report must include specific information on performance-based metrics used by the network and the methodology used to calculate the network's economic benefit to the state.

Evaluation of Incentive Program Applicants

The bill requires that the department evaluate each economic development incentive application for the "economic benefits" of the proposed award of state incentives for the project. The bill provides that "economic benefits" has the same meaning as in s. 288.005, F.S. Section 288.005(1), F.S., provides:

> "Economic benefits" means the direct, indirect, and induced gains in state revenues as a percentage of the state's investment. The state's investment includes state grants, tax exemptions, tax refunds, tax credits, and other state incentives.

EDR must review and evaluate the methodology and model used by the DEO to calculate the economic benefits. The department and EDR are authorized to develop an amended definition of "economic benefits" to evaluate applications. EDR must submit a report on the methodology and model by September 1, 2013, and every third year thereafter, to the President of the Senate and the Speaker of the House of Representatives. (**Section 11, amends s. 288.061, F.S.**)

The bill deletes similar language requiring an up-front analysis of "economic benefits" for a qualified target industry (QTI) tax refund application. The bill requires that applications for a QTI incentive be evaluated to determine if an applicant has previously received economic development incentives in other states, and if applicable, the outcome of those agreements.

Current law requires that QTI tax refund applications be evaluated for their *effect* on the *unemployment rate* in the county where a project will be located. The bill revises this requirement to require that applications be evaluated for the *expected effect* on the *unemployed and underemployed* in the county where a project will be located. The bill deletes the existing requirement that a QTI tax refund application be evaluated for the expected long-term commitment to economic growth and employment in Florida. The bill also expands the review of a business's past activities in other states to include a review of economic development incentives and the results of any incentive agreements. (**Section 15, amends s. 288.106, F.S.**)

Current law requires that a project qualifying for the Innovation Incentive Program as a research and development program or as an alternative and renewable energy project demonstrate that the project will provide a *break-even "return on investment"* to the state over a 20-year period. The term "return on investment" as it relates to the Innovation Incentive Program is not defined under current law.

The bill changes this requirement to a demonstration that the project will provide a *cumulative break-even "economic benefit"* within a 20-year period. This change creates consistent terminology and ensures applicants for the Innovation Incentive Program will be evaluated similarly to other incentive programs. (**Section 20, amends s. 288.1089(4)(b) and (d), F.S.**)

Securitization of Economic Development Incentives

The Quick Action Closing Fund and the Innovation Incentive Program provide financial incentives that can be used in highly competitive negotiations or to attract high-value research and development, innovation business, and alternative and renewal energy projects. The funds are generally distributed prior to the project's completion. Currently, the department uses payment schedules and sanctions, including clawbacks, to address a business's failure to comply with performance conditions.

Section 11 amends s. 288.061, F.S., to require that applicants for Quick Action Closing Fund and Innovation Incentive Program economic development incentives obtain a surety bond for the entire amount of the award before any state funds can be disbursed. Up to half of the premium payment on the surety bond may be paid from the award amount, not to exceed 3 percent of the award.

The DEO is authorized to waive the surety bond requirement by certifying specific information, in writing, to the Governor, President of the Senate, and Speaker of the House of Representatives. If the DEO waives the surety bond requirement, the applicant must secure the award through an irrevocable letter of credit, cash or securities held in trust, or a secured transaction in collateral. The DEO may waive the surety bond or alternate security requirement if the DEO certifies to the Governor and the chair and vice-chair of the Legislative Budget Commission that the applicant has the financial ability to fulfill the requirements of the contract; has previously demonstrated timely compliance with any clawback provisions, if the applicant has received any incentives; and that the waiver is in the best interest of the state.

Return on Investment Reporting for Economic Development Programs

The bill establishes an economic development incentive review and online publication process to be implemented by DEO. **Section 13** creates s. 288.076, F.S., relating to reporting for economic development programs, requiring the DEO to maintain a website that publishes information on economic development incentive awards to businesses. Information must be made available in an easy to use format that allows users to view and retrieve all required information at once. The DEO has 48 hours after the expiration of the period of confidentiality to publish the following information on each project:

Projected Economic Benefits

- The economic benefits *projected* to occur for each project at the time of the initial project award date.

Project Information

- The program or programs through which state investment is being made. "State investment" is defined by the bill as any state grants, tax exemptions, tax refunds, tax credits, or other state incentives awarded to a business under a program administered by the DEO, including the capital investment tax credit.
- The maximum potential cumulative value of the state investment in a project.
- The target industries[42] or high-impact sectors[43] that the project falls under.
- The county or counties that may be impacted by the project.
- The total cumulative value of any local financial commitment and in-kind support for the project.

Participant Business Information

- The location of the participant business's headquarters or the headquarters of the parent company if it is a subsidiary. "Participant business" is defined by the bill to mean an employing unit, as defined in s. 443.036, F.S., that has entered into an agreement with the DEO to receive a state investment.
- The firm size class of the participant business, or where owned by a parent company, the firm size class of the participant business's parent company, using firm size classes established by the U.S. Department of Labor's Bureau of Labor Statistics.
- Whether the participant business qualifies as a small business under s. 288.703, F.S.
- The date of the project award.
- The expected duration of the contract.
- The anticipated date when the participant business will claim its last state investment.

Project Evaluation Criteria

- The economic benefits generated by the project.

[42] Section 288.106(2)(q), F.S.
[43] Section 288.108(6)(a), F.S.

- The net indirect and induced incremental jobs to be generated by the project. The bill states that "jobs" has the same meaning as in s. 288.106(2)(i), F.S., which means full-time equivalent positions, including positions obtained from a temporary employment agency or employee leasing company, or through a union agreement or coemployment under a professional employer organization agreement. Temporary construction jobs are not included in the definition.
- The net indirect and induced incremental capital investment to be generated by the project.

Project Performance Goals

- The incremental direct jobs attributable to the project, identifying the number of jobs generated and the number of jobs retained.
- The number of jobs generated and the number of jobs retained by the project.
- For projects that begin after October 21, 2013, the DEO must report the median annual wage of persons holding such jobs.
- The incremental direct capital investment in the state generated by the project.

Total State Investment to Date

- The total amount of state investment disbursed to the participant business to date, itemized by incentive program.

Additionally, each project's economic benefits must be published on the DEO website within 48 hours after the conclusion of an agreement between a participant business and the DEO. The DEO is required to use the methodology and formulas developed by the EDR to determine each project's economic benefits. This ensures a project's total economic benefits that actually occurred are published, allowing visitors of the website to view and compare the information with projected economic benefits at the time of the project's award date. The DEO is directed to publish a description of the methodology developed by the EDR to calculate economic benefits of a project, and must publish the information on its website within 48 hours after receiving it from the EDR.

The bill requires the DEO to update information on its website for each project annually from its award date. Verified results must be updated for each project, including information on Project Information, Participant Business Information, Project Evaluation Criteria, Project Performance Goals, and Total State Investment discussed above. The DEO must publish the date the information was last updated on the website.

Within 48 hours after the expiration of the period of confidentiality, the DEO must publish the contract or award agreement with the participant business on its website. The agreement may be redacted to protect a participant business from disclosure of any information that remains confidential or exempt by law.

The bill requires the DEO to publish all information required above for all projects completed prior to October 1, 2013. The DEO has until October 1, 2014, to compile and publish the information.

The bill clarifies that provisions restricting the publication of any information on the DEO's website is limited to that purpose, and is not to be construed as creating a public records exemption.

The DEO may adopt rules to administer the provisions included in **section 13** of the bill.

Qualified Target Industry Tax Refund Reports

DEO must publish on the website any reports of findings and recommendations concerning a business's failure to complete its qualified target industry tax refund program agreement within 48 hours after submitting the report.

Quick Action Closing Fund Timeline

The bill requires DEO to publish information on its website relating to Quick Action Closing Fund[44] (QACF) incentive projects, including the average number of days between the date the DEO receives a completed QACF application and the date on which the application was approved.

Section 108 Loan Guarantee Program

Currently, the DEO administers the Community Development Block Grant (CDBG) program, a federally funded housing and community development program that targets assistance to low and moderate income populations. Rural or smaller area governments receive grants from the department through a competitive rural distribution mechanism known as the Florida Small Cities Community Development Block Grant (Small Cities CDBG) program. Local governments in urban areas apply and receive funds directly from the U.S. Department of Housing and Urban Development (HUD).

The bill focuses on reducing risks associated with the Section 108 loan guarantee program by amending s. 290.0455, F.S., (**Section 36**) to require an applicant approved by the HUD to receive a Section 108 loan to enter into an agreement with the department that requires the applicant to pledge half the amount necessary to guarantee the loan in the event of default. The department must review all Section 108 loan applications in the order received, provided the applications meet all eligibility requirements and have been deemed financially feasible by a loan underwriter approved by the department. If the statewide maximum available for loan guarantees has not been met, the department may submit the application to HUD with a recommendation that the loan be approved, with or without conditions, or denied.

The bill reduces the maximum amount of an individual loan guarantee commitment from $7 million to $5 million and decreases the maximum statewide amount of loan guarantees from five times to two times the amount of the most recent grant received by the department under the Florida Small Cities CDBG Program. The $5 million loan guarantee limit does not apply to loans guaranteed prior to July 1, 2013, so that they may be refinanced.

[44] Section 288.1088, F.S.

If a local government defaults on a Section 108 loan requiring the department to reduce its annual grant award to pay the annual debt service on the loan, any future CDBG program funds that the local government receives must be reduced in the amount equal to the amount of the state's grant award used in payment of debt service on the loan.

If a local government, that has received a Section 108 loan through the Florida Small Cities CDBG Program, is granted entitlement community status by HUD, then the local government must pledge its entitlement allocation as a guarantee of its previous loan and request HUD to release the department as guarantor of the loan.

Reemployment Assistance Program

Additional Assessment on Employers to Repay Federal Interest

The bill amends s. 443.131, F.S., (**Section 43**) to provide that no assessment will be levied against contributing employers if the amount of assessments on deposit, plus any earned interest, is at least 80 percent of the estimated amount of interest. The bill further provides that any assessments that remain on deposit, including associated interest, 4 months after all federal advances and associated interest have been repaid are to be transferred to the Unemployment Compensation Trust Fund. The provisions relating to interest assessments on federal advances will expire on July 1, 2014.

Reemployment Assistance Claims and Benefits Information System

In 2009, the Legislature authorized the Department of Economic Opportunity to upgrade and enhance its Unemployment Compensation Claims and Benefits Information System.[45] The statute provides a project completion date of no later than June 30, 2013 (end of Fiscal Year 2012-2013).

In early 2012, the vendor indicated that an extension of the timeline would be required. The vendor paid $1,965,000 in liquidated damages and provided a credit of $2,500,000 to cover the costs incurred by the DEO caused by the delay. After negotiations and a corrective action plan, the revised project schedule calls for an October 28, 2013, implementation date.[46]

Section 42 amends s. 443.1113, F.S., to extend the operational deadline for the Reemployment Assistance Claims and Benefits Information System to June 30, 2014 (end of Fiscal Year 2013-2014).

[45] Chapter 2009-73, L.O.F. At the time, the Unemployment Compensation program was housed in the Agency for Workforce Innovation, whose functions were transferred to the Department of Economic Opportunity in 2011.
[46] See Project Connect, Executive Steering Committee Meeting Minutes for August 8, 2012, http://sitefinity.floridajobs.org/Unemployment/UC_ModernizationProject/documents/MinutesAgendas/20120808%20RA%20ESC%20Meeting%20Minutes%20%20FINAL.pdf (last visited Arp. 21, 2013).

Fraudulent Claims

A fraudulent claim is one that knowingly contains a false or fraudulent statement or fails to disclose a material fact for the purpose of obtaining or increasing reemployment benefits.[47] A claimant found to be collecting benefits fraudulently is disqualified from received benefits beginning the week that the fraudulent claim was made. The disqualification will continue for a period not to exceed 1 year after the DEO discovered the fraud and until any resulting overpayment of benefits has been repaid. Reemployment Assistance fraud can also be prosecuted as a third degree felony.

Federal law requires states to assess a penalty, of at least 15 percent of the amount of the erroneous payment, on any claimant who fraudulently obtained benefits.[48] Florida does not currently assess a penalty for fraudulent overpayments.

Section 44 amends s. 443.151(6)(a), F.S., to impose a penalty equal to 15 percent of the amount overpaid, on any claimant who fraudulently receives reemployment benefits. This provision will bring Florida into compliance with federal law. Any amounts collected for penalties are to be deposited into the Unemployment Compensation Trust Fund. (**Section 48, amends s. 443.191, F.S.**)

Confidentiality

Information received from an employing unit or individual that reveals an employing unit's or individual's identity under the administration of the RA program is confidential and exempt from disclosure.[49]

In 2012, the statute was amended and the language that made disclosure of such confidential information a second-degree misdemeanor was inadvertently repealed.[50] Federal regulations require Florida to provide penalties for the unlawful disclosure of confidential information related to reemployment assistance.[51]

Section 47 amends s. 443.1715, F.S., to restore penalties for the disclosure of confidential information that were inadvertently repealed in 2012. This provision will bring Florida into compliance with federal law.

[47] Sections 443.071 and 443.101(6), F.S., discuss fraud and associated penalties.
[48] 42 U.S.C. s. 503(a)(11).
[49] Section 443.1715, F.S. This subsection authorizes a number of exceptions for disclosure. Information may be released to the extent necessary for presentation of a claim or upon written authorization of a claimant who has a workers' compensation claim pending or is receiving compensation benefits. Public employees may receive this information in the performance of their public duties but must maintain the confidentiality of the information. A claimant or his or her legal representative is entitled to this information, to the extent necessary, to present a claim at a hearing before an appeals referee or the commission. DEO or DOR may provide a copy of any report submitted by an employer to the employer or a copy of any report submitted by the claimant to the claimant, upon request. Confidential information may also be released pursuant to 20 C.F.R. part 603.
[50] Chapter 2012-30, L.O.F.
[51] 20 C.F.R. part 603.

Employer Response to Notice of Claim

Under current law, the DEO sends a notice of claim to each employer whose employment records may be impacted by an individual's claim for benefits. Each employer must timely respond to the notice within 20 days of delivery or mailing of the notice of claim in order to be relieved of benefit charges under s. 443.131(3)(a), F.S. Federal law requires that the employer, or its agent, "timely or adequately" respond to the notice of claim.[52] On March 29, 2013, the U.S. Department of Labor informed the DEO that the state was out of compliance on this provision.[53]

Section 44 amends s. 443.151(3)(a), F.S., to provide that each employer, *or its agent*, must timely *or adequately* respond to the notice of claim *or request for information*.

Disqualification for Reemployment Assistance Benefits

Under current law, an individual may be disqualified from receiving reemployment assistance benefits for any week in which the department finds that he or she was discharged by his or her employer for misconduct. The bill adds specific examples of "misconduct" to be included in the definition, but the examples are not intended to limit the definition. (**Section 39, amends s. 443.036(30), F.S.**)

Current law also provides additional grounds for which an individual may be disqualified from obtaining reemployment benefits, such as voluntarily leaving employment. The bill adds loss of employment due to failure without good cause to maintain a license, registration, or certification, required by law for the employee to perform her or his assigned duties. "Good cause" is defined to include, but is not limited to, failure of the employer to submit required information for the license, registration, or certification; short term physical injury that prevents the employee from completing a required test; and inability to complete a required test that is outside the employee's control. (**Section 41, creates s. 443.101(13), F.S.)**

Benefit Eligibility Conditions

Section 40 amends s. 443.091, F.S., to amend three current benefit eligibility conditions.

Under current law, an individual must register with the DEO for work. The bill clarifies this requirement to specifically require unemployed individuals to complete the department's online work registration.

Under current law, only individuals who can attest to being illiterate or having a language impediment are exempt from the initial skills review. The bill expands the exemption so that individuals unable to complete the online work registration or initial skills review due to illiteracy, physical or mental impairment, a legal prohibition from using a computer, or a language impediment are exempt from the online work registration and initial skills review. The bill also adds a cross reference to this provision in **Section 44**, amending s. 443.151(2)(b), F.S.

[52] 26 U.S.C. s. 3303(f) (effective October 21, 2011).
[53] See e-mail from U.S. Department of Labor to DEO, March 29, 2013, on file with the Senate Commerce and Tourism Committee.

Under current law, an individual must also provide proof of work search efforts, which includes contacting at least 5 prospective employers for each week of benefits claimed. The bill limits an individual's proof of work search efforts by prohibiting reporting of contacting the same employer at the same location for 3 consecutive weeks. The bill does provide an exception for times when an employer indicates that it is hiring since the time of initial contact by the individual. Further, the bill provides that the work search requirements do not apply to individuals selected to participate in reemployment assistance services, such as Reemployment and Eligibility Assessments (REAs).[54]

Reemployment Assistance Benefits- Determinations, Redeterminations and Appeals

The DEO issues determinations and redeterminations on the monetary and non-monetary eligibility requirements[55] for reemployment assistance benefits. If a party disagrees with either the determination or redetermination, the applicant or employer may request an administrative hearing before an appeals referee. Appeals referees in the DEO's Office of Appeals hold hearings and issue decisions to resolve disputes related to eligibility for unemployment compensation and the payment and collection of unemployment compensation taxes.[56] Special deputies within the Office of Appeals handle appeals related to matters on tax, reimbursement, and liability protests. Generally, an appeal must be filed within 20 days of the determination date.

> Upon receiving an appeal, the Office of Appeals will schedule a hearing involving all interested parties to address the issues. The parties will be mailed a *Notice of Hearing* telling them when the hearing will be held and whether they are expected to participate in-person or by telephone… The parties are expected to present all of their evidence and testimony to the appeals referee, who will then make a decision based only upon the evidence and testimony presented during the hearing. An audio recording of the hearing will be made by the referee. When the hearing is completed, the referee will issue a written decision.[57]

In the 2012 calendar year, there were a total of 116,534 appeals filed, and the Office of Appeals issued 128,968 decisions. Most appeals were filed by applicants (about 74 percent of the filed appeals), but the outcomes of the decisions were evenly split between decisions to pay or deny

[54] REAs are in-person interviews with selected claimants to review the claimants' adherence to state eligibility criteria, determine if reemployment services are needed for the claimant to secure future employment, refer individuals to reemployment services, as appropriate, and provide labor market information which addresses the claimant's specific needs. Research has shown that interviewing claimants for the above purposes reduces benefit duration and saves Unemployment Compensation Trust Fund resources by helping claimants find jobs faster and eliminating payments to ineligible individuals. Florida administers the REA Initiative through local One-Stop Career Centers. Rule 60BB-3.028, F.A.C., provides more information on reemployment services and requirements for participation.

[55] Section 443.151(3), F.S.

[56] Appeals are governed by s. 443.151(4), F.S., and the Administrative Procedures Act, ch. 120, F.S. Information about the Office of Appeals and the appeals process may be found on the DEO website at http://www.floridajobs.org/job-seekers-community-services/reemployment-assistance-center/file-an-appeal (last visited Apr. 21, 2013).

[57] The DEO, "Reemployment Assistance Appeals Process, Reemployment Assistance Appeals Commission," available at http://www.floridajobs.org/job-seekers-community-services/reemployment-assistance-center/reemployment-assistance-appeals-commission/reemployment-assistance-appeals-process (last visited Apr. 21, 2013).

benefits to the applicants.[58] A decision by an appeals referee can be appealed to the Reemployment Assistance Appeals Commission.

Currently, appeals referees are not required to be licensed attorneys. The DEO currently employs 79 appeals referees, of which approximately 12% are attorneys in good standing with the Florida Bar. **Section 45** amends s. 443.151, F.S., to require that an appeals referee employed by the DEO be an attorney in good standing with the Florida Bar. New employees hired on or after January 1, 2014, must be an attorney within 8 months of his or her employment date. This section is effective January 1, 2014. **Section 46** provides that after January 1, 2014, the DEO must meet these requirements through attrition of staff. (**Undesignated section of the Florida Statutes**)

Gulf Coast Economic Corridor Act

Section 50 creates s. 288.80, F.S., which designates ss. 288.80 – 288.84, F.S., as the "Gulf Coast Economic Corridor Act" (the GCEC act). **Section 51** states that the Legislature intends to provide a long-term source of funding for economic recovery and enhancement efforts in the Gulf Coast region.

Section 52 creates s. 288.81, F.S., to provide definitions for the GCEC act. In particular, "disproportionately affected county" is defined as 8 Florida counties: Bay, Escambia, Franklin, Gulf, Okaloosa, Santa Rosa, Walton, and Wakulla. Additionally, "Recovery Fund" is defined as "a trust account established by Triumph Gulf Coast, Inc., for the benefit of the disproportionately affected counties."

Triumph Gulf Coast, Inc., and the Recovery Fund

Section 53 creates s. 288.82, F.S., to create Triumph Gulf Coast, Inc., a nonprofit corporation administratively housed within the DEO, but which is not a unity or entity of state government. The corporation is not subject to the control, supervision, or direction of the DEO.

Triumph Gulf Coast, Inc., is directed to create and administer the Recovery Fund as a long-term source of revenue, the principal of which will decline over a 30-year period in equal amounts each year. A portion of the principal and any earnings (income generated from investments and interest) will be available each year to make awards to programs and projects in the disproportionately affected counties. The principal of the Recovery Fund is made up of 75 percent of all funds recovered by the Attorney General for economic damage to the state resulting from the Deepwater Horizon oil spill;[59] and any funds distributed to the state under the Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies

[58] Data from the DEO, "Reemployment Assistance Data, 1st Quarter 2007 through 4th Quarter 2012," January 7, 2013, on file with the Senate Commerce and Tourism Committee. Note, that not all outcomes that award benefits impact an employer's taxes, as some cases find that the former employee separated from work due to reasons not attributable to the employer.
[59] The Attorney General filed a lawsuit for "loss of tax revenue and income and other economic damages" against BP p.l.c. and Halliburton Energy Services, Inc., on April 20, 2013, in the Panama City Division of the Northern District of Florida. For more information, see Attorney General Pam Bondi News Release, Attorney General Pam Bondi Sues BP on Three-Year Anniversary of Deepwater Horizon Oil Spill, April 20, 2013, available at http://www.myfloridalegal.com/newsrel.nsf/newsreleases/D37C3803876F7AF285257B5300516938 (last visited Apr. 21, 2013).

(RESTORE) of the Gulf Coast Act of 2012. The bill does not affect funds distributed to a county under the RESTORE Act. Any funds remaining in the Recovery Fund after 30 years reverts to the State Treasury. The bill does not make an appropriation.

Triumph Gulf Coast, Inc., is permitted to invest the principal, and must account for each type of principal funds separately from each other and any earnings. The board of directors of the corporation is required to create an investment policy and competitively procure one or more money managers to invest the funds. Any agreement with a money manager must be reviewed every 5 years to determine if the agreement should be continued. Management fees for investments are limited to 1.5 basis points.

Administrative costs, including any management fees for investments, are limited to 1 percent of the earnings each calendar year.

Triumph Gulf Coast, Inc., is required to have two annual audits – one of the investment of the Recovery Fund by an independent certified public accountant, and one of the Recovery Fund and Triumph Gulf Coast, Inc., itself by the Auditor General.

Triumph Gulf Coast, Inc., must report twice a year, on June 30 and December 30, to the Governor, the President of the Senate, and the Speaker of the House of Representatives.

Board of Directors

Section 54 creates s. 288.83, F.S., to create a 5-member board of directors for Triumph Gulf Coast, Inc., and the set forth requirements on the members.

The Governor, Attorney General, Chief Financial Officer, (as Trustees of the State Board of Administration), the President of the Senate, and the Speaker of the House of Representatives each select one person from the private sector to serve on the board.

The board is required to annually elect a chair from its members, who serve 4-year terms. The bill provides for staggered terms by limiting the appointments of the President of the Senate and Speaker of the House of Representative to serve 2 year terms initially. All initial appointments are to be made by November 15, 2013. Board members are uncompensated, except for travel and per diem expenses.

Triumph Gulf Coast, Inc., and its board of directors are subject to public records and meeting requirements, as well as, provisions for restrictions on employment of relatives, voting conflicts, and standards of conduct for public officers, which include prohibitions on self-dealing, solicitation of gifts, and postemployment restrictions. Additionally; each board member must agree to refrain from having any direct interest in any contract, program, project, or other benefit arising from an award from the Recovery Fund during the term of appointment to the board and for 2 years following the end of the appointment. The bill provides that it is a first degree misdemeanor to violate these terms of board membership.[60] Board members must also file

[60] Punishable by a fine of up to $1,000 and up to one year imprisonment. See ss. 775.082 and 775.083, F.S.

financial disclosure forms. Board members have a fiduciary duty to the Recovery Fund, and may be removed by the state officer that made the appointment for certain delineated reasons.

The board is required to meet at least quarterly. The executive director of the DEO, the secretary of the Department of Environmental Protection, and the chair of the Committee of 8 Disproportionately Affected Counties (of the Gulf Consortium) must be available to consult with the board and may be requested to attend board meetings.

The board is permitted to hire necessary staff, and is required to retain:

- An independent certified public accountant licensed in Florida;
- An independent financial advisor;
- An economic advisor; and
- A legal advisor.

All staff must also comply with the code of ethics for public employees and agree to refrain from having any direct interest in any contract, program, project, or other benefit arising from an award from the Recovery Fund during the term of employment or contract to the board and for 2 years following the end of employment or contract.

Section 55 creates s. 288.831, F.S., to set forth the powers and duties of the board of directors. These include making and entering into contracts, adopting and using a corporate seal, and a prohibition on pledging the credit of the state on behalf of Triumph Gulf Coast, Inc.

Section 56 creates s. 288.832, F.S., to set forth the duties of Triumph Gulf Coast, Inc. These include managing all funds responsibly and prudently, monitoring and reviewing awardees, and operating in a transparent manner.

Awards

Section 57 creates s. 288.84, F.S., which sets forth the type and requirements for awards from the Recovery Fund. Triumph Gulf Coast, Inc., is permitted to make awards from available earnings and principal for projects or programs that meet the priorities for economic recovery, diversification, and enhancement of the disproportionately affected counties, notwithstanding s. 377.43, F.S.

For awards from earnings and principal of the funds recovered by the Attorney General for economic damage to the state resulting from the Deepwater Horizon oil spill, awards may be made for the following projects or programs within the disproportionately affected counties:

- Ad valorem tax reduction;
- Payment of impact fees;
- Administrative funding for economic development organizations;
- Local match requirements for certain economic incentives programs in ch. 288, F.S.;
- Economic development projects;
- Infrastructure projects that are shown to enhance economic development;

- Grants to local governments to establish and maintain equipment and trained personnel for local action plans of response to disasters;
- Grants to support programs of excellence that prepare students for future occupations and careers at K-20 institutions; and
- Grants to Visit Florida for advertising and promoting tourism, the Fresh From Florida program, or other related content.

For awards from earnings and principal of the funds distributed under the RESTORE act, awards may be made for the following projects or programs within the disproportionately affected counties, in accordance with federal law:

- Administrative funding for economic development organizations;
- Local match requirements for certain economic incentive programs in ch. 288, F.S.;
- Economic development projects;
- Infrastructure projects that are shown to enhance economic development;
- Grants to local governments to establish and maintain equipment and trained personnel for local action plans of response to disasters; and
- Grants to Visit Florida for advertising and promoting tourism, the Fresh From Florida program, or other related content.

Triumph Gulf Coast, Inc., must establish an application and scoring process for all awards. The scoring process should lead to the selection of projects or programs that "have the potential to generate increased economic activity in the disproportionately affected counties." The process should give priority to projects or programs that:

- Generate maximum economic benefits;
- Expand household income above the national average;
- Expand or establish new high growth industries;
- Leverage or enhance key regional assets, including research facilities and military bases;
- Partner with local governments, convention and visitor bureaus, chambers of commerce, school districts, or educational institutions;
- Have investment commitments from private equity or venture capital funds;
- Provide or encourage seed-stage investments;
- Provide advice or technical assistance to companies on restructuring existing management, operations, or production to attract business opportunities;
- Benefit the environment in addition to the economy; and
- Provide outcome measures for program of excellence.

Triumph Gulf Coast, Inc., is permitted to make awards by establishing an application period or as applications are received. The awards may not be used to finance 100 percent of a project or program, and no one awardee may receive all of the available funds in any given calendar year. A one-to-one private-sector match may be required if applicable and deemed prudent by the board of directors.

Contracts for awards must include performance measures and reports and provisions for recovery of the award if the award was made based on fraudulent information or if the awardee is not

meeting the performance measures. Triumph Gulf Coast, Inc., must establish a schedule for regular reporting by the awardees on the status of the project or program.

Effective Date

The bill takes effect upon becoming law, except as otherwise expressly provided in the act. (**Section 58**).

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The transfer of any remaining funds to the Unemployment Compensation Trust Fund after the final federal interest payment is made may have a positive impact on employer contribution rates.

Revenues generated by the imposition and collection of the penalty created in the bill for fraudulently obtaining unemployment compensation benefits could have a positive impact on employer contribution rates.

The Revenue Estimating Conference adopted an impact for the provisions of the bill related to the sales tax exemption for building materials in redevelopment projects and for the brownfield redevelopment bonus refund of positive $1.5 million (a combination of increased revenues and decreased expenditures) for FY 2013-2014, and adopted a cash impact of negative $120,000 (decreased revenues) for FY 2013-2014 for the provisions allowing the expansion of certain enterprise zones located in rural areas of critical economic concern. [61]

[61] Revenue Estimating Conference, Impact on HB 7007 – Proposed Amendment, Issue: Enterprise Zone Expansion, RACEC, February 22, 2013, available at http://edr.state.fl.us/Content/conferences/revenueimpact/archives/2013/pdf/page82-85.pdf (last visited Apr. 21, 2013).

B. Private Sector Impact:

To the extent that more small businesses are assisted through increased performance by the network and regional centers, the bill may have a positive impact on the private sector.

The bill may impose costs on prospective economic development incentive applicants due to the requirement to secure or guarantee the award amount. The costs imposed may be in the form of premiums or other professional fees related to creating the secured transaction.

If the amount of assessments collected in previous years to pay the interest due on federal advances is at least 80 percent of the estimated interest payment, the Department of Revenue may not make an assessment against employers, which would have a positive fiscal impact to the private sector.

The bill will have a positive fiscal impact to individuals and organizations that are granted an award of funds from the Recovery Fund for a program or project.

Also, see Tax/Fee Issues.

C. Government Sector Impact:

This bill is projected to have a fiscal impact to the Office of Economic and Demographic Research and the Office of Program Policy Analysis and Government Accountability, as follows:

- Office of Economic and Demographic Research (EDR)
  - Economic Development Program Evaluation Workload - three positions and $302,324 to cover salaries, benefits and expenses associated with the new positions ($37,002 of the expenses are nonrecurring).
  - Modifications to Statewide Model - $34,400 to design and develop an employment module for the statewide model.

Funding for EDR would need to be appropriated in the General Appropriation Bill.

- Office of Program Policy Analysis and Government Accountability (OPPAGA)
  - Economic Development Program Evaluation Workload - two positions and a part-time intern - $178,163 for salaries and benefits. OPPAGA has indicated that they can absorb the additional workload within existing resources.

These estimates assume that EDR and OPPAGA will obtain access to all information related to economic development programs that is needed to complete the Economic Development Program Evaluations without cost to EDR or OPPAGA.

The DEO projects that the provisions of the bill that require “return on investment” reporting for economic development programs will require two full-time positions and

$398,000 of additional state funds to implement. Currently, information regarding economic development incentives available on the DEO's Economic Development Incentives Portal includes the following:

- Quick Action Closing Fund
- Innovation Incentive Program
- Qualified Target Industry Tax Refund Program
- Qualified Defense Contractor and Space Flight Business Tax Refund Program
- Brownfield Redevelopment Bonus Tax Refund
- Semiconductor, Defense, or Space Technology Sales Tax Exemption
- Capital Investment Tax Credit
- Manufacturing & Spaceport Investment Incentive Program
- High Impact Sector Performance Grants.

The bill requires the DEO to provide additional information for the programs listed above and to expand the enhanced reporting to all economic development "projects" (defined as the creation of a new business or expansion of an existing business) that receive state grants, tax exemptions, tax refunds, tax credits, or other state incentives provided to a business under an economic development program administered by the DEO. The department projects that it will need an additional $398,000 from state funding sources in Fiscal Year 2013-2014 and two full-time positions to implement these requirements, as follows:

	Total	Nonrecurring
Process Mapping	$75,000	$75,000
Sales Force and portal development	$85,000	$85,000
Data Migration	$50,000	$50,000
Training	$ 6,000	$ 6,000
Cloud Storage	$12,000	
Additional Software Licenses	$10,000	
FTE – Technical Administrator	$80,000	
FTE – Substantive Administrator	$80,000	
Total Projected Costs	$398,000	$216,000

As of April 24, 2013, the Conference Committee on Senate Transportation, Tourism, and Economic Development Appropriations/House Transportation and Economic Development Appropriations has agreed to provide two positions and $398,000 from the State Economic Enhancement and Development (SEED) Trust Fund to the DEO in the Conference Committee Report on Senate Bill 1500 (Fiscal Year 2013-2014 General Appropriations Act).

Failure to provide a penalty for individuals who fraudulently collect unemployment benefits, restore the penalty for disclosing confidential information, or require the employer's response to a notice of claim to be made timely *or adequately* puts Florida at risk of being deemed out of conformity with federal law. If the United States Department of Labor made such a finding, it may not certify the state's reemployment assistance

program and could withhold all administrative funding (approximately $77 million for Federal FY 2013) or cause the employer federal tax rates to increase to the total of 6.0 percent because of loss of the entire Federal Unemployment Tax Act tax credit.

Imposing the 15 percent penalty upon individuals who fraudulently receive unemployment compensation benefits could have a positive impact to the Unemployment Compensation Trust Fund. According to the department, during FY 2011-12, the department made 25,294 fraud determinations totaling $33.2 million in benefit overpayments. If these benefit overpayments had been subject to the 15 percent penalty, approximately $4.9 million could have been deposited in the Unemployment Compensation Trust Fund. Revenues generated by the imposition and collection of the penalty created in the bill could have a positive impact on employer contribution rates.

The provisions of the bill that streamline reporting requirements, delete duplicative reports, and consolidate reporting due dates may improve efficiencies and are not expected to have a fiscal impact to the Department of Economic Opportunity, Enterprise Florida, Inc., the Office of Film and Entertainment, or Space Florida.

The provisions of the bill related to the Small Business Development Center Network are expected to have a minimal, but indeterminate, impact on the operating budgets of the Board of Governors and the department. As of April 24, 2013, the Conference Committee on Senate Appropriations on Education/House Education Appropriations has agreed to include$4 million of recurring general revenue funds for Small Business Development Centers in Specific Appropriation 142 (Grants and Aids – Education and General Activities appropriation category) in the Conference Committee Report on Senate Bill 1500 (Fiscal Year 2013-2014 General Appropriations Act).

The bill requires the department to establish a process for determining compliance with, or waiving, the securitization requirements created in the bill. The department may promulgate rules to implement the bill. The costs associated with establishing and maintaining processes and rulemaking that the department may incur are indeterminate, but are anticipated to be insignificant.

- The Department of Economic Opportunity

indicates that federal funding received to administer the state's reemployment assistance program could be redirected to cover the increased salaries and benefits costs associated with the requirement that the department fill vacant appeals referees positions with attorneys in good standing with the Florida Bar after January 1, 2014 .

The bill will have a positive fiscal impact to local governments that are granted an award of funds from the Recovery Fund for a program or project.

VI. Technical Deficiencies:

None.

VII. Related Issues:

The DEO is authorized to adopt rules to:

- Establish a process for determining compliance with, or waiving, the securitization requirements created in Section 11 of the bill; and
- Create the website for the return on investment reporting for economic development programs created in Section 13 of the bill.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 23, 2013:
The committee substitute:

- Clarifies that the annual report by the Small Business Development Network include information on the use of all federal, state, local, and private funds received by the network and the small business development centers.
- Specifies the meaning of the term "brownfield" for the sales tax exemption for building materials in redevelopment projects and for the brownfield redevelopment bonus refund.
- Adds a requirement that DEO publish certain project-specific information on each economic development program awarded to businesses on its website in an easy-to-use format.
- Removes the provision that the Governor serve as an ex officio, non-voting member of the board of directors of the Florida Tourism Industry Marketing Corporation (VISIT Florida).
- Moves the annual report due date for the New Markets Tax Credit program from April 1 to January 31.
- Permits enterprise zones of certain sizes to expand their boundaries if the zone also includes a portion of a rural area of critical economic concern.
- Revises the limitation on proof of work search contacts for reemployment assistance benefits to prohibit a claimant from reporting a contact to the same employer at the same location in 3 consecutive weeks, unless that employer has indicated that it is hiring since the time of the initial contact.
- Provides that the DEO may fulfill the requirement for appeals referees to be attorneys through attrition of staff.
- Creates the Gulf Coast Economic Corridor Act to create the Triumph Gulf Coast, Inc., to invest funds related to the Deepwater Horizon oil spill and make awards to projects and programs in the 8 disproportionately affected counties.
- Creates a rotating, 3-year review schedule for all incentives and programs to be evaluated by the Office of Economic and Demographic Research (EDR) and the Office of Program Policy Analysis and Government Accountability (OPPAGA).
- Provides EDR and OPPAGA access to all data necessary to complete its evaluations of the economic development programs.

- Defines "jobs" as full-time equivalent positions, and excludes any temporary construction jobs involved with the construction of facilities for a project.
- Repeals duplicative evaluations of economic development programs.
- Aligns the Small Business Development Center Network's (network) statewide policies with the statewide strategic economic development plan and statewide goals of the university system.
- Specifies the composition of the network's statewide advisory board.
- Specifies the support services offered by the network.
- Requires the network to provide a match to any direct state appropriation.
- Requires the network to set up incentives for the regional centers to create jobs, institute best practices, and serve new areas of the state or underserved areas.
- Requires regular reporting by the network on programs, services, and outcomes, including information on the network's economic benefits to the state.
- Requires the department to evaluate each application for economic incentives for the economic benefits of the proposed award to the state, and EDR is to review and report on the methodology used to calculate the economic benefit.
- Requires recipients of incentives under the Quick Action Closing Fund and the Innovation Incentive Programs to secure the award with a surety bond, letter of credit, or other security; provides procedures for the department to waive securitization requirements.
- Eliminates school boards as entities for which funds from the Grants and Donations Trust Fund in the Department of Economic Opportunity may be used to provide community planning technical assistance.
- Creates specific examples of misconduct for which an individual may be disqualified for benefits.
- Prohibits a claimant from counting the same prospective employer at the same location more than once during his or her claim as proof of work search efforts, unless the employer indicates that it is hiring after the initial contact by the claimant.
- Provides that an individual is disqualified from receiving benefits if his or her unemployment is due to a discharge from employment for failure, without good cause, to maintain a license, registration, or certification required by law for the performance of his or her assigned duties and provides examples of good cause.
- Requires an appeals referee to be a member in good standing with the Florida Bar or be successfully admitted to the Florida Bar within 8 months of his or her employment date, effective January 1, 2014, and current appeals referees who have law degrees but are not members in good standing in the Florida Bar must be successfully admitted by September 30, 2014.

CS by Community Affairs on March 7, 2013:
The CS provides the $5 million loan guarantee limit for the Florida Small Cities Community Development Block Grant Program does not apply to loans guaranteed prior to July 1, 2013, that may be refinanced. The CS creates an exemption for people who are unable to complete the online work registration due to various stated reasons from having to complete the department's online work registration.

B. Amendments:

None.

By the Committees on Community Affairs; and Commerce and Tourism

578-02025-13 20131024c1

A bill to be entitled

An act relating to the Department of Economic Opportunity; amending ss. 20.60, 288.906, and 288.907, F.S.; revising requirements for various annual reports submitted to the Governor and Legislature, including the annual report of the Department of Economic Opportunity, the annual report of Enterprise Florida, Inc., and the annual incentives report; consolidating the reporting requirements for various economic development programs into these annual reports; amending ss. 220.194, 288.012, 288.061, and 288.0656, F.S.; conforming provisions to changes made by the act; amending s. 288.095, F.S.; deleting requirements for an annual report related to certain payments made from the Economic Development Incentives Account of the Economic Development Trust Fund; amending ss. 288.106, 288.1081, 288.1082, 288.1088, and 288.1089, F.S.; conforming provisions to changes made by the act; amending s. 288.1226, F.S.; revising membership of the board of directors of the Florida Tourism Industry Marketing Corporation; providing that the Governor shall serve as a nonvoting member; amending ss. 288.1253, 288.1254, and 288.1258, F.S.; revising requirements for annual reports by the Office of Film and Entertainment; amending ss. 288.714 and 288.7771, F.S.; conforming provisions to changes made by the act; amending s. 288.903, F.S.; revising the duties of Enterprise Florida, Inc., with respect to preparation of the annual incentives report; amending ss. 288.92,

578-02025-13 20131024c1

288.95155, 290.0056, and 290.014, F.S.; conforming provisions to changes made by the act; amending ss. 290.0411 and 290.042, F.S.; revising legislative intent and definitions applicable to the Florida Small Cities Community Development Block Grant Program Act; amending s. 290.044, F.S.; requiring the department to adopt rules for the distribution of block grant funds to eligible local governments; deleting authority for block grant funds to be distributed as loan guarantees to local governments; requiring that block grant funds be distributed to achieve the department's community development objectives; requiring such objectives to be consistent with certain national objectives; amending s. 290.0455, F.S.; providing for the state's guarantee of certain federal loans to local governments; requiring applicants for such loans to pledge a specified amount of revenues to guarantee the loans; revising requirements for the department to submit recommendations to the Federal Government for such loans; revising the maximum amount of the loan guarantee commitment that a local government may receive and providing exceptions; providing for reduction of a local government's future community development block grants if the local government defaults on the federal loan; providing procedures if a local government is granted entitlement community status; amending s. 290.046, F.S.; revising application requirements for community development block grants and procedures for the ranking of

applications and the determination of project funding; amending s. 290.047, F.S.; revising requirements for the establishment of grant ceilings and maximum expenditures on administrative costs from community development block grants; limiting an eligible local government's authority to contract for specified services in connection with community development block grants; amending s. 290.0475, F.S.; revising conditions under which grant applications are ineligible for funding; amending 290.048, F.S.; revising the department's duties to administer the Small Cities Community Development Block Grant Loan Guarantee Program; deleting provisions authorizing the establishment of an advisory committee; amending ss. 331.3051 and 331.310, F.S.; revising requirements for annual reports by Space Florida; amending s.443.091, F.S.; providing for online work registration and providing exceptions; amending s. 443.1113, F.S., relating to the Reemployment Assistance Claims and Benefits Information System; revising timeframe for deployment of a certain Internet portal as part of such system; amending s. 443.131, F.S.; revising requirements for the estimate of interest due on advances received from the Federal Government to the Unemployment Compensation Trust Fund and the calculation of additional assessments to contributing employers to repay the interest; providing an exemption from such additional assessments; amending ss. 443.151 and 443.191, F.S.; revising provisions to

conform to changes made to benefit eligibility; requiring the department to impose a penalty against a claimant who is overpaid reemployment assistance benefits due to fraud by the claimant and providing for deposit of moneys collected for such penalties in the Unemployment Compensation Trust Fund; amending s. 443.1715, F.S.; prohibiting the unlawful disclosure of certain confidential information relating to employing units and individuals under the Reemployment Assistance Program Law; providing criminal penalties; amending s. 446.50, F.S.; conforming provisions to changes made by the act; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (10) of section 20.60, Florida Statutes, is amended to read:

20.60 Department of Economic Opportunity; creation; powers and duties.—

(10) The department, with assistance from Enterprise Florida, Inc., shall, by November 1 ~~January 1~~ of each year, submit an annual report to the Governor, the President of the Senate, and the Speaker of the House of Representatives on the condition of the business climate and economic development in the state. The report must ~~shall~~ include the identification of problems and a prioritized list of recommendations. The report must also include the following information from reports of other programs, including:

(a) Information from the displaced homemaker program plan

required under s. 446.50.

(b) Information from the report on the usage and revenue impact by county of state incentives required under s. 290.014, and from the report of each enterprise zone development agency required under s. 290.0056. The report must include an analysis of the activities and accomplishments of each enterprise zone.

(c) Information from the report on the use of loan funds awarded pursuant to the Economic Gardening Business Loan Pilot Program required under s. 288.1081(8) and from the report on the progress of the Economic Gardening Technical Assistance Pilot Program required under s. 288.1082(8).

(d) Information from the report of the performance of the Black Business Loan Program and a cumulative summary of quarterly report data required under s. 288.714.

(e) Information from the report of all Rural Economic Development Initiative activities required under s. 288.0656.

Section 2. Subsection (3) is added to section 288.906, Florida Statutes, to read:

288.906 Annual report of Enterprise Florida, Inc., and its divisions; audits.—

(3) The following reports must be included as supplements to the detailed report required by this section:

(a) The annual report of the Florida Export Finance Corporation required under s. 288.7771.

(b) The report on the state's international offices required under s. 288.012.

Section 3. Subsection (1) of section 288.907, Florida Statutes, is amended to read:

288.907 Annual incentives report.—

(1) ~~In addition to the annual report required under s. 288.906,~~ Enterprise Florida, Inc., in conjunction with the department, shall, by December 30 of each year, submit an annual incentives report to ~~shall provide~~ the Governor, the President of the Senate, and the Speaker of the House of Representatives which details and quantifies ~~a detailed incentives report quantifying~~ the economic benefits for all of the economic development incentive programs marketed by Enterprise Florida, Inc.

(a) The annual incentives report must include for each incentive program:

1. A brief description of the incentive program.

2. The amount of awards granted, by year, since inception.

3. The economic benefits, as defined in s. 288.005, based on the actual amount of private capital invested, actual number of jobs created, and actual wages paid for incentive agreements completed during the previous 3 years.

4. ~~The report shall also include~~ The actual amount of private capital invested, actual number of jobs created, and actual wages paid for incentive agreements completed during the previous 3 years for each target industry sector.

(b) For projects completed during the previous state fiscal year, the report must include:

1. The number of economic development incentive applications received.

2. The number of recommendations made to the department by Enterprise Florida, Inc., including the number recommended for approval and the number recommended for denial.

3. The number of final decisions issued by the department

for approval and for denial.

4. The projects for which a tax refund, tax credit, or cash grant agreement was executed and~~,~~ identifying for each project:

a. The number of jobs committed to be created.

b. The amount of capital investments committed to be made.

c. The annual average wage committed to be paid.

d. The amount of state economic development incentives committed to the project from each incentive program under the project's terms of agreement with the Department of Economic Opportunity.

e. The amount and type of local matching funds committed to the project.

5. Tax refunds paid or other payments made funded out of the Economic Development Incentives Account for each project.

6. The types of projects supported.

(c) For economic development projects that received tax refunds, tax credits, or cash grants under the terms of an agreement for incentives, the report must identify:

1. The number of jobs actually created.

2. The amount of capital investments actually made.

3. The annual average wage paid.

(d) For a project receiving economic development incentives approved by the department and receiving federal or local incentives, the report must include a description of the federal or local incentives, if available.

(e) The report must state the number of withdrawn or terminated projects that did not fulfill the terms of their agreements with the department and consequently are not receiving incentives.

(f) The report must include an analysis of the economic benefits, as defined in s. 288.005, of tax refunds, tax credits, or other payments made to projects locating or expanding in state enterprise zones, rural communities, brownfield areas, or distressed urban communities.

(g) The report must also include a separate analysis of the impact of tax refunds on rural communities, brownfield areas, distressed urban communities, and state enterprise zones designated pursuant to s. 290.0065.

(h) The report must list the name of each business that received a tax refund during the previous fiscal year, and the amount of the tax refund, pursuant to the qualified defense contractor and space flight business tax refund program under s. 288.1045 or the tax refund program for qualified target industry businesses under s. 288.106.

(i)~~(g)~~ The report must identify the target industry businesses and high-impact businesses.

(j)~~(h)~~ The report must describe the trends relating to business interest in, and usage of, the various incentives, and the number of minority-owned or woman-owned businesses receiving incentives.

(k)~~(i)~~ The report must identify incentive programs not used and include recommendations for changes to such programs ~~utilized~~.

(l) The report must include information related to the validation of contractor performance required under s. 288.061.

(m) Beginning in 2014, the report must summarize the activities related to the Florida Space Business Incentives Act, s. 220.194.

Section 4. Subsection (9) of section 220.194, Florida Statutes, is amended to read:

220.194 Corporate income tax credits for spaceflight projects.—

(9) ANNUAL REPORT.—Beginning in 2014, the Department of Economic Opportunity, in cooperation with Space Florida and the department, shall include in the ~~submit an~~ annual incentives report required under s. 288.907 a summary of ~~summarizing~~ activities relating to the Florida Space Business Incentives Act established under this section ~~to the Governor, the President of the Senate, and the Speaker of the House of Representatives by each November 30~~.

Section 5. Subsection (3) of section 288.012, Florida Statutes, is amended to read:

288.012 State of Florida international offices; state protocol officer; protocol manual.—The Legislature finds that the expansion of international trade and tourism is vital to the overall health and growth of the economy of this state. This expansion is hampered by the lack of technical and business assistance, financial assistance, and information services for businesses in this state. The Legislature finds that these businesses could be assisted by providing these services at State of Florida international offices. The Legislature further finds that the accessibility and provision of services at these offices can be enhanced through cooperative agreements or strategic alliances between private businesses and state, local, and international governmental entities.

(3) ~~By October 1 of each year,~~ Each international office shall annually submit to Enterprise Florida, Inc., ~~the~~

~~department~~ a complete and detailed report on its activities and accomplishments during the previous ~~preceding~~ fiscal year for inclusion in the annual report required under s. 288.906. In the ~~a~~ format and by the annual date prescribed ~~provided~~ by Enterprise Florida, Inc., the report must set forth information on:

(a) The number of Florida companies assisted.

(b) The number of inquiries received about investment opportunities in this state.

(c) The number of trade leads generated.

(d) The number of investment projects announced.

(e) The estimated U.S. dollar value of sales confirmations.

(f) The number of representation agreements.

(g) The number of company consultations.

(h) Barriers or other issues affecting the effective operation of the office.

(i) Changes in office operations which are planned for the current fiscal year.

(j) Marketing activities conducted.

(k) Strategic alliances formed with organizations in the country in which the office is located.

(l) Activities conducted with Florida's other international offices.

(m) Any other information that the office believes would contribute to an understanding of its activities.

Section 6. Subsection (3) of section 288.061, Florida Statutes, is amended to read:

288.061 Economic development incentive application process.—

(3) The department shall validate contractor performance and report~~.~~ such validation ~~shall be reported~~ in the annual incentives ~~incentive~~ report required under s. 288.907.

Section 7. Subsection (8) of section 288.0656, Florida Statutes, is amended to read:

288.0656 Rural Economic Development Initiative.—

(8) REDI shall submit a report to the department ~~Governor, the President of the Senate, and the Speaker of the House of Representatives each year on or before September 1~~ on all REDI activities for the previous ~~prior~~ fiscal year as a supplement to the department's annual report required under s. 20.60. This supplementary report must ~~shall~~ include:

(a) A status report on all projects currently being coordinated through REDI, the number of preferential awards and allowances made pursuant to this section, the dollar amount of such awards, and the names of the recipients.

(b) ~~The report shall also include~~ A description of all waivers of program requirements granted.

(c) ~~The report shall also include~~ Information as to the economic impact of the projects coordinated by REDI.~~, and~~

(d) Recommendations based on the review and evaluation of statutes and rules having an adverse impact on rural communities~~,~~ and proposals to mitigate such adverse impacts.

Section 8. Paragraphs (d) and (e) of subsection (3) of section 288.095, Florida Statutes, are redesignated as paragraphs (c) and (d), respectively, and present paragraph (c) of that subsection is amended to read:

288.095 Economic Development Trust Fund.—

(3)

~~(c) Pursuant to s. 288.907, Enterprise Florida, Inc., shall submit a complete and detailed annual report to the Governor, the President of the Senate, and the Speaker of the House of Representatives of all applications received, recommendations made to the department, final decisions issued, tax refund agreements executed, and tax refunds paid or other payments made under all programs funded out of the Economic Development Incentives Account, including analyses of benefits and costs, types of projects supported, and employment and investment created. The department shall also include a separate analysis of the impact of such tax refunds on state enterprise zones designated pursuant to s. 290.0065, rural communities, brownfield areas, and distressed urban communities. The report must also discuss the efforts made by the department to amend tax refund agreements to require tax refund claims to be submitted by January 31 for the net new full-time equivalent jobs in this state as of December 31 of the preceding calendar year. The report must also list the name and tax refund amount for each business that has received a tax refund under s. 288.1045 or s. 288.106 during the preceding fiscal year.~~

Section 9. Paragraph (d) of subsection (7) of section 288.106, Florida Statutes, is amended to read:

288.106 Tax refund program for qualified target industry businesses.—

(7) ADMINISTRATION.—

(d) Beginning with tax refund agreements signed after July 1, 2010, the department shall attempt to ascertain the causes for any business's failure to complete its agreement and shall include ~~report~~ its findings and recommendations in the annual

incentives report required under s. 288.907 ~~to the Governor, the President of the Senate, and the Speaker of the House of Representatives~~. ~~The report shall be submitted by December 1 of each year beginning in 2011~~.

Section 10. Subsection (8) of section 288.1081, Florida Statutes, is amended to read:

288.1081 Economic Gardening Business Loan Pilot Program.—

(8) ~~On June 30 and December 31 of each year,~~ The department shall include in its annual ~~submit a~~ report required under s. 20.60 a detailed description of ~~to the Governor, the President of the Senate, and the Speaker of the House of Representatives which describes in detail~~ the use of the loan funds. The report must include, at a minimum, the number of businesses receiving loans, the number of full-time equivalent jobs created as a result of the loans, the amount of wages paid to employees in the newly created jobs, the locations and types of economic activity undertaken by the borrowers, the amounts of loan repayments made to date, and the default rate of borrowers.

Section 11. Subsection (8) of section 288.1082, Florida Statutes, is amended to read:

288.1082 Economic Gardening Technical Assistance Pilot Program.—

(8) ~~On December 31 of each year,~~ The department shall include in its annual ~~submit a~~ report required under s. 20.60 a detailed description of ~~to the Governor, the President of the Senate, and the Speaker of the House of Representatives which describes in detail~~ the progress of the pilot program. The report must include, at a minimum, the number of businesses receiving assistance, the number of full-time equivalent jobs

created as a result of the assistance, if any, the amount of wages paid to employees in the newly created jobs, and the locations and types of economic activity undertaken by the businesses.

Section 12. Paragraph (e) of subsection (3) of section 288.1088, Florida Statutes, is amended to read:

288.1088 Quick Action Closing Fund.—

(3)

(e) The department ~~Enterprise Florida, Inc.,~~ shall validate contractor performance and report~~.~~ such validation in the annual incentives report required under s. 288.907 ~~shall be reported within 6 months after completion of the contract to the Governor, President of the Senate, and the Speaker of the House of Representatives~~.

Section 13. Subsection (9) and paragraph (a) of subsection (11) of section 288.1089, Florida Statutes, are amended to read:

288.1089 Innovation Incentive Program.—

(9) The department shall validate the performance of an innovation business, a research and development facility, or an alternative and renewable energy business that has received an award. At the conclusion of the innovation incentive award agreement, or its earlier termination, the department shall include in the annual incentives report required under s. 288.907 a detailed description of~~, within 90 days, submit a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives detailing~~ whether the recipient of the innovation incentive grant achieved its specified outcomes.

(11)(a) The department shall include in ~~submit to the~~

~~Governor, the President of the Senate, and the Speaker of the House of Representatives, as part of~~ the annual incentives report required under s. 288.907~~,~~ a report summarizing the activities and accomplishments of the recipients of grants from the Innovation Incentive Program during the previous 12 months and an evaluation of whether the recipients are catalysts for additional direct and indirect economic development in Florida.

Section 14. Subsection (4) of section 288.1226, Florida Statutes, is amended to read:

288.1226 Florida Tourism Industry Marketing Corporation; use of property; board of directors; duties; audit.—

(4) BOARD OF DIRECTORS.—The board of directors of the corporation shall be composed of the Governor and 31 tourism-industry-related members, appointed by Enterprise Florida, Inc., in conjunction with the department.

(a) The Governor shall serve ex officio as a nonvoting member of the board.

(b)~~(a)~~ The board shall consist of 16 members, appointed in such a manner as to equitably represent all geographic areas of the state, with no fewer than two members from any of the following regions:

1. Region 1, composed of Bay, Calhoun, Escambia, Franklin, Gadsden, Gulf, Holmes, Jackson, Jefferson, Leon, Liberty, Okaloosa, Santa Rosa, Wakulla, Walton, and Washington Counties.

2. Region 2, composed of Alachua, Baker, Bradford, Clay, Columbia, Dixie, Duval, Flagler, Gilchrist, Hamilton, Lafayette, Levy, Madison, Marion, Nassau, Putnam, St. Johns, Suwannee, Taylor, and Union Counties.

3. Region 3, composed of Brevard, Indian River, Lake,

Okeechobee, Orange, Osceola, St. Lucie, Seminole, Sumter, and Volusia Counties.

4. Region 4, composed of Citrus, Hernando, Hillsborough, Manatee, Pasco, Pinellas, Polk, and Sarasota Counties.

5. Region 5, composed of Charlotte, Collier, DeSoto, Glades, Hardee, Hendry, Highlands, and Lee Counties.

6. Region 6, composed of Broward, Martin, Miami-Dade, Monroe, and Palm Beach Counties.

(c)~~(b)~~ The 15 additional tourism-industry-related members shall include 1 representative from the statewide rental car industry; 7 representatives from tourist-related statewide associations, including those that represent hotels, campgrounds, county destination marketing organizations, museums, restaurants, retail, and attractions; 3 representatives from county destination marketing organizations; 1 representative from the cruise industry; 1 representative from an automobile and travel services membership organization that has at least 2.8 million members in Florida; 1 representative from the airline industry; and 1 representative from the space tourism industry, who will each serve for a term of 2 years.

Section 15. Subsection (3) of section 288.1253, Florida Statutes, is amended to read:

288.1253 Travel and entertainment expenses.—

(3) The Office of Film and Entertainment ~~department~~ shall include in the annual report for the entertainment industry financial incentive program required under s. 288.1254(10) a ~~prepare an annual~~ report of the office's expenditures ~~of the Office of Film and Entertainment and provide such report to the Legislature no later than December 30 of each year~~ for ~~the~~

~~expenditures of~~ the previous fiscal year. The report must ~~shall~~ consist of a summary of all travel, entertainment, and incidental expenses incurred within the United States and all travel, entertainment, and incidental expenses incurred outside the United States, as well as a summary of all successful projects that developed from such travel.

Section 16. Subsection (10) of section 288.1254, Florida Statutes, is amended to read:

288.1254 Entertainment industry financial incentive program.—

(10) ANNUAL REPORT.—Each November 1 ~~October 1~~, the Office of Film and Entertainment shall submit ~~provide~~ an annual report for the previous fiscal year to the Governor, the President of the Senate, and the Speaker of the House of Representatives which outlines the incentive program's return on investment and economic benefits to the state. The report must ~~shall~~ also include an estimate of the full-time equivalent positions created by each production that received tax credits under this section and information relating to the distribution of productions receiving credits by geographic region and type of production. The report must also include the expenditures report required under s. 288.1253(3) and the information describing the relationship between tax exemptions and incentives to industry growth required under s. 288.1258(5).

Section 17. Subsection (5) of section 288.1258, Florida Statutes, is amended to read:

288.1258 Entertainment industry qualified production companies; application procedure; categories; duties of the Department of Revenue; records and reports.—

(5) RELATIONSHIP OF TAX EXEMPTIONS AND INCENTIVES TO INDUSTRY GROWTH; REPORT TO THE LEGISLATURE.—The Office of Film and Entertainment shall keep annual records from the information provided on taxpayer applications for tax exemption certificates beginning January 1, 2001. These records also must ~~shall~~ reflect a ratio of the annual amount of sales and use tax exemptions under this section, plus the incentives awarded pursuant to s. 288.1254 to the estimated amount of funds expended by certified productions. In addition, the office shall maintain data showing annual growth in Florida-based entertainment industry companies and entertainment industry employment and wages. The employment information must ~~shall~~ include an estimate of the full-time equivalent positions created by each production that received tax credits pursuant to s. 288.1254. The Office of Film and Entertainment shall include ~~report~~ this information in the annual report for the entertainment industry financial incentive program required under s. 288.1254(10) ~~to the Legislature no later than December 1 of each year~~.

Section 18. Subsection (3) of section 288.714, Florida Statutes, is amended to read:

288.714 Quarterly and annual reports.—

(3) ~~By August 31 of each year,~~ The department shall include in its annual report required under s. 20.60 ~~provide to the Governor, the President of the Senate, and the Speaker of the House of Representatives~~ a detailed report of the performance of the Black Business Loan Program. The report must include a cumulative summary of the quarterly report data compiled pursuant to ~~required by~~ subsection (2) ~~(1)~~.

Section 19. Section 288.7771, Florida Statutes, is amended

to read:

288.7771 Annual report of Florida Export Finance Corporation.—The corporation shall annually prepare and submit to Enterprise Florida, Inc., ~~the department~~ for inclusion in its annual report required under s. 288.906 ~~by s. 288.095~~ a complete and detailed report setting forth:

(1) The report required in s. 288.776(3).

(2) Its assets and liabilities at the end of its most recent fiscal year.

Section 20. Subsections (3), (4), and (5) of section 288.903, Florida Statutes, are amended to read:

288.903 Duties of Enterprise Florida, Inc.—Enterprise Florida, Inc., shall have the following duties:

(3) Prepare an annual report pursuant to s. 288.906.

(4) Prepare, in conjunction with the department, ~~and~~ an annual incentives report pursuant to s. 288.907.

(5)~~(4)~~ Assist the department with the development of an annual and a long-range strategic business blueprint for economic development required in s. 20.60.

(6)~~(5)~~ In coordination with Workforce Florida, Inc., identify education and training programs that will ensure Florida businesses have access to a skilled and competent workforce necessary to compete successfully in the domestic and global marketplace.

Section 21. Subsection (3) of section 288.92, Florida Statutes, is amended to read:

288.92 Divisions of Enterprise Florida, Inc.—

(3) ~~By October 15 each year,~~ Each division shall draft and submit an annual report for inclusion in the report required

under 288.906 which details the division's activities during the previous ~~prior~~ fiscal year and includes ~~any~~ recommendations for improving current statutes related to the division's ~~related~~ area of responsibility.

Section 22. Subsection (5) of section 288.95155, Florida Statutes, is amended to read:

288.95155 Florida Small Business Technology Growth Program.—

(5) Enterprise Florida, Inc., shall include in the annual incentives report required under s. 288.907 ~~prepare for inclusion in the annual report of the department required by s. 288.095~~ a report on the financial status of the program. The report must specify the assets and liabilities of the program within the current fiscal year and must include a portfolio update that lists all of the businesses assisted, the private dollars leveraged by each business assisted, and the growth in sales and ~~in~~ employment of each business assisted.

Section 23. Subsection (11) of section 290.0056, Florida Statutes, is amended to read:

290.0056 Enterprise zone development agency.—

(11) Before October 1 ~~December 1~~ of each year, the agency shall submit to the department for inclusion in the department's annual report required under s. 20.60 a complete and detailed written report setting forth:

(a) Its operations and accomplishments during the fiscal year.

(b) The accomplishments and progress concerning the implementation of the strategic plan or measurable goals, and any updates to the strategic plan or measurable goals.

(c) The number and type of businesses assisted by the agency during the fiscal year.

(d) The number of jobs created within the enterprise zone during the fiscal year.

(e) The usage and revenue impact of state and local incentives granted during the calendar year.

(f) Any other information required by the department.

Section 24. Section 290.014, Florida Statutes, is amended to read:

290.014 Annual reports on enterprise zones.—

~~(1)~~ By October 1 ~~February 1~~ of each year, the Department of Revenue shall submit a ~~an annual~~ report to the department for inclusion in the department's annual report required under s. 20.60 which details ~~detailing~~ the usage and revenue impact by county of the state incentives listed in s. 290.007.

~~(2) By March 1 of each year, the department shall submit an annual report to the Governor, the Speaker of the House of Representatives, and the President of the Senate.~~ The report must also ~~shall~~ include ~~the information provided by the department of Revenue pursuant to subsection (1) and the~~ information provided by the enterprise zone development agencies pursuant to s. 290.0056(11) ~~290.0056~~. In addition, the report must ~~shall~~ include an analysis of the activities and accomplishments of each enterprise zone.

Section 25. Section 290.0411, Florida Statutes, is amended to read:

290.0411 Legislative intent and purpose of ss. 290.0401-290.048.—It is the intent of the Legislature to provide the necessary means to develop, preserve, redevelop, and revitalize

Florida communities exhibiting signs of decline, ~~or~~ distress, or economic need by enabling local governments to undertake the necessary community and economic development programs. The overall objective is to create viable communities by eliminating slum and blight, fortifying communities in urgent need, providing decent housing and suitable living environments, and expanding economic opportunities, principally for persons of low or moderate income. The purpose of ss. 290.0401-290.048 is to assist local governments in carrying out effective community and economic development and project planning and design activities to arrest and reverse community decline and restore community vitality. Community development and project planning activities to maintain viable communities, revitalize existing communities, expand economic development and employment opportunities, and improve housing conditions and expand housing opportunities, providing direct benefit to persons of low or moderate income, are the primary purposes of ss. 290.0401-290.048. The Legislature, therefore, declares that the development, redevelopment, preservation, and revitalization of communities in this state and all the purposes of ss. 290.0401-290.048 are public purposes for which public money may be borrowed, expended, loaned, pledged to guarantee loans, and granted.

Section 26. Subsections (1) and (6) of section 290.042, Florida Statutes, are amended to read:

290.042 Definitions relating to Florida Small Cities Community Development Block Grant Program Act.—As used in ss. 290.0401-290.048, the term:

(1) "Administrative closeout" means the notification of a grantee by the department that all applicable administrative

actions and all required work of an existing ~~the~~ grant have been completed with the exception of the final audit.

(6) "Person of low or moderate income" means any person who meets the definition established by the department in accordance with the guidelines established in Title I of the Housing and Community Development Act of 1974, as amended, and the definition of the term "low- and moderate-income person" as provided in 24 C.F.R. s. 570.3.

Section 27. Subsections (2), (3), and (4) of section 290.044, Florida Statutes, are amended to read:

290.044 Florida Small Cities Community Development Block Grant Program Fund; administration; distribution.—

(2) The department shall adopt rules establishing guidelines for the distribution of ~~distribute such funds as loan guarantees and~~ grants to eligible local governments through ~~on the basis of~~ a competitive selection process.

(3) The department shall define ~~the~~ broad community development objectives consistent with national objectives established by 42 U.S.C. s. 5304 and 24 C.F.R. s. 570.483 ~~objective~~ to be achieved through the distribution of block grant funds under this section. ~~by the activities in each of the following grant program categories, and require applicants for grants to compete against each other in these grant program categories:~~

~~(a) Housing.~~

~~(b) Economic development.~~

~~(c) Neighborhood revitalization.~~

~~(d) Commercial revitalization.~~

~~(e) Project planning and design.~~

(4) The department may set aside an amount of up to 5 percent of the funds annually for use in any eligible local government jurisdiction for which an emergency or natural disaster has been declared by executive order. Such funds may only be provided to a local government to fund eligible emergency-related activities but must not be provided unless ~~for which~~ no other source of federal, state, or local disaster funds is available. The department may provide for such set-aside by rule. In the last quarter of the state fiscal year, any funds not allocated under the emergency-related set-aside must ~~shall~~ be distributed to unfunded applications from the most recent funding cycle.

Section 28. Section 290.0455, Florida Statutes, is amended to read:

290.0455 Small Cities Community Development Block Grant Loan Guarantee Program; Section 108 loan guarantees.—

(1) The Small Cities Community Development Block Grant Loan Guarantee Program is created. The department shall administer the loan guarantee program pursuant to Section 108 ~~s. 108~~ of Title I of the Housing and Community Development Act of 1974, as amended, and as further amended by s. 910 of the Cranston-Gonzalez National Affordable Housing Act. The purpose of the Small Cities Community Development Block Grant Loan Guarantee Program is to guarantee, or to make commitments to guarantee, notes or other obligations issued by public entities for the purposes of financing activities enumerated in 24 C.F.R. s. 570.703.

(2) Activities assisted under the loan guarantee program must meet the requirements contained in 24 C.F.R. ss. 570.700-

570.710 and may not otherwise be financed in whole or in part from the Florida Small Cities Community Development Block Grant Program.

(3) The department may pledge existing revenues on deposit or future revenues projected to be available for deposit in the Florida Small Cities Community Development Block Grant Program in order to guarantee~~, in whole or in part,~~ the payment of principal and interest on a Section 108 loan ~~made under the loan guarantee program~~.

(4) An applicant approved by the United States Department of Housing and Urban Development to receive a Section 108 loan shall enter into an agreement with the Department of Economic Opportunity which requires the applicant to pledge half of the amount necessary to guarantee the loan in the event of default.

(5) The department shall review all Section 108 loan applications that it receives from local governments. The department shall review the applications ~~must submit all applications it receives to the United States Department of Housing and Urban Development for loan approval,~~ in the order received, subject to a determination by the department ~~determining~~ that each ~~the~~ application meets all eligibility requirements contained in 24 C.F.R. ss. 570.700-570.710~~,~~ and has been deemed financially feasible by a loan underwriter approved by the department. If the statewide maximum available for loan guarantee commitments established in subsection (6) has not been committed, the department may submit the Section 108 loan application to the United States Department of Housing and Urban Development with a recommendation that the loan be approved, with or without conditions, or be denied ~~provided that the~~

~~applicant has submitted the proposed activity to a loan underwriter to document its financial feasibility~~.

(6)~~(5)~~ The maximum amount of an individual loan guarantee commitment that an ~~commitments that any~~ eligible local government may receive is ~~may be~~ limited to $5 ~~$7~~ million ~~pursuant to 24 C.F.R. s. 570.705,~~ and the maximum amount of loan guarantee commitments statewide may not exceed an amount equal to two ~~five~~ times the amount of the most recent grant received by the department under the Florida Small Cities Community Development Block Grant Program. The $5 million loan guarantee limit does not apply to loans guaranteed prior to July 1, 2013, that may be refinanced.

(7)~~(6)~~ Section 108 loans guaranteed by the Small Cities Community Development Block Grant Program ~~loan guarantee~~ ~~program~~ must be repaid within 20 years.

(8)~~(7)~~ Section 108 loan applicants must demonstrate ~~guarantees may be used for an activity only if the local government provides evidence~~ to the department that the applicant investigated alternative financing services ~~were investigated~~ and the services were unavailable or insufficient to meet the financing needs of the proposed activity.

(9) If a local government defaults on a Section 108 loan received from the United States Department of Housing and Urban Development and guaranteed through the Florida Small Cities Community Development Block Grant Program, thereby requiring the department to reduce its annual grant award in order to pay the annual debt service on the loan, any future community development block grants that the local government receives must be reduced in an amount equal to the amount of the state's grant

award used in payment of debt service on the loan.

(10) If a local government receives a Section 108 loan guaranteed through the Florida Small Cities Community Development Block Grant Program and is granted entitlement community status as defined in subpart D of 24 C.F.R. part 570 by the United States Department of Housing and Urban Development before paying the loan in full, the local government must pledge its community development block grant entitlement allocation as a guarantee of its previous loan and request that the United States Department of Housing and Urban Development release the department as guarantor of the loan.

~~(8) The department must, before approving an application for a loan, evaluate the applicant's prior administration of block grant funds for community development. The evaluation of past performance must take into account the procedural aspects of previous grants or loans as well as substantive results. If the department finds that any applicant has failed to substantially accomplish the results proposed in the applicant's last previously funded application, the department may prohibit the applicant from receiving a loan or may penalize the applicant in the rating of the current application.~~

Section 29. Section 290.046, Florida Statutes, is amended to read:

(Substantial rewording of section. See s. 290.046, F.S., for present text.)

290.046 Applications for grants; procedures; requirements.—

(1) The department shall adopt rules establishing application procedures.

(2)(a) Except for economic development projects, each local

government that is eligible by rule to apply for a grant during an application cycle may submit one application for a noneconomic development project during the application cycle. A local government that is eligible by rule to apply for an economic development grant may apply up to three times each funding cycle for an economic development grant and may have more than one open economic development grant.

(b) The department shall establish minimum criteria pertaining to the number of jobs created for persons of low or moderate income, the degree of private sector financial commitment, the economic feasibility of the proposed project, and any other criteria the department deems appropriate.

(c) The department may not award a grant until the department has completed a site visit to verify the information contained in the application.

(3)(a) The department shall adopt rules establishing criteria for evaluating applications received during each application cycle and the department must rank each application in accordance with those rules. Such rules must allow the department to consider relevant factors, including, but not limited to, community need, unemployment, poverty levels, low and moderate income populations, health and safety, and the condition of physical structures. The department shall incorporate into its ranking system a procedure intended to eliminate or reduce any existing population-related bias that places exceptionally small communities at a disadvantage in the competition for funds.

(b) Project funding must be determined by the rankings established in each application cycle. If economic development

funding remains available after the application cycle closes, funding will be awarded to eligible projects on a first-come, first-served basis until funding for this category is fully obligated.

(4) In order to provide the public with information concerning an applicant's proposed program before an application is submitted to the department, the applicant shall, for each funding cycle:

(a) Conduct an initial public hearing to inform the public of funding opportunities available to meet community needs and eligible activities and to solicit public input on community needs.

(b) Publish a summary of the proposed application which affords the public an opportunity to examine the contents of the application and submit comments.

(c) Conduct a second public hearing to obtain public comments on the proposed application and make appropriate modifications to the application.

Section 30. Section 290.047, Florida Statutes, is amended to read:

(Substantial rewording of section. See s. 290.047, F.S., for present text.)

290.047 Establishment of grant ceilings and maximum administrative cost percentages.—

(1) The department shall adopt rules to establish:

(a) Grant ceilings.

(b) The maximum percentage of block grant funds that may be spent on administrative costs by an eligible local government.

(c) Grant administration procurement procedures for

eligible local governments.

(2) An eligible local government may not contract with the same individual or business entity for more than one service to be performed in connection with a community development block grant, including, but not limited to, application preparation services, administrative services, architectural and engineering services, and construction services, unless it can be demonstrated by the eligible local government that the individual or business entity is the sole source of the service or is the responsive proposer whose proposal is determined in writing from a competitive process to be the most advantageous to the local government.

(3) The maximum amount of block grant funds that may be spent on architectural and engineering costs by an eligible local government must be determined by a methodology adopted by the department by rule.

Section 31. Section 290.0475, Florida Statutes, is amended to read:

290.0475 Rejection of grant applications; penalties for failure to meet application conditions.—Applications received for funding are ineligible if ~~under all program categories shall be rejected without scoring only in the event that any of the following circumstances arise~~:

(1) The application is not received by the department by the application deadline.

(2) The proposed project does not meet one of the three national objectives as described ~~contained~~ in s. 290.044(3) ~~federal and state legislation~~.

(3) The proposed project is not an eligible activity as

contained in the federal legislation.

(4) The application is not consistent with the local government's comprehensive plan adopted pursuant to s. 163.3184.

(5) The applicant has an open community development block grant, except as provided in s. 290.046(2)(a) and department rule ~~s. 290.046(2)(c)~~.

(6) The local government is not in compliance with the citizen participation requirements prescribed in ss. 104(a)(1) and (2) and 106(d)(5)(c) of Title I of the Housing and Community Development Act of 1984, s. 290.046(4), and department rule ~~rules~~.

~~(7) Any information provided in the application that affects eligibility or scoring is found to have been misrepresented, and the information is not a mathematical error which may be discovered and corrected by readily computing available numbers or formulas provided in the application.~~

Section 32. Subsections (5), (6), and (7) of section 290.048, Florida Statutes, are amended to read:

290.048 General powers of department under ss. 290.0401-290.048.—The department has all the powers necessary or appropriate to carry out the purposes and provisions of the program, including the power to:

~~(5) Adopt and enforce strict requirements concerning an applicant's written description of a service area. Each such description shall contain maps which illustrate the location of the proposed service area. All such maps must be clearly legible and must:~~

~~(a) Contain a scale which is clearly marked on the map.~~

~~(b) Show the boundaries of the locality.~~

~~(c) Show the boundaries of the service area where the activities will be concentrated.~~

~~(d) Display the location of all proposed area activities~~.

~~(e) Include the names of streets, route numbers, or easily identifiable landmarks where all service activities are located.~~

(5)~~(6)~~ Pledge community development block grant revenues from the Federal Government in order to guarantee notes or other obligations of a public entity which are approved pursuant to s. 290.0455.

~~(7) Establish an advisory committee of no more than 13 members to solicit participation in designing, administering, and evaluating the program and in linking the program with other housing and community development resources.~~

Section 33. Subsection (11) of section 331.3051, Florida Statutes, is amended to read:

331.3051 Duties of Space Florida.—Space Florida shall:

(11) Annually report on its performance with respect to its business plan, to include finance, spaceport operations, research and development, workforce development, and education. Space Florida shall submit the report ~~shall be submitted~~ to the Governor, the President of the Senate, and the Speaker of the House of Representatives by November 30 ~~no later than September 1~~ for the previous ~~prior~~ fiscal year. The annual report must include operations information as required under s. 331.310(2)(e).

Section 34. Paragraph (e) of subsection (2) of section 331.310, Florida Statutes, is amended to read:

331.310 Powers and duties of the board of directors.—

(2) The board of directors shall:

(e) Prepare an annual report of operations as a supplement to the annual report required under s. 331.3051(11). The report must ~~shall~~ include, but not be limited to, a balance sheet, an income statement, a statement of changes in financial position, a reconciliation of changes in equity accounts, a summary of significant accounting principles, the auditor's report, a summary of the status of existing and proposed bonding projects, comments from management about the year's business, and prospects for the next year~~, which shall be submitted each year by November 30 to the Governor, the President of the Senate, the Speaker of the House of Representatives, the minority leader of the Senate, and the minority leader of the House of Representatives~~.

Section 35. Paragraphs (b) and (c) of subsection (1) of section 443.091, Florida Statutes, are amended to read:

443.091 Benefit eligibility conditions.—

(1) An unemployed individual is eligible to receive benefits for any week only if the Department of Economic Opportunity finds that:

(b) She or he has completed the department's online work registration ~~registered with the department for work~~ and subsequently reports to the one-stop career center as directed by the regional workforce board for reemployment services. This requirement does not apply to persons who are:

1. Non-Florida residents;

2. On a temporary layoff;

3. Union members who customarily obtain employment through a union hiring hall; or

4. Claiming benefits under an approved short-time

compensation plan as provided in s. 443.1116.

5. Unable to complete the online work registration due to illiteracy, physical or mental impairment, a legal prohibition from using a computer, or a language impediment. If a person is exempted from the online work registration under this subparagraph, then the filing of his or her claim constitutes registration for work.

(c) To make continued claims for benefits, she or he is reporting to the department in accordance with this paragraph and department rules, and participating in an initial skills review, as directed by the department. Department rules may not conflict with s. 443.111(1)(b), which requires that each claimant continue to report regardless of any pending appeal relating to her or his eligibility or disqualification for benefits.

1. For each week of unemployment claimed, each report must, at a minimum, include the name, address, and telephone number of each prospective employer contacted, or the date the claimant reported to a one-stop career center, pursuant to paragraph (d).

2. The administrator or operator of the initial skills review shall notify the department when the individual completes the initial skills review and report the results of the review to the regional workforce board or the one-stop career center as directed by the workforce board. The department shall prescribe a numeric score on the initial skills review that demonstrates a minimal proficiency in workforce skills. The department, workforce board, or one-stop career center shall use the initial skills review to develop a plan for referring individuals to training and employment opportunities. The failure of the

individual to comply with this requirement will result in the individual being determined ineligible for benefits for the week in which the noncompliance occurred and for any subsequent week of unemployment until the requirement is satisfied. However, this requirement does not apply if the individual ~~is able to affirmatively attest to being unable to complete such review due to illiteracy or a language impediment or~~ is exempt from the work registration requirement as set forth in paragraph (b).

3. Any individual who falls below the minimal proficiency score prescribed by the department in subparagraph 2. on the initial skills review shall be offered training opportunities and encouraged to participate in such training at no cost to the individual in order to improve his or her workforce skills to the minimal proficiency level.

4. The department shall coordinate with Workforce Florida, Inc., the workforce boards, and the one-stop career centers to identify, develop, and utilize best practices for improving the skills of individuals who choose to participate in training opportunities and who have a minimal proficiency score below the score prescribed in subparagraph 2.

5. The department, in coordination with Workforce Florida, Inc., the workforce boards, and the one-stop career centers, shall evaluate the use, effectiveness, and costs associated with the training prescribed in subparagraph 3. and report its findings and recommendations for training and the use of best practices to the Governor, the President of the Senate, and the Speaker of the House of Representatives by January 1, 2013.

Section 36. Paragraph (b) of subsection (4) of section 443.1113, Florida Statutes, is amended to read:

443.1113 Reemployment Assistance Claims and Benefits Information System.—

(4) The project to implement the Reemployment Assistance Claims and Benefits Information System is ~~shall be~~ comprised of the following phases and corresponding implementation timeframes:

(b) The Reemployment Assistance Claims and Benefits Internet portal that replaces the Florida Unemployment Internet Direct and the Florida Continued Claims Internet Directory systems, the Call Center Interactive Voice Response System, the Benefit Overpayment Screening System, the Internet and Intranet Appeals System, and the Claims and Benefits Mainframe System shall be deployed to full operational status no later than the end of fiscal year 2013-2014 ~~2012-2013~~.

Section 37. Subsection (5) of section 443.131, Florida Statutes, is amended to read:

443.131 Contributions.—

(5) ADDITIONAL RATE FOR INTEREST ON FEDERAL ADVANCES.—

(a) When the Unemployment Compensation Trust Fund has received advances from the Federal Government under the provisions of 42 U.S.C. s. 1321, each contributing employer shall be assessed an additional rate solely for the purpose of paying interest due on such federal advances. The additional rate shall be assessed no later than February 1 in each calendar year in which an interest payment is due.

(b) The Revenue Estimating Conference shall estimate the amount of ~~such~~ interest due on federal advances by ~~no later than~~ December 1 of the calendar year before ~~preceding~~ the calendar year in which an interest payment is due. The Revenue Estimating

Conference shall, at a minimum, consider the following as the basis for the estimate:

1. The amounts actually advanced to the trust fund.

2. Amounts expected to be advanced to the trust fund based on current and projected unemployment patterns and employer contributions.

3. The interest payment due date.

4. The interest rate that will be applied by the Federal Government to any accrued outstanding balances.

(c) ~~(b)~~ The tax collection service provider shall calculate the additional rate to be assessed against contributing employers. The additional rate assessed for a calendar year is ~~shall be~~ determined by dividing the estimated amount of interest to be paid in that year by 95 percent of the taxable wages as described in s. 443.1217 paid by all employers for the year ending June 30 of the previous ~~immediately preceding~~ calendar year. The amount to be paid by each employer is ~~shall be~~ the product obtained by multiplying such employer's taxable wages as described in s. 443.1217 for the year ending June 30 of the previous ~~immediately preceding~~ calendar year by the rate as determined by this subsection. An assessment may not be made if the amount of assessments on deposit from previous years, plus any earned interest, is at least 80 percent of the estimated amount of interest.

(d) The tax collection service provider shall make a separate collection of such assessment, which may be collected at the time of employer contributions and subject to the same penalties for failure to file a report, imposition of the standard rate pursuant to paragraph (3)(h), and interest if the

assessment is not received on or before June 30. Section 443.141(1)(d) and (e) does not apply to this separately collected assessment. The tax collection service provider shall maintain those funds in the tax collection service provider's Audit and Warrant Clearing Trust Fund until the provider is directed by the Governor or the Governor's designee to make the interest payment to the Federal Government. Assessments on deposit must be available to pay the interest on advances received from the Federal Government under 42 U.S.C. s. 1321. Assessments on deposit may be invested and any interest earned shall be part of the balance available to pay the interest on advances received from the Federal Government under 42 U.S.C. s. 1321.

(e) Four months after ~~In the calendar year that~~ all advances from the Federal Government under 42 U.S.C. s. 1321 and associated interest are repaid, ~~if there are assessment funds in excess of the amount required to meet the final interest payment,~~ any ~~such~~ excess assessed funds in the Audit and Warrant Clearing Trust Fund, including associated interest, shall be transferred to ~~credited to employer accounts in~~ the Unemployment Compensation Trust Fund. Any assessment amounts subsequently collected shall also be transferred to the Unemployment Compensation Trust Fund ~~in an amount equal to the employer's contribution to the assessment for that year divided by the total amount of the assessment for that year, the result of which is multiplied by the amount of excess assessed funds~~.

(f) If ~~However, if~~ the state is permitted to defer interest payments due during a calendar year under 42 U.S.C. s. 1322, payment of the interest assessment is ~~shall~~ not ~~be~~ due. If a

deferral of interest expires or is subsequently disallowed by the Federal Government, either prospectively or retroactively, the interest assessment shall be immediately due and payable. Notwithstanding any other provision of this section, if interest due during a calendar year on federal advances is forgiven or postponed under federal law and is no longer due during that calendar year, no interest assessment shall be assessed against an employer for that calendar year, and any assessment already assessed and collected against an employer before the forgiveness or postponement of the interest for that calendar year shall be credited to such employer's account in the Unemployment Compensation Trust Fund. However, such funds may be used only to pay benefits or refunds of erroneous contributions.

(g) This subsection expires July 1, 2014.

Section 38. Paragraph (b) of subsection (2) and paragraph (a) of subsection (6) of section 443.151, Florida Statutes, are amended to read:

443.151 Procedure concerning claims.—

(2) FILING OF CLAIM INVESTIGATIONS; NOTIFICATION OF CLAIMANTS AND EMPLOYERS.—

(b) *Process.*—When the Reemployment Assistance Claims and Benefits Information System described in s. 443.1113 is fully operational, the process for filing claims must incorporate the process for registering for work with the workforce information systems established pursuant to s. 445.011. Unless exempted under s. 443.091(1)(b)5., a claim for benefits may not be processed until the work registration requirement is satisfied. The department may adopt rules as necessary to administer the work registration requirement set forth in this paragraph.

(6) RECOVERY AND RECOUPMENT.—

(a) Any person who, by reason of her or his fraud, receives benefits under this chapter to which she or he is not entitled is liable for repaying those benefits to the Department of Economic Opportunity on behalf of the trust fund or, in the discretion of the department, to have those benefits deducted from future benefits payable to her or him under this chapter. In addition, the department shall impose upon the claimant a penalty equal to 15 percent of the amount overpaid. To enforce this paragraph, the department must find the existence of fraud through a redetermination or decision under this section within 2 years after the fraud was committed. Any recovery or recoupment of benefits must be commenced within 7 years after the redetermination or decision.

Section 39. Subsection (1) of section 443.191, Florida Statutes, is amended to read:

443.191 Unemployment Compensation Trust Fund; establishment and control.—

(1) There is established, as a separate trust fund apart from all other public funds of this state, an Unemployment Compensation Trust Fund, which shall be administered by the Department of Economic Opportunity exclusively for the purposes of this chapter. The fund must ~~shall~~ consist of:

(a) All contributions and reimbursements collected under this chapter;

(b) Interest earned on any moneys in the fund;

(c) Any property or securities acquired through the use of moneys belonging to the fund;

(d) All earnings of these properties or securities;

(e) All money credited to this state's account in the federal Unemployment Compensation Trust Fund under 42 U.S.C. s. 1103; ~~and~~

(f) All money collected for penalties imposed pursuant to s. 443.151(6)(a); and

(g) Advances on the amount in the federal Unemployment Compensation Trust Fund credited to the state under 42 U.S.C. s. 1321, as requested by the Governor or the Governor's designee.

Except as otherwise provided in s. 443.1313(4), all moneys in the fund must ~~shall~~ be mingled and undivided.

Section 40. Subsection (1) of section 443.1715, Florida Statutes, is amended to read:

443.1715 Disclosure of information; confidentiality.—

(1) RECORDS AND REPORTS.—Information revealing an employing unit's or individual's identity obtained from the employing unit or any individual under the administration of this chapter, and any determination revealing that information, is confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution. This confidential information may be released in accordance with the provisions in 20 C.F.R. part 603. A person receiving confidential information who violates this subsection commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083. The Department of Economic Opportunity or its tax collection service provider may, however, furnish to any employer copies of any report submitted by that employer upon the request of the employer and may furnish to any claimant copies of any report submitted by that claimant upon the request of the claimant. The department or its tax

collection service provider may charge a reasonable fee for copies of these reports as prescribed by rule, which may not exceed the actual reasonable cost of the preparation of the copies. Fees received for copies under this subsection must be deposited in the Employment Security Administration Trust Fund.

Section 41. Paragraph (b) of subsection (3) and subsection (4) of section 446.50, Florida Statutes, are amended to read:

446.50 Displaced homemakers; multiservice programs; report to the Legislature; Displaced Homemaker Trust Fund created.—

(3) POWERS AND DUTIES OF THE DEPARTMENT OF ECONOMIC OPPORTUNITY.—

(b)1. The department shall enter into contracts with, and make grants to, public and nonprofit private entities for purposes of establishing multipurpose service programs for displaced homemakers under this section. Such grants and contracts must ~~shall~~ be awarded pursuant to chapter 287 and based on criteria established in the program ~~state~~ plan as provided in subsection (4) ~~developed pursuant to this section~~. The department shall designate catchment areas that together, must ~~shall~~ compose the entire state, and, to the extent possible from revenues in the Displaced Homemaker Trust Fund, the department shall contract with, and make grants to, entities that will serve entire catchment areas so that displaced homemaker service programs are available statewide. These catchment areas must ~~shall~~ be coterminous with the state's workforce development regions. The department may give priority to existing displaced homemaker programs when evaluating bid responses to the request for proposals.

2. In order to receive funds under this section, and unless

specifically prohibited by law from doing so, an entity that provides displaced homemaker service programs must receive at least 25 percent of its funding from one or more local, municipal, or county sources or nonprofit private sources. In-kind contributions may be evaluated by the department and counted as part of the required local funding.

3. The department shall require an entity that receives funds under this section to maintain appropriate data to be compiled in an annual report to the department. Such data must ~~shall~~ include, but is ~~shall~~ not ~~be~~ limited to, the number of clients served, the units of services provided, designated client-specific information including intake and outcome information specific to each client, costs associated with specific services and program administration, total program revenues by source and other appropriate financial data, and client followup information at specified intervals after the placement of a displaced homemaker in a job.

(4) DISPLACED HOMEMAKER PROGRAM ~~STATE~~ PLAN.—

~~(a)~~ The Department of Economic Opportunity shall include in its annual report required under s. 20.60 a ~~develop a 3-year state~~ plan for the displaced homemaker program ~~which shall be updated annually~~. The plan must address, at a minimum, the need for programs specifically designed to serve displaced homemakers, any necessary service components for such programs in addition to those described ~~enumerated~~ in this section, goals of the displaced homemaker program with an analysis of the extent to which those goals are being met, and recommendations for ways to address any unmet program goals. Any request for funds for program expansion must be based on the ~~state~~ plan.

~~(b)~~ The displaced homemaker program ~~Each annual update must address any changes in the components of the 3-year state~~ plan ~~and a report that~~ must include, but need not be limited to, the following:

(a)~~1.~~ The scope of the incidence of displaced homemakers;

(b)~~2.~~ A compilation and report, by program, of data submitted to the department pursuant to subparagraph (3)(b)3. ~~subparagraph 3.~~ by funded displaced homemaker service programs;

(c)~~3.~~ An identification and description of the programs in the state which receive funding from the department, including funding information; and

(d)~~4.~~ An assessment of the effectiveness of each displaced homemaker service program based on outcome criteria established by rule of the department.

~~(c) The 3-year state plan must be submitted to the President of the Senate, the Speaker of the House of Representatives, and the Governor on or before January 1, 2001, and annual updates of the plan must be submitted by January 1 of each subsequent year.~~

Section 42. This act shall take effect July 1, 2013.

1.	Toman	Yeatman	CA	**Favorable**
2.	Babin	Diez-Arguelles	AFT	**Fav/CS**
3.	Babin	Hansen	AP	**Pre-meeting**
4.				
5.				
6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

Tax collectors are currently authorized to collect a tax deed application fee of $75. PCS/SB 1026 authorizes tax collectors to also charge fees as reimbursement for the cost to process tax deed applications electronically. If the tax deed application fee and the cost reimbursement exceed $75, the tax deed applicant has the option to not use the electronic tax deed application process.

The Revenue Estimating Conference (REC) has not yet determined the revenue impact of this bill. Staff estimates that this bill will increase tax collector revenue by an indeterminate amount.

This bill amends section 197.502, Florida Statutes.

II. Present Situation:

Tax Certificates

Property taxes are due and payable on November 1 of each year or as soon thereafter as the certified tax roll is received by the tax collector and tax notices are mailed to taxpayers notifying them of the amount of taxes due and any discounts that are available to them.[1] Taxes are considered delinquent if they are not paid by April 1 following the year in which they are assessed.[2] By April 30, the tax collector must mail an additional tax notice to each taxpayer whose payment has not been received, notifying the taxpayer that a tax certificate on the property will be sold for delinquent taxes that are not paid in full.[3]

On or before June 1, tax collectors are required to hold tax certificate auctions to sell tax certificates on properties with delinquent taxes.[4] Tax certificates are issued to the person who will pay the taxes, interest, cost and charges and demands the lowest rate of interest.[5]

A tax certificate is a legal document, representing unpaid delinquent real property taxes, non-ad valorem assessments, including special assessments, interest, and related costs and charges, issued in accordance with ch. 197, F.S., against a specific parcel of real property.[6] Tax certificates that are not sold are issued to the county at the maximum interest rate (18 percent).[7] The sale of the tax certificate acts as first lien on the property that is superior to all other liens, but it does not convey any property rights to the investor.[8]

A property owner can redeem a tax certificate anytime before a tax deed is issued or the property is placed on the list of lands available for sale. The person redeeming or purchasing the tax certificate is required to pay the investor or county all taxes, interest, costs, charges, and a $6.25 fee to the tax collector.[9]

Tax Deeds

If the property owner has not redeemed the tax certificate, a tax certificate holder may apply for a tax deed on the property on or after the second year following the sale of the certificate and before the expiration of seven years from issuance.[10] The holder files an application for tax deed with the county tax collector and pays all amounts required for redemption or purchase of all other outstanding tax certificates, any omitted taxes or delinquent taxes, and any current taxes due, plus interest.[11] The tax collector is authorized to collect a tax deed application fee of $75 at

[1] Sections 197.322 and 197.333, F.S.
[2] Section 197.333, F.S.
[3] Section 197.343(1), F.S.
[4] Section 197.402, F.S. For tax rolls that are not completed timely, tax certificate sales begin 60 days after the date of delinquency.
[5] Section 197.432(5), F.S.

the time of application for the tax deed.[12] The property is then placed on the list of lands available for sale and sold to the highest bidder at a public auction held by the clerk of the circuit court.[13] If property placed on the list of lands available for sale is not sold within three years after the public auction, the land escheats to the county in which the property is located, free and clear of all liens.[14] Tax certificates that are not redeemed or, for which a tax deed has not been applied for within seven years, become null and void.[15]

III. Effect of Proposed Changes:

Section 1 amends s. 197.502, F.S., to authorize the tax collector to charge fees as reimbursement for the cost to process tax deed applications electronically. If the tax deed application fee and the cost reimbursement exceed $75, the tax deed applicant has the option to not use the electronic tax deed application process.

Section 2 provides an effective date of July 1, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The REC has not reviewed the impact of this bill. Staff estimates that it will increase tax collector revenue by an indeterminate amount.

B. Private Sector Impact:

Tax certificate holders may be required to pay additional fees to apply for a tax deed.

C. Government Sector Impact:

Tax collectors will be able to more efficiently process tax deed applications.

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Finance and Tax)

A bill to be entitled

An act relating to tax deeds; amending s. 197.502, F.S.; authorizing the tax collector to charge for reimbursement of the costs for providing online tax deed application services; providing that an applicant's use of such online application services is optional under certain circumstances; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (1) of section 197.502, Florida Statutes, is amended to read:

197.502 Application for obtaining tax deed by holder of tax sale certificate; fees.—

(1) The holder of a tax certificate at any time after 2 years have elapsed since April 1 of the year of issuance of the tax certificate and before the cancellation of the certificate, may file the certificate and an application for a tax deed with the tax collector of the county where the property described in the certificate is located. The tax collector may charge a tax deed application fee of $75 and for reimbursement of the costs for providing online tax deed application services. If the tax collector charges a combined fee in excess of $75, applicants shall have the option of using the electronic tax deed application process or filing applications without using such service.

342350

576-04550-13

Section 2. This act shall take effect July 1, 2013.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 1026
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Finance and Tax); and Senator Thrasher
SUBJECT:	Tax Collectors
DATE:	April 25, 2013
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Toman	Yeatman	CA	**Favorable**
2.	Babin	Diez-Arguelles	AFT	**Fav/CS**
3.	Babin	Hansen	AP	**Fav/CS**
4.				
5.				
6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/SB 1026 authorizes tax collectors to charge fees as reimbursement for the cost to process tax deed applications electronically. Tax collectors are currently authorized to collect a tax deed application fee of $75. If the tax deed application fee and the cost reimbursement exceed $75, the tax deed applicant has the option to not use the electronic tax deed application process.

The Revenue Estimating Conference (REC) has not yet determined the revenue impact of this bill. Staff estimates that this bill will increase tax collector revenue by an indeterminate amount.

This bill amends section 197.502, Florida Statutes.

II. Present Situation:

Tax Certificates

Property taxes are due and payable on November 1 of each year or as soon thereafter as the certified tax roll is received by the tax collector and tax notices are mailed to taxpayers notifying

them of the amount of taxes due and any discounts that are available to them.[1] Taxes are considered delinquent if they are not paid by April 1 following the year in which they are assessed.[2] By April 30, the tax collector must mail an additional tax notice to each taxpayer whose payment has not been received, notifying the taxpayer that a tax certificate on the property will be sold for delinquent taxes that are not paid in full.[3]

On or before June 1, tax collectors are required to hold tax certificate auctions to sell tax certificates on properties with delinquent taxes.[4] Tax certificates are issued to the person who will pay the taxes, interest, cost and charges and demands the lowest rate of interest.[5]

A tax certificate is a legal document, representing unpaid delinquent real property taxes, non-ad valorem assessments, including special assessments, interest, and related costs and charges, issued in accordance with ch. 197, F.S., against a specific parcel of real property.[6] Tax certificates that are not sold are issued to the county at the maximum interest rate (18 percent).[7] The sale of the tax certificate acts as first lien on the property that is superior to all other liens, but it does not convey any property rights to the investor.[8]

A property owner can redeem a tax certificate anytime before a tax deed is issued or the property is placed on the list of lands available for sale. The person redeeming or purchasing the tax certificate is required to pay the investor or county all taxes, interest, costs, charges, and a $6.25 fee to the tax collector.[9]

Tax Deeds

If the property owner has not redeemed the tax certificate, a tax certificate holder may apply for a tax deed on the property on or after the second year following the sale of the certificate and before the expiration of seven years from issuance.[10] The holder files an application for tax deed with the county tax collector and pays all amounts required for redemption or purchase of all other outstanding tax certificates, any omitted taxes or delinquent taxes, and any current taxes due, plus interest.[11] The tax collector is authorized to collect a tax deed application fee of $75 at the time of application for the tax deed.[12] The property is then placed on the list of lands available for sale and sold to the highest bidder at a public auction held by the clerk of the circuit court.[13] If property placed on the list of lands available for sale is not sold within three years after the public auction, the land escheats to the county in which the property is located, free and clear

By Senator Thrasher

6-00397C-13 20131026__

A bill to be entitled

An act relating to tax collectors; amending s. 197.332, F.S.; specifying that the tax collector may collect delinquent taxes by processing tax deed applications; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (1) of section 197.332, Florida Statutes, is amended to read:

197.332 Duties of tax collectors; branch offices.—

(1) The tax collector has the authority and obligation to collect all taxes as shown on the tax roll by the date of delinquency or ~~to~~ collect delinquent taxes, interest, and costs~~,~~ by sale of tax certificates on real property, by processing tax deed applications, and by seizure and sale of personal property. In exercising their powers to contract, the tax collector may perform such duties by use of contracted services or products or by electronic means. The use of contracted services, products, or vendors does not diminish the responsibility or liability of the tax collector to perform such duties pursuant to law. The tax collector may collect the cost of contracted services. The tax collector may also collect ~~and~~ reasonable attorney ~~attorney's~~ fees and court costs in actions on proceedings to recover delinquent taxes, interest, and costs.

Section 2. This act shall take effect July 1, 2013.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/SB 1064 (725598)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Finance and Tax); and Senator Latvala
SUBJECT:	Assessment of Residential and Nonhomestead Real Property
DATE:	April 21, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Toman	Yeatman	CA	**Favorable**
2.	Fournier	Diez-Arguelles	AFT	**Fav/CS**
3.	Fournier	Hansen	AP	**Pre-meeting**
4.				
5.				
6.				

I. Summary:

PCS/SB 1064 provides that, in determining the assessed value of real property used for residential purposes, an increase in the just value of the property attributable to the installation of a renewable energy source device may not be considered.

This bill is estimated to reduce property tax revenue by $5.2 million in Fiscal Year 2014-2015 and by $12.6 million on a recurring basis.

The bill implements a part of a constitutional amendment approved by voters in the November 2008 General Election. The amendment added the following language to article VII, section 4 of the Florida Constitution:

> (i) The legislature, by general law and subject to conditions specified therein, may prohibit the consideration of the following in the determination of the assessed value of real property used for residential purposes:
> (1) Any change or improvement made for the purpose of improving the property's resistance to wind damage.
> (2) The installation of a renewable energy source device.[1]

The constitutional amendment also repealed then-existing constitutional authority for the Legislature to grant an ad valorem tax exemption to a renewable energy source device and to real property on which such a device is installed and operated.

[1] FLA. CONST. art. VII, s. 4.

The bill defines "renewable energy source devices," and specifies that these provisions apply to changes or improvements made on or after January 1, 2013, to new and existing residential real.

This bill substantially amends the following sections of the Florida Statutes: 193.155, 193.1551, 193.1554, 196.012, 196.121, and 196.1995.

The bill creates section 193.624, Florida Statutes.

The bill repeals section 196.175, Florida Statutes.

II. Present Situation:

Property Tax Assessments

Article VII, s. 4, Florida Constitution, requires that all property be assessed at just value for ad valorem tax purposes. Just value has been interpreted by the courts to mean fair market value, or what a willing buyer would pay a willing seller for the property in an arm's length transaction.[2] Section 193.011, F.S., requires property appraisers to consider eight factors in determining the property's just valuation.[3]

Exceptions to the just valuation requirement exist for agricultural land, land producing high water recharge to Florida's aquifers, land used exclusively for noncommercial recreational purposes, and land used for conservation purposes. Each of these property categories may be assessed solely on the basis of their character or use.[4] Tangible personal property that is held as inventory may be assessed at a specified percentage of its value or may be totally exempted.[5] Certain working waterfront properties are assessed on the basis of the current use of the property.[6] The State Constitution also limits the amount by which the assessed value may increase in a given year for certain classes of property.[7]

Article VII, sections 3 and 6, Florida Constitution, permit a number of ad valorem tax exemptions. These include exemptions for homesteads and for charitable, religious, or literary properties, as well as tax limitations under the Save Our Homes provisions. After calculating the assessed value of the property, the appraiser subtracts the value of any applicable exemptions to determine the property's taxable value.

[3] *See* s. 193.011(5), F.S.
[4] FLA. CONST. art. VII, s. 4.
[5] Section 196.185, F.S.
[6] FLA. CONST. art. VII, s. 4.
[7] *See* FLA. CONST. art. VII, s. 4(d) and (g) (stating that the assessed value of homestead property may not increase over the prior year's assessment more than 3 percent or the percentage change in the Consumer Price Index, and levies for non-school tax purposes, the assessment of residential real property and non-residential real property may not increase more than 10 percent over the prior year).

Early Efforts at Renewable Energy Source Incentives

Property tax incentives for renewable energy in Florida date back over 30 years. In 1980, Florida voters added the following ad valorem tax exemption authorization to art. VII, s. 3(d), Florida Constitution:

> By general law and subject to conditions specified therein, there may be granted an ad valorem tax exemption to a renewable energy source device and to real property on which such device is installed and operated, to the value fixed by general law not to exceed the original cost of the device, for the period of time fixed by general law not to exceed ten years.[8]

During that same year, the Legislature enacted s. 196.175, F.S., to implement the constitutional amendment.[9] The legislation limited the ad valorem exemption to the lesser of:

- The assessed value of the property less any other exemptions applicable under the chapter;
- The original cost of the device, including the installation costs, but excluding the cost of replacing previously existing property removed or improved in the course of the installation; or
- Eight percent of the assessed value of the property immediately following the installation.

The statute granting the exemption mirrored the 10-year time limit in the constitution. Specifically, the exemption period authorized was from January 1, 1980, through December 31, 1990. Therefore, no exemptions were granted after December 31, 1990, and exemptions granted in December 1990 expired 10 years later in December 2000. At this point, the statute was rendered inoperative and art. VII, s. 3(d), Florida Constitution was not implemented by general law.

2008: Legislative Action and Constitutional Amendment 3

On April 30, 2008, the Legislature enacted ch. 2008-227, L.O.F., (HB 7135) to remove the expiration date of the property tax exemption for renewable energy source devices. This allowed property owners to apply again for the exemption effective January 1, 2009, and once more bound it with a 10-year life span. The bill also revised the means for calculating the exemption limit. The exemption was no longer capped at 8 percent of assessed value. Instead, it was limited to the original cost of the renewable energy device, including the installation cost, but excluding the cost of replacing previously existing property.[10]

In November 2008, Florida voters approved the following constitutional amendment placed on the ballot by the Florida Tax and Budget Reform Commission (TBRC):

> (i) The legislature, by general law and subject to conditions specified therein, may prohibit the consideration of the following in the

[8] FLA. CONST. art. VII, s. 3.
[9] Section 196.175, F.S.
[10] Section 196.175, F.S.

> determination of the assessed value of real property used for residential purposes:
> (1) Any change or improvement made for the purpose of improving the property's resistance to wind damage.
> (2) The installation of a renewable energy source device.[11]

The amendment was permissive; unless the Legislature enacted implementing legislation it had no effect. The 2008 amendment also repealed then-existing constitutional authority for the Legislature to grant an ad valorem tax exemption to a renewable energy source device and to real property on which such a device is installed and operated. Although the constitutional provisions granting the ad valorem tax exemptions were repealed in 2008, the implementing language in s. 196.175, F.S., is still part of the Florida Statues.[12]

Florida Statutes currently do not provide property tax incentives for changes or improvements for wind damage resistance or for installation of a renewable energy source device. Bills were filed during the 2009, 2010, 2011 and 2012 legislative sessions to implement the changes made to the constitution in 2008; however, no legislation was passed.[13]

2009 Senate Interim Report

In 2009, the Senate Committee on Finance and Tax issued an interim report evaluating the 2008 Constitutional Amendment.[14] The report reviewed proposed legislation that was filed during the 2009 legislative session to implement the constitutional amendment. It also discussed property tax incentives that are provided in other states for installing renewable energy equipment or improving disaster resistance.[15]

At the time of the interim report, 17 states had enacted property tax incentives for renewable energy equipment including devices related to solar, wind, and geothermal energy. Although the report noted that tax incentives for improvements related to disaster preparedness are less common, three states had enacted such laws.

III. Effect of Proposed Changes:

Section 1 creates s. 193.624, F.S., related to renewable energy source devices installed on or after January 1, 2013, to new and existing residential real property. The section provides that, when determining the assessed value of real property used for residential purposes, the property appraiser may not consider the just value of the installation and operation of a renewable energy

[11] FLA. CONST. art. VII, s. 4.
[12] In 2010, HB 7005 was filed, repealing the obsolete language in ss. 196.175 and 196.12(14), F.S. This legislation passed the House on March 10, 2010, but died in messages.
[13] During the 2009 legislative session, SB 2454 and HB 7113 were filed; in 2010, SB 1164, HB 151, SB 1410, and SPB 7020; in 2011 SB 434, SB 732 and HB 531. CS/CS/HB 531 passed the House but died in messages. In 2012, CS/SB 156 and CS/HB 133both died in committee.
[14] Comm. on Finance and Tax, The Florida Senate, *Assessment of Renewable Energy Devices and Improvements That Increase Resistance to Wind Damage – Implementation of Constitutional Amendment Approved in November 2008*, (Interim Report 2010-116) (Oct. 2009).
[15] *Id. citing State Tax Guide Volume 2,* Commerce Clearing House (Chicago, IL).

source device, which means any of the following equipment that collects, transmits, stores, or uses solar energy, wind energy or energy derived from geothermal deposits:

- Solar energy collectors, photovoltaic modules, and inverters;
- Storage tanks and other storage systems, excluding swimming pools used as storage tanks;
- Rockbeds;
- Thermostats and other control devices;
- Heat exchange devices;
- Pumps and fans;
- Roof ponds;
- Freestanding thermal containers;
- Pipes, ducts, refrigerant handling systems, and other equipment used to interconnect such systems; however, conventional backup systems of any type are not included in this definition;
- Windmills and wind turbines;
- Wind-driven generators;
- Power conditioning and storage devices that use wind energy to generate electricity or mechanical forms of energy; or
- Pipes and other equipment used to transmit hot geothermal water to a dwelling or structure from a geothermal deposit.

Section 2 amends s. 193.155, F.S., relating to homestead assessments to make cross references which incorporate changes made by the bill.

Section 3 amends s. 193.1554, F.S., relating to nonhomestead assessments to make cross references which incorporate changes made by the bill.

Section 4 amends s. 196.012, F.S., to delete the existing definition for renewable energy source devices provided in subsection (14).

Section 5 amends s. 193.121, F.S., relating to homestead exemption forms to make cross references which incorporate changes made by the bill.

Section 6 amends s. 193.1995, F.S., relating to economic development ad valorem tax exemptions to make cross references which incorporate changes made by the bill.

Section 7 repeals s. 196.175, F.S., the provisions of which are obsolete as a result of the removal of the constitutional tax exemption for renewable energy source devices in 2008.

Section 8 provides that this act shall take effect on July 1, 2013, and shall apply to assessments beginning January 1, 2014.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Section 18, Art. VII, State Constitution, provides that except upon approval by two-thirds of the members of each house, the Legislature may not enact, amend, or repeal any general law if the anticipated effect of doing so would reduce the authority that municipalities or counties have to raise revenues in the aggregate, as such authority exists on February 1, 1989. By reducing the tax base upon which counties and municipalities raise ad valorem revenue, this bill reduces their revenue-raising authority and may require a two-thirds vote of the membership of each house of the Legislature.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference has determined that the bill's recurring impact on non-school local tax revenue is -$7.2 million at 2012 millage rates. There is no impact in Fiscal Year 2013-2014, but in Fiscal Year 2014-2015 the impact on non-school local tax revenue is -$3.0 million. The recurring impact on school tax revenue is -$5.4 million at 2012 millage rates. There is no impact in Fiscal Year 2013-2014, but in Fiscal Year 2014-2015 the impact on school tax revenue is -$2.2 million.

B. Private Sector Impact:

The bill may provide incentives for residential property owners and home builders to install renewable energy source devices, since such devices will not increase the assessed value of the property.

C. Government Sector Impact:

The bill may create additional workload for property appraisers.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS by Appropriations Subcommittee on Finance and Tax on April 17, 2013:
The committee substitute:

- Deletes parts of the bill relating to changes or improvements made for the purpose of improving resistance to wind damage.
- Removes requirement that a property owner apply for assessment under this bill.

B. Amendments:

None.

725598

576-04553-13

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Finance and Tax)

A bill to be entitled

An act relating to the assessment of residential and nonhomestead real property; creating s. 193.624, F.S.; defining the term "renewable energy source device"; excluding the value of renewable energy source devices from the assessed value of residential real property; providing for applicability; amending s. 193.155, F.S.; specifying additional exceptions to the assessment of homestead property at just value; amending s. 193.1554, F.S.; specifying additional exceptions to assessment of nonhomestead residential property at just value; amending s. 196.012, F.S.; deleting the definition of the terms "renewable energy source device" and "device"; conforming a cross-reference; amending ss. 196.121 and 196.1995, F.S.; conforming cross-references; repealing s. 196.175, F.S., relating to the property tax exemption for renewable energy source devices; providing for applicability; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 193.624, Florida Statutes, is created to read:

193.624 Assessment of residential property.—

(1) As used in this section, the term "renewable energy source device" means any of the following equipment that

725598

576-04553-13

collects, transmits, stores, or uses solar energy, wind energy, or energy derived from geothermal deposits:

(a) Solar energy collectors, photovoltaic modules, and inverters.

(b) Storage tanks and other storage systems, excluding swimming pools used as storage tanks.

(c) Rockbeds.

(d) Thermostats and other control devices.

(e) Heat exchange devices.

(f) Pumps and fans.

(g) Roof ponds.

(h) Freestanding thermal containers.

(i) Pipes, ducts, refrigerant handling systems, and other equipment used to interconnect such systems; however, such equipment does not include conventional backup systems of any type.

(j) Windmills and wind turbines.

(k) Wind-driven generators.

(l) Power conditioning and storage devices that use wind energy to generate electricity or mechanical forms of energy.

(m) Pipes and other equipment used to transmit hot geothermal water to a dwelling or structure from a geothermal deposit.

(2) In determining the assessed value of real property used for residential purposes, an increase in the just value of the property attributable to the installation of a renewable energy source device may not be considered.

(3) This section applies to the installation of a renewable energy source device installed on or after January 1, 2013, to

new and existing residential real property.

Section 2. Paragraph (a) of subsection (4) of section 193.155, Florida Statutes, is amended to read:

193.155 Homestead assessments.—Homestead property shall be assessed at just value as of January 1, 1994. Property receiving the homestead exemption after January 1, 1994, shall be assessed at just value as of January 1 of the year in which the property receives the exemption unless the provisions of subsection (8) apply.

(4)(a) Except as provided in paragraph (b) and s. 193.624, changes, additions, or improvements to homestead property shall be assessed at just value as of the first January 1 after the changes, additions, or improvements are substantially completed.

Section 3. Paragraph (a) of subsection (6) of section 193.1554, Florida Statutes, is amended to read:

193.1554 Assessment of nonhomestead residential property.—

(6)(a) Except as provided in paragraph (b) and s. 193.624, changes, additions, or improvements to nonhomestead residential property shall be assessed at just value as of the first January 1 after the changes, additions, or improvements are substantially completed.

Section 4. Subsections (14) through (20) of section 196.012, Florida Statutes, are amended to read:

196.012 Definitions.—For the purpose of this chapter, the following terms are defined as follows, except where the context clearly indicates otherwise:

~~(14) "Renewable energy source device" or "device" means any of the following equipment which, when installed in connection with a dwelling unit or other structure, collects, transmits,~~

~~stores, or uses solar energy, wind energy, or energy derived from geothermal deposits:~~

~~(a) Solar energy collectors.~~

~~(b) Storage tanks and other storage systems, excluding swimming pools used as storage tanks.~~

~~(c) Rockbeds.~~

~~(d) Thermostats and other control devices.~~

~~(e) Heat exchange devices.~~

~~(f) Pumps and fans.~~

~~(g) Roof ponds.~~

~~(h) Freestanding thermal containers.~~

~~(i) Pipes, ducts, refrigerant handling systems, and other equipment used to interconnect such systems; however, conventional backup systems of any type are not included in this definition.~~

~~(j) Windmills.~~

~~(k) Wind-driven generators.~~

~~(l) Power conditioning and storage devices that use wind energy to generate electricity or mechanical forms of energy.~~

~~(m) Pipes and other equipment used to transmit hot geothermal water to a dwelling or structure from a geothermal deposit.~~

(14)~~(15)~~ "New business" means:

(a)1. A business or organization establishing 10 or more new jobs to employ 10 or more full-time employees in this state, paying an average wage for such new jobs that is above the average wage in the area, which principally engages in any one or more of the following operations:

a. Manufactures, processes, compounds, fabricates, or

produces for sale items of tangible personal property at a fixed location and which comprises an industrial or manufacturing plant; or

b. Is a target industry business as defined in s. 288.106(2)(q);

2. A business or organization establishing 25 or more new jobs to employ 25 or more full-time employees in this state, the sales factor of which, as defined by s. 220.15(5), for the facility with respect to which it requests an economic development ad valorem tax exemption is less than 0.50 for each year the exemption is claimed; or

3. An office space in this state owned and used by a business or organization newly domiciled in this state; provided such office space houses 50 or more full-time employees of such business or organization; provided that such business or organization office first begins operation on a site clearly separate from any other commercial or industrial operation owned by the same business or organization.

(b) Any business or organization located in an enterprise zone or brownfield area that first begins operation on a site clearly separate from any other commercial or industrial operation owned by the same business or organization.

(c) A business or organization that is situated on property annexed into a municipality and that, at the time of the annexation, is receiving an economic development ad valorem tax exemption from the county under s. 196.1995.

(15)~~(16)~~ "Expansion of an existing business" means:

(a)1. A business or organization establishing 10 or more new jobs to employ 10 or more full-time employees in this state,

paying an average wage for such new jobs that is above the average wage in the area, which principally engages in any of the operations referred to in subparagraph (15)(a)1.; or

2. A business or organization establishing 25 or more new jobs to employ 25 or more full-time employees in this state, the sales factor of which, as defined by s. 220.15(5), for the facility with respect to which it requests an economic development ad valorem tax exemption is less than 0.50 for each year the exemption is claimed; provided that such business increases operations on a site located within the same county, municipality, or both colocated with a commercial or industrial operation owned by the same business or organization under common control with the same business or organization, resulting in a net increase in employment of not less than 10 percent or an increase in productive output or sales of not less than 10 percent.

(b) Any business or organization located in an enterprise zone or brownfield area that increases operations on a site located within the same zone or area colocated with a commercial or industrial operation owned by the same business or organization under common control with the same business or organization.

(16)~~(17)~~ "Permanent resident" means a person who has established a permanent residence as defined in subsection (17)~~(18)~~.

(17)~~(18)~~ "Permanent residence" means that place where a person has his or her true, fixed, and permanent home and principal establishment to which, whenever absent, he or she has the intention of returning. A person may have only one permanent

residence at a time; and, once a permanent residence is established in a foreign state or country, it is presumed to continue until the person shows that a change has occurred.

(18) ~~(19)~~ "Enterprise zone" means an area designated as an enterprise zone pursuant to s. 290.0065. This subsection expires on the date specified in s. 290.016 for the expiration of the Florida Enterprise Zone Act.

(19) ~~(20)~~ "Ex-servicemember" means any person who has served as a member of the United States Armed Forces on active duty or state active duty, a member of the Florida National Guard, or a member of the United States Reserve Forces.

Section 5. Subsection (2) of section 196.121, Florida Statutes, is amended to read:

196.121 Homestead exemptions; forms.—

(2) The forms shall require the taxpayer to furnish certain information to the property appraiser for the purpose of determining that the taxpayer is a permanent resident as defined in s. 196.012(16) ~~196.012(17)~~. Such information may include, but need not be limited to, the factors enumerated in s. 196.015.

Section 6. Subsections (6), (8), (9), and (11) of section 196.1995, Florida Statutes, are amended to read:

196.1995 Economic development ad valorem tax exemption.—

(6) With respect to a new business as defined by s. 196.012(14)(c) ~~196.012(15)(c)~~, the municipality annexing the property on which the business is situated may grant an economic development ad valorem tax exemption under this section to that business for a period that will expire upon the expiration of the exemption granted by the county. If the county renews the exemption under subsection (7), the municipality may also extend

its exemption. A municipal economic development ad valorem tax exemption granted under this subsection may not extend beyond the duration of the county exemption.

(8) Any person, firm, or corporation which desires an economic development ad valorem tax exemption shall, in the year the exemption is desired to take effect, file a written application on a form prescribed by the department with the board of county commissioners or the governing authority of the municipality, or both. The application shall request the adoption of an ordinance granting the applicant an exemption pursuant to this section and shall include the following information:

(a) The name and location of the new business or the expansion of an existing business;

(b) A description of the improvements to real property for which an exemption is requested and the date of commencement of construction of such improvements;

(c) A description of the tangible personal property for which an exemption is requested and the dates when such property was or is to be purchased;

(d) Proof, to the satisfaction of the board of county commissioners or the governing authority of the municipality, that the applicant is a new business or an expansion of an existing business, as defined in s. 196.012~~(15) or (16)~~;

(e) The number of jobs the applicant expects to create along with the average wage of the jobs and whether the jobs are full-time or part-time;

(f) The expected time schedule for job creation; and

(g) Other information deemed necessary or appropriate by

the department, county, or municipality.

(9) Before it takes action on the application, the board of county commissioners or the governing authority of the municipality shall deliver a copy of the application to the property appraiser of the county. After careful consideration, the property appraiser shall report the following information to the board of county commissioners or the governing authority of the municipality:

(a) The total revenue available to the county or municipality for the current fiscal year from ad valorem tax sources, or an estimate of such revenue if the actual total revenue available cannot be determined;

(b) Any revenue lost to the county or municipality for the current fiscal year by virtue of exemptions previously granted under this section, or an estimate of such revenue if the actual revenue lost cannot be determined;

(c) An estimate of the revenue which would be lost to the county or municipality during the current fiscal year if the exemption applied for were granted had the property for which the exemption is requested otherwise been subject to taxation; and

(d) A determination as to whether the property for which an exemption is requested is to be incorporated into a new business or the expansion of an existing business, as defined in s. 196.012~~(15) or (16)~~, or into neither, which determination the property appraiser shall also affix to the face of the application. Upon the request of the property appraiser, the department shall provide to him or her such information as it may have available to assist in making such determination.

(11) An ordinance granting an exemption under this section shall be adopted in the same manner as any other ordinance of the county or municipality and shall include the following:

(a) The name and address of the new business or expansion of an existing business to which the exemption is granted;

(b) The total amount of revenue available to the county or municipality from ad valorem tax sources for the current fiscal year, the total amount of revenue lost to the county or municipality for the current fiscal year by virtue of economic development ad valorem tax exemptions currently in effect, and the estimated revenue loss to the county or municipality for the current fiscal year attributable to the exemption of the business named in the ordinance;

(c) The period of time for which the exemption will remain in effect and the expiration date of the exemption, which may be any period of time up to 10 years; and

(d) A finding that the business named in the ordinance meets the requirements of s. 196.012(14) or (15) ~~196.012 (15) or (16)~~.

Section 7. Section 196.175, Florida Statutes, is repealed.

Section 8. This act shall take effect July 1, 2013, and applies to assessments beginning January 1, 2014.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 1064
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Finance and Tax); and Senator Latvala
SUBJECT:	Assessment of Residential and Nonhomestead Real Property
DATE:	April 25, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Toman	Yeatman	CA	**Favorable**
2.	Fournier	Diez-Arguelles	AFT	**Fav/CS**
3.	Fournier	Hansen	AP	**Fav/CS**
4.				
5.				
6.				

I. Summary:

CS/SB 1064 provides that, in determining the assessed value of real property used for residential purposes, an increase in the just value of the property attributable to the installation of a renewable energy source device may not be considered.

This bill is estimated to reduce property tax revenue by $5.2 million in Fiscal Year 2014-2015 and by $12.6 million on a recurring basis.

The bill implements a part of a constitutional amendment approved by voters in the November 2008 General Election. The amendment added the following language to article VII, section 4 of the Florida Constitution:

> (i) The legislature, by general law and subject to conditions specified therein, may prohibit the consideration of the following in the determination of the assessed value of real property used for residential purposes:
> (1) Any change or improvement made for the purpose of improving the property's resistance to wind damage.
> (2) The installation of a renewable energy source device.[1]

The constitutional amendment also repealed then-existing constitutional authority for the Legislature to grant an ad valorem tax exemption to a renewable energy source device and to real property on which such a device is installed and operated.

[1] FLA. CONST. art. VII, s. 4.

The bill defines "renewable energy source devices," and specifies that these provisions apply to changes or improvements made on or after January 1, 2013, to new and existing residential real.

This bill substantially amends the following sections of the Florida Statutes: 193.155, 193.1551, 193.1554, 196.012, 196.121, and 196.1995.

The bill creates section 193.624, Florida Statutes.

The bill repeals section 196.175, Florida Statutes.

II. Present Situation:

Property Tax Assessments

Article VII, s. 4, Florida Constitution, requires that all property be assessed at just value for ad valorem tax purposes. Just value has been interpreted by the courts to mean fair market value, or what a willing buyer would pay a willing seller for the property in an arm's length transaction.[2] Section 193.011, F.S., requires property appraisers to consider eight factors in determining the property's just valuation.[3]

Exceptions to the just valuation requirement exist for agricultural land, land producing high water recharge to Florida's aquifers, land used exclusively for noncommercial recreational purposes, and land used for conservation purposes. Each of these property categories may be assessed solely on the basis of their character or use.[4] Tangible personal property that is held as inventory may be assessed at a specified percentage of its value or may be totally exempted.[5] Certain working waterfront properties are assessed on the basis of the current use of the property.[6] The State Constitution also limits the amount by which the assessed value may increase in a given year for certain classes of property.[7]

Article VII, sections 3 and 6, Florida Constitution, permit a number of ad valorem tax exemptions. These include exemptions for homesteads and for charitable, religious, or literary properties, as well as tax limitations under the Save Our Homes provisions. After calculating the assessed value of the property, the appraiser subtracts the value of any applicable exemptions to determine the property's taxable value.

[4] FLA. CONST. art. VII, s. 4.
[5] Section 196.185, F.S.
[6] FLA. CONST. art. VII, s. 4.
[7] *See* FLA. CONST. art. VII, s. 4(d) and (g) (stating that the assessed value of homestead property may not increase over the prior year's assessment more than 3 percent or the percentage change in the Consumer Price Index, and levies for non-school tax purposes, the assessment of residential real property and non-residential real property may not increase more than 10 percent over the prior year).

Early Efforts at Renewable Energy Source Incentives

Property tax incentives for renewable energy in Florida date back over 30 years. In 1980, Florida voters added the following ad valorem tax exemption authorization to art. VII, s. 3(d), Florida Constitution:

> By general law and subject to conditions specified therein, there may be granted an ad valorem tax exemption to a renewable energy source device and to real property on which such device is installed and operated, to the value fixed by general law not to exceed the original cost of the device, for the period of time fixed by general law not to exceed ten years.[8]

During that same year, the Legislature enacted s. 196.175, F.S., to implement the constitutional amendment.[9] The legislation limited the ad valorem exemption to the lesser of:

- The assessed value of the property less any other exemptions applicable under the chapter;
- The original cost of the device, including the installation costs, but excluding the cost of replacing previously existing property removed or improved in the course of the installation; or
- Eight percent of the assessed value of the property immediately following the installation.

The statute granting the exemption mirrored the 10-year time limit in the constitution. Specifically, the exemption period authorized was from January 1, 1980, through December 31, 1990. Therefore, no exemptions were granted after December 31, 1990, and exemptions granted in December 1990 expired 10 years later in December 2000. At this point, the statute was rendered inoperative and art. VII, s. 3(d), Florida Constitution was not implemented by general law.

2008: Legislative Action and Constitutional Amendment 3

On April 30, 2008, the Legislature enacted ch. 2008-227, L.O.F., (HB 7135) to remove the expiration date of the property tax exemption for renewable energy source devices. This allowed property owners to apply again for the exemption effective January 1, 2009, and once more bound it with a 10-year life span. The bill also revised the means for calculating the exemption limit. The exemption was no longer capped at 8 percent of assessed value. Instead, it was limited to the original cost of the renewable energy device, including the installation cost, but excluding the cost of replacing previously existing property.[10]

In November 2008, Florida voters approved the following constitutional amendment placed on the ballot by the Florida Tax and Budget Reform Commission (TBRC):

> (i) The legislature, by general law and subject to conditions specified therein, may prohibit the consideration of the following in the

[8] FLA. CONST. art. VII, s. 3.
[9] Section 196.175, F.S.
[10] Section 196.175, F.S.

> determination of the assessed value of real property used for residential purposes:
> (1) Any change or improvement made for the purpose of improving the property's resistance to wind damage.
> (2) The installation of a renewable energy source device.[11]

The amendment was permissive; unless the Legislature enacted implementing legislation it had no effect. The 2008 amendment also repealed then-existing constitutional authority for the Legislature to grant an ad valorem tax exemption to a renewable energy source device and to real property on which such a device is installed and operated. Although the constitutional provisions granting the ad valorem tax exemptions were repealed in 2008, the implementing language in s. 196.175, F.S., is still part of the Florida Statues.[12]

Florida Statutes currently do not provide property tax incentives for changes or improvements for wind damage resistance or for installation of a renewable energy source device. Bills were filed during the 2009, 2010, 2011 and 2012 legislative sessions to implement the changes made to the constitution in 2008; however, no legislation was passed.[13]

2009 Senate Interim Report

In 2009, the Senate Committee on Finance and Tax issued an interim report evaluating the 2008 Constitutional Amendment.[14] The report reviewed proposed legislation that was filed during the 2009 legislative session to implement the constitutional amendment. It also discussed property tax incentives that are provided in other states for installing renewable energy equipment or improving disaster resistance.[15]

At the time of the interim report, 17 states had enacted property tax incentives for renewable energy equipment including devices related to solar, wind, and geothermal energy. Although the report noted that tax incentives for improvements related to disaster preparedness are less common, three states had enacted such laws.

III. Effect of Proposed Changes:

Section 1 creates s. 193.624, F.S., related to renewable energy source devices installed on or after January 1, 2013, to new and existing residential real property. The section provides that, when determining the assessed value of real property used for residential purposes, the property appraiser may not consider the just value of the installation and operation of a renewable energy

[11] FLA. CONST. art. VII, s. 4.
[12] In 2010, HB 7005 was filed, repealing the obsolete language in ss. 196.175 and 196.12(14), F.S. This legislation passed the House on March 10, 2010, but died in messages.
[13] During the 2009 legislative session, SB 2454 and HB 7113 were filed; in 2010, SB 1164, HB 151, SB 1410, and SPB 7020; in 2011 SB 434, SB 732 and HB 531. CS/CS/HB 531 passed the House but died in messages. In 2012, CS/SB 156 and CS/HB 133both died in committee.
[14] Comm. on Finance and Tax, The Florida Senate, *Assessment of Renewable Energy Devices and Improvements That Increase Resistance to Wind Damage – Implementation of Constitutional Amendment Approved in November 2008*, (Interim Report 2010-116) (Oct. 2009).
[15] *Id. citing State Tax Guide Volume 2,* Commerce Clearing House (Chicago, IL).

source device, which means any of the following equipment that collects, transmits, stores, or uses solar energy, wind energy or energy derived from geothermal deposits:

- Solar energy collectors, photovoltaic modules, and inverters;
- Storage tanks and other storage systems, excluding swimming pools used as storage tanks;
- Rockbeds;
- Thermostats and other control devices;
- Heat exchange devices;
- Pumps and fans;
- Roof ponds;
- Freestanding thermal containers;
- Pipes, ducts, refrigerant handling systems, and other equipment used to interconnect such systems; however, conventional backup systems of any type are not included in this definition;
- Windmills and wind turbines;
- Wind-driven generators;
- Power conditioning and storage devices that use wind energy to generate electricity or mechanical forms of energy; or
- Pipes and other equipment used to transmit hot geothermal water to a dwelling or structure from a geothermal deposit.

Section 2 amends s. 193.155, F.S., relating to homestead assessments to make cross references which incorporate changes made by the bill.

Section 3 amends s. 193.1554, F.S., relating to nonhomestead assessments to make cross references which incorporate changes made by the bill.

Section 4 amends s. 196.012, F.S., to delete the existing definition for renewable energy source devices provided in subsection (14).

Section 5 amends s. 193.121, F.S., relating to homestead exemption forms to make cross references which incorporate changes made by the bill.

Section 6 amends s. 193.1995, F.S., relating to economic development ad valorem tax exemptions to make cross references which incorporate changes made by the bill.

Section 7 repeals s. 196.175, F.S., the provisions of which are obsolete as a result of the removal of the constitutional tax exemption for renewable energy source devices in 2008.

Section 8 provides that this act shall take effect on July 1, 2013, and shall apply to assessments beginning January 1, 2014.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Section 18, Art. VII, State Constitution, provides that except upon approval by two-thirds of the members of each house, the Legislature may not enact, amend, or repeal any general law if the anticipated effect of doing so would reduce the authority that municipalities or counties have to raise revenues in the aggregate, as such authority exists on February 1, 1989. By reducing the tax base upon which counties and municipalities raise ad valorem revenue, this bill reduces their revenue-raising authority and may require a two-thirds vote of the membership of each house of the Legislature.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference has determined that the bill's recurring impact on non-school local tax revenue is -$7.2 million at 2012 millage rates. There is no impact in Fiscal Year 2013-2014, but in Fiscal Year 2014-2015 the impact on non-school local tax revenue is -$3.0 million. The recurring impact on school tax revenue is -$5.4 million at 2012 millage rates. There is no impact in Fiscal Year 2013-2014, but in Fiscal Year 2014-2015 the impact on school tax revenue is -$2.2 million.

B. Private Sector Impact:

The bill may provide incentives for residential property owners and home builders to install renewable energy source devices, since such devices will not increase the assessed value of the property.

C. Government Sector Impact:

The bill may create additional workload for property appraisers.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations on April 23, 2013:
The committee substitute:

- Deletes parts of the bill relating to changes or improvements made for the purpose of improving resistance to wind damage.
- Removes requirement that a property owner apply for assessment under this bill.

B. Amendments:

None.

By Senator Latvala

20-00676A-13 20131064__

A bill to be entitled

An act relating to the assessment of residential and nonhomestead real property; creating s. 193.624, F.S.; providing definitions; excluding the value of certain installations, changes, or improvements made after a specified date from the assessed value of residential real property; providing for application; requiring the filing of applications by specified times in order for such installations, changes, or improvements to be excluded from the assessed value of residential real property; providing procedural requirements and limitations; requiring a nonrefundable filing fee for a petition to the value adjustment board; amending s. 193.155, F.S.; specifying additional exceptions to the assessment of homestead property at just value; reenacting s. 193.1551, F.S., relating to assessment of certain homestead property damaged in 2004 named storms, to incorporate the amendments made to s. 193.155, F.S., in a reference thereto; amending s. 193.1554, F.S.; specifying additional exceptions to assessment of nonhomestead property at just value; amending s. 196.012, F.S.; deleting the definition of the terms "renewable energy source device" and "device"; conforming cross-references; amending ss. 196.121 and 196.1995, F.S.; conforming cross-references; repealing s. 196.175, F.S., relating to the property tax exemption for renewable energy source devices; providing for application of the act; providing an effective date.

20-00676A-13 20131064__

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 193.624, Florida Statutes, is created to read:

193.624 Assessment of residential property improved to resist wind damage; using renewable energy devices.—

(1) As used in this section, the term:

(a) "Changes or improvements made for the purpose of improving a property's resistance to wind damage" means:

1. Improving the strength of the roof-deck attachment;

2. Creating a secondary water barrier to prevent water intrusion;

3. Installing wind-resistant shingles;

4. Installing gable-end bracing;

5. Reinforcing roof-to-wall connections;

6. Installing storm shutters; or

7. Installing opening protections.

(b) "Renewable energy source device" means any of the following equipment that collects, transmits, stores, or uses solar energy, wind energy, or energy derived from geothermal deposits:

1. Solar energy collectors, photovoltaic modules, and inverters.

2. Storage tanks and other storage systems, excluding swimming pools used as storage tanks.

3. Rockbeds.

4. Thermostats and other control devices.

5. Heat exchange devices.

6. Pumps and fans.

7. Roof ponds.

8. Freestanding thermal containers.

9. Pipes, ducts, refrigerant handling systems, and other equipment used to interconnect such systems; however, such equipment does not include conventional backup systems of any type.

10. Windmills and wind turbines.

11. Wind-driven generators.

12. Power conditioning and storage devices that use wind energy to generate electricity or mechanical forms of energy.

13. Pipes and other equipment used to transmit hot geothermal water to a dwelling or structure from a geothermal deposit.

(2) In determining the assessed value of real property used for residential purposes, any increase in the just value of the property attributable to the installation of a renewable energy source device or changes or improvements made for the purpose of improving a property's resistance to wind damage may not be considered.

(3) For a parcel of residential property to be assessed pursuant to this section, the owner of the property must file with the county property appraiser an application on or before March 1 of the first year such assessment is requested. The property appraiser may require the taxpayer or the taxpayer's representative to furnish the property appraiser such information as may reasonably be required to establish the increase in just value attributable to the renewable energy source device or changes or improvements made for the purpose of

improving the property's resistance to wind damage. Failure to make timely application by March 1 constitutes a waiver of the property owner to have his or her assessment calculated for that year under this section. However, an applicant who fails to file an application by March 1 may file a late application and may file, pursuant to s. 194.011(3), a petition with the value adjustment board requesting assessment under this section. The petition must be filed on or before the 25th day after the mailing of the notice by the property appraiser as provided in s. 194.011(1). Notwithstanding s. 194.013, the applicant must pay a nonrefundable fee of $15 upon filing the petition. Upon reviewing the petition, if the property is qualified to be assessed under this section and the property owner demonstrates particular extenuating circumstances judged by the property appraiser or the value adjustment board to warrant granting assessment under this section, the property appraiser shall calculate the assessment pursuant to this section.

(4) This section applies to the installation of a renewable energy source device or changes or improvements made for the purpose of improving a property's resistance to wind damage installed or made on or after January 1, 2013, to new and existing residential real property.

Section 2. Paragraph (a) of subsection (4) of section 193.155, Florida Statutes, is amended to read:

193.155 Homestead assessments.—Homestead property shall be assessed at just value as of January 1, 1994. Property receiving the homestead exemption after January 1, 1994, shall be assessed at just value as of January 1 of the year in which the property receives the exemption unless the provisions of subsection (8)

apply.

(4)(a) Except as provided in paragraph (b) and s. 193.624, changes, additions, or improvements to homestead property shall be assessed at just value as of the first January 1 after the changes, additions, or improvements are substantially completed.

Section 3. For the purpose of incorporating the amendment made by this act to section 193.155, Florida Statutes, in a reference thereto, section 193.1551, Florida Statutes, is reenacted to read:

193.1551 Assessment of certain homestead property damaged in 2004 named storms.—Notwithstanding the provisions of s. 193.155(4), the assessment at just value for changes, additions, or improvements to homestead property rendered uninhabitable in one or more of the named storms of 2004 shall be limited to the square footage exceeding 110 percent of the homestead property's total square footage. Additionally, homes having square footage of 1,350 square feet or less which were rendered uninhabitable may rebuild up to 1,500 total square feet and the increase in square footage shall not be considered as a change, an addition, or an improvement that is subject to assessment at just value. The provisions of this section are limited to homestead properties in which repairs are commenced by January 1, 2008, and apply retroactively to January 1, 2005.

Section 4. Paragraph (a) of subsection (6) of section 193.1554, Florida Statutes, is amended to read:

193.1554 Assessment of nonhomestead residential property.—

(6)(a) Except as provided in paragraph (b) and s. 193.624, changes, additions, or improvements to nonhomestead residential property shall be assessed at just value as of the first January

1 after the changes, additions, or improvements are substantially completed.

Section 5. Subsections (14) through (20) of section 196.012, Florida Statutes, are amended to read:

196.012 Definitions.—For the purpose of this chapter, the following terms are defined as follows, except where the context clearly indicates otherwise:

~~(14) "Renewable energy source device" or "device" means any of the following equipment which, when installed in connection with a dwelling unit or other structure, collects, transmits, stores, or uses solar energy, wind energy, or energy derived from geothermal deposits:~~

~~(a) Solar energy collectors.~~

~~(b) Storage tanks and other storage systems, excluding swimming pools used as storage tanks.~~

~~(c) Rockbeds.~~

~~(d) Thermostats and other control devices.~~

~~(e) Heat exchange devices.~~

~~(f) Pumps and fans.~~

~~(g) Roof ponds.~~

~~(h) Freestanding thermal containers.~~

~~(i) Pipes, ducts, refrigerant handling systems, and other equipment used to interconnect such systems; however, conventional backup systems of any type are not included in this definition.~~

~~(j) Windmills.~~

~~(k) Wind-driven generators.~~

~~(l) Power conditioning and storage devices that use wind energy to generate electricity or mechanical forms of energy.~~

~~(m) Pipes and other equipment used to transmit hot geothermal water to a dwelling or structure from a geothermal deposit.~~

(14)~~(15)~~ "New business" means:

(a)1. A business or organization establishing 10 or more new jobs to employ 10 or more full-time employees in this state, paying an average wage for such new jobs that is above the average wage in the area, which principally engages in any one or more of the following operations:

a. Manufactures, processes, compounds, fabricates, or produces for sale items of tangible personal property at a fixed location and which comprises an industrial or manufacturing plant; or

b. Is a target industry business as defined in s. 288.106(2)(q);

2. A business or organization establishing 25 or more new jobs to employ 25 or more full-time employees in this state, the sales factor of which, as defined by s. 220.15(5), for the facility with respect to which it requests an economic development ad valorem tax exemption is less than 0.50 for each year the exemption is claimed; or

3. An office space in this state owned and used by a business or organization newly domiciled in this state; provided such office space houses 50 or more full-time employees of such business or organization; provided that such business or organization office first begins operation on a site clearly separate from any other commercial or industrial operation owned by the same business or organization.

(b) Any business or organization located in an enterprise

zone or brownfield area that first begins operation on a site clearly separate from any other commercial or industrial operation owned by the same business or organization.

(c) A business or organization that is situated on property annexed into a municipality and that, at the time of the annexation, is receiving an economic development ad valorem tax exemption from the county under s. 196.1995.

(15)~~(16)~~ "Expansion of an existing business" means:

(a)1. A business or organization establishing 10 or more new jobs to employ 10 or more full-time employees in this state, paying an average wage for such new jobs that is above the average wage in the area, which principally engages in any of the operations referred to in subparagraph (14)(a)1. ~~(15)(a)1.~~; or

2. A business or organization establishing 25 or more new jobs to employ 25 or more full-time employees in this state, the sales factor of which, as defined by s. 220.15(5), for the facility with respect to which it requests an economic development ad valorem tax exemption is less than 0.50 for each year the exemption is claimed; provided that such business increases operations on a site located within the same county, municipality, or both colocated with a commercial or industrial operation owned by the same business or organization under common control with the same business or organization, resulting in a net increase in employment of not less than 10 percent or an increase in productive output or sales of not less than 10 percent.

(b) Any business or organization located in an enterprise zone or brownfield area that increases operations on a site

located within the same zone or area colocated with a commercial or industrial operation owned by the same business or organization under common control with the same business or organization.

(16)~~(17)~~ "Permanent resident" means a person who has established a permanent residence as defined in subsection (17) ~~(18)~~.

(17)~~(18)~~ "Permanent residence" means that place where a person has his or her true, fixed, and permanent home and principal establishment to which, whenever absent, he or she has the intention of returning. A person may have only one permanent residence at a time; and, once a permanent residence is established in a foreign state or country, it is presumed to continue until the person shows that a change has occurred.

(18)~~(19)~~ "Enterprise zone" means an area designated as an enterprise zone pursuant to s. 290.0065. This subsection expires on the date specified in s. 290.016 for the expiration of the Florida Enterprise Zone Act.

(19)~~(20)~~ "Ex-servicemember" means any person who has served as a member of the United States Armed Forces on active duty or state active duty, a member of the Florida National Guard, or a member of the United States Reserve Forces.

Section 6. Subsection (2) of section 196.121, Florida Statutes, is amended to read:

196.121 Homestead exemptions; forms.—

(2) The forms shall require the taxpayer to furnish certain information to the property appraiser for the purpose of determining that the taxpayer is a permanent resident as defined in s. 196.012(16) ~~196.012(17)~~. Such information may include, but

need not be limited to, the factors enumerated in s. 196.015.

Section 7. Subsections (6) and (8), paragraph (d) of subsection (9), and paragraph (d) of subsection (11) of section 196.1995, Florida Statutes, are amended to read:

196.1995 Economic development ad valorem tax exemption.—

(6) With respect to a new business as defined by s. 196.012(14)(c) ~~196.012(15)(c)~~, the municipality annexing the property on which the business is situated may grant an economic development ad valorem tax exemption under this section to that business for a period that will expire upon the expiration of the exemption granted by the county. If the county renews the exemption under subsection (7), the municipality may also extend its exemption. A municipal economic development ad valorem tax exemption granted under this subsection may not extend beyond the duration of the county exemption.

(8) Any person, firm, or corporation which desires an economic development ad valorem tax exemption shall, in the year the exemption is desired to take effect, file a written application on a form prescribed by the department with the board of county commissioners or the governing authority of the municipality, or both. The application shall request the adoption of an ordinance granting the applicant an exemption pursuant to this section and shall include the following information:

(a) The name and location of the new business or the expansion of an existing business;

(b) A description of the improvements to real property for which an exemption is requested and the date of commencement of construction of such improvements;

(c) A description of the tangible personal property for which an exemption is requested and the dates when such property was or is to be purchased;

(d) Proof, to the satisfaction of the board of county commissioners or the governing authority of the municipality, that the applicant is a new business or an expansion of an existing business, as defined in s. 196.012~~(15) or (16)~~;

(e) The number of jobs the applicant expects to create along with the average wage of the jobs and whether the jobs are full-time or part-time;

(f) The expected time schedule for job creation; and

(g) Other information deemed necessary or appropriate by the department, county, or municipality.

(9) Before it takes action on the application, the board of county commissioners or the governing authority of the municipality shall deliver a copy of the application to the property appraiser of the county. After careful consideration, the property appraiser shall report the following information to the board of county commissioners or the governing authority of the municipality:

(d) A determination as to whether the property for which an exemption is requested is to be incorporated into a new business or the expansion of an existing business, as defined in s. 196.012~~(15) or (16)~~, or into neither, which determination the property appraiser shall also affix to the face of the application. Upon the request of the property appraiser, the department shall provide to him or her such information as it may have available to assist in making such determination.

(11) An ordinance granting an exemption under this section

shall be adopted in the same manner as any other ordinance of the county or municipality and shall include the following:

(d) A finding that the business named in the ordinance meets the requirements of s. 196.012(14) or (15) ~~196.012 (15) or (16)~~.

Section 8. Section 196.175, Florida Statutes, is repealed.

Section 9. This act shall take effect July 1, 2013, and applies to assessments beginning January 1, 2014.

April 17, 2013

The Honorable Joe Negron
Senate Appropriations Committee
404 S. Monroe St., 201C
Tallahassee, FL 32399-1100

Dear Chair Negron:

I respectfully request that my bill, SB 1064/Assessment of Residential and Nonhomestead Real Property, be placed on the agenda of the Senate Appropriations Committee at the earliest possible time. The bill was favorably considered by the Senate Appropriations Sub-Committee on Finance and Tax April 17.

This bill implements part of the 2008 Constitutional Amendment which prohibits the consideration of the installation of a renewable energy source device in assessing the value of real property.

Please contact me if you have any questions. I appreciate your consideration.

Sincerely,

Jack Latvala
State Senator
District 20

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

PCS/CS/SB 1132 makes a number of revisions to statutes addressing the functions and responsibilities of the Florida Department of Transportation (FDOT or department) and various transportation issues.

The bill contains several issues that will impact state revenues, most of which have an indeterminate or negligible fiscal impact. Please see Section V.

The bill:

- Extends the Florida Transportation Commission's oversight of expressway and bridge authorities to regional transportation finance authorities created under a new ch. 345, F.S., and repeals provisions relating to the Florida Statewide Passenger Rail Commission.
- Establishes the FDOT as the agency responsible for administering the small county dredging program and sunsets the program on July 1, 2018.
- Provides funding for space transportation projects from the State Transportation Trust Fund (STTF).

- Authorizes the FDOT to fund up to 100 percent of the cost of strategic airport investment projects under specified conditions.
- Prohibits the FDOT from entering into any lease-purchase agreement with any expressway authority, regional transportation authority, or other entity and preserves existing lease-purchase agreements.
- Revises the terms and conditions under which the FDOT may sell or lease properties acquired for transportation rights-of-way.
- Amends the process that the FDOT must follow relating to proposals to enter into a lease of the FDOT property for joint public-private development or commercial development.
- Revises provisions relating to the uses of fees generated from certain tolls to include the design and construction of a fire station; revises provisions relating to the transfer of certain excess revenues; and removes authority of a water management district to issue bonds or notes which pledge excess toll revenues.
- Revises provisions relating to metropolitan planning organization (MPO) designation to conform language to federal law, provides a cap on the number of voting members of an MPO re-designated as specified, provides that certain authorities or agencies in metropolitan areas may be provided voting membership on the MPO, and makes editorial changes to eliminate redundancy and provide clarity.
- Authorizes Enterprise Florida, Inc., to be a consultant to the FDOT for consideration of expenditures associated with and contracts for economic development transportation projects and revises the requirements for those project contracts between the FDOT and a governmental entity.
- Repeals the Transportation Corporation Act and other obsolete provisions related to the Act.
- Includes projects that provide intermodal connectivity with spaceports as eligible for loans from the State-funded Infrastructure Bank.
- Expands eligibility of intercity bus companies to compete for federal and state program funding.
- Revises the types of eligible projects and criteria of the Intermodal Development Program.
- Creates the Florida Regional Transportation Finance Authority Act authorizing counties to form a regional tollway authority that can construct, maintain, and operate transportation projects in a region of the state.
- Renames the Northwest Florida Transportation Corridor Authority as the Northwest Florida Regional Transportation Finance Authority and revises related provisions.
- Creates chapter 345, F.S., to authorize the formation of regional transportation finance authorities.
- Creates the Santa Rosa-Escambia Regional Transportation Finance Authority and the Suncoast Regional Transportation Finance Authority.
- Provides for the transfer of the governance and control of the Mid-Bay Bridge Authority System to the Northwest Florida Regional Transportation Finance Authority.
- Renames the Orlando-Orange County Expressway Authority as the Central Florida Expressway Authority and revises related provisions.
- Transfers all powers, governance, and control of the Osceola County Expressway System to the Central Florida Expressway Authority and repeals part V of ch. 348, F.S., on the same date that the Osceola County Expressway System is transferred.
- Revises provisions relating to mitigation of the environmental impacts of transportation projects.

- Requires public information systems located on water management district property to be approved by the FDOT and the Federal Highway Administration if approval is required by federal law.
- Prohibits the use of public block grant funds to pursue or promote the levy of new or additional taxes through public referenda.
- Repeals obsolete language, clarifies ambiguous language, and makes editorial, grammatical, and conforming changes.
- Provides an effective date.

This bill amends the following sections of the Florida Statutes: 20.23, 110.205, 311.22, 316.545, 331.360, 334.044, 335.06, 337.11, 337.14, 337.168, 337.25, 337.251, 338.161, 338.165, 338.26, 339.175, 339.2821, 339.55, 341.031, 341.053, 343.80, 343.805, 343.81, 343.82, 343.83, 343.835, 343.84, 343.85, 343.875, 343.89, 343.922, 343.922, 348.751, 348.752, 348.753, 348.754, 348.7543, 348.7544, 348.7545, 348.7546, 348.7547, 348.755, 348.756, 348.757, 348.758, 348.759, 348.760, 348.761, 348.765, 369.317, 369.324, 373.4137, 373.618, and 341.052.

The bill repeals the following sections of the Florida Statutes: 11.45(3)(m), 316.530(3), 339.401, 339.402, 339.403, 339.404, 339.405, 339.406, 339.407, 339.408, 339.409, 339.410, 339.411, 339.412, 339.414, 339.415, 339.416, 339.417, 339.418, 339.419, 339.420, 339.421.

The bill creates the following sections of the Florida Statutes: 332.007(11), and chapter 345, consisting of the following sections of the Florida Statutes: 345.0001, 345.0002, 345.0003, 345.0004, 345.0005, 345.0006, 345.0007, 345.0008, 345.0009, 345.0010, 345.0011, 345.0012, 345.0013, 345.0014, 345.0015, and 345.0016.

II. Present Situation:

Florida Transportation Corporation Act and Related Audit Authority

Sections 339.401 through 339.421, F.S., create the "Florida Transportation Corporation Act." This act was created in 1988[1] to allow certain nonprofit corporations authorized by the FDOT to act on FDOT's behalf in assisting with project planning and design, assembling right-of-way and financial support, and generally promoting projects included in the FDOT's adopted five-year work program. The act contains various statutory provisions related to the formation, operation, and dissolution of these corporations.

Among the specific activities of transportation corporations authorized under the act are:
- Acquiring, holding, investing, and administering property and transferring title to the FDOT for project development;
- Performing preliminary and final alignment studies;
- Receiving contributions of land for right-of-way and case donations to be applied to the purchase of right-of-way or design and construction projects; and,
- Making official presentations to groups concerning the project and issuing press releases and promotional materials.

[1] s. 3, ch. 88-271, Laws of Florida.

Florida transportation corporations cannot issue bonds and are not empowered to enter into construction contracts or to undertake construction. They are enabled to otherwise borrow money or accept donations to help defray expenses or needs associated with the corporation or a particular transportation project.

According to the FDOT, after a limited number of inquiries immediately following passage of the act, the FDOT has received no further requests for information or other indications of interest in the act, and the provisions of the act have never been used. As a result, the Auditor General's authority to audit corporations acting on behalf of the FDOT in s. 11.45(3)(m), F.S., has never been exercised, and the provisions of Fla. Admin. Code Rule Chapter 14-35, which implement the act, have never been applied.

Overlapping Responsibility for Passenger Rail Systems

Florida Transportation Commission

The Florida Transportation Commission (FTC) has long been charged with periodically reviewing the status of the state transportation system, including rail and other component modes, and with recommending system improvements to the Governor and the Legislature. Beginning in 2007, the Legislature also directed the FTC in s. 20.23(2)(b)8., F.S., to:

> Monitor the efficiency, productivity, and management of the authorities created under chapters 348 and 349, F.S.,[2] including any authority formed using the provisions of part I of ch. 348, F.S., and any authority formed under ch. 343, F.S., which is not monitored under subsection (3). The commission shall also conduct periodic reviews of each authority's operations and budget, acquisition of property, management of revenue and bond proceeds, and compliance with applicable laws and generally accepted accounting principles.

The only publicly funded passenger rail system in the state (Tri-Rail) then and now existing is operated by the South Florida Regional Transportation Authority, which is established in ch. 343, F.S.

Florida Statewide Passenger Rail Commission (FSPRC)

In 2009, the Florida Legislature provided a statutory framework for enhancing the consideration of passenger rail as a modal choice in the development and operation of Florida's transportation network.[3] The Legislature created the Florida Rail Enterprise, modeled after the Florida Turnpike

[2] Chapter 343, F.S., entities include the South Florida Regional Transportation Authority, the Central Florida Regional Transportation Authority, the Northwest Florida Transportation Corridor Authority, and the Tampa Bay Area Regional Transportation Authority. Chapter 348, F.S., entities include the Miami-Dade Expressway Authority, the Tampa-Hillsborough County Expressway Authority, the Orlando-Orange County Expressway Authority, the Santa Rosa Bay Bridge Authority, and the Osceola County Expressway Authority. Chapter 349, F.S., establishes the Jacksonville Transportation Authority.

[3] Chapter 2011-271, L.O.F.

Enterprise, to coordinate the development and operation of passenger rail services statewide, and established the FSPRC to monitor, advise, and review publicly-funded passenger rail systems.[4]

Specifically, and similar to the duty of the FTC, the Legislature charged the FSPRC in s. 20.23(3)(b)1., F.S., with the function of:

> Monitoring the efficiency, productivity, and management of all publicly funded passenger rail systems in the state, including, but not limited to, any authority created under chapters 343, 349, or 163, F.S., if the authority receives public funds for the provision of passenger rail service. The commission shall advise each monitored authority of its findings and recommendations. The commission shall also conduct periodic reviews of each monitored authority's passenger rail and associated transit operations and budget, acquisition of property, management of revenue and bond proceeds, and compliance with applicable laws and generally accepted accounting principles. The commission may seek the assistance of the Auditor General in conducting such reviews and shall report the findings of such reviews to the Legislature. This paragraph does not preclude the Florida Transportation Commission from conducting its performance and work program monitoring responsibilities.

State Public Transportation and Modal Administrator

Recognizing the significant role played by freight mobility as an economic driver for the state, the FDOT recently created an Office of Freight, Logistics, and Passenger Operations, and the 2012 Legislature directed the FDOT to develop a Freight Mobility and Trade Plan to assist in making freight mobility investments that contribute to the economic growth of the state.[5] As part of its focus on freight and intermodal issues, the FDOT requested approval from the Department of Management Services (DMS) to change the title of an existing Senior Management Service class position, from State Public Transportation and Modal Administrator, to State Freight and Logistics Administrator.[6] The DMS approved the requested change on September 2, 2011.

Small County Dredging Program

The Small County Dredging Program was created by the Legislature in 2005 assist in financing certain dredging improvements at small ports in counties with a population of less than 300,000 persons based on the last official United States Census, but which were not eligible for existing Florida Seaport Transportation and Economic Development (FSTED) funding.[7] Under the program, funding is authorized for dredging or deepening of channels, turning basins, or harbors

[4] The first phase (31 miles) of a commuter rail project, SunRail, – an eventual 61-mile stretch of existing rail freight tracks through Orange, Seminole, Volusia and Osceola counties and the City of Orlando -- is under construction, and service could begin as early as 2014.
[5] Chapter 2012-174, L.O.F.
[6] Section 110.205(2)(j), F.S.
[7] Section 311.22, F.S.

on a 25-percent local matching basis with any port authority[8] that meets environmental permitting and other specified criteria. There are at least seven entities meeting the definition of "port authority" in counties with less than 300,000 population: the Panama City Port Authority; the Citrus County Port Authority; the Port St. Joe Port Authority; the Hernando County Port Authority; the Ocean, Highway, and Port Authority (Nassau County); the Putnam County Port Authority; and the St. Lucie County Port Authority.

The program was initially funded with a $5 million appropriation to the State Transportation Trust Fund to provide a 50-percent state match. An additional $9.2 million was provided in the 2006-2007 General Appropriations Acts to provide a 75-percent state match. No further funding has been provided to the program.

Wrecker Permits/Disabled Vehicles

Current s. 316.515(8), F.S., allows wreckers to tow disabled vehicles when the combination of wrecker and towed vehicle are over legal weight, provided that the wrecker is operating under a special use permit. This provision was passed during the 1997 session. During the same session, s. 316.550(5), F.S., was passed to authorize the FDOT to issue such overweight permits.[9] However, s. 316.530(3), F.S., (originally passed as s. 316.205(3) in 1976) which allows wreckers to tow disabled vehicles when the combination of wrecker and towed vehicle are over the legal weight without a special use permit, was inadvertently overlooked and still remains in current law, despite the direct conflict with subsequently passed legislation.

As the 1997 changes rendered the provisions of s. 316.530(3), F.S., obsolete, the last-passed provisions of s. 316.515(8), F.S., and s. 316.550(5), F.S., have been enforced since that time.

Commercial Motor Vehicles/Auxiliary Power Units

Section 756 of the Energy Policy Act of 2005, "Idle Reduction and Energy Conservation Deployment Program," amended 23 U.S.C. 127(a)(12) to allow for a national 400-pound exemption on the maximum weight limit on the interstate system for the additional weight of idling reduction technology ("auxiliary power units" or "APUs")[10] on heavy-duty vehicles. Section 316.545(3)(c), F.S., was created by the 2010 Legislature to provide for a 400-pound reduction in the gross weight of commercial motor vehicles equipped with idling reduction technology when calculating a penalty for exceeding maximum weight limits. The reauthorized Federal-aid highway program, Moving Ahead for Progress in the 21st Century (MAP-21) further amended 23 U.S.C. 127(a)(12) to increase from 400 to 550 pounds the allowable exemption for additional weight of APUs.

[8] Defined in s. 315.02(2), F.S., to mean any port authority in Florida created by or pursuant to the provisions of any general or special law or any district or board of county commissioners acting as a port authority under or pursuant to the provisions of any general or special law.

[9] These changes are consistent with federal law, specifically 23 U.S.C. 127(a) and 23 C.F.R. 658.17, which authorize states to permit nondivisible loads and vehicles (defined to include emergency response vehicles) exceeding maximum weight limits upon the issuance of special permits in accordance with state law.

[10] An APU is a portable, truck-mounted system that can provide climate control and power for trucks without idling, keeping drivers comfortable during resting periods while reducing negative economic impact (fuel costs) and environmental impact (greenhouse gases and other pollutants, as well as noise).

Space Transportation Facilities

The FDOT and Space Florida are currently authorized to enter into a joint participation agreement to effectuate the provisions of ch. 331, F.S., and the FDOT is authorized to allocate funds for such purposes in its five-year work program. The FDOT is prohibited from funding the administrative or operational costs of Space Florida.

Space Florida is required to develop a spaceport master plan for expansion and modernization of space transportation facilities within defined spaceport territories, containing recommended projects, and is required to submit the plan to the FDOT. The FDOT may include the plan within the FDOT's five-year work program of qualifying aerospace discretionary capacity improvement projects and is authorized to participate in the capital cost of eligible spaceport discretionary capacity improvement projects, subject to the availability of appropriated funds. The plan is required to identify appropriate funding levels and include recommendations on appropriate sources of revenue that may be developed to contribute to the STTF. The FDOT's annual LBR must be based on the proposed funding requested for approved spaceport discretionary capacity improvement projects.[11]

The FDOT Adopted Work Program included $16 million for spaceport projects in both Fiscal Year 2011-2012 and Fiscal Year 2012-2013. The FDOT Final Tentative Work Program for Fiscal Years 2014-2018 includes $20 million for Space Florida transportation projects in each of the five years.[12]

State Aviation Program

Section 332.007, F.S., requires the FDOT to prepare and continuously update an aviation and airport work program that separately identifies development projects and discretionary capacity improvement projects. Subject to the availability of appropriated funds, FDOT is authorized to participate in the capital cost of eligible public airport and aviation development projects,[13] unless otherwise directed as specified, at percentage rates that vary depending on factors such as available federal funding. The FDOT is also authorized, subject to the availability of appropriated funds in addition to aviation fuel tax revenues, to participate in the capital cost of eligible public airport and aviation discretionary capacity improvement projects,[14] again at percentage rates that vary. The FDOT notes that the Legislature created a Strategic Investment Initiative within its Seaport Office during the 2012 Legislative Session and that the FDOT does not have a similar investment initiative or authority for the Aviation Program.

[11] "Spaceport discretionary capacity improvement projects" is defined in s. 331.303(21), F.S., to mean capacity improvements that enhance space transportation capacity at spaceports that have had one or more orbital or suborbital flights during the previous calendar year or have an agreement in writing for installation of one or more regularly scheduled orbital or suborbital flights upon the commitment of funds for stipulated spaceport capital improvements.
[12] FDOT email, February 7, 2013, on file in the Senate Transportation Committee.
[13] In short, defined in s. 332.004(4), F.S., as "…any activity associated with the design, construction, purchase, improvement, or repair of a public-use airport or portion thereof…."
[14] Defined in s. 332.004(5), F.S., as "…capacity improvements … which enhance intercontinental capacity at [specified] airports…."

Toll Authorities/Lease-Purchase Agreements

In addition to the FDOT, various authorities are currently operating toll facilities and collecting and reinvesting toll revenues. Aside from Florida's Turnpike Enterprise (which is part of the FDOT), most, but not all, of the toll authorities are established under ch. 348, F.S., entitled "Expressway and Bridge Authorities." Various sections of ch. 348, F.S., provide the toll authorities the ability to enter into lease-purchase agreements with the FDOT. In addition to authorities created under ch. 348, F.S., two transportation authorities are authorized under ch. 343, F.S., to enter into lease-purchase agreements with the FDOT, and a bridge authority established by special act of the Legislature is similarly authorized. The FDOT has entered into lease-purchase agreements with some, but not all, of these authorities.

The FDOT is authorized to enter these agreements by s. 334.044, F.S. Additionally, s. 339.08(1)(g), F.S., allows the FDOT to lend or pay a portion of the operation and maintenance (O&M) and capital costs of any revenue-producing transportation project located on the SHS or that is demonstrated to relieve traffic congestion on the SHS. The FDOT pays such costs using funds from the STTF.

In a typical lease-purchase agreement between the FDOT and a toll authority, the FDOT, as lessee, agrees to pay the O&M (which usually includes replacement and renewal, or the R&R) costs of the associated toll facility. Upon completion of the lease-purchase agreement, ownership of the facility would be transferred to the State and the FDOT would retain all revenues collected, as well as the O&M responsibility.

As required by existing agreements, the FDOT paid $9.2 million in the O&M expenses in FY 2011-2012 and an additional $32.8 million in the R&R expenses, periodic maintenance, and toll equipment capital costs, on behalf of the authorities. These funds accrue to an authority's long-term debt owed to the FDOT. When the O&M and the R&R expenses are not reimbursed by the toll authority on a current basis, *e.g.*, monthly or annually, the STTF monetary advances are added to the authority's long-term debt due to the FDOT. As of June 30, 2012, debt owed to FDOT from various toll authorities for expenses paid totaled approximately $419.7 million.

Roadside Enhancement and Maintenance Requirements

The FDOT is responsible for enhancing environment benefits, preventing roadside erosion, conserving natural roadside growth and scenery, and providing for the implementation and maintenance of roadside conservation, enhancement, and stabilization programs.[15] The FDOT is required to purchase all plant materials from Florida commercial nursery stock on a uniform competitive basis. This provision conflicts with federal requirements that specify a state transportation department cannot require the use of materials produced in state or restrict the use of materials produced out of state.[16] Failure to comply with federal requirements for purchases of plant material for roadside landscaping may subject the FDOT to a significant federal funds penalty, generally 10 percent of annual highway constructions funds.[17]

[15] *See* s. 334.044(26), F.S.
[16] See 23 C.F.R. s. 635.409.
[17] *See* 23 U.S.C. s. 131(b).

Access to State Park Roads

Section 335.06, F.S., currently requires the FDOT to maintain any road that is part of the State Highway System and provides access to property within the state park system. Local governments are required to maintain roads that are part of the county road or city street system.

Vehicle Registration/FDOT Contractors

Section 320.02(1), F.S., provides that every owner or person in charge of a motor vehicle operated or driven on the roads of this state shall register the vehicle in this state, except as otherwise provided. Section 320.37, F.S., provides that the registration requirement (and license plate display requirements) does not apply to a motor vehicle owned by a nonresident if the nonresident has complied with the registration law of the foreign country, state, territory, or federal district of the owner's residence. However, s. 320.38, F.S., provides that if a nonresident accepts employment or engages in any trade, profession, or occupation in this state, the nonresident must register his or her motor vehicle in this state within 10 days after beginning such employment.

Section 337.11(13), F.S., requires each road or bridge construction or maintenance contract let by the FDOT to contain a provision requiring the contractor to provide proof to the FDOT, in the form of a notarized affidavit from the contractor, that all motor vehicles that he or she operates or causes to be operated in this state are registered in compliance with ch. 320, F.S.

Transportation Projects/Prequalification/Bidding

Section 337.14(1), F.S., requires that persons "…desiring to bid for the performance of any construction contract in excess of $250,000 which the department proposes to let must first be certified by the department as qualified…." Section 337.14(2), F.S., provides: "Certification shall be necessary in order to bid on a road, bridge, or public transportation construction contract of more than $250,000." The purpose of certification is to ensure professional and financial competence relating to the performance of construction contracts by evaluating bidders "…with respect to equipment, past record, experience, financial resources, and organizational personnel of the applicant necessary to perform the specific class of work for which the person seeks certification."

This language could be interpreted as being tied to a bid amount, *i.e.*, so long as the *bid* is not in excess of $250,000, a person would not be required to first be certified prior to bidding. The FDOT's bid solicitation notices, however, currently advise: "A prequalified contractor must have a current certificate of qualification in accordance with Rule Chapter 14-22, F.A.C., on the date of the letting to bid on construction projects over $250,000 as established by the Department's budget." Consequently, persons seeking to bid on construction contracts in excess of $250,000 are currently required to be qualified on the date of the letting.

For comparison, revisions to s. 337.14(1), F.S., during the last legislative session with respect to financial statements submitted in connection with the performance of construction contracts of less than $1 million expressly tied that submission to proposed budget estimates, rather than to the bid amount.

Public Records/Identities of Potential Bidders

Section 337.168(2), F.S., currently provides that a document revealing the identity of persons who have requested or obtained bid packages, plans, or specifications pertaining to any project to be let by the department is confidential and exempt from the provisions of s. 119.07(1), F.S., for the period which begins 2 working days prior to the deadline for obtaining bid packages, plans, or specifications and ends with the letting of the bid. The FDOT maintains a website that posts a list of persons who have requested or obtained bid packages, plans, or specifications for a given project.[18] The list is removed from the website two working days prior to the deadline for obtaining bid packages, plans, or specifications.

The Florida Transportation Builders' Association advises that small contractors need and rely on access to the identities of potential bidders that are not made exempt under s. 337.168(2), F.S., for the purpose of submitting sub-contract bids to general contractors for their use in preparing bids for the FDOT projects.

Disposal and Lease of Real and Personal Property

The FDOT is authorized to purchase, lease, exchange, or otherwise acquire any land, property interests, buildings or other improvements necessary for rights-of-way for existing or anticipated transportation facilities on the State Highway System, on the State Park Road System, or in an FDOT designated rail or transportation corridor. The FDOT may also accept donations of land, building, or other improvements for transportation rights-of-way and may compensate an entity by providing replacement facilities when the land, building, or other improvements are needed for transportation purposes but are held by a federal, state, or local governmental entity and used for public purposes other than transportation.[19]

The FDOT is required to conduct a complete inventory of all real or personal property immediately upon acquisition, including an itemized listing of all appliances, fixtures, and other severable items, a statement of the location or site of each piece of realty, structure, or severable item, and the serial number assigned to each.[20] The FDOT must evaluate the inventory of real property which has been owned for at least 10 years and which is not within a transportation corridor or the right-of-way of a transportation facility. If the property is not located within a transportation corridor or is not needed for a transportation facility, FDOT is authorized to dispose of the property.[21] According to the FDOT, 85 percent of its currently-owned surplus property is valued at under $50,000.

[18] http://www.dot.state.fl.us/cc-admin/Letting_Project_Info.shtm: Retrieved March 1, 2013. To access a list, click on a letting date in the near future under "2013 Lettings" and then choose "Proposal Holders" under "Important Letting Documents."
[19] Section 337.25(1), F.S.
[20] Section 337.25(2), F.S.
[21] Section 337.25(3), F.S.

Sale of Property

The FDOT is authorized to sell any land, building, or other real or personal property it acquired if the FDOT determines the property is not needed for a transportation facility.[22] The FDOT is required to first offer the property ("first right of refusal") to the local government in whose jurisdiction the property is located, with the following exceptions:

- If in the FDOT's discretion, public sale would be inequitable, the sale of the property may be negotiated, at no less than fair market value as determined by an independent appraisal, with the owner holding title to abutting property.[23]
- Property acquired for use as a borrow pit may be sold at no less than fair market value to the owner of abutting land from which the pit was originally acquired, if the pit is no longer needed.[24]
- Property acquired by a county or the FDOT using constitutional gas tax funds for right of way or borrow pit may be conveyed to a county without consideration if the property is no longer used or needed by the FDOT, and the county may sell the property on receipt of competitive bids.[25]
- Property donated to the state for transportation purposes, on which a facility as not been constructed for at least 5 years, and for which no plans for construction of a facility have been prepared, and that is not located on a transportation corridor, may be re-conveyed to the original donor of the property by a governmental entity[26]
- Property which was originally acquired for persons displaced by transportation projects provided the state receives no less than its investment in the properties, or fair market value, whichever is lower. The FDOT may negotiate the sale of property as replacement housing only to persons actually displaced by a project. Dispositions to any other person must be for fair market value. [27]

Once the FDOT determines the property is not needed for a transportation facility and has extended and received rejection of required first rights of refusal, FDOT is also authorized to:

- Negotiate the sale of property if its value is $10,000 or less as determined by FDOT estimate;[28]
- Sell the property to the highest bidder through "due advertisement" of receipt of sealed competitive bids or by public auction if its value exceeds $10,000 as determined by the FDOT estimate;[29]
- Determine the fair market value of property through appraisal conducted by an FDOT appraiser, if the FDOT begins the process for disposing of property on its own initiative,

[22] Section 337.25(4), F.S.

[26] Section 337.25(4)(g), F.S.
[27] Section 337.25(4)(i), F.S.
[28] Section 337.25(4)(a), F.S.
[29] Section 337.25(4)(b), F.S.

either by authorized negotiation or by authorized receipt of sealed competitive bids or public auction;[30]

- Convey the property without consideration to a governmental entity if the property is to be used for a public purpose;[31] and
- Use the projected maintenance costs of the property over the next five years to offset the market value in establishing a value for disposal of the property, even if that value is zero, if the FDOT determines that the property will require significant costs to be incurred or that continued ownership of the property exposes the FDOT to significant liability risks.[32]

Lease of Property

The FDOT is further authorized to convey a leasehold interest for commercial or other purposes to any acquired land, building, or other property, real or personal, subject to the following:[33] the FDOT may negotiate a lease at the prevailing market value with the owner from whom the property was acquired, with the holders of leasehold estates existing at the time of the FDOT's acquisition, or, if public bidding would be inequitable, with the owner of privately owned abutting property, after reasonable notice to all other abutting property owners.[34] All other leases must be by competitive bid,[35] and limited to five years; however the FDOT may renegotiate a lease for an additional five year term without rebidding. Each lease must require that any improvements made to the property during the lease term be removed at the lessee's expense.[36] Property that is to be used for a public purpose, including a fair, art show, or other educational, cultural , or fundraising activity may be leased at no cost to a governmental entity or school board.[37]If property is to be used for a public purpose, including a fair, art show, or other educational, cultural, or fundraising activity, the property may be leased without consideration to a governmental entity or school board. The FDOT may enter into a long-term lease agreement without compensation with certain public ports for rail corridors used in the operation of a short-line railroad to the port.[38]

The appraisals currently required under s. 337.25(4)(c) and (d), F.S., must be prepared in accordance with the FDOT guidelines and rules by an independent appraiser certified by the FDOT. When "due advertisement" is required, an advertisement in a newspaper of general circulation in the area of the improvements of not less than 14 calendar days prior to the date of the receipt of bids or the date on which a public auction is to be held satisfies the requirement.[39]

Unsolicited Lease Proposals

Section 337.251, F.S., *Lease of property for joint public-private development and areas above or below department property*, authorizes the FDOT to request proposals for the lease of the FDOT

[30] Section 337.25(4)(e), F.S.
[31] Section 337.25(4)(h), F.S.
[32] Section 337.25(4)(j), F.S.
[33] Section 337.25(5), F.S.
[34] Section 337.25(5)(a), F.S.
[35] Section 337.25(5)(b), F.S.
[36] Section 337.25(5)(d), F.S.
[37] Section 337.25(5)(e), F.S.
[38] Section 337.25(5)(h), F.S.
[39] Section 337.25(8), F.S.

property for joint public-private development or commercial development. The FDOT may also receive and consider unsolicited proposals for such uses. If the FDOT receives an unsolicited proposal to negotiate a lease, the FDOT must publish a notice in a newspaper of general circulation at least once a week for two weeks, stating that it has received the proposal and will accept, for 60 days after the date of publication, other proposals for use of the space. The FDOT must also mail a copy of the notice to each local government in the affected area.

Any unsolicited lease proposal must be selected based on competitive bidding, and the FDOT is authorized to consider such factors as the value of property exchanges, the cost of construction, and other recurring costs for the benefit of the FDOT by the lessee in lieu of direct revenue to the FDOT if such other factors are of equal value including innovative proposals to involve minority businesses. Before entering into any lease, the FDOT must determine that the property subject to the lease has a permanent transportation use related to the FDOT responsibilities, has the potential for such future transportation uses, or constitutes airspace or subsurface rights attached to property having such uses, and is therefore not available for sale as surplus property.

Section 334.30, F.S., *Public-private transportation facilities*, authorizes the FDOT to lease certain toll facilities through public-private partnerships and also authorizes the FDOT to receive unsolicited proposals. That section directs the FDOT to establish by rule an application fee sufficient to pay the costs of evaluating a proposal. The FDOT is further authorized to engage the services of private consultants to assist in the evaluation.

Unlike s. 337.251, F.S., before approving a proposal, the FDOT must determine that the proposed project is in the public's best interest; would not require state funds to be used unless the project is on the SHS; would have adequate safeguards in place to ensure that no additional costs or service disruptions would be realized by the traveling public and residents of the state in the event of default or cancellation of the agreement by the FDOT; would have adequate safeguards in place to ensure that the department or the private entity has the opportunity to add capacity to the proposed project and other transportation facilities serving similar origins and destinations; and would be owned by the FDOT upon completion or termination of the agreement.[40] In addition, before awarding a contract for lease of an existing toll facility through a public-private partnership, the FDOT is required to provide an independent analysis of the proposed lease that demonstrates the cost-effectiveness and overall public benefit.

If the FDOT receives an unsolicited proposal for a lease through a public-private partnership, the FDOT must publish a notice in the Florida Administrative Weekly and a newspaper of general circulation at least once a week for two weeks stating that the FDOT has received the proposal and will accept, for 120 days after the initial date of publication, other proposals for the same project purpose. The FDOT must also mail a copy of the notice to each local government in the affected area.

Toll Collection/Interoperable Facilities

During the 2012 Legislative Session, the Legislature passed both HB 599 and SB 1998, and both contained language relating to the FDOT authority to enter into agreements with public or

[40] The ownership requirement in s. 334.30, F.S., would not, of course, apply to a lease arrangement under s. 337.251, F.S.

private transportation facility owners (whose systems become interoperable with the FDOT's systems) for the use of the FDOT systems to collect and enforce for the owner tolls, fares, administrative fees, and other applicable charges due in connection with use of the owner's facility. The language, however, is not identical. Part of the last-passed version of the language contained in HB 599 is potentially ambiguous, leading to more than one possible interpretation, and part of needed language that passed in HB 599 was not included in SB 1998. Section 338.161, F.S., now reflects four different history notes highlighting the differences between the two 2012 bills.

Beeline-East Expressway and Navarre Bridge

Section 338.165(4), F.S., authorizes the FDOT to request the Division of Bond Finance to issue bonds secured by toll revenues collected on the Alligator Alley, the Sunshine Skyway Bridge, the Beeline-East Expressway, the Navarre Bridge, and the Pinellas Bayway to fund transportation projects located within the county or counties in which the project is located and contained in the FDOT's adopted work program. The Beeline-East Expressway (renamed the Beachline East Expressway) became part of the Turnpike Enterprise on July 1, 2012, pursuant to ch. 2012-128, L.O.F.[41] The Navarre Bridge is now county-owned and no longer used for toll revenue. The references to each facility in s. 338.165(4), F.S., are now obsolete.

Alligator Alley Excess Revenues

Section 338.26, F.S., provides that any excess revenues from Alligator Alley, after facility operation and maintenance, contractual obligations, reconstruction and restoration, and the development and operation of a fire station at mile marker 63,[42] *may* be transferred to the South Florida Water Management District (SFWMD) Everglades Fund for specified projects.

The FDOT advises that operation of the fire station is expected to begin in FY 2013-2014; and the FDOT finance plan, based on projections provided to the FDOT, contains the following funding for operation of the fire station:[43]

FY 2013-14	FY 2014-15	FY 2015-16	FY 2016-17	FY 2018-19
$1,200,000	$1,242,000	$1,285,470	$1,330,461	$1,377,028

With respect to transfers to the SFWMD, the FDOT and the SFWMD entered into a memorandum of understanding on June 30, 1997,[44] under which the FDOT agreed to a schedule of payments to the SFWMD totaling $63,589,000. The FDOT expects to be able to meet its obligations under the current payment schedule by Fiscal Year 2016 as follows:[45]

[41] See s. 338.165(10), F.S.
[42] The FDOT indicates that the fire station is currently under construction, and construction is funded by the FDOT. The FDOT notes that another fire station is located on the Alley in Broward County. Broward County provided the funding for construction of that station and provides the funding for its operation.
[43] The FDOT email, March 1, 2013, on file in the Senate Transportation Committee.
[44] On file in the Senate Transportation Committee.
[45] The FDOT email, March 1, 2013, on file in the Senate Transportation Committee.

FY 2013-14	FY 2014-15	FY 2015-16	FY 2016-17
$4,400,000	$5,000,000	$8,000,000	$7,064,000

The agreement further provides that prior to its expiration, the FDOT and the SFWMD will renegotiate the terms, conditions, and duration of the agreement, taking into account toll revenues from the Alley, future costs to operate and maintain the Alley, reconstruction and restoration activities of the Alley, the transportation funding needs of Broward and Collier counties pursuant to s. 338.165(2), F.S.,[46] and the continuing costs of the Everglades restoration projects.

Metropolitan Planning Organizations/Designation/Membership

Based on census data, the U.S. Bureau of the Census designates urbanized areas throughout the state. Federal law and rule (23 U.S.C. 134 and 23 C.F.R 450 Part C) require a metropolitan planning organization (MPO) to be designated for each urbanized area[47] or group of contiguous urbanized areas. In addition, federal law and rules specify the requirements for a MPO transportation planning and programming activities. These requirements are updated after each federal transportation reauthorization bill enacted by Congress. State law also includes provisions governing MPO activities. Section 339.175, F.S., paraphrases or restates some key federal requirements. In addition, state law includes provisions that go beyond the federal requirements. For example, federal requirements regarding MPO membership are very general, while state law is more specific.

Section 339.175(2)(a)2., F.S., currently provides that designation of an MPO be accomplished by agreement between the Governor and units of general-purpose local government representing at least 75 percent of the population of the urbanized area; however, the unit of general-purpose local government that represents the central city or cities within the MPO jurisdiction, as defined by the United State Bureau of the Census, must be a party to such agreement. This language has been superseded by revisions to 23 U.S.C. 134(d) and 23 C.F.R. 450.310(b), which now require designation to be accomplished by agreement between the Governor and units of general-purpose local government that together represent at least 75 percent of the population (including the largest incorporated city, based on population, as named by the Bureau of the Census) or in accordance with procedures established by applicable State or local law.

An existing MPO may be re-designated by agreement between the Governor and units of general-purpose local government that together represent at least 75 percent of the existing population in the area served, including the largest incorporated city.[48] Re-designation of an MPO is required whenever the existing MPO proposes to make a substantial change in the proportion of voting members on the existing MPO representing the largest incorporated city, other units of general-purpose local government served by the MPO, and the State; or a

[46] That section requires that if a revenue-producing project is on the State Highway System, any remaining toll revenue after discharge of indebtedness related to such project must be used for the construction, maintenance, or improvement of any road on the State Highway System within the county or counties in which the revenue-producing project is located.
[47] An urbanized area is defined by the U.S. Bureau of the Census and has a population of 50,000 or more.
[48] 23 C.F.R. 450.301(h) (2012).

substantial change in the decision-making authority or responsibility of the MPO, or in decision-making procedures established under the MPO bylaws.[49]

Current law does not authorize more than 19 members on an MPO in cases when the MPO is re-designated as a result of the expansion of an MPO to include a new urbanized area or the consolidation of two or more MPOs, even if the membership is already at 19 members.

Economic Development Transportation Projects

Florida has a number of economic development incentive programs used to recruit industry to Florida, or to persuade existing businesses to expand their operations. One such incentive exists in what is commonly referred to as the Road Fund, which is funded by the STTF and used to assist local government in paying for highway or other transportation infrastructure improvements that will benefit a relocating or expanding company. The amount appropriated for this transfer varies from year to year. The Legislature in 2012 repealed s. 288.063, F.S., in which the Road Fund was statutorily placed, and created s. 339.2821, F.S. The revisions did not change the purpose of the Road Fund but simply moved oversight of the fund from the DEO to the FDOT.[50]

The FDOT, in consultation with the DEO, is authorized under the new section to make and approve expenditures and contract with the appropriate government body for the direct costs of transportation projects. Current law specifies that as part of the contractual agreement between the FDOT and a governmental body, that the FDOT may only transfer funds on a quarterly basis, the governmental body must expend funds received in a timely manner, and the FDOT may only transfer funds after construction has begun on the facility of a business on whose behalf the award was made.

State-Funded Infrastructure Bank/Spaceports

Section 339.55, F.S., creates the state-funded infrastructure bank (SIB), which provides loans to government units and private entities to help fund transportation projects. The loans are repaid from revenues generated by the project, such as a toll road or other pledged resources. The repayments are then re-loaned to fund new transportation projects. A SIB loan may lend capital costs or provide credit enhancements for a transportation facility project on the SHS or for a project which provides intermodal connectivity with airports, seaports, rail facilities, and other transportation terminals. Loans from the SIB may bear interest at or below market interest rates, as determined by the FDOT. Repayment of any SIB loan must begin no later than 5 years after the project has been complete or, in the case of a highway project, the facility has opened to traffic, whichever is later, and must be repaid in 30 years.

[49] 23 C.F.R. 450.301(k) (2012).
[50] Budget Committee Final Analysis of SB 1998: http://www.flsenate.gov/Session/Bill/2012/1998/Analyses/M6TO2qtoNCs60=PL=Y=PL=DT9BT2bnWNo=%7C11/Public/Bills/1900-1999/1998/Analysis/s1998z2.TEDAS.PDF.

Intercity Bus Service/Funding Eligibility

The Federal Transit Administration's Intercity Bus Program (49 U.S.C. 5311(f)), is administered by the FDOT. Its purpose is to support and maintain intercity bus services, in order to preserve service through rural areas of the state. The FDOT provides matching funds as required by s. 339.135(4), F.S. Florida's statutory definition of "intercity bus service" is more restrictive than the federal definition, which limits the number of companies competing for funding.

Section 341.031(11), F.S., defines "intercity bus service" as regularly scheduled bus service for the general public which operates with limited stops over fixed routes connecting two or more urban areas not in close proximity; has the capacity for transporting baggage carried by passengers; makes meaningful connections with scheduled intercity bus service to more distant points, if such service is available; maintains schedule information in the National Official Bus Guide; and provides package express service incidental to passenger transportation. Greyhound Bus Lines is currently the only private, for-profit company operating intercity bus services in Florida that meets the statutory definition to receive federal and state intercity bus program funding, as it is the only company in Florida that maintains schedule information in the National Official Bus Guide and provides package express service incidental to passenger transportation.

Intermodal Development Program

Section 341.053, F.S., was originally enacted in 1990 to create the Intermodal Development Program administered by the FDOT to provide for major capital investments in fixed-guideway transportation systems, access to seaports, airports and other transportation terminals, and to assist in the development of dedicated bus lanes. The Legislature in 1999 added direction to the FDOT to develop a proposed intermodal development plan to connect Florida's airports, deepwater seaports, rail systems serving both passenger and freight, and major intermodal connectors to the Florida Intrastate Highway System facilities as the primary system for the movement of people and freight in this state.

Section 341.053(6), F.S., currently authorizes the FDOT to fund projects including major capital investments in public rail and fixed-guideway transportation facilities and systems which provide intermodal access; road, rail, intercity bus service, or fixed-guideway access to, from, or between seaports, airports, and other transportation terminals; construction of intermodal or multimodal terminals; development and construction of dedicated bus lanes; and projects which otherwise facilitate the intermodal or multimodal movement of people and goods.

Toll Facilities Revolving Trust Fund/Obsolete References

The Legislature repealed s. 338.251, F.S., during the 2012 Legislative Session.[51] That section created the Toll Facilities Revolving Trust Fund, which was a loan program created to develop and enhance the financial feasibility of revenue-producing road projects undertaken by local governmental entities and the Turnpike Enterprise. Two references to the now repealed trust fund remain in statute.

[51] Ch. 2012-128, L.O.F.

Currently Established Toll Authorities

Aside from the FDOT and Florida's Turnpike Enterprise, a number of authorities exist in Florida that operate toll facilities and collect and reinvest toll revenues.[52]

Miami-Dade Expressway Authority

The Miami-Dade Expressway Authority (MDX) governing body consists of 13 voting members. The Miami-Dade County Commission appoints seven members, the Governor appoints five members, and the FDOT district six secretary is the *ex-officio* member of the Board. Except for the secretary, all members must be residents of Miami-Dade County and each serves a four-year term and may be reappointed.[53]

The MDX currently oversees, operates and maintains five tolled expressways constituting approximately 34 centerline-miles and 220 lane-miles of roadway in Miami-Dade County: Dolphin Expressway (SR 836); Airport Expressway (SR 112); Don Shula Expressway (SR 874); Gratigny Parkway (SR 924) and Snapper Creek Expressway (SR 878). MDX reported toll and fee revenue of $121.9 million (net of $2.8 million of allowance) in Fiscal Year (FY) 2011 based on 220 million transactions.[54] The FTC report indicates that approximately $45.5 million in outstanding debt ($6 million in loans from the now-repealed Toll Facilities Revolving Trust Fund and $39.5 million in loans from the State Infrastructure Bank) is due to FDOT as of June 30, 2011.[55]

Tampa-Hillsborough County Expressway Authority

The Tampa-Hillsborough County Expressway Authority (THEA) governing body consists of seven members, four of which are appointed by the Governor and serve four-year terms. The City of Tampa mayor, a member of the Board of County Commissioners selected by the board, and the FDOT's district seven secretary are *ex-officio* members.[56]

The THEA owns the four-lane Selmon Expressway, which is a 15-mile limited access toll road crossing the City of Tampa from Gandy Boulevard in south Tampa, through downtown Tampa and east to I-75 and Brandon. The FTC report indicates that beginning in Fiscal Year 2001, the THEA has reimbursed the FDOT for annual O&M expenses pursuant to the adopted budget and that only renewal and replacement costs continue to be added to long-term debt. As of June 30, 2011, the THEA owes the FDOT approximately $200.7 million for the O&M, renewal and replacement expense advances, and other FDOT loans.[57]

[52] The Mid-Bay Bridge Authority is also included among these authorities.

Tampa Bay Area Regional Transportation Authority

The Tampa Bay Area Regional Transportation Authority (TBARTA) is an agency of the state whose purposes are to improve mobility and expand multimodal transportation options for passengers and freight throughout the seven-county Tampa Bay region.[58] The TBARTA's governing body consists of 16 members: one elected official appointed by the respective County Commissions from Citrus, Hernando, Hillsborough, Pasco, Pinellas, Manatee and Sarasota counties; one member appointed by the West Central Florida Metropolitan Planning Organization Chairs Coordinating Committee who must be a chair of one of the six Metropolitan Planning Organizations in the region; two members who are the mayor or the mayor's designee of the largest municipality within the area served by the Pinellas Suncoast Transit Authority and the Hillsborough Area Transit Authority; one member who is the mayor or the mayor's designee of the largest municipality within Manatee or Sarasota County, providing that the membership rotates every two years; four members who are business representatives appointed by the Governor, each of whom must reside in one of the seven counties of the TBARTA; and one non-voting member who is the secretary of one of the FDOT districts within the seven-county area appointed by the FDOT secretary.[59]

The TBARTA is not currently operating any facility. The FTC report indicates that "TBARTA is beginning to prioritize projects, develop financial strategies for implementation, coordinate the advancement of more detailed planning and environmental analysis for the prioritized projects, and continue public engagement and education efforts." The FTC report lists nine current TBARTA projects (evaluations and studies) funded by the FDOT.[60] The TBARTA also operates the TBARTA Commuter Services, which is a free, online ride-matching program enabling commuters to connect with each other to share rides and is engaging in additional activities, such as identifying opportunities for collaboration and consolidation with other entities in the region, strengthening existing partnerships and examining the potential for new ones, identify short-term solutions to traffic congestion, and continuing to look for process improvements and potential cost savings.[61]

The TBARTA and the FDOT entered into an agreement under which, in 2009, the FDOT advanced $500,000 from a $2 million appropriation to pay initial administrative expenses, and the 2009, 2010 and 2011 Legislatures re-appropriated unspent funds from the $2 million to the TBARTA; however, the 2011 appropriation was vetoed by the Governor.

Northwest Florida Transportation Corridor Authority

The Northwest Florida Transportation Corridor Authority (NFTCA) is an agency of the state with the primary purpose of improving mobility on the U.S. 98 corridor in Northwest Florida to enhance traveler safety, identify and develop hurricane routes, promote economic development along the corridor, and implement transportation projects to alleviate current or anticipated traffic congestion. The NFTCA is also authorized to issue bonds.[62] Eight voting members, one

[58] Section 343.922, F.S.

[62] Section 343.82, F.S.

each from Escambia, Santa Rosa, Walton, Okaloosa, Bay, Gulf, Franklin and Wakulla counties, are appointed by the Governor to serve four-year terms on the governing body. The FDOT's district three secretary serves an as *ex-officio*, non-voting member.[63]

The NFTCA is not currently operating any facility. The FTC report indicates:

> As part of the Master Plan update, NFTCA's general consultant (HDR) is conducting a business case analysis to help the Authority in selecting and planning transportation projects by assessing their respective economic benefits, developing an investment plan and proposing viable funding strategies. The business case analysis includes an extensive public outreach program involving regional planning councils in the eight-county geographic area covered by the NFTCA and a series of workshops involving other key stakeholders in the region.[64]

The NFTCA currently operates under an agreement that uses federal earmark funds for administrative expenses, professional services, and regional transportation planning.[65]

Mid-Bay Bridge Authority

The 1986 Legislature created the Mid-Bay Bridge Authority [66] as the governing body of an independent special district in Okaloosa County for the purpose of planning, constructing, operating, and maintaining a bridge over the Choctawhatchee Bay. The Mid-Bay Bridge Authority operates the tolled, 3.6-mile long Mid-Bay Bridge across the Choctawhatchee Bay and approaches (SR 293) on the northern and southern sides of the bridge. The facility, which connects SR 20 with U.S. 98 east of Destin, is a link between Interstate 10 and U.S. 98 and provides a more direct route for tourists and residents between northern and southern Okaloosa and Walton Counties.[67]

The FDOT, under the provisions of a lease-purchase agreement with the Mid-Bay Bridge Authority, maintains and operates the existing bridge and remits all of the tolls collected to the authority as lease payments. The term of the lease runs concurrently with the bonds issued by the Mid-Bay Bridge Authority, and when the bonds are matured and fully paid, the FDOT will own the bridge. As of June 30, 2012, the Mid-Bay Bridge Authority's long-term debt obligation to the FDOT for operations and maintenance pursuant to the existing agreement was $9.5 million. In accordance with bond covenants, this liability is payable from excess toll revenues, after debt service obligations have been met.

The Florida Turnpike Enterprise provides toll plaza operations for the Mid-Bay Bridge Authority. For the fiscal year ending September 2012, toll revenues amounted to $15,765,967. Earned investment income from Revenue and Reserve Funds of $1,395,789, plus $30,886 from

[63] Section 343.81, F.S.
[64] FTC's *Transportation Authority Monitoring and Oversight Fiscal Year 2011 Report*, p. 160.
[65] Id.

[67] Senate Issue Brief 2012-208, *Cost Effectiveness of Regional Expressway and Bridge Authorities,* (September 2011).

SunPass collections, raised total revenue to $17,192,642.[68] Florida law reflects no state entity charged with monitoring the efficiency, productivity, and management of the Mid-Bay Bridge Authority, unlike other regional transportation, expressway and bridge authorities.

Santa Rosa Bay Bridge Authority

The Santa Rosa Bay Bridge Authority (SRBBA) governing body consists of seven members. The Governor and the Board of County Commissioners each appoint three members, and the FDOT district three secretary is an ex-officio member of the Board. Except for the secretary, all members are required to be permanent residents of Santa Rosa County at all times during their term of office.[69]

The SRBBA owns the Garcon Point Bridge, a 3.5-mile tolled bridge that spans Pensacola/East Bay between Garcon Point (south of Milton) and Redfish Point (between Gulf Breeze and Navarre) in southwest Santa Rosa County.[70] Florida's Turnpike Enterprise provides toll operations for the SRBBA, and the FDOT's district three performs maintenance functions on the bridge. Because toll revenues are insufficient to pay both debt service on outstanding bonds and O&M expenses, the costs of the O&M are recorded as debt owed to FDOT. The FTC report indicates that the SRBBA also has outstanding loans from the Toll Facilities Revolving Trust Fund, and the balance of these liabilities on June 30, 2011, was $24.7 million.[71]

Orlando-Orange County Expressway Authority

The Orlando-Orange County Expressway Authority (OOCEA) governing body consists of five members. The Governor appoints three members who are citizens of Orange County and who serve four-year terms and may be reappointed. The Orange County mayor and the FDOT's district five secretary are the two ex-officio members of the Board.[72]

The OOCEA currently owns and operates 105 centerline miles of roadway in Orange County: 22 miles of the Spessard L. Holland East-West Expressway (SR 408), 23 miles of the Martin Andersen Beachline Expressway (SR 528), 33 miles of the Central Florida GreeneWay (SR 417), 22 miles of the Daniel Webster Western Beltway (SR 429) and 5 miles of the John Land Apopka Expressway (SR 414). OOCEA reported toll revenue of $260 million in FY 2011 based on 296 million transactions.[73] The FTC report indicates that approximately $270 million in outstanding debt ($221 million in advances for O&M expenses, $14 million in advances for completion of the East-West Expressway, and $34.8 million in loans from the State Infrastructure Bank) is due to FDOT as of June 30, 2011.[74]

In addition, the OOCEA will independently finance, build, own and manage certain portions of the Wekiva Parkway and, pursuant to direction in SB 1998 (2012), the OOCEA will repay the FDOT for costs of operation and maintenance of the OOCEA system; the FDOT's obligation to pay any cost of operation, maintenance, repair, or rehabilitation of the OOCEA system terminates as specified; and ownership of the system remains with the OOCEA.

Osceola County Expressway Authority

Created in 2010, the Osceola County Expressway Authority (OCX) governing body consists of six members. Five members, one of which must be a member of a racial or ethnic minority, must be residents of Osceola County. Three of the five are appointed by the governing body of the county and the remaining two are appointed by the Governor. The FDOT's district five secretary serves as an *ex-officio*, non-voting member.[75]

The OCX is not currently operating any facility and has no funding or staff. Staff assistance and other support have been provided by Osceola County. The OCX has developed a Master Plan that includes construction of four proposed tolled expressways: Poinciana Parkway, Southport Connector Expressway, Northeast Connector Expressway, and Osceola Parkway Extension.[76]

Wekiva River Basin Commission

The Wekiva River Basin Commission is charged with monitoring and ensuring the implementation of the recommendations of the Wekiva river Basin Coordinating Committee for the Wekiva Study Area. The commission is comprised of 19 voting members, 9 of whom are voting members, and nine of whom are ad hoc nonvoting members. A representative of the previously repealed Seminole County Expressway Authority remains in statute as an ad hoc nonvoting member.

Environmental Mitigation for Transportation Projects

Pursuant to s. 373.4137, F.S., the FDOT and participating transportation authorities offset adverse environmental impacts of transportation projects through the use of mitigation banks and other mitigation options, including the payment of funds to the Water Management Districts (WMD) to develop and implement mitigation plans. The mitigation plan is developed by the WMDs and is ultimately approved by the Department of Environmental Protection (DEP). The ability to exclude a project from the mitigation plan is provided to the FDOT, a participating transportation authority, or a WMD.

In 2012, HB 599 modified s. 373.413, F.S., to reflect that adverse impacts may be offset by the use of mitigation banks or the payment of funds to develop and implement mitigation plans. The mitigation plan is based on an environmental impact inventory that is created by the FDOT and reflects habitats that would be adversely impacted by transportation projects listed in the next three years of the FDOT's tentative work program. The FDOT provides funding in its work program to the DEP or the WMDs for its mitigation requirements. To fund the programs, the

[75] Section 348.9952, F.S.
[76] FTC's *Transportation Authority Monitoring and Oversight Fiscal Year 2011 Report*, p. 165.

statute directs the FDOT and the authorities to pay $75,000 per impacted acre, adjusted by a calculation using the Consumer Product Index (CPI).[77]

Pursuant to s. 373.4137, F.S., mitigation plans developed by the WMDs must consider water resource needs and focus on activities in wetlands and surface waters, including preservation, restoration and enhancement, as well as control of invasive and exotic vegetation. The WMDs must also consider the purchase of credits from public and private mitigation banks if the purchase provides equal benefit to water resources and is the most cost effective option. Before transportation projects are added to the WMDs mitigation plans, the FDOT must consider if using mitigation bank credits will be more cost-effective and efficient. The WMD mitigation plans are updated annually to reflect the most recent FDOT work program and transportation authority project list and may be amended throughout the year. The mitigation plans are submitted to the governing board of the WMD or its designee for approval, and to the DEP for final approval.[78]

The FDOT and the participating expressway authorities are required to transfer funds each year to pay for mitigation of the projected impact acreage resulting from projects identified in the inventory. The projected impact acreage and costs are reconciled quarterly with the actual impact acreage, and the costs and balances are adjusted.[79]

Section 373.4137, F.S., provides for exclusion of specific transportation projects from the mitigation plan at the discretion of the FDOT, participating transportation authorities, and the WMDs.

Public Information Systems

Pursuant to s. 373.618, F.S., public information systems may be located on WMD property, provided certain terms and conditions are met. The systems must display messages to the general public concerning water management services, activities, events, watering restrictions, severe weather reports, amber alerts, and other essential public information. The law prohibits the use of WMDs funds to acquire, develop, construct, operate, or manage a public information system. Commercial messages are to be paid for by private sponsors.

Section 479.02, F.S., requires the FDOT to regulate the size, height, lighting, and spacing of signs on the interstate highway system in accordance with state and federal regulations. A permit and annual fee are required by any individual that proposes to erect, operate, use, or maintain any sign on the State Highway System outside an urban area or on any portion of the interstate or federal-aid primary highway system. Certain signs do not require a permit as long as the signs are in compliance with the provisions in s. 479.11(4)-(8), F.S.

Section 479.16, F.S, specifies that signs owned by a municipality or county that contain messages related to any commercial enterprise, a commercial sponsor of an event, personal messages, or political messages, are not considered information regarding government services.

[77] *See* s. 373.4137 F.S.
[78] *Id*.
[79] *Id*.

The FDOT may potentially be subject to an annual loss of 10 percent of federal highway funding if these signs are located within a "controlled area."[80]

Expenditures by Local Governments

Under current law, a county, municipality, school district, or other political subdivision of the state, and any department, agency, board, bureau, district, commission, authority, or similar body of a county, municipality, school district, or other political subdivision of the state, or a person acting on such entity's behalf, is prohibited from spending or authorizing expenditure of any moneys under the jurisdiction or control of such entity for a political advertisement or electioneering communication concerning an issue, referendum, or amendment, including any state questions, that is subject to a vote of the electors. The prohibition does not apply to an electioneering communication from a local government or a person acting on behalf of a local government which is limited to factual information, nor does it preclude an elected official of the local government from expressing an opinion on any issue.

III. Effect of Proposed Changes:

Section 1 repeals s. 11.45(3)(m), F.S., which contains the Auditor General's power to audit transportation corporations authorized under the Florida Transportation Corporation Act, in connection with sections 21 through 40 of the bill, which repeal the never-used act. This change will also enable the repeal of an unused administrative rule.

Section 2 amends s. 20.23, F.S., to require the FTC to monitor the efficiency, productivity, and management of regional transportation finance authorities created under a new ch. 345, F.S., and to repeal the Florida Statewide Passenger Rail Commission. Overlapping oversight of publicly-funded passenger rail systems is eliminated and remains solely with the FTC.

Section 3 amends s. 110.205(2), F.S., to change the title of the FDOT's State Public Transportation and Modal Administrator to State Freight and Logistics Administrator.

Section 4 amends s. 311.22, F.S., relating to small county dredging projects, to establish FDOT, rather than FSTED, as the agency responsible for administering any additional funding for dredging projects in counties having a population of fewer than 300,000 according to the last official census and sunsets the program on July 1, 2018.

Section 5 repeals s. 316.530(3), F.S., to remove obsolete language authorizing wreckers to tow disabled vehicles when the combination of wrecker and towed vehicle are over the legal weight without a special use permit.

Section 6 amends s. 316.545(3)(c), F.S., to increase from 400 to 550 pounds the authorized maximum gross vehicle weight to compensate for the additional weight of auxiliary power units (or idle-reduction technology) installed on commercial motor vehicles, as authorized by recent federal law.

[80] "Controlled area" means 660 feet or less from the nearest edge of the right-of-way of any portion of the State Highway System, interstate, or federal-aid primary system and beyond 660 feet of the nearest edge of the right-of-way of any portion of the State Highway System, interstate, or federal-aid primary system outside an urban area. *See* s. 479.01, F.S.

Section 7 amends s. 331.360, F.S., to require Space Florida to develop a spaceport system plan which contains recommendations for projects that meet current and future commercial, national and state space transportation requirements; and to submit the plan to the FDOT which may include portions of the system plan in the department's 5 year work program.

Beginning in Fiscal Year 2013-2014, the FDOT is authorized to make available from the STTF a minimum of $15 million annually from funds dedicated to public transportation projects[81] to fund space transportation projects. Project specific criteria must be provided by Space Florida to demonstrate that the project includes transportation and aerospace benefits. The FDOT may fund up to 50 percent of eligible project costs.

FDOT is authorized to fund up to 100 percent of eligible costs if the project provides important access and on-spaceport capacity improvements, capital improvements which will position the state to maximize opportunities of a sustainable and world-leading aerospace industry, meets state goals of an integrated intermodal transportation system, and demonstrates the feasibility of available matching funds.

Section 8 creates s. 332.007(11), F.S., to authorize the FDOT to fund, at up to 100 percent of the project's cost, strategic airport investment projects which provide important access and on-airport capacity improvements, capital improvements which will position the state to maximize opportunities in international trade, logistics, and the aviation industry, meet state goals of an integrated intermodal transportation system, and demonstrate the feasibility of available matching funds.

Section 9 amends s. 334.044(16), F.S., to prohibit the FDOT from entering into any lease-purchase agreement with any expressway authority, regional transportation authority or other entity effective July 1, 2013. These provisions have no effect on the existing lease-purchase agreements. This section of the bill also amends subsection (26) of s. 334.044, F.S., to provide that the FDOT purchase all plant materials from Florida commercial nursery stock in this state on a uniform competitive bid basis, except as prohibited by applicable federal law or regulation. This revision will ensure compliance with federal regulation and avoid a potential federal funds penalty.

Section 10 amends s. 335.06, F.S., to allow but not require the FDOT to improve and maintain a road that is part of a county road system or city street system. If the FDOT does not maintain a county or city road that provides access to the state park system, the road must be maintained by the appropriate county or municipality.

Section 11 amends s. 337.11(13), F.S., to require each road or bridge construction contract or maintenance contract let by FDOT to require all motor vehicles operated by the contractor in this state to be registered in compliance with ch. 320, F.S., eliminating the requirement of proof to the FDOT in the form a notarized affidavit from the contractor.

[81] Section 206.46(3), F.S.

Section 12 amends s. 337.14(1), F.S., to clarify that any person desiring to bid for the performance of any construction contract *with a proposed budget estimate* in excess of $250,000 must first be certified as qualified prior to bidding in accordance with Rule Chapter 14-22, F.A.C. No change in current practice results, the revisions simply provide internal statute consistency and consistency between statute and rule.

Section 13 amends s. 337.168(2), F.S., to clarify an existing public records exemption by which the identity of a person who has requested or obtained from FDOT, a bid package, plan, or specifications pertaining to any project to be let by FDOT remains a public record until two days prior to the deadline for obtaining the materials.

Section 14 amends s. 337.25, F.S., to revise the terms and conditions under which the FDOT may sell or lease properties acquired for transportation rights-of-way and to authorize the FDOT to contract for auction services used in the conveyance of real or personal property or leasehold interests and to authorize such contracts to allow the contractor to retain a portion of the proceeds as compensation.

The FDOT is authorized to "convey", rather than "sell" land, buildings, or other real or personal property after determining the property isn't needed for a transportation facility and to dispose of property through negotiations, sealed competitive bids, auctions, or any other means deemed to be in the department's best interest. Due advertisement is required for property valued at more than $10,000, and no property may be sold at less than fair market value except as specified. The department is authorized, rather than required, to afford a right of first refusal to a political subdivision, or local government in which the parcel is located, except in conveyances when the property has been donated to the state for transportation purposes and a facility has not been constructed for at least 5 years, the property was originally required for replacement housing for persons displaced by transportation projects, or property which the FDOT has determined a sale to anyone other than the abutting land owner would be inequitable.

The FDOT is prohibited from conveying a leasehold interest at a price less than the department's current estimate of value and specifies that a lease may be created through negotiations, sealed competitive bids, auctions, or any other means deemed to be in the best interest by the department. A lease shall not be for a period of more than 5 years, however, the department may extend the lease for an additional 5 years without rebidding.

The department is required to publish a notice when a proposal to lease property has been received, stating that a proposal has been received and that FDOT will accept other proposals for 120 days after the date of publication for lease of the property. The FDOT is authorized to establish, by rule, an application fee for the submission of the proposals.

The FDOT's estimate of value must be prepared in accordance with department procedures, guidelines, and rules for valuation of real property. If the value of the property exceeds $50,000, the sale or lease must be negotiated at a price not less than the estimated value determined by the department.

This section does not modify the eminent domain requirements of s. 73.013, F.S.

Section 15 amends s. 337.251(2), F.S., to require a newspaper publication of 120 days for lease proposals, when the FDOT wishes to consider an unsolicited proposal for a lease of particular property. The FDOT is authorized to establish by rule an application fee for the submission of proposals, sufficient to pay the anticipated costs of evaluating the proposals. Further, the FDOT is required, prior to approval of any proposal, to determine that the proposed lease is in the public's best interest and meets specified criteria.

Section 16 amends s. 338.161(5), F.S., to replace the potentially ambiguous language regarding agreements for use of the FDOT toll collection systems that passed in HB 599 and SB 1998 during the 2012 Legislative Session, thereby avoiding any confusion that might result from ambiguous language or from statutory construction rules.

Section 17 amends s. 338.165(4), F.S., to remove obsolete references to the Beeline-East Expressway and the Navarre Bridge within the FDOT's authority to request issuance of bonds secured by toll revenues from certain toll facilities, as the expressway and bridge are no longer owned by the FDOT.

Section 18 amends s. 338.26(3) and (4), F.S., to remove the obligations of Alligator Alley excess toll revenues to operate and maintain the fire station at mile marker 63, and limits the transfer of annual excess revenue to SFWMD to that which is agreed upon in the June 30, 1997 memorandum of understanding. The SFWMD's authority to issue bonds or notes which pledge the excess toll revenues from the transfer is eliminated.

Section 19 amends s. 339.175, F.S., to revise provisions relating to designation of MPOs to conform to changed federal terminology, and to provide that the voting membership of an MPO re-designated as a result of the expansion of an MPO to include a new urbanized area, or the consolidation of two or more MPOs, may consist of no more than 25 members.

Section 20 amends s. 339.2821, F.S., to include Enterprise Florida, Inc., as an FDOT consultant in making and approving economic development transportation project contracts. Provides authority for the FDOT to terminate a grant award if construction of the transportation project does not begin within four years after the date of the initial grant award; and expands the type of authorized transportation facility projects to include spaceports.

Sections 21-40 repeals ss. 339.401 through 339.421, the never-used Transportation Corporation Act, in connection with the related audit authority repeal in section 1 of the bill.

Section 41 amends s. 339.55, F.S., to include projects that provide intermodal connectivity with spaceports as eligible for loans from the State-funded Infrastructure Bank.

Section 42 amends s. 341.031(11), F.S., to expand eligibility for intercity bus companies to compete for federal and state program funding by removing from the definition of "intercity bus service" the requirements that the carrier maintain schedule information in the National Official Bus Guide and provides package express service incidental to passenger transportation.

Section 43 amends s. 341.053, F.S., to expand the Intermodal Development Program to include access to spaceports, and to further define the activities of the program to include planning and funding the construction of airport, spaceport, seaport, transit and rail projects that facilitate the intermodal or multimodal movement of people and goods.

Projects included in the Intermodal Development Program must support statewide goals as specified in the Florida Transportation Plan, the Strategic Intermodal System Plan, the Freight Mobility and Trade Plan, or other appropriate department modal plan. Eligible projects are expanded to include: planning studies; major capital investments in freight facilities and systems that provide intermodal access; road, rail, intercity bus service, or fixed-guideway access to, from, or between spaceports and intermodal logistics centers; and construction of intermodal or multimodal terminals, including projects on airports, spaceports, intermodal logistics centers or seaports which assist in the movement or transfer of people or goods.

Section 44 amends s. 343.80, F.S., to revise the short title of part III of ch. 343, F.S., from the Northwest Florida Transportation Corridor Authority Law to the Northwest Florida Regional Transportation Finance Authority Law.

Section 45 amends s. 343.805, F.S., to define the "Northwest Florida Regional Transportation Finance authority System" or "system" to mean any and all expressways and appurtenant facilities thereto owned by the authority, including, but not limited to, all approaches, roads, bridges, and avenues of access for said expressway or expressways.

Section 46 amends s. 343.81, F.S., to rename the Northwest Florida Transportation Corridor Authority as the Northwest Florida Regional Transportation Finance Authority. The bill also revises the composition of the governing board of the authority from eight to five voting members, with two members from Okaloosa County and one each from Walton, Bay, and Gulf Counties. Escambia, Santa Rosa, Franklin, and Walton Counties are removed from voting membership. The bill also revises quorum requirements for the governing board, providing that three, rather than five, members constitutes a quorum, and the vote of at least three members, rather than five, is necessary for any action taken by the authority. Authorization to establish technical advisory committees and related provisions are repealed. Note: the Santa Rosa-Escambia Regional Transportation Finance Authority serving Escambia and Santa Rosa Counties is created in section 55 of the bill, as is the Suncoast Regional Transportation Finance Authority, serving Citrus, Levy, Marion, and Alachua Counties.

Section 47 amends s. 343.82, F.S., granting the NWFTFA the right to acquire, hold, construct, improve, maintain, operate, own and lease in the capacity of lessor, the Northwest Florida Regional Transportation Finance Authority System, thereby expanding the authority's responsibility beyond the U.S. 98 corridor. The bill also removes direction to the current Corridor Authority to develop and annually update a specified corridor master plan, to undertake projects contained in the plan, and to request funding and technical assistance from the FDOT from specified sources. Further, the bill authorizes the NWFTFA to dispose of any property which the authority and the FDOT determine is not needed for the system. In addition, the bill conforms terminology by removing references limiting the authority to activities along the U.S. 98 corridor and eliminating reference to the Santa Rosa Sound

Section 48 amends s. 343.83, F.S., to change a reference to the Northwest Florida Transportation Corridor Authority to the Northwest Florida Regional Transportation Finance Authority.

Section 49 amends s. 343.835, F.S., to conform terminology by removing references to U.S. 98 corridor improvements. The bill also revises a reference to facilities "constructed" by the authority to those "owned or provided" by the authority, which is also a conforming change. in connection with the provisions of section 50 of the bill.

Section 50 amends s. 343.84, F.S., to provide that the FDOT is the agent of the authority for the purpose of constructing system improvements; and to alternatively allow the authority, with the FDOT's consent and approval, to appoint a local agency certified by the FDOT as the authority's agent to administer federal aid projects in accordance with federal law. The bill requires the FDOT to act as the agent of the authority for purposes of operating and maintaining the system and requires the authority to reimburse the FDOT for the costs incurred from system revenues. The bill specifies that the authority remains obligated as principal to operate and maintain its system, and except as otherwise provided by the existing lease-purchase agreement between the FDOT and the Mid-Bay Bridge Authority in connection with its issuance of bonds, the authority's bondholders do not have a right to compel the FDOT to operate and maintain the system. The Mid-Bay Bridge Authority is transferred to the Northwest Florida Regional Transportation Finance Authority in section 56 of the bill. The bill also directs the authority to establish and collect tolls and other charges for the authority's facilities as specified.

Section 51 amends s. 343.85, F.S., to conform terminology.

Section 52 amends s. 343.875, F.S., to repeal the current Corridor Authority's power to receive or solicit proposals and enter into public-private partnership agreements and related provisions.

Section 53 amends s. 343.89, F.S, to conform terminology.

Section 54 amends s. 343.922(4), F.S., to remove a reference to the previously repealed Toll Facilities Revolving Trust Fund.

Section 55 creates ch. 345, F.S., to authorize the formation of regional transportation finance authorities, consisting of sections 345.0001 – 345.0016, F.S., and creates as agencies of the state, the following authorities:

- the Santa Rosa-Escambia Regional Transportation Finance Authority serving Escambia and Santa Rosa counties, and
- the Suncoast Regional Transportation Finance Authority serving Citrus, Levy, Marion, and Alachua counties.

This section authorizes a county, or two or more contiguous counties, to form a regional transportation finance authority for the purposes of financing, constructing, maintaining, and operating transportation projects in a region of this state, if approved by the Legislature and the county commission of each county that will be part of the authority, and specifies that there be only one authority created and operating within the area served by the authority. Other provisions include:

- The governance and powers and duties of the authority;
- The authority to issue bonds and provide for the rights and remedies of bondholders;
- Naming the FDOT as the agent of each authority for the purpose of performing all phases of a project, including constructing improvements and extensions to the system; and for the purpose of operating and maintaining the system;
- Reimbursement to the FDOT for costs incurred for operating and maintaining the system from system revenues; and
- Exemption from certain taxation for an authority.

Section 56 transfers to the Northwest Florida Regional Transportation Finance Authority the governance and control of the Mid-Bay Bridge Authority, including the assets, facilities, tangible and intangible property and any rights in such property, and any other legal rights of the Mid-Bay Bridge Authority, including the bridge system operated by the authority. Activities relating to the Mid-Bay Bridge will be monitored under the Transportation Commission's existing oversight over entities created pursuant to ch. 343, F.S.

Section 57 amends s. 348.751, F.S., to change the short title of part III of ch. 348, F.S., from the "Orlando-Orange County Expressway Authority Law" to the "Central Florida Expressway Authority Law."

Section 58 amends s. 348.752, F.S., to define:

- "Central Florida Expressway Authority" (CFX) to mean the body politic and corporate and agency of the state;
- "Central Florida Expressway System," to mean a transportation facility, expressway, or appurtenant facility, and
- "Transportation facilities" to mean and include the mobile and fixed assets, and the associated real or personal property or rights, used in the transportation of persons or property by any means of conveyance, and all appurtenances, such as, but not limited to, highways; limited or controlled access lanes, avenues of access, and facilities; vehicles; fixed guideway facilities, including maintenance facilities; and administrative and other office space for the exercise by the authority of the powers and obligations granted in this part.

Research reveals no language elsewhere in ch. 348, F.S., that would include in any definition or in any other provision under current law the "administrative and other office space" of an expressway authority. This definition presumably would allow CFX to finance or even bond expenses for administrative and other office space.

This section of the bill also deletes the definitions of "city" and "county," revises various definitions to conform terminology to the renaming, and makes various other editorial and grammatical changes.

Section 59 amends s. 348.753, F.S., in which the OOCEA is created, to replace the OOCEA and:

- Create the Central Florida Expressway Authority (CFX), effective July 1, 2014;

- Require that CFX assume the governance and control of the OOCEA System, including its assets, personnel, contracts, obligations, liabilities, facilities, and tangible and intangible property;
- Transfer any rights in such property and other OOCEA legal rights to CFX; and
- Provide that the powers, responsibilities, and obligations of the OOCEA shall succeed to and be assumed by CFX on July 1, 2014.

The bill also provides for eleven members of the CFX governing board as follows:

- Three members appointed by the chairs of the boards of county commissioners of Seminole, Lake, and Osceola Counties, which members may be a commission member or chair;
- Xix citizen members appointed by the Governor, two of which must be Orange County citizens; one member each of which must be a citizen of Seminole, Lake, and Osceola Counties; and one member which may be a citizen of any of the identified counties;
- The tenth member must be the City of Orlando Mayor; and
- The executive director of the Turnpike Enterprise serves as a nonvoting advisor to the governing board of the authority.

The Governor's appointees are to serve four-year terms; county-appointed members are to serve two-year terms; and currently standing OOCEA board members are to complete their terms. A person who is an officer or employee of a municipality or county may not be an appointed member, except as otherwise provided.

In addition, the bill provides for election of CFX officers, provides quorum and voting requirements, makes editorial and grammatical changes, and conforms terminology to the renaming.

Section 60 amends s. 348.754, F.S., setting forth purposes and powers, to:

- Provide, with specified exception, that the CFX area served is within the geographical boundaries of Orange, Seminole, Lake, and Osceola Counties.
- Include in the authority to construct the Central Florida Expressway System rapid transit, trams, fixed guideways, thoroughfares, and boulevards.
- Prohibit CFX, without the prior consent of the FDOT secretary, from constructing an extension, addition, or improvement to the expressway system in Lake County, to ensure the continued financial feasibility of the portion of the Wekiva Parkway to be constructed by the FDOT.
- Authorize CFX to enter into leases, as lessee or lessor, for terms not exceeding 99 years, rather than the 40 years to which the OOCEA is currently limited, to facilitate projects that will require leases of a longer term. For example, stakeholders involved in the All Aboard Florida passenger rail project desire a longer term.
- Authorize CFX to enter into lease-purchase agreements with the FDOT for terms not exceeding 99 years, or until any bonds secured by a pledge of rentals pursuant to the agreement and any refunding pursuant to the agreement are fully paid, whichever is longer.
- Deem CFX a party to the existing lease-purchase agreement with the FDOT.

- Prohibit CFX from entering into other lease-purchase agreements with the FDOT or from amending the existing agreement in a manner that expands or increases the FDOT's obligations unless the FDOT determines the agreement or amendment is necessary to permit the refunding of bonds issued before July 1, 2012.
- Prohibit use of toll revenues from an increase in the toll rates charged on July 1, 2014, to construct or expand a different facility absent a two-thirds majority vote of the members, with specified exceptions.
- Authorize use of revenues of the expressway system within the right-of-way of the system for certain purposes, if the expenditures are consistent with the MPO's adopted long-range plan and notwithstanding s. 338.165, F.S., relating to continuation of tolls.
- Provide that specified bonds must mature not more than 40 years after their issue date.
- Authorize CFX to construct, operate, and maintain transportation facilities (in addition to roads, bridges, avenues of access, thoroughfares, and boulevards, and electronic toll payment systems on such roads and bridges, etc., outside the boundaries of Seminole, Lake, and Osceola Counties (in addition to Orange County) with the consent of the county within whose jurisdiction the activities occur.
- Remove the municipal governing board approval of a project route currently required before acquisition of right-of-way for an OOCEA project within the boundaries of Orange County.
- Require CFX to encourage the inclusion of local-, small-, minority-, and women-owned business in its procurement and contracting opportunities.
- Authorize CFX, within the right-of-way of the system, to finance or refinance the planning, design, construction, extension, maintenance, etc., of an intermodal facility or facilities, a multimodal corridor or corridors, or any programs or projects that will improve the levels of service on the expressway system.
- Remove provisions authorizing the OOCEA to waive payment and performance bonds on certain construction contracts and related small business provisions.
- Make editorial and grammatical changes and conform terminology to the renaming.

Sections 61-67 amend ss. 348.7543, 348.7544, 348.7545, 348.7546, 348.7547, 348.755, and 348.756, F.S., relating to bond financing authority for improvements, construction and financing of the Northwest Beltway Part A, construction and financing of the Western Beltway Part C, construction and financing of the Wekiva Parkway, construction and financing of the Maitland Boulevard Extension and Northwest Beltway Part A realignment, bonds of the authority, and remedies of the bondholders, respectively, to make editorial and grammatical changes and conform terminology to the renaming.

Section 68 amends s. 348.757, F.S., relating to lease-purchase agreements with the FDOT, to insert references to the *former* OOCEA system, make editorial changes, and conform terminology to the renaming.

Sections 69-74 amend ss. 348.758, 348.759, 348.760, 348.761, 348.765, and 369.317, F.S., relating to appointment of FDOT as construction agent for the authority; acquisition of lands and property; cooperation with other units, boards, agencies, and individuals; covenant of the state; complete and additional authority, and Wekiva Parkway, respectively, to make editorial and grammatical changes and conform terminology to the renaming.

Section 75 amends s. 369.324, F.S., to reduce the membership of the Wekiva River Basin Commission from 19 to 18 members appointed by the Governor, nine of whom remain as voting members, and reducing from ten to nine the number of ad hoc nonvoting members, removing the representative from the previously repealed Seminole County Expressway Authority.

Section 76, effective upon the completion of construction of the Poinciana Parkway, transfers all powers, governance, and control of the Osceola County Expressway System, and the assets, liabilities, facilities, tangible and intangible property and any rights in the property, as well as any other legal rights, to CFX, with specified extension of the transfer date until completion of certain projects. This section of the bill also repeals part V, ch. 348, F.S., consisting of ss. 348.9950 – 348.9961, F.S., on the same date that the Osceola County Expressway System is transferred to CFX. This section also requires CFX to reimburse other governmental entities for obligations related to the Osceola County Expressway System.

Section 77 amends s. 373.4137, F.S., to provide that mitigation take place in a manner that promotes efficiency, timeliness in project delivery, and cost-effectiveness. The bill requires the following for the development of environmental impact inventories for transportation projects proposed by the FDOT or a transportation authority:

- The FDOT must submit an environmental impact inventory of habitat impacts and the anticipated amount of mitigation needed to offset the impacts to the WMDs by July 1, and may include in the inventory the habitat impacts and the anticipated amount of mitigation needed for future projects; and
- The environmental impact inventory must include the proposed amount of mitigation needed based on the Uniform Mitigation Assessment Method (UMAM) and identification of the proposed mitigation option.

The bill requires FDOT to consider using credits from a permitted mitigation bank before projects are identified for inclusion in a WMD plan, taking into account state and federal requirements, maintenance, and liability.

The bill allows FDOT to implement the mitigation option identified in the environmental impact inventory by:
- Purchasing credits for current and future use directly from a mitigation bank;
- Purchasing mitigation services through the WMDs or the DEP;
- Conducting its own mitigation; or
- Using other mitigation options that meet state and federal requirements.

The bill requires funding for the identified mitigation option in the inventory to be included in FDOT's work program under s. 339.135, F.S., and requires and the amount programmed each year to correspond to an estimated cost of $150,000 per mitigation credit, multiplied by the projected number of credits identified in the inventory. The estimated cost per credit will be adjusted every two years by FDOT based on the average cost per UMAM credit.

The bill specifies that for mitigation implemented by the WMDs or the DEP, the amount paid each year must be based on mitigation services provided by the WMD or the DEP pursuant to an

approved WMD mitigation plan. The WMDs or the DEP may request payment no sooner than 30 days before the date the funds are needed.

The bill requires that each quarter, the projected amount of mitigation must be reconciled with the actual amount of mitigation needed for projects as permitted. The programming of funds must be adjusted to reflect the mitigation as permitted.

FDOT may use the associated funds for the purchase of mitigation bank credits or any other mitigation option that satisfies the requirements, if the:

- WMD excludes a project from an approved WMD mitigation plan;
- WMD cannot timely permit a mitigation site to offset the impacts of an FDOT project identified in the inventory; or
- Proposed mitigation does not meet state and federal requirements.

The bill specifies that the WMD or the DEP, as appropriate, has continuing responsibility for the mitigation project upon final payment for mitigation and FDOT's or the participating transportation authority's obligation is satisfied.

The bill requires each WMD or the DEP to invoice the FDOT for mitigation services to offset only the impacts of an FDOT project identified in the inventory, beginning with the March 2014 WMD plans. If the WMD identifies the use of mitigation bank credits to offset an FDOT impact, the WMD must exclude that purchase from the mitigation plan and the FDOT must purchase the bank credits.

The bill requires that for mitigation activities occurring on existing WMD or DEP mitigation sites initiated with FDOT mitigation funds prior to July 1, 2013, the WMD or the DEP is required to invoice FDOT at $75,000 per acre multiplied by the projected acres of impact. The cost per acre must be adjusted by a calculation using the CPI.

The WMD must maintain records of the costs incurred including:

- Planning;
- Land acquisition;
- Design and construction;
- Staff support, long-term maintenance and monitoring of the mitigation site; and
- Other costs necessary to meet federal requirements pursuant to 33 U.S.C. s. 1344 and 33 C.F.R. s. 332.

The bill requires the funds identified in the FDOT's work program or participating transportation authorities' escrow accounts, for preparing and implementing the mitigation plans, adopted by the WMDs on or before March 1, 2013, to correspond to $75,000 per acre multiplied by the projected acres of impact, adjusted by the CPI. The WMD must maintain records of the costs incurred in implementing the mitigation. If monies paid to a WMD exceed the amount spent by the WMD to implement the mitigation, the funds must be refunded to FDOT or the participating transportation authority. This provision expires June 30, 2014.

The bill requires each WMD to develop a plan to offset only the impacts of transportation projects in the inventory for which a WMD is implementing mitigation. The WMD plan must identify the site where the WMD will mitigate, the scope of the mitigation activities at each mitigation site, and the functional gain at each mitigation site as determined using UMAM. The mitigation plan must be submitted to the WMD's governing board for review and approval. The bill requires that the WMD provide a copy of the draft mitigation plan to the DEP at least 14 days before governing board approval. The plan may not be implemented until it is subsequently approved by the DEP. The bill also requires the plan to describe how the mitigation offsets the impacts of each transportation project and provide a schedule for the mitigation services.

Section 78 amends s. 373.618, F.S., to provide that a public information system located on WMD property that is subject to the Highway Beautification Act of 1965 must be approved by the FDOT and the Federal Highway Administration, if such approval is required by federal law.

Section 79 amends s. 341.052, F.S., relating to the public transit block grant program, to prohibit a public transit provider from using public transit block grant funds to pursue or promote the levy of new or additional taxes through public referenda. It also reduces the amount of a provider's grant to the extent that a public transit provider so uses other public funds and defines the term "public funds" for purposes of the prohibition.

Section 80 provides that the bill takes effect upon becoming law, except as otherwise expressly provided.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None

Section 6

The increased allowable weight of APUs decreases the potential fine for a commercial motor vehicle overweight violation by no more than $7.50.

Section 9

Motor fuel tax funds paid by citizens and businesses in a particular locality may be at less risk of diversion to a different area of the state in a manner contrary to the statutory allocation for those funds if the funds were expended by FDOT through its normal work program process, rather than through a lease-purchase agreement.

Section 15

Those wishing to submit proposals for lease of FDOT property that FDOT wishes to consider will be subject to an application fee sufficient to pay the anticipated cost of evaluating the proposal, to be established by FDOT rule. Opportunities for private consultant contracts with FDOT are authorized.

Section 42

Revision of the definition of "intercity bus service" allows companies other than Greyhound Bus Lines to compete for federal and state program funds.

C. Government Sector Impact:

Section 1

The FTC will incur additional expenditures associated with monitoring the regional transportation finance authorities. These expenses are expected to be absorbed within existing resources. However, the FTC notes that, depending on the number of authorities eventually established, additional FTE(s) may be needed to effectively conduct its responsibility.

Section 5

Removing the obsolete language regarding wrecker permits will avoid any negative impact to the state from a potential federal funds penalty for failure to comply with federal commercial motor vehicle requirements, as giving effect to the obsolete provisions would render the state noncompliant with federal law.

Section 6

The increased allowable weight of APUs decreases a potential fine by no more than $7.50.

Section 15

The FDOT's costs associated with evaluating lease proposals pursuant to s. 337.251, F.S., would presumably be covered by the application fee the FDOT is required to establish by rule, particularly if the fee includes the cost of private consultants the FDOT is authorized to engage to assist in its evaluations.

Section 18

The obligations of Alligator Alley toll revenues to operate a local fire station and of the FDOT to transfer excess toll revenues to the Everglades Restoration Fund beyond that which is agreed to in the Memorandum of Understanding between the FDOT and the SFWMD, are removed. A positive fiscal impact to the state is expected.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Transportation, Tourism, and Economic Development on April 11, 2013:
The committee substitute:

- Removes all language relating to the following issues previously contained in the bill:
  - Bus benches in state road rights-of-way,
  - Local government noise mitigation regulations,
  - Aviation fuel tax revisions,
  - Natural gas fuel taxation, and
  - The FDOT's authority to undertake ancillary development in state-owned rail corridors.
- Adds the following new issues to the bill:
  - Renames and reconfigures the Northwest Florida Transportation Corridor Authority as the Northwest Florida Regional Transportation Finance Authority and revises related provisions;
  - Renames and reconfigures the Orlando-Orange County Expressway Authority as the Central Florida Expressway Authority and revises related provisions, including extending the allowed term of leases from 40 to 99 years;
  - Revises the terms and conditions under which the FDOT may sell or lease properties acquired for transportation rights-of-way;

- Prohibits the expenditure of public transit block grant funds to pursue or promote the levy of new or additional taxes through public referenda.
- Revises provisions relation to environmental mitigation for transportation projects, state park road maintenance, water management district public information systems, and the FDOT purchase of plant materials for roadside enhancement and maintenance;
- Authorizes the FDOT to administer the small county dredging program and sunsets the program on July 1, 2018;
- Repeals the Florida Transportation Corporation Act and related audit authority; and

- Makes technical and conforming changes.

CS by Community Affairs on March 20, 2013:
The committee substitute:

- Removes reference to the Mid-Bay Bridge Authority and inserts a reference to the new ch. 345, F.S., in s. 20.23, F.S. The bill also transfers the Mid-Bay Bridge Authority to the Okaloosa-Bay Regional Tollway Authority, which is governed by the provisions of the new ch. 345, F.S. The reference to the new ch. 345, F.S., subjects the Okaloosa-Bay Regional Tollway Authority, and any other regional tollway authority created in the bill or subsequently created under provisions in the new ch. 345, F.S., to oversight and monitoring by the Florida Transportation Commission, as are various other expressway, road and bridge, and regional transportation authorities. The amendment also strikes a phrase referencing subsection (3), which subsection establishes the Florida Statewide Passenger Rail Commission, as the bill also repeals the Florida Statewide Passenger Rail Commission.
- Provides that the $15 million minimum annual funding authorized to be made available from the State Transportation Trust Fund for space transportation projects shall be from the funds dedicated to public transportation projects pursuant to s. 206.46(3), F.S.
- Removes from the bill provisions for the "Spaceport Investment Program," which required allocation of $5 million annually, for up to 30 years, for the purpose of funding any spaceport project identified in the FDOT's Adopted Work Program; and authorized the revenues to be assigned, pledged, or set aside as a trust for the payment of principal or interest on bonds, tax anticipation certificates, or other forms of indebtedness issued by Space Florida, or used to purchase credit support to permit such borrowings.
- Removes from the bill authorization for installation of parking meters or other time-limit devices within the right-of-way limits of a state road if permitted by the FDOT; removes direction requiring each county and municipality to promptly remit to the FDOT 50 percent of the revenue generated from the fees collected by a parking meter or other time-limit device installed or already existing within the right-of-way limits of a state road under the FDOT's jurisdiction; and removes the requirements that funds received by the FDOT to be deposited into the STTF and used in accordance with s. 339.08, F.S.
- Adds to the bill the provisions of CS/SB 579, establishing a fuel tax structure for natural gas used as a motor fuel similar to that for diesel fuel beginning in 2019,

eliminating the current decal program for vehicles powered by alternative fuels, and repealing the Local Alternative Fuel User Fee Clearing Trust Fund.

- Adds to the bill the revised bus bench and bus shelter language shifting liability from the cities and counties to the private owner installers of bus benches and bus shelters within the right-of-way of the SHS.
- Makes technical changes.

B. Amendments:

None.

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
04/25/2013	.	
	.	
	.	
	.	

The Committee on Appropriations (Richter) recommended the following:

Senate Amendment (with title amendment)

Between lines 633 and 634
insert:

Section 5. Paragraph (a) of subsection (3) of section 316.515, Florida Statutes, is amended to read

316.515 Maximum width, height, length.—

(3) LENGTH LIMITATION.—Except as otherwise provided in this section, length limitations apply solely to a semitrailer or trailer, and not to a truck tractor or to the overall length of a combination of vehicles. No combination of commercial motor vehicles coupled together and operating on the public roads may

consist of more than one truck tractor and two trailing units. Unless otherwise specifically provided for in this section, a combination of vehicles not qualifying as commercial motor vehicles may consist of no more than two units coupled together; such nonqualifying combination of vehicles may not exceed a total length of 65 feet, inclusive of the load carried thereon, but exclusive of safety and energy conservation devices approved by the department for use on vehicles using public roads. Notwithstanding any other provision of this section, a truck tractor-semitrailer combination engaged in the transportation of automobiles or boats may transport motor vehicles or boats on part of the power unit; and, except as may otherwise be mandated under federal law, an automobile or boat transporter semitrailer may not exceed 50 feet in length, exclusive of the load; however, the load may extend up to an additional 6 feet beyond the rear of the trailer. The 50-feet length limitation does not apply to non-stinger-steered automobile or boat transporters that are 65 feet or less in overall length, exclusive of the load carried thereon, or to stinger-steered automobile or boat transporters that are 75 feet or less in overall length, exclusive of the load carried thereon. For purposes of this subsection, a "stinger-steered automobile or boat transporter" is an automobile or boat transporter configured as a semitrailer combination wherein the fifth wheel is located on a drop frame located behind and below the rearmost axle of the power unit. Notwithstanding paragraphs (a) and (b), any straight truck or truck tractor-semitrailer combination engaged in the transportation of horticultural trees may allow the load to extend up to an additional 10 feet beyond the rear of the

277322

vehicle, provided said trees are resting against a retaining bar mounted above the truck bed so that the root balls of the trees rest on the floor and to the front of the truck bed and the tops of the trees extend up over and to the rear of the truck bed, and provided the overhanging portion of the load is covered with protective fabric.

(a) *Straight trucks.*—A straight truck may not exceed a length of 40 feet in extreme overall dimension, exclusive of safety and energy conservation devices approved by the department for use on vehicles using public roads. A straight truck may attach a forklift to the rear of the cargo bed, provided the overall combined length of the vehicle and the forklift does not exceed 50 feet. A straight truck may tow no more than one trailer, and the overall length of the truck-trailer combination may not exceed 68 feet, including the load thereon. Notwithstanding any other provisions of this section, a truck-trailer combination engaged in the transportation of boats, or boat trailers whose design dictates a front-to-rear stacking method may not exceed the length limitations of this paragraph exclusive of the load; however, the load may extend up to an additional 6 feet beyond the rear of the trailer.

Senate Amendment (with title amendment)

Between lines 814 and 815
insert:

Section 10. Subsection (6) is added to section 335.0415, Florida Statutes, to read:

335.0415 Public road jurisdiction and transfer process.—

(6) Notwithstanding the provisions of subsections (1)-(5) or any other provision of law to the contrary, it is the intent of the Legislature that, as a pilot program, the City of Miami be provided and assume certain responsibilities for the maintenance of State Road 5/Brickell Avenue/Biscayne Boulevard

396632

within defined limits in the City of Miami.

(a) The department shall enter into an interlocal agreement with the City of Miami which must provide that the City of Miami be responsible for street cleaning, landscaping, and maintenance of the right-of-way of State Road 5/Brickell Avenue/Biscayne Boulevard, from its intersection with Interstate 95 to its intersection with Northeast 15th Street, excluding the Brickell Bridge and its approaches, for a 5-year period. The interlocal agreement must:

1. Contain performance measures to ensure that the facility and landscaping are maintained in accordance with applicable department standards.

2. Require the city to meet or exceed the performance measures as a condition of payment by the department for the work performed by the city.

3. Indemnify and hold the department harmless from any liability arising out of the city's exercise of, or failure to exercise, the transferred responsibilities.

(b) During the final year of the 5-year pilot program, the Florida Transportation Commission shall conduct a study to evaluate the effectiveness and benefits of the pilot program. The commission may retain such experts as are reasonably necessary to complete the study, and the department shall pay the expenses of such experts. The commission shall complete the study within 60 days after the end of the 5-year pilot program and shall provide a written report of its findings and conclusions to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the chairs of each of the appropriations committees of the Legislature.

	.	

The Committee on Appropriations (Richter) recommended the following:

Senate Amendment (with title amendment)

Between lines 827 and 828
insert:

Section 11. Section 336.71, Florida Statutes, is created to read:

336.71 Public-private cooperation in construction of county roads.—

(1) If a county receives a proposal, solicited or unsolicited, from a private entity seeking to construct, extend, or improve a county road or portion thereof, the county may enter into an agreement with the private entity for completion

499346

of the road construction project, which agreement may provide for payment to the private entity, from public funds, if the county conducts a noticed public hearing and finds that the proposed county road construction project:

(a) Is in the best interest of the public.

(b) Would only use county funds for portions of the project that will be part of the county road system.

(c) Would have adequate safeguards to ensure that additional costs or unreasonable service disruptions are not realized by the traveling public and residents of the state.

(d) Upon completion, would be a part of the county road system owned by the county.

(e) Would result in a financial benefit to the public by completing the subject project at a cost to the public significantly lower than if the project were constructed by the county using the normal procurement process.

(2) The notice for the public hearing provided for in subsection (1) must be published at least 14 days before the date of the public meeting at which the governing board takes final action. The notice must identify the project and the estimated cost of the project, and specify that the purpose for the public meeting is to consider whether it is in the public's best interest to accept the proposal and enter into an agreement. The determination of cost savings pursuant to paragraph (1)(e) must be supported by a cost estimate of a professional engineer which is made available to the public at least 14 days before the public meeting and placed in the record for that meeting.

(3) The project and agreement are exempt from s. 255.20

499346

pursuant to s. 255.20(1)(c)11. if the process in subsection (1) is followed.

(4) Except as otherwise expressly provided in this section, this section does not affect existing law by granting additional powers to or imposing further restrictions on local government entities.

The Committee on Appropriations (Richter) recommended the following:

Senate Amendment (with title amendment)

Delete lines 1733 - 1734
and insert:
Section 44. New subsections (2) and (7) are added to section 341.8203, Florida Statutes, to read:
341.8203 Definitions.—As used in ss. 341.8201-341.842, unless the context clearly indicates otherwise, the term:
(1) "Associated development" means property, equipment, buildings, or other related facilities which are built, installed, used, or established to provide financing, funding, or revenues for the planning, building, managing, and operation

of a high-speed rail system and which are associated with or part of the rail stations. The term includes air and subsurface rights, services that provide local area network devices for transmitting data over wireless networks, parking facilities, retail establishments, restaurants, hotels, offices, advertising, or other commercial, civic, residential, or support facilities.

(2) "Communication facilities" means the communication systems related to high-speed passenger rail operations, including those which are built, installed, used, or established for the planning building, managing, and operating of a high-speed rail system. The term includes the land, structures, improvements, rights-of-way, easements, positive train control system, wireless communication towers and facilities that are designed to provide voice and data services for the safe and efficient operation of the high-speed rail system and as amenities that may be made available to crew and passengers as part of a high-speed rail service, and any other facilities or equipment used for operation of, or the facilitation of communications for, a high-speed rail system.

(3) ~~(2)~~ "Enterprise" means the Florida Rail Enterprise.

(4) ~~(3)~~ "High-speed rail system" means any high-speed fixed guideway system for transporting people or goods, which system is, by definition of the United States Department of Transportation, reasonably expected to reach speeds of at least 110 miles per hour, including, but not limited to, a monorail system, dual track rail system, suspended rail system, magnetic levitation system, pneumatic repulsion system, or other system approved by the enterprise. The term includes a corridor,

632806

associated intermodal connectors, and structures essential to the operation of the line, including the land, structures, improvements, rights-of-way, easements, rail lines, rail beds, guideway structures, switches, yards, parking facilities, power relays, switching houses, and rail stations and also includes facilities or equipment used exclusively for the purposes of design, construction, operation, maintenance, or the financing of the high-speed rail system.

(5) ~~(4)~~ "Joint development" means the planning, managing, financing, or constructing of projects adjacent to, functionally related to, or otherwise related to a high-speed rail system pursuant to agreements between any person, firm, corporation, association, organization, agency, or other entity, public or private.

(6) ~~(5)~~ "Rail station," "station," or "high-speed rail station" means any structure or transportation facility that is part of a high-speed rail system designed to accommodate the movement of passengers from one mode of transportation to another at which passengers board or disembark from transportation conveyances and transfer from one mode of transportation to another.

(7) "Railroad company" means a person developing, or providing service on, a high-speed rail system.

(8) ~~(6)~~ "Selected person or entity" means the person or entity to whom the enterprise awards a contract to establish a high-speed rail system pursuant to ss. 341.8201-341.842.

Section 45. Paragraph (c) is added to subsection (2) of section 341.822, Florida Statutes, to read:

341.822 Powers and duties.—

(2)(a) In addition to the powers granted to the department, the enterprise has full authority to exercise all powers granted to it under this chapter. Powers shall include, but are not limited to, the ability to plan, construct, maintain, repair, and operate a high-speed rail system, to acquire corridors, and to coordinate the development and operation of publicly funded passenger rail systems in the state.

(b) It is the express intention of ss. 341.8201-341.842 that the enterprise be authorized to plan, develop, own, purchase, lease, or otherwise acquire, demolish, construct, improve, relocate, equip, repair, maintain, operate, and manage the high-speed rail system; to expend funds to publicize, advertise, and promote the advantages of using the high-speed rail system and its facilities; and to cooperate, coordinate, partner, and contract with other entities, public and private, to accomplish these purposes.

(c) The enterprise shall establish a process to issue permits to railroad companies for the construction of communication facilities within a new or existing public or private high-speed rail system. The enterprise may adopt rules to administer such permits, including rules regarding the form, content, and necessary supporting documentation for permit applications, the process for submitting applications, and the application fee for a permit under s. 341.825.

Section 46. Section 341.825, Florida Statutes, is created to read:

341.825 Communication facilities.—

(1) LEGISLATIVE INTENT.—The Legislature intends to:

(a) Establish a streamlined process to authorize the

location, construction, operation, and maintenance of communication facilities within new and existing high-speed rail systems.

(b) Expedite the expansion of the high-speed rail system's wireless voice and data coverage and capacity for the safe and efficient operation of the high-speed rail system and the safety, use, and efficiency of its crew and passengers as a critical communication facilities component.

(2) APPLICATION SUBMISSION.—A railroad company may submit to the enterprise an application to obtain a permit to construct communication facilities within a new or existing high speed rail system. The application shall include an application fee that shall not exceed $10,000, which shall be deposited into the State Transportation Trust Fund. The application shall include the following information:

(a) The location of the proposed communication facilities.

(b) A description of the proposed communication facilities.

(c) Any other information reasonably required by the enterprise.

(3) APPLICATION REVIEW.—The enterprise shall review each application for completeness within 30 days after receipt of the application.

(a) If the enterprise determines that an application is not complete, the enterprise shall, within 30 days after the receipt of the initial application, notify the applicant in writing of any errors or omissions. An applicant shall have 30 days within which to correct the errors or omissions in the initial application.

(b) If the enterprise determines that an application is

632806

complete, the enterprise shall act upon the permit application within 60 days of the receipt of the completed application by approving in whole, approving with conditions as the enterprise deems appropriate, or denying the application, and stating the reason for issuance or denial. In determining whether an application should be approved, approved with modifications or conditions, or denied, the enterprise shall consider the extent to which the proposed communication facilities:

1. Are located in a manner that is appropriate for the communication technology specified by the applicant.

2. Serve an existing or projected future need for communication facilities.

3. Provide sufficient wireless voice and data coverage and capacity for the safe and efficient operation of the high-speed rail system and the safety, use, and efficiency of its crew and passengers.

(4) EFFECT OF PERMIT.—Subject to the conditions set forth therein, a permit issued by the enterprise shall constitute the sole permit of the state and any agency as to the approval of the location, construction, operation, and maintenance of the communication facilities within the new or existing high speed rail system.

(a) A permit authorizes the permittee to locate, construct, operate, and maintain the communication facilities within a new or existing high speed rail system, subject only to the conditions set forth in the permit. Such activities are not subject to local government land use or zoning regulations.

(b) A permit may include conditions that constitute variances and exemptions from rules of the enterprise or any

other agency, which would otherwise be applicable to the communication facilities within the new or existing high speed rail system.

(c) The permit shall be in lieu of any license, permit, certificate, or similar document required by any state, regional, or local agency under, but not limited to, chapter 125, chapter 161, chapter 163, chapter 166, chapter 186, chapter 253, chapter 258, chapter 298, chapter 373, chapter 376, chapter 379, chapter 380, chapter 381, chapter 403, chapter 404, chapter 553, and the Florida Transportation Code.

(d) If any provision of this section is in conflict with any other provision, limitation, or restriction under any law, rule, regulation, or ordinance of this state or any political subdivision, municipality, or agency, this section shall control and such law, rule, regulation, or ordinance shall be deemed superseded. Nothing in this section is intended to impose procedures or restrictions on railroad companies that are subject to the exclusive jurisdiction of the federal Surface Transportation Board pursuant to the Interstate Commerce Commission Termination Act of 1995, 49 U.S.C. ss. 10101, et seq.

(5) MODIFICATION OF PERMIT.—A permit may be modified by the applicant after issuance upon the filing of a petition with the enterprise.

(a) A petition for modification must set forth the proposed modification and the factual reasons asserted for the modification.

(b) The enterprise shall act upon the petition within 30 days by approving or denying the application, and stating the reason for issuance or denial.

632806

Section 47. Paragraph (b) of subsection (2) of section 341.840, is amended to read:

341.840 Tax exemption.—

(2)

(b) For the purposes of this section, any item or property that is within the definition of the term "associated development" in s. 341.8203(1) may not be considered part of the high-speed rail system as defined in s. 341.3203(4) ~~341.8203(3)~~.

and insert:

secure bonds; and all other expenditures of the authority incident to and necessary or convenient to carry out its corporate purposes and powers.

(2)(a) Bonds issued by an authority pursuant to paragraph (1)(a) or paragraph (1)(b) must be authorized by resolution of the members of the authority and must bear such date or dates; mature at such time or times, not exceeding 30 years after their respective dates; bear interest at such rate or rates, not

exceeding the maximum rate fixed by general law for authorities; be in such denominations; be in such form, either coupon or fully registered; carry such registration, exchangeability and interchangeability privileges; be payable in such medium of payment and at such place or places; be subject to such terms of redemption; and be entitled to such priorities of lien on the revenues and other available moneys as such resolution or any resolution subsequent to the bonds' issuance may provide. The bonds shall be executed either by manual or facsimile signature by such officers as the authority shall determine, provided that such bonds shall bear at least one signature that is manually executed thereon. The coupons attached to such bonds shall bear the facsimile signature or signatures of such officer or officers as designated by the authority. Such bonds shall have the seal of the authority affixed, imprinted, reproduced, or lithographed thereon.

(b) Bonds issued pursuant to paragraph (1)(a) or paragraph (1)(b) must be sold at public sale in the same manner provided in the State Bond Act. Pending the preparation of definitive bonds, temporary bonds or interim certificates may be issued to the purchaser or purchasers of such bonds and may contain such terms and conditions as the authority may determine.

(3) A resolution that authorizes any bonds may contain provisions that must be part of the contract with the holders of the bonds, as to:

(a) The pledging of all or any part of the revenues, available municipal or county funds, or other charges or receipts of the authority derived from the regional system.

(b) The construction, reconstruction, improvement,

extension, repair, maintenance, and operation of the system, or any part or parts of the system, and the duties and obligations of the authority with reference thereto.

(c) Limitations on the purposes to which the proceeds of the bonds, then or thereafter issued, or of any loan or grant by any federal agency or the state or any political subdivision of the state may be applied.

(d) The fixing, charging, establishing, revising, increasing, reducing, and collecting of tolls, rates, fees, rentals, or other charges for use of the services and facilities of the system or any part of the system.

(e) The setting aside of reserves or of sinking funds and the regulation and disposition of the reserves or sinking funds.

(f) Limitations on the issuance of additional bonds.

(g) The terms and provisions of any deed of trust or indenture securing the bonds, or under which the bonds may be issued.

(h) Any other or additional matters, of like or different character, which in any way affect the security or protection of the bonds.

(4) The authority may enter into any deeds of trust, indentures, or other agreements with any bank or trust company within or without the state, as security for such bonds, and may, under such agreements, assign and pledge any of the revenues and other available moneys, including any available municipal or county funds, pursuant to the terms of this chapter. The deed of trust, indenture, or other agreement may contain provisions that are customary in such instruments or that the authority may authorize, including, but without

limitation, provisions that:

(a) Pledge any part of the revenues or other moneys lawfully available therefor.

(b) Apply funds and safeguard funds on hand or on deposit.

(c) Provide for the rights and remedies of the trustee and the holders of the bonds.

(d) Provide for the terms and provisions of the bonds or for resolutions authorizing the issuance of the bonds.

(e) Provide for any other or additional matters, of like or different character, which affect the security or protection of the bonds.

(5) Any bonds issued pursuant to this act are negotiable instruments and have all the qualities and incidents of negotiable instruments under the law merchant and the negotiable instruments law of the state.

(6) A resolution that authorizes the issuance of authority bonds and pledges the revenues of the system must require that revenues of the system be periodically deposited into appropriate accounts in such sums as are sufficient to pay the costs of operation and maintenance of the system for the current fiscal year as set forth in the annual budget of the authority and to reimburse the department for any unreimbursed costs of operation and maintenance of the system from prior fiscal years before revenues of the system are deposited into accounts for the payment of interest or principal owing or that may become owing on such bonds.

(7) State funds may not be used or pledged to pay the principal or interest of any authority bonds, and all such bonds must contain a statement on their face to this effect.

345.0006 Remedies of bondholders.—

(1) The rights and the remedies granted to authority bondholders under this chapter are in addition to and not in limitation of any rights and remedies lawfully granted to such bondholders by the resolution or indenture providing for the issuance of bonds, or by any deed of trust, indenture, or other agreement under which the bonds may be issued or secured. If an authority defaults in the payment of the principal of or interest on any of the bonds issued pursuant to this chapter after such principal of or interest on the bonds becomes due, whether at maturity or upon call for redemption, as provided in the resolution or indenture, and such default continues for 30 days, or in the event that the authority fails or refuses to comply with the provisions of this chapter or any agreement made with, or for the benefit of, the holders of the bonds, the holders of 25 percent in aggregate principal amount of the bonds then outstanding shall be entitled as of right to the appointment of a trustee to represent such bondholders for the purposes of the default provided that the holders of 25 percent in aggregate principal amount of the bonds then outstanding first gave written notice of their intention to appoint a trustee, to the authority and to the department.

(2) The trustee, and any trustee under any deed of trust, indenture, or other agreement, may, and upon written request of the holders of 25 percent, or such other percentages specified in any deed of trust, indenture, or other agreement, in principal amount of the bonds then outstanding, shall, in any court of competent jurisdiction, in his, her, or its own name:

(a) By mandamus or other suit, action, or proceeding at

law, or in equity, enforce all rights of the bondholders, including the right to require the authority to fix, establish, maintain, collect, and charge rates, fees, rentals, and other charges, adequate to carry out any agreement as to, or pledge of, the revenues, and to require the authority to carry out any other covenants and agreements with or for the benefit of the bondholders, and to perform its and their duties under this chapter.

(b) Bring suit upon the bonds.

(c) By action or suit in equity, require the authority to account as if it were the trustee of an express trust for the bondholders.

(d) By action or suit in equity, enjoin any acts or things that may be unlawful or in violation of the rights of the bondholders.

(3) A trustee, if appointed pursuant to this section or acting under a deed of trust, indenture, or other agreement, and whether or not all bonds have been declared due and payable, shall be entitled as of right to the appointment of a receiver. The receiver may enter upon and take possession of the system or the facilities or any part or parts of the system, the revenues and other pledged moneys, for and on behalf of and in the name of, the authority and the bondholders. The receiver may collect and receive all revenues and other pledged moneys in the same manner as the authority might do. The receiver shall deposit all such revenues and moneys in a separate account and apply all such revenues and moneys remaining after allowance for payment of all costs of operation and maintenance of the system in such manner as the court directs. In a suit, action, or proceeding by

the trustee, the fees, counsel fees, and expenses of the trustee, and said receiver, if any, and all costs and disbursements allowed by the court must be a first charge on any revenues after payment of the costs of operation and maintenance of the system. The trustee also has all other powers necessary or appropriate for the exercise of any functions specifically set forth in this section or incident to the representation of the bondholders in the enforcement and protection of their rights.

(4) This section or any other section of this chapter does not authorize a receiver appointed pursuant to this section for the purpose of operating and maintaining the system or any facilities or parts thereof to sell, assign, mortgage, or otherwise dispose of any of the assets belonging to the authority. The powers of such receiver are limited to the operation and maintenance of the system, or any facility or parts thereof and to the collection and application of revenues and other moneys due the authority, in the name and for and on behalf of the authority and the bondholders. A holder of bonds or any trustee does not have the right in any suit, action, or proceeding, at law or in equity, to compel a receiver, or a receiver may not be authorized or a court may not direct a receiver to, sell, assign, mortgage, or otherwise dispose of any assets of whatever kind or character belonging to the authority.

345.0007 Department to construct, operate, and maintain facilities.—

(1) The department is the agent of each authority for the purpose of performing all phases of a project, including, but not limited to, constructing improvements and extensions to the

system. The authority shall provide to the department complete copies of the documents, agreements, resolutions, contracts, and instruments that relate to the project and shall request that the department perform the construction work, including the planning, surveying, design, and actual construction of the completion, extensions, and improvements to the system. After the issuance of bonds to finance construction of an improvement or addition to the system, the authority shall transfer to the credit of an account of the department in the State Treasury the necessary funds for construction. The department shall proceed with construction and use the funds for the purpose authorized and as otherwise provided by law for construction of roads and bridges. An authority may alternatively, with the consent and approval of the department, elect to appoint a local agency certified by the department to administer federal aid projects in accordance with federal law as the authority's agent for the purpose of performing each phase of a project.

(2) Notwithstanding the provisions of subsection (1), the department is the agent of each authority for the purpose of operating and maintaining the system. The department shall operate and maintain the system, and the costs incurred by the department for operation and maintenance shall be reimbursed from revenues of the system. The appointment of the department as agent for each authority does not create an independent obligation of the department to operate and maintain a system. Each authority shall remain obligated as principal to operate and maintain its system, and an authority's bondholders do not have an independent right to compel the department to operate or maintain the authority's system.

(3) Each authority shall fix, alter, charge, establish, and collect tolls, rates, fees, rentals, and other charges for the authority's facilities, as otherwise provided in this chapter.

345.0008 Department contributions to authority projects.—

(1) The department may agree with an authority to provide for or contribute to the payment of costs of financial or engineering and traffic feasibility studies and the design, financing, acquisition, or construction of an authority project or system included in the 10-year Strategic Intermodal Plan, subject to appropriation by the Legislature.

(a) In the manner required by chapter 216, the department shall include any issue or issues in its legislative budget request for funding the payment of costs of financial or engineering and traffic feasibility studies and the design, financing, acquisition, or construction of an authority project or system. The request for funding may be included as part of the 5-year Tentative Work Program; however, it will be decided upon separately as a distinct funding item for consideration by the Legislature. The department must include a financial feasibility test to accompany such legislative budget request for consideration of funding any authority project.

(b) As determined by the Legislature in the General Appropriations Act, funding provided for authority projects shall be appropriated in a specific fixed capital outlay appropriation category that clearly identifies the authority project.

(c) The department may not request legislative approval of acquisition or construction of a proposed authority project unless the estimated net revenues of the proposed project will

be sufficient to pay at least 50 percent of the annual debt service on the bonds associated with the project by the end of the 12th year of operation and to pay at least 100 percent of the debt service on the bonds by the end of the 30th year of operation.

(2) The department may use its engineering and other personnel, including consulting engineers and traffic engineers, to conduct feasibility studies under subsection (1). The department may participate in authority-funded projects that, at a minimum:

(a) Serve national, statewide, or regional functions and function as part of an integrated regional transportation system.

(b) Are identified in the capital improvements element of a comprehensive plan that has been determined to be in compliance with part II of chapter 163. Further, the project shall be in compliance with local government comprehensive plan policies relative to corridor management.

(c) Are consistent with the Strategic Intermodal System Plan developed under s. 339.64.

(d) Have a commitment for local, regional, or private financial matching funds as a percentage of the overall project cost.

(3) Before approval, the department must determine that the proposed project:

(a) Is in the public’s best interest;

(b) Would not require state funds to be used unless the project is on the State Highway System;

(c) Would have adequate safeguards in place to ensure that

no additional costs or service disruptions would be realized by the traveling public and residents of the state in the event of default or cancellation of the agreement by the department; and (d) Would have adequate safeguards in place to ensure that the department and the regional transportation finance authority have the opportunity to add capacity to the proposed project and other transportation facilities serving similar origins and destinations.

The Committee on Appropriations (Richter) recommended the following:

Senate Amendment (with title amendment)

Between lines 4507 and 4508
insert:

Section 80. The Florida Transportation Commission shall conduct a study of the potential for the state to obtain revenue from any parking meters or other parking time-limit devices that regulate designated parking spaces located within or along the right-of-way limits of a state road. The commission may retain such experts as are reasonably necessary to complete the study, and the department shall pay the expenses of such experts. On or before August 31, 2013, each municipality and county that

169590

receives revenue from any parking meters or other parking time-limit devices that regulate designated parking spaces located within or along the right-of-way limits of a state road shall provide the commission a written inventory of the location of each such meter or device and the total revenue collected from such locations during the last 3 fiscal years. Each municipality and county shall at the same time inform the commission of any pledge or commitment by the municipality or county of such revenues to the payment of debt service on any bonds or other debt issued by the municipality or county. The commission shall consider the information provided by the municipalities and counties, together with such other matters as it deems appropriate, including, but not limited to, the use of variable rate parking, and shall develop policy recommendations regarding the manner and extent that revenues generated by regulating parking within the right-of-way limits of a state road may be allocated between the department and municipalities and counties. The commission shall develop specific recommendations concerning the allocation of revenues generated by meters or devices regulating such parking that were installed before July 1, 2013, and the allocation of revenues that may be generated by meters or devices installed thereafter. The commission shall complete the study and provide a written report of its findings and conclusions to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the chairs of each of the appropriations committees of the Legislature by October 31, 2013.

(2) The Legislature finds that preservation of the status quo pending the commission’s study and the Legislature’s review

169590

of the commission's report is appropriate and desirable. From July 1, 2013, through July 1, 2014, no county or municipality shall install any parking meters or other parking time-limit devices that regulate designated parking spaces located within or along the right-of-way limits of a state road. This subsection does not prohibit the replacement of meters or similar devices installed before July 1, 2013, with new devices that regulate the same designated parking spaces.

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

Delete line 398

and insert:

prohibition; requiring the Florida Transportation Commission to study the potential for state revenue from parking meters and other parking time-limit devices; authorizing to commission to retain experts; requiring the department to pay for the experts; requiring certain information from municipalities and counties; requiring certain information to be considered in the study; requiring a written report; providing for a moratorium on new parking meters of other parking time-limit devices on the state right-of-way; providing an exception; providing effective dates.

Senate Amendment (with title amendment)

Between lines 4507 and 4508
insert:

Section 80. Sale of used tires.—

(1) It is unlawful for any used tire retailer in this state to sell unsafe used tires for the purpose of mounting on a vehicle as defined in s. 316.003. This section does not apply to a used tire retailer who sells used tires for recapping.

(2) For purposes of this section, a used tire is considered unsafe if the tire:

(a) Is worn to 2/32 of an inch tread depth or less on any

676670

area of the tread;

(b) Has any damage exposing the reinforcing plies of the tire, including any cuts, cracks, bulges, punctures, scrapes, or wear;

(c) Has had an improper repair including:

1. Any repair made in the tread shoulder or belt edge area of the tire;

2. Any puncture that has not been sealed or patched on the inside and repaired with a cured rubber stem through to the outside of the tire;

3. A repair to the sidewall or bead area of the tire; or

4. A puncture repair of damage larger than one-quarter of an inch;

(d) Has evidence of prior use of a temporary tire sealant without evidence of a subsequent proper repair;

(e) Has its tire identification number defaced or removed;

(f) Has inner liner or bead damage; or

(g) Has an indication of internal separation, such as bulges or local areas of irregular tread wear.

(3) A person who violates this section commits an unfair and deceptive trade practice as defined in part II of chapter 501, Florida Statutes.

Senate Amendment (with title amendment)

Between lines 608 and 609
insert:

Section 4. Subsection (5) is added to section 212.0606, Florida Statutes, to read:

212.0606 Rental car surcharge.—

(5) Notwithstanding subsection (1), if a member of a car-sharing service uses a motor vehicle pursuant to an agreement with a car-sharing service for less than 24 hours, a surcharge of 8 cents per hour of usage is imposed. Partial portions of an hour shall be rounded up to the nearest hour for calculation

146010

purposes. If a member of a car-sharing service uses the same motor vehicle for 24 consecutive hours or more, a surcharge of $2.00 per day or any part of the day is imposed. For purposes of this subsection, the term "car-sharing service" means a membership-based organization or business that requires the payment of an application or membership fee and provides member access to motor vehicles:

(a) Only at unstaffed locations;

(b) Twenty-four hours per day, seven days per week;

(c) That are unlocked through decentralized automated means, including, but not limited to, smartphone applications and electronic membership cards;

(d) That cannot be started or turned on using the same decentralized automated means used to unlock the motor vehicle;

(e) On hourly or shorter increments; and

(f) Without additional costs for fuel or insurance per single use.

The Committee on Appropriations (Gardiner) recommended the following:

Senate Amendment (with title amendment)

Delete lines 2980 - 3114
and insert:
provided in the bond resolution securing the bonds, and expressly assumes all obligations relating to the bonds to ensure that the transfer will have no adverse impact on the security for the bonds. The transfer does not make the obligation to pay the principal and interest on the bonds a general liability of the Central Florida Expressway Authority or pledge additional expressway system revenues to payment of the bonds. Revenues that are generated by the expressway system and

303472

other facilities of the Central Florida Expressway Authority which were pledged by the Orlando-Orange County Expressway Authority to payment of the bonds will remain subject to the pledge for the benefit of the bondholders. The transfer does not modify or eliminate any prior obligation of the department to pay certain costs of the expressway system from sources other than revenues of the expressway system.

(3) ~~(2)~~ The governing body of the authority shall consist of 11 ~~five~~ members. The chairs of the boards of the county commissions of Seminole, Lake, and Osceola Counties shall each appoint one member, who may be a commission member or chair. The Governor shall appoint six citizen members. Of the Governor's appointments, two ~~Three~~ members must ~~shall~~ be citizens of Orange County, one member each must be a citizen of Seminole, Lake, and Osceola Counties, and one member may be a citizen of any of the identified counties ~~who shall be appointed by the Governor~~. The 10th ~~fourth~~ member must ~~shall~~ be~~, ex officio,~~ the Mayor of ~~chair of the County Commissioners of~~ Orange County. The 11th member must be the Mayor of the City of Orlando. The executive director of Florida Turnpike Enterprise shall serve as a nonvoting advisor to the governing body of the authority~~, and the fifth member shall be, ex officio, the district secretary of the Department of Transportation serving in the district that contains Orange County~~. ~~The term of~~ Each ~~appointed~~ member appointed by the Governor shall serve ~~be~~ for 4 years. Each county-appointed member shall serve for 2 years. Standing board members shall complete their terms. Each appointed member shall hold office until his or her successor has been appointed and has qualified. A vacancy occurring during a term must ~~shall~~ be

303472

filled only for the balance of the unexpired term. Each appointed member of the authority shall be a person of outstanding reputation for integrity, responsibility, and business ability, but, except as provided in this subsection, a ~~no~~ person who is an officer or employee of a municipality or ~~any city or of Orange~~ county may not ~~in any other capacity shall~~ be an appointed member of the authority. Any member of the authority is ~~shall be~~ eligible for reappointment.

(4)~~(3)~~(a) The authority shall elect one of its members as chair of the authority. The authority shall also elect one of its members as vice chair, one of its members as ~~a~~ secretary, and one of its members as ~~a~~ treasurer ~~who may or may not be members of the authority~~. The chair, vice chair, secretary, and treasurer shall hold such offices at the will of the authority. Six ~~Three~~ members of the authority ~~shall~~ constitute a quorum, and the vote of six ~~three~~ members is ~~shall be~~ necessary for any action taken by the authority. A ~~No~~ vacancy in the authority does not ~~shall~~ impair the right of a quorum of the authority to exercise all of the rights and perform all of the duties of the authority.

(b) Upon the effective date of his or her appointment, or as soon thereafter as practicable, each appointed member of the authority shall enter upon his or her duties.

(5)~~(4)~~(a) The authority may employ an executive secretary, an executive director, its own counsel and legal staff, technical experts, and the ~~such~~ engineers~~,~~ and ~~such~~ employees that~~, permanent or temporary, as~~ it requires. The authority ~~may require and~~ may determine the qualifications and fix the compensation of such persons, firms, or corporations, and may

303472

employ a fiscal agent or agents;~~, provided,~~ however, ~~that~~ the authority shall solicit sealed proposals from at least three persons, firms, or corporations for the performance of any services as fiscal agents. The authority may delegate to one or more of its agents or employees the ~~such of its~~ power ~~as~~ it deems ~~shall deem~~ necessary to carry out the purposes of this part~~, subject always to the supervision and control of the authority~~. Members of the authority may be removed from ~~their~~ office by the Governor for misconduct, malfeasance, misfeasance, or nonfeasance in office.

(b) Members of the authority are ~~shall be~~ entitled to receive from the authority their travel and other necessary expenses incurred in connection with the business of the authority as provided in s. 112.061, but may not ~~they shall~~ draw ~~no~~ salaries or other compensation.

Section 60. Section 348.754, Florida Statutes, is amended to read:

348.754 Purposes and powers.—

(1)(a) The authority created and established under ~~by the provisions of~~ this part is ~~hereby~~ granted and has ~~shall have~~ the right to acquire, hold, construct, improve, maintain, operate, own, and lease in the capacity of lessor~~,~~ the Central Florida ~~Orlando-Orange County~~ Expressway System, hereinafter referred to as "system." Except as otherwise specifically provided by law, including paragraph (2)(n), the area served by the authority shall be within the geographical boundaries of Orange, Seminole, Lake, and Osceola Counties.

(b) ~~It is the express intention of this part that said authority,~~ In the construction of the Central Florida ~~said~~

303472

~~Orlando-Orange County~~ Expressway System, the authority may ~~shall be authorized to~~ construct any extensions, additions, or improvements to the ~~said~~ system or appurtenant facilities, including all necessary approaches, roads, bridges, ~~and~~ avenues of access, rapid transit, trams, fixed guideways, thoroughfares, and boulevards with any ~~such~~ changes, modifications, or revisions of the ~~said~~ project which are ~~as shall be~~ deemed desirable and proper.

(c) Notwithstanding any other provision of this part to the contrary, to ensure the continued financial feasibility of the portion of the Wekiva Parkway to be constructed by the department, the authority may not, without the prior consent of the secretary of the department, construct an extension, addition, or improvement to the expressway system in Lake County.

(2) The authority ~~is hereby granted, and shall have and~~ may exercise all powers necessary, appurtenant, convenient, or incidental to the implementation ~~carrying out~~ of the stated ~~aforesaid~~ purposes, including, but not ~~without being~~ limited to, the following rights and powers:

(a) To sue and be sued, implead and be impleaded, complain and defend in all courts.

(b) To adopt, use, and alter at will a corporate seal.

(c) To acquire by donation or otherwise, purchase, hold, lease as lessee, and use any franchise or any~~,~~ property, real, personal, ~~or~~ mixed, or tangible or intangible, or any options ~~thereof~~ in its own name or in conjunction with others, or interest in those options ~~therein~~, necessary or desirable to carry ~~for carrying~~ out the purposes of the authority, and to

303472

sell, lease as lessor, transfer, and dispose of any property or interest in the property ~~therein~~ at any time acquired by it.

(d) To enter into and make leases for terms not exceeding 99 ~~40~~ years, as ~~either~~ lessee or lessor, in order to carry out the right to lease as specified ~~set forth~~ in this part.

(e) To enter into and make lease-purchase agreements with the department for terms not exceeding 40 years, or until any bonds secured by a pledge of rentals pursuant to the agreement ~~thereunder~~, and any refundings pursuant to the agreement ~~thereof~~, are fully paid as to both principal and interest, whichever is longer. The authority is a party to a lease-

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Transportation, Tourism, and Economic Development)

A bill to be entitled

An act relating to the Department of Transportation; repealing s. 11.45(3)(m), F.S., relating to the authority of the Auditor General to conduct audits of transportation corporations under the Florida Transportation Corporation Act; amending s. 20.23, F.S.; requiring the Transportation Commission to also monitor authorities created under ch. 345, F.S., relating to the Florida Regional Transportation Finance Authority Act; amending s. 110.205, F.S.; changing a title to the State Freight and Logistics Administrator from the State Public Transportation and Modal Administrator, which is an exempt position not covered under career service; amending s. 311.22, F.S.; establishing the Department of Transportation as the agency responsible for administering the section, instead of the Florida Seaport Transportation and Economic Development Council; providing for the future repeal of the section; repealing s. 316.530(3), F.S., relating to load limits for certain towed vehicles; amending s. 316.545, F.S.; increasing the weight amount used for penalty calculations; conforming terminology; amending s. 331.360, F.S.; reordering provisions; providing for a spaceport system plan; providing funding for space transportation projects from the State Transportation Trust Fund; requiring

730310

576-04144A-13

Space Florida to provide the Department of Transportation with specific project information and to demonstrate transportation and aerospace benefits; specifying the information to be provided; providing funding criteria; amending s. 332.007, F.S.; authorizing the Department of Transportation to fund strategic airport investments; providing criteria; amending s. 334.044, F.S.; prohibiting the department from entering into a lease-purchase agreement with certain transportation authorities after a specified time; providing an exception from the requirement to purchase all plant materials from Florida commercial nursery stock when prohibited by applicable federal law or regulation; amending s. 335.06, F.S.; revising the responsibilities of the Department of Transportation, a county, or a municipality to improve or maintain a road that provides access to property within the state park system; amending s. 337.11, F.S.; removing the requirement that a contractor provide a notarized affidavit as proof of registration; amending s. 337.14, F.S.; revising the criteria for bidding certain construction contracts to require a proposed budget estimate if a contract is more than a specified amount; amending s. 337.168, F.S.; providing that a document that reveals the identity of a person who has requested or received certain information before a certain time is a public record; amending s. 337.25, F.S.; authorizing the Department of Transportation to use auction services

in the conveyance of certain property or leasehold interests; revising certain inventory requirements; revising provisions and providing criteria for the department to dispose of certain excess property; providing such criteria for the disposition of donated property, property used for a public purpose, or property acquired to provide replacement housing for certain displaced persons; providing value offsets for property that requires significant maintenance costs or exposes the department to significant liability; providing procedures for the sale of property to abutting property owners; deleting provisions to conform to changes made by the act; providing monetary restrictions and criteria for the conveyance of certain leasehold interests; providing exceptions to restrictions for leases entered into for a public purpose; providing criteria for the preparation of estimates of value prepared by the department; providing that the requirements of s. 73.013, F.S., relating to eminent domain, are not modified; amending s. 337.251, F.S.; revising criteria for leasing particular department property; increasing the time the department must accept proposals for lease after a notice is published; authorizing the department to establish an application fee by rule; providing criteria for the fee; providing criteria that the lease must meet; amending s. 338.161, F.S.; authorizing the department to enter into agreements with owners of public or private transportation

facilities under which the department uses its electronic toll collection and video billing systems to collect for the owner certain charges for use of the owners' transportation facilities; amending s. 338.165, F.S.; removing the Beeline-East Expressway and the Navarre Bridge from the list of facilities that have toll revenues to secure their bonds; amending s. 338.26, F.S.; revising the uses of fees that are generated from tolls to include the design and construction of a fire station that may be used by certain local governments in accordance with a specified memorandum; removing authority of a district to issue bonds or notes; amending s. 339.175, F.S.; revising the criteria that qualify a local government for participation in a metropolitan planning organization; revising the criteria to determine voting membership of a metropolitan planning organization; providing that each metropolitan planning organization shall review its membership and reapportion it as necessary; providing criteria; relocating the requirement that the Governor review and apportion the voting membership among the various governmental entities within the metropolitan planning area; amending s. 339.2821, F.S.; authorizing Enterprise Florida, Inc., to be a consultant to the Department of Transportation for consideration of expenditures associated with and contracts for transportation projects; revising the requirements for economic development transportation project contracts

between the department and a governmental entity; repealing the Florida Transportation Corporation Act; repealing s. 339.401, F.S., relating to the short title; repealing s. 339.402, F.S., relating to definitions; repealing s. 339.403, F.S., relating to legislative findings and purpose; repealing s. 339.404, F.S., relating to authorization of corporations; repealing s. 339.405, F.S., relating to type and structure of the corporation and income; repealing s. 339.406, F.S., relating to contracts between the department and the corporation; repealing s. 339.407, F.S., relating to articles of incorporation; repealing s. 339.408, F.S., relating to the board of directors and advisory directors; repealing s. 339.409, F.S., relating to bylaws; repealing s. 339.410, F.S., relating to notice of meetings and open records; repealing s. 339.411, F.S., relating to the amendment of articles; repealing s. 339.412, F.S., relating to the powers of the corporation; repealing s. 339.414, F.S., relating to use of state property; repealing s. 339.415, F.S., relating to exemptions from taxation; repealing s. 339.416, F.S., relating to the authority to alter or dissolve corporations; repealing s. 339.417, F.S., relating to the dissolution of a corporation upon the completion of purposes; repealing s. 339.418, F.S., relating to transfer of funds and property upon dissolution; repealing s. 339.419, F.S., relating to department rules; repealing s. 339.420, F.S., relating

to construction; repealing s. 339.421, F.S., relating to issuance of debt; amending s. 339.55, F.S.; adding spaceports to the list of facility types for which the state-funded infrastructure bank may lend capital costs or provide credit enhancements; amending s. 341.031, F.S.; revising the definition of the term "intercity bus service"; amending s. 341.053, F.S.; revising the types of eligible projects and criteria of the intermodal development program; amending s. 343.80, F.S.; renaming the Northwest Florida Transportation Corridor Authority Law as the Northwest Florida Regional Transportation Finance Authority Law; amending s. 343.805, F.S., defining "Northwest Florida Regional Transportation Finance Authority System" or "system"; deleting definitions of "U.S. 98 corridor" and "U.S. 98 corridor system"; amending s. 343.81, F.S.; renaming the Northwest Florida Transportation Corridor Authority as the Northwest Florida Regional Transportation Finance Authority; revising the composition of the governing board of the authority from eight to five voting members, two from Okaloosa County and one each from Walton, Bay, and Gulf Counties; removing from the governing body of the authority voting members from Escambia, Santa Rosa, Franklin, and Wakulla Counties; revising quorum requirements and the number of votes necessary for any action by the authority; removing the authority's authorization to establish a technical advisory committee and related provisions; amending s. 343.82,

F.S.; authorizing the authority to acquire, hold, construct, improve, maintain, operate, own, and lease the Northwest Florida Regional Transportation Finance Authority System; removing references to intended improvement of mobility along the U.S. 98 corridor and to the Santa Rosa Sound; removing direction to the authority to adopt a corridor master plan, to annually update and present the plan, to undertake projects or other improvements in the plan, and to request certain funding and technical assistance; conforming terminology; removing a prohibition against the authority imposing tolls or other charges; providing the authority may dispose of property which the authority and the Department of Transportation have determined is not needed for the system; removing the authority's authorization to enter into lease-purchase agreements with the department; amending s. 343.83, F.S.; conforming terminology; amending s. 343.835, F.S.; making conforming changes; replacing a reference to facilities "constructed" by the authority to facilities "owned or provided"; amending s. 343.84, F.S.; providing that the department is the agent of the authority for the purpose of constructing, operating, and maintaining system facilities; providing for alternative appointment of a specified local agency as construction agent with the consent and approval of the department; providing for reimbursement from revenues of the system of costs incurred by the department to operate and maintain the

system; providing that the department has no independent obligation to operate and maintain the system; providing the authority remains obligated as to operate and maintain its system; directing the authority to establish and collect tolls and other charges for the authority's facilities; amending s. 343.85, F.S.; conforming terminology; repealing s. 343.875, F.S., removing the authority's authorization to enter into public-private partnership agreements; removing project criteria; removing department authorization to use state resources to participate in projects; removing authorization to request proposals and to receive unsolicited proposals, removing related notice provisions, and removing procedural provisions related to consideration of such proposals; removing authorization for the public-private entity to impose tolls or fares, to exercise its powers, including eminent domain, and to adopt rules; amending s. 343.89, F.S.; conforming terminology; amending s. 343.922, F.S.; removing reference to advances from the Toll Facilities Revolving Trust Fund as a source of funding for certain projects by an authority; creating ch. 345, F.S., relating to the Florida Regional Transportation Finance Authority; creating s. 345.0001, F.S.; providing a short title; creating s. 345.0002, F.S.; providing definitions; creating s. 345.0003, F.S.; authorizing counties to form a regional transportation finance authority that can construct, maintain, or operate transportation

projects in a region of the state; providing for governance of the authority; creating s. 345.0004, F.S.; providing for the powers and duties of a regional transportation finance authority; limiting an authority's power with respect to an existing system; prohibiting an authority from pledging the credit or taxing power of the state or any political subdivision or agency of the state; requiring that an authority comply with certain reporting and documentation requirements; creating s. 345.0005, F.S.; authorizing the authority to issue bonds; providing that the issued bonds must meet certain requirements; providing that the resolution that authorizes the issuance of bonds meet certain requirements; authorizing an authority to enter into security agreements for issued bonds with a bank or trust company; providing that the issued bonds are negotiable instruments and have certain qualities; providing that a resolution authorizing the issuance of bonds and pledging of revenues of the system must contain certain requirements; prohibiting the use or pledge of state funds to pay principal or interest of an authority's bonds; creating s. 345.0006, F.S.; providing for the rights and remedies granted to certain bondholders; providing the actions a trustee may take on behalf of the bondholders; providing for the appointment of a receiver; providing for the authority of the receiver; providing limitations to the receiver's authority; creating s. 345.0007, F.S.; providing that the

Department of Transportation is the agent of each authority for specified purposes; providing for the administration and management of projects by the department; providing limits on the department as an agent; providing for the fiscal responsibilities of the authority; creating s. 345.0008, F.S.; authorizing the department to provide for or commit its resources for an authority project or system, included in the 10-year Strategic Intermodal Plan, if approved by the Legislature; prohibiting the department from requesting legislative approval of a project unless certain conditions are met; providing for payment of expenses incurred by the department on behalf of an authority; requiring the department to receive a share of the revenue from the authority; providing calculations for disbursement of revenues; creating s. 345.0009, F.S.; authorizing the authority to acquire private or public property and property rights for a project or plan; authorizing the authority to exercise the right of eminent domain; providing for the rights and liabilities and remedial actions relating to property acquired for a transportation project or corridor; creating s. 345.0010, F.S.; providing for contracts between governmental entities and an authority; creating s. 345.0011, F.S.; providing that the state will not limit or alter the vested rights of a bondholder with regard to any issued bonds or rights relating to the bonds under certain conditions; creating s. 345.0012, F.S.; relieving the authority

from the obligation of paying certain taxes or assessments for property acquired or used for certain public purposes or for revenues received relating to the issuance of bonds; providing exceptions; creating s. 345.0013, F.S.; providing that the bonds or obligations issued are legal investments of specified entities; creating s. 345.0014, F.S.; providing applicability; creating s. 345.0015, F.S.; creating the Santa Rosa-Escambia Regional Transportation Finance Authority; creating s. 345.0016, F.S.; creating the Suncoast Regional Transportation Finance Authority; providing for the transfer of the governance and control of the Mid-Bay Bridge Authority System to the Northwest Florida Transportation Finance Authority; providing for the disposition of bonds, the protection of the bondholders, the effect on the rights and obligations under a contract or the bonds, and the revenues associated with the bonds; amending ss. 348.751 and 348.752, F.S.; renaming the Orlando-Orange County Expressway System as the "Central Florida Expressway System"; revising definitions; making technical changes; amending s. 348.753, F.S.; creating the Central Florida Expressway Authority; providing for the transfer of governance and control, legal rights and powers, responsibilities, terms, and obligations to the authority; providing conditions for the transfer; revising the composition of the governing body of the authority; providing for appointment of officers of the authority; revising

quorum and voting requirements; conforming terminology and making technical changes; amending s. 348.754, F.S.; providing that the area served by the authority is within the geopolitical boundaries of Orange, Seminole, Lake, and Osceola Counties; requiring the authority to have prior consent from the Secretary of the Department of Transportation to construct an extension, addition, or improvement to the expressway system in Lake County; extending, to 99 years from 40 years, the term of a lease or lease-purchase agreement; limiting the authority's authority to enter into a lease-purchase agreement; limiting the use of certain toll-revenues; providing exceptions; removing the requirement that the route of a project must be approved by a municipality before the right-of-way can be acquired; requiring that the authority encourage the inclusion of local-, small-, minority-, and women-owned businesses in its procurement and contracting opportunities; removing the authority and criteria for an authority to waive payment and performance bonds for certain public works projects that are awarded pursuant to an economic development program; conforming terminology and making technical changes; amending ss. 348.7543, 348.7544, 348.7545, 348.7546, 348.7547, 348.755, and 348.756, F.S.; conforming terminology and making technical changes; amending s. 348.757, F.S.; providing that upon termination of the lease-purchase agreement of the former Orlando-Orange County Expressway System, title in fee simple to the

system will be retained by the authority; conforming terminology and making technical changes; amending ss. 348.758, 348.759, 348.760, 348.761, 348.765, and 369.317, F.S.; conforming terminology and making technical changes; amending s. 369.324, F.S.; revising the membership of the Wekiva River Basin Commission; conforming terminology; providing criteria for the transfer of the Osceola County Expressway System to the Central Florida Expressway Authority; providing for the repeal of part V of ch. 348, F.S., when the Osceola County Expressway System is transferred to the Central Florida Expressway Authority; requiring the Central Florida Expressway Authority to reimburse other governmental entities for obligations related to the Osceola County Expressway System; providing for reimbursement after payment of other obligations; amending s. 373.4137, F.S.; providing legislative intent that mitigation be implemented in a manner that promotes efficiency, timeliness, and cost-effectiveness in project delivery; revising the criteria of the environmental impact inventory; revising the criteria for mitigation of projected impacts identified in the environmental impact inventory; requiring the Department of Transportation to include funding for environmental mitigation for its projects in its work program; revising the process and criteria for the payment by the department or participating transportation authorities of mitigation implemented by water management districts or the

Department of Environmental Protection; revising the requirements for the payment to a water management district or the Department of Environmental Protection of the costs of mitigation planning and implementation of the mitigation required by a permit; revising the payment criteria for preparing and implementing mitigation plans adopted by water management districts for transportation impacts based on the environmental impact inventory; adding federal requirements for the development of a mitigation plan; providing for transportation projects in the environmental mitigation plan for which mitigation has not been specified; revising a water management district's responsibilities relating to a mitigation plan; amending s. 373.618, F.S.; revising the outdoor advertisement exemption criteria for a public information system; amending s. 341.052, F.S.; prohibiting an eligible public transit provider from using public transit block grant funds to pursue or promote the levying of new or additional taxes through public referenda; requiring the amount of the provider's grant to be reduced by any amount so spent; defining the term "public funds" for purposes of the prohibition; providing effective dates.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (m) of subsection (3) of section 11.45, Florida Statutes, is repealed.

730310

576-04144A-13

Section 2. Paragraph (b) of subsection (2) and subsection (3) of section 20.23, Florida Statutes, are amended, and present subsections (4) through (7) of that subsection are renumbered as subsections (3) through (6), to read:

20.23 Department of Transportation.—There is created a Department of Transportation which shall be a decentralized agency.

(2)

(b) The commission shall ~~have the primary functions to~~:

1. Recommend major transportation policies for the Governor's approval, and assure that approved policies and any revisions ~~thereto~~ are properly executed.

2. Periodically review the status of the state transportation system including highway, transit, rail, seaport, intermodal development, and aviation components of the system and recommend improvements therein to the Governor and the Legislature.

3. Perform an in-depth evaluation of the annual department budget request, the Florida Transportation Plan, and the tentative work program for compliance with all applicable laws and established departmental policies. Except as specifically provided in s. 339.135(4)(c)2., (d), and (f), the commission may not consider individual construction projects, but shall consider methods of accomplishing the goals of the department in the most effective, efficient, and businesslike manner.

4. Monitor the financial status of the department on a regular basis to assure that the department is managing revenue and bond proceeds responsibly and in accordance with law and established policy.

730310

576-04144A-13

5. Monitor on at least a quarterly basis, the efficiency, productivity, and management of the department, using performance and production standards developed by the commission pursuant to s. 334.045.

6. Perform an in-depth evaluation of the factors causing disruption of project schedules in the adopted work program and recommend to the Legislature and the Governor methods to eliminate or reduce the disruptive effects of these factors.

7. Recommend to the Governor and the Legislature improvements to the department's organization in order to streamline and optimize the efficiency of the department. In reviewing the department's organization, the commission shall determine if the current district organizational structure is responsive to Florida's changing economic and demographic development patterns. The initial report by the commission must be delivered to the Governor and Legislature by December 15, 2000, and each year thereafter, as appropriate. The commission may retain ~~such~~ experts that ~~as~~ are reasonably necessary to effectuate this subparagraph, and the department shall pay the expenses of the ~~such~~ experts.

8. Monitor the efficiency, productivity, and management of the authorities created under chapters 345, 348, and 349, including any authority formed using the provisions of part I of chapter 348, and any authority formed under chapter 343 ~~which is not monitored under subsection (3)~~. The commission shall also conduct periodic reviews of each authority's operations and budget, acquisition of property, management of revenue and bond proceeds, and compliance with applicable laws and generally accepted accounting principles.

~~(3) There is created the Florida Statewide Passenger Rail Commission.~~

~~(a)1. The commission shall consist of nine voting members appointed as follows:~~

~~a. Three members shall be appointed by the Governor, one of whom must have a background in the area of environmental concerns, one of whom must have a legislative background, and one of whom must have a general business background.~~

~~b. Three members shall be appointed by the President of the Senate, one of whom must have a background in civil engineering, one of whom must have a background in transportation construction, and one of whom must have a general business background.~~

~~c. Three members shall be appointed by the Speaker of the House of Representatives, one of whom must have a legal background, one of whom must have a background in financial matters, and one of whom must have a general business background.~~

~~2. The initial term of each member appointed by the Governor shall be for 4 years. The initial term of each member appointed by the President of the Senate shall be for 3 years. The initial term of each member appointed by the Speaker of the House of Representatives shall be for 2 years. Succeeding terms for all members shall be for 4 years.~~

~~3. A vacancy occurring during a term shall be filled by the respective appointing authority in the same manner as the original appointment and only for the balance of the unexpired term. An appointment to fill a vacancy shall be made within 60 days after the occurrence of the vacancy.~~

~~4. The commission shall elect one of its members as chair of the commission. The chair shall hold office at the will of the commission. Five members of the commission shall constitute a quorum, and the vote of five members shall be necessary for any action taken by the commission. The commission may meet upon the constitution of a quorum. A vacancy in the commission does not impair the right of a quorum to exercise all rights and perform all duties of the commission.~~

~~5. The members of the commission are not entitled to compensation but are entitled to reimbursement for travel and other necessary expenses as provided in s. 112.061.~~

~~(b) The commission shall have the primary functions of:~~

~~1. Monitoring the efficiency, productivity, and management of all publicly funded passenger rail systems in the state, including, but not limited to, any authority created under chapter 343, chapter 349, or chapter 163 if the authority receives public funds for the provision of passenger rail service. The commission shall advise each monitored authority of its findings and recommendations. The commission shall also conduct periodic reviews of each monitored authority's passenger rail and associated transit operations and budget, acquisition of property, management of revenue and bond proceeds, and compliance with applicable laws and generally accepted accounting principles. The commission may seek the assistance of the Auditor General in conducting such reviews and shall report the findings of such reviews to the Legislature. This paragraph does not preclude the Florida Transportation Commission from conducting its performance and work program monitoring responsibilities.~~

~~2. Advising the department on policies and strategies used in planning, designing, building, operating, financing, and maintaining a coordinated statewide system of passenger rail services.~~

~~3. Evaluating passenger rail policies and providing advice and recommendations to the Legislature on passenger rail operations in the state.~~

~~(c) The commission or a member of the commission may not enter into the day-to-day operation of the department or a monitored authority and is specifically prohibited from taking part in:~~

~~1. The awarding of contracts.~~

~~2. The selection of a consultant or contractor or the prequalification of any individual consultant or contractor. However, the commission may recommend to the secretary standards and policies governing the procedure for selection and prequalification of consultants and contractors.~~

~~3. The selection of a route for a specific project.~~

~~4. The specific location of a transportation facility.~~

~~5. The acquisition of rights-of-way.~~

~~6. The employment, promotion, demotion, suspension, transfer, or discharge of any department personnel.~~

~~7. The granting, denial, suspension, or revocation of any license or permit issued by the department.~~

~~(d) The commission is assigned to the Office of the Secretary of the Department of Transportation for administrative and fiscal accountability purposes, but it shall otherwise function independently of the control and direction of the department except that reasonable expenses of the commission~~

~~shall be subject to approval by the Secretary of Transportation. The department shall provide administrative support and service to the commission.~~

Section 3. Paragraphs (j) and (m) of subsection (2) of section 110.205, Florida Statutes, are amended to read:

110.205 Career service; exemptions.—

(2) EXEMPT POSITIONS.—The exempt positions that are not covered by this part include the following:

(j) The appointed secretaries and the State Surgeon General, assistant secretaries, deputy secretaries, and deputy assistant secretaries of all departments; the executive directors, assistant executive directors, deputy executive directors, and deputy assistant executive directors of all departments; the directors of all divisions and those positions determined by the department to have managerial responsibilities comparable to such positions, which positions include, but are not limited to, program directors, assistant program directors, district administrators, deputy district administrators, the Director of Central Operations Services of the Department of Children and Family Services, the State Transportation Development Administrator, State Freight and Logistics ~~Public Transportation and Modal~~ Administrator, district secretaries, district directors of transportation development, transportation operations, transportation support, and the managers of the offices specified in s. 20.23(3)(b) ~~20.23(4)(b)~~, of the Department of Transportation. Unless otherwise fixed by law, the department shall set the salary and benefits of these positions in accordance with the rules of the Senior Management Service; and the county health department directors and county health

department administrators of the Department of Health.

(m) All assistant division director, deputy division director, and bureau chief positions in any department, and those positions determined by the department to have managerial responsibilities comparable to such positions, which include, but are not limited to:

1. Positions in the Department of Health and the Department of Children and Family Services that are assigned primary duties of serving as the superintendent or assistant superintendent of an institution.

2. Positions in the Department of Corrections that are assigned primary duties of serving as the warden, assistant warden, colonel, or major of an institution or that are assigned primary duties of serving as the circuit administrator or deputy circuit administrator.

3. Positions in the Department of Transportation that are assigned primary duties of serving as regional toll managers and managers of offices, as defined in s. 20.23(3)(b) and (4)(c) ~~20.23(4)(b) and (5)(c)~~.

4. Positions in the Department of Environmental Protection that are assigned the duty of an Environmental Administrator or program administrator.

5. Positions in the Department of Health that are assigned the duties of Environmental Administrator, Assistant County Health Department Director, and County Health Department Financial Administrator.

Unless otherwise fixed by law, the department shall set the salary and benefits of the positions listed in this paragraph in

accordance with the rules established for the Selected Exempt Service.

Section 4. Section 311.22, Florida Statutes, is amended to read:

311.22 Additional authorization for funding certain dredging projects.—

(1) The Department of Transportation ~~Florida Seaport Transportation and Economic Development Council~~ shall establish a program to fund dredging projects in counties having a population of fewer than 300,000 according to the last official census. Funds made available under this program may be used to fund approved projects for the dredging or deepening of channels, turning basins, or harbors on a 25-percent local matching basis with any port authority, as such term is defined in s. 315.02(2), which complies with the permitting requirements in part IV of chapter 373 and the local financial management and reporting provisions of part III of chapter 218.

(2) The department ~~council~~ shall adopt rules for evaluating the projects that may be funded pursuant to this section. The rules must provide criteria for evaluating the economic benefit of the project. The rules must include the creation of an administrative review process by the department ~~council~~ which is similar to the process described in s. 311.09(5)-(11), and provide for a review by the ~~Department of Transportation and the~~ Department of Economic Opportunity of all projects submitted for funding under this section.

(3) This section expires on July 1, 2018.

Section 5. Subsection (3) of section 316.530, Florida Statutes, is repealed.

Section 6. Subsection (3) of section 316.545, Florida Statutes, is amended to read:

316.545 Weight and load unlawful; special fuel and motor fuel tax enforcement; inspection; penalty; review.—

(3) Any person who violates the overloading provisions of this chapter shall be conclusively presumed to have damaged the highways of this state by reason of such overloading, which damage is hereby fixed as follows:

(a) If ~~When~~ the excess weight is 200 pounds or less than the maximum ~~herein~~ provided by this chapter, the penalty is ~~shall be~~ $10;

(b) Five cents per pound for each pound of weight in excess of the maximum ~~herein~~ provided in this chapter if ~~when~~ the excess weight exceeds 200 pounds. However, if ~~whenever~~ the gross weight of the vehicle or combination of vehicles does not exceed the maximum allowable gross weight, the maximum fine for the first 600 pounds of unlawful axle weight is ~~shall be~~ $10;

(c) For a vehicle equipped with fully functional idle-reduction technology, any penalty shall be calculated by reducing the actual gross vehicle weight or the internal bridge weight by the certified weight of the idle-reduction technology or by 550 ~~400~~ pounds, whichever is less. The vehicle operator must present written certification of the weight of the idle-reduction technology and must demonstrate or certify that the idle-reduction technology is fully functional at all times. This calculation is not allowed for vehicles described in s. 316.535(6);

(d) An apportioned motor vehicle, as defined in s. 320.01, operating on the highways of this state without being properly

licensed and registered shall be subject to the penalties as ~~herein~~ provided in this section; and

(e) Vehicles operating on the highways of this state from nonmember International Registration Plan jurisdictions which are not in compliance with the provisions of s. 316.605 shall be subject to the penalties as ~~herein~~ provided in this section.

Section 7. Section 331.360, Florida Statutes, is reordered and amended to read:

331.360 ~~Joint participation agreement or assistance;~~ Spaceport system ~~master~~ plan.—

(2)~~(1)~~ ~~It shall be the duty, function, and responsibility of~~ The department shall ~~of Transportation to~~ promote the further development and improvement of aerospace transportation facilities; to address intermodal requirements and impacts of the launch ranges, spaceports, and other space transportation facilities; to assist in the development of joint-use facilities and technology that support aviation and aerospace operations; to coordinate and cooperate in the development of spaceport infrastructure and related transportation facilities contained in the Strategic Intermodal System Plan; to encourage, where appropriate, the cooperation and integration of airports and spaceports in order to meet transportation-related needs; and to facilitate and promote cooperative efforts between federal and state government entities to improve space transportation capacity and efficiency. In carrying out this duty and responsibility, the department may assist and advise, cooperate with, and coordinate with federal, state, local, or private organizations and individuals. The department may administratively house its space transportation responsibilities

within an existing division or office.

(3) ~~(2)~~ Notwithstanding any other provision of law, the department ~~of Transportation~~ may enter into an ~~a joint participation~~ agreement with, or otherwise assist, Space Florida as necessary to effectuate the provisions of this chapter and may allocate funds for such purposes in its 5-year work program. However, the department may not fund the administrative or operational costs of Space Florida.

(1) ~~(3)~~ Space Florida shall develop a spaceport system ~~master~~ plan that identifies statewide spaceport goals and the need for expansion and modernization of space transportation facilities within spaceport territories as defined in s. 331.303. The plan must ~~shall~~ contain recommended projects that ~~to~~ meet current and future commercial, national, and state space transportation requirements. Space Florida shall submit the plan to each ~~any~~ appropriate metropolitan planning organization for review of intermodal impacts. Space Florida shall submit the spaceport system ~~master~~ plan to the department ~~of Transportation~~, which may include those portions of the system plan which are relevant to the Department of Transportation's mission ~~and such plan may be included~~ within the department's 5-year work program of qualifying projects ~~aerospace discretionary capacity improvement under subsection (4)~~. The plan must ~~shall~~ identify appropriate funding levels for each project ~~and include recommendations on appropriate sources of revenue that may be developed to contribute to the State Transportation Trust Fund~~.

(4) (a) Beginning in fiscal year 2013-2014, a minimum of $15 million annually is authorized to be made available from the State Transportation Trust Fund to fund space transportation

projects. The funds for this initiative shall be from the funds dedicated to public transportation projects pursuant to s. 206.46(3).

(b) Before executing an agreement, Space Florida must provide project-specific information to the department in order to demonstrate that the project includes transportation and aerospace benefits. The project-specific information must include, but need not be limited to:

1. The description, characteristics, and scope of the project.

2. The funding sources for and costs of the project.

3. The financing considerations that emphasize federal, local, and private participation.

4. A financial feasibility and risk analysis, including a description of the efforts to protect the state's investment and to ensure that project goals are realized.

5. A demonstration that the project will encourage, enhance, or create economic benefits for the state.

(c) The department may fund up to 50 percent of eligible project costs. If the project meets the following criteria, the department may fund up to 100 percent of eligible project costs. The project must:

1. Provide important access and on-spaceport capacity improvements;

2. Provide capital improvements to strategically position the state to maximize opportunities in the aerospace industry or foster growth and development of a sustainable and world-leading aerospace industry in the state;

3. Meet state goals of an integrated intermodal

transportation system; and

4. Demonstrate the feasibility and availability of matching funds through federal, local, or private partners ~~Subject to the availability of appropriated funds, the department may participate in the capital cost of eligible spaceport discretionary capacity improvement projects. The annual legislative budget request shall be based on the proposed funding requested for approved spaceport discretionary capacity improvement projects~~.

Section 8. Subsection (11) is added to section 332.007, Florida Statutes, to read:

332.007 Administration and financing of aviation and airport programs and projects; state plan.—

(11) The department may fund strategic airport investment projects at up to 100 percent of the project's cost if all the following criteria are met:

(a) Important access and on-airport capacity improvements are provided.

(b) Capital improvements that strategically position the state to maximize opportunities in international trade, logistics, and the aviation industry are provided.

(c) Goals of an integrated intermodal transportation system for the state are achieved.

(d) Feasibility and availability of matching funds through federal, local, or private partners are demonstrated.

Section 9. Subsections (16) and (26) of section 334.044, Florida Statutes, are amended to read:

334.044 Department; powers and duties.—The department shall have the following general powers and duties:

(16) To plan, acquire, lease, construct, maintain, and operate toll facilities; to authorize the issuance and refunding of bonds; and to fix and collect tolls or other charges for travel on any such facilities. Effective July 1, 2013, and notwithstanding any other law to the contrary, the department may not enter into a lease-purchase agreement with an expressway authority, regional transportation authority, or other entity. This provision does not invalidate a lease-purchase agreement authorized under chapter 348 or chapter 2000-411, Laws of Florida, and existing as of July 1, 2013, and does not limit the department's authority under s. 334.30.

(26) To provide for the enhancement of environmental benefits, including air and water quality; to prevent roadside erosion; to conserve the natural roadside growth and scenery; and to provide for the implementation and maintenance of roadside conservation, enhancement, and stabilization programs. No less than 1.5 percent of the amount contracted for construction projects shall be allocated by the department on a statewide basis for the purchase of plant materials. Department districts may not expend funds for landscaping in connection with any project that is limited to resurfacing existing lanes unless the expenditure has been approved by the department's secretary or the secretary's designee. To the greatest extent practical, a minimum of 50 percent of the funds allocated under this subsection shall be allocated for large plant materials and the remaining funds for other plant materials. Except as prohibited by applicable federal law or regulation, all plant materials shall be purchased from Florida commercial nursery stock in this state on a uniform competitive bid basis. The

department shall develop grades and standards for landscaping materials purchased through this process. To accomplish these activities, the department may contract with nonprofit organizations having the primary purpose of developing youth employment opportunities.

Section 10. Section 335.06, Florida Statutes, is amended to read:

335.06 Access roads to the state park system.—A ~~Any~~ road that ~~which~~ provides access to property within the state park system must ~~shall~~ be maintained by the department if the road is a part of the State Highway System and may be improved and maintained by the department if the road is part of a county road system or city street system. If the department does not maintain a county or city road that is a part of the county road system or the city street system and that provides access to the state park system, the road must ~~or shall~~ be maintained by the appropriate county or municipality ~~if the road is a part of the county road system or the city street system~~.

Section 11. Subsection (13) of section 337.11, Florida Statutes, is amended to read:

337.11 Contracting authority of department; bids; emergency repairs, supplemental agreements, and change orders; combined design and construction contracts; progress payments; records; requirements of vehicle registration.—

(13) Each contract let by the department for the performance of road or bridge construction or maintenance work shall require ~~contain a provision requiring the contractor to provide proof to the department, in the form of a notarized affidavit from the contractor, that~~ all motor vehicles that the

contractor ~~he or she~~ operates or causes to be operated in this state to be ~~are~~ registered in compliance with chapter 320.

Section 12. Subsection (1) of section 337.14, Florida Statutes, is amended to read:

337.14 Application for qualification; certificate of qualification; restrictions; request for hearing.—

(1) A ~~Any~~ person who desires ~~desiring~~ to bid for the performance of any construction contract with a proposed budget estimate in excess of $250,000 which the department proposes to let must first be certified by the department as qualified pursuant to this section and rules of the department. The rules of the department must ~~shall~~ address the qualification of a person ~~persons~~ to bid on construction contracts with a proposed budget estimate that is in excess of $250,000 and must ~~shall~~ include requirements with respect to the equipment, past record, experience, financial resources, and organizational personnel of the applicant necessary to perform the specific class of work for which the person seeks certification. The department may limit the dollar amount of any contract upon which a person is qualified to bid or the aggregate total dollar volume of contracts such person may ~~is allowed to~~ have under contract at any one time. Each applicant who seeks ~~seeking~~ qualification to bid on construction contracts with a proposed budget estimate in excess of $250,000 must ~~shall~~ furnish the department a statement under oath, on such forms as the department may prescribe, setting forth detailed information as required on the application. Each application for certification must ~~shall~~ be accompanied by the latest annual financial statement of the applicant completed within the last 12 months. If the

730310

576-04144A-13

application or the annual financial statement shows the financial condition of the applicant more than 4 months before ~~prior to~~ the date on which the application is received by the department, ~~then~~ an interim financial statement must be submitted and be accompanied by an updated application. The interim financial statement must cover the period from the end date of the annual statement and must show the financial condition of the applicant no more than 4 months before ~~prior to~~ the date the interim financial statement is received by the department. However, upon request by the applicant, an application and accompanying annual or interim financial statement received by the department within 15 days after either 4-month period provided pursuant to ~~under~~ this subsection must ~~shall~~ be considered timely. Each required annual or interim financial statement must be audited and accompanied by the opinion of a certified public accountant. An applicant desiring to bid exclusively for the performance of construction contracts with proposed budget estimates of less than $1 million may submit reviewed annual or reviewed interim financial statements prepared by a certified public accountant. The information required by this subsection is confidential and exempt from the provisions of s. 119.07(1). The department shall act upon the application for qualification within 30 days after the department determines that the application is complete. The department may waive the requirements of this subsection for projects having a contract price of $500,000 or less if the department determines that the project is of a noncritical nature and the waiver will not endanger public health, safety, or property.

730310

576-04144A-13

Section 13. Subsection (2) of section 337.168, Florida Statutes, is amended to read:

337.168 Confidentiality of official estimates, identities of potential bidders, and bid analysis and monitoring system.—

(2) A document that reveals ~~revealing~~ the identity of a person who has ~~persons who have~~ requested or obtained a bid package, plan ~~packages, plans~~, or specifications pertaining to any project to be let by the department is confidential and exempt from the provisions of s. 119.07(1) for the period that ~~which~~ begins 2 working days before ~~prior to~~ the deadline for obtaining bid packages, plans, or specifications and ends with the letting of the bid. A document that reveals the identity of a person who has requested or obtained a bid package, plan, or specifications pertaining to any project to be let by the department before the 2 working days before the deadline for obtaining bid packages, plans, or specifications remains a public record subject to the provisions of s. 119.07(1).

Section 14. Section 337.25, Florida Statutes, is amended to read:

337.25 Acquisition, lease, and disposal of real and personal property.—

(1)(a) The department may purchase, lease, exchange, or otherwise acquire any land, property interests, or buildings or other improvements, including personal property within such buildings or on such lands, necessary to secure or utilize transportation rights-of-way for existing, proposed, or anticipated transportation facilities on the State Highway System, on the State Park Road System, in a rail corridor, or in a transportation corridor designated by the department. Such

property shall be held in the name of the state.

(b) The department may accept donations of any land or buildings or other improvements, including personal property within such buildings or on such lands with or without such conditions, reservations, or reverter provisions as are acceptable to the department. Such donations may be used as transportation rights-of-way or to secure or utilize transportation rights-of-way for existing, proposed, or anticipated transportation facilities on the State Highway System, on the State Park Road System, or in a transportation corridor designated by the department.

(c) When lands, buildings, or other improvements are needed for transportation purposes, but are held by a federal, state, or local governmental entity and utilized for public purposes other than transportation, the department may compensate the entity for such properties by providing functionally equivalent replacement facilities. The providing of replacement facilities under this subsection may only be undertaken with the agreement of the governmental entity affected.

(d) The department may contract pursuant to s. 287.055 for auction services used in the conveyance of real or personal property or the conveyance of leasehold interests under the provisions of subsections (4) and (5). The contract may allow for the contractor to retain a portion of the proceeds as compensation for the contractor's services.

(2) A complete inventory shall be made of all real or personal property immediately upon possession or acquisition. Such inventory shall include a statement of the location or site of each piece of realty, structure, or severable item ~~an~~

~~itemized listing of all appliances, fixtures, and other severable items; a statement of the location or site of each piece of realty, structure, or severable item; and the serial number assigned to each~~. Copies of each inventory shall be filed in the district office in which the property is located. Such inventory shall be carried forward to show the final disposition of each item of property, both real and personal.

(3) The inventory of real property which was acquired by the state after December 31, 1988, which has been owned by the state for 10 or more years, and which is not within a transportation corridor or within the right-of-way of a transportation facility shall be evaluated to determine the necessity for retaining the property. If the property is not needed for the construction, operation, and maintenance of a transportation facility, or is not located within a transportation corridor, the department may dispose of the property pursuant to subsection (4).

(4) The department may convey ~~sell~~, in the name of the state, any land, building, or other property, real or personal, which was acquired under the provisions of subsection (1) and which the department has determined is not needed for the construction, operation, and maintenance of a transportation facility. ~~With the exception of any parcel governed by paragraph (c), paragraph (d), paragraph (f), paragraph (g), or paragraph (i), the department shall afford first right of refusal to the local government in the jurisdiction of which the parcel is situated.~~ When such a determination has been made, property may be disposed of through negotiations, sealed competitive bids, auctions, or any other means the department deems to be in its

best interest, with due advertisement for property valued by the department at greater than $10,000. A sale may not occur at a price less than the department's current estimate of value, except as provided in paragraphs (a)-(d). The department may afford a right of first refusal to the local government or other political subdivision in the jurisdiction in which the parcel is situated, except in conveyances transacted under paragraph (a), paragraph (c), or paragraph (e). ~~in the following manner:~~

(a) If the ~~value of the~~ property has been donated to the state for transportation purposes and a facility has not been constructed for a period of at least 5 years, plans have not been prepared for the construction of such facility, and the property is not located in a transportation corridor, the governmental entity may authorize reconveyance of the donated property for no consideration to the original donor or the donor's heirs, successors, assigns, or representatives ~~is $10,000 or less as determined by department estimate, the department may negotiate the sale~~.

(b) If ~~the value of~~ the property is to be used for a public purpose, the property may be conveyed without consideration to a governmental entity ~~exceeds $10,000 as determined by department estimate, such property may be sold to the highest bidder through receipt of sealed competitive bids, after due advertisement, or by public auction held at the site of the improvement which is being sold~~.

(c) If the property was originally acquired specifically to provide replacement housing for persons displaced by transportation projects, the department may negotiate for the sale of such property as replacement housing. As compensation,

the state shall receive no less than its investment in such property or the department's current estimate of value, whichever is lower. It is expressly intended that this benefit be extended only to persons actually displaced by the project. Dispositions to any other person must be for no less than the department's current estimate of value~~, in the discretion of the department, public sale would be inequitable, properties may be sold by negotiation to the owner holding title to the property abutting the property to be sold, provided such sale is at a negotiated price not less than fair market value as determined by an independent appraisal, the cost of which shall be paid by the owner of the abutting land. If negotiations do not result in the sale of the property to the owner of the abutting land and the property is sold to someone else, the cost of the independent appraisal shall be borne by the purchaser; and the owner of the abutting land shall have the cost of the appraisal refunded to him or her. If, however, no purchase takes place, the owner of the abutting land shall forfeit the sum paid by him or her for the independent appraisal. If, due to action of the department, the property is removed from eligibility for sale, the cost of any appraisal prepared shall be refunded to the owner of the abutting land~~.

(d) If the department determines that the property will require significant costs to be incurred or that continued ownership of the property exposes the department to significant liability risks, the department may use the projected maintenance costs over the next 10 years to offset the property's value in establishing a value for disposal of the property, even if that value is zero ~~property acquired for use~~

~~as a borrow pit is no longer needed, the department may sell such property to the owner of the parcel of abutting land from which the borrow pit was originally acquired, provided the sale is at a negotiated price not less than fair market value as determined by an independent appraisal, the cost of which shall be paid by the owner of such abutting land~~.

(e) If~~,~~ in the discretion of the department, a sale to anyone other than an abutting property owner would be inequitable, the property may be sold to the abutting owner for the department's current estimate of value. If the department begins the process for disposing of the property on its own initiative, either by negotiation under the provisions of paragraph (a), paragraph (c), or paragraph (d), ~~or paragraph (i),~~ or by receipt of sealed competitive bids or public auction under the provisions of paragraph (b) ~~or paragraph (i)~~, a department staff appraiser may determine the fair market value of the property by an appraisal.

~~(f) Any property which was acquired by a county or by the department using constitutional gas tax funds for the purpose of a right-of-way or borrow pit for a road on the State Highway System, State Park Road System, or county road system and which is no longer used or needed by the department may be conveyed without consideration to that county. The county may then sell such surplus property upon receipt of competitive bids in the same manner prescribed in this section.~~

~~(g) If a property has been donated to the state for transportation purposes and the facility has not been constructed for a period of at least 5 years and no plans have been prepared for the construction of such facility and the~~

~~property is not located in a transportation corridor, the governmental entity may authorize reconveyance of the donated property for no consideration to the original donor or the donor's heirs, successors, assigns, or representatives.~~

~~(h) If property is to be used for a public purpose, the property may be conveyed without consideration to a governmental entity.~~

~~(i) If property was originally acquired specifically to provide replacement housing for persons displaced by transportation projects, the department may negotiate for the sale of such property as replacement housing. As compensation, the state shall receive no less than its investment in such properties or fair market value, whichever is lower. It is expressly intended that this benefit be extended only to those persons actually displaced by such project. Dispositions to any other persons must be for fair market value.~~

~~(j) If the department determines that the property will require significant costs to be incurred or that continued ownership of the property exposes the department to significant liability risks, the department may use the projected maintenance costs over the next 5 years to offset the market value in establishing a value for disposal of the property, even if that value is zero.~~

(5) The department may convey a leasehold interest for commercial or other purposes, in the name of the state, to any land, building, or other property, real or personal, which was acquired under the provisions of subsection (1). However, a lease may not be entered into at a price less than the department's current estimate of value.

(a) A lease may be through negotiations, sealed competitive bids, auctions, or any other means the department deems to be in its best interest ~~The department may negotiate such a lease at the prevailing market value with the owner from whom the property was acquired; with the holders of leasehold estates existing at the time of the department's acquisition; or, if public bidding would be inequitable, with the owner holding title to privately owned abutting property, if reasonable notice is provided to all other owners of abutting property~~. The department may allow an outdoor advertising sign to remain on the property acquired, or be relocated on department property, and such sign shall not be considered a nonconforming sign pursuant to chapter 479.

(b) If, in the discretion of the department, a lease to a person other than an abutting property owner or tenant with a leasehold interest in the abutting property would be inequitable, the property may be leased to the abutting owner or tenant for no less than the department's current estimate of value ~~All other leases shall be by competitive bid~~.

(c) No lease signed pursuant to paragraph (a) ~~or paragraph (b)~~ shall be for a period of more than 5 years; however, the department may renegotiate or extend such a lease for an additional term of 5 years as the department deems appropriate ~~without rebidding~~.

(d) Each lease shall provide that, unless otherwise directed by the lessor, any improvements made to the property during the term of the lease shall be removed at the lessee's expense.

(e) If property is to be used for a public purpose,

~~including a fair, art show, or other educational, cultural, or fundraising activity,~~ the property may be leased without consideration to a governmental entity ~~or school board~~. A lease for a public purpose is exempt from the term limits in paragraph (c).

(f) Paragraphs (c) and (e) ~~(d)~~ do not apply to leases entered into pursuant to s. 260.0161(3), except as provided in such a lease.

(g) No lease executed under this subsection may be utilized by the lessee to establish the ~~4 years'~~ standing required by s. 73.071(3)(b) if the business had not been established for the specified number of ~~4~~ years on the date title passed to the department.

(h) The department may enter into a long-term lease without compensation with a public port listed in s. 403.021(9)(b) for rail corridors used for the operation of a short-line railroad to the port.

(6) Nothing in this chapter prevents the joint use of right-of-way for alternative modes of transportation; provided that the joint use does not impair the integrity and safety of the transportation facility.

(7) The department's estimate of value, required by subsections (4) and (5), shall be prepared in accordance with department procedures, guidelines, and rules for valuation of real property. If the value of the property exceeds $50,000, as determined by the department estimate, the sale or lease must be at a negotiated price not less than the estimate of value as determined by an appraisal prepared in accordance with department procedures, guidelines, and rules for valuation of

real property, the cost of which shall be paid by the party seeking the purchase or lease of the property ~~appraisal required by paragraphs (4)(c) and (d) shall be prepared in accordance with department guidelines and rules by an independent appraiser who has been certified by the department. If federal funds were used in the acquisition of the property, the appraisal shall also be subject to the approval of the Federal Highway Administration~~.

(8) A "due advertisement" under this section is an advertisement in a newspaper of general circulation in the area of the improvements of not less than 14 calendar days prior to the date of the receipt of bids or the date on which a public auction is to be held.

(9) The department, with the approval of the Chief Financial Officer, is authorized to disburse state funds for real estate closings in a manner consistent with good business practices and in a manner minimizing costs and risks to the state.

(10) The department is authorized to purchase title insurance in those instances where it is determined that such insurance is necessary to protect the public's investment in property being acquired for transportation purposes. The department shall adopt procedures to be followed in making the determination to purchase title insurance for a particular parcel or group of parcels which, at a minimum, shall set forth criteria which the parcels must meet.

(11) This section does not modify the requirements of s. 73.013.

Section 15. Subsection (2) of section 337.251, Florida

Statutes, is amended to read:

337.251 Lease of property for joint public-private development and areas above or below department property.—

(2) The department may request proposals for the lease of such property or, if the department receives a proposal for ~~to negotiate~~ a lease of a particular department property that the department desires to consider, the department must ~~it shall~~ publish a notice in a newspaper of general circulation at least once a week for 2 weeks, stating that it has received the proposal and will accept, for 120 ~~60~~ days after the date of publication, other proposals for lease of the particular property ~~use of the space~~. A copy of the notice must be mailed to each local government in the affected area. The department shall, by rule, establish an application fee for the submission of proposals pursuant to this section. The fee must be sufficient to pay the anticipated costs of evaluating the proposals. The department may engage the services of private consultants to assist in the evaluation. Before approval, the department must determine that the proposed lease:

(a) Is in the public's best interest;

(b) Does not require state funds to be used; and

(c) Has adequate safeguards in place to ensure that no additional costs are borne and no service disruptions are experienced by the traveling public and residents of the state in the event of default by the private lessee or upon termination or expiration of the lease.

Section 16. Subsection (5) of section 338.161, Florida Statutes, is amended to read:

338.161 Authority of department or toll agencies to

advertise and promote electronic toll collection; expanded uses of electronic toll collection system; authority of department to collect tolls, fares, and fees for private and public entities.—

(5) If the department finds that it can increase nontoll revenues or add convenience or other value for its customers, and if a public or private transportation facility owner agrees that its facility will become interoperable with the department's electronic toll collection and video billing systems, the department may ~~is authorized to~~ enter into an agreement with the owner of such facility under which the department uses ~~private or public entities for the department's use of~~ its electronic toll collection and video billing systems to collect and enforce for the owner tolls, fares, administrative fees, and other applicable charges due ~~imposed~~ in connection with use of the owner's facility ~~transportation facilities of the private or public entities that become interoperable with the department's electronic toll collection system~~. The department may modify its rules regarding toll collection procedures and the imposition of administrative charges to be applicable to toll facilities that are not part of the turnpike system or otherwise owned by the department. This subsection may not be construed to limit the authority of the department under any other provision of law or under any agreement entered into before ~~prior to~~ July 1, 2012.

Section 17. Subsection (4) of section 338.165, Florida Statutes, is amended to read:

338.165 Continuation of tolls.—

(4) Notwithstanding any other law to the contrary, pursuant to s. 11, Art. VII of the State Constitution, and subject to the

requirements of subsection (2), the Department of Transportation may request the Division of Bond Finance to issue bonds secured by toll revenues collected on the Alligator Alley, the Sunshine Skyway Bridge, ~~the Beeline-East Expressway, the Navarre Bridge,~~ and the Pinellas Bayway to fund transportation projects located within the county or counties in which the revenue-producing project is located and contained in the adopted work program of the department.

Section 18. Subsections (3) and (4) of section 338.26, Florida Statutes, are amended to read:

338.26 Alligator Alley toll road.—

(3) Fees generated from tolls shall be deposited in the State Transportation Trust Fund, and any amount of funds generated annually in excess of that required to reimburse outstanding contractual obligations, to operate and maintain the highway and toll facilities, including reconstruction and restoration, to pay for those projects that are funded with Alligator Alley toll revenues and that are contained in the 1993-1994 adopted work program or the 1994-1995 tentative work program submitted to the Legislature on February 22, 1994, and to design and construct ~~develop and operate~~ a fire station at mile marker 63 on Alligator Alley, which may be used by Collier County or other appropriate local governmental entity to provide fire, rescue, and emergency management services ~~to the adjacent counties~~ along Alligator Alley, may be transferred to the Everglades Fund of the South Florida Water Management District in accordance with the memorandum of understanding of June 30, 1997, between the district and the department. The South Florida Water Management District shall deposit funds for projects

undertaken pursuant to s. 373.4592 in the Everglades Trust Fund pursuant to s. 373.45926(4)(a). Any funds remaining in the Everglades Fund may be used for environmental projects to restore the natural values of the Everglades, subject to compliance with any applicable federal laws and regulations. Projects must ~~shall~~ be limited to:

(a) Highway redesign to allow for improved sheet flow of water across the southern Everglades.

(b) Water conveyance projects to enable more water resources to reach Florida Bay to replenish marine estuary functions.

(c) Engineering design plans for wastewater treatment facilities as recommended in the Water Quality Protection Program Document for the Florida Keys National Marine Sanctuary.

(d) Acquisition of lands to move STA 3/4 out of the Toe of the Boot, provided such lands are located within 1 mile of the northern border of STA 3/4.

(e) Other Everglades Construction Projects as described in the February 15, 1994, conceptual design document.

~~(4) The district may issue revenue bonds or notes under s. 373.584 and pledge the revenue from the transfers from the Alligator Alley toll revenues as security for such bonds or notes. The proceeds from such revenue bonds or notes shall be used for environmental projects; at least 50 percent of said proceeds must be used for projects that benefit Florida Bay, as described in this section subject to resolutions approving such activity by the Board of Trustees of the Internal Improvement Trust Fund and the governing board of the South Florida Water Management District and the remaining proceeds must be used for~~

~~restoration activities in the Everglades Protection Area.~~

Section 19. Subsections (2) through (4) of section 339.175, Florida Statutes, are amended to read:

339.175 Metropolitan planning organization.—

(2) DESIGNATION.—

(a)1. An M.P.O. shall be designated for each urbanized area of the state; however, this does not require that an individual M.P.O. be designated for each such area. The M.P.O. ~~Such~~ designation shall be accomplished by agreement between the Governor and units of general-purpose local government that together represent ~~representing~~ at least 75 percent of the population, including the largest incorporated municipality, based on population, ~~of the urbanized area; however, the unit of general-purpose local government that represents the central city or cities within the M.P.O. jurisdiction,~~ as named ~~defined~~ by the United States Bureau of the Census~~, must be a party to such agreement~~.

2. To the extent possible, only one M.P.O. shall be designated for each urbanized area or group of contiguous urbanized areas. More than one M.P.O. may be designated within an existing urbanized area only if the Governor and the existing M.P.O. determine that the size and complexity of the existing urbanized area makes the designation of more than one M.P.O. for the area appropriate.

(b) Each M.P.O. designated in a manner prescribed by Title 23 of the United States Code shall be created and operated under the provisions of this section pursuant to an interlocal agreement entered into pursuant to s. 163.01. The signatories to the interlocal agreement shall be the department and the

governmental entities designated by the Governor for membership on the M.P.O. Each M.P.O. shall be considered separate from the state or the governing body of a local government that is represented on the governing board of the M.P.O. or that is a signatory to the interlocal agreement creating the M.P.O. and shall have such powers and privileges that are provided under s. 163.01. If there is a conflict between this section and s. 163.01, this section prevails.

(c) The jurisdictional boundaries of an M.P.O. shall be determined by agreement between the Governor and the applicable M.P.O. The boundaries must include at least the metropolitan planning area, which is the existing urbanized area and the contiguous area expected to become urbanized within a 20-year forecast period, and may encompass the entire metropolitan statistical area or the consolidated metropolitan statistical area.

(d) In the case of an urbanized area designated as a nonattainment area for ozone or carbon monoxide under the Clean Air Act, 42 U.S.C. ss. 7401 et seq., the boundaries of the metropolitan planning area in existence as of the date of enactment of this paragraph shall be retained, except that the boundaries may be adjusted by agreement of the Governor and affected metropolitan planning organizations in the manner described in this section. If more than one M.P.O. has authority within a metropolitan area or an area that is designated as a nonattainment area, each M.P.O. shall consult with other M.P.O.'s designated for such area and with the state in the coordination of plans and programs required by this section.

(e) The governing body of the M.P.O. shall designate, at a

minimum, a chair, vice chair, and agency clerk. The chair and vice chair shall be selected from among the member delegates comprising the governing board. The agency clerk shall be charged with the responsibility of preparing meeting minutes and maintaining agency records. The clerk shall be a member of the M.P.O. governing board, an employee of the M.P.O., or other natural person.

Each M.P.O. required under this section must be fully operative no later than 6 months following its designation.

(3) VOTING MEMBERSHIP.—

(a) The voting membership of an M.P.O. shall consist of not fewer than 5 or more than 19 apportioned members, the exact number to be determined on an equitable geographic-population ratio ~~basis by the Governor~~, based on an agreement among the affected units of general-purpose local government and the Governor as required by federal ~~rules and~~ regulations. The voting membership of an M.P.O. that is redesignated after the effective date of this act as a result of the expansion of the M.P.O. to include a new urbanized area or the consolidation of two or more M.P.O.'s may consist of no more than 25 members. The Governor, in accordance with 23 U.S.C. s. 134, may also provide for M.P.O. members who represent municipalities to alternate with representatives from other municipalities within the metropolitan planning area that do not have members on the M.P.O. County commission members shall compose not less than one-third of the M.P.O. membership, except for an M.P.O. with more than 15 members located in a county with a 5-member county commission or an M.P.O. with 19 members located in a county with

no more than 6 county commissioners, in which case county commission members may compose less than one-third percent of the M.P.O. membership, but all county commissioners must be members. All voting members shall be elected officials of general-purpose local governments, except that an M.P.O. may include, as part of its apportioned voting members, a member of a statutorily authorized planning board, an official of an agency that operates or administers a major mode of transportation, or an official of Space Florida. As used in this section, the term "elected officials of a general-purpose local government" excludes ~~shall exclude~~ constitutional officers, including sheriffs, tax collectors, supervisors of elections, property appraisers, clerks of the court, and similar types of officials. County commissioners shall compose not less than 20 percent of the M.P.O. membership if an official of an agency that operates or administers a major mode of transportation has been appointed to an M.P.O.

(b) In metropolitan areas in which authorities or other agencies have been or may be created by law to perform transportation functions and are performing transportation functions that are not under the jurisdiction of a general-purpose local government represented on the M.P.O., they may ~~shall~~ be provided voting membership on the M.P.O. In all other M.P.O.'s where transportation authorities or agencies are to be represented by elected officials from general-purpose local governments, the M.P.O. shall establish a process by which the collective interests of such authorities or other agencies are expressed and conveyed.

(c) Any other provision of this section to the contrary

notwithstanding, a chartered county with a population of more than ~~over~~ 1 million ~~population~~ may elect to reapportion the membership of an M.P.O. whose jurisdiction is wholly within the county. The charter county may exercise the provisions of this paragraph if:

1. The M.P.O. approves the reapportionment plan by a three-fourths vote of its membership;

2. The M.P.O. and the charter county determine that the reapportionment plan is needed to fulfill specific goals and policies applicable to that metropolitan planning area; and

3. The charter county determines the reapportionment plan otherwise complies with all federal requirements pertaining to M.P.O. membership.

A ~~Any~~ charter county that elects to exercise the provisions of this paragraph shall notify the Governor in writing.

(d) Any other provision of this section to the contrary notwithstanding, a ~~any~~ county chartered under s. 6(e), Art. VIII of the State Constitution may elect to have its county commission serve as the M.P.O., if the M.P.O. jurisdiction is wholly contained within the county. A ~~Any~~ charter county that elects to exercise the provisions of this paragraph shall so notify the Governor in writing. Upon receipt of the ~~such~~ notification, the Governor must designate the county commission as the M.P.O. The Governor must appoint four additional voting members to the M.P.O., one of whom must be an elected official representing a municipality within the county, one of whom must be an expressway authority member, one of whom must be a person who does not hold elected public office and who resides in the

unincorporated portion of the county, and one of whom must be a school board member.

(4) APPORTIONMENT.—

(a) Each M.P.O. in the state shall review the composition of its membership in conjunction with the decennial census, as prepared by the United States Department of Commerce, Bureau of the Census, and, with the agreement of the affected units of general-purpose local government and the Governor, reapportion the membership as necessary to comply with subsection (3) ~~The Governor shall, with the agreement of the affected units of general-purpose local government as required by federal rules and regulations, apportion the membership on the applicable M.P.O. among the various governmental entities within the area~~.

(b) At the request of a majority of the affected units of general-purpose local government comprising an M.P.O., the Governor and a majority of units of general-purpose local government serving on an M.P.O. shall cooperatively agree upon and prescribe who may serve as an alternate member and a method for appointing alternate members who may vote at any M.P.O. meeting that an alternate member attends in place of a regular member. The method must ~~shall~~ be set forth as a part of the interlocal agreement describing the M.P.O.'s membership or in the M.P.O.'s operating procedures and bylaws. The governmental entity so designated shall appoint the appropriate number of members to the M.P.O. from eligible officials. Representatives of the department shall serve as nonvoting advisers to the M.P.O. governing board. Additional nonvoting advisers may be appointed by the M.P.O. as deemed necessary; however, to the maximum extent feasible, each M.P.O. shall seek to appoint

nonvoting representatives of various multimodal forms of transportation not otherwise represented by voting members of the M.P.O. An M.P.O. shall appoint nonvoting advisers representing major military installations located within the jurisdictional boundaries of the M.P.O. upon the request of the aforesaid major military installations and subject to the agreement of the M.P.O. All nonvoting advisers may attend and participate fully in governing board meetings but may not vote or be members of the governing board. ~~The Governor shall review the composition of the M.P.O. membership in conjunction with the decennial census as prepared by the United States Department of Commerce, Bureau of the Census, and reapportion it as necessary to comply with subsection (3).~~

(c) ~~(b)~~ Except for members who represent municipalities on the basis of alternating with representatives from other municipalities that do not have members on the M.P.O. as provided in paragraph (3)(a), the members of an M.P.O. shall serve 4-year terms. Members who represent municipalities on the basis of alternating with representatives from other municipalities that do not have members on the M.P.O. as provided in paragraph (3)(a) may serve terms of up to 4 years as further provided in the interlocal agreement described in paragraph (2)(b). The membership of a member who is a public official automatically terminates upon the member's leaving his or her elective or appointive office for any reason, or may be terminated by a majority vote of the total membership of the entity's governing board represented by the member. A vacancy shall be filled by the original appointing entity. A member may be reappointed for one or more additional 4-year terms.

(d) ~~(c)~~ If a governmental entity fails to fill an assigned appointment to an M.P.O. within 60 days after notification by the Governor of its duty to appoint, that appointment must ~~shall~~ be made by the Governor from the eligible representatives of that governmental entity.

Section 20. Paragraph (a) of subsection (1) and subsections (4) and (5) of section 339.2821, Florida Statutes, are amended to read:

339.2821 Economic development transportation projects.—

(1)(a) The department, in consultation with the Department of Economic Opportunity and Enterprise Florida, Inc., may make and approve expenditures and contract with the appropriate governmental body for the direct costs of transportation projects. The Department of Economic Opportunity and the Department of Environmental Protection may formally review and comment on recommended transportation projects, although the department has final approval authority for any project authorized under this section.

(4) A contract between the department and a governmental body for a transportation project must:

(a) Specify that the transportation project is for the construction of a new or expanding business and specify the number of full-time permanent jobs that will result from the project.

(b) Identify the governmental body and require that the governmental body award the construction of the particular transportation project to the lowest and best bidder in accordance with applicable state and federal statutes or rules unless the transportation project can be constructed using

existing local governmental employees within the contract period specified by the department.

(c) Require that the governmental body provide the department with ~~quarterly~~ progress reports. Each ~~quarterly~~ progress report must contain:

1. A narrative description of the work completed and whether the work is proceeding according to the transportation project schedule;

2. A description of each change order executed by the governmental body;

3. A budget summary detailing planned expenditures compared to actual expenditures; and

4. The identity of each small or minority business used as a contractor or subcontractor.

(d) Require that the governmental body make and maintain records in accordance with accepted governmental accounting principles and practices for each progress payment made for work performed in connection with the transportation project, each change order executed by the governmental body, and each payment made pursuant to a change order. The records are subject to financial audit as required by law.

(e) Require that the governmental body, upon completion and acceptance of the transportation project, certify to the department that the transportation project has been completed in compliance with the terms and conditions of the contract between the department and the governmental body and meets the minimum construction standards established in accordance with s. 336.045.

(f) Specify that ~~the department transfer~~ funds will not be

transferred to the governmental body unless construction has begun on the facility of the ~~not more often than quarterly, upon receipt of a request for funds from the governmental body and consistent with the needs of the transportation project. The governmental body shall expend funds received from the department in a timely manner. The department may not transfer funds unless construction has begun on the facility of a~~ business on whose behalf the award was made. If construction of the transportation project does not begin within 4 years after the date of the initial grant award, the grant award is terminated ~~A contract totaling less than $200,000 is exempt from the transfer requirement~~.

(g) Require that funds be used only on a transportation project that has been properly reviewed and approved in accordance with the criteria set forth in this section.

(h) Require that the governing board of the governmental body adopt a resolution accepting future maintenance and other attendant costs occurring after completion of the transportation project if the transportation project is constructed on a county or municipal system.

(5) For purposes of this section, Space Florida may serve as the governmental body or as the contracting agency for a ~~transportation~~ project within a spaceport territory as defined by s. 331.304.

Section 21. Section 339.401, Florida Statutes, is repealed.

Section 22. Section 339.402, Florida Statutes, is repealed.

Section 23. Section 339.403, Florida Statutes, is repealed.

Section 24. Section 339.404, Florida Statutes, is repealed.

Section 41. Paragraphs (a) and (c) of subsection (2) and paragraph (i) of subsection (7) of section 339.55, Florida Statutes, are amended to read:

339.55 State-funded infrastructure bank.—

(2) The bank may lend capital costs or provide credit enhancements for:

(a) A transportation facility project that is on the State Highway System or that provides for increased mobility on the state's transportation system or provides intermodal connectivity with airports, seaports, spaceports, rail facilities, and other transportation terminals, pursuant to s. 341.053, for the movement of people and goods.

(c)1. Emergency loans for damages incurred to public-use commercial deepwater seaports, public-use airports, public-use

spaceports, and other public-use transit and intermodal facilities that are within an area that is part of an official state declaration of emergency pursuant to chapter 252 and all other applicable laws. Such loans:

a. May not exceed 24 months in duration except in extreme circumstances, for which the Secretary of Transportation may grant up to 36 months upon making written findings specifying the conditions requiring a 36-month term.

b. Require application from the recipient to the department that includes documentation of damage claims filed with the Federal Emergency Management Agency or an applicable insurance carrier and documentation of the recipient's overall financial condition.

c. Are subject to approval by the Secretary of Transportation and the Legislative Budget Commission.

2. Loans provided under this paragraph must be repaid upon receipt by the recipient of eligible program funding for damages in accordance with the claims filed with the Federal Emergency Management Agency or an applicable insurance carrier, but no later than the duration of the loan.

(7) The department may consider, but is not limited to, the following criteria for evaluation of projects for assistance from the bank:

(i) The extent to which the project will provide for connectivity between the State Highway System and airports, seaports, spaceports, rail facilities, and other transportation terminals and intermodal options pursuant to s. 341.053 for the increased accessibility and movement of people and goods.

Section 42. Subsection (11) of section 341.031, Florida

Statutes, is amended to read:

341.031 Definitions relating to Florida Public Transit Act.—As used in ss. 341.011-341.061, the term:

(11) "Intercity bus service" means regularly scheduled bus service for the general public which operates with limited stops over fixed routes connecting two or more urban areas not in close proximity; has the capacity for transporting baggage carried by passengers; and makes meaningful connections with scheduled intercity bus service to more distant points, if such service is available~~; maintains scheduled information in the National Official Bus Guide; and provides package express service incidental to passenger transportation~~.

Section 43. Section 341.053, Florida Statutes, is amended to read:

341.053 Intermodal Development Program; administration; eligible projects; limitations.—

(1) There is created within the Department of Transportation an Intermodal Development Program to provide for major capital investments in fixed-guideway transportation systems, access to seaports, airports, spaceports, and other transportation terminals, providing for the construction of intermodal or multimodal terminals; and to plan or fund construction of airport, spaceport, seaport, transit, and rail projects that ~~otherwise~~ facilitate the intermodal or multimodal movement of people and goods.

(2) The Intermodal Development Program shall be used for projects that support statewide goals as outlined in the Florida Transportation Plan, the Strategic Intermodal System Plan, the Freight Mobility and Trade Plan, or the appropriate department

modal plan ~~In recognition of the department's role in the economic development of this state, the department shall develop a proposed intermodal development plan to connect Florida's airports, deepwater seaports, rail systems serving both passenger and freight, and major intermodal connectors to the Strategic Intermodal System highway corridors as the primary system for the movement of people and freight in this state in order to make the intermodal development plan a fully integrated and interconnected system. The intermodal development plan must:~~

~~(a) Define and assess the state's freight intermodal network, including airports, seaports, rail lines and terminals, intercity bus lines and terminals, and connecting highways.~~

~~(b) Prioritize statewide infrastructure investments, including the acceleration of current projects, which are found by the Freight Stakeholders Task Force to be priority projects for the efficient movement of people and freight.~~

~~(c) Be developed in a manner that will assure maximum use of existing facilities and optimum integration and coordination of the various modes of transportation, including both government-owned and privately owned resources, in the most cost-effective manner possible.~~

(3) The Intermodal Development Program shall be administered by the department.

(4) The department shall review funding requests from a rail authority created pursuant to chapter 343. The department may include projects of the authorities, including planning and design, in the tentative work program.

(5) ~~No single transportation authority operating a fixed-guideway transportation system, or single fixed-guideway~~

~~transportation system not administered by a transportation authority, receiving funds under the Intermodal Development Program shall receive more than 33 1/3 percent of the total intermodal development funds appropriated between July 1, 1990, and June 30, 2015. In determining the distribution of funds under the Intermodal Development Program in any fiscal year, the department shall assume that future appropriation levels will be equal to the current appropriation level.~~

~~(6)~~ The department may ~~is authorized to~~ fund projects within the Intermodal Development Program, which are consistent, to the maximum extent feasible, with approved local government comprehensive plans of the units of local government in which the project is located. Projects that are eligible for funding under this program include planning studies, major capital investments in public rail and fixed-guideway transportation or freight facilities and systems which provide intermodal access; road, rail, intercity bus service, or fixed-guideway access to, from, or between seaports, airports, spaceports, intermodal logistics centers, and other transportation terminals; construction of intermodal or multimodal terminals, including projects on airports, spaceports, intermodal logistics centers, or seaports which assist in the movement or transfer of people or goods; development and construction of dedicated bus lanes; and projects which otherwise facilitate the intermodal or multimodal movement of people and goods.

Section 44. Section 343.80, Florida Statutes, is amended to read:

343.80 Short title.—This part may be cited as the "Northwest Florida Regional Transportation Finance ~~Corridor~~

Authority Law."

Section 45. Section 343.805, Florida Statutes, is amended to read:

343.805 Definitions.—As used in this part, the term:

(1) "Agency of the state" means the state and any department of, or corporation, agency, or instrumentality heretofore or hereafter created, designated, or established by, the state.

(2) "Authority" means the body politic and corporate and agency of the state created by this part.

(3) "Bonds" means the notes, bonds, refunding bonds, or other evidences of indebtedness or obligations, in either temporary or definitive form, which the authority is authorized to issue pursuant to this part.

(4) "Department" means the Department of Transportation existing under chapters 334-339.

(5) "Federal agency" means the United States, the President of the United States, and any department of, or corporation, agency, or instrumentality heretofore or hereafter created, designated, or established by, the United States.

(6) "Limited access expressway" or "expressway" means a street or highway especially designed for through traffic and over, from, or to which a person does not have the right of easement, use, or access except in accordance with the rules adopted and established by the authority for the use of such facility. Such highway or street may be a parkway, from which trucks, buses, and other commercial vehicles are excluded, or it may be a freeway open to use by all customary forms of street and highway traffic.

(7) "Members" means the governing body of the authority, and the term "member" means one of the individuals constituting such governing body.

(8) "Northwest Florida Regional Transportation Finance Authority System" or "system" means any and all expressways and appurtenant facilities thereto owned by the Authority, including, but not limited to, all approaches, roads, bridges, and avenues of access for said expressway or expressways.

(9) ~~(8)~~ "State Board of Administration" means the body corporate existing under the provisions of s. 9, Art. XII of the State Constitution, or any successor thereto.

~~(9) "U.S. 98 corridor" means U.S. Highway 98 and any feeder roads, reliever roads, connector roads, bridges, and other transportation appurtenances, existing or constructed in the future, that support U.S. Highway 98 in Escambia, Santa Rosa, Okaloosa, Walton, Bay, Gulf, Franklin, and Wakulla Counties.~~

~~(10) "U.S. 98 corridor system" means any and all expressways and appurtenant facilities, including, but not limited to, all approaches, roads, bridges, and avenues of access for the expressways that are either built by the authority or whose ownership is transferred to the authority by other governmental or private entities.~~

Terms importing singular number include the plural number in each case and vice versa, and terms importing persons include firms and corporations.

Section 46. Section 343.81, Florida Statutes, is amended to read:

343.81 Northwest Florida Regional Transportation Finance

730310

576-04144A-13

~~Corridor~~ Authority.—

(1) There is created and established a body politic and corporate, an agency of the state, to be known as the Northwest Florida Regional Transportation Finance ~~Corridor~~ Authority, hereinafter referred to as "the authority."

(2)(a) The governing body of the authority shall consist of five ~~eight~~ voting members, two from Okaloosa County and one each from ~~Escambia, Santa Rosa~~, Walton, ~~Okaloosa,~~ Bay, and Gulf~~, Franklin, and Wakulla~~ Counties, appointed by the Governor to a 4-year term. The appointees shall be residents of their respective counties and may not hold an elected office. Upon the effective date of his or her appointment, or as soon thereafter as practicable, each appointed member of the authority shall enter upon his or her duties. Each appointed member shall hold office until his or her successor has been appointed and has qualified. A vacancy occurring during a term shall be filled only for the balance of the unexpired term. Any member of the authority shall be eligible for reappointment. Members of the authority may be removed from office by the Governor for misconduct, malfeasance, misfeasance, or nonfeasance in office.

(b) The district secretary of the Department of Transportation serving Northwest Florida shall serve as an ex officio, nonvoting member.

(3)(a) The authority shall elect one of its members as chair and shall also elect a secretary and a treasurer who may or may not be members of the authority. The chair, secretary, and treasurer shall hold such offices at the will of the authority.

(b) Three ~~Five~~ members of the authority shall constitute a

730310

576-04144A-13

quorum, and the vote of at least three ~~Five~~ members shall be necessary for any action taken by the authority. A vacancy in the authority does not impair the right of a quorum of the authority to exercise all of the rights and perform all of the duties of the authority.

(c) The authority shall meet at least quarterly but may meet more frequently upon the call of the chair. The authority should alternate the locations of its meetings among the seven counties.

(4) Members of the authority shall serve without compensation but shall be entitled to receive from the authority their travel expenses and per diem incurred in connection with the business of the authority, as provided in s. 112.061.

(5) The authority may employ an executive director, an executive secretary, its own counsel and legal staff, technical experts, engineers, and such employees, permanent or temporary, as it may require. The authority shall determine the qualifications and fix the compensation of such persons, firms, or corporations and may employ a fiscal agent or agents; however, the authority shall solicit sealed proposals from at least three persons, firms, or corporations for the performance of any services as fiscal agents. The authority may delegate to one or more of its agents or employees its power as it shall deem necessary to carry out the purposes of this part, subject always to the supervision and control of the authority.

~~(6) The authority may establish technical advisory committees to provide guidance and advice on corridor-related issues. The authority shall establish the size, composition, and focus of any technical advisory committee created. A member~~

~~appointed to a technical advisory committee shall serve without compensation but shall be entitled to per diem or travel expenses, as provided in s. 112.061.~~

Section 47. Section 343.82, Florida Statutes, is amended to read:

343.82 Purposes and powers.—

(1) The authority created and established by the provisions of this part is hereby granted and shall have the right to acquire, hold, construct, improve, maintain, operate, own and lease in the capacity of lessor, the Northwest Florida Transportation Finance Authority System ~~The primary purpose of the authority is to improve mobility on the U.S. 98 corridor in Northwest Florida to enhance traveler safety, identify and develop hurricane evacuation routes, promote economic development along the corridor, and implement transportation projects to alleviate current or anticipated traffic congestion~~.

(2)(a) The authority, in the construction of the Northwest Florida Regional Transportation Finance Authority System, is authorized to construct any feeder roads, reliever roads, connector roads, bypasses, or appurtenant facilities ~~that are intended to improve mobility along the U.S. 98 corridor~~. The transportation improvement projects may also include all necessary approaches, roads, bridges, and avenues of access that are desirable and proper with the concurrence, where applicable, of the department if the project is to be part of the State Highway System or the respective county or municipal governing boards. Any transportation facilities constructed by the authority may be tolled.

(b) Notwithstanding any special act to the contrary, the

authority shall plan for and study the feasibility of constructing, operating, and maintaining a bridge or bridges spanning Choctawhatchee Bay ~~or Santa Rosa Sound, or both,~~ and access roads to such bridge or bridges, including studying the environmental and economic feasibility of such bridge or bridges and access roads, and such other transportation facilities that become part of such bridge system. The authority may construct, operate, and maintain the bridge system if the authority determines that the bridge system project is feasible and consistent with the authority's primary purpose and master plan.

~~(3)(a) The authority shall develop and adopt a corridor master plan no later than July 1, 2007. The goals and objectives of the master plan are to identify areas of the corridor where mobility, traffic safety, and efficient hurricane evacuation need to be improved; evaluate the economic development potential of the corridor and consider strategies to develop that potential; develop methods of building partnerships with local governments, other state and federal entities, the private sector business community, and the public in support of corridor improvements; and to identify projects that will accomplish these goals and objectives.~~

~~(b) After its adoption, the master plan shall be updated annually before July 1 of each year.~~

~~(c) The authority shall present the original master plan and updates to the governing bodies of the counties within the corridor and to the legislative delegation members representing those counties within 90 days after adoption.~~

~~(d) The authority may undertake projects or other improvements in the master plan in phases as particular projects~~

~~or segments thereof become feasible, as determined by the authority. In carrying out its purposes and powers, the authority may request funding and technical assistance from the department and appropriate federal and local agencies, including, but not limited to, state infrastructure bank loans, advances from the Toll Facilities Revolving Trust Fund, and from any other sources.~~

(3) ~~(4)~~ The authority is granted and shall have and may exercise all powers necessary, appurtenant, convenient, or incidental to the carrying out of the aforesaid purposes, including, but not limited to, the following rights and powers:

(a) To acquire, hold, construct, improve, maintain, operate, own, and lease in the capacity of lessor transportation facilities ~~within the U.S. 98 corridor~~.

(b) To borrow money and to make and issue negotiable notes, bonds, refunding bonds, and other evidences of indebtedness or obligations, either in temporary or definitive form, hereinafter in this chapter sometimes called "revenue bonds" of the authority, for the purpose of financing all or part of the Northwest Florida Regional Transportation Finance Authority System ~~mobility improvements within the U.S. 98 corridor~~, as well as the appurtenant facilities, including all approaches, streets, roads, bridges, and avenues of access authorized by this part, the bonds to mature not exceeding 40 years after the date of the issuance thereof, and to secure the payment of such bonds or any part thereof by a pledge of any or all of its revenues, rates, fees, rentals, or other charges.

(c) To fix, alter, charge, establish, and collect tolls, rates, fees, rentals, and other charges for the services and

facilities of the Northwest Florida Regional Transportation Finance Authority ~~Corridor~~ System, which rates, fees, rentals, and other charges shall always be sufficient to comply with any covenants made with the holders of any bonds issued pursuant to this part; however, such right and power may be assigned or delegated by the authority to the department. ~~The authority may not impose tolls or other charges on existing highways and other transportation facilities within the corridor.~~

(d) To acquire by donation or otherwise, purchase, hold, lease as lessee, and use any franchise, property, real, personal, or mixed, tangible or intangible, or any options thereof in its own name or in conjunction with others, or interest therein, necessary or desirable for carrying out the purposes of the authority and to sell, lease as lessor, transfer, and dispose of any property or interest therein at any time acquired by the authority, which the authority and the department have determined is not needed for the construction, operation, and maintenance of the system ~~it~~.

(e) To sue and be sued, implead and be impleaded, complain, and defend in all courts.

(f) To adopt, use, and alter at will a corporate seal.

(g) To enter into and make leases.

~~(h) To enter into and make lease-purchase agreements with the department for terms not exceeding 40 years or until any bonds secured by a pledge of rentals thereunder, and any refundings thereof, are fully paid as to both principal and interest, whichever is longer.~~

(h) ~~(i)~~ To make contracts of every name and nature, including, but not limited to, partnerships providing for

participation in ownership and revenues, and to execute all instruments necessary or convenient for the carrying on of its business.

(i) ~~(j)~~ Without limitation of the foregoing, to borrow money and accept grants from and to enter into contracts, leases, or other transactions with any federal agency, the state, any agency of the state, or any other public body of the state.

(j) ~~(k)~~ To have the power of eminent domain, including the procedural powers granted under chapters 73 and 74.

(k) ~~(l)~~ To pledge, hypothecate, or otherwise encumber all or any part of the revenues, rates, fees, rentals, or other charges or receipts of the authority.

(l) ~~(m)~~ To enter into partnership and other agreements respecting ownership and revenue participation in order to facilitate financing and constructing any project or portions thereof.

(m) ~~(n)~~ To participate in agreements with private entities and to receive private contributions.

(n) ~~(o)~~ To contract with the department or with a private entity for the operation of traditional and electronic toll collection facilities ~~along the U.S. 98 corridor~~.

(o) ~~(p)~~ To do all acts and things necessary or convenient for the conduct of its business and the general welfare of the authority in order to carry out the powers granted to it by this part or any other law.

(p) ~~(q)~~ To construct, operate, and maintain roads, bridges, avenues of access, thoroughfares, and boulevards and to construct, repair, replace, operate, install, and maintain electronic toll payment systems thereon, with all necessary and

incidental powers to accomplish the foregoing.

(4) ~~(5)~~ The authority does not have power at any time or in any manner to pledge the credit or taxing power of the state or any political subdivision or agency thereof, nor shall any of the authority's obligations be deemed to be obligations of the state or of any political subdivision or agency thereof, nor shall the state or any political subdivision or agency thereof, except the authority, be liable for the payment of the principal of or interest on such obligations.

Section 48. Section 343.83, Florida Statutes, is amended to read:

343.83 Improvements, bond financing authority.—Pursuant to s. 11(f), Art. VII of the State Constitution, the Legislature approves bond financing by the Northwest Florida Transportation Finance ~~Corridor~~ Authority for improvements to toll collection facilities, interchanges to the legislatively approved system, and any other facility appurtenant, necessary, or incidental to the approved system. Subject to terms and conditions of applicable revenue bond resolutions and covenants, such costs may be financed in whole or in part by revenue bonds issued pursuant to s. 343.835(1)(a) or (b) whether currently issued or issued in the future or by a combination of such bonds.

Section 49. Subsections (2) and (3) of section 343.835, Florida Statutes, is amended to read:

343.835 Bonds of the authority.—

(2) Any such resolution or resolutions authorizing any bonds hereunder may contain provisions that are part of the contract with the holders of such bonds, as to:

(a) The pledging of all or any part of the revenues, rates,

fees, rentals, or other charges or receipts of the authority~~,~~ ~~derived by the authority for the U.S. 98 corridor improvements~~.

(b) The completion, improvement, operation, extension, maintenance, repair, or lease of the system, and the duties of the authority and others with reference thereto.

(c) Limitations on the purposes to which the proceeds of the bonds, then or thereafter to be issued, or of any loan or grant by the United States or the state may be applied.

(d) The fixing, charging, establishing, and collecting of rates, fees, rentals, or other charges for use of the services and facilities owned or provided ~~constructed~~ by the authority.

(e) The setting aside of reserves or sinking funds or repair and replacement funds and the regulation and disposition thereof.

(f) Limitations on the issuance of additional bonds.

(g) The terms and provisions of any lease-purchase agreement, deed of trust, or indenture securing the bonds or under which the same may be issued.

(h) Any other or additional agreements with the holders of the bonds which the authority may deem desirable and proper.

(3) The authority may employ fiscal agents as provided by this part or the State Board of Administration may, upon request of the authority, act as fiscal agent for the authority in the issuance of any bonds that are issued pursuant to this part, and the State Board of Administration may, upon request of the authority, take over the management, control, administration, custody, and payment of any or all debt services or funds or assets now or hereafter available for any bonds issued pursuant to this part. The authority may enter into any deeds of trust,

indentures, or other agreements with its fiscal agent, or with any bank or trust company within or without the state, as security for such bonds and may, under such agreements, sign and pledge all or any of the revenues, rates, fees, rentals, or other charges or receipts of the authority. Such deed of trust, indenture, or other agreement may contain such provisions as are customary in such instruments or, as the authority authorizes, including, but without limitation, provisions as to:

(a) The completion, improvement, operation, extension, maintenance, repair, and lease of the system ~~U.S. 98 corridor improvements~~ and the duties of the authority and others with reference thereto.

(b) The application of funds and the safeguarding of funds on hand or on deposit.

(c) The rights and remedies of the trustee and the holders of the bonds.

(d) The terms and provisions of the bonds or the resolutions authorizing the issuance of the bonds.

Section 50. Section 343.84, Florida Statutes, is amended to read:

343.84 Department to construct, operate, and maintain facilities ~~may be appointed agent of authority for construction.~~

(1) The department is the agent of ~~may be appointed by~~ the authority ~~as its agent~~ for the purpose of constructing improvements and extensions to the system and for the completion thereof. ~~In such event,~~ The authority shall provide the department with complete copies of all documents, agreements, resolutions, contracts, and instruments relating thereto, shall

730310

576-04144A-13

request the department to do such construction work, including the planning, surveying, and actual construction of the completion, extensions, and improvements to the system, and shall transfer to the credit of an account of the department in the treasury of the state the necessary funds therefor. The department shall proceed with such construction and use the funds for such purpose in the same manner that it is now authorized to use the funds otherwise provided by law for its use in construction of roads and bridges. The authority may alternatively, with the consent and approval of the department, elect to appoint a local agency certified by the department to administer federal aid projects in accordance with federal law as the authority's agent for the purpose of performing each phase of a project.

(2) Notwithstanding the provisions of subsection (1), the department is the agent of the authority for the purpose of operating and maintaining the system. The department shall operate and maintain the system, and the costs incurred by the department for operation and maintenance shall be reimbursed from revenues of the system. The appointment of the department as agent for the authority does not create an independent obligation of the department to operate and maintain the system. The authority shall remain obligated as principal to operate and maintain its system, and, except as otherwise provided by the lease-purchase agreement between the department and the Mid-Bay Bridge Authority in connection with its issuance of bonds, the authority's bondholders do not have an independent right to compel the department to operate and maintain any part of the authority's system.

730310

576-04144A-13

(3) The authority shall fix, alter, charge, establish, and collect tolls, rates, fees, rentals, and other charges for the authority's facilities, as otherwise provided in this part.

Section 51. Subsection (1) of section 343.85, Florida Statutes, is amended to read:

343.85 Acquisition of lands and property.—

(1) For the purposes of this part, the Northwest Florida Regional Transportation Finance ~~Corridor~~ Authority may acquire private or public property and property rights, including rights of access, air, view, and light, by gift, devise, purchase, or condemnation by eminent domain proceedings, as the authority may deem necessary for any purpose of this part, including, but not limited to, any lands reasonably necessary for securing applicable permits, areas necessary for management of access, borrow pits, drainage ditches, water retention areas, rest areas, replacement access for landowners whose access is impaired due to the construction of a facility, and replacement rights-of-way for relocated rail and utility facilities; for existing, proposed, or anticipated transportation facilities ~~within the U.S. 98 transportation corridor designated by the authority~~; or for the purposes of screening, relocation, removal, or disposal of junkyards and scrap metal processing facilities. The authority may condemn any material and property necessary for such purposes.

Section 52. Section 343.875, Florida Statutes, is repealed.

Section 53. Subsection (3) of section 343.89, Florida Statutes, is amended to read:

343.89 Complete and additional statutory authority.—

(3) This part does not preclude the department from

acquiring, holding, constructing, improving, maintaining, operating, or owning tolled or nontolled facilities funded and constructed from nonauthority sources that are part of the State Highway System within the geographical boundaries of the Northwest Florida Regional Transportation Finance ~~Corridor~~ Authority.

Section 54. Subsection (4) of section 343.922, Florida Statutes, is amended to read:

343.922 Powers and duties.—

(4) The authority may undertake projects or other improvements in the master plan in phases as particular projects or segments become feasible, as determined by the authority. The authority shall coordinate project planning, development, and implementation with the applicable local governments. The authority's projects that are transportation oriented shall be consistent to the maximum extent feasible with the adopted local government comprehensive plans at the time they are funded for construction. Authority projects that are not transportation oriented and meet the definition of development pursuant to s. 380.04 shall be consistent with the local comprehensive plans. In carrying out its purposes and powers, the authority may request funding and technical assistance from the department and appropriate federal and local agencies, including, but not limited to, state infrastructure bank loans~~, advances from the Toll Facilities Revolving Trust Fund,~~ and funding and technical assistance from any other source.

Section 55. Chapter 345, Florida Statutes, consisting of sections 345.0001, 345.0002, 345.0003, 345.0004, 345.0005, 345.0006, 345.0007, 345.0008, 345.0009, 345.0010, 345.0011,

345.0012, 345.0013, 345.0014, 345.0015, and 345.0016, is created to read:

345.0001 Short title.—This act may be cited as the "Florida Regional Transportation Finance Authority Act."

345.0002 Definitions.—As used in this chapter, the term:

(1) "Agency of the state" means the state and any department of, or any corporation, agency, or instrumentality heretofore or hereafter created, designated, or established by, the state.

(2) "Area served" means the geographical area of the counties for which an authority is established.

(3) "Authority" means a regional transportation finance authority, a body politic and corporate, and an agency of the state, established pursuant to the Florida Regional Transportation Finance Authority Act.

(4) "Bonds" means the notes, bonds, refunding bonds, or other evidences of indebtedness or obligations, in temporary or definitive form, which an authority may issue pursuant to this act.

(5) "Department" means the Department of Transportation of Florida and any successor thereto.

(6) "Division" means the Division of Bond Finance of the State Board of Administration.

(7) "Federal agency" means the United States, the President of the United States, and any department of, or any bureau, corporation, agency, or instrumentality heretofore or hereafter created, designated, or established by, the United States.

(8) "Members" means the governing body of an authority, and the term "member" means one of the individuals constituting such

governing body.

(9) "Regional system" or "system" means, generally, a modern tolled highway system of roads, bridges, causeways, and tunnels within any area of the authority, with access limited or unlimited as an authority may determine, and the buildings and structures and appurtenances and facilities related to the system, including all approaches, streets, roads, bridges, and avenues of access for the system.

(10) "Revenues" means the tolls, revenues, rates, fees, charges, receipts, rentals, contributions, and other income derived from or in connection with the operation or ownership of a regional system, including the proceeds of any use and occupancy insurance on any portion of the system but excluding state funds available to an authority and any other municipal or county funds available to an authority under an agreement with a municipality or county.

345.0003 Regional transportation finance authority; formation; membership.—

(1) A county, or two or more contiguous counties, may, after the approval of the Legislature, form a regional transportation finance authority for the purposes of financing, constructing, maintaining, and operating transportation projects in a region of this state. An authority shall be governed in accordance with the provisions of this chapter. An authority may not be created without the approval of the Legislature and the approval of the county commission of each county that will be a part of the authority. An authority may not be created to serve a particular area of this state as provided by this subsection if a regional transportation finance authority has been created

and is operating within all or a portion of the same area served pursuant to an act of the Legislature. Each authority shall be the only authority created and operating pursuant to this chapter within the area served by the authority.

(2) The governing body of an authority shall consist of a board of voting members as follows:

(a) The county commission of each county in the area served by the authority shall each appoint a member who must be a resident of the county from which he or she is appointed. The county commission of each county with a total population of more than 250,000 shall appoint a second member who must be a resident of the county. If possible, the member must represent the business and civic interests of the community.

(b) The Governor shall appoint an equal number of members to the board as those appointed by the county commissions. The members appointed by the Governor must be residents of the area served by the authority.

(c) The secretary of the Department of Transportation shall appoint one of the district secretaries, or his or her designee, for the districts within which the area served by the authority is located.

(3) The term of office of each member shall be for 4 years or until his or her successor is appointed and qualified.

(4) A member may not hold an elected office.

(5) A vacancy occurring in the governing body before the expiration of the member's term shall be filled by the respective appointing authority in the same manner as the original appointment and only for the balance of the unexpired term.

(6) Each member, before entering upon his or her official duties, must take and subscribe to an oath before an official authorized by law to administer oaths that he or she will honestly, faithfully, and impartially perform the duties devolving upon him or her in office as a member of the governing body of the authority and that he or she will not neglect any duties imposed upon him or her by this chapter.

(7) A member of an authority may be removed from office by the Governor for misconduct, malfeasance, misfeasance, or nonfeasance in office.

(8) The members of the authority shall designate one of its members as chair.

(9) The members of the authority shall serve without compensation, but shall be entitled to reimbursement for per diem and other expenses in accordance with s. 112.061 while in performance of their duties.

(10) A majority of the members of the authority constitutes a quorum, and resolutions enacted or adopted by a vote of a majority of the members present and voting at any meeting become effective without publication, posting, or any further action of the authority.

345.0004 Powers and duties.—

(1)(a) An authority created and established, or governed, by the Florida Regional Transportation Finance Authority Act shall plan, develop, finance, construct, reconstruct, improve, own, operate, and maintain a regional system in the area served by the authority.

(b) An authority may not exercise the powers in paragraph (a) with respect to an existing system for transporting people

and goods by any means that is owned by another entity without the consent of that entity. If an authority acquires, purchases, or inherits an existing entity, the authority shall also inherit and assume all rights, assets, appropriations, privileges, and obligations of the existing entity.

(2) Each authority may exercise all powers necessary, appurtenant, convenient, or incidental to the carrying out of the purposes of this section, including, but not limited to, the following rights and powers:

(a) To sue and be sued, implead and be impleaded, and complain and defend in all courts in its own name.

(b) To adopt and use a corporate seal.

(c) To have the power of eminent domain, including the procedural powers granted under chapters 73 and 74.

(d) To acquire, purchase, hold, lease as a lessee, and use any property, real, personal, or mixed, tangible or intangible, or any interest therein, necessary or desirable for carrying out the purposes of the authority.

(e) To sell, convey, exchange, lease, or otherwise dispose of any real or personal property acquired by the authority, which the authority and the department have determined is not needed for the construction, operation, and maintenance of the system, including air rights.

(f) To fix, alter, charge, establish, and collect rates, fees, rentals, and other charges for the use of any system owned or operated by the authority, which rates, fees, rentals, and other charges must always be sufficient to comply with any covenants made with the holders of any bonds issued pursuant to this act; however, such right and power may be assigned or

delegated by the authority to the department.

(g) To borrow money, make and issue negotiable notes, bonds, refunding bonds, and other evidences of indebtedness or obligations, in temporary or definitive form, for the purpose of financing all or part of the improvement of the authority's system and appurtenant facilities, including the approaches, streets, roads, bridges, and avenues of access for the system and for any other purpose authorized by this chapter, the bonds to mature in not exceeding 30 years after the date of the issuance thereof, and to secure the payment of such bonds or any part thereof by a pledge of its revenues, rates, fees, rentals, or other charges, including municipal or county funds received by the authority pursuant to the terms of an agreement between the authority and a municipality or county; and, in general, to provide for the security of the bonds and the rights and remedies of the holders of the bonds; however, municipal or county funds may not be pledged for the construction of a project for which a toll is to be charged unless the anticipated tolls are reasonably estimated by the governing board of the municipality or county, at the date of its resolution pledging said funds, to be sufficient to cover the principal and interest of such obligations during the period when the pledge of funds is in effect. An authority shall reimburse a municipality or county for sums expended from municipal or county funds used for the payment of the bond obligations.

(h) To make contracts of every name and nature, including, but not limited to, partnerships providing for participation in ownership and revenues, and to execute each instrument necessary or convenient for the conduct of its business.

(i) Without limitation of the foregoing, to cooperate with, to borrow money and accept grants from, and to enter into contracts or other transactions with any federal agency, the state, or any agency or any other public body of the state.

(j) To employ an executive director, attorney, staff, and consultants. Upon the request of an authority, the department shall furnish the services of a department employee to act as the executive director of the authority.

(k) To accept funds or other property from private donations.

(l) To do all acts and things necessary or convenient for the conduct of its business and the general welfare of the authority, in order to carry out the powers granted to it by this act or any other law.

(3) An authority does not have the power at any time or in any manner to pledge the credit or taxing power of the state or any political subdivision or agency thereof. Obligations of the authority may not be deemed to be obligations of the state or of any other political subdivision or agency thereof. The state or any political subdivision or agency thereof, except the authority, is not liable for the payment of the principal of or interest on such obligations.

(4) An authority has no power, other than by consent of the affected county or an affected municipality, to enter into an agreement that would legally prohibit the construction of a road by the county or the municipality.

(5) An authority formed pursuant to this chapter shall comply with the statutory requirements of general application which relate to the filing of a report or documentation required

by law, including the requirements of ss. 189.4085, 189.415, 189.417, and 189.418.

345.0005 Bonds.—

(1)(a) Bonds may be issued on behalf of an authority pursuant to the State Bond Act.

(b) An authority may also issue bonds in such principal amount as is necessary, in the opinion of the authority, to provide sufficient moneys for achieving its corporate purposes, including construction, reconstruction, improvement, extension, and repair of the system, the cost of acquisition of all real property, interest on bonds during construction and for a reasonable period thereafter, and establishment of reserves to secure bonds.

(2)(a) Bonds issued by an authority pursuant to paragraph (1)(a) or paragraph (1)(b) must be authorized by resolution of the members of the authority and must bear such date or dates; mature at such time or times, not exceeding 30 years after their respective dates; bear interest at such rate or rates, not exceeding the maximum rate fixed by general law for authorities; be in such denominations; be in such form, either coupon or fully registered; carry such registration, exchangeability and interchangeability privileges; be payable in such medium of payment and at such place or places; be subject to such terms of redemption; and be entitled to such priorities of lien on the revenues and other available moneys as such resolution or any resolution subsequent to the bonds' issuance may provide.

(b) Bonds issued pursuant to paragraph (1)(a) or paragraph (1)(b) must be sold at public sale in the same manner provided in the State Bond Act. Pending the preparation of definitive

bonds, temporary bonds or interim certificates may be issued to the purchaser or purchasers of such bonds and may contain such terms and conditions as the authority may determine.

(3) A resolution that authorizes any bonds may contain provisions that must be part of the contract with the holders of the bonds, as to:

(a) The pledging of all or any part of the revenues, available municipal or county funds, or other charges or receipts of the authority derived from the regional system.

(b) The construction, reconstruction, improvement, extension, repair, maintenance, and operation of the system, or any part or parts of the system, and the duties and obligations of the authority with reference thereto.

(c) Limitations on the purposes to which the proceeds of the bonds, then or thereafter issued, or of any loan or grant by any federal agency or the state or any political subdivision of the state may be applied.

(d) The fixing, charging, establishing, revising, increasing, reducing, and collecting of tolls, rates, fees, rentals, or other charges for use of the services and facilities of the system or any part of the system.

(e) The setting aside of reserves or of sinking funds and the regulation and disposition of the reserves or sinking funds.

(f) Limitations on the issuance of additional bonds.

(g) The terms and provisions of any deed of trust or indenture securing the bonds, or under which the bonds may be issued.

(h) Any other or additional matters, of like or different character, which in any way affect the security or protection of

the bonds.

(4) The authority may enter into any deeds of trust, indentures, or other agreements with any bank or trust company within or without the state, as security for such bonds, and may, under such agreements, assign and pledge any of the revenues and other available moneys, including any available municipal or county funds, pursuant to the terms of this chapter. The deed of trust, indenture, or other agreement may contain provisions that are customary in such instruments or that the authority may authorize, including, but without limitation, provisions that:

(a) Pledge any part of the revenues or other moneys lawfully available therefor.

(b) Apply funds and safeguard funds on hand or on deposit.

(c) Provide for the rights and remedies of the trustee and the holders of the bonds.

(d) Provide for the terms and provisions of the bonds or for resolutions authorizing the issuance of the bonds.

(e) Provide for any other or additional matters, of like or different character, which affect the security or protection of the bonds.

(5) Any bonds issued pursuant to this act are negotiable instruments and have all the qualities and incidents of negotiable instruments under the law merchant and the negotiable instruments law of the state.

(6) A resolution that authorizes the issuance of authority bonds and pledges the revenues of the system must require that revenues of the system be periodically deposited into appropriate accounts in such sums as are sufficient to pay the

costs of operation and maintenance of the system for the current fiscal year as set forth in the annual budget of the authority and to reimburse the department for any unreimbursed costs of operation and maintenance of the system from prior fiscal years before revenues of the system are deposited into accounts for the payment of interest or principal owing or that may become owing on such bonds.

(7) State funds may not be used or pledged to pay the principal or interest of any authority bonds, and all such bonds must contain a statement on their face to this effect.

345.0006 Remedies of bondholders.—

(1) The rights and the remedies granted to authority bondholders under this chapter are in addition to and not in limitation of any rights and remedies lawfully granted to such bondholders by the resolution or indenture providing for the issuance of bonds, or by any deed of trust, indenture, or other agreement under which the bonds may be issued or secured. If an authority defaults in the payment of the principal of or interest on any of the bonds issued pursuant to this chapter after such principal of or interest on the bonds becomes due, whether at maturity or upon call for redemption, as provided in the resolution or indenture, and such default continues for 30 days, or in the event that the authority fails or refuses to comply with the provisions of this chapter or any agreement made with, or for the benefit of, the holders of the bonds, the holders of 25 percent in aggregate principal amount of the bonds then outstanding shall be entitled as of right to the appointment of a trustee to represent such bondholders for the purposes of the default provided that the holders of 25 percent

in aggregate principal amount of the bonds then outstanding first gave written notice of their intention to appoint a trustee, to the authority and to the department.

(2) The trustee, and any trustee under any deed of trust, indenture, or other agreement, may, and upon written request of the holders of 25 percent, or such other percentages specified in any deed of trust, indenture, or other agreement, in principal amount of the bonds then outstanding, shall, in any court of competent jurisdiction, in his, her, or its own name:

(a) By mandamus or other suit, action, or proceeding at law, or in equity, enforce all rights of the bondholders, including the right to require the authority to fix, establish, maintain, collect, and charge rates, fees, rentals, and other charges, adequate to carry out any agreement as to, or pledge of, the revenues, and to require the authority to carry out any other covenants and agreements with or for the benefit of the bondholders, and to perform its and their duties under this chapter.

(b) Bring suit upon the bonds.

(c) By action or suit in equity, require the authority to account as if it were the trustee of an express trust for the bondholders.

(d) By action or suit in equity, enjoin any acts or things that may be unlawful or in violation of the rights of the bondholders.

(3) A trustee, if appointed pursuant to this section or acting under a deed of trust, indenture, or other agreement, and whether or not all bonds have been declared due and payable, shall be entitled as of right to the appointment of a receiver.

The receiver may enter upon and take possession of the system or the facilities or any part or parts of the system, the revenues and other pledged moneys, for and on behalf of and in the name of, the authority and the bondholders. The receiver may collect and receive all revenues and other pledged moneys in the same manner as the authority might do. The receiver shall deposit all such revenues and moneys in a separate account and apply all such revenues and moneys remaining after allowance for payment of all costs of operation and maintenance of the system in such manner as the court directs. In a suit, action, or proceeding by the trustee, the fees, counsel fees, and expenses of the trustee, and said receiver, if any, and all costs and disbursements allowed by the court must be a first charge on any revenues after payment of the costs of operation and maintenance of the system. The trustee also has all other powers necessary or appropriate for the exercise of any functions specifically set forth in this section or incident to the representation of the bondholders in the enforcement and protection of their rights.

(4) This section or any other section of this chapter does not authorize a receiver appointed pursuant to this section for the purpose of operating and maintaining the system or any facilities or parts thereof to sell, assign, mortgage, or otherwise dispose of any of the assets belonging to the authority. The powers of such receiver are limited to the operation and maintenance of the system, or any facility or parts thereof and to the collection and application of revenues and other moneys due the authority, in the name and for and on behalf of the authority and the bondholders. A holder of bonds

or any trustee does not have the right in any suit, action, or proceeding, at law or in equity, to compel a receiver, or a receiver may not be authorized or a court may not direct a receiver to, sell, assign, mortgage, or otherwise dispose of any assets of whatever kind or character belonging to the authority.

345.0007 Department to construct, operate, and maintain facilities.—

(1) The department is the agent of each authority for the purpose of performing all phases of a project, including, but not limited to, constructing improvements and extensions to the system. The authority shall provide to the department complete copies of the documents, agreements, resolutions, contracts, and instruments that relate to the project and shall request that the department perform the construction work, including the planning, surveying, design, and actual construction of the completion, extensions, and improvements to the system. After the issuance of bonds to finance construction of an improvement or addition to the system, the authority shall transfer to the credit of an account of the department in the State Treasury the necessary funds for construction. The department shall proceed with construction and use the funds for the purpose authorized and as otherwise provided by law for construction of roads and bridges. An authority may alternatively, with the consent and approval of the department, elect to appoint a local agency certified by the department to administer federal aid projects in accordance with federal law as the authority's agent for the purpose of performing each phase of a project.

(2) Notwithstanding the provisions of subsection (1), the department is the agent of each authority for the purpose of

operating and maintaining the system. The department shall operate and maintain the system, and the costs incurred by the department for operation and maintenance shall be reimbursed from revenues of the system. The appointment of the department as agent for each authority does not create an independent obligation of the department to operate and maintain a system. Each authority shall remain obligated as principal to operate and maintain its system, and an authority's bondholders do not have an independent right to compel the department to operate or maintain the authority's system.

(3) Each authority shall fix, alter, charge, establish, and collect tolls, rates, fees, rentals, and other charges for the authority's facilities, as otherwise provided in this chapter.

345.0008 Department contributions to authority projects.—

(1) The department may, at the request of an authority, provide for or contribute to the payment of costs of financial or engineering and traffic feasibility studies and the design, financing, acquisition, or construction of an authority project included in the 10-year Strategic Intermodal Plan, subject to appropriation by the Legislature. The department shall separately include each such authority project in its work program, through amendment if necessary. The department may not request legislative approval of acquisition or construction of a proposed authority project unless the estimated net revenues of the proposed project will be sufficient to pay at least 50 percent of the annual debt service on the bonds associated with the project by the end of the 12th year of operation and to pay at least 100 percent of the debt service on the bonds by the end of the 30th year of operation.

(2) The department may use its engineering and other personnel, including consulting engineers and traffic engineers, to conduct feasibility studies pursuant to subsection (1).

(3) An obligation or expense incurred by the department under this section is a part of the cost of the authority project for which the obligation or expense was incurred. The department may require money contributed by the department under this section to be repaid from tolls of the project on which the money was spent, other revenue of the authority, or other sources of funds.

(4) The department shall receive from an authority a share of the authority's net revenues equal to the ratio of the department's total contributions to the authority under this section to the sum of: the department's total contributions under this section; contributions by any local government to the cost of revenue producing authority projects; and the sale proceeds of authority bonds after payment of costs of issuance. For the purpose of this subsection, net revenues are gross revenues of an authority after payment of debt service, administrative expenses, operations and maintenance expenses, and all reserves required to be established under any resolution under which authority bonds are issued.

345.0009 Acquisition of lands and property.—

(1) For the purposes of this chapter, an authority may acquire private or public property and property rights, including rights of access, air, view, and light, by gift, devise, purchase, condemnation by eminent domain proceedings, or transfer from another political subdivision of the state, as the authority may deem necessary for any of the purposes of this

chapter, including, but not limited to, any lands reasonably necessary for securing applicable permits, areas necessary for management of access, borrow pits, drainage ditches, water retention areas, rest areas, replacement access for landowners whose access is impaired due to the construction of a facility, and replacement rights-of-way for relocated rail and utility facilities; for existing, proposed, or anticipated transportation facilities on the system or in a transportation corridor designated by the authority; or for the purposes of screening, relocation, removal, or disposal of junkyards and scrap metal processing facilities. Each authority shall also have the power to condemn any material and property necessary for such purposes.

(2) An authority shall exercise the right of eminent domain conferred under this section in the manner provided by law.

(3) If an authority acquires property for a transportation facility or in a transportation corridor, it is not subject to any liability imposed by chapter 376 or chapter 403 for preexisting soil or groundwater contamination due solely to its ownership. This section does not affect the rights or liabilities of any past or future owners of the acquired property or affect the liability of any governmental entity for the results of its actions which create or exacerbate a pollution source. An authority and the Department of Environmental Protection may enter into interagency agreements for the performance, funding, and reimbursement of the investigative and remedial acts necessary for property acquired by the authority.

345.0010 Cooperation with other units, boards, agencies,

and individuals.—A county, municipality, drainage district, road and bridge district, school district, or any other political subdivision, board, commission, or individual in, or of, the state may make and enter into a contract, lease, conveyance, partnership, or other agreement with an authority within the provisions and purposes of this chapter. Each authority may make and enter into contracts, leases, conveyances, partnerships, and other agreements with any political subdivision, agency, or instrumentality of the state and any federal agency, corporation, and individual, to carry out the purposes of this chapter.

345.0011 Covenant of the state.—The state pledges to, and agrees with, any person, firm, or corporation, or federal or state agency subscribing to, or acquiring the bonds to be issued by an authority for the purposes of this chapter that the state will not limit or alter the rights vested by this chapter in the authority and the department until all bonds at any time issued, together with the interest thereon, are fully paid and discharged insofar as the rights vested in the authority and the department affect the rights of the holders of bonds issued pursuant to this chapter. The state further pledges to, and agrees with, the United States that if a federal agency constructs or contributes any funds for the completion, extension, or improvement of the system, or any parts of the system, the state will not alter or limit the rights and powers of the authority and the department in any manner that is inconsistent with the continued maintenance and operation of the system or the completion, extension, or improvement of the system, or which would be inconsistent with the due performance

of any agreements between the authority and any such federal agency, and the authority and the department shall continue to have and may exercise all powers granted in this section, so long as the powers are necessary or desirable to carry out the purposes of this chapter and the purposes of the United States in the completion, extension, or improvement of the system, or any part of the system.

345.0012 Exemption from taxation.—The authority created under this chapter is for the benefit of the people of the state, for the increase of their commerce and prosperity, and for the improvement of their health and living conditions, and because the authority will be performing essential governmental functions pursuant to this chapter, the authority is not required to pay any taxes or assessments of any kind or nature whatsoever upon any property acquired or used by it for such purposes, or upon any rates, fees, rentals, receipts, income, or charges received by it, and the bonds issued by the authority, their transfer and the income from their issuance, including any profits made on the sale of the bonds, shall be free from taxation by the state or by any political subdivision, taxing agency, or instrumentality of the state. The exemption granted by this section does not apply to any tax imposed by chapter 220 on interest, income, or profits on debt obligations owned by corporations.

345.0013 Eligibility for investments and security.—Any bonds or other obligations issued pursuant to this chapter are legal investments for banks, savings banks, trustees, executors, administrators, and all other fiduciaries, and for all state, municipal, and other public funds and are also securities

eligible for deposit as security for all state, municipal, or other public funds, notwithstanding the provisions of any other law to the contrary.

345.0014 Applicability.—

(1) The powers conferred by this chapter are in addition to the powers conferred by other law and do not repeal the provisions of any other general or special law or local ordinance, but supplement such other laws in the exercise of the powers provided in this chapter, and provide a complete method for the exercise of the powers granted in this chapter. The extension and improvement of a system, and the issuance of bonds pursuant to this chapter to finance all or part of the cost thereof, may be accomplished upon compliance with the provisions of this chapter without regard to or necessity for compliance with the provisions, limitations, or restrictions contained in any other general, special, or local law, including, but not limited to, s. 215.821, and approval of any bonds issued under this act by the qualified electors or qualified electors who are freeholders in the state or in any political subdivision of the state is not required for the issuance of such bonds pursuant to this chapter.

(2) This act does not repeal, rescind, or modify any other law or laws relating to the State Board of Administration, the Department of Transportation, or the Division of Bond Finance of the State Board of Administration, but supersedes any other law that is inconsistent with the provisions of this chapter, including, but not limited to, s. 215.821.

345.0015 Santa Rosa-Escambia Regional Transportation Finance Authority.—

(1) There is hereby created and established a body politic and corporate, an agency of the state, to be known as the Santa Rosa-Escambia Regional Transportation Finance Authority, hereinafter referred to as the "authority."

(2) The area served by the authority shall be Escambia and Santa Rosa Counties.

(3) The purposes and powers of the authority are as identified in the Florida Regional Transportation Finance Authority Act for the area served by the authority, and the authority operates in the manner provided by the Florida Regional Transportation Finance Authority Act.

345.0016 Suncoast Regional Transportation Finance Authority.—

(1) There is hereby created and established a body politic and corporate, an agency of the state, to be known as the Suncoast Regional Transportation Finance Authority, hereinafter referred to as the "authority."

(2) The area served by the authority shall be Citrus, Levy, Marion, and Alachua Counties.

(3) The purposes and powers of the authority are as identified in the Florida Regional Transportation Finance Authority Act for the area served by the authority, and the authority operates in the manner provided by the Florida Regional Transportation Finance Authority Act.

Section 56. Transfer to the Northwest Florida Regional Transportation Finance Authority.—The governance and control of the Mid-Bay Bridge Authority System, created pursuant to chapter 2000-411, Laws of Florida, is transferred to the Northwest Florida Regional Transportation Finance Authority.

(1) The assets, facilities, tangible and intangible property and any rights in such property, and any other legal rights of the Mid-Bay Bridge Authority, including the bridge system operated by the authority, are transferred to the Northwest Florida Regional Transportation Finance Authority. All powers of the Mid-Bay Bridge Authority shall succeed to the Northwest Florida Regional Transportation Finance Authority, and the operations and maintenance of the bridge system shall be under the control of the Northwest Florida Regional Transportation Finance Authority, pursuant to this section. Revenues collected on the bridge system may be considered Northwest Florida Regional Transportation Finance Authority revenues, and the Mid-Bay Bridge may be considered part of the authority system, if bonds of the Mid-Bay Bridge Authority are not outstanding. The Northwest Florida Regional Transportation Finance Authority also assumes all liability for bonds of the Mid-Bay Bridge Authority pursuant to the provisions of subsection (2). The Northwest Florida Regional Transportation Finance Authority may review other contracts, financial obligations, and contractual obligations and liabilities of the Mid-Bay Bridge Authority and may assume legal liability for the obligations that are determined to be necessary for the continued operation of the bridge system.

(2) The transfer pursuant to this section is subject to the terms and covenants provided for the protection of the holders of the Mid-Bay Bridge Authority bonds in the lease-purchase agreement and the resolutions adopted in connection with the issuance of the bonds. Further, the transfer does not impair the terms of the contract between the Mid-Bay Bridge Authority and

the bondholders, does not act to the detriment of the bondholders, and does not diminish the security for the bonds. After the transfer, until the bonds of the Mid-Bay Bridge Authority are fully defeased or paid in full, the department shall operate and maintain the bridge system and any other facilities of the authority in accordance with the terms, conditions, and covenants contained in the bond resolutions and lease-purchase agreement securing the bonds of the bridge authority. The Department of Transportation, as the agent of the Northwest Florida Regional Transportation Finance Authority, shall collect toll revenues and apply them to the payment of debt service as provided in the bond resolution securing the bonds. The Northwest Florida Regional Transportation Finance Authority shall expressly assume all obligations relating to the bonds to ensure that the transfer will have no adverse impact on the security for the bonds of the Mid-Bay Bridge Authority. The transfer does not make the obligation to pay the principal and interest on the bonds a general liability of the Northwest Florida Regional Transportation Finance Authority or pledge the authority system revenues to payment of the Mid-Bay Bridge Authority bonds. Revenues that are generated by the bridge system and other facilities of the Mid-Bay Bridge Authority and that were pledged by the Mid-Bay Bridge Authority to the payment of the bonds remain subject to the pledge for the benefit of the bondholders. The transfer does not modify or eliminate any prior obligation of the Department of Transportation to pay certain costs of the bridge system from sources other than revenues of the bridge system. With regard to the bridge authority's current long-term debt of $9.5 million due to the department as of June

30, 2012, and to the extent permitted by the bond resolutions and lease-purchase agreement securing the bonds, the Northwest Florida Regional Transportation Finance Authority shall make payment annually to the State Transportation Trust Fund, for the purpose of repaying the Mid-Bay Bridge Authority's long-term debt due to the department, from any bridge system revenues obtained under this section which remain after the payment of the costs of operations, maintenance, renewal, and replacement of the bridge system; the payment of current debt service; and other payments required in relation to the bonds. The Northwest Florida Regional Transportation Finance Authority shall make the annual payments, not to exceed $1 million per year, to the State Transportation Trust Fund until all remaining authority long-term debt due to the department has been repaid.

(3) Any remaining toll revenue from the facilities of the Mid-Bay Bridge Authority collected by the Northwest Florida Regional Transportation Finance Authority after meeting the requirements of subsections (1) and (2) shall be used for the construction, maintenance, or improvement of any toll facility of the Northwest Florida Transportation Finance Authority within the county or counties in which the revenue was collected.

Section 57. Section 348.751, Florida Statutes, is amended to read:

348.751 Short title.—This part ~~shall be known and~~ may be cited as the "Central Florida ~~Orlando-Orange County~~ Expressway Authority Law."

Section 58. Section 348.752, Florida Statutes, is amended to read:

348.752 Definitions.—As used in this chapter ~~The following~~

~~terms, whenever used or referred to in this law, shall have the following meanings, except in those instances where the context clearly indicates otherwise~~:

(1) The term "agency of the state" means ~~and includes~~ the state and any department of, or corporation, agency, or instrumentality ~~heretofore or hereafter~~ created, designated, or established by, the state.

(2) The term "authority" means the body politic and corporate, and agency of the state created by this part.

(3) The term "bonds" means ~~and includes~~ the notes, bonds, refunding bonds, or other evidences of indebtedness or obligations, in either temporary or definitive form, which the authority is authorized to issue pursuant to this part.

(4) The term "Central Florida Expressway Authority" means the body politic and corporate, and agency of the state created by this chapter ~~The term "city" means the City of Orlando~~.

(5) The term "Central Florida Expressway System" means any expressway and appurtenant facilities, including all approaches, roads, bridges, and avenues for the expressway and any rapid transit, trams, or fixed guideways located within the right-of-way of an expressway ~~The term "county" means the County of Orange~~.

(6) The term "department" means the Department of Transportation ~~existing under chapters 334-339~~.

(7) The term "expressway" has the same meaning ~~is the same~~ as limited access expressway.

(8) The term "federal agency" means and includes the United States, the President of the United States, and any department of, or corporation, agency, or instrumentality ~~heretofore or~~

~~hereafter~~ created, designated, or established by, the United States.

(9) The term "lease-purchase agreement" means the lease-purchase agreements that ~~which~~ the authority is authorized ~~pursuant to this part~~ to enter into with the Department of Transportation pursuant to this part.

(10) The term "limited access expressway" means a street or highway specifically ~~especially~~ designed for through traffic, and over, from, or to which, a ~~no~~ person does not ~~shall~~ have the right of easement, use, or access except in accordance with the rules of ~~and regulations promulgated and established by~~ the authority governing its use ~~for the use of such facility~~. Such highways or streets may be parkways that do not allow traffic by~~, from which~~ trucks, buses, and other commercial vehicles ~~shall be excluded~~, or ~~they may be~~ freeways open to use by all customary forms of street and highway traffic.

(11) The term ~~"members" means the governing body of the authority, and the term~~ "member" means an individual who serves on the ~~one of the individuals constituting such~~ governing body of the authority.

(12) The term "Orange County gasoline tax funds" means ~~all~~ the revenue derived from the 80-percent surplus gasoline tax funds accruing in each year to the Department of Transportation for use in Orange County under ~~the provisions of~~ s. 9, Art. XII of the State Constitution, after deducting ~~deduction only of~~ any amounts of said gasoline tax funds previously ~~heretofore~~ pledged by the department or the county for outstanding obligations.

~~(13) The term "Orlando-Orange County Expressway System" means any and all expressways and appurtenant facilities~~

~~thereto, including, but not limited to, all approaches, roads, bridges, and avenues of access for said expressway or expressways.~~

(13)~~(14)~~ The term "State Board of Administration" means the body corporate existing under the provisions of s. 9, Art. XII of the State Constitution, or any successor ~~thereto~~.

(14) The term "transportation facilities" means and includes the mobile and fixed assets, and the associated real or personal property or rights, used in the transportation of persons or property by any means of conveyance, and all appurtenances, such as, but not limited to, highways; limited or controlled access lanes, avenues of access, and facilities; vehicles; fixed guideway facilities, including maintenance facilities; and administrative and other office space for the exercise by the authority of the powers and obligations granted in this part.

~~(15) Words importing singular number include the plural number in each case and vice versa, and words importing persons include firms and corporations.~~

Section 59. Section 348.753, Florida Statutes, is amended to read:

348.753 Central Florida ~~Orlando-Orange County~~ Expressway Authority.—

(1) There is ~~hereby~~ created and established a body politic and corporate, an agency of the state, to be known as the Central Florida ~~Orlando-Orange County~~ Expressway Authority.~~,~~ ~~hereinafter referred to as "authority."~~

(2)(a) Effective July 1, 2014, the Central Florida Expressway Authority shall assume the governance and control of

the Orlando-Orange County Expressway Authority System, including its assets, personnel, contracts, obligations, liabilities, facilities, and tangible and intangible property. Any rights in such property, and other legal rights of the authority, are transferred to the Central Florida Expressway Authority. The powers, responsibilities, and obligations of the Orlando-Orange County Expressway Authority shall succeed to and be assumed by the Central Florida Expressway Authority on July 1, 2014.

(b) The transfer pursuant to this subsection is subject to the terms and covenants provided for the protection of the holders of the Orlando-Orange County Expressway Authority bonds in the lease-purchase agreement and the resolutions adopted in connection with the issuance of the bonds. Further, the transfer does not impair the terms of the contract between the Orlando-Orange County Expressway Authority and the bondholders, does not act to the detriment of the bondholders, and does not diminish the security for the bonds. After the transfer, the Central Florida Expressway Authority shall operate and maintain the expressway system and any other facilities of the Orlando-Orange County Expressway Authority in accordance with the terms, conditions, and covenants contained in the bond resolutions and lease-purchase agreement securing the bonds of the authority. The Central Florida Expressway Authority shall collect toll revenues and apply them to the payment of debt service as provided in the bond resolution securing the bonds, and shall expressly assumes all obligations relating to the bonds to ensure that the transfer will have no adverse impact on the security for the bonds. The transfer does not make the obligation to pay the principal and interest on the bonds a

general liability of the Central Florida Expressway Authority or pledge additional expressway system revenues to payment of the bonds. Revenues that are generated by the expressway system and other facilities of the Central Florida Expressway Authority which were pledged by the Orlando-Orange County Expressway Authority to payment of the bonds will remain subject to the pledge for the benefit of the bondholders. The transfer does not modify or eliminate any prior obligation of the department to pay certain costs of the expressway system from sources other than revenues of the expressway system.

(3) ~~(2)~~ The governing body of the authority shall consist of 11 ~~five~~ members. The chairs of the boards of the county commissions of Seminole, Lake, and Osceola Counties shall each appoint one member, who may be a commission member or chair. The Governor shall appoint six citizen members. Of the Governor's appointments, two ~~Three~~ members must ~~shall~~ be citizens of Orange County, one member each must be a citizen of Seminole, Lake, and Osceola Counties, and one member may be a citizen of any of the identified counties ~~who shall be appointed by the Governor~~. The 10th ~~fourth~~ member must ~~shall~~ be~~, ex officio,~~ the Mayor of ~~chair of the County Commissioners of~~ Orange County. The 11th member must be the Mayor of the City of Orlando. The executive director of Florida Turnpike Enterprise shall serve as a nonvoting advisor to the governing body of the authority~~, and the fifth member shall be, ex officio, the district secretary of the Department of Transportation serving in the district that contains Orange County~~. ~~The term of~~ Each ~~appointed~~ member appointed by the Governor shall serve ~~be~~ for 4 years. Each county-appointed member shall serve for 2 years. Standing board

members shall complete their terms. Each appointed member shall hold office until his or her successor has been appointed and has qualified. A vacancy occurring during a term must ~~shall~~ be filled only for the balance of the unexpired term. Each appointed member of the authority shall be a person of outstanding reputation for integrity, responsibility, and business ability, but, except as provided in this subsection, a ~~no~~ person who is an officer or employee of a municipality or ~~any city or of Orange~~ county may not ~~in any other capacity shall~~ be an appointed member of the authority. Any member of the authority is ~~shall be~~ eligible for reappointment.

(4)~~(3)~~(a) The authority shall elect one of its members as chair of the authority. The authority shall also elect one of its members as vice chair, one of its members as ~~a~~ secretary, and one of its members as ~~a~~ treasurer ~~who may or may not be members of the authority~~. The chair, vice chair, secretary, and treasurer shall hold such offices at the will of the authority. Five ~~Three~~ members of the authority ~~shall~~ constitute a quorum, and the vote of five ~~three~~ members is ~~shall be~~ necessary for any action taken by the authority. A ~~No~~ vacancy in the authority does not ~~shall~~ impair the right of a quorum of the authority to exercise all of the rights and perform all of the duties of the authority.

(b) Upon the effective date of his or her appointment, or as soon thereafter as practicable, each appointed member of the authority shall enter upon his or her duties.

(5)~~(4)~~(a) The authority may employ an executive secretary, an executive director, its own counsel and legal staff, technical experts, and the ~~such~~ engineers~~,~~ and ~~such~~ employees

that~~, permanent or temporary, as~~ it requires. The authority ~~may require and~~ may determine the qualifications and fix the compensation of such persons, firms, or corporations, and may employ a fiscal agent or agents~~;, provided,~~ however, ~~that~~ the authority shall solicit sealed proposals from at least three persons, firms, or corporations for the performance of any services as fiscal agents. The authority may delegate to one or more of its agents or employees the ~~such of its~~ power ~~as~~ it deems ~~shall deem~~ necessary to carry out the purposes of this part~~, subject always to the supervision and control of the authority~~. Members of the authority may be removed from ~~their~~ office by the Governor for misconduct, malfeasance, misfeasance, or nonfeasance in office.

(b) Members of the authority are ~~shall be~~ entitled to receive from the authority their travel and other necessary expenses incurred in connection with the business of the authority as provided in s. 112.061, but may not ~~they shall~~ draw ~~no~~ salaries or other compensation.

Section 60. Section 348.754, Florida Statutes, is amended to read:

348.754 Purposes and powers.—

(1)(a) The authority created and established under ~~by the provisions of~~ this part is ~~hereby~~ granted and has ~~shall have~~ the right to acquire, hold, construct, improve, maintain, operate, own, and lease in the capacity of lessor~~,~~ the Central Florida ~~Orlando-Orange County~~ Expressway System, hereinafter referred to as "system." Except as otherwise specifically provided by law, including paragraph (2)(n), the area served by the authority shall be within the geographical boundaries of Orange, Seminole,

Lake, and Osceola Counties.

(b) ~~It is the express intention of this part that said authority,~~ In the construction of the Central Florida ~~said Orlando-Orange County~~ Expressway System, the authority may ~~shall be authorized to~~ construct any extensions, additions, or improvements to the ~~said~~ system or appurtenant facilities, including all necessary approaches, roads, bridges, ~~and~~ avenues of access, rapid transit, trams, fixed guideways, thoroughfares, and boulevards with any ~~such~~ changes, modifications, or revisions of the ~~said~~ project which are ~~as shall be~~ deemed desirable and proper.

(c) Notwithstanding any other provision of this section to the contrary, to ensure the continued financial feasibility of the portion of the Wekiva Parkway to be constructed by the department, the authority may not, without the prior consent of the secretary of the department, construct an extension, addition, or improvement to the expressway system in Lake County.

(2) The authority ~~is hereby granted, and shall have and~~ may exercise all powers necessary, appurtenant, convenient, or incidental to the implementation ~~carrying out~~ of the stated ~~aforesaid~~ purposes, including, but not ~~without being~~ limited to, the following rights and powers:

(a) To sue and be sued, implead and be impleaded, complain and defend in all courts.

(b) To adopt, use, and alter at will a corporate seal.

(c) To acquire by donation or otherwise, purchase, hold, lease as lessee, and use any franchise or any~~,~~ property, real, personal, ~~or~~ mixed, or tangible or intangible, or any options

~~thereof~~ in its own name or in conjunction with others, or interest in those options ~~therein~~, necessary or desirable to carry ~~for carrying~~ out the purposes of the authority, and to sell, lease as lessor, transfer, and dispose of any property or interest in the property ~~therein~~ at any time acquired by it.

(d) To enter into and make leases for terms not exceeding 99 ~~40~~ years, as ~~either~~ lessee or lessor, in order to carry out the right to lease as specified ~~set forth~~ in this part.

(e) To enter into and make lease-purchase agreements with the department for terms not exceeding 99 ~~40~~ years, or until any bonds secured by a pledge of rentals pursuant to the agreement ~~thereunder~~, and any refundings pursuant to the agreement ~~thereof~~, are fully paid as to both principal and interest, whichever is longer. The authority is a party to a lease-purchase agreement between the department and the authority dated December 23, 1985, as supplemented by a first supplement to the lease-purchase agreement dated November 25, 1986, and a second supplement to the lease-purchase agreement dated October 27, 1988. The authority may not enter into other lease-purchase agreements with the department and may not amend the existing agreement in a manner that expands or increases the department's obligations unless the department determines that the agreement or amendment is necessary to permit the refunding of bonds issued before July 1, 2012.

(f) To fix, alter, charge, establish, and collect rates, fees, rentals, and other charges for the services and facilities of the Central Florida ~~Orlando-Orange County~~ Expressway System~~,~~ which must ~~rates, fees, rentals and other charges shall~~ always be sufficient to comply with any covenants made with the holders

of any bonds issued pursuant to this part; ~~provided,~~ however, ~~that~~ such right and power may be assigned or delegated~~,~~ by the authority~~,~~ to the department. Toll revenues attributable to an increase in the toll rates charged on or after July 1, 2014, for the use of a facility or portion of a facility may not be used to construct or expand a different facility unless a two-thirds majority of the members of the authority votes to approve such use. This requirement does not apply if, and to the extent that:

1. Application of the requirement would violate any covenant established in a resolution or trust indenture under which bonds were issued by the Orlando-Orange County Expressway Authority on or before July 1, 2014; or

2. Application of the requirement would cause the authority to be unable to meet its obligations under the terms of the memorandum of understanding between the authority and the department as ratified by the Orlando-Orange County Expressway Authority board on February 22, 2012.

Notwithstanding s. 338.165, and except as otherwise prohibited by this part, to the extent revenues of the expressway system exceed amounts required to comply with any covenants made with the holders of bonds issued pursuant to this part, revenues may be used for purposes enumerated in subsection (6), if the expenditures are consistent with the metropolitan planning organization's adopted long-range plan.

(g) To borrow money, make and issue negotiable notes, bonds, refunding bonds, and other evidences of indebtedness or obligations, either in temporary or definitive form, ~~hereinafter in this chapter sometimes called "bonds" of the authority,~~ for

the purpose of financing all or part of the improvement or extension of the Central Florida ~~Orlando-Orange County~~ Expressway System, and appurtenant facilities, including all approaches, streets, roads, bridges, and avenues of access for the Central Florida ~~said Orlando-Orange County~~ Expressway System and for any other purpose authorized by this part, ~~said bonds to mature in not exceeding 40 years from the date of the issuance thereof,~~ and to secure the payment of such bonds or any part thereof by a pledge of any or all of its revenues, rates, fees, rentals, or other charges, including all or any portion of the Orange County gasoline tax funds received by the authority pursuant to ~~the terms of~~ any lease-purchase agreement between the authority and the department; and in general to provide for the security of the ~~said~~ bonds and the rights and remedies of the holders thereof. ~~Provided,~~ However, ~~that~~ no portion of the Orange County gasoline tax funds may ~~shall~~ be pledged for the construction of any project for which a toll is to be charged unless the anticipated toll is ~~tolls are~~ reasonably estimated by the board of county commissioners, at the date of its resolution pledging the ~~said~~ funds, to be sufficient to cover the principal and interest of such obligations during the period when the ~~said~~ pledge of funds is ~~shall be~~ in effect. The bonds issued under this paragraph must mature not more than 40 years after their issue date.

1. The authority shall reimburse Orange County for any sums expended from the ~~said~~ gasoline tax funds used for the payment of such obligations. Any gasoline tax funds so disbursed must ~~shall~~ be repaid when the authority deems it practicable, together with interest at the highest rate applicable to any

obligations of the authority.

2. If, pursuant to this section, ~~In the event~~ the authority funds ~~shall determine to fund~~ or refunds ~~refund~~ any bonds previously ~~theretofore~~ issued by the ~~said~~ authority~~,~~ or the ~~by said~~ commission before the bonds mature ~~as aforesaid prior to the maturity thereof~~, the proceeds of such funding or refunding must ~~bonds shall~~, pending the prior redemption of these ~~the~~ bonds ~~to be funded or refunded~~, be invested in direct obligations of the United States~~, and it is the express intention of this part that such outstanding bonds may be funded or refunded by the issuance of bonds pursuant to this part~~.

(h) To make contracts ~~of every name and nature~~, including, but not limited to, partnerships providing for participation in ownership and revenues, and to execute all instruments necessary or convenient for conducting ~~the carrying on of~~ its business.

(i) Notwithstanding paragraphs (a)-(h), ~~Without limitation of the foregoing,~~ to borrow money and accept grants from, and to enter into contracts, leases, or other transactions with any federal agency, the state, any agency of the state, the County of Orange, the City of Orlando, or with any other public body of the state.

(j) To have the power of eminent domain, including the procedural powers granted under both chapters 73 and 74.

(k) To pledge, hypothecate, or otherwise encumber ~~all or~~ any part of the revenues, rates, fees, rentals, or other charges or receipts of the authority, including all or any portion of the Orange County gasoline tax funds received by the authority pursuant to the terms of any lease-purchase agreement between the authority and the department, as security for ~~all or~~ any of

the obligations of the authority.

(l) To enter into partnership and other agreements respecting ownership and revenue participation in order to facilitate financing and constructing the Western Beltway, or portions thereof.

(m) To do everything ~~all acts and things~~ necessary or convenient for the conduct of its business and the general welfare of the authority, in order to comply with ~~carry out the powers granted to it by~~ this part or any other law.

(n) With the consent of the county within whose jurisdiction the following activities occur, the authority shall have the right to construct, operate, and maintain roads, bridges, avenues of access, transportation facilities, thoroughfares, and boulevards outside the jurisdictional boundaries of Orange, Seminole, Lake, and Osceola Counties ~~County~~, together with the right to construct, repair, replace, operate, install, and maintain electronic toll payment systems thereon~~, with all necessary and incidental powers to accomplish the foregoing~~.

(3) The authority does not ~~shall~~ have the ~~no~~ power ~~at any time or in any manner~~ to pledge the credit or taxing power of the state or any political subdivision or agency thereof, including any city and any county ~~the City of Orlando and the County of Orange~~, nor may ~~nor shall~~ any of the authority's obligations be deemed to be obligations of the state or of any political subdivision or agency thereof, nor may ~~nor shall~~ the state or any political subdivision or agency thereof, except the authority, be liable for the payment of the principal of or interest on such obligations.

~~(4) Anything in this part to the contrary notwithstanding, acquisition of right-of-way for a project of the authority which is within the boundaries of any municipality in Orange County shall not be begun unless and until the route of said project within said municipality has been given prior approval by the governing body of said municipality.~~

(4)~~(5)~~ The authority has ~~shall have~~ no power other than by consent of an affected ~~Orange~~ county or any affected city, to enter into any agreement which would legally prohibit the construction of a ~~any~~ road by the respective county or city ~~Orange County or by any city within Orange County~~.

(5) The authority shall encourage the inclusion of local-, small-, minority-, and women-owned businesses in its procurement and contracting opportunities.

(6)~~(a)~~ The authority may, within the right-of-way of the expressway system, finance or refinance the planning, design, acquisition, construction, extension, rehabilitation, equipping, preservation, maintenance, or improvement of an intermodal facility or facilities, a multimodal corridor or corridors, or any programs or projects that will improve the levels of service on the expressway system ~~Notwithstanding s. 255.05, the Orlando-Orange County Expressway Authority may waive payment and performance bonds on construction contracts for the construction of a public building, for the prosecution and completion of a public work, or for repairs on a public building or public work that has a cost of $500,000 or less and when the project is awarded pursuant to an economic development program for the encouragement of local small businesses that has been adopted by the governing body of the Orlando-Orange County Expressway~~

~~Authority pursuant to a resolution or policy~~.

~~(b) The authority's adopted criteria for participation in the economic development program for local small businesses requires that a participant:~~

~~1. Be an independent business.~~

~~2. Be principally domiciled in the Orange County Standard Metropolitan Statistical Area.~~

~~3. Employ 25 or fewer full-time employees.~~

~~4. Have gross annual sales averaging $3 million or less over the immediately preceding 3 calendar years with regard to any construction element of the program.~~

~~5. Be accepted as a participant in the Orlando-Orange County Expressway Authority's microcontracts program or such other small business program as may be hereinafter enacted by the Orlando-Orange County Expressway Authority.~~

~~6. Participate in an educational curriculum or technical assistance program for business development that will assist the small business in becoming eligible for bonding.~~

~~(c) The authority's adopted procedures for waiving payment and performance bonds on projects with values not less than $200,000 and not exceeding $500,000 shall provide that payment and performance bonds may only be waived on projects that have been set aside to be competitively bid on by participants in an economic development program for local small businesses. The authority's executive director or his or her designee shall determine whether specific construction projects are suitable for:~~

~~1. Bidding under the authority's microcontracts program by registered local small businesses; and~~

~~2. Waiver of the payment and performance bond.~~

~~The decision of the authority's executive director or deputy executive director to waive the payment and performance bond shall be based upon his or her investigation and conclusion that there exists sufficient competition so that the authority receives a fair price and does not undertake any unusual risk with respect to such project.~~

~~(d) For any contract for which a payment and performance bond has been waived pursuant to the authority set forth in this section, the Orlando-Orange County Expressway Authority shall pay all persons defined in s. 713.01 who furnish labor, services, or materials for the prosecution of the work provided for in the contract to the same extent and upon the same conditions that a surety on the payment bond under s. 255.05 would have been obligated to pay such persons if the payment and performance bond had not been waived. The authority shall record notice of this obligation in the manner and location that surety bonds are recorded. The notice shall include the information describing the contract that s. 255.05(1) requires be stated on the front page of the bond. Notwithstanding that s. 255.05(9) generally applies when a performance and payment bond is required, s. 255.05(9) shall apply under this subsection to any contract on which performance or payment bonds are waived and any claim to payment under this subsection shall be treated as a contract claim pursuant to s. 255.05(9).~~

~~(c) A small business that has been the successful bidder on six projects for which the payment and performance bond was waived by the authority pursuant to paragraph (a) shall be~~

~~ineligible to bid on additional projects for which the payment and performance bond is to be waived. The local small business may continue to participate in other elements of the economic development program for local small businesses as long as it is eligible.~~

~~(f) The authority shall conduct bond eligibility training for businesses qualifying for bond waiver under this subsection to encourage and promote bond eligibility for such businesses.~~

~~(g) The authority shall prepare a biennial report on the activities undertaken pursuant to this subsection to be submitted to the Orange County legislative delegation. The initial report shall be due December 31, 2010.~~

Section 61. Section 348.7543, Florida Statutes, is amended to read:

348.7543 Improvements, bond financing authority for.—Pursuant to s. 11(f), Art. VII of the State Constitution, the Legislature ~~hereby~~ approves for bond financing by the Central Florida ~~Orlando-Orange County~~ Expressway Authority improvements to toll collection facilities, interchanges to the legislatively approved expressway system, and any other facility appurtenant, necessary, or incidental to the approved system. Subject to terms and conditions of applicable revenue bond resolutions and covenants, such costs may be financed in whole or in part by revenue bonds issued pursuant to s. 348.755(1)(a) or (b) whether currently issued or issued in the future, or by a combination of such bonds.

Section 62. Section 348.7544, Florida Statutes, is amended to read:

348.7544 Northwest Beltway Part A, construction authorized;

730310

576-04144A-13

financing.—Notwithstanding s. 338.2275, the Central Florida ~~Orlando-Orange County~~ Expressway Authority may ~~is hereby authorized to~~ construct, finance, operate, own, and maintain that portion of the Western Beltway known as the Northwest Beltway Part A, extending from Florida's Turnpike near Ocoee north to U.S. 441 near Apopka, as part of the authority's 20-year capital projects plan. This project may be financed with any funds available to the authority for such purpose or revenue bonds issued by the Division of Bond Finance of the State Board of Administration on behalf of the authority pursuant to s. 11, Art. VII of the State Constitution and the State Bond Act, ss. 215.57-215.83.

Section 63. Section 348.7545, Florida Statutes, is amended to read:

348.7545 Western Beltway Part C, construction authorized; financing.—Notwithstanding s. 338.2275, the Central Florida ~~Orlando-Orange County~~ Expressway Authority may ~~is authorized to~~ exercise its condemnation powers, construct, finance, operate, own, and maintain that portion of the Western Beltway known as the Western Beltway Part C, extending from Florida's Turnpike near Ocoee in Orange County southerly through Orange and Osceola Counties to an interchange with I-4 near the Osceola-Polk County line, as part of the authority's 20-year capital projects plan. This project may be financed with any funds available to the authority for such purpose or revenue bonds issued by the Division of Bond Finance of the State Board of Administration on behalf of the authority pursuant to s. 11, Art. VII of the State Constitution and the State Bond Act, ss. 215.57-215.83. This project may be refinanced with bonds issued by the authority

730310

576-04144A-13

pursuant to s. 348.755(1)(d).

Section 64. Section 348.7546, Florida Statutes, is amended to read:

348.7546 Wekiva Parkway, construction authorized; financing.—

(1) The Central Florida ~~Orlando-Orange County~~ Expressway Authority may ~~is authorized to~~ exercise its condemnation powers and ~~to~~ construct, finance, operate, own, and maintain those portions of the Wekiva Parkway which are identified by agreement between the authority and the department and which are included as part of the authority's long-range capital improvement plan. The "Wekiva Parkway" means any limited access highway or expressway constructed between State Road 429 and Interstate 4 specifically incorporating the corridor alignment recommended by Recommendation 2 of the Wekiva River Basin Area Task Force final report dated January 15, 2003, and the recommendations of the SR 429 Working Group, which were adopted January 16, 2004. This project may be financed with any funds available to the authority for such purpose or revenue bonds issued by the authority under s. 11, Art. VII of the State Constitution and s. 348.755(1)(b). This section does not invalidate the exercise by the authority of its condemnation powers or the acquisition of any property for the Wekiva Parkway before July 1, 2012.

(2) Notwithstanding any other provision of law ~~to the contrary~~, in order to ensure that funds are available to the department for its portion of the Wekiva Parkway, beginning July 1, 2012, the authority shall repay the expenditures by the department for costs of operation and maintenance of the Central Florida ~~Orlando-Orange County~~ Expressway System in accordance

with the terms of the memorandum of understanding between the authority and the department as ratified by the authority board on February 22, 2012, which requires the authority to pay the department $10 million on July 1, 2012, and $20 million on each successive July 1 until the department has been fully reimbursed for all costs of the Central Florida ~~Orlando-Orange County~~ Expressway System which were paid, advanced, or reimbursed to the authority by the department, with a final payment in the amount of the balance remaining. Notwithstanding any other law ~~to the contrary~~, the funds paid to the department pursuant to this subsection must ~~shall~~ be allocated by the department for construction of the Wekiva Parkway.

(3) The department's obligation to construct its portions of the Wekiva Parkway is contingent upon the timely payment by the authority of the annual payments required of the authority and receipt of all required environmental permits and approvals by the Federal Government.

Section 65. Section 348.7547, Florida Statutes, is amended to read:

348.7547 Maitland Boulevard Extension and Northwest Beltway Part A Realignment construction authorized; financing.—Notwithstanding s. 338.2275, the Central Florida ~~Orlando-Orange County~~ Expressway Authority may ~~is hereby authorized to~~ exercise its condemnation powers, construct, finance, operate, own, and maintain the portion of State Road 414 known as the Maitland Boulevard Extension and the realigned portion of the Northwest Beltway Part A as part of the authority's long-range capital improvement plan. The Maitland Boulevard Extension extends ~~will extend~~ from the current terminus of State Road 414 at U.S. 441

west to State Road 429 in west Orange County. The realigned portion of the Northwest Beltway Part A runs ~~will run~~ from the point at or near where the Maitland Boulevard Extension connects ~~will connect~~ with State Road 429 and proceeds ~~will proceed~~ to the west and then north resulting in the northern terminus of State Road 429 moving farther west before reconnecting with U.S. 441. However, under no circumstances may ~~shall~~ the realignment of the Northwest Beltway Part A conflict with or contradict ~~with~~ the alignment of the Wekiva Parkway as defined in s. 348.7546. This project may be financed with any funds available to the authority for such purpose or revenue bonds issued by the authority under s. 11, Art. VII of the State Constitution and s. 348.755(1)(b).

Section 66. Subsections (2) and (3) of section 348.755, Florida Statutes, are amended to read:

348.755 Bonds of the authority.—

(2) Any ~~such~~ resolution that authorizes ~~or resolutions authorizing~~ any bonds issued under this section ~~hereunder~~ may contain provisions that must ~~which shall~~ be part of the contract with the holders of such bonds, relating ~~as~~ to:

(a) The pledging of ~~all or~~ any part of the revenues, rates, fees, rentals, ~~(~~including ~~all or~~ any portion of the Orange County gasoline tax funds received by the authority pursuant to the terms of any lease-purchase agreement between the authority and the department, or any part thereof~~)~~, or other charges or receipts of the authority, derived by the authority, from the Central Florida ~~Orlando-Orange County~~ Expressway System.

(b) The completion, improvement, operation, extension, maintenance, repair, lease or lease-purchase agreement of the

~~said~~ system, and the duties of the authority and others, including the department~~, with reference thereto~~.

(c) Limitations on the purposes to which the proceeds of the bonds, then or thereafter to be issued, or of any loan or grant by the United States or the state may be applied.

(d) The fixing, charging, establishing, and collecting of rates, fees, rentals, or other charges for use of the services and facilities of the Central Florida ~~Orlando-Orange County~~ Expressway System or any part thereof.

(e) The setting aside of reserves or sinking funds or repair and replacement funds and the regulation and disposition thereof.

(f) Limitations on the issuance of additional bonds.

(g) The terms and provisions of any lease-purchase agreement, deed of trust or indenture securing the bonds, or under which the same may be issued.

(h) Any other or additional agreements with the holders of the bonds which the authority may deem desirable and proper.

(3) The authority may employ fiscal agents as provided by this part or the State Board of Administration of Florida may upon request of the authority act as fiscal agent for the authority in the issuance of any bonds that ~~which~~ may be issued pursuant to this part, and the State Board of Administration may upon request of the authority take over the management, control, administration, custody, and payment of any ~~or all~~ debt services or funds or assets now or hereafter available for any bonds issued pursuant to this part. The authority may enter into any deeds of trust, indentures or other agreements with its fiscal agent, or with any bank or trust company within or without the

state, as security for such bonds, and may, under such agreements, sign and pledge ~~all or~~ any of the revenues, rates, fees, rentals or other charges or receipts of the authority, including ~~all or~~ any portion of the Orange County gasoline tax funds received by the authority pursuant to the terms of any lease-purchase agreement between the authority and the department~~, thereunder~~. Such deed of trust, indenture, or other agreement may contain such provisions as are customary in such instruments, or, as the authority may authorize, including but without limitation, provisions as to:

(a) The completion, improvement, operation, extension, maintenance, repair, and lease of, or lease-purchase agreement relating to the Central Florida ~~Orlando-Orange County~~ Expressway System, and the duties of the authority and others including the department, with reference thereto.

(b) The application of funds and the safeguarding of funds on hand or on deposit.

(c) The rights and remedies of the trustee and the holders of the bonds.

(d) The terms and provisions of the bonds or the resolutions authorizing the issuance of same.

Section 67. Subsections (3) and (4) of section 348.756, Florida Statutes, are amended to read:

348.756 Remedies of the bondholders.—

(3) When a ~~Any~~ trustee is ~~when~~ appointed pursuant to subsection (1) ~~as aforesaid~~, or is acting under a deed of trust, indenture, or other agreement, and whether or not all bonds have been declared due and payable, the trustee is ~~shall be~~ entitled ~~as of right~~ to the appointment of a receiver, who may enter upon

and take possession of the Central Florida ~~Orlando-Orange County~~ Expressway System or the facilities or any part of the system or facilities ~~or parts thereof~~, the rates, fees, rentals, or other revenues, charges, or receipts that ~~from which~~ are, or may be, applicable to the payment of the bonds so in default, and subject to and in compliance with the provisions of any lease-purchase agreement between the authority and the department operate and maintain the same, for and on behalf of and in the name of, the authority, the department, and the bondholders, and collect and receive all rates, fees, rentals, and other charges or receipts or revenues arising therefrom in the same manner as the authority or the department might do, and shall deposit all such moneys in a separate account and apply the same in such manner as the court directs ~~shall direct~~. In any suit, action, or proceeding by the trustee, the fees, counsel fees, and expenses of the trustee, and the ~~said~~ receiver, if any, and all costs and disbursements allowed by the court must ~~shall~~ be a first charge on any rates, fees, rentals, or other charges, revenues, or receipts, derived from the Central Florida ~~Orlando-Orange County~~ Expressway System, or the facilities or services or any part of the system or facilities ~~or parts thereof~~, including payments under any such lease-purchase agreement ~~as aforesaid~~ which ~~said~~ rates, fees, rentals, or other charges, revenues, or receipts ~~shall or~~ may be applicable to the payment of the bonds that are ~~so~~ in default. The ~~Such~~ trustee has ~~shall, in addition to the foregoing, have and possess~~ all of the powers necessary or appropriate for the exercise of any functions specifically set forth in this section ~~herein~~ or incident to the representation of the bondholders in the enforcement and

protection of their rights.

(4) ~~Nothing in~~ This section or any other section of this part does not ~~shall~~ authorize any receiver appointed ~~pursuant hereto~~ for the purpose, subject to and in compliance with the provisions of any lease-purchase agreement between the authority and the department, of operating and maintaining the Central Florida ~~Orlando-Orange County~~ Expressway System or any facilities or part of the system or facilities ~~or parts thereof~~, to sell, assign, mortgage, or otherwise dispose of any of the assets of whatever kind and character belonging to the authority. ~~It is the intention of this part to limit~~ The powers of the ~~such~~ receiver, subject to and in compliance with the provisions of any lease-purchase agreement between the authority and the department, are limited to the operation and maintenance of the Central Florida ~~Orlando-Orange County~~ Expressway System, or any facility, or part ~~or parts~~ thereof, as the court may direct, in the name and for and on behalf of the authority, the department, and the bondholders, and no holder of bonds on the authority nor any trustee, has ~~shall ever have~~ the right in any suit, action, or proceeding at law or in equity, to compel a receiver, nor may ~~shall~~ any receiver be authorized or any court be empowered to direct the receiver to sell, assign, mortgage, or otherwise dispose of any assets ~~of whatever kind or character~~ belonging to the authority.

Section 68. Subsections (1) through (7) of section 348.757, Florida Statutes, are amended to read:

348.757 Lease-purchase agreement.—

(1) ~~In order to effectuate the purposes of this part and as authorized by this part,~~ The authority may enter into a lease-

purchase agreement with the department relating to and covering the former Orlando-Orange County Expressway System.

(2) The ~~Such~~ lease-purchase agreement must ~~shall~~ provide for the leasing of the former Orlando-Orange County Expressway System, by the authority, as lessor, to the department, as lessee, must ~~shall~~ prescribe the term of such lease and the rentals to be paid ~~thereunder~~, and must ~~shall~~ provide that upon the completion of the faithful performance ~~thereunder~~ and the termination of the ~~such~~ lease-purchase agreement, title in fee simple absolute to the former Orlando-Orange County Expressway System as then constituted shall be transferred in accordance with law by the authority, to the state and the authority shall deliver to the department such deeds and conveyances as shall be necessary or convenient to vest title in fee simple absolute in the state.

(3) The ~~Such~~ lease-purchase agreement may include ~~such~~ other provisions, agreements, and covenants that ~~as~~ the authority and the department deem advisable or required, including, but not limited to, provisions as to the bonds to be issued under, and for the purposes of, this part, the completion, extension, improvement, operation, and maintenance of the former Orlando-Orange County Expressway System and the expenses and the cost of operation of the ~~said~~ authority, the charging and collection of tolls, rates, fees, and other charges for the use of the services and facilities of the system ~~thereof~~, the application of federal or state grants or aid that ~~which~~ may be made or given to assist the authority in the completion, extension, improvement, operation, and maintenance of the former Orlando-Orange County ~~Orlando~~ Expressway System,

which the authority is ~~hereby~~ authorized to accept and apply to such purposes, the enforcement of payment and collection of rentals and any other terms, provisions, or covenants necessary, incidental, or appurtenant to the making of and full performance under the ~~such~~ lease-purchase agreement.

(4) The department as lessee under the ~~such~~ lease-purchase agreement, may ~~is hereby authorized to~~ pay as rentals under the agreement ~~thereunder~~ any rates, fees, charges, funds, moneys, receipts, or income accruing to the department from the operation of the former Orlando-Orange County Expressway System and the Orange County gasoline tax funds and may also pay as rentals any appropriations received by the department pursuant to any act of the Legislature of the state heretofore or hereafter enacted; ~~provided,~~ however, this part or the ~~that nothing herein nor in such~~ lease-purchase agreement is not intended to and does not ~~nor shall this part or such lease-purchase agreement~~ require the making or continuance of such appropriations, and ~~nor shall~~ any holder of bonds issued pursuant to this part does not ~~ever~~ have any right to compel the making or continuance of such appropriations.

(5) A ~~No~~ pledge of the ~~said~~ Orange County gasoline tax funds as rentals under a ~~such~~ lease-purchase agreement may not ~~shall~~ be made without the consent of the County of Orange evidenced by a resolution duly adopted by the board of county commissioners of said county at a public hearing held pursuant to due notice thereof published at least once a week for 3 consecutive weeks before the hearing in a newspaper of general circulation in Orange County. The ~~Said~~ resolution, among other things, must ~~shall~~ provide that any excess of the ~~said~~ pledged

gasoline tax funds which is not required for debt service or reserves for the ~~such~~ debt service for any bonds issued by the ~~said~~ authority shall be returned annually to the department for distribution to Orange County as provided by law. Before making any application for a ~~such~~ pledge of gasoline tax funds, the authority shall present the plan of its proposed project to the Orange County planning and zoning commission for its comments and recommendations.

(6) The ~~Said~~ department may ~~shall have power to~~ covenant in any lease-purchase agreement that it will pay all or any part of the cost of the operation, maintenance, repair, renewal, and replacement of the ~~said~~ system, and any part of the cost of completing the ~~said~~ system to the extent that the proceeds of bonds issued ~~therefor~~ are insufficient, from sources other than the revenues derived from the operation of the ~~said~~ system and the ~~said~~ Orange County gasoline tax funds. The ~~said~~ department may also agree to make such other payments from any moneys available to the ~~said~~ commission, the ~~said~~ county, or the ~~said~~ city in connection with the construction or completion of the ~~said~~ system as shall be deemed by the ~~said~~ department to be fair and proper under any ~~such~~ covenants ~~heretofore or hereafter~~ entered into.

(7) The ~~said~~ system must ~~shall~~ be a part of the state road system and the ~~said~~ department may ~~is hereby authorized~~, upon the request of the authority, ~~to~~ expend out of any funds available for the purpose the ~~such~~ moneys, and ~~to~~ use ~~such of~~ its engineering and other forces, as may be necessary ~~and desirable in the judgment of said department~~, for the operation of the ~~said~~ authority and for traffic surveys, borings, surveys,

preparation of plans and specifications, estimates of cost, and other preliminary engineering and other studies; provided, however, that the aggregate amount of moneys expended for the ~~said~~ purposes by the ~~said~~ department do ~~shall~~ not exceed the sum of $375,000.

Section 69. Section 348.758, Florida Statutes, is amended to read:

348.758 Appointment of department as ~~may be appointed~~ agent of authority for construction.—The department may be appointed by the ~~said~~ authority as its agent for the purpose of constructing improvements and extensions to the Central Florida ~~Orlando-Orange County~~ Expressway System and for its ~~the~~ completion ~~thereof~~. In such event, the authority shall provide the department with complete copies of all documents, agreements, resolutions, contracts, and instruments relating thereto and shall request the department to do such construction work, including the planning, surveying, and actual construction of the completion, extensions, and improvements to the Central Florida ~~Orlando-Orange County~~ Expressway System and shall transfer to the credit of an account of the department in the State Treasury ~~of the state~~ the necessary funds, ~~therefor~~ and the department may ~~shall thereupon be authorized, empowered and directed to~~ proceed with such construction and ~~to~~ use the ~~said~~ funds for such purpose in the same manner that it is ~~now~~ authorized to use the funds ~~otherwise provided by law~~ for the ~~its use in~~ construction of roads and bridges.

Section 70. Section 348.759, Florida Statutes, is amended to read:

348.759 Acquisition of lands and property.—

(1) For the purposes of this part, the Central Florida ~~Orlando-Orange County~~ Expressway Authority may acquire private or public property and property rights, including rights of access, air, view, and light, by gift, devise, purchase, or condemnation by eminent domain proceedings, as the authority deems ~~may deem~~ necessary for any of the purposes of this part, including, but not limited to, any lands reasonably necessary for securing applicable permits, areas necessary for management of access, borrow pits, drainage ditches, water retention areas, rest areas, replacement access for landowners whose access is impaired due to the construction of a facility, and replacement rights-of-way for relocated rail and utility facilities; for existing, proposed, or anticipated transportation facilities on the Central Florida ~~Orlando-Orange County~~ Expressway System or in a transportation corridor designated by the authority; or for the purposes of screening, relocation, removal, or disposal of junkyards and scrap metal processing facilities. The authority may ~~shall also have the power to~~ condemn any material and property necessary for such purposes.

(2) The ~~right of eminent domain herein conferred shall be exercised by the~~ authority shall exercise the right of eminent domain in the manner provided by law.

(3) When the authority acquires property for a transportation facility or in a transportation corridor, it is not subject to any liability imposed by chapter 376 or chapter 403 for preexisting soil or groundwater contamination due solely to its ownership. This section does not affect the rights or liabilities of any past or future owners of the acquired property and ~~nor~~ does not ~~it~~ affect the liability of any

governmental entity for the results of its actions which create or exacerbate a pollution source. The authority and the Department of Environmental Protection may enter into interagency agreements for the performance, funding, and reimbursement of the investigative and remedial acts necessary for property acquired by the authority.

Section 71. Section 348.760, Florida Statutes, is amended to read:

348.760 Cooperation with other units, boards, agencies, and individuals.—A ~~Express authority and power is hereby given and granted any~~ county, municipality, drainage district, road and bridge district, school district or any other political subdivision, board, commission, or individual in, or of, the state may ~~to~~ make and enter into with the authority, contracts, leases, conveyances, partnerships, or other agreements pursuant to ~~within the provisions and purposes of~~ this part. The authority may ~~is hereby expressly authorized to~~ make and enter into contracts, leases, conveyances, partnerships, and other agreements with any political subdivision, agency, or instrumentality of the state and any ~~and all~~ federal agencies, corporations, and individuals, for the purpose of carrying out the provisions of this part ~~or with the consent of the Seminole County Expressway Authority, for the purpose of carrying out and implementing part VIII of this chapter~~.

Section 72. Section 348.761, Florida Statutes, is amended to read:

348.761 Covenant of the state.—The state pledges ~~does hereby pledge~~ to, and agrees, with any person, firm or corporation, or federal or state agency subscribing to, or

acquiring the bonds to be issued by the authority for the purposes of this part that the state will not limit or alter the rights that are ~~hereby~~ vested in the authority and the department until all issued bonds and interest ~~at any time issued, together with the interest thereon,~~ are fully paid and discharged insofar as the pledge ~~same~~ affects the rights of the holders of bonds issued pursuant to this part ~~hereunder~~. The state does further pledge to, and agree, with the United States that in the event any federal agency constructs or contributes ~~shall construct or contribute~~ any funds for the completion, extension, or improvement of the Central Florida ~~Orlando-Orange County~~ Expressway System, or any part or portion of the system ~~thereof~~, the state will not alter or limit the rights and powers of the authority and the department in any manner that ~~which~~ would be inconsistent with the continued maintenance and operation of the Central Florida ~~Orlando-Orange County~~ Expressway System or the completion, extension, or improvement of the system ~~thereof~~, or that ~~which~~ would be inconsistent with the due performance of any agreements between the authority and any such federal agency, and the authority and the department shall continue to have and may exercise all powers ~~herein~~ granted in this part, so long as the powers are ~~same shall be~~ necessary or desirable for the carrying out of the purposes of this part and the purposes of the United States in the completion, extension, or improvement of the Central Florida ~~Orlando-Orange County~~ Expressway System, or any part of the system ~~or portion thereof~~.

Section 73. Section 348.765, Florida Statutes, is amended to read:

348.765 This part complete and additional authority.—

(1) The powers conferred by this part are ~~shall be~~ in addition and supplemental to the existing powers of the ~~said~~ board and the department, and this part may ~~shall~~ not be construed as repealing any of the provisions, of any other law, general, special, or local, but to supersede such other laws in the exercise of the powers provided in this part, and to provide a complete method for the exercise of the powers granted in this part. The extension and improvement of the Central Florida ~~said Orlando-Orange County~~ Expressway System, and the issuance of bonds pursuant to this part ~~hereunder~~ to finance all or part of the cost of the system ~~thereof~~, may be accomplished upon compliance with the provisions of this part without regard to or necessity for compliance with the provisions, limitations, or restrictions contained in any other general, special, or local law, including, but not limited to, s. 215.821, and no approval of any bonds issued under this part by the qualified electors or qualified electors who are freeholders in the state or in the ~~said~~ County of Orange, or in the ~~said~~ City of Orlando, or in any other political subdivision of the state, is ~~shall be~~ required for the issuance of such bonds pursuant to this part.

(2) This part does ~~shall~~ not ~~be deemed to~~ repeal, rescind, or modify any other law ~~or laws~~ relating to the ~~said~~ State Board of Administration, the ~~said~~ Department of Transportation, or the Division of Bond Finance of the State Board of Administration, but supersedes any ~~shall be deemed to and shall supersede such other~~ law that is ~~or laws as are~~ inconsistent with the provisions of this part, including, but not limited to, s. 215.821.

Section 74. Subsections (6) and (7) of section 369.317, Florida Statutes, are amended to read:

369.317 Wekiva Parkway.—

(6) The Central Florida ~~Orlando-Orange County~~ Expressway Authority is hereby granted the authority to act as a third-party acquisition agent, pursuant to s. 259.041 on behalf of the Board of Trustees or chapter 373 on behalf of the governing board of the St. Johns River Water Management District, for the acquisition of all necessary lands, property and all interests in property identified herein, including fee simple or less-than-fee simple interests. The lands subject to this authority are identified in paragraph 10.a., State of Florida, Office of the Governor, Executive Order 03-112 of July 1, 2003, and in Recommendation 16 of the Wekiva Basin Area Task Force created by Executive Order 2002-259, such lands otherwise known as Neighborhood Lakes, a 1,587+/-acre parcel located in Orange and Lake Counties within Sections 27, 28, 33, and 34 of Township 19 South, Range 28 East, and Sections 3, 4, 5, and 9 of Township 20 South, Range 28 East; Seminole Woods/Swamp, a 5,353+/-acre parcel located in Lake County within Section 37, Township 19 South, Range 28 East; New Garden Coal; a 1,605+/-acre parcel in Lake County within Sections 23, 25, 26, 35, and 36, Township 19 South, Range 28 East; Pine Plantation, a 617+/-acre tract consisting of eight individual parcels within the Apopka City limits. The Department of Transportation, the Department of Environmental Protection, the St. Johns River Water Management District, and other land acquisition entities shall participate and cooperate in providing information and support to the third-party acquisition agent. The land acquisition process authorized

by this paragraph shall begin no later than December 31, 2004. Acquisition of the properties identified as Neighborhood Lakes, Pine Plantation, and New Garden Coal, or approval as a mitigation bank shall be concluded no later than December 31, 2010. Department of Transportation and Central Florida ~~Orlando-Orange County~~ Expressway Authority funds expended to purchase an interest in those lands identified in this subsection shall be eligible as environmental mitigation for road construction related impacts in the Wekiva Study Area. If any of the lands identified in this subsection are used as environmental mitigation for road-construction-related impacts incurred by the Department of Transportation or Central Florida ~~Orlando-Orange County~~ Expressway Authority, or for other impacts incurred by other entities, within the Wekiva Study Area or within the Wekiva parkway alignment corridor, and if the mitigation offsets these impacts, the St. Johns River Water Management District and the Department of Environmental Protection shall consider the activity regulated under part IV of chapter 373 to meet the cumulative impact requirements of s. 373.414(8)(a).

(a) Acquisition of the land described in this section is required to provide right-of-way for the Wekiva Parkway, a limited access roadway linking State Road 429 to Interstate 4, an essential component in meeting regional transportation needs to provide regional connectivity, improve safety, accommodate projected population and economic growth, and satisfy critical transportation requirements caused by increased traffic volume growth and travel demands.

(b) Acquisition of the lands described in this section is also required to protect the surface water and groundwater

resources of Lake, Orange, and Seminole counties, otherwise known as the Wekiva Study Area, including recharge within the springshed that provides for the Wekiva River system. Protection of this area is crucial to the long term viability of the Wekiva River and springs and the central Florida region's water supply. Acquisition of the lands described in this section is also necessary to alleviate pressure from growth and development affecting the surface and groundwater resources within the recharge area.

(c) Lands acquired pursuant to this section that are needed for transportation facilities for the Wekiva Parkway shall be determined not necessary for conservation purposes pursuant to ss. 253.034(6) and 373.089(5) and shall be transferred to or retained by the Central Florida ~~Orlando-Orange County~~ Expressway Authority or the Department of Transportation upon reimbursement of the full purchase price and acquisition costs.

(7) The Department of Transportation, the Department of Environmental Protection, the St. Johns River Water Management District, Central Florida ~~Orlando-Orange County~~ Expressway Authority, and other land acquisition entities shall cooperate and establish funding responsibilities and partnerships by agreement to the extent funds are available to the various entities. Properties acquired with Florida Forever funds shall be in accordance with s. 259.041 or chapter 373. The Central Florida ~~Orlando-Orange County~~ Expressway Authority shall acquire land in accordance with this section of law to the extent funds are available from the various funding partners, but shall not be required nor assumed to fund the land acquisition beyond the agreement and funding provided by the various land acquisition

entities.

Section 75. Subsection (1) of section 369.324, Florida Statutes, is amended to read:

369.324 Wekiva River Basin Commission.—

(1) The Wekiva River Basin Commission is created to monitor and ensure the implementation of the recommendations of the Wekiva River Basin Coordinating Committee for the Wekiva Study Area. The East Central Florida Regional Planning Council shall provide staff support to the commission with funding assistance from the Department of Economic Opportunity. The commission shall be comprised of a total of 18 ~~19~~ members appointed by the Governor, 9 of whom shall be voting members and 9 ~~10~~ shall be ad hoc nonvoting members. The voting members shall include:

(a) One member of each of the Boards of County Commissioners for Lake, Orange, and Seminole Counties.

(b) One municipal elected official to serve as a representative of the municipalities located within the Wekiva Study Area of Lake County.

(c) One municipal elected official to serve as a representative of the municipalities located within the Wekiva Study Area of Orange County.

(d) One municipal elected official to serve as a representative of the municipalities located within the Wekiva Study Area of Seminole County.

(e) One citizen representing an environmental or conservation organization, one citizen representing a local property owner, a land developer, or an agricultural entity, and one at-large citizen who shall serve as chair of the council.

(f) The ad hoc nonvoting members shall include one

representative from each of the following entities:

1. St. Johns River Management District.

2. Department of Economic Opportunity.

3. Department of Environmental Protection.

4. Department of Health.

5. Department of Agriculture and Consumer Services.

6. Fish and Wildlife Conservation Commission.

7. Department of Transportation.

8. MetroPlan Orlando.

9. Central Florida ~~Orlando-Orange County~~ Expressway Authority.

~~10. Seminole County Expressway Authority.~~

Section 76. (1) Effective upon the completion of construction of the Poinciana Parkway, a limited access facility of approximately 9 miles in length in Osceola County with its northwestern terminus at the intersection of County Road 54 and US 17/US 92 and its southeastern terminus at the current intersection of Rhododendron and Cypress Parkway, described in the Osceola County Expressway Authority May 8, 2012, Master Plan, all powers, governance, and control of the Osceola County Expressway System, created pursuant to part V, chapter 348, Florida Statutes, is transferred to the Central Florida Expressway Authority, and the assets, liabilities, facilities, tangible and intangible property and any rights in the property, and any other legal rights of the Osceola County Expressway Authority are transferred to the Central Florida Expressway Authority. The effective date of such transfer shall be extended until completion of construction of such portions of the Southport Connector Expressway, the Northeast Connector

Expressway, such portions of the Poinciana Parkway to connect to State Road 429, and the Osceola Parkway Extension, as each is described in the Osceola County Expressway Authority May 8, 2012, Master Plan, which are included in any design contract executed by the Osceola County Expressway Authority before July 1, 2019. Part V of chapter 348, Florida Statutes, consisting of ss. 348.9950-348.9961, is repealed on the same date that the Osceola County Expressway System is transferred to the Central Florida Expressway Authority.

(2) The Central Florida Expressway Authority shall also reimburse any and all obligations of any other governmental entities with respect to the Osceola County Expressway System, including any obligations of Osceola County with respect to operations and maintenance of the Osceola County Expressway System and any loan repayment obligations, including repayment obligations with respect to State Infrastructure Bank loans. Such reimbursement shall be made from revenues available for such purpose after payment of all amounts required:

(a) Otherwise by law;

(b) By the terms of any resolution authorizing the issuance of bonds by the authority, the Orlando-Orange County Expressway Authority, or the Osceola County Expressway Authority;

(c) By the terms of any resolution under which bonds are issued by Osceola County for the purpose of constructing improvements to the Osceola County Expressway System; and

(d) By the terms of the memorandum of understanding between the Orlando-Orange County Expressway Authority and the department as ratified by the board of the Orlando-Orange County Expressway Authority on February 22, 2012.

Section 77. Section 373.4137, Florida Statutes, is amended to read:

373.4137 Mitigation requirements for specified transportation projects.—

(1) The Legislature finds that environmental mitigation for the impact of transportation projects proposed by the Department of Transportation or a transportation authority established pursuant to chapter 348 or chapter 349 can be more effectively achieved by regional, long-range mitigation planning rather than on a project-by-project basis. It is the intent of the Legislature that mitigation to offset the adverse effects of these transportation projects be funded by the Department of Transportation and be carried out by the use of mitigation banks and any other mitigation options that satisfy state and federal requirements in a manner that promotes efficiency, timeliness in project delivery, and cost-effectiveness.

(2) Environmental impact inventories for transportation projects proposed by the Department of Transportation or a transportation authority established pursuant to chapter 348 or chapter 349 shall be developed as follows:

(a) By July 1 of each year, the Department of Transportation, or a transportation authority established pursuant to chapter 348 or chapter 349 which chooses to participate in the program, shall submit to the water management districts a list of its projects in the adopted work program and an environmental impact inventory of habitat impacts and the anticipated amount of mitigation needed to offset impacts as described in paragraph (b). The environmental impact inventory must be based on ~~habitats addressed in~~ the rules adopted

pursuant to this part, ~~and~~ s. 404 of the Clean Water Act, 33 U.S.C. s. 1344, and ~~which may be impacted by~~ the Department of Transportation's ~~its~~ plan of construction for transportation projects in the next 3 years of the tentative work program. The Department of Transportation or a transportation authority established pursuant to chapter 348 or chapter 349 may also include in its environmental impact inventory the habitat impacts and the anticipated amount of mitigation needed for ~~of~~ any future transportation project. The Department of Transportation and each transportation authority established pursuant to chapter 348 or chapter 349 may fund any mitigation activities for future projects using current year funds.

(b) The environmental impact inventory must ~~shall~~ include a description of ~~these~~ habitat impacts, including ~~their~~ location, acreage, and type; the anticipated amount of mitigation needed based on the functional loss as determined through the Uniform Mitigation Assessment Method (UMAM) adopted in Chapter 62-345, F.A.C.; identification of the proposed mitigation option; state water quality classification of impacted wetlands and other surface waters; any other state or regional designations for these habitats; and a list of threatened species, endangered species, and species of special concern affected by the proposed project.

(c) Before projects are identified for inclusion in a water management district mitigation plan as described in subsection (4), the Department of Transportation must consider using credits from a permitted mitigation bank. The Department of Transportation must consider availability of suitable and sufficient mitigation bank credits within the transportation

project's area, ability to satisfy commitments to regulatory and resource agencies, availability of suitable and sufficient mitigation purchased or developed through this section, ability to complete existing water management district or Department of Environmental Protection suitable mitigation sites initiated with Department of Transportation mitigation funds, and ability to satisfy state and federal requirements including long-term maintenance and liability.

(3)(a) To implement the mitigation option ~~fund development and implementation of the mitigation plan for the projected impacts~~ identified in the environmental impact inventory described in subsection (2), the Department of Transportation may purchase credits for current and future use directly from a mitigation bank; purchase mitigation services through the water management districts or the Department of Environmental Protection; conduct its own mitigation; or use other mitigation options that meet state and federal requirements. ~~shall identify funds quarterly in an escrow account within the State Transportation Trust Fund for the environmental mitigation phase of projects budgeted by~~ Funding for the identified mitigation option as described in the environmental impact inventory must be included in the Department of Transportation's work program developed pursuant to s. 339.135 ~~for the current fiscal year~~. ~~The escrow account shall be maintained by the Department of Transportation for the benefit of the water management districts. Any interest earnings from the escrow account shall remain with the Department of Transportation.~~ The amount programmed each year by the Department of Transportation and participating transportation authorities established pursuant to

chapter 348 or chapter 349 must correspond to an estimated cost per credit of $150,000 multiplied by the projected number of credits identified in the environmental impact inventory described in subsection (2). This estimated cost per credit will be adjusted every 2 years by the Department of Transportation based on the average cost per UMAM credit paid through this section.

(b) Each transportation authority established pursuant to chapter 348 or chapter 349 that chooses to participate in this program shall create an escrow account within its financial structure and deposit funds in the account to pay for the environmental mitigation phase of projects budgeted for the current fiscal year. The escrow account shall be maintained by the authority for the benefit of the water management districts. Any interest earnings from the escrow account shall remain with the authority.

(c) For mitigation implemented by the water management district or the Department of Environmental Protection, as appropriate, the amount paid each year must be based on mitigation services provided by the water management districts or Department of Environmental Protection pursuant to an approved water management district plan, as described in subsection (4). ~~Except for current mitigation projects in the monitoring and maintenance phase and except as allowed by paragraph (d),~~ The water management districts or the Department of Environmental Protection, as appropriate, may request payment ~~a transfer of funds from an escrow account~~ no sooner than 30 days before the date the funds are needed to pay for activities associated with development or implementation of ~~the~~ permitted

mitigation meeting the requirements pursuant to this part, 33 U.S.C. s. 1344, and 33 C.F.R. s. 332, in the approved mitigation plan described in subsection (4) for the current fiscal year.~~,~~ ~~including, but not limited to, design, engineering, production, and staff support. Actual conceptual plan preparation costs incurred before plan approval may be submitted to the Department of Transportation or the appropriate transportation authority each year with the plan. The conceptual plan preparation costs of each water management district will be paid from mitigation funds associated with the environmental impact inventory for the current year. The amount transferred to the escrow accounts each year by the Department of Transportation and participating transportation authorities established pursuant to chapter 348 or chapter 349 shall correspond to a cost per acre of $75,000 multiplied by the projected acres of impact identified in the environmental impact inventory described in subsection (2). However, the $75,000 cost per acre does not constitute an admission against interest by the state or its subdivisions and is not admissible as evidence of full compensation for any property acquired by eminent domain or through inverse condemnation. Each July 1, the cost per acre shall be adjusted by the percentage change in the average of the Consumer Price Index issued by the United States Department of Labor for the most recent 12-month period ending September 30, compared to the base year average, which is the average for the 12-month period ending September 30, 1996.~~ Each quarter, the projected amount of mitigation must ~~acreage of impact shall~~ be reconciled with the actual amount of mitigation needed for ~~acreage of impact of~~ projects as permitted, including permit modifications, pursuant

to this part and s. 404 of the Clean Water Act, 33 U.S.C. s. 1344. The subject year's programming ~~transfer~~ of funds shall be adjusted ~~accordingly~~ to reflect the mitigation ~~acreage of impacts~~ as permitted. ~~The Department of Transportation and participating transportation authorities established pursuant to chapter 348 or chapter 349 are authorized to transfer such funds from the escrow accounts to the water management districts to carry out the mitigation programs. Environmental mitigation funds that are identified for or maintained in an escrow account for the benefit of a water management district may be released if the associated transportation project is excluded in whole or part from the mitigation plan. For a mitigation project that is in the maintenance and monitoring phase, the water management district may request and receive a one-time payment based on the project's expected future maintenance and monitoring costs.~~ If the water management district excludes a project from an approved water management district mitigation plan, cannot timely permit a mitigation site to offset the impacts of a Department of Transportation project identified in the environmental impact inventory, or if the proposed mitigation does not meet state and federal requirements, the Department of Transportation may use the associated funds for the purchase of mitigation bank credits or any other mitigation option that satisfies state and federal requirements. Upon final ~~disbursement of the final maintenance and monitoring~~ payment for mitigation of a transportation project as permitted, the obligation of the Department of Transportation or the participating transportation authority is satisfied and the water management district or the Department of Environmental

Protection, as appropriate, will have continuing responsibility for the mitigation project.~~, the escrow account for the project established by the Department of Transportation or the participating transportation authority may be closed. Any interest earned on these disbursed funds shall remain with the water management district and must be used as authorized under this section.~~

(d) Beginning with the March 2014 water management district mitigation plans, ~~in the 2005-2006 fiscal year,~~ each water management district or the Department of Environmental Protection, as appropriate, shall invoice the Department of Transportation for mitigation services to offset only the impacts of a Department of Transportation project identified in the environmental impact inventory, including planning, design, construction, maintenance and monitoring, and other costs necessary to meet requirements pursuant to this section, 33 U.S.C. s. 1344, and 33 C.F.R. s. 332 ~~be paid a lump-sum amount of $75,000 per acre, adjusted as provided under paragraph (c), for federally funded transportation projects that are included on the environmental impact inventory and that have an approved mitigation plan. Beginning in the 2009-2010 fiscal year, each water management district shall be paid a lump-sum amount of $75,000 per acre, adjusted as provided under paragraph (c), for federally funded and nonfederally funded transportation projects that have an approved mitigation plan. All mitigation costs, including, but not limited to, the costs of preparing conceptual plans and the costs of design, construction, staff support, future maintenance, and monitoring the mitigated acres shall be funded through these lump-sum amounts.~~ If the water management

district identifies the use of mitigation bank credits to offset a Department of Transportation impact, the water management district shall exclude that purchase from the mitigation plan, and the Department of Transportation must purchase the bank credits.

(e) For mitigation activities occurring on existing water management district or Department of Environmental Protection mitigation sites initiated with Department of Transportation mitigation funds before July 1, 2013, the water management district or Department of Environmental Protection shall invoice the Department of Transportation or a participating transportation authority at a cost per acre of $75,000 multiplied by the projected acres of impact as identified in the environmental impact inventory. The cost per acre must be adjusted by the percentage change in the average of the Consumer Price Index issued by the United States Department of Labor for the most recent 12-month period ending September 30, compared to the base year average, which is the average for the 12-month period ending September 30, 1996. When implementing the mitigation activities necessary to offset the permitted impacts as provided in the approved mitigation plan, the water management district shall maintain records of the costs incurred in implementing the mitigation. The records must include, but are not limited to, costs for planning, land acquisition, design, construction, staff support, long-term maintenance and monitoring of the mitigation site, and other costs necessary to meet the requirements of 33 U.S.C. s. 1344 and 33 C.F.R. s. 332.

(f) For purposes of preparing and implementing the mitigation plans to be adopted by the water management districts

on or before March 1, 2013, for impacts based on the July 1, 2012, environmental impact inventory, the funds identified in the Department of Transportation's work program or participating transportation authorities' escrow accounts must correspond to a cost per acre of $75,000 multiplied by the project acres of impact as identified in the environmental impact inventory. The cost per acre shall be adjusted by the percentage change in the average of the Consumer Price Index issued by the United States Department of Labor for the most recent 12-month period ending September 30, compared to the base year average, which is the average for the 12-month period ending September 30, 1996. Payment as provided under this paragraph is limited to those mitigation activities that are identified in the first year of the 2013 mitigation plan and for which the transportation project is permitted and is in the Department of Transportation's adopted work program, or equivalent for a transportation authority. When implementing the mitigation activities necessary to offset the permitted impacts as provided in the approved mitigation plan, the water management district shall maintain records of the costs incurred in implementing the mitigation. The records must include, but are not limited to, costs for planning, land acquisition, design, construction, staff support, long-term maintenance and monitoring of the mitigation site, and other costs necessary to meet the requirements of 33 U.S.C. s. 1344 and 33 C.F.R. s. 332. To the extent moneys paid to a water management district by the Department of Transportation or a participating transportation authority exceed the amount expended by the water management districts in implementing the mitigation to offset the permitted

impacts, these funds must be refunded to the Department of Transportation or participating transportation authority. This paragraph expires June 30, 2014.

(4) Before March 1 of each year, each water management district shall develop a mitigation plan to offset only the impacts of transportation projects in the environmental impact inventory for which a water management district is implementing mitigation that meets the requirements of this section, 33 U.S.C. s. 1344, and 33 C.F.R. s. 332. The water management-district mitigation plan must be developed~~,~~ in consultation with the Department of Environmental Protection, the United States Army Corps of Engineers, the Department of Transportation, participating transportation authorities established pursuant to chapter 348 or chapter 349, and other appropriate federal, state, and local governments, and other interested parties, including entities operating mitigation banks~~, shall develop a plan for the primary purpose of complying with the mitigation requirements adopted pursuant to this part and 33 U.S.C. s. 1344~~. In developing such plans, the water management districts shall use sound ecosystem management practices to address significant water resource needs and consider ~~shall focus on~~ activities of the Department of Environmental Protection and the water management districts, such as surface water improvement and management (SWIM) projects and lands identified for potential acquisition for preservation, restoration, or enhancement, and the control of invasive and exotic plants in wetlands and other surface waters, to the extent that the activities comply with the mitigation requirements adopted under this part, ~~and~~ 33 U.S.C. s. 1344, and 33 C.F.R. s. 332. The

water management district mitigation plan must identify each site where the water management district will mitigate for a transportation project. For each mitigation site, the water management district shall provide the scope of the mitigation services, provide the functional gain as determined through the UMAM per Chapter 62-345, F.A.C., describe how the mitigation offsets the impacts of each transportation project as permitted, and provide a schedule for the mitigation services. The water management districts shall maintain records of costs incurred and payments received for providing these services. Records must include, but are not limited to, planning, land acquisition, design, construction, staff support, long-term maintenance and monitoring of the mitigation site, and other costs necessary to meet the requirements of 33 U.S.C. s. 1344 and 33 C.F.R. s. 332. To the extent monies paid to a water management district by the Department of Transportation or a participating transportation authority exceed the amount expended by the water management districts in providing the mitigation services to offset the permitted transportation project impacts, these monies must be refunded to the Department of Transportation or participating transportation authority ~~In determining the activities to be included in the plans, the districts shall consider the purchase of credits from public or private mitigation banks permitted under s. 373.4136 and associated federal authorization and shall include the purchase as a part of the mitigation plan when the purchase would offset the impact of the transportation project, provide equal benefits to the water resources than other mitigation options being considered, and provide the most cost-effective mitigation option~~. The mitigation plan shall be

submitted to the water management district governing board, or its designee, for review and approval. At least 14 days before approval by the governing board, the water management district shall provide a copy of the draft mitigation plan to the Department of Environmental Protection and any person who has requested a copy. Subsequent to governing board approval, the mitigation plan must be submitted to the Department of Environmental Protection for approval. The plan may not be implemented until it is submitted to and approved, in part or in its entirety, by the Department of Environmental Protection.

~~(a) For each transportation project with a funding request for the next fiscal year, the mitigation plan must include a brief explanation of why a mitigation bank was or was not chosen as a mitigation option, including an estimation of identifiable costs of the mitigation bank and nonbank options and other factors such as time saved, liability for success of the mitigation, and long-term maintenance.~~

(a) ~~(b)~~ Specific projects may be excluded from the mitigation plan, in whole or in part, and are not subject to this section upon the election of the Department of Transportation, a transportation authority if applicable, or the appropriate water management district. The Department of Transportation or a participating transportation authority may not exclude a transportation project from the mitigation plan when mitigation is scheduled for implementation by the water management district in the current fiscal year, except when the transportation project is removed from the Department of Transportation's work program or transportation authority funding plan, the mitigation cannot be timely permitted to

offset the impacts of a Department of Transportation project identified in the environmental impact inventory, or the proposed mitigation does not meet state and federal requirements. If a project is removed from the work program or the mitigation plan, costs expended by the water management district prior to removal are eligible for reimbursement by the Department of Transportation or participating transportation authority.

(b) ~~(c)~~ When determining which projects to include in or exclude from the mitigation plan, the Department of Transportation shall investigate using credits from a permitted mitigation bank before those projects are submitted for inclusion in a water management district mitigation ~~the~~ plan. ~~The investigation shall consider the cost-effectiveness of mitigation bank credits, including, but not limited to, factors such as time saved, transfer of liability for success of the mitigation, and long-term maintenance.~~ The Department of Transportation shall exclude a project from the mitigation plan if the investigation undertaken pursuant to this paragraph results in the conclusion that the use of credits from a permitted mitigation bank promotes efficiency, timeliness in project delivery, cost-effectiveness, and transfer of liability for success and long-term maintenance.

(5) The water management district shall ensure that mitigation requirements pursuant to 33 U.S.C. s. 1344 and 33 C.F.R. s. 332 are met for the impacts identified in the environmental impact inventory for which the water management district will implement mitigation described in subsection (2), by implementation of the approved mitigation plan described in

subsection (4) to the extent funding is provided by the Department of Transportation, or a transportation authority established pursuant to chapter 348 or chapter 349, if applicable. In developing and implementing the mitigation plan, the water management district shall comply with federal permitting requirements pursuant to 33 U.S.C. s. 1344 and 33 C.F.R. s. 332. During the federal permitting process, the water management district may deviate from the approved mitigation plan in order to comply with federal permitting requirements upon notice and coordination with the Department of Transportation or participating transportation authority.

(6) The water management district mitigation plans shall be updated annually to reflect the most current Department of Transportation work program and project list of a transportation authority established pursuant to chapter 348 or chapter 349, if applicable, and may be amended throughout the year to anticipate schedule changes or additional projects which may arise. Before amending the mitigation plan to include new projects, the Department of Transportation shall consider mitigation banks and other available mitigation options that meet state and federal requirements. Each update and amendment of the mitigation plan shall be submitted to the governing board of the water management district or its designee for approval. However, such approval shall not be applicable to a deviation as described in subsection (5).

(7) Upon approval by the governing board of the water management district and the Department of Environmental Protection ~~or its designee~~, the mitigation plan shall be deemed to satisfy the mitigation requirements under this part for

impacts specifically identified in the environmental impact inventory described in subsection (2) and any other mitigation requirements imposed by local, regional, and state agencies for these same impacts. The approval of the governing board of the water management district ~~or its designee~~ and the Department of Environmental Protection shall authorize the activities proposed in the mitigation plan, and no other state, regional, or local permit or approval shall be necessary.

(8) This section shall not be construed to eliminate the need for the Department of Transportation or a transportation authority established pursuant to chapter 348 or chapter 349 to comply with the requirement to implement practicable design modifications, including realignment of transportation projects, to reduce or eliminate the impacts of its transportation projects on wetlands and other surface waters as required by rules adopted pursuant to this part, or to diminish the authority under this part to regulate other impacts, including water quantity or water quality impacts, or impacts regulated under this part that are not identified in the environmental impact inventory described in subsection (2).

~~(9) The process for environmental mitigation for the impact of transportation projects under this section shall be available to an expressway, bridge, or transportation authority established under chapter 348 or chapter 349. Use of this process may be initiated by an authority depositing the requisite funds into an escrow account set up by the authority and filing an environmental impact inventory with the appropriate water management district. An authority that initiates the environmental mitigation process established by~~

~~this section shall comply with subsection (6) by timely providing the appropriate water management district with the requisite work program information. A water management district may draw down funds from the escrow account as provided in this section.~~

Section 78. Section 373.618, Florida Statutes, is amended to read:

373.618 Public service warnings, alerts, and announcements.—The Legislature believes it is in the public interest that each ~~all~~ water management district ~~districts~~ created pursuant to s. 373.069 own, acquire, develop, construct, operate, and manage public information systems. Public information systems may be located on property owned by the water management district, upon terms and conditions approved by the water management district, and must display messages to the general public concerning water management services, activities, events, and sponsors, as well as other public service announcements, including watering restrictions, severe weather reports, amber alerts, and other essential information needed by the public. Local government review or approval is not required for a public information system owned or hereafter acquired, developed, or constructed by the water management district on its own property. A public information system is exempt from the requirements of chapter 479; however, a public information system that is subject to the Highway Beautification Act of 1965 must be approved by the Department of Transportation and the Federal Highway Administration if required by federal law and federal regulation under the agreement between the state and the United States Department of Transportation, and federal

regulations enforced by the Department of Transportation under s. 479.02(1). Water management district funds may not be used to pay the cost to acquire, develop, construct, operate, or manage a public information system. Any necessary funds for a public information system shall be paid for and collected from private sponsors who may display commercial messages.

Section 79. Subsection (3) of section 341.052, Florida Statutes, is amended to read:

341.052 Public transit block grant program; administration; eligible projects; limitation.—

(3) The following limitations shall apply to the use of public transit block grant program funds:

(a) State participation in eligible capital projects shall be limited to 50 percent of the nonfederal share of such project costs.

(b) State participation in eligible public transit operating costs may not exceed 50 percent of such costs or an amount equal to the total revenue, excluding farebox, charter, and advertising revenue and federal funds, received by the provider for operating costs, whichever amount is less.

(c) No eligible public transit provider shall use public transit block grant funds to supplant local tax revenues made available to such provider for operations in the previous year; however, the Secretary of Transportation may waive this provision for public transit providers located in a county recovering from a state of emergency declared pursuant to part I of chapter 252.

(d) Notwithstanding any law to the contrary, no eligible public transit provider shall use public transit block grant

funds in pursuit of strategies or actions leading to or promoting the levying of new or additional taxes through public referenda. To the extent that a public transit provider uses other public funds in pursuit of strategies or actions leading to or promoting the levying of new or additional taxes through public referenda, the amount of the provider's grant must be reduced by the same amount. As used in this paragraph, the term "public funds" means all moneys under the jurisdiction or control of a federal agency, the state, a county, or a municipality, including any district, authority, commission, board, or agency thereof for any public purpose.

(e) The state may not give any county more than 39 percent of the funds available for distribution under this section or more than the amount that local revenue sources provide to that transit system.

Section 80. Except as otherwise expressly provided in this act, this act shall take effect upon becoming law.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 1132
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Transportation, Tourism, and Economic Development); Community Affairs Committee; and Senator Brandes
SUBJECT:	Department of Transportation
DATE:	April 25, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Price	Eichin	TR	**Fav/7 amendments**
2.	Anderson	Yeatman	CA	**Fav/CS**
3.	Price	Martin	ATD	**Fav/CS**
4.		Hansen	AP	**Fav/CS**
5.				
6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/CS/SB 1132 makes a number of revisions to statutes addressing the functions and responsibilities of the Florida Department of Transportation (FDOT or department) and various transportation issues.

The bill contains several issues that will impact state revenues, most of which have an indeterminate or negligible fiscal impact. Please see Section V.

The bill:

- Extends the Florida Transportation Commission's oversight of expressway and bridge authorities to regional transportation finance authorities created under a new ch. 345, F.S., and repeals provisions relating to the Florida Statewide Passenger Rail Commission.
- Establishes the FDOT as the agency responsible for administering the small county dredging program and sunsets the program on July 1, 2018.

- Authorizes attachment of a forklift to the rear of the cargo bed of a straight truck if the overall combined length of the vehicle and the forklift does not exceed 50 feet.
- Provides funding for space transportation projects from the State Transportation Trust Fund (STTF).
- Authorizes the FDOT to fund up to 100 percent of the cost of strategic airport investment projects under specified conditions.
- Prohibits the FDOT from entering into any lease-purchase agreement with any expressway authority, regional transportation authority, or other entity and preserves existing lease-purchase agreements.
- Directs the FDOT to enter into an interlocal agreement with the City of Miami for a five-year pilot program under which the city assumes street cleaning, landscaping, and maintenance responsibilities of the right-of-way of a certain portion of Brickell Avenue and directs the Florida Transportation Commission to conduct a study to evaluate the effectiveness and benefits of the pilot program.
- Authorizes the FDOT to improve and maintain a city or county road that is part of the city or county road system and which maintains access to a state park;
- Authorizes a county to receive solicited and unsolicited proposals from a private entity to construct, extend, or improve a county road and to enter into public-private partnership agreements for such a project.
- Revises the terms and conditions under which the FDOT may sell or lease properties acquired for transportation rights-of-way.
- Amends the process that the FDOT must follow relating to proposals to enter into a lease of the FDOT property for joint public-private development or commercial development.
- Revises provisions relating to the uses of fees generated from certain tolls to include the design and construction of a fire station; revises provisions relating to the transfer of certain excess revenues; and removes authority of a water management district to issue bonds or notes which pledge excess toll revenues.
- Revises provisions relating to metropolitan planning organization (MPO) designation to conform language to federal law, provides a cap on the number of voting members of an MPO re-designated as specified, provides that certain authorities or agencies in metropolitan areas may be provided voting membership on the MPO, and makes editorial changes to eliminate redundancy and provide clarity.
- Authorizes Enterprise Florida, Inc., to be a consultant to the FDOT for consideration of expenditures associated with and contracts for economic development transportation projects and revises the requirements for those project contracts between the FDOT and a governmental entity.
- Repeals the Transportation Corporation Act and other obsolete provisions related to the Act.
- Includes projects that provide intermodal connectivity with spaceports as eligible for loans from the State-funded Infrastructure Bank.
- Expands eligibility of intercity bus companies to compete for federal and state program funding.
- Revises the types of eligible projects and criteria of the Intermodal Development Program.
- Renames and reconfigures the Northwest Florida Transportation Corridor Authority as the Northwest Florida Regional Transportation Finance Authority and revises related provisions.

- Creates the Florida Regional Transportation Finance Authority Act in a new chapter 345, F.S., authorizing counties to form a regional tollway authority that can construct, maintain, and operate transportation projects in a region of the state.
-
- Creates the Santa Rosa-Escambia Regional Transportation Finance Authority and the Suncoast Regional Transportation Finance Authority.
- Provides for the transfer of the governance and control of the Mid-Bay Bridge Authority System to the Northwest Florida Regional Transportation Finance Authority.
- Renames and reconfigures the Orlando-Orange County Expressway Authority as the Central Florida Expressway Authority and revises related provisions.
- Transfers all powers, governance, and control of the Osceola County Expressway System to the Central Florida Expressway Authority upon completion of construction of the Poinciana Parkway, with provision for extension of the transfer date, and repeals part V of chapter 348, F.S., on the same date that the Osceola County Expressway System is transferred to the Central Florida Expressway Authority.
- Revises provisions relating to mitigation of the environmental impacts of transportation projects.
- Requires public information systems located on water management district property to be approved by the FDOT and the Federal Highway Administration if approval is required by federal law.
- Prohibits the use of public block grant funds to pursue or promote the levy of new or additional taxes through public referenda.
- Repeals obsolete language, clarifies ambiguous language, and makes editorial, grammatical, and conforming changes.
- Requires the Florida Transportation Commission to conduct a study of the potential for the state to obtain revenue from parking meters or other parking time-limit devices within or along the right-of-way limits of a state road.
- Makes it unlawful for any used tire retailer to sell unsafe used tires for the purpose of mounting on a vehicle.
- Provides effective dates.

This bill amends the following sections of the Florida Statutes: 20.23, 110.205, 311.22, 316.515, 316.545, 331.360, 334.044, 335.0415, 335.06, 337.11, 337.14, 337.168, 337.25, 337.251, 338.161, 338.165, 338.26, 339.175, 339.2821, 339.55, 341.031, 341.053, 343.80, 343.805, 343.81, 343.82, 343.83, 343.835, 343.84, 343.85, 343.875, 343.89, 343.922, 343.922, 348.751, 348.752, 348.753, 348.754, 348.7543, 348.7544, 348.7545, 348.7546, 348.7547, 348.755, 348.756, 348.757, 348.758, 348.759, 348.760, 348.761, 348.765, 369.317, 369.324, 373.4137, 373.618, and 341.052.

The bill repeals the following sections of the Florida Statutes: 11.45(3)(m), 316.530(3), 339.401, 339.402, 339.403, 339.404, 339.405, 339.406, 339.407, 339.408, 339.409, 339.410, 339.411, 339.412, 339.414, 339.415, 339.416, 339.417, 339.418, 339.419, 339.420, 339.421.

The bill creates the following sections of the Florida Statutes: 332.007(11), 336.71, and chapter 345, consisting of the following sections of the Florida Statutes: 345.0001, 345.0002, 345.0003,

345.0004, 345.0005, 345.0006, 345.0007, 345.0008, 345.0009, 345.0010, 345.0011, 345.0012, 345.0013, 345.0014, 345.0015, and 345.0016.

II. Present Situation:

Florida Transportation Corporation Act and Related Audit Authority

Sections 339.401 through 339.421, F.S., create the "Florida Transportation Corporation Act." This act was created in 1988[1] to allow certain nonprofit corporations authorized by the FDOT to act on FDOT's behalf in assisting with project planning and design, assembling right-of-way and financial support, and generally promoting projects included in the FDOT's adopted five-year work program. The act contains various statutory provisions related to the formation, operation, and dissolution of these corporations.

Among the specific activities of transportation corporations authorized under the act are:

- Acquiring, holding, investing, and administering property and transferring title to the FDOT for project development;
- Performing preliminary and final alignment studies;
- Receiving contributions of land for right-of-way and case donations to be applied to the purchase of right-of-way or design and construction projects; and,
- Making official presentations to groups concerning the project and issuing press releases and promotional materials.

Florida transportation corporations cannot issue bonds and are not empowered to enter into construction contracts or to undertake construction. They are enabled to otherwise borrow money or accept donations to help defray expenses or needs associated with the corporation or a particular transportation project.

According to the FDOT, after a limited number of inquiries immediately following passage of the act, the FDOT has received no further requests for information or other indications of interest in the act, and the provisions of the act have never been used. As a result, the Auditor General's authority to audit corporations acting on behalf of the FDOT in s. 11.45(3)(m), F.S., has never been exercised, and the provisions of Fla. Admin. Code Rule Chapter 14-35, which implement the act, have never been applied.

Overlapping Responsibility for Passenger Rail Systems

Florida Transportation Commission

The Florida Transportation Commission (FTC) has long been charged with periodically reviewing the status of the state transportation system, including rail and other component modes, and with recommending system improvements to the Governor and the Legislature. Beginning in 2007, the Legislature also directed the FTC in s. 20.23(2)(b)8., F.S., to:

[1] s. 3, ch. 88-271, Laws of Florida.

> Monitor the efficiency, productivity, and management of the authorities created under chapters 348 and 349, F.S.,[2] including any authority formed using the provisions of part I of ch. 348, F.S., and any authority formed under ch. 343, F.S., which is not monitored under subsection (3). The commission shall also conduct periodic reviews of each authority's operations and budget, acquisition of property, management of revenue and bond proceeds, and compliance with applicable laws and generally accepted accounting principles.

The only publicly funded passenger rail system in the state (Tri-Rail) then and now existing is operated by the South Florida Regional Transportation Authority, which is established in ch. 343, F.S.

Florida Statewide Passenger Rail Commission (FSPRC)

In 2009, the Florida Legislature provided a statutory framework for enhancing the consideration of passenger rail as a modal choice in the development and operation of Florida's transportation network.[3] The Legislature created the Florida Rail Enterprise, modeled after the Florida Turnpike Enterprise, to coordinate the development and operation of passenger rail services statewide, and established the FSPRC to monitor, advise, and review publicly-funded passenger rail systems.[4]

Specifically, and similar to the duty of the FTC, the Legislature charged the FSPRC in s. 20.23(3)(b)1., F.S., with the function of:

> Monitoring the efficiency, productivity, and management of all publicly funded passenger rail systems in the state, including, but not limited to, any authority created under chapters 343, 349, or 163, F.S., if the authority receives public funds for the provision of passenger rail service. The commission shall advise each monitored authority of its findings and recommendations. The commission shall also conduct periodic reviews of each monitored authority's passenger rail and associated transit operations and budget, acquisition of property, management of revenue and bond proceeds, and compliance with applicable laws and generally accepted accounting principles. The commission may seek the assistance of the Auditor General in conducting such reviews and shall report the findings of such reviews to the Legislature. This paragraph does not preclude the Florida Transportation Commission from conducting its performance and work program monitoring responsibilities.

[2] Chapter 343, F.S., entities include the South Florida Regional Transportation Authority, the Central Florida Regional Transportation Authority, the Northwest Florida Transportation Corridor Authority, and the Tampa Bay Area Regional Transportation Authority. Chapter 348, F.S., entities include the Miami-Dade Expressway Authority, the Tampa-Hillsborough County Expressway Authority, the Orlando-Orange County Expressway Authority, the Santa Rosa Bay Bridge Authority, and the Osceola County Expressway Authority. Chapter 349, F.S., establishes the Jacksonville Transportation Authority.

[3] Chapter 2011-271, L.O.F.

[4] The first phase (31 miles) of a commuter rail project, SunRail, – an eventual 61-mile stretch of existing rail freight tracks through Orange, Seminole, Volusia and Osceola counties and the City of Orlando -- is under construction, and service could begin as early as 2014.

State Public Transportation and Modal Administrator

Recognizing the significant role played by freight mobility as an economic driver for the state, the FDOT recently created an Office of Freight, Logistics, and Passenger Operations, and the 2012 Legislature directed the FDOT to develop a Freight Mobility and Trade Plan to assist in making freight mobility investments that contribute to the economic growth of the state.[5] As part of its focus on freight and intermodal issues, the FDOT requested approval from the Department of Management Services (DMS) to change the title of an existing Senior Management Service class position, from State Public Transportation and Modal Administrator, to State Freight and Logistics Administrator.[6] The DMS approved the requested change on September 2, 2011.

Small County Dredging Program

The Small County Dredging Program was created by the Legislature in 2005 assist in financing certain dredging improvements at small ports in counties with a population of less than 300,000 persons based on the last official United States Census, but which were not eligible for existing Florida Seaport Transportation and Economic Development (FSTED) funding.[7] Under the program, funding is authorized for dredging or deepening of channels, turning basins, or harbors on a 25-percent local matching basis with any port authority[8] that meets environmental permitting and other specified criteria. There are at least seven entities meeting the definition of "port authority" in counties with less than 300,000 population: the Panama City Port Authority; the Citrus County Port Authority; the Port St. Joe Port Authority; the Hernando County Port Authority; the Ocean, Highway, and Port Authority (Nassau County); the Putnam County Port Authority; and the St. Lucie County Port Authority.

The program was initially funded with a $5 million appropriation to the State Transportation Trust Fund to provide a 50-percent state match. An additional $9.2 million was provided in the 2006-2007 General Appropriations Acts to provide a 75-percent state match. No further funding has been provided to the program.

Straight Truck Maximum Length Limits

Current s. 316.515(3)(a), F.S., currently limits a straight truck (*e.g., concrete mixers, garbage trucks, etc.)* to 40 feet in extreme overall dimension, exclusive of certain safety and energy conservation devices. According to an FDOT analysis,[9] 29 states in the nation also adhere to a 40-foot maximum straight truck length, while nine of the twelve states who are members of the Southeastern Association of State Highway and Transportation Officials (SASHTO) have the same maximum length of 40 feet.

[5] Chapter 2012-174, L.O.F.
[6] Section 110.205(2)(j), F.S.
[7] Section 311.22, F.S.
[8] Defined in s. 315.02(2), F.S., to mean any port authority in Florida created by or pursuant to the provisions of any general or special law or any district or board of county commissioners acting as a port authority under or pursuant to the provisions of any general or special law.
[9] *Review of Straight Truck Maximum Length Limits*, FDOT Traffic Engineering and Operation s Office, February 14, 2008. On file in the Senate Transportation Committee.

In its analysis of the turning movements and maneuverability of straight trucks, the study notes:

> "Wheel base will affect the turning capability of straight trucks as they mix with the traffic stream and perform turning maneuvers. Another consideration is rear overhang. Although an increase in maximum extreme length could be achieved by not adding to the wheel base, increasing rear overhang could itself create safety issues for traffic in adjacent lanes as the truck turns and the overhang encroaches into adjacent lanes. Increase in vehicle length could affect the ability of vehicles to stay within their lanes on curves and to negotiate intersections and freeway interchanges. Longer lengths would increase difficulty maneuvering in urban areas because of the greater vehicle lengths, and potential delays at intersections and other locations caused by the larger off tracking."

Further, the study concludes:

> "Many of the states that do allow straight truck lengths over 40 feet are rural west or mid-western states where traffic volumes are low and gaps are prevalent. Due to increasing congestion in Florida, maneuvering a straight truck in excess of 40 feet may provide unwanted side effects and disruptions to traffic. Currently, it can be observed at some intersections that vehicles at the stop bar must back up to allow a long straight truck to make its turn. In addition, long straight trucks can routinely be seen taking a portion of an adjacent lane in order to perform their turning maneuvers. In congested areas, these types of maneuvers can be troublesome."

Finally, the study recommends:

> "In the absence of conclusive data that longer straight trucks in the Florida traffic environment pose no adverse effects, the current 40 foot standard should be retained. The majority of the trips made by straight trucks are generally local trips requiring many turning maneuvers in combination with mixed traffic. Maintaining maximum length consistency with the majority of our SASHTO partners is also recommended."

Wrecker Permits/Disabled Vehicles

Current s. 316.515(8), F.S., allows wreckers to tow disabled vehicles when the combination of wrecker and towed vehicle are over legal weight, provided that the wrecker is operating under a special use permit. This provision was passed during the 1997 session. During the same session, s. 316.550(5), F.S., was passed to authorize the FDOT to issue such overweight permits.[10] However, s. 316.530(3), F.S., (originally passed as s. 316.205(3) in 1976) which allows wreckers to tow disabled vehicles when the combination of wrecker and towed vehicle are over the legal weight without a special use permit, was inadvertently overlooked and still remains in current law, despite the direct conflict with subsequently passed legislation.

As the 1997 changes rendered the provisions of s. 316.530(3), F.S., obsolete, the last-passed provisions of s. 316.515(8), F.S., and s. 316.550(5), F.S., have been enforced since that time.

[10] These changes are consistent with federal law, specifically 23 U.S.C. 127(a) and 23 C.F.R. 658.17, which authorize states to permit nondivisible loads and vehicles (defined to include emergency response vehicles) exceeding maximum weight limits upon the issuance of special permits in accordance with state law.

Commercial Motor Vehicles/Auxiliary Power Units

Section 756 of the Energy Policy Act of 2005, "Idle Reduction and Energy Conservation Deployment Program," amended 23 U.S.C. 127(a)(12) to allow for a national 400-pound exemption on the maximum weight limit on the interstate system for the additional weight of idling reduction technology ("auxiliary power units" or "APUs")[11] on heavy-duty vehicles. Section 316.545(3)(c), F.S., was created by the 2010 Legislature to provide for a 400-pound reduction in the gross weight of commercial motor vehicles equipped with idling reduction technology when calculating a penalty for exceeding maximum weight limits. The reauthorized Federal-aid highway program, Moving Ahead for Progress in the 21st Century (MAP-21) further amended 23 U.S.C. 127(a)(12) to increase from 400 to 550 pounds the allowable exemption for additional weight of APUs.

Space Transportation Facilities

The FDOT and Space Florida are currently authorized to enter into a joint participation agreement to effectuate the provisions of ch. 331, F.S., and the FDOT is authorized to allocate funds for such purposes in its five-year work program. The FDOT is prohibited from funding the administrative or operational costs of Space Florida.

Space Florida is required to develop a spaceport master plan for expansion and modernization of space transportation facilities within defined spaceport territories, containing recommended projects, and is required to submit the plan to the FDOT. The FDOT may include the plan within the FDOT's five-year work program of qualifying aerospace discretionary capacity improvement projects and is authorized to participate in the capital cost of eligible spaceport discretionary capacity improvement projects, subject to the availability of appropriated funds. The plan is required to identify appropriate funding levels and include recommendations on appropriate sources of revenue that may be developed to contribute to the STTF. The FDOT's annual LBR must be based on the proposed funding requested for approved spaceport discretionary capacity improvement projects.[12]

The FDOT Adopted Work Program included $16 million for spaceport projects in both Fiscal Year 2011-2012 and Fiscal Year 2012-2013. The FDOT Final Tentative Work Program for Fiscal Years 2014-2018 includes $20 million for Space Florida transportation projects in each of the five years.[13]

[11] An APU is a portable, truck-mounted system that can provide climate control and power for trucks without idling, keeping drivers comfortable during resting periods while reducing negative economic impact (fuel costs) and environmental impact (greenhouse gases and other pollutants, as well as noise).

[12] "Spaceport discretionary capacity improvement projects" is defined in s. 331.303(21), F.S., to mean capacity improvements that enhance space transportation capacity at spaceports that have had one or more orbital or suborbital flights during the previous calendar year or have an agreement in writing for installation of one or more regularly scheduled orbital or suborbital flights upon the commitment of funds for stipulated spaceport capital improvements.

[13] FDOT email, February 7, 2013, on file in the Senate Transportation Committee.

State Aviation Program

Section 332.007, F.S., requires the FDOT to prepare and continuously update an aviation and airport work program that separately identifies development projects and discretionary capacity improvement projects. Subject to the availability of appropriated funds, FDOT is authorized to participate in the capital cost of eligible public airport and aviation development projects,[14] unless otherwise directed as specified, at percentage rates that vary depending on factors such as available federal funding. The FDOT is also authorized, subject to the availability of appropriated funds in addition to aviation fuel tax revenues, to participate in the capital cost of eligible public airport and aviation discretionary capacity improvement projects,[15] again at percentage rates that vary. The FDOT notes that the Legislature created a Strategic Investment Initiative within its Seaport Office during the 2012 Legislative Session and that the FDOT does not have a similar investment initiative or authority for the Aviation Program.

Toll Authorities/Lease-Purchase Agreements

In addition to the FDOT, various authorities are currently operating toll facilities and collecting and reinvesting toll revenues. Aside from Florida's Turnpike Enterprise (which is part of the FDOT), most, but not all, of the toll authorities are established under ch. 348, F.S., entitled "Expressway and Bridge Authorities." Various sections of ch. 348, F.S., provide the toll authorities the ability to enter into lease-purchase agreements with the FDOT. In addition to authorities created under ch. 348, F.S., two transportation authorities are authorized under ch. 343, F.S., to enter into lease-purchase agreements with the FDOT, and a bridge authority established by special act of the Legislature is similarly authorized. The FDOT has entered into lease-purchase agreements with some, but not all, of these authorities.

The FDOT is authorized to enter these agreements by s. 334.044, F.S. Additionally, s. 339.08(1)(g), F.S., allows the FDOT to lend or pay a portion of the operation and maintenance (O&M) and capital costs of any revenue-producing transportation project located on the SHS or that is demonstrated to relieve traffic congestion on the SHS. The FDOT pays such costs using funds from the STTF.

In a typical lease-purchase agreement between the FDOT and a toll authority, the FDOT, as lessee, agrees to pay the O&M (which usually includes replacement and renewal, or the R&R) costs of the associated toll facility. Upon completion of the lease-purchase agreement, ownership of the facility would be transferred to the State and the FDOT would retain all revenues collected, as well as the O&M responsibility.

As required by existing agreements, the FDOT paid $9.2 million in the O&M expenses in FY 2011-2012 and an additional $32.8 million in the R&R expenses, periodic maintenance, and toll equipment capital costs, on behalf of the authorities. These funds accrue to an authority's long-term debt owed to the FDOT. When the O&M and the R&R expenses are not reimbursed by the toll authority on a current basis, *e.g.*, monthly or annually, the STTF monetary advances are

[14] In short, defined in s. 332.004(4), F.S., as "…any activity associated with the design, construction, purchase, improvement, or repair of a public-use airport or portion thereof…."
[15] Defined in s. 332.004(5), F.S., as "…capacity improvements … which enhance intercontinental capacity at [specified] airports…."

added to the authority's long-term debt due to the FDOT. As of June 30, 2012, debt owed to FDOT from various toll authorities for expenses paid totaled approximately $419.7 million.

Roadside Enhancement and Maintenance Requirements

The FDOT is responsible for enhancing environment benefits, preventing roadside erosion, conserving natural roadside growth and scenery, and providing for the implementation and maintenance of roadside conservation, enhancement, and stabilization programs.[16] The FDOT is required to purchase all plant materials from Florida commercial nursery stock on a uniform competitive basis. This provision conflicts with federal requirements that specify a state transportation department cannot require the use of materials produced in state or restrict the use of materials produced out of state.[17] Failure to comply with federal requirements for purchases of plant material for roadside landscaping may subject the FDOT to a significant federal funds penalty, generally 10 percent of annual highway constructions funds.[18]

State Highway System Maintenance

The FDOT is currently authorized to enter into contracts with counties and municipalities to perform routine maintenance work on the State Highway System within the appropriate boundaries.[19] Each county or municipality that completes the work to the standards of the contract as agreed to by the FDOT is entitled to receive payment or reimbursement from the FDOT.

Access to State Park Roads

Section 335.06, F.S., currently requires the FDOT to maintain any road that is part of the State Highway System and provides access to property within the state park system. Local governments are required to maintain roads that are part of the county road or city street system.

Public-private Agreements for Transportation Facilities

The FDOT currently has a public-private partnership program in place.[20] The Florida Legislature declared that there is a public need for rapid construction of safe and efficient transportation facilities for the purpose of travel within the state, and that it is in the public's interest to provide for the construction of additional safe, convenient, and economical transportation facilities.[21]

Florida law provides that a private transportation facility constructed pursuant to s. 334.30, F.S., must comply with all requirements of federal, state, and local laws; state, regional, and local comprehensive plans; FDOT rules, policies, procedures, and standards for transportation facilities; and any other conditions that the FDOT determines to be in the public's best interest.[22]

[16] *See* s. 334.044(26), F.S.
[17] See 23 C.F.R. s. 635.409.
[18] *See* 23 U.S.C. s. 131(b).
[19] Section 335.055, F.S,
[20] *See* s. 334.30, F.S.
[21] Section 334.30, F.S.
[22] Section 334.30(3), F.S.

Current law allows the FDOT to advance projects programmed in the adopted five-year work program using funds provided by public-private partnerships or private entities to be reimbursed from FDOT funds for the project.[23] In accomplishing this, the FDOT may use state resources to participate in funding and financing the project as provided for under the FDOT's enabling legislation for projects on the State Highway System.[24]

The FDOT may receive or solicit proposals and, with legislative approval as evidenced by approval of the project in the department's work program, enter into agreements with private entities, or consortia thereof, for the building, operation, ownership, or financing of transportation facilities.[25] If the FDOT receives an unsolicited solicitation or proposal, it is required to publish a notice in the Florida Administrative Register and a newspaper of general circulation stating that the FDOT has received the proposal and it will accept other proposals for the same project.[26] In addition, the FDOT requires an initial payment of $50,000 accompany any unsolicited proposal to cover the costs of evaluating the proposal.[27]

Current law governing the FDOT's public-private agreements provides for a solicitation process that is similar to the Consultants' Competitive Negotiation Act.[28] The FDOT may request proposals from private entities for public-private transportation projects.[29] The partnerships must be qualified by the FDOT as part of the procurement process outlined in the procurement documents.[30] These procurement documents must include provisions for performance of the private entity and payment of subcontractors, including surety bonds, letters of credit, parent company guarantees, and lender and equity partner guarantees.[31] The FDOT must rank the proposals in the order of preference.[32]

The FDOT may then begin negotiations with the top firm. If that negotiation is unsuccessful, the FDOT must terminate negotiations and move to the second-ranked firm; and, if unsuccessful again, the FDOT must move to the third-ranked firm.[33] The FDOT must provide independent analyses of the proposed public-private partnership that demonstrates the cost effectiveness and overall public benefit prior to moving forward with the procurement and prior to awarding the contract.[34]

Current law authorizes FDOT to use innovative finance techniques associated with public-private partnerships, including federal loans, commercial bank loans, and hedges against

[34] Section 334.30(6)(e), F.S.

inflation from commercial banks or other private sources.[35] Public-private partnership agreements under s. 334.30, F.S., must be limited to a term not to exceed 50 years. In addition, FDOT may not utilize more than 15 percent of total federal and state funding in any given year to fund public-private partnership projects.[36]

Vehicle Registration/FDOT Contractors

Section 320.02(1), F.S., provides that every owner or person in charge of a motor vehicle operated or driven on the roads of this state shall register the vehicle in this state, except as otherwise provided. Section 320.37, F.S., provides that the registration requirement (and license plate display requirements) does not apply to a motor vehicle owned by a nonresident if the nonresident has complied with the registration law of the foreign country, state, territory, or federal district of the owner's residence. However, s. 320.38, F.S., provides that if a nonresident accepts employment or engages in any trade, profession, or occupation in this state, the nonresident must register his or her motor vehicle in this state within 10 days after beginning such employment.

Section 337.11(13), F.S., requires each road or bridge construction or maintenance contract let by the FDOT to contain a provision requiring the contractor to provide proof to the FDOT, in the form of a notarized affidavit from the contractor, that all motor vehicles that he or she operates or causes to be operated in this state are registered in compliance with ch. 320, F.S.

Transportation Projects/Prequalification/Bidding

Section 337.14(1), F.S., requires that persons "…desiring to bid for the performance of any construction contract in excess of $250,000 which the department proposes to let must first be certified by the department as qualified…." Section 337.14(2), F.S., provides: "Certification shall be necessary in order to bid on a road, bridge, or public transportation construction contract of more than $250,000." The purpose of certification is to ensure professional and financial competence relating to the performance of construction contracts by evaluating bidders "…with respect to equipment, past record, experience, financial resources, and organizational personnel of the applicant necessary to perform the specific class of work for which the person seeks certification."

This language could be interpreted as being tied to a bid amount, *i.e.*, so long as the *bid* is not in excess of $250,000, a person would not be required to first be certified prior to bidding. The FDOT's bid solicitation notices, however, currently advise: "A prequalified contractor must have a current certificate of qualification in accordance with Rule Chapter 14-22, F.A.C., on the date of the letting to bid on construction projects over $250,000 as established by the Department's budget." Consequently, persons seeking to bid on construction contracts in excess of $250,000 are currently required to be qualified on the date of the letting.

For comparison, revisions to s. 337.14(1), F.S., during the last legislative session with respect to financial statements submitted in connection with the performance of construction contracts of

[35] Section 334.30(7), F.S.
[36] Section 334.30(12), F.S.

less than $1 million expressly tied that submission to proposed budget estimates, rather than to the bid amount.

Public Records/Identities of Potential Bidders

Section 337.168(2), F.S., currently provides that a document revealing the identity of persons who have requested or obtained bid packages, plans, or specifications pertaining to any project to be let by the department is confidential and exempt from the provisions of s. 119.07(1), F.S., for the period which begins 2 working days prior to the deadline for obtaining bid packages, plans, or specifications and ends with the letting of the bid. The FDOT maintains a website that posts a list of persons who have requested or obtained bid packages, plans, or specifications for a given project.[37] The list is removed from the website two working days prior to the deadline for obtaining bid packages, plans, or specifications.

The Florida Transportation Builders' Association advises that small contractors need and rely on access to the identities of potential bidders that are not made exempt under s. 337.168(2), F.S., for the purpose of submitting sub-contract bids to general contractors for their use in preparing bids for the FDOT projects.

Disposal and Lease of Real and Personal Property

The FDOT is authorized to purchase, lease, exchange, or otherwise acquire any land, property interests, buildings or other improvements necessary for rights-of-way for existing or anticipated transportation facilities on the State Highway System, on the State Park Road System, or in an FDOT designated rail or transportation corridor. The FDOT may also accept donations of land, building, or other improvements for transportation rights-of-way and may compensate an entity by providing replacement facilities when the land, building, or other improvements are needed for transportation purposes but are held by a federal, state, or local governmental entity and used for public purposes other than transportation.[38]

The FDOT is required to conduct a complete inventory of all real or personal property immediately upon acquisition, including an itemized listing of all appliances, fixtures, and other severable items, a statement of the location or site of each piece of realty, structure, or severable item, and the serial number assigned to each.[39] The FDOT must evaluate the inventory of real property which has been owned for at least 10 years and which is not within a transportation corridor or the right-of-way of a transportation facility. If the property is not located within a transportation corridor or is not needed for a transportation facility, FDOT is authorized to dispose of the property.[40] According to the FDOT, 85 percent of its currently-owned surplus property is valued at under $50,000.

[37] http://www.dot.state.fl.us/cc-admin/Letting_Project_Info.shtm: Retrieved March 1, 2013. To access a list, click on a letting date in the near future under "2013 Lettings" and then choose "Proposal Holders" under "Important Letting Documents."
[38] Section 337.25(1), F.S.
[39] Section 337.25(2), F.S.
[40] Section 337.25(3), F.S.

Sale of Property

The FDOT is authorized to sell any land, building, or other real or personal property it acquired if the FDOT determines the property is not needed for a transportation facility.[41] The FDOT is required to first offer the property ("first right of refusal") to the local government in whose jurisdiction the property is located, with the following exceptions:

- If in the FDOT's discretion, public sale would be inequitable, the sale of the property may be negotiated, at no less than fair market value as determined by an independent appraisal, with the owner holding title to abutting property.[42]
- Property acquired for use as a borrow pit may be sold at no less than fair market value to the owner of abutting land from which the pit was originally acquired, if the pit is no longer needed.[43]
- Property acquired by a county or the FDOT using constitutional gas tax funds for right of way or borrow pit may be conveyed to a county without consideration if the property is no longer used or needed by the FDOT, and the county may sell the property on receipt of competitive bids.[44]
- Property donated to the state for transportation purposes, on which a facility as not been constructed for at least 5 years, and for which no plans for construction of a facility have been prepared, and that is not located on a transportation corridor, may be re-conveyed to the original donor of the property by a governmental entity[45]
- Property which was originally acquired for persons displaced by transportation projects provided the state receives no less than its investment in the properties, or fair market value, whichever is lower. The FDOT may negotiate the sale of property as replacement housing only to persons actually displaced by a project. Dispositions to any other person must be for fair market value. [46]

Once the FDOT determines the property is not needed for a transportation facility and has extended and received rejection of required first rights of refusal, FDOT is also authorized to:

- Negotiate the sale of property if its value is $10,000 or less as determined by FDOT estimate;[47]
- Sell the property to the highest bidder through "due advertisement" of receipt of sealed competitive bids or by public auction if its value exceeds $10,000 as determined by the FDOT estimate;[48]
- Determine the fair market value of property through appraisal conducted by an FDOT appraiser, if the FDOT begins the process for disposing of property on its own initiative,

[41] Section 337.25(4), F.S.
[42] Section 337.25(4)(c), F.S.
[43] Section 337.25(4)(d), F.S.
[44] Section 337.25(4)(f), F.S.
[45] Section 337.25(4)(g), F.S.
[46] Section 337.25(4)(i), F.S.
[47] Section 337.25(4)(a), F.S.
[48] Section 337.25(4)(b), F.S.

either by authorized negotiation or by authorized receipt of sealed competitive bids or public auction;[49]
- Convey the property without consideration to a governmental entity if the property is to be used for a public purpose;[50] and
- Use the projected maintenance costs of the property over the next five years to offset the market value in establishing a value for disposal of the property, even if that value is zero, if the FDOT determines that the property will require significant costs to be incurred or that continued ownership of the property exposes the FDOT to significant liability risks.[51]

Lease of Property

The FDOT is further authorized to convey a leasehold interest for commercial or other purposes to any acquired land, building, or other property, real or personal, subject to the following:[52] the FDOT may negotiate a lease at the prevailing market value with the owner from whom the property was acquired, with the holders of leasehold estates existing at the time of the FDOT's acquisition, or, if public bidding would be inequitable, with the owner of privately owned abutting property, after reasonable notice to all other abutting property owners.[53] All other leases must be by competitive bid,[54] and limited to five years; however the FDOT may renegotiate a lease for an additional five year term without rebidding. Each lease must require that any improvements made to the property during the lease term be removed at the lessee's expense.[55] Property that is to be used for a public purpose, including a fair, art show, or other educational, cultural , or fundraising activity may be leased at no cost to a governmental entity or school board.[56]If property is to be used for a public purpose, including a fair, art show, or other educational, cultural, or fundraising activity, the property may be leased without consideration to a governmental entity or school board. The FDOT may enter into a long-term lease agreement without compensation with certain public ports for rail corridors used in the operation of a short-line railroad to the port.[57]

The appraisals currently required under s. 337.25(4)(c) and (d), F.S., must be prepared in accordance with the FDOT guidelines and rules by an independent appraiser certified by the FDOT. When "due advertisement" is required, an advertisement in a newspaper of general circulation in the area of the improvements of not less than 14 calendar days prior to the date of the receipt of bids or the date on which a public auction is to be held satisfies the requirement.[58]

Unsolicited Lease Proposals

Section 337.251, F.S., *Lease of property for joint public-private development and areas above or below department property*, authorizes the FDOT to request proposals for the lease of the FDOT

[49] Section 337.25(4)(e), F.S.
[50] Section 337.25(4)(h), F.S.
[51] Section 337.25(4)(j), F.S.
[52] Section 337.25(5), F.S.
[53] Section 337.25(5)(a), F.S.
[54] Section 337.25(5)(b), F.S.
[55] Section 337.25(5)(d), F.S.
[56] Section 337.25(5)(e), F.S.
[57] Section 337.25(5)(h), F.S.
[58] Section 337.25(8), F.S.

property for joint public-private development or commercial development. The FDOT may also receive and consider unsolicited proposals for such uses. If the FDOT receives an unsolicited proposal to negotiate a lease, the FDOT must publish a notice in a newspaper of general circulation at least once a week for two weeks, stating that it has received the proposal and will accept, for 60 days after the date of publication, other proposals for use of the space. The FDOT must also mail a copy of the notice to each local government in the affected area.

Any unsolicited lease proposal must be selected based on competitive bidding, and the FDOT is authorized to consider such factors as the value of property exchanges, the cost of construction, and other recurring costs for the benefit of the FDOT by the lessee in lieu of direct revenue to the FDOT if such other factors are of equal value including innovative proposals to involve minority businesses. Before entering into any lease, the FDOT must determine that the property subject to the lease has a permanent transportation use related to the FDOT responsibilities, has the potential for such future transportation uses, or constitutes airspace or subsurface rights attached to property having such uses, and is therefore not available for sale as surplus property.

Section 334.30, F.S., *Public-private transportation facilities*, authorizes the FDOT to lease certain toll facilities through public-private partnerships and also authorizes the FDOT to receive unsolicited proposals. That section directs the FDOT to establish by rule an application fee sufficient to pay the costs of evaluating a proposal. The FDOT is further authorized to engage the services of private consultants to assist in the evaluation.

Unlike s. 337.251, F.S., before approving a proposal, the FDOT must determine that the proposed project is in the public's best interest; would not require state funds to be used unless the project is on the SHS; would have adequate safeguards in place to ensure that no additional costs or service disruptions would be realized by the traveling public and residents of the state in the event of default or cancellation of the agreement by the FDOT; would have adequate safeguards in place to ensure that the department or the private entity has the opportunity to add capacity to the proposed project and other transportation facilities serving similar origins and destinations; and would be owned by the FDOT upon completion or termination of the agreement.[59] In addition, before awarding a contract for lease of an existing toll facility through a public-private partnership, the FDOT is required to provide an independent analysis of the proposed lease that demonstrates the cost-effectiveness and overall public benefit.

If the FDOT receives an unsolicited proposal for a lease through a public-private partnership, the FDOT must publish a notice in the Florida Administrative Weekly and a newspaper of general circulation at least once a week for two weeks stating that the FDOT has received the proposal and will accept, for 120 days after the initial date of publication, other proposals for the same project purpose. The FDOT must also mail a copy of the notice to each local government in the affected area.

Toll Collection/Interoperable Facilities

During the 2012 Legislative Session, the Legislature passed both HB 599 and SB 1998, and both contained language relating to the FDOT authority to enter into agreements with public or

[59] The ownership requirement in s. 334.30, F.S., would not, of course, apply to a lease arrangement under s. 337.251, F.S.

private transportation facility owners (whose systems become interoperable with the FDOT's systems) for the use of the FDOT systems to collect and enforce for the owner tolls, fares, administrative fees, and other applicable charges due in connection with use of the owner's facility. The language, however, is not identical. Part of the last-passed version of the language contained in HB 599 is potentially ambiguous, leading to more than one possible interpretation, and part of needed language that passed in HB 599 was not included in SB 1998. Section 338.161, F.S., now reflects four different history notes highlighting the differences between the two 2012 bills.

Beeline-East Expressway and Navarre Bridge

Section 338.165(4), F.S., authorizes the FDOT to request the Division of Bond Finance to issue bonds secured by toll revenues collected on the Alligator Alley, the Sunshine Skyway Bridge, the Beeline-East Expressway, the Navarre Bridge, and the Pinellas Bayway to fund transportation projects located within the county or counties in which the project is located and contained in the FDOT's adopted work program. The Beeline-East Expressway (renamed the Beachline East Expressway) became part of the Turnpike Enterprise on July 1, 2012, pursuant to ch. 2012-128, L.O.F.[60] The Navarre Bridge is now county-owned and no longer used for toll revenue. The references to each facility in s. 338.165(4), F.S., are now obsolete.

Alligator Alley Excess Revenues

Section 338.26, F.S., provides that any excess revenues from Alligator Alley, after facility operation and maintenance, contractual obligations, reconstruction and restoration, and the development and operation of a fire station at mile marker 63,[61] *may* be transferred to the South Florida Water Management District (SFWMD) Everglades Fund for specified projects.

The FDOT advises that operation of the fire station is expected to begin in FY 2013-2014; and the FDOT finance plan, based on projections provided to the FDOT, contains the following funding for operation of the fire station:[62]

FY 2013-14	FY 2014-15	FY 2015-16	FY 2016-17	FY 2018-19
$1,200,000	$1,242,000	$1,285,470	$1,330,461	$1,377,028

With respect to transfers to the SFWMD, the FDOT and the SFWMD entered into a memorandum of understanding on June 30, 1997,[63] under which the FDOT agreed to a schedule of payments to the SFWMD totaling $63,589,000. The FDOT expects to be able to meet its obligations under the current payment schedule by Fiscal Year 2016 as follows:[64]

[60] See s. 338.165(10), F.S.
[61] The FDOT indicates that the fire station is currently under construction, and construction is funded by the FDOT. The FDOT notes that another fire station is located on the Alley in Broward County. Broward County provided the funding for construction of that station and provides the funding for its operation.
[62] The FDOT email, March 1, 2013, on file in the Senate Transportation Committee.
[63] On file in the Senate Transportation Committee.
[64] The FDOT email, March 1, 2013, on file in the Senate Transportation Committee.

FY 2013-14	FY 2014-15	FY 2015-16	FY 2016-17
$4,400,000	$5,000,000	$8,000,000	$7,064,000

The agreement further provides that prior to its expiration, the FDOT and the SFWMD will renegotiate the terms, conditions, and duration of the agreement, taking into account toll revenues from the Alley, future costs to operate and maintain the Alley, reconstruction and restoration activities of the Alley, the transportation funding needs of Broward and Collier counties pursuant to s. 338.165(2), F.S.,[65] and the continuing costs of the Everglades restoration projects.

Metropolitan Planning Organizations/Designation/Membership

Based on census data, the U.S. Bureau of the Census designates urbanized areas throughout the state. Federal law and rule (23 U.S.C. 134 and 23 C.F.R 450 Part C) require a metropolitan planning organization (MPO) to be designated for each urbanized area[66] or group of contiguous urbanized areas. In addition, federal law and rules specify the requirements for a MPO transportation planning and programming activities. These requirements are updated after each federal transportation reauthorization bill enacted by Congress. State law also includes provisions governing MPO activities. Section 339.175, F.S., paraphrases or restates some key federal requirements. In addition, state law includes provisions that go beyond the federal requirements. For example, federal requirements regarding MPO membership are very general, while state law is more specific.

Section 339.175(2)(a)2., F.S., currently provides that designation of an MPO be accomplished by agreement between the Governor and units of general-purpose local government representing at least 75 percent of the population of the urbanized area; however, the unit of general-purpose local government that represents the central city or cities within the MPO jurisdiction, as defined by the United State Bureau of the Census, must be a party to such agreement. This language has been superseded by revisions to 23 U.S.C. 134(d) and 23 C.F.R. 450.310(b), which now require designation to be accomplished by agreement between the Governor and units of general-purpose local government that together represent at least 75 percent of the population (including the largest incorporated city, based on population, as named by the Bureau of the Census) or in accordance with procedures established by applicable State or local law.

An existing MPO may be re-designated by agreement between the Governor and units of general-purpose local government that together represent at least 75 percent of the existing population in the area served, including the largest incorporated city.[67] Re-designation of an MPO is required whenever the existing MPO proposes to make a substantial change in the proportion of voting members on the existing MPO representing the largest incorporated city, other units of general-purpose local government served by the MPO, and the State; or a

[65] That section requires that if a revenue-producing project is on the State Highway System, any remaining toll revenue after discharge of indebtedness related to such project must be used for the construction, maintenance, or improvement of any road on the State Highway System within the county or counties in which the revenue-producing project is located.
[66] An urbanized area is defined by the U.S. Bureau of the Census and has a population of 50,000 or more.
[67] 23 C.F.R. 450.301(h) (2012).

substantial change in the decision-making authority or responsibility of the MPO, or in decision-making procedures established under the MPO bylaws.[68]

Current law does not authorize more than 19 members on an MPO in cases when the MPO is re-designated as a result of the expansion of an MPO to include a new urbanized area or the consolidation of two or more MPOs, even if the membership is already at 19 members.

Economic Development Transportation Projects

Florida has a number of economic development incentive programs used to recruit industry to Florida, or to persuade existing businesses to expand their operations. One such incentive exists in what is commonly referred to as the Road Fund, which is funded by the STTF and used to assist local government in paying for highway or other transportation infrastructure improvements that will benefit a relocating or expanding company. The amount appropriated for this transfer varies from year to year. The Legislature in 2012 repealed s. 288.063, F.S., in which the Road Fund was statutorily placed, and created s. 339.2821, F.S. The revisions did not change the purpose of the Road Fund but simply moved oversight of the fund from the DEO to the FDOT.[69]

The FDOT, in consultation with the DEO, is authorized under the new section to make and approve expenditures and contract with the appropriate government body for the direct costs of transportation projects. Current law specifies that as part of the contractual agreement between the FDOT and a governmental body, that the FDOT may only transfer funds on a quarterly basis, the governmental body must expend funds received in a timely manner, and the FDOT may only transfer funds after construction has begun on the facility of a business on whose behalf the award was made.

State-Funded Infrastructure Bank/Spaceports

Section 339.55, F.S., creates the state-funded infrastructure bank (SIB), which provides loans to government units and private entities to help fund transportation projects. The loans are repaid from revenues generated by the project, such as a toll road or other pledged resources. The repayments are then re-loaned to fund new transportation projects. A SIB loan may lend capital costs or provide credit enhancements for a transportation facility project on the SHS or for a project which provides intermodal connectivity with airports, seaports, rail facilities, and other transportation terminals. Loans from the SIB may bear interest at or below market interest rates, as determined by the FDOT. Repayment of any SIB loan must begin no later than 5 years after the project has been complete or, in the case of a highway project, the facility has opened to traffic, whichever is later, and must be repaid in 30 years.

[68] 23 C.F.R. 450.301(k) (2012).
[69] Budget Committee Final Analysis of SB 1998: http://www.flsenate.gov/Session/Bill/2012/1998/Analyses/M6TO2qtoNCs60=PL=Y=PL=DT9BT2bnWNo=%7C11/Public/Bills/1900-1999/1998/Analysis/s1998z2.TEDAS.PDF.

Intercity Bus Service/Funding Eligibility

The Federal Transit Administration's Intercity Bus Program (49 U.S.C. 5311(f)), is administered by the FDOT. Its purpose is to support and maintain intercity bus services, in order to preserve service through rural areas of the state. The FDOT provides matching funds as required by s. 339.135(4), F.S. Florida's statutory definition of "intercity bus service" is more restrictive than the federal definition, which limits the number of companies competing for funding.

Section 341.031(11), F.S., defines "intercity bus service" as regularly scheduled bus service for the general public which operates with limited stops over fixed routes connecting two or more urban areas not in close proximity; has the capacity for transporting baggage carried by passengers; makes meaningful connections with scheduled intercity bus service to more distant points, if such service is available; maintains schedule information in the National Official Bus Guide; and provides package express service incidental to passenger transportation. Greyhound Bus Lines is currently the only private, for-profit company operating intercity bus services in Florida that meets the statutory definition to receive federal and state intercity bus program funding, as it is the only company in Florida that maintains schedule information in the National Official Bus Guide and provides package express service incidental to passenger transportation.

Intermodal Development Program

Section 341.053, F.S., was originally enacted in 1990 to create the Intermodal Development Program administered by the FDOT to provide for major capital investments in fixed-guideway transportation systems, access to seaports, airports and other transportation terminals, and to assist in the development of dedicated bus lanes. The Legislature in 1999 added direction to the FDOT to develop a proposed intermodal development plan to connect Florida's airports, deepwater seaports, rail systems serving both passenger and freight, and major intermodal connectors to the Florida Intrastate Highway System facilities as the primary system for the movement of people and freight in this state.

Section 341.053(6), F.S., currently authorizes the FDOT to fund projects including major capital investments in public rail and fixed-guideway transportation facilities and systems which provide intermodal access; road, rail, intercity bus service, or fixed-guideway access to, from, or between seaports, airports, and other transportation terminals; construction of intermodal or multimodal terminals; development and construction of dedicated bus lanes; and projects which otherwise facilitate the intermodal or multimodal movement of people and goods.

Toll Facilities Revolving Trust Fund/Obsolete References

The Legislature repealed s. 338.251, F.S., during the 2012 Legislative Session.[70] That section created the Toll Facilities Revolving Trust Fund, which was a loan program created to develop and enhance the financial feasibility of revenue-producing road projects undertaken by local governmental entities and the Turnpike Enterprise. Two references to the now repealed trust fund remain in statute.

[70] Ch. 2012-128, L.O.F.

Currently Established Toll Authorities

Aside from the FDOT and Florida's Turnpike Enterprise, a number of authorities exist in Florida that operate toll facilities and collect and reinvest toll revenues.[71]

Miami-Dade Expressway Authority

The Miami-Dade Expressway Authority (MDX) governing body consists of 13 voting members. The Miami-Dade County Commission appoints seven members, the Governor appoints five members, and the FDOT district six secretary is the *ex-officio* member of the Board. Except for the secretary, all members must be residents of Miami-Dade County and each serves a four-year term and may be reappointed.[72]

The MDX currently oversees, operates and maintains five tolled expressways constituting approximately 34 centerline-miles and 220 lane-miles of roadway in Miami-Dade County: Dolphin Expressway (SR 836); Airport Expressway (SR 112); Don Shula Expressway (SR 874); Gratigny Parkway (SR 924) and Snapper Creek Expressway (SR 878). MDX reported toll and fee revenue of $121.9 million (net of $2.8 million of allowance) in Fiscal Year (FY) 2011 based on 220 million transactions.[73] The FTC report indicates that approximately $45.5 million in outstanding debt ($6 million in loans from the now-repealed Toll Facilities Revolving Trust Fund and $39.5 million in loans from the State Infrastructure Bank) is due to FDOT as of June 30, 2011.[74]

Tampa-Hillsborough County Expressway Authority

The Tampa-Hillsborough County Expressway Authority (THEA) governing body consists of seven members, four of which are appointed by the Governor and serve four-year terms. The City of Tampa mayor, a member of the Board of County Commissioners selected by the board, and the FDOT's district seven secretary are *ex-officio* members.[75]

The THEA owns the four-lane Selmon Expressway, which is a 15-mile limited access toll road crossing the City of Tampa from Gandy Boulevard in south Tampa, through downtown Tampa and east to I-75 and Brandon. The FTC report indicates that beginning in Fiscal Year 2001, the THEA has reimbursed the FDOT for annual O&M expenses pursuant to the adopted budget and that only renewal and replacement costs continue to be added to long-term debt. As of June 30, 2011, the THEA owes the FDOT approximately $200.7 million for the O&M, renewal and replacement expense advances, and other FDOT loans.[76]

[71] The Mid-Bay Bridge Authority is also included among these authorities.

[74] Id.
[75] Section 348.52, F.S.
[76] FTC's *Transportation Authority Monitoring and Oversight Fiscal Year 2011 Report*, p. 73.

Tampa Bay Area Regional Transportation Authority

The Tampa Bay Area Regional Transportation Authority (TBARTA) is an agency of the state whose purposes are to improve mobility and expand multimodal transportation options for passengers and freight throughout the seven-county Tampa Bay region.[77] The TBARTA's governing body consists of 16 members: one elected official appointed by the respective County Commissions from Citrus, Hernando, Hillsborough, Pasco, Pinellas, Manatee and Sarasota counties; one member appointed by the West Central Florida Metropolitan Planning Organization Chairs Coordinating Committee who must be a chair of one of the six Metropolitan Planning Organizations in the region; two members who are the mayor or the mayor's designee of the largest municipality within the area served by the Pinellas Suncoast Transit Authority and the Hillsborough Area Transit Authority; one member who is the mayor or the mayor's designee of the largest municipality within Manatee or Sarasota County, providing that the membership rotates every two years; four members who are business representatives appointed by the Governor, each of whom must reside in one of the seven counties of the TBARTA; and one non-voting member who is the secretary of one of the FDOT districts within the seven-county area appointed by the FDOT secretary.[78]

The TBARTA is not currently operating any facility. The FTC report indicates that "TBARTA is beginning to prioritize projects, develop financial strategies for implementation, coordinate the advancement of more detailed planning and environmental analysis for the prioritized projects, and continue public engagement and education efforts." The FTC report lists nine current TBARTA projects (evaluations and studies) funded by the FDOT.[79] The TBARTA also operates the TBARTA Commuter Services, which is a free, online ride-matching program enabling commuters to connect with each other to share rides and is engaging in additional activities, such as identifying opportunities for collaboration and consolidation with other entities in the region, strengthening existing partnerships and examining the potential for new ones, identify short-term solutions to traffic congestion, and continuing to look for process improvements and potential cost savings.[80]

The TBARTA and the FDOT entered into an agreement under which, in 2009, the FDOT advanced $500,000 from a $2 million appropriation to pay initial administrative expenses, and the 2009, 2010 and 2011 Legislatures re-appropriated unspent funds from the $2 million to the TBARTA; however, the 2011 appropriation was vetoed by the Governor.

Northwest Florida Transportation Corridor Authority

The Northwest Florida Transportation Corridor Authority (NFTCA) is an agency of the state with the primary purpose of improving mobility on the U.S. 98 corridor in Northwest Florida to enhance traveler safety, identify and develop hurricane routes, promote economic development along the corridor, and implement transportation projects to alleviate current or anticipated traffic congestion. The NFTCA is also authorized to issue bonds.[81] Eight voting members, one

[81] Section 343.82, F.S.

each from Escambia, Santa Rosa, Walton, Okaloosa, Bay, Gulf, Franklin and Wakulla counties, are appointed by the Governor to serve four-year terms on the governing body. The FDOT's district three secretary serves an as *ex-officio*, non-voting member.[82]

The NFTCA is not currently operating any facility. The FTC report indicates:

> As part of the Master Plan update, NFTCA's general consultant (HDR) is conducting a business case analysis to help the Authority in selecting and planning transportation projects by assessing their respective economic benefits, developing an investment plan and proposing viable funding strategies. The business case analysis includes an extensive public outreach program involving regional planning councils in the eight-county geographic area covered by the NFTCA and a series of workshops involving other key stakeholders in the region.[83]

The NFTCA currently operates under an agreement that uses federal earmark funds for administrative expenses, professional services, and regional transportation planning.[84]

Mid-Bay Bridge Authority

The 1986 Legislature created the Mid-Bay Bridge Authority [85] as the governing body of an independent special district in Okaloosa County for the purpose of planning, constructing, operating, and maintaining a bridge over the Choctawhatchee Bay. The Mid-Bay Bridge Authority operates the tolled, 3.6-mile long Mid-Bay Bridge across the Choctawhatchee Bay and approaches (SR 293) on the northern and southern sides of the bridge. The facility, which connects SR 20 with U.S. 98 east of Destin, is a link between Interstate 10 and U.S. 98 and provides a more direct route for tourists and residents between northern and southern Okaloosa and Walton Counties.[86]

The FDOT, under the provisions of a lease-purchase agreement with the Mid-Bay Bridge Authority, maintains and operates the existing bridge and remits all of the tolls collected to the authority as lease payments. The term of the lease runs concurrently with the bonds issued by the Mid-Bay Bridge Authority, and when the bonds are matured and fully paid, the FDOT will own the bridge. As of June 30, 2012, the Mid-Bay Bridge Authority's long-term debt obligation to the FDOT for operations and maintenance pursuant to the existing agreement was $9.5 million. In accordance with bond covenants, this liability is payable from excess toll revenues, after debt service obligations have been met.

The Florida Turnpike Enterprise provides toll plaza operations for the Mid-Bay Bridge Authority. For the fiscal year ending September 2012, toll revenues amounted to $15,765,967. Earned investment income from Revenue and Reserve Funds of $1,395,789, plus $30,886 from

[86] Senate Issue Brief 2012-208, *Cost Effectiveness of Regional Expressway and Bridge Authorities,* (September 2011).

SunPass collections, raised total revenue to $17,192,642.[87] Florida law reflects no state entity charged with monitoring the efficiency, productivity, and management of the Mid-Bay Bridge Authority, unlike other regional transportation, expressway and bridge authorities.

Santa Rosa Bay Bridge Authority

The Santa Rosa Bay Bridge Authority (SRBBA) governing body consists of seven members. The Governor and the Board of County Commissioners each appoint three members, and the FDOT district three secretary is an ex-officio member of the Board. Except for the secretary, all members are required to be permanent residents of Santa Rosa County at all times during their term of office.[88]

The SRBBA owns the Garcon Point Bridge, a 3.5-mile tolled bridge that spans Pensacola/East Bay between Garcon Point (south of Milton) and Redfish Point (between Gulf Breeze and Navarre) in southwest Santa Rosa County.[89] Florida's Turnpike Enterprise provides toll operations for the SRBBA, and the FDOT's district three performs maintenance functions on the bridge. Because toll revenues are insufficient to pay both debt service on outstanding bonds and O&M expenses, the costs of the O&M are recorded as debt owed to FDOT. The FTC report indicates that the SRBBA also has outstanding loans from the Toll Facilities Revolving Trust Fund, and the balance of these liabilities on June 30, 2011, was $24.7 million.[90]

Orlando-Orange County Expressway Authority

The Orlando-Orange County Expressway Authority (OOCEA) governing body consists of five members. The Governor appoints three members who are citizens of Orange County and who serve four-year terms and may be reappointed. The Orange County mayor and the FDOT's district five secretary are the two ex-officio members of the Board.[91]

The OOCEA currently owns and operates 105 centerline miles of roadway in Orange County: 22 miles of the Spessard L. Holland East-West Expressway (SR 408), 23 miles of the Martin Andersen Beachline Expressway (SR 528), 33 miles of the Central Florida GreeneWay (SR 417), 22 miles of the Daniel Webster Western Beltway (SR 429) and 5 miles of the John Land Apopka Expressway (SR 414). OOCEA reported toll revenue of $260 million in FY 2011 based on 296 million transactions.[92] The FTC report indicates that approximately $270 million in outstanding debt ($221 million in advances for O&M expenses, $14 million in advances for completion of the East-West Expressway, and $34.8 million in loans from the State Infrastructure Bank) is due to FDOT as of June 30, 2011.[93]

---

In addition, the OOCEA will independently finance, build, own and manage certain portions of the Wekiva Parkway and, pursuant to direction in SB 1998 (2012), the OOCEA will repay the FDOT for costs of operation and maintenance of the OOCEA system; the FDOT's obligation to pay any cost of operation, maintenance, repair, or rehabilitation of the OOCEA system terminates as specified; and ownership of the system remains with the OOCEA.

Osceola County Expressway Authority

Created in 2010, the Osceola County Expressway Authority (OCX) governing body consists of six members. Five members, one of which must be a member of a racial or ethnic minority, must be residents of Osceola County. Three of the five are appointed by the governing body of the county and the remaining two are appointed by the Governor. The FDOT's district five secretary serves as an *ex-officio*, non-voting member.[94]

The OCX is not currently operating any facility and has no funding or staff. Staff assistance and other support have been provided by Osceola County. The OCX has developed a Master Plan that includes construction of four proposed tolled expressways: Poinciana Parkway, Southport Connector Expressway, Northeast Connector Expressway, and Osceola Parkway Extension.[95]

Wekiva River Basin Commission

The Wekiva River Basin Commission is charged with monitoring and ensuring the implementation of the recommendations of the Wekiva river Basin Coordinating Committee for the Wekiva Study Area. The commission is comprised of 19 voting members, 9 of whom are voting members, and nine of whom are ad hoc nonvoting members. A representative of the previously repealed Seminole County Expressway Authority remains in statute as an ad hoc nonvoting member.

Environmental Mitigation for Transportation Projects

Pursuant to s. 373.4137, F.S., the FDOT and participating transportation authorities offset adverse environmental impacts of transportation projects through the use of mitigation banks and other mitigation options, including the payment of funds to the Water Management Districts (WMD) to develop and implement mitigation plans. The mitigation plan is developed by the WMDs and is ultimately approved by the Department of Environmental Protection (DEP). The ability to exclude a project from the mitigation plan is provided to the FDOT, a participating transportation authority, or a WMD.

In 2012, HB 599 modified s. 373.413, F.S., to reflect that adverse impacts may be offset by the use of mitigation banks or the payment of funds to develop and implement mitigation plans. The mitigation plan is based on an environmental impact inventory that is created by the FDOT and reflects habitats that would be adversely impacted by transportation projects listed in the next three years of the FDOT's tentative work program. The FDOT provides funding in its work program to the DEP or the WMDs for its mitigation requirements. To fund the programs, the

[94] Section 348.9952, F.S.
[95] FTC's *Transportation Authority Monitoring and Oversight Fiscal Year 2011 Report*, p. 165.

statute directs the FDOT and the authorities to pay $75,000 per impacted acre, adjusted by a calculation using the Consumer Product Index (CPI).[96]

Pursuant to s. 373.4137, F.S., mitigation plans developed by the WMDs must consider water resource needs and focus on activities in wetlands and surface waters, including preservation, restoration and enhancement, as well as control of invasive and exotic vegetation. The WMDs must also consider the purchase of credits from public and private mitigation banks if the purchase provides equal benefit to water resources and is the most cost effective option. Before transportation projects are added to the WMDs mitigation plans, the FDOT must consider if using mitigation bank credits will be more cost-effective and efficient. The WMD mitigation plans are updated annually to reflect the most recent FDOT work program and transportation authority project list and may be amended throughout the year. The mitigation plans are submitted to the governing board of the WMD or its designee for approval, and to the DEP for final approval.[97]

The FDOT and the participating expressway authorities are required to transfer funds each year to pay for mitigation of the projected impact acreage resulting from projects identified in the inventory. The projected impact acreage and costs are reconciled quarterly with the actual impact acreage, and the costs and balances are adjusted.[98]

Section 373.4137, F.S., provides for exclusion of specific transportation projects from the mitigation plan at the discretion of the FDOT, participating transportation authorities, and the WMDs.

Public Information Systems

Pursuant to s. 373.618, F.S., public information systems may be located on WMD property, provided certain terms and conditions are met. The systems must display messages to the general public concerning water management services, activities, events, watering restrictions, severe weather reports, amber alerts, and other essential public information. The law prohibits the use of WMDs funds to acquire, develop, construct, operate, or manage a public information system. Commercial messages are to be paid for by private sponsors.

Section 479.02, F.S., requires the FDOT to regulate the size, height, lighting, and spacing of signs on the interstate highway system in accordance with state and federal regulations. A permit and annual fee are required by any individual that proposes to erect, operate, use, or maintain any sign on the State Highway System outside an urban area or on any portion of the interstate or federal-aid primary highway system. Certain signs do not require a permit as long as the signs are in compliance with the provisions in s. 479.11(4)-(8), F.S.

Section 479.16, F.S, specifies that signs owned by a municipality or county that contain messages related to any commercial enterprise, a commercial sponsor of an event, personal messages, or political messages, are not considered information regarding government services.

[96] *See* s. 373.4137 F.S.
[97] *Id*.
[98] *Id*.

The FDOT may potentially be subject to an annual loss of 10 percent of federal highway funding if these signs are located within a "controlled area."[99]

Expenditures by Local Governments

Under current law, a county, municipality, school district, or other political subdivision of the state, and any department, agency, board, bureau, district, commission, authority, or similar body of a county, municipality, school district, or other political subdivision of the state, or a person acting on such entity's behalf, is prohibited from spending or authorizing expenditure of any moneys under the jurisdiction or control of such entity for a political advertisement or electioneering communication concerning an issue, referendum, or amendment, including any state questions, that is subject to a vote of the electors. The prohibition does not apply to an electioneering communication from a local government or a person acting on behalf of a local government which is limited to factual information, nor does it preclude an elected official of the local government from expressing an opinion on any issue.

Parking Meters/Permits/Revenues

Existing throughout the state today within the right-of-way limits of state roads under the FDOT's jurisdiction are parking meters or other parking time-limit devices whose revenue is collected and used by the local jurisdictions that installed the devices. Parking meters and other parking time-limit devices facilitate commerce by ensuring that parking spaces turn over at regular intervals, and provide convenient customer access to abutting businesses. The FDOT has no rule or statewide procedure for issuance of permits for parking time-limit devices installed within the right-of-way limits of state roads under the FDOT's jurisdiction. The FDOT does not receive any portion of this revenue and reports the number and location of these existing devices is unknown. Costs incurred by the local jurisdictions to purchase, install, and maintain the existing devices are unknown, as are costs incurred to enforce time limits reflected on the devices. Some local governments may have issued bonds secured by revenues from parking meters.

Used Tires

For purposes of environmental control under chapter 403, F.S., current Florida law defines a "waste tire" to mean a tire that has been removed from a motor vehicle and has not been retreaded or regrooved. The term includes, but is not limited to, used tires and processed tires, It does not include solid rubber tires and tires that are inseparable from the rim.[100] A "used tire" is currently defined to mean a waste tire which has a minimum tread depth of 3/32 inch or greater and is suitable for use on a motor vehicle.[101]

[99] "Controlled area" means 660 feet or less from the nearest edge of the right-of-way of any portion of the State Highway System, interstate, or federal-aid primary system and beyond 660 feet of the nearest edge of the right-of-way of any portion of the State Highway System, interstate, or federal-aid primary system outside an urban area. *See* s. 479.01, F.S.
[100] Section 403.717(1)(d), F.S.
[101] Section 403.717(1)(k), F.S.

According to one estimate, approximately 10 percent of tires sold in the U.S. annually are used tires.[102] Used tires are generally less expensive for the consumer and provide a greater profit margin for the retailer.[103] Although federal regulations require tire manufacturers to mark each new tire with a tire identification number that indicates the week and year the tire was manufactured,[104] used tires are not subject to any federal standards.[105] Similarly, the sale of used tires is not regulated in Florida.

While there is no state regulation of the sale of used tires, the Rubber Manufacturers Association (RMA) has issued a tire industry service bulletin that lists conditions under which a used tire should never be installed on a vehicle.[106] The bulletin's stated purpose is to "address the potential risk associated with the installation of used tires that have uncertain or unknown history of use, maintenance or storage conditions. Such tires may have damage that could eventually lead to tire failure. This bulletin pertains to used tires installed as replacement tires or as equipped on a used vehicle." RMA does not recommend installation of used tires that exhibit any of the characteristics contained in the service bulletin. Among those characteristics is, "Inadequate tread depth for continued service (i.e. nearly worn out). Tires with a tread depth of 2/32" or less at any point on the tire are worn out."

Given that the threshold for being worn out is 2/32 or 1/16" of tread depth or less, a tire sold with a tread depth, for example, at the threshold – assuming all other conditions of the tire do not raise safety issues -- could be unsafe within an extremely short period of time. That assumption, however, has been called into question. According to one report:

> "There are several good reasons to avoid used tires. One is age. Acknowledgement is growing among the industry, researchers and government agencies that aged tires—regardless of their visual appearance and tread depth—can pose a significant threat to safety. The used tire market remains an unknown and unregulated source of aged tires. Tires age in a way that often cannot be detected visually. Oxidation of the internal components causes tires to deteriorate from the inside out. A tire that can appear new on the outside can be compromised internally as the material and chemical properties of the tire have changed significantly, increasing the risk of catastrophic tread/belt separation. Think of those old rubber bands in your desk—when new and fresh they are very elastic, as they age the rubber properties change. Stretching will result in cracking and they break much easier and more quickly then when they were new. Yet, age does not automatically disqualify a tire from the used tire market. Often—but not always—used tires are older than new tires and stored, before sale, in conditions that may contribute to rapid deterioration.

> "The way used tires are collected, processed, stored, and selected for sale also raises concerns. More often than not, the provenance of a used tire is unknown. Used tires enter the market from many points ranging from tire service center scrap heap to salvage yards to Craigslist. However, the bulk of the used tire market is supported by large multi-state recyclers who do little more than give each tire a visual inspection to determine that tread depth is adequate and wholesale them back into the market. If a tire has at least 2/32nds of an inch of tread left and no glaring visual defect it's resold—and often cleaned and even painted black to make it appear new."[107]

III. Effect of Proposed Changes:

Section 1 repeals s. 11.45(3)(m), F.S., which contains the Auditor General's power to audit transportation corporations authorized under the Florida Transportation Corporation Act, in connection with sections 21 through 40 of the bill, which repeal the never-used act. This change will also enable the repeal of an unused administrative rule.

Section 2 amends s. 20.23, F.S., to require the FTC to monitor the efficiency, productivity, and management of regional transportation finance authorities created under a new ch. 345, F.S., and to repeal the Florida Statewide Passenger Rail Commission. Overlapping oversight of publicly-funded passenger rail systems is eliminated and remains solely with the FTC.

Section 3 amends s. 110.205(2), F.S., to change the title of the FDOT's State Public Transportation and Modal Administrator to State Freight and Logistics Administrator.

Section 4 amends s. 311.22, F.S., relating to small county dredging projects, to establish FDOT, rather than FSTED, as the agency responsible for administering any additional funding for dredging projects in counties having a population of fewer than 300,000 according to the last official census and sunsets the program on July 1, 2018.

Section 5 amends s. 316.515(3)(a), F.S., to authorize a forklift to be attached to the rear of the cargo bed of a straight truck if the overall combined length of the vehicle and the forklift does not exceed 45 feet.

Section 6 repeals s. 316.530(3), F.S., to remove obsolete language authorizing wreckers to tow disabled vehicles when the combination of wrecker and towed vehicle are over the legal weight without a special use permit.

Section 7 amends s. 316.545(3)(c), F.S., to increase from 400 to 550 pounds the authorized maximum gross vehicle weight to compensate for the additional weight of auxiliary power units (or idle-reduction technology) installed on commercial motor vehicles, as authorized by recent federal law.

[107] See *supra* note 102.

Section 8 amends s. 331.360, F.S., to require Space Florida to develop a spaceport system plan which contains recommendations for projects that meet current and future commercial, national and state space transportation requirements; and to submit the plan to the FDOT which may include portions of the system plan in the department's 5 year work program.

Beginning in Fiscal Year 2013-2014, the FDOT is authorized to make available from the STTF a minimum of $15 million annually from funds dedicated to public transportation projects[108] to fund space transportation projects. Project specific criteria must be provided by Space Florida to demonstrate that the project includes transportation and aerospace benefits. The FDOT may fund up to 50 percent of eligible project costs.

FDOT is authorized to fund up to 100 percent of eligible costs if the project provides important access and on-spaceport capacity improvements, capital improvements which will position the state to maximize opportunities of a sustainable and world-leading aerospace industry, meets state goals of an integrated intermodal transportation system, and demonstrates the feasibility of available matching funds.

Section 9 creates s. 332.007(11), F.S., to authorize the FDOT to fund, at up to 100 percent of the project's cost, strategic airport investment projects which provide important access and on-airport capacity improvements, capital improvements which will position the state to maximize opportunities in international trade, logistics, and the aviation industry, meet state goals of an integrated intermodal transportation system, and demonstrate the feasibility of available matching funds.

Section 10 amends s. 334.044(16), F.S., to prohibit the FDOT from entering into any lease-purchase agreement with any expressway authority, regional transportation authority or other entity effective July 1, 2013. These provisions have no effect on the existing lease-purchase agreements. This section of the bill also amends subsection (26) of s. 334.044, F.S., to provide that the FDOT purchase all plant materials from Florida commercial nursery stock in this state on a uniform competitive bid basis, except as prohibited by applicable federal law or regulation. This revision will ensure compliance with federal regulation and avoid a potential federal funds penalty.

Section 11 amends s. 335.0415, F.S., to direct the FDOT to enter into an interlocal agreement with the City of Miami providing for the city to be responsible for street cleaning, landscaping, and maintenance of the right-of-way of a certain portion of State Road 5/Brickell Avenue/Biscayne Boulevard for a five-year period. The agreement must contain performance measures in accordance with applicable FDOT standards, require the city to meet or exceed the measures as a condition of payment for the work, and hold the FDOT harmless from any liability arising out of the transferred responsibilities. The Florida Transportation Commission is also directed to conduct a study to evaluate the effectiveness and benefits of the pilot program.

Section 12 amends s. 335.06, F.S., to allow but not require the FDOT to improve and maintain a road that is part of a county road system or city street system. If the FDOT does not maintain a

[108] Section 206.46(3), F.S.

county or city road that provides access to the state park system, the road must be maintained by the appropriate county or municipality.

Section 13 creates 336.71, F.S., to authorize county that receives solicited or unsolicited proposals from a private entity seeking to construct, extend, or improve a county road, enter into an agreement with the private entity for completion of the road construction project. The agreement may provide for payment to the private entity from public funds if the county conducts a noticed[109] public hearing and finds that the project:

- Is in the best interest of the public.
- Would only use county funds for portions of the project that will be part of the county road system.
- Would have adequate safeguards to ensure that additional costs or unreasonable service disruptions are not realized by the traveling public and residents of the state.
- Upon completion, would be a part of the county road system owned by the county.
- Would result in a financial benefit to the public by completing the subject project at a cost to the public significantly lower than if the project were constructed by the county suing the normal procurement process.[110]

If the specified process is followed, the project and agreement are exempt from s. 255.20, F.S., relating to local bids and contracts for public construction works.

Section 14 amends s. 337.11(13), F.S., to require each road or bridge construction contract or maintenance contract let by FDOT to require all motor vehicles operated by the contractor in this state to be registered in compliance with ch. 320, F.S., eliminating the requirement of proof to the FDOT in the form a notarized affidavit from the contractor.

Section 15 amends s. 337.14(1), F.S., to clarify that any person desiring to bid for the performance of any construction contract *with a proposed budget estimate* in excess of $250,000 must first be certified as qualified prior to bidding in accordance with Rule Chapter 14-22, F.A.C. No change in current practice results, the revisions simply provide internal statute consistency and consistency between statute and rule.

Section 16 amends s. 337.168(2), F.S., to clarify an existing public records exemption by which the identity of a person who has requested or obtained from FDOT, a bid package, plan, or specifications pertaining to any project to be let by FDOT remains a public record until two days prior to the deadline for obtaining the materials.

Section 17 amends s. 337.25, F.S., to revise the terms and conditions under which the FDOT may sell or lease properties acquired for transportation rights-of-way and to authorize the FDOT to contract for auction services used in the conveyance of real or personal property or leasehold

[109] Published at least 14 days before the meeting with identification of the project, the estimated cost of the project, and a statement that the purpose of the meeting is to consider whether it is in the public's best interest to enter into an agreement.
[110] The financial benefit analysis must be supported by a cost estimate of a professional engineer and must be made available to the public at least 14 days before the public meeting and placed in the record for that meeting.

interests and to authorize such contracts to allow the contractor to retain a portion of the proceeds as compensation.

The FDOT is authorized to "convey", rather than "sell" land, buildings, or other real or personal property after determining the property isn't needed for a transportation facility and to dispose of property through negotiations, sealed competitive bids, auctions, or any other means deemed to be in the department's best interest. Due advertisement is required for property valued at more than $10,000, and no property may be sold at less than fair market value except as specified. The department is authorized, rather than required, to afford a right of first refusal to a political subdivision, or local government in which the parcel is located, except in conveyances when the property has been donated to the state for transportation purposes and a facility has not been constructed for at least 5 years, the property was originally required for replacement housing for persons displaced by transportation projects, or property which the FDOT has determined a sale to anyone other than the abutting land owner would be inequitable.

The FDOT is prohibited from conveying a leasehold interest at a price less than the department's current estimate of value and specifies that a lease may be created through negotiations, sealed competitive bids, auctions, or any other means deemed to be in the best interest by the department. A lease shall not be for a period of more than 5 years, however, the department may extend the lease for an additional 5 years without rebidding.

The department is required to publish a notice when a proposal to lease property has been received, stating that a proposal has been received and that FDOT will accept other proposals for 120 days after the date of publication for lease of the property. The FDOT is authorized to establish, by rule, an application fee for the submission of the proposals.

The FDOT's estimate of value must be prepared in accordance with department procedures, guidelines, and rules for valuation of real property. If the value of the property exceeds $50,000, the sale or lease must be negotiated at a price not less than the estimated value determined by the department.

This section does not modify the eminent domain requirement of s. 73.013, F.S.

Section 18 amends s. 337.251(2), F.S., to require a newspaper publication of 120 days for lease proposals, when the FDOT wishes to consider an unsolicited proposal for a lease of particular property. The FDOT is authorized to establish by rule an application fee for the submission of proposals, sufficient to pay the anticipated costs of evaluating the proposals. Further, the FDOT is required, prior to approval of any proposal, to determine that the proposed lease is in the public's best interest and meets specified criteria.

Section 19 amends s. 338.161(5), F.S., to replace the potentially ambiguous language regarding agreements for use of the FDOT toll collection systems that passed in HB 599 and SB 1998 during the 2012 Legislative Session, thereby avoiding any confusion that might result from ambiguous language or from statutory construction rules.

Section 20 amends s. 338.165(4), F.S., to remove obsolete references to the Beeline-East Expressway and the Navarre Bridge within the FDOT's authority to request issuance of bonds

secured by toll revenues from certain toll facilities, as the expressway and bridge are no longer owned by the FDOT.

Section 21 amends s. 338.26(3) and (4), F.S., to remove the obligations of Alligator Alley excess toll revenues to operate and maintain the fire station at mile marker 63, and limits the transfer of annual excess revenue to SFWMD to that which is agreed upon in the June 30, 1997 memorandum of understanding. The SFWMD's authority to issue bonds or notes which pledge the excess toll revenues from the transfer is eliminated.

Section 22 amends s. 339.175, F.S., to revise provisions relating to designation of MPOs to conform to changed federal terminology, and to provide that the voting membership of an MPO re-designated as a result of the expansion of an MPO to include a new urbanized area, or the consolidation of two or more MPOs, may consist of no more than 25 members.

Section 23 amends s. 339.2821, F.S., to include Enterprise Florida, Inc., as an FDOT consultant in making and approving economic development transportation project contracts. Provides authority for the FDOT to terminate a grant award if construction of the transportation project does not begin within four years after the date of the initial grant award; and expands the type of authorized transportation facility projects to include spaceports.

Sections 24 - 43 repeal ss. 339.401 through 339.421, the never-used Transportation Corporation Act, in connection with the related audit authority repeal in section 1 of the bill.

Section 44 amends s. 339.55, F.S., to include projects that provide intermodal connectivity with spaceports as eligible for loans from the State-funded Infrastructure Bank.

Section 45 amends s. 341.031(11), F.S., to expand eligibility for intercity bus companies to compete for federal and state program funding by removing from the definition of "intercity bus service" the requirements that the carrier maintain schedule information in the National Official Bus Guide and provides package express service incidental to passenger transportation.

Section 46 amends s. 341.053, F.S., to expand the Intermodal Development Program to include access to spaceports, and to further define the activities of the program to include planning and funding the construction of airport, spaceport, seaport, transit and rail projects that facilitate the intermodal or multimodal movement of people and goods.

Projects included in the Intermodal Development Program must support statewide goals as specified in the Florida Transportation Plan, the Strategic Intermodal System Plan, the Freight Mobility and Trade Plan, or other appropriate department modal plan. Eligible projects are expanded to include: planning studies; major capital investments in freight facilities and systems that provide intermodal access; road, rail, intercity bus service, or fixed-guideway access to, from, or between spaceports and intermodal logistics centers; and construction of intermodal or multimodal terminals, including projects on airports, spaceports, intermodal logistics centers or seaports which assist in the movement or transfer of people or goods.

Section 47 amends s. 343.80, F.S., to revise the short title of part III of ch. 343, F.S., from the Northwest Florida Transportation Corridor Authority Law to the Northwest Florida Regional Transportation Finance Authority Law.

Section 48 amends s. 343.805, F.S., to define the "Northwest Florida Regional Transportation Finance authority System" or "system" to mean any and all expressways and appurtenant facilities thereto owned by the authority, including, but not limited to, all approaches, roads, bridges, and avenues of access for said expressway or expressways.

Section 49 amends s. 343.81, F.S., to rename the Northwest Florida Transportation Corridor Authority as the Northwest Florida Regional Transportation Finance Authority. The bill also revises the composition of the governing board of the authority from eight to five voting members, with two members from Okaloosa County and one each from Walton, Bay, and Gulf Counties. Escambia, Santa Rosa, Franklin, and Walton Counties are removed from voting membership. The bill also revises quorum requirements for the governing board, providing that three, rather than five, members constitutes a quorum, and the vote of at least three members, rather than five, is necessary for any action taken by the authority. Authorization to establish technical advisory committees and related provisions are repealed. Note: the Santa Rosa-Escambia Regional Transportation Finance Authority serving Escambia and Santa Rosa Counties is created in section 55 of the bill, as is the Suncoast Regional Transportation Finance Authority, serving Citrus, Levy, Marion, and Alachua Counties.

Section 50 amends s. 343.82, F.S., granting the NWFTFA the right to acquire, hold, construct, improve, maintain, operate, own and lease in the capacity of lessor, the Northwest Florida Regional Transportation Finance Authority System, thereby expanding the authority's responsibility beyond the U.S. 98 corridor. The bill also removes direction to the current Corridor Authority to develop and annually update a specified corridor master plan, to undertake projects contained in the plan, and to request funding and technical assistance from the FDOT from specified sources. Further, the bill authorizes the NWFTFA to dispose of any property which the authority and the FDOT determine is not needed for the system. In addition, the bill conforms terminology by removing references limiting the authority to activities along the U.S. 98 corridor and eliminating reference to the Santa Rosa Sound

Section 51 amends s. 343.83, F.S., to change a reference to the Northwest Florida Transportation Corridor Authority to the Northwest Florida Regional Transportation Finance Authority.

Section 52 amends s. 343.835, F.S., to conform terminology by removing references to U.S. 98 corridor improvements. The bill also revises a reference to facilities "constructed" by the authority to those "owned or provided" by the authority, which is also a conforming change. in connection with the provisions of section 50 of the bill.

Section 53 amends s. 343.84, F.S., to provide that the FDOT is the agent of the authority for the purpose of constructing system improvements; and to alternatively allow the authority, with the FDOT's consent and approval, to appoint a local agency certified by the FDOT as the authority's agent to administer federal aid projects in accordance with federal law. The bill requires the FDOT to act as the agent of the authority for purposes of operating and maintaining the system and requires the authority to reimburse the FDOT for the costs incurred from system revenues.

The bill specifies that the authority remains obligated as principal to operate and maintain its system, and except as otherwise provided by the existing lease-purchase agreement between the FDOT and the Mid-Bay Bridge Authority in connection with its issuance of bonds, the authority's bondholders do not have a right to compel the FDOT to operate and maintain the system. The Mid-Bay Bridge Authority is transferred to the Northwest Florida Regional Transportation Finance Authority in section 56 of the bill. The bill also directs the authority to establish and collect tolls and other charges for the authority's facilities as specified.

Section 54 amends s. 343.85, F.S., to conform terminology.

Section 55 amends s. 343.875, F.S., to repeal the current Corridor Authority's power to receive or solicit proposals and enter into public-private partnership agreements and related provisions.

Section 56 amends s. 343.89, F.S, to conform terminology.

Section 57 amends s. 343.922(4), F.S., to remove a reference to the previously repealed Toll Facilities Revolving Trust Fund.

Section 58 creates ch. 345, F.S., to authorize the formation of regional transportation finance authorities, consisting of sections 345.0001 – 345.0016, F.S., and creates as agencies of the state, the following authorities:

- the Santa Rosa-Escambia Regional Transportation Finance Authority serving Escambia and Santa Rosa counties, and
- the Suncoast Regional Transportation Finance Authority serving Citrus, Levy, Marion, and Alachua counties.

This section authorizes a county, or two or more contiguous counties, to form a regional transportation finance authority for the purposes of financing, constructing, maintaining, and operating transportation projects in a region of this state, if approved by the Legislature and the county commission of each county that will be part of the authority, and specifies that there be only one authority created and operating within the area served by the authority. Other provisions include:

- The governance and powers and duties of the authority;
- The authority to issue bonds and provide for the rights and remedies of bondholders;
- Naming the FDOT as the agent of each authority for the purpose of performing all phases of a project, including constructing improvements and extensions to the system; and for the purpose of operating and maintaining the system;
- Requirements for FDOT participation in any potential regional transportation finance authority projects;
- Reimbursement to the FDOT for costs incurred for operating and maintaining the system from system revenues; and
- Exemption from certain taxation for an authority.

Section 59 transfers to the Northwest Florida Regional Transportation Finance Authority the governance and control of the Mid-Bay Bridge Authority, including the assets, facilities, tangible and intangible property and any rights in such property, and any other legal rights of the Mid-Bay Bridge Authority, including the bridge system operated by the authority. Activities relating to the Mid-Bay Bridge will be monitored under the Transportation Commission's existing oversight over entities created pursuant to ch. 343, F.S.

Section 60 amends s. 348.751, F.S., to change the short title of part III of ch. 348, F.S., from the "Orlando-Orange County Expressway Authority Law" to the "Central Florida Expressway Authority Law."

Section 61 amends s. 348.752, F.S., to define:

- "Central Florida Expressway Authority" (CFX) to mean the body politic and corporate and agency of the state;
- "Central Florida Expressway System," to mean a transportation facility, expressway, or appurtenant facility, and
- "Transportation facilities" to mean and include the mobile and fixed assets, and the associated real or personal property or rights, used in the transportation of persons or property by any means of conveyance, and all appurtenances, such as, but not limited to, highways; limited or controlled access lanes, avenues of access, and facilities; vehicles; fixed guideway facilities, including maintenance facilities; and administrative and other office space for the exercise by the authority of the powers and obligations granted in this part.

Research reveals no language elsewhere in ch. 348, F.S., that would include in any definition or in any other provision under current law the "administrative and other office space" of an expressway authority. This definition presumably would allow CFX to finance or even bond expenses for administrative and other office space.

This section of the bill also deletes the definitions of "city" and "county," revises various definitions to conform terminology to the renaming, and makes various other editorial and grammatical changes.

Section 62 amends s. 348.753, F.S., in which the OOCEA is created, to replace the OOCEA and:

- Create the Central Florida Expressway Authority (CFX), effective July 1, 2014;
- Require that CFX assume the governance and control of the OOCEA System, including its assets, personnel, contracts, obligations, liabilities, facilities, and tangible and intangible property;
- Transfer any rights in such property and other OOCEA legal rights to CFX; and
- Provide that the powers, responsibilities, and obligations of the OOCEA shall succeed to and be assumed by CFX on July 1, 2014.

The bill also provides for eleven members of the CFX governing board as follows:

- Three members appointed by the chairs of the boards of county commissioners of Seminole, Lake, and Osceola Counties, which members may be a commission member or chair;
- Six citizen members appointed by the Governor, two of which must be Orange County citizens; one member each of which must be a citizen of Seminole, Lake, and Osceola Counties; and one member which may be a citizen of any of the identified counties;
- The tenth member must be the Orange County Mayor, and the eleventh member must be the City of Orlando Mayor; and
- The executive director of the Turnpike Enterprise serves as a nonvoting advisor to the governing board of the authority.

The Governor's appointees are to serve four-year terms; county-appointed members are to serve two-year terms; and currently standing OOCEA board members are to complete their terms. A person who is an officer or employee of a municipality or county may not be an appointed member, except as otherwise provided.

In addition, the bill provides for election of CFX officers, provides quorum and voting requirements, makes editorial and grammatical changes, and conforms terminology to the renaming.

Section 63 amends s. 348.754, F.S., setting forth purposes and powers, to:

- Provide, with specified exception, that the CFX area served is within the geographical boundaries of Orange, Seminole, Lake, and Osceola Counties.
- Include in the authority to construct the Central Florida Expressway System rapid transit, trams, fixed guideways, thoroughfares, and boulevards.
- Prohibit CFX, without the prior consent of the FDOT secretary, from constructing an extension, addition, or improvement to the expressway system in Lake County, to ensure the continued financial feasibility of the portion of the Wekiva Parkway to be constructed by the FDOT.
- Authorize CFX to enter into leases, as lessee or lessor, for terms not exceeding 99 years, rather than the 40 years to which the OOCEA is currently limited, to facilitate projects that will require leases of a longer term. For example, stakeholders involved in the All Aboard Florida passenger rail project desire a longer term.
- Authorize CFX to enter into lease-purchase agreements with the FDOT for terms not exceeding 99 years, or until any bonds secured by a pledge of rentals pursuant to the agreement and any refunding pursuant to the agreement are fully paid, whichever is longer.
- Deem CFX a party to the existing lease-purchase agreement with the FDOT.
- Prohibit CFX from entering into other lease-purchase agreements with the FDOT or from amending the existing agreement in a manner that expands or increases the FDOT's obligations unless the FDOT determines the agreement or amendment is necessary to permit the refunding of bonds issued before July 1, 2012.
- Prohibit use of toll revenues from an increase in the toll rates charged on July 1, 2014, to construct or expand a different facility absent a two-thirds majority vote of the members, with specified exceptions.

- Authorize use of revenues of the expressway system within the right-of-way of the system for certain purposes, if the expenditures are consistent with the MPO's adopted long-range plan and notwithstanding s. 338.165, F.S., relating to continuation of tolls.
- Provide that specified bonds must mature not more than 40 years after their issue date.
- Authorize CFX to construct, operate, and maintain transportation facilities (in addition to roads, bridges, avenues of access, thoroughfares, and boulevards, and electronic toll payment systems on such roads and bridges, etc., outside the boundaries of Seminole, Lake, and Osceola Counties (in addition to Orange County) with the consent of the county within whose jurisdiction the activities occur.
- Remove the municipal governing board approval of a project route currently required before acquisition of right-of-way for an OOCEA project within the boundaries of Orange County.
- Require CFX to encourage the inclusion of local-, small-, minority-, and women-owned business in its procurement and contracting opportunities.
- Authorize CFX, within the right-of-way of the system, to finance or refinance the planning, design, construction, extension, maintenance, etc., of an intermodal facility or facilities, a multimodal corridor or corridors, or any programs or projects that will improve the levels of service on the expressway system.
- Remove provisions authorizing the OOCEA to waive payment and performance bonds on certain construction contracts and related small business provisions.
- Make editorial and grammatical changes and conform terminology to the renaming.

Sections 64 – 70 amend ss. 348.7543, 348.7544, 348.7545, 348.7546, 348.7547, 348.755, and 348.756, F.S., relating to bond financing authority for improvements, construction and financing of the Northwest Beltway Part A, construction and financing of the Western Beltway Part C, construction and financing of the Wekiva Parkway, construction and financing of the Maitland Boulevard Extension and Northwest Beltway Part A realignment, bonds of the authority, and remedies of the bondholders, respectively, to make editorial and grammatical changes and conform terminology to the renaming.

Section 71 amends s. 348.757, F.S., relating to lease-purchase agreements with the FDOT, to insert references to the *former* OOCEA system, make editorial changes, and conform terminology to the renaming.

Sections 72 - 77amend ss. 348.758, 348.759, 348.760, 348.761, 348.765, and 369.317, F.S., relating to appointment of FDOT as construction agent for the authority; acquisition of lands and property; cooperation with other units, boards, agencies, and individuals; covenant of the state; complete and additional authority, and Wekiva Parkway, respectively, to make editorial and grammatical changes and conform terminology to the renaming.

Section 78 amends s. 369.324, F.S., to reduce the membership of the Wekiva River Basin Commission from 19 to 18 members appointed by the Governor, nine of whom remain as voting members, and reducing from ten to nine the number of ad hoc nonvoting members, removing the representative from the previously repealed Seminole County Expressway Authority.

Section 79, effective upon the completion of construction of the Poinciana Parkway, transfers all powers, governance, and control of the Osceola County Expressway System, and the assets,

liabilities, facilities, tangible and intangible property and any rights in the property, as well as any other legal rights, to CFX, with specified extension of the transfer date until completion of certain projects. This section of the bill also repeals part V, ch. 348, F.S., consisting of ss. 348.9950 – 348.9961, F.S., on the same date that the Osceola County Expressway System is transferred to CFX. This section also requires CFX to reimburse other governmental entities for obligations related to the Osceola County Expressway System.

Section 80 amends s. 373.4137, F.S., to provide that mitigation take place in a manner that promotes efficiency, timeliness in project delivery, and cost-effectiveness. The bill requires the following for the development of environmental impact inventories for transportation projects proposed by the FDOT or a transportation authority:

- The FDOT must submit an environmental impact inventory of habitat impacts and the anticipated amount of mitigation needed to offset the impacts to the WMDs by July 1, and may include in the inventory the habitat impacts and the anticipated amount of mitigation needed for future projects; and
- The environmental impact inventory must include the proposed amount of mitigation needed based on the Uniform Mitigation Assessment Method (UMAM) and identification of the proposed mitigation option.

The bill requires FDOT to consider using credits from a permitted mitigation bank before projects are identified for inclusion in a WMD plan, taking into account state and federal requirements, maintenance, and liability.

The bill allows FDOT to implement the mitigation option identified in the environmental impact inventory by:

- Purchasing credits for current and future use directly from a mitigation bank;
- Purchasing mitigation services through the WMDs or the DEP;
- Conducting its own mitigation; or
- Using other mitigation options that meet state and federal requirements.

The bill requires funding for the identified mitigation option in the inventory to be included in FDOT's work program under s. 339.135, F.S., and requires and the amount programmed each year to correspond to an estimated cost of $150,000 per mitigation credit, multiplied by the projected number of credits identified in the inventory. The estimated cost per credit will be adjusted every two years by FDOT based on the average cost per UMAM credit.

The bill specifies that for mitigation implemented by the WMDs or the DEP, the amount paid each year must be based on mitigation services provided by the WMD or the DEP pursuant to an approved WMD mitigation plan. The WMDs or the DEP may request payment no sooner than 30 days before the date the funds are needed.

The bill requires that each quarter, the projected amount of mitigation must be reconciled with the actual amount of mitigation needed for projects as permitted. The programming of funds must be adjusted to reflect the mitigation as permitted.

FDOT may use the associated funds for the purchase of mitigation bank credits or any other mitigation option that satisfies the requirements, if the:

- WMD excludes a project from an approved WMD mitigation plan;
- WMD cannot timely permit a mitigation site to offset the impacts of an FDOT project identified in the inventory; or
- Proposed mitigation does not meet state and federal requirements.

The bill specifies that the WMD or the DEP, as appropriate, has continuing responsibility for the mitigation project upon final payment for mitigation and FDOT's or the participating transportation authority's obligation is satisfied.

The bill requires each WMD or the DEP to invoice the FDOT for mitigation services to offset only the impacts of an FDOT project identified in the inventory, beginning with the March 2014 WMD plans. If the WMD identifies the use of mitigation bank credits to offset an FDOT impact, the WMD must exclude that purchase from the mitigation plan and the FDOT must purchase the bank credits.

The bill requires that for mitigation activities occurring on existing WMD or DEP mitigation sites initiated with FDOT mitigation funds prior to July 1, 2013, the WMD or the DEP is required to invoice FDOT at $75,000 per acre multiplied by the projected acres of impact. The cost per acre must be adjusted by a calculation using the CPI.

The WMD must maintain records of the costs incurred including:

- Planning;
- Land acquisition;
- Design and construction;
- Staff support, long-term maintenance and monitoring of the mitigation site; and
- Other costs necessary to meet federal requirements pursuant to 33 U.S.C. s. 1344 and 33 C.F.R. s. 332.

The bill requires the funds identified in the FDOT's work program or participating transportation authorities' escrow accounts, for preparing and implementing the mitigation plans, adopted by the WMDs on or before March 1, 2013, to correspond to $75,000 per acre multiplied by the projected acres of impact, adjusted by the CPI. The WMD must maintain records of the costs incurred in implementing the mitigation. If monies paid to a WMD exceed the amount spent by the WMD to implement the mitigation, the funds must be refunded to FDOT or the participating transportation authority. This provision expires June 30, 2014.

The bill requires each WMD to develop a plan to offset only the impacts of transportation projects in the inventory for which a WMD is implementing mitigation. The WMD plan must identify the site where the WMD will mitigate, the scope of the mitigation activities at each mitigation site, and the functional gain at each mitigation site as determined using UMAM. The mitigation plan must be submitted to the WMD's governing board for review and approval. The bill requires that the WMD provide a copy of the draft mitigation plan to the DEP at least 14

days before governing board approval. The plan may not be implemented until it is subsequently approved by the DEP. The bill also requires the plan to describe how the mitigation offsets the impacts of each transportation project and provide a schedule for the mitigation services.

Section 81 amends s. 373.618, F.S., to provide that a public information system located on WMD property that is subject to the Highway Beautification Act of 1965 must be approved by the FDOT and the Federal Highway Administration, if such approval is required by federal law.

Section 82 amends s. 341.052, F.S., relating to the public transit block grant program, to prohibit a public transit provider from using public transit block grant funds to pursue or promote the levy of new or additional taxes through public referenda. It also reduces the amount of a provider's grant to the extent that a public transit provider so uses other public funds and defines the term "public funds" for purposes of the prohibition.

Section 83 directs the Florida Transportation Commission to conduct a study, of the potential for the state to obtain revenue from parking meters or other parking time-limit devices that regulate designated parking spaces located within right-of-way limits of a state road. Each city and county that receives revenue from parking meters or devices must provide the commission with a written inventory of the location of each meter or device and include information as to any pledge or commitment by the city or county of parking revenues to the payment of debt service on any bonds or other debt issued.

The commission must consider the information provided and develop policy recommendations regarding the manner and extent that such revenues may be allocated between the FDOT and the cities and counties, develop specific recommendations concerning the allocation of revenues generated by meters or devices installed before and after July 1, 2013.

Installation of any additional meters or devices that regulate designated parking spaces located within or along the right-of-way limits of a state road is prohibited from July 1, 2013, through July 1, 2014, excluding the installation of new meters or devices to replace meters or devices installed before July 1, 2013.

Section 84 makes it unlawful for any used tire retailer to sell unsafe used tires for the purpose of mounting on a vehicle as defined in s. 316.003, F.S. The bill excludes retailers who sell used tires for recapping. A used tire is considered unsafe if it:

- Is worn to 2/32 of an inch or less of tread depth;
- Has any damage that exposes the reinforcing plies of the tire;
- Has an improper repair, such as an improperly sealed puncture; a repair to the tread shoulder, belt edge, sidewall, or bead area; or a puncture repair larger than 1/4 of an inch;
- Has evidence that a temporary tire sealant has been used and there is no evidence of a subsequent proper repair;
- Has its identification number defaced or removed;
- Has inner liner or bead damage; or
- Has any indication of internal separation.

A person who violates these provisions commits an unfair and deceptive trade practice under the Florida Deceptive and Unfair Trade Practices Act.

Section 85 provides that the bill takes effect upon becoming law, except as otherwise expressly provided.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Section 6

The increased allowable weight of APUs decreases the potential fine for a commercial motor vehicle overweight violation by no more than $7.50.

Section 9

Motor fuel tax funds paid by citizens and businesses in a particular locality may be at less risk of diversion to a different area of the state in a manner contrary to the statutory allocation for those funds if the funds were expended by FDOT through its normal work program process, rather than through a lease-purchase agreement.

Section 17

Those wishing to submit proposals for lease of FDOT property that FDOT wishes to consider will be subject to an application fee sufficient to pay the anticipated cost of evaluating the proposal, to be established by FDOT rule. Opportunities for private consultant contracts with FDOT are authorized.

Section 45

Revision of the definition of "intercity bus service" allows companies other than Greyhound Bus Lines to compete for federal and state program funds.

C. Government Sector Impact:

Section 1

The FTC will incur additional expenditures associated with monitoring the regional transportation finance authorities. These expenses are expected to be absorbed within existing resources. However, the FTC notes that, depending on the number of authorities eventually established, additional FTE(s) may be needed to effectively conduct its responsibility.

Section 5

Removing the obsolete language regarding wrecker permits will avoid any negative impact to the state from a potential federal funds penalty for failure to comply with federal commercial motor vehicle requirements, as giving effect to the obsolete provisions would render the state noncompliant with federal law.

Section 6

The increased allowable weight of APUs decreases a potential fine by no more than $7.50.

Section 17

The FDOT's costs associated with evaluating lease proposals pursuant to s. 337.251, F.S., would presumably be covered by the application fee the FDOT is required to establish by rule, particularly if the fee includes the cost of private consultants the FDOT is authorized to engage to assist in its evaluations.

Section 21

The obligations of Alligator Alley toll revenues to operate a local fire station and of the FDOT to transfer excess toll revenues to the Everglades Restoration Fund beyond that which is agreed to in the Memorandum of Understanding between the FDOT and the SFWMD, are removed. A positive fiscal impact to the state is expected.

Section 11

The City of Miami will incur indeterminate expenses associated with its assumption of street cleaning, landscaping, and maintenance responsibilities of the right-of-way of a certain portion of Brickell Avenue.

Section 83

The Florida Transportation Commission will incur indeterminate expenses associated with the study relating to parking meters, and FDOT will incur indeterminate expenses associated with any expert expenses.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS/SB 1132 by Appropriations on April 23, 2013:
The committee substitute differs from the previous version of the bill as follows:

- Authorizes attachment of a forklift to the rear of the cargo bed of a straight truck if the overall combined length of the vehicle and the forklift does not exceed 50 feet;
- Directs the FDOT to enter into an interlocal agreement with the City of Miami for a five-year pilot program under which the city assumes street cleaning, landscaping, and maintenance responsibilities of the right-of-way of a certain portion of Brickell Avenue; and directs the Florida Transportation Commission to conduct a study to evaluate the effectiveness and benefits of the pilot program;
- Authorizes a county to receive solicited and unsolicited proposals from a private entity to construct, extend, or improve a county road and to enter into public-private partnership agreements for such a project;
- Revises language for the protection of the holders of any potential regional transportation finance authority bonds and imposes additional requirements for FDOT participation in any potential regional transportation finance authority projects.
- Requires the Florida Transportation Commission to conduct a study of the potential for the state to obtain revenue from any parking meters or other parking time-limit devices within or along the right-of-way limits of a state road.
- Makes it unlawful for any used tire retailer to sell unsafe used tires for the purpose of mounting on a vehicle.
- Removes all language relating to bus benches in the state road rights-of-way, local government noise mitigation regulations, aviation fuel tax revisions, and natural gas fuel taxation, and the FDOT's ancillary authority to undertake ancillary development in state-owned rail corridors.
- Renames and reconfigures the Northwest Florida Transportation Corridor Authority as the Northwest Florida Regional Transportation Finance Authority and revises related provisions;

- Renames and reconfigures the Orlando-Orange County Expressway Authority as the Central Florida Expressway Authority and revises related provisions. Revises the terms and conditions under which the FDOT may sell or lease properties acquired for transportation rights-of-way;
- Prohibits the expenditure of public transit block grant funds to pursue or promote the levy of new or additional taxes through public referenda;
- Revises provisions relation to environmental mitigation for transportation projects, state park road maintenance, water management district public information systems, and the FDOT purchase of plant materials for roadside enhancement and maintenance;
- Authorizes the FDOT to administer the small county dredging program and sunsets the program on July 1, 2018;
- Repeals the Florida Transportation Corporation Act and related audit authority; and
- Makes technical and conforming changes.

CS by Community Affairs on March 20, 2013:
The committee substitute:

- Removes reference to the Mid-Bay Bridge Authority and inserts a reference to the new ch. 345, F.S., in s. 20.23, F.S. The bill also transfers the Mid-Bay Bridge Authority to the Okaloosa-Bay Regional Tollway Authority, which is governed by the provisions of the new ch. 345, F.S. The reference to the new ch. 345, F.S., subjects the Okaloosa-Bay Regional Tollway Authority, and any other regional tollway authority created in the bill or subsequently created under provisions in the new ch. 345, F.S., to oversight and monitoring by the Florida Transportation Commission, as are various other expressway, road and bridge, and regional transportation authorities. The amendment also strikes a phrase referencing subsection (3), which subsection establishes the Florida Statewide Passenger Rail Commission, as the bill also repeals the Florida Statewide Passenger Rail Commission.
- Provides that the $15 million minimum annual funding authorized to be made available from the State Transportation Trust Fund for space transportation projects shall be from the funds dedicated to public transportation projects pursuant to s. 206.46(3), F.S.
- Removes from the bill provisions for the "Spaceport Investment Program," which required allocation of $5 million annually, for up to 30 years, for the purpose of funding any spaceport project identified in the FDOT's Adopted Work Program; and authorized the revenues to be assigned, pledged, or set aside as a trust for the payment of principal or interest on bonds, tax anticipation certificates, or other forms of indebtedness issued by Space Florida, or used to purchase credit support to permit such borrowings.
- Removes from the bill authorization for installation of parking meters or other time-limit devices within the right-of-way limits of a state road if permitted by the FDOT; removes direction requiring each county and municipality to promptly remit to the FDOT 50 percent of the revenue generated from the fees collected by a parking meter or other time-limit device installed or already existing within the right-of-way limits of a state road under the FDOT's jurisdiction; and removes the requirements that

funds received by the FDOT to be deposited into the STTF and used in accordance with s. 339.08, F.S.

- Adds to the bill the provisions of CS/SB 579, establishing a fuel tax structure for natural gas used as a motor fuel similar to that for diesel fuel beginning in 2019, eliminating the current decal program for vehicles powered by alternative fuels, and repealing the Local Alternative Fuel User Fee Clearing Trust Fund.
- Adds to the bill the revised bus bench and bus shelter language shifting liability from the cities and counties to the private owner installers of bus benches and bus shelters within the right-of-way of the SHS.
- Makes technical changes.

B. Amendments:

None.

By the Committee on Community Affairs; and Senator Brandes

578-02811A-13 20131132c1

A bill to be entitled

An act relating to the Department of Transportation; amending s. 20.23, F.S.; requiring the Transportation Commission to also monitor ch. 345, F.S., relating to the Florida Regional Tollway Authority; deleting provisions relating to the Florida Statewide Passenger Rail Commission; amending s. 110.205, F.S.; changing to the State Freight and Logistics Administrator from the State Public Transportation and Modal Administrator, which is an exempt position not covered under career service; creating s. 163.3176, F.S.; providing legislative intent; requiring that a local government ensure that noise compatible land-use planning is used in its jurisdiction; providing guidelines; providing for the sharing of related costs of construction if a local government does not comply with the noise mitigation requirements; requiring that local governments consult with the Department of Transportation and the Department of Economic Opportunity in the formulation of noise mitigation requirements; amending s. 206.86, F.S.; deleting definitions for the terms “alternative fuel” and “natural gasoline”; amending s. 206.87, F.S.; conforming a cross-reference; repealing s. 206.877, F.S., relating to the annual decal fee program for motor vehicles powered by alternative fuels; repealing s. 206.89, F.S., relating to the requirements for alternative fuel retailer licenses; amending s. 206.91, F.S.; making grammatical and technical

578-02811A-13 20131132c1

changes; providing a directive to the Division of Law Revision and Information; amending s. 206.9825, F.S.; revising the criteria that certain air carriers must meet to qualify for an exemption to the aviation fuel tax; providing remedies for failure by an air carrier to meet the standards; authorizing terminal suppliers and wholesalers to receive a credit, or apply, for a refund of aviation fuel tax previously paid; conforming terminology; authorizing the Department of Revenue to adopt rules; creating s. 206.9951, F.S.; providing definitions; creating s. 206.9952, F.S.; establishing requirements for natural gas fuel retailer licenses; providing penalties for certain licensure violations; creating s. 206.9955, F.S.; providing calculations for a motor fuel equivalent gallon; providing for the levy of the natural gas fuel tax; authorizing the Department of Revenue to adopt rules; creating s. 206.996, F.S.; establishing requirements for monthly reports of natural gas fuel retailers; providing that reports are made under the penalties of perjury; allowing natural gas fuel retailers to seek a deduction of the tax levied under specified conditions; creating s. 206.9965, F.S.; providing exemptions and refunds from the natural gas fuel tax; transferring, renumbering, and amending s.206.879, F.S; revising provisions relating to the State Alternative Fuel User Fee Clearing Trust Fund; terminating the Local Alternative Fuel User Fee Clearing Trust Fund within the Department of Revenue;

prescribing procedures for the termination of the trust fund; creating s. 206.998, F.S.; providing for the applicability of specified sections of parts I and II of ch. 206, F.S.; amending s. 212.055, F.S.; conforming a cross-reference; amending s. 212.08, F.S.; providing an exemption from taxes for natural gas fuel under certain circumstances; repealing s. 316.530(3), F.S., relating to load limits for certain towed vehicles; amending s. 316.545, F.S.; increasing the weight amount used for penalty calculations; conforming terminology; amending s. 331.360, F.S.; reordering provisions; providing for a spaceport system plan; providing funding for space transportation projects from the State Transportation Trust Fund; requiring Space Florida to provide the Department of Transportation with specific project information and to demonstrate transportation and aerospace benefits; specifying the information to be provided; providing funding criteria; providing criteria for the Spaceport Investment Program; providing for funding; amending s. 332.007, F.S.; authorizing the Department of Transportation to fund strategic airport investments; providing criteria; amending s. 334.044, F.S.; prohibiting the department from entering into a lease-purchase agreement with certain transportation authorities after a specified time; amending s. 337.11, F.S.; removing the requirement that a contractor provide a notarized affidavit as proof of registration; amending s.

337.14, F.S.; revising the criteria for bidding certain construction contracts to require a proposed budget estimate if a contract is more than a specified amount; amending s. 337.168, F.S.; providing that a document that reveals the identity of a person who has requested or received certain information before a certain time is a public record; amending s. 337.251, F.S.; revising criteria for leasing particular department property; increasing the time the department must accept proposals for lease after a notice is published; authorizing the department to establish an application fee by rule; providing criteria for the fee; providing criteria that the lease must meet; amending s. 337.408, F.S.; providing that persons who install a transit shelter or bus bench on certain right-of-ways are responsible for ensuring that the bench or transit shelter complies with applicable laws and rules; providing for the disposition of a bench or transit shelter that is not in compliance with applicable laws or rules; requiring owners of a bench or transit shelter to provide the department with a written inventory of locations; requiring the owner of a bench or transit shelter to maintain a liability insurance policy naming the department as an additional insured; specifying requirements for the policy; providing criteria for notice of modification, cancellation, or nonrenewal of an insurance policy; providing exceptions; requiring each county or municipality to remit certain revenue

to the department; amending s. 338.161, F.S.; authorizing the department to enter into agreements with owners of public or private transportation facilities rather than entities that use the department's electronic toll collection and video billing systems to collect certain charges; amending s. 338.165, F.S.; removing the Beeline-East Expressway and the Navarre Bridge from the list of facilities that have toll revenues to secure their bonds; amending s. 338.26, F.S.; revising the uses of fees that are generated from tolls to include the design and construction of a fire station that may be used by certain local governments in accordance with a specified memorandum; removing authority of a district to issue bonds or notes; amending s. 339.175, F.S.; revising the criteria that qualify a local government for participation in a metropolitan planning organization; revising the criteria to determine voting membership of a metropolitan planning organization; providing that each metropolitan planning organization shall review its membership and reapportion it as necessary; providing criteria; removing the requirement that the Governor review and apportion the voting membership among the various governmental entities within the metropolitan planning area; amending s. 339.2821, F.S.; authorizing Enterprise Florida, Inc., to be a consultant to the Department of Transportation for consideration of expenditures associated with and contracts for

transportation projects; revising the requirements for economic development transportation project contracts between the department and a governmental entity; amending s. 339.55, F.S.; adding spaceports to the list of facility types for which the state-funded infrastructure bank may lend capital costs or provide credit enhancements; amending s. 341.031, F.S.; revising the definition of the term "intercity bus service"; amending s. 341.053, F.S.; revising the types of eligible projects and criteria of the intermodal development program; amending s. 341.302, F.S.; authorizing the Department of Transportation to undertake ancillary development for appropriate revenue sources to be used for state-owned rail corridors; amending ss. 343.82 and 343.922, F.S.; removing reference to advances from the Toll Facilities Revolving Trust Fund as a source of funding for certain projects by an authority; creating ch. 345, F.S., relating to the Florida Regional Tollway Authority; creating s. 345.0001, F.S.; providing a short title; creating s. 345.0002, F.S.; providing definitions; creating s. 345.0003, F.S.; authorizing counties to form a regional tollway authority that can construct, maintain, or operate transportation projects in a region of the state; providing for governance of the authority; creating s. 345.0004, F.S.; providing for the powers and duties of a regional tollway authority; limiting an authority's power with respect to an existing system; prohibiting

an authority from pledging the credit or taxing power of the state or any political subdivision or agency of the state; requiring that an authority comply with certain reporting and documentation requirements; creating s. 345.0005, F.S.; authorizing the authority to issue bonds; providing that the issued bonds must meet certain requirements; providing that the resolution that authorizes the issuance of bonds meet certain requirements; authorizing an authority to enter into security agreements for issued bonds with a bank or trust company; providing that the issued bonds are negotiable instruments and have certain qualities; providing that a resolution authorizing the issuance of bonds and pledging of revenues of the system must contain certain requirements; prohibiting the use or pledge of state funds to pay principal or interest of an authority's bonds; creating s. 345.0006, F.S.; providing for the rights and remedies granted to certain bondholders; providing the actions a trustee may take on behalf of the bondholders; providing for the appointment of a receiver; providing for the authority of the receiver; providing limitations to the receiver's authority; creating s. 345.0007, F.S.; providing that the Department of Transportation is the agent of each authority for specified purposes; providing for the administration and management of projects by the department; providing limits on the department as an agent; providing for the fiscal responsibilities of the authority; creating s.

345.0008, F.S.; authorizing the department to provide for or commit its resources for an authority project or system, if approved by the Legislature; providing for payment of expenses incurred by the department on behalf of an authority; requiring the department to receive a share of the revenue from the authority; providing calculations for disbursement of revenues; creating s. 345.0009, F.S.; authorizing the authority to acquire private or public property and property rights for a project or plan; authorizing the authority to exercise the right of eminent domain; providing for the rights and liabilities and remedial actions relating to property acquired for a transportation project or corridor; creating s. 345.0010, F.S.; providing for contracts between governmental entities and an authority; creating s. 345.0011, F.S.; providing that the state will not limit or alter the vested rights of a bondholder with regard to any issued bonds or rights relating to the bonds under certain conditions; creating s. 345.0012, F.S.; relieving the authority from the obligation of paying certain taxes or assessments for property acquired or used for certain public purposes or for revenues received relating to the issuance of bonds; providing exceptions; creating s. 345.0013, F.S.; providing that the bonds or obligations issued are legal investments of specified entities; creating s. 345.0014, F.S.; providing applicability; creating s. 345.0015, F.S.; creating the Northwest Florida

Regional Tollway Authority; creating s. 345.0016, F.S.; creating the Okaloosa-Bay Regional Tollway Authority; creating s. 345.0017, F.S.; creating the Suncoast Regional Tollway Authority; providing for the transfer of the governance and control of the Mid-Bay Bridge Authority System to the Okaloosa-Bay Regional Tollway Authority; providing for the disposition of bonds, the protection of the bondholders, the effect on the rights and obligations under a contract or the bonds, and the revenues associated with the bonds; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (b) of subsection (2) and subsection (3) of section 20.23, Florida Statutes, are amended, and present subsections (4) through (7) of that subsection are renumbered as subsections (3) through (6), to read:

20.23 Department of Transportation.—There is created a Department of Transportation which shall be a decentralized agency.

(2)

(b) The commission shall ~~have the primary functions to~~:

1. Recommend major transportation policies for the Governor’s approval, and assure that approved policies and any revisions ~~thereto~~ are properly executed.

2. Periodically review the status of the state transportation system including highway, transit, rail, seaport, intermodal development, and aviation components of the system

and recommend improvements therein to the Governor and the Legislature.

3. Perform an in-depth evaluation of the annual department budget request, the Florida Transportation Plan, and the tentative work program for compliance with all applicable laws and established departmental policies. Except as specifically provided in s. 339.135(4)(c)2., (d), and (f), the commission may not consider individual construction projects, but shall consider methods of accomplishing the goals of the department in the most effective, efficient, and businesslike manner.

4. Monitor the financial status of the department on a regular basis to assure that the department is managing revenue and bond proceeds responsibly and in accordance with law and established policy.

5. Monitor on at least a quarterly basis, the efficiency, productivity, and management of the department, using performance and production standards developed by the commission pursuant to s. 334.045.

6. Perform an in-depth evaluation of the factors causing disruption of project schedules in the adopted work program and recommend to the Legislature and the Governor methods to eliminate or reduce the disruptive effects of these factors.

7. Recommend to the Governor and the Legislature improvements to the department’s organization in order to streamline and optimize the efficiency of the department. In reviewing the department’s organization, the commission shall determine if the current district organizational structure is responsive to Florida’s changing economic and demographic development patterns. The initial report by the commission must

be delivered to the Governor and Legislature by December 15, 2000, and each year thereafter, as appropriate. The commission may retain ~~such~~ experts that ~~as~~ are reasonably necessary to effectuate this subparagraph, and the department shall pay the expenses of the ~~such~~ experts.

8. Monitor the efficiency, productivity, and management of the authorities created under chapters 345, 348, and 349, including any authority formed using the provisions of part I of chapter 348, and any authority formed under chapter 343 ~~which is not monitored under subsection (3)~~. The commission shall also conduct periodic reviews of each authority's operations and budget, acquisition of property, management of revenue and bond proceeds, and compliance with applicable laws and generally accepted accounting principles.

~~(3) There is created the Florida Statewide Passenger Rail Commission.~~

~~(a)1. The commission shall consist of nine voting members appointed as follows:~~

~~a. Three members shall be appointed by the Governor, one of whom must have a background in the area of environmental concerns, one of whom must have a legislative background, and one of whom must have a general business background.~~

~~b. Three members shall be appointed by the President of the Senate, one of whom must have a background in civil engineering, one of whom must have a background in transportation construction, and one of whom must have a general business background.~~

~~c. Three members shall be appointed by the Speaker of the House of Representatives, one of whom must have a legal~~

~~background, one of whom must have a background in financial matters, and one of whom must have a general business background.~~

~~2. The initial term of each member appointed by the Governor shall be for 4 years. The initial term of each member appointed by the President of the Senate shall be for 3 years. The initial term of each member appointed by the Speaker of the House of Representatives shall be for 2 years. Succeeding terms for all members shall be for 4 years.~~

~~3. A vacancy occurring during a term shall be filled by the respective appointing authority in the same manner as the original appointment and only for the balance of the unexpired term. An appointment to fill a vacancy shall be made within 60 days after the occurrence of the vacancy.~~

~~4. The commission shall elect one of its members as chair of the commission. The chair shall hold office at the will of the commission. Five members of the commission shall constitute a quorum, and the vote of five members shall be necessary for any action taken by the commission. The commission may meet upon the constitution of a quorum. A vacancy in the commission does not impair the right of a quorum to exercise all rights and perform all duties of the commission.~~

~~5. The members of the commission are not entitled to compensation but are entitled to reimbursement for travel and other necessary expenses as provided in s. 112.061.~~

~~(b) The commission shall have the primary functions of:~~

~~1. Monitoring the efficiency, productivity, and management of all publicly funded passenger rail systems in the state, including, but not limited to, any authority created under~~

~~chapter 343, chapter 349, or chapter 163 if the authority receives public funds for the provision of passenger rail service. The commission shall advise each monitored authority of its findings and recommendations. The commission shall also conduct periodic reviews of each monitored authority's passenger rail and associated transit operations and budget, acquisition of property, management of revenue and bond proceeds, and compliance with applicable laws and generally accepted accounting principles. The commission may seek the assistance of the Auditor General in conducting such reviews and shall report the findings of such reviews to the Legislature. This paragraph does not preclude the Florida Transportation Commission from conducting its performance and work program monitoring responsibilities.~~

~~2. Advising the department on policies and strategies used in planning, designing, building, operating, financing, and maintaining a coordinated statewide system of passenger rail services.~~

~~3. Evaluating passenger rail policies and providing advice and recommendations to the Legislature on passenger rail operations in the state.~~

~~(c) The commission or a member of the commission may not enter into the day-to-day operation of the department or a monitored authority and is specifically prohibited from taking part in:~~

~~1. The awarding of contracts.~~

~~2. The selection of a consultant or contractor or the prequalification of any individual consultant or contractor. However, the commission may recommend to the secretary standards~~

~~and policies governing the procedure for selection and prequalification of consultants and contractors.~~

~~3. The selection of a route for a specific project.~~

~~4. The specific location of a transportation facility.~~

~~5. The acquisition of rights of way.~~

~~6. The employment, promotion, demotion, suspension, transfer, or discharge of any department personnel.~~

~~7. The granting, denial, suspension, or revocation of any license or permit issued by the department.~~

~~(d) The commission is assigned to the Office of the Secretary of the Department of Transportation for administrative and fiscal accountability purposes, but it shall otherwise function independently of the control and direction of the department except that reasonable expenses of the commission shall be subject to approval by the Secretary of Transportation. The department shall provide administrative support and service to the commission.~~

Section 2. Paragraphs (j) and (m) of subsection (2) of section 110.205, Florida Statutes, are amended to read:

110.205 Career service; exemptions.—

(2) EXEMPT POSITIONS.—The exempt positions that are not covered by this part include the following:

(j) The appointed secretaries and the State Surgeon General, assistant secretaries, deputy secretaries, and deputy assistant secretaries of all departments; the executive directors, assistant executive directors, deputy executive directors, and deputy assistant executive directors of all departments; the directors of all divisions and those positions determined by the department to have managerial responsibilities

comparable to such positions, which positions include, but are not limited to, program directors, assistant program directors, district administrators, deputy district administrators, the Director of Central Operations Services of the Department of Children and Family Services, the State Transportation Development Administrator, State Freight and Logistics ~~Public Transportation and Modal~~ Administrator, district secretaries, district directors of transportation development, transportation operations, transportation support, and the managers of the offices specified in s. 20.23(3)(b) ~~20.23(4)(b)~~, of the Department of Transportation. Unless otherwise fixed by law, the department shall set the salary and benefits of these positions in accordance with the rules of the Senior Management Service; and the county health department directors and county health department administrators of the Department of Health.

(m) All assistant division director, deputy division director, and bureau chief positions in any department, and those positions determined by the department to have managerial responsibilities comparable to such positions, which include, but are not limited to:

1. Positions in the Department of Health and the Department of Children and Family Services that are assigned primary duties of serving as the superintendent or assistant superintendent of an institution.

2. Positions in the Department of Corrections that are assigned primary duties of serving as the warden, assistant warden, colonel, or major of an institution or that are assigned primary duties of serving as the circuit administrator or deputy circuit administrator.

3. Positions in the Department of Transportation that are assigned primary duties of serving as regional toll managers and managers of offices, as defined in s. 20.23(3)(b) and (4)(c) ~~20.23(4)(b) and (5)(c)~~.

4. Positions in the Department of Environmental Protection that are assigned the duty of an Environmental Administrator or program administrator.

5. Positions in the Department of Health that are assigned the duties of Environmental Administrator, Assistant County Health Department Director, and County Health Department Financial Administrator.

Unless otherwise fixed by law, the department shall set the salary and benefits of the positions listed in this paragraph in accordance with the rules established for the Selected Exempt Service.

Section 3. Section 163.3176, Florida Statutes, is created to read:

163.3176 Legislative findings; noise mitigation requirements in development plans for land abutting the right-of-way of a limited access facility; compliance required of local governments.—

(1) The Legislature finds that incompatible residential development of land adjacent to the rights-of-way of limited access facilities and the failure to provide protections related to noise abatement have not been in the best interest of the public welfare or the economic health of the state. The Legislature finds that the costs of transportation projects are significantly increased by the added expense of required noise

abatement and by the delay of other potential and needed transportation projects. The Legislature finds that limited access facilities generate traffic noise due to the high speed and high volumes of vehicular traffic on these important highways. The Legislature finds that important state interests, including, but not limited to, the protection of future residential property owners, will be served by ensuring that local governments have land development ordinances that promote residential land-use planning and development that is noise compatible with adjacent limited access facilities, and by avoiding future noise abatement problems and the related state expense to provide noise mitigation for residential dwellings constructed after notice of a planned limited access facility is made public. Additionally, the Legislature finds that, with future potential population growth and the resulting need for future capacity improvements to limited access facilities, noise compatible residential land-use planning must take into consideration an evaluation of future impacts of traffic noise on proposed residential developments that are adjacent to limited access facilities.

(2) Each local government shall ensure that noise compatible land-use planning is used in its jurisdictions in the development of land for residential use which is adjacent to right-of-way acquired for a limited access facility. The measures must include the incorporation of federal and state noise mitigation standards and guidelines in all local government land development regulations and be reflected in and carried out in the local government comprehensive plans, amendments of adopted comprehensive plans, zoning plans,

subdivision plat approvals, development permits, and building permits. Each local government shall ensure that residential development proposed adjacent to a limited access facility is planned and constructed in conformance with all noise mitigation standards, guidelines, and regulations. A local government shall share equally with the Department of Transportation all related costs of construction if the local government does not comply with this section and, as a result, the department is required to construct a noise wall or other noise mitigation in connection with a road improvement project.

(3) A local government shall consult with the Department of Economic Opportunity and the department, as needed, in the formulation and establishment of adequate noise mitigation requirements in the respective land development regulations as mandated in this section. A local government shall adopt land development regulations that are consistent with this section, as soon as practicable, but not later than July 1, 2014.

Section 4. Section 206.86, Florida Statutes, is amended to read:

206.86 Definitions.—As used in this part:

(1) "Diesel fuel" means all petroleum distillates commonly known as diesel #2, biodiesel, or any other product blended with diesel or any product placed into the storage supply tank of a diesel-powered motor vehicle.

(2) "Taxable diesel fuel" or "fuel" means any diesel fuel not held in bulk storage at a terminal ~~and~~ which has not been dyed for exempt use in accordance with Internal Revenue Code requirements.

(3) "User" includes any person who uses diesel fuels within

this state for the propulsion of a motor vehicle on the public highways of this state, even though the motor is also used for a purpose other than the propulsion of the vehicle.

~~(4) "Alternative fuel" means any liquefied petroleum gas product or compressed natural gas product or combination thereof used in an internal combustion engine or motor to propel any form of vehicle, machine, or mechanical contrivance. This term includes, but is not limited to, all forms of fuel commonly or commercially known or sold as natural gasoline, butane gas, propane gas, or any other form of liquefied petroleum gas or compressed natural gas.~~

~~(5) "Natural gasoline" is a liquid hydrocarbon that is produced by natural gas and must be blended with other liquid petroleum products to produce motor fuel.~~

(4)~~(6)~~ "Removal" means any physical transfer of diesel fuel and any use of diesel fuel other than as a material in the production of diesel fuel.

(5)~~(7)~~ "Blender" means any person who ~~that~~ produces blended diesel fuel outside the bulk transfer/terminal system.

(6)~~(8)~~ "Colorless marker" means material that is not perceptible to the senses until the diesel fuel into which it is introduced is subjected to a scientific test.

(7)~~(9)~~ "Dyed diesel fuel" means diesel fuel that is dyed in accordance with United States Environmental Protection Agency or Internal Revenue Service requirements for high sulfur diesel fuel or low sulfur diesel fuel.

(8)~~(10)~~ "Ultimate vendor" means a licensee that sells undyed diesel fuel to the United States or its departments or agencies in bulk lots of not less than 500 gallons in each

delivery or to the user of the diesel fuel for use on a farm for farming purposes.

(9)~~(11)~~ "Local government user of diesel fuel" means any county, municipality, or school district licensed by the department to use untaxed diesel fuel in motor vehicles.

(10)~~(12)~~ "Mass transit system" means any licensed local transportation company providing local bus service that is open to the public and that travels regular routes.

(11)~~(13)~~ "Diesel fuel registrant" means anyone required by this chapter to be licensed to remit diesel fuel taxes, including, but not limited to, terminal suppliers, importers, local government users of diesel fuel, and mass transit systems.

(12)~~(14)~~ "Biodiesel" means any product made from nonpetroleum-based oils or fats which is suitable for use in diesel-powered engines. Biodiesel is also referred to as alkyl esters.

(13)~~(15)~~ "Biodiesel manufacturer" means those industrial plants, regardless of capacity, where organic products are used in the production of biodiesel. This includes businesses that process or blend organic products that are marketed as biodiesel.

Section 5. Paragraph (a) of subsection (1) of section 206.87, Florida Statutes, is amended to read:

206.87 Levy of tax.—

(1)(a) An excise tax of 4 cents per gallon is ~~hereby~~ imposed upon each net gallon of diesel fuel subject to the tax under subsection (2)~~, except alternative fuels which are subject to the fee imposed by s. 206.877~~.

Section 6. Section 206.877, Florida Statutes, is repealed.

Section 7. Section 206.89, Florida Statutes, is repealed.

Section 8. Subsection (1) of section 206.91, Florida Statutes, is amended to read:

206.91 Tax reports; computation and payment of tax.—

(1) For the purpose of determining the amount of taxes imposed by s. 206.87, each diesel fuel registrant shall, not later than the 20th day of each calendar month, mail to the department, on forms prescribed by the department, monthly reports that provide ~~which shall show such~~ information on inventories, purchases, nontaxable disposals, and taxable sales in gallons of diesel fuel ~~and alternative fuel,~~ for the preceding calendar month ~~as may be~~ required by the department. However, if the 20th day falls on a Saturday, a Sunday, or a federal or state legal holiday, returns shall be accepted if postmarked on the next succeeding workday. The reports must include, ~~shall contain~~ or be verified by, a written declaration stating that they are ~~such report is~~ made under the penalties of perjury. The diesel fuel registrant shall deduct from the amount of taxes shown by the report to be payable an amount equivalent to .67 percent of the taxes on diesel fuel imposed by s. 206.87(1)(a) and (e), which deduction is ~~hereby~~ allowed to the diesel fuel registrant on account of services and expenses in complying with the provisions of this part. The allowance on taxable gallons of diesel fuel sold to persons licensed under this chapter is not ~~shall not be~~ deductible unless the diesel fuel registrant has allowed 50 percent of the allowance provided by this section to a purchaser with a valid wholesaler or terminal supplier license. This allowance is not ~~shall not be~~ deductible unless payment of the taxes is made on or before the

20th day of the month as ~~herein~~ required in this subsection. ~~Nothing in~~ This subsection does not ~~shall be construed to~~ authorize a deduction from the constitutional fuel tax or fuel sales tax.

Section 9. Subsection (1) of section 206.9825, Florida Statutes, is amended to read:

206.9825 Aviation fuel tax.—

(1)(a) Except as otherwise provided in this part, an excise tax of 6.9 cents per gallon of aviation fuel is imposed upon every gallon of aviation fuel sold in this state, or brought into this state for use, upon which such tax has not been paid or the payment thereof has not been lawfully assumed by some person handling the same in this state. Fuel taxed pursuant to this part shall not be subject to the taxes imposed by ss. 206.41(1)(d), (e), and (f) and 206.87(1)(b), (c), and (d).

(b) Any ~~licensed wholesaler or terminal supplier that delivers aviation fuel to an~~ air carrier that offers ~~offering~~ transcontinental jet service and that has, within the preceding 5-year period from January 1 of the year the exemption is being applied for, increased its ~~that, after January 1, 1996, increases the air carrier's~~ Florida workforce by more than 1,000 ~~1000~~ percent and by 250 or more full-time equivalent employee positions as provided in reports that must be filed pursuant to s. 443.163, may purchase ~~receive a credit or refund as the ultimate vendor of the~~ aviation fuel exempt from ~~for~~ the 6.9 cents per gallon tax imposed by this part from terminal suppliers and wholesalers, provided that the air carrier has no facility for fueling highway vehicles from the tank in which the aviation fuel is stored. To qualify for the exemption, an air

carrier must submit a written request to the department stating that it meets the requirements of this paragraph. The exemption under this paragraph expires on December 31 of the year it was granted. The exemption is not allowed for any period before the effective date of the air carrier exemption letter issued by the department. To renew the exemption, the air carrier must submit a written request to the department stating that it meets the requirements of this paragraph. Terminal suppliers and wholesalers may receive a credit or may apply for a refund, as the ultimate vendor of the 6.9 cents per gallon aviation fuel tax previously paid, within 1 year after the date the right to the refund has accrued ~~excise tax previously paid, provided that the air carrier has no facility for fueling highway vehicles from the tank in which the aviation fuel is stored~~. In calculating the new or additional Florida full-time equivalent employee positions, any full-time equivalent employee positions of parent or subsidiary corporations which existed before the preceding 5-year period from January 1 of the year the application for exemption or renewal is being applied for, may ~~January 1, 1996, shall~~ not be counted toward reaching the Florida employment increase thresholds. The refund allowed under this paragraph is in furtherance of the goals and policies of the State Comprehensive Plan set forth in s. 187.201(16)(a), (b)1., 2., (17)(a), (b)1., 4., (19)(a), (b)5., (21)(a), (b)1., 2., 4., 7., 9., and 12.

(c) If, during the 1-year period in which the exemption is in place ~~before July 1, 2001~~, the air carrier fails to maintain the increase in its Florida workforce by more than 1,000 percent and by 250 or more full-time equivalent employees ~~number of~~

~~full-time equivalent employee positions created or added to the air carrier's Florida workforce falls below 250~~, the exemption granted pursuant to this section does ~~shall~~ not apply during the period in which the air carrier was no longer qualified to receive the exemption ~~has fewer than the 250 additional employees~~.

(d) The exemption taken by credit or refund pursuant to paragraph (b) applies ~~shall apply~~ only under the terms and conditions set forth in this paragraph ~~therein~~. If any part of the ~~that~~ paragraph is judicially declared to be unconstitutional or invalid, the validity of any provisions taxing aviation fuel is ~~shall~~ not ~~be~~ affected and all fuel exempted pursuant to paragraph (b) shall be subject to tax as if the exemption was never enacted. Each ~~Every~~ person who benefits ~~benefiting~~ from the ~~such~~ exemption is ~~shall be~~ liable for and must make payment of all taxes for which a credit or refund was granted.

(e) The department may adopt rules to administer this subsection.

Section 10. The Division of Law Revision and Information is requested to create part V of chapter 206, Florida Statutes, consisting of ss. 206.9951-206.998, entitled "NATURAL GAS FUEL."

Section 11. Section 206.9951, Florida Statutes, is created to read:

206.9951 Definitions.—As used in this part, the term:

(1) "Motor fuel equivalent gallon" means the volume of natural gas fuel it takes to equal the energy content of 1 gallon of motor fuel.

(2) "Natural gas fuel" means any liquefied petroleum gas product, compressed natural gas product, or combination thereof

used in a motor vehicle as defined in s. 206.01(23). This term includes, but is not limited to, all forms of fuel commonly or commercially known or sold as natural gasoline, butane gas, propane gas, or any other form of liquefied petroleum gas, compressed natural gas, or liquefied natural gas. The term does not include natural gas or liquefied petroleum placed in a separate tank of a motor vehicle for cooking, heating, water heating, or electric generation.

(3) "Natural gas fuel retailer" means any person who sells natural gas fuel for use in a motor vehicle as defined in s. 206.01(23).

(4) "Natural gasoline" is a liquid hydrocarbon that is produced by natural gas and must be blended with other liquid petroleum products to produce motor fuel.

(5) "Person" means a natural person, corporation, copartnership, firm, company, agency, or association; a state agency; a federal agency; or a political subdivision of the state.

Section 12. Section 206.9952, Florida Statutes, is created to read:

206.9952 Application for license as a natural gas fuel retailer.—

(1) It is unlawful for any person to engage in business as a natural gas fuel retailer within this state unless he or she is the holder of a valid license issued by the department to engage in such business.

(2) A person who has facilities for placing natural gas fuel into the supply system of an internal combustion engine fueled by individual portable containers of 10 gallons or less

is not required to be licensed as a natural gas fuel retailer, provided that the fuel is only used for exempt purposes.

(3)(a) Any person who acts as a natural gas retailer and does not hold a valid natural gas fuel retailer license shall pay a penalty of $200 for each month of operation without a license. This paragraph expires December 31, 2018.

(b) Effective January 1, 2019, any person who acts as a natural gas fuel retailer and does not hold a valid natural gas fuel retailer license shall pay a penalty of 25 percent of the tax assessed on the total purchases made during the unlicensed period.

(4) To procure a natural gas fuel retailer license, a person shall file an application and a bond with the department on a form prescribed by the department. The department may not issue a license upon the receipt of any application unless it is accompanied by a bond.

(5) When a natural gas fuel retailer license application is filed by a person whose previous license was canceled for cause by the department or the department believes that such application was not filed in good faith or is filed by another person as a subterfuge for the actual person in interest whose previous license has been canceled, the department may, if evidence warrants, refuse to issue a license for such an application.

(6) Upon the department's issuance of a natural gas fuel retailer license, such license remains in effect so long as the natural gas fuel retailer is in compliance with the requirements of this part.

(7) Such license may not be assigned and is valid only for

the natural gas fuel retailer in whose name the license is issued. The license shall be displayed conspicuously by the natural gas fuel retailer in the principal place of business for which the license was issued.

(8) With the exception of a state or federal agency or a political subdivision licensed under this chapter, each person, as defined in this part, who operates as a natural gas fuel retailer shall report monthly to the department and pay a tax on all natural gas fuel purchases beginning January 1, 2019.

(9) The license application requires a license fee of $5. Each license shall be renewed annually by submitting a reapplication and the license fee to the department. The license fee shall be paid to the department for deposit into the General Revenue Fund.

Section 13. Section 206.9955, Florida Statutes, is created to read:

206.9955 Levy of natural gas fuel tax.—

(1) The motor fuel equivalent gallon means the following for:

(a) Compressed natural gas gallon: 5.66 pounds, or per each 126.67 cubic feet.

(b) Liquefied natural gas gallon: 6.22 pounds.

(c) Liquefied petroleum gas gallon: 1.35 gallons.

(2) Effective January 1, 2019, the following taxes shall be imposed:

(a) An excise tax of 4 cents upon each motor fuel equivalent gallon of natural gas fuel.

(b) An additional tax of 1 cent upon each motor fuel equivalent gallon of natural gas fuel, which is designated as

the "ninth-cent fuel tax."

(c) An additional tax of 6 cents on each motor fuel equivalent gallon of natural gas fuel by each county, which is designated as the "local option fuel tax."

(d) An additional tax on each motor fuel equivalent gallon of natural gas fuel, which is designated as the "State Comprehensive Enhanced Transportation System Tax," at a rate determined pursuant to this paragraph. Each calendar year, the department shall determine the tax rate applicable to the sale of natural gas fuel for the following 12-month period beginning January 1, rounded to the nearest tenth of a cent, by adjusting the initially established tax rate of 7.1 cents per gallon by the percentage change in the average of the Consumer Price Index issued by the United States Department of Labor for the most recent 12-month period ending September 30.

(e)1. An additional tax is imposed on each motor fuel equivalent gallon of natural gas fuel for the privilege of selling natural gas fuel and is designated as the "fuel sales tax." Each calendar year, the department shall determine the tax rate applicable to the sale of natural gas fuel, rounded to the nearest tenth of a cent, for the following 12-month period beginning January 1. The tax rate is calculated by adjusting the initially established tax rate of 12.9 cents per gallon by the percentage change in the average of the Consumer Price Index issued by the United States Department of Labor for the most recent 12-month period ending September 30.

2. The department is authorized to adopt rules and publish forms to administer this paragraph.

(3) Unless otherwise provided by this chapter, the taxes

specified in subsection (2) are imposed on natural gas fuel when it is placed into the fuel supply tank of a motor vehicle as defined in s. 206.01(23). The person liable for payment of the taxes imposed by this section is the person selling the fuel to the end user, for use in the fuel supply tank of a motor vehicle as defined in s. 206.01(23).

Section 14. Section 206.996, Florida Statutes, is created to read:

206.996 Monthly reports by natural gas fuel retailers; deductions.—

(1) For the purpose of determining the amount of taxes imposed by s. 206.9955, each natural gas fuel retailer shall file beginning February 2019, and each month thereafter, no later than the 20th day of each month, monthly reports electronically with the department showing information on inventory, purchases, nontaxable disposals, and taxable sales in gallons of natural gas fuel for the preceding month. However, if the 20th day of the month falls on a Saturday, Sunday, or federal or state legal holiday, a return must be accepted if it is electronically filed on the next succeeding business day. The reports must include, or be verified by, a written declaration stating that such report is made under the penalties of perjury. The natural gas fuel retailer shall deduct from the amount of taxes shown by the report to be payable an amount equivalent to 0.67 percent of the taxes on natural gas fuel imposed by s. 206.9955(2)(a) and (e), which deduction is allowed to the natural gas fuel retailer to compensate it for services rendered and expenses incurred in complying with the requirements of this part. This allowance is not deductible unless payment of

applicable taxes is made on or before the 20th day of the month. This subsection may not be construed as authorizing a deduction from the constitutional fuel tax or the fuel sales tax.

(2) Upon the electronic filing of the monthly report, each natural gas fuel retailer shall pay the department the full amount of natural gas fuel taxes for the preceding month at the rate provided in s. 206.9955, less the amount allowed the natural gas fuel retailer for services and expenses as provided in subsection (1).

(3) The department may authorize a quarterly return and payment of taxes when the taxes remitted by the natural gas fuel retailer for the preceding quarter did not exceed $100, and the department may authorize a semiannual return and payment of taxes when the taxes remitted by the natural gas fuel retailer for the preceding 6 months did not exceed $200.

(4) In addition to the allowance authorized by subsection (1), every natural gas fuel retailer is entitled to a deduction of 1.1 percent of the taxes imposed under s. 206.9955(2)(b) and (c), on account of services and expenses incurred due to compliance with the requirements of this part. This allowance may not be deductible unless payment of the tax is made on or before the 20th day of the month.

Section 15. Section 206.9965, Florida Statutes, is created to read:

206.9965 Exemptions and refunds; natural gas fuel retailers.—Natural gas fuel may be purchased from natural gas fuel retailers exempt from the tax imposed by this part when used or purchased for the following:

(1) Exclusive use by the United States or its departments

or agencies. Exclusive use by the United States or its departments and agencies means the consumption by the United States or its departments or agencies of the natural gas fuel in a motor vehicle as defined in s. 206.01(23).

(2) Use for agricultural purposes as defined in s. 206.41(4)(c).

(3) Uses as provided in s. 206.874(3).

(4) Used to propel motor vehicles operated by state and local government agencies.

(5) Individual use resulting from residential refueling devices located at a person's primary residence.

(6) Purchases of natural gas fuel between licensed natural gas fuel retailers. A natural gas fuel retailer that sells tax-paid natural gas fuel to another natural gas fuel retailer may take a credit on its monthly return or may file a claim for refund with the Chief Financial Officer pursuant to s. 215.26. All sales of natural gas fuel between natural gas fuel retailers must be documented on invoices or other evidence of the sale of such fuel and the seller shall retain a copy of the purchaser's natural gas fuel retailer license.

Section 16. Section 206.879, Florida Statutes, is transferred and renumbered as section 206.997, Florida Statutes, and amended to read:

206.997 ~~206.879~~ State and local alternative fuel user fee clearing trust funds; distribution.—

~~(1)~~ Notwithstanding the provisions of s. 206.875, the revenues from the natural gas fuel tax imposed by s. 206.9955 ~~state alternative fuel fees imposed by s. 206.877~~ shall be deposited into the State Alternative Fuel User Fee Clearing

Trust Fund, which is hereby created. After deducting the service charges provided in s. 215.20, the proceeds in this trust fund shall be distributed as follows: one-half of the proceeds in calendar year 2019 and ~~one-fifth of the proceeds in calendar year 1991, one-third of the proceeds in calendar year 1992, three-sevenths of the proceeds in calendar year 1993, and one-half of the proceeds in each calendar year~~ thereafter shall be transferred to the State Transportation Trust Fund; the remainder shall be distributed as follows: 50 percent shall be transferred to the State Board of Administration for distribution according to the provisions of s. 16, Art. IX of the State Constitution of 1885, as amended; 25 percent shall be transferred to the Revenue Sharing Trust Fund for Municipalities; and the remaining 25 percent shall be distributed using the formula contained in s. 206.60(1).

~~(2) Notwithstanding the provisions of s. 206.875, the revenues from the local alternative fuel fees imposed in lieu of s. 206.87(1)(b) or (c) shall be deposited into The Local Alternative Fuel User Fee Clearing Trust Fund, which is hereby created. After deducting the service charges provided in s. 215.20, the proceeds in this trust fund shall be returned monthly to the appropriate county.~~

Section 17. (1) The Local Alternative Fuel User Fee Clearing Trust Fund within the Department of Revenue is terminated.

(2) The Department of Revenue shall pay any outstanding debts or obligations of the terminated fund as soon as practicable, and the Chief Financial Officer shall close out and remove the terminated fund from various state accounting systems

using generally accepted accounting principles concerning warrants outstanding, assets, and liabilities.

Section 18. Section 206.998, Florida Statutes, is created to read:

206.998 Applicability of specified sections of parts I and II.—The provisions of ss. 206.01, 206.02, 206.025, 206.026, 206.027, 206.028, 206.03, 206.05, 206.055, 206.06, 206.07, 206.075, 206.09, 206.10, 206.11, 206.12, 206.13, 206.14, 206.15, 206.16, 206.17, 206.175, 206.18, 206.199, 206.20, 206.204, 206.205, 206.21, 206.215, 206.22, 206.23, 206.24, 206.25, 206.27, 206.28, 206.405, 206.406, 206.41, 206.413, 206.43, 206.44, 206.48, 206.485, 206.49, 206.56, 206.59, 206.606, 206.608, and 206.61 of part I of this chapter and ss. 206.86, 206.872, 206.874, 206.8745, 206.88, 206.90, and 206.93 of part II of this chapter shall, as far as lawful or practicable, be applicable to the tax levied and imposed and to the collection thereof as if fully set out in this part. However, any provision of any such section does not apply if it conflicts with any provision of this part.

Section 19. Paragraph (d) of subsection (2) of section 212.055, Florida Statutes, is amended to read:

212.055 Discretionary sales surtaxes; legislative intent; authorization and use of proceeds.—It is the legislative intent that any authorization for imposition of a discretionary sales surtax shall be published in the Florida Statutes as a subsection of this section, irrespective of the duration of the levy. Each enactment shall specify the types of counties authorized to levy; the rate or rates which may be imposed; the maximum length of time the surtax may be imposed, if any; the

procedure which must be followed to secure voter approval, if required; the purpose for which the proceeds may be expended; and such other requirements as the Legislature may provide. Taxable transactions and administrative procedures shall be as provided in s. 212.054.

(2) LOCAL GOVERNMENT INFRASTRUCTURE SURTAX.—

(d) The proceeds of the surtax authorized by this subsection and any accrued interest shall be expended by the school district, within the county and municipalities within the county, or, in the case of a negotiated joint county agreement, within another county, to finance, plan, and construct infrastructure; to acquire land for public recreation, conservation, or protection of natural resources; to provide loans, grants, or rebates to residential or commercial property owners who make energy efficiency improvements to their residential or commercial property, if a local government ordinance authorizing such use is approved by referendum; or to finance the closure of county-owned or municipally owned solid waste landfills that have been closed or are required to be closed by order of the Department of Environmental Protection. Any use of the proceeds or interest for purposes of landfill closure before July 1, 1993, is ratified. The proceeds and any interest may not be used for the operational expenses of infrastructure, except that a county that has a population of fewer than 75,000 and that is required to close a landfill may use the proceeds or interest for long-term maintenance costs associated with landfill closure. Counties, as defined in s. 125.011, and charter counties may, in addition, use the proceeds or interest to retire or service indebtedness incurred for bonds

issued before July 1, 1987, for infrastructure purposes, and for bonds subsequently issued to refund such bonds. Any use of the proceeds or interest for purposes of retiring or servicing indebtedness incurred for refunding bonds before July 1, 1999, is ratified.

1. For the purposes of this paragraph, the term "infrastructure" means:

a. Any fixed capital expenditure or fixed capital outlay associated with the construction, reconstruction, or improvement of public facilities that have a life expectancy of 5 or more years and any related land acquisition, land improvement, design, and engineering costs.

b. A fire department vehicle, an emergency medical service vehicle, a sheriff's office vehicle, a police department vehicle, or any other vehicle, and the equipment necessary to outfit the vehicle for its official use or equipment that has a life expectancy of at least 5 years.

c. Any expenditure for the construction, lease, or maintenance of, or provision of utilities or security for, facilities, as defined in s. 29.008.

d. Any fixed capital expenditure or fixed capital outlay associated with the improvement of private facilities that have a life expectancy of 5 or more years and that the owner agrees to make available for use on a temporary basis as needed by a local government as a public emergency shelter or a staging area for emergency response equipment during an emergency officially declared by the state or by the local government under s. 252.38. Such improvements are limited to those necessary to comply with current standards for public emergency evacuation

shelters. The owner must enter into a written contract with the local government providing the improvement funding to make the private facility available to the public for purposes of emergency shelter at no cost to the local government for a minimum of 10 years after completion of the improvement, with the provision that the obligation will transfer to any subsequent owner until the end of the minimum period.

e. Any land acquisition expenditure for a residential housing project in which at least 30 percent of the units are affordable to individuals or families whose total annual household income does not exceed 120 percent of the area median income adjusted for household size, if the land is owned by a local government or by a special district that enters into a written agreement with the local government to provide such housing. The local government or special district may enter into a ground lease with a public or private person or entity for nominal or other consideration for the construction of the residential housing project on land acquired pursuant to this sub-subparagraph.

2. For the purposes of this paragraph, the term "energy efficiency improvement" means any energy conservation and efficiency improvement that reduces consumption through conservation or a more efficient use of electricity, natural gas, propane, or other forms of energy on the property, including, but not limited to, air sealing; installation of insulation; installation of energy-efficient heating, cooling, or ventilation systems; installation of solar panels; building modifications to increase the use of daylight or shade; replacement of windows; installation of energy controls or

energy recovery systems; installation of electric vehicle charging equipment; installation of systems for natural gas fuel as defined in s. 206.9951; and installation of efficient lighting equipment.

3. Notwithstanding any other provision of this subsection, a local government infrastructure surtax imposed or extended after July 1, 1998, may allocate up to 15 percent of the surtax proceeds for deposit into ~~in~~ a trust fund within the county's accounts created for the purpose of funding economic development projects having a general public purpose of improving local economies, including the funding of operational costs and incentives related to economic development. The ballot statement must indicate the intention to make an allocation under the authority of this subparagraph.

Section 20. Subsection (4) of section 212.08, Florida Statutes, is amended to read:

212.08 Sales, rental, use, consumption, distribution, and storage tax; specified exemptions.—The sale at retail, the rental, the use, the consumption, the distribution, and the storage to be used or consumed in this state of the following are hereby specifically exempt from the tax imposed by this chapter.

(4) EXEMPTIONS; ITEMS BEARING OTHER EXCISE TAXES, ETC.—

(a) Also exempt are:

1. Water delivered to the purchaser through pipes or conduits or delivered for irrigation purposes. The sale of drinking water in bottles, cans, or other containers, including water that contains minerals or carbonation in its natural state or water to which minerals have been added at a water treatment

facility regulated by the Department of Environmental Protection or the Department of Health, is exempt. This exemption does not apply to the sale of drinking water in bottles, cans, or other containers if carbonation or flavorings, except those added at a water treatment facility, have been added. Water that has been enhanced by the addition of minerals and that does not contain any added carbonation or flavorings is also exempt.

2. All fuels used by a public or private utility, including any municipal corporation or rural electric cooperative association, in the generation of electric power or energy for sale. Fuel other than motor fuel and diesel fuel is taxable as provided in this chapter with the exception of fuel expressly exempt herein. Natural gas fuel as defined in s. 206.9951(2) is exempt from the tax imposed by this chapter when placed into the fuel supply system of a motor vehicle. Motor fuels and diesel fuels are taxable as provided in chapter 206, with the exception of those motor fuels and diesel fuels used by railroad locomotives or vessels to transport persons or property in interstate or foreign commerce, which are taxable under this chapter only to the extent provided herein. The basis of the tax shall be the ratio of intrastate mileage to interstate or foreign mileage traveled by the carrier's railroad locomotives or vessels that were used in interstate or foreign commerce and that had at least some Florida mileage during the previous fiscal year of the carrier, such ratio to be determined at the close of the fiscal year of the carrier. However, during the fiscal year in which the carrier begins its initial operations in this state, the carrier's mileage apportionment factor may be determined on the basis of an estimated ratio of anticipated

miles in this state to anticipated total miles for that year, and subsequently, additional tax shall be paid on the motor fuel and diesel fuels, or a refund may be applied for, on the basis of the actual ratio of the carrier's railroad locomotives' or vessels' miles in this state to its total miles for that year. This ratio shall be applied each month to the total Florida purchases made in this state of motor and diesel fuels to establish that portion of the total used and consumed in intrastate movement and subject to tax under this chapter. The basis for imposition of any discretionary surtax shall be set forth in s. 212.054. Fuels used exclusively in intrastate commerce do not qualify for the proration of tax.

3. The transmission or wheeling of electricity.

(b) Alcoholic beverages and malt beverages are not exempt. The terms "alcoholic beverages" and "malt beverages" as used in this paragraph have the same meanings ascribed to them in ss. 561.01(4) and 563.01, respectively. It is determined by the Legislature that the classification of alcoholic beverages made in this paragraph for the purpose of extending the tax imposed by this chapter is reasonable and just, and it is intended that such tax be separate from, and in addition to, any other tax imposed on alcoholic beverages.

Section 21. Subsection (3) of section 316.530, Florida Statutes, is repealed.

Section 22. Subsection (3) of section 316.545, Florida Statutes, is amended to read:

316.545 Weight and load unlawful; special fuel and motor fuel tax enforcement; inspection; penalty; review.—

(3) Any person who violates the overloading provisions of

this chapter shall be conclusively presumed to have damaged the highways of this state by reason of such overloading, which damage is hereby fixed as follows:

(a) If ~~When~~ the excess weight is 200 pounds or less than the maximum ~~herein~~ provided by this chapter, the penalty is ~~shall be~~ $10;

(b) Five cents per pound for each pound of weight in excess of the maximum ~~herein~~ provided in this chapter if ~~when~~ the excess weight exceeds 200 pounds. However, if ~~whenever~~ the gross weight of the vehicle or combination of vehicles does not exceed the maximum allowable gross weight, the maximum fine for the first 600 pounds of unlawful axle weight is ~~shall be~~ $10;

(c) For a vehicle equipped with fully functional idle-reduction technology, any penalty shall be calculated by reducing the actual gross vehicle weight or the internal bridge weight by the certified weight of the idle-reduction technology or by 550 ~~400~~ pounds, whichever is less. The vehicle operator must present written certification of the weight of the idle-reduction technology and must demonstrate or certify that the idle-reduction technology is fully functional at all times. This calculation is not allowed for vehicles described in s. 316.535(6);

(d) An apportioned motor vehicle, as defined in s. 320.01, operating on the highways of this state without being properly licensed and registered shall be subject to the penalties as ~~herein~~ provided in this section; and

(e) Vehicles operating on the highways of this state from nonmember International Registration Plan jurisdictions which are not in compliance with the provisions of s. 316.605 shall be

subject to the penalties as ~~herein~~ provided in this section.

Section 23. Section 331.360, Florida Statutes, is reordered and amended to read:

331.360 ~~Joint participation agreement or assistance;~~ Spaceport system ~~master~~ plan.—

(2)~~(1) It shall be the duty, function, and responsibility of~~ The department shall ~~of Transportation to~~ promote the further development and improvement of aerospace transportation facilities; to address intermodal requirements and impacts of the launch ranges, spaceports, and other space transportation facilities; to assist in the development of joint-use facilities and technology that support aviation and aerospace operations; to coordinate and cooperate in the development of spaceport infrastructure and related transportation facilities contained in the Strategic Intermodal System Plan; to encourage, where appropriate, the cooperation and integration of airports and spaceports in order to meet transportation-related needs; and to facilitate and promote cooperative efforts between federal and state government entities to improve space transportation capacity and efficiency. In carrying out this duty and responsibility, the department may assist and advise, cooperate with, and coordinate with federal, state, local, or private organizations and individuals. The department may administratively house its space transportation responsibilities within an existing division or office.

(3)~~(2)~~ Notwithstanding any other provision of law, the department ~~of Transportation~~ may enter into an ~~a joint participation~~ agreement with, or otherwise assist, Space Florida as necessary to effectuate the provisions of this chapter and

may allocate funds for such purposes in its 5-year work program. However, the department may not fund the administrative or operational costs of Space Florida.

(1)~~(3)~~ Space Florida shall develop a spaceport system ~~master~~ plan that identifies statewide spaceport goals and the need for expansion and modernization of space transportation facilities within spaceport territories as defined in s. 331.303. The plan must ~~shall~~ contain recommended projects that ~~to~~ meet current and future commercial, national, and state space transportation requirements. Space Florida shall submit the plan to each ~~any~~ appropriate metropolitan planning organization for review of intermodal impacts. Space Florida shall submit the spaceport system ~~master~~ plan to the department ~~of Transportation~~, which may include those portions of the system plan which are relevant to the Department of Transportation's mission ~~and such plan may be included~~ within the department's 5-year work program of qualifying projects ~~aerospace discretionary capacity improvement under subsection (4)~~. The plan must ~~shall~~ identify appropriate funding levels for each project ~~and include recommendations on appropriate sources of revenue that may be developed to contribute to the State Transportation Trust Fund~~.

(4)(a) Beginning in fiscal year 2013-2014, a minimum of $15 million annually is authorized to be made available from the State Transportation Trust Fund to fund space transportation projects. The funds for this initiative shall be from the funds dedicated to public transportation projects pursuant to s. 206.46(3).

(b) Before executing an agreement, Space Florida must provide project-specific information to the department in order

to demonstrate that the project includes transportation and aerospace benefits. The project-specific information must include, but need not be limited to:

1. The description, characteristics, and scope of the project.

2. The funding sources for and costs of the project.

3. The financing considerations that emphasize federal, local, and private participation.

4. A financial feasibility and risk analysis, including a description of the efforts to protect the state's investment and to ensure that project goals are realized.

5. A demonstration that the project will encourage, enhance, or create economic benefits for the state.

(c) The department may fund up to 50 percent of eligible project costs. If the project meets the following criteria, the department may fund up to 100 percent of eligible project costs. The project must:

1. Provide important access and on-spaceport capacity improvements;

2. Provide capital improvements to strategically position the state to maximize opportunities in the aerospace industry or foster growth and development of a sustainable and world-leading aerospace industry in the state;

3. Meet state goals of an integrated intermodal transportation system; and

4. Demonstrate the feasibility and availability of matching funds through federal, local, or private partners ~~Subject to the availability of appropriated funds, the department may participate in the capital cost of eligible spaceport~~

~~discretionary capacity improvement projects. The annual legislative budget request shall be based on the proposed funding requested for approved spaceport discretionary capacity improvement projects~~.

Section 24. Subsection (11) is added to section 332.007, Florida Statutes, to read:

332.007 Administration and financing of aviation and airport programs and projects; state plan.—

(11) The department may fund strategic airport investment projects at up to 100 percent of the project's cost if all the following criteria are met:

(a) Important access and on-airport capacity improvements are provided.

(b) Capital improvements that strategically position the state to maximize opportunities in international trade, logistics, and the aviation industry are provided.

(c) Goals of an integrated intermodal transportation system for the state are achieved.

(d) Feasibility and availability of matching funds through federal, local, or private partners are demonstrated.

Section 25. Subsection (16) of section 334.044, Florida Statutes, is amended to read:

334.044 Department; powers and duties.—The department shall have the following general powers and duties:

(16) To plan, acquire, lease, construct, maintain, and operate toll facilities; to authorize the issuance and refunding of bonds; and to fix and collect tolls or other charges for travel on any such facilities. Effective July 1, 2013, and notwithstanding any other law to the contrary, the department

may not enter into a lease-purchase agreement with an expressway authority, regional transportation authority, or other entity. This provision does not invalidate a lease-purchase agreement authorized under chapter 348 or chapter 2000-411, Laws of Florida, and existing as of July 1, 2013, and does not limit the department's authority under s. 334.30.

Section 26. Subsection (13) of section 337.11, Florida Statutes, is amended to read:

337.11 Contracting authority of department; bids; emergency repairs, supplemental agreements, and change orders; combined design and construction contracts; progress payments; records; requirements of vehicle registration.—

(13) Each contract let by the department for the performance of road or bridge construction or maintenance work shall require ~~contain a provision requiring the contractor to provide proof to the department, in the form of a notarized affidavit from the contractor, that~~ all motor vehicles that the contractor ~~he or she~~ operates or causes to be operated in this state to be ~~are~~ registered in compliance with chapter 320.

Section 27. Subsection (1) of section 337.14, Florida Statutes, is amended to read:

337.14 Application for qualification; certificate of qualification; restrictions; request for hearing.—

(1) A ~~Any~~ person who desires ~~desiring~~ to bid for the performance of any construction contract with a proposed budget estimate in excess of $250,000 which the department proposes to let must first be certified by the department as qualified pursuant to this section and rules of the department. The rules of the department must ~~shall~~ address the qualification of a

person ~~persons~~ to bid on construction contracts with a proposed budget estimate that is in excess of $250,000 and must ~~shall~~ include requirements with respect to the equipment, past record, experience, financial resources, and organizational personnel of the applicant necessary to perform the specific class of work for which the person seeks certification. The department may limit the dollar amount of any contract upon which a person is qualified to bid or the aggregate total dollar volume of contracts such person may ~~is allowed to~~ have under contract at any one time. Each applicant who seeks ~~seeking~~ qualification to bid on construction contracts with a proposed budget estimate in excess of $250,000 must ~~shall~~ furnish the department a statement under oath, on such forms as the department may prescribe, setting forth detailed information as required on the application. Each application for certification must ~~shall~~ be accompanied by the latest annual financial statement of the applicant completed within the last 12 months. If the application or the annual financial statement shows the financial condition of the applicant more than 4 months before ~~prior to~~ the date on which the application is received by the department, ~~then~~ an interim financial statement must be submitted and be accompanied by an updated application. The interim financial statement must cover the period from the end date of the annual statement and must show the financial condition of the applicant no more than 4 months before ~~prior to~~ the date the interim financial statement is received by the department. However, upon request by the applicant, an application and accompanying annual or interim financial statement received by the department within 15 days after either

4-month period provided pursuant to ~~under~~ this subsection must ~~shall~~ be considered timely. Each required annual or interim financial statement must be audited and accompanied by the opinion of a certified public accountant. An applicant desiring to bid exclusively for the performance of construction contracts with proposed budget estimates of less than $1 million may submit reviewed annual or reviewed interim financial statements prepared by a certified public accountant. The information required by this subsection is confidential and exempt from the provisions of s. 119.07(1). The department shall act upon the application for qualification within 30 days after the department determines that the application is complete. The department may waive the requirements of this subsection for projects having a contract price of $500,000 or less if the department determines that the project is of a noncritical nature and the waiver will not endanger public health, safety, or property.

Section 28. Subsection (2) of section 337.168, Florida Statutes, is amended to read:

337.168 Confidentiality of official estimates, identities of potential bidders, and bid analysis and monitoring system.—

(2) A document that reveals ~~revealing~~ the identity of a person who has ~~persons who have~~ requested or obtained a bid package, plan ~~packages, plans~~, or specifications pertaining to any project to be let by the department is confidential and exempt from the provisions of s. 119.07(1) for the period that ~~which~~ begins 2 working days before ~~prior to~~ the deadline for obtaining bid packages, plans, or specifications and ends with the letting of the bid. A document that reveals the identity of

a person who has requested or obtained a bid package, plan, or specifications pertaining to any project to be let by the department before the 2 working days before the deadline for obtaining bid packages, plans, or specifications remains a public record subject to the provisions of s. 119.07(1).

Section 29. Subsection (2) of section 337.251, Florida Statutes, is amended to read:

337.251 Lease of property for joint public-private development and areas above or below department property.—

(2) The department may request proposals for the lease of such property or, if the department receives a proposal for ~~to negotiate~~ a lease of a particular department property that the department desires to consider, the department must ~~it shall~~ publish a notice in a newspaper of general circulation at least once a week for 2 weeks, stating that it has received the proposal and will accept, for 120 ~~60~~ days after the date of publication, other proposals for lease of the particular property ~~use of the space~~. A copy of the notice must be mailed to each local government in the affected area. The department shall, by rule, establish an application fee for the submission of proposals pursuant to this section. The fee must be sufficient to pay the anticipated costs of evaluating the proposals. The department may engage the services of private consultants to assist in the evaluation. Before approval, the department must determine that the proposed lease:

(a) Is in the public's best interest;

(b) Does not require state funds to be used; and

(c) Has adequate safeguards in place to ensure that no additional costs are borne and no service disruptions are

experienced by the traveling public and residents of the state in the event of default by the private lessee or upon termination or expiration of the lease.

Section 30. Subsection (1) of section 337.408, Florida Statutes, is amended to read:

337.408 Regulation of bus stops, benches, transit shelters, street light poles, waste disposal receptacles, and modular news racks within rights-of-way.—

(1)(a) Benches or transit shelters, including advertising displayed on benches or transit shelters, may be installed within the right-of-way limits of any municipal, county, or state road, except a limited access highway, provided that the ~~such~~ benches or transit shelters are for the comfort or convenience of the general public or are at designated stops on official bus routes and provided that written authorization has been given to a qualified private supplier of the ~~such~~ service by the municipal government within whose incorporated limits the ~~such~~ benches or transit shelters are installed or by the county government within whose unincorporated limits the ~~such~~ benches or transit shelters are installed. A municipality or county may authorize the installation, without public bid, of benches and transit shelters together with advertising displayed thereon within the right-of-way limits of the ~~such~~ roads. All installations must ~~shall~~ be in compliance with all applicable laws and rules, including, without limitation, the Americans with Disabilities Act. A person who installs or has installed a transit shelter or a bus bench ~~Municipalities and counties that authorize or have authorized a bench or transit shelter to be installed~~ within the right-of-way limits of any road on the

State Highway System is ~~shall be~~ responsible for ensuring that the bench or transit shelter complies with the ~~all~~ applicable laws and rules, including, without limitation, the Americans with Disabilities Act, or shall remove the bench or transit shelter. The department is not liable ~~shall have no liability~~ for any claims, losses, costs, charges, expenses, damages, liabilities, attorney fees, or court costs relating to the installation, removal, or relocation of any benches or transit shelters authorized by a municipality or county. If the department determines that a bench or transit shelter installation within the right-of-way limits of any road on the State Highway System does not comply with the applicable laws and rules, the owner of the bench or transit shelter shall remove the bench or transit shelter or bring the bench or shelter installation into compliance within 60 days after receiving notice from the department. If the bench or transit shelter is not removed, the department may, but is not required to, remove the bench or transit shelter and assess the cost of the removal against the owner of the bench or transit shelter.

(b) On or before December 31, 2013, each owner of a bench or transit shelter installed at any location within the right-of-way limits of any road on the State Highway System must provide to the department a written inventory of the location of each bench or transit shelter. On and after July 1, 2013, each owner of a new bench or transit shelter that will be installed within the right-of-way limits of any road on the State Highway System shall identify, in writing, the location of the new installation to the department before installing the bench or transit shelter. On or after January 1, 2014, the department

may, but is not required to, remove any unidentified bench or transit shelter within the right-of-way limits of any road on the State Highway System, and assess the cost of removal against the owner of the bench or transit shelter.

(c) On and after July 1, 2013 ~~2012~~, a municipality or county that authorizes a bench or transit shelter to be installed within the right-of-way limits of any road on the State Highway System must require the qualified private supplier, or any other person under contract to install the bench or transit shelter, to indemnify, defend, and hold harmless the department from any suits, actions, proceedings, claims, losses, costs, charges, expenses, damages, liabilities, attorney fees, and court costs relating to the installation, removal, or relocation of such installations, and to maintain liability insurance in the minimum amount of $1 million with supplemental liability insurance in the minimum amount of an additional $4 million. Each insurance policy must name the department as an additional insured and a certificate of insurance shall be furnished to the department before the installation of any bench or transit shelter, and annually after the initial installation. The certificate of insurance must provide that the policy may not be modified, cancelled, or non-renewed without providing to the department and to the municipality or county written notice 45 days before the modification, cancellation, or non-renewal. Each insurance policy must specifically include coverage for any alleged violation of applicable law, including, but not limited to, the Americans with Disabilities Act. The requirements of this paragraph do not apply to transit shelters installed by public

transit providers at designated stops on official transit routes ~~shall annually certify to the department in a notarized signed statement that this requirement has been met~~. ~~The certification shall include the name and address of each person responsible for indemnifying the department for an authorized installation.~~

(d) Municipalities and counties that have authorized the installation of benches or transit shelters within the right-of-way limits of any road on the State Highway System must remove or relocate, or cause the removal or relocation of, the installation at no cost to the department within 60 days after written notice by the department that the installation is unreasonably interfering in any way with the convenient, safe, or continuous use of or the maintenance, improvement, extension, or expansion of the State Highway System road.

(e) Any contract for the installation of benches or transit shelters or advertising on benches or transit shelters which was entered into before April 8, 1992, without public bidding is ratified and affirmed. The ~~Such~~ benches or transit shelters may not interfere with right-of-way preservation and maintenance.

(f) Any bench or transit shelter located on a sidewalk within the right-of-way limits of any road on the State Highway System or the county road system must ~~shall~~ be located so as to leave at least 36 inches of clearance for pedestrians and persons in wheelchairs. The ~~Such~~ clearance must ~~shall~~ be measured in a direction perpendicular to the centerline of the road.

Section 31. Subsection (5) of section 338.161, Florida Statutes, is amended to read:

338.161 Authority of department or toll agencies to

advertise and promote electronic toll collection; expanded uses of electronic toll collection system; authority of department to collect tolls, fares, and fees for private and public entities.—

(5) If the department finds that it can increase nontoll revenues or add convenience or other value for its customers, and if a public or private transportation facility owner agrees that its facility will become interoperable with the department's electronic toll collection and video billing systems, the department may ~~is authorized to~~ enter into an agreement with the owner of such facility under which the department uses ~~private or public entities for the department's use of~~ its electronic toll collection and video billing systems to collect and enforce for the owner tolls, fares, administrative fees, and other applicable charges due ~~imposed~~ in connection with use of the owner's facility ~~transportation facilities of the private or public entities that become interoperable with the department's electronic toll collection system~~. The department may modify its rules regarding toll collection procedures and the imposition of administrative charges to be applicable to toll facilities that are not part of the turnpike system or otherwise owned by the department. This subsection may not be construed to limit the authority of the department under any other provision of law or under any agreement entered into before ~~prior to~~ July 1, 2012.

Section 32. Subsection (4) of section 338.165, Florida Statutes, is amended to read:

338.165 Continuation of tolls.—

(4) Notwithstanding any other law to the contrary, pursuant to s. 11, Art. VII of the State Constitution, and subject to the

requirements of subsection (2), the Department of Transportation may request the Division of Bond Finance to issue bonds secured by toll revenues collected on the Alligator Alley, the Sunshine Skyway Bridge, ~~the Beeline-East Expressway, the Navarre Bridge,~~ and the Pinellas Bayway to fund transportation projects located within the county or counties in which the revenue-producing project is located and contained in the adopted work program of the department.

Section 33. Subsections (3) and (4) of section 338.26, Florida Statutes, are amended to read:

338.26 Alligator Alley toll road.—

(3) Fees generated from tolls shall be deposited in the State Transportation Trust Fund, and any amount of funds generated annually in excess of that required to reimburse outstanding contractual obligations, to operate and maintain the highway and toll facilities, including reconstruction and restoration, to pay for those projects that are funded with Alligator Alley toll revenues and that are contained in the 1993-1994 adopted work program or the 1994-1995 tentative work program submitted to the Legislature on February 22, 1994, and to design and construct ~~develop and operate~~ a fire station at mile marker 63 on Alligator Alley, which may be used by Collier County or other appropriate local governmental entity to provide fire, rescue, and emergency management services ~~to the adjacent counties~~ along Alligator Alley, may be transferred to the Everglades Fund of the South Florida Water Management District in accordance with the memorandum of understanding of June 30, 1997, between the district and the department. The South Florida Water Management District shall deposit funds for projects

undertaken pursuant to s. 373.4592 in the Everglades Trust Fund pursuant to s. 373.45926(4)(a). Any funds remaining in the Everglades Fund may be used for environmental projects to restore the natural values of the Everglades, subject to compliance with any applicable federal laws and regulations. Projects must ~~shall~~ be limited to:

(a) Highway redesign to allow for improved sheet flow of water across the southern Everglades.

(b) Water conveyance projects to enable more water resources to reach Florida Bay to replenish marine estuary functions.

(c) Engineering design plans for wastewater treatment facilities as recommended in the Water Quality Protection Program Document for the Florida Keys National Marine Sanctuary.

(d) Acquisition of lands to move STA 3/4 out of the Toe of the Boot, provided such lands are located within 1 mile of the northern border of STA 3/4.

(e) Other Everglades Construction Projects as described in the February 15, 1994, conceptual design document.

~~(4) The district may issue revenue bonds or notes under s. 373.584 and pledge the revenue from the transfers from the Alligator Alley toll revenues as security for such bonds or notes. The proceeds from such revenue bonds or notes shall be used for environmental projects; at least 50 percent of said proceeds must be used for projects that benefit Florida Bay, as described in this section subject to resolutions approving such activity by the Board of Trustees of the Internal Improvement Trust Fund and the governing board of the South Florida Water Management District and the remaining proceeds must be used for~~

~~restoration activities in the Everglades Protection Area.~~

Section 34. Subsections (2) through (4) of section 339.175, Florida Statutes, are amended to read:

339.175 Metropolitan planning organization.—

(2) DESIGNATION.—

(a)1. An M.P.O. shall be designated for each urbanized area of the state; however, this does not require that an individual M.P.O. be designated for each such area. The M.P.O. ~~Such~~ designation shall be accomplished by agreement between the Governor and units of general-purpose local government that together represent ~~representing~~ at least 75 percent of the population, including the largest incorporated municipality, based on population, ~~of the urbanized area; however, the unit of general-purpose local government that represents the central city or cities within the M.P.O. jurisdiction,~~ as named ~~defined~~ by the United States Bureau of the Census~~, must be a party to such agreement~~.

2. To the extent possible, only one M.P.O. shall be designated for each urbanized area or group of contiguous urbanized areas. More than one M.P.O. may be designated within an existing urbanized area only if the Governor and the existing M.P.O. determine that the size and complexity of the existing urbanized area makes the designation of more than one M.P.O. for the area appropriate.

(b) Each M.P.O. designated in a manner prescribed by Title 23 of the United States Code shall be created and operated under the provisions of this section pursuant to an interlocal agreement entered into pursuant to s. 163.01. The signatories to the interlocal agreement shall be the department and the

governmental entities designated by the Governor for membership on the M.P.O. Each M.P.O. shall be considered separate from the state or the governing body of a local government that is represented on the governing board of the M.P.O. or that is a signatory to the interlocal agreement creating the M.P.O. and shall have such powers and privileges that are provided under s. 163.01. If there is a conflict between this section and s. 163.01, this section prevails.

(c) The jurisdictional boundaries of an M.P.O. shall be determined by agreement between the Governor and the applicable M.P.O. The boundaries must include at least the metropolitan planning area, which is the existing urbanized area and the contiguous area expected to become urbanized within a 20-year forecast period, and may encompass the entire metropolitan statistical area or the consolidated metropolitan statistical area.

(d) In the case of an urbanized area designated as a nonattainment area for ozone or carbon monoxide under the Clean Air Act, 42 U.S.C. ss. 7401 et seq., the boundaries of the metropolitan planning area in existence as of the date of enactment of this paragraph shall be retained, except that the boundaries may be adjusted by agreement of the Governor and affected metropolitan planning organizations in the manner described in this section. If more than one M.P.O. has authority within a metropolitan area or an area that is designated as a nonattainment area, each M.P.O. shall consult with other M.P.O.'s designated for such area and with the state in the coordination of plans and programs required by this section.

(e) The governing body of the M.P.O. shall designate, at a

minimum, a chair, vice chair, and agency clerk. The chair and vice chair shall be selected from among the member delegates comprising the governing board. The agency clerk shall be charged with the responsibility of preparing meeting minutes and maintaining agency records. The clerk shall be a member of the M.P.O. governing board, an employee of the M.P.O., or other natural person.

Each M.P.O. required under this section must be fully operative no later than 6 months following its designation.

(3) VOTING MEMBERSHIP.—

(a) The voting membership of an M.P.O. shall consist of not fewer than 5 or more than 19 apportioned members, the exact number to be determined on an equitable geographic-population ratio ~~basis by the Governor~~, based on an agreement among the affected units of general-purpose local government and the Governor as required by federal ~~rules and~~ regulations. The voting membership of an M.P.O. that is redesignated after the effective date of this act as a result of the expansion of the M.P.O. to include a new urbanized area or the consolidation of two or more M.P.O.'s within a single urbanized area may consist of no more than 25 members. The Governor, in accordance with 23 U.S.C. s. 134, may also provide for M.P.O. members who represent municipalities to alternate with representatives from other municipalities within the metropolitan planning area that do not have members on the M.P.O. County commission members shall compose not less than one-third of the M.P.O. membership, except for an M.P.O. with more than 15 members located in a county with a 5-member county commission or an M.P.O. with 19 members

located in a county with no more than 6 county commissioners, in which case county commission members may compose less than one-third percent of the M.P.O. membership, but all county commissioners must be members. All voting members shall be elected officials of general-purpose local governments, except that an M.P.O. may include, as part of its apportioned voting members, a member of a statutorily authorized planning board, an official of an agency that operates or administers a major mode of transportation, or an official of Space Florida. As used in this section, the term "elected officials of a general-purpose local government" excludes ~~shall exclude~~ constitutional officers, including sheriffs, tax collectors, supervisors of elections, property appraisers, clerks of the court, and similar types of officials. County commissioners shall compose not less than 20 percent of the M.P.O. membership if an official of an agency that operates or administers a major mode of transportation has been appointed to an M.P.O.

(b) In metropolitan areas in which authorities or other agencies have been or may be created by law to perform transportation functions and are performing transportation functions that are not under the jurisdiction of a general-purpose local government represented on the M.P.O., they may ~~shall~~ be provided voting membership on the M.P.O. In all other M.P.O.'s where transportation authorities or agencies are to be represented by elected officials from general-purpose local governments, the M.P.O. shall establish a process by which the collective interests of such authorities or other agencies are expressed and conveyed.

(c) Any other provision of this section to the contrary

notwithstanding, a chartered county with a population of more than ~~over~~ 1 million ~~population~~ may elect to reapportion the membership of an M.P.O. whose jurisdiction is wholly within the county. The charter county may exercise the provisions of this paragraph if:

1. The M.P.O. approves the reapportionment plan by a three-fourths vote of its membership;

2. The M.P.O. and the charter county determine that the reapportionment plan is needed to fulfill specific goals and policies applicable to that metropolitan planning area; and

3. The charter county determines the reapportionment plan otherwise complies with all federal requirements pertaining to M.P.O. membership.

A ~~Any~~ charter county that elects to exercise the provisions of this paragraph shall notify the Governor in writing.

(d) Any other provision of this section to the contrary notwithstanding, a ~~any~~ county chartered under s. 6(e), Art. VIII of the State Constitution may elect to have its county commission serve as the M.P.O., if the M.P.O. jurisdiction is wholly contained within the county. A ~~Any~~ charter county that elects to exercise the provisions of this paragraph shall so notify the Governor in writing. Upon receipt of the ~~such~~ notification, the Governor must designate the county commission as the M.P.O. The Governor must appoint four additional voting members to the M.P.O., one of whom must be an elected official representing a municipality within the county, one of whom must be an expressway authority member, one of whom must be a person who does not hold elected public office and who resides in the

unincorporated portion of the county, and one of whom must be a school board member.

(4) APPORTIONMENT.—

(a) Each M.P.O. in the state shall review the composition of its membership in conjunction with the decennial census, as prepared by the United States Department of Commerce, Bureau of the Census, and, with the agreement of the affected units of general-purpose local government and the Governor, reapportion the membership as necessary to comply with subsection (3) ~~The Governor shall, with the agreement of the affected units of general-purpose local government as required by federal rules and regulations, apportion the membership on the applicable M.P.O. among the various governmental entities within the area~~.

(b) At the request of a majority of the affected units of general-purpose local government comprising an M.P.O., the Governor and a majority of units of general-purpose local government serving on an M.P.O. shall cooperatively agree upon and prescribe who may serve as an alternate member and a method for appointing alternate members who may vote at any M.P.O. meeting that an alternate member attends in place of a regular member. The method must ~~shall~~ be set forth as a part of the interlocal agreement describing the M.P.O.'s membership or in the M.P.O.'s operating procedures and bylaws. The governmental entity so designated shall appoint the appropriate number of members to the M.P.O. from eligible officials. Representatives of the department shall serve as nonvoting advisers to the M.P.O. governing board. Additional nonvoting advisers may be appointed by the M.P.O. as deemed necessary; however, to the maximum extent feasible, each M.P.O. shall seek to appoint

nonvoting representatives of various multimodal forms of transportation not otherwise represented by voting members of the M.P.O. An M.P.O. shall appoint nonvoting advisers representing major military installations located within the jurisdictional boundaries of the M.P.O. upon the request of the aforesaid major military installations and subject to the agreement of the M.P.O. All nonvoting advisers may attend and participate fully in governing board meetings but may not vote or be members of the governing board. ~~The Governor shall review the composition of the M.P.O. membership in conjunction with the decennial census as prepared by the United States Department of Commerce, Bureau of the Census, and reapportion it as necessary to comply with subsection (3).~~

(c) ~~(b)~~ Except for members who represent municipalities on the basis of alternating with representatives from other municipalities that do not have members on the M.P.O. as provided in paragraph (3)(a), the members of an M.P.O. shall serve 4-year terms. Members who represent municipalities on the basis of alternating with representatives from other municipalities that do not have members on the M.P.O. as provided in paragraph (3)(a) may serve terms of up to 4 years as further provided in the interlocal agreement described in paragraph (2)(b). The membership of a member who is a public official automatically terminates upon the member's leaving his or her elective or appointive office for any reason, or may be terminated by a majority vote of the total membership of the entity's governing board represented by the member. A vacancy shall be filled by the original appointing entity. A member may be reappointed for one or more additional 4-year terms.

(d) ~~(c)~~ If a governmental entity fails to fill an assigned appointment to an M.P.O. within 60 days after notification by the Governor of its duty to appoint, that appointment must ~~shall~~ be made by the Governor from the eligible representatives of that governmental entity.

Section 35. Paragraph (a) of subsection (1) and subsections (4) and (5) of section 339.2821, Florida Statutes, are amended to read:

339.2821 Economic development transportation projects.—

(1)(a) The department, in consultation with the Department of Economic Opportunity and Enterprise Florida, Inc., may make and approve expenditures and contract with the appropriate governmental body for the direct costs of transportation projects. The Department of Economic Opportunity and the Department of Environmental Protection may formally review and comment on recommended transportation projects, although the department has final approval authority for any project authorized under this section.

(4) A contract between the department and a governmental body for a transportation project must:

(a) Specify that the transportation project is for the construction of a new or expanding business and specify the number of full-time permanent jobs that will result from the project.

(b) Identify the governmental body and require that the governmental body award the construction of the particular transportation project to the lowest and best bidder in accordance with applicable state and federal statutes or rules unless the transportation project can be constructed using

existing local governmental employees within the contract period specified by the department.

(c) Require that the governmental body provide the department with ~~quarterly~~ progress reports. Each ~~quarterly~~ progress report must contain:

1. A narrative description of the work completed and whether the work is proceeding according to the transportation project schedule;

2. A description of each change order executed by the governmental body;

3. A budget summary detailing planned expenditures compared to actual expenditures; and

4. The identity of each small or minority business used as a contractor or subcontractor.

(d) Require that the governmental body make and maintain records in accordance with accepted governmental accounting principles and practices for each progress payment made for work performed in connection with the transportation project, each change order executed by the governmental body, and each payment made pursuant to a change order. The records are subject to financial audit as required by law.

(e) Require that the governmental body, upon completion and acceptance of the transportation project, certify to the department that the transportation project has been completed in compliance with the terms and conditions of the contract between the department and the governmental body and meets the minimum construction standards established in accordance with s. 336.045.

(f) Specify that ~~the department transfer~~ funds will not be

transferred to the governmental body unless construction has begun on the facility of the ~~not more often than quarterly, upon receipt of a request for funds from the governmental body and consistent with the needs of the transportation project. The governmental body shall expend funds received from the department in a timely manner. The department may not transfer funds unless construction has begun on the facility of a~~ business on whose behalf the award was made. If construction of the transportation project does not begin within 4 years after the date of the initial grant award, the grant award is terminated ~~A contract totaling less than $200,000 is exempt from the transfer requirement~~.

(g) Require that funds be used only on a transportation project that has been properly reviewed and approved in accordance with the criteria set forth in this section.

(h) Require that the governing board of the governmental body adopt a resolution accepting future maintenance and other attendant costs occurring after completion of the transportation project if the transportation project is constructed on a county or municipal system.

(5) For purposes of this section, Space Florida may serve as the governmental body or as the contracting agency for a ~~transportation~~ project within a spaceport territory as defined by s. 331.304.

Section 36. Paragraphs (a) and (c) of subsection (2) and paragraph (i) of subsection (7) of section 339.55, Florida Statutes, are amended to read:

339.55 State-funded infrastructure bank.—

(2) The bank may lend capital costs or provide credit

enhancements for:

(a) A transportation facility project that is on the State Highway System or that provides for increased mobility on the state's transportation system or provides intermodal connectivity with airports, seaports, spaceports, rail facilities, and other transportation terminals, pursuant to s. 341.053, for the movement of people and goods.

(c)1. Emergency loans for damages incurred to public-use commercial deepwater seaports, public-use airports, public-use spaceports, and other public-use transit and intermodal facilities that are within an area that is part of an official state declaration of emergency pursuant to chapter 252 and all other applicable laws. Such loans:

a. May not exceed 24 months in duration except in extreme circumstances, for which the Secretary of Transportation may grant up to 36 months upon making written findings specifying the conditions requiring a 36-month term.

b. Require application from the recipient to the department that includes documentation of damage claims filed with the Federal Emergency Management Agency or an applicable insurance carrier and documentation of the recipient's overall financial condition.

c. Are subject to approval by the Secretary of Transportation and the Legislative Budget Commission.

2. Loans provided under this paragraph must be repaid upon receipt by the recipient of eligible program funding for damages in accordance with the claims filed with the Federal Emergency Management Agency or an applicable insurance carrier, but no later than the duration of the loan.

(7) The department may consider, but is not limited to, the following criteria for evaluation of projects for assistance from the bank:

(i) The extent to which the project will provide for connectivity between the State Highway System and airports, seaports, spaceports, rail facilities, and other transportation terminals and intermodal options pursuant to s. 341.053 for the increased accessibility and movement of people and goods.

Section 37. Subsection (11) of section 341.031, Florida Statutes, is amended to read:

341.031 Definitions relating to Florida Public Transit Act.—As used in ss. 341.011-341.061, the term:

(11) "Intercity bus service" means regularly scheduled bus service for the general public which operates with limited stops over fixed routes connecting two or more urban areas not in close proximity; has the capacity for transporting baggage carried by passengers; and makes meaningful connections with scheduled intercity bus service to more distant points, if such service is available~~; maintains scheduled information in the National Official Bus Guide; and provides package express service incidental to passenger transportation~~.

Section 38. Section 341.053, Florida Statutes, is amended to read:

341.053 Intermodal Development Program; administration; eligible projects; limitations.—

(1) There is created within the Department of Transportation an Intermodal Development Program to provide for major capital investments in fixed-guideway transportation systems, access to seaports, airports, spaceports, and other

transportation terminals, providing for the construction of intermodal or multimodal terminals; and to plan or fund construction of airport, spaceport, seaport, transit, and rail projects that ~~otherwise~~ facilitate the intermodal or multimodal movement of people and goods.

(2) The Intermodal Development Program shall be used for projects that support statewide goals as outlined in the Florida Transportation Plan, the Strategic Intermodal System Plan, the Freight Mobility and Trade Plan, or the appropriate department modal plan ~~In recognition of the department's role in the economic development of this state, the department shall develop a proposed intermodal development plan to connect Florida's airports, deepwater seaports, rail systems serving both passenger and freight, and major intermodal connectors to the Strategic Intermodal System highway corridors as the primary system for the movement of people and freight in this state in order to make the intermodal development plan a fully integrated and interconnected system~~. ~~The intermodal development plan must:~~

~~(a) Define and assess the state's freight intermodal network, including airports, seaports, rail lines and terminals, intercity bus lines and terminals, and connecting highways.~~

~~(b) Prioritize statewide infrastructure investments, including the acceleration of current projects, which are found by the Freight Stakeholders Task Force to be priority projects for the efficient movement of people and freight.~~

~~(c) Be developed in a manner that will assure maximum use of existing facilities and optimum integration and coordination of the various modes of transportation, including both government-owned and privately owned resources, in the most~~

~~cost effective manner possible.~~

(3) The Intermodal Development Program shall be administered by the department.

(4) The department shall review funding requests from a rail authority created pursuant to chapter 343. The department may include projects of the authorities, including planning and design, in the tentative work program.

(5) ~~No single transportation authority operating a fixed-guideway transportation system, or single fixed guideway transportation system not administered by a transportation authority, receiving funds under the Intermodal Development Program shall receive more than 33 1/3 percent of the total intermodal development funds appropriated between July 1, 1990, and June 30, 2015. In determining the distribution of funds under the Intermodal Development Program in any fiscal year, the department shall assume that future appropriation levels will be equal to the current appropriation level.~~

~~(6)~~ The department may ~~is authorized to~~ fund projects within the Intermodal Development Program, which are consistent, to the maximum extent feasible, with approved local government comprehensive plans of the units of local government in which the project is located. Projects that are eligible for funding under this program include planning studies, major capital investments in public rail and fixed-guideway transportation or freight facilities and systems which provide intermodal access; road, rail, intercity bus service, or fixed-guideway access to, from, or between seaports, airports, spaceports, intermodal logistics centers, and other transportation terminals; construction of intermodal or multimodal terminals, including

projects on airports, spaceports, intermodal logistics centers, or seaports which assist in the movement or transfer of people or goods; development and construction of dedicated bus lanes; and projects which otherwise facilitate the intermodal or multimodal movement of people and goods.

Section 39. Subsection (17) of section 341.302, Florida Statutes, is amended to read:

341.302 Rail program; duties and responsibilities of the department.—The department, in conjunction with other governmental entities, including the rail enterprise and the private sector, shall develop and implement a rail program of statewide application designed to ensure the proper maintenance, safety, revitalization, and expansion of the rail system to assure its continued and increased availability to respond to statewide mobility needs. Within the resources provided pursuant to chapter 216, and as authorized under federal law, the department shall:

(17) In conjunction with the acquisition, ownership, construction, operation, maintenance, and management of a rail corridor, have the authority to:

(a) Assume obligations pursuant to the following:

1.a. The department may assume the obligation by contract to forever protect, defend, indemnify, and hold harmless the freight rail operator, or its successors, from whom the department has acquired a real property interest in the rail corridor, and that freight rail operator's officers, agents, and employees, from and against any liability, cost, and expense, including, but not limited to, commuter rail passengers and rail corridor invitees in the rail corridor, regardless of whether

the loss, damage, destruction, injury, or death giving rise to any such liability, cost, or expense is caused in whole or in part, and to whatever nature or degree, by the fault, failure, negligence, misconduct, nonfeasance, or misfeasance of such freight rail operator, its successors, or its officers, agents, and employees, or any other person or persons whomsoever; or

b. The department may assume the obligation by contract to forever protect, defend, indemnify, and hold harmless National Railroad Passenger Corporation, or its successors, and officers, agents, and employees of National Railroad Passenger Corporation, from and against any liability, cost, and expense, including, but not limited to, commuter rail passengers and rail corridor invitees in the rail corridor, regardless of whether the loss, damage, destruction, injury, or death giving rise to any such liability, cost, or expense is caused in whole or in part, and to whatever nature or degree, by the fault, failure, negligence, misconduct, nonfeasance, or misfeasance of National Railroad Passenger Corporation, its successors, or its officers, agents, and employees, or any other person or persons whomsoever.

2. The assumption of liability of the department by contract pursuant to sub-subparagraph 1.a. or sub-subparagraph 1.b. may not in any instance exceed the following parameters of allocation of risk:

a. The department may be solely responsible for any loss, injury, or damage to commuter rail passengers, or rail corridor invitees, or trespassers, regardless of circumstances or cause, subject to sub-subparagraph b. and subparagraphs 3., 4., 5., and 6.

b.(I) In the event of a limited covered accident, the authority of the department to protect, defend, and indemnify the freight operator for all liability, cost, and expense, including punitive or exemplary damages, in excess of the deductible or self-insurance retention fund established under paragraph (b) and actually in force at the time of the limited covered accident exists only if the freight operator agrees, with respect to the limited covered accident, to protect, defend, and indemnify the department for the amount of the deductible or self-insurance retention fund established under paragraph (b) and actually in force at the time of the limited covered accident.

(II) In the event of a limited covered accident, the authority of the department to protect, defend, and indemnify National Railroad Passenger Corporation for all liability, cost, and expense, including punitive or exemplary damages, in excess of the deductible or self-insurance retention fund established under paragraph (b) and actually in force at the time of the limited covered accident exists only if National Railroad Passenger Corporation agrees, with respect to the limited covered accident, to protect, defend, and indemnify the department for the amount of the deductible or self-insurance retention fund established under paragraph (b) and actually in force at the time of the limited covered accident.

3. If ~~When~~ only one train is involved in an incident, the department may be solely responsible for any loss, injury, or damage if the train is a department train or other train pursuant to subparagraph 4., but only if:

a. If ~~When~~ an incident occurs with only a freight train

involved, including incidents with trespassers or at grade crossings, the freight rail operator is solely responsible for any loss, injury, or damage, except for commuter rail passengers and rail corridor invitees; or

b. If ~~When~~ an incident occurs with only a National Railroad Passenger Corporation train involved, including incidents with trespassers or at grade crossings, National Railroad Passenger Corporation is solely responsible for any loss, injury, or damage, except for commuter rail passengers and rail corridor invitees.

4. For the purposes of this subsection:

a. A ~~Any~~ train involved in an incident which ~~that~~ is not ~~neither~~ the department's train or ~~nor~~ the freight rail operator's train, hereinafter referred to in this subsection as an "other train," may be treated as a department train, solely for purposes of any allocation of liability between the department and the freight rail operator only, but only if the department and the freight rail operator share responsibility equally as to third parties outside the rail corridor who incur loss, injury, or damage as a result of any incident involving both a department train and a freight rail operator train, and the allocation as between the department and the freight rail operator, regardless of whether the other train is treated as a department train, shall remain one-half each as to third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident. The involvement of any other train does ~~shall~~ not alter the sharing of equal responsibility as to third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident; or

b. A ~~Any~~ train involved in an incident that is not ~~neither~~ the department's train or ~~nor~~ the National Railroad Passenger Corporation's train, hereinafter referred to in this subsection as an "other train," may be treated as a department train, solely for purposes of any allocation of liability between the department and National Railroad Passenger Corporation only, but only if the department and National Railroad Passenger Corporation share responsibility equally as to third parties outside the rail corridor who incur loss, injury, or damage as a result of any incident involving both a department train and a National Railroad Passenger Corporation train, and the allocation as between the department and National Railroad Passenger Corporation, regardless of whether the other train is treated as a department train, shall remain one-half each as to third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident. The involvement of any other train does ~~shall~~ not alter the sharing of equal responsibility as to third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident.

5. If ~~When~~ more than one train is involved in an incident:

a.(I) If only a department train and freight rail operator's train, or only an other train as described in sub-subparagraph 4.a. and a freight rail operator's train, are involved in an incident, the department may be responsible for its property and all of its people, all commuter rail passengers, and rail corridor invitees, but only if the freight rail operator is responsible for its property and all of its people, and the department and the freight rail operator each share one-half responsibility as to trespassers or third parties

outside the rail corridor who incur loss, injury, or damage as a result of the incident; or

(II) If only a department train and a National Railroad Passenger Corporation train, or only an other train as described in sub-subparagraph 4.b. and a National Railroad Passenger Corporation train, are involved in an incident, the department may be responsible for its property and all of its people, all commuter rail passengers, and rail corridor invitees, but only if National Railroad Passenger Corporation is responsible for its property and all of its people, all National Railroad Passenger Corporation's rail passengers, and the department and National Railroad Passenger Corporation each share one-half responsibility as to trespassers or third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident.

b.(I) If a department train, a freight rail operator train, and any other train are involved in an incident, the allocation of liability between the department and the freight rail operator, regardless of whether the other train is treated as a department train, shall remain one-half each as to third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident; the involvement of any other train does ~~shall~~ not alter the sharing of equal responsibility as to third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident; and, if the owner, operator, or insurer of the other train makes any payment to injured third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident, the allocation of credit between the department and the freight rail operator as to such

payment does ~~shall~~ not in any case reduce the freight rail operator's third-party-sharing allocation of one-half under this paragraph to less than one-third of the total third party liability; or

(II) If a department train, a National Railroad Passenger Corporation train, and any other train are involved in an incident, the allocation of liability between the department and National Railroad Passenger Corporation, regardless of whether the other train is treated as a department train, shall remain one-half each as to third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident; the involvement of any other train does ~~shall~~ not alter the sharing of equal responsibility as to third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident; and, if the owner, operator, or insurer of the other train makes any payment to injured third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident, the allocation of credit between the department and National Railroad Passenger Corporation as to such payment does ~~shall~~ not in any case reduce National Railroad Passenger Corporation's third-party-sharing allocation of one-half under this sub-subparagraph to less than one-third of the total third party liability.

6. Any such contractual duty to protect, defend, indemnify, and hold harmless such a freight rail operator or National Railroad Passenger Corporation shall expressly include a specific cap on the amount of the contractual duty, which amount may ~~shall~~ not exceed $200 million without prior legislative approval, and the department to purchase liability insurance and

establish a self-insurance retention fund in the amount of the specific cap established under this subparagraph, provided that:

a. A ~~No such~~ contractual duty may not ~~shall~~ in any case be effective or ~~nor~~ otherwise extend the department's liability in scope and effect beyond the contractual liability insurance and self-insurance retention fund required pursuant to this paragraph; and

b.(I) The freight rail operator's compensation to the department for future use of the department's rail corridor shall include a monetary contribution to the cost of such liability coverage for the sole benefit of the freight rail operator.

(II) National Railroad Passenger Corporation's compensation to the department for future use of the department's rail corridor shall include a monetary contribution to the cost of such liability coverage for the sole benefit of National Railroad Passenger Corporation.

(b) Purchase liability insurance, which amount may ~~shall~~ not exceed $200 million, and establish a self-insurance retention fund for the purpose of paying the deductible limit established in the insurance policies it may obtain, including coverage for the department, any freight rail operator as described in paragraph (a), National Railroad Passenger Corporation, commuter rail service providers, governmental entities, or any ancillary development, which self-insurance retention fund or deductible may ~~shall~~ not exceed $10 million. The insureds shall pay a reasonable monetary contribution to the cost of such liability coverage for the sole benefit of the insured. Such insurance and self-insurance retention fund may

provide coverage for all damages, including, but not limited to, compensatory, special, and exemplary, and be maintained to provide an adequate fund to cover claims and liabilities for loss, injury, or damage arising out of or connected with the ownership, operation, maintenance, and management of a rail corridor.

(c) Incur expenses for the purchase of advertisements, marketing, and promotional items.

(d) Undertake any ancillary development that the department determines to be appropriate as a source of revenue for the establishment, construction, operation, or maintenance of any rail corridor owned by the state. The ancillary development must be consistent, to the extent feasible, with applicable local government comprehensive plans and local land development regulations and otherwise be in compliance with ss. 341.302-341.303.

~~Neither~~ The assumption by contract to protect, defend, indemnify, and hold harmless; the purchase of insurance; or ~~nor~~ the establishment of a self-insurance retention fund may not ~~shall~~ be deemed to be a waiver of any defense of sovereign immunity for torts nor deemed to increase the limits of the department's or the governmental entity's liability for torts as provided in s. 768.28. The requirements of s. 287.022(1) do ~~shall~~ not apply to the purchase of any insurance under this subsection. The provisions of this subsection ~~shall~~ apply and inure fully as to any other governmental entity providing commuter rail service and constructing, operating, maintaining, or managing a rail corridor on publicly owned right-of-way under

contract by the governmental entity with the department or a governmental entity designated by the department. Notwithstanding any law to the contrary, procurement for the construction, operation, maintenance, and management of any rail corridor described in this subsection, whether by the department, a governmental entity under contract with the department, or a governmental entity designated by the department, must ~~shall~~ be pursuant to s. 287.057 and must ~~shall~~ include, but not be limited to, criteria for the consideration of qualifications, technical aspects of the proposal, and price. Further, a ~~any such~~ contract for design-build shall be procured pursuant to the criteria in s. 337.11(7).

Section 40. Paragraph (d) of subsection (3) of section 343.82, Florida Statutes, is amended to read:

343.82 Purposes and powers.—

(3)

(d) The authority may undertake projects or other improvements in the master plan in phases as particular projects or segments thereof become feasible, as determined by the authority. In carrying out its purposes and powers, the authority may request funding and technical assistance from the department and appropriate federal and local agencies, including, but not limited to, state infrastructure bank loans~~, advances from the Toll Facilities Revolving Trust Fund,~~ and from any other sources.

Section 41. Subsection (4) of section 343.922, Florida Statutes, is amended to read:

343.922 Powers and duties.—

(4) The authority may undertake projects or other

improvements in the master plan in phases as particular projects or segments become feasible, as determined by the authority. The authority shall coordinate project planning, development, and implementation with the applicable local governments. The authority's projects that are transportation oriented shall be consistent to the maximum extent feasible with the adopted local government comprehensive plans at the time they are funded for construction. Authority projects that are not transportation oriented and meet the definition of development pursuant to s. 380.04 shall be consistent with the local comprehensive plans. In carrying out its purposes and powers, the authority may request funding and technical assistance from the department and appropriate federal and local agencies, including, but not limited to, state infrastructure bank loans~~, advances from the Toll Facilities Revolving Trust Fund,~~ and funding and technical assistance from any other source.

Section 42. Chapter 345, Florida Statutes, consisting of sections 345.0001, 345.0002, 345.0003, 345.0004, 345.0005, 345.0006, 345.0007, 345.0008, 345.0009, 345.0010, 345.0011, 345.0012, 345.0013, 345.0014, 345.0015, 345.0016, and 345.0017, is created to read:

345.0001 Short title.—This act may be cited as the "Florida Regional Tollway Authority Act."

345.0002 Definitions.—As used in this chapter, the term:

(1) "Agency of the state" means the state and any department of, or any corporation, agency, or instrumentality heretofore or hereafter created, designated, or established by, the state.

(2) "Area served" means the geographical area of the

counties for which an authority is established.

(3) "Authority" means a regional tollway authority, a body politic and corporate, and an agency of the state, established pursuant to the Florida Regional Tollway Authority Act.

(4) "Bonds" means the notes, bonds, refunding bonds, or other evidences of indebtedness or obligations, in temporary or definitive form, which an authority may issue pursuant to this act.

(5) "Department" means the Department of Transportation of Florida and any successor thereto.

(6) "Division" means the Division of Bond Finance of the State Board of Administration.

(7) "Federal agency" means the United States, the President of the United States, and any department of, or any bureau, corporation, agency, or instrumentality heretofore or hereafter created, designated, or established by, the United States.

(8) "Members" means the governing body of an authority, and the term "member" means one of the individuals constituting such governing body.

(9) "Regional system" or "system" means, generally, a modern tolled highway system of roads, bridges, causeways, and tunnels within any area of the authority, with access limited or unlimited as an authority may determine, and the buildings and structures and appurtenances and facilities related to the system, including all approaches, streets, roads, bridges, and avenues of access for the system.

(10) "Revenues" means the tolls, revenues, rates, fees, charges, receipts, rentals, contributions, and other income derived from or in connection with the operation or ownership of

a regional system, including the proceeds of any use and occupancy insurance on any portion of the system but excluding state funds available to an authority and any other municipal or county funds available to an authority under an agreement with a municipality or county.

345.0003 Tollway authority; formation; membership.—

(1) A county, or two or more contiguous counties, may, after the approval of the Legislature, form a regional tollway authority for the purposes of constructing, maintaining, and operating transportation projects in a region of this state. An authority shall be governed in accordance with the provisions of this chapter. An authority may not be created without the approval of the Legislature and the approval of the county commission of each county that will be a part of the authority. An authority may not be created to serve a particular area of this state as provided by this subsection if a regional tollway authority has been created and is operating within all or a portion of the same area served pursuant to an act of the Legislature. Each authority shall be the only authority created and operating pursuant to this chapter within the area served by the authority.

(2) The governing body of an authority shall consist of a board of voting members as follows:

(a) The county commission of each county in the area served by the authority shall each appoint a member who must be a resident of the county from which he or she is appointed. If possible, the member must represent the business and civic interests of the community.

(b) The Governor shall appoint an equal number of members

to the board as those appointed by the county commissions. The members appointed by the Governor must be residents of the area served by the authority.

(c) The secretary of the Department of Transportation shall appoint one of the district secretaries, or his or her designee, for the districts within which the area served by the authority is located.

(3) The term of office of each member shall be for 4 years or until his or her successor is appointed and qualified.

(4) A member may not hold an elected office.

(5) A vacancy occurring in the governing body before the expiration of the member's term shall be filled by the respective appointing authority in the same manner as the original appointment and only for the balance of the unexpired term.

(6) Each member, before entering upon his or her official duties, must take and subscribe to an oath before an official authorized by law to administer oaths that he or she will honestly, faithfully, and impartially perform the duties devolving upon him or her in office as a member of the governing body of the authority and that he or she will not neglect any duties imposed upon him or her by this chapter.

(7) A member of an authority may be removed from office by the Governor for misconduct, malfeasance, misfeasance, or nonfeasance in office.

(8) The members of the authority shall designate one of its members as chair.

(9) The members of the authority shall serve without compensation, but shall be entitled to reimbursement for per

diem and other expenses in accordance with s. 112.061 while in performance of their duties.

(10) A majority of the members of the authority constitutes a quorum, and resolutions enacted or adopted by a vote of a majority of the members present and voting at any meeting become effective without publication, posting, or any further action of the authority.

345.0004 Powers and duties.—

(1)(a) An authority created and established, or governed, by the Florida Regional Tollway Authority Act shall plan, develop, finance, construct, reconstruct, improve, own, operate, and maintain a regional system in the area served by the authority.

(b) An authority may not exercise the powers in paragraph (a) with respect to an existing system for transporting people and goods by any means that is owned by another entity without the consent of that entity. If an authority acquires, purchases, or inherits an existing entity, the authority shall also inherit and assume all rights, assets, appropriations, privileges, and obligations of the existing entity.

(2) Each authority may exercise all powers necessary, appurtenant, convenient, or incidental to the carrying out of the purposes of this section, including, but not limited to, the following rights and powers:

(a) To sue and be sued, implead and be impleaded, and complain and defend in all courts in its own name.

(b) To adopt and use a corporate seal.

(c) To have the power of eminent domain, including the procedural powers granted under chapters 73 and 74.

(d) To acquire, purchase, hold, lease as a lessee, and use any property, real, personal, or mixed, tangible or intangible, or any interest therein, necessary or desirable for carrying out the purposes of the authority.

(e) To sell, convey, exchange, lease, or otherwise dispose of any real or personal property acquired by the authority, including air rights.

(f) To fix, alter, charge, establish, and collect rates, fees, rentals, and other charges for the use of any system owned or operated by the authority, which rates, fees, rentals, and other charges must always be sufficient to comply with any covenants made with the holders of any bonds issued pursuant to this act; however, such right and power may be assigned or delegated by the authority to the department.

(g) To borrow money, make and issue negotiable notes, bonds, refunding bonds, and other evidences of indebtedness or obligations, in temporary or definitive form, for the purpose of financing all or part of the improvement of the authority's system and appurtenant facilities, including the approaches, streets, roads, bridges, and avenues of access for the system and for any other purpose authorized by this chapter, the bonds to mature in not exceeding 30 years after the date of the issuance thereof, and to secure the payment of such bonds or any part thereof by a pledge of its revenues, rates, fees, rentals, or other charges, including municipal or county funds received by the authority pursuant to the terms of an agreement between the authority and a municipality or county; and, in general, to provide for the security of the bonds and the rights and remedies of the holders of the bonds; however, municipal or

county funds may not be pledged for the construction of a project for which a toll is to be charged unless the anticipated tolls are reasonably estimated by the governing board of the municipality or county, at the date of its resolution pledging said funds, to be sufficient to cover the principal and interest of such obligations during the period when the pledge of funds is in effect.

1. An authority shall reimburse a municipality or county for sums expended from municipal or county funds used for the payment of the bond obligations.

2. If an authority determines to fund or refund any bonds issued by the authority before the maturity of the bonds, the proceeds of the funding or refunding bonds shall, pending the prior redemption of the bonds to be funded or refunded, be invested in direct obligations of the United States, and the outstanding bonds may be funded or refunded by the issuance of bonds pursuant to this chapter.

(h) To make contracts of every name and nature, including, but not limited to, partnerships providing for participation in ownership and revenues, and to execute each instrument necessary or convenient for the conduct of its business.

(i) Without limitation of the foregoing, to cooperate with, to borrow money and accept grants from, and to enter into contracts or other transactions with any federal agency, the state, or any agency or any other public body of the state.

(j) To employ an executive director, attorney, staff, and consultants. Upon the request of an authority, the department shall furnish the services of a department employee to act as the executive director of the authority.

(k) To enter into joint development agreements.

(l) To accept funds or other property from private donations.

(m) To do all acts and things necessary or convenient for the conduct of its business and the general welfare of the authority, in order to carry out the powers granted to it by this act or any other law.

(3) An authority does not have the power at any time or in any manner to pledge the credit or taxing power of the state or any political subdivision or agency thereof. Obligations of the authority may not be deemed to be obligations of the state or of any other political subdivision or agency thereof. The state or any political subdivision or agency thereof, except the authority, is not liable for the payment of the principal of or interest on such obligations.

(4) An authority has no power, other than by consent of the affected county or an affected municipality, to enter into an agreement that would legally prohibit the construction of a road by the county or the municipality.

(5) An authority formed pursuant to this chapter shall comply with the statutory requirements of general application which relate to the filing of a report or documentation required by law, including the requirements of ss. 189.4085, 189.415, 189.417, and 189.418.

345.0005 Bonds.—

(1)(a) Bonds may be issued on behalf of an authority pursuant to the State Bond Act.

(b) An authority may also issue bonds in such principal amount as is necessary, in the opinion of the authority, to

provide sufficient moneys for achieving its corporate purposes, including construction, reconstruction, improvement, extension, repair, maintenance and operation of the system, the cost of acquisition of all real property, interest on bonds during construction and for a reasonable period thereafter, establishment of reserves to secure bonds, and other expenditures of the authority incident, and necessary or convenient, to carry out its corporate purposes and powers.

(2)(a) Bonds issued by an authority pursuant to paragraph (1)(a) or paragraph (1)(b) must be authorized by resolution of the members of the authority and must bear such date or dates; mature at such time or times, not exceeding 30 years after their respective dates; bear interest at such rate or rates, not exceeding the maximum rate fixed by general law for authorities; be in such denominations; be in such form, either coupon or fully registered; carry such registration, exchangeability and interchangeability privileges; be payable in such medium of payment and at such place or places; be subject to such terms of redemption; and be entitled to such priorities of lien on the revenues and other available moneys as such resolution or any resolution subsequent to the bonds' issuance may provide. The bonds must be executed by manual or facsimile signature by such officers as the authority shall determine, provided that such bonds bear at least one signature that is manually executed on the bond. The coupons attached to the bonds must bear the facsimile signature or signatures of the officer or officers as shall be designated by the authority. The bonds must have the seal of the authority affixed, imprinted, reproduced, or lithographed thereon.

(b) Bonds issued pursuant to paragraph (1)(a) or paragraph (1)(b) must be sold at public sale in the same manner provided in the State Bond Act. Pending the preparation of definitive bonds, temporary bonds or interim certificates may be issued to the purchaser or purchasers of such bonds and may contain such terms and conditions as the authority may determine.

(3) A resolution that authorizes any bonds may contain provisions that must be part of the contract with the holders of the bonds, as to:

(a) The pledging of all or any part of the revenues, available municipal or county funds, or other charges or receipts of the authority derived from the regional system.

(b) The construction, reconstruction, improvement, extension, repair, maintenance, and operation of the system, or any part or parts of the system, and the duties and obligations of the authority with reference thereto.

(c) Limitations on the purposes to which the proceeds of the bonds, then or thereafter issued, or of any loan or grant by any federal agency or the state or any political subdivision of the state may be applied.

(d) The fixing, charging, establishing, revising, increasing, reducing, and collecting of tolls, rates, fees, rentals, or other charges for use of the services and facilities of the system or any part of the system.

(e) The setting aside of reserves or of sinking funds and the regulation and disposition of the reserves or sinking funds.

(f) Limitations on the issuance of additional bonds.

(g) The terms and provisions of any deed of trust or indenture securing the bonds, or under which the bonds may be

issued.

(h) Any other or additional matters, of like or different character, which in any way affect the security or protection of the bonds.

(4) The authority may enter into any deeds of trust, indentures, or other agreements with any bank or trust company within or without the state, as security for such bonds, and may, under such agreements, assign and pledge any of the revenues and other available moneys, including any available municipal or county funds, pursuant to the terms of this chapter. The deed of trust, indenture, or other agreement may contain provisions that are customary in such instruments or that the authority may authorize, including, but without limitation, provisions that:

(a) Pledge any part of the revenues or other moneys lawfully available therefor.

(b) Apply funds and safeguard funds on hand or on deposit.

(c) Provide for the rights and remedies of the trustee and the holders of the bonds.

(d) Provide for the terms and provisions of the bonds or for resolutions authorizing the issuance of the bonds.

(e) Provide for any other or additional matters, of like or different character, which affect the security or protection of the bonds.

(5) Any bonds issued pursuant to this act are negotiable instruments and have all the qualities and incidents of negotiable instruments under the law merchant and the negotiable instruments law of the state.

(6) A resolution that authorizes the issuance of authority

bonds and pledges the revenues of the system must require that revenues of the system be periodically deposited into appropriate accounts in such sums as are sufficient to pay the costs of operation and maintenance of the system for the current fiscal year as set forth in the annual budget of the authority and to reimburse the department for any unreimbursed costs of operation and maintenance of the system from prior fiscal years before revenues of the system are deposited into accounts for the payment of interest or principal owing or that may become owing on such bonds.

(7) State funds may not be used or pledged to pay the principal or interest of any authority bonds, and all such bonds must contain a statement on their face to this effect.

345.0006 Remedies of bondholders.—

(1) The rights and the remedies granted to authority bondholders under this chapter are in addition to and not in limitation of any rights and remedies lawfully granted to such bondholders by the resolution or indenture providing for the issuance of bonds, or by any deed of trust, indenture, or other agreement under which the bonds may be issued or secured. If an authority defaults in the payment of the principal of or interest on any of the bonds issued pursuant to this chapter after such principal of or interest on the bonds becomes due, whether at maturity or upon call for redemption, as provided in the resolution or indenture, and such default continues for 30 days, or in the event that the authority fails or refuses to comply with the provisions of this chapter or any agreement made with, or for the benefit of, the holders of the bonds, the holders of 25 percent in aggregate principal amount of the bonds

then outstanding shall be entitled as of right to the appointment of a trustee to represent such bondholders for the purposes of the default provided that the holders of 25 percent in aggregate principal amount of the bonds then outstanding first gave written notice of their intention to appoint a trustee, to the authority and to the department.

(2) The trustee, and any trustee under any deed of trust, indenture, or other agreement, may, and upon written request of the holders of 25 percent, or such other percentages specified in any deed of trust, indenture, or other agreement, in principal amount of the bonds then outstanding, shall, in any court of competent jurisdiction, in his, her, or its own name:

(a) By mandamus or other suit, action, or proceeding at law, or in equity, enforce all rights of the bondholders, including the right to require the authority to fix, establish, maintain, collect, and charge rates, fees, rentals, and other charges, adequate to carry out any agreement as to, or pledge of, the revenues, and to require the authority to carry out any other covenants and agreements with or for the benefit of the bondholders, and to perform its and their duties under this chapter.

(b) Bring suit upon the bonds.

(c) By action or suit in equity, require the authority to account as if it were the trustee of an express trust for the bondholders.

(d) By action or suit in equity, enjoin any acts or things that may be unlawful or in violation of the rights of the bondholders.

(3) A trustee, if appointed pursuant to this section or

acting under a deed of trust, indenture, or other agreement, and whether or not all bonds have been declared due and payable, shall be entitled as of right to the appointment of a receiver. The receiver may enter upon and take possession of the system or the facilities or any part or parts of the system, the revenues and other pledged moneys, for and on behalf of and in the name of, the authority and the bondholders. The receiver may collect and receive all revenues and other pledged moneys in the same manner as the authority might do. The receiver shall deposit all such revenues and moneys in a separate account and apply all such revenues and moneys remaining after allowance for payment of all costs of operation and maintenance of the system in such manner as the court directs. In a suit, action, or proceeding by the trustee, the fees, counsel fees, and expenses of the trustee, and said receiver, if any, and all costs and disbursements allowed by the court must be a first charge on any revenues after payment of the costs of operation and maintenance of the system. The trustee also has all other powers necessary or appropriate for the exercise of any functions specifically set forth in this section or incident to the representation of the bondholders in the enforcement and protection of their rights.

(4) This section or any other section of this chapter does not authorize a receiver appointed pursuant to this section for the purpose of operating and maintaining the system or any facilities or parts thereof to sell, assign, mortgage, or otherwise dispose of any of the assets belonging to the authority. The powers of such receiver are limited to the operation and maintenance of the system, or any facility or

parts thereof and to the collection and application of revenues and other moneys due the authority, in the name and for and on behalf of the authority and the bondholders. A holder of bonds or any trustee does not have the right in any suit, action, or proceeding, at law or in equity, to compel a receiver, or a receiver may not be authorized or a court may not direct a receiver to, sell, assign, mortgage, or otherwise dispose of any assets of whatever kind or character belonging to the authority.

345.0007 Department to construct, operate, and maintain facilities.—

(1) The department is the agent of each authority for the purpose of performing all phases of a project, including, but not limited to, constructing improvements and extensions to the system. The division and the authority shall provide to the department complete copies of the documents, agreements, resolutions, contracts, and instruments that relate to the project and shall request that the department perform the construction work, including the planning, surveying, design, and actual construction of the completion, extensions, and improvements to the system. After the issuance of bonds to finance construction of an improvement or addition to the system, the division and the authority shall transfer to the credit of an account of the department in the State Treasury the necessary funds for construction. The department shall proceed with construction and use the funds for the purpose authorized and as otherwise provided by law for construction of roads and bridges. An authority may alternatively, with the consent and approval of the department, elect to appoint a local agency certified by the department to administer federal aid projects

in accordance with federal law as the authority's agent for the purpose of performing each phase of a project.

(2) Notwithstanding the provisions of subsection (1), the department is the agent of each authority for the purpose of operating and maintaining the system. The department shall operate and maintain the system, and the costs incurred by the department for operation and maintenance shall be reimbursed from revenues of the system. The appointment of the department as agent for each authority does not create an independent obligation of the department to operate and maintain a system. Each authority shall remain obligated as principal to operate and maintain its system, and an authority's bondholders do not have an independent right to compel the department to operate or maintain the authority's system.

(3) Each authority shall fix, alter, charge, establish, and collect tolls, rates, fees, rentals, and other charges for the authority's facilities, as otherwise provided in this chapter.

345.0008 Department contributions to authority projects.—

(1) The department may, at the request of an authority, provide for or contribute to the payment of costs of financial or engineering and traffic feasibility studies and the design, financing, acquisition, or construction of an authority project or system, subject to appropriation by the Legislature.

(2) The department may use its engineering and other personnel, including consulting engineers and traffic engineers, to conduct feasibility studies pursuant to subsection (1).

(3) An obligation or expense incurred by the department under this section is a part of the cost of the authority project for which the obligation or expense was incurred. The

department may require money contributed by the department under this section to be repaid from tolls of the project on which the money was spent, other revenue of the authority, or other sources of funds.

(4) The department shall receive from an authority a share of the authority's net revenues equal to the ratio of the department's total contributions to the authority under this section to the sum of: the department's total contributions under this section; contributions by any local government to the cost of revenue producing authority projects; and the sale proceeds of authority bonds after payment of costs of issuance. For the purpose of this subsection, net revenues are gross revenues of an authority after payment of debt service, administrative expenses, operations and maintenance expenses, and all reserves required to be established under any resolution under which authority bonds are issued.

345.0009 Acquisition of lands and property.—

(1) For the purposes of this chapter, an authority may acquire private or public property and property rights, including rights of access, air, view, and light, by gift, devise, purchase, condemnation by eminent domain proceedings, or transfer from another political subdivision of the state, as the authority may deem necessary for any of the purposes of this chapter, including, but not limited to, any lands reasonably necessary for securing applicable permits, areas necessary for management of access, borrow pits, drainage ditches, water retention areas, rest areas, replacement access for landowners whose access is impaired due to the construction of a facility, and replacement rights-of-way for relocated rail and utility

facilities; for existing, proposed, or anticipated transportation facilities on the system or in a transportation corridor designated by the authority; or for the purposes of screening, relocation, removal, or disposal of junkyards and scrap metal processing facilities. Each authority shall also have the power to condemn any material and property necessary for such purposes.

(2) An authority shall exercise the right of eminent domain conferred under this section in the manner provided by law.

(3) If an authority acquires property for a transportation facility or in a transportation corridor, it is not subject to any liability imposed by chapter 376 or chapter 403 for preexisting soil or groundwater contamination due solely to its ownership. This section does not affect the rights or liabilities of any past or future owners of the acquired property or affect the liability of any governmental entity for the results of its actions which create or exacerbate a pollution source. An authority and the Department of Environmental Protection may enter into interagency agreements for the performance, funding, and reimbursement of the investigative and remedial acts necessary for property acquired by the authority.

345.0010 Cooperation with other units, boards, agencies, and individuals.—A county, municipality, drainage district, road and bridge district, school district, or any other political subdivision, board, commission, or individual in, or of, the state may make and enter into a contract, lease, conveyance, partnership, or other agreement with an authority within the provisions and purposes of this chapter. Each authority may make

and enter into contracts, leases, conveyances, partnerships, and other agreements with any political subdivision, agency, or instrumentality of the state and any federal agency, corporation, and individual, to carry out the purposes of this chapter.

345.0011 Covenant of the state.—The state pledges to, and agrees with, any person, firm, or corporation, or federal or state agency subscribing to, or acquiring the bonds to be issued by an authority for the purposes of this chapter that the state will not limit or alter the rights vested by this chapter in the authority and the department until all bonds at any time issued, together with the interest thereon, are fully paid and discharged insofar as the rights vested in the authority and the department affect the rights of the holders of bonds issued pursuant to this chapter. The state further pledges to, and agrees with, the United States that if a federal agency constructs or contributes any funds for the completion, extension, or improvement of the system, or any parts of the system, the state will not alter or limit the rights and powers of the authority and the department in any manner that is inconsistent with the continued maintenance and operation of the system or the completion, extension, or improvement of the system, or which would be inconsistent with the due performance of any agreements between the authority and any such federal agency, and the authority and the department shall continue to have and may exercise all powers granted in this section, so long as the powers are necessary or desirable to carry out the purposes of this chapter and the purposes of the United States in the completion, extension, or improvement of the system, or

any part of the system.

345.0012 Exemption from taxation.—The authority created under this chapter is for the benefit of the people of the state, for the increase of their commerce and prosperity, and for the improvement of their health and living conditions, and because the authority will be performing essential governmental functions pursuant to this chapter, the authority is not required to pay any taxes or assessments of any kind or nature whatsoever upon any property acquired or used by it for such purposes, or upon any rates, fees, rentals, receipts, income, or charges received by it, and the bonds issued by the authority, their transfer and the income from their issuance, including any profits made on the sale of the bonds, shall be free from taxation by the state or by any political subdivision, taxing agency, or instrumentality of the state. The exemption granted by this section does not apply to any tax imposed by chapter 220 on interest, income, or profits on debt obligations owned by corporations.

345.0013 Eligibility for investments and security.—Any bonds or other obligations issued pursuant to this chapter are legal investments for banks, savings banks, trustees, executors, administrators, and all other fiduciaries, and for all state, municipal, and other public funds and are also securities eligible for deposit as security for all state, municipal, or other public funds, notwithstanding the provisions of any other law to the contrary.

345.0014 Applicability.—

(1) The powers conferred by this chapter are in addition to the powers conferred by other law and do not repeal the

provisions of any other general or special law or local ordinance, but supplement such other laws in the exercise of the powers provided in this chapter, and provide a complete method for the exercise of the powers granted in this chapter. The extension and improvement of a system, and the issuance of bonds pursuant to this chapter to finance all or part of the cost thereof, may be accomplished upon compliance with the provisions of this chapter without regard to or necessity for compliance with the provisions, limitations, or restrictions contained in any other general, special, or local law, including, but not limited to, s. 215.821, and approval of any bonds issued under this act by the qualified electors or qualified electors who are freeholders in the state or in any political subdivision of the state is not required for the issuance of such bonds pursuant to this chapter.

(2) This act does not repeal, rescind, or modify any other law or laws relating to the State Board of Administration, the Department of Transportation, or the Division of Bond Finance of the State Board of Administration, but supersedes any other law that is inconsistent with the provisions of this chapter, including, but not limited to, s. 215.821.

345.0015 Northwest Florida Regional Tollway Authority.—

(1) There is hereby created and established a body politic and corporate, an agency of the state, to be known as the Northwest Florida Regional Tollway Authority, hereinafter referred to as the "authority."

(2) The area served by the authority shall be Escambia and Santa Rosa Counties.

(3) The purposes and powers of the authority are as

identified in the Florida Regional Tollway Authority Act for the area served by the authority, and the authority operates in the manner provided by the Florida Regional Tollway Authority Act.

345.0016 Okaloosa-Bay Regional Tollway Authority.—

(1) There is hereby created and established a body politic and corporate, an agency of the state, to be known as the Okaloosa-Bay Regional Tollway Authority, hereinafter referred to as the "authority."

(2) The area served by the authority shall be Okaloosa, Walton, and Bay Counties.

(3) The purposes and powers of the authority are as identified in the Florida Regional Tollway Authority Act for the area served by the authority, and the authority operates in the manner provided by the Florida Regional Tollway Authority Act.

345.0017 Suncoast Regional Tollway Authority.—

(1) There is hereby created and established a body politic and corporate, an agency of the state, to be known as the Suncoast Regional Tollway Authority, hereinafter referred to as the "authority."

(2) The area served by the authority shall be Citrus, Levy, Marion, and Alachua Counties.

(3) The purposes and powers of the authority are as identified in the Florida Regional Tollway Authority Act for the area served by the authority, and the authority operates in the manner provided by the Florida Regional Tollway Authority Act.

Section 43. Transfer to the Okaloosa-Bay Regional Tollway Authority.—The governance and control of the Mid-Bay Bridge Authority System, created pursuant to chapter 2000-411, Laws of Florida, is transferred to the Okaloosa-Bay Regional Tollway

Authority.

(1) The assets, facilities, tangible and intangible property and any rights in such property, and any other legal rights of the bridge authority, including the bridge system operated by the authority, are transferred to the regional tollway authority. All powers of the bridge authority shall succeed to the regional tollway authority, and the operations and maintenance of the bridge system shall be under the control of the regional tollway authority, pursuant to this section. Revenues collected on the bridge system may be considered regional tollway authority revenues, and the Mid-Bay Bridge may be considered part of the regional tollway authority system, if bonds of the bridge authority are not outstanding. The regional tollway authority also assumes all liability for bonds of the bridge authority pursuant to the provisions of subsection (2). The regional tollway authority may review other contracts, financial obligations, and contractual obligations and liabilities of the bridge authority and may assume legal liability for the obligations that are determined to be necessary for the continued operation of the bridge system.

(2) The transfer pursuant to this section is subject to the terms and covenants provided for the protection of the holders of the Mid-Bay Bridge Authority bonds in the lease-purchase agreement and the resolutions adopted in connection with the issuance of the bonds. Further, the transfer does not impair the terms of the contract between the bridge authority and the bondholders, does not act to the detriment of the bondholders, and does not diminish the security for the bonds. After the transfer, until the bonds of the bridge authority are fully

defeased or paid in full, the department shall operate and maintain the bridge system and any other facilities of the authority in accordance with the terms, conditions, and covenants contained in the bond resolutions and lease-purchase agreement securing the bonds of the bridge authority. The Department of Transportation, as the agent of the regional tollway authority, shall collect toll revenues and apply them to the payment of debt service as provided in the bond resolution securing the bonds. The regional tollway authority shall expressly assume all obligations relating to the bonds to ensure that the transfer will have no adverse impact on the security for the bonds of the bridge authority. The transfer does not make the obligation to pay the principal and interest on the bonds a general liability of the regional tollway authority or pledge the regional tollway authority system revenues to payment of the bridge authority bonds. Revenues that are generated by the bridge system and other facilities of the bridge authority and that were pledged by the bridge authority to the payment of the bonds remain subject to the pledge for the benefit of the bondholders. The transfer does not modify or eliminate any prior obligation of the Department of Transportation to pay certain costs of the bridge system from sources other than revenues of the bridge system. With regard to the bridge authority's current long-term debt of $16.1 million due to the department as of June 30, 2011, and to the extent permitted by the bond resolutions and lease-purchase agreement securing the bonds, the regional tollway authority shall make payment annually to the State Transportation Trust Fund, for the purpose of repaying the bridge authority's long-term debt due to the department, from

any bridge system revenues obtained under this section which remain after the payment of the costs of operations, maintenance, renewal, and replacement of the bridge system; the payment of current debt service; and other payments required in relation to the bonds. The regional tollway authority shall make the annual payments, not to exceed $1 million per year, to the State Transportation Trust Fund until all remaining authority long-term debt due to the department has been repaid.

(3) Any remaining toll revenue from the facilities of the Mid-Bay Bridge Authority collected by the Okaloosa-Bay Regional Tollway Authority after meeting the requirements of subsections (1) and (2) shall be used for the construction, maintenance, or improvement of any toll facility of the Okaloosa-Bay Regional Tollway Authority within the county or counties in which the revenue was collected.

Section 44. Except as otherwise expressly provided in this act, this act shall take effect upon becoming a law.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 1190
INTRODUCER:	Appropriations Committee and Senator Brandes
SUBJECT:	Agricultural Lands
DATE:	April 25, 2013
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Akhavein	Halley	AG	**Favorable**
2.	Hinton	Uchino	EP	**Favorable**
3.	Babin	Diez-Arguelles	AFT	**Favorable**
4.	Babin	Hansen	AP	**Fav/CS**
5.				
6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/SB 1190 amends section 163.3162(3), Florida Statues, to prohibit all governmental entities, except water management districts and water control districts, from enforcing regulations on certain bona fide farming operations when the activity is already regulated by the state or federal government. In addition, the bill prohibits governmental entities from charging fees on bona fide agricultural activities of bona fide farm operations if the agricultural activities are regulated by the state or federal government.

The bill limits an exemption from the Florida Building Code for nonresidential farm buildings, farm fences and farm signs to those located on land used for bona fide agricultural purposes.

The Revenue Estimating Conference determined that section 1 of this bill will reduce local revenue by an insignificant amount. Staff estimates that section 2 of this bill will increase local revenue by an indeterminate amount.

This bill substantially amends sections 163.3162 and 604.50, Florida Statutes.

II. Present Situation:

Local Regulations and Fees.
In 2003 the Legislature created s. 163.3162, F.S., which sets forth legislative findings that emphasize the importance of agriculture to the health, safety, and welfare of the people of the state.[1] The intent of the act is to protect reasonable agricultural activities conducted on farm lands from duplicative regulation.[2] Prior to the passage of this legislation, some counties enacted regulations that duplicated –and in some cases were more restrictive than–regulations already implemented through best management practices or an existing governmental regulatory program.

Until 2011, s. 163.3162, F.S., only prohibited new county regulations. In 2011, the Legislature amended s. 163.3162, F.S., to also prohibit enforcement of existing county measures.[3]

Currently, the prohibition on duplicative regulations applies only to counties. However, some agricultural associations have reported that municipalities are now starting to adopt ordinances and regulations that duplicate existing regulatory requirements.[4]

The Florida Building Code
The Florida Building Code contains laws and rules that govern the design, construction, repair and demolition of buildings and structures in Florida.[5]

Florida exempts nonresidential farm buildings, farm fences, and farm signs from the requirements of the Florida Building Code, as well as any county or municipal code or fee.[6]

III. Effect of Proposed Changes:

Section 1 amends s. 163.3162, F.S., to amend the definition of "governmental entity" to exclude water management districts (WMDs).[7]

The bill prohibits any "governmental entity," from adopting or enforcing a regulation limiting an activity of a bona fide farm operation on land classified as agricultural, if such activity is regulated by:

- The Florida Department of Environmental Protection (DEP);
- The Florida Department of Agriculture and Consumer Services (DACS);
- A WMD as part of a statewide or regional program; or

[1] Section 163.3162(1), F.S.
[2] *Id.*
[3] Chapter 2011-7, Laws of Florida. This legislation began as CS/HB 7103(2010) , which was vetoed by the Governor in 2010. In 2011, the veto was overridden by the Legislature.
[4] Conversation between staff with the Committee on Environmental Preservation and Conservation and Cindy Littlejohn, Chair of the Florida Agricultural Association (Apr. 1, 2013).
[5] Section 553.73(1)(a), F.S.
[6] Section 604.50, F.S. The exemption does not apply for provisions implementing local, state or federal floodplain management regulations.
[7] Section 163.3162(2)(d), F.S.

- The United States Department of Agriculture, the United States Army Corps of Engineers, or the United States Environmental Protection Agency.[8]

The bill also prohibits governmental entities from charging a fee on bona fide agricultural activities that are regulated as described above.

Section 2 limits the exemption from the Florida Building Code for nonresidential farm buildings, farm fences, and farm signs to only nonresidential farm buildings, farm fences, and farm signs located on lands used for bona fide agricultural purposes. "Bona fide agricultural purposes" are defined to have the same meaning as provided in s. 193.461(3)(b), F.S. Section 193.461(3)(b), F.S., defines bona fide agricultural purposes to mean good faith commercial use of the land.

Section 3 provides that this act shall take effect July 1, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

The bill prohibits governmental entities from charging fees on certain agricultural activities occurring on agricultural lands. This could have a negative, but indeterminate, fiscal impact on local government revenues and, therefore, may implicate the mandate provision of Article VII, section 18 of the Florida Constitution. The March 1, 2013, Revenue Estimating Conference (REC) estimated that section 1 of this bill will result in a negative but insignificant impact on local governments.[9] Staff estimates that section 2 of this bill will have a positive but indeterminate impact on local governments. Because it is estimated to have an insignificant fiscal impact, the bill is exempted from the local mandate requirements.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The bill prohibits governmental entities from charging a fee on bona fide agricultural activities which are regulated by certain agencies of the state or federal government.

[8] Section 163.3162(3)(a), F.S.
[9] Office of Economic & Demographic Research, *Revenue Estimating Conference Impact Conference: 2013 Session Conference Table*, http://edr.state.fl.us/Content/conferences/revenueimpact/2013RevenueImpactSummary.xls (last visited Mar. 31, 2013).

B. Private Sector Impact:

Certain agricultural producers would be spared the expense associated with adhering to duplicative regulations or paying certain fees imposed by governmental entities in the state.

Owners of nonresidential farm buildings, farm fences and farm signs on noncommercial property will be subject to the Florida Building Code and county and municipal codes and fees.

C. Government Sector Impact:

The bill prohibits governmental entities from charging fees on certain agricultural activities occurring on agricultural lands.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations April 23, 2013:
The committee substitute limits the exemption from the Florida Building Code and local codes and fees for nonresidential farm buildings, farm fences and farm signs to those located on land used for bona fide agricultural purposes.

B. Amendments:

None.

543664

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
04/23/2013	.	
	.	
	.	
	.	

The Committee on Appropriations (Hays) recommended the following:

Senate Amendment (with title amendment)

Between lines 53 and 54
insert:

Section 2. Section 604.50, Florida Statutes, is amended to read:

604.50 Nonresidential farm buildings; farm fences; farm signs.—

(1) Notwithstanding any provision of law to the contrary, any nonresidential farm building, farm fence, or farm sign that is located on lands used for bona fide agricultural purposes is exempt from the Florida Building Code and any county or

543664

municipal code or fee, except for code provisions implementing local, state, or federal floodplain management regulations. A farm sign located on a public road may not be erected, used, operated, or maintained in a manner that violates any of the standards provided in s. 479.11(4), (5)(a), and (6)-(8).

(2) As used in this section, the term:

(a) "Bona fide agricultural purposes" has the same meaning as provided in s. 193.461(3)(b).

(b) ~~(a)~~ "Farm" has the same meaning as provided in s. 823.14.

(c) ~~(b)~~ "Farm sign" means a sign erected, used, or maintained on a farm by the owner or lessee of the farm which relates solely to farm produce, merchandise, or services sold, produced, manufactured, or furnished on the farm.

(d) ~~(c)~~ "Nonresidential farm building" means any temporary or permanent building or support structure that is classified as a nonresidential farm building on a farm under s. 553.73(10)(c) or that is used primarily for agricultural purposes, is located on land that is an integral part of a farm operation or is classified as agricultural land under s. 193.461, and is not intended to be used as a residential dwelling. The term may include, but is not limited to, a barn, greenhouse, shade house, farm office, storage building, or poultry house.

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

Delete line 9

and insert:

circumstances; amending s. 604.50, F.S.; revising an

exemption from the Florida Building Code and certain county and municipal code provisions and fees for nonresidential farm buildings, fences, and signs; limiting applicability of the exemption to such farm buildings, fences, and signs located on certain lands; defining the term “bona fide agricultural purposes”; providing an effective date.

By Senator Brandes

22-01221A-13 20131190__

A bill to be entitled

An act relating to agricultural lands; amending s. 163.3162, F.S.; revising a definition; prohibiting a governmental entity from adopting or enforcing any prohibition, restriction, regulation, or other limitation or from charging a fee on a specific agricultural activity of a bona fide farm operation on land classified as agricultural land under certain circumstances; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraphs (b) through (j) of subsection (3) of section 163.3162, Florida Statutes, are redesignated as paragraphs (c) through (k), respectively, paragraph (d) of subsection (2) and paragraph (a) of subsection (3) are amended, and a new paragraph (b) is added to subsection (3) of that section, to read:

163.3162 Agricultural Lands and Practices.—

(2) DEFINITIONS.—As used in this section, the term:

(d) "Governmental entity" has the same meaning as provided in s. 164.1031. The term does not include a water management district, a water control district established under chapter 298, or a special district created by special act for water management purposes.

(3) DUPLICATION OF REGULATION.—Except as otherwise provided in this section and s. 487.051(2), and notwithstanding any other law, including any provision of chapter 125 or this chapter:

(a) A governmental entity ~~county~~ may not exercise any of

22-01221A-13 20131190__

its powers to adopt or enforce any ordinance, resolution, regulation, rule, or policy to prohibit, restrict, regulate, or otherwise limit an activity of a bona fide farm operation on land classified as agricultural land pursuant to s. 193.461, if such activity is regulated through implemented best management practices, interim measures, or regulations adopted as rules under chapter 120 by the Department of Environmental Protection, the Department of Agriculture and Consumer Services, or a water management district as part of a statewide or regional program; or if such activity is expressly regulated by the United States Department of Agriculture, the United States Army Corps of Engineers, or the United States Environmental Protection Agency.

(b) A governmental entity may not charge a fee on a specific agricultural activity of a bona fide farm operation on land classified as agricultural land pursuant to s. 193.461, if such agricultural activity is regulated through implemented best management practices, interim measures, or rules adopted under chapter 120 by the Department of Environmental Protection, the Department of Agriculture and Consumer Services, or a water management district as part of a statewide or regional program or if such agricultural activity is expressly regulated by the United States Department of Agriculture, the United States Army Corps of Engineers, or the United States Environmental Protection Agency.

Section 2. This act shall take effect July 1, 2013.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/CS/SB 1192
INTRODUCER:	Appropriations Committee; Community Affairs Committee; Health Policy Committee; and Senator Grimsley
SUBJECT:	Provision of Health Care with Controlled Substances
DATE:	April 25, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Looke	Stovall	HP	**Fav/CS**
2.	Toman	Yeatman	CA	**Fav/CS**
3.	Brown	Hansen	AP	**Fav/CS**
4.				
5.				
6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/CS/CS/SB 1192 amends various statutory provisions relating to health care associated with controlled substances.

The bill has an insignificant fiscal impact on the Department of Health (DOH) that can be absorbed within existing resources.

The bill:

- Revises the requirement to register as a controlled substance providing practitioner to practitioners who prescribe more than a 30 day supply of certain controlled substances over a six-month period to one patient;
- Requires certain physicians to check the Prescription Drug Monitoring Program (PDMP) database before prescribing certain controlled substances to a new patient;
- Excludes certain physicians from standards of practice for prescribing controlled substances;
- Defines the term “abandoned” as it relates to pharmacy permits;

- Requires that the DOH serve notices to pharmacy permitees and licensees in writing and by an agent of the DOH or certified mail;
- Clarifies and adds to the types of activities that are grounds for licensure denial, revocation, or suspension, or for disciplinary action for pharmacies;
- Requires that pharmacies commence operations within 180 days of receiving a permit;
- Requires that pharmacies be supervised by a prescription department manager or consultant pharmacist of record at all times;
- Authorizes state funds to pay for the PDMP program;
- Includes pharmaceutical companies as organizations that may be considered inappropriate sources of funds for the PDMP program; and
- Preempts to the state all regulation of pharmacies and pharmacists.

The bill substantially amends the following sections of the Florida Statutes: 409.9201, 456.44, 458.331, 459.015, 465.003, 465.014, 465.015, 465.016, 465.0156, 465.0197, 465.022, 465.023, 465.1901, 499.003, 893.02, and 893.055.

The bill creates the following sections of the Florida Statutes: 465.0065, 465.1902, 893.0552.

II. Present Situation:

Controlled Substances

Controlled substances are drugs with the potential for abuse. Chapter 893, F.S., sets forth the Florida Comprehensive Drug Abuse Prevention and Control Act and classifies controlled substances into five categories, known as schedules. The distinguishing factors between the different drug schedules are the "potential for abuse"[1] of the substance contained therein and whether there is a currently accepted medical use for the substance. These schedules are used to regulate the manufacture, distribution, preparation and dispensing of the substances.[2]

Schedule I controlled substances currently have no accepted medical use in treatment in the United States and therefore may not be prescribed, administered, or dispensed for medical use. These substances have a high potential for abuse and include heroin, peyote, lysergic acid diethylamide (LSD), and cannabis.[3]

Schedule II controlled substances have severely restricted medical uses and a high potential for abuse, which may lead to severe psychological or physical dependence. These drugs include morphine and its derivatives, amphetamines, cocaine, and pentobarbital.[4]

Schedule III controlled substances have lower abuse potential than Schedule II substances and have some accepted medical use, but they may still cause psychological or physical dependence. Schedule III substances include products containing less than 15 milligrams (mg) of

[1] Section 893.02(20), F.S.
[2] DEA, Office of Diversion Control, Controlled Substance Schedules, available at: www.deadiversion.usdoj.gov/21cfr/cfr/2108cfrt.htm (last visited Apr. 4, 2013).
[3] Section 893.03(1), F.S.
[4] Section 893.03(2), F.S.

hydrocodone (such as Vicodin) or less than 90 mg of dihydrocodeine per dose (such as Tylenol #3), ketamine, and anabolic steroids.[5]

Schedule IV substances have a low potential for abuse and include propoxyphene (Darvocet), alprazolam (Xanax), and lorazepam (Ativan).[6]

Schedule V controlled substances have an extremely low potential for abuse and primarily consist of preparations containing limited quantities of certain narcotics, such as cough syrup.[7]

Any health care professional wishing to prescribe controlled substances must apply for a prescribing number from the federal Drug Enforcement Administration (DEA). Prescribing numbers are linked to state licenses and may be suspended or revoked upon any disciplinary action taken against a licensee.

Controlled Substance Prescribing

As of January 1, 2012, every physician, podiatrist, or dentist who prescribes controlled substances in the state for the treatment of chronic nonmalignant pain[8] must register as a controlled substance prescribing practitioner and comply with certain practice standards specified in statute and rule.[9]

Before prescribing any controlled substances for the treatment of chronic nonmalignant pain, a practitioner must document certain characteristics about the nature of the pain, success of past treatments, any underlying health problems, and history of alcohol and substance abuse.[10] The practitioner must develop a written plan for assessing the patient's risk for aberrant drug-related behavior and monitor such behavior throughout the course of controlled substance treatment.[11] Each practitioner must also enter into a controlled substance agreement with their patients; such agreements must include:

- The risks and benefits of controlled substance use, including the risk for addiction or dependence;
- The number and frequency of permitted prescriptions and refills;
- A statement of reasons for discontinuation of therapy, including violation of the agreement; and
- The requirement that a patient's chronic nonmalignant pain only be treated by one practitioner at a time unless otherwise authorized and documented.[12]

[5] Section 893.03(3), F.S.
[6] Section 893.03(4), F.S.
[7] Section 893.03 (5), F.S.
[8] "Chronic nonmalignant pain" is defined as pain unrelated to cancer which persists beyond the usual course of disease or the injury that is the cause of the pain or more than 90 days after surgery. Section 456.44(1)(e), F.S.
[9] Section 456.44(2)(a) and (b), F.S.
[10] Section 456.44(3)(a), F.S.
[11] Section 456.44(3)(b), F.S.
[12] Section 456.44(3)(c)1.-3., F.S.

Patients treated for nonmalignant pain with controlled substances must be seen by their prescribing practitioners at least once every three months to monitor progress and compliance, and detailed medical records relating to such treatment must be maintained.[13] Patients at special risk for drug abuse or diversion may require co-monitoring by an addiction medicine physician or a psychiatrist.[14] Anyone with signs or symptoms of substance abuse must be immediately referred to a pain-management physician, an addiction medicine specialist, or an addiction medicine facility.[15]

Anesthesiologists, physiatrists, neurologists, and surgeons are exempt from these provisions.[16] Physicians who hold certain credentials relating to pain medicine are also exempt.[17]

Pain-Management Clinics

A pain-management clinic is any facility that advertises pain-management services or where a majority of patients are prescribed opioids, benzodiazepines, barbiturates, or carisoprodol for the treatment of chronic nonmalignant pain.[18] Pain-management clinics are regulated by the practice acts for medical doctors and osteopathic physicians. Until January 1, 2016, all pain-management clinics must register with the DOH and meet certain provisions concerning staffing, sanitation, recordkeeping, and quality assurance.[19] Clinics are exempt from these provisions if they are:

- Licensed under ch. 395, F.S., as a hospital, ambulatory surgical center, or mobile surgical facility;
- Staffed primarily by surgeons;
- Owned by a publicly held corporation whose shares are traded on a national exchange or on the over-the-counter market and whose total assets at the end of the corporation's most recent fiscal quarter exceeded $50 million;
- Affiliated with an accredited medical school at which training is provided for medical students, residents, or fellows;
- Not involved in prescribing controlled substances for the treatment of pain;
- Owned by a corporate entity exempt from federal taxation under 26 U.S.C. s. 501(c)(3); or
- Wholly owned and operated by anesthesiologists, physiatrists, or neurologists, or physicians holding certain credentials in pain medicine.[20]

All clinics must be owned by at least one licensed physician or be licensed as a health care clinic under ch. 400, part X, F.S., to be eligible for registration.[21] The DOH is prohibited from registering a pain-management clinic:

- Not owned by a physician or not a health care clinic licensed under part X of ch. 400, F.S.;

[13] Section 456.44(3)(d), F.S.

[21] Section 458.3265(1)(d) and 459.0137(1)(d), F.S.

- Owned by a physician whose DEA number has ever been revoked;
- Owned by a physician whose application for a license to prescribe, dispense, or administer a controlled substance has been denied by any jurisdiction; or
- Owned by a physician who has been convicted of certain drug-related crimes in any jurisdiction.[22]

Pain-management clinics are inspected annually by DOH unless they hold current certification from a DOH-approved national accrediting agency.[23] The DOH may suspend or revoke clinic registration or impose administrative fines of up to $5,000 per violation for any offenses against state pain-management clinic provisions or related federal laws and rules.[24]

If the registration for a pain-management clinic is revoked for any reason, the clinic must cease to operate immediately, remove all signs or symbols identifying the facility as a pain-management clinic, and dispose of any medication on the premises.[25] No owner or operator of the clinic may own or operate another pain-management clinic for five years after revocation of registration.[26]

Prescription Drug Monitoring Program (PDMP)

In 2009, the Legislature created the PDMP in s. 893.055, F.S.[27] The PDMP uses a comprehensive electronic system/database to monitor the prescribing and dispensing of certain controlled substances.[28] Dispensers of certain controlled substances must report specified information to the PDMP database, including the name of the prescriber, the date the prescription was filled and dispensed, and the name, address, and date of birth of the person to whom the controlled substance is dispensed.[29]

Direct access to the PDMP database is presently limited to medical doctors, osteopathic physicians, dentists, podiatric physicians, advanced registered nurse practitioners, physician assistants, and pharmacists.[30] Indirect access to the PDMP database is provided to:

- The DOH or its relevant health care regulatory boards;
- The Attorney General for Medicaid fraud cases;
- A law enforcement agency; and
- A patient or the legal guardian, or designated health care surrogate of an incapacitated patient.[31]

[22] Section 458.3265(1)(d) and (e) and 459.0137(1)(d) and (e), F.S.
[23] Section 458.3265(3)(a) and 459.0137(3)(a), F.S.
[24] Section 458.3265(5) and 459.0137(5), F.S.
[25] Section 458.3265(1)(h)-(j) and 459.0137(1)(h)-(j), F.S.
[26] Section 458.3265(1)(k) and 459.0137(1)(k), F.S.
[27] *See* ch. 2009-197, L.O.F
[28] Section 893.055(2)(a), F.S.
[29] Section 893.055(3)(a)-(c), F.S.
[30] Section 893.055(7)(b), F.S.
[31] Section 893.055(7)(c)1.-4., F.S.

Restrictions on how DOH may fund implementation and operation of the PDMP are also included in statute. The DOH is prohibited from using state funds and any money received directly or indirectly from prescription drug manufacturers to implement the PDMP.[32] Funding for the PDMP comes from three funding sources:[33]

- Donations procured by the Florida PDMP Foundation, Inc. (Foundation), the direct-support organization authorized by s. 893.055, F.S., to fund the continuing operation of the PDMP;
- Federal grants; and
- Private grants and donations.

Section 893.0551, F.S., provides an exemption from public records for personal information of a patient and certain information concerning health care professionals related to the PDMP.[34] The statute details exceptions for disclosure of information after DOH ensures the legitimacy of the person's request for the information.[35]

The PDMP became operational on September 1, 2011, when it began receiving prescription data from pharmacies and dispensing practitioners.[36] Health care practitioners began accessing the PDMP on October 17, 2011.[37] Law enforcement began requesting data from the PDMP in support of active criminal investigations on November 14, 2011.[38]

Currently, prescribers are not required to consult the PDMP database prior to prescribing a controlled substance for a patient, but may do so. Between 2011 and 2012, physicians and pharmacists used the PDMP database at least 2.6 million times.[39] Nearly 5,000 pharmacists entered 56 million prescriptions into the database.[40] Law enforcement queried the PDMP database more than 20,000 times in conjunction with active criminal investigations.[41]

Prescription Drug Monitoring Programs in Other States

At least 43 states have passed laws enabling PDMPs.[42] The Legislature's Office of Program Policy Analysis and Government Accountability (OPPAGA) examined the PDMPs of 26 of those states, including Florida.[43] All PDMPs examined are either run by the states in-house or by contract with private vendors. Most states do not require prescribers to register in order to use the PDMP and primarily encourage prescribers to use the database through education and outreach programs.[44]

Only three of the 26 states require prescribers to access the database prior to prescribing most or all controlled substances.[45, 46] In 17 of 23 states, including Florida, accessing the database is strictly voluntary and in the remaining six states accessing the database is only required under limited circumstances.[47]

All states reviewed have the authority to take punitive action against dispensers of prescription drugs that do not comply with their state's respective laws and rules on their state's PDMP. These punitive actions can come in the form of fines, licensure disciplinary action, and/ or criminal charges, however, states rarely use these punitive measures when dispensers do not comply with PDMP requirements.

State Preemption

There is currently no statutory provision that expressly preempts the regulation of operations in pharmacies, health care clinics, health care facilities, and pain-management clinics to the state of Florida. Some counties and municipalities have created ordinances for the regulation of the operation of these clinics based upon the powers and duties conveyed upon these entities in Florida Statutes.[48]

III. Effect of Proposed Changes:

Section 1 amends s. 456.44, F.S. to:

- Restrict the requirement to register as a controlled substance providing practitioner to physicians[49] who prescribe more than a 30-day supply of any Schedule I, II, or III controlled substance over a six-month period to any one patient for the treatment of chronic malignant pain;

[46] Id., p. 4.
[47] These circumstances typically revolve around how often a drug is prescribed, if the drug is in a specific class or schedule, if the drug has a specific agreement, or if there is a reasonable suspicion that the patient it abusing drugs. Id.
[48] DOH bill analysis on SB 1192, dated Mar. 1, 2013, on file with the Senate Health Policy Committee.
[49] Registered under ch. 458, 459, 461, or 466, F.S.

- Require that physicians who treat new patients in a pain-management clinic, pursuant to s. 458.326, F.S., consult the PDMP database before prescribing a Schedule II or III controlled substance;
- Allow the physician to designate an agent to check the PDMP database;
- Require the Board of Medicine and the Board of Osteopathic Medicine to adopt rules to establish a penalty for not checking the PDMP database; and
- Exclude physicians who prescribe medically necessary controlled substances to residents in a nursing home and a physician licensed under ch. 458 or 459, F.S., who writes fewer than 50 total prescriptions for controlled substances for all of his or her patients during a one-year period from the standards of practice established in this section.

Section 2 amends s. 465.003, F.S., to define the term "abandoned" as used in ch. 465, F.S., relating to pharmacies, as the status of a permit of a person or entity that was issued a pharmacy permit but fails to commence pharmacy operations within 180 days after issuance of the permit without good cause or fails to follow pharmacy closure requirements as set by the board.

Section 3 creates s. 465.0065, F.S., to mandate that each notice served by the DOH under ch. 465, F.S., must be in writing and delivered personally by an agent of the DOH or by certified mail to the pharmacy permitee or licensee. If the pharmacy permitee refuses to accept service or evades service or if the agent is otherwise unable to carry out service after due diligence, the DOH may post the notice in a conspicuous place at the pharmacy or at the licensee's home or business address.

Section 4 amends s. 465.016, F.S., to clarify that violating rules adopted under ch. 893, F.S., relating to drug abuse prevention and control, and misappropriating drugs, supplies, or equipment from a pharmacy permitee constitutes grounds for denial of a license or disciplinary action.

Section 5 amends s. 465.022, F.S., to:

- Require that a pharmacy permitee commence pharmacy operations within 180 days after issuance of the permit or show good cause why operations were not commenced;
- Define commencement of operations as including, but is not limited to, acts within the scope of practice of pharmacy, ordering or receiving drugs, and other similar activities;
- Mandate that the DOH establish rules regarding the commencement of pharmacy operations; and
- Clarify that a pharmacy permitee must be supervised by a prescription department manager or consultant pharmacist of record at all times.

Section 6 amends s. 465.023, F.S., to clarify that violating rules adopted under ch. 893, F.S., relating to drug abuse prevention and control, is grounds for the DOH to revoke or suspend a permit of any pharmacy permitee.

Section 7 creates s. 465.1902, F.S., to:

- Provide that the regulation of pharmacies and pharmacists is expressly preempted to the state. Under the bill, no local ordinance, rule, or regulation may be enacted or remain in effect

which regulates or attempts to regulate pharmacies or pharmacists in subject matters regulated under ch. 465, F.S., including, but not limited to, licensure, discipline, pharmacy permitting, and the dispensing of controlled substances.

Section 8 amends s. 893.055, F.S., to allow the DOH to fund the PDMP program with state funds and maintain the PDMP program. This section also excludes pharmaceutical companies from those organizations that may be considered inappropriate sources of funds for the PDMP program. The bill grants designated agents under the supervision of a health care practitioner access to the PDMP database to conform with provisions in the bill allowing health care practitioners to designate agents to check the PDMP on their behalf.

Section 9 creates s. 893.0552, F.S, to preempt to the state all regulation of the licensure and activity and operation of pain management clinics as defined in ss. 458.3265 and 459.0137, F.S., in the following circumstances:

- The clinic is wholly owned and operated by a physician who performs interventional pain procedures routinely billed using surgical codes, who has never been suspended or revoked for prescribing certain controlled substances, *and who*:
  - has completed a fellowship in pain medicine approved by certain bodies,
  - is board-certified in pain medicine by specified entities, or
  - has a board certification or subcertification in pain management or pain medicine by an approved specialty board;
- The clinic is wholly owned and operated by a physician-multispecialty practice if one or more board-eligible or board-certified medical specialists has one of the qualifications specified above, performs interventional pain procedures of the type routinely billed using surgical codes, and has never been suspended or revoked for prescribing certain controlled substances; and
- Allow local governments and political subdivisions to enact ordinances regarding:
  - Local business taxes adopted pursuant to ch. 205, F.S.; and
  - Land use development regulations adopted pursuant to ch. 163, F.S.

A pain-management clinic specified in this section is permissible use in a land use or zoning category that permits hospitals and other health care facilities or clinics as defined in chapter 395 or s. 408.07, F.S.

Upon the request of a local government, a pain-management clinic must annually demonstrate that it qualifies for the preemption outlined in this section.

Sections 10-19 amend various sections of the Florida Statutes to conform those sections to changes made in Section 2 of the bill.

Section 20 provides an effective date of July 1, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, Section 18 of the Florida Constitution prohibits laws requiring counties or municipalities to spend funds or that limit their ability to raise revenues. Subsection 18(d) provides an applicable exemption for laws determined to have an "insignificant fiscal impact," which means an amount not greater than the average statewide population for the applicable fiscal year times $0.10 or $1.9 million for FY 2012-13.[50]

It is unknown to what extent the preemption provisions of the bill may limit local government revenue generated by fines related to local ordinances governing pain-management clinics. However, if revenue losses occur and are greater than $1.9 million, the law may be unenforceable unless passed by two-thirds in each house of the Legislature.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Some physicians and health care practices may be negatively impacted from a time management perspective by the additional requirement to consult the PDMP prior to dispensing. However, to the extent that inappropriate prescribing of controlled substances is avoided, overall health care costs may be lessened.

C. Government Sector Impact:

The DOH will incur non-recurring costs for rulemaking that can be absorbed within existing resources. The DOH may also experience an indeterminate increase in workload by implementing the requirements of the bill.

Local government revenue generated from fines for pain-management clinic violations authorized by local ordinance may be reduced.

[50] Based on the Demographic Estimating Conference's final population estimate for April 1, 2012, which was adopted on November 7, 2012. The Executive Summary can be found at: http://edr.state.fl.us/Content/conferences/population/demographicsummary.pdf.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS/CS by Appropriations on April 23, 2013:
The CS requires the Board of Osteopathic Medicine and the Board of Medicine to adopt rules to establish a penalty for not checking the PDMP database. The CS provides that the regulation of pharmacies and pharmacists is expressly preempted to the state. The CS grants designated agents under the supervision of a health care practitioner access to the PDMP database.

CS/CS by Community Affairs on April 9, 2013:
- Removes state preemption of the regulation of certain health care clinics and health care facilities;
- Retains exemptions from department registration for pain management clinics owned by certain publically-held corporations or not-for-profit corporations;
- Removes a requirement for physicians who treat intractable pain to consult the PDMP;
- Revises state preemption of the regulation of pain management clinics and osteopathic pain management clinics;
- Upon the request of a local government, requires a pain-management clinic to annually demonstrate that it qualifies for the above preemption; and
- Includes pharmaceutical companies as inappropriate sources of funding for PDMPs.

CS by Health Policy on Mar. 21, 2013:
The CS amends SB 1192 to:
- Place language preempting the regulation of the licensure, activity, and operation of various health care facilities and practitioners in the chapters that pertain to those facilities and practitioners;
- Allow local governments to pass ordinances which regulate pain-management clinics;
- Allow the DOH to send notices, in the manner prescribed in the bill, to pharmacy licensees;
- Amend the title to conform to the bill's contents; and
- Make technical changes.

B. Amendments:

None.

	.	
	.	
	.	

The Committee on Appropriations (Grimsley) recommended the following:

Senate Amendment (with title amendment)

Delete lines 58 - 223
and insert:
Section 1. Section 456.44, Florida Statutes, is amended to read:
456.44 Controlled substance prescribing.—
(1) DEFINITIONS.—
(a) "Addiction medicine specialist" means a board-certified psychiatrist with a subspecialty certification in addiction medicine or who is eligible for such subspecialty certification in addiction medicine, an addiction medicine physician certified

978416

or eligible for certification by the American Society of Addiction Medicine, or an osteopathic physician who holds a certificate of added qualification in Addiction Medicine through the American Osteopathic Association.

(b) "Adverse incident" means any incident set forth in s. 458.351(4)(a)-(e) or s. 459.026(4)(a)-(e).

(c) "Board-certified pain management physician" means a physician who possesses board certification in pain medicine by the American Board of Pain Medicine, board certification by the American Board of Interventional Pain Physicians, or board certification or subcertification in pain management or pain medicine by a specialty board recognized by the American Association of Physician Specialists or the American Board of Medical Specialties or an osteopathic physician who holds a certificate in Pain Management by the American Osteopathic Association.

(d) "Board eligible" means successful completion of an anesthesia, physical medicine and rehabilitation, rheumatology, or neurology residency program approved by the Accreditation Council for Graduate Medical Education or the American Osteopathic Association for a period of 6 years from successful completion of such residency program.

(e) "Chronic nonmalignant pain" means pain unrelated to cancer which persists beyond the usual course of disease or the injury that is the cause of the pain or more than 90 days after surgery.

(f) "Mental health addiction facility" means a facility licensed under chapter 394 or chapter 397.

(2) REGISTRATION. ~~Effective January 1, 2012,~~ A physician

978416

licensed under chapter 458, chapter 459, chapter 461, or chapter 466 who prescribes more than a 30-day supply of any controlled substance, listed in Schedule II, Schedule III, or Schedule IV as defined in s. 893.03, over a 6-month period to any one patient for the treatment of chronic nonmalignant pain, must:

(a) Designate himself or herself as a controlled substance prescribing practitioner on the physician's practitioner profile.

(b) Comply with the requirements of this section and applicable board rules.

(3) STANDARDS OF PRACTICE.—The standards of practice in this section do not supersede the level of care, skill, and treatment recognized in general law related to health care licensure.

(a) A complete medical history and a physical examination must be conducted before beginning any treatment and must be documented in the medical record. The exact components of the physical examination shall be left to the judgment of the clinician who is expected to perform a physical examination proportionate to the diagnosis that justifies a treatment. The medical record must, at a minimum, document the nature and intensity of the pain, current and past treatments for pain, underlying or coexisting diseases or conditions, the effect of the pain on physical and psychological function, a review of previous medical records, previous diagnostic studies, and history of alcohol and substance abuse. The medical record shall also document the presence of one or more recognized medical indications for the use of a controlled substance. Each registrant must develop a written plan for assessing each

978416

patient's risk of aberrant drug-related behavior, which may include patient drug testing. Registrants must assess each patient's risk for aberrant drug-related behavior and monitor that risk on an ongoing basis in accordance with the plan.

(b) Before or during a new patient's visit for services for the treatment of pain at a pain-management clinic registered under s. 458.3265 or s. 459.0137, a physician shall consult the prescription drug monitoring program database provided under s. 893.055(2)(a) before prescribing a controlled substance listed in Schedule II or Schedule III in s. 893.03. The physician may designate an agent under his or her supervision to consult the database. The Board of Medicine under chapter 458 and the Board of Osteopathic Medicine under chapter 459 shall adopt rules to establish a penalty for a physician who does not comply with this subsection.

(c) ~~(b)~~ Each registrant must develop a written individualized treatment plan for each patient. The treatment plan shall state objectives that will be used to determine treatment success, such as pain relief and improved physical and psychosocial function, and shall indicate if any further diagnostic evaluations or other treatments are planned. After treatment begins, the physician shall adjust drug therapy to the individual medical needs of each patient. Other treatment modalities, including a rehabilitation program, shall be considered depending on the etiology of the pain and the extent to which the pain is associated with physical and psychosocial impairment. The interdisciplinary nature of the treatment plan shall be documented.

(d) ~~(c)~~ The physician shall discuss the risks and benefits

978416

of the use of controlled substances, including the risks of abuse and addiction, as well as physical dependence and its consequences, with the patient, persons designated by the patient, or the patient's surrogate or guardian if the patient is incompetent. The physician shall use a written controlled substance agreement between the physician and the patient outlining the patient's responsibilities, including, but not limited to:

1. Number and frequency of controlled substance prescriptions and refills.

2. Patient compliance and reasons for which drug therapy may be discontinued, such as a violation of the agreement.

3. An agreement that controlled substances for the treatment of chronic nonmalignant pain shall be prescribed by a single treating physician unless otherwise authorized by the treating physician and documented in the medical record.

(e) ~~(d)~~ The patient shall be seen by the physician at regular intervals, not to exceed 3 months, to assess the efficacy of treatment, ensure that controlled substance therapy remains indicated, evaluate the patient's progress toward treatment objectives, consider adverse drug effects, and review the etiology of the pain. Continuation or modification of therapy shall depend on the physician's evaluation of the patient's progress. If treatment goals are not being achieved, despite medication adjustments, the physician shall reevaluate the appropriateness of continued treatment. The physician shall monitor patient compliance in medication usage, related treatment plans, controlled substance agreements, and indications of substance abuse or diversion at a minimum of 3-

978416

month intervals.

(f) ~~(e)~~ The physician shall refer the patient as necessary for additional evaluation and treatment in order to achieve treatment objectives. Special attention shall be given to those patients who are at risk for misusing their medications and those whose living arrangements pose a risk for medication misuse or diversion. The management of pain in patients with a history of substance abuse or with a comorbid psychiatric disorder requires extra care, monitoring, and documentation and requires consultation with or referral to an addiction medicine specialist or psychiatrist.

(g) ~~(f)~~ A physician registered under this section must maintain accurate, current, and complete records that are accessible and readily available for review and comply with the requirements of this section, the applicable practice act, and applicable board rules. The medical records must include, but are not limited to:

1. The complete medical history and a physical examination, including history of drug abuse or dependence.

2. Diagnostic, therapeutic, and laboratory results.

3. Evaluations and consultations.

4. Treatment objectives.

5. Discussion of risks and benefits.

6. Treatments.

7. Medications, including date, type, dosage, and quantity prescribed.

8. Instructions and agreements.

9. Periodic reviews.

10. Results of any drug testing.

978416

11. A photocopy of the patient's government-issued photo identification.

12. If a written prescription for a controlled substance is given to the patient, a duplicate of the prescription.

13. The physician's full name presented in a legible manner.

(h) ~~(g)~~ Patients with signs or symptoms of substance abuse shall be immediately referred to a board-certified pain management physician, an addiction medicine specialist, or a mental health addiction facility as it pertains to drug abuse or addiction unless the physician is board-certified or board-eligible in pain management. Throughout the period of time before receiving the consultant's report, a prescribing physician shall clearly and completely document medical justification for continued treatment with controlled substances and those steps taken to ensure medically appropriate use of controlled substances by the patient. Upon receipt of the consultant's written report, the prescribing physician shall incorporate the consultant's recommendations for continuing, modifying, or discontinuing controlled substance therapy. The resulting changes in treatment shall be specifically documented in the patient's medical record. Evidence or behavioral indications of diversion shall be followed by discontinuation of controlled substance therapy, and the patient shall be discharged, and all results of testing and actions taken by the physician shall be documented in the patient's medical record.

This section ~~subsection~~ does not apply to a board-eligible or board-certified anesthesiologist, physiatrist, rheumatologist,

978416

or neurologist, or to a board-certified physician who has surgical privileges at a hospital or ambulatory surgery center and primarily provides surgical services. This section ~~subsection~~ does not apply to a board-eligible or board-certified medical specialist who has also completed a fellowship in pain medicine approved by the Accreditation Council for Graduate Medical Education or the American Osteopathic Association, or who is board eligible or board certified in pain medicine by the American Board of Pain Medicine or a board approved by the American Board of Medical Specialties or the American Osteopathic Association and performs interventional pain procedures of the type routinely billed using surgical codes. This section ~~subsection~~ does not apply to a physician who prescribes medically necessary controlled substances for a patient during an inpatient stay in a hospital licensed under chapter 395 or to a resident in a facility licensed under part II of chapter 400. This section does not apply to a physician licensed under chapter 458 or chapter 459 who writes fewer than 50 prescriptions for a controlled substance for all of his or her patients during a 1-year period.

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
04/25/2013	.	
	.	
	.	
	.	

The Committee on Appropriations (Grimsley) recommended the following:

Senate Amendment (with title amendment)

Delete lines 399 - 459
and insert:

Section 8. Paragraph (b) of subsection (2), paragraph (b) of subsection (7), subsection (10), and paragraph (c) of subsection (11) of section 893.055, Florida Statutes, are amended to read:

893.055 Prescription drug monitoring program.—

(2)

(b) The department~~, when the direct support organization receives at least $20,000 in nonstate moneys or the state~~

426316

~~receives at least $20,000 in federal grants for the prescription drug monitoring program,~~ shall adopt rules as necessary concerning the reporting, accessing the database, evaluation, management, development, implementation, operation, security, and storage of information within the system, including rules for when patient advisory reports are provided to pharmacies and prescribers. The patient advisory report shall be provided in accordance with s. 893.13(7)(a)8. The department shall work with the professional health care licensure boards, such as the Board of Medicine, the Board of Osteopathic Medicine, and the Board of Pharmacy; other appropriate organizations, such as the Florida Pharmacy Association, the Florida Medical Association, the Florida Retail Federation, and the Florida Osteopathic Medical Association, including those relating to pain management; and the Attorney General, the Department of Law Enforcement, and the Agency for Health Care Administration to develop rules appropriate for the prescription drug monitoring program.

(7)

(b) A pharmacy, prescriber, <u>designated agent under the supervision of a health care practitioner,</u> or dispenser shall have access to information in the prescription drug monitoring program's database which relates to a patient of that pharmacy, prescriber, or dispenser in a manner established by the department as needed for the purpose of reviewing the patient's controlled substance prescription history. Other access to the program's database shall be limited to the program's manager and to the designated program and support staff, who may act only at the direction of the program manager or, in the absence of the program manager, as authorized. Access by the program manager or

426316

such designated staff is for prescription drug program management only or for management of the program's database and its system in support of the requirements of this section and in furtherance of the prescription drug monitoring program. Confidential and exempt information in the database shall be released only as provided in paragraph (c) and s. 893.0551. The program manager, designated program and support staff who act at the direction of or in the absence of the program manager, and any individual who has similar access regarding the management of the database from the prescription drug monitoring program shall submit fingerprints to the department for background screening. The department shall follow the procedure established by the Department of Law Enforcement to request a statewide criminal history record check and to request that the Department of Law Enforcement forward the fingerprints to the Federal Bureau of Investigation for a national criminal history record check.

(10) All costs incurred by the department in administering the prescription drug monitoring program shall be funded through state funds, federal grants, or private funding applied for or received by the state. The department may not commit funds for the monitoring program without ensuring funding is available. ~~The prescription drug monitoring program and the implementation thereof are contingent upon receipt of the nonstate funding.~~ The department and state government shall cooperate with the direct-support organization established pursuant to subsection (11) in seeking state funds, federal grant funds, other nonstate grant funds, gifts, donations, or other private moneys for the department if ~~so long as~~ the costs of doing so are not

426316

considered material. Nonmaterial costs for this purpose include, but are not limited to, the costs of mailing and personnel assigned to research or apply for a grant. Notwithstanding the exemptions to competitive-solicitation requirements under s. 287.057(3)(f), the department shall comply with the competitive-solicitation requirements under s. 287.057 for the procurement of any goods or services required by this section. ~~Funds provided, directly or indirectly, by prescription drug manufacturers may not be used to implement the program.~~

(11) The department may establish a direct-support organization that has a board consisting of at least five members to provide assistance, funding, and promotional support for the activities authorized for the prescription drug monitoring program.

(c) The State Surgeon General shall appoint a board of directors for the direct-support organization. Members of the board shall serve at the pleasure of the State Surgeon General. The State Surgeon General shall provide guidance to members of the board to ensure that moneys received by the direct-support organization are not received from inappropriate sources. Inappropriate sources include, but are not limited to, donors, grantors, persons, ~~or~~ organizations<u>, or pharmaceutical companies,</u> that may monetarily or substantively benefit from the purchase of goods or services by the department in furtherance of the prescription drug monitoring program.

Section 9. Paragraphs (d) and (e) of subsection (3) of section 893.0551, Florida Statutes, are amended to read:

893.0551 Public records exemption for the prescription drug monitoring program.—

426316

(3) The department shall disclose such confidential and exempt information to the following entities after using a verification process to ensure the legitimacy of that person's or entity's request for the information:

(d) A health care practitioner or a designated agent under his or her supervision who certifies that the information is necessary to provide medical treatment to a current patient in accordance with ss. 893.05 and 893.055.

(e) A pharmacist or a designated agent under his or her supervision who certifies that the requested information will be used to dispense controlled substances to a current patient in accordance with ss. 893.04 and 893.055.

and insert:
F.S.; providing that the regulation of pharmacies and pharmacists is preempted to the state; providing that a local ordinance, rule, or regulation may not be enacted or remain in effect which regulates or attempts to regulate pharmacies or pharmacists in subject matters regulated under ch. 465, F.S.; amending s. 893.055, F.S.; deleting an

By the Committees on Community Affairs; and Health Policy; and Senator Grimsley

578-04007A-13 20131192c2

A bill to be entitled

An act relating to the provision of health care with controlled substances; amending s. 456.44, F.S.; limiting the application of requirements for prescribing controlled substances; requiring a physician to consult the prescription drug monitoring program database before prescribing certain controlled substances; authorizing the appropriate board to adopt a penalty for failure to consult the database; exempting nursing home residents and certain physicians from requirements regarding prescriptions of controlled substances; amending s. 465.003, F.S.; defining a term; conforming a cross-reference; creating s. 465.0065, F.S.; providing notice requirements for inspection of a pharmacy; amending s. 465.016, F.S.; providing additional grounds for disciplinary action; conforming a cross-reference; amending s. 465.022, F.S.; conforming a cross-reference; requiring a pharmacy permittee to commence operations within 180 days after permit issuance or show good cause why operations were not commenced; requiring the Board of Pharmacy to establish rules; requiring a pharmacy permittee to be supervised by a prescription department manager or consultant pharmacist of record; amending s. 465.023, F.S.; providing additional grounds for disciplinary action; conforming a cross-reference; creating s. 465.1902, F.S.; providing that regulation of the licensure, activity, and operation of pharmacies and pharmacists

578-04007A-13 20131192c2

is preempted to the state; prohibiting a local government or political subdivision of the state from enacting or enforcing an ordinance that imposes a levy, charge, or fee upon, or that otherwise regulates, pharmacies and pharmacists, except for ordinances regarding local business taxes and land development; amending s. 893.055, F.S.; deleting an obsolete provision; deleting a provision that prohibits funds from prescription drug manufacturers to be used to implement the prescription drug monitoring program; authorizing the prescription drug monitoring program to be funded by state funds; revising the sources of money which are inappropriate for the direct-support organization of the prescription drug monitoring program to receive; creating s. 893.0552, F.S.; providing that regulation of the licensure, activity, and operation of pain-management clinics is preempted to the state under certain circumstances; authorizing a local government or political subdivision of the state to enact certain ordinances regarding local business taxes and land development; amending ss. 409.9201, 458.331, 459.015, 465.014, 465.015, 465.0156, 465.0197, 465.1901, 499.003, and 893.02, F.S.; conforming cross-references; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsections (2) and (3) of section 456.44,

Florida Statutes, are amended to read:

456.44 Controlled substance prescribing.—

(2) REGISTRATION. ~~Effective January 1, 2012,~~ A physician licensed under chapter 458, chapter 459, chapter 461, or chapter 466 who prescribes more than a 30-day supply of any controlled substance, listed in Schedule II, Schedule III, or Schedule IV as defined in s. 893.03, over a 6-month period to any one patient for the treatment of chronic nonmalignant pain, must:

(a) Designate himself or herself as a controlled substance prescribing practitioner on the physician's practitioner profile.

(b) Comply with the requirements of this section and applicable board rules.

(3) STANDARDS OF PRACTICE.—The standards of practice in this section do not supersede the level of care, skill, and treatment recognized in general law related to health care licensure.

(a) A complete medical history and a physical examination must be conducted before beginning any treatment and must be documented in the medical record. The exact components of the physical examination shall be left to the judgment of the clinician who is expected to perform a physical examination proportionate to the diagnosis that justifies a treatment. The medical record must, at a minimum, document the nature and intensity of the pain, current and past treatments for pain, underlying or coexisting diseases or conditions, the effect of the pain on physical and psychological function, a review of previous medical records, previous diagnostic studies, and history of alcohol and substance abuse. The medical record shall

also document the presence of one or more recognized medical indications for the use of a controlled substance. Each registrant must develop a written plan for assessing each patient's risk of aberrant drug-related behavior, which may include patient drug testing. Registrants must assess each patient's risk for aberrant drug-related behavior and monitor that risk on an ongoing basis in accordance with the plan.

(b) Before or during a new patient's visit for pain-treatment services at a pain-management clinic registered under s. 458.3265 or s. 459.0137, a physician shall consult the prescription drug monitoring program database provided under s. 893.055(2)(a) before prescribing a controlled substance listed in Schedule II or Schedule III in s. 893.03. The physician may designate an agent under his or her supervision to consult the database. The board shall adopt rules to establish a penalty for a physician who does not comply with this subsection.

(c) ~~(b)~~ Each registrant must develop a written individualized treatment plan for each patient. The treatment plan shall state objectives that will be used to determine treatment success, such as pain relief and improved physical and psychosocial function, and shall indicate if any further diagnostic evaluations or other treatments are planned. After treatment begins, the physician shall adjust drug therapy to the individual medical needs of each patient. Other treatment modalities, including a rehabilitation program, shall be considered depending on the etiology of the pain and the extent to which the pain is associated with physical and psychosocial impairment. The interdisciplinary nature of the treatment plan shall be documented.

(d) ~~(c)~~ The physician shall discuss the risks and benefits of the use of controlled substances, including the risks of abuse and addiction, as well as physical dependence and its consequences, with the patient, persons designated by the patient, or the patient's surrogate or guardian if the patient is incompetent. The physician shall use a written controlled substance agreement between the physician and the patient outlining the patient's responsibilities, including, but not limited to:

1. Number and frequency of controlled substance prescriptions and refills.

2. Patient compliance and reasons for which drug therapy may be discontinued, such as a violation of the agreement.

3. An agreement that controlled substances for the treatment of chronic nonmalignant pain shall be prescribed by a single treating physician unless otherwise authorized by the treating physician and documented in the medical record.

(e) ~~(d)~~ The patient shall be seen by the physician at regular intervals, not to exceed 3 months, to assess the efficacy of treatment, ensure that controlled substance therapy remains indicated, evaluate the patient's progress toward treatment objectives, consider adverse drug effects, and review the etiology of the pain. Continuation or modification of therapy shall depend on the physician's evaluation of the patient's progress. If treatment goals are not being achieved, despite medication adjustments, the physician shall reevaluate the appropriateness of continued treatment. The physician shall monitor patient compliance in medication usage, related treatment plans, controlled substance agreements, and

indications of substance abuse or diversion at a minimum of 3-month intervals.

(f) ~~(e)~~ The physician shall refer the patient as necessary for additional evaluation and treatment in order to achieve treatment objectives. Special attention shall be given to those patients who are at risk for misusing their medications and those whose living arrangements pose a risk for medication misuse or diversion. The management of pain in patients with a history of substance abuse or with a comorbid psychiatric disorder requires extra care, monitoring, and documentation and requires consultation with or referral to an addiction medicine specialist or psychiatrist.

(g) ~~(f)~~ A physician registered under this section must maintain accurate, current, and complete records that are accessible and readily available for review and comply with the requirements of this section, the applicable practice act, and applicable board rules. The medical records must include, but are not limited to:

1. The complete medical history and a physical examination, including history of drug abuse or dependence.

2. Diagnostic, therapeutic, and laboratory results.

3. Evaluations and consultations.

4. Treatment objectives.

5. Discussion of risks and benefits.

6. Treatments.

7. Medications, including date, type, dosage, and quantity prescribed.

8. Instructions and agreements.

9. Periodic reviews.

10. Results of any drug testing.

11. A photocopy of the patient's government-issued photo identification.

12. If a written prescription for a controlled substance is given to the patient, a duplicate of the prescription.

13. The physician's full name presented in a legible manner.

(h) ~~(g)~~ Patients with signs or symptoms of substance abuse shall be immediately referred to a board-certified pain management physician, an addiction medicine specialist, or a mental health addiction facility as it pertains to drug abuse or addiction unless the physician is board-certified or board-eligible in pain management. Throughout the period of time before receiving the consultant's report, a prescribing physician shall clearly and completely document medical justification for continued treatment with controlled substances and those steps taken to ensure medically appropriate use of controlled substances by the patient. Upon receipt of the consultant's written report, the prescribing physician shall incorporate the consultant's recommendations for continuing, modifying, or discontinuing controlled substance therapy. The resulting changes in treatment shall be specifically documented in the patient's medical record. Evidence or behavioral indications of diversion shall be followed by discontinuation of controlled substance therapy, and the patient shall be discharged, and all results of testing and actions taken by the physician shall be documented in the patient's medical record.

This subsection does not apply to a board-eligible or board-

certified anesthesiologist, physiatrist, rheumatologist, or neurologist, or to a board-certified physician who has surgical privileges at a hospital or ambulatory surgery center and primarily provides surgical services. This subsection does not apply to a board-eligible or board-certified medical specialist who has also completed a fellowship in pain medicine approved by the Accreditation Council for Graduate Medical Education or the American Osteopathic Association, or who is board eligible or board certified in pain medicine by the American Board of Pain Medicine or a board approved by the American Board of Medical Specialties or the American Osteopathic Association and performs interventional pain procedures of the type routinely billed using surgical codes. This subsection does not apply to a physician who prescribes medically necessary controlled substances for a patient during an inpatient stay in a hospital licensed under chapter 395 or to a resident in a facility licensed under part II of chapter 400. This subsection does not apply to any physician licensed under chapter 458 or chapter 459 who writes fewer than 50 prescriptions for a controlled substance for all of his or her patients during a 1-year period.

Section 2. Present subsections (1) through (17) of section 465.003, Florida Statutes, are renumbered as subsections (2) through (18), respectively, paragraph (a) of present subsection (11) of that section is amended, and a new subsection (1) is added to that section, to read:

465.003 Definitions.—As used in this chapter, the term:

(1) "Abandoned" means the status of a pharmacy permit of a person or entity that was issued the permit but fails to commence pharmacy operations within 180 days after issuance of

the permit without good cause or fails to follow pharmacy closure requirements as set by the board.

(12)~~(11)~~(a) "Pharmacy" includes a community pharmacy, an institutional pharmacy, a nuclear pharmacy, a special pharmacy, and an Internet pharmacy.

1. The term "community pharmacy" includes every location where medicinal drugs are compounded, dispensed, stored, or sold or where prescriptions are filled or dispensed on an outpatient basis.

2. The term "institutional pharmacy" includes every location in a hospital, clinic, nursing home, dispensary, sanitarium, extended care facility, or other facility, hereinafter referred to as "health care institutions," where medicinal drugs are compounded, dispensed, stored, or sold.

3. The term "nuclear pharmacy" includes every location where radioactive drugs and chemicals within the classification of medicinal drugs are compounded, dispensed, stored, or sold. The term "nuclear pharmacy" does not include hospitals licensed under chapter 395 or the nuclear medicine facilities of such hospitals.

4. The term "special pharmacy" includes every location where medicinal drugs are compounded, dispensed, stored, or sold if such locations are not otherwise defined in this subsection.

5. The term "Internet pharmacy" includes locations not otherwise licensed or issued a permit under this chapter, within or outside this state, which use the Internet to communicate with or obtain information from consumers in this state and use such communication or information to fill or refill prescriptions or to dispense, distribute, or otherwise engage in

the practice of pharmacy in this state. Any act described in this definition constitutes the practice of pharmacy as defined in subsection (14)~~(13)~~.

Section 3. Section 465.0065, Florida Statutes, is created to read:

465.0065 Notices; form and service.—Each notice served by the department pursuant to this chapter must be in writing and must be delivered personally by an agent of the department or by certified mail to the pharmacy permittee or licensee. If the pharmacy permittee or licensee refuses to accept service or evades service or if the agent is otherwise unable to carry out service after due diligence, the department may post the notice in a conspicuous place at the pharmacy or at the home or business address for the licensee.

Section 4. Paragraphs (e) and (s) of subsection (1) of section 465.016, Florida Statutes, are amended, and paragraph (u) is added to that subsection, to read:

465.016 Disciplinary actions.—

(1) The following acts constitute grounds for denial of a license or disciplinary action, as specified in s. 456.072(2):

(e) Violating chapter 499; 21 U.S.C. ss. 301-392, known as the Federal Food, Drug, and Cosmetic Act; 21 U.S.C. ss. 821 et seq., known as the Comprehensive Drug Abuse Prevention and Control Act; or chapter 893 or rules adopted thereunder.

(s) Dispensing any medicinal drug based upon a communication that purports to be a prescription as defined by s. 465.003 ~~s. 465.003(14)~~ or s. 893.02 when the pharmacist knows or has reason to believe that the purported prescription is not based upon a valid practitioner-patient relationship.

(u) Misappropriating drugs, supplies, or equipment from a pharmacy permittee.

Section 5. Paragraph (j) of subsection (5) of section 465.022, Florida Statutes, is amended, present subsections (10) through (14) are renumbered as subsections (11) through (15), respectively, present subsection (10) of that section is amended, and a new subsection (10) is added to that section, to read:

465.022 Pharmacies; general requirements; fees.—

(5) The department or board shall deny an application for a pharmacy permit if the applicant or an affiliated person, partner, officer, director, or prescription department manager or consultant pharmacist of record of the applicant:

(j) Has dispensed any medicinal drug based upon a communication that purports to be a prescription as defined by s. 465.003 ~~s. 465.003(14)~~ or s. 893.02 when the pharmacist knows or has reason to believe that the purported prescription is not based upon a valid practitioner-patient relationship that includes a documented patient evaluation, including history and a physical examination adequate to establish the diagnosis for which any drug is prescribed and any other requirement established by board rule under chapter 458, chapter 459, chapter 461, chapter 463, chapter 464, or chapter 466.

For felonies in which the defendant entered a plea of guilty or nolo contendere in an agreement with the court to enter a pretrial intervention or drug diversion program, the department shall deny the application if upon final resolution of the case the licensee has failed to successfully complete the program.

(10) The permittee shall commence pharmacy operations within 180 days after issuance of the permit, or show good cause to the department why pharmacy operations were not commenced. Commencement of pharmacy operations includes, but is not limited to, acts within the scope of the practice of pharmacy, ordering or receiving drugs, and other similar activities. The board shall establish rules regarding commencement of pharmacy operations.

(11) ~~(10)~~ A pharmacy permittee shall be supervised by a prescription department manager or consultant pharmacist of record at all times. A permittee must notify the department, on a form approved by the board, within 10 days after any change in prescription department manager or consultant pharmacist of record.

Section 6. Subsection (1) of section 465.023, Florida Statutes, is amended to read:

465.023 Pharmacy permittee; disciplinary action.—

(1) The department or the board may revoke or suspend the permit of any pharmacy permittee, and may fine, place on probation, or otherwise discipline any pharmacy permittee if the permittee, or any affiliated person, partner, officer, director, or agent of the permittee, including a person fingerprinted under s. 465.022(3), has:

(a) Obtained a permit by misrepresentation or fraud or through an error of the department or the board;

(b) Attempted to procure, or has procured, a permit for any other person by making, or causing to be made, any false representation;

(c) Violated any of the requirements of this chapter or any

of the rules of the Board of Pharmacy; of chapter 499, known as the "Florida Drug and Cosmetic Act"; of 21 U.S.C. ss. 301-392, known as the "Federal Food, Drug, and Cosmetic Act"; of 21 U.S.C. ss. 821 et seq., known as the Comprehensive Drug Abuse Prevention and Control Act; or of chapter 893 or rules adopted thereunder;

(d) Been convicted or found guilty, regardless of adjudication, of a felony or any other crime involving moral turpitude in any of the courts of this state, of any other state, or of the United States;

(e) Been convicted or disciplined by a regulatory agency of the Federal Government or a regulatory agency of another state for any offense that would constitute a violation of this chapter;

(f) Been convicted of, or entered a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction which relates to the practice of, or the ability to practice, the profession of pharmacy;

(g) Been convicted of, or entered a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction which relates to health care fraud; or

(h) Dispensed any medicinal drug based upon a communication that purports to be a prescription as defined by s. 465.003 ~~s. 465.003(14)~~ or s. 893.02 when the pharmacist knows or has reason to believe that the purported prescription is not based upon a valid practitioner-patient relationship that includes a documented patient evaluation, including history and a physical examination adequate to establish the diagnosis for which any drug is prescribed and any other requirement established by

board rule under chapter 458, chapter 459, chapter 461, chapter 463, chapter 464, or chapter 466.

Section 7. Section 465.1902, Florida Statutes, is created to read:

465.1902 Preemption.—This chapter preempts to the state all regulation of the licensure, activity, and operation of pharmacies and pharmacists as defined in this chapter. A local government or political subdivision of the state may not enact or enforce an ordinance that imposes a levy, charge, or fee upon, or that otherwise regulates, pharmacies and pharmacists as defined in this chapter, except that this preemption does not prohibit a local government or political subdivision from enacting an ordinance regarding the following:

(1) Local business taxes adopted pursuant to chapter 205.

(2) Land use development regulations adopted pursuant to chapter 163, which include regulation of any aspect of development, including a subdivision, building construction, sign regulation, and any other regulation concerning the development of land, landscaping, or tree protection, and which do not include restrictions on pain-management services, health care services, or the prescribing of controlled substances.

Section 8. Paragraph (b) of subsection (2), subsection (10), and paragraph (c) of subsection (11) of section 893.055, Florida Statutes, are amended to read:

893.055 Prescription drug monitoring program.—

(2)

(b) The department~~, when the direct support organization receives at least $20,000 in nonstate moneys or the state receives at least $20,000 in federal grants for the prescription~~

~~drug monitoring program,~~ shall adopt rules as necessary concerning the reporting, accessing the database, evaluation, management, development, implementation, operation, security, and storage of information within the system, including rules for when patient advisory reports are provided to pharmacies and prescribers. The patient advisory report shall be provided in accordance with s. 893.13(7)(a)8. The department shall work with the professional health care licensure boards, such as the Board of Medicine, the Board of Osteopathic Medicine, and the Board of Pharmacy; other appropriate organizations, such as the Florida Pharmacy Association, the Florida Medical Association, the Florida Retail Federation, and the Florida Osteopathic Medical Association, including those relating to pain management; and the Attorney General, the Department of Law Enforcement, and the Agency for Health Care Administration to develop rules appropriate for the prescription drug monitoring program.

(10) All costs incurred by the department in administering the prescription drug monitoring program shall be funded through state funds, federal grants, or private funding applied for or received by the state. The department may not commit funds for the monitoring program without ensuring funding is available. ~~The prescription drug monitoring program and the implementation thereof are contingent upon receipt of the nonstate funding.~~ The department and state government shall cooperate with the direct-support organization established pursuant to subsection (11) in seeking state funds, federal grant funds, other nonstate grant funds, gifts, donations, or other private moneys for the department if ~~so long as~~ the costs of doing so are not considered material. Nonmaterial costs for this purpose include,

but are not limited to, the costs of mailing and personnel assigned to research or apply for a grant. Notwithstanding the exemptions to competitive-solicitation requirements under s. 287.057(3)(f), the department shall comply with the competitive-solicitation requirements under s. 287.057 for the procurement of any goods or services required by this section. ~~Funds provided, directly or indirectly, by prescription drug manufacturers may not be used to implement the program.~~

(11) The department may establish a direct-support organization that has a board consisting of at least five members to provide assistance, funding, and promotional support for the activities authorized for the prescription drug monitoring program.

(c) The State Surgeon General shall appoint a board of directors for the direct-support organization. Members of the board shall serve at the pleasure of the State Surgeon General. The State Surgeon General shall provide guidance to members of the board to ensure that moneys received by the direct-support organization are not received from inappropriate sources. Inappropriate sources include, but are not limited to, donors, grantors, persons, ~~or~~ organizations, or pharmaceutical companies, that may monetarily or substantively benefit from the purchase of goods or services by the department in furtherance of the prescription drug monitoring program.

Section 9. Section 893.0552, Florida Statutes, is created to read:

893.0552 Preemption of regulation.—

(1) This section preempts to the state all regulation of the licensure, activity, and operation of pain-management

clinics as defined in ss. 458.3265 and 459.0137 in the following circumstances:

(a) The clinic is wholly owned and operated by a physician who performs interventional pain procedures of the type routinely billed using surgical codes, who has never been suspended or revoked for prescribing a controlled substance in Schedule II or Schedule III of s. 893.03 and drugs containing Alprazolam in excessive or inappropriate quantities that are not in the best interest of a patient, and who:

1. Has completed a fellowship in pain medicine which is approved by the Accreditation Council for Graduate Medical Education or the American Osteopathic Association;

2. Is board-certified in pain medicine by the American Board of Pain Medicine, board-certified by the American Board of Interventional Pain Physicians; or

3. Has a board certification or subcertification in pain management or pain medicine by a specialty board approved by the American Board of Medical Specialties or the American Osteopathic Association.

(b) The clinic is wholly owned and operated by a physician-multispecialty practice if one or more board-eligible or board-certified medical specialists has one of the qualifications specified in subparagraph (a)1., subparagraph (a)2., or subparagraph (a)3., performs interventional pain procedures of the type routinely billed using surgical codes, and has never been suspended or revoked for prescribing a controlled substance in Schedule II or Schedule III of s. 893.03 and drugs containing Alprazolam in excessive or inappropriate quantities that are not in the best interest of a patient.

(2) Notwithstanding subsection (1), the preemption does not prohibit a local government or political subdivision from enacting an ordinance regarding local business taxes adopted pursuant to chapter 205 and land use development regulations adopted pursuant to chapter 163. A pain-management clinic in which the regulation of its licensure, activity, and operation is preempted to the state pursuant to subsection (1) is a permissible use in a land use or zoning category that permits hospitals and other health care facilities or clinics as defined in chapter 395 or s. 408.07. Upon the request of a local government, a pain-management clinic must annually demonstrate that it qualifies for preemption pursuant to subsection (1).

Section 10. Subsection (1) of section 409.9201, Florida Statutes, is amended to read:

409.9201 Medicaid fraud.—

(1) As used in this section, the term:

(a) "Prescription drug" means any drug, including, but not limited to, finished dosage forms or active ingredients that are subject to, defined by, or described by s. 503(b) of the Federal Food, Drug, and Cosmetic Act or by s. 465.003 ~~s. 465.003(8)~~, s. 499.003(46) or (53) or s. 499.007(13).

(b) "Value" means the amount billed to the Medicaid program for the property dispensed or the market value of a legend drug or goods or services at the time and place of the offense. If the market value cannot be determined, the term means the replacement cost of the legend drug or goods or services within a reasonable time after the offense.

The value of individual items of the legend drugs or goods or

services involved in distinct transactions committed during a single scheme or course of conduct, whether involving a single person or several persons, may be aggregated when determining the punishment for the offense.

Section 11. Paragraph (pp) of subsection (1) of section 458.331, Florida Statutes, is amended to read:

458.331 Grounds for disciplinary action; action by the board and department.—

(1) The following acts constitute grounds for denial of a license or disciplinary action, as specified in s. 456.072(2):

(pp) Applicable to a licensee who serves as the designated physician of a pain-management clinic as defined in s. 458.3265 or s. 459.0137:

1. Registering a pain-management clinic through misrepresentation or fraud;

2. Procuring, or attempting to procure, the registration of a pain-management clinic for any other person by making or causing to be made, any false representation;

3. Failing to comply with any requirement of chapter 499, the Florida Drug and Cosmetic Act; 21 U.S.C. ss. 301-392, the Federal Food, Drug, and Cosmetic Act; 21 U.S.C. ss. 821 et seq., the Drug Abuse Prevention and Control Act; or chapter 893, the Florida Comprehensive Drug Abuse Prevention and Control Act;

4. Being convicted or found guilty of, regardless of adjudication to, a felony or any other crime involving moral turpitude, fraud, dishonesty, or deceit in any jurisdiction of the courts of this state, of any other state, or of the United States;

5. Being convicted of, or disciplined by a regulatory

agency of the Federal Government or a regulatory agency of another state for, any offense that would constitute a violation of this chapter;

6. Being convicted of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction of the courts of this state, of any other state, or of the United States which relates to the practice of, or the ability to practice, a licensed health care profession;

7. Being convicted of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction of the courts of this state, of any other state, or of the United States which relates to health care fraud;

8. Dispensing any medicinal drug based upon a communication that purports to be a prescription as defined in s. 465.003 ~~s. 465.003(14)~~ or s. 893.02 if the dispensing practitioner knows or has reason to believe that the purported prescription is not based upon a valid practitioner-patient relationship; or

9. Failing to timely notify the board of the date of his or her termination from a pain-management clinic as required by s. 458.3265(2).

Section 12. Paragraph (rr) of subsection (1) of section 459.015, Florida Statutes, is amended to read:

459.015 Grounds for disciplinary action; action by the board and department.—

(1) The following acts constitute grounds for denial of a license or disciplinary action, as specified in s. 456.072(2):

(rr) Applicable to a licensee who serves as the designated physician of a pain-management clinic as defined in s. 458.3265 or s. 459.0137:

1. Registering a pain-management clinic through misrepresentation or fraud;

2. Procuring, or attempting to procure, the registration of a pain-management clinic for any other person by making or causing to be made, any false representation;

3. Failing to comply with any requirement of chapter 499, the Florida Drug and Cosmetic Act; 21 U.S.C. ss. 301-392, the Federal Food, Drug, and Cosmetic Act; 21 U.S.C. ss. 821 et seq., the Drug Abuse Prevention and Control Act; or chapter 893, the Florida Comprehensive Drug Abuse Prevention and Control Act;

4. Being convicted or found guilty of, regardless of adjudication to, a felony or any other crime involving moral turpitude, fraud, dishonesty, or deceit in any jurisdiction of the courts of this state, of any other state, or of the United States;

5. Being convicted of, or disciplined by a regulatory agency of the Federal Government or a regulatory agency of another state for, any offense that would constitute a violation of this chapter;

6. Being convicted of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction of the courts of this state, of any other state, or of the United States which relates to the practice of, or the ability to practice, a licensed health care profession;

7. Being convicted of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction of the courts of this state, of any other state, or of the United States which relates to health care fraud;

8. Dispensing any medicinal drug based upon a communication

that purports to be a prescription as defined in s. 465.003 ~~s. 465.003(14)~~ or s. 893.02 if the dispensing practitioner knows or has reason to believe that the purported prescription is not based upon a valid practitioner-patient relationship; or

9. Failing to timely notify the board of the date of his or her termination from a pain-management clinic as required by s. 459.0137(2).

Section 13. Subsection (1) of section 465.014, Florida Statutes, is amended to read:

465.014 Pharmacy technician.—

(1) A person other than a licensed pharmacist or pharmacy intern may not engage in the practice of the profession of pharmacy, except that a licensed pharmacist may delegate to pharmacy technicians who are registered pursuant to this section those duties, tasks, and functions that do not fall within the purview of s. 465.003 ~~s. 465.003(13)~~. All such delegated acts shall be performed under the direct supervision of a licensed pharmacist who shall be responsible for all such acts performed by persons under his or her supervision. A pharmacy registered technician, under the supervision of a pharmacist, may initiate or receive communications with a practitioner or his or her agent, on behalf of a patient, regarding refill authorization requests. A licensed pharmacist may not supervise more than one registered pharmacy technician unless otherwise permitted by the guidelines adopted by the board. The board shall establish guidelines to be followed by licensees or permittees in determining the circumstances under which a licensed pharmacist may supervise more than one but not more than three pharmacy technicians.

Section 14. Paragraph (c) of subsection (2) of section 465.015, Florida Statutes, is amended to read:

465.015 Violations and penalties.—

(2) It is unlawful for any person:

(c) To sell or dispense drugs as defined in s. 465.003 ~~s. 465.003(8)~~ without first being furnished with a prescription.

Section 15. Subsection (8) of section 465.0156, Florida Statutes, is amended to read:

465.0156 Registration of nonresident pharmacies.—

(8) Notwithstanding s. 465.003 ~~s. 465.003(10)~~, for purposes of this section, the registered pharmacy and the pharmacist designated by the registered pharmacy as the prescription department manager or the equivalent must be licensed in the state of location in order to dispense into this state.

Section 16. Subsection (4) of section 465.0197, Florida Statutes, is amended to read:

465.0197 Internet pharmacy permits.—

(4) Notwithstanding s. 465.003 ~~s. 465.003(10)~~, for purposes of this section, the Internet pharmacy and the pharmacist designated by the Internet pharmacy as the prescription department manager or the equivalent must be licensed in the state of location in order to dispense into this state.

Section 17. Section 465.1901, Florida Statutes, is amended to read:

465.1901 Practice of orthotics and pedorthics.—The provisions of chapter 468 relating to orthotics or pedorthics do not apply to any licensed pharmacist or to any person acting under the supervision of a licensed pharmacist. The practice of orthotics or pedorthics by a pharmacist or any of the

pharmacist's employees acting under the supervision of a pharmacist shall be construed to be within the meaning of the term "practice of the profession of pharmacy" as set forth in s. 465.003 ~~s. 465.003(13)~~, and shall be subject to regulation in the same manner as any other pharmacy practice. The Board of Pharmacy shall develop rules regarding the practice of orthotics and pedorthics by a pharmacist. Any pharmacist or person under the supervision of a pharmacist engaged in the practice of orthotics or pedorthics is not precluded from continuing that practice pending adoption of these rules.

Section 18. Subsection (43) of section 499.003, Florida Statutes, is amended to read:

499.003 Definitions of terms used in this part.—As used in this part, the term:

(43) "Prescription drug" means a prescription, medicinal, or legend drug, including, but not limited to, finished dosage forms or active pharmaceutical ingredients subject to, defined by, or described by s. 503(b) of the Federal Food, Drug, and Cosmetic Act or s. 465.003 ~~s. 465.003(8)~~, s. 499.007(13), or subsection (11), subsection (46), or subsection (53), except that an active pharmaceutical ingredient is a prescription drug only if substantially all finished dosage forms in which it may be lawfully dispensed or administered in this state are also prescription drugs.

Section 19. Subsection (22) of section 893.02, Florida Statutes, is amended to read:

893.02 Definitions.—The following words and phrases as used in this chapter shall have the following meanings, unless the context otherwise requires:

(22) "Prescription" means and includes an order for drugs or medicinal supplies written, signed, or transmitted by word of mouth, telephone, telegram, or other means of communication by a duly licensed practitioner licensed by the laws of the state to prescribe such drugs or medicinal supplies, issued in good faith and in the course of professional practice, intended to be filled, compounded, or dispensed by another person licensed by the laws of the state to do so, and meeting the requirements of s. 893.04. The term also includes an order for drugs or medicinal supplies so transmitted or written by a physician, dentist, veterinarian, or other practitioner licensed to practice in a state other than Florida, but only if the pharmacist called upon to fill such an order determines, in the exercise of his or her professional judgment, that the order was issued pursuant to a valid patient-physician relationship, that it is authentic, and that the drugs or medicinal supplies so ordered are considered necessary for the continuation of treatment of a chronic or recurrent illness. However, if the physician writing the prescription is not known to the pharmacist, the pharmacist shall obtain proof to a reasonable certainty of the validity of said prescription. A prescription order for a controlled substance shall not be issued on the same prescription blank with another prescription order for a controlled substance which is named or described in a different schedule, nor shall any prescription order for a controlled substance be issued on the same prescription blank as a prescription order for a medicinal drug, as defined in s. 465.003 ~~s. 465.003(8)~~, which does not fall within the definition of a controlled substance as defined in this act.

Section 20. This act shall take effect July 1, 2013.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Appropriations Subcommittee on Finance and Tax

BILL:	PCS/SB 1200 (971948)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Finance and Tax) and Senator Simpson
SUBJECT:	Taxation of Property
DATE:	April 21, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Toman	Yeatman	CA	**Favorable**
2.	Weidenbenner	Halley	AG	**Favorable**

4.	Babin	Hansen	AP	**Pre-meeting**
5.				
6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

PCS/SB 1200 eliminates the authority of a Value Adjustment Board (VAB) under its own motion, to review certain land classifications and exemptions granted by a property appraiser. The bill also eliminates two statutory requirements directing the property appraiser to reclassify lands as nonagricultural.

The Revenue Estimating Conference (REC) determined that this bill will reduce local property tax revenues by $0.23 million per year.

This bill substantially amends the following sections of the Florida Statutes: 193.461, 193.503, 193.625, and 196.194.

II. Present Situation:

Property Valuation in Florida

The Florida Constitution requires that all property be assessed at just value (fair market value) for ad valorem tax purposes.[1] However, sections 3, 4, and 6, Article VII of the Florida Constitution, provide for specified assessment limitations, property classifications, and exemptions. After the property appraiser has considered any assessment limitation or use classification affecting the just value of a property, the assessed value is determined. The assessed value is then reduced by any applicable exemptions to produce the taxable value.[2]

Agricultural Property Classification

For property to be classified as agricultural land, it must be used "primarily for bona fide agricultural purposes."[3] "Agricultural purposes" include, but are not limited to: horticulture; floriculture; viticulture; forestry; dairy; livestock; poultry; bee; pisciculture, when the land is used principally for the production of tropical fish; aquaculture; sod farming; and all forms of farm products and farm production.[4]

Property appraisers are required to reclassify lands as nonagricultural when:

- The land is diverted from an agricultural to a nonagricultural use;
- The land is no longer being utilized for agricultural purposes;
- The land has been zoned to a nonagricultural use at the request of the owner.[5]

A county commission may reclassify lands from agricultural to nonagricultural when there is contiguous urban or metropolitan development and the county commission finds that the continued use of the lands for agricultural purposes will act as a deterrent to the timely and orderly expansion of the community.[6]

Value Adjustment Boards

After the property appraiser determines the assessed value of all property, the county convenes a value adjustment board (VAB) to hear petitions from affected taxpayers regarding assessments. Each VAB is composed of two members from the county governing board, one member from the school board, and two citizen members.[7] Counties with a population of more than 75,000 must appoint special magistrates to take testimony and provide recommendations to the board.[8]

The value adjustment board meets for the following purposes:

[1] Fla. Const. Art. VII, s. 4
[2] See s. 196.031, F.S.
[3] Section 193.461(3)(b), F.S.
[4] Section 193.461(5), F.S.
[5] Section 193.461(4)(a), F.S.
[6] Section 193.461(4)(b), F.S.
[7] Section 194.015, F.S.
[8] Section 194.035, F.S. Counties with a population of less than 75,000 may appoint special magistrates, but such is not required.

- To hear petitions relating to assessments filed pursuant to s. 194.011(3), F.S.;
- To hear complaints relating to homestead exemptions pursuant to s. 196.151, F.S.;
- To hear appeals from tax exemptions that have been denied, or disputes pertaining to granted exemptions pursuant to s. 196.011, F.S.; and
- To hear appeals concerning ad valorem tax deferrals and classifications.[9]

Not only can VABs review assessments, exemptions and classifications when a taxpayer petitions for review, but the VAB is also permitted, on its own motion, to review agricultural land, historic property, and high-water recharge land classifications, as well as exemptions granted by the property appraiser.

III. Effect of Proposed Changes:

Section 1 amends s. 193.461, F.S., removing the VAB's authority to review agricultural classifications on its own motion.

The bill also:

- Deletes the requirement that a property appraiser reclassify agricultural property as nonagricultural when the owner requests the property be rezoned as nonagricultural;
- Removes the county commission's authority to reclassify agricultural land as nonagricultural when there is contiguous urban development and the board finds that the continued agricultural use of the land will deter the expansion of the community.

Section 2 amends s. 193.503, F.S., removing the VAB's authority to initiate a review of historic property classifications on its own motion.

Section 3 amends s. 193.625, F.S., removing the VAB's authority to initiate a review of high-water recharge land classifications on its own motion.

Section 4 amends s. 196.194, F.S., removing the VAB's authority to initiate a review of property tax exemptions on its own motion.

Section 5 provides that the bill takes effect upon becoming a law and applies retroactively to January 1, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, Section 18 of the Florida Constitution, prohibits laws requiring counties or municipalities to spend funds or that limit their ability to raise revenues. Subsection 18(d) provides an applicable exemption for laws determined to have an "insignificant fiscal impact," which means an amount not greater than the average statewide population for

[9] Section 194.032(1)(a)1.-4., F.S.

the applicable fiscal year times $0.10 or $1.9 million for FY 2012-13.[10] The REC determined that this bill will reduce local property tax revenues by $0.23 million per year. Thus, this bill is exempt from the mandates requirement.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The REC has determined that this bill will reduce local property tax revenues by $0.23 million per year.

B. Private Sector Impact:

The bill may result in more landowners retaining the agricultural classification on their property.

C. Government Sector Impact:

None.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS by Appropriations Subcommittee on Finance and Tax on April 11, 2013:
The committee substitute:

[10] Based on the Demographic Estimating Conference's final population estimate for April 1, 2012, which was adopted on November 7, 2012. The Executive Summary can be found at: http://edr.state.fl.us/Content/conferences/population/demographicsummary.pdf.

- Retains a presumption in current law that agricultural land sold for three or more times the agricultural assessment will no longer be used for agricultural purposes.
- Changes the effective date from January 1, 2012 to January 1, 2013.

B. Amendments:

None.

Proposed Committee Substitute by the Committee on Appropriations
(Appropriations Subcommittee on Finance and Tax)

A bill to be entitled

An act relating to the taxation of property; amending s. 193.461, F.S.; deleting authorization for a value adjustment board upon its own motion to review lands classified by a property appraiser as agricultural or nonagricultural; deleting a requirement that the property appraiser must reclassify as nonagricultural certain lands that have been zoned to a nonagricultural use; deleting authorization for a board of county commissioners to reclassify as nonagricultural certain lands that are contiguous to urban or metropolitan development under specified circumstances; amending s. 193.503, F.S.; deleting authorization for a value adjustment board upon its own motion to review property granted or denied classification by a property appraiser as historic property that is being used for commercial or certain nonprofit purposes; amending s. 193.625, F.S.; deleting authorization for a value adjustment board upon its own motion to review land granted or denied a high-water recharge classification by a property appraiser; amending s. 196.194, F.S.; deleting authorization for a value adjustment board to review property tax exemptions upon its own motion or motion of the property appraiser and deleting certain notice requirements relating to the review of such exemptions; providing for retroactive application;

971948

576-04170-13

providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsections (2) and (4) of section 193.461, Florida Statutes, are amended to read:

193.461 Agricultural lands; classification and assessment; mandated eradication or quarantine program.—

(2) Any landowner whose land is denied agricultural classification by the property appraiser may appeal to the value adjustment board. The property appraiser shall notify the landowner in writing of the denial of agricultural classification on or before July 1 of the year for which the application was filed. The notification shall advise the landowner of his or her right to appeal to the value adjustment board and of the filing deadline. ~~The board may also review all lands classified by the property appraiser upon its own motion.~~ The property appraiser shall have available at his or her office a list by ownership of all applications received showing the acreage, the full valuation under s. 193.011, the valuation of the land under the provisions of this section, and whether or not the classification requested was granted.

(4)~~(a)~~ The property appraiser shall reclassify the following lands as nonagricultural:

(a)~~1.~~ Land diverted from an agricultural to a nonagricultural use.

(b)~~2.~~ Land no longer being utilized for agricultural purposes.

~~3. Land that has been zoned to a nonagricultural use at the~~

~~request of the owner subsequent to the enactment of this law.~~

~~(b) The board of county commissioners may also reclassify lands classified as agricultural to nonagricultural when there is contiguous urban or metropolitan development and the board of county commissioners finds that the continued use of such lands for agricultural purposes will act as a deterrent to the timely and orderly expansion of the community.~~

(c) Sale of land for a purchase price that ~~which~~ is three or more times the agricultural assessment placed on the land creates ~~shall create~~ a presumption that such land is not used primarily for bona fide agricultural purposes. Upon a showing of special circumstances by the landowner demonstrating that the land is to be continued in bona fide agriculture, this presumption may be rebutted.

Section 2. Subsection (7) of section 193.503, Florida Statutes, is amended to read:

193.503 Classification and assessment of historic property used for commercial or certain nonprofit purposes.—

(7) Any property owner who is denied classification under this section may appeal to the value adjustment board. The property appraiser shall notify the property owner in writing of the denial of such classification on or before July 1 of the year for which the application was filed. The notification shall advise the property owner of his or her right to appeal to the value adjustment board and of the filing deadline. ~~The board may also review all property classified by the property appraiser upon its own motion.~~ The property appraiser shall have available at his or her office a list by ownership of all applications received showing the full valuation under s. 193.011, the

valuation of the property under the provisions of this section, and whether or not the classification requested was granted.

Section 3. Subsection (2) of section 193.625, Florida Statutes, is amended to read:

193.625 High-water recharge lands; classification and assessment.—

(2) Any landowner whose land is within a county that has a high-water recharge protection tax assessment program and whose land is denied high-water recharge classification by the property appraiser may appeal to the value adjustment board. The property appraiser shall notify the landowner in writing of the denial of high-water recharge classification on or before July 1 of the year for which the application was filed. The notification must advise the landowner of a right to appeal to the value adjustment board and of the filing deadline. ~~The board may also review all lands classified by the property appraiser upon its own motion.~~ The property appraiser shall have available at her or his office a list by ownership of all applications received showing the acreage, the full valuation under s. 193.011, the valuation of the land under the provisions of this section, and whether or not the classification requested was granted.

Section 4. Subsection (1) of section 196.194, Florida Statutes, is amended to read:

196.194 Value adjustment board; notice; hearings; appearance before the board.—

(1) The value adjustment board shall hear disputed or appealed applications for exemption and shall grant such exemptions in whole or in part in accordance with criteria set

971948

576-04170-13

forth in this chapter. ~~It may review exemptions on its own motion or upon motion of the property appraiser. Review of an exemption application upon motion of the board shall not be held until the applicant has had at least 5 calendar days' notice of the intent of the board to review the application.~~

Section 5. This act shall take effect upon becoming a law and apply retroactively to January 1, 2013.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 1200

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/SB 1200 eliminates the authority of a Value Adjustment Board (VAB) under its own motion, to review certain land classifications and exemptions granted by a property appraiser. The bill also eliminates three statutory requirements directing the property appraiser to reclassify lands as nonagricultural.

The Revenue Estimating Conference (REC) determined that deleting the three statutory requirements directing the property appraiser to reclassify agricultural lands as nonagricultural will reduce local property tax revenues by $0.5 million per year.

This bill substantially amends the following sections of the Florida Statutes: 193.461, 193.503, 193.625, and 196.194.

II. Present Situation:

Property Valuation in Florida

The Florida Constitution requires that all property be assessed at just value (fair market value) for ad valorem tax purposes.[1] However, sections 3, 4, and 6, Article VII of the Florida Constitution, provide for specified assessment limitations, property classifications, and exemptions. After the property appraiser has considered any assessment limitation or use classification affecting the just value of a property, the assessed value is determined. The assessed value is then reduced by any applicable exemptions to produce the taxable value.[2]

Agricultural Property Classification

For property to be classified as agricultural land, it must be used "primarily for bona fide agricultural purposes."[3] "Agricultural purposes" include, but are not limited to: horticulture; floriculture; viticulture; forestry; dairy; livestock; poultry; bee; pisciculture, when the land is used principally for the production of tropical fish; aquaculture; sod farming; and all forms of farm products and farm production.[4]

Property appraisers are required to reclassify lands as nonagricultural when:

- The land is diverted from an agricultural to a nonagricultural use;
- The land is no longer being utilized for agricultural purposes;
- The land has been zoned to a nonagricultural use at the request of the owner.[5]

The law creates a presumption that land is no longer used for a bona fide agricultural purpose when the land has been sold for three or more times the agricultural assessment on the land.[6] This presumption is rebuttable by a showing of special circumstances by the landowner demonstrating that the land will continue to be used for bona fide agricultural purposes.[7]

A county commission may reclassify lands from agricultural to nonagricultural when there is contiguous urban or metropolitan development and the county commission finds that the continued use of the lands for agricultural purposes will act as a deterrent to the timely and orderly expansion of the community.[8]

Value Adjustment Boards

After the property appraiser determines the assessed value of all property, the county convenes a value adjustment board (VAB) to hear petitions from affected taxpayers regarding assessments. Each VAB is composed of two members from the county governing board, one member from the

[1] Fla. Const. Art. VII, s. 4
[2] See s. 196.031, F.S.
[3] Section 193.461(3)(b), F.S.
[4] Section 193.461(5), F.S.
[5] Section 193.461(4)(a), F.S.
[6] Section 193.461(4)(c), F.S.
[7] *Id.*
[8] Section 193.461(4)(b), F.S.

school board, and two citizen members.[9] Counties with a population of more than 75,000 must appoint special magistrates to take testimony and provide recommendations to the board.[10]

The value adjustment board meets for the following purposes:

- To hear petitions relating to assessments filed pursuant to s. 194.011(3), F.S.;
- To hear complaints relating to homestead exemptions pursuant to s. 196.151, F.S.;
- To hear appeals from tax exemptions that have been denied, or disputes pertaining to granted exemptions pursuant to s. 196.011, F.S.; and
- To hear appeals concerning ad valorem tax deferrals and classifications.[11]

Not only can VABs review assessments, exemptions and classifications when a taxpayer petitions for review, but the VAB is also permitted, on its own motion, to review agricultural land, historic property, and high-water recharge land classifications, as well as exemptions granted by the property appraiser.

III. Effect of Proposed Changes:

Section 1 amends s. 193.461, F.S., removing the VAB's authority to review agricultural classifications on its own motion.

The bill also:

- Deletes the requirement that a property appraiser reclassify agricultural property as nonagricultural when the owner requests the property be rezoned as nonagricultural;
- Deletes the rebuttable presumption that property is no longer used for bona fide agricultural purposes when it is sold for three or more times the agricultural assessment.
- Removes the county commission's authority to reclassify agricultural land as nonagricultural when there is contiguous urban development and the board finds that the continued agricultural use of the land will deter the expansion of the community.

Section 2 amends s. 193.503, F.S., removing the VAB's authority to initiate a review of historic property classifications on its own motion.

Section 3 amends s. 193.625, F.S., removing the VAB's authority to initiate a review of high-water recharge land classifications on its own motion.

Section 4 amends s. 196.194, F.S., removing the VAB's authority to initiate a review of property tax exemptions on its own motion.

Section 5 provides that the bill takes effect upon becoming a law and applies retroactively to January 1, 2013.

[9] Section 194.015, F.S.
[10] Section 194.035, F.S. Counties with a population of less than 75,000 may appoint special magistrates, but such is not required.
[11] Section 194.032(1)(a)1.-4., F.S.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, Section 18 of the Florida Constitution, prohibits laws requiring counties or municipalities to spend funds or that limit their ability to raise revenues. Subsection 18(d) provides an applicable exemption for laws determined to have an "insignificant fiscal impact," which means an amount not greater than the average statewide population for the applicable fiscal year times $0.10 or $1.9 million for FY 2012-13.[12] The REC determined that this bill will reduce local property tax revenues by $0.5 million per year. Thus, this bill is exempt from the mandates requirement.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The REC determined that deleting the three statutory requirements directing a property appraiser to reclassify agricultural lands as nonagricultural will reduce local property tax revenues by $0.5 million per year.

B. Private Sector Impact:

The bill may result in more landowners retaining the agricultural classification on their property.

C. Government Sector Impact:

None.

VI. Technical Deficiencies:

None.

[12] Based on the Demographic Estimating Conference's final population estimate for April 1, 2012, which was adopted on November 7, 2012. The Executive Summary can be found at: http://edr.state.fl.us/Content/conferences/population/demographicsummary.pdf.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations April 23, 2013:
The committee substitute:

- Deletes a presumption in current law that agricultural land sold for three or more times the agricultural assessment will no longer be used for agricultural purposes.
- Changes the effective date from January 1, 2012 to January 1, 2013.

B. Amendments:

None.

By Senator Simpson

18-00760-13 20131200__

A bill to be entitled

An act relating to the taxation of property; amending s. 193.461, F.S.; deleting authorization for a value adjustment board upon its own motion to review lands classified by a property appraiser as agricultural or nonagricultural; deleting a requirement that the property appraiser must reclassify as nonagricultural certain lands that have been zoned to a nonagricultural use; deleting authorization for a board of county commissioners to reclassify as nonagricultural certain lands that are contiguous to urban or metropolitan development under specified circumstances; deleting an evidentiary presumption that land is not being used primarily for bone fide agricultural purposes if it is purchased for a certain amount above its agricultural assessment; amending s. 193.503, F.S.; deleting authorization for a value adjustment board upon its own motion to review property granted or denied classification by a property appraiser as historic property that is being used for commercial or certain nonprofit purposes; amending s. 193.625, F.S.; deleting authorization for a value adjustment board upon its own motion to review land granted or denied a high-water recharge classification by a property appraiser; amending s. 196.194, F.S.; deleting authorization for a value adjustment board to review property tax exemptions upon its own motion or motion of the property appraiser and deleting certain notice requirements

18-00760-13 20131200__

relating to the review of such exemptions; providing for retroactive application; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsections (2) and (4) of section 193.461, Florida Statutes, are amended to read:

193.461 Agricultural lands; classification and assessment; mandated eradication or quarantine program.—

(2) Any landowner whose land is denied agricultural classification by the property appraiser may appeal to the value adjustment board. The property appraiser shall notify the landowner in writing of the denial of agricultural classification on or before July 1 of the year for which the application was filed. The notification shall advise the landowner of his or her right to appeal to the value adjustment board and of the filing deadline. ~~The board may also review all lands classified by the property appraiser upon its own motion.~~ The property appraiser shall have available at his or her office a list by ownership of all applications received showing the acreage, the full valuation under s. 193.011, the valuation of the land under the provisions of this section, and whether or not the classification requested was granted.

(4)~~(a)~~ The property appraiser shall reclassify the following lands as nonagricultural:

(a)~~1.~~ Land diverted from an agricultural to a nonagricultural use.

(b)~~2.~~ Land no longer being utilized for agricultural

purposes.

~~3. Land that has been zoned to a nonagricultural use at the request of the owner subsequent to the enactment of this law.~~

~~(b) The board of county commissioners may also reclassify lands classified as agricultural to nonagricultural when there is contiguous urban or metropolitan development and the board of county commissioners finds that the continued use of such lands for agricultural purposes will act as a deterrent to the timely and orderly expansion of the community.~~

~~(c) Sale of land for a purchase price which is three or more times the agricultural assessment placed on the land shall create a presumption that such land is not used primarily for bona fide agricultural purposes. Upon a showing of special circumstances by the landowner demonstrating that the land is to be continued in bona fide agriculture, this presumption may be rebutted.~~

Section 2. Subsection (7) of section 193.503, Florida Statutes, is amended to read:

193.503 Classification and assessment of historic property used for commercial or certain nonprofit purposes.—

(7) Any property owner who is denied classification under this section may appeal to the value adjustment board. The property appraiser shall notify the property owner in writing of the denial of such classification on or before July 1 of the year for which the application was filed. The notification shall advise the property owner of his or her right to appeal to the value adjustment board and of the filing deadline. ~~The board may also review all property classified by the property appraiser upon its own motion.~~ The property appraiser shall have available

at his or her office a list by ownership of all applications received showing the full valuation under s. 193.011, the valuation of the property under the provisions of this section, and whether or not the classification requested was granted.

Section 3. Subsection (2) of section 193.625, Florida Statutes, is amended to read:

193.625 High-water recharge lands; classification and assessment.—

(2) Any landowner whose land is within a county that has a high-water recharge protection tax assessment program and whose land is denied high-water recharge classification by the property appraiser may appeal to the value adjustment board. The property appraiser shall notify the landowner in writing of the denial of high-water recharge classification on or before July 1 of the year for which the application was filed. The notification must advise the landowner of a right to appeal to the value adjustment board and of the filing deadline. ~~The board may also review all lands classified by the property appraiser upon its own motion.~~ The property appraiser shall have available at her or his office a list by ownership of all applications received showing the acreage, the full valuation under s. 193.011, the valuation of the land under the provisions of this section, and whether or not the classification requested was granted.

Section 4. Subsection (1) of section 196.194, Florida Statutes, is amended to read:

196.194 Value adjustment board; notice; hearings; appearance before the board.—

(1) The value adjustment board shall hear disputed or

appealed applications for exemption and shall grant such exemptions in whole or in part in accordance with criteria set forth in this chapter. ~~It may review exemptions on its own motion or upon motion of the property appraiser. Review of an exemption application upon motion of the board shall not be held until the applicant has had at least 5 calendar days' notice of the intent of the board to review the application.~~

Section 5. This act shall take effect upon becoming a law and apply retroactively to January 1, 2012.

5.				
6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

PCS/SB 1246 provides that a consolidated government that has entered into an interlocal agreement to provide police protection services to another incorporated municipality is eligible to receive the premium taxes reported for the other municipality under certain circumstances. The bill authorizes the municipality receiving the police protection services to enact an ordinance levying the premium tax as provided by law and to distribute those premium tax revenues reported for the municipality to the consolidated government as long as the interlocal agreement is in effect.

The Revenue Estimating Conference has estimated that this bill has an insignificant negative fiscal impact on the state General Revenue Fund and a corresponding insignificant positive fiscal impact on local government revenues by shifting these tax revenues from the state to the local governments.

This bill substantially amends sections 185.03 and 185.08, Florida Statutes.

II. Present Situation:

Municipal Police Pensions

Chapter 185, F.S., provides funding for municipal police officers' pension plans. It provides for a "uniform retirement system" with defined benefit retirement plans for municipal police officers and sets standards for the operation and funding of these pension systems.[1] Each municipality with a municipal police officers' retirement trust fund is authorized to assess an excise tax of .85 percent of the gross amount of receipts of premiums from policyholders on casualty insurance policies covering property within its corporate limits.[2] Revenues from this excise tax are one of the funding sources for police officers' pension plans. Currently, a municipality is eligible to receive state premium taxes (or excise taxes) only on those premiums for casualty insurance policies covering property within its municipal limits. A municipality that provides police protection services outside of its municipal limits through an interlocal agreement is not eligible to receive premium tax revenue for casualty policies covering the property where the service is being provided.[3]

In order to qualify for the premium taxes, a police officers' pension plan must meet certain requirements in ch. 185, F.S.[4] The Department of Management Services (DMS) oversees and monitors these pension plans; however, day-to-day operational control rests with local boards of trustees.[5] Any premium taxes collected by and distributed to a municipality for funding police officers' pension plans have a negative impact on the General Revenue Fund because those premium taxes paid by an insurance company under ch. 185, F.S., to a municipality are allowed as a credit against premium taxes the insurance company must pay to the state under s. 624.509, F.S.

Chapter 185, F.S., applies only to municipalities organized and established pursuant to the laws of the state, and does not apply to the unincorporated areas of any county or counties or to any governmental entity whose police officers are eligible to participate in the Florida Retirement System.

Firefighter Pensions

Under current law, a municipality may receive another municipality's premium tax revenues (associated with the tax on property insurance premiums) when there is an interlocal agreement in place to provide fire protection services.[6] The municipality receiving fire services must levy the tax authorized by ch. 175, F.S., and copies of the interlocal agreement and the municipal ordinance levying the tax must be provided to the Division of Retirement within DMS.

[1] Section 185.01, F.S.
[2] Section 185.08, F.S.
[3] *Id.*
[4] *See* ss. 185.10, 185.085, F.S.
[5] Section 185.05, F.S.
[6] Section 175.041, F.S.

Consolidation

Consolidation combines city and county governments so that the boundaries of the county and an affected city or cities become the same. Consolidation can be total or partial. Total consolidation occurs when all independent governmental units within a county are assimilated into the consolidated government. When some of the governments remain independent, the consolidation is partial. Nationally, few successful city-county consolidations exist. According to the National Association of Counties, only 31 of the 3,066 county governments in the United States are combined city/county governments.

Section 3, Article VIII, of the Florida Constitution, reads as follows:

> Consolidation. —The government of a county and the government of one or more municipalities located therein may be consolidated into a single government which may exercise any and all powers of the county and the several municipalities. The consolidation plan may be proposed only by special law, which shall become effective if approved by vote of the electors of the county, or of the county and municipalities affected. Consolidation shall not extend the territorial scope of taxation for the payment of pre-existing debt except to areas whose residents receive a benefit from the facility or service for which the indebtedness was incurred.

Prior to 1933, the Florida Constitution of 1885 was silent on the subject of consolidation. The 1933 Legislature passed a constitutional amendment specifically declaring its own power to establish a municipal corporation consolidating the governments of Duval County and any of the municipalities within its boundaries, subject to referendum approval of the affected voters. The electorate of Florida adopted this amendment in 1934.

The voters of the City of Jacksonville and Duval County did not adopt a municipal charter pursuant to this constitutional provision until 1967, and to date, only Duval County and the City of Jacksonville have taken advantage of the specific constitutional authority to consolidate. Section 9, of Article VIII, of the Constitution of 1885, establishes the Jacksonville/Duval County consolidated charter. Section 6(e), Art. VIII of the State Constitution provides that Section 9, of Article VIII, of the Constitution of 1885 remained in full force and effect after the adoption of the 1968 revision. The municipalities of Atlantic Beach, Baldwin, Jacksonville Beach, and Neptune Beach are not consolidated with Duval County.

III. Effect of Proposed Changes:

Sections 1 and 2 amend ss. 185.03 and 185.08, F.S., respectively, to allow a single consolidated government consisting of a former county and one or more municipalities, consolidated pursuant to s. 3 or s. 6(e), Art. VIII of the State Constitution, to receive the distribution of premium tax revenues related to casualty insurance premiums covering property within a non-consolidated municipality with the county's boundaries. The consolidated government must notify the Division of Retirement of the Department of Management Services (division) when it has entered into an interlocal agreement to provide police services to a municipality within its

boundaries. The municipality may enact an ordinance levying the tax as provided in s. 185.08, F.S. Upon being provided copies of the interlocal agreement and the municipal ordinance levying the tax, the division may distribute any premium taxes reported for the municipality to the consolidated government as long as the interlocal agreement is in effect.

Section 3 provides an effective date of July 1, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

This bill does not appear to require counties or municipalities to spend funds or take action requiring the expenditure of funds; reduce the authority that counties or municipalities have to raise revenues in the aggregate; or reduce the percentage of state tax shared with counties or municipalities.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference has estimated that this bill has an insignificant negative fiscal impact on the state General Revenue Fund and a corresponding insignificant positive fiscal impact on local government revenues by shifting these tax revenues from the state to the local governments.

B. Private Sector Impact:

None. Although the bill authorizes a municipality to enact a tax on insurance premiums, the municipal taxes are fully credited against the state taxes on insurance premiums.

C. Government Sector Impact:

The Department of Revenue (DOR) will be notified by the Division of Retirement (within the Department of Management Services) of any additional taxing jurisdiction as a result of the language of this bill. DOR will need to add those jurisdictions to the insurance premium tax form in the annual form process. The form will be adopted in a rule in the annual form adoption process. Additionally, this bill will require changes to the Insurance Premium Database to determine situs of premiums for allocation purposes.

VI. Technical Deficiencies:

None.

VII. Related Issues:

In 2005, the Legislature made similar changes to ch. 175, F.S., relating to the Firefighters' Pension Trust Fund. Sections 175.041 and 175.101, F.S., allow a municipality to receive excise tax monies for firefighter pension plans from another municipality if there is an interlocal agreement in place to provide fire protection services.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS by Appropriations Subcommittee on Finance and Tax on April 17, 2013
The committee substitute amends the bill so that the language in s. 185.08, F.S., parallels a similar provision in s. 175.101, F.S.

B. Amendments:

None.

877596

576-04554-13

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Finance and Tax)

A bill to be entitled

An act relating to public retirement plans; amending ss. 185.03 and 185.08, F.S.; specifying applicability of ch. 185, F.S., to certain consolidated governments; providing that a consolidated government that has entered into an interlocal agreement to provide police protection services to a municipality within its boundaries is eligible to receive the premium taxes reported for the municipality under certain circumstances; authorizing the municipality receiving the police protection services to enact an ordinance levying the tax as provided by law; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (2) of section 185.03, Florida Statutes, is amended to read:

185.03 Municipal police officers' retirement trust funds; creation; applicability of provisions; participation by public safety officers.—For any municipality, chapter plan, local law municipality, or local law plan under this chapter:

(2)(a) ~~The provisions of~~ This chapter applies ~~shall apply~~ only to municipalities organized and established pursuant to the laws of the state~~,~~ and does ~~said provisions shall~~ not apply to the unincorporated areas of a ~~any~~ county or ~~counties nor shall the provisions hereof apply~~ to any governmental entity whose

877596

576-04554-13

police officers are eligible to participate in the Florida Retirement System.

(b) With respect to the distribution of premium taxes, a single consolidated government consisting of a former county and one or more municipalities, consolidated pursuant to s. 3 or s. 6(e), Art. VIII of the State Constitution, is also eligible to participate under this chapter. The consolidated government shall notify the division when it has entered into an interlocal agreement to provide police services to a municipality within its boundaries. The municipality may enact an ordinance levying the tax as provided in s. 185.08. Upon being provided copies of the interlocal agreement and the municipal ordinance levying the tax, the division may distribute any premium taxes reported for the municipality to the consolidated government as long as the interlocal agreement is in effect.

Section 2. Subsection (1) of section 185.08, Florida Statutes, is amended to read:

185.08 State excise tax on casualty insurance premiums authorized; procedure.—For any municipality, chapter plan, local law municipality, or local law plan under this chapter:

(1)(a) Each incorporated municipality in this state described and classified in s. 185.03, as well as each other city or town of this state which on July 31, 1953, had a lawfully established municipal police officers' retirement trust fund or city fund, by whatever name known, providing pension or relief benefits to police officers as provided under this chapter, may assess and impose on every insurance company, corporation, or other insurer now engaged in or carrying on, or who shall hereafter engage in or carry on, the business of

877596

576-04554-13

casualty insurance as shown by records of the Office of Insurance Regulation of the Financial Services Commission, an excise tax in addition to any lawful license or excise tax now levied by each of the ~~said~~ municipalities, respectively, amounting to .85 percent of the gross amount of receipts of premiums from policyholders on all premiums collected on casualty insurance policies covering property within the corporate limits of such municipalities, respectively.

(b) This section also applies to a municipality that consists of a single consolidated government, composed of a former county and one or more municipalities, which was consolidated pursuant to s. 3 or s. 6(e), Art. VIII of the State Constitution, as provided in s. 185.03(2)(b), and to casualty insurance policies covering properties within the boundaries of the consolidated government, regardless of whether the properties are located within one or more separately incorporated areas within the consolidated government, if the properties are being provided police protection services by the consolidated government.

Section 3. This act shall take effect July 1, 2013.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 1246

4.	Fournier	Hansen	AP	**Fav/CS**
5.				
6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/SB 1246 provides that a consolidated government that has entered into an interlocal agreement to provide police protection services to another incorporated municipality is eligible to receive the premium taxes reported for the other municipality under certain circumstances. The bill authorizes the municipality receiving the police protection services to enact an ordinance levying the premium tax as provided by law and to distribute those premium tax revenues reported for the municipality to the consolidated government as long as the interlocal agreement is in effect.

The Revenue Estimating Conference has estimated that this bill has an insignificant negative fiscal impact on the state General Revenue Fund and a corresponding insignificant positive fiscal impact on local government revenues by shifting these tax revenues from the state to the local governments.

This bill substantially amends sections 185.03 and 185.08, Florida Statutes.

II. Present Situation:

Municipal Police Pensions

Chapter 185, F.S., provides funding for municipal police officers' pension plans. It provides for a "uniform retirement system" with defined benefit retirement plans for municipal police officers and sets standards for the operation and funding of these pension systems.[1] Each municipality with a municipal police officers' retirement trust fund is authorized to assess an excise tax of .85 percent of the gross amount of receipts of premiums from policyholders on casualty insurance policies covering property within its corporate limits.[2] Revenues from this excise tax are one of the funding sources for police officers' pension plans. Currently, a municipality is eligible to receive state premium taxes (or excise taxes) only on those premiums for casualty insurance policies covering property within its municipal limits. A municipality that provides police protection services outside of its municipal limits through an interlocal agreement is not eligible to receive premium tax revenue for casualty policies covering the property where the service is being provided.[3]

In order to qualify for the premium taxes, a police officers' pension plan must meet certain requirements in ch. 185, F.S.[4] The Department of Management Services (DMS) oversees and monitors these pension plans; however, day-to-day operational control rests with local boards of trustees.[5] Any premium taxes collected by and distributed to a municipality for funding police officers' pension plans have a negative impact on the General Revenue Fund because those premium taxes paid by an insurance company under ch. 185, F.S., to a municipality are allowed as a credit against premium taxes the insurance company must pay to the state under s. 624.509, F.S.

Chapter 185, F.S., applies only to municipalities organized and established pursuant to the laws of the state, and does not apply to the unincorporated areas of any county or counties or to any governmental entity whose police officers are eligible to participate in the Florida Retirement System.

Firefighter Pensions

Under current law, a municipality may receive another municipality's premium tax revenues (associated with the tax on property insurance premiums) when there is an interlocal agreement in place to provide fire protection services.[6] The municipality receiving fire services must levy the tax authorized by ch. 175, F.S., and copies of the interlocal agreement and the municipal ordinance levying the tax must be provided to the Division of Retirement within DMS.

[2] Section 185.08, F.S.
[3] *Id.*
[4] *See* ss. 185.10, 185.085, F.S.
[5] Section 185.05, F.S.
[6] Section 175.041, F.S.

Consolidation

Consolidation combines city and county governments so that the boundaries of the county and an affected city or cities become the same. Consolidation can be total or partial. Total consolidation occurs when all independent governmental units within a county are assimilated into the consolidated government. When some of the governments remain independent, the consolidation is partial. Nationally, few successful city-county consolidations exist. According to the National Association of Counties, only 31 of the 3,066 county governments in the United States are combined city/county governments.

Section 3, Article VIII, of the Florida Constitution, reads as follows:

> Consolidation. —The government of a county and the government of one or more municipalities located therein may be consolidated into a single government which may exercise any and all powers of the county and the several municipalities. The consolidation plan may be proposed only by special law, which shall become effective if approved by vote of the electors of the county, or of the county and municipalities affected. Consolidation shall not extend the territorial scope of taxation for the payment of pre-existing debt except to areas whose residents receive a benefit from the facility or service for which the indebtedness was incurred.

Prior to 1933, the Florida Constitution of 1885 was silent on the subject of consolidation. The 1933 Legislature passed a constitutional amendment specifically declaring its own power to establish a municipal corporation consolidating the governments of Duval County and any of the municipalities within its boundaries, subject to referendum approval of the affected voters. The electorate of Florida adopted this amendment in 1934.

The voters of the City of Jacksonville and Duval County did not adopt a municipal charter pursuant to this constitutional provision until 1967, and to date, only Duval County and the City of Jacksonville have taken advantage of the specific constitutional authority to consolidate. Section 9, of Article VIII, of the Constitution of 1885, establishes the Jacksonville/Duval County consolidated charter. Section 6(e), Art. VIII of the State Constitution provides that Section 9, of Article VIII, of the Constitution of 1885 remained in full force and effect after the adoption of the 1968 revision. The municipalities of Atlantic Beach, Baldwin, Jacksonville Beach, and Neptune Beach are not consolidated with Duval County.

III. Effect of Proposed Changes:

Sections 1 and 2 amend ss. 185.03 and 185.08, F.S., respectively, to allow a single consolidated government consisting of a former county and one or more municipalities, consolidated pursuant to s. 3 or s. 6(e), Art. VIII of the State Constitution, to receive the distribution of premium tax revenues related to casualty insurance premiums covering property within a non-consolidated municipality with the county's boundaries. The consolidated government must notify the Division of Retirement of the Department of Management Services (division) when it has entered into an interlocal agreement to provide police services to a municipality within its

boundaries. The municipality may enact an ordinance levying the tax as provided in s. 185.08, F.S. Upon being provided copies of the interlocal agreement and the municipal ordinance levying the tax, the division may distribute any premium taxes reported for the municipality to the consolidated government as long as the interlocal agreement is in effect.

Section 3 provides an effective date of July 1, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

This bill does not appear to require counties or municipalities to spend funds or take action requiring the expenditure of funds; reduce the authority that counties or municipalities have to raise revenues in the aggregate; or reduce the percentage of state tax shared with counties or municipalities.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference has estimated that this bill has an insignificant negative fiscal impact on the state General Revenue Fund and a corresponding insignificant positive fiscal impact on local government revenues by shifting these tax revenues from the state to the local governments.

B. Private Sector Impact:

None. Although the bill authorizes a municipality to enact a tax on insurance premiums, the municipal taxes are fully credited against the state taxes on insurance premiums.

C. Government Sector Impact:

The Department of Revenue (DOR) will be notified by the Division of Retirement (within the Department of Management Services) of any additional taxing jurisdiction as a result of the language of this bill. DOR will need to add those jurisdictions to the insurance premium tax form in the annual form process. The form will be adopted in a rule in the annual form adoption process. Additionally, this bill will require changes to the Insurance Premium Database to determine situs of premiums for allocation purposes.

VI. Technical Deficiencies:

None.

VII. Related Issues:

In 2005, the Legislature made similar changes to ch. 175, F.S., relating to the Firefighters' Pension Trust Fund. Sections 175.041 and 175.101, F.S., allow a municipality to receive excise tax monies for firefighter pension plans from another municipality if there is an interlocal agreement in place to provide fire protection services.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations on April 23, 2013
The committee substitute amends the bill so that the language in s. 185.08, F.S., parallels a similar provision in s. 175.101, F.S.

B. Amendments:

None.

By Senator Bean

4-00935-13 20131246__

A bill to be entitled

An act relating to public retirement plans; amending ss. 185.03 and 185.08, F.S.; specifying applicability of ch. 185, F.S., to certain consolidated governments; providing that a consolidated government that has entered into an interlocal agreement to provide police protection services to a municipality within its boundaries is eligible to receive the premium taxes reported for the municipality under certain circumstances; authorizing the municipality receiving the police protection services to enact an ordinance levying the tax as provided by law; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (2) of section 185.03, Florida Statutes, is amended to read:

185.03 Municipal police officers' retirement trust funds; creation; applicability of provisions; participation by public safety officers.—For any municipality, chapter plan, local law municipality, or local law plan under this chapter:

(2)(a) ~~The provisions of~~ This chapter applies ~~shall apply~~ only to municipalities organized and established pursuant to the laws of the state~~,~~ and does ~~said provisions shall~~ not apply to the unincorporated areas of a ~~any~~ county or ~~counties nor shall the provisions hereof apply~~ to any governmental entity whose police officers are eligible to participate in the Florida Retirement System.

4-00935-13 20131246__

(b) With respect to the distribution of premium taxes, a single consolidated government consisting of a former county and one or more municipalities, consolidated pursuant to s. 3 or s. 6(e), Art. VIII of the State Constitution, is also eligible to participate under this chapter. The consolidated government shall notify the division when it has entered into an interlocal agreement to provide police services to a municipality within its boundaries. The municipality may enact an ordinance levying the tax as provided in s. 185.08. Upon being provided copies of the interlocal agreement and the municipal ordinance levying the tax, the division may distribute any premium taxes reported for the municipality to the consolidated government as long as the interlocal agreement is in effect.

Section 2. Subsection (1) of section 185.08, Florida Statutes, is amended to read:

185.08 State excise tax on casualty insurance premiums authorized; procedure.—For any municipality, chapter plan, local law municipality, or local law plan under this chapter:

(1)(a) Each incorporated municipality in this state described and classified in s. 185.03, as well as each other city or town of this state which on July 31, 1953, had a lawfully established municipal police officers' retirement trust fund or city fund, by whatever name known, providing pension or relief benefits to police officers as provided under this chapter, may assess and impose on every insurance company, corporation, or other insurer now engaged in or carrying on, or who shall hereafter engage in or carry on, the business of casualty insurance as shown by records of the Office of Insurance Regulation of the Financial Services Commission, an

excise tax in addition to any lawful license or excise tax now levied by each of the ~~said~~ municipalities, respectively, amounting to .85 percent of the gross amount of receipts of premiums from policyholders on all premiums collected on casualty insurance policies covering property within the corporate limits of such municipalities, respectively.

(b) With respect to the distribution of premium taxes, a single consolidated government consisting of a former county and one or more municipalities, consolidated pursuant to s. 3 or s. 6(e), Art. VIII of the State Constitution, is also eligible to participate under this chapter. The consolidated government shall notify the division when it has entered into an interlocal agreement to provide police services to a municipality within its boundaries. The municipality may enact an ordinance levying the tax as provided in this section. Upon being provided copies of the interlocal agreement and the municipal ordinance levying the tax, the division may distribute any premium taxes reported for the municipality to the consolidated government as long as the interlocal agreement is in effect.

Section 3. This act shall take effect July 1, 2013.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/SB 1280 (458308)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Finance and Tax) and Senator Sachs
SUBJECT:	Tax Dealer Collection Allowances
DATE:	April 21, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	McLaughlin	Klebacha	ED	**Favorable**
2.	Cote	Diez-Arguelles	AFT	**Fav/CS**
3.	Cote	Hansen	AP	**Pre-meeting**
4.				
5.				
6.				

I. Summary:

PCS/SB 1280 revises the process through which sales tax dealers forgo the sales tax collection allowance and direct the collection allowance amount to be transferred into the Educational Enhancement Trust Fund. The proposed change would keep the election for the remainder of the calendar year unless the dealer indicates termination of the election by filing a return that deducts the collection allowance from the amount of tax due.

This bill has no impact on state or local revenues.

This bill provides an effective date of January 1, 2014.

This bill amends section 212.12, Florida Statutes.

II. Present Situation:

Sales and Use Taxes

Chapter 212, F.S., contains the state's statutory provisions authorizing the levying and collection of Florida's sales and use tax, as well as the exemptions and credits applicable to certain items or uses under specified circumstances. Florida imposes a six percent tax on tangible personal property sold, used, consumed, distributed, stored for use or consumption, rented, or leased in Florida.[1]

[1] *See* ss. 212.05 and 212.06, F.S.

Section 212.12(1)(d), F.S., allows sales tax dealers who are entitled to a collection allowance to direct the amount of the allowance be deposited into the Educational Enhancement Trust Fund (EETF) when filing a sales tax return with the Florida Department of Revenue. The return must be timely filed for the dealer to make the election.[2] If the return is filed late, or the election is not made on the return when filed, the dealer is prohibited from making the election for that reporting period.[3] The dealer must make an election for each return filed.

The Educational Enhancement Trust Fund (EETF)

The EETF was established to administer the proceeds from lottery sales and the slot machine tax revenues.[4] The first lottery revenues transferred to the EETF in each fiscal year are secured for debt service payable on the bonds issued by the state for the construction, maintenance, or repair of schools under the Classrooms First Program (the 1997 School Capital Outlay Bond Program) and the Classrooms for Kids Program (the 2003 Class Size Reduction Lottery Revenue Program).[5]

The revenue remaining in the EETF after providing for debt service obligations is appropriated to benefit public education, at the discretion of the Legislature.[6] The largest appropriation from the Educational Enhancement Trust Fund[7] is for the Bright Futures Scholarship Program, which is a merit-based scholarship program designed to provide college scholarships to students who achieve certain academic levels in high school.[8]

The next largest appropriations are the Florida School Recognition Program, which rewards individual public K-12 schools that sustain high performance or demonstrate exemplary improvement[9] and the class size reduction appropriation, which provides operating funds to school districts for the purpose of reducing class sizes.[10]

Public educational programs and purposes funded by the EETF may include, but are not limited to: endowments, scholarships, matching funds, direct grants, research and economic development related to education, salary enhancement, contracts with independent institutions to conduct programs consistent with the state master plan for postsecondary education, and other educational programs or purposes deemed desirable by the Legislature.[11]

[2] s. 212.12(1)(a)2.b., F.S.
[3] s. 212.12(1)(d)1, F.S.
[4] *See* ss. 24.121(2) and 551.106(2)(b), F.S.
[5] *See* ss. 24.121(2), 1013.68, 1013.70, 1013.735, and 1013.737, F.S.
[6] s. 24.121(2), F.S.

[8] *See* ss. 1009.53-1009.538, F.S.
[9] s. 1008.36, F.S.
[10] *See* ss. 1003.03 and 1011.685, F.S.
[11] s. 24.121(5)(a), F.S.

III. Effect of Proposed Changes:

The bill provides that the sales tax dealer's election to direct the amount of the allowance deposited into the EETF will remain the dealer's election for subsequent periods of the calendar year unless the dealer indicates termination of the election by filing a return that deducts the collection allowance from the amount of tax due. This would allow the sales tax dealer to make one election in a calendar year instead of having to make the election on each return.

The bill is effective January 1, 2014 and applies to sales and use tax returns due on or after February 1, 2014.

IV. Constitutional Issues:

None.

458308

576-04172-13

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Finance Tax)

A bill to be entitled

An act relating to tax dealer collection allowances; amending s. 212.12, F.S.; revising the process for dealers to elect to forgo the sales tax collection allowance and direct that the collection allowance amount be transferred into the Educational Enhancement Trust Fund; providing applicability; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (d) of subsection (1) of section 212.12, Florida Statutes, is amended to read:

212.12 Dealer's credit for collecting tax; penalties for noncompliance; powers of Department of Revenue in dealing with delinquents; brackets applicable to taxable transactions; records required.—

(1)

(d)1. A dealer entitled to the collection allowance provided in this section may elect to forgo ~~forego~~ the collection allowance and direct that the amount be transferred into the Educational Enhancement Trust Fund. Such an election must be made with the timely filing of a return, remains in effect for returns filed for subsequent reporting periods of the calendar year unless the dealer indicates termination of the election by filing a return that deducts the collection allowance from the amount of tax due, and may not be rescinded

458308

576-04172-13

for a reporting period once the return for that reporting period is filed ~~made~~. If a dealer who makes such an election files a delinquent return, underpays the tax, or files an incomplete return, the amount transferred into the Educational Enhancement Trust Fund shall be the amount of the collection allowance remaining after resolution of liability for all of the tax, interest, and penalty due on that return or underpayment of tax. The Department of Education shall distribute the remaining amount from the trust fund to the school districts that have adopted resolutions stating that those funds will be used to ensure that up-to-date technology is purchased for the classrooms in the district and that teachers are trained in the use of that technology. Revenues collected in districts that do not adopt such a resolution shall be equally distributed to districts that have adopted such resolutions.

2. This paragraph applies to all taxes, surtaxes, and any local option taxes administered under this chapter and remitted directly to the department. This paragraph does not apply to a locally imposed and self-administered convention development tax, tourist development tax, or tourist impact tax administered under this chapter.

3. Revenues from the dealer-collection allowances shall be transferred quarterly from the General Revenue Fund to the Educational Enhancement Trust Fund. The Department of Revenue shall provide to the Department of Education quarterly information about such revenues by county to which the collection allowance was attributed.

Notwithstanding any provision of chapter 120 to the contrary,

458308

576-04172-13

the Department of Revenue may adopt rules to carry out the amendment made by chapter 2006-52, Laws of Florida, to this section.

Section 2. The amendments to s. 212.12, Florida Statutes, made by this act apply to sales and use tax returns due on or after February 1, 2014.

Section 3. This act shall take effect January 1, 2014.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 1280
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Finance and Tax) and Senator Sachs
SUBJECT:	Tax Dealer Collection Allowances
DATE:	April 25, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	McLaughlin	Klebacha	ED	**Favorable**
2.	Cote	Diez-Arguelles	AFT	**Fav/CS**

4.				
5.				
6.				

I. Summary:

CS/SB 1280 revises the process through which sales tax dealers forgo the sales tax collection allowance and direct the collection allowance amount to be transferred into the Educational Enhancement Trust Fund. The proposed change would keep the election for the remainder of the calendar year unless the dealer indicates termination of the election by filing a return that deducts the collection allowance from the amount of tax due.

This bill has no impact on state or local revenues.

This bill provides an effective date of January 1, 2014.

This bill amends section 212.12, Florida Statutes.

II. Present Situation:

Sales and Use Taxes

Chapter 212, F.S., contains the state's statutory provisions authorizing the levying and collection of Florida's sales and use tax, as well as the exemptions and credits applicable to certain items or uses under specified circumstances. Florida imposes a six percent tax on tangible personal property sold, used, consumed, distributed, stored for use or consumption, rented, or leased in Florida.[1]

[1] *See* ss. 212.05 and 212.06, F.S.

Section 212.12(1)(d), F.S., allows sales tax dealers who are entitled to a collection allowance to direct the amount of the allowance be deposited into the Educational Enhancement Trust Fund (EETF) when filing a sales tax return with the Florida Department of Revenue. The return must be timely filed for the dealer to make the election.[2] If the return is filed late, or the election is not made on the return when filed, the dealer is prohibited from making the election for that reporting period.[3] The dealer must make an election for each return filed.

The Educational Enhancement Trust Fund (EETF)

The EETF was established to administer the proceeds from lottery sales and the slot machine tax revenues.[4] The first lottery revenues transferred to the EETF in each fiscal year are secured for debt service payable on the bonds issued by the state for the construction, maintenance, or repair of schools under the Classrooms First Program (the 1997 School Capital Outlay Bond Program) and the Classrooms for Kids Program (the 2003 Class Size Reduction Lottery Revenue Program).[5]

The revenue remaining in the EETF after providing for debt service obligations is appropriated to benefit public education, at the discretion of the Legislature.[6] The largest appropriation from the Educational Enhancement Trust Fund[7] is for the Bright Futures Scholarship Program, which is a merit-based scholarship program designed to provide college scholarships to students who achieve certain academic levels in high school.[8]

The next largest appropriations are the Florida School Recognition Program, which rewards individual public K-12 schools that sustain high performance or demonstrate exemplary improvement[9] and the class size reduction appropriation, which provides operating funds to school districts for the purpose of reducing class sizes.[10]

Public educational programs and purposes funded by the EETF may include, but are not limited to: endowments, scholarships, matching funds, direct grants, research and economic development related to education, salary enhancement, contracts with independent institutions to conduct programs consistent with the state master plan for postsecondary education, and other educational programs or purposes deemed desirable by the Legislature.[11]

By Senator Sachs

34-00916-13 20131280__

A bill to be entitled

An act relating to tax dealer collection allowances; amending s. 212.12, F.S.; revising the process for dealers to elect to forgo the sales tax collection allowance and direct that the collection allowance amount be transferred into the Educational Enhancement Trust Fund; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (d) of subsection (1) of section 212.12, Florida Statutes, is amended to read:

212.12 Dealer's credit for collecting tax; penalties for noncompliance; powers of Department of Revenue in dealing with delinquents; brackets applicable to taxable transactions; records required.—

(1)

(d)1. A dealer entitled to the collection allowance provided in this section may elect to forgo ~~forego~~ the collection allowance and direct that the amount be transferred into the Educational Enhancement Trust Fund. Such an election must be made with the timely filing of a return, remains in effect for returns filed for subsequent reporting periods of the calendar year unless the dealer indicates termination of the election by filing a return that deducts the collection allowance from the amount of tax due, and may not be rescinded for a reporting period once the return for that reporting period is filed ~~made~~. If a dealer who makes such an election files a delinquent return, underpays the tax, or files an incomplete

34-00916-13 20131280__

return, the amount transferred into the Educational Enhancement Trust Fund shall be the amount of the collection allowance remaining after resolution of liability for all of the tax, interest, and penalty due on that return or underpayment of tax. The Department of Education shall distribute the remaining amount from the trust fund to the school districts that have adopted resolutions stating that those funds will be used to ensure that up-to-date technology is purchased for the classrooms in the district and that teachers are trained in the use of that technology. Revenues collected in districts that do not adopt such a resolution shall be equally distributed to districts that have adopted such resolutions.

2. This paragraph applies to all taxes, surtaxes, and any local option taxes administered under this chapter and remitted directly to the department. This paragraph does not apply to a locally imposed and self-administered convention development tax, tourist development tax, or tourist impact tax administered under this chapter.

3. Revenues from the dealer-collection allowances shall be transferred quarterly from the General Revenue Fund to the Educational Enhancement Trust Fund. The Department of Revenue shall provide to the Department of Education quarterly information about such revenues by county to which the collection allowance was attributed.

Notwithstanding any provision of chapter 120 to the contrary, the Department of Revenue may adopt rules to carry out the amendment made by chapter 2006-52, Laws of Florida, to this section.

Section 2. This act shall take effect July 1, 2013.

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/SB 1350 conforms Florida law concerning the sentencing of juvenile offenders to the requirements of the Eighth Amendment as set forth in recent opinions of the United States Supreme Court. It provides that a juvenile offender who is convicted of murder may be sentenced to life imprisonment only after a mandatory hearing at which the judge considers specified factors relating to the offender's age and attendant circumstances. The bill also limits the maximum sentence for a juvenile offender who does not commit homicide to a term of not more than 50 years.

The bill has an insignificant fiscal impact. The Criminal Justice Impact Conference met on March 21, 2013, and determined the bill has insignificant impact on prison beds.

This bill has an effective date of July 1, 2013.

This bill substantially amends section 775.082, Florida Statutes.

II. Present Situation:

In recent years, the U.S. Supreme Court has issued several opinions addressing the application of the Eighth Amendment's prohibition against cruel and unusual punishment in relation to the punishment of juvenile offenders.[1] The first of these was *Roper v. Simmons*, 543 U. S. 551 (2005), in which the Court found that juvenile offenders cannot be subject to the death penalty for any offense. More recently, the Court expanded constitutional doctrine regarding punishment of juvenile offenders in *Graham v. Florida*, 130 S.Ct. 2011 (2010) and *Miller v. Alabama*, 132 S.Ct. 2455 (2012).

Graham v. Florida

In *Graham*, the Court held that a juvenile offender cannot be sentenced to life in prison without the possibility of parole for any offense other than a homicide. More specifically, the Court found that if a non-homicide juvenile offender is sentenced to life in prison, the state must "provide him or her with some realistic opportunity to obtain release before the end of that term."[2] Because Florida has abolished parole[3] and the Court deems the possibility of executive clemency to be remote,[4] currently a juvenile offender in Florida cannot be given a life sentence for a non-homicide offense.

Graham applies retroactively to previously sentenced offenders because it established a fundamental constitutional right.[5] Therefore, any juvenile offender serving a life sentence for a non-homicide offense that was committed after parole eligibility was eliminated is entitled to be resentenced to a term less than life.

The Supreme Court did not give any guidance as to the maximum permissible sentence for a non-homicide juvenile offender other than to exclude the possibility of life without parole. This has led to different results among the circuits in reviewing sentences for a lengthy term of years. The First Circuit Court of Appeals recognizes that a lengthy term of years is a *de facto* life sentence if it exceeds the juvenile offender's life expectancy.[6] On the other hand, the Fourth and

---

[1] The term "juvenile offender" refers to an offender who was under 18 years of age at the time of committing the offense for which he or she was sentenced. Most crimes committed by juveniles are dealt with through delinquency proceedings as set forth in ch. 985, F.S. However, the law provides a mechanism for juveniles to be tried and handled as adults. A juvenile who commits a crime while 13 years old or younger may only be tried as an adult if a grand jury indictment is returned. A juvenile who is older than 13 may be tried as an adult for certain felony offenses if a grand jury indictment is returned, if juvenile court jurisdiction is waived and the case is transferred for prosecution as an adult pursuant to s. 985.556, F.S., or if the state attorney direct files an information in adult court pursuant to s. 985.557, F.S. Regardless of age, s. 985.58, F.S., requires a grand jury indictment to try a juvenile as an adult for an offense that is punishable by death or life imprisonment.

[2] *See Graham* at 2034

[3] Parole was abolished in 1983 for all non-capital felonies committed on or after October 1, 1983, and was completely abolished in 1995 for any offense committed on or after October 1, 1995.

[4] *Graham* at 2027

[5] *See, e.g.,*

[6] *Adams v. State*, --- So.3d ---, 37 Fla.L.Weekly D1865 (Fla. 1st DCA 2012). The First District Court of Appeals has struck down sentences of 60 years (*Adams)* and 80 years (*Floyd v. State*, 87 So.3d 45 (Fla. 1st DCA 2012)), while approving sentences of 50 years (*Thomas v. State*, 78 So.3d 644 (Fla. 1st DCA 2011)) and 70 years (*Gridine v. State*, 89 So.3d 909 (Fla. 1st DCA 2011)).

Fifth Circuit Courts of Appeal have strictly construed *Graham* to apply only to life sentences and not to affect sentences for a lengthy term of years.[7]

Miller v. Alabama

In *Miller*, the Court held that juvenile offenders who commit homicide cannot be sentenced to life in prison without the possibility of parole as the result of a mandatory sentencing scheme. The Court did not find that the Eighth Amendment prohibits sentencing a juvenile murderer to life without parole, but rather that individualized consideration of factors related to the offender's age must be considered before a life without parole sentence can be imposed. The Court also indicated that it expects that few juvenile offenders will be found to merit life without parole sentences.

Section 775.082, F.S., provides that the only permissible punishments for a capital offense are the death penalty or life imprisonment. As the result of the Court's holdings in *Roper* (invalidating the death penalty for juvenile offenders) and *Miller*, there is currently no statutory punishment for a juvenile who commits capital murder.

The majority opinion in *Miller* noted that mandatory life-without-parole sentences "preclude a sentencer from taking account of an offender's age and the wealth of characteristics and circumstances attendant to it."[8] Although the Court did not require consideration of specific factors, it highlighted the following considerations:

> Mandatory life without parole for a juvenile precludes consideration of his chronological age and its hallmark features—among them, immaturity, impetuosity, and failure to appreciate risks and consequences. It prevents taking into account the family and home environment that surrounds him—and from which he cannot usually extricate himself—no matter how brutal or dysfunctional. It neglects the circumstances of the homicide offense, including the extent of his participation in the conduct and the way familial and peer pressures may have affected him. Indeed, it ignores that he might have been charged and convicted of a lesser offense if not for incompetencies associated with youth—for example, his inability to deal with police officers or prosecutors (including on a plea agreement) or his incapacity to assist his own attorneys. See, *e.g.*, *Graham*, 560 U.S., at ––––, 130 S.Ct., at 2032 ("[T]he features that distinguish juveniles from adults also put them at a significant disadvantage in criminal proceedings"); *J.D.B. v. North Carolina*, 564 U.S. ––––, ––––, 131 S.Ct. 2394, 2400–2401, 180 L.Ed.2d 310 (2011) (discussing children's responses to interrogation). And finally, this mandatory punishment

[7] *See Guzman v. State*, --- So.3d ----, 2013 WL 949889 (Fla. 4th Dist. 2013)*; Henry v. State*, 82 So.3d 1084 (Fla. 5th DCA 2012). It also appears that the Second District Court of Appeal may agree with this line of reasoning - *see Young v. State*, --- So.3d --, 2013 WL 614247(Fla. 2d DCA 2013). The reported longest sentence under the 85% law that was allowed to stand was 100 years for burglary of a dwelling while armed (*Johnson v. State*, --- So.3d ----, 2013 WL 1007663 (Fla. 5th Dist. 2013).

[8] *Miller* at 2467.

> disregards the possibility of rehabilitation even when the circumstances most suggest it.[9]

The First and Third District Courts of Appeal view *Miller* as a procedural change in the law and have held that it does not apply retroactively to sentences that were final before the opinion was issued.[10] The retroactivity issue has not been addressed by the other District Courts of Appeal, the Florida Supreme Court, or the United States Supreme Court.

Graham and Miller Inmates

The Department of Corrections reports that it currently has custody of 222 juvenile offenders who received a mandatory life sentence for capital murder (*Miller* inmates); 43 inmates who received life sentences for non-homicide offenses (*Graham* inmates);[11] and 39 inmates who received life sentences for committing second degree murder, but who could have been sentenced to a lesser term.[12]

Life Expectancy

The Center for Disease Control's United States Life Tables for 2008 (the most recent published) reflect the following remaining life expectancies for 17-18 year olds in the United States:[13]

Remaining Life Expectancy: 17-18 Year Old Persons in the United States	
Hispanic Females	67.0 years
White Females	64.5 years
Hispanic Males	62.1 years
Black Females	61.3 years
White Males	59.8 years
Black Males	54.9 years

Parole

A January 2008 Blueprint Commission and Department of Juvenile Justice report, "Getting Smart about Juvenile Justice in Florida," included a recommendation that juveniles who received more than a 10 year adult prison sentence should be eligible for parole consideration. Florida Tax Watch also recommended parole consideration for inmates who were under 18 when they

[9] *Miller* at 2468.
[10] *See Gonzalez v. State*, 101 So.3d 886 (Fla. 1st DCA 2012); *Geter v. State*, --- So.3d ----, 2012 WL 4448860 (Fla. 3d DCA 2012).
[11] This includes inmates who were sentenced for attempted murder. In Manuel v. State, 48 So.3d 94 (Fla. 2d DCA 2010), the Second District Court of Appeals held that attempted murder is a nonhomicide offense because the act did not result in the death of a human being.
[12] The information is derived from an attachment to an e-mail dated March 22, 2013 from Department of Corrections staff to Senate Criminal Justice Committee staff, which is on file with the Senate Criminal Justice Committee.
[13] The information is from Tables 5, 6, 8, 9, 11 and 12 in the *United States Life Tables, 2008*, National Vital Statistics Reports, Volume 61, Number 3 (September 24, 2012), available at www.cdc.gov/nchs/data/nvsr/nvsr61/nvsr61_03.pdf (last visited on March 28, 2013).

committed their offense, have served more than 10 years, were not convicted of capital murder, have no prior record, and demonstrated exemplary behavior while in prison.[14]

III. Effect of Proposed Changes:

The bill amends s. 775.082, F.S., to conform Florida law concerning the sentencing of juvenile offenders to the requirements of the Eighth Amendment set forth by the United States Supreme Court in the *Graham* and *Miller* decisions. It does so by making changes at the sentencing phase, rather than by creating parole or another post-sentencing release process.

Graham Defendants

The bill provides that a juvenile offender who commits a non-homicide offense that is punishable by life imprisonment[15] may be punished by a term of imprisonment not exceeding 50 years. This provision applies to offenses committed on or after July 1, 2013. Non-homicide juvenile offenders who commit such an offense prior to July 1, 2013, or who have already been sentenced to life imprisonment for such an offense, can be sentenced or resentenced to any punishment authorized by law at the time the crime was committed other than life imprisonment.[16]

Miller defendants and other juvenile offenders who commit homicides

The bill provides that a juvenile offender who is convicted of a capital offense must be sentenced to either life imprisonment or to imprisonment for a term of not less than 50 years. The sentencing court is required to consider the following factors in determining the appropriate sentence:

- The nature and circumstances of the offense committed by the defendant.
- The effect of the crime on the victim's family and on the community.
- The defendant's age, maturity, intellectual capacity, and mental and emotional health at the time of the offense.
- The defendant's background, including his or her family, home, and community environment.
- The effect, if any, of immaturity, impetuosity, or failure to appreciate risks and consequences on the defendant's participation in the offense.
- The extent of the defendant's participation in the offense.
- The effect, if any, of familial pressure or peer pressure on the defendant's actions.
- The nature and extent of the defendant's prior criminal history.
- The effect, if any, of characteristics attributable to the defendant's youth on the defendant's judgment.
- The possibility of rehabilitating the defendant.

[14] "Report and Recommendations of the Florida Tax Watch Government Cost Savings Task Force to Save More than $3 Billion," Florida Tax Watch, March 2010, p.47.
[15] This includes life felonies and first-degree felonies punishable by a term of years not exceeding life imprisonment.
[16] As previously discussed, Florida intermediate appellate courts have split on the question of whether *Graham* requires resentencing for a juvenile offender who has been sentenced to a lengthy term of years if the court determines that it is functionally equivalent to a life sentence.

This list includes all of the factors from the portion of the *Miller* opinion that was quoted previously in this analysis.

Consideration of these factors is mandatory in the sentencing of a juvenile offender who has been convicted of a capital offense, or of a life felony or first-degree felony punishable by a term of years not exceeding life imprisonment for committing murder under s. 782.04, F.S.[17]

Under current law, Florida Statutes provide that any offender who is convicted of a life felony under s. 782.04, F.S., can be punished by a term of imprisonment for life or by imprisonment for a term of years not exceeding life imprisonment. The bill does not change these punishments except to provide that a juvenile offender cannot be sentenced to life imprisonment or to a term of years equal to life imprisonment unless the sentencing court has considered the required factors and concluded that such punishment is appropriate.[18]

Florida Statutes currently provide that any offender who is convicted of murder under s. 782.04, F.S., that is a first-degree felony punishable by a term of years not exceeding life imprisonment can be sentenced to a term of years not exceeding life imprisonment or to a lesser term of years. The bill allows a sentence to a term of years equal to life imprisonment only if the sentencing court has considered the required factors and concluded that such punishment is appropriate.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. Other Constitutional Issues:

The bill does not specify whether its provisions concerning sentencing for murder under s. 782.04, F.S., are intended to apply retroactively or prospectively. A change in a statute is presumed to operate prospectively unless there is a clear showing that it is to be applied retroactively and its retroactive application is constitutionally permissible. *Metropolitan Dade County v. Chase Federal Housing Corp.*, 737 So.2d 494, 499 (Fla. 1999); *Bates v. State*, 750 So.2d 6, 10 (Fla. 1999).

[17] Although *Miller* technically does not apply to non-mandatory life sentences, requiring consideration of the sentencing factors avoids the possibility of an equal protection claim by a juvenile offender who receives a life sentence after less consideration than is required for a juvenile offender who commits a more serious offense.

[18] The bill creates the phrase "term of years equal to life imprisonment," leaving the courts to decide whether a particular term of years is the equivalent of a life sentence.

Article X, section 9 of the Florida Constitution (the "Savings Clause") provides: "Repeal or amendment of a criminal statute shall not affect prosecution or punishment for any crime previously committed." This means that the criminal statutes in effect at the time an offense was committed apply to any prosecution or punishment for that offense. *See State v. Smiley*, 966 So.2d 330 (Fla. 2007). The Savings Clause prevents retroactive application of a statute that affects prosecution or punishment for a crime, but does not prohibit retroactive application of a statute that is procedural or remedial in nature.

It is well-established that the Savings Clause prohibits application of a statutory reduction in the maximum sentence for a crime to be applied to an offense that was committed before the change. *See, e.g., Castle v. Sand*, 330 So.2d 10 (Fla. 1976) (reduction of maximum sentence for arson from 10 years to 5 years could not be applied to benefit defendant who committed offense before statutory change). Because current case law indicates that *Miller* does not apply retroactively, the Savings Clause prevents applying the bill's provisions retroactively.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The Criminal Justice Impact conference determined that CS/SB 1350 will have no impact on the need for prison beds. The bill would potentially have an impact on the court system to the extent that sentencing hearings for the offenders affected by the bill may require more time and resources than current sentencing hearings.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Criminal Justice on April 8, 2013:

- Removes language indicating that the bill's provisions concerning penalties for murder are retroactive to the extent required by *Miller*.

- Clarifies that the bill applies to offenses that are reclassified to the relevant offense levels by application of an enhancement statute.

B. Amendments:

None.

Senate Amendment (with title amendment)

Between lines 57 and 58
insert:

(c)1. A person who is sentenced under paragraph (b) shall have his or her sentence reviewed after 25 years of incarceration. The sentencing court shall retain original jurisdiction for the duration of the sentence for this purpose. The Department of Corrections shall notify each juvenile offender who is committed to the department of her or his eligibility to participate in a resentencing hearing within 18

813126

months after 24 years of incarceration. The juvenile offender may apply to the court of original jurisdiction requesting that a resentencing hearing be held.

2. A juvenile offender is entitled to be represented by counsel, and the court shall appoint a public defender to represent the juvenile offender if the juvenile cannot afford an attorney.

3. The court shall hold a resentencing hearing to determine whether the juvenile offender's sentence should be modified. The resentencing court shall consider all of the following factors:

a. Whether the juvenile offender demonstrates maturity and rehabilitation.

b. Whether the juvenile offender remains at the same level of risk to society as he or she was at the time of the initial sentencing.

c. The opinion of the victim's next of kin. The absence of the victim's next of kin from the resentencing hearing is not a factor in the court's determination under this section.

d. Whether the juvenile offender was a relatively minor participant in the criminal offense or acted under extreme duress or the domination of another person.

e. Whether the juvenile has shown sincere and sustained remorse for the criminal offense.

f. Whether the juvenile offender's age, maturity, and psychological development at the time of the offense affected his or her behavior.

g. Whether the juvenile offender has successfully obtained a general educational development [GED] certificate or completed any other educational, technical, work, vocational, or self-

813126

rehabilitation program.

h. Whether the juvenile offender was a victim of sexual, physical, or emotional abuse before he or she committed the offense.

i. The results of any mental health assessment, risk assessment, or evaluation of the juvenile offender as they apply to rehabilitation.

4. If the court determines at the resentencing hearing that the juvenile offender has been rehabilitated and is reasonably believed to be fit to reenter society based on these factors, a term of probation of at least 5 years, shall be imposed. If the court determines that the juvenile offender has not demonstrated rehabilitation and is not fit to reenter society based on these factors, the court shall issue an order in writing stating why the sentence is not being modified.

5. A juvenile offender who is not resentenced under this paragraph at the initial resentencing is eligible for up to three more sentencing reviews. A minimum of 5 years must pass before the individual is eligible for the sentencing review. A juvenile sentenced to a term of years less than life may not petition the court for a review of her or his sentence if she or he is in the last 7 years of her or his sentence.

(d) This subsection shall apply retroactively.

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

Delete line 7

and insert:

imprisonment is an appropriate sentence; providing that certain persons for whom a life sentence is

appropriate may have the sentence reviewed after 24 years of incarceration; specifying that the juvenile offender is entitled to be represented by counsel; requiring the court to consider certain specified factors before resentencing the juvenile offender; requiring at least 5 years of probation if released into the community; providing that an offender is eligible for up to three sentencing reviews; requiring that a minimum of 5 years must pass before the offender is eligible for the sentencing review; providing for retroactive application; providing an

By the Committee on Criminal Justice; and Senator Bradley

591-03860-13 20131350c1

A bill to be entitled

An act relating to criminal penalties; amending s. 775.082, F.S.; providing criminal sentences applicable to a person who was under the age of 18 years at the time the offense was committed; requiring that a judge consider certain factors before determining if life imprisonment is an appropriate sentence; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsections (1) and (3) of section 775.082, Florida Statutes, are amended to read:

775.082 Penalties; applicability of sentencing structures; mandatory minimum sentences for certain reoffenders previously released from prison.—

(1)(a) Except as provided in paragraph (b), a person who has been convicted of a capital felony shall be punished by death if the proceeding held to determine sentence according to the procedure set forth in s. 921.141 results in findings by the court that such person shall be punished by death, otherwise such person shall be punished by life imprisonment and shall be ineligible for parole.

(b) A person who is convicted of a capital felony, or an offense that was reclassified as a capital felony, that was committed before the person was 18 years of age shall be punished by life imprisonment and is ineligible for parole if the judge at a mandatory sentencing hearing concludes that life imprisonment is an appropriate sentence. In determining whether

591-03860-13 20131350c1

life imprisonment is an appropriate sentence, the judge shall consider factors relevant to the offense and to the defendant's youth and attendant circumstances, including, but not limited to:

1. The nature and circumstances of the offense committed by the defendant.

2. The effect of the crime on the victim's family and on the community.

3. The defendant's age, maturity, intellectual capacity, and mental and emotional health at the time of the offense.

4. The defendant's background, including his or her family, home, and community environment.

5. The effect, if any, of immaturity, impetuosity, or failure to appreciate risks and consequences on the defendant's participation in the offense.

6. The extent of the defendant's participation in the offense.

7. The effect, if any, of familial pressure or peer pressure on the defendant's actions.

8. The nature and extent of the defendant's prior criminal history.

9. The effect, if any, of characteristics attributable to the defendant's youth on the defendant's judgment.

10. The possibility of rehabilitating the defendant.

If the judge concludes that life imprisonment is not an appropriate sentence, the defendant shall be punished by imprisonment for a term of not less than 50 years.

(3) A person who has been convicted of any other designated

felony may be punished as follows:

(a)1. For a life felony committed before ~~prior to~~ October 1, 1983, by a term of imprisonment for life or for a term of years not less than 30.

2. For a life felony committed on or after October 1, 1983, by a term of imprisonment for life or by a term of imprisonment not exceeding 40 years.

3. Except as provided in subparagraph 4., for a life felony committed on or after July 1, 1995, by a term of imprisonment for life or by imprisonment for a term of years not exceeding life imprisonment.

4.a. Except as provided in sub-subparagraph b., for a life felony committed on or after September 1, 2005, which is a violation of s. 800.04(5)(b), by:

(I) A term of imprisonment for life; or

(II) A split sentence that is a term of not less than 25 years' imprisonment and not exceeding life imprisonment, followed by probation or community control for the remainder of the person's natural life, as provided in s. 948.012(4).

b. For a life felony committed on or after July 1, 2008, which is a person's second or subsequent violation of s. 800.04(5)(b), by a term of imprisonment for life.

5. Notwithstanding subparagraphs 1.-4., a person convicted under s. 782.04 for an offense that was reclassified as a life felony that was committed before the person was 18 years of age is eligible to be punished by a term of imprisonment for life or by a term of years equal to life imprisonment if the judge at a mandatory sentencing hearing considers factors relevant to the offense and to the defendant's youth and attendant

circumstances, including, but not limited to, the factors listed in paragraph (1)(b) and concludes that imprisonment for life or a term of years equal to life imprisonment is an appropriate sentence.

6. For offenses committed on or after July 1, 2013, a person convicted of a life felony or of an offense that was reclassified as a life felony, other than an offense listed in s. 782.04, that was committed before the person was 18 years of age shall be punished by a term of imprisonment not to exceed 50 years.

(b) Except as provided in subparagraphs 1. and 2., for a felony of the first degree, by a term of imprisonment not exceeding 30 years or, when specifically provided by statute, by imprisonment for a term of years not exceeding life imprisonment.

1. A person convicted under s. 782.04 of a first-degree felony punishable by a term of years not exceeding life imprisonment, or an offense that was reclassified as a first-degree felony punishable by a term of years not exceeding life imprisonment, that was committed before the person was 18 years of age is eligible for a term of years equal to life imprisonment if the judge at a mandatory sentencing hearing considers factors relevant to the offense and to the defendant's youth and attendant circumstances, including, but not limited to, the factors listed in paragraph (1)(b) and concludes that a term of years equal to life imprisonment is an appropriate sentence.

2. For offenses committed on or after July 1, 2013, a person convicted for a first-degree felony punishable by a term

of years not exceeding life imprisonment or of an offense that was reclassified as a first-degree felony punishable by a term of years not exceeding life imprisonment, other than an offense listed in s. 782.04, that was committed before the person was 18 years of age shall be punished by a term of imprisonment not to exceed 50 years.

(c) For a felony of the second degree, by a term of imprisonment not exceeding 15 years.

(d) For a felony of the third degree, by a term of imprisonment not exceeding 5 years.

Section 2. This act shall take effect July 1, 2013.

6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

PCS/CS/SB 1352 addresses the stated goal of the State of Florida to decrease the paperwork burden associated with the conduct of state business. This bill furthers that goal by permitting the use of an electronic medium to collect and disseminate information as required by law in selected settings.

There is no fiscal impact to state revenues or expenditures. There may be a fiscal impact to local governments as supervisors of elections will be required to maintain email addresses for electronic ballots, and to property appraisers who will be required to provide notice of proposed property taxes and non-ad valorem assessments on a website.

The bill:

- Requires the statewide voter registration application to elicit the voter registration applicant's e-mail address and an indication of whether the applicant wishes to receive sample ballots by e-mail.
- Authorizes the supervisor of elections to provide electronic sample ballots to electors if certain requirements are met.

- Requires the clerk of a board of county commissioners to electronically transmit to the Department of State enacted ordinances, amendments, and emergency ordinances, and requires the Department to electronically confirm by e-mail the receipt and the effective date of such filings with the clerk.
- Permits the clerk of a value adjustment board to electronically notify the taxpayer and property appraiser of the board's decision in certain hearings if electronic means is selected by the taxpayer.
- Authorizes the property appraiser to prepare and make available certain tax information on his or her office's website, if the county governing board of that jurisdiction approves the measure by ordinance at the request of the property appraiser.
- Requires the property appraiser to provide legal notice in a periodical meeting the requirements of s. 50.011, F.S., that the notice of proposed property tax rates and non-ad valorem assessments are available on the property appraiser's website and authorizes notification of same by e-mail to persons who have requested such notice.

This bill substantially amends the following sections of the Florida Statutes: 97.052, 101.20, 125.66, 194.034, and 200.069.

II. Present Situation:

The Florida Legislature has on various occasions expressed that the reduction of the use of paper, where feasible, is the policy of the state.[1] This bill furthers the goal of lowering the use of paper by permitting the use of an electronic medium to collect and disseminate information as required by law in selected settings.

Voter Registration and Sample Ballots

Current law requires the Department of State to prescribe by rule a uniform statewide voter registration application.[2] The application must elicit certain information from the voter applicant, such as the applicant's name, date of birth, and address of legal residence.[3] The application does not request a voter's e-mail address.

Current law also requires the supervisor of elections to publish a sample ballot in a newspaper of general circulation in the county, prior to the day of the election. If the county has an addressograph or similar system, the supervisor may mail a sample ballot to each registered elector in lieu of publication. The sample ballot must be mailed at least seven days prior to any election.[4]

[1] *See* sections 23.20-23.22, F.S. "The state must minimize the paperwork burden by evaluating its need for information, determining whether it already has access to the necessary information, and coordinating data collection initiatives at their source." Section 23.20(4), F.S. *See also* section 120.74(1)(e), F.S. "[E]ach agency shall perform a formal review of its rules every 2 years. In the review, each agency must [s]eek to improve efficiency, reduce paperwork, or decrease costs to government and the private sector."
[2] Section 97.052(1), F.S.
[3] Section 97.052(2), F.S.
[4] Section 101.20(2), F.S.

Transmittal of Enacted Ordinances

Current law provides requirements for counties to adhere to when exercising the ordinance-making powers conferred by the State Constitution.[5] It establishes the following regular enactment procedure:

> The board of county commissioners at any regular or special meeting may enact or amend any ordinance … if notice of intent to consider such ordinance is given at least 10 days prior to said meeting by publication in a newspaper of general circulation in the county. A copy of such notice shall be kept available for public inspection during the regular business hours of the office of the clerk of the board of county commissioners. The notice of proposed enactment shall state the date, time, and place of the meeting; the title or titles of proposed ordinances; and the place or places within the county where such proposed ordinances may be inspected by the public. The notice shall also advise that interested parties may appear at the meeting and be heard with respect to the proposed ordinance.[6]

Certified copies of ordinances or amendments thereto must be filed with the Department of State by the clerk of the board of county commissioners within 10 days after enactment by the board. The ordinances or amendments take effect upon filing with the Department of State, unless the ordinance prescribes a later effective date.[7]

Value Adjustment Boards

Value adjustment boards are constituted in each county to conduct administrative hearings relating to assessments, complaints relating to homestead exemptions, appeals from tax exemptions denied, and appeals concerning ad valorem deferrals and classifications.[8] The value adjustment board must render a written decision within 20 calendar days after the last day the board is in session. The clerk must then provide notice of the board's decision by first-class mail.[9]

Property Appraisers

Current law requires each property appraiser to provide notice of proposed property taxes and non-ad valorem assessments by first-class mail to each taxpayer listed on the current year's assessments. Elements that must be included on such notice are prescribed by statute.[10]

[5] Section 125.66(1), F.S.
[6] Section 125.66(2)(a), F.S.
[7] Section 125.66(2)(b), F.S.
[8] Section 194.032(1)(a), F.S.
[9] Section 194.034(2), F.S.
[10] Section 200.069, F.S.

III. Effect of Proposed Changes:

Section 1 amends s. 97.052, F.S., to require the statewide voter registration application to include a field for an applicant's e-mail address and an indication of whether the applicant wishes to receive sample ballots by e-mail.

Section 2 amends s. 101.20(2), F.S., to permit a supervisor of elections to provide electronic sample ballots to electors who have provided e-mail addresses and opted into the electronic ballot delivery system. It allows a supervisor of elections to mail or e-mail sample ballots to registered electors in lieu of publishing such ballots in a newspaper of general circulation in the county.

Section 3 amends s. 125.66(2)(b), F.S., to require a clerk of a board of county commissioners to electronically transmit to the Department of State enacted ordinances, amendments, and emergency ordinances. It requires the Department of State to electronically confirm by e-mail the receipt and the effective date of such filings with the clerk of the board of county commissioners.

Section 4 amends s. 194.034(2), F.S., to permit the clerk of a value adjustment board to electronically notify the taxpayer and property appraiser of the value adjustment board's decision in a hearing held pursuant to s. 194.034, F.S., if electronic means is selected by the taxpayer on the originally filed petition.

Section 5 amends s. 200.069, F.S., to require a property appraiser to provide legal notice in a newspaper or periodical meeting the requirements of s. 50.011, F.S., that proposed property taxes and non-ad valorem assessments are available for viewing and download at the appraiser's website It also authorizes a property appraiser to provide notification by e-mail to property owners or other interested parties who have registered an e-mail address with the appraiser.

The property appraiser may prepare and make available on his or her office's website a notice of proposed property taxes and non-ad valorem assessments for each taxpayer listed on the year's assessment roll as a separate web page, link, attachment, or document, only after the county governing board has approved the measure by ordinance, as requested by the property appraiser. Such online notice from the appraiser must meet specified criteria, including, but not limited to, specifying all substantive elements required for such notice. The property appraiser may display the required substantive elements in a format different from that prescribed by the Department of Revenue only upon receiving prior written permission from the executive director of the Department. The format may contain additional substantive elements deemed important by the appraiser, in addition to the elements provided for by law.

Section 6 provides an effective date of October 1, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, Sec. 18, of the Constitution of the State of Florida excuses local governments from complying with state mandates that impose negative fiscal consequences.

Subsection (a) provides, "No county or municipality shall be bound by any general law requiring such county or municipality to spend funds or to take an action requiring the expenditure of funds" unless certain requirements are met. However, several exemptions and exceptions exist.

Subsection (d) of Art. VII, Sec. 18, exempts those laws that have an insignificant fiscal impact from the requirements of the mandates provision. Whether a particular bill results in a significant impact must be determined on an aggregate, statewide basis. Laws determined to have an "insignificant fiscal impact," which means an amount not greater than the average statewide population for the applicable fiscal year times $0.10 ($1.9 million for FY 2012-2013[11]), are exempt.[12]

This bill could cause counties to incur additional expenses associated with the requirement that the property appraiser post certain tax information on his or her office's website. The overall collective financial impact would appear unlikely to exceed $1.9 million per year in the aggregate. Accordingly, it would appear as if the bill is exempt from paragraph (a).

The mandates provision does not apply to the changes being made to ss. 97.052 and 101.20, F.S., because subsection 18(d) of Article VII, Fla. Const., explicitly exempts election laws from the mandates provision.

B. Public Records/Open Meetings Issues:

Current law provides a public record exemption for certain information held by an agency for purposes of voter registration.[13] SB 1260 is the public records bill linked to SB 1352 expanding the current public records exemption for voter registration information to include e-mail addresses of a voter registration applicant or voter.

C. Trust Funds Restrictions:

None.

D. Other Constitutional Issues:

Preclearance Requirement

The Department of State provided the following comments regarding preclearance:

> Under section 5 of the Voting Rights Act, new statewide legislation that implements a voting change, including but not

[11] Based on the Demographic Estimating Conference's final population estimate for April 1, 2012, which was adopted on November 7, 2012. The Executive Summary can be found at: http://edr.state.fl.us/Content/conferences/population/demographicsummary.pdf (Last visited on March 15, 2013).
[12] *See* Florida Senate Committee on Community Affairs, *Interim Report 2012-115: Insignificant Fiscal Impact*, (September 2011), available at: http://www.flsenate.gov/PublishedContent/Session/2012/InterimReports/2012-115ca.pdf (last visited on March 15, 2013).
[13] Section 97.0585, F.S.

limited to, a change in the manner of voting, change in registration, balloting, and the counting of votes, change in candidacy requirements and qualifications, change in the composition of the electorate that may vote for a candidate, or change affecting the creation or abolition of an elective office, is subject to preclearance by the U.S. Department of Justice or the federal District Court for the District of Columbia. The preclearance review is to determine if the change has a discriminatory purpose or effect that denies or abridges the right to vote on account of race, color or membership in a language minority group in a covered jurisdiction. Florida has five covered jurisdictions subject to preclearance: Collier, Hardee, Hendry, Hillsborough, and Monroe counties. Until precleared by federal authorities, the legislation is unenforceable in these five counties.[14]

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The Department of State does not anticipate any fiscal impact associated with modifying the uniform statewide voter application.

There may be a fiscal impact on supervisors of elections associated with maintaining the e-mail address of voters and voter registration applicants, and with monitoring which registered voters wish to receive sample ballots electronically. Additionally, there may be costs to supervisors of elections related to establishing a system to send sample ballots electronically. However, it is anticipated that some, if not most, of these costs may be offset by savings resulting from the electronic provision of sample ballots.

There may be a fiscal impact on property appraisers associated with the requirement that a property appraiser prepare and make available on his or her office's website notice of proposed property taxes and non-ad valorem assessments for each taxpayer listed on the year's assessment roll.

[14] Department of State, *Analysis on Senate Bill 1352* (March 4, 2013) (on file with the staff of the Senate Community Affairs Committee).

VI. Technical Deficiencies:

According to the Department of Revenue's analysis of SB 1352, "It is not clear how the property appraisers will prove compliance with ss. 200.065 and 200.069, F.S., when electronic notification is used."[15]

Also, s. 200.065, F.S., refers to the mailing of the TRIM Notice with regard to the TRIM timeline and the deadline for filing VAB petitions. This section would have to be updated to refer to the posting of the notices online.[16]

VII. Related Issues:

According to the Department of Revenue's analysis of SB 1352, "Section 4 of this bill would require amendments to the VAB petition form, DR-486, and Rule 12D-9.015, F.A.C."[17]

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Transportation, Tourism, and Economic Development on April 17, 2013:
The committee substitute authorizes, rather than requires, the property appraiser to make certain information available on a website, and only after approval by ordinance adopted by the county governing board of that jurisdiction at the request of the property appraiser. In addition, the property appraiser is required to provide legal notice meeting the statutory requirements of legal and official advertisements.

CS by Community Affairs on March 20, 2013:
The committee substitute removes the portions of the bill dealing with bail bondsman, and changes the effective date to October 1, 2013.

B. Amendments:

None.

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Transportation, Tourism, and Economic Development)

A bill to be entitled

An act relating to paper reduction; amending s. 97.052, F.S.; providing that the uniform statewide voter registration application be designed to elicit the e-mail address of an applicant and whether the applicant desires to receive sample ballots by e-mail; amending s. 101.20, F.S.; authorizing a supervisor of elections to send a sample ballot to a registered elector by e-mail under certain circumstances; amending s. 125.66, F.S.; requiring the clerk of a board of county commissioners to electronically transmit enacted ordinances, amendments, and emergency ordinances to the Department of State; amending s. 194.034, F.S.; permitting a value adjustment board to electronically provide the taxpayer and property appraiser with notice of the decision of the board; amending s. 200.069, F.S.; authorizing the property appraiser to notify taxpayers of proposed property taxes by posting the notice on the appraiser's website in lieu of first-class mail when approved by the county governing board; providing notice format details; requiring publication of legal notice that the notice of proposed taxes and assessments is available through the property appraiser's website; authorizing the property appraiser to provide e-mail notification when the proposed taxes and assessments

508548

576-04538A-13

are available on the appraiser's website; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraphs (e) through (t) of subsection (2) of section 97.052, Florida Statutes, are redesignated as paragraphs (f) through (u), respectively, and a new paragraph (e) is added to that section, to read:

97.052 Uniform statewide voter registration application.—

(2) The uniform statewide voter registration application must be designed to elicit the following information from the applicant:

(e) E-mail address and whether the applicant wishes to receive sample ballots by e-mail.

The registration application must be in plain language and designed so that convicted felons whose civil rights have been restored and persons who have been adjudicated mentally incapacitated and have had their voting rights restored are not required to reveal their prior conviction or adjudication.

Section 2. Subsection (2) of section 101.20, Florida Statutes, is amended to read:

101.20 Publication of ballot form; sample ballots.—

(2) Upon completion of the list of qualified candidates, a sample ballot shall be published by the supervisor of elections in a newspaper of general circulation in the county, before ~~prior to~~ the day of election. In lieu of publication, a supervisor may send a sample ballot to each registered elector

508548

576-04538A-13

by e-mail at least 7 days before any election if an e-mail address has been provided and the elector has opted to receive a sample ballot by electronic delivery. If an e-mail address has not been provided, or if the elector has not opted for electronic delivery ~~If the county has an addressograph or equivalent system for mailing to registered electors~~, a sample ballot may be mailed to each registered elector or to each household in which there is a registered elector, in lieu of publication, at least 7 days before ~~prior to~~ any election.

Section 3. Paragraph (b) of subsection (2) and subsection (3) of section 125.66, Florida Statutes, are amended to read:

125.66 Ordinances; enactment procedure; emergency ordinances; rezoning or change of land use ordinances or resolutions.—

(2)

(b) Certified copies of ordinances or amendments thereto enacted under this regular enactment procedure shall be filed with the Department of State by the clerk of the board of county commissioners within 10 days after enactment by said board and shall take effect upon filing with the Department of State. However, any ordinance may prescribe a later effective date. In lieu of delivery of the certified copies of the enacted ordinances or amendments by first-class mail, the clerk of the board of county commissioners shall transmit the enacted ordinances or amendments to the department by e-mail. The department shall confirm by e-mail the receipt and effective date of the ordinances or amendments with the clerk of the board of county commissioners.

(3) The emergency enactment procedure shall be as follows:

508548

576-04538A-13

The board of county commissioners at any regular or special meeting may enact or amend any ordinance with a waiver of the notice requirements of subsection (2) by a four-fifths vote of the membership of such board, declaring that an emergency exists and that the immediate enactment of said ordinance is necessary. However, no emergency ordinance or resolution shall be enacted which establishes or amends the actual zoning map designation of a parcel or parcels of land or changes the actual list of permitted, conditional, or prohibited uses within a zoning category. Emergency enactment procedures for land use plans adopted pursuant to part II of chapter 163 shall be pursuant to that part. Certified copies of ordinances or amendments thereto enacted under this emergency enactment procedure by a county shall be filed with the Department of State by the clerk of the board of county commissioners as soon after enactment by said board as is practicable. An emergency ordinance enacted under this procedure shall be transmitted by the clerk of the board of county commissioners by e-mail to the Department of State. It shall be deemed to be filed and shall take effect when a copy has been accepted and confirmed by the department by e-mail ~~deemed to be filed and shall take effect when a copy has been accepted by the postal authorities of the Government of the United States for special delivery by certified mail to the Department of State~~.

Section 4. Subsection (2) of section 194.034, Florida Statutes, is amended to read:

194.034 Hearing procedures; rules.—

(2) In each case, except if the complaint is withdrawn by the petitioner or if the complaint is acknowledged as correct by

508548

576-04538A-13

the property appraiser, the value adjustment board shall render a written decision. All such decisions shall be issued within 20 calendar days after the last day the board is in session under s. 194.032. The decision of the board must contain findings of fact and conclusions of law and must include reasons for upholding or overturning the determination of the property appraiser. If a special magistrate has been appointed, the recommendations of the special magistrate shall be considered by the board. The clerk, upon issuance of a decision, shall, on a form provided by the Department of Revenue, notify each taxpayer and the property appraiser of the decision of the board. This notification shall be by first-class mail or by electronic means if selected by the taxpayer on the originally filed petition ~~each taxpayer and the property appraiser of the decision of the board~~. If requested by the Department of Revenue, the clerk shall provide to the department a copy of the decision or information relating to the tax impact of the findings and results of the board as described in s. 194.037 in the manner and form requested.

Section 5. Section 200.069, Florida Statutes, is amended to read:

200.069 Notice of proposed property taxes and non-ad valorem assessments.—Pursuant to s. 200.065(2)(b), the property appraiser, in the name of the taxing authorities and local governing boards levying non-ad valorem assessments within his or her jurisdiction and at the expense of the county, shall prepare and deliver by first-class mail to each taxpayer to be listed on the current year's assessment roll a notice of proposed property taxes, which notice shall contain the elements

508548

576-04538A-13

and use the format provided in the following form. Notwithstanding the provisions of s. 195.022, no county officer shall use a form other than that provided herein. The Department of Revenue may adjust the spacing and placement on the form of the elements listed in this section as it considers necessary based on changes in conditions necessitated by various taxing authorities. If the elements are in the order listed, the placement of the listed columns may be varied at the discretion and expense of the property appraiser, and the property appraiser may use printing technology and devices to complete the form, the spacing, and the placement of the information in the columns. A county officer may use a form other than that provided by the department for purposes of this part, but only if his or her office pays the related expenses and he or she obtains prior written permission from the executive director of the department; however, a county officer may not use a form the substantive content of which is at variance with the form prescribed by the department. The county officer may continue to use such an approved form until the law that specifies the form is amended or repealed or until the officer receives written disapproval from the executive director. In lieu of delivery of the notice of proposed property taxes by first-class mail, the property appraiser may prepare and make available for viewing and printing on his or her office website the notice of proposed property taxes for each taxpayer to be listed on the current year's assessment roll, but only if, following a recommendation by the property appraiser, the county governing board of his or her jurisdiction approves the measure by ordinance. If approved by ordinance of the county governing board, the notice shall be

a separate web page, web link, attachment, or document and shall contain all the substantive elements outlined in this section. The property appraiser may use a format for web display of all substantive elements as outlined in this section other than that provided by the department for purposes of this section, but only if his or her office obtains prior written permission from the executive director of the department. The format may contain substantive elements deemed important by the property appraiser, in addition to those outlined in this section. The property appraiser may continue to use the approved format until the law that specifies the form is amended or repealed or until the officer receives written disapproval from the executive director. The property appraiser shall provide legal notice in a periodical meeting the requirements of s. 50.011 that the notice of proposed property taxes and non-ad valorem assessments is available on the property appraiser website. The legal notice shall contain the property appraiser's website address. The property appraiser may also provide notification by e-mail to property owners or other interested parties who have registered a request with the property appraiser for e-mail notification when the notice of proposed property taxes and non-ad valorem assessments is available on the website.

(1) The first page of the notice shall read:

NOTICE OF PROPOSED PROPERTY TAXES
DO NOT PAY—THIS IS NOT A BILL

The taxing authorities which levy property taxes against your property will soon hold PUBLIC HEARINGS to adopt budgets

and tax rates for the next year.

The purpose of these PUBLIC HEARINGS is to receive opinions from the general public and to answer questions on the proposed tax change and budget PRIOR TO TAKING FINAL ACTION.

Each taxing authority may AMEND OR ALTER its proposals at the hearing.

(2)(a) The notice shall include a brief legal description of the property, the name and mailing address of the owner of record, and the tax information applicable to the specific parcel in question. The information shall be in columnar form. There shall be seven column headings which shall read: "Taxing Authority," "Your Property Taxes Last Year," "Last Year's Adjusted Tax Rate (Millage)," "Your Taxes This Year IF NO Budget Change Is Adopted," "Tax Rate This Year IF PROPOSED Budget Is Adopted (Millage)," "Your Taxes This Year IF PROPOSED Budget Change Is Adopted," and "A Public Hearing on the Proposed Taxes and Budget Will Be Held:."

(b) As used in this section, the term "last year's adjusted tax rate" means the rolled-back rate calculated pursuant to s. 200.065(1).

(3) There shall be under each column heading an entry for the county; the school district levy required pursuant to s. 1011.60(6); other operating school levies; the municipality or municipal service taxing unit or units in which the parcel lies, if any; the water management district levying pursuant to s. 373.503; the independent special districts in which the parcel lies, if any; and for all voted levies for debt service applicable to the parcel, if any.

(4) For each entry listed in subsection (3), there shall

appear on the notice the following:

(a) In the first column, a brief, commonly used name for the taxing authority or its governing body. The entry in the first column for the levy required pursuant to s. 1011.60(6) shall be "By State Law." The entry for other operating school district levies shall be "By Local Board." Both school levy entries shall be indented and preceded by the notation "Public Schools:". For each voted levy for debt service, the entry shall be "Voter Approved Debt Payments."

(b) In the second column, the gross amount of ad valorem taxes levied against the parcel in the previous year. If the parcel did not exist in the previous year, the second column shall be blank.

(c) In the third column, last year's adjusted tax rate or, in the case of voted levies for debt service, the tax rate previously authorized by referendum.

(d) In the fourth column, the gross amount of ad valorem taxes which will apply to the parcel in the current year if each taxing authority levies last year's adjusted tax rate or, in the case of voted levies for debt service, the amount previously authorized by referendum.

(e) In the fifth column, the tax rate that each taxing authority must levy against the parcel to fund the proposed budget or, in the case of voted levies for debt service, the tax rate previously authorized by referendum.

(f) In the sixth column, the gross amount of ad valorem taxes that must be levied in the current year if the proposed budget is adopted.

(g) In the seventh column, the date, the time, and a brief

description of the location of the public hearing required pursuant to s. 200.065(2)(c).

(5) Following the entries for each taxing authority, a final entry shall show: in the first column, the words "Total Property Taxes:" and in the second, fourth, and sixth columns, the sum of the entries for each of the individual taxing authorities. The second, fourth, and sixth columns shall, immediately below said entries, be labeled Column 1, Column 2, and Column 3, respectively. Below these labels shall appear, in boldfaced type, the statement: SEE REVERSE SIDE FOR EXPLANATION.

(6)(a) The second page of the notice shall state the parcel's market value and for each taxing authority that levies an ad valorem tax against the parcel:

1. The assessed value, value of exemptions, and taxable value for the previous year and the current year.

2. Each assessment reduction and exemption applicable to the property, including the value of the assessment reduction or exemption and tax levies to which they apply.

(b) The reverse side of the second page shall contain definitions and explanations for the values included on the front side.

(7) The following statement shall appear after the values listed on the front of the second page:

If you feel that the market value of your property is inaccurate or does not reflect fair market value, or if you are entitled to an exemption or classification that is not reflected above, contact your county property appraiser at ...(phone number)... or ...(location)....

If the property appraiser's office is unable to resolve the matter as to market value, classification, or an exemption, you may file a petition for adjustment with the Value Adjustment Board. Petition forms are available from the county property appraiser and must be filed ON OR BEFORE ...(date)....

(8) The reverse side of the first page of the form shall read:

EXPLANATION

*COLUMN 1—"YOUR PROPERTY TAXES LAST YEAR"
This column shows the taxes that applied last year to your property. These amounts were based on budgets adopted last year and your property's previous taxable value.
*COLUMN 2—"YOUR TAXES IF NO BUDGET CHANGE IS ADOPTED"
This column shows what your taxes will be this year IF EACH TAXING AUTHORITY DOES NOT CHANGE ITS PROPERTY TAX LEVY. These amounts are based on last year's budgets and your current assessment.
*COLUMN 3—"YOUR TAXES IF PROPOSED BUDGET CHANGE IS ADOPTED"
This column shows what your taxes will be this year under the BUDGET ACTUALLY PROPOSED by each local taxing authority. The proposal is NOT final and may be amended at the public hearings shown on the front side of this notice. The difference between columns 2 and 3 is the tax change proposed by each local taxing authority and is NOT the result of higher assessments.

*Note: Amounts shown on this form do NOT reflect early payment discounts you may have received or may be eligible to receive. (Discounts are a maximum of 4 percent of the amounts shown on

this form.)

(9) The bottom portion of the notice shall further read in bold, conspicuous print:

"Your final tax bill may contain non-ad valorem assessments which may not be reflected on this notice such as assessments for roads, fire, garbage, lighting, drainage, water, sewer, or other governmental services and facilities which may be levied by your county, city, or any special district."

(10)(a) If requested by the local governing board levying non-ad valorem assessments and agreed to by the property appraiser, the notice specified in this section may contain a notice of proposed or adopted non-ad valorem assessments. If so agreed, the notice shall be titled:

NOTICE OF PROPOSED PROPERTY TAXES
AND PROPOSED OR ADOPTED
NON-AD VALOREM ASSESSMENTS
DO NOT PAY—THIS IS NOT A BILL

There must be a clear partition between the notice of proposed property taxes and the notice of proposed or adopted non-ad valorem assessments. The partition must be a bold, horizontal line approximately 1/8-inch thick. By rule, the department shall provide a format for the form of the notice of proposed or adopted non-ad valorem assessments which meets the following minimum requirements:

1. There must be subheading for columns listing the levying local governing board, with corresponding assessment rates

expressed in dollars and cents per unit of assessment, and the associated assessment amount.

2. The purpose of each assessment must also be listed in the column listing the levying local governing board if the purpose is not clearly indicated by the name of the board.

3. Each non-ad valorem assessment for each levying local governing board must be listed separately.

4. If a county has too many municipal service benefit units or assessments to be listed separately, it shall combine them by function.

5. A brief statement outlining the responsibility of the tax collector and each levying local governing board as to any non-ad valorem assessment must be provided on the form, accompanied by directions as to which office to contact for particular questions or problems.

(b) If the notice includes all adopted non-ad valorem assessments, the provisions contained in subsection (9) shall not be placed on the notice.

Section 6. This act shall take effect October 1, 2013.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations				
BILL:	CS/CS/SB 1352			
INTRODUCER:	Appropriations Committee; Community Affairs Committee; and Senator Ring			
SUBJECT:	Paper Reduction			
DATE:	April 25, 2013	REVISED:

6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/CS/SB 1352 addresses the stated goal of the State of Florida to decrease the paperwork burden associated with the conduct of state business. This bill furthers that goal by permitting the use of an electronic medium to collect and disseminate information as required by law in selected settings.

There is no fiscal impact to state revenues or expenditures. There may be a fiscal impact to local governments as supervisors of elections will be required to maintain email addresses for electronic ballots, and to property appraisers who will be required to provide notice of proposed property taxes and non-ad valorem assessments on a website.

The bill:

- Requires the statewide voter registration application to elicit the voter registration applicant's e-mail address and an indication of whether the applicant wishes to receive sample ballots by e-mail.
- Authorizes the supervisor of elections to provide electronic sample ballots to electors if certain requirements are met.

- Requires the clerk of a board of county commissioners to electronically transmit to the Department of State enacted ordinances, amendments, and emergency ordinances, and requires the Department to electronically confirm by e-mail the receipt and the effective date of such filings with the clerk.
- Permits the clerk of a value adjustment board to electronically notify the taxpayer and property appraiser of the board's decision in certain hearings if electronic means is selected by the taxpayer.
- Authorizes the property appraiser to prepare and make available certain tax information on his or her office's website, if the county governing board of that jurisdiction approves the measure by ordinance at the request of the property appraiser.
- Requires the property appraiser to provide legal notice in a periodical meeting the requirements of s. 50.011, F.S., that the notice of proposed property tax rates and non-ad valorem assessments are available on the property appraiser's website and authorizes notification of same by e-mail to persons who have requested such notice.

This bill substantially amends the following sections of the Florida Statutes: 97.052, 101.20, 125.66, 194.034, and 200.069.

II. Present Situation:

The Florida Legislature has on various occasions expressed that the reduction of the use of paper, where feasible, is the policy of the state.[1] This bill furthers the goal of lowering the use of paper by permitting the use of an electronic medium to collect and disseminate information as required by law in selected settings.

Voter Registration and Sample Ballots

Current law requires the Department of State to prescribe by rule a uniform statewide voter registration application.[2] The application must elicit certain information from the voter applicant, such as the applicant's name, date of birth, and address of legal residence.[3] The application does not request a voter's e-mail address.

Current law also requires the supervisor of elections to publish a sample ballot in a newspaper of general circulation in the county, prior to the day of the election. If the county has an addressograph or similar system, the supervisor may mail a sample ballot to each registered elector in lieu of publication. The sample ballot must be mailed at least seven days prior to any election.[4]

[1] *See* sections 23.20-23.22, F.S. "The state must minimize the paperwork burden by evaluating its need for information, determining whether it already has access to the necessary information, and coordinating data collection initiatives at their source." Section 23.20(4), F.S. *See also* section 120.74(1)(e), F.S. "[E]ach agency shall perform a formal review of its rules every 2 years. In the review, each agency must [s]eek to improve efficiency, reduce paperwork, or decrease costs to government and the private sector."
[2] Section 97.052(1), F.S.
[3] Section 97.052(2), F.S.
[4] Section 101.20(2), F.S.

Transmittal of Enacted Ordinances

Current law provides requirements for counties to adhere to when exercising the ordinance-making powers conferred by the State Constitution.[5] It establishes the following regular enactment procedure:

> The board of county commissioners at any regular or special meeting may enact or amend any ordinance … if notice of intent to consider such ordinance is given at least 10 days prior to said meeting by publication in a newspaper of general circulation in the county. A copy of such notice shall be kept available for public inspection during the regular business hours of the office of the clerk of the board of county commissioners. The notice of proposed enactment shall state the date, time, and place of the meeting; the title or titles of proposed ordinances; and the place or places within the county where such proposed ordinances may be inspected by the public. The notice shall also advise that interested parties may appear at the meeting and be heard with respect to the proposed ordinance.[6]

Certified copies of ordinances or amendments thereto must be filed with the Department of State by the clerk of the board of county commissioners within 10 days after enactment by the board. The ordinances or amendments take effect upon filing with the Department of State, unless the ordinance prescribes a later effective date.[7]

Value Adjustment Boards

Value adjustment boards are constituted in each county to conduct administrative hearings relating to assessments, complaints relating to homestead exemptions, appeals from tax exemptions denied, and appeals concerning ad valorem deferrals and classifications.[8] The value adjustment board must render a written decision within 20 calendar days after the last day the board is in session. The clerk must then provide notice of the board's decision by first-class mail.[9]

Property Appraisers

Current law requires each property appraiser to provide notice of proposed property taxes and non-ad valorem assessments by first-class mail to each taxpayer listed on the current year's assessments. Elements that must be included on such notice are prescribed by statute.[10]

[5] Section 125.66(1), F.S.
[6] Section 125.66(2)(a), F.S.
[7] Section 125.66(2)(b), F.S.
[8] Section 194.032(1)(a), F.S.
[9] Section 194.034(2), F.S.
[10] Section 200.069, F.S.

III. Effect of Proposed Changes:

Section 1 amends s. 97.052, F.S., to require the statewide voter registration application to include a field for an applicant's e-mail address and an indication of whether the applicant wishes to receive sample ballots by e-mail.

Section 2 amends s. 101.20(2), F.S., to permit a supervisor of elections to provide electronic sample ballots to electors who have provided e-mail addresses and opted into the electronic ballot delivery system..

Section 3 amends s. 125.66(2)(b), F.S., to require a clerk of a board of county commissioners to electronically transmit to the Department of State enacted ordinances, amendments, and emergency ordinances. It requires the Department of State to electronically confirm by e-mail the receipt and the effective date of such filings with the clerk of the board of county commissioners.

Section 4 amends s. 194.034(2), F.S., to permit the clerk of a value adjustment board to electronically notify the taxpayer and property appraiser of the value adjustment board's decision in a hearing held pursuant to s. 194.034, F.S., if electronic means is selected by the taxpayer on the originally filed petition.

Section 5 amends s. 200.069, F.S., to require a property appraiser to provide legal notice in a newspaper or periodical meeting the requirements of s. 50.011, F.S., that proposed property taxes and non-ad valorem assessments are available for viewing and download at the appraiser's website It also authorizes a property appraiser to provide notification by e-mail to property owners or other interested parties who have registered an e-mail address with the appraiser.

The property appraiser may prepare and make available on his or her office's website a notice of proposed property taxes and non-ad valorem assessments for each taxpayer listed on the year's assessment roll as a separate web page, link, attachment, or document, only after the county governing board has approved the measure by ordinance, as requested by the property appraiser. Such online notice from the appraiser must meet specified criteria, including, but not limited to, specifying all substantive elements required for such notice. The property appraiser may display the required substantive elements in a format different from that prescribed by the Department of Revenue only upon receiving prior written permission from the executive director of the Department. The format may contain additional substantive elements deemed important by the appraiser, in addition to the elements provided for by law.

Section 6 provides an effective date of October 1, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, Sec. 18, of the Constitution of the State of Florida excuses local governments from complying with state mandates that impose negative fiscal consequences. Subsection (a) provides, "No county or municipality shall be bound by any general law requiring such county or municipality to spend funds or to take an action requiring the

expenditure of funds" unless certain requirements are met. However, several exemptions and exceptions exist.

Subsection (d) of Art. VII, Sec. 18, exempts those laws that have an insignificant fiscal impact from the requirements of the mandates provision. Whether a particular bill results in a significant impact must be determined on an aggregate, statewide basis. Laws determined to have an "insignificant fiscal impact," which means an amount not greater than the average statewide population for the applicable fiscal year times $0.10 ($1.9 million for FY 2012-2013[11]), are exempt.[12]

This bill could cause counties to incur additional expenses associated with the requirement that the property appraiser post certain tax information on his or her office's website. The overall collective financial impact would appear unlikely to exceed $1.9 million per year in the aggregate. Accordingly, it would appear as if the bill is exempt from paragraph (a).

The mandates provision does not apply to the changes being made to ss. 97.052 and 101.20, F.S., because subsection 18(d) of Article VII, Fla. Const., explicitly exempts election laws from the mandates provision.

B. Public Records/Open Meetings Issues:

Current law provides a public record exemption for certain information held by an agency for purposes of voter registration.[13] SB 1260 is the public records bill linked to SB 1352 expanding the current public records exemption for voter registration information to include e-mail addresses of a voter registration applicant or voter.

C. Trust Funds Restrictions:

None.

D. Other Constitutional Issues:

Preclearance Requirement

The Department of State provided the following comments regarding preclearance:

> Under section 5 of the Voting Rights Act, new statewide legislation that implements a voting change, including but not limited to, a change in the manner of voting, change in registration, balloting, and the counting of votes, change in candidacy

[11] Based on the Demographic Estimating Conference's final population estimate for April 1, 2012, which was adopted on November 7, 2012. The Executive Summary can be found at: http://edr.state.fl.us/Content/conferences/population/demographicsummary.pdf (Last visited on March 15, 2013).
[12] *See* Florida Senate Committee on Community Affairs, *Interim Report 2012-115: Insignificant Fiscal Impact*, (September 2011), available at: http://www.flsenate.gov/PublishedContent/Session/2012/InterimReports/2012-115ca.pdf (last visited on March 15, 2013).
[13] Section 97.0585, F.S.

requirements and qualifications, change in the composition of the electorate that may vote for a candidate, or change affecting the creation or abolition of an elective office, is subject to preclearance by the U.S. Department of Justice or the federal District Court for the District of Columbia. The preclearance review is to determine if the change has a discriminatory purpose or effect that denies or abridges the right to vote on account of race, color or membership in a language minority group in a covered jurisdiction. Florida has five covered jurisdictions subject to preclearance: Collier, Hardee, Hendry, Hillsborough, and Monroe counties. Until precleared by federal authorities, the legislation is unenforceable in these five counties.[14]

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The Department of State does not anticipate any fiscal impact associated with modifying the uniform statewide voter application.

There may be a fiscal impact on supervisors of elections associated with maintaining the e-mail address of voters and voter registration applicants, and with monitoring which registered voters wish to receive sample ballots electronically. Additionally, there may be costs to supervisors of elections related to establishing a system to send sample ballots electronically. However, it is anticipated that some, if not most, of these costs may be offset by savings resulting from the electronic provision of sample ballots.

There may be a fiscal impact on property appraisers associated with the requirement that a property appraiser prepare and make available on his or her office's website notice of proposed property taxes and non-ad valorem assessments for each taxpayer listed on the year's assessment roll.

[14] Department of State, *Analysis on Senate Bill 1352* (March 4, 2013) (on file with the staff of the Senate Community Affairs Committee).

VI. Technical Deficiencies:

According to the Department of Revenue's analysis of SB 1352, "It is not clear how the property appraisers will prove compliance with ss. 200.065 and 200.069, F.S., when electronic notification is used."[15]

Also, s. 200.065, F.S., refers to the mailing of the TRIM Notice with regard to the TRIM timeline and the deadline for filing VAB petitions. This section would have to be updated to refer to the posting of the notices online.[16]

VII. Related Issues:

According to the Department of Revenue's analysis of SB 1352, "Section 4 of this bill would require amendments to the VAB petition form, DR-486, and Rule 12D-9.015, F.A.C."[17]

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 23, 2013:
The committee substitute differs from the prior version of the bill in that it authorizes, rather than requires, the property appraiser to make certain information available on a website, and only after approval by ordinance adopted by the county governing board of that jurisdiction at the request of the property appraiser. In addition, the property appraiser is required to provide legal notice meeting the statutory requirements of legal and official advertisements. Finally, the provision which allowed a supervisor of elections to send sample ballot to a registered elector by e-mail, in lieu of publication, was removed from the bill.

CS by Community Affairs on March 20, 2013:
The committee substitute removes the portions of the bill dealing with bail bondsman, and changes the effective date to October 1, 2013.

B. Amendments:

None.

By the Committee on Community Affairs; and Senator Ring

578-02812-13 20131352c1

A bill to be entitled

An act relating to paper reduction; amending s. 97.052, F.S.; providing that the uniform statewide voter registration application be designed to elicit the e-mail address of an applicant and whether the applicant desires to receive sample ballots by e-mail; amending s. 101.20, F.S.; authorizing a supervisor of elections to send a sample ballot to a registered elector by e-mail under certain circumstances; amending s. 125.66, F.S.; requiring the clerk of a board of county commissioners to electronically transmit enacted ordinances, amendments, and emergency ordinances to the Department of State; amending s. 194.034, F.S.; permitting a value adjustment board to electronically provide the taxpayer and property appraiser with notice of the decision of the board; amending s. 200.069, F.S.; authorizing the property appraiser to notify taxpayers of proposed property taxes by postcard or e-mail in lieu of first-class mail; providing notice language; authorizing the property appraiser to prepare and make available on the appraiser's website the notice of proposed property taxes; providing additional notice requirements; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraphs (e) through (t) of subsection (2) of section 97.052, Florida Statutes, are redesignated as paragraphs

Florida Senate - 2013 **CS for SB 1352**

578-02812-13 20131352c1

(f) through (u), respectively, and a new paragraph (e) is added to that section, to read:

97.052 Uniform statewide voter registration application.—

(2) The uniform statewide voter registration application must be designed to elicit the following information from the applicant:

(e) E-mail address and whether the applicant wishes to receive sample ballots by e-mail.

The registration application must be in plain language and designed so that convicted felons whose civil rights have been restored and persons who have been adjudicated mentally incapacitated and have had their voting rights restored are not required to reveal their prior conviction or adjudication.

Section 2. Subsection (2) of section 101.20, Florida Statutes, is amended to read:

101.20 Publication of ballot form; sample ballots.—

(2) Upon completion of the list of qualified candidates, a sample ballot shall be published by the supervisor of elections in a newspaper of general circulation in the county, before ~~prior to~~ the day of election. In lieu of publication, a supervisor may send a sample ballot to each registered elector by e-mail at least 7 days before any election if an e-mail address has been provided and the elector has opted to receive a sample ballot by electronic delivery. If an e-mail address has not been provided, or if the elector has not opted for electronic delivery ~~If the county has an addressograph or equivalent system for mailing to registered electors~~, a sample ballot may be mailed to each registered elector or to each

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

household in which there is a registered elector, in lieu of publication, at least 7 days before ~~prior to~~ any election.

Section 3. Paragraph (b) of subsection (2) and subsection (3) of section 125.66, Florida Statutes, are amended to read:

125.66 Ordinances; enactment procedure; emergency ordinances; rezoning or change of land use ordinances or resolutions.—

(2)

(b) Certified copies of ordinances or amendments thereto enacted under this regular enactment procedure shall be filed with the Department of State by the clerk of the board of county commissioners within 10 days after enactment by said board and shall take effect upon filing with the Department of State. However, any ordinance may prescribe a later effective date. In lieu of delivery of the certified copies of the enacted ordinances or amendments by first-class mail, the clerk of the board of county commissioners shall transmit the enacted ordinances or amendments to the department by e-mail. The department shall confirm by e-mail the receipt and effective date of the ordinances or amendments with the clerk of the board of county commissioners.

(3) The emergency enactment procedure shall be as follows: The board of county commissioners at any regular or special meeting may enact or amend any ordinance with a waiver of the notice requirements of subsection (2) by a four-fifths vote of the membership of such board, declaring that an emergency exists and that the immediate enactment of said ordinance is necessary. However, no emergency ordinance or resolution shall be enacted which establishes or amends the actual zoning map designation of

a parcel or parcels of land or changes the actual list of permitted, conditional, or prohibited uses within a zoning category. Emergency enactment procedures for land use plans adopted pursuant to part II of chapter 163 shall be pursuant to that part. Certified copies of ordinances or amendments thereto enacted under this emergency enactment procedure by a county shall be filed with the Department of State by the clerk of the board of county commissioners as soon after enactment by said board as is practicable. An emergency ordinance enacted under this procedure shall be transmitted by the clerk of the board of county commissioners by e-mail to the Department of State. It shall be deemed to be filed and shall take effect when a copy has been accepted and confirmed by the department by e-mail ~~deemed to be filed and shall take effect when a copy has been accepted by the postal authorities of the Government of the United States for special delivery by certified mail to the Department of State~~.

Section 4. Subsection (2) of section 194.034, Florida Statutes, is amended to read:

194.034 Hearing procedures; rules.—

(2) In each case, except if the complaint is withdrawn by the petitioner or if the complaint is acknowledged as correct by the property appraiser, the value adjustment board shall render a written decision. All such decisions shall be issued within 20 calendar days after the last day the board is in session under s. 194.032. The decision of the board must contain findings of fact and conclusions of law and must include reasons for upholding or overturning the determination of the property appraiser. If a special magistrate has been appointed, the

recommendations of the special magistrate shall be considered by the board. The clerk, upon issuance of a decision, shall, on a form provided by the Department of Revenue, notify each taxpayer and the property appraiser of the decision of the board. This notification shall be by first-class mail or by electronic means if selected by the taxpayer on the originally filed petition ~~each taxpayer and the property appraiser of the decision of the board~~. If requested by the Department of Revenue, the clerk shall provide to the department a copy of the decision or information relating to the tax impact of the findings and results of the board as described in s. 194.037 in the manner and form requested.

Section 5. Section 200.069, Florida Statutes, is amended to read:

200.069 Notice of proposed property taxes and non-ad valorem assessments.—Pursuant to s. 200.065(2)(b), the property appraiser, in the name of the taxing authorities and local governing boards levying non-ad valorem assessments within his or her jurisdiction and at the expense of the county, shall prepare and deliver by first-class mail to each taxpayer to be listed on the current year's assessment roll a notice of proposed property taxes, which notice shall contain the elements and use the format provided in the following form. Notwithstanding the provisions of s. 195.022, no county officer shall use a form other than that provided herein. The Department of Revenue may adjust the spacing and placement on the form of the elements listed in this section as it considers necessary based on changes in conditions necessitated by various taxing authorities. If the elements are in the order listed, the

placement of the listed columns may be varied at the discretion and expense of the property appraiser, and the property appraiser may use printing technology and devices to complete the form, the spacing, and the placement of the information in the columns. A county officer may use a form other than that provided by the department for purposes of this part, but only if his or her office pays the related expenses and he or she obtains prior written permission from the executive director of the department; however, a county officer may not use a form the substantive content of which is at variance with the form prescribed by the department. The county officer may continue to use such an approved form until the law that specifies the form is amended or repealed or until the officer receives written disapproval from the executive director. In lieu of delivery of the notice of proposed property taxes by first-class mail, the property appraiser may prepare and mail a postcard to each taxpayer listed on the current year's assessment roll, which shall contain at a minimum the following statement:

ATTENTION PROPERTY OWNER

This postcard is your official notification pursuant to sections 192.0105 and 200.069, Florida Statutes, that your notice of proposed property taxes and non-ad valorem assessments is available for viewing and download on my website at ...(website address).... If you are unable to access my website, you are entitled to have a copy of your notice mailed to you for free by contacting my office at ... (telephone number).... Please note: your final tax bill may contain non-ad valorem assessments that may not be reflected on your

notice, such as assessments for roads, fire, garbage, lighting, drainage, water, sewer, or other governmental services and facilities that may be levied by your county, city, or special district.

The property appraiser may also provide notification by e-mail to property owners or other interested parties who have registered an e-mail address with the property appraiser that the notice of proposed property taxes and non-ad valorem assessments is available for viewing and download on the property appraiser office's website. The property appraiser shall prepare and make available for viewing, printing, and downloading on the property appraiser office's website a notice of proposed property taxes and non-ad valorem assessments for each taxpayer to be listed on the current year's assessment roll, which shall be a separate web page, weblink, attachment, or document, and shall contain all the substantive elements as outlined in this section. The property appraiser may use a format for web display of all substantive elements as outlined in this section other than that provided by the department for purposes of this part, but only if the property appraiser's office obtains prior written permission from the executive director of the department. The format may contain substantive elements deemed important by the property appraiser, in addition to the elements outlined in this section. The property appraiser may continue to use the approved format until the law that specifies the form is amended or repealed or until the officer receives written disapproval from the executive director of the department.

(1) The first page of the notice shall read:

NOTICE OF PROPOSED PROPERTY TAXES
DO NOT PAY—THIS IS NOT A BILL

The taxing authorities which levy property taxes against your property will soon hold PUBLIC HEARINGS to adopt budgets and tax rates for the next year.

The purpose of these PUBLIC HEARINGS is to receive opinions from the general public and to answer questions on the proposed tax change and budget PRIOR TO TAKING FINAL ACTION.

Each taxing authority may AMEND OR ALTER its proposals at the hearing.

(2)(a) The notice shall include a brief legal description of the property, the name and mailing address of the owner of record, and the tax information applicable to the specific parcel in question. The information shall be in columnar form. There shall be seven column headings which shall read: "Taxing Authority," "Your Property Taxes Last Year," "Last Year's Adjusted Tax Rate (Millage)," "Your Taxes This Year IF NO Budget Change Is Adopted," "Tax Rate This Year IF PROPOSED Budget Is Adopted (Millage)," "Your Taxes This Year IF PROPOSED Budget Change Is Adopted," and "A Public Hearing on the Proposed Taxes and Budget Will Be Held:."

(b) As used in this section, the term "last year's adjusted tax rate" means the rolled-back rate calculated pursuant to s. 200.065(1).

(3) There shall be under each column heading an entry for the county; the school district levy required pursuant to s.

1011.60(6); other operating school levies; the municipality or municipal service taxing unit or units in which the parcel lies, if any; the water management district levying pursuant to s. 373.503; the independent special districts in which the parcel lies, if any; and for all voted levies for debt service applicable to the parcel, if any.

(4) For each entry listed in subsection (3), there shall appear on the notice the following:

(a) In the first column, a brief, commonly used name for the taxing authority or its governing body. The entry in the first column for the levy required pursuant to s. 1011.60(6) shall be "By State Law." The entry for other operating school district levies shall be "By Local Board." Both school levy entries shall be indented and preceded by the notation "Public Schools:". For each voted levy for debt service, the entry shall be "Voter Approved Debt Payments."

(b) In the second column, the gross amount of ad valorem taxes levied against the parcel in the previous year. If the parcel did not exist in the previous year, the second column shall be blank.

(c) In the third column, last year's adjusted tax rate or, in the case of voted levies for debt service, the tax rate previously authorized by referendum.

(d) In the fourth column, the gross amount of ad valorem taxes which will apply to the parcel in the current year if each taxing authority levies last year's adjusted tax rate or, in the case of voted levies for debt service, the amount previously authorized by referendum.

(e) In the fifth column, the tax rate that each taxing

authority must levy against the parcel to fund the proposed budget or, in the case of voted levies for debt service, the tax rate previously authorized by referendum.

(f) In the sixth column, the gross amount of ad valorem taxes that must be levied in the current year if the proposed budget is adopted.

(g) In the seventh column, the date, the time, and a brief description of the location of the public hearing required pursuant to s. 200.065(2)(c).

(5) Following the entries for each taxing authority, a final entry shall show: in the first column, the words "Total Property Taxes:" and in the second, fourth, and sixth columns, the sum of the entries for each of the individual taxing authorities. The second, fourth, and sixth columns shall, immediately below said entries, be labeled Column 1, Column 2, and Column 3, respectively. Below these labels shall appear, in boldfaced type, the statement: SEE REVERSE SIDE FOR EXPLANATION.

(6)(a) The second page of the notice shall state the parcel's market value and for each taxing authority that levies an ad valorem tax against the parcel:

1. The assessed value, value of exemptions, and taxable value for the previous year and the current year.

2. Each assessment reduction and exemption applicable to the property, including the value of the assessment reduction or exemption and tax levies to which they apply.

(b) The reverse side of the second page shall contain definitions and explanations for the values included on the front side.

(7) The following statement shall appear after the values

listed on the front of the second page:

If you feel that the market value of your property is inaccurate or does not reflect fair market value, or if you are entitled to an exemption or classification that is not reflected above, contact your county property appraiser at ...(phone number)... or ...(location).... If the property appraiser's office is unable to resolve the matter as to market value, classification, or an exemption, you may file a petition for adjustment with the Value Adjustment Board. Petition forms are available from the county property appraiser and must be filed ON OR BEFORE ...(date)....

(8) The reverse side of the first page of the form shall read:

EXPLANATION

*COLUMN 1—"YOUR PROPERTY TAXES LAST YEAR"
This column shows the taxes that applied last year to your property. These amounts were based on budgets adopted last year and your property's previous taxable value.
*COLUMN 2—"YOUR TAXES IF NO BUDGET CHANGE IS ADOPTED"
This column shows what your taxes will be this year IF EACH TAXING AUTHORITY DOES NOT CHANGE ITS PROPERTY TAX LEVY. These amounts are based on last year's budgets and your current assessment.
*COLUMN 3—"YOUR TAXES IF PROPOSED BUDGET CHANGE IS ADOPTED"
This column shows what your taxes will be this year under the BUDGET ACTUALLY PROPOSED by each local taxing authority. The proposal is NOT final and may be amended at the public hearings

shown on the front side of this notice. The difference between columns 2 and 3 is the tax change proposed by each local taxing authority and is NOT the result of higher assessments.

*Note: Amounts shown on this form do NOT reflect early payment discounts you may have received or may be eligible to receive. (Discounts are a maximum of 4 percent of the amounts shown on this form.)

(9) The bottom portion of the notice shall further read in bold, conspicuous print:

"Your final tax bill may contain non-ad valorem assessments which may not be reflected on this notice such as assessments for roads, fire, garbage, lighting, drainage, water, sewer, or other governmental services and facilities which may be levied by your county, city, or any special district."

(10)(a) If requested by the local governing board levying non-ad valorem assessments and agreed to by the property appraiser, the notice specified in this section may contain a notice of proposed or adopted non-ad valorem assessments. If so agreed, the notice shall be titled:

NOTICE OF PROPOSED PROPERTY TAXES
AND PROPOSED OR ADOPTED
NON-AD VALOREM ASSESSMENTS
DO NOT PAY—THIS IS NOT A BILL

There must be a clear partition between the notice of proposed property taxes and the notice of proposed or adopted non-ad

valorem assessments. The partition must be a bold, horizontal line approximately 1/8-inch thick. By rule, the department shall provide a format for the form of the notice of proposed or adopted non-ad valorem assessments which meets the following minimum requirements:

1. There must be subheading for columns listing the levying local governing board, with corresponding assessment rates expressed in dollars and cents per unit of assessment, and the associated assessment amount.

2. The purpose of each assessment must also be listed in the column listing the levying local governing board if the purpose is not clearly indicated by the name of the board.

3. Each non-ad valorem assessment for each levying local governing board must be listed separately.

4. If a county has too many municipal service benefit units or assessments to be listed separately, it shall combine them by function.

5. A brief statement outlining the responsibility of the tax collector and each levying local governing board as to any non-ad valorem assessment must be provided on the form, accompanied by directions as to which office to contact for particular questions or problems.

(b) If the notice includes all adopted non-ad valorem assessments, the provisions contained in subsection (9) shall not be placed on the notice.

Section 6. This act shall take effect October 1, 2013.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 1388 (413204)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Education); Committee on Education; and Senator Montford
SUBJECT:	Instructional Materials for K-12 Public Education
DATE:	April 21, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION

6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

PCS/CS/SB 1388 increases flexibility for a school district while requiring instructional materials to align with state standards. The bill authorizes a school district to review, approve and purchase instructional materials, while retaining a DOE statewide instructional materials review process.

The local and state instructional materials review processes will have a cost; however, the cost may be mitigated or offset with a fee assessed to publishers. The fees are to be used to cover the cost of substitute teachers who replace teachers selected to review materials, and travel and per diem costs. Reviewers may be paid a stipend. There is no requirement for a state appropriation.

The bill takes effect July 1, 2013.

The bill substantially amends the following sections of the Florida Statutes: 1001.10, 1003.55, 1003.621, 1006.28, 1006.29, 1006.30, 1006.31, 1006.32, 1006.34, 1006.35, 1006.36, 1006.37, 1006.38, 1006.40, and 1011.62, Florida Statutes, and repeals sections 1006.282, and 1006.33.

The bill creates section 1006.283, Florida Statutes.

II. Present Situation:

School Districts

A school district must provide adequate instructional materials for its students, ensure the materials are consistent with the district's educational goals, and ensure the materials meet the objectives and the curriculum frameworks adopted by the State Board of Education (SBE).[1]

The district is required to purchase current instructional materials in the core areas to provide students with current tools of instruction.[2] This purchase must be made within the first two years of the effective date of the adoption cycle.[3] Up to fifty percent of the allocation may be used to purchase non-adopted materials.[4]

Superintendents must, at the Department of Education's (DOE) request, provide an experienced classroom teacher or district-level content supervisor with expertise in the content area to review submissions recommended for adoption by the state instructional materials reviewers.[5]

The Commissioner of Education

The Commissioner of Education (Commissioner) establishes the number of items to be adopted by the state.[6] The Commissioner appoints three state instructional materials reviewers to review instructional materials and evaluate the content for alignment with the applicable standards.[7] An evaluation by the third reviewer will only be required for situations in which the first two reviewers disagree as to whether materials should be placed on the state-adopted materials list.[8]

The Commissioner has the authority to select and adopt instructional materials for each grade and subject area and to contract with publishers for the instructional materials adopted.[9] The term of the adoption is five years.[10]

State Instructional Materials Reviewers and Content

Reviewers must evaluate all materials submitted by publishers in each adoption to determine if the material aligns with the applicable state standards, developed criteria, and any applicable performance standards.[11]

---

[1] ss. 1006.28(1) and 1001.03(1), F.S.
[2] s. 1006.40(2), F.S.
[3] *Id.*
[4] s. 1006.40(3)(b), F.S.
[5] s. 1006.29(1), F.S.
[6] s. 1006.35(3), F.S.
[7] s. 1006.29(1)(b), F.S.
[8] s. 1006.29(3), F.S.
[9] s. 1006.34(2), F.S.
[10] s. 1006.36(1), F.S.
[11] s. 1006.31(2)(e), F.S.

In addition to the standards, materials should also reflect appropriate diversity, include the Constitution and the Declaration of Independence in the social studies content area, and ensure that materials do not reflect unfairly upon people because of their race, color, creed, national origin, ancestry, gender, or occupation.[12] Reviewers must report to the DOE the materials being recommended that meet the guidelines for adoption.[13]

Publishers

Publishers of instructional materials must, in part:

- Submit detailed specifications of the physical characteristics of the instructional materials;
- Provide evidence that the materials address the performance standards;
- Furnish the instructional materials at a price which matches the lowest price offered anywhere else in the United States;
- Guarantee that any instructional materials sold in Florida will be equal in quality to the instructional materials sold elsewhere in the United States and will be kept up-to-date; and
- Maintain or contract with a depository in the state and keep an inventory.[14]

III. Effect of Proposed Changes:

The bill increases flexibility for a school district while requiring instructional materials to align with state standards. The bill authorizes a school district to review, approve and purchase instructional materials, while retaining a DOE statewide instructional materials review process.

District School Board Instructional Materials Program

The bill creates the district school board instructional materials program. The program allows a district school board, or consortium of school districts, to implement an instructional materials program that includes the review, approval, and purchasing of instructional materials. The school district would be able to set and collect fees, not to exceed fees assessed by the Department of Education (DOE), from publishers that participate in the instructional materials approval process. The fees would be allocated for the support of the review process, and maintained in a separate line item for auditing purposes. The school district cannot collect fees for materials that DOE approves and places on its website. The school district would adopt rules to implement the program.

If a school district elected to participate in the program, the school district would notify DOE and provide an annual report to the legislature, and the superintendent would annually certify to the DOE by March 31 that all core instructional materials are aligned with applicable state standards, and include a list of all school district approved core instructional materials that would be used or purchased. Each principal would be required to verify that all instructional materials are fully and properly accounted for as prescribed by school district rule.

[12] s. 1006.31(2)(d), F.S.
[13] s. 1006.31(3), F.S.
[14] s. 1006.38, F.S.

School District Instructional Materials Allocation

School districts would be required to provide current instructional materials to each student with a major tool or assistance in core courses. The bill deletes the requirement for such materials to be purchased within the first 2 years after the effective date of an adoption cycle. By the 2015-2016 school year, school districts could use at least 50 percent of the annual allocation for the purchase of digital or electronic instructional materials that align with state standards. Remaining funds would be used for the purchase of instructional materials or other items including library and reference books and non-print materials, having intellectual content which assist in the instruction of a subject or course.

State Instructional Review

The bill retains the ability for DOE to have a state instructional material review process, and would increase the number of state instructional material reviewers appointed by the Commissioner, from 3 to up to 5. The 5 members would include: 2 professional content experts; 2 K-12 educators that are active teachers or supervisors and represent the major fields and levels in which instructional materials are used; and 1 layperson. A DOE content expert may be an alternate reviewer. Publishers would have the opportunity to provide a live, virtual, or in-person presentation to the reviewers.

The DOE would adopt a rule to assess and collect fees to support the review process. The fees would be deposited in the DOE Operating Trust Fund. A district school board would be reimbursed for the cost of a substitute teacher for each workday an employee is acting as a state reviewer. Additionally, each reviewer would receive a travel and per diem stipend in accordance with section 112.061, F.S.

The definition of "instructional materials" would be expanded from materials that serve as a "major tool for assisting" to a "major tool or for assisting" in the instruction of a subject or course.

State List of Approved Instructional Materials

By March 1 of each year, the DOE would publish on its website a list of all instructional materials that are approved by the DOE or that are approved by another state, if such materials align with applicable state standards. The list would be maintained and updated, and include sufficient instructional materials or major tools to cover all of the core content areas. The purchase price would be posted. District approved materials would also be posted on the website.

The Commissioner would be able to remove approved instructional materials from the list if a manufacturer refused to correct errors, at the publisher's request, if there is no material impact on the state's education goals, or if the materials do not align with all applicable state standards. If the Commissioner removes materials from the list, a district may not purchase the materials for use in core content areas.

District and State Instructional Materials Reviewer Duties

Instructional material reviewers for both the district and state processes would use certain standards to determine the propriety of materials, such as:

- The age of student who normally could be expected to have access to the material.
- The educational purpose served by the material.
- The degree to which the material would be supplemented and explained by mature classroom instruction as part of a normal classroom instructional program.
- The degree to which the material represents the broad racial, ethnic, socioeconomic, and cultural diversity of students in the state.
- Any instructional material that contains pornography or that is otherwise harmful to minors, may not be used or made available within any public school.

Instructional Material Publishers

The bill authorizes, but no longer requires, school districts to purchase instructional materials from a publisher's book depository. A publisher would provide materials to the school district with most-favored-nations pricing, with automatic reductions, based on materials sold to any other state or school district in the state or nation. The costs for a product would not increase, and would be posted on all marketing materials.

The bill requires publisher duties and responsibilities to apply to both the school district and DOE approval processes. Beginning in 2013-2014, publishers would no longer be required to provide evidence that the instructional materials include specific reference to statewide standards at the point of student use. Publishers would still be required to provide the evidence in the teachers' manual and incorporate the standards into chapter tests and assessments.

The bill deletes the prohibition on a school district or publisher from participating in a pilot program of materials being considered during the 18-month period before the official adoption of the materials by the commissioner.

Commissioner's Report to the Legislature

The bill requires the Commissioner to annually submit by January 1 to the Governor, the President of the Senate, and the Speaker of the House of Representatives, and the State Board of Education, an annual report regarding district and state instructional material reviews, the impact on the quality and availability of instructional materials, and the cost-effectiveness of the state and district review processes.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The bill authorizes school districts to set and collect fees from publishers that participate in the instructional materials approval process. The school district fees may not exceed those set by DOE, and the school district may not charge a fee for materials already on the state list.

C. Government Sector Impact:

The bill authorizes school districts to charge publishers that participate in the instructional materials process a fee. The fee revenues are to be used to support the review process, and may offset the costs. The school district fees may not exceed those set by DOE, and the school district may not charge a fee for materials already on the state list.

The bill authorizes, but does not require, the DOE to assess a fee of the publishers who participate in the review process. Fee revenues are to be used to cover the cost of the review process, including meeting, travel, per diem, and costs for hiring substitute teachers who replace teachers who are selected to be reviewers. Reviewers are entitled to reimbursement for travel and per diem and may be paid a stipend. An estimate of this cost is as much as $750,000 annually based on a $500 stipend for each of the five reviewers for roughly 300 content area submissions that are provided for review. However, the bill is permissive regarding the stipend and, if provided, would be supported by fee revenue.

This bill does not required a state appropriation.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Education on April 11, 2013:
The committee substitute:

- Requires reviewers to use specific standards to determine propriety of instructional materials.
- Requires DOE to annually post a list of approved instructional materials on its website.
- Restructures the eligibility requirements for instructional material reviewers.
- Authorizes the Commissioner to remove materials on the list under certain circumstances.
- Deletes the requirement for school districts to purchase instructional materials within the first 2 years of an adoption cycle.
- Deletes the requirement for school districts to purchase instructional materials from the publisher's depository.
- Deletes the requirement for a publisher to identify the statewide standards at the point of student use.
- Repeals the school district pilot program for transition to electronic and digital instructional materials and
- Revised the DOE process for reviewing materials submitted by publishers.

CS by Education on April 1, 2013:
CS/SB 1388 differs from SB 1388 in that it:

- Requires a district school board to adopt rules implementing an instructional materials review program, as opposed to identifying specific requirements in law.
- Reinstates statewide adoption of instructional materials by DOE, as opposed to a process by which a school district or publisher may refer review of instructional materials to the DOE.
- Changes the definition of "instructional materials" to include materials that serve as a "tool" that assists, as opposed to simply assisting in the instruction of a subject or course.
- Deletes the prohibition of a school district assessing a fee to review materials that were previously evaluated by the state, but caps the fees a district may collect to be no more than assessed by the state.
- Removes proposed amendments to ss. 1001.10, 1003.55, 1003.621, 1006.28, 1006.30, 1006.31, 1006.32, 1006.34, 1006.35, 1006.36, 1006.38, and 1011.62, F.S.
- Deletes the proposed repeal of ss. 1006.282, 1006.33, 1006.37, and 1010.82, F.S.

B. Amendments:

None.

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
04/25/2013	.	
	.	
	.	
	.	

The Committee on Appropriations (Montford) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Paragraph (b) of subsection (1) and subsection (2) of section 1006.28, Florida Statutes, are amended to read:

1006.28 Duties of district school board, district school superintendent; and school principal regarding K-12 instructional materials.—

(1) DISTRICT SCHOOL BOARD.—The district school board has the duty to provide adequate instructional materials for all students in accordance with the requirements of this part. The

term "adequate instructional materials" means a sufficient number of student or site licenses or sets of materials that are available in bound, unbound, kit, or package form and may consist of hardbacked or softbacked textbooks, electronic content, consumables, learning laboratories, manipulatives, electronic media, and computer courseware or software that serve as the basis for instruction for each student in the core courses of mathematics, language arts, social studies, science, reading, and literature. The district school board has the following specific duties:

(b) *Instructional materials.*—Provide for proper requisitioning, distribution, accounting, storage, care, and use of all instructional materials and furnish such other instructional materials as may be needed. The district school board shall ensure that instructional materials used in the district are consistent with the district goals and objectives and the course descriptions established in ~~curriculum frameworks adopted by~~ rule of the State Board of Education, as well as with the state and district performance standards provided for in s. 1001.03(1).

(2) DISTRICT SCHOOL SUPERINTENDENT.—

(a) The district school superintendent has the duty to recommend such plans for improving, providing, distributing, accounting for, and caring for instructional materials and other instructional aids as will result in general improvement of the district school system, as prescribed in this part, in accordance with adopted district school board rules prescribing the duties and responsibilities of the district school superintendent regarding the requisition, purchase, receipt,

storage, distribution, use, conservation, records, and reports of, and management practices and property accountability concerning, instructional materials, and providing for an evaluation of any instructional materials to be requisitioned that have not been used previously in the district's schools. The district school superintendent must keep adequate records and accounts for all financial transactions for funds collected pursuant to subsection (3), as a component of the educational service delivery scope in a school district best financial management practices review under s. 1008.35.

(b) Beginning in the 2013-2014 school year, each district school superintendent shall certify to the department by March 31 of each year that all instructional materials for core courses used by the district are aligned with applicable state standards. A list of the state-approved or district-approved core instructional materials that will be used or purchased for use by the school district shall be included in the certification ~~notify the department by April 1 of each year the state-adopted instructional materials that will be requisitioned for use in his or her school district~~. ~~The notification shall include a district school board plan for instructional materials use to assist in determining if adequate instructional materials have been requisitioned.~~

(c) Each principal shall verify that all instructional materials are fully and properly accounted for as prescribed by adopted rules of the district school board.

Section 2. Section 1006.282, Florida Statutes, is repealed.

Section 3. Section 1006.283, Florida Statutes, is created to read:

1006.283 District school board instructional materials review process.—

(1) A school board or consortium of school districts may implement an instructional materials program that includes the review, approval, and purchasing of instructional materials. Beginning in the 2013-2014 school year, the district school superintendent shall certify to the department by March 31 of each year that all instructional materials for core courses used by the district are aligned with applicable state standards. Included in the certification shall be a list of the core instructional materials that will be used or purchased for use by the school district.

(2) The school board shall adopt rules implementing the district's instructional materials program which must include, but need not be limited to:

(a) Its review and purchase process.

(b) Identification of a review cycle for instructional materials.

(c) The duties and qualifications of the instructional materials reviewers.

(d) The requirements for an affidavit made by a district instructional materials reviewer, which substantially includes the requirements of s. 1006.30.

(e) Compliance with s. 1006.32, relating to prohibited acts.

(f) A process that certifies the accuracy of instructional materials.

(g) The incorporation of applicable requirements of s. 1006.38, relating to the duties, responsibilities, and

requirements of publishers of instructional materials.

(h) The process by which instructional materials will be purchased, including advertising, bidding, and purchasing requirements.

(3)(a) The school board may assess and collect fees from publishers participating in the instructional materials approval process. The amount assessed and collected must be posted on the school district's website and reported to the department. The fees may not exceed the amount established in state board rule under s. 1006.34(2). Any fees collected for this process shall be allocated for the support of the review process and maintained in a separate line item for auditing purposes. Fees may not be collected from publishers to review instructional materials that are approved by the department and placed on the department's website.

(b) The fees shall be used to cover the actual cost of substitute teachers for each workday that a member of a school district's instructional staff is absent from his or her assigned duties for the purpose of rendering service as an instructional materials reviewer. In addition, each reviewer may be paid a stipend and is entitled to reimbursement for travel expenses and per diem in accordance with s. 112.061 for actual service in meetings.

(4) Instructional materials that have been reviewed by the district instructional materials reviewers and approved must have been determined to align with all applicable state standards pursuant to s. 1003.41 and the requirements in s. 1006.31. The district school superintendent shall annually certify to the department that all instructional materials for

core courses used by the district are aligned with all applicable state standards.

(5) A publisher that offers instructional materials to a district school board must provide such materials at a price that, including all costs of electronic transmission, does not exceed the lowest price at which the publisher offers such instructional materials for approval or sale to any state or school district in the United States.

(6) A publisher shall reduce automatically the price of the instructional materials to the district school board to the extent that reductions are made elsewhere in the United States.

Section 4. Section 1006.29, Florida Statutes, is amended to read:

1006.29 Department of Education ~~State~~ instructional materials reviewers.—

(1) For purposes of this section, the term "instructional materials" means items that have intellectual content and that, by design, serve as a major tool or for assisting in the instruction of a subject or course.

(2) ~~(1)~~ (a) The commissioner shall determine annually the areas in which instructional materials shall be submitted for approval ~~adoption~~, taking into consideration the desires of the district school boards. ~~The commissioner shall also determine the number of titles to be adopted in each area.~~

(b) ~~By April 15 of each school year,~~ The department ~~commissioner~~ shall appoint five reviewers for each submission by a publisher or district school board ~~three state or national experts in the content areas submitted for adoption~~ to review for approval the instructional materials and evaluate the

426402

content for alignment with the applicable ~~Next Generation Sunshine~~ state standards. ~~These reviewers shall be designated as state instructional materials reviewers and shall review~~ The materials shall be evaluated for the level of instructional support and the accuracy and appropriateness of progression of introduced content. Instructional materials shall be made electronically available to the reviewers. The state review of the instructional materials shall be made by the five reviewers. Two of the reviewers must be professional content experts, two must be K-12 educators who are actively engaged in teaching or in the supervision of teaching in the public elementary, middle, or high schools and represent the major fields and levels in which instructional materials are used in the public schools, and one must be a lay person who is not professionally connected with education. In the event only four reviewers can be procured, or if one of the five reviewers is unable to fulfill his or her responsibilities, the additional reviewer may be a content expert from the department. As part of the review process, each reviewer shall be provided training on the electronic review system. The reviewers shall independently make recommendations to the commissioner regarding materials that should be placed on the list of approved materials through an electronic feedback review system.

(c) The department may assess and collect fees in accordance with s. 1006.34(2). The amount assessed and collected shall be posted on the department's website and must be reported to the State Board of Education. Any fees collected for this process shall be allocated for the support of the review process, maintained in a separate account for auditing purposes,

426402

and deposited in the department's Operating Trust Fund.

(d) Fees collected under paragraph (c) shall be used to cover the cost of the review process, including the cost of any meetings and applicable travel and per diem, and the amount paid by a school district to substitute teachers who fill in for instructional staff that is absent for the purpose of rendering service as an instructional materials reviewer. In addition, each reviewer may be paid a stipend and is entitled to reimbursement for travel expenses and per diem in accordance with s. 112.061 for actual service in meetings ~~The initial review of the materials shall be made by only two of the three reviewers. If the two reviewers reach different results, the third reviewer shall break the tie. The reviewers shall independently make recommendations to the commissioner regarding materials that should be placed on the list of adopted materials through an electronic feedback review system.~~

(e) ~~(c)~~ The commissioner shall request each district school superintendent to nominate one classroom teacher or district-level content supervisor to review two or three of the submissions recommended by the department ~~state~~ instructional materials reviewers. School districts shall ensure that these district reviewers are provided with the support and time necessary to accomplish a thorough review of the instructional materials. District reviewers shall independently rate the recommended submissions on the instructional usability of the resources. District reviewers may be paid a stipend and are entitled to reimbursement for travel expenses and per diem in accordance with s. 112.061 for actual service in meetings, if applicable.

(3)~~(2)~~ For purposes of approving materials ~~state adoption~~, the term "instructional materials" means items having intellectual content that by design serve as a major tool or for assisting in the instruction of a subject or course. These items may be available in bound, unbound, kit, or package form and may consist of hardbacked or softbacked textbooks, electronic content, consumables, learning laboratories, manipulatives, electronic media, and computer courseware or software. A publisher or manufacturer providing instructional materials as a single bundle shall also make the instructional materials available as separate and unbundled items, each priced individually. A publisher shall ~~may~~ also offer sections of ~~state-adopted~~ instructional materials in digital or electronic versions at reduced rates to districts, schools, and teachers.

(4)~~(3)~~ Beginning in the 2015-2016 academic year, all approved ~~adopted~~ instructional materials for students in kindergarten through grade 12 must be provided in an electronic or digital format. For purposes of this section, the term:

(a) "Electronic format" means text-based or image-based content in a form that is produced on, published by, and readable on computers or other digital devices and is an electronic version of a printed book, whether or not any printed equivalent exists.

(b) "Digital format" means text-based or image-based content in a form that provides the student with various interactive functions; that can be searched, tagged, distributed, and used for individualized and group learning; that includes multimedia content such as video clips, animations, and virtual reality; and that has the ability to be

accessed at any time and anywhere.

The terms do not include electronic or computer hardware even if such hardware is bundled with software or other electronic media, nor does it include equipment or supplies.

(5) ~~(4)~~ The department shall develop a training program for persons selected to review submitted ~~as state~~ instructional materials ~~reviewers and school district reviewers~~. The program shall be structured to assist reviewers in developing the skills necessary to make valid, culturally sensitive, and objective decisions regarding the content and rigor of instructional materials. All persons reviewing ~~serving as~~ instructional materials ~~reviewers~~ must complete the training program prior to beginning the review and selection process.

(6) By March 1 of each year, the department shall post on its website a list of department-approved instructional materials and instructional materials approved by other states which align with applicable state standards. The list shall be maintained and updated periodically. The list shall be comprehensive and include sufficient instructional materials or major tools to cover all of the core content areas. The posting must include the purchase price of each product once it is purchased anywhere in the United States. In addition to the posting, the department shall send school district administrators periodic updates to the website. District-approved instructional materials shall also be posted on the website.

Section 5. Section 1006.30, Florida Statutes, is amended to read:

1006.30 Affidavit of the Department of Education ~~state~~ instructional materials reviewers.—Before transacting any business, each department ~~state~~ instructional materials reviewer shall make an affidavit, to be filed with the department, that:

(1) The reviewer will faithfully discharge the duties imposed upon him or her.

(2) The reviewer has no interest in any publishing or manufacturing organization that produces or sells instructional materials.

(3) The reviewer is in no way connected with the distribution of the instructional materials.

(4) The reviewer does not have any direct or indirect pecuniary interest in the business or profits of any person engaged in manufacturing, publishing, or selling instructional materials designed for use in the public schools.

(5) The reviewer will not accept any emolument or promise of future reward of any kind from any publisher or manufacturer of instructional materials or his or her agent or anyone interested in, or intending to bias his or her judgment in any way in, the selection of any materials to be approved ~~adopted~~.

(6) The reviewer understands that it is unlawful to discuss matters relating to instructional materials submitted for approval ~~adoption~~ with any agent of a publisher or manufacturer of instructional materials, either directly or indirectly, except during the period when the publisher or manufacturer is providing a presentation for the reviewer during his or her review of the instructional materials submitted for approval ~~adoption~~.

Section 6. Section 1006.31, Florida Statutes, is amended to

426402

read:

1006.31 Duties of the Department of Education and school district ~~each state~~ instructional materials reviewer.—The duties of the ~~each state~~ instructional materials reviewer are:

(1) PROCEDURES.—To adhere to procedures prescribed by the department or the district for evaluating instructional materials submitted by publishers and manufacturers in each review for approval ~~adoption~~.

(2) EVALUATION OF INSTRUCTIONAL MATERIALS.—To evaluate carefully all instructional materials submitted, in order to ascertain which instructional materials, if any, submitted for consideration implement the selection criteria developed by the department or the district and those curricular objectives included within applicable performance standards provided for in s. 1001.03(1).

(a) When evaluating ~~recommending~~ instructional materials for use in the schools, each reviewer shall include only instructional materials ~~that~~ accurately portray the ethnic, socioeconomic, cultural, and racial diversity of our society, including men and women in professional, career, and executive roles, and the role and contributions of the entrepreneur and labor in the total development of this state and the United States.

(b) When evaluating ~~recommending~~ instructional materials for use in the schools, each reviewer shall include only materials that accurately portray, whenever appropriate, humankind’s place in ecological systems, including the necessity for the protection of our environment and conservation of our natural resources and the effects on the human system of the use

426402

of tobacco, alcohol, controlled substances, and other dangerous substances.

(c) When evaluating ~~recommending~~ instructional materials for use in the schools, each reviewer shall require such materials as he or she deems necessary and proper to encourage thrift, fire prevention, and humane treatment of people and animals.

(d) When evaluating ~~recommending~~ instructional materials for use in the schools, each reviewer shall require, when appropriate to the comprehension of students, that materials for social science, history, or civics classes contain the Declaration of Independence and the Constitution of the United States. A reviewer may not recommend any instructional materials for use in the schools which contain any matter reflecting unfairly upon persons because of their race, color, creed, national origin, ancestry, gender, or occupation.

(e) When evaluating instructional materials, library media, and other reading material for use in the schools, a reviewer shall use the following standards to determine the propriety of the material:

1. The age of students who normally could be expected to have access to the material.

2. The educational purpose to be served by the material. In considering instructional materials for classroom use, priority shall be given to the selection of materials that encompass the state and district school board performance standards provided for in s. 1001.03(1) and include the instructional objectives contained within the course descriptions established in rule by the State Board of Education.

3. The degree to which the material would be supplemented and explained by mature classroom instruction as part of a normal classroom instructional program.

4. The degree to which the material represents the broad racial, ethnic, socioeconomic, and cultural diversity of students in the state.

Any instructional material containing pornography or otherwise prohibited by s. 847.012 may not be used or made available within any public school.

(f) ~~(c) Any~~ Instructional material recommended by a ~~each~~ reviewer for use in the schools shall be, to the satisfaction of the ~~each~~ reviewer, accurate, objective, and current and suited to the needs and comprehension of students at their respective grade levels. Reviewers shall consider for adoption materials developed for academically talented students such as those enrolled in advanced placement courses.

(3) REPORT OF REVIEWERS.—After a thorough study of all data submitted on each instructional material, to submit an electronic report to the department. The report shall be made public and must include responses to each section of the report format prescribed by the department.

Section 7. Section 1006.32, Florida Statutes, is amended to read:

1006.32 Prohibited acts.—

(1) A publisher or manufacturer of instructional material, or any representative thereof, may not offer to give any emolument, money, or other valuable thing, or any inducement, to any district school board official or department or district

426402

~~state~~ instructional materials reviewer to directly or indirectly introduce, recommend, vote for, or otherwise influence the approval ~~adoption~~ or purchase of any instructional materials.

(2) A district school board official or a department or district ~~state~~ instructional materials reviewer may not solicit or accept any emolument, money, or other valuable thing, or any inducement, to directly or indirectly introduce, recommend, vote for, or otherwise influence the approval ~~adoption~~ or purchase of any instructional material.

~~(3) A district school board or publisher may not participate in a pilot program of materials being considered for adoption during the 18-month period before the official adoption of the materials by the commissioner. Any pilot program during the first 2 years of the adoption period must have the prior approval of the commissioner.~~

(3)~~(4)~~ A ~~Any~~ publisher or manufacturer of instructional materials or representative thereof or a ~~any~~ district school board official or department or district ~~state~~ instructional materials reviewer who violates any provision of this section commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083. A ~~Any~~ representative of a publisher or manufacturer who violates any provision of this section, in addition to any other penalty, shall be banned from practicing business in the state for a period of 1 calendar year.

(4)~~(5)~~ This section does not prohibit any publisher, manufacturer, or agent from supplying, for purposes of examination, necessary sample copies of instructional materials to any district school board official or department or district

426402

~~state~~ instructional materials reviewer.

(5)~~(6)~~ This section does not prohibit a district school board official or department or district ~~state~~ instructional materials reviewer from receiving sample copies of instructional materials.

(6)~~(7)~~ This section does not prohibit or restrict a district school board official from receiving royalties or other compensation, other than compensation paid to him or her as commission for negotiating sales to district school boards, from the publisher or manufacturer of instructional materials written, designed, or prepared by such district school board official~~,~~ and ~~adopted by the commissioner or~~ purchased by any district school board. A ~~No~~ district school board official may not ~~shall be allowed to~~ receive royalties on any materials not ~~on the state-adopted list~~ purchased for use by his or her district school board.

(7)~~(8)~~ A district school superintendent, district school board member, teacher, or other person officially connected with the government or direction of public schools may not receive during the months actually engaged in performing duties under his or her contract any private fee, gratuity, donation, or compensation, in any manner whatsoever, for promoting the sale or exchange of any instructional material, map, or chart in any public school, or be an agent for the sale or the publisher of any instructional material or reference work, or have a direct or indirect pecuniary interest in the introduction of any such instructional material, and any such agency or interest shall disqualify any person so acting or interested from holding any district school board employment whatsoever, and the person

426402

commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083; however, this subsection does not prevent the approval ~~adoption~~ of any instructional material written in whole or in part by a Florida author.

Section 8. Section 1006.33, Florida Statutes, is repealed.

Section 9. Section 1006.34, Florida Statutes, is amended to read:

1006.34 Powers and duties of the State Board of Education ~~commissioner and the department~~ in evaluating ~~selecting and adopting~~ instructional materials.—

(1) PROCEDURES FOR EVALUATING INSTRUCTIONAL MATERIALS.—The State Board of Education shall adopt rules prescribing the procedures by which the department shall evaluate instructional materials submitted by publishers and manufacturers in each review for approval ~~adoption~~. Included in these procedures shall be provisions affording each publisher or manufacturer or his or her representative an opportunity to provide a live virtual or in-person presentation to the department ~~state~~ instructional materials reviewers on the merits of each instructional material submitted in each review for approval ~~adoption~~.

(2) FEES.—The State Board of Education shall adopt by rule a fee schedule specifying the amount of fees that the department may charge publishers who submit instructional materials for review. Fees may not exceed the actual costs for the review, taking into consideration the cost of reviewers, the content area and complexity of the instructional materials to be reviewed, and other relevant factors. The fee schedule must specify the amount that may be collected by the department for each submission.

~~(2) SELECTION AND ADOPTION OF INSTRUCTIONAL MATERIALS.—~~

~~(a) The department shall notify all publishers and manufacturers of instructional materials who have submitted bids that within 3 weeks after the deadline for receiving bids, at a designated time and place, it will open the bids submitted and deposited with it. At the time and place designated, the bids shall be opened, read, and tabulated in the presence of the bidders or their representatives. No one may revise his or her bid after the bids have been filed. When all bids have been carefully considered, the commissioner shall, from the list of suitable, usable, and desirable instructional materials reported by the state instructional materials reviewers, select and adopt instructional materials for each grade and subject field in the curriculum of public elementary, middle, and high schools in which adoptions are made and in the subject areas designated in the advertisement. The adoption shall continue for the period specified in the advertisement, beginning on the ensuing April 1. The adoption shall not prevent the extension of a contract as provided in subsection (3). The commissioner shall always reserve the right to reject any and all bids. The commissioner may ask for new sealed bids from publishers or manufacturers whose instructional materials were recommended by the state instructional materials reviewers as suitable, usable, and desirable; specify the dates for filing such bids and the date on which they shall be opened; and proceed in all matters regarding the opening of bids and the awarding of contracts as required by this part. In all cases, bids shall be accompanied by a cash deposit or certified check of from $500 to $2,500, as the department may direct. The department, in adopting~~

~~instructional materials, shall give due consideration both to the prices bid for furnishing instructional materials and to the report and recommendations of the state instructional materials reviewers. When the commissioner has finished with the report of the state instructional materials reviewers, the report shall be filed and preserved with the department and shall be available at all times for public inspection.~~

~~(b) In the selection of instructional materials, library media, and other reading material used in the public school system, the standards used to determine the propriety of the material shall include:~~

~~1. The age of the students who normally could be expected to have access to the material.~~

~~2. The educational purpose to be served by the material. In considering instructional materials for classroom use, priority shall be given to the selection of materials which encompass the state and district school board performance standards provided for in s. 1001.03(1) and which include the instructional objectives contained within the curriculum frameworks approved by rule of the State Board of Education.~~

~~3. The degree to which the material would be supplemented and explained by mature classroom instruction as part of a normal classroom instructional program.~~

~~4. The consideration of the broad racial, ethnic, socioeconomic, and cultural diversity of the students of this state.~~

~~Any instructional material containing pornography or otherwise prohibited by s. 847.012 may not be used or made available~~

426402

~~within any public school.~~

~~(3) CONTRACT WITH PUBLISHERS OR MANUFACTURERS; BOND.—As soon as practicable after the commissioner has adopted any instructional materials and all bidders that have secured the adoption of any instructional materials have been notified thereof by registered letter, the department shall prepare a contract in proper form with every bidder awarded the adoption of any instructional materials. Each contract shall be executed by the commissioner, one copy to be kept by the contractor and one copy to be filed with the department. After giving due consideration to comments by the district school boards, the commissioner, with the agreement of the publisher, may extend or shorten a contract period for a period not to exceed 2 years; and the terms of any such contract shall remain the same as in the original contract. Any publisher or manufacturer to whom any contract is let under this part must give bond in such amount as the department requires, payable to the state, conditioned for the faithful, honest, and exact performance of the contract. The bond must provide for the payment of reasonable attorney's fees in case of recovery in any suit thereon. The surety on the bond must be a guaranty or surety company lawfully authorized to do business in the state; however, the bond shall not be exhausted by a single recovery but may be sued upon from time to time until the full amount thereof is recovered, and the department may at any time, after giving 30 days' notice, require additional security or additional bond. The form of any bond or bonds or contract or contracts under this part shall be prepared and approved by the department. At the discretion of the department, a publisher or manufacturer to whom any contract is~~

426402

~~let under this part may be allowed a cash deposit in lieu of a bond, conditioned for the faithful, honest, and exact performance of the contract. The cash deposit, payable to the department, shall be placed in the Textbook Bid Trust Fund. The department may recover damages on the cash deposit given by the contractor for failure to furnish instructional materials, the sum recovered to inure to the General Revenue Fund.~~

~~(4) REGULATIONS GOVERNING THE CONTRACT.—The department may, from time to time, take any necessary actions, consistent with this part, to secure the prompt and faithful performance of all instructional materials contracts; and if any contractor fails or refuses to furnish instructional materials as provided in this part or otherwise breaks his or her contract, the department may sue on the required bond in the name of the state, in the courts of the state having jurisdiction, and recover damages on the bond given by the contractor for failure to furnish instructional materials, the sum recovered to inure to the General Revenue Fund.~~

~~(5) RETURN OF DEPOSITS.—~~

~~(a) The successful bidder shall be notified by registered mail of the award of contract and shall, within 30 days after receipt of the contract, execute the proper contract and post the required bond. When the bond and contract have been executed, the department shall notify the Chief Financial Officer and request that a warrant be issued against the Textbook Bid Trust Fund payable to the successful bidder in the amount deposited pursuant to this part. The Chief Financial Officer shall issue and forward the warrant to the department for distribution to the bidder.~~

~~(b) At the same time or prior thereto, the department shall inform the Chief Financial Officer of the names of the unsuccessful bidders. Upon receipt of such notice, the Chief Financial Officer shall issue warrants against the Textbook Bid Trust Fund payable to the unsuccessful bidders in the amounts deposited pursuant to this part and shall forward the warrants to the department for distribution to the unsuccessful bidders.~~

~~(c) One copy of each contract and an original of each bid, whether accepted or rejected, shall be preserved with the department for at least 3 years after the termination of the contract.~~

~~(6) DEPOSITS FORFEITED.—If any successful bidder fails or refuses to execute contract and bond within 30 days after receipt of the contract, the cash deposit shall be forfeited to the state and placed by the Chief Financial Officer in the General Revenue Fund.~~

~~(7) FORFEITURE OF CONTRACT AND BOND.—If any publisher or manufacturer of instructional materials fails or refuses to furnish instructional materials as provided in the contract, the publisher's or manufacturer's bond is forfeited and the commissioner must make another contract.~~

Section 10. Section 1006.35, Florida Statutes, is amended to read:

1006.35 Accuracy of instructional materials.—

(1) In addition to relying on statements of publishers or manufacturers of instructional materials, the commissioner may conduct or cause to be conducted an independent investigation to determine the accuracy of approved ~~state-adopted~~ instructional materials.

426402

(2) When errors in approved ~~state-adopted~~ materials are confirmed, the publisher or manufacturer of the materials shall provide to each district school board that has purchased the materials the corrections in a format approved by the department.

(3) The commissioner may remove materials from the list of approved ~~state-adopted~~ materials:

(a) If he or she finds that the content is in error and the publisher or manufacturer refuses to correct the error when notified by the department.

(b)~~(4) The commissioner may remove materials from the list of state-adopted materials~~ At the request of the publisher or manufacturer if, in the commissioner's ~~his or her~~ opinion, there is no material impact on the state's education goals.

(c) If the materials do not align with all applicable state standards.

(4) If the commissioner removes materials from the list of approved materials, the district may not purchase them for use in core content areas.

Section 11. Section 1006.36, Florida Statutes, is amended to read:

1006.36 State review cycle ~~Term of adoption~~ for instructional materials.—

(1) The state review cycle ~~term of adoption~~ of any instructional materials shall ~~must~~ be a 5-year period ~~beginning on April 1 following the adoption~~, except that the commissioner may approve alternative schedules ~~terms of adoption~~ of less than 5 years for materials in content areas which require more frequent revision. ~~Any contract for instructional materials may~~

~~be extended as prescribed in s. 1006.34(3).~~

(2) The department shall publish annually an official schedule of subject areas to be called for review ~~adoption~~ for each of the succeeding 2 years, and a tentative schedule for years 3, 4, and 5. If extenuating circumstances warrant, the commissioner may add one or more subject areas to the official schedule, in which event the commissioner shall develop criteria for such additional subject area or areas and make them available to publishers or manufacturers as soon as practicable before the date on which submission for review is ~~bids are~~ due. The schedule shall be developed so as to promote balance among the subject areas so that the required expenditure for new instructional materials is approximately the same each year in order to maintain curricular consistency.

Section 12. Section 1006.37, Florida Statutes, is amended to read:

1006.37 Requisition of instructional materials from publisher's depository.—

~~(1)~~ The district school superintendent may ~~shall~~ requisition approved ~~adopted~~ instructional materials from the depository of the publisher with whom a contract has been made. ~~However, the superintendent shall requisition current instructional materials to provide each student with a textbook or other materials as a major tool of instruction in core courses of the subject areas specified in s. 1006.40(2). These materials must be requisitioned within the first 2 years of the adoption cycle, except for instructional materials related to growth of student membership or instructional materials maintenance needs. The superintendent may requisition~~

426402

~~instructional materials in the core subject areas specified in s. 1006.40(2) that are related to growth of student membership or instructional materials maintenance needs during the 3rd, 4th, 5th, and 6th years of the original contract period.~~

~~(2) The district school superintendent shall verify that the requisition is complete and accurate and order the depository to forward to him or her the adopted instructional materials shown by the requisition. The depository shall prepare an invoice of the materials shipped, including shipping charges, and mail it to the superintendent to whom the shipment is being made. The superintendent shall pay the depository within 60 days after receipt of the requisitioned materials from the appropriation for the purchase of adopted instructional materials.~~

Section 13. Section 1006.38, Florida Statutes, is amended to read:

1006.38 Duties, responsibilities, and requirements of instructional materials publishers and manufacturers.—This section applies to both the state and district approval processes. Publishers and manufacturers of instructional materials, or their representatives, shall:

(1) Comply with all provisions of this part.

(2) Electronically deliver fully developed sample copies of all instructional materials upon which reviews ~~bids~~ are based to the department pursuant to procedures adopted by the State Board of Education.

(3) Submit~~, at a time designated in s. 1006.33,~~ the following information:

(a) Detailed specifications of the physical characteristics

of the instructional materials, including any software or technological tools required for use by the district, school, teachers, or students. The publisher or manufacturer shall comply with these specifications if the instructional materials are approved ~~adopted~~ and purchased in completed form.

(b) Evidence that the publisher or manufacturer has provided materials that address the performance standards provided for in s. 1001.03(1) and that can be accessed through the district's local instructional improvement system and a variety of electronic, digital, and mobile devices.

(c) Evidence that the instructional materials include specific references to statewide standards in the teacher's manual and incorporate such standards into chapter tests or the assessments. Beginning in the 2013-2014 adoption year, the statewide standards shall not be included at the point of student use.

(4) Make available for purchase by any district school board any diagnostic, criterion-referenced, or other tests that they may develop.

(5) Furnish the instructional materials offered by them at a price in the state which, including all costs of electronic transmission, may not exceed the lowest price at which they offer such instructional materials for approval ~~adoption~~ or sale to any state or school district in the United States.

(6) Reduce automatically the price of the instructional materials to any district school board to the extent that reductions are made elsewhere in the United States.

(7) Provide any instructional materials free of charge in the state to the same extent as they are provided free of charge

to any state or school district in the United States.

(8) Guarantee that all copies of any instructional materials sold in this state will be at least equal in quality to the copies of such instructional materials that are sold elsewhere in the United States and will be kept revised, free from all errors, and up-to-date as may be required by the department.

(9) Agree that any supplementary material developed at the district or state level does not violate the author's or publisher's copyright, provided such material is developed in accordance with the doctrine of fair use.

(10) Not in any way, directly or indirectly, become associated or connected with any combination in restraint of trade in instructional materials, nor enter into any understanding, agreement, or combination to control prices or restrict competition in the sale of instructional materials for use in the state.

(11) Furnish the instructional materials offered by them at a price in the state which, including all costs of electronic transmission, may not exceed the lowest price at which they offer such instructional materials for approval or sale to any other school district in the state.

(12) Provide the department and school districts the cost paid for an instructional materials product by a school or district anywhere in the United States. The cost paid for that product must remain the same for all future sales and must be posted on all marketing materials.

~~(11) Maintain or contract with a depository in the state.~~

~~(12) For the core subject areas specified in s. 1006.40(2),~~

426402

~~maintain in the depository for the first 2 years of the contract an inventory of instructional materials sufficient to receive and fill orders.~~

(13) For the core subject areas specified in s. 1006.40(2), ensure the availability of an inventory sufficient to receive and fill orders for instructional materials for growth, including the opening of a new school, and replacement during the 3rd and subsequent years of the original contract period.

(14) Accurately and fully disclose only the names of those persons who actually authored the instructional materials. In addition to the penalties provided in subsection (16), the commissioner may remove from the list of state-approved ~~state-adopted~~ instructional materials those instructional materials whose publisher or manufacturer misleads the purchaser by falsely representing genuine authorship.

(15) Grant, without prior written request, for any copyright held by the publisher or its agencies automatic permission to the department or its agencies for the reproduction of instructional materials and supplementary materials in Braille, large print, or other appropriate format for use by visually impaired students or other students with disabilities that would benefit from use of the materials.

(16) Upon the willful failure of the publisher or manufacturer to comply with the requirements of this section, be liable to the department in the amount of three times the total sum which the publisher or manufacturer was paid in excess of the price required under subsections (5) and (6) and in the amount of three times the total value of the instructional materials and services which the district school board is

426402

entitled to receive free of charge under subsection (7).

Section 14. Subsections (2), (3), and (4) of section 1006.40, Florida Statutes, are amended to read:

1006.40 Use of instructional materials allocation; instructional materials, library books, and reference books; repair of books.—

(2) Each district school board must provide ~~purchase~~ current instructional materials to ~~provide~~ each student with a major tool or assistance ~~of instruction~~ in core courses of the subject areas of mathematics, language arts, science, social studies, reading, and literature for kindergarten through grade 12. ~~Such purchase must be made within the first 2 years after the effective date of the adoption cycle. For the 2012-2013 mathematics adoption, a district using a comprehensive mathematics instructional materials program adopted in the 2009-2010 adoption shall be deemed in compliance with this subsection if it provides each student with such additional state-adopted materials as may be necessary to align the previously adopted comprehensive program to common core standards and the other criteria of the 2012-2013 mathematics adoption.~~

(3) ~~(a)~~ By the 2015-2016 fiscal year, each district school board shall use at least 50 percent of the annual allocation for the purchase of digital or electronic instructional materials that align with state standards ~~included on the state-adopted list, except as otherwise authorized in paragraphs (b) and (c)~~.

~~(b) Up to 50 percent of the annual allocation may be used for the purchase of instructional materials, including library and reference books and nonprint materials, not included on the state-adopted list and for the repair and renovation of~~

~~textbooks and library books.~~

~~(c) District school boards may use 100 percent of that portion of the annual allocation designated for the purchase of instructional materials for kindergarten, and 75 percent of that portion of the annual allocation designated for the purchase of instructional materials for first grade, to purchase materials not on the state-adopted list.~~

(4) Remaining funds may ~~The funds described in subsection (3) which district school boards may use to purchase materials not on the state-adopted list shall~~ be used for the purchase of instructional materials or other items, including library and reference books and nonprint materials, having intellectual content which assist in the instruction of a subject or course. These items may be available in bound, unbound, kit, or package form and may consist of hardbacked or softbacked textbooks, electronic content, replacements for items which were part of previously purchased instructional materials, consumables, learning laboratories, manipulatives, electronic media, computer courseware or software, and other commonly accepted instructional tools as prescribed by district school board rule.

Section 15. Paragraphs (o), (p), and (q) of subsection (6) of section 1001.10, Florida Statutes, are amended, and paragraph (r) is added to that subsection, to read:

1001.10 Commissioner of Education; general powers and duties.—

(6) Additionally, the commissioner has the following general powers and duties:

(o) To develop criteria for use by department ~~state~~ instructional materials reviewers in evaluating materials

426402

submitted for approval ~~adoption consideration~~. The criteria shall, as appropriate, be based on instructional expectations reflected in course descriptions ~~curriculum frameworks~~ and student performance standards. The criteria for each subject or course shall be made available to publishers and manufacturers of instructional materials pursuant to the requirements of chapter 1006.

(p) To prescribe procedures for evaluating instructional materials submitted by publishers and manufacturers in each review for approval ~~adoption~~.

(q) To remove any instructional materials from the list of materials approved by the department or a school district ~~enter into agreement with Space Florida to develop innovative aerospace-related education programs that promote mathematics and science education for grades K-20~~.

(r) To submit to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the State Board of Education an annual report regarding district and state instructional materials reviews, the impact on the quality and availability of instructional materials, and the cost-effectiveness of the state and district review processes. The report shall be submitted on January 1 following the first fiscal year of implementation of the program and each year thereafter.

Section 16. Subsection (5) of section 1003.55, Florida Statutes, is amended to read:

1003.55 Instructional programs for blind or visually impaired students and deaf or hard-of-hearing students.—

(5) Any publisher or manufacturer of instructional

materials that have been approved by the department or a school district ~~a textbook adopted pursuant to the state instructional materials adoption process~~ shall furnish the department ~~of Education~~ with a computer file in an electronic format specified by the department ~~at least 2 years in advance~~ that is readily translatable to Braille and can be used for large print or speech access. Any instructional materials ~~textbook~~ reproduced pursuant to ~~the provisions of~~ this subsection shall be purchased at a price equal to the price paid for the instructional materials ~~textbook~~ as approved ~~adopted~~. The department ~~of Education~~ shall not reproduce instructional materials ~~textbooks~~ obtained pursuant to this subsection in any manner that would generate revenues for the department from the use of such computer files or that would preclude the rightful payment of fees to the publisher or manufacturer for use of all or some portion of the instructional materials ~~textbook~~.

Section 17. Paragraph (j) of subsection (2) of section 1003.621, Florida Statutes, is amended to read:

1003.621 Academically high-performing school districts.—It is the intent of the Legislature to recognize and reward school districts that demonstrate the ability to consistently maintain or improve their high-performing status. The purpose of this section is to provide high-performing school districts with flexibility in meeting the specific requirements in statute and rules of the State Board of Education.

(2) COMPLIANCE WITH STATUTES AND RULES.—Each academically high-performing school district shall comply with all of the provisions in chapters 1000-1013, and rules of the State Board of Education which implement these provisions, pertaining to the

426402

following:

(j) Those statutes relating to instructional materials, except that s. 1006.40 ~~s. 1006.37, relating to the requisition of state-adopted materials from the depository under contract with the publisher, and s. 1006.40(3)(a)~~, relating to the use of 50 percent of the instructional materials allocation, is ~~shall be~~ eligible for exemption.

Section 18. Paragraph (b) of subsection (6) of section 1011.62, Florida Statutes, is amended to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(6) CATEGORICAL FUNDS.—

(b) If a district school board finds and declares in a resolution approved ~~adopted~~ at a regular meeting of the school board that the funds received for any of the following categorical appropriations are urgently needed to maintain ~~school board specified~~ academic classroom instruction specified by the school board, the school board may consider and approve an amendment to the school district operating budget transferring the identified amount of the categorical funds to the appropriate account for expenditure:

1. Funds for student transportation.

2. Funds for safe schools.

3. Funds for supplemental academic instruction if the required additional hour of instruction beyond the normal school

426402

day for each day of the entire school year has been provided for the students in each low-performing elementary school in the district pursuant to paragraph (1)(f).

4. Funds for research-based reading instruction if the required additional hour of instruction beyond the normal school day for each day of the entire school year has been provided for the students in each low-performing elementary school in the district pursuant to paragraph (9)(a).

5. Funds for instructional materials if all instructional material purchases necessary to provide updated materials that are aligned with applicable ~~to Next Generation Sunshine~~ state standards and course descriptions ~~benchmarks~~ and that meet statutory requirements of content and learning have been completed for that fiscal year, but no sooner than March 1. Funds available after March 1 may be used to purchase hardware for student instruction.

Section 19. This act shall take effect July 1, 2013.

collecting fees and adopting rules; conforming provisions to changes made by the act; amending s. 1006.35, F.S.; authorizing the Commissioner of Education to remove materials from the list of approved materials if the materials do not align with applicable state standards; prohibiting a school district from purchasing removed materials under certain circumstances; amending s. 1006.36, F.S.; providing for the state review cycle for instructional materials; amending s. 1006.37, F.S.; authorizing a district school superintendent to requisition approved instructional materials; conforming provisions to changes made by the act; amending s. 1006.38, F.S.; providing for applicability; revising duties of publishers and manufacturers; amending s. 1006.40, F.S.; revising the allocation for instructional materials; amending s. 1001.10, F.S.; revising the duties of the commissioner with regard to instructional materials, including submission of a report to the Governor and the Legislature; amending s. 1003.55, F.S.; requiring a publisher or manufacturer of instructional materials that have been approved by the Department of Education or a school district to furnish the department with a computer file in an electronic format specified by the department; amending ss. 1003.621 and 1011.62, F.S.; conforming provisions to changes made by the act; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (b) of subsection (1) and subsection (2) of section 1006.28, Florida Statutes, are amended to read:

1006.28 Duties of district school board, district school superintendent; and school principal regarding K-12 instructional materials.—

(1) DISTRICT SCHOOL BOARD.—The district school board has the duty to provide adequate instructional materials for all students in accordance with the requirements of this part. The term "adequate instructional materials" means a sufficient number of student or site licenses or sets of materials that are available in bound, unbound, kit, or package form and may consist of hardbacked or softbacked textbooks, electronic content, consumables, learning laboratories, manipulatives, electronic media, and computer courseware or software that serve as the basis for instruction for each student in the core courses of mathematics, language arts, social studies, science, reading, and literature. The district school board has the following specific duties:

(b) *Instructional materials.*—Provide for proper requisitioning, distribution, accounting, storage, care, and use of all instructional materials and furnish such other instructional materials as may be needed. The district school board shall ensure that instructional materials used in the district are consistent with the district goals and objectives and the course descriptions established in ~~curriculum frameworks adopted by~~ rule of the State Board of Education, as well as with the state and district performance standards provided for in s.

1001.03(1).

(2) DISTRICT SCHOOL SUPERINTENDENT.—

(a) The district school superintendent has the duty to recommend such plans for improving, providing, distributing, accounting for, and caring for instructional materials and other instructional aids as will result in general improvement of the district school system, as prescribed in this part, in accordance with adopted district school board rules prescribing the duties and responsibilities of the district school superintendent regarding the requisition, purchase, receipt, storage, distribution, use, conservation, records, and reports of, and management practices and property accountability concerning, instructional materials, and providing for an evaluation of any instructional materials to be requisitioned that have not been used previously in the district's schools. The district school superintendent must keep adequate records and accounts for all financial transactions for funds collected pursuant to subsection (3), as a component of the educational service delivery scope in a school district best financial management practices review under s. 1008.35.

(b) Beginning in the 2013-2014 school year, each district school superintendent shall certify to the department by March 31 of each year that all core instructional materials used by the district are aligned with applicable state standards. A list of the state-approved or district-approved core instructional materials that will be used or purchased for use by the school district shall be included in the certification ~~notify the department by April 1 of each year the state-adopted instructional materials that will be requisitioned for use in~~

~~his or her school district~~. ~~The notification shall include a district school board plan for instructional materials use to assist in determining if adequate instructional materials have been requisitioned.~~

(c) Each principal shall verify that all instructional materials are fully and properly accounted for as prescribed by adopted rules of the district school board.

Section 2. Section 1006.282, Florida Statutes, is repealed.

Section 3. Section 1006.283, Florida Statutes, is created to read:

1006.283 District school board instructional materials review process.—

(1) A school board or consortium of school districts may implement an instructional materials program that includes the review, approval, and purchasing of instructional materials. Beginning in the 2013-2014 school year, the district school superintendent shall certify to the department by March 31 of each year that all core instructional materials used by the district are aligned with applicable state standards. Included in the certification shall be a list of the core instructional materials that will be used or purchased for use by the school district.

(2) The school board shall adopt rules implementing the district's instructional materials program which must include, but need not be limited to:

(a) Its review and purchase process.

(b) Identification of a review cycle for instructional materials.

(c) The duties and qualifications of the instructional

materials reviewers.

(d) The requirements for an affidavit made by a district instructional materials reviewer, which substantially includes the requirements of s. 1006.30.

(e) Compliance with s. 1006.32, relating to prohibited acts.

(f) A process that certifies the accuracy of instructional materials.

(g) The incorporation of applicable requirements of s. 1006.38, relating to the duties, responsibilities, and requirements of publishers of instructional materials.

(h) The process by which instructional materials will be purchased, including advertising, bidding, and purchasing requirements.

(3)(a) The school board may set and collect fees from publishers participating in the instructional materials approval process. The amount assessed and collected shall be advertised and must be reported to the district school board. The fees may not exceed the fees that are assessed for those materials submitted for review by the state as defined by the State Board of Education. Any fees collected for this process shall be allocated for the support of the review process and maintained in a separate line item for auditing purposes. Fees may not be collected from publishers to review instructional materials that are approved by the department and placed on the department's website.

(b) The fees shall be used to cover the actual cost of substitute teachers for each workday that a member of a school district's instructional staff is absent from his or her

assigned duties for the purpose of rendering service as an instructional materials reviewer. In addition, each reviewer may be paid a stipend and is entitled to reimbursement for travel expenses and per diem in accordance with s. 112.061 for actual service in meetings.

(4) Instructional materials that have been reviewed by the district instructional materials reviewers and approved must have been determined to align with all applicable state standards pursuant to s. 1003.41 and the requirements in s. 1006.31. The school board shall annually certify to the department that the school board's core instructional materials are aligned with all applicable state standards.

(5) A publisher that offers instructional materials to a district school board must provide such materials at a price which, including all costs of electronic transmission, does not exceed the lowest price at which the publisher offers such instructional materials for approval or sale to any state or school district in the United States.

(6) A publisher shall reduce automatically the price of the instructional materials to the district school board to the extent that reductions are made elsewhere in the United States.

Section 4. Section 1006.29, Florida Statutes, is amended to read:

1006.29 Department of Education ~~State~~ instructional materials reviewers.—

(1) For purposes of this section, the term "instructional materials" means items that have intellectual content and that, by design, serve as a major tool or for assisting in the instruction of a subject or course.

(2) ~~(1)~~ (a) The commissioner shall determine annually the areas in which instructional materials shall be submitted for approval ~~adoption~~, taking into consideration the desires of the district school boards. ~~The commissioner shall also determine the number of titles to be adopted in each area.~~

(b) ~~By April 15 of each school year,~~ The department ~~commissioner~~ shall appoint five reviewers for each submission by a publisher or district school board ~~three state or national experts in the content areas submitted for adoption~~ to review for approval the instructional materials and evaluate the content for alignment with the applicable ~~Next Generation Sunshine~~ state standards. ~~These reviewers shall be designated as state instructional materials reviewers and shall review~~ The materials shall be evaluated for the level of instructional support and the accuracy and appropriateness of progression of introduced content. Instructional materials shall be made electronically available to the reviewers. The state review of the instructional materials shall be made by the five reviewers. Two of the reviewers must be professional content experts, two must be K-12 educators who are actively engaged in teaching or in the supervision of teaching in the public elementary, middle, or high schools and represent the major fields and levels in which instructional materials are used in the public schools, and one must be a lay person who is not professionally connected with education. In the event only four reviewers can be procured, or if one of the five reviewers is unable to fulfill his or her responsibilities, the additional reviewer may be a content expert from the department. As part of the review process, each reviewer shall be provided training on the

electronic review system. The reviewers shall independently make recommendations to the commissioner regarding materials that should be placed on the list of approved materials through an electronic feedback review system.

(c) The department may assess and collect fees in accordance with s. 1006.34(2). The amount assessed and collected shall be advertised and must be reported to the State Board of Education. Any fees collected for this process shall be allocated for the support of the review process, maintained in a separate account for auditing purposes, and deposited in the department's Operating Trust Fund.

(d) Fees collected under paragraph (c) shall be used to cover the cost of the review process including the cost of any meetings and applicable travel and per diem, and the amount paid by a school district to substitute teachers who fill in for instructional staff that is absent for the purpose of rendering service as an instructional materials reviewer. In addition, each reviewer may be paid a stipend and is entitled to reimbursement for travel expenses and per diem in accordance with s. 112.061 for actual service in meetings ~~The initial review of the materials shall be made by only two of the three reviewers~~. ~~If the two reviewers reach different results, the third reviewer shall break the tie. The reviewers shall independently make recommendations to the commissioner regarding materials that should be placed on the list of adopted materials through an electronic feedback review system.~~

(e) ~~(c)~~ The commissioner shall request each district school superintendent to nominate one classroom teacher or district-level content supervisor to review two or three of the

submissions recommended by the department ~~state~~ instructional materials reviewers. School districts shall ensure that these district reviewers are provided with the support and time necessary to accomplish a thorough review of the instructional materials. District reviewers shall independently rate the recommended submissions on the instructional usability of the resources. District reviewers may be paid a stipend and are entitled to reimbursement for travel expenses and per diem in accordance with s. 112.061 for actual service in meetings, if applicable.

(3) ~~(2)~~ For purposes of approving materials ~~state adoption~~, the term "instructional materials" means items having intellectual content that by design serve as a major tool or for assisting in the instruction of a subject or course. These items may be available in bound, unbound, kit, or package form and may consist of hardbacked or softbacked textbooks, electronic content, consumables, learning laboratories, manipulatives, electronic media, and computer courseware or software. A publisher or manufacturer providing instructional materials as a single bundle shall also make the instructional materials available as separate and unbundled items, each priced individually. A publisher shall ~~may~~ also offer sections of ~~state-adopted~~ instructional materials in digital or electronic versions at reduced rates to districts, schools, and teachers.

(4) ~~(3)~~ Beginning in the 2015-2016 academic year, all approved ~~adopted~~ instructional materials for students in kindergarten through grade 12 must be provided in an electronic or digital format. For purposes of this section, the term:

(a) "Electronic format" means text-based or image-based

content in a form that is produced on, published by, and readable on computers or other digital devices and is an electronic version of a printed book, whether or not any printed equivalent exists.

(b) "Digital format" means text-based or image-based content in a form that provides the student with various interactive functions; that can be searched, tagged, distributed, and used for individualized and group learning; that includes multimedia content such as video clips, animations, and virtual reality; and that has the ability to be accessed at any time and anywhere.

The terms do not include electronic or computer hardware even if such hardware is bundled with software or other electronic media, nor does it include equipment or supplies.

(5) ~~(4)~~ The department shall develop a training program for persons selected to review submitted ~~as state~~ instructional materials ~~reviewers and school district reviewers~~. The program shall be structured to assist reviewers in developing the skills necessary to make valid, culturally sensitive, and objective decisions regarding the content and rigor of instructional materials. All persons reviewing ~~serving as~~ instructional materials ~~reviewers~~ must complete the training program prior to beginning the review and selection process.

(6) By March 1 of each year, the department shall post on its website a list of department-approved instructional materials and instructional materials approved by other states which align with applicable state standards. The list shall be maintained and updated periodically. The list shall be

comprehensive and include sufficient instructional materials or major tools to cover all of the core content areas. The posting must include the purchase price of each product once it is purchased anywhere in the United States. In addition to the posting, the department shall send school district administrators periodic updates to the website. District-approved instructional materials shall also be posted on the website.

Section 5. Section 1006.30, Florida Statutes, is amended to read:

1006.30 Affidavit of Department of Education ~~state~~ instructional materials reviewers.—Before transacting any business, each department ~~state~~ instructional materials reviewer shall make an affidavit, to be filed with the department, that:

(1) The reviewer will faithfully discharge the duties imposed upon him or her.

(2) The reviewer has no interest in any publishing or manufacturing organization that produces or sells instructional materials.

(3) The reviewer is in no way connected with the distribution of the instructional materials.

(4) The reviewer does not have any direct or indirect pecuniary interest in the business or profits of any person engaged in manufacturing, publishing, or selling instructional materials designed for use in the public schools.

(5) The reviewer will not accept any emolument or promise of future reward of any kind from any publisher or manufacturer of instructional materials or his or her agent or anyone interested in, or intending to bias his or her judgment in any

way in, the selection of any materials to be approved ~~adopted~~.

(6) The reviewer understands that it is unlawful to discuss matters relating to instructional materials submitted for approval ~~adoption~~ with any agent of a publisher or manufacturer of instructional materials, either directly or indirectly, except during the period when the publisher or manufacturer is providing a presentation for the reviewer during his or her review of the instructional materials submitted for approval ~~adoption~~.

Section 6. Section 1006.31, Florida Statutes, is amended to read:

1006.31 Duties of the Department of Education and school district ~~each state~~ instructional materials reviewer.—The duties of the ~~each state~~ instructional materials reviewer are:

(1) PROCEDURES.—To adhere to procedures prescribed by the department or the district for evaluating instructional materials submitted by publishers and manufacturers in each review for approval ~~adoption~~.

(2) EVALUATION OF INSTRUCTIONAL MATERIALS.—To evaluate carefully all instructional materials submitted, in order to ascertain which instructional materials, if any, submitted for consideration implement the selection criteria developed by the department or the district and those curricular objectives included within applicable performance standards provided for in s. 1001.03(1).

(a) When evaluating ~~recommending~~ instructional materials for use in the schools, each reviewer shall include only instructional materials ~~that~~ accurately portray the ethnic, socioeconomic, cultural, and racial diversity of our society,

576-04157-13

including men and women in professional, career, and executive roles, and the role and contributions of the entrepreneur and labor in the total development of this state and the United States.

(b) When evaluating ~~recommending~~ instructional materials for use in the schools, each reviewer shall include only materials that accurately portray, whenever appropriate, humankind's place in ecological systems, including the necessity for the protection of our environment and conservation of our natural resources and the effects on the human system of the use of tobacco, alcohol, controlled substances, and other dangerous substances.

(c) When evaluating ~~recommending~~ instructional materials for use in the schools, each reviewer shall require such materials as he or she deems necessary and proper to encourage thrift, fire prevention, and humane treatment of people and animals.

(d) When evaluating ~~recommending~~ instructional materials for use in the schools, each reviewer shall require, when appropriate to the comprehension of students, that materials for social science, history, or civics classes contain the Declaration of Independence and the Constitution of the United States. A reviewer may not recommend any instructional materials for use in the schools which contain any matter reflecting unfairly upon persons because of their race, color, creed, national origin, ancestry, gender, or occupation.

(e) When evaluating instructional materials, library media, and other reading material for use in the schools, a reviewer shall use the following standards to determine the propriety of

576-04157-13

the material:

1. The age of students who normally could be expected to have access to the material.

2. The educational purpose to be served by the material. In considering instructional materials for classroom use, priority shall be given to the selection of materials that encompass the state and district school board performance standards provided for in s. 1001.03(1) and include the instructional objectives contained within the course descriptions established in rule by the State Board of Education.

3. The degree to which the material would be supplemented and explained by mature classroom instruction as part of a normal classroom instructional program.

4. The degree to which the material represents the broad racial, ethnic, socioeconomic, and cultural diversity of students in the state.

Any instructional material containing pornography or otherwise prohibited by s. 847.012 may not be used or made available within any public school.

(c) ~~(c)~~ ~~Any~~ Instructional material recommended by a ~~each~~ reviewer for use in the schools shall be, to the satisfaction of the ~~each~~ reviewer, accurate, objective, and current and suited to the needs and comprehension of students at their respective grade levels. Reviewers shall consider for adoption materials developed for academically talented students such as those enrolled in advanced placement courses.

(3) REPORT OF REVIEWERS.—After a thorough study of all data submitted on each instructional material, to submit an

electronic report to the department. The report shall be made public and must include responses to each section of the report format prescribed by the department.

Section 7. Section 1006.32, Florida Statutes, is amended to read:

1006.32 Prohibited acts.—

(1) A publisher or manufacturer of instructional material, or any representative thereof, may not offer to give any emolument, money, or other valuable thing, or any inducement, to any district school board official or department or district ~~state~~ instructional materials reviewer to directly or indirectly introduce, recommend, vote for, or otherwise influence the approval ~~adoption~~ or purchase of any instructional materials.

(2) A district school board official or a department or district ~~state~~ instructional materials reviewer may not solicit or accept any emolument, money, or other valuable thing, or any inducement, to directly or indirectly introduce, recommend, vote for, or otherwise influence the approval ~~adoption~~ or purchase of any instructional material.

~~(3) A district school board or publisher may not participate in a pilot program of materials being considered for adoption during the 18-month period before the official adoption of the materials by the commissioner. Any pilot program during the first 2 years of the adoption period must have the prior approval of the commissioner.~~

(3)~~(4)~~ A ~~Any~~ publisher or manufacturer of instructional materials or representative thereof or a ~~any~~ district school board official or department or district ~~state~~ instructional materials reviewer who violates any provision of this section

commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083. A ~~Any~~ representative of a publisher or manufacturer who violates any provision of this section, in addition to any other penalty, shall be banned from practicing business in the state for a period of 1 calendar year.

(4)~~(5)~~ This section does not prohibit any publisher, manufacturer, or agent from supplying, for purposes of examination, necessary sample copies of instructional materials to any district school board official or department or district ~~state~~ instructional materials reviewer.

(5)~~(6)~~ This section does not prohibit a district school board official or department or district ~~state~~ instructional materials reviewer from receiving sample copies of instructional materials.

(6)~~(7)~~ This section does not prohibit or restrict a district school board official from receiving royalties or other compensation, other than compensation paid to him or her as commission for negotiating sales to district school boards, from the publisher or manufacturer of instructional materials written, designed, or prepared by such district school board official~~,~~ and ~~adopted by the commissioner or~~ purchased by any district school board. A ~~No~~ district school board official may not ~~shall be allowed to~~ receive royalties on any materials not ~~on the state-adopted list~~ purchased for use by his or her district school board.

(7)~~(8)~~ A district school superintendent, district school board member, teacher, or other person officially connected with the government or direction of public schools may not receive

during the months actually engaged in performing duties under his or her contract any private fee, gratuity, donation, or compensation, in any manner whatsoever, for promoting the sale or exchange of any instructional material, map, or chart in any public school, or be an agent for the sale or the publisher of any instructional material or reference work, or have a direct or indirect pecuniary interest in the introduction of any such instructional material, and any such agency or interest shall disqualify any person so acting or interested from holding any district school board employment whatsoever, and the person commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083; however, this subsection does not prevent the approval ~~adoption~~ of any instructional material written in whole or in part by a Florida author.

Section 8. Section 1006.33, Florida Statutes, is repealed.

Section 9. Section 1006.34, Florida Statutes, is amended to read:

1006.34 Powers and duties of the State Board of Education ~~commissioner and the department~~ in evaluating ~~selecting and adopting~~ instructional materials.—

(1) PROCEDURES FOR EVALUATING INSTRUCTIONAL MATERIALS.—The State Board of Education shall adopt rules prescribing the procedures by which the department shall evaluate instructional materials submitted by publishers and manufacturers in each review for approval ~~adoption~~. Included in these procedures shall be provisions affording each publisher or manufacturer or his or her representative an opportunity to provide a live, virtual, or in-person presentation to the department ~~state~~ instructional materials reviewers on the merits of each instructional material

submitted in each review for approval ~~adoption~~.

(2) FEES.—The State Board of Education may set and collect fees from publishers participating in the instructional materials approval process who request a review of their submitted materials by the department. The fees set by the State Board of Education shall specify the amount that may be collected by the department per submission from publishers for review. The fees may not exceed the actual costs necessary to support the cost of reviewing instructional materials, including, but not limited to, the costs associated with reviewers. The State Board of Education shall adopt rules regarding the fees.

~~(2) SELECTION AND ADOPTION OF INSTRUCTIONAL MATERIALS.—~~

~~(a) The department shall notify all publishers and manufacturers of instructional materials who have submitted bids that within 3 weeks after the deadline for receiving bids, at a designated time and place, it will open the bids submitted and deposited with it. At the time and place designated, the bids shall be opened, read, and tabulated in the presence of the bidders or their representatives. No one may revise his or her bid after the bids have been filed. When all bids have been carefully considered, the commissioner shall, from the list of suitable, usable, and desirable instructional materials reported by the state instructional materials reviewers, select and adopt instructional materials for each grade and subject field in the curriculum of public elementary, middle, and high schools in which adoptions are made and in the subject areas designated in the advertisement. The adoption shall continue for the period specified in the advertisement, beginning on the ensuing April~~

~~1. The adoption shall not prevent the extension of a contract as provided in subsection (3). The commissioner shall always reserve the right to reject any and all bids. The commissioner may ask for new sealed bids from publishers or manufacturers whose instructional materials were recommended by the state instructional materials reviewers as suitable, usable, and desirable; specify the dates for filing such bids and the date on which they shall be opened; and proceed in all matters regarding the opening of bids and the awarding of contracts as required by this part. In all cases, bids shall be accompanied by a cash deposit or certified check of from $500 to $2,500, as the department may direct. The department, in adopting instructional materials, shall give due consideration both to the prices bid for furnishing instructional materials and to the report and recommendations of the state instructional materials reviewers. When the commissioner has finished with the report of the state instructional materials reviewers, the report shall be filed and preserved with the department and shall be available at all times for public inspection.~~

~~(b) In the selection of instructional materials, library media, and other reading material used in the public school system, the standards used to determine the propriety of the material shall include:~~

~~1. The age of the students who normally could be expected to have access to the material.~~

~~2. The educational purpose to be served by the material. In considering instructional materials for classroom use, priority shall be given to the selection of materials which encompass the state and district school board performance standards provided~~

~~for in s. 1001.03(1) and which include the instructional objectives contained within the curriculum frameworks approved by rule of the State Board of Education.~~

~~3. The degree to which the material would be supplemented and explained by mature classroom instruction as part of a normal classroom instructional program.~~

~~4. The consideration of the broad racial, ethnic, socioeconomic, and cultural diversity of the students of this state.~~

~~Any instructional material containing pornography or otherwise prohibited by s. 847.012 may not be used or made available within any public school.~~

~~(3) CONTRACT WITH PUBLISHERS OR MANUFACTURERS; BOND.—As soon as practicable after the commissioner has adopted any instructional materials and all bidders that have secured the adoption of any instructional materials have been notified thereof by registered letter, the department shall prepare a contract in proper form with every bidder awarded the adoption of any instructional materials. Each contract shall be executed by the commissioner, one copy to be kept by the contractor and one copy to be filed with the department. After giving due consideration to comments by the district school boards, the commissioner, with the agreement of the publisher, may extend or shorten a contract period for a period not to exceed 2 years; and the terms of any such contract shall remain the same as in the original contract. Any publisher or manufacturer to whom any contract is let under this part must give bond in such amount as the department requires, payable to the state, conditioned for~~

~~the faithful, honest, and exact performance of the contract. The bond must provide for the payment of reasonable attorney's fees in case of recovery in any suit thereon. The surety on the bond must be a guaranty or surety company lawfully authorized to do business in the state; however, the bond shall not be exhausted by a single recovery but may be sued upon from time to time until the full amount thereof is recovered, and the department may at any time, after giving 30 days' notice, require additional security or additional bond. The form of any bond or bonds or contract or contracts under this part shall be prepared and approved by the department. At the discretion of the department, a publisher or manufacturer to whom any contract is let under this part may be allowed a cash deposit in lieu of a bond, conditioned for the faithful, honest, and exact performance of the contract. The cash deposit, payable to the department, shall be placed in the Textbook Bid Trust Fund. The department may recover damages on the cash deposit given by the contractor for failure to furnish instructional materials, the sum recovered to inure to the General Revenue Fund.~~

~~(4) REGULATIONS GOVERNING THE CONTRACT.—The department may, from time to time, take any necessary actions, consistent with this part, to secure the prompt and faithful performance of all instructional materials contracts; and if any contractor fails or refuses to furnish instructional materials as provided in this part or otherwise breaks his or her contract, the department may sue on the required bond in the name of the state, in the courts of the state having jurisdiction, and recover damages on the bond given by the contractor for failure to furnish instructional materials, the sum recovered to inure~~

~~to the General Revenue Fund.~~

~~(5) RETURN OF DEPOSITS.—~~

~~(a) The successful bidder shall be notified by registered mail of the award of contract and shall, within 30 days after receipt of the contract, execute the proper contract and post the required bond. When the bond and contract have been executed, the department shall notify the Chief Financial Officer and request that a warrant be issued against the Textbook Bid Trust Fund payable to the successful bidder in the amount deposited pursuant to this part. The Chief Financial Officer shall issue and forward the warrant to the department for distribution to the bidder.~~

~~(b) At the same time or prior thereto, the department shall inform the Chief Financial Officer of the names of the unsuccessful bidders. Upon receipt of such notice, the Chief Financial Officer shall issue warrants against the Textbook Bid Trust Fund payable to the unsuccessful bidders in the amounts deposited pursuant to this part and shall forward the warrants to the department for distribution to the unsuccessful bidders.~~

~~(c) One copy of each contract and an original of each bid, whether accepted or rejected, shall be preserved with the department for at least 3 years after the termination of the contract.~~

~~(6) DEPOSITS FORFEITED.—If any successful bidder fails or refuses to execute contract and bond within 30 days after receipt of the contract, the cash deposit shall be forfeited to the state and placed by the Chief Financial Officer in the General Revenue Fund.~~

~~(7) FORFEITURE OF CONTRACT AND BOND.—If any publisher or~~

~~manufacturer of instructional materials fails or refuses to furnish instructional materials as provided in the contract, the publisher's or manufacturer's bond is forfeited and the commissioner must make another contract.~~

Section 10. Section 1006.35, Florida Statutes, is amended to read:

1006.35 Accuracy of instructional materials.—

(1) In addition to relying on statements of publishers or manufacturers of instructional materials, the commissioner may conduct or cause to be conducted an independent investigation to determine the accuracy of approved ~~state-adopted~~ instructional materials.

(2) When errors in approved ~~state-adopted~~ materials are confirmed, the publisher or manufacturer of the materials shall provide to each district school board that has purchased the materials the corrections in a format approved by the department.

(3) The commissioner may remove materials from the list of approved ~~state-adopted~~ materials:

(a) If he or she finds that the content is in error and the publisher or manufacturer refuses to correct the error when notified by the department.

(b) ~~(4) The commissioner may remove materials from the list of state-adopted materials~~ At the request of the publisher or manufacturer if, in the commissioner's ~~his or her~~ opinion, there is no material impact on the state's education goals.

(c) If the materials do not align with all applicable state standards.

(4) If the commissioner removes materials from the list of

approved materials, the district may not purchase them for use in core content areas.

Section 11. Section 1006.36, Florida Statutes, is amended to read:

1006.36 State review cycle ~~Term of adoption~~ for instructional materials.—

(1) The state review cycle ~~term of adoption~~ of any instructional materials shall ~~must~~ be a 5-year period ~~beginning on April 1 following the adoption~~, except that the commissioner may approve alternative schedules ~~terms of adoption~~ of less than 5 years for materials in content areas which require more frequent revision. ~~Any contract for instructional materials may be extended as prescribed in s. 1006.34(3).~~

(2) The department shall publish annually an official schedule of subject areas to be called for review ~~adoption~~ for each of the succeeding 2 years, and a tentative schedule for years 3, 4, and 5. If extenuating circumstances warrant, the commissioner may add one or more subject areas to the official schedule, in which event the commissioner shall develop criteria for such additional subject area or areas and make them available to publishers or manufacturers as soon as practicable before the date on which submission for review is ~~bids are~~ due. The schedule shall be developed so as to promote balance among the subject areas so that the required expenditure for new instructional materials is approximately the same each year in order to maintain curricular consistency.

Section 12. Section 1006.37, Florida Statutes, is amended to read:

1006.37 Requisition of instructional materials from

publisher's depository.—

~~(1)~~ The district school superintendent may ~~shall~~ requisition approved ~~adopted~~ instructional materials from the depository of the publisher with whom a contract has been made. ~~However, the superintendent shall requisition current instructional materials to provide each student with a textbook or other materials as a major tool of instruction in core courses of the subject areas specified in s. 1006.40(2). These materials must be requisitioned within the first 2 years of the adoption cycle, except for instructional materials related to growth of student membership or instructional materials maintenance needs. The superintendent may requisition instructional materials in the core subject areas specified in s. 1006.40(2) that are related to growth of student membership or instructional materials maintenance needs during the 3rd, 4th, 5th, and 6th years of the original contract period.~~

~~(2) The district school superintendent shall verify that the requisition is complete and accurate and order the depository to forward to him or her the adopted instructional materials shown by the requisition. The depository shall prepare an invoice of the materials shipped, including shipping charges, and mail it to the superintendent to whom the shipment is being made. The superintendent shall pay the depository within 60 days after receipt of the requisitioned materials from the appropriation for the purchase of adopted instructional materials.~~

Section 13. 1006.38, Florida Statutes, is amended to read:

1006.38 Duties, responsibilities, and requirements of instructional materials publishers and manufacturers.—This

section applies to both the state and district approval processes. Publishers and manufacturers of instructional materials, or their representatives, shall:

(1) Comply with all provisions of this part.

(2) Electronically deliver fully developed sample copies of all instructional materials upon which reviews ~~bids~~ are based to the department pursuant to procedures adopted by the State Board of Education.

(3) Submit~~, at a time designated in s. 1006.33,~~ the following information:

(a) Detailed specifications of the physical characteristics of the instructional materials, including any software or technological tools required for use by the district, school, teachers, or students. The publisher or manufacturer shall comply with these specifications if the instructional materials are approved ~~adopted~~ and purchased in completed form.

(b) Evidence that the publisher or manufacturer has provided materials that address the performance standards provided for in s. 1001.03(1) and that can be accessed through the district's local instructional improvement system and a variety of electronic, digital, and mobile devices.

(c) Evidence that the instructional materials include specific references to statewide standards in the teacher's manual and incorporate such standards into chapter tests or the assessments. Beginning in the 2013-2014 adoption year, the statewide standards shall not be included at the point of student use.

(5) Furnish the instructional materials offered by them at a price in the state which, including all costs of electronic

576-04157-13

transmission, may not exceed the lowest price at which they offer such instructional materials for approval ~~adoption~~ or sale to any state or school district in the United States.

(6) Reduce automatically the price of the instructional materials to any district school board to the extent that reductions are made elsewhere in the United States.

(7) Provide any instructional materials free of charge in the state to the same extent as they are provided free of charge to any state or school district in the United States.

(8) Guarantee that all copies of any instructional materials sold in this state will be at least equal in quality to the copies of such instructional materials that are sold elsewhere in the United States and will be kept revised, free from all errors, and up-to-date as may be required by the department.

(9) Agree that any supplementary material developed at the district or state level does not violate the author's or publisher's copyright, provided such material is developed in accordance with the doctrine of fair use.

(10) Not in any way, directly or indirectly, become associated or connected with any combination in restraint of trade in instructional materials, nor enter into any understanding, agreement, or combination to control prices or restrict competition in the sale of instructional materials for use in the state.

(11) Furnish the instructional materials offered by them at a price in the state which, including all costs of electronic transmission, may not exceed the lowest price at which they offer such instructional materials for approval or sale to any

576-04157-13

other school district in the state.

(12) Provide the department and school districts the cost paid for an instructional materials product by a school or district anywhere in the United States. The cost paid for that product must remain the same for all future sales and must be posted on all marketing materials.

~~(11) Maintain or contract with a depository in the state.~~

~~(12) For the core subject areas specified in s. 1006.40(2), maintain in the depository for the first 2 years of the contract an inventory of instructional materials sufficient to receive and fill orders.~~

(13) For the core subject areas specified in s. 1006.40(2), ensure the availability of an inventory sufficient to receive and fill orders for instructional materials for growth, including the opening of a new school, and replacement during the 3rd and subsequent years of the original contract period.

(14) Accurately and fully disclose only the names of those persons who actually authored the instructional materials. In addition to the penalties provided in subsection (16), the commissioner may remove from the list of state-approved ~~state-adopted~~ instructional materials those instructional materials whose publisher or manufacturer misleads the purchaser by falsely representing genuine authorship.

(15) Grant, without prior written request, for any copyright held by the publisher or its agencies automatic permission to the department or its agencies for the reproduction of instructional materials and supplementary materials in Braille, large print, or other appropriate format for use by visually impaired students or other students with

disabilities that would benefit from use of the materials.

(16) Upon the willful failure of the publisher or manufacturer to comply with the requirements of this section, be liable to the department in the amount of three times the total sum which the publisher or manufacturer was paid in excess of the price required under subsections (5) and (6) and in the amount of three times the total value of the instructional materials and services which the district school board is entitled to receive free of charge under subsection (7).

Section 14. Subsections (2), (3), and (4) of section 1006.40, Florida Statutes, are amended to read:

1006.40 Use of instructional materials allocation; instructional materials, library books, and reference books; repair of books.—

(2) Each district school board must provide ~~purchase~~ current instructional materials to ~~provide~~ each student with a major tool or assistance ~~of instruction~~ in core courses of the subject areas of mathematics, language arts, science, social studies, reading, and literature for kindergarten through grade 12. ~~Such purchase must be made within the first 2 years after the effective date of the adoption cycle. For the 2012-2013 mathematics adoption, a district using a comprehensive mathematics instructional materials program adopted in the 2009-2010 adoption shall be deemed in compliance with this subsection if it provides each student with such additional state-adopted materials as may be necessary to align the previously adopted comprehensive program to common core standards and the other criteria of the 2012-2013 mathematics adoption.~~

(3) ~~(a)~~ By the 2015-2016 fiscal year, each district school

board shall use at least 50 percent of the annual allocation for the purchase of digital or electronic instructional materials that align with state standards ~~included on the state adopted list, except as otherwise authorized in paragraphs (b) and (c)~~.

~~(b) Up to 50 percent of the annual allocation may be used for the purchase of instructional materials, including library and reference books and nonprint materials, not included on the state-adopted list and for the repair and renovation of textbooks and library books.~~

~~(c) District school boards may use 100 percent of that portion of the annual allocation designated for the purchase of instructional materials for kindergarten, and 75 percent of that portion of the annual allocation designated for the purchase of instructional materials for first grade, to purchase materials not on the state-adopted list.~~

(4) Remaining funds may ~~The funds described in subsection (3) which district school boards may use to purchase materials not on the state-adopted list shall~~ be used for the purchase of instructional materials or other items including library and reference books and nonprint materials, having intellectual content which assist in the instruction of a subject or course. These items may be available in bound, unbound, kit, or package form and may consist of hardbacked or softbacked textbooks, electronic content, replacements for items which were part of previously purchased instructional materials, consumables, learning laboratories, manipulatives, electronic media, computer courseware or software, and other commonly accepted instructional tools as prescribed by district school board rule.

Section 15. Paragraphs (o), (p), and (q) of subsection (6)

of section 1001.10, Florida Statutes, are amended, and paragraph (r) is added to that section to read:

1001.10 Commissioner of Education; general powers and duties.—

(6) Additionally, the commissioner has the following general powers and duties:

(o) To develop criteria for use by department ~~state~~ instructional materials reviewers in evaluating materials submitted for approval ~~adoption consideration~~. The criteria shall, as appropriate, be based on instructional expectations reflected in course descriptions ~~curriculum frameworks~~ and student performance standards. The criteria for each subject or course shall be made available to publishers and manufacturers of instructional materials pursuant to the requirements of chapter 1006.

(p) To prescribe procedures for evaluating instructional materials submitted by publishers and manufacturers in each review for approval ~~adoption~~.

(q) To remove any materials approved by the state or a district ~~enter into agreement with Space Florida to develop innovative aerospace-related education programs that promote mathematics and science education for grades K-20~~.

(r) To submit to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the State Board of Education an annual report regarding district and state instructional materials reviews, the impact on the quality and availability of instructional materials, and the cost-effectiveness of the state and district review processes. The report shall be submitted on January 1 following the first

fiscal year of implementation of the program and each year thereafter.

Section 16. Subsection (5) of section 1003.55, Florida Statutes, is amended to read:

1003.55 Instructional programs for blind or visually impaired students and deaf or hard-of-hearing students.—

(5) Any publisher or manufacturer of instructional materials that have been approved by the department or a school district ~~a textbook adopted pursuant to the state instructional materials adoption process~~ shall furnish the department ~~of Education~~ with a computer file in an electronic format specified by the department ~~at least 2 years in advance~~ that is readily translatable to Braille and can be used for large print or speech access. Any instructional materials ~~textbook~~ reproduced pursuant to ~~the provisions of~~ this subsection shall be purchased at a price equal to the price paid for the instructional materials ~~textbook~~ as approved ~~adopted~~. The department ~~of Education~~ shall not reproduce instructional materials ~~textbooks~~ obtained pursuant to this subsection in any manner that would generate revenues for the department from the use of such computer files or that would preclude the rightful payment of fees to the publisher or manufacturer for use of all or some portion of the instructional materials ~~textbook~~.

Section 17. Paragraph (j) of subsection (2) of section 1003.621, Florida Statutes, is amended to read:

1003.621 Academically high-performing school districts.—It is the intent of the Legislature to recognize and reward school districts that demonstrate the ability to consistently maintain or improve their high-performing status. The purpose of this

section is to provide high-performing school districts with flexibility in meeting the specific requirements in statute and rules of the State Board of Education.

(2) COMPLIANCE WITH STATUTES AND RULES.—Each academically high-performing school district shall comply with all of the provisions in chapters 1000-1013, and rules of the State Board of Education which implement these provisions, pertaining to the following:

(j) Those statutes relating to instructional materials, except that s. 1006.40 ~~s. 1006.37, relating to the requisition of state-adopted materials from the depository under contract with the publisher, and s. 1006.40(3)(a)~~, relating to the use of 50 percent of the instructional materials allocation, is ~~shall be~~ eligible for exemption.

Section 18. Paragraph (b) of subsection (6) of section 1011.62, Florida Statutes, is amended to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(6) CATEGORICAL FUNDS.—

(b) If a district school board finds and declares in a resolution approved ~~adopted~~ at a regular meeting of the school board that the funds received for any of the following categorical appropriations are urgently needed to maintain ~~school board specified~~ academic classroom instruction specified by the school board, the school board may consider and approve

an amendment to the school district operating budget transferring the identified amount of the categorical funds to the appropriate account for expenditure:

1. Funds for student transportation.

2. Funds for safe schools.

3. Funds for supplemental academic instruction if the required additional hour of instruction beyond the normal school day for each day of the entire school year has been provided for the students in each low-performing elementary school in the district pursuant to paragraph (1)(f).

4. Funds for research-based reading instruction if the required additional hour of instruction beyond the normal school day for each day of the entire school year has been provided for the students in each low-performing elementary school in the district pursuant to paragraph (9)(a).

5. Funds for instructional materials if all instructional material purchases necessary to provide updated materials that are aligned with applicable ~~to Next Generation Sunshine~~ state standards and course descriptions ~~benchmarks~~ and that meet statutory requirements of content and learning have been completed for that fiscal year, but no sooner than March 1. Funds available after March 1 may be used to purchase hardware for student instruction.

Section 19. This act shall take effect July 1, 2013.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 1388
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Education); Committee on Education; and Senator Montford
SUBJECT:	Instructional Materials for K-12 Public Education
DATE:	April 25, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/CS/SB 1388 increases flexibility for a school district while requiring instructional materials to align with state standards. The bill authorizes a school district to review, approve and purchase instructional materials, while retaining a DOE statewide instructional materials review process.

The local and state instructional materials review processes will have a cost; however, the cost may be mitigated or offset with a fee assessed to publishers. The fees are to be used to cover the cost of substitute teachers who replace teachers selected to review materials, and travel and per diem costs. Reviewers may be paid a stipend. There is no requirement for a state appropriation.

The bill takes effect July 1, 2013.

The bill substantially amends the following sections of the Florida Statutes: 1001.10, 1003.55, 1003.621, 1006.28, 1006.29, 1006.30, 1006.31, 1006.32, 1006.34, 1006.35, 1006.36, 1006.37, 1006.38, 1006.40, and 1011.62, Florida Statutes, and repeals sections 1006.282, and 1006.33.

The bill creates section 1006.283, Florida Statutes.

II. Present Situation:

School Districts

A school district must provide adequate instructional materials for its students, ensure the materials are consistent with the district's educational goals, and ensure the materials meet the objectives and the curriculum frameworks adopted by the State Board of Education (SBE).[1]

The district is required to purchase current instructional materials in the core areas to provide students with current tools of instruction.[2] This purchase must be made within the first two years of the effective date of the adoption cycle.[3] Up to fifty percent of the allocation may be used to purchase non-adopted materials.[4]

Superintendents must, at the Department of Education's (DOE) request, provide an experienced classroom teacher or district-level content supervisor with expertise in the content area to review submissions recommended for adoption by the state instructional materials reviewers.[5]

The Commissioner of Education

The Commissioner of Education (Commissioner) establishes the number of items to be adopted by the state.[6] The Commissioner appoints three state instructional materials reviewers to review instructional materials and evaluate the content for alignment with the applicable standards.[7] An evaluation by the third reviewer will only be required for situations in which the first two reviewers disagree as to whether materials should be placed on the state-adopted materials list.[8]

The Commissioner has the authority to select and adopt instructional materials for each grade and subject area and to contract with publishers for the instructional materials adopted.[9] The term of the adoption is five years.[10]

State Instructional Materials Reviewers and Content

Reviewers must evaluate all materials submitted by publishers in each adoption to determine if the material aligns with the applicable state standards, developed criteria, and any applicable performance standards.[11]

---

[1] ss. 1006.28(1) and 1001.03(1), F.S.
[2] s. 1006.40(2), F.S.
[3] *Id.*
[4] s. 1006.40(3)(b), F.S.
[5] s. 1006.29(1), F.S.
[6] s. 1006.35(3), F.S.
[7] s. 1006.29(1)(b), F.S.
[8] s. 1006.29(3), F.S.
[9] s. 1006.34(2), F.S.
[10] s. 1006.36(1), F.S.
[11] s. 1006.31(2)(e), F.S.

In addition to the standards, materials should also reflect appropriate diversity, include the Constitution and the Declaration of Independence in the social studies content area, and ensure that materials do not reflect unfairly upon people because of their race, color, creed, national origin, ancestry, gender, or occupation.[12] Reviewers must report to the DOE the materials being recommended that meet the guidelines for adoption.[13]

Publishers

Publishers of instructional materials must, in part:

- Submit detailed specifications of the physical characteristics of the instructional materials;
- Provide evidence that the materials address the performance standards;
- Furnish the instructional materials at a price which matches the lowest price offered anywhere else in the United States;
- Guarantee that any instructional materials sold in Florida will be equal in quality to the instructional materials sold elsewhere in the United States and will be kept up-to-date; and
- Maintain or contract with a depository in the state and keep an inventory.[14]

III. Effect of Proposed Changes:

The bill increases flexibility for a school district while requiring instructional materials to align with state standards. The bill authorizes a school district to review, approve and purchase instructional materials, while retaining a DOE statewide instructional materials review process.

District School Board Instructional Materials Program

The bill creates the district school board instructional materials program. The program allows a district school board, or consortium of school districts, to implement an instructional materials program that includes the review, approval, and purchasing of instructional materials. The school district would be able to set and collect fees, not to exceed the amount established in State Board of Education (SBE) rule, from publishers that participate in the instructional materials approval process. The fees would be allocated for the support of the review process, and maintained in a separate line item for auditing purposes. The amount assessed and collected would be posted on the school district's website and reported to the DOE. The school district cannot collect fees for materials that DOE approves and places on its website. The school district would adopt rules to implement the program.

If a school district elected to participate in the program, the school district would notify DOE and provide an annual report to the legislature, and the superintendent would annually certify to the DOE by March 31 that all instructional materials for core courses are aligned with applicable state standards, and include a list of all school district approved core instructional materials that would be used or purchased. Each principal would be required to verify that all instructional materials are fully and properly accounted for as prescribed by school district rule.

[12] s. 1006.31(2)(d), F.S.
[13] s. 1006.31(3), F.S.
[14] s. 1006.38, F.S.

School District Instructional Materials Allocation

School districts would be required to provide current instructional materials to each student with a major tool or assistance in core courses. The bill deletes the requirement for such materials to be purchased within the first 2 years after the effective date of an adoption cycle. By the 2015-2016 school year, school districts could use at least 50 percent of the annual allocation for the purchase of digital or electronic instructional materials that align with state standards. Remaining funds would be used for the purchase of instructional materials or other items including library and reference books and non-print materials, having intellectual content which assist in the instruction of a subject or course.

State Instructional Review

The bill retains the ability for DOE to have a state instructional material review process, and would increase the number of state instructional material reviewers appointed by the Commissioner, from 3 to up to 5. The 5 members would include: 2 professional content experts; 2 K-12 educators that are active teachers or supervisors and represent the major fields and levels in which instructional materials are used; and 1 layperson. A DOE content expert may be an alternate reviewer. Publishers would have the opportunity to provide a live, virtual, or in-person presentation to the reviewers.

The DOE would adopt a rule to assess and collect fees to support the review process. The fees would be deposited in the DOE Operating Trust Fund. A district school board would be reimbursed for the cost of a substitute teacher for each workday an employee is acting as a state reviewer. Additionally, each reviewer would receive a travel and per diem stipend in accordance with section 112.061, F.S.

The definition of "instructional materials" would be expanded from materials that serve as a "major tool for assisting" to a "major tool or for assisting" in the instruction of a subject or course.

State List of Approved Instructional Materials

By March 1 of each year, the DOE would publish on its website a list of all instructional materials that are approved by the DOE or that are approved by another state, if such materials align with applicable state standards. The list would be maintained and updated, and include sufficient instructional materials or major tools to cover all of the core content areas. The purchase price would be posted. District approved materials would also be posted on the website.

The Commissioner would be able to remove approved instructional materials from the list if a manufacturer refused to correct errors, at the publisher's request, if there is no material impact on the state's education goals, or if the materials do not align with all applicable state standards. If the Commissioner removes materials from the list, a district may not purchase the materials for use in core content areas.

District and State Instructional Materials Reviewer Duties

Instructional material reviewers for both the district and state processes would use certain standards to determine the propriety of materials, such as:

- The age of student who normally could be expected to have access to the material.
- The educational purpose served by the material.
- The degree to which the material would be supplemented and explained by mature classroom instruction as part of a normal classroom instructional program.
- The degree to which the material represents the broad racial, ethnic, socioeconomic, and cultural diversity of students in the state.
- Any instructional material that contains pornography or that is otherwise harmful to minors, may not be used or made available within any public school.

Instructional Material Publishers

The bill authorizes, but no longer requires, school districts to purchase instructional materials from a publisher's book depository. A publisher would provide materials to the school district with most-favored-nations pricing, with automatic reductions, based on materials sold to any other state or school district in the state or nation. The costs for a product would not increase, and would be posted on all marketing materials.

The bill requires publisher duties and responsibilities to apply to both the school district and DOE approval processes. Beginning in 2013-2014, publishers would no longer be required to provide evidence that the instructional materials include specific reference to statewide standards at the point of student use. Publishers would still be required to provide the evidence in the teachers' manual and incorporate the standards into chapter tests and assessments.

The bill deletes the prohibition on a school district or publisher from participating in a pilot program of materials being considered during the 18-month period before the official adoption of the materials by the commissioner.

Commissioner's Report to the Legislature

The bill requires the Commissioner to annually submit by January 1 to the Governor, the President of the Senate, and the Speaker of the House of Representatives, and the State Board of Education, an annual report regarding district and state instructional material reviews, the impact on the quality and availability of instructional materials, and the cost-effectiveness of the state and district review processes.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The bill authorizes school districts to set and collect fees from publishers that participate in the instructional materials approval process. The school district fees may not exceed those set by SBE rule, and the school district may not charge a fee for materials already on the state list.

C. Government Sector Impact:

The bill authorizes school districts to charge publishers that participate in the instructional materials process a fee. The fee revenues are to be used to support the review process, and may offset the costs. The school district fees may not exceed those set by SBE rule, and the school district may not charge a fee for materials already on the state list.

The bill authorizes, but does not require, the DOE to assess a fee of the publishers who participate in the review process. The fee is limited to actual costs for the review, taking into consideration the cost of reviewers, the content area and complexity of the instructional materials to be reviewed, and other relevant factors. Fee revenues are to be used to cover the cost of the review process, including meeting, travel, per diem, and costs for hiring substitute teachers who replace teachers who are selected to be reviewers. Reviewers are entitled to reimbursement for travel and per diem and may be paid a stipend. An estimate of this cost is as much as $750,000 annually based on a $500 stipend for each of the five reviewers for roughly 300 content area submissions that are provided for review. However, the bill is permissive regarding the stipend and, if provided, would be supported by fee revenue.

This bill does not required a state appropriation.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 23, 2013:
CS/CS/SB 1388 differs from CS/SB 1388 in that it:

- Requires school board fees assessed and collected from publishers to be posted on the school district's website and reported to the department. The previous version of the bill required the fees to be advertised and reported to the district school board.
- Prevents said fees from exceeding an amount set by state board rule. The previous version of the bill capped fees at the amount charged during the state review process.
- Allows publishers to present materials during a live virtual or in-person presentation to the department. The previous version of the bill allowed a live, virtual, or in-person presentation to the department.
- Provides that fees for state review may not exceed the actual costs for the review, taking into consideration the cost of reviewers, the content area and complexity of the instructional materials to be reviewed, and other relevant factors. The previous version of the bill capped costs at actual costs necessary to support the cost of reviewing instructional materials, including, but not limited to, the costs associated with reviewers.
- Provides that beginning in 2013-2014 adoption year, the statewide standards may not be included at the point of student use. The previous version of the bill stated "shall" not be included.

CS by Education on April 1, 2013:
CS/SB 1388 differs from SB 1388 in that it:

- Requires a district school board to adopt rules implementing an instructional materials review program, as opposed to identifying specific requirements in law.
- Reinstates statewide adoption of instructional materials by DOE, as opposed to a process by which a school district or publisher may refer review of instructional materials to the DOE.
- Changes the definition of "instructional materials" to include materials that serve as a "tool" that assists, as opposed to simply assisting in the instruction of a subject or course.
- Deletes the prohibition of a school district assessing a fee to review materials that were previously evaluated by the state, but caps the fees a district may collect to be no more than assessed by the state.
- Removes proposed amendments to ss. 1001.10, 1003.55, 1003.621, 1006.28, 1006.30, 1006.31, 1006.32, 1006.34, 1006.35, 1006.36, 1006.38, and 1011.62, F.S.
- Deletes the proposed repeal of ss. 1006.282, 1006.33, 1006.37, and 1010.82, F.S.

B. Amendments:

None.

By the Committee on Education; and Senator Montford

581-03372-13 20131388c1

A bill to be entitled

An act relating to instructional materials; creating s. 1006.283, F.S.; authorizing a district school board to review, adopt, and purchase instructional materials; requiring the district superintendent to notify the Department of Education if the district school board decides review, adopt and purchase instructional materials and to certify to the department that core instructional materials align with applicable state standards; requiring the district school board to adopt rules; authorizing the district school board to set and collect fees from a publisher that participates in the instructional materials review process; providing a limit on fees; providing pricing requirements for instructional materials; requiring each district school board to submit an annual report to the Governor, the Legislature, and the State Board of Education by a specified date; amending s. 1006.29, F.S.; requiring the Commissioner of Education to appoint state instructional materials reviewers, rather than state or national experts, to review instructional materials; providing requirements, composition, appointments, and terms for state instructional materials reviewers; authorizing the commissioner to remove a reviewer for cause; providing for public disclosure of names and mailing addresses of appointed state instructional materials reviewers; requiring a district school board to be reimbursed for the cost of

581-03372-13 20131388c1

hiring a substitute teacher for each work day that a member of its instructional staff is absent while rendering service as a reviewer; authorizing a stipend for service as a reviewer; requiring entitlement of payment for per diem and reimbursement for travel expenses for service as a reviewer; providing that payments for substitute teachers and reviewers be made from the Textbook Bid Trust Fund; requiring the Department of Education to post certain instructional materials on its website; authorizing the department to contract with a nonprofit organization or association to administer the review process; amending ss. 1006.37 and 1006.40, F.S.; conforming provisions to changes made by the act; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 1006.283, Florida Statutes, is created to read:

1006.283 District school board instructional materials program.—

(1) A district school board may determine whether it will be responsible for reviewing, adopting, and purchasing instructional materials submitted by a publisher. If such a determination is made by the district school board, the district school superintendent shall notify the department upon such determination and describe the process by which materials will be reviewed and adopted. The district school superintendent

shall annually certify to the department that all core instructional materials are aligned with the applicable state standards.

(2) The district school board shall adopt rules implementing the district's instructional materials program which must include, but need not be limited to:

(a) Its review, adoption, and purchasing process.

(b) Identification of a term of adoption for instructional materials.

(c) The duties and qualifications of the instructional materials reviewers.

(d) The requirements for an affidavit made by a district instructional materials reviewer, which substantially includes the requirements of s. 1006.30.

(e) Compliance with s. 1006.32 relating to prohibited acts.

(f) A process that certifies the accuracy of instructional materials.

(g) The incorporation of applicable requirements of s. 1006.38 relating to the duties, responsibilities, and requirements of publishers of instructional materials.

(h) The process by which instructional materials will be purchased, including advertising, bidding, and purchasing requirements.

(3) The district school board may set and collect fees from publishers that participate in the instructional materials approval process. The amount assessed and collected must be reported to the district school board. The fees may not exceed the fees that are assessed by the state for materials submitted for review and shall be allocated in a separate account or

district budget line item for auditing purposes.

(4) A publisher that offers instructional materials to a district school board must provide the materials at a price that, including all costs of electronic transmission, does not exceed the lowest price at which the publisher offers such instructional materials for approval or sale to any other state or school district in this or any other state.

(5) A publisher shall automatically reduce the price of instructional materials to the district school board to the extent that reductions are made elsewhere in the United States.

(6) Each district school board shall submit to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the State Board of Education an annual report regarding the district instructional review, adoption, and purchasing program and the impact on the quality and availability of instructional materials, and the cost effectiveness of the program. The district school board shall submit the report on January 1 following the first fiscal year of implementation of the program and each year thereafter.

Section 2. Section 1006.29, Florida Statutes, is amended to read:

1006.29 State instructional materials reviewers.—

(1) For purposes of this section, the term "instructional materials" means items that have intellectual content and that, by design, serve as a tool for assisting in the instruction of a subject or course.

(2)~~(1)~~(a) The commissioner shall determine annually the areas in which instructional materials shall be submitted for approval ~~adoption~~, taking into consideration the desires of the

district school boards. ~~The commissioner shall also determine the number of titles to be adopted in each area.~~

(b) By April 15 of each school year, the commissioner shall appoint state instructional materials reviewers for ~~three state or national experts in~~ the content areas submitted for approval ~~adoption~~ to review the instructional materials and evaluate the content for alignment with the applicable ~~Next Generation Sunshine~~ state standards. These reviewers shall be designated as state instructional materials reviewers and shall evaluate ~~review~~ the materials for the level of instructional support and the accuracy and appropriateness of the progression of introduced content. Instructional materials must ~~shall~~ be made electronically available to the reviewers. ~~The initial review of the materials shall be made by only two of the three reviewers. If the two reviewers reach different results, the third reviewer shall break the tie. The reviewers shall independently make recommendations to the commissioner regarding materials that should be placed on the list of adopted materials through an electronic feedback review system.~~

(c) Reviewers who are not appointed as laypersons must be actively engaged in teaching, or in the supervision of teaching, in the public elementary, middle, or high schools in the major fields and levels in which instructional materials are used in the public schools. Each reviewer must receive training pursuant to subsection (6) in competencies related to the evaluation and selection of instructional materials ~~The commissioner shall request each district school superintendent to nominate one classroom teacher or district level content supervisor to review two or three of the submissions recommended by the state~~

~~instructional materials reviewers~~. ~~School districts shall ensure that these district reviewers are provided with the support and time necessary to accomplish a thorough review of the instructional materials. District reviewers shall independently rate the recommended submissions on the instructional usability of the resources.~~

(d) The commissioner shall appoint up to five reviewers for each content area submitted for approval pursuant to paragraph (a). At least 50 percent of the reviewers must be classroom teachers who are certified in an area directly related to the academic area or level considered for approval. One reviewer must be a layperson, and one must be a supervisor of teachers. The reviewers must have the capacity or expertise to address the broad racial, ethnic, socioeconomic, and cultural diversity of the state's student population.

(3)(a) All appointments shall be as prescribed in this section. A reviewer may not serve more than two consecutive terms, and appointments are for 18-month terms. The commissioner may remove a reviewer for cause, and any vacancies shall be filled in the manner of the original appointment for only the time remaining in the unexpired term. An employee of the department may be appointed as an additional ex officio reviewer.

(b) The reviewers' names and mailing addresses shall be disclosed to the public when appointments are made.

(c) A district school board shall be reimbursed for the actual cost of hiring a substitute teacher for each workday that a member of its instructional staff is absent from his or her assigned duties for the purpose of rendering service as a state

instructional materials reviewer. Each reviewer may be paid a stipend and is entitled to reimbursement for travel expenses and per diem in accordance with s. 112.061 for actual service in meetings of reviewers which are called by the commissioner. Payment of such substitute teachers, the stipend, applicable travel expenses, and per diem shall be made from the Textbook Bid Trust Fund on warrants to be drawn by the Chief Financial Officer upon requisition approved by the commissioner.

(4)~~(2)~~ For purposes of the review process, instructional materials ~~state adoption, the term "instructional materials" means items having intellectual content that by design serve as a major tool for assisting in the instruction of a subject or course. These items~~ may be made available in bound, unbound, kit, or package form and may consist of hardbacked or softbacked textbooks, electronic content, consumables, learning laboratories, manipulatives, electronic media, and computer courseware or software. A publisher or manufacturer providing instructional materials as a single bundle shall also make the instructional materials available as separate and unbundled items, each priced individually. A publisher may also offer sections of state-adopted instructional materials in digital or electronic versions at reduced rates to districts, schools, and teachers.

(5)~~(3)~~ Beginning in the 2015-2016 academic year, all adopted instructional materials for students in kindergarten through grade 12 must be provided in an electronic or digital format. For purposes of this section, the term:

(a) "Electronic format" means text-based or image-based content in a form that is produced on, published by, and

readable on computers or other digital devices and is an electronic version of a printed book, whether or not any printed equivalent exists.

(b) "Digital format" means text-based or image-based content in a form that provides the student with various interactive functions; that can be searched, tagged, distributed, and used for individualized and group learning; that includes multimedia content such as video clips, animations, and virtual reality; and that has the ability to be accessed at any time and anywhere.

The terms do not include electronic or computer hardware even if such hardware is bundled with software or other electronic media, nor does it include equipment or supplies.

(6)~~(4)~~ The department shall develop a training program for persons selected as state instructional materials reviewers and school district reviewers. The program shall be structured to assist reviewers in developing the skills necessary to make valid, culturally sensitive, and objective decisions regarding the content and rigor of instructional materials. All persons serving as instructional materials reviewers must complete the training program prior to beginning the review and selection process.

(7) The department shall post on its website a list of department-approved instructional materials, district-approved instructional materials as applicable, and instructional materials approved by other states which align with applicable state standards.

(8) The department may contract with a nonprofit

organization or association to administer the review process.

Section 3. Subsection (1) of section 1006.37, Florida Statutes, is amended to read:

1006.37 Requisition of instructional materials from publisher's depository.—

(1) The district school superintendent shall requisition adopted instructional materials from the depository of the publisher with whom a contract has been made. However, the superintendent shall requisition current instructional materials to provide each student with a textbook or other materials as a ~~major~~ tool of instruction in core courses of the subject areas specified in s. 1006.40(2). These materials must be requisitioned within the first 2 years of the adoption cycle, except for instructional materials related to growth of student membership or instructional materials maintenance needs. The superintendent may requisition instructional materials in the core subject areas specified in s. 1006.40(2) that are related to growth of student membership or instructional materials maintenance needs during the 3rd, 4th, 5th, and 6th years of the original contract period.

Section 4. Subsection (2) of section 1006.40, Florida Statutes, is amended to read:

1006.40 Use of instructional materials allocation; instructional materials, library books, and reference books; repair of books.—

(2) Each district school board shall ~~must~~ purchase current instructional materials to provide each student with a ~~major~~ tool of instruction in core courses of the subject areas of mathematics, language arts, science, social studies, reading,

and literature for kindergarten through grade 12. Such purchase must be made within the first 2 years after the effective date of the adoption cycle. For the 2012-2013 mathematics adoption, a district using a comprehensive mathematics instructional materials program adopted in the 2009-2010 adoption shall be deemed in compliance with this subsection if it provides each student with such additional state-adopted materials as may be necessary to align the previously adopted comprehensive program to common core standards and the other criteria of the 2012-2013 mathematics adoption.

Section 5. This act shall take effect July 1, 2013.

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/SB 1390 provides a process by which a school district may receive approval to establish an innovation school within the district, with statutory flexibility, responsibility, and authorization similar to charter schools. The purpose of an innovation school is to utilize innovation and to enhance high academic achievement and accountability in exchange for flexibility and exemptions from specific statutes and rules. Also, the bill allows three or more contiguous school districts to apply to enter into a joint performance contract as a Region of Innovation.

For district schools of choice, the bill exempts facilities leased by the district from ad valorem taxes and changes the compliance calculation for maximum class size from the maximum number of students for each classroom to the school average per classroom. District schools of choice are schools such as virtual instruction programs, magnet schools, alternative schools, special programs, advanced placement, dual enrollment, and the innovation schools created in this bill.

The bill has no fiscal impact on state appropriations.
Calculating compliance for maximum class size, based on the average of all classrooms in the school instead of the maximum for each classroom, would make it easier for the schools of

choice to meet the requirement and would help the school district to avoid or minimize the fiscal penalty for noncompliance. This would not change the total funds allocated to school districts to meet the maximum class size requirement.

If a school district leases a private facility for an innovation school the provision of the bill that exempts innovation schools from ad valorem taxes and State Requirements for Educational Facilities for leased facilities will provide a cost savings to school districts to lease a private facility, however, any savings can be determined only at the time a lease is executed.

The effective date of the bill is July 1, 2013.

This bill substantially amends sections 196.1983 and 1002.31, Florida Statutes.

The bill creates section 1003.622, Florida Statutes.

II. Present Situation:

Academically High-Performing School Districts

To be designated as an academically high-performing school district, a school district must:

- Earn a grade of "A" for two consecutive years and have no grade "F" schools;
- Comply with the class size requirements; and
- Have no material weaknesses or instances of material noncompliance noted in the annual financial audit.[1]

An academically high-performing school district is exempt from many statutes in the Florida K-20 Education Code (Education Code) and related state board of education rules.[2] However, each academically high-performing school district must comply with the provisions in the Education Code pertaining to:[3]

- Services to students with disabilities;
- Civil rights and discrimination;
- Student health, safety, and welfare;
- The election or compensation of district school board members;
- The student assessment program and the school grading system;
- Financial matters;
- Planning and budgeting;
- Differentiated pay and performance-pay policies for school administrators and instructional personnel;
- Education facilities; and

[1] s. 1003.621(1)(a), F.S.
[2] s. 1003.621(1)(b), F.S. Chapters 1000 through 1013, F.S., are known as the "Florida K-20 Education Code." s. 1000.01(1), F.S.
[3] s. 1003.621(2)(a)-(j), F.S.

- Instructional materials.[4]

An academically high-performing designation lasts for three years.[5] The school district may renew the designation if it continues to meet the eligibility requirements and earns an "A" grade for two years within a three-year period.[6] A school district must notify the State Board of Education (SBE) if it no longer meets eligibility requirements.[7]

For 2011-2012, there were 19 academically high-performing school districts, of which 10 waived some provisions of law.[8] For comparison, in 2010-2011 there were 13 academically high-performing school districts, of which 9 waived some provision of law.[9] The vast majority of the waivers for 2010-2011 and 2011-2012 related to the school opening and closing dates (i.e., opening schools earlier than 14 days before Labor Day).

III. Effect of Proposed Changes:

The bill provides a process by which a school district may receive approval to establish an innovation school within the district, with statutory flexibilities, responsibilities, and authorities similar to those authorized for charter schools. The purpose of an innovation school is to utilize innovation and to enhance high academic achievement and accountability in exchange for flexibility and exemptions from specific statutes. The bill allows three or more contiguous school districts to apply to enter into a joint performance contract as a Region of Innovation.

Also, the bill exempts facilities leased by the district from ad valorem taxes, and changes the compliance calculation for maximum class size, from maximum for each classroom to the school average per classroom, for district schools or programs that are schools of choice (such as virtual instruction programs, magnet schools, alternative schools, special programs, advanced placement, and dual enrollment).

District Innovation Schools

The bill creates district innovation schools and authorizes school districts that meet specified requirements to apply to the State Board of Education to enter into a performance contract to operate an innovation school within the district.

Purpose and Principles

The purpose of an innovation school is to utilize innovation and enhance high academic achievement and accountability in exchange for flexibility and exemptions from specific statutes.

[7] *Id*.
[8] Email, Florida Department of Education, Re: Chart of Active Waivers By Academically High Performing Districts (March 25, 2013), on file with the Committee of Education Staff. The school districts designated as academic high-performing school districts for the 2011-12 academic year were: Brevard, Calhoun, Charlotte, Citrus, Clay, Flagler, Gilchrist, Gulf, Lee, Leon, Martin, Nassau, Palm Beach, St. Johns, Sarasota, Seminole, Sumter, Wakulla, and Walton.
[9] *Id*.

An innovation school is a school that:

- Operates as a public school of parental choice pursuant to s. 1002.31;
- Focuses on teaching and learning infused with current technology;
- Prepares students for a career or postsecondary education;
- Utilizes innovation and enhances high student academic achievement and accountability;
- Enhances academic success and financial efficiency by aligning responsibility with accountability;
- Provides a parent with information for each year spent in the innovation school regarding the educational progress of his or her child, the child's reading grade level, and the child's performance toward achieving common core standards appropriate for the student's grade level;
- Has a theme or academic focus that is based on innovation and is unique in the district;
- Offers specialized programs and created innovative learning approaches in a diverse environment; and
- Could operate as a virtual school.

The principles of an innovation school are:

- Student learning is aligned with Next Generation Sunshine State Standards;
- Students advance by demonstrating skills, abilities, and knowledge necessary to ensure a successful career;
- Teachers, advisors, students, and parents manage a personalized learning plan that accounts for each student's preferred pace and learning style;
- Each student learns in the way he or she learns best, such as independently, one-on-one with a coach, collaboratively in small groups, online, through internships or early college courses, or in other real-world contexts; and
- Instructional personnel take on roles as learning coaches, advisors, and content and assessment experts.

An innovation school must:

- Meet high standards of student achievement;
- Implement innovative learning methods, including blended learning, and assessment tools to implement a school wide transformation to improve student learning and academic achievement;
- Measure student performance based on student learning growth, or student achievement if student learning growth cannot be measured;
- Incorporate industry certifications and similar recognitions into performance expectations; and
- Tailor the program to students at the school, personalize education for each student, and empower students to plan and manage their own studies in a variety of ways.

Application & Expansion

A school district could apply to the State Board of Education to enter into a performance contract to operate an innovation school if the district:

- Has at least 20% of its total enrollment in public school choice programs or at least 5% of its total enrollment in charter schools;
- Has no material weaknesses or instances of material noncompliance noted in the annual financial audit conducted; and
- Has not received a district grade below B in the past 3 years.

A school district that meets the eligibility requirements could apply to the State Board of Education at any time to enter into a performance contract to operate an innovation school. The State Board of Education would either approve or deny the application within 90 days, or later time if agreed upon by the school district. The application must, at a minimum:

- Demonstrate how the school district meets and will continue to meet applicable requirements;
- Identify how the school will accomplish the purpose and guiding principles;
- Identify the statutes or rules the district is seeking to waive;
- Identify and provide supporting documentation for the purpose and impact of each waiver, how each waiver would enable the school to achieve the purpose and guiding principles of an innovation school, and how the school would not be able to achieve the purpose and guiding principles without each waiver; and
- Confirm that the school board remains responsible for the operation, control and supervision of the school in accordance with all applicable laws, rules and district procedures not waived for the innovation school or waived pursuant to other applicable law.

A school district could apply to the State Board of Education to establish additional innovation schools if each existing innovation school:

- Has a grade of "A" or "B;"
- Meets all requirements of innovation schools and the performance contract; and
- Has at least 50% of its students exceed the state average on the statewide assessment program. This comparison may take student subgroups into specific consideration so that at least 50% of students in each student subgroup meet or exceed the statewide average performance of the subgroups, when rounded to the nearest whole number, of that particular subgroup.

However, the number of innovation schools per school district could not exceed:

- Seven schools in a school district that has 100,000 or more students;
- Five schools in a school district that has 50,000 to 99,999 students; and
- Three schools in a district that has fewer than 50,000 students.

Additionally, three or more contiguous school districts could apply to enter into a joint performance contract as a Region of Innovation.

Performance Contract & Renewal

An innovation school would operate pursuant to a performance contract with the State Board of Education for a period of 5 years. The State Board of Education would monitor the school district and school for compliance with the contract. The performance contract must address, but not be limited to, identifying:

- That an innovation school may plan during the first year, begin at least partial implementation during the second year, and fully implement the program by the third year. However, a district may implement the program sooner than specified if authorized in the performance contract;
- How the school will integrate technology into instruction, assessment, and professional development. The school must restructure the school day or school year in a way that allows it to best accomplish its goals;
- How the school and district will monitor performance progress based on skills that help students succeed in college and careers, including problem solving, research, interpretation, and communication;
- How the school will allow students to advance based on student competency and understanding of the content;
- How the learning environment will allow for innovation and how the resources will enable personalization and increase student achievement and college and career readiness;
- How the school will incorporate industry certifications and similar recognitions into performance expectations; and
- That the State Board of Education may cancel the contract if:
  - The school receives a school grade of "F" as an innovation school for 2 consecutive years;
  - The school or district fails to comply with statutory requirements or the contract; or
  - Other good cause shown.

The school's performance would be evaluated against the eligibility criteria, purpose, guiding principles, and compliance with the contract to determine contract renewal. The contract could be renewed every 5 years.

Student Enrollment

An innovation school would be open to any student covered in an interdistrict agreement or residing in the school district. If the number of student applicants exceed capacity, a public random selection process would be performed. A district could give an enrollment preference to students who identify the innovation school as the student's preferred choice pursuant to the district's controlled open enrollment plan.

Funding

A district school board operating an innovation school would report full-time equivalent students to the department in a manner prescribed by the department. As with other schools in the district, funding would be provided through the Florida Education Finance Program as provided in ss. 1011.61 and 1011.62, F.S. An innovation school could seek and receive additional funding through incentive grants or public or private partnerships.

Exemptions from Statutes

An innovation school would be exempt from many provisions in the Education Code, including, but not limited to:

- Autonomy in the budget, staffing, governance, curriculum, assessment, and school calendar, and
- Exemption from the State Requirements for Educational Facilities when leasing facilities.

However, an innovation school must comply with the following statutes in the Education Code:

- Statutes specifically applying to innovation schools, including this section;
- Statutes pertaining to the student assessment program and school grading system;
- Statutes pertaining to the provision of services to students with disabilities;
- Statutes pertaining to civil rights;
- Statutes pertaining to student health, safety, and welfare;
- Laws governing the election and compensation of district school board members and election or appointment and compensation of district school superintendents;
- Section 1003.03, F.S., relating to the maximum class size, except that the calculation for compliance is the average at the school level; and
- Certain statutes pertaining to contracts with instructional personnel.

Reports

The school district of an innovation school would submit to the State Board of Education and the Legislature an annual report by December 1 of each year which delineates the performance of the school of innovation in regards to the academic performance of students. The annual report would be submitted in a format prescribed by the Department of Education and would include, but need not be limited to, the following:

- Evidence of compliance with this section;
- Efforts to close the achievement gap;
- Longitudinal performance of students, by grade level and subgroup, in mathematics, reading, writing, science, and any other subject that is included as a part of the statewide assessment program;
- Longitudinal performance regarding students who take an Advanced Placement Examination organized by demographic group, specifically by age, gender, and race, and by participation in the National School Lunch Program; and

- Number and percentage of students who take an Advanced Placement Examination.

Class Size

For district schools of choice, the bill changes the compliance calculation for maximum class size from the maximum number of students for each classroom to the school average per classroom. District schools of choice are schools such as virtual instruction programs, magnet schools, alternative schools, special programs, advanced placement, dual enrollment, and they include the district innovation schools created in this bill.

Article IX, Section 1 of the Florida Constitution states in part that "[t]o assure that children attending public schools obtain a high quality education, the legislature shall make adequate provision to ensure that… there are a sufficient number of classrooms so that" the maximum number of students who are assigned to each teacher who is teaching in public school classrooms for various grades do not exceed a specific number. The Legislature implements the constitutional provision through responsibilities and penalties specified in s. 1003.03, F.S.

Ad Valorem Taxes

The bill specifically exempts property leased by districts from ad valorem taxes pursuant to s. 196.1983, F. S; the landlord must certify by affidavit that lease payments are reduced to the extent of the exemption. The owner of the property also must disclose the full amount of the benefit derived from the exemption and ensure that the district receives the benefit through a credit to lease payments. The practical effect is to provide to school districts the same exemption provided to charter schools regarding leased property.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

C. Government Sector Impact:

There is no fiscal impact to state appropriations.

Calculating compliance for maximum class size, based on the average of all classrooms in the school instead of the maximum for each classroom, would make it easier for the schools of choice to meet the requirement and would help the school district to avoid or minimize the fiscal penalty for noncompliance. This would not change the total funds allocated to school districts to meet the maximum class size requirement.

If a school district leases a private facility for an innovation school the provision of the bill that exempts innovation schools from ad valorem taxes and State Requirements for Educational Facilities for leased facilities will provide a cost savings to school districts to lease a private facility, however, any savings can be determined only at the time a lease is executed.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Education on April 1, 2013:
CS/SB 1390 differs from SB 1390 in that it:

- Deletes all references to charter schools and academically high performing school districts.
- Expands upon the creation of a district school of innovation.
- Requires a school district that seeks an innovation school to apply to the State Board of Education for approval to enter into a performance contract to create a school of innovation.
- Contains necessary provisions related to the creation of an innovation school, such as the purpose and definition of a school of innovation, the application and contract process, the operation of the school, and renewal and termination provisions.
- Authorizes three or more contiguous school districts to apply to enter into a joint performance contract as a Region of Innovation.

B. Amendments:

None.

By the Committee on Education; and Senator Montford

581-03373-13 20131390c1

A bill to be entitled

An act relating to school district innovation; providing a short title; amending s. 196.1983, F.S.; granting school districts the ad valorem tax exemption given to charter schools; requiring a landlord to certify compliance by affidavit; amending s. 1002.31, F.S.; providing a calculation for compliance with class size maximums for a public school of choice; creating s. 1003.622, F.S.; creating innovation schools to allow school districts to earn flexibility for high academic achievement; specifying school and student eligibility requirements; limiting the number of innovation schools that may be operated and established in a school district; providing guiding principles for innovation schools; requiring innovation schools to personalize education for each student; establishing an application process; specifying requirements of a performance contract between the State Board of Education and a school district; establishing the term of the performance contract; providing for a Region of Innovation in which three or more school districts enter into a joint performance contract; requiring the State Board of Education to monitor innovation schools for compliance with the act and performance contracts; requiring the State Board of Education to adopt rules; providing that a participating school district has autonomy in certain areas; exempting innovation schools from ch. 1000-1013, F.S., subject to certain

581-03373-13 20131390c1

exceptions; exempting such districts from certain ad valorem taxes and other requirements; providing for funding; requiring a school district with an innovation school to submit an annual report to the State Board of Education and the Legislature; specifying requirements for such report; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. SHORT TITLE.—This act may be cited as the "Florida Innovation Schools Act."

Section 2. Section 196.1983, Florida Statutes, is amended to read:

196.1983 Charter school and school district exemption from ad valorem taxes.—Any facility, or portion thereof, used to house a school district or a charter school whose charter has been approved by the sponsor and the governing board pursuant to s. 1002.33(7) is ~~shall be~~ exempt from ad valorem taxes. For leasehold properties, the landlord must certify by affidavit to the district or the charter school sponsor that the lease payments shall be reduced to the extent of the exemption received. The owner of the property shall disclose ~~to a charter school~~ the full amount of the benefit derived from the exemption and the method for ensuring that the district or charter school receives such benefit. The charter school shall receive the full benefit derived from the exemption through either an annual or monthly credit to the district's or charter school's lease payments.

Section 3. Subsection (9) is added to section 1002.31, Florida Statutes, to read:

1002.31 Public school parental choice.—

(9) For a school or program that is a public school of choice under this section, the calculation for compliance with maximum class size pursuant to s. 1003.03 is the average number of students at the school level.

Section 4. Section 1003.622, Florida Statutes, is created to read:

1003.622 District innovation schools.—

(1) PURPOSE AND ELIGIBILITY.—

(a) The purpose of an innovation school is to utilize innovation and enhance high academic achievement and accountability in exchange for flexibility and exemptions from specific statutes.

(b) An innovation school is a school that:

1. Operates as a public school of parental choice pursuant to s. 1002.31;

2. Focuses on teaching and learning infused with current technology;

3. Prepares students for a career or postsecondary education;

4. Utilizes innovation and enhances high student academic achievement and accountability;

5. Enhances academic success and financial efficiency by aligning responsibility with accountability;

6. Provides a parent with sufficient information for each year spent in the innovation school regarding the educational progress of his or her child, the child's reading grade level,

and the child's performance toward achieving common core standards appropriate for the student's grade level;

7. Has a theme or academic focus that is based on innovation and is unique in the district; and

8. Offers specialized programs and creates innovative learning approaches in a diverse environment.

(c) A district school board may apply to the State Board of Education for an innovation school if the district:

1. Has at least 20 percent of its total enrollment in public choice programs or at least 5 percent of its total enrollment in charter schools;

2. Has no material weaknesses or instances of material noncompliance noted in the annual financial audit conducted pursuant to s. 218.39; and

3. Has not received a district grade below B in the past 3 years.

(d) A district school board may operate one innovation school upon an application being approved by the State Board of Education.

1. A district school board may apply to the State Board of Education to establish additional innovation schools if each existing innovation school in the district:

a. Meets all requirements in this section and in the performance contract;

b. Has a grade of "A" or "B"; and

c. Has at least 50 percent of its students exceed the state average on the statewide assessment program pursuant to s. 1008.22. This comparison may take student subgroups, as defined in the federal Elementary and Secondary Education Act (ESEA), 20

U.S.C. s. 6311(b)(2)(C)(v)(II), into specific consideration so that at least 50 percent of students in each student subgroup meet or exceed the statewide average performance, rounded to the nearest whole number, of that particular subgroup.

2. Notwithstanding subparagraph 1., the number of innovation schools in a school district may not exceed:

a. Seven in a school district that has 100,000 or more students.

b. Five in a school district that has 50,000 to 99,999 students.

c. Three in a school district that has fewer than 50,000 students.

(e) An innovation school must be open to any student covered in an interdistrict agreement or residing in the school district in which the innovation school is located. An innovation school shall enroll an eligible student who submits a timely application if the number of applications does not exceed the capacity of a program, class, grade level, or building. If the number of applications exceeds capacity, all applicants shall have an equal chance of being admitted through a public random selection process. However, a district may give enrollment preference to students who identify the innovation school as the student's preferred choice pursuant to the district's controlled open enrollment plan.

(2) GUIDING PRINCIPLES.—

(a) An innovation school shall be guided by the following principles:

1. Student learning is aligned with the Next Generation Sunshine State Standards.

2. Students advance by demonstrating skills, abilities, and knowledge necessary to ensure a successful career.

3. Teachers, advisors, students, and parents manage a personalized learning plan that accounts for each student's preferred pace and learning style.

4. Each student learns in the way he or she learns best, such as independently, one-on-one with a coach, collaboratively in small groups, online, through internships or early college courses, or in other real-world contexts.

5. Instructional personnel take on roles as learning coaches, advisors, and content and assessment experts.

(b) An innovation school shall:

1. Meet high standards of student achievement.

2. Implement innovative learning methods, including blended learning, and assessment tools to implement a schoolwide transformation to improve student learning and academic achievement.

3. Measure student performance based on student learning growth, or based on student achievement if student learning growth cannot be measured.

4. Incorporate industry certifications and similar recognitions into performance expectations.

5. Tailor the program to students at the school, personalize education for each student, and empower students to plan and manage their own studies in a variety of ways.

(c) Classroom teachers, as defined in s. 1012.01(2)(a), shall be evaluated based on performance pursuant to s. 1012.34. However, an innovation school may use an equally appropriate formula pursuant to s. 1012.34(7)(b) to make such evaluation.

(d) An innovation school may operate as a virtual school.

(3) APPLICATION PROCESS AND PERFORMANCE CONTRACT.—A school district that meets the eligibility requirements of subsection (1) may apply to the State Board of Education at any time to enter into a performance contract to operate an innovation school.

(a) The application must, at a minimum:

1. Demonstrate how the school district meets and will continue to meet the requirements of this section;

2. Identify how the school will accomplish the purposes and guiding principles of this section;

3. Identify the statutes or rules from which the district is seeking a waiver for the school;

4. Identify and provide supporting documentation for the purpose and impact of each waiver, how each waiver would enable the school to achieve the purpose and guiding principles of this section, and how the school would not be able to achieve the purpose and guiding principles of this section without each waiver; and

5. Confirm that the school board remains responsible for the operation, control, and supervision of the school in accordance with all applicable laws, rules, and district procedures not waived pursuant to this section or waived pursuant to other applicable law.

(b) The State Board of Education shall approve or deny the application within 90 days or, with the agreement of the school district, at a later date.

(c) The performance contract must address the terms under which the State Board of Education may cancel the contract and,

at a minimum, the methods by which:

1. Upon execution of the performance contract, the school district will plan the program during the first year, begin at least partial implementation of the program during the second year, and fully implement the program by the third year. A district may implement the program sooner than specified in this paragraph if authorized in the performance contract.

2. The school will integrate technology into instruction, assessment, and professional development. The school may also restructure the school day or school year in a way that allows it to best accomplish its goals.

3. The school and district will monitor performance progress based on skills that help students succeed in college and careers, including problem solving, research, interpretation, and communication.

4. The school will allow students to advance based on student competency and understanding of the content.

5. The learning environment will allow for innovation.

6. The resources will enable personalization and increase student achievement and college and career readiness.

7. The school will incorporate industry certifications and similar recognitions into performance expectations.

(d) Three or more contiguous school districts may apply to enter into a joint performance contract as a Region of Innovation, subject to terms and conditions contained in this section for a single school district.

(e) The State Board of Education shall monitor innovation schools to ensure that the respective school district is in compliance with this section and the performance contract.

(f) The State Board of Education shall adopt rules pursuant to ss. 120.536(1) and 120.54 to implement this section, including, but not limited to, an application, evaluation instrument, and renewal evaluation instrument.

(g) This section does not supersede the provisions of s. 768.28.

(4) TERM OF PERFORMANCE CONTRACT.—An innovation school may operate pursuant to a performance contract with the State Board of Education for a period of 5 years.

(a) Before expiration of the performance contract, the school's performance shall be evaluated against the eligibility criteria, purpose, guiding principles, and compliance with the contract to determine whether the contract may be renewed. The contract may be renewed every 5 years.

(b) The performance contract shall be terminated by the State Board of Education if:

1. The school receives a school grade as an innovation school of "F" for 2 consecutive years;

2. The school or district fails to comply with the criteria in this section;

3. The school or district does not comply with terms of the contract which specify that a violation results in termination; or

4. Other good cause is shown.

(5) EXEMPTION FROM STATUTES.—

(a) An innovation school is generally exempt from chapters 1000-1013, and shall have autonomy in the budget, staffing, governance, curriculum, assessment, and school calendar. However, an innovation school shall comply with the following

provisions of those chapters:

1. Laws pertaining to the following:

a. Innovation schools, including this section.

b. Student assessment program and school grading system.

c. Services to students who have disabilities.

d. Civil rights, including s. 1000.05, relating to discrimination.

e. Student health, safety, and welfare.

2. Laws governing the election and compensation of district school board members and election or appointment and compensation of district school superintendents.

3. Section 1003.03, governing maximum class size, except that the calculation for compliance pursuant to s. 1003.03 is the average at the school level.

4. Sections 1012.22(1)(c) and 1012.27(2), relating to compensation and salary schedules.

5. Section 1012.33(5), relating to workforce reductions.

6. Section 1012.335, relating to contracts with instructional personnel hired on or after July 1, 2011.

(b) An innovation school shall also comply with chapter 119 and section 286.011, relating to public meetings and records, public inspection, and criminal and civil penalties.

(c) An innovation school is exempt from ad valorem taxes and the State Requirements for Educational Facilities when leasing facilities.

(6) FUNDING.—A district school board operating an innovation school shall report full-time equivalent students to the department in a manner prescribed by the department. As with other schools in the district, funding shall be provided through

the Florida Education Finance Program described in ss. 1011.61 and 1011.62. An innovation school may seek and receive additional funding through incentive grants or public or private partnerships.

(7) REPORTS.—The school district of an innovation school shall submit to the State Board of Education, the President of the Senate, and the Speaker of the House of Representatives an annual report by December 1 of each year which delineates the performance of the innovation school as it relates to the academic performance of students. The annual report shall be submitted in a format prescribed by the Department of Education and must include, but need not be limited to, the following:

(a) Evidence of compliance with this section.

(b) Efforts to close the achievement gap.

(c) Longitudinal performance of students, by grade level and subgroup, in mathematics, reading, writing, science, and any other subject that is included as a part of the statewide assessment program in s. 1008.22.

(d) Longitudinal performance for students who take an Advanced Placement Examination, organized by age, gender, and race, and for students who participate in the National School Lunch Program.

(e) Number and percentage of students who take an Advanced Placement Examination.

Section 5. This act shall take effect July 1, 2013.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 1408
INTRODUCER:	Appropriations Committee; Banking and Insurance Committee; and Senator Richter
SUBJECT:	Captive Insurance
DATE:	April 25, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Burgess	Burgess	BI	**Fav/CS**
2.	Siples	Hrdlicka	CM	**Favorable**
3.	Betta	Hansen	AP	**Fav/CS**

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/CS/SB 1408 removes the reference to "satisfactory non-approved reinsurer" from the definition of a qualifying reinsurer parent company, and replaces it with a reference to "trusteed reinsurer," as being considered a qualifying reinsurer parent company. The bill removes the current allowance for a qualifying reinsurer parent company to hold a letter of eligibility as an acceptable alternative to holding a certificate of authority.

The bill allows an industrial insured captive insurance company to insure risks of its stockholders or members, and affiliates thereof, or the stockholders or affiliates of the parent corporation of the captive insurance company. The bill allows an industrial insured captive insurance company with unencumbered capital and surplus of at least $20 million to be licensed to provide workers' compensation and employer's liability insurance in excess of $25 million in the annual aggregate.

The bill has no state fiscal impact.

The bill exempts captive insurance company from the statutory trust deposit required under s. 624.411, F.S., as a condition of obtaining a certificate of authority to transact insurance. A

pure captive insurance company must submit to the Office of Insurance Regulation its standards to ensure a parent or affiliated company is able to exercise control of the risk management function of any controlled unaffiliated business that is to be insured by the pure captive insurance company. The bill deletes the current authorization for the Financial Services Commission to adopt rules establishing such standards.

This bill substantially amends the following sections of the Florida Statutes: 628.901, 628.905, 628.907, 628.909, 628.9142, 628.915, 628.917, and 628.919, F.S.

II. Present Situation:

A captive insurance company is one that is created to insure the risks of its owners.[1] A captive insurance company acts similarly to a commercial insurer in that it will issue an insurance policy and in exchange, the insured entity will pay an insurance premium.[2]

Under current law, captive insurance is regulated by the Office of Insurance Regulation (OIR) under part V of ch. 628, F.S., which defines a "captive insurance company" as a domestic insurer established under part V, and includes a pure captive insurance company, a special purpose captive insurance company, or an industrial captive insurance company, with each of these formations also separately defined. Each formation may vary in allowable corporate structure, capital and surplus, underwritten risks, and number of owners. Most captive insurance companies are formed as pure captives,[3] meaning that the captive is a wholly-owned subsidiary that insures the risks of its parent and affiliates.[4]

An "industrial insured captive insurance company"[5] is defined as a captive insurance company that provides insurance only to industrial insureds[6] that are its stockholders or members, or affiliates of the stockholders or members, or to the stockholders of its parent corporation, or their affiliates. An industrial insured captive insurance company can also provide reinsurance, but only on risks written by a direct insurer for the industrial insureds that are the stockholders or members, and affiliates thereof, of the industrial insured captive insurance company, or to the stockholders of the parent corporation, or their affiliates, of the industrial insured captive insurance company.

[3] *Id* at 9.
[4] Section 628.901(12), F.S.
[5] Section 628.901(9), F.S.
[6] Section 628.901(8), F.S., defines an industrial insured as an insured that has gross assets in excess of $50 million, procures insurance through a full-time employee of the insured who acts as an insurance manager or buyer or through a person licensed as a property and casualty insurance agent, broker or consultant, has at least 100 full-time employees, and pays annual premiums in excess of specified amounts.

A "captive reinsurance company"[7] is defined as a stock corporation reinsurer formed under part V of ch. 628, F.S., which is wholly owned by a qualifying reinsurance parent company. A "qualifying reinsurance parent company"[8] is defined as a reinsurer that:

- Holds a certificate of authority or a letter of eligibility; or
- Is an accredited or a satisfactory non-approved reinsurer in Florida and possesses consolidated GAAP net worth of at least $500 million and a consolidated debt to total capital ratio of not greater than 0.50.

A captive insurance arrangement can provide a number of benefits, depending on the type of business arrangement, the domicile of the insured business and the captive insurance company, and the coverages involved. Some benefits of captive insurance may include:

- Lower insurance cost.[9] Two elements that an arm's length insurer must recover are acquisition cost (often in the form of agent commissions and advertising) and profit. A captive insurance company would not need to factor these elements into the premium it charges.
- Potential tax savings.[10] The premium paid by the insured entity is a deductible expense for federal income tax purposes and; under some circumstances, a portion of the captive insurance company's income from the collected premium may not be recognized as taxable. Further, a captive insurance company may be domiciled in a country where its investment income may receive more favorable tax treatment than in the United States.
- More tailored insurance plan.[11] A captive insurance company may be able to create overall savings through coverage and policy provisions that are unique to the individual business being insured.
- Cohesion of interest. Because the control of the insured and the insurer would reside in a single entity, there could be a reduction in some of the areas of potential disagreement over claim verification, investigation, and valuation.

Potential disadvantages of a captive insurance arrangement may include:

- Administrative Costs.[12] Forming a captive insurance company may require extra personnel and management as well as time and attention that can distract from the core business of the parent company or companies. Administering a possible acquisition or merger may also become more complicated when a captive is involved. Regulatory compliance is an additional component that may impose added administrative costs.
- Long-term Financial Risks.[13] The formation of a captive insurance company is a long-term investment with benefits that often are not realized immediately. Captive insurance

[13] *Id.*

companies may also expose a company to increased risk and exposure to volatile capital and reinsurance markets. The financial commitment to a captive insurance company is less flexible than the simple purchase of an annual policy through a commercial insurer.

In 2012, the Legislature passed and the Governor signed CS/CS/HB 1101 into law,[14] which made significant changes to Florida's captive insurance statute. These changes were intended to modernize the statute and make Florida more attractive to companies seeking to domicile captive insurance companies in the state, which could help generate new jobs and revenues. Among its numerous provisions, the law:

- Adopted new definitions for pure captive insurance companies, special purpose captive insurance companies, and industrial insured captive insurance companies;
- Allowed the formation and incorporation of different varieties of captive insurance and reinsurance companies;
- Substantially reduced the capital and surplus requirements for industrial insured and pure captive insurance companies;
- Established new procedures for licensure of captive insurance or reinsurance companies by the OIR;
- Fixed annual reporting requirements applicable to captive insurance companies;
- Provided net asset requirements for nonprofit captive insurance companies formed as pure captive and special purpose captive insurance companies;
- Required the Financial Services Commission to set standards ensuring that a parent or affiliated company exercises risk management control of any unaffiliated business to be insured by a pure captive insurance company; and
- Restricted the allowable coverage a captive insurance or reinsurance company may provide. Prior to CS/CS/HB 1101, an industrial insured captive insurance company was permitted to provide workers' compensation and employer's liability insurance in excess of $25 million in the annual aggregate. CS/CS/HB 1101 removed that provision. This provision negatively affected the ability of at least one currently existing captive insurance company to write new policies for workers' compensation and excess employer liability coverage.

III. Effect of Proposed Changes:

Section 1 amends s. 628.901, F.S., to revise the definition of "qualifying reinsurer parent company" by replacing "satisfactory non-approved" reinsurer with "trusteed" insurer as an entity that is considered to be a qualifying reinsurer parent company. The bill also removes the current allowance for a qualifying reinsurer parent company to hold a letter of eligibility as an acceptable alternative to holding a certificate of authority.

Section 2 amends s. 628.905, F.S., to allow an industrial insured captive insurance company to insure risks of its stockholders or members, and affiliates thereof, or the stockholders or affiliates of the parent corporation of the captive insurance company. The bill also allows an industrial insured captive insurance company with unencumbered capital and surplus of at least $20 million to be licensed to provide workers' compensation and employer's liability insurance in

[14] Sections 19 – 34, ch. 2012-151, L.O.F.

excess of $25 million in the annual aggregate. Such firms must maintain unencumbered capital and surplus of at least $20 million to continue writing excess workers' compensation insurance.

Section 4 amends s. 628.909, F.S., to exempt captive insurance companies from the statutory trust deposit required under s. 624.411, F.S., as a condition of obtaining a certificate of authority to transact insurance.

Sections 3, 5, 6, and 7 conform language in and make technical amendments language to ss. 628.907, 628.9142, 628.915, and 628.917, F.S., related to captive insurance companies.

Section 8 amends s. 628.919, F.S., to remove the authority of the Financial Services Commission to adopt rules establishing the standards for risk management control. The bill requires a pure captive insurance company to submit standards to the Office of Insurance Regulation that ensure that a parent or affiliated company is able to exercise control of the risk management function of any controlled unaffiliated business that is to be insured by the pure captive insurance company.

Section 9 provides an effective date of July 1, 2013.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 23, 2013:
The committee substitute makes a technical amendment to the definition of "Qualifying reinsurer parent company".

CS by Banking and Insurance on April 9, 2013:
The CS removes the original bill's redefinition of "captive insurance company," and the bill's new definitions for "incorporated protected cell," "participant," "protected cell," "incorporated protected cell, and" "protected cell subsidiary company."

The CS removes the original bill's provision to allow that a protected cell subsidiary company can insure or reinsure risks.

The CS removes the original bill's provision to provide that a protected cell subsidiary company must possess and maintain unimpaired paid-in capital of at least $200,000 and unimpaired surplus of at least $300,000.

The CS removes the original bill's provision to make conforming changes to add protected cell subsidiary companies to the applicability of specific provisions of the Insurance Code.

The CS removes the original bill's provision to provide that a protected cell subsidiary company must be incorporated as a stock insurer with its capital divided into shares that are held by its industrial insured captive insurance company parent.

The CS removes the original bill's provision to provide that a ceding captive insurance company can reinsure risks with an assuming insurer for the limited purpose of assuming risk from a protected cell subsidiary company with respect to one or more protected cells.

The CS removes the original bill's provision to remove current language that provides that an industrial insured captive insurer is prohibited from joining or from receiving any benefit from a joint underwriting association or guaranty fund.

The CS removes the original bill's creation of new s. 628.921, F.S., governing the establishment of protected cells, the formation of and requirements for protected cell subsidiary companies, defining the term "incorporated protected cell," and establishing provisions for the formation of and requirements for incorporated protected cells.

The CS amends the definition of "qualifying reinsurer parent company," to delete a reference to a "satisfactory non-approved reinsurer," and replace it with a reference to "trusteed reinsurer."

The CS removes the current allowance for a qualifying reinsurer parent company to hold a letter of eligibility as an acceptable alternative to holding a certificate of authority.

The CS requires that an industrial insured captive insurer must have unencumbered capital and surplus of at least $20 million to provide workers' compensation and employer's liability insurance in excess of $25 million in the annual aggregate.

The CS exempts captive insurers from the statutory trust deposit required as a condition of obtaining a certificate of authority to transact insurance.

The CS requires a pure captive insurance company to submit to the OIR for approval its standards to ensure a parent or affiliated company is able to exercise control of the risk management function of any controlled unaffiliated business that is to be insured by the pure captive insurance company. The CS deletes the current authorization for the Financial Services Commission to adopt rules establishing these standards.

The Committee on Appropriations (Richter) recommended the following:

Senate Amendment

Delete lines 51 - 57
and insert:
(13) "Qualifying reinsurer parent company" means a reinsurer that ~~which~~ currently holds a certificate of authority, or qualifies for credit for reinsurance under s. 624.610(3), and possesses ~~letter of eligibility or is an accredited or a satisfactory non-approved reinsurer in this state possessing~~ a consolidated GAAP net worth of at least $500 million and a consolidated debt to total capital ratio of not greater than 0.50.

By the Committee on Banking and Insurance; and Senator Richter

597-03997-13 20131408c1

A bill to be entitled

An act relating to captive insurance; replacing the term "captive insurer" with "captive insurance company" in part V of ch. 628, F.S.; amending s. 628.901, F.S.; revising definitions; amending s. 628.905, F.S.; expanding the risks that an industrial insured capital insurance company may insure; providing that an industrial insured captive insurance company may provide certain insurance if the company has and maintains unencumbered capital and surplus of a certain amount; amending s. 628.907, F.S.; conforming terms; amending s. 628.909, F.S.; conforming terms and requiring captive insurance companies to deposit and maintain securities for the protection of policyholders; amending ss. 628.9142, 628.915, 628.917, and 628.919, F.S.; conforming terms; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsections (8), (9), and (13) of section 628.901, Florida Statutes, are amended to read:

628.901 Definitions.—As used in this part, the term:

(8) "Industrial insured" means an insured that:

(a) Has gross assets in excess of $50 million;

(b) Procures insurance through the use of a full-time employee of the insured who acts as an insurance manager or buyer or through the services of a person licensed as a property and casualty insurance agent, broker, or consultant in such

597-03997-13 20131408c1

person's state of domicile;

(c) Has at least 100 full-time employees; and

(d) Pays annual premiums of at least $200,000 for each line of insurance purchased from the industrial insured captive insurance company ~~insurer~~ or at least $75,000 for any line of coverage in excess of at least $25 million in the annual aggregate. The purchase of umbrella or general liability coverage in excess of $25 million in the annual aggregate shall be deemed to be the purchase of a single line of insurance.

(9) "Industrial insured captive insurance company" means a ~~captive insurance~~ company that provides insurance only to the industrial insureds that are its stockholders or members, and affiliates thereof, or to the stockholders, and affiliates thereof, of its parent corporation. An industrial insured captive insurance company may ~~can~~ also provide reinsurance to insurers only on risks written by such insurers for the industrial insureds that are the stockholders or members, and affiliates thereof, of the industrial insured captive insurance company ~~insurer~~, or the stockholders, and affiliates thereof, of the parent corporation of the industrial insured captive insurance company ~~insurer~~.

(13) "Qualifying reinsurer parent company" means a reinsurer that ~~which~~ currently holds a certificate of authority~~,~~ ~~letter of eligibility~~ or is an accredited or trusteed ~~a satisfactory non approved~~ reinsurer under s. 624.610(3)(c) in this state possessing a consolidated GAAP net worth of at least $500 million and a consolidated debt to total capital ratio of not greater than 0.50.

Section 2. Subsections (1) and (2), paragraph (b) of

subsection (4), and subsection (5) of section 628.905, Florida Statutes, are amended to read:

628.905 Licensing; authority.—

(1) A captive insurance company ~~insurer~~, if permitted by its charter or articles of incorporation, may apply to the office for a license to do any ~~and all~~ insurance authorized under the insurance code, other than workers' compensation and employer's liability, life, health, personal motor vehicle, and personal residential property insurance, except that:

(a) A pure captive insurance company may not insure any risks other than those of its parent, affiliated companies, controlled unaffiliated businesses, or a combination thereof.

(b) An industrial insured captive insurance company may not insure any risks other than those of the industrial insureds that comprise the industrial insured group and their affiliated companies, or its stockholders or members and affiliates thereof of the industrial insured captive, or the stockholders or affiliates of the parent corporation of the industrial insured captive insurance company.

(c) A special purpose captive insurance company may insure only the risks of its parent.

(d) A captive insurance company may not accept or cede reinsurance except as provided under ~~in~~ this part.

(e) An industrial insured captive insurance company that has unencumbered capital and surplus of at least $20 million may be licensed to provide workers' compensation and employer's liability insurance in excess of $25 million in the annual aggregate. An industrial insured captive insurance company must maintain unencumbered capital and surplus of at least $20

million in order to continue to write excess workers' compensation insurance in this state.

(2) To conduct insurance business in this state, a captive insurance company ~~insurer~~ must:

(a) Obtain from the office a license authorizing it to conduct insurance business in this state;

(b) Hold at least one board of directors' meeting each year in this state;

(c) Maintain its principal place of business in this state; and

(d) Appoint a resident registered agent to accept service of process and to otherwise act on its behalf in this state. In the case of a captive insurance company formed as a corporation or a nonprofit corporation, if the registered agent cannot with reasonable diligence be found at the registered office of the captive insurance company, the Chief Financial Officer is ~~of this state must be~~ an agent of the captive insurance company upon whom any process, notice, or demand may be served.

(4) A captive insurance company or captive reinsurance company must pay to the office a nonrefundable fee of $1,500 for processing its application for license.

(b) The office may charge a fee of $5 for any document requiring certification of authenticity or the signature of the office ~~commissioner or his or her designee~~.

(5) If the office ~~commissioner~~ is satisfied that the documents and statements filed by the captive insurance company comply with this chapter, the office ~~commissioner~~ may grant a license authorizing the company to conduct insurance business in this state until the next succeeding March 1, at which time the

license may be renewed.

Section 3. Subsection (1) of section 628.907, Florida Statutes, is amended to read:

628.907 Minimum capital and net assets requirements; restriction on payment of dividends.—

(1) A captive insurance company ~~insurer~~ may not be issued a license unless it possesses and thereafter maintains unimpaired paid-in capital of:

(a) In the case of a pure captive insurance company, at least $100,000.

(b) In the case of an industrial insured captive insurance company incorporated as a stock insurer, at least $200,000.

(c) In the case of a special purpose captive insurance company, an amount determined by the office after giving due consideration to the company's business plan, feasibility study, and pro forma financial statements and projections, including the nature of the risks to be insured.

Section 4. Section 628.909, Florida Statutes, is amended to read:

628.909 Applicability of other laws.—

(1) The Florida Insurance Code does not apply to captive insurance companies ~~insurers~~ or industrial insured captive insurance companies ~~insurers~~ except as provided under ~~in~~ this part and subsections (2) and (3).

(2) The following provisions of the Florida Insurance Code apply to captive insurance companies that ~~insurers who~~ are not industrial insured captive insurance companies ~~insurers~~ to the extent that such provisions are not inconsistent with this part:

(a) Chapter 624, except for ss. 624.407, 624.408, 624.4085,

624.40851, 624.4095, 624.411, 624.425, and 624.426.

(b) Chapter 625, part II.

(c) Chapter 626, part IX.

(d) Sections 627.730-627.7405, if ~~when~~ no-fault coverage is provided.

(e) Chapter 628.

(3) The following provisions of the Florida Insurance Code apply to industrial insured captive insurance companies ~~insurers~~ to the extent that such provisions are not inconsistent with this part:

(a) Chapter 624, except for ss. 624.407, 624.408, 624.4085, 624.40851, 624.4095, 624.411, 624.425, 624.426, and 624.609(1).

(b) Chapter 625, part II, if the industrial insured captive insurance company ~~insurer~~ is incorporated in this state.

(c) Chapter 626, part IX.

(d) Sections 627.730-627.7405 if ~~when~~ no-fault coverage is provided.

(e) Chapter 628, except for ss. 628.341, 628.351, and 628.6018.

Section 5. Subsection (2) of section 628.9142, Florida Statutes, is amended to read:

628.9142 Reinsurance; effect on reserves.—

(2) A captive insurance company may take credit for reserves on risks or portions of risks ceded to authorized insurers or reinsurers and unauthorized insurers or reinsurers complying with s. 624.610. A captive insurance company ~~insurer~~ may not take credit for reserves on risks or portions of risks ceded to an unauthorized insurer or reinsurer if the insurer or reinsurer is not in compliance with s. 624.610.

Section 6. Section 628.915, Florida Statutes, is amended to read:

628.915 Exemption from compulsory association.—

(1) A ~~No~~ captive insurance company may not ~~insurer shall be permitted to~~ join or contribute financially to a ~~any~~ joint underwriting association or guaranty fund in this state; nor may a ~~shall any~~ captive insurance company ~~insurer~~, its insured, or its parent or any affiliated company receive any benefit from any ~~such~~ joint underwriting association or guaranty fund for claims arising out of the operations of such captive insurance company ~~insurer~~.

(2) An ~~No~~ industrial insured captive insurance company may not ~~insurer shall be permitted to~~ join or contribute financially to a ~~any~~ joint underwriting association or guaranty fund in this state; nor may an ~~shall any~~ industrial insured captive insurance company ~~insurer~~, its industrial insured, or its parent or any affiliated company receive any benefit from any ~~such~~ joint underwriting association or guaranty fund for claims arising out of the operations of such industrial insured captive insurance company ~~insurer~~.

Section 7. Section 628.917, Florida Statutes, is amended to read:

628.917 Insolvency and liquidation.—If ~~In the event that~~ a captive insurance company ~~insurer~~ is insolvent as defined in chapter 631, the office shall liquidate the captive insurance company ~~insurer~~ pursuant to ~~the provisions of~~ part I of chapter 631~~,~~ ~~,~~ except that the office may ~~shall~~ make no attempt to rehabilitate such company ~~insurer~~.

Section 8. Section 628.919, Florida Statutes, is amended to

read:

628.919 Standards to ensure risk management control by parent company.—A pure captive insurance company must submit ~~The Financial Services Commission shall adopt rules establishing~~ standards to the office which ensure that a parent or affiliated company is able to exercise control of the risk management function of a ~~any~~ controlled unaffiliated business to be insured by the pure captive insurance company.

Section 9. This act shall take effect July 1, 2013.

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/CS/SB 1482 provides for a certificate of need (CON) exemption for the construction of a licensed skilled nursing facility for the addition of skilled nursing facility beds within a deed-restricted retirement community if:

- The retirement community is located in a county that has 25 percent or more of its population consisting of persons aged 65 or older;
- The retirement community is located in a county with a ratio of no more than 16.1 beds per 1,000 persons aged 65 or older;
- The retirement community is zoned for a mix of residential and non-residential uses;
- The residential use of the retirement community is deed-restricted as housing for older persons; and
- The retirement community has a population of at least 8,000 residents.

The bill has an indeterminate fiscal impact on the Medicaid program.

The bill takes effect upon becoming a law.

The bill creates section 408.0362 of the Florida Statutes.

II. Present Situation:

Certificates of Need

A CON is a written statement issued by the Agency for Health Care Administration (AHCA) evidencing community need for a new, converted, expanded, or otherwise significantly modified health care facility, health service, or hospice.[1] Under this regulatory program, a provider cannot legally establish a new nursing home or add nursing home beds to an existing facility without first receiving approval from the AHCA through the CON review and approval process.

The Florida CON program has three levels of review: full, expedited, and the granting of an exemption.[2] The nursing home projects addressed in s. 408.036, F.S., related to CONs are as follows:

Projects Subject to Full Comparative Review[3]

- Adding beds in community nursing homes; and
- Constructing or establishing new health care facilities, which include skilled nursing facilities.[4]

Projects Subject to Expedited Review[5]

- Replacing a nursing home within the same district; and
- Relocating a portion of a nursing home's licensed beds to a facility within the same district.

Exemptions from CON Review[6]

- Converting licensed acute care hospital beds to Medicare and Medicaid certified skilled nursing beds in a rural hospital;
- Adding nursing home beds at a skilled nursing facility that is part of a retirement community which had been in operation on or before July 1, 1949, for the exclusive use of the community residents;
- Combining licensed beds from two or more licensed nursing homes within a district into a single nursing home within that district if 50 percent of the beds are transferred from the only nursing home in a county and that nursing home had less than a 75 percent occupancy rate;[7]
- State veteran's nursing homes operated by or on behalf of the Florida Department of Veterans' Affairs;

[1] *See* s. 408.032(3), F.S.
[2] *See* s. 408.036, F.S.
[3] *See* s. 408.036(1), F.S.
[4] Section 408.032(16), F.S., defines a skilled nursing facility as an institution, or a distinct part of an institution, which is primarily engaged in providing, to inpatients, skilled nursing care and related services for patients who require medical or nursing care, or rehabilitation services for the rehabilitation of injured, disabled, or sick persons.
[5] *See* s. 408.036(2), F.S.
[6] *See* s. 408.036(3), F.S.
[7] This exemption is repealed upon the expiration of the moratorium by operation of s. 408.036(3)(f), F.S.

- Combining into one nursing home, the beds or services authorized by two or more CONs issued in the same planning subdistrict;
- Separating into two or more nursing homes in the subdistrict, the beds or services that are authorized by one CON;
- Adding no more than 10 total beds or 10 percent of the licensed nursing home beds of that facility, whichever is greater; or if the nursing home is designated as a Gold Seal nursing home, no more than 20 total beds or 10 percent of the licensed nursing home beds of that facility for a facility with a prior 12-month occupancy rate of 96 percent or greater; and
- Replacing a licensed nursing home on the same site, or within three miles, if the number of licensed beds does not increase.

Section 408.036(3), F.S., contains 19 separate exemptions to the CON review process, eight of which are related to nursing homes. Unless a project is exempt, the CON program applies to all nursing home beds, regardless of the source of payment for the beds (private funds, insurance, Medicare, Medicaid, or other funding sources).

Determination of Need

A CON is predicated on a determination of need. The future need for community nursing home beds is determined twice a year and published by the AHCA as a fixed bed need pool for the applicable planning horizon. The planning horizon for CON applications is three years. Need determinations are calculated for subdistricts within the AHCA's 11 service districts[8] based on a formula[9] and estimates of current and projected population as published by the Executive Office of the Governor.

Moratorium on Nursing Home CONs

In 2001, the Legislature enacted the first moratorium on the issuance of CONs for additional community nursing home beds which was in effect until July 1, 2006.[10] The Legislature reenacted the moratorium in 2006[11] and did so again in 2011.[12] The current moratorium lasts until October 1, 2016, or until Medicaid managed care is implemented statewide pursuant to ss. 409.961-409.985, F.S., whichever is earlier.[13]

The Legislature provided for additional exceptions to the moratorium to address occupancy needs that might arise including:

- Adding sheltered nursing home beds;
- Beds may be added in a county that has no community nursing home beds and the lack of beds is the result of the closure of nursing homes that were licensed on July 1, 2001;[14]

[8] The nursing home subdistricts are set forth in Rule 59C-2.200, F.A.C.
[9] *See* Rule 59C-1.036, F.A.C.
[10] *See* s. 52, ch. 2001-45, L.O.F.
[11] *See* ch. 2006-161, L.O.F.
[12] *See* ch. 2011-135, L.O.F.
[13] *See* s. 408.0435(1), F.S.
[14] The request to add beds under this exception to the moratorium is subject to the full competitive review process for CONs.

- Adding the greater of no more than 10 total beds or 10 percent of the licensed nursing home beds of a nursing home located in a county having up to 50,000 residents, if:
  - The nursing home has not had any class I or class II deficiencies within the 30 months preceding the request for addition;
  - The prior 12-month average occupancy rate for the nursing home beds at the facility meets or exceeds 94 percent and the facility has not had any class I or class II deficiencies since its initial licensure; or
  - For a facility that has been licensed for less than 24 months, the prior 6-month average occupancy rate for the nursing home beds at the facility meets or exceeds 94 percent and the facility has not had any class I or class II deficiencies since its initial licensure; and
- Adding the greater of no more than 10 total beds or 10 percent of the number of licensed nursing home beds if:
  - The facility has not had any class I or class II deficiencies within the 30 months preceding the request for addition;
  - The prior 12-month average occupancy rate for the nursing home beds at the facility meets or exceeds 96 percent;
  - The prior 12-month occupancy rate for the nursing home beds in the subdistrict is 94 percent or greater; and
  - Any beds authorized for the facility under this exception in a prior request have been licensed and operational for at least 12 months.[15]

County Populations

According to the AHCA's population estimates from 2012,[16] 10 counties have populations of 25 percent or more persons aged 65 or over. [17] Of those counties, five currently also have ratios of 16.1 or less nursing home beds per 1,000 persons aged 65 or older.[18] Within those five counties, only The Villages retirement community, located in Sumter County, and On Top of the World retirement community, located in Marion County, currently meet the remaining criteria for the bill's exemption from the CON process.

Housing for Older Persons

Section 760.29(4), F.S., defines housing for older persons as housing that:
- Is provided under any state or federal program that the Florida Commission on Human Relations determines is specifically designed and operated to assist elderly persons;
- Is intended for, and solely occupied by, persons age 62 or older; or
- Is intended for, and solely occupied by, persons age 55 or older if:
  - At least 80 percent of the occupied units are occupied by at least one person age 55 or older;
  - The housing facility or community meets policy requirements to demonstrate the intent to restrict the facility to older persons and the facility or community's governing documents meet certain criteria; and

[15] The request to add beds under the exception to the moratorium is subject to the procedures related to an exemption to the CON requirements.
[16] On file with staff of the Senate Committee on Health Policy.
[17] Sumter, Charlotte, Citrus, Highlands, Sarasota, Martin, Indian River, Collier, Marion, and Hernando counties.
[18] Sumter, Indian River, Collier, Marion, and Hernando counties.

- The housing facility or community complies with federal law.

Additionally, s. 760.29(4)(c), F.S., states that housing will not fail to be considered housing for older persons if some current residents[19] do not meet the age requirements or if some housing units are vacant as long as any new residents meet the age requirement.

III. Effect of Proposed Changes:

Section 1 of the bill creates s. 408.0362, F.S., to provide for a CON exemption for the construction of a licensed skilled nursing facility for the addition of skilled nursing facility beds within a deed-restricted retirement community if:

- The retirement community is located in a county that has 25 percent or more of its population consisting of persons aged 65 or older;
- The retirement community is located in a county with a ratio of no more than 16.1 beds per 1,000 persons aged 65 or older;
- The retirement community is zoned for a mix of residential and non-residential uses;
- The residential use of the retirement community is deed-restricted as housing for older persons as defined in 760.29, F.S.; and
- The retirement community has a population of at least 8,000 residents.

The bill caps the maximum number of beds which may be added within the community to the lesser of 240 or the maximum number of beds required to reach a ratio of 16.1 beds per 1,000 residents aged 65 or older in the county where the community is located. To determine the percentage of older persons in a county, and the ratio of 16.1 beds per person aged 65 or older, the AHCA must use county population estimates for three years in the future.

The bill also requires that, in order to receive the CON exemption, a retirement community must make a written request for the exemption in accordance with applicable rules.[20] The request must provide evidence of population, mixed-use status, and the results of the calculation showing the gross and net numbers of community skilled nursing home beds in the county in which the requestor intends for a skilled nursing facility to be built. Any skilled nursing facility built pursuant to the exemption, and all new skilled nursing facility beds, must be certified under both Medicare and Medicaid programs. And, the bill provides that s. 408.0362, F.S., as created by the bill, will not authorize more than one skilled nursing facility within a single retirement community.

Section 2 of the bill provides that the bill takes effect upon becoming a law.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

[19] Residents who have lived in the housing on or after Oct. 1, 1989.
[20] *See* 59C-1.005, F.A.C.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The bill may have a positive fiscal impact for persons or entities that may be able to construct and open a skilled nursing facility that is currently restricted by the CON process.

The bill may have a negative fiscal impact on skilled nursing facilities that are currently serving the area where new nursing facilities are opened if demand decreases due to the increase in the number of skilled nursing beds. In addition, if the new skilled nursing facility beds are included in the calculations for future skilled nursing facility bed need, the new facility would impact the ability of other providers to compete for beds in the area.

Both the negative and positive impacts of this bill will be restrained by the 240 bed cap provided for in the bill.

C. Government Sector Impact:

The bill has an indeterminate effect on the Medicaid program. The bill requires a skilled nursing facility constructed under the exemption – and all beds in the facility – to be certified under Medicaid. To the extent that the new facility increases the availability of Medicaid nursing home beds that would not otherwise exist under the moratorium, resulting in Medicaid enrollees who would not otherwise have enrolled in the Medicaid program, the bill will increase the state's Medicaid expenditures to an unknown extent.

VI. Technical Deficiencies:

The bill does not provide a definition of the term "deed-restricted retirement community." The definition of "housing for older persons" in s. 760.29, F.S., as referenced on lines 30-32 of the bill, makes no mention of deed restrictions, and the term "deed-restricted retirement community" does not appear in the Florida Statutes.

VII. Related Issues:

The AHCA advises that the bill may result in lawsuits filed by nursing home associations or individual nursing homes within the same planning area (county, counties, or districts) as that in which an exemption would be granted under the bill.[21]

One of the criteria for the CON exemption is for the retirement community requesting the exemption to have a population of at least 8,000 residents, based on a population data source accepted by the AHCA. Currently the AHCA possesses no precise or definitive method or tool for gauging the number of residents in a retirement community and would have to rely on the community's self-attestation, followed by confirmation of that self-attestation to the extent possible.

Another criterion for the exemption is for the retirement community to be located in a county that has 25 percent or more of its population consisting of persons aged 65 or older. The bill also requires the AHCA to use a prospective county population estimate three years in the future for certain required calculations. The bill does not specify the source the AHCA must use for these demographic data and projections, which could lead to disputes between the AHCA and an exemption requestor, or between the AHCA and an interested third party, as to whether a retirement community qualifies for the exemption.

The bill requires that to qualify for the exemption, a retirement community must be located in "a county" that has 25 percent or more of its population consisting of persons aged 65 or older and must be located in "a county" that has a rate of no more than 16.1 beds per 1,000 persons aged 65 years or older. The bill makes no provision for a retirement community with boundaries that span multiple counties.

The bill requires that any skilled nursing facility built under the exemption, and all beds in the facility, shall be certified under both the Medicare and Medicaid programs. However, the bill does not provide parameters for this requirement in terms of when the certification must be obtained, what actions the AHCA should take to enforce the requirement, and how the AHCA should sanction a facility that fails to meet the requirement or fails to maintain the certifications after initially obtaining them.

The bill provides that s. 408.0362, F.S., as created under the bill, does not authorize more than one skilled nursing facility within a single retirement community. The effect of this provision is unclear because the bill does not authorize facilities. Skilled nursing facilities are licensed under part II of ch. 400, F.S. The bill provides for an exemption from the CON review process for the construction of a skilled nursing facility, and the provision that s. 408.0362, F.S., will not authorize more than one facility within a single retirement community might have no effect on whether the AHCA is required to grant more than one exemption under the bill.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Judiciary on April 15, 2013
The committee substitute clarifies that the bill does not authorize more than one additional nursing home in a single retirement community.

CS by Health Policy on April 2, 2013:
The committee substitute substantially amends SB 1482 to:

- Conform the bill to the language in CS/HB 1159;
- Exempt the construction of a skilled nursing facility located in a retirement community from the CON process if the retirement community:
  - Is located in a county that has 25 percent or more of its population aged 65 or older;
  - Is located in a county with a ratio of no more than 16.1 beds per 1,000 persons aged 65 or older;
  - Is zoned for mixed use;
  - Is deed restricted for older persons; and
  - Has a population of at least 8,000 residents.
- Caps the number of additional beds at the lesser of either the maximum number of beds to reach a ratio of 16.1 beds per 1,000 persons aged 65 or older in the county where the community is located or 240 beds per community;
- Details how retirement communities can apply for the exemption, what beds qualify, and how the 16.1 beds per 1,000 persons aged 65 or older ratio must be determined.

LEGISLATIVE ACTION

Senate . House

. .

. .

. .

. .

The Committee on Appropriations (Hays) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Subsection (2) of section 408.036, Florida Statutes, is amended to read:

408.036 Projects subject to review; exemptions.—

(2) PROJECTS SUBJECT TO EXPEDITED REVIEW.—Unless exempt pursuant to subsection (3), projects subject to an expedited review shall include, but not be limited to:

(a) A transfer of a certificate of need, except that when an existing hospital is acquired by a purchaser, all

certificates of need issued to the hospital which are not yet operational shall be acquired by the purchaser, without need for a transfer.

(b) Replacement of a nursing home within the same district, if the proposed project site is located within a geographic area that contains at least 65 percent of the facility's current residents and is within a 30-mile radius of the replaced nursing home.

(c) Relocation of a portion of a nursing home's licensed beds to a facility within the same district, if the relocation is within a 30-mile radius of the existing facility and the total number of nursing home beds in the district does not increase.

(d) The new construction of a community nursing home in a retirement community as further provided in this paragraph.

1. Expedited review under this paragraph is available if all of the following criteria are met:

a. The residential use area of the retirement community is deed-restricted as housing for older persons as defined in s. 760.29(4)(b).

b. The retirement community is located in a county in which 25 percent or more of the population is age 65 years and older.

c. The retirement community is located in a county that has a rate of no more than 16.1 beds per 1,000 persons age 65 years or older. The rate shall be determined by using the current number of licensed and approved community nursing home beds in the county per the agency's most recent published inventory.

d. The retirement community has a population of at least 8,000 residents within the county, based on a population data

source accepted by the agency.

e. The number of proposed community nursing home beds in the application does not exceed the projected bed need after applying the rate of 16.1 beds per 1,000 persons age 65 years and older projected for the county 3 years into the future using the estimates adopted by the agency, after subtracting the inventory of licensed and approved community nursing home beds in the county per the agency's most recent published inventory.

2. No more than 120 community nursing home beds may be approved for a qualified retirement community under each request for application for expedited review. Subsequent requests for expedited review under this process may not be made until 2 years after construction of the facility has commenced or 1 year after the beds approved through the initial request are licensed, whichever occurs first.

3. The total number of community nursing home beds which may be approved for any single deed-restricted community pursuant to this paragraph may not exceed 240, regardless of whether the retirement community is located in more than one qualifying county.

4. Each nursing home facility approved under this paragraph must be dually certified for participation in the Medicare and Medicaid programs.

5. Each nursing home facility approved under this paragraph must be at least 1 mile from an existing approved and licensed community nursing home, measured over publicly owned roadways.

6. Section 408.0435 does not apply to this paragraph.

7. A retirement community requesting expedited review under this paragraph shall submit a written request to the agency for

206088

an expedited review in accordance with the agency's applicable rules. The request must include the number of beds to be added and provide evidence of compliance with the criteria specified in subparagraph 1.

8. After verifying that the retirement community meets the criteria for expedited review specified in subparagraph 1., the agency shall publicly notice in the Florida Administrative Register that a request for an expedited review has been submitted by a qualifying retirement community and that the qualifying retirement community intends to make land available for the construction and operation of a community nursing home. The agency's notice must identify where potential applicants can obtain information describing the sales price of, or the terms of the land lease for, the property on which the project will be located and the requirements established by the retirement community for the project, including, but not limited to, patient care and architectural standards, and qualifications for financing and operations. The agency notice must also specify the deadline for submission of any certificate-of-need application, which may not be earlier than the 91st day and not be later than the 125th day after the date the notice appears in the Florida Administrative Register.

9. The qualified retirement community shall make land available to applicants that meet the requirements established by the retirement community for the project.

a. A certificate-of-need application submitted pursuant to this paragraph must identify the intended site for the project within the retirement community and the anticipated cost of the project based on that site. The application must also include

206088

written evidence that the retirement community has determined that the provider submitting the application and the project proposed by that provider satisfies all requirements for the project.

b. The retirement community's determination that more than one provider satisfies all requirements for the project does not preclude the retirement community from notifying the agency of the provider it prefers.

The agency shall develop rules to implement the provisions for expedited review, including time schedule, application content which may be reduced from the full requirements of s. 408.037(1), and application processing.

Section 2. This act shall take effect upon becoming a law.

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

By the Committees on Judiciary; and Health Policy; and Senator Hays

590-04360-13 20131482c2

A bill to be entitled

An act relating to skilled nursing facilities; creating s. 408.0362, F.S.; providing an exemption from certificate-of-need requirements for construction of a licensed skilled nursing facility in a retirement community; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 408.0362, Florida Statutes, is created to read:

408.0362 Skilled nursing facility in retirement community; exempt from review.—

(1) Upon request by a deed-restricted retirement community, the construction of a skilled nursing facility licensed under part II of chapter 400 for the addition of community skilled nursing home beds located within the retirement community is exempt from s. 408.036 if:

(a) The retirement community is located in a county that has 25 percent or more of its population consisting of persons aged 65 and older;

(b) The retirement community is located in a county that has a rate of no more than 16.1 beds per thousand persons aged 65 years or older. The rate shall be determined by using the current number of licensed and approved community skilled nursing home beds in the agency's most recent published inventory;

(c) The retirement community is zoned for a mix of residential and nonresidential uses;

590-04360-13 20131482c2

(d) The residential use area of the retirement community is deed-restricted as housing for older persons as defined in s. 760.29; and

(e) The retirement community has a population of at least 8,000 residents, based on a population data source accepted by the agency.

(2) The number of community skilled nursing home beds allowed in a retirement community under the exemption shall be calculated at a rate of 16.1 beds per thousand persons aged 65 years and older in the county in which the retirement community is located. To determine whether or not the county in which the retirement community is located is at or above the rate of 16.1 beds per 1,000 elderly, the agency must use a prospective county population estimate 3 years in the future to demonstrate:

(a) That the number of persons aged 65 years and older will comprise at least 25 percent of the county's population at the end of the 3 years. From this result, the current number of licensed community skilled nursing home beds in the agency's published inventory shall be subtracted to determine the net number of additional community skilled nursing home beds that the agency shall grant for development under the exemption; and

(b) That the rate of community skilled nursing home beds in the county will either remain at 16.1 beds per thousand persons aged 65 years or older or will be less after 3 years, prior to approval of additional community skilled nursing home beds under the exemption.

(3) A retirement community that qualifies for the exemption provided in this section shall provide a written request for an exemption in accordance with the applicable rules. In the

request, the retirement community shall provide evidence of population, mixed-use status, and the results of the calculation showing the gross and net numbers of community skilled nursing home beds in the county.

(4) The number of community skilled nursing home beds that are added pursuant to the exemption shall at no time exceed 240 in any qualifying retirement community.

(5) Any skilled nursing home facility built pursuant to the exemption shall be certified under both the Medicare and Medicaid programs. All beds in the skilled nursing home facility shall be certified under both the Medicare and Medicaid programs.

(6) This section does not authorize more than one skilled nursing facility within a single retirement community.

Section 2. This act shall take effect upon becoming a law.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 1630
INTRODUCER:	Appropriations Committee and Senator Legg
SUBJECT:	Education
DATE:	April 25, 2013
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	deMarsh-Mathues	Klebacha	ED	**Favorable**
2.	Armstrong	Elwell	AED	**Favorable**
3.	Elwell	Hansen	AP	**Fav/CS**
4.				
5.				
6.				

I. Summary:

CS/SB 1630, provides various measures to strengthen financial and performance accountability of charter schools. The bill would also expand charter school growth and flexibility. These measures would occur in the application process, the contract process, charter school operations, and in the shape of additional consequences a charter school would face.

High-performing charter schools would be able to increase enrollment once per school year up to facility capacity. The bill would create deadlines for a sponsor to provide a high-performing charter school a draft charter agreement and to negotiate the charter agreement, when a high-performing charter school requests to consolidate charters.

The full implementation of online Next Generation Sunshine State Standards in English/Language Arts and Mathematics assessments for all kindergarten through grade 12 public school students would be contingent upon an independent third party verifying that the technology infrastructure, connectivity, and capacity of all public schools and school districts is capable of successfully deploying and implementing the assessments.

This bill has no fiscal impact on appropriations.

The effective date of the bill is upon becoming a law.

This bill substantially amends sections 1002.33 and 1002.331 of the Florida Statutes, and creates two undesignated sections of law.

II. Present Situation:

Charter Schools

Charter schools are governed in law by s. 1002.33, F.S. Charter schools are public schools that operate under a charter agreement with a sponsor.[1] A charter school is typically sponsored by a district school board.[2] Charter schools are primarily owned by non-profit governing board and may be operated on the governing board's behalf by a management company.[3]

Application

Various individuals and entities are authorized to file an application for a new charter school, including teachers, parents, a group of individuals, a municipality or a legal entity.[4] Sponsors receive and review all applications that are received on or before August 1 of each calendar year for charter schools that will open at the beginning of the next school year. Before approving or denying an application, the sponsor must allow the applicant to make technical corrections, if the errors are identified by the sponsor as cause to deny the application.[5]

Upon approval of an application, the sponsor and the charter school set forth the terms and conditions for the operation of the school in a written contract, called a charter. The sponsor has 60 days to provide an initial contract to the charter school. The sponsor and the charter school then have 75 days to negotiate and notice the contract for final approval.[6]

Operations

The sponsor monitors the progress, revenues and expenditures of the charter school and ensures compliance with state education goals and participation in the educational accountability system.[7] Florida law contains additional requirements aimed toward ensuring financial and performance accountability of charter schools.[8] For example, some of the requirements are:

- Annual reporting and financial audits, and sponsor monitoring of monthly financial statements;[9]
- Participation in statewide assessments and Florida's school grading system;[10]
- Interventions for unsatisfactory academic performance and financial instability;[11]
- Reporting of student performance information to parents and the public;[12] and

[1] Section. 1002.33(7), F.S.
[2] Section 1002.33(5), F.S.
[3] Section 1002.33(7), (9)(h)-(j),and (12)(i), F.S. Charter schools may also be owned by a state university, Florida College System institution, or municipality.
[4] Section 1002.33(3), F.S.
[5] Section 1002.33(6)(b), F.S.
[6] Section 1002.33(6)(h), F.S.
[7] Section 1002.33(5)(b), F.S.
[8] Section 1002.33, F.S.
[9] Section 218.39(1)(e) and (f), 1002.33(9)(g)and (j), F.S.
[10] Section 1002.33(7)(a)4. and (16)(a)2., F.S.
[11] Section 1002.33(9)n. and 1002.345, F.S.
[12] Section 1002.33(21)(b) and (23), F.S.

- Compliance with ethical standards for employees and governing board members.[13]

Additionally, Florida law requires the disclosure of the identity of all relatives employed by the charter school who are related to individuals with certain decision-making authority, including governing board members.[14]

Charter schools must enroll all eligible students who submit a timely application, unless the number of applications exceeds the capacity of a program, class, grade, level, or building. In this case, the school conducts a random selection process.[15]

Consequences

When a charter school is terminated or not renewed, unencumbered public funds revert to the sponsor, while unencumbered capital outlay funds and federal charter school program grant funds revert to the Department of Education (DOE) to be redistributed among eligible charter schools. [16] The charter school is responsible for all debts of the charter school.[17] The district may not assume the debt from any contract made between the governing body of the school and a third party, unless previously agreed upon in writing by both parties.[18]

There are no specific prohibitions on contractual services to be performed, or on escalation clauses, if the charter agreement expires or the school closes before the agreement expires.

Next Generation Sunshine State Standards

The Next Generation Sunshine State Standards (NGSS) in English/Language Arts (which includes reading standards) and in Mathematics were adopted by the Florida State Board of Education on July 27, 2010, and codified in statute during the 2013 Legislative session.[19] The standards in both English/Language Arts and in Mathematics must be fully implemented beginning in the 2013-2014 school year.[20]

In Florida, school districts are concerned about the following challenges related to the implementation of the new NGSS standards:[21]

- Preparedness concerns regarding the pedagogical knowledge needed by teachers to effectively deliver content at the level of rigor required by the standards.

- Assessment concerns regarding how students with special needs will be assessed, how students and teachers must be prepared for the assessments, and whether data from the assessments will be available and sufficiently reliable to inform instruction.
- Technology concerns regarding capacity to facilitate teaching and learning with technology, assessing students with next-generation assessments, time required to test students, and the volume of students who will be tested at a given time. Availability of required infrastructure, devices, and professional development are critical to successful implementation of the standards.
- Timeline and alignment of reform efforts and policy expectations concerns regarding teacher evaluations based on current state assessments which are not aligned to the standards.

Based on a self-reported annual survey of public schools and school district technology needs,[22] the State Board of Education submitted a legislative budget request for $441.8 million for a "K-12 Technology Modernization Initiative."[23] Governor Scott's proposed budget recommendations for Fiscal Year 2013-2014 reflect a similar $100 million technology initiative.[24]

Some states are handling technology needs by joining together to purchase a comprehensive set of educational-technology devices and services, in a compact that lays the foundation for cooperative efforts by state and local governments to turn the digital-procurement process to such states' advantage.[25] The initial partners of the multi-state venture, known as the Multi-State Learning Technology Initiative, include Hawaii and Vermont in addition to Maine which has taken the lead. Additional states have indicated interest in joining the multi-state venture. The multi-state venture is structured to allow individual districts and other government entities, such as charter schools, to participate in the digital-procurement process with the approval of state procurement officials.[26]

III. Effect of Proposed Changes:

Charter School Financial and Performance Accountability

Application and Contract Process

The bill would reduce existing timeframes so that a sponsor would provide a proposed charter agreement within 30 days, and the parties would have 40 days to negotiate the agreement.

---

[22] The Florida Department of Education collects information from schools annually in the Florida Innovates Technology Resource Survey, which solicits responses from K-12 principals on the use of technology in their respective schools. The data collected includes the number and location of each school's computers meeting certain specifications. However, this survey does not provide detailed information on how schools are using computers and provides limited information on the use of digital instructional materials. *See Use of Instructional Technology and Digital Instructional Materials in Fifteen Florida Schools*, OPPAGA, September 28, 2012.

[25] Education Week, *Maine Leading Initiative for Multistate Tech Buys*, http://www.edweek.org/ew/articles/2013/03/13/24maine.h32.html (last visited March 15, 2013).

[26] *Id.*

The bill would require the DOE to create a standard charter agreement by September 1, 2014. The charter school and sponsor would be required to use the agreement; however, the parties would be able to attach an addendum to make changes to the agreement. The addendum would have a page limit set by State Board of Education (SBE) rule.

Operations

The bill would require a charter school to provide a uniform monthly financial statement. The bill would also require a charter school to provide to the public information regarding the school, including programs, management company, the school's annual budget, annual independent fiscal audit, school grade, and the school's governing board meeting minutes.

Starting August 31, 2013, a sponsor would be required to submit an annual report to the DOE. The report would identify: the number of draft and final applications received; the date the applications were approved, denied, or withdrawn; and the date each contract was executed. The DOE would compile this information from each district into an annual report and post the report on its website by November 1 of each year.

A member of a charter school board (or spouse) would be prohibited from being an employee of the charter school, or its educational service provider or management organization. The bill would amend certain requirements relating to at-will employees and evaluation procedures.

Unless otherwise agreed, a sponsor would reimburse a charter school on a monthly basis for all invoices submitted by the charter school for available federal funds.

The bill would comply with federal grant requirements by requiring student academic achievement for all students to be the most important factor in determining whether to renew or terminate a charter agreement.

The bill would prohibit a sponsor from requiring a certificate of occupancy, or temporary certificate of occupancy, before the first day of school.

A school district would be authorized to enter into an interlocal agreement to inspect and issue a permit or license to a charter school. The charter school would have the ability to choose between using the school district or permitting agency.

Consequences

Upon notification of nonrenewal or termination of a charter, a charter school would be prohibited from spending more than $35,000 without prior written approval from the sponsor, unless the expenditure was included in the annual budget or is for attorney fees and costs for an appeal.

A charter agreement would immediately terminate when a charter school closes.

A service contract would not be able to extend beyond the term of a charter agreement, and payments would only be able to be made for services provided before the closure, nonrenewal termination, or immediate termination of the charter school.

High-Performing Charter Schools

A high-performing charter school would be able to increase enrollment once per school year, up to current facility capacity. A sponsor would be required to modify the charter agreement within 90 days of notification of the new enrollment. A sponsor would deny the request if the charter school no longer qualified as a high-performing charter school.

If a high-performing charter school requests consolidation of a charter agreement, the sponsor would have to provide an initial draft of the charter agreement to the charter school within 40 days. The parties would have 50 days to negotiate a charter agreement.

Next Generation Sunshine State Standards

Under the bill, the technology infrastructure, connectivity, and capacity of all public schools and school districts that administer statewide standardized assessments, including online assessments, would be load tested and independently verified as appropriate, adequate, efficient, and sustainable. The independent verification will supplement the self-reported data collected by the DOE.

Additionally, the full implementation of online (i.e., computer-based) Next Generation Sunshine State Standards in English/Language Arts and Mathematics assessments for all kindergarten through grade 12 public school students would be contingent upon an independent third party determination that the technology infrastructure, connectivity, and capacity of all public schools and school districts are verified as ready for successful deployment and implementation.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

This bill has no fiscal impact on appropriations.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations on April 23, 2013:
The committee substitute:

- Reduces existing timeframes so that a sponsor would provide a proposed charter agreement within 30 days.
  - The parties would have 40 days to negotiate the agreement.
- Requires the DOE to create a standard charter agreement by September 1, 2014.
  - The charter school and sponsor would be required to use the agreement.
  - The parties would be able to attach an addendum to make changes to the agreement.
  - The addendum would have a page limit set by SBE rule.
- Requires a charter school to provide a uniform monthly financial statement.
- Requires a charter school to provide to the public information regarding the school, including programs, management company, the school's annual budget, annual independent fiscal audit, school grade, and the school's governing board meeting minutes.
- Requires a sponsor to submit an annual report to the DOE, starting August 31, 2013.
- Prohibits a member of a charter school board (or spouse) from being an employee of the charter school or its educational service provider or management organization.
- Revises the requirements relating to at-will employees and performance evaluation procedures.

- Requires a sponsor to reimburse a charter school on a monthly basis for all invoices submitted by the charter school for available federal funds, unless otherwise agreed by the sponsor and charter school.
- Complies with federal grant requirements by requiring student academic achievement for all students to be the most important factor in determining whether to renew or terminate a charter agreement.
- Prohibits a sponsor from requiring a certificate of occupancy, including a temporary certificate of occupancy, before the first day of school.
- Authorizes a school district to enter into an interlocal agreement to inspect and issue a permit or license to a charter school.
- Prohibits, upon notification of nonrenewal or termination of a charter, a charter school from spending more than $35,000 without prior written approval from the sponsor, with two exceptions.
- Requires a charter agreement to immediately terminate when a charter school closes.
- Prohibits a service contract from extending beyond the term of a charter agreement.
  - Prohibits payments for services provided after the closure, nonrenewal termination, or immediate termination of the charter school.
- Authorizes a high-performing charter school to increase enrollment once per school year, up to facility capacity.
  - Requires a sponsor to modify the charter agreement within 90 days of notification of the new enrollment.
  - Authorizes a sponsor to deny the request if the charter school no longer qualifies as a high-performing charter school.
- Requires a sponsor to provide an initial draft of the charter agreement to the charter school within 40 days of a request by a high-performing charter school to consolidate charter agreements.
  - The parties would have 50 days to negotiate a charter agreement.

B. Amendments:

None.

201208

LEGISLATIVE ACTION

Senate	.	House
Comm: WD	.	
04/23/2013	.	
	.	
	.	
	.	

The Committee on Appropriations (Bean) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Paragraph (b) of subsection (5), paragraph (h) of subsection (6), paragraph (a) of subsection (7), paragraph (a) of subsection (8), paragraph (g) of subsection (9), paragraph (b) of subsection (16), paragraph (a) of subsection (21), and subsection (27) of section 1002.33, Florida Statutes, are amended, paragraphs (o) and (p) are added to subsection (9) of that section, paragraph (c) is added to subsection (26) of that section, and subsection (28) is added to that section, to

read:

1002.33 Charter schools.—

(5) SPONSOR; DUTIES.—

(b) *Sponsor duties.*—

1.a. The sponsor shall monitor and review the charter school in its progress toward the goals established in the charter.

b. The sponsor shall monitor the revenues and expenditures of the charter school and perform the duties provided in s. 1002.345.

c. The sponsor may approve a charter for a charter school before the applicant has identified space, equipment, or personnel, if the applicant indicates approval is necessary for it to raise working funds.

d. The sponsor's policies shall not apply to a charter school unless mutually agreed to by both the sponsor and the charter school.

e. The sponsor shall ensure that the charter is innovative and consistent with the state education goals established by s. 1000.03(5).

f. The sponsor shall ensure that the charter school participates in the state's education accountability system. If a charter school falls short of performance measures included in the approved charter, the sponsor shall report such shortcomings to the Department of Education.

g. The sponsor shall not be liable for civil damages under state law for personal injury, property damage, or death resulting from an act or omission of an officer, employee, agent, or governing body of the charter school.

h. The sponsor shall not be liable for civil damages under state law for any employment actions taken by an officer, employee, agent, or governing body of the charter school.

i. The sponsor's duties to monitor the charter school shall not constitute the basis for a private cause of action.

j. The sponsor shall not impose additional reporting requirements on a charter school without providing reasonable and specific justification in writing to the charter school.

2. Immunity for the sponsor of a charter school under subparagraph 1. applies only with respect to acts or omissions not under the sponsor's direct authority as described in this section.

3. This paragraph does not waive a district school board's sovereign immunity.

4. A Florida College System institution may work with the school district or school districts in its designated service area to develop charter schools that offer secondary education. These charter schools must include an option for students to receive an associate degree upon high school graduation. District school boards shall cooperate with and assist the Florida College System institution on the charter application. Florida College System institution applications for charter schools are not subject to the time deadlines outlined in subsection (6) and may be approved by the district school board at any time during the year. Florida College System institutions may not report FTE for any students who receive FTE funding through the Florida Education Finance Program.

5. A school district may enter into nonexclusive interlocal agreements with federal and state agencies, counties,

municipalities, and other governmental entities that operate within the geographical borders of the school district to act on behalf of such governmental entities in the inspection, issuance, and other necessary activities for all necessary permits, licenses, and other permissions that a charter school needs in order for development, construction, or operation. A charter school may use, but may not be required to use, a school district for these services. The interlocal agreement must include, but need not be limited to, the identification of fees that charter schools will be charged for such services. The fees must consist of the governmental entity's fees plus a fee for the school district to recover no more than actual costs for providing such services. These services and fees are not included within the services to be provided pursuant to subsection (20).

(6) APPLICATION PROCESS AND REVIEW.—Charter school applications are subject to the following requirements:

(h) The terms and conditions for the operation of a charter school shall be set forth by the sponsor and the applicant in a written contractual agreement, called a charter. The sponsor may ~~shall~~ not impose unreasonable rules or regulations that violate the intent of giving charter schools greater flexibility to meet educational goals. The sponsor has 30 ~~shall have 60~~ days after approval of the application to provide an initial proposed charter contract to the charter school. The applicant and sponsor shall use the standard charter adopted in state board rule pursuant to subsection (27) and the application submitted by the applicant. If agreed to by the sponsor and the charter school, the parties may file an addendum to the standard charter

201208

contract, not to exceed a page limit prescribed by the department, that identifies mutually agreed upon changes to the standard charter contract. Otherwise, neither the sponsor nor the charter school may modify the standard charter contract or otherwise insert or append attachments, addenda, or exhibits to the standard charter contract. The applicant and the sponsor have 40 ~~shall have 75~~ days thereafter to negotiate and notice the charter contract for final approval by the sponsor unless both parties agree to an extension. The proposed charter contract shall be provided to the charter school at least 7 calendar days prior to the date of the meeting at which the charter is scheduled to be voted upon by the sponsor. The Department of Education shall provide mediation services for any dispute regarding this section subsequent to the approval of a charter application and for any dispute relating to the approved charter, except disputes regarding charter school application denials. If the Commissioner of Education determines that the dispute cannot be settled through mediation, the dispute may be appealed to an administrative law judge appointed by the Division of Administrative Hearings. The administrative law judge may rule on issues of equitable treatment of the charter school as a public school, whether proposed provisions of the charter violate the intended flexibility granted charter schools by statute, or on any other matter regarding this section except a charter school application denial, a charter termination, or a charter nonrenewal and shall award the prevailing party reasonable attorney's fees and costs incurred to be paid by the losing party. The costs of the administrative hearing shall be paid by the party whom the administrative law judge rules

against.

(7) CHARTER.—The major issues involving the operation of a charter school shall be considered in advance and written into the charter. The charter shall be signed by the governing board of the charter school and the sponsor, following a public hearing to ensure community input.

(a) The charter shall address and criteria for approval of the charter shall be based on:

1. The school's mission, the students to be served, and the ages and grades to be included.

2. The focus of the curriculum, the instructional methods to be used, any distinctive instructional techniques to be employed, and identification and acquisition of appropriate technologies needed to improve educational and administrative performance which include a means for promoting safe, ethical, and appropriate uses of technology which comply with legal and professional standards.

a. The charter shall ensure that reading is a primary focus of the curriculum and that resources are provided to identify and provide specialized instruction for students who are reading below grade level. The curriculum and instructional strategies for reading must be consistent with the Sunshine State Standards and grounded in scientifically based reading research.

b. In order to provide students with access to diverse instructional delivery models, to facilitate the integration of technology within traditional classroom instruction, and to provide students with the skills they need to compete in the 21st century economy, the Legislature encourages instructional methods for blended learning courses consisting of both

traditional classroom and online instructional techniques. Charter schools may implement blended learning courses which combine traditional classroom instruction and virtual instruction. Students in a blended learning course must be full-time students of the charter school and receive the online instruction in a classroom setting at the charter school. Instructional personnel certified pursuant to s. 1012.55 who provide virtual instruction for blended learning courses may be employees of the charter school or may be under contract to provide instructional services to charter school students. At a minimum, such instructional personnel must hold an active state or school district adjunct certification under s. 1012.57 for the subject area of the blended learning course. The funding and performance accountability requirements for blended learning courses are the same as those for traditional courses.

3. The current incoming baseline standard of student academic achievement, the outcomes to be achieved, and the method of measurement that will be used. The criteria listed in this subparagraph shall include a detailed description of:

a. How the baseline student academic achievement levels and prior rates of academic progress will be established.

b. How these baseline rates will be compared to rates of academic progress achieved by these same students while attending the charter school.

c. To the extent possible, how these rates of progress will be evaluated and compared with rates of progress of other closely comparable student populations.

The district school board is required to provide academic

student performance data to charter schools for each of their students coming from the district school system, as well as rates of academic progress of comparable student populations in the district school system.

4. The methods used to identify the educational strengths and needs of students and how well educational goals and performance standards are met by students attending the charter school. The methods shall provide a means for the charter school to ensure accountability to its constituents by analyzing student performance data and by evaluating the effectiveness and efficiency of its major educational programs. Students in charter schools shall, at a minimum, participate in the statewide assessment program created under s. 1008.22.

5. In secondary charter schools, a method for determining that a student has satisfied the requirements for graduation in s. 1003.428, s. 1003.429, or s. 1003.43.

6. A method for resolving conflicts between the governing board of the charter school and the sponsor.

7. The admissions procedures and dismissal procedures, including the school’s code of student conduct.

8. The ways by which the school will achieve a racial/ethnic balance reflective of the community it serves or within the racial/ethnic range of other public schools in the same school district.

9. The financial and administrative management of the school, including a reasonable demonstration of the professional experience or competence of those individuals or organizations applying to operate the charter school or those hired or retained to perform such professional services and the

description of clearly delineated responsibilities and the policies and practices needed to effectively manage the charter school. A description of internal audit procedures and establishment of controls to ensure that financial resources are properly managed must be included. Both public sector and private sector professional experience shall be equally valid in such a consideration.

10. The asset and liability projections required in the application which are incorporated into the charter and shall be compared with information provided in the annual report of the charter school.

11. A description of procedures that identify various risks and provide for a comprehensive approach to reduce the impact of losses; plans to ensure the safety and security of students and staff; plans to identify, minimize, and protect others from violent or disruptive student behavior; and the manner in which the school will be insured, including whether or not the school will be required to have liability insurance, and, if so, the terms and conditions thereof and the amounts of coverage.

12. The term of the charter which shall provide for cancellation of the charter if insufficient progress has been made in attaining the student achievement objectives of the charter and if it is not likely that such objectives can be achieved before expiration of the charter. The initial term of a charter shall be for 4 or 5 years. In order to facilitate access to long-term financial resources for charter school construction, charter schools that are operated by a municipality or other public entity as provided by law are eligible for up to a 15-year charter, subject to approval by the

district school board. A charter lab school is eligible for a charter for a term of up to 15 years. In addition, to facilitate access to long-term financial resources for charter school construction, charter schools that are operated by a private, not-for-profit, s. 501(c)(3) status corporation are eligible for up to a 15-year charter, subject to approval by the district school board. Such long-term charters remain subject to annual review and may be terminated during the term of the charter, but only according to the provisions set forth in subsection (8).

13. The facilities to be used and their location. The sponsor may not require a charter school to have a temporary certificate of occupancy or certificate of occupancy for such a facility earlier than the first day of school.

14. The qualifications to be required of the teachers and the potential strategies used to recruit, hire, train, and retain qualified staff to achieve best value.

15. The governance structure of the school, including the status of the charter school as a public or private employer as required in paragraph (12)(i).

16. A timetable for implementing the charter which addresses the implementation of each element thereof and the date by which the charter shall be awarded in order to meet this timetable.

17. In the case of an existing public school that is being converted to charter status, alternative arrangements for current students who choose not to attend the charter school and for current teachers who choose not to teach in the charter school after conversion in accordance with the existing collective bargaining agreement or district school board rule in

201208

the absence of a collective bargaining agreement. However, alternative arrangements shall not be required for current teachers who choose not to teach in a charter lab school, except as authorized by the employment policies of the state university which grants the charter to the lab school.

18. Full disclosure of the identity of all relatives employed by the charter school who are related to the charter school owner, president, chairperson of the governing board of directors, superintendent, governing board member, principal, assistant principal, or any other person employed by the charter school who has equivalent decisionmaking authority. For the purpose of this subparagraph, the term "relative" means father, mother, son, daughter, brother, sister, uncle, aunt, first cousin, nephew, niece, husband, wife, father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, sister-in-law, stepfather, stepmother, stepson, stepdaughter, stepbrother, stepsister, half brother, or half sister.

19. Implementation of the activities authorized under s. 1002.331 by the charter school when it satisfies the eligibility requirements for a high-performing charter school. A high-performing charter school shall notify its sponsor in writing by March 1 if it intends to increase enrollment or expand grade levels the following school year. The written notice shall specify the amount of the enrollment increase and the grade levels that will be added, as applicable.

(8) CAUSES FOR NONRENEWAL OR TERMINATION OF CHARTER.—

(a) The sponsor shall make student academic achievement for all students the most important factor when determining whether to renew or terminate the charter. The sponsor may also choose

not to renew or may terminate the charter for any of the following grounds:

1. Failure to participate in the state's education accountability system created in s. 1008.31, as required in this section, or failure to meet the requirements for student performance stated in the charter.

2. Failure to meet generally accepted standards of fiscal management.

3. Violation of law.

4. Other good cause shown.

(9) CHARTER SCHOOL REQUIREMENTS.—

(g)1. In order to provide financial information that is comparable to that reported for other public schools, charter schools are to maintain all financial records that constitute their accounting system:

a.~~1.~~ In accordance with the accounts and codes prescribed in the most recent issuance of the publication titled "Financial and Program Cost Accounting and Reporting for Florida Schools"; or

b.~~2.~~ At the discretion of the charter school's governing board, a charter school may elect to follow generally accepted accounting standards for not-for-profit organizations, but must reformat this information for reporting according to this paragraph.

2. Charter schools shall provide annual financial report and program cost report information in the state-required formats for inclusion in district reporting in compliance with s. 1011.60(1). Charter schools that are operated by a municipality or are a component unit of a parent nonprofit

organization may use the accounting system of the municipality or the parent but must reformat this information for reporting according to this paragraph.

3. A charter school shall provide the sponsor with a concise, uniform, monthly financial statement summary sheet that contains a balance sheet and a statement of revenue, expenditures, and changes in fund balance. The balance sheet and the statement of revenue, expenditures, and changes in fund balance shall be in the governmental funds format prescribed by the Governmental Accounting Standards Board. ~~A charter school shall provide a monthly financial statement to the sponsor unless the charter school is designated as~~ A high-performing charter school pursuant to s. 1002.331~~, in which case the high-performing charter school~~ may provide a quarterly financial statement in the same format and requirements as the uniform monthly financial statement summary sheet. ~~The financial statement required under this paragraph shall be in a form prescribed by the Department of Education.~~

4. A charter school shall maintain and provide financial information as required in this paragraph. The information required in this paragraph must be in a form prescribed by the Department of Education.

(o)1. Upon notification of nonrenewal or termination of its charter, a charter school may not expend more than $35,000 without prior written approval from the sponsor, unless such expenditure was included within the annual budget submitted to the sponsor pursuant to the charter contract or is for reasonable attorney fees and costs during the pendency of an appeal.

201208

2. The charter agreement must immediately terminate when the charter school closes.

3. Charter school contracts with employees, service providers, management companies, and other types of service contracts may not extend beyond the term of the charter agreement. Payments may be made only for services provided before the closure, nonrenewal, termination, or immediate termination of the charter school.

4. If the charter school closes or if the charter agreement is terminated before the term of the charter agreement expires, the remainder of a service contract is void.

(p) Each charter school shall maintain a website that enables the public to obtain information regarding the school; the school's academic performance; names of the governing board members; programs at the school; any management companies, service providers, or education management corporations associated with the school; the school's annual budget and its annual independent fiscal audit; school grade pursuant to s. 1008.34; and, on a quarterly basis, minutes of governing board meetings.

(16) EXEMPTION FROM STATUTES.—

(b) Additionally, a charter school shall be in compliance with the following statutes:

1. Section 286.011, relating to public meetings and records, public inspection, and criminal and civil penalties.

2. Chapter 119, relating to public records.

3. Section 1003.03, relating to the maximum class size, except that the calculation for compliance pursuant to s. 1003.03 shall be the average at the school level.

 201208

4. Section 1012.22(1)(c)5.b. ~~1012.22(1)(c)~~, relating to the implementation of a compensation system that requires annual salary adjustments for instructional personnel to be based upon performance ~~and salary schedules~~.

5. Section 1012.33(5), relating to workforce reductions, if the charter school awards contracts to instructional personnel and the term of a contract exceeds 1 year.

6. Section 1012.335, relating to contracts with instructional personnel hired on or after July 1, 2011, if the charter school awards contracts to instructional personnel and the term of a contract exceeds 1 year.

7. Section 1012.34(2), (3), and (7) ~~1012.34~~, relating to ~~the substantive requirements for~~ performance evaluations for instructional personnel and school administrators. For purposes of compliance with this subparagraph, the duties assigned to a district school superintendent apply to a charter school administrative personnel or equivalent as specified by the governing board, and the duties assigned to a district school board apply to a charter school's governing board.

(21) PUBLIC INFORMATION ON CHARTER SCHOOLS.—

(a) The Department of Education shall provide information to the public, directly and through sponsors, on how to form and operate a charter school and how to enroll in a charter school once it is created. This information shall include a model ~~standard~~ application form ~~format~~, standard charter contract ~~format~~, standard evaluation instrument, and standard charter renewal contract ~~format~~, which shall include the information specified in subsection (7) and shall be developed by consulting and negotiating with both school districts and charter schools

before implementation. The charter and charter renewal contracts ~~formats~~ shall be used by charter school sponsors.

(26) STANDARDS OF CONDUCT AND FINANCIAL DISCLOSURE.—

(c) An employee of the charter school, or his or her spouse, or an employee of a charter management organization, or his or her spouse, may not be a member of the governing board of the charter school.

(27) RULEMAKING.—The Department of Education, after consultation with school districts and charter school directors, shall recommend that the State Board of Education adopt rules to implement specific subsections of this section. Such rules must ~~shall~~ require minimum paperwork and may ~~shall~~ not limit charter school flexibility authorized by statute. The State Board of Education shall adopt rules, pursuant to ss. 120.536(1) and 120.54, to implement a charter model application form, standard evaluation instrument, and standard charter and charter renewal contracts ~~formats~~ in accordance with this section. The standard charter and charter renewal contracts must be implemented by September 1, 2014.

(28) DEFINITIONS.—As used in chapters 1000-1013 and where the context allows in other provisions of law, the term "management company" means an entity retained by a public school's governing body pursuant to a written contract to administer or direct the operations of the school, subject to the policies, directives, and oversight of the public school's governing body. A public school's governing body may not retain a management company of which the governing body is a component unit. This definition also applies to the term:

(a) "Service provider" as the term is used in this section;

(b) "Education management corporation" as the term is used in s. 1002.332; and

(c) "Outside entity" as the term is used in s. 1008.33.

Section 2. Full implementation of online assessments for Next Generation Sunshine State Standards in English/language arts and mathematics adopted under s. 1003.41 for all kindergarten through grade 12 public school students shall occur only after the technology infrastructure, connectivity, and capacity of all public schools and school districts have been load tested and independently verified as ready for successful deployment and implementation.

Section 3. The technology infrastructure, connectivity, and capacity of all public schools and school districts that administer statewide standardized assessments pursuant to s. 1008.22, Florida Statutes, including online assessments, shall be load tested and independently verified as appropriate, adequate, efficient, and sustainable.

Section 4. This act shall take effect upon becoming a law.

================ T I T L E A M E N D M E N T ================

And the title is amended as follows:

Delete everything before the enacting clause and insert:

A bill to be entitled

An act relating to education; amending s. 1002.33, F.S.; allowing a school district to enter into certain interlocal agreements and allowing charter schools to use the school district for certain related services; modifying the application process for charter schools;

201208

prohibiting a sponsor from requiring a charter school to have a certificate of occupancy before the first day of school; requiring a sponsor to make student academic achievement for all students a priority in deciding whether to renew a charter; modifying charter school requirements for financial records; imposing rules that follow the closing of a charter school or termination of a charter; requiring a charter school to maintain a public website with certain information; modifying statutory exemptions for charter schools; restricting the membership of a charter school governing board; providing definitions; requiring that full implementation of online assessments for Next Generation Sunshine State Standards in English/language arts and mathematics for all kindergarten through grade 12 public school students occur only after the technology infrastructure, connectivity, and capacity of all public schools and school districts have been load tested and independently verified as ready for successful deployment and implementation; requiring that the technology infrastructure, connectivity, and capacity of all public schools and school districts that administer statewide standardized assessments pursuant to s. 1008.22, F.S., be load tested and independently verified as appropriate, adequate, efficient, and sustainable; providing an effective date.

04/25/2013	.	
	.	
	.	
	.	

The Committee on Appropriations (Bean) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Paragraph (b) of subsection (5), paragraph (h) of subsection (6), paragraph (a) of subsection (7), paragraph (a) of subsection (8), paragraph (g) of subsection (9), paragraph (b) of subsection (16), paragraph (a) of subsection (21), and subsection (27) of section 1002.33, Florida Statutes, are amended, paragraphs (o) and (p) are added to subsection (9) of that section, paragraph (c) is added to subsection (26) of that section, present paragraphs (e) and (f) of subsection (17)

of that section are redesignated as paragraphs (f) and (g), respectively, and a new paragraph (e) is added to that subsection, to read:

1002.33 Charter schools.—

(5) SPONSOR; DUTIES.—

(b) *Sponsor duties.*—

1.a. The sponsor shall monitor and review the charter school in its progress toward the goals established in the charter.

b. The sponsor shall monitor the revenues and expenditures of the charter school and perform the duties provided in s. 1002.345.

c. The sponsor may approve a charter for a charter school before the applicant has identified space, equipment, or personnel, if the applicant indicates approval is necessary for it to raise working funds.

d. The sponsor's policies shall not apply to a charter school unless mutually agreed to by both the sponsor and the charter school.

e. The sponsor shall ensure that the charter is innovative and consistent with the state education goals established by s. 1000.03(5).

f. The sponsor shall ensure that the charter school participates in the state's education accountability system. If a charter school falls short of performance measures included in the approved charter, the sponsor shall report such shortcomings to the Department of Education.

g. The sponsor shall not be liable for civil damages under state law for personal injury, property damage, or death

resulting from an act or omission of an officer, employee, agent, or governing body of the charter school.

h. The sponsor shall not be liable for civil damages under state law for any employment actions taken by an officer, employee, agent, or governing body of the charter school.

i. The sponsor's duties to monitor the charter school shall not constitute the basis for a private cause of action.

j. The sponsor shall not impose additional reporting requirements on a charter school without providing reasonable and specific justification in writing to the charter school.

2. Immunity for the sponsor of a charter school under subparagraph 1. applies only with respect to acts or omissions not under the sponsor's direct authority as described in this section.

3. This paragraph does not waive a district school board's sovereign immunity.

4. A Florida College System institution may work with the school district or school districts in its designated service area to develop charter schools that offer secondary education. These charter schools must include an option for students to receive an associate degree upon high school graduation. District school boards shall cooperate with and assist the Florida College System institution on the charter application. Florida College System institution applications for charter schools are not subject to the time deadlines outlined in subsection (6) and may be approved by the district school board at any time during the year. Florida College System institutions may not report FTE for any students who receive FTE funding through the Florida Education Finance Program.

5. A school district may enter into nonexclusive interlocal agreements with federal and state agencies, counties, municipalities, and other governmental entities that operate within the geographical borders of the school district to act on behalf of such governmental entities in the inspection, issuance, and other necessary activities for all necessary permits, licenses, and other permissions that a charter school needs in order for development, construction, or operation. A charter school may use, but may not be required to use, a school district for these services. The interlocal agreement must include, but need not be limited to, the identification of fees that charter schools will be charged for such services. The fees must consist of the governmental entity's fees plus a fee for the school district to recover no more than actual costs for providing such services. These services and fees are not included within the services to be provided pursuant to subsection (20).

(6) APPLICATION PROCESS AND REVIEW.—Charter school applications are subject to the following requirements:

(h) The terms and conditions for the operation of a charter school shall be set forth by the sponsor and the applicant in a written contractual agreement, called a charter. The sponsor may ~~shall~~ not impose unreasonable rules or regulations that violate the intent of giving charter schools greater flexibility to meet educational goals. The sponsor has 30 ~~shall have 60~~ days after approval of the application to provide an initial proposed charter contract to the charter school. The applicant and sponsor shall use the standard charter adopted in state board rule pursuant to subsection (27) and the application submitted

640620

by the applicant. The parties may file an addendum to the standard charter contract, not to exceed a page limit prescribed by the department, that identifies changes to the standard charter contract. Otherwise, neither the sponsor nor the charter school may modify the standard charter contract or otherwise insert or append attachments, addenda, or exhibits to the standard charter contract. The applicant and the sponsor have 40 ~~shall have 75~~ days thereafter to negotiate and notice the charter contract for final approval by the sponsor unless both parties agree to an extension. The proposed charter contract shall be provided to the charter school at least 7 calendar days prior to the date of the meeting at which the charter is scheduled to be voted upon by the sponsor. The Department of Education shall provide mediation services for any dispute regarding this section subsequent to the approval of a charter application and for any dispute relating to the approved charter, except disputes regarding charter school application denials. If the Commissioner of Education determines that the dispute cannot be settled through mediation, the dispute may be appealed to an administrative law judge appointed by the Division of Administrative Hearings. The administrative law judge may rule on issues of equitable treatment of the charter school as a public school, whether proposed provisions of the charter violate the intended flexibility granted charter schools by statute, or on any other matter regarding this section except a charter school application denial, a charter termination, or a charter nonrenewal and shall award the prevailing party reasonable attorney's fees and costs incurred to be paid by the losing party. The costs of the administrative hearing shall be

paid by the party whom the administrative law judge rules against.

(7) CHARTER.—The major issues involving the operation of a charter school shall be considered in advance and written into the charter. The charter shall be signed by the governing board of the charter school and the sponsor, following a public hearing to ensure community input.

(a) The charter shall address and criteria for approval of the charter shall be based on:

1. The school's mission, the students to be served, and the ages and grades to be included.

2. The focus of the curriculum, the instructional methods to be used, any distinctive instructional techniques to be employed, and identification and acquisition of appropriate technologies needed to improve educational and administrative performance which include a means for promoting safe, ethical, and appropriate uses of technology which comply with legal and professional standards.

a. The charter shall ensure that reading is a primary focus of the curriculum and that resources are provided to identify and provide specialized instruction for students who are reading below grade level. The curriculum and instructional strategies for reading must be consistent with the Sunshine State Standards and grounded in scientifically based reading research.

b. In order to provide students with access to diverse instructional delivery models, to facilitate the integration of technology within traditional classroom instruction, and to provide students with the skills they need to compete in the 21st century economy, the Legislature encourages instructional

methods for blended learning courses consisting of both traditional classroom and online instructional techniques. Charter schools may implement blended learning courses which combine traditional classroom instruction and virtual instruction. Students in a blended learning course must be full-time students of the charter school and receive the online instruction in a classroom setting at the charter school. Instructional personnel certified pursuant to s. 1012.55 who provide virtual instruction for blended learning courses may be employees of the charter school or may be under contract to provide instructional services to charter school students. At a minimum, such instructional personnel must hold an active state or school district adjunct certification under s. 1012.57 for the subject area of the blended learning course. The funding and performance accountability requirements for blended learning courses are the same as those for traditional courses.

3. The current incoming baseline standard of student academic achievement, the outcomes to be achieved, and the method of measurement that will be used. The criteria listed in this subparagraph shall include a detailed description of:

a. How the baseline student academic achievement levels and prior rates of academic progress will be established.

b. How these baseline rates will be compared to rates of academic progress achieved by these same students while attending the charter school.

c. To the extent possible, how these rates of progress will be evaluated and compared with rates of progress of other closely comparable student populations.

The district school board is required to provide academic student performance data to charter schools for each of their students coming from the district school system, as well as rates of academic progress of comparable student populations in the district school system.

4. The methods used to identify the educational strengths and needs of students and how well educational goals and performance standards are met by students attending the charter school. The methods shall provide a means for the charter school to ensure accountability to its constituents by analyzing student performance data and by evaluating the effectiveness and efficiency of its major educational programs. Students in charter schools shall, at a minimum, participate in the statewide assessment program created under s. 1008.22.

5. In secondary charter schools, a method for determining that a student has satisfied the requirements for graduation in s. 1003.428, s. 1003.429, or s. 1003.43.

6. A method for resolving conflicts between the governing board of the charter school and the sponsor.

7. The admissions procedures and dismissal procedures, including the school’s code of student conduct.

8. The ways by which the school will achieve a racial/ethnic balance reflective of the community it serves or within the racial/ethnic range of other public schools in the same school district.

9. The financial and administrative management of the school, including a reasonable demonstration of the professional experience or competence of those individuals or organizations applying to operate the charter school or those hired or

retained to perform such professional services and the description of clearly delineated responsibilities and the policies and practices needed to effectively manage the charter school. A description of internal audit procedures and establishment of controls to ensure that financial resources are properly managed must be included. Both public sector and private sector professional experience shall be equally valid in such a consideration.

10. The asset and liability projections required in the application which are incorporated into the charter and shall be compared with information provided in the annual report of the charter school.

11. A description of procedures that identify various risks and provide for a comprehensive approach to reduce the impact of losses; plans to ensure the safety and security of students and staff; plans to identify, minimize, and protect others from violent or disruptive student behavior; and the manner in which the school will be insured, including whether or not the school will be required to have liability insurance, and, if so, the terms and conditions thereof and the amounts of coverage.

12. The term of the charter which shall provide for cancellation of the charter if insufficient progress has been made in attaining the student achievement objectives of the charter and if it is not likely that such objectives can be achieved before expiration of the charter. The initial term of a charter shall be for 4 or 5 years. In order to facilitate access to long-term financial resources for charter school construction, charter schools that are operated by a municipality or other public entity as provided by law are

eligible for up to a 15-year charter, subject to approval by the district school board. A charter lab school is eligible for a charter for a term of up to 15 years. In addition, to facilitate access to long-term financial resources for charter school construction, charter schools that are operated by a private, not-for-profit, s. 501(c)(3) status corporation are eligible for up to a 15-year charter, subject to approval by the district school board. Such long-term charters remain subject to annual review and may be terminated during the term of the charter, but only according to the provisions set forth in subsection (8).

13. The facilities to be used and their location. The sponsor may not require a charter school to have a temporary certificate of occupancy or certificate of occupancy for such a facility earlier than the first day of school.

14. The qualifications to be required of the teachers and the potential strategies used to recruit, hire, train, and retain qualified staff to achieve best value.

15. The governance structure of the school, including the status of the charter school as a public or private employer as required in paragraph (12)(i).

16. A timetable for implementing the charter which addresses the implementation of each element thereof and the date by which the charter shall be awarded in order to meet this timetable.

17. In the case of an existing public school that is being converted to charter status, alternative arrangements for current students who choose not to attend the charter school and for current teachers who choose not to teach in the charter school after conversion in accordance with the existing

collective bargaining agreement or district school board rule in the absence of a collective bargaining agreement. However, alternative arrangements shall not be required for current teachers who choose not to teach in a charter lab school, except as authorized by the employment policies of the state university which grants the charter to the lab school.

18. Full disclosure of the identity of all relatives employed by the charter school who are related to the charter school owner, president, chairperson of the governing board of directors, superintendent, governing board member, principal, assistant principal, or any other person employed by the charter school who has equivalent decisionmaking authority. For the purpose of this subparagraph, the term "relative" means father, mother, son, daughter, brother, sister, uncle, aunt, first cousin, nephew, niece, husband, wife, father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, sister-in-law, stepfather, stepmother, stepson, stepdaughter, stepbrother, stepsister, half brother, or half sister.

19. Implementation of the activities authorized under s. 1002.331 by the charter school when it satisfies the eligibility requirements for a high-performing charter school. A high-performing charter school shall notify its sponsor in writing by March 1 if it intends to increase enrollment or expand grade levels the following school year. The written notice shall specify the amount of the enrollment increase and the grade levels that will be added, as applicable.

(8) CAUSES FOR NONRENEWAL OR TERMINATION OF CHARTER.—

(a) The sponsor shall make student academic achievement for all students the most important factor when determining whether

640620

to renew or terminate the charter. The sponsor may also choose not to renew or may terminate the charter for any of the following grounds:

1. Failure to participate in the state's education accountability system created in s. 1008.31, as required in this section, or failure to meet the requirements for student performance stated in the charter.

2. Failure to meet generally accepted standards of fiscal management.

3. Violation of law.

4. Other good cause shown.

(9) CHARTER SCHOOL REQUIREMENTS.—

(g)1. In order to provide financial information that is comparable to that reported for other public schools, charter schools are to maintain all financial records that constitute their accounting system:

a.~~1.~~ In accordance with the accounts and codes prescribed in the most recent issuance of the publication titled "Financial and Program Cost Accounting and Reporting for Florida Schools"; or

b.~~2.~~ At the discretion of the charter school's governing board, a charter school may elect to follow generally accepted accounting standards for not-for-profit organizations, but must reformat this information for reporting according to this paragraph.

2. Charter schools shall provide annual financial report and program cost report information in the state-required formats for inclusion in district reporting in compliance with s. 1011.60(1). Charter schools that are operated by a

municipality or are a component unit of a parent nonprofit organization may use the accounting system of the municipality or the parent but must reformat this information for reporting according to this paragraph.

3. A charter school shall provide the sponsor with a concise, uniform, monthly financial statement summary sheet that contains a balance sheet and a statement of revenue, expenditures, and changes in fund balance. The balance sheet and the statement of revenue, expenditures, and changes in fund balance shall be in the governmental funds format prescribed by the Governmental Accounting Standards Board. ~~A charter school shall provide a monthly financial statement to the sponsor unless the charter school is designated as~~ A high-performing charter school pursuant to s. 1002.331~~, in which case the high-performing charter school~~ may provide a quarterly financial statement in the same format and requirements as the uniform monthly financial statement summary sheet. ~~The financial statement required under this paragraph shall be in a form prescribed by the Department of Education.~~

4. A charter school shall maintain and provide financial information as required in this paragraph. The information required in this paragraph must be in a form prescribed by the Department of Education.

(o)1. Upon notification of nonrenewal or termination of its charter, a charter school may not expend more than $35,000 without prior written approval from the sponsor, unless such expenditure was included within the annual budget submitted to the sponsor pursuant to the charter contract or is for reasonable attorney fees and costs during the pendency of an

640620

appeal.

2. The charter agreement must immediately terminate when the charter school closes.

3. Charter school contracts with employees, service providers, management companies, and other types of service contracts may not extend beyond the term of the charter agreement. Payments may be made only for services provided before the closure, nonrenewal, termination, or immediate termination of the charter school.

4. If the charter school closes or if the charter agreement is terminated before the term of the charter agreement expires, the remainder of the contract is void. This subparagraph applies to new contracts and to amendments to existing contracts that are executed after July 1, 2013.

(p) Each charter school shall maintain a website that enables the public to obtain information regarding the school; the school's academic performance; the names of the governing board members; the programs at the school; any management companies, service providers, or education management corporations associated with the school; the school's annual budget and its annual independent fiscal audit; the school's grade pursuant to s. 1008.34; and, on a quarterly basis, the minutes of governing board meetings.

(16) EXEMPTION FROM STATUTES.—

(b) Additionally, a charter school shall be in compliance with the following statutes:

1. Section 286.011, relating to public meetings and records, public inspection, and criminal and civil penalties.

2. Chapter 119, relating to public records.

640620

3. Section 1003.03, relating to the maximum class size, except that the calculation for compliance pursuant to s. 1003.03 shall be the average at the school level.

4. Section 1012.22(1)(c), relating to compensation and salary schedules.

5. Section 1012.33(5), relating to workforce reductions, for charter school annual contracts to instructional personnel. This subparagraph does not apply to charter school instructional personnel who are at-will employees.

6. Section 1012.335, relating to contracts with instructional personnel hired on or after July 1, 2011, for charter school annual contracts to instructional personnel. This subparagraph does not apply to charter school instructional personnel who are at-will employees.

7. Section 1012.34(2), (3), and (7) ~~1012.34~~, relating to ~~the substantive requirements for~~ performance evaluations for instructional personnel and school administrators. For purposes of compliance with this subparagraph, the duties assigned to a district school superintendent apply to a charter school administrative personnel or equivalent as specified by the governing board, and the duties assigned to a district school board apply to a charter school's governing board.

(17) FUNDING.—Students enrolled in a charter school, regardless of the sponsorship, shall be funded as if they are in a basic program or a special program, the same as students enrolled in other public schools in the school district. Funding for a charter lab school shall be as provided in s. 1002.32.

(e) Unless otherwise mutually agreed to by the charter school and its sponsor, and consistent with state and federal

rules and regulations governing the use and disbursement of federal funds, the sponsor shall reimburse the charter school on a monthly basis for all invoices submitted by the charter school for federal funds available to the sponsor for the benefit of the charter school, the charter school's students, and the charter school's students as public school students in the school district. Such federal funds include, but are not limited to, Title I, Title II, and Individuals with Disabilities Education Act (IDEA) funds.

(21) PUBLIC INFORMATION ON CHARTER SCHOOLS.—

(a) The Department of Education shall provide information to the public, directly and through sponsors, on how to form and operate a charter school and how to enroll in a charter school once it is created. This information shall include a model ~~standard~~ application form ~~format~~, standard charter contract ~~format~~, standard evaluation instrument, and standard charter renewal contract ~~format~~, which shall include the information specified in subsection (7) and shall be developed by consulting and negotiating with both school districts and charter schools before implementation. The charter and charter renewal contracts ~~formats~~ shall be used by charter school sponsors.

(26) STANDARDS OF CONDUCT AND FINANCIAL DISCLOSURE.—

(c) An employee of the charter school, or his or her spouse, or an employee of a charter management organization, or his or her spouse, may not be a member of the governing board of the charter school.

(27) RULEMAKING.—The Department of Education, after consultation with school districts and charter school directors, shall recommend that the State Board of Education adopt rules to

640620

implement specific subsections of this section. Such rules must ~~shall~~ require minimum paperwork and may ~~shall~~ not limit charter school flexibility authorized by statute. The State Board of Education shall adopt rules, pursuant to ss. 120.536(1) and 120.54, to implement a charter model application form, standard evaluation instrument, and standard charter and charter renewal contracts ~~formats~~ in accordance with this section. The standard charter and charter renewal contracts must be implemented by September 1, 2014.

Section 2. Full implementation of online assessments for Next Generation Sunshine State Standards in English/language arts and mathematics adopted under s. 1003.41 for all kindergarten through grade 12 public school students shall occur only after the technology infrastructure, connectivity, and capacity of all public schools and school districts have been load tested and independently verified as ready for successful deployment and implementation.

Section 3. The technology infrastructure, connectivity, and capacity of all public schools and school districts that administer statewide standardized assessments pursuant to s. 1008.22, Florida Statutes, including online assessments, shall be load tested and independently verified as appropriate, adequate, efficient, and sustainable.

Section 4. This act shall take effect upon becoming a law.

	.	
	.	

The Committee on Appropriations (Bean) recommended the following:

Senate Amendment to Amendment (640620) (with title amendment)

Between lines 456 and 457
insert:

Section 2. Subsection (2) of section 1002.331, Florida Statutes, is amended to read:

1002.331 High-performing charter schools.—

(2) A high-performing charter school is authorized to:

(a) Increase its student enrollment once per school year ~~by~~ up to ~~15 percent~~ more than the capacity identified in the charter, but student enrollment may not exceed the current

facility capacity.

(b) Expand grade levels within kindergarten through grade 12 to add grade levels not already served if any annual enrollment increase resulting from grade level expansion is within the limit established in paragraph (a).

(c) Submit a quarterly, rather than a monthly, financial statement to the sponsor pursuant to s. 1002.33(9)(g).

(d) Consolidate under a single charter the charters of multiple high-performing charter schools operated in the same school district by the charter schools' governing board regardless of the renewal cycle.

(e) Receive a modification of its charter to a term of 15 years or a 15-year charter renewal. The charter may be modified or renewed for a shorter term at the option of the high-performing charter school. The charter must be consistent with s. 1002.33(7)(a)19. and (10)(h) and (i), is subject to annual review by the sponsor, and may be terminated during its term pursuant to s. 1002.33(8).

A high-performing charter school shall notify its sponsor in writing by March 1 if it intends to increase enrollment or expand grade levels the following school year. The written notice shall specify the amount of the enrollment increase and the grade levels that will be added, as applicable. If a charter school notifies the sponsor of its intent to expand, the sponsor shall modify the charter within 90 days to include the new enrollment maximum. The sponsor may deny a request to increase the enrollment of a high-performing charter school if, after requesting to expand, the charter school no longer qualifies as

821630

a high-performing charter school under subsection (1). If a high-performing charter school requests to consolidate multiple charters, the sponsor shall have 40 days after receipt of that request to provide an initial draft charter to the charter school. The sponsor and charter school shall have 50 days thereafter to negotiate and notice the charter contract for final approval by the sponsor.

A bill to be entitled

An act relating to education; requiring that the technology infrastructure, connectivity, and capacity of all public schools and school districts that administer statewide standardized assessments pursuant to s. 1008.22, F.S., be load tested and independently verified as appropriate, adequate, efficient, and sustainable; requiring that full implementation of online common core assessments for all kindergarten through grade 12 public school students occur only after the technology infrastructure, connectivity, and capacity of all public schools and school districts have been load tested and independently verified as ready for successful deployment and implementation; amending s. 1000.21, F.S.; modifying a definition; providing that certain common core standards are part of the Next Generation Sunshine State Standards; directing the Division of Law Revision and Information to change the term "Sunshine State Standards" to "Next Generation Sunshine State Standards" wherever the term appears in Florida Statutes; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. The technology infrastructure, connectivity, and capacity of all public schools and school districts that administer statewide standardized assessments pursuant to s. 1008.22, Florida Statutes, including online assessments, shall

17-01287D-13 20131630__

be load tested and independently verified as appropriate, adequate, efficient, and sustainable.

Section 2. Full implementation of online common core assessments for all kindergarten through grade 12 public school students shall occur only after the technology infrastructure, connectivity, and capacity of all public schools and school districts have been load tested and independently verified as ready for successful deployment and implementation.

Section 3. Subsection (7) of section 1000.21, Florida Statutes, is amended to read:

1000.21 Systemwide definitions.—As used in the Florida K-20 Education Code:

(7) ~~"Sunshine State Standards" or the~~ "Next Generation Sunshine State Standards" means the state's public K-12 curricular standards, including common core standards in English/Language Arts and Mathematics, adopted under s. 1003.41. ~~The term includes the Sunshine State Standards that are in place for a subject until the standards for that subject are replaced under s. 1003.41 by the Next Generation Sunshine State Standards.~~

Section 4. The Division of Law Revision and Information shall change "Sunshine State Standards" to "Next Generation Sunshine State Standards" wherever it appears in Florida Statutes.

Section 5. This act shall take effect upon becoming a law.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 1636
INTRODUCER:	Judiciary Committee; Health Policy Committee; and Senator Flores
SUBJECT:	Infants Born Alive
DATE:	April 24, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Looke	Stovall	HP	**Fav/CS**
2.	Munroe	Cibula	JU	**Fav/CS**
3.	Brown	Hansen	AP	**Favorable**
4.				
5.				
6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/CS/SB 1636 amends chapter 390, Florida Statutes, relating to termination of pregnancies.

The bill may have indeterminate negative fiscal impact.

The bill:

- Creates a definition of "born alive;"
- Grants an infant who is born alive during or immediately after an attempted abortion the same rights as infants born naturally;
- Requires healthcare professionals to apply the same level of care towards the infant born alive as they would for an infant born naturally of the same gestational age;
- Requires that the infant born alive as part of an attempted abortion be immediately transported and admitted to a hospital;
- Requires health care practitioners to report violations to the Department of Health (DOH);
- Causes violations of these requirements to be punishable as a first degree misdemeanor; and
- Requires facilities that perform abortions to report monthly the number of infants born alive to the Agency for Health Care Administration (AHCA).

The bill has an effective date of July 1, 2013.

The bill substantially amends the following sections of the Florida Statutes: 390.011, 390.0111, and 390.0112.

II. Present Situation:

Case Law on Abortion

In 1973, the foundation of modern abortion jurisprudence, *Roe v. Wade*, was decided by the U.S. Supreme Court.[1] Using strict scrutiny, the Court determined that a woman's right to terminate a pregnancy is part of a fundamental right to privacy guaranteed under the Due Process Clause of the Fourteenth Amendment of the U.S. Constitution.[2] Further, the Court reasoned that state regulation limiting the exercise of this right must be justified by a compelling state interest, and must be narrowly drawn.[3] The Court established the trimester framework for the regulation of termination – holding that in the third trimester, a state could prohibit termination to the extent that the woman's life or health was not at risk.[4]

In *Planned Parenthood v. Casey*, the U.S. Supreme Court, while upholding the fundamental holding of *Roe,* recognized that medical advancement could shift determinations of fetal viability away from the trimester framework.[5]

Abortion in Florida

Article I, Section 23 of the State Constitution provides an express right to privacy. The Florida Supreme Court has recognized the Florida's constitutional right to privacy "is clearly implicated in a woman's decision whether or not to continue her pregnancy."[6]

In *In re T.W.*, the Florida Supreme Court determined that:

> [p]rior to the end of the first trimester, the abortion decision must be left to the woman and may not be significantly restricted by the state. Following this point, the state may impose significant restrictions only in the least intrusive manner designed to safeguard the health of the mother. Insignificant burdens during either period must substantially further important state interests. . . . Under our Florida Constitution, the state's interest becomes compelling upon viability. . . . Viability under Florida law occurs at that point in time when the fetus becomes capable of meaningful life outside the womb through standard medical procedures.

[1] 410 U.S. 113 (1973).
[2] *Id.*
[3] *Id.*
[4] *Id.*
[5] 505 U.S. 833 (1992).
[6] *See In re T.W.*, 551 So. 2d 1186, 1192 (Fla. 1989)(holding that a parental consent statute was unconstitutional because it intrudes on a minor's right to privacy).

The Florida Supreme Court recognized that after viability, the state can regulate termination in the interest of the unborn child so long as the mother's health is not in jeopardy.[7]

Under Florida law, abortion is defined as the termination of a human pregnancy with an intention other than to produce a live birth or to remove a dead fetus.[8] A termination of pregnancy must be performed by a physician[9] licensed under ch. 458, F.S., or ch. 459, F.S., or a physician practicing medicine or osteopathic medicine in the employment of the United States.[10]

A termination of pregnancy may not be performed in the third trimester unless there is a medical emergency.[11] Florida law defines the third trimester to mean the weeks of pregnancy after the 24th week.[12] A medical emergency is a situation in which:

- To a reasonable degree of medical certainty, the termination of pregnancy is necessary to save the life or preserve the health of the pregnant woman[13] and is a condition that, on the basis of a physician's good faith clinical judgment, so complicates the medical condition of a pregnant woman as to necessitate the immediate termination of her pregnancy to avert her death; or
- In the good faith clinical judgment of the physician, a delay in the termination of the pregnant woman's pregnancy will create serious risk of substantial and irreversible impairment of a major bodily function.[14]

Section 390.0111(4), F.S., provides that if a termination of pregnancy is performed during viability, the person who performs or induces the termination of pregnancy must use that degree of professional skill, care, and diligence to preserve the life and health of the fetus, which such person would be required to exercise in order to preserve the life and health of any fetus intended to be born and not aborted. Viability is defined in this provision to mean that stage of fetal development when the life of the unborn child may with a reasonable degree of medical probability be continued indefinitely outside the womb. However, the woman's life and health constitute an overriding and superior consideration to the concern for the life and health of the fetus when such concerns are in conflict.

Born Alive

The federal Born Alive Infants Protection Act (BAIPA) of 2002 states that in determining the meaning of any act of Congress or of any ruling, regulation, or interpretation of the various federal administrative bureaus and agencies, the words "person," "human being," "child," and "individual" shall include every infant member of the species homo sapiens who is born alive at any stage of development.[15] The BAIPA defined "born alive" as:

[7] *Id.*
[8] Section 390.011(1), F.S.
[9] Section 390.0111(2), F.S.
[10] Section 390.011(7), F.S.
[11] Section 390.0111(1), F.S.
[12] Section 390.011(7), F.S.
[13] Section 390.0111(1)(a), F.S.
[14] Section 390.01114(2)(d), F.S.
[15] 1 U.S.C. 8(a).

> the complete expulsion or extraction from his or her mother of that member, at any stage of development, who after such expulsion or extraction breathes or has a beating heart, pulsation of the umbilical cord, or definite movement of voluntary muscles, regardless of whether the umbilical cord has been cut, and regardless of whether the expulsion or extraction occurs as a result of natural or induced labor, cesarean section or induced abortion.[16]

The BAIPA was initially viewed as a symbolic act which did not alter the treatment that physicians already provided to extremely premature infants.[17] A change occurred in 2005 when the U.S. Department of Health and Human Services (HHS) issued a program instruction to state and territorial agencies administering or supervising the administration of the federal Child Abuse Prevention and Treatment Act (CAPTA) Program. The program instruction stated that regulations affected by the BAIPA were to be enforced under CAPTA.[18] Specifically, states must ensure that implementation of section 106(b)(2)(B) of CAPTA, which requires states to have procedures for responding to reports of medical neglect (including the withholding of medically indicated treatment from disabled infants with life-threatening conditions), applies to born-alive infants.[19] This created an obligation to provide medical services to a born-alive infant as well as an obligation to report when such treatment is withheld.[20] Thus, the failure to provide medical services to a born-alive infant may subject a physician to criminal neglect and abuse charges under applicable state law.[21] However, since the applicable portions of CAPTA do not have specific provisions requiring the prosecution of child abusers, it is unclear whether BAIPA would apply to the prosecution of physicians who do not treat infants born alive under Florida's child abuse laws.

The federal Emergency Medical Treatment and Labor Act (EMTALA) places potential provider obligations on hospitals and physicians when presented with an individual who may have an emergency medical condition, irrespective of that individual's ability to pay.[22] The federal Centers for Medicare and Medicaid Services (CMS), a division of the HHS, issued its "Guidance on the interaction of the BAIPA and the EMTALA" in 2005. According to the CMS, born-alive infants as "individuals" were entitled to protection under the EMTALA.[23] Thus, individuals who

[23] *Id.*

failed to provide stabilizing treatment to a born-alive infant may be subject to penalties under the EMTALA.[24]

Voluntary Surrender of Infants

Florida law provides for the treatment and protection of a surrendered newborn.[25] Under Florida law, a "newborn infant" means a child who a licensed physician reasonably believes is approximately seven days old or younger at the time the child is left at a hospital, emergency medical services (EMS) station, or a fire station.[26] Hospitals are authorized to admit and provide all necessary services and care to a surrendered new born infant.[27] Likewise, EMS technicians, paramedics, and firefighters are also authorized to render EMS to a newborn infant.[28] However, EMS technicians, paramedics, and firefighters have a secondary obligation of arranging for the immediate transport of the newborn infant to a hospital for admittance.[29]

III. Effect of Proposed Changes:

Section 1 of the bill amends s. 390.011, F.S., to define "born alive" as the complete expulsion or extraction from the mother of a human infant, at any stage of development, who, after such expulsion or extraction, breathes or has a beating heart, or definite and voluntary movement of muscles, regardless of whether the umbilical cord has been cut and regardless of whether the expulsion or extraction occurs as a result of natural or induced labor, Cesarean section, induced abortion, or other method.

Section 2 of the bill amends s. 390.0111, F.S., to:

- Grant an infant who is born alive during or immediately after an attempted abortion the same rights as infants born naturally;
- Require healthcare professionals to apply the same level of skill, care, and diligence towards the infant as they would for an infant born naturally at the same gestational age;
- Require that the infant born alive during or immediately after an attempted abortion be immediately transported and admitted to a hospital;[30]
- Require health care practitioners and employees of hospitals, physician's offices, and abortion clinics with knowledge of a violation of these provisions to report the violation to the DOH;
- Cause violations of these requirements to be punishable as a first degree misdemeanor;
- Clarify that these provisions do not preclude the prosecution of a more general offense; and
- Clarify that these provisions do not affirm, deny, expand, or contract any legal status or legal right applicable to any member of the species homo sapiens at any point prior to being born alive.

[28] Section 383.50(3)(a), F.S.
[29] Section 383.50(3)(b), F.S.
[30] Pursuant to s. 390.012(3)(c), F.S., which requires abortion clinics to designate a medical director who is a physician with privileges at a licensed hospital or has a transfer agreement with a licensed hospital in place.

Section 3 of the bill amends s. 390.0112, F.S., to require medical facilities that terminate pregnancies to add the number of infants born alive during or immediately after an attempted abortion to a monthly report of all abortions currently required to be reported to the AHCA.

Section 4 of the bill provides an effective date of July 1, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The bill may have an indeterminate negative fiscal impact on hospitals by requiring that hospitals provide for medical care for infants who fall under the definition of "born alive" if such care becomes classified as uncompensated charity care.[31]

C. Government Sector Impact:

The bill may have an indeterminate negative fiscal impact on the state if infants who fall under the definition of "born alive" are transported to hospitals under the bill and become enrolled in Medicaid or if such infants are provided other social services by the state.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

[31] *See* s. 409.911(1)(c), F.S.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Judiciary on April 15, 2013:
The CS corrects a cross-reference to the definition of the term "born alive."

CS by Health Policy on April 9, 2013:
The CS:

- Clarifies that practitioners must exercise the same efforts to preserve the life and health of an infant born alive as they would for a infant born naturally at the same gestational age;
- Removes provisions related to the presumed surrender of the infant upon transportation to a hospital.
- Clarifies that the provisions in the section 2 of the bill do not preclude prosecution of more general provisions of law.
- Clarifies that the provisions in section 2 of the bill do not affect the legal status or legal rights of the species homo sapiens at any point prior to being born alive.
- Requires health care facilities performing abortions to include the number of infants born alive during or immediately after an attempted abortion in the monthly report of abortions submitted to the AHCA.

B. Amendments:

None.

By the Committees on Judiciary; and Health Policy; and Senator Flores

590-04362-13 20131636c2

A bill to be entitled

An act relating to infants born alive; amending s. 390.011, F.S.; defining the term "born alive"; amending s. 390.0111, F.S.; providing that an infant born alive during or immediately after an attempted abortion is entitled to the same rights, powers, and privileges as any other child born alive in the course of natural birth; requiring health care practitioners to preserve the life and health of such an infant born alive, if possible; providing for the transport and admittance of an infant born alive to a hospital; requiring a health care practitioner or certain employees who have knowledge of any violations with respect to infants born alive after an attempted abortion to report those violations to the Department of Health; providing a penalty; providing for construction; amending s. 390.0112, F.S.; revising a reporting requirement; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsections (4) through (8) of section 390.011, Florida Statutes, are renumbered as subsections (5) through (9), respectively, and a new subsection (4) is added to that section to read:

390.011 Definitions.—As used in this chapter, the term:

(4) "Born alive" means the complete expulsion or extraction from the mother of a human infant, at any stage of development, who, after such expulsion or extraction, breathes or has a

590-04362-13 20131636c2

beating heart, or definite and voluntary movement of muscles, regardless of whether the umbilical cord has been cut and regardless of whether the expulsion or extraction occurs as a result of natural or induced labor, Cesarean section, induced abortion, or other method.

Section 2. Subsections (12) and (13) of section 390.0111, Florida Statutes, are renumbered as subsections (13) and (14), respectively, subsection (10) is amended, and a new subsection (12) is added to that section to read:

390.0111 Termination of pregnancies.—

(10) PENALTIES FOR VIOLATION.—Except as provided in subsections (3), ~~and~~ (7), and (12):

(a) Any person who willfully performs, or actively participates in, a termination of pregnancy procedure in violation of the requirements of this section commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(b) Any person who performs, or actively participates in, a termination of pregnancy procedure in violation of the provisions of this section which results in the death of the woman commits a felony of the second degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(12) INFANTS BORN ALIVE.—

(a) An infant born alive during or immediately after an attempted abortion is entitled to the same rights, powers, and privileges as are granted by the laws of this state to any other child born alive in the course of natural birth.

(b) If an infant is born alive during or immediately after an attempted abortion, any health care practitioner present at

the time shall humanely exercise the same degree of professional skill, care, and diligence to preserve the life and health of the infant as a reasonably diligent and conscientious health care practitioner would render to an infant born alive at the same gestational age in the course of natural birth.

(c) An infant born alive during or immediately after an attempted abortion must be immediately transported and admitted to a hospital pursuant to s. 390.012(3)(c) or rules adopted thereunder.

(d) A health care practitioner or any employee of a hospital, a physician's office, or an abortion clinic who has knowledge of a violation of this subsection must report the violation to the department.

(e) A person who violates this subsection commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083. This subsection shall not be construed as a specific provision of law relating to a particular subject matter that would preclude prosecution of a more general offense, regardless of the penalty.

(f) This subsection does not affirm, deny, expand, or contract any legal status or legal right applicable to any member of the species homo sapiens at any point prior to being born alive as defined in s. 390.011.

Section 3. Subsection (1) of section 390.0112, Florida Statutes, is amended to read:

390.0112 Termination of pregnancies; reporting.—

(1) The director of any medical facility in which any pregnancy is terminated shall submit a monthly report to the agency which contains the number of procedures performed, the

reason for same, ~~and~~ the period of gestation at the time such procedures were performed, and the number of infants born alive during or immediately after an attempted abortion ~~to the agency~~. The agency shall be responsible for keeping such reports in a central place from which statistical data and analysis can be made.

Section 4. This act shall take effect July 1, 2013.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/CS/SB 1644
INTRODUCER:	Appropriations Committee; Judiciary Committee; Children, Families, and Elder Affairs Committee; and Senator Flores
SUBJECT:	Victims of Human Trafficking
DATE:	April 25, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Preston	Hendon	CF	**Fav/CS**
2.	Brown	Cibula	JU	**Fav/CS**
3.	Sadberry	Hansen	AP	**Fav/CS**
4.				
5.				
6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/CS/CS/SB 1644 creates section 943.0583, F.S., relating to the expunction of criminal records for victims of human trafficking.

There is an expected fiscal impact of $99,275 to the Florida Department of Law Enforcement; the bill appropriates nonrecurring general revenue funds in that amount for Fiscal Year 2013-2014 to fund the programming costs associated with this bill. The Office of the State Courts Administrator indicates a fiscal impact is expected; however, the impact is indeterminate.

Specifically, the bill:

- Defines "human trafficking," "official documentation," and "victim of human trafficking."
- Provides a process for victims of human trafficking to petition the court for expunction of the criminal history record of certain crimes committed while a petitioner was the victim of human trafficking;
- Specifies that the standard of proof on an expunction petition is a preponderance of the evidence;

- Treats an expunged conviction as a vacated conviction due to a substantive defect in the underlying criminal proceedings;
- Requires a petitioner to file the petition with due diligence after the victim is no longer a victim of human trafficking or has sought services for victims of human trafficking subject to specified reasonable concerns;
- Creates a presumption that a person participated in an offense as the result of human trafficking if official documentation of the person's status as a victim of human trafficking exists. Otherwise, a person must show clear and convincing evidence that he or she was a victim of human trafficking.
- Provides a list of criteria for an expunction petition; and
- Provides requirements for judicial proceedings related to expunction of records.

The bill has an effective date of October 1, 2013.

In reference to admissibility of hearsay statements under the hearsay exception provided in s. 90.803(23), F.S., this bill increases the age of child victims from 11 to 16 years old.

This bill substantially amends the following sections of the Florida Statutes: 90.803, 943.0582, 943.0585, 943.059, and 961.06.

This bill creates section 943.0583, Florida Statutes.

II. Present Situation:

Human Trafficking

In 2000, the United States enacted the Trafficking Victims Protection Act (TVPA), and the United Nations adopted the Protocol to Prevent, Suppress, and Punish Trafficking in Persons, Especially Women and Children, also known as the Palermo Protocol.[1]

The Palermo Protocol focused the attention of the global community on combating human trafficking. For the first time, an international instrument called for the criminalization of all acts of trafficking, including forced labor, slavery, and slavery-like practices. The Palermo Protocol also proposed a victim-centered approach to governmental response through prevention, criminal prosecution, and victim protection.[2] These protection efforts seek to provide appropriate services to the survivors, maximizing their opportunity for a comprehensive recovery.[3]

Survivors of human trafficking often face both criminalization and stigmatization long after they escape from their trafficking situations. Despite being victims, individuals who are trafficked are often arrested and convicted of prostitution and related offenses. Trafficked persons are not often recognized or treated as victims by law enforcement agencies and prosecutors, and are therefore pressured into pleading guilty or do not understand the consequences of the charges. Multiple

[2] *Id*.
[3] U.S. Department of State, *Trafficking in Persons Report 2012*, available at http://www.state.gov/documents/organization/192587.pdf.

arrests, incarceration, police violence, deportation, and employment and housing discrimination may result.[4]

In 2010, New York became the first state to enact legislation that allows survivors of trafficking to vacate their convictions for prostitution offenses.[5, 6] While every state has a slightly different criminal procedure into which this type of remedy must fit, the central purpose of the law is to give survivors the ability to live their lives unhindered by a criminal record: "Even after they escape from sex trafficking, the criminal record victimizes them for life. This bill would give victims of human trafficking a desperately needed second chance they deserve."[7]

The Urban Justice Center in New York, instrumental in drafting the law, recommends that a strong state law on vacating convictions should:

- Not be limited to vacating only certain prostitution offenses;
- Not require the survivor to present official documentation certifying them as a victim of trafficking;
- Not require the survivor to prove that he or she has left the sex industry or been "rehabilitated;"
- Offer confidentiality provisions to protect the client's identity;
- Be the most complete remedy possible under the law;
- State that the court must vacate the convictions and dismiss the accusatory instrument if an individual meets the elements;
- Allow the court to take additional appropriate action beyond the mandate of the statute;
- Be retroactive and inclusive of victims with older convictions; and
- Ensure availability of the remedy by funding legal services attorneys.

Penalties for Human Trafficking in Florida Law

The Florida Legislature established penalties for crimes involving human trafficking in 2004.[8] Along with establishing human trafficking as a crime, the Legislature introduced the concept of coercion as a critical element to the crime of human trafficking. Today, s. 787.06(2)(a), F.S., defines coercion as:

- Using or threatening to use physical force against any person;

[8] Chapter 2004-391, L.O.F.

- Restraining, isolating, or confining or threatening to restrain, isolate, or confine any person without lawful authority and against her or his will;
- Using lending or other credit methods to establish a debt by any person when labor or services are pledged as a security for the debt, if the value of the labor or services is not applied toward the liquidation of the debt, or the length and nature of labor or services is not proportional to the debt;
- Destroying, concealing, removing, confiscating, withholding, or possessing any actual or purported passport, visa, or other immigration document, or any other actual or purported government identification document, of any person;
- Causing or threatening to cause financial harm to any person;
- Enticing or luring any person by fraud or deceit; or
- Providing a controlled substance listed in the schedule of controlled substances to any person to exploit them.

Expungement

Section 943.0585, F.S., provides the courts considerable discretion in the expunction of criminal history records, provided that certain requirements are met.

Requirements for Eligibility of Expunction

- The person seeking expunction must apply for and receive a certificate of eligibility.
- Criminal history records of certain violations are ineligible for expunction, which are charges of:
  - Sexual misconduct by staff with a client at a facility serving developmentally disabled persons (s. 393.135, F.S.)
  - Sexual misconduct by a public health employee with a patient (s. 394.4593, F.S.)
  - Luring or enticing a child (s. 787.05, F.S.)
  - Sexual battery (ch. 794, F.S.)
  - Procuring a person under the age of 18 for prostitution (s. 796.03, F.S.)
  - Lewd or lascivious offenses upon or in the presence of persons under 16 (s. 800.04, F.S.); Lewd or lascivious against or in the presence of the elderly or a disabled person (s. 825.1025, F.S.)
  - Voyeurism (s. 810.04, F.S.)
  - Violations of the Florida Communications Fraud Act (s. 817.034, F.S.)
  - Use or viewing of a child in a sexual performance (s. 827.071, F.S.)
  - Offenses by county or municipal officers or employees (ch. 839, F.S.)
  - Showing obscene material to a minor (s. 847.0133, F.S.)
  - Violations of the Computer Pornography and Child Exploitation Prevention Act (s. 847.0135, F.S.)
  - Selling or buying of minors (s. 847.0145, F.S.)
  - Drug trafficking (s. 893.135, F.S.)
  - Sexual misconduct with a client at a civil or forensic facility (s. 916.1075, F.S.)
  - One of the enumerated, dangerous crimes justifying pretrial detention (s. 907.041, F.S.)
  - Sexual offender crimes (s. 775.21, F.S.)[9]

[9] Section 943.0585, F.S.

The court is limited to expunging one criminal record of an arrest or incident, unless additional arrests relate directly to the original arrest.[10]

Petitions for Expunction

Petitions for expunction must include:

- A valid certificate of eligibility for expunction issued by the Florida Department of Law Enforcement (Department).
- A sworn statement from the petitioner attesting that the petitioner has never been adjudicated guilty or delinquent of an offense that would require fingerprinting as a juvenile; has not been adjudicated guilty or delinquent of any of the acts stemming from the arrest or criminal activity to which the petition pertains; has never secured a prior sealing or expunction, unless it is for a record previously sealed for 10 years; and believes him or herself to be eligible for an expunction.[11]

Certificate of Eligibility

The Department must issue a certificate of eligibility if:

- The petitioner submits a written, certified copy of the disposition of the charge at issue and a statement from the prosecutor which provides that no charging document was filed or issued in the case; if a prosecutor filed a charging document, the case was dismissed or the state entered a nolle prosequi, and that none of the charges at issue resulted in a trial;
- The criminal history record does not contain one of the prohibited offenses;
- The petitioner pays the $75 processing fee;
- The petitioner meets the requirements for expunction such as prior sealing and expunction;
- The petitioner is not under court supervision; and
- The petitioner has previously received a 10 year court order sealing the record at issue.[12]

Effect of Criminal History Record Expunction

When the court orders expunction of a record, any criminal justice agency with custody of the record other than the department must destroy the record. The Department is required to retain the record; however, the record remains confidential and exempt from disclosure as a public record.[13]

Upon expunction, the person identified as a perpetrator in an expunged record may lawfully deny or fail to acknowledge the arrests, except when the person:

- Is a candidate for employment with a criminal justice agency;

[10] *Id*.
[11] Section 943.0585(1)(b), F.S.
[12] Section 943.0585(2), F.S.
[13] Section 943.0585(4), F.S.

- Is a criminal defendant;
- Is petitioning for a sealing or expunction of records;
- Is a candidate for admission to The Florida Bar;
- Is seeking employment, licensure, or a contract with the Department of Children and Family Services, the Division of Vocational Rehabilitation, the Agency for Health Care Administration, the Agency for Persons with Disabilities, the Department of Health, the Department of Elder Affairs, the Department of Juvenile Justice, the Department of Education, or a local education entity or government entity that licenses child care facilities.
- Is seeking authorization for employment from a seaport.[14]

Vacation or Motions for Vacatur

The principle behind vacatur is that of a legal action being undone. Vacatur is defined as "the act of annulling or setting aside."[15]

Hearsay Evidence

Chapter 90, F.S., provides the Florida Code on Evidence. Section 90.802, F.S., provides that hearsay evidence is generally inadmissible. Section 90.803, F.S., provides exceptions to inadmissibility, irrespective of whether a declarant is available. One of the exceptions is for out-of-court statements made by a child victimized by child abuse or neglect, including sexual abuse.[16] These statements are admissible as evidence unless the source of information is unreliable, provided that a child victim is of an actual, mental, emotional, or developmental age of 11 years old or younger.[17]

III. Effect of Proposed Changes:

This bill creates s. 943.0583, F.S., to address expunction of criminal records for offenses committed while a person is a victim of human trafficking:

- Defines "human trafficking," "official documentation," and "victim of human trafficking."
- Authorizes, but does not require, the courts to order a criminal justice agency to expunge the criminal history record of a victim of human trafficking who complies with the requirements for expunction.
  - Authorizes a person to petition for the expunction of any conviction for an offense committed while he or she was a victim of human trafficking, unless the offense is for an enumerated crime listed in s. 775.084(1)(b)1., F.S.[18]
  - Provides a standard of proof for the petition as a preponderance of the evidence.

[14] Section 943.0585(4)(a), F.S.
[15] BLACK'S LAW DICTIONARY (9th ed. 2009).
[16] Section 90.803(23)(a), F.S.
[17] *Id*.
[18] Section 775.084(1)(b)1., F.S., lists the crimes of arson, sexual battery, robbery, kidnapping; aggravated child abuse, aggravated abuse of an elderly person or disabled adult, aggravated assault with a deadly weapon, murder, manslaughter, aggravated manslaughter of an elderly person or disabled adult, aggravated manslaughter of a child, unlawful throwing, placing, or discharging of a destructive device or bomb, armed burglary, aggravated battery, and aggravated stalking.

  - Treats a conviction expunged under this section as vacated due to a substantive defect in the underlying criminal proceedings.
- Requires a petitioner to file a petition with due diligence after the victim has ceased to be a victim of human trafficking or has sought services for victims of human trafficking, subject to reasonable concerns for the safety of the victim, family members of the victim, or other victims of human trafficking through bringing the petition.
- Creates a presumption that official documentation of status as a victim of human trafficking shows that participation in the offense was a result of having been a victim of human trafficking.
- Provides that a determination made without official documentation requires clear and convincing evidence.
- Requires petitions for expunction to contain:
  - The petitioner's sworn statement attesting that the petitioner is eligible for expunction to and does not have any other petition to expunge or seal pending before any court.
  - Official documentation of the petitioner's status as a victim of human trafficking, if any exists.

Any person who knowingly provides false information on a sworn statement to the court commits a third degree felony.

- In judicial proceedings relating to expunction:
  - The clerk must serve a copy of the completed petition to expunge to the appropriate state attorney or the statewide prosecutor and the arresting agency. The appropriate state attorney or the statewide prosecutor and the arresting agency may respond to the court;
  - The petitioner or the petitioner's attorney may appear at any hearing under this section telephonically, via video conference, or by other electronic means;
  - If the court grants the expunction, the clerk of the court is required to certify copies of the order to the appropriate prosecutor's office and the arresting agency. The arresting agency is responsible for forwarding the order to any other agency listed in the court order to which the arresting agency disseminated the criminal history record information. The Florida Department of Law Enforcement (Department) must forward the order to expunge to the Federal Bureau of Investigation (FBI). The clerk of the court must certify a copy of the order to any other agency that the records of the court reflect has received the criminal history record from the court.
- When any criminal history record of a minor or an adult is ordered expunged by the court:
  - The record must be physically destroyed by any criminal justice agency with custody of the record, except that the Department must retain the criminal history record;
  - The petitioner of a criminal history record that is expunged may lawfully deny or fail to acknowledge the arrests covered by the expunged record; and
  - A person who has been granted an expunction may not be charged with perjury or the making of a false statement for failure to acknowledge an expunged record.

Key differences provided in this bill for victims of human trafficking, compared to the traditional expunction process currently in law are that this bill:

- Creates a new basis for expunction, which is that the petitioner was a victim of human trafficking at the time of the offense.
- Extends the opportunity to expunge to convictions, rather than just arrests or dismissals.
- Treats an expunction as a vacation due to a substantive defect in the underlying criminal proceedings.
- Provides a different set of offenses for which the petitioner may not seek expunction, although some offenses overlap.
- Does not appear to require the Florida Department of Law Enforcement to issue a certificate of eligibility, and instead only requires the petitioner to file a sworn statement with the court.
- Does not require a person who is granted an expunction to disclose the underlying offense or offenses to anyone, irrespective of future employment involving contact with vulnerable persons, unless they are a candidate for employment with a criminal justice agenda or a defendant in a criminal prosecution case.

This bill increases the age of child victims from 11 to 16 years old, in reference to admissibility of hearsay statements under the hearsay exception provided in s. 90.803(23), F.S.

The bill takes effect July 1, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. Other Constitutional Issues:

In addition to addressing expunctions of convictions for victims of human trafficking, this bill increases the age of child victims from 11 to 16 years old, in reference to admissibility of hearsay statements under the hearsay exception provided in s. 90.803(23), F.S. Article III, Section 6, of the State Constitution provides, in part: "Every law shall embrace but one subject and matter properly connected therewith, and the subject shall be briefly expressed in the title." The title of the bill reads: "An act relating to the victims of human trafficking." The title of the bill does not appear to capture the language addressing the hearsay exception. Additionally, the bill may contain multiple subjects, in violation of the constitutional single-subject requirement.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The Florida Department of Law Enforcement (Department) indicates an expected fiscal impact for programming, relating to dissemination of information, pursuant to this bill. The Department estimates a fiscal impact of $99,275, related to programming costs, as a result of the bill. That amount of nonrecurring general revenue is appropriated in the bill for Fiscal Year 2013-2014 to fund these costs. The Department also indicates a need for additional time to implement the provisions of this bill, and requests an effective date of October 1, 2014.[19]

The Office of State Courts Administrator (OSCA) indicates that an impact is expected. The extent of filings for expunction on the basis of status as a victim of human trafficking is speculative, however. The OSCA acknowledges that while some increase in judicial workload is likely, the OSCA can absorb the workload with existing resources.[20]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS/CS by Appropriations on April 23, 2013:
This committee substitute:

- Appropriates the sum of $99,275 in nonrecurring general revenue to the FDLE to fund programming costs for the 2013-2014 fiscal year.

[19] Florida Dept. of Law Enforcement, *Senate Fiscal Note for CS/SB 1644* (March 22, 2013) (on file with the Senate Committee on Children, Families, and Elder Affairs and the Committee on Judiciary).
[20] Office of the State Courts Administrator, *2013 Judicial Impact Statement for CS/SB 1644* (March 26, 2013) (on file with the Senate Committee on Children, Families, and Elder Affairs and the Committee on Judiciary).

- Except as otherwise provides, adds an effective date of January 1, 2014, except that the FDLE or any other criminal justice agency is not required to comply with an order to expunge a criminal history record as required before March 1, 2014.
- Clarifies that a person may lawfully deny or fail to acknowledge any arrest covered by the expunged records, except when the person is a candidate for employment with a criminal justice agency or a defendant in a criminal prosecution case.

CS/CS by Judiciary Committee on April 8, 2013:
This committee substitute:

- Corrects a technical error.
- Increases the age of a child victim from 11 to 16, under the hearsay exception provided in s. 90.803(23).

CS by Children, Families, and Elder Affairs on March 18, 2013:
The committee substitute amends the term "victim of human trafficking" to remove the provision that minors who are victims of human trafficking are victims based on coercion.

B. Amendments:

None.

made by the act; providing for an appropriation to the Department of Law Enforcement; providing that the department or any other criminal justice agency is not required to comply with certain requirements relating to expunging criminal history records until a specified date; providing effective dates.

By the Committees on Judiciary; and Children, Families, and Elder Affairs; and Senator Flores

590-03880-13 20131644c2

A bill to be entitled

An act relating to victims of human trafficking; amending s. 90.803, F.S.; revising the mental, emotional, or developmental age of a child victim whose out-of-court statement describing specified criminal acts is admissible in evidence in certain instances; creating s. 943.0583, F.S.; providing definitions; providing for the expungement of the criminal history record of a victim of human trafficking; designating what offenses may be expunged; providing exceptions; providing that an expunged conviction is deemed to have been vacated due to a substantive defect in the underlying criminal proceedings; providing for a period in which such expungement must be sought; providing that official documentation of the victim's status as a human trafficking victim creates a presumption; providing a standard of proof absent official documentation; providing requirements for petitions; providing criminal penalties for false statements on such petitions; providing for parties to and service of such petitions; providing for electronic appearances of petitioners and attorneys at hearings; providing for orders of relief; providing for physical destruction of certain records; authorizing a person whose records are expunged to lawfully deny or fail to acknowledge the arrests covered by the expunged record; providing that such lawful denial does not constitute perjury or subject the person to liability;

590-03880-13 20131644c2

providing that cross-references are considered general reference for the purpose of incorporation by reference; amending ss. 943.0582, 943.0585, 943.059, and 961.06, F.S.; conforming provisions to changes made by the act; providing an effective date.

WHEREAS, victims of trafficking may be forced to engage in a variety of illegal acts beyond prostitution, and

WHEREAS, trafficked persons are not always recognized as victims by the police and prosecutors and are thus pressured into pleading guilty or do not understand the consequences of criminal charges, and

WHEREAS, all persons with criminal records reflecting their involvement in the sex industry may face barriers to employment and other life opportunities long after they escape from their trafficking situations, and

WHEREAS, there is a genuine need for a workable solution to alleviate the impact of the collateral consequences of conviction for victims of human trafficking, NOW, THEREFORE,

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (a) of subsection (23) of section 90.803, Florida Statutes, is amended to read:

90.803 Hearsay exceptions; availability of declarant immaterial.—The provision of s. 90.802 to the contrary notwithstanding, the following are not inadmissible as evidence, even though the declarant is available as a witness:

(23) HEARSAY EXCEPTION; STATEMENT OF CHILD VICTIM.—

(a) Unless the source of information or the method or circumstances by which the statement is reported indicates a lack of trustworthiness, an out-of-court statement made by a child victim with a physical, mental, emotional, or developmental age of 16 ~~11~~ or less describing any act of child abuse or neglect, any act of sexual abuse against a child, the offense of child abuse, the offense of aggravated child abuse, or any offense involving an unlawful sexual act, contact, intrusion, or penetration performed in the presence of, with, by, or on the declarant child, not otherwise admissible, is admissible in evidence in any civil or criminal proceeding if:

1. The court finds in a hearing conducted outside the presence of the jury that the time, content, and circumstances of the statement provide sufficient safeguards of reliability. In making its determination, the court may consider the mental and physical age and maturity of the child, the nature and duration of the abuse or offense, the relationship of the child to the offender, the reliability of the assertion, the reliability of the child victim, and any other factor deemed appropriate; and

2. The child either:

a. Testifies; or

b. Is unavailable as a witness, provided that there is other corroborative evidence of the abuse or offense. Unavailability shall include a finding by the court that the child's participation in the trial or proceeding would result in a substantial likelihood of severe emotional or mental harm, in addition to findings pursuant to s. 90.804(1).

Section 2. Section 943.0583, Florida Statutes, is created

to read:

943.0583 Human trafficking victim expunction.—

(1) As used in this section, the term:

(a) "Human trafficking" has the same meaning as provided in s. 787.06.

(b) "Official documentation" means any documentation issued by a federal, state, or local agency tending to show a person's status as a victim of human trafficking.

(c) "Victim of human trafficking" means a person subjected to coercion, as defined in s. 787.06, for the purpose of being used in human trafficking, a child under 18 years of age subjected to human trafficking, or an individual subjected to human trafficking as defined by federal law.

(2) Notwithstanding any other provision of law, the court of original jurisdiction over the crime sought to be expunged may order a criminal justice agency to expunge the criminal history record of a victim of human trafficking who complies with the requirements of this section. This section does not confer any right to the expunction of any criminal history record, and any request for expunction of a criminal history record may be denied at the sole discretion of the court.

(3) A person who is a victim of human trafficking may petition for the expunction of any conviction for an offense committed while he or she was a victim of human trafficking, which offense was committed as a part of the human trafficking scheme of which he or she was a victim or at the direction of an operator of the scheme, including, but not limited to, violations under chapters 796 and 847. However, this section does not apply to any offense listed in s. 775.084(1)(b)1.

Determination of the petition under this section should be by a preponderance of the evidence. A conviction expunged under this section is deemed to have been vacated due to a substantive defect in the underlying criminal proceedings.

(4) A petition under this section must be initiated by the petitioner with due diligence after the victim has ceased to be a victim of human trafficking or has sought services for victims of human trafficking, subject to reasonable concerns for the safety of the victim, family members of the victim, or other victims of human trafficking that may be jeopardized by the bringing of such petition or for other reasons consistent with the purpose of this section.

(5) Official documentation of the victim's status creates a presumption that his or her participation in the offense was a result of having been a victim of human trafficking but is not required for granting a petition under this section. A determination made without such official documentation must be made by a showing of clear and convincing evidence.

(6) Each petition to a court to expunge a criminal history record is complete only when accompanied by:

(a) The petitioner's sworn statement attesting that the petitioner is eligible for such an expunction to the best of his or her knowledge or belief and does not have any other petition to expunge or any petition to seal pending before any court.

(b) Official documentation of the petitioner's status as a victim of human trafficking, if any exists.

Any person who knowingly provides false information on such sworn statement to the court commits a felony of the third

degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(7)(a) In judicial proceedings under this section, a copy of the completed petition to expunge shall be served upon the appropriate state attorney or the statewide prosecutor and upon the arresting agency; however, it is not necessary to make any agency other than the state a party. The appropriate state attorney or the statewide prosecutor and the arresting agency may respond to the court regarding the completed petition to expunge.

(b) The petitioner or the petitioner's attorney may appear at any hearing under this section telephonically, via video conference, or by other electronic means.

(c) If relief is granted by the court, the clerk of the court shall certify copies of the order to the appropriate state attorney or the statewide prosecutor and the arresting agency. The arresting agency is responsible for forwarding the order to any other agency listed in the court order to which the arresting agency disseminated the criminal history record information to which the order pertains. The department shall forward the order to expunge to the Federal Bureau of Investigation. The clerk of the court shall certify a copy of the order to any other agency that the records of the court reflect has received the criminal history record from the court.

(8)(a) Any criminal history record of a minor or an adult that is ordered expunged by the court of original jurisdiction over the crime sought to be expunged pursuant to this section must be physically destroyed or obliterated by any criminal justice agency having custody of such record, except that any

criminal history record in the custody of the department must be retained in all cases.

(b) The person who is the subject of a criminal history record that is expunged under this section may lawfully deny or fail to acknowledge the arrests covered by the expunged record.

(c) A person who has been granted an expunction under this section may not be held under any law of this state to commit perjury or to be otherwise liable for giving a false statement by reason of such person's failure to recite or acknowledge an expunged criminal history record.

(9) Any reference to any other chapter, section, or subdivision of the Florida Statutes in this section constitutes a general reference under the doctrine of incorporation by reference.

Section 3. Subsection (6) of section 943.0582, Florida Statutes, is amended to read:

943.0582 Prearrest, postarrest, or teen court diversion program expunction.—

(6) Expunction or sealing granted under this section does not prevent the minor who receives such relief from petitioning for the expunction or sealing of a later criminal history record as provided for in ss. 943.0583, 943.0585, and 943.059, if the minor is otherwise eligible under those sections.

Section 4. Paragraph (a) of subsection (4) of section 943.0585, Florida Statutes, is amended to read:

943.0585 Court-ordered expunction of criminal history records.—The courts of this state have jurisdiction over their own procedures, including the maintenance, expunction, and correction of judicial records containing criminal history

information to the extent such procedures are not inconsistent with the conditions, responsibilities, and duties established by this section. Any court of competent jurisdiction may order a criminal justice agency to expunge the criminal history record of a minor or an adult who complies with the requirements of this section. The court shall not order a criminal justice agency to expunge a criminal history record until the person seeking to expunge a criminal history record has applied for and received a certificate of eligibility for expunction pursuant to subsection (2). A criminal history record that relates to a violation of s. 393.135, s. 394.4593, s. 787.025, chapter 794, s. 796.03, s. 800.04, s. 810.14, s. 817.034, s. 825.1025, s. 827.071, chapter 839, s. 847.0133, s. 847.0135, s. 847.0145, s. 893.135, s. 916.1075, a violation enumerated in s. 907.041, or any violation specified as a predicate offense for registration as a sexual predator pursuant to s. 775.21, without regard to whether that offense alone is sufficient to require such registration, or for registration as a sexual offender pursuant to s. 943.0435, may not be expunged, without regard to whether adjudication was withheld, if the defendant was found guilty of or pled guilty or nolo contendere to the offense, or if the defendant, as a minor, was found to have committed, or pled guilty or nolo contendere to committing, the offense as a delinquent act. The court may only order expunction of a criminal history record pertaining to one arrest or one incident of alleged criminal activity, except as provided in this section. The court may, at its sole discretion, order the expunction of a criminal history record pertaining to more than one arrest if the additional arrests directly relate to the

original arrest. If the court intends to order the expunction of records pertaining to such additional arrests, such intent must be specified in the order. A criminal justice agency may not expunge any record pertaining to such additional arrests if the order to expunge does not articulate the intention of the court to expunge a record pertaining to more than one arrest. This section does not prevent the court from ordering the expunction of only a portion of a criminal history record pertaining to one arrest or one incident of alleged criminal activity. Notwithstanding any law to the contrary, a criminal justice agency may comply with laws, court orders, and official requests of other jurisdictions relating to expunction, correction, or confidential handling of criminal history records or information derived therefrom. This section does not confer any right to the expunction of any criminal history record, and any request for expunction of a criminal history record may be denied at the sole discretion of the court.

(4) EFFECT OF CRIMINAL HISTORY RECORD EXPUNCTION.—Any criminal history record of a minor or an adult which is ordered expunged by a court of competent jurisdiction pursuant to this section must be physically destroyed or obliterated by any criminal justice agency having custody of such record; except that any criminal history record in the custody of the department must be retained in all cases. A criminal history record ordered expunged that is retained by the department is confidential and exempt from the provisions of s. 119.07(1) and s. 24(a), Art. I of the State Constitution and not available to any person or entity except upon order of a court of competent jurisdiction. A criminal justice agency may retain a notation

indicating compliance with an order to expunge.

(a) The person who is the subject of a criminal history record that is expunged under this section or under other provisions of law, including former s. 893.14, former s. 901.33, and former s. 943.058, may lawfully deny or fail to acknowledge the arrests covered by the expunged record, except when the subject of the record:

1. Is a candidate for employment with a criminal justice agency;

2. Is a defendant in a criminal prosecution;

3. Concurrently or subsequently petitions for relief under this section, s. 943.0583, or s. 943.059;

4. Is a candidate for admission to The Florida Bar;

5. Is seeking to be employed or licensed by or to contract with the Department of Children and Family Services, the Division of Vocational Rehabilitation within the Department of Education, the Agency for Health Care Administration, the Agency for Persons with Disabilities, the Department of Health, the Department of Elderly Affairs, or the Department of Juvenile Justice or to be employed or used by such contractor or licensee in a sensitive position having direct contact with children, the disabled, or the elderly;

6. Is seeking to be employed or licensed by the Department of Education, any district school board, any university laboratory school, any charter school, any private or parochial school, or any local governmental entity that licenses child care facilities; or

7. Is seeking authorization from a seaport listed in s. 311.09 for employment within or access to one or more of such

seaports pursuant to s. 311.12.

Section 5. Paragraph (a) of subsection (4) of section 943.059, Florida Statutes, is amended to read:

943.059 Court-ordered sealing of criminal history records.—The courts of this state shall continue to have jurisdiction over their own procedures, including the maintenance, sealing, and correction of judicial records containing criminal history information to the extent such procedures are not inconsistent with the conditions, responsibilities, and duties established by this section. Any court of competent jurisdiction may order a criminal justice agency to seal the criminal history record of a minor or an adult who complies with the requirements of this section. The court shall not order a criminal justice agency to seal a criminal history record until the person seeking to seal a criminal history record has applied for and received a certificate of eligibility for sealing pursuant to subsection (2). A criminal history record that relates to a violation of s. 393.135, s. 394.4593, s. 787.025, chapter 794, s. 796.03, s. 800.04, s. 810.14, s. 817.034, s. 825.1025, s. 827.071, chapter 839, s. 847.0133, s. 847.0135, s. 847.0145, s. 893.135, s. 916.1075, a violation enumerated in s. 907.041, or any violation specified as a predicate offense for registration as a sexual predator pursuant to s. 775.21, without regard to whether that offense alone is sufficient to require such registration, or for registration as a sexual offender pursuant to s. 943.0435, may not be sealed, without regard to whether adjudication was withheld, if the defendant was found guilty of or pled guilty or nolo contendere to the offense, or if the defendant, as a minor, was found to have committed or pled guilty or nolo contendere to

committing the offense as a delinquent act. The court may only order sealing of a criminal history record pertaining to one arrest or one incident of alleged criminal activity, except as provided in this section. The court may, at its sole discretion, order the sealing of a criminal history record pertaining to more than one arrest if the additional arrests directly relate to the original arrest. If the court intends to order the sealing of records pertaining to such additional arrests, such intent must be specified in the order. A criminal justice agency may not seal any record pertaining to such additional arrests if the order to seal does not articulate the intention of the court to seal records pertaining to more than one arrest. This section does not prevent the court from ordering the sealing of only a portion of a criminal history record pertaining to one arrest or one incident of alleged criminal activity. Notwithstanding any law to the contrary, a criminal justice agency may comply with laws, court orders, and official requests of other jurisdictions relating to sealing, correction, or confidential handling of criminal history records or information derived therefrom. This section does not confer any right to the sealing of any criminal history record, and any request for sealing a criminal history record may be denied at the sole discretion of the court.

(4) EFFECT OF CRIMINAL HISTORY RECORD SEALING.—A criminal history record of a minor or an adult which is ordered sealed by a court of competent jurisdiction pursuant to this section is confidential and exempt from the provisions of s. 119.07(1) and s. 24(a), Art. I of the State Constitution and is available only to the person who is the subject of the record, to the subject's attorney, to criminal justice agencies for their respective

criminal justice purposes, which include conducting a criminal history background check for approval of firearms purchases or transfers as authorized by state or federal law, to judges in the state courts system for the purpose of assisting them in their case-related decisionmaking responsibilities, as set forth in s. 943.053(5), or to those entities set forth in subparagraphs (a)1., 4., 5., 6., and 8. for their respective licensing, access authorization, and employment purposes.

(a) The subject of a criminal history record sealed under this section or under other provisions of law, including former s. 893.14, former s. 901.33, and former s. 943.058, may lawfully deny or fail to acknowledge the arrests covered by the sealed record, except when the subject of the record:

1. Is a candidate for employment with a criminal justice agency;

2. Is a defendant in a criminal prosecution;

3. Concurrently or subsequently petitions for relief under this section, s. 943.0583, or s. 943.0585;

4. Is a candidate for admission to The Florida Bar;

5. Is seeking to be employed or licensed by or to contract with the Department of Children and Family Services, the Division of Vocational Rehabilitation within the Department of Education, the Agency for Health Care Administration, the Agency for Persons with Disabilities, the Department of Health, the Department of Elderly Affairs, or the Department of Juvenile Justice or to be employed or used by such contractor or licensee in a sensitive position having direct contact with children, the disabled, or the elderly;

6. Is seeking to be employed or licensed by the Department

of Education, any district school board, any university laboratory school, any charter school, any private or parochial school, or any local governmental entity that licenses child care facilities;

7. Is attempting to purchase a firearm from a licensed importer, licensed manufacturer, or licensed dealer and is subject to a criminal history check under state or federal law; or

8. Is seeking authorization from a Florida seaport identified in s. 311.09 for employment within or access to one or more of such seaports pursuant to s. 311.12.

Section 6. Paragraph (e) of subsection (1) of section 961.06, Florida Statutes, is amended to read:

961.06 Compensation for wrongful incarceration.—

(1) Except as otherwise provided in this act and subject to the limitations and procedures prescribed in this section, a person who is found to be entitled to compensation under the provisions of this act is entitled to:

(e) Notwithstanding any provision to the contrary in s. 943.0583 or s. 943.0585, immediate administrative expunction of the person’s criminal record resulting from his or her wrongful arrest, wrongful conviction, and wrongful incarceration. The Department of Legal Affairs and the Department of Law Enforcement shall, upon a determination that a claimant is entitled to compensation, immediately take all action necessary to administratively expunge the claimant’s criminal record arising from his or her wrongful arrest, wrongful conviction, and wrongful incarceration. All fees for this process shall be waived.

The total compensation awarded under paragraphs (a), (c), and (d) may not exceed $2 million. No further award for attorney's fees, lobbying fees, costs, or other similar expenses shall be made by the state.

Section 7. This act shall take effect July 1, 2013.

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

PCS/CS/SB 1684 makes changes to environmental regulation and permitting statutes.

The bill has significant fiscal impacts to several trust funds within the Department of Environmental Protection. See Section V.

The bill:

- Provides that the Department of Environmental Protection (DEP) may adopt rules for the electronic submission of forms, documents, fees or reports.
- Provides that when reviewing an application for a development permit, counties and municipalities cannot request additional information from an applicant more than three times, unless the applicant waives the limitation in writing. It also provides that prior to the third request; a permittee should be offered a meeting to resolve outstanding issues. It allows a permittee to request a final decision on the application if he or she believes the request for

additional information is not supported by any legal authority. Lastly, it stipulates that development permits do not include building permits.

- Provides for an expansion of the definition of "phosphate-related expenses".
- Provides that the Board of Trustees of the Internal Improvement Trust Fund (Board of Trustees) is authorized to issue leases or consents of use to special event promoters and boat show owners to allow for the installation of temporary structures. The lease or consent of use must include appropriate lease fees and must be for a period not to exceed 45 days and for a duration not to exceed 10 consecutive years.
- Authorizes the DEP to establish general permits for special events relating to boat shows.
- Defines "first-come, first-served basis" as it relates to marinas, provides requirements for the calculation of lease fees for certain marinas, and provides conditions for the discount and waiver of lease fees for certain marinas, boatyards, and marine retailers.
- Provides for the waiver of lease fees for private residential docks and piers over sovereignty submerged lands.
- Provides general permits for local governments to construct certain mooring fields and places a limit on the size of mooring fields.
- Provides that if two or more consumptive use permit (CUP) applications are complete and in conflict, the DEP or WMD may then approve or modify the application that best serves the public interest.
- Provides that permitted water allocations may not be changed under certain circumstances with respect to seawater desalination plants;
- Provides for electronic mail notification of restrictions or changes to permitted water use in the case of a water shortage or emergency.
- Provides that the issuance of well permits is the sole responsibility of the WMDs, a delegated local government, or local county health department, and prohibits government entities from imposing duplicative requirements and fees associated with the installation and abandonment of groundwater wells.
- Provides that licensure of water well contractors by a WMD must be the only water well construction license required for the construction, repair or abandonment of water wells in the state or any political subdivision.
- Exempts certain ponds, ditches and wetlands from regulatory requirements.
- Exempts certain independent water control districts from further wetlands regulations.
- Increases the funds available to DEP to contract for preapproved advanced cleanup work and increases the preapproval amount for contracting with a single facility.
- Provides that a person can bring a cause of action for damages resulting from a discharge of certain types of pollution if not regulated or authorized pursuant to ch. 403, F.S..
- Defines "beneficiary" as it relates to the entities from which a local government may collect stormwater fees, provides for the collection of stormwater utility fees from beneficiaries, and clarifies that the provisions only apply to fees billed on or after July 1, 2013.
- Provides that the DEP may adopt rules requiring or incentivizing the electronic submission of certain forms, documents, fees or reports.
- Extends the payment deadline for permit fees for major sources of air pollution and directs that fees must be based on actual emissions and not permitted emissions.
- Provides certain requirements for testing procedures used when determining if a proposed discharge will lower the quality of receiving waters below their existing classification.

- Provides that local governments may not compete with recovered materials dealers for 90 days while an application for engaging in business is pending with the locality and provides relief for a violation of that provision.
- Provides for expedited permitting of interstate natural gas pipelines.
- Provides that a permit is not required for the restoration of seawalls at their previous locations or upland of their previous locations, or within 18 inches, instead of 12 inches, waterward of their previous locations; and
- Ratifies certain leases of land by the Board of Trustees in the Everglades Agricultural Area and provides that the leases are in the public interest and are not contrary to the public interest.

This bill substantially amends the following sections of the Florida Statutes: 20.255, 125.022, 166.033, 211.3103, 253.0345, 253.0347, 373.118, 373.233, 373.236, 373.246, 373.308, 373.323, 373.406, 376.30713, 376.313, 403.031, 403.061, 403.0872, 403.088, 403.0893, 403.7046, 403.813, and 403.973.

The bill creates sections 253.0346 and 403.8141, Florida Statutes.

II. Present Situation:

The statutes affected by this bill are diverse. The present situation of each area affected by the bill will be addressed in Section III – Effect of Proposed Changes.

III. Effect of Proposed Changes:

Sections 1 and 18 amend ss. 20.255 and 403.061, F.S., relating to the electronic submission of forms to the DEP.

Present Situation

Section 20.255, F.S., creates the DEP and provides for its organizational structure.
Section 403.061, F.S., authorizes the DEP to control and prohibit pollution of air and water in accordance with the law and rules adopted and promulgated by it.

The DEP currently accepts certain types of permit applications on-line. In addition, Florida's five WMDs have developed a shared permitting portal. This portal is designed to direct the user to the appropriate WMD website for obtaining information regarding permitting programs, applying for permits, and submitting permit compliance information. The WMDs issue several types of permits. The three most common relate to how much water is used (consumptive use permitting), the construction of wells (well construction permitting), and how new development affects water resources (environmental resource permitting).

Effect of Proposed Changes

The bill amends ss. 20.255 and 403.061, F.S., authorizing the DEP to adopt rules requiring or incentivizing electronic submission of any form, document, fee, or report required under ch. 161, F.S., (relating to beach and shore preservation), ch. 253, F.S., (relating to state lands), ch. 373,

F.S., (relating to water resources), ch. 376, F.S., (relating to pollutant discharge prevention and removal), ch. 377, F.S., (relating to energy resources), or ch. 403, F.S., (relating to environmental control).

Sections 2 and 3 amend ss. 125.022 and 163.033, F.S., respectively, relating to development permits.

Present Situation

A development permit is any building permit, zoning permit, subdivision approval, rezoning, certification, special exception, variance, or any other official action of local government having the effect of permitting the development of land.[1] Pursuant to ss. 125.022 and 166.033, F.S., when a county or municipality denies an application for a development permit, the county or municipality must give written notice to the applicant. The notice must include a citation to the applicable portions of ordinance, rule, statute or other legal authority for the denial of the permit.

For any development permit application filed with a county or municipality after July 1, 2012, that county or municipality is prohibited from requiring, as a condition of processing or issuing a development permit, that an applicant obtain a permit or approval from any state or federal agency unless the agency has issued a final agency action that denies the federal or state permit before the county or municipality action on the local development permit. The issuance of a development permit by a county or municipality does not create any rights on the part of the county or municipality for issuance of the permit if the applicant fails to obtain the requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law. A county or municipality can attach such a disclaimer to the issuance of a development permit and can include a permit condition that all other applicable state or federal permits be obtained prior to commencement of the development. This does not prohibit a county or municipality from providing information to an applicant regarding what other state or federal permits may apply.

Effect of Proposed Changes

The bill amends ss. 125.022 and 163.033, F.S., providing that when reviewing an application for a development permit, counties and municipalities cannot request additional information from an applicant more than three times, unless the applicant waives the limitation in writing. Prior to the third request for information, the county (section 2) or the municipality (section 3) is directed to offer a meeting to try to resolve outstanding issues. If the applicant believes the request for additional information is not authorized by ordinance, rule, statute or other legal authority, the county or municipality, at the applicant's request, must proceed with processing the application. These sections do not apply to building permits.

Section 4 amends s. 211.3103, F.S., expanding activities qualifying as "phosphate-related expenses."

[1] Section 163.3164(16), F.S.

Present Situation

Pursuant to s. 211.3103, F.S., an excise tax is levied upon each person engaging in the business of severing phosphate rock from the soils or waters of this state for commercial use. The tax rate is $1.61 per ton severed, except for the time period from January 1, 2015, until December 21, 2022, when it is $1.80 per ton severed.

The proceeds of all taxes, interest and penalties imposed under this section of law are paid into the State Treasury as follows:

- To the credit of the Conservation and Recreation Lands Trust Fund: 25.5 percent.
- To the credit of the General Revenue Fund of the state: 35.7 percent.
- For payment to counties in proportion to the number of tons of phosphate rock produced from a phosphate rock matrix located within such political boundary: 12.8 percent.
- For payment to counties that have been designated as a rural area of critical economic concern in proportion to the number of tons of phosphate rock produced from a phosphate rock matrix located within such political boundary: 10 percent.

Any such proceeds received by a county must be used only for phosphate-related expenses.

Section 211.3103(6)(c), F.S., defines "phosphate-related expenses" as those expenses that provide for infrastructure or services in support of the phosphate industry, reclamation or restoration of phosphate lands, community infrastructure on such reclaimed lands, and similar expenses directly related to support of the industry.

Effect of Proposed Changes

The bill amends s. 211.3103, F.S., to expand the activities that qualify as "phosphate-related expenses" to include environmental education, maintenance and restoration of reclaimed lands and county-owned environmental lands which were formerly phosphate lands, and community infrastructure on county owned environmental lands that were formerly phosphate lands.

Sections 5 and 24 amend s. 253.0345, F.S., and create s. 403.8141, F.S., respectively, relating to special events on sovereignty submerged lands.

Present Situation

The Board of Trustees may authorize the use of sovereignty submerged lands for special events. The Board of Trustees is authorized to issue "consents of use" or leases to riparian landowners and event promoters to allow the installation of temporary structures, including docks, moorings, pilings and access walkways on sovereignty submerged lands solely for the purpose of facilitating boat shows and displays in, or adjacent to, established marinas or government owned upland property. Riparian owners of adjacent uplands who are not seeking a lease or consent of use must be notified by certified mail of any request for such a lease or consent of use prior to approval by the Board of Trustees. The Board of Trustees must balance the interests of any objecting riparian owners with the economic interests of the public and the state as a factor in determining whether a lease or consent of use should be executed over the objection of adjacent

riparian owners. This does not apply to structures for viewing motorboat racing, high-speed motorboat contests or high-speed displays in waters that manatees are known to frequent.[2]

The Board of Trustees' rules contain three classifications for special events:

- Class II Special Events are events of 30 days or less involving the construction of structures that are not revenue-generating and either preempt 1,000 square feet or less of sovereignty submerged lands or preempt no more than 10 square feet of sovereignty submerged land for each linear foot of the applicant's contiguous shoreline along the affected sovereignty submerged land. These activities require a letter of consent from the DEP but no lease.[3]
- Class III Special Events are single events involving the construction of 50 or fewer new slips or a preempted area of 50,000 square feet or less. A lease is required and the term of the lease is limited to 30 days or less.[4]
- Class IV Special Events are events that do not qualify as Class III events or are events authorized to be conducted more than once during the lease term. A lease is required and the term of the lease may be up to five years.[5]

Any special event must be for 30 days or less. The lease or consent of use may also contain appropriate requirements for removal of the temporary structures, including the posting of sufficient surety to guarantee appropriate funds for removal of the structures should both the promoter or riparian owner fail to do so within the time specified in the agreement.[6]

Effect of Proposed Changes

Section 5 of the bill amends s. 253.0345, F.S., to provide that the Board of Trustees is authorized to issue leases or consents of use to special event promoters and boat show owners to allow the installation of temporary structures, including docks, moorings, pilings, and access walkways, on sovereignty submerged lands solely for the purpose of facilitating boat shows and displays in, or adjacent to, established marinas or government-owned upland property. A lease or consent of use for a special event under this section must include an exemption from lease fees and must be for a period of 45 days or less and for a duration of 10 consecutive years or less.

Section 23 of the bill creates s. 403.8141, F.S., directing the DEP to issue permits for special events as defined in s. 253.0345, F.S. The permits must be for a period that runs concurrently with the letter of consent or lease issued and must allow for the movement of temporary structures within the footprint of the lease area.

Sections 6 and 7 create s. 253.0346, F.S., relating to the lease of sovereignty submerged lands for marinas, boatyards and marine retailers and amend s. 253.0347, F.S., relating to regarding the lease of sovereignty submerged lands for private residences, respectively.

[2] *See* s. 253.0345, F.S. *See also* Rule 18-21.0082, F.A.C., for information required on applications for leases or consents of use and for provisions concerning limitations on consents of use and leases, depending on the type of event.
[3] Rule 18-21.005(1)(c)17., F.A.C.
[4] Rule 18-21.005(1)(d)10., F.A.C.
[5] Rule 18-21.005(1)(d)11., F.A.C.
[6] Rule 18-21.0082(2)(c), F.A.C.

Present Situation

The Board of Trustees is responsible for the administration and disposition of the state's sovereignty submerged lands. [7] It has the authority to adopt rules and regulations pertaining to anchoring, mooring or otherwise attaching to the bottom. Waterfront landowners must receive the Board of Trustees' authorization to build docks and related structures on sovereignty submerged lands. The DEP administers all staff functions on the Board of Trustees' behalf.

Florida recognizes riparian rights for landowners with waterfront property bordering navigable waters, which include the rights of ingress, egress, boating, bathing, fishing and others as defined by law.[8] Riparian landowners must obtain the Board of Trustees' authorization for installation and maintenance of docks, piers and boat ramps on sovereignty submerged land.[9] Under the Board of Trustees' rules, "dock" generally means a fixed or floating structure, including moorings and access walkways, used for the purpose of mooring and accessing vessels.[10]

Authorization may be by rule, letter of consent, or lease.[11] All leases authorizing activities on sovereignty submerged lands must include provisions for lease fee adjustments and annual payments.[12]

The Board of Trustees has promulgated detailed rules regulating the design of docks and related structures, including determining whether a lease is required and setting the amount of lease fees.[13] The DEP determines whether a lease is required for a person to build a dock or related structure on sovereignty submerged lands based on a number of factors including:

- Location within or outside of an aquatic preserve;
- Area of sovereignty submerged land preempted;
- Number of wet slips or the number of boats the structure is designed to moor;
- Whether the dock is for a single-family residence or a multi-unit dwelling;
- Whether the dock generates revenue; and
- Whether the dock is for "private residential" or other uses.

A property owner who is required to obtain a lease to build a dock or related structure must follow the lease terms and pay applicable fees. Currently, the standard lease term is five years, and sites under lease must be inspected once every five years. Annual lease fees for standard term leases are calculated through a formula based on annual income, square footage or a minimum annual fee. Extended term leases are available, under limited conditions, for up to 25 years. Annual lease fees for extended term leases are calculated like standard lease fees but with

[7] Section 253.03(8)(b), F.S., defines submerged lands as publicly owned lands below the ordinary high-water mark of fresh waters and below the mean high-water line of salt waters extending seaward to the outer jurisdiction of the state.
[8] *See* s. 253.141(1), F.S.
[9] Rule 18-21.005(1)(d), F.A.C.
[10] *See* Rules 18-20.003(2) and (19), F.A.C.
[11] Rule 18-21.005(1), F.A.C.
[12] Rule 18-21.008(1)(b)(2), F.A.C.
[13] *See* Rules 18-20 and 18-21, F.A.C.

a multiplier for the term in years. Site inspections are conducted at least once every five years by the DEP or a WMD to determine compliance with lease conditions.[14]

When determining whether to approve or deny uses for sovereignty submerged land leases, the Board of Trustees must consider whether such uses pass a public interest test. "Public interest" is defined as:

> [T]he demonstrable environmental, social and economic benefits which would accrue to the public at large as a result of a proposed action, and which would clearly exceed all demonstrable environmental, social and economic costs of the proposed action. In determining the public interest in a request for use, sale, lease, or transfer of interest in sovereignty lands, or severance of materials from sovereignty lands, the Board of Trustees must consider the ultimate project and purpose to be served by said use, sale, lease or transfer of lands or materials.[15]

There are currently three categories of leases identified in Rule 18-21.008, F.A.C.:

- Standard leases are for terms of five years with the exception of leases for marinas where at least 90 percent of the slips are maintained for rent to the public on a first-come, first-served basis, which are for ten years.
- Extended Term leases are those with terms in excess of standard leases and are available for up to 25 years. Such leases are for activities that will have an expected life equal to or greater than the requested lease term. Those leases include:
  - Facilities or activities that provide public access;
  - Facilities constructed, operated, or maintained by government or funded by government secured bonds; and
  - Facilities that have other unique operational characteristics as determined by the Board of Trustees.

Florida Clean Marina Program

The Florida Clean Marina Program is a voluntary designation program. Participants receive assistance in implementing best management practices through on-site and distance technical assistance, mentoring by other Clean Marinas and continuing education. To become designated as a Clean Marina, facilities must implement a set of environmental measures designed to protect Florida's waterways. These measures address critical environmental issues such as sensitive habitat, waste management, stormwater control, spill prevention and emergency preparedness.[16]

The Florida Clean Boatyard Program is a voluntary designation program that encourages boatyards to implement environmentally conscious practices. Measures include using dustless sanders, recycling oil and solvents, and re-circulating pressure wash systems to recycle wastewater.[17]

[14] Rule 18-21.008(1)(b)4., F.A.C.
[15] Rule 18-21.003(51), F.A.C.
[16] DEP, *About Florida Clean Marina Programs*, http://www.dep.state.fl.us/cleanmarina/about.htm (last visited Mar. 29, 2013).
[17] *Id.*

The Florida Clean Marine Retailer Program is a voluntary designation program that encourages marine retailers to educate boaters by providing information to those who purchase vessels on clean boating practices. A Clean Marine Retailer also employs environmental best management practices in its boat and engine service operations and facilities.[18]

As of June 21, 2012, there were 263 designated Clean Marinas, 38 Clean Boatyards and 17 Clean Marine Retailers in Florida.[19]

Effect of Proposed Changes

Section 6 of the bill creates s. 253.0346, F.S., relating to the lease of sovereignty submerged lands for marinas, boatyards and marine retailers. The bill defines "first-come, first-served basis" to mean the facility operates on state-owned submerged land for which:

- There is no club membership, stock ownership, equity interest, or other qualifying requirement; and
- Rental terms do not exceed 12 months and do not include automatic renewal rights or conditions.

For marinas that are open to the public on a first-come, first-served basis and for which at least 90 percent of the slips are open for rent to the public, a 30 percent discount on the annual lease fee must apply if dockage rate sheet publications and dockage advertising clearly state the slips are open for rent to the public on a first-come, first-served basis.

For a facility designated by the DEP as a Clean Marina, Clean Boatyard, or Clean Marine Retailer under the Clean Marina Program, the following requirements apply:

- A 10 percent discount on the annual lease fee must apply if the facility:
  - Actively maintains designation under the program;
  - Complies with the terms of the lease; and
  - Does not change use during the term of the lease.
- Extended term lease surcharges must be waived if the facility:
  - Actively maintains designation under the program;
  - Complies with the terms of the lease;
  - Does not change use during the term of the lease; and
  - Is available to the public on a first-come, first-served basis.

If the facility has unpaid lease fees or fails to comply with this section, the facility is not eligible for the discount or waiver under this section until the debts have been paid and compliance with the program has been met.

This section only applies to new leases or amendments to leases effective after July 1, 2013.

[18] *Id.*
[19] DEP, *Florida Clean Marina Programs*, http://www.dep.state.fl.us/cleanmarina/ (last visited Mar. 29, 2013).

Section 7 of the bill provides that lease fees are not required for:

- Private residential single-family docks designed to moor up to four boats so long as the preempted area is equal to or less than 10 times the distance along the riparian shoreline or the square footage allowed for private residential single-family docks under rules adopted by the Board of Trustees, whichever is greater.
- Private residential multi-family docks designed to moor boats up to the number of units within the development that are equal to or less than 10 times the riparian shoreline along the sovereignty submerged land on the affected waterbody multiplied by the number of units with docks in the development.

Section 8 amends s. 373.118, F.S., relating to general permits for marine facilities built by local governments.

Present Situation

Section 373.118(4), F.S., directs the DEP to adopt one or more general permits for local governments to construct, operate and maintain public marina facilities, public mooring fields, public boat ramps, including associated courtesy docks and parking facilities located in uplands. A facility authorized under these general permits is exempt from review as a development of regional impact if the facility complies with the comprehensive plan of the applicable local government. Such facilities must be consistent with the local government manatee protection plan required pursuant to ch. 379, F.S., must obtain Clean Marina Program Status prior to opening for operation, and must maintain that status for the life of the facility. Marinas and mooring fields authorized under a general permit cannot exceed an area of 50,000 square feet over wetlands and other surface waters.

Effect of Proposed Changes

The bill amends s. 373.118(4), F.S., removing a provision directing the DEP to adopt rules for one or more general permits for local governments to construct, operate and maintain public marina facilities. The bill removes a provision that local government facilities permitted under s. 373.118(4), F.S., must obtain Clean Marina Program status before opening for operation and must maintain that designation for the life of the facility. The bill also removes a provision limiting such facilities to 50,000 square feet over wetlands and other surface waters.

The bill adds a provision limiting mooring fields permitted under s. 373.118(4), F.S., to 100 vessels and it adds a provision authorizing the Board of Trustees to delegate to the DEP the ability to issue leases for mooring fields that meet the requirements of the general permit per s. 373.118(4), F.S.

Section 9 amends s. 373.233, F.S., relating to consumptive use permitting.

Present Situation

A CUP establishes the duration and type of water an entity may use as well as the maximum amount that may be withdrawn. Pursuant to s. 373.219, F.S., each CUP must be consistent with

the objectives of the WMD and not harmful to the water resources of the area. To obtain a CUP, an applicant must establish that the proposed use of water satisfies the statutory test, commonly referred to as the "three-prong test." Specifically, the proposed water use:

- Must be a "reasonable-beneficial use," as defined in s. 373.019, F.S.;
- Must not interfere with any presently existing legal use of water; and
- Must be consistent with the public interest.[20]

Section 373.233, F.S., provides that if two or more complete applications that otherwise comply with the provisions of Part II of ch. 373, F.S., are pending for a quantity of water that is inadequate for both or all applications, or that are in conflict for any other reason, the governing board of the DEP or the WMD has the right to approve or modify the application which best serves the public interest.

The Three Prong Test

"Reasonable-beneficial use," the first prong of the test, is defined as "the use of water in such quantity as is necessary for economic and efficient utilization for a purpose and in a manner which is both reasonable and consistent with the public interest."[21] The Legislature has declared water a public resource. Therefore, wasteful uses of water are not allowed even if there are sufficient resources to meet all other demands.

To that end, the DEP has promulgated the Water Resource Implementation Rule that incorporates interpretive criteria for implementing the reasonable-beneficial use standard based on common law and water management needs.[22] These criteria include consideration of the quantity of water requested; the need, purpose and value of the use; and the suitability of the source. The criteria also consider the extent and amount of harm caused, whether that harm extends to other lands, and the practicality of mitigating that harm by adjusting the quantity or method of use. Particular consideration is given to the use or reuse of lower quality water, and the long-term ability of the source to supply water without sustaining harm to the surrounding environment and natural resources.[23]

The second element of the three-prong test protects the rights of existing legal uses of water for the duration of their permits.[24] New CUPs cannot be issued if they would conflict with an existing legal use. This criterion is only protective of water users that actually withdraw water, not passive users of water resources.[25]

---

[20] Section 373.223(1)(a-c), F.S.
[21] Section 373.019(16), F.S. *See also* Rule 62-410(2), F.A.C., for a list of 18 factors to help determine whether a water use is a reasonable-beneficial use.
[22] *See* Rule 62-40, F.A.C.
[23] *Southwest Florida Water Management District v. Charlotte County*, 774 So. 2d 903, 911 (Fla. 2d DCA 2001) (upholding the WMD's use of criteria for implementing the reasonable-beneficial use standard).
[24] Section 373.223(1)(b), F.S.
[25] *See Harloff v. City of Sarasota*, 575 So. 2d 1324 (Fla. 2d DCA 1991) (holding a municipal wellfield was an existing legal user and should be afforded protection). In contrast, *see West Coast Regional Water Supply Authority v. Southwest Florida Water Management District*, 89 ER F.A.L.R. 166 (Final Order, Aug. 30, 1989) (holding a farmer who passively relied on a higher water table to grow nonirrigated crops and standing surface water bodies to water cattle was not an existing legal user).

The final element of the three-prong test requires water use to be consistent with the "public interest." While the DEP's Water Resource Implementation Rule provides criteria for determining the "public interest," determination of a public interest is made on a case-by-case basis during the permitting process.[26] However, the WMDs and the DEP have broad authority to determine which uses best serve the public interest if there are not sufficient resources to fulfill all applicants' CUPs. In the event that two or more competing applications are deemed to be equally in the public interest, the particular WMD or the DEP gives preference to renewal applications.[27]

Effect of Proposed Changes

The bill amends s. 373.233, F.S., to provide that where there are competing CUP applications and a WMD or the DEP has deemed the applications complete, the governing board of a WMD or the DEP has the right to approve or modify the application which best serves the public interest.

Section 10 amends s. 373.236, F.S., relating to the duration of CUPs.

Present Situation

Section 373.236(1), F.S., provides that CUPs must be granted for a period of 20 years if:

- Requested by the applicant; and
- There is sufficient data to provide reasonable assurance that the conditions for permit issuance will be met for the duration of the permit.

If either of these requirements is not met, a CUP with a shorter duration may be issued to reflect the period for which reasonable assurances can be provided. The WMDs and DEP may determine the duration of permits based upon a reasonable system of classification according to the water source, type of use, or both.

Pursuant to s. 373.326(4), F.S., when necessary to maintain "reasonable assurance" that initial conditions for issuance of a 20-year CUP can continue to be met, a WMD or DEP may require a permittee to produce a compliance report every 10 years. A compliance report must contain sufficient data to maintain reasonable assurance that the initial permit conditions are met. After reviewing a compliance report, the WMD or DEP may modify the permit, including reductions or changes in the initial allocations of water, to ensure that the water use comports with initial conditions for issuance of the permit. Permit modifications made by a WMD or DEP during a compliance review cannot be subject to competing applications for water use if the permittee is not seeking additional water allocations or changes in water sources.

[26] *Supra* note 23.
[27] *See* s. 373.233, F.S.

Effect of Proposed Changes

The bill amends s. 373.236, F.S., to provide that in order to promote the sustainability of natural systems through the diversification of water supplies to include sources that are resistant to drought, a WMD may not reduce an existing permitted allocation of water during the permit term as a result of planned future construction of, or additional water becoming available from, a seawater desalination plant unless the reduction is a condition of a permit or funding agreement with the WMD. Except as otherwise provided, this does not limit the existing authority of DEP or the governing board of a WMD to modify or revoke a CUP.

Section 11 amends s. 373.246, F.S., relating to declarations of water shortages or emergencies.

Present Situation

Section 373.246, F.S., provides direction for the governing board of a WMD or the DEP during a water shortage. The section, among other things, requires the formulation of a plan for periods of water shortage, allows for the imposition of restrictions on water use, provides for notice to those residing in the areas affected by the water shortage, and provides for the rescission of a declaration of a water shortage.

Effect of Proposed Changes

The bill amends s. 373.246, F.S., to allow a WMD governing board or the DEP to notify permittees by electronic mail of any change in the condition of their permits or any suspension of their permits or any other restriction on permittees' use of water for the duration of the water shortage. This is in addition to the existing option of making such notification by regular mail.

Section 12 amends s. 373.308, F.S., relating to well permits issued by water management districts.

Present Situation

Section 373.308, F.S., directs the DEP to authorize the governing board of a WMD to implement a program for the issuance of permits for the location, construction, repair and abandonment of water wells. The DEP may prescribe minimum standards for the location, construction, repair, and abandonment of water wells throughout all or part of the state. Some local governments also have certain ordinances pertaining to water wells, which have resulted in duplicative regulation at the state and local level.

Effect of Proposed Changes

The bill amends s. 373.308, F.S., to provide that upon authorization from the DEP, issuance of well permits is the sole responsibility of the WMDs, a delegated local government, or a local county health department, and that other government entities may not impose additional or duplicate requirements or fees, or establish a separate program for permitting the location, abandonment, boring, or other activities reasonably associated with the installation and abandonment of a groundwater well.

Section 13 amends s. 373.323, F.S., relating to licenses for water well contractors.

Present Situation

Any person that wishes to engage in business as a water well contractor must obtain a license from a WMD. Each person must apply to take the licensure examination and the application must be made to the WMD in which the applicant resides or in which his or her principal place of business is located. An applicant must:

- Be at least 18 years of age;
- Have two years of experience in constructing, repairing, or abandoning water wells; and
- Show certain proof of experience.[28]

Section 373.323(11), F.S., provides that licensed water well contractors may install pumps, tanks, and water conditioning equipment for all water well systems.

Effect of Proposed Changes

The bill amends s. 373.323, F.S., to provide that licensure under this section by a WMD must be the only water well construction license required for the construction, repair, or abandonment of water wells in the state or any political subdivision.

The bill also expands the types of systems that licensed water well contractors may install pumps, tanks, and water conditioning equipment on. The bill changes the systems water well contractors can work on from "water well systems" to "water systems."

Section 14 amends s. 373.406, F.S., relating to surface water management and storage.

Present Situation

Part IV of ch. 373, F.S., provides for the management and storage of surface water. Part IV also establishes the Environmental Resource Permit (ERP) program, which is the primary tool used by the DEP and the WMDs for preserving natural resources and fish and wildlife, minimizing degradation of water resources caused by stormwater discharges, and providing for the management of water and related land resources.

The activities regulated under the ERP program include the construction, alteration, operation, maintenance, abandonment, and removal of stormwater management systems, dams, impoundments, reservoirs, and appurtenant work and works. Individually and collectively these terms are referred to as "surface water management systems."

Certain activities are exempt by statute from the need to obtain an ERP under state law or by agency rule. Section 373.406, F.S., provides for several exemptions from the regulatory requirements in ch. 373, F.S. The DEP's rules also provide for certain exemptions and general

[28] Section 373.323, F.S.

permits for certain activities that cause only minimal individual and cumulative adverse impacts to wetlands and other surface waters. Some examples of exempt activities are:

- Construction, repair, and replacement of private docking facilities below certain size thresholds;
- Maintenance dredging of existing navigational channels and canals;
- Construction and alteration of boat ramps within certain size limits;
- Construction, repair, and replacement of seawalls and riprap in artificial waterways;
- Repair and replacement of structures; and
- Construction of certain agricultural activities.

In addition, the state has issued a number of noticed general permits for activities that are slightly larger than those that qualify for the above exemptions and that otherwise have been determined to have the potential for no more than minimal individual direct and secondary impacts. These include, but are not limited to, the following:

- Construction and modification of boat ramps of certain sizes;
- Installation and repair of riprap at the base of existing seawalls;
- Installation of culverts associated with stormwater discharge facilities; and
- Construction and modification of certain utility and public roadway construction activities.

Anything that does not specifically qualify for an exemption or noticed general permit typically requires an ERP permit.

Effect of Proposed Changes

The bill amends s. 373.406, F.S., to include the following exemptions from regulation under Part IV of ch. 373, F.S.:

- Construction, operation, or maintenance of any wholly owned, manmade ponds or drainage ditches constructed entirely in uplands as long as any alteration or maintenance does not involve any work to connect the pond to, or expand the farm into, other wetlands or surface waters;
- Activities affecting wetlands created solely by the unreasonable and negligent flooding or interference with the natural flow or surface water caused by an adjoining landowner. Requests to qualify for the exemption must be submitted in writing to a WMD or the DEP within seven years after the cause of the unauthorized flooding or diversion occurred. Such activities may not begin before a WMD or DEP confirms in writing that the activity qualifies for the exemption; and
- Any water control district created and operating pursuant to ch. 298, F.S., for which a valid ERP or management and storage of surface waters permit has been issued pursuant to Part IV of ch. 373, F.S., is exempt from further wetlands regulations imposed pursuant to local government regulation under chs. 125, 163, and 166, F.S.

Section 15 amends s. 376.30713, F.S., relating to preapproved advanced cleanup of contaminated sites.

Present Situation

The Preapproved Advanced Cleanup Program is a cost-sharing program designed to provide an opportunity for site rehabilitation, on a limited basis, at contaminated sites in advance of their priority ranking in order to facilitate property transfers or public works projects.[29] Consideration for the program is through an application to the DEP. Applications must contain:

- A commitment to pay no less than 25 percent of total cleanup cost;
- A review fee of $25;
- A limited contamination assessment report; and
- A proposed course of action.[30]

If approved for the program, the applicant enters into a contract with the DEP. If the terms of the preapproved advanced cleanup contract are not fulfilled, the applicant forfeits any right to future payment for any site rehabilitation work conducted under the contract.[31]

The DEP is allowed to enter into contracts with approved entities for a total of $10 million of preapproved advanced cleanup work each fiscal year and no facility may be preapproved for more than $500,000.[32]

Effect of Proposed Changes

The bill raises the total funds available for preapproved advanced cleanup work each fiscal year from $10 million to $15 million, and it raises the amount any one facility may be approved for from $500,000 to $5 million.

Section 16 amends s. 376.313, F.S., relating to the nonexclusiveness of remedies and individual causes of action for damages under ss. 376.30 to 376.317, F.S.

Present Situation

Section 376.313(3), F.S., provides that nothing contained in ss. 376.30-376.317, F.S., (relating to petroleum storage discharges, dry cleaning facilities, and wholesale supply facilities) prohibits any person from bringing a cause of action in court for all damages resulting from a discharge or other condition of pollution covered by the referred to sections.

Effect of Proposed Changes

The bill amends s. 376.313(3), F.S., to provide that a person can bring a cause of action in court for all damages resulting from a discharge or other condition of pollution covered by ss. 376.30-376.317, F.S., that is not regulated or authorized pursuant to ch. 403, F.S. (relating to environmental control policies that conserve state water, protect and improve water quality for

[29] DEP, *Preapproved Advanced Cleanup Program (PAC)*, www.dep.state.fl.us/waste/categories/pcp/pages/pac.htm (last visited Apr. 18, 2013).
[30] Section 376.30713(2)(a), F.S.
[31] Section 376.30713(3)(b), F.S.
[32] Section 373.30713(4), F.S.

consumption, and maintain air quality to protect human health). This serves to limit the causes of action currently available under s. 376.313, F.S.

Sections 17, 21 and 27 amend ss. 403.031 and 403.0893, F.S., and creates an unnumbered section of law, respectively, regarding stormwater utility fees.

Present Situation

Section 403.031, F.S., provides definitions for ch. 403, F.S. Section 403.0893, F.S., provides that a county or municipality may:

- Create one or more stormwater utilities and adopt stormwater utility fees sufficient to plan, construct, operate, and maintain stormwater management systems set out in the local program required pursuant to s. 403.0891(3), F.S.;
- Establish and set aside, as a continuing source of revenue, other funds sufficient to plan, construct, operate, and maintain stormwater management systems set out in the local program required pursuant to s. 403.0891(3), F.S.; or
- Create, alone or in cooperation with counties, municipalities, and special districts pursuant to the Interlocal Cooperation Act, s. 163.01, F.S., one or more stormwater management system benefit areas.

Effect of Proposed Changes

Section 17 of the bill amends s. 403.031, F.S., to provide a definition for the term "beneficiary" to mean "any person, partnership, corporation, business entity, charitable organizations, not-for-profit corporation, state, county, district, authority, or municipal unit of government or any other separate unit of government created or established by law." Those entities listed here are responsible for paying stormwater fees assessed by a local government. This definition will make clear the entities from which a local government can collect stormwater fees.

Section 21 of the bill amends s. 403.0893, F.S. to provide that stormwater utility fees may be charged to the beneficiaries of a stormwater utility, and it provides for the collection of delinquent fees.

Section 27 of the bill creates an unnumbered section of law to provide that the two sections only apply to stormwater utility fees billed on or after July 1, 2013, to a beneficiary of a stormwater utility for services provided on or after that date.

Section 19 amends s. 403.0872, F.S., relating to operation permits for majority sources of air pollution and fee calculations.

Present Situation

The Clean Air Act (CAA) was enacted in 1970 as the comprehensive federal law to regulate air emissions from stationary and mobile sources. The law authorizes the U.S. Environmental

Protection Agency (EPA) to establish National Ambient Air Quality Standards to protect public health and public welfare and to regulate emissions of hazardous air pollutants.[33]

In 1990, Congress amended Title V of the CAA to create the operating permit program. The program streamlines the way federal, state, tribal, and local authorities regulate air pollution by consolidating all air pollution control requirements into a single, comprehensive operating permit that covers all aspects of a source's year-to-year pollution activities.[34] Under Title V, the EPA must establish minimum elements to be included in all state and local operating permit programs and then assist the state and local governments in developing their programs.[35] All major stationary sources (power plants, pulp mills, and other facilities) emitting certain air pollutants are required to obtain operating permits.

Pursuant to s. 403.0872, F.S., and as promulgated in ch. 62-4, F.A.C., the DEP is responsible for air permits regulating major and minor facilities. Section 403.0872(11), F.S., provides that each source of air pollution permitted to operate in Florida must pay between January 15 and March 1 of each year, upon written notice from the DEP, an annual operation license fee in an amount determined by DEP rule. The annual fee is assessed based upon the source's previous year's emissions and is calculated by multiplying the applicable annual operation license fee factor by the tons of each regulated air pollutant (except carbon monoxide) allowed to be emitted per hour by specific condition of the source's most recent construction or operation permit, and multiplying that by the annual hours of operation allowed by permit conditions provided, however, that:

1. The license fee factor is $25 or another amount determined by DEP rule, which ensures that the revenue provided by each year's operation license fees is sufficient to cover all reasonable direct and indirect costs of the major stationary source air-operation permit program established by this section. The license fee factor may be increased beyond $25 only if the Secretary of Environmental Protection affirmatively finds that a shortage of revenue for support of the major stationary source air-operation permit program will occur in the absence of a fee factor adjustment. The annual license fee factor may not exceed $35.
2. For any source that operates for fewer hours during the calendar year than allowed under its permit, the annual fee calculation must be based upon actual hours of operation rather than allowable hours if the owner or operator of the source documents the source's actual hours of operation for the calendar year. For any source that has an emissions limit that is dependent upon the type of fuel burned, the annual fee calculation must be based on the emissions limit applicable during actual hours of operation.
3. For any source whose allowable emission limitation is specified by permit per units of material input or heat input or product output, the applicable input or production amount may be used to calculate the allowable emissions if the owner or operator of the source documents the actual input or production amount. If the input or production amount is not documented, the maximum allowable input or production amount specified in the permit must be used to calculate the allowable emissions.

[33] EPA, *Summary of the Clean Air Act*, http://epa.gov/regulations/laws/caa.html (last visited Mar. 29, 2013).
[34] *See* EPA, *Air Pollution Operating Permit Program Update: Key Features and Benefits*, http://www.epa.gov/oaqps001/permits/permitupdate/index.html (last visited Mar. 29, 2013).
[35] *Id.*

4. For any new source that does not receive its first operation permit until after the beginning of a calendar year, the annual fee for the year must be reduced pro rata to reflect the period during which the source was not operational.
5. For any source that emits less of any regulated air pollutant than allowed by permit condition, the annual fee calculation for such pollutant must be based upon actual emissions rather than allowable emissions if the owner or operator documents the source's actual emissions by means of data from a DEP-approved certified continuous emissions monitor or from an emissions monitoring method which has been approved by the EPA under the regulations implementing 42 U.S.C. ss. 7651 et seq., or from a method approved by the DEP.
6. The amount of each regulated air pollutant in excess of 4,000 tons per year allowed to be emitted by any source, or group of sources belonging to the same Major Group as described in the Standard Industrial Classification Manual, 1987, may not be included in the calculation of the fee. Any source, or group of sources, which does not emit any regulated air pollutant in excess of 4,000 tons per year, is allowed a one-time credit not to exceed 25 percent of the first annual licensing fee for the prorated portion of existing air-operation permit application fees remaining upon commencement of the annual licensing fees.
7. If the DEP has not received the fee by February 15 of the calendar year, the permittee must be sent a written warning of the consequences for failing to pay the fee by March 1. If the fee is not postmarked by March 1 of the calendar year, the DEP shall impose, in addition to the fee, a penalty of 50 percent of the amount of the fee, plus interest on such amount computed in accordance with s. 220.807, F.S. The DEP may not impose such penalty or interest on any amount underpaid, provided that the permittee has timely remitted payment of at least 90 percent of the amount determined to be due and remits full payment within 60 days after receipt of notice of the amount underpaid. The DEP may waive the collection of underpayment and is not required to refund overpayment of the fee, if the amount due is less than 1 percent of the fee, up to $50. The DEP may revoke any major air pollution source operation permit if it finds that the permitholder has failed to timely pay any required annual operation license fee, penalty or interest.
8. Notwithstanding the computational provisions of s. 403.0872(a), F.S., the annual operation license fee for any source subject to this section cannot be less than $250, except that the annual operation license fee for sources permitted solely through general permits issued under s. 403.814, F.S., shall not exceed $50 per year.
9. Notwithstanding the provisions of s. 403.087(6)(a)5.a., F.S., authorizing air pollution construction permit fees, the DEP may not require such fees for changes or additions to a major source of air pollution permitted pursuant to this section, unless the activity triggers permitting requirements under Title I, Part C or Part D, of the CAA, 42 U.S.C. ss. 7470-7514a. Costs to issue and administer such permits are considered direct and indirect costs of the major stationary source air-operation permit program under s. 403.0873, F.S. The DEP must, however, require fees pursuant to the provisions of s. 403.087(6)(a)5.a., F.S., for the construction of a new major source of air pollution that will be subject to the permitting requirements of s. 403.0872, F.S., once constructed and for activities triggering permitting requirements under Title I, Part C or Part D, of the CAA, 42 U.S.C. ss. 7470-7514a.[36]

[36] Section 403.0872(11)(a)1.-9., F.S.

Effect of Proposed Changes

The bill amends s. 403.0872, F.S., to extend the annual payment deadline for air pollution permits from March 1 to April 1. In addition, the bill provides that the annual fee must be assessed based upon the source's previous year's emissions and must be calculated by multiplying the applicable annual operation license fee factor by the tons of each regulated air pollutant actually emitted, as calculated in accordance with DEP's emissions computation and reporting rules. The annual fee only applies to those regulated pollutants, except carbon monoxide and greenhouse gases, for which an allowable numeric emission limiting standard is specified in the source's most recent construction or operation permit. This will result in a decrease in fees charged since it is likely that most permitted entities are not discharging up to their permitted limit.

The bill deletes subparagraphs 2-5 from s. 403.0872(11), F.S.

The bill provides that if the DEP has not received the fee by March 1, instead of February 15, the permittee must be sent a written warning concerning the consequences of failing to pay the fee by April 1. If the fee is not postmarked by April 1, the DEP will impose an additional fee.

Section 20 amends s. 403.088, F.S., relating to conditions for the issuance of water pollution permits.

Present Situation

Section 403.088, F.S., provides guidance for the issuance of pollution discharge permits. Generally, if the DEP finds that a proposed discharge will reduce the quality of receiving waters below the classification established for them, the DEP is directed to deny the application and refuse to issue a permit.

Effect of Proposed Changes

The bill amends s. 403.088, F.S., to provide that when testing to determine whether or not a proposed discharge will reduce the quality of the receiving waters below the classification established for them, the DEP may not use results from a field procedure or laboratory method to make the finding or determine compliance unless the procedure or method has been adopted by rule or noticed and approved by DEP order pursuant to DEP rule. Additionally, field procedures and laboratory methods must satisfy quality assurance requirements of DEP rule and must produce data of known and verifiable quality. Lastly, the results of field procedures and laboratory methods must be evaluated for sources of uncertainty to assure suitability for the intended purposes as properly documented with each procedure or method.

Section 22 amends s. 403.7046, F.S., relating to the regulation of recovered materials.

Present Situation

Section 403.7046, F.S., governs the regulation of recovered materials. It allows the DEP to establish a system whereby recovered materials dealers must be certified by the DEP. At a minimum, the information that needs to be collected from a recovered materials dealer must include:

- The amount and types of recovered materials handled, and
- The amount and disposal site, or the name of the person with whom the disposal was arranged, of any solid waste generated by the recovered materials facility and subsequently disposed of.[37]

It also provides that prior to engaging in business within the jurisdiction of a local government, the dealer must provide the government with the DEP certification and must register with the local government. Local governments are limited to collecting the following information:

- Name, including the owner or operator of the dealer;
- If the dealer is a business entity:
  - Its general or limited partners; and
  - Its corporate officers and directors;
- Its permanent place of business;
- Evidence of its certification from the DEP; and
- A certification that the recovered materials will be processed at a recovered materials processing facility satisfying the requirements of the section.

Local governments may also impose yearly reporting requirements which include:

- Requiring the dealer to identify the types and approximate amount of recovered materials collected, recycled, or reused during the reporting period;
- The approximate percentage of recovered materials reused, stored, or delivered to a recovered materials processing facility or disposed of in a solid waste disposal facility; and
- The locations where any recovered materials were disposed of as solid waste.

There are protections for trade secrets and any information that constitutes a trade secret is to be kept confidential.[38]

Effect of Proposed Changes

The bill amends s. 403.7046, F.S., providing that a local government that receives a registration application from a recovered materials dealer may not use the registration information to compete with the recovered materials dealer until 90 days after the registration information is submitted.

The bill also provides for injunctive relief or damages for recovered materials dealers, or associations whose members include recovered materials dealers, in cases where localities violate the prohibition.

[37] Section 403.7046(1), F.S.
[38] Section 403.7046(3)(b), F.S.

Section 23 amends s. 403.813, F.S., relating to conditions under which certain permits are not required for seawall restoration.

Present Situation

Section 403.813(1), F.S., provides that a permit is not required for the restoration of a seawall at its previous locations or upland of, or within 12 inches waterward of, its previous location.

Effect of Proposed Changes

The bill amends s. 403.813, F.S., to provide that a permit is not required for the restoration of a seawall at its previous location or upland of that location, or within 18 inches, instead of 12 inches, waterward of its previous location.

Section 25 amends s. 403.973, F.S., relating to expedited permitting of natural gas pipelines.

Present Situation

Section 403.973, F.S., provides for expedited permitting and a process for amendments to comprehensive plans for certain projects that are identified to encourage and facilitate the location and expansion of those types of economic development projects that offer job creation and high wages, strengthen and diversify the state's economy, and have been thoughtfully planned to take into consideration the protection of the state's environment.

Under s. 403.973, F.S., the secretary of the DEP must direct the creation of regional permit action teams for the purpose of expediting the review of permit applications and local comprehensive plan amendments submitted by:

- Businesses creating at least 50 jobs or a commercial or industrial development project that will be occupied by businesses that would individually or collectively create at least 50 jobs; or
- Businesses creating at least 25 jobs if the project is located in an enterprise zone, or in a county having a population of fewer than 75,000 or in a county having a population of fewer than 125,000 which is contiguous to a county having a population of fewer than 75,000, as determined by the most recent decennial census, residing in incorporated and unincorporated areas of the county.

Appeals of expedited permitting projects are subject to the summary hearing provisions of s. 120.574, F.S. The administrative law judge's recommended order is not the final state agency action unless the participating agencies of the state opt at the preliminary hearing conference to allow the administrative law judge's decision to constitute the final agency action. Where one state agency action is challenged, the agency of the state shall issue the final order within 45 working days of receipt of the administrative law judge's recommended order. In those proceedings where more than one state agency action is challenged, the governor shall issue the final order within 45 working days of receipt of the administrative law judge's recommended order.

Effect of Proposed Changes

The bill amends s. 403.973, F.S., to authorize expedited permitting for projects to construct interstate natural gas pipelines subject to certification by the Federal Energy Regulatory Commission.

Section 26 creates an unnumbered section of law, relating to land leases.

Current Situation

The Everglades Forever Act (EFA) was enacted in 1994 and is codified at s. 373.4592(5), F.S. It offers farmers impacted by the Everglades Restoration Project (Project) leases on several Board of Trustees parcels in the Everglades Agricultural Area in Palm Beach County. The law states that impacted farmers have the right to lease the parcels, upon expiration of the then existing leases, for a term of 20 years and at a rental rate determined by an appraisal using established state procedures. For those parcels that had previously been competitively bid, the rental rate may not be less than the rate the Board of Trustees received at that time. The Board of Trustees can also adjust the rental rate on an annual basis using an appropriate index, and update the appraisal at five-year intervals. If more than one impacted farmer desires to lease the same parcel of land, the one with the greatest number of acres affected by the Project has priority.[39]

The DEP developed new leases to implement the Act. Four of the leases are scheduled to expire on April 1, 2015 and three are scheduled to expire on January 31, 2016, December 31, 2016, and August 25, 2018, respectively. Five leases are issued to companies owned by affiliates of Florida Crystals Corporation (Florida Crystals) and two are issued to A. Duda and Sons, Inc. (Duda) They are located on non-conservation lands and state school lands.[40]

Situation Regarding the Florida Crystal Leases

The South Florida Water Management District (SFWMD) contacted the DEP to request that the five Florida Crystals leases be amended to extend the lease terms for an additional 30 years, and to delete a provision that allows the Board of Trustees to terminate a lease if the lessee ceases to be an impacted farmer. The extensions are a condition of a land exchange between SFWMD and Florida Crystals to secure additional stormwater treatment area that is critical to SFWMD's efforts under the Act[41]

Situation Regarding the Duda Leases

SFWMD contacted the DEP to request that the two Duda leases be extended for additional 30 year terms. The extensions have been requested as a condition of land acquisition negotiations between the SFWMD and Duda to secure property for water storage that is critical to SFWMD's efforts to protect the Caloosahatchee River and Estuary under the Northern Everglades and Estuary Protection Act (NEEP Act). To address water quality and quantity associated with the

[39] Section 373.4592(5)(c), F.S.
[40] Board of Trustees of the Internal Improvement Trust Fund, *Meeting Agenda, January 23, 2013*, http://www.myflorida.com/myflorida/cabinet/agenda13/0123/BOT012313.pdf (last visited Apr. 18, 2013).
[41] *Id.*

existing flows from Lake Okeechobee to the Caloosahatchee River and Estuary, SWFMD will construct a surface water reservoir on the property acquired from Duda. The primary objectives will be to rehydrate Lake Hicpochee and intercept harmful excess flows to the Caloosahatchee River.[42]

Florida Administrative Code

A 20-year term was originally authorized in the Act for Florida Crystals' five leases. Pursuant to Rule 18-2.018(3)(a)1.b., F.A.C., the standard lease term for agricultural leases is six years. The DEP offered the following to assist the Board of Trustees in affirming that the Florida Crystals' leases are not standard leases:

- The leases are critical to SFWMD's acquisition of the 4,700 acres of private property adjacent to Stormwater Treatment Area 1W. Unless the leases are extended, the SFWMD will have to seek condemnation at great cost to the state. No other fiscally reasonable and technologically practical site exists for acquisition;
- The specific project that will be constructed on the exchanged lands is included in enforceable state and federal water quality consent orders issued by the DEP to the SFWMD and was mandated by the permits issued by the DEP under the federal Clean Water Act to improve the quality of water flowing into the Everglades;
- The five lessees are the farmers most impacted by acquisition of land for Everglades restoration and hydroperiod purposes as identified in the EFA; and
- The EFA recognizes the need to maintain the quality of life for South Florida residents, including those in agricultural-related jobs, which contribute to the regional economy.[43]

For the Duda leases, the DEP offered the following to assist the Board of Trustees in affirming that the leases are not standard leases:

- the lease extensions are critical to the SFWMD's acquisition of the lands needed for water storage and treatment as a component of both the NEEP Act and Caloosahatchee Plan;
- Duda remains one of the farmers most impacted by acquisition of land for Everglades restoration as identified in the EFA; and
- if the leases are not extended, SFWMD will have to seek alternative lands at significant additional costs with uncertain results.[44]

Public Interest

Pursuant to rule 18-2.018(1), F.A.C., the decision to authorize the use of Board of Trustees owned uplands requires a determination that such use is not contrary to the public interest. The public interest determination requires an evaluation of the probable impacts of the proposed activity on the uplands. All direct and indirect impacts related to the proposed activity, as well as the cumulative effects of those impacts, must be considered.

[42] *Id.*
[43] *Id.*
[44] *Id.*

The DEP offered information to the Board of Trustees to aid in making a determination that the leases for Florida Crystals and Duda are in the public interest, and not contrary to the public interest.[45]

Pursuant to rule 18-2.018(2)(i), F.A.C., equitable compensation is required when the use of uplands will limit or preempt use by the general public or will generate income or revenue for a private user. The rule directs the Board of Trustees to award authorization for such uses on the basis of competitive bidding rather than negotiation, unless it is determined by the Board of Trustees to be in the public interest pursuant to the results of an evaluation of the impacts, both direct and indirect, which may occur as a result of the proposed use.

The DEP offered information to assist the Board of Trustees to make the determination that waiving the competitive bid requirements for Florida Crystals and Duda were in the public interest.

There have been at least two objections to the Duda leases from other farmers. One was received from Hundley Farms, Inc., and one from Roth Farms, Inc. Both object to the Duda lease extensions being granted without being competitively bid.[46]

On April 11, 2013, the Florida Wildlife Federation petitioned for a formal administrative hearing challenging whether several of the leases are typical agricultural leases, whether they represent the greatest combination of benefits to the public, whether the lease extensions are necessary for the project proposed by the SFWMD, and other aspects of the leases and the process by which they were awarded.[47]

Effect of Proposed Changes

The bill:

- Creates an unnumbered section of law that ratifies the decisions of the Board of Trustees with respect to the Florida Crystal and Duda leases, numbered 1447, 1971S, 3420, 3433, 3543, 3422 and 1935/1935-S.
- States the legislative finding that the decision to authorize the use of Board of Trustees-owned uplands and the use of those lands as set forth in the leases is not contrary to the public interest, that it is in the public interest to waive the competitive bid process, that the leases are not standard agricultural leases, and that the leases should be amended on the terms and conditions approved by the Board of Trustees.
- States the legislative finding that notwithstanding any other provision of law, the Legislature finds that the lease amendments and extensions approved by the Board or Trustees are necessary for Everglades restoration purposes, are in the public interest, and provide the greatest combination of benefits to the public.
- Will effectively render the administrative hearing request by the Florida Wildlife Foundation moot.

[47] Florida Wildlife Federation, Inc., v. Florida Department of Environmental Protection and Board of Trustees of the Internal Improvement Trust Fund, Amended Petition for Administrative Hearing, OGC Case No.: 13-0065, Apr. 11, 2013.

Section 28 provides an effective date of July 1, 2013

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Section 4 Expanding the use of the phosphate tax for education could benefit the private sector but the benefits cannot be quantified.

Sections 5 and 24 The Special Event promoter would benefit from structuring lease fees around the actual size of the preemption and the flexibility provided for restructuring of temporary structures. The public would not benefit from this reduction because the promoter charges the vendor to participate in the event. Substantial savings are expected but cannot be calculated at this time.

Section 6 There would be a positive impact from the annual reduction or elimination of the annual fee for leases of sovereignty submerged land.

Section 7 The private sector will benefit from reduced lease fees related to docks and piers. The savings cannot be calculated at this time.

Section 9 According to the DEP, if a private sector entity is a CUP applicant, the proposed language may result in increased costs resulting from litigation. The bill envisions a WMD issuing proposed affirmative agency action for two applications, even though there is not adequate water for both. Therefore, it would appear that a private entity seeking a permit would either be forced to challenge a competing permit or be subject to such a challenge.

Section 12 The bill would have a positive effect on water well contractors by eliminating the requirement to obtain a separate local government water well construction permit, including any required fees.

Section 13 The bill would have a positive effect on water well contractors by eliminating the requirement to obtain any local government water well contractor licenses. It also expands the license to apply to all water systems, not just water well systems. The impact of this expansion is unknown and may create additional competition in the water systems business.

Section 14 The bill will ease some of the regulatory requirements for farm ponds, created wetlands, and certain water control districts. This will result in a positive but indeterminate affect on the private sector.

Section 15 There will be increased funds available for contamination cleanup so there could be increased participation in the program. By raising the individual facility limit, it could result in a lower number of facilities being able to take advantage of the program.

Section 16 Currently, if a person or entity is damaged as a result of a discharge or other condition of pollution covered in ss. 376.30 – 376.317, F.S., he or she has a cause of action to sue for damages. This bill limits those causes of action to situations where the offending party's activities are not regulated or authorized pursuant to ch. 403, F.S.

Section 19 According to the DEP, this legislation will save over 400 of Florida's manufacturing and industrial businesses an estimated $2 million per year. Approximately $1.4 million would be saved in Title V permit fees because they would be paying fees based on their "actual emissions" instead of their "adjusted allowable emissions." Synchronizing the Title V fee and annual operating report requirements will save the sources an additional estimated $600,000 by eliminating the need to compute and submit different emission calculations.

Section 22 The bill will provide more certainty for recovered materials dealers when applying for permits to operate with a locality. Ultimately, this will have a positive but indeterminate impact.

Section 25 The bill will have a sizeable impact on entities that wish to build natural gas pipelines in the state. The effect is indeterminate. Giving one party the option to force summary judgment could have a positive but indeterminate impact on judicial awards for parties. For parties suing the entities building natural gas pipelines, summary judgment could result in an indeterminate effect on awards.

C. Government Sector Impact:

Section 1 and 18 Electronic submissions should have an indeterminate reduction in paper costs for the DEP.

Section 4 By expanding the definition of "phosphate related expenses," local governments may have more flexibility in how they spend phosphate related fees, taxes, and penalties.

Sections 5 and 24 The fees for special event fees are calculated based on the number of event days multiplied by the annual rent, or five percent of any revenue generated from the special event, whichever is greater. The loss of revenue would be approximately $187,000 annually, based on data from seven fiscal years. The lease term would exceed the standard term of five years.

Section 7 The DEP will see a reduction in lease fees from certain private docks and piers. The negative effect on revenues is estimated at $1.24 million to the Internal Improvement Trust Fund; however, recurring revenue currently exceeds recurring expenditures by over $2 million and this recurring revenue reduction should not impact the trust fund's ability to meet department's needs. Also, this provision would require enhancement of the department's database at a cost of $13,000.

Section 8 According to the DEP, there would be costs incurred due to the rulemaking requirement, estimated at $50,000 for mooring field expansion. After the general permits are developed, there would be a revenue loss in permit fees in the Permit Fee Trust Fund. The DEP is expected to absorb any minor negative impact to permit fees with existing resources.

Section 10 According to the DEP, local governments may avoid some transactional costs associated with a permit modification.

Section 11 The DEP or a WMD could saving funds on postage if notifications are sent via electronic mail.

Section 13 Local governments would lose any fees currently charged as part of a local government requirement for obtaining a local water well contractor license.

Section 14 The exemptions for farm ponds and wetlands apply to all of Part IV of Chapter 373, F.S. These exemptions would have an insignificant fiscal impact to the department's Permit Fee Trust Fund.

Sections 17, 21, and 27 Allow stormwater utilities to collect fees from specific beneficiaries and delinquent fees as of July 1, 2013.

Section 19

Effect on the DEP

According to the DEP, the bill would enable the agency to synchronize the federally required emissions computation and reporting obligation with the Title V air operation permit fee calculation requirement. This would save the department significant time that goes into reviewing and processing two separate calculations that serve the same underlying purpose - to identify emissions.

Pursuant to s. 403.0873, F.S., all permit fees received under the DEP's federally approved Title V permitting program are deposited in the Air Pollution Control Trust Fund. Those fees must be used for the sole purpose of paying the direct and indirect costs of the DEP's Title V permitting program, which are enumerated under 40 CFR part 70. The DEP estimates that those costs to be $5.3 million in Fiscal Year 2012-2013 and that they will decline to $4.9 million by Fiscal Year 2017-2018. The trust fund reserve balance for the Title V program was $4.1 million in July 2012. With the estimated $1.4 million annual reduction in fee receipts that would occur as a result of the bill, the DEP estimates that the fund balance will increase to $4.9 million by Fiscal Year 2017-2018. This increase is related to several efficiencies that have occurred in the DEP's air program. In the event that unforeseeable circumstances arise and program costs exceed revenues, the DEP can adjust its fee by rule as provided under s. 403.0872, F.S.

Effect on Local Governments

The Title V permit fees in the Air Pollution Control Trust Fund must be used for the sole purpose of paying the direct and indirect costs of the DEP's federally approved Title V permitting program. The DEP may contract with local governments (or any other public or private entity) to perform Title V program services on its behalf. The DEP currently contracts with seven local governments to perform certain Title V program services. The above agency impact projections accommodate the maintenance of the 2012 contracts with these entities, so there are no local government impacts.

Total Revenue Impacts by Fund[48]:

Internal Improvement Trust Fund	($1.4) million (sections 5 and 7)
Air Pollution Trust Fund	($1.4) million (section 19)
Permit Fee Trust Fund	($0.05) million (section 8)
Service Charge to General Revenue	($231,200)

VI. Technical Deficiencies:

None.

VII. Related Issues:

Section 15 Provisions contained in the CS conflict with provisions contained in CS/SB 1416.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on General Government on April 17, 2013:

[48] Senate Subcommittee on General Government, *Senate Bill 1684 Fiscal Summary* (Apr. 18, 2013) (on file with Senate Committee on Environmental Preservation and Conservation).

- For both counties and municipalities, the bill provides clarifying language regarding requests for additional information for pending development permits and stipulates that the limit on requests for additional information does not apply to building permits.
- Clarifies that marinas with slips that are open for rent to the public are able to receive a discount of 30 percent on their annual lease fees.
- Specifies that only seawater desalination plants are protected from having their water allocation reduced.
- Clarifies that it is the DEP or a WMD that has authority to deem an application for a water application complete.
- Allows for electronic mail notification of changes to a water permit during water shortage.
- Includes local county health departments in the list of entities that may have sole responsibility for issuing well permits if authorized by the DEP.
- Clarifies that manmade, excavated farm ponds may not be altered or maintained in a way that connects or expands that farm pond to an existing wetland.
- Exempts certain water control districts from wetland or water quality regulations.
- Provides certain requirements for testing procedures used when determining if a proposed discharge will lower the quality of receiving waters below what it is classified as.
- Clarifies that beneficiaries of stormwater utilities may be charged fees for those services and provides a cause of action for recovering those fees.
- Removes a 90 day processing deadline from the requirement for local governments to process recovered materials dealers registrations with the locality.
- Provides a cause of action for recovered materials dealers alleging a violation of the section regarding recovered materials dealers.
- Removes provisions related to a Department of Agriculture and Consumer Services regional water supply planning program.
- Ratifies certain leases by the Board of Trustees and states the legislative finding that the leases are in the public interest and not contrary to the public interest.

CS by Environmental Preservation and Conservation on April 2, 2013:

- Adds two sections related to the electronic submission of forms to the DEP, authorizing the DEP to adopt rules regarding electronic submission of forms to the DEP;
- Adds one section that expands the types of activities qualifying as "phosphate-related expenses";
- Regarding special events on sovereignty submerged lands, the bill expands the allowable period of a lease under that section of law from 30 days or less to 45 days or less. The bill also provides that the lease or consent of use should include a lease fee (if applicable) based solely on the period and size of the preemption. The lease or consent of use should also include conditions to reconfigure temporary structures within the lease area;
- Rather than amend s. 403.814, F.S., as in the original bill, the bill creates s. 403.8141, F.S. The bill expands the allowable period of leases from 30 to 45 days. The bill also removes provisions from the original bill limiting the number of seagrass studies and

removes a provision requiring an excess of 25 percent of the preempted area from a previous lease to be added to a new lease to accommodate economic expansion;
- Removes a provision stipulating that dock lease fees for standard term leases are 6 percent of the annual gross dockage income;
- Adds a section relating to the lease of sovereignty submerged lands for private residential docks. The bill provides that lease fees are not required for private residential single-family docks or private residential multifamily docks, given certain circumstances;
- Removes an existing provision directing the DEP to adopt by rule one or more general permits for local governments to construct, operate, and maintain public marina facilities in s. 373.118, F.S. The bill also removes existing provisions from s. 373.118, F.S., that limit general permits for marinas and mooring fields authorized under the general permits described in that section of statute to an area of 50,000 feet or less and that require a marina or mooring field permitted under that section of statute to obtain Clean Marina Program status prior to opening for operation and to maintain it for the life of the facility;
- Adds a provision authorizing the Board of Trustees to delegate authority to the DEP to issue leases for mooring fields under the general permit described in s. 373.118, F.S.;
- Adds a section that limits the ability of a WMD to reduce existing permitted allocations of water for drought resistant water supplies, including water desalination plants;
- Adds a provision to the bill stating that the issuance of well permits is the sole responsibility of the WMDs. The bill adds that a local government may have the responsibility for permitting water wells delegated to it;
- Removes a section from the bill defining the term "mean annual flood line";
- Removes a provision from the bill exempting water control districts operating pursuant to ch. 298, F.S., from further wetland or water quality regulations imposed pursuant to chapters 125, 163, and 166, F.S., under certain conditions;
- Adds a section that provides that cooperative water planning efforts include utility companies, private landowners, water consumers and the DACS. It also encourages municipalities, counties and special districts to create multijurisdictional water supply entities;
- Adds a section that includes "self-suppliers" to the list of entities the WMDs must help with meeting water supply needs;
- Adds a provision directing the WMDs, in developing water supply plans, to describe any adjustment or deviation from information provided by the DACS regarding agricultural water demand projections and present the original data along with the adjusted data;
- Makes changes to section 18 of the bill to conform language to CS/SB 948, regarding agricultural water supply planning;
- Removes a section from the bill regarding testing procedures for measuring deviations from water quality standards;
- Adds a section defining the term "beneficiary," as it relates to what entities a local government can collect stormwater fees from; and

- Adds a section that prevents localities from competing with recovered materials dealers when a dealer submits a registration application with the locality and that locality has it under review. It also directs localities to process such applications within 90 days.

Proposed Committee Substitute by the Committee on Appropriations
(Appropriations Subcommittee on General Government)

A bill to be entitled

An act relating to environmental regulation; amending s. 20.255, F.S.; authorizing the Department of Environmental Protection to adopt rules requiring or incentivizing the electronic submission of certain forms, documents, fees, and reports; amending ss. 125.022 and 166.033, F.S.; providing requirements for the review of development permit applications by counties and municipalities; amending s. 211.3103, F.S.; revising the definition of the term "phosphate-related expenses" to include maintenance and restoration of certain lands; amending s. 253.0345, F.S.; revising provisions for the duration of leases and letters of consent issued by the Board of Trustees of the Internal Improvement Trust Fund for special events; providing conditions for fees relating to such leases and letters of consent; creating s. 253.0346, F.S.; defining the term "first-come, first-served basis"; providing conditions for the discount and waiver of lease fees and surcharges for certain marinas, boatyards, and marine retailers; providing applicability; amending s. 253.0347, F.S.; providing exemptions from lease fees for certain lessees; amending s. 373.118, F.S.; deleting provisions requiring the department to adopt general permits for public marina facilities; deleting certain requirements under general permits for public marina

721714

576-04585-13

facilities and mooring fields; limiting the number of vessels for mooring fields authorized under such permits; authorizing the department to issue certain leases; amending s. 373.233, F.S.; clarifying conditions for competing applications for consumptive use of water permits; amending s. 373.236, F.S.; prohibiting water management districts from reducing certain allocations as a result of activities involving a new seawater desalination plant that does not receive funding from a water management district; providing an exception; amending s. 373.246, F.S.; allowing the governing board or the department to notify a permittee by electronic mail of any change in the condition of his or her permit during a declared water shortage or emergency; amending s. 373.308, F.S.; providing that issuance of well permits is the sole responsibility of water management districts, delegated local governments, and local county health departments; prohibiting other local governmental entities from imposing requirements and fees or establishing programs for installation and abandonment of groundwater wells; amending s. 373.323, F.S.; providing that licenses issued by water management districts are the only water well contractor licenses required for location, construction, repair, or abandonment of water wells; authorizing licensed water well contractors to install equipment for all water systems; amending s. 373.406, F.S.; exempting specified ponds and wetlands from surface water

management and storage requirements; requiring that a request for an exemption be made within a certain time period and that activities not begin until such exemption is made; exempting certain water control districts from certain wetlands regulation; amending s. 376.30713, F.S.; increasing maximum costs for preapproved advanced cleanup in a fiscal year; amending s. 376.313, F.S.; holding harmless a person who discharges pollution pursuant to ch. 403, F.S.; amending s. 403.031, F.S.; defining the term "beneficiary"; amending s. 403.061, F.S.; authorizing the department to adopt rules requiring or incentivizing the electronic submission of certain forms, documents, fees, and reports; amending s. 403.0872, F.S.; extending the payment deadline of permit fees for major sources of air pollution and conforming the date for related notice by the department; revising provisions for the calculation of such annual fees; amending s. 403.088, F.S.; revising conditions for water pollution operation permits; requiring the department to meet certain standards in making determinations; amending s. 403.0893, F.S.; authorizing stormwater utility fees to be charged to the beneficiaries of the stormwater utility; amending s. 403.7046, F.S.; providing requirements for the review of recovered materials dealer registration applications; providing that a recovered materials dealer may seek injunctive relief or damages for certain violations; amending s. 403.813, F.S.;

revising conditions under which certain permits are not required for seawall restoration projects; creating s. 403.8141, F.S.; requiring the Department of Environmental Protection to establish permits for special events; providing permit requirements; amending s. 403.973, F.S.; authorizing expedited permitting for natural gas pipelines, subject to specified certification; providing that natural gas pipelines are subject to certain requirements; ratifying and approving certain leases approved by the Board of Trustees of the Internal Improvement Trust Fund; provided findings that the decision to authorize the use of board of trustees-owned uplands and the use of those lands as set forth in certain leases is not contrary to the public interest; providing that changes made by this act to ss. 403.031 and 403.0893, F.S., apply only to stormwater utility fees billed on or after July 1, 2013, to a stormwater utility's beneficiary for services provided on or after that date; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (8) is added to section 20.255, Florida Statutes, to read:

20.255 Department of Environmental Protection.—There is created a Department of Environmental Protection.

(8) The department may adopt rules requiring or incentivizing electronic submission of forms, documents, fees,

or reports required under chapter 161, chapter 253, chapter 373, chapter 376, chapter 377, or chapter 403. The rules must reasonably accommodate technological or financial hardship and must provide procedures for obtaining an exemption due to such hardship.

Section 2. Section 125.022, Florida Statutes, is amended to read:

125.022 Development permits.—

(1) When reviewing an application for a development permit that is certified by a professional listed in s. 403.0877, a county may not request additional information from the applicant more than three times, unless the applicant waives the limitation in writing. Before a third request for additional information, the applicant must be offered a meeting to attempt to resolve outstanding issues. Except as provided in subsection (4), if the applicant believes the request for additional information is not authorized by ordinance, rule, statute, or other legal authority, the county, at the applicant's request, shall proceed to process the application for approval or denial.

(2) When a county denies an application for a development permit, the county shall give written notice to the applicant. The notice must include a citation to the applicable portions of an ordinance, rule, statute, or other legal authority for the denial of the permit.

(3) As used in this section, the term "development permit" has the same meaning as in s. 163.3164 but does not include building permits.

(4) For any development permit application filed with the county after July 1, 2012, a county may not require as a

condition of processing or issuing a development permit that an applicant obtain a permit or approval from any state or federal agency unless the agency has issued a final agency action that denies the federal or state permit before the county action on the local development permit.

(5) Issuance of a development permit by a county does not in any way create any rights on the part of the applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the county for issuance of the permit if the applicant fails to obtain requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law. A county may attach such a disclaimer to the issuance of a development permit and may include a permit condition that all other applicable state or federal permits be obtained before commencement of the development.

(6) This section does not prohibit a county from providing information to an applicant regarding what other state or federal permits may apply.

Section 3. Section 166.033, Florida Statutes, is amended to read:

166.033 Development permits.—

(1) When reviewing an application for a development permit that is certified by a professional listed in s. 403.0877, a municipality may not request additional information from the applicant more than three times, unless the applicant waives the limitation in writing. Before a third request for additional information, the applicant must be offered a meeting to attempt to resolve outstanding issues. Except as provided in subsection

(4), if the applicant believes the request for additional information is not authorized by ordinance, rule, statute, or other legal authority, the municipality, at the applicant's request, shall proceed to process the application for approval or denial.

(2) When a municipality denies an application for a development permit, the municipality shall give written notice to the applicant. The notice must include a citation to the applicable portions of an ordinance, rule, statute, or other legal authority for the denial of the permit.

(3) As used in this section, the term "development permit" has the same meaning as in s. 163.3164 but does not include building permits.

(4) For any development permit application filed with the municipality after July 1, 2012, a municipality may not require as a condition of processing or issuing a development permit that an applicant obtain a permit or approval from any state or federal agency unless the agency has issued a final agency action that denies the federal or state permit before the municipal action on the local development permit.

(5) Issuance of a development permit by a municipality does not in any way create any right on the part of an applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the municipality for issuance of the permit if the applicant fails to obtain requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law. A municipality may attach such a disclaimer to the issuance of development permits and may

include a permit condition that all other applicable state or federal permits be obtained before commencement of the development.

(6) This section does not prohibit a municipality from providing information to an applicant regarding what other state or federal permits may apply.

Section 4. Paragraph (c) of subsection (6) of section 211.3103, Florida Statutes is amended to read:

211.3103 Levy of tax on severance of phosphate rock; rate, basis, and distribution of tax.—

(6)

(c) For purposes of this section, "phosphate-related expenses" means those expenses that provide for infrastructure or services in support of the phosphate industry, including environmental education, reclamation or restoration of phosphate lands, maintenance and restoration of reclaimed lands and county owned environmental lands which were formerly phosphate lands, community infrastructure on such reclaimed lands and county owned environmental lands which were formerly phosphate lands, and similar expenses directly related to support of the industry.

Section 5. Section 253.0345, Florida Statutes, is amended to read:

253.0345 Special events; submerged land leases.—

(1) The trustees may ~~are authorized to~~ issue leases or letters of consent ~~consents of use or leases~~ to riparian landowners, special ~~and~~ event promoters, and boat show owners to allow the installation of temporary structures, including docks, moorings, pilings, and access walkways, on sovereign submerged

lands solely for the purpose of facilitating boat shows and displays in, or adjacent to, established marinas or government-owned ~~government owned~~ upland property. Riparian owners of adjacent uplands who are not seeking a lease or letter of consent ~~of use~~ shall be notified by certified mail of any request for such a lease or letter of consent before ~~of use prior to~~ approval by the trustees. The trustees shall balance the interests of any objecting riparian owners with the economic interests of the public and the state as a factor in determining whether ~~if~~ a lease or letter of consent ~~of use~~ should be executed over the objection of adjacent riparian owners. This section does ~~shall~~ not apply to structures for viewing motorboat racing, high-speed motorboat contests, or high-speed displays in waters where manatees are known to frequent.

(2) A lease or letter of consent for a ~~Any~~ special event under ~~provided for in~~ subsection (1):

(a) Shall be for a period not to exceed 45 ~~30~~ days and a duration not to exceed 10 consecutive years.

(b) Shall include a lease fee, if applicable, based solely on the period and actual size of the preemption and conditions to allow reconfiguration of temporary structures within the lease area with notice to the department of the configuration and size of preemption within the lease area.

(c) The lease or letter of consent ~~of use~~ may ~~also~~ contain appropriate requirements for removal of the temporary structures, including the posting of sufficient surety to guarantee appropriate funds for removal of the structures should the promoter or riparian owner fail to do so within the time specified in the agreement.

(3) ~~Nothing in~~ This section does not ~~shall be construed to~~ allow any lease or letter of consent ~~of use~~ that would result in harm to the natural resources of the area as a result of the structures or the activities of the special events agreed to.

Section 6. Section 253.0346, Florida Statutes, is created to read:

253.0346 Lease of sovereignty submerged lands for marinas, boatyards, and marine retailers.—

(1) For purposes of this section, the term "first-come, first-served basis" means the facility operates on state-owned submerged land for which:

(a) There is not a club membership, stock ownership, equity interest, or other qualifying requirement.

(b) Rental terms do not exceed 12 months and do not include automatic renewal rights or conditions.

(2) For marinas that are open to the public on a first-come, first-served basis and for which at least 90 percent of the slips are open for rent to the public, a discount of 30 percent on the annual lease fee shall apply if dockage rate sheet publications and dockage advertising clearly state that slips are open for rent to the public on a first-come, first-served basis.

(3) For a facility designated by the department as a Clean Marina, Clean Boatyard, or Clean Marine Retailer under the Clean Marina Program:

(a) A discount of 10 percent on the annual lease fee shall apply if the facility:

1. Actively maintains designation under the program.

2. Complies with the terms of the lease.

3. Does not change use during the term of the lease.

(b) Extended-term lease surcharges shall be waived if the facility:

1. Actively maintains designation under the program.

2. Complies with the terms of the lease.

3. Does not change use during the term of the lease.

4. Is available to the public on a first-come, first-served basis.

(c) If the facility is in arrears on lease fees or fails to comply with paragraph (b), the facility is not eligible for the discount or waiver under this subsection until arrears have been paid and compliance with the program has been met.

(4) This section applies to new leases or amendments to leases effective after July 1, 2013.

Section 7. Paragraphs (e) and (f) are added to subsection (2) of section 253.0347, Florida Statutes, to read:

253.0347 Lease of sovereignty submerged lands for private residential docks and piers.—

(2)

(e) A lessee of sovereignty submerged land for a private residential single-family dock designed to moor up to four boats is not required to pay lease fees for a preempted area equal to or less than 10 times the riparian shoreline along sovereignty submerged land on the affected waterbody or the square footage authorized for a private residential single-family dock under rules adopted by the Board of Trustees of the Internal Improvement Trust Fund for the management of sovereignty submerged lands, whichever is greater.

(f) A lessee of sovereignty submerged land for a private

residential multifamily dock designed to moor boats up to the number of units within the multifamily development is not required to pay lease fees for a preempted area equal to or less than 10 times the riparian shoreline along sovereignty submerged land on the affected waterbody times the number of units with docks in the private multifamily development.

Section 8. Subsection (4) of section 373.118, Florida Statutes, is amended to read:

373.118 General permits; delegation.—

(4) The department shall adopt by rule one or more general permits for local governments to construct, operate, and maintain ~~public marina facilities,~~ public mooring fields, public boat ramps, including associated courtesy docks, and associated parking facilities located in uplands. Such general permits adopted by rule shall include provisions to ensure compliance with part IV of this chapter, subsection (1), and the criteria necessary to include the general permits in a state programmatic general permit issued by the United States Army Corps of Engineers under s. 404 of the Clean Water Act, Pub. L. No. 92-500, as amended, 33 U.S.C. ss. 1251 et seq. A facility authorized under such general permits is exempt from review as a development of regional impact if the facility complies with the comprehensive plan of the applicable local government. Such facilities shall be consistent with the local government manatee protection plan required pursuant to chapter 379 ~~and shall obtain Clean Marina Program status prior to opening for operation and maintain that status for the life of the facility~~. ~~Marinas and mooring fields authorized under any such general permit shall not exceed an area of 50,000 square feet over~~

~~wetlands and other surface waters~~. Mooring fields authorized under such general permits may not exceed 100 vessels. All facilities permitted under this section shall be constructed, maintained, and operated in perpetuity for the exclusive use of the general public. The Board of Trustees of the Internal Improvement Trust Fund may delegate to the department authority to issue leases for mooring fields that meet the requirements of permits issued under this subsection. The department shall initiate the rulemaking process within 60 days after the effective date of this act.

Section 9. Subsection (1) of section 373.233, Florida Statutes, is amended to read:

373.233 Competing applications.—

(1) If two or more applications that ~~which~~ otherwise comply with the provisions of this part are pending for a quantity of water that is inadequate for both or all, or that ~~which~~ for any other reason are in conflict, and the water management district or department has deemed the applications complete, the governing board or the department has ~~shall have~~ the right to approve or modify the application that ~~which~~ best serves the public interest.

Section 10. Subsection (4) of section 373.236, Florida Statutes, is amended to read:

373.236 Duration of permits; compliance reports.—

(4) Where necessary to maintain reasonable assurance that the conditions for issuance of a 20-year permit can continue to be met, the governing board or department, in addition to any conditions required pursuant to s. 373.219, may require a compliance report by the permittee every 10 years during the

term of a permit. The Suwannee River Water Management District may require a compliance report by the permittee every 5 years through July 1, 2015, and thereafter every 10 years during the term of the permit. This report shall contain sufficient data to maintain reasonable assurance that the initial conditions for permit issuance are met. Following review of this report, the governing board or the department may modify the permit to ensure that the use meets the conditions for issuance. Permit modifications pursuant to this subsection are ~~shall~~ not ~~be~~ subject to competing applications, provided there is no increase in the permitted allocation or permit duration, and no change in source, except for changes in source requested by the district. In order to promote the sustainability of natural systems through the diversification of water supplies through the development of seawater desalination plants, a water management district shall not reduce an existing permitted allocation of water during the permit term as a result of planned future construction of, or additional water becoming available from, a new seawater desalination plant that does not receive funding from a water management district. Except as expressly provided herein, nothing in this subsection may ~~shall not~~ be construed to alter a district's ~~limit the~~ existing authority ~~of the department or the governing board~~ to modify ~~or revoke~~ a consumptive use permit pursuant to chapter 373.

Section 11. Subsection (6) of section 373.246, Florida Statutes, is amended to read:

373.246 Declaration of water shortage or emergency.—

(6) The governing board or the department shall notify each permittee in the district by electronic mail or regular mail of

any change in the condition of his or her permit or any suspension of his or her permit or of any other restriction on the permittee's use of water for the duration of the water shortage.

Section 12. Subsection (1) of section 373.308, Florida Statutes, is amended to read:

373.308 Implementation of programs for regulating water wells.—

(1) The department shall authorize the governing board of a water management district to implement a program for the issuance of permits for the location, construction, repair, and abandonment of water wells. Upon authorization from the department, issuance of well permits will be the sole responsibility of the water management district, delegated local government, or local county health department. Other local governmental entities may not impose additional or duplicate requirements or fees or establish a separate program for the permitting of the location, abandonment, boring, or other activities reasonably associated with the installation and abandonment of a groundwater well.

Section 13. Subsections (1) and (10) of section 373.323, Florida Statutes, are amended to read:

373.323 Licensure of water well contractors; application, qualifications, and examinations; equipment identification.—

(1) Every person who wishes to engage in business as a water well contractor shall obtain from the water management district a license to conduct such business. Licensure under this part by a water management district shall be the only water well contractor license required for the location, construction,

repair, or abandonment of water wells in the state or any political subdivision thereof.

(10) Water well contractors licensed under this section may install, repair, and modify pumps and tanks in accordance with the Florida Building Code, Plumbing; Section 612—Wells pumps and tanks used for private potable water systems. In addition, licensed water well contractors may install pumps, tanks, and water conditioning equipment for all water ~~well~~ systems.

Section 14. Subsections (13) through (15) are added to section 373.406, Florida Statutes, to read:

373.406 Exemptions.—The following exemptions shall apply:

(13) Nothing in this part, or in any rule, regulation, or order adopted pursuant to this part, applies to the construction, alteration, operation, or maintenance of any wholly owned, manmade, excavated farm ponds, as defined in s. 403.927, constructed entirely in uplands. Alteration or maintenance may not involve any work to connect the farm pond to, or expand the farm pond into, other wetlands or other surface waters.

(14) Nothing in this part, or in any rule, regulation, or order adopted pursuant to this part, may require a permit for activities affecting wetlands created solely by the unauthorized flooding or interference with the natural flow of surface water caused by an unaffiliated adjoining landowner. Requests to qualify for this exemption must be made within 7 years after the cause of such unauthorized flooding or unauthorized interference with the natural flow of surface water and must be submitted in writing to the district or department. Such activities may not begin without a written determination from the district or

department confirming that the activity qualifies for the exemption. This exemption does not expand the jurisdiction of the department or water management districts and does not apply to activities that discharge dredged or fill material into waters of the United States, including wetlands, subject to federal jurisdiction under section 404 of the Clean Water Act, 33 U.S.C. s. 1344.

(15) Any independent water control district created and operating pursuant to chapter 298 for which a valid environmental resource permit or management and storage of surface waters permit has been issued pursuant to this part is exempt from further wetlands regulations imposed pursuant to chapters 125, 163, and 166.

Section 15. Subsection (4) of section 376.30713, Florida Statutes, is amended to read:

376.30713 Preapproved advanced cleanup.—

(4) The department is authorized to enter into contracts ~~contract~~ for a total of up to $15 ~~$10~~ million of preapproved advanced cleanup work in each fiscal year. However, no facility shall be preapproved for more than $5 million ~~$500,000~~ of cleanup activity in each fiscal year. For the purposes of this section the term "facility" shall include, but not be limited to, multiple site facilities such as airports, port facilities, and terminal facilities even though such enterprises may be treated as separate facilities for other purposes under this chapter.

Section 16. Subsection (3) of section 376.313, Florida Statutes, is amended to read:

376.313 Nonexclusiveness of remedies and individual cause

of action for damages under ss. 376.30-376.317.—

(3) Except as provided in s. 376.3078(3) and (11), nothing contained in ss. 376.30-376.317 prohibits any person from bringing a cause of action in a court of competent jurisdiction for all damages resulting from a discharge or other condition of pollution covered by ss. 376.30-376.317 which was not authorized pursuant to chapter 403. Nothing in this chapter shall prohibit or diminish a party's right to contribution from other parties jointly or severally liable for a prohibited discharge of pollutants or hazardous substances or other pollution conditions. Except as otherwise provided in subsection (4) or subsection (5), in any such suit, it is not necessary for such person to plead or prove negligence in any form or manner. Such person need only plead and prove the fact of the prohibited discharge or other pollutive condition and that it has occurred. The only defenses to such cause of action shall be those specified in s. 376.308.

Section 17. Subsection (22) is added to section 403.031, Florida Statutes, to read:

403.031 Definitions.—In construing this chapter, or rules and regulations adopted pursuant hereto, the following words, phrases, or terms, unless the context otherwise indicates, have the following meanings:

(22) "Beneficiary" means any person, partnership, corporation, business entity, charitable organization, not-for-profit corporation, state, county, district, authority, or municipal unit of government or any other separate unit of government created or established by law.

Section 18. Subsection (43) is added to section 403.061,

Florida Statutes, to read:

403.061 Department; powers and duties.—The department shall have the power and the duty to control and prohibit pollution of air and water in accordance with the law and rules adopted and promulgated by it and, for this purpose, to:

(43) Adopt rules requiring or incentivizing the electronic submission of forms, documents, fees, or reports required under chapter 161, chapter 253, chapter 373, chapter 376, chapter 377, or this chapter. The rules must reasonably accommodate technological or financial hardship and provide procedures for obtaining an exemption due to such hardship.

The department shall implement such programs in conjunction with its other powers and duties and shall place special emphasis on reducing and eliminating contamination that presents a threat to humans, animals or plants, or to the environment.

Section 19. Paragraph (a) of subsection (11) of section 403.0872, Florida Statutes, is amended to read:

403.0872 Operation permits for major sources of air pollution; annual operation license fee.—Provided that program approval pursuant to 42 U.S.C. s. 7661a has been received from the United States Environmental Protection Agency, beginning January 2, 1995, each major source of air pollution, including electrical power plants certified under s. 403.511, must obtain from the department an operation permit for a major source of air pollution under this section. This operation permit is the only department operation permit for a major source of air pollution required for such source; provided, at the applicant's request, the department shall issue a separate acid rain permit

for a major source of air pollution that is an affected source within the meaning of 42 U.S.C. s. 7651a(1). Operation permits for major sources of air pollution, except general permits issued pursuant to s. 403.814, must be issued in accordance with the procedures contained in this section and in accordance with chapter 120; however, to the extent that chapter 120 is inconsistent with the provisions of this section, the procedures contained in this section prevail.

(11) Each major source of air pollution permitted to operate in this state must pay between January 15 and April ~~March~~ 1 of each year, upon written notice from the department, an annual operation license fee in an amount determined by department rule. The annual operation license fee shall be terminated immediately in the event the United States Environmental Protection Agency imposes annual fees solely to implement and administer the major source air-operation permit program in Florida under 40 C.F.R. s. 70.10(d).

(a) The annual fee must be assessed based upon the source's previous year's emissions and must be calculated by multiplying the applicable annual operation license fee factor times the tons of each regulated air pollutant actually emitted, as calculated in accordance with the department's emissions computation and reporting rules. The annual fee shall apply only to those regulated pollutants, except carbon monoxide and greenhouse gases, for which an allowable numeric emission limiting standard is specified in ~~(except carbon monoxide) allowed to be emitted per hour by specific condition of~~ the source's most recent construction or operation permit~~, times the annual hours of operation allowed by permit condition~~; provided,

however, that:

1. The license fee factor is $25 or another amount determined by department rule which ensures that the revenue provided by each year's operation license fees is sufficient to cover all reasonable direct and indirect costs of the major stationary source air-operation permit program established by this section. The license fee factor may be increased beyond $25 only if the secretary of the department affirmatively finds that a shortage of revenue for support of the major stationary source air-operation permit program will occur in the absence of a fee factor adjustment. The annual license fee factor may never exceed $35.

~~2. For any source that operates for fewer hours during the calendar year than allowed under its permit, the annual fee calculation must be based upon actual hours of operation rather than allowable hours if the owner or operator of the source documents the source's actual hours of operation for the calendar year. For any source that has an emissions limit that is dependent upon the type of fuel burned, the annual fee calculation must be based on the emissions limit applicable during actual hours of operation.~~

~~3. For any source whose allowable emission limitation is specified by permit per units of material input or heat input or product output, the applicable input or production amount may be used to calculate the allowable emissions if the owner or operator of the source documents the actual input or production amount. If the input or production amount is not documented, the maximum allowable input or production amount specified in the permit must be used to calculate the allowable emissions.~~

~~4. For any new source that does not receive its first operation permit until after the beginning of a calendar year, the annual fee for the year must be reduced pro rata to reflect the period during which the source was not allowed to operate.~~

~~5. For any source that emits less of any regulated air pollutant than allowed by permit condition, the annual fee calculation for such pollutant must be based upon actual emissions rather than allowable emissions if the owner or operator documents the source's actual emissions by means of data from a department-approved certified continuous emissions monitor or from an emissions monitoring method which has been approved by the United States Environmental Protection Agency under the regulations implementing 42 U.S.C. ss. 7651 et seq., or from a method approved by the department for purposes of this section.~~

2.~~6.~~ The amount of each regulated air pollutant in excess of 4,000 tons per year ~~allowed to be~~ emitted by any source, or group of sources belonging to the same Major Group as described in the Standard Industrial Classification Manual, 1987, may not be included in the calculation of the fee. Any source, or group of sources, which does not emit any regulated air pollutant in excess of 4,000 tons per year, is allowed a one-time credit not to exceed 25 percent of the first annual licensing fee for the prorated portion of existing air-operation permit application fees remaining upon commencement of the annual licensing fees.

3.~~7.~~ If the department has not received the fee by March 1 ~~February 15~~ of the calendar year, the permittee must be sent a written warning of the consequences for failing to pay the fee by April ~~March~~ 1. If the fee is not postmarked by April ~~March~~ 1

of the calendar year, the department shall impose, in addition to the fee, a penalty of 50 percent of the amount of the fee, plus interest on such amount computed in accordance with s. 220.807. The department may not impose such penalty or interest on any amount underpaid, provided that the permittee has timely remitted payment of at least 90 percent of the amount determined to be due and remits full payment within 60 days after receipt of notice of the amount underpaid. The department may waive the collection of underpayment and shall not be required to refund overpayment of the fee, if the amount due is less than 1 percent of the fee, up to $50. The department may revoke any major air pollution source operation permit if it finds that the permitholder has failed to timely pay any required annual operation license fee, penalty, or interest.

4.~~8.~~ Notwithstanding the computational provisions of this subsection, the annual operation license fee for any source subject to this section shall not be less than $250, except that the annual operation license fee for sources permitted solely through general permits issued under s. 403.814 shall not exceed $50 per year.

5.~~9.~~ Notwithstanding the provisions of s. 403.087(6)(a)5.a., authorizing air pollution construction permit fees, the department may not require such fees for changes or additions to a major source of air pollution permitted pursuant to this section, unless the activity triggers permitting requirements under Title I, Part C or Part D, of the federal Clean Air Act, 42 U.S.C. ss. 7470-7514a. Costs to issue and administer such permits shall be considered direct and indirect costs of the major stationary source air-operation permit

program under s. 403.0873. The department shall, however, require fees pursuant to the provisions of s. 403.087(6)(a)5.a. for the construction of a new major source of air pollution that will be subject to the permitting requirements of this section once constructed and for activities triggering permitting requirements under Title I, Part C or Part D, of the federal Clean Air Act, 42 U.S.C. ss. 7470-7514a.

Section 20. Paragraph (b) of subsection (2) of section 403.088, Florida Statutes, is amended to read:

403.088 Water pollution operation permits; conditions.—

(2)

(b)1. If the department finds that the proposed discharge will reduce the quality of the receiving waters below the classification established for them, it shall deny the application and refuse to issue a permit. The department may not use the results from a field procedure or laboratory method to make such a finding or to determine facility compliance unless the field procedure or laboratory method has been adopted by rule or noticed and approved by department order pursuant to department rule. Field procedures and laboratory methods must satisfy the quality assurance requirements of department rule and must produce data of known and verifiable quality. The results of field procedures and laboratory methods shall be evaluated for sources of uncertainty to assure suitability for the intended purposes as properly documented with each procedure or method.

2. If the department finds that the proposed discharge will not reduce the quality of the receiving waters below the classification established for them, it may issue an operation

permit if it finds that such degradation is necessary or desirable under federal standards and under circumstances which are clearly in the public interest.

Section 21. Section 403.0893, Florida Statutes, is amended to read:

403.0893 Stormwater funding; dedicated funds for stormwater management.—In addition to any other funding mechanism legally available to local government to construct, operate, or maintain stormwater systems, a county or municipality may:

(1) Create one or more stormwater utilities and adopt stormwater utility fees sufficient to plan, construct, operate, and maintain stormwater management systems set out in the local program required pursuant to s. 403.0891(3). Stormwater utility fees adopted pursuant to this subsection may be charged to the beneficiaries of a stormwater utility. If stormwater utility fees charged to a beneficiary of a stormwater utility are not paid when due, the county or municipality may file suit in a court of competent jurisdiction or utilize any lawful method to collect delinquent fees;

(2) Establish and set aside, as a continuing source of revenue, other funds sufficient to plan, construct, operate, and maintain stormwater management systems set out in the local program required pursuant to s. 403.0891(3); or

(3) Create, alone or in cooperation with counties, municipalities, and special districts pursuant to the Interlocal Cooperation Act, s. 163.01, one or more stormwater management system benefit areas. All property owners within said area may be assessed a per acreage fee to fund the planning, construction, operation, maintenance, and administration of a

public stormwater management system for the benefited area. Any benefit area containing different land uses which receive substantially different levels of stormwater benefits shall include stormwater management system benefit subareas which shall be assessed different per acreage fees from subarea to subarea based upon a reasonable relationship to benefits received. The fees shall be calculated to generate sufficient funds to plan, construct, operate, and maintain stormwater management systems called for in the local program required pursuant to s. 403.0891(3). For fees assessed pursuant to this section, counties or municipalities may use the non-ad valorem levy, collection, and enforcement method as provided for in chapter 197.

Section 22. Paragraph (b) of subsection (3) of section 403.7046, Florida Statutes, is amended, and subsection (4) is added to that section, to read:

403.7046 Regulation of recovered materials.—

(3) Except as otherwise provided in this section or pursuant to a special act in effect on or before January 1, 1993, a local government may not require a commercial establishment that generates source-separated recovered materials to sell or otherwise convey its recovered materials to the local government or to a facility designated by the local government, nor may the local government restrict such a generator’s right to sell or otherwise convey such recovered materials to any properly certified recovered materials dealer who has satisfied the requirements of this section. A local government may not enact any ordinance that prevents such a dealer from entering into a contract with a commercial

establishment to purchase, collect, transport, process, or receive source-separated recovered materials.

(b) Before ~~Prior to~~ engaging in business within the jurisdiction of the local government, a recovered materials dealer must provide the local government with a copy of the certification provided for in this section. In addition, the local government may establish a registration process whereby a recovered materials dealer must register with the local government before ~~prior to~~ engaging in business within the jurisdiction of the local government. Such registration process is limited to requiring the dealer to register its name, including the owner or operator of the dealer, and, if the dealer is a business entity, its general or limited partners, its corporate officers and directors, its permanent place of business, evidence of its certification under this section, and a certification that the recovered materials will be processed at a recovered materials processing facility satisfying the requirements of this section. A local government may not use the registration information to compete with the recovered materials dealer until 90 days after the registration information is submitted. All counties, and municipalities whose population exceeds 35,000 according to the population estimates determined pursuant to s. 186.901, may establish a reporting process which shall be limited to the regulations, reporting format, and reporting frequency established by the department pursuant to this section, which shall, at a minimum, include requiring the dealer to identify the types and approximate amount of recovered materials collected, recycled, or reused during the reporting period; the approximate percentage of recovered materials

reused, stored, or delivered to a recovered materials processing facility or disposed of in a solid waste disposal facility; and the locations where any recovered materials were disposed of as solid waste. Information reported under this subsection which, if disclosed, would reveal a trade secret, as defined in s. 812.081(1)(c), is confidential and exempt from the provisions of s. 24(a), Art. I of the State Constitution and s. 119.07(1). The local government may charge the dealer a registration fee commensurate with and no greater than the cost incurred by the local government in operating its registration program. Registration program costs are limited to those costs associated with the activities described in this paragraph. Any reporting or registration process established by a local government with regard to recovered materials shall be governed by the provisions of this section and department rules adopted ~~promulgated~~ pursuant thereto.

(4) A recovered materials dealer, or an association whose members include recovered materials dealers, may initiate an action for injunctive relief or damages for alleged violations of this section. The court may award to the prevailing party or parties reasonable attorney fees and costs.

Section 23. Paragraph (e) of subsection (1) of section 403.813, Florida Statutes, is amended to read:

403.813 Permits issued at district centers; exceptions.—

(1) A permit is not required under this chapter, chapter 373, chapter 61-691, Laws of Florida, or chapter 25214 or chapter 25270, 1949, Laws of Florida, for activities associated with the following types of projects; however, except as otherwise provided in this subsection, nothing in this

subsection relieves an applicant from any requirement to obtain permission to use or occupy lands owned by the Board of Trustees of the Internal Improvement Trust Fund or any water management district in its governmental or proprietary capacity or from complying with applicable local pollution control programs authorized under this chapter or other requirements of county and municipal governments:

(e) The restoration of seawalls at their previous locations or upland of, or within 18 inches ~~1 foot~~ waterward of, their previous locations. However, this shall not affect the permitting requirements of chapter 161, and department rules shall clearly indicate that this exception does not constitute an exception from the permitting requirements of chapter 161.

Section 24. Section 403.8141, Florida Statutes, is created to read:

403.8141 Special event permits.—The department shall issue permits for special events under s. 253.0345. The permits must be for a period that runs concurrently with the lease or letter of consent issued pursuant to s. 253.0345 and must allow for the movement of temporary structures within the footprint of the lease area.

Section 25. Paragraph (b) of subsection (14) and paragraph (b) of subsection (19) of section 403.973, Florida Statutes, are amended, and paragraph (g) is added to subsection (3) of that section, to read:

403.973 Expedited permitting; amendments to comprehensive plans.—

(3)

(g) Projects to construct interstate natural gas pipelines

subject to certification by the Federal Energy Regulatory Commission are eligible for the expedited permitting process.

(14)

(b) Projects identified in paragraph (3)(f) or paragraph (3)(g) or challenges to state agency action in the expedited permitting process for establishment of a state-of-the-art biomedical research institution and campus in this state by the grantee under s. 288.955 are subject to the same requirements as challenges brought under paragraph (a), except that, notwithstanding s. 120.574, summary proceedings must be conducted within 30 days after a party files the motion for summary hearing, regardless of whether the parties agree to the summary proceeding.

(19) The following projects are ineligible for review under this part:

(b) A project, the primary purpose of which is to:

1. Effect the final disposal of solid waste, biomedical waste, or hazardous waste in this state.

2. Produce electrical power, unless the production of electricity is incidental and not the primary function of the project or the electrical power is derived from a fuel source for renewable energy as defined in s. 366.91(2)(d).

3. Extract natural resources.

4. Produce oil.

5. Construct, maintain, or operate an oil, petroleum, ~~natural gas,~~ or sewage pipeline.

Section 26. (1) The Legislature ratifies and approves the actions of the Board of Trustees of the Internal Improvement Trust Fund regarding lease numbers 1447, 1971S, 3420, 3433, and

3543, and lease numbers 3422 and 1935/1935-S as approved on January 23, 2013, subject to the terms and conditions established by the board of trustees as approved on January 23, 2013.

(2) The Legislature finds that the decision to authorize the use of board of trustees-owned uplands and the use of those lands as set forth in the leases is not contrary to the public interest; that it is in the public interest to waive the competitive bid process; that the leases are not standard agricultural leases; and that such leases should be amended on the terms and conditions as approved by the board of trustees.

(3) Notwithstanding any other provision of law, the Legislature finds that the lease amendments and extensions approved by the board of trustees are necessary for Everglades restoration purposes, are in the public interest, and provide the greatest combination of benefits to the public.

Section 27. The changes made by this act to ss. 403.031 and 403.0893 apply only to stormwater utility fees billed on or after July 1, 2013, to a beneficiary of a stormwater utility for services provided on or after that date.

Section 28. This act shall take effect July 1, 2013.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 1684
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on General Government); Environmental Preservation and Conservation Committee; and Senator Altman
SUBJECT:	Environmental Regulation
DATE:	April 25, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Hinton	Uchino	EP	**Fav/CS**
2.	Weidenbenner	Halley	AG	**Favorable**
3.	Howard	DeLoach	AGG	**Fav/CS**
4.	Howard	Hansen	AP	**Fav/CS**
5.				
6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/CS/SB 1684 makes changes to environmental regulation and permitting statutes.

The bill has a fiscal impact to several trust funds within the Department of Environmental Protection. See Section V.

The bill:

- Provides that the Department of Environmental Protection (DEP) may adopt rules for the electronic submission of forms, documents, fees or reports.
- Provides that when reviewing an application for a development permit, counties and municipalities cannot request additional information from an applicant more than three times, unless the applicant waives the limitation in writing. It also provides that prior to the third request; a permittee should be offered a meeting to resolve outstanding issues. It allows a permittee to request a final decision on the application if he or she believes the request for

additional information is not supported by any legal authority. Lastly, it stipulates that development permits do not include building permits.

- Provides for an expansion of the definition of "phosphate-related expenses".
- Provides that the Board of Trustees of the Internal Improvement Trust Fund (Board of Trustees) is authorized to issue leases or consents of use to special event promoters and boat show owners to allow for the installation of temporary structures. The lease or consent of use must include appropriate lease fees and must be for a period not to exceed 45 days and for a duration not to exceed 10 consecutive years.
- Authorizes the DEP to establish general permits for special events relating to boat shows.
- Defines "first-come, first-served basis" as it relates to marinas, provides requirements for the calculation of lease fees for certain marinas, and provides conditions for the discount and waiver of lease fees for certain marinas, boatyards, and marine retailers.
- Provides for the waiver of lease fees for private residential docks and piers over sovereignty submerged lands.
- Provides general permits for local governments to construct certain mooring fields and places a limit on the size of mooring fields.
- Provides that if two or more consumptive use permit (CUP) applications are complete and in conflict, the DEP or WMD may then approve or modify the application that best serves the public interest.
- Provides that permitted water allocations may not be changed under certain circumstances with respect to seawater desalination plants;
- Provides for electronic mail notification of restrictions or changes to permitted water use in the case of a water shortage or emergency.
- Provides that the issuance of well permits is the sole responsibility of the WMDs, a delegated local government, or local county health department, and prohibits government entities from imposing duplicative requirements and fees associated with the installation and abandonment of groundwater wells.
- Provides that licensure of water well contractors by a WMD must be the only water well construction license required for the construction, repair or abandonment of water wells in the state or any political subdivision.
- Exempts certain ponds, ditches and wetlands from regulatory requirements.
- Exempts certain independent water control districts created before July 1, 2013, from further wetlands regulations.
- Increases the funds available to DEP to contract for preapproved advanced cleanup work and increases the preapproval amount for contracting with a single facility.
- Provides that a person can bring a cause of action for damages resulting from a discharge of certain types of pollution if not regulated or authorized pursuant to ch. 403, F.S..
- Defines "beneficiary" as it relates to the entities from which a local government may collect stormwater fees, provides for the collection of stormwater utility fees from beneficiaries, and clarifies that the provisions only apply to fees billed on or after July 1, 2013.
- Provides that the DEP may adopt rules requiring or incentivizing the electronic submission of certain forms, documents, fees or reports.
- Extends the payment deadline for permit fees for major sources of air pollution and directs that fees must be based on actual emissions and not permitted emissions.
- Provides certain requirements for testing procedures used when determining if a proposed discharge will lower the quality of receiving waters below their existing classification.

- Provides that local governments may not compete with recovered materials dealers for 90 days while an application for engaging in business is pending with the locality and provides relief for a violation of that provision.
- Provides for expedited permitting of interstate natural gas pipelines.
- Provides that a permit is not required for the restoration of seawalls at their previous locations or upland of their previous locations, or within 18 inches, instead of 12 inches, waterward of their previous locations; and
- Ratifies certain leases of land by the Board of Trustees in the Everglades Agricultural Area and provides that the leases are in the public interest and are not contrary to the public interest.

This bill substantially amends the following sections of the Florida Statutes: 20.255, 125.022, 166.033, 211.3103, 253.0345, 253.0347, 373.118, 373.233, 373.236, 373.246, 373.308, 373.323, 373.406, 376.30713, 376.313, 403.031, 403.061, 403.0872, 403.088, 403.0893, 403.7046, 403.813, and 403.973.

The bill creates sections 253.0346 and 403.8141, Florida Statutes.

II. Present Situation:

The statutes affected by this bill are diverse. The present situation of each area affected by the bill will be addressed in Section III – Effect of Proposed Changes.

III. Effect of Proposed Changes:

Sections 1 and 18 amend ss. 20.255 and 403.061, F.S., relating to the electronic submission of forms to the DEP.

Present Situation

Section 20.255, F.S., creates the DEP and provides for its organizational structure.
Section 403.061, F.S., authorizes the DEP to control and prohibit pollution of air and water in accordance with the law and rules adopted and promulgated by it.

The DEP currently accepts certain types of permit applications on-line. In addition, Florida's five WMDs have developed a shared permitting portal. This portal is designed to direct the user to the appropriate WMD website for obtaining information regarding permitting programs, applying for permits, and submitting permit compliance information. The WMDs issue several types of permits. The three most common relate to how much water is used (consumptive use permitting), the construction of wells (well construction permitting), and how new development affects water resources (environmental resource permitting).

Effect of Proposed Changes

The bill amends ss. 20.255 and 403.061, F.S., authorizing the DEP to adopt rules requiring or incentivizing electronic submission of any form, document, fee, or report required under ch. 161, F.S., (relating to beach and shore preservation), ch. 253, F.S., (relating to state lands), ch. 373,

F.S., (relating to water resources), ch. 376, F.S., (relating to pollutant discharge prevention and removal), ch. 377, F.S., (relating to energy resources), or ch. 403, F.S., (relating to environmental control).

Sections 2 and 3 amend ss. 125.022 and 163.033, F.S., respectively, relating to development permits.

Present Situation

A development permit is any building permit, zoning permit, subdivision approval, rezoning, certification, special exception, variance, or any other official action of local government having the effect of permitting the development of land.[1] Pursuant to ss. 125.022 and 166.033, F.S., when a county or municipality denies an application for a development permit, the county or municipality must give written notice to the applicant. The notice must include a citation to the applicable portions of ordinance, rule, statute or other legal authority for the denial of the permit.

For any development permit application filed with a county or municipality after July 1, 2012, that county or municipality is prohibited from requiring, as a condition of processing or issuing a development permit, that an applicant obtain a permit or approval from any state or federal agency unless the agency has issued a final agency action that denies the federal or state permit before the county or municipality action on the local development permit. The issuance of a development permit by a county or municipality does not create any rights on the part of the county or municipality for issuance of the permit if the applicant fails to obtain the requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law. A county or municipality can attach such a disclaimer to the issuance of a development permit and can include a permit condition that all other applicable state or federal permits be obtained prior to commencement of the development. This does not prohibit a county or municipality from providing information to an applicant regarding what other state or federal permits may apply.

Effect of Proposed Changes

The bill amends ss. 125.022 and 163.033, F.S., providing that when reviewing an application for a development permit, counties and municipalities cannot request additional information from an applicant more than three times, unless the applicant waives the limitation in writing. Prior to the third request for information, the county (section 2) or the municipality (section 3) is directed to offer a meeting to try to resolve outstanding issues. If the applicant believes the request for additional information is not authorized by ordinance, rule, statute or other legal authority, the county or municipality, at the applicant's request, must proceed with processing the application. These sections do not apply to building permits.

Section 4 amends s. 211.3103, F.S., expanding activities qualifying as "phosphate-related expenses."

[1] Section 163.3164(16), F.S.

Present Situation

Pursuant to s. 211.3103, F.S., an excise tax is levied upon each person engaging in the business of severing phosphate rock from the soils or waters of this state for commercial use. The tax rate is $1.61 per ton severed, except for the time period from January 1, 2015, until December 21, 2022, when it is $1.80 per ton severed.

The proceeds of all taxes, interest and penalties imposed under this section of law are paid into the State Treasury as follows:

- To the credit of the Conservation and Recreation Lands Trust Fund: 25.5 percent.
- To the credit of the General Revenue Fund of the state: 35.7 percent.
- For payment to counties in proportion to the number of tons of phosphate rock produced from a phosphate rock matrix located within such political boundary: 12.8 percent.
- For payment to counties that have been designated as a rural area of critical economic concern in proportion to the number of tons of phosphate rock produced from a phosphate rock matrix located within such political boundary: 10 percent.

Any such proceeds received by a county must be used only for phosphate-related expenses.

Section 211.3103(6)(c), F.S., defines "phosphate-related expenses" as those expenses that provide for infrastructure or services in support of the phosphate industry, reclamation or restoration of phosphate lands, community infrastructure on such reclaimed lands, and similar expenses directly related to support of the industry.

Effect of Proposed Changes

The bill amends s. 211.3103, F.S., to expand the activities that qualify as "phosphate-related expenses" to include environmental education, maintenance and restoration of reclaimed lands and county-owned environmental lands which were formerly phosphate lands, and community infrastructure on county owned environmental lands that were formerly phosphate lands.

Sections 5 and 24 amend s. 253.0345, F.S., and create s. 403.8141, F.S., respectively, relating to special events on sovereignty submerged lands.

Present Situation

The Board of Trustees may authorize the use of sovereignty submerged lands for special events. The Board of Trustees is authorized to issue "consents of use" or leases to riparian landowners and event promoters to allow the installation of temporary structures, including docks, moorings, pilings and access walkways on sovereignty submerged lands solely for the purpose of facilitating boat shows and displays in, or adjacent to, established marinas or government owned upland property. Riparian owners of adjacent uplands who are not seeking a lease or consent of use must be notified by certified mail of any request for such a lease or consent of use prior to approval by the Board of Trustees. The Board of Trustees must balance the interests of any objecting riparian owners with the economic interests of the public and the state as a factor in determining whether a lease or consent of use should be executed over the objection of adjacent

riparian owners. This does not apply to structures for viewing motorboat racing, high-speed motorboat contests or high-speed displays in waters that manatees are known to frequent.[2]

The Board of Trustees' rules contain three classifications for special events:

- Class II Special Events are events of 30 days or less involving the construction of structures that are not revenue-generating and either preempt 1,000 square feet or less of sovereignty submerged lands or preempt no more than 10 square feet of sovereignty submerged land for each linear foot of the applicant's contiguous shoreline along the affected sovereignty submerged land. These activities require a letter of consent from the DEP but no lease.[3]
- Class III Special Events are single events involving the construction of 50 or fewer new slips or a preempted area of 50,000 square feet or less. A lease is required and the term of the lease is limited to 30 days or less.[4]
- Class IV Special Events are events that do not qualify as Class III events or are events authorized to be conducted more than once during the lease term. A lease is required and the term of the lease may be up to five years.[5]

Any special event must be for 30 days or less. The lease or consent of use may also contain appropriate requirements for removal of the temporary structures, including the posting of sufficient surety to guarantee appropriate funds for removal of the structures should both the promoter or riparian owner fail to do so within the time specified in the agreement.[6]

Effect of Proposed Changes

Section 5 of the bill amends s. 253.0345, F.S., to provide that the Board of Trustees is authorized to issue leases or consents of use to special event promoters and boat show owners to allow the installation of temporary structures, including docks, moorings, pilings, and access walkways, on sovereignty submerged lands solely for the purpose of facilitating boat shows and displays in, or adjacent to, established marinas or government-owned upland property. A lease or consent of use for a special event under this section must include an exemption from lease fees and must be for a period of 45 days or less and for a duration of 10 consecutive years or less.

Section 23 of the bill creates s. 403.8141, F.S., directing the DEP to issue permits for special events as defined in s. 253.0345, F.S. The permits must be for a period that runs concurrently with the letter of consent or lease issued and must allow for the movement of temporary structures within the footprint of the lease area.

Sections 6 and 7 create s. 253.0346, F.S., relating to the lease of sovereignty submerged lands for marinas, boatyards and marine retailers and amend s. 253.0347, F.S., relating to regarding the lease of sovereignty submerged lands for private residences, respectively.

[2] *See* s. 253.0345, F.S. *See also* Rule 18-21.0082, F.A.C., for information required on applications for leases or consents of use and for provisions concerning limitations on consents of use and leases, depending on the type of event.
[3] Rule 18-21.005(1)(c)17., F.A.C.
[4] Rule 18-21.005(1)(d)10., F.A.C.
[5] Rule 18-21.005(1)(d)11., F.A.C.
[6] Rule 18-21.0082(2)(c), F.A.C.

Present Situation

The Board of Trustees is responsible for the administration and disposition of the state's sovereignty submerged lands. [7] It has the authority to adopt rules and regulations pertaining to anchoring, mooring or otherwise attaching to the bottom. Waterfront landowners must receive the Board of Trustees' authorization to build docks and related structures on sovereignty submerged lands. The DEP administers all staff functions on the Board of Trustees' behalf.

Florida recognizes riparian rights for landowners with waterfront property bordering navigable waters, which include the rights of ingress, egress, boating, bathing, fishing and others as defined by law.[8] Riparian landowners must obtain the Board of Trustees' authorization for installation and maintenance of docks, piers and boat ramps on sovereignty submerged land.[9] Under the Board of Trustees' rules, "dock" generally means a fixed or floating structure, including moorings and access walkways, used for the purpose of mooring and accessing vessels.[10]

Authorization may be by rule, letter of consent, or lease.[11] All leases authorizing activities on sovereignty submerged lands must include provisions for lease fee adjustments and annual payments.[12]

The Board of Trustees has promulgated detailed rules regulating the design of docks and related structures, including determining whether a lease is required and setting the amount of lease fees.[13] The DEP determines whether a lease is required for a person to build a dock or related structure on sovereignty submerged lands based on a number of factors including:

- Location within or outside of an aquatic preserve;
- Area of sovereignty submerged land preempted;
- Number of wet slips or the number of boats the structure is designed to moor;
- Whether the dock is for a single-family residence or a multi-unit dwelling;
- Whether the dock generates revenue; and
- Whether the dock is for "private residential" or other uses.

A property owner who is required to obtain a lease to build a dock or related structure must follow the lease terms and pay applicable fees. Currently, the standard lease term is five years, and sites under lease must be inspected once every five years. Annual lease fees for standard term leases are calculated through a formula based on annual income, square footage or a minimum annual fee. Extended term leases are available, under limited conditions, for up to 25 years. Annual lease fees for extended term leases are calculated like standard lease fees but with

[7] Section 253.03(8)(b), F.S., defines submerged lands as publicly owned lands below the ordinary high-water mark of fresh waters and below the mean high-water line of salt waters extending seaward to the outer jurisdiction of the state.
[8] *See* s. 253.141(1), F.S.
[9] Rule 18-21.005(1)(d), F.A.C.
[10] *See* Rules 18-20.003(2) and (19), F.A.C.
[11] Rule 18-21.005(1), F.A.C.
[12] Rule 18-21.008(1)(b)(2), F.A.C.
[13] *See* Rules 18-20 and 18-21, F.A.C.

a multiplier for the term in years. Site inspections are conducted at least once every five years by the DEP or a WMD to determine compliance with lease conditions.[14]

When determining whether to approve or deny uses for sovereignty submerged land leases, the Board of Trustees must consider whether such uses pass a public interest test. "Public interest" is defined as:

> [T]he demonstrable environmental, social and economic benefits which would accrue to the public at large as a result of a proposed action, and which would clearly exceed all demonstrable environmental, social and economic costs of the proposed action. In determining the public interest in a request for use, sale, lease, or transfer of interest in sovereignty lands, or severance of materials from sovereignty lands, the Board of Trustees must consider the ultimate project and purpose to be served by said use, sale, lease or transfer of lands or materials.[15]

There are currently three categories of leases identified in Rule 18-21.008, F.A.C.:

- Standard leases are for terms of five years with the exception of leases for marinas where at least 90 percent of the slips are maintained for rent to the public on a first-come, first-served basis, which are for ten years.
- Extended Term leases are those with terms in excess of standard leases and are available for up to 25 years. Such leases are for activities that will have an expected life equal to or greater than the requested lease term. Those leases include:
  - Facilities or activities that provide public access;
  - Facilities constructed, operated, or maintained by government or funded by government secured bonds; and
  - Facilities that have other unique operational characteristics as determined by the Board of Trustees.

Florida Clean Marina Program

The Florida Clean Marina Program is a voluntary designation program. Participants receive assistance in implementing best management practices through on-site and distance technical assistance, mentoring by other Clean Marinas and continuing education. To become designated as a Clean Marina, facilities must implement a set of environmental measures designed to protect Florida's waterways. These measures address critical environmental issues such as sensitive habitat, waste management, stormwater control, spill prevention and emergency preparedness.[16]

The Florida Clean Boatyard Program is a voluntary designation program that encourages boatyards to implement environmentally conscious practices. Measures include using dustless sanders, recycling oil and solvents, and re-circulating pressure wash systems to recycle wastewater.[17]

[14] Rule 18-21.008(1)(b)4., F.A.C.
[15] Rule 18-21.003(51), F.A.C.
[16] DEP, *About Florida Clean Marina Programs*, http://www.dep.state.fl.us/cleanmarina/about.htm (last visited Mar. 29, 2013).
[17] *Id.*

The Florida Clean Marine Retailer Program is a voluntary designation program that encourages marine retailers to educate boaters by providing information to those who purchase vessels on clean boating practices. A Clean Marine Retailer also employs environmental best management practices in its boat and engine service operations and facilities.[18]

As of June 21, 2012, there were 263 designated Clean Marinas, 38 Clean Boatyards and 17 Clean Marine Retailers in Florida.[19]

Effect of Proposed Changes

Section 6 of the bill creates s. 253.0346, F.S., relating to the lease of sovereignty submerged lands for marinas, boatyards and marine retailers. The bill defines "first-come, first-served basis" to mean the facility operates on state-owned submerged land for which:

- There is no club membership, stock ownership, equity interest, or other qualifying requirement; and
- Rental terms do not exceed 12 months and do not include automatic renewal rights or conditions.

For marinas that are open to the public on a first-come, first-served basis and for which at least 90 percent of the slips are open for rent to the public, a 30 percent discount on the annual lease fee must apply if dockage rate sheet publications and dockage advertising clearly state the slips are open for rent to the public on a first-come, first-served basis.

For a facility designated by the DEP as a Clean Marina, Clean Boatyard, or Clean Marine Retailer under the Clean Marina Program, the following requirements apply:

- A 10 percent discount on the annual lease fee must apply if the facility:
  - Actively maintains designation under the program;
  - Complies with the terms of the lease; and
  - Does not change use during the term of the lease.
- Extended term lease surcharges must be waived if the facility:
  - Actively maintains designation under the program;
  - Complies with the terms of the lease;
  - Does not change use during the term of the lease; and
  - Is available to the public on a first-come, first-served basis.

If the facility has unpaid lease fees or fails to comply with this section, the facility is not eligible for the discount or waiver under this section until the debts have been paid and compliance with the program has been met.

This section only applies to new leases or amendments to leases effective after July 1, 2013.

[18] *Id.*
[19] DEP, *Florida Clean Marina Programs*, http://www.dep.state.fl.us/cleanmarina/ (last visited Mar. 29, 2013).

Section 7 of the bill provides that lease fees are not required for:

- Private residential single-family docks designed to moor up to four boats so long as the preempted area is equal to or less than 10 times the distance along the riparian shoreline or the square footage allowed for private residential single-family docks under rules adopted by the Board of Trustees, whichever is greater.
- Private residential multi-family docks designed to moor boats up to the number of units within the development that are equal to or less than 10 times the riparian shoreline along the sovereignty submerged land on the affected waterbody multiplied by the number of units with docks in the development.

Section 8 amends s. 373.118, F.S., relating to general permits for marine facilities built by local governments.

Present Situation

Section 373.118(4), F.S., directs the DEP to adopt one or more general permits for local governments to construct, operate and maintain public marina facilities, public mooring fields, public boat ramps, including associated courtesy docks and parking facilities located in uplands. A facility authorized under these general permits is exempt from review as a development of regional impact if the facility complies with the comprehensive plan of the applicable local government. Such facilities must be consistent with the local government manatee protection plan required pursuant to ch. 379, F.S., must obtain Clean Marina Program Status prior to opening for operation, and must maintain that status for the life of the facility. Marinas and mooring fields authorized under a general permit cannot exceed an area of 50,000 square feet over wetlands and other surface waters.

Effect of Proposed Changes

The bill amends s. 373.118(4), F.S., removing a provision directing the DEP to adopt rules for one or more general permits for local governments to construct, operate and maintain public marina facilities. The bill removes a provision that local government facilities permitted under s. 373.118(4), F.S., must obtain Clean Marina Program status before opening for operation and must maintain that designation for the life of the facility. The bill also removes a provision limiting such facilities to 50,000 square feet over wetlands and other surface waters.

The bill adds a provision limiting mooring fields permitted under s. 373.118(4), F.S., to 100 vessels and it adds a provision authorizing the Board of Trustees to delegate to the DEP the ability to issue leases for mooring fields that meet the requirements of the general permit per s. 373.118(4), F.S.

Section 9 amends s. 373.233, F.S., relating to consumptive use permitting.

Present Situation

A CUP establishes the duration and type of water an entity may use as well as the maximum amount that may be withdrawn. Pursuant to s. 373.219, F.S., each CUP must be consistent with

the objectives of the WMD and not harmful to the water resources of the area. To obtain a CUP, an applicant must establish that the proposed use of water satisfies the statutory test, commonly referred to as the "three-prong test." Specifically, the proposed water use:

- Must be a "reasonable-beneficial use," as defined in s. 373.019, F.S.;
- Must not interfere with any presently existing legal use of water; and
- Must be consistent with the public interest.[20]

Section 373.233, F.S., provides that if two or more complete applications that otherwise comply with the provisions of Part II of ch. 373, F.S., are pending for a quantity of water that is inadequate for both or all applications, or that are in conflict for any other reason, the governing board of the DEP or the WMD has the right to approve or modify the application which best serves the public interest.

The Three Prong Test

"Reasonable-beneficial use," the first prong of the test, is defined as "the use of water in such quantity as is necessary for economic and efficient utilization for a purpose and in a manner which is both reasonable and consistent with the public interest."[21] The Legislature has declared water a public resource. Therefore, wasteful uses of water are not allowed even if there are sufficient resources to meet all other demands.

To that end, the DEP has promulgated the Water Resource Implementation Rule that incorporates interpretive criteria for implementing the reasonable-beneficial use standard based on common law and water management needs.[22] These criteria include consideration of the quantity of water requested; the need, purpose and value of the use; and the suitability of the source. The criteria also consider the extent and amount of harm caused, whether that harm extends to other lands, and the practicality of mitigating that harm by adjusting the quantity or method of use. Particular consideration is given to the use or reuse of lower quality water, and the long-term ability of the source to supply water without sustaining harm to the surrounding environment and natural resources.[23]

The second element of the three-prong test protects the rights of existing legal uses of water for the duration of their permits.[24] New CUPs cannot be issued if they would conflict with an existing legal use. This criterion is only protective of water users that actually withdraw water, not passive users of water resources.[25]

---

[20] Section 373.223(1)(a-c), F.S.
[21] Section 373.019(16), F.S. *See also* Rule 62-410(2), F.A.C., for a list of 18 factors to help determine whether a water use is a reasonable-beneficial use.
[22] *See* Rule 62-40, F.A.C.
[23] *Southwest Florida Water Management District v. Charlotte County*, 774 So. 2d 903, 911 (Fla. 2d DCA 2001) (upholding the WMD's use of criteria for implementing the reasonable-beneficial use standard).
[24] Section 373.223(1)(b), F.S.
[25] *See Harloff v. City of Sarasota*, 575 So. 2d 1324 (Fla. 2d DCA 1991) (holding a municipal wellfield was an existing legal user and should be afforded protection). In contrast, *see West Coast Regional Water Supply Authority v. Southwest Florida Water Management District*, 89 ER F.A.L.R. 166 (Final Order, Aug. 30, 1989) (holding a farmer who passively relied on a higher water table to grow nonirrigated crops and standing surface water bodies to water cattle was not an existing legal user).

The final element of the three-prong test requires water use to be consistent with the "public interest." While the DEP's Water Resource Implementation Rule provides criteria for determining the "public interest," determination of a public interest is made on a case-by-case basis during the permitting process.[26] However, the WMDs and the DEP have broad authority to determine which uses best serve the public interest if there are not sufficient resources to fulfill all applicants' CUPs. In the event that two or more competing applications are deemed to be equally in the public interest, the particular WMD or the DEP gives preference to renewal applications.[27]

Effect of Proposed Changes

The bill amends s. 373.233, F.S., to provide that where there are competing CUP applications and a WMD or the DEP has deemed the applications complete, the governing board of a WMD or the DEP has the right to approve or modify the application which best serves the public interest.

Section 10 amends s. 373.236, F.S., relating to the duration of CUPs.

Present Situation

Section 373.236(1), F.S., provides that CUPs must be granted for a period of 20 years if:

- Requested by the applicant; and
- There is sufficient data to provide reasonable assurance that the conditions for permit issuance will be met for the duration of the permit.

If either of these requirements is not met, a CUP with a shorter duration may be issued to reflect the period for which reasonable assurances can be provided. The WMDs and DEP may determine the duration of permits based upon a reasonable system of classification according to the water source, type of use, or both.

Pursuant to s. 373.326(4), F.S., when necessary to maintain "reasonable assurance" that initial conditions for issuance of a 20-year CUP can continue to be met, a WMD or DEP may require a permittee to produce a compliance report every 10 years. A compliance report must contain sufficient data to maintain reasonable assurance that the initial permit conditions are met. After reviewing a compliance report, the WMD or DEP may modify the permit, including reductions or changes in the initial allocations of water, to ensure that the water use comports with initial conditions for issuance of the permit. Permit modifications made by a WMD or DEP during a compliance review cannot be subject to competing applications for water use if the permittee is not seeking additional water allocations or changes in water sources.

[26] *Supra* note 23.
[27] *See* s. 373.233, F.S.

Effect of Proposed Changes

The bill amends s. 373.236, F.S., to provide that in order to promote the sustainability of natural systems through the diversification of water supplies to include sources that are resistant to drought, a WMD may not reduce an existing permitted allocation of water during the permit term as a result of planned future construction of, or additional water becoming available from, a seawater desalination plant unless the reduction is a condition of a permit or funding agreement with the WMD. Except as otherwise provided, this does not limit the existing authority of DEP or the governing board of a WMD to modify or revoke a CUP.

Section 11 amends s. 373.246, F.S., relating to declarations of water shortages or emergencies.

Present Situation

Section 373.246, F.S., provides direction for the governing board of a WMD or the DEP during a water shortage. The section, among other things, requires the formulation of a plan for periods of water shortage, allows for the imposition of restrictions on water use, provides for notice to those residing in the areas affected by the water shortage, and provides for the rescission of a declaration of a water shortage.

Effect of Proposed Changes

The bill amends s. 373.246, F.S., to allow a WMD governing board or the DEP to notify permittees by electronic mail of any change in the condition of their permits or any suspension of their permits or any other restriction on permittees' use of water for the duration of the water shortage. This is in addition to the existing option of making such notification by regular mail.

Section 12 amends s. 373.308, F.S., relating to well permits issued by water management districts.

Present Situation

Section 373.308, F.S., directs the DEP to authorize the governing board of a WMD to implement a program for the issuance of permits for the location, construction, repair and abandonment of water wells. The DEP may prescribe minimum standards for the location, construction, repair, and abandonment of water wells throughout all or part of the state. Some local governments also have certain ordinances pertaining to water wells, which have resulted in duplicative regulation at the state and local level.

Effect of Proposed Changes

The bill amends s. 373.308, F.S., to provide that upon authorization from the DEP, issuance of well permits is the sole responsibility of the WMDs, a delegated local government, or a local county health department, and that other government entities may not impose additional or duplicate requirements or fees, or establish a separate program for permitting the location, abandonment, boring, or other activities reasonably associated with the installation and abandonment of a groundwater well.

Section 13 amends s. 373.323, F.S., relating to licenses for water well contractors.

Present Situation

Any person that wishes to engage in business as a water well contractor must obtain a license from a WMD. Each person must apply to take the licensure examination and the application must be made to the WMD in which the applicant resides or in which his or her principal place of business is located. An applicant must:

- Be at least 18 years of age;
- Have two years of experience in constructing, repairing, or abandoning water wells; and
- Show certain proof of experience.[28]

Section 373.323(11), F.S., provides that licensed water well contractors may install pumps, tanks, and water conditioning equipment for all water well systems.

Effect of Proposed Changes

The bill amends s. 373.323, F.S., to provide that licensure under this section by a WMD must be the only water well construction license required for the construction, repair, or abandonment of water wells in the state or any political subdivision.

The bill also expands the types of systems that licensed water well contractors may install pumps, tanks, and water conditioning equipment on. The bill changes the systems water well contractors can work on from "water well systems" to "water systems."

Section 14 amends s. 373.406, F.S., relating to surface water management and storage.

Present Situation

Part IV of ch. 373, F.S., provides for the management and storage of surface water. Part IV also establishes the Environmental Resource Permit (ERP) program, which is the primary tool used by the DEP and the WMDs for preserving natural resources and fish and wildlife, minimizing degradation of water resources caused by stormwater discharges, and providing for the management of water and related land resources.

The activities regulated under the ERP program include the construction, alteration, operation, maintenance, abandonment, and removal of stormwater management systems, dams, impoundments, reservoirs, and appurtenant work and works. Individually and collectively these terms are referred to as "surface water management systems."

Certain activities are exempt by statute from the need to obtain an ERP under state law or by agency rule. Section 373.406, F.S., provides for several exemptions from the regulatory requirements in ch. 373, F.S. The DEP's rules also provide for certain exemptions and general

[28] Section 373.323, F.S.

permits for certain activities that cause only minimal individual and cumulative adverse impacts to wetlands and other surface waters. Some examples of exempt activities are:

- Construction, repair, and replacement of private docking facilities below certain size thresholds;
- Maintenance dredging of existing navigational channels and canals;
- Construction and alteration of boat ramps within certain size limits;
- Construction, repair, and replacement of seawalls and riprap in artificial waterways;
- Repair and replacement of structures; and
- Construction of certain agricultural activities.

In addition, the state has issued a number of noticed general permits for activities that are slightly larger than those that qualify for the above exemptions and that otherwise have been determined to have the potential for no more than minimal individual direct and secondary impacts. These include, but are not limited to, the following:

- Construction and modification of boat ramps of certain sizes;
- Installation and repair of riprap at the base of existing seawalls;
- Installation of culverts associated with stormwater discharge facilities; and
- Construction and modification of certain utility and public roadway construction activities.

Anything that does not specifically qualify for an exemption or noticed general permit typically requires an ERP permit.

Effect of Proposed Changes

The bill amends s. 373.406, F.S., to include the following exemptions from regulation under Part IV of ch. 373, F.S.:

- Construction, operation, or maintenance of any wholly owned, manmade ponds or drainage ditches constructed entirely in uplands as long as any alteration or maintenance does not involve any work to connect the pond to, or expand the farm into, other wetlands or surface waters;
- Activities affecting wetlands created solely by the unreasonable and negligent flooding or interference with the natural flow or surface water caused by an adjoining landowner. Requests to qualify for the exemption must be submitted in writing to a WMD or the DEP within seven years after the cause of the unauthorized flooding or diversion occurred. Such activities may not begin before a WMD or DEP confirms in writing that the activity qualifies for the exemption; and
- Any water control district created before July 1, 2013, and operating pursuant to ch. 298, F.S., for which a valid ERP or management and storage of surface waters permit has been issued pursuant to Part IV of ch. 373, F.S., is exempt from further wetlands regulations imposed pursuant to local government regulation under chs. 125, 163, and 166, F.S.

Section 15 amends s. 376.30713, F.S., relating to preapproved advanced cleanup of contaminated sites.

Present Situation

The Preapproved Advanced Cleanup Program is a cost-sharing program designed to provide an opportunity for site rehabilitation, on a limited basis, at contaminated sites in advance of their priority ranking in order to facilitate property transfers or public works projects.[29] Consideration for the program is through an application to the DEP. Applications must contain:

- A commitment to pay no less than 25 percent of total cleanup cost;
- A review fee of $25;
- A limited contamination assessment report; and
- A proposed course of action.[30]

If approved for the program, the applicant enters into a contract with the DEP. If the terms of the preapproved advanced cleanup contract are not fulfilled, the applicant forfeits any right to future payment for any site rehabilitation work conducted under the contract.[31]

The DEP is allowed to enter into contracts with approved entities for a total of $10 million of preapproved advanced cleanup work each fiscal year and no facility may be preapproved for more than $500,000.[32]

Effect of Proposed Changes

The bill raises the total funds available for preapproved advanced cleanup work each fiscal year from $10 million to $15 million, and it raises the amount any one facility may be approved for from $500,000 to $5 million.

Section 16 amends s. 376.313, F.S., relating to the nonexclusiveness of remedies and individual causes of action for damages under ss. 376.30 to 376.317, F.S.

Present Situation

Section 376.313(3), F.S., provides that nothing contained in ss. 376.30-376.317, F.S., (relating to petroleum storage discharges, dry cleaning facilities, and wholesale supply facilities) prohibits any person from bringing a cause of action in court for all damages resulting from a discharge or other condition of pollution covered by the referred to sections.

Effect of Proposed Changes

The bill amends s. 376.313(3), F.S., to provide that a person can bring a cause of action in court for all damages resulting from a discharge or other condition of pollution covered by ss. 376.30-376.317, F.S., that is not regulated or authorized pursuant to ch. 403, F.S. (relating to environmental control policies that conserve state water, protect and improve water quality for

[29] DEP, *Preapproved Advanced Cleanup Program (PAC)*, www.dep.state.fl.us/waste/categories/pcp/pages/pac.htm (last visited Apr. 18, 2013).
[30] Section 376.30713(2)(a), F.S.
[31] Section 376.30713(3)(b), F.S.
[32] Section 373.30713(4), F.S.

consumption, and maintain air quality to protect human health). This serves to limit the causes of action currently available under s. 376.313, F.S.

Sections 17, 21 and 27 amend ss. 403.031 and 403.0893, F.S., and creates an unnumbered section of law, respectively, regarding stormwater utility fees.

Present Situation

Section 403.031, F.S., provides definitions for ch. 403, F.S. Section 403.0893, F.S., provides that a county or municipality may:

- Create one or more stormwater utilities and adopt stormwater utility fees sufficient to plan, construct, operate, and maintain stormwater management systems set out in the local program required pursuant to s. 403.0891(3), F.S.;
- Establish and set aside, as a continuing source of revenue, other funds sufficient to plan, construct, operate, and maintain stormwater management systems set out in the local program required pursuant to s. 403.0891(3), F.S.; or
- Create, alone or in cooperation with counties, municipalities, and special districts pursuant to the Interlocal Cooperation Act, s. 163.01, F.S., one or more stormwater management system benefit areas.

Effect of Proposed Changes

Section 17 of the bill amends s. 403.031, F.S., to provide a definition for the term "beneficiary" to mean "any person, partnership, corporation, business entity, charitable organizations, not-for-profit corporation, state, county, district, authority, or municipal unit of government or any other separate unit of government created or established by law." Those entities listed here are responsible for paying stormwater fees assessed by a local government. This definition will make clear the entities from which a local government can collect stormwater fees.

Section 21 of the bill amends s. 403.0893, F.S. to provide that stormwater utility fees may be charged to the beneficiaries of a stormwater utility, and it provides for the collection of delinquent fees.

Section 27 of the bill creates an unnumbered section of law to provide that the two sections only apply to stormwater utility fees billed on or after July 1, 2013, to a beneficiary of a stormwater utility for services provided on or after that date.

Section 19 amends s. 403.0872, F.S., relating to operation permits for majority sources of air pollution and fee calculations.

Present Situation

The Clean Air Act (CAA) was enacted in 1970 as the comprehensive federal law to regulate air emissions from stationary and mobile sources. The law authorizes the U.S. Environmental

Protection Agency (EPA) to establish National Ambient Air Quality Standards to protect public health and public welfare and to regulate emissions of hazardous air pollutants.[33]

In 1990, Congress amended Title V of the CAA to create the operating permit program. The program streamlines the way federal, state, tribal, and local authorities regulate air pollution by consolidating all air pollution control requirements into a single, comprehensive operating permit that covers all aspects of a source's year-to-year pollution activities.[34] Under Title V, the EPA must establish minimum elements to be included in all state and local operating permit programs and then assist the state and local governments in developing their programs.[35] All major stationary sources (power plants, pulp mills, and other facilities) emitting certain air pollutants are required to obtain operating permits.

Pursuant to s. 403.0872, F.S., and as promulgated in ch. 62-4, F.A.C., the DEP is responsible for air permits regulating major and minor facilities. Section 403.0872(11), F.S., provides that each source of air pollution permitted to operate in Florida must pay between January 15 and March 1 of each year, upon written notice from the DEP, an annual operation license fee in an amount determined by DEP rule. The annual fee is assessed based upon the source's previous year's emissions and is calculated by multiplying the applicable annual operation license fee factor by the tons of each regulated air pollutant (except carbon monoxide) allowed to be emitted per hour by specific condition of the source's most recent construction or operation permit, and multiplying that by the annual hours of operation allowed by permit conditions provided, however, that:

1. The license fee factor is $25 or another amount determined by DEP rule, which ensures that the revenue provided by each year's operation license fees is sufficient to cover all reasonable direct and indirect costs of the major stationary source air-operation permit program established by this section. The license fee factor may be increased beyond $25 only if the Secretary of Environmental Protection affirmatively finds that a shortage of revenue for support of the major stationary source air-operation permit program will occur in the absence of a fee factor adjustment. The annual license fee factor may not exceed $35.
2. For any source that operates for fewer hours during the calendar year than allowed under its permit, the annual fee calculation must be based upon actual hours of operation rather than allowable hours if the owner or operator of the source documents the source's actual hours of operation for the calendar year. For any source that has an emissions limit that is dependent upon the type of fuel burned, the annual fee calculation must be based on the emissions limit applicable during actual hours of operation.
3. For any source whose allowable emission limitation is specified by permit per units of material input or heat input or product output, the applicable input or production amount may be used to calculate the allowable emissions if the owner or operator of the source documents the actual input or production amount. If the input or production amount is not documented, the maximum allowable input or production amount specified in the permit must be used to calculate the allowable emissions.

[33] EPA, *Summary of the Clean Air Act*, http://epa.gov/regulations/laws/caa.html (last visited Mar. 29, 2013).
[34] *See* EPA, *Air Pollution Operating Permit Program Update: Key Features and Benefits*, http://www.epa.gov/oaqps001/permits/permitupdate/index.html (last visited Mar. 29, 2013).
[35] *Id.*

4. For any new source that does not receive its first operation permit until after the beginning of a calendar year, the annual fee for the year must be reduced pro rata to reflect the period during which the source was not operational.
5. For any source that emits less of any regulated air pollutant than allowed by permit condition, the annual fee calculation for such pollutant must be based upon actual emissions rather than allowable emissions if the owner or operator documents the source's actual emissions by means of data from a DEP-approved certified continuous emissions monitor or from an emissions monitoring method which has been approved by the EPA under the regulations implementing 42 U.S.C. ss. 7651 et seq., or from a method approved by the DEP.
6. The amount of each regulated air pollutant in excess of 4,000 tons per year allowed to be emitted by any source, or group of sources belonging to the same Major Group as described in the Standard Industrial Classification Manual, 1987, may not be included in the calculation of the fee. Any source, or group of sources, which does not emit any regulated air pollutant in excess of 4,000 tons per year, is allowed a one-time credit not to exceed 25 percent of the first annual licensing fee for the prorated portion of existing air-operation permit application fees remaining upon commencement of the annual licensing fees.
7. If the DEP has not received the fee by February 15 of the calendar year, the permittee must be sent a written warning of the consequences for failing to pay the fee by March 1. If the fee is not postmarked by March 1 of the calendar year, the DEP shall impose, in addition to the fee, a penalty of 50 percent of the amount of the fee, plus interest on such amount computed in accordance with s. 220.807, F.S. The DEP may not impose such penalty or interest on any amount underpaid, provided that the permittee has timely remitted payment of at least 90 percent of the amount determined to be due and remits full payment within 60 days after receipt of notice of the amount underpaid. The DEP may waive the collection of underpayment and is not required to refund overpayment of the fee, if the amount due is less than 1 percent of the fee, up to $50. The DEP may revoke any major air pollution source operation permit if it finds that the permitholder has failed to timely pay any required annual operation license fee, penalty or interest.
8. Notwithstanding the computational provisions of s. 403.0872(a), F.S., the annual operation license fee for any source subject to this section cannot be less than $250, except that the annual operation license fee for sources permitted solely through general permits issued under s. 403.814, F.S., shall not exceed $50 per year.
9. Notwithstanding the provisions of s. 403.087(6)(a)5.a., F.S., authorizing air pollution construction permit fees, the DEP may not require such fees for changes or additions to a major source of air pollution permitted pursuant to this section, unless the activity triggers permitting requirements under Title I, Part C or Part D, of the CAA, 42 U.S.C. ss. 7470-7514a. Costs to issue and administer such permits are considered direct and indirect costs of the major stationary source air-operation permit program under s. 403.0873, F.S. The DEP must, however, require fees pursuant to the provisions of s. 403.087(6)(a)5.a., F.S., for the construction of a new major source of air pollution that will be subject to the permitting requirements of s. 403.0872, F.S., once constructed and for activities triggering permitting requirements under Title I, Part C or Part D, of the CAA, 42 U.S.C. ss. 7470-7514a.[36]

[36] Section 403.0872(11)(a)1.-9., F.S.

Effect of Proposed Changes

The bill amends s. 403.0872, F.S., to extend the annual payment deadline for air pollution permits from March 1 to April 1. In addition, the bill provides that the annual fee must be assessed based upon the source's previous year's emissions and must be calculated by multiplying the applicable annual operation license fee factor by the tons of each regulated air pollutant actually emitted, as calculated in accordance with DEP's emissions computation and reporting rules. The annual fee only applies to those regulated pollutants, except carbon monoxide and greenhouse gases, for which an allowable numeric emission limiting standard is specified in the source's most recent construction or operation permit. This will result in a decrease in fees charged since it is likely that most permitted entities are not discharging up to their permitted limit.

The bill deletes subparagraphs 2-5 from s. 403.0872(11), F.S.

The bill provides that if the DEP has not received the fee by March 1, instead of February 15, the permittee must be sent a written warning concerning the consequences of failing to pay the fee by April 1. If the fee is not postmarked by April 1, the DEP will impose an additional fee.

Section 20 amends s. 403.088, F.S., relating to conditions for the issuance of water pollution permits.

Present Situation

Section 403.088, F.S., provides guidance for the issuance of pollution discharge permits. Generally, if the DEP finds that a proposed discharge will reduce the quality of receiving waters below the classification established for them, the DEP is directed to deny the application and refuse to issue a permit.

Effect of Proposed Changes

The bill amends s. 403.088, F.S., to provide that when testing to determine whether or not a proposed discharge will reduce the quality of the receiving waters below the classification established for them, the DEP may not use results from a field procedure or laboratory method to make the finding or determine compliance unless the procedure or method has been adopted by rule or noticed and approved by DEP order pursuant to DEP rule. Additionally, field procedures and laboratory methods must satisfy quality assurance requirements of DEP rule and must produce data of known and verifiable quality. Lastly, the results of field procedures and laboratory methods must be evaluated for sources of uncertainty to assure suitability for the intended purposes as properly documented with each procedure or method.

Section 22 amends s. 403.7046, F.S., relating to the regulation of recovered materials.

Present Situation

Section 403.7046, F.S., governs the regulation of recovered materials. It allows the DEP to establish a system whereby recovered materials dealers must be certified by the DEP. At a minimum, the information that needs to be collected from a recovered materials dealer must include:

- The amount and types of recovered materials handled, and
- The amount and disposal site, or the name of the person with whom the disposal was arranged, of any solid waste generated by the recovered materials facility and subsequently disposed of.[37]

It also provides that prior to engaging in business within the jurisdiction of a local government, the dealer must provide the government with the DEP certification and must register with the local government. Local governments are limited to collecting the following information:

- Name, including the owner or operator of the dealer;
- If the dealer is a business entity:
  - Its general or limited partners; and
  - Its corporate officers and directors;
- Its permanent place of business;
- Evidence of its certification from the DEP; and
- A certification that the recovered materials will be processed at a recovered materials processing facility satisfying the requirements of the section.

Local governments may also impose yearly reporting requirements which include:

- Requiring the dealer to identify the types and approximate amount of recovered materials collected, recycled, or reused during the reporting period;
- The approximate percentage of recovered materials reused, stored, or delivered to a recovered materials processing facility or disposed of in a solid waste disposal facility; and
- The locations where any recovered materials were disposed of as solid waste.

There are protections for trade secrets and any information that constitutes a trade secret is to be kept confidential.[38]

Effect of Proposed Changes

The bill amends s. 403.7046, F.S., providing that a local government that receives a registration application from a recovered materials dealer may not use the registration information to compete with the recovered materials dealer until 90 days after the registration information is submitted.

The bill also provides for injunctive relief or damages for recovered materials dealers, or associations whose members include recovered materials dealers, in cases where localities violate the prohibition.

[37] Section 403.7046(1), F.S.
[38] Section 403.7046(3)(b), F.S.

Section 23 amends s. 403.813, F.S., relating to conditions under which certain permits are not required for seawall restoration.

Present Situation

Section 403.813(1), F.S., provides that a permit is not required for the restoration of a seawall at its previous locations or upland of, or within 12 inches waterward of, its previous location.

Effect of Proposed Changes

The bill amends s. 403.813, F.S., to provide that a permit is not required for the restoration of a seawall at its previous location or upland of that location, or within 18 inches, instead of 12 inches, waterward of its previous location.

Section 25 amends s. 403.973, F.S., relating to expedited permitting of natural gas pipelines.

Present Situation

Section 403.973, F.S., provides for expedited permitting and a process for amendments to comprehensive plans for certain projects that are identified to encourage and facilitate the location and expansion of those types of economic development projects that offer job creation and high wages, strengthen and diversify the state's economy, and have been thoughtfully planned to take into consideration the protection of the state's environment.

Under s. 403.973, F.S., the secretary of the DEP must direct the creation of regional permit action teams for the purpose of expediting the review of permit applications and local comprehensive plan amendments submitted by:

- Businesses creating at least 50 jobs or a commercial or industrial development project that will be occupied by businesses that would individually or collectively create at least 50 jobs; or
- Businesses creating at least 25 jobs if the project is located in an enterprise zone, or in a county having a population of fewer than 75,000 or in a county having a population of fewer than 125,000 which is contiguous to a county having a population of fewer than 75,000, as determined by the most recent decennial census, residing in incorporated and unincorporated areas of the county.

Appeals of expedited permitting projects are subject to the summary hearing provisions of s. 120.574, F.S. The administrative law judge's recommended order is not the final state agency action unless the participating agencies of the state opt at the preliminary hearing conference to allow the administrative law judge's decision to constitute the final agency action. Where one state agency action is challenged, the agency of the state shall issue the final order within 45 working days of receipt of the administrative law judge's recommended order. In those proceedings where more than one state agency action is challenged, the governor shall issue the final order within 45 working days of receipt of the administrative law judge's recommended order.

Effect of Proposed Changes

The bill amends s. 403.973, F.S., to authorize expedited permitting for projects to construct interstate natural gas pipelines subject to certification by the Federal Energy Regulatory Commission.

Section 26 creates an unnumbered section of law, relating to land leases.

Current Situation

The Everglades Forever Act (EFA) was enacted in 1994 and is codified at s. 373.4592(5), F.S. It offers farmers impacted by the Everglades Restoration Project (Project) leases on several Board of Trustees parcels in the Everglades Agricultural Area in Palm Beach County. The law states that impacted farmers have the right to lease the parcels, upon expiration of the then existing leases, for a term of 20 years and at a rental rate determined by an appraisal using established state procedures. For those parcels that had previously been competitively bid, the rental rate may not be less than the rate the Board of Trustees received at that time. The Board of Trustees can also adjust the rental rate on an annual basis using an appropriate index, and update the appraisal at five-year intervals. If more than one impacted farmer desires to lease the same parcel of land, the one with the greatest number of acres affected by the Project has priority.[39]

The DEP developed new leases to implement the Act. Four of the leases are scheduled to expire on April 1, 2015 and three are scheduled to expire on January 31, 2016, December 31, 2016, and August 25, 2018, respectively. Five leases are issued to companies owned by affiliates of Florida Crystals Corporation (Florida Crystals) and two are issued to A. Duda and Sons, Inc. (Duda) They are located on non-conservation lands and state school lands.[40]

Situation Regarding the Florida Crystal Leases

The South Florida Water Management District (SFWMD) contacted the DEP to request that the five Florida Crystals leases be amended to extend the lease terms for an additional 30 years, and to delete a provision that allows the Board of Trustees to terminate a lease if the lessee ceases to be an impacted farmer. The extensions are a condition of a land exchange between SFWMD and Florida Crystals to secure additional stormwater treatment area that is critical to SFWMD's efforts under the Act[41]

Situation Regarding the Duda Leases

SFWMD contacted the DEP to request that the two Duda leases be extended for additional 30 year terms. The extensions have been requested as a condition of land acquisition negotiations between the SFWMD and Duda to secure property for water storage that is critical to SFWMD's efforts to protect the Caloosahatchee River and Estuary under the Northern Everglades and Estuary Protection Act (NEEP Act). To address water quality and quantity associated with the

[40] Board of Trustees of the Internal Improvement Trust Fund, *Meeting Agenda, January 23, 2013*, http://www.myflorida.com/myflorida/cabinet/agenda13/0123/BOT012313.pdf (last visited Apr. 18, 2013).
[41] *Id.*

existing flows from Lake Okeechobee to the Caloosahatchee River and Estuary, SWFMD will construct a surface water reservoir on the property acquired from Duda. The primary objectives will be to rehydrate Lake Hicpochee and intercept harmful excess flows to the Caloosahatchee River.[42]

Florida Administrative Code

A 20-year term was originally authorized in the Act for Florida Crystals' five leases. Pursuant to Rule 18-2.018(3)(a)1.b., F.A.C., the standard lease term for agricultural leases is six years. The DEP offered the following to assist the Board of Trustees in affirming that the Florida Crystals' leases are not standard leases:

- The leases are critical to SFWMD's acquisition of the 4,700 acres of private property adjacent to Stormwater Treatment Area 1W. Unless the leases are extended, the SFWMD will have to seek condemnation at great cost to the state. No other fiscally reasonable and technologically practical site exists for acquisition;
- The specific project that will be constructed on the exchanged lands is included in enforceable state and federal water quality consent orders issued by the DEP to the SFWMD and was mandated by the permits issued by the DEP under the federal Clean Water Act to improve the quality of water flowing into the Everglades;
- The five lessees are the farmers most impacted by acquisition of land for Everglades restoration and hydroperiod purposes as identified in the EFA; and
- The EFA recognizes the need to maintain the quality of life for South Florida residents, including those in agricultural-related jobs, which contribute to the regional economy.[43]

For the Duda leases, the DEP offered the following to assist the Board of Trustees in affirming that the leases are not standard leases:

- the lease extensions are critical to the SFWMD's acquisition of the lands needed for water storage and treatment as a component of both the NEEP Act and Caloosahatchee Plan;
- Duda remains one of the farmers most impacted by acquisition of land for Everglades restoration as identified in the EFA; and
- if the leases are not extended, SFWMD will have to seek alternative lands at significant additional costs with uncertain results.[44]

Public Interest

Pursuant to rule 18-2.018(1), F.A.C., the decision to authorize the use of Board of Trustees owned uplands requires a determination that such use is not contrary to the public interest. The public interest determination requires an evaluation of the probable impacts of the proposed activity on the uplands. All direct and indirect impacts related to the proposed activity, as well as the cumulative effects of those impacts, must be considered.

[42] *Id.*
[43] *Id.*
[44] *Id.*

The DEP offered information to the Board of Trustees to aid in making a determination that the leases for Florida Crystals and Duda are in the public interest, and not contrary to the public interest.[45]

Pursuant to rule 18-2.018(2)(i), F.A.C., equitable compensation is required when the use of uplands will limit or preempt use by the general public or will generate income or revenue for a private user. The rule directs the Board of Trustees to award authorization for such uses on the basis of competitive bidding rather than negotiation, unless it is determined by the Board of Trustees to be in the public interest pursuant to the results of an evaluation of the impacts, both direct and indirect, which may occur as a result of the proposed use.

The DEP offered information to assist the Board of Trustees to make the determination that waiving the competitive bid requirements for Florida Crystals and Duda were in the public interest.

There have been at least two objections to the Duda leases from other farmers. One was received from Hundley Farms, Inc., and one from Roth Farms, Inc. Both object to the Duda lease extensions being granted without being competitively bid.[46]

On April 11, 2013, the Florida Wildlife Federation petitioned for a formal administrative hearing challenging whether several of the leases are typical agricultural leases, whether they represent the greatest combination of benefits to the public, whether the lease extensions are necessary for the project proposed by the SFWMD, and other aspects of the leases and the process by which they were awarded.[47]

Effect of Proposed Changes

The bill:

- Creates an unnumbered section of law that ratifies the decisions of the Board of Trustees with respect to the Florida Crystal and Duda leases, numbered 1447, 1971S, 3420, 3433, 3543, 3422 and 1935/1935-S.
- States the legislative finding that the decision to authorize the use of Board of Trustees-owned uplands and the use of those lands as set forth in the leases is not contrary to the public interest, that it is in the public interest to waive the competitive bid process, that the leases are not standard agricultural leases, and that the leases should be amended on the terms and conditions approved by the Board of Trustees.
- States the legislative finding that notwithstanding any other provision of law, the Legislature finds that the lease amendments and extensions approved by the Board or Trustees are necessary for Everglades restoration purposes, are in the public interest, and provide the greatest combination of benefits to the public.
- Will effectively render the administrative hearing request by the Florida Wildlife Foundation moot.

Section 28 provides an effective date of July 1, 2013

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Section 4 Expanding the use of the phosphate tax for education could benefit the private sector but the benefits cannot be quantified.

Sections 5 and 24 The Special Event promoter would benefit from structuring lease fees around the actual size of the preemption and the flexibility provided for restructuring of temporary structures. The public would not benefit from this reduction because the promoter charges the vendor to participate in the event. Substantial savings are expected but cannot be calculated at this time.

Section 6 There would be a positive impact from the annual reduction or elimination of the annual fee for leases of sovereignty submerged land.

Section 7 The private sector will benefit from reduced lease fees related to docks and piers. The savings cannot be calculated at this time.

Section 9 According to the DEP, if a private sector entity is a CUP applicant, the proposed language may result in increased costs resulting from litigation. The bill envisions a WMD issuing proposed affirmative agency action for two applications, even though there is not adequate water for both. Therefore, it would appear that a private entity seeking a permit would either be forced to challenge a competing permit or be subject to such a challenge.

Section 12 The bill would have a positive effect on water well contractors by eliminating the requirement to obtain a separate local government water well construction permit, including any required fees.

Section 13 The bill would have a positive effect on water well contractors by eliminating the requirement to obtain any local government water well contractor licenses. It also expands the license to apply to all water systems, not just water well systems. The impact of this expansion is unknown and may create additional competition in the water systems business.

Section 14 The bill will ease some of the regulatory requirements for farm ponds, created wetlands, and certain water control districts. This will result in a positive but indeterminate affect on the private sector.

Section 15 There will be increased funds available for contamination cleanup so there could be increased participation in the program. By raising the individual facility limit, it could result in a lower number of facilities being able to take advantage of the program.

Section 16 Currently, if a person or entity is damaged as a result of a discharge or other condition of pollution covered in ss. 376.30 – 376.317, F.S., he or she has a cause of action to sue for damages. This bill limits those causes of action to situations where the offending party's activities are not regulated or authorized pursuant to ch. 403, F.S.

Section 19 According to the DEP, this legislation will save over 400 of Florida's manufacturing and industrial businesses an estimated $2 million per year. Approximately $1.4 million would be saved in Title V permit fees because they would be paying fees based on their "actual emissions" instead of their "adjusted allowable emissions." Synchronizing the Title V fee and annual operating report requirements will save the sources an additional estimated $600,000 by eliminating the need to compute and submit different emission calculations.

Section 22 The bill will provide more certainty for recovered materials dealers when applying for permits to operate with a locality. Ultimately, this will have a positive but indeterminate impact.

Section 25 The bill will have a sizeable impact on entities that wish to build natural gas pipelines in the state. The effect is indeterminate. Giving one party the option to force summary judgment could have a positive but indeterminate impact on judicial awards for parties. For parties suing the entities building natural gas pipelines, summary judgment could result in an indeterminate effect on awards.

C. Government Sector Impact:

Section 1 and 18 Electronic submissions should have an indeterminate reduction in paper costs for the DEP.

Section 4 By expanding the definition of "phosphate related expenses," local governments may have more flexibility in how they spend phosphate related fees, taxes, and penalties.

Sections 5 and 24 The fees for special event fees are calculated based on the number of event days multiplied by the annual rent, or five percent of any revenue generated from the special event, whichever is greater. The loss of revenue would be approximately $187,000 annually, based on data from seven fiscal years. The lease term would exceed the standard term of five years.

Section 7 The DEP will see a reduction in lease fees from certain private docks and piers. The negative effect on revenues is estimated at $1.24 million to the Internal Improvement Trust Fund; however, recurring revenue currently exceeds recurring expenditures by over $2 million and this recurring revenue reduction should not impact the trust fund's ability to meet department's needs. Also, this provision would require enhancement of the department's database at a cost of $13,000.

Section 8 According to the DEP, there would be costs incurred due to the rulemaking requirement, estimated at $50,000 for mooring field expansion. After the general permits are developed, there would be a revenue loss in permit fees in the Permit Fee Trust Fund. The DEP is expected to absorb any minor negative impact to permit fees with existing resources.

Section 10 According to the DEP, local governments may avoid some transactional costs associated with a permit modification.

Section 11 The DEP or a WMD could saving funds on postage if notifications are sent via electronic mail.

Section 13 Local governments would lose any fees currently charged as part of a local government requirement for obtaining a local water well contractor license.

Section 14 The exemptions for farm ponds and wetlands apply to all of Part IV of Chapter 373, F.S. These exemptions would have an insignificant fiscal impact to the department's Permit Fee Trust Fund.

Sections 17, 21, and 27 Allow stormwater utilities to collect fees from specific beneficiaries and delinquent fees as of July 1, 2013.

Section 19

Effect on the DEP

According to the DEP, the bill would enable the agency to synchronize the federally required emissions computation and reporting obligation with the Title V air operation permit fee calculation requirement. This would save the department significant time that goes into reviewing and processing two separate calculations that serve the same underlying purpose - to identify emissions.

Pursuant to s. 403.0873, F.S., all permit fees received under the DEP's federally approved Title V permitting program are deposited in the Air Pollution Control Trust Fund. Those fees must be used for the sole purpose of paying the direct and indirect costs of the DEP's Title V permitting program, which are enumerated under 40 CFR part 70. The DEP estimates that those costs to be $5.3 million in Fiscal Year 2012-2013 and that they will decline to $4.9 million by Fiscal Year 2017-2018. The trust fund reserve balance for the Title V program was $4.1 million in July 2012. With the estimated $1.4 million annual reduction in fee receipts that would occur as a result of the bill, the DEP estimates that the fund balance will increase to $4.9 million by Fiscal Year 2017-2018. This increase is related to several efficiencies that have occurred in the DEP's air program. In the event that unforeseeable circumstances arise and program costs exceed revenues, the DEP can adjust its fee by rule as provided under s. 403.0872, F.S.

Effect on Local Governments

The Title V permit fees in the Air Pollution Control Trust Fund must be used for the sole purpose of paying the direct and indirect costs of the DEP's federally approved Title V permitting program. The DEP may contract with local governments (or any other public or private entity) to perform Title V program services on its behalf. The DEP currently contracts with seven local governments to perform certain Title V program services. The above agency impact projections accommodate the maintenance of the 2012 contracts with these entities, so there are no local government impacts.

Total Revenue Impacts by Fund[48]:

Internal Improvement Trust Fund	($1.4) million (sections 5 and 7)
Air Pollution Trust Fund	($1.4) million (section 19)
Permit Fee Trust Fund	($0.05) million (section 8)
Service Charge to General Revenue	($231,200)

VI. Technical Deficiencies:

None.

VII. Related Issues:

Section 15 Provisions contained in the CS conflict with provisions contained in CS/SB 1416.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 23, 2013:

- For both counties and municipalities, the bill provides clarifying language regarding requests for additional information for pending development permits and stipulates

[48] Senate Subcommittee on General Government, *Senate Bill 1684 Fiscal Summary* (Apr. 18, 2013) (on file with Senate Committee on Environmental Preservation and Conservation).

that the limit on requests for additional information does not apply to building permits.
- Clarifies that marinas with slips that are open for rent to the public are able to receive a discount of 30 percent on their annual lease fees.
- Specifies that only seawater desalination plants are protected from having their water allocation reduced.
- Clarifies that it is the DEP or a WMD that has authority to deem an application for a water application complete.
- Allows for electronic mail notification of changes to a water permit during water shortage.
- Includes local county health departments in the list of entities that may have sole responsibility for issuing well permits if authorized by the DEP.
- Clarifies that manmade, excavated farm ponds may not be altered or maintained in a way that connects or expands that farm pond to an existing wetland.
- Exempts certain water control districts created before July 1, 2013 from wetland or water quality regulations.
- Provides certain requirements for testing procedures used when determining if a proposed discharge will lower the quality of receiving waters below what it is classified as.
- Clarifies that beneficiaries of stormwater utilities may be charged fees for those services and provides a cause of action for recovering those fees.
- Removes a 90 day processing deadline from the requirement for local governments to process recovered materials dealers registrations with the locality.
- Provides a cause of action for recovered materials dealers alleging a violation of the section regarding recovered materials dealers.
- Removes provisions related to a Department of Agriculture and Consumer Services regional water supply planning program.
- Ratifies certain leases by the Board of Trustees and states the legislative finding that the leases are in the public interest and not contrary to the public interest.

CS by Environmental Preservation and Conservation on April 2, 2013:
- Adds two sections related to the electronic submission of forms to the DEP, authorizing the DEP to adopt rules regarding electronic submission of forms to the DEP;
- Adds one section that expands the types of activities qualifying as "phosphate-related expenses";
- Regarding special events on sovereignty submerged lands, the bill expands the allowable period of a lease under that section of law from 30 days or less to 45 days or less. The bill also provides that the lease or consent of use should include a lease fee (if applicable) based solely on the period and size of the preemption. The lease or consent of use should also include conditions to reconfigure temporary structures within the lease area;
- Rather than amend s. 403.814, F.S., as in the original bill, the bill creates s. 403.8141, F.S. The bill expands the allowable period of leases from 30 to 45 days. The bill also removes provisions from the original bill limiting the number of seagrass studies and

removes a provision requiring an excess of 25 percent of the preempted area from a previous lease to be added to a new lease to accommodate economic expansion;
- Removes a provision stipulating that dock lease fees for standard term leases are 6 percent of the annual gross dockage income;
- Adds a section relating to the lease of sovereignty submerged lands for private residential docks. The bill provides that lease fees are not required for private residential single-family docks or private residential multifamily docks, given certain circumstances;
- Removes an existing provision directing the DEP to adopt by rule one or more general permits for local governments to construct, operate, and maintain public marina facilities in s. 373.118, F.S. The bill also removes existing provisions from s. 373.118, F.S., that limit general permits for marinas and mooring fields authorized under the general permits described in that section of statute to an area of 50,000 feet or less and that require a marina or mooring field permitted under that section of statute to obtain Clean Marina Program status prior to opening for operation and to maintain it for the life of the facility;
- Adds a provision authorizing the Board of Trustees to delegate authority to the DEP to issue leases for mooring fields under the general permit described in s. 373.118, F.S.;
- Adds a section that limits the ability of a WMD to reduce existing permitted allocations of water for drought resistant water supplies, including water desalination plants;
- Adds a provision to the bill stating that the issuance of well permits is the sole responsibility of the WMDs. The bill adds that a local government may have the responsibility for permitting water wells delegated to it;
- Removes a section from the bill defining the term "mean annual flood line";
- Removes a provision from the bill exempting water control districts operating pursuant to ch. 298, F.S., from further wetland or water quality regulations imposed pursuant to chapters 125, 163, and 166, F.S., under certain conditions;
- Adds a section that provides that cooperative water planning efforts include utility companies, private landowners, water consumers and the DACS. It also encourages municipalities, counties and special districts to create multijurisdictional water supply entities;
- Adds a section that includes "self-suppliers" to the list of entities the WMDs must help with meeting water supply needs;
- Adds a provision directing the WMDs, in developing water supply plans, to describe any adjustment or deviation from information provided by the DACS regarding agricultural water demand projections and present the original data along with the adjusted data;
- Makes changes to section 18 of the bill to conform language to CS/SB 948, regarding agricultural water supply planning;
- Removes a section from the bill regarding testing procedures for measuring deviations from water quality standards;
- Adds a section defining the term "beneficiary," as it relates to what entities a local government can collect stormwater fees from; and

- Adds a section that prevents localities from competing with recovered materials dealers when a dealer submits a registration application with the locality and that locality has it under review. It also directs localities to process such applications within 90 days.

B. Amendments:

None.

By the Committee on Environmental Preservation and Conservation; and Senator Altman

592-03473B-13 20131684c1

A bill to be entitled

An act relating to environmental regulation; amending s. 20.255, F.S.; authorizing the Department of Environmental Protection to adopt rules requiring or incentivizing the electronic submission of forms, documents, fees, and reports required for certain permits; amending ss. 125.022 and 166.033, F.S.; providing requirements for the review of development permit applications by counties and municipalities; amending s. 211.3103, F.S.; revising the definition of "phosphate-related expenses" to include maintenance and restoration of certain lands; amending s. 253.0345, F.S.; revising provisions for the duration of leases and letters of consent issued by the Board of Trustees of the Internal Improvement Trust Fund for special events; providing conditions for fees relating to such leases and letters of consent; creating s. 253.0346, F.S.; defining the term "first-come, first-served basis"; providing conditions for the discount and waiver of lease fees and surcharges for certain marinas, boatyards, and marine retailers; providing applicability; amending s. 253.0347, F.S.; exempting lessees of certain docks from lease fees; amending s. 373.118, F.S.; deleting provisions requiring the department to adopt general permits for public marina facilities; deleting certain requirements under general permits for public marina facilities and mooring fields; limiting the number of vessels for mooring fields authorized under such permits; amending

Florida Senate - 2013 CS for SB 1684

592-03473B-13 20131684c1

s. 373.233, F.S.; clarifying conditions for competing consumptive use of water applications; amending s. 373.236, F.S.; prohibiting water management districts from reducing certain allocations as a result of activities relating to sources that are resistant to drought; providing an exception; amending s. 373.308, F.S.; providing that issuance of well permits is the sole responsibility of water management districts; prohibiting government entities from imposing requirements and fees and establishing programs for installation and abandonment of groundwater wells; amending s. 373.323, F.S.; providing that licenses issued by water management districts are the only water well construction licenses required for construction, repair, or abandonment of water wells; authorizing licensed water well contractors to install equipment for all water systems; amending s. 373.406, F.S.; exempting specified ponds, ditches, and wetlands from surface water management and storage requirements; amending s. 373.701, F.S.; providing a legislative declaration that efforts to adequately and dependably meet water needs; requiring the cooperation of utility companies, private landowners, water consumers, and the Department of Agriculture and Consumer Services; amending s. 373.703, F.S.; requiring the governing boards of water management districts to assist self-suppliers, among others, in meeting water supply demands; authorizing the governing boards to contract with self-suppliers for

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

the purpose of carrying out its powers; amending s.373.709, F.S.; requiring water management districts to coordinate and cooperate with the Department of Agriculture and Consumer Services for regional water supply planning; providing criteria and requirements for determining agricultural water supply demand projections; amending s. 376.313, F.S.; holding harmless a person who discharges pollution pursuant to ch. 403, F.S.; amending s. 403.031, F.S.; defining the term "beneficiaries"; amending s. 403.061, F.S.; authorizing the department to adopt rules requiring or incentivizing the electronic submission of forms, documents, fees, and reports required for certain permits; amending s. 403.0872, F.S.; extending the payment deadline of permit fees for major sources of air pollution and conforming the date for related notice by the department; revising provisions for the calculation of such annual fees; amending s. 403.7046, F.S.; revising requirements relating to recovered materials; amending s. 403.813, F.S.; revising conditions under which certain permits are not required for seawall restoration projects; creating s. 403.8141, F.S.; requiring the Department of Environmental Protection to establish general permits for special events; providing permit requirements; amending s. 403.973, F.S.; authorizing expedited permitting for natural gas pipelines, subject to specified certification; providing that natural gas pipelines are subject to certain requirements;

providing that natural gas pipelines are eligible for certain review; amending s. 570.076, F.S.; conforming a cross-reference; amending s. 570.085, F.S.; requiring the Department of Agriculture and Consumer Services to establish an agricultural water supply planning program; providing program requirements; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (8) is added to section 20.255, Florida Statutes, to read:

20.255 Department of Environmental Protection.—There is created a Department of Environmental Protection.

(8) The department may adopt rules requiring or incentivizing electronic submission of forms, documents, fees, or reports required for permits under chapter 161, chapter 253, chapter 373, chapter 376, or chapter 403. The rules must reasonably accommodate technological or financial hardship and must provide procedures for obtaining an exemption due to such hardship.

Section 2. Section 125.022, Florida Statutes, is amended to read:

125.022 Development permits.—

(1) When reviewing an application for a development permit that is certified by a professional listed in s. 403.0877, a county may not request additional information from the applicant more than three times, unless the applicant waives the limitation in writing. Prior to a third request for additional

information, the applicant shall be offered a meeting to try and resolve outstanding issues. If the applicant believes the request for additional information is not authorized by ordinance, rule, statute, or other legal authority, the county, at the applicant's request, shall proceed to process the application for approval or denial.

(2) When a county denies an application for a development permit, the county shall give written notice to the applicant. The notice must include a citation to the applicable portions of an ordinance, rule, statute, or other legal authority for the denial of the permit.

(3) As used in this section, the term "development permit" has the same meaning as in s. 163.3164.

(4) For any development permit application filed with the county after July 1, 2012, a county may not require as a condition of processing or issuing a development permit that an applicant obtain a permit or approval from any state or federal agency unless the agency has issued a final agency action that denies the federal or state permit before the county action on the local development permit.

(5) Issuance of a development permit by a county does not in any way create any rights on the part of the applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the county for issuance of the permit if the applicant fails to obtain requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law. A county may attach such a disclaimer to the issuance of a development permit and may include a permit

condition that all other applicable state or federal permits be obtained before commencement of the development.

(6) This section does not prohibit a county from providing information to an applicant regarding what other state or federal permits may apply.

Section 3. Section 166.033, Florida Statutes, is amended to read:

166.033 Development permits.—

(1) When reviewing an application for a development permit that is certified by a professional listed in s. 403.0877, a municipality may not request additional information from the applicant more than three times, unless the applicant waives the limitation in writing. Prior to a third request for additional information, the applicant shall be offered a meeting to try and resolve outstanding issues. If the applicant believes the request for additional information is not authorized by ordinance, rule, statute, or other legal authority, the municipality, at the applicant's request, shall proceed to process the application for approval or denial.

(2) When a municipality denies an application for a development permit, the municipality shall give written notice to the applicant. The notice must include a citation to the applicable portions of an ordinance, rule, statute, or other legal authority for the denial of the permit.

(3) As used in this section, the term "development permit" has the same meaning as in s. 163.3164.

(4) For any development permit application filed with the municipality after July 1, 2012, a municipality may not require as a condition of processing or issuing a development permit

that an applicant obtain a permit or approval from any state or federal agency unless the agency has issued a final agency action that denies the federal or state permit before the municipal action on the local development permit.

(5) Issuance of a development permit by a municipality does not in any way create any right on the part of an applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the municipality for issuance of the permit if the applicant fails to obtain requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law. A municipality may attach such a disclaimer to the issuance of development permits and may include a permit condition that all other applicable state or federal permits be obtained before commencement of the development.

(6) This section does not prohibit a municipality from providing information to an applicant regarding what other state or federal permits may apply.

Section 4. Paragraph (c) of subsection (6) of section 211.3103, Florida Statutes is amended to read:

211.3103 Levy of tax on severance of phosphate rock; rate, basis, and distribution of tax.—

(6)

(c) For purposes of this section, "phosphate-related expenses" means those expenses that provide for infrastructure or services in support of the phosphate industry, including environmental education, reclamation or restoration of phosphate lands, maintenance and restoration of reclaimed lands and county

owned environmental lands which were formerly phosphate lands, community infrastructure on such reclaimed lands and county owned environmental lands which were formerly phosphate lands, and similar expenses directly related to support of the industry.

Section 5. Section 253.0345, Florida Statutes, is amended to read:

253.0345 Special events; submerged land leases.—

(1) The trustees may ~~are authorized to~~ issue leases or consents of use ~~or leases~~ to riparian landowners, special ~~and~~ event promoters, and boat show owners to allow the installation of temporary structures, including docks, moorings, pilings, and access walkways, on sovereign submerged lands solely for the purpose of facilitating boat shows and displays in, or adjacent to, established marinas or government-owned ~~government owned~~ upland property. Riparian owners of adjacent uplands who are not seeking a lease or consent of use shall be notified by certified mail of any request for such a lease or consent of use before ~~prior to~~ approval by the trustees. The trustees shall balance the interests of any objecting riparian owners with the economic interests of the public and the state as a factor in determining whether ~~if~~ a lease or consent of use should be executed over the objection of adjacent riparian owners. This section does ~~shall~~ not apply to structures for viewing motorboat racing, high-speed motorboat contests, or high-speed displays in waters where manatees are known to frequent.

(2) A lease or consent of use for a ~~Any~~ special event under ~~provided for in~~ subsection (1):

(a) Shall be for a period not to exceed 45 ~~30~~ days and a

duration not to exceed 10 consecutive years.

(b) Shall include a lease fee, if applicable, based solely on the period and actual size of the preemption and conditions to allow reconfiguration of temporary structures within the lease area with notice to the department of the configuration and size of preemption within the lease area.

(c) The lease or letter of consent ~~of use~~ may ~~also~~ contain appropriate requirements for removal of the temporary structures, including the posting of sufficient surety to guarantee appropriate funds for removal of the structures should the promoter or riparian owner fail to do so within the time specified in the agreement.

(3) ~~Nothing in~~ This section does not ~~shall be construed to~~ allow any lease or consent of use that would result in harm to the natural resources of the area as a result of the structures or the activities of the special events agreed to.

Section 6. Section 253.0346, Florida Statutes, is created to read:

253.0346 Lease of sovereignty submerged lands for marinas, boatyards, and marine retailers.—

(1) For purposes of this section, the term "first-come, first-served basis" means the facility operates on state-owned submerged land for which:

(a) There is not a club membership, stock ownership, equity interest, or other qualifying requirement.

(b) Rental terms do not exceed 12 months and do not include automatic renewal rights or conditions.

(2) For marinas that are open to the public on a first-come, first-served basis and for which at least 90 percent of

the slips are open to the public, a discount of 30 percent on the annual lease fee shall apply if dockage rate sheet publications and dockage advertising clearly state that slips are open to the public on a first-come, first-served basis.

(3) For a facility designated by the department as a Clean Marina, Clean Boatyard, or Clean Marine Retailer under the Clean Marina Program:

(a) A discount of 10 percent on the annual lease fee shall apply if the facility:

1. Actively maintains designation under the program.

2. Complies with the terms of the lease.

3. Does not change use during the term of the lease.

(b) Extended-term lease surcharges shall be waived if the facility:

1. Actively maintains designation under the program.

2. Complies with the terms of the lease.

3. Does not change use during the term of the lease.

4. Is available to the public on a first-come, first-served basis.

(c) If the facility is in arrears on lease fees or fails to comply with paragraph (b), the facility is not eligible for the discount or waiver under this subsection until arrears have been paid and compliance with the program has been met.

(4) This section applies to new leases or amendments to leases effective after July 1, 2013.

Section 7. Subsection (2) of section 253.0347, Florida Statutes, is amended to read:

253.0347 Lease of sovereignty submerged lands for private residential docks and piers.—

(2)(a) A standard lease contract for sovereignty submerged lands for a private residential single-family dock or pier, private residential multifamily dock or pier, or private residential multislip dock must specify the amount of lease fees as established by the Board of Trustees of the Internal Improvement Trust Fund.

(b) If private residential multifamily docks or piers, private residential multislip docks, and other private residential structures pertaining to the same upland parcel include a total of no more than one wet slip for each approved upland residential unit, the lessee is not required to pay a lease fee on a preempted area of 10 square feet or less of sovereignty submerged lands for each linear foot of shoreline in which the lessee has a sufficient upland interest as determined by the Board of Trustees of the Internal Improvement Trust Fund.

(c) A lessee of sovereignty submerged lands for a private residential single-family dock or pier, private residential multifamily dock or pier, or private residential multislip dock is not required to pay a lease fee on revenue derived from the transfer of fee simple or beneficial ownership of private residential property that is entitled to a homestead exemption pursuant to s. 196.031 at the time of transfer.

(d) A lessee of sovereignty submerged lands for a private residential single-family dock or pier, private residential multifamily dock or pier, or private residential multislip dock must pay a lease fee on any income derived from a wet slip, dock, or pier in the preempted area under lease in an amount determined by the Board of Trustees of the Internal Improvement Trust Fund.

(e) A lessee of sovereignty submerged land for a private residential single-family dock designed to moor up to four boats is not required to pay lease fees for a preempted area equal to or less than 10 times the riparian shoreline along sovereignty submerged land on the affected waterbody or the square footage authorized for a private residential single-family dock under rules adopted by the Board of Trustees of the Internal Improvement Trust Fund for the management of sovereignty submerged lands, whichever is greater.

(f) A lessee of sovereignty submerged land for a private residential multifamily dock designed to moor boats up to the number of units within the multifamily development is not required to pay lease fees for a preempted area equal to or less than 10 times the riparian shoreline along sovereignty submerged land on the affected waterbody times the number of units with docks in the private multifamily development providing for existing docks.

Section 8. Subsection (4) of section 373.118, Florida Statutes, is amended to read:

373.118 General permits; delegation.—

(4) The department shall adopt by rule one or more general permits for local governments to construct, operate, and maintain ~~public marina facilities,~~ public mooring fields, public boat ramps, including associated courtesy docks, and associated parking facilities located in uplands. Such general permits adopted by rule shall include provisions to ensure compliance with part IV of this chapter, subsection (1), and the criteria necessary to include the general permits in a state programmatic general permit issued by the United States Army Corps of

Engineers under s. 404 of the Clean Water Act, Pub. L. No. 92-500, as amended, 33 U.S.C. ss. 1251 et seq. A facility authorized under such general permits is exempt from review as a development of regional impact if the facility complies with the comprehensive plan of the applicable local government. Such facilities shall be consistent with the local government manatee protection plan required pursuant to chapter 379 ~~and shall obtain Clean Marina Program status prior to opening for operation and maintain that status for the life of the facility~~. ~~Marinas and mooring fields authorized under any such general permit shall not exceed an area of 50,000 square feet over wetlands and other surface waters~~. Mooring fields authorized under such general permits may not exceed 100 vessels. All facilities permitted under this section shall be constructed, maintained, and operated in perpetuity for the exclusive use of the general public. The department is authorized to have delegation from the Board of Trustees to issue leases for mooring fields that meet the requirements of this general permit. The department shall initiate the rulemaking process within 60 days after the effective date of this act.

Section 9. Subsection (1) of section 373.233, Florida Statutes, is amended to read:

373.233 Competing applications.—

(1) If two or more applications that ~~which~~ otherwise comply with the provisions of this part are pending for a quantity of water that is inadequate for both or all, or which for any other reason are in conflict, and the governing board or department has deemed the application complete, the governing board or the department has ~~shall have~~ the right to approve or modify the

application which best serves the public interest.

Section 10. Subsection (4) of section 373.236, Florida Statutes, is amended to read:

373.236 Duration of permits; compliance reports.—

(4) Where necessary to maintain reasonable assurance that the conditions for issuance of a 20-year permit can continue to be met, the governing board or department, in addition to any conditions required pursuant to s. 373.219, may require a compliance report by the permittee every 10 years during the term of a permit. The Suwannee River Water Management District may require a compliance report by the permittee every 5 years through July 1, 2015, and thereafter every 10 years during the term of the permit. This report shall contain sufficient data to maintain reasonable assurance that the initial conditions for permit issuance are met. Following review of this report, the governing board or the department may modify the permit to ensure that the use meets the conditions for issuance. Permit modifications pursuant to this subsection shall not be subject to competing applications, provided there is no increase in the permitted allocation or permit duration, and no change in source, except for changes in source requested by the district. In order to promote the sustainability of natural systems through the diversification of water supplies to include sources that are resistant to drought, a water management district may not reduce an existing permitted allocation of water during the permit term as a result of planned future construction of, or additional water becoming available from, sources that are resistant to drought, including, but not limited to, a seawater desalination plant, unless such reductions are conditions of a

permit with the water management district. Except as otherwise provided in this subsection, this subsection does ~~shall~~ not ~~be construed to~~ limit the existing authority of the department or the governing board to modify or revoke a consumptive use permit.

Section 11. Subsection (1) of section 373.308, Florida Statutes, is amended to read:

373.308 Implementation of programs for regulating water wells.—

(1) The department shall authorize the governing board of a water management district to implement a program for the issuance of permits for the location, construction, repair, and abandonment of water wells. Upon authorization from the department, issuance of well permits will be the sole responsibility of the water management district or delegated local government. Other government entities may not impose additional or duplicate requirements or fees or establish a separate program for the permitting of the location, abandonment, boring, or other activities reasonably associated with the installation and abandonment of a groundwater well.

Section 12. Subsections (1) and (10) of section 373.323, Florida Statutes, are amended to read:

373.323 Licensure of water well contractors; application, qualifications, and examinations; equipment identification.—

(1) Every person who wishes to engage in business as a water well contractor shall obtain from the water management district a license to conduct such business. Licensure under this part by a water management district shall be the only water well construction license required for the construction, repair,

or abandonment of water wells in the state or any political subdivision thereof.

(10) Water well contractors licensed under this section may install, repair, and modify pumps and tanks in accordance with the Florida Building Code, Plumbing; Section 612—Wells pumps and tanks used for private potable water systems. In addition, licensed water well contractors may install pumps, tanks, and water conditioning equipment for all water ~~well~~ systems.

Section 13. Subsections (13) and (14) are added to section 373.406, Florida Statutes, to read:

373.406 Exemptions.—The following exemptions shall apply:

(13) Nothing in this part, or in any rule, regulation, or order adopted pursuant to this part, applies to construction, alteration, operation, or maintenance of any wholly owned, manmade farm ponds as defined in s. 403.927 constructed entirely in uplands.

(14) Nothing in this part, or in any rule, regulation, or order adopted pursuant to this part, may require a permit for activities affecting wetlands created solely by the unauthorized flooding or interference with the natural flow of surface water caused by an unaffiliated adjoining landowner. This exemption does not apply to activities that discharge dredged or fill material into waters of the United States, including wetlands, subject to federal jurisdiction under section 404 of the federal Clean Water Act, 33 U.S.C. s. 1344.

Section 14. Subsection (3) of section 373.701, Florida Statutes, is amended to read:

373.701 Declaration of policy.—It is declared to be the policy of the Legislature:

(3) Cooperative efforts between municipalities, counties, utility companies, private landowners, water consumers, water management districts, ~~and~~ the Department of Environmental Protection, and the Department of Agriculture and Consumer Services are necessary ~~mandatory~~ in order to meet the water needs of rural and rapidly urbanizing areas in a manner that will supply adequate and dependable supplies of water where needed without resulting in adverse effects upon the areas from which ~~such~~ water is withdrawn. Such efforts should employ ~~use~~ all practical means of obtaining water, including, but not limited to, withdrawals of surface water and groundwater, reuse, and desalination, and will require ~~necessitate not only~~ cooperation and ~~but also~~ well-coordinated activities. Municipalities, counties, and special districts are encouraged to create multijurisdictional water supply entities or regional water supply authorities as authorized in s. 373.713 ~~or multijurisdictional water supply entities~~.

Section 15. Subsections (1), (2), and (9) of section 373.703, Florida Statutes, are amended to read:

373.703 Water production; general powers and duties.—In the performance of, and in conjunction with, its other powers and duties, the governing board of a water management district existing pursuant to this chapter:

(1) Shall engage in planning to assist counties, municipalities, special districts, publicly owned and privately owned water utilities, multijurisdictional water supply entities, or regional water supply authorities, or self-suppliers in meeting water supply needs in such manner as will give priority to encouraging conservation and reducing adverse

environmental effects of improper or excessive withdrawals of water from concentrated areas. As used in this section and s. 373.707, regional water supply authorities are regional water authorities created under s. 373.713 or other laws of this state. As used in part VII of this chapter, self-suppliers are persons who obtain surface or groundwater from a source other than a public water supply.

(2) Shall assist counties, municipalities, special districts, publicly owned or privately owned water utilities, multijurisdictional water supply entities, or regional water supply authorities, or self-suppliers in meeting water supply needs in such manner as will give priority to encouraging conservation and reducing adverse environmental effects of improper or excessive withdrawals of water from concentrated areas.

(9) May join with one or more other water management districts, counties, municipalities, special districts, publicly owned or privately owned water utilities, multijurisdictional water supply entities, or regional water supply authorities, or self-suppliers for the purpose of carrying out any of its powers, and may contract with such other entities to finance acquisitions, construction, operation, and maintenance, provided such contracts are consistent with the public interest. The contract may provide for contributions to be made by each party to the contract ~~thereto~~, for the division and apportionment of the expenses of acquisitions, construction, operation, and maintenance, and for the division and apportionment of resulting the benefits, services, and products ~~therefrom~~. The contracts may contain other covenants and agreements necessary and

appropriate to accomplish their purposes.

Section 16. Subsection (1), paragraph (a) of subsection (2), and subsection (3) of section 373.709, Florida Statutes, are amended to read:

373.709 Regional water supply planning.—

(1) The governing board of each water management district shall conduct water supply planning for a ~~any~~ water supply planning region within the district identified in the appropriate district water supply plan under s. 373.036, where it determines that existing sources of water are not adequate to supply water for all existing and future reasonable-beneficial uses and to sustain the water resources and related natural systems for the planning period. The planning must be conducted in an open public process, in coordination and cooperation with local governments, regional water supply authorities, government-owned and privately owned water and wastewater utilities, multijurisdictional water supply entities, self-suppliers, reuse utilities, the Department of Environmental Protection, the Department of Agriculture and Consumer Services, and other affected and interested parties. The districts shall actively engage in public education and outreach to all affected local entities and their officials, as well as members of the public, in the planning process and in seeking input. During preparation, but before ~~prior to~~ completion of the regional water supply plan, the district shall ~~must~~ conduct at least one public workshop to discuss the technical data and modeling tools anticipated to be used to support the regional water supply plan. The district shall also hold several public meetings to communicate the status, overall conceptual intent, and impacts

of the plan on existing and future reasonable-beneficial uses and related natural systems. During the planning process, a local government may choose to prepare its own water supply assessment to determine if existing water sources are adequate to meet existing and projected reasonable-beneficial needs of the local government while sustaining water resources and related natural systems. The local government shall submit such assessment, including the data and methodology used, to the district. The district shall consider the local government's assessment during the formation of the plan. A determination by the governing board that initiation of a regional water supply plan for a specific planning region is not needed pursuant to this section is ~~shall be~~ subject to s. 120.569. The governing board shall reevaluate the ~~such a~~ determination at least once every 5 years and shall initiate a regional water supply plan, if needed, pursuant to this subsection.

(2) Each regional water supply plan must ~~shall~~ be based on at least a 20-year planning period and must ~~shall~~ include, but need not be limited to:

(a) A water supply development component for each water supply planning region identified by the district which includes:

1. A quantification of the water supply needs for all existing and future reasonable-beneficial uses within the planning horizon. The level-of-certainty planning goal associated with identifying the water supply needs of existing and future reasonable-beneficial uses must ~~shall~~ be based upon meeting those needs for a 1-in-10-year drought event.

a. Population projections used for determining public water

supply needs must be based upon the best available data. In determining the best available data, the district shall consider the University of Florida's Bureau of Economic and Business Research (BEBR) medium population projections and any population projection data and analysis submitted by a local government pursuant to the public workshop described in subsection (1) if the data and analysis support the local government's comprehensive plan. Any adjustment of or deviation from the BEBR projections must be fully described, and the original BEBR data must be presented along with the adjusted data.

b. Agricultural demand projections used for determining the needs of agricultural self-suppliers must be based upon the best available data. In determining the best available data for agricultural self-supplied water needs, the district shall consider the data indicative of future water supply demands provided by the Department of Agriculture and Consumer Services pursuant to s. 570.085. Any adjustment of or deviation from the data provided by the Department of Agriculture and Consumer Services must be fully described, and the original data must be presented along with the adjusted data.

2. A list of water supply development project options, including traditional and alternative water supply project options, from which local government, government-owned and privately owned utilities, regional water supply authorities, multijurisdictional water supply entities, self-suppliers, and others may choose for water supply development. In addition to projects listed by the district, such users may propose specific projects for inclusion in the list of ~~alternative~~ water supply development project options ~~projects~~. If such users propose a

project to be listed as a ~~an alternative~~ water supply project, the district shall determine whether it meets the goals of the plan, and, if so, it shall be included in the list. The total capacity of the projects included in the plan must ~~shall~~ exceed the needs identified in subparagraph 1. and shall take into account water conservation and other demand management measures, as well as water resources constraints, including adopted minimum flows and levels and water reservations. Where the district determines it is appropriate, the plan should specifically identify the need for multijurisdictional approaches to project options that, based on planning level analysis, are appropriate to supply the intended uses and that, based on such analysis, appear to be permittable and financially and technically feasible. The list of water supply development options must contain provisions that recognize that alternative water supply options for agricultural self-suppliers are limited.

3. For each project option identified in subparagraph 2., the following must ~~shall~~ be provided:

a. An estimate of the amount of water to become available through the project.

b. The timeframe in which the project option should be implemented and the estimated planning-level costs for capital investment and operating and maintaining the project.

c. An analysis of funding needs and sources of possible funding options. For alternative water supply projects the water management districts shall provide funding assistance in accordance with s. 373.707(8).

d. Identification of the entity that should implement each

project option and the current status of project implementation.

(3) The water supply development component of a regional water supply plan which deals with or affects public utilities and public water supply for those areas served by a regional water supply authority and its member governments within the boundary of the Southwest Florida Water Management District shall be developed jointly by the authority and the district. In areas not served by regional water supply authorities, or other multijurisdictional water supply entities, and where opportunities exist to meet water supply needs more efficiently through multijurisdictional projects identified pursuant to paragraph (2)(a), water management districts are directed to assist in developing multijurisdictional approaches to water supply project development jointly with affected water utilities, special districts, self-suppliers, and local governments.

Section 17. Subsection (3) of section 376.313, Florida Statutes, is amended to read:

376.313 Nonexclusiveness of remedies and individual cause of action for damages under ss. 376.30-376.317.—

(3) Except as provided in s. 376.3078(3) and (11), nothing contained in ss. 376.30-376.317 prohibits any person from bringing a cause of action in a court of competent jurisdiction for all damages resulting from a discharge or other condition of pollution covered by ss. 376.30-376.317 which was not authorized pursuant to chapter 403. Nothing in this chapter shall prohibit or diminish a party's right to contribution from other parties jointly or severally liable for a prohibited discharge of pollutants or hazardous substances or other pollution

conditions. Except as otherwise provided in subsection (4) or subsection (5), in any such suit, it is not necessary for such person to plead or prove negligence in any form or manner. Such person need only plead and prove the fact of the prohibited discharge or other pollutive condition and that it has occurred. The only defenses to such cause of action shall be those specified in s. 376.308.

Section 18. Subsection (22) is added to section 403.031, Florida Statutes, to read:

403.031 Definitions.—In construing this chapter, or rules and regulations adopted pursuant hereto, the following words, phrases, or terms, unless the context otherwise indicates, have the following meanings:

(22) "Beneficiary" means any person, partnership, corporation, business entity, charitable organization, not-for-profit corporation, state, county, district, authority, or municipal unit of government or any other separate unit of government created or established by law.

Section 19. Subsection (43) is added to section 403.061, Florida Statutes, to read:

403.061 Department; powers and duties.—The department shall have the power and the duty to control and prohibit pollution of air and water in accordance with the law and rules adopted and promulgated by it and, for this purpose, to:

(43) Adopt rules requiring or incentivizing the electronic submission of forms, documents, fees, or reports required for permits issued under chapter 161, chapter 253, chapter 373, chapter 376, or this chapter. The rules must reasonably accommodate technological or financial hardship and provide

procedures for obtaining an exemption due to such hardship.

The department shall implement such programs in conjunction with its other powers and duties and shall place special emphasis on reducing and eliminating contamination that presents a threat to humans, animals or plants, or to the environment.

Section 20. Subsection (11) of section 403.0872, Florida Statutes, is amended to read:

403.0872 Operation permits for major sources of air pollution; annual operation license fee.—Provided that program approval pursuant to 42 U.S.C. s. 7661a has been received from the United States Environmental Protection Agency, beginning January 2, 1995, each major source of air pollution, including electrical power plants certified under s. 403.511, must obtain from the department an operation permit for a major source of air pollution under this section. This operation permit is the only department operation permit for a major source of air pollution required for such source; provided, at the applicant's request, the department shall issue a separate acid rain permit for a major source of air pollution that is an affected source within the meaning of 42 U.S.C. s. 7651a(1). Operation permits for major sources of air pollution, except general permits issued pursuant to s. 403.814, must be issued in accordance with the procedures contained in this section and in accordance with chapter 120; however, to the extent that chapter 120 is inconsistent with the provisions of this section, the procedures contained in this section prevail.

(11) Each major source of air pollution permitted to operate in this state must pay between January 15 and April

~~March~~ 1 of each year, upon written notice from the department, an annual operation license fee in an amount determined by department rule. The annual operation license fee shall be terminated immediately in the event the United States Environmental Protection Agency imposes annual fees solely to implement and administer the major source air-operation permit program in Florida under 40 C.F.R. s. 70.10(d).

(a) The annual fee must be assessed based upon the source's previous year's emissions and must be calculated by multiplying the applicable annual operation license fee factor times the tons of each regulated air pollutant actually emitted, as calculated in accordance with department's emissions computation and reporting rules. The annual fee shall only apply to those regulated pollutants, ~~(~~except carbon monoxide~~)~~ and greenhouse gases, for which an allowable numeric emission limiting standard is specified in ~~allowed to be emitted per hour by specific condition of~~ the source's most recent construction or operation permit~~, times the annual hours of operation allowed by permit condition~~; provided, however, that:

1. The license fee factor is $25 or another amount determined by department rule which ensures that the revenue provided by each year's operation license fees is sufficient to cover all reasonable direct and indirect costs of the major stationary source air-operation permit program established by this section. The license fee factor may be increased beyond $25 only if the secretary of the department affirmatively finds that a shortage of revenue for support of the major stationary source air-operation permit program will occur in the absence of a fee factor adjustment. The annual license fee factor may never

exceed $35.

~~2. For any source that operates for fewer hours during the calendar year than allowed under its permit, the annual fee calculation must be based upon actual hours of operation rather than allowable hours if the owner or operator of the source documents the source's actual hours of operation for the calendar year. For any source that has an emissions limit that is dependent upon the type of fuel burned, the annual fee calculation must be based on the emissions limit applicable during actual hours of operation.~~

~~3. For any source whose allowable emission limitation is specified by permit per units of material input or heat input or product output, the applicable input or production amount may be used to calculate the allowable emissions if the owner or operator of the source documents the actual input or production amount. If the input or production amount is not documented, the maximum allowable input or production amount specified in the permit must be used to calculate the allowable emissions.~~

~~4. For any new source that does not receive its first operation permit until after the beginning of a calendar year, the annual fee for the year must be reduced pro rata to reflect the period during which the source was not allowed to operate.~~

~~5. For any source that emits less of any regulated air pollutant than allowed by permit condition, the annual fee calculation for such pollutant must be based upon actual emissions rather than allowable emissions if the owner or operator documents the source's actual emissions by means of data from a department approved certified continuous emissions monitor or from an emissions monitoring method which has been~~

~~approved by the United States Environmental Protection Agency under the regulations implementing 42 U.S.C. ss. 7651 et seq., or from a method approved by the department for purposes of this section.~~

2.~~6.~~ The amount of each regulated air pollutant in excess of 4,000 tons per year ~~allowed to be~~ emitted by any source, or group of sources belonging to the same Major Group as described in the Standard Industrial Classification Manual, 1987, may not be included in the calculation of the fee. Any source, or group of sources, which does not emit any regulated air pollutant in excess of 4,000 tons per year, is allowed a one-time credit not to exceed 25 percent of the first annual licensing fee for the prorated portion of existing air-operation permit application fees remaining upon commencement of the annual licensing fees.

3.~~7.~~ If the department has not received the fee by March 1 ~~February 15~~ of the calendar year, the permittee must be sent a written warning of the consequences for failing to pay the fee by April ~~March~~ 1. If the fee is not postmarked by April ~~March~~ 1 of the calendar year, the department shall impose, in addition to the fee, a penalty of 50 percent of the amount of the fee, plus interest on such amount computed in accordance with s. 220.807. The department may not impose such penalty or interest on any amount underpaid, provided that the permittee has timely remitted payment of at least 90 percent of the amount determined to be due and remits full payment within 60 days after receipt of notice of the amount underpaid. The department may waive the collection of underpayment and shall not be required to refund overpayment of the fee, if the amount due is less than 1 percent of the fee, up to $50. The department may revoke any major air

pollution source operation permit if it finds that the permitholder has failed to timely pay any required annual operation license fee, penalty, or interest.

4.~~8.~~ Notwithstanding the computational provisions of this subsection, the annual operation license fee for any source subject to this section shall not be less than $250, except that the annual operation license fee for sources permitted solely through general permits issued under s. 403.814 shall not exceed $50 per year.

5.~~9.~~ Notwithstanding the provisions of s. 403.087(6)(a)5.a., authorizing air pollution construction permit fees, the department may not require such fees for changes or additions to a major source of air pollution permitted pursuant to this section, unless the activity triggers permitting requirements under Title I, Part C or Part D, of the federal Clean Air Act, 42 U.S.C. ss. 7470-7514a. Costs to issue and administer such permits shall be considered direct and indirect costs of the major stationary source air-operation permit program under s. 403.0873. The department shall, however, require fees pursuant to the provisions of s. 403.087(6)(a)5.a. for the construction of a new major source of air pollution that will be subject to the permitting requirements of this section once constructed and for activities triggering permitting requirements under Title I, Part C or Part D, of the federal Clean Air Act, 42 U.S.C. ss. 7470-7514a.

(b) Annual operation license fees collected by the department must be sufficient to cover all reasonable direct and indirect costs required to develop and administer the major stationary source air-operation permit program, which shall

consist of the following elements to the extent that they are reasonably related to the regulation of major stationary air pollution sources, in accordance with United States Environmental Protection Agency regulations and guidelines:

1. Reviewing and acting upon any application for such a permit.

2. Implementing and enforcing the terms and conditions of any such permit, excluding court costs or other costs associated with any enforcement action.

3. Emissions and ambient monitoring.

4. Preparing generally applicable regulations or guidance.

5. Modeling, analyses, and demonstrations.

6. Preparing inventories and tracking emissions.

7. Implementing the Small Business Stationary Source Technical and Environmental Compliance Assistance Program.

8. Any audits conducted under paragraph (c).

(c) An audit of the major stationary source air-operation permit program must be conducted 2 years after the United States Environmental Protection Agency has given full approval of the program to ascertain whether the annual operation license fees collected by the department are used solely to support any reasonable direct and indirect costs as listed in paragraph (b). A program audit must be performed biennially after the first audit.

Section 21. Section 403.7046, Florida Statutes, is amended to read:

403.7046 Regulation of recovered materials.—

(1) Any person who handles, purchases, receives, recovers, sells, or is an end user of recovered materials shall annually

certify to the department on forms provided by the department. The department may by rule exempt from this requirement generators of recovered materials; persons who handle or sell recovered materials as an activity which is incidental to the normal primary business activities of that person; or persons who handle, purchase, receive, recover, sell, or are end users of recovered materials in small quantities as defined by the department. The department shall adopt rules for the certification of and reporting by such persons and shall establish criteria for revocation of such certification. Such rules shall be designed to elicit, at a minimum, the amount and types of recovered materials handled by registrants, and the amount and disposal site, or name of person with whom such disposal was arranged, of any solid waste generated by such facility. By February 1 of each year, registrants shall report all required information to the department and to all counties from which it received materials. Such rules may provide for the department to conduct periodic inspections. The department may charge a fee of up to $50 for each registration, which shall be deposited into the Solid Waste Management Trust Fund for implementation of the program.

(2) Information reported pursuant to the requirements of this section or any rule adopted pursuant to this section which, if disclosed, would reveal a trade secret, as defined in s. 812.081(1)(c), is confidential and exempt from the provisions of s. 119.07(1). For reporting or information purposes, however, the department may provide this information in such form that the names of the persons reporting such information and the specific information reported are not revealed.

(3) Except as otherwise provided in this section or pursuant to a special act in effect on or before January 1, 1993, a local government may not require a commercial establishment that generates source-separated recovered materials to sell or otherwise convey its recovered materials to the local government or to a facility designated by the local government, nor may the local government restrict such a generator's right to sell or otherwise convey such recovered materials to any properly certified recovered materials dealer who has satisfied the requirements of this section. A local government may not enact any ordinance that prevents such a dealer from entering into a contract with a commercial establishment to purchase, collect, transport, process, or receive source-separated recovered materials.

(a) The local government may require that the recovered materials generated at the commercial establishment be source separated at the premises of the commercial establishment.

(b) Prior to engaging in business within the jurisdiction of the local government, a recovered materials dealer must provide the local government with a copy of the certification provided for in this section. In addition, the local government may establish a registration process whereby a recovered materials dealer must register with the local government prior to engaging in business within the jurisdiction of the local government. Such registration process is limited to requiring the dealer to register its name, including the owner or operator of the dealer, and, if the dealer is a business entity, its general or limited partners, its corporate officers and directors, its permanent place of business, evidence of its

certification under this section, and a certification that the recovered materials will be processed at a recovered materials processing facility satisfying the requirements of this section. A registration application must be acted on by the local government within 90 days of receipt. During the pendency of the local government's review, a local government may not use the registration information to unfairly compete with the recovered materials dealer seeking registration. All counties, and municipalities whose population exceeds 35,000 according to the population estimates determined pursuant to s. 186.901, may establish a reporting process which shall be limited to the regulations, reporting format, and reporting frequency established by the department pursuant to this section, which shall, at a minimum, include requiring the dealer to identify the types and approximate amount of recovered materials collected, recycled, or reused during the reporting period; the approximate percentage of recovered materials reused, stored, or delivered to a recovered materials processing facility or disposed of in a solid waste disposal facility; and the locations where any recovered materials were disposed of as solid waste. Information reported under this subsection which, if disclosed, would reveal a trade secret, as defined in s. 812.081(1)(c), is confidential and exempt from the provisions of s. 24(a), Art. I of the State Constitution and s. 119.07(1). The local government may charge the dealer a registration fee commensurate with and no greater than the cost incurred by the local government in operating its registration program. Registration program costs are limited to those costs associated with the activities described in this paragraph. Any reporting

or registration process established by a local government with regard to recovered materials shall be governed by the provisions of this section and department rules promulgated pursuant thereto.

(c) A local government may establish a process in which the local government may temporarily or permanently revoke the authority of a recovered materials dealer to do business within the local government if the local government finds the recovered materials dealer, after reasonable notice of the charges and an opportunity to be heard by an impartial party, has consistently and repeatedly violated state or local laws, ordinances, rules, and regulations.

(d) In addition to any other authority provided by law, a local government is hereby expressly authorized to prohibit a person or entity not certified under this section from doing business within the jurisdiction of the local government; to enter into a nonexclusive franchise or to otherwise provide for the collection, transportation, and processing of recovered materials at commercial establishments, provided that a local government may not require a certified recovered materials dealer to enter into such franchise agreement in order to enter into a contract with any commercial establishment located within the local government's jurisdiction to purchase, collect, transport, process, or receive source-separated recovered materials; and to enter into an exclusive franchise or to otherwise provide for the exclusive collection, transportation, and processing of recovered materials at single-family or multifamily residential properties.

(e) Nothing in this section shall prohibit a local

government from enacting ordinances designed to protect the public's general health, safety, and welfare.

(f) As used in this section:

1. "Commercial establishment" means a property or properties zoned or used for commercial or industrial uses, or used by an entity exempt from taxation under s. 501(c)(3) of the Internal Revenue Code, and excludes property or properties zoned or used for single-family residential or multifamily residential uses.

2. "Local government" means a county or municipality.

3. "Certified recovered materials dealer" means a dealer certified under this section.

Section 22. Paragraph (e) of subsection (1) of section 403.813, Florida Statutes, is amended to read:

403.813 Permits issued at district centers; exceptions.—

(1) A permit is not required under this chapter, chapter 373, chapter 61-691, Laws of Florida, or chapter 25214 or chapter 25270, 1949, Laws of Florida, for activities associated with the following types of projects; however, except as otherwise provided in this subsection, ~~nothing in~~ this subsection does not relieve ~~relieves~~ an applicant from any requirement to obtain permission to use or occupy lands owned by the Board of Trustees of the Internal Improvement Trust Fund or a ~~any~~ water management district in its governmental or proprietary capacity or from complying with applicable local pollution control programs authorized under this chapter or other requirements of county and municipal governments:

(e) The restoration of seawalls at their previous locations or upland of, or within 18 inches ~~1 foot~~ waterward of, their

previous locations. However, this shall not affect the permitting requirements of chapter 161, and department rules shall clearly indicate that this exception does not constitute an exception from the permitting requirements of chapter 161.

Section 23. Section 403.8141, Florida Statutes, is created to read:

403.8141 Special event permits.—The department shall issue permits for special events as defined in s. 253.0345. The permits must be for a period that runs concurrently with the letter of consent or lease issued pursuant to that section and must allow for the movement of temporary structures within the footprint of the lease area.

Section 24. Paragraph (b) of subsection (14) and paragraph (b) of subsection (19) of section 403.973, Florida Statutes, are amended, and paragraph (g) is added to subsection (3) of that section, to read:

403.973 Expedited permitting; amendments to comprehensive plans.—

(3)

(g) Projects to construct interstate natural gas pipelines subject to certification by the Federal Energy Regulatory Commission.

(14)

(b) Projects identified in paragraph (3)(f) or paragraph (3)(g) or challenges to state agency action in the expedited permitting process for establishment of a state-of-the-art biomedical research institution and campus in this state by the grantee under s. 288.955 are subject to the same requirements as challenges brought under paragraph (a), except that,

notwithstanding s. 120.574, summary proceedings must be conducted within 30 days after a party files the motion for summary hearing, regardless of whether the parties agree to the summary proceeding.

(19) The following projects are ineligible for review under this part:

(b) A project, the primary purpose of which is to:

1. Effect the final disposal of solid waste, biomedical waste, or hazardous waste in this state.

2. Produce electrical power, unless the production of electricity is incidental and not the primary function of the project or the electrical power is derived from a fuel source for renewable energy as defined in s. 366.91(2)(d).

3. Extract natural resources.

4. Produce oil.

5. Construct, maintain, or operate an oil, petroleum, ~~natural gas,~~ or sewage pipeline.

Section 25. Subsection (2) of section 570.076, Florida Statutes, is amended to read:

570.076 Environmental Stewardship Certification Program.—The department may, by rule, establish the Environmental Stewardship Certification Program consistent with this section. A rule adopted under this section must be developed in consultation with state universities, agricultural organizations, and other interested parties.

(2) The department shall provide an agricultural certification under this program for implementation of one or more of the following criteria:

(a) A voluntary agreement between an agency and an

agricultural producer for environmental improvement or water-resource protection.

(b) A conservation plan that meets or exceeds the requirements of the United States Department of Agriculture.

(c) Best management practices adopted by rule pursuant to s. 403.067(7)(c) or s. 570.085(1)(b) ~~570.085(2)~~.

Section 26. Section 570.085, Florida Statutes, is amended to read:

570.085 Department of Agriculture and Consumer Services; agricultural water conservation and water supply planning.—

(1) The department shall establish an agricultural water conservation program that includes the following:

(a) ~~(1)~~ A cost-share program, coordinated where appropriate with the United States Department of Agriculture and other federal, state, regional, and local agencies, for irrigation system retrofit and application of mobile irrigation laboratory evaluations for water conservation as provided in this section and, where applicable, for water quality improvement pursuant to s. 403.067(7)(c).

(b) ~~(2)~~ The development and implementation of voluntary interim measures or best management practices, adopted by rule, which provide for increased efficiencies in the use and management of water for agricultural production. In the process of developing and adopting rules for interim measures or best management practices, the department shall consult with the Department of Environmental Protection and the water management districts. Such rules may also include a system to assure the implementation of the practices, including recordkeeping requirements. As new information regarding efficient

agricultural water use and management becomes available, the department shall reevaluate and revise as needed, the interim measures or best management practices. The interim measures or best management practices may include irrigation retrofit, implementation of mobile irrigation laboratory evaluations and recommendations, water resource augmentation, and integrated water management systems for drought management and flood control and should, to the maximum extent practicable, be designed to qualify for regulatory incentives and other incentives, as determined by the agency having applicable statutory authority.

(c) ~~(3)~~ Provision of assistance to the water management districts in the development and implementation of a consistent, to the extent practicable, methodology for the efficient allocation of water for agricultural irrigation.

(2)(a) The department shall establish an agricultural water supply planning program that includes the development of appropriate data indicative of future agricultural water needs, which must be:

1. Based on at least a 20-year planning period.

2. Provided to each water management district.

3. Considered by each water management district in accordance with ss. 373.036(2) and 373.709(2)(a)1.b.

(b) The data on future agricultural water supply demands which are provided to each district must include, but need not be limited to:

1. Applicable agricultural crop types or categories.

2. Historic estimates of irrigated acreage, current estimates of irrigated acreage, and future projections of

irrigated acreage for each applicable crop type or category, spatially for each county, including the historic and current methods and assumptions used to generate the spatial acreage estimates and projections.

3. Crop type or category water use coefficients for a 1-in-10 year drought and average year used in calculating historic and current water demands and projected future water demands, including data, methods, and assumptions used to generate the coefficients. Estimates of historic and current water demands must take into account actual metered data as available. Projected future water demands shall incorporate appropriate potential water conservation factors based upon data collected as part of the department's agricultural water conservation program pursuant to s. 570.085(1).

4. An evaluation of significant uncertainties affecting agricultural production which may require a range of projections for future agricultural water supply needs.

(c) In developing the data on future agricultural water supply needs described in paragraph (a), the department shall consult with the agricultural industry, the University of Florida Institute of Food and Agricultural Sciences, the Department of Environmental Protection, the water management districts, the United States Department of Agriculture, the National Agricultural Statistics Service, and the United States Geological Survey.

(d) The department shall coordinate with each water management district to establish a schedule for provision of data on agricultural water supply needs in order to comply with water supply planning provisions in ss. 373.036(2) and

373.709(2)(a)1.b.

Section 27. This act shall take effect July 1, 2013.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 1722 (428226)
INTRODUCER:	Appropriations Committee; (Recommended by Appropriations Subcommittee on Education); Education Committee; and Senator Legg
SUBJECT:	Early Learning
DATE:	April 20, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Graf	Klebacha	ED	**Fav/CS**
2.	Frye	Elwell	AED	**Fav/CS**
3.	Elwell	Hansen	AP	**Pre-meeting**
4.				
5.				
6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

PCS/CS/SB 1722 changes the governance structure of the Office of Early Learning.

The bill has an insignificant fiscal impact on the Office of Early Learning. See Section V. The bill increases accountability and transparency in the administration of early learning programs:

- Moving the School Readiness program from Chapter 411 to the school code under Chapter 1002.
- Establishing the Office of Early Learning within the Department of Education's Office of Independent Education and Parental Choice; providing powers and duties.
- Providing that the Office of Early Learning must independently exercise all power, duties, and functions prescribed by law and must not be construed as part of the K-20 education system.
- Clarifying that participation in the School Readiness program does not expand the regulatory authority of the state, its officers, or an early learning coalition to impose any additional regulation on providers beyond those necessary to enforce the requirements outlined for this program.

- Requiring the Office of Early Learning to: adopt a list of approved curricula and a process for the review and approval of a provider's curriculum that meets the performance standards; identify a preassessment and postassessment for school readiness program participants; adopt a statewide, standardized contract to be used by coalitions with each school readiness program provider; coordinate with other agencies to perform data matches on individuals or families participating in the School Readiness program.
- Revising procurement and expenditure requirements for early learning coalitions.
- Removing the requirement for the annual submission of a funding formula by the Office of Early Learning.
- Revising the methodology for calculating the market rate schedule to require that the Office of Early Learning biennially calculate the market rate at the average of the market rate by program care level and provider type in a predetermined geographic market.
- Revising the eligibility criteria for the enrollment of children in the School Readiness program.
- Providing for the allocation of School Readiness program funds as specified in the General Appropriations Act.
- Requiring the Office of Early Learning and each early learning coalition to limit expenditures to no more than 22 percent of funds for any combination of administrative costs, nondirect services, and quality activities in any fiscal year.
- Including provisions for fraud investigations and penalties for School Readiness program providers and parents who knowingly submit false information related to child eligibility and attendance in a school readiness program.
- Requiring private providers to maintain a minimum level of general liability insurance consistent with the requirements of private school readiness program providers, including any required workers' compensation and any required reemployment assistance or unemployment compensation.
- Requiring the Early Learning Advisory Council to periodically analyze and provide recommendations to the office on the effective and efficient use of local, state and federal funds; the content of professional development training programs; and best practices for the development and implementation of coalition plans.

The effective date of the bill is July 1, 2013.

The bill substantially amends sections 11.45, 20.15, 196.198, 216.136, 402.281, 402.302, 402.305, 445.023, 490.014, 491.014, 1001.11, 1002.51, 1002.53, 1002.55, 1002.57, 1002.59, 1002.61, 1002.63, 1002.66, 1002.67, 1002.69, 1002.71, 1002.72, 1002.75, 1002.77, 1002.79, Florida Statutes.

The bill transfers, renumbers, and amends section 411.011 as 1002.97, Florida Statutes.

The bill creates section 1001.213 and part VI of chapter 1002, consisting of sections 1002.81-1002.96, F.S.

The bill repeals the following sections of the Florida Statutes: 411.01, 411.0101, 411.01013, 411.01014, 411.01015, 411.0102, 411.0103, 411.0104, 411.0105, and 411.0106.

II. Present Situation:

Early learning programs consist of the Voluntary Prekindergarten Education program and the School Readiness program.

Florida's Office of Early Learning

In 2011, the Legislature transferred the Office of Early Learning, currently called Florida's Office of Early Learning (Fl's OEL), from the Agency for Workforce Innovation to the Department of Education (DOE) as a separate budget entity, not subject to control, supervision, or direction by the DOE or the State Board of Education in any manner including, but not limited to, personnel, purchasing, transactions involving personal property, and budgetary matters. The office director is appointed by the Governor and confirmed by the Senate, serves at the pleasure of the Governor, and is the agency head of the office for all purposes. The office is subject to review and oversight by the Chief lnspector General or his or her designee.[1]

Florida's OEL is Florida's lead agency for administering the federal Child Care and Development Fund (CCDF) block grant from which funds are used to implement the school readiness program.[2]

Current law directs the Florida's OEL to establish a unified approach to the state's school readiness efforts by adopting specific system support services for the state's school readiness programs.[3] System support services include, but are not limited to:

- Child care resource and referral services.
- Warm-Line services.4
- Eligibility determinations.
- Child performance standards.
- Child screening and assessment.
- Developmentally appropriate curricula.
- Health and safety requirements.
- Statewide data system requirements.
- Rating and improvement systems.5

Additionally, Florida's OEL must develop and adopt performance standards and outcome measures for school readiness programs. Child performance standards must describe age-appropriate progress of children in the development of school readiness skills. The performance

[1] Section 12, ch. 2011-142, codified at s. 20.15(3)(h), F.S. Florida's OEL is distinct from DOE's Office of Early Learning. Department of Education, Early Learning/Prekindergarten, http://www.fldoe.org/earlyLearning/ (last visited March 28, 2013).
[2] The law directs the Governor to designate Florida's OEL as the lead agency for administering the Child Care and Development Fund (CCDF). Section 411.01(4)(c), F.S.
[3] Section 411.01(4)(d)3., F.S.
[4] OEL is required to contract with the "statewide resource information and referral agency" to establish a statewide toll-free Warm-line for the purpose of assisting child care providers in serving children with disabilities and special needs. Section 402.3018, F.S.
[5] Section 411.01(4)(d)3.a.-i., F.S.

standards for children from birth to age five must be integrated with the performance standards adopted by the DOE for the VPK program.[6] Florida's OEL has developed and adopted a "robust set of child expectations for children, birth to five years of age."[7]

Florida's OEL administers the School Readiness program at the state level and coordinates with the ELCs in providing school readiness services on a full-day, full-year, full-choice basis to enable parents to work and be financially self-sufficient.[8] The office must, every two years, review ELCs and school readiness plans and approve such plans.[9] Additionally, Florida's OEL must provide technical assistance and training to the Early Learning Coalitions (ELCs or coalitions) and monitor and evaluate the ELCs' administration of the School Readiness and VPK programs.[10] Florida's OEL must also work with the ELCs to provide training and support for parental involvement in children's early education and to provide family literacy activities and services.[11]

Voluntary Prekindergarten Education Program

In 2004, the Legislature established the Voluntary Prekindergarten Education program (VPK program), a voluntary, free prekindergarten program offered to eligible four-year old children in the year before admission to kindergarten.[12] A child must be a Florida resident and attain four years of age on or before September 1 of the academic year to be eligible for the VPK program.[13] Parents may choose either a school year or summer program offered by either a public school or private prekindergarten provider.[14] The child remains eligible for the VPK program until he or

[6] Section 411.01(4)(d)8., F.S.; *see also* Florida's Office of Early Learning, *Early Learning Services – Birth to Five Standards*, http://flbt5.floridaearlylearning.com/Default.aspx (last visited April 16, 2013).The performance standards address the following school readiness skills: compliance with rules, limitations, and routines; ability to perform tasks; interactions with adults; interactions with peers; ability to cope with challenges; self-help skills; ability to express the child's needs; verbal communication skills; problem-solving skills; following of verbal directions; demonstration of curiosity, persistence, and exploratory behavior; interest in books and other printed materials; paying attention to stories; participation in art and music activities; and ability to identify colors, geometric shapes, letters of the alphabet, numbers, and spatial and temporal relationships. Section 411.01(4)(j), F.S.

[12] Section 1, ch. 2004-484, L.O.F.; part V, ch. 1002, F.S.; *see also* Art. IX, s. 1(b)-(c), Fla. Const. The VPK program originated from a ballot initiative proposing an amendment to the Florida Constitution in the November 2002 general election. The amendment required the Legislature to establish a free prekindergarten education program for every four-year old child residing in Florida by the 2005 academic year. Voters approved the amendment by a total of 59 percent for to 41 percent against. Art. IX, s. 1(b)-(c), Fla. Const.; *see also* Florida Department of State, Division of Elections, *Voluntary Universal Prekindergarten Education*, http://election.dos.state.fl.us/reports/pdf/02annrpt.pdf (last visited March 28, 20 13).

[13] Section 1002.53(2), F.S.

[14] Section 1002.53(3), F.S. In 2010, the Legislature established a specialized instructional services program for children with disabilities as an option under the VPK program. Section 3, ch. 2010-227, *codified at* s. 1002.53(3)(d), F.S. Beginning with the 2012-13 academic year, a child who has a disability is eligible for specialized instructional services if the child is eligible for the VPK program and has a current Individual Education Plan (IEP) developed by the district school board. Specialized

she is eligible for kindergarten in a public school or is admitted to kindergarten, whichever occurs first.[15] A child may not attend the summer VPK program earlier than the summer immediately before the academic year in which the child becomes eligible for kindergarten.[16]

Department of Education (DOE, through its Office of Early Learning, distinct from Florida's Office of Early Learning), Florida's OEL, and Department of Children and Families (DCF) each play a role in the state-level oversight of the VPK program. DOE is responsible for the programmatic requirements for the VPK program.[17] Florida's OEL governs the day-to-day operations of the VPK program.[18] DCF administers the state's child care provider licensing program and posts VPK program provider profiles on its Internet website.[19]

School Readiness Program

Established in 1999,[20] the School Readiness program provides subsidies for early childhood education and child care services to children of low-income families; children in protective services who are at risk of abuse, neglect, or abandonment; and children with disabilities.[21]

The School Readiness program is a state-federal partnership between Florida's OEL and the Office of Child Care of the United States Department of Health and Human Services.[22]

Federal regulations governing the CCDF block grant,[23] the primary funding source for the School Readiness program, authorize states to use grant funds for child care services, if: [24]

- The child is under 13 years of age, or at the state's option, under age 19 if the child is physically or mentally incapable of caring for himself or herself or under court supervision;
- The child's family income does not exceed 85 percent of the state's median income for a family of the same size; and

---

instructional services include applied behavior analysis, speech-language pathology, occupational therapy, and physical therapy. The Florida Department of Education is responsible for approving public and private program providers. Section 1002.66, F .S. Once this program is implemented, children who participate in the program will be eligible to receive a McKay Scholarship to enroll in and attend a private school. Section 1002.39(2)(a)l., F.S.

[15] Section 1002.53(2), F.S. Children who attain five years of age on or before September 1 of the academic year are eligible for admission to public kindergartens. Section 1003.21(1)(a)2., F.S.

[16] Section 1002.61(2)(c), F.S.

- The child:
  - Resides with a parent or parents who work or attend job training or educational programs; or
  - Receives, or needs to receive, protective services.

Within these broad federal eligibility categories, Florida law specifies that the School Readiness program is established for children from birth to school entry.[25]

Florida's OEL administers the program at the state level, including statewide coordination of the ELCs.

Funding

Funding for the School Readiness program is provided annually in the General Appropriations Act (GAA).[26] For the 2012-2013 fiscal year, a total of $581.5 million was appropriated for the School Readiness Program from state and federal funds, including $341.7 million from the CCDF block grant, $98 million from the TANF block grant, $141.3 million from the state's General Revenue Fund, and $500,000 from other federal fund sources. Florida statute requires that the OEL shall establish a formula for the allocation of all state and federal school readiness program funds provided for children participating in the School Readiness program. The formula is required to be based on equity and must be submitted to the Governor and the Legislature by January 1 of each year.[27] Funding allocations for the 2012-2013 fiscal year were derived from the formula submitted to the Governor and Legislature as of January 1, 2012.

Market Rate

Florida's OEL is responsible for annually calculating a prevailing market rate schedule as a provision of the Child Care and Development Block Grant that must include county by county rates by provider type including licensed child care facilities; religious exempt facilities, public and non-public schools, large family day care homes, family day care homes and those who hold a Gold Seal quality Care Designation under section 402.281, Florida Statutes. The prevailing market rate must also differentiate rates by care level to include infants, toddlers, pre-school age, and school-age children. The prevailing market rate schedule is required to be set at the 75th percentile of a reasonable frequency distribution based exclusively on the prices charged for child care services. Each ELC must utilize the prevailing market rate schedule to set the coalition's School Readiness program provider payment rates.

Early Learning Coalitions

Each ELC administers the School Readiness program,[28] the VPK program,[29] and the state's child care resource and referral network in its county or multicounty region.[30] There are currently 31

[29] Sections 1002.55(1) and 1002.61(1)(b), F.S.
[30] Section 411.0101, F.S.

ELCs.[31] Each ELC is governed by a board of directors comprised of various stakeholders and community representatives. Three members of each board, including the chair, are appointed by the Governor.[32]

Each ELC must serve a minimum of 2,000 children based upon the average number of children served per month by the coalition's School Readiness program during the previous 12 months.[33] If an ELC serves fewer than 2,000 children, "the coalition must merge with another county to form a multicounty coalition."[34] Florida's OEL must waive the merger requirement if certain criteria are met.[35]

An ELC may participate in the School Readiness program if the coalition's School Readiness plan is approved by Florida's OEL.[36] The plan must, at a minimum, contain the following elements: alignment to the statutory requirements and system support services, performance standards, and outcome measures; instruction to enable children from birth through five years of age to meet the performance standards; and feedback regarding the plan from the local community.[37] Florida's OEL must adopt rules establishing school readiness program plan approval criteria[38] which must include the following minimum standards for the School Readiness program:[39]

- A community plan that addresses the needs of eligible children and providers within the coalition's county or multicounty region.
- A sliding fee scale establishing a copayment for parents based upon their ability to pay, which is the same for all program providers.[40]
- A choice of settings and locations in licensed, registered, religious-exempt, or school-based programs to be provided to parents.
- Specific eligibility priorities for children in accordance with the law.
- Performance standards and outcome measures adopted by Florida's OEL.

[31] Florida's Office of Early Learning, *Early Learning Coalition Directory (Revised 4/3/2013)* , *http://www.floridaearlylearning.com/Documents/All-Contact/CoalitionDirectory.pdf* , (last visited April 9, 2013). Florida law permits the establishment of 31 or fewer ELCs. Section 411.01(5)(a)2.a., F.S.
[32] Section 411.01(5)(a)4.-6., F.S.
[33] Section 411.01(5)(a)2.b., F.S.
[34] Section 411.01(5)(a)3., F.S. Florida's OEL must adopt procedures for merging ELCs.
[35] Section 411.01(5)(a)3.a.-c., F.S. Florida's OEL must waive the merger requirement if it determines that the ELC has substantially implemented its school readiness plan; the ELC demonstrates to Florida's OEL its ability to effectively and efficiently implement the VPK Program; and the ELC demonstrates to Florida's OEL its ability to perform its duties in accordance with the law.
[36] Section 411.01(5)(d)1., F.S.
[37] Section 411.01(5)(d)2.a.-c., F.S.
[38] Florida's OEL held rule workshops for the school readiness plan in February 2012 and received the transcript from the workshop on March 14, 2012. Florida's OEL staffs are in the process of analyzing comments and preparing rule. E-mail, Florida's Office of Early Learning (Aug. 21, 2012), on file with the Appropriations Subcommittee on Education staff.
[39] Section 411.01(5)(d)4., F.S.
[40] Each ELC is required to adopt, subject to approval by Florida's OEL, a copayment charged to the parent of a child enrolled in the School Readiness Program. Section 411.01(5)(d)4.b., F.S. The co-payment is based on the parent's income and family size. Rule 6M-4.400(1), F.A.C. A School Readiness Program provider receives payment for school readiness services from the ELC and is responsible for collecting the co-payment directly from the parent. Rule 6M-4.401, F.A.C. A School Readiness Program provider is not prohibited from charging parent fees in addition to the co-payment. Rule 6M-4.400(4), F.A.C.

- Payment rates adopted by the ELCs and approved by Florida's OEL.
- Direct enhancement services for families and children.[41]
- The business organization of the ELC.
- The implementation of locally developed quality programs in accordance with the requirements adopted by Florida's OEL regarding the expenditure of funds for improving the quality of child care within the state.

Each ELC must implement a comprehensive program of school readiness services to achieve the performance standards and outcome measures. At a minimum, the comprehensive program must contain the following system support service elements: use of a developmentally appropriate curriculum, character development education; age appropriate screening and assessment; appropriate staff to children ratio; a healthy and safe learning environment; and a resource and referral network[42] and a regional Warm-Line.[43,44]

Florida law requires each ELC to include a "choice of settings and locations in licensed, registered, religious-exempt, or school-based programs."[45] A wide range of public and private providers of early childhood education and child care services participate in the School Readiness program, including:

- Public and private schools;
- Licensed child care facilities and large family child care homes;
- Licensed and registered family day care homes;
- Faith-based child care facilities and after-school programs, which are both exempt from licensure; and
- Informal providers[46] (e.g., in-home and relative care).[47]

In FY 2011-2012, a total of 10,844 child care providers participated in the School Readiness program, including 1,013 public schools; 6,508 private providers; and 3,043 family day care homes. Of these providers, 836 were faith-based.[48]

Child care providers who provide school readiness services are regulated by the DCF.[49]

---

[41] "Direct enhancement services for families may include parent training and involvement activities and strategies to meet the needs of unique populations and local eligibility priorities. Enhancement services for children may include provider supports and professional development approved in the plan by [Florida's] OEL." Section 411.01(5)(d)4.g., F.S.

[42] The statewide child resource and referral network is established to assist parents in making an informed choice regarding child care. Section 411.0101(1), F.S.

[43] The statewide toll-free Warm-Line is established to provide assistance to child care centers and family day care homes regarding health, developmental, disability, and special needs issues of children served by such providers. Section 411.01015(1), F.S.

[49] Chapter 402, F.S.

Child Care Executive Partnership

The purpose of the Child Care Executive Partnership Program is to utilize state and federal funds as incentives for matching local funds derived from local governments, employers, charitable foundations, and other sources so that Florida communities may create local flexible partnerships with employers.[50] The Child Care Executive Partnership governs this program.[51] Current duties and responsibilities of the partnership include:[52]

- Assisting in the formulation and coordination of the Florida's child care policy.
- Adopting an official seal.
- Soliciting, accepting, receiving, investing, and expending funds from public or private sources.
- Contracting with public or private entities as necessary.
- Approving an annual budget.
- Carrying forward any unexpended state appropriations into succeeding fiscal years.
- Providing a report to the Governor, the Speaker of the House of Representatives, and the President of the Senate, on or before December 1 of each year.

Educational Property

An educational institution and its property are exempt from ad valorem tax in Florida. Educational institutions often separate their property into separate corporate entities for business planning purposes. In an effort to address this situation, Florida also exempts property that is not directly owned by the educational institution, as long as the property is used exclusively for educational purposes and is owned by the identical owners of the educational institution.[53] A recent Attorney General's opinion concluded that this exemption does not apply if both the property and the educational institution are in separate corporations and those corporations are owned by the identical people.[54]

Gold Seal Quality Care Designation

In order to be approved by the Department of Children and Families for participation in the Gold Seal Quality Care program, a child care facility, large family child care home, or family day care home must be accredited by a nationally recognized accrediting association approved by the Department of Children and Families.[55]

In approving accrediting associations, the Department of Children and Families must consult with the Department of Education, the Florida Head Start Directors Association, the Florida Association of Child Care Management, the Florida Family Day Care Association, the Florida Children's Forum, the Early Childhood Association of Florida, the Child Development

Education Alliance, providers receiving exemptions under section 402.316, Florida Statutes, and parents.[56]

Afterschool Meals Program

The federally funded Afterschool Meal Program (AMP) was expanded to Florida and the rest of the nation by Congress in December 2010. Prior to that time, pilot programs existed in only 13 states and the District of Columbia. The federal regulations governing the program do not require child care licensure but do require AMP sites to meet state and local health and safety standards to participate.[57]

III. Effect of Proposed Changes:

The bill changes the governance structure of the Office of Early Learning (OEL) and increases accountability and transparency in the administration of early learning programs: Voluntary Prekindergarten Education program (VPK program) and School Readiness program.

Governance

The bill creates the Office of Early Learning (OEL or office) within the DOE's Office of Independent Education and Parental Choice. The OEL will be administered by an Executive Director who is fully accountable to the Commissioner of Education. The office will be responsible for administering both the VPK and the school readiness programs at the state level and will independently exercise all powers, duties, and functions prescribed by law, but is not to be construed to be a part of the K-20 education system. Moreover, participation in the School Readiness program must not expand the regulatory authority of the state, its officers, or any ELC to impose any additional regulation on providers beyond those necessary to enforce the requirements of law.

The bill requires the OEL, in collaboration with the Commissioner of Education, to develop a reorganization plan for the office by October 1, 2013. The plan must include the following:

- Any changes made prior to July 1, 2013;
- Personnel, purchasing, and budgetary matters and their alignment with the duties and responsibilities of the office;
- A report of all outstanding contractual obligations; and
- Recommendations for statutory and budgetary changes.

The plan must be provided to the Governor, the President of the Senate, and the Speaker of the House of Representatives.

[56] Section 402.281(3)(b), F.S.

[57] The Healthy, Hunger-Free Kids Act of 2010 (P.L. 111-296)

Accountability

The bill includes several accountability provisions for the OEL, ELCs, and VPK and School Readiness program providers.

Office of Early Learning

The bill requires the OEL to:
- Administer requirements of the VPK program.
- Adopt by rule a standard statewide provider contract for the VPK and School Readiness programs. The contract must include provisions for probation, termination for cause, and emergency termination of a provider's contract.
- Adopt a uniform chart of accounts for budgeting and financial reporting.
- Coordinate with other state and federal agencies to perform data matches to verify children's eligibility to participate in the School Readiness program.
- Establish procedures for the annual calculation of the average market rate.
- Adopt specific program support services.
- Provide technical assistance to coalitions on anti-fraud plans.
- Develop and adopt a health and safety checklist for license exempt providers that does not exceed current licensing standards for child care facilities.
- Select valid, reliable, and developmentally appropriate assessments for use as pre- and post-assessment for the age ranges specified in the coalition's plans.
- Adopt standardized monitoring procedures for coalitions to use to monitor providers.
- Collaborate with the Bureau of Federal Education Programs within the Department of Education to coordinate readiness and voluntary prekindergarten services to the populations served by the bureau, including students served through the homeless education program.
- Provide for the administration of the statewide toll-free Warm-Line.

The OEL must continue to establish a unified approach to coordinate a comprehensive early learning program and adopt specific program support services for the School Readiness program, including:

- A statewide data information program that includes:
  - Eligibility requirements.
  - Financial reports.
  - Program accountability measures.
  - Child progress reports.

- Child care resource and referral services
- A single point of entry and uniform waiting list.

In addition, the OEL may provide technical assistance and guidance on additional support services to complement the School Readiness program, including:

- Rating and improvement systems.
- Warm-Line services.

- Anti-fraud plans.
- School readiness program standards.
- Child screening and assessments.
- Training and support for parental involvement in children's early education.
- Family literacy activities and services.

Early Learning Coalitions

The bill revises the membership of the ELCs by updating terminology used to refer to Florida College System institution president, instead of a community college president. The bill also requires the ELCs to:

- Implement an age-appropriate pre- and post-assessment of children, if specified in the coalition's approved school readiness plan. ELCs cannot require providers to administer pre- and post-assessments.
- Require a parent to be in good standing on copayment obligations with a school readiness program provider prior to transferring to another school readiness program provider.
- Provide a timeframe within which attendance records may be altered or amended.
- Comply with federal and state procurement requirements.
- Provide proper information technology controls.
- Develop written policies, procedures, and standards for monitoring vendor contracts.
- Monitor providers in accordance with the applicable coalition's plan, or in response to complaints from parents, using the standard monitoring tool adopted by the office. Providers to be determined high-risk as demonstrated by substantial findings of violations of federal law or general or local laws of the state must be monitored more frequently. Providers with three consecutive years of compliance may be monitored biennially.
- Implement an anti-fraud plan addressing specific components.
- Specify components for the annual report that is submitted to the office by October 1.
- Requiring each ELC to use a coordinated, professional development system that supports the achievement and maintenance of core competencies by school readiness program teachers in helping children attain the performance standards adopted by the office.

ELCs must maintain direct enhancement services at the local level and provide access to such services in all 67 counties. The required annual report to the OEL must include an evaluation of the ELC's direct enhancement services.

School Readiness Program Plans

The OEL must adopt rules prescribing the standardized format and required content of school readiness program plans. The bill provides additional accountability by:

- Requiring ELCs to submit a school readiness program plans biennially before the expenditure of funds.
- Prohibiting an ELC from implementing the coalition's school readiness program until the plan is approved.

- Prohibiting an ELC from implementing any changes to its plan, until the changes are approved by the OEL. Each ELC plan must include:
  - The coalition's operations, including the coalition's membership and business organization.
  - The coalition's articles of incorporation and bylaws, as appropriate.
  - The minimum number of students to be served.
  - The coalition's procedures for implementing all requirements of administering the School Readiness program.
  - A detailed description of the coalition's quality activities and services.
  - A detailed budget outlining the estimated expenditures for state, federal, and local maintenance of effort and matching funds at a specific level of detail.
  - A detailed accounting of all revenues and expenditures during the previous state fiscal year, in a format described by the OEL.
  - Updated policies and procedures.
  - A description of the procedures for monitoring school readiness program providers or for responding to complaints from parents.
  - Documentation that the coalition has solicited and considered comments regarding the proposed school readiness program plan from the local community.

If the OEL determines during the review of school readiness program plans, or through monitoring and performance evaluations, that an ELC has not substantially implemented the coalition's plan, has not substantially met the performance standards and outcome measures, or has not effectively administered the School Readiness or VPK program, the office may temporarily contract with a qualified entity to continue providing services until the ELC is reestablished and a new school readiness program plan is approved.

Annual Report

The bill requires the OEL to collect and report data on coalition delivery of early learning programs to be implemented beginning July 1, 2014, and results included in the OEL's annual report. The OEL report must include, but not be limited to, the following elements:

- Progress toward reducing the number of children on the waiting list.
- The percentage of students served compared to the number of administrative staff and overhead.
- The percentage of students served compared to the total number of children under the age of five years below 150 percent of the federal poverty level.
- Provider payment process.
- Fraud intervention.
- Child attendance and stability.
- Use of child care resource and referral.
- Kindergarten readiness outcomes.

School Readiness Program Participation Eligibility

The bill establishes, effective August 1, 2013, or upon reevaluation of eligibility of children served, the following priorities for participation in the School Readiness Program:

- First priority must be a child under 13 from a family that includes a parent who is receiving Temporary Assistance for Needy Families (TANF) and is subject to the federal work requirements.
- Second priority must be an at-risk child under 9 years of age.
- Third priority must be a child from, birth to beginning of school year for which the child is eligible for kindergarten, from a working family that is economically disadvantaged and may include such children's eligible siblings who are eligible to enter kindergarten through the summer before sixth grade, provided that the ELC uses local revenues first; The child's eligibility ceases if the child's family income exceeds 200 percent of the federal poverty level.
- Fourth priority must be a child aged 9 through 13, who is at risk; a child eligible under this priority whose sibling is enrolled in the School Readiness program shall be given priority over other children.
- Fifth priority must be a child younger than 13 years of age from a working family that is economically disadvantaged; a child eligible under this priority whose sibling is enrolled in the School Readiness program shall be given priority over other children. The child's eligibility is no longer eligible if the family income exceeds 200 percent of the federal poverty level.
- Sixth priority must be a child who has special needs, has been determined eligible as a student with a disability, has a current individual education plan with a Florida school district, and is not younger than 3 years of age. The child remains eligible until he or she is eligible for admission to kindergarten.
- Seventh priority must be a child of a parent who transitions from the work program into employment as described in s. 445.032, F.S.
- Last priority must be for a child who is also concurrently enrolled in the Head Start program and the VPK program.

Additionally, the bill requires:

- Coalitions to enroll children in accordance with the specified eligibility priorities;
- Parents the opportunity to reestablish employment within 60 days (instead of the current 30 days for break in employment or 60 days for temporary break in employment due to medical reasons[58]);
- Disenrollment of children to occur in reverse order of the specified eligibility priorities, beginning with children from families with the highest family incomes;
- A notice of disenrollment be sent to the parent and school readiness program provider at least 2 weeks before disenrollment; and

[58] Florida's Office of Early Learning, *Part 2: CCDF Subsidy Program Administration*, *available at* http://www.floridaearlylearning.com/Documents/SysDev-CCDF/2011-2013/CCDF2012_2013Part2-CCDFSubsidyProgramAdministration.pdf.

- Providers to report to the coalition for determination of need for continued care if a child has been absent for five consecutive days without any parental notification.

Provider Standards and Eligibility

In addition to current standards and requirements for providers, the bill requires that providers:

- Maintain a minimum general liability insurance coverage of $100,000 and general aggregate coverage of $300,000 that includes coverage of transportation if students are transported by the provider. The OEL may authorize lower limits upon request, as appropriate.
- Must add the coalition as a named certificateholder and as an additional insured.
- Maintain any required worker's compensation insurance and any required unemployment compensation insurance.
- Maintain the coverage for the entire period of the provider contract with the coalition.
- Notify the coalition, with a minimum of ten calendar days' advance written notice, of cancellation or changes to coverage.
- Make provisions for coalitions to revoke provider's eligibility for five years if the provider fails of refuses to comply with the law or the statewide contract.
- Include school readiness program activities to foster brain development in infants and toddlers by providing an environment rich in language and music; stimulating visual, tactile, auditory, and linguistic senses; and include 30 minutes of reading to children each day.
- Administer preassessments and postassessments that are approved by the OEL, if such providers choose to administer such assessments.

School Readiness Program Funding

The bill provides that School Readiness program funding shall be allocated to the ELCs as provided in the General Appropriations Act (GAA). The bill also removes the requirement for the annual submission of a funding formula by the OEL. Beginning in the 2014-2015, fiscal year all funding appropriated in the GAA shall be allocated using the average prior year enrollment and the uniform waiting list, as adopted by the School Readiness Estimating conference, and the average market rate.[59]

The bill requires the OEL and each ELC to limit its expenditures to no more than 22 percent of funds for any combination of administrative costs, nondirect services, and quality activities for any fiscal year. No more than 5 percent may be used for administrative costs. Coalitions must place the highest priority for the expenditure of funds on providing direct services for eligible children in the School Readiness program.

The bill specifies that activities to improve the quality of child care must be limited to:

- Developing, operating, expanding, and coordinating resource and referral program.
- Awarding grants to School Readiness program providers to assist the providers in meeting the state requirements for child care performance standards, implementing developmentally

[59] Section 216.136(8)(a), F.S.

appropriate curricula and related classroom supports, providing literacy supports, and providing professional development.
- Providing training and technical assistance for School Readiness program providers, staff, and parents on standards, child screenings, child assessments, curricula, charter development, teacher-child interactions, age-appropriate discipline practices, health and safety, nutrition, first aid, recognition of communicable diseases, and child abuse detection and prevention.
- Funding for quality activities for infants and toddler care, to meet applicable federal requirements.
- Improving the monitoring of compliance with state and local requirements.
- Responding to Warm Line requests by providers and parents regarding children in the School Readiness program.

The bill defines nondirect services to include, but not be limited to:

- Assisting families in completing the required application.
- Determining child and family eligibility.
- Recruiting eligible child care providers.
- Processing and tracking attendance records.
- Developing and maintaining a statewide information system.

The bill prohibits the use of state funds for the purchase or improvement of land or for the purchase of buses. However, funds may be expended for minor remodeling and upgrading of child care facilities so that School Readiness program providers are able to meet the state and local child care standards including health and safety requirements.

School Readiness Program Prevailing Market Rate

The bill defines market rate as the price that a child care or early childhood education provider charges for full-time or part-time daily, weekly, or monthly child care or early childhood education services. Additionally, average market rate is defined in the bill as the biennially determined average of the market rate by program care level and provider type in a predetermined geographic market. The bill requires the funding for the School Readiness program to be allocated to the ELCs in accordance with the specified requirements and the GAA.

Investigations of Fraud

The bill requires the OEL to coordinate with federal and state agencies to perform data matches to verify the eligibility of individual and families regarding participation in the School Readiness program. Fraudulent information submitted by a school readiness program provider or parent must be considered a misdemeanor of the first degree, which may include a fine up to $1,000 and imprisonment not exceeding 1 year. Additionally, the bill:

- Defines “fraud” and the processes to investigate and refer fraud to Department of Financial Services for criminal investigation or to the applicable coalition.
- Applies the provisions and consequences regarding fraud to coalitions, recipients and providers.

- Provides that coalitions may suspend or terminate a provider from participation in School Readiness or the Voluntary Prekindergarten program if it has reasonable cause to believe that the provider has committed fraud.
- Removes a provider from eligibility to deliver program services or receive federal or state funds for a period of 5 years if the provider is convicted of fraud.
- Prohibits coalitions from contracting with a provider who is on the U.S. Department of Agriculture disqualified list.
- Requires coalitions to adopt an anti-fraud plan.
- Specifies that a person who commits an act of fraud is subject to the penalties provided in s. 414.39, F.S.[60]

The bill also requires the Early Learning Advisory Council (ELAC) to periodically analyze and provide recommendations to the OEL regarding the effective and efficient use of local, state and federal funds; the content of professional development training programs; and best practices for the development and implementation of coalition plans.

The bill requires that the chair of the ELAC appointed by the Governor and members appointed by the presiding officers of the Legislature be from the business community.

Transparency

The bill includes several provisions that increase transparency by:

- Requiring the OEL to publish an annual report on the office's website by January 1. The report must include a summary of coalitions' annual report, a statewide summary, an analysis of early learning activities throughout the state with specified components, and a summary of activities and expenditures regarding the Child Care Executive Partnership Program.
- Requiring the OEL to review ELCs' delivery of the early learning programs.
- Requiring the OEL to review and adopt minimum performance standards for VPK.
- Requiring the OEL to include a summary of activities and expenditures related to the Child Care Executive Partnership Program in the annual report.
- Requiring ELCs to comply with specific requirements before contracting with a member of the coalition or a relative which includes approval of the contract by the office.
- Requiring the ELCs to comply with the tangible personal property requirements of chapter 274 and rules there under.
- Requiring VPK instructors to complete an online training course on the performance standards by July 1, 2014.
- Clarifying that participation in the School Readiness program does not expand the regulatory authority of the state, its officers, or any early learning coalition to impose any additional regulation on providers beyond those necessary to enforce the requirements set forth for administration of the School Readiness program.
- Revising provisions regarding the accrediting organizations recognized under the Gold Seal Quality Care program.

[60] Fraud of less than $200 is a misdemeanor of the first degree and $200 or more is a felony of the third degree.

Child Care Executive Partnership

The bill removes from duties of the Child Care Executive Partnership, requirements regarding formulation and coordination of the state's child care policy and adopting an official seal, and instead, directs the partnership to make recommendations concerning the implementation and coordination of the School Readiness program.

Educational Property

The bill extends the educational institution exemption to include situations when the property and the educational institution are owned by separate legal entities and those legal entities are owned by the identical people.

Gold Seal Quality Care Designation

The bill removes the requirement for the accrediting association to be "nationally recognized," but it must still be approved by the Department of Children and Families. In approving accrediting associations, the Department of Children and Families must consult with the Florida Association of Academic Nonpublic Schools and the Association of Early Learning Coalitions in addition to the entities specified in Section 402.281(3)(b), Florida Statutes.

After School Meals Program

The bill authorizes after-school programs that are excluded from licensure to provide snacks and meals through the federally funded After School Meal Program (AMP) meals administered by the Department of Health if the programs are in good standing with the Department of Health and the meals meet the AMP requirements.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference has not completed its review of the provisions of this bill that exempt certain commonly-owned property used for educational purposes.

Staff estimates that these changes will reduce local government property tax revenue by an insignificant amount (less than $50,000).[61]

B. Private Sector Impact:

None.

C. Government Sector Impact:

The fiscal impact of this bill on the Department of Education and the Office of Early Learning is insignificant.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations Subcommittee on Education on April 17, 2013:
The committee substitute differs from CS/SB 1722 in that the committee substitute:

- Changes the governance structure of the Office of Early Learning by establishing the office within the Department of Education's Office of Independent Education and Parental Choice.
- Includes several accountability and transparency provisions to promote effective and efficient administration of VPK program and School Readiness programs.
- Includes provisions regarding educational property and after-school meals program.

CS by Committee on Education on April 1, 2013:
The committee substitute differs from SB 1722 in that the committee substitute:

- Changes the governance structure of the Office of Early Learning by establishing the Office of Early Learning within the Office of the Commissioner of Education.
- Enhances the accountability of early learning programs by requiring the Office of Early Learning to administer the School Readiness and VPK programs and keeping the administrative staff for such programs to the minimum necessary to administer the duties of the office.
- Provides roles and responsibilities for the Office of Early Learning and early learning coalitions.

(d) Priority shall be given next to a child of a parent who transitions from the work program into employment, as described in s. 445.032, from birth to the beginning of the school year for which the child is eligible for admission to kindergarten in a public school under s. 1003.21(1)(a)2.
(e) Priority shall be given next to an at-risk child who is at least 9 years of age but younger than 13 years of age. An at-risk child whose sibling is enrolled in the school readiness

program within an eligibility priority category listed in paragraphs (a)-(c) shall be given priority over other children who are eligible under this paragraph.

(f) Priority shall be given next to a child who is younger than 13 years of age from a working family that is economically disadvantaged. A child who is eligible under this paragraph whose sibling is enrolled in the school readiness program under paragraph (c) shall be given priority over other children who are eligible under this paragraph. However, a child eligible under this paragraph ceases to be eligible if his or her family income exceeds 200 percent of the federal poverty level.

(g) Priority shall be given next to a child of a parent who transitions from the work program into employment as described in s. 445.032 if the child is younger than 13 years of age.

(h) Priority shall be given next to a child who has special needs, has been determined eligible as a student with a disability, has a current individual education plan with a Florida school district, and is not younger than 3 years of age. A special needs child eligible under this paragraph remains eligible until the child is eligible for admission to kindergarten in a public school under s. 1003.21(1)(a)2.

(i) Notwithstanding paragraphs (a)-(d), priority shall be

school readiness program provider standards and eligibility to deliver the school readiness program; providing school readiness program funding; providing a market rate schedule; providing for the investigation of fraud or overpayment; providing penalties; providing for child care and early childhood resource and referral; providing for school readiness program transportation services; providing for the Child Care Executive Partnership Program; providing for the Teacher Education and Compensation Helps scholarship program; providing for Early Head Start collaboration grants; transferring, renumbering, and amending s. 411.011, F.S., relating to the confidentiality of records of children in the school readiness program; revising provisions with respect to the release of records; amending s. 11.45, F.S.; conforming a cross-reference; amending s. 20.15, F.S.; conforming provisions; amending s. 196.198, F.S.; revising provisions relating to educational property tax exemption; amending s. 216.136, F.S.; conforming a cross-reference; amending s. 402.281, F.S.; revising requirements relating to receipt of a Gold Seal Quality Care designation; amending s. 402.302, F.S.; conforming a cross-reference; amending s. 402.305, F.S.; providing that certain child care after-school programs may provide meals through a federal program; amending ss. 445.023, 490.014, and 491.014, F.S.; conforming cross-references; amending s. 1001.11, F.S.; providing a duty of the Commissioner of

576-04535-13

Education relating to early learning programs; repealing s. 411.01, F.S., relating to the school readiness program and early learning coalitions; repealing s. 411.0101, F.S., relating to child care and early childhood resource and referral; repealing s. 411.01013, F.S., relating to the prevailing market rate schedule; repealing s. 411.01014, F.S., relating to school readiness transportation services; repealing s. 411.01015, F.S., relating to consultation to child care centers and family day care homes; repealing s. 411.0102, F.S., relating to the Child Care Executive Partnership Act; repealing s. 411.0103, F.S., relating to the Teacher Education and Compensation Helps scholarship program; repealing s. 411.0104, relating to Early Head Start collaboration grants; repealing s. 411.0105, F.S., relating to the Early Learning Opportunities Act and Even Start Family Literacy Programs; repealing s. 411.0106, F.S., relating to infants and toddlers in state-funded education and care programs; authorizing specified positions for the Office of Early Learning; requiring the office to develop a reorganization plan for the office and submit the plan to the Governor and the Legislature; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 1001.213, Florida Statutes, is created to read:

576-04535-13

1001.213 Office of Early Learning.—The Office of Early Learning is created within the Department of Education's Office of Independent Education and Parental Choice. The Office of Early Learning, which shall be administered by an executive director, is fully accountable to the Commissioner of Education but shall:

(1) Independently exercise all powers, duties, and functions prescribed by law and shall not be construed as part of the K-20 education system.

(2) Adopt rules for the establishment and operation of the school readiness program and the Voluntary Prekindergarten Education Program. The office shall submit the rules to the State Board of Education for approval or disapproval. If the state board does not act on a rule within 60 days after receipt, the rule shall be filed immediately with the Department of State.

(3) In compliance with part VI of chapter 1002 and its powers and duties under s. 1002.82, administer the school readiness program at the state level for the state's eligible population described in s. 1002.87 and provide guidance to early learning coalitions in the implementation of the program.

(4) In compliance with parts V and VI of chapter 1002 and its powers and duties under s. 1002.75, administer the Voluntary Prekindergarten Education Program at the state level.

(5) Administer the operational requirements of the child care resource and referral network at the state level.

(6) Keep administrative staff to the minimum necessary to administer the duties of the office.

Section 2. Subsection (4) of section 1002.51, Florida

576-04535-13

Statutes, is amended, and subsection (8) is added to that section, to read:

1002.51 Definitions.—As used in this part, the term:

(4) "Early learning coalition" or "coalition" means an early learning coalition created under s. 1002.83 ~~411.01~~.

(8) "Office" means the Office of Early Learning within the Department of Education's Office of Independent Education and Parental Choice.

Section 3. Paragraph (a) of subsection (4) and paragraph (b) of subsection (6) of section 1002.53, Florida Statutes, are amended to read:

1002.53 Voluntary Prekindergarten Education Program; eligibility and enrollment.—

(4)(a) Each parent enrolling a child in the Voluntary Prekindergarten Education Program must complete and submit an application to the early learning coalition through the single point of entry established under s. 1002.82 ~~411.01~~.

(6)(b) A parent may enroll his or her child with any public school within the school district which is eligible to deliver the Voluntary Prekindergarten Education Program under this part, subject to available space. Each school district may limit the number of students admitted by any public school for enrollment in the school-year program; however, the school district must provide for the admission of every eligible child within the district whose parent enrolls the child in a summer prekindergarten program delivered by a public school under s. 1002.61.

Section 4. Paragraphs (c) and (g) of subsection (3) of section 1002.55, Florida Statutes, are amended, present

576-04535-13

paragraph (i) of that subsection is redesignated as paragraph (m), and new paragraphs (i), (j), (k), and (l) are added to that subsection, to read:

1002.55 School-year prekindergarten program delivered by private prekindergarten providers.—

(3) To be eligible to deliver the prekindergarten program, a private prekindergarten provider must meet each of the following requirements:

(c) The private prekindergarten provider must have, for each prekindergarten class of 11 children or fewer, at least one prekindergarten instructor who meets each of the following requirements:

1. The prekindergarten instructor must hold, at a minimum, one of the following credentials:

a. A child development associate credential issued by the National Credentialing Program of the Council for Professional Recognition; or

b. A credential approved by the Department of Children and Families ~~Family Services~~ as being equivalent to or greater than the credential described in sub-subparagraph a.

The Department of Children and Families ~~Family Services~~ may adopt rules under ss. 120.536(1) and 120.54 which provide criteria and procedures for approving equivalent credentials under sub-subparagraph b.

2. The prekindergarten instructor must successfully complete an emergent literacy training course and a student performance standards training course approved by the office ~~department~~ as meeting or exceeding the minimum standards adopted

576-04535-13

under s. 1002.59. The requirement for completion of the standards training course shall take effect July 1, 2014, and the course shall be available online. ~~This subparagraph does not apply to a prekindergarten instructor who successfully completes approved training in early literacy and language development under s. 402.305(2)(d)5., s. 402.313(6), or s. 402.3131(5) before the establishment of one or more emergent literacy training courses under s. 1002.59 or April 1, 2005, whichever occurs later.~~

(g) ~~Before the beginning of the 2006-2007 school year,~~ The private prekindergarten provider must have a prekindergarten director who has a prekindergarten director credential that is approved by the office ~~department~~ as meeting or exceeding the minimum standards adopted under s. 1002.57. Successful completion of a child care facility director credential under s. 402.305(2)(f) before the establishment of the prekindergarten director credential under s. 1002.57 or July 1, 2006, whichever occurs later, satisfies the requirement for a prekindergarten director credential under this paragraph.

(i) The private prekindergarten provider must execute the statewide provider contract prescribed under s. 1002.75, except that an individual who owns or operates multiple private prekindergarten providers within a coalition's service area may execute a single agreement with the coalition on behalf of each provider.

(j) The private prekindergarten provider must maintain general liability insurance and provide the coalition with written evidence of general liability insurance coverage, including coverage for transportation of children if

prekindergarten students are transported by the provider. A provider must obtain and retain an insurance policy that provides a minimum of $100,000 of coverage per occurrence and a minimum of $300,000 general aggregate coverage. The office may authorize lower limits upon request, as appropriate. A provider must add the coalition as a named certificateholder and as an additional insured. A provider must provide the coalition with a minimum of 10 calendar days' advance written notice of cancellation of or changes to coverage. The general liability insurance required by this paragraph must remain in full force and effect for the entire period of the provider contract with the coalition.

(k) The private prekindergarten provider must obtain and maintain any required workers' compensation insurance under chapter 440 and any required reemployment assistance or unemployment compensation coverage under chapter 443.

(l) Notwithstanding paragraph (j), for a private prekindergarten provider that is a state agency or a subdivision thereof, as defined in s. 768.28(2), the provider must agree to notify the coalition of any additional liability coverage maintained by the provider in addition to that otherwise established under s. 768.28. The provider shall indemnify the coalition to the extent permitted by s. 768.28.

Section 5. Subsection (1) of section 1002.57, Florida Statutes, is amended to read:

1002.57 Prekindergarten director credential.—

(1) ~~By July 1, 2006,~~ The office, in consultation with the Department of Children and Families, ~~department~~ shall adopt minimum standards for a credential for prekindergarten directors

of private prekindergarten providers delivering the Voluntary Prekindergarten Education Program. The credential must encompass requirements for education and onsite experience.

Section 6. Section 1002.59, Florida Statutes, is amended to read:

1002.59 Emergent literacy and performance standards training courses.—

(1) ~~By April 1, 2005,~~ The office ~~department~~ shall adopt minimum standards for one or more training courses in emergent literacy for prekindergarten instructors. Each course must comprise 5 clock hours and provide instruction in strategies and techniques to address the age-appropriate progress of prekindergarten students in developing emergent literacy skills, including oral communication, knowledge of print and letters, phonemic and phonological awareness, and vocabulary and comprehension development. Each course must also provide resources containing strategies that allow students with disabilities and other special needs to derive maximum benefit from the Voluntary Prekindergarten Education Program. Successful completion of an emergent literacy training course approved under this section satisfies requirements for approved training in early literacy and language development under ss. 402.305(2)(d)5., 402.313(6), and 402.3131(5).

(2) The office shall adopt minimum standards for one or more training courses on the performance standards adopted under s. 1002.67(1). Each course must comprise at least 3 clock hours, provide instruction in strategies and techniques to address age-appropriate progress of each child in attaining the standards, and be available online.

576-04535-13

Section 7. Subsections (3), (4), and (8) of section 1002.61, Florida Statutes, are amended to read:

1002.61 Summer prekindergarten program delivered by public schools and private prekindergarten providers.—

(3)(a) Each district school board shall determine which public schools in the school district are eligible to deliver the summer prekindergarten program. The school district shall use educational facilities available in the public schools during the summer term for the summer prekindergarten program.

(b) Each public school delivering the summer prekindergarten program must execute the statewide provider contract prescribed under s. 1002.75, except that the school district may execute a single agreement with the early learning coalition on behalf of all district schools.

(c) ~~(b)~~ Except as provided in this section, to be eligible to deliver the summer prekindergarten program, a private prekindergarten provider must meet each requirement in s. 1002.55.

(4) Notwithstanding ss. 1002.55(3)(c)1. and 1002.63(4), each public school and private prekindergarten provider must have, for each prekindergarten class, at least one prekindergarten instructor who~~:~~

~~(a)~~ is a certified teacher~~;~~ or

~~(b)~~ holds one of the educational credentials specified in s. 1002.55(4)(a) or (b). As used in this subsection, the term "certified teacher" means a teacher holding a valid Florida educator certificate under s. 1012.56 who has the qualifications required by the district school board to instruct students in the summer prekindergarten program. In selecting instructional

576-04535-13

staff for the summer prekindergarten program, each school district shall give priority to teachers who have experience or coursework in early childhood education.

(8) Each public school delivering the summer prekindergarten program must also~~:~~

~~(a)~~ register with the early learning coalition on forms prescribed by the Office of Early Learning~~;~~ and

~~(b)~~ deliver the Voluntary Prekindergarten Education Program in accordance with this part.

Section 8. Subsections (3) and (8) of section 1002.63, Florida Statutes, are amended to read:

1002.63 School-year prekindergarten program delivered by public schools.—

(3)(a) The district school board of each school district shall determine which public schools in the district may deliver the prekindergarten program during the school year.

(b) Each public school delivering the school-year prekindergarten program must execute the statewide provider contract prescribed under s. 1002.75, except that the school district may execute a single agreement with the early learning coalition on behalf of all district schools.

(8) Each public school delivering the school-year prekindergarten program must~~:~~

~~(a)~~ register with the early learning coalition on forms prescribed by the Office of Early Learning~~;~~ and

~~(b)~~ deliver the Voluntary Prekindergarten Education Program in accordance with this part.

Section 9. Subsection (1) of section 1002.66, Florida Statutes, is amended to read:

576-04535-13

1002.66 Specialized instructional services for children with disabilities.—

(1) ~~Beginning with the 2012-2013 school year,~~ A child who has a disability and enrolls with the early learning coalition under s. 1002.53(3)(d) is eligible for specialized instructional services if:

(a) The child is eligible for the Voluntary Prekindergarten Education Program under s. 1002.53; and

(b) A current individual educational plan has been developed for the child by the local school board in accordance with rules of the State Board of Education.

Section 10. Subsection (1), paragraph (c) of subsection (2), and subsection (4) of section 1002.67, Florida Statutes, are amended to read:

1002.67 Performance standards; curricula and accountability.—

(1)(a) The office ~~department~~ shall develop and adopt performance standards for students in the Voluntary Prekindergarten Education Program. The performance standards must address the age-appropriate progress of students in the development of:

1. The capabilities, capacities, and skills required under s. 1(b), Art. IX of the State Constitution; and

2. Emergent literacy skills, including oral communication, knowledge of print and letters, phonemic and phonological awareness, and vocabulary and comprehension development.

By October 1, 2013, the office shall examine the existing performance standards in the area of mathematical thinking and

576-04535-13

develop a plan to make appropriate professional development and training courses available to prekindergarten instructors.

(b) The office ~~State Board of Education~~ shall periodically review and revise the performance standards for the statewide kindergarten screening administered under s. 1002.69 and align the standards to the standards established by the state board for student performance on the statewide assessments administered pursuant to s. 1008.22.

(2)

(c) The office ~~department~~ shall review and approve curricula for use by private prekindergarten providers and public schools that are placed on probation under paragraph (4)(c). The office ~~department~~ shall maintain a list of the curricula approved under this paragraph. Each approved curriculum must meet the requirements of paragraph (b).

(4)(a) Each early learning coalition shall verify that each private prekindergarten provider delivering the Voluntary Prekindergarten Education Program within the coalition's county or multicounty region complies with this part. Each district school board shall verify that each public school delivering the program within the school district complies with this part.

(b) If a private prekindergarten provider or public school fails or refuses to comply with this part, or if a provider or school engages in misconduct, the office ~~of Early Learning~~ shall require the early learning coalition to remove the provider~~,~~ and ~~the Department of Education shall~~ require the school district to remove the school from eligibility to deliver the Voluntary Prekindergarten Education Program and receive state funds under this part for a period of 5 years.

576-04535-13

(c)1. If the kindergarten readiness rate of a private prekindergarten provider or public school falls below the minimum rate adopted by the office ~~State Board of Education~~ as satisfactory under s. 1002.69(6), the early learning coalition or school district, as applicable, shall require the provider or school to submit an improvement plan for approval by the coalition or school district, as applicable, and to implement the plan; ~~.~~

~~2. If a private prekindergarten provider or public school fails to meet the minimum rate adopted by the State Board of Education as satisfactory under s. 1002.69(6), the early learning coalition or school district, as applicable,~~ shall place the provider or school on probation; and shall ~~must~~ require the provider or school to take certain corrective actions, including the use of a curriculum approved by the office ~~department~~ under paragraph (2)(c) or a staff development plan to strengthen instruction in language development and phonological awareness approved by the office ~~department~~.

2.~~3.~~ A private prekindergarten provider or public school that is placed on probation must continue the corrective actions required under subparagraph 1. ~~2.~~, including the use of a curriculum or a staff development plan to strengthen instruction in language development and phonological awareness approved by the office ~~department~~, until the provider or school meets the minimum rate adopted by the office ~~State Board of Education~~ as satisfactory under s. 1002.69(6). Failure to implement an approved improvement plan or staff development plan shall result in the termination of the provider's contract to deliver the Voluntary Prekindergarten Education Program for a period of 5

576-04535-13

years.

3.~~4.~~ If a private prekindergarten provider or public school remains on probation for 2 consecutive years and fails to meet the minimum rate adopted by the office ~~State Board of Education~~ as satisfactory under s. 1002.69(6) and is not granted a good cause exemption by the office ~~department~~ pursuant to s. 1002.69(7), the office ~~of Early Learning~~ shall require the early learning coalition or ~~the Department of Education shall require~~ the school district to remove, as applicable, the provider or school from eligibility to deliver the Voluntary Prekindergarten Education Program and receive state funds for the program for a period of 5 years.

(d) Each early learning coalition and~~,~~ the office ~~of Early Learning, and the department~~ shall coordinate with the Child Care Services Program Office of the Department of Children and Families ~~Family Services~~ to minimize interagency duplication of activities for monitoring private prekindergarten providers for compliance with requirements of the Voluntary Prekindergarten Education Program under this part, the school readiness program ~~programs~~ under part VI of this chapter ~~s. 411.01~~, and the licensing of providers under ss. 402.301-402.319.

Section 11. Subsections (2), (5), (6), and (7) of section 1002.69, Florida Statutes, are amended to read:

1002.69 Statewide kindergarten screening; kindergarten readiness rates; state-approved prekindergarten enrollment screening; good cause exemption.—

(2) The statewide kindergarten screening shall provide objective data concerning each student's readiness for kindergarten and progress in attaining the performance standards

adopted by the office ~~department~~ under s. 1002.67(1).

(5) The office ~~State Board of Education~~ shall adopt procedures ~~for the department~~ to annually calculate each private prekindergarten provider's and public school's kindergarten readiness rate, which must be expressed as the percentage of the provider's or school's students who are assessed as ready for kindergarten. The methodology for calculating each provider's kindergarten readiness rate must include student learning gains when available and the percentage of students who meet all state readiness measures. The rates must not include students who are not administered the statewide kindergarten screening. The office ~~state board~~ shall determine learning gains using a value-added measure based on growth demonstrated by the results of the preassessment and postassessment ~~pre- and post-assessment~~ from at least 2 successive years of administration of the preassessment and postassessment ~~pre- and post-assessment~~.

(6) The office ~~State Board of Education~~ shall periodically adopt a minimum kindergarten readiness rate that, if achieved by a private prekindergarten provider or public school, would demonstrate the provider's or school's satisfactory delivery of the Voluntary Prekindergarten Education Program.

(7)(a) Notwithstanding s. 1002.67(4)(c)3. ~~1002.67(4)(c)4.~~, the office ~~State Board of Education~~, upon the request of a private prekindergarten provider or public school that remains on probation for 2 consecutive years or more and subsequently fails to meet the minimum rate adopted under subsection (6) and for good cause shown, may grant to the provider or school an exemption from being determined ineligible to deliver the Voluntary Prekindergarten Education Program and receive state

funds for the program. Such exemption is valid for 1 year and, upon the request of the private prekindergarten provider or public school and for good cause shown, may be renewed.

(b) A private prekindergarten provider's or public school's request for a good cause exemption, or renewal of such an exemption, must be submitted to the office ~~state board~~ in the manner and within the timeframes prescribed by the office ~~state board~~ and must include the following:

1. Submission of data by the private prekindergarten provider or public school which documents the achievement and progress of the children served as measured by the state-approved prekindergarten enrollment screening and the standardized postassessment approved by the office ~~department~~ pursuant to subparagraph (c)1.

2. Submission and review of data available from the respective early learning coalition or district school board, the Department of Children and Families ~~Family Services~~, local licensing authority, or an accrediting association, as applicable, relating to the private prekindergarten provider's or public school's compliance with state and local health and safety standards.

3. Submission and review of data available to the office ~~department~~ on the performance of the children served and the calculation of the private prekindergarten provider's or public school's kindergarten readiness rate.

(c) The office ~~State Board of Education~~ shall adopt criteria for granting good cause exemptions. Such criteria shall include, but are not limited to:

1. Learning gains of children served in the Voluntary

Prekindergarten Education Program by the private prekindergarten provider or public school.

2. Verification that local and state health and safety requirements are met.

(d) A good cause exemption may not be granted to any private prekindergarten provider that has any class I violations or two or more class II violations within the 2 years preceding the provider's or school's request for the exemption. For purposes of this paragraph, class I and class II violations have the same meaning as provided in s. 402.281(4).

(e) A private prekindergarten provider or public school granted a good cause exemption shall continue to implement its improvement plan and continue the corrective actions required under s. 1002.67(4)(c)1. ~~1002.67(4)(c)2.~~, including the use of a curriculum approved by the office ~~department~~, until the provider or school meets the minimum rate adopted under subsection (6).

(f) ~~The State Board of Education shall notify the Office of Early Learning of any good cause exemption granted to a private prekindergarten provider under this subsection.~~ If a good cause exemption is granted to a private prekindergarten provider who remains on probation for 2 consecutive years, the office ~~of Early Learning~~ shall notify the early learning coalition of the good cause exemption and direct that the coalition, notwithstanding s. 1002.67(4)(c)3. ~~1002.67(4)(c)4.~~, not remove the provider from eligibility to deliver the Voluntary Prekindergarten Education Program or to receive state funds for the program, if the provider meets all other applicable requirements of this part.

Section 12. Paragraph (d) of subsection (3) and subsections

(5) and (7) of section 1002.71, Florida Statutes, are amended to read:

1002.71 Funding; financial and attendance reporting.—

(3)

(d) For programs offered by school districts pursuant to s. 1002.61 ~~and beginning with the 2009 summer program~~, each district's funding shall be based on a student enrollment that is evenly divisible by 12. If the result of dividing a district's student enrollment by 12 is not a whole number, the district's enrollment calculation shall be adjusted by adding the minimum number of students to produce a student enrollment calculation that is evenly divisible by 12.

(5)(a) Each early learning coalition shall maintain through the single point of entry established under s. 1002.82 ~~411.01~~ a current database of the students enrolled in the Voluntary Prekindergarten Education Program for each county within the coalition's region.

(b) The Office of Early Learning shall adopt procedures for the payment of private prekindergarten providers and public schools delivering the Voluntary Prekindergarten Education Program. The procedures shall provide for the advance payment of providers and schools based upon student enrollment in the program, the certification of student attendance, and the reconciliation of advance payments in accordance with the uniform attendance policy adopted under paragraph (6)(d). The procedures shall provide for the monthly distribution of funds by the Office of Early Learning to the early learning coalitions for payment by the coalitions to private prekindergarten providers and public schools. ~~The department shall transfer to~~

~~the Office of Early Learning at least once each quarter the funds available for payment to private prekindergarten providers and public schools in accordance with this paragraph from the funds appropriated for that purpose.~~

(7) The Office of Early Learning shall require that administrative expenditures be kept to the minimum necessary for efficient and effective administration of the Voluntary Prekindergarten Education Program. Administrative policies and procedures shall be revised, to the maximum extent practicable, to incorporate the use of automation and electronic submission of forms, including those required for child eligibility and enrollment, provider and class registration, and monthly certification of attendance for payment. A school district may use its automated daily attendance reporting system for the purpose of transmitting attendance records to the early learning coalition in a mutually agreed-upon format. In addition, actions shall be taken to reduce paperwork, eliminate the duplication of reports, and eliminate other duplicative activities. ~~Beginning with the 2011-2012 fiscal year,~~ Each early learning coalition may retain and expend no more than 4.0 percent of the funds paid by the coalition to private prekindergarten providers and public schools under paragraph (5)(b). Funds retained by an early learning coalition under this subsection may be used only for administering the Voluntary Prekindergarten Education Program and may not be used for the school readiness program or other programs.

Section 13. Paragraph (a) of subsection (3) of section 1002.72, Florida Statutes, is amended to read:

1002.72 Records of children in the Voluntary

Prekindergarten Education Program.—

(3)(a) Confidential and exempt Voluntary Prekindergarten Education Program records may be released to:

1. The United States Secretary of Education, the United States Secretary of Health and Human Services, and the Comptroller General of the United States for the purpose of federal audits or investigations.

2. Individuals or organizations conducting studies for institutions to develop, validate, or administer assessments or improve instruction.

3. Accrediting organizations in order to carry out their accrediting functions.

4. Appropriate parties in connection with an emergency if the information is necessary to protect the health or safety of the child or other individuals.

5. The Auditor General in connection with his or her official functions.

6. A court of competent jurisdiction in compliance with an order of that court pursuant to a lawfully issued subpoena.

7. Parties to an interagency agreement among early learning coalitions, local governmental agencies, Voluntary Prekindergarten Education Program providers, or state agencies for the purpose of implementing the Voluntary Prekindergarten Education Program.

Section 14. Subsection (1) and paragraphs (a) and (d) of subsection (2) of section 1002.75, Florida Statutes, are amended to read:

1002.75 Office of Early Learning; powers and duties~~; operational requirements~~.—

(1) The Office of Early Learning shall adopt by rule a standard statewide provider contract to be used with each Voluntary Prekindergarten Education Program provider, with standardized attachments by provider type. The office shall publish a copy of the standard statewide provider contract on its website. The standard statewide contract shall include, at a minimum, provisions for provider probation, termination for cause, and emergency termination for those actions or inactions of a provider that pose an immediate and serious danger to the health, safety, or welfare of children. The standard statewide contract shall also include appropriate due process procedures. During the pendency of an appeal of a termination, the provider may not continue to offer its services. Any provision imposed upon a provider that is inconsistent with, or prohibited by, law is void and unenforceable. ~~The Office of Early Learning shall administer the operational requirements of the Voluntary Prekindergarten Education Program at the state level.~~

(2) The Office of Early Learning shall adopt procedures governing the administration of the Voluntary Prekindergarten Education Program by the early learning coalitions and school districts for:

(a) Enrolling children in and determining the eligibility of children for the Voluntary Prekindergarten Education Program under s. 1002.53, which shall include the enrollment of children by public schools and private providers that meet specified requirements.

(d) Determining the eligibility of private prekindergarten providers to deliver the program under ss. 1002.55 and 1002.61 and streamlining the process of provider eligibility whenever

possible.

Section 15. Subsections (1) through (3) of section 1002.77, Florida Statutes, are amended to read:

1002.77 Florida Early Learning Advisory Council.—

(1) There is created the Florida Early Learning Advisory Council within the Office of Early Learning. The purpose of the advisory council is to submit recommendations to the office ~~department~~ on ~~the~~ early learning best practices ~~policy of this state~~, including recommendations relating to the most effective administration of the Voluntary Prekindergarten Education Program under this part and the school readiness program ~~programs~~ under part VI of this chapter ~~s. 411.01~~. The advisory council shall periodically analyze and provide recommendations to the office on the effective and efficient use of local, state, and federal funds; the content of professional development training programs; and best practices for the development and implementation of coalition plans pursuant to s. 1002.85.

(2) The advisory council shall be composed of the following members:

(a) The chair of the advisory council who shall be appointed by and serve at the pleasure of the Governor.

(b) The chair of each early learning coalition.

(c) One member who shall be appointed by and serve at the pleasure of the President of the Senate.

(d) One member who shall be appointed by and serve at the pleasure of the Speaker of the House of Representatives.

The chair of the advisory council appointed by the Governor and

576-04535-13

the members appointed by the presiding officers of the Legislature must be from the business community and be in compliance with s. 1002.83(5) ~~each have a background in early learning~~.

(3) The advisory council shall meet at least quarterly but may meet as often as necessary to carry out its duties and responsibilities. The advisory council may use any method of telecommunications to conduct meetings, including establishing a quorum through telecommunications, only if the public is given proper notice of a telecommunications meeting and reasonable access to observe and, when appropriate, participate.

Section 16. Section 1002.79, Florida Statutes, is amended to read:

1002.79 Rulemaking authority.—

~~(1) The State Board of Education shall adopt rules under ss. 120.536(1) and 120.54 to administer the provisions of this part conferring duties upon the department.~~

~~(2)~~ The Office of Early Learning shall adopt rules under ss. 120.536(1) and 120.54 to administer the provisions of this part conferring duties upon the office.

Section 17. Part VI of chapter 1002, Florida Statutes, consisting of sections 1002.81 through 1002.96, is created to read:

PART VI

SCHOOL READINESS PROGRAM

1002.81 Definitions.—Consistent with the requirements of 45 C.F.R. parts 98 and 99 and as used in this part, the term:

(1) "At-risk child" means:

(a) A child from a family under investigation by the

576-04535-13

Department of Children and Families or a designated sheriff's office for child abuse, neglect, abandonment, or exploitation.

(b) A child who is in a diversion program provided by the Department of Children and Families or its contracted provider and who is from a family that is actively participating and complying in department-prescribed activities, including education, health services, or work.

(c) A child from a family that is under supervision by the Department of Children and Families or a contracted service provider for abuse, neglect, abandonment, or exploitation.

(d) A child placed in court-ordered, long-term custody or under the guardianship of a relative or nonrelative after termination of supervision by the Department of Children and Families or its contracted provider.

(e) A child in the custody of a parent who is a victim of domestic violence residing in a certified domestic violence center.

(f) A child in the custody of a parent who is considered homeless as verified by a Department of Children and Families certified homeless shelter.

(2) "Authorized hours of care" means the hours of care that are necessary to provide protection, maintain employment, or complete work activities or eligible educational activities, including reasonable travel time.

(3) "Average market rate" means the biennially determined average of the market rate by program care level and provider type in a predetermined geographic market.

(4) "Direct enhancement services" means services for families and children that are in addition to payments for the

576-04535-13

placement of children in the school readiness program. Direct enhancement services for families and children may include supports for providers, parent training and involvement activities, and strategies to meet the needs of unique populations and local eligibility priorities. Direct enhancement services offered by an early learning coalition shall be consistent with the activities prescribed in s. 1002.89(6)(b).

(5) "Disenrollment" means the removal either temporary or permanent, of a child from participation in the school readiness program. Removal of a child from the school readiness program may be based on the following events: a reduction in available school readiness program funding, participant's failure to meet eligibility or program participation requirements, fraud, or a change in local service priorities.

(6) "Earned income" means gross remuneration derived from work, professional service, or self-employment. The term includes commissions, bonuses, back pay awards, and the cash value of all remuneration paid in a medium other than cash.

(7) "Economically disadvantaged" means having a family income that does not exceed 150 percent of the federal poverty level and includes being a child of a working migratory family as defined by 34 C.F.R. s. 200.81(d) or (f) or an agricultural worker who is employed by more than one agricultural employer during the course of a year, and whose income varies according to weather conditions and market stability.

(8) "Family income" means the combined gross income, whether earned or unearned, that is derived from any source by all family or household members who are 18 years of age or older who are currently residing together in the same dwelling unit.

576-04535-13

The term does not include income earned by a currently enrolled high school student who, since attaining the age of 18 years, or a student with a disability who, since attaining the age of 22 years, has not terminated school enrollment or received a high school diploma, high school equivalency diploma, special diploma, or certificate of high school completion. The term also does not include food stamp benefits or federal housing assistance payments issued directly to a landlord or the associated utilities expenses.

(9) "Family or household members" means spouses, former spouses, persons related by blood or marriage, persons who are parents of a child in common regardless of whether they have been married, and other persons who are currently residing together in the same dwelling unit as if a family.

(10) "Full-time care" means at least 6 hours, but not more than 11 hours, of child care or early childhood education services within a 24-hour period.

(11) "Market rate" means the price that a child care or early childhood education provider charges for full-time or part-time daily, weekly, or monthly child care or early childhood education services.

(12) "Office" means the Office of Early Learning within the Department of Education's Office of Independent Education and Parental Choice.

(13) "Part-time care" means less than 6 hours of child care or early childhood education services within a 24-hour period.

(14) "Single point of entry" means an integrated information system that allows a parent to enroll his or her child in the school readiness program or the Voluntary

Prekindergarten Education Program at various locations throughout a county, that may allow a parent to enroll his or her child by telephone or through a website, and that uses a uniform waiting list to track eligible children waiting for enrollment in the school readiness program.

(15) "Unearned income" means income other than earned income. The term includes, but is not limited to:

(a) Documented alimony and child support received.

(b) Social security benefits.

(c) Supplemental security income benefits.

(d) Workers' compensation benefits.

(e) Reemployment assistance or unemployment compensation benefits.

(f) Veterans' benefits.

(g) Retirement benefits.

(h) Temporary cash assistance under chapter 414.

(16) "Working family" means:

(a) A single-parent family in which the parent with whom the child resides is employed or engaged in eligible work or education activities for at least 20 hours per week;

(b) A two-parent family in which both parents with whom the child resides are employed or engaged in eligible work or education activities for a combined total of at least 40 hours per week; or

(c) A two-parent family in which one of the parents with whom the child resides is exempt from work requirements due to age or disability, as determined and documented by a physician licensed under chapter 458 or chapter 459, and one parent is employed or engaged in eligible work or education activities at

least 20 hours per week.

1002.82 Office of Early Learning; powers and duties.—

(1) For purposes of administration of the Child Care and Development Block Grant Trust Fund, pursuant to 45 C.F.R. parts 98 and 99, the Office of Early Learning is designated as the lead agency and must comply with lead agency responsibilities pursuant to federal law. The office may apply to the Governor and Cabinet for a waiver of, and the Governor and Cabinet may waive, any provision of ss. 411.223 and 1003.54 if the waiver is necessary for implementation of the school readiness program. Section 125.901(2)(a)3. does not apply to the school readiness program.

(2) The office shall:

(a) Focus on improving the educational quality delivered by all providers participating in the school readiness program.

(b) Preserve parental choice by permitting parents to choose from a variety of child care categories, including center-based care, family child care, and informal child care to the extent authorized in the state's Child Care and Development Fund Plan as approved by the United States Department of Health and Human Services pursuant to 45 C.F.R. s. 98.18. Care and curriculum by a faith-based provider may not be limited or excluded in any of these categories.

(c) Be responsible for the prudent use of all public and private funds in accordance with all legal and contractual requirements, safeguarding the effective use of federal, state, and local resources to achieve the highest practicable level of school readiness for the children described in s. 1002.87, including:

1. The adoption of a uniform chart of accounts for budgeting and financial reporting purposes that provides standardized definitions for expenditures and reporting, consistent with the requirements of 45 C.F.R. part 98 and s. 1002.89 for each of the following categories of expenditure:

a. Direct services to children.

b. Administrative costs.

c. Quality activities.

d. Nondirect services.

2. Coordination with other state and federal agencies to perform data matches on children participating in the school readiness program and their families in order to verify the children's eligibility pursuant to s. 1002.87.

(d) Establish procedures for the biennial calculation of the average market rate.

(e) Review each early learning coalition's school readiness program plan every 2 years and provide final approval of the plan and any amendments submitted.

(f) Establish a unified approach to the state's efforts to coordinate a comprehensive early learning program. In support of this effort, the office:

1. Shall adopt specific program support services that address the state's school readiness program, including:

a. Statewide data information program requirements that include:

(I) Eligibility requirements.

(II) Financial reports.

(III) Program accountability measures.

(IV) Child progress reports.

b. Child care resource and referral services.

c. A single point of entry and uniform waiting list.

2. May provide technical assistance and guidance on additional support services to complement the school readiness program, including:

a. Rating and improvement systems.

b. Warm-Line services.

c. Anti-fraud plans.

d. School readiness program standards.

e. Child screening and assessments.

f. Training and support for parental involvement in children's early education.

g. Family literacy activities and services.

(g) Provide technical assistance to early learning coalitions.

(h) In cooperation with the early learning coalitions, coordinate with the Child Care Services Program Office of the Department of Children and Families to reduce paperwork and to avoid duplicating interagency activities, health and safety monitoring, and acquiring and composing data pertaining to child care training and credentialing.

(i) Develop, in coordination with the Child Care Services Program Office of the Department of Children and Families, and adopt a health and safety checklist to be completed by license-exempt providers that does not exceed the requirements s. 402.305.

(j) Develop and adopt standards and benchmarks that address the age-appropriate progress of children in the development of school readiness skills. The standards for children from birth

428226

576-04535-13

to 5 years of age in the school readiness program must be aligned with the performance standards adopted for children in the Voluntary Prekindergarten Education Program and must address the following domains:

1. Approaches to learning.

2. Cognitive development and general knowledge.

3. Numeracy, language, and communication.

4. Physical development.

5. Self-regulation.

(k) Select assessments that are valid, reliable, and developmentally appropriate for use as preassessment and postassessment for the age ranges specified in the coalition plans. The assessments must be designed to measure progress in the domains of the performance standards adopted pursuant to paragraph (j), provide appropriate accommodations for children with disabilities and English language learners, and be administered by qualified individuals, consistent with the publisher's instructions.

(l) Adopt a list of approved curricula that meet the performance standards for the school readiness program and establish a process for the review and approval of a provider's curriculum that meets the performance standards.

(m) Adopt by rule a standard statewide provider contract to be used with each school readiness program provider, with standardized attachments by provider type. The office shall publish a copy of the standard statewide provider contract on its website. The standard statewide contract shall include, at a minimum, provisions for provider probation, termination for cause, and emergency termination for those actions or inactions

428226

576-04535-13

of a provider that pose an immediate and serious danger to the health, safety, or welfare of the children. The standard statewide provider contract shall also include appropriate due process procedures. During the pendency of an appeal of a termination, the provider may not continue to offer its services. Any provision imposed upon a provider that is inconsistent with, or prohibited by, law is void and unenforceable.

(n) Establish a single statewide information system that each coalition must use for the purposes of managing the single point of entry, tracking children's progress, coordinating services among stakeholders, determining eligibility of children, tracking child attendance, and streamlining administrative processes for providers and early learning coalitions.

(o) Adopt by rule standardized procedures for coalitions to use when monitoring the compliance of school readiness program providers with the terms of the standard statewide provider contract.

(p) Monitor and evaluate the performance of each early learning coalition in administering the school readiness program, ensuring proper payments for school readiness program services, implementing the coalition's school readiness program plan, and administering the Voluntary Prekindergarten Education Program. These monitoring and performance evaluations must include, at a minimum, onsite monitoring of each coalition's finances, management, operations, and programs.

(q) Work in conjunction with the Bureau of Federal Education Programs within the Department of Education to

576-04535-13

coordinate readiness and voluntary prekindergarten services to the populations served by the bureau.

(r) Administer a statewide toll-free Warm-Line to provide assistance and consultation to child care facilities and family day care homes regarding health, developmental, disability, and special needs issues of the children they are serving, particularly children with disabilities and other special needs. The office shall:

1. Annually inform child care facilities and family day care homes of the availability of this service through the child care resource and referral network under s. 1002.92.

2. Expand or contract for the expansion of the Warm-Line to maintain at least one Warm-Line in each early learning coalition service area.

(3) If the office determines during the review of school readiness program plans, or through monitoring and performance evaluations conducted under s. 1002.85, that an early learning coalition has not substantially implemented its plan, has not substantially met the performance standards and outcome measures adopted by the office, or has not effectively administered the school readiness program or Voluntary Prekindergarten Education Program, the office may temporarily contract with a qualified entity to continue school readiness program and prekindergarten services in the coalition's county or multicounty region until the office reestablishes the coalition and a new school readiness program plan is approved in accordance with the rules adopted by the office.

(4) The office may request the Governor to apply for a waiver to allow a coalition to administer the Head Start Program

576-04535-13

to accomplish the purposes of the school readiness program.

(5) By January 1 of each year, the office shall publish on its website a report of its activities conducted under this section. The report must include a summary of the coalitions' annual reports, a statewide summary, and the following:

(a) An analysis of early learning activities throughout the state, including the school readiness program and the Voluntary Prekindergarten Education Program.

1. The total and average number of children served in the school readiness program, enumerated by age, eligibility priority category, and coalition, and the total number of children served in the Voluntary Prekindergarten Education Program.

2. A summary of expenditures by coalition, by fund source, including a breakdown by coalition of the percentage of expenditures for administrative activities, quality activities, nondirect services, and direct services for children.

3. A description of the office's and each coalition's expenditures by fund source for the quality and enhancement activities described in s. 1002.89(6)(b).

4. A summary of annual findings and collections related to provider fraud and parent fraud.

5. Data regarding the coalitions' delivery of early learning programs.

6. The total number of children disenrolled statewide and the reason for disenrollment.

7. The total number of providers by provider type.

8. The total number of provider contracts revoked and the reasons for revocation.

576-04535-13

(b) A summary of the activities and detailed expenditures related to the Child Care Executive Partnership Program.

(6)(a) Parental choice of child care providers, including private and faith-based providers, shall be established to the maximum extent practicable in accordance with 45 C.F.R. s. 98.30.

(b) As used in this subsection, the term "payment certificate" means a child care certificate as defined in 45 C.F.R. s. 98.2.

(c) The school readiness program shall, in accordance with 45 C.F.R. s. 98.30, provide parental choice through a payment certificate that provides, to the maximum extent possible, flexibility in the school readiness program and payment arrangements. The payment certificate must bear the names of the beneficiary and the program provider and, when redeemed, must bear the signatures of both the beneficiary and an authorized representative of the provider.

(d) If it is determined that a provider has given any cash or other consideration to the beneficiary in return for receiving a payment certificate, the early learning coalition or its fiscal agent shall refer the matter to the Department of Financial Services pursuant to s. 414.411 for investigation.

(7) Participation in the school readiness program does not expand the regulatory authority of the state, its officers, or an early learning coalition to impose any additional regulation on providers beyond those necessary to enforce the requirements set forth in this part and part V of this chapter.

1002.83 Early learning coalitions.—

(1) Thirty-one or fewer early learning coalitions are

576-04535-13

established and shall maintain direct enhancement services at the local level and provide access to such services in all 67 counties. Two or more early learning coalitions may join for purposes of planning and implementing a school readiness program and the Voluntary Prekindergarten Education Program.

(2) Each early learning coalition shall be composed of at least 15 members but not more than 30 members.

(3) The Governor shall appoint the chair and two other members of each early learning coalition, who must each meet the same qualifications as private sector business members appointed by the coalition under subsection (5).

(4) Each early learning coalition must include the following member positions; however, in a multicounty coalition, each ex officio member position may be filled by multiple nonvoting members but no more than one voting member shall be seated per member position. If an early learning coalition has more than one member representing the same entity, only one of such members may serve as a voting member:

(a) A Department of Children and Families regional administrator or his or her permanent designee who is authorized to make decisions on behalf of the department.

(b) A district superintendent of schools or his or her permanent designee who is authorized to make decisions on behalf of the district.

(c) A regional workforce board executive director or his or her permanent designee.

(d) A county health department director or his or her designee.

(e) A children's services council or juvenile welfare board

576-04535-13

chair or executive director, if applicable.

(f) An agency head of a local licensing agency as defined in s. 402.302, where applicable.

(g) A president of a Florida College System institution or his or her permanent designee.

(h) One member appointed by a board of county commissioners or the governing board of a municipality.

(i) A central agency administrator, where applicable.

(j) A Head Start director.

(k) A representative of private for-profit child care providers, including private for-profit family day care homes.

(l) A representative of faith-based child care providers.

(m) A representative of programs for children with disabilities under the federal Individuals with Disabilities Education Act.

(5) Including the members appointed by the Governor under subsection (3), more than one-third of the members of each early learning coalition must be private sector business members, either for-profit or nonprofit, who do not have, and none of whose relatives as defined in s. 112.3143 has, a substantial financial interest in the design or delivery of the Voluntary Prekindergarten Education Program created under part V of this chapter or the school readiness program. To meet this requirement an early learning coalition must appoint additional members. The office shall establish criteria for appointing private sector business members. These criteria must include standards for determining whether a member or relative has a substantial financial interest in the design or delivery of the Voluntary Prekindergarten Education Program or the school

576-04535-13

readiness program.

(6) A majority of the voting membership of an early learning coalition constitutes a quorum required to conduct the business of the coalition. An early learning coalition may use any method of telecommunications to conduct meetings, including establishing a quorum through telecommunications, provided that the public is given proper notice of a telecommunications meeting and reasonable access to observe and, when appropriate, participate.

(7) A voting member of an early learning coalition may not appoint a designee to act in his or her place, except as otherwise provided in this subsection. A voting member may send a representative to coalition meetings but that representative does not have voting privileges. When a regional administrator for the Department of Children and Families appoints a designee to an early learning coalition, the designee is the voting member of the coalition, and any individual attending in the designee's place, including the district administrator, does not have voting privileges.

(8) Each member of an early learning coalition is subject to ss. 112.313, 112.3135, and 112.3143. For purposes of s. 112.3143(3)(a), each voting member is a local public officer who must abstain from voting when a voting conflict exists.

(9) For purposes of tort liability, each member or employee of an early learning coalition shall be governed by s. 768.28.

(10) An early learning coalition serving a multicounty region must include representation from each county.

(11) Each early learning coalition shall establish terms for all appointed members of the coalition. The terms must be

576-04535-13

staggered and must be a uniform length that does not exceed 4 years per term. Coalition chairs shall be appointed for 4 years in conjunction with their membership on the Early Learning Advisory Council pursuant to s. 20.052. Appointed members may serve a maximum of two consecutive terms. When a vacancy occurs in an appointed position, the coalition must advertise the vacancy.

(12) State, federal, and local matching funds provided to the early learning coalitions may not be used directly or indirectly to pay for meals, food, or beverages for coalition members, coalition employees, or for subcontractor employees. Preapproved, reasonable, and necessary per diem allowances and travel expenses may be reimbursed. Such reimbursement shall be at the standard travel reimbursement rates established in s. 112.061 and must comply with applicable federal and state requirements.

(13) Each early learning coalition shall use a coordinated professional development system that supports the achievement and maintenance of core competencies by school readiness program teachers in helping children attain the performance standards adopted by the office.

(14) Each school district shall, upon request of the coalition, make a list of all individuals currently eligible to act as a substitute teacher within the school district, pursuant to rules adopted by the school district pursuant to s. 1012.35, available to an early learning coalition serving students within the school district. Child care facilities as defined in s. 402.302 may employ individuals listed as substitute instructors for the purpose of offering the school readiness program, the

576-04535-13

Voluntary Prekindergarten Education Program, and all other legally operating child care programs.

1002.84 Early learning coalitions; school readiness powers and duties.—Each early learning coalition shall:

(1) Administer and implement a local comprehensive program of school readiness program services in accordance with this part and the rules adopted by the office, which enhances the cognitive, social, and physical development of children to achieve the performance standards.

(2) Establish a uniform waiting list to track eligible children waiting for enrollment in the school readiness program in accordance with rules adopted by the office.

(3) Establish a resource and referral network operating under s. 1002.92 to assist parents in making an informed choice and provide maximum parental choice of providers and to provide information on available community resources.

(4) Establish a regional Warm-Line as directed by the office pursuant to s. 1002.82(2)(r). Regional Warm-Line staff shall provide onsite technical assistance, when requested, to assist child care facilities and family day care homes with inquiries relating to the strategies, curriculum, and environmental adaptations the child care facilities and family day care homes may need as they serve children with disabilities and other special needs.

(5) Establish an age-appropriate screening, for children ages birth to 5 years, of each child's development and an appropriate referral process for children with identified delays. Such screening shall not be a requirement of entry into the school readiness program and shall be only given with

576-04535-13

parental consent.

(6) Implement an age-appropriate preassessment and postassessment of children if specified in the coalition's approved plan.

(7) Determine child eligibility pursuant to s. 1002.87 and provider eligibility pursuant to s. 1002.88. At a minimum, child eligibility must be redetermined annually. Redetermination must also be conducted twice per year for an additional 50 percent of a coalition's enrollment through a statistically valid random sampling. A coalition must document the reason why a child is no longer eligible for the school readiness program according to the standard codes prescribed by the office.

(8) Establish a parent sliding fee scale that requires a parent copayment to participate in the school readiness program. Providers are required to collect the parent's copayment. A coalition may, on a case-by-case basis, waive the copayment for an at-risk child or temporarily waive the copayment for a child whose family experiences a natural disaster or an event that limits the parent's ability to pay, such as incarceration, placement in residential treatment, or becoming homeless, or an emergency situation such as a household fire or burglary, or while the parent is participating in parenting classes. A parent may not transfer school readiness program services to another school readiness program provider until the parent has submitted documentation from the current school readiness program provider to the early learning coalition stating that the parent has satisfactorily fulfilled the copayment obligation.

(9) Establish proper maintenance of records related to eligibility and enrollment files, provider payments, coalition

576-04535-13

staff background screenings, and other documents required for the implementation of the school readiness program.

(10) Establish a records retention requirement for sign-in and sign-out records that is consistent with state and federal law. Attendance records may not be altered or amended after December 31 of the subsequent year.

(11) Comply with the tangible personal property requirements of chapter 274 and any rules adopted thereunder.

(12) Comply with federal procurement requirements and the procurement requirements of ss. 215.971, 287.057, and 287.058, except that an early learning coalition is not required to competitively procure direct services for school readiness program and Voluntary Prekindergarten Education Program providers.

(13) Establish proper information technology security controls, including, but not limited to, periodically reviewing the appropriateness of access privileges assigned to users of certain systems; monitoring system hardware performance and capacity-related issues; and ensuring appropriate backup procedures and disaster recovery plans are in place.

(14) Develop written policies, procedures, and standards for monitoring vendor contracts, including, but not limited to, provisions specifying the particular procedures that may be used to evaluate contractor performance and the documentation that is to be maintained to serve as a record of contractor performance. This subsection does not apply to contracts with school readiness program providers or Voluntary Prekindergarten Education Program providers.

(15) Monitor school readiness program providers in

576-04535-13

accordance with its plan, or in response to a parental complaint, to verify that the standards prescribed in ss. 1002.82 and 1002.88 are being met using a standard monitoring tool adopted by the office. Providers determined to be high-risk by the coalition, as demonstrated by substantial findings of violations of federal law or the general or local laws of the state, shall be monitored more frequently. Providers with 3 consecutive years of compliance may be monitored biennially.

(16) Adopt a payment schedule that encompasses all programs funded under this part and part V of this chapter. The payment schedule must take into consideration the average market rate, include the projected number of children to be served, and be submitted for approval by the office. Informal child care arrangements shall be reimbursed at not more than 50 percent of the rate adopted for a family day care home.

(17) Implement an anti-fraud plan addressing the detection, reporting, and prevention of overpayments, abuse, and fraud relating to the provision of and payment for school readiness program and Voluntary Prekindergarten Education Program services and submit the plan to the office for approval, as required by s. 1002.91.

(18) By October 1 of each year, submit an annual report to the office. The report shall conform to the format adopted by the office and must include:

(a) Segregation of school readiness program funds, Voluntary Prekindergarten Education Program funds, Child Care Executive Partnership Program funds, and other local revenues available to the coalition.

(b) Details of expenditures by fund source, including total

576-04535-13

expenditures for administrative activities, quality activities, nondirect services, and direct services for children.

(c) The total number of coalition staff and the related expenditures for salaries and benefits. For any subcontracts, the total number of contracted staff and the related expenditures for salaries and benefits must be included.

(d) The number of children served in the school readiness program, by provider type, enumerated by age and eligibility priority category, reported as the number of children served during the month, the average participation throughout the month, and the number of children served during the month.

(e) The total number of children disenrolled during the year and the reasons for disenrollment.

(f) The total number of providers by provider type.

(g) A listing of any school readiness program provider, by type, whose eligibility to deliver the school readiness program is revoked, including a brief description of the state or federal violation that resulted in the revocation.

(h) An evaluation of its direct enhancement services.

(i) The total number of children served in each provider facility.

(19) Maintain its administrative staff at the minimum necessary to administer the duties of the early learning coalition.

(20) To increase transparency and accountability, comply with the requirements of this section before contracting with a member of the coalition or a relative, as defined in s. 112.3143(1)(b), of a coalition member or of an employee of the coalition. Such contracts may not be executed without the

576-04535-13

approval of the office. Such contracts, as well as documentation demonstrating adherence to this section by the coalition, must be approved by a two-thirds vote of the coalition, a quorum having been established; all conflicts of interest must be disclosed before the vote; and any member who may benefit from the contract, or whose relative may benefit from the contract, must abstain from the vote. A contract under $25,000 between an early learning coalition and a member of that coalition or between a relative, as defined in s. 112.3143(1)(b), of a coalition member or of an employee of the coalition is not required to have the prior approval of the office but must be approved by a two-thirds vote of the coalition, a quorum having been established, and must be reported to the office within 30 days after approval. If a contract cannot be approved by the office, a review of the decision to disapprove the contract may be requested by the early learning coalition or other parties to the disapproved contract.

1002.85 Early learning coalition plans.—

(1) The office shall adopt rules prescribing the standardized format and required content of school readiness program plans as necessary for a coalition or other qualified entity to administer the school readiness program as provided in this part.

(2) Each early learning coalition must biennially submit a school readiness program plan to the office before the expenditure of funds. A coalition may not implement its school readiness program plan until it receives approval from the office. A coalition may not implement any revision to its school readiness program plan until the coalition submits the revised

576-04535-13

plan to and receives approval from the office. If the office rejects a plan or revision, the coalition must continue to operate under its previously approved plan. The plan must include, but is not limited to:

(a) The coalition's operations, including its membership and business organization, and the coalition's articles of incorporation and bylaws if the coalition is organized as a corporation. If the coalition is not organized as a corporation or other business entity, the plan must include the contract with a fiscal agent.

(b) The minimum number of children to be served by care level.

(c) The coalition's procedures for implementing the requirements of this part, including:

1. Single point of entry.

2. Uniform waiting list.

4. Eligibility and enrollment processes.

5. Parent access and choice.

6. Sliding fee scale and policies on applying the waiver or reduction of fees in accordance with 1002.84(8).

7. Use of preassessments and postassessments, as applicable.

8. Payment rate.

(d) A detailed description of the coalition's quality activities and services, including:

1. Resource and referral and school-age child care.

2. Infant and toddler early learning.

3. Inclusive early learning programs.

(e) A detailed budget that outlines estimated expenditures

576-04535-13

for state, federal, and local matching funds at the lowest level of detail available by other-cost-accumulator code number; all estimated sources of revenue with identifiable descriptions; a listing of full-time equivalent positions; contracted subcontractor costs with related annual compensation amount or hourly rate of compensation; and a capital improvements plan outlining existing fixed capital outlay projects and proposed capital outlay projects that will begin during the budget year.

(f) A detailed accounting, in the format prescribed by the office, of all revenues and expenditures during the previous state fiscal year. Revenue sources should be identifiable and expenditures should be reported by three categories: state and federal funds, local matching funds, and Child Care Executive Partnership Program funds.

(g) Updated policies and procedures, including those governing procurement, maintenance of tangible personal property, maintenance of records, information technology security, and disbursement controls.

(h) A description of the procedures for monitoring school readiness program providers, including in response to a parental complaint, to determine that the standards prescribed in ss. 1002.82 and 1002.88 are met using a standard monitoring tool adopted by the office. Providers determined to be high risk by the coalition as demonstrated by substantial findings of violations of law shall be monitored more frequently.

(i) Documentation that the coalition has solicited and considered comments regarding the proposed school readiness program plan from the local community.

(3) The coalition may periodically amend its plan as

576-04535-13

necessary. An amended plan must be submitted to and approved by the office before any expenditures are incurred on the new activities proposed in the amendment.

(4) The office shall publish a copy of the standardized format and required content of school readiness program plans on its website.

(5) The office shall collect and report data on coalition delivery of early learning programs. Elements shall include, but are not limited to, measures related to progress towards reducing the number of children on the waitlist, the percentage of children served by the program as compared to the number of administrative staff and overhead, the percentage of children served compared to total number of children under the age of 5 years below 150 percent of the federal poverty level, provider payment processes, fraud intervention, child attendance and stability, use of child care resource and referral, and kindergarten readiness outcomes for children in the Voluntary Prekindergarten Education Program or the school readiness program upon entry into kindergarten. The office shall request input from the coalitions and school readiness program providers before finalizing the format and data to be used. The report shall be implemented beginning July 1, 2014, and results of the report must be included in the annual report under s. 1002.82.

1002.86 School readiness program; education component.—The education component of the school readiness program should be developmentally appropriate and based on research, involve the parent as the child's first teacher, serve as a preventive measure for children at risk of future school failure, and enhance the educational readiness of eligible children. The

576-04535-13

school readiness program should be of assistance to parents in preparing their at-risk children for educational success, including, as appropriate, health screening and referral.

1002.87 School readiness program; eligibility and enrollment.—

(1) Effective August 1, 2013, or upon reevaluation of eligibility for children currently served, whichever is later, each early learning coalition shall give priority for participation in the school readiness program as follows:

(a) Priority shall be given first to a child younger than 13 years of age from a family that includes a parent who is receiving temporary cash assistance under chapter 414 and subject to the federal work requirements.

(b) Priority shall be given next to an at-risk child younger than 9 years of age.

(c) Priority shall be given next to a child from birth to the beginning of the school year for which the child is eligible for admission to kindergarten in a public school under s. 1003.21(1)(a)2. who is from a working family that is economically disadvantaged, and may include such child's eligible siblings, beginning with the school year in which the sibling is eligible for admission to kindergarten in a public school under s. 1003.21(1)(a)2. until the beginning of the school year in which the sibling is eligible to begin 6th grade, provided that the first priority for funding an eligible sibling is local revenues available to the coalition for funding direct services. However, a child eligible under this paragraph ceases to be eligible if his or her family income exceeds 200 percent of the federal poverty level.

576-04535-13

(d) Priority shall be given next to an at-risk child who is at least 9 years of age but younger than 13 years of age. An at-risk child whose sibling is enrolled in the school readiness program within an eligibility priority category listed in paragraphs (a)-(c) shall be given priority over other children who are eligible under this paragraph.

(e) Priority shall be given next to a child who is younger than 13 years of age from a working family that is economically disadvantaged. A child who is eligible under this paragraph whose sibling is enrolled in the school readiness program under paragraph (c) shall be given priority over other children who are eligible under this paragraph. However, a child eligible under this paragraph ceases to be eligible if his or her family income exceeds 200 percent of the federal poverty level.

(f) Priority shall be given next to a child who has special needs, has been determined eligible as a student with a disability, has a current individual education plan with a Florida school district, and is not younger than 3 years of age. A special needs child eligible under this paragraph remains eligible until the child is eligible for admission to kindergarten in a public school under s. 1003.21(1)(a)2.

(g) Priority shall be given next to a child of a parent who transitions from the work program into employment as described in s. 445.032.

(h) Notwithstanding paragraphs (a)-(d), priority shall be given last to a child who otherwise meets one of the eligibility criteria in paragraphs (a)-(d) but who is also enrolled concurrently in the federal Head Start Program and the Voluntary Prekindergarten Education Program.

(2) A school readiness program provider may be paid only for authorized hours of care provided for a child in the school readiness program. A child enrolled in the Voluntary Prekindergarten Education Program may receive care from the school readiness program if the child is eligible according to the eligibility priorities in this section.

(3) Contingent upon the availability of funds, a coalition shall enroll eligible children, including those from its waiting list, according to the eligibility priorities in this section.

(4) The parent of a child enrolled in the school readiness program must notify the coalition or its designee within 10 days after any change in employment, income, or family size. Upon notification by the parent, the child's eligibility must be reevaluated.

(5) A child whose eligibility priority category requires the child to be from a working family ceases to be eligible for the school readiness program if a parent with whom the child resides does not reestablish employment within 60 days after becoming unemployed.

(6) Eligibility for each child must be reevaluated annually. Upon reevaluation, a child may not continue to receive school readiness program services if he or she has ceased to be eligible under this section.

(7) If a coalition disenrolls children from the school readiness program, the coalition must disenroll the children in reverse order of the eligibility priorities listed in subsection (1) beginning with children from families with the highest family incomes. A notice of disenrollment must be sent to the parent and school readiness program provider at least 2 weeks

before disenrollment to provide adequate time for the parent to arrange alternative care for the child. However, an at-risk child may not be disenrolled from the program without the written approval of the Child Welfare Program Office of the Department of Children and Families or the community-based lead agency.

(8) If a child is absent from the program for 5 consecutive days without parental notification to the program of such absence, the school readiness program provider shall report the absence to the early learning coalition for a determination of the need for continued care.

(9) Notwithstanding s. 39.604, a school readiness program provider, regardless of whether the provider is licensed, shall comply with the reporting requirements of the Rilya Wilson Act for each at-risk child under the age of school entry who is enrolled in the school readiness program.

1002.88 School readiness program provider standards; eligibility to deliver the school readiness program.—

(1) To be eligible to deliver the school readiness program, a school readiness program provider must:

(a) Be a child care facility licensed under s. 402.305, a family day care home licensed or registered under s. 402.313, a large family child care home licensed under s. 402.3131, a public school or nonpublic school exempt from licensure under s. 402.3025, a faith-based child care provider exempt from licensure under s. 402.316, a before-school or after-school program described in s. 402.305(1)(c), or an informal child care provider to the extent authorized in the state's Child Care and Development Fund Plan as approved by the United States

Department of Health and Human Services pursuant to 45 C.F.R. s. 98.18.

(b) Provide instruction and activities to enhance the age-appropriate progress of each child in attaining the child development standards adopted by the office pursuant to s. 1002.82(2)(j). A provider should include activities to foster brain development in infants and toddlers; provide an environment that is rich in language and music and filled with objects of various colors, shapes, textures, and sizes to stimulate visual, tactile, auditory, and linguistic senses; and include 30 minutes of reading to children each day.

(c) Provide basic health and safety of its premises and facilities and compliance with requirements for age-appropriate immunizations of children enrolled in the school readiness program. For a child care facility, a large family child care home, or a licensed family day care home, compliance with s. 402.305, s. 402.3131, or s. 402.313 satisfies this requirement. For a public or nonpublic school, compliance with s. 402.3025 or s. 1003.22 satisfies this requirement. A faith-based child care provider, an informal child care provider, or a nonpublic school, exempt from licensure under ss. 402.316 or 402.3025, shall annually complete the health and safety checklist adopted by the office, post the checklist prominently on its premises in plain sight for visitors and parents, and submit it annually to its local early learning coalition.

(d) Provide an appropriate staff-to-children ratio, pursuant to s. 402.305(4) or s. 402.302(8) or (11), as applicable, and as verified pursuant to s. 402.311.

(e) Provide a healthy and safe environment pursuant to s.

402.305(5), (6), and (7), as applicable, and as verified pursuant to s. 402.311.

(f) Implement one of the curricula approved by the office that meets the child development standards.

(g) Implement a character development program to develop basic values.

(h) Collaborate with the respective early learning coalition to complete initial screening for each child, aged 6 weeks to kindergarten eligibility, within 45 days after the child's first or subsequent enrollment, to identify a child who may need individualized supports.

(i) Implement minimum standards for child discipline practices that are age-appropriate and consistent with the requirements in s. 402.305(12). Such standards must provide that children not be subjected to discipline that is severe, humiliating, or frightening or discipline that is associated with food, rest, or toileting. Spanking or any other form of physical punishment is prohibited.

(j) Obtain and keep on file record of the child's immunizations, physical development, and other health requirements as necessary, including appropriate vision and hearing screening and examination, within 30 days after enrollment.

(k) Implement before-school or after-school programs that meet or exceed the requirements of s. 402.305(5), (6), and (7).

(l) For a provider that is not an informal provider, maintain general liability insurance and provide the coalition with written evidence of general liability insurance coverage, including coverage for transportation of children if school

576-04535-13

readiness program children are transported by the provider. A provider must obtain and retain an insurance policy that provides a minimum of $100,000 of coverage per occurrence and a minimum of $300,000 general aggregate coverage. The office may authorize lower limits upon request, as appropriate. A provider must add the coalition as a named certificateholder and as an additional insured. A provider must provide the coalition with a minimum of 10 calendar days' advance written notice of cancellation of or changes to coverage. The general liability insurance required by this paragraph must remain in full force and effect for the entire period of the provider contract with the coalition.

(m) For a provider that is an informal provider, comply with the provisions of paragraph (l) or maintain homeowner's liability insurance and, if applicable, a business rider. If an informal provider chooses to maintain a homeowner's policy, the provider must obtain and retain a homeowner's insurance policy that provides a minimum of $100,000 of coverage per occurrence and a minimum of $300,000 general aggregate coverage. The office may authorize lower limits upon request, as appropriate. An informal provider must add the coalition as a named certificateholder and as an additional insured. An informal provider must provide the coalition with a minimum of 10 calendar days' advance written notice of cancellation of or changes to coverage. The general liability insurance required by this paragraph must remain in full force and effect for the entire period of the provider's contract with the coalition.

(n) Obtain and maintain any required workers' compensation insurance under chapter 440 and any required reemployment

576-04535-13

assistance or unemployment compensation coverage under chapter 443.

(o) Notwithstanding paragraph (l), for a provider that is a state agency or a subdivision thereof, as defined in s. 768.28(2), agree to notify the coalition of any additional liability coverage maintained by the provider in addition to that otherwise established under s. 768.28. The provider shall indemnify the coalition to the extent permitted by s. 768.28.

(p) Execute the standard statewide provider contract adopted by the office.

(q) Operate on a full-time and part-time basis and provide extended-day and extended-year services to the maximum extent possible without compromising the quality of the program to meet the needs of parents who work.

(2) If a school readiness program provider fails or refuses to comply with this part or any contractual obligation of the statewide provider contract under s. 1002.82(2)(m), the coalition may revoke the provider's eligibility to deliver the school readiness program or receive state or federal funds under this chapter for a period of 5 years.

(3) The office and the coalitions may not:

(a) Impose any requirement on a child care provider or early childhood education provider that does not deliver services under the school readiness program or receive state or federal funds under this part;

(b) Impose any requirement on a school readiness program provider that exceeds the authority provided under this part or part V of this chapter or rules adopted pursuant to this part or part V of this chapter; or

(c) Require a provider to administer a preassessment or postassessment.

1002.89 School readiness program; funding.—

(1) Funding for the school readiness program shall be allocated among the early learning coalitions in accordance with this section and the General Appropriations Act.

(2) The office shall administer school readiness program funds and prepare and submit a unified budget request for the school readiness program in accordance with chapter 216.

(3) All instructions to early learning coalitions for administering this section shall emanate from the office in accordance with the policies of the Legislature.

(4) All cost savings and all revenues received through a mandatory sliding fee scale shall be used to increase the number of children served.

(5) All state, federal, and local matching funds provided to an early learning coalition for purposes of this section shall be used for implementation of its approved school readiness program plan, including the hiring of staff to effectively operate the school readiness program.

(6) Costs shall be kept to the minimum necessary for the efficient and effective administration of the school readiness program with the highest priority of expenditure being direct services for eligible children. However, no more than 5 percent of the funds described in subsection (5) may be used for administrative costs and no more than 22 percent of the funds described in subsection (5) may be used in any fiscal year for any combination of administrative costs, quality activities, and nondirect services as follows:

(a) Administrative costs as described in 45 C.F.R. s. 98.52, which shall include monitoring providers using the standard methodology adopted under s. 1002.82 to improve compliance with state and federal regulations and law pursuant to the requirements of the statewide provider contract adopted under s. 1002.82(2)(m).

(b) Activities to improve the quality of child care as described in 45 C.F.R. s. 98.51, which shall be limited to the following:

1. Developing, establishing, expanding, operating, and coordinating resource and referral programs specifically related to the provision of comprehensive consumer education to parents and the public regarding participation in the school readiness program and parental choice.

2. Awarding grants to school readiness program providers to assist them in meeting applicable state requirements for child care performance standards, implementing developmentally appropriate curricula and related classroom resources that support curricula, providing literacy supports, and providing professional development. Any grants awarded pursuant to this subparagraph shall comply with the requirements of ss. 215.971 and 287.058.

3. Providing training and technical assistance for school readiness program providers, staff, and parents on standards, child screenings, child assessments, developmentally appropriate curricula, character development, teacher-child interactions, age-appropriate discipline practices, health and safety, nutrition, first aid, the recognition of communicable diseases, and child abuse detection and prevention.

4. Providing from among the funds provided for the activities described in subparagraphs 1.-3., adequate funding for infants and toddlers as necessary to meet federal requirements related to expenditures for quality activities for infant and toddler care.

5. Improving the monitoring of compliance with, and enforcement of, applicable state and local requirements as described in and limited by 45 C.F.R. s. 98.40.

6. Responding to Warm-Line requests by providers and parents related to school readiness program children, including providing developmental and health screenings to school readiness program children.

(c) Nondirect services as described in applicable Office of Management and Budget instructions are those services not defined as administrative, direct, or quality services that are required to administer the school readiness program. Such services include, but are not limited to:

1. Assisting families to complete the required application and eligibility documentation.

2. Determining child and family eligibility.

3. Recruiting eligible child care providers.

4. Processing and tracking attendance records.

5. Developing and maintaining a statewide child care information system.

As used in this paragraph, the term "nondirect services" does not include payments to school readiness program providers for direct services provided to children who are eligible under s. 1002.87, administrative costs as described in paragraph (a), or

quality activities as described in paragraph (b).

(7) Funds appropriated for the school readiness program may not be expended for the purchase or improvement of land, for the purchase, construction, or permanent improvement of any building or facility, or for the purchase of buses. However, funds may be expended for minor remodeling and upgrading child care facilities to ensure that providers meet state and local child care standards, including applicable health and safety requirements.

(8) Beginning in the 2014-2015 fiscal year, all state-appropriated funding for the school readiness program shall be allocated to early learning coalitions based on the average prior year enrollment and the uniform waiting list as adopted by the Early Learning Programs Estimating Conference pursuant to s. 216.136(8) and using the average market rate by program care level and provider type pursuant to s. 1002.895.

1002.895 Market rate schedule.—The school readiness program market rate schedule shall be implemented as follows:

(1) The office shall establish procedures for the adoption of a market rate schedule. The schedule must include, at a minimum, county-by-county rates:

(a) The market rate, including the minimum and the maximum rates for child care providers that hold a Gold Seal Quality Care designation under s. 402.281.

(b) The market rate for child care providers that do not hold a Gold Seal Quality Care designation.

(2) The market rate schedule, at a minimum, must:

(a) Differentiate rates by type, including, but not limited to, a child care provider that holds a Gold Seal Quality Care

designation under s. 402.281, a child care facility licensed under s. 402.305, a public or nonpublic school exempt from licensure under s. 402.3025, a faith-based child care facility exempt from licensure under s. 402.316 that does not hold a Gold Seal Quality Care designation, a large family child care home licensed under s. 402.3131, or a family day care home licensed or registered under s. 402.313.

(b) Differentiate rates by the type of child care services provided for children with special needs or risk categories, infants, toddlers, preschool-age children, and school-age children.

(c) Differentiate rates between full-time and part-time child care services.

(d) Consider discounted rates for child care services for multiple children in a single family.

(3) The market rate schedule must be based exclusively on the prices charged for child care services.

(4) The market rate schedule shall be considered by an early learning coalition in the adoption of a payment schedule. The payment schedule must take into consideration the average market rate, include the projected number of children to be served, and be submitted for approval by the office. Informal child care arrangements shall be reimbursed at not more than 50 percent of the rate adopted for a family day care home.

(5) The office may contract with one or more qualified entities to administer this section and provide support and technical assistance for child care providers.

(6) The office may adopt rules for establishing procedures for the collection of child care providers' market rate, the

calculation of the average market rate by program care level and provider type in a predetermined geographic market, and the publication of the market rate schedule.

1002.91 Investigations of fraud or overpayment; penalties.—

(1) As used in this subsection, the term "fraud" means an intentional deception, omission, or misrepresentation made by a person with knowledge that the deception, omission, or misrepresentation may result in unauthorized benefit to that person or another person, or any aiding and abetting of the commission of such an act. The term includes any act that constitutes fraud under applicable federal or state law.

(2) To recover state, federal, and local matching funds, the office shall investigate early learning coalitions, recipients, and providers of the school readiness program and the Voluntary Prekindergarten Education Program to determine possible fraud or overpayment. If by its own inquiries, or as a result of a complaint, the office has reason to believe that a person, coalition, or provider has engaged in, or is engaging in, a fraudulent act, it shall investigate and determine whether any overpayment has occurred due to the fraudulent act. During the investigation, the office may examine all records, including electronic benefits transfer records, and make inquiry of all persons who may have knowledge as to any irregularity incidental to the disbursement of public moneys or other items or benefits authorizations to recipients.

(3) Based on the results of the investigation, the office may, in its discretion, refer the investigation to the Department of Financial Services for criminal investigation or refer the matter to the applicable coalition. Any suspected

576-04535-13

criminal violation identified by the office must be referred to the Department of Financial Services for criminal investigation.

(4) An early learning coalition may suspend or terminate a provider from participation in the school readiness program or the Voluntary Prekindergarten Education Program when it has reasonable cause to believe that the provider has committed fraud. The office shall adopt by rule appropriate due process procedures that the early learning coalition shall apply in suspending or terminating any provider, including the suspension or termination of payment. If suspended, the provider shall remain suspended until the completion of any investigation by the office, the Department of Financial Services, or any other state or federal agency, and any subsequent prosecution or other legal proceeding.

(5) If a school readiness program provider or a Voluntary Prekindergarten Education Program provider, or an owner, officer, or director thereof, is convicted of, found guilty of, or pleads guilty or nolo contendere to, regardless of adjudication, public assistance fraud pursuant to s. 414.39, or is acting as the beneficial owner for someone who has been convicted of, found guilty of, or pleads guilty or nolo contendere to, regardless of adjudication, public assistance fraud pursuant to s. 414.39, the early learning coalition shall refrain from contracting with, or using the services of, that provider for a period of 5 years. In addition, the coalition shall refrain from contracting with, or using the services of, any provider that shares an officer or director with a provider that is convicted of, found guilty of, or pleads guilty or nolo contendere to, regardless of adjudication, public assistance

576-04535-13

fraud pursuant to s. 414.39 for a period of 5 years.

(6) If the investigation is not confidential or otherwise exempt from disclosure by law, the results of the investigation may be reported by the office to the appropriate legislative committees, the Department of Children and Families, and such other persons as the office deems appropriate.

(7) The early learning coalition may not contract with a school readiness program provider or a Voluntary Prekindergarten Education Program provider who is on the United States Department of Agriculture National Disqualified List. In addition, the coalition may not contract with any provider that shares an officer or director with a provider that is on the United States Department of Agriculture National Disqualified List.

(8) Each early learning coalition shall adopt an anti-fraud plan addressing the detection and prevention of overpayments, abuse, and fraud relating to the provision of and payment for school readiness program and Voluntary Prekindergarten Education Program services and submit the plan to the office for approval. The office shall adopt rules establishing criteria for the anti-fraud plan, including appropriate due process provisions. The anti-fraud plan must include, at a minimum:

(a) A written description or chart outlining the organizational structure of the plan's personnel who are responsible for the investigation and reporting of possible overpayment, abuse, or fraud.

(b) A description of the plan's procedures for detecting and investigating possible acts of fraud, abuse, or overpayment.

(c) A description of the plan's procedures for the

576-04535-13

mandatory reporting of possible overpayment, abuse, or fraud to the Office of Inspector General within the office.

(d) A description of the plan's program and procedures for educating and training personnel on how to detect and prevent fraud, abuse, and overpayment.

(e) A description of the plan's procedures, including the appropriate due process provisions adopted by the office for suspending or terminating from the school readiness program or the Voluntary Prekindergarten Education Program a recipient or provider who the early learning coalition believes has committed fraud.

(9) A person who commits an act of fraud as defined in this section is subject to the penalties provided in s. 414.39(5)(a) and (b).

1002.92 Child care and early childhood resource and referral.—

(1) As a part of the school readiness program, the office shall establish a statewide child care resource and referral network that is unbiased and provides referrals to families for child care and information on available community resources. Preference shall be given to using early learning coalitions as the child care resource and referral agencies. If an early learning coalition cannot comply with the requirements to offer the resource information component or does not want to offer that service, the early learning coalition shall select the resource and referral agency for its county or multicounty region based upon the procurement requirements of s. 1002.84(12).

(2) At least one child care resource and referral agency

576-04535-13

must be established in each early learning coalition's county or multicounty region. The office shall adopt rules regarding accessibility of child care resource and referral services offered through child care resource and referral agencies in each county or multicounty region which include, at a minimum, required hours of operation, methods by which parents may request services, and child care resource and referral staff training requirements.

(3) Child care resource and referral agencies shall provide the following services:

(a) Identification of existing public and private child care and early childhood education services, including child care services by public and private employers, and the development of a resource file of those services through the single statewide information system developed by the office under s. 1002.82(2)(n). These services may include family day care, public and private child care programs, the Voluntary Prekindergarten Education Program, Head Start, the school readiness program, special education programs for prekindergarten children with disabilities, services for children with developmental disabilities, full-time and part-time programs, before-school and after-school programs, vacation care programs, parent education, the temporary cash assistance program, and related family support services. The resource file shall include, but not be limited to:

1. Type of program.

2. Hours of service.

3. Ages of children served.

4. Number of children served.

576-04535-13

5. Program information.

6. Fees and eligibility for services.

7. Availability of transportation.

(b) Establishment of a referral process that responds to parental need for information and that is provided with full recognition of the confidentiality rights of parents. The resource and referral network shall make referrals to legally operating child care facilities. Referrals may not be made to a child care facility that is operating illegally.

(c) Maintenance of ongoing documentation of requests for service tabulated through the internal referral process through the single statewide information system. The following documentation of requests for service shall be maintained by the child care resource and referral network:

1. Number of calls and contacts to the child care resource information and referral network component by type of service requested.

2. Ages of children for whom service was requested.

3. Time category of child care requests for each child.

4. Special time category, such as nights, weekends, and swing shift.

5. Reason that the child care is needed.

6. Name of the employer and primary focus of the business for an employer based child care program.

(d) Provision of technical assistance to existing and potential providers of child care services. This assistance may include:

1. Information on initiating new child care services, zoning, and program and budget development and assistance in

576-04535-13

finding such information from other sources.

2. Information and resources which help existing child care services providers to maximize their ability to serve children and parents in their community.

3. Information and incentives that may help existing or planned child care services offered by public or private employers seeking to maximize their ability to serve the children of their working parent employees in their community, through contractual or other funding arrangements with businesses.

(e) Assistance to families and employers in applying for various sources of subsidy, including, but not limited to, the Voluntary Prekindergarten Education Program, the school readiness program, Head Start, Project Independence, private scholarships, and the federal child and dependent care tax credit.

(f) Assistance to families to negotiate discounts or other special arrangements with child care providers.

(g) Assistance to families in identifying summer recreation camp and summer day camp programs to help families make informed choice. Contingent upon specific appropriation, a checklist of important health and safety qualities that parents can use to choose their summer camp programs shall be developed and distributed in a manner that will reach parents interested in such programs for their children.

(h) Assistance to families for accessing local community resources.

(4) A child care facility licensed under s. 402.305 and licensed and registered family day care homes must provide the

statewide child care and resource and referral network with the following information annually:

(a) Type of program.

(b) Hours of service.

(c) Ages of children served.

(d) Fees and eligibility for services.

1002.93 School readiness program transportation services.—

(1) The office may authorize an early learning coalition to establish school readiness program transportation services for children at risk of abuse or neglect who are participating in the school readiness program, pursuant to chapter 427. The early learning coalitions may contract for the provision of transportation services as required by this section.

(2) The transportation servicers may only provide transportation to each child participating in the school readiness program to the extent that such transportation is necessary to provide child care opportunities that otherwise would not be available to a child whose home is more than a reasonable walking distance from the nearest child care facility or family day care home.

1002.94 Child Care Executive Partnership Program.—

(1) There is created a body politic and corporate known as the Child Care Executive Partnership which shall establish and govern the Child Care Executive Partnership Program. The purpose of the Child Care Executive Partnership Program is to use state and federal funds as incentives for matching local funds derived from local governments, employers, charitable foundations, and other sources so that Florida communities may create local flexible partnerships with employers. The Child Care Executive

Partnership Program funds shall be used at the discretion of local communities to meet the needs of working parents. A child care purchasing pool shall be developed with the state, federal, and local funds to provide subsidies to low-income working parents whose family income does not exceed the allowable income for any federally subsidized child care program with a dollar-for-dollar match from employers, local government, and other matching contributions. The funds used from the child care purchasing pool must be used to supplement or extend the use of existing public or private funds for direct services.

(2) The Child Care Executive Partnership, staffed by the office, shall consist of a representative of the Executive Office of the Governor and nine members of the corporate or child care community, appointed by the Governor.

(a) Members shall serve for a period of 4 years, except that the representative of the Executive Office of the Governor shall serve at the pleasure of the Governor.

(b) The Child Care Executive Partnership shall be chaired by a member chosen by a majority vote and shall meet at least quarterly and at other times upon the call of the chair. The Child Care Executive Partnership may use any method of telecommunications to conduct meetings, including establishing a quorum through telecommunications, only if the public is given proper notice of a telecommunications meeting and reasonable access to observe and, when appropriate, participate.

(c) Members shall serve without compensation, but may be reimbursed for per diem and travel expenses in accordance with s. 112.061.

(d) The Child Care Executive Partnership shall have all the

576-04535-13

powers and authority, not explicitly prohibited by law, necessary to carry out and effectuate the purposes of this section, as well as the functions, duties, and responsibilities of the partnership, including, but not limited to, the following:

1. Making recommendations concerning the implementation and coordination of the school readiness program.

2. Soliciting, accepting, receiving, investing, and expending funds from public or private sources.

3. Contracting with public or private entities as necessary.

4. Approving an annual budget.

5. Providing a report to the Governor, the Speaker of the House of Representatives, and the President of the Senate on or before December 1 of each year.

Notwithstanding this subsection, the corporate body politic previously established by prior law is the corporate body politic for purposes of this section and shall continue in existence. All member terms of the existing corporate body politic expire as of June 30, 2013, and new members shall be appointed beginning July 1, 2013, in accordance with this subsection.

(3)(a) The Legislature shall annually determine the amount of state or federal low-income child care moneys which shall be used to create Child Care Executive Partnership Program child care purchasing pools in counties chosen by the Child Care Executive Partnership provided that at least two of the counties have populations of no more than 300,000. The Legislature shall

576-04535-13

annually review the effectiveness of the child care purchasing pool program and reevaluate the percentage of additional state or federal funds, if any, which can be used for the program's expansion.

(b) To ensure a seamless service delivery and ease of access for families, the office shall administer the child care purchasing pool funds.

(c) The office, in conjunction with the Child Care Executive Partnership, shall develop procedures for disbursement of funds through the child care purchasing pools. In order to be considered for funding, an early learning coalition or the office must commit to:

1. Matching the state purchasing pool funds on a dollar-for-dollar basis.

2. Expending only those public funds that are matched by employers, local government, and other matching contributors who contribute to the purchasing pool. Parents shall also pay a fee, which may not be less than the amount identified in the early learning coalition's school readiness program sliding fee scale.

(d) Each early learning coalition shall establish a community child care task force for each child care purchasing pool. The task force must be composed of employers, parents, private child care providers, and one representative from the local children's services council, if one exists in the area of the purchasing pool. The early learning coalition is expected to recruit the task force members from existing child care councils, commissions, or task forces already operating in the area of a purchasing pool. A majority of the task force shall consist of employers.

(e) Each participating early learning coalition shall develop a plan for the use of child care purchasing pool funds. The plan must show how many children will be served by the purchasing pool, how many will be new to receiving child care services, and how the early learning coalition intends to attract new employers and their employees to the program.

(4) The office may adopt any rules necessary for the implementation and administration of this section.

1002.95 Teacher Education and Compensation Helps (TEACH) scholarship program.—

(1) The office may contract for the administration of the Teacher Education and Compensation Helps (TEACH) scholarship program, which provides educational scholarships to caregivers and administrators of early childhood programs, family day care homes, and large family child care homes. The goal of the program is to increase the education and training for caregivers, increase the compensation for child caregivers who complete the program requirements, and reduce the rate of participant turnover in the field of early childhood education.

(2) The office shall adopt rules as necessary to administer this section.

1002.96 Early Head Start collaboration grants.—

(1) Contingent upon specific appropriation, the office shall establish a program to award collaboration grants to assist local agencies in securing Early Head Start programs through Early Head Start program federal grants. The collaboration grants shall provide the required matching funds for public and private nonprofit agencies that have been approved for Early Head Start program federal grants.

(2) Public and private nonprofit agencies providing Early Head Start programs applying for collaborative grants must:

(a) Meet the requirements in the Head Start program performance standards and other applicable rules and regulations.

(b) Collaborate with other service providers at the local level.

(c) Provide a comprehensive array of health, nutritional, and other services to the program's pregnant women and very young children, and their families.

(3) The office may adopt rules as necessary for the award of collaboration grants to competing agencies and the administration of the collaboration grants program under this section.

Section 18. Section 411.011, Florida Statutes, is transferred, renumbered as section 1002.97, Florida Statutes, and amended to read:

1002.97 ~~411.011~~ Records of children in the school readiness program ~~programs~~.—

(1) The individual records of children enrolled in the school readiness program ~~programs~~ provided under this part ~~s. 411.01~~, held by an early learning coalition or the office ~~of Early Learning~~, are confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution. For purposes of this section, records include assessment data, health data, records of teacher observations, and personal identifying information.

(2) A parent~~, guardian, or individual acting as a parent in the absence of a parent or guardian~~ has the right to inspect and

review the individual school readiness program record of his or her child and to obtain a copy of the record.

(3) School readiness program records may be released to:

(a) The United States Secretary of Education, the United States Secretary of Health and Human Services, and the Comptroller General of the United States for the purpose of federal audits and investigations.

(b) Individuals or organizations conducting studies for institutions to develop, validate, or administer assessments or improve instruction.

(c) Accrediting organizations in order to carry out their accrediting functions.

(d) Appropriate parties in connection with an emergency if the information is necessary to protect the health or safety of the child enrollee or other individuals.

(e) The Office of Program Policy Analysis and Government Accountability and the Auditor General in connection with their ~~his or her~~ official functions.

(f) A court of competent jurisdiction in compliance with an order of that court in accordance with a lawfully issued subpoena.

(g) Parties to an interagency agreement among early learning coalitions, local governmental agencies, providers of the school readiness program ~~programs~~, state agencies, and the office ~~of Early Learning~~ for the purpose of implementing the school readiness program.

Agencies, organizations, or individuals that receive school readiness program records in order to carry out their official

functions must protect the data in a manner that does not permit the personal identification of a child enrolled in a school readiness program and his or her parent ~~parents~~ by persons other than those authorized to receive the records.

Section 19. Paragraph (p) of subsection (3) of section 11.45, Florida Statutes, is amended to read:

11.45 Definitions; duties; authorities; reports; rules.—

(3) AUTHORITY FOR AUDITS AND OTHER ENGAGEMENTS.—The Auditor General may, pursuant to his or her own authority, or at the direction of the Legislative Auditing Committee, conduct audits or other engagements as determined appropriate by the Auditor General of:

(p) The school readiness program ~~system~~, including the early learning coalitions~~, created~~ under part VI of chapter 1002 ~~s. 411.01~~.

Section 20. Paragraph (h) of subsection (3) of section 20.15, Florida Statutes, is amended to read:

20.15 Department of Education.—There is created a Department of Education.

(3) DIVISIONS.—The following divisions of the Department of Education are established:

~~(h) The Office of Early Learning, which shall administer the school readiness system in accordance with s. 411.01 and the operational requirements of the Voluntary Prekindergarten Education Program in accordance with part V of chapter 1002. The office is a separate budget entity and is not subject to control, supervision, or direction by the Department of Education or the State Board of Education in any manner including, but not limited to, personnel, purchasing,~~

~~transactions involving personal property, and budgetary matters. The office director shall be appointed by the Governor and confirmed by the Senate, shall serve at the pleasure of the Governor, and shall be the agency head of the office for all purposes. The office shall enter into a service agreement with the department for professional, technological, and administrative support services. The office shall be subject to review and oversight by the Chief Inspector General or his or her designee.~~

Section 21. Section 196.198, Florida Statutes, is amended to read:

196.198 Educational property exemption.—Educational institutions within this state and their property used by them or by any other exempt entity or educational institution exclusively for educational purposes shall be exempt from taxation. Sheltered workshops providing rehabilitation and retraining of disabled individuals and exempted by a certificate under s. (d) of the federal Fair Labor Standards Act of 1938, as amended, are declared wholly educational in purpose and shall be exempted from certification, accreditation, and membership requirements set forth in s. 196.012. Those portions of property of college fraternities and sororities certified by the president of the college or university to the appropriate property appraiser as being essential to the educational process shall be exempt from ad valorem taxation. The use of property by public fairs and expositions chartered by chapter 616 is presumed to be an educational use of such property and shall be exempt from ad valorem taxation to the extent of such use. Property used exclusively for educational purposes shall be

deemed owned by an educational institution if the entity owning 100 percent of the educational institution is owned by the identical persons who own the property or if the entity owning 100 percent of the educational institution and the entity owning the property are owned by identical natural persons. Land, buildings, and other improvements to real property used exclusively for educational purposes shall be deemed owned by an educational institution if the entity owning 100 percent of the land is a nonprofit entity and the land is used, under a ground lease or other contractual arrangement, by an educational institution that owns the buildings and other improvements to the real property, is a nonprofit entity under s. 501(c)(3) of the Internal Revenue Code, and provides education limited to students in prekindergarten through grade 8. If legal title to property is held by a governmental agency that leases the property to a lessee, the property shall be deemed to be owned by the governmental agency and used exclusively for educational purposes if the governmental agency continues to use such property exclusively for educational purposes pursuant to a sublease or other contractual agreement with that lessee. If the title to land is held by the trustee of an irrevocable inter vivos trust and if the trust grantor owns 100 percent of the entity that owns an educational institution that is using the land exclusively for educational purposes, the land is deemed to be property owned by the educational institution for purposes of this exemption. Property owned by an educational institution shall be deemed to be used for an educational purpose if the institution has taken affirmative steps to prepare the property for educational use. Affirmative steps means environmental or

land use permitting activities, creation of architectural plans or schematic drawings, land clearing or site preparation, construction or renovation activities, or other similar activities that demonstrate commitment of the property to an educational use.

Section 22. Paragraph (a) of subsection (8) of section 216.136, Florida Statutes, is amended to read:

216.136 Consensus estimating conferences; duties and principals.—

(8) EARLY LEARNING PROGRAMS ESTIMATING CONFERENCE.—

(a) The Early Learning Programs Estimating Conference shall develop estimates and forecasts of the unduplicated count of children eligible for the school readiness program ~~programs~~ in accordance with the standards of eligibility established in s. 1002.87 ~~411.01(6),~~ and of children eligible for the Voluntary Prekindergarten Education Program in accordance with s. 1002.53(2), as the conference determines are needed to support the state planning, budgeting, and appropriations processes.

Section 23. Paragraph (b) of subsection (1) and subsection (3) of section 402.281, Florida Statutes, are amended to read:

402.281 Gold Seal Quality Care program.—

(1)

(b) A child care facility, large family child care home, or family day care home that is accredited by an ~~a nationally recognized~~ accrediting association approved by the department under subsection (3) and meets all other requirements shall, upon application to the department, receive a separate "Gold Seal Quality Care" designation.

(3)(a) In order to be approved by the department for

participation in the Gold Seal Quality Care program, an accrediting association must apply to the department and demonstrate that it:

1. Is a ~~nationally~~ recognized accrediting association.

2. Has accrediting standards that substantially meet or exceed the Gold Seal Quality Care standards adopted by the department under subsection (2).

(b) In approving accrediting associations, the Department of Children and Families shall consult with the Department of Education, the Florida Head Start Directors Association, the Florida Association of Child Care Management, the Florida Family Child ~~Day~~ Care Home Association, the Florida Children's Forum, the Florida Association for the Education of the Young ~~Early Childhood Association of Florida~~, the Child Development Education Alliance, the Florida Association of Academic Nonpublic Schools, the Association of Early Learning Coalitions, providers receiving exemptions under s. 402.316, and parents.

Section 24. Subsection (9) of section 402.302, Florida Statutes, is amended to read:

402.302 Definitions.—As used in this chapter, the term:

(9) "Household children" means children who are related by blood, marriage, or legal adoption to, or who are the legal wards of, the family day care home operator, the large family child care home operator, or an adult household member who permanently or temporarily resides in the home. Supervision of the operator's household children shall be left to the discretion of the operator unless those children receive subsidized child care through the school readiness program pursuant to s. 1002.92 ~~411.0101~~ to be in the home.

Section 25. Paragraph (c) of subsection (1) of section 402.305, Florida Statutes, is amended to read:

402.305 Licensing standards; child care facilities.—

(1) LICENSING STANDARDS.—The department shall establish licensing standards that each licensed child care facility must meet regardless of the origin or source of the fees used to operate the facility or the type of children served by the facility.

(c) The minimum standards for child care facilities shall be adopted in the rules of the department and shall address the areas delineated in this section. The department, in adopting rules to establish minimum standards for child care facilities, shall recognize that different age groups of children may require different standards. The department may adopt different minimum standards for facilities that serve children in different age groups, including school-age children. The department shall also adopt by rule a definition for child care which distinguishes between child care programs that require child care licensure and after-school programs that do not require licensure. Notwithstanding any other provision of law to the contrary, minimum child care licensing standards shall be developed to provide for reasonable, affordable, and safe before-school and after-school care. After-school programs that otherwise meet the criteria for exclusion from licensure may provide snacks and meals through the federal Afterschool Meal Program (AMP) administered by the Department of Health in accordance with federal regulations and standards. The Department of Health shall consider meals to be provided through the AMP only if the program is actively participating in the

AMP, is in good standing with the department, and the meals meet AMP requirements. Standards, at a minimum, shall allow for a credentialed director to supervise multiple before-school and after-school sites.

Section 26. Paragraph (c) of subsection (1) and subsection (4) of section 445.023, Florida Statutes, are amended to read:

445.023 Program for dependent care for families with children with special needs.—

(1) There is created the program for dependent care for families with children with special needs. This program is intended to provide assistance to families with children who meet the following requirements:

(c) The family meets the income guidelines established under s. 1002.87 ~~411.01(6)~~, notwithstanding any financial eligibility criteria to the contrary in s. 414.075, s. 414.085, or s. 414.095.

(4) In addition to school readiness program services provided under part VI of chapter 1002 ~~s. 411.01~~, dependent care may be provided for children age 13 years and older who are in need of care due to disability and where such care is needed for the parent to accept or continue employment or otherwise participate in work activities. The amount of subsidy shall be consistent with the rates for special needs child care established by the department. Dependent care needed for employment may be provided as transitional services for up to 2 years after eligibility for temporary cash assistance ends.

Section 27. Paragraph (a) of subsection (2) of section 490.014, Florida Statutes, is amended to read:

490.014 Exemptions.—

(2) No person shall be required to be licensed or provisionally licensed under this chapter who:

(a) Is a salaried employee of a government agency; a developmental disability facility or program; a mental health, alcohol, or drug abuse facility operating under chapter 393, chapter 394, or chapter 397; the statewide child care resource and referral network operating under s. 1002.92 ~~411.0101~~; a child-placing or child-caring agency licensed pursuant to chapter 409; a domestic violence center certified pursuant to chapter 39; an accredited academic institution; or a research institution, if such employee is performing duties for which he or she was trained and hired solely within the confines of such agency, facility, or institution, so long as the employee is not held out to the public as a psychologist pursuant to s. 490.012(1)(a).

Section 28. Paragraph (a) of subsection (4) of section 491.014, Florida Statutes, is amended to read:

491.014 Exemptions.—

(4) No person shall be required to be licensed, provisionally licensed, registered, or certified under this chapter who:

(a) Is a salaried employee of a government agency; a developmental disability facility or program; a mental health, alcohol, or drug abuse facility operating under chapter 393, chapter 394, or chapter 397; the statewide child care resource and referral network operating under s. 1002.92 ~~411.0101~~; a child-placing or child-caring agency licensed pursuant to chapter 409; a domestic violence center certified pursuant to chapter 39; an accredited academic institution; or a research

institution, if such employee is performing duties for which he or she was trained and hired solely within the confines of such agency, facility, or institution, so long as the employee is not held out to the public as a clinical social worker, mental health counselor, or marriage and family therapist.

Section 29. Paragraph (b) of subsection (1) of section 1001.11, Florida Statutes, is amended to read:

1001.11 Commissioner of Education; other duties.—

(1) The Commissioner of Education must independently perform the following duties:

(b) Serve as the primary source of information to the Legislature, including the President of the Senate and the Speaker of the House of Representatives, concerning the State Board of Education, ~~and~~ the K-20 education system, and early learning programs.

Section 30. Sections 411.01, 411.0101, 411.01013, 411.01014, 411.01015, 411.0102, 411.0103, 411.0104, 411.0105, and 411.0106, Florida Statutes, are repealed.

Section 31. Within existing Senior Management Service and Selected Exempt Service positions authorized for the Office of Early Learning, a Senior Management Service position for a general counsel and a Selected Exempt Service position for an inspector general are authorized for the office.

Section 32. By October 1, 2013, the Office of Early Learning, in collaboration with the Commissioner of Education, shall develop a reorganization plan for the office. The plan shall include any changes made prior to July 1, 2013; personnel, purchasing, and budgetary matters and their alignment with the duties and responsibilities of the office; a report of all

428226

576-04535-13

outstanding contractual obligations; and recommendations for statutory and budgetary changes. The plan shall be provided to the Governor, the President of the Senate, and the Speaker of the House of Representatives.

Section 33. This act shall take effect July 1, 2013.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 1722
INTRODUCER:	Appropriations Committee (Recommended by the Appropriations Subcommittee on Education); Education Committee; and Senator Legg
SUBJECT:	Early Learning
DATE:	April 25, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Graf	Klebacha	ED	**Fav/CS**
2.	Frye	Elwell	AED	**Fav/CS**
3.	Elwell	Hansen	AP	**Fav/CS**

5.				
6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/CS/SB 1722 changes the governance structure of the Office of Early Learning.

The bill has an insignificant fiscal impact on the Office of Early Learning. See Section V. The bill increases accountability and transparency in the administration of early learning programs:

- Moving the School Readiness program from Chapter 411 to the school code under Chapter 1002.
- Establishing the Office of Early Learning within the Department of Education's Office of Independent Education and Parental Choice; providing powers and duties.
- Providing that the Office of Early Learning must independently exercise all power, duties, and functions prescribed by law and must not be construed as part of the K-20 education system.
- Clarifying that participation in the School Readiness program does not expand the regulatory authority of the state, its officers, or an early learning coalition to impose any additional regulation on providers beyond those necessary to enforce the requirements outlined for this program.

- Requiring the Office of Early Learning to: adopt a list of approved curricula and a process for the review and approval of a provider's curriculum that meets the performance standards; identify a preassessment and postassessment for school readiness program participants; adopt a statewide, standardized contract to be used by coalitions with each school readiness program provider; coordinate with other agencies to perform data matches on individuals or families participating in the School Readiness program.
- Revising procurement and expenditure requirements for early learning coalitions.
- Revising the methodology for calculating the market rate schedule to require that the Office of Early Learning biennially calculate the market rate at the average of the market rate by program care level and provider type in a predetermined geographic market.
- Revising the eligibility criteria for the enrollment of children in the School Readiness program.
- Requiring the Office of Early Learning and each early learning coalition to limit expenditures to no more than 22 percent of funds for any combination of administrative costs, nondirect services, and quality activities in any fiscal year.
- Including provisions for fraud investigations and penalties for School Readiness program providers and parents who knowingly submit false information related to child eligibility and attendance in a school readiness program.
- Requiring private providers to maintain a minimum level of general liability insurance consistent with the requirements of private school readiness program providers, including any required workers' compensation and any required reemployment assistance or unemployment compensation.
- Requiring the Early Learning Advisory Council to periodically analyze and provide recommendations to the office on the effective and efficient use of local, state and federal funds; the content of professional development training programs; and best practices for the development and implementation of coalition plans.

The effective date of the bill is July 1, 2013.

The bill substantially amends sections 11.45, 20.15, 216.136, 402.281, 402.302, 402.305, 445.023, 490.014, 491.014, 1001.11, 1002.51, 1002.53, 1002.55, 1002.57, 1002.59, 1002.61, 1002.63, 1002.66, 1002.67, 1002.69, 1002.71, 1002.72, 1002.75, 1002.77, 1002.79, Florida Statutes.

The bill transfers, renumbers, and amends section 411.011 as 1002.97, Florida Statutes.

The bill creates section 1001.213 and part VI of chapter 1002, consisting of sections 1002.81-1002.96, F.S.

The bill repeals the following sections of the Florida Statutes: 411.01, 411.0101, 411.01013, 411.01014, 411.01015, 411.0102, 411.0103, 411.0104, 411.0105, and 411.0106.

II. Present Situation:

Early learning programs consist of the Voluntary Prekindergarten Education program and the School Readiness program.

Florida's Office of Early Learning

In 2011, the Legislature transferred the Office of Early Learning, currently called Florida's Office of Early Learning (Fl's OEL), from the Agency for Workforce Innovation to the Department of Education (DOE) as a separate budget entity, not subject to control, supervision, or direction by the DOE or the State Board of Education in any manner including, but not limited to, personnel, purchasing, transactions involving personal property, and budgetary matters. The office director is appointed by the Governor and confirmed by the Senate, serves at the pleasure of the Governor, and is the agency head of the office for all purposes. The office is subject to review and oversight by the Chief lnspector General or his or her designee.[1]

Florida's OEL is Florida's lead agency for administering the federal Child Care and Development Fund (CCDF) block grant from which funds are used to implement the school readiness program.[2]

Current law directs the Florida's OEL to establish a unified approach to the state's school readiness efforts by adopting specific system support services for the state's school readiness programs.[3] System support services include, but are not limited to:

- Child care resource and referral services.
- Warm-Line services.4
- Eligibility determinations.
- Child performance standards.
- Child screening and assessment.
- Developmentally appropriate curricula.
- Health and safety requirements.
- Statewide data system requirements.
- Rating and improvement systems.5

Additionally, Florida's OEL must develop and adopt performance standards and outcome measures for school readiness programs. Child performance standards must describe age-appropriate progress of children in the development of school readiness skills. The performance standards for children from birth to age five must be integrated with the performance standards adopted by the DOE for the VPK program.[6] Florida's OEL has developed and adopted a "robust set of child expectations for children, birth to five years of age."[7]

[1] Section 12, ch. 2011-142, codified at s. 20.15(3)(h), F.S. Florida's OEL is distinct from DOE's Office of Early Learning. Department of Education, Early Learning/Prekindergarten, http://www.fldoe.org/earlyLearning/ (last visited March 28, 2013).
[2] The law directs the Governor to designate Florida's OEL as the lead agency for administering the Child Care and Development Fund (CCDF). Section 411.01(4)(c), F.S.
[3] Section 411.01(4)(d)3., F.S.
[4] OEL is required to contract with the "statewide resource information and referral agency" to establish a statewide toll-free Warm-line for the purpose of assisting child care providers in serving children with disabilities and special needs. Section 402.3018, F.S.
[5] Section 411.01(4)(d)3.a.-i., F.S.
[6] Section 411.01(4)(d)8., F.S.; *see also* Florida's Office of Early Learning, *Early Learning Services – Birth to Five Standards*, http://flbt5.floridaearlylearning.com/Default.aspx (last visited April 16, 2013).The performance standards address the following school readiness skills: compliance with rules, limitations, and routines; ability to perform tasks; interactions with

Florida's OEL administers the School Readiness program at the state level and coordinates with the ELCs in providing school readiness services on a full-day, full-year, full-choice basis to enable parents to work and be financially self-sufficient.[8] The office must, every two years, review ELCs and school readiness plans and approve such plans.[9] Additionally, Florida's OEL must provide technical assistance and training to the Early Learning Coalitions (ELCs or coalitions) and monitor and evaluate the ELCs' administration of the School Readiness and VPK programs.[10] Florida's OEL must also work with the ELCs to provide training and support for parental involvement in children's early education and to provide family literacy activities and services.[11]

Voluntary Prekindergarten Education Program

In 2004, the Legislature established the Voluntary Prekindergarten Education program (VPK program), a voluntary, free prekindergarten program offered to eligible four-year old children in the year before admission to kindergarten.[12] A child must be a Florida resident and attain four years of age on or before September 1 of the academic year to be eligible for the VPK program.[13] Parents may choose either a school year or summer program offered by either a public school or private prekindergarten provider.[14] The child remains eligible for the VPK program until he or she is eligible for kindergarten in a public school or is admitted to kindergarten, whichever

---

adults; interactions with peers; ability to cope with challenges; self-help skills; ability to express the child's needs; verbal communication skills; problem-solving skills; following of verbal directions; demonstration of curiosity, persistence, and exploratory behavior; interest in books and other printed materials; paying attention to stories; participation in art and music activities; and ability to identify colors, geometric shapes, letters of the alphabet, numbers, and spatial and temporal relationships. Section 411.01(4)(j), F.S.

[8] Section 411.01(4)(a), F.S.

[9] Section 411.01(4)(d)2., F.S.

[10] Section 411.01(4)(d)6., (l) and (n), F.S.; *see also* ss. 1002.55(1) and 1002.61(1)(b), F.S. Florida's OEL and the ELCs must coordinate with the Department of Children and Family Services to minimize duplicating interagency activities, health and safety monitoring, and acquiring and composing data pertaining to child care training and credentialing. Section 411.01(4)(d)7., F.S.

[11] Section 411.01(4)(n), F.S.

[12] Section 1, ch. 2004-484, L.O.F.; part V, ch. 1002, F.S.; *see also* Art. IX, s. 1(b)-(c), Fla. Const. The VPK program originated from a ballot initiative proposing an amendment to the Florida Constitution in the November 2002 general election. The amendment required the Legislature to establish a free prekindergarten education program for every four-year old child residing in Florida by the 2005 academic year. Voters approved the amendment by a total of 59 percent for to 41 percent against. Art. IX, s. 1(b)-(c), Fla. Const.; *see also* Florida Department of State, Division of Elections, *Voluntary Universal Prekindergarten Education,* http://election.dos.state.fl.us/reports/pdf/02annrpt.pdf (last visited March 28, 20 13).

[13] Section 1002.53(2), F.S.

[14] Section 1002.53(3), F.S. In 2010, the Legislature established a specialized instructional services program for children with disabilities as an option under the VPK program. Section 3, ch. 2010-227, *codified at* s. 1002.53(3)(d), F.S. Beginning with the 2012-13 academic year, a child who has a disability is eligible for specialized instructional services if the child is eligible for the VPK program and has a current Individual Education Plan (IEP) developed by the district school board. Specialized instructional services include applied behavior analysis, speech-language pathology, occupational therapy, and physical therapy. The Florida Department of Education is responsible for approving public and private program providers. Section 1002.66, F .S. Once this program is implemented, children who participate in the program will be eligible to receive a McKay Scholarship to enroll in and attend a private school. Section 1002.39(2)(a)l., F.S.

occurs first.[15] A child may not attend the summer VPK program earlier than the summer immediately before the academic year in which the child becomes eligible for kindergarten.[16]

Department of Education (DOE, through its Office of Early Learning, distinct from Florida's Office of Early Learning), Florida's OEL, and Department of Children and Families (DCF) each play a role in the state-level oversight of the VPK program. DOE is responsible for the programmatic requirements for the VPK program.[17] Florida's OEL governs the day-to-day operations of the VPK program.[18] DCF administers the state's child care provider licensing program and posts VPK program provider profiles on its Internet website.[19]

School Readiness Program

Established in 1999,[20] the School Readiness program provides subsidies for early childhood education and child care services to children of low-income families; children in protective services who are at risk of abuse, neglect, or abandonment; and children with disabilities.[21]

The School Readiness program is a state-federal partnership between Florida's OEL and the Office of Child Care of the United States Department of Health and Human Services.[22]

Federal regulations governing the CCDF block grant,[23] the primary funding source for the School Readiness program, authorize states to use grant funds for child care services, if: [24]

- The child is under 13 years of age, or at the state's option, under age 19 if the child is physically or mentally incapable of caring for himself or herself or under court supervision;
- The child's family income does not exceed 85 percent of the state's median income for a family of the same size; and
- The child:
  - Resides with a parent or parents who work or attend job training or educational programs; or
  - Receives, or needs to receive, protective services.

[15] Section 1002.53(2), F.S. Children who attain five years of age on or before September 1 of the academic year are eligible for admission to public kindergartens. Section 1003.21(1)(a)2., F.S.
[16] Section 1002.61(2)(c), F.S.

Within these broad federal eligibility categories, Florida law specifies that the School Readiness program is established for children from birth to school entry.[25]

Florida's OEL administers the program at the state level, including statewide coordination of the ELCs.

Funding

Funding for the School Readiness program is provided annually in the General Appropriations Act (GAA).[26] For the 2012-2013 fiscal year, a total of $581.5 million was appropriated for the School Readiness Program from state and federal funds, including $341.7 million from the CCDF block grant, $98 million from the TANF block grant, $141.3 million from the state's General Revenue Fund, and $500,000 from other federal fund sources. Florida law requires that the OEL establish a formula for the allocation of all state and federal school readiness program funds provided for children participating in the School Readiness program. The formula is required to be based on equity and must be submitted to the Governor and the Legislature by January 1 of each year.[27] Funding allocations for the 2012-2013 fiscal year were derived from the formula submitted to the Governor and Legislature as of January 1, 2012.

Market Rate

Florida's OEL is responsible for annually calculating a prevailing market rate schedule as a provision of the Child Care and Development Block Grant that must include county by county rates by provider type including licensed child care facilities; religious exempt facilities, public and non-public schools, large family day care homes, family day care homes and those who hold a Gold Seal quality Care Designation under section 402.281, Florida Statutes. The prevailing market rate must also differentiate rates by care level to include infants, toddlers, pre-school age, and school-age children. The prevailing market rate schedule is required to be set at the 75th percentile of a reasonable frequency distribution based exclusively on the prices charged for child care services. Each ELC must utilize the prevailing market rate schedule to set the coalition's School Readiness program provider payment rates.

Early Learning Coalitions

Each ELC administers the School Readiness program,[28] the VPK program,[29] and the state's child care resource and referral network in its county or multicounty region.[30] There are currently 31 ELCs.[31] Each ELC is governed by a board of directors comprised of various stakeholders and

Florida law permits the establishment of 31 or fewer ELCs. Section 411.01(5)(a)2.a., F.S.

community representatives. Three members of each board, including the chair, are appointed by the Governor.[32]

Each ELC must serve a minimum of 2,000 children based upon the average number of children served per month by the coalition's School Readiness program during the previous 12 months.[33] If an ELC serves fewer than 2,000 children, "the coalition must merge with another county to form a multicounty coalition."[34] Florida's OEL must waive the merger requirement if certain criteria are met.[35]

An ELC may participate in the School Readiness program if the coalition's School Readiness plan is approved by Florida's OEL.[36] The plan must, at a minimum, contain the following elements: alignment to the statutory requirements and system support services, performance standards, and outcome measures; instruction to enable children from birth through five years of age to meet the performance standards; and feedback regarding the plan from the local community.[37] Florida's OEL must adopt rules establishing school readiness program plan approval criteria[38] which must include the following minimum standards for the School Readiness program:[39]

- A community plan that addresses the needs of eligible children and providers within the coalition's county or multicounty region.
- A sliding fee scale establishing a copayment for parents based upon their ability to pay, which is the same for all program providers.[40]
- A choice of settings and locations in licensed, registered, religious-exempt, or school-based programs to be provided to parents.
- Specific eligibility priorities for children in accordance with the law.
- Performance standards and outcome measures adopted by Florida's OEL.
- Payment rates adopted by the ELCs and approved by Florida's OEL.
- Direct enhancement services for families and children.[41]

[32] Section 411.01(5)(a)4.-6., F.S.
[33] Section 411.01(5)(a)2.b., F.S.
[34] Section 411.01(5)(a)3., F.S. Florida's OEL must adopt procedures for merging ELCs.
[35] Section 411.01(5)(a)3.a.-c., F.S. Florida's OEL must waive the merger requirement if it determines that the ELC has substantially implemented its school readiness plan; the ELC demonstrates to Florida's OEL its ability to effectively and efficiently implement the VPK Program; and the ELC demonstrates to Florida's OEL its ability to perform its duties in accordance with the law.
[36] Section 411.01(5)(d)1., F.S.

[38] Florida's OEL held rule workshops for the school readiness plan in February 2012 and received the transcript from the workshop on March 14, 2012. Florida's OEL staffs are in the process of analyzing comments and preparing rule. E-mail, Florida's Office of Early Learning (Aug. 21, 2012), on file with the Appropriations Subcommittee on Education staff.
[39] Section 411.01(5)(d)4., F.S.
[40] Each ELC is required to adopt, subject to approval by Florida's OEL, a copayment charged to the parent of a child enrolled in the School Readiness Program. Section 411.01(5)(d)4.b., F.S. The co-payment is based on the parent's income and family size. Rule 6M-4.400(1), F.A.C. A School Readiness Program provider receives payment for school readiness services from the ELC and is responsible for collecting the co-payment directly from the parent. Rule 6M-4.401, F.A.C. A School Readiness Program provider is not prohibited from charging parent fees in addition to the co-payment. Rule 6M-4.400(4), F.A.C.

- The business organization of the ELC.
- The implementation of locally developed quality programs in accordance with the requirements adopted by Florida's OEL regarding the expenditure of funds for improving the quality of child care within the state.

Each ELC must implement a comprehensive program of school readiness services to achieve the performance standards and outcome measures. At a minimum, the comprehensive program must contain the following system support service elements: use of a developmentally appropriate curriculum, character development education; age appropriate screening and assessment; appropriate staff to children ratio; a healthy and safe learning environment; and a resource and referral network[42] and a regional Warm-Line.[43,44]

Florida law requires each ELC to include a "choice of settings and locations in licensed, registered, religious-exempt, or school-based programs."[45] A wide range of public and private providers of early childhood education and child care services participate in the School Readiness program, including:

- Public and private schools;
- Licensed child care facilities and large family child care homes;
- Licensed and registered family day care homes;
- Faith-based child care facilities and after-school programs, which are both exempt from licensure; and
- Informal providers[46] (e.g., in-home and relative care).[47]

In FY 2011-2012, a total of 10,844 child care providers participated in the School Readiness program, including 1,013 public schools; 6,508 private providers; and 3,043 family day care homes. Of these providers, 836 were faith-based.[48]

Child care providers who provide school readiness services are regulated by the DCF.[49]

Child Care Executive Partnership

The purpose of the Child Care Executive Partnership Program is to utilize state and federal funds as incentives for matching local funds derived from local governments, employers, charitable foundations, and other sources so that Florida communities may create local flexible partnerships with employers.[50] The Child Care Executive Partnership governs this program.[51] Current duties and responsibilities of the partnership include:[52]

- Assisting in the formulation and coordination of the Florida's child care policy.
- Adopting an official seal.
- Soliciting, accepting, receiving, investing, and expending funds from public or private sources.
- Contracting with public or private entities as necessary.
- Approving an annual budget.
- Carrying forward any unexpended state appropriations into succeeding fiscal years.
- Providing a report to the Governor, the Speaker of the House of Representatives, and the President of the Senate, on or before December 1 of each year.

Gold Seal Quality Care Designation

In order to be approved by the Department of Children and Families for participation in the Gold Seal Quality Care program, a child care facility, large family child care home, or family day care home must be accredited by a nationally recognized accrediting association approved by the Department of Children and Families.[53]

In approving accrediting associations, the Department of Children and Families must consult with the Department of Education, the Florida Head Start Directors Association, the Florida Association of Child Care Management, the Florida Family Day Care Association, the Florida Children's Forum, the Early Childhood Association of Florida, the Child Development Education Alliance, providers receiving exemptions under section 402.316, Florida Statutes, and parents.[54]

Afterschool Meals Program

The federally funded Afterschool Meal Program (AMP) was expanded to Florida and the rest of the nation by Congress in December 2010. Prior to that time, pilot programs existed in only 13 states and the District of Columbia. The federal regulations governing the program do not require child care licensure but do require AMP sites to meet state and local health and safety standards to participate.[55]

III. Effect of Proposed Changes:

CS/CS/SB 1722 changes the governance structure of the Office of Early Learning (OEL) and increases accountability and transparency in the administration of early learning programs: Voluntary Prekindergarten Education program (VPK program) and School Readiness program.

Governance

The bill creates the Office of Early Learning (OEL or office) within the DOE's Office of Independent Education and Parental Choice. The OEL will be administered by an Executive Director who is fully accountable to the Commissioner of Education. The office will be responsible for administering both the VPK and the school readiness programs at the state level and will independently exercise all powers, duties, and functions prescribed by law, but is not to be construed to be a part of the K-20 education system. Moreover, participation in the School Readiness program must not expand the regulatory authority of the state, its officers, or any ELC to impose any additional regulation on providers beyond those necessary to enforce the requirements of law.

The bill requires the OEL, in collaboration with the Commissioner of Education, to develop a reorganization plan for the office by October 1, 2013. The plan must include the following:

- Any changes made prior to July 1, 2013;
- Personnel, purchasing, and budgetary matters and their alignment with the duties and responsibilities of the office;
- A report of all outstanding contractual obligations; and
- Recommendations for statutory and budgetary changes.

The plan must be provided to the Governor, the President of the Senate, and the Speaker of the House of Representatives.

Accountability

The bill includes several accountability provisions for the OEL, ELCs, and VPK and School Readiness program providers.

Office of Early Learning

The bill requires the OEL to:

- Administer requirements of the VPK program.
- Adopt by rule a standard statewide provider contract for the VPK and School Readiness programs. The contract must include provisions for probation, termination for cause, and emergency termination of a provider's contract.
- Adopt a uniform chart of accounts for budgeting and financial reporting.
- Coordinate with other state and federal agencies to perform data matches to verify children's eligibility to participate in the School Readiness program.
- Establish procedures for the annual calculation of the average market rate.
- Adopt specific program support services.

- Provide technical assistance to coalitions on anti-fraud plans.
- Develop and adopt a health and safety checklist for license exempt providers that does not exceed current licensing standards for child care facilities.
- Select valid, reliable, and developmentally appropriate assessments for use as pre- and post-assessment for the age ranges specified in the coalition's plans.
- Adopt standardized monitoring procedures for coalitions to use to monitor providers.
- Collaborate with the Bureau of Federal Education Programs within the Department of Education to coordinate readiness and voluntary prekindergarten services to the populations served by the bureau, including students served through the homeless education program.
- Provide for the administration of the statewide toll-free Warm-Line.

The OEL must continue to establish a unified approach to coordinate a comprehensive early learning program and adopt specific program support services for the School Readiness program, including:

- A statewide data information program that includes:
  - Eligibility requirements.
  - Financial reports.
  - Program accountability measures.
  - Child progress reports.

- Child care resource and referral services
- A single point of entry and uniform waiting list.

In addition, the OEL may provide technical assistance and guidance on additional support services to complement the School Readiness program, including:

- Rating and improvement systems.
- Warm-Line services.
- Anti-fraud plans.
- School readiness program standards.
- Child screening and assessments.
- Training and support for parental involvement in children's early education.
- Family literacy activities and services.

Early Learning Coalitions

The bill revises the membership of the ELCs by updating terminology used to refer to Florida College System institution president, instead of a community college president. The bill also requires the ELCs to:

- Implement an age-appropriate pre- and post-assessment of children, if specified in the coalition's approved school readiness plan. ELCs cannot require providers to administer pre- and post-assessments.
- Require a parent to be in good standing on copayment obligations with a school readiness program provider prior to transferring to another school readiness program provider.

- Provide a timeframe within which attendance records may be altered or amended.
- Comply with federal and state procurement requirements.
- Provide proper information technology controls.
- Develop written policies, procedures, and standards for monitoring vendor contracts.
- Monitor providers in accordance with the applicable coalition's plan, or in response to complaints from parents, using the standard monitoring tool adopted by the office. Providers to be determined high-risk as demonstrated by substantial findings of violations of federal law or general or local laws of the state must be monitored more frequently. Providers with three consecutive years of compliance may be monitored biennially.
- Implement an anti-fraud plan addressing specific components.
- Specify components for the annual report that is submitted to the office by October 1.
- Requiring each ELC to use a coordinated, professional development system that supports the achievement and maintenance of core competencies by school readiness program teachers in helping children attain the performance standards adopted by the office.

ELCs must maintain direct enhancement services at the local level and provide access to such services in all 67 counties. The required annual report to the OEL must include an evaluation of the ELC's direct enhancement services.

School Readiness Program Plans

The OEL must adopt rules prescribing the standardized format and required content of school readiness program plans. The bill provides additional accountability by:

- Requiring ELCs to submit a school readiness program plans biennially before the expenditure of funds.
- Prohibiting an ELC from implementing the coalition's school readiness program until the plan is approved.
- Prohibiting an ELC from implementing any changes to its plan, until the changes are approved by the OEL. Each ELC plan must include:
  - The coalition's operations, including the coalition's membership and business organization.
  - The coalition's articles of incorporation and bylaws, as appropriate.
  - The minimum number of students to be served.
  - The coalition's procedures for implementing all requirements of administering the School Readiness program.
  - A detailed description of the coalition's quality activities and services.
  - A detailed budget outlining the estimated expenditures for state, federal, and local maintenance of effort and matching funds at a specific level of detail.
  - A detailed accounting of all revenues and expenditures during the previous state fiscal year, in a format described by the OEL.
  - Updated policies and procedures.
  - A description of the procedures for monitoring school readiness program providers or for responding to complaints from parents.
  - Documentation that the coalition has solicited and considered comments regarding the proposed school readiness program plan from the local community.

If the OEL determines during the review of school readiness program plans, or through monitoring and performance evaluations, that an ELC has not substantially implemented the coalition's plan, has not substantially met the performance standards and outcome measures, or has not effectively administered the School Readiness or VPK program, the office may temporarily contract with a qualified entity to continue providing services until the ELC is reestablished and a new school readiness program plan is approved.

Annual Report

The bill requires the OEL to collect and report data on coalition delivery of early learning programs to be implemented beginning July 1, 2014, and results included in the OEL's annual report. The OEL report must include, but not be limited to, the following elements:

- Progress toward reducing the number of children on the waiting list.
- The percentage of students served compared to the number of administrative staff and overhead.
- The percentage of students served compared to the total number of children under the age of five years below 150 percent of the federal poverty level.
- Provider payment process.
- Fraud intervention.
- Child attendance and stability.
- Use of child care resource and referral.
- Kindergarten readiness outcomes.

School Readiness Program Participation Eligibility

The bill establishes, effective August 1, 2013, or upon reevaluation of eligibility of children served, the following priorities for participation in the School Readiness Program:

- First priority must be a child under 13 from a family that includes a parent who is receiving Temporary Assistance for Needy Families (TANF) and is subject to the federal work requirements.
- Second priority must be an at-risk child under 9 years of age.
- Third priority must be a child from, birth to beginning of school year for which the child is eligible for kindergarten, from a working family that is economically disadvantaged and may include such children's eligible siblings who are eligible to enter kindergarten through the summer before sixth grade, provided that ELC use local revenues first. The child's eligibility ceases if the child's family income exceeds 200 percent of the federal poverty level.
- Fourth priority must be a child of a parent who transitions from the work program into employment, as described in s. 445.032, from birth to the beginning of the school year for which the child is eligible for admission to kindergarten in a public school under s. 1003.21(1)(a)2.
- Fifth priority must be a child aged 9 through 13, who is at risk. A child eligible under this priority whose sibling is enrolled in the School Readiness program within the first three eligibility priority categories specified above shall be given priority over other children.

- Sixth priority must be a child younger than 13 years of age from a working family that is economically disadvantaged. A child eligible under this priority whose sibling is enrolled in the School Readiness program under the third eligibility priority category specified above shall be given priority over other children. A child is no longer eligible if the family income exceeds 200 percent of the federal poverty level.
- Seventh priority must be a child of a parent who transitions from the work program into employment as described under s. 445.032 if the child is younger than 13 years of age.
- Eight priority must be a child who has special needs, has been determined eligible as a student with a disability, has a current individual education plan with a Florida school district, and is not younger than 3 years of age. The child remains eligible until he or she is eligible for admission to kindergarten.
- Last priority must be for a child who is also concurrently enrolled in the federal Head Start program and the VPK program.

Additionally, the bill requires:

- Coalitions to enroll children in accordance with the specified eligibility priorities;
- Parents the opportunity to reestablish employment within 60 days (instead of the current 30 days for break in employment or 60 days for temporary break in employment due to medical reasons[56]);
- Disenrollment of children to occur in reverse order of the specified eligibility priorities, beginning with children from families with the highest family incomes;
- A notice of disenrollment be sent to the parent and school readiness program provider at least 2 weeks before disenrollment; and
- Providers to report to the coalition for determination of need for continued care if a child has been absent for five consecutive days without any parental notification.

Provider Standards and Eligibility

In addition to current standards and requirements for providers, the bill requires that providers:

- Maintain a minimum general liability insurance coverage of $100,000 and general aggregate coverage of $300,000 that includes coverage of transportation if students are transported by the provider. The OEL may authorize lower limits upon request, as appropriate.
- Must add the coalition as a named certificateholder and as an additional insured.
- Maintain any required worker's compensation insurance and any required unemployment compensation insurance.
- Maintain the coverage for the entire period of the provider contract with the coalition.
- Notify the coalition, with a minimum of ten calendar days' advance written notice, of cancellation or changes to coverage.
- Make provisions for coalitions to revoke provider's eligibility for five years if the provider fails of refuses to comply with the law or the statewide contract.

[56] Florida's Office of Early Learning, *Part 2: CCDF Subsidy Program Administration, available at* http://www.floridaearlylearning.com/Documents/SysDev-CCDF/2011-2013/CCDF2012_2013Part2-CCDFSubsidyProgramAdministration.pdf.

- Include school readiness program activities to foster brain development in infants and toddlers by providing an environment rich in language and music; stimulating visual, tactile, auditory, and linguistic senses; and include 30 minutes of reading to children each day.
- Administer preassessments and postassessments that are approved by the OEL, if such providers choose to administer such assessments.

School Readiness Program Funding

The bill provides that School Readiness program funding shall be allocated to the ELCs as provided in the General Appropriations Act (GAA). The bill also removes the requirement for the annual submission of a funding formula by the OEL.

The bill requires the OEL and each ELC to limit its expenditures to no more than 22 percent of funds for any combination of administrative costs, nondirect services, and quality activities for any fiscal year. No more than 5 percent may be used for administrative costs. Coalitions must place the highest priority for the expenditure of funds on providing direct services for eligible children in the School Readiness program.

The bill specifies that activities to improve the quality of child care must be limited to:

- Developing, operating, expanding, and coordinating resource and referral program.
- Awarding grants to School Readiness program providers to assist the providers in meeting the state requirements for child care performance standards, implementing developmentally appropriate curricula and related classroom supports, providing literacy supports, and providing professional development.
- Providing training and technical assistance for School Readiness program providers, staff, and parents on standards, child screenings, child assessments, curricula, charter development, teacher-child interactions, age-appropriate discipline practices, health and safety, nutrition, first aid, recognition of communicable diseases, and child abuse detection and prevention.
- Funding for quality activities for infants and toddler care, to meet applicable federal requirements.
- Improving the monitoring of compliance with state and local requirements.
- Responding to Warm Line requests by providers and parents regarding children in the School Readiness program.

The bill defines nondirect services to include, but not be limited to:

- Assisting families in completing the required application.
- Determining child and family eligibility.
- Recruiting eligible child care providers.
- Processing and tracking attendance records.
- Developing and maintaining a statewide information system.

The bill prohibits the use of state funds for the purchase or improvement of land or for the purchase of buses. However, funds may be expended for minor remodeling and upgrading of child care facilities so that School Readiness program providers are able to meet the state and local child care standards including health and safety requirements.

School Readiness Program Prevailing Market Rate

The bill defines market rate as the price that a child care or early childhood education provider charges for full-time or part-time daily, weekly, or monthly child care or early childhood education services. Additionally, average market rate is defined in the bill as the biennially determined average of the market rate by program care level and provider type in a predetermined geographic market. The bill requires the funding for the School Readiness program to be allocated to the ELCs in accordance with the specified requirements and the GAA.

Investigations of Fraud

The bill requires the OEL to coordinate with federal and state agencies to perform data matches to verify the eligibility of individual and families regarding participation in the School Readiness program. Fraudulent information submitted by a school readiness program provider or parent must be considered a misdemeanor of the first degree, which may include a fine up to $1,000 and imprisonment not exceeding 1 year. Additionally, the bill:

- Defines "fraud" and the processes to investigate and refer fraud to Department of Financial Services for criminal investigation or to the applicable coalition.
- Applies the provisions and consequences regarding fraud to coalitions, recipients and providers.
- Provides that coalitions may suspend or terminate a provider from participation in School Readiness or the Voluntary Prekindergarten program if it has reasonable cause to believe that the provider has committed fraud.
- Removes a provider from eligibility to deliver program services or receive federal or state funds for a period of 5 years if the provider is convicted of fraud.
- Prohibits coalitions from contracting with a provider who is on the U.S. Department of Agriculture disqualified list.
- Requires coalitions to adopt an anti-fraud plan.
- Specifies that a person who commits an act of fraud is subject to the penalties provided in s. 414.39, F.S.[57]

The bill also requires the Early Learning Advisory Council (ELAC) to periodically analyze and provide recommendations to the OEL regarding the effective and efficient use of local, state and federal funds; the content of professional development training programs; and best practices for the development and implementation of coalition plans.

The bill requires that the chair of the ELAC appointed by the Governor and members appointed by the presiding officers of the Legislature be from the business community.

Transparency

The bill includes several provisions that increase transparency by:

[57] Fraud of less than $200 is a misdemeanor of the first degree and $200 or more is a felony of the third degree.

- Requiring the OEL to publish an annual report on the office's website by January 1. The report must include a summary of coalitions' annual report, a statewide summary, an analysis of early learning activities throughout the state with specified components, and a summary of activities and expenditures regarding the Child Care Executive Partnership Program.
- Requiring the OEL to review ELCs' delivery of the early learning programs.
- Requiring the OEL to review and adopt minimum performance standards for VPK.
- Requiring the OEL to include a summary of activities and expenditures related to the Child Care Executive Partnership Program in the annual report.
- Requiring ELCs to comply with specific requirements before contracting with a member of the coalition or a relative which includes approval of the contract by the office.
- Requiring the ELCs to comply with the tangible personal property requirements of chapter 274 and rules there under.
- Requiring VPK instructors to complete an online training course on the performance standards by July 1, 2014.
- Clarifying that participation in the School Readiness program does not expand the regulatory authority of the state, its officers, or any early learning coalition to impose any additional regulation on providers beyond those necessary to enforce the requirements set forth for administration of the School Readiness program.
- Revising provisions regarding the accrediting organizations recognized under the Gold Seal Quality Care program.

Child Care Executive Partnership

The bill removes from duties of the Child Care Executive Partnership, requirements regarding formulation and coordination of the state's child care policy and adopting an official seal, and instead, directs the partnership to make recommendations concerning the implementation and coordination of the School Readiness program.

Gold Seal Quality Care Designation

The bill removes the requirement for the accrediting association to be "nationally recognized," but it must still be approved by the Department of Children and Families. In approving accrediting associations, the Department of Children and Families must consult with the Florida Association of Academic Nonpublic Schools and the Association of Early Learning Coalitions in addition to the entities specified in Section 402.281(3)(b), Florida Statutes.

After School Meals Program

The bill authorizes after-school programs that are excluded from licensure to provide snacks and meals through the federally funded After School Meal Program (AMP) meals administered by the Department of Health if the programs are in good standing with the Department of Health and the meals meet the AMP requirements.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The fiscal impact of this bill on the Department of Education and the Office of Early Learning is insignificant.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 23, 2013:
The committee substitute differs from CS/SB 1722 in that the committee substitute:

- Clarifies the eligibility criteria for children to participate in the School Readiness program to ensure that families transitioning from the Temporary Assistance for Needy Families (TANF) to work to receive school readiness services.
- Removes from the bill the funding formula provision regarding the School Readiness program.
- Removes from the bill provision regarding educational property exemption.

- Changes the governance structure of the Office of Early Learning by establishing the office within the Department of Education's Office of Independent Education and Parental Choice.
- Includes several accountability and transparency provisions to promote effective and efficient administration of VPK program and School Readiness programs.
- Includes provisions regarding educational property and after-school meals program.

CS by Committee on Education on April 1, 2013:
The committee substitute differs from SB 1722 in that the committee substitute:

- Changes the governance structure of the Office of Early Learning by establishing the Office of Early Learning within the Office of the Commissioner of Education.
- Enhances the accountability of early learning programs by requiring the Office of Early Learning to administer the School Readiness and VPK programs and keeping the administrative staff for such programs to the minimum necessary to administer the duties of the office.
- Provides roles and responsibilities for the Office of Early Learning and early learning coalitions.

B. Amendments:

None.

By the Committee on Education; and Senator Legg

581-03367-13 20131722c1

A bill to be entitled

An act relating to early learning; establishing the Office of Early Learning within the Office of the Commissioner of Education; establishing responsibilities of the Office of Early Learning; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. The Office of Early Learning.—The Office of Early Learning is established within the Office of the Commissioner of Education.

(1) The Office of Early Learning shall administer the school readiness program and the Voluntary Prekindergarten Education Program. Administrative staff for the school readiness program and the Voluntary Prekindergarten Education Program shall be kept to the minimum necessary to administer the duties of the Office of Early Learning.

(2) The Office of Early Learning is responsible for the following:

(a) Prudent use of public and private funds, including, but not limited to, the adoption of a uniform chart of accounts for budgeting and financial reporting purposes.

(b) Monitoring and evaluating the performance of each early learning coalition with regard to its finances, management, and operations.

(c) Annually publishing a summary of the school readiness program and the Voluntary Prekindergarten Education Program, including, but not limited to, the number of children served and

Florida Senate - 2013 **CS for SB 1722**

581-03367-13 20131722c1

administrative costs of early learning coalitions relative to the coalitions' total expenditures. The summary must be based on reports that must be submitted annually by the early learning coalitions to the Office of Early Learning.

Section 2. This act shall take effect July 1, 2013.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/SB 1844 (812796)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Health and Human Services) and Health Policy Committee
SUBJECT:	Health Choice Plus Program
DATE:	April 21, 2013 REVISED:

6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

PCS/SB 1844 expands the current Florida Health Choices Program (FHCP) eligibility guidelines by modifying the participation criteria for individuals and employers as long as other program criteria are met. The bill clarifies that products sold in the FHC marketplace are not limited to those specifically listed or to risk-bearing products. The bill gives the Florida Health Choices Corporation (FHCC) more flexibility in setting open enrollment periods and removes product pricing guidelines that are in conflict with the provisions of federal law.[1]

The bill includes an appropriation of $15,275,000 in general revenue (GR) for Fiscal Year 2013-2014.

The bill also creates a new health care services program, the Health Choice Plus (HCP) program within the FHCC. The FHCC will phase-in the HCP program and be responsible for its ongoing

[1] Currently, s. 408.910(4)(f)4., F.S. allows for the establishment of product prices based on age, gender and location. The Patient Protection and Affordable Care Act (PPACA) prohibits the pricing of health insurance products based on gender and only allows limited pricing differences based on age. *Pub. Law No. 111-148, H.R. 3590, 111th Cong. (Mar. 23, 2010).*

oversight, including the delivery of services, management of contracts, and collection of enrollee or employer contributions.

The HCP is created as an alternative health benefits program for uninsured, low income Floridians with incomes at or below 100 percent of the federal poverty level (FPL) who meet other designated eligibility criteria. Enrollees and the state will jointly fund health benefits accounts, to be managed by the FHCC, to the extent funds are appropriated annually in the General Appropriations Act (GAA). Enrollees may utilize funds in those accounts to purchase a range of health care products from the FHCC's marketplace or to offset other out of pocket health care costs. Enrollees must contribute at least $20 per month and the state will contribute no more than $10 per month. These amounts may be adjusted annually in the GAA.

Continued enrollment in HCP is contingent upon several factors, including but not limited to, an enrollee health assessment within the first three months of enrollment, continued payment of the monthly contribution requirement, and the enrollee's employment or full-time school enrollment. Exceptions to full-time employment may be made for an enrollee's medical condition or where the enrollee is the primary caregiver for a relative with a chronic medical condition that requires at least 40 hours of care per week. Supplemental payments may also be deposited to an enrollee's health benefits account for successful achievement of optional healthy living goals, subject to a specific appropriation for this purpose. Total enrollment in the program is limited based on the availability of funds.

The HCP program is subject to automatic repeal on July 1, 2016, unless reenacted by the Legislature.

The bill has an effective date of July 1, 2013.

The bill substantially amends section 408.910 of the Florida Statutes.

The bill creates section 408.9105 of the Florida Statutes.

II. Present Situation:

Florida provides health insurance coverage options to low income Floridians through a variety of programs utilizing state and federal funds. As of February 28, 2013, more than 3.2 million individuals received coverage through the Medicaid program.[2] Enrollment in the Florida Kidcare program's non-Medicaid funded components for the same time period was an additional 256,721 children.[3]

Florida's Medicaid program is expected to spend $21 billion for Fiscal Year 2012-2013, making it fifth largest in the nation for expenditures.[4] The Medicaid program is jointly funded between

[2] Agency for Health Care Administration, *Report of Medicaid Eligibles*, http://ahca.myflorida.com/Medicaid/about/pdf/age_assistance_category_130228.pdf (last visited Mar. 17, 2013).

[4] Agency for Health Care Administration, Presentation to House Health and Human Services Committee, *Florida Medicaid: An Overview - December 5, 2012*,

the state and federal governments; 52.73 percent of the costs for health care services are paid by federal funds and 42.27 percent is state share in the current fiscal year. Funding for the Florida Kidcare program's Title XXI components has an enhanced federal match of 70.66 percent for the 2012-2013 federal fiscal year.[5]

According to the most recent data from the American Community Survey (ACS) of the federal Census Bureau, an estimated four million Floridians are uninsured.[6] Of that number, according to the ACS data, 594,000 are children.[7] More than 1.9 million uninsured adults are under 139 percent of the FPL, according to statistics for 2010-2011.[8] Lower income adults – those below 100 percent of the FPL – number at 1.1 million for that same time period.[9]

Eligibility for the current Medicaid program is based on a number of factors, including age, household or individual income, and assets. The Department of Children and Families (DCF) determines eligibility for Medicaid but the Agency for Health Care Administration (AHCA) is the single state Medicaid agency under s. 409.963, F.S., and has the lead responsibility for the overall program.[10]

Recipients in the Medicaid program receive their benefits through several different delivery systems depending on their individual situation. Delivery systems currently include fee-for-service providers and various managed care organizations, including provider service networks (PSNs), health maintenance organizations (HMOs), and prepaid limited health service organizations. In July 2006, the AHCA implemented the Medicaid Managed Care Pilot Program as directed by the 2005 Legislature through s. 409.91211, F.S. The pilot program operates under an 1115 Research and Demonstration Waiver approved by the federal Centers for Medicare and Medicaid Services (CMS). The pilot program was initially authorized for Broward and Duval counties with expansion to Baker, Clay and Nassau the following year.

Under the current pilot program, most Medicaid recipients in the five pilot counties (Baker, Broward, Clay, Duval, and Nassau counties) are required to receive their benefits through either HMOs, PSNs, or a specialty plan. In addition to the minimum benefits package, plans may provide enhanced services such as over-the-counter benefits, preventive dental care for adults, and health and wellness benefits.

Medicaid Statewide Managed Medical Care Program

In 2011, the Legislature passed HB 7107, creating the Statewide Medicaid Managed Care (SMMC) Program as ch. 409, part IV, F.S. SMMC requires the AHCA to create an integrated managed care program for Medicaid enrollees that incorporates all of the minimum benefits, for the delivery of primary and acute care as well as long-term care services. SMMC has two components: the Long Term Care (LTC) Managed Care component and the Managed Medical Assistance (MMA) component.

To implement SMMC and receive federal Medicaid funding, the AHCA was required to seek federal authorization through two different Medicaid waivers from CMS. The first component authorized was the LTC Managed Care component's 1915(b) and (c) waiver. Approval was granted on February 1, 2013.

The LTC Managed Care component will serve Medicaid-eligible recipients who are also determined to require a nursing facility level of care. Medicaid recipients who qualify will receive all of their long-term care services from the long-term care managed care plan.

Implementation of the LTC Managed Care component started July 1, 2012, with completion expected by October 1, 2013. The AHCA released an Invitation to Negotiate (ITN) on June 29, 2012, and on January 15, 2013, notices of contract awards to managed care plans under that ITN were announced.

For the MMA component, the AHCA sought to modify the existing Medicaid Reform 1115 Demonstration waiver to expand the program statewide. The AHCA initiated the SMMC project in January 2012 and released a separate ITN to competitively procure managed care plans on a statewide basis on December 28, 2012. Bids were due to the AHCA on March 29, 2013, and awards are expected to be announced on September 16, 2013.

Plans can supplement the minimum benefits in their bids and offer enhanced options. The number of plans to be selected by region is prescribed under s. 409.974, F.S. Specialty plans that serve specific, targeted populations based on age, medical condition, and diagnosis are also included under SMMC. Under s. 409.967, F.S., accountability provisions for the managed care plans specify several conditions or requirements, including emergency care and physician reimbursement standards, access and credentialing requirements, encounter data submission guidelines, and grievance and resolutions.

Statewide implementation of SMMC is expected to be completed by October 1, 2014. Final approval of the necessary Medicaid waiver by the federal government has not yet been received; however, on February 20, 2013, the AHCA and the CMS reached an "Agreement in Principle" on the proposed plan.

Under SMMC, all persons meeting applicable eligibility requirements of Title XIX of the Social Security Act must be enrolled in a managed care plan. Medicaid recipients who (a) have other creditable care coverage, excluding Medicare, (b) reside in residential commitment facilities operated through the Department of Juvenile Justice, group care facilities operated by the DCF, and treatment facilities funded through DCF Substance Abuse and Mental Health Program; (c)

are eligible for refugee assistance; or (d) are residents of a developmental disability center, may voluntarily enroll in the SMMC program. If they elect not to enroll, they will be served through the Medicaid fee-for-service system.

Cover Florida and Florida Health Choices

In 2008, the Florida Legislature created two programs simultaneously to address the issue of Florida's uninsured: the Cover Florida Health Access Program and the Florida Health Choices Program.[11] The two programs offered two unique methods of addressing Florida's uninsured population.

Cover Florida Health Access Program
Cover Florida is designed to provide affordable health care options for uninsured residents between the ages of 19 and 64 and who met other criteria under s. 408.9091, F.S. The AHCA and the Office of Insurance Regulation (OIR) have joint responsibility for the program and were directed to issue an Invitation to Negotiate (ITN) to secure plans for the delivery of services by July 1 2008. An ITN was released July 2, 2008, and as a result of that ITN, two-year contracts were executed with two statewide plans and four regional plans.[12]

The Cover Florida plans are not subject to the Florida Insurance Code and ch. 641, F.S., relating to HMOs. Two plan options were required for development: plans with catastrophic coverage and plans without catastrophic coverage. Plans without catastrophic coverage are required to include other benefit options such as:[13]

- Incentives for routine preventive care;
- Office visits for diagnosis and treatment of illness or injury;
- Behavioral health services;
- Durable medical equipment and prosthetics; and,
- Diabetic supplies.

Plans that did include catastrophic coverage are required to include all of the benefits above, plus have options for these additional benefits:[14]

- Inpatient hospital stays;
- Hospital emergency care services;
- Urgent care services; and,
- Outpatient facility services, outpatient surgery, and outpatient diagnostic services.

All plans are guarantee-issue policies and are required to include prescription drug benefits. Plans can also place limits on services and cap benefits and copayments.

[11] *See* Chapter Law 2008-32.
[12] Agency for Health Care Administration, *Cover Florida Health Care Access Program Annual Report (March 2013), p. 1*, http://ahca.myflorida.com/MCHQ/Managed_Health_Care/CHMO/docs/CoverFLReport-Mar2013.pdf (last visited Mar. 22, 2013).
[13] *See* s. 409.9091(4)(6)(a).
[14] *See* s. 409.9091(4)(a)(7).

To be eligible, the enrollee must be:

- A resident of Florida;
- Between 19 and 64 years old;
- Not covered by private insurance or eligible for public insurance, unless eligibility for coverage lapses due to no longer meeting income or categorical requirements; and,
- Uninsured for at least the prior six months, with exceptions for persons who lose coverage within the past six months under certain conditions.

As of December 17, 2010, no insurers or HMOs offered any new policies under Cover Florida.[15] The six insurers selected by the state in 2009 to participate in Cover Florida ceased enrollment in 2011 due to lack of participation by both insurers and participants.[16] Currently, 1,997 enrollees participate in two plans and both plans will terminate those policies in 2014.[17]

Florida Health Choices Program (FHCP)
The FHCC is a private, non-profit, corporation under s. 408.910, F.S., and is led by a 15-member board of directors. The FHCP is designed as a single, centralized marketplace for the purchase of health products including, but not limited to, health insurance plans, HMO plans, prepaid services, and flexible spending accounts. Policies sold as part of the program are exempt from regulation under the Insurance Code and laws governing HMOs. The following entities are authorized to be eligible vendors:

- Insurers authorized under ch. 624, F.S.;
- HMOs authorized under ch. 641, F.S.;
- Prepaid health clinics licensed under ch. 641, part II, F.S.;
- Health care providers, including hospitals and other licensed health facilities, health care clinics, pharmacies, and other licensed health care providers;
- Provider organizations, including service networks, group practices, and professional associations; and,
- Corporate entities providing specific health services.

The FHCP is authorized to collect premiums and other payments from employers. The law further specifies who may participate as either an employer or an individual. Employers eligible to enroll include:[18]

- Employers that meet criteria established by the FHCP and elect to make their employees eligible;
- Fiscally constrained counties described in s. 218.67, F.S.;

- Municipalities having populations of fewer than 50,000 residents;
- School districts in fiscally constrained counties; or,
- Statutory rural hospitals.

Individuals eligible to participate include:[19]

- Individual employees of enrolled employers;
- State employees not eligible for state employee health benefits;
- State retirees; or,
- Medicaid participants who opt-out.

For phase one of Florida Health Choices' launch in 2013, the Marketplace will serve small businesses with 2 to 50 employees.[20] The initial list of vendors will include plans from Florida Blue, Florida Health Care Plans, Argus Dental, and Liberty Dental.[21] The pilot will last six months and then the FHCP will evaluate adding other services.[22]

The Patient Protection and Affordable Care Act (PPACA)

In March 2010, the Congress passed the PPACA.[23] One of the PPACA's key components requires states to expand Medicaid to a minimum eligibility threshold of 133 percent of the FPL, or as it is sometimes expressed, 138 percent of the FPL when considering the automatic five-percent income disregard, effective January 1, 2014.[24] While the costs for the newly eligible under this expansion would be initially funded at 100 percent federal funds for the first three calendar years, states would gradually be required to pay a share of the costs, starting at five percent in calendar year 2017 before leveling off at 10 percent in 2020.[25] Under the PPACA as enacted, states refusing to expand to the new eligibility threshold faced the loss of *all* of their federal Medicaid funding.[26]

Florida, along with 25 other states challenged the constitutionality of the law. In *NFIB v. Sebelius*, the U.S. Supreme Court found the enforcement provisions of the Medicaid expansion unconstitutional.[27] As a result, states could voluntarily expand their Medicaid populations to 138 percent of the FPL and receive the enhanced federal match, but could not be required to do so for the population defined as newly eligible in the law, which was interpreted by the federal Department of Health and Human Services (HHS) to be only the adult population (childless

adults aged 19 - 64).[28] States are unable to receive the enhanced federal matching funds for partial Medicaid expansions.[29]

While finding the adult expansion of Medicaid optional, subsequent federal guidance has also emphasized state flexibility in how states expand coverage to those defined as newly eligible. In a letter to the National Governors Association January 14, 2013, HHS Secretary Kathleen Sebelius reminded states of their ability to design flexible benefit packages without the need for waivers.[30] This letter had been preceded by an HHS document entitled "Frequently Asked Questions on Exchange, Market Reforms and Medicaid" on December 10, 2012, that discussed promotion of personal responsibility, wellness benefits, and state flexibility to design benefits.[31]

A state Medicaid director letter on November 20, 2012 (ACA #21), further addressed state options for the adult Medicaid expansion group and the alternative benefit plans available under Section 1937 of the Social Security Act.[32] Under Section 1937, state Medicaid programs have the option of providing certain groups with benchmark or benchmark-equivalent coverage based on four products: (1) the standard Blue Cross/Blue Shield Preferred Provider option offered to federal employees; (2) state employee coverage that is generally offered to all state employees; (3) the commercial HMO with the largest insured, non-Medicaid enrollment in the state or (4) coverage approved by the HHS secretary.[33] For children under the age of 21, the coverage must include the Early and Periodic Screening, Diagnostic and Treatment Service (EPSDT). Other aspects of the essential health benefit requirements of the PPACA, as discussed further below, may also be applicable, depending on the benefit package utilized.

In addition to the Medicaid expansion component, the PPACA imposes a mandate on individuals to buy insurance, or pay a penalty, which was interpreted by the U.S. Supreme Court as a tax. Currently, many uninsured individuals are eligible for Medicaid or Kidcare coverage but are not enrolled. The existence of the federal mandate to purchase insurance may result in some indeterminate number of current eligibles coming forward and enrolling in Medicaid who had previously not enrolled. Their participation will result in increased costs and would not likely have occurred without the catalyst of the federal legislation.

To obtain insurance coverage, the PPACA authorized the state-based American Health Benefit exchanges and Small Business Health Options Program (SHOP) exchanges. These exchanges are to be administered by governmental agencies or non-profit organizations and be ready to accept

[33] *See supra* note 32, at 2.

applications for coverage beginning October 1, 2013, for January 1, 2014, coverage dates. The exchanges, at a minimum, must:[34]

- Certify, re-certify and de-certify plans participating on the exchange;
- Operate a toll-free hotline;
- Maintain a website;
- Provide plan information and plan benefit options;
- Interact with the state's Medicaid and CHIP programs and provide information on eligibility and determination of eligibility for these programs;
- Certify individuals who gain exemptions from the individual responsibility requirement; and
- Establish a navigator program.

The initial guidance from the HHS in November 2010 set forward a number of principles and priorities for the exchanges. Further guidance was issued on May 16, 2012, detailing the proposed operations of federally facilitated exchanges for those states that elected not to implement a state-based exchange. On November 16, 2012, Florida Governor Rick Scott notified HHS that Florida had too many unanswered questions to commit to a state-based exchange under the PPACA for the first enrollment period on January 1, 2014.[35]

The PPACA also includes a tax penalty for those individuals that do not have qualifying health insurance coverage beginning January 1, 2014. The penalty is the greater of $695 per year, up to a maximum of three times that amount per family or 2.5% of household income. The penalty, however, is phased-in and exemptions apply.

The following persons are exempt from the PPACA's requirement to maintain coverage:[36]

- Individuals with a religious objection;
- Individuals not lawfully present; and
- Incarcerated individuals.

The following persons are exempt from the PPACA's penalty for failure to maintain coverage:[37]

- Individuals who cannot afford coverage, i.e. those whose required premium contributions exceed eight percent of household income;
- Individuals with income below the income tax filing threshold;
- American Indians;
- Individuals without coverage for less than three months; and

- Individuals determined by the HHS secretary to have suffered a hardship with respect to the capability to obtain coverage under a qualified plan.

Qualifying coverage may be obtained through an employer, the federal or state exchanges created under PPACA, or private individual or group coverage meeting the minimum essential benefits coverage standard.

Employers with more than 50 full time employees also share a financial responsibility under PPACA. Employers with more than 50 full-time employees that do not offer coverage meeting the essential benefits coverage standard and who have at least one employee receive a premium tax credit will be assessed a fee of $2,000 per full time employee, after the 30th employee.[38] If an employer does offer coverage and an employee receives a premium tax credit, the employer is assessed the lesser of $3,000 per employee receiving the credit or $2,000 per each employee after the 30th employee.[39]

Premium credits and other cost sharing subsidies are available to United States citizens and legal immigrants within certain income limits for coverage purchased through the exchanges. Legal immigrants with incomes at or below 100 percent of the FPL who are not eligible for Medicaid during their first five years are eligible for premium credits.[40] Premium credits are set on a sliding scale based on the percent of FPL for the household and reduce the out-of-pocket costs incurred by individuals and families.

The amount for premium tax credits, as a percentage of income, are set in section 36B of the Internal Revenue Code follows[41]:

Premium Tax Credits	
Income Range	**Premium Percentage Range** (% of income)
Up to 133% FPL	2%
133% to 150%	3% - 4%
150% to 200%	4% - 6.3%
200% to 250%	6.3% - 8.05%
250% to 300%	8.05% - 9.5%
300% to 400%	9.5%

Subsidies for cost sharing are also applicable for those between 100 percent of the FPL and 400 percent of the FPL.[42] For 2013, 100 percent of the FPL equates to the following by family size:[43]

[38] Kaiser Family Foundation, *Summary of New Health Reform Law,* Last Modified April 15, 2011, http://www.kff.org/healthreform/upload/8061.pdf (last viewed Mar. 16, 2013).
[39] Kaiser Family Foundation, *Summary of New Health Reform Law,* Last Modified April 15, 2011, http://www.kff.org/healthreform/upload/8061.pdf (last viewed Mar. 16, 2013).
[40] 26 U.S.C. s. 36B(c).
[41] 26 U.S.C. s. 36B(c).
[42] Kaiser Family Foundation, *Summary of New Health Reform Law,* Last Modified April 15, 2011, http://www.kff.org/healthreform/upload/8061.pdf (last viewed Mar. 16, 2013).

2013 Federal Poverty Guidelines – 100% FPL	
Family Size	Maximum Annual Income
1	$11,490
2	$15,510
3	$19,530
4	$23,550

The cost sharing credits reduce the out-of-pocket amounts incurred by individuals on essential health benefits and will also impact the actuarial value of a health plan. Actuarial value reflects the average share of covered benefits paid by the insurer or health plan.[44] For example, if the actuarial value of a plan is 90 percent, the health plan is paying 90 percent of the costs and the enrollee 10 percent. Under the PPACA, the maximum amount of cost sharing under this component range from 94 percent for those between 100 percent to 150 percent of the FPL, to 70 percent for those between 250 percent and 400 percent of the FPL.[45]

Select Committee on Patient Protection and Affordable Care Act

In December 2012, Florida Senate President Don Gaetz formed the Select Committee on the PPACA to launch a comprehensive assessment on the impact of the law on Florida, evaluate the state's options under the law, and to make recommendations to the full Senate membership on any actions necessary to mitigate cost increases, preserve a competitive insurance market, and protect Florida's consumers.[46] The Select Committee received public testimony, expert presentations, and staff reports over nine meetings before it developed three specific recommendations relating to the development of a health care exchange, coverage for certain state employees, and the expansion of Medicaid. On Medicaid, the Select Committee voted 7-4 to recommend to the full Senate to not expand Medicaid under the current state plan or pending waivers.[47] Following that vote, two alternative proposals for coverage of the population under 138 percent of the FPL that utilize the private insurance market were put forward for further discussion and debate.[48]

III. Effect of Proposed Changes:

Section 1 revises s. 409.910. F.S., and expands the eligibility and participation guidelines for the Florida Health Choices program to allow all individuals and employers that meet criteria established by the FHCC to participate in the program. The bill clarifies that products sold in the marketplace are not limited to those specifically listed or to risk-bearing products.

The bill removes a specific time standard for open enrollment periods to give the program and employers more flexibility. The bill deletes product pricing guidelines that were in conflict with federal law. The bill also provides that standard forms, website designs, or marketing communications developed by FHC or any vendor participating in the FHC marketplace are not subject to the Florida Insurance Code.

Section 2 creates s. 408.9105, F.S., and a new program called Health Choice Plus (HCP). The HCP program is managed by the FHCC under its existing infrastructure and governance and provides a benefit program to uninsured Floridians under 100 percent of the FPL. The bill establishes health benefit accounts for enrollees with financial contributions from the enrollee, the state (subject to funding in the GAA), and other sources such as the enrollee's employer; and provides a marketplace for enrollees to purchase health care goods and services utilizing funds from health benefits account. Examples of products that may be purchased include, but are not limited to, discount medical plans, limited benefit plans, health flex plans, individual health insurance plans, prepaid health clinic plans, bundled services, or other prepaid health care coverage.

The bill provides specific criteria for initial eligibility for HCP and conditions for continued enrollment. The bill requires that an enrolled individual meet the following conditions:

- Be a resident of Florida;
- Be between the ages of 19 and 64;
- Have a modified adjusted gross income of less than 100 percent of the FPL based on the individual's last tax return or other documentation;
- Be a United States citizen or a lawful permanent resident;
- Not be eligible for Medicaid;
- Not be eligible for employer sponsored coverage (with some exceptions); and,
- Meet criteria based on whether the enrollee meets the definition of a childless adult or parent/relative caretaker.

The bill requires HCP to establish guidelines for financial participation by enrollees. At a minimum, an enrollee is required to contribute $20 per month towards his or her health benefit account. The enrollee contribution amount may be adjusted annually through the GAA. The amount paid into the account by the state will be determined by the FHCC based on the availability of state, local, or federal funding. The bill provides that the state contribution may not exceed $10 per enrollee per month; however, this amount may be adjusted annually in the GAA. HCP is also directed to implement an employer based contribution option. An employer may contribute towards an employee's health benefits account, including making the entire payment amount, at any time.

The bill directs HCP to develop and maintain an education and public outreach campaign and to provide a secure website that provides information and facilitates the purchase of goods and services. Information must also be provided about other insurance affordability programs.

The bill requires that HCP must hold at least one open enrollment period per year, subject to available funding. Eligibility must be determined utilizing electronic means to the fullest extent possible. Once the program reaches its capacity, enrollment will cease. Enrollment may occur through the Florida Health Choices portal, a referral from the DCF, the Florida Healthy Kids Corporation, or an exchange as defined under the PPACA.

Once eligibility is confirmed, the bill directs the FHCC to determine the amount of funds that will be deposited into each enrollee's account based upon the availability of funds and other factors. Enrollees must make a financial contribution to their health benefits account in order to maintain enrollment and the FHCC is required to establish disenrollment criteria for non-payment of those minimum contributions. A maximum waiting period of one month prior to reinstatement to HCP for non-payment of any required payment may be imposed.

The bill requires the establishment of an optional incentives program for the achievement of healthy living goals. The program will establish annual healthy living goals and provide supplemental payments into an enrollee's health benefits account for meeting those goals, subject to the availability of funds.

The FHCC must establish the healthy living goals each fiscal year and publish the goals, procedures, and timeframes for the achievement of the goals by July 1 and distribute to new enrollees within 30 calendar days after enrollment. The bill directs HCP to publish goals for the 2014 calendar year by October 1, 2013. Bonus funds may accumulate in an enrollee's account until program termination.

The bill provides that continued enrollment in HCP and receipt of state contributions on the enrollee's behalf are contingent upon the enrollee obtaining a health assessment from a county health department, federally qualified health center, or other approved health care provider within the first three months of enrollment.

The following additional criteria apply based on the enrollee's category of eligibility:

Criteria	**Childless Adult**	**Parent\Relative Caretaker**
Any dependent child in the household must be enrolled in Medicaid or CHIP, if eligible		X
Proof of 20 hours of employment or effort to seek employment; or, in lieu of employment volunteer hours at school or non-profit or enrollment as full-time student	X Volunteer hours - 20	X Volunteer hours – 10
Health Assessment in first 3 months	X	X
One preventive visit in first 6 months, repeat every 18 months thereafter	X	X

Failure to meet the ongoing eligibility criteria will result in the enrollee's disenrollment. One 30-day extension may be granted by HCP to comply. If disenrolled, the enrollee may not re-apply for coverage until the next open enrollment period or 90 days, whichever occurs later.

Funds deposited into an enrollee's health benefits account may be used by the enrollee to offset health care costs or to purchase other health care services offered in the marketplace. Except for certain supplemental funds, funds deposited in an enrollee's account belong to the enrollee and are available for health care related expenditures. The bill provides that the optional bonus payments will be paid into the enrollee's account at the end of the quarter in which the goal was completed.

The bill requires the FHCC to establish a refund process for enrollees who request the closure of their health benefits accounts and the return of any unspent individual contributions. Enrollees may only be refunded funds that the enrollee or employer has contributed to their health benefits account. All other state funds revert to the FHCC.

HCP is authorized to accept funds from employers to deposit into their employees' health benefits accounts, when not in conflict with any other provisions of the bill. The FHCC is also permitted to accept state and federal funds or to seek other grants to help administer HCP. An assessment on vendors may be utilized to fund administration.

The bill designates the coverage as a non-entitlement and affirms that a cause of action does not arise against the state, a local governmental entity, any other political subdivision of the state, or the FHCC or its board of directors, for failure to make coverage available to eligible persons or for the discontinuation of any coverage under HCP.

The bill requires the FHCC to include information about the program into its regular annual report. A separate evaluation of HCP is also required and is due to the governor and Legislature by January 1, 2016.

A program sunset clause is provided to repeal the program effective July 1, 2016, unless saved from repeal through re-enactment by the Legislature.

Section 3 provides an appropriation of $15,275,000 from the General Revenue Fund to the Agency for Health Care Administration beginning in the 2013-2014 fiscal year to fund the Health Choice Plus program within Florida Health Choices, Inc. and to fund any necessary administrative costs for implementing and operating the program.

Section 4 provides an effective date of July 1, 2013.

Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

IV. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The bill contemplates the FHCC contracting with private providers of health care services and products to deliver health care benefits to an additional population of currently uninsured individuals who may or may not be seeking health care services now. Physicians, hospitals, and other health care providers may be impacted by additional individuals seeking health care coverage and there may be a higher demand for such services once implemented.

Additionally, those safety net and other providers who serve this same population and are not receiving compensation or are receiving reduced compensation for those services may have an additional avenue for revenue.

C. Government Sector Impact:

The bill requires enrollees to receive certain health assessments from county health departments, federally qualified health centers, or other approved health care providers as a condition of continued enrollment. For those county health departments with primary care services, there could be an increased demand for services as individuals seek to comply with this requirement.

In addition to the increased demand for services, the program includes state contributions to the health benefit accounts on a monthly basis and incentives for achievement on optional healthy living performance goals based on an initial enrollment of 60,000 members for 12 months. No federal funds are expected for this program.

The following is the estimated state fiscal impact for 60,000 members over 12 months:

		PMPM Enrollee	PMPM State	Annual State PMPM	TOTAL
Health Benefits Account Funds		$20.00	$10.00	$120.00	$7,200,000
Incentives $25 Each Healthy Living Goal					
100% Achieve 2	$3,000,000				$3,000,000
25% Achieve 3	$1,125,000				$1,125,000
5% Achieve 4	$300,000				$300,000
2% Achieve 5	$150,000				$150,000
Administration (FHC)	$1,500,000				$1,500,000
Direct Services (Community and safety net provider supplement for HBAs)	$2,000,000				$2,000,000
Grand Total:					$15,275,000

V. Technical Deficiencies:

None.

VI. Related Issues:

The FHCC will be receiving and reviewing medical records and personal health information of enrollees in the HCP. The exemption from public records under s. 408.910(14) F.S., only applies to the FHCC and enrollees and participants of the Florida Health Choices program. An exemption for the HCP would be appropriate to ensure that medical records and personal information of enrollees and applicants to the program would remain confidential and exempt from s. 119.07(1), F.S. and s. 24(a), Art. 1 of the State Constitution.

VII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS by Appropriations Subcommittee on Health and Human Services on April 17, 2013:
The committee substitute represents the incorporation of one strike-all amendment and includes the following changes:

- Modifies s. 409.910, F.S., to expand eligibility criteria for individuals and employers who participate in the Florida Health Choices Program and meet other program criteria established by the Florida Health Choices Corporation;
- Revises product pricing criteria to remove elements in conflict with the federal Patient Protection and Affordable Care Act;
- Clarifies that products sold in the FHC marketplace are not limited to those specifically listed or to risk-bearing products;

- Provides the Florida Health Choices Corporation with flexibility in establishing the length of open enrollment periods;
- Transfers a provision that provides that standard forms, website designs, or marketing communications developed by FHC or any vendor participating in the FHC marketplace are not subject to the Florida Insurance Code from the Health Choice Plus section to the Florida Health Choice Program statute section;
- Deletes language that indicates goods and services purchased under the Health Choice Plus Program are not insurance as some enrollees may utilize their health benefits funds for the purchase of insurance coverage;
- Adds prepaid health clinic services to the list of possible goods and services that enrollees may purchase with funds from their health benefits accounts; and,
- Provides an appropriation of $15,275,000 from the General Revenue Fund for the 2013-2014 fiscal year.

B. Amendments:

None.

812796

576-04565-13

Proposed Committee Substitute by the Committee on Appropriations
(Appropriations Subcommittee on Health and Human Services)

A bill to be entitled

An act relating to the Health Choice Plus Program; amending s. 408.910, F.S.; conforming provisions to changes made by the act; providing that the Florida Insurance Code is not applicable in certain circumstances; creating s. 408.9105, F.S.; creating the Health Choice Plus Program; providing legislative intent; providing requirements of the program; providing definitions; providing eligibility requirements; providing for enrollment in the program; providing requirements and procedures for the deposit and use of funds in a health benefits account; providing that the marketplace is encouraged to use existing community programs and partnerships to deliver services and to include traditional safety net providers for the delivery of services to enrollees; requiring Florida Health Choices, Inc., to establish a refund process; authorizing the corporation to accept funds from various sources to deposit into health benefits accounts, subsidize the costs of coverage, and administer and support the program; requiring the corporation to manage the health benefits accounts and provide the marketplace of options which an enrollee in the program may use; providing for payment for achieving healthy living performance goals; requiring the program to post on its website a list of optional healthy living performance goals and to establish a

812796

576-04565-13

procedure for documentation, achievement, and payment regarding the healthy living performance goals; providing that coverage under the program is not an entitlement; prohibiting a cause of action against certain entities under certain circumstances; requiring the corporation to submit to the Governor and the Legislature information about the program in its annual report and an evaluation of the effectiveness of the program; providing for a program review and repeal date; providing an appropriation; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraphs (a), (b), (e), and (f) of subsection (4) and paragraph (b) of subsection (7) of section 408.910, Florida Statutes, are amended, and paragraph (c) is added to subsection (10) of that section, to read

408.910 Florida Health Choices Program.—

(4) ELIGIBILITY AND PARTICIPATION.—Participation in the program is voluntary and shall be available to employers, individuals, vendors, and health insurance agents as specified in this subsection.

(a) Employers eligible to enroll in the program include those employers:

~~1. Employers~~ that meet criteria established by the corporation and elect to make their employees eligible through the program.

~~2. Fiscally constrained counties described in s. 218.67.~~

~~3. Municipalities having populations of fewer than 50,000 residents.~~

~~4. School districts in fiscally constrained counties.~~

~~5. Statutory rural hospitals.~~

(b) Individuals eligible to participate in the program include:

1. Individual employees of enrolled employers.

2. Other individuals that meet criteria established by the corporation ~~State employees not eligible for state employee health benefits~~.

~~3. State retirees.~~

~~4. Medicaid participants who opt out.~~

(e) Eligible individuals may participate in the program voluntarily ~~continue participation in the program regardless of subsequent changes in job status or Medicaid eligibility~~. Individuals who join the program may participate by complying with the procedures established by the corporation. These procedures must include, but are not limited to:

1. Submission of required information.

2. Authorization for payroll deduction.

3. Compliance with federal tax requirements.

4. Arrangements for payment ~~in the event of job changes~~.

5. Selection of products and services.

(f) Vendors who choose to participate in the program may enroll by complying with the procedures established by the corporation. These procedures may include, but are not limited to:

1. Submission of required information, including a complete description of the coverage, services, provider network, payment

restrictions, and other requirements of each product offered through the program.

2. Execution of an agreement to comply with requirements established by the corporation.

3. Execution of an agreement that prohibits refusal to sell any offered ~~non-risk-bearing~~ product or service to a participant who elects to buy it.

4. Establishment of product prices based on applicable criteria ~~age, gender, and location of the individual participant, which may include medical underwriting~~.

5. Arrangements for receiving payment for enrolled participants.

6. Participation in ongoing reporting processes established by the corporation.

7. Compliance with grievance procedures established by the corporation.

(7) THE MARKETPLACE PROCESS.—The program shall provide a single, centralized market for purchase of health insurance, health maintenance contracts, and other health products and services. Purchases may be made by participating individuals over the Internet or through the services of a participating health insurance agent. Information about each product and service available through the program shall be made available through printed material and an interactive Internet website. A participant needing personal assistance to select products and services shall be referred to a participating agent in his or her area.

(b) Initial selection of products and services must be made by an individual participant within the applicable open

812796

576-04565-13

enrollment period ~~60 days after the date the individual's employer qualified for participation~~. ~~An individual who fails to enroll in products and services by the end of this period is limited to participation in flexible spending account services until the next annual enrollment period.~~

(10) EXEMPTIONS.—

(c) Any standard forms, website design, or marketing communication developed by the corporation and used by the corporation, or any vendor that meets the requirements of s. 408.910(4)(f) is not subject to the Florida Insurance Code, as established in s. 624.01.

Section 2. Section 408.9105, Florida Statutes, is created to read:

408.9105 Health Choice Plus Program.—

(1) LEGISLATIVE INTENT.—The Legislature recognizes that there are more than 600,000 uninsured residents in this state who have incomes at or below 100 percent of the federal poverty level. Many insurance options are not affordable, and the Legislature intends to provide a benefit program to those individuals who seek assistance with coverage and who assume individual responsibility for their own health care needs. It is therefore the intent of the Legislature to expand the services provided by the Florida Health Choices Program and begin the phase-in of the Health Choice Plus Program starting July 1, 2013. The Health Choice Plus Program shall:

(a) Use the existing infrastructure and governance of Florida Health Choices, Inc., to manage the program described in this section.

(b) Offer goods and services to individuals who are between

812796

576-04565-13

19 to 64 years of age, inclusive.

(c) Establish guidelines for financial participation in the program which allow for enrollees and others to contribute toward a health benefits account.

1. An enrollee shall contribute at least $20 per month toward the health benefits account. This contribution amount may be adjusted annually in the General Appropriations Act.

2. The level of benefit paid into an enrollee's account using state funds is determined by the corporation based upon the availability of state, local, and federal funds. The amount may not exceed $10 per individual per month. This amount may be adjusted annually in the General Appropriations Act.

(d) Implement an employer-based contribution option.

(e) Develop and maintain an education and public outreach campaign for the Health Choice Plus Program.

(f) Provide a secure website to facilitate the purchase of goods and services and to provide public information about the program. The website must also provide information about the availability of insurance affordability programs targeted at this population.

(g) Establish an incentive program that rewards enrollees for achievements in reaching healthy living goals.

(2) DEFINITIONS.—As used in this section, the term:

(a) "CHIP" means Children's Health Insurance Program as authorized under Title XXI of the Social Security Act.

(b) "Corporation" means Florida Health Choices, Inc., as established under s. 408.910.

(c) "Corporation's marketplace" means the single, centralized market established by the corporation which

facilitates the purchase of products made available in the marketplace.

(d) "Enrollee" means an individual who participates in or receives benefits under the Health Choice Plus Program.

(e) "Goods and services" means the individual products offered for sale to an enrollee on the corporation's marketplace or other health care-related items that may be purchased by an enrollee in the private market. An enrollee may purchase these products using funds accumulated in his or her health benefits account.

(f) "Health benefits account" means the account established for an enrollee at the corporation into which funds may be deposited by the state, the enrollee, other individuals, or organizations for the purchase of health care goods and services on the enrollee's behalf.

(g) "Lawful permanent resident" means a non-United States citizen who resides in the United States under legally recognized and lawfully recorded permanent residence as an immigrant. This individual may also be known as a permanent resident alien.

(h) "Parent" or "caretaker relative" means an individual who is a relative that has primary custody or legal guardianship of a dependent child and provides the primary care and supervision of that dependent child in the same household. A caretaker relative must be related to the dependent child by blood, marriage, or adoption within the fifth degree of kinship.

(i) "Patient Protection and Affordable Care Act" or "PPACA" means the federal law enacted as Pub. L. No. 111-148, as further amended by the federal Health Care and Education Reconciliation

Act of 2010, Pub. L. No. 111-152, and any amendments.

(j) "Program" means the Health Choice Plus Program established under this section.

(k) "Vendor" means an entity that meets the requirements under s. 408.910(4)(d) and is accepted by the corporation.

(3) ELIGIBILITY.—

(a) To be eligible for the Health Choice Plus Program, an individual must be a resident of this state and meet all of the following criteria:

1. Be between 19 and 64 years of age, inclusive.

2. Have a modified adjusted gross income that does not exceed 100 percent of the federal poverty level based on the individual's most recent federal tax return, or if the individual did not file a tax return, the individual's most recent monthly income.

3. Be a United States citizen or a lawful permanent resident.

4. Be ineligible for Medicaid.

5. Be ineligible for employer-sponsored insurance coverage. If the enrollee is eligible for employer-sponsored coverage but the cost of that coverage for the enrollee's share for individual coverage would exceed 5 percent of the enrollee's total modified adjusted gross household income or the enrollee's share of family coverage would exceed 5 percent of enrollee's total modified adjusted gross household income, the enrollee is not considered eligible for employer-sponsored coverage for purposes of this section.

6. Not be enrolled in other coverage that meets the definition of essential benefits coverage under PPACA.

(b) In addition to the requirements in paragraph (a), an enrollee must meet the following categorical requirements in order to maintain enrollment in the program:

1. For an enrollee who is also a parent or a caretaker relative, the enrollee must do all of the following:

a. Maintain enrollment in Medicaid or CHIP for any dependent child in the household who is eligible for Medicaid or CHIP and who must be enrolled in Medicaid or CHIP throughout the enrollee's participation in the Health Choice Plus Program.

b. Complete a health assessment within the first 3 months after enrollment at a county health department, federally qualified health center, or other approved health care provider.

c. Schedule and keep at least one preventive visit with a primary care provider within 6 months after enrollment and repeat the preventive visit at least once every 18 months thereafter.

d. Provide proof of employment for at least 20 hours a week or proof of efforts made to seek employment. In lieu of employment, the enrollee may provide proof of volunteering for at least 10 hours a month at a school or at a nonprofit organization or enrollment as a full-time student at an accredited educational institution. Exceptions to this requirement may be made on a case-by-case basis for medical conditions for an enrollee or if the enrollee is the primary caretaker for a family member who has a chronic and severe medical condition that requires a minimum of 40 hours a week of care.

2. For an enrollee who is also a childless adult, the enrollee must do all of the following:

a. Provide proof of employment for at least 20 hours a week or proof of efforts made to seek employment. In lieu of employment, the enrollee may provide proof of volunteering for at least 20 hours a month at a school or at a nonprofit organization or enrollment as a full-time student at an accredited educational institution. Exceptions to this requirement may be made on a case-by-case basis for medical conditions for the enrollee or if the enrollee is the primary caretaker for a family member who has a chronic and severe medical condition that requires a minimum of 40 hours a week of care.

b. Complete a health assessment within the first 3 months after enrollment at a county health department, federally qualified health center, or other approved health care provider.

c. Schedule and keep at least one preventive visit with a primary care provider within the first 6 months after enrollment and repeat the preventive visit at least once every 18 months thereafter.

If the enrollee fails to meet the requirements specified in this subsection, the enrollee is disenrolled from the program at the end of the month in which the enrollee fails to meet the requirements. The enrollee may receive one 30-day extension to comply before cancellation of coverage. If an enrollee's coverage is canceled, the enrollee may not reapply for coverage until the next open enrollment period or 90 days after cancellation of coverage occurs, whichever occurs later. The individual's reenrollment is subject to available funding.

(4) ENROLLMENT.—

812796

576-04565-13

(a) Enrollment in the Health Choice Plus Program may occur through the portal of the Florida Health Choices Program, a referral process from the Department of Children and Families, the Florida Healthy Kids Corporation, or the exchange as defined by the federal Patient Protection and Affordable Care Act.

(b) Subject to available funding, the corporation shall establish at least one open enrollment period each year. When the program is full based on available funding, enrollment must cease.

(c) Eligibility is determined by using electronic means to the fullest extent practicable before requesting any written documentation from an applicant.

(5) HEALTH BENEFITS ACCOUNT.—

(a) A health benefits account is established for each enrollee upon confirmation of eligibility in the program. The corporation shall determine the deposit amount and frequency of deposits based on the availability of funds, the number of enrollees, and other factors.

(b) An enrollee shall make a financial contribution toward his or her own health benefits account in order to maintain enrollment in accordance with paragraph (1)(c).

1. The corporation shall establish disenrollment criteria for failure to pay the required minimum contribution.

2. The disenrollment criteria must include waiting periods of not more than 1 month before reinstatement to the program if the enrollee is still eligible and has paid all required financial obligations.

3. The enrollee's employer may contribute toward an employee's health benefits account under the program, including

812796

576-04565-13

making the enrollee's required contribution, in whole or in part, to the enrollee's health benefits account at any time.

(c) Subject to appropriations available for this specific purpose, the corporation shall establish a procedure for the deposit of supplemental or bonus funds into an enrollee's health benefits account if certain healthy living performance goals are achieved. These goals must be established no later than July 1 in each fiscal year and distributed to all enrollees, published on the corporation's website, and distributed to new enrollees within 30 calendar days after enrollment. For the 2014 calendar year, the goals must be established no later than October 1, 2013.

1. An enrollee may use funds deposited in a health benefits account to offset other health care costs or to purchase other products and services offered by the marketplace, subject to guidelines established by the corporation and in accordance with federal law.

2. Bonus funds may accumulate in the enrollee's health benefits account for the duration of the program and must automatically expire and return to the corporation upon the termination of the program.

(d) The marketplace is encouraged to use existing community programs and partnerships to deliver services and to include traditional safety net providers for the delivery of services to enrollees, including, but not limited to, rural health clinics, federally qualified health centers, county health departments, emergency room diversion programs, and community mental health centers. A health care entity that receives state funding must participate in the Health Choice Plus Program and offer services

812796

576-04565-13

or products through the marketplace or to enrollees, as appropriate. An enrollee may be required to make nominal copayments to providers for nonpreventive services. The corporation may establish the amount of the copayments when applicable.

(e) Except for supplemental funds described under paragraph (c), funds deposited in a health benefits account belong to the enrollee when deposited and are available for health-care-related expenditures, including, but not limited to, physician's fees, hospital costs, prescriptions, insurance premium payments, copayments, and coinsurance. The corporation shall establish a process or contract with another entity for the management of the funds. The process must ensure the timely distribution and the appropriate expenditure of the state's contributions.

(f) The corporation shall establish a refund process for an enrollee who requests the closure of a health benefits account and the return of any unspent individual contributions. The enrollee may be refunded only those funds that the enrollee or employer has contributed to his or her health benefits account. All other state funds in the enrollee's health benefits account revert to the corporation.

(6) FUNDING.—

(a) The corporation may accept funds from an employer to deposit into an enrollee's health benefits account to supplement funds if such a deposit is not in conflict with other provisions of this section.

(b) The corporation may accept state and federal funds to further subsidize the costs of coverage and to administer the program.

812796

576-04565-13

(c) The corporation shall seek other grants and donations to support the program.

(d) An assessment on vendors that participate in the marketplace may be used to fund the administration of the program.

(7) SERVICES.—The corporation shall manage the health benefits accounts and provide a marketplace of options from which an enrollee may also use his or her health benefits account to purchase individual services and products, including, but not limited to, discount medical plans, limited benefit plans, health flex plans, individual health insurance plans, prepaid health clinic plans, bundled services, or other prepaid health care coverage.

(8) HEALTHY LIVING PERFORMANCE GOALS AND PAYMENT.—

(a) To the extent that funds are made available for this purpose, an enrollee is rewarded for achieving a healthy lifestyle and using preventive health care services appropriately.

(b) The program shall post on its website, by July 1 of each fiscal year, a list of optional healthy living performance goals and the proposed incentives for achievement of each goal. The corporation shall establish a procedure for the documentation of such goals, timeframes for achievement of the optional goals, and the payment of supplemental amounts into an enrollee's health benefits account, subject to available funding.

(c) Bonus payments for achieving a healthy living performance goal shall be paid into an enrollee's health benefits account at the end of the quarter in which the goal is

achieved. The amount of the payment is based upon the schedule posted by the program on July 1 of that fiscal year.

(9) LIABILITY.—Coverage under the Health Choice Plus Program is not an entitlement, and a cause of action does not arise against the state, a local governmental entity, any other political subdivision of the state, or the corporation or its board of directors for failure to make coverage under this section available to an eligible person or for discontinuation of any coverage.

(10) PROGRAM EVALUATION.—The corporation shall include information about the Health Choice Plus Program in its annual report under s. 408.910. The corporation shall complete and submit by January 1, 2016, a separate independent evaluation of the effectiveness of the Health Choice Plus Program to the Governor, the President of the Senate, and the Speaker of the House of Representatives.

(11) PROGRAM REVIEW.—The Health Choice Plus Program is subject to repeal on July 1, 2016, unless reviewed and saved from repeal through reenactment by the Legislature.

Section 3. The sum of $15,275,000 from the General Revenue Fund is appropriated to the Agency for Health Care Administration beginning in the 2013-2014 fiscal year to provide funding for the Health Choice Plus Program within Florida Health Choices, Inc., and to fund the corporation's administrative costs necessary for implementing and operating the program.

Section 4. This act shall take effect July 1, 2013.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 1844
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Health and Human Services) and Health Policy Committee
SUBJECT:	Health Choice Plus Program
DATE:	April 25, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Lloyd	Stovall		**HP SPB 7144 as introduced**
2.	Brown	Pigott	AHS	**Fav/CS**
3.	Brown	Hansen	AP	**Fav/CS**
4.

6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/SB 1844 expands the current Florida Health Choices Program (FHCP) eligibility guidelines by modifying the participation criteria for individuals and employers as long as other program criteria are met. The bill clarifies that products sold in the FHC marketplace are not limited to those specifically listed or to risk-bearing products. The bill gives the Florida Health Choices Corporation (FHCC) more flexibility in setting open enrollment periods and removes product pricing guidelines that are in conflict with the provisions of federal law.[1]

The bill includes an appropriation of $15,275,000 in general revenue (GR) for Fiscal Year 2013-2014.

The bill also creates a new health care services program, the Health Choice Plus (HCP) program within the FHCC. The FHCC will phase-in the HCP program and be responsible for its ongoing

[1] Currently, s. 408.910(4)(f)4., F.S. allows for the establishment of product prices based on age, gender and location. The Patient Protection and Affordable Care Act (PPACA) prohibits the pricing of health insurance products based on gender and only allows limited pricing differences based on age. *Pub. Law No. 111-148, H.R. 3590, 111th Cong. (Mar. 23, 2010).*

oversight, including the delivery of services, management of contracts, and collection of enrollee or employer contributions.

The HCP is created as an alternative health benefits program for uninsured, low income Floridians with incomes at or below 100 percent of the federal poverty level (FPL) who meet other designated eligibility criteria. Enrollees and the state will jointly fund health benefits accounts, to be managed by the FHCC, to the extent funds are appropriated annually in the General Appropriations Act (GAA). Enrollees may utilize funds in those accounts to purchase a range of health care products from the FHCC's marketplace or to offset other out of pocket health care costs. Enrollees must contribute at least $20 per month and the state will contribute no more than $10 per month. These amounts may be adjusted annually in the GAA.

Continued enrollment in HCP is contingent upon several factors, including but not limited to, an enrollee health assessment within the first three months of enrollment, continued payment of the monthly contribution requirement, and the enrollee's employment or full-time school enrollment. Exceptions to full-time employment may be made for an enrollee's medical condition or where the enrollee is the primary caregiver for a relative with a chronic medical condition that requires at least 40 hours of care per week. Supplemental payments may also be deposited to an enrollee's health benefits account for successful achievement of optional healthy living goals, subject to a specific appropriation for this purpose. Total enrollment in the program is limited based on the availability of funds.

The HCP program is subject to automatic repeal on July 1, 2016, unless reenacted by the Legislature.

The bill has an effective date of July 1, 2013.

The bill substantially amends section 408.910 of the Florida Statutes.

The bill creates section 408.9105 of the Florida Statutes.

II. Present Situation:

Florida provides health insurance coverage options to low income Floridians through a variety of programs utilizing state and federal funds. As of February 28, 2013, more than 3.2 million individuals received coverage through the Medicaid program.[2] Enrollment in the Florida Kidcare program's non-Medicaid funded components for the same time period was an additional 256,721 children.[3]

Florida's Medicaid program is expected to spend $21 billion for Fiscal Year 2012-2013, making it fifth largest in the nation for expenditures.[4] The Medicaid program is jointly funded between

the state and federal governments; 52.73 percent of the costs for health care services are paid by federal funds and 42.27 percent is state share in the current fiscal year. Funding for the Florida Kidcare program's Title XXI components has an enhanced federal match of 70.66 percent for the 2012-2013 federal fiscal year.[5]

According to the most recent data from the American Community Survey (ACS) of the federal Census Bureau, an estimated four million Floridians are uninsured.[6] Of that number, according to the ACS data, 594,000 are children.[7] More than 1.9 million uninsured adults are under 139 percent of the FPL, according to statistics for 2010-2011.[8] Lower income adults – those below 100 percent of the FPL – number at 1.1 million for that same time period.[9]

Eligibility for the current Medicaid program is based on a number of factors, including age, household or individual income, and assets. The Department of Children and Families (DCF) determines eligibility for Medicaid but the Agency for Health Care Administration (AHCA) is the single state Medicaid agency under s. 409.963, F.S., and has the lead responsibility for the overall program.[10]

Recipients in the Medicaid program receive their benefits through several different delivery systems depending on their individual situation. Delivery systems currently include fee-for-service providers and various managed care organizations, including provider service networks (PSNs), health maintenance organizations (HMOs), and prepaid limited health service organizations. In July 2006, the AHCA implemented the Medicaid Managed Care Pilot Program as directed by the 2005 Legislature through s. 409.91211, F.S. The pilot program operates under an 1115 Research and Demonstration Waiver approved by the federal Centers for Medicare and Medicaid Services (CMS). The pilot program was initially authorized for Broward and Duval counties with expansion to Baker, Clay and Nassau the following year.

Under the current pilot program, most Medicaid recipients in the five pilot counties (Baker, Broward, Clay, Duval, and Nassau counties) are required to receive their benefits through either HMOs, PSNs, or a specialty plan. In addition to the minimum benefits package, plans may provide enhanced services such as over-the-counter benefits, preventive dental care for adults, and health and wellness benefits.

Medicaid Statewide Managed Medical Care Program

In 2011, the Legislature passed HB 7107, creating the Statewide Medicaid Managed Care (SMMC) Program as ch. 409, part IV, F.S. SMMC requires the AHCA to create an integrated managed care program for Medicaid enrollees that incorporates all of the minimum benefits, for the delivery of primary and acute care as well as long-term care services. SMMC has two components: the Long Term Care (LTC) Managed Care component and the Managed Medical Assistance (MMA) component.

To implement SMMC and receive federal Medicaid funding, the AHCA was required to seek federal authorization through two different Medicaid waivers from CMS. The first component authorized was the LTC Managed Care component's 1915(b) and (c) waiver. Approval was granted on February 1, 2013.

The LTC Managed Care component will serve Medicaid-eligible recipients who are also determined to require a nursing facility level of care. Medicaid recipients who qualify will receive all of their long-term care services from the long-term care managed care plan.

Implementation of the LTC Managed Care component started July 1, 2012, with completion expected by October 1, 2013. The AHCA released an Invitation to Negotiate (ITN) on June 29, 2012, and on January 15, 2013, notices of contract awards to managed care plans under that ITN were announced.

For the MMA component, the AHCA sought to modify the existing Medicaid Reform 1115 Demonstration waiver to expand the program statewide. The AHCA initiated the SMMC project in January 2012 and released a separate ITN to competitively procure managed care plans on a statewide basis on December 28, 2012. Bids were due to the AHCA on March 29, 2013, and awards are expected to be announced on September 16, 2013.

Plans can supplement the minimum benefits in their bids and offer enhanced options. The number of plans to be selected by region is prescribed under s. 409.974, F.S. Specialty plans that serve specific, targeted populations based on age, medical condition, and diagnosis are also included under SMMC. Under s. 409.967, F.S., accountability provisions for the managed care plans specify several conditions or requirements, including emergency care and physician reimbursement standards, access and credentialing requirements, encounter data submission guidelines, and grievance and resolutions.

Statewide implementation of SMMC is expected to be completed by October 1, 2014. Final approval of the necessary Medicaid waiver by the federal government has not yet been received; however, on February 20, 2013, the AHCA and the CMS reached an "Agreement in Principle" on the proposed plan.

Under SMMC, all persons meeting applicable eligibility requirements of Title XIX of the Social Security Act must be enrolled in a managed care plan. Medicaid recipients who (a) have other creditable care coverage, excluding Medicare, (b) reside in residential commitment facilities operated through the Department of Juvenile Justice, group care facilities operated by the DCF, and treatment facilities funded through DCF Substance Abuse and Mental Health Program; (c)

are eligible for refugee assistance; or (d) are residents of a developmental disability center, may voluntarily enroll in the SMMC program. If they elect not to enroll, they will be served through the Medicaid fee-for-service system.

Cover Florida and Florida Health Choices

In 2008, the Florida Legislature created two programs simultaneously to address the issue of Florida's uninsured: the Cover Florida Health Access Program and the Florida Health Choices Program.[11] The two programs offered two unique methods of addressing Florida's uninsured population.

Cover Florida Health Access Program
Cover Florida is designed to provide affordable health care options for uninsured residents between the ages of 19 and 64 and who met other criteria under s. 408.9091, F.S. The AHCA and the Office of Insurance Regulation (OIR) have joint responsibility for the program and were directed to issue an Invitation to Negotiate (ITN) to secure plans for the delivery of services by July 1 2008. An ITN was released July 2, 2008, and as a result of that ITN, two-year contracts were executed with two statewide plans and four regional plans.[12]

The Cover Florida plans are not subject to the Florida Insurance Code and ch. 641, F.S., relating to HMOs. Two plan options were required for development: plans with catastrophic coverage and plans without catastrophic coverage. Plans without catastrophic coverage are required to include other benefit options such as:[13]

- Incentives for routine preventive care;
- Office visits for diagnosis and treatment of illness or injury;
- Behavioral health services;
- Durable medical equipment and prosthetics; and,
- Diabetic supplies.

Plans that did include catastrophic coverage are required to include all of the benefits above, plus have options for these additional benefits:[14]

- Inpatient hospital stays;
- Hospital emergency care services;
- Urgent care services; and,
- Outpatient facility services, outpatient surgery, and outpatient diagnostic services.

All plans are guarantee-issue policies and are required to include prescription drug benefits. Plans can also place limits on services and cap benefits and copayments.

[11] *See* Chapter Law 2008-32.
[12] Agency for Health Care Administration, *Cover Florida Health Care Access Program Annual Report (March 2013), p. 1,* http://ahca.myflorida.com/MCHQ/Managed_Health_Care/CHMO/docs/CoverFLReport-Mar2013.pdf (last visited Mar. 22, 2013).
[13] *See* s. 409.9091(4)(6)(a).
[14] *See* s. 409.9091(4)(a)(7).

To be eligible, the enrollee must be:

- A resident of Florida;
- Between 19 and 64 years old;
- Not covered by private insurance or eligible for public insurance, unless eligibility for coverage lapses due to no longer meeting income or categorical requirements; and,
- Uninsured for at least the prior six months, with exceptions for persons who lose coverage within the past six months under certain conditions.

As of December 17, 2010, no insurers or HMOs offered any new policies under Cover Florida.[15] The six insurers selected by the state in 2009 to participate in Cover Florida ceased enrollment in 2011 due to lack of participation by both insurers and participants.[16] Currently, 1,997 enrollees participate in two plans and both plans will terminate those policies in 2014.[17]

Florida Health Choices Program (FHCP)
The FHCC is a private, non-profit, corporation under s. 408.910, F.S., and is led by a 15-member board of directors. The FHCP is designed as a single, centralized marketplace for the purchase of health products including, but not limited to, health insurance plans, HMO plans, prepaid services, and flexible spending accounts. Policies sold as part of the program are exempt from regulation under the Insurance Code and laws governing HMOs. The following entities are authorized to be eligible vendors:

- Insurers authorized under ch. 624, F.S.;
- HMOs authorized under ch. 641, F.S.;
- Prepaid health clinics licensed under ch. 641, part II, F.S.;
- Health care providers, including hospitals and other licensed health facilities, health care clinics, pharmacies, and other licensed health care providers;
- Provider organizations, including service networks, group practices, and professional associations; and,
- Corporate entities providing specific health services.

The FHCP is authorized to collect premiums and other payments from employers. The law further specifies who may participate as either an employer or an individual. Employers eligible to enroll include:[18]

- Employers that meet criteria established by the FHCP and elect to make their employees eligible;
- Fiscally constrained counties described in s. 218.67, F.S.;

- Municipalities having populations of fewer than 50,000 residents;
- School districts in fiscally constrained counties; or,
- Statutory rural hospitals.

Individuals eligible to participate include:[19]

- Individual employees of enrolled employers;
- State employees not eligible for state employee health benefits;
- State retirees; or,
- Medicaid participants who opt-out.

For phase one of Florida Health Choices' launch in 2013, the Marketplace will serve small businesses with 2 to 50 employees.[20] The initial list of vendors will include plans from Florida Blue, Florida Health Care Plans, Argus Dental, and Liberty Dental.[21] The pilot will last six months and then the FHCP will evaluate adding other services.[22]

The Patient Protection and Affordable Care Act (PPACA)

In March 2010, the Congress passed the PPACA.[23] One of the PPACA's key components requires states to expand Medicaid to a minimum eligibility threshold of 133 percent of the FPL, or as it is sometimes expressed, 138 percent of the FPL when considering the automatic five-percent income disregard, effective January 1, 2014.[24] While the costs for the newly eligible under this expansion would be initially funded at 100 percent federal funds for the first three calendar years, states would gradually be required to pay a share of the costs, starting at five percent in calendar year 2017 before leveling off at 10 percent in 2020.[25] Under the PPACA as enacted, states refusing to expand to the new eligibility threshold faced the loss of *all* of their federal Medicaid funding.[26]

Florida, along with 25 other states challenged the constitutionality of the law. In *NFIB v. Sebelius*, the U.S. Supreme Court found the enforcement provisions of the Medicaid expansion unconstitutional.[27] As a result, states could voluntarily expand their Medicaid populations to 138 percent of the FPL and receive the enhanced federal match, but could not be required to do so for the population defined as newly eligible in the law, which was interpreted by the federal Department of Health and Human Services (HHS) to be only the adult population (childless

adults aged 19 - 64).[28] States are unable to receive the enhanced federal matching funds for partial Medicaid expansions.[29]

While finding the adult expansion of Medicaid optional, subsequent federal guidance has also emphasized state flexibility in how states expand coverage to those defined as newly eligible. In a letter to the National Governors Association January 14, 2013, HHS Secretary Kathleen Sebelius reminded states of their ability to design flexible benefit packages without the need for waivers.[30] This letter had been preceded by an HHS document entitled "Frequently Asked Questions on Exchange, Market Reforms and Medicaid" on December 10, 2012, that discussed promotion of personal responsibility, wellness benefits, and state flexibility to design benefits.[31]

A state Medicaid director letter on November 20, 2012 (ACA #21), further addressed state options for the adult Medicaid expansion group and the alternative benefit plans available under Section 1937 of the Social Security Act.[32] Under Section 1937, state Medicaid programs have the option of providing certain groups with benchmark or benchmark-equivalent coverage based on four products: (1) the standard Blue Cross/Blue Shield Preferred Provider option offered to federal employees; (2) state employee coverage that is generally offered to all state employees; (3) the commercial HMO with the largest insured, non-Medicaid enrollment in the state or (4) coverage approved by the HHS secretary.[33] For children under the age of 21, the coverage must include the Early and Periodic Screening, Diagnostic and Treatment Service (EPSDT). Other aspects of the essential health benefit requirements of the PPACA, as discussed further below, may also be applicable, depending on the benefit package utilized.

In addition to the Medicaid expansion component, the PPACA imposes a mandate on individuals to buy insurance, or pay a penalty, which was interpreted by the U.S. Supreme Court as a tax. Currently, many uninsured individuals are eligible for Medicaid or Kidcare coverage but are not enrolled. The existence of the federal mandate to purchase insurance may result in some indeterminate number of current eligibles coming forward and enrolling in Medicaid who had previously not enrolled. Their participation will result in increased costs and would not likely have occurred without the catalyst of the federal legislation.

To obtain insurance coverage, the PPACA authorized the state-based American Health Benefit exchanges and Small Business Health Options Program (SHOP) exchanges. These exchanges are to be administered by governmental agencies or non-profit organizations and be ready to accept

[33] *See supra* note 32, at 2.

applications for coverage beginning October 1, 2013, for January 1, 2014, coverage dates. The exchanges, at a minimum, must:[34]

- Certify, re-certify and de-certify plans participating on the exchange;
- Operate a toll-free hotline;
- Maintain a website;
- Provide plan information and plan benefit options;
- Interact with the state's Medicaid and CHIP programs and provide information on eligibility and determination of eligibility for these programs;
- Certify individuals who gain exemptions from the individual responsibility requirement; and
- Establish a navigator program.

The initial guidance from the HHS in November 2010 set forward a number of principles and priorities for the exchanges. Further guidance was issued on May 16, 2012, detailing the proposed operations of federally facilitated exchanges for those states that elected not to implement a state-based exchange. On November 16, 2012, Florida Governor Rick Scott notified HHS that Florida had too many unanswered questions to commit to a state-based exchange under the PPACA for the first enrollment period on January 1, 2014.[35]

The PPACA also includes a tax penalty for those individuals that do not have qualifying health insurance coverage beginning January 1, 2014. The penalty is the greater of $695 per year, up to a maximum of three times that amount per family or 2.5% of household income. The penalty, however, is phased-in and exemptions apply.

The following persons are exempt from the PPACA's requirement to maintain coverage:[36]

- Individuals with a religious objection;
- Individuals not lawfully present; and
- Incarcerated individuals.

The following persons are exempt from the PPACA's penalty for failure to maintain coverage:[37]

- Individuals who cannot afford coverage, i.e. those whose required premium contributions exceed eight percent of household income;
- Individuals with income below the income tax filing threshold;
- American Indians;
- Individuals without coverage for less than three months; and

- Individuals determined by the HHS secretary to have suffered a hardship with respect to the capability to obtain coverage under a qualified plan.

Qualifying coverage may be obtained through an employer, the federal or state exchanges created under PPACA, or private individual or group coverage meeting the minimum essential benefits coverage standard.

Employers with more than 50 full time employees also share a financial responsibility under PPACA. Employers with more than 50 full-time employees that do not offer coverage meeting the essential benefits coverage standard and who have at least one employee receive a premium tax credit will be assessed a fee of $2,000 per full time employee, after the 30th employee.[38] If an employer does offer coverage and an employee receives a premium tax credit, the employer is assessed the lesser of $3,000 per employee receiving the credit or $2,000 per each employee after the 30th employee.[39]

Premium credits and other cost sharing subsidies are available to United States citizens and legal immigrants within certain income limits for coverage purchased through the exchanges. Legal immigrants with incomes at or below 100 percent of the FPL who are not eligible for Medicaid during their first five years are eligible for premium credits.[40] Premium credits are set on a sliding scale based on the percent of FPL for the household and reduce the out-of-pocket costs incurred by individuals and families.

The amount for premium tax credits, as a percentage of income, are set in section 36B of the Internal Revenue Code follows[41]:

Premium Tax Credits	
Income Range	**Premium Percentage Range** (% of income)
Up to 133% FPL	2%
133% to 150%	3% - 4%
150% to 200%	4% - 6.3%
200% to 250%	6.3% - 8.05%
250% to 300%	8.05% - 9.5%
300% to 400%	9.5%

Subsidies for cost sharing are also applicable for those between 100 percent of the FPL and 400 percent of the FPL.[42] For 2013, 100 percent of the FPL equates to the following by family size:[43]

[38] Kaiser Family Foundation, *Summary of New Health Reform Law,* Last Modified April 15, 2011, http://www.kff.org/healthreform/upload/8061.pdf (last viewed Mar. 16, 2013).
[39] Kaiser Family Foundation, *Summary of New Health Reform Law,* Last Modified April 15, 2011, http://www.kff.org/healthreform/upload/8061.pdf (last viewed Mar. 16, 2013).
[40] 26 U.S.C. s. 36B(c).
[41] 26 U.S.C. s. 36B(c).
[42] Kaiser Family Foundation, *Summary of New Health Reform Law,* Last Modified April 15, 2011, http://www.kff.org/healthreform/upload/8061.pdf (last viewed Mar. 16, 2013).

2013 Federal Poverty Guidelines – 100% FPL	
Family Size	Maximum Annual Income
1	$11,490
2	$15,510
3	$19,530
4	$23,550

The cost sharing credits reduce the out-of-pocket amounts incurred by individuals on essential health benefits and will also impact the actuarial value of a health plan. Actuarial value reflects the average share of covered benefits paid by the insurer or health plan.[44] For example, if the actuarial value of a plan is 90 percent, the health plan is paying 90 percent of the costs and the enrollee 10 percent. Under the PPACA, the maximum amount of cost sharing under this component range from 94 percent for those between 100 percent to 150 percent of the FPL, to 70 percent for those between 250 percent and 400 percent of the FPL.[45]

Select Committee on Patient Protection and Affordable Care Act

In December 2012, Florida Senate President Don Gaetz formed the Select Committee on the PPACA to launch a comprehensive assessment on the impact of the law on Florida, evaluate the state's options under the law, and to make recommendations to the full Senate membership on any actions necessary to mitigate cost increases, preserve a competitive insurance market, and protect Florida's consumers.[46] The Select Committee received public testimony, expert presentations, and staff reports over nine meetings before it developed three specific recommendations relating to the development of a health care exchange, coverage for certain state employees, and the expansion of Medicaid. On Medicaid, the Select Committee voted 7-4 to recommend to the full Senate to not expand Medicaid under the current state plan or pending waivers.[47] Following that vote, two alternative proposals for coverage of the population under 138 percent of the FPL that utilize the private insurance market were put forward for further discussion and debate.[48]

III. Effect of Proposed Changes:

Section 1 revises s. 409.910. F.S., and expands the eligibility and participation guidelines for the Florida Health Choices program to allow all individuals and employers that meet criteria established by the FHCC to participate in the program. The bill clarifies that products sold in the marketplace are not limited to those specifically listed or to risk-bearing products.

The bill removes a specific time standard for open enrollment periods to give the program and employers more flexibility. The bill deletes product pricing guidelines that were in conflict with federal law. The bill also provides that standard forms, website designs, or marketing communications developed by FHC or any vendor participating in the FHC marketplace are not subject to the Florida Insurance Code.

Section 2 creates s. 408.9105, F.S., and a new program called Health Choice Plus (HCP). The HCP program is managed by the FHCC under its existing infrastructure and governance and provides a benefit program to uninsured Floridians under 100 percent of the FPL. The bill establishes health benefit accounts for enrollees with financial contributions from the enrollee, the state (subject to funding in the GAA), and other sources such as the enrollee's employer; and provides a marketplace for enrollees to purchase health care goods and services utilizing funds from health benefits account. Examples of products that may be purchased include, but are not limited to, discount medical plans, limited benefit plans, health flex plans, individual health insurance plans, prepaid health clinic plans, bundled services, or other prepaid health care coverage.

The bill provides specific criteria for initial eligibility for HCP and conditions for continued enrollment. The bill requires that an enrolled individual meet the following conditions:

- Be a resident of Florida;
- Be between the ages of 19 and 64;
- Have a modified adjusted gross income of less than 100 percent of the FPL based on the individual's last tax return or other documentation;
- Be a United States citizen or a lawful permanent resident;
- Not be eligible for Medicaid;
- Not be eligible for employer sponsored coverage (with some exceptions); and,
- Meet criteria based on whether the enrollee meets the definition of a childless adult or parent/relative caretaker.

The bill requires HCP to establish guidelines for financial participation by enrollees. At a minimum, an enrollee is required to contribute $20 per month towards his or her health benefit account. The enrollee contribution amount may be adjusted annually through the GAA. The amount paid into the account by the state will be determined by the FHCC based on the availability of state, local, or federal funding. The bill provides that the state contribution may not exceed $10 per enrollee per month; however, this amount may be adjusted annually in the GAA. HCP is also directed to implement an employer based contribution option. An employer may contribute towards an employee's health benefits account, including making the entire payment amount, at any time.

The bill directs HCP to develop and maintain an education and public outreach campaign and to provide a secure website that provides information and facilitates the purchase of goods and services. Information must also be provided about other insurance affordability programs.

The bill requires that HCP must hold at least one open enrollment period per year, subject to available funding. Eligibility must be determined utilizing electronic means to the fullest extent possible. Once the program reaches its capacity, enrollment will cease. Enrollment may occur through the Florida Health Choices portal, a referral from the DCF, the Florida Healthy Kids Corporation, or an exchange as defined under the PPACA.

Once eligibility is confirmed, the bill directs the FHCC to determine the amount of funds that will be deposited into each enrollee's account based upon the availability of funds and other factors. Enrollees must make a financial contribution to their health benefits account in order to maintain enrollment and the FHCC is required to establish disenrollment criteria for non-payment of those minimum contributions. A maximum waiting period of one month prior to reinstatement to HCP for non-payment of any required payment may be imposed.

The bill requires the establishment of an optional incentives program for the achievement of healthy living goals. The program will establish annual healthy living goals and provide supplemental payments into an enrollee's health benefits account for meeting those goals, subject to the availability of funds.

The FHCC must establish the healthy living goals each fiscal year and publish the goals, procedures, and timeframes for the achievement of the goals by July 1 and distribute to new enrollees within 30 calendar days after enrollment. The bill directs HCP to publish goals for the 2014 calendar year by October 1, 2013. Bonus funds may accumulate in an enrollee's account until program termination.

The bill provides that continued enrollment in HCP and receipt of state contributions on the enrollee's behalf are contingent upon the enrollee obtaining a health assessment from a county health department, federally qualified health center, or other approved health care provider within the first three months of enrollment.

The following additional criteria apply based on the enrollee's category of eligibility:

Criteria	**Childless Adult**	**Parent\Relative Caretaker**
Any dependent child in the household must be enrolled in Medicaid or CHIP, if eligible		X
Proof of 20 hours of employment or effort to seek employment; or, in lieu of employment volunteer hours at school or non-profit or enrollment as full-time student	X Volunteer hours - 20	X Volunteer hours – 10
Health Assessment in first 3 months	X	X
One preventive visit in first 6 months, repeat every 18 months thereafter	X	X

Failure to meet the ongoing eligibility criteria will result in the enrollee's disenrollment. One 30-day extension may be granted by HCP to comply. If disenrolled, the enrollee may not re-apply for coverage until the next open enrollment period or 90 days, whichever occurs later.

Funds deposited into an enrollee's health benefits account may be used by the enrollee to offset health care costs or to purchase other health care services offered in the marketplace. Except for certain supplemental funds, funds deposited in an enrollee's account belong to the enrollee and are available for health care related expenditures. The bill provides that the optional bonus payments will be paid into the enrollee's account at the end of the quarter in which the goal was completed.

The bill requires the FHCC to establish a refund process for enrollees who request the closure of their health benefits accounts and the return of any unspent individual contributions. Enrollees may only be refunded funds that the enrollee or employer has contributed to their health benefits account. All other state funds revert to the FHCC.

HCP is authorized to accept funds from employers to deposit into their employees' health benefits accounts, when not in conflict with any other provisions of the bill. The FHCC is also permitted to accept state and federal funds or to seek other grants to help administer HCP. An assessment on vendors may be utilized to fund administration.

The bill designates the coverage as a non-entitlement and affirms that a cause of action does not arise against the state, a local governmental entity, any other political subdivision of the state, or the FHCC or its board of directors, for failure to make coverage available to eligible persons or for the discontinuation of any coverage under HCP.

The bill requires the FHCC to include information about the program into its regular annual report. A separate evaluation of HCP is also required and is due to the governor and Legislature by January 1, 2016.

A program sunset clause is provided to repeal the program effective July 1, 2016, unless saved from repeal through re-enactment by the Legislature.

Section 3 provides an appropriation of $15,275,000 from the General Revenue Fund to the Agency for Health Care Administration beginning in the 2013-2014 fiscal year to fund the Health Choice Plus program within Florida Health Choices, Inc. and to fund any necessary administrative costs for implementing and operating the program.

Section 4 provides an effective date of July 1, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The bill contemplates the FHCC contracting with private providers of health care services and products to deliver health care benefits to an additional population of currently uninsured individuals who may or may not be seeking health care services now. Physicians, hospitals, and other health care providers may be impacted by additional individuals seeking health care coverage and there may be a higher demand for such services once implemented.

Additionally, those safety net and other providers who serve this same population and are not receiving compensation or are receiving reduced compensation for those services may have an additional avenue for revenue.

C. Government Sector Impact:

The bill requires enrollees to receive certain health assessments from county health departments, federally qualified health centers, or other approved health care providers as a condition of continued enrollment. For those county health departments with primary care services, there could be an increased demand for services as individuals seek to comply with this requirement.

In addition to the increased demand for services, the program includes state contributions to the health benefit accounts on a monthly basis and incentives for achievement on optional healthy living performance goals based on an initial enrollment of 60,000 members for 12 months. No federal funds are expected for this program.

The following is the estimated state fiscal impact for 60,000 members over 12 months:

		PMPM Enrollee	PMPM State	Annual State PMPM	TOTAL
Health Benefits Account Funds		$20.00	$10.00	$120.00	$7,200,000
Incentives $25 Each Healthy Living Goal					
100% Achieve 2	$3,000,000				$3,000,000
25% Achieve 3	$1,125,000				$1,125,000
5% Achieve 4	$300,000				$300,000
2% Achieve 5	$150,000				$150,000
Administration (FHC)	$1,500,000				$1,500,000
Direct Services (Community and safety net provider supplement for HBAs)	$2,000,000				$2,000,000
Grand Total:					$15,275,000

VI. Technical Deficiencies:

None.

VII. Related Issues:

The FHCC will be receiving and reviewing medical records and personal health information of enrollees in the HCP. The exemption from public records under s. 408.910(14) F.S., only applies to the FHCC and enrollees and participants of the Florida Health Choices program. An exemption for the HCP would be appropriate to ensure that medical records and personal information of enrollees and applicants to the program would remain confidential and exempt from s. 119.07(1), F.S. and s. 24(a), Art. 1 of the State Constitution.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations on April 23, 2013:
The committee substitute represents the incorporation of one strike-all amendment and includes the following changes:

- Modifies s. 409.910, F.S., to expand eligibility criteria for individuals and employers who participate in the Florida Health Choices Program and meet other program criteria established by the Florida Health Choices Corporation;
- Revises product pricing criteria to remove elements in conflict with the federal Patient Protection and Affordable Care Act;
- Clarifies that products sold in the FHC marketplace are not limited to those specifically listed or to risk-bearing products;

- Provides the Florida Health Choices Corporation with flexibility in establishing the length of open enrollment periods;
- Transfers a provision that provides that standard forms, website designs, or marketing communications developed by FHC or any vendor participating in the FHC marketplace are not subject to the Florida Insurance Code from the Health Choice Plus section to the Florida Health Choice Program statute section;
- Deletes language that indicates goods and services purchased under the Health Choice Plus Program are not insurance as some enrollees may utilize their health benefits funds for the purchase of insurance coverage;
- Adds prepaid health clinic services to the list of possible goods and services that enrollees may purchase with funds from their health benefits accounts; and,
- Provides an appropriation of $15,275,000 from the General Revenue Fund for the 2013-2014 fiscal year.

B. Amendments:

None.

By the Committee on Health Policy

588-03428-13 20131844__

A bill to be entitled

An act relating to the Health Choice Plus Program; amending s. 408.910, F.S.; conforming provisions to changes made by the act; creating s. 408.9105, F.S.; creating the Health Choice Plus Program; providing legislative intent; providing definitions; providing eligibility requirements; providing exceptions in specific situations; providing for enrollment in the program; providing for disenrollment in specific situations; providing for reenrollment in specific situations; providing requirements and procedures for use of funds in a health benefits account; authorizing the Florida Health Choices, Inc., to accept funds from various sources to deposit into health benefits accounts, subsidize the costs of coverage, and administer and support the program; requiring the corporation to manage the health benefits accounts and provide the marketplace of options that an enrollee in the program may use; providing for payment for achieving health living performance goals; providing that the Florida Insurance Code is not applicable to the program; providing that coverage under the program is not an entitlement; prohibiting a cause of action against certain entities under certain circumstances; requiring the corporation to submit to the Governor and the Legislature information about the program in its annual report and an evaluation of the effectiveness of the program; providing for a program review and repeal date; providing an effective date.

588-03428-13 20131844__

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (1) of section 408.910, Florida Statutes, is amended to read:

408.910 Florida Health Choices Program.—

(1) LEGISLATIVE INTENT.—The Legislature finds that a significant number of the residents of this state do not have adequate access to affordable, quality health care. The Legislature further finds that increasing access to affordable, quality health care can be best accomplished by establishing ~~a~~ competitive markets ~~market~~ for purchasing health insurance and health services. It is therefore the intent of the Legislature to create the Florida Health Choices Program and the Health Choice Plus Program to:

(a) Expand opportunities for Floridians to purchase affordable health insurance and health services.

(b) Preserve the benefits of employment-sponsored insurance while easing the administrative burden for employers who offer these benefits.

(c) Enable individual choice in both the manner and amount of health care purchased.

(d) Provide for the purchase of individual, portable health care coverage.

(e) Disseminate information to consumers on the price and quality of health services.

(f) Sponsor ~~a~~ competitive markets ~~market~~ that stimulate ~~stimulates~~ product innovation, quality improvement, and efficiency in the production and delivery of health services.

Section 2. Section 408.9105, Florida Statutes, is created to read:

408.9105 Health Choice Plus Program.—

(1) LEGISLATIVE INTENT.—The Legislature recognizes that there are more than 600,000 uninsured residents in this state who have incomes at or below 100 percent of the federal poverty level. Many insurance options are not affordable, and the Legislature intends to provide a benefit program to those individuals who seek assistance with coverage and who assume individual responsibility for their own health care needs. It is therefore the intent of the Legislature to expand the services provided by the Florida Health Choices Program and begin the phase-in of the Health Choice Plus Program starting July 1, 2013. The Health Choice Plus Program must:

(a) Use the existing Florida Health Choices Corporation's infrastructure and governance to manage the program described in this section.

(b) Offer goods and services to individuals who are between 19 to 64 years of age, inclusive.

(c) Establish guidelines for financial participation in the program which allows for enrollees and others to contribute toward a health benefits account.

1. An enrollee shall contribute at least $20 per month toward the health benefits account. This amount may be adjusted annually in the General Appropriations Act.

2. The level of benefit paid into an enrollee's account using state funds is to be determined by the corporation based upon the availability of state, local, and federal funding. The amount may not exceed $10 per individual per month. This amount

may be adjusted annually in the General Appropriations Act.

(d) Implement an employer-based contribution option.

(e) Develop and maintain an education and public outreach campaign for the Health Choice Plus Program.

(f) Provide a secure website to facilitate the purchase of goods and services and to provide public information about the program. The website must also provide information about the availability of insurance affordability programs targeted at this population.

(g) Establish an incentive program that rewards enrollees for achievements in reaching healthy living goals.

(2) DEFINITIONS.—For the Health Choice Plus Program, the following terms are applicable:

(a) "CHIP" means Children's Health Insurance Program as authorized under Title XXI of the Social Security Act.

(b) "Corporation" means Florida Health Choices, Inc., as established under s. 408.910.

(c) "Corporation's marketplace" means the single, centralized market established by the corporation which facilitates the purchase of products made available in the marketplace.

(d) "Enrollee" means an individual who participates in or receives benefits under the Health Choice Plus Program.

(e) "Program" means the Health Choice Plus Program established under this section.

(f) "Vendor" means an entity that meets the requirements under s. 408.910(4)(d) and is accepted by the corporation.

(g) "Health benefits account" means the account established for an enrollee at the corporation into which funds may be

deposited by the state, the enrollee, other individuals, or organizations for the purchase of health care goods and services on the enrollee's behalf.

(h) "Parent" or "caretaker relative" means an individual who is a relative that has primary custody or legal guardianship of a dependent child and provides the primary care and supervision to that dependent child in the same household. A caretaker relative must be related to the dependent child by blood, marriage, or adoption within the fifth degree of kinship.

(i) "Goods and services" means the individual products offered for sale to an enrollee on the corporation's marketplace or other health care-related items that may be purchased by an enrollee in the private market. An enrollee may purchase these products using funds accumulated in his or her health benefits account.

(j) "Lawful permanent resident" means a non-United States citizen who resides in the United States under legally recognized and lawfully recorded permanent residence as an immigrant. This individual may also be known as a permanent resident alien.

(k) "Patient Protection and Affordable Care Act" or "PPACA" means the federal law enacted as Pub. L. No. 111-148, as further amended by the federal Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152, and any amendments.

(3) ELIGIBILITY.—

(a) To be eligible for the Health Choice Plus Program, an individual must be a resident of this state and meet all of the following criteria:

1. Be between 19 and 64 years of age, inclusive.

2. Have a modified adjusted gross income that does not exceed 100 percent of the federal poverty level based on the individual's most recent federal tax return, or if the individual did not file a tax return, the individual's most recent monthly income.

3. Be a United States citizen or a lawful permanent resident.

4. Not be eligible for Medicaid.

5. Not be eligible for employer-sponsored insurance coverage. If the enrollee is eligible for employer-sponsored coverage but the cost of that coverage for the enrollee's share for individual coverage would exceed 5 percent of the enrollee's total modified adjusted gross household income or the enrollee's share of family coverage would exceed 5 percent of enrollee's total modified adjusted gross household income, the enrollee is not eligible for employer-sponsored coverage under this section.

6. Not be enrolled in other coverage that meets the definition of essential benefits coverage under PPACA.

(b) In addition to the requirements in paragraph (a), an enrollee must meet the following categorical requirements in order to maintain enrollment in the program:

1. For an enrollee who is also a parent or a caretaker relative, the enrollee must do all of the following:

a. Maintain enrollment in Medicaid or CHIP for any dependent child in the household who is eligible for Medicaid or CHIP and who must be enrolled in Medicaid or CHIP throughout the enrollee's participation in the Health Choice Plus program.

b. Complete a health assessment within the first 3 months after enrollment at a county health department, federally

qualified health center, or other approved health care provider.

c. Schedule and keep at least one preventive visit with a primary care provider within 6 months after enrollment and repeat the preventive visit at least once every 18 months thereafter.

d. Provide proof of employment for at least 20 hours a week or of efforts made to seek employment. In lieu of employment, the enrollee may provide proof of volunteering for at least 10 hours a month at a school or at a nonprofit organization or enrollment as a full-time student at an accredited educational institution. Exceptions to this requirement may be made on a case-by-case basis for medical conditions for the enrollee or if the enrollee is the primary caretaker for a family member who has a chronic and severe medical condition that requires a minimum of 40 hours a week of care.

2. For an enrollee who is also a childless adult, the enrollee must do all of the following:

a. Provide proof of employment for at least 20 hours a week or of efforts made to seek employment. In lieu of employment, the enrollee may provide proof of volunteering for at least 20 hours a month at a school or at a nonprofit organization or enrollment as a full-time student at an accredited educational institution. Exceptions to this requirement may be made on a case-by-case basis for medical conditions for the enrollee or if the enrollee is the primary caretaker for a family member who has a chronic and severe medical condition that requires a minimum of 40 hours a week of care.

b. Complete a health assessment within the first 3 months after enrollment at a county health department, federally

qualified health center, or other approved health care provider;

c. Schedule and keep at least one preventive visit with a primary care provider within the first 6 months after enrollment and repeat the preventive visit at least once every 18 months thereafter.

If the enrollee fails to meet the requirements specified in this subsection, the enrollee is disenrolled from the program at the end of the month in which the enrollee has not met the requirements. The enrollee may receive one 30-day extension to comply before cancellation of coverage. If an enrollee's coverage is canceled, the enrollee may not reapply for coverage until the next open enrollment period or 90 days after cancellation of coverage occurs, whichever occurs later. The individual's reenrollment is subject to available funding.

(4) ENROLLMENT.—

(a) Enrollment in the Health Choice Plus Program may occur through the portal of the Florida Health Choices Program, a referral process from the Department of Children and Families, the Florida Healthy Kids Corporation, or the exchange as defined by the federal Patient Protection and Affordable Care Act.

(b) Subject to available funding, the corporation shall establish at least one open enrollment period each year. When the program is full based on available funding, enrollment must cease.

(c) Eligibility is determined by using electronic means to the fullest extent practicable before requesting any written documentation from an applicant.

(5) HEALTH BENEFITS ACCOUNT.—

(a) A health benefits account is established for each enrollee upon confirmation of eligibility in the program. The corporation shall determine the deposit amount and frequency of deposits based on the availability of funds, the number of enrollees, and other factors.

(b) An enrollee shall make a financial contribution toward his or her own health benefits account in order to maintain enrollment in accordance with paragraph (1)(c).

1. The corporation shall establish disenrollment criteria for failure to pay the required minimum contribution.

2. The disenrollment criteria must include waiting periods of not more than 1 month before reinstatement to the program if the enrollee is still eligible and has paid all required financial obligations.

3. The enrollee's employer may contribute toward an employee's health benefits account under the program, including making the enrollee's required contribution, in whole or in part, to the enrollee's health benefits account at any time.

(c) Subject to appropriations available for this specific purpose, the corporation shall establish a procedure for the deposit of supplemental or bonus funds into an enrollee's health benefits account if certain healthy living performance goals are achieved. These goals must be established no later than July 1 in each fiscal year and distributed to all enrollees, published on the corporation's website, and distributed to new enrollees within 30 calendar days after enrollment. For calendar year 2014, the goals must be established no later than October 1, 2013.

1. An enrollee may use funds deposited in a health benefits

account to offset other health care costs or to purchase other products and services offered by the marketplace, subject to guidelines established by the corporation and in accordance with federal law.

2. Bonus funds may accumulate in the enrollee's health benefits account for the duration of the program and must automatically expire and return to the corporation upon the termination of the program.

(d) The marketplace is encouraged to use existing community programs and partnerships to deliver services and to include traditional safety net providers for the delivery of services to enrollees, including, but not limited to, rural health clinics, federally qualified health centers, county health departments, emergency room diversion programs, and community mental health centers. A health care entity that receives state funding must participate in the Health Choice Plus Program and offer services or products through the marketplace or to enrollees, as appropriate. An enrollee may be required to make nominal copayments to providers for any nonpreventive services. The corporation may establish the amount of the copayments when applicable.

(e) Except for supplemental funds described under paragraph (c), funds deposited in a health benefits account belong to the enrollee when deposited and are available for health-care-related expenditures, including, but not limited to, physician's fees, hospital costs, prescriptions, insurance premium payments, copayments, and coinsurance. The corporation shall establish a process or contract with another entity for the management of the funds. The process must ensure the timely distribution and

the appropriate expenditure of the state's contributions.

(f) The corporation shall establish a refund process for an enrollee who requests the closure of a health benefits account and the return of any unspent individual contributions. The enrollee may be refunded only those funds that the enrollee or employer has contributed to his or her health benefits account. All other state funds in the enrollee's health benefits account revert to the corporation.

(6) FUNDING.—

(a) The corporation may accept funds from an employer to deposit in an enrollee's health benefits account to supplement funds if such a deposit is not in conflict with other provisions of this section.

(b) The corporation may accept state and federal funds to further subsidize the costs of coverage and to administer the program.

(c) The corporation shall seek other grants and donations to support the program.

(d) An assessment on vendors that participate in the marketplace may be used to fund the administration of the program.

(7) SERVICES.—The corporation shall manage the health benefits accounts and provide a marketplace of options from which an enrollee may also use his or her health benefits account to purchase individual services and products, including, but not limited to, discount medical plans, limited benefit plans, health flex plans, individual health insurance plans, bundled services, or other prepaid health care coverage.

(8) HEALTHY LIVING PERFORMANCE GOALS AND PAYMENT.—

(a) To the extent that funds are made available for this purpose, an enrollee is rewarded for achieving a healthy lifestyle and using preventive health care services appropriately.

(b) The program shall post on its website, by July 1 of each fiscal year, a list of optional healthy living performance goals and the proposed incentives for achievement of each goal. The corporation shall establish a procedure for the documentation of such goals, timeframes for achievement of the optional goals, and the payment of supplemental amounts into an enrollee's health benefits account, subject to available funding.

(c) Bonus payments for achieving a healthy living performance goal shall be paid into an enrollee's health benefits account at the end of the quarter in which the goal is achieved. The amount of the payment is based upon the schedule posted by the program on July 1 of that fiscal year.

(9) APPLICABILITY OF INSURANCE CODE.—Coverage offered under this program is not insurance. Any standard forms, website design, or marketing communication developed by the corporation and used by the corporation or any vendor that meets the requirements of s. 408.910(4)(f) is not subject to the Florida Insurance Code.

(10) LIABILITY.—Coverage under the Health Choice Plus Program is not an entitlement, and a cause of action does not arise against the state, a local governmental entity, any other political subdivision of the state, or the corporation or its board of directors for failure to make coverage under this section available to an eligible person or for discontinuation

of any coverage.

(11) PROGRAM EVALUATION.—The corporation shall include information about the Health Choice Plus Program in its annual report under s. 408.910. The corporation shall complete and submit by January 1, 2016, a separate independent evaluation of the effectiveness of the Health Choice Plus Program to the Governor, the President of the Senate, and the Speaker of the House of Representatives.

(12) PROGRAM REVIEW.—The Health Choice Plus Program is subject to repeal on July 1, 2016, unless reviewed and saved from repeal through reenactment by the Legislature.

Section 3. This act shall take effect July 1, 2013.

SENATE APPROPRIATIONS
RECEIVED
13 APR -9 AM 8:38

The Honorable Denise Grimsley
Chair, Appropriations Subcommittee on Health & Human Services
306 Senate Office Building
404 South Monroe Street
Tallahassee, FL 32399-1100

Dear Chair Grimsley:

I am writing to respectfully request you consider placing SB 1844 relating to the Health Choice Plus Program on the next Appropriations Subcommittee on Health & Human Services agenda.

Thank you in advance for your consideration. As always, please do not hesitate to contact me with any question or comments you, or your staff may have.

Respectfully,

Aaron Bean
Senator, 4th District

Cc: Scarlet Pigott, Staff Director
201 Knott

Thank you.

5.				
6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/SB 1884 revises the current process for determining and collecting counties' contributions to the Medicaid program. For state Fiscal Year 2013-2014, the total amount of the counties' contribution is set at $269.6 million. For each year thereafter, the total annual amount of the counties' contribution is adjusted by the percentage change in state Medicaid expenditures.

Each county is responsible for paying a portion of the annual counties' contribution. For Fiscal Year 2013-2014, each county's share is based on actual payments made during Fiscal Year 2012-2013. The bill provides a seven-year period to transition from county shares based on past billing data to county shares based on the number of Medicaid enrollees. In Fiscal Year 2019-2020 and thereafter, each county's share will be based on the county's proportion of Medicaid enrollees as of March 1 of each year.

The Revenue Estimating Conference estimated the following annual changes to General Revenue Fund receipts: Fiscal Year 2013-2014: no change; Fiscal Year 2014-2015: $11.3 million reduction; Fiscal Year 2015-2016: $12.9 million reduction; Fiscal Year 2016-2017: $16.4 million reduction; Fiscal Year 2017-2018: $20.4 million reduction. See Section V.

This bill substantially amends section 409.915 of the Florida Statutes.

II. Present Situation:

County Contributions to Medicaid

Chapter 72-225, Laws of Florida, created s. 409.267, F.S., which required county participation in the cost of certain services provided to county residents through Florida's Medicaid program. In 1991, s. 409.267, F.S., was repealed and replaced with s. 409.915, F.S., which provides that the state shall charge counties for certain items of care and service. Counties are required to reimburse the state for:

- 35 percent of the cost of inpatient hospitalization in excess of 10 days, not to exceed 45 days, with the exception of pregnant women and children whose income is in excess of the federal poverty level and who do not participate in the Medicaid medically needy program, and for adult lung transplant services; and
- 35 percent of the cost of nursing home or intermediate facilities in excess of $170 per month, limited to $55 per resident per month, with the exception of skilled nursing care for children under age 21.

The Agency for Health Care Administration (AHCA) provides each county with a monthly bill based on payments made on behalf of the county's residents. The amount collected from the counties is deposited into the General Revenue Fund.

For the period from state Fiscal Year 1994-1995 through Fiscal Year 2006-2007, county contributions to Medicaid collections were approximately 93 percent of total billings in each fiscal year. For Fiscal Year 2007-2008 through Fiscal Year 2011-2012, county contributions to Medicaid collections dropped to less than 90 percent of total billings, with only 64.7 percent of billings billed in Fiscal Year 2010-2011 being paid in that year. The decline in collections was caused mainly by the inability of AHCA and individual counties to reach agreement on whether certain Medicaid recipients were residents of the county. The decline in the amount of billings collected resulted in a large backlog of past due billings.

In 2012, the Legislature reacted to this situation by enacting ch. 2012-33, L.O.F.

Backlog Payments

Chapter 2012-33, L.O.F., amended s. 409.915, F.S., requiring that the amount of each county's billings that remained unpaid as of April 30, 2012, be deducted from the county's monthly revenue sharing distribution over a 5-year period. The amounts by which the distributions are reduced are being transferred to the General Revenue Fund.

By August 2, 2012, AHCA certified to each county the amount of billings that remained unpaid from November 1, 2001 through April 30, 2012. A county could challenge the amount certified

by filing a petition with AHCA prior to September 1, 2012.[1] This procedure was the exclusive method to challenge the amount certified. AHCA permitted the counties to make a full or partial payment in the form of a check or wire transfer by September 13, 2012, instead of applying reductions to the revenue sharing distributions. On September 15, 2012, AHCA certified the amount of past billings for each county to the Department of Revenue (DOR). For counties that filed a petition, AHCA certified 100 percent of the past due billings. For counties that did not file a petition, AHCA certified 85 percent of the past due billings. Starting with the October 2012 distribution, DOR deducted the amount of past due billings certified by AHCA from each county's monthly revenue sharing distribution. The deductions will continue for 5 years or until each county has paid the total amount of past due billings.

Prospective Billings

Chapter 2012-33, L.O.F., also provided a new process for collecting counties' future contributions to Medicaid. Beginning May 1, 2012, and each month thereafter, AHCA had to certify to DOR the amount of monthly statements rendered to each county based on each county's Medicaid billings. The law provided for DOR to reduce each county's monthly distribution from the Local Half-Cent Sales Tax Trust Fund by the amount certified by AHCA. The amounts by which the distributions were reduced were to be transferred to the General Revenue Fund.

The law also directed AHCA to develop a process allowing counties to submit written requests for refunds. If approved, AHCA would certify to DOR the amount of the refund and DOR would issue the refund from the General Revenue Fund.

Administrative Billing and Refund Process

In order to address the counties' concerns regarding the new law, AHCA developed a process for monthly billings which allows counties to submit both advanced and back end refund requests.[2] Counties must include the reason and provide documentation for the request. Advanced refund requests must be received by AHCA by the end of each billing month. The agency withholds certifying the amount of the advanced refund request to DOR in order to provide time to research and resolve the requests. Advanced refund requests are researched within 60 days by AHCA. Denied refund requests are certified to DOR on a subsequent bill. If a refund request is granted and the bill should have been submitted to another county, the amount will be transferred and certified by AHCA to the appropriate county on a subsequent billing. The ability for a county to make an advanced refund request will expire on April 30, 2013.

In addition to an advanced refund request, a county may submit a back end refund request within 60 days from the date of certification. Counties requesting a back end request have already paid their billing and then subsequently filed their dispute after a monthly payment. AHCA notifies the counties whether the refund request is granted within 90 days after certification. If a back end refund request is granted, the refund will be a credit applied to a future bill and may be transferred to the appropriate county on a subsequent bill.

[1] A county could file a petition under the applicable provisions of Chapter 120, F.S.
[2] *See* Rule 59G-1.025, F.A.C., Medicaid County Billing.

AHCA also permits each county to submit payment in the form of a check or wire transfer to the agency. The payment must be received by the agency by the 5th day of the month. If the payment is not received by the agency by the 5th day of the month, the agency certifies the amount of the county billing to DOR for withholding from monthly Local Half-Cent Sales Tax distributions.

County Revenue Sharing Program[3]

The Florida Revenue Sharing Act of 1972 was a major attempt by the Legislature to ensure a minimum level of revenue parity across units of local government.[4] Provisions in the enacting legislation created the Revenue Sharing Trust Fund for Counties. Currently, the trust fund receives 2.9 percent of net cigarette tax collections and 2.044 percent of sales and use tax collections.[5] An allocation formula serves as the basis for the distribution of these revenues to each county that meets the strict eligibility requirements. The county revenue sharing program is administered by DOR and monthly distributions are made to the eligible counties.

Local Government Half-Cent Sales Tax Program[6]

Authorized in 1982, the local government half-cent sales tax program generates the largest amount of revenue for local governments among the state-shared revenue sources currently authorized by the Legislature.[7] The program distributes a portion of state sales tax revenue via three separate distributions to eligible county or municipal governments. Additionally, the program distributes a portion of communications services tax revenue to eligible local governments. Allocation formulas serve as the basis for these separate distributions.

Changes to Medicaid Program

AHCA is in the process of implementing a new payment method for some Medicaid providers which utilizes diagnosis related groups (DRGs) instead of the current per diem reimbursement method. Also, the use of managed care organizations in the Medicaid program is expected to expand under the Statewide Medicaid Managed Care Program. Both of these changes will affect the current practices used to bill and collect counties' contributions to Medicaid.

[3] A full description including tables providing estimates of distributions to counties from the county revenue sharing program can be found in the 2012 Local Government Financial Handbook. See Florida Legislature, Office of Economic and Demographic Research, 2012 LOCAL GOVERNMENT FINANCIAL INFORMATION HANDBOOK, available online at <http://edr.state.fl.us/Content/local-government/reports/lgfih12.pdf>, (Last visited April 14, 2013).

(last visited April 15, 2013).
[7] Chapter 82-154, L.O.F.

III. Effect of Proposed Changes:

The bill amends s. 409.915, F.S., to revise the current process for county Medicaid billings. Instead of the current practice based on expenditures incurred on behalf of a county's residents, the bill provides for an annual contribution for Medicaid. The bill establishes a total contribution of $269.6 million for state Fiscal Year 2013-2014. For each year thereafter, the total annual amount of the counties' contribution is adjusted by the percentage change in state Medicaid expenditures.

Each county is responsible for paying a portion of the annual counties' contribution. Each county's contribution is determined by weighing both the county's percentage share based on six months of billing data and the county's percentage share based on the proportion of Medicaid enrollees as of March 1 of each year. Over time, increasing weight will be given to shares based on Medicaid enrollees such that in Fiscal Year 2019-2020 and thereafter, the county's share will be based on the county's proportion of Medicaid enrollees. The Agency for Health Care Administration (AHCA) is responsible for calculating the proportion of Medicaid enrollees in each county and providing the information to DOR by May 15 of each year.

By February 1st of each year, AHCA must report to the President of the Senate and the Speaker of the House of Representatives the status of all county billings made from April 1, 2012 through March 31, 2013. Once a final accounting has been completed by AHCA and all county protest rights have expired, the county percentage shares based on six months of actual billing data will be replaced with the county percentage shares based on twelve months of actual billing data. If a court invalidates the replacement of each county's shares, the county shares based on six months of billing data will continue to apply.

By June 1 of each year, DOR must notify each county of its annual contribution. Counties must pay, via check or electronic transfer, by the 5th of each month. If a county fails to remit payment by the 5th of the month, DOR is directed to reduce the county's monthly distribution from the Local Government Half-Cent Sales Tax Trust Fund by the amount of the monthly installment. The payments and the amounts by which the distributions are reduced are transferred to the General Revenue Fund.

The amount of each county's contribution for Fiscal Year 2013-2014 must be determined and provided by AHCA to DOR by June 15, 2013. DOR will notify each county of its annual contribution by June 20, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference estimated the following annual changes to General Revenue Fund receipts: Fiscal Year 2013-2014: no change; Fiscal Year 2014-2015: $11.3 million reduction; Fiscal Year 2015-2016: $12.9 million reduction; Fiscal Year 2016-2017: $16.4 million reduction; Fiscal Year 2017-2018: $20.4 million reduction.

B. Private Sector Impact:

None.

C. Government Sector Impact:

Administrative costs incurred by AHCA and individual counties under the current law should be significantly lower under the provisions of SB 1884.

Each county will pay a portion of the total annual contribution for all counties. For Fiscal Year 2013-2014, the total annual contribution for all counties is $269.6 million. On the table in the following pages, the estimated contribution in Fiscal Year 2013-2014 for all counties is provided. However, over a seven-year period, each county's contribution will transition from percentage shares based on actual billing data to percentage shares based on Medicaid enrollees.

Fiscal Year 2013-2014 Estimated County Contributions

TOTAL	**99.98%**	**$269,562,795**

VI. Technical Deficiencies:

It is not clear which agency is responsible for calculating each county's annual contribution. The bill should clarify that the Agency for Healthcare Administration is responsible for calculating each county's shares and providing the information to the Department of Revenue.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations on April 23, 2013:
Compared to the bill, the committee substitute provides that, for Fiscal Year 2013-2014, each county's share is based on actual payments made during Fiscal Year 2012-2013. The CS also provides a seven-year period to transition from county shares based on past billing data to county shares based on the number of Medicaid enrollees in each county.

B. Amendments:

None.

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
04/25/2013	.	
	.	
	.	
	.	

The Committee on Appropriations (Grimsley) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Section 409.915, Florida Statutes, is amended to read:

409.915 County contributions to Medicaid.—Although the state is responsible for the full portion of the state share of the matching funds required for the Medicaid program, ~~in order to acquire a certain portion of these funds,~~ the state shall charge the counties an annual contribution in order to acquire a certain portion of these funds ~~for certain items of care and~~

215006

~~service as provided in this section~~.

(1) As used in this section, the term "state Medicaid expenditures" means those expenditures used as matching funds for the federal Medicaid program.

(2)(a) For the 2013-2014 state fiscal year, the total amount of the counties' contribution is $269.6 million. For each fiscal year thereafter, the annual amount shall be adjusted by the percentage change in the state Medicaid expenditures as determined by the Social Services Estimating Conference.

(b) By March 15 of each year, the Social Services Estimating Conference shall determine the percentage change in state Medicaid expenditures by comparing expenditures for the 2 most recent completed state fiscal years.

(3)(a)1. The amount of each county's annual contribution is equal to the product of the amount determined under subsection (2) multiplied by the sum of the percentages calculated in sub-subparagraphs a. and b.:

a. The enrollment weight provided in subparagraph 2. is multiplied by a fraction, the numerator of which is the number of the county's Medicaid enrollees as of March 1 of each year, and the denominator of which is the number of all counties' Medicaid enrollees as of March 1 of each year. The agency shall calculate this amount for each county and provide the information to the Department of Revenue by May 15 of each year.

b. The payment weight provided in subparagraph 2. is multiplied by the percentage share of payments provided in subparagraph 3. for each county.

2. The weights for each fiscal year are equal to:

215006

	Weights	
Fiscal Year	Enrollment	Payment
2013-14	0%	100%
2014-15	16.67%	83.33%
2015-16	33.34%	66.66%
2016-17	50%	50%
2017-18	66.66%	33.34%
2018-19	83.33%	16.67%
2019-20+	100%	0%

3. The percentage share of payments for each county is:

County	Share of Payments

(b)1. The Legislature intends to replace the county percentage share provided in subparagraph (a)3. with percentage shares based upon each county's proportion of the total statewide amount of county billings made under this section from April 1, 2012, through March 31, 2013, for which the state ultimately receives payment.

2. By February 1 of each year and continuing until a certification is made under sub-subparagraph b., the agency shall report to the President of the Senate and the Speaker of the House of Representatives the status of the county billings

made under this section from April 1, 2012, through March 31, 2013, by county, including:

a. The amounts billed to each county which remain unpaid, if any; and

b. A certification from the agency of a final accounting of the amount of funds received by the state from such billings, by county, upon the expiration of all appeal rights that counties may have to contest such billings.

3. By March 15 of the state fiscal year in which the state receives the certification provided for in sub-subparagraph (b)2.b., the Social Services Estimating Conference shall calculate each county's percentage share of the total statewide amount of county billings made under this section from April 1, 2012, through March 31, 2013, for which the state ultimately receives payment.

4. Beginning in the state fiscal year following the receipt by the state of the certification provided in sub-subparagraph (b)2.b., each county's percentage share under subparagraph (a)3. shall be replaced by the percentage calculated under subparagraph (b)3.

5. If the court invalidates the replacement of each county's share as provided in this paragraph, the county share set forth in subparagraph (a)3. shall continue to apply.

(4) By June 1 of each year, the Department of Revenue shall notify each county of its required annual contribution. Each county shall pay its contribution, by check or electronic transfer, in equal monthly installments to the department by the 5th day of each month. If a county fails to remit the payment by the 5th day of the month, the department shall reduce the

monthly distribution of that county pursuant to s. 218.61 and, if necessary, by the amount of the monthly installment pursuant to s. 218.26. The payments and the amounts by which the distributions are reduced shall be transferred to the General Revenue Fund.

~~(1) Each county shall participate in the following items of care and service:~~

~~(a) For both health maintenance members and fee-for-service beneficiaries, payments for inpatient hospitalization in excess of 10 days, but not in excess of 45 days, with the exception of pregnant women and children whose income is in excess of the federal poverty level and who do not participate in the Medicaid medically needy program, and for adult lung transplant services.~~

~~(b) For both health maintenance members and fee-for-service beneficiaries, payments for nursing home or intermediate facilities care in excess of $170 per month, with the exception of skilled nursing care for children under age 21.~~

~~(2) A county's participation must be 35 percent of the total cost, or the applicable discounted cost paid by the state for Medicaid recipients enrolled in health maintenance organizations or prepaid health plans, of providing the items listed in subsection (1), except that the payments for items listed in paragraph (1)(b) may not exceed $55 per month per person.~~

~~(3) Each county shall set aside sufficient funds to pay for items of care and service provided to the county's eligible recipients for which county contributions are required, regardless of where in the state the care or service is rendered.~~

215006

~~(4) Each county shall contribute its pro rata share of the total county participation based upon statements rendered by the agency. The agency shall render such statements monthly based on each county's eligible recipients. For purposes of this section, each county's eligible recipients shall be determined by the recipient's address information contained in the federally approved Medicaid eligibility system within the Department of Children and Family Services. A county may use the process developed under subsection (10) to request a refund if it determines that the statement rendered by the agency contains errors.~~

(5) In any county in which a special taxing district or authority is located which benefits ~~will benefit~~ from the Medicaid program ~~medical assistance programs covered by this section~~, the board of county commissioners may divide the county's financial responsibility for this purpose proportionately, and each such district or authority must furnish its share to the board of county commissioners in time for the board to comply with subsection (4) ~~(3)~~. Any appeal of the proration made by the board of county commissioners must be made to the Department of Financial Services, which shall ~~then~~ set the proportionate share for ~~of~~ each party.

~~(6) Counties are exempt from contributing toward the cost of new exemptions on inpatient ceilings for statutory teaching hospitals, specialty hospitals, and community hospital education program hospitals that came into effect July 1, 2000, and for special Medicaid payments that came into effect on or after July 1, 2000.~~

(6)~~(7)~~(a) By August 1, 2012, the agency shall certify to

215006

each county the amount of such county's billings from November 1, 2001, through April 30, 2012, which remain unpaid. A county may contest the amount certified by filing a petition under the applicable provisions of chapter 120 on or before September 1, 2012. This procedure is the exclusive method to challenge the amount certified. In order to successfully challenge the amount certified, a county must show, by a preponderance of the evidence, that a recipient was not an eligible recipient of that county or that the amount certified was otherwise in error.

(b) By September 15, 2012, the agency shall certify to the Department of Revenue:

1. For each county that files a petition on or before September 1, 2012, the amount certified under paragraph (a); and

2. For each county that does not file a petition on or before September 1, 2012, an amount equal to 85 percent of the amount certified under paragraph (a).

(c) The filing of a petition under paragraph (a) does ~~shall~~ not stay or stop the Department of Revenue from reducing distributions in accordance with paragraph (b) and subsection (7) ~~(8)~~. If a county that files a petition under paragraph (a) is able to demonstrate that the amount certified should be reduced, the agency shall notify the Department of Revenue of the amount of the reduction. The Department of Revenue shall adjust all future monthly distribution reductions under subsection (7) ~~(8)~~ in a manner that results in the remaining total distribution reduction being applied in equal monthly amounts.

(7)~~(8)~~(a) Beginning with the October 2012 distribution, the Department of Revenue shall reduce each county's distributions

pursuant to s. 218.26 by one thirty-sixth of the amount certified by the agency under subsection (6) ~~(7)~~ for that county, minus any amount required under paragraph (b). Beginning with the October 2013 distribution, the Department of Revenue shall reduce each county's distributions pursuant to s. 218.26 by one forty-eighth of two-thirds of the amount certified by the agency under subsection (6) ~~(7)~~ for that county, minus any amount required under paragraph (b). However, the amount of the reduction may not exceed 50 percent of each county's distribution. If, after 60 months, the reductions for any county do not equal the total amount initially certified by the agency, the Department of Revenue shall continue to reduce such county's distribution by up to 50 percent until the total amount certified is reached. The amounts by which the distributions are reduced shall be transferred to the General Revenue Fund.

(b) As an assurance to holders of bonds issued before the effective date of this act to which distributions made pursuant to s. 218.26 are pledged, or bonds issued to refund such bonds which mature no later than the bonds they refunded and which result in a reduction of debt service payable in each fiscal year, the amount available for distribution to a county shall remain as provided by law and continue to be subject to any lien or claim on behalf of the bondholders. The Department of Revenue must ensure, based on information provided by an affected county, that any reduction in amounts distributed pursuant to paragraph (a) does not reduce the amount of distribution to a county below the amount necessary for the timely payment of principal and interest when due on the bonds and the amount necessary to comply with any covenant under the bond resolution

215006

or other documents relating to the issuance of the bonds. If a reduction to a county's monthly distribution must be decreased in order to comply with this paragraph, the Department of Revenue must notify the agency of the amount of the decrease and the agency must send a bill for payment of such amount to the affected county.

~~(9)(a) Beginning May 1, 2012, and each month thereafter, the agency shall certify to the Department of Revenue by the 7th day of each month the amount of the monthly statement rendered to each county pursuant to subsection (4). Beginning with the May 2012 distribution, the Department of Revenue shall reduce each county's monthly distribution pursuant to s. 218.61 by the amount certified by the agency minus any amount required under paragraph (b). The amounts by which the distributions are reduced shall be transferred to the General Revenue Fund.~~

~~(b) As an assurance to holders of bonds issued before the effective date of this act to which distributions made pursuant to s. 218.61 are pledged, or bonds issued to refund such bonds which mature no later than the bonds they refunded and which result in a reduction of debt service payable in each fiscal year, the amount available for distribution to a county shall remain as provided by law and continue to be subject to any lien or claim on behalf of the bondholders. The Department of Revenue must ensure, based on information provided by an affected county, that any reduction in amounts distributed pursuant to paragraph (a) does not reduce the amount of distribution to a county below the amount necessary for the timely payment of principal and interest when due on the bonds and the amount necessary to comply with any covenant under the bond resolution~~

215006

~~or other documents relating to the issuance of the bonds. If a reduction to a county's monthly distribution must be decreased in order to comply with this paragraph, the Department of Revenue must notify the agency of the amount of the decrease and the agency must send a bill for payment of such amount to the affected county.~~

~~(10) The agency, in consultation with the Department of Revenue and the Florida Association of Counties, shall develop a process for refund requests which:~~

~~(a) Allows counties to submit to the agency written requests for refunds of any amounts by which the distributions were reduced as provided in subsection (9) and which set forth the reasons for the refund requests.~~

~~(b) Requires the agency to make a determination as to whether a refund request is appropriate and should be approved, in which case the agency shall certify the amount of the refund to the department.~~

~~(c) Requires the department to issue the refund for the certified amount to the county from the General Revenue Fund. The Department of Revenue may issue the refund in the form of a credit against reductions to be applied to subsequent monthly distributions.~~

(8) ~~(11)~~ Beginning in the 2013-2014 fiscal year and each year thereafter through the 2020-2021 fiscal year, the Chief Financial Officer shall transfer from the General Revenue Fund to the Lawton Chiles Endowment Fund an amount equal to the amounts transferred to the General Revenue Fund in the previous fiscal year pursuant to subsections (4) and (7) ~~subsections (8) and (9), reduced by the amount of refunds paid pursuant to~~

215006

~~subsection (10),~~ which are in excess of the official estimate for medical hospital fees for such previous fiscal year adopted by the Revenue Estimating Conference on January 12, 2012, as reflected in the conference's workpapers. By July 20 of each year, the Office of Economic and Demographic Research shall certify the amount to be transferred to the Chief Financial Officer. Such transfers must be made before July 31 of each year until the total transfers for all years equal $350 million. If ~~In the event that~~ such transfers do not total $350 million by July 1, 2021, the Legislature shall provide for the transfer of amounts necessary to total $350 million. The Office of Economic and Demographic Research shall publish the official estimates reflected in the conference's workpapers on its website.

(9) ~~(12)~~ The agency may adopt rules to administer this section.

Section 2. Notwithstanding s. 409.915(3) and (4), Florida Statutes, as amended by this act, the amount of each county's contribution during the 2013-2014 state fiscal year shall be determined and provided to the Department of Revenue by the Agency for Health Care Administration by June 15, 2013. The Department of Revenue shall notify each county of its annual contribution by June 20, 2013.

Section 3. This act shall take effect upon becoming a law.

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

Delete everything before the enacting clause and insert:

A bill to be entitled

215006

An act relating to county Medicaid contributions; amending s. 409.915, F.S.; specifying the total contribution for the year and specifying the method for determining the amount in the following years; revising the method for calculating each county's contribution; providing tables for calculating county contributions; requiring the Agency for Health Care Administration to annually report the status of county billings to the Legislature; authorizing the Department of Revenue to withhold county distributions for failure to remit Medicaid contributions; deleting provisions specifying the care and services that counties must participate in, obsolete bond provisions, and a process for refund requests; specifying the method for calculating each county's contribution for the 2013-2014 fiscal year; providing an effective date.

By the Committee on Health Policy

588-04482-13 20131884__

A bill to be entitled

An act relating to county Medicaid contributions; amending s. 409.915, F.S.; specifying the initial contribution and revising the method for calculating county contributions; providing timetables for calculating contributions and for payment of contributions; deleting provisions specifying the care and services that counties must participate in, obsolete bond provisions, and a process for refund requests; specifying the method for calculating each county's contribution for the 2013-2014 fiscal year; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 409.915, Florida Statutes, is amended to read:

409.915 County contributions to Medicaid.—Although the state is responsible for the full portion of the state share of the matching funds required for the Medicaid program, ~~in order to acquire a certain portion of these funds,~~ the state shall charge the counties an annual contribution in order to acquire a certain portion of these funds ~~for certain items of care and service as provided in this section~~.

(1) As used in this section, the term "state Medicaid expenditures," means those expenditures used as matching funds for the federal Medicaid program.

(2)(a) For the 2013-2014 state fiscal year, the total amount of the counties' contribution is $269.6 million. For each

588-04482-13 20131884__

fiscal year thereafter, the annual amount shall be adjusted by the percentage change in the state Medicaid expenditures as determined by the Social Services Estimating Conference.

(b) By March 15 of each year, the Social Services Estimating Conference shall determine the percentage change in state Medicaid expenditures by comparing expenditures for the 2 most recent completed state fiscal years.

(3) The amount of each county's annual contribution shall be equal to the product of the amount determined under subsection (2) multiplied by a fraction, the numerator of which is the number of the county's Medicaid enrollees as of March 1 of each year, and the denominator of which is the number of all counties' Medicaid enrollees as of March 1 of each year. The agency shall calculate this amount for each county and provide the information to the Department of Revenue by May 15 of each year.

(4) By June 1 of each year, the Department of Revenue shall notify each county of its annual contribution. Each county shall pay its contribution, by check or electronic transfer, in equal monthly installments to the Department of Revenue by the 5th day of each month. If a county fails to remit the payment by the 5th day of the month, the Department of Revenue shall reduce each county's monthly distribution pursuant to s. 218.61 by the amount of the monthly installment. The payments and the amounts by which the distributions are reduced shall be transferred to the General Revenue Fund.

~~(1) Each county shall participate in the following items of care and service:~~

~~(a) For both health maintenance members and fee-for-service~~

~~beneficiaries, payments for inpatient hospitalization in excess of 10 days, but not in excess of 45 days, with the exception of pregnant women and children whose income is in excess of the federal poverty level and who do not participate in the Medicaid medically needy program, and for adult lung transplant services.~~

~~(b) For both health maintenance members and fee for service beneficiaries, payments for nursing home or intermediate facilities care in excess of $170 per month, with the exception of skilled nursing care for children under age 21.~~

~~(2) A county's participation must be 35 percent of the total cost, or the applicable discounted cost paid by the state for Medicaid recipients enrolled in health maintenance organizations or prepaid health plans, of providing the items listed in subsection (1), except that the payments for items listed in paragraph (1)(b) may not exceed $55 per month per person.~~

~~(3) Each county shall set aside sufficient funds to pay for items of care and service provided to the county's eligible recipients for which county contributions are required, regardless of where in the state the care or service is rendered.~~

~~(4) Each county shall contribute its pro rata share of the total county participation based upon statements rendered by the agency. The agency shall render such statements monthly based on each county's eligible recipients. For purposes of this section, each county's eligible recipients shall be determined by the recipient's address information contained in the federally approved Medicaid eligibility system within the Department of Children and Family Services. A county may use the process~~

~~developed under subsection (10) to request a refund if it determines that the statement rendered by the agency contains errors.~~

(5) In any county in which a special taxing district or authority is located which benefits ~~will benefit~~ from the Medicaid program ~~medical assistance programs covered by this section~~, the board of county commissioners may divide the county's financial responsibility for this purpose proportionately, and each such district or authority must furnish its share to the board of county commissioners in time for the board to comply with subsection (4) ~~(3)~~. Any appeal of the proration made by the board of county commissioners must be made to the Department of Financial Services, which shall ~~then~~ set the proportionate share for ~~of~~ each party.

~~(6) Counties are exempt from contributing toward the cost of new exemptions on inpatient ceilings for statutory teaching hospitals, specialty hospitals, and community hospital education program hospitals that came into effect July 1, 2000, and for special Medicaid payments that came into effect on or after July 1, 2000.~~

(6)~~(7)~~(a) By August 1, 2012, the agency shall certify to each county the amount of such county's billings from November 1, 2001, through April 30, 2012, which remain unpaid. A county may contest the amount certified by filing a petition under the applicable provisions of chapter 120 on or before September 1, 2012. This procedure is the exclusive method to challenge the amount certified. In order to successfully challenge the amount certified, a county must show, by a preponderance of the evidence, that a recipient was not an eligible recipient of that

county or that the amount certified was otherwise in error.

(b) By September 15, 2012, the agency shall certify to the Department of Revenue:

1. For each county that files a petition on or before September 1, 2012, the amount certified under paragraph (a); and

2. For each county that does not file a petition on or before September 1, 2012, an amount equal to 85 percent of the amount certified under paragraph (a).

(c) The filing of a petition under paragraph (a) does ~~shall~~ not stay or stop the Department of Revenue from reducing distributions in accordance with paragraph (b) and subsection (7) ~~(8)~~. If a county that files a petition under paragraph (a) is able to demonstrate that the amount certified should be reduced, the agency shall notify the Department of Revenue of the amount of the reduction. The Department of Revenue shall adjust all future monthly distribution reductions under subsection (7) ~~(8)~~ in a manner that results in the remaining total distribution reduction being applied in equal monthly amounts.

(7)~~(8)~~(a) Beginning with the October 2012 distribution, the Department of Revenue shall reduce each county's distributions pursuant to s. 218.26 by one thirty-sixth of the amount certified by the agency under subsection (6) ~~(7)~~ for that county, minus any amount required under paragraph (b). Beginning with the October 2013 distribution, the Department of Revenue shall reduce each county's distributions pursuant to s. 218.26 by one forty-eighth of two-thirds of the amount certified by the agency under subsection (6) ~~(7)~~ for that county, minus any amount required under paragraph (b). However, the amount of the

reduction may not exceed 50 percent of each county's distribution. If, after 60 months, the reductions for any county do not equal the total amount initially certified by the agency, the Department of Revenue shall continue to reduce such county's distribution by up to 50 percent until the total amount certified is reached. The amounts by which the distributions are reduced shall be transferred to the General Revenue Fund.

(b) As an assurance to holders of bonds issued before the effective date of this act to which distributions made pursuant to s. 218.26 are pledged, or bonds issued to refund such bonds which mature no later than the bonds they refunded and which result in a reduction of debt service payable in each fiscal year, the amount available for distribution to a county shall remain as provided by law and continue to be subject to any lien or claim on behalf of the bondholders. The Department of Revenue must ensure, based on information provided by an affected county, that any reduction in amounts distributed pursuant to paragraph (a) does not reduce the amount of distribution to a county below the amount necessary for the timely payment of principal and interest when due on the bonds and the amount necessary to comply with any covenant under the bond resolution or other documents relating to the issuance of the bonds. If a reduction to a county's monthly distribution must be decreased in order to comply with this paragraph, the Department of Revenue must notify the agency of the amount of the decrease and the agency must send a bill for payment of such amount to the affected county.

~~(9)(a) Beginning May 1, 2012, and each month thereafter, the agency shall certify to the Department of Revenue by the 7th~~

~~day of each month the amount of the monthly statement rendered to each county pursuant to subsection (4). Beginning with the May 2012 distribution, the Department of Revenue shall reduce each county's monthly distribution pursuant to s. 218.61 by the amount certified by the agency minus any amount required under paragraph (b). The amounts by which the distributions are reduced shall be transferred to the General Revenue Fund.~~

~~(b) As an assurance to holders of bonds issued before the effective date of this act to which distributions made pursuant to s. 218.61 are pledged, or bonds issued to refund such bonds which mature no later than the bonds they refunded and which result in a reduction of debt service payable in each fiscal year, the amount available for distribution to a county shall remain as provided by law and continue to be subject to any lien or claim on behalf of the bondholders. The Department of Revenue must ensure, based on information provided by an affected county, that any reduction in amounts distributed pursuant to paragraph (a) does not reduce the amount of distribution to a county below the amount necessary for the timely payment of principal and interest when due on the bonds and the amount necessary to comply with any covenant under the bond resolution or other documents relating to the issuance of the bonds. If a reduction to a county's monthly distribution must be decreased in order to comply with this paragraph, the Department of Revenue must notify the agency of the amount of the decrease and the agency must send a bill for payment of such amount to the affected county.~~

~~(10) The agency, in consultation with the Department of Revenue and the Florida Association of Counties, shall develop a~~

~~process for refund requests which:~~

~~(a) Allows counties to submit to the agency written requests for refunds of any amounts by which the distributions were reduced as provided in subsection (9) and which set forth the reasons for the refund requests.~~

~~(b) Requires the agency to make a determination as to whether a refund request is appropriate and should be approved, in which case the agency shall certify the amount of the refund to the department.~~

~~(c) Requires the department to issue the refund for the certified amount to the county from the General Revenue Fund. The Department of Revenue may issue the refund in the form of a credit against reductions to be applied to subsequent monthly distributions.~~

(8)~~(11)~~ Beginning in the 2013-2014 fiscal year and each year thereafter through the 2020-2021 fiscal year, the Chief Financial Officer shall transfer from the General Revenue Fund to the Lawton Chiles Endowment Fund an amount equal to the amounts transferred to the General Revenue Fund in the previous fiscal year pursuant to subsections (4) and (7) ~~subsections (8) and (9), reduced by the amount of refunds paid pursuant to subsection (10),~~ which are in excess of the official estimate for medical hospital fees for such previous fiscal year adopted by the Revenue Estimating Conference on January 12, 2012, as reflected in the conference's workpapers. By July 20 of each year, the Office of Economic and Demographic Research shall certify the amount to be transferred to the Chief Financial Officer. Such transfers must be made before July 31 of each year until the total transfers for all years equal $350 million. If

~~In the event that~~ such transfers do not total $350 million by July 1, 2021, the Legislature shall provide for the transfer of amounts necessary to total $350 million. The Office of Economic and Demographic Research shall publish the official estimates reflected in the conference's workpapers on its website.

(9)~~(12)~~ The agency may adopt rules to administer this section.

Section 2. Notwithstanding s. 409.915(3) and (4), Florida Statutes, as amended by this act, the amount of each county's contribution during the 2013-2014 state fiscal year shall be determined and provided to the Department of Revenue by the Agency for Health Care Administration by June 15, 2013. The Department of Revenue shall notify each county of its annual contribution by June 20, 2013.

Section 3. This act shall take effect upon becoming a law.
