BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/SB 1816 (918752)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Health and Human Services) and Appropriations Committee
SUBJECT:	Health Care
DATE:	April 20, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Brown	Hansen		**AP SPB 7038 as introduced**
2.	Brown	Pigott	AHS	**Fav/CS**
3.	Brown	Hansen	AP	**Pre-meeting**
4.				
5.				
6.				

I. Summary:

PCS/SB 1816 amends several sections of the Florida Kidcare Program Act under Part II of chapter 409, Florida Statutes, to remove obsolete provisions and conform other provisions with changes in federal laws and regulations relating to the implementation of the federal Patient Protection and Affordable Care Act (Public Law 2011-148), as amended by the Health Care and Education Reconciliation Act of 2010 (Public Law 2011-152), known collectively as "PPACA," and the Supreme Court ruling in *National Federation of Independent Business v. Sebelius.*[1]

The bill adds definitions for "modified adjusted gross income" and "household income" to align with changes in Medicaid and Children's Health Insurance Program (CHIP) program eligibility laws and regulations and removes definitions that are no longer applicable to the program. The bill removes authority and provisions for an employer-sponsored insurance premium assistance program component in Florida Kidcare. Notification requirements for certain Florida Kidcare disenrollees regarding other insurance options on the exchange, as defined under PPACA, are added, and the non-subsidized program under Florida Kidcare is phased-out. The bill includes provisions for electronic eligibility matching through the exchange hub and an option for written documentation when matching is not feasible.

The bill includes appropriations of $10.93 million general revenue (GR) and $1.29 billion from the Medical Care Trust Fund for the 2013-2014 fiscal year to implement the bill.

[1] *National Federation of Independent Business v. Sebelius, 567 U.S.___(2012).*

The bill revises the eligibility process to reflect the procedures that will be used under the modified adjusted gross income (MAGI) method beginning January 1, 2014. The bill further revises the responsibilities of the Department of Children and Family Services (DCF), the Agency for Health Care Administration (AHCA), the Department of Health (DOH), the Florida Healthy Kids Corporation (FHKC), and the Office of Insurance Regulation (OIR) under the Florida Kidcare Program. The bill clarifies that the AHCA is directed to contract with the FHKC for the administration of the Healthy Kids and Healthy Florida programs.

The bill amends s. 624.91, Florida Statutes – the Florida Healthy Kids Corporation Act – to revise legislative intent to include a new program, Healthy Florida. The bill modifies FHKC's corporate governance structure, medical loss ratio guidelines for health plan contracts, and corporate responsibilities. The bill creates s. 624.917, Florida Statutes, to provide definitions, eligibility criteria, enrollment, and benefits for the Healthy Florida program. The FHKC is also authorized to make changes to the program to negotiate for the approval of the Healthy Florida program with the federal Department of Health and Human Services (HHS), if necessary.

The bill repeals the authority for an operating fund for the FHKC under section 624.915, Florida Statutes.

The bill includes a conflict of laws statement indicating that if there is a conflict between a provision in the bill and the PPACA, the provision must be interpreted to comply with the requirements of federal law.

The bill is effective upon becoming law.

This bill substantially amends the following sections of the Florida Statutes: 409.811, 409.813, 409.8132, 409.8135, 409.814, 409.815, 409.8177, 409.818, 409.820, and 624.91.

The bill creates section 624.917, Florida Statutes.

The bill repeals the following sections the Florida Statutes: 409.817, 409.8175, and 624.915.

II. Present Situation:

Florida provides health insurance coverage options to low income Floridians through a variety of programs utilizing state and federal funds. As of February 28, 2013, more than 3.2 million individuals received coverage through some Medicaid eligibility category.[2] Enrollment in the Florida Kidcare program (non-Medicaid funded components) for the same time period was an additional 256,721 children.[3]

Florida's Medicaid program is expected to expend $21 billion for the 2012-13 state fiscal year to provide coverage to its enrollees, making it the fifth largest in the nation in terms of

[2] Agency for Health Care Administration, *Report of Medicaid Eligibles*, http://ahca.myflorida.com/Medicaid/about/pdf/age_assistance_category_130228.pdf (last visited Mar. 17, 2013).
[3] Agency for Health Care Administration, *Florida KidCare Enrollment Report – February 2013*, (copy on file with the Senate Health Policy Committee).

expenditures.[4] The Florida Medicaid program is jointly funded between the state and federal governments; 57.73 percent of the cost for health care services is paid by federal funds and 42.27 percent is state share in the current state fiscal year. Funding for the Florida Kidcare program's Title XXI components has an enhanced federal match of 70.66 percent for federal fiscal year 2012-13.[5]

According to the most recent data from the American Community Survey (ACS) of the federal Census Bureau, an estimated 4 million Floridians are uninsured.[6] Of that number according to the ACS data, 594,000 are children.[7] Dividing Florida's uninsured by income level, more than 1.9 million adults are under 139% of the federal poverty level (FPL), according to statistics for 2010-2011.[8] Lower income adults, or those below 100 percent of the FPL, number at 1.1 million of the 1.9 million for that same time period.[9]

Eligibility for the Medicaid program is based on a number of factors, including age, household or individual income, and assets.

The Department of Children and Families (DCF) determines eligibility for the Medicaid program but the AHCA is the single state Medicaid agency and has the lead responsibility for the overall program.[10]

Recipients in the Medicaid program receive their benefits through several different delivery systems, depending on their individual situation. Delivery systems currently include fee-for-service providers, prepaid dental plans, provider service networks, and Medicaid managed care plans. In July 2006, the AHCA implemented the Medicaid Managed Pilot Program as directed by the 2005 Legislature through s. 409.91211, F.S. The pilot program operates under an 1115 Research and Demonstration Waiver approved by the federal Centers for Medicare and Medicaid Services. The pilot program was initially authorized for Broward and Duval counties with expansion to Baker, Clay and Nassau the following year.

Under the current pilot program, most Medicaid recipients in the five pilot counties (Broward, Duval, Baker, Clay, and Nassau counties) are required to receive their benefits through either

health maintenance organizations (HMOs), provider service networks (PSNs), or a specialty plan. In addition to the minimum benefits package, plans may provide enhanced services such as over the counter benefits, preventive dental care for adults, and health and wellness benefits.

Medicaid Statewide Managed Medical Care Program

In 2011, the Legislature passed HB 7107, creating the Statewide Medicaid Managed Medical Assistance (SMMC) Program as part IV of ch. 409, F.S. The SMMC requires the AHCA to create an integrated managed care program for Medicaid enrollees that incorporates all of the minimum benefits, for the delivery of primary and acute care. The SMMC has two components: the Long Term Care Managed Care program and the Managed Medical Assistance (MMA) program.

As the single state agency for Medicaid under s. 409.963, F.S., the AHCA has primary responsibility for the management and operations of the state's Medicaid program, including seeking waiver authority from the federal government. To implement these two programs and receive federal Medicaid funding, the AHCA was required to seek federal authorization through two different Medicaid waivers from the Centers for Medicare and Medicaid Services. The first component authorized was the LTC Managed Care Program's 1915(b) and (c) waiver. Approval was granted on February 1, 2013.

The LTC Managed Care Program will serve those individuals who are 65 years of age or old or who are eligible for Medicaid by reason of a disability, subject to wait list prioritization and availability of funds. The recipients must also be determined to require a nursing facility level of care. Medicaid recipients who qualify will receive all of their long-term care services from the long-term care managed care plan.

The AHCA is responsible for administering the LTC Managed Care Program but may delegate specific duties to the Department of Elderly Affairs and other state agencies. Implementation of the LTC Managed Care program started July 1, 2012, with completion expected by October 1, 2013. The AHCA released an Invitation to Negotiate (ITN) on June 29, 2012, and on January 15, 2013, notices of contract awards to managed care plans under that ITN were announced.

For the SMMC component, the AHCA sought to modify the existing Medicaid Reform 1115 Demonstration waiver with the Centers for Medicare and Medicaid Services to expand the program statewide. The AHCA initiated the SMMC project in January 2012 and released a separate ITN to competitively procure managed care plans on a statewide basis on December 28, 2012. Bids are due to the AHCA on March 29, 2013 and awards are expected to be announced on September 16, 2013.

Plans can supplement the minimum benefits in their bids and offer enhanced options. The number of plans to be selected by region is prescribed under s. 409.974, F.S. Specialty plans that serve specific, targeted populations based on age, medical condition, and diagnosis, are also included under the SMMC program. Under s. 409.967, F.S., accountability provisions for the managed care plans specify several conditions or requirements including emergency care and physician reimbursement standards, access and credentialing requirements, encounter data submission guidelines, grievance and resolutions, and medical loss ratio calculations.

Statewide implementation of SMMC is expected to be completed by October 1, 2014. Final approval of the necessary Medicaid waiver by the federal government has not yet been received; however, on February 20, 2013 the AHCA and the Centers for Medicare and Medicaid Services reached an "Agreement in Principle" on the proposed plan.

Under SMMC, persons meeting applicable eligibility requirements of Title XIX of the Social Security Act must be enrolled in a managed care plan. Medicaid recipients who (a) have other creditable care coverage, excluding Medicare; (b) reside in residential commitment facilities operated through the Department of Juvenile Justice, group care facilities operated by the DCF, and treatment facilities funded through the DCF Substance Abuse and Mental Health Program; (c) are eligible for refugee assistance; or (d) are residents of a developmental disability center, may voluntarily enroll in the SMMC program. Those recipients who elect not to enroll in SMMC voluntarily will be served through the Medicaid fee-for-service system.

Florida Kidcare Program

The Florida Kidcare Program (Program) was created in 1998 by the Florida Legislature in response to the federal enactment of the Children's Health Insurance Program (CHIP) in 1997. The CHIP provides subsidized health insurance coverage to uninsured children who do not qualify for Medicaid but who have family incomes under 200 percent of the FPL and meet other eligibility criteria. The state statutory authority for the Program is found under part II of chapter 409; ss. 409.810 through 409.821, F.S.

The Program includes four operating components: Medicaid for children, Medikids, the Children's Medical Services Network, and the FHKC. Section 409.813, F.S., includes five components for the Program. The fifth component – the employer sponsored group health insurance plan – has never been implemented. The AHCA submitted a state plan amendment in December 1998 for implementation of that component; however, the plan amendment was disapproved by the federal Centers for Medicare and Medicaid Services in November 1999 and was not re-submitted.[11] The Title XXI-funded components of Florida Kidcare serve distinct populations under the program:[12]

- Medicaid for Children: Children from birth until age 1 for family incomes between 185 percent and 200 percent of the FPL.
- Medikids: Title XXI funding is available from age 1 until age 5 for family incomes between 133 percent and 200 percent of the FPL.
- Healthy Kids: Title XXI funding is available from age 5 through age 6 for family incomes between 133 and 200 percent of the FPL. For age 6 through age 18, Title XXI funding is available for family incomes between 100 percent and 200 percent of the FPL.

[11] *See* State of Florida, Florida KidCare Program, Title XXI State Child Health Insurance Plan, Amendment #22, July 1, 2012, pg. 6, http://medicaid.gov/Medicaid-CHIP-Program-Information/By-Topics/Childrens-Health-Insurance-Program-CHIP/Downloads/CHIP-SPAs/FL-CSPA-22-FINAL.pdf (last visited: March 15, 2013).
[12] *See* State of Florida, Florida KidCare Program, Title XXI State Child Health Insurance Plan, Amendment #22, July 1, 2012, pg.5., http://medicaid.gov/Medicaid-CHIP-Program-Information/By-Topics/Childrens-Health-Insurance-Program-CHIP/Downloads/CHIP-SPAs/FL-CSPA-22-FINAL.pdf (last visited: March 15, 2013).

- Children's Medical Services Network: Title XXI and Title XIX funds are available from birth until age 19 for family incomes up to 200 percent of the FPL for children with special health care needs. The Department of Health assesses whether children meet the clinical requirements.

Coverage for the non-Medicaid components of the Florida Kidcare Program is funded through Title XXI of the federal Social Security Act (CHIP coverage). Title XIX of the Social Security Act (Medicaid coverage), state funds for CHIP coverage, and family contributions also provide funding for the Florida Kidcare Program. Family contributions are based on family size, household income, and other eligibility factors. Families above the income limits for premium assistance or who are not otherwise eligible for premium assistance are offered the opportunity to participate in the Program at a non-subsidized rate (full-pay). Currently, the income limit for premium assistance is 200 percent of the FPL.

The Medikids program was created under s. 409.8132, F.S., as a Medicaid "look-alike" program for enrollees age 1 through 4. Medikids is administered by the AHCA and enrollees receive the same mandatory and optional benefits covered under ss. 409.905 and 409.906, F.S. Enrollees are offered a choice of health plans or, if two plans are not offered in a particular county, MediPass is provided as one of the options. Many provisions of the Medicaid program also apply to the Medikids program; such as program integrity, provider fraud and abuse preventions, and quality of care.

Under s. 409.814, F.S., the Program's eligibility guidelines are described in conformity with current Title XIX and Title XXI terminology and requirements for each funding component. Other eligibility factors related to premium assistance under this section include whether a child:

- Is covered under other employer-based coverage costing less than five percent of the family income;
- Is an alien, but does not meet the definition of a qualified alien;
- Is an inmate in a public institution or a patient in an institution for mental disease; or,
- Has dropped employer-sponsored coverage within 60 days of applying for premium assistance. Current law does provide good cause exceptions that may be taken into consideration for individuals that drop employer-sponsored coverage resulting in a waiver of the 60-day waiting period for premium assistances.

Families with income above 200 percent of the FPL or who do not meet the qualifications for premium assistance may still be able to purchase the coverage under Medikids or Healthy Kids at the non-subsidized rate.

To enroll in Kidcare, families utilize a form that is both a Medicaid and a CHIP application. Families may apply using either an online or a paper application. Both formats are available in English, Spanish, or Creole. Eligibility is determined through electronic data matching using available databases, or, when income cannot be verified electronically, through submission of current paystubs, tax returns, or W-2 forms. Families may also apply for Medicaid through the

DCF web portal (ACCESS) online, at an ACCESS community partner site, or with a paper form via the mail, fax, or in person at a Customer Service Center.[13]

Under s. 409.815, F.S., benefits under the Florida Kidcare program vary by program component. For Medicaid, Medikids, and the Children's Medical Services Network, enrollees receive the mandatory and optional medical benefits covered under ss. 409.905 and 409.906, F.S. For Healthy Kids and the employer-sponsored component, a benchmark benefit package is provided. The comprehensive benefit package includes preventive services, specialty care, hospitalization, prescription drug coverage, behavioral health and substance abuse services, dental care, vision and hearing services, and emergency care and transportation.

Limits on premiums and cost sharing in the Program are covered under s. 409.816, F.S., and conform to existing federal law and regulation for Title XIX and XXI. All Title XXI funded enrollees pay monthly premiums of $15 or $20 per family per month based on their family size and income. For those families at or below 150 percent of the FPL, the cost is $15 per family per month. For those between 150 percent of the FPL and 200 percent of the FPL, the cost is $20 per family per month. Enrollees in the Healthy Kids component also have copayments for non-preventive services that range from $5 per prescription to $10 for an inappropriate use of the emergency room visit. There are no copayments for visits related to well-child, preventive health, or dental care.[14]

Under s. 409.8175, F.S., a health maintenance organization may reimburse providers in a rural county according to the Medicaid fee schedule provided the provider agrees to such a schedule.

The AHCA contracts for an annual evaluation of the Program to address the statutory components of s. 409.8177, F.S. The annual reports are posted to the AHCA's website for public review and submitted to the Centers for Medicare and Medicaid Services.[15]

Several state agencies and the FHKC share responsibilities for the Program. Section 409.818, F.S., delineates the responsibilities for each of the entities under the Program, and subsection (5) preserves the FHKC's eligibility determination functions for the Healthy Kids program. Annually, the Legislature provides administrative funds through the AHCA's appropriation to contract with the FHKC to conduct the eligibility and administrative functions related to the Program.[16] The DCF determines eligibility for Medicaid and the FHKC determines eligibility for CHIP, which includes a Medicaid screening and referral process to the DCF, as appropriate.

During the 2012 Legislature, the DCF was directed to collaborate with the AHCA to develop an internet-based system for eligibility determination for Medicaid and CHIP.[17] The Legislature

[17] s. 409.902(3), F.S.

provided DCF with specific business and functional requirements for the project and timeframes for project completion.[18]

The following chart reflects current roles and responsibilities of the agencies and the FHKC:

Agency for Health Care Administration	Department of Children and Families	Department of Health	Florida Healthy Kids Corporation
Medicaid program and policy	Medicaid eligibility determination	Oversight of the Children's Medical Services Network program	Oversight of the Florida Healthy Kids Program
Lead state agency for Title XIX and XXI Compliance and federal funding	Manage B-NET program – specialized behavioral health care program	KidCare Coordinating Council	Conduct Title XXI (CHIP) eligibility and administration
Oversight of the Medikids program		Develop Quality Assurance Standards	Conduct Kidcare Outreach and Marketing
Monitor quality assurance standards			
Maintain Kidcare Grievance Process			

The Florida Kidcare Coordinating Council falls under the responsibility of the DOH; the secretary of the DOH chairs the Council. The Coordinating Council is specifically created under s. 409.818(2)(b), F.S., and is charged with making recommendations concerning the implementation and operation of the program. The Council includes representatives from the partner agencies and stakeholder representatives from the insurance industry, consumers, and providers. For 2013, the Council developed a single priority state recommendation: "To fully fund the Florida Kidcare program, including its annualization and medical trend needs, projected growth, outreach and increased medical and dental costs in order to maximize the use of Florida's CHIP federal funds and include all eligible uninsured children."[19]

The Florida Healthy Kids Program is authorized under s. 624.91, F.S., which is also known as the "William G. 'Doc' Myers Healthy Kids Corporation Act." The FHKC was created as a private, not-for-profit corporation by the 1990 Florida Legislature in an effort to increase access to health insurance for school-aged children.[20]

Eligibility for the state-funded assistance is prescribed under s. 624.91(3), F.S., and provides cross references to the Florida Kidcare Act. The Healthy Kids program is also identified as a non-entitlement program under subsection (4).

Under s. 624.91(5), F.S., the FHKC is managed by an executive director selected by the board with the number of staff determined by the board. The FHKC is authorized to:

- Collect contributions from families, local sources or employer based premiums;
- Accept voluntary local match for Title XXI and Title XXI;
- Accept supplemental local match for Title XXI;
- Establish administrative and accounting procedures;
- Establish preventive health standards for children that do not limit participation to pediatricians in rural areas with consultation from appropriate experts;
- Determine eligibility for children seeking enrollment in Title XXI funded and non-Title XXI components;
- Establish grievance processes;
- Establish participation criteria for administrative services for the FHKC;
- Establish enrollment criteria that include penalties or waiting periods for non-payment of premiums of 30 days;
- Contract with authorized insurers and other health care providers meeting standards established by the FHKC for the delivery of services and select health plans through a competitive bid process;
- Purchase goods and services in a cost effective manner with a minimum medical loss ratio of 85 percent for health plan contracts;
- Establish disenrollment criteria for insufficient funding levels;
- Develop a plan to publicize the program;
- Secure staff and the necessary funds to administer the program;
- Provide an annual Kidcare report, in consultation with partner agencies, to the governor, chief financial officer, commissioner of education, president of the Senate, speaker of the House of Representatives, and minority leaders of the Senate and House of Representatives;
- Provide quarterly enrollment information on the full pay population; and,
- Establish benefit packages that conform to the Florida Kidcare benchmark benefit.

The FHKC is governed by a 13-member board of directors, chaired by Florida's chief financial officer or his or her designee.[21] The 12 other board members are:

- Secretary of the AHCA;
- One member appointed by the commissioner of education from the Office of School Health Programs from the Department of Education;
- One member, appointed by the chief financial officer from among three members nominated by the Florida Pediatric Society;
- One member, appointed by the governor, who represents the Children's Medical Services Program;
- One member appointed by the chief financial officer from among three members nominated by the Florida Hospital Association;
- One member, appointed by the governor, who is an expert on child health policy;
- One member, appointed by the chief financial officer, from among three members nominated by the Florida Academy of Family Physicians;

[21] *See* s. 624.91(6), F.S.

- One member, appointed by the governor, who represents the state Medicaid program;
- One member, appointed by the chief financial officer, from among three members nominated by the Florida Association of Counties;
- The state health officer or his or her designee;
- The secretary of the DCF, or his or her designee; and,
- One member, appointed by the governor, from among three members nominated by the Florida Dental Association.

Board members do not receive compensation for their service but may receive reimbursement for per diem and travel expenses in accordance with s. 112.061, F.S.[22]

The FHKC is not an insurer and is not subject to the licensing requirements of the Department of Financial Services. In addition, the FHKC board is also granted complete fiscal control over the FHKC and responsibility for all fiscal operations. Any liquidation of the FHKC would be supervised by the Department of Financial Services.[23]

The Patient Protection and Affordable Care Act of 2010

In March 2010, the Congress passed and the President signed the PPACA.[24] Under PPACA, one of the key components required the states to expand Medicaid to a minimum national eligibility threshold of 133 percent of the FPL, or, as it is sometimes expressed, 138 percent of the FPL with application of an automatic five percent income disregard, effective January 1, 2014.[25] While the funding for the newly eligible under this expansion would be initially funded at 100 percent federal funds for the first 3 calendar years, the states would gradually be required to pay a share of the costs, starting at 5 percent in calendar year 2017 before leveling off at 10 percent in 2020.[26] As enacted, PPACA provided that states refusing to expand to the new national eligibility threshold faced the loss of *all* of their federal Medicaid funding.[27]

Florida, along with 25 other states challenged the constitutionality of the law. In *NFIB v. Sebelius*, the Supreme Court found the enforcement provisions of the Medicaid expansion unconstitutional.[28] As a result, states can voluntarily expand their Medicaid eligibility thresholds to PPACA standards and receive the enhanced federal match for the expansion population, but states cannot be penalized for not doing so.[29]

Since the decision in *NFIB v. Sebelius*, federal guidance has emphasized state flexibility in how states expand coverage to those defined as the newly eligible population. In a letter to the National Governors Association January 14, 2013, Health and Human Services Secretary

[28] *See supra* note 1.
[29] Department of Health and Human Services, *Secretary Sebelius Letter to Governors, July 10, 2012*, http://capsules.kaiserhealthnews.org/wp-content/uploads/2012/07/Secretary-Sebelius-Letter-to-the-Governors-071012.pdf (last visited Mar. 16, 2013).

Kathleen Sebelius reminded states of their ability to design flexible benefit packages without the need for waivers and the alternative benefit plans that are available.[30] This letter was preceded by the Frequently Asked Questions document on Exchange, Market Reforms and Medicaid, issued on December 10, 2012, that discussed promotion of personal responsibility wellness benefits and state flexibility to design benefits.[31]

A state Medicaid director letter on November 20, 2012 (ACA #21) further addressed state options for the adult Medicaid expansion group and the alternative benefit plans available under Section 1937 of the Social Security Act.[32] Under Section 1937, state Medicaid programs have the option of providing certain groups with benchmark or benchmark equivalent coverage based on four products: (1) the standard Blue Cross/Blue Shield Preferred Provider option offered to federal employees; (2) state employee coverage that is generally offered to all state employees; (3) the commercial HMO with the largest insured, non-Medicaid enrollment in the state or (4) Secretary-approved coverage.[33] For children under the age of 21, the coverage must include the Early and Periodic Screening, Diagnostic and Treatment Service (EPSDT). Other aspects of the essential health benefit requirements of PPACA, as discussed further below, may also be applicable, depending on the benefit package utilized.

In addition to the Medicaid expansion component, the PPACA imposes a mandate on individuals to acquire health insurance or pay a penalty, which was interpreted by the U.S. Supreme Court as a tax. Currently, many uninsured individuals are eligible for Medicaid or Kidcare coverage but are not enrolled. The existence of the federal mandate to purchase insurance may result in an unknown number of currently eligible individuals coming forward and enrolling Medicaid who had not previously chosen to enroll. Their participation – to the extent it occurs – will result in increased costs that the state would not likely have incurred without the catalyst of the federal legislation.

To facilitate coverage, PPACA authorized the state-based American Health Benefit Exchanges and Small Business Health Options Program (SHOP) Exchanges. These exchanges are to be administered by governmental agencies or non-profit organizations and be ready to accept applications for coverage beginning October 1, 2013, for January 1, 2014, coverage dates. The exchanges, at a minimum, must:[34]

- Certify, re-certify and de-certify plans participating on the exchange;
- Operate a toll-free hotline;
- Maintain a website;
- Provide plan information and plan benefit options;

[34]Centers for Medicare and Medicaid Services, Initial Guidance to States on Exchanges, November 18, 2010, http://cciio.cms.gov/resources/files/guidance_to_states_on_exchanges.html (last visited Mar. 16, 2013).

- Interact with the state's Medicaid and CHIP programs and provide information on eligibility and determination of eligibility for these programs;
- Certify individuals that gain exemptions from the individual responsibility requirement; and,
- Establish a navigator program.

The initial guidance from HHS in November 2010 set forward a number of principles and priorities for the exchanges. Further guidance was issued on May 16, 2012, detailing the proposed operations of a federally-facilitated exchange for those states that elect not to implement a state-based exchange. On November 16, 2012, Florida Governor Rick Scott notified HHS Secretary Sebelius that Florida had too many unanswered questions to commit to a state-based exchange under PPACA for the first enrollment period on January 1, 2014.[35]

PPACA also includes a tax penalty for those individuals that do not have qualifying health insurance coverage beginning January 1, 2014. The penalty is the greater of $695 per year up to a maximum of three times that amount per family or 2.5% of household income. The penalty, however, is phased-in and exemptions apply.

The following persons are exempt from the PPACA's requirement to maintain coverage:[36]

- Individuals with a religious objection;
- individuals not lawfully present; and
- Incarcerated individuals.

The following persons are exempt from the PPACA's penalty for failure to maintain coverage:[37]

- Individuals who cannot afford coverage, i.e. those whose required premium contributions exceed eight percent of household income;
- Individuals with income below the income tax filing threshold;
- American Indians;
- Individuals without coverage for less than three months; and
- Individuals determined by the HHS secretary to have suffered a hardship with respect to the capability to obtain coverage under a qualified plan.

Qualifying coverage may be obtained through an employer, the federal or state exchanges created under PPACA, or private individual or group coverage meeting the minimum essential benefits coverage standard.

Employers with more than 50 full time employees also share a financial responsibility under PPACA. Employers with more than 50 full-time employees that do not offer coverage meeting

[35] *Letter from Governor Rick Scott to Health and Human Services Secretary Kathleen Sebelius,* November 16, 2012 http://www.flgov.com/2012/11/16/letter-from-governor-rick-scott-to-u-s-secretary-of-health-and-human-services-kathleen-sebelius/ (last visited Mar. 16, 2013).
[36] *See* Sec. 5000A(d), Internal Revenue Code of 1986, as created or amended by the Patient Protection and Affordable Care Act of 2010 and/or the Health Care and Education Reconciliation Act of 2010.
[37] *See* Sec. 5000A(e), Internal Revenue Code of 1986, as created or amended by the Patient Protection and Affordable Care Act of 2010 and/or the Health Care and Education Reconciliation Act of 2010.

the essential benefits coverage standard and who have at least one employee receive a premium tax credit will be assessed a fee of $2,000 per full time employee, after the 30th employee.[38] If an employer does offer coverage and an employee receives a premium tax credit, the employer is assessed the lesser of $3,000 per employee receiving the credit or $2,000 per each employee after the 30th employee.[39]

Premium credits and other cost sharing subsidies are available to United States citizens and legal immigrants within certain income limits for coverage purchased through the exchanges. Legal immigrants with incomes at or below 100 percent of the FPL who are not eligible for Medicaid during their first five years are eligible for premium credits.[40] Premium credits are set on a sliding scale based on the percent of FPL for the household and reduce the out-of-pocket costs incurred by individuals and families.

The amount for premium tax credits, as a percentage of income, are set in section 36B of the Internal Revenue Code follows:[41]

Premium Tax Credits	
Income Range	**Premium Percentage Range** (% of income)
Up to 133% FPL	2%
133% to 150%	3% - 4%
150% to 200%	4% - 6.3%
200% to 250%	6.3% - 8.05%
250% to 300%	8.05% - 9.5%
300% to 400%	9.5%

Subsidies for cost sharing are also applicable for those between 100 percent of the FPL and 400 percent of the FPL. The cost sharing credits reduce the out-of-pocket amounts incurred by individuals on essential health benefits and will also impact the actuarial value of a health plan.[42] Actuarial value reflects the average share of covered benefits paid by the insurer or health plan.[43] For example, if the actuarial value of a plan is 90 percent, the health plan is paying 90 percent of the costs and the enrollee 10 percent. Under the PPACA, the maximum amount of cost sharing under this component range from 94 percent for those between 100 percent to 150 percent of the FPL, to 70 percent for those between 250 percent and 400 percent of the FPL.[44]

III. Effect of Proposed Changes:

Section 1 amends s. 409.811, F.S. adding, deleting, and modifying definitions relating to the Florida Kidcare Act. Definitions applicable to the overall Act, which is identified as ss. 409.810 through 409.821, F.S., are updated or added to align with requirements under PPACA:

- CHIP (Children's Health Insurance Program)
- Combined Eligibility Notice
- Household Income
- Modified Adjusted Gross Income (MAGI)
- Patient Protection and Affordable Care Act (Act)

Other definitions under this section are deleted as obsolete if related to the employer-sponsored component of the Florida Kidcare program. This program component was never implemented and is deleted under this bill. Definitions that have been modified or rendered obsolete by PPACA have also been deleted.

Section 2 amends s. 409.813, F.S., relating to the program components of the Florida Kidcare program. The bill also adds the FHKC to the list of entities for which a cause of action cannot be brought if coverage is not provided under the non-entitlement portion of the program. The FHKC is the only Kidcare component excluded.

Section 3 amends s. 409.8132, F.S., relating to the Medikids program component of the Florida Kidcare program. The bill deletes language permitting a Medikids enrollee who is a younger sibling of a Healthy Kids enrollee, to enroll in a Healthy Kids plan. An obsolete reference to receiving approval from the predecessor agency to the Centers for Medicare and Medicaid Services for MediPass coverage authorization is removed. The MediPass option in Medikids has been approved since the program was implemented in 1998.

Section 4 makes technical changes to s. 409.8134, F.S., relating to program expenditures and enrollment in the Florida Kidcare program.

Section 5 amends section s. 409.814, F.S., relating to eligibility for the Florida Kidcare program. The bill modifies references to align with changes under PPACA. Obsolete references related to the employer-sponsored component have been deleted. An option has been provided to Medicaid enrollees to elect coverage under the CHIP component and permit a transfer back to Medicaid at any time without a break in coverage.

Under s. 409.814(6)(c), F.S., the FHKC is directed to notify full pay enrollees of the availability of coverage under the exchanges, as created under PPACA. No new applications for full-pay or non-subsidized coverage are permitted after September 30, 2013.

Modifications to the eligibility determination process are made under s. 409.814(8), F.S., to reflect changes in the eligibility process under PPACA and the role of the federal data hub.

Section 6 amends s. 409.815, F.S., relating to the benefits under the Florida Kidcare program. Obsolete dates and references are deleted under certain benefits.

Section 7 amends s. 409.816, F.S, relating to lifetime benefits on premiums and limitations on cost sharing. References to "family," "family income," and "modified adjusted income" are updated to align with federal definitions under PPACA.

Section 8 repeals s. 409.817, F.S., relating to approval of health benefits, coverage, and financial assistance. The other requirements of this section have been preempted under PPACA.

Section 9 repeals s. 409.8175, F.S., relating to the delivery of services in rural counties. Health maintenance organizations and health insurers may contract with providers in accordance with any fee schedule that may be agreed upon by the parties. The language under this section is permissive and not mandatory under current law.

Section 10 amends s. 409.8177, F.S., relating to evaluation of the Florida Kidcare program. A reference to family income is updated to household income to align with PPACA.

Section 11 amends s. 409.818, F.S., relating to the administration of the Florida Kidcare program. The duties and responsibilities of the DCF are modified to recognize the modernization efforts and process changes under PPACA. The department is required to develop a combined eligibility notice, in consultation with the AHCA and the FHKC. A reference to a centralized coordinating office is deleted.

Specific administrative responsibilities for the Florida Kidcare program for the DOH are deleted. Obsolete provisions for designing the eligibility intake process are removed, as is the requirement for the DOH to establish a toll-free hotline. The FHKC provides customer service for the Florida Kidcare program, including operation of the toll-free hotline, under its Florida Kidcare eligibility determination responsibilities.

The responsibilities for the AHCA under this section are modified to reflect the removal of the employer-sponsored component and accompanying deletion of the OIR involvement. Technical references to a more general definition of managed care organizations rather than the more limited term of HMOs are made in this section. References to specific topics for rulemaking are deleted. A direction to contract with the FHKC for the Healthy Kids program and the Healthy Florida program is added. Direction to the AHCA for Healthy Kids has been included annually in proviso or implementing bill language in the past.

Responsibilities under the Florida Kidcare program for the OIR have been deleted. Their removal reflects the deletion of the employer sponsored component from the program.

Section 12 amends s. 409.820, F.S., relating to the quality assurance and access standards for the Florida Kidcare program. The quality assurance and access standards are clarified to show that such standards are for the pediatric and adolescent populations.

Section 13 amends s. 624.91, F.S., relating to the FHKC. The legislative intent for the Florida Healthy Kids Corporation Act is expanded to include a new program called "Healthy Florida." The legislative intent states that Healthy Florida will cover uninsured adults utilizing a unique

network of providers and contracts through which enrollees will receive a comprehensive set of benefits and services.

The Florida Healthy Kids Corporation Act is modified in several subsections to reflect the addition of the Healthy Florida program. Cross references are added to the Florida Kidcare program and the Florida Medicaid program, as appropriate.

Section 624.91(5)(b), F.S., is amended to incorporate the Healthy Florida program and to align with changes made to the Florida Kidcare Act.

Provisions under s. 624.91(5)(b)10., F.S., are separated into individual sub-subparagraphs by topic. No substantive change is made in sub-subparagraphs a. and b. The medical loss ratio requirement for the Healthy Kids program is modified under sub-subparagraph c. to include all health care contracts and language relating to the exemption of dental contracts is deleted. Clarification on how the calculations for the medical loss ratios will be computed is added and a cross reference to federal guidelines for classification of funds is included.

Under s. 624.91(5)(b)12., F.S., the FHKC's responsibility for the development of a plan for publicity of the Florida Kidcare program, public awareness, eligibility procedures, and requirements and to maintain public awareness is expanded to include both the Florida Kidcare program and the Healthy Florida program.

Requirements for separate reporting on the full-pay program by the FHKC are repealed effective December 31, 2013. The repeal aligns with the closure of new enrollment in the full-pay program effective September 30, 2013, and the availability of the exchange on January 1, 2014. A new subparagraph 16 requires the FHKC to notify existing full-pay enrollees of the availability of the exchange and how to access services. No new applications for full-pay coverage may be accepted after September 30, 2013.

Amendments to s. 624.91(5)(d), F.S., provides that the FHKC and any committees formed by the FHKC are subject to the conflict of interest provisions of ch. 112, F.S., the public records provisions of ch. 119, F.S., and the public meeting requirements of ch. 286, F.S.

The membership of the FHKC board of directors is changed to require that the chair of the board be appointed by the governor, rather than the chief financial officer or his or her designee. The specific membership and nominating guidelines for the 12 other members of the FHKC board are repealed and replaced with a board of 15 members designated or appointed as follow:

- The secretary of the AHCA, or his or her designee, as an ex-officio member;
- The state surgeon general, or his or her designee, as an ex-officio member;
- The secretary of the DCF, or his or her designee, as an ex-officio member;
- Four members appointed by the governor;
- Two members appointed by the president of the Senate;
- Two members appointed by the Senate minority leader;
- Two members appointed by the speaker of the House of Representatives; and
- Two members appointed by the House minority leader.

The chair and other members of the board will be subject to Senate confirmation. Members of the board will serve three-year terms and appointed members will serve at the pleasure of the official who appointed them. A provision is also included that any current board member serving at the time of enactment may remain until July 1, 2013, to provide the governor time to appoint a new board after the enactment of the law.

An executive steering committee of agency secretaries is created to provide management direction and support to the board and its programs. The steering committee comprises the secretary of the AHCA, the secretary of the DCF, and the state surgeon general.

Section 14 repeals s. 624.915, F.S., relating to the Florida Healthy Kids Corporation Operating Fund. This language is obsolete and the option is not being utilized by the FHKC.

Section 15 creates a new section of statute, s. 624.917, F.S., relating to the Healthy Florida program. Healthy Florida will be administered by the FHKC as a program for lower income, uninsured adults who meet eligibility guidelines established by the FHKC. Definitions are provided that are specific to the Healthy Florida program under s. 624.917(2), F.S.

Eligibility for the Healthy Florida program is prescribed under s. 624.917(3), F.S. To be eligible and remain eligible, an individual must be a Florida resident and meet the definition of being "newly eligible" under PPACA, maintain their eligibility with the FHKC, and meet any renewal requirements to renew their coverage at least annually.

Under s. 624.917(4), F.S., enrollment may begin on October 1, 2013, with coverage effective no earlier than January 1, 2014. Enrollment in the program may occur through a third party administrator, referrals from other agencies, or through the exchange, as defined under PPACA. When an enrollee leaves the program, the FHKC is required to provide information about other insurance affordability options that may be available.

Delivery of services under Healthy Florida is provided for under s. 624.917(5), F.S. The FHKC is directed to contract with authorized insurers licensed under ch. 627, F.S., managed care organizations authorized under ch. 641, F.S., and provider service networks authorized under ss. 409.912(4)(d) and 409.962(13) that are prepaid plans meeting standards established by the FHKC to deliver services to enrollees. The FHKC must also establish access and network standards to ensure an adequate number of providers are available to deliver the benefits and services. Standards are to be developed in consultation with and under consideration of National Committee on Quality Assurance recommendations, stakeholders, and other existing performance standards for public and commercial populations.

Under this subsection, enrollees must also be provided a choice of plans. A lock-in period is specifically included and the FHKC is directed to offer exceptions to that lock-in period that take into consideration good cause reasons and qualifying events.

The bill permits the FHKC to consider contracts that include family plans that would provide coverage for members that are enrolled across multiple state or federally funded programs. The

medical loss ratio provisions of s. 624.91, F.S., are applicable to the Healthy Florida program. These provisions mirror those used for the Healthy Kids contracts.

Under s. 624.917(6), F.S., the bill provides the benefits for the Healthy Florida program. The FHKC is directed to establish a benefit plan for the program that is actuarially equivalent to the Florida Kidcare benchmark plan, excluding dental. The benefits package must also meet the alternative benefits package requirements under section 1937 of the Social Security Act. Benefits must be offered as an integrated, single package, without carve-outs.

The bill also requires that a health reimbursement account or comparable health savings account be established for Healthy Florida enrollees. The account may be established and managed either by the FHKC directly or by a contractor. Under s. 624.917(6)(a), F.S., the bill provides examples of the types of behaviors for which enrollees may be rewarded and how funds may be utilized by enrollees. Paragraph (b) of this same subsection also permits the offering of other enhanced benefits and services, provided these services generate savings to the overall plan. Paragraph (c) requires the FHKC to establish a process for the delivery of medically necessary wrap-around services that are not covered by the benchmark plan but that may be required under PPACA. The FHKC's capitation process with its contracted plans for the wrap-around services will be subject to a separate reconciliation process, and the medical loss ratio provisions will also apply to the wrap-around capitation. Prior authorization processes and other utilization controls for any benefit are authorized under this subsection, if approved by the FHKC.

Under s. 624.917(7), F.S., the bill establishes requirements for cost sharing under the Healthy Florida program. The FHKC is authorized to collect premiums and copayments from enrollees in accordance with federal law and in amounts that will be established annually in the General Appropriations Act. The bill provides that payment of a monthly premium may be required prior to an enrollee receiving a coverage start date under the program. Enrollees with a family income above the federal poverty level may also be required to make nominal copayments, in accordance with federal rules, as a condition of receiving a health care service. Providers will be responsible for collecting any copayment for a service and failure to collect any amount due from the enrollee will reduce the provider's reimbursement by the uncollected enrollee's copayment amount.

Management of the Healthy Florida program is described under s. 624.917(8), F.S. The FHKC is designated as the entity responsible for the oversight of the program. The AHCA is directed to seek the necessary state plan amendment to implement the program and to consult with the FHKC on the development of the amendment. The bill provides an amendment submission deadline by the AHCA of June 14, 2013. The AHCA is also directed under this subsection to contract with the FHKC for the administration of this program and for the purposes of the timely release of state and federal funds. The AHCA is recognized as the state's single entity for the administration of the Medicaid program.

Under s. 624.917(8)(a), F.S., the FHKC is directed to establish a grievance and resolutions process under which Healthy Florida recipients can be notified of their rights under the Medicaid Fair Hearing process as well as of any other processes that may be adopted by the FHKC for the program.

Under paragraph (b), the FHKC is required to establish a program integrity process to ensure compliance with the program's guidelines and to combat applicant and enrollee fraud. Timelines for the notification of when benefits may be withheld, reasons for loss of benefits, and the identification of individuals who can be prosecuted for fraud under s. 414.39, F.S., are specified.

Cross references to the applicability of certain Medicaid statutes to the Healthy Florida program are included under s. 624.917(9), F.S. The referenced statutes are s. 409.902, F.S., relating to the AHCA as the designated single state agency for Medicaid; s. 409.9128, F.S., relating to providing emergency services and care; and, s. 409.920, F.S, relating to Medicaid provider fraud. These provisions would apply to the Healthy Florida program in the same manner in which they apply in Medicaid.

The requirement for an evaluation of the Healthy Florida program is added under s. 624.917(10), F.S. The FHKC is required to collect eligibility and enrollment data on its applicants and enrollees and utilization and encounter data from its contracted entities for health care services. Monthly enrollment reports to the Legislature are also required. The bill provides for an interim evaluation by July 1, 2015, with annual evaluations thereafter. Components of the evaluation report are detailed and include information on application and enrollment trends, utilization and cost data, and customer satisfaction.

Section 624.917(11), F.S., sets an expiration date for the program for the end of the state fiscal year in which any of several conditions happen, whichever occurs first. The trigger events are identified as the federal match falling below 90 percent; the federal match contribution falling below the "Increased FMAP for Medical Assistance for Newly Eligible Mandatory Individuals" as specified under PPACA; or a blended federal match formula for Healthy Florida and the Medicaid program is enacted under federal law or regulation which causes the overall federal contribution to be reduced compared to separate, non-blended federal contributions under the status quo.

Section 16 creates an undesignated section of law that authorizes the FHKC to make program changes to comply with objections raised by HHS that are necessary to gain approval of the Healthy Florida program in compliance with PPACA, upon giving notice to the Legislature of the proposed changes. The Healthy Florida program requires approval of an amendment to the state's Medicaid state plan prior to implementation and to receive federal funds. The section also includes a conflict of laws interpretation clause that provides that if there is conflict between any provision in this section and PPACA, the provision should be interpreted as an intention to comply with federal requirements.

Section 17 provides appropriations of:

- $1,258,054,808 from the Medical Care Trust Fund beginning in the 2013-2014 fiscal year to provide coverage for individuals who enroll in Healthy Florida;
- $254,151 from the General Revenue Fund and $18,235,833 from the Medical Care Trust Fund beginning in the 2013-2014 fiscal year to comply with federal regulations to compensate insurers and managed care organizations that contract with the Healthy Florida program for the imposition of the annual fee on health insurance providers under the PPACA; and

- $10,676,377 from the General Revenue Fund and $10,676,377 from the Medical Care Trust Fund beginning in the 2013-2014 fiscal year to fund administrative costs necessary for the FHKC to implement and operate the Healthy Florida program.

Section 18 provides that the act takes effect upon becoming law.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

The bill explicitly requires the FHKC to conduct its activities and those of any committees formed by the FHKC, in accordance with chapters 119 and 286, F.S. The FHKC currently provides notice of meetings of its board and committees on its website at www.healthykids.org and posts materials for board meetings on the same site within timeframes set through board policy.

The FHKC also responds to requests for public records, within the additional exemptions and limitations of s. 409.821, F.S. and federal law which protect certain individual and identifying information of applicants and enrollees to the Florida Kidcare program.

The provisions of this bill would expressly require compliance with state public records and open meetings requirements.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Florida's Social Services Estimating Conference (SSEC) estimates that 438,113 individuals would become newly eligible and would enroll in Florida Medicaid during the 2013-2014 state fiscal year if the program's eligibility threshold were expanded to 138 percent of FPL beginning January 1, 2014. An estimated 377,813 of those newly eligible enrollees are currently uninsured while the remaining 60,300 are likely to terminate their existing individual coverage in favor of Medicaid after becoming eligible. The Healthy Florida program would expect roughly the same estimated enrollment if implemented.

The bill contemplates the FHKC contracting with insurers and managed care organizations to deliver comprehensive health insurance coverage to uninsured individuals who may or may not be seeking health care services now. Physicians, hospitals, and other health care providers may be impacted by a potentially higher demand for their services after Healthy Florida is implemented.

C. Government Sector Impact:

The bill directs the AHCA to seek the PPACA's enhanced federal match for the Healthy Florida program, which would result in 100 percent federal funding for newly eligible enrollees until January 1, 2017. To cover the estimated 438,113 new enrollees in Fiscal Year 2013-2014, $1.26 billion would be expended, according to the SSEC.

Additionally, under eligibility expansion, the SSEC estimates that 70,647 Kidcare enrollees would become newly eligible for Medicaid and could transfer out of Kidcare. In such a transfer, the federal match would be the same as the Kidcare matching rate, which is 71.03 percent for the 2013-2014 state fiscal year. The state and federal expenditures to cover those children would be the same between the two programs.

The PPACA also imposes a federal health insurance tax (HIT) on health insurance providers beginning January 1, 2014, to be divided among insurers according to a formula based on each insurer's net premiums, including those contracted under Medicaid or Healthy Florida. Federal guidance indicates that states must account for the HIT to be incurred by managed care plans when calculating rates paid by a state Medicaid program to the plans. For the newly eligible population, the federal match for the HIT mirrors the match provided in the PPACA, which means a 100 percent federal match for the HIT during the 2013-2014 state fiscal year. For Kidcare transfers, however, the federal match will mirror the Kidcare matching rate. If all 70,647 children described above were to transfer from Kidcare to Healthy Florida, an estimated $254,151 GR would be required to compensate insurers and managed care plans for the HIT in the 2013-2014 state fiscal year.

The FHKC will need additional resources to adapt its existing eligibility and enrollment systems to accommodate a new program. Also, the FHKC will need to adjust and expand its administrative structure and professional staff to manage new contracts for the Healthy Florida program. Additionally, these needs will vary somewhat depending on the number of persons who enroll in the Healthy Florida program. Based on existing enrollment projections, the fiscal impact of the FHKC's additional resource needs is estimated to be a total of $21.2 million for the 2013-2014 state fiscal year, half of which would be state funds, or $10.6 million GR.

VI. Technical Deficiencies:

None.

VII. Related Issues:

In December 2012, Florida Senate President Don Gaetz formed the Select Committee on the PPACA to launch a comprehensive assessment on the impact of the law on Florida, evaluate the state's options under the law, and to make recommendations to the full Senate membership on any actions necessary to mitigate cost increases, preserve a competitive insurance market, and protect Florida's consumers.[45] The Select Committee received public testimony, expert presentations, and staff reports over nine meetings before it developed three specific recommendations relating to the development of a health care exchange, coverage for certain state employees, and the expansion of Medicaid. On the question of Medicaid expansion, the Select Committee voted 7-4 to recommend to the full Senate to not expand the existing Medicaid program under the current state plan or pending waivers.[46]

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:

(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS by Appropriations Subcommittee on Health and Human Services on April 17, 2013:
The CS revises the membership of the board of directors of the FHKC; provides that the Healthy Florida program may contract with prepaid provider service networks in addition to insurers licensed under ch. 627, F.S., and managed care organizations authorized under ch. 641, F.S.; provides that the Healthy Florida program may require nominal copayments specifically from enrollees with family incomes above the FPL; and appropriates general revenue and trust fund dollars for the Healthy Florida program beginning in the 2013-2014 fiscal year.

B. Amendments:

None.

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
04/25/2013	.	
	.	
	.	
	.	

The Committee on Appropriations (Hays) recommended the following:

Senate Amendment (with title amendment)

Between lines 1365 and 1366
insert:

Section 17. Section 627.6474, Florida Statutes, is amended to read:

627.6474 Provider contracts.—

(1) A health insurer may ~~shall~~ not require a contracted health care practitioner as defined in s. 456.001(4) to accept the terms of other health care practitioner contracts with the insurer or any other insurer, or health maintenance organization, under common management and control with the

803580

insurer, including Medicare and Medicaid practitioner contracts and those authorized by s. 627.6471, s. 627.6472, s. 636.035, or s. 641.315, except for a practitioner in a group practice as defined in s. 456.053 who must accept the terms of a contract negotiated for the practitioner by the group, as a condition of continuation or renewal of the contract. Any contract provision that violates this section is void. A violation of this subsection ~~section~~ is not subject to the criminal penalty specified in s. 624.15.

(2)(a) A contract between a health insurer and a dentist licensed under chapter 466 for the provision of services to an insured may not contain any provision that requires the dentist to provide services to the insured under such contract at a fee set by the health insurer unless such services are covered services under the applicable contract.

(b) Covered services are those services that are listed as a benefit that the insured is entitled to receive under the contract. An insurer may not provide merely de minimis reimbursement or coverage in order to avoid the requirements of this section. Fees for covered services shall be set in good faith and must not be nominal.

(c) A health insurer may not require as a condition of the contract that the dentist participate in a discount medical plan under part II of chapter 636.

Section 18. Subsection (13) is added to section 636.035, Florida Statutes, to read:

636.035 Provider arrangements.—

(13)(a) A contract between a prepaid limited health service organization and a dentist licensed under chapter 466 for the

803580

provision of services to a subscriber of the prepaid limited health service organization may not contain any provision that requires the dentist to provide services to the subscriber of the prepaid limited health service organization at a fee set by the prepaid limited health service organization unless such services are covered services under the applicable contract.

(b) Covered services are those services that are listed as a benefit that the subscriber is entitled to receive under the contract. A prepaid limited health service organization may not provide merely de minimis reimbursement or coverage in order to avoid the requirements of this section. Fees for covered services shall be set in good faith and must not be nominal.

(c) A prepaid limited health service organization may not require as a condition of the contract that the dentist participate in a discount medical plan under part II of this chapter.

Section 19. Subsection (11) is added to section 641.315, Florida Statutes, to read:

641.315 Provider contracts.—

(11)(a) A contract between a health maintenance organization and a dentist licensed under chapter 466 for the provision of services to a subscriber of the health maintenance organization may not contain any provision that requires the dentist to provide services to the subscriber of the health maintenance organization at a fee set by the health maintenance organization unless such services are covered services under the applicable contract.

(b) Covered services are those services that are listed as a benefit that the subscriber is entitled to receive under the

803580

contract. A health maintenance organization may not provide merely de minimis reimbursement or coverage in order to avoid the requirements of this section. Fees for covered services shall be set in good faith and must not be nominal.

(c) A health maintenance organization may not require as a condition of the contract that the dentist participate in a discount medical plan under part II of chapter 636.

Section 20. Paragraph (a) of subsection (3) of section 766.1115, Florida Statutes, is amended, and paragraph (h) is added to subsection (4) of that section, to read:

766.1115 Health care providers; creation of agency relationship with governmental contractors.—

(3) DEFINITIONS.—As used in this section, the term:

(a) "Contract" means an agreement executed in compliance with this section between a health care provider and a governmental contractor which allows~~. This contract shall allow~~ the health care provider to deliver health care services to low-income recipients as an agent of the governmental contractor. The contract must be for volunteer, uncompensated services. For services to qualify as volunteer, uncompensated services under this section, the health care provider must receive no compensation from the governmental contractor for ~~any~~ services provided under the contract and must not bill or accept compensation from the recipient, or a ~~any~~ public or private third-party payor, for the specific services provided to the low-income recipients covered by the contract.

(4) CONTRACT REQUIREMENTS.—A health care provider that executes a contract with a governmental contractor to deliver health care services on or after April 17, 1992, as an agent of

803580

the governmental contractor is an agent for purposes of s. 768.28(9), while acting within the scope of duties under the contract, if the contract complies with the requirements of this section and regardless of whether the individual treated is later found to be ineligible. A health care provider under contract with the state may not be named as a defendant in any action arising out of medical care or treatment provided on or after April 17, 1992, under contracts entered into under this section. The contract must provide that:

(h) As an agent of the governmental contractor for purposes of s. 768.28(9), while acting within the scope of duties under the contract, a health care provider licensed under chapter 466 may allow a patient or a parent or guardian of the patient to voluntarily contribute a fee to cover costs of dental laboratory work related to the services provided to the patient. This contribution may not exceed the actual cost of the dental laboratory charges and is deemed in compliance with this section.

A governmental contractor that is also a health care provider is not required to enter into a contract under this section with respect to the health care services delivered by its employees.

Section 21. The amendments to ss. 627.6474, 636.035, and 641.315, Florida Statutes, apply to contracts entered into or renewed on or after July 1, 2013.

Kidcare Act; amending s. 409.820, F.S.; requiring the Department of Health, in consultation with the agency and the Florida Healthy Kids Corporation, to develop a minimum set of pediatric and adolescent quality assurance and access standards for all program components; amending s. 624.91, F.S.; revising the legislative intent of the Florida Healthy Kids Corporation Act to include the Healthy Florida program; revising participation guidelines for nonsubsidized enrollees in the Healthy Kids program; revising the medical loss ratio requirements for the contracts for the Florida Healthy Kids Corporation; modifying the membership of the Florida Healthy Kids Corporation's board of directors; creating an executive steering committee; requiring additional corporate compliance requirements for the Florida Healthy Kids Corporation; repealing s. 624.915, F.S., relating to the operating fund of the Florida Healthy Kids Corporation; creating s. 624.917, F.S.; creating the Healthy Florida program; providing definitions; providing eligibility and enrollment requirements; authorizing the Florida Healthy Kids Corporation to contract with certain insurers, managed care organizations, and provider service networks; encouraging the corporation to contract with insurers and managed care organizations that participate in more than one insurance affordability program under certain circumstances; requiring the corporation to establish a benefits package and a process for payment

of services; authorizing the corporation to collect premiums and copayments; requiring the corporation to oversee the Healthy Florida program and to establish a grievance process and integrity process; providing applicability of certain state laws for administration of the Healthy Florida program; requiring the corporation to collect certain data and to submit enrollment reports and interim independent evaluations to the Legislature; providing for expiration of the program; providing an implementation and interpretation clause; providing appropriations; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 409.811, Florida Statutes, is amended to read:

409.811 Definitions relating to Florida Kidcare Act.—As used in ss. 409.810-409.821, the term:

(1) "Actuarially equivalent" means that:

(a) The aggregate value of the benefits included in health benefits coverage is equal to the value of the benefits in the benchmark benefit plan; and

(b) The benefits included in health benefits coverage are substantially similar to the benefits included in the benchmark benefit plan, except that preventive health services must be the same as in the benchmark benefit plan.

(2) "Agency" means the Agency for Health Care Administration.

(3) "Applicant" means a parent or guardian of a child or a child whose disability of nonage has been removed under chapter 743, who applies for determination of eligibility for health benefits coverage under ss. 409.810-409.821.

(4) "Child benchmark benefit plan" means the form and level of health benefits coverage established in s. 409.815.

(5) "Child" means any person younger than ~~under~~ 19 years of age.

(6) "Child with special health care needs" means a child whose serious or chronic physical or developmental condition requires extensive preventive and maintenance care beyond that required by typically healthy children. Health care utilization by such a child exceeds the statistically expected usage of the normal child adjusted for chronological age, and such a child often needs complex care requiring multiple providers, rehabilitation services, and specialized equipment in a number of different settings.

(7) "Children's Medical Services Network" or "network" means a statewide managed care service system as defined in s. 391.021(1).

(8) "CHIP" means the Children's Health Insurance Program as authorized under Title XXI of the Social Security Act, and its regulations, ss. 409.810-409.820, and as administered in this state by the agency, the department, and the Florida Healthy Kids Corporation, as appropriate to their respective responsibilities.

(9) "Combined eligibility notice" means an eligibility notice that informs an applicant, an enrollee, or multiple family members of a household, when feasible, of eligibility for

each of the insurance affordability programs and enrollment into a program or exchange plan. A combined eligibility form must be issued by the last agency or department to make an eligibility, renewal or denial determination. The form must meet all of the federal and state law and regulatory requirements no later than January 1, 2014.

~~(8) "Community rate" means a method used to develop premiums for a health insurance plan that spreads financial risk across a large population and allows adjustments only for age, gender, family composition, and geographic area.~~

(10)~~(9)~~ "Department" means the Department of Health.

(11)~~(10)~~ "Enrollee" means a child who has been determined eligible for and is receiving coverage under ss. 409.810-409.821.

~~(11) "Family" means the group or the individuals whose income is considered in determining eligibility for the Florida Kidcare program. The family includes a child with a parent or caretaker relative who resides in the same house or living unit or, in the case of a child whose disability of nonage has been removed under chapter 743, the child. The family may also include other individuals whose income and resources are considered in whole or in part in determining eligibility of the child.~~

~~(12) "Family income" means cash received at periodic intervals from any source, such as wages, benefits, contributions, or rental property. Income also may include any money that would have been counted as income under the Aid to Families with Dependent Children (AFDC) state plan in effect prior to August 22, 1996.~~

(12)~~(13)~~ "Florida Kidcare program," "Kidcare program," or "program" means the health benefits program administered through ss. 409.810-409.821.

(13)~~(14)~~ "Guarantee issue" means that health benefits coverage must be offered to an individual regardless of the individual's health status, preexisting condition, or claims history.

(14)~~(15)~~ "Health benefits coverage" means protection that provides payment of benefits for covered health care services or that otherwise provides, either directly or through arrangements with other persons, covered health care services on a prepaid per capita basis or on a prepaid aggregate fixed-sum basis.

(15)~~(16)~~ "Health insurance plan" means health benefits coverage under the following:

(a) A health plan offered by any certified health maintenance organization or authorized health insurer, except a plan that is limited to the following: a limited benefit, specified disease, or specified accident; hospital indemnity; accident only; limited benefit convalescent care; Medicare supplement; credit disability; dental; vision; long-term care; disability income; coverage issued as a supplement to another health plan; workers' compensation liability or other insurance; or motor vehicle medical payment only; or

(b) An employee welfare benefit plan that includes health benefits established under the Employee Retirement Income Security Act of 1974, as amended.

(16) "Household income" means the group or the individual whose income is considered in determining eligibility for the Florida Kidcare program. The term "household" has the same

meaning as provided in s. 36B(d)(2) of the Internal Revenue Code of 1986.

(17) "Medicaid" means the medical assistance program authorized by Title XIX of the Social Security Act, and regulations thereunder, and ss. 409.901-409.920, as administered in this state by the agency.

(18) "Medically necessary" means the use of any medical treatment, service, equipment, or supply necessary to palliate the effects of a terminal condition, or to prevent, diagnose, correct, cure, alleviate, or preclude deterioration of a condition that threatens life, causes pain or suffering, or results in illness or infirmity and which is:

(a) Consistent with the symptom, diagnosis, and treatment of the enrollee's condition;

(b) Provided in accordance with generally accepted standards of medical practice;

(c) Not primarily intended for the convenience of the enrollee, the enrollee's family, or the health care provider;

(d) The most appropriate level of supply or service for the diagnosis and treatment of the enrollee's condition; and

(e) Approved by the appropriate medical body or health care specialty involved as effective, appropriate, and essential for the care and treatment of the enrollee's condition.

(19) "Medikids" means a component of the Florida Kidcare program of medical assistance authorized by Title XXI of the Social Security Act, and regulations thereunder, and s. 409.8132, as administered in the state by the agency.

(20) "Modified adjusted gross income" means the individual's or household's annual adjusted gross income as

defined in s. 36B(d)(2) of the Internal Revenue Code of 1986 which is used to determine eligibility under the Florida Kidcare program.

(21) "Patient Protection and Affordable Care Act" or "Act" means the federal law enacted as Pub. L. No. 111-148, as further amended by the federal Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152, and any amendments, regulations, or guidance issued under those acts.

(22) ~~(20)~~ "Preexisting condition exclusion" means, with respect to coverage, a limitation or exclusion of benefits relating to a condition based on the fact that the condition was present before the date of enrollment for such coverage, whether or not any medical advice, diagnosis, care, or treatment was recommended or received before such date.

(23) ~~(21)~~ "Premium" means the entire cost of a health insurance plan, including the administration fee or the risk assumption charge.

(24) ~~(22)~~ "Premium assistance payment" means the monthly consideration paid by the agency per enrollee in the Florida Kidcare program towards health insurance premiums.

(25) ~~(23)~~ "Qualified alien" means an alien as defined in 8 U.S.C. s. 1641 (b) and (c) ~~s. 431 of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, as amended, Pub. L. No. 104-193~~.

(26) ~~(24)~~ "Resident" means a United States citizen, or qualified alien, who is domiciled in this state.

(27) ~~(25)~~ "Rural county" means a county having a population density of less than 100 persons per square mile, or a county defined by the most recent United States Census as rural, in

which there is no prepaid health plan participating in the Medicaid program as of July 1, 1998.

~~(26) "Substantially similar" means that, with respect to additional services as defined in s. 2103(c)(2) of Title XXI of the Social Security Act, these services must have an actuarial value equal to at least 75 percent of the actuarial value of the coverage for that service in the benchmark benefit plan and, with respect to the basic services as defined in s. 2103(c)(1) of Title XXI of the Social Security Act, these services must be the same as the services in the benchmark benefit plan.~~

Section 2. Section 409.813, Florida Statutes, is amended to read:

409.813 Health benefits coverage; program components; entitlement and nonentitlement.—

(1) The Florida Kidcare program includes health benefits coverage provided to children through the following program components, which shall be marketed as the Florida Kidcare program:

(a) Medicaid;

(b) Medikids as created in s. 409.8132;

(c) The Florida Healthy Kids Corporation as created in s. 624.91; and

~~(d) Employer-sponsored group health insurance plans approved under ss. 409.810-409.821; and~~

(d)~~(c)~~ The Children's Medical Services network established in chapter 391.

(2) Except for Title XIX-funded Florida Kidcare program coverage under the Medicaid program, coverage under the Florida Kidcare program is not an entitlement. No cause of action shall

arise against the state, the department, the Department of Children and Families ~~Family Services~~, ~~or~~ the agency, or the Florida Healthy Kids Corporation for failure to make health services available to any person under ss. 409.810-409.821.

Section 3. Subsections (6) and (7) of section 409.8132, Florida Statutes, are amended to read:

409.8132 Medikids program component.—

(6) ELIGIBILITY.—

(a) A child who has attained the age of 1 year but who is under the age of 5 years is eligible to enroll in the Medikids program component of the Florida Kidcare program, if the child is a member of a family that has a family income which exceeds the Medicaid applicable income level as specified in s. 409.903, but which is equal to or below 200 percent of the current federal poverty level. In determining the eligibility of such a child, an assets test is not required. ~~A child who is eligible for Medikids may elect to enroll in Florida Healthy Kids coverage or employer-sponsored group coverage. However, a child who is eligible for Medikids may participate in the Florida Healthy Kids program only if the child has a sibling participating in the Florida Healthy Kids program and the child's county of residence permits such enrollment.~~

(b) The provisions of s. 409.814 apply to the Medikids program.

(7) ENROLLMENT.—Enrollment in the Medikids program component may occur at any time throughout the year. A child may not receive services under the Medikids program until the child is enrolled in a managed care plan or MediPass. Once determined eligible, an applicant may receive choice counseling and select

a managed care plan or MediPass. The agency may initiate mandatory assignment for a Medikids applicant who has not chosen a managed care plan or MediPass provider after the applicant's voluntary choice period ends. An applicant may select MediPass under the Medikids program component only in counties that have fewer than two managed care plans available to serve Medicaid recipients ~~and only if the federal Health Care Financing Administration determines that MediPass constitutes "health insurance coverage" as defined in Title XXI of the Social Security Act~~.

Section 4. Subsection (2) of section 409.8134, Florida Statutes, is amended to read:

409.8134 Program expenditure ceiling; enrollment.—

(2) The Florida Kidcare program may conduct enrollment continuously throughout the year.

(a) Children eligible for coverage under the Title XXI-funded Florida Kidcare program shall be enrolled on a first-come, first-served basis using the date the enrollment application is received. Enrollment shall immediately cease when the expenditure ceiling is reached. Year-round enrollment shall only be held if the Social Services Estimating Conference determines that sufficient federal and state funds will be available to finance the increased enrollment.

(b) The application for the Florida Kidcare program is valid for a period of 120 days after the date it was received. At the end of the 120-day period, if the applicant has not been enrolled in the program, the application is invalid and the applicant shall be notified of the action. The applicant may reactivate the application after notification of the action

taken by the program.

(c) Except for the Medicaid program, whenever the Social Services Estimating Conference determines that there are presently, or will be by the end of the current fiscal year, insufficient funds to finance the current or projected enrollment in the Florida Kidcare program, all additional enrollment must cease and additional enrollment may not resume until sufficient funds are available to finance such enrollment.

Section 5. Section 409.814, Florida Statutes, is amended to read:

409.814 Eligibility.—A child who has not reached 19 years of age whose household ~~family~~ income is equal to or below 200 percent of the federal poverty level is eligible for the Florida Kidcare program as provided in this section. If an enrolled individual is determined to be ineligible for coverage, he or she must be immediately disenrolled from the respective Florida Kidcare program component and referred to another insurance affordability program, if appropriate, through a combined eligibility notice.

(1) A child who is eligible for Medicaid coverage under s. 409.903 or s. 409.904 must be offered the opportunity to enroll ~~enrolled~~ in Medicaid ~~and is not eligible to receive health benefits under any other health benefits coverage authorized under the Florida Kidcare program~~. A child who is eligible for Medicaid and opts to enroll in CHIP may disenroll from CHIP at any time and transition to Medicaid. This transition must occur without any break in coverage.

(2) A child who is not eligible for Medicaid, but who is eligible for the Florida Kidcare program, may obtain health

benefits coverage under any of the other components listed in s. 409.813 if such coverage is approved and available in the county in which the child resides.

(3) A Title XXI-funded child who is eligible for the Florida Kidcare program who is a child with special health care needs, as determined through a medical or behavioral screening instrument, is eligible for health benefits coverage from and shall be assigned to and may opt out of the Children's Medical Services Network.

(4) The following children are not eligible to receive Title XXI-funded premium assistance for health benefits coverage under the Florida Kidcare program, except under Medicaid if the child would have been eligible for Medicaid under s. 409.903 or s. 409.904 as of June 1, 1997:

(a) A child who is covered under a family member's group health benefit plan or under other private or employer health insurance coverage, if the cost of the child's participation is not greater than 5 percent of the household's ~~family's~~ income. If a child is otherwise eligible for a subsidy under the Florida Kidcare program and the cost of the child's participation in the family member's health insurance benefit plan is greater than 5 percent of the household's ~~family's~~ income, the child may enroll in the appropriate subsidized Kidcare program.

~~(b) A child who is seeking premium assistance for the Florida Kidcare program through employer-sponsored group coverage, if the child has been covered by the same employer's group coverage during the 60 days before the family submitted an application for determination of eligibility under the program.~~

(b) ~~(c)~~ A child who is an alien, but who does not meet the

definition of qualified alien, in the United States.

(c) ~~(d)~~ A child who is an inmate of a public institution or a patient in an institution for mental diseases.

(d) ~~(c)~~ A child who is otherwise eligible for premium assistance for the Florida Kidcare program and has had his or her coverage in an employer-sponsored or private health benefit plan voluntarily canceled in the last 60 days, except those children whose coverage was voluntarily canceled for good cause, including, but not limited to, the following circumstances:

1. The cost of participation in an employer-sponsored health benefit plan is greater than 5 percent of the household's modified adjusted gross ~~family's~~ income;

2. The parent lost a job that provided an employer-sponsored health benefit plan for children;

3. The parent who had health benefits coverage for the child is deceased;

4. The child has a medical condition that, without medical care, would cause serious disability, loss of function, or death;

5. The employer of the parent canceled health benefits coverage for children;

6. The child's health benefits coverage ended because the child reached the maximum lifetime coverage amount;

7. The child has exhausted coverage under a COBRA continuation provision;

8. The health benefits coverage does not cover the child's health care needs; or

9. Domestic violence led to loss of coverage.

~~(5) A child who is otherwise eligible for the Florida~~

~~Kidcare program and who has a preexisting condition that prevents coverage under another insurance plan as described in paragraph (4)(a) which would have disqualified the child for the Florida Kidcare program if the child were able to enroll in the plan is eligible for Florida Kidcare coverage when enrollment is possible.~~

(5)~~(6)~~ A child whose household's modified adjusted gross ~~family~~ income is above 200 percent of the federal poverty level or a child who is excluded under the provisions of subsection (4) may participate in the Florida Kidcare program as provided in s. 409.8132 or, if the child is ineligible for Medikids by reason of age, in the Florida Healthy Kids program, subject to the following:

(a) The family is not eligible for premium assistance payments and must pay the full cost of the premium, including any administrative costs.

(b) The board of directors of the Florida Healthy Kids Corporation may offer a reduced benefit package to these children in order to limit program costs for such families.

(c) By August 15, 2013, the Florida Healthy Kids Corporation shall notify all current full-pay enrollees of the availability of the exchange and how to access other insurance affordability options. New applications for full-pay coverage may not be accepted after September 30, 2013.

(6)~~(7)~~ Once a child is enrolled in the Florida Kidcare program, the child is eligible for coverage for 12 months without a redetermination or reverification of eligibility, if the family continues to pay the applicable premium. Eligibility for program components funded through Title XXI of the Social

Security Act terminates when a child attains the age of 19. A child who has not attained the age of 5 and who has been determined eligible for the Medicaid program is eligible for coverage for 12 months without a redetermination or reverification of eligibility.

(7)~~(8)~~ When determining or reviewing a child's eligibility under the Florida Kidcare program, the applicant shall be provided with reasonable notice of changes in eligibility which may affect enrollment in one or more of the program components. If a transition from one program component to another is authorized, there shall be cooperation between the program components and the affected family which promotes continuity of health care coverage. Any authorized transfers must be managed within the program's overall appropriated or authorized levels of funding. Each component of the program shall establish a reserve to ensure that transfers between components will be accomplished within current year appropriations. These reserves shall be reviewed by each convening of the Social Services Estimating Conference to determine the adequacy of such reserves to meet actual experience.

(8)~~(9)~~ In determining the eligibility of a child, an assets test is not required. Each applicant shall provide documentation during the application process and the redetermination process, including, but not limited to, the following:

(a) Proof of household ~~family~~ income, which must be verified electronically to determine financial eligibility for the Florida Kidcare program. Written documentation, which may include wages and earnings statements or pay stubs, W-2 forms, or a copy of the applicant's most recent federal income tax

return, is required only if the electronic verification is not available or does not substantiate the applicant's income. This paragraph expires December 31, 2013.

(b) A statement from all applicable, employed household ~~family~~ members that:

1. Their employers do not sponsor health benefit plans for employees;

2. The potential enrollee is not covered by an employer-sponsored health benefit plan; or

3. The potential enrollee is covered by an employer-sponsored health benefit plan and the cost of the employer-sponsored health benefit plan is more than 5 percent of the household's modified adjusted gross ~~family's~~ income.

(c) To enroll in the Children's Medical Services Network, a completed application, including a clinical screening.

(d) Effective January 1, 2014, eligibility shall be determined through electronic matching using the federally managed data services hub and other resources. Written documentation from the applicant may be accepted if the electronic verification does not substantiate the applicant's income or if there has been a change in circumstances.

(9) ~~(10)~~ Subject to paragraph (4)(a), the Florida Kidcare program shall withhold benefits from an enrollee if the program obtains evidence that the enrollee is no longer eligible, submitted incorrect or fraudulent information in order to establish eligibility, or failed to provide verification of eligibility. The applicant or enrollee shall be notified that because of such evidence program benefits will be withheld unless the applicant or enrollee contacts a designated

representative of the program by a specified date, which must be within 10 working days after the date of notice, to discuss and resolve the matter. The program shall make every effort to resolve the matter within a timeframe that will not cause benefits to be withheld from an eligible enrollee.

(10) ~~(11)~~ The following individuals may be subject to prosecution in accordance with s. 414.39:

(a) An applicant obtaining or attempting to obtain benefits for a potential enrollee under the Florida Kidcare program when the applicant knows or should have known the potential enrollee does not qualify for the Florida Kidcare program.

(b) An individual who assists an applicant in obtaining or attempting to obtain benefits for a potential enrollee under the Florida Kidcare program when the individual knows or should have known the potential enrollee does not qualify for the Florida Kidcare program.

Section 6. Paragraphs (g), (k), (q), and (w) of subsection (2) of section 409.815, Florida Statutes, are amended to read:

409.815 Health benefits coverage; limitations.—

(2) BENCHMARK BENEFITS.—In order for health benefits coverage to qualify for premium assistance payments for an eligible child under ss. 409.810-409.821, the health benefits coverage, except for coverage under Medicaid and Medikids, must include the following minimum benefits, as medically necessary.

(g) *Behavioral health services.*—

1. Mental health benefits include:

a. Inpatient services~~, limited to 30 inpatient days per contract year~~ for psychiatric admissions, or residential services in facilities licensed under s. 394.875(6) or s.

395.003 in lieu of inpatient psychiatric admissions~~; however, a minimum of 10 of the 30 days shall be available only for inpatient psychiatric services~~ if authorized by a physician; and

b. Outpatient services, including outpatient visits for psychological or psychiatric evaluation, diagnosis, and treatment by a licensed mental health professional~~, limited to 40 outpatient visits each contract year~~.

2. Substance abuse services include:

a. Inpatient services~~, limited to 7 inpatient days per contract year~~ for medical detoxification only and ~~30 days of~~ residential services; and

b. Outpatient services, including evaluation, diagnosis, and treatment by a licensed practitioner~~, limited to 40 outpatient visits per contract year~~.

~~Effective October 1, 2009,~~ Covered services include inpatient and outpatient services for mental and nervous disorders as defined in the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association. Such benefits include psychological or psychiatric evaluation, diagnosis, and treatment by a licensed mental health professional and inpatient, outpatient, and residential treatment of substance abuse disorders. Any benefit limitations, including duration of services, number of visits, or number of days for hospitalization or residential services, shall not be any less favorable than those for physical illnesses generally. The program may also implement appropriate financial incentives, peer review, utilization requirements, and other methods used for the management of benefits provided for

other medical conditions in order to reduce service costs and utilization without compromising quality of care.

(k) *Hospice services.*—Covered services include reasonable and necessary services for palliation or management of an enrollee's terminal illness~~, with the following exceptions:~~

~~1. Once a family elects to receive hospice care for an enrollee, other services that treat the terminal condition will not be covered; and~~

~~2. Services required for conditions totally unrelated to the terminal condition are covered to the extent that the services are included in this section~~.

(q) *Dental services.*—~~Effective October 1, 2009,~~ Dental services shall be covered as required under federal law and may also include those dental benefits provided to children by the Florida Medicaid program under s. 409.906(6).

(w) *Reimbursement of federally qualified health centers and rural health clinics.*—~~Effective October 1, 2009,~~ Payments for services provided to enrollees by federally qualified health centers and rural health clinics under this section shall be reimbursed using the Medicaid Prospective Payment System as provided for under s. 2107(e)(1)(D) of the Social Security Act. If such services are paid for by health insurers or health care providers under contract with the Florida Healthy Kids Corporation, such entities are responsible for this payment. The agency may seek any available federal grants to assist with this transition.

Section 7. Section 409.816, Florida Statutes, is amended to read:

409.816 Limitations on premiums and cost-sharing.—The

following limitations on premiums and cost-sharing are established for the program.

(1) Enrollees who receive coverage under the Medicaid program may not be required to pay:

(a) Enrollment fees, premiums, or similar charges; or

(b) Copayments, deductibles, coinsurance, or similar charges.

(2) Enrollees in households that have ~~families with~~ a modified adjusted gross ~~family~~ income equal to or below 150 percent of the federal poverty level, who are not receiving coverage under the Medicaid program, may not be required to pay:

(a) Enrollment fees, premiums, or similar charges that exceed the maximum monthly charge permitted under s. 1916(b)(1) of the Social Security Act; or

(b) Copayments, deductibles, coinsurance, or similar charges that exceed a nominal amount, as determined consistent with regulations referred to in s. 1916(a)(3) of the Social Security Act. However, such charges may not be imposed for preventive services, including well-baby and well-child care, age-appropriate immunizations, and routine hearing and vision screenings.

(3) Enrollees in households that have ~~families with~~ a modified adjusted gross ~~family~~ income above 150 percent of the federal poverty level who are not receiving coverage under the Medicaid program or who are not eligible under s. 409.814(5) ~~s. 409.814(6)~~ may be required to pay enrollment fees, premiums, copayments, deductibles, coinsurance, or similar charges on a sliding scale related to income, except that the total annual aggregate cost-sharing with respect to all children in a

household ~~family~~ may not exceed 5 percent of the household's modified adjusted ~~family's~~ income. However, copayments, deductibles, coinsurance, or similar charges may not be imposed for preventive services, including well-baby and well-child care, age-appropriate immunizations, and routine hearing and vision screenings.

Section 8. Section 409.817, Florida Statutes, is repealed.

Section 9. Section 409.8175, Florida Statutes, is repealed.

Section 10. Paragraph (c) of subsection (1) of section 409.8177, Florida Statutes, is amended to read:

409.8177 Program evaluation.—

(1) The agency, in consultation with the Department of Health, the Department of Children and Families ~~Family Services~~, and the Florida Healthy Kids Corporation, shall contract for an evaluation of the Florida Kidcare program and shall by January 1 of each year submit to the Governor, the President of the Senate, and the Speaker of the House of Representatives a report of the program. In addition to the items specified under s. 2108 of Title XXI of the Social Security Act, the report shall include an assessment of crowd-out and access to health care, as well as the following:

(c) The characteristics of the children and families assisted under the program, including ages of the children, household ~~family~~ income, and access to or coverage by other health insurance prior to the program and after disenrollment from the program.

Section 11. Section 409.818, Florida Statutes, is amended to read:

409.818 Administration.—In order to implement ss. 409.810-

409.821, the following agencies shall have the following duties:

(1) The Department of Children and Families ~~Family Services~~ shall:

(a) Maintain ~~Develop~~ a simplified eligibility determination and renewal process ~~application mail-in form to be used for determining the eligibility of children for coverage~~ under the Florida Kidcare program, in consultation with the agency, the Department of Health, and the Florida Healthy Kids Corporation. The simplified eligibility process ~~application form~~ must include ~~an item that provides~~ an opportunity for the applicant to indicate whether coverage is being sought for a child with special health care needs. Families applying for children's Medicaid coverage must also be able to use the simplified application process ~~form~~ without having to pay a premium.

(b) Establish and maintain the eligibility determination process under the program except as specified in subsection (3), which includes the following: ~~(5).~~

1. The department shall directly, or through the services of a contracted third-party administrator, establish and maintain a process for determining eligibility of children for coverage under the program. The eligibility determination process must be used solely for determining eligibility of applicants for health benefits coverage under the program. The eligibility determination process must include an initial determination of eligibility for any coverage offered under the program, as well as a redetermination or reverification of eligibility each subsequent 6 months. ~~Effective January 1, 1999,~~ A child who has not attained the age of 5 and who has been determined eligible for the Medicaid program is eligible for

coverage for 12 months without a redetermination or reverification of eligibility. In conducting an eligibility determination, the department shall determine if the child has special health care needs.

2. The department, in consultation with the Agency for Health Care Administration and the Florida Healthy Kids Corporation, shall develop procedures for redetermining eligibility which enable applicants and enrollees ~~a family~~ to easily update any change in circumstances which could affect eligibility.

3. The department may accept changes in ~~a family's~~ status as reported to the department by the Florida Healthy Kids Corporation or the exchange without requiring a new application ~~from the family~~. Redetermination of a child's eligibility for Medicaid may not be linked to a child's eligibility determination for other programs.

4. The department, in consultation with the agency and the Florida Healthy Kids Corporation, shall develop a combined eligibility notice to inform applicants and enrollees of their application or renewal status, as appropriate. The content must be coordinated to meet all federal and state requirements under the federal Patient Protection and Affordable Care Act.

(c) Inform program applicants about eligibility determinations and provide information about eligibility of applicants to the Florida Kidcare program and to insurers and their agents~~, through a centralized coordinating office~~.

(d) Adopt rules necessary for conducting program eligibility functions.

~~(2) The Department of Health shall:~~

~~(a) Design an eligibility intake process for the program, in coordination with the Department of Children and Family Services, the agency, and the Florida Healthy Kids Corporation. The eligibility intake process may include local intake points that are determined by the Department of Health in coordination with the Department of Children and Family Services.~~

~~(b) Chair a state-level Florida Kidcare coordinating council to review and make recommendations concerning the implementation and operation of the program. The coordinating council shall include representatives from the department, the Department of Children and Family Services, the agency, the Florida Healthy Kids Corporation, the Office of Insurance Regulation of the Financial Services Commission, local government, health insurers, health maintenance organizations, health care providers, families participating in the program, and organizations representing low-income families.~~

~~(c) In consultation with the Florida Healthy Kids Corporation and the Department of Children and Family Services, establish a toll-free telephone line to assist families with questions about the program.~~

~~(d) Adopt rules necessary to implement outreach activities.~~

(2)~~(3)~~ The Agency for Health Care Administration, under the authority granted in s. 409.914(1), shall:

(a) Calculate the premium assistance payment necessary to comply with the premium and cost-sharing limitations specified in s. 409.816 and the federal Patient Protection and Affordable Care Act. The premium assistance payment for each enrollee in a health insurance plan participating in the Florida Healthy Kids Corporation shall equal the premium approved by the Florida

Healthy Kids Corporation ~~and the Office of Insurance Regulation of the Financial Services Commission pursuant to ss. 627.410 and 641.31,~~ less any enrollee's share of the premium established within the limitations specified in s. 409.816. ~~The premium assistance payment for each enrollee in an employer-sponsored health insurance plan approved under ss. 409.810-409.821 shall equal the premium for the plan adjusted for any benchmark benefit plan actuarial equivalent benefit rider approved by the Office of Insurance Regulation pursuant to ss. 627.410 and 641.31, less any enrollee's share of the premium established within the limitations specified in s. 409.816. In calculating the premium assistance payment levels for children with family coverage, the agency shall set the premium assistance payment levels for each child proportionately to the total cost of family coverage.~~

(b) Make premium assistance payments to health insurance plans on a periodic basis. The agency may use its Medicaid fiscal agent or a contracted third-party administrator in making these payments. The agency may require health insurance plans that participate in the Medikids program ~~or employer-sponsored group health insurance~~ to collect premium payments from an enrollee's family. Participating health insurance plans shall report premium payments collected on behalf of enrollees in the program to the agency in accordance with a schedule established by the agency.

(c) Monitor compliance with quality assurance and access standards developed under s. 409.820 and in accordance with s. 2103(f) of the Social Security Act, 42 U.S.C. s. 1397cc(f).

(d) Establish a mechanism for investigating and resolving

complaints and grievances from program applicants, enrollees, and health benefits coverage providers, and maintain a record of complaints and confirmed problems. In the case of a child who is enrolled in a managed care ~~health maintenance~~ organization, the agency must use the provisions of s. 641.511 to address grievance reporting and resolution requirements.

~~(c) Approve health benefits coverage for participation in the program, following certification by the Office of Insurance Regulation under subsection (4).~~

(e)~~(f)~~ Adopt rules necessary for ~~calculating premium assistance payment levels, making premium assistance payments,~~ monitoring access and quality assurance standards and~~,~~ investigating and resolving complaints and grievances~~, administering the Medikids program, and approving health benefits coverage~~.

(f) Contract with the Florida Healthy Kids Corporation for the administration of the Florida Kidcare program and the Healthy Florida program and to facilitate the release of any federal and state funds.

The agency is designated the lead state agency for Title XXI of the Social Security Act for purposes of receipt of federal funds, for reporting purposes, and for ensuring compliance with federal and state regulations and rules.

~~(4) The Office of Insurance Regulation shall certify that health benefits coverage plans that seek to provide services under the Florida Kidcare program, except those offered through the Florida Healthy Kids Corporation or the Children's Medical Services Network, meet, exceed, or are actuarially equivalent to~~

~~the benchmark benefit plan and that health insurance plans will be offered at an approved rate. In determining actuarial equivalence of benefits coverage, the Office of Insurance Regulation and health insurance plans must comply with the requirements of s. 2103 of Title XXI of the Social Security Act. The department shall adopt rules necessary for certifying health benefits coverage plans.~~

(3)~~(5)~~ The Florida Healthy Kids Corporation shall retain its functions as authorized in s. 624.91, including eligibility determination for participation in the Healthy Kids program.

(4)~~(6)~~ The agency, the Department of Health, the Department of Children and Families ~~Family Services~~, and the Florida Healthy Kids Corporation, ~~and the Office of Insurance Regulation,~~ after consultation with and approval of the Speaker of the House of Representatives and the President of the Senate, may ~~are authorized to~~ make program modifications that are necessary to overcome any objections of the United States Department of Health and Human Services to obtain approval of the state's child health insurance plan under Title XXI of the Social Security Act.

Section 12. Section 409.820, Florida Statutes, is amended to read:

409.820 Quality assurance and access standards.—Except for Medicaid, the Department of Health, in consultation with the agency and the Florida Healthy Kids Corporation, shall develop a minimum set of pediatric and adolescent quality assurance and access standards for all program components. The standards must include a process for granting exceptions to specific requirements for quality assurance and access. Compliance with

576-04564-13

the standards shall be a condition of program participation by health benefits coverage providers. These standards shall comply with the provisions of this chapter and chapter 641 and Title XXI of the Social Security Act.

Section 13. Section 624.91, Florida Statutes, is amended to read:

624.91 The Florida Healthy Kids Corporation Act.—

(1) SHORT TITLE.—This section may be cited as the "William G. 'Doc' Myers Healthy Kids Corporation Act."

(2) LEGISLATIVE INTENT.—

(a) The Legislature finds that increased access to health care services could improve children's health and reduce the incidence and costs of childhood illness and disabilities among children in this state. Many children do not have comprehensive, affordable health care services available. It is the intent of the Legislature that the Florida Healthy Kids Corporation provide comprehensive health insurance coverage to such children. The corporation is encouraged to cooperate with any existing health service programs funded by the public or the private sector.

(b) It is the intent of the Legislature that the Florida Healthy Kids Corporation serve as one of several providers of services to children eligible for medical assistance under Title XXI of the Social Security Act. Although the corporation may serve other children, the Legislature intends the primary recipients of services provided through the corporation be school-age children with a family income below 200 percent of the federal poverty level, who do not qualify for Medicaid. It is also the intent of the Legislature that state and local

576-04564-13

government Florida Healthy Kids funds be used to continue coverage, subject to specific appropriations in the General Appropriations Act, to children not eligible for federal matching funds under Title XXI.

(c) It is further the intent of the Legislature that the Florida Healthy Kids Corporation administer and manage services for Healthy Florida, a health care program for uninsured adults using a unique network of providers and contracts. Enrollees in Healthy Florida will receive comprehensive health care services from private, licensed health insurers who meet standards established by the corporation. It is further the intent of the Legislature that these enrollees participate in their own health care decisionmaking and contribute financially toward their medical costs. The Legislature intends to provide an alternative benefit package that includes a full range of services which meet the needs of residents of this state. As a new program, the Legislature shall also ensure that a comprehensive evaluation is conducted to measure the overall impact of the program and identify whether to renew the program after an initial 3-year term.

(3) ELIGIBILITY FOR STATE-FUNDED ASSISTANCE.—Only the following individuals are eligible for state-funded assistance in paying premiums for Healthy Florida or Florida Healthy Kids ~~premiums~~:

(a) Residents of this state who are eligible for the Florida Kidcare program pursuant to s. 409.814 or the Healthy Florida pursuant to s. 624.917.

(b) Notwithstanding s. 409.814, legal aliens who are enrolled in the Florida Healthy Kids program as of January 31,

576-04564-13

2004, who do not qualify for Title XXI federal funds because they are not qualified aliens as defined in s. 409.811.

(4) NONENTITLEMENT.—Nothing in this section shall be construed as providing an individual with an entitlement to health care services. No cause of action shall arise against the state, the Florida Healthy Kids Corporation, or a unit of local government for failure to make health services available under this section.

(5) CORPORATION AUTHORIZATION, DUTIES, POWERS.—

(a) There is created the Florida Healthy Kids Corporation, a not-for-profit corporation.

(b) The Florida Healthy Kids Corporation shall:

1. Arrange for the collection of any family, individual, or local contributions~~, or employer payment or premium~~, in an amount to be determined by the board of directors, to provide for payment of premiums for comprehensive insurance coverage and for the actual or estimated administrative expenses.

2. Arrange for the collection of any voluntary contributions to provide for payment of premiums for enrollees in the Florida Kidcare program or Healthy Florida ~~premiums for children who are not eligible for medical assistance under Title XIX or Title XXI of the Social Security Act~~.

3. Subject to the provisions of s. 409.8134, accept voluntary supplemental local match contributions that comply with the requirements of Title XXI of the Social Security Act for the purpose of providing additional Florida Kidcare coverage in contributing counties under Title XXI.

4. Establish the administrative and accounting procedures for the operation of the corporation.

576-04564-13

5. Establish, with consultation from appropriate professional organizations, standards for preventive health services and providers and comprehensive insurance benefits appropriate to children, provided that such standards for rural areas shall not limit primary care providers to board-certified pediatricians.

6. Determine eligibility for children seeking to participate in the Title XXI-funded components of the Florida Kidcare program consistent with the requirements specified in s. 409.814, as well as the non-Title-XXI-eligible children as provided in subsection (3).

7. Establish procedures under which providers of local match to, applicants to and participants in the program may have grievances reviewed by an impartial body and reported to the board of directors of the corporation.

8. Establish participation criteria and, if appropriate, contract with an authorized insurer, health maintenance organization, or third-party administrator to provide administrative services to the corporation.

9. Establish enrollment criteria that include penalties or waiting periods of 30 days for reinstatement of coverage upon voluntary cancellation for nonpayment of family and individual premiums under the programs.

10. Contract with authorized insurers or any provider of health care services, meeting standards established by the corporation, for the provision of comprehensive insurance coverage to participants. Such standards shall include criteria under which the corporation may contract with more than one provider of health care services in program sites.

a. Health plans shall be selected through a competitive bid process.

b. The Florida Healthy Kids Corporation shall purchase goods and services in the most cost-effective manner consistent with the delivery of quality medical care. The maximum administrative cost for a Florida Healthy Kids Corporation contract shall be 15 percent. For all health care contracts, the minimum medical loss ratio is ~~for a Florida Healthy Kids Corporation contract shall be~~ 85 percent. The calculations must use uniform financial data collected from all plans in a format established by the corporation and shall be computed for each insurer on a statewide basis. Funds shall be classified in a manner consistent with 45 C.F.R. part 158 ~~For dental contracts, the remaining compensation to be paid to the authorized insurer or provider under a Florida Healthy Kids Corporation contract shall be no less than an amount which is 85 percent of premium; to the extent any contract provision does not provide for this minimum compensation, this section shall prevail~~.

c. The health plan selection criteria and scoring system, and the scoring results, shall be available upon request for inspection after the bids have been awarded.

11. Establish disenrollment criteria in the event local matching funds are insufficient to cover enrollments.

12. Develop and implement a plan to publicize the Florida Kidcare program and Healthy Florida, the eligibility requirements of the programs ~~program~~, and the procedures for enrollment in the program and to maintain public awareness of the corporation and the programs ~~program~~.

13. Secure staff necessary to properly administer the

corporation. Staff costs shall be funded from state and local matching funds and such other private or public funds as become available. The board of directors shall determine the number of staff members necessary to administer the corporation.

14. In consultation with the partner agencies, annually provide a report on the Florida Kidcare program ~~annually~~ to the Governor, the Chief Financial Officer, the Commissioner of Education, the President of the Senate, the Speaker of the House of Representatives, and the Minority Leaders of the Senate and the House of Representatives.

15. Provide information on a quarterly basis to the Legislature and the Governor which compares the costs and utilization of the full-pay enrolled population and the Title XXI-subsidized enrolled population in the Florida Kidcare program. The information, at a minimum, must include:

a. The monthly enrollment and expenditure for full-pay enrollees in the Medikids and Florida Healthy Kids programs compared to the Title XXI-subsidized enrolled population; and

b. The costs and utilization by service of the full-pay enrollees in the Medikids and Florida Healthy Kids programs and the Title XXI-subsidized enrolled population. This subparagraph is repealed effective December 31, 2013.

~~By February 1, 2010, the Florida Healthy Kids Corporation shall provide a study to the Legislature and the Governor on premium impacts to the subsidized portion of the program from the inclusion of the full-pay program, which shall include recommendations on how to eliminate or mitigate possible impacts to the subsidized premiums.~~

576-04564-13

16. By August 15, 2013, the corporation shall notify all current full-pay enrollees of the availability of the exchange, as defined in the federal Patient Protection and Affordable Care Act, and how to access other insurance affordability options. New applications for full-pay coverage may not be accepted after September 30, 2013.

17.~~16.~~ Establish benefit packages that conform to the provisions of the Florida Kidcare program, as created in ss. 409.810-409.821.

(c) Coverage under the corporation's program is secondary to any other available private coverage held by, or applicable to, the participant ~~child~~ or family member. Insurers under contract with the corporation are the payors of last resort and must coordinate benefits with any other third-party payor that may be liable for the participant's medical care.

(d) The Florida Healthy Kids Corporation shall be a private corporation not for profit, registered, incorporated, and organized pursuant to chapter 617, and shall have all powers necessary to carry out the purposes of this act, including, but not limited to, the power to receive and accept grants, loans, or advances of funds from any public or private agency and to receive and accept from any source contributions of money, property, labor, or any other thing of value, to be held, used, and applied for the purposes of this act. The corporation and any committees it forms shall act in compliance with part III of chapter 112, and chapters 119 and 286.

(6) BOARD OF DIRECTORS AND MANAGEMENT SUPERVISION.—

(a) The Florida Healthy Kids Corporation shall operate subject to the supervision and approval of a board of directors

576-04564-13

chaired by an appointee designated by the Governor ~~Chief Financial Officer or her or his designee,~~ and composed of 15 ~~12~~ other members. The Senate shall confirm the designated chair and other board appointees ~~selected~~ for 3-year terms of office as follows:

1. The Secretary of Health Care Administration, or his or her designee, as an ex-officio member.

2. The State Surgeon General, or his or her designee, as an ex-officio member ~~One member appointed by the Commissioner of Education from the Office of School Health Programs of the Florida Department of Education~~.

3. The Secretary of Children and Families, or his or her designee, as an ex-officio member ~~One member appointed by the Chief Financial Officer from among three members nominated by the Florida Pediatric Society~~.

4. Four members ~~One member,~~ appointed by the Governor~~, who represents the Children's Medical Services Program~~.

5. Two members ~~One member~~ appointed by the President of the Senate ~~Chief Financial Officer from among three members nominated by the Florida Hospital Association~~.

6. Two members ~~One member,~~ appointed by the Senate Minority Leader ~~Governor, who is an expert on child health policy~~.

7. Two members ~~One member,~~ appointed by the Speaker of the House of Representatives ~~Chief Financial Officer, from among three members nominated by the Florida Academy of Family Physicians~~.

8. Two members ~~One member,~~ appointed by the House Minority Leader ~~Governor, who represents the state Medicaid program~~.

~~9. One member, appointed by the Chief Financial Officer,~~

~~from among three members nominated by the Florida Association of Counties.~~

~~10. The State Health Officer or her or his designee.~~

~~11. The Secretary of Children and Family Services, or his or her designee.~~

~~12. One member, appointed by the Governor, from among three members nominated by the Florida Dental Association.~~

(b) A member of the board of directors may be removed by the official who appointed that member. The board shall appoint an executive director, who is responsible for other staff authorized by the board.

(c) Board members are entitled to receive, from funds of the corporation, reimbursement for per diem and travel expenses as provided by s. 112.061.

(d) There shall be no liability on the part of, and no cause of action shall arise against, any member of the board of directors, or its employees or agents, for any action they take in the performance of their powers and duties under this act.

(e) Board members who are serving on or before the date of enactment of this act or similar legislation may remain until July 1, 2013.

(f) An executive steering committee is created to provide management direction and support and to make recommendations to the board on the programs. The steering committee is composed of the Secretary of Health Care Administration, the Secretary of Children and Families, and the State Surgeon General. Committee members may not delegate their membership or attendance.

(7) LICENSING NOT REQUIRED; FISCAL OPERATION.—

(a) The corporation shall not be deemed an insurer. The

officers, directors, and employees of the corporation shall not be deemed to be agents of an insurer. Neither the corporation nor any officer, director, or employee of the corporation is subject to the licensing requirements of the insurance code or the rules of the Department of Financial Services or Office of Insurance Regulation. However, any marketing representative utilized and compensated by the corporation must be appointed as a representative of the insurers or health services providers with which the corporation contracts.

(b) The board has complete fiscal control over the corporation and is responsible for all corporate operations.

(c) The Department of Financial Services shall supervise any liquidation or dissolution of the corporation and shall have, with respect to such liquidation or dissolution, all power granted to it pursuant to the insurance code.

Section 14. Section 624.915, Florida Statutes, is repealed.

Section 15. Section 624.917, Florida Statutes, is created to read:

624.917 Healthy Florida program.—

(1) PROGRAM CREATION.—There is created Healthy Florida, a health care program for lower income, uninsured adults who meet the eligibility guidelines established under s. 624.91. The Florida Healthy Kids Corporation shall administer the program under its existing corporate governance and structure.

(2) DEFINITIONS.—As used in this section, the term:

(a) "Actuarially equivalent" means:

1. The aggregate value of the benefits included in health benefits coverage is equal to the value of the benefits in the child benchmark benefit plan as defined in s. 409.811; and

2. The benefits included in health benefits coverage are substantially similar to the benefits included in the child benchmark benefit plan, except that preventive health services do not include dental services.

(b) "Agency" means the Agency for Health Care Administration.

(c) "Applicant" means the individual who applies for determination of eligibility for health benefits coverage under this section.

(d) "Child benchmark benefit plan" means the form and level of health benefits coverage established in s. 409.815.

(e) "Child" means any person younger than 19 years of age.

(f) "Corporation" means the Florida Healthy Kids Corporation.

(g) "Enrollee" means an individual who has been determined eligible for and is receiving coverage under this section.

(h) "Florida Kidcare program" or "Kidcare program," means the health benefits program administered through ss. 409.810-409.821.

(i) "Health benefits coverage" means protection that provides payment of benefits for covered health care services or that otherwise provides, either directly or through arrangements with other persons, covered health care services on a prepaid per capita basis or on a prepaid aggregate fixed-sum basis.

(j) "Healthy Florida" means the program created by this section which is administered by the Florida Healthy Kids Corporation.

(k) "Healthy Kids" means the Florida Kidcare program component created under s. 624.91 for children who are 5 through

18 years of age.

(l) "Household income" means the group or the individual whose income is considered in determining eligibility for the Healthy Florida program. The term "household" has the same meaning as provided in s. 36B(d)(2) of the Internal Revenue Code of 1986.

(m) "Medicaid" means the medical assistance program authorized by Title XIX of the Social Security Act, and regulations thereunder, and ss. 409.901-409.920, as administered in this state by the agency.

(n) "Medically necessary" means the use of any medical treatment, service, equipment, or supply necessary to palliate the effects of a terminal condition, or to prevent, diagnose, correct, cure, alleviate, or preclude deterioration of a condition that threatens life, causes pain or suffering, or results in illness or infirmity and which is:

1. Consistent with the symptom, diagnosis, and treatment of the enrollee's condition;

2. Provided in accordance with generally accepted standards of medical practice;

3. Not primarily intended for the convenience of the enrollee, the enrollee's family, or the health care provider;

4. The most appropriate level of supply or service for the diagnosis and treatment of the enrollee's condition; and

5. Approved by the appropriate medical body or health care specialty involved as effective, appropriate, and essential for the care and treatment of the enrollee's condition.

(o) "Modified adjusted gross income" means the individual or household's annual adjusted gross income as defined in s.

36B(d)(2) of the Internal Revenue Code of 1986 which is used to determine eligibility under the Florida Kidcare program.

(p) "Patient Protection and Affordable Care Act" or "Act" means the federal law enacted as Pub. L. No. 111-148, as further amended by the federal Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152, and any amendments, regulations or guidance thereunder, issued under those acts.

(q) "Premium" means the entire cost of a health insurance plan, including the administration fee or the risk assumption charge.

(r) "Premium assistance payment" means the monthly consideration paid by the agency per enrollee in the Florida Kidcare program towards health insurance premiums.

(s) "Qualified alien" means an alien as defined in 8 U.S.C. s. 1641(b) and (c).

(t) "Resident" means a United States citizen or qualified alien who is domiciled in this state.

(3) ELIGIBILITY.—To be eligible and remain eligible for the Healthy Florida program, an individual must be a resident of this state and meet the following additional criteria:

(a) Be identified as newly eligible, as defined in s. 1902(a)(10)(A)(i)(VIII) of the Social Security Act or s. 2001 of the federal Patient Protection and Affordable Care Act, and as may be further defined by federal regulation.

(b) Maintain eligibility with the corporation and meet all renewal requirements as established by the corporation.

(c) Renew eligibility on at least an annual basis.

(4) ENROLLMENT.—The corporation may begin the enrollment of applicants in the Healthy Florida program on October 1, 2013.

Enrollment may occur directly, through the services of a third-party administrator, referrals from the Department of Children and Families, and the exchange as defined by the federal Patient Protection and Affordable Care Act. As an enrollee disenrolls, the corporation must also provide the enrollee with information about other insurance affordability programs and electronically refer the enrollee to the exchange or other programs, as appropriate. The earliest coverage effective date under the program shall be January 1, 2014.

(5) DELIVERY OF SERVICES.—The corporation shall contract with authorized insurers licensed under chapter 627; managed care organizations authorized under chapter 641; and provider service networks authorized under ss. 409.912(4)(d) and 409.962(13) which are prepaid plans. These insurers, managed care organizations, and provider service networks must meet standards established by the corporation to provide comprehensive health care services to enrollees who qualify for services under this section. The corporation may contract for such services on a statewide or regional basis. To encourage continuity of care among enrollees who may transition across multiple insurance affordability programs, the corporation is encouraged to contract with those insurers and managed care organizations that participate in more than one such program.

(a) The corporation shall establish access and network standards for such contracts and ensure that contracted providers have sufficient providers to meet enrollee needs. Quality standards must be developed by the corporation, specific to the adult population, which take into consideration recommendations from the National Committee on Quality

Assurance, stakeholders, and other existing performance indicators from both public and commercial populations. The corporation and its contracted health plans shall develop policies that minimize the disruption of enrollee medical homes when enrollees transition between insurance affordability plans.

(b) The corporation shall provide an enrollee a choice of plans. The corporation may select a plan if no selection has been received before the coverage start date. Once enrolled, an enrollee has an initial 90-day, free-look period before a lock-in period of not more than 12 months is applied. Exceptions to the lock-in period must be offered to an enrollee for reasons based upon good cause or qualifying events.

(c) The corporation may consider contracts that provide family plans that would allow members from multiple state and federally funded programs to remain together under the same plan.

(d) All contracts must meet the medical loss ratio requirements under s. 624.91.

(6) BENEFITS.—The corporation shall establish a benefits package that is actuarially equivalent to the benchmark benefit plan offered under s. 409.815(2), excluding dental, and meets the alternative benefits package requirements under s. 1937 of the Social Security Act. Benefits must be offered as an integrated, single package.

(a) In addition to benchmark benefits, health reimbursement accounts or a comparable health savings account for each enrollee must be established through the corporation or the contracts managed by the corporation. Enrollees must be rewarded for healthy behaviors, wellness program adherence, and other

activities established by the corporation which demonstrate compliance with preventive care or disease management guidelines. Funds deposited into these accounts may be used to pay cost-sharing obligations or to purchase over-the-counter health-related items to the extent allowed under federal law or regulation.

(b) Enhanced services may be offered if the cost of such additional services provides savings to the overall plan.

(c) The corporation shall establish a process for the payment of wrap-around services not covered by the benchmark benefit plan through a separate subcapitation process to its contracted providers if it is determined that such services are required by federal law. Such services would be covered when deemed medically necessary on an individual basis. The subcapitation pool is subject to a separate reconciliation process under the medical loss ratio provisions in s. 624.91.

(d) A prior authorization process and other utilization controls may be established by the plan for any benefit if approved by the corporation.

(7) COST SHARING.—The corporation may collect premiums and copayments from enrollees in accordance with federal law. Amounts to be collected for the Healthy Florida program must be established annually in the General Appropriations Act.

(a) Payment of a monthly premium may be required before the establishment of an enrollee’s coverage start date and to retain monthly coverage.

(b) An enrollee who has a family income above the federal poverty level may be required to make nominal copayments, in accordance with federal rule, as a condition of receiving a

health care service.

(c) A provider is responsible for the collection of point-of-service cost-sharing obligations. The enrollee's cost-sharing contribution is considered part of the provider's total reimbursement. Failure to collect an enrollee's cost sharing reduces the provider's share of the reimbursement.

(8) PROGRAM MANAGEMENT.—The corporation is responsible for the oversight of the Healthy Florida program. The agency shall seek a state plan amendment or other appropriate federal approval to implement the Healthy Florida program. The agency shall consult with the corporation in the amendment's development and submit by June 14, 2013, the state plan amendment to the federal Department of Health and Human Services. The agency shall contract with the corporation for the administration of the Healthy Florida program and for the timely release of federal and state funds. The agency retains its authorities as provided in ss. 409.902 and 409.963.

(a) The corporation shall establish a process by which grievances can be resolved and Healthy Florida recipients can be informed of their rights under the Medicaid Fair Hearing Process, as appropriate, or any alternative resolution process adopted by the corporation.

(b) The corporation shall establish a program integrity process to ensure compliance with program guidelines. At a minimum, the corporation shall withhold benefits from an applicant or enrollee if the corporation obtains evidence that the applicant or enrollee is no longer eligible, submitted incorrect or fraudulent information in order to establish eligibility, or failed to provide verification of eligibility.

The corporation shall notify the applicant or enrollee that, because of such evidence, program benefits must be withheld unless the applicant or enrollee contacts a designated representative of the corporation by a specified date, which must be within 10 working days after the date of notice, to discuss and resolve the matter. The corporation shall make every effort to resolve the matter within a timeframe that will not cause benefits to be withheld from an eligible enrollee. The following individuals may be subject to specific prosecution in accordance with s. 414.39:

1. An applicant who obtains or attempts to obtain benefits for a potential enrollee under the Healthy Florida program when the applicant knows or should have known that the potential enrollee does not qualify for the Healthy Florida program.

2. An individual who assists an applicant in obtaining or attempting to obtain benefits for a potential enrollee under the Healthy Florida program when the individual knows or should have known that the potential enrollee does not qualify for the Healthy Florida program.

(9) APPLICABILITY OF LAWS RELATING TO MEDICAID.—The provisions of ss. 409.902, 409.9128, and 409.920 apply to the administration of the Healthy Florida program.

(10) PROGRAM EVALUATION.—The corporation shall collect both eligibility and enrollment data from program applicants and enrollees as well as encounter and utilization data from all contracted entities during the program term. The corporation shall submit monthly enrollment reports to the President of the Senate, the Speaker of the House of Representative, and the Minority Leaders of the Senate and the House of Representatives.

The corporation shall submit an interim independent evaluation of the Healthy Florida program to the presiding officers no later than July 1, 2015, with annual evaluations due July 1 each year thereafter. The evaluations must address, at a minimum, application and enrollment trends and issues, utilization and cost data, and customer satisfaction.

(11) PROGRAM EXPIRATION.—The Healthy Florida program shall expire at the end of the state fiscal year in which any of these conditions occur, whichever occurs first:

(a) The federal match contribution falls below 90 percent.

(b) The federal match contribution falls below the increased FMAP for medical assistance for newly eligible mandatory individuals as specified in the federal Patient Protection and Affordable Care Act, Pub. L. No. 111-148, as amended by the federal Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152.

(c) The federal match for the Healthy Florida program and the Medicaid program are blended under federal law or regulation in such a way that causes the overall federal contribution to diminish when compared to separate, nonblended federal contributions.

Section 16. The Florida Healthy Kids Corporation may make changes to comply with the objections of the federal Department of Health and Human Services to gain approval of the Healthy Florida program in compliance with the federal Patient Protection and Affordable Care Act, upon giving notice to the Senate and the House of Representatives of the proposed changes. If there is a conflict between a provision in this section and the federal Patient Protection and Affordable Care Act, Pub. L.

No. 111-148, as amended by the federal Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152, the provision must be interpreted and applied so as to comply with the requirement of the federal law.

Section 17. (1) The sum of $1,258,054,808 from the Medical Care Trust Fund is appropriated to the Agency for Health Care Administration beginning in the 2013-2014 fiscal year to provide coverage for individuals who enroll in the Healthy Florida Program.

(2) The sum of $254,151 from the General Revenue Fund and $18,235,833 from the Medical Care Trust Fund is appropriated to the Agency for Health Care Administration beginning in the 2013-2014 fiscal year to comply with federal regulations to compensate insurers and managed care organizations that contract with the Healthy Florida Program for the imposition of the annual fee on health insurance providers under section 9010 of the federal Patient Protection and Affordable Care Act, Pub. L. No. 111-148, as amended by the federal Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152.

(3) The sum of $10,676,377 from the General Revenue Fund and $10,676,377 from the Medical Care Trust Fund is appropriated beginning in the 2013-2014 fiscal year to the Agency for Health Care Administration to contract with the Florida Healthy Kids Corporation under s. 409.818(2)(f), Florida Statutes, to fund administrative costs necessary for implementing and operating the Healthy Florida Program.

(4) The Agency for Health Care Administration may submit budget amendments to the Legislative Budget Commission pursuant to chapter 216, Florida Statutes, to fund the Healthy Florida

Program for the coverage of children who transfer from the Florida Kidcare Program to the Healthy Florida Program, or to provide additional spending authority from the Medical Care Trust Fund under subsection (1) for the coverage of individuals who enroll in the Healthy Florida Program, during the 2013-2014 fiscal year.

Section 18. This act shall take effect upon becoming a law.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 1816
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Health and Human Services) and Appropriations Committee
SUBJECT:	Health Care
DATE:	April 25, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Brown	Hansen		**AP SPB 7038 as introduced**
2.	Brown	Pigott	AHS	**Fav/CS**
3.	Brown	Hansen	AP	**Fav/CS**
4.				
5.				
6.				

I. Summary:

CS/SB 1816 amends several sections of the Florida Kidcare Program Act under Part II of chapter 409, Florida Statutes, to remove obsolete provisions and conform other provisions with changes in federal laws and regulations relating to the implementation of the federal Patient Protection and Affordable Care Act (Public Law 2011-148), as amended by the Health Care and Education Reconciliation Act of 2010 (Public Law 2011-152), known collectively as "PPACA," and the Supreme Court ruling in *National Federation of Independent Business v. Sebelius.*[1]

The bill adds definitions for "modified adjusted gross income" and "household income" to align with changes in Medicaid and Children's Health Insurance Program (CHIP) program eligibility laws and regulations and removes definitions that are no longer applicable to the program. The bill removes authority and provisions for an employer-sponsored insurance premium assistance program component in Florida Kidcare. Notification requirements for certain Florida Kidcare disenrollees regarding other insurance options on the exchange, as defined under PPACA, are added, and the non-subsidized program under Florida Kidcare is phased-out. The bill includes provisions for electronic eligibility matching through the exchange hub and an option for written documentation when matching is not feasible.

The bill includes appropriations of $10.93 million general revenue (GR) and $1.29 billion from the Medical Care Trust Fund for the 2013-2014 fiscal year to implement the bill.

[1] *National Federation of Independent Business v. Sebelius, 567 U.S.___(2012).*

The bill revises the eligibility process to reflect the procedures that will be used under the modified adjusted gross income (MAGI) method beginning January 1, 2014. The bill further revises the responsibilities of the Department of Children and Family Services (DCF), the Agency for Health Care Administration (AHCA), the Department of Health (DOH), the Florida Healthy Kids Corporation (FHKC), and the Office of Insurance Regulation (OIR) under the Florida Kidcare Program. The bill clarifies that the AHCA is directed to contract with the FHKC for the administration of the Healthy Kids and Healthy Florida programs.

The bill amends s. 624.91, Florida Statutes – the Florida Healthy Kids Corporation Act – to revise legislative intent to include a new program, Healthy Florida. The bill modifies FHKC's corporate governance structure, medical loss ratio guidelines for health plan contracts, and corporate responsibilities. The bill creates s. 624.917, Florida Statutes, to provide definitions, eligibility criteria, enrollment, and benefits for the Healthy Florida program. The FHKC is also authorized to make changes to the program to negotiate for the approval of the Healthy Florida program with the federal Department of Health and Human Services (HHS), if necessary.

The bill repeals the authority for an operating fund for the FHKC under section 624.915, Florida Statutes.

The bill includes a conflict of laws statement indicating that if there is a conflict between a provision in the bill and the PPACA, the provision must be interpreted to comply with the requirements of federal law.

The bill prohibits an insurer, health maintenance organization (HMO), or prepaid limited health service organization from contracting with a licensed dentist to provide services to an insured or subscriber at a specified fee unless such services are "covered services" under the applicable contract. The bill prohibits an insurer, HMO, or prepaid limited health services organization from requiring that a contracted dentist participate in a discount medical plan. The bill also prohibits an insurer from requiring that a contracted health care provider accept the terms of other practitioner contracts with a prepaid limited health service organization that is under common management and control with the contracting insurer.

The bill authorizes a dentist who is a government-contracted health care provider under the Access to Health Care Act, to allow a patient, or a parent or guardian of a patient, to voluntarily contribute a fee to cover costs of dental laboratory work. The contribution may not exceed the actual cost of the laboratory fee. When the voluntary contribution is accepted from the patient for dental laboratory fees, it is not considered compensation for services so that sovereign immunity protection is not lost.

The bill is effective upon becoming law.

This bill substantially amends the following sections of the Florida Statutes: 409.811, 409.813, 409.8132, 409.8135, 409.814, 409.815, 409.8177, 409.818, 409.820, 624.91, 627.6474, 636.035, 641.315, and 766.1115.

The bill creates section 624.917, Florida Statutes.

The bill repeals the following sections the Florida Statutes: 409.817, 409.8175, and 624.915.

II. Present Situation:

Florida provides health insurance coverage options to low income Floridians through a variety of programs utilizing state and federal funds. As of February 28, 2013, more than 3.2 million individuals received coverage through some Medicaid eligibility category.[2] Enrollment in the Florida Kidcare program (non-Medicaid funded components) for the same time period was an additional 256,721 children.[3]

Florida's Medicaid program is expected to expend $21 billion for the 2012-13 state fiscal year to provide coverage to its enrollees, making it the fifth largest in the nation in terms of expenditures.[4] The Florida Medicaid program is jointly funded between the state and federal governments; 57.73 percent of the cost for health care services is paid by federal funds and 42.27 percent is state share in the current state fiscal year. Funding for the Florida Kidcare program's Title XXI components has an enhanced federal match of 70.66 percent for federal fiscal year 2012-13.[5]

According to the most recent data from the American Community Survey (ACS) of the federal Census Bureau, an estimated 4 million Floridians are uninsured.[6] Of that number according to the ACS data, 594,000 are children.[7] Dividing Florida's uninsured by income level, more than 1.9 million adults are under 139% of the federal poverty level (FPL), according to statistics for 2010-2011.[8] Lower income adults, or those below 100 percent of the FPL, number at 1.1 million of the 1.9 million for that same time period.[9]

Eligibility for the Medicaid program is based on a number of factors, including age, household or individual income, and assets.

The Department of Children and Families (DCF) determines eligibility for the Medicaid program but the AHCA is the single state Medicaid agency and has the lead responsibility for the overall program.[10]

Recipients in the Medicaid program receive their benefits through several different delivery systems, depending on their individual situation. Delivery systems currently include fee-for-service providers, prepaid dental plans, provider service networks, and Medicaid managed care plans. In July 2006, the AHCA implemented the Medicaid Managed Pilot Program as directed by the 2005 Legislature through s. 409.91211, F.S. The pilot program operates under an 1115 Research and Demonstration Waiver approved by the federal Centers for Medicare and Medicaid Services. The pilot program was initially authorized for Broward and Duval counties with expansion to Baker, Clay and Nassau the following year.

Under the current pilot program, most Medicaid recipients in the five pilot counties (Broward, Duval, Baker, Clay, and Nassau counties) are required to receive their benefits through either health maintenance organizations (HMOs), provider service networks (PSNs), or a specialty plan. In addition to the minimum benefits package, plans may provide enhanced services such as over the counter benefits, preventive dental care for adults, and health and wellness benefits.

Medicaid Statewide Managed Medical Care Program

In 2011, the Legislature passed HB 7107, creating the Statewide Medicaid Managed Medical Assistance (SMMC) Program as part IV of ch. 409, F.S. The SMMC requires the AHCA to create an integrated managed care program for Medicaid enrollees that incorporates all of the minimum benefits, for the delivery of primary and acute care. The SMMC has two components: the Long Term Care Managed Care program and the Managed Medical Assistance (MMA) program.

As the single state agency for Medicaid under s. 409.963, F.S., the AHCA has primary responsibility for the management and operations of the state's Medicaid program, including seeking waiver authority from the federal government. To implement these two programs and receive federal Medicaid funding, the AHCA was required to seek federal authorization through two different Medicaid waivers from the Centers for Medicare and Medicaid Services. The first component authorized was the LTC Managed Care Program's 1915(b) and (c) waiver. Approval was granted on February 1, 2013.

The LTC Managed Care Program will serve those individuals who are 65 years of age or old or who are eligible for Medicaid by reason of a disability, subject to wait list prioritization and availability of funds. The recipients must also be determined to require a nursing facility level of care. Medicaid recipients who qualify will receive all of their long-term care services from the long-term care managed care plan.

The AHCA is responsible for administering the LTC Managed Care Program but may delegate specific duties to the Department of Elderly Affairs and other state agencies. Implementation of

[10] Agency for Health Care Administration, *Welcome to Medicaid!*, http://ahca.myflorida.com/Medicaid/index.shtml (last visited Mar. 17, 2013).

the LTC Managed Care program started July 1, 2012, with completion expected by October 1, 2013. The AHCA released an Invitation to Negotiate (ITN) on June 29, 2012, and on January 15, 2013, notices of contract awards to managed care plans under that ITN were announced.

For the SMMC component, the AHCA sought to modify the existing Medicaid Reform 1115 Demonstration waiver with the Centers for Medicare and Medicaid Services to expand the program statewide. The AHCA initiated the SMMC project in January 2012 and released a separate ITN to competitively procure managed care plans on a statewide basis on December 28, 2012. Bids are due to the AHCA on March 29, 2013 and awards are expected to be announced on September 16, 2013.

Plans can supplement the minimum benefits in their bids and offer enhanced options. The number of plans to be selected by region is prescribed under s. 409.974, F.S. Specialty plans that serve specific, targeted populations based on age, medical condition, and diagnosis, are also included under the SMMC program. Under s. 409.967, F.S., accountability provisions for the managed care plans specify several conditions or requirements including emergency care and physician reimbursement standards, access and credentialing requirements, encounter data submission guidelines, grievance and resolutions, and medical loss ratio calculations.

Statewide implementation of SMMC is expected to be completed by October 1, 2014. Final approval of the necessary Medicaid waiver by the federal government has not yet been received; however, on February 20, 2013 the AHCA and the Centers for Medicare and Medicaid Services reached an "Agreement in Principle" on the proposed plan.

Under SMMC, persons meeting applicable eligibility requirements of Title XIX of the Social Security Act must be enrolled in a managed care plan. Medicaid recipients who (a) have other creditable care coverage, excluding Medicare; (b) reside in residential commitment facilities operated through the Department of Juvenile Justice, group care facilities operated by the DCF, and treatment facilities funded through the DCF Substance Abuse and Mental Health Program; (c) are eligible for refugee assistance; or (d) are residents of a developmental disability center, may voluntarily enroll in the SMMC program. Those recipients who elect not to enroll in SMMC voluntarily will be served through the Medicaid fee-for-service system.

Florida Kidcare Program

The Florida Kidcare Program (Program) was created in 1998 by the Florida Legislature in response to the federal enactment of the Children's Health Insurance Program (CHIP) in 1997. The CHIP provides subsidized health insurance coverage to uninsured children who do not qualify for Medicaid but who have family incomes under 200 percent of the FPL and meet other eligibility criteria. The state statutory authority for the Program is found under part II of chapter 409; ss. 409.810 through 409.821, F.S.

The Program includes four operating components: Medicaid for children, Medikids, the Children's Medical Services Network, and the FHKC. Section 409.813, F.S., includes five components for the Program. The fifth component – the employer sponsored group health insurance plan – has never been implemented. The AHCA submitted a state plan amendment in December 1998 for implementation of that component; however, the plan amendment was

disapproved by the federal Centers for Medicare and Medicaid Services in November 1999 and was not re-submitted.[11] The Title XXI-funded components of Florida Kidcare serve distinct populations under the program:[12]

- Medicaid for Children: Children from birth until age 1 for family incomes between 185 percent and 200 percent of the FPL.
- Medikids: Title XXI funding is available from age 1 until age 5 for family incomes between 133 percent and 200 percent of the FPL.
- Healthy Kids: Title XXI funding is available from age 5 through age 6 for family incomes between 133 and 200 percent of the FPL. For age 6 through age 18, Title XXI funding is available for family incomes between 100 percent and 200 percent of the FPL.
- Children's Medical Services Network: Title XXI and Title XIX funds are available from birth until age 19 for family incomes up to 200 percent of the FPL for children with special health care needs. The Department of Health assesses whether children meet the clinical requirements.

Coverage for the non-Medicaid components of the Florida Kidcare Program is funded through Title XXI of the federal Social Security Act (CHIP coverage). Title XIX of the Social Security Act (Medicaid coverage), state funds for CHIP coverage, and family contributions also provide funding for the Florida Kidcare Program. Family contributions are based on family size, household income, and other eligibility factors. Families above the income limits for premium assistance or who are not otherwise eligible for premium assistance are offered the opportunity to participate in the Program at a non-subsidized rate (full-pay). Currently, the income limit for premium assistance is 200 percent of the FPL.

The Medikids program was created under s. 409.8132, F.S., as a Medicaid "look-alike" program for enrollees age 1 through 4. Medikids is administered by the AHCA and enrollees receive the same mandatory and optional benefits covered under ss. 409.905 and 409.906, F.S. Enrollees are offered a choice of health plans or, if two plans are not offered in a particular county, MediPass is provided as one of the options. Many provisions of the Medicaid program also apply to the Medikids program; such as program integrity, provider fraud and abuse preventions, and quality of care.

Under s. 409.814, F.S., the Program's eligibility guidelines are described in conformity with current Title XIX and Title XXI terminology and requirements for each funding component. Other eligibility factors related to premium assistance under this section include whether a child:

- Is covered under other employer-based coverage costing less than five percent of the family income;
- Is an alien, but does not meet the definition of a qualified alien;

[11] *See* State of Florida, Florida KidCare Program, Title XXI State Child Health Insurance Plan, Amendment #22, July 1, 2012, pg. 6, http://medicaid.gov/Medicaid-CHIP-Program-Information/By-Topics/Childrens-Health-Insurance-Program-CHIP/Downloads/CHIP-SPAs/FL-CSPA-22-FINAL.pdf (last visited: March 15, 2013).
[12] *See* State of Florida, Florida KidCare Program, Title XXI State Child Health Insurance Plan, Amendment #22, July 1, 2012, pg.5., http://medicaid.gov/Medicaid-CHIP-Program-Information/By-Topics/Childrens-Health-Insurance-Program-CHIP/Downloads/CHIP-SPAs/FL-CSPA-22-FINAL.pdf (last visited: March 15, 2013).

- Is an inmate in a public institution or a patient in an institution for mental disease; or,
- Has dropped employer-sponsored coverage within 60 days of applying for premium assistance. Current law does provide good cause exceptions that may be taken into consideration for individuals that drop employer-sponsored coverage resulting in a waiver of the 60-day waiting period for premium assistances.

Families with income above 200 percent of the FPL or who do not meet the qualifications for premium assistance may still be able to purchase the coverage under Medikids or Healthy Kids at the non-subsidized rate.

To enroll in Kidcare, families utilize a form that is both a Medicaid and a CHIP application. Families may apply using either an online or a paper application. Both formats are available in English, Spanish, or Creole. Eligibility is determined through electronic data matching using available databases, or, when income cannot be verified electronically, through submission of current paystubs, tax returns, or W-2 forms. Families may also apply for Medicaid through the DCF web portal (ACCESS) online, at an ACCESS community partner site, or with a paper form via the mail, fax, or in person at a Customer Service Center.[13]

Under s. 409.815, F.S., benefits under the Florida Kidcare program vary by program component. For Medicaid, Medikids, and the Children's Medical Services Network, enrollees receive the mandatory and optional medical benefits covered under ss. 409.905 and 409.906, F.S. For Healthy Kids and the employer-sponsored component, a benchmark benefit package is provided. The comprehensive benefit package includes preventive services, specialty care, hospitalization, prescription drug coverage, behavioral health and substance abuse services, dental care, vision and hearing services, and emergency care and transportation.

Limits on premiums and cost sharing in the Program are covered under s. 409.816, F.S., and conform to existing federal law and regulation for Title XIX and XXI. All Title XXI funded enrollees pay monthly premiums of $15 or $20 per family per month based on their family size and income. For those families at or below 150 percent of the FPL, the cost is $15 per family per month. For those between 150 percent of the FPL and 200 percent of the FPL, the cost is $20 per family per month. Enrollees in the Healthy Kids component also have copayments for non-preventive services that range from $5 per prescription to $10 for an inappropriate use of the emergency room visit. There are no copayments for visits related to well-child, preventive health, or dental care.[14]

Under s. 409.8175, F.S., a health maintenance organization may reimburse providers in a rural county according to the Medicaid fee schedule provided the provider agrees to such a schedule.

The AHCA contracts for an annual evaluation of the Program to address the statutory components of s. 409.8177, F.S. The annual reports are posted to the AHCA's website for public review and submitted to the Centers for Medicare and Medicaid Services.[15]

Several state agencies and the FHKC share responsibilities for the Program. Section 409.818, F.S., delineates the responsibilities for each of the entities under the Program, and subsection (5) preserves the FHKC's eligibility determination functions for the Healthy Kids program. Annually, the Legislature provides administrative funds through the AHCA's appropriation to contract with the FHKC to conduct the eligibility and administrative functions related to the Program.[16] The DCF determines eligibility for Medicaid and the FHKC determines eligibility for CHIP, which includes a Medicaid screening and referral process to the DCF, as appropriate.

During the 2012 Legislature, the DCF was directed to collaborate with the AHCA to develop an internet-based system for eligibility determination for Medicaid and CHIP.[17] The Legislature provided DCF with specific business and functional requirements for the project and timeframes for project completion.[18]

The following chart reflects current roles and responsibilities of the agencies and the FHKC:

Agency for Health Care Administration	**Department of Children and Families**	**Department of Health**	**Florida Healthy Kids Corporation**
Medicaid program and policy	Medicaid eligibility determination	Oversight of the Children's Medical Services Network program	Oversight of the Florida Healthy Kids Program
Lead state agency for Title XIX and XXI Compliance and federal funding	Manage B-NET program – specialized behavioral health care program	KidCare Coordinating Council	Conduct Title XXI (CHIP) eligibility and administration
Oversight of the Medikids program		Develop Quality Assurance Standards	Conduct Kidcare Outreach and Marketing
Monitor quality assurance standards			
Maintain Kidcare Grievance Process			

The Florida Kidcare Coordinating Council falls under the responsibility of the DOH; the secretary of the DOH chairs the Council. The Coordinating Council is specifically created under s. 409.818(2)(b), F.S., and is charged with making recommendations concerning the implementation and operation of the program. The Council includes representatives from the partner agencies and stakeholder representatives from the insurance industry, consumers, and

[18] ss. 409.902(4) and (5), F.S.

providers. For 2013, the Council developed a single priority state recommendation: "To fully fund the Florida Kidcare program, including its annualization and medical trend needs, projected growth, outreach and increased medical and dental costs in order to maximize the use of Florida's CHIP federal funds and include all eligible uninsured children."[19]

The Florida Healthy Kids Program is authorized under s. 624.91, F.S., which is also known as the "William G. 'Doc' Myers Healthy Kids Corporation Act." The FHKC was created as a private, not-for-profit corporation by the 1990 Florida Legislature in an effort to increase access to health insurance for school-aged children.[20]

Eligibility for the state-funded assistance is prescribed under s. 624.91(3), F.S., and provides cross references to the Florida Kidcare Act. The Healthy Kids program is also identified as a non-entitlement program under subsection (4).

Under s. 624.91(5), F.S., the FHKC is managed by an executive director selected by the board with the number of staff determined by the board. The FHKC is authorized to:

- Collect contributions from families, local sources or employer based premiums;
- Accept voluntary local match for Title XXI and Title XXI;
- Accept supplemental local match for Title XXI;
- Establish administrative and accounting procedures;
- Establish preventive health standards for children that do not limit participation to pediatricians in rural areas with consultation from appropriate experts;
- Determine eligibility for children seeking enrollment in Title XXI funded and non-Title XXI components;
- Establish grievance processes;
- Establish participation criteria for administrative services for the FHKC;
- Establish enrollment criteria that include penalties or waiting periods for non-payment of premiums of 30 days;
- Contract with authorized insurers and other health care providers meeting standards established by the FHKC for the delivery of services and select health plans through a competitive bid process;
- Purchase goods and services in a cost effective manner with a minimum medical loss ratio of 85 percent for health plan contracts;
- Establish disenrollment criteria for insufficient funding levels;
- Develop a plan to publicize the program;
- Secure staff and the necessary funds to administer the program;
- Provide an annual Kidcare report, in consultation with partner agencies, to the governor, chief financial officer, commissioner of education, president of the Senate, speaker of the House of Representatives, and minority leaders of the Senate and House of Representatives;
- Provide quarterly enrollment information on the full pay population; and,
- Establish benefit packages that conform to the Florida Kidcare benchmark benefit.

[19] Florida KidCare Website, KidCare Coordinating Council, *2013 Recommendations*, *http://www.floridakidcare.org/council/reports/2013_Recommendations.pdf* (last visited Mar. 17, 2013).

The FHKC is governed by a 13-member board of directors, chaired by Florida's chief financial officer or his or her designee.[21] The 12 other board members are:

- Secretary of the AHCA;
- One member appointed by the commissioner of education from the Office of School Health Programs from the Department of Education;
- One member, appointed by the chief financial officer from among three members nominated by the Florida Pediatric Society;
- One member, appointed by the governor, who represents the Children's Medical Services Program;
- One member appointed by the chief financial officer from among three members nominated by the Florida Hospital Association;
- One member, appointed by the governor, who is an expert on child health policy;
- One member, appointed by the chief financial officer, from among three members nominated by the Florida Academy of Family Physicians;
- One member, appointed by the governor, who represents the state Medicaid program;
- One member, appointed by the chief financial officer, from among three members nominated by the Florida Association of Counties;
- The state health officer or his or her designee;
- The secretary of the DCF, or his or her designee; and,
- One member, appointed by the governor, from among three members nominated by the Florida Dental Association.

Board members do not receive compensation for their service but may receive reimbursement for per diem and travel expenses in accordance with s. 112.061, F.S.[22]

The FHKC is not an insurer and is not subject to the licensing requirements of the Department of Financial Services. In addition, the FHKC board is also granted complete fiscal control over the FHKC and responsibility for all fiscal operations. Any liquidation of the FHKC would be supervised by the Department of Financial Services.[23]

The Patient Protection and Affordable Care Act of 2010

In March 2010, the Congress passed and the President signed the PPACA.[24] Under PPACA, one of the key components required the states to expand Medicaid to a minimum national eligibility threshold of 133 percent of the FPL, or, as it is sometimes expressed, 138 percent of the FPL with application of an automatic five percent income disregard, effective January 1, 2014.[25] While the funding for the newly eligible under this expansion would be initially funded at 100 percent federal funds for the first 3 calendar years, the states would gradually be required to pay a share of the costs, starting at 5 percent in calendar year 2017 before leveling off at 10 percent

[25] 42 U.S.C. s. 1396a(1).

in 2020.[26] As enacted, PPACA provided that states refusing to expand to the new national eligibility threshold faced the loss of *all* of their federal Medicaid funding.[27]

Florida, along with 25 other states challenged the constitutionality of the law. In *NFIB v. Sebelius*, the Supreme Court found the enforcement provisions of the Medicaid expansion unconstitutional.[28] As a result, states can voluntarily expand their Medicaid eligibility thresholds to PPACA standards and receive the enhanced federal match for the expansion population, but states cannot be penalized for not doing so.[29]

Since the decision in *NFIB v. Sebelius*, federal guidance has emphasized state flexibility in how states expand coverage to those defined as the newly eligible population. In a letter to the National Governors Association January 14, 2013, Health and Human Services Secretary Kathleen Sebelius reminded states of their ability to design flexible benefit packages without the need for waivers and the alternative benefit plans that are available.[30] This letter was preceded by the Frequently Asked Questions document on Exchange, Market Reforms and Medicaid, issued on December 10, 2012, that discussed promotion of personal responsibility wellness benefits and state flexibility to design benefits.[31]

A state Medicaid director letter on November 20, 2012 (ACA #21) further addressed state options for the adult Medicaid expansion group and the alternative benefit plans available under Section 1937 of the Social Security Act.[32] Under Section 1937, state Medicaid programs have the option of providing certain groups with benchmark or benchmark equivalent coverage based on four products: (1) the standard Blue Cross/Blue Shield Preferred Provider option offered to federal employees; (2) state employee coverage that is generally offered to all state employees; (3) the commercial HMO with the largest insured, non-Medicaid enrollment in the state or (4) Secretary-approved coverage.[33] For children under the age of 21, the coverage must include the Early and Periodic Screening, Diagnostic and Treatment Service (EPSDT). Other aspects of the essential health benefit requirements of PPACA, as discussed further below, may also be applicable, depending on the benefit package utilized.

In addition to the Medicaid expansion component, the PPACA imposes a mandate on individuals to acquire health insurance or pay a penalty, which was interpreted by the U.S. Supreme Court as a tax. Currently, many uninsured individuals are eligible for Medicaid or Kidcare coverage but are not enrolled. The existence of the federal mandate to purchase insurance may result in an

unknown number of currently eligible individuals coming forward and enrolling Medicaid who had not previously chosen to enroll. Their participation – to the extent it occurs – will result in increased costs that the state would not likely have incurred without the catalyst of the federal legislation.

To facilitate coverage, PPACA authorized the state-based American Health Benefit Exchanges and Small Business Health Options Program (SHOP) Exchanges. These exchanges are to be administered by governmental agencies or non-profit organizations and be ready to accept applications for coverage beginning October 1, 2013, for January 1, 2014, coverage dates. The exchanges, at a minimum, must:[34]

- Certify, re-certify and de-certify plans participating on the exchange;
- Operate a toll-free hotline;
- Maintain a website;
- Provide plan information and plan benefit options;
- Interact with the state's Medicaid and CHIP programs and provide information on eligibility and determination of eligibility for these programs;
- Certify individuals that gain exemptions from the individual responsibility requirement; and,
- Establish a navigator program.

The initial guidance from HHS in November 2010 set forward a number of principles and priorities for the exchanges. Further guidance was issued on May 16, 2012, detailing the proposed operations of a federally-facilitated exchange for those states that elect not to implement a state-based exchange. On November 16, 2012, Florida Governor Rick Scott notified HHS Secretary Sebelius that Florida had too many unanswered questions to commit to a state-based exchange under PPACA for the first enrollment period on January 1, 2014.[35]

PPACA also includes a tax penalty for those individuals that do not have qualifying health insurance coverage beginning January 1, 2014. The penalty is the greater of $695 per year up to a maximum of three times that amount per family or 2.5% of household income. The penalty, however, is phased-in and exemptions apply.

The following persons are exempt from the PPACA's requirement to maintain coverage:[36]

- Individuals with a religious objection;
- individuals not lawfully present; and
- Incarcerated individuals.

The following persons are exempt from the PPACA's penalty for failure to maintain coverage:[37]

[35] *Letter from Governor Rick Scott to Health and Human Services Secretary Kathleen Sebelius*, November 16, 2012 http://www.flgov.com/2012/11/16/letter-from-governor-rick-scott-to-u-s-secretary-of-health-and-human-services-kathleen-sebelius/ (last visited Mar. 16, 2013).

[36] *See* Sec. 5000A(d), Internal Revenue Code of 1986, as created or amended by the Patient Protection and Affordable Care Act of 2010 and/or the Health Care and Education Reconciliation Act of 2010.

- Individuals who cannot afford coverage, i.e. those whose required premium contributions exceed eight percent of household income;
- Individuals with income below the income tax filing threshold;
- American Indians;
- Individuals without coverage for less than three months; and
- Individuals determined by the HHS secretary to have suffered a hardship with respect to the capability to obtain coverage under a qualified plan.

Qualifying coverage may be obtained through an employer, the federal or state exchanges created under PPACA, or private individual or group coverage meeting the minimum essential benefits coverage standard.

Employers with more than 50 full time employees also share a financial responsibility under PPACA. Employers with more than 50 full-time employees that do not offer coverage meeting the essential benefits coverage standard and who have at least one employee receive a premium tax credit will be assessed a fee of $2,000 per full time employee, after the 30th employee.[38] If an employer does offer coverage and an employee receives a premium tax credit, the employer is assessed the lesser of $3,000 per employee receiving the credit or $2,000 per each employee after the 30th employee.[39]

Premium credits and other cost sharing subsidies are available to United States citizens and legal immigrants within certain income limits for coverage purchased through the exchanges. Legal immigrants with incomes at or below 100 percent of the FPL who are not eligible for Medicaid during their first five years are eligible for premium credits.[40] Premium credits are set on a sliding scale based on the percent of FPL for the household and reduce the out-of-pocket costs incurred by individuals and families.

[37] *See* Sec. 5000A(e), Internal Revenue Code of 1986, as created or amended by the Patient Protection and Affordable Care Act of 2010 and/or the Health Care and Education Reconciliation Act of 2010.
[38] Kaiser Family Foundation, *Summary of New Health Reform Law,* Last Modified April 15, 2011, http://www.kff.org/healthreform/upload/8061.pdf (last viewed Mar. 16, 2013).
[39] Kaiser Family Foundation, *Summary of New Health Reform Law,* Last Modified April 15, 2011, http://www.kff.org/healthreform/upload/8061.pdf (last viewed Mar. 16, 2013).
[40] 26 U.S.C. s. 36B(c).

The amount for premium tax credits, as a percentage of income, are set in section 36B of the Internal Revenue Code follows:[41]

Premium Tax Credits	
Income Range	**Premium Percentage Range** (% of income)
Up to 133% FPL	2%
133% to 150%	3% - 4%
150% to 200%	4% - 6.3%
200% to 250%	6.3% - 8.05%
250% to 300%	8.05% - 9.5%
300% to 400%	9.5%

Subsidies for cost sharing are also applicable for those between 100 percent of the FPL and 400 percent of the FPL. The cost sharing credits reduce the out-of-pocket amounts incurred by individuals on essential health benefits and will also impact the actuarial value of a health plan.[42] Actuarial value reflects the average share of covered benefits paid by the insurer or health plan.[43] For example, if the actuarial value of a plan is 90 percent, the health plan is paying 90 percent of the costs and the enrollee 10 percent. Under the PPACA, the maximum amount of cost sharing under this component range from 94 percent for those between 100 percent to 150 percent of the FPL, to 70 percent for those between 250 percent and 400 percent of the FPL.[44]

Prohibition Against "All Products" Clauses in Health Care Provider Contracts

Section 627.6474, F.S., prohibits a health insurer from requiring that a contracted health care practitioner accept the terms of other practitioner contracts (including Medicare and Medicaid practitioner contracts) with the insurer or with another insurer, HMO, preferred provider organization, or exclusive provider organization that is under common management and control with the contracting insurer. The statute exempts practitioners in group practices who must accept the contract terms negotiated by the group. These contractual provisions are referred to as "all products" clauses. Before being prohibited by the 2001 Legislature, these clauses typically required the health care provider, as a condition of participating in any of the health plan products, to participate in *all* of the health plan's current or future health plan products. The 2001 Legislature outlawed "all products" clauses after concerns were raised by physicians that the clauses:

- May force providers to render services at below market rates;
- Harm consumers through suppressed market competition;

- May require physicians to accept future contracts with unknown and unpredictable business risk; and
- May unfairly keep competing health plans out of the marketplace.

Prepaid Limited Health Service Organizations Contracts

Prepaid limited health service organizations (PLHSO) provide limited health services to enrollees through an exclusive panel of providers in exchange for a prepayment, and are authorized in ch. 636, F.S. Limited health services are ambulance services, dental care services, vision care services, mental health services, substance abuse services, chiropractic services, podiatric care services, and pharmaceutical services.[45] Provider arrangements for prepaid limited health service organizations are authorized in s. 636.035, F.S., and must comply with the requirements in that section.

Health Maintenance Organization Provider Contracts

An HMO is an organization that provides a wide range of health care services, including emergency care, inpatient hospital care, physician care, ambulatory diagnostic treatment and preventive health care pursuant to contractual arrangements with preferred providers in, a designated service area.[46] Traditionally, an HMO member must use the HMO's network of health care providers in order for the HMO to make payment of benefits. The use of a health care provider outside the HMO's network generally results in the HMO limiting or denying the payment of benefits for the out-of-network services rendered to the member. Section 641.315, F.S., specifies requirements for the HMO provider contracts with providers of health care services.

Discount Medical Plan Organizations

Discount medical plan organizations (DMPOs)[47] offer a variety of health care services to consumers at a discounted rate. These plans are not health insurance and therefore do not pay for services on behalf of members. Instead, the plans offer members access to specific health care products and services at a discounted fee. These health products and services may include, but are not limited to, dental services, emergency services, mental health services, vision care, chiropractic services, and hearing care. Generally, a DMPO has a contract with a provider network under which the individual providers render the medical services at a discount.

The DMPOs are regulated by the Office of Insurance Regulation (OIR) under part II of ch. 636, F.S. That statute establishes licensure requirements, annual reporting, minimum capital requirements, authority for examinations and investigations, marketing restrictions, prohibited activities, and criminal penalties, among other regulations.

Before transacting business in Florida, a DMPO must be incorporated and possess a license as a DMPO.[48] As a condition of licensure, each DMPO must maintain a net worth requirement of

[45] Section 636.003(5), F.S.

[47] Section 636.202(2), F.S.
[48] Section 636.204, F.S.

$150,000.[49] All charges to members of such plans must be filed with OIR and any charge to members greater than $30 per month or $360 per year must be approved by OIR before the charges can be used by the plan.[50] All forms used by the organization must be filed with and approved by OIR.

Access to Health Care Act

Section 766.1115, F.S., is entitled "The Access to Health Care Act" (the Act). The Act was enacted in 1992 to encourage health care providers to provide care to low-income persons.[51] This section extends sovereign immunity to health care providers who execute a contract with a governmental contractor and who provide volunteer, uncompensated health care services to low-income individuals as an agent of the state. These health care providers are considered agents of the state under s. 768.28(9), F.S., for purposes of extending sovereign immunity while acting within the scope of duties required under the Act.

Health care providers under the Act include:[52]

- A birth center licensed under ch. 383, F.S.;[53]
- An ambulatory surgical center licensed under ch. 395, F.S.;[54]
- A hospital licensed under ch. 395, F.S.;[55]
- A physician or physician assistant licensed under ch. 458, F.S.;[56]
- An osteopathic physician or osteopathic physician assistant licensed under ch. 459, F.S.;[57]
- A chiropractic physician licensed under ch. 460, F.S.;[58]
- A podiatric physician licensed under ch. 461, F.S.;[59]
- A registered nurse, nurse midwife, licensed practical nurse, or advanced registered nurse practitioner licensed or registered under part I of ch. 464, F.S., or any facility which employs nurses licensed or registered under part I of ch. 464, F.S., to supply all or part of the care delivered under this section.;[60]
- A dentist or dental hygienist licensed under ch. 466, F.S.;[61]
- A midwife licensed under ch. 467, F.S.;[62]
- A health maintenance organization certificated under part I of ch. 641, F.S.;[63]

[49] Section 636.220, F.S.
[50] Section 636.216(1), F.S.
[51] Low-income persons are defined in the Act as a person who is Medicaid-eligible, a person who is without health insurance and whose family income does not exceed 200 percent of the federal poverty level, or any eligible client of the Department of Health who voluntarily chooses to participate in a program offered or approved by the department.

[62] Section 766.1115(3)(d)10., F.S.
[63] Section 766.1115(3)(d)11., F.S.

- A health care professional association and its employees or a corporate medical group and its employees.;[64]
- Any other medical facility the primary purpose of which is to deliver human medical diagnostic services or which delivers nonsurgical human medical treatment, and which includes an office maintained by a provider.;[65]
- A free clinic that delivers only medical diagnostic services or nonsurgical medical treatment free of charge to all low-income recipients.;[66]
- Any other health care professional, practitioner, provider, or facility under contract with a governmental contractor, including a student enrolled in an accredited program that prepares the student for licensure as any one of the professionals listed in subparagraphs 766.1115(3)(d)4-9, F.S.;[67] and
- Any nonprofit corporation qualified as exempt from federal income taxation under s. 501(a) of the Internal Revenue Code, and described in s. 501(c) of the Internal Revenue Code, which delivers health care services provided by the listed licensed professionals, any federally funded community health center, and any volunteer corporation or volunteer health care provider that delivers health care services.

A governmental contractor is defined in the Act as the Department of Health (DOH or department), a county health department, a special taxing district with health care responsibilities, or a hospital owned and operated by a governmental entity.[68]

The definition of contract under the Act provides that the contract must be for volunteer, uncompensated services. For services to qualify as volunteer, uncompensated services the health care provider must receive no compensation from the governmental contractor for any services provided under the contract and must not bill or accept compensation from the recipient, or any public or private third-party payor, for the specific services provided to the low-income recipients covered by the contract.[69]

The Act further specifies contract requirements. The contract must provide that:

- The governmental contractor retains the right of dismissal or termination of any health care provider delivering services under the contract;
- The governmental contractor has access to the patient records of any health care provider delivering services under the contract;
- The health care provider must report adverse incidents and information on treatment outcomes;
- The governmental contractor must make patient selection and initial referrals;
- The health care provider must accept all referred patients; however, the contract may specify limits on the number of patients to be referred;

[64] Section 766.1115(3)(d)12., F.S.
[65] Section 766.1115(3)(d)13., F.S.
[66] Section 766.1115(3)(d)14., F.S.
[67] Section 766.1115(3)(d)15., F.S.
[68] Section 766.1115(3)(c), F.S.
[69] Section 766.1115(3)(a), F.S.

- Patient care, including any follow-up or hospital care is subject to approval by the governmental contractor; and
- The health care provider is subject to supervision and regular inspection by the governmental contractor.

The governmental contractor must provide written notice to each patient, or the patient's legal representative, receipt of which must be acknowledged in writing, that the provider is covered under s. 768.28, F.S., for purposes of actions related to medical negligence.

The individual accepting services through this contracted provider must not have medical or dental care coverage for the illness, injury, or condition in which medical or dental care is sought.[70] The services not covered under this program include experimental procedures and clinically unproven procedures. The governmental contractor shall determine whether or not a procedure is covered.

The health care provider may not subcontract for the provision of services under this chapter.[71]

Currently, s. 766.1115, F.S., is interpreted differently across the state. In certain parts of the state one medical director interprets this law to mean that as long as there is transparency and clear proof that the volunteer provider is providing services, without receiving personal compensation, then the patient can pay a nominal amount per visit to assist in covering laboratory fees. In other parts of the state, a medical director suggests that if any monetary amount is accepted then sovereign immunity is lost. Patients sometimes offer to pay a nominal contribution to cover some of the cost of laboratory fees that the provider incurs to pay outside providers for items such as dentures for the patient. In many areas, the dentist is paying the cost of these fees from his or her own resources.[72]

Sovereign Immunity

The term "sovereign immunity" originally referred to the English common law concept that the government may not be sued because "the King can do no wrong." Sovereign immunity bars lawsuits against the state or its political subdivisions for the torts of officers, employees, or agents of such governments unless the immunity is expressly waived.

Article X, s. 13, of the Florida Constitution recognizes the concept of sovereign immunity and gives the Legislature the right to waive such immunity in part or in full by general law. Section 768.28, F.S., contains the limited waiver of sovereign immunity applicable to the state.

Under this statute, officers, employees, and agents of the state will not be held personally liable in tort or named as a party defendant in any action for any injury or damage suffered as a result of any act, event, or omission of action in the scope of her or his employment or function, unless such officer, employee, or agent acted in bad faith or with malicious purpose or in a manner exhibiting wanton and willful disregard of human rights, safety, or property.

[70] Rule 64I-2.002, F.A.C.
[71] *Id.*
[72] Staff of Committee on Health Policy's discussion with representatives from the Florida Dental Association on March 8, 2013.

Instead, the state steps in as the party litigant and defends against the claim. Subsection (5) limits the recovery of any one person to $200,000 for one incidence and limits all recovery related to one incidence to a total of $300,000. The sovereign immunity recovery caps do not prevent a plaintiff from obtaining a judgment in excess of the caps, but the plaintiff cannot recover the excess damages without action by the Legislature.[73]

Whether sovereign immunity applies turns on the degree of control of the agent of the state retained by the state.[74] In *Stoll v. Noel*, the Florida Supreme Court explained that independent contractor physicians may be agents of the state for purposes of sovereign immunity:

> One who contracts on behalf of another and subject to the other's control except with respect to his physical conduct is an agent and also independent contractor.[75]

The court examined the employment contract between the physicians and the state to determine whether the state's right to control was sufficient to create an agency relationship and held that it did.[76] The court explained:

> Whether the [Children's Medical Services(CMS)] physician consultants are agents of the state turns on the degree of control retained or exercised by CMS. This Court has held that the right to control depends upon the terms of the employment contract. *National Sur. Corp. v. Windham*, 74 So. 2d 549, 550 (Fla. 1954) ("The [principal's] right to control depends upon the terms of the contract of employment…") The CMS requires each consultant, as a condition of participating in the CMS program, to agree to abide by the terms published in its HRS[77] Manual and CMS Consultants Guide which contain CMS policies and rules governing its relationship with the consultants. The Consultant's Guide states that all services provided to CMS patients must be authorized in advance by the clinic medical director. The language of the HRS Manual ascribes to CMS responsibility to supervise and direct the medical care of all CMS patients and supervisory authority over all personnel. The manual also grants to the CMS medical director absolute authority over payment for treatments proposed by consultants. The HRS Manual and the Consultant's Guide demonstrate that CMS has final authority over all care and treatment provided to CMS patients, and it can refuse to allow a physician consultant's recommended course of treatment of any CMS patient for either medical or budgetary reasons.
>
> Our conclusion is buttressed by HRS's acknowledgement that the manual creates an agency relationship between CMS and its physician consultants, and despite its potential liability in this case, HRS has acknowledged full financial responsibility for the physicians' actions. HRS's interpretation of its manual is entitled to judicial deference and great weight.[78]

III. Effect of Proposed Changes:

Section 1 amends s. 409.811, F.S. adding, deleting, and modifying definitions relating to the Florida Kidcare Act. Definitions applicable to the overall Act, which is identified as ss. 409.810 through 409.821, F.S., are updated or added to align with requirements under PPACA:

- CHIP (Children's Health Insurance Program)
- Combined Eligibility Notice
- Household Income
- Modified Adjusted Gross Income (MAGI)
- Patient Protection and Affordable Care Act (Act)

Other definitions under this section are deleted as obsolete if related to the employer-sponsored component of the Florida Kidcare program. This program component was never implemented and is deleted under this bill. Definitions that have been modified or rendered obsolete by PPACA have also been deleted.

Section 2 amends s. 409.813, F.S., relating to the program components of the Florida Kidcare program. The bill also adds the FHKC to the list of entities for which a cause of action cannot be brought if coverage is not provided under the non-entitlement portion of the program. The FHKC is the only Kidcare component excluded.

Section 3 amends s. 409.8132, F.S., relating to the Medikids program component of the Florida Kidcare program. The bill deletes language permitting a Medikids enrollee who is a younger sibling of a Healthy Kids enrollee, to enroll in a Healthy Kids plan. An obsolete reference to receiving approval from the predecessor agency to the Centers for Medicare and Medicaid Services for MediPass coverage authorization is removed. The MediPass option in Medikids has been approved since the program was implemented in 1998.

Section 4 makes technical changes to s. 409.8134, F.S., relating to program expenditures and enrollment in the Florida Kidcare program.

Section 5 amends section s. 409.814, F.S., relating to eligibility for the Florida Kidcare program. The bill modifies references to align with changes under PPACA. Obsolete references related to the employer-sponsored component have been deleted. An option has been provided to Medicaid enrollees to elect coverage under the CHIP component and permit a transfer back to Medicaid at any time without a break in coverage.

Under s. 409.814(6)(c), F.S., the FHKC is directed to notify full pay enrollees of the availability of coverage under the exchanges, as created under PPACA. No new applications for full-pay or non-subsidized coverage are permitted after September 30, 2013.

Modifications to the eligibility determination process are made under s. 409.814(8), F.S., to reflect changes in the eligibility process under PPACA and the role of the federal data hub.

Section 6 amends s. 409.815, F.S., relating to the benefits under the Florida Kidcare program. Obsolete dates and references are deleted under certain benefits.

Section 7 amends s. 409.816, F.S, relating to lifetime benefits on premiums and limitations on cost sharing. References to "family," "family income," and "modified adjusted income" are updated to align with federal definitions under PPACA.

Section 8 repeals s. 409.817, F.S., relating to approval of health benefits, coverage, and financial assistance. The other requirements of this section have been preempted under PPACA.

Section 9 repeals s. 409.8175, F.S., relating to the delivery of services in rural counties. Health maintenance organizations and health insurers may contract with providers in accordance with any fee schedule that may be agreed upon by the parties. The language under this section is permissive and not mandatory under current law.

Section 10 amends s. 409.8177, F.S., relating to evaluation of the Florida Kidcare program. A reference to family income is updated to household income to align with PPACA.

Section 11 amends s. 409.818, F.S., relating to the administration of the Florida Kidcare program. The duties and responsibilities of the DCF are modified to recognize the modernization efforts and process changes under PPACA. The department is required to develop a combined eligibility notice, in consultation with the AHCA and the FHKC. A reference to a centralized coordinating office is deleted.

Specific administrative responsibilities for the Florida Kidcare program for the DOH are deleted. Obsolete provisions for designing the eligibility intake process are removed, as is the requirement for the DOH to establish a toll-free hotline. The FHKC provides customer service for the Florida Kidcare program, including operation of the toll-free hotline, under its Florida Kidcare eligibility determination responsibilities.

The responsibilities for the AHCA under this section are modified to reflect the removal of the employer-sponsored component and accompanying deletion of the OIR involvement. Technical references to a more general definition of managed care organizations rather than the more limited term of HMOs are made in this section. References to specific topics for rulemaking are deleted. A direction to contract with the FHKC for the Healthy Kids program and the Healthy Florida program is added. Direction to the AHCA for Healthy Kids has been included annually in proviso or implementing bill language in the past.

Responsibilities under the Florida Kidcare program for the OIR have been deleted. Their removal reflects the deletion of the employer sponsored component from the program.

Section 12 amends s. 409.820, F.S., relating to the quality assurance and access standards for the Florida Kidcare program. The quality assurance and access standards are clarified to show that such standards are for the pediatric and adolescent populations.

Section 13 amends s. 624.91, F.S., relating to the FHKC. The legislative intent for the Florida Healthy Kids Corporation Act is expanded to include a new program called "Healthy Florida." The legislative intent states that Healthy Florida will cover uninsured adults utilizing a unique network of providers and contracts through which enrollees will receive a comprehensive set of benefits and services.

The Florida Healthy Kids Corporation Act is modified in several subsections to reflect the addition of the Healthy Florida program. Cross references are added to the Florida Kidcare program and the Florida Medicaid program, as appropriate.

Section 624.91(5)(b), F.S., is amended to incorporate the Healthy Florida program and to align with changes made to the Florida Kidcare Act.

Provisions under s. 624.91(5)(b)10., F.S., are separated into individual sub-subparagraphs by topic. No substantive change is made in sub-subparagraphs a. and b. The medical loss ratio requirement for the Healthy Kids program is modified under sub-subparagraph c. to include all health care contracts and language relating to the exemption of dental contracts is deleted. Clarification on how the calculations for the medical loss ratios will be computed is added and a cross reference to federal guidelines for classification of funds is included.

Under s. 624.91(5)(b)12., F.S., the FHKC's responsibility for the development of a plan for publicity of the Florida Kidcare program, public awareness, eligibility procedures, and requirements and to maintain public awareness is expanded to include both the Florida Kidcare program and the Healthy Florida program.

Requirements for separate reporting on the full-pay program by the FHKC are repealed effective December 31, 2013. The repeal aligns with the closure of new enrollment in the full-pay program effective September 30, 2013, and the availability of the exchange on January 1, 2014. A new subparagraph 16 requires the FHKC to notify existing full-pay enrollees of the availability of the exchange and how to access services. No new applications for full-pay coverage may be accepted after September 30, 2013.

Amendments to s. 624.91(5)(d), F.S., provides that the FHKC and any committees formed by the FHKC are subject to the conflict of interest provisions of ch. 112, F.S., the public records provisions of ch. 119, F.S., and the public meeting requirements of ch. 286, F.S.

The membership of the FHKC board of directors is changed to require that the chair of the board be appointed by the governor, rather than the chief financial officer or his or her designee. The specific membership and nominating guidelines for the 12 other members of the FHKC board are repealed and replaced with a board of 15 members designated or appointed as follow:

- The secretary of the AHCA, or his or her designee, as an ex-officio member;
- The state surgeon general, or his or her designee, as an ex-officio member;
- The secretary of the DCF, or his or her designee, as an ex-officio member;
- Four members appointed by the governor;
- Two members appointed by the president of the Senate;
- Two members appointed by the Senate minority leader;
- Two members appointed by the speaker of the House of Representatives; and
- Two members appointed by the House minority leader.

The chair and other members of the board will be subject to Senate confirmation. Members of the board will serve three-year terms and appointed members will serve at the pleasure of the official who appointed them. A provision is also included that any current board member serving

at the time of enactment may remain until July 1, 2013, to provide the governor time to appoint a new board after the enactment of the law.

An executive steering committee of agency secretaries is created to provide management direction and support to the board and its programs. The steering committee comprises the secretary of the AHCA, the secretary of the DCF, and the state surgeon general.

Section 14 repeals s. 624.915, F.S., relating to the Florida Healthy Kids Corporation Operating Fund. This language is obsolete and the option is not being utilized by the FHKC.

Section 15 creates a new section of statute, s. 624.917, F.S., relating to the Healthy Florida program. Healthy Florida will be administered by the FHKC as a program for lower income, uninsured adults who meet eligibility guidelines established by the FHKC. Definitions are provided that are specific to the Healthy Florida program under s. 624.917(2), F.S.

Eligibility for the Healthy Florida program is prescribed under s. 624.917(3), F.S. To be eligible and remain eligible, an individual must be a Florida resident and meet the definition of being "newly eligible" under PPACA, maintain their eligibility with the FHKC, and meet any renewal requirements to renew their coverage at least annually.

Under s. 624.917(4), F.S., enrollment may begin on October 1, 2013, with coverage effective no earlier than January 1, 2014. Enrollment in the program may occur through a third party administrator, referrals from other agencies, or through the exchange, as defined under PPACA. When an enrollee leaves the program, the FHKC is required to provide information about other insurance affordability options that may be available.

Delivery of services under Healthy Florida is provided for under s. 624.917(5), F.S. The FHKC is directed to contract with authorized insurers licensed under ch. 627, F.S., managed care organizations authorized under ch. 641, F.S., and provider service networks authorized under ss. 409.912(4)(d) and 409.962(13) that are prepaid plans meeting standards established by the FHKC to deliver services to enrollees. The FHKC must also establish access and network standards to ensure an adequate number of providers are available to deliver the benefits and services. Standards are to be developed in consultation with and under consideration of National Committee on Quality Assurance recommendations, stakeholders, and other existing performance standards for public and commercial populations.

Under this subsection, enrollees must also be provided a choice of plans. A lock-in period is specifically included and the FHKC is directed to offer exceptions to that lock-in period that take into consideration good cause reasons and qualifying events.

The bill permits the FHKC to consider contracts that include family plans that would provide coverage for members that are enrolled across multiple state or federally funded programs. The medical loss ratio provisions of s. 624.91, F.S., are applicable to the Healthy Florida program. These provisions mirror those used for the Healthy Kids contracts.

Under s. 624.917(6), F.S., the bill provides the benefits for the Healthy Florida program. The FHKC is directed to establish a benefit plan for the program that is actuarially equivalent to the

Florida Kidcare benchmark plan, excluding dental. The benefits package must also meet the alternative benefits package requirements under section 1937 of the Social Security Act. Benefits must be offered as an integrated, single package, without carve-outs.

The bill also requires that a health reimbursement account or comparable health savings account be established for Healthy Florida enrollees. The account may be established and managed either by the FHKC directly or by a contractor. Under s. 624.917(6)(a), F.S., the bill provides examples of the types of behaviors for which enrollees may be rewarded and how funds may be utilized by enrollees. Paragraph (b) of this same subsection also permits the offering of other enhanced benefits and services, provided these services generate savings to the overall plan. Paragraph (c) requires the FHKC to establish a process for the delivery of medically necessary wrap-around services that are not covered by the benchmark plan but that may be required under PPACA. The FHKC's capitation process with its contracted plans for the wrap-around services will be subject to a separate reconciliation process, and the medical loss ratio provisions will also apply to the wrap-around capitation. Prior authorization processes and other utilization controls for any benefit are authorized under this subsection, if approved by the FHKC.

Under s. 624.917(7), F.S., the bill establishes requirements for cost sharing under the Healthy Florida program. The FHKC is authorized to collect premiums and copayments from enrollees in accordance with federal law and in amounts that will be established annually in the General Appropriations Act. The bill provides that payment of a monthly premium may be required prior to an enrollee receiving a coverage start date under the program. Enrollees with a family income above the federal poverty level may also be required to make nominal copayments, in accordance with federal rules, as a condition of receiving a health care service. Providers will be responsible for collecting any copayment for a service and failure to collect any amount due from the enrollee will reduce the provider's reimbursement by the uncollected enrollee's copayment amount.

Management of the Healthy Florida program is described under s. 624.917(8), F.S. The FHKC is designated as the entity responsible for the oversight of the program. The AHCA is directed to seek the necessary state plan amendment to implement the program and to consult with the FHKC on the development of the amendment. The bill provides an amendment submission deadline by the AHCA of June 14, 2013. The AHCA is also directed under this subsection to contract with the FHKC for the administration of this program and for the purposes of the timely release of state and federal funds. The AHCA is recognized as the state's single entity for the administration of the Medicaid program.

Under s. 624.917(8)(a), F.S., the FHKC is directed to establish a grievance and resolutions process under which Healthy Florida recipients can be notified of their rights under the Medicaid Fair Hearing process as well as of any other processes that may be adopted by the FHKC for the program.

Under paragraph (b), the FHKC is required to establish a program integrity process to ensure compliance with the program's guidelines and to combat applicant and enrollee fraud. Timelines for the notification of when benefits may be withheld, reasons for loss of benefits, and the identification of individuals who can be prosecuted for fraud under s. 414.39, F.S., are specified.

Cross references to the applicability of certain Medicaid statutes to the Healthy Florida program are included under s. 624.917(9), F.S. The referenced statutes are s. 409.902, F.S., relating to the AHCA as the designated single state agency for Medicaid; s. 409.9128, F.S., relating to providing emergency services and care; and, s. 409.920, F.S, relating to Medicaid provider fraud. These provisions would apply to the Healthy Florida program in the same manner in which they apply in Medicaid.

The requirement for an evaluation of the Healthy Florida program is added under s. 624.917(10), F.S. The FHKC is required to collect eligibility and enrollment data on its applicants and enrollees and utilization and encounter data from its contracted entities for health care services. Monthly enrollment reports to the Legislature are also required. The bill provides for an interim evaluation by July 1, 2015, with annual evaluations thereafter. Components of the evaluation report are detailed and include information on application and enrollment trends, utilization and cost data, and customer satisfaction.

Section 624.917(11), F.S., sets an expiration date for the program for the end of the state fiscal year in which any of several conditions happen, whichever occurs first. The trigger events are identified as the federal match falling below 90 percent; the federal match contribution falling below the "Increased FMAP for Medical Assistance for Newly Eligible Mandatory Individuals" as specified under PPACA; or a blended federal match formula for Healthy Florida and the Medicaid program is enacted under federal law or regulation which causes the overall federal contribution to be reduced compared to separate, non-blended federal contributions under the status quo.

Section 16 creates a non-statutory provision of law that authorizes the FHKC to make program changes to comply with objections raised by HHS that are necessary to gain approval of the Healthy Florida program in compliance with PPACA, upon giving notice to the Legislature of the proposed changes. The Healthy Florida program requires approval of an amendment to the state's Medicaid state plan prior to implementation and to receive federal funds. The section also includes a conflict of laws interpretation clause that provides that if there is conflict between any provision in this section and PPACA, the provision should be interpreted as an intention to comply with federal requirements.

Section 17 amends s. 627.6474, F.S., relating to provider contracts for health insurance policies.

Under current law, a health insurer cannot require that a contracted health care practitioner accept the terms of other practitioner contracts (including Medicare and Medicaid practitioner contracts) with the insurer or with an insurer, HMO, preferred provider organization, or exclusive provider organization that is under common management and control with the contracting insurer. The bill adds to that list by prohibiting the insurer from requiring that a contracted health care provider accept the terms of other practitioner contracts with a PLHSO that is under common management and control with the contracting insurer.

The bill prohibits insurers from executing a contract with a licensed dentist that requires the dentist to provide services to an insured or subscriber at a specified fee unless such services are "covered services" under the applicable contract. "Covered services" are defined as those services that are listed as a benefit that the subscriber is entitled to receive under the contract.

This will prevent contracts between dentists and insurers from containing provisions that subject non-covered services to negotiated payment rates. The bill also prohibits insurers from providing merely de minimis reimbursement or coverage to avoid the requirements of the bill. The bill requires that fees for covered services must be set in good faith and cannot be nominal. The bill prohibits insurers from requiring that a contracted dentist participate in a DMPO.

The bill also addresses the criminal penalty specified in s. 624.15, F.S.,[79,80] by limiting the exemption from the criminal penalty currently contained in s. 627.6474, F.S., to subsection (1) of s. 627.6474, F.S. The provisions of subsection (2) of s. 627.6474, F.S., as created by the bill, are not specifically exempted from the criminal penalty. This leaves the current law exemption in place for the statutory provisions to which it currently applies, without applying the exemption to the bill's new provisions in subsection (2).

Section 18 amends s. 636.035, F.S., relating to prepaid limited health service organizations, by prohibiting PLHSOs from executing a contract with a licensed dentist that requires the dentist to provide services to an insured or subscriber at a specified fee unless such services are "covered services" under the applicable contract. "Covered services" are defined as those services that are listed as a benefit that the subscriber is entitled to receive under the contract. This will prevent contracts between dentists and PLHSOs from containing provisions that subject non-covered services to negotiated payment rates. The bill also prohibits PLHSOs from providing merely de minimis reimbursement or coverage to avoid the requirements of the bill. The bill requires that fees for covered services must be set in good faith and cannot be nominal. The bill prohibits PLHSOs from requiring that a contracted dentist participate in a DMPO.

Section 19 amends s. 641.315, F.S., relating to HMO provider contracts, by prohibiting HMOs from executing a contract with a licensed dentist that requires the dentist to provide services to an insured or subscriber at a specified fee unless such services are "covered services" under the applicable contract. "Covered services" are defined as those services that are listed as a benefit that the subscriber is entitled to receive under the contract. This will prevent contracts between dentists and HMOs from containing provisions that subject non-covered services to negotiated payment rates. The bill also prohibits HMOs from providing merely de minimis reimbursement or coverage to avoid the requirements of the bill. The bill requires that fees for covered services must be set in good faith and cannot be nominal. The bill prohibits HMOs from requiring that a contracted dentist participate in a DMPO.

Section 20 amends s. 766.1115, F.S., relating to the Access to Health Care Act, to authorize a dentist, who is a government contracted health care provider under the Act, to allow a patient, or a parent or guardian of a patient to voluntarily contribute a fee to cover costs of dental laboratory work. The contribution may not exceed the actual cost of the laboratory fee. When the voluntary contribution is accepted from the patient for dental laboratory fees it is not considered compensation for services so that sovereign immunity protection is not lost.

[79] Section 624.15, F.S., provides that, unless a greater specific penalty is provided by another provision of the Insurance Code or other applicable law or rule of the state, each willful violation of the Insurance Code is a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083, F.S., and that each instance of such violation shall be considered a separate offense.

[80] Section 775.082, F.S., provides that a person convicted of a misdemeanor of the second degree may be sentenced to a term of imprisonment not exceeding 60 days. Section 775.083, F.S., provides that a person convicted of a misdemeanor of the second degree may be sentenced to pay a fine not exceeding $500 plus court costs.

Section 21 creates a non-statutory provision of law to provide that the bill's amendments to ss. 627.6474, 636.035, and 641.315, F.S., apply to contracts entered into or renewed on or after July 1, 2013.

Section 22 provides appropriations of:

- $1,258,054,808 from the Medical Care Trust Fund beginning in the 2013-2014 fiscal year to provide coverage for individuals who enroll in Healthy Florida;
- $254,151 from the General Revenue Fund and $18,235,833 from the Medical Care Trust Fund beginning in the 2013-2014 fiscal year to comply with federal regulations to compensate insurers and managed care organizations that contract with the Healthy Florida program for the imposition of the annual fee on health insurance providers under the PPACA; and
- $10,676,377 from the General Revenue Fund and $10,676,377 from the Medical Care Trust Fund beginning in the 2013-2014 fiscal year to fund administrative costs necessary for the FHKC to implement and operate the Healthy Florida program.

Section 23 provides that the act takes effect upon becoming law.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

The bill explicitly requires the FHKC to conduct its activities and those of any committees formed by the FHKC, in accordance with chapters 119 and 286, F.S. The FHKC currently provides notice of meetings of its board and committees on its website at www.healthykids.org and posts materials for board meetings on the same site within timeframes set through board policy.

The FHKC also responds to requests for public records, within the additional exemptions and limitations of s. 409.821, F.S. and federal law which protect certain individual and identifying information of applicants and enrollees to the Florida Kidcare program.

The provisions of this bill would expressly require compliance with state public records and open meetings requirements.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Florida's Social Services Estimating Conference (SSEC) estimates that 438,113 individuals would become newly eligible and would enroll in Florida Medicaid during the 2013-2014 state fiscal year if the program's eligibility threshold were expanded to 138 percent of FPL beginning January 1, 2014. An estimated 377,813 of those newly eligible enrollees are currently uninsured while the remaining 60,300 are likely to terminate their existing individual coverage in favor of Medicaid after becoming eligible. The Healthy Florida program would expect roughly the same estimated enrollment if implemented.

The bill contemplates the FHKC contracting with insurers and managed care organizations to deliver comprehensive health insurance coverage to uninsured individuals who may or may not be seeking health care services now. Physicians, hospitals, and other health care providers may be impacted by a potentially higher demand for their services after Healthy Florida is implemented.

The bill may have a negative fiscal impact on health insurer, HMO, and PLHSO policyholders and subscribers who may pay higher costs for dental care if the Legislature prohibits these entities from contracting with dentists to provide services that are not covered at a negotiated fee.

The fiscal impact of the bill's provisions relating to a patient's voluntary contribution of a fee to cover costs of dental laboratory work is expected to be minimal since many areas in the state already allow voluntary contributions.[81]

C. Government Sector Impact:

The bill directs the AHCA to seek the PPACA's enhanced federal match for the Healthy Florida program, which would result in 100 percent federal funding for newly eligible enrollees until January 1, 2017. To cover the estimated 438,113 new enrollees in Fiscal Year 2013-2014, $1.26 billion would be expended, according to the SSEC.

Additionally, under eligibility expansion, the SSEC estimates that 70,647 Kidcare enrollees would become newly eligible for Medicaid and could transfer out of Kidcare. In such a transfer, the federal match would be the same as the Kidcare matching rate, which is 71.03 percent for the 2013-2014 state fiscal year. The state and federal expenditures to cover those children would be the same between the two programs.

[81] *See* Department of Health Bill Analysis for SB 1016 (dated March 11, 2013) on file with the Senate Health Policy Committee and notes from telephone call with staff on March 12, 2013.

The PPACA also imposes a federal health insurance tax (HIT) on health insurance providers beginning January 1, 2014, to be divided among insurers according to a formula based on each insurer's net premiums, including those contracted under Medicaid or Healthy Florida. Federal guidance indicates that states must account for the HIT to be incurred by managed care plans when calculating rates paid by a state Medicaid program to the plans. For the newly eligible population, the federal match for the HIT mirrors the match provided in the PPACA, which means a 100 percent federal match for the HIT during the 2013-2014 state fiscal year. For Kidcare transfers, however, the federal match will mirror the Kidcare matching rate. If all 70,647 children described above were to transfer from Kidcare to Healthy Florida, an estimated $254,151 GR would be required to compensate insurers and managed care plans for the HIT in the 2013-2014 state fiscal year.

The FHKC will need additional resources to adapt its existing eligibility and enrollment systems to accommodate a new program. Also, the FHKC will need to adjust and expand its administrative structure and professional staff to manage new contracts for the Healthy Florida program. Additionally, these needs will vary somewhat depending on the number of persons who enroll in the Healthy Florida program. Based on existing enrollment projections, the fiscal impact of the FHKC's additional resource needs is estimated to be a total of $21.2 million for the 2013-2014 state fiscal year, half of which would be state funds, or $10.6 million GR.

VI. Technical Deficiencies:

None.

VII. Related Issues:

In December 2012, Florida Senate President Don Gaetz formed the Select Committee on the PPACA to launch a comprehensive assessment on the impact of the law on Florida, evaluate the state's options under the law, and to make recommendations to the full Senate membership on any actions necessary to mitigate cost increases, preserve a competitive insurance market, and protect Florida's consumers.[82] The Select Committee received public testimony, expert presentations, and staff reports over nine meetings before it developed three specific recommendations relating to the development of a health care exchange, coverage for certain state employees, and the expansion of Medicaid. On the question of Medicaid expansion, the Select Committee voted 7-4 to recommend to the full Senate to not expand the existing Medicaid program under the current state plan or pending waivers.[83]

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations on April 23, 2013:
The committee substitute revises the membership of the board of directors of the FHKC; provides that the Healthy Florida program may contract with prepaid provider service networks in addition to insurers licensed under ch. 627, F.S., and managed care organizations authorized under ch. 641, F.S.; provides that the Healthy Florida program may require nominal copayments specifically from enrollees with family incomes above the FPL; and appropriates general revenue and trust fund dollars for the Healthy Florida program beginning in the 2013-2014 fiscal year.

Sections 17-21 were added to the bill, providing requirements for contracts between dentists and insurers, HMOs, or PLHSOs, and authorizing a dentist who is a government-contracted health care provider under the Access to Health Care Act, to allow a patient, or a parent or guardian of a patient, to voluntarily contribute a fee to cover costs of dental laboratory work.

B. Amendments:

None.

By the Committee on Appropriations

576-02875-13 20131816__

A bill to be entitled

An act relating to health care; amending s. 409.811, F.S.; revising and providing definitions; amending s. 409.813, F.S.; revising the components of the Florida Kidcare program; prohibiting a cause of action from arising against the Florida Healthy Kids Corporation for failure to make health services available; amending s. 409.8132, F.S.; revising the eligibility of the Medikids program component; revising the enrollment requirements of the Medikids program component; amending s. 409.8134, F.S.; conforming provisions to changes made by the act; amending s. 409.814, F.S.; revising eligibility requirements for the Florida Kidcare program; amending s. 409.815, F.S.; revising the minimum health benefits coverage under the Florida Kidcare Act; deleting obsolete provisions; amending ss. 409.816 and 409.8177, F.S.; conforming provisions to changes made by the act; repealing s. 409.817, F.S., relating to the approval of health benefits coverage and financial assistance; repealing s. 409.8175, F.S., relating to delivery of services in rural counties; amending s. 409.818, F.S.; revising the duties of the Department of Children and Families and the Agency for Health Care Administration with regard to the Florida Kidcare Act; deleting the duties of the Department of Health and the Office of Insurance Regulation with regard to the Florida Kidcare Act; amending s. 409.820, F.S.; requiring the Department of Health, in consultation with the agency

576-02875-13 20131816__

and the Florida Healthy Kids Corporation, to develop a minimum set of pediatric and adolescent quality assurance and access standards for all program components; amending s. 624.91, F.S.; revising the legislative intent of the Florida Healthy Kids Corporation Act to include the Healthy Florida program; revising participation guidelines for nonsubsidized enrollees in the Healthy Kids program; revising the medical loss ratio requirements for the contracts for the Florida Healthy Kids Corporation; modifying the membership of the Florida Healthy Kids Corporation's board of directors; creating an executive steering committee; requiring additional corporate compliance requirements for the Florida Healthy Kids Corporation; repealing s. 624.915, F.S., relating to the operating fund of the Florida Healthy Kids Corporation; creating s. 624.917, F.S.; creating the Healthy Florida program; providing definitions; providing eligibility and enrollment requirements; authorizing the Florida Healthy Kids Corporation to contract with certain insurers; requiring the corporation to establish a benefits package and a process for payment of services; authorizing the corporation to collect premiums and copayments; requiring the corporation to oversee the Healthy Florida program and to establish a grievance process and integrity process; providing applicability of certain state laws for administration of the Healthy Florida program; requiring the corporation to collect

certain data and to submit enrollment reports and interim independent evaluations to the Legislature; providing for expiration of the program; providing an implementation and interpretation clause; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 409.811, Florida Statutes, is amended to read:

409.811 Definitions relating to Florida Kidcare Act.—As used in ss. 409.810-409.821, the term:

(1) "Actuarially equivalent" means that:

(a) The aggregate value of the benefits included in health benefits coverage is equal to the value of the benefits in the benchmark benefit plan; and

(b) The benefits included in health benefits coverage are substantially similar to the benefits included in the benchmark benefit plan, except that preventive health services must be the same as in the benchmark benefit plan.

(2) "Agency" means the Agency for Health Care Administration.

(3) "Applicant" means a parent or guardian of a child or a child whose disability of nonage has been removed under chapter 743, who applies for determination of eligibility for health benefits coverage under ss. 409.810-409.821.

(4) "Child benchmark benefit plan" means the form and level of health benefits coverage established in s. 409.815.

(5) "Child" means any person younger than ~~under~~ 19 years of

age.

(6) "Child with special health care needs" means a child whose serious or chronic physical or developmental condition requires extensive preventive and maintenance care beyond that required by typically healthy children. Health care utilization by such a child exceeds the statistically expected usage of the normal child adjusted for chronological age, and such a child often needs complex care requiring multiple providers, rehabilitation services, and specialized equipment in a number of different settings.

(7) "Children's Medical Services Network" or "network" means a statewide managed care service system as defined in s. 391.021(1).

(8) "CHIP" means the Children's Health Insurance Program as authorized under Title XXI of the Social Security Act, and its regulations, ss. 409.810-409.820, and as administered in this state by the agency, the department, and the Florida Healthy Kids Corporation, as appropriate to their respective responsibilities.

(9) "Combined eligibility notice" means an eligibility notice that informs an applicant, an enrollee, or multiple family members of a household, when feasible, of eligibility for each of the insurance affordability programs and enrollment into a program or exchange plan. A combined eligibility form must be issued by the last agency or department to make an eligibility, renewal or denial determination. The form must meet all of the federal and state law and regulatory requirements no later than January 1, 2014.

~~(8) "Community rate" means a method used to develop~~

~~premiums for a health insurance plan that spreads financial risk across a large population and allows adjustments only for age, gender, family composition, and geographic area.~~

(10)~~(9)~~ "Department" means the Department of Health.

(11)~~(10)~~ "Enrollee" means a child who has been determined eligible for and is receiving coverage under ss. 409.810-409.821.

~~(11) "Family" means the group or the individuals whose income is considered in determining eligibility for the Florida Kidcare program. The family includes a child with a parent or caretaker relative who resides in the same house or living unit or, in the case of a child whose disability of nonage has been removed under chapter 743, the child. The family may also include other individuals whose income and resources are considered in whole or in part in determining eligibility of the child.~~

~~(12) "Family income" means cash received at periodic intervals from any source, such as wages, benefits, contributions, or rental property. Income also may include any money that would have been counted as income under the Aid to Families with Dependent Children (AFDC) state plan in effect prior to August 22, 1996.~~

(12)~~(13)~~ "Florida Kidcare program," "Kidcare program," or "program" means the health benefits program administered through ss. 409.810-409.821.

(13)~~(14)~~ "Guarantee issue" means that health benefits coverage must be offered to an individual regardless of the individual's health status, preexisting condition, or claims history.

(14)~~(15)~~ "Health benefits coverage" means protection that provides payment of benefits for covered health care services or that otherwise provides, either directly or through arrangements with other persons, covered health care services on a prepaid per capita basis or on a prepaid aggregate fixed-sum basis.

(15)~~(16)~~ "Health insurance plan" means health benefits coverage under the following:

(a) A health plan offered by any certified health maintenance organization or authorized health insurer, except a plan that is limited to the following: a limited benefit, specified disease, or specified accident; hospital indemnity; accident only; limited benefit convalescent care; Medicare supplement; credit disability; dental; vision; long-term care; disability income; coverage issued as a supplement to another health plan; workers' compensation liability or other insurance; or motor vehicle medical payment only; or

(b) An employee welfare benefit plan that includes health benefits established under the Employee Retirement Income Security Act of 1974, as amended.

(16) "Household income" means the group or the individual whose income is considered in determining eligibility for the Florida Kidcare program. The term "household" has the same meaning as provided in s. 36B(d)(2) of the Internal Revenue Code of 1986.

(17) "Medicaid" means the medical assistance program authorized by Title XIX of the Social Security Act, and regulations thereunder, and ss. 409.901-409.920, as administered in this state by the agency.

(18) "Medically necessary" means the use of any medical

treatment, service, equipment, or supply necessary to palliate the effects of a terminal condition, or to prevent, diagnose, correct, cure, alleviate, or preclude deterioration of a condition that threatens life, causes pain or suffering, or results in illness or infirmity and which is:

(a) Consistent with the symptom, diagnosis, and treatment of the enrollee's condition;

(b) Provided in accordance with generally accepted standards of medical practice;

(c) Not primarily intended for the convenience of the enrollee, the enrollee's family, or the health care provider;

(d) The most appropriate level of supply or service for the diagnosis and treatment of the enrollee's condition; and

(e) Approved by the appropriate medical body or health care specialty involved as effective, appropriate, and essential for the care and treatment of the enrollee's condition.

(19) "Medikids" means a component of the Florida Kidcare program of medical assistance authorized by Title XXI of the Social Security Act, and regulations thereunder, and s. 409.8132, as administered in the state by the agency.

(20) "Modified adjusted gross income" means the individual's or household's annual adjusted gross income as defined in s. 36B(d)(2) of the Internal Revenue Code of 1986 which is used to determine eligibility under the Florida Kidcare program.

(21) "Patient Protection and Affordable Care Act" or "Act" means the federal law enacted as Pub. L. No. 111-148, as further amended by the federal Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152, and any amendments,

regulations, or guidance issued under those acts.

(22)~~(20)~~ "Preexisting condition exclusion" means, with respect to coverage, a limitation or exclusion of benefits relating to a condition based on the fact that the condition was present before the date of enrollment for such coverage, whether or not any medical advice, diagnosis, care, or treatment was recommended or received before such date.

(23)~~(21)~~ "Premium" means the entire cost of a health insurance plan, including the administration fee or the risk assumption charge.

(24)~~(22)~~ "Premium assistance payment" means the monthly consideration paid by the agency per enrollee in the Florida Kidcare program towards health insurance premiums.

(25)~~(23)~~ "Qualified alien" means an alien as defined in 8 U.S.C. s. 1641 (b) and (c) ~~s. 431 of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, as amended, Pub. L. No. 104-193~~.

(26)~~(24)~~ "Resident" means a United States citizen, or qualified alien, who is domiciled in this state.

(27)~~(25)~~ "Rural county" means a county having a population density of less than 100 persons per square mile, or a county defined by the most recent United States Census as rural, in which there is no prepaid health plan participating in the Medicaid program as of July 1, 1998.

~~(26) "Substantially similar" means that, with respect to additional services as defined in s. 2103(c)(2) of Title XXI of the Social Security Act, these services must have an actuarial value equal to at least 75 percent of the actuarial value of the coverage for that service in the benchmark benefit plan and,~~

~~with respect to the basic services as defined in s. 2103(c)(1) of Title XXI of the Social Security Act, these services must be the same as the services in the benchmark benefit plan.~~

Section 2. Section 409.813, Florida Statutes, is amended to read:

409.813 Health benefits coverage; program components; entitlement and nonentitlement.—

(1) The Florida Kidcare program includes health benefits coverage provided to children through the following program components, which shall be marketed as the Florida Kidcare program:

(a) Medicaid;

(b) Medikids as created in s. 409.8132;

(c) The Florida Healthy Kids Corporation as created in s. 624.91; and

~~(d) Employer sponsored group health insurance plans approved under ss. 409.810-409.821; and~~

(d)~~(c)~~ The Children's Medical Services network established in chapter 391.

(2) Except for Title XIX-funded Florida Kidcare program coverage under the Medicaid program, coverage under the Florida Kidcare program is not an entitlement. No cause of action shall arise against the state, the department, the Department of Children and Families ~~Family Services~~, ~~or~~ the agency, or the Florida Healthy Kids Corporation for failure to make health services available to any person under ss. 409.810-409.821.

Section 3. Subsections (6) and (7) of section 409.8132, Florida Statutes, are amended to read:

409.8132 Medikids program component.—

(6) ELIGIBILITY.—

(a) A child who has attained the age of 1 year but who is under the age of 5 years is eligible to enroll in the Medikids program component of the Florida Kidcare program, if the child is a member of a family that has a family income which exceeds the Medicaid applicable income level as specified in s. 409.903, but which is equal to or below 200 percent of the current federal poverty level. In determining the eligibility of such a child, an assets test is not required. ~~A child who is eligible for Medikids may elect to enroll in Florida Healthy Kids coverage or employer sponsored group coverage. However, a child who is eligible for Medikids may participate in the Florida Healthy Kids program only if the child has a sibling participating in the Florida Healthy Kids program and the child's county of residence permits such enrollment.~~

(b) The provisions of s. 409.814 apply to the Medikids program.

(7) ENROLLMENT.—Enrollment in the Medikids program component may occur at any time throughout the year. A child may not receive services under the Medikids program until the child is enrolled in a managed care plan or MediPass. Once determined eligible, an applicant may receive choice counseling and select a managed care plan or MediPass. The agency may initiate mandatory assignment for a Medikids applicant who has not chosen a managed care plan or MediPass provider after the applicant's voluntary choice period ends. An applicant may select MediPass under the Medikids program component only in counties that have fewer than two managed care plans available to serve Medicaid recipients ~~and only if the federal Health Care Financing~~

~~Administration determines that MediPass constitutes "health insurance coverage" as defined in Title XXI of the Social Security Act~~.

Section 4. Subsection (2) of section 409.8134, Florida Statutes, is amended to read:

409.8134 Program expenditure ceiling; enrollment.—

(2) The Florida Kidcare program may conduct enrollment continuously throughout the year.

(a) Children eligible for coverage under the Title XXI-funded Florida Kidcare program shall be enrolled on a first-come, first-served basis using the date the enrollment application is received. Enrollment shall immediately cease when the expenditure ceiling is reached. Year-round enrollment shall only be held if the Social Services Estimating Conference determines that sufficient federal and state funds will be available to finance the increased enrollment.

(b) The application for the Florida Kidcare program is valid for a period of 120 days after the date it was received. At the end of the 120-day period, if the applicant has not been enrolled in the program, the application is invalid and the applicant shall be notified of the action. The applicant may reactivate the application after notification of the action taken by the program.

(c) Except for the Medicaid program, whenever the Social Services Estimating Conference determines that there are presently, or will be by the end of the current fiscal year, insufficient funds to finance the current or projected enrollment in the Florida Kidcare program, all additional enrollment must cease and additional enrollment may not resume

until sufficient funds are available to finance such enrollment.

Section 5. Section 409.814, Florida Statutes, is amended to read:

409.814 Eligibility.—A child who has not reached 19 years of age whose household ~~family~~ income is equal to or below 200 percent of the federal poverty level is eligible for the Florida Kidcare program as provided in this section. If an enrolled individual is determined to be ineligible for coverage, he or she must be immediately disenrolled from the respective Florida Kidcare program component and referred to another insurance affordability program, if appropriate, through a combined eligibility notice.

(1) A child who is eligible for Medicaid coverage under s. 409.903 or s. 409.904 must be offered the opportunity to enroll ~~enrolled~~ in Medicaid ~~and is not eligible to receive health benefits under any other health benefits coverage authorized under the Florida Kidcare program~~. A child who is eligible for Medicaid and opts to enroll in CHIP may disenroll from CHIP at any time and transition to Medicaid. This transition must occur without any break in coverage.

(2) A child who is not eligible for Medicaid, but who is eligible for the Florida Kidcare program, may obtain health benefits coverage under any of the other components listed in s. 409.813 if such coverage is approved and available in the county in which the child resides.

(3) A Title XXI-funded child who is eligible for the Florida Kidcare program who is a child with special health care needs, as determined through a medical or behavioral screening instrument, is eligible for health benefits coverage from and

shall be assigned to and may opt out of the Children's Medical Services Network.

(4) The following children are not eligible to receive Title XXI-funded premium assistance for health benefits coverage under the Florida Kidcare program, except under Medicaid if the child would have been eligible for Medicaid under s. 409.903 or s. 409.904 as of June 1, 1997:

(a) A child who is covered under a family member's group health benefit plan or under other private or employer health insurance coverage, if the cost of the child's participation is not greater than 5 percent of the household's ~~family's~~ income. If a child is otherwise eligible for a subsidy under the Florida Kidcare program and the cost of the child's participation in the family member's health insurance benefit plan is greater than 5 percent of the household's ~~family's~~ income, the child may enroll in the appropriate subsidized Kidcare program.

~~(b) A child who is seeking premium assistance for the Florida Kidcare program through employer-sponsored group coverage, if the child has been covered by the same employer's group coverage during the 60 days before the family submitted an application for determination of eligibility under the program.~~

(b)~~(c)~~ A child who is an alien, but who does not meet the definition of qualified alien, in the United States.

(c)~~(d)~~ A child who is an inmate of a public institution or a patient in an institution for mental diseases.

(d)~~(e)~~ A child who is otherwise eligible for premium assistance for the Florida Kidcare program and has had his or her coverage in an employer-sponsored or private health benefit plan voluntarily canceled in the last 60 days, except those

children whose coverage was voluntarily canceled for good cause, including, but not limited to, the following circumstances:

1. The cost of participation in an employer-sponsored health benefit plan is greater than 5 percent of the household's modified adjusted gross ~~family's~~ income;

2. The parent lost a job that provided an employer-sponsored health benefit plan for children;

3. The parent who had health benefits coverage for the child is deceased;

4. The child has a medical condition that, without medical care, would cause serious disability, loss of function, or death;

5. The employer of the parent canceled health benefits coverage for children;

6. The child's health benefits coverage ended because the child reached the maximum lifetime coverage amount;

7. The child has exhausted coverage under a COBRA continuation provision;

8. The health benefits coverage does not cover the child's health care needs; or

9. Domestic violence led to loss of coverage.

~~(5) A child who is otherwise eligible for the Florida Kidcare program and who has a preexisting condition that prevents coverage under another insurance plan as described in paragraph (4)(a) which would have disqualified the child for the Florida Kidcare program if the child were able to enroll in the plan is eligible for Florida Kidcare coverage when enrollment is possible.~~

(5)~~(6)~~ A child whose household's modified adjusted gross

~~family~~ income is above 200 percent of the federal poverty level or a child who is excluded under the provisions of subsection (4) may participate in the Florida Kidcare program as provided in s. 409.8132 or, if the child is ineligible for Medikids by reason of age, in the Florida Healthy Kids program, subject to the following:

(a) The family is not eligible for premium assistance payments and must pay the full cost of the premium, including any administrative costs.

(b) The board of directors of the Florida Healthy Kids Corporation may offer a reduced benefit package to these children in order to limit program costs for such families.

(c) By August 15, 2013, the Florida Healthy Kids Corporation shall notify all current full-pay enrollees of the availability of the exchange and how to access other insurance affordability options. New applications for full-pay coverage may not be accepted after September 30, 2013.

(6)~~(7)~~ Once a child is enrolled in the Florida Kidcare program, the child is eligible for coverage for 12 months without a redetermination or reverification of eligibility, if the family continues to pay the applicable premium. Eligibility for program components funded through Title XXI of the Social Security Act terminates when a child attains the age of 19. A child who has not attained the age of 5 and who has been determined eligible for the Medicaid program is eligible for coverage for 12 months without a redetermination or reverification of eligibility.

(7)~~(8)~~ When determining or reviewing a child's eligibility under the Florida Kidcare program, the applicant shall be

provided with reasonable notice of changes in eligibility which may affect enrollment in one or more of the program components. If a transition from one program component to another is authorized, there shall be cooperation between the program components and the affected family which promotes continuity of health care coverage. Any authorized transfers must be managed within the program's overall appropriated or authorized levels of funding. Each component of the program shall establish a reserve to ensure that transfers between components will be accomplished within current year appropriations. These reserves shall be reviewed by each convening of the Social Services Estimating Conference to determine the adequacy of such reserves to meet actual experience.

(8)~~(9)~~ In determining the eligibility of a child, an assets test is not required. Each applicant shall provide documentation during the application process and the redetermination process, including, but not limited to, the following:

(a) Proof of household ~~family~~ income, which must be verified electronically to determine financial eligibility for the Florida Kidcare program. Written documentation, which may include wages and earnings statements or pay stubs, W-2 forms, or a copy of the applicant's most recent federal income tax return, is required only if the electronic verification is not available or does not substantiate the applicant's income. This paragraph expires December 31, 2013.

(b) A statement from all applicable, employed household ~~family~~ members that:

1. Their employers do not sponsor health benefit plans for employees;

2. The potential enrollee is not covered by an employer-sponsored health benefit plan; or

3. The potential enrollee is covered by an employer-sponsored health benefit plan and the cost of the employer-sponsored health benefit plan is more than 5 percent of the household's modified adjusted gross ~~family's~~ income.

(c) To enroll in the Children's Medical Services Network, a completed application, including a clinical screening.

(d) Effective January 1, 2014, eligibility shall be determined through electronic matching using the federally managed data services hub and other resources. Written documentation from the applicant may be accepted if the electronic verification does not substantiate the applicant's income or if there has been a change in circumstances.

(9) ~~(10)~~ Subject to paragraph (4)(a), the Florida Kidcare program shall withhold benefits from an enrollee if the program obtains evidence that the enrollee is no longer eligible, submitted incorrect or fraudulent information in order to establish eligibility, or failed to provide verification of eligibility. The applicant or enrollee shall be notified that because of such evidence program benefits will be withheld unless the applicant or enrollee contacts a designated representative of the program by a specified date, which must be within 10 working days after the date of notice, to discuss and resolve the matter. The program shall make every effort to resolve the matter within a timeframe that will not cause benefits to be withheld from an eligible enrollee.

(10) ~~(11)~~ The following individuals may be subject to prosecution in accordance with s. 414.39:

(a) An applicant obtaining or attempting to obtain benefits for a potential enrollee under the Florida Kidcare program when the applicant knows or should have known the potential enrollee does not qualify for the Florida Kidcare program.

(b) An individual who assists an applicant in obtaining or attempting to obtain benefits for a potential enrollee under the Florida Kidcare program when the individual knows or should have known the potential enrollee does not qualify for the Florida Kidcare program.

Section 6. Paragraphs (g), (k), (q), and (w) of subsection (2) of section 409.815, Florida Statutes, are amended to read:

409.815 Health benefits coverage; limitations.—

(2) BENCHMARK BENEFITS.—In order for health benefits coverage to qualify for premium assistance payments for an eligible child under ss. 409.810-409.821, the health benefits coverage, except for coverage under Medicaid and Medikids, must include the following minimum benefits, as medically necessary.

(g) *Behavioral health services.*—

1. Mental health benefits include:

a. Inpatient services~~, limited to 30 inpatient days per contract year~~ for psychiatric admissions, or residential services in facilities licensed under s. 394.875(6) or s. 395.003 in lieu of inpatient psychiatric admissions~~; however, a minimum of 10 of the 30 days shall be available only for inpatient psychiatric services~~ if authorized by a physician; and

b. Outpatient services, including outpatient visits for psychological or psychiatric evaluation, diagnosis, and treatment by a licensed mental health professional~~, limited to 40 outpatient visits each contract year~~.

2. Substance abuse services include:

a. Inpatient services~~, limited to 7 inpatient days per contract year~~ for medical detoxification only and ~~30 days of~~ residential services; and

b. Outpatient services, including evaluation, diagnosis, and treatment by a licensed practitioner~~, limited to 40 outpatient visits per contract year~~.

~~Effective October 1, 2009,~~ Covered services include inpatient and outpatient services for mental and nervous disorders as defined in the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association. Such benefits include psychological or psychiatric evaluation, diagnosis, and treatment by a licensed mental health professional and inpatient, outpatient, and residential treatment of substance abuse disorders. Any benefit limitations, including duration of services, number of visits, or number of days for hospitalization or residential services, shall not be any less favorable than those for physical illnesses generally. The program may also implement appropriate financial incentives, peer review, utilization requirements, and other methods used for the management of benefits provided for other medical conditions in order to reduce service costs and utilization without compromising quality of care.

(k) *Hospice services.*—Covered services include reasonable and necessary services for palliation or management of an enrollee's terminal illness~~, with the following exceptions:~~

~~1. Once a family elects to receive hospice care for an enrollee, other services that treat the terminal condition will not be covered; and~~

~~2. Services required for conditions totally unrelated to the terminal condition are covered to the extent that the services are included in this section~~.

(q) *Dental services.* ~~Effective October 1, 2009,~~ Dental services shall be covered as required under federal law and may also include those dental benefits provided to children by the Florida Medicaid program under s. 409.906(6).

(w) *Reimbursement of federally qualified health centers and rural health clinics.* ~~Effective October 1, 2009,~~ Payments for services provided to enrollees by federally qualified health centers and rural health clinics under this section shall be reimbursed using the Medicaid Prospective Payment System as provided for under s. 2107(e)(1)(D) of the Social Security Act. If such services are paid for by health insurers or health care providers under contract with the Florida Healthy Kids Corporation, such entities are responsible for this payment. The agency may seek any available federal grants to assist with this transition.

Section 7. Section 409.816, Florida Statutes, is amended to read:

409.816 Limitations on premiums and cost-sharing.—The following limitations on premiums and cost-sharing are established for the program.

(1) Enrollees who receive coverage under the Medicaid program may not be required to pay:

(a) Enrollment fees, premiums, or similar charges; or

(b) Copayments, deductibles, coinsurance, or similar charges.

(2) Enrollees in households that have ~~families with~~ a modified adjusted gross ~~family~~ income equal to or below 150 percent of the federal poverty level, who are not receiving coverage under the Medicaid program, may not be required to pay:

(a) Enrollment fees, premiums, or similar charges that exceed the maximum monthly charge permitted under s. 1916(b)(1) of the Social Security Act; or

(b) Copayments, deductibles, coinsurance, or similar charges that exceed a nominal amount, as determined consistent with regulations referred to in s. 1916(a)(3) of the Social Security Act. However, such charges may not be imposed for preventive services, including well-baby and well-child care, age-appropriate immunizations, and routine hearing and vision screenings.

(3) Enrollees in households that have ~~families with~~ a modified adjusted gross ~~family~~ income above 150 percent of the federal poverty level who are not receiving coverage under the Medicaid program or who are not eligible under s. 409.814(5) ~~s. 409.814(6)~~ may be required to pay enrollment fees, premiums, copayments, deductibles, coinsurance, or similar charges on a sliding scale related to income, except that the total annual aggregate cost-sharing with respect to all children in a household ~~family~~ may not exceed 5 percent of the household's modified adjusted ~~family's~~ income. However, copayments, deductibles, coinsurance, or similar charges may not be imposed for preventive services, including well-baby and well-child care, age-appropriate immunizations, and routine hearing and vision screenings.

Section 8. Section 409.817, Florida Statutes, is repealed.

Section 9. Section 409.8175, Florida Statutes, is repealed.

Section 10. Paragraph (c) of subsection (1) of section 409.8177, Florida Statutes, is amended to read:

409.8177 Program evaluation.—

(1) The agency, in consultation with the Department of Health, the Department of Children and Families ~~Family Services~~, and the Florida Healthy Kids Corporation, shall contract for an evaluation of the Florida Kidcare program and shall by January 1 of each year submit to the Governor, the President of the Senate, and the Speaker of the House of Representatives a report of the program. In addition to the items specified under s. 2108 of Title XXI of the Social Security Act, the report shall include an assessment of crowd-out and access to health care, as well as the following:

(c) The characteristics of the children and families assisted under the program, including ages of the children, household ~~family~~ income, and access to or coverage by other health insurance prior to the program and after disenrollment from the program.

Section 11. Section 409.818, Florida Statutes, is amended to read:

409.818 Administration.—In order to implement ss. 409.810-409.821, the following agencies shall have the following duties:

(1) The Department of Children and Families ~~Family Services~~ shall:

(a) Maintain ~~Develop~~ a simplified eligibility determination and renewal process ~~application mail-in form to be used for determining the eligibility of children for coverage~~ under the Florida Kidcare program, in consultation with the agency, the

Department of Health, and the Florida Healthy Kids Corporation. The simplified eligibility process ~~application form~~ must include ~~an item that provides~~ an opportunity for the applicant to indicate whether coverage is being sought for a child with special health care needs. Families applying for children's Medicaid coverage must also be able to use the simplified application process ~~form~~ without having to pay a premium.

(b) Establish and maintain the eligibility determination process under the program except as specified in subsection (3), which includes the following: ~~(5).~~

1. The department shall directly, or through the services of a contracted third-party administrator, establish and maintain a process for determining eligibility of children for coverage under the program. The eligibility determination process must be used solely for determining eligibility of applicants for health benefits coverage under the program. The eligibility determination process must include an initial determination of eligibility for any coverage offered under the program, as well as a redetermination or reverification of eligibility each subsequent 6 months. ~~Effective January 1, 1999,~~ A child who has not attained the age of 5 and who has been determined eligible for the Medicaid program is eligible for coverage for 12 months without a redetermination or reverification of eligibility. In conducting an eligibility determination, the department shall determine if the child has special health care needs.

2. The department, in consultation with the Agency for Health Care Administration and the Florida Healthy Kids Corporation, shall develop procedures for redetermining

eligibility which enable applicants and enrollees ~~a family~~ to easily update any change in circumstances which could affect eligibility.

3. The department may accept changes in ~~a family's~~ status as reported to the department by the Florida Healthy Kids Corporation or the exchange without requiring a new application ~~from the family~~. Redetermination of a child's eligibility for Medicaid may not be linked to a child's eligibility determination for other programs.

4. The department, in consultation with the agency and the Florida Healthy Kids Corporation, shall develop a combined eligibility notice to inform applicants and enrollees of their application or renewal status, as appropriate. The content must be coordinated to meet all federal and state requirements under the federal Patient Protection and Affordable Care Act.

(c) Inform program applicants about eligibility determinations and provide information about eligibility of applicants to the Florida Kidcare program and to insurers and their agents~~, through a centralized coordinating office~~.

(d) Adopt rules necessary for conducting program eligibility functions.

~~(2) The Department of Health shall:~~

~~(a) Design an eligibility intake process for the program, in coordination with the Department of Children and Family Services, the agency, and the Florida Healthy Kids Corporation. The eligibility intake process may include local intake points that are determined by the Department of Health in coordination with the Department of Children and Family Services.~~

~~(b) Chair a state-level Florida Kidcare coordinating~~

~~council to review and make recommendations concerning the implementation and operation of the program. The coordinating council shall include representatives from the department, the Department of Children and Family Services, the agency, the Florida Healthy Kids Corporation, the Office of Insurance Regulation of the Financial Services Commission, local government, health insurers, health maintenance organizations, health care providers, families participating in the program, and organizations representing low income families.~~

~~(c) In consultation with the Florida Healthy Kids Corporation and the Department of Children and Family Services, establish a toll-free telephone line to assist families with questions about the program.~~

~~(d) Adopt rules necessary to implement outreach activities.~~

(2)~~(3)~~ The Agency for Health Care Administration, under the authority granted in s. 409.914(1), shall:

(a) Calculate the premium assistance payment necessary to comply with the premium and cost-sharing limitations specified in s. 409.816 and the federal Patient Protection and Affordable Care Act. The premium assistance payment for each enrollee in a health insurance plan participating in the Florida Healthy Kids Corporation shall equal the premium approved by the Florida Healthy Kids Corporation ~~and the Office of Insurance Regulation of the Financial Services Commission pursuant to ss. 627.410 and 641.31,~~ less any enrollee's share of the premium established within the limitations specified in s. 409.816. ~~The premium assistance payment for each enrollee in an employer sponsored health insurance plan approved under ss. 409.810-409.821 shall equal the premium for the plan adjusted for any benchmark~~

~~benefit plan actuarial equivalent benefit rider approved by the Office of Insurance Regulation pursuant to ss. 627.410 and 641.31, less any enrollee's share of the premium established within the limitations specified in s. 409.816. In calculating the premium assistance payment levels for children with family coverage, the agency shall set the premium assistance payment levels for each child proportionately to the total cost of family coverage.~~

(b) Make premium assistance payments to health insurance plans on a periodic basis. The agency may use its Medicaid fiscal agent or a contracted third-party administrator in making these payments. The agency may require health insurance plans that participate in the Medikids program ~~or employer sponsored group health insurance~~ to collect premium payments from an enrollee's family. Participating health insurance plans shall report premium payments collected on behalf of enrollees in the program to the agency in accordance with a schedule established by the agency.

(c) Monitor compliance with quality assurance and access standards developed under s. 409.820 and in accordance with s. 2103(f) of the Social Security Act, 42 U.S.C. s. 1397cc(f).

(d) Establish a mechanism for investigating and resolving complaints and grievances from program applicants, enrollees, and health benefits coverage providers, and maintain a record of complaints and confirmed problems. In the case of a child who is enrolled in a managed care ~~health maintenance~~ organization, the agency must use the provisions of s. 641.511 to address grievance reporting and resolution requirements.

~~(e) Approve health benefits coverage for participation in~~

~~the program, following certification by the Office of Insurance Regulation under subsection (4).~~

(e)~~(f)~~ Adopt rules necessary for ~~calculating premium assistance payment levels, making premium assistance payments,~~ monitoring access and quality assurance standards and~~,~~ investigating and resolving complaints and grievances~~,~~ ~~administering the Medikids program, and approving health benefits coverage~~.

(f) Contract with the Florida Healthy Kids Corporation for the administration of the Florida Kidcare program and the Healthy Florida program and to facilitate the release of any federal and state funds.

The agency is designated the lead state agency for Title XXI of the Social Security Act for purposes of receipt of federal funds, for reporting purposes, and for ensuring compliance with federal and state regulations and rules.

~~(4) The Office of Insurance Regulation shall certify that health benefits coverage plans that seek to provide services under the Florida Kidcare program, except those offered through the Florida Healthy Kids Corporation or the Children's Medical Services Network, meet, exceed, or are actuarially equivalent to the benchmark benefit plan and that health insurance plans will be offered at an approved rate. In determining actuarial equivalence of benefits coverage, the Office of Insurance Regulation and health insurance plans must comply with the requirements of s. 2103 of Title XXI of the Social Security Act. The department shall adopt rules necessary for certifying health benefits coverage plans.~~

(3)~~(5)~~ The Florida Healthy Kids Corporation shall retain its functions as authorized in s. 624.91, including eligibility determination for participation in the Healthy Kids program.

(4)~~(6)~~ The agency, the Department of Health, the Department of Children and Families ~~Family Services~~, and the Florida Healthy Kids Corporation, ~~and the Office of Insurance Regulation,~~ after consultation with and approval of the Speaker of the House of Representatives and the President of the Senate, may ~~are authorized to~~ make program modifications that are necessary to overcome any objections of the United States Department of Health and Human Services to obtain approval of the state's child health insurance plan under Title XXI of the Social Security Act.

Section 12. Section 409.820, Florida Statutes, is amended to read:

409.820 Quality assurance and access standards.—Except for Medicaid, the Department of Health, in consultation with the agency and the Florida Healthy Kids Corporation, shall develop a minimum set of pediatric and adolescent quality assurance and access standards for all program components. The standards must include a process for granting exceptions to specific requirements for quality assurance and access. Compliance with the standards shall be a condition of program participation by health benefits coverage providers. These standards shall comply with the provisions of this chapter and chapter 641 and Title XXI of the Social Security Act.

Section 13. Section 624.91, Florida Statutes, is amended to read:

624.91 The Florida Healthy Kids Corporation Act.—

(1) SHORT TITLE.—This section may be cited as the "William G. 'Doc' Myers Healthy Kids Corporation Act."

(2) LEGISLATIVE INTENT.—

(a) The Legislature finds that increased access to health care services could improve children's health and reduce the incidence and costs of childhood illness and disabilities among children in this state. Many children do not have comprehensive, affordable health care services available. It is the intent of the Legislature that the Florida Healthy Kids Corporation provide comprehensive health insurance coverage to such children. The corporation is encouraged to cooperate with any existing health service programs funded by the public or the private sector.

(b) It is the intent of the Legislature that the Florida Healthy Kids Corporation serve as one of several providers of services to children eligible for medical assistance under Title XXI of the Social Security Act. Although the corporation may serve other children, the Legislature intends the primary recipients of services provided through the corporation be school-age children with a family income below 200 percent of the federal poverty level, who do not qualify for Medicaid. It is also the intent of the Legislature that state and local government Florida Healthy Kids funds be used to continue coverage, subject to specific appropriations in the General Appropriations Act, to children not eligible for federal matching funds under Title XXI.

(c) It is further the intent of the Legislature that the Florida Healthy Kids Corporation administer and manage services for Healthy Florida, a health care program for uninsured adults

using a unique network of providers and contracts. Enrollees in Healthy Florida will receive comprehensive health care services from private, licensed health insurers who meet standards established by the corporation. It is further the intent of the Legislature that these enrollees participate in their own health care decisionmaking and contribute financially toward their medical costs. The Legislature intends to provide an alternative benefit package that includes a full range of services which meet the needs of residents of this state. As a new program, the Legislature shall also ensure that a comprehensive evaluation is conducted to measure the overall impact of the program and identify whether to renew the program after an initial 3-year term.

(3) ELIGIBILITY FOR STATE-FUNDED ASSISTANCE.—Only the following individuals are eligible for state-funded assistance in paying premiums for Healthy Florida or Florida Healthy Kids ~~premiums~~:

(a) Residents of this state who are eligible for the Florida Kidcare program pursuant to s. 409.814 or the Healthy Florida pursuant to s. 624.917.

(b) Notwithstanding s. 409.814, legal aliens who are enrolled in the Florida Healthy Kids program as of January 31, 2004, who do not qualify for Title XXI federal funds because they are not qualified aliens as defined in s. 409.811.

(4) NONENTITLEMENT.—Nothing in this section shall be construed as providing an individual with an entitlement to health care services. No cause of action shall arise against the state, the Florida Healthy Kids Corporation, or a unit of local government for failure to make health services available under

this section.

(5) CORPORATION AUTHORIZATION, DUTIES, POWERS.—

(a) There is created the Florida Healthy Kids Corporation, a not-for-profit corporation.

(b) The Florida Healthy Kids Corporation shall:

1. Arrange for the collection of any family, individual, or local contributions~~, or employer payment or premium~~, in an amount to be determined by the board of directors, to provide for payment of premiums for comprehensive insurance coverage and for the actual or estimated administrative expenses.

2. Arrange for the collection of any voluntary contributions to provide for payment of premiums for enrollees in the Florida Kidcare program or Healthy Florida ~~premiums for children who are not eligible for medical assistance under Title XIX or Title XXI of the Social Security Act~~.

3. Subject to the provisions of s. 409.8134, accept voluntary supplemental local match contributions that comply with the requirements of Title XXI of the Social Security Act for the purpose of providing additional Florida Kidcare coverage in contributing counties under Title XXI.

4. Establish the administrative and accounting procedures for the operation of the corporation.

5. Establish, with consultation from appropriate professional organizations, standards for preventive health services and providers and comprehensive insurance benefits appropriate to children, provided that such standards for rural areas shall not limit primary care providers to board-certified pediatricians.

6. Determine eligibility for children seeking to

participate in the Title XXI-funded components of the Florida Kidcare program consistent with the requirements specified in s. 409.814, as well as the non-Title-XXI-eligible children as provided in subsection (3).

7. Establish procedures under which providers of local match to, applicants to and participants in the program may have grievances reviewed by an impartial body and reported to the board of directors of the corporation.

8. Establish participation criteria and, if appropriate, contract with an authorized insurer, health maintenance organization, or third-party administrator to provide administrative services to the corporation.

9. Establish enrollment criteria that include penalties or waiting periods of 30 days for reinstatement of coverage upon voluntary cancellation for nonpayment of family and individual premiums under the programs.

10. Contract with authorized insurers or any provider of health care services, meeting standards established by the corporation, for the provision of comprehensive insurance coverage to participants. Such standards shall include criteria under which the corporation may contract with more than one provider of health care services in program sites.

a. Health plans shall be selected through a competitive bid process.

b. The Florida Healthy Kids Corporation shall purchase goods and services in the most cost-effective manner consistent with the delivery of quality medical care. The maximum administrative cost for a Florida Healthy Kids Corporation contract shall be 15 percent. For all health care contracts, the

minimum medical loss ratio is ~~for a Florida Healthy Kids Corporation contract shall be~~ 85 percent. The calculations must use uniform financial data collected from all plans in a format established by the corporation and shall be computed for each insurer on a statewide basis. Funds shall be classified in a manner consistent with 45 C.F.R. part 158 ~~For dental contracts, the remaining compensation to be paid to the authorized insurer or provider under a Florida Healthy Kids Corporation contract shall be no less than an amount which is 85 percent of premium; to the extent any contract provision does not provide for this minimum compensation, this section shall prevail~~.

c. The health plan selection criteria and scoring system, and the scoring results, shall be available upon request for inspection after the bids have been awarded.

11. Establish disenrollment criteria in the event local matching funds are insufficient to cover enrollments.

12. Develop and implement a plan to publicize the Florida Kidcare program and Healthy Florida, the eligibility requirements of the programs ~~program~~, and the procedures for enrollment in the program and to maintain public awareness of the corporation and the programs ~~program~~.

13. Secure staff necessary to properly administer the corporation. Staff costs shall be funded from state and local matching funds and such other private or public funds as become available. The board of directors shall determine the number of staff members necessary to administer the corporation.

14. In consultation with the partner agencies, annually provide a report on the Florida Kidcare program ~~annually~~ to the Governor, the Chief Financial Officer, the Commissioner of

Education, the President of the Senate, the Speaker of the House of Representatives, and the Minority Leaders of the Senate and the House of Representatives.

15. Provide information on a quarterly basis to the Legislature and the Governor which compares the costs and utilization of the full-pay enrolled population and the Title XXI-subsidized enrolled population in the Florida Kidcare program. The information, at a minimum, must include:

a. The monthly enrollment and expenditure for full-pay enrollees in the Medikids and Florida Healthy Kids programs compared to the Title XXI-subsidized enrolled population; and

b. The costs and utilization by service of the full-pay enrollees in the Medikids and Florida Healthy Kids programs and the Title XXI-subsidized enrolled population. This subparagraph is repealed effective December 31, 2013.

~~By February 1, 2010, the Florida Healthy Kids Corporation shall provide a study to the Legislature and the Governor on premium impacts to the subsidized portion of the program from the inclusion of the full pay program, which shall include recommendations on how to eliminate or mitigate possible impacts to the subsidized premiums.~~

16. By August 15, 2013, the corporation shall notify all current full-pay enrollees of the availability of the exchange, as defined in the federal Patient Protection and Affordable Care Act, and how to access other insurance affordability options. New applications for full-pay coverage may not be accepted after September 30, 2013.

17.~~16.~~ Establish benefit packages that conform to the

provisions of the Florida Kidcare program, as created in ss. 409.810-409.821.

(c) Coverage under the corporation's program is secondary to any other available private coverage held by, or applicable to, the participant ~~child~~ or family member. Insurers under contract with the corporation are the payors of last resort and must coordinate benefits with any other third-party payor that may be liable for the participant's medical care.

(d) The Florida Healthy Kids Corporation shall be a private corporation not for profit, registered, incorporated, and organized pursuant to chapter 617, and shall have all powers necessary to carry out the purposes of this act, including, but not limited to, the power to receive and accept grants, loans, or advances of funds from any public or private agency and to receive and accept from any source contributions of money, property, labor, or any other thing of value, to be held, used, and applied for the purposes of this act. The corporation and any committees it forms shall act in compliance with part III of chapter 112, and chapters 119 and 286.

(6) BOARD OF DIRECTORS AND MANAGEMENT SUPERVISION.—

(a) The Florida Healthy Kids Corporation shall operate subject to the supervision and approval of a board of directors chaired by an appointee designated by the Governor ~~Chief Financial Officer or her or his designee,~~ and composed of 12 other members. The Senate shall confirm the designated chair and other board appointees ~~selected~~ for 3-year terms~~ of office as follows:~~

~~1. The Secretary of Health Care Administration, or his or her designee~~.

~~2. One member appointed by the Commissioner of Education from the Office of School Health Programs of the Florida Department of Education.~~

~~3. One member appointed by the Chief Financial Officer from among three members nominated by the Florida Pediatric Society.~~

~~4. One member, appointed by the Governor, who represents the Children's Medical Services Program.~~

~~5. One member appointed by the Chief Financial Officer from among three members nominated by the Florida Hospital Association.~~

~~6. One member, appointed by the Governor, who is an expert on child health policy.~~

~~7. One member, appointed by the Chief Financial Officer, from among three members nominated by the Florida Academy of Family Physicians.~~

~~8. One member, appointed by the Governor, who represents the state Medicaid program.~~

~~9. One member, appointed by the Chief Financial Officer, from among three members nominated by the Florida Association of Counties.~~

~~10. The State Health Officer or her or his designee.~~

~~11. The Secretary of Children and Family Services, or his or her designee.~~

~~12. One member, appointed by the Governor, from among three members nominated by the Florida Dental Association.~~

(b) A member of the board of directors serves at the pleasure of the Governor ~~may be removed by the official who appointed that member~~. The board shall appoint an executive director, who is responsible for other staff authorized by the

board.

(c) Board members are entitled to receive, from funds of the corporation, reimbursement for per diem and travel expenses as provided by s. 112.061.

(d) There shall be no liability on the part of, and no cause of action shall arise against, any member of the board of directors, or its employees or agents, for any action they take in the performance of their powers and duties under this act.

(e) Board members who are serving on or before the date of enactment of this act or similar legislation may remain until July 1, 2013.

(f) An executive steering committee is created to provide management direction and support and to make recommendations to the board on the programs. The steering committee is composed of the Secretary of Health Care Administration, the Secretary of Children and Families, and the State Surgeon General. Committee members may not delegate their membership or attendance.

(7) LICENSING NOT REQUIRED; FISCAL OPERATION.—

(a) The corporation shall not be deemed an insurer. The officers, directors, and employees of the corporation shall not be deemed to be agents of an insurer. Neither the corporation nor any officer, director, or employee of the corporation is subject to the licensing requirements of the insurance code or the rules of the Department of Financial Services or Office of Insurance Regulation. However, any marketing representative utilized and compensated by the corporation must be appointed as a representative of the insurers or health services providers with which the corporation contracts.

(b) The board has complete fiscal control over the

corporation and is responsible for all corporate operations.

(c) The Department of Financial Services shall supervise any liquidation or dissolution of the corporation and shall have, with respect to such liquidation or dissolution, all power granted to it pursuant to the insurance code.

Section 14. Section 624.915, Florida Statutes, is repealed.

Section 15. Section 624.917, Florida Statutes, is created to read:

624.917 Healthy Florida program.—

(1) PROGRAM CREATION.—There is created Healthy Florida, a health care program for lower income, uninsured adults who meet the eligibility guidelines established under s. 624.91. The Florida Healthy Kids Corporation shall administer the program under its existing corporate governance and structure.

(2) DEFINITIONS.—As used in this section, the term:

(a) "Actuarially equivalent" means:

1. The aggregate value of the benefits included in health benefits coverage is equal to the value of the benefits in the child benchmark benefit plan as defined in s. 409.811; and

2. The benefits included in health benefits coverage are substantially similar to the benefits included in the child benchmark benefit plan, except that preventive health services do not include dental services.

(b) "Agency" means the Agency for Health Care Administration.

(c) "Applicant" means the individual who applies for determination of eligibility for health benefits coverage under this section.

(d) "Child benchmark benefit plan" means the form and level

of health benefits coverage established in s. 409.815.

(e) "Child" means any person younger than 19 years of age.

(f) "Corporation" means the Florida Healthy Kids Corporation.

(g) "Enrollee" means an individual who has been determined eligible for and is receiving coverage under this section.

(h) "Florida Kidcare program" or "Kidcare program," means the health benefits program administered through ss. 409.810-409.821.

(i) "Health benefits coverage" means protection that provides payment of benefits for covered health care services or that otherwise provides, either directly or through arrangements with other persons, covered health care services on a prepaid per capita basis or on a prepaid aggregate fixed-sum basis.

(j) "Healthy Florida" means the program created by this section which is administered by the Florida Healthy Kids Corporation.

(k) "Healthy Kids" means the Florida Kidcare program component created under s. 624.91 for children who are 5 through 18 years of age.

(l) "Household income" means the group or the individual whose income is considered in determining eligibility for the Healthy Florida program. The term "household" has the same meaning as provided in s. 36B(d)(2) of the Internal Revenue Code of 1986.

(m) "Medicaid" means the medical assistance program authorized by Title XIX of the Social Security Act, and regulations thereunder, and ss. 409.901-409.920, as administered in this state by the agency.

(n) "Medically necessary" means the use of any medical treatment, service, equipment, or supply necessary to palliate the effects of a terminal condition, or to prevent, diagnose, correct, cure, alleviate, or preclude deterioration of a condition that threatens life, causes pain or suffering, or results in illness or infirmity and which is:

1. Consistent with the symptom, diagnosis, and treatment of the enrollee's condition;

2. Provided in accordance with generally accepted standards of medical practice;

3. Not primarily intended for the convenience of the enrollee, the enrollee's family, or the health care provider;

4. The most appropriate level of supply or service for the diagnosis and treatment of the enrollee's condition; and

5. Approved by the appropriate medical body or health care specialty involved as effective, appropriate, and essential for the care and treatment of the enrollee's condition.

(o) "Modified adjusted gross income" means the individual or household's annual adjusted gross income as defined in s. 36B(d)(2) of the Internal Revenue Code of 1986 which is used to determine eligibility under the Florida Kidcare program.

(p) "Patient Protection and Affordable Care Act" or "Act" means the federal law enacted as Pub. L. No. 111-148, as further amended by the federal Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152, and any amendments, regulations or guidance thereunder, issued under those acts.

(q) "Premium" means the entire cost of a health insurance plan, including the administration fee or the risk assumption charge.

(r) "Premium assistance payment" means the monthly consideration paid by the agency per enrollee in the Florida Kidcare program towards health insurance premiums.

(s) "Qualified alien" means an alien as defined in 8 U.S.C. s. 1641(b) and (c).

(t) "Resident" means a United States citizen or qualified alien who is domiciled in this state.

(3) ELIGIBILITY.—To be eligible and remain eligible for the Healthy Florida program, an individual must be a resident of this state and meet the following additional criteria:

(a) Be identified as newly eligible, as defined in s. 1902(a)(10)(A)(i)(VIII) of the Social Security Act or s. 2001 of the federal Patient Protection and Affordable Care Act, and as may be further defined by federal regulation.

(b) Maintain eligibility with the corporation and meet all renewal requirements as established by the corporation.

(c) Renew eligibility on at least an annual basis.

(4) ENROLLMENT.—The corporation may begin the enrollment of applicants in the Healthy Florida program on October 1, 2013. Enrollment may occur directly, through the services of a third-party administrator, referrals from the Department of Children and Families, and the exchange as defined by the federal Patient Protection and Affordable Care Act. As an enrollee disenrolls, the corporation must also provide the enrollee with information about other insurance affordability programs and electronically refer the enrollee to the exchange or other programs, as appropriate. The earliest coverage effective date under the program shall be January 1, 2014.

(5) DELIVERY OF SERVICES.—The corporation shall contract

with authorized insurers licensed under chapter 627 and managed care organizations under chapter 641 which meet standards established by the corporation to provide comprehensive health care services to enrollees who qualify for services under this section. The corporation may contract for such services on a statewide or regional basis.

(a) The corporation shall establish access and network standards for such contracts and ensure that contracted providers have sufficient providers to meet enrollee needs. Quality standards must be developed by the corporation, specific to the adult population, which take into consideration recommendations from the National Committee on Quality Assurance, stakeholders, and other existing performance indicators from both public and commercial populations.

(b) The corporation shall provide an enrollee a choice of plans. The corporation may select a plan if no selection has been received before the coverage start date. Once enrolled, an enrollee has an initial 90-day, free-look period before a lock-in period of not more than 12 months is applied. Exceptions to the lock-in period must be offered to an enrollee for reasons based upon good cause or qualifying events.

(c) The corporation may consider contracts that provide family plans that would allow members from multiple state and federally funded programs to remain together under the same plan.

(d) All contracts must meet the medical loss ratio requirements under s. 624.91.

(6) BENEFITS.—The corporation shall establish a benefits package that is actuarially equivalent to the benchmark benefit

plan offered under s. 409.815(2), excluding dental, and meets the alternative benefits package requirements under s. 1937 of the Social Security Act. Benefits must be offered as an integrated, single package.

(a) In addition to benchmark benefits, health reimbursement accounts or a comparable health savings account for each enrollee must be established through the corporation or the contracts managed by the corporation. Enrollees must be rewarded for healthy behaviors, wellness program adherence, and other activities established by the corporation which demonstrate compliance with preventive care or disease management guidelines. Funds deposited into these accounts may be used to pay cost-sharing obligations or to purchase over-the-counter health-related items to the extent allowed under federal law or regulation.

(b) Enhanced services may be offered if the cost of such additional services provides savings to the overall plan.

(c) The corporation shall establish a process for the payment of wrap-around services not covered by the benchmark benefit plan through a separate subcapitation process to its contracted providers if it is determined that such services are required by federal law. Such services would be covered when deemed medically necessary on an individual basis. The subcapitation pool is subject to a separate reconciliation process under the medical loss ratio provisions in s. 624.91.

(d) A prior authorization process and other utilization controls may be established by the plan for any benefit if approved by the corporation.

(7) COST SHARING.—The corporation may collect premiums and

copayments from enrollees in accordance with federal law. Amounts to be collected for the Healthy Florida program must be established annually in the General Appropriations Act.

(a) Payment of a monthly premium may be required before the establishment of an enrollee's coverage start date and to retain monthly coverage.

(b) An enrollee may be required to make copayments as a condition of receiving a health care service.

(c) A provider is responsible for the collection of point-of-service cost-sharing obligations. The enrollee's cost-sharing contribution is considered part of the provider's total reimbursement. Failure to collect an enrollee's cost sharing reduces the provider's share of the reimbursement.

(8) PROGRAM MANAGEMENT.—The corporation is responsible for the oversight of the Healthy Florida program. The agency shall seek a state plan amendment or other appropriate federal approval to implement the Healthy Florida program. The agency shall consult with the corporation in the amendment's development and submit by June 14, 2013, the state plan amendment to the federal Department of Health and Human Services. The agency shall contract with the corporation for the administration of the Healthy Florida program and for the timely release of federal and state funds. The agency retains its authorities as provided in ss. 409.902 and 409.963.

(a) The corporation shall establish a process by which grievances can be resolved and Healthy Florida recipients can be informed of their rights under the Medicaid Fair Hearing Process, as appropriate, or any alternative resolution process adopted by the corporation.

(b) The corporation shall establish a program integrity process to ensure compliance with program guidelines. At a minimum, the corporation shall withhold benefits from an applicant or enrollee if the corporation obtains evidence that the applicant or enrollee is no longer eligible, submitted incorrect or fraudulent information in order to establish eligibility, or failed to provide verification of eligibility. The corporation shall notify the applicant or enrollee that, because of such evidence, program benefits must be withheld unless the applicant or enrollee contacts a designated representative of the corporation by a specified date, which must be within 10 working days after the date of notice, to discuss and resolve the matter. The corporation shall make every effort to resolve the matter within a timeframe that will not cause benefits to be withheld from an eligible enrollee. The following individuals may be subject to specific prosecution in accordance with s. 414.39:

1. An applicant who obtains or attempts to obtain benefits for a potential enrollee under the Healthy Florida program when the applicant knows or should have known that the potential enrollee does not qualify for the Healthy Florida program.

2. An individual who assists an applicant in obtaining or attempting to obtain benefits for a potential enrollee under the Healthy Florida program when the individual knows or should have known that the potential enrollee does not qualify for the Healthy Florida program.

(9) APPLICABILITY OF LAWS RELATING TO MEDICAID.—The provisions of ss. 409.902, 409.9128, and 409.920 apply to the administration of the Healthy Florida program.

(10) PROGRAM EVALUATION.—The corporation shall collect both eligibility and enrollment data from program applicants and enrollees as well as encounter and utilization data from all contracted entities during the program term. The corporation shall submit monthly enrollment reports to the President of the Senate, the Speaker of the House of Representative, and the Minority Leaders of the Senate and the House of Representatives. The corporation shall submit an interim independent evaluation of the Healthy Florida program to the presiding officers no later than July 1, 2015, with annual evaluations due July 1 each year thereafter. The evaluations must address, at a minimum, application and enrollment trends and issues, utilization and cost data, and customer satisfaction.

(11) PROGRAM EXPIRATION.—The Healthy Florida program shall expire at the end of the state fiscal year in which any of these conditions occur, whichever occurs first:

(a) The federal match contribution falls below 90 percent.

(b) The federal match contribution falls below the increased FMAP for medical assistance for newly eligible mandatory individuals as specified in the federal Patient Protection and Affordable Care Act, Pub. L. No. 111-148, as amended by the federal Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152.

(c) The federal match for the Healthy Florida program and the Medicaid program are blended under federal law or regulation in such a way that causes the overall federal contribution to diminish when compared to separate, nonblended federal contributions.

Section 16. The Florida Healthy Kids Corporation may make

changes to comply with the objections of the federal Department of Health and Human Services to gain approval of the Healthy Florida program in compliance with the federal Patient Protection and Affordable Care Act, upon giving notice to the Senate and the House of Representatives of the proposed changes. If there is a conflict between a provision in this section and the federal Patient Protection and Affordable Care Act, Pub. L. No. 111-148, as amended by the federal Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152, the provision must be interpreted and applied so as to comply with the requirement of the federal law.

Section 17. This act shall take effect upon becoming a law.

4.	Betta	Hansen	AP	**Fav/CS**
5.				
6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/CS/CS/SB 84 makes several changes to law relating to public-private partnerships. The bill authorizes certain public entities to contract for public service works with not-for-profit organizations, and revises eligibility and contract requirements for not-for-profit organizations contracting with certain public entities. The bill also revises the powers of a public health trust.

The bill has an indeterminate fiscal impact upon universities, school boards, counties, municipalities, and other public bodies and political subdivisions of the state that may enter public-private partnerships. In addition, there is an indeterminate fiscal impact relating to the administrative support of the task force.

The bill creates a new section of law to facilitate public-private partnerships, when cost-effective, to construct public-purpose projects. Specifically, the bill:

- Provides legislative findings and intent relating to the construction or improvement by private entities of facilities used predominantly for a public purpose.

- Creates a task force to provide guidelines for public entities on the types of factors public entities should review and consider when processing requests for public-private partnership projects.
- Provides for notice to affected local jurisdictions as well as for comprehensive agreements between a public and a private entity.
- Specifies the requirements for such partnership.
- Specifies the financing sources for certain projects by a private entity.
- Provides for the applicability of sovereign immunity for public entities with respect to qualified projects.

The bill amends chapter 336, F.S., to authorize procedures for the creation and operation of public-private partnerships for transportation facilities within a county.

The bill creates sections 287.05712 and 336.71, Florida Statutes. The bill amends sections 154.11 and 255.60, Florida Statutes.

II. Present Situation:

Public-Private Partnerships

Overview

A public-private partnership (PPP) is a contractual agreement formed between a public agency and a private sector entity that allows for greater private sector participation in the delivery and financing of public building and infrastructure projects.[1] Through these agreements, the skills and assets of each sector, public and private, are shared in delivering a service or facility for the use of the general public.[2] In addition to the sharing of resources, each party shares in the risks and rewards potential in the delivery of the service or facility.[3]

There are different types of PPPs with varying levels of private sector involvement. The most common is called a Design-Build-Finance-Operate (DBFO) transaction, where the government grants a private sector partner the right to develop a new piece of public infrastructure.[4] The private entity takes on full responsibility and risk for delivery and operation of the public project against pre-determined standards of performance established by government. The private entity is paid through the revenue stream generated by the project, which could take the form of a user charge (such as a highway toll) or, in some cases, an annual government payment for performance (often called a "shadow toll" or "availability charge"). Any increases in the user charge or payment for performance typically are set out in advance and regulated by a binding contract.[5]

[5] *Id.*

Another PPP procurement process is the Unsolicited Proposal Procurement Model (UPPM). This allows for the receipt of unsolicited bids from private entities to contract for the design, construction, operation, and financing of public infrastructure.[6] Generally, the public entity requires a processing or review fee to cover costs for the technical and legal review.[7]

Florida Department of Transportation Public-Private Partnership

The Florida Department of Transportation (FDOT) currently has a public-private partnership program in place.[8] The Florida Legislature declared that there is a public need for rapid construction of safe and efficient transportation facilities for the purpose of travel within the state, and that it is in the public's interest to provide for the construction of additional safe, convenient, and economical transportation facilities.[9]

Florida law provides that a private transportation facility constructed pursuant to s. 334.30, F.S., must comply with all requirements of federal, state, and local laws; state, regional, and local comprehensive plans; FDOT rules, policies, procedures, and standards for transportation facilities; and any other conditions that FDOT determines to be in the public's best interest.[10]

Current law allows FDOT to advance projects programmed in the adopted five-year work program using funds provided by public-private partnerships or private entities to be reimbursed from FDOT funds for the project.[11] In accomplishing this, FDOT may use state resources to participate in funding and financing the project as provided for under FDOT's enabling legislation for projects on the State Highway System.[12]

FDOT may receive or solicit proposals and, with legislative approval as evidenced by approval of the project in the department's work program, enter into agreements with private entities, or consortia thereof, for the building, operation, ownership, or financing of transportation facilities.[13] If FDOT receives an unsolicited solicitation or proposal, it is required to publish a notice in the Florida Administrative Register and a newspaper of general circulation stating that FDOT has received the proposal and it will accept other proposals for the same project.[14] In addition, FDOT requires an initial payment of $50,000 accompany any unsolicited proposal to cover the costs of evaluating the proposal.[15]

Current law governing FDOT's PPP provides for a solicitation process that is similar to the Consultants' Competitive Negotiation Act.[16] FDOT may request proposals from private entities for public-private transportation projects.[17] The partnerships must be qualified by FDOT as part

of the procurement process outlined in the procurement documents.[18] These procurement documents must include provisions for performance of the private entity and payment of subcontractors, including surety bonds, letters of credit, parent company guarantees, and lender and equity partner guarantees.[19] FDOT must rank the proposals in the order of preference.[20] FDOT may then begin negotiations with the top firm. If that negotiation is unsuccessful, FDOT must terminate negotiations and move to the second-ranked firm. If unsuccessful again, FDOT must move to the third-ranked firm.[21] FDOT must provide independent analyses of the proposed PPP that demonstrates the cost effectiveness and overall public benefit prior to moving forward with the procurement and prior to awarding the contract.[22]

Current law authorizes FDOT to use innovative finance techniques associated with PPPs, including federal loans, commercial bank loans, and hedges against inflation from commercial banks or other private sources.[23] PPP agreements under s. 334.30, F.S., must be limited to a term not to exceed 50 years. In addition, FDOT may not utilize more than 15 percent of total federal and state funding in any given year to fund PPP projects.[24]

Procurement of Personal Property and Services

Chapter 287, F.S., regulates state agency[25] procurement of personal property and services. The Department of Management Services (department) is responsible for overseeing state purchasing activity including professional and contractual services as well as commodities needed to support agency activities, such as office supplies, vehicles, and information technology.[26] The Division of State Purchasing in the department establishes statewide purchasing rules and negotiates contracts and purchasing agreements that are intended to leverage the state's buying power.[27]

Current law requires contracts for commodities or contractual services in excess of $35,000 to be procured utilizing a competitive solicitation process.[28,29]

[18] Section 334.30(6)(b), F.S.
[19] Section 334.30(6)(c).
[20] *See* s. 334.30(6)(d), F.S., [i]n ranking the proposals, the department may consider factors that include, but are not limited to, professional qualifications, general business terms, innovative engineering or cost-reduction terms, finance plans, and the need for state funds to deliver the project.
[21] Section 334.30(6)(d), F.S.
[22] Section 334.30(6)(e), F.S.
[23] Section 334.30(7), F.S.
[24] Section 334.30(12), F.S.
[25] As defined in s. 287.012(1), F.S., "agency" means any of the various state officers, departments, boards, commissions, divisions, bureaus, and councils and any other unit of organization, however designated, of the executive branch of state government. "Agency" does not include the university and college boards of trustees or the state universities and colleges.
[26] *See* ss. 287.032 and 287.042, F.S.
[27] Chapter 287, F.S., provides requirements for the procurement of personal property and services. Part I of that chapter pertains to commodities, insurance, and contractual services, and part II pertains to motor vehicles.
[28] Section 287.057(1), F.S., requires all projects that exceed the Category Two ($35,000) threshold provided in s. 287.017, F.S., to be competitively bid.
[29] As defined in s. 287.012(6), F.S., "competitive solicitation" means the process of requesting and receiving two or more sealed bids, proposals, or replies submitted by responsive vendors in accordance with the terms of a competitive process, regardless of the method of procurement.

The Consultants' Competitive Negotiation Act

In 1972, Congress passed the Brooks Act (Public Law 92-582), which codified Qualifications-Based Selection (QBS) as the federal procurement method for design professional services. The QBS process entails first soliciting statements of qualifications from licensed architectural and engineering providers, selecting the most qualified respondent, and then negotiating a fair and reasonable price. The vast majority of states currently require a QBS process when selecting the services of design professionals.

Florida's Consultants' Competitive Negotiation Act (CCNA), was enacted in 1973,[30] to specify the procedures to follow when procuring the services of architects and engineers. The CCNA did not prohibit discussion of compensation in the initial vendor selection phase until 1988, when the Legislature enacted a provision requiring that consideration of compensation occur only during the selection phase.[31]

Currently, the CCNA specifies the process to follow when state and local government agencies procure the professional services of an architect, professional engineer, landscape architect, or registered surveyor and mapper.[32] The CCNA requires that state agencies publicly announce, in a consistent and uniform manner, each occasion when professional services must be purchased for one of the following:

- A project, when the basic construction cost is estimated by the agency to exceed $325,000.
- A planning or study activity, when the fee for professional services exceeds $35,000.

The CCNA provides a two-phase selection process.[33] In the first phase, the "competitive selection," the agency evaluates the qualifications and past performance of no fewer than three bidders. The agency selects the three bidders, ranked in order of preference, that it considers most highly qualified to perform the required services. The CCNA requires consideration of several factors in determining the three most highly qualified bidders including: willingness to meet time and budget requirements; past performance; location; recent, current, and projected firm workloads; volume of work previously awarded to the firm; and whether the firm is certified as a minority business.[34]

The CCNA prohibits the agency from requesting, accepting, and considering, during the selection process, proposals for the compensation to be paid. Current law defines the term "compensation" to mean "the amount paid by the agency for professional services," regardless of whether stated as compensation or as other types of rates.[35]

In the second phase, the "competitive negotiation," the agency then negotiates compensation with the most qualified of the three selected firms. If a satisfactory contract cannot be negotiated, the agency must then negotiate with the second most qualified firm. The agency must negotiate with the third most qualified firm if the negotiation with the second most qualified firm fails to

[30] Chapter 73-19, L.O.F.
[31] Chapter 88-108, L.O.F.
[32] Section 287.055, F.S.
[33] Section 287.055(4) and (5), F.S.

[35] Section 287.055(2)(d), F.S.

produce a satisfactory contract. If a satisfactory contract cannot be negotiated with any of the three selected, the agency must begin the selection process again.

Procurement of Construction Services

Chapter 255, F.S., regulates construction services[36] for public property and publically owned buildings. The Department of Management Services is responsible for establishing, through administrative rules, the following:

- Procedures for determining the qualifications and responsibility of potential bidders prior to advertisement for and receipt of bids for building construction contracts;
- Procedures for awarding each state agency construction project to the lowest qualified bidder;
- Procedures to govern negotiations for construction contracts and modifications to contract documents when such negotiations are determined by the secretary of the Department of Management Services to be in the best interest of the state; and
- Procedures for entering into performance-based contracts for the development of public facilities when the Department of Management Services determines the use of such contracts to be in the best interest of the state.[37]

State contracts for construction projects that are projected to cost in excess of $200,000 must be competitively bid.[38] In addition, such projects must be advertised in the Florida Administrative Register at least 21 days prior to the bid opening.[39,40] Counties, municipalities, special districts,[41] or other political subdivisions seeking to construct or improve a public building must competitively bid the project if the projected cost is in excess of $300,000.[42]

Public Health Trusts

There may be created in and for each county of the state a public body corporate and politic, to be known as the "public health trust" of such county, for the purpose of exercising the powers described in Florida Statutes with respect to "designated facilities" as that term is defined in s. 154.08, F.S. No trust created may transact any business or exercise any powers until the governing body of the county of such trust declares that there is a need for such trust to function

[36] As defined in s. 255.072(2), F.S., "construction services" means all labor, services, and materials provided in connection with the construction, alteration, repair, demolition, reconstruction, or any other improvements to real property. The term "construction services" does not include contracts or work performed for the Department of Transportation.
[37] Section 255.29, F.S.
[38] *See* 60D-5.0073, F.A.C.; *see also* s. 255.0525, F.S.
[39] Section 255.0525(1), F.S.
[40] State construction projects that are projected to exceed $500,000 are required to be published 30 days prior to bid opening in the Florida Administrative Register, and at least once in a newspaper of general circulation in the county where the project is located. *See* s. 255.0525(1), F.S.
[41] As defined in s. 189.403(1), F.S., "special district" means a local unit of special purpose, as opposed to general-purpose, government within a limited boundary, created by general law, special act, local ordinance, or by rule of the Governor and Cabinet. The special purpose or purposes of special districts are implemented by specialized functions and related prescribed powers. For the purpose of s. 196.199(1), F.S., special districts must be treated as municipalities. The term does not include a school district, a community college district, a special improvement district created pursuant to s. 285.17, F.S., a municipal service taxing or benefit unit as specified in s. 125.01, F.S., or a board which provides electrical service and which is a political subdivision of a municipality or is part of a municipality.
[42] *See* s. 255.20(1), F.S.

and shall appoint the members thereof. The board of trustees of each public health trust is authorized to become the operator of, and governing body for, any designated facility. The term "designated facility" means any county-owned or county-operated facility used in connection with the delivery of health care, the operation, governance, or maintenance of which has been designated by the governing body of such county for transfer to the public health trust of that county.

Special Contracts with Charitable Youth Organizations

The state, or the governing body of any political subdivision of the state, is authorized, but not required, to contract for public service work such as highway and park maintenance, notwithstanding competitive sealed bid procedures required under this chapter or chapter 287, upon compliance with s. 255.60, F.S. This provision of law permits specified not-for-profit charitable youth organizations to receive no-bid public service contracts if the following conditions are satisfied:

- The contract may not exceed the annual sum of $250,000.
- The organization must be a not-for-profit corporation pursuant to ch. 617, F.S., and s. 501(c)(3) of the Internal Revenue Code.
- The corporate charter of the organization must state that it is organized as a charitable youth organization exclusively for at-risk youths enrolled in a work-study program.
- Administrative salaries and benefits of the corporation may not exceed 15 percent of gross revenues, excluding field supervisors' salaries and benefits.
- The contract must be approved by state agency personnel or the governing body of a political subdivision.
- No subcontracting may be implemented and all labor must be performed exclusively by at-risk youth and their direct supervisors.
- Payment must be production-based.
- The contractor must institute a drug-free workplace program substantially in compliance with s. 287.087, F.S.
- The contractor must agree to be subject to Auditor General review.
- The contractor may not be in violation of ss. 287.132 through 287.134, F.S., which proscribe the state from contracting with persons convicted of public entity crimes or found to have violated specified discrimination laws.

Further, the law provides that a court may terminate a contract that does not meet the section's requirements, but shall not require disgorgement of monies earned for goods or services actually delivered or supplied.

III. Effect of Proposed Changes:

Section 1 amends s. 154.11, F.S., to revise the powers of a public health trust to allow leasing of office space controlled by the Public Health Trust.

Section 2 amends s. 255.60, F.S., to revise the existing authority that enables governmental entities to enter into no-bid contracts for public service work with charitable youth organizations, expanding it to also include public-private partnerships with other not-for-profit organizations. A

suggested type of public service work envisioned by the existing statute (highway and park maintenance) is removed.

The bill also provides additional requirements for contracts relating to certain types of work performed by the not-for-profit organization. Specifically, for contracts relating to the preservation, maintenance, and improvement of park land, such property must be at least 20 acres with contiguous public facilities that are capable of seating at least 5,000 people in a permanent structure; and, for nondescript work "for public education buildings", that the building must be at least 90,000 square feet. Thus, contracts with youth organizations involving properties not meeting these requirements would no longer be authorized. The bill clarifies that contracts written under this section are limited to no more than $250,000 annually.

Section 3 creates s. 287.05712, F.S., relating to public-private partnerships.

Definitions

Subsection (1) provides the following relevant definitions, amongst others. "Responsible public entity" means a county, municipality, school board, or university, or any other political subdivision of the state; a public body politic and corporate; or a regional entity that serves a public purpose and is authorized to develop or operate a qualifying project.[43] "Qualifying project" means a facility or project that serves a public purpose, including, but not limited to, any ferry or mass transit facility, vehicle parking facility, airport or seaport facility, power-generating facility, rail facility or project, fuel supply facility, oil or gas pipeline, medical or nursing care facility, recreational facility, sporting or cultural facility, or educational facility or other building or facility that is used or will be used by a public educational institution, or any other public facility or infrastructure that is used or will be used by the public at large or in support of an accepted public purpose or activity; an improvement, including equipment, of a building that will be principally used by a public entity or the public at large or that supports a service delivery system in the public sector; or a water, wastewater, or surface water management facility or other related infrastructure.

Legislative Findings and Intent

In subsection (2), the bill specifies that the Legislature finds that there is a public need for timely and cost-effective acquisition, design, construction, improvement, renovation, expansion, equipping, maintenance, operation, implementation, or installation of public projects, that such public need may not be wholly satisfied by existing methods of procurement, and that it has been demonstrated that public-private partnerships can meet these needs by improving the schedule for delivery, lowering the cost, and providing other benefits to the public. The Legislature declares it is the intent of this bill is to encourage investment in the state by private entities, to facilitate various bond financing mechanisms, private capital, and other funding sources for the development and operation of qualifying projects, including expansion and acceleration of such financing to meet the public need, and to provide the greatest possible flexibility to public and private entities to contract for the provision of public services.

[43] This definition does not include state agencies.

Public-Private Partnership Guidelines Task Force

Subsection (3) creates a Partnership for Public Facilities and Infrastructure Act Guidelines Task Force to establish guidelines for public entities on the types of factors public entities should review and consider when processing requests for public-private partnership projects. The task force members are follows:

- One member of the Senate, appointed by the President of the Senate.
- One member of the House of Representatives, appointed by the Speaker of the House of Representatives.
- The Secretary of Management Services or his or her designee.
- Six members appointed by the Governor, as follows:
  - One county government official.
  - One municipal government official.
  - One district school board member.
  - Three representatives of the business community.

The task force must provide guidelines to public entities no later than July 1, 2014, to include:

- Opportunities for competition through public notice and the availability of representatives of the responsible public entity to meet with private entities considering a proposal.
- Reasonable criteria for choosing among competing proposals.
- Suggested timelines for selecting proposals and negotiating an interim or comprehensive agreement.
- Authorization for accelerated selection and review and documentation timelines for proposals involving a qualifying project that the responsible public entity deems a priority.
- Procedures for financial review and analysis.
- Consideration of the nonfinancial benefits of a proposed qualifying project.
- A mechanism for the appropriating body to review a proposed comprehensive agreement before execution.
- Analysis of the adequacy of the information released when seeking competing proposals, and providing for the enhancement of that information, if deemed necessary, to encourage competition, as well as establishing standards to maintain the confidentiality of financial and proprietary terms of an unsolicited proposal, which shall be disclosed only in accordance with the bidding procedures of competing proposals.
- Authority for the responsible public entity to engage the services of qualified professionals.

Procurement Procedures

Subsection (4) provides that a responsible public entity may receive unsolicited proposals or may solicit proposals for qualifying projects and may thereafter enter into an agreement with a private entity, or a consortium of private entities, for the building, upgrade, operation, ownership, or financing of facilities. The responsible public entity may establish a reasonable application fee for the submission of an unsolicited proposal.

The responsible public entity may request a proposal from private entities for a public-private project or, if the public entity receives an unsolicited proposal for a public private project and the public entity intends to enter into a comprehensive agreement for the project described in such

unsolicited proposal, the public entity shall publish notice in the Florida Administrative Register and a newspaper of general circulation at least once a week for two weeks stating that the public entity has received a proposal and will accept other proposals for the same project. The timeframe in which other proposals may be accepted may be determined by the public entity, but must be no less than 21 days, and no more than 120 days.

A public entity that is a school board may enter into a comprehensive agreement under this section of law only with the approval of the local governing body.

Before approval, the responsible public entity must determine that the proposed project:

- Is in the public's best interest.
- Is for a facility that is owned by the responsible public entity or will be conveyed to the responsible public entity.
- Has adequate safeguards in place to ensure that additional costs or service disruptions are not imposed on the public in the event of material default or cancellation of the agreement by the responsible public entity.
- Has adequate safeguards in place to ensure that the responsible public entity or the private entity has the opportunity to add capacity to the proposed project or other facilities serving similar predominantly public purposes.
- Will be owned by the responsible public entity upon completion or termination of the agreement and upon payment of the amounts financed.

Projects Approval Requirements

Subsection (5) provides that an unsolicited proposal from a private entity for approval of a qualifying project must be accompanied by the following material and information, unless waived by the responsible public entity:

- A description of the qualifying project, including the conceptual design of the facilities or a conceptual plan for the provision of services, and a schedule for the initiation and completion of the qualifying project.
- A description of the method by which the private entity proposes to secure any necessary property interests that are required for the qualifying project.
- A description of the private entity's general plans for financing the qualifying project, including the sources of the private entity's funds and identification of any dedicated revenue source or proposed debt or equity investment on behalf of the private entity.
- The name and address of a person who may be contacted for further information concerning the proposal.
- The proposed user fees, lease payments, or other service payments over the term of a comprehensive agreement, and the methodology and circumstances for changes to the user fees, lease payments, and other service payments over time.
- Any additional material or information that the responsible public entity reasonably requests.

Project Qualification and Process

Subsection (6) specifies that the private entity must meet the minimum standards contained in the responsible public entity's guidelines for qualifying professional services and contracts for

traditional procurement projects. The responsible public entity must ensure that provisions are made for the private entity's performance and payment of subcontractors, including, but not limited to, surety bonds, letters of credit, parent company guarantees, and lender and equity partner guarantees. For the components of the qualifying project which involve construction performance and payment, bonds are required and are subject to the recordation, notice, suit limitation, and other requirements of s. 255.05, F.S. Also the responsible public entity must ensure the most efficient pricing of the security package that provides for the performance and payment of subcontractors as well as ensure that provisions are made for the transfer of the private entity's obligations if the comprehensive agreement is terminated or a material default occurs.

Notice to Affected Local Jurisdictions

Subsection (7) provides that the responsible public entity must notify each affected local jurisdiction by furnishing a copy of the proposal to each affected local jurisdiction when considering a proposal for a qualifying project. Each affected local jurisdiction that is not a responsible public entity for the respective qualifying project may, within 60 days after receiving the notice, submit in writing any comments to the responsible public entity and indicate whether the facility is incompatible with the local comprehensive plan, the local infrastructure development plan, the capital improvements budget, or other governmental spending plan. The responsible public entity shall consider the comments of the affected local jurisdiction before entering into a comprehensive agreement with a private entity. If an affected local jurisdiction fails to respond to the responsible public entity within the time provided in this paragraph, the nonresponse is deemed an acknowledgement by the affected local jurisdiction that the qualifying project is compatible with the local comprehensive plan, the local infrastructure development plan, the capital improvements budget, or other governmental spending plan.

Interim Agreement

Subsection (8) specifies that before or in connection with the negotiation of a comprehensive agreement, the public entity may enter into an interim agreement with the private entity proposing the qualifying project. An interim agreement does not obligate the responsible public entity to enter into a comprehensive agreement. The interim agreement is discretionary with the parties and is not required on a qualifying project for which the parties may proceed directly to a comprehensive agreement without the need for an interim agreement. An interim agreement must be limited to provisions that:

- Authorize the private entity to commence activities for which it may be compensated related to the proposed qualifying project, including, but not limited to, project planning and development, design, environmental analysis and mitigation, survey, other activities concerning any part of the proposed qualifying project, and ascertaining the availability of financing for the proposed facility or facilities.
- Establish the process and timing of the negotiation of the comprehensive agreement.
- Contain such other provisions related to an aspect of the development or operation of a qualifying project that the responsible public entity and the private entity deem appropriate.

Comprehensive Agreements

Subsection (9) specifies that before developing or operating the qualifying project, the private entity must enter into a comprehensive agreement with the responsible public entity. The comprehensive agreement must provide for:

- The delivery of performance and payment bonds, letters of credit, or other security acceptable to the responsible public entity in connection with the development or operation of the qualifying project in the form and amount satisfactory to the responsible public entity.
- The review of the plans and specifications for the qualifying project by the responsible public entity and, if the plans and specifications conform to standards acceptable to the responsible public entity, the approval by the responsible public entity.
- The inspection of the qualifying project by the responsible public entity to ensure that the private entity's activities are acceptable to the public entity in accordance with the comprehensive agreement.
- The maintenance of a policy of public liability insurance, a copy of which must be filed with the responsible public entity and accompanied by proofs of coverage, or self insurance.
- The monitoring by the responsible public entity of the maintenance practices to be performed by the private entity to ensure that the qualifying project is properly maintained.
- The periodic filing by the private entity of the appropriate financial statements that pertain to the qualifying project.
- The procedures that govern the rights and responsibilities of the responsible public entity and the private entity in the course of the construction and operation of the qualifying project and in the event of the termination of the comprehensive agreement or a material default by the private entity.
- The fees, lease payments, or service payments. In negotiating user fees, the fees must be the same for persons using the facility under like conditions and must not materially discourage use of the qualifying project.
- The duties of the private entity, including the terms and conditions that the responsible public entity determine serve the public purpose of this Act.

The comprehensive agreement may include other specified provisions.

Fees

Subsection (10) provides that an agreement entered into pursuant to this bill may authorize the private entity to impose fees for the use of the facility. The responsible public entity may develop new facilities or increase capacity in existing facilities through agreements with public-private partnerships. The public-private partnership agreement must ensure that the facility is properly operated, maintained, or improved in accordance with standards set forth in the comprehensive agreement. The responsible public entity may lease existing fee for-use facilities through a public-private partnership agreement. Any revenues must be regulated by the responsible public entity pursuant to the comprehensive agreement. A negotiated portion of revenues from fee-generating uses must be returned to the public entity over the life of the agreement.

Financing

Subsection (11) provides that a private entity may enter into a private-source financing agreement between financing sources and the private entity. A financing agreement and any liens on the property or facility must be paid in full at the applicable closing that transfers ownership or operation of the facility to the responsible public entity at the conclusion of the term of the comprehensive agreement. The responsible public entity may lend funds to private entities that construct projects containing facilities that are approved under this Act. The responsible public entity may use innovative finance techniques associated with a public-private partnership under this Act, including, but not limited to, federal loans as provided in Titles 23 and 49 C.F.R., commercial bank loans, and hedges against inflation from commercial banks or other private sources. A responsible public entity shall appropriate on a priority basis as required by the comprehensive agreement a contractual payment obligation, annual or otherwise, and the required payment obligation must be appropriated before other noncontractual obligations of the responsible public entity.

Powers and Duties of the Private Entity

Subsection (12) specifies that the private entity shall develop or operate the qualifying project in a manner that is acceptable to the responsible public entity in accordance with the provisions of the comprehensive agreement. The private entity shall maintain, or provide by contract for the maintenance or improvement of, the qualifying project if required by the comprehensive agreement. Also, the private entity shall cooperate with the responsible public entity in making best efforts to establish interconnection between the qualifying project and any other facility or infrastructure as requested by the responsible public entity. The private entity shall also comply with the comprehensive agreement and any lease or service contract.

Expiration or Termination of Agreements

Subsection (13) provides that upon the expiration or termination of a comprehensive agreement, the responsible public entity may use revenues from the qualifying project to pay current operation and maintenance costs of the qualifying project. If the private entity materially defaults under the comprehensive agreement, the compensation that is otherwise due to the private entity is payable to satisfy all financial obligations to investors and lenders on the qualifying project in the same way that is provided in the comprehensive agreement or any other agreement involving the qualifying project, if the costs of operating and maintaining the qualifying project are paid in the normal course. The full faith and credit of the responsible public entity may not be pledged to secure the financing of the private entity.

Sovereign Immunity

Subsection (14) provides that this bill does not waive the sovereign immunity of the state, any responsible public entity, any affected local jurisdiction, or any officer or employee thereof with respect to participation in, or approval of, any part of a qualifying project or its operation, including, but not limited to, interconnection of the qualifying project with any other infrastructure or project. A county or municipality in which a qualifying project is located

possesses sovereign immunity with respect to the project, including, but not limited to, its design, construction, and operation.

Construction

Subsection (15) provides that the bill is to be liberally construed to effectuate its purposes. The Act does not waive any requirement of s. 287.055, F.S.

Section 4 creates s. 336.71, F.S., on the creation of public-private transportation facilities in a county. The provisions in this section appear to mirror provisions in s. 334.30, F.S.

A county may receive or solicit proposals and enter into agreements with private entities or consortia thereof to build, operate, own, or finance highways, bridges, multimodal transportation systems, transit-oriented development nodes, transit stations, and related transportation facilities located solely within the county, including municipalities therein. Before approval, the county must determine that a proposed project:

- Is in the best interest of the public.
- Would not require county funds to be used unless the project is on the county road system or would provide increased mobility on the county road system.
- Would have adequate safeguards.
- Would be owned by the county upon completion or termination of the agreement.

The county shall ensure that all reasonable costs to the county related to transportation facilities that are not part of the county road system are borne by the private entity that develops or operates the facilities.

The county may request proposals and receive unsolicited proposals for public-private transportation facilities. Agreements entered into pursuant to this section may authorize the county or the private project owner, lessee, or operator to impose, collect, and enforce tolls or fares for the use of the transportation facility. Each public-private transportation facility constructed pursuant to this section must comply with all requirements of federal, state, and local laws. The governing body of the county may exercise any of its powers, including eminent domain, to facilitate the development and construction of transportation projects pursuant to this section. Except as otherwise provided in this section, this section is not intended to amend existing law by granting additional powers to or imposing further restrictions on local governmental entities with regard to regulating and entering into cooperative arrangements with the private sector for the planning, construction, and operation of transportation facilities. This section does not authorize a county or counties to enter into agreements with private entities or consortia thereof to build, operate, own, or finance a transportation facility that would extend beyond the geographical boundaries of a single county.

Public-private partnership agreements under this section shall be limited to a term not exceeding 75 years.

Section 5 provides an effective date of July 1, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

An agreement entered into pursuant to this bill may authorize the private entity to impose fees for the use of the facility. A negotiated portion of revenues from fee-generating uses must be returned to the public entity over the life of the agreement.

B. Private Sector Impact:

The bill may provide for more opportunities for the private sector to enter into contracts for certain qualified projects with political subdivisions of the state.

C. Government Sector Impact:

The bill has an indeterminate fiscal impact on political subdivisions of the state that enter into public-private partnerships. Expenditures would be based on currently unidentified agreements with public-private partnerships. This bill may provide for more projects at a lower risk to political subdivisions of the state.

VI. Technical Deficiencies:

None.

VII. Related Issues:

The bill provides, "administrative and technical support shall be provided by the department." The bill does not specify which department to which it is referring.

The provisions of the bill address partnerships between local governments and private contractors, so the Legislature may wish to consider whether someone from the Department of Economic Opportunity should be on the task force, instead of the Secretary of the Department of Management Services.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS/CS by Appropriations Committee on April 23, 2013:
The CS/CS/CS makes the following changes:

- Revising the powers of a public health trust to allow leasing of office space controlled by the Public Health Trust;
- Authorizes certain public entities to contract for public service works with a not-for-profit organization despite competitive sealed bid requirements;
- Revises eligibility and contract requirements for not-for-profit organizations contracting with certain public entities; and
- Provides that when a responsible public entity receives an unsolicited proposal for a public-private project, the public entity must publish notice of the proposal *only* if it intends to enter into a comprehensive agreement for the project described in the unsolicited proposal.

CS/CS by Governmental Oversight and Accountability on March 14, 2013:
The CS/CS makes the following changes to the CS:

- Creates a Partnership for Public Facilities and Infrastructure Act Guidelines Task Force;
- Extends the timeframe in which proposals may be accepted;
- Authorizes the use of interim agreements, which allow for specified terms to be agreed to prior to entering into a comprehensive agreement;
- Authorizes the creation of public-private partnerships for transportation facilities within a county; and
- Makes technical and clarifying changes.

CS by Community Affairs on January 23, 2013:
The CS makes technical and clarifying changes.

B. Amendments:

None.

	.	

The Committee on Appropriations (Gardiner) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Paragraph (f) of subsection (1) of section 154.11, Florida Statutes, is amended to read:

154.11 Powers of board of trustees.—

(1) The board of trustees of each public health trust shall be deemed to exercise a public and essential governmental function of both the state and the county and in furtherance thereof it shall, subject to limitation by the governing body of the county in which such board is located, have all of the

456632

powers necessary or convenient to carry out the operation and governance of designated health care facilities, including, but without limiting the generality of, the foregoing:

(f) To lease, either as lessee or lessor, or rent for any number of years and upon any terms and conditions real property, except that the board shall not lease or rent, as lessor, any real property other than office space controlled by the Public Health Trust, except in accordance with the requirements of s. 125.35 [F. S. 1973].

Section 2. Section 255.60, Florida Statutes, is amended to read:

255.60 Special contracts with charitable not-for-profit ~~youth~~ organizations.—The state, ~~or~~ the governing body of any political subdivision of the state, or a public-private partnership is authorized, but not required, to contract for public service work with a not-for-profit organization ~~such as highway and park maintenance,~~ notwithstanding competitive sealed bid procedures required under this chapter, ~~or~~ chapter 287, or any municipal or county charter, upon compliance with this section.

(1) The contractor or supplier must meet the following conditions:

(a) The contractor or supplier must be a not-for-profit corporation incorporated under chapter 617 and in good standing.

(b) The contractor or supplier must hold exempt status under s. 501(a) of the Internal Revenue Code, as an organization described in s. 501(c)(3) of the Internal Revenue Code.

(c) For youth organizations, the corporate charter of the contractor or supplier must state that the corporation is

456632

organized as a charitable youth organization exclusively for at-risk youths enrolled in a work-study program.

(d) Administrative salaries and benefits for any such corporation shall not exceed 15 percent of gross revenues. Field supervisors shall not be considered administrative overhead.

(2) The contract, if approved by authorized agency personnel of the state, ~~or~~ the governing body of a political subdivision, or the public-private partnership, as appropriate, must provide at a minimum that:

(a) For youth organizations, labor shall be performed exclusively by at-risk youth and their direct supervisors; and shall not be subject to subcontracting.

(b) For the preservation, maintenance, and improvement of park land, the property must be at least 20 acres with contiguous permanent public facilities that are capable of seating at least 5,000 persons.

(c) For public education buildings, the building must be at least 90,000 square feet.

(d) ~~(b)~~ Payment must be production-based.

(e) ~~(c)~~ The contract will terminate should the contractor or supplier no longer qualify under subsection (1).

(f) ~~(d)~~ The supplier or contractor has instituted a drug-free workplace program substantially in compliance with the provisions of s. 287.087.

(g) ~~(e)~~ The contractor or supplier agrees to be subject to review and audit at the discretion of the Auditor General in order to ensure that the contractor or supplier has complied with this section.

(3) A ~~No~~ contract under this section may not exceed the

456632

annual sum of $250,000.

(4) Should a court find that a contract purporting to have been entered into pursuant to this section does not so qualify, the court may order that the contract be terminated on reasonable notice to the parties. The court shall not require disgorgement of any moneys earned for goods or services actually delivered or supplied.

(5) Nothing in this section shall excuse any person from compliance with ss. 287.132-287.134.

Section 3. Section 287.05712, Florida Statutes, is created to read:

287.05712 Public-private partnerships.—

(1) DEFINITIONS.—As used in this section, the term:

(a) "Affected local jurisdiction" means a county, municipality, or special district in which all or a portion of a qualifying project is located.

(b) "Develop" means to plan, design, finance, lease, acquire, install, construct, or expand.

(c) "Fees" means charges imposed by the private entity of a qualifying project for use of all or a portion of such qualifying project pursuant to a comprehensive agreement.

(d) "Lease payment" means any form of payment, including a land lease, by a public entity to the private entity of a qualifying project for the use of the project.

(e) "Material default" means nonperformance of duties by the private entity of a qualifying project which jeopardizes adequate service to the public from the project.

(f) "Operate" means to finance, maintain, improve, equip, modify, or repair.

456632

(g) "Private entity" means any natural person, corporation, general partnership, limited liability company, limited partnership, joint venture, business trust, public benefit corporation, nonprofit entity, or other private business entity.

(h) "Proposal" means a plan for a qualifying project with detail beyond a conceptual level for which terms such as fixing costs, payment schedules, financing, deliverables, and the project schedule are defined.

(i) "Qualifying project" means:

1. A facility or project that serves a public purpose, including, but not limited to, any ferry or mass transit facility, vehicle parking facility, airport or seaport facility, rail facility or project, fuel supply facility, oil or gas pipeline, medical or nursing care facility, recreational facility, sporting or cultural facility, or educational facility or other building or facility that is used or will be used by a public educational institution, or any other public facility or infrastructure that is used or will be used by the public at large or in support of an accepted public purpose or activity;

2. An improvement, including equipment, of a building that will be principally used by a public entity, the public at large, or that supports a service delivery system in the public sector;

3. A water, wastewater, or surface water management facility or other related infrastructure; or

4. Notwithstanding any provision of this section, for projects that involve a facility owned or operated by the governing board of a county, district, or municipal hospital or health care system, only those projects that the governing board

designates as qualifying projects pursuant to this section.

(j) "Responsible public entity" means a county, municipality, school board, or any other political subdivision of the state; a public body corporate and politic; or a regional entity that serves a public purpose and is authorized to develop or operate a qualifying project.

(k) "Revenues" means the income, earnings, user fees, lease payments, or other service payments relating to the development or operation of a qualifying project, including, but not limited to, money received as grants or otherwise from the Federal Government, a public entity, or an agency or instrumentality thereof in aid of the qualifying project.

(l) "Service contract" means a contract between a public entity and the private entity which defines the terms of the services to be provided with respect to a qualifying project.

(2) LEGISLATIVE FINDINGS AND INTENT.—The Legislature finds that there is a public need for the construction or upgrade of facilities that are used predominantly for public purposes and that it is in the public's interest to provide for the construction or upgrade of such facilities.

(a) The Legislature also finds that:

1. There is a public need for timely and cost-effective acquisition, design, construction, improvement, renovation, expansion, equipping, maintenance, operation, implementation, or installation of projects serving a public purpose, including educational facilities, transportation facilities, water or wastewater management facilities and infrastructure, technology infrastructure, roads, highways, bridges, and other public infrastructure and government facilities within the state which

serve a public need and purpose, and that such public need may not be wholly satisfied by existing procurement methods.

2. There are inadequate resources to develop new educational facilities, transportation facilities, water or wastewater management facilities and infrastructure, technology infrastructure, roads, highways, bridges, and other public infrastructure and government facilities for the benefit of residents of this state, and that a public-private partnership has demonstrated that it can meet the needs by improving the schedule for delivery, lowering the cost, and providing other benefits to the public.

3. There may be state and federal tax incentives that promote partnerships between public and private entities to develop and operate qualifying projects.

4. A procurement under this section serves the public purpose of this section if such procurement facilitates the timely development or operation of a qualifying project.

(b) It is the intent of the Legislature to encourage investment in the state by private entities; to facilitate various bond financing mechanisms, private capital, and other funding sources for the development and operation of qualifying projects, including expansion and acceleration of such financing to meet the public need; and to provide the greatest possible flexibility to public and private entities contracting for the provision of public services.

(3) PUBLIC-PRIVATE PARTNERSHIP GUIDELINES TASK FORCE.—

(a) There is created the Partnership for Public Facilities and Infrastructure Act Guidelines Task Force for the purpose of recommending guidelines for the Legislature to consider for

purposes of creating a uniform process for establishing public-private partnerships, including the types of factors responsible public entities should review and consider when processing requests for public-private partnership projects pursuant to this section.

(b) The task force shall be composed of seven members as follows:

1. The secretary of the Department of Management Services or his or her designee, who shall serve as chair of the task force.

2. Six members appointed by the Governor, as follows:

a. One county government official.

b. One municipal government official.

c. One district school board member.

d. Three representatives of the business community.

(c) Task force members must be appointed by July 31, 2013. By August 31, 2013, the task force shall meet to establish procedures for the conduct of its business and to elect a vice chair. The task force shall meet at the call of the chair. A majority of the members of the task force constitutes a quorum, and a quorum is necessary for the purpose of voting on any action or recommendation of the task force. All meetings shall be held in Tallahassee unless otherwise decided by the task force. No more than two meetings may be held in a location other than Tallahassee for the purpose of taking public testimony. Administrative and technical support shall be provided by the department. Task force members shall serve without compensation and are not entitled to reimbursement for per diem or travel expenses.

(d) In reviewing public-private partnerships and developing recommendations, the task force must consider:

1. Opportunities for competition through public notice and the availability of representatives of the responsible public entity to meet with private entities considering a proposal.

2. Reasonable criteria for choosing among competing proposals.

3. Suggested timelines for selecting proposals and negotiating an interim or comprehensive agreement.

4. Whether an accelerated selection, review, and documentation timeline should be considered for proposals involving a qualifying project that the responsible public entity deems a priority.

5. Procedures for financial review and analysis which, at a minimum, include a cost-benefit analysis, an assessment of opportunity cost, and consideration of the results of all studies and analyses related to the proposed qualifying project.

6. The adequacy of the information released when seeking competing proposals and providing for the enhancement of that information, if necessary, to encourage competition.

7. Current exemptions from public records and public meetings requirements, and if any changes to those exemptions are necessary or if any new exemptions should be created in order to maintain the confidentiality of financial and proprietary information received as part of an unsolicited proposal.

8. Recommendations regarding the authority of the responsible public entity to engage the services of qualified professionals, which may include a Florida-registered

456632

professional or a certified public accountant, not otherwise employed by the responsible public entity, to provide an independent analysis regarding the specifics, advantages, disadvantages, and long-term and short-term costs of a request by a private entity for approval of a qualifying project, unless the governing body of the public entity determines that such analysis should be performed by employees of the public entity.

(e) The task force must submit a final report of its recommendations to the Governor, the President of the Senate, and the Speaker of the House of Representatives by July 1, 2014.

(f) The task force is terminated December 31, 2014. The establishment of guidelines pursuant to this section by the task force or the adoption of such guidelines by a public entity is not required for the public entity to request or receive proposals for a qualifying project or to enter into a comprehensive agreement for a qualifying project. A public entity may adopt guidelines before or after the establishment of guidelines by the task force, which may remain in effect if such guidelines are not inconsistent with the guidelines established by the task force. A guideline that is inconsistent with the guidelines of the task force must be amended as necessary to maintain consistency with the task force guidelines.

(4) PROCUREMENT PROCEDURES.—A responsible public entity may receive unsolicited proposals or may solicit proposals for qualifying projects and may thereafter enter into an agreement with a private entity, or a consortium of private entities, for the building, upgrading, operating, ownership, or financing of facilities.

(a) The responsible public entity may establish a

456632

reasonable application fee for the submission of an unsolicited proposal under this section. The fee must be sufficient to pay the costs of evaluating the proposal. The responsible public entity may engage the services of a private consultant to assist in the evaluation of the proposal.

(b) The responsible public entity may request a proposal from private entities for a public-private project; or, if the public entity receives an unsolicited proposal for a public-private project and the public entity intends to enter into a comprehensive agreement for the project described in such unsolicited proposal, the public entity shall publish notice in the Florida Administrative Register and a newspaper of general circulation at least once a week for 2 weeks stating that the public entity has received a proposal and will accept other proposals for the same project. The timeframe within which the public entity may accept other proposals shall be determined by the public entity on a project-by-project basis based upon the complexity of the project and the public benefit to be gained by allowing a longer or shorter period of time within which other proposals may be received; however, the timeframe for allowing other proposals must be at least 21 days, but no more than 120 days, after publication of the notice. A copy of the notice must be mailed to each local government in the affected area.

(c) A responsible public entity that is a school board may enter into a comprehensive agreement only with the approval of the local governing body.

(d) Before approval, the responsible public entity must determine that the proposed project:

1. Is in the public's best interest.

456632

2. Is for a facility that is owned by the responsible public entity or for a facility for which ownership will be conveyed to the responsible public entity.

3. Has adequate safeguards in place to ensure that additional costs or service disruptions are not imposed on the public in the event of material default or cancellation of the agreement by the responsible public entity.

4. Has adequate safeguards in place to ensure that the responsible public entity or private entity has the opportunity to add capacity to the proposed project or to add capacity to other facilities serving similar predominantly public purposes.

5. Will be owned by the responsible public entity upon completion or termination of the agreement and upon payment of the amounts financed.

(e) Before signing a comprehensive agreement, the responsible public entity must consider a reasonable finance plan that is consistent with subsection (11), the project cost, revenues by source, available financing, major assumptions, internal rate of return on private investments if governmental funds are assumed in order to deliver a cost-feasible project, and the total cash-flow analysis beginning with the implementation of the project and extending for the term of the agreement.

(f) In considering an unsolicited proposal, the responsible public entity may require from the private entity a technical study prepared by a nationally recognized expert with experience preparing analysis for bond rating agencies. In evaluating the technical study, the responsible public entity may rely upon internal staff reports prepared by personnel familiar with the

operation of similar facilities or the advice of external advisors or consultants who have relevant experience.

(5) PROJECT APPROVAL REQUIREMENTS.—An unsolicited proposal from a private entity for approval of a qualifying project must be accompanied by the following material and information unless waived by the responsible public entity:

(a) A description of the qualifying project, including the conceptual design of the facilities or a conceptual plan for the provision of services, and a schedule for the initiation and completion of the qualifying project.

(b) A description of the method by which the private entity proposes to secure the necessary property interests that are required for the qualifying project.

(c) A description of the private entity's general plans for financing the qualifying project, including the sources of the private entity's funds and the identity of any dedicated revenue source or proposed debt or equity investment on behalf of the private entity.

(d) The name and address of a person who may be contacted for additional information concerning the proposal.

(e) The proposed user fees, lease payments, or other service payments over the term of a comprehensive agreement, and the methodology and circumstances that would allow changes to such user fees, lease payments, and service payments in the future.

(f) Reasonable additional material or information requested by the responsible public entity.

(6) PROJECT QUALIFICATION AND PROCESS.—

(a) The private entity must meet the minimum standards

contained in the responsible public entity's guidelines for qualifying professional services and contracts for traditional procurement projects.

(b) The responsible public entity must ensure:

1. That provision is made for the private entity's performance and payment of subcontractors, including, but not limited to, surety bonds, letters of credit, parent company guarantees, and lender and equity partner guarantees. For the components of the qualifying project which involve construction performance and payment, bonds are required and are subject to the recordation, notice, suit limitation, and other requirements of s. 255.05.

2. The most efficient pricing of the security package that provides for the performance and payment of subcontractors.

3. That provision is made for the transfer of the private entity's obligations if the comprehensive agreement is terminated or a material default occurs.

(c) After the public notification period has expired in the case of an unsolicited proposal, the responsible public entity shall rank the proposals received in order of preference. In ranking the proposals, the responsible public entity may consider factors that include, but are not limited to, professional qualifications, general business terms, innovative design techniques or cost-reduction terms, and finance plans. The responsible public entity may then begin negotiations for a comprehensive agreement with the highest-ranked proposer. If the responsible public entity is not satisfied with the results of the negotiations, the responsible public entity may terminate negotiations with the highest-ranked proposer and negotiate with

456632

the second- or subsequent-ranked proposers in the order consistent with this procedure. If only one proposal is received, the responsible public entity may negotiate in good faith, and if the public entity is not satisfied with the results of the negotiations, the public entity may terminate negotiations with the proposer. Notwithstanding this paragraph, the responsible public entity may reject all proposals at any point in the process until a contract with the proposer is executed.

(d) The responsible public entity shall perform an independent analysis of the proposed public-private partnership which demonstrates the cost-effectiveness and overall public benefit before the procurement process is initiated or before the contract is awarded.

(e) The responsible public entity may approve the development or operation of an educational facility, a transportation facility, a water or wastewater management facility or related infrastructure, a technology infrastructure or other public infrastructure, or a government facility needed by the responsible public entity as a qualifying project, or the design or equipping of a qualifying project that is developed or operated, if:

1. There is a public need for or benefit derived from a project of the type that the private entity proposes as the qualifying project.

2. The estimated cost of the qualifying project is reasonable in relation to similar facilities.

3. The private entity’s plans will result in the timely acquisition, design, construction, improvement, renovation,

456632

expansion, equipping, maintenance, or operation of the qualifying project.

(f) The responsible public entity may charge a reasonable fee to cover the costs of processing, reviewing, and evaluating the request, including, but not limited to, reasonable attorney fees and fees for financial and technical advisors or consultants and for other necessary advisors or consultants.

(g) Upon approval of a qualifying project, the responsible public entity shall establish a date for the commencement of activities related to the qualifying project. The responsible public entity may extend the commencement date.

(h) Approval of a qualifying project by the responsible public entity is subject to entering into a comprehensive agreement with the private entity.

(7) NOTICE TO AFFECTED LOCAL JURISDICTIONS.—

(a) The responsible public entity must notify each affected local jurisdiction by furnishing a copy of the proposal to each affected local jurisdiction when considering a proposal for a qualifying project.

(b) Each affected local jurisdiction that is not a responsible public entity for the respective qualifying project may, within 60 days after receiving the notice, submit written comments to the responsible public entity to indicate whether the facility is incompatible with the local comprehensive plan, the local infrastructure development plan, the capital improvements budget, any development of regional impact processes or timelines, or other governmental spending plan. The responsible public entity shall consider the comments of the affected local jurisdiction before entering into a comprehensive

agreement with a private entity. If an affected local jurisdiction fails to respond to the responsible public entity within the time provided in this paragraph, such nonresponse is deemed an acknowledgement by the affected local jurisdiction that the qualifying project is compatible with the local comprehensive plan, the local infrastructure development plan, the capital improvements budget, or other governmental spending plan.

(8) INTERIM AGREEMENT.—Before or in connection with the negotiation of a comprehensive agreement, the public entity may enter into an interim agreement with the private entity proposing the development or operation of the qualifying project. An interim agreement does not obligate the responsible public entity to enter into a comprehensive agreement. The interim agreement is discretionary with the parties and is not required on a qualifying project for which the parties may proceed directly to a comprehensive agreement without the need for an interim agreement. An interim agreement must be limited to provisions that:

(a) Authorize the private entity to commence activities for which it may be compensated related to the proposed qualifying project, including, but not limited to, project planning and development, design, environmental analysis and mitigation, survey, other activities concerning any part of the proposed qualifying project, and ascertaining the availability of financing for the proposed facility or facilities.

(b) Establish the process and timing of the negotiation of the comprehensive agreement.

(c) Relate to an aspect of the development or operation of

a qualifying project that the responsible public entity and the private entity deem appropriate.

(9) COMPREHENSIVE AGREEMENT.—

(a) Before developing or operating the qualifying project, the private entity must enter into a comprehensive agreement with the responsible public entity. The comprehensive agreement must provide for:

1. The delivery of performance and payment bonds, letters of credit, or other security acceptable to the responsible public entity in connection with the development or operation of the qualifying project in a form and amount satisfactory to the responsible public entity. For the components of the qualifying project which involve construction, the form and amount of the bonds must comply with s. 255.05.

2. The review of the design for the qualifying project by the responsible public entity and, if the design conforms to standards acceptable to the responsible public entity, the approval of the responsible public entity. This subparagraph does not require the private entity to complete the design of the qualifying project before the execution of the comprehensive agreement.

3. The inspection of the qualifying project by the responsible public entity to ensure that the private entity's activities are acceptable to the public entity in accordance with the comprehensive agreement.

4. The maintenance by the private entity of a policy of public liability insurance, a copy of which must be filed with the responsible public entity and accompanied by proofs of coverage, or self-insurance, each in a form and amount

satisfactory to the responsible public entity and reasonably sufficient to ensure coverage of tort liability to the public and employees and to enable the continued operation of the qualifying project.

5. The monitoring by the responsible public entity of the maintenance practices to be performed by the private entity to ensure that the qualifying project is properly maintained.

6. The periodic filing by the private entity of the appropriate financial statements that pertain to the qualifying project.

7. The procedures that govern the rights and responsibilities of the responsible public entity and the private entity in the course of the construction and operation of the qualifying project and in the event of the termination of the comprehensive agreement or a material default by the private entity. The procedures must include conditions that govern the assumption of the duties and responsibilities of the private entity by an entity that funded, in whole or part, the qualifying project or by the responsible public entity, and must provide for the transfer or purchase of property or other interests of the private entity by the responsible public entity.

8. In negotiating user fees, the fees must be the same for persons using the facility under like conditions and must not materially discourage use of the qualifying project. The execution of the comprehensive agreement or a subsequent amendment is conclusive evidence that the fees, lease payments, or service payments provided for in the comprehensive agreement comply with this section. Fees or lease payments established in

456632

the comprehensive agreement as a source of revenue may be in addition to, or in lieu of, service payments.

9. The duties of the private entity, including the terms and conditions that the responsible public entity determines serve the public purpose of this section.

(b) The comprehensive agreement may include:

1. An agreement by the responsible public entity to make grants or loans to the private entity from amounts received from the federal, state, or local government or an agency or instrumentality thereof.

2. A provision under which each entity agrees to provide notice of default and cure rights for the benefit of the other entity, including, but not limited to, a provision regarding unavoidable delays.

3. A provision that terminates the authority and duties of the private entity under this section and dedicates the qualifying project to the responsible public entity or, if the qualifying project was initially dedicated by an affected local jurisdiction, to the affected local jurisdiction for public use.

(10) FEES.—An agreement entered into pursuant to this section may authorize the private entity to impose fees to members of the public for the use of the facility. The following provisions apply to the agreement:

(a) The responsible public entity may develop new facilities or increase capacity in existing facilities through agreements with public-private partnerships.

(b) The public-private partnership agreement must ensure that the facility is properly operated, maintained, or improved in accordance with standards set forth in the comprehensive

agreement.

(c) The responsible public entity may lease existing fee-for-use facilities through a public-private partnership agreement.

(d) Any revenues must be regulated by the responsible public entity pursuant to the comprehensive agreement.

(e) A negotiated portion of revenues from fee-generating uses must be returned to the public entity over the life of the agreement.

(11) FINANCING.—

(a) A private entity may enter into a private-source financing agreement between financing sources and the private entity. A financing agreement and any liens on the property or facility must be paid in full at the applicable closing that transfers ownership or operation of the facility to the responsible public entity at the conclusion of the term of the comprehensive agreement.

(b) The responsible public entity may lend funds to private entities that construct projects containing facilities that are approved under this section.

(c) The responsible public entity may use innovative finance techniques associated with a public-private partnership under this section, including, but not limited to, federal loans as provided in Titles 23 and 49 of the Code of Federal Regulations, commercial bank loans, and hedges against inflation from commercial banks or other private sources. In addition, the responsible public entity may provide its own capital or operating budget to support a qualifying project. The budget may be from any legally permissible funding sources of the

456632

responsible public entity, including the proceeds of debt issuances. A responsible public entity may use the model financing agreement provided for in s. 489.145(6) for its financing of a facility owned by a responsible public entity. A financing agreement may not require the responsible public entity to indemnify the financing source, subject the responsible public entity's facility to liens in violation of s. 11.066(5), or secure financing by the responsible public entity with a pledge of security interest, and any such provision is void.

(d) A responsible public entity shall appropriate on a priority basis as required by the comprehensive agreement a contractual payment obligation, annual or otherwise, from the enterprise or other government fund from which the qualifying projects will be funded. This required payment obligation must be appropriated before other noncontractual obligations payable from the same enterprise or other government fund.

(12) POWERS AND DUTIES OF THE PRIVATE ENTITY.—

(a) The private entity shall:

1. Develop or operate the qualifying project in a manner that is acceptable to the responsible public entity in accordance with the provisions of the comprehensive agreement.

2. Maintain, or provide by contract for the maintenance or improvement of, the qualifying project if required by the comprehensive agreement.

3. Cooperate with the responsible public entity in making best efforts to establish interconnection between the qualifying project and any other facility or infrastructure as requested by the responsible public entity in accordance with the provisions

456632

of the comprehensive agreement.

4. Comply with the comprehensive agreement and any lease or service contract.

(b) Each private facility that is constructed pursuant to this section must comply with the requirements of federal, state, and local laws; state, regional, and local comprehensive plans; the responsible public entity's rules, procedures, and standards for facilities; and such other conditions that the responsible public entity determines to be in the public's best interest and that are included in the comprehensive agreement.

(c) The responsible public entity may provide services to the private entity. An agreement for maintenance and other services entered into pursuant to this section must provide for full reimbursement for services rendered for qualifying projects.

(d) A private entity of a qualifying project may provide additional services for the qualifying project to the public or to other private entities if the provision of additional services does not impair the private entity's ability to meet its commitments to the responsible public entity pursuant to the comprehensive agreement.

(13) EXPIRATION OR TERMINATION OF AGREEMENTS.—Upon the expiration or termination of a comprehensive agreement, the responsible public entity may use revenues from the qualifying project to pay current operation and maintenance costs of the qualifying project. If the private entity materially defaults under the comprehensive agreement, the compensation that is otherwise due to the private entity is payable to satisfy all financial obligations to investors and lenders on the qualifying

456632

project in the same way that is provided in the comprehensive agreement or any other agreement involving the qualifying project, if the costs of operating and maintaining the qualifying project are paid in the normal course. Revenues in excess of the costs for operation and maintenance costs may be paid to the investors and lenders to satisfy payment obligations under their respective agreements. A responsible public entity may terminate with cause and without prejudice a comprehensive agreement and may exercise any other rights or remedies that may be available to it in accordance with the provisions of the comprehensive agreement. The full faith and credit of the responsible public entity may not be pledged to secure the financing of the private entity. The assumption of the development or operation of the qualifying project does not obligate the responsible public entity to pay any obligation of the private entity from sources other than revenues from the qualifying project unless stated otherwise in the comprehensive agreement.

(14) SOVEREIGN IMMUNITY.—This section does not waive the sovereign immunity of a responsible public entity, an affected local jurisdiction, or an officer or employee thereof with respect to participation in, or approval of, any part of a qualifying project or its operation, including, but not limited to, interconnection of the qualifying project with any other infrastructure or project. A county or municipality in which a qualifying project is located possesses sovereign immunity with respect to the project, including, but not limited to, its design, construction, and operation.

(15) CONSTRUCTION.—This section shall be liberally

construed to effectuate the purposes of this section. This section shall be construed as cumulative and supplemental to any other authority or power vested in or exercised by the governing board of a county, district, or municipal hospital or health care system including those contained in acts of the Legislature establishing such public hospital boards or s. 155.40. This section does not affect any agreement or existing relationship with a supporting organization involving such governing board or system in effect as of January 1, 2013.

(a) This section does not limit a political subdivision of the state in the acquisition, design, or construction of a public project pursuant to other statutory authority.

(b) Except as otherwise provided in this section, this section does not amend existing laws by granting additional powers to, or further restricting, a local governmental entity from regulating and entering into cooperative arrangements with the private sector for the planning, construction, or operation of a facility.

(c) This section does not waive any requirement of s. 287.055.

Section 4. Section 336.71, Florida Statutes, is created to read:

336.71 Public-private cooperation in construction of county roads.-

(1) If a county receives a proposal, solicited or unsolicited, from a private entity seeking to construct, extend, or improve a county road or portion thereof, the county may enter into an agreement with the private entity for completion of the road construction project, which agreement may provide

456632

for payment to the private entity, from public funds, if the county conducts a noticed public hearing and finds that the proposed county road construction project:

(a) Is in the best interest of the public.

(b) Uses county funds only for portions of the project that will be part of the county road system.

(c) Has adequate safeguards to ensure that additional costs or unreasonable service disruptions are not realized by the public.

(d) Will, upon completion, be a part of the county road system owned by the county.

(e) Results in a financial benefit to the public by completing the project at a cost to the public significantly lower than if the project were completed by the county using the normal procurement process.

(2) The notice for the public hearing provided for in subsection (1) must be published at least 14 days before the date of the public meeting at which the governing board takes final action. The notice must identify the project, the estimated cost of the project, and specify that the purpose for the public meeting is to consider whether it is in the public's best interest to accept the proposal and enter into an agreement pursuant thereto. The determination of cost savings pursuant to paragraph (1)(e) must be supported by a professional engineer's cost estimate made available to the public at least 14 days before the public meeting and placed in the record for that meeting.

(3) Upon compliance with subsection (1), the project and agreement are exempt from s. 255.20 pursuant to s.

456632

255.20(1)(c)11.

(4) Except as otherwise expressly provided in this section, this section does not affect existing law by granting additional powers to or imposing further restrictions on local government entities.

Section 5. This act shall take effect July 1, 2013.

The Committee on Appropriations (Latvala) recommended the following:

Senate Amendment to Amendment (456632) (with title amendment)

Between lines 742 and 743
insert:

Section 5. Paragraph (c) of subsection (1), paragraph (a) of subsection (2), paragraph (a) of subsection (3), and paragraph (a) of subsection (7) of section 1010.62, Florida Statutes, are amended to read:

1010.62 Revenue bonds and debt.—

(1) As used in this section, the term:

(c) "Debt" means bonds, except revenue bonds as defined in

paragraph (e), loans, promissory notes, lease-purchase agreements, certificates of participation, installment sales, leases, public-private partnership agreements, or any other financing mechanism or financial arrangement, whether or not a debt for legal purposes, for financing or refinancing for or on behalf of a state university or a direct-support organization or for the acquisition, construction, improvement, or purchase of capital outlay projects.

(2)(a) The Board of Governors may request the issuance of revenue bonds pursuant to the State Bond Act and s. 11(d), Art. VII of the State Constitution to finance or refinance capital outlay projects permitted by law. Revenue bonds may be secured by or payable only from those revenues authorized for such purpose, including the Capital Improvement Trust Fund fee, ~~the building fee,~~ the health fee, the transportation access fee, hospital revenues, or those revenues derived from or received in relation to sales and services of auxiliary enterprises or component units of the university, including, but not limited to, housing, transportation, health care, research or research-related activities, food service, retail sales, athletic activities, or other similar services, other revenues attributable to the projects to be financed or refinanced, any other revenue approved by the Legislature for facilities construction or for securing revenue bonds issued pursuant to s. 11(d), Art. VII of the State Constitution, or any other revenues permitted by law. Revenues from the activity and service fee and the athletic fee may be used to pay and secure revenue bonds except that the annual debt service may ~~shall~~ not exceed an amount equal to 5 percent of the fees collected during the most

257648

recent 12 consecutive months for which collection information is available before ~~prior to~~ the sale of the bonds. The assets of a university foundation and the earnings thereon may also be used to pay and secure revenue bonds of the university or its direct-support organizations. Revenues from royalties and licensing fees may also be used to pay and secure revenue bonds so long as either the facilities being financed are functionally related to the university operation or direct-support organization reporting such royalties and licensing fees, or such revenues are used to secure revenue bonds issued to finance academic, educational, or research facilities that are part of a multipurpose capital outlay project. Revenue bonds may not be secured by or be payable from, directly or indirectly, tuition, the financial aid fee, ~~sales and services of educational departments,~~ revenues from grants and contracts, except for money received for overhead and indirect costs and other moneys not required for the payment of direct costs, or any other operating revenues of a state university. Revenues from one auxiliary enterprise may ~~not~~ be used to secure revenue bonds of another only if ~~unless~~ the Board of Governors, after review and analysis, determines that either the facilities being financed are functionally related to the auxiliary enterprise revenues being used to secure such revenue bonds or such revenues are used to secure revenue bonds issued to finance academic, educational, or research facilities that are part of a multipurpose capital outlay project.

(3)(a) A state university or direct-support organization may not issue debt without the approval of the Board of Governors. The Board of Governors may approve the issuance of

257648

debt by a state university or a direct-support organization only when such debt is used to finance or refinance capital outlay projects. The debt may be secured by or payable only from those revenues authorized for such purpose, including the health fee, the transportation access fee, hospital revenues, or those revenues derived from or received in relation to sales and services of auxiliary enterprises or component units of the university, including, but not limited to, housing, transportation, health care, research or research-related activities, food service, retail sales, athletic activities, or other similar services. Revenues derived from the activity and service fee and the athletic fee may be used to pay and secure debt except that the annual debt service may ~~shall~~ not exceed an amount equal to 5 percent of the fees collected during the most recent 12 consecutive months for which collection information is available before ~~prior to~~ incurring the debt. The assets of university foundations and the earnings thereon may be used to pay and secure debt of the university or its direct-support organizations. Gifts and donations or pledges of gifts may also be used to secure debt so long as the maturity of the debt, including extensions, renewals, and refundings, does not exceed 5 years. Revenues from royalties and licensing fees may also be used to secure debt so long as either the facilities being financed are functionally related to the university operation or direct-support organization reporting such royalties and licensing fees or such revenues are used to secure debt issued to finance academic, educational, or research facilities that are part of a multipurpose capital outlay project. The debt may not be secured by or be payable from, directly or indirectly,

257648

tuition, the financial aid fee, ~~sales and services of educational departments,~~ revenues from grants and contracts, except for money received for overhead and indirect costs and other moneys not required for the payment of direct costs of grants, or any other operating revenues of a state university. The debt of direct-support organizations may not be secured by or be payable under an agreement or contract with a state university unless the source of payments under such agreement or contract is limited to revenues that universities are authorized to use for payment of debt service. Revenues from one auxiliary enterprise may ~~not~~ be used to secure debt of another only if ~~unless~~ the Board of Governors, after review and analysis, determines that either the facilities being financed are functionally related to the auxiliary enterprise revenues being used to secure such debt or such revenues are used to secure debt issued to finance academic, educational, or research facilities that are part of a multipurpose capital outlay project. Debt may not be approved to finance or refinance operating expenses of a state university or a direct-support organization. The maturity of debt used to finance or refinance the acquisition of equipment or software, including any extensions, renewals, or refundings thereof, shall be limited to 5 years or the estimated useful life of the equipment or software, whichever is shorter. The Board of Governors may establish conditions and limitations on such debt as it determines to be advisable.

(7)(a) As required pursuant to s. 11(d), Art. VII of the State Constitution and subsection (6), the Legislature approves capital outlay projects meeting the following requirements:

257648

1. The project is located on a campus of a state university or on land leased to the university or is used for activities relating to the state university;

2. The project is included in the master plan of the state university or is for facilities that are not required to be in a university's master plan;

3. The project is approved by the Board of Governors as being consistent with the strategic plan of the state university and the programs offered by the state university; and

4. The project is for purposes relating to the housing, transportation, health care, research or research-related activities, food service, retail sales, ~~or~~ student activities, or academic or educational activities of the state university.

The Committee on Appropriations (Latvala) recommended the following:

Senate Amendment (with title amendment)

Between lines 736 and 737
insert:

Section 3. Paragraph (c) of subsection (1), paragraph (a) of subsection (2), paragraph (a) of subsection (3), and paragraph (a) of subsection (7) of section 1010.62, Florida Statutes, are amended to read:

1010.62 Revenue bonds and debt.—

(1) As used in this section, the term:

(c) "Debt" means bonds, except revenue bonds as defined in paragraph (e), loans, promissory notes, lease-purchase

agreements, certificates of participation, installment sales, leases, public-private partnership agreements, or any other financing mechanism or financial arrangement, whether or not a debt for legal purposes, for financing or refinancing for or on behalf of a state university or a direct-support organization or for the acquisition, construction, improvement, or purchase of capital outlay projects.

(2)(a) The Board of Governors may request the issuance of revenue bonds pursuant to the State Bond Act and s. 11(d), Art. VII of the State Constitution to finance or refinance capital outlay projects permitted by law. Revenue bonds may be secured by or payable only from those revenues authorized for such purpose, including the Capital Improvement Trust Fund fee, ~~the building fee,~~ the health fee, the transportation access fee, hospital revenues, or those revenues derived from or received in relation to sales and services of auxiliary enterprises or component units of the university, including, but not limited to, housing, transportation, health care, research or research-related activities, food service, retail sales, athletic activities, or other similar services, other revenues attributable to the projects to be financed or refinanced, any other revenue approved by the Legislature for facilities construction or for securing revenue bonds issued pursuant to s. 11(d), Art. VII of the State Constitution, or any other revenues permitted by law. Revenues from the activity and service fee and the athletic fee may be used to pay and secure revenue bonds except that the annual debt service may ~~shall~~ not exceed an amount equal to 5 percent of the fees collected during the most recent 12 consecutive months for which collection information is

available before ~~prior to~~ the sale of the bonds. The assets of a university foundation and the earnings thereon may also be used to pay and secure revenue bonds of the university or its direct-support organizations. Revenues from royalties and licensing fees may also be used to pay and secure revenue bonds so long as either the facilities being financed are functionally related to the university operation or direct-support organization reporting such royalties and licensing fees, or such revenues are used to secure revenue bonds issued to finance academic, educational, or research facilities that are part of a multipurpose capital outlay project. Revenue bonds may not be secured by or be payable from, directly or indirectly, tuition, the financial aid fee, ~~sales and services of educational departments,~~ revenues from grants and contracts, except for money received for overhead and indirect costs and other moneys not required for the payment of direct costs, or any other operating revenues of a state university. Revenues from one auxiliary enterprise may ~~not~~ be used to secure revenue bonds of another only if ~~unless~~ the Board of Governors, after review and analysis, determines that either the facilities being financed are functionally related to the auxiliary enterprise revenues being used to secure such revenue bonds or such revenues are used to secure revenue bonds issued to finance academic, educational, or research facilities that are part of a multipurpose capital outlay project.

(3)(a) A state university or direct-support organization may not issue debt without the approval of the Board of Governors. The Board of Governors may approve the issuance of debt by a state university or a direct-support organization only

when such debt is used to finance or refinance capital outlay projects. The debt may be secured by or payable only from those revenues authorized for such purpose, including the health fee, the transportation access fee, hospital revenues, or those revenues derived from or received in relation to sales and services of auxiliary enterprises or component units of the university, including, but not limited to, housing, transportation, health care, research or research-related activities, food service, retail sales, athletic activities, or other similar services. Revenues derived from the activity and service fee ~~and the athletic fee~~ may be used to pay and secure debt except that the annual debt service may ~~shall~~ not exceed an amount equal to 5 percent of the fees collected during the most recent 12 consecutive months for which collection information is available before ~~prior to~~ incurring the debt. The assets of university foundations and the earnings thereon may be used to pay and secure debt of the university or its direct-support organizations. Gifts and donations or pledges of gifts may also be used to secure debt so long as the maturity of the debt, including extensions, renewals, and refundings, does not exceed 5 years. Revenues from royalties and licensing fees may also be used to secure debt so long as either the facilities being financed are functionally related to the university operation or direct-support organization reporting such royalties and licensing fees or such revenues are used to secure debt issued to finance academic, educational, or research facilities that are part of a multipurpose capital outlay project. The debt may not be secured by or be payable from, directly or indirectly, tuition, the financial aid fee, ~~sales and services of~~

~~educational departments,~~ revenues from grants and contracts, except for money received for overhead and indirect costs and other moneys not required for the payment of direct costs of grants, or any other operating revenues of a state university. The debt of direct-support organizations may not be secured by or be payable under an agreement or contract with a state university unless the source of payments under such agreement or contract is limited to revenues that universities are authorized to use for payment of debt service. Revenues from one auxiliary enterprise may ~~not~~ be used to secure debt of another only if ~~unless~~ the Board of Governors, after review and analysis, determines that either the facilities being financed are functionally related to the auxiliary enterprise revenues being used to secure such debt or such revenues are used to secure debt issued to finance academic, educational, or research facilities that are part of a multipurpose capital outlay project. Debt may not be approved to finance or refinance operating expenses of a state university or a direct-support organization. The maturity of debt used to finance or refinance the acquisition of equipment or software, including any extensions, renewals, or refundings thereof, shall be limited to 5 years or the estimated useful life of the equipment or software, whichever is shorter. The Board of Governors may establish conditions and limitations on such debt as it determines to be advisable.

(7)(a) As required pursuant to s. 11(d), Art. VII of the State Constitution and subsection (6), the Legislature approves capital outlay projects meeting the following requirements:

1. The project is located on a campus of a state university

273636

or on land leased to the university or is used for activities relating to the state university;

2. The project is included in the master plan of the state university or is for facilities that are not required to be in a university's master plan;

3. The project is approved by the Board of Governors as being consistent with the strategic plan of the state university and the programs offered by the state university; and

4. The project is for purposes relating to the housing, transportation, health care, research or research-related activities, food service, retail sales, ~~or~~ student activities, or academic or educational activities of the state university.

A bill to be entitled

An act relating to public-private partnerships; creating s. 287.05712, F.S.; providing definitions; providing legislative findings and intent relating to the construction or improvement by private entities of facilities used predominantly for a public purpose; creating a task force to establish specified guidelines; providing procurement procedures; providing requirements for project approval; providing project qualifications and process; providing for notice to affected local jurisdictions; providing for interim and comprehensive agreements between a public and a private entity; providing for use fees; providing for financing sources for certain projects by a private entity; providing powers and duties of private entities; providing for expiration or termination of agreements; providing for the applicability of sovereign immunity for public entities with respect to qualified projects; providing for construction of the act; creating s. 336.71, F.S.; authorizing counties to enter into public-private partnership agreements for construction, operation, ownership, and financing of transportation facilities; providing requirements and limitations for such agreements; providing procurement procedures; requiring a fee for certain proposals; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

585-02420-13 201384c2

Section 1. Section 287.05712, Florida Statutes, is created to read:

287.05712 Public-private partnerships.—

(1) DEFINITIONS.—As used in this section, the term:

(a) "Affected local jurisdiction" means a county, municipality, or special district in which all or a portion of a qualifying project is located.

(b) "Develop" means to plan, design, finance, lease, acquire, install, construct, or expand.

(c) "Fees" means charges imposed by the private entity of a qualifying project for use of all or a portion of such qualifying project pursuant to a comprehensive agreement.

(d) "Lease payment" means any form of payment, including a land lease, by a public entity to the private entity of a qualifying project for the use of the project.

(e) "Material default" means a nonperformance of its duties by the private entity of a qualifying project which jeopardizes adequate service to the public from the project.

(f) "Operate" means to finance, maintain, improve, equip, modify, or repair.

(g) "Private entity" means any natural person, corporation, general partnership, limited liability company, limited partnership, joint venture, business trust, public-benefit corporation, nonprofit entity, or other private business entity.

(h) "Proposal" means a plan for a qualifying project with detail beyond a conceptual level for which terms such as fixing costs, payment schedules, financing, deliverables, and project schedule are defined.

(i) "Qualifying project" means:

1. A facility or project that serves a public purpose, including, but not limited to, any ferry or mass transit facility, vehicle parking facility, airport or seaport facility, rail facility or project, fuel supply facility, oil or gas pipeline, medical or nursing care facility, recreational facility, sporting or cultural facility, or educational facility or other building or facility that is used or will be used by a public educational institution, or any other public facility or infrastructure that is used or will be used by the public at large or in support of an accepted public purpose or activity;

2. An improvement, including equipment, of a building that will be principally used by a public entity or the public at large or that supports a service delivery system in the public sector; or

3. A water, wastewater, or surface water management facility or other related infrastructure.

(j) "Responsible public entity" means a county, municipality, school board, or university, or any other political subdivision of the state; a public body corporate and politic; or a regional entity that serves a public purpose and is authorized to develop or operate a qualifying project.

(k) "Revenues" means the income, earnings, user fees, lease payments, or other service payments relating to the development or operation of a qualifying project, including, but not limited to, money received as grants or otherwise from the Federal Government, a public entity, or an agency or instrumentality thereof in aid of the qualifying project.

(l) "Service contract" means a contract between a public

entity and the private entity which defines the terms of the services to be provided with respect to a qualifying project.

(2) LEGISLATIVE FINDINGS AND INTENT.—The Legislature finds that there is a public need for the construction or upgrade of facilities that are used predominantly for public purposes and that it is in the public's interest to provide for the construction or upgrade of such facilities.

(a) The Legislature also finds that:

1. There is a public need for timely and cost-effective acquisition, design, construction, improvement, renovation, expansion, equipping, maintenance, operation, implementation, or installation of projects serving a public purpose, including educational facilities, transportation facilities, water or wastewater management facilities and infrastructure, technology infrastructure, roads, highways, bridges, and other public infrastructure and government facilities within the state which serve a public need and purpose, and that such public need may not be wholly satisfied by existing procurement methods.

2. There are inadequate resources to develop new educational facilities, transportation facilities, water or wastewater management facilities and infrastructure, technology infrastructure, roads, highways, bridges, and other public infrastructure and government facilities for the benefit of residents of this state, and that a public-private partnership has demonstrated that it can meet the needs by improving the schedule for delivery, lowering the cost, and providing other benefits to the public.

3. There may be state and federal tax incentives that promote partnerships between public and private entities to

develop and operate qualifying projects.

4. A procurement under this section serves the public purpose of this section if such procurement facilitates the timely development or operation of a qualifying project.

(b) It is the intent of the Legislature to encourage investment in the state by private entities; to facilitate various bond financing mechanisms, private capital, and other funding sources for the development and operation of qualifying projects, including expansion and acceleration of such financing to meet the public need; and to provide the greatest possible flexibility to public and private entities contracting for the provision of public services.

(3) PUBLIC-PRIVATE PARTNERSHIP GUIDELINES TASK FORCE.-

(a) The Partnership for Public Facilities and Infrastructure Act Guidelines Task Force is created to establish guidelines for public entities on the types of factors public entities should review and consider when processing requests for public-private partnership projects pursuant to this section, including consistent requirements for private entities seeking to participate in the construction or development of a qualifying project throughout the state.

(b) The task force shall consist of nine members, as follows:

1. One member of the Senate, appointed by the President of the Senate.

2. One member of the House of Representatives, appointed by the Speaker of the House of Representatives.

3. The Secretary of Management Services or his or her designee.

4. Six members appointed by the Governor, as follows:

a. One county government official.

b. One municipal government official.

c. One district school board member.

d. Three representatives of the business community.

(c) Task force members shall serve for a term of 2 years each and shall elect a chair and a vice chair. The task force shall meet as necessary. Administrative and technical support shall be provided by the department. Task force members shall serve without compensation, but are entitled to reimbursement for per diem and travel expenses pursuant to s. 112.061. The task force shall terminate on July 1, 2015.

(d) The task force shall provide guidelines to public entities no later than July 1, 2014. The guidelines shall include:

1. Opportunities for competition through public notice and the availability of representatives of the responsible public entity to meet with private entities considering a proposal.

2. Reasonable criteria for choosing among competing proposals.

3. Suggested timelines for selecting proposals and negotiating an interim or comprehensive agreement.

4. Authorization for accelerated selection and review and documentation timelines for proposals involving a qualifying project that the responsible public entity deems a priority.

5. Procedures for financial review and analysis which, at a minimum, include a cost-benefit analysis, an assessment of opportunity cost, and consideration of the results of all studies and analyses related to the proposed qualifying project.

6. Consideration of the nonfinancial benefits of a proposed qualifying project.

7. A mechanism for the appropriating body to review a proposed comprehensive agreement before execution.

8. Analysis of the adequacy of the information released when seeking competing proposals, and providing for the enhancement of that information, if deemed necessary, to encourage competition, as well as establishing standards to maintain the confidentiality of financial and proprietary terms of an unsolicited proposal, which shall be disclosed only in accordance with the bidding procedures of competing proposals.

9. Authority for the responsible public entity to engage the services of qualified professionals, which may include a Florida-registered professional or a certified public accountant, not otherwise employed by the responsible public entity, to provide an independent analysis regarding the specifics, advantages, disadvantages, and long-term and short-term costs of a request by a private entity for approval of a qualifying project, unless the governing body of the public entity determines that such analysis should be performed by employees of the public entity. Professional services as defined in s. 287.055 must be engaged pursuant to s. 287.055.

(e) The establishment of guidelines pursuant to this section by the task force or the adoption of such guidelines by a public entity is not required for the public entity to request or receive proposals for a qualifying project or to enter into a comprehensive agreement for a qualifying project. A public entity may adopt guidelines before the establishment of guidelines by the task force, which may remain in effect as long

as such guidelines are not inconsistent with the guidelines established by the task force. A guideline that is inconsistent with the guidelines of the task force must be amended as necessary to maintain consistency with the task force guidelines.

(4) PROCUREMENT PROCEDURES.—A responsible public entity may receive unsolicited proposals or may solicit proposals for qualifying projects and may thereafter enter into an agreement with a private entity, or a consortium of private entities, for the building, upgrading, operating, ownership, or financing of facilities.

(a) The responsible public entity may establish a reasonable application fee for the submission of an unsolicited proposal under this section. The fee must be sufficient to pay the costs of evaluating the proposal. The responsible public entity may engage the services of a private consultant to assist in the evaluation.

(b) The responsible public entity may request a proposal from private entities for a public-private project or, if the public entity receives an unsolicited proposal, the public entity shall publish notice in the Florida Administrative Register and a newspaper of general circulation at least once a week for 2 weeks stating that the public entity has received a proposal and will accept other proposals for the same project. The timeframe within which the public entity may accept other proposals shall be determined by the public entity on a project-by-project basis based upon the complexity of the project and the public benefit to be gained by allowing a longer or shorter period of time within which other proposals may be received;

however, the timeframe for allowing other proposals must be at least 21 days, but no more than 120 days, after the initial date of publication. A copy of the notice must be mailed to each local government in the affected area. The scope of the proposal may be publicized for the purpose of soliciting competing proposals; however, the financial terms of the proposal may not be disclosed until the terms of all competing bids are simultaneously disclosed in accordance with the applicable law governing procurement procedures for the qualifying project.

(c) A responsible public entity that is a school board may enter into a comprehensive agreement only with the approval of the local governing body.

(d) Before approval, the responsible public entity must determine that the proposed project:

1. Is in the public's best interest.

2. Is for a facility that is owned by the responsible public entity or for a facility for which ownership will be conveyed to the responsible public entity.

3. Has adequate safeguards in place to ensure that additional costs or service disruptions are not imposed on the public in the event of material default or cancellation of the agreement by the responsible public entity.

4. Has adequate safeguards in place to ensure that the responsible public entity or the private entity has the opportunity to add capacity to the proposed project or other facilities serving similar predominantly public purposes.

5. Will be owned by the responsible public entity upon completion or termination of the agreement and upon payment of the amounts financed.

(e) Before signing a comprehensive agreement, the responsible public entity must consider a reasonable finance plan that is consistent with subsection (11), the project cost, revenues by source, available financing, major assumptions, internal rate of return on private investments, if governmental funds are assumed in order to deliver a cost-feasible project, and a total cash-flow analysis beginning with the implementation of the project and extending for the term of the agreement.

(f) In considering an unsolicited proposal, the responsible public entity may require from the private entity a technical study prepared by a nationally recognized expert with experience in preparing analysis for bond rating agencies. In evaluating the technical study, the responsible public entity may rely upon internal staff reports prepared by personnel familiar with the operation of similar facilities or the advice of external advisors or consultants who have relevant experience.

(5) PROJECT APPROVAL REQUIREMENTS.—An unsolicited proposal from a private entity for approval of a qualifying project must be accompanied by the following material and information, unless waived by the responsible public entity:

(a) A description of the qualifying project, including the conceptual design of the facilities or a conceptual plan for the provision of services, and a schedule for the initiation and completion of the qualifying project.

(b) A description of the method by which the private entity proposes to secure the necessary property interests that are required for the qualifying project.

(c) A description of the private entity's general plans for financing the qualifying project, including the sources of the

private entity's funds and the identity of any dedicated revenue source or proposed debt or equity investment on behalf of the private entity.

(d) The name and address of a person who may be contacted for additional information concerning the proposal.

(e) The proposed user fees, lease payments, or other service payments over the term of a comprehensive agreement, and the methodology for and circumstances that would allow changes to the user fees, lease payments, and other service payments over time.

(f) Additional material or information that the responsible public entity reasonably requests.

(6) PROJECT QUALIFICATION AND PROCESS.—

(a) The private entity must meet the minimum standards contained in the responsible public entity's guidelines for qualifying professional services and contracts for traditional procurement projects.

(b) The responsible public entity must:

1. Ensure that provision is made for the private entity's performance and payment of subcontractors, including, but not limited to, surety bonds, letters of credit, parent company guarantees, and lender and equity partner guarantees. For the components of the qualifying project which involve construction performance and payment, bonds are required and are subject to the recordation, notice, suit limitation, and other requirements of s. 255.05.

2. Ensure the most efficient pricing of the security package that provides for the performance and payment of subcontractors.

3. Ensure that provision is made for the transfer of the private entity's obligations if the comprehensive agreement is terminated or a material default occurs.

(c) After the public notification period has expired in the case of an unsolicited proposal, the responsible public entity shall rank the proposals received in order of preference. In ranking the proposals, the responsible public entity may consider factors that include, but are not limited to, professional qualifications, general business terms, innovative design techniques or cost-reduction terms, and finance plans. If the responsible public entity is not satisfied with the results of the negotiations, the responsible public entity may terminate negotiations with the proposer and negotiate with the second-ranked or subsequent-ranked firms in the order consistent with this procedure. If only one proposal is received, the responsible public entity may negotiate in good faith, and if the public entity is not satisfied with the results of the negotiations, the public entity may terminate negotiations with the proposer. Notwithstanding this paragraph, the responsible public entity may reject all proposals at any point in the process until a contract with the proposer is executed.

(d) The responsible public entity shall perform an independent analysis of the proposed public-private partnership which demonstrates the cost-effectiveness and overall public benefit before the procurement process is initiated or before the contract is awarded.

(e) The responsible public entity may approve the development or operation of an educational facility, a transportation facility, a water or wastewater management

facility or related infrastructure, a technology infrastructure or other public infrastructure, or a government facility needed by the responsible public entity as a qualifying project, or the design or equipping of a qualifying project that is developed or operated, if:

1. There is a public need for or benefit derived from a project of the type that the private entity proposes as the qualifying project.

2. The estimated cost of the qualifying project is reasonable in relation to similar facilities.

3. The private entity's plans will result in the timely acquisition, design, construction, improvement, renovation, expansion, equipping, maintenance, or operation of the qualifying project.

(f) The responsible public entity may charge a reasonable fee to cover the costs of processing, reviewing, and evaluating the request, including, but not limited to, reasonable attorney fees and fees for financial and technical advisors or consultants and for other necessary advisors or consultants.

(g) Upon approval of a qualifying project, the responsible public entity shall establish a date for the commencement of activities related to the qualifying project. The responsible public entity may extend the commencement date.

(h) Approval of a qualifying project by the responsible public entity is subject to entering into a comprehensive agreement with the private entity.

(7) NOTICE TO AFFECTED LOCAL JURISDICTIONS.—

(a) The responsible public entity must notify each affected local jurisdiction by furnishing a copy of the proposal to each

affected local jurisdiction when considering a proposal for a qualifying project.

(b) Each affected local jurisdiction that is not a responsible public entity for the respective qualifying project may, within 60 days after receiving the notice, submit in writing any comments to the responsible public entity and indicate whether the facility is incompatible with the local comprehensive plan, the local infrastructure development plan, the capital improvements budget, or other governmental spending plan. The responsible public entity shall consider the comments of the affected local jurisdiction before entering into a comprehensive agreement with a private entity. If an affected local jurisdiction fails to respond to the responsible public entity within the time provided in this paragraph, the nonresponse is deemed an acknowledgement by the affected local jurisdiction that the qualifying project is compatible with the local comprehensive plan, the local infrastructure development plan, the capital improvements budget, or other governmental spending plan.

(8) INTERIM AGREEMENT.—Before or in connection with the negotiation of a comprehensive agreement, the public entity may enter into an interim agreement with the private entity proposing the development or operation of the qualifying project. An interim agreement does not obligate the responsible public entity to enter into a comprehensive agreement. The interim agreement is discretionary with the parties and is not required on a qualifying project for which the parties may proceed directly to a comprehensive agreement without the need for an interim agreement. An interim agreement must be limited

to provisions that:

(a) Authorize the private entity to commence activities for which it may be compensated related to the proposed qualifying project, including, but not limited to, project planning and development, design, environmental analysis and mitigation, survey, other activities concerning any part of the proposed qualifying project, and ascertaining the availability of financing for the proposed facility or facilities.

(b) Establish the process and timing of the negotiation of the comprehensive agreement.

(c) Contain such other provisions related to an aspect of the development or operation of a qualifying project that the responsible public entity and the private entity deem appropriate.

(9) COMPREHENSIVE AGREEMENT.—

(a) Before developing or operating the qualifying project, the private entity must enter into a comprehensive agreement with the responsible public entity. The comprehensive agreement must provide for:

1. The delivery of performance and payment bonds, letters of credit, or other security acceptable to the responsible public entity in connection with the development or operation of the qualifying project in the form and amount satisfactory to the responsible public entity. For the components of the qualifying project which involve construction, the form and amount of the bonds must comply with s. 255.05.

2. The review of the plans and specifications for the qualifying project by the responsible public entity and, if the plans and specifications conform to standards acceptable to the

responsible public entity, the approval of the responsible public entity. This subparagraph does not require the private entity to complete the design of the qualifying project before the execution of the comprehensive agreement.

3. The inspection of the qualifying project by the responsible public entity to ensure that the private entity's activities are acceptable to the public entity in accordance with the comprehensive agreement.

4. The maintenance of a policy of public liability insurance, a copy of which must be filed with the responsible public entity and accompanied by proofs of coverage, or self-insurance, each in the form and amount satisfactory to the responsible public entity and reasonably sufficient to ensure coverage of tort liability to the public and employees and to enable the continued operation of the qualifying project.

5. The monitoring by the responsible public entity of the maintenance practices to be performed by the private entity to ensure that the qualifying project is properly maintained.

6. The periodic filing by the private entity of the appropriate financial statements that pertain to the qualifying project.

7. The procedures that govern the rights and responsibilities of the responsible public entity and the private entity in the course of the construction and operation of the qualifying project and in the event of the termination of the comprehensive agreement or a material default by the private entity. The procedures must include conditions that govern the assumption of the duties and responsibilities of the private entity by an entity that funded, in whole or part, the

qualifying project or by the responsible public entity, and must provide for the transfer or purchase of property or other interests of the private entity by the responsible public entity.

8. In negotiating user fees, the fees must be the same for persons using the facility under like conditions and must not materially discourage use of the qualifying project. The execution of the comprehensive agreement or a subsequent amendment is conclusive evidence that the fees, lease payments, or service payments provided for in the comprehensive agreement comply with this section. Fees or lease payments established in the comprehensive agreement as a source of revenue may be in addition to, or in lieu of, service payments.

9. The duties of the private entity, including the terms and conditions that the responsible public entity determines serve the public purpose of this section.

(b) The comprehensive agreement may include:

1. An agreement by the responsible public entity to make grants or loans to the private entity from amounts received from the federal, state, or local government or an agency or instrumentality thereof.

2. A provision under which each entity agrees to provide notice of default and cure rights for the benefit of the other entity, including, but not limited to, a provision regarding unavoidable delays.

3. A provision that terminates the authority and duties of the private entity under this section and dedicates the qualifying project to the responsible public entity or, if the qualifying project was initially dedicated by an affected local

jurisdiction, to the affected local jurisdiction for public use.

(10) FEES.—An agreement entered into pursuant to this section may authorize the private entity to impose fees to members of the public for the use of the facility. The following provisions apply to the agreement:

(a) The responsible public entity may develop new facilities or increase capacity in existing facilities through agreements with public-private partnerships.

(b) The public-private partnership agreement must ensure that the facility is properly operated, maintained, or improved in accordance with standards set forth in the comprehensive agreement.

(c) The responsible public entity may lease existing fee-for-use facilities through a public-private partnership agreement.

(d) Any revenues must be regulated by the responsible public entity pursuant to the comprehensive agreement.

(e) A negotiated portion of revenues from fee-generating uses must be returned to the public entity over the life of the agreement.

(11) FINANCING.—

(a) A private entity may enter into a private-source financing agreement between financing sources and the private entity. A financing agreement and any liens on the property or facility must be paid in full at the applicable closing that transfers ownership or operation of the facility to the responsible public entity at the conclusion of the term of the comprehensive agreement.

(b) The responsible public entity may lend funds to private

entities that construct projects containing facilities that are approved under this section.

(c) The responsible public entity may use innovative finance techniques associated with a public-private partnership under this section, including, but not limited to, federal loans as provided in Titles 23 and 49 C.F.R., commercial bank loans, and hedges against inflation from commercial banks or other private sources. In addition, the responsible public entity may provide its own capital or operating budget to support a qualifying project. The budget may be from any legally permissible funding sources of the responsible public entity, including the proceeds of debt issuances. A responsible public entity may use the model financing agreement provided in s. 489.145(6) for its financing of a facility owned by a responsible public entity. A financing agreement may not require the responsible public entity to indemnify the financing source, subject the responsible public entity's facility to liens in violation of s. 11.066(5), or secure financing by the responsible public entity with a pledge of security interest, and any such provision is void.

(d) A responsible public entity shall appropriate on a priority basis as required by the comprehensive agreement a contractual payment obligation, annual or otherwise, from the enterprise or other government fund from which the qualifying projects will be funded. This required payment obligation must be appropriated before other noncontractual obligations payable from the same enterprise or other government fund.

(12) POWERS AND DUTIES OF THE PRIVATE ENTITY.—

(a) The private entity shall:

1. Develop or operate the qualifying project in a manner that is acceptable to the responsible public entity in accordance with the provisions of the comprehensive agreement.

2. Maintain, or provide by contract for the maintenance or improvement of, the qualifying project if required by the comprehensive agreement.

3. Cooperate with the responsible public entity in making best efforts to establish interconnection between the qualifying project and any other facility or infrastructure as requested by the responsible public entity in accordance with the provisions of the comprehensive agreement.

4. Comply with the comprehensive agreement and any lease or service contract.

(b) Each private facility that is constructed pursuant to this section must comply with the requirements of federal, state, and local laws; state, regional, and local comprehensive plans; the responsible public entity's rules, procedures, and standards for facilities; and such other conditions that the responsible public entity determines to be in the public's best interest and that are included in the comprehensive agreement.

(c) The responsible public entity may provide services to the private entity. An agreement for maintenance and other services entered into pursuant to this section must provide for full reimbursement for services rendered for qualifying projects.

(d) A private entity of a qualifying project may provide additional services for the qualifying project to the public or to other private entities if the provision of additional services does not impair the private entity's ability to meet

its commitments to the responsible public entity pursuant to the comprehensive agreement.

(13) EXPIRATION OR TERMINATION OF AGREEMENTS.—Upon the expiration or termination of a comprehensive agreement, the responsible public entity may use revenues from the qualifying project to pay current operation and maintenance costs of the qualifying project. If the private entity materially defaults under the comprehensive agreement, the compensation that is otherwise due to the private entity is payable to satisfy all financial obligations to investors and lenders on the qualifying project in the same way that is provided in the comprehensive agreement or any other agreement involving the qualifying project, if the costs of operating and maintaining the qualifying project are paid in the normal course. Revenues in excess of the costs for operation and maintenance costs may be paid to the investors and lenders to satisfy payment obligations under their respective agreements. A responsible public entity may terminate with cause and without prejudice a comprehensive agreement and may exercise any other rights or remedies that may be available to it in accordance with the provisions of the comprehensive agreement. The full faith and credit of the responsible public entity may not be pledged to secure the financing of the private entity. The assumption of the development or operation of the qualifying project does not obligate the responsible public entity to pay any obligation of the private entity from sources other than revenues from the qualifying project unless stated otherwise in the comprehensive agreement.

(14) SOVEREIGN IMMUNITY.—This section does not waive the

sovereign immunity of a responsible public entity, an affected local jurisdiction, or an officer or employee thereof with respect to participation in, or approval of, any part of a qualifying project or its operation, including, but not limited to, interconnection of the qualifying project with any other infrastructure or project. A county or municipality in which a qualifying project is located possesses sovereign immunity with respect to the project, including, but not limited to, its design, construction, and operation.

(15) CONSTRUCTION.—This section shall be liberally construed to effectuate the purposes of this section.

(a) This section does not limit a state agency or political subdivision of the state in the acquisition, design, or construction of a public project pursuant to other statutory authority.

(b) Except as otherwise provided in this section, this section does not amend existing laws by granting additional powers to, or further restricting, a local governmental entity from regulating and entering into cooperative arrangements with the private sector for the planning, construction, or operation of a facility.

(c) This section does not waive any requirement of s. 287.055.

Section 2. Section 336.71, Florida Statutes, is created to read:

336.71 Public-private transportation facilities.—

(1) A county may receive or solicit proposals and enter into agreements with private entities or consortia thereof to build, operate, own, or finance highways, bridges, multimodal

transportation systems, transit-oriented development nodes, transit stations, and related transportation facilities located solely within the county, including municipalities therein. Before approval, the county must determine that a proposed project:

(a) Is in the best interest of the public.

(b) Would not require county funds to be used unless the project is on the county road system or would provide increased mobility on the county road system.

(c) Would have adequate safeguards to ensure that additional costs or unreasonable service disruptions are not realized by the traveling public and citizens of the state in the event of default or cancellation of the agreement by the county.

(d) Would be owned by the county upon completion or termination of the agreement.

(2) The county shall ensure that all reasonable costs to the county related to transportation facilities that are not part of the county road system are borne by the private entity that develops or operates the facilities. The county shall also ensure that all reasonable costs to the county and substantially affected local governments and utilities related to the private transportation facility are borne by the private entity for transportation facilities that are owned by private entities. For projects on the county road system or that provide increased mobility on the county road system, the county may use county resources to participate in funding and financing the project pursuant to the county's financial policies and ordinances.

(3) The county may request proposals and receive

unsolicited proposals for public-private transportation facilities. Upon a determination by the governing body of the county to issue a request for proposals, the governing body of the county must publish a notice of the request for proposals in a newspaper of general circulation in the county at least once a week for 2 weeks. Upon receipt of an unsolicited proposal, the governing body of the county must publish a notice in a newspaper of general circulation in the county at least once a week for 2 weeks stating that it has received the proposal and will accept, for 60 days after the initial date of publication, other proposals for the same project purpose. A copy of the notice must be mailed to the governing body of each local government in the affected area. After the public notification period has expired, the governing body of the county shall rank the proposals in order of preference. In ranking the proposals, the governing body of the county shall consider professional qualifications, general business terms, innovative engineering or cost-reduction terms, finance plans, and the need for county funds to complete the project. If the governing body of the county is not satisfied with the results of the negotiations, it may terminate negotiations with the proposer. If negotiations are unsuccessful, the governing body of the county may negotiate with the private entity that has the next highest ranked proposal, using the same procedure. If only one proposal is received, the governing body of the county may negotiate in good faith and may, if not satisfied with the results, terminate negotiations with the proposer. The governing body of the county may, at its discretion, reject all proposals at any point in the process up to completion of a contract with the proposer. Any

private entity submitting an unsolicited proposal shall submit with the proposal a fee of $25,000 to be used by the governing body of the county for the costs associated with the review and analysis of the proposal, and such entity shall remain liable for any additional costs and expenses incurred by the governing body of the county for such review and analysis.

(4) Agreements entered into pursuant to this section may authorize the county or the private project owner, lessee, or operator to impose, collect, and enforce tolls or fares for the use of the transportation facility. However, the amount and use of toll or fare revenue shall be regulated by the county to avoid unreasonable costs to users of the facility.

(5) Each public-private transportation facility constructed pursuant to this section shall comply with all requirements of federal, state, and local laws; state, regional, and local comprehensive plans; the county's rules, policies, procedures, and standards for transportation facilities; and any other conditions that the county determines to be in the best interest of the public.

(6) The governing body of the county may exercise any of its powers, including eminent domain, to facilitate the development and construction of transportation projects pursuant to this section. The governing body of the county may pay all or part of the cost of operating and maintaining the facility and may provide services to the private entity, for which services it shall receive full or partial reimbursement.

(7) Except as otherwise provided in this section, this section is not intended to amend existing law by granting additional powers to or imposing further restrictions on local

governmental entities with regard to regulating and entering into cooperative arrangements with the private sector for the planning, construction, and operation of transportation facilities.

(8) Public-private partnership agreements under this section shall be limited to a term not exceeding 75 years.

(9) This section does not authorize a county or counties to enter into agreements with private entities or consortia thereof to build, operate, own, or finance a transportation facility that would extend beyond the geographical boundaries of a single county.

Section 3. This act shall take effect July 1, 2013.

	.	

The Committee on Transportation (Diaz de la Portilla) recommended the following:

Senate Amendment (with title amendment)

Before line 31

insert:

Section 1. Section 255.60, Florida Statutes, is amended to read:

255.60 Special contracts with charitable not-for-profit ~~youth~~ organizations.—The state, ~~or~~ the governing body of any political subdivision of the state, or a public-private partnership is authorized, but not required, to contract for public service work with a not-for-profit organization ~~such as highway and park maintenance,~~ notwithstanding competitive sealed

502258

bid procedures required under this chapter, ~~or~~ chapter 287, or any municipal or county charter, upon compliance with this section.

(1) The contractor or supplier must meet the following conditions:

(a) The contractor or supplier must be a not-for-profit corporation incorporated under chapter 617 and in good standing.

(b) The contractor or supplier must hold exempt status under s. 501(a) of the Internal Revenue Code, as an organization described in s. 501(c)(3) of the Internal Revenue Code.

~~(c) The corporate charter of the contractor or supplier must state that the corporation is organized as a charitable youth organization exclusively for at-risk youths enrolled in a work-study program.~~

(c) ~~(d)~~ Administrative salaries and benefits for any such corporation shall not exceed 15 percent of gross revenues. Field supervisors shall not be considered administrative overhead.

(2) The contract, if approved by authorized agency personnel of the state, ~~or~~ the governing body of a political subdivision, or the public-private partnership, as appropriate, must provide at a minimum that:

(a) For youth organizations, labor shall be performed exclusively by at-risk youth and their direct supervisors; and shall not be subject to subcontracting.

(b) For the preservation, maintenance, and improvement of park land, the property must be at least 20 acres with contiguous public facilities that are capable of seating at least 5,000 people in a permanent structure.

(c) For public education buildings, the building must be at

502258

least 90,000 square feet.

(d) ~~(b)~~ Payment must be production-based.

(e) ~~(c)~~ The contract will terminate should the contractor or supplier no longer qualify under subsection (1).

~~(d) The supplier or contractor has instituted a drug-free workplace program substantially in compliance with the provisions of s. 287.087.~~

(f) ~~(c)~~ The contractor or supplier agrees to be subject to review and audit at the discretion of the Auditor General in order to ensure that the contractor or supplier has complied with this section.

(3) A ~~No~~ contract under this section may not exceed the annual sum of $250,000.

(4) Should a court find that a contract purporting to have been entered into pursuant to this section does not so qualify, the court may order that the contract be terminated on reasonable notice to the parties. The court shall not require disgorgement of any moneys earned for goods or services actually delivered or supplied.

(5) Nothing in this section shall excuse any person from compliance with ss. 287.132-287.134.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 150 (842716)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Education); Education Committee; and Senator Altman and others
SUBJECT:	Deaf and Hard-of-hearing Children
DATE:	April 21, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Graf	Klebacha	ED	**Fav/CS**
2.	Armstrong	Elwell	AED	**Fav/CS**
3.	Elwell	Hansen	AP	**Pre-meeting**
4.				
5.				
6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

PCS/CS/SB 150 clarifies the considerations that the individual educational plan (IEP) team must address to develop an IEP for a student who is deaf or hard-of-hearing. The bill also requires the Department of Education, in coordination with the Florida School for the Deaf and Blind and with input from stakeholders, to develop a model communication plan for use during the IEP development. The Department of Education must provide technical assistance regarding using the model communication plan.

The bill has a minimal fiscal impact.

The bill has an effective date of July 1, 2013.

This bill amends section 1003.55 of the Florida Statutes.

II. Present Situation:

Federal law requires states to make a free appropriate public education available to all children with disabilities residing in the state between the ages of 3 and 21, including children with disabilities who have been suspended or expelled from school.[1] As the state educational agency, the Department of Education (DOE) must exercise general supervision over all educational programs for children with disabilities in the state, including all programs administered by other state or local agencies, and ensure that the programs meet the educational standards of the state educational agency.[2]

For each eligible student or child with a disability served by a school district, or other state agency that provides special education and related services either directly, by contract, or through other arrangements, an individual educational plan (IEP) or individual family support plan must be developed, reviewed, and revised.[3] In developing an IEP, the IEP team is required to consider a child's strengths, concerns of the parents for enhancing education, results of the initial evaluation or most recent evaluation of the child, and the academic, developmental, and functional needs of the child, as well as special factors.[4]

Current law requires that for a child who is deaf or hard-of-hearing, the IEP team consider: the child's language and communication needs, opportunities for direct communications with peers and professional personnel in the child's language and communication mode, academic level, and full range of needs, including opportunities for direct instruction in the child's language and communication mode.[5] Currently, Florida's IEP process only requires the IEP team to check two boxes and provide brief sentences to indicate that the communications needs have been considered.[6]

In the fall of 2011, 4,098 students were identified as deaf or hard-of-hearing.[7] The DOE has developed, in collaboration with the Florida School for the Deaf and Blind and a statewide leadership team, a draft model communication plan that was disseminated to all 67 school districts in November 2012. Initial feedback is anticipated in late March 2013.[8]

Educational options for students with hearing impairments have expanded significantly in the last 30 years in that students are increasingly attending traditional schools and being educated in general education classrooms.[9] Other developments have changed the classroom experiences of

students with hearing impairments in the last three decades as well, including the evolution of implant technology and technologies such as visual or text communication devices and speech-to-print software. Still, despite advances and efforts to improve the outcomes of students with hearing impairments, evidence suggests that these students continue to lag behind their general education peers in academic achievement.[10]

III. Effect of Proposed Changes:

The bill clarifies that to develop an IEP for a student who is deaf or hard-of-hearing, the IEP team must consider:

- The student's language and communication needs;
- Opportunities afforded to the student for direct communication with peers and professional personnel in the student's language and communication mode, and
- The student's academic level and full range of needs, including opportunities for direct instruction in the student's language and communication mode.

The bill requires the DOE, in coordination with the Florida School for the Deaf and Blind and with input from stakeholders, to develop a model communication plan for use during the IEP development. The model communication plan must be adopted in State Board of Education Rule and made available online to all school districts no later than December 31, 2013. The DOE must provide technical assistance regarding using the model communication plan.

The model will provide for a more thorough evaluation of a student's needs. Additionally, parents will be able to utilize the information provided by the model to develop IEPs for students which will likely result in better targeted services for such students.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Education on April 11, 2013:
The committee substitute clarifies that education stakeholders include representatives of the auditory-oral community.

CS by Committee on Education on March 18, 2013:
The committee substitute differs from SB 150 in that the committee substitute:

- Clarifies the considerations that the IEP team must address to develop an IEP for a student who is deaf or hard-of-hearing;
- Requires the DOE, in coordination with the Florida School for the Deaf and Blind and with input from stakeholders, to develop a model communication plan for use during the IEP development;
- Requires the plan to be adopted in rule by the State Board of Education Rule and made available online to all school districts no later than December 31, 2013; and

Requires the DOE to provide technical assistance regarding using the model communication plan.

B. Amendments:

None.

842716

576-04161-13

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Education)

A bill to be entitled

An act relating to deaf and hard-of-hearing students; amending s. 1003.55, F.S.; requiring that a student's language and communication needs, including certain opportunities, be considered in the development of an individual education plan for a deaf or hard-of-hearing student; requiring the Department of Education to develop a model communication plan to be used in the development of an individual education plan for deaf or hard-of-hearing students; requiring the department to disseminate the model communication plan to each school district and provide technical assistance; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (6) is added to section 1003.55, Florida Statutes, to read:

1003.55 Instructional programs for blind or visually impaired students and deaf or hard-of-hearing students.—

(6)(a) In developing an individual education plan for a deaf or hard-of-hearing student, the individual education plan team must consider the student's language and communication needs, opportunities for direct communication with peers and professional personnel in the student's language and communication mode, and the student's academic level and full range of needs, including opportunities for direct instruction

842716

576-04161-13

in the student's language and communication mode.

(b) The Department of Education, in coordination with the Florida School for the Deaf and the Blind and with input from education stakeholders, including representatives of the auditory-oral community, shall develop a model communication plan that shall be used during the development of a student's individual education plan. The model communication plan shall be adopted in rule by the State Board of Education and made available online to all school districts no later than December 31, 2013. The department shall provide technical assistance for using the model communication plan.

Section 2. This act shall take effect July 1, 2013.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 154
INTRODUCER:	Education Committee and Senator Detert
SUBJECT:	Certified School Counselors
DATE:	April 24, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	McLaughlin	Klebacha	ED	**Fav/CS**
2.	Armstrong	Elwell	AED	**Favorable**
3.	Elwell	Hansen	AP	**Favorable**
4.				
5.				
6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/SB 154 substitutes "certified school counselor" for the term "guidance counselor." This reflects the current requirement that persons employed as school counselors be certified as set forth by law and State Board of Education rule.

The bill has no fiscal impact.

The bill provides an effective date of July 1, 2013.

This bill substantially amends the following sections of the Florida Statutes: 322.091, 381.0057, 1002.3105, 1003.21, 1003.43, 1003.491, 1004.04, 1006.025, 1007.35, 1008.42, 1009.53, 1012.01, 1012.71, and 1012.98.

II. Present Situation:

Current law defines school counseling personnel as guidance counselors.[1] School counselors play a significant role in school guidance and counseling programs, which are designed to promote student success through a focus on academic achievement, prevention, intervention, and advocacy.[2] Now, guidance counselors evaluate students and participate in decisions relating to the promotion, remediation, and retention of students. Effective school guidance counselors work with school administrators, faculty, students, parents, and members of the community to plan, implement, and evaluate comprehensive guidance and counseling programs. In advising students, counselors identify needs, define priorities, and determine appropriate objectives. They also determine the personnel, physical resources, programs, and activities required to best serve the student.[3]

School counselors are considered instructional personnel within Florida's public school system.[4] To be employed as a school counselor, a person must be certified as required by law and State Board of Education (SBE) rule.[5] To be certified in guidance and counseling, a person must hold a master's or higher degree with a graduate major in guidance and counseling or counselor education or a master's or higher degree with 30 semester hours of graduate credit in specified guidance and counseling courses.[6]

III. Effect of Proposed Changes:

The bill replaces, within the Florida Statutes, the term "guidance counselor" with "certified school counselor." This change reflects the current requirement that persons employed as school counselors hold a certificate in guidance and counseling as provided by law and SBE rule.[7]

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Education on April 1, 2013:
The committee substitute:

- Replaces the term "guidance counselor" with "certified school counselor"; and
- Removes from the bill specified duties of counselors, counselor to student ratios, minimum of full-time counselors per school, ratio of counselors to students in an annual audit, and required district rule adoption for counselors.

B. Amendments:

None.

By the Committee on Education; and Senators Detert and Clemens

581-03364-13 2013154c1

A bill to be entitled

An act relating to certified school counselors; amending ss. 322.091, 381.0057, 1002.3105, 1003.21, 1003.43, 1003.491, 1004.04, 1006.025, 1007.35, 1008.42, 1009.53, 1012.01, 1012.71, and 1012.98, F.S.; renaming guidance counselors as "certified school counselors"; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (b) of subsection (3) of section 322.091, Florida Statutes, is amended to read:

322.091 Attendance requirements.—

(3) HARDSHIP WAIVER AND APPEAL.—

(b) The public school principal, the principal's designee, or the designee of the governing body of a private school shall waive the requirements of subsection (1) for any minor under the school's jurisdiction for whom a personal or family hardship requires that the minor have a driver ~~driver's~~ license for his or her own, or his or her family's, employment or medical care. The minor or the minor's parent or guardian may present other evidence that indicates compliance with the requirements of subsection (1) at the waiver hearing. The public school principal, the principal's designee, or the designee of the governing body of a private school shall consider ~~take into consideration~~ the recommendations of teachers, other school officials, certified school ~~guidance~~ counselors, or academic advisers before waiving the requirements of subsection (1).

Section 2. Paragraph (b) of subsection (3) of section

581-03364-13 2013154c1

381.0057, Florida Statutes, is amended to read:

381.0057 Funding for school health services.—

(3) Any school district, school, or laboratory school which desires to receive state funding under the provisions of this section shall submit a proposal to the joint committee established in subsection (2). The proposal shall state the goals of the program, provide specific plans for reducing teenage pregnancy, and describe all of the health services to be available to students with funds provided pursuant to this section, including a combination of initiatives such as health education, counseling, extracurricular, and self-esteem components. School health services shall not promote elective termination of pregnancy as a part of counseling services. Only those program proposals which have been developed jointly by county health departments and local school districts or schools, and which have community and parental support, shall be eligible for funding. Funding shall be available specifically for implementation of one of the following programs:

(b) *Student support services team program.*—The program shall include a multidisciplinary team composed of a psychologist, social worker, and nurse whose responsibilities are to provide basic support services and to assist, in the school setting, children who exhibit mild to severely complex health, behavioral, or learning problems affecting their school performance. Support services ~~shall~~ include, but are not ~~be~~ limited to: evaluation and treatment of ~~for~~ minor illnesses and injuries, referral and followup for serious illnesses and emergencies, onsite care and consultation, referral to a physician, and followup care for pregnancy or chronic diseases

and disorders as well as emotional or mental problems. Services also ~~shall~~ include referral care for drug and alcohol abuse and sexually transmitted diseases, sports and employment physicals, immunizations, and ~~in addition,~~ effective preventive services aimed at delaying early sexual involvement and aimed at pregnancy, acquired immune deficiency syndrome, sexually transmitted diseases, and destructive lifestyle conditions, such as alcohol and drug abuse. Moneys for this program shall be used to fund three teams, each consisting of one half-time psychologist, one full-time nurse, and one full-time social worker. Each team shall provide student support services to an elementary school, middle school, and high school that are a part of one feeder school system and shall coordinate all activities with the school administrator and certified school ~~guidance~~ counselor at each school. A program that ~~which~~ places all three teams in middle schools or high schools may also be proposed.

Funding may also be available for any other program that is comparable to a program described in this subsection but is designed to meet the particular needs of the community.

Section 3. Paragraph (e) of subsection (3) of section 1002.3105, Florida Statutes, is amended to read:

1002.3105 Academically Challenging Curriculum to Enhance Learning (ACCEL) options.—

(3) STUDENT ELIGIBILITY CONSIDERATIONS.—When establishing student eligibility requirements, principals and school districts must consider, at a minimum:

(e) A recommendation from a certified school ~~guidance~~

counselor, if one is assigned to the school in which the student is enrolled.

Section 4. Paragraph (c) of subsection (1) of section 1003.21, Florida Statutes, is amended to read:

1003.21 School attendance.—

(1)

(c) A student who attains the age of 16 years during the school year is not subject to compulsory school attendance beyond the date upon which he or she attains that age if the student files a formal declaration of intent to terminate school enrollment with the district school board. Public school students who have attained the age of 16 years and who have not graduated are subject to compulsory school attendance until the formal declaration of intent is filed with the district school board. The declaration must acknowledge that terminating school enrollment is likely to reduce the student's earning potential and must be signed by the student and the student's parent. The school district shall ~~must~~ notify the student's parent of receipt of the student's declaration of intent to terminate school enrollment. The student's certified school ~~guidance~~ counselor or other school personnel shall ~~must~~ conduct an exit interview with the student to determine the reasons for the student's decision to terminate school enrollment and actions that could be taken to keep the student in school. The student's certified school counselor or other school personnel shall inform the student ~~must be informed~~ of opportunities to continue his or her education in a different environment, including, but not limited to, adult education and GED test preparation. Additionally, the student shall ~~must~~ complete a survey in a

format prescribed by the Department of Education to provide data on student reasons for terminating enrollment and actions taken by schools to keep students enrolled.

Section 5. Paragraph (d) of subsection (7) of section 1003.43, Florida Statutes, is amended to read:

1003.43 General requirements for high school graduation.—

(7) No student may be granted credit toward high school graduation for enrollment in the following courses or programs:

(d) Any Level I course unless the student's assessment indicates that a more rigorous course of study would be inappropriate, in which case a written assessment of the need must be included in the student's individual educational plan or in a student performance plan, signed by the principal, the certified school ~~guidance~~ counselor, and the parent of the student, or the student if the student is 18 years of age or older.

Section 6. Subsection (3) and paragraph (a) of subsection (4) of section 1003.491, Florida Statutes, are amended to read:

1003.491 Florida Career and Professional Education Act.—The Florida Career and Professional Education Act is created to provide a statewide planning partnership between the business and education communities in order to attract, expand, and retain targeted, high-value industry and to sustain a strong, knowledge-based economy.

(3) The strategic 3-year plan developed jointly by the local school district, regional workforce boards, economic development agencies, and state-approved postsecondary institutions shall be constructed and based on:

(a) Research conducted to objectively determine local and

regional workforce needs for the ensuing 3 years, using labor projections of the United States Department of Labor and the Department of Economic Opportunity;

(b) Strategies to develop and implement career academies or career-themed courses based on those careers determined to be high-wage, high-skill, and high-demand;

(c) Strategies to provide shared, maximum use of private sector facilities and personnel;

(d) Strategies that ensure instruction by industry-certified faculty and standards and strategies to maintain current industry credentials and for recruiting and retaining faculty to meet those standards;

(e) Strategies to provide personalized student advisement, including a parent-participation component, and coordination with middle schools to promote and support career-themed courses and education planning as required under s. 1003.4156;

(f) Alignment of requirements for middle school career planning under s. 1003.4156(1)(a)5., middle and high school career and professional academies or career-themed courses leading to industry certification or postsecondary credit, and high school graduation requirements;

(g) Provisions to ensure that career-themed courses and courses offered through career and professional academies are academically rigorous, meet or exceed appropriate state-adopted subject area standards, result in attainment of industry certification, and, when appropriate, result in postsecondary credit;

(h) Plans to sustain and improve career-themed courses and career and professional academies;

(i) Strategies to improve the passage rate for industry certification examinations if the rate falls below 50 percent;

(j) Strategies to recruit students into career-themed courses and career and professional academies which include opportunities for students who have been unsuccessful in traditional classrooms but who are interested in enrolling in career-themed courses or a career and professional academy. School boards shall provide opportunities for students who may be deemed ~~as~~ potential dropouts to enroll in career-themed courses or participate in career and professional academies;

(k) Strategies to provide sufficient space within academies to meet workforce needs and to provide access to all interested and qualified students;

(l) Strategies to implement career-themed courses or career and professional academy training that lead to industry certification in juvenile justice education programs;

(m) Opportunities for high school students to earn weighted or dual enrollment credit for higher-level career and technical courses;

(n) Promotion of the benefits of the Gold Seal Bright Futures Scholarship;

(o) Strategies to ensure the review of district pupil-progression plans and to amend such plans to include career-themed courses and career and professional academy courses and to include courses that may qualify as substitute courses for core graduation requirements and those that may be counted as elective courses;

(p) Strategies to provide professional development for secondary certified school ~~guidance~~ counselors on the benefits

of career and professional academies and career-themed courses that lead to industry certification; and

(q) Strategies to redirect appropriated career funding in secondary and postsecondary institutions to support career academies and career-themed courses that lead to industry certification.

(4) The State Board of Education shall establish a process for the continual and uninterrupted review of newly proposed core secondary courses and existing courses requested to be considered as core courses to ensure that sufficient rigor and relevance is provided for workforce skills and postsecondary education and aligned to state curriculum standards.

(a) The review of newly proposed core secondary courses shall be the responsibility of a curriculum review committee whose membership is approved by Workforce Florida, Inc., and shall include:

1. Three certified high school ~~guidance~~ counselors recommended by the Florida Association of Student Services Administrators.

2. Three assistant superintendents for curriculum and instruction, recommended by the Florida Association of District School Superintendents and who serve in districts that operate successful career and professional academies pursuant to s. 1003.492 or a successful series of courses that lead to industry certification. Committee members in this category shall employ the expertise of appropriate subject area specialists in the review of proposed courses.

3. Three workforce representatives recommended by the Department of Economic Opportunity.

4. Three admissions directors of postsecondary institutions accredited by the Southern Association of Colleges and Schools, representing both public and private institutions.

5. The Commissioner of Education, or his or her designee, responsible for K-12 curriculum and instruction. The commissioner shall employ the expertise of appropriate subject area specialists in the review of proposed courses.

Section 7. Paragraph (f) of subsection (5) of section 1004.04, Florida Statutes, is amended to read:

1004.04 Public accountability and state approval for teacher preparation programs.—

(5) CONTINUED PROGRAM APPROVAL.—Notwithstanding subsection (4), failure by a public or nonpublic teacher preparation program to meet the criteria for continued program approval shall result in loss of program approval. The Department of Education, in collaboration with the departments and colleges of education, shall develop procedures for continued program approval that document the continuous improvement of program processes and graduates' performance.

(f)1. Each Florida public and private institution that offers a state-approved teacher preparation program must annually report information regarding these programs to the state and the general public. This information shall be reported in a uniform and comprehensible manner that is consistent with definitions and methods approved by the Commissioner of the National Center for Educational Statistics and that is approved by the State Board of Education. This information must include, at a minimum:

a. The percent of graduates obtaining full-time teaching

employment within the first year of graduation.

b. The average length of stay of graduates in their full-time teaching positions.

c. Satisfaction ratings required in paragraph (e).

2. Each public and private institution offering training for school readiness related professions, including training in the fields of child care and early childhood education, whether offering career credit, associate in applied science degree programs, associate in science degree programs, or associate in arts degree programs, shall annually report information regarding these programs to the state and the general public in a uniform and comprehensible manner that conforms with definitions and methods approved by the State Board of Education. This information must include, at a minimum:

a. Average length of stay of graduates in their positions.

b. Satisfaction ratings of graduates' employers.

This information shall be reported through publications, including college and university catalogs and promotional materials sent to potential applicants, certified secondary school ~~guidance~~ counselors, and prospective employers of the institution's program graduates.

Section 8. Paragraphs (a) and (c) of subsection (2) of section 1006.025, Florida Statutes, are amended to read:

1006.025 Guidance services.—

(2) The guidance report shall include, but not be limited to, the following:

(a) Examination of student access to certified school ~~guidance~~ counselors.

(c) Evaluation of the information and training available to certified school ~~guidance~~ counselors and career specialists to advise students on areas of critical need, labor market trends, and technical training requirements.

Section 9. Paragraph (a) of subsection (5) of section 1007.35, Florida Statutes, is amended to read:

1007.35 Florida Partnership for Minority and Underrepresented Student Achievement.—

(5) Each public high school, including, but not limited to, schools and alternative sites and centers of the Department of Juvenile Justice, shall provide for the administration of the Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT), or Preliminary ACT (PLAN) to all enrolled 10th grade students. However, a written notice shall be provided to each parent that shall include the opportunity to exempt his or her child from taking the PSAT/NMSQT or PLAN.

(a) Test results will provide each high school with a database of student assessment data which certified school ~~guidance~~ counselors will use to identify students who are prepared or who need additional work to be prepared to enroll and be successful in AP courses or other advanced high school courses.

Section 10. Paragraph (b) of subsection (2) of section 1008.42, Florida Statutes, is amended to read:

1008.42 Public information on career education programs.—

(2) The dissemination shall be conducted in accordance with the following procedures:

(b)1. Each district school board shall publish, at a minimum, the most recently available placement rate for each

career certificate program conducted by that school district at the secondary school level and at the career degree level. The placement rates for the preceding 3 years shall be published, if available, shall be included in each publication that informs the public of the availability of the program, and shall be made available to each certified school ~~guidance~~ counselor. If a program does not have a placement rate, a publication that lists or describes that program must state that the rate is unavailable.

2. Each Florida College System institution shall publish, at a minimum, the most recent placement rate for each career certificate program and for each career degree program in its annual catalog. The placement rates for the preceding 3 years shall be published, if available, and shall be included in any publication that informs the public of the availability of the program. If a program does not have a placement rate, the publication that lists or describes that program must state that the rate is unavailable.

3. If a school district or a Florida College System institution has calculated for a program a placement rate that differs from the rate reported by the department, and if each record of a placement was obtained through a process that was capable of being audited, procedurally sound, and consistent statewide, the district or the Florida College System institution may use the locally calculated placement rate in the report required by this section. However, that rate may not be combined with the rate maintained in the computer files of the Department of Education’s Florida Education and Training Placement Information Program.

4. An independent career, trade, or business school may not publish a placement rate unless the placement rate was determined as provided by this section.

Section 11. Subsection (3) of section 1009.53, Florida Statutes, is amended to read:

1009.53 Florida Bright Futures Scholarship Program.—

(3) The Department of Education shall administer the Bright Futures Scholarship Program according to rules and procedures established by the State Board of Education. A single application must be sufficient for a student to apply for any of the three types of awards. The department shall ~~must~~ advertise the availability of the scholarship program and shall ~~must~~ notify students, teachers, parents, certified school ~~guidance~~ counselors, and principals or other relevant school administrators of the criteria and application procedures. The department must begin this process of notification no later than January 1 of each year.

Section 12. Paragraph (b) of subsection (2) of section 1012.01, Florida Statutes, is amended to read:

1012.01 Definitions.—As used in this chapter, the following terms have the following meanings:

(2) INSTRUCTIONAL PERSONNEL.—"Instructional personnel" means any K-12 staff member whose function includes the provision of direct instructional services to students. Instructional personnel also includes K-12 personnel whose functions provide direct support in the learning process of students. Included in the classification of instructional personnel are the following K-12 personnel:

(b) *Student personnel services.*—Student personnel services

include staff members responsible for: advising students with regard to their abilities and aptitudes, educational and occupational opportunities, and personal and social adjustments; providing placement services; performing educational evaluations; and similar functions. Included in this classification are certified school ~~guidance~~ counselors, social workers, career specialists, and school psychologists.

Section 13. Subsection (1) of section 1012.71, Florida Statutes, is amended to read:

1012.71 The Florida Teachers Lead Program.—

(1) For purposes of the Florida Teachers Lead Program, the term "classroom teacher" means a certified teacher employed by a public school district or a public charter school in that district on or before September 1 of each year whose full-time or job-share responsibility is the classroom instruction of students in prekindergarten through grade 12, including full-time media specialists and certified school ~~guidance~~ counselors serving students in prekindergarten through grade 12, who are funded through the Florida Education Finance Program. A "job-share" classroom teacher is one of two teachers whose combined full-time equivalent employment for the same teaching assignment equals one full-time classroom teacher.

Section 14. Paragraph (a) of subsection (3) of section 1012.98, Florida Statutes, is amended to read:

1012.98 School Community Professional Development Act.—

(3) The activities designed to implement this section must:

(a) Support and increase the success of educators through collaboratively developed school improvement plans that focus on:

1. Enhanced and differentiated instructional strategies to engage students in a rigorous and relevant curriculum based on state and local educational standards, goals, and initiatives;

2. Increased opportunities to provide meaningful relationships between teachers and all students; and

3. Increased opportunities for professional collaboration among and between teachers, certified school ~~guidance~~ counselors, instructional leaders, postsecondary educators engaged in preservice training for new teachers, and the workforce community.

Section 15. This act shall take effect July 1, 2013.

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/CS/SB 156 creates a new, mandatory licensing requirement for residential pool cleaning in Florida. In addition, the bill amends a number of provisions related to building construction in the state.

The bill as filed has an indeterminate fiscal impact. The Department of Business and Professional Regulation (DBPR or department), indicates the bill will increase application and renewal fees from registered electrical, alarm system and electrical specialty contractors grandfathering their registered contractors' licenses to certified contractors' licenses. The DBPR anticipates an increase of $570,080 in application and license fees during Fiscal Year 2013-2014, $447,440 in Fiscal Year 2014-2015, and $570,080 in Fiscal Year 2015-2016.

According to the department, the new, mandatory licensing for water treatment service providers and the reduction in eligibility requirements for the swimming pool/spa servicing contractors' examination in CS/CS/SB 156, which become effective October 1, 2014, will produce an estimated $5.2 million net increase in revenue to the Professional Regulation Trust Fund in Fiscal Year 2014-2015, a net loss of revenue to the Professional Regulation Trust Fund in Fiscal Year 2015-2016, and a $3.7 million net increase in revenue for the Professional Regulation Trust

Fund in Fiscal Year 2016-2017. These impacts include the DBPR's estimated administrative costs necessary to handle the additional workload associated with processing new license and renewal license applications and responding to consumer inquiries. Those estimated administrative costs in Fiscal Year 2014-2015 are $296,747, five full-time-equivalent positions and two Other Personal Services (OPS) positions. See Section V.

Specifically, the bill:

- Revises noticing requirements of alleged violators of local codes and ordinances.
- Clarifies that a state agency constructing or renovating certain buildings is required to select a sustainable building rating system or national model green building code.
- Requires all state agencies, when constructing public bridges, buildings and other structures, to use lumber, timber, and other forest products produced and manufactured in Florida if such products are available, and their price, fitness, and quality are equal.
- Exempts specified septic tank system inspections and evaluations when remodeling a home.
- Provides that certain residential construction may not impact sewage treatment or disposal systems or encroach on septic areas as determined by a local health department floor and site plan review.
- Revises the definition of the term "contractor," adds "maintenance for water treatment" to the definition of a contractor, and includes cleaning, maintenance, and water treatment of swimming pools and spas within the licensure scope for commercial pool/spa contractors, residential pool/spa contractors, and swimming pool/spa servicing contractors.
- Removes current licensure exemptions for individuals and businesses that provide only pool and spa cleaning, maintenance and water treatment services.
- Removes the one year experience requirement for swimming pool/spa service contractors and instead requires 20 hours of in-field, hands-on instruction.
- Provides an exemption from licensure requirements for owners or operators, or their direct employees, who maintain a public swimming pool or spa for the purpose of water treatment.
- Revises the meaning of "demolish" as it is used to define licensed contractors.
- Provides that amendments enacted in 2012 related to the licensing of contractors and subcontractors are remedial in nature, are intended to clarify existing law, and apply retroactively.
- Increases the maximum civil penalty a local governing body may levy against an unlicensed contractor.
- Revises local government and the DBPR collection retention percentages for unpaid fines and costs ordered by the Construction Industry Licensing Board.
- Removes a requirement that local governments send minor violation notices to contractors prior to seeking fines and other disciplinary penalties.
- Extends the grandfathering period for certain registered electrical and alarm system contractors to acquire statewide certified licenses.
- Adds a definition for "local technical amendment" in the Florida Building Code.
- Clarifies a prohibition to adopt any mandatory sprinkler provisions of the International Residential Code within the Florida Building Code or any local amendments to the state code.
- Adds a member to the Florida Building Commission from the natural gas distribution industry.

- Authorizes that an electronic copy of a building site plan may be maintained for record retention and inspection purposes at a building site.
- Includes "impact protective systems" among the categories of products that receive approval by the Florida Building Commission.
- Specifies the DBPR procedures for Florida Building Code product approval compliance and authorizes the process for expedited 10-day approval reviews.
- Renames the statewide standard for energy efficiency.
- Specifies that residential heating and cooling systems need only meet the manufacturer's approval and listing of equipment.
- Eliminates the DBPR's responsibilities regarding a statewide uniform building energy-efficiency rating system.
- Creates building energy-efficiency system definitions.
- Provides additional energy-efficiency rating system changes which reflect the DBPR's revised role in the process.

This bill substantially amends the following sections of the Florida Statutes: 162.12, 255.20, 255.257, 255.2575, 381.0065, 489.103, 489.105, 489.111, 489.127, 489.131, 489.514, 489.531, 553.71, 553.73, 553.74, 553.79, 553.842, 553.901, 553.902, 553.903, 553.904, 553.905, 553.906, 553.912, 553.991, 553.993, 553.994, 553.995, 553.996, 553.997, and 553.998.

This bill repeals section 553.992 and creates an unnumbered section of the Florida Statutes.

II. Present Situation:

Code Enforcement Notices

Notices to alleged violators of local government codes and ordinances are governed by s. 162.12, F.S. There are four options cited in s. 162.12(1), F.S., by which notices are provided, including by:

> certified mail to the address listed in the tax collector's office for tax notices, or to any other address provided by the property owner in writing to the local government for the purpose of receiving notices. For property owned by a corporation, notices may be provided by certified mail to the registered agent of the corporation. If any notice sent by certified mail is not signed as received within 30 days after the date of mailing, notice may be provided by posting as described in subparagraphs (2)(b)1. and 2.[, relating to publication of notices and the physical posting of notices, respectively]

The other options for serving notices in s. 162.12(1), F.S., are by:

- Hand delivery by the sheriff, code inspector, or other designated person;
- Leaving at the violator's residence with any person residing there above the age of 15; or
- For commercial premises, leaving the notice with the manager or other person in charge.[1]

[1] *See* ss. 162.12(1)(b)-(d), F.S.

In addition to the noticing provisions outlined in s. 162.12(1), F.S., the code enforcement board may serve notice through publication or posting methods.[2]

Florida Energy Conservation and Sustainable Buildings Act

In recent years, the Florida Legislature has placed an increased emphasis on promoting renewable energy, energy conservation, and enhanced energy efficiency on a state and local level. In 2008, the Legislature passed a comprehensive energy package,[3] which contained the Florida Energy Conservation and Sustainable Buildings Act (Act). This Act (ss. 255.51-255.2575, F.S.) provides that:

> Significant efforts are needed to build energy-efficient state-owned buildings that meet environmental standards and provide energy savings over the life of the building structure. With buildings lasting many decades and with energy costs escalating rapidly, it is essential that the costs of operation and maintenance for energy-using equipment and sustainable materials be included in all design proposals for state-owned buildings.[4]

Section 255.252(3), F.S., provides legislative intent that "it is the policy of the state that buildings constructed and financed by the state be designed and constructed to comply with a sustainable building rating or a national model green building code" and "[i]t is further the policy of the state that the renovation of existing state facilities be in accordance with a sustainable building rating or a national model green building code."

"Sustainable building rating or national model green building code" means a rating system established by one of the following:

- United States Green Building Council (USGBC) Leadership in Energy and Environmental Design (LEED) rating system,
- International Green Construction Code (IgCC),
- Green Building Initiative's Green Globes rating system,
- Florida Green Building Coalition standards, or
- A nationally recognized, high-performance green building rating system as approved by the Department of Management Services.[5]

Section 255.257(4)(a), F.S., specifies that: "[a]ll state agencies shall adopt a sustainable building rating system or use a national model green building code for all new buildings and renovations to existing buildings." Section 255.2575(2), F.S., provides that "[a]ll county, municipal, school district, water management district, state university, community college, and state court buildings shall be constructed to comply with a sustainable building rating system or a national model green building code."[6]

[2] *See* s.162.12(2), F.S.
[3] Chapter 2008-227, L.O.F.
[4] Section 255.252(2), F.S.
[5] Section 255.253(7), F.S.
[6] This section applies to all county, municipal, school district, water management district, state university, community college, and state court buildings the architectural plans of which are commenced after July 1, 2008.

The Department of Management Services (DMS) states on its website that:

> State agencies are required by law to comply with the various green aspects of a sustainable rating system such as LEED or the others approved in statute. However, when it comes to energy consumption in particular, state agencies are now required by rule to consider at least one design option that far outperforms their preferred rating system. Nevertheless, an agency's ultimate decision must be made on the basis of long-term cost-effectiveness.7

Administrative rules adopted by the DMS pertaining to sustainable building ratings[8] implement the statutes by requiring all agencies that are designing, constructing, or renovating a facility to perform a life-cycle cost analysis for at least three distinct energy-related designs that progressively meet and exceed the minimum energy performance requirements of the particular sustainable building rating or national model green building code adopted by the agency. The DMS then evaluates this life-cycle cost analysis for technical correctness and completeness.[9] According to the DMS, these Rules allow the agencies sole discretion as it pertains to the selection of a sustainable building rating or national model green building code.

The following are basic, brief descriptions of the four statutorily-authorized sustainable building rating systems:

- **Leadership in Energy and Environmental Design (LEED)** is a "voluntary, consensus-based, market-driven" program that provides third-party verification of green buildings [and] addresses the entire lifecycle of a building. LEED projects have been established in 135 countries…. For commercial buildings and neighborhoods, to earn LEED certification, a project must satisfy all LEED prerequisites and earn a minimum 40 points on a 110-point LEED rating system scale.[10]

- **International Green Construction Code (IgCC)** is the "first model code to include sustainability measures for the entire construction project and its site - from design through construction, certificate of occupancy and beyond. The new code is expected to make buildings more efficient, reduce waste, and have a positive impact on health, safety and community welfare…." The IgCC "creates a regulatory framework for new and existing buildings, establishing minimum green requirements for buildings and complementing voluntary rating systems, which may extend beyond the baseline of the IgCC. The code acts as an overlay to the existing set of *International Codes*…."[11]

- **Green Globes** is a web-based program for green building guidance and certification that includes an onsite assessment by a third party. "Green Globes offers a streamlined and affordable…way to advance the overall environmental performance and sustainability of

[7] http://www.dms.myflorida.com/business_operations/real_estate_development_management/facilities_management/sustainablebuildings_and_energy_initiatives.
[8] Chapter 60D, F.A.C.
[9] Rule 60D-4.004(1)(c)1 and 2, F.A.C.
[10] http://new.usgbc.org/leed.
[11] http://www.iccsafe.org/cs/igcc/pages/default.aspx.

commercial buildings. The program has modules supporting new construction… [and]…existing buildings…. It is suitable for a wide range of buildings from large and small offices, multi-family structures, hospitals, and institutional buildings such as courthouses, schools, and universities."[12]

- The **Florida Green Building Coalition (FGBC)** is a nonprofit corporation "dedicated to improving the built environment, [whose] mission is to lead and promote sustainability with environmental, economic, and social benefits through regional education and certification programs. FGBC was conceived and founded in the belief that green building programs will be most successful if there are clear and meaningful principles on which 'green' qualification and marketing are based."[13]

According to proponents of the bill, LEED is the only sustainable building rating system that does not award points for timber that is grown on a majority of Florida's 16 million acres of forest, leaving only approximately 200 acres of Florida-grown wood being certified under this rating system, because LEED only awards points for timber that is grown under the Forest Stewardship Council requirements.[14] The DMS has chosen the LEED rating system to meet its own needs.

Florida Timber Industry

According to the Florida Forestry Association, there are almost 16 million acres of forests in Florida. Seventy percent (11.2 million acres) is privately owned, 16 percent (2.6 million acres) is owned by the state, 11 percent (1.7 million acres) is owned by the federal government, and three percent (0.5 million acres) is owned by local governments.[15, 16] Although forests cover about 50 percent of the state's land area, Florida's timberlands are located mostly north of Orlando. In the northern half of the state most counties are at least 50 percent forested. Liberty County in northwest Florida is the most forested with timber lands covering more than 90 percent of its area. The peninsula is forested at 40 percent or less and a number of counties in southeast Florida are less than 10 percent forested.[17]

In 2010, there were 59 primary wood-using mills in Florida. Almost half of those are sawmills (27). Other types of mills include mulch (7), pulp/paper (6), chip-and-saw (5), chip mill (3), post (3), plywood (2), pole (2), pellet, strand board, veneer and firewood (1 each). The primary wood-using mills in Florida are located mostly in the northern part of the state.[18]

There are several forest certification standard programs that provide guidance and certification that timber land is being used in a sustainable manner. The Forest Stewardship Council, the

[17] *Ibid.*
[18] *Ibid.*

American Tree Farm System, and the Sustainable Forestry Initiative are some commonly-used programs.

The Forest Stewardship Council (FSC) is an independent, non-profit organization. "[M]embership consists of three equally weighted chambers -- environmental, economic, and social -- to ensure the balance and the highest level of integrity. Independent FSC-accredited certification bodies verify that all FSC-certified forests conform to the requirements contained within an FSC forest management standard…. Certifiers are independent of FSC and the companies they are auditing."[19]

The Sustainable Forestry Initiative (SFI) program is a widely-used standard. The organization asserts that their "forest certification standard is based on principles that promote sustainable forest management, including measures to protect water quality, biodiversity, wildlife habitat, species at risk, and Forests with Exceptional Conservation Value." Further, that the standard "has strong acceptance in the global marketplace so we can deliver a steady supply of wood and paper products from legal and responsible sources. This is especially important at a time when there is growing demand for green building and responsible paper purchasing, and less than 10 percent of the world's forests are certified."[20]

The American Tree Farm System (ATFS), another commonly-used program, "offers certification to landowners who are committed to good forest management….Forest certification is the certification of land management practices to a standard of sustainability. A written certification is issued by an independent third-party that attests to the sustainable management of a working forest…protect[ing] economic, social and environmental benefits."[21]

Florida Lumber Preference in Local Government Construction Contracting

Section 255.20, F.S., specifies requirements for local government construction contracting. Section 255.20(3), F.S., provides as follows:

> All county officials, boards of county commissioners, school boards, city councils, city commissioners, and all other public officers of state boards or commissions that are charged with the letting of contracts for public work, for the construction of public bridges, buildings, and other structures must specify lumber, timber, and other forest products produced and manufactured in this state if such products are available and their price, fitness, and quality are equal. This subsection does not apply to plywood specified for monolithic concrete forms, if the structural or service requirements for timber for a particular job cannot be supplied by native species, or if the construction is financed in whole or in part from federal funds with the requirement that there be no restrictions as to species or place of manufacture.

[19] Forest Stewardship Council website: https://us.fsc.org/about-certification.198.htm.

[21] American Tree Farm System website: https://us.fsc.org/about-certification.198.htm.

Onsite Sewage Treatment and Disposal Systems and Remodeling

An "onsite sewage treatment and disposal system (system)" is a system that contains a standard subsurface, filled, or mound drainfield system; an aerobic treatment unit; a graywater system tank; a laundry wastewater system tank; a septic tank; a grease interceptor; a pump tank; a solid or effluent pump; a waterless, incinerating, or organic waste-composting toilet; or a sanitary pit privy that is installed or proposed to be installed beyond the building sewer on land of the owner or on other land to which the owner has the legal right to install a system.[22]

Section 381.0065(3), F.S., authorizes the Department of Health (DOH) to adopt rules administering system statute provisions and to perform system application reviews, site evaluations and issue permits. In addition, DOH may inspect residential system construction, modification, and repair. Currently, a system modification, replacement, or upgrade is not required for a remodeling addition to a single-family home if a bedroom is not added.[23]

Pool Cleaning in Florida

Currently, the practice of pool contracting is regulated by DBPR under the auspices of the Construction Industry Licensing Board (CILB). Pursuant to ss. 489.105(3)(j), (k) and (l), F.S., mandatory licensure is required for commercial pool/spa contractors, residential pool/spa contractors, and swimming pool/spa servicing contractors respectively to construct or repair pools. Contractors must maintain one of these licenses to contract for the installation, repair, or servicing of commercial or residential pools, spas and hot tubs. However, each of these categories specifically exempts persons who offer only cleaning, maintenance and water treatment of pools, spas and hot tubs from mandatory licensing, so long as the work contracted does not affect the structural integrity of the pool, spa or hot tub or require installation, modification or replacement of its permanently attached equipment. This exemption was added by the legislature in 1996.[24]

While DBPR does not currently require licensure for persons offering only pool cleaning services, the Florida Department of Health (DOH) has responsibility under s. 514.075, F.S., to certify public pool service technicians. Public pool service technicians must demonstrate knowledge of pool maintenance and water treatment by passing a 16-hour course approved by DOH. Persons holding a current commercial pool/spa contractor, residential pool/spa contractor, and/or swimming pool/spa servicing contractor license from DBPR are exempt from certification under s. 514.075, F.S.

The DOH estimates there are approximately 37,000 public pools in Florida that use the services of 12,000 certified pool service technicians.[25] According to the DOH's estimate, there are currently 14,000 certified pool servicing technicians.[26] Pool service technicians may or may not be direct employees of an owner or operator of a public pool.

[22] Section 381.0065(2)(k), F.S.
[23] Section 381.0065(4)(aa), F.S.
[24] Ch. 96-365, L.O.F.
[25] 2*013 Legislative Analysis for SB 156*, Department of Health, dated January 7, 2013.
[26] 2*013 Legislative Analysis for CS/SB 156 as amended*, Department of Health, dated March 7, 2013.

Currently, applicants for commercial swimming pool/spa contractor and/or residential pool/spa contractor license are eligible to sit for the state certification examination if he or she has at least four years of experience in the required licensure category. Applicants may substitute up to three years of college credits in lieu of years of experience but must have at least one year of experience as a foreman in the license category sought. Pursuant to s. 489.111(2)(c)6.d., F.S., a person is qualified to sit for the swimming pool/spa servicing contractor's examination if they possess one year of experience in swimming pool service work and complete 60 hours of instruction in course work approved by the Construction Industry Licensing Board. All applicants must also establish that they are 18 years of age, of good moral character, and meet minimum financial stability requirements.

Construction Contracting Regulation

Construction and electrical contracting is regulated under ch. 489, F.S. With certain statutory exemptions from licensure, construction contractors are regulated by the Construction Industry Licensing Board (CILB) within the Department of Business and Professional Regulation (DBPR).[27] Section 489.115, F.S., provides that contractors must either be certified (licensed by the state to contract statewide) or registered (licensed by a local jurisdiction and registered by the state to contract work within the geographic confines of the local jurisdiction only) to engage in contracting in Florida.

The CILB is divided into two divisions: Division I and Division II.[28] Division I of the CILB has jurisdiction over the regulation of general contractors, building contractors, and residential contractors. Division II of the CILB has jurisdiction over the remaining contractors defined in s. 489.105(3). F.S., which include contractors in sheet metal, roofing, air conditioning, pools and spas, plumbing, underground utilities, solar panels, and pollutant storage systems.

Construction Contracting and Licensure to Demolish

Section 489.105(3), F.S., defines "contractor" as:

> a person, who for compensation undertakes to, submits a bid to, or does himself or herself or by others construct, repair, alter, remodel, add to, demolish, subtract from, or improve any building or structure, including related improvements to real estate, for others or for resale to others . . . .[29]

Of the defined contractor activities, demolish is the sole act that receives additional clarification in the statute.

> For the purposes of regulation under this part, the term "demolish" applies only to demolition of steel tanks more than 50 feet in height; towers more than 50 feet in height; other structures more than 50 feet in height; *and all buildings or residences.* [30]

[27] See s. 489.103, F.S., for statutory exemptions.
[28] Section 489.107(4)(a)-(b), F.S.
[29] *Italics* added.
[30] Section 489.105(3), F.S. Italics added.

Prior to changes to this definition during the 2012 legislative session,[31] demolition of buildings or residences that were three stories in height or less, as well as, steel tanks, towers and other structures 50 feet in height or less did not require licensure under ch. 489, F.S.

Licensing of Contractors and Subcontractors

Section 489.113(2), F.S., provides that subcontractors who are not certified or registered may perform construction work under the supervision of a certified or registered contractor, provided that the work is within the scope of the supervising contractor's license, the supervising contractor is responsible for the work, and the supervised subcontractor is not engaged in construction work that would require a specialty contractor license under s. 489.105(3)(d)-(o), F.S. This provision was last amended during the 2012 Regular Session by s. 11 of ch. 2012-13, L.O.F., which replaced the term "person" with "subcontractor." It also replaced the term "supervisor's license" with "supervising contractor's license."

Penalties for Unlicensed Contracting

Prohibitions and penalties for construction contracting and electrical and alarm system contracting are found in Part I, ch. 489, F.S., and Part II, ch. 489, F.S., respectively. The local governing body of a county or municipality is authorized to enforce codes and ordinances against unlicensed contractors. The local governing board may enact an ordinance establishing procedures for implementing codes, including a schedule of penalties to be assessed by the code enforcement officer for violations.[32] The maximum civil penalty which may be levied for a citation shall not exceed $500.[33]

A person charged with a violation has two options: correct the cited violation and pay the civil penalty, or, request an administrative hearing before the enforcement or licensing board or designated special magistrate. If either of these entities finds that a violation exists, it may order the violator to pay a civil penalty of not less than the original citation but not more than $1,000 per day for each construction contracting violation and $500 for each electrical contracting violation.[34]

Outstanding Fines Issued by the Florida Construction Industry Licensing Board

Section 489.127(6), F.S., authorizes local municipalities and counties to collect unpaid fines and costs ordered by the CILB. These local governments may retain 25 percent of the total amount collected if they remit the remaining 75 percent to the DBPR.[35] According to the DBPR, the department currently uses the Department of Financial Services' approved collections vendor to collect unpaid fines and costs when a required payment remains delinquent for more than 6 months.[36]The vendor charges a 23 percent

[31] Chapter 2012-13, s. 9, Laws of Fla.
[32] *See* ss. 489.127(5)(c) and 489.531(4)(c), F.S.
[33] *Id.*
[34] *See* 489.127(5)(f) and 489.531(4)(f), F.S.
[35] DBPR does not have any record of local governments remitting to the department unpaid fines and costs ordered by the Construction Industry Licensing Board.
[36] Florida Department of Business and Professional Regulation, *Agency Analysis of SB 1252: Building Construction* (Mar. 13, 2013) (on file with the Senate Committee on Community Affairs).

fee in order to collect the ordered amount. This fee becomes due upon collection regardless of who collects the unpaid fine.

Compliance with State Law and Local Ordinances on Contracting

Section 489.131(7)(a), F.S., provides that local government contracting fines and other penalties are assessed for the primary purpose of gaining compliance with the laws regulating the unlicensed practice of contracting. The subsection further requires that local jurisdictions issue a notice of noncompliance prior to seeking fines and other penalties for first-time "minor violations."[37] Such notices of non-compliance must identify the ordinance violated, specify a method of compliance, and provide a reasonable time period for compliance. Failure to address a notice of non-compliance is grounds for additional disciplinary proceedings.

Grandfathering Provisions for Electrical and Alarm System Contractors

As noted, ch. 489, F.S., requires that all individuals who practice construction and electrical contracting in Florida must either be "certified" or "registered." Section 489.514, F.S., provides that the CILB issue a "certification" to an electrical, electrical specialty or alarm system contractor who is "registered" upon receipt of a completed application, payment of an appropriate fee, and evidence that he or she meets statutorily specified criteria. The criteria include possessing a registered local license, passing an approved written examination, and having at least five years of contracting. Applicants wishing to obtain a "certificate" pursuant to this statutory "grandfather" allowance were required to make application by November 1, 2004.[38]

Technical Amendments to the Florida Building Code

Under certain conditions, counties and municipalities may adopt by ordinance a technical amendment to the Florida Building Code relating to flood resistance.[39] A technical amendment is authorized to the extent it is more stringent than the base code and is not subject to the requirements governing local government amendments in s. 553.73(4), F.S.

Residential Fire Sprinklers

In 2010, the Legislature amended s. 553.73(17), F.S., to prohibit the Florida Building Commission from adopting or incorporating mandatory fire sprinklers provisions in section R313 of the most current version of the International Residential Code (IRC) as part of the Florida Building Code or as a local amendment to the Code.[40] Pursuant to the enacted prohibition, the Florida Building Commission did not adopt the current version section as part of

[37] A violation is deemed "minor" if it does not result in economic or physical harm to a person or adversely affect the public health, safety, or welfare or create a significant threat of such harm.
[38] Chapter 2012-211, s. 6, L.O.F., re-opened and extended a similar grandfather allowance for construction contractors in s. 489.118, F.S.
[39] See s. 553.73(5), F.S.
[40] Chapter 2010-176, s. 32, L.O.F.

the 2010 Florida Building Code and, according to the DBPR, the Commission is not considering it for the next edition of the Code.[41]

Florida Building Commission

The Florida Building Commission is a 25-member technical body responsible for the development, maintenance and interpretation of the Florida Building Code. The Commission also approves products for statewide acceptance and administers the Building Code Training Program. Members are appointed by the Governor and confirmed by the Senate and include design professionals, contractors, and government experts in the various disciplines covered by the code.[42]

Electronic Documents

The Building Code requires that a permit applicant submit one or more copies of construction documents to the building official and specifically authorizes applicants to submit such documents electronically when authorized by the local building official.[43] Construction documents include at a minimum "a floor plan; site plan; foundation plan; floor/roof framing plan or truss layout: all fenestration penetrations; flashing; and rough opening dimensions; and all exterior elevations" pursuant to s. 107.3.5, Florida Building Code, Building (2010). Once reviewed and approved by the building official, the Florida Building Code requires that one set of construction documents be retained by the building official and another be provided to the applicant to "be kept at the site of work and shall be open to inspection by the building official or a duly authorized representative" pursuant to s. 107.3.1, Florida Building Code, Building (2010).

Florida Building Code and the State Product Approval Program

The State Product Approval System, which went into effect October 1, 2003, covers certain structural products (i.e., panel walls, exterior doors, roofing products; skylights, windows, shutters, structural components, and new and innovative products) and provides manufacturers of these products with the choice of obtaining state approval as an alternative to receiving local approval.[44]

To obtain state approval for his or her products, a manufacturer must demonstrate compliance with applicable standards and provisions of the Florida Building Code by submitting one of the following reports:

- A certification mark or listing from an approved certification agency;
- A test report from an approved test laboratory;
- A product evaluation report from an evaluation entity authorized under s. 553.842(8)(a), F.S., or
- A product evaluation report developed, signed and sealed by a Florida licensed engineer or architect.

[41] Florida Department of Business and Professional Regulation, *Agency Analysis of SB 1252: Building Construction* (Mar. 13, 2013) (on file with the Senate Committee on Community Affairs).
[42] *See* ss. 553.74, 553.76 and 553.77, F.S.
[43] *See* s. 468.604(4), F.S.
[44] *See* s. 553.842, F.S.

Currently, applications for product approval using the test report method and evaluation report method are subject to approval by the Florida Building Commission using the normal approval process. However, applications for product approval using the certification method are subject to approval by the DBPR using the expedited 10-day review process as outlined in s. 553.842(5), F.S.

The Florida Energy Code

Part V of ch. 553, F.S.(ss. 553.900 – 553.912), titled "Florida Thermal Efficiency Code," was enacted in 1979 in response to the oil crisis of the 1970s and required the establishment of a "statewide thermal efficiency code." The Florida Building Commission adopted the Florida Energy Efficiency Code for Building Construction (FEECBC), which remained Florida's statewide energy code from 1979 to 2012.

In 2008, s. 553.73(7)(a), F. S., was amended to require the Florida Building Commission to use the International Energy Conservation Code as the foundation for Florida's Energy Code, while retaining the Florida-specific criteria which were established as part of the FEECBC.[45] The 2008 legislation required the Florida Building Commission to effectively adopt both the International Energy Code and the Florida Energy Efficiency Code for Building Construction. On March 15, 2012, the Florida Building Commission adopted the 2010 Florida Building Code – Energy Conservation, which is based on the 2009 IECC but maintains the Florida-specific criteria of the FEECBC.

Although "Florida's 2010 Florida Building Code – Energy Conservation" is different from the "Florida Energy Efficiency Code for Building Construction," according to the DBPR, most of the significant changes to its content result directly from the Florida-specific changes approved by the Florida Building Commission through the code update process.[46]

Air Conditioners and the Florida Energy Code

Section 553.912, F.S, requires all air conditioners sold or installed in the state to meet the minimum efficiency ratings of the Florida Energy Efficiency Code for Building Construction. It is the intent of the Legislature that all replacement air-conditioning systems be installed using energy-saving, quality installation procedures, including, but not limited to, equipment sizing analysis and duct inspection.

The Florida Building Energy Efficiency Rating System (BERS)

Chapter 553, part VIII, F.S., is known as the "Florida Building Energy-Efficiency Rating Act." The Act requires the DBPR to provide a statewide uniform system for rating the energy efficiency of buildings. In addition, the DBPR is required to develop a training and certification program to certify energy raters. The DBPR established the Building Energy Raters System (BERS) program to train and certify energy raters. The DBPR currently outsources

[45] Chapter 2008-227, s. 108, L.O.F.

[46] Florida Department of Business and Professional Regulation, *Agency Analysis of SB 1252: Building Construction* (Mar. 13, 2013) (on file with the Senate Committee on Community Affairs).

administration of the BERS program to the Florida Solar Energy Center (FSEC) on a no-cost basis through a Memorandum of Understanding.[47] Energy raters are trained and tested by FSEC and the Department issues the rater a certificate based on completion of the FSEC program. The rating system is a voluntary program and does not require any rating be performed.

Currently, BERS rules adopted by reference the 2006 Mortgage Industry National Home Energy Rating Systems Accreditation Standards, promulgated by the National Association of State Energy Officials (NASEO)/Residential Energy Services Network (RESNET) as the standard for energy rater certifications under the BERS program. As a national program for energy rating, RESNET's services and rating procedures are similar to those of the BERS program. Based on adoption of the NASEO standard, Florida BERS raters are also required to undertake national examinations and certifications.

III. Effect of Proposed Changes:

Section 1 amends s. 162.12, F.S., relating to Code enforcement notice requirements. The bill specifies that a notice sent by certified mail include a return receipt request. The notice may be sent to either an address from the tax collector's office *or* one from the database of the county property appraiser. The bill also allows the local government to provide notices to any address it may have for the property owner or through publication or posting methods.

Section 2 amends s. 255.20, F.S., to exempt transportation projects for which federal aid funds are available from the operation of an existing tiebreaker preference for Florida lumber in local government construction contracting.

Section 3 amends s. 255.2575, F.S., to require all state agencies, when constructing public bridges, buildings, and other structures, to use lumber, timber, and other forest products produced and manufactured in Florida if such products are available and their price, fitness, and quality are equal. This tiebreaker language does not apply to transportation projects for which federal aid funds are available, and mirrors the language in s. 255.20(3), F.S., in section 2 of the bill.

Section 4 amends s. 255.257, F.S., to clarify that a state agency constructing new buildings or renovating existing buildings is required to select a sustainable building rating system or national model green building code. The selection is made for each building and renovation to a building.

Section 5 amends s. 381.0065, F.S., which relates to onsite sewage treatment and disposal systems when remodeling a single family home that does not include the addition of a bedroom. Currently, a system modification, replacement, or upgrade of a system is not required in these types of remodeling projects. This bill specifies that an "existing inspection or evaluation and assessment" is also not required for such remodels.

The bill provides that the remodeling addition or modification may not cover any part of the system or encroach upon a required setback or the unobstructed area as determined by a timely local health department floor and site plan review. It provides that the Department of Health

[47] *Id.* The remainder of this section of the analysis is drawn from the DBPR Agency Analysis of the bill.

would determine whether the setback or unobstructed area is impacted through a review and verification of the floor plan for the proposed remodeling of, or addition to, a home. If the review and verification is not completed within seven days, the proposed remodeling or addition is deemed approved.

Section 6 amends s. 489.103, F.S., effective October 1, 2014, to exempt an owner or operator of public swimming pools[48] and spas permitted by the Department of Health, or his or her direct employees, who undertake to maintain the swimming pool or spa for the purpose of water treatment from the licensing requirement of the bill. Pool service technicians for public swimming pools who are employed by or associated with subsidiary entities or third party contractors are not exempted from the licensing requirement.

Section 7 amends s. 489.105(3), F.S., to add the phrase "maintain for purposes of water treatment" to the definition of contracting, specifically including such work within the mandatory licensure requirements of commercial pool/spa contractors, residential pool/spa contractors, and swimming pool/spa servicing contractors. The bill removes the current exemption for businesses and individuals who engage only in pool/spa cleaning, maintenance and water treatment services from s. 489.105(3)(j)-(l), F.S., requiring any businesses or individuals who provide such services to obtain either a commercial pool/spa contractor, residential pool/spa contractor, or swimming pool/spa servicing contractor license. The above provisions would become effective on October 1, 2014.

This section also defines the term "demolish," for purposes of licensure, as it existed prior to changes in 2012, and create an exemption from licensure for work that applies to demolition of buildings or residences that are three stories in height or less, as well as, steel tanks, towers and other structures 50 feet in height or less. The effective date for this amended definition is July 1, 2013.

Section 8 reduces the experience requirements for the swimming pool/spa service contractor's license under s. 489.111(2)(c)6.d., F.S., from one year of verifiable experience in swimming pool/spa service work to 20 hours of infield, hands-on instruction. However, all applicants for state certification would be required to pass the certification examination prior to licensure. In addition, all applicants for licensure would be required to meet all other licensure requirements, including the requirements to be at least 18 years old, be of good moral character, and meet biennial renewal requirements. These provisions would become effective on October 1, 2014.

Section 9 creates an undesignated section of law to provide that the amendments to s. 489.113(2), F.S., by s. 11 of ch. 2012, L.O.F., are remedial in nature and intended to clarify existing law relating to subcontractors who perform construction work under the supervision of a

[48] Section 514.011(2), F.S., defines a public swimming pool as a watertight structure . . . located either indoors or outdoors, used for bathing or swimming by humans, and filled with a filtered and disinfected water supply, together with buildings, appurtenances, and equipment . . .[including] a conventional pool, spa-type pool, wading pool, special purpose pool, or water recreation attraction, to which admission may be gained with or without payment of a fee and includes, but is not limited to, pools operated by or serving camps, churches, cities, counties, day care centers, group home facilities for eight or more clients, health spas, institutions, parks, state agencies, schools, subdivisions, or the cooperative living-type projects of five or more living units, such as apartments, boardinghouses, hotels, mobile home parks, motels, recreational vehicle parks, and townhouses.

certified or registered contractor. It provides that this section applies retroactively to any action initiated or pending on or after March 23, 2012.

Section 10 amends s. 489.127, F.S., relating to construction contracting prohibitions and penalties, to increase the maximum amount local municipalities and counties may charge for unlicensed contracting citations from $500 to $2,000 and to increase the maximum civil penalties for unlicensed contracting from $1,000 to $1,500 per day of each violation. In addition, the bill increases the percentage of funds a local government may retain when they collect unpaid fines and costs ordered by the Construction Industry Licensing Board from 25 percent to 75 percent. The remaining 25 percent would be remitted to the DBPR.

Section 11 amends s. 489.131, F.S., relating to compliance with state law and local ordinances for contractors, to remove the statement of Legislative intent that collection of fines and imposition of other penalties is secondary to the goal of attaining compliance with current regulations. In addition, the bill removes the requirement that local counties and municipalities issue a notice of non-compliance for first time minor violations prior to seeking fines and other disciplinary penalties.

Section 12 amends s. 489.514, F.S., to re-enact and extend the period for grandfathering of "registered" electrical, specialty electrical and alarm system contractor licenses to statewide "certified" licenses until November 1, 2015. Current law requires a license application by November 1, 2004. The extension is similar to a grandfather allowance for construction contractors, which in 2012 was extended to November 1, 2015.

Section 13 amends s. 489.531, F.S., to increase the maximum amount local municipalities and counties may charge for unlicensed electrical and alarm system contracting citations from $500 to $2,000.

Section 14 amends s. 553.71, F.S., to add a definition for purposes of the Florida Building Code to include "local technical amendment" to mean "an action by a local governing authority that results in a technical change to the Florida Building Code and its local enforcement."

Section 15 amends s. 553.73(17), F.S., to prohibit the adoption of any mandatory fire sprinkler provisions of the International Residential Code within the Florida Building Code or any local amendments to the state code. The section also clarifies that cost-saving incentives for IRC fire sprinklers are permissible when mutually agreed upon between a builder and code official.

Section 16 amends s. 553.74, F.S., to add a 26th member to the Florida Building Commission to represent the natural gas distribution system industry.

Section 17 amends s. 553.79, F.S., to authorize that an electronic copy of a building site plan may be maintained for record retention and inspection purposes at a building site.

Section 18 amends s. 553.842, F.S., to include "impact protective systems" among the categories of products that receive approval by the Florida Building Commission. Current law includes the categories of panel walls, exterior doors, roofing, skylights, windows, shutters, and structural components as established by Commission rule.

In addition, the section requires that the DBPR approve products that demonstrate compliance with the Florida Building Code when product evaluation testing reports from approved evaluation entities are used. Applications for product approval using product evaluation reports may be considered and approved by the DBPR under the expedited 10-day review process. The current procedure requires applications be held until the next meeting of the Florida Building Commission.

Section 19 amends s. 553.901, F.S., to rename the title of the statewide standard for energy efficiency from the Florida Energy Efficiency Code for Building Construction to the Florida Building Code-Energy Conservation, to reflect a coordination of construction standards related to energy efficiency within the Florida Building Code adopted in accordance with s. 553.73(7)(a), F.S.

Section 20 amends s. 553.902, F.S., to reference the Florida Building Code-Energy Conservation as provided in section 19 of the bill.

Section 21 amends s. 553.903, F.S., to reference the Florida Building Code-Energy Conservation as provided in section 19 of the bill.

Section 22 amends s. 553.904, F.S., to reference the Florida Building Code-Energy Conservation as provided in section 19 of the bill.

Section 23 amends s. 553.905, F.S., to reference the Florida Building Code-Energy Conservation as provided in section 19 of the bill.

Section 24 amends s. 553.906, F.S., to reference the Florida Building Code-Energy Conservation as provided in section 19 of the bill.

Section 25 amends s. 553.912, F.S., to reference the Florida Building Code-Energy Conservation as provided in section 19 of the bill. The bill also codifies the current energy code provision applicable to *existing* residential heating and cooling equipment to exempt that equipment, including system size and duct sealing, from meeting minimum equipment efficiencies unless necessary to preserve the listing of the equipment.

Section 26 amends s. 553.991, F.S., of Florida Building Energy-Efficiency Rating Act to specify that the purpose of the act is to identify energy rating systems to promote energy efficiency instead of to develop a statewide rating system.

Section 27 repeals s. 553.992, F.S., to eliminate the DBPR's responsibility to adopt, update, and maintain a statewide uniform building energy-efficiency rating system. Provisions in other sections of the bill effectively transfer this type of rating system oversight to specified nationally-recognized energy-efficiency rating system providers.

Section 28 amends s. 553.993, F.S., to include a definition of "building energy-efficiency rating system" as a system established by the Residential Energy Services Network, the Commercial Energy Services Network, the Building Performance Institute, or the Florida Solar Energy

Center. The section also provides definitions for "energy auditor," "energy-efficiency rating," and "energy rater."

Section 29 amends s. 553.994, F.S., to reference the "building energy-efficiency system" instead of the "rating system" that applies to all public, commercial, and residential buildings in this state.

Section 30 amends s. 553.995, F.S., to revise minimum requirements of the building energy efficiency rating systems established in section 25 of the bill and to remove a uniform rating scale. In addition, this section deletes the requirement that the DBPR establish a voluntary working group of interested persons to provide input on the adoption and administration of a rating system and also removes the DBPR responsibility to approve training and certification programs applicable to raters each of which reflects the department's changed role in energy efficiency rating systems.

Section 31 amends s. 553.996, F.S., to remove the DBPR's responsibility to prepare, and make available for distribution, at no cost, a brochure that informs the prospective purchasers of real property about the option for an energy efficiency rating on the building. Instead, the bill requires that the building energy-efficiency rating system providers must prepare the information on building ratings and make it available for distribution.

Section 32 amends s. 553.997, F.S., to remove the DBPR's responsibility to make available energy-efficiency practices information for individuals involved in the design, construction, retrofitting, and maintenance of buildings for state and local governments. Other state agencies will continue to provide these services.

Section 33 amends s. 553.998, F.S., to delete the DBPR's responsibility to adopt rules for the tools and procedures used to develop energy-efficiency ratings. Instead, ratings will be developed by the systems recognized in the bill.

Section 34 provides an effective date of July 1, 2013, except as otherwise stated (see sections 6-8).

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. Other Constitutional Issues:

Section 9 of the bill provides that the amendments to s. 489.113(2), F.S., by s. 11 of ch. 2012, L.O.F., are remedial in nature and intended to clarify existing law. It also provides that this section applies retroactively to any action initiated or pending on or after March 23, 2012.

In regards to the retroactive application of law, the general rule courts follow is that, in the absence of clear legislative intent to the contrary, a law affecting substantive rights, liabilities, and duties is presumed to apply prospectively.[49] The Florida Supreme Court has addressed retroactive application of statutes. The court follows an analysis with two interrelated inquiries. The first inquiry is one of statutory construction, which asks whether there is clear evidence of legislative intent to apply the statute retrospectively. If the legislation clearly expresses intent that it apply retroactively, then the second inquiry is whether retroactive application is constitutionally permissible.[50] If a statute attaches new legal consequences to events completed before its enactment, the courts will not apply the statute to pending cases, absent clear legislative intent favoring retroactive application. This analysis is not necessary where the language of a statute contains an express command that the statute is retroactive.[51]

When the language expressly states that it applies retroactively, the courts review a statute on the basis only of whether it is constitutionally permissible. A court must determine whether substantive or procedural rights are affected by the retroactive application of the new statute. In *Alamo Rent-A-Car, Inc. v. Mancusi*, 632 So. 2d 1352, 1358 (Fla.1994), the Supreme Court stated that "substantive law prescribes duties and rights and procedural law concerns the means and methods to apply and enforce those duties and rights." A substantive, vested right is "an immediate right of present enjoyment, or a present, fixed right of future enjoyment." A retroactive abolition of substantive vested rights is prohibited by constitutional due process considerations.[52]

In 2001, a Florida court interpreted the possible retroactive application of a 2000 amendment to s. 489.128, F.S.[53] In this case, a contractor brought suit after the owner terminated the contract. The Legislature amended s. 489.128, F.S., while the suit was pending by removing a provision in the statute that provided a contractor with the ability to cure his or her unlicensed status. At issue was whether s. 489.128, F.S., could be applied retroactively without the deleted provision that allowed the contractor to cure its unlicensed status. The court held that the 2000 amendment changed the contractor's substantive rights because it removed the contractor's previously existing right to cure. The 2000 amendment, therefore, did not operate retroactively.

Regarding the provision's intent to clarify existing law, the courts have considered a subsequent amendment to clarify original legislative intent of a statute when the

[50] *Id.* at 499.
[51] *Id.* at 500.
[52] *Id.* at 503.
[53] *The Palms v. Magil Construction Florida, Inc.*, 785 So. 2d 597 (Fla. 3rd DCA 2001).

amendment was enacted soon after a controversy regarding the statute's interpretation arose.[54] However, courts have held that it is inappropriate to use an amendment to clarify intent when the amendment was enacted seven years after the original statute.[55]

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The licensing of pool technicians takes effect October 1, 2014, and the DOH estimates there are approximately 37,000 public pools in Florida that use the services of 12,000 certified pool service technicians.[56] According to the DOH's estimate, there are currently 14,000 certified pool servicing technicians.[57] All those pool service technicians that are not direct employees of an owner or operator of a public pool will not be exempt from the licensing requirement.

According to the DBPR, it is estimated that the bill could generate 18,000 new licensees related to the swimming pool and spa provisions. The associated initial license fee, application fee, and exam fee would be approximately $236 per licensee.

In addition, registered electrical, alarm system and electrical specialty contractors grandfathering their registered contractors' licenses to certified contractors' licenses will now pay $295 to renew their certified licenses instead of $150 for renewal of their registrations.

B. Private Sector Impact:

Florida-based lumber and timber companies could see an increase in sales related to the tiebreaker preference provisions of the bill.

According to the DBPR, the current licensure scope for commercial pool/spa contractor, residential pool/spa contractor, and swimming pool/spa servicing contractor includes many activities that exceed the normal work of a pool/spa cleaner, and those that have difficulty in passing the state examination due to the extensive nature of the subject matter will not be permitted to engage in the pool cleaning profession and will be placed out of business.[58]

The bill amends s. 489.127(6), F.S., to increase the percentage of outstanding fines collected by local government collection from 25 percent to 75 percent. According to the DBPR, certain DFS approved collection vendors currently utilized by the DBPR may experience indeterminate revenue losses related to the collection retention percentage changes in the bill.

---

[54] *See Lowry v. Parole & Prob. Comm'n*, 473 So. 2d 1248, 1250 (Fla.1985), in which the relevant statute was signed by the Governor two days before the date of the court's opinion.
[55] *See McKenzie Check Advance of Florida, LLC v. Betts*, 928 So. 2d 1204 (Fla. ,2006).
[56] *See supra* note 2.
[57] *See supra* note 3.
[58] *2013 Legislative Analysis for CS/SB 156*, Department of Business and Professional Regulation, dated March 20, 2013.

C. Government Sector Impact:

The tiebreaker preference for Florida-based lumber and timber only applies if the price is equal to that of such products not produced in Florida, so there should be no fiscal impact.

Section 5, amending s. 381.0065, F.S., does not address whether a local health department may charge a fee for the required review and verification of a floor plan and site plan of a proposed remodeling addition or modification to a single-family home to determine if a setback or the unobstructed area is impacted. However, if a fee is necessary to cover the costs of providing such reviews and verifications, s. 381.0066, F.S., may provide the authority. The DOH indicates the bill will result in a loss of revenue from the prohibition on existing system inspections and evaluations. The loss of revenue is expected to be minimal.

Under sections 7 and 8 of the bill which become effective October 1, 2014, the DBPR will see an increase in license applications resulting in additional fees for examination, initial licensure and biennial renewals. The number of new licensees is indeterminate; however, the DBPR estimates that 18,000 new licensees who are not familiar with the DBPR's licensure requirements could be generated. The increase in calls and additional tasks is estimated by the DBPR to require a total of two additional Full Time Equivalent (FTE)[59] positions and two Other-Personal-Services (OPS) positions, in the Division of Service Operations, including, one additional FTE and two OPS positions[60] (Regulatory Specialist II) in the Bureau of Central Intake and Licensure to process new licensure and renewal applications, and one additional FTE (Regulatory Specialist II) position in the Customer Contact Center to handle increased call volume. The two OPS positions will be staffed for a six month period to process initial license applications. The Division of Regulation will require three additional FTE positions to accommodate the additional workload.

According to the DBPR, the following chart summarizes the impact of CS/SB 156:

REVENUE (PROFESSIONAL REGULATION TRUST FUND)			
	FY 2014-15	FY 2015-16	FY 2016-17
Exam Fees	1,503,000	83,500	83,500
Application Fees:	720,000	40,000	40,000
Initial License Fees:	3,600,000	100,000	200,000
License Renewal – Individual	0	0	3,800,000
Unlicensed Activity	90,000	5,000	5,000
Unlicensed Activity - Renewal	0	0	95,000
Building Commission Fee	72,000	4,000	4,000
Building Commission Fee -Renewal	0	0	76,000
TOTAL:	5,985,000	232,500	4,303,500

[59] FTE, an acronym for full-time equivalent**,** is a unit that indicates the workload of an employee for comparison purposes.
[60] The period of staffing the two OPS positions

EXPENDITURES – FUNDING SOURCE (PROFESSIONAL REGULATION TRUST FUND)			
Recurring Budget	FY 2014-15	FY 2015-16	FY 2016-17
Salaries/Benefits # of FTE's (5 FTE's)	171,165	228,220	228,220
Salary Rate	157,173	157,173	157,173
Other Personal Services	0	0	0
Expenses	24,272	31,867	31,867
Contract Services	0	0	0
Examination and Testing Services (BET 100106)	25,000	20,000	20,000
Transfer to DMS – HR Services	1,328	1,770	1,770
Subtotal	221,765	281,857	281,857

EXPENDITURES – FUNDING SOURCE (PROFESSIONAL REGULATION TRUST FUND)			
Non-Recurring Budget	FY 2014-15	FY 2015-16	FY 2016-17
Other Personal Services	29,694	0	0
Expense	36,052	0	0
Operating Capital Outlay	0	0	0
Examination and Testing Services (BET 100106)	9,000	0	0
Transfer to DMS – HR Services OPS	236		
Subtotal	74,982	0	0

Non-Operating Expenditures	FY 2014-15	FY 2015-16	FY 2016-17
Service Charge to GR (8% of revenue)	478,800	18,600	344,280
Indirect Costs (DBPR Administrative Overhead)	0	0	0
Other/Transfers	0	0	0
Subtotal	478,800	18,600	344,280

Net Revenue Over/(Under) Expenditures	**$5,209,453**	**($67,957)**	**$3,677,363**

The DBPR will see an increase in application and renewal fees from registered electrical, alarm system and electrical specialty contractors grandfathering their registered contractors' licenses to certified contractors' licenses. The department anticipates an increase of $570,080 in application and license fees during the first year (Fiscal Year 2013-2014) of the grandfathering cycle.

In addition, according to the DBPR, the amendment to s. 489.127(6), F.S., will have an indeterminate impact on the DBPR and local government revenue. The department does not have any record of local governments remitting to the department unpaid fines and costs ordered by the Construction Industry Licensing Board.[61] It is unknown to what extent the bill's increase in the local government collection retention percentage from 25 percent to 75 percent may entice local governments to begin such collections. Any collections by local governments would increase local revenue at the expense of the DBPR revenue.

[61] Florida Department of Business and Professional Regulation, *Agency Analysis of SB 1252: Building Construction* (Mar. 13, 2013) (on file with the Senate Committee on Community Affairs).

VI. Technical Deficiencies:

None.

VII. Related Issues:

The tiebreaker preference for Florida lumber created in s. 255.2575, F.S., mirrors the existing local government tiebreaker preference in s. 255.20(3), F.S., and adds state agencies to the list of entities which must use such a preference. The preference will therefore be specified for local government entities in two sections, which is duplicative.

According to the DMS, virtually all construction performed by the DMS is of the commercial, non-combustible type. The wood or timber found within this construction is the plywood specified for monolithic concrete forms, not applicable to the requirement under this bill, or for light framing or millwork. In this construction, the department does not procure "wood or timber" directly, but rather competitively procures a general contractor or construction manager for a low bid, lump sum of materials and labor.[62]

Consideration of the factors outlined in s. 11.62, F.S., (the Sunrise Act) may be appropriate for regulation of the occupation of pool maintenance and cleaning which is currently exempt from licensing. A Sunrise Act review has not been conducted.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations Committee on April 23, 2013:

- Revises noticing requirements of alleged violators of local codes and ordinances;
- Clarifies that a state agency constructing or renovating certain buildings is required to select a sustainable building rating system or national model green building code;
- Requires all state agencies, when constructing public bridges, buildings and other structures, to use lumber, timber, and other forest products produced and manufactured in Florida if such products are available, and their price, fitness, and quality are equal;
- Exempts specified septic tank system inspections and evaluations when remodeling a home and establishes guidelines for construction proximity to a system;
- Revises the meaning of "demolish" as it is used to define licensed contractors;
- Changes the effective date for the swimming pool and spa provisions from October 1, 2013, to October 1, 2014;
- Provides that amendments enacted in 2012 related to the licensing of contractors and subcontractors are remedial in nature, are intended to clarify existing law, and apply retroactively;
- Increases the maximum civil penalty a local governing body may levy against an unlicensed contractor;

[62] Department of Management Services' bill analysis of SB 1080, dated February 29, 2013.

- Revises local government and the Department of Business and Professional Regulation (DBPR) collection retention percentages for unpaid fines and costs ordered by the Construction Industry Licensing Board;
- Removes a requirement that local governments send minor violation notices to contractors prior to seeking fines and other disciplinary penalties;
- Extends the grandfathering period for certain registered electrical and alarm system contractors to acquire statewide certified licenses;
- Adds a definition for "local technical amendment" in the Florida Building Code;
- Clarifies a prohibition to adopt any mandatory sprinkler provisions of the International Residential Code within the Florida Building Code or any local amendments to the state code;
- Adds a member to Florida Building Commission from the natural gas distribution industry;
- Authorizes that an electronic copy of a building site plan may be maintained for record retention and inspection purposes at a building site;
- Specifies the DBPR procedures for Florida Building Code product approval compliance and authorizes the process for expedited 10-day approval reviews;
- Renames the statewide standard for energy efficiency;
- Specifies that residential heating and cooling systems need only meet the manufacturer's approval and listing of equipment;
- Eliminates the DBPR's responsibilities regarding a statewide uniform building energy-efficiency rating system;
- Creates building energy-efficiency system definitions; and
- Provides additional energy-efficiency rating system changes which reflect the DBPR's revised role in the process.

CS by Community Affairs on March 7, 2013:
Exempts owner or operator of public swimming pools and spas, or his or her direct employees, from the licensing requirement of the bill. Provides the Department of Business and Professional Regulation with the authority to adopt rules, rather than the Construction Industry Licensing Board. Changed the effective date to October 1, 2013.

B. Amendments:

None.

290726

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
04/25/2013	.	
	.	
	.	
	.	

The Committee on Appropriations (Gardiner) recommended the following:

Senate Substitute for Amendment (269142) (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Section 162.12, Florida Statutes, is amended to read:

162.12 Notices.—

(1) All notices required by this part must be provided to the alleged violator by:

(a) Certified mail, return receipt requested, to the address listed in the tax collector's office for tax notices, or

290726

to the address listed in the county property appraiser's database. The local government may also provide an additional notice to any other address it may find for ~~provided by~~ the property owner ~~in writing to the local government for the purpose of receiving notices~~. For property owned by a corporation, notices may be provided by certified mail to the registered agent of the corporation. If any notice sent by certified mail is not signed as received within 30 days after the postmarked date of mailing, notice may be provided by posting as described in subparagraphs (2)(b)1. and 2.;

(b) Hand delivery by the sheriff or other law enforcement officer, code inspector, or other person designated by the local governing body;

(c) Leaving the notice at the violator's usual place of residence with any person residing therein who is above 15 years of age and informing such person of the contents of the notice; or

(d) In the case of commercial premises, leaving the notice with the manager or other person in charge.

(2) In addition to providing notice as set forth in subsection (1), at the option of the code enforcement board or the local government, notice may ~~also~~ be served by publication or posting, as follows:

(a)1. Such notice shall be published once during each week for 4 consecutive weeks (four publications being sufficient) in a newspaper of general circulation in the county where the code enforcement board is located. The newspaper shall meet such requirements as are prescribed under chapter 50 for legal and official advertisements.

290726

2. Proof of publication shall be made as provided in ss. 50.041 and 50.051.

(b)1. In lieu of publication as described in paragraph (a), such notice may be posted at least 10 days prior to the hearing, or prior to the expiration of any deadline contained in the notice, in at least two locations, one of which shall be the property upon which the violation is alleged to exist and the other of which shall be, in the case of municipalities, at the primary municipal government office, and in the case of counties, at the front door of the courthouse or the main county governmental center in said county.

2. Proof of posting shall be by affidavit of the person posting the notice, which affidavit shall include a copy of the notice posted and the date and places of its posting.

(c) Notice by publication or posting may run concurrently with, or may follow, an attempt or attempts to provide notice by hand delivery or by mail as required under subsection (1).

Evidence that an attempt has been made to hand deliver or mail notice as provided in subsection (1), together with proof of publication or posting as provided in subsection (2), shall be sufficient to show that the notice requirements of this part have been met, without regard to whether or not the alleged violator actually received such notice.

Section 2. Subsection (3) of section 255.20, Florida Statutes, is amended to read:

255.20 Local bids and contracts for public construction works; specification of state-produced lumber.—

290726

(3)(a) All county officials, boards of county commissioners, school boards, city councils, city commissioners, and all other public officers of state boards or commissions that are charged with the letting of contracts for public work, for the construction of public bridges, buildings, and other structures must specify in the contract lumber, timber, and other forest products produced and manufactured in this state, if wood is a component of the public work, and if such products are available and their price, fitness, and quality are equal.

(b) This subsection does not apply:

1. To plywood specified for monolithic concrete forms.~~,~~

2. If the structural or service requirements for timber for a particular job cannot be supplied by native species.~~, or~~

3. If the construction is financed in whole or in part from federal funds with the requirement that there be no restrictions as to species or place of manufacture.

4. To transportation projects for which federal aid funds are available.

Section 3. Subsection (4) is added to section 255.2575, Florida Statutes, to read:

255.2575 Energy-efficient and sustainable buildings.—

(4)(a) All state agencies, county officials, boards of county commissioners, school boards, city councils, city commissioners, and all other public officers of state boards or commissions that are charged with the letting of contracts for public work, for the construction of public bridges, buildings, and other structures must specify in the contract lumber, timber, and other forest products produced and manufactured in this state, if wood is a component of the public work, and if

290726

such products are available and their price, fitness, and quality are equal.

(b) This subsection does not apply:

1. To plywood specified for monolithic concrete forms.

2. If the structural or service requirements for timber for a particular job cannot be supplied by native species.

3. If the construction is financed in whole or in part from federal funds with the requirement that there be no restrictions as to species or place of manufacture.

4. To transportation projects for which federal aid funds are available.

Section 4. Paragraph (a) of subsection (4) of section 255.257, Florida Statutes, is amended to read:

255.257 Energy management; buildings occupied by state agencies.—

(4) ADOPTION OF STANDARDS.—

(a) Each ~~All~~ state agency ~~agencies~~ shall use ~~adopt~~ a sustainable building rating system or ~~use~~ a national model green building code for each ~~all~~ new building ~~buildings~~ and renovation ~~renovations~~ to an existing building ~~buildings~~.

Section 5. Paragraph (aa) of subsection (4) of section 381.0065, Florida Statutes, is amended to read:

381.0065 Onsite sewage treatment and disposal systems; regulation.—

(4) PERMITS; INSTALLATION; AND CONDITIONS.—A person may not construct, repair, modify, abandon, or operate an onsite sewage treatment and disposal system without first obtaining a permit approved by the department. The department may issue permits to carry out this section, but shall not make the issuance of such

290726

permits contingent upon prior approval by the Department of Environmental Protection, except that the issuance of a permit for work seaward of the coastal construction control line established under s. 161.053 shall be contingent upon receipt of any required coastal construction control line permit from the Department of Environmental Protection. A construction permit is valid for 18 months from the issuance date and may be extended by the department for one 90-day period under rules adopted by the department. A repair permit is valid for 90 days from the date of issuance. An operating permit must be obtained prior to the use of any aerobic treatment unit or if the establishment generates commercial waste. Buildings or establishments that use an aerobic treatment unit or generate commercial waste shall be inspected by the department at least annually to assure compliance with the terms of the operating permit. The operating permit for a commercial wastewater system is valid for 1 year from the date of issuance and must be renewed annually. The operating permit for an aerobic treatment unit is valid for 2 years from the date of issuance and must be renewed every 2 years. If all information pertaining to the siting, location, and installation conditions or repair of an onsite sewage treatment and disposal system remains the same, a construction or repair permit for the onsite sewage treatment and disposal system may be transferred to another person, if the transferee files, within 60 days after the transfer of ownership, an amended application providing all corrected information and proof of ownership of the property. There is no fee associated with the processing of this supplemental information. A person may not contract to construct, modify, alter, repair, service,

290726

abandon, or maintain any portion of an onsite sewage treatment and disposal system without being registered under part III of chapter 489. A property owner who personally performs construction, maintenance, or repairs to a system serving his or her own owner-occupied single-family residence is exempt from registration requirements for performing such construction, maintenance, or repairs on that residence, but is subject to all permitting requirements. A municipality or political subdivision of the state may not issue a building or plumbing permit for any building that requires the use of an onsite sewage treatment and disposal system unless the owner or builder has received a construction permit for such system from the department. A building or structure may not be occupied and a municipality, political subdivision, or any state or federal agency may not authorize occupancy until the department approves the final installation of the onsite sewage treatment and disposal system. A municipality or political subdivision of the state may not approve any change in occupancy or tenancy of a building that uses an onsite sewage treatment and disposal system until the department has reviewed the use of the system with the proposed change, approved the change, and amended the operating permit.

(aa) An existing-system inspection or evaluation and assessment, or a modification, replacement, or upgrade of an onsite sewage treatment and disposal system is not required for a remodeling addition or modification to a single-family home if a bedroom is not added. However, a remodeling addition or modification to a single-family home may not cover any part of the existing system or encroach upon a required setback or the unobstructed area. To determine if a setback or the unobstructed

area is impacted, the local health department shall review and verify a floor plan and site plan of the proposed remodeling addition or modification to the home submitted by a remodeler which shows the location of the system, including the distance of the remodeling addition or modification to the home from the onsite sewage treatment and disposal system. The local health department may visit the site or otherwise determine the best means of verifying the information submitted. A verification of the location of a system is not an inspection or evaluation and assessment of the system. The review and verification must be completed within 7 business days after receipt by the local health department of a floor plan and site plan. If the review and verification is not completed within such time, the remodeling addition or modification to the single-family home, for the purposes of this paragraph, is approved.

Section 6. Effective October 1, 2014, subsection (23) is added to section 489.103, Florida Statutes, to read:

489.103 Exemptions.— This part does not apply to:

(23) An owner or operator of a public swimming pool or spa permitted under s. 514.031, an entity under common ownership or control with the owner or operator, or a direct employee of the owner, operator, or related entity, who undertakes to maintain the swimming pool or spa for the purpose of water treatment.

Section 7. Effective October 1, 2014, subsection (3) of section 489.105, Florida Statutes, is amended to read:

489.105 Definitions.— As used in this part:

(3) "Contractor" means the person who is qualified for, and is only responsible for, the project contracted for and means, except as exempted in this part, the person who, for

290726

compensation, undertakes to, submits a bid to, or does himself or herself or by others construct, repair, alter, remodel, add to, demolish, maintain for purposes of water treatment, subtract from, or improve any building or structure, including related improvements to real estate, for others or for resale to others; and whose job scope is substantially similar to the job scope described in one of the paragraphs of this subsection. For the purposes of regulation under this part, the term "demolish" applies only to demolition of steel tanks more than 50 feet in height; towers more than 50 feet in height; other structures more than 50 feet in height; and, effective July 1, 2013, the term applies to ~~and all~~ buildings or residences more than three stories tall. For purposes of regulation under this part, the phrase "maintain for purposes of water treatment" applies only to cleaning, maintenance, and water treatment of swimming pools and spas. Contractors are subdivided into two divisions, Division I, consisting of those contractors defined in paragraphs (a)-(c), and Division II, consisting of those contractors defined in paragraphs (d)-(q):

(a) "General contractor" means a contractor whose services are unlimited as to the type of work which he or she may do, who may contract for any activity requiring licensure under this part, and who may perform any work requiring licensure under this part, except as otherwise expressly provided in s. 489.113.

(b) "Building contractor" means a contractor whose services are limited to construction of commercial buildings and single-dwelling or multiple-dwelling residential buildings, which do not exceed three stories in height, and accessory use structures in connection therewith or a contractor whose services are

290726

limited to remodeling, repair, or improvement of any size building if the services do not affect the structural members of the building.

(c) "Residential contractor" means a contractor whose services are limited to construction, remodeling, repair, or improvement of one-family, two-family, or three-family residences not exceeding two habitable stories above no more than one uninhabitable story and accessory use structures in connection therewith.

(d) "Sheet metal contractor" means a contractor whose services are unlimited in the sheet metal trade and who has the experience, knowledge, and skill necessary for the manufacture, fabrication, assembling, handling, erection, installation, dismantling, conditioning, adjustment, insulation, alteration, repair, servicing, or design, if not prohibited by law, of ferrous or nonferrous metal work of U.S. No. 10 gauge or its equivalent or lighter gauge and of other materials, including, but not limited to, fiberglass, used in lieu thereof and of air-handling systems, including the setting of air-handling equipment and reinforcement of same, the balancing of air-handling systems, and any duct cleaning and equipment sanitizing that requires at least a partial disassembling of the system.

(e) "Roofing contractor" means a contractor whose services are unlimited in the roofing trade and who has the experience, knowledge, and skill to install, maintain, repair, alter, extend, or design, if not prohibited by law, and use materials and items used in the installation, maintenance, extension, and alteration of all kinds of roofing, waterproofing, and coating, except when coating is not represented to protect, repair,

waterproof, stop leaks, or extend the life of the roof. The scope of work of a roofing contractor also includes skylights and any related work, required roof-deck attachments, and any repair or replacement of wood roof sheathing or fascia as needed during roof repair or replacement and any related work.

(f) "Class A air-conditioning contractor" means a contractor whose services are unlimited in the execution of contracts requiring the experience, knowledge, and skill to install, maintain, repair, fabricate, alter, extend, or design, if not prohibited by law, central air-conditioning, refrigeration, heating, and ventilating systems, including duct work in connection with a complete system if such duct work is performed by the contractor as necessary to complete an air-distribution system, boiler and unfired pressure vessel systems, and all appurtenances, apparatus, or equipment used in connection therewith, and any duct cleaning and equipment sanitizing that requires at least a partial disassembling of the system; to install, maintain, repair, fabricate, alter, extend, or design, if not prohibited by law, piping, insulation of pipes, vessels and ducts, pressure and process piping, and pneumatic control piping; to replace, disconnect, or reconnect power wiring on the load side of the dedicated existing electrical disconnect switch; to install, disconnect, and reconnect low voltage heating, ventilating, and air-conditioning control wiring; and to install a condensate drain from an air-conditioning unit to an existing safe waste or other approved disposal other than a direct connection to a sanitary system. The scope of work for such contractor also includes any excavation work incidental thereto, but does not include any

work such as liquefied petroleum or natural gas fuel lines within buildings, except for disconnecting or reconnecting changeouts of liquefied petroleum or natural gas appliances within buildings; potable water lines or connections thereto; sanitary sewer lines; swimming pool piping and filters; or electrical power wiring. A Class A air-conditioning contractor may test and evaluate central air-conditioning, refrigeration, heating, and ventilating systems, including duct work; however, a mandatory licensing requirement is not established for the performance of these specific services.

(g) "Class B air-conditioning contractor" means a contractor whose services are limited to 25 tons of cooling and 500,000 Btu of heating in any one system in the execution of contracts requiring the experience, knowledge, and skill to install, maintain, repair, fabricate, alter, extend, or design, if not prohibited by law, central air-conditioning, refrigeration, heating, and ventilating systems, including duct work in connection with a complete system only to the extent such duct work is performed by the contractor as necessary to complete an air-distribution system being installed under this classification, and any duct cleaning and equipment sanitizing that requires at least a partial disassembling of the system; to install, maintain, repair, fabricate, alter, extend, or design, if not prohibited by law, piping and insulation of pipes, vessels, and ducts; to replace, disconnect, or reconnect power wiring on the load side of the dedicated existing electrical disconnect switch; to install, disconnect, and reconnect low voltage heating, ventilating, and air-conditioning control wiring; and to install a condensate drain from an air-

conditioning unit to an existing safe waste or other approved disposal other than a direct connection to a sanitary system. The scope of work for such contractor also includes any excavation work incidental thereto, but does not include any work such as liquefied petroleum or natural gas fuel lines within buildings, except for disconnecting or reconnecting changeouts of liquefied petroleum or natural gas appliances within buildings; potable water lines or connections thereto; sanitary sewer lines; swimming pool piping and filters; or electrical power wiring. A Class B air-conditioning contractor may test and evaluate central air-conditioning, refrigeration, heating, and ventilating systems, including duct work; however, a mandatory licensing requirement is not established for the performance of these specific services.

(h) "Class C air-conditioning contractor" means a contractor whose business is limited to the servicing of air-conditioning, heating, or refrigeration systems, including any duct cleaning and equipment sanitizing that requires at least a partial disassembling of the system, and whose certification or registration, issued pursuant to this part, was valid on October 1, 1988. Only a person who was registered or certified as a Class C air-conditioning contractor as of October 1, 1988, shall be so registered or certified after October 1, 1988. However, the board shall continue to license and regulate those Class C air-conditioning contractors who held Class C licenses before October 1, 1988.

(i) "Mechanical contractor" means a contractor whose services are unlimited in the execution of contracts requiring the experience, knowledge, and skill to install, maintain,

repair, fabricate, alter, extend, or design, if not prohibited by law, central air-conditioning, refrigeration, heating, and ventilating systems, including duct work in connection with a complete system if such duct work is performed by the contractor as necessary to complete an air-distribution system, boiler and unfired pressure vessel systems, lift station equipment and piping, and all appurtenances, apparatus, or equipment used in connection therewith, and any duct cleaning and equipment sanitizing that requires at least a partial disassembling of the system; to install, maintain, repair, fabricate, alter, extend, or design, if not prohibited by law, piping, insulation of pipes, vessels and ducts, pressure and process piping, pneumatic control piping, gasoline tanks and pump installations and piping for same, standpipes, air piping, vacuum line piping, oxygen lines, nitrous oxide piping, ink and chemical lines, fuel transmission lines, liquefied petroleum gas lines within buildings, and natural gas fuel lines within buildings; to replace, disconnect, or reconnect power wiring on the load side of the dedicated existing electrical disconnect switch; to install, disconnect, and reconnect low voltage heating, ventilating, and air-conditioning control wiring; and to install a condensate drain from an air-conditioning unit to an existing safe waste or other approved disposal other than a direct connection to a sanitary system. The scope of work for such contractor also includes any excavation work incidental thereto, but does not include any work such as potable water lines or connections thereto, sanitary sewer lines, swimming pool piping and filters, or electrical power wiring. A mechanical contractor may test and evaluate central air-conditioning, refrigeration,

290726

heating, and ventilating systems, including duct work; however, a mandatory licensing requirement is not established for the performance of these specific services.

(j) "Commercial pool/spa contractor" means a contractor whose scope of work involves, but is not limited to, the construction, repair, water treatment, maintenance, and servicing of any swimming pool, or hot tub or spa, whether public, private, or otherwise, regardless of use. The scope of work includes the installation, repair, or replacement of existing equipment, ~~any cleaning or equipment sanitizing that requires at least a partial disassembling, excluding filter changes, and~~ the installation of new pool/spa equipment, interior finishes, the installation of package pool heaters, the installation of all perimeter piping and filter piping, and the construction of equipment rooms or housing for pool/spa equipment, and also includes the scope of work of a swimming pool/spa servicing contractor. The scope of such work does not include direct connections to a sanitary sewer system or to potable water lines. ~~The installation, construction, modification, or replacement of equipment permanently attached to and associated with the pool or spa for the purpose of water treatment or cleaning of the pool or spa requires licensure; however, the usage of such equipment for the purposes of water treatment or cleaning does not require licensure unless the usage involves construction, modification, or replacement of such equipment. Water treatment that does not require such equipment does not require a license. In addition, a license is not required for the cleaning of the pool or spa in a way that does not affect the structural integrity of the pool or spa or~~

290726

~~its associated equipment.~~

(k) "Residential pool/spa contractor" means a contractor whose scope of work involves, but is not limited to, the construction, repair, water treatment, maintenance, and servicing of a residential swimming pool, or hot tub or spa, regardless of use. The scope of work includes the installation, repair, or replacement of existing equipment, ~~any cleaning or equipment sanitizing that requires at least a partial disassembling, excluding filter changes, and~~ the installation of new pool/spa equipment, interior finishes, the installation of package pool heaters, the installation of all perimeter piping and filter piping, and the construction of equipment rooms or housing for pool/spa equipment, and also includes the scope of work of a swimming pool/spa servicing contractor. The scope of such work does not include direct connections to a sanitary sewer system or to potable water lines. ~~The installation, construction, modification, or replacement of equipment permanently attached to and associated with the pool or spa for the purpose of water treatment or cleaning of the pool or spa requires licensure; however, the usage of such equipment for the purposes of water treatment or cleaning does not require licensure unless the usage involves construction, modification, or replacement of such equipment. Water treatment that does not require such equipment does not require a license. In addition, a license is not required for the cleaning of the pool or spa in a way that does not affect the structural integrity of the pool or spa or its associated equipment.~~

(l) "Swimming pool/spa servicing contractor" means a contractor whose scope of work involves, but is not limited to,

290726

the repair, water treatment, maintenance, and servicing of a swimming pool, or hot tub or spa, whether public or private, or otherwise, regardless of use. The scope of work includes the repair or replacement of existing equipment, any sanitation, chemical balancing, routine maintenance or cleaning, ~~cleaning or equipment sanitizing that requires at least a partial disassembling, excluding filter changes, and~~ the installation of new pool/spa equipment, interior refinishing, the reinstallation or addition of pool heaters, the repair or replacement of all perimeter piping and filter piping, the repair of equipment rooms or housing for pool/spa equipment, and the substantial or complete draining of a swimming pool, or hot tub or spa, for the purpose of repair, ~~or~~ renovation, or water treatment. The scope of such work does not include direct connections to a sanitary sewer system or to potable water lines. ~~The installation, construction, modification, substantial or complete disassembly, or replacement of equipment permanently attached to and associated with the pool or spa for the purpose of water treatment or cleaning of the pool or spa requires licensure; however, the usage of such equipment for the purposes of water treatment or cleaning does not require licensure unless the usage involves construction, modification, substantial or complete disassembly, or replacement of such equipment. Water treatment that does not require such equipment does not require a license. In addition, a license is not required for the cleaning of the pool or spa in a way that does not affect the structural integrity of the pool or spa or its associated equipment.~~

(m) "Plumbing contractor" means a contractor whose services

290726

are unlimited in the plumbing trade and includes contracting business consisting of the execution of contracts requiring the experience, financial means, knowledge, and skill to install, maintain, repair, alter, extend, or, if not prohibited by law, design plumbing. A plumbing contractor may install, maintain, repair, alter, extend, or, if not prohibited by law, design the following without obtaining an additional local regulatory license, certificate, or registration: sanitary drainage or storm drainage facilities, water and sewer plants and substations, venting systems, public or private water supply systems, septic tanks, drainage and supply wells, swimming pool piping, irrigation systems, and solar heating water systems and all appurtenances, apparatus, or equipment used in connection therewith, including boilers and pressure process piping and including the installation of water, natural gas, liquefied petroleum gas and related venting, and storm and sanitary sewer lines. The scope of work of the plumbing contractor also includes the design, if not prohibited by law, and installation, maintenance, repair, alteration, or extension of air-piping, vacuum line piping, oxygen line piping, nitrous oxide piping, and all related medical gas systems; fire line standpipes and fire sprinklers if authorized by law; ink and chemical lines; fuel oil and gasoline piping and tank and pump installation, except bulk storage plants; and pneumatic control piping systems, all in a manner that complies with all plans, specifications, codes, laws, and regulations applicable. The scope of work of the plumbing contractor applies to private property and public property, including any excavation work incidental thereto, and includes the work of the specialty

290726

plumbing contractor. Such contractor shall subcontract, with a qualified contractor in the field concerned, all other work incidental to the work but which is specified as being the work of a trade other than that of a plumbing contractor. This definition does not limit the scope of work of any specialty contractor certified pursuant to s. 489.113(6), and does not require certification or registration under this part of any authorized employee of a public natural gas utility or of a private natural gas utility regulated by the Public Service Commission when disconnecting and reconnecting water lines in the servicing or replacement of an existing water heater. A plumbing contractor may perform drain cleaning and clearing and install or repair rainwater catchment systems; however, a mandatory licensing requirement is not established for the performance of these specific services.

(n) "Underground utility and excavation contractor" means a contractor whose services are limited to the construction, installation, and repair, on public or private property, whether accomplished through open excavations or through other means, including, but not limited to, directional drilling, auger boring, jacking and boring, trenchless technologies, wet and dry taps, grouting, and slip lining, of main sanitary sewer collection systems, main water distribution systems, storm sewer collection systems, and the continuation of utility lines from the main systems to a point of termination up to and including the meter location for the individual occupancy, sewer collection systems at property line on residential or single-occupancy commercial properties, or on multioccupancy properties at manhole or wye lateral extended to an invert elevation as

290726

engineered to accommodate future building sewers, water distribution systems, or storm sewer collection systems at storm sewer structures. However, an underground utility and excavation contractor may install empty underground conduits in rights-of-way, easements, platted rights-of-way in new site development, and sleeves for parking lot crossings no smaller than 2 inches in diameter if each conduit system installed is designed by a licensed professional engineer or an authorized employee of a municipality, county, or public utility and the installation of such conduit does not include installation of any conductor wiring or connection to an energized electrical system. An underground utility and excavation contractor may not install piping that is an integral part of a fire protection system as defined in s. 633.021 beginning at the point where the piping is used exclusively for such system.

(o) "Solar contractor" means a contractor whose services consist of the installation, alteration, repair, maintenance, relocation, or replacement of solar panels for potable solar water heating systems, swimming pool solar heating systems, and photovoltaic systems and any appurtenances, apparatus, or equipment used in connection therewith, whether public, private, or otherwise, regardless of use. A contractor, certified or registered pursuant to this chapter, is not required to become a certified or registered solar contractor or to contract with a solar contractor in order to provide services enumerated in this paragraph that are within the scope of the services such contractors may render under this part.

(p) "Pollutant storage systems contractor" means a contractor whose services are limited to, and who has the

290726

experience, knowledge, and skill to install, maintain, repair, alter, extend, or design, if not prohibited by law, and use materials and items used in the installation, maintenance, extension, and alteration of, pollutant storage tanks. Any person installing a pollutant storage tank shall perform such installation in accordance with the standards adopted pursuant to s. 376.303.

(q) "Specialty contractor" means a contractor whose scope of work and responsibility is limited to a particular phase of construction established in a category adopted by board rule and whose scope is limited to a subset of the activities described in one of the paragraphs of this subsection.

Section 8. Effective October 1, 2014, subsection (2) of section 489.111, Florida Statutes, is amended to read:

489.111 Licensure by examination.—

(2) A person shall be eligible for licensure by examination if the person:

(a) Is 18 years of age;

(b) Is of good moral character; and

(c) Meets eligibility requirements according to one of the following criteria:

1. Has received a baccalaureate degree from an accredited 4-year college in the appropriate field of engineering, architecture, or building construction and has 1 year of proven experience in the category in which the person seeks to qualify. For the purpose of this part, a minimum of 2,000 person-hours shall be used in determining full-time equivalency.

2. Has a total of at least 4 years of active experience as a worker who has learned the trade by serving an apprenticeship

as a skilled worker who is able to command the rate of a mechanic in the particular trade or as a foreman who is in charge of a group of workers and usually is responsible to a superintendent or a contractor or his or her equivalent, provided, however, that at least 1 year of active experience shall be as a foreman.

3. Has a combination of not less than 1 year of experience as a foreman and not less than 3 years of credits for any accredited college-level courses; has a combination of not less than 1 year of experience as a skilled worker, 1 year of experience as a foreman, and not less than 2 years of credits for any accredited college-level courses; or has a combination of not less than 2 years of experience as a skilled worker, 1 year of experience as a foreman, and not less than 1 year of credits for any accredited college-level courses. All junior college or community college-level courses shall be considered accredited college-level courses.

4.a. An active certified residential contractor is eligible to take the building contractors' examination if he or she possesses a minimum of 3 years of proven experience in the classification in which he or she is certified.

b. An active certified residential contractor is eligible to take the general contractors' examination if he or she possesses a minimum of 4 years of proven experience in the classification in which he or she is certified.

c. An active certified building contractor is eligible to take the general contractors' examination if he or she possesses a minimum of 4 years of proven experience in the classification in which he or she is certified.

290726

5.a. An active certified air-conditioning Class C contractor is eligible to take the air-conditioning Class B contractors' examination if he or she possesses a minimum of 3 years of proven experience in the classification in which he or she is certified.

b. An active certified air-conditioning Class C contractor is eligible to take the air-conditioning Class A contractors' examination if he or she possesses a minimum of 4 years of proven experience in the classification in which he or she is certified.

c. An active certified air-conditioning Class B contractor is eligible to take the air-conditioning Class A contractors' examination if he or she possesses a minimum of 1 year of proven experience in the classification in which he or she is certified.

6.a. An active certified swimming pool servicing contractor is eligible to take the residential swimming pool contractors' examination if he or she possesses a minimum of 3 years of proven experience in the classification in which he or she is certified.

b. An active certified swimming pool servicing contractor is eligible to take the swimming pool commercial contractors' examination if he or she possesses a minimum of 4 years of proven experience in the classification in which he or she is certified.

c. An active certified residential swimming pool contractor is eligible to take the commercial swimming pool contractors' examination if he or she possesses a minimum of 1 year of proven experience in the classification in which he or she is

290726

certified.

d. An applicant is eligible to take the swimming pool/spa servicing contractors' examination if he or she has satisfactorily completed 60 hours of instruction in courses and 20 hours of field hands-on instruction related to the scope of work covered by that license and approved by the Construction Industry Licensing Board by rule ~~and has at least 1 year of proven experience related to the scope of work of such a contractor~~.

Section 9. The amendments to s. 489.113(2), Florida Statutes, by section 11 of chapter 2012-13, Laws of Florida, are remedial in nature and intended to clarify existing law. This section applies retroactively to any action initiated or pending on or after March 23, 2012.

Section 10. Paragraphs (c) and (f) of subsection (5) and subsection (6) of section 489.127, Florida Statutes, are amended to read:

489.127 Prohibitions; penalties.—

(5) Each county or municipality may, at its option, designate one or more of its code enforcement officers, as defined in chapter 162, to enforce, as set out in this subsection, the provisions of subsection (1) and s. 489.132(1) against persons who engage in activity for which a county or municipal certificate of competency or license or state certification or registration is required.

(c) The local governing body of the county or municipality may ~~is authorized to~~ enforce codes and ordinances against unlicensed contractors under the provisions of this subsection and may enact an ordinance establishing procedures for

290726

implementing this subsection, including a schedule of penalties to be assessed by the code enforcement officer. The maximum civil penalty which may be levied may ~~shall~~ not exceed $2,000 ~~$500~~. Moneys collected pursuant to this subsection shall be retained locally, as provided for by local ordinance, and may be set aside in a specific fund to support future enforcement activities against unlicensed contractors.

(f) If the enforcement or licensing board or designated special magistrate finds that a violation exists, the enforcement or licensing board or designated special magistrate may order the violator to pay a civil penalty of not less than the amount set forth on the citation but not more than $1,500 ~~$1,000~~ per day for each violation. In determining the amount of the penalty, the enforcement or licensing board or designated special magistrate shall consider the following factors:

1. The gravity of the violation.

2. Any actions taken by the violator to correct the violation.

3. Any previous violations committed by the violator.

(6) Local building departments may collect outstanding fines against registered or certified contractors issued by the Construction Industry Licensing Board and may retain 75 ~~25~~ percent of the fines they are able to collect, provided that they transmit 25 ~~75~~ percent of the fines they are able to collect to the department according to a procedure to be determined by the department.

Section 11. Paragraph (a) of subsection (7) of section 489.131, Florida Statutes, is amended to read:

489.131 Applicability.—

 290726

(7)(a) It is the policy of the state that the purpose of regulation is to protect the public by attaining compliance with the policies established in law. Fines and other penalties are provided in order to ensure compliance~~; however, the collection of fines and the imposition of penalties are intended to be secondary to the primary goal of attaining compliance~~ with state laws and local jurisdiction ordinances. ~~It is the intent of the Legislature that a local jurisdiction agency charged with enforcing regulatory laws shall issue a notice of noncompliance as its first response to a minor violation of a regulatory law in any instance in which it is reasonable to assume that the violator was unaware of such a law or unclear as to how to comply with it. A violation of a regulatory law is a "minor violation" if it does not result in economic or physical harm to a person or adversely affect the public health, safety, or welfare or create a significant threat of such harm. A "notice of noncompliance" is a notification by the local jurisdiction agency charged with enforcing the ordinance, which is issued to the licensee that is subject to the ordinance. A notice of noncompliance should not be accompanied with a fine or other disciplinary penalty. It should identify the specific ordinance that is being violated, provide information on how to comply with the ordinance, and specify a reasonable time for the violator to comply with the ordinance. Failure of a licensee to take action correcting the violation within a set period of time would then result in the institution of further disciplinary proceedings.~~

Section 12. Section 489.514, Florida Statutes, is amended to read:

290726

489.514 Certification for registered contractors; grandfathering provisions.—

(1) The board shall, upon receipt of a completed application, appropriate fee, and proof of compliance with the provisions of this section, issue:

(a) To an applying registered electrical contractor, a certificate as an electrical contractor, as defined in s. 489.505(12); ~~or~~

(b) To an applying registered alarm system contractor, a certificate in the matching alarm system contractor category, as defined in s. 489.505(2)(a) or (b); or

(c) To an applying registered electrical specialty contractor, a certificate in the matching electrical specialty contractor category, as defined in s. 489.505(19).

(2) Any contractor registered under this part who makes application under this section to the board shall meet each of the following requirements for certification:

(a) Currently holds a valid registered local license in the category of electrical contractor, alarm system contractor, or electrical specialty contractor.

(b) Has, for that category, passed a written, proctored examination that the board finds to be substantially similar to the examination required to be licensed as a certified contractor under this part. For purposes of this subsection, a written, proctored examination such as that produced by the National Assessment Institute, Block and Associates, NAI/Block, Experior Assessments, Professional Testing, Inc., or Assessment Systems, Inc., shall be considered to be substantially similar to the examination required to be licensed as a certified

290726

contractor. The board may not impose or make any requirements regarding the nature or content of these cited examinations.

(c) Has at least 5 years of experience as a contractor in that contracting category, or as an inspector or building administrator with oversight over that category, at the time of application. For contractors, only time periods in which the contractor license is active and the contractor is not on probation ~~shall~~ count toward the 5 years required under this subsection.

(d) Has not had his or her contractor's license revoked at any time, had his or her contractor's license suspended in the last 5 years, or been assessed a fine in excess of $500 in the last 5 years.

(e) Is in compliance with the insurance and financial responsibility requirements in s. 489.515(1)(b).

(3) An applicant must make application by November 1, 2015 ~~2004~~, to be licensed pursuant to this section.

Section 13. Paragraph (c) of subsection (4) of section 489.531, Florida Statutes, is amended to read:

489.531 Prohibitions; penalties.—

(4) Each county or municipality may, at its option, designate one or more of its code enforcement officers, as defined in chapter 162, to enforce, as set out in this subsection, the provisions of subsection (1) against persons who engage in activity for which county or municipal certification is required.

(c) The local governing body of the county or municipality may ~~is authorized to~~ enforce codes and ordinances against unlicensed contractors under the provisions of this section and

290726

may enact an ordinance establishing procedures for implementing this section, including a schedule of penalties to be assessed by the code enforcement officers. The maximum civil penalty which may be levied may ~~shall~~ not exceed $2,000 ~~$500~~. Moneys collected pursuant to this section shall be retained locally as provided for by local ordinance and may be set aside in a specific fund to support future enforcement activities against unlicensed contractors.

Section 14. Present subsections (6) through (11) of section 553.71, Florida Statutes, are redesignated as subsections (7) through (12), respectively, and a new subsection (6) is added to that section, to read:

553.71 Definitions.—As used in this part, the term:

(6) "Local technical amendment" means an action by a local governing authority that results in a technical change to the Florida Building Code and its local enforcement.

Section 15. Subsection (17) of section 553.73, Florida Statutes, is amended to read:

553.73 Florida Building Code.—

(17) A provision ~~The provisions of section R313 of the most current version~~ of the International Residential Code relating to mandated fire sprinklers may not be incorporated into the Florida Building Code as adopted by the Florida Building Commission and may not be adopted as a local amendment to the Florida Building Code. This subsection does not prohibit the application of cost-saving incentives for residential fire sprinklers that are authorized in the International Residential Code upon a mutual agreement between the builder and the code official. This subsection does not apply to a local government

290726

that has a lawfully adopted ordinance relating to fire sprinklers which has been in effect since January 1, 2010.

Section 16. Subsection (1) of section 553.74, Florida Statutes, is amended to read:

553.74 Florida Building Commission.—

(1) The Florida Building Commission is created and located within the Department of Business and Professional Regulation for administrative purposes. Members are ~~shall be~~ appointed by the Governor subject to confirmation by the Senate. The commission is ~~shall be~~ composed of 26 ~~25~~ members, consisting of the following:

(a) One architect registered to practice in this state and actively engaged in the profession. The American Institute of Architects, Florida Section, is encouraged to recommend a list of candidates for consideration.

(b) One structural engineer registered to practice in this state and actively engaged in the profession. The Florida Engineering Society is encouraged to recommend a list of candidates for consideration.

(c) One air-conditioning or mechanical contractor certified to do business in this state and actively engaged in the profession. The Florida Air Conditioning Contractors Association, the Florida Refrigeration and Air Conditioning Contractors Association, and the Mechanical Contractors Association of Florida are encouraged to recommend a list of candidates for consideration.

(d) One electrical contractor certified to do business in this state and actively engaged in the profession. The Florida Electrical Contractors Association and the National Electrical

Contractors Association, Florida Chapter, are encouraged to recommend a list of candidates for consideration.

(e) One member from fire protection engineering or technology who is actively engaged in the profession. The Florida Chapter of the Society of Fire Protection Engineers and the Florida Fire Marshals and Inspectors Association are encouraged to recommend a list of candidates for consideration.

(f) One general contractor certified to do business in this state and actively engaged in the profession. The Associated Builders and Contractors of Florida, the Florida Associated General Contractors Council, and the Union Contractors Association are encouraged to recommend a list of candidates for consideration.

(g) One plumbing contractor licensed to do business in this state and actively engaged in the profession. The Florida Association of Plumbing, Heating, and Cooling Contractors is encouraged to recommend a list of candidates for consideration.

(h) One roofing or sheet metal contractor certified to do business in this state and actively engaged in the profession. The Florida Roofing, Sheet Metal, and Air Conditioning Contractors Association and the Sheet Metal and Air Conditioning Contractors National Association are encouraged to recommend a list of candidates for consideration.

(i) One residential contractor licensed to do business in this state and actively engaged in the profession. The Florida Home Builders Association is encouraged to recommend a list of candidates for consideration.

(j) Three members who are municipal or district codes enforcement officials, one of whom is also a fire official. The

Building Officials Association of Florida and the Florida Fire Marshals and Inspectors Association are encouraged to recommend a list of candidates for consideration.

(k) One member who represents the Department of Financial Services.

(l) One member who is a county codes enforcement official. The Building Officials Association of Florida is encouraged to recommend a list of candidates for consideration.

(m) One member of a Florida-based organization of persons with disabilities or a nationally chartered organization of persons with disabilities with chapters in this state.

(n) One member of the manufactured buildings industry who is licensed to do business in this state and is actively engaged in the industry. The Florida Manufactured Housing Association is encouraged to recommend a list of candidates for consideration.

(o) One mechanical or electrical engineer registered to practice in this state and actively engaged in the profession. The Florida Engineering Society is encouraged to recommend a list of candidates for consideration.

(p) One member who is a representative of a municipality or a charter county. The Florida League of Cities and the Florida Association of Counties are encouraged to recommend a list of candidates for consideration.

(q) One member of the building products manufacturing industry who is authorized to do business in this state and is actively engaged in the industry. The Florida Building Material Association, the Florida Concrete and Products Association, and the Fenestration Manufacturers Association are encouraged to recommend a list of candidates for consideration.

290726

(r) One member who is a representative of the building owners and managers industry who is actively engaged in commercial building ownership or management. The Building Owners and Managers Association is encouraged to recommend a list of candidates for consideration.

(s) One member who is a representative of the insurance industry. The Florida Insurance Council is encouraged to recommend a list of candidates for consideration.

(t) One member who is a representative of public education.

(u) One member who is a swimming pool contractor licensed to do business in this state and actively engaged in the profession. The Florida Swimming Pool Association and the United Pool and Spa Association are encouraged to recommend a list of candidates for consideration.

(v) One member who is a representative of the green building industry and who is a third-party commission agent, a Florida board member of the United States Green Building Council or Green Building Initiative, a professional who is accredited under the International Green Construction Code (IGCC), or a professional who is accredited under Leadership in Energy and Environmental Design (LEED).

(w) One member who is a representative of a natural gas distribution system and who is actively engaged in the distribution of natural gas in this state. The Florida Natural Gas Association is encouraged to recommend a list of candidates for consideration.

(x) ~~(w)~~ One member who shall be the chair.

Any person serving on the commission under paragraph (c) or

290726

paragraph (h) on October 1, 2003, and who has served less than two full terms is eligible for reappointment to the commission regardless of whether he or she meets the new qualification.

Section 17. Subsection (18) is added to section 553.79, Florida Statutes, to read:

553.79 Permits; applications; issuance; inspections.—

(18) For the purpose of inspection and record retention, site plans for a building may be maintained in the form of an electronic copy at the worksite. These plans must be open to inspection by the building official or a duly authorized representative, as required by the Florida Building Code.

Section 18. Paragraph (a) of subsection (5) of section 553.842, Florida Statutes, is amended to read:

553.842 Product evaluation and approval.—

(5) Statewide approval of products, methods, or systems of construction may be achieved by one of the following methods. One of these methods must be used by the commission to approve the following categories of products: panel walls, exterior doors, roofing, skylights, windows, shutters, impact protective systems, and structural components as established by the commission by rule. A product may not be advertised, sold, offered, provided, distributed, or marketed as hurricane, windstorm, or impact protection from wind-borne debris from a hurricane or windstorm unless it is approved pursuant to this section or s. 553.8425. Any person who advertises, sells, offers, provides, distributes, or markets a product as hurricane, windstorm, or impact protection from wind-borne debris without such approval is subject to the Florida Deceptive and Unfair Trade Practices Act under part II of chapter 501

290726

brought by the enforcing authority as defined in s. 501.203.

(a) Products for which the code establishes standardized testing or comparative or rational analysis methods shall be approved by submittal and validation of one of the following reports or listings indicating that the product or method or system of construction was in compliance with the Florida Building Code and that the product or method or system of construction is, for the purpose intended, at least equivalent to that required by the Florida Building Code:

1. A certification mark or listing of an approved certification agency, which may be used only for products for which the code designates standardized testing;

2. A test report from an approved testing laboratory;

3. A product evaluation report based upon testing or comparative or rational analysis, or a combination thereof, from an approved product evaluation entity; or

4. A product evaluation report based upon testing or comparative or rational analysis, or a combination thereof, developed and signed and sealed by a professional engineer or architect, licensed in this state.

A product evaluation report or a certification mark or listing of an approved certification agency which demonstrates that the product or method or system of construction complies with the Florida Building Code for the purpose intended is equivalent to a test report and test procedure referenced in the Florida Building Code. An application for state approval of a product under subparagraph 1. or 3. must be approved by the department after the commission staff or a designee verifies

290726

that the application and related documentation are complete. This verification must be completed within 10 business days after receipt of the application. Upon approval by the department, the product shall be immediately added to the list of state-approved products maintained under subsection (13). Approvals by the department shall be reviewed and ratified by the commission's program oversight committee except for a showing of good cause that a review by the full commission is necessary. The commission shall adopt rules providing means to cure deficiencies identified within submittals for products approved under this paragraph.

Section 19. Section 553.901, Florida Statutes, is amended to read:

553.901 Purpose of thermal efficiency code.—The Department of Business and Professional Regulation shall prepare a thermal efficiency code to provide for a statewide uniform standard for energy efficiency in the thermal design and operation of all buildings statewide, consistent with energy conservation goals, and to best provide for public safety, health, and general welfare. The Florida Building Commission shall adopt the Florida Building Code-Energy Conservation ~~Florida Energy Efficiency Code for Building Construction within the Florida Building Code~~, and shall modify, revise, update, and maintain the code to implement the provisions of this thermal efficiency code and amendments thereto, in accordance with the procedures of chapter 120. The department shall, at least triennially, determine the most cost-effective energy-saving equipment and techniques available and report its determinations to the commission, which shall update the code to incorporate such equipment and techniques. The

290726

proposed changes shall be made available for public review and comment no later than 6 months before ~~prior to~~ code implementation. The term "cost-effective," as used in ~~for the purposes of~~ this part, means ~~shall be construed to mean~~ cost-effective to the consumer.

Section 20. Section 553.902, Florida Statutes, is reordered and amended to read:

553.902 Definitions.—As used in ~~For the purposes of~~ this part, the term:

(2)~~(1)~~ "Exempted building" means:

(a) A ~~Any~~ building or portion thereof whose peak design rate of energy usage for all purposes is less than 1 watt (3.4 Btu per hour) per square foot of floor area for all purposes.

(b) A ~~Any~~ building that ~~which~~ is neither heated nor cooled by a mechanical system designed to control or modify the indoor temperature and powered by electricity or fossil fuels.

(c) A ~~Any~~ building for which federal mandatory standards preempt state energy codes.

(d) A ~~Any~~ historical building as described in s. 267.021(3).

The Florida Building Commission may recommend to the Legislature additional types of buildings which should be exempted from compliance with the Florida Building Code-Energy Conservation ~~Florida Energy Efficiency Code for Building Construction~~.

(4)~~(2)~~ "HVAC" means a system of heating, ventilating, and air-conditioning.

(6)~~(3)~~ "Renovated building" means a residential or

290726

nonresidential building undergoing alteration that varies or changes insulation, HVAC systems, water heating systems, or exterior envelope conditions, if ~~provided~~ the estimated cost of renovation exceeds 30 percent of the assessed value of the structure.

(5) ~~(4)~~ "Local enforcement agency" means the agency of local government which has the authority to make inspections of buildings and to enforce the Florida Building Code. The term ~~It~~ includes any agency within the definition of s. 553.71(5).

(3) ~~(5)~~ "Exterior envelope physical characteristics" means the physical nature of those elements of a building which enclose conditioned spaces through which energy may be transferred to or from the exterior.

(1) ~~(6)~~ "Energy performance level" means the indicator of the energy-related performance of a building, including, but not limited to, the levels of insulation, the amount and type of glass, and the HVAC and water heating system efficiencies.

Section 21. Section 553.903, Florida Statutes, is amended to read:

553.903 Applicability.—This part applies ~~shall apply~~ to all new and renovated buildings in the state, except exempted buildings, for which building permits are obtained after March 15, 1979, and to the installation or replacement of building systems and components with new products for which thermal efficiency standards are set by the Florida Building Code-Energy Conservation ~~Florida Energy Efficiency Code for Building Construction~~. The provisions of this part shall constitute a statewide uniform code.

Section 22. Section 553.904, Florida Statutes, is amended

to read:

553.904 Thermal efficiency standards for new nonresidential buildings.—Thermal designs and operations for new nonresidential buildings for which building permits are obtained after March 15, 1979, must ~~shall~~ at a minimum take into account exterior envelope physical characteristics, including thermal mass; HVAC, service water heating, energy distribution, lighting, energy managing, and auxiliary systems design and selection; and HVAC, service water heating, energy distribution, lighting, energy managing, and auxiliary equipment performance, and are ~~shall~~ not ~~be~~ required to meet standards more stringent than the provisions of the Florida Building Code-Energy Conservation ~~Florida Energy Efficiency Code for Building Construction~~.

Section 23. Section 553.905, Florida Statutes, is amended to read:

553.905 Thermal efficiency standards for new residential buildings.—Thermal designs and operations for new residential buildings for which building permits are obtained after March 15, 1979, must ~~shall~~ at a minimum take into account exterior envelope physical characteristics, HVAC system selection and configuration, HVAC equipment performance, and service water heating design and equipment selection and are ~~shall~~ not ~~be~~ required to meet standards more stringent than the provisions of the Florida Building Code-Energy Conservation ~~Florida Energy Efficiency Code for Building Construction~~. HVAC equipment mounted in an attic or a garage is ~~shall~~ not ~~be~~ required to have supplemental insulation in addition to that installed by the manufacturer. All new residential buildings, except those herein exempted, must ~~shall~~ have insulation in ceilings rated at R-19

290726

or more, space permitting. Thermal efficiency standards do not apply to a building of less than 1,000 square feet which is not primarily used as a principal residence and which is constructed and owned by a natural person for hunting or similar recreational purposes; however, ~~no~~ such person may not build more than one exempt building in any 12-month period.

Section 24. Section 553.906, Florida Statutes, is amended to read:

553.906 Thermal efficiency standards for renovated buildings.—Thermal designs and operations for renovated buildings for which building permits are obtained after March 15, 1979, must ~~shall~~ take into account insulation; windows; infiltration; and HVAC, service water heating, energy distribution, lighting, energy managing, and auxiliary systems design and equipment selection and performance. Such buildings are ~~shall~~ not ~~be~~ required to meet standards more stringent than the provisions of the Florida Building Code-Energy Conservation ~~Florida Energy Efficiency Code for Building Construction~~. These standards apply only to those portions of the structure which are actually renovated.

Section 25. Section 553.912, Florida Statutes, is amended to read:

553.912 Air conditioners.—All air conditioners that are sold or installed in the state must ~~shall~~ meet the minimum efficiency ratings of the Florida Building Code-Energy Conservation ~~Energy Efficiency Code for Building Construction~~. These efficiency ratings must ~~shall~~ be minimums and may be updated in the Florida Building Code-Energy Conservation ~~Florida Energy Efficiency Code for Building Construction~~ by the

290726

department in accordance with s. 553.901, following its determination that more cost-effective energy-saving equipment and techniques are available. It is the intent of the Legislature that all replacement air-conditioning systems in residential applications be installed using energy-saving, quality installation procedures, including, but not limited to, equipment sizing analysis and duct inspection. Notwithstanding this section, existing heating and cooling equipment in residential applications need not meet the minimum equipment efficiencies, including system sizing and duct sealing.

Section 26. Section 553.991, Florida Statutes, is amended to read:

553.991 Purpose.—The purpose of this part is to identify systems ~~provide for a statewide uniform system~~ for rating the energy efficiency of buildings. It is in the interest of the state to encourage the consideration of ~~the~~ energy-efficiency rating systems ~~system~~ in the market so as to provide market rewards for energy-efficient buildings and to those persons or companies designing, building, or selling energy-efficient buildings.

Section 27. Section 553.992, Florida Statutes, is repealed.

Section 28. Section 553.993, Florida Statutes, is amended to read:

553.993 Definitions.—For purposes of this part:

(1) "Acquisition" means to gain the sole or partial use of a building through a purchase agreement.

(2) "Builder" means the primary contractor who possesses the requisite skill, knowledge, and experience, and has the responsibility, to supervise, direct, manage, and control the

290726

contracting activities of the business organization with which she or he is connected and who has the responsibility to supervise, direct, manage, and control the construction work on a job for which she or he has obtained the building permit. Construction work includes, but is not limited to, foundation, framing, wiring, plumbing, and finishing work.

(3) "Building energy-efficiency rating system" means a whole building energy evaluation system established by the Residential Energy Services Network, the Commercial Energy Services Network, the Building Performance Institute, or the Florida Solar Energy Center.

(4) ~~(3)~~ "Designer" means the architect, engineer, landscape architect, builder, interior designer, or other person who performs the actual design work or under whose direct supervision and responsible charge the construction documents are prepared.

(5) "Energy auditor" means a trained and certified professional who conducts energy evaluations of an existing building and uses tools to identify the building's current energy usage and the condition of the building and equipment.

(6) "Energy-efficiency rating" means an unbiased indication of a building's relative energy efficiency based on consistent inspection procedures, operating assumptions, climate data, and calculation methods.

(7) "Energy rater" means an individual certified by a building energy-efficiency rating system to perform building energy-efficiency ratings for the building type and in the rating class for which the rater is certified.

(8) ~~(4)~~ "New building" means commercial occupancy buildings

290726

permitted for construction after January 1, 1995, and residential occupancy buildings permitted for construction after January 1, 1994.

(9) ~~(5)~~ "Public building" means a building comfort-conditioned for occupancy that is owned or leased by the state, a state agency, or a governmental subdivision, including, but not limited to, a city, county, or school district.

Section 29. Section 553.994, Florida Statutes, is amended to read:

553.994 Applicability.—Building energy-efficiency ~~The~~ rating systems ~~system shall~~ apply to all public, commercial, and residential buildings in the state.

Section 30. Section 553.995, Florida Statutes, is amended to read:

553.995 Energy-efficiency ratings for buildings.—

(1) Building ~~The~~ energy-efficiency rating systems must, ~~system shall~~ at a minimum:

~~(a) Provide a uniform rating scale of the efficiency of buildings based on annual energy usage.~~

(a) ~~(b)~~ Take into account local climate conditions, construction practices, and building use.

(b) ~~(c)~~ Be compatible with standard federal rating systems and state building codes and standards, where applicable, and shall satisfy the requirements of s. 553.9085 with respect to residential buildings and s. 255.256 with respect to state buildings.

(c) ~~(2) The energy-efficiency rating system adopted by the department shall~~ Provide a means of analyzing ~~and comparing~~ the relative energy efficiency of buildings upon the sale of new or

290726

existing residential, public, or commercial buildings.

~~(3) The department shall establish a voluntary working group of persons interested in the energy-efficiency rating system or energy efficiency, including, but not limited to, such persons as electrical engineers, mechanical engineers, architects, public utilities, and builders. The interest group shall advise the department in the development of the energy-efficiency rating system and shall assist the department in the implementation of the rating system by coordinating educational programs for designers, builders, businesses, and other interested persons to assist compliance and to facilitate incorporation of the rating system into existing practices.~~

(2)(a) ~~(4) The department shall develop a training and certification program to certify raters. In addition to the department,~~ Ratings may be conducted by a ~~any~~ local government or private entity if~~, provided that~~ the appropriate persons have completed the necessary training established by the applicable building energy-efficiency rating system ~~and have been certified by the department~~.

(b) The Department of Management Services shall rate state-owned or state-leased buildings if~~, provided that~~ the appropriate persons have completed the necessary training established by the applicable building energy-efficiency rating system ~~and have been certified by the Department of Business and Professional Regulation~~.

(c) A state agency that ~~which~~ has building construction regulation authority may rate its own buildings and those it is responsible for~~,~~ if the appropriate persons have completed the necessary training established by the applicable building

290726

energy-efficiency rating system ~~and have been certified by the Department of Business and Professional Regulation~~. ~~The Department of Business and Professional Regulation may charge a fee not to exceed the costs for the training and certification of raters. The department shall by rule set the appropriate charges for raters to charge for energy ratings, not to exceed the actual costs.~~

Section 31. Section 553.996, Florida Statutes, is amended to read:

553.996 Energy-efficiency information provided by building energy-efficiency rating systems providers ~~brochure~~.—A prospective purchaser of real property with a building for occupancy located thereon shall be provided ~~with a copy of an~~ information ~~brochure,~~ at the time of or before ~~prior to~~ the purchaser's execution of the contract for sale and purchase which notifies~~, notifying~~ the purchaser of the option for an energy-efficiency rating on the building. Building energy-efficiency rating system providers identified in this part shall prepare such information and make it available for distribution ~~Such brochure shall be prepared, made available for distribution, and provided at no cost by the department~~. Such ~~brochure shall contain~~ information relevant to that class of building must include, ~~including,~~ but need not be limited to:

(1) How to analyze the building's energy-efficiency rating.

(2) Comparisons to statewide averages for new and existing construction of that class.

(3) Information concerning methods to improve the building's energy-efficiency rating.

(4) A notice to residential purchasers that the energy-

290726

efficiency rating may qualify the purchaser for an energy-efficient mortgage from lending institutions.

Section 32. Subsection (2) of section 553.997, Florida Statutes, is amended to read:

553.997 Public buildings.—

(2) ~~The department, together with other~~ State agencies having building construction and maintenance responsibilities, shall make available energy-efficiency practices information to be used by individuals involved in the design, construction, retrofitting, and maintenance of buildings for state and local governments.

Section 33. Section 553.998, Florida Statutes, is amended to read:

553.998 Compliance.—All ratings must ~~shall~~ be determined using tools and procedures developed by the systems recognized under this part ~~adopted by the department by rule in accordance with chapter 120~~ and must ~~shall~~ be certified by the rater as accurate and correct and in compliance with procedures of the system under which the rater is certified ~~adopted by the department by rule in accordance with chapter 120~~.

Section 34. The sums of $119,618 in recurring funds and $263,143 in nonrecurring funds are appropriated from the Professional Regulation Trust to the Department of Business and Professional Regulation for the implementation of this act during the 2013-2014 fiscal year.

Section 35. Except as otherwise explicitly stated elsewhere, this act shall take effect July 1, 2013.

LEGISLATIVE ACTION

Senate	.	House
Comm: WD	.	
04/25/2013	.	
	.	
	.	
	.	

The Committee on Appropriations (Grimsley) recommended the following:

Senate Amendment to Amendment (290726) (with title amendment)

Between lines 1308 and 1309
insert:

Section 34. Concrete Masonry Products Research, Education, and Promotion Act.—

(1) SHORT TITLE.—This section may be cited as the "Concrete Masonry Products Research, Education, and Promotion Act."

(2) FLORIDA CONCRETE MASONRY COUNCIL, INC.; CREATION; PURPOSES.—

(a) There is created the Florida Concrete Masonry Council,

741084

Inc., a nonprofit corporation organized under the laws of this state and operating as a direct-support organization of the Florida Building Commission.

(b) The council shall:

1. Develop, implement, and monitor a system for the definition of masonry products and for the collection of self-imposed voluntary assessments.

2. Plan, implement, and conduct programs of education, promotion, research, and consumer information and industry information which are designed to strengthen the market position of the concrete masonry industry in this state and in the nation, to maintain and expand domestic and foreign markets, and to expand the uses for concrete masonry products.

3. Use the means authorized by this subsection for the purpose of funding research, education, promotion, and consumer and industry information of concrete masonry products in this state and in the nation.

4. Coordinate research, education, promotion, industry, and consumer information programs with national programs or programs of other states.

5. Develop new uses and markets for concrete masonry products.

6. Develop and improve educational access to individuals seeking employment in the field of concrete masonry.

7. Develop methods of improving the quality of concrete masonry products for the purpose of windstorm protection.

8. Develop methods of improving the energy efficiency attributes of concrete masonry products.

9. Inform and educate the public concerning the

741084

sustainability and economic benefits of concrete masonry products.

10. Do all other acts necessary or expedient for the administration of the affairs and attainment of the purposes of the council.

(c) The council may:

1. Conduct or contract for scientific research with any accredited university, college, or similar institution and enter into other contracts or agreements that will aid in carrying out the purposes of this section, including contracts for the purchase or acquisition of facilities or equipment necessary to carry out the purposes of this section.

2. Disseminate reliable information benefiting the consumer and the concrete masonry industry.

3. Provide to governmental bodies, on request, information relating to subjects of concern to the concrete masonry industry and act jointly or in cooperation with the state or Federal Government, and agencies thereof, in the development or administration of programs that the council considers to be consistent with the objectives of this section.

4. Sue and be sued as a council without individual liability of the members for acts of the council when acting within the scope of the powers of this section and in the manner prescribed by the laws of this state.

5. Maintain a financial reserve for emergency use, the total of which must not exceed 50 percent of the council’s anticipated annual income.

6. Employ subordinate officers and employees of the council, prescribe their duties, and fix their compensation and

741084

terms of employment.

7. Cooperate with any local, state, regional, or nationwide organization or agency engaged in work or activities consistent with the objectives of the program.

8. Do all other things necessary to further the intent of this section which are not prohibited by law.

(d) The council and concrete masonry manufacturers may meet and coordinate the collection of self-imposed voluntary assessments for each concrete masonry unit that is produced and sold by manufacturers in the state.

(e)1. The council may not participate or intervene in any political campaign on behalf of or in opposition to any candidate for public office or any state or local ballot initiative. This restriction includes, but is not limited to, a prohibition against publishing or distributing any statement.

2. The net receipts of the council may not in any part inure to the benefit of or be distributable to its directors, its officers, or other private persons, except that the council may pay reasonable compensation for services rendered by staff employees and may make payments and distributions in furtherance of the purposes of this section.

3. Notwithstanding any other provision of law, the council may not carry on any other activity not permitted to be carried on by a corporation:

a. That is exempt from federal income tax under s. 501(c)(3) of the Internal Revenue Code; or

b. To which charitable contributions are deductible under s. 170(c)(2) of the Internal Revenue Code.

(3) GOVERNING BOARD.—

741084

(a) The Florida Concrete Masonry Council, Inc., shall be governed by a board of directors composed of 15 members as follows:

1. Nine members representing concrete masonry manufacturers. Of these board members, at least five must be a representative of a manufacturer that is a member of the Masonry Association of Florida. These members must be representatives of concrete masonry manufacturers of various sizes. A manufacturer may not be represented by more than one member of the board.

2. One member representing the Florida Building Commission.

3. One member representing the Florida Home Builders Association.

4. One member having expertise in apprenticeship or vocational training.

5. Two members who are masonry contractors and who are members of the Masonry Association of Florida.

6. One member who is not a masonry contractor or manufacturer or an employee of a masonry contractor or manufacturer, but who is otherwise a stakeholder in the masonry industry.

(b) The initial board of directors shall be appointed by the chair of the commission based on recommendations from the Masonry Association of Florida. Five of the initial board members shall be appointed to a 1-year term. Five shall be appointed for a 2-year term. The remaining board members shall be appointed for a 3-year term. Thereafter, each member shall be appointed to serve a 3-year term and may be reappointed to serve an additional consecutive term. After the initial appointments are made, each subsequent vacancy shall be filled in accordance

741084

with the bylaws of the council. A member may not serve more than two consecutive terms. A member representing a manufacturer or a contractor must be employed by a manufacturer or contractor engaging in the trade of manufacture of concrete masonry products for at least 5 years immediately preceding the first day of his or her service on the board. All members of the board shall serve without compensation. However, the board members are entitled to reimbursement for per diem and travel expenses incurred in carrying out the intents and purposes of this section in accordance with s. 112.061, Florida Statutes.

(c) The council shall elect from its members a chair, vice chair, and a secretary-treasurer to a 2-year term each. The chair of the board must be a concrete masonry manufacturer.

(d) The initial board of directors shall adopt bylaws to govern initial terms of directors, governance of board members and meetings, term limits, and procedures for filling vacancies.

(4) ACCEPTANCE OF GRANTS AND GIFTS.—The council may accept grants, donations, contributions, or gifts from any source if the use of such resources is not restricted in any manner that the council considers to be inconsistent with the objectives of this section.

(5) PAYMENTS TO ORGANIZATIONS.—

(a) The council may make payments to other organizations for work or services performed which are consistent with the objectives of the program.

(b) Before making payments described in this subsection, the council must secure a written agreement that the organization receiving payment will furnish at least annually, or more frequently on request of the council, written or printed

741084

reports of program activities and reports of financial data that are relative to the council's funding of such activities.

(c) The council may require adequate proof of security bonding on the payments to any individual, business, or other organization.

(6) COLLECTION OF MONEYS AT TIME OF SALE.—

(a) Each manufacturer that elects to self-impose a voluntary assessment shall commit to the assessment for a period of not less than 1 year and shall annually be authorized to renew or end the self-imposed voluntary assessment.

(b) The manufacturer shall collect all such moneys and forward them quarterly to the council.

(c) The council shall maintain within its financial records a separate accounting of all moneys received under this subsection. The council shall provide for an annual financial audit of its accounts and records to be conducted by an independent certified public accountant licensed under chapter 473.

(7) BYLAWS.—The council shall, by September 30, 2013, adopt bylaws to carry out the intents and purposes of this section. These bylaws may be amended upon 30 days' notice to board members at any regular or special meeting called for this purpose. The bylaws must conform to the requirements of this section but may also address any matter not in conflict with the general laws of this state.

A bill to be entitled

An act relating to swimming pools and spas; amending s. 489.103, F.S.; providing an exemption from licensure requirements for an owner or operator maintaining a swimming pool or spa for the purpose of water treatment; amending s. 489.105, F.S.; revising the definition of the terms "contractor," "commercial pool/spa contractor," "residential pool/spa contractor," and "swimming pool/spa servicing contractor" to include the cleaning, maintenance, and water treatment of swimming pools and spas; conforming provisions to changes made by the act; amending s. 489.111, F.S.; revising eligibility requirements to take the swimming pool/spa servicing contractors' examination; providing the Department of Business and Professional Regulation with the authority to adopt rules; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (23) is added to section 489.103, Florida Statutes, to read:

489.103 Exemptions.—This part does not apply to:

(23) An owner or operator of a public swimming pool or spa permitted under s. 514.031, or his or her direct employee, who undertakes to maintain the swimming pool or spa for the purpose of water treatment.

Section 2. Subsection (3) of section 489.105, Florida Statutes, is amended to read:

578-02024-13 2013156c1

489.105 Definitions.—As used in this part:

(3) "Contractor" means the person who is qualified for, and is only responsible for, the project contracted for and means, except as exempted in this part, the person who, for compensation, undertakes to, submits a bid to, or does himself or herself or by others construct, repair, alter, remodel, add to, demolish, maintain for purposes of water treatment, subtract from, or improve any building or structure, including related improvements to real estate, for others or for resale to others; and whose job scope is substantially similar to the job scope described in one of the paragraphs of this subsection. For the purposes of regulation under this part, the term "demolish" applies only to demolition of steel tanks more than 50 feet in height; towers more than 50 feet in height; other structures more than 50 feet in height; and all buildings or residences. For purposes of regulation under this part, the phrase "maintain for purposes of water treatment" applies only to cleaning, maintenance, and water treatment of swimming pools and spas. Contractors are subdivided into two divisions, Division I, consisting of those contractors defined in paragraphs (a)-(c), and Division II, consisting of those contractors defined in paragraphs (d)-(q):

(a) "General contractor" means a contractor whose services are unlimited as to the type of work which he or she may do, who may contract for any activity requiring licensure under this part, and who may perform any work requiring licensure under this part, except as otherwise expressly provided in s. 489.113.

(b) "Building contractor" means a contractor whose services are limited to construction of commercial buildings and single-

dwelling or multiple-dwelling residential buildings, which do not exceed three stories in height, and accessory use structures in connection therewith or a contractor whose services are limited to remodeling, repair, or improvement of any size building if the services do not affect the structural members of the building.

(c) "Residential contractor" means a contractor whose services are limited to construction, remodeling, repair, or improvement of one-family, two-family, or three-family residences not exceeding two habitable stories above no more than one uninhabitable story and accessory use structures in connection therewith.

(d) "Sheet metal contractor" means a contractor whose services are unlimited in the sheet metal trade and who has the experience, knowledge, and skill necessary for the manufacture, fabrication, assembling, handling, erection, installation, dismantling, conditioning, adjustment, insulation, alteration, repair, servicing, or design, if not prohibited by law, of ferrous or nonferrous metal work of U.S. No. 10 gauge or its equivalent or lighter gauge and of other materials, including, but not limited to, fiberglass, used in lieu thereof and of air-handling systems, including the setting of air-handling equipment and reinforcement of same, the balancing of air-handling systems, and any duct cleaning and equipment sanitizing that requires at least a partial disassembling of the system.

(e) "Roofing contractor" means a contractor whose services are unlimited in the roofing trade and who has the experience, knowledge, and skill to install, maintain, repair, alter, extend, or design, if not prohibited by law, and use materials

and items used in the installation, maintenance, extension, and alteration of all kinds of roofing, waterproofing, and coating, except when coating is not represented to protect, repair, waterproof, stop leaks, or extend the life of the roof. The scope of work of a roofing contractor also includes skylights and any related work, required roof-deck attachments, and any repair or replacement of wood roof sheathing or fascia as needed during roof repair or replacement and any related work.

(f) "Class A air-conditioning contractor" means a contractor whose services are unlimited in the execution of contracts requiring the experience, knowledge, and skill to install, maintain, repair, fabricate, alter, extend, or design, if not prohibited by law, central air-conditioning, refrigeration, heating, and ventilating systems, including duct work in connection with a complete system if such duct work is performed by the contractor as necessary to complete an air-distribution system, boiler and unfired pressure vessel systems, and all appurtenances, apparatus, or equipment used in connection therewith, and any duct cleaning and equipment sanitizing that requires at least a partial disassembling of the system; to install, maintain, repair, fabricate, alter, extend, or design, if not prohibited by law, piping, insulation of pipes, vessels and ducts, pressure and process piping, and pneumatic control piping; to replace, disconnect, or reconnect power wiring on the load side of the dedicated existing electrical disconnect switch; to install, disconnect, and reconnect low voltage heating, ventilating, and air-conditioning control wiring; and to install a condensate drain from an air-conditioning unit to an existing safe waste or other approved

disposal other than a direct connection to a sanitary system. The scope of work for such contractor also includes any excavation work incidental thereto, but does not include any work such as liquefied petroleum or natural gas fuel lines within buildings, except for disconnecting or reconnecting changeouts of liquefied petroleum or natural gas appliances within buildings; potable water lines or connections thereto; sanitary sewer lines; swimming pool piping and filters; or electrical power wiring. A Class A air-conditioning contractor may test and evaluate central air-conditioning, refrigeration, heating, and ventilating systems, including duct work; however, a mandatory licensing requirement is not established for the performance of these specific services.

(g) "Class B air-conditioning contractor" means a contractor whose services are limited to 25 tons of cooling and 500,000 Btu of heating in any one system in the execution of contracts requiring the experience, knowledge, and skill to install, maintain, repair, fabricate, alter, extend, or design, if not prohibited by law, central air-conditioning, refrigeration, heating, and ventilating systems, including duct work in connection with a complete system only to the extent such duct work is performed by the contractor as necessary to complete an air-distribution system being installed under this classification, and any duct cleaning and equipment sanitizing that requires at least a partial disassembling of the system; to install, maintain, repair, fabricate, alter, extend, or design, if not prohibited by law, piping and insulation of pipes, vessels, and ducts; to replace, disconnect, or reconnect power wiring on the load side of the dedicated existing electrical

disconnect switch; to install, disconnect, and reconnect low voltage heating, ventilating, and air-conditioning control wiring; and to install a condensate drain from an air-conditioning unit to an existing safe waste or other approved disposal other than a direct connection to a sanitary system. The scope of work for such contractor also includes any excavation work incidental thereto, but does not include any work such as liquefied petroleum or natural gas fuel lines within buildings, except for disconnecting or reconnecting changeouts of liquefied petroleum or natural gas appliances within buildings; potable water lines or connections thereto; sanitary sewer lines; swimming pool piping and filters; or electrical power wiring. A Class B air-conditioning contractor may test and evaluate central air-conditioning, refrigeration, heating, and ventilating systems, including duct work; however, a mandatory licensing requirement is not established for the performance of these specific services.

(h) "Class C air-conditioning contractor" means a contractor whose business is limited to the servicing of air-conditioning, heating, or refrigeration systems, including any duct cleaning and equipment sanitizing that requires at least a partial disassembling of the system, and whose certification or registration, issued pursuant to this part, was valid on October 1, 1988. Only a person who was registered or certified as a Class C air-conditioning contractor as of October 1, 1988, shall be so registered or certified after October 1, 1988. However, the board shall continue to license and regulate those Class C air-conditioning contractors who held Class C licenses before October 1, 1988.

(i) "Mechanical contractor" means a contractor whose services are unlimited in the execution of contracts requiring the experience, knowledge, and skill to install, maintain, repair, fabricate, alter, extend, or design, if not prohibited by law, central air-conditioning, refrigeration, heating, and ventilating systems, including duct work in connection with a complete system if such duct work is performed by the contractor as necessary to complete an air-distribution system, boiler and unfired pressure vessel systems, lift station equipment and piping, and all appurtenances, apparatus, or equipment used in connection therewith, and any duct cleaning and equipment sanitizing that requires at least a partial disassembling of the system; to install, maintain, repair, fabricate, alter, extend, or design, if not prohibited by law, piping, insulation of pipes, vessels and ducts, pressure and process piping, pneumatic control piping, gasoline tanks and pump installations and piping for same, standpipes, air piping, vacuum line piping, oxygen lines, nitrous oxide piping, ink and chemical lines, fuel transmission lines, liquefied petroleum gas lines within buildings, and natural gas fuel lines within buildings; to replace, disconnect, or reconnect power wiring on the load side of the dedicated existing electrical disconnect switch; to install, disconnect, and reconnect low voltage heating, ventilating, and air-conditioning control wiring; and to install a condensate drain from an air-conditioning unit to an existing safe waste or other approved disposal other than a direct connection to a sanitary system. The scope of work for such contractor also includes any excavation work incidental thereto, but does not include any work such as potable water lines or

connections thereto, sanitary sewer lines, swimming pool piping and filters, or electrical power wiring. A mechanical contractor may test and evaluate central air-conditioning, refrigeration, heating, and ventilating systems, including duct work; however, a mandatory licensing requirement is not established for the performance of these specific services.

(j) "Commercial pool/spa contractor" means a contractor whose scope of work involves, but is not limited to, the construction, repair, water treatment, maintenance, and servicing of any swimming pool, or hot tub or spa, whether public, private, or otherwise, regardless of use. The scope of work includes the installation, repair, or replacement of existing equipment, ~~any cleaning or equipment sanitizing that requires at least a partial disassembling, excluding filter changes, and~~ the installation of new pool/spa equipment, interior finishes, the installation of package pool heaters, the installation of all perimeter piping and filter piping, and the construction of equipment rooms or housing for pool/spa equipment, and also includes the scope of work of a swimming pool/spa servicing contractor. The scope of such work does not include direct connections to a sanitary sewer system or to potable water lines. ~~The installation, construction, modification, or replacement of equipment permanently attached to and associated with the pool or spa for the purpose of water treatment or cleaning of the pool or spa requires licensure; however, the usage of such equipment for the purposes of water treatment or cleaning does not require licensure unless the usage involves construction, modification, or replacement of such equipment. Water treatment that does not require such~~

~~equipment does not require a license. In addition, a license is not required for the cleaning of the pool or spa in a way that does not affect the structural integrity of the pool or spa or its associated equipment.~~

(k) "Residential pool/spa contractor" means a contractor whose scope of work involves, but is not limited to, the construction, repair, water treatment, maintenance, and servicing of a residential swimming pool, or hot tub or spa, regardless of use. The scope of work includes the installation, repair, or replacement of existing equipment, ~~any cleaning or equipment sanitizing that requires at least a partial disassembling, excluding filter changes, and~~ the installation of new pool/spa equipment, interior finishes, the installation of package pool heaters, the installation of all perimeter piping and filter piping, and the construction of equipment rooms or housing for pool/spa equipment, and also includes the scope of work of a swimming pool/spa servicing contractor. The scope of such work does not include direct connections to a sanitary sewer system or to potable water lines. ~~The installation, construction, modification, or replacement of equipment permanently attached to and associated with the pool or spa for the purpose of water treatment or cleaning of the pool or spa requires licensure; however, the usage of such equipment for the purposes of water treatment or cleaning does not require licensure unless the usage involves construction, modification, or replacement of such equipment. Water treatment that does not require such equipment does not require a license. In addition, a license is not required for the cleaning of the pool or spa in a way that does not affect the structural integrity of the pool~~

~~or spa or its associated equipment.~~

(l) "Swimming pool/spa servicing contractor" means a contractor whose scope of work involves, but is not limited to, the repair, water treatment, maintenance, and servicing of a swimming pool, or hot tub or spa, whether public or private, or otherwise, regardless of use. The scope of work includes the repair or replacement of existing equipment, any sanitation, chemical balancing, routine maintenance or cleaning, ~~cleaning or equipment sanitizing that requires at least a partial disassembling, excluding filter changes, and~~ the installation of new pool/spa equipment, interior refinishing, the reinstallation or addition of pool heaters, the repair or replacement of all perimeter piping and filter piping, the repair of equipment rooms or housing for pool/spa equipment, and the substantial or complete draining of a swimming pool, or hot tub or spa, for the purpose of repair, ~~or~~ renovation, or water treatment. The scope of such work does not include direct connections to a sanitary sewer system or to potable water lines. ~~The installation, construction, modification, substantial or complete disassembly, or replacement of equipment permanently attached to and associated with the pool or spa for the purpose of water treatment or cleaning of the pool or spa requires licensure; however, the usage of such equipment for the purposes of water treatment or cleaning does not require licensure unless the usage involves construction, modification, substantial or complete disassembly, or replacement of such equipment. Water treatment that does not require such equipment does not require a license. In addition, a license is not required for the cleaning of the pool or spa in a way that does not affect the~~

~~structural integrity of the pool or spa or its associated equipment.~~

(m) "Plumbing contractor" means a contractor whose services are unlimited in the plumbing trade and includes contracting business consisting of the execution of contracts requiring the experience, financial means, knowledge, and skill to install, maintain, repair, alter, extend, or, if not prohibited by law, design plumbing. A plumbing contractor may install, maintain, repair, alter, extend, or, if not prohibited by law, design the following without obtaining an additional local regulatory license, certificate, or registration: sanitary drainage or storm drainage facilities, water and sewer plants and substations, venting systems, public or private water supply systems, septic tanks, drainage and supply wells, swimming pool piping, irrigation systems, and solar heating water systems and all appurtenances, apparatus, or equipment used in connection therewith, including boilers and pressure process piping and including the installation of water, natural gas, liquefied petroleum gas and related venting, and storm and sanitary sewer lines. The scope of work of the plumbing contractor also includes the design, if not prohibited by law, and installation, maintenance, repair, alteration, or extension of air-piping, vacuum line piping, oxygen line piping, nitrous oxide piping, and all related medical gas systems; fire line standpipes and fire sprinklers if authorized by law; ink and chemical lines; fuel oil and gasoline piping and tank and pump installation, except bulk storage plants; and pneumatic control piping systems, all in a manner that complies with all plans, specifications, codes, laws, and regulations applicable. The

scope of work of the plumbing contractor applies to private property and public property, including any excavation work incidental thereto, and includes the work of the specialty plumbing contractor. Such contractor shall subcontract, with a qualified contractor in the field concerned, all other work incidental to the work but which is specified as being the work of a trade other than that of a plumbing contractor. This definition does not limit the scope of work of any specialty contractor certified pursuant to s. 489.113(6), and does not require certification or registration under this part of any authorized employee of a public natural gas utility or of a private natural gas utility regulated by the Public Service Commission when disconnecting and reconnecting water lines in the servicing or replacement of an existing water heater. A plumbing contractor may perform drain cleaning and clearing and install or repair rainwater catchment systems; however, a mandatory licensing requirement is not established for the performance of these specific services.

(n) "Underground utility and excavation contractor" means a contractor whose services are limited to the construction, installation, and repair, on public or private property, whether accomplished through open excavations or through other means, including, but not limited to, directional drilling, auger boring, jacking and boring, trenchless technologies, wet and dry taps, grouting, and slip lining, of main sanitary sewer collection systems, main water distribution systems, storm sewer collection systems, and the continuation of utility lines from the main systems to a point of termination up to and including the meter location for the individual occupancy, sewer

collection systems at property line on residential or single-occupancy commercial properties, or on multioccupancy properties at manhole or wye lateral extended to an invert elevation as engineered to accommodate future building sewers, water distribution systems, or storm sewer collection systems at storm sewer structures. However, an underground utility and excavation contractor may install empty underground conduits in rights-of-way, easements, platted rights-of-way in new site development, and sleeves for parking lot crossings no smaller than 2 inches in diameter if each conduit system installed is designed by a licensed professional engineer or an authorized employee of a municipality, county, or public utility and the installation of such conduit does not include installation of any conductor wiring or connection to an energized electrical system. An underground utility and excavation contractor may not install piping that is an integral part of a fire protection system as defined in s. 633.021 beginning at the point where the piping is used exclusively for such system.

(o) "Solar contractor" means a contractor whose services consist of the installation, alteration, repair, maintenance, relocation, or replacement of solar panels for potable solar water heating systems, swimming pool solar heating systems, and photovoltaic systems and any appurtenances, apparatus, or equipment used in connection therewith, whether public, private, or otherwise, regardless of use. A contractor, certified or registered pursuant to this chapter, is not required to become a certified or registered solar contractor or to contract with a solar contractor in order to provide services enumerated in this paragraph that are within the scope of the services such

contractors may render under this part.

(p) "Pollutant storage systems contractor" means a contractor whose services are limited to, and who has the experience, knowledge, and skill to install, maintain, repair, alter, extend, or design, if not prohibited by law, and use materials and items used in the installation, maintenance, extension, and alteration of, pollutant storage tanks. Any person installing a pollutant storage tank shall perform such installation in accordance with the standards adopted pursuant to s. 376.303.

(q) "Specialty contractor" means a contractor whose scope of work and responsibility is limited to a particular phase of construction established in a category adopted by board rule and whose scope is limited to a subset of the activities described in one of the paragraphs of this subsection.

Section 3. Subsection (2) of section 489.111, Florida Statutes, is amended to read:

489.111 Licensure by examination.—

(2) A person shall be eligible for licensure by examination if the person:

(a) Is 18 years of age;

(b) Is of good moral character; and

(c) Meets eligibility requirements according to one of the following criteria:

1. Has received a baccalaureate degree from an accredited 4-year college in the appropriate field of engineering, architecture, or building construction and has 1 year of proven experience in the category in which the person seeks to qualify. For the purpose of this part, a minimum of 2,000 person-hours

shall be used in determining full-time equivalency.

2. Has a total of at least 4 years of active experience as a worker who has learned the trade by serving an apprenticeship as a skilled worker who is able to command the rate of a mechanic in the particular trade or as a foreman who is in charge of a group of workers and usually is responsible to a superintendent or a contractor or his or her equivalent, provided, however, that at least 1 year of active experience shall be as a foreman.

3. Has a combination of not less than 1 year of experience as a foreman and not less than 3 years of credits for any accredited college-level courses; has a combination of not less than 1 year of experience as a skilled worker, 1 year of experience as a foreman, and not less than 2 years of credits for any accredited college-level courses; or has a combination of not less than 2 years of experience as a skilled worker, 1 year of experience as a foreman, and not less than 1 year of credits for any accredited college-level courses. All junior college or community college-level courses shall be considered accredited college-level courses.

4.a. An active certified residential contractor is eligible to take the building contractors' examination if he or she possesses a minimum of 3 years of proven experience in the classification in which he or she is certified.

b. An active certified residential contractor is eligible to take the general contractors' examination if he or she possesses a minimum of 4 years of proven experience in the classification in which he or she is certified.

c. An active certified building contractor is eligible to

take the general contractors' examination if he or she possesses a minimum of 4 years of proven experience in the classification in which he or she is certified.

5.a. An active certified air-conditioning Class C contractor is eligible to take the air-conditioning Class B contractors' examination if he or she possesses a minimum of 3 years of proven experience in the classification in which he or she is certified.

b. An active certified air-conditioning Class C contractor is eligible to take the air-conditioning Class A contractors' examination if he or she possesses a minimum of 4 years of proven experience in the classification in which he or she is certified.

c. An active certified air-conditioning Class B contractor is eligible to take the air-conditioning Class A contractors' examination if he or she possesses a minimum of 1 year of proven experience in the classification in which he or she is certified.

6.a. An active certified swimming pool servicing contractor is eligible to take the residential swimming pool contractors' examination if he or she possesses a minimum of 3 years of proven experience in the classification in which he or she is certified.

b. An active certified swimming pool servicing contractor is eligible to take the swimming pool commercial contractors' examination if he or she possesses a minimum of 4 years of proven experience in the classification in which he or she is certified.

c. An active certified residential swimming pool contractor

is eligible to take the commercial swimming pool contractors' examination if he or she possesses a minimum of 1 year of proven experience in the classification in which he or she is certified.

d. An applicant is eligible to take the swimming pool/spa servicing contractors' examination if he or she has satisfactorily completed 60 hours of instruction in courses and 20 hours of field hands-on instruction related to the scope of work covered by that license and approved by the department ~~Construction Industry Licensing Board~~ by rule ~~and has at least 1 year of proven experience related to the scope of work of such a contractor~~.

Section 4. This act shall take effect October 1, 2013.

The Committee on Regulated Industries (Stargel) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Paragraph (c) of subsection (2) of section 489.111, Florida Statutes, is amended to read:

489.111 Licensure by examination.—

(2) A person shall be eligible for licensure by examination if the person:

(c) Meets eligibility requirements according to one of the following criteria:

1. Has received a baccalaureate degree from an accredited

269142

4-year college in the appropriate field of engineering, architecture, or building construction and has 1 year of proven experience in the category in which the person seeks to qualify. For the purpose of this part, a minimum of 2,000 person-hours shall be used in determining full-time equivalency.

2. Has a total of at least 4 years of active experience as a worker who has learned the trade by serving an apprenticeship as a skilled worker who is able to command the rate of a mechanic in the particular trade or as a foreman who is in charge of a group of workers and usually is responsible to a superintendent or a contractor or his or her equivalent, provided, however, that at least 1 year of active experience shall be as a foreman.

3. Has a combination of not less than 1 year of experience as a foreman and not less than 3 years of credits for any accredited college-level courses; has a combination of not less than 1 year of experience as a skilled worker, 1 year of experience as a foreman, and not less than 2 years of credits for any accredited college-level courses; or has a combination of not less than 2 years of experience as a skilled worker, 1 year of experience as a foreman, and not less than 1 year of credits for any accredited college-level courses. All junior college or community college-level courses shall be considered accredited college-level courses.

4.a. An active certified residential contractor is eligible to take the building contractors' examination if he or she possesses a minimum of 3 years of proven experience in the classification in which he or she is certified.

b. An active certified residential contractor is eligible

269142

to take the general contractors' examination if he or she possesses a minimum of 4 years of proven experience in the classification in which he or she is certified.

c. An active certified building contractor is eligible to take the general contractors' examination if he or she possesses a minimum of 4 years of proven experience in the classification in which he or she is certified.

5.a. An active certified air-conditioning Class C contractor is eligible to take the air-conditioning Class B contractors' examination if he or she possesses a minimum of 3 years of proven experience in the classification in which he or she is certified.

b. An active certified air-conditioning Class C contractor is eligible to take the air-conditioning Class A contractors' examination if he or she possesses a minimum of 4 years of proven experience in the classification in which he or she is certified.

c. An active certified air-conditioning Class B contractor is eligible to take the air-conditioning Class A contractors' examination if he or she possesses a minimum of 1 year of proven experience in the classification in which he or she is certified.

6.a. An active certified swimming pool servicing contractor is eligible to take the residential swimming pool contractors' examination if he or she possesses a minimum of 3 years of proven experience in the classification in which he or she is certified.

b. An active certified swimming pool servicing contractor is eligible to take the swimming pool commercial contractors'

B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/CS/CS/SB 242 enacts the Interstate Insurance Product Regulation Compact (Compact).The Compact is intended to help states join together to regulate designated insurance products.

There is no fiscal impact to the state.

Specifically, the Compact applies to the following asset-based insurance products:

- Life insurance;
- Annuities;
- Disability income insurance; and
- Long-term care insurance, though the state is prospectively opting out of all uniform standards for long-term care insurance in the Compact.

In addition to the opt-out from all uniform standards for long-term care insurance, the bill also prospectively opts out of the Compact for the 10-day period for the unconditional refund of premiums, plus any fees or charges under s. 626.99, F.S.; as well as underwriting criteria limiting

the amount, extent, or kind of life insurance based on past or future travel in a manner inconsistent with s. 626.9541(1)(dd), F.S., as implemented by the OIR. The bill also provides that standards adopted by Florida are not limited or rendered inapplicable by the absence of a Compact standard, and that standards adopted by Florida continue to apply to the content, approval, and certification of products in Florida, notwithstanding the provision in the Compact stating that the rules and uniform standards of the Compact are the exclusive provisions applicable to the content, approval, and certification of such products.

Upon joining the Compact, Florida will become a member of the Interstate Insurance Product Regulation Commission (Commission). The primary duties of the Commission are to:

- Develop uniform standards for product lines;
- Receive and promptly review products; and
- Approve product filings that satisfy applicable uniform standards.

Florida will only participate in the Compact if the Commissioner of the Office of Insurance Regulation (Insurance Commissioner) determines that the uniform standards of the Compact provide consumer protections equal to those under state law. If the Insurance Commissioner determines the Compact does not provide equivalent protections, then an order issued by the Office of Insurance Regulation (OIR) is sufficient to opt out of the Compact or stay the effect of a uniform standard.

The bill has an effective date of July 1, 2014.

This bill creates undesignated sections of the Florida Statutes.

II. Present Situation:

The Interstate Insurance Product Regulation Compact

The Interstate Insurance Product Regulation Compact (Compact) is an agreement among the member states to uniform standards for the regulation of four insurance product lines:

- Life insurance,
- Annuities,
- Disability income, and
- Long-term care insurance.

The Compact is implemented through the Interstate Insurance Product Regulation Commission (Commission).[1] Each member state is represented by one member, who is that state's representative to the Commission. All Compact members[2] receive one vote under the Compact.

[1] The Commission is a multi-state joint public entity that came into existence in March 2004 upon the legislative enactment of two states, Colorado and Utah, respectively. The Commission did not become operational for purposes of adopting uniform product standards until it May 2006, when it met the requirement set by the terms of the Compact. The Commission has 41 Member States representing approximately two-thirds of the premium volume nationwide.

[2] The other Compact members are Alabama, Alaska, Colorado, Georgia, Hawaii, Idaho, Indiana, Iowa, Kentucky, Louisiana, Maine, Massachusetts, Minnesota, Nebraska, Nevada, New Mexico, Oklahoma, Oregon, Puerto Rico, Rhode Island, South Carolina, Tennessee, Utah, Vermont, West Virginia and Wyoming

The adoption of a uniform standard requires a two-thirds vote of Commission members. Bylaws require a majority vote of members. The Commission is governed by a 14-member management committee. The Management Committee members currently include the seven largest member states according to premium volume,[3] four mid-sized states with at least 2 percent of the national premium volume[4] and one additional state from each of four regional zones[5]

The primary duties of the Commission are to:

- Develop uniform standards for product lines;
- Receive and promptly review products;
- Approve product filings that satisfy applicable uniform standards.

If Florida joins the Compact, any product whose product line is governed by the Compact and is submitted to the Commission, if approved, will be approved to be offered for sale in Florida[6] if it complies with the requirements of the Compact. The model laws and regulations of the Compact will govern and generally preempt the application of conflicting Florida law governing the product. [7] A state may opt out of a uniform standard via legislation or rule either at the time the state enacts the Compact or prior to the enactment of a new standard or rule approved by the Commission. Florida will opt out of Commission standards for long-term care insurance and join the Compact for life insurance, annuities, and disability income insurance under CS/CS/SB 242.

The Florida Legislature has in the past enacted laws containing greater consumer protections than are generally available in other states. For instance, in Florida, the suitability of an annuity—the appropriateness of a particular annuity product relative to the consumer's age, investment objectives, and current and future financial needs—has been a primary concern with regard to transactions involving consumers, particularly senior consumers. In 2004, the Florida Legislature enacted a model law on annuities, the Annuity Transactions Model Regulation of the National Association of Insurance Commissioners (NAIC) in s. 627.4554, F.S.[8] The 2008 Legislature, however, subsequently passed the John and Patricia Seibel Act, which strengthened Florida's annuity standards and procedures.[9] Those standards were further strengthened by the 2010 Legislature.[10]

To date, the Commission has adopted uniform standards for the following individual product lines: term and whole life insurance, variable and non-variable adjustable life insurance, variable and non-variable annuities, long-term care insurance, and disability income insurance. The Commission has also promulgated standards relating to the applications for the various

[3] Illinois, Michigan, New Jersey, North Carolina, Ohio, Pennsylvania and Texas.
[4] Maryland, Missouri, Virginia, and Wisconsin
[5] Kansas, Mississippi, New Hampshire and Washington
[6] If the insurer is authorized to transact business in Florida.
[7] All lawful actions of the Commission, including all uniform standards, rules, and operating procedures, are binding on compacting states. The Compact prevents the enforcement of any other law of a compacting state, except that the Commission may not abrogate or restrict the access to state courts; remedies related to breach of contract, tort, or other laws not specifically directed to the content of the product; state law relating to the construction of insurance contracts; or the authority of the state Attorney General.
[8] Section 146, ch. 2004-390, L.O.F.
[9] Section 9, ch. 2008-237, L.O.F.
[10] Section 52, ch. 2010-175, L.O.F.

individual lines of insurance, the benefit features of individual life policies, the benefit features of individual annuities, and for changes to mortality tables used for individual life insurance. Standards for group term life insurance have also been adopted. The Commission is in the process of developing uniform standards for group annuities and standards for specific benefits offered in group term life insurance policies.

Life Insurance

Life insurance is insurance of human lives.[11] Life insurance provides survivor benefits for designated beneficiaries upon the death of the insured. The three most common types of life insurance are whole life, term life, and universal life. Whole life insurance provides a fixed amount of life insurance coverage while building cash value. The premium remains the same until the maturity date (usually age 100). Benefits are payable upon the death of the insured or on the maturity date. The cash value of the policy increases as premiums are paid and allow loans to be made on the policy for up to the amount of the cash value. Term life insurance is purchased for a specific time period and pays a death benefit only if the insured dies during the specified time period. Term insurance does not build cash value. Term life insurance policies may contain provisions allowing the insured to renew the policy after expiration of the term or convert the policy to a whole life policy. Universal life insurance is a combination of a term life policy and the ability to accumulate cash value.

Annuities

An annuity is a form of life insurance transaction involving a contract between a customer and an insurer wherein the customer makes a lump sum payment or series of payments to an insurer that in return agrees to make periodic payments back to the annuitant at a future date, either for the annuitant's life or a specified period. Annuities can be obtained in either immediate or deferred form. In an immediate annuity, the annuity company is typically given a lump sum payment in exchange for immediate and regular periodic payments, which may be for as long as the contract owner lives. For a deferred annuity, premiums are usually either paid in a lump sum or by a series of payments, and the annuity is subject to an *accumulation phase*, when those payments experience tax-deferred growth, followed by the *annuitization* or *payout phase*, when the annuity provides a regular stream of periodic payments to the consumer. Annuities are often used for retirement planning because they provide a guaranteed source of income for future years.

Disability Income Insurance

Disability income insurance pays a weekly or monthly income for a specific period if the insured suffers a disability and cannot continue working or obtain work. The disability may involve sickness, injury, or a combination of the two. Disability policies often contain an elimination period, which is a specified time period after the date of disability that must pass before the insured may receive benefits. Most disability insurance plans coordinate benefits with Social Security benefits and workers' compensation to eliminate duplication of coverage.

[11] Section 624.602, F.S.

Long-Term Care Insurance

Long-term care insurance policies provide benefits for a broad range of supportive medical, personal and social services needed by people who are unable to meet their basic living needs for an extended period of time for services not covered by a regular health insurance, Medicare or Medicare supplement insurance policy. The need for long-term care insurance may be caused by accident, illness or frailty. Such conditions include the inability to move about, dress, bathe, eat, use a toilet, medicate and avoid incontinence. Also, care may be needed to help the disabled with household cleaning, preparing meals, shopping, paying bills, visiting the doctor, answering the phone and taking medications. Additional long-term care disabilities are due to cognitive impairment from stroke, depression, dementia, Alzheimer's disease, Parkinson's disease and other medical conditions that affect the brain.

Florida law establishes requirements for long-term care policies in the Long-Term Care Insurance Act.[12] The act specifies filing requirements, disclosure, advertising, and performance standards for such policies, minimum standards for home health care benefits, mandatory offers, cancellation requirements, and standards for benefit triggers for receiving benefits under the policy. The act also provides consumers grace periods for late payment and notice of cancellation.[13]

III. Effect of Proposed Changes:

CS/CS/SB 242 enacts the Interstate Insurance Product Regulation Compact. The Compact is intended to help states join together to regulate designated insurance products, specifically, the following asset-based insurance products:

- Life insurance;
- Annuities;
- Disability income insurance; and
- Long-term care insurance, though the state is prospectively opting out of all uniform standards for long-term care insurance in the Compact.

Legislative Findings and Declaration of Intent

Section 1 creates an undesignated section of statute stating that Florida intends to join the Interstate Insurance Product Regulation Compact (Compact) and become a member of the Interstate Insurance Product Regulation Commission (Commission). The Legislature finds that the Compact will, through a single source for filing new products and a uniform set of product standards that provide a high level of consumer protection, address the increased mobility of the populace and significant changes in the financial services marketplace that have resulted in asset-based insurance products competing directly with other retirement and estate planning instruments sold by banks and securities firms. The Legislature also declares that it is adopting the Compact under the understanding that no uniform standards long-term care insurance rate increase filings will be developed.

[12] Part XVIII of chapter 627, F.S.
[13] Section 627.94073, F.S.

Enactment of the Compact and Membership in the Commission

Section 2 makes the state a compacting state under the Compact and a member of the Commission, whose purposes are to protect consumer interests, develop uniform standards for insurance products, establish a clearinghouse to promptly review insurance products and related advertisements, give regulatory approval to product filings and advertisements that satisfy the applicable uniform standard, coordinate regulatory resources among states, create the Commission, and perform these and other related functions.

Commission Membership, Voting, and Bylaws

Each compacting state has one member of the Commission, who is entitled to one vote. The Commission is governed by a management committee of up to 14 members consisting of:

- One member each from the four compacting states with the largest premium volume for individual and group annuities, life, disability income, and long-term care insurance products.
- One member from the four compacting states with at least 2 percent of the market described above selected on a rotating basis, other than from the six states with the largest premium volume.
- One member from four compacting states with less than 2 percent of the market described above, with one selecting from each of the four zone regions of the NAIC.

The Commission annually elects officers from the management committee and is authorized to select an executive director who serves as secretary to the Commission but may not be a Commission member.

The Compact requires the establishment of legislative and advisory committees. The legislative committee consists of state legislators and monitors and makes recommendations to the Commission. The management committee must consult with the legislative committee prior to adopting any uniform standard, change in Commission bylaws, annual budget or other significant matter. Two advisory committees must be established, one comprising independent consumer representatives and another composed of insurance industry representatives. Additional advisory committees may be established. Adoption of bylaws requires a majority vote of members.

Amendments to the Compact

Amendments to the Compact may be proposed by the Commission for enactment by the compacting states. An amendment is adopted only if unanimously enacted into law by all of the compacting states.

Powers of the Commission

The bill establishes the Interstate Insurance Product Regulation Commission. The Commission may:

- Develop uniform standards for product lines;
- Receive and promptly review products;
- Approve product filings that satisfy applicable uniform standards.

Uniform Standards

The Commission has authority to adopt uniform standards by rule. A "uniform standard" is a commission standard for a product line, plus subsequent amendments that use a substantially consistent methodology. A uniform standard includes all product requirements in the aggregate. A uniform standard must be construed to prohibit the use of inconsistent, misleading, or ambiguous provisions in a product. The uniform standard must also ensure that the form of any product made available to the public is not unfair, inequitable, or against public policy as determined by the Commission. Adoption of a uniform standard requires a two-thirds vote of Commission members.

For purposes of this act, Florida is adopting all uniform standards that the Commission has adopted as of March 1, 2013, other than for long-term care insurance. The bill states that the Office of Insurance Regulation (OIR) shall opt out of any new uniform standard or amendment to a standard that substantially changes it that is adopted by the Commission after March 1, 2013. The bill directs the OIR to opt out of the uniform standard and authorizes the state Financial Services Commission to adopt rules to opt out of any new uniform standards or substantial amendments until such standards or amendments are approved by the Legislature.

Commission Receipt, Review, and Approval of Products

The Commission also has authority to receive and review products filed with the Commission and rate filings for disability income and long-term care insurance products (Florida is opting out of all uniform standards involving long-term care). Products and disability income insurance rates that satisfy the appropriate uniform standard may be approved. Commission approval has the force and effect of law and is binding on compacting states.

A product is the policy form or contract and includes any application, endorsement, or related form that is attached to and part of the policy or contract. The term also includes any evidence of coverage or certificate for an individual or group annuity, life insurance, disability income, or long-term care insurance product that an insurer is authorized to issue.

The Commission may designate certain products and advertisements that may self-certify compliance with uniform standards and commission rules and are not required to obtain prior approval from the Commission. The Commission may issue subpoenas requiring the testimony of witnesses and production of evidence and may also bring and prosecute legal proceedings if the standing of any state insurance department to sue or be sued is not affected. The Commission has the power to adopt rules that have the force and effect of law and are binding in the compacting states. Such rules include uniform standards for product and related advertisements that are filed with the Commission.

To obtain approval of a product, the insurer must file the Product with the Commission and pay applicable fees. Any product approved by the Commission may be sold or otherwise issued in any compacting state in which the insurer is authorized to do business. An insurer may alternatively file its product with a state insurance department, and such filing will be subject to the laws of that state.

Review of Commission Decisions Regarding Filings

A disapproved product or advertisement may be appealed to a review panel appointed by the Commission within 30 days of the Commission's determination. An allegation that the Commission disapproved a product or advertisement arbitrarily, capriciously, abused its discretion, or otherwise acted not accordance with law is subject to judicial review. Judicial proceedings must be brought in a court where the principal office of the Commission is located (Washington, DC).

Rulemaking by the Commission and State Opt-Out Procedure

The rulemaking process must conform to the Model State Administrative Procedure Act of 1981, as amended. Prior to adopting a uniform standard, the Commission must give written notice to the relevant state legislative committees in each compacting state. In adopting a uniform standard, the Commission must consider all submitted materials and issue a concise explanation of its decision. Uniform standards are effective 90 days after their adoption by the Commission. Judicial review of Commission rules (including uniform standards) or operating procedures is available but limited by the Compact. Any person may petition for judicial review, but the petition does not stay or prevent the rule or operating procedure from becoming effective unless the court finds the petitioner has a substantial likelihood of success. The court may not find a Commission rule or operating procedure unlawful if it represents a reasonable exercise of the Commission's authority

A state may opt out of a uniform standard via legislation or rule. Florida is prospectively opting out of all uniform standards involving long-term care insurance products, as allowed by the terms of the Compact. Opting out of a uniform standard via rule requires the state to give the Commission written notice within 10 business days after the uniform standard is adopted and find that the uniform standard does not provide reasonable protections to the consumers of that state. The OIR Commissioner must make specific findings of fact and conclusions of law detailing the facts that warrant departure of the uniform standards and that those facts outweigh the Legislature's intent to join the Compact and a presumption that the uniform standard provides reasonable consumer protections.

Compliance Enforcement

The Commission monitors compacting states for compliance with Commission bylaws, rules, uniform standards, and operation procedures, and provides written notice to a state that is in noncompliance.

The state insurance commissioner retains authority to oversee the market regulation of the activities of insurers in that state. An insurance product or advertisement that has been approved

or certified by the Commission, however, does not violate the provisions, standards, or requirements of the Compact unless the Commission holds a hearing and issues a final order finding a violation. If an advertisement has not been approved or certified to the Commission, the state insurance commissioner may only bring an action for violating a standard of the Compact if the Commission first authorizes the action.

Withdrawing From or Dissolving the Compact; State Default, Suspension and Termination

A state may withdraw from the Compact by repealing the law that enacted the Compact. Withdrawal from the Compact does not affect product filings approved or self certified, or approved advertisements, except by mutual agreement of the Commission and the withdrawing state, unless the state formally rescinds approval in the same manner as provided by the laws of that state for disapproving products or advertisements previously approved under state law. The Compact is dissolved once there is only one Compact member.

The Commission may suspend a state that is determined to have defaulted in the performance of its obligations or duties under the Compact or the bylaws, rules, or operating procedures of the Compact. The Commission must notify a defaulting state in writing and provide a time period within which the state may cure the default. The state will be terminated from the Compact if the default is not timely cured. Products and advertisements approved by the Commission, or self-certified, remain in force in the same manner as though the state had withdrawn voluntarily. Reinstatement following termination requires reenacting the Compact.

Actions of Commission are Binding on States; Conflict of Laws; Advisory Opinions

All lawful actions of the Commission, including all rules and operating procedures, are binding on compacting states. Agreements between the Commission and compacting states are binding in accordance with their terms. The Compact prevents the enforcement of any other law of a compacting state, except that the Commission may not abrogate or restrict the access to state courts; remedies related to breach of contract, tort, or other laws not specifically directed to the content of the product; state law relating to the construction of insurance contracts; or the authority of the state Attorney General. A Compact provision is ineffective as to a state, however, if it exceeds the constitutional limits imposed on the Legislature of a state. If an insurance product is filed with an individual state, it is subject to the law of that state.

If requested by a party to a conflict over the meaning or interpretation of Commission actions and approved by a majority vote of the compacting states, the Commission may issue advisory opinions regarding the meaning or interpretation in dispute.

Inspection of Commission Records

The Commission must adopt rules creating conditions and procedures for the public inspection and copying of information and official records, except for records involving the privacy of individuals and insurers' trade secrets. The Commission may also adopt additional rules allowing it make available otherwise exempt records and information to federal and state agencies, including law enforcement. All public requests to inspect or copy records, data, or information of

the Commission that is in the possession of the OIR, insurance commissioner, or commissioner's designee, are subject to Chapter 119, Florida Statutes.

Commission Funding and Expenses

The Commission covers the cost of its operations and activities through the collection of filing fees. The annual budget may not be approved until it has been subject to the required notice and comment period. The Commission is exempt from all taxation by compacting states. The Commission may not pledge the credit of any compacting state except with the legal authorization of the compacting state. Complete and accurate accounts of Commission financial records must be kept and shall be audited annually by an independent certified public accountant. At least every 3 years, the audit must include a management and performance audit of the Commission.

Severability Clause

The Compact provisions are severable from provisions that are deemed unenforceable.

Opt-Out All Uniform Standards Involving Long-Term Insurance Products

Section 3 provides that Florida opts out of all uniform standards of the Commission involving long-term care insurance products.

Participation in Compact Dependent on Determination by Insurance Commissioner; Opt-Out of All Uniform Standards Adopted After March 1, 2013; Continued Application of Florida Standards

Section 4 adopts all uniform standards of the Commission as of March 1, 2013, other than for long-term care insurance. Florida will only participate in the Compact, however, if the Commissioner of the Office of Insurance Regulation (Insurance Commissioner) determines that the uniform standards of the Compact provide consumer protections equal to those under state law. If the Insurance Commissioner determines the Compact does not provide equivalent protections, then an order issued by the Office of Insurance Regulation is sufficient to opt out of the Compact or stay the effect of a uniform standard...

The Office of Insurance Regulation (OIR) must opt out of all new uniform standards that the Commission adopts after March 1, 2013, that substantially alter or add to existing Commission uniform standards that the state adopted pursuant to this bill until the state enacts legislation to adopt or opt out of the new uniform standards or amendments to uniform standards. The OIR must immediately notify the Legislature of any new uniform standard or amendment to an existing standard. Effective October 1, 2014, the state will also opt-out of uniform standards adopted by the Commission for:

- The 10-day period for the unconditional refund of life insurance premiums, plus any fees or charges under s. 626.99, F.S., and
- Underwriting criteria limiting the amount, extent, or kind of life insurance based on past or future travel that is inconsistent with s. 626.9541(1)(dd), F.S., as implemented by the OIR.

The bill states that it is the policy of this state that the exclusivity provision of paragraph (2)(b) of Article XVI of the Compact (stating that the rules and uniform standards of the compact are the exclusive provisions applicable to the content, approval, and certification of such products) applies only to uniform standards adopted by the Commission, and that standards adopted by Florida are not limited or rendered inapplicable by the absence of a standard adopted by the Commission. The bill also applies all Florida standards to the content, approval and certification of products in Florida, notwithstanding the exclusivity provision of the Compact, including, but not limited to:

- The prohibition against a surrender or deferred sales charge of more than 10 percent under s. 627.4554, F.S.
- Notification to an applicant of the right to designate a secondary addressee at the time of application under s. 627.4555, F.S.
- Notification of secondary addressees at least 21 days before the impending lapse of a policy under s. 627.4555, F.S.
- The requirement to include a clear statement that the benefits, values, or premiums under a variable annuity are indeterminate and may vary.
- Interest on surrender proceeds pursuant to s. 627.482, F.S.

Unemployment and Reemployment Taxes

Section 5 imposes state unemployment and reemployment taxes under ch. 443, F.S., on any Commission employees who perform services within this state. The Commission is also subject to state taxation for any business or activity conducted or performed in the state.

Public Requests for Inspection and Copying of Information, Data, or Records

Section 6 specifies that notwithstanding the provisions of the Compact governing public inspection and copying of records (Article VIII, sections 1 and 2) and documents and information related to Commission finances or internal audits (Article XII, section 6), a request by a Florida resident for public inspection and copying of information, data, or official records that include:

- Insurer trade secrets will be referred to the Commissioner of the OIR who will respond to the request in accordance with s. 624.4213, F.S.
- Matters of privacy of individuals will be referred to the Commissioner of the OIR who will respond to the request in accordance with s. 119.07(1), F.S.

The section also specifies that nothing in the act abrogates a person's right to access information consistent with the Constitution and laws of Florida.

Rulemaking

Section 7 grants rulemaking authority to the Financial Services Commission to administer the act.

Invalidation Clause

Section 8 provides that if any part of section 3 of the bill (the opt-out of all Compact standards for long-term care insurance) or section 4 of the bill (relating to Florida opting out of Compact uniform standards) is invalidated by the courts, such ruling renders the entire act invalid, which eliminates the state's membership in the Compact.

Effective Date

Section 9 provides that the effective date of the act is July 1, 2014.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

Non-Delegation Doctrine

Statutory authorization to compact or enter reciprocal agreements with other states and authorizing the Insurance Commissioner to prevent Florida from adopting the Compact or opting out of additional uniform standards by administrative rule potentially implicate the "nondelegation doctrine." Article III, Section 1 of the Florida Constitution states that "[t]he legislative power of the state shall be vested in a legislature of the State of Florida." The Florida Supreme Court has held that this constitutional provision requires that "primary policy decisions shall be made by members of the legislature who are elected to perform those tasks, and administration of legislative programs must be pursuant to some minimal standards and guidelines…."[14] Particularly questionable under the non-delegation doctrine is the provision of the bill that authorizes the Insurance Commissioner to prevent Florida from joining the Compact by issuing an order, as it appears to cede a primary policy decision to the Insurance Commissioner.

The Legislature may constitutionally transfer subordinate functions to "permit administration of legislative policy by an agency with the expertise and flexibility to deal with complex and fluid conditions."[15] However, the Legislature "may not delegate the power to enact a law or the right to exercise unrestricted discretion in applying the law."[16]

[14] Askew v. Cross Key Waterways, 372 So.2d 913, 925 (Fla. 1978).
[15] *Microtel v. Fla. Pub. Serv. Comm'n,* 464 So.2d 1189, 1191 (Fla.1985) (citing *State, Dep't of Citrus v. Griffin,* 239 So.2d 577 (Fla.1970)).
[16] *Sims v. State,* 754 So.2d 657, 668 (Fla. 2000).

Further, the nondelegation doctrine precludes the Legislature from delegating its powers "absent ascertainable minimal standards and guidelines."[17] When the Legislature delegates power to another body, it "must clearly announce adequate standards to guide in the execution of the powers delegated."[18]

The CS/CS/CS attempts to comply with the nondelegation doctrine by expressing that it is state policy to prospectively opt-out of all uniform standards and new substantial amendments to such standards that are adopted by the Commission after March 1, 2013. The bill directs the Office of Insurance Regulation to opt out all such uniform standards and new substantial amendments. The Financial Services Commission must use its rulemaking authority under the bill to opt out of uniform standards and substantial amendments until they are approved by the Legislature.

Inspection and Copying of Public Records

Section VIII of the Compact requires the Commission to adopt rules establishing conditions and procedures for the inspection of its information and official records. This implicates Florida's constitutional and statutory laws which provide a broad grant of authority to the public to inspect or copy any public record.

Article I, s. 24 of the State Constitution, provides that "[e]very person has the right to inspect or copy any public record made or received in connection with the official business of any public body, officer, or employee of the state, or persons acting on their behalf, except with respect to records exempted pursuant to this section or specifically made confidential by this Constitution. This section specifically includes the legislative, executive, and judicial branches of government and each agency or department created thereunder; counties, municipalities, and districts; and each constitutional officer, board, and commission, or entity created pursuant to law or this Constitution."

In addition to the State Constitution, the Public Records Act, which pre-dates the public records provision of the State Constitution, specifies conditions under which public access must be provided to records of an agency. Section 119.07(1)(a), F.S., states that, "[e]very person who has custody of a public record shall permit the record to be inspected and copied by any person desiring to do so, at any reasonable time, under reasonable conditions, and under supervision by the custodian of the public record." Unless specifically exempted, all agency records are available for public inspection. The term "public record" is broadly defined to mean, "all documents, papers, letters, maps, books, tapes, photographs, films, sound recordings, data processing software, or other material, regardless of the physical form, characteristics, or means of transmission, made or received pursuant to law or ordinance or in connection with the transaction of official business by any agency."

Only the Legislature is authorized to create exemptions to open government requirements. Exemptions must be created by general law and such law must specifically

[17] *Dep't of Bus. Reg., Div. of Alcoholic Beverages & Tobacco v. Jones*, 474 So.2d 359, 361 (Fla. 1st DCA 1985).
[18] *Martin, 916 So.2d at 770.*

state the public necessity justifying the exemption. Further, the exemption must be no broader than necessary to accomplish the stated purpose of the law. A bill enacting an exemption may not contain other substantive provisions, although it may contain multiple exemptions that relate to one subject.

The Compact specifies that the Commission rules must allow for the public inspection and copying of its information and official records, except information and records involving the privacy of individuals and trade secrets. Under the CS/CS/CS, a request for public inspection and copying information involving individual privacy will be referred to the state insurance commissioner who will handle it in accordance with s. 119.07(1), F.S. Similarly, a request for public inspection and copying of potential insurer trade secret information will be referred to the state insurance commissioner who will handle it in accordance with s. 624.4213, F.S.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

Representatives from the Florida Department of Revenue state that, "[e]ven though Article XII of the Compact exempts the Commission from all taxation, if the Commission employs persons who work in Florida, it will be subject to the labor laws of Florida in ch. 443, F.S. Federal law (26 U.S.C. 3309) requires states to make nonprofit entities and governmental entities liable for reemployment tax. Certain employers are allowed to elect to reimburse Florida for reemployment benefits (not a tax) paid to any of its employees instead of paying the Florida reemployment tax. The Commission, as a non-profit entity, would be permitted to elect to be a reimbursing employer in Florida. If the Commission does not make such election for any Florida employees, the Commission would be required to pay the reemployment tax."

The bill specifies that the Commission is subject to state unemployment or reemployment taxes imposed pursuant to ch. 443, F.S., in compliance with the Federal Unemployment Tax Act, for any persons employed by the Commission who perform services for it within the state. The bill also specifies that the Commission is subject to taxation for any commission business or activity conducted or performed in Florida.

B. Private Sector Impact:

Representatives from the Office of Insurance Regulation indicate that the state's membership in the Compact could potentially reduce the cost of filing and obtaining approval of asset-based insurance products.

C. Government Sector Impact:

If Florida becomes a member of the Compact, the Office of Insurance Regulation may experience a reduction in its workload for those functions now performed by the Commission. That reduction in workload could result in decreased appropriation needs. Representatives from the OIR indicate that the office will not incur a fiscal impact if Florida adopts the Compact.

VI. Technical Deficiencies:

Section 4 of the bill exercises the opt-out of uniform standards related to the 10-day period for the unconditional refund of premiums, plus any fees or charges under s. 626.99, F.S., and underwriting criteria inconsistent with s. 626.9541(1)(dd), F.S., effective October 1, 2014. The bill is effective July 1, 2014. If the intent is to prevent application of Compact uniform standards contrary to these provisions, the October 1, 2014 effective date should be amended to make the opt-out effective July 1, 2014.

VII. Related Issues:

Other Comments: Exclusivity of Compact Standards and Rules

Section 4 of the CS/CS/CS provides that "[n]otwithstanding paragraph(2)(b) of Article XVI of the compact, standards adopted by this state continue to apply to the content, approval, and certification of products in this state…." Paragraph (2)(b) of Article XVI states that "for any product approved or certified to the commission, the rules, uniform standards, and any other requirements of the commission shall constitute the exclusive provisions applicable to the content, approval, and certification of such products." The continued application of Florida law to all products sold in this state appears to be in conflict with the Compact requirement that the Compact's rules, uniform standards and requirements be the exclusive provisions applicable to products submitted to the compact. A state becomes a "compacting state" when it enacts the compact legislation. Given this substantial conflict with the terms of the Compact, the Commission may determine that this bill does not enact the Compact in this state, and thus Florida has not become a compacting state.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS/CS by Appropriations on April 23, 2013:
The CS adds the following provisions to the bill:

- If any part of section 3 of the bill (the opt-out of all Compact standards for long-term care insurance) or section 4 of the bill (relating to Florida opting out of Compact uniform standards) is invalidated by the courts, such ruling renders the entire act invalid, which eliminates the state's membership in the Compact.
- Florida will only participate in the Compact, however, if the Commissioner of the Office of Insurance Regulation (Insurance Commissioner) determines that the uniform standards of the compact provide consumer protections equal to those under state law.
- Effective October 1, 2014, the state will also opt-out of uniform standards adopted by the Commission for the 10-day period for the unconditional refund of life insurance premiums, plus any fees or charges under s. 626.99, F.S., and underwriting criteria limiting the amount, extent, or kind of life insurance based on past or future travel that is inconsistent with s. 626.9541(1)(dd), F.S., as implemented by the OIR.
- Provides that it is the policy of this state that the exclusivity provision of paragraph (2)(b) of Article XVI of the Compact applies only to uniform standards

adopted by the Commission, and that standards adopted by Florida are not limited or rendered inapplicable by the absence of a standard adopted by the Commission.

- The bill also applies all Florida standards to the content, approval and certification of products in Florida, including, but not limited to:
  - The prohibition against a surrender or deferred sales charge of more than 10 percent under s. 627.4554, F.S.
  - Notification to an applicant of the right to designate a secondary addressee at the time of application under s. 627.4555, F.S.
  - Notification of secondary addressees at least 21 days before the impending lapse of a policy under s. 627.4555, F.S.
  - The requirement to include a clear statement that the benefits, values, or premiums under a variable annuity are indeterminate and may vary.
  - Interest on surrender proceeds pursuant to s. 627.482, F.S.
- The effective date of the act is July 1, 2014.

CS/CS by Governmental Oversight and Accountability on April 9, 2013:
The CS/CS amends a requirement that certain public records requests be handled in accordance with s. 119.071, F.S., to instead require such requests to be handled in accordance with s. 119.07(1), F.S.

CS by Banking and Insurance on April 2, 2013:
The CS adds the following provisions to the bill:

- Standards clarifying the extent of immunity from liability granted to the Commission executive director, members, officers, employees, and representatives.
- Specifies that the OIR must opt-out of all uniform standards and amendments to such standards adopted by the Commission after March 1, 2013, and that the Financial Services Commission must adopt rules making the opt-out effective until the Legislature approves the new uniform standard or amendment.
- Specifies that the Compact may not violate provisions of the State Constitution and law relating to public inspection and copying of documents and information and requires the insurance commissioner to handle such requests related to matters of privacy of individuals and insurer trade secrets.
- Specifies that the Commission is subject to state unemployment taxes, state reemployment taxes, and taxation for business or activity conducted or performed in Florida.

The Committee on Appropriations (Hukill) recommended the following:

Senate Amendment (with title amendment)

Delete lines 1046 - 1125

and insert:

Section 3. Opt out from long-term care products standards.—Pursuant to Article VII of the Interstate Insurance Product Regulation Compact, adopted by this act, this state prospectively opts out of all uniform standards adopted by the Interstate Insurance Product Regulation Commission involving long-term care insurance products, and such opt out may not be treated as a material variance in the offer or acceptance of this state to participate in the compact.

703120

Section 4. Effective date of compact standards; opt out procedures; state law exemptions; legislative notice.—

(1) Except as provided in section 3 of this act and this section, all uniform standards adopted by the Interstate Insurance Product Regulation Commission as of March 1, 2013, are adopted by this state.

(2) Notwithstanding subsections (3), (4), (5), and (6) of Article VII of the Interstate Insurance Product Regulation Compact as adopted by this act, it is the policy of this state as a participant in the compact:

(a) To opt out, and for the Office of Insurance Regulation to opt out, of any new uniform standard, or amendments to existing uniform standards, adopted by the Interstate Insurance Product Regulation Commission after March 1, 2013, if such amendments substantially alter or add to existing uniform standards adopted by this state pursuant to subsection (1) until such time as this state enacts legislation to adopt or opt out of, adopts rules to adopt or opt out of, or executes an order to adopt or opt out of new uniform standards or amendments to existing standards adopted by the commission after March 1, 2013.

(b) That, notwithstanding the adoption of the Interstate Product Regulation Compact pursuant to this act, participation in the compact is contingent upon a determination by the Commissioner of Insurance Regulation that the uniform standards of the compact provide consumer protections equivalent to those under state law and, if the commissioner determines otherwise, an order issued by the Office of Insurance Regulation constitutes the action required by the commission to not join

703120

the compact, or to opt out of, or to stay the effect of, any uniform standard not otherwise opted out of pursuant to this act.

(c) That the authority under the compact to opt out of a uniform standard includes an order issued under chapter 120, Florida Statutes, the Administrative Procedure Act.

(3) In addition to any other uniform standards the state may opt out of pursuant to subsection (2), effective October 1, 2014, this subsection constitutes the legislation required to be enacted pursuant to subsections (4) and (5) of Article VII of the Interstate Insurance Product Regulation Compact by which this state opts out of the following uniform standards adopted by the Interstate Insurance Product Regulation Commission:

a. The 10-day period for the unconditional refund of premiums, plus any fees or charges under s. 626.99, Florida Statutes.

b. Underwriting criteria limiting the amount, extent, or kind of life insurance based on past or future travel in a manner that is inconsistent with s. 626.9541(1)(dd), Florida Statutes, as implemented by the Office of Insurance Regulation.

(4) It is the policy of this state that the exclusivity provision of paragraph (2)(b) of Article XVI of the Interstate Insurance Product Regulation Compact applies only to those uniform standards adopted by the Interstate Insurance Product Regulation Commission in accordance with the terms of the compact and does not apply to those standards that this state has opted out of pursuant to this act or the compact. In addition, it is the policy of this state that under the exclusivity provision, standards adopted by this state are not

703120

limited or rendered inapplicable by the absence of a standard adopted by the commission. Notwithstanding paragraph (2)(b) of Article XVI of the compact, standards adopted by this state continue to apply to the content, approval, and certification of products in this state, including, but not limited to, the following:

a. Prohibition of a surrender or deferred sales charge of more than 10 percent pursuant to s. 627.4554, Florida Statutes.

b. Notification to an applicant of the right to designate a secondary addressee at the time of application under s. 627.4555, Florida Statutes.

c. Notification of secondary addressees at least 21 days before the impending lapse of a policy under s. 627.4555, Florida Statutes.

d. Inclusion of a clear statement pursuant to s. 627.803, Florida Statutes, that the benefits, values, or premiums under a variable annuity are indeterminate and may vary.

e. Interest on surrender proceeds pursuant to s. 627.482, Florida Statutes.

(5) After enactment of this section, if the Interstate Insurance Product Regulation Commission adopts any new uniform standard or amendment to the existing uniform standard as specified in subsection (2), the Office of Insurance Regulation shall immediately notify the Legislature of such new standard or amendment. If the office or the court finds that the procedure specified in subsection (2) has not been followed, notice shall be given to the Legislature.

Section 5. Notwithstanding subsection (4) of Article XII of the Interstate Insurance Product Regulation Compact, the

703120

Interstate Insurance Product Regulation Commission is subject to:

(1) State unemployment or reemployment taxes imposed pursuant to chapter 443, Florida Statutes, in compliance with the Federal Unemployment Tax Act, for any persons employed by the commission who perform services for it within this state.

(2) Taxation on any commission business or activity conducted or performed in this state.

Section 6. Access to records.—

(1) Notwithstanding subsections (1) and (2) of Article VIII, subsection (2) of Article X, and subsection (6) of Article XII of the Interstate Insurance Product Regulation Compact, a request by a resident of this state for public inspection and copying of information, data, or official records that includes:

(a) An insurer's trade secrets shall be referred to the Commissioner of Insurance Regulation who shall respond to the request, with the cooperation and assistance of the Financial Services Commission, in accordance with s. 624.4213, Florida Statutes; or

(b) Matters of privacy of individuals shall be referred to the Commissioner of Insurance Regulation who shall respond to the request, with the cooperation and assistance of the Financial Services Commission, in accordance with s. 119.07(1), Florida Statutes.

(2) This act does not abrogate the right of a person to access information consistent with the State Constitution and laws of this state.

Section 7. The Financial Services Commission may adopt rules to administer this act.

703120

Section 8. If any part of section 3 or section 4 of this act is invalidated by the courts, such ruling renders the entire act invalid.

Section 9. This act shall take effect July 1, 2014.

opting out of and adopting new uniform standards or amendments to existing standards; providing for the preemption of certain state laws; requiring the office to notify the Legislature of any new uniform standards or amendments to existing standards; providing that the commission is subject to certain state tax requirements; providing for public access to records; authorizing the Financial Services Commission to adopt rules to implement this act; providing that if any part of this act is invalidated the entire act is invalid;

By the Committees on Governmental Oversight and Accountability; and Banking and Insurance; and Senator Hukill

585-04025-13 2013242c2

A bill to be entitled

An act relating to the Interstate Insurance Product Regulation Compact; providing legislative findings and intent; providing purposes; providing definitions; providing for the establishment of an Interstate Insurance Product Regulation Commission; providing responsibilities of the commission; specifying the commission as an instrumentality of the compacting states; providing for venue; specifying the commission as a separate, not-for-profit entity; providing powers of the commission; providing for organization of the commission; providing for membership, voting, and bylaws; designating the Commissioner of Insurance Regulation as the representative of the state on the commission; allowing the commissioner to designate a person to represent the state on the commission, as is necessary, to fulfill the duties of being a member of the commission; providing for a management committee, officers, and personnel of the commission; providing authority of the management committee; providing for legislative and advisory committees; providing for qualified immunity, defense, and indemnification of members, officers, employees, and representatives of the commission; providing for meetings and acts of the commission; providing rules and operating procedures; providing rulemaking functions of the commission; providing for opting out of uniform standards; providing procedures and requirements; providing for commission records and enforcement; authorizing the

Florida Senate - 2013 CS for CS for SB 242

585-04025-13 2013242c2

commission to adopt rules; providing for disclosure of certain information; specifying that certain records, data, or information of the commission, wherever received, by and in possession of the Office of Insurance Regulation is subject to ch. 119, F.S.; requiring the commission to monitor for compliance; providing for dispute resolution; providing for product filing and approval; requiring the commission to establish filing and review processes and procedures; providing for review of commission decisions regarding filings; providing for finance of commission activities; providing for payment of expenses; authorizing the commission to collect filing fees for certain purposes; providing for approval of a commission budget; exempting the commission from all taxation, except as otherwise provided; prohibiting the commission from pledging the credit of any compacting states without authority; requiring the commission to keep complete accurate accounts, provide for audits, and make annual reports to the Governors and Legislatures of compacting states; providing for amendment of the compact; providing for withdrawal from the compact, default by compacting states, and dissolution of the compact; providing severability and construction; providing for binding effect of this compact and other laws; prospectively opting out of all uniform standards adopted by the commission involving long-term care insurance products; adopting all other existing uniform standards that have been

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

adopted by the commission; providing a procedure for adoption of any new uniform standards or amendments to existing uniform standards of the commission; requiring the office to notify the Legislature of any new uniform standards or amendments to existing uniform standards of the commission; providing that any new uniform standards or amendments to existing uniform standards of the commission may only be adopted via legislation; authorizing the Financial Services Commission to adopt rules to implement this act and opt out of certain uniform standards; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Legislative findings; intent.—

(1) The Legislature finds that the financial services marketplace has changed significantly in recent years and that asset-based insurance products, which include life insurance, annuities, disability income insurance, and long-term care insurance, now compete directly with other retirement and estate planning instruments that are sold by banks and securities firms.

(2) The Legislature further finds that the increased mobility of the population and the risks borne by these asset-based products are not local in nature.

(3) The Legislature further finds that the Interstate Insurance Product Regulation Compact Model adopted by the National Association of Insurance Commissioners and endorsed by

the National Conference of Insurance Legislators and the National Conference of State Legislatures is designed to address these market changes by providing a uniform set of product standards and a single source for filing of new products.

(4) The Legislature further finds that the product standards that have been developed provide a high level of consumer protection. Further, it is noted that the Interstate Insurance Product Regulation Compact Model includes a mechanism for opting out of any product standard that the state determines would not reasonably protect its citizens. With respect to long-term care insurance, the Legislature understands that the compact does not intend to develop a uniform standard for rate increase filings, thereby leaving the authority over long-term care rate increases with the state. The state relies on that understanding in adopting this legislation. The state, pursuant to the terms and conditions of this act, seeks to join with other states and establish the Interstate Insurance Product Regulation Compact, and thus become a member of the Interstate Insurance Product Regulation Commission. The Commissioner of Insurance Regulation is hereby designated to serve as the representative of this state on the commission. The commissioner may designate a person to represent this state on the commission, as is necessary, in order to fulfill the duties of being a member of the commission.

Section 2. Interstate Insurance Product Regulation Compact.—The Interstate Insurance Product Regulation Compact is hereby enacted into law and entered into by this state with all states legally joining therein in the form substantially as follows:

Interstate Insurance Product Regulation Compact

Preamble

This compact is intended to help states join together to establish an interstate compact to regulate designated insurance products. Pursuant to the terms and conditions of this compact, this state seeks to join with other states and establish the Interstate Insurance Product Regulation Compact and thus become a member of the Interstate Insurance Product Regulation Commission.

Article I

PURPOSES.—The purposes of this compact are, through means of joint and cooperative action among the compacting states, to:

(1) Promote and protect the interest of consumers of individual and group annuity, life insurance, disability income, and long-term care insurance products.

(2) Develop uniform standards for insurance products covered under the compact.

(3) Establish a central clearinghouse to receive and provide prompt review of insurance products covered under the compact and, in certain cases, advertisements related thereto, submitted by insurers authorized to do business in one or more compacting states.

(4) Give appropriate regulatory approval to those product filings and advertisements satisfying the applicable uniform

standard.

(5) Improve coordination of regulatory resources and expertise between state insurance departments regarding the setting of uniform standards and review of insurance products covered under the compact.

(6) Create the Interstate Insurance Product Regulation Commission.

(7) Perform these and such other related functions as may be consistent with the state regulation of the business of insurance.

Article II

DEFINITIONS.—For purposes of this compact, the term:

(1) "Advertisement" means any material designed to create public interest in a product, or induce the public to purchase, increase, modify, reinstate, borrow on, surrender, replace, or retain a policy, as more specifically defined in the rules and operating procedures of the commission adopted as of March 1, 2013, and subsequent amendments thereto if the methodology remains substantially consistent.

(2) "Bylaws" means those bylaws adopted by the commission as of March 1, 2013, for its governance or for directing or controlling the commission's actions or conduct.

(3) "Compacting state" means any state which has enacted this compact legislation and has not withdrawn pursuant to subsection (1) of Article XIV of this compact or been terminated pursuant to subsection (2) of Article XIV of this compact.

(4) "Commission" means the "Interstate Insurance Product

Regulation Commission" established by this compact.

(5) "Commissioner" means the chief insurance regulatory official of a state, including, but not limited to, the commissioner, superintendent, director, or administrator. For purposes of this compact, the Commissioner of Insurance Regulation is the chief insurance regulatory official of this state.

(6) "Domiciliary state" means the state in which an insurer is incorporated or organized or, in the case of an alien insurer, its state of entry.

(7) "Insurer" means any entity licensed by a state to issue contracts of insurance for any of the lines of insurance covered by this compact.

(8) "Member" means the person chosen by a compacting state as its representative to the commission, or his or her designee.

(9) "Noncompacting state" means any state which is not at the time a compacting state.

(10) "Office" means the Office of Insurance Regulation of the Financial Services Commission.

(11) "Operating procedures" means procedures adopted by the commission as of March 1, 2013, and subsequent amendments thereto if the methodology remains substantially consistent, implementing a rule, uniform standard, or provision of this compact.

(12) "Product" means the form of a policy or contract, including any application, endorsement, or related form which is attached to and made a part of the policy or contract, and any evidence of coverage or certificate, for an individual or group annuity, life insurance, disability income, or long-term care

insurance product that an insurer is authorized to issue.

(13) "Rule" means a statement of general or particular applicability and future effect adopted by the commission as of March 1, 2013, and subsequent amendments thereto if the methodology remains substantially consistent, including a uniform standard developed pursuant to Article VII of this compact, designed to implement, interpret, or prescribe law or policy or describe the organization, procedure, or practice requirements of the commission, which shall have the force and effect of law in the compacting states.

(14) "State" means any state, district, or territory of the United States.

(15) "Third-party filer" means an entity that submits a product filing to the commission on behalf of an insurer.

(16) "Uniform standard" means a standard adopted by the commission as of March 1, 2013, and subsequent amendments thereto if the methodology remains substantially consistent, for a product line pursuant to Article VII of this compact and shall include all of the product requirements in aggregate; provided, each uniform standard shall be construed, whether express or implied, to prohibit the use of any inconsistent, misleading, or ambiguous provisions in a product and the form of the product made available to the public shall not be unfair, inequitable, or against public policy as determined by the commission.

Article III

COMMISSION; ESTABLISHMENT; VENUE.—

(1) The compacting states hereby create and establish a

joint public agency known as the Interstate Insurance Product Regulation Commission. Pursuant to Article IV of this compact, the commission has the power to develop uniform standards for product lines, receive and provide prompt review of products filed with the commission, and give approval to those product filings satisfying applicable uniform standards; provided, it is not intended for the commission to be the exclusive entity for receipt and review of insurance product filings. Nothing in this article shall prohibit any insurer from filing its product in any state in which the insurer is licensed to conduct the business of insurance and any such filing shall be subject to the laws of the state where filed.

(2) The commission is a body corporate and politic and an instrumentality of the compacting states.

(3) The commission is solely responsible for its liabilities, except as otherwise specifically provided in this compact.

(4) Venue is proper and judicial proceedings by or against the commission shall be brought solely and exclusively in a court of competent jurisdiction where the principal office of the commission is located.

(5) The commission is a not-for-profit entity, separate and distinct from the individual compacting states.

Article IV

POWERS.—The commission shall have the following powers to:

(1) Adopt rules, pursuant to Article VII, which shall have the force and effect of law and shall be binding in the

compacting states to the extent and in the manner provided in this compact.

(2) Exercise its rulemaking authority and establish reasonable uniform standards for products covered under the compact, and advertisement related thereto, which shall have the force and effect of law and shall be binding in the compacting states, but only for those products filed with the commission; provided a compacting state shall have the right to opt out of such uniform standard pursuant to Article VII to the extent and in the manner provided in this compact and any uniform standard established by the commission for long-term care insurance products may provide the same or greater protections for consumers as, but shall provide at least, those protections set forth in the National Association of Insurance Commissioners' Long-Term Care Insurance Model Act and Long-Term Care Insurance Model Regulation, respectively, adopted as of 2001. The commission shall consider whether any subsequent amendments to the National Association of Insurance Commissioners' Long-Term Care Insurance Model Act or Long-Term Care Insurance Model Regulation adopted by the National Association of Insurance Commissioners require amending of the uniform standards established by the commission for long-term care insurance products.

(3) Receive and review in an expeditious manner products filed with the commission and rate filings for disability income and long-term care insurance products and give approval of those products and rate filings that satisfy the applicable uniform standard, and such approval shall have the force and effect of law and be binding on the compacting states to the extent and in

the manner provided in the compact.

(4) Receive and review in an expeditious manner advertisement relating to long-term care insurance products for which uniform standards have been adopted by the commission, and give approval to all advertisement that satisfies the applicable uniform standard. For any product covered under this compact, other than long-term care insurance products, the commission shall have the authority to require an insurer to submit all or any part of its advertisement with respect to that product for review or approval prior to use, if the commission determines that the nature of the product is such that an advertisement of the product could have the capacity or tendency to mislead the public. The actions of the commission as provided in this subsection shall have the force and effect of law and shall be binding in the compacting states to the extent and in the manner provided in the compact.

(5) Exercise its rulemaking authority and designate products and advertisement that may be subject to a self-certification process without the need for prior approval by the commission.

(6) Adopt operating procedures, pursuant to Article VII, which shall be binding in the compacting states to the extent and in the manner provided in this compact.

(7) Bring and prosecute legal proceedings or actions in its name as the commission; provided the standing of any state insurance department to sue or be sued under applicable law shall not be affected.

(8) Issue subpoenas requiring the attendance and testimony of witnesses and the production of evidence.

(9) Establish and maintain offices.

(10) Purchase and maintain insurance and bonds.

(11) Borrow, accept, or contract for services of personnel, including, but not limited to, employees of a compacting state. Any action under this subsection concerning employees of this state may only be taken upon the express written consent of the state.

(12) Hire employees, professionals, or specialists; elect or appoint officers and fix their compensation, define their duties, give them appropriate authority to carry out the purposes of the compact, and determine their qualifications; and establish the commission's personnel policies and programs relating to, among other things, conflicts of interest, rates of compensation, and qualifications of personnel.

(13) Accept any and all appropriate donations and grants of money, equipment, supplies, materials, and services and to receive, use, and dispose of the same; provided at all times the commission shall avoid any appearance of impropriety.

(14) Lease, purchase, and accept appropriate gifts or donations of, or otherwise to own, hold, improve, or use, any property, real, personal, or mixed; provided at all times the commission shall avoid any appearance of impropriety.

(15) Sell, convey, mortgage, pledge, lease, exchange, abandon, or otherwise dispose of any property, real, personal, or mixed.

(16) Remit filing fees to compacting states as may be set forth in the bylaws, rules, or operating procedures.

(17) Enforce compliance by compacting states with rules, uniform standards, operating procedures, and bylaws.

(18) Provide for dispute resolution among compacting states.

(19) Advise compacting states on issues relating to insurers domiciled or doing business in noncompacting jurisdictions, consistent with the purposes of this compact.

(20) Provide advice and training to those personnel in state insurance departments responsible for product review and to be a resource for state insurance departments.

(21) Establish a budget and make expenditures.

(22) Borrow money, provided that this power does not, in any manner, obligate the financial resources of the State of Florida.

(23) Appoint committees, including advisory committees, comprising members, state insurance regulators, state legislators or their representatives, insurance industry and consumer representatives, and such other interested persons as may be designated in the bylaws.

(24) Provide and receive information from and to cooperate with law enforcement agencies.

(25) Adopt and use a corporate seal.

(26) Perform such other functions as may be necessary or appropriate to achieve the purposes of this compact consistent with the state regulation of the business of insurance.

Article V

ORGANIZATION.—

(1) Membership; voting; bylaws.—

(a)1. Each compacting state shall have and be limited to

one member. Each member shall be qualified to serve in that capacity pursuant to applicable law of the compacting state. Any member may be removed or suspended from office as provided by the law of the state from which he or she is appointed. Any vacancy occurring in the commission shall be filled in accordance with the laws of the compacting state in which the vacancy exists. Nothing in this article shall be construed to affect the manner in which a compacting state determines the election or appointment and qualification of its own commissioner. However, the commissioner may designate a person to represent this state on the commission, as is necessary, in order to fulfill the duties of being a member of the commission.

2. The Commissioner of Insurance Regulation is hereby designated to serve as the representative of this state on the commission. However, the commissioner may designate a person to represent this state on the commission, as is necessary, in order to fulfill the duties of being a member of the commission.

(b) Each member shall be entitled to one vote and shall have an opportunity to participate in the governance of the commission in accordance with the bylaws. Notwithstanding any other provision of this article, no action of the commission with respect to the adoption of a uniform standard shall be effective unless two-thirds of the members vote in favor of such action.

(c) The commission shall, by a majority of the members, prescribe bylaws to govern its conduct as may be necessary or appropriate to carry out the purposes and exercise the powers of the compact, including, but not limited to:

1. Establishing the fiscal year of the commission.

2. Providing reasonable procedures for appointing and electing members, as well as holding meetings, of the management committee.

3. Providing reasonable standards and procedures:

a. For the establishment and meetings of other committees.

b. Governing any general or specific delegation of any authority or function of the commission.

4. Providing reasonable procedures for calling and conducting meetings of the commission that consist of a majority of commission members, ensuring reasonable advance notice of each such meeting, and providing for the right of citizens to attend each such meeting with enumerated exceptions designed to protect the public's interest, the privacy of individuals, and insurers' proprietary information, including, but not limited to, trade secrets. The commission may meet in camera only after a majority of the entire membership votes to close a meeting in total or in part. The commissioner of this state, or the commissioner's designee, may attend, or otherwise participate in, a meeting or executive session that is closed in total or part to the extent such attendance or participation is consistent with Florida law. As soon as practicable, the commission must make public a copy of the vote to close the meeting revealing the vote of each member with no proxy votes allowed, and votes taken during such meeting. All notices of commission meetings, including instructions for public participation, provided to the office, the commissioner, or the commissioner's designee shall be published in the Florida Administrative Register.

5. Establishing the titles, duties, and authority and

reasonable procedures for the election of the officers of the commission.

6. Providing reasonable standards and procedures for the establishment of the personnel policies and programs of the commission. Notwithstanding any civil service or other similar laws of any compacting state, the bylaws shall exclusively govern the personnel policies and programs of the commission.

7. Adopting a code of ethics to address permissible and prohibited activities of commission members and employees. This code does not supersede or otherwise limit the obligations and duties of this state's commissioner or the commissioner's designee under ethics laws or rules of the State of Florida. To the extent there is any inconsistency between the standards imposed by this code and the standards imposed under this state's ethics laws or rules, the commissioner or the commissioner's designee must adhere to the stricter standard of conduct.

8. Providing a mechanism for winding up the operations of the commission and the equitable disposition of any surplus funds that may exist after the termination of the compact after the payment or reserving of all debts and obligations of the commission.

(d) The commission shall publish its bylaws in a convenient form and file a copy of such bylaws and a copy of any amendment to such bylaws, with the appropriate agency or officer in each of the compacting states.

(2) Management committee, officers, and personnel.—

(a) A management committee comprising no more than 14 members shall be established as follows:

1. One member from each of the six compacting states with the largest premium volume for individual and group annuities, life, disability income, and long-term care insurance products, determined from the records of the National Association of Insurance Commissioners for the prior year.

2. Four members from those compacting states with at least 2 percent of the market based on the premium volume described above, other than the six compacting states with the largest premium volume, selected on a rotating basis as provided in the bylaws.

3. Four members from those compacting states with less than 2 percent of the market, based on the premium volume described above, with one selected from each of the four zone regions of the National Association of Insurance Commissioners as provided in the bylaws.

(b) The management committee shall have such authority and duties as may be set forth in the bylaws, including, but not limited to:

1. Managing the affairs of the commission in a manner consistent with the bylaws and purposes of the commission.

2. Establishing and overseeing an organizational structure within, and appropriate procedures for, the commission to provide for the creation of uniform standards and other rules, receipt and review of product filings, administrative and technical support functions, review of decisions regarding the disapproval of a product filing, and the review of elections made by a compacting state to opt out of a uniform standard; provided a uniform standard shall not be submitted to the compacting states for adoption unless approved by two-thirds of

the members of the management committee.

3. Overseeing the offices of the commission.

4. Planning, implementing, and coordinating communications and activities with other state, federal, and local government organizations in order to advance the goals of the commission.

(c) The commission shall elect annually officers from the management committee, with each having such authority and duties as may be specified in the bylaws.

(d) The management committee may, subject to the approval of the commission, appoint or retain an executive director for such period, upon such terms and conditions, and for such compensation as the commission may deem appropriate. The executive director shall serve as secretary to the commission but shall not be a member of the commission. The executive director shall hire and supervise such other staff as may be authorized by the commission.

(3) Legislative and advisory committees.—

(a) A legislative committee comprised of state legislators or their designees shall be established to monitor the operations of and make recommendations to the commission, including the management committee; provided the manner of selection and term of any legislative committee member shall be as set forth in the bylaws. Prior to the adoption by the commission of any uniform standard, revision to the bylaws, annual budget, or other significant matter as may be provided in the bylaws, the management committee shall consult with and report to the legislative committee.

(b) The commission shall establish two advisory committees, one comprising consumer representatives independent of the

insurance industry and the other comprising insurance industry representatives.

(c) The commission may establish additional advisory committees as the bylaws may provide for the carrying out of commission functions.

(4) Corporate records of the commission.—The commission shall maintain its corporate books and records in accordance with the bylaws.

(5) Qualified immunity, defense and indemnification.—

(a) The members, officers, executive director, employees, and representatives of the commission shall be immune from suit and liability, either personally or in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused by or arising out of any actual or alleged act, error, or omission that occurred, or that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities; provided nothing in this paragraph shall be construed to protect any such person from suit or liability for any damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of that person.

(b) The liability of the members, officers, executive director, employees, and representatives of the commission acting within the scope of such persons' employment or duties, for acts, errors, or omissions occurring within this state, may not exceed the limits of liability set forth under the constitution and laws of this state for state officials, employees, and agents. The commission is an instrumentality of

the state for the purposes of any such action. This subsection does not protect such persons from suit or liability for damage, loss, injury, or liability caused by a criminal act or the intentional or willful and wanton misconduct of such person.

(c) The commission shall defend any member, officer, executive director, employee, or representative of the commission in any civil action seeking to impose liability arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or where the person against whom the claim is made has a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities if the actual or alleged act, error, or omission did not result from that person's intentional or willful and wanton misconduct. This article does not prohibit that person from retaining his or her own counsel.

(d) The commission shall indemnify and hold harmless any member, officer, executive director, employee, or representative of the commission for the amount of any settlement or judgment obtained against that person arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or that such person had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities; provided the actual or alleged act, error, or omission did not result from the intentional or willful and wanton misconduct of that person.

Article VI

MEETINGS; ACTS.—

(1) The commission shall meet and take such actions as are consistent with the provisions of this compact and the bylaws.

(2) Each member of the commission shall have the right and power to cast a vote to which that compacting state is entitled and to participate in the business and affairs of the commission. A member shall vote in person or by such other means as provided in the bylaws. The bylaws may provide for members' participation in meetings by telephone or other means of communication.

(3) The commission shall meet at least once during each calendar year. Additional meetings shall be held as set forth in the bylaws.

Article VII

RULES AND OPERATING PROCEDURES; RULEMAKING FUNCTIONS OF THE COMMISSION; OPTING OUT OF UNIFORM STANDARDS.—

(1) Rulemaking authority.—The commission shall adopt reasonable rules, including uniform standards, and operating procedures in order to effectively and efficiently achieve the purposes of this compact. Notwithstanding such requirement, if the commission exercises its rulemaking authority in a manner that is beyond the scope of the purposes of this compact or the powers granted under this compact, such action by the commission shall be invalid and have no force and effect.

(2) Rulemaking procedure.—Rules and operating procedures shall be made pursuant to a rulemaking process that conforms to

the Model State Administrative Procedure Act of 1981, as amended, as may be appropriate to the operations of the commission. Before the commission adopts a uniform standard, the commission shall give written notice to the relevant state legislative committees in each compacting state responsible for insurance issues of its intention to adopt the uniform standard. The commission in adopting a uniform standard shall consider fully all submitted materials and issue a concise explanation of its decision.

(3) Effective date and opt out of a uniform standard.—A uniform standard shall become effective 90 days after its adoption by the commission or such later date as the commission may determine; provided a compacting state may opt out of a uniform standard as provided in this act. The term "opt out" means any action by a compacting state to decline to adopt or participate in an adopted uniform standard. All other rules and operating procedures, and amendments thereto, shall become effective as of the date specified in each rule, operating procedure, or amendment.

(4) Opt out procedure.—

(a) A compacting state may opt out of a uniform standard by legislation or regulation adopted by the compacting state under such state's Administrative Procedure Act. If a compacting state elects to opt out of a uniform standard by regulation, such state must:

1. Give written notice to the commission no later than 10 business days after the uniform standard is adopted, or at the time the state becomes a compacting state.

2. Find that the uniform standard does not provide

reasonable protections to the citizens of the state, given the conditions in the state.

(b) The commissioner of a compacting state other than this state shall make specific findings of fact and conclusions of law, based on a preponderance of the evidence, detailing the conditions in the state which warrant a departure from the uniform standard and determining that the uniform standard would not reasonably protect the citizens of the state. The commissioner must consider and balance the following factors and find that the conditions in the state and needs of the citizens of the state outweigh:

1. The intent of the Legislature to participate in, and the benefits of, an interstate agreement to establish national uniform consumer protections for the products subject to this compact.

2. The presumption that a uniform standard adopted by the commission provides reasonable protections to consumers of the relevant product.

Notwithstanding this subsection, a compacting state may, at the time of its enactment of this compact, prospectively opt out of all uniform standards involving long-term care insurance products by expressly providing for such opt out in the enacted compact, and such an opt out shall not be treated as a material variance in the offer or acceptance of any state to participate in this compact. Such an opt out shall be effective at the time of enactment of this compact by the compacting state and shall apply to all existing uniform standards involving long-term care insurance products and those subsequently adopted.

(5) Effect of opting out.—If a compacting state elects to opt out of a uniform standard, the uniform standard shall remain applicable in the compacting state electing to opt out until such time as the opt out legislation is enacted into law or the regulation opting out becomes effective. Once the opt out of a uniform standard by a compacting state becomes effective as provided under the laws of that state, the uniform standard shall have no further force and effect in that state unless and until the legislation or regulation implementing the opt out is repealed or otherwise becomes ineffective under the laws of the state. If a compacting state opts out of a uniform standard after the uniform standard has been made effective in that state, the opt out shall have the same prospective effect as provided under Article XIV for withdrawals.

(6) Stay of uniform standard.—If a compacting state has formally initiated the process of opting out of a uniform standard by regulation, and while the regulatory opt out is pending, the compacting state may petition the commission, at least 15 days before the effective date of the uniform standard, to stay the effectiveness of the uniform standard in that state. The commission may grant a stay if the commission determines the regulatory opt out is being pursued in a reasonable manner and there is a likelihood of success. If a stay is granted or extended by the commission, the stay or extension thereof may postpone the effective date by up to 90 days, unless affirmatively extended by the commission; provided a stay may not be permitted to remain in effect for more than 1 year unless the compacting state can show extraordinary circumstances which warrant a continuance of the stay, including, but not limited

to, the existence of a legal challenge which prevents the compacting state from opting out. A stay may be terminated by the commission upon notice that the rulemaking process has been terminated.

(7) Judicial review.—Within 30 days after a rule or operating procedure is adopted, any person may file a petition for judicial review of the rule or operating procedure; provided the filing of such a petition shall not stay or otherwise prevent the rule or operating procedure from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions of the commission consistent with applicable law and shall not find the rule or operating procedure to be unlawful if the rule or operating procedure represents a reasonable exercise of the commission's authority.

Article VIII

COMMISSION RECORDS AND ENFORCEMENT.—

(1) The commission shall adopt rules establishing conditions and procedures for public inspection and copying of its information and official records, except such information and records involving the privacy of individuals and insurers' trade secrets. The commission may adopt additional rules under which the commission may make available to federal and state agencies, including law enforcement agencies, records and information otherwise exempt from disclosure and may enter into agreements with such agencies to receive or exchange information or records subject to nondisclosure and confidentiality

provisions.

(2) Except as to privileged records, data, and information, the laws of any compacting state pertaining to confidentiality or nondisclosure shall not relieve any compacting state commissioner of the duty to disclose any relevant records, data, or information to the commission; provided disclosure to the commission shall not be deemed to waive or otherwise affect any confidentiality requirement; and further provided, except as otherwise expressly provided in this compact, the commission shall not be subject to the compacting state's laws pertaining to confidentiality and nondisclosure with respect to records, data, and information in its possession. Confidential information of the commission shall remain confidential after such information is provided to any commissioner; however, all requests from the public to inspect or copy records, data, or information of the commission, wherever received, by and in the possession of the office, commissioner, or the commissioner's designee shall be subject to chapter 119, Florida Statutes.

(3) The commission shall monitor compacting states for compliance with duly adopted bylaws, rules, uniform standards, and operating procedures. The commission shall notify any noncomplying compacting state in writing of its noncompliance with commission bylaws, rules, or operating procedures. If a noncomplying compacting state fails to remedy its noncompliance within the time specified in the notice of noncompliance, the compacting state shall be deemed to be in default as set forth in Article XIV of this compact.

(4) The commissioner of any state in which an insurer is authorized to do business or is conducting the business of

insurance shall continue to exercise his or her authority to oversee the market regulation of the activities of the insurer in accordance with the provisions of the state's law. The commissioner's enforcement of compliance with the compact is governed by the following provisions:

(a) With respect to the commissioner's market regulation of a product or advertisement that is approved or certified to the commission, the content of the product or advertisement shall not constitute a violation of the provisions, standards, or requirements of the compact except upon a final order of the commission, issued at the request of a commissioner after prior notice to the insurer and an opportunity for hearing before the commission.

(b) Before a commissioner may bring an action for violation of any provision, standard, or requirement of the compact relating to the content of an advertisement not approved or certified to the commission, the commission, or an authorized commission officer or employee, must authorize the action. However, authorization pursuant to this paragraph does not require notice to the insurer, opportunity for hearing, or disclosure of requests for authorization or records of the commission's action on such requests.

Article IX

DISPUTE RESOLUTION.—The commission shall attempt, upon the request of a member, to resolve any disputes or other issues that are subject to this compact and which may arise between two or more compacting states, or between compacting states and

noncompacting states, and the commission shall adopt an operating procedure providing for resolution of such disputes.

Article X

PRODUCT FILING AND APPROVAL.—

(1) Insurers and third-party filers seeking to have a product approved by the commission shall file the product with and pay applicable filing fees to the commission. Nothing in this compact shall be construed to restrict or otherwise prevent an insurer from filing its product with the insurance department in any state in which the insurer is licensed to conduct the business of insurance and such filing shall be subject to the laws of the states where filed.

(2) The commission shall establish appropriate filing and review processes and procedures pursuant to commission rules and operating procedures. Notwithstanding any provision of this article, the commission shall adopt rules to establish conditions and procedures under which the commission will provide public access to product filing information. In establishing such rules, the commission shall consider the interests of the public in having access to such information, as well as protection of personal medical and financial information and trade secrets, that may be contained in a product filing or supporting information.

(3) Any product approved by the commission may be sold or otherwise issued in those compacting states for which the insurer is legally authorized to do business.

Article XI

REVIEW OF COMMISSION DECISIONS REGARDING FILINGS.—

(1) Within 30 days after the commission has given notice of a disapproved product or advertisement filed with the commission, the insurer or third-party filer whose filing was disapproved may appeal the determination to a review panel appointed by the commission. The commission shall adopt rules to establish procedures for appointing such review panels and provide for notice and hearing. An allegation that the commission, in disapproving a product or advertisement filed with the commission, acted arbitrarily, capriciously, or in a manner that is an abuse of discretion or otherwise not in accordance with the law, is subject to judicial review in accordance with subsection (4) of Article III.

(2) The commission shall have authority to monitor, review, and reconsider products and advertisement subsequent to their filing or approval upon a finding that the product does not meet the relevant uniform standard. Where appropriate, the commission may withdraw or modify its approval after proper notice and hearing, subject to the appeal process in subsection (1).

Article XII

FINANCE.—

(1) The commission shall pay or provide for the payment of the reasonable expenses of the commission's establishment and organization. To fund the cost of the commission's initial operations, the commission may accept contributions and other

forms of funding from the National Association of Insurance Commissioners, compacting states, and other sources. Contributions and other forms of funding from other sources shall be of such a nature that the independence of the commission concerning the performance of commission duties shall not be compromised.

(2) The commission shall collect a filing fee from each insurer and third-party filer filing a product with the commission to cover the cost of the operations and activities of the commission and its staff in a total amount sufficient to cover the commission's annual budget.

(3) The commission's budget for a fiscal year shall not be approved until the budget has been subject to notice and comment as set forth in Article VII.

(4) The commission shall be exempt from all taxation in and by the compacting states.

(5) The commission shall not pledge the credit of any compacting state, except by and with the appropriate legal authority of that compacting state.

(6) The commission shall keep complete and accurate accounts of all its internal receipts, including grants and donations, and disbursements of all funds under its control. The internal financial accounts of the commission shall be subject to the accounting procedures established under its bylaws. The financial accounts and reports including the system of internal controls and procedures of the commission shall be audited annually by an independent certified public accountant. Upon the determination of the commission, but no less frequently than every 3 years, the review of the independent auditor shall

include a management and performance audit of the commission. The commission shall make an annual report to the Governor and the presiding officers of the Legislature of the compacting states, which shall include a report of the independent audit. The commission's internal accounts shall not be confidential and such materials may be shared with the commissioner of any compacting state upon request; provided any work papers related to any internal or independent audit and any information regarding the privacy of individuals and insurers' proprietary information, including trade secrets, shall remain confidential.

(7) No compacting state shall have any claim to or ownership of any property held by or vested in the commission or to any commission funds held pursuant to the provisions of this compact.

Article XIII

COMPACTING STATES, EFFECTIVE DATE, AMENDMENT.—

(1) Any state is eligible to become a compacting state.

(2) The compact shall become effective and binding upon legislative enactment of the compact into law by two compacting states; provided the commission shall become effective for purposes of adopting uniform standards for, reviewing, and giving approval or disapproval of, products filed with the commission that satisfy applicable uniform standards only after 26 states are compacting states or, alternatively, by states representing greater than 40 percent of the premium volume for life insurance, annuity, disability income, and long-term care insurance products, based on records of the National Association

of Insurance Commissioners for the prior year. Thereafter, the compact shall become effective and binding as to any other compacting state upon enactment of the compact into law by that state.

(3) Amendments to the compact may be proposed by the commission for enactment by the compacting states. No amendment shall become effective and binding upon the commission and the compacting states unless and until all compacting states enact the amendment into law.

Article XIV

WITHDRAWAL; DEFAULT; DISSOLUTION.—

(1) Withdrawal.—

(a) Once effective, the compact shall continue in force and remain binding upon each and every compacting state; provided a compacting state may withdraw from the compact by enacting a law specifically repealing the law which enacted the compact into law.

(b) The effective date of withdrawal is the effective date of the repealing law. However, the withdrawal shall not apply to any product filings approved or self-certified, or any advertisement of such products, on the date the repealing law becomes effective, except by mutual agreement of the commission and the withdrawing state unless the approval is rescinded by the withdrawing state as provided in paragraph (e).

(c) The commissioner of the withdrawing state shall immediately notify the management committee in writing upon the introduction of legislation repealing this compact in the

withdrawing state.

(d) The commission shall notify the other compacting states of the introduction of such legislation within 10 days after the commission's receipt of notice of such legislation.

(e) The withdrawing state is responsible for all obligations, duties, and liabilities incurred through the effective date of withdrawal, including any obligations, the performance of which extend beyond the effective date of withdrawal, except to the extent those obligations may have been released or relinquished by mutual agreement of the commission and the withdrawing state. The commission's approval of products and advertisement prior to the effective date of withdrawal shall continue to be effective and be given full force and effect in the withdrawing state unless formally rescinded by the withdrawing state in the same manner as provided by the laws of the withdrawing state for the prospective disapproval of products or advertisement previously approved under state law.

(f) Reinstatement following withdrawal of any compacting state shall occur upon the effective date of the withdrawing state reenacting the compact.

(2) Default.—

(a) If the commission determines that any compacting state has at any time defaulted in the performance of any of its obligations or responsibilities under this compact, the bylaws, or duly adopted rules or operating procedures, after notice and hearing as set forth in the bylaws, all rights, privileges, and benefits conferred by this compact on the defaulting state shall be suspended from the effective date of default as fixed by the commission. The grounds for default include, but are not limited

to, failure of a compacting state to perform its obligations or responsibilities, and any other grounds designated in commission rules. The commission shall immediately notify the defaulting state in writing of the defaulting state's suspension pending a cure of the default. The commission shall stipulate the conditions and the time period within which the defaulting state must cure its default. If the defaulting state fails to cure the default within the time period specified by the commission, the defaulting state shall be terminated from the compact and all rights, privileges, and benefits conferred by this compact shall be terminated from the effective date of termination.

(b) Product approvals by the commission or product self-certifications, or any advertisement in connection with such product that are in force on the effective date of termination shall remain in force in the defaulting state in the same manner as if the defaulting state had withdrawn voluntarily pursuant to subsection (1).

(c) Reinstatement following termination of any compacting state requires a reenactment of the compact.

(3) Dissolution of compact.—

(a) The compact dissolves effective upon the date of the withdrawal or default of the compacting state which reduces membership in the compact to a single compacting state.

(b) Upon the dissolution of this compact, the compact becomes null and void and shall be of no further force or effect and the business and affairs of the commission shall be concluded and any surplus funds shall be distributed in accordance with the bylaws.

Article XV

SEVERABILITY; CONSTRUCTION.—

(1) The provisions of this compact are severable and if any phrase, clause, sentence, or provision is deemed unenforceable, the remaining provisions of the compact shall be enforceable.

(2) The provisions of this compact shall be liberally construed to effectuate its purposes.

Article XVI

BINDING EFFECT OF COMPACT AND OTHER LAWS.—

(1) Binding effect of this compact.—

(a) All lawful actions of the commission, including all rules and operating procedures adopted by the commission, are binding upon the compacting states.

(b) All agreements between the commission and the compacting states are binding in accordance with their terms.

(c) Upon the request of a party to a conflict over the meaning or interpretation of commission actions, and upon a majority vote of the compacting states, the commission may issue advisory opinions regarding the meaning or interpretation in dispute.

(d) If any provision of this compact exceeds the constitutional limits imposed on the Legislature of any compacting state, the obligations, duties, powers, or jurisdiction sought to be conferred by that provision upon the commission shall be ineffective as to that compacting state and those obligations, duties, powers, or jurisdiction shall remain

in the compacting state and shall be exercised by the agency of such state to which those obligations, duties, powers, or jurisdiction are delegated by law in effect at the time this compact becomes effective.

(2) Other laws.—

(a) Nothing in this compact prevents the enforcement of any other law of a compacting state, except as provided in paragraph (b).

(b) For any product approved or certified to the commission, the rules, uniform standards, and any other requirements of the commission shall constitute the exclusive provisions applicable to the content, approval, and certification of such products. For advertisement that is subject to the commission's authority, any rule, uniform standard, or other requirement of the commission which governs the content of the advertisement shall constitute the exclusive provision that a commissioner may apply to the content of the advertisement. Notwithstanding this paragraph, no action taken by the commission shall abrogate or restrict:

1. The access of any person to state courts;

2. Remedies available under state law related to breach of contract, tort, or other laws not specifically directed to the content of the product;

3. State law relating to the construction of insurance contracts; or

4. The authority of the attorney general of the state, including, but not limited to, maintaining any actions or proceedings, as authorized by law.

(c) All insurance products filed with individual states

shall be subject to the laws of those states.

Section 3. Election to opt out of all uniform standards adopted by the commission involving long-term care insurance products; adoption of existing uniform standards of the commission; procedure for adoption of new or amended uniform standards; notification of new or amended uniform standards:

(1) Pursuant to Article VII of the compact, authorized in this act, the State of Florida prospectively opts out of all uniform standards adopted by the commission involving long-term care insurance products, and such opt out shall not be treated as a material variance in the offer or acceptance of this state to participate in the compact.

(2) Except as provided in subsection (1), all uniform standards adopted by the commission as of March 1, 2013 are adopted by this state.

(3) Notwithstanding subsections (3), (4), (5), and (6) of Article VII, as a participant in this compact, it is the policy of the State of Florida to opt out, and the office shall opt out, of any new uniform standard adopted by the commission after March 1, 2013 or amendments to existing uniform standards adopted by the commission after March 1, 2013 where such amendments substantially alter or add to existing uniform standards adopted by this state in subsection (2) until such time as this state enacts legislation to adopt or opt out of new uniform standards or such amendments to uniform standards adopted by the commission after March 1, 2013.

(4) The Financial Services Commission may adopt rules to implement this act. It is the policy of the State of Florida that this state's participation in new uniform standards or

amendments to uniform standards adopted after March 1, 2013 as set out in subsection (3) that have not been legislatively approved by this state may not reasonably protect the citizens of this state based on Article XVI(1)(d) of this act. The Financial Services Commission shall use the rulemaking authority granted in this subsection to opt out of any new uniform standards or amendments to existing uniform standards where such amendments substantially alter or add to existing uniform standards adopted by the State of Florida in subsection (2) until such uniform standards are legislatively approved by this state.

(5) After enactment of this section, if the commission adopts any new uniform standard or amendment to uniform standards as set out in subsection (3), the office shall immediately notify the legislature of such new uniform standard or amendment to existing uniform standard. If the office or a court of competent jurisdiction finds that the procedure set out in subsection(3) has not been followed, notice shall be given to the legislature, and reasonable and prompt measures shall be taken to opt out of a uniform standard that has not been legislatively approved by the State of Florida.

Section 4. Notwithstanding subsection (4) of Article XII, the commission is subject to:

(1) State unemployment or reemployment taxes imposed pursuant to chapter 443, Florida Statutes, in compliance with the Federal Unemployment Tax Act, for any persons employed by the commission who perform services for it within this state.

(2) Taxation for any commission business or activity conducted or performed in the State of Florida.

Section 5. Notwithstanding subsections (1) and (2) of Article VIII, subsection (2) of Article X, and subsection (6) of Article XII of this act, a request by a resident of this state for public inspection and copying of information, data, or official records that includes:

(1) Insurer's trade secrets shall be referred to the commissioner who shall respond to the request, with the cooperation and assistance of the commission, in accordance with section 624.4213, Florida Statutes; or

(2) Matters of privacy of individuals shall be referred to the commissioner who shall respond to the request, with the cooperation and assistance of the commission, in accordance with s. 119.07(1), Florida Statutes.

(3) Nothing in this act abrogates a person's right to access information consistent with the Constitution and laws of the State of Florida.

Section 6. The Financial Services Commission may adopt rules to implement this act. The Financial Services Commission may use the rulemaking authority granted in this section to opt out of any new uniform standards adopted after October 1, 2013, pursuant to Article VII, until such standards are approved by the Legislature.

Section 7. This act shall take effect October 1, 2013.

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

PCS/CS/CS/SB 274 requires the Department of Highway Safety and Motor Vehicles (DHSMV, department) to establish a method to issue a specialty license plate voucher to allow for the presale of the Freemasonry specialty license plate and provides for a $25 annual use fee for the plate. The specialty license plate organization must record, within 24 months, a minimum of 1,000 voucher sales before the department can begin manufacturing the specialty license plate.

The proceeds will be distributed to the Masonic Home Endowment Fund, Inc., for the operation of the Masonic Home of Florida which is dedicated to the care of Masons and their families.

The bill has no fiscal impact as the sponsoring organization must meet the pre-sale requirements prior to the department manufacturing the plate. The department will recover any development costs from the fee associated with the sale of 1,000 plates.

This bill substantially amends sections 320.08056 and 320.08058, Florida Statutes.

II. Present Situation:

Specialty License Plates

Specialty license plates are available to any owner or lessee of a motor vehicle who is willing to pay an annual use fee, in addition to other registration fees, for the privilege using that plate. Specialty license plate annual use fees range from $15 to $25, and are distributed to an organization in support of a particular cause or charity signified in the plate's design and designated in statute. The Legislature may create a specialty license plate under its own initiative or it can do so at the request of an organization.

Annual use fees, and any interest earned from those fees, may be used by the authorized organization for public or private purposes; however, the annual fees may not be used for commercial or for-profit activities, or for general administrative expenses (except as specifically authorized or to pay the cost of the audit or report required to ensure the proceeds are used as authorized).

The sponsoring organization wishing to receive a specialty license plate is required to comply with the requirements of s. 320.08053, F.S., which include submitting the following information to the department at least 90 days prior to the convening of the next regular session of the Legislature:

- A description of the proposed specialty license, including a sample plate that conforms to specifications set by the department;
- Payment of a $60,000 processing fee which defrays the department's cost of reviewing the application and developing the specialty license plate; and
- A marketing strategy outlining short-term and long-term marketing plans and a projected financial analysis outlining the anticipated and planned revenues from the sale of the license plate.

If the specialty license plate is approved by law, the sponsoring organization must pre-sell a minimum of 1,000 vouchers within 24 months before the department can begin manufacturing the specialty license plate. If the specialty license plate is not approved by the Legislature, or if the pre-sell requirements are not met, the department shall refund the application fee to the requesting organization.

Currently, there is a moratorium on the issuance of new specialty license plates. Section 45, ch. 2008-176, L.O.F., as amended by s. 21, ch. 2010-223, L.O.F., provides that "[e]except for a specialty license plate proposal which has submitted a letter of intent to the Department of Highway Safety and Motor Vehicles prior to May 2, 2008, and which has submitted a valid survey, marketing strategy, and application fee as required by s. 320.08053, F. S., prior to October 1, 2008, or which was included in a bill filed during the 2008 Legislative Session, the Department of Highway Safety and Motor Vehicles may not issue any new specialty license plates pursuant to ss. 320.08056 and 320.08058, F.S., between July 1, 2008, and July 1, 2014."

A person wishing to purchase a specialty license plate must pay, in addition to the required license plate fee and license tax, a license plate annual use fee (from $15 to $25) and a processing fee of $5.

Statutory Approval Process

There is a moratorium on the issuance of new specialty license plates which expires on July 1, 2014.[1]

Under s. 320.08503, F.S., an organization seeking authorization of a new specialty license plate is required to submit to the Department of Highway Safety and Motor Vehicles, at least 90 days prior to the Session at which they seek authorization, the following:

- A description of the proposed specialty plate;
- Payment of a $60,000 processing fee, and
- A marketing strategy and a financial analysis outlining the anticipated and planned revenues from the sale of the license plate.

If approved, the entity must pre-sell a minimum of 1,000 vouchers within 24 months before the department will begin manufacturing the plate. If the specialty license plate is not authorized by the Legislature, or if the pre-sell requirements are not met, the department refunds the application fee.

Freemasonry License Plate

Thirty nine states offer the Freemasonry license plate for a cost raging from $20 to $40[2]

The Masonic Home Endowment Fund, Inc., is a 501(c)(3), public charity organization. The Masonic Home Endowment Fund, Inc., was founded around 1987 in the Jacksonville, Florida area.[3] The Grand Lodge of Florida[4] is just one company under the auspices of the Masonic Home Endowment Fund, Inc. The Grand Lodge of Florida is a retirement living facility for senior masons and their spouses/widows. The facility has two-levels of care; round the clock care and assisted living with geriatric physicians and specialists on the premises.

III. Effect of Proposed Changes:

Section 1 amends s. 302.08056, F.S., to authorize the department to develop and issue the Freemasonry specialty license plate with an annual use fee of $25.

Section 2 amends s. 302.08058, F.S., to create the Freemasonry specialty license plate, notwithstanding the moratorium on new specialty license plates[5], and the provisions of s. 302.08053(1), F.S., requiring a description of the plate, an application of $60,000, and a

[5] Section 45, ch. 2008-176, L.O.F., as amended by s. 21, 2010-223, L.O.F.

marketing strategy on the anticipated revenues and planned expenditures of the plate. The bill requires the pre-sale of 1,000 vouchers for the Freemasonry plate before the department can begin manufacturing the plate. The annual use fees from the sale of the Freemasonry specialty license will be distributed to the Masonic Home Endowment Fund, Inc., which may use up to 10 percent of the proceeds to promote and market the plate. The remainder of the proceeds must be used for the operation of the Masonic Home of Florida.

Section 3 provides an effective date of October 1, 2013.

Other Potential Implications:
The specialty plate does not qualify to be exempted from the requirements of the moratorium.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Persons who purchase the Freemasonry specialty license plate will pay a $25 annual use fee in addition to normal registration fees.

Proceeds from the sale of the Freemasonry specialty license plate will be distributed to the Masonic Home Endowment Fund, Inc.

C. Government Sector Impact:

The department's Information Systems Administration Office will require approximately 88 hours of work to develop, design, manufacture, and distribute the specialty license plate, and to implement the provisions of this bill. These costs will be absorbed by the department.

The bill has no fiscal impact as the sponsoring organization must meet the pre-sale requirements prior to the department manufacturing the plate. The department will

recover any development costs from the normal fee associated with the sale of 1,000 plates.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS/CS by the Appropriations Subcommittee on Transportation, Tourism and Economic Development on April 17, 2013:
The CS/CS/CS maintains the requirement that the specialty plate sponsoring organization meet the pre-sale requirements in current law, which also provides for the recovery of any costs borne by the department in the development of the plate.

CS/CS by Rules Committee on April 9, 2013:
The CS/CS clarifies that the department shall retain all annual use fees from the sale of the Freemasonry specialty license plate until all startup costs for developing and issuing the plates have been recovered.

CS by Transportation Committee on March 21, 2013:
The CS added provisions authorizing the department, notwithstanding provisions of s. 320.08053, F.S., to develop and issue a Freemasonry specialty license plate. However, once all of the requirements are met, the department will distribute the $25 use fees to Masonic Home Endowment Fund, Inc.

The CS also changed the effective date to October 1, 2013.

B. Amendments:

None.

576-04539A-13

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Transportation, Tourism, and Economic Development)

A bill to be entitled

An act relating to specialty license plates; amending ss. 320.08056 and 320.08058, F.S.; creating a Freemasonry license plate; establishing an annual use fee for the plate; providing for the distribution of annual use fees received from the sale of the plate; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (aaaa) is added to subsection (4) of section 320.08056, Florida Statutes, to read:

320.08056 Specialty license plates.—

(4) The following license plate annual use fees shall be collected for the appropriate specialty license plates:

(aaaa) Freemasonry license plate, $25.

Section 2. Subsection (79) is added to section 320.08058, Florida Statutes, to read:

320.08058 Specialty license plates.—

(79) FREEMASONRY LICENSE PLATES.—

(a) Notwithstanding s. 45, chapter 2008-176, Laws of Florida, as amended by s. 21, chapter 2010-223, Laws of Florida, and s. 320.08053(1), the department shall develop a Freemasonry license plate as provided in s. 320.08053(2) and (3), and this section. The word "Florida" must appear at the top of the plate, and the words "In God We Trust" must appear at the bottom of the

576-04539A-13

plate.

(b) The license plate annual use fees shall be distributed to the Masonic Home Endowment Fund, Inc., which may use a maximum of 10 percent of the proceeds to promote and market the plate. The remainder of the proceeds shall be used by the Masonic Home Endowment Fund, Inc., to invest and reinvest and use the interest for the operation of the Masonic Home of Florida, a five-star facility dedicated to the care of Masons and their families.

Section 3. This act shall take effect October 1, 2013.

The Florida Senate

I. Summary:

CS/CS/CS/SB 274 requires the Department of Highway Safety and Motor Vehicles (DHSMV, department) to establish a method to issue a specialty license plate voucher to allow for the presale of the Freemasonry specialty license plate and provides for a $25 annual use fee for the plate. The specialty license plate organization must record, within 24 months, a minimum of 1,000 voucher sales before the department can begin manufacturing the specialty license plate.

The proceeds will be distributed to the Masonic Home Endowment Fund, Inc., for the operation of the Masonic Home of Florida which is dedicated to the care of Masons and their families.

The bill has no fiscal impact as the sponsoring organization must meet the pre-sale requirements prior to the department manufacturing the plate. The department will recover any development costs from the fee associated with the sale of 1,000 plates.

This bill substantially amends sections 320.08056 and 320.08058, Florida Statutes.

II. Present Situation:

Specialty License Plates

Specialty license plates are available to any owner or lessee of a motor vehicle who is willing to pay an annual use fee, in addition to other registration fees, for the privilege using that plate. Specialty license plate annual use fees range from $15 to $25, and are distributed to an organization in support of a particular cause or charity signified in the plate's design and designated in statute. The Legislature may create a specialty license plate under its own initiative or it can do so at the request of an organization.

Annual use fees, and any interest earned from those fees, may be used by the authorized organization for public or private purposes; however, the annual fees may not be used for commercial or for-profit activities, or for general administrative expenses (except as specifically authorized or to pay the cost of the audit or report required to ensure the proceeds are used as authorized).

The sponsoring organization wishing to receive a specialty license plate is required to comply with the requirements of s. 320.08053, F.S., which include submitting the following information to the department at least 90 days prior to the convening of the next regular session of the Legislature:

- A description of the proposed specialty license, including a sample plate that conforms to specifications set by the department;
- Payment of a $60,000 processing fee which defrays the department's cost of reviewing the application and developing the specialty license plate; and
- A marketing strategy outlining short-term and long-term marketing plans and a projected financial analysis outlining the anticipated and planned revenues from the sale of the license plate.

If the specialty license plate is approved by law, the sponsoring organization must pre-sell a minimum of 1,000 vouchers within 24 months before the department can begin manufacturing the specialty license plate. If the specialty license plate is not approved by the Legislature, or if the pre-sell requirements are not met, the department shall refund the application fee to the requesting organization.

Currently, there is a moratorium on the issuance of new specialty license plates. Section 45, ch. 2008-176, L.O.F., as amended by s. 21, ch. 2010-223, L.O.F., provides that "[e]except for a specialty license plate proposal which has submitted a letter of intent to the Department of Highway Safety and Motor Vehicles prior to May 2, 2008, and which has submitted a valid survey, marketing strategy, and application fee as required by s. 320.08053, F. S., prior to October 1, 2008, or which was included in a bill filed during the 2008 Legislative Session, the Department of Highway Safety and Motor Vehicles may not issue any new specialty license plates pursuant to ss. 320.08056 and 320.08058, F.S., between July 1, 2008, and July 1, 2014."

A person wishing to purchase a specialty license plate must pay, in addition to the required license plate fee and license tax, a license plate annual use fee (from $15 to $25) and a processing fee of $5.

Statutory Approval Process

There is a moratorium on the issuance of new specialty license plates which expires on July 1, 2014.[1]

Under s. 320.08503, F.S., an organization seeking authorization of a new specialty license plate is required to submit to the Department of Highway Safety and Motor Vehicles, at least 90 days prior to the Session at which they seek authorization, the following:

- A description of the proposed specialty plate;
- Payment of a $60,000 processing fee, and
- A marketing strategy and a financial analysis outlining the anticipated and planned revenues from the sale of the license plate.

If approved, the entity must pre-sell a minimum of 1,000 vouchers within 24 months before the department will begin manufacturing the plate. If the specialty license plate is not authorized by the Legislature, or if the pre-sell requirements are not met, the department refunds the application fee.

Freemasonry License Plate

Thirty nine states offer the Freemasonry license plate for a cost raging from $20 to $40[2]

The Masonic Home Endowment Fund, Inc., is a 501(c)(3), public charity organization. The Masonic Home Endowment Fund, Inc., was founded around 1987 in the Jacksonville, Florida area.[3] The Grand Lodge of Florida[4] is just one company under the auspices of the Masonic Home Endowment Fund, Inc. The Grand Lodge of Florida is a retirement living facility for senior masons and their spouses/widows. The facility has two-levels of care; round the clock care and assisted living with geriatric physicians and specialists on the premises.

III. Effect of Proposed Changes:

Section 1 amends s. 302.08056, F.S., to authorize the department to develop and issue the Freemasonry specialty license plate with an annual use fee of $25.

Section 2 amends s. 302.08058, F.S., to create the Freemasonry specialty license plate, notwithstanding the moratorium on new specialty license plates[5], and the provisions of s. 302.08053(1), F.S., requiring a description of the plate, an application of $60,000, and a

[5] Section 45, ch. 2008-176, L.O.F., as amended by s. 21, 2010-223, L.O.F.

marketing strategy on the anticipated revenues and planned expenditures of the plate. The bill requires the pre-sale of 1,000 vouchers for the Freemasonry plate before the department can begin manufacturing the plate. The annual use fees from the sale of the Freemasonry specialty license will be distributed to the Masonic Home Endowment Fund, Inc., which may use up to 10 percent of the proceeds to promote and market the plate. The remainder of the proceeds must be used for the operation of the Masonic Home of Florida.

Section 3 provides an effective date of October 1, 2013.

Other Potential Implications:
The specialty plate does not qualify to be exempted from the requirements of the moratorium.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Persons who purchase the Freemasonry specialty license plate will pay a $25 annual use fee in addition to normal registration fees.

Proceeds from the sale of the Freemasonry specialty license plate will be distributed to the Masonic Home Endowment Fund, Inc.

C. Government Sector Impact:

The department's Information Systems Administration Office will require approximately 88 hours of work to develop, design, manufacture, and distribute the specialty license plate, and to implement the provisions of this bill. These costs will be absorbed by the department.

The bill has no fiscal impact as the sponsoring organization must meet the pre-sale requirements prior to the department manufacturing the plate. The department will

recover any development costs from the normal fee associated with the sale of 1,000 plates.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS/CS by Appropriations on April 23, 2013:
The CS/CS/CS maintains the requirement that the specialty plate sponsoring organization meet the pre-sale requirements in current law, which also provides for the recovery of any costs borne by the department in the development of the plate.

CS/CS by Rules Committee on April 9, 2013:
The CS/CS clarifies that the department shall retain all annual use fees from the sale of the Freemasonry specialty license plate until all startup costs for developing and issuing the plates have been recovered.

CS by Transportation Committee on March 21, 2013:
The CS added provisions authorizing the department, notwithstanding provisions of s. 320.08053, F.S., to develop and issue a Freemasonry specialty license plate. However, once all of the requirements are met, the department will distribute the $25 use fees to Masonic Home Endowment Fund, Inc.

The CS also changed the effective date to October 1, 2013.

B. Amendments:

None.

By the Committees on Rules; and Transportation; and Senators Dean, Evers, and Latvala

595-03971-13 2013274c2

A bill to be entitled

An act relating to specialty license plates; amending ss. 320.08056 and 320.08058, F.S.; creating a Freemasonry license plate; establishing an annual use fee for the plate; providing for the distribution of annual use fees received from the sale of such plates; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (aaaa) is added to subsection (4) of section 320.08056, Florida Statutes, to read:

320.08056 Specialty license plates.—

(4) The following license plate annual use fees shall be collected for the appropriate specialty license plates:

(aaaa) Freemasonry license plate, $25.

Section 2. Subsection (79) is added to section 320.08058, Florida Statutes, to read:

320.08058 Specialty license plates.—

(79) FREEMASONRY LICENSE PLATES.—

(a) Notwithstanding the provisions of s. 320.08053, the department shall develop a Freemasonry license plate as provided in this section. The word "Florida" must appear at the top of the plate, and the words "In God We Trust" must appear at the bottom of the plate.

(b) The department shall retain all annual use fees from the sale of such plates until all startup costs for developing and issuing the plates have been recovered. Thereafter, the license plate annual use fees shall be distributed to the

595-03971-13 2013274c2

Masonic Home Endowment Fund, Inc., which may use a maximum of 10 percent of the proceeds to promote and market the plate. The remainder of the proceeds shall be used by the Masonic Home Endowment Fund, Inc., to invest and reinvest and use the interest for the operation of the Masonic Home of Florida, a five-star facility dedicated to the care of Masons and their families.

Section 3. This act shall take effect October 1, 2013.

5.				
6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/SB 288 adds costs of prosecution and costs of representation to the fees, costs, and penalties to be withheld from cash bond posted on behalf of a defendant. The bill provides clarification regarding the collection of cost payments in certain traffic cases and requires the assessment of costs of prosecution in juvenile delinquency proceedings. The committee substitute allows a court to order the juvenile to complete community service in lieu of paying the cost of prosecution if the court finds that the juvenile is unable to pay the cost.

The bill has an effective date of July 1, 2013.

The bill has a positive, but indeterminate fiscal impact.

This bill substantially amends the following sections of the Florida Statutes: 903.286, 938.27, 985.032, and 988.455.

II. Present Situation:

Costs of Prosecution

Section 938.27, F.S., provides that convicted persons are liable for costs of prosecution at the rate of $50 in misdemeanor or criminal traffic offense cases and $100 in felony criminal cases, unless the prosecutor proves that costs are higher in the particular case before the court.[1] The costs of prosecution are deposited into the State Attorneys Revenue Trust Fund.[2]

Convicted persons are also liable for payment of investigative costs incurred by a law enforcement agency, fire department, or the Department of Financial Services and the Office of Financial Regulation of the Financial Services Commission.[3] Conviction, for this purpose, includes "a determination of guilt, or of violation of probation or community control, which is a result of a plea, trial, or violation proceeding, regardless of whether adjudication is withheld."[4]

Costs of Representation

Section 938.29, F.S., provides that convicted persons are liable for payment of the $50 public defender application fee under s. 27.52(1)(b), F.S., and attorney's fees and costs if he or she received assistance from the public defender's office, a special assistant public defender, the office of criminal conflict and civil regional counsel, or a private conflict attorney, or who has received due process services after being found indigent for costs.

Costs of representation may be imposed at the rate of $50 in misdemeanor or criminal traffic offense cases and $100 in felony criminal cases. The court may set a higher amount upon showing of sufficient proof of higher fees or costs incurred. The costs of representation are deposited into the Indigent Criminal Defense Trust Fund.[5]

The court may order payment of the assessed application fee and attorney's fees and costs as a condition of probation, of suspension of sentence, or of withholding the imposition of sentence.[6] The clerk within the county where the defendant was tried or received services from a public defender is responsible for enforcing, satisfying, compromising, settling, subordinating, releasing, or otherwise disposing of any debt or lien imposed.[7]

Clerks to Collect and Disburse Funds

Section 28.246(2), F.S., requires the clerk of the circuit court (clerk) to establish and maintain a system of accounts receivable for court-related fees, charges, and costs.

[1] Section 938.27(8), F.S.
[2] *Id.*
[3] Section 938.27(1), F.S.
[4] *Id.*
[5] Section 27.562, F.S.
[6] Section 938.29(1)(c), F.S.
[7] Section 938.29(3), F.S.

The clerk may accept partial payments for all fees, charges, and costs in accordance with the terms of an established payment plan.[8] The clerk may enter into a payment plan when an individual is determined to be indigent for costs by the court.[9]

Criminal Traffic Case Disposition

The clerk of the court is authorized by s. 318.14, F.S., to dispose of certain misdemeanor criminal traffic violations in which the defendant shows the clerk that he or she is in compliance with the law under which the charge was made prior to the court date. Examples of these traffic offenses include operating a motor vehicle without a valid registration under s. 320.131, F.S., and presenting invalid proof of insurance under s. 316.646, F.S. The clerk is statutorily authorized to accept a nolo contendere plea, waive the misdemeanor fines, and assess costs listed in s. 318.14(10)(b), F.S.

Cash Bond Used to Pay Fines, Costs, and Fees

Section 903.286, F.S., authorizes the clerk to withhold the return of a cash bond posted on behalf of a criminal defendant by a person other than a bail bond agent[10] to pay the following:

- Court fees;
- Court costs; and
- Criminal penalties.

If sufficient funds are not available to pay the above costs, the clerk will immediately obtain payment from the defendant or enroll the defendant in a payment plan pursuant to s. 28.246, F.S.

Clerks are not currently authorized to withhold costs of prosecution or costs of representation.

All cash bond forms must prominently display a notice explaining that all funds are subject to forfeiture and withholding by the clerk for the payment of the above costs on behalf of the criminal defendant regardless of who posted the funds.

Delinquency Cases Exempt

Currently, juveniles who are adjudicated delinquent or who have had the adjudication of delinquency withheld are not required to pay the costs of prosecution although they can be required to pay for the costs of representation.[11] A lien-enforcement procedure is currently available which allows the clerk to collect the costs of representation from the parents or guardians of the child.[12]

[8] Section 28.246(4), F.S.
[9] "A monthly payment amount, calculated based upon all fees and all anticipated costs, is presumed to correspond to the person's ability to pay if the amount does not exceed 2 percent of the person's annual net income, as defined in s. 27.52(1), divided by 12." Section 28.246(4), F.S.
[10] Licensed under ch. 648, F.S.
[11] Sections 27.52 (6) and 938.29(2)(a)2., F.S.
[12] *Id.*

III. Effect of Proposed Changes:

The bill adds the costs of prosecution and the costs of representation by the public defender to the list of costs that a clerk is required to withhold from the return of a cash bond posted on behalf of a criminal defendant by a person other than a bail bond agent. If such payments are not made from the cash bond, the clerk is required to obtain payment from a defendant, or if sufficient funds are not available, require the defendant to enroll in a payment plan. Cash bond forms must display notice of the funds being subject to forfeiture for payment of costs of prosecution as well as other costs, fees, and fines.

The bill requires the clerk to collect and disburse costs of prosecution in all cases, regardless of whether the cases are disposed of before a judge in open court. These particular cases may include criminal traffic violations disposed of pursuant to s. 318.14(10), F.S.[13] (See the Technical Deficiencies section below.)

The bill also requires that costs of prosecution be assessed for juveniles who have been adjudicated delinquent or have adjudication of delinquency withheld. Although current law provides for a lien against the child's parents to aid in collecting costs of representation, there is no such provision in the bill for costs of prosecution. If the juvenile is found by the court to be unable to pay, the bill allows the court to order the juvenile to complete community service in lieu of paying the cost.

The bill takes effect July 1, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

[13] In these cases, the defendant may elect to show proof of compliance to the clerk of the court and enter a plea of nolo contendere. The clerk is authorized by s. 318.14(10), F.S., to assess certain fees. The assessment and collection of costs of prosecution are not specified in s. 318.14(10), F.S. Although s. 938.27(6), F.S., requires the clerk to "collect and dispense cost payments in any case," which would include costs of prosecution and investigation listed in s. 938.27(8), F.S., state attorneys report that the costs are not being collected in the criminal traffic cases disposed of pursuant to ch. 318, F.S.

B. Private Sector Impact:

Costs of prosecution will be assessed by the court in delinquency cases, which is a new cost not previously assessed. This assessment may be paid by the delinquent child if he or she has the ability to pay.

C. Government Sector Impact:

This bill appears to have a positive fiscal impact on state attorneys and public defenders because:

- The costs of prosecution and costs of representation will be withheld by the clerk from the return of a cash bond posted on behalf of a criminal defendant by a person other than a bail bond agent. This provision is likely to result in a positive fiscal impact for state attorneys and public defenders.
- The costs of prosecution will now be assessed from juveniles who have been adjudicated delinquent or have adjudication of delinquency withheld. This will likely result in a positive fiscal impact as these costs were not assessed in these specific cases in the past.
- The state attorney may experience a positive fiscal impact from the costs of prosecution collected by the clerks of court in certain traffic violation cases.

VI. Technical Deficiencies:

State attorneys have reported that costs of prosecution are not being collected in criminal traffic cases that are disposed of by the clerk of the court prior to a court appearance by the defendant as authorized in s. 318.14, F.S. If the bill is intended to address this issue, clarity could be gained by adding a cross-reference to s. 938.27(6), F.S., as amended by the bill, within s. 318.14(10), F.S.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Judiciary on April 8, 2013:
The committee substitute allows a court to order the juvenile to complete community service in lieu of paying the cost of prosecution if the court finds that the juvenile is unable to pay the cost. The committee substitute also makes a number of minor technical changes.

B. Amendments:

None.

By the Committee on Judiciary; and Senator Bradley

590-03886-13 2013288c1

A bill to be entitled

An act relating to costs of prosecution, investigation, and representation; amending s. 903.286, F.S.; providing for the withholding of unpaid costs of prosecution and representation from the return of a cash bond posted on behalf of a criminal defendant; requiring a notice on bond forms of such possible withholding; amending s. 938.27, F.S.; clarifying the types of cases that are subject to the collection and dispensing of cost payments by the clerk of the court; amending s. 985.032, F.S.; providing for assessment of costs of prosecution against a juvenile who has been adjudicated delinquent or has adjudication of delinquency withheld; amending s. 985.455, F.S.; providing that a child adjudicated delinquent may perform community service in lieu of certain costs and fees; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 903.286, Florida Statutes, is amended to read:

903.286 Return of cash bond; requirement to withhold unpaid fines, fees, court costs; cash bond forms.—

(1) Notwithstanding s. 903.31(2), the clerk of the court shall withhold from the return of a cash bond posted on behalf of a criminal defendant by a person other than a bail bond agent licensed pursuant to chapter 648 sufficient funds to pay any unpaid costs of prosecution, costs of representation as provided

590-03886-13 2013288c1

by ss. 27.52 and 938.29, court fees, court costs, and criminal penalties. If sufficient funds are not available to pay all unpaid costs of prosecution, costs of representation as provided by ss. 27.52 and 938.29, court fees, court costs, and criminal penalties, the clerk of the court shall immediately obtain payment from the defendant or enroll the defendant in a payment plan pursuant to s. 28.246.

(2) All cash bond forms used in conjunction with the requirements of s. 903.09 must prominently display a notice explaining that all funds are subject to forfeiture and withholding by the clerk of the court for the payment of costs of prosecution, costs of representation as provided by ss. 27.52 and 938.29, court fees, court costs, and criminal penalties on behalf of the criminal defendant regardless of who posted the funds.

Section 2. Section 938.27, Florida Statutes, is amended to read:

938.27 Judgment for costs of prosecution and investigation ~~on conviction~~.—

(1) In all criminal and violation-of-probation or community-control cases, convicted persons are liable for payment of the costs of prosecution, including investigative costs incurred by law enforcement agencies, by fire departments for arson investigations, and by investigations of the Department of Financial Services or the Office of Financial Regulation of the Financial Services Commission, if requested by such agencies. The court shall include these costs in every judgment rendered against the convicted person. For purposes of this section, "convicted" means a determination of guilt, or of

violation of probation or community control, which is a result of a plea, trial, or violation proceeding, regardless of whether adjudication is withheld.

(2)(a) The court shall impose the costs of prosecution and investigation notwithstanding the defendant's present ability to pay. The court shall require the defendant to pay the costs within a specified period or pursuant to a payment plan under s. 28.246(4).

(b) The end of such period or the last such installment must not be later than:

1. The end of the period of probation or community control, if probation or community control is ordered;

2. Five years after the end of the term of imprisonment imposed, if the court does not order probation or community control; or

3. Five years after the date of sentencing in any other case.

However, the obligation to pay any unpaid amounts does not expire if not paid in full within the period specified in this paragraph.

(c) If not otherwise provided by the court under this section, costs must ~~shall~~ be paid immediately.

(3) If a defendant is placed on probation or community control, payment of any costs under this section shall be a condition of such probation or community control. The court may revoke probation or community control if the defendant fails to pay these costs.

(4) Any dispute as to the proper amount or type of costs

shall be resolved by the court by the preponderance of the evidence. The burden of demonstrating the amount of costs incurred is on the state attorney. The burden of demonstrating the financial resources of the defendant and the financial needs of the defendant is on the defendant. The burden of demonstrating such other matters as the court deems appropriate is upon the party designated by the court as justice requires.

(5) Any default in payment of costs may be collected by any means authorized by law for enforcement of a judgment.

(6) The clerk of the court shall collect and dispense cost payments in any case, regardless of whether the disposition of the case takes place before the judge in open court or in any other manner provided by law.

(7) Investigative costs that are recovered must ~~shall~~ be returned to the appropriate investigative agency that incurred the expense. Such costs include actual expenses incurred in conducting the investigation and prosecution of the criminal case; however, costs may also include the salaries of permanent employees. Any investigative costs recovered on behalf of a state agency must be remitted to the Department of Revenue for deposit in the agency operating trust fund, and a report of the payment must be sent to the agency, except that any investigative costs recovered on behalf of the Department of Law Enforcement must ~~shall~~ be deposited in the department's Forfeiture and Investigative Support Trust Fund under s. 943.362.

(8) Costs for the state attorney must ~~shall~~ be set in all cases at no less than $50 per case when a misdemeanor or criminal traffic offense is charged and no less than $100 per

case when a felony offense is charged, including a proceeding in which the underlying offense is a violation of probation or community control. The court may set a higher amount upon a showing of sufficient proof of higher costs incurred. Costs recovered on behalf of the state attorney under this section must ~~shall~~ be deposited into the State Attorneys Revenue Trust Fund to be used during the fiscal year in which the funds are collected, or in any subsequent fiscal year, for actual expenses incurred in investigating and prosecuting criminal cases, which may include the salaries of permanent employees, or for any other purpose authorized by the Legislature.

Section 3. Section 985.032, Florida Statutes, is amended to read:

985.032 Legal representation for delinquency cases.—

(1) For cases arising under this chapter, the state attorney shall represent the state.

(2) A juvenile who has been adjudicated delinquent or has adjudication of delinquency withheld shall be assessed costs of prosecution as provided in s. 938.27.

Section 4. Paragraph (d) is added to subsection (1) of section 985.455, Florida Statutes, to read:

985.455 Other dispositional issues.—

(1) The court that has jurisdiction over an adjudicated delinquent child may, by an order stating the facts upon which a determination of a sanction and rehabilitative program was made at the disposition hearing:

(d) Order the child, upon a determination of the child's inability to pay, to perform community service in lieu of all court costs assessed against the delinquent child, including

costs of prosecution, public defender application fees, and costs of representation.

Section 5. This act shall take effect July 1, 2013.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 370
INTRODUCER:	Regulated Industries Committee and Senator Sachs
SUBJECT:	Disposition of Human Remains
DATE:	April 24, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Kraemer	Imhof	RI	**Fav/CS**
2.	Looke	Stovall	HP	**Favorable**
3.	Munroe	Cibula	JU	**Favorable**
4.	Brown	Hansen	AP	**Favorable**
5.				
6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/SB 370 amends various statutory provisions relating to the disposition of human remains.

The bill has no fiscal impact.

The bill:

- Addresses technical issues such as adding the Department of Health (DOH) as an authorized issuer of extensions of time to provide the medical certification and of burial-transit permits, permitting electronic transfer of medical certification for cause of death, adding appropriate district medical examiners as persons who may file a death certificate, and clarifying the obligations of primary and attending physicians of a deceased person;
- Authorizes nontransplant anatomical donation organizations (NADOs) to accept donations of human remains;
- Directs any person or entity that has possession, charge, or control of unclaimed human remains that will be buried or cremated at public expense to notify the anatomical board at the University of Florida Health Science Center (board);

- Defines the reasonable efforts that must be undertaken to dispose of unclaimed remains and to identify deceased persons, including veterans who may be eligible for burial in a national cemetery;
- Permits a licensed funeral director to act as a legally authorized person for the unclaimed remains when no family exists or is available and releases a funeral director from liability for damages when exercising that authority;
- Provides that, when the identity of the unclaimed remains cannot be ascertained, the remains may not be cremated, donated as an anatomical gift, buried at sea, or removed from the state;
- Authorizes counties to dispose of unclaimed remains by burial or cremation pursuant to an ordinance or resolution if the remains are not claimed by the board;
- Clarifies that competing claims for unclaimed remains are prioritized according to the priority of legally authorized persons;
- Permits the board to lend remains to accredited colleges of mortuary science for education or research purposes;
- Requires the board, rather than the Department of Financial Services (DFS), to keep a record of all fees and other financial transactions, and authorizes the University of Florida to audit these records using an accounting firm paid by the board at least once every three years and provide DFS with the audit results;
- Allows third parties to convey human remains or any part thereof outside the state for dental education or research purposes, with proper notice to and approval by the board;
- Requires that the original burial-transit permit accompany human remains received by the board or a NADO;
- Requires that a NADO obtain written consent to dissect, segment, or disarticulate human remains, with such consent expressly stating such long-term preservation or extensive preparation methods that may be used on the remains being dissected, segmented or disarticulated; and
- Prohibits any person, institution or organization from giving any monetary inducement or other valuable consideration to the donor's estate, or other third party for human remains. The payment or reimbursement of the reasonable costs associated with the removal, storage, and transportation of human remains, payment or reimbursement to a funeral establishment or removal service, and payment for the reasonable costs after use, including the disposition of human remains are not considered valuable consideration.

This bill substantially amends the following sections of the Florida Statutes: 382.002, 382.006, 382.008, 382.011, 406.50, 406.51, 406.52, 406.53, 406.55, 406.56, 406.57, 406.58, 406.59, 406.60, 406.61, 497.005, 497.382, 497.607, and 765.513.

The bill creates section 406.49, Florida Statutes.

The bill repeals section 406.54, Florida Statutes.

II. Present Situation:

The Disposition of Human Remains

The transportation, handling, and disposition of human remains is addressed by multiple Florida laws regulating various departments and persons:

- The Department of Health (DOH), Office of Vital Statistics (ch. 382, F.S., the Florida Vital Statistics Act);
- Medical examiners and state anatomical board (ch. 406, F.S., the Medical Examiners Act);
- Funeral directors, crematories, and direct disposers (ch. 497, F.S., the Florida Funeral, Cemetery, and Consumer Services Act);[1] and
- Persons making advance directives (health care surrogate designations and living wills) and anatomical gifts, i.e., donations of a person's body (or portions thereof) for transplantation, therapy, research, or education, to organ procurement organizations, eye banks or tissue banks (ch. 765, F.S.).[2]

Section 382.002, F.S., defines "final disposition" as burial, interment, cremation, removal from the state, or other authorized disposition. Cremation, rather than dispersion of the resulting ashes or residue, is deemed final disposition. Death certificates are to be filed by the funeral director assuming custody of a dead body or a physician or other person in attendance at or after the death. Within 72 hours after receipt of a death certificate, the medical certification of cause of death must be completed by the physician in charge of the decedent's care for the illness or condition that resulted in death, the physician in attendance at the time of death (or immediately before or after death), or the medical examiner.[3]

Medical examiners must investigate and determine the cause of death when:

- Death is due to unlawful acts, unlawful neglect, violence, accident, or suicide;
- Sudden death occurs while the deceased was in apparent good health;
- Death occurs in prison, in police custody, under suspicious or unusual circumstances, or unattended by a physician;
- Death occurs by criminal abortion, by poison, or by disease constituting a public health threat;
- Death occurs by disease, injury, or toxic agent resulting from employment;
- The dead body is brought into the state without proper medical certification; or
- A body is to be cremated, dissected, or buried at sea.[4]

There are 24 medical examiner districts in Florida and 22 chief medical examiners. Some of the medical examiners serve more than one district.[5]

The legal disposition of human remains is further regulated in s. 406.50 through s. 406.61, F.S. Anyone (typically public officers and employees of governmental entities, and those in charge of

[1] Chapter 497, F.S., the Florida Funeral, Cemetery, and Consumer Services Act, includes defined terms concerning the various methods of final disposition of dead human bodies, including procedures, descriptions of facilities and merchandise, and priority of those persons legally authorized to decide upon and direct such disposition.
[2] Chapter 765, F.S., addresses advance directives (health care surrogate designations and living wills) and anatomical gifts, i.e., donations of a person's body (or parts thereof) for transplantation, therapy, research, or education, to organ procurement organizations, eye banks, or tissue banks. The term "anatomical gift" is defined in s. 765.511(2), F.S., as "a donation of all or part of a human body to take effect after the donor's death and to be used for transplantation, therapy, research, or education."
[3] Section 382.008, F.S.
[4] Section 406.11, F.S.
[5] *See* http://myfloridamedicalexaminer.com/ (Last visited March 12, 2013).

prisons, morgues, hospitals, funeral parlors, or mortuaries) coming into possession of human remains that are not claimed by a legally authorized person as defined in s. 497.005, F.S., or of remains to be buried or cremated at public expense, must notify the anatomical board. However, such notification is not required if the death was caused by crushing injury, the deceased had a contagious disease, an autopsy was required to determine the cause of death, the body was in a state of severe decomposition, or a family member objects to the use of the body for medical education and research.[6]

There are special requirements for the identification and handling of veterans or others entitled to burial in a national cemetery. The person in control of such dead bodies must contact certain county or federal offices.[7] Similar provisions exist for the handling of unclaimed bodies of indigent persons.[8]

The Anatomical Board

The stated mission of the board is to supply anatomical materials for teaching and research programs in the State of Florida.[9] The program provides donated bodies for the training of physicians, dentists, physician assistants, and other health workers.[10]

The board is permitted to accept and receive the bodies of those who die within the state of Florida, if they executed wills leaving their body to the board for the advancement of medical science.[11] Bodies received by the board may not be used for medical science purposes until 48 hours after receipt.[12] If there is a surfeit of bodies, or if the board deems a body unfit for anatomical purposes, the board may notify the county where the person died for identification and contact of relatives.

After the delivery of a body to the board, friends, representatives of a fraternal society of which the deceased was a member, or representatives of any charitable or religious organization, may claim a body, and the board must surrender the body after its reasonable expenses have been reimbursed.[13]

The board or its duly authorized agent shall distribute any bodies it receives to medical and dental schools, teaching hospitals, medical institutions, and health-related teaching programs that require cadaveric material for study. Alternately, those bodies may be loaned for examination or study purposes to recognized associations of licensed embalmers or funeral directors or medical or dental examining boards.[14]

---

[6] Section 406.50, F.S.
[7] *Id.*
[8] Section 406.53, F.S.
[9] The anatomical board was created by the Legislature at the University of Florida in 1996, by ch. 96-251, L.O.F. Prior to 1996, the Division of Universities of the Department of Education was responsible for these functions.
[10] *See* http://old.med.ufl.edu/anatbd/ (Last visited March 12, 2013).
[11] Section 406.56, F.S.
[12] Section 406.52, F.S.
[13] Section 406.54, F.S.
[14] Section 406.57, F.S.

The board is prohibited from entering into any contract – oral or written – for the payment of any sum of money to a living person in exchange for the delivery of the body of that person upon death[15] Moreover, the buying or selling of bodies or parts of bodies (except transmittal or conveyances by recognized Florida medical or dental schools) is prohibited in this state, which is punishable as a misdemeanor of the first degree.[16]

Fees may be charged by the board to defray the costs of obtaining and preparing the bodies. The board is also empowered to receive money from public or private sources to defray the costs of embalming, handling, shipping, storage, cremation, or other costs relating to the obtaining and use of the bodies. The record of all fees and other financial transactions are audited annually by the Department of Financial Services (DFS), and a report of the audit is provided to the University of Florida.[17]

Nontransplant Anatomical Donation Organizations

According to the American Association of Tissue Banks (AATB), an organization that promulgates industry standards and accredits tissue banks in the United States and Canada,[18] a nontransplant anatomical donation organization (NADO) is a tissue bank or other organization that facilitates nontransplant anatomical donations. Facilitating activities include referral, obtaining informed consent or authorization, acquisition, traceability, transport, assessing donor acceptability, preparation, packaging, labeling, storage, release, evaluating intended use, distribution, and final disposition of nontransplant anatomical donations.[19] The AATB developed accreditation standards for NADOs in 2012. There are currently four NADOs accredited by AATB, including one in Florida.[20]

Organ Procurement Organizations

In addition to the organizations mentioned, the law defines several types of organizations permitted to handle human organs, human eye tissue, or other human tissue. An organ procurement organization is defined as an organization designated by the Secretary of the United States Department of Health and Human Services which engages in the retrieval, screening, testing, processing, storage, or distribution (hereafter collectively the "evaluation and conveyance") of human organs.[21] Four major organ and tissue procurement organizations operate in Florida to facilitate the process of organ donation. These organizations are certified by the federal Centers for Medicare and Medicaid Services (CMS) and operate in Florida to increase the number of registered donors and coordinate the donation process when organs become available.[22] Each organization serves a different region of the state.[23] In addition to federal

[15] Section 406.55, F.S.
[16] Section 406.61(1), F.S.
[17] Section 406.58, F.S.
[18] Founded in 1976, the AATB has produced best practice standards for the operation of tissue banks since 1984. The association also provides an educational network for member organizations to encourage the dissemination of new practices. www.aatb.org/About-AATB (Last visited March 12, 2013).

certification of organ procurement organizations, Florida's Agency for Healthcare Administration (AHCA) also certifies these organ procurement organizations and other eye and tissue organizations.[24]

III. Effect of Proposed Changes:

Section 1 amends s. 382.002, F.S. The definition of "final disposition" is amended to include "anatomical donation" as an authorized final disposition of a dead body and to indicate that such a donation is considered final disposition. The term "funeral director" is amended to delete a reference to other persons as individuals who may first assume custody of, or who effect the final disposition of, a dead body.

Section 2 amends s. 382.006, F.S., to add the Department of Health (DOH) as an authorized issuer of burial-transit permits.[25]

Section 3 amends s. 382.008, F.S., to:

- Require, in the absence of a funeral director who first assumes custody of the body, the district medical examiner of the county in which the death occurred or the body was found to file a death certificate;
- Permit electronic transfer of the medical certification of cause of death;
- Allow the decedent's primary or attending physician, or the local district medical examiner in the event of a death in violent or suspicious circumstances, to provide certification of cause of death. Under existing law, the certification could be supplied only by the physician in charge of care for the illness or condition which resulted in death or the physician in attendance at the time of, or immediately before or after, the death;
- Define the term "primary or attending physician" as a physician who treated the deceased through examination, medical advice, or medication during the 12 months preceding the date of death;
- Conform additional references to physicians and medical examiners to the definition of "primary physician or attending physician" created in the section; and
- Identify the appropriate medical examiner as the district medical examiner of the county in which the death occurred or the body was found.

Section 4 amends s. 382.011, F.S., to:

- Mandate that a medical examiner determine the cause of death when death occurs more than 12 months (rather than only 30 days) after last treatment by a primary or attending physician; and
- Add the medical examiner of the county in which the body was found to the people to whom a case may be referred for investigation.

---

[23] Id.; LifeLink of Florida serves west Florida, LifeQuest Organ Recovery Services serves north Florida, TransLife Organ and Tissue Donation Services serves east Florida, and LifeAlliance Organ Recovery Services serves south Florida.
[24] AHCA's authority for certifying organ, eye, and tissue banks can be found in s. 765.542, F.S., and a list of organ, eye and tissue banks is available on FloridaHealthFinder at www.floridahealthfinder.gov, (last visited on Mar. 12, 2013.)
[25] The county health departments appoint the registrars and deputy registrars.

Section 5 creates s. 406.49, F.S., to:

- Create definitions of "cremated remains," "final disposition," "human remains or remains," and "legally authorized person" that are identical to definitions of those terms contained in s. 497.005, F.S.;
- Create the definition of "nontransplant anatomical donation organization" as a tissue bank or other organization that facilitates nontransplant anatomical donations, including activities such as referral, obtaining of consents and authorizations, acquisition, transport, assessment of acceptability of donors, preparation, storage, release, evaluation of intended use, distribution, and final disposition of nontransplant donations;
- Create a definition for "anatomical board"[26] and "indigent person;"[27]
- Define the term "unclaimed remains" to mean human remains that are not claimed by a legally authorized person, other than a medical examiner or the board of county commissioners, for final disposition at the person's expense; and
- Define "human remains" or "remains" to mean the body of a deceased human person for which a death certificate or fetal death certificate is required under chapter 382, F.S., and includes the body in any stage of decomposition.[28] "Final disposition" is defined, in part, to mean the final disposal of a dead human body by earth interment, aboveground interment, cremation, burial at sea, or delivery to a medical institution for lawful dissection if the medical institution assumes responsibility for disposal.[29]

Section 6 amends s. 406.50, F.S., to direct a person or entity that comes into possession, charge, or control of unclaimed remains that are required to be buried or cremated at public expense to notify the board.[30] The notice is not required if:

- The unclaimed remains are decomposed or mutilated by wounds;
- An autopsy is performed on the remains;
- The remains contain a contagious disease;
- A legally authorized person objects to the use of the remains for medical education or research; or
- The deceased person was a veteran of the United States Armed Forces, United States Reserve Forces or National Guard and is eligible for burial in a national cemetery or was the spouse or dependent child of a veteran eligible for burial in a national cemetery.

The bill deletes an exception to the notification requirements for death caused by crushing injury.

[26]The definition of "anatomical board" is comparable to the term as used in s 406.50, F.S. Section 406.50(4), F.S., defines "anatomical board" to mean the anatomical board of this state located at the University of Florida Health Science Center.
[27] The definition of "indigent person" is comparable to the definition of the term as used in s. 406.53(3), F.S. "Indigent" is defined to be 100 percent of the federal poverty level recognized by the Federal Income Guidelines produced by the United States Department of Health and Human Services. *See* s. 406.53(3), F.S.
[28] *See* s. 497.005(38), F.S.
[29] See s. 497.005(32), F.S.
[30] The duty of notification is presently on "all public officers, agents, or employees of every county, city, village, town or municipality and every person in charge of any prison, morgue, hospital, funeral parlor, or mortuary and all other persons" coming into possession of such remains.

The bill amends provisions to require that before final disposition, the person or entity that comes into possession, charge, or control of unclaimed remains make reasonable effort to identify the remains, contact relatives, and determine if the deceased person is eligible for burial in a national cemetery. A reasonable effort is defined to include contacting the National Cemetery Scheduling Office in addition to contacting the county veterans' service office and the regional office of the United States Department of Veterans Affairs. If the deceased is eligible for burial in a national cemetery,[31] the person or entity in charge of the remains make those arrangements in accordance with federal regulations and must also make a reasonable effort to cause the remains or cremated remains to be delivered to a national cemetery.

The bill provides that a funeral director licensed under chapter 497, F.S., may assume the responsibility of a legally authorized person when no family exists or is available. The funeral director after 24 hours has elapsed since the time of death may authorize arterial embalming for the purpose of storage and delivery of the unclaimed remains to the board. Funeral directors are released from liability for damages relating to embalming and delivering the remains to the board.

The bill provides that the remains of a deceased person whose identity cannot be ascertained may not be:

- Cremated;
- Donated as an anatomical gift;
- Buried at sea; or
- Removed from the state.

The bill deletes current-law provisions that competing claims for a body for interment by legally authorized persons shall be prioritized in accordance with s. 732.103, F.S.

The bill creates provisions that allow the board of county commissioners, or its designated department, of the county in which the remains were found or the death occurred to authorize and arrange for the burial or cremation of the entire remains if the anatomical board does not accept unclaimed remains. Boards of county commissioners may, by ordinance or resolution, prescribe policies and procedures for final disposition of unclaimed remains.

Section 7 amends s. 406.51, F.S., to make conforming changes and clarify references to federal law.

Section 8 substantially rewords s. 406.52, F.S., which relates to the retention of human remains and the process for reclaiming remains from the board. The bill:

- Authorizes the anatomical board to embalm human remains upon receipt and to refuse to accept unclaimed remains or the remains of an indigent person;
- Provides that, at any point prior to use for medical education or research, human remains may be claimed by a legally authorized person, after payment of the board's expenses incurred for transporting, embalming, and storing the remains; and

[31] The bill clarifies who is eligible by referencing 38 C.F.R. s. 38.620.

- Exempt licensees under ch. 497, F.S., from liability for any damages resulting from cremating or burying human remains at the written direction of the county.

The bill deletes provisions that:

- Deem county commissioners of the county where the death occurred as a legally authorized person under s. 497.005, F.S.;
- Allow the board to provide written notice to the appropriate county commission or other legally authorized persons that more bodies had been made available than could be used for medical science or that a body had been deemed unfit for anatomical purposes. In such cases the unclaimed body must be buried or cremated in compliance with rules, laws, and practices for disposing of unclaimed bodies; and
- Require the county to make reasonable efforts to determine the identity of the body, contact relatives, and accommodate the requests of relatives if a preference is expressed for either burial or cremation.

Section 9 substantially rewords s. 406.53, F.S. Notwithstanding the provisions of s. 406.50(1), F.S.,[32] a county is not required to notify the anatomical board of the unclaimed remains of an indigent person if:

- The remains are decomposed or mutilated by wounds;
- An autopsy is performed;
- A legally authorized person or a relative by blood or marriage claims the remains for final disposition at his or her expense;
  - If such person or relative is also an indigent person, the person must provide for final disposition in a manner consistent with policies of the county in which the death occurred or the remains were found;
- The deceased person was a veteran, or the spouse or dependent child of a veteran, of the United States Armed Forces, United States Reserve Forces, or National Guard and is eligible for burial in a national cemetery; or
- A licensed funeral director certifies that the board has been notified and either accepted or declined the remains.

The bill deletes notification exceptions for the following circumstances:

- In the event of death caused by crushing injury;
- Where the deceased had a contagious disease; or
- Where the body is claimed for burial at the expense of any friend or a representative of a fraternal society of which the deceased was a member, or a representative of any charitable or religious organization, or a governmental agency that was providing residential care to the indigent person at the time of his or her death.

The bill also deletes the provision directing the DOH to assess fees for burial pursuant to s. 402.33, F.S., when the DOH claims the body of an indigent client.

[32] This section deals with unclaimed human remains generally.

Section 10 amends s. 406.55, F.S., to make conforming and technical changes.

Section 11 amends s. 406.56, F.S., to make conforming and technical changes.

Section 12 amends s. 406.57, F.S., to make conforming and technical changes and to require the board to loan remains to accredited colleges of mortuary science for education or research purposes.

Section 13 amends s. 406.58, F.S., to make conforming and technical changes and specify that the board may pay or reimburse the reasonable expenses, as determined by the board, for the removal, storage, or transportation of unclaimed remains by licensed funeral establishments or removal services.

The bill requires the board, not the DFS, to keep records of all fees and other financial transactions. The bill directs the University of Florida to audit these records at least once every three years or more frequently if deemed necessary, and to provide a copy of the audit to DFS within 90 days after completion. The bill authorizes the University of Florida to contract with a licensed public accounting firm "to provide for" the audit, and the accounting firm "may be paid from the fees collected by the board."

Section 14 amends s. 406.59, F.S., to make conforming and technical changes and mandate that entities receiving remains from the board may not use them for any purposes other than medical education or research.

Section 15 amends s. 406.60, F.S., to reference "human remains" and to provide that the board or a cinerator facility licensed under ch. 497, F.S., may dispose of human remains by cremation when such remains have been used for, and are not of any further value to, medical or dental education or research.

Section 16 amends s. 406.61, F.S., to make conforming and technical changes and to affirmatively state that the anatomical board may transport human remains outside the state for educational or scientific purposes. The bill allows other persons, institutions or organizations that convey human remains or any part thereof outside the state to do so for dental education or research purposes, but only upon the required notification to, and approval from, the anatomical board.

The bill allows a nontransplant anatomical donation association (NADO) that is accredited by the American Association of Tissue Banks (AATB) to convey human remains into or outside the state, for medical or dental education or research purposes without notifying the board or receiving board approval for the conveyance. The bill also requires that a NADO be accredited by the AATB effective October 1, 2014.

The bill makes buying or selling human remains or conveying human remains out of the state a misdemeanor of the first degree. Recognized Florida medical and dental schools are exceptions to this provision.

The bill requires that an original burial-transit permit issued pursuant to s. 382.007, F.S., accompany human remains received by the board or a NADO. It also prohibits the dissection, segmentation, or disarticulation of the remains until the district medical examiner of the county in which the death occurred or the remains were found grants approval under s. 406.11, F.S.

The bill requires that a NADO obtain specific written consent for the dissection, segmentation, or disarticulation of any part of the remains from all persons who are authorized to consent to an anatomical gift as described in s. 765.512, F.S. Such consent must expressly state that the remains may undergo long-term preservation or extensive preparation, including but not limited to, removal of the head, arms, legs, hands, feet, spine, organs, tissues, or fluids.

The bill prohibits any person from offering any monetary inducement or other valuable consideration, including goods and services, to a donor, legally authorized person, the donor's estate, or any other third party, in exchange for human remains. The bill provides, however, that the term "valuable consideration" does not include, and does not prohibit payment or reimbursement of the following expenses:

- Reasonable costs associated with the removal, storage, and transportation of human remains;
- Fees of a licensed funeral establishment or removal service;
- Reasonable costs after use of the human remains; or
- Disposition by cremation of human remains after use when they are deemed of no further value to medical or dental education or research.

The bill also deletes language that provides a substitute format to comply with required documentation for plastinated remains exhibited before July 1, 2009, by entities accredited by the American Association of Museums. The substitute method of compliance expired on January 1, 2012, by the terms of the subsection.

Section 17 amends s. 497.005, F.S., to redefine "final disposition" as it relates to the Florida Funeral, Cemetery, and Consumer Services Act to include provisions relating to anatomical donation. Delivery of an anatomical donation is deemed to be final disposition if the medical institution or entity receiving it assumes responsibility for disposition after use.

Section 18 amends s. 497.382, F.S., to require that reports of embalming or other handling of dead bodies be recorded and signed monthly as appropriate by embalmers, funeral directors or direct disposers, and maintained at the business premises for inspection by staff of the Division of Funeral, Cemetery, and Consumer Services within the DFS. The bill deletes the requirement that the reports be submitted to or filed with the division. The bill also revises the reporting procedure for funeral directors performing a disinterment.

Section 19 amends s. 497.607, F.S., to require a reasonable effort be made by a funeral or direct disposal establishment to determine whether remains that have not been claimed within 120 days after cremation are those of a veteran or the spouse or dependent child of a veteran of the United States Armed Forces, United States Reserve Forces, or National Guard eligible for burial in a national cemetery. If they are, the establishment must arrange for interment in a national cemetery and may use the assistance of a veterans' service organization for this purpose. A

funeral or direct disposal establishment or veterans' service organization acting in good faith is not liable for damages resulting from the release of required information to determine eligibility.

There is no requirement to determine if the deceased is an eligible veteran if the funeral or direct disposal establishment is informed by a legally authorized person that the deceased was not a veteran. Similarly, there is no requirement to relinquish possession of cremated remains to a veteran's service organization if the establishment is informed by a legally authorized person that the deceased did not desire any funeral, ceremony, or interment-related services recognizing the deceased's service as a veteran.

The bill defines "reasonable effort" to include contacting the National Cemetery Scheduling Office, the county veterans' service office, the regional office of the U.S. Department of Veterans Affairs, or a veteran's service organization. The term "veterans' service organization" is defined as a tax-exempt entity under s. 501(c)(3) or 501(c)(10) of the Internal Revenue Code, organized for the benefit of veterans' burial and interment, that is recognized by the Memorial Affairs Division of the U.S. Department of Veterans Affairs. This includes members and employees of those organizations that assist in facilitating the identification, recovery, and interment of the unclaimed cremated remains of veterans.

Section 20 amends s. 765.513, F.S., to specify that the anatomical board or a NADO may be a donee of the whole body for medical or dental education or research.

Section 21 repeals s. 406.54, F.S., which relates to the anatomical board surrendering a body to the claimant after payment of certain expenses. This is addressed by the bill in s. 406.52, F.S.

Section 22 provides an effective date of July 1, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Effective October 1, 2014, a nontransplant anatomical donation organization must be accredited by the AATB to convey human remains outside and into the state. Staff at the American Association of Tissue Banks report that the initial application cost is $5,000, and annual renewals thereafter range between a minimum of $3,250 and $75,000 annually, based on gross revenues.[33]

C. Government Sector Impact:

None.

VI. Technical Deficiencies:

None.

VII. Related Issues:

Under the bill, the title of part II of chapter 406, F.S., remains "Disposition of Dead Bodies," even though all references therein will refer to "human remains" or "remains." The Division of Law Revision and Information in the Office of Legislative Services should conform the reference accordingly as needed.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Regulated Industries on March 7, 2013:
The committee substitute:

- Conforms the bill to its House companion (CS/HB 171);
- Allows the Department of Health as well as the local health department registrar to grant an extension of time for the submission of the medical certification of the cause of death;
- Defines nontransplant anatomical donation organizations (NADO) as authorized to accept donations of human remains;
- Describes specific requirements for the contents of consents to be obtained by NADOs;
- Provides that an institution or organization may not offer monetary or other valuable consideration in exchange for human remains; and
- Defines the term "valuable consideration" to exclude payments or reimbursement of reasonable costs associated with the handling of the remains before and after use, including cremation.

[33] Teleconference by the Senate Committee on Regulated Industries with D. Newman at AATB March 5, 2013.

B. Amendments:

None.

By the Committee on Regulated Industries; and Senator Sachs

580-02033-13 2013370c1

A bill to be entitled

An act relating to disposition of human remains; amending s. 382.002, F.S.; revising definitions for purposes of the Florida Vital Statistics Act; amending s. 382.006, F.S.; authorizing the Department of Health to issue burial-transit permits; amending s. 382.008, F.S.; revising procedures for the registration of certificates of death or fetal death and the medical certification of causes of death; providing a definition; amending s. 382.011, F.S.; extending the time by which certain deaths must be referred to the medical examiner for investigation; creating s. 406.49, F.S.; providing definitions; amending s. 406.50, F.S.; revising procedures for the reporting and disposition of unclaimed remains; prohibiting certain uses or dispositions of the remains of deceased persons whose identities are not known; limiting the liability of licensed funeral directors who authorize the embalming of unclaimed remains under certain circumstances; amending s. 406.51, F.S.; requiring that local governmental contracts for the final disposition of unclaimed remains comply with certain federal regulations; amending s. 406.52, F.S.; revising procedures for the anatomical board's retention of human remains before their use; providing for claims by, and the release of human remains to, legally authorized persons after payment of certain expenses; authorizing county ordinances or resolutions for the final disposition of the unclaimed remains of

580-02033-13 2013370c1

indigent persons; limiting the liability of certain licensed persons for cremating or burying human remains under certain circumstances; amending s. 406.53, F.S.; revising exceptions from requirements for notice to the anatomical board of the death of indigent persons; deleting a requirement that the Department of Health assess fees for the burial of certain bodies; amending ss. 406.55, 406.56, and 406.57, F.S.; conforming provisions; amending s. 406.58, F.S.; requiring audits of the financial records of the anatomical board; conforming provisions; amending s. 406.59, F.S.; conforming provisions; amending s. 406.60, F.S.; authorizing certain facilities to dispose of human remains by cremation; amending s. 406.61, F.S.; revising provisions prohibiting the selling or buying of human remains or the transmitting or conveying of such remains outside the state; providing penalties; excepting accredited nontransplant anatomical donation organizations from requirements for the notification of and approval from the anatomical board for the conveyance of human remains for specified purposes; requiring that nontransplant anatomical donation organizations be accredited by a certain date; requiring that human remains received by the anatomical board be accompanied by a burial-transit permit; requiring approval by the medical examiner and consent of certain persons before the dissection, segmentation, or disarticulation of such remains;

prohibiting the offer of any monetary inducement or other valuable consideration in exchange for human remains; providing a definition; deleting an expired provision; conforming provisions; amending s. 497.005, F.S.; revising a definition for purposes of the Florida Funeral, Cemetery, and Consumer Services Act; amending s. 497.382, F.S.; revising certain reporting requirements for funeral establishments, direct disposal establishments, cinerator facilities, and centralized embalming facilities; amending s. 497.607, F.S.; providing requirements for the disposal of unclaimed cremated remains by funeral or direct disposal establishments; limiting the liability of funeral or direct disposal establishments and veterans' service organizations related to the release of information required to determine the eligibility for interment in a national cemetery of the unclaimed cremated remains of a veteran; providing definitions; amending s. 765.513, F.S.; revising the list of donees who may accept anatomical gifts and the purposes for which such a gift may be used; repealing s. 406.54, F.S., relating to claims of bodies after delivery to the anatomical board; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsections (8) and (9) of section 382.002, Florida Statutes, are amended to read:

382.002 Definitions.—As used in this chapter, the term:

(8) "Final disposition" means the burial, interment, cremation, removal from the state, anatomical donation, or other authorized disposition of a dead body or a fetus as described in subsection (7). In the case of cremation, dispersion of ashes or cremation residue is considered to occur after final disposition; the cremation itself is considered final disposition. In the case of anatomical donation of a dead body, the donation itself is considered final disposition.

(9) "Funeral director" means a licensed funeral director or direct disposer licensed pursuant to chapter 497 ~~or other person~~ who first assumes custody of or effects the final disposition of a dead body or a fetus as described in subsection (7).

Section 2. Subsection (2) of section 382.006, Florida Statutes, is amended to read:

382.006 Burial-transit permit.—

(2) A burial-transit permit shall be issued by the department or the local registrar or subregistrar of the registration district in which the death occurred or the body was found. A burial-transit permit may ~~shall~~ not be issued:

(a) Until a complete and satisfactory certificate of death or fetal death is ~~has been~~ filed in accordance with the requirements of this chapter and adopted rules, unless the funeral director provides adequate assurance that a complete and satisfactory certificate will be so registered.

(b) Except under conditions prescribed by the department, if the death occurred from some disease that ~~which~~ is deemed ~~held~~ by the department to be infectious, contagious, or communicable and dangerous to the public health.

Section 3. Paragraph (a) of subsection (2) and subsections

(3), (4), and (5) of section 382.008, Florida Statutes, are amended to read:

382.008 Death and fetal death registration.—

(2)(a) The funeral director who first assumes custody of a dead body or fetus shall file the certificate of death or fetal death. In the absence of the funeral director, the physician or other person in attendance at or after the death or the district medical examiner of the county in which the death occurred or the body was found shall file the certificate of death or fetal death. The person who files the certificate shall obtain personal data from the next of kin or the best qualified person or source available. The medical certification of cause of death shall be furnished to the funeral director, either in person or via certified mail or electronic transfer, by the physician or medical examiner responsible for furnishing such information. For fetal deaths, the physician, midwife, or hospital administrator shall provide any medical or health information to the funeral director within 72 hours after expulsion or extraction.

(3) Within 72 hours after receipt of a death or fetal death certificate from the funeral director, the medical certification of cause of death shall be completed and made available to the funeral director by the decedent's primary or attending physician ~~in charge of the decedent's care for the illness or condition which resulted in death, the physician in attendance at the time of death or fetal death or immediately before or after such death or fetal death,~~ or, if s. 382.011 applies, the district medical examiner of the county in which the death occurred or the body was found ~~if the provisions of s. 382.011~~

~~apply~~. The primary or attending physician or medical examiner shall certify over his or her signature the cause of death to the best of his or her knowledge and belief. As used in this section, the term "primary or attending physician" means a physician who treated the decedent through examination, medical advice, or medication during the 12 months preceding the date of death.

(a) The local registrar may grant the funeral director an extension of time upon a good and sufficient showing of any of the following conditions:

1. An autopsy is pending.

2. Toxicology, laboratory, or other diagnostic reports have not been completed.

3. The identity of the decedent is unknown and further investigation or identification is required.

(b) If the decedent's primary or attending physician or district medical examiner of the county in which the death occurred or the body was found indicates ~~has indicated~~ that he or she will sign and complete the medical certification of cause of death~~,~~ but will not be available until after the 5-day registration deadline, the local registrar may grant an extension of 5 days. If a further extension is required, the funeral director must provide written justification to the registrar.

(4) If the department or local registrar grants ~~has granted~~ an extension of time to provide the medical certification of cause of death, the funeral director shall file a temporary certificate of death or fetal death which shall contain all available information, including the fact that the cause of

death is pending. The decedent's primary or attending physician or the district medical examiner of the county in which the death occurred or the body was found shall provide an estimated date for completion of the permanent certificate.

(5) A permanent certificate of death or fetal death, containing the cause of death and any other information that ~~which~~ was previously unavailable, shall be registered as a replacement for the temporary certificate. The permanent certificate may also include corrected information if the items being corrected are noted on the back of the certificate and dated and signed by the funeral director, physician, or district medical examiner of the county in which the death occurred or the body was found, as appropriate.

Section 4. Subsection (1) of section 382.011, Florida Statutes, is amended to read:

382.011 Medical examiner determination of cause of death.—

(1) In the case of any death or fetal death due to causes or conditions listed in s. 406.11, any ~~or where the~~ death that occurred more than 12 months ~~30 days~~ after the decedent was last treated by a primary or attending physician as defined in s. 382.008(3) ~~unless the death was medically expected as certified by an attending physician~~, or any death for which ~~where~~ there is reason to believe that the death may have been due to an unlawful act or neglect, the funeral director or other person to whose attention the death may come shall refer the case to the district medical examiner of the county ~~district~~ in which the death occurred or the body was found for investigation and determination of the cause of death.

Section 5. Section 406.49, Florida Statutes, is created in

part II of chapter 406, Florida Statutes, to read:

406.49 Definitions.—As used in this part, the term:

(1) "Anatomical board" means the anatomical board of the state headquartered at the University of Florida Health Science Center.

(2) "Cremated remains" has the same meaning as provided in s. 497.005.

(3) "Final disposition" has the same meaning as provided in s. 497.005.

(4) "Human remains" or "remains" has the same meaning as provided in s. 497.005.

(5) "Indigent person" means a person whose family income does not exceed 100 percent of the current federal poverty guidelines prescribed for the family's household size by the United States Department of Health and Human Services.

(6) "Legally authorized person" has the same meaning as provided in s. 497.005.

(7) "Nontransplant anatomical donation organization" means a tissue bank or other organization that facilitates nontransplant anatomical donation, including referral, obtaining informed consent or authorization, acquisition, traceability, transport, assessing donor acceptability, preparation, packaging, labeling, storage, release, evaluating intended use, distribution, and final disposition of nontransplant anatomical donations.

(8) "Unclaimed remains" means human remains that are not claimed by a legally authorized person, other than a medical examiner or the board of county commissioners, for final disposition at the person's expense.

Section 6. Section 406.50, Florida Statutes, is amended to read:

406.50 Unclaimed ~~dead bodies or human~~ remains; disposition, procedure.—

(1) A person or entity that comes ~~All public officers, agents, or employees of every county, city, village, town, or municipality and every person in charge of any prison, morgue, hospital, funeral parlor, or mortuary and all other persons coming~~ into possession, charge, or control of unclaimed ~~any dead human body or~~ remains that ~~which are unclaimed or which~~ are required to be buried or cremated at public expense shall ~~are hereby required to notify,~~ immediately notify~~,~~ the anatomical board, unless:

(a) The unclaimed remains are decomposed or mutilated by wounds;

(b) An autopsy is performed on the remains;

(c) The remains contain ~~whenever any such body, bodies, or remains come into its possession, charge, or control. Notification of the anatomical board is not required if the death was caused by crushing injury, the deceased had~~ a contagious disease;

(d) A legally authorized person~~, an autopsy was required to determine cause of death, the body was in a state of severe decomposition, or a family member~~ objects to use of the remains ~~body~~ for medical education or ~~and~~ research; or

(e) The deceased person was a veteran of the United States Armed Forces, United States Reserve Forces, or National Guard and is eligible for burial in a national cemetery or was the spouse or dependent child of a veteran eligible for burial in a

national cemetery.

(2)~~(1)~~ Before the final disposition of unclaimed remains, the person or entity in charge or control of the ~~dead body or human~~ remains shall make a reasonable effort to ~~determine~~:

(a) Determine the identity of the deceased person and ~~shall further make a reasonable effort to~~ contact any relatives of the ~~such~~ deceased person.

(b) Determine whether ~~or not~~ the deceased person is eligible under 38 C.F.R. s. 38.620 for ~~entitled to~~ burial in a national cemetery as a veteran of the armed forces and, if eligible ~~so~~, to cause the deceased person's remains or cremated remains to be delivered to a national cemetery ~~shall make arrangements for such burial services in accordance with the provisions of 38 C.F.R~~.

For purposes of this subsection, "a reasonable effort" includes contacting the National Cemetery Scheduling Office, the county veterans service office, or the regional office of the United States Department of Veterans Affairs.

(3)~~(2)~~ Unclaimed remains ~~Such dead human bodies as described in this chapter~~ shall be delivered to the anatomical board as soon as possible after death. When no family exists or is available, a funeral director licensed under chapter 497 may assume the responsibility of a legally authorized person and may, after 24 hours have elapsed since the time of death, authorize arterial embalming for the purposes of storage and delivery of unclaimed remains to the anatomical board. A funeral director licensed under chapter 497 is not liable for damages under this subsection.

(4) The remains of a deceased person whose identity is not known may not be cremated, donated as an anatomical gift, buried at sea, or removed from the state.

(5) If the anatomical board does not accept the unclaimed remains, the board of county commissioners or its designated county department of the county in which the death occurred or the remains were found may authorize and arrange for the burial or cremation of the entire remains. A board of county commissioners may by resolution or ordinance, in accordance with applicable laws and rules, prescribe policies and procedures for final disposition of unclaimed remains.

(6)~~(3)~~ This part does not ~~Nothing herein shall~~ affect the right of a medical examiner to hold human ~~such dead body or~~ remains for the purpose of investigating the cause of death or~~,~~ ~~nor shall this chapter affect~~ the right of any court of competent jurisdiction to enter an order affecting the disposition of such ~~body or~~ remains.

~~(4) In the event more than one legally authorized person claims a body for interment, the requests shall be prioritized in accordance with s. 732.103.~~

~~For purposes of this chapter, the term "anatomical board" means the anatomical board of this state located at the University of Florida Health Science Center, and the term "unclaimed" means a dead body or human remains that is not claimed by a legally authorized person, as defined in s. 497.005, for interment at that person's expense.~~

Section 7. Section 406.51, Florida Statutes, is amended to read:

406.51 Final disposition of unclaimed deceased veterans; contract requirements.—Any contract by a local governmental entity for the final disposition ~~disposal~~ of unclaimed ~~human~~ remains must provide for compliance with s. 406.50(2) ~~406.50(1)~~ and require that the procedures in 38 C.F.R. s. 38.620, relating to disposition of unclaimed deceased veterans, are ~~be~~ followed.

Section 8. Section 406.52, Florida Statutes, is amended to read:

(Substantial rewording of section. See s. 406.52, F.S., for present text.)

406.52 Retention of human remains before use; claim after delivery to anatomical board; procedures for unclaimed remains of indigent persons.—

(1) The anatomical board shall keep in storage all human remains that it receives for at least 48 hours before allowing their use for medical education or research. Human remains may be embalmed when received. The anatomical board may, for any reason, refuse to accept unclaimed remains or the remains of an indigent person.

(2) At any time before their use for medical education or research, human remains delivered to the anatomical board may be claimed by a legally authorized person. The anatomical board shall release the remains to the legally authorized person after payment of the anatomical board's expenses incurred for transporting, embalming, and storing the remains.

(3)(a) A board of county commissioners may by resolution or ordinance, in accordance with applicable laws and rules, prescribe policies and procedures for the burial or cremation of the entire unclaimed remains of an indigent person whose death

occurred, or whose remains were found, in the county.

(b) A person licensed under chapter 497 is not liable for any damages resulting from cremating or burying such human remains at the written direction of the board of county commissioners or its designee.

Section 9. Section 406.53, Florida Statutes, is amended to read:

(Substantial rewording of section. See s. 406.53, F.S., for present text.)

406.53 Unclaimed remains of indigent person; exemption from notice to the anatomical board.—A board of county commissioners or its designated county department that receives a report of the unclaimed remains of an indigent person, notwithstanding s. 406.50(1), is not required to notify the anatomical board of the remains if:

(1) The indigent person's remains are decomposed or mutilated by wounds or if an autopsy is performed on the remains;

(2) A legally authorized person or a relative by blood or marriage claims the remains for final disposition at his or her expense or, if such relative or legally authorized person is also an indigent person, in a manner consistent with the policies and procedures of the board of county commissioners of the county in which the death occurred or the remains were found;

(3) The deceased person was a veteran of the United States Armed Forces, United States Reserve Forces, or National Guard and is eligible for burial in a national cemetery or was the spouse or dependent child of a veteran eligible for burial in a

national cemetery; or

(4) A funeral director licensed under chapter 497 certifies that the anatomical board has been notified and either accepted or declined the remains.

Section 10. Section 406.55, Florida Statutes, is amended to read:

406.55 Contracts for delivery of human remains ~~body~~ after death prohibited.—The anatomical board may not enter ~~is specifically prohibited from entering~~ into any contract, oral or written, that provides for ~~whereby~~ any sum of money to ~~shall~~ be paid to any living person in exchange for ~~which~~ the delivery of that person's remains ~~body of said person shall be delivered~~ to the anatomical board when the ~~such living~~ person dies.

Section 11. Section 406.56, Florida Statutes, is amended to read:

406.56 Acceptance of human remains ~~bodies~~ under will.—If any person ~~being~~ of sound mind executes ~~shall execute~~ a will leaving his or her remains ~~body~~ to the anatomical board for ~~the advancement of~~ medical education or research ~~science~~ and the ~~such~~ person dies within the geographical limits of the state, the anatomical board may ~~is hereby empowered to~~ accept and receive the person's remains ~~such body~~.

Section 12. Section 406.57, Florida Statutes, is amended to read:

406.57 Distribution of human remains ~~dead bodies~~.—The anatomical board or its duly authorized agent shall take and receive human remains ~~the bodies~~ delivered to it as provided in ~~under the provisions of~~ this chapter and shall:

(1) Distribute the remains ~~them~~ equitably ~~to and~~ among the

medical and dental schools, teaching hospitals, medical institutions, and health-related teaching programs that require cadaveric material for study; or

(2) Loan the remains ~~same may be loaned for examination or study purposes~~ to accredited colleges of mortuary science ~~recognized associations of licensed embalmers or funeral directors,~~ or medical or dental examining boards for educational or research purposes ~~at the discretion of the anatomical board~~.

Section 13. Section 406.58, Florida Statutes, is amended to read:

406.58 Fees; authority to accept additional funds; annual audit.—

(1) The anatomical board may:

(a) Adopt ~~is empowered to prescribe~~ a schedule of fees to be collected from the institutions ~~institution or association~~ to which the human remains ~~bodies, as described in this chapter,~~ are distributed or loaned to defray the costs of obtaining and preparing the remains ~~such bodies~~.

(b) ~~(2) The anatomical board is hereby empowered to~~ Receive money from public or private sources, in addition to the fees collected from the institutions ~~institution or association~~ to which human remains ~~the bodies~~ are distributed, to be used to defray the costs of embalming, handling, shipping, storing, cremating, and otherwise ~~storage, cremation, and other costs relating to the~~ obtaining and using the remains. ~~use of such bodies as described in this chapter; the anatomical board is empowered to~~

(c) Pay or reimburse the reasonable expenses, as determined by the anatomical board, incurred by a funeral establishment or

removal service licensed under chapter 497 for the removal, storage, and transportation ~~any person delivering the bodies as described in this chapter~~ to the anatomical board of unclaimed human remains. ~~and is further empowered to~~

(d) Enter into contracts and perform such other acts ~~as are~~ necessary for ~~to~~ the proper performance of its duties.~~.~~

(2) The anatomical board shall keep a complete record of all fees and other financial transactions. The University of Florida shall conduct an audit of the financial records of the anatomical board at least once every 3 years or more frequently as the university deems necessary. Within 90 days after completing an audit, the university shall provide a copy of the audit to the Department of Financial Services. The university may contract with a licensed public accounting firm to provide for the audit, which firm may be paid from the fees collected by the ~~of said~~ anatomical board ~~shall be kept and audited annually by the Department of Financial Services, and a report of such audit shall be made annually to the University of Florida~~.

Section 14. Section 406.59, Florida Statutes, is amended to read:

406.59 Institutions receiving human remains ~~bodies~~.—A ~~No~~ university, school, college, teaching hospital, or institution may not~~, or association shall be allowed or permitted to~~ receive any human remains from the anatomical board ~~such body or bodies as described in this chapter~~ until its facilities are ~~have been~~ inspected and approved by the anatomical board. Human remains ~~All such bodies~~ received by such university, school, college, teaching hospital, or institution may not~~, or association shall~~ be used for any ~~no other~~ purpose other than ~~the promotion of~~

medical education or research ~~science~~.

Section 15. Section 406.60, Florida Statutes, is amended to read:

406.60 Disposition of human remains ~~bodies~~ after use.—~~At any time~~ When human remains ~~any body or bodies or part or parts of any body or bodies, as described in this chapter, shall~~ have been used for, and are not ~~deemed~~ of any ~~no~~ further value to, medical or dental education or research ~~science~~, ~~then~~ the anatomical board or a cinerator facility licensed under chapter 497 ~~person or persons having charge of said body or parts of said body~~ may dispose of the remains or any part thereof by cremation.

Section 16. Section 406.61, Florida Statutes, is amended to read:

406.61 Selling, buying, or conveying human remains ~~bodies~~ outside state prohibited; exceptions~~;~~, ~~penalty.~~—

(1)(a) The anatomical board may transport human remains outside the state for educational or scientific purposes. ~~Any person who sells or buys any body or parts of bodies as described in this chapter or any person except a recognized Florida medical or dental school who transmits or conveys or causes to be transmitted or conveyed such body or parts of bodies to any place outside this state commits a misdemeanor of the first degree, punishable as provided in ss. 775.082 and 775.083. However,~~ This chapter does not prohibit the transport of ~~anatomical board from transporting~~ human remains, any part of such remains ~~specimens outside the state for educational or scientific purposes or prohibit the transport of bodies, parts of bodies~~, or tissue specimens in furtherance of lawful

examination, investigation, or autopsy conducted pursuant to s. 406.11.

(b) A ~~Any~~ person, institution, or organization that conveys human remains ~~bodies~~ or any part thereof ~~parts of bodies~~ into or outside ~~out of~~ the state for medical or dental education or research purposes must ~~shall~~ notify the anatomical board of such intent and receive approval from the board.

(c) Notwithstanding paragraph (b), a nontransplant anatomical donation organization accredited by the American Association of Tissue Banks may convey human remains or any part thereof into or outside the state for medical or dental education or research purposes without notifying or receiving approval from the anatomical board. Effective October 1, 2014, a nontransplant anatomical donation organization must be accredited by the American Association of Tissue Banks.

(d) A person who sells or buys human remains or any part thereof, or a person who transmits or conveys or causes to be transmitted or conveyed such remains or part thereof to any place outside this state, in violation of this section commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083. This paragraph does not apply to a recognized Florida medical or dental school.

(2)(a) Human remains received in this state by the anatomical board or a nontransplant anatomical donation organization must be accompanied by the original burial-transit permit issued pursuant to s. 382.007. The remains may not be dissected, segmented, or disarticulated until the district medical examiner of the county in which the death occurred or the remains were found grants approval pursuant to s. 406.11.

(b) A nontransplant anatomical donation organization must obtain specific written consent for the dissection, segmentation, or disarticulation of any part of the remains from a person who is authorized under s. 765.512 to give such consent. Such consent must expressly state that the remains may undergo long-term preservation or extensive preparation, including, but not limited to, removal of the head, arms, legs, hands, feet, spine, organs, tissues, or fluids.

(3) A person, institution, or organization may not offer in exchange for human remains any monetary inducement or other valuable consideration, including goods or services, to a donor, a legally authorized person, the donor's estate, or any other third party. As used in this subsection, the term "valuable consideration" does not include, and this subsection does not prohibit, payment or reimbursement of the reasonable costs associated with the removal, storage, and transportation of human remains, including payment or reimbursement of a funeral establishment or removal service licensed under chapter 497 or the reasonable costs after use, including payment or reimbursement for the disposition of human remains pursuant to s. 406.60.

(4) ~~(2)~~ An ~~Any~~ entity accredited by the American Association of Museums may convey plastinated human remains ~~bodies~~ or any part thereof within, ~~parts of bodies~~ into, or outside ~~out of~~ the state for exhibition and public educational purposes without the consent of the anatomical board if the accredited entity:

(a) Notifies the anatomical board of the conveyance and the duration and location of the exhibition at least 30 days before the intended conveyance.

(b) Submits to the anatomical board a description of the remains ~~bodies~~ or any part thereof ~~parts of bodies~~ and the name and address of the company providing the remains ~~bodies~~ or any part thereof ~~parts of bodies~~.

(c) Submits to the anatomical board documentation that the remains or each part thereof ~~body~~ was donated by the decedent or his or her next of kin for purposes of plastination and public exhibition, or, in lieu of such documentation, an affidavit stating that the remains or each part thereof ~~body~~ was donated directly by the decedent or his or her next of kin for such purposes to the company providing the remains ~~body~~ and that such company has a donation form on file for the remains ~~body~~.

~~(3) Notwithstanding paragraph (2)(c) and in lieu of the documentation or affidavit required under paragraph (2)(c), for a plastinated body that, before July 1, 2009, was exhibited in this state by any entity accredited by the American Association of Museums, such an accredited entity may submit an affidavit to the board stating that the body was legally acquired and that the company providing the body has acquisition documentation on file for the body. This subsection expires January 1, 2012.~~

Section 17. Subsection (32) of section 497.005, Florida Statutes, is amended to read:

497.005 Definitions.—As used in this chapter, the term:

(32) "Final disposition" means the final disposal of a dead human body by earth interment, aboveground interment, cremation, burial at sea, anatomical donation, or delivery to a medical institution for lawful dissection if the medical institution or entity receiving the anatomical donation assumes responsibility for disposition after use pursuant to s. 406.60 ~~disposal~~. The

term ~~"Final disposition"~~ does not include the disposal or distribution of cremated remains and residue of cremated remains.

Section 18. Section 497.382, Florida Statutes, is amended to read:

497.382 Reports of cases embalmed and bodies handled.—

(1) Each funeral establishment, direct disposal establishment, cinerator facility, and centralized embalming facility shall record monthly ~~report~~ on a form prescribed and furnished by the licensing authority the name of the deceased and such other information as may be required by rule with respect to each dead human body embalmed or otherwise handled by the establishment or facility. Such forms shall be signed monthly by the embalmer who performs the embalming, if the body is embalmed, and the funeral director in charge of the establishment or facility or by the direct disposer who disposes of the body and shall be maintained at the business premises of the establishment or facility for inspection by division staff. The licensing authority shall prescribe by rule the procedures for preparing and retaining ~~in submitting~~ such forms ~~documentation~~. ~~Reports required by this subsection shall be filed by the 20th day of each month for final dispositions handled the preceding month.~~

(2) Funeral directors performing disinterments shall record monthly on the form specified in subsection (1) and pursuant to ~~report, using a form and~~ procedures prescribed ~~specified~~ by rule~~,~~ the name of the deceased and such other information as may be required by rule with respect to each dead human body disinterred.

Section 19. Subsection (2) of section 497.607, Florida Statutes, is amended to read:

497.607 Cremation; procedure required.—

(2)(a) With respect to any person who intends to provide for the cremation of the deceased, if, after a period of 120 days from the time of cremation the cremated remains have not been claimed, the funeral or direct disposal establishment may dispose of the cremated remains. Such disposal shall include scattering them at sea or placing them in a licensed cemetery scattering garden or pond or in a church columbarium or otherwise disposing of the remains as provided by rule.

(b) A reasonable effort shall be made before such disposal to determine whether the cremated remains are those of a veteran of the United States Armed Forces, United States Reserve Forces, or National Guard eligible for burial in a national cemetery or a spouse or dependent child of a veteran eligible for burial in a national cemetery.

(c) If the unclaimed cremated remains are those of an eligible veteran or the spouse or dependent child of an eligible veteran, the funeral or direct disposal establishment shall arrange for the interment of the cremated remains in a national cemetery. A funeral or direct disposal establishment may use the assistance of a veterans' service organization for this purpose. A funeral or direct disposal establishment or veterans' service organization acting in good faith is not liable for any damages resulting from the release of required information to determine eligibility for interment.

(d) This subsection does not require a funeral or direct disposal establishment to:

1. Determine whether the cremated remains are those of a veteran if the funeral or direct disposal establishment is informed by a legally authorized person that the decedent was not a veteran.

2. Relinquish possession of the cremated remains to a veterans' service organization if the funeral or direct disposal establishment is informed by a legally authorized person that the decedent did not desire any funeral, ceremony, or interment-related services recognizing the decedent's service as a veteran.

(e) For purposes of this subsection, the term:

1. "Reasonable effort" includes contacting the National Cemetery Scheduling Office, the county veterans service office, the regional office of the United States Department of Veterans Affairs, or a veterans' service organization.

2. "Veterans' service organization" means an association, corporation, or other entity that qualifies under s. 501(c)(3) or s. 501(c)(19) of the Internal Revenue Code as a tax-exempt organization, that is organized for the benefit of veterans' burial and interment, and that is recognized by the Memorial Affairs Division of the United States Department of Veterans Affairs. The term includes a member or employee of an eligible nonprofit veterans' corporation, association, or entity that specifically assists in facilitating the identification, recovery, and interment of the unclaimed cremated remains of veterans.

Section 20. Subsection (1) of section 765.513, Florida Statutes, is amended to read:

765.513 Donees; purposes for which anatomical gifts may be

made.—

(1) The following persons or entities may become donees of anatomical gifts of bodies or parts of them for the purposes stated:

(a) Any procurement organization or accredited medical or dental school, college, or university for education, research, therapy, or transplantation.

(b) Any individual specified by name for therapy or transplantation needed by him or her.

(c) The anatomical board or a nontransplant anatomical donation organization, as defined in s. 406.49, for donation of the whole body for medical or dental education or research.

Section 21. Section 406.54, Florida Statutes, is repealed.

Section 22. This act shall take effect July 1, 2013.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/SB 410 (783148)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on General Government) and Senator Bean
SUBJECT:	Money Services Businesses
DATE:	April 20, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Johnson	Burgess	BI	**Favorable**
2.	Davis	DeLoach	AGG	**Fav/CS**
3.	Davis	Hansen	AP	**Pre-meeting**
4.				
5.				
6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

PCS/SB 410 provides for the establishment of a check-cashing database within the Office of Financial Regulation (OFR) for regulators and law enforcement to access in order to target and identify persons involved in workers' compensation insurance premium fraud and other criminal activities documented in a statewide grand jury report and a subsequent Chief Financial Officer Work Group. The OFR regulates money services businesses (MSBs) that offer financial services, such as check cashing, money transmittals (wire transfers), sales of monetary instruments, and currency exchange outside the traditional banking environment. Currently, licensed check cashers are required to maintain specified records, such as copies of all checks cashed, and for checks exceeding $1,000, certain transactional data in an electronic log. These records are reviewed as part of OFR's examination authority under ch. 560, F.S.

After completion of the competitive solicitation for the database, the OFR may include a request for funding in their FY 2014-2015 Legislative Budget Request. The bill has no fiscal impact on state government for the 2013-2014 fiscal year.

The bill authorizes the OFR to issue a competitive solicitation for a statewide, real time, on-line check cashing database. The bill requires that check cashers, after implementation of the new check cashing database, to enter specified transactional information into the database.

This bill amends section 560.310, Florida Statutes.

II. Present Situation:

The Office of Financial Regulation (OFR) is responsible for safeguarding the financial interests of the public by licensing, examining, and regulating depository institutions and other entities, such as money service businesses, which are subject to the provisions of ch. 560, F.S.

Licensure of Check Cashers

Money service businesses are licensed under two license categories. Money transmitters and payment instrument issuers are licensed under part II of ch. 560, F.S., while check cashers and foreign currency exchangers are licensed under part III. Current law provides that the requirement for licensure does not apply to a person cashing payment instruments that have an aggregate face value of less than $2,000 per person, per day and that are incidental to the retail sale of goods or services, within certain parameters.[1] Deferred presentment providers (DPPs; commonly known as payday lenders) are subject to regulation under part II or part III and part IV of chapter 560, F.S.[2] As of February 27, 2013, OFR indicated there were 159 companies in Florida that had filed a notice of intent with OFR to engage in deferred presentment transactions. In addition, 1,115 companies were licensed to conduct check-cashing transactions.[3]

Check Cashing Fees

Check cashers are limited in the fees they may charge. By law, a check casher may not charge fees:

- In excess of 5 percent of the face amount of the payment instrument, or $5, whichever is greater.
- In excess of 3 percent of the face amount of the payment instrument, or $5, whichever is greater, if the payment instrument is any kind of state public assistance or federal social security benefit.
- For personal checks or money orders in excess of 10 percent of the face amount of those payment instruments, or $5, whichever is greater.[4]

In addition, check cashers are authorized to collect a fee linked to the direct costs of verifying a customer's identity or employment. That fee, established by rule,[5] may not exceed $5. Rule 69V-560.801, F.A.C., provides:

[1] Section 560.304, F.S.
[2] Section 560.403, F.S., provides a DPP is required to be licensed under part II or part III of chapter 560, F.S., and have on file with the OFR a declaration of intent to engage in deferred presentment transactions.
[3] Information provided by OFR on March 29, 2013, and on file with Banking and Insurance Committee Staff.
[4] Section 560.309(8), F.S.
[5] Id.

- In addition to the fees established in s. 560.309(8), F.S., a check casher or deferred presentment provider may collect the direct costs associated with verifying a payment instrument holder's identity, residence, employment, credit history, account status, or other necessary information, including the verification of a drawer's status on the OFR's administered database for DPP transactions prior to cashing the payment instrument or accepting a personal check in connection with a DPP transaction. Such verification fee shall be collected only when verification is conducted and shall not exceed $5 per transaction. For example, a check casher may not charge a drawer more than one (1) verification fee per day, regardless of whether the check casher is cashing or has cashed more than one (1) of the drawer's payment instruments that day.
- For purposes of s. 560.309(8), F.S., and this rule, the "direct costs of verification" are the costs that are allocated by the provider to a particular function or are readily ascertainable based upon standard commercial practices and include internal staff and infrastructure costs incurred by the provider in performing the verification function and payments to third party vendors who provide verification related services.

Section 560.1105, F.S., requires each licensee and its authorized vendors to maintain specified records for a minimum of five years. In addition, s. 560.310, F.S., requires check casher licensees to maintain customer files on all customers cashing corporate instruments exceeding $1,000. Rule 69V-560.704, F.A.C., requires licensees to maintain a copy of the original payment instrument, a copy of the customer's personal identification presented at the time of acceptance, and customer files for those cashing corporate and third party payment instruments. Further, the rule requires that for payment instruments of $1,000 or more, the check casher must maintain an electronic log of payment instruments accepted, which includes, at a minimum, the following information:

- Transaction date,
- Payor name,
- Payee name,
- Conductor name, if other than the payee,
- Amount of payment instrument,
- Amount of currency provided,
- Type of payment instrument (personal, payroll, government, corporate, third-party, or other),
- Fee charged for the cashing of the payment instrument,
- Location where instrument was accepted, and
- Identification type and number presented by customer.

Licensees must maintain this information in an electronic format that is "readily retrievable and capable of being exported to most widely available software applications including Microsoft Excel." This information was intended to be reviewed during OFR's examination process. While this can be useful, it does not allow regulators and law enforcement to analyze information in a "real time" format through a central database, for the purpose of identifying and targeting persons engaged in violations of ch. 560, F.S., or other unlawful activity.

Workers' Compensation Insurance Fraud

In recent years, unscrupulous contractors and check cashers have colluded on a scheme allowing these contractors to hide their payroll and obtain workers' compensation coverage without purchasing such coverage. In addition to the workers' compensation fraud, these contractors are avoiding the payment of state and federal taxes. For their participation and risk, the check cashers may receive a fee of 7 percent of the value of the check or more for cashing the checks, which exceeds the statutory limit check cashers are allowed to charge.[6]

In August 2007, the Supreme Court of Florida ordered the empanelment of a statewide grand jury to investigate various criminal offenses, including activities relating to check cashers. In 2008, the grand jury issued its report: *Check Cashers: A Call for Enforcement*. The Statewide Grand Jury report described a typical scheme.[7] First, a "shell" company is formed in the name of a nominee owner, often a temporary resident of the United States. This company has no real operations or employees. This shell company will then buy a minimum premium policy to procure the certificate of insurance that the contractor needs to document proof of workers' compensation insurance coverage. A certificate of insurance does not show the amount of coverage because the number and class code of employees can vary throughout the year. The contractor then writes checks to this shell company playing the part of the phony subcontractor.

According to the statewide grand jury report, one indicted Miami check casher created mobile check cashing units that would provide check cashing at the contractor's construction site. In reality, the contractor is actually cashing the check that he or she has just written to the phony company and taking the cash back to pay his employees without maintaining any documentation regarding the actual payroll. On paper, however, it appears the contractor is paying another company for their work on the project. According to the statewide grand jury, the amount of these checks is usually over the $10,000 limit and must be reported on a Currency Transaction Report (CTR) to the federal government.[8] The check casher actively participates in this scheme by either falsifying the CTR, claiming to have paid the money out to the phony subcontractor, or, in some cases, dispensing with the CTR altogether. Both of these actions are third degree felonies. In 2008, the Legislature enacted major reforms recommended in the report to provide greater regulatory and enforcement tools for the OFR. However, the fraud continues.

The dollar magnitude of this fraud is tremendous. For example, the Division of Insurance Fraud of the Department of Financial Services collaborated with the North Florida High Intensity Drug Trafficking Area (HIDTA) Task Force in 2011 on a case that targeted individuals who were running a shell company scheme using undocumented foreign national laborers to avoid paying workers' compensation insurance premiums and federal and state taxes. The suspects were documented to have cashed checks totaling approximately $4 million at a check-cashing store to

[6] *Check Cashers: A Call for Enforcement*, Eighteenth Statewide Grand Jury, Case No. SC 07-1128, Second Interim Report of the Statewide Grand Jury, March 2008.
[7] *Id.*
[8] The U.S. Department of Treasury has adopted regulations to implement the provisions of the Bank Secrecy Act under 31 C.F.R. s. 103, which requires MSBs to maintain certain records and report certain currency transactions and suspicious activities. For example, cash transaction reports (CTRs) are required to be filed for cash transactions involving more than $10,000. Section 560.1235, F.S., requires MSBs to comply with all state and federal laws relating to the detection and prevention of money laundering.

pay the workers under the table. The suspects were arrested; three vehicles and $67,000 in cash were seized.

Typically, the insurance company will attempt to conduct a premium audit of an insured, such as the shell company, after the end of the policy year. However, by this time, the shell company has ceased operating and the nominee owner has disappeared, having usually gone back to his home country. If any workers' compensation claims occur, the insurer is forced to try to offset such costs by increasing rates on legitimate contractors who secure adequate coverage.

In 2011, the Chief Financial Officer formed the Money Service Business Facilitated Workers' Compensation Work Group (work group) to study the issue of workers' compensation insurance premium fraud facilitated by check cashers. Subsequently, in 2012, legislation[9] was enacted that incorporated consensus recommendations of the work group. These changes increase the regulatory oversight of MSBs and provide greater prevention, detection, and prosecution of workers' compensation premium fraud by:

- Requiring licensees to maintain and deposit all checks accepted into a bank account in its own name and to report the termination of bank accounts to the OFR within five business days.
- Prohibiting any money services business, its authorized vendor, or affiliated party from possessing any fraudulent identification paraphernalia, or for someone other than the person who is presenting the check for payment to provide the customer's personal identification information to the check casher. A person who willfully violates these provisions commits a felony of the third degree.
- Authorizing the OFR to issue a cease and desist order, to issue a removal order, to deny, suspend, or revoke a license, or to take any other action permitted by ch. 560, F.S., for failing to maintain a federally insured depository account, deposit all checks accepted into a depository account or submit transactional information to the office.
- Requiring a licensee to suspend its check cashing operations immediately if there is any interruption in its depository relationship and to prohibit the resumption of check cashing operations until the licensee has secured a new depository relationship.

The work group also recommended the establishment of a statewide database for regulators and law enforcement to access for the detection of workers' compensation insurance fraud.

Deferred Presentment Provider Database

Part IV of chapter 560, F.S., regulates deferred presentment providers (DPPs). Section 560.404, F.S., requires payday lenders to access a database that is maintained by an OFR service provider. This database allows DPPs to comply with s. 560.404(19), F.S., which prohibits a DPP from entering into a deferred presentment agreement with a customer if the customer already has an outstanding deferred presentment agreement, or terminated an agreement within the previous 24 hours. Section 560.404(23), F.S., specifies that DPPs can charge $1 for each transaction, which partly supports the operation and maintenance of the database and partly supports the OFR's regulatory functions.

[9] Ch. 2012-85, L.O.F.

III. Effect of Proposed Changes:

The bill authorizes the OFR to issue a competitive solicitation for a statewide, real time, on-line check cashing database. Upon implementation of the database, check cashers are required to enter specified transactional information into the real-time, online database for payment instruments exceeding $1,000. The transactional information is substantially similar to what check cashers are currently required to maintain in electronic logs, with the addition of a payee's workers' compensation insurance policy or exemption certificate number and any additional information required by rule. In addition, the bill requires the OFR to ensure that the database would interface with databases maintained by the DFS, for purposes of determining proof of coverage for workers' compensation and by the Secretary of State for purposes of verifying corporate registration and articles of incorporation.

The bill provides that after completing the competitive solicitation, but prior to execution of any contract, the OFR may request funds in the Fiscal Year 2014-2015 Legislative Budget Request and submit any necessary draft legislation needed to implement the act.

The bill also grants rulemaking authority to the Financial Services Commission to administer the section, to require additional information to be submitted into the database, and to ensure that licensees are using the database in accordance with the section.

The act will take effect July 1, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The database will aid in the detection and deterrence of unscrupulous contractors committing workers' compensation insurance fraud, thereby creating a more level playing field for legitimate contractors. The database may also reduce some administrative burden for licensees.

C. Government Sector Impact:

The bill will provide regulators and law enforcement with additional enforcement tools to detect and prosecute workers' compensation insurance fraud and other criminal activities.

The bill has no fiscal impact on state or local government.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS by Appropriations Subcommittee on General Government on April 17, 2013:
The committee substitute:

- Authorizes the OFR to issue a competitive solicitation for a statewide, real time, on-line check cashing database.
- Lists requirements for the types of data to be input into the database upon implementation.
- Authorizes the Financial Services Commission to adopt rules to administer this section of law.
- Deletes the term "database" and its definition.
- Deletes authority of the Financial Services Commission to use up to $0.25 of an existing fee authorized for the operation of the deferred presentment database for the use of implementing and operating the check-cashing database.
- Deletes language that is substantially similar to language in current statute under s. 560.404(23), F.S., regarding a DPP's reliance on database information and the right of a DPP to enforce deferred presentment agreements. This language is inapplicable to the check-cashing context.

B. Amendments:

None.

783148

576-04582-13

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on General Government)

A bill to be entitled

An act relating to money services businesses; amending s. 560.310, F.S.; requiring licensees engaged in check cashing to submit certain transaction information to the Office of Financial Regulation related to the payment instruments cashed; requiring the office to maintain the transaction information in a centralized check cashing database; requiring the office to issue a competitive solicitation for a database to maintain certain transaction information relating to check cashing; authorizing the office to request funds and to submit draft legislation after certain requirements are met; authorizing the Financial Services Commission to adopt rules; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 560.310, Florida Statutes, is amended to read:

560.310 Records of check cashers and foreign currency exchangers.—

(1) A licensee engaged in check cashing must maintain for the period specified in s. 560.1105 a copy of each payment instrument cashed.

(2) If the payment instrument exceeds $1,000, the following additional information must be maintained or submitted:

(a) Customer files, as prescribed by rule, on all customers

783148

576-04582-13

who cash corporate payment instruments that exceed $1,000.

(b) A copy of the personal identification that bears a photograph of the customer used as identification and presented by the customer. Acceptable personal identification is limited to a valid driver license; a state identification card issued by any state of the United States or its territories or the District of Columbia, and showing a photograph and signature; a United States Government Resident Alien Identification Card; a passport; or a United States Military identification card.

(c) A thumbprint of the customer taken by the licensee when the payment instrument is presented for negotiation or payment.

(d) The office shall, at a minimum, require licensees to submit the following information to the check cashing database or electronic log, before entering into each check cashing transaction for each ~~A~~ payment instrument being cashed, in such format as required ~~log that must be maintained electronically as prescribed~~ by rule:

1. Transaction date.

2. Payor name as displayed on the payment instrument.

3. Payee name as displayed on the payment instrument.

4. Conductor name, if different from the payee name.

5. Amount of the payment instrument.

6. Amount of currency provided.

7. Type of payment instrument, which may include personal, payroll, government, corporate, third-party, or another type of instrument.

8. Amount of the fee charged for cashing of the payment instrument.

9. Branch or location where the payment instrument was

accepted.

10. The type of identification and identification number presented by the payee or conductor.

11. Payee's workers' compensation insurance policy number or exemption certificate number, if the payee is a business.

12. Such additional information as required by rule.

For purposes of this subsection ~~paragraph~~, multiple payment instruments accepted from any one person on any given day which total $1,000 or more must be aggregated and reported in ~~on~~ the check cashing database or on the log.

(3) A licensee under this part may engage the services of a third party that is not a depository institution for the maintenance and storage of records required by this section if all the requirements of this section are met.

(4) The office shall issue a competitive solicitation as provided in s. 287.057 for a statewide, real time, online check cashing database to combat fraudulent check cashing activity. After completing the competitive solicitation process, but before executing a contract, the office may request funds in its 2014-2015 fiscal year legislative budget request and submit necessary draft conforming legislation, if needed, to implement this act.

(5) The office shall ensure that the check cashing database:

(a) Provides an interface with the Secretary of State's database for purposes of verifying corporate registration and articles of incorporation pursuant to this section.

(b) Provides an interface with the Department of Financial

Services' database for purposes of determining proof of coverage for workers' compensation.

(6) The commission may adopt rules to administer this section, require that additional information be submitted to the check cashing database, and ensure that the database is used by the licensee in accordance with this section.

Section 2. This act shall take effect July 1, 2013.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 410

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/SB 410 provides for the establishment of a check-cashing database within the Office of Financial Regulation (OFR) for regulators and law enforcement to access in order to target and identify persons involved in workers' compensation insurance premium fraud and other criminal activities documented in a statewide grand jury report and a subsequent Chief Financial Officer Work Group. The OFR regulates money services businesses (MSBs) that offer financial services, such as check cashing, money transmittals (wire transfers), sales of monetary instruments, and currency exchange outside the traditional banking environment. Currently, licensed check cashers are required to maintain specified records, such as copies of all checks cashed, and for checks exceeding $1,000, certain transactional data in an electronic log. These records are reviewed as part of OFR's examination authority under ch. 560, F.S.

After completion of the competitive solicitation for the database, the OFR may include a request for funding in their FY 2014-2015 Legislative Budget Request. The bill has no fiscal impact on state government for the 2013-2014 fiscal year.

The bill authorizes the OFR to issue a competitive solicitation for a statewide, real time, on-line check cashing database. The bill requires that check cashers, after implementation of the new check cashing database, to enter specified transactional information into the database.

This bill amends section 560.310, Florida Statutes.

II. Present Situation:

The Office of Financial Regulation (OFR) is responsible for safeguarding the financial interests of the public by licensing, examining, and regulating depository institutions and other entities, such as money service businesses, which are subject to the provisions of ch. 560, F.S.

Licensure of Check Cashers

Money service businesses are licensed under two license categories. Money transmitters and payment instrument issuers are licensed under part II of ch. 560, F.S., while check cashers and foreign currency exchangers are licensed under part III. Current law provides that the requirement for licensure does not apply to a person cashing payment instruments that have an aggregate face value of less than $2,000 per person, per day and that are incidental to the retail sale of goods or services, within certain parameters.[1] Deferred presentment providers (DPPs; commonly known as payday lenders) are subject to regulation under part II or part III and part IV of chapter 560, F.S.[2] As of February 27, 2013, OFR indicated there were 159 companies in Florida that had filed a notice of intent with OFR to engage in deferred presentment transactions. In addition, 1,115 companies were licensed to conduct check-cashing transactions.[3]

Check Cashing Fees

Check cashers are limited in the fees they may charge. By law, a check casher may not charge fees:

- In excess of 5 percent of the face amount of the payment instrument, or $5, whichever is greater.
- In excess of 3 percent of the face amount of the payment instrument, or $5, whichever is greater, if the payment instrument is any kind of state public assistance or federal social security benefit.
- For personal checks or money orders in excess of 10 percent of the face amount of those payment instruments, or $5, whichever is greater.[4]

In addition, check cashers are authorized to collect a fee linked to the direct costs of verifying a customer's identity or employment. That fee, established by rule,[5] may not exceed $5. Rule 69V-560.801, F.A.C., provides:

[1] Section 560.304, F.S.
[2] Section 560.403, F.S., provides a DPP is required to be licensed under part II or part III of chapter 560, F.S., and have on file with the OFR a declaration of intent to engage in deferred presentment transactions.
[3] Information provided by OFR on March 29, 2013, and on file with Banking and Insurance Committee Staff.
[4] Section 560.309(8), F.S.
[5] Id.

- In addition to the fees established in s. 560.309(8), F.S., a check casher or deferred presentment provider may collect the direct costs associated with verifying a payment instrument holder's identity, residence, employment, credit history, account status, or other necessary information, including the verification of a drawer's status on the OFR's administered database for DPP transactions prior to cashing the payment instrument or accepting a personal check in connection with a DPP transaction. Such verification fee shall be collected only when verification is conducted and shall not exceed $5 per transaction. For example, a check casher may not charge a drawer more than one (1) verification fee per day, regardless of whether the check casher is cashing or has cashed more than one (1) of the drawer's payment instruments that day.
- For purposes of s. 560.309(8), F.S., and this rule, the "direct costs of verification" are the costs that are allocated by the provider to a particular function or are readily ascertainable based upon standard commercial practices and include internal staff and infrastructure costs incurred by the provider in performing the verification function and payments to third party vendors who provide verification related services.

Section 560.1105, F.S., requires each licensee and its authorized vendors to maintain specified records for a minimum of five years. In addition, s. 560.310, F.S., requires check casher licensees to maintain customer files on all customers cashing corporate instruments exceeding $1,000. Rule 69V-560.704, F.A.C., requires licensees to maintain a copy of the original payment instrument, a copy of the customer's personal identification presented at the time of acceptance, and customer files for those cashing corporate and third party payment instruments. Further, the rule requires that for payment instruments of $1,000 or more, the check casher must maintain an electronic log of payment instruments accepted, which includes, at a minimum, the following information:

- Transaction date,
- Payor name,
- Payee name,
- Conductor name, if other than the payee,
- Amount of payment instrument,
- Amount of currency provided,
- Type of payment instrument (personal, payroll, government, corporate, third-party, or other),
- Fee charged for the cashing of the payment instrument,
- Location where instrument was accepted, and
- Identification type and number presented by customer.

Licensees must maintain this information in an electronic format that is "readily retrievable and capable of being exported to most widely available software applications including Microsoft Excel." This information was intended to be reviewed during OFR's examination process. While this can be useful, it does not allow regulators and law enforcement to analyze information in a "real time" format through a central database, for the purpose of identifying and targeting persons engaged in violations of ch. 560, F.S., or other unlawful activity.

Workers' Compensation Insurance Fraud

In recent years, unscrupulous contractors and check cashers have colluded on a scheme allowing these contractors to hide their payroll and obtain workers' compensation coverage without purchasing such coverage. In addition to the workers' compensation fraud, these contractors are avoiding the payment of state and federal taxes. For their participation and risk, the check cashers may receive a fee of 7 percent of the value of the check or more for cashing the checks, which exceeds the statutory limit check cashers are allowed to charge.[6]

In August 2007, the Supreme Court of Florida ordered the empanelment of a statewide grand jury to investigate various criminal offenses, including activities relating to check cashers. In 2008, the grand jury issued its report: *Check Cashers: A Call for Enforcement*. The Statewide Grand Jury report described a typical scheme.[7] First, a "shell" company is formed in the name of a nominee owner, often a temporary resident of the United States. This company has no real operations or employees. This shell company will then buy a minimum premium policy to procure the certificate of insurance that the contractor needs to document proof of workers' compensation insurance coverage. A certificate of insurance does not show the amount of coverage because the number and class code of employees can vary throughout the year. The contractor then writes checks to this shell company playing the part of the phony subcontractor.

According to the statewide grand jury report, one indicted Miami check casher created mobile check cashing units that would provide check cashing at the contractor's construction site. In reality, the contractor is actually cashing the check that he or she has just written to the phony company and taking the cash back to pay his employees without maintaining any documentation regarding the actual payroll. On paper, however, it appears the contractor is paying another company for their work on the project. According to the statewide grand jury, the amount of these checks is usually over the $10,000 limit and must be reported on a Currency Transaction Report (CTR) to the federal government.[8] The check casher actively participates in this scheme by either falsifying the CTR, claiming to have paid the money out to the phony subcontractor, or, in some cases, dispensing with the CTR altogether. Both of these actions are third degree felonies. In 2008, the Legislature enacted major reforms recommended in the report to provide greater regulatory and enforcement tools for the OFR. However, the fraud continues.

The dollar magnitude of this fraud is tremendous. For example, the Division of Insurance Fraud of the Department of Financial Services collaborated with the North Florida High Intensity Drug Trafficking Area (HIDTA) Task Force in 2011 on a case that targeted individuals who were running a shell company scheme using undocumented foreign national laborers to avoid paying workers' compensation insurance premiums and federal and state taxes. The suspects were documented to have cashed checks totaling approximately $4 million at a check-cashing store to

[6] *Check Cashers: A Call for Enforcement*, Eighteenth Statewide Grand Jury, Case No. SC 07-1128, Second Interim Report of the Statewide Grand Jury, March 2008.
[7] *Id.*
[8] The U.S. Department of Treasury has adopted regulations to implement the provisions of the Bank Secrecy Act under 31 C.F.R. s. 103, which requires MSBs to maintain certain records and report certain currency transactions and suspicious activities. For example, cash transaction reports (CTRs) are required to be filed for cash transactions involving more than $10,000. Section 560.1235, F.S., requires MSBs to comply with all state and federal laws relating to the detection and prevention of money laundering.

pay the workers under the table. The suspects were arrested; three vehicles and $67,000 in cash were seized.

Typically, the insurance company will attempt to conduct a premium audit of an insured, such as the shell company, after the end of the policy year. However, by this time, the shell company has ceased operating and the nominee owner has disappeared, having usually gone back to his home country. If any workers' compensation claims occur, the insurer is forced to try to offset such costs by increasing rates on legitimate contractors who secure adequate coverage.

In 2011, the Chief Financial Officer formed the Money Service Business Facilitated Workers' Compensation Work Group (work group) to study the issue of workers' compensation insurance premium fraud facilitated by check cashers. Subsequently, in 2012, legislation[9] was enacted that incorporated consensus recommendations of the work group. These changes increase the regulatory oversight of MSBs and provide greater prevention, detection, and prosecution of workers' compensation premium fraud by:

- Requiring licensees to maintain and deposit all checks accepted into a bank account in its own name and to report the termination of bank accounts to the OFR within five business days.
- Prohibiting any money services business, its authorized vendor, or affiliated party from possessing any fraudulent identification paraphernalia, or for someone other than the person who is presenting the check for payment to provide the customer's personal identification information to the check casher. A person who willfully violates these provisions commits a felony of the third degree.
- Authorizing the OFR to issue a cease and desist order, to issue a removal order, to deny, suspend, or revoke a license, or to take any other action permitted by ch. 560, F.S., for failing to maintain a federally insured depository account, deposit all checks accepted into a depository account or submit transactional information to the office.
- Requiring a licensee to suspend its check cashing operations immediately if there is any interruption in its depository relationship and to prohibit the resumption of check cashing operations until the licensee has secured a new depository relationship.

The work group also recommended the establishment of a statewide database for regulators and law enforcement to access for the detection of workers' compensation insurance fraud.

Deferred Presentment Provider Database

Part IV of chapter 560, F.S., regulates deferred presentment providers (DPPs). Section 560.404, F.S., requires payday lenders to access a database that is maintained by an OFR service provider. This database allows DPPs to comply with s. 560.404(19), F.S., which prohibits a DPP from entering into a deferred presentment agreement with a customer if the customer already has an outstanding deferred presentment agreement, or terminated an agreement within the previous 24 hours. Section 560.404(23), F.S., specifies that DPPs can charge $1 for each transaction, which partly supports the operation and maintenance of the database and partly supports the OFR's regulatory functions.

[9] Ch. 2012-85, L.O.F.

III. Effect of Proposed Changes:

The bill authorizes the OFR to issue a competitive solicitation for a statewide, real time, on-line check cashing database. Upon implementation of the database, check cashers are required to enter specified transactional information into the real-time, online database for payment instruments exceeding $1,000. The transactional information is substantially similar to what check cashers are currently required to maintain in electronic logs, with the addition of a payee's workers' compensation insurance policy or exemption certificate number and any additional information required by rule. In addition, the bill requires the OFR to ensure that the database would interface with databases maintained by the DFS, for purposes of determining proof of coverage for workers' compensation and by the Secretary of State for purposes of verifying corporate registration and articles of incorporation.

The bill provides that after completing the competitive solicitation, but prior to execution of any contract, the OFR may request funds in the Fiscal Year 2014-2015 Legislative Budget Request and submit any necessary draft legislation needed to implement the act.

The bill also grants rulemaking authority to the Financial Services Commission to administer the section, to require additional information to be submitted into the database, and to ensure that licensees are using the database in accordance with the section.

The act will take effect July 1, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The database will aid in the detection and deterrence of unscrupulous contractors committing workers' compensation insurance fraud, thereby creating a more level playing field for legitimate contractors. The database may also reduce some administrative burden for licensees.

C. Government Sector Impact:

The bill will provide regulators and law enforcement with additional enforcement tools to detect and prosecute workers' compensation insurance fraud and other criminal activities.

The bill has no fiscal impact on state or local government.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations on April 23, 2013:
The committee substitute:

- Authorizes the OFR to issue a competitive solicitation for a statewide, real time, on-line check cashing database.
- Lists requirements for the types of data to be input into the database upon implementation.
- Authorizes the Financial Services Commission to adopt rules to administer this section of law.
- Deletes the term "database" and its definition.
- Deletes authority of the Financial Services Commission to use up to $0.25 of an existing fee authorized for the operation of the deferred presentment database for the use of implementing and operating the check-cashing database.
- Deletes language that is substantially similar to language in current statute under s. 560.404(23), F.S., regarding a DPP's reliance on database information and the right of a DPP to enforce deferred presentment agreements. This language is inapplicable to the check-cashing context.

B. Amendments:

None.

By Senator Bean

4-00749-13 2013410__

A bill to be entitled

An act relating to money services businesses; amending s. 560.103, F.S.; providing a definition; amending s. 560.309, F.S.; authorizing the Financial Services Commission to use a portion of the fees that licensees may charge for the direct costs of verification of payment instruments cashed for certain purposes; amending s. 560.310, F.S.; requiring licensees engaged in check cashing to submit certain transaction information to the Office of Financial Regulation related to the payment instruments cashed; requiring the office to maintain the transaction information in a centralized database; providing liability protection for licensees relying on database information; providing rulemaking authority; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Present subsections (12) through (35) of section 560.103, Florida Statutes, are renumbered as subsections (13) through (36), respectively, and a new subsection (12) is added to that section, to read:

560.103 Definitions.—As used in this chapter, the term:

(12) "Database" means the common database implemented pursuant to s. 560.404(23).

Section 2. Subsection (8) of section 560.309, Florida Statutes, is amended, present subsections (9) and (10) of that section are renumbered as subsections (10) and (11),

4-00749-13 2013410__

respectively, and a new subsection (9) is added to that section, to read:

560.309 Conduct of business.—

(8) Exclusive of the direct costs of verification and database submission, which shall be established by rule not to exceed $5, a check casher may not:

(a) Charge fees, except as otherwise provided by this part, in excess of 5 percent of the face amount of the payment instrument, or $5, whichever is greater;

(b) Charge fees in excess of 3 percent of the face amount of the payment instrument, or $5, whichever is greater, if such payment instrument is the payment of any kind of state public assistance or federal social security benefit payable to the bearer of the payment instrument; or

(c) Charge fees for personal checks or money orders in excess of 10 percent of the face amount of those payment instruments, or $5, whichever is greater.

(9) The commission may, by rule, use up to $0.25 of an existing fee authorized under s. 560.404(23) for data that must be submitted by a licensee for purposes of the operation and maintenance of the database.

Section 3. Section 560.310, Florida Statutes, is amended to read:

560.310 Records of check cashers and foreign currency exchangers.—

(1) A licensee engaged in check cashing must maintain for the period specified in s. 560.1105 a copy of each payment instrument cashed.

(2) If the payment instrument exceeds $1,000, the following

additional information must be maintained:

(a) Customer files, as prescribed by rule, on all customers who cash corporate payment instruments that exceed $1,000.

(b) A copy of the personal identification that bears a photograph of the customer used as identification and presented by the customer. Acceptable personal identification is limited to a valid driver license; a state identification card issued by any state of the United States or its territories or the District of Columbia, and showing a photograph and signature; a United States Government Resident Alien Identification Card; a passport; or a United States Military identification card.

(c) A thumbprint of the customer taken by the licensee when the payment instrument is presented for negotiation or payment.

(d) A payment instrument log that must be maintained electronically as prescribed by rule. For purposes of this paragraph, multiple payment instruments accepted from any one person on any given day which total $1,000 or more must be aggregated and reported on the log.

(e) The office shall require licensees to submit the following information to the database, which must be accessible to the office and the licensee in order to submit all transactional check cashing data, before entering into each check cashing transaction for all checks being cashed in such format as required by rule:

1. Transaction date.

2. Payor name.

3. Payee name.

4. Customer name, if different from the payee name.

5. Amount of the payment instrument.

6. Amount of currency provided.

7. Type of payment instrument, which may include personal, payroll, government, corporate, third-party, or another type of instrument.

8. Amount of the fee charged for cashing the payment instrument.

9. Branch or location where the payment instrument was accepted.

10. The type of identification and identification number presented by the payee or customer.

11. Payee's workers' compensation insurance policy number, if the payee is a business.

(3) A licensee under this part may engage the services of a third party that is not a depository institution for the maintenance and storage of records required by this section if all the requirements of this section are met.

(4) The office shall ensure that the database:

(a) Provides an interface with the Secretary of State's database for purposes of verifying corporate registration and articles of incorporation pursuant to this section.

(b) Provides an interface with the Department of Financial Services' database for purposes of determining proof of coverage for workers' compensation.

(c) Maintains an electronic log of the sale or issuance of payment instruments pursuant to this section.

(5) A licensee may rely on the information contained in the database as accurate, and such licensee is not subject to any administrative penalty or civil liability due to relying on inaccurate information contained in the database.

(6) This section does not affect the rights of the licensee to enforce the contractual provisions of the money service business agreements through any civil action allowed by law. The office may adopt rules to administer this section, require that additional information be submitted to the database, and ensure that the database is used by the licensee in accordance with this section.

Section 4. This act shall take effect July 1, 2013.

5.				
6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/CS/CS/SB 500 strengthens the regulation of massage establishments. The bill requires the denial of a massage establishment license upon a finding that an owner, officer, director, or managing employee of an applicant has been arrested, is awaiting final disposition, or has been convicted, of certain offenses listed in s. 435.04(2), F.S., or a similar law in another jurisdiction. The bill provides that denial of a license or a disciplinary action may be based on advertising with the intent to induce a client to engage in sexual activity, or to engage or attempt to engage a client in sexual activity.

The bill has an insignificant fiscal impact on the Department of Health. In addition, the bill has an insignificant impact on the prison population and a minimal impact, if any, on the community supervision population. See Section V.

The bill creates s. 480.0475, F.S., to prohibit the operation of massage establishments between the hours of midnight and 5 a.m., with certain exemptions based on location of the facility or the type of supervision over those persons performing massages. This section also prohibits the use of a massage establishment as a principal domicile in areas that are not zoned for residential use

by local ordinance. A first violation of these provisions is a misdemeanor of the first degree and a subsequent violation is a felony of the third degree.

Certain massage establishments that violate the bill's provisions pertaining to hours of operation or residential use or the identification provisions currently required of persons practicing massage in a massage establishment can be declared nuisances that may be abated or enjoined pursuant to Florida law.

The bill expands the definition of 'Board-approved massage school' to include a college or university that is eligible to participate in the Florida Resident Access Grant Program.

The bill provides an October 1, 2013 effective date.

The bill amends sections 480.033, 480.043, 480.046, 480.047, 480.052, and 823.05, Florida Statutes. The bill creates section 480.0475, Florida Statutes.

II. Present Situation:

Massage Practice Act

Chapter 480, F.S., the "Massage Practice Act," (Act) regulates the practice of massage. "Massage" is defined as the manipulation of the soft tissues of the human body with the hand, foot, arm, or elbow, whether or not such manipulation is aided by hydrotherapy, including colonic irrigation, or thermal therapy; any electrical or mechanical device; or the application to the human body of a chemical or herbal preparation.[1]

A person must apply to the Board of Massage Therapy (Board) within the Department of Health (DOH) for approval to practice massage or to operate a massage establishment.[2] A massage therapist is a person licensed to administer massages for compensation,[3] and a massage establishment is a site or premises, or portion thereof, wherein a massage therapist practices massage.[4]

Section 480.046(1), F.S., specifies numerous grounds for disciplinary action by the Board,[5] including the following acts that are grounds for denial of a license or disciplinary action:

- Attempting to procure a license by bribery or fraudulent misrepresentation;
- Having a license to practice massage denied, revoked, suspended, or otherwise acted against by the licensing authority of another state, territory, or country;
- Being convicted, found guilty or entering a plea of nolo contendere, regardless of adjudication, of a crime in any jurisdiction which directly relates to the practice of massage or to the ability to practice massage;
- False, deceptive, or misleading advertising;

[1]Section 480.033(3), F.S.
[2]See ss. 480.041 and 480.043, F.S.
[3]Section 480.033(4), F.S.
[4]Section 480.033(7), F.S.
[5]Section 480.046, F.S.

- Aiding, assisting, procuring, or advising any unlicensed person to practice massage in violation of the act or a rule of the DOH or the Board;
- Making deceptive, untrue, or fraudulent representations in the practice of massage;
- Being unable to practice massage with reasonable skill and safety because of illness or use of alcohol, drugs, narcotics, chemicals, or any other type of material, or due to any mental or physical condition;
- Gross or repeated malpractice or the failure to practice massage with that level of care, skill, and treatment which is recognized by a reasonably prudent massage therapist as being acceptable under similar conditions and circumstances;
- Practicing or offering to practice beyond the scope permitted by law or accepting and performing professional responsibilities which the licensee knows or has reason to know that she or he is not competent to perform;
- Delegating professional responsibilities to a person when the licensee delegating such responsibilities knows or has reason to know that such person is not qualified by training, experience, or licensure to perform;
- Violating a lawful order of the Board or the DOH previously entered in a disciplinary hearing, or failing to comply with a lawfully issued subpoena of the DOH;
- Refusing to permit the DOH to inspect the business premises of the licensee during regular business hours;
- Failing to keep the equipment and premises of the massage establishment in a clean and sanitary condition;
- Practicing massage at a site, location, or place which is not licensed as a massage establishment, excepting certain services permitted by Board rule, at the residence or office of a client, at a sports event, at a convention, or at a trade show; or
- Violating any provision of the Act, ch. 456, F.S., regarding Health Professions and Occupations, or any rules adopted pursuant to these laws.

Pursuant to s. 480.046(2), F.S., licensure may also be denied, or certain penalties imposed, against licensees found guilty of violating any of the provisions of s. 480.046(1) and s. 456.072(1), F.S. The penalties include:

- Refusal to certify, or to certify with restrictions, an application for a license.
- Suspension or permanent revocation of a license.
- Restriction of practice or license, including, but not limited to, restricting the licensee from practicing in certain settings, restricting the licensee to work only under designated conditions or in certain settings, restricting the licensee from performing or providing designated clinical and administrative services, restricting the licensee from practicing more than a designated number of hours, or any other restriction found to be necessary for the protection of the public health, safety, and welfare.
- Imposition of an administrative fine not to exceed $10,000 for each count or separate offense. If the violation is for fraud or making a false or fraudulent representation, the Board must impose a fine of $10,000 per count or offense.
- Issuance of a reprimand or letter of concern.
- Placement of the licensee on probation for a period of time and subject to such conditions as the Board may specify. Those conditions may include, but are not limited to, requiring the licensee to undergo treatment, attend continuing education courses, submit to be reexamined,

work under the supervision of another licensee, or satisfy any terms which are reasonably tailored to the violations found.
- Corrective action.
- Imposition of an administrative fine in accordance with s. 381.0261, F.S., for violations regarding patient rights.
- Refund of fees billed and collected from the patient or a third party on behalf of the patient.
- Requirement that the practitioner undergo remedial education.

The Board also has the power to revoke or suspend the license of a massage establishment or deny subsequent licensure if the license was obtained by fraud or misrepresentation or the licensee was found guilty of fraud, deceit, gross negligence, incompetency, or misconduct in the operation of the establishment.[6]

Disciplinary proceedings shall be conducted pursuant to the provisions of ch. 120, F.S., the Administrative Procedure Act.[7]

Sexual misconduct in the practice of massage therapy is prohibited, and is defined as violation of the massage therapist-patient relationship through which the massage therapist uses that relationship to induce or attempt to induce the patient to engage, or to engage or attempt to engage the patient, in sexual activity outside the scope of practice or the scope of generally accepted examination or treatment of the patient.[8]

Violations of the law or rules associated with practices of massage therapists and massage establishments are investigated by the DOH.[9] Sexual activity by any person or persons in any massage establishment is also prohibited.[10]

In an attempt to address human trafficking, the 2012 Legislature enacted ch. 2012-97, Laws of Florida, requiring employees and persons performing massages in a massage establishment to present a valid government identification upon request by a DOH investigator or a law enforcement officer and requiring the person operating the massage establishment to ensure that the identification is available. A person who violates this provision, faces criminal prosecution with increasing penalties for subsequent violation.

Nuisances

Section 823.01, F.S., provides that all nuisances that tend to annoy the community, injure the health of the citizens in general, or corrupt the public morals are second degree misdemeanors punishable by up to 60 days in jail and a fine not exceeding $500, and that a violation of

[6]Section 480.046(3), F.S.
[7]Section 480.046(4), F.S.
[8]Section 480.0485, F.S., Section 456.063, F.S., which applies to all licensed health care practitioners, prohibits violation of the professional relationship through which the health care practitioner uses such relationship to engage or attempt to engage the patient or client, or an immediate family member, guardian, or representative of the patient or client in, or to induce or attempt to induce such person to engage in, verbal or physical sexual activity outside the scope of the professional practice of such health care profession.
[9]Section 480.039, F.S.
[10]*See* Rule 64B7-26.010, F.A.C., which provides a definition of sexual activity.

s. 823.10, F.S., regarding certain places where controlled substances are illegally kept, sold, or used, is a third degree felony punishable by a term of imprisonment not to exceeding 5 years and a fine not exceeding $5,000.

Section 60.05, F.S., provides that when a nuisance defined in s. 823.05, F.S., exists, the Attorney General, state attorney, city attorney, county attorney, or any citizen of the county may sue in the name of the state to enjoin the nuisance, the person or persons maintaining it, and the owner or agent of the building or ground on which the nuisance exists. In accordance with s. 60.06, F.S., the court shall enter orders to abate the nuisance, and has the authority to enforce injunctions by contempt.

Florida Human Trafficking

Labor trafficking is the most prevalent type of human trafficking that occurs in Florida. The largest number of trafficking victims identified in Florida between 2004 and 2010 involved persons exploited for forced labor, and debt servitude is often the preferred means of coercion. The two sectors of Florida's economy where forced labor appears most prevalent are the agricultural sector and the tourism and hospitality industries. Massage establishments have been noted as sites where trafficking occurs.[11]

III. Effect of Proposed Changes:

Section 1 amends s. 480.033, F.S., to revise the definition of the term "Board-approved massage school" to include a college or university that is eligible to participate in the William L. Boyd, IV, Florida Resident Access Grant Program.

Section 2 amends s. 480.043, F.S., to require the Board to deny a massage establishment license upon a finding that an owner, officer, director, or managing employee of an applicant has been arrested, is awaiting final disposition, or has been convicted, of certain offenses listed in s. 435.04(2), F.S., or a similar law in another jurisdiction. Section 435.04(2), F.S., includes offenses relating to sexual misconduct, abuse of aged or disabled adults, murder, certain manslaughter offenses, vehicular homicide, certain offenses against minors, kidnapping, false imprisonment, prostitution, lewd and lascivious behavior, indecent exposure, arson, burglary, certain firearms offenses, and certain felony offenses.

Section 3 amends s. 480.046, F.S., to provide that denial of a license or a disciplinary action may be based on advertising with the intent to induce a client to engage in sexual activity, or to engage or attempt to engage a client in sexual activity.

Section 4 amends s. 480.047, F.S., to conform penalties for massage therapy to changes made in the bill.

[11] Florida Strategic Plan on Human Trafficking. October 2010. Last visited April 7, 2013 *available* at: http://www.cahr.fsu.edu/sub_category/floridastrategicplanonhumantrafficking.pdf

Section 5 creates s. 480.0475, F.S., to restrict the time of operations for certain massage establishments, by prohibiting operations between midnight and 5 a.m. The bill creates exclusions from the time restrictions for certain massage establishments including those:

- Located on the premises of an ambulatory surgical center, a hospice, a nursing home, a hospital, a diagnostic-imaging center, a freestanding or hospital-based therapy center, a clinical laboratory, a home health agency, a cardiac catheterization laboratory, a medical equipment supplier, an alcohol or chemical dependency treatment center, a physical rehabilitation center, a lithotripsy center, an ambulatory care center, a birth center, or certain licensed nursing home components.[12]
- Located on the premises of a clinic defined in part X of ch. 400, F.S.;
- Located on the premises of a hotel, motel or bed and breakfast as defined in s. 509.242, F.S., or a timeshare property as defined in s. 721.05, F.S.;
- Located on the premises of a public airport as defined in s. 330.27, F.S.;
- Located on the premises of a pari-mutuel facility as defined in s. 550.002, F.S.;
- Located on the premises of an independent postsecondary educational institution licensed and approved by the Commission for Independent Education pursuant to ch. 1005, F.S.;
- In which every massage performed between midnight and 5 a.m. is performed by a massage therapist acting under the prescription of licensed persons such as physicians, physicians' assistants, chiropractic physicians, podiatric physicians, advanced registered nurse practitioners or dentists.

The bill prohibits the use of a massage establishment as a principal domicile unless the establishment is zoned for residential use by local ordinance. The phrase "principal domicile" is not defined, however, a legal domicile in Florida may be evidenced in accordance with s. 222.17, F.S., by a person filing a sworn statement at the office of the Clerk of Circuit Court showing that he or she "resides in and maintains a place of abode in that county which he or she recognizes and intends to maintain as his or her permanent home."

A person convicted of a first degree misdemeanor for violating s. 480.0475, F.S., may be sentenced to up to 1 year in jail and a fine not exceeding $1,000.[13] A person may be convicted of a third degree felony for a second or subsequent violation, and may be sentenced to a term of imprisonment not exceeding 5 years and a fine not to exceed $5,000.[14] More severe consequences result for offenders classified as habitual felony offenders, habitual violent felony offenders, or three-time violent felony offenders.[15]

Section 6 amends s. 480.052, F.S., to allow counties or municipalities to waive the restriction on the hours of operation of massage establishments for special local events within their jurisdiction.

Section 7 amends s. 823.05, F.S., to declare that a massage establishment that operates in violation of the restrictions on hours of operation, or that fails to immediately present to an

[12]Section 408.07(24), F.S.

investigator of the DOH or a law enforcement officer, all required government identification for each employee or for any person performing massage in the establishment is a nuisance and may be abated[16] or enjoined pursuant to ss. 60.06 and 60.06, F.S.

Section 8 provides an October 1, 2013, effective date.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

CS/CS/CS/SB 500 will limit the operating hours of massage establishments that are not otherwise excluded from the time restriction between midnight and 5 a.m. Since the use of a massage establishment as a principal domicile is no longer permitted unless the location of the establishment is zoned for residential use by local ordinance, operators will be required to discontinue any existing use and monitor their locations for compliance by its employees in the future, unless the establishment is located in a zoning classification that includes residential use.

C. Government Sector Impact:

The DOH will incur non-recurring costs for rulemaking. The DOH can absorb these costs within its current budget. The DOH and Board may also experience a recurring increase in workload associated with additional complaints, investigations and prosecutions due to non-compliance with the new requirements contained in this legislation. Any such impact is indeterminate at this time.[17]

[16] Abated is defined as eliminated or put an end to (Black's Law Dictionary (9th ed. 2009).
[17] The DOH Bill Analysis for HB7005, dated January 25, 2013, on file with the Senate Health Policy Committee

The Criminal Justice Impact Conference has not yet determined the impact of the bill. The Department of Corrections anticipates that the impact of the bill will be insignificant on the prison population and minimal on the community supervision population.[18]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS/CS by Health Policy on April 9, 2013:
The committee substitute clarifies that the license application for a massage establishment must be denied when an *owner, officer, director, or managing employee* of an applicant has been arrested or committed certain offenses and clarifies the grounds for denial of a license or disciplinary action relating to advertising to induce a client to engage in sexual activity.

CS/CS by Community Affairs on April 2, 2013:
The committee substitute adds that an independent postsecondary educational institution licensed and approved by the Commission for Independent Education pursuant to chapter 1005 may operate between midnight and 5 a.m. Also, adds that a college or university that is eligible to participate in the William L. Boyd, IV, Florida Resident Access Grant Program may be a 'Board-approved massage school'.

CS by Regulated Industries on March 14, 2013:
The committee substitute requires the Board to deny a massage establishment license upon a finding that an applicant has been arrested, is awaiting final disposition, or has been convicted of offenses listed in s. 435.04(2), F.S., or a similar law in another jurisdiction, which include offenses relating to sexual misconduct, abuse of aged or disabled adults, murder, certain manslaughter offenses, vehicular homicide, certain offenses against minors, kidnapping, false imprisonment, prostitution, lewd and lascivious behavior, indecent exposure, arson, burglary, certain firearms offenses, and certain felony offenses.

The committee substitute provides that denial of a license or a disciplinary action may be based upon the act of advertising to induce or attempt to induce a client to engage in sexual activity, or to engage or attempt to engage a client in sexual activity.

[18] *See 2013 Legislative Analysis for SB 500, Office of Legislative Affairs, Florida Department of Corrections,* January 31, 2013

The committee substitute revises the restriction on hours of operation for massage establishments to the range of midnight to 5 a.m. It exempts from the restriction on hours of operation those massage establishments located on the premises of a clinic defined in part X of ch. 400, F.S., a timeshare property defined in s. 721.05, F.S., a public airport defined in s. 330.27, F.S., or a pari-mutuel facility defined in s. 550.002, F.S. It clarifies the exemption for massages performed pursuant to prescriptions of certain licensees.

The committee substitute amends s. 480.052, F.S., to allow counties and municipalities to waive the restriction on hours of operation of massage establishments for special local events within their jurisdiction. It amends the title to conform to the provisions of the bill.

B. Amendments:

None.

By the Committees on Health Policy; Community Affairs; and Regulated Industries; and Senators Clemens and Sobel

588-03982-13 2013500c3

A bill to be entitled

An act relating to massage practice; amending s. 480.033, F.S.; revising the definition of the term "board-approved massage school"; amending s. 480.043, F.S.; requiring an application to be denied upon specified findings; amending s. 480.046, F.S., adding additional grounds for denial of a license; amending s. 480.047, F.S.; revising penalties; creating s. 480.0475, F.S.; prohibiting the operation of a massage establishment during specified times; providing exceptions; prohibiting the use of a massage establishment as a principal domicile unless the establishment is zoned for residential use under a local ordinance; providing criminal penalties; amending s. 480.052, F.S., authorizing a county or municipality to waive the restriction on operating hours of a massage establishment in certain instances; amending s. 823.05, F.S.; declaring that a massage establishment operating in violation of specified statutes is a nuisance that may be abated or enjoined; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (9) of section 480.033, Florida Statutes, is amended to read:

480.033 Definitions.—As used in this act:

(9) "Board-approved massage school" means a facility that ~~which~~ meets minimum standards for training and curriculum as

588-03982-13 2013500c3

determined by rule of the board and that ~~which~~ is:

(a) Licensed by the Department of Education pursuant to chapter 1005 or the equivalent licensing authority of another state; ~~or is~~

(b) Within the public school system of this state; or

(c) A college or university that is eligible to participate in the William L. Boyd, IV, Florida Resident Access Grant Program.

Section 2. Subsection (2) of section 480.043, Florida Statutes, is amended to read:

480.043 Massage establishments; requisites; licensure; inspection.—

(2) The board shall adopt rules governing the operation of establishments and their facilities, personnel, safety and sanitary requirements, financial responsibility, insurance coverage, and the license application and granting process. An application shall be denied upon finding that an owner, officer, director, or managing employee of an applicant has been arrested for and is awaiting final disposition of, or has been convicted of, regardless of adjudication, an offense under s. 435.04(2) or a similar law of another jurisdiction.

Section 3. Present paragraphs (e) though (o) of subsection (1) of section 480.046, Florida Statutes, are redesignated as paragraphs (f) though (p), respectively, and a new paragraph (e) is added to that subsection, to read:

480.046 Grounds for disciplinary action by the board.—

(1) The following acts constitute grounds for denial of a license or disciplinary action, as specified in s. 456.072(2):

(e) Advertising with the intent to induce a client to

engage in sexual activity, or to engage or attempt to engage a client in sexual activity.

Section 4. Section 480.047, Florida Statutes, is amended to read:

480.047 Penalties.—

(1) It is unlawful for any person to:

(a) Hold himself or herself out as a massage therapist or to practice massage unless duly licensed under this chapter or unless otherwise specifically exempted from licensure under this chapter.

(b) Operate any massage establishment unless it has been duly licensed as provided herein, except that nothing herein shall be construed to prevent the teaching of massage in this state at a board-approved massage school.

(c) Permit an employed person to practice massage unless duly licensed as provided herein.

(d) Present as his or her own the license of another.

(e) Allow the use of his or her license by an unlicensed person.

(f) Give false or forged evidence to the department in obtaining any license provided for herein.

(g) Falsely impersonate any other licenseholder of like or different name.

(h) Use or attempt to use a license that has been revoked.

(i) Otherwise violate any of the provisions of this act.

(2) Except as otherwise provided in this chapter, any person violating the provisions of this section is guilty of a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

Section 5. Section 480.0475, Florida Statutes, is created to read:

480.0475 Massage establishments; prohibited practices.—

(1) A person may not operate a massage establishment between the hours of midnight and 5 a.m. This subsection does not apply to a massage establishment:

(a) Located on the premises of a health care facility as defined in s. 408.07; a clinic as defined in part X of chapter 400; a hotel, motel, or bed and breakfast inn as defined in s. 509.242; a timeshare property as defined in s. 721.05; a public airport as defined in s. 330.27; a pari-mutuel facility as defined in s. 550.002; or an independent postsecondary educational institution licensed and approved by the Commission for Independent Education pursuant to chapter 1005; or

(b) In which every massage performed between the hours of midnight and 5 a.m. is performed by a massage therapist acting under the prescription of a physician or physician assistant licensed under chapter 458, an osteopathic physician or physician assistant licensed under chapter 459, a chiropractic physician licensed under chapter 460, a podiatric physician licensed under chapter 461, an advanced registered nurse practitioner licensed under part I of chapter 464, or a dentist licensed under chapter 466.

(2) A person who operates a massage establishment may not use the establishment or allow it to be used as a principal domicile unless the establishment is zoned for residential use under a local ordinance.

(3) A person who violates the provisions of this section commits a misdemeanor of the first degree, punishable as

provided in s. 775.082 or s. 775.083. A second or subsequent violation of this section is a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

Section 6. Section 480.052, Florida Statutes, is amended to read:

480.052 Power of county or municipality to regulate massage.—

(1) A county or municipality, within its jurisdiction, may regulate persons and establishments licensed under this chapter. Such regulation shall not exceed the powers of the state under this act or be inconsistent with this act. This section shall not be construed to prohibit a county or municipality from enacting any regulation of persons or establishments not licensed pursuant to this act.

(2) A county or municipality may waive the restriction on the hours of operation of a massage establishment provided in s. 480.0475 during special events that occur within the county's or municipality's jurisdiction.

Section 7. Subsection (3) is added to section 823.05, Florida Statutes, to read:

823.05 Places and groups engaged in criminal gang-related activity declared a nuisance; may be abated and enjoined.—

(3) A massage establishment as defined in s. 480.033(7) which operates in violation of s. 480.0475 or s. 480.0535(2) is declared a nuisance and may be abated or enjoined as provided in ss. 60.05 and 60.06.

Section 8. This act shall take effect October 1, 2013.

6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/CS/SB 582 creates the "Manufacturing Competitiveness Act," and authorizes local governments to adopt a local manufacturing development program to grant master development approval for the development, expansion, or modification of manufacturing facilities located within its jurisdiction. The bill provides that a local government may enact an ordinance to establish a local manufacturing development program. If a manufacturer chooses to develop or expand in the jurisdiction of that local government, the required applications for specified state permits must be reviewed by specified "participating agencies" in a coordinated and simultaneous manner, within prescribed timeframes. The bill provides that each participating agency must take final agency action on the application within 60 days after the application is filed, unless the deadline is waived by the manufacturer or a federally delegated permitting program mandates a different deadline. If an application is not approved or denied within 60 days, it is deemed approved.

The bill has an indeterminate fiscal impact to the departments of Economic Opportunity, Environmental Protection, Transportation, the Fish and Wildlife Conservation Commission and the state's five water management districts. See Section V.

The Department of Economic Opportunity (DEO) is tasked with developing a model ordinance for use by local governments by December 1, 2013. If the local government enacts an ordinance establishing a local manufacturing development program, it must be submitted to the DEO within 20 days of enactment. The ordinance must remain in effect for at least 24 months. If the ordinance is repealed, any application for a master development plan received by the local government is "vested" and entitled to participate in the coordinated approval process.

The bill directs the Department of Economic Opportunity to coordinate the manufacturing development approval process with the Department of Environmental Protection, the Department of Transportation, the Fish and Wildlife Conservation Commission, and the state's five water management districts ("participating agencies"). The approval process must provide for coordinated and simultaneous review of applications for permits by the participating agencies, under their respective authorities. A manufacturer may request that the DEO convene a meeting with one or more of the participating agencies to facilitate the process. The bill provides that each participating agency must take final agency action on the application within 60 days after a complete application is filed, unless the deadline is waived by the manufacturer or a federally delegated permitting program mandates a different deadline. If an application is not approved or denied within 60 days, it is deemed approved.

If a participating agency plans to deny an application, it must notify the DEO and the DEO must convene an informal meeting to facilitate a resolution, unless waived by the manufacturer. Throughout the process, the manufacturer may initiate an administrative hearing under ch. 120, F.S.

This bill creates the following sections of the Florida Statutes: 163.325, 163.3251, 163.3252, 163.3253, and 288.111.

II. Present Situation:

Manufacturing Industry in Florida

Florida's manufacturing industry includes companies in traditional manufacturing industries, such as plastics, food processing and printing, as well as those that are engaged in innovative technologies, like electronics, medical devices, and aviation/aerospace. The state is home to nearly 18,000 manufacturers accounting for approximately 5 percent of Florida's gross domestic product.[1] The manufacturing industry employs more than 311,000 individuals in Florida.[2]

Enterprise Florida, Inc. (EFI), has identified manufacturing as a targeted industry, along with corporate headquarters, research and development, clean technologies, life sciences, information technology, aviation/aerospace, homeland security/defense, financial/professional services, and emerging technologies. Of the 122 economic development incentive contracts project commitments by EFI for Fiscal Year 2011-2012, manufacturing ranked highest in terms of the number of project commitments by industry (38), and expected capital investment (over $425

[1] Enterprise Florida, Inc., *The Florida Economy* (Jan. 2013), *available at* http://www.eflorida.com/IntelligenceCenter/download/ER/SI_Florida_Economy_Glance.pdf (last visited Apr. 4, 2013).
[2] *Id.*

million). These manufacturing projects contracted to create 2,474 jobs paying an average annual wage of $37,352.[3]

Permits

Currently, the responsibility for issuance of permits for the development, expansion, or modification of manufacturing facilities resides in several state agencies, as well as local governments.

State Permits

The Department of Transportation (DOT), Fish and Wildlife Conservation Commission (FWCC), Department of Environmental Protection (DEP), and water management districts[4] may each have responsibilities in the permitting process.

The DOT is responsible for regulating work activities that impact state roads, such as access permits,[5] utility permits,[6] and drainage permits,[7] among other things. The FWCC is responsible for protecting threatened or endangered species.[8] The DEP works in conjunction with the water management districts to regulate and issue permits for such programs as stormwater management, surface water management, and consumptive use of water.[9] The DEP also issues permits for items relating to air quality, among other things.

Current State Expedited Permitting Programs

Section 403.973, F.S., directs the DEP to create and implement regional permit action teams for the purpose of expediting the review of permit applications and local comprehensive plan amendments for certain projects.[10] Section 380.0657, F.S., directs the DEP and the water management districts to adopt programs to expedite the processing of wetland resource and environmental resource permits for economic development projects that have been identified as a target industry business.[11]

---

[3] Enterprise Florida, Inc., *2012 Annual Incentives Report* (2012), *available at* http://www.eflorida.com/IntelligenceCenter/download/ER/BRR_Incentives_Report.pdf (last visited on Apr. 4, 2013).
[4] There are five water management districts: Northwest Florida Water Management District, Suwannee River Water Management District, St. Johns River Water Management District, South Florida Water Management District, and Southwest Florida Water Management District.
[5] Sections 335.18 – 335.199, F.S.
[6] Section 337.401, F.S.
[7] Section 334.044(15), F.S.
[8] Section 379.2291, F.S.
[9] DEP, Water Management Districts, *available at* http://www.dep.state.fl.us/secretary/watman/default.htm (last visited Apr 4, 2013).
[10] Those projects that may apply for expedited permitting under this provision include businesses creating at least 50 jobs (or at least 25 jobs if the project is located in an enterprise zone or in a county with limited population), projects located in a designated brownfield area, projects that are a part of the state-of-the-art biomedical research institution and campus, and certain projects relating to the production of biofuels. Certain other projects may be considered for expedited permitting at the request of the local government.
[11] Section 288.106, F.S.

The DOT has implemented a One Stop Permitting process for the permits it administers. The DOT staff indicates that most applications are processed within 30 days of receipt of the completed application.[12]

Local Permits

Local governmental agencies are responsible for issuing building permits within their respective jurisdictions. Chapter 163, F.S., requires local governments to adopt comprehensive plans and land development regulations to regulate the development and growth in their jurisdictions. However, no uniform, statutory process exists for local governments to approve master development plans for manufacturing facilities.

III. Effect of Proposed Changes:

Section 1 creates s. 163.325, F.S., providing that the act may be cited as the "Manufacturing Competitiveness Act (the act)."

Section 2 creates s. 163.3251, F.S., providing definitions for the following terms used in the act: "department," "local government development approval," "local manufacturing development program," "manufacturer," "participating agency," and "state development approval." A "participating agency" means the Department of Environmental Protection, the Department of Transportation, the Fish and Wildlife Conservation Commission, and water management districts.

Section 3 creates s. 163.3252, F.S., providing the process a local government may use to implement a local manufacturing development program. Specifically, a local government is authorized to adopt an ordinance to establish a local manufacturing development program through which it can grant master development approval to manufacturers for the development or expansion of sites at specified locations within the local government's geographic boundaries.

The establishment of a local manufacturing development program is voluntary; however, if a local government elects to establish one, it must submit a copy of the ordinance to the DEO within 20 days of enacting the ordinance.

The DEO must develop a model ordinance[13] by December 1, 2013, which must include:

- Application procedures for a manufacturer to apply for a master development plan and procedures for the local government to review and approve a master development plan;
- Identification of those areas within the local government's jurisdiction which are subject to the program;
- Minimum elements for a master development plan, including but not limited to:
  - A site map;
  - A list proposing the site's land uses;

[12] Department of Transportation, *Legislative Bill Review HB 357* (Feb. 11, 2013) (on file with the Senate Commerce and Tourism Committee).
[13] A local government is not required to adopt the model ordinance.

- Maximum square footage, floor area ratio, and building heights for future development on the site;
- Development conditions;
- A list of development impacts which the local government will require to be addressed, if applicable, in a master development plan, including but not limited to, drainage, wastewater, vehicular and pedestrian entrance and exit from the site, and offsite transportation impacts;
- A provision vesting any existing development rights authorized by the local government prior to approval of a master development plan, if requested by the manufacturer;
- If required, a provision stating that the expiration date of the master development plan may not be earlier than 10 years after the plan's adoption;
- A provision limiting the circumstances that require an amendment to an approved master development plan, such as the enactment of a state or local law that addresses a direct and immediate threat to public safety or a revision to the master development plan initiated by the manufacturer;
- A provision limiting the scope of review for an amendment to a master development plan to a review of the proposed amendment and no other provisions of the plan;
- A provision stating that during the term of a master development plan, a local government may not require additional local development approvals other than a building permit to ensure compliance with the state building code and any other applicable state-mandated life and safety code,
- A provision requiring the manufacturer, prior to commencement of work, to submit a certification signed by an appropriate professional attesting that the construction or site development work complies with the master development plan; and
- A provision establishing the form the local government will use to certify that a manufacturer is eligible to participate in the local manufacturing development program adopted by that jurisdiction.

Any local ordinance established must be consistent with the DEO's model ordinance and must establish procedures for the review and approval of a master development plan, the development of the site in a manner consistent with the master development plan without requiring additional local approvals other than building permits, and the certification that a manufacturer is eligible to participate in the local manufacturing development program.
If the local government has enacted an ordinance prior to the effective date of the act, it is deemed to have established a local manufacturing development program, as long as it meets the minimum standards, as outlined above. A copy of such an ordinance must be submitted to the department on or before September 1, 2013.

If a local government establishes a local development program ordinance, the ordinance must remain in effect for at least 24 months. If the ordinance is repealed, any application for a master development plan submitted prior to the effective date of the repeal is vested and remains subject to the local manufacturing development plan in effect at the time the application is submitted.

Section 4 creates s. 163.3253, F.S., which outlines the manufacturing development coordinated approval process (process). The Department of Economic Opportunity must coordinate the manufacturing development approval process with participating agencies for manufacturers that are developing or expanding in a jurisdiction that has a local manufacturing development

process. The participating agencies must coordinate, collaborate, and simultaneously review applications for the following state development approvals: wetland or environmental permits, surface water management permits, stormwater permits, consumptive water use permits, wastewater permits, air emission permits, permits relating to listed species, highway or roadway access permits, and any other state development approval within the scope of a participating agency's authority.

At the time the manufacturer files its application for state development approval with the DEO and each participating agency, it must also file proof that its development or expansion is located in the jurisdiction of a local government that has a local development-manufacturing program. If the local government repeals its local manufacturing development program, a manufacturer that has submitted its application for a state or local government development application prior to the date of repeal, remains eligible to participate in the process.

During the coordinated manufacturing development approval process, if a manufacturer requests a meeting with one or more of the participating agencies, the DEO must convene a meeting and involved participating agencies must attend such meeting. The DEO is not required to mediate between the participating agencies and the manufacturer, but may participate as necessary to accomplish the purposes set forth in s. 20.60(4)(f), F.S.[14] The DEO may not be a party to any proceeding initiated under ss. 120.569 and 120.57, F.S., that relates to approval or disapproval of an application for state development approval processed under this section. The bill provides that the DEO's participation in the coordinated manufacturing approval process shall have no effect on its approval or disapproval of any application for economic development incentives sought under s. 288.061, F.S., or any other incentive that requires the DEO's approval.[15]

If a participating agency determines that the application is incomplete, it must notify the applicant, and the DEO, in writing. Unless the manufacturer waives the deadline in writing, a request for additional information from a participating agency must be provided to the manufacturer within 20 days after the application is filed with the participating agency. If a participating agency fails to request additional information within the 20-day period, it cannot later deny the application based on the manufacturer's failure to provide such information. Once the manufacturer has responded to the request for additional information, the participating agency has 10 days to make a second request for additional information, but such request is limited to obtaining clarification of the manufacturer's response.

Unless the manufacturer waives the deadline in writing, each participating agency must take final agency action on a state development approval within 60 days after a complete application is filed.[16] If a participating agency intends to deny an application, it must notify the manufacturer and the DEO must timely convene an informal meeting to facilitate a resolution, unless waived by the manufacturer in writing. An application will be deemed approved if the approving agency failed to act within the specified time frames unless the time limit is waived by the manufacturer in writing:

[14] Section 20.60(4)(f), F.S., directs the Department of Economic Opportunity to coordinate with state agencies on the processing of state development approvals or permits to minimize the duplication of information provided by the applicant and the time before approval or disapproval.
[15] Section 288.061, F.S., outlines the economic development incentive application process.
[16] The 60-day period is tolled if a proceeding is initiated under ch. 120, F.S.

- Within the 60-day period;
- Within the time allowed by a federally-delegated permit program; or
- Within 45 days of a recommended order issued under ss.120.569 and 120.57, F.S.[17]

If a manufacturer seeks to claim approval by default, it must notify the clerk of the participating agency, and the DEO's clerk, in writing of that intent. No action may be taken by the manufacturer until such notification is received by both clerks.

The timeframes described above do not apply to permit applications for federally-delegated or approved permitting programs to the extent they are prohibited by, or inconsistent with, such program requirements.

If the manufacturer initiates a proceeding under ch. 120, F.S., it may, at any time, demand an expeditious resolution by noticing the administrative law judge (ALJ) and all other parties to the proceeding. The ALJ must set the matter for hearing within 30 days of receipt of the notice.

The DEO is given authority to adopt rules to administer the coordinated manufacturing development approval process.

Section 5 creates s. 288.111, F.S., to provide that the DEO will develop materials identifying local governments that have established local manufacturing development programs. Enterprise Florida, Inc., must provide these materials to prospective, new, expanding, and relocating manufacturing businesses seeking to conduct business in Florida. Other state agencies are also authorized to distribute such materials.

Section 6 provides that this act takes effect July 1, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

[17] Section 120.569, F.S., requires the agency to issue a final order within 90 days of the recommended order. Section 120.57, F.S., requires a final order to be issued within 30 days of the recommended order.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Manufacturers may benefit from the coordinated approval process for state permit applications in those communities that implement a local manufacturing development program.

C. Government Sector Impact:

The Department of Environmental Protection, the Department of Transportation, the Fish and Wildlife Conservation Commission, and the five water management districts ("participating agencies") may incur costs associated with implementing the manufacturing development coordinated approval process created in the bill. The participating agencies must coordinate and simultaneously review applications for permits within specified timeframes. Costs incurred by participating agencies will be based on how many local governments enact ordinances that establish a local manufacturing development program and how many manufacturers apply for various state permits. The costs are indeterminate at this time.

The DEO may incur costs associated with developing:

- A model ordinance to guide local governments that intend to establish a local manufacturing development program; and
- Materials identifying those local governments that establish a local manufacturing development program as provided in the bill.[18]

The DEO may also incur costs to adopt rules to administer the coordinated manufacturing development approval process and to coordinate and participate in that process. Although the costs are indeterminate at this time, the department has indicated that the bill can be implemented within existing resources.

The DEO is required to update the local manufacturing development program information at least annually. The bill requires Enterprise Florida, Inc., and allows other state agencies, to distribute the materials to prospective, new, expanding, and relocating manufacturing businesses seeking to conduct business in Florida. The costs associated with these requirements of the bill are indeterminate at this time.

To the extent that local governments adopt a local manufacturing development program, the streamlined process may reduce administrative costs for those communities.[19]

---

[18]Florida Department of Economic Opportunity, *Agency Analysis of SB 582* (Feb. 18, 2013) *available at* http://abar.laspbs.state.fl.us/ABAR/Document.aspx?id=499&yr=2013.
[19] *Id.*

VI. Technical Deficiencies:

The bill requires that participating agencies simultaneously review applications for various state development approvals, but does not address how such a simultaneous review among participating agencies would function, or what repercussions would exist for participating agencies who fail to simultaneously review applications.

The bill may need to be clarified to indicate that the initial review period does not begin until the appropriate application fee is received.

VII. Related Issues:

According to the DEO, use of the term "vested" in the bill may need clarification. The department's analysis of SB 582 noted in part:

> "Vested" generally means a land use can be developed notwithstanding changes to statutes or regulations. It is unclear whether "vested" in this bill means the applicant is authorized to develop the program described in the application even if the local government and the reviewing agencies have not reviewed and approved the application. Another interpretation is that the application is entitled to be reviewed under the local manufacturing development program ordinance in effect when the application was submitted.[20]

The bill authorizes the DEO to adopt rules to administer the bill.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 23, 2013:
The committee substitute does the following:

- Requires the Department of Economic Opportunity to coordinate the manufacturing development approval process with participating agencies.
- Provides that the DEO is not required to mediate between the participating agencies and the manufacturer, and is not a party to certain proceedings initiated under ch. 120, F.S.
- Provides that the DEO's participation in the coordinated manufacturing development approval process shall have no effect on the department's approval or disapproval of any application for economic development incentives or any other incentive requiring the DEO's approval.
- Gives the DEO the authority to adopt rules to implement the coordinated manufacturing development approval process.

[20] *Id.*

CS by Commerce and Tourism on April 1, 2013:
The committee substitute does the following:

- Places provisions of the bill under ch. 163, F.S., rather than ch. 288, F.S.
- Adds a definition for the term "department."
- Deletes the definition for the term "local government."
- Removes the Department of Economic Opportunity from the coordinated manufacturing development approval process.
- Deletes the grant of rule-making authority to the Department of Economic Opportunity.
- Requires Enterprise Florida, Inc., to distribute materials that identify local governments that have established a local manufacturing development program, as provided in the bill, to prospective, new, expanding, and relocating manufacturers seeking to conduct business in Florida.

B. Amendments:

None.

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
04/25/2013	.	
	.	
	.	
	.	

The Committee on Appropriations (Galvano) recommended the following:

Senate Amendment (with title amendment)

Delete lines 197 - 284
and insert:
163.3253 Coordinated manufacturing development approval process.—The department shall coordinate the manufacturing development approval process with participating agencies, as set forth in this section, for manufacturers that are developing or expanding in a local government that has a local manufacturing development program.
(1) The approval process must include collaboration and coordination among, and simultaneous review by, the

747758

participating agencies of applications for the following state development approvals:

(a) Wetland or environmental resource permits.

(b) Surface water management permits.

(c) Stormwater permits.

(d) Consumptive water use permits.

(e) Wastewater permits.

(f) Air emission permits.

(g) Permits relating to listed species.

(h) Highway or roadway access permits.

(i) Any other state development approval within the scope of a participating agency's authority.

(2)(a) When filing its application for state development approval, a manufacturer shall file with the department and each participating agency proof that its development or expansion is located in a local government that has a local manufacturing development program.

(b) If a local government repeals its local manufacturing development program ordinance, a manufacturer developing or expanding in that jurisdiction remains entitled to participate in the process if the manufacturer submitted its application for a local government development approval before the effective date of repeal.

(3) At any time during the process, if a manufacturer requests that the department convene a meeting with one or more participating agencies to facilitate the process, the department shall convene a meeting that the involved participating agencies must attend.

(a) The department is not required to mediate between the

747758

participating agencies and the manufacturer, but may participate as necessary to accomplish the purposes set forth in s. 20.60(4)(f).

(b) The department may not be a party to any proceeding initiated under ss. 120.569 and 120.57 which relates to approval or disapproval of an application for state development approval processed under this section.

(c) The department's participation in a coordinated manufacturing development approval process under this section shall have no effect on its approval or disapproval of any application for economic development incentives sought under s. 288.061 or any other incentive requiring department approval.

(4) If a participating agency determines that an application is incomplete, the participating agency shall notify the applicant and the department in writing of the additional information necessary to complete the application.

(a) Unless the deadline is waived in writing by the manufacturer, a participating agency shall provide a request for additional information to the manufacturer and the department within 20 days after the date the application is filed with the participating agency.

(b) If the participating agency does not request additional information within the 20-day period, the participating agency may not subsequently deny the application based on the manufacturer's failure to provide additional information.

(c) Within 10 days after the manufacturer's response to the request for additional information, a participating agency may make a second request for additional information for the sole purpose of obtaining clarification of the manufacturer's

747758

response.

(5)(a) Unless the deadline is waived in writing by the manufacturer, each participating agency shall take final agency action on a state development approval within its authority within 60 days after a complete application is filed. The 60-day period is tolled by the initiation of a proceeding under ss. 120.569 and 120.57.

(b) A participating agency shall notify the department if the agency intends to deny a manufacturer's application and, unless waived in writing by the manufacturer, the department shall timely convene an informal meeting to facilitate a resolution.

(c) Unless waived in writing by the manufacturer, if a participating agency does not approve or deny an application within the 60-day period, within the time allowed by a federally delegated permitting program, or, if a proceeding is initiated under ss. 120.569 and 120.57, within 45 days after a recommended order is submitted to the agency and the parties, the state development approval within the authority of the participating agency is deemed approved. A manufacturer seeking to claim approval by default under this subsection shall notify, in writing, the clerks of both the participating agency and the department of that intent. A manufacturer may not take action based upon the default approval until such notice is received by both agency clerks.

(d) At any time after a proceeding is initiated under ss. 120.569 and 120.57, the manufacturer may demand expeditious resolution by serving notice on an administrative law judge and all other parties to the proceeding. The administrative law

747758

judge shall set the matter for final hearing no more than 30 days after receipt of such notice. After the final hearing is set, a continuance may not be granted without the written agreement of all parties.

(6) Subsections (4) and (5) do not apply to permit applications governed by federally delegated or approved permitting programs to the extent that subsections (4) and (5) impose timeframes or other requirements that are prohibited by or inconsistent with such federally delegated or approved permitting programs.

(7) The department may adopt rules to administer this section.

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

Delete lines 18 - 32

and insert:

the department, in cooperation with participating agencies, to establish a manufacturing development coordinated approval process for certain manufacturers; requiring participating agencies to coordinate and review applications for certain manufacturers; requiring participating agencies to coordinate and review applications for certain state development approvals; requiring the department to convene a meeting when requested by a certain manufacturer; requiring participating agencies to attend meetings convened by the department; specifying that the department is not required to mediate between

747758

the participating agencies and a manufacturer; providing that the department may not be a party to certain proceedings involving state development approvals; requiring that the coordinated approval process have no effect on the department's economic development incentive approval process; providing for requests for additional information and specifying time periods; requiring participating agencies to take final action on applications within a certain time period; requiring the department to facilitate the resolution of certain applications; providing for approval by default; providing for applicability with respect to permit applications governed by federally delegated or approved permitting programs; authorizing the department to adopt rules; creating s.

By the Committee on Commerce and Tourism; and Senator Galvano

577-03301-13 2013582c1

A bill to be entitled

An act relating to manufacturing development; creating s. 163.325, F.S.; providing a short title; establishing the Manufacturing Competitiveness Act; creating s. 163.3251, F.S.; providing definitions; creating s. 163.3252, F.S.; authorizing local governments to establish a local manufacturing development program that provides for master development approval for certain sites; providing specific time periods for action by local governments; requiring the Department of Economic Opportunity to develop a model ordinance containing specified information and provisions; requiring a local manufacturing development program ordinance to include certain information; providing certain restrictions on the termination of a local manufacturing development program; creating s. 163.3253, F.S.; requiring participating agencies to establish a manufacturing development coordinated approval process for certain manufacturers; requiring participating agencies to coordinate and review applications for certain state development approvals; requiring participating agencies to convene and attend a meeting when requested by a certain manufacturer; providing for requests for additional information and specifying time periods; requiring participating agencies to take final action on applications within a certain time period; requiring participating agencies to facilitate the resolution of certain applications; providing for

577-03301-13 2013582c1

approval by default; providing for applicability with respect to permit applications governed by federally delegated or approved permitting programs; creating s. 288.111, F.S.; requiring the department to develop materials that identify local manufacturing development programs; requiring Enterprise Florida, Inc., and authorizing other state agencies, to distribute such material; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 163.325, Florida Statutes, is created to read:

163.325 Short title.—Sections 163.325-163.3253 may be cited as the "Manufacturing Competitiveness Act."

Section 2. Section 163.3251, Florida Statutes, is created to read:

163.3251 Definitions.—As used in ss. 163.3251-163.3253, the term:

(1) "Department" means the Department of Economic Opportunity.

(2) "Local government development approval" means a local land development permit, order, or other approval issued by a local government, or a modification of such permit, order, or approval, which is required for a manufacturer to physically locate or expand and includes, but is not limited to, the review and approval of a master development plan required under s. 163.3252(2)(c).

(3) "Local manufacturing development program" means a

program enacted by a local government for approval of master development plans under s. 163.3252.

(4) "Manufacturer" means a business that is classified in Sectors 31-33 of the National American Industry Classification System (NAICS) and is located, or intends to locate, within the geographic boundaries of an area designated by a local government as provided under s. 163.3252.

(5) "Participating agency" means:

(a) The Department of Environmental Protection.

(b) The Department of Transportation.

(c) The Fish and Wildlife Conservation Commission, when acting pursuant to statutory authority granted by the Legislature.

(d) Water management districts.

(6) "State development approval" means a state or regional permit or other approval issued by a participating agency, or a modification of such permit or approval, which must be obtained before the development or expansion of a manufacturer's site, and includes, but is not limited to, those specified in s. 163.3253(1).

Section 3. Section 163.3252, Florida Statutes, is created to read:

163.3252 Local manufacturing development program; master development approval for manufacturers.—A local government may adopt an ordinance establishing a local manufacturing development program through which the local government may grant master development approval for the development or expansion of sites that are, or are proposed to be, operated by manufacturers at specified locations within the local government's geographic

boundaries.

(1)(a) A local government that elects to establish a local manufacturing development program shall submit a copy of the ordinance establishing the program to the department within 20 days after the ordinance is enacted.

(b) A local government ordinance adopted before the effective date of this act establishes a local manufacturing development program if it satisfies the minimum criteria established in subsection (3) and if the local government submits a copy of the ordinance to the department on or before September 1, 2013.

(2) By December 1, 2013, the department shall develop a model ordinance to guide local governments that intend to establish a local manufacturing development program. The model ordinance, which need not be adopted by a local government, must include:

(a) Procedures for a manufacturer to apply for a master development plan and procedures for a local government to review and approve a master development plan.

(b) Identification of those areas within the local government's jurisdiction which are subject to the program.

(c) Minimum elements for a master development plan, including, but not limited to:

1. A site map.

2. A list proposing the site's land uses.

3. Maximum square footage, floor area ratio, and building heights for future development on the site, specifying with particularity those features and facilities for which the local government will require the establishment of maximum dimensions.

4. Development conditions.

(d) A list of the development impacts, if applicable to the proposed site, which the local government will require to be addressed in a master development plan, including, but not limited to:

1. Drainage.

2. Wastewater.

3. Potable water.

4. Solid waste.

5. Onsite and offsite natural resources.

6. Preservation of historic and archeological resources.

7. Offsite infrastructure.

8. Public services.

9. Compatibility with adjacent offsite land uses.

10. Vehicular and pedestrian entrance to and exit from the site.

11. Offsite transportation impacts.

(e) A provision vesting any existing development rights authorized by the local government before the approval of a master development plan, if requested by the manufacturer.

(f) Whether an expiration date is required for a master development plan and, if required, a provision stating that the expiration date may not be earlier than 10 years after the plan's adoption.

(g) A provision limiting the circumstances that require an amendment to an approved master development plan to the following:

1. Enactment of state law or local ordinance addressing an immediate and direct threat to the public safety that requires

an amendment to the master development order.

2. Any revision to the master development plan initiated by the manufacturer.

(h) A provision stating that the scope of review for any amendment to a master development plan is limited to the amendment and does not subject any other provision of the approved master development plan to further review.

(i) A provision stating that, during the term of a master development plan, the local government may not require additional local development approvals for those development impacts listed in paragraph (d) that are addressed in the master development plan, other than approval of a building permit to ensure compliance with the state building code and any other applicable state-mandated life and safety code.

(j) A provision stating that, before commencing construction or site development work, the manufacturer must submit a certification, signed by a licensed architect, engineer, or landscape architect, attesting that such work complies with the master development plan.

(k) A provision establishing the form that will be used by the local government to certify that a manufacturer is eligible to participate in the local manufacturing development program adopted by that jurisdiction.

(3) A local manufacturing development program ordinance must, at a minimum, be consistent with subsection (2) and establish procedures for:

(a) Reviewing an application from a manufacturer for approval of a master development plan.

(b) Approving a master development plan, which may include

conditions that address development impacts anticipated during the life of the development.

(c) Developing the site in a manner consistent with the master development plan without requiring additional local development approvals other than building permits.

(d) Certifying that a manufacturer is eligible to participate in the local manufacturing development program.

(4)(a) A local government that establishes a local manufacturing development program may not abolish the program until it has been in effect for at least 24 months.

(b) If a local government repeals its local manufacturing development program ordinance:

1. Any application for a master development plan which is submitted to the local government before the effective date of the repeal is vested and remains subject to the local manufacturing development program ordinance in effect when the application was submitted; and

2. The manufacturer that submitted the application is entitled to participate in the manufacturing development coordinated approval process established in s. 163.3253.

Section 4. Section 163.3253, Florida Statutes, is created to read:

163.3253 Coordinated manufacturing development approval process.—Participating agencies shall coordinate the manufacturing development approval process, as set forth in this section, for manufacturers that are developing or expanding in the jurisdiction of a local government that has a local manufacturing development program.

(1) Participating agencies shall collaborate and coordinate

the simultaneous review of applications for the following state development approvals:

(a) Wetland or environmental resource permits.

(b) Surface water management permits.

(c) Stormwater permits.

(d) Consumptive water use permits.

(e) Wastewater permits.

(f) Air emission permits.

(g) Permits relating to listed species.

(h) Highway or roadway access permits.

(i) Any other state development approval within the scope of a participating agency's authority.

(2)(a) When filing its application for state development approval, a manufacturer shall file with each participating agency proof that its development or expansion is located in the jurisdiction of a local government that has a local manufacturing development program.

(b) If a local government repeals its local manufacturing development program ordinance, a manufacturer developing or expanding in that jurisdiction remains entitled to participate in the process if the manufacturer submitted its application for a local government development approval before the effective date of repeal.

(3) At any time during the process, if a manufacturer requests a meeting with one or more participating agencies to facilitate the process, such participating agency shall convene and attend such meeting.

(4) If a participating agency determines that an application is incomplete, the participating agency shall notify

the applicant, in writing, of the additional information necessary to complete the application.

(a) Unless the deadline is waived in writing by the manufacturer, a participating agency shall provide a request for additional information to the manufacturer within 20 days after the date the application is filed with the participating agency.

(b) If the participating agency does not request additional information within the 20-day period, the participating agency may not subsequently deny the application based on the manufacturer's failure to provide additional information.

(c) Within 10 days after the manufacturer's response to the request for additional information, a participating agency may make a second request for additional information for the sole purpose of obtaining clarification of the manufacturer's response.

(5)(a) Unless the deadline is waived in writing by the manufacturer, each participating agency shall take final agency action on a state development approval within its authority within 60 days after a complete application is filed. The 60-day period is tolled by the initiation of a proceeding under ss. 120.569 and 120.57.

(b) A participating agency shall notify the manufacturer if the agency intends to deny a manufacturer's application and, unless waived in writing by the manufacturer, the participating agency shall timely convene an informal meeting to facilitate a resolution.

(c) Unless waived in writing by the manufacturer, if a participating agency does not approve or deny an application within the 60-day period, within the time allowed by a federally

delegated permitting program, or, if a proceeding is initiated under ss. 120.569 and 120.57, within 45 days after a recommended order is submitted to the agency and the parties, the state development approval within the authority of the participating agency is deemed approved. A manufacturer seeking to claim approval by default under this subsection shall notify, in writing, the clerk of the participating agency of that intent. A manufacturer may not take action based on the default approval until such notice is received by the agency clerk.

(d) At any time after a proceeding is initiated under ss. 120.569 and 120.57, the manufacturer may demand expeditious resolution by serving notice on an administrative law judge and all other parties to the proceeding. The administrative law judge shall set the matter for final hearing no more than 30 days after receipt of such notice. After the final hearing is set, a continuance may not be granted without the written agreement of all parties.

(6) Subsections (4) and (5) do not apply to permit applications governed by federally delegated or approved permitting programs to the extent that subsections (4) and (5) impose timeframes or other requirements that are prohibited by or inconsistent with such federally delegated or approved permitting programs.

Section 5. Section 288.111, Florida Statutes, is created to read:

288.111 Information concerning local manufacturing development programs.—The department shall develop materials that identify each local government that establishes a local manufacturing development program under s. 163.3252. The

materials, which the department may elect to develop and maintain in electronic format or in any other format deemed by the department to provide public access, must be updated at least annually. Enterprise Florida, Inc., shall, and other state agencies may, distribute the materials to prospective, new, expanding, and relocating manufacturing businesses seeking to conduct business in this state.

Section 6. This act shall take effect July 1, 2013.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 644
INTRODUCER:	Banking and Insurance Committee and Senator Richter
SUBJECT:	Licensure by the Office of Financial Regulation
DATE:	April 25, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Knudson	Burgess	BI	**Fav/CS**
2.	Erickson	Cannon	CJ	**Favorable**
3.	Sadberry	Sadberry	ACJ	**Favorable**
4.	Sadberry	Hansen	AP	**Fav/CS**
5.				
6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/SB 644 allows the Office of Financial Regulation (OFR) to exercise discretion regarding whether to deny an application for licensure as a mortgage broker or mortgage lender if the applicant's licensure or its equivalent was revoked in any jurisdiction. Current law requires the automatic denial of the licensure application. The bill also changes the method by which the OFR collects fingerprints from applicants for registration as securities dealers, associated persons, or securities issuers and applicants for money services business licensure. The new method of fingerprinting is live-scan processing. Money services business initially approved for licensure before October 1, 2013, must re-submit fingerprints for live scan processing in order to obtain a renewed license set to expire between April 30, 2014, and December 31, 2015.

The Department of Law Enforcement would see an insignificant reduction in the amount of revenue generated from the fees for collecting fingerprints. The department has indicated the fiscal impact would be insignificant on their operations.

Sections 1, 2 and 6 of the bill are effective upon becoming law; the other sections of the bill are effective October 1, 2013.

This bill substantially amends the following sections of the Florida Statutes: 494.00321, 494.00611, 517.12, 560.141, and 560.143.

II. Present Situation:

Licensure as a Mortgage Broker or Mortgage Lender

The Secure and Fair Enforcement for Mortgage Licensing Act of 2008 sets a minimum federal standard that an individual who is an applicant for a state loan originator license must have never had his or her loan originator license revoked in any governmental jurisdiction.[1] In 2009, Florida adopted this requirement for loan originators in s. 494.00312(5), F.S.[2] Florida also adopted parallel requirements for persons (employers, businesses, and individuals) who are applicants for licenses as mortgage brokers and mortgage lenders, exceeding the federal requirement.

According to representatives from the Office of Financial Regulation, the issue that has arisen is that states may use the term "revoked" differently. In Florida, if a licensee does not timely complete the annual renewal or pay the annual fee, their license "expires" on December 31. In other states, if the licensee does not pay that state's annual assessment when due, the regulatory process may be to administratively revoke the permanent license. Therefore, because the license status will be "revoked" in the other state, it would cause the Florida license to be revoked, or a new license application in Florida to be denied, under current law.[3]

Office of Financial Regulation Fingerprint Requirements

Under ch. 517, F.S., no dealer, associated person, or issuer of securities may sell or offer for sale any securities in or from offices in this state, or sell securities to persons in this state from offices outside this state, without being registered with the OFR. Under ch. 560, F.S., persons engaged in business as a money services business (payment instrument seller, foreign currency exchanger, check casher, or money transmitter) must be licensed with the Office. The application for such registration or licensure requires the applicant to submit fingerprint cards that are subsequently processed by the Florida Department of Law Enforcement (FDLE) and Federal Bureau of Investigation (FBI). The FDLE and FBI no longer accept physical fingerprint cards; they now only accept electronic or live-scan fingerprints for processing.[4]

III. Effect of Proposed Changes:

Section 1 amends s. 494.00321(5), F.S., to allow the OFR discretion regarding whether to deny an application for mortgage broker licensure if the applicant has had a mortgage broker license, or its equivalent, revoked in any jurisdiction. Current law requires denial of the application.

---

[1] *See* 12 U.S.C. Sec. 5104(b)(1).
[2] *See* Ch. 2009-241, L.O.F.
[3] Information for this paragraph comes from Analysis of SB 644, Office of Financial Regulation, Financial Services Commission (dated March 26, 2013) (on file with the Committee on Criminal Justice). This analysis is further cited as "OFR Analysis."
[4] *Id.*

Section 2 amends s. 494.00611(5), F.S., to allow the OFR discretion regarding whether to deny an application for mortgage lender licensure if the applicant has had a mortgage broker license, or its equivalent, revoked in any jurisdiction. Current law requires denial of the application.

Section 3 amends s. 517.12(7), F.S., to require securities dealers, associated persons, or securities issuers to submit the fingerprints for live scan processing as part of the mandatory requirement to register with the OFR. The costs of fingerprint processing are borne by the person subject to the background check. Under current law, a fingerprint card of a complete set of fingerprints must be taken by an authorized law enforcement agency or in a manner otherwise approved by rule, and the cost of the fingerprint processing may be borne by the OFR, the employer, or the person subject to the background check.

Section 4 amends s. 560.141, F.S., to require the applicant for money services business licensure to submit the fingerprints for live scan processing as part of the mandatory licensure requirements to register with the OFR. Money services business initially approved for licensure before October 1, 2013, must re-submit fingerprints for live scan processing in order to obtain a renewed license set to expire between April 30, 2014, and December 31, 2015.

The bill also requires the fingerprints to be entered into the statewide automated fingerprint identification system. The OFR must pay an annual fee to the Department of Law Enforcement to participate in the system. The costs of fingerprint processing are borne by the person subject to the background check. Under current law, a fingerprint card of a complete set of fingerprints must be taken by an authorized law enforcement agency, and the cost of the fingerprint processing may be borne by the OFR, the employer, or the person subject to the background check.

Section 5 amends s. 560.143, F.S., to provide that OFR fingerprint retention fees are prescribed by rule.

Section 6 provides effective dates. Sections 1, 2 and 6 of the bill are effective upon becoming law; the other sections of the bill are effective October 1, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The provision of the Committee Substitute requiring currently licensed money services businesses to submit to live-scan fingerprinting may result in additional fees imposed on persons required to undergo live-scan fingerprinting.

The Florida Department of Law Enforcement has provided the following information regarding private sector impact:

Year 1: 500 new applicants x $40.50 + 725 license renewals x $40.50 = $49,613

Year 2: 500 new applicants x $40.50 + 1450 license renewals x $40.50 + 1225 fingerprints retained x $6 = $86,325

Year 3: 500 new applicants x $40.50 + 725 license renewals x $40.50 + 3175 fingerprints retained x $6 = $ 68,663

Each request is $40.50; $24 goes into the FDLE Operating Trust Fund; $16.50 from each request is forwarded to the FBI; not revenue for Florida; but expense for private sector.[5]

C. Government Sector Impact:

The Office of Financial Regulation currently collects fingerprint fees from applicants that are subsequently transferred to the Florida Department of Law Enforcement. Switching from fingerprint cards to live-scan fingerprint processing is estimated to result in the following reductions for Fiscal Year 2013-2014:

- A reduction of $13,275 related to fingerprinting required under ch. 494, F.S. (mortgage brokers and mortgage lenders) and ch. 560, F.S. (money services businesses). The estimated non-operating budget authority needed in Category 310175 is reduced by $95,000.
- A reduction of $121,500 related to elimination of the processing fee for fingerprinting. The estimated non-operating budget authority needed in category 310175 is reduced by $150,000.[6]

The provision of the Committee Substitute requiring currently licensed money services businesses to submit to live-scan fingerprinting may alter the fiscal impact of the bill.

[5] Analysis of SB 644 (dated March 20, 2013), Florida Department of Law Enforcement (on file with the Committee on Criminal Justice).
[6] Telephonic conversation with OFR staff on March 26, 2013, and OFR Analysis.

The Florida Department of Law Enforcement has provided the following information regarding fiscal impact:

			(FY 13-14) Amount/FTE	(FY 14-15) Amount/FTE	(FY 15-16) Amount/FTE
A.	Revenues	OTF	29,400	54,150	48,450

Year 1: 500 new applicants x $24 + 725 license renewals x $24 = $29,400

Year 2: 500 new applicants x $24 + 1450 license renewals x $24 + 1225 fingerprints retained x $6 = $54,150

Year 3: 500 new applicants x $24 + 725 license renewals x $24 + 3175 fingerprints retained x $6 = $ 48,450[7]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Banking and Insurance on March 20, 2013:

- Money services business initially approved for licensure before October 1, 2013, must re-submit fingerprints for live scan processing in order to obtain a renewed license set to expire between April 30, 2014, and December 31, 2015.
- Eliminates the repeal of s. 560.143(1)(f), F.S.
- Specifies that the OFR fingerprint retention fees will be prescribed by rule.

B. Amendments:

None.

[7] *Id.*

By the Committee on Banking and Insurance; and Senator Richter

597-02827-13 2013644c1

A bill to be entitled

An act relating to licensure by the Office of Financial Regulation; amending s. 494.00321, F.S.; authorizing, rather than requiring, the office to deny a mortgage broker license application if the applicant had a mortgage broker license revoked previously; amending s. 494.00611, F.S.; authorizing, rather than requiring, the office to deny a mortgage lender license application if the applicant had a mortgage lender license revoked previously; amending s. 517.12, F.S.; revising the procedures and requirements for submitting fingerprints as part of an application to sell, or offer to sell, securities; removing conflicting language; amending s. 560.141, F.S.; revising the procedures and requirements for submitting fingerprints to apply for a license as a money services business; requiring the Office of Financial Regulation to pay an annual fee to the Department of Law Enforcement; removing conflicting language; amending s. 560.143, F.S.; revising license application fees to include fingerprint retention fees as prescribed by rule; providing effective dates.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Effective upon this act becoming a law, subsection (5) of section 494.00321, Florida Statutes, is amended to read:

494.00321 Mortgage broker license.—

597-02827-13 2013644c1

(5) The office may ~~shall~~ deny a license if the applicant has had a mortgage broker license, or its equivalent, revoked in any jurisdiction, and shall deny a license ~~or~~ if any of the applicant's control persons has had a loan originator license, or its equivalent, revoked in any jurisdiction.

Section 2. Effective upon this act becoming a law, subsection (5) of section 494.00611, Florida Statutes, is amended to read:

494.00611 Mortgage lender license.—

(5) The office may deny ~~not issue~~ a license if the applicant has had a mortgage lender license or its equivalent revoked in any jurisdiction, and shall deny a license if ~~or~~ any of the applicant's control persons has ~~ever~~ had a loan originator license or its equivalent revoked in any jurisdiction.

Section 3. Subsection (7) of section 517.12, Florida Statutes, is amended to read:

517.12 Registration of dealers, associated persons, investment advisers, and branch offices.—

(7) The application must ~~shall~~ also contain such information as the commission or office may require about the applicant; any member, principal, or director of the applicant or any person having a similar status or performing similar functions; any person directly or indirectly controlling the applicant; or any employee of a dealer or of an investment adviser rendering investment advisory services. Each applicant and any direct owners, principals, or indirect owners that are required to be reported on Form BD or Form ADV pursuant to subsection (15) shall submit fingerprints for live-scan

processing in accordance with rules adopted by the commission. The fingerprints may be submitted through a third-party vendor authorized by the Department of Law Enforcement to provide live-scan fingerprinting. The costs of fingerprint processing shall be borne by the person subject to the background check. The Department of Law Enforcement shall conduct a state criminal history background check, and a federal criminal history background check must be conducted through the Federal Bureau of Investigation. The office shall review the results of the state and federal criminal history background checks and determine whether the applicant meets licensure requirements ~~file a complete set of fingerprints. A fingerprint card submitted to the office must be taken by an authorized law enforcement agency or in a manner approved by the commission by rule. The office shall submit the fingerprints to the Department of Law Enforcement for state processing, and the Department of Law Enforcement shall forward the fingerprints to the Federal Bureau of Investigation for federal processing. The cost of the fingerprint processing may be borne by the office, the employer, or the person subject to the background check. The Department of Law Enforcement shall submit an invoice to the office for the fingerprints received each month. The office shall screen the background results to determine if the applicant meets licensure requirements~~. The commission may waive, by rule, the requirement that applicants, including any direct owners, principals, or indirect owners that are required to be reported on Form BD or Form ADV pursuant to subsection (15), submit ~~file a set of~~ fingerprints or the requirement that such fingerprints be processed by the Department of Law Enforcement or the Federal

Bureau of Investigation. The commission or office may require information about any such applicant or person concerning such matters as:

(a) His or her full name, and any other names by which he or she may have been known, and his or her age, social security number, photograph, qualifications, and educational and business history.

(b) Any injunction or administrative order by a state or federal agency, national securities exchange, or national securities association involving a security or any aspect of the securities business and any injunction or administrative order by a state or federal agency regulating banking, insurance, finance, or small loan companies, real estate, mortgage brokers, or other related or similar industries, which injunctions or administrative orders relate to such person.

(c) His or her conviction of, or plea of nolo contendere to, a criminal offense or his or her commission of any acts which would be grounds for refusal of an application under s. 517.161.

(d) The names and addresses of other persons of whom the office may inquire as to his or her character, reputation, and financial responsibility.

Section 4. Subsection (1) of section 560.141, Florida Statutes, is amended to read:

560.141 License application.—

(1) To apply for a license as a money services business under this chapter, the applicant must submit:

(a) ~~Submit~~ An application to the office on forms prescribed by rule which includes the following information:

1. The legal name and address of the applicant, including any fictitious or trade names used by the applicant in the conduct of its business.

2. The date of the applicant's formation and the state in which the applicant was formed, if applicable.

3. The name, social security number, alien identification or taxpayer identification number, business and residence addresses, and employment history for the past 5 years for each officer, director, responsible person, the compliance officer, each controlling shareholder, and any other person who has a controlling interest in the money services business as provided in s. 560.127.

4. A description of the organizational structure of the applicant, including the identity of any parent or subsidiary of the applicant, and the disclosure of whether any parent or subsidiary is publicly traded.

5. The applicant's history of operations in other states if applicable and a description of the money services business or deferred presentment provider activities proposed to be conducted by the applicant in this state.

6. If the applicant or its parent is a publicly traded company, copies of all filings made by the applicant with the United States Securities and Exchange Commission, or with a similar regulator in a country other than the United States, within the preceding year.

7. The location at which the applicant proposes to establish its principal place of business and any other location, including branch offices and authorized vendors operating in this state. For each branch office and each

location of an authorized vendor, the applicant shall include the nonrefundable fee required by s. 560.143.

8. The name and address of the clearing financial institution or financial institutions through which the applicant's payment instruments are drawn or through which the payment instruments are payable.

9. The history of the applicant's material litigation, criminal convictions, pleas of nolo contendere, and cases of adjudication withheld.

10. The history of material litigation, arrests, criminal convictions, pleas of nolo contendere, and cases of adjudication withheld for each executive officer, director, controlling shareholder, and responsible person.

11. The name of the registered agent in this state for service of process unless the applicant is a sole proprietor.

12. Any other information specified in this chapter or by rule.

(b) ~~In addition to the application form, submit:~~

~~1.~~ A nonrefundable application fee as provided in s. 560.143.

(c)~~2.~~ Fingerprints for each person listed in subparagraph (a)3. for live-scan processing in accordance with rules adopted by the commission.

1. The fingerprints may be submitted through a third-party vendor authorized by the Department of Law Enforcement to provide live-scan fingerprinting.

2. The Department of Law Enforcement must conduct the state criminal history background check, and a federal criminal history background check must be conducted through the Federal

Bureau of Investigation.

3. All fingerprints submitted to the Department of Law Enforcement must be submitted electronically and entered into the statewide automated fingerprint identification system established in s. 943.05(2)(b) and available for use in accordance with s. 943.05(2)(g) and (h). The office shall pay an annual fee to the Department of Law Enforcement to participate in the system and shall inform the Department of Law Enforcement of any person whose fingerprints no longer must be retained.

4. The costs of fingerprint processing, including the cost of retaining the fingerprints, shall be borne by the person subject to the background check.

5. The office shall review the results of the state and federal criminal history background checks and determine whether the applicant meets licensure requirements.

6. For purposes of this paragraph, fingerprints are not required to be submitted if ~~A fingerprint card for each of the persons listed in subparagraph (a)3. unless~~ the applicant is a publicly traded corporation~~,~~ or is exempted from this chapter under s. 560.104(1). ~~The fingerprints must be taken by an authorized law enforcement agency. The office shall submit the fingerprints to the Department of Law Enforcement for state processing, and the Department of Law Enforcement shall forward the fingerprints to the Federal Bureau of Investigation for federal processing. The cost of the fingerprint processing may be borne by the office, the employer, or the person subject to the criminal records background check. The office shall screen the background results to determine if the applicant meets licensure requirements. As used in this section,~~ The term

"publicly traded" means a stock is currently traded on a national securities exchange registered with the federal Securities and Exchange Commission or traded on an exchange in a country other than the United States regulated by a regulator equivalent to the Securities and Exchange Commission and the disclosure and reporting requirements of such regulator are substantially similar to those of the commission.

7. Licensees initially approved before October 1, 2013, seeking renewal must submit fingerprints for each person listed in subparagraph (a)3. for live-scan processing pursuant to this paragraph. Such fingerprints must be submitted before the office may renew licenses set to expire between April 30, 2014, and December 31, 2015.

(d)~~3.~~ A copy of the applicant's written anti-money laundering program required under 31 C.F.R. s. 103.125.

(e)~~4.~~ Within the time allotted by rule, any information needed to resolve any deficiencies found in the application.

Section 5. Subsections (1) and (2) of section 560.143, Florida Statutes, are amended to read

560.143 Fees.—

(1) LICENSE APPLICATION FEES.—The applicable non-refundable fees must accompany an application for licensure:

(a) Part II.....$375.

(b) Part III.....$188.

(c) Per branch office.....$38.

(d) For each location of an authorized vendor.....$38.

(e) Declaration as a deferred presentment provider.....$1,000.

(f) Fingerprint retention fees as prescribed by rule.

(g) License application fees for branch offices and authorized vendors are limited to $20,000 when such fees are assessed as a result of a change in controlling interest as defined in s. 560.127.

(2) LICENSE RENEWAL FEES.—The applicable non-refundable license renewal fees must accompany a renewal of licensure:

(a) Part II.....$750.

(b) Part III.....$375.

(c) Per branch office.....$38.

(d) For each location of an authorized vendor.....$38.

(e) Declaration as a deferred presentment provider.....$1,000.

(f) Renewal fees for branch offices and authorized vendors are limited to $20,000 biennially.

(g) Fingerprint retention fees as prescribed by rule.

Section 6. Except as otherwise expressly provided in this act and except for this section, which shall take effect upon this act becoming a law, this act shall take effect October 1, 2013.

Dear Chairman Negron:

Senate Bill 644, related to Licensure by the Office of Financial Regulation, has just been found favorable in the Committee on Criminal and Civil Justice Appropriations. This bill is a very simple, non controversial bill, but an important bill that has passed 3 committees with zero nay votes.

I would appreciate the placing of this bill on the committee's agenda at your earliest convenience.

Thank you for your consideration.

Sincerely,

Garrett Richter

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 662
INTRODUCER:	Appropriations Committee and Senator Hays
SUBJECT:	Workers' Compensation
DATE:	April 25, 2013
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Johnson	Burgess	BI	**Favorable**
2.	Davlantes	Stovall	HP	**Favorable**
3.	Betta/Johnson	Hansen	AP	**Fav/CS**
4.				
5.				
6.				

I. Summary:

CS/SB 662 revises provisions relating to reimbursement for prescription medications under chapter 440, F.S., Florida's Workers' Compensation Law in the following manner:

It is estimated that the implementation of the bill would reduce workers' compensation insurance costs by 0.7 percent or approximately $20 million based on preliminary 2012 statewide workers' compensation insurance premium (insurers and self-insurers).[1]

The Division of Risk Management in the Department of Financial Services estimates that implementation of the bill would result in an estimated annual increase in prescription drug costs of $210,377 to the State Risk Management Program.

The bill:

- Revises the amount of reimbursement for prescription medications of workers' compensation claimants by providing that the reimbursement rate for repackaged or relabeled drugs dispensed by a dispensing practitioner would be capped at 112.5 percent of the average wholesale price (AWP), plus $8.00 for the dispensing fee.
- Maintains the reimbursement rate for other prescription medications at AWP plus $4.18 dispensing fee.
- Provides that the average wholesale price would be calculated by multiplying the number of units dispensed times the per-unit average wholesale price set by the original manufacturer of

[1] National Council on Compensation Insurers, Preliminary Estimate of the impact of the delete-all amendment(barcode 213550) to SB 662, April 22, 2013. On file with Banking and Insurance Committee staff.

the underlying drug dispensed, based upon the published manufacturer average wholesale price published in the Medi-Span Master Drug Database as of the date of dispensing.
- Provides an exception to the reimbursement schedule if the employer or carrier, or a third party acting on behalf of the employer or carrier, directly contracts with a provider seeking reimbursement at a lower rate.
- Prohibits a dispensing practitioner from possessing such medications unless payment has been made to the supplying manufacturer, wholesaler, distributor, or drug repackager within 60 days of the dispensing practitioner taking possession of the medication.

Chapter 440, F.S., generally requires employers and carriers to provide medical and indemnity benefits to workers who are injured due to an accident arising out of and during the course of employment. Medical benefits can include, but are not limited to, medically necessary care and treatment, and prescription medications. In Florida, the prescription reimbursement rate for dispensing physicians and pharmacies is the AWP plus a $4.18 dispensing fee, or the contracted rate, whichever is lower.[2]

This bill amends the following section of the Florida Statutes: 440.13.

II. Present Situation:

State and Federal Regulation of Prescription Drugs

Section 510 of the Federal Food, Drug, and Cosmetic Act (Act), 21 U.S.C. s. 360, requires registered drug establishments to provide the Food and Drug Administration (FDA) with a current list of all drugs manufactured, prepared, propagated, compounded, or processed by it for commercial distribution. Drug products are identified and reported to the FDA using a unique, three-segment number, called the National Drug Code (NDC), which is a universal product identifier for human drugs. The current edition of the NDC Directory is limited to prescription drugs and insulin products that have been manufactured, prepared, propagated, compounded, or processed by registered establishments for commercial distribution.[3]

The term "repackaged" drugs refers to drugs that have been purchased in bulk by a wholesaler/repackager from a manufacturer, relabeled, and repackaged into individual prescription sizes that can be dispensed directly by physicians or pharmacies to patients. Repackagers of drugs are required to register and list all such drug products repackaged and relabeled with the FDA.

In Florida, the Department of Business and Professional Regulation (DBPR) regulates prescription drug repackagers. A permit as a prescription drug repackager is required for any person that repackages a prescription drug in Florida. The permit authorizes the wholesale distribution of prescription drugs repackaged at the establishment.

Rule 64F-12, F.A.C., defines "repackaging or otherwise changing the container, wrapper, or labeling to further the distribution" to mean:

[2] Section 440.13(12), F.S.
[3] *National Drug Code Database Background Information*, U.S. Food and Drug Administration. Found at: <http://www.fda.gov/drugs/developmentapprovalprocess/ucm070829

- Altering a packaging component that is or may be in direct contact with the drug, device, or cosmetic. For example, repackaging from bottles of 1,000 to bottles of 100.
- Altering a manufacturer's package for sale under a label different from the manufacturer. For example: a kit that contains an injectable vaccine from manufacturer A; a syringe from manufacturer B; alcohol from manufacturer C; and sterile gauze from manufacturer D; packaged together and marketed as an immunization kit under a label of manufacturer Z.
- Altering a package of multiple-units, which the manufacturer intended to be distributed as one unit, for sale or transfer to a person engaged in the further distribution of the product.[4]

According to the Workers' Compensation Research Institute, some states, such as Massachusetts, New York, and Texas prohibit physicians from dispensing drugs.[5] In Florida, s. 465.0276(1), F.S., authorizes physicians and pharmacies to dispense, as provided below:

> A person may not dispense medicinal drugs unless licensed as a pharmacist or otherwise authorized under this chapter to do so, except that a practitioner authorized by law to prescribe drugs may dispense such drugs to her or his patients in the regular course of her or his practice in compliance with this section.

To become a dispensing practitioner in Florida, a practitioner is required to register under s. 465.0276, F.S., with the applicable professional licensing board as a dispensing practitioner and pay a $100 fee.[6] Dispensing practitioners must comply with all laws and rules applicable to pharmacists and pharmacies including undergoing inspections. A practitioner registered under this section may not dispense a controlled substance listed in Schedule II or Schedule III in s. 893.03, F.S.[7]

Section 458.347, F.S., allows a supervising physician to delegate dispensing authority to his or her physician assistant (PA). No registration is required for a PA to dispense. The PA may prescribe under his or her supervising physician; however, a PA cannot prescribe controlled substances.

According to advocates of physician dispensers, there are some advantages for patients from physicians dispensing drugs. These benefits may include greater compliance by the patient in taking a drug dispensed directly by the physician, more convenience for patients residing in remote areas, and the benefit of prompt treatment.

---

[4] The Rule provides that repackaging does not include:
a. Selling or transferring an individual unit which is a fully labeled self-contained package that is shipped by the manufacturer in multiple units, or
b. Selling or transferring a fully labeled individual unit, by adding the package insert, by a person authorized to distribute prescription drugs to an institutional pharmacy permit, health care practitioner, or emergency medical service provider for the purpose of administration and not for dispensing or further distribution.

[5] *Prescription Benchmarks for Massachusetts* by the Workers' Compensation Research Institute, March 2010.

[6] If the practitioner is dispensing complimentary packages of medicinal drugs, the practitioner is not required to register.

[7] *See* s. 465.0276(1)(b), F.S.

Health Care Providers in Florida's Workers' Compensation System

A health care provider rendering medical treatment and care to an injured employee must be certified pursuant to Rule 69L-29.002, F.A.C., by the Department of Financial Services (DFS) or deemed certified, pursuant to s. 440.13(1)(d), F.S., as a provider within a managed care organization licensed through the Agency for Health Care Administration. Section 440.13(1) (d), F.S., provides that a "certified health care provider" is a provider approved to receive reimbursement through the Florida workers' compensation system. A certified provider may be a physician, a licensed practitioner, or a facility approved by the DFS or a provider who has entered an agreement with a licensed managed care organization to provide treatment to injured employees. Generally, a certified health care provider must receive authorization from the insurer before providing treatment.

The DFS is authorized to investigate health care providers to determine whether they are complying with the provisions of chapter 440, F.S. In addition, the DFS may impose penalties and sanctions on health care providers for violations of chapter 440, F.S., such as engaging in a pattern or practice of overutilization or improper billing practices.[8]

Section 440.13(14), F.S., provides that fees charged for remedial treatment, care, and attendance, except for independent medical examinations and consensus independent medical examinations, may not exceed the applicable fee schedules adopted under ch. 440, F.S., and department rule. However, if a physician or health care provider specifically agrees in writing to follow identified procedures aimed at providing quality medical care to injured workers at reasonable costs, deviations from established fee schedules are allowed.

Reimbursement for Prescription Drugs in Workers' Compensation

Chapter 440, F.S., is Florida's workers' compensation law. The Division of Workers' Compensation within the DFS is responsible for administering ch. 440, F.S. Generally, employers/carriers are required to provide medical and indemnity benefits to a worker who is injured due to an accident arising out of and during the course of employment. For such compensable injuries, an employer/carrier is responsible for providing medical treatment, which includes, but is not limited to, medically necessary care and treatment and prescription drugs.[9]

The reimbursement method for a prescription medication to pharmacies and dispensing physicians is found in s. 440.13(12)(c), F.S. The reimbursement amount is the average wholesale price (AWP) of the drug plus $4.18 for the dispensing fee, unless the carrier has contracted for a lower amount. The AWP is comparable to a wholesaler's suggested price and the term, AWP, is not defined in ch. 440, F.S. Current law does not provide caps on reimbursements for repackaged or relabeled prescription drugs.

An NDC is assigned to each drug and used to identify the medication and the manufacturer or repackager of the medication. The original drug manufacturer creates an AWP for each drug. Drug repackagers purchase pharmaceuticals in bulk from the manufacturer, then relabel, and

[8] *See* s. 440.13(8) and (11), F.S.
[9] Section 440.13(2)(a), F.S.

repackage the drugs into individual prescription sizes. Although drug repackagers do not alter the drugs, they do sell them in different quantities. By repackaging a drug, a new NDC is created and a new AWP is assigned to the repackaged drug.

Costs of Prescription Drugs in the Workers' Compensation System

According to a recent Workers' Compensation Research Institute (WCRI)[10] report,[11] the average payment per claim for prescription drugs in Florida was $536, which was the second highest average prescription cost per claim among the 17 states in the study. [12] Between 2005-2006 and 2007-2008, the average prescription cost per claim increased 14 percent in Florida. Over the same period, prices per pill paid to physicians grew more rapidly than prices paid to pharmacies for the same prescription. In 2007-2008, the prices paid to physician dispensers for many common drugs were 40-80 percent higher than what was paid to pharmacies for the same drugs. For generic drugs, physicians were paid much higher prices per pill than pharmacies for the same prescription. According to the WCRI, this suggests that if physicians stop dispensing prescription drugs in response to a large price drop, more pharmacies would dispense the same prescriptions at a lower price, resulting in a decline in prescription costs.

III. Effect of Proposed Changes:

The bill amends s. 440.13, F.S., relating to reimbursement rates for prescription medications under chapter 440, F.S., by providing the following changes:

- Creates a new reimbursement schedule for repackaged or relabeled prescription medications dispensed by a dispensing practitioner and requires reimbursement at 112.5 percent of the average wholesale price (AWP), plus $8.00 for the dispensing fee.
- Maintains the reimbursement rate for other prescription medications at AWP plus $4.18 dispensing fee.
- Provides that the AWP is calculated by multiplying the number of units dispensed times the per-unit AWP set by the original manufacturer of the underlying drug dispensed by the practitioner, based upon the published manufacturer AWP published in the Medi-Span Master Drug Database as of the date of dispensing.
- Provides an exception to the reimbursement schedule if the employer or carrier, or a third party acting on behalf of the employer or carrier, directly contracts with a provider seeking reimbursement at a lower rate.
- Prohibits a dispensing practitioner from possessing such medications unless payment has been made to the supplying manufacturer, wholesaler, distributor, or drug repackager within 60 days of the dispensing practitioner taking possession of the medication.

[10] The Workers Compensation Research Institute is an independent, not-for-profit research organization providing information about public policy issues involving workers' compensation systems. Organized in late 1983, the WCRI does not take positions on the issues it researches.
[11] *Prescription Benchmarks for Florida, 2ND Edition,* by Workers' Compensation Research Institute, July 2011.
[12] The following states were included in the WCRI study: Florida, California, Tennessee, Indiana, Texas, Louisiana, Michigan, Minnesota, North Carolina, Iowa, Pennsylvania, Illinois, Maryland, Wisconsin, New Jersey, New York, and Massachusetts.

Under current law, the reimbursement amount is the average wholesale price (AWP) of the drug plus $4.18 for the dispensing fee, unless the carrier has contracted for a lower amount. The term, AWP, is not defined in ch. 440, F.S.

Presently, a National Drug Code (NDC) is assigned to each drug and used to identify the medication and the manufacturer or repackager of the medication. The original drug manufacturer creates an AWP for each drug. Drug repackagers purchase pharmaceuticals in bulk from the manufacturer, then relabel and repackage the drugs into individual prescription sizes. Although drug repackagers do not alter the drugs, they do sell them in different quantities. By repackaging a drug, a new NDC is created and a new AWP is assigned to the repackaged drug. Current law does not provide caps on reimbursements for repackaged or relabeled prescription drugs.

The act takes effect July 1, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The NCCI[13] estimates that the changes proposed in the bill to revise reimbursements for repackaged or relabeled prescription drugs would result in a savings of 0.7 percent or $20 million on overall workers' compensation costs for employers in Florida

C. Government Sector Impact:

The Division of Risk Management in the DFS estimates that implementation of the bill would result in an increase in recurring prescription drug costs of the state risk management program of $210,377 on an annual basis.

[13] In Florida, the National Council on Compensation Insurance (NCCI) is the rating and statistical organization that files rates on behalf of worker's compensation insurers in the state. The Office of Insurance Regulation licenses the NCCI.

The current contract with the DFS and Progressive contains repackaged drug pricing provisions. As the pharmacy benefits manager, Progressive, contracts on behalf of the DFS for a network of pharmacy providers. The repackaged drug price in the PBM contract allows the DFS to argue if reimbursement is disputed that this price controls what is paid to a dispensing physician under s. 440.13(12)(c) F.S., which provides:

> (c) As to reimbursement for a prescription medication, the reimbursement amount for a prescription shall be the average wholesale price plus $4.18 for the dispensing fee, except where the carrier has contracted for a lower amount. Fees for pharmaceuticals and pharmaceutical services shall be reimbursable at the applicable fee schedule amount. Where the employer or carrier has contracted for such services and the employee elects to obtain them through a provider not a party to the contract, the carrier shall reimburse at the schedule, negotiated, or contract price, whichever is lower. No such contract shall rely on a provider that is not reasonably accessible to the employee. (Underlining supplied for emphasis)

For the period of 6/1/11 to 5/31/12, the number of repackaged/relabeled drug transactions for the State Risk Management program was 9,259. Assuming an increase of $3.82 in the dispensing fee for each of those transactions, the total cost increase due to the increased dispensing fee is $35,369.

The total amount paid as the average wholesale price for these transactions, unaffected by any increase in the AWP due to repackaging or relabeling, was $1,400,071. According to the DFS, increasing that amount by 112.5 percent results in $1,575,079, an increase of $175,008.

The total of the $175,008 increase is a result of using 112.5 percent of AWP, and the increase of $35,369 is a result of raising the dispensing fee to $8.00, is an estimated yearly increase in drug costs of $210,377 to the State Risk Management Program.

VI. Technical Deficiencies:

None.

VII. Related Issues:

Under the bill, section 440.13(12)(e), F.S., would prohibit a dispensing practitioner from possessing such medication unless payment has been made to the supplying manufacturer, wholesaler, distributor, or drug repackager within 60 days of the dispensing practitioner taking possession of the medication. It is unclear whether there is a specific sanction or penalty under chapter 440, F.S., that the DFS could impose on a dispensing practitioner for noncompliance with this provision.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations on April 23, 2013:

The committee substitute makes the following changes:

- Creates a new reimbursement schedule for repackaged or relabeled prescription medications dispensed by a dispensing practitioner and requires reimbursement at 112.5 percent of the average wholesale price (AWP), plus $8.00 for the dispensing fee.
- Maintains the reimbursement rate for other prescription medications at AWP plus $4.18 dispensing fee.
- Provides that the AWP is calculated by multiplying the number of units dispensed times the per-unit AWP set by the original manufacturer of the underlying drug dispensed by the practitioner, based upon the published manufacturer AWP published in the Medi-Span Master Drug Database as of the date of dispensing.
- Provides an exception to the reimbursement schedule if the employer or carrier, or a third party acting on behalf of the employer or carrier directly contracts with a provider seeking reimbursement at a lower rate.
- Prohibits a dispensing practitioner from possessing such medications unless payment has been made to the supplying manufacturer, wholesaler, distributor, or drug repackager within 60 days of the dispensing practitioner taking possession of the medication.

B. Amendments:

None.

213550

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
04/25/2013	.	
	.	
	.	
	.	

The Committee on Appropriations (Hays) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Subsection (12) of section 440.13, Florida Statutes, is amended to read:

440.13 Medical services and supplies; penalty for violations; limitations.—

(12) CREATION OF THREE-MEMBER PANEL; GUIDES OF MAXIMUM REIMBURSEMENT ALLOWANCES.—

(a) A three-member panel is created, consisting of the Chief Financial Officer, or the Chief Financial Officer's

213550

designee, and two members to be appointed by the Governor, subject to confirmation by the Senate, one member who, on account of present or previous vocation, employment, or affiliation, shall be classified as a representative of employers, the other member who, on account of previous vocation, employment, or affiliation, shall be classified as a representative of employees. The panel shall determine statewide schedules of maximum reimbursement allowances for medically necessary treatment, care, and attendance provided by physicians, hospitals, ambulatory surgical centers, work-hardening programs, pain programs, and durable medical equipment. The maximum reimbursement allowances for inpatient hospital care shall be based on a schedule of per diem rates, to be approved by the three-member panel no later than March 1, 1994, to be used in conjunction with a precertification manual as determined by the department, including maximum hours in which an outpatient may remain in observation status, which shall not exceed 23 hours. All compensable charges for hospital outpatient care shall be reimbursed at 75 percent of usual and customary charges, except as otherwise provided by this subsection. Annually, the three-member panel shall adopt schedules of maximum reimbursement allowances for physicians, hospital inpatient care, hospital outpatient care, ambulatory surgical centers, work-hardening programs, and pain programs. An individual physician, hospital, ambulatory surgical center, pain program, or work-hardening program shall be reimbursed either the agreed-upon contract price or the maximum reimbursement allowance in the appropriate schedule.

(b) It is the intent of the Legislature to increase the

213550

schedule of maximum reimbursement allowances for selected physicians effective January 1, 2004, and to pay for the increases through reductions in payments to hospitals. Revisions developed pursuant to this subsection are limited to the following:

1. Payments for outpatient physical, occupational, and speech therapy provided by hospitals shall be reduced to the schedule of maximum reimbursement allowances for these services which applies to nonhospital providers.

2. Payments for scheduled outpatient nonemergency radiological and clinical laboratory services that are not provided in conjunction with a surgical procedure shall be reduced to the schedule of maximum reimbursement allowances for these services which applies to nonhospital providers.

3. Outpatient reimbursement for scheduled surgeries shall be reduced from 75 percent of charges to 60 percent of charges.

4. Maximum reimbursement for a physician licensed under chapter 458 or chapter 459 shall be increased to 110 percent of the reimbursement allowed by Medicare, using appropriate codes and modifiers or the medical reimbursement level adopted by the three-member panel as of January 1, 2003, whichever is greater.

5. Maximum reimbursement for surgical procedures shall be increased to 140 percent of the reimbursement allowed by Medicare or the medical reimbursement level adopted by the three-member panel as of January 1, 2003, whichever is greater.

(c) As to reimbursement for a prescription medication, the reimbursement amount for a prescription shall be the average wholesale price plus $4.18 for the dispensing fee~~, except where the carrier has contracted for a lower amount~~. For repackaged or

213550

relabeled prescription medications dispensed by a dispensing practitioner as provided in s. 465.0276, the fee schedule for reimbursement shall be 112.5 percent of the average wholesale price, plus $8.00 for the dispensing fee. For purposes of this subsection, the average wholesale price shall be calculated by multiplying the number of units dispensed times the per-unit average wholesale price set by the original manufacturer of the underlying drug dispensed by the practitioner, based upon the published manufacturer's average wholesale price published in the Medi-Span Master Drug Database as of the date of dispensing. All pharmaceutical claims submitted for repackaged or relabeled prescription medications must include the National Drug Code of the original manufacturer. Fees for pharmaceuticals and pharmaceutical services shall be reimbursable at the applicable fee schedule amount except where the employer or carrier, or a service company, third party administrator, or any entity acting on behalf of the employer or carrier directly contracts with the provider seeking reimbursement for a lower amount. ~~Where the employer or carrier has contracted for such services and the employee elects to obtain them through a provider not a party to the contract, the carrier shall reimburse at the schedule, negotiated, or contract price, whichever is lower. No Such contract shall rely on a provider that is not reasonably accessible to the employee.~~

(d) Reimbursement for all fees and other charges for such treatment, care, and attendance, including treatment, care, and attendance provided by any hospital or other health care provider, ambulatory surgical center, work-hardening program, or pain program, must not exceed the amounts provided by the

uniform schedule of maximum reimbursement allowances as determined by the panel or as otherwise provided in this section. This subsection also applies to independent medical examinations performed by health care providers under this chapter. In determining the uniform schedule, the panel shall first approve the data which it finds representative of prevailing charges in the state for similar treatment, care, and attendance of injured persons. Each health care provider, health care facility, ambulatory surgical center, work-hardening program, or pain program receiving workers' compensation payments shall maintain records verifying their usual charges. In establishing the uniform schedule of maximum reimbursement allowances, the panel must consider:

1. The levels of reimbursement for similar treatment, care, and attendance made by other health care programs or third-party providers;

2. The impact upon cost to employers for providing a level of reimbursement for treatment, care, and attendance which will ensure the availability of treatment, care, and attendance required by injured workers;

3. The financial impact of the reimbursement allowances upon health care providers and health care facilities, including trauma centers as defined in s. 395.4001, and its effect upon their ability to make available to injured workers such medically necessary remedial treatment, care, and attendance. The uniform schedule of maximum reimbursement allowances must be reasonable, must promote health care cost containment and efficiency with respect to the workers' compensation health care delivery system, and must be sufficient to ensure availability

213550

of such medically necessary remedial treatment, care, and attendance to injured workers; and

4. The most recent average maximum allowable rate of increase for hospitals determined by the Health Care Board under chapter 408.

(e) In addition to establishing the uniform schedule of maximum reimbursement allowances, the panel shall:

1. Take testimony, receive records, and collect data to evaluate the adequacy of the workers' compensation fee schedule, nationally recognized fee schedules and alternative methods of reimbursement to certified health care providers and health care facilities for inpatient and outpatient treatment and care.

2. Survey certified health care providers and health care facilities to determine the availability and accessibility of workers' compensation health care delivery systems for injured workers.

3. Survey carriers to determine the estimated impact on carrier costs and workers' compensation premium rates by implementing changes to the carrier reimbursement schedule or implementing alternative reimbursement methods.

4. Submit recommendations on or before January 1, 2003, and biennially thereafter, to the President of the Senate and the Speaker of the House of Representatives on methods to improve the workers' compensation health care delivery system.

The department, as requested, shall provide data to the panel, including, but not limited to, utilization trends in the workers' compensation health care delivery system. The department shall provide the panel with an annual report

213550

regarding the resolution of medical reimbursement disputes and any actions pursuant to subsection (8). The department shall provide administrative support and service to the panel to the extent requested by the panel. For prescription medication purchased under the requirements of this subsection, a dispensing practitioner shall not possess such medication unless payment has been made by the practitioner, the practitioner's professional practice, or the practitioner's practice management company or employer to the supplying manufacturer, wholesaler, distributor, or drug repackager within 60 days of the dispensing practitioner taking possession of that medication.

Section 2. This act shall take effect July 1, 2013.

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

Delete everything before the enacting clause and insert:

A bill to be entitled

An act relating to workers' compensation; amending s. 440.13, F.S.; revising requirements for determining the amount of a reimbursement for repackaged or relabeled prescription medication; providing an exception; prohibiting a dispensing manufacturer from possession of a medicinal drug until certain persons are paid; providing an effective date.

By Senator Hays

11-00036D-13 2013662__

A bill to be entitled

An act relating to workers' compensation; amending s. 440.13, F.S.; revising requirements for determining the amount of a reimbursement for repackaged or relabeled prescription medication; providing limitations; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (c) of subsection (12) of section 440.13, Florida Statutes, is amended to read:

440.13 Medical services and supplies; penalty for violations; limitations.—

(12) CREATION OF THREE-MEMBER PANEL; GUIDES OF MAXIMUM REIMBURSEMENT ALLOWANCES.—

(c) As to reimbursement for a prescription medication, regardless of the location from which or the provider from whom the claimant receives the prescription medication, the reimbursement amount ~~for a prescription~~ shall be the average wholesale price plus $4.18 for the dispensing fee, unless ~~except where~~ the carrier has contracted for a lower amount. If the drug has been repackaged or relabeled, the reimbursement amount shall be calculated by multiplying the number of units dispensed times the per-unit average wholesale price set by the original manufacturer of the underlying drug, which may not be the manufacturer of the repackaged or relabeled drug, plus a $4.18 dispensing fee, unless the carrier has contracted for a lower amount. The repackaged or relabeled drug price may not exceed the amount otherwise payable had the drug not been repackaged or

11-00036D-13 2013662__

relabeled. Fees for pharmaceuticals and pharmaceutical services shall be reimbursable at the applicable fee schedule amount. If ~~Where~~ the employer or carrier has contracted for such services and the employee elects to obtain them through a provider not a party to the contract, the carrier shall reimburse at the schedule, negotiated, or contract price, whichever is lower. ~~No~~ Such contract may not ~~shall~~ rely on a provider that is not reasonably accessible to the employee.

Section 2. This act shall take effect July 1, 2013.

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/CS/SB 732 requires a Class II institutional pharmacy to add biological products, biosimilars, and biosimilar interchangeables to its institutional formulary system.

Under the bill, pharmacists may provide biosimilar products to patients in place of biologics if:

- The federal Food and Drug Administration (FDA) has determined that the substitute biological product is biosimilar to and interchangeable for the prescribed biological product;
- The prescriber does not express any preference against such a substitution;
- The person presenting the prescription is notified of the substitution in a manner consistent with s. 465.025(3), F.S.; and
- The pharmacist retains a record of the substitution for at least two years.

The bill is estimated to have no immediate fiscal impact while representing an indeterminate amount of possible cost savings in out-years.

A pharmacist who practices in a Class II or modified Class II institutional pharmacy must comply with the reporting provisions by entering the substitution into the institution's medical

record system. The bill also requires the Board of Pharmacy to maintain on its public website a list of biological products that the FDA has determined to be biosimilar and interchangeable.

The bill amends section 465.019, Florida Statutes.

The bill creates section 465.0252, Florida Statutes.

II. Present Situation:

"Brand Name" Chemical Drugs and Generic Chemical Drugs

A "brand name" chemical drug is manufactured with simple chemical ingredients that have uniform, predictable structures which are easy to characterize and replicate. The potency of a "brand name" chemical drug is determined by a defined chemical process. A generic chemical drug has the identical active substance and biological effect as its "brand name" counterpart. A generic chemical drug differs from a "brand name" chemical drug by inactive ingredients contained in the chemical structure and the rate and extent of absorption by the human body.

The federal Food, Drug and Cosmetic Act, as amended by the Drug Price Competition and Patent Term Restoration Act of 1984 (the Hatch-Waxman Act), established the Abbreviated New Drug Application process, creating a pathway for approval of generic medications, primarily for chemical drugs.[1] Since 1984, the FDA has approved more than 8,000 generic drugs, resulting in hundreds of billions of dollars in cost savings to consumers.[2] In 2009, almost 75 percent of pharmaceutical prescriptions dispensed in the U.S. were generic medications.[3]

Biological Products and Biosimilar Biological Products

A biological product (biologic), in contrast to a chemical drug, is a large and complex protein, generally produced using a living system or organism.[4] It is heterogeneous and difficult to characterize. The effectiveness of a biologic is expressed in a biological system, meaning the biologic interacts with the human body, or an animal's body, to produce the desired effect. A biologic can be manufactured through a biotechnological process, derived from natural sources, or completely synthesized in a laboratory setting.[5]

A biosimilar biological product (biosimilar) has a similar, but not identical, active substance to another biologic. The biological activity of a biosimilar may vary as compared to another

[5] Id.

biologic. Because of the variable nature of a biosimilar, it is critical to identify the differences and determine which differences matter clinically. The determination of clinically meaningful differences between a biologic and its biosimilar can be exhibited through animal studies that measure toxicity, clinical studies on humans, and other scientifically accepted metrics.

In 2011, roughly 25 percent of the $320 billion spent on pharmaceuticals in the U.S., was spent on biologics.[6] Each year, patients in the U.S. receive over 200 million vaccinations, 29 million transfusions of blood and blood components, and 1.6 million transplants of musculoskeletal tissue, all of which require the use of biologics.[7]

There is no existing market for biosimilars currently in the U.S.[8] Twelve biologics with global sales exceeding $67 billion will lose patent protection by 2020 and will be open to biosimilar competition.[9] By 2015, sales of biosimilars worldwide are expected to range between $1.9 billion and $2.6 billion, up from $378 million in the first half of 2011.[10] The U.S. is forecast to be the largest potential market for biosimilar sales by 2020, with a market value between $11 billion and $25 billion, representing a 4 percent to 10 percent share of the total biologics market.[11] Biosimilars are forecast to represent up to 50 percent of the off-patent biological market by 2020, with an assumed price discount between 20 percent and 30 percent when compared to biologics.[12]

The U.S. Federal Trade Commission predicts that the availability of biosimilars will significantly reduce the cost of biologics and increase their accessibility.[13]

The Biologics Price Competition and Innovation Act of 2010

The Biologics Price Competition and Innovation Act (BPCIA) was enacted as part of the Patient Protection and Affordable Care Act on March 23, 2010.[14] The BPCIA amends the Public Health Service Act and other statutes to create an abbreviated licensure pathway for biologics demonstrated to be biosimilar to or interchangeable with a reference biologic.[15] The BPCIA

[15] A reference product is an existing biological product against which another biological product is compared to determine biosimilarity and interchangeability.

establishes the requirements for an application for a proposed biosimilar and an application for a proposed interchangeable product.[16]

The application must include information demonstrating biosimilarity, based on data derived in part from "analytical studies that demonstrate that the biological product is highly similar to the reference product notwithstanding minor differences in clinically inactive components;"[17] animal studies that include an assessment of toxicity;[18] and a clinical study or studies sufficient to establish safety, purity, and potency of the biosimilar.[19] Biosimilarity means that a biologic is highly similar to the reference biologic, even when considering the differences in clinically inactive components, and that there are no clinically meaningful differences between the biologic and the reference biologic in terms of safety, purity, and potency.[20]

The FDA will use a totality-of-the evidence approach in reviewing biosimilar applications, meaning all available data submitted in support of biosimilarity and the proposed biosimilar will be evaluated before a determination is made regarding biosimilarity and interchangeability.[21] To meet the standard of interchangeability, an applicant must provide sufficient information to demonstrate biosimilarity and also demonstrate that the biologic can be expected to produce the same clinical result as the reference product in any given patient. In addition, an applicant must demonstrate that, if the biologic is administered more than once to an individual, the risk in terms of safety or diminished efficacy of alternating or switching between the use of the biosimilar and the reference product is not greater than the risk of using the reference product without an alternation or switch in products.[22]

Pending FDA Rules on Biosimilars and Interchangeability

On February 9, 2012, the FDA issued three draft guidance documents regarding biosimilars and interchangeability. The documents, referenced as *Guidance for Industry*, answered questions regarding implementation of the BPCIA[23] and detailed scientific and quality considerations to be addressed in demonstrating biosimilarity.[24] The guidance documents have not yet been finalized by the FDA.

The Federal Food, Drug, and Cosmetic Act, as amended by the Biosimilar User Fee Act of 2012 (BsUFA), authorizes the FDA to assess and collect fees for biosimilars from October 2012 through September 2017.[25] The FDA dedicates these fees to expediting the review process for approval of biosimilars. The FDA has determined that biosimilars represent an important public health benefit, with the potential to offer life-saving or life-altering benefits at reduced cost to the patient. According to the FDA, BsUFA facilitates the development of safe and effective biosimilars for the American public.[26]

The FDA is currently meeting with sponsors of proposed biosimilars, having received 50 requests for meetings and fulfilling 37 of those requests.[27] In addition, the FDA has approved 14 Investigative New Drug applications (INDs) for clinical development of proposed biosimilars.[28] The FDA has also noted it is engaged in active discussions with many sponsors at the pre-IND stage, indicating further clinical development of biosimilars in the near future.[29] The FDA does not expect to diverge greatly from the policies established by the European Medicines Agency for approval of biosimilars for sale in the European Union and other specific countries.[30]

Biosimilars in Europe

The European Medicines Agency (EMA) is a decentralized agency of the European Union (EU), located in London, England. It is the scientific body of the European Commission (EC).[31] The EMA's primary responsibility is the "protection and promotion of public and animal health through the evaluation and supervision of medicines for human and veterinary use."[32]

The EMA is responsible for the scientific evaluation of applications for EU marketing authorizations for human and veterinary medicines governed by the "centralised procedure."[33] Under the "centralised procedure," pharmaceutical companies submit a single marketing-authorization application to the EMA.[34] Medicines are then approved by the EC based on the positive scientific opinion of the EMA and its expert committee, the Committee on Human

Medicinal Products.[35] Once granted by the EC, a centralized marketing authorization is valid in all EU Member States, as well as Iceland, Liechtenstein, and Norway.[36] By law, a company can only market a medicine once it has received a marketing authorization.[37]

The "centralised procedure" is mandatory for:

- Human medicines for the treatment of HIV/AIDS, cancer, diabetes, neurodegenerative diseases, auto-immune and other immune dysfunctions, and viral diseases;
- Veterinary medicines for use as growth or yield enhancers;
- Medicines derived from biotechnology processes, such as genetic engineering;
- Advanced-therapy medicines, such as gene-therapy, somatic cell-therapy, or tissue-engineered medicines; and
- Officially designated medicines used for rare human diseases.[38]

Biologics and biosimilars fall within the mandatory "centralised procedure" for approval and marketing within the EU and other specified European countries.

In 2003, the EMA created a new pathway for approving biosimilar medicines.[39] The central feature of the evaluation process is the comparison of the biosimilar with its reference product to show that there are no significant differences between them.[40] The EMA further explains the evaluation process to determine biosimilarity, which is very similar to the proposed pathway process in the U.S.:

> The relevant regulatory authority applies stringent criteria in their evaluation of the studies comparing the quality, safety and effectiveness of the two medicines. The studies on quality include comprehensive comparisons of the structure and biological activity of their active substances, while the studies on safety and effectiveness should show that there are no significant differences in their benefits and risks, including the risk of immune reactions.

One critical difference between the approval process established by the EMA and the proposed pathway outlined by the FDA is that the EMA does not make recommendations on whether a biosimilar can be used interchangeably with its reference product.[41] The FDA will determine interchangeability, which in turn will determine whether a biosimilar can be substituted for a prescription biologic by a pharmacist.

The EMA published general guidelines on biosimilars in 2005 and approved its first biosimilar in 2006.[42] As of February 2012, the EMA had approved 14 biosimilar products,[43] with reference products including filgrastim,[44] epoetin,[45] and somatropin.[46]

Institutional Pharmacy

Florida law requires any institution, such as a hospital, seeking to operate a pharmacy to obtain a permit from the Department of Health (DOH).[47] The DOH has established three classes of permit for institutional pharmacies:

- Class I:[48] All medicinal drugs are administered from individual prescription containers to individual patients. Medicinal drugs are not dispensed on premises. An exception is noted to allow licensed nursing homes to purchase and administer oxygen to residents.
- Class II:[49] The pharmacy employs a licensed pharmacist to dispense medication to patients in the institution for use on the premises. Class II institutional pharmacies are most often located in hospitals.
- Modified Class II:[50] The pharmacy is located in a short-term, primary care treatment center which meets all the requirements for a Class II permit. Modified Class II pharmacies are classified according to the type of pharmaceutical delivery system, either a patient-specific or bulk drug system, as Type A, Type B, and Type C.[51]

Medicinal drugs can only be dispensed from an institutional pharmacy with a community pharmacy permit from DOH.[52] In a Class II institutional pharmacy, medical staff of the institution may approve a formulary system that identifies medicinal drugs and proprietary preparations that may be dispensed by the institutional pharmacist.[53] Any facility with a Class II institutional pharmacy permit must develop policies and procedures regarding the formulary that are consistent with established standards by the American Hospital Association and the American Society of Hospital Pharmacists.[54]

Pharmacist Substitution in Florida

In general, a pharmacist in Florida is required to substitute a less expensive generic medication for a prescribed brand name medication.[55] The presenter of the prescription may specifically

[48] S. 465.019(2)(a), F.S.
[49] S. 465.019(2)(b), F.S.
[50] S. 465.019(2)(c), F.S.
[51] Rule 64B-16-28.702(2)(b)-(d), F.A.C.
[52] S. 465.019(4), F.S.; see also s. 465.018, F.S., regarding community pharmacy permits.
[53] S. 465.019(6), F.S.
[54] Id.
[55] S. 465.025(2), F.S.

request the brand name medication.[56] Also, the prescriber may prevent substitution by indicating the brand name medication is "medically necessary" in writing, orally, or, in the case of an electronic transmission of the prescription, by making an overt act to indicate the brand name medication is "medically necessary."[57] The pharmacist must inform the presenter of the prescription that a substitution has been made, advise the presenter that he or she may refuse the substitution and request the brand name medication, and pass on to the consumer the full amount of any savings realized by the substitution.[58]

Each pharmacy is required to establish a formulary of brand name medications and generic medications which, if selected as the drug product of choice, pose no threat to patient health and safety.[59] The Board of Pharmacy and the Board of Medicine are required to establish a formulary which lists brand name medications and generic medications that are determined to be clinically different so as to be biologically and therapeutically inequivalent.[60] Substitution of the drugs included in this formulary would pose a threat to patient health and safety.[61] The boards are required to distribute the formulary to licensed and registered pharmacies and pharmacists.[62] Each board that regulates practitioners licensed by the state to prescribe medications must incorporate the formulary into its rules.[63] No pharmacist may substitute a generic medication for a brand name medication if either medication is included in the formulary.[64]

There is no provision in Florida law regarding substitution for biosimilars.

III. Effect of Proposed Changes:

Section 1 amends s. 465.019, F.S., to authorize a Class II institutional pharmacy to add biological products, biosimilars, and biosimilar interchangeables to its institutional formulary system.

Section 2 creates s. 465.0252, F.S., relating to substitution of biosimilar products. The bill provides definitions for "biological product," "biosimilar, and "interchangeable" consistent with how these terms are defined in the federal Public Health Service Act.[65] The bill offers guidelines for when pharmacists may substitute a biosimilar product for a prescribed biologic. This substitution may occur if:

---

[56] Id.
[57] Id.
[58] S. 465.025(3)(a), F.S.; *see also* Rule 64B-16-27.530, F.A.C.
[59] S. 465.025(5), F.S.; *see also* Rule 64B-16.27.520, F.A.C.
[60] S. 465.025(6), F.S.; *see also* Rule 64B-16.27.500, F.A.C.
[61] Id.
[62] S. 465.025(6)(b), F.S.
[63] Id.
[64] Id.
[65] 42 U.S.C. s. 262. In this section, "biological product" means a virus, therapeutic serum, toxin, antitoxin, vaccine, blood, blood component or derivative, allergenic product, protein (except any chemically synthesized polypeptide), or analogous product, or arsphenamine or derivative of arsphenamine (or any other trivalent organic arsenic compound), applicable to the prevention, treatment, or cure of a disease or condition of human beings. "Biosimilar" means that the biological product is highly similar to the reference product notwithstanding minor differences in chemically inactive components and there are no clinically meaningful differences between the biological product and the reference product in terms of the safety, purity, and potency of the product. "Interchangeable" means that the biological product may be substituted for the reference product without the intervention of the health care provider who prescribed the reference product.

- The FDA has determined that the substitute biological product is biosimilar to and interchangeable for the prescribed biological product;
- The prescriber does not express any preference against such a substitution;
- The pharmacist notifies the person presenting the prescription of the substitution in a manner consistent with s. 465.025(3), F.S; and
- The pharmacist retains a written or electronic record of the substitution for at least two years.

A pharmacist who practices in a Class II or modified Class II institutional pharmacy must comply with the notification provisions by entering the substitution into the institution's medical record system. The bill also requires the Board of Pharmacy to maintain on its public website a list of biological products that the FDA has determined to be biosimilar and interchangeable.

Section 3 provides an effective date of July 1, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The bill provides a pathway to establish a broader market for biosimilars in Florida through interchangeability with biologics. Once the FDA approves a biosimilar, it may be prescribed in Florida without intervention from the Legislature if the prescriber writes specifically for that biosimilar. However, this bill allows a biosimilar which the FDA approves to be interchangeable with a biologic to be lawfully substituted for a prescribed biologic. Patients will have the opportunity to use biosimilars in place of biologic products, potentially at a reduced cost.

C. Government Sector Impact:

While a biosimilar market does not currently exist in the U.S., it is anticipated that once biosimilars are approved by the FDA and deemed interchangeable with prescription

biologics, Medicaid and the state group insurance program may realize cost savings due to substitution of less expensive biosimilars for prescription biologics. The estimate of cost savings is indeterminate.

VI. Technical Deficiencies:

None.

VII. Related Issues:

The FDA has yet to approve any biosimilars. Under the bill, the state will pass legislation allowing biosimilars to be interchanged with biologics when such biosimilars do not exist.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 23, 2013:
The CS removes from the bill requirements for pharmacists to notify prescribers of substitutions and for prescribers to retains records of substitutions.

CS by Health Policy on April 2, 2013:
The CS authorizes a Class II institutional pharmacy to add biological products, biosimilars, and biosimilar interchangeables to its institutional formulary system. It provides definitions for "biological product," "biosimilar," and "interchangeable" consistent with how these terms are defined in the federal Public Health Service Act and deletes the requirement that pharmacists verify that a substituted biological product is biosimilar with the prescribed product *for the specified, indicated use*. The bill reduces the time a pharmacist has to notify a prescribing practitioner of a substitution and the time a pharmacist and a practitioner must retain a record of such substitution to five days and two years, respectively.

The bill permits pharmacists at Class II or modified Class II pharmacies to fulfill reporting requirements by entering the substitution into the institution's medical record system. The bill also requires the Board of Pharmacy to maintain on its public website a list of biological products that the FDA has determined to be biosimilar and interchangeable.

B. Amendments:

None.

613416

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
04/25/2013	.	
	.	
	.	
	.	

The Committee on Appropriations (Galvano) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Subsection (6) of section 465.019, Florida Statutes, is amended to read:

465.019 Institutional pharmacies; permits.—

(6) In a Class II institutional pharmacy, an institutional formulary system may be adopted with approval of the medical staff for the purpose of identifying those medicinal drugs, ~~and~~ proprietary preparations, biologics, biosimilars, and biosimilar interchangeables that may be dispensed by the pharmacists

613416

employed in such institution. A facility with a Class II institutional permit which is operating under the formulary system shall establish policies and procedures for the development of the system in accordance with the joint standards of the American Hospital Association and American Society of Hospital Pharmacists for the utilization of a hospital formulary system, which formulary shall be approved by the medical staff.

Section 2. Section 465.0252, Florida Statutes, is created to read:

465.0252 Substitution of interchangeable biosimilar products.—

(1) As used in this section, the terms "biological product," "biosimilar," and "interchangeable" have the same meanings as defined in s. 351 of the federal Public Health Service Act, 42 U.S.C. s. 262.

(2) A pharmacist may only dispense a substitute biological product for the prescribed biological product if:

(a) The United States Food and Drug Administration has determined that the substitute biological product is biosimilar to and interchangeable for the prescribed biological product.

(b) The prescribing health care provider does not express a preference against substitution in writing, verbally, or electronically.

(c) The pharmacist notifies the person presenting the prescription of the substitution in the same manner as provided in s. 465.025(3)(a).

(d) The pharmacist retains a written or electronic record of the substitution for at least 2 years.

(3) A pharmacist who practices in a class II or modified

613416

class II institutional pharmacy shall comply with the notification provisions of paragraph (2)(c) by entering the substitution in the institution's written medical record system or electronic medical record system.

(4) The board shall maintain on its public website a current list of biological products that the United States Food and Drug Administration has determined are biosimilar and interchangeable as provided in paragraph (2)(a).

Section 3. This act shall take effect July 1, 2013.

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

Delete everything before the enacting clause and insert:

A bill to be entitled

An act relating to pharmacy; amending s. 465.019, F.S.; permitting a class II institutional pharmacy formulary to include biologics, biosimilars, and biosimilar interchangeables; creating s. 465.0252, F.S.; providing definitions; providing requirements for a pharmacist to dispense a substitute biological product that is determined to be biosimilar to and interchangeable for the prescribed biological product; providing notification requirements for a pharmacist in a class II or modified class II institutional pharmacy; requiring the Board of Pharmacy to maintain a current list of interchangeable biosimilar products; providing an effective date.

By the Committee on Health Policy; and Senator Grimsley

588-03414A-13 2013732c1

A bill to be entitled

An act relating to pharmacy; amending s. 465.019, F.S.; permitting a class II institutional pharmacy formulary to include biologics, biosimilars, and biosimilar interchangeables; creating s. 465.0252, F.S.; providing definitions; providing requirements for a pharmacist to dispense a substitute biological product that is determined to be biosimilar to and interchangeable for the prescribed biological product; providing notification requirements for a pharmacist in a class II or modified class II institutional pharmacy; requiring the Board of Pharmacy to maintain a current list of interchangeable biosimilar products; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (6) of section 465.019, Florida Statutes, is amended to read:

465.019 Institutional pharmacies; permits.—

(6) In a Class II institutional pharmacy, an institutional formulary system may be adopted with approval of the medical staff for the purpose of identifying those medicinal drugs, ~~and~~ proprietary preparations, biological products, biosimilars, and biosimilar interchangeables that may be dispensed by the pharmacists employed in such institution. A facility with a Class II institutional permit which is operating under the formulary system shall establish policies and procedures for the development of the system in accordance with the joint standards

588-03414A-13 2013732c1

of the American Hospital Association and American Society of Hospital Pharmacists for the utilization of a hospital formulary system, which formulary shall be approved by the medical staff.

Section 2. Section 465.0252, Florida Statutes, is created to read:

465.0252 Substitution of interchangeable biosimilar products.—

(1) As used in this section, the terms "biological product," "biosimilar," and "interchangeable" have the same meanings as defined in s. 351 of the federal Public Health Service Act, 42 U.S.C. s. 262.

(2) A pharmacist may only dispense a substitute biological product for the prescribed biological product if:

(a) The United States Food and Drug Administration has determined that the substitute biological product is biosimilar to and interchangeable for the prescribed biological product.

(b) The practitioner ordering the prescription does not express a preference against substitution in writing, verbally, or electronically.

(c) The pharmacist notifies the person presenting the prescription of the substitution in the same manner as provided in s. 465.025(3)(a).

(d) The pharmacist or the pharmacist's agent, within 5 business days after dispensing the substitute biological product in lieu of the prescribed biological product, notifies the practitioner ordering the prescription of the substitution by facsimile, telephone, voicemail, e-mail, electronic medical record, or other electronic means.

(e) The pharmacist and the practitioner ordering the

prescription each retain a written or electronic record of the substitution for at least 2 years.

(3) A pharmacist who practices in a class II or modified class II institutional pharmacy shall comply with the notification provisions of paragraphs (2)(c) and (d) by entering the substitution in the institution's written medical record system or electronic medical record system.

(4) The board shall maintain on its public website a current list of biological products that the United States Food and Drug Administration has determined are biosimilar and interchangeable as provided in paragraph (2)(a).

Section 3. This act shall take effect July 1, 2013.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	SB 742
INTRODUCER:	Senator Evers
SUBJECT:	Parole Interview Dates for Certain Inmates
DATE:	April 24, 2013
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Clodfelter	Cannon	CJ	**Favorable**
2.	Shankle	Cibula	JU	**Favorable**
3.	Cantral	Sadberry	ACJ	**Favorable**
4.	Cantral	Hansen	AP	**Favorable**
5.				
6.				

I. Summary:

SB 742 permits the Florida Parole Commission to increase the interval between parole interviews to 7 years for offenders convicted of kidnapping or attempted kidnapping, or of a completed or attempted offense of robbery, burglary of a dwelling, burglary of a structure or conveyance, or breaking and entering when a human being is present and a sexual act is completed or attempted. Interviews for those offenders are currently every 2 years.

The bill has an indeterminate, but likely insignificant, fiscal impact.

The bill has an effective date of July 1, 2013.

This bill substantially amends the following sections of the Florida Statutes: 947.16, 947.174, and 947.1745.

This bill reenacts section 947.165(1), Florida Statutes.

II. Present Situation:

Parole is a discretionary prison release mechanism administered by the Florida Parole Commission ("the commission"). The only inmates who are eligible for parole consideration are those who committed capital sexual battery prior to October 1, 1995, capital sexual murder prior to October 1, 1994, or another crime prior to October 1, 1983.[1] Approximately 5,200 Florida

[1] See s. 921.002(1)(e), F.S., requiring a person convicted of a crime that occurred on or after October 1, 1988, to serve at least 85 percent of the sentence and excluding such persons from eligibility for parole under chapter 947, F.S. This section is a

inmates are still eligible for parole consideration because parole applied to their offense at the time it was committed.[2]

An inmate who is granted parole is allowed to serve the remainder of his or her prison sentence outside of confinement according to terms and conditions established by the commission. Parolees are supervised by Correctional Probation Officers of the Department of Corrections. As of December 31, 2012, 350 offenders were actively supervised on parole from Florida sentences.[3]

The parole process begins with an initial interview that is the first step in setting the inmate's presumptive parole release date (PPRD). The date of the initial interview depends upon the length and character of the parole-eligible sentence. The PPRD is set by the commission after a parole examiner reviews the inmate's file, interviews the inmate, and makes an initial recommendation.[4]

In many cases, the commission will establish a PPRD that does not result in release of the inmate within a short period of time. A release order by the commission may also be altered in two other ways before it is implemented: (1) it may be vacated pursuant to s. 947.16(4), F.S., by a sentencing court that has retained jurisdiction over the offender; or (2) it may be modified by the commission after considering the objections of a sentencing court that has not retained jurisdiction pursuant to s. 947.1745(6), F.S. In all three situations, the inmate is entitled to a subsequent reinterview. The time frame for holding a reinterview (and any further reinterviews) is determined by the inmate's criminal history:

- An inmate who was not convicted of murder or attempted murder, sexual battery or attempted sexual battery, or serving a 25-year minimum mandatory sentence under s. 775.082, F.S., must be reinterviewed within 2 years after the initial interview and every 2 years thereafter.[5]
- An inmate who was convicted of one of the above offenses may have a reinterview scheduled within 7 years after the initial interview and every 7 years thereafter if the commission makes a written finding that it is not reasonable to expect that parole will be granted during the following years.[6]

The commission considers the PPRD recommendation in a public hearing held after the initial interview and each reinterview. At this hearing, the commission considers the written recommendation of the parole examiner, documentary evidence, and any testimony presented on behalf of the victim or the inmate. Although the inmate is not entitled to appear at the hearing, he

[5] Section 947.16(g), F.S.

[6] *Id*.

or she may be represented by an attorney. It is also common for the victim or victim's representative and law enforcement representatives to appear.

III. Effect of Proposed Changes:

The bill amends ss. 947.16, 947.174, and 947.1745, F.S., to extend the commission's authority to increase the interval between parole consideration re-interviews to include cases in which the offender was convicted of: (1) kidnapping or attempted kidnapping; or (2) a completed or attempted offense of robbery, burglary of a dwelling, burglary of a structure or conveyance, or breaking and entering, when a human being is present and a sexual act is completed or attempted. The interval may be increased from the standard 2 years to 7 years if the commission makes a written finding that it is unlikely to grant parole to the offender.

The groups that would be most affected by this bill are victims and their families, parole-eligible inmates and their families, and the commission itself. For victims, reduction of the frequency of an opportunity for parole can be expected to lessen the stress associated with potential release of the offender. Because victims and families often attend the parole hearings, there is also a potential financial savings. For offenders, the normally-scheduled interviews would be reduced if their record indicates that granting of parole is not likely. For the commission, there would be some reduction in workload and the opportunity to focus on the cases that are more frequently reviewed.

The bill has an effective date of July 1, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. Other Constitutional Issues:

Although parole is a matter of grace and is not a right, alteration of parole-consideration procedures must be considered in light of the constitutional prohibition against ex post facto punishment. In *California Department of Corrections v. Morales*, 514 U.S. 499 (1995), the United States Supreme Court held that a California statute increasing the interval between parole interviews did not violate the ex post facto clause. Subsequent cases have relied on *Morales* to uphold the constitutionality of current s. 947.174(1)(b), F.S., which permitted an increase of the interview interval from two to

five years.[7] Because there is no legal distinction between increasing the interval from two to five years and increasing it from five to seven years, the bill's provisions do not violate the ex post facto clauses of the United States and Florida constitutions.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Holding parole hearings less frequently would reduce the costs incurred by persons who would attend the hearings. This could include victims and their families and representatives, victims' advocacy groups, law enforcement agencies, and the families and representatives of inmates. The amount of reduction cannot be quantified because a reduction of frequency would depend upon the individual merits of the inmate's case and the cost to attend hearings is variable depending upon individual circumstances.

C. Government Sector Impact:

Authorization to reduce the frequency of parole hearings has the potential to reduce the number of hearings conducted by the commission, which may result in cost savings or reallocation of resources to other cases. If the interview interval for an inmate is changed from two years to seven years, there would be five fewer hearings over a fourteen year period. The total amount of any savings cannot be determined until the commission considers individual cases and makes a decision on whether to apply its new authority to the case. The commission indicates that in Fiscal Year 2015-2016 the bill could result in 44 inmates having their next interview date set within seven years rather than within two years.[8] However, the bill can have no fiscal impact before Fiscal Year 2015-2016 because it does not alter interview dates that are already scheduled at the time of the effective date.

There would be additional cost to incarcerate an inmate whose interview schedule is extended from two years to seven years if he or she is paroled at the seven year interview interval and would also have been paroled if the interview had been conducted earlier. The cost of incarcerating such an inmate would be approximately $15,500 for each extra year of incarceration.[9] However, it is anticipated that few inmates would fall into this category because the expanded interview interval applies only to those inmates whom the commission finds are unlikely to be granted parole.

By Senator Evers

2-00741-13 2013742__

A bill to be entitled

An act relating to parole interview dates for certain inmates; amending ss. 947.16, 947.174, and 947.1745, F.S.; extending from 2 years to 7 years the period between parole interview dates for inmates convicted of committing certain specified crimes; reenacting s. 947.165(1), F.S., relating to the development and implementation by the Parole Commission of objective parole guidelines to serve as the criteria upon which parole decisions are to be made, to incorporate the amendments made to s. 947.1745, F.S., in a reference thereto; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (g) of subsection (4) of section 947.16, Florida Statutes, is amended to read:

947.16 Eligibility for parole; initial parole interviews; powers and duties of commission.—

(4) A person who has become eligible for an initial parole interview and who may, according to the objective parole guidelines of the commission, be granted parole shall be placed on parole in accordance with the provisions of this law; except that, in any case of a person convicted of murder, robbery, burglary of a dwelling or burglary of a structure or conveyance in which a human being is present, aggravated assault, aggravated battery, kidnapping, sexual battery or attempted sexual battery, incest or attempted incest, an unnatural and lascivious act or an attempted unnatural and lascivious act,

2-00741-13 2013742__

lewd and lascivious behavior, assault or aggravated assault when a sexual act is completed or attempted, battery or aggravated battery when a sexual act is completed or attempted, arson, or any felony involving the use of a firearm or other deadly weapon or the use of intentional violence, at the time of sentencing the judge may enter an order retaining jurisdiction over the offender for review of a commission release order. This jurisdiction of the trial court judge is limited to the first one-third of the maximum sentence imposed. When any person is convicted of two or more felonies and concurrent sentences are imposed, ~~then~~ the jurisdiction of the trial court judge ~~as provided herein~~ applies to the first one-third of the maximum sentence imposed for the highest felony of which the person was convicted. When any person is convicted of two or more felonies and consecutive sentences are imposed, then the jurisdiction of the trial court judge ~~as provided herein~~ applies to one-third of the total consecutive sentences imposed.

(g) The decision of the original sentencing judge or, in her or his absence, the chief judge of the circuit, to vacate any parole release order as provided in this section is not appealable. An ~~Each~~ inmate whose parole release order has been vacated by the court must ~~shall~~ be reinterviewed within 2 years after the date of receipt of the vacated release order and every 2 years thereafter, or earlier by order of the court retaining jurisdiction. However, an ~~each~~ inmate whose parole release order has been vacated by the court and who has been:

1. Convicted of murder or attempted murder;

2. Convicted of sexual battery or attempted sexual battery;

~~or~~

3. Convicted of kidnapping or attempted kidnapping;

4. Convicted of robbery, burglary of a dwelling, burglary of a structure or conveyance, or breaking and entering, or the attempt of any of these crimes, in which a human being is present and a sexual act is attempted or completed; or

5.~~3.~~ Sentenced to a 25-year minimum mandatory sentence previously provided in s. 775.082,

shall be reinterviewed once within 7 years after the date of receipt of the vacated release order and once every 7 years thereafter, if the commission finds that it is not reasonable to expect that parole would be granted during the following years and states the bases for the finding in writing. For an ~~any~~ inmate who is within 7 years of his or her tentative release date, the commission may establish a reinterview date before ~~prior to~~ the 7-year schedule.

Section 2. Paragraph (b) of subsection (1) of section 947.174, Florida Statutes, is amended to read:

947.174 Subsequent interviews.—

(1)

(b) For an ~~any~~ inmate convicted of murder, attempted murder, sexual battery, or attempted sexual battery, kidnapping or attempted kidnapping; or of robbery, burglary of a dwelling, burglary of a structure or conveyance, or breaking and entering or the attempt of any of these crimes, in which a human being is present and a sexual act is attempted or completed, or for an ~~any~~ inmate who has been sentenced to a 25-year minimum mandatory sentence previously provided in s. 775.082, and whose presumptive parole release date is more than 7 years after the

date of the initial interview, a hearing examiner shall schedule an interview for review of the presumptive parole release date. The interview must ~~shall~~ take place once within 7 years after the initial interview and once every 7 years thereafter if the commission finds that it is not reasonable to expect that parole will be granted at a hearing during the following years and states the bases for the finding in writing. For an ~~any~~ inmate who is within 7 years of his or her tentative release date, the commission may establish an interview date before the 7-year schedule.

Section 3. Subsection (6) of section 947.1745, Florida Statutes, is amended to read:

947.1745 Establishment of effective parole release date.—If the inmate's institutional conduct has been satisfactory, the presumptive parole release date shall become the effective parole release date as follows:

(6) Within 90 days before the effective parole release date interview, the commission shall send written notice to the sentencing judge of an ~~any~~ inmate who has been scheduled for an effective parole release date interview. If the sentencing judge is no longer serving, the notice must be sent to the chief judge of the circuit in which the offender was sentenced. The chief judge may designate any circuit judge within the circuit to act in the place of the sentencing judge. Within 30 days after receipt of the commission's notice, the sentencing judge, or the designee, shall send to the commission notice of objection to parole release, if the judge objects to the ~~such~~ release. If there is an objection by the judge, the ~~such~~ objection may constitute good cause in exceptional circumstances as described

in s. 947.173, and the commission may schedule a subsequent review within 2 years, extending the presumptive parole release date beyond that time. However, for an inmate who has been:

(a) Convicted of murder or attempted murder;

(b) Convicted of sexual battery or attempted sexual battery; ~~or~~

(c) Convicted of kidnapping or attempted kidnapping;

(d) Convicted of robbery, burglary of a dwelling, burglary of a structure or conveyance, or breaking and entering, or the attempt of any of these crimes, in which a human being is present and a sexual act is attempted or completed; or

(e) ~~(c)~~ Sentenced to a 25-year minimum mandatory sentence previously provided in s. 775.082,

the commission may schedule a subsequent review under this subsection once every 7 years, extending the presumptive parole release date beyond that time if the commission finds that it is not reasonable to expect that parole would be granted at a review during the following years and states the bases for the finding in writing. For an ~~any~~ inmate who is within 7 years of his or her release date, the commission may schedule a subsequent review before ~~prior to~~ the 7-year schedule. With any subsequent review the same procedure outlined above will be followed. If the judge remains silent with respect to parole release, the commission may authorize an effective parole release date. This subsection applies if the commission desires to consider the establishment of an effective release date without delivery of the effective parole release date interview. Notice of the effective release date must be sent to the

sentencing judge, and either the judge's response to the notice must be received or the time period allowed for such response must elapse before the commission may authorize an effective release date.

Section 4. For the purpose of incorporating the amendment made by this act to section 947.1745, Florida Statutes, in a reference thereto, subsection (1) of section 947.165, Florida Statutes, is reenacted to read:

947.165 Objective parole guidelines.—

(1) The commission shall develop and implement objective parole guidelines which shall be the criteria upon which parole decisions are made. The objective parole guidelines shall be developed according to an acceptable research method and shall be based on the seriousness of offense and the likelihood of favorable parole outcome. The guidelines shall require the commission to aggravate or aggregate each consecutive sentence in establishing the presumptive parole release date. Factors used in arriving at the salient factor score and the severity of offense behavior category shall not be applied as aggravating circumstances. If the sentencing judge files a written objection to the parole release of an inmate as provided for in s. 947.1745(6), such objection may be used by the commission as a basis to extend the presumptive parole release date.

Section 5. This act shall take effect July 1, 2013.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 844 (873636)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Health and Human Services); Health Policy Committee; and Senator Grimsley
SUBJECT:	Medicaid Fraud
DATE:	April 20, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Lloyd	Stovall	HP	**Fav/CS**
2.	Johnson	Burgess	BI	**Favorable**
3.	Brown	Pigott	AHS	**Fav/CS**
4.		Hansen	AP	**Pre-meeting**
5.				
6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

PCS/CS/SB 844 modifies existing statutory provisions relating to fraud and abuse, provider controls, and accountability in the Medicaid program.

The bill is expected to have an indeterminate fiscal impact on the Agency for Health Care Administration (AHCA). See Section V.

The bill:

- Provides that the AHCA may enroll as a Medicaid provider a provider located outside the state of Florida if the provider is actively licensed in Florida and provides diagnostic services through telecommunications and information technology in order to provide clinical health care at a distance;
- Amends the Medicaid Third-party Liability Act to ensure compliance with federal law;
- Increases the records retention time for all medical and Medicaid-related records from five to six years for Medicaid providers;

- Requires Medicaid providers to report a change in any principal of the provider to the AHCA in writing no later than 30 days after the change occurs;
- Defines "administrative fines" for purposes of liability for payment of such fines in the event of a change of ownership;
- Authorizes, rather than requires, the AHCA to perform onsite inspections of the service location of a provider applying for a provider agreement to determine that provider's ability to provide services in compliance with Medicaid regulations;
- Provides a definition for principals of a provider with a controlling interest for hospitals and nursing homes, for purposes of conducting criminal background checks;
- Removes certain exceptions to background screenings requirements for Medicaid providers;
- Expands the list of offenses for which the AHCA may terminate the participation of a Medicaid provider;
- Requires the AHCA to impose the sanction of termination for cause against providers that voluntarily relinquish their Medicaid provider numbers under certain circumstances;
- Requires that when the AHCA determines that an overpayment has been made, the AHCA must base its determination solely on the information available before the issuance of an audit report and upon contemporaneous records;
- Clarifies when the interest rate accrues on provider payments paid by the AHCA that had been withheld on a suspicion of fraud or abuse, if it is determined that there was no fraud or abuse;
- Removes the 30-day provision related to records that may be presented to contest an overpayment or sanction;
- Requires overpayments or fines be paid to the AHCA within 30 days after the date of the final order;
- Clarifies the scope of immunity from civil liability for persons who report fraudulent acts or suspected fraudulent acts;
- Amends s. 624.351, F.S., relating to the Medicaid and Public Assistance Fraud Strike Force, to authorize members or their designees to serve on the strike force and to provide that s. 624.351, F.S., is repealed effective June 30, 2014; and
- Repeals s. 624.352, F.S., relating to interagency agreements to detect and deter Medicaid and public assistance fraud, effective June 30, 2014.

The bill has an effective date of July 1, 2013.

This bill substantially amends the following sections of the Florida Statutes: 409.907, 409.913, and 409.920.

II. Present Situation:

Health Care Fraud

In 2009, the Legislature passed CS/CS/CS/SB 1986 to comprehensively address systematic health care fraud in Florida. That bill increased the Medicaid program's authority to address fraud, particularly as it relates to home health services and health care facility and health care practitioner standards to keep fraudulent actors from obtaining a health care license in Florida.

The bill also created disincentives to commit Medicaid fraud and created additional criminal felonies for committing health care fraud.

With more than three years of history with the implementation of CS/CS/CS/SB 1986, some changes have been identified that would enhance Florida's efforts to prevent health care fraud and abuse in the Medicaid program. This bill addresses some of the gaps in enforcement authority, strengthens the reporting requirements by Medicaid providers and Medicaid managed care organizations, and defines the consequences for failure to comply with the requirements.

Regulatory Authority of AHCA

The AHCA regulates hospitals and nursing homes under the authority of chapters 395 and 400, F.S., respectively, along with dozens of other health care entities such as clinical laboratories, ambulatory surgical centers, hospices, and home health agencies. General licensing provisions for these providers are found in part II of ch. 408, F.S. The Bureau for Health Facility Regulation conducts the activities that certify and license the entities under the AHCA's jurisdiction.

Medicaid

Medicaid is the medical assistance program that provides access to health care for low-income families and individuals. Medicaid also assists aged and disabled persons with costs of nursing facility care and other medical expenses. The AHCA is designated as the single state agency responsible for Medicaid. Medicaid serves approximately 3.3 million people in Florida. The statutory authority for the Medicaid program is contained in ch. 409, F.S.

Medicaid reimburses health care providers that have a provider agreement with the AHCA only for covered goods and services and only for individuals who are eligible for Medicaid assistance from Medicaid. Section 409.907, F.S., establishes requirements for Medicaid provider agreements, which include background screening requirements, notification requirements for change of ownership of a Medicaid provider, authority for AHCA site visits of provider service locations, and surety bond requirements.

Under s. 409.913, F.S., the AHCA is responsible for overseeing the integrity of the Medicaid program, to ensure that fraudulent and abusive behavior and neglect of recipients is minimized, and to recover overpayments and impose sanctions as appropriate.

Sections 409,920, 409.9201, 409.9203, and 409.9205, F.S., contain provisions relating specifically to Medicaid fraud. A person who provides the state with information about fraud or suspected fraud by a Medicaid provider, including a managed care organization, is immune from civil liability for providing that information unless the person knew the information was false or acted with reckless disregard for the truth or falsity of the information.[1]

Part IV of ch. 409, F.S., requires all Medicaid recipients to enroll in a managed care plan unless they are specifically exempted. The Statewide Medicaid Managed Care (SMMC) program includes a long-term care managed care component and a managed medical assistance

[1] *See* s. 409.920(8), F.S.

component. The law directs the AHCA to begin implementation of the long-term managed care program by July 1, 2012, with full implementation in all regions of the State by October 1, 2013. The state received federal approval of this component on February 1, 2013.[2] Although the AHCA has received conditional approval,[3] the AHCA is still awaiting final approval of the managed medical assistance program; full implementation is anticipated by October 1, 2014.

Background Screening

Chapter 435, F.S., establishes standards for background screening for employment. Section 435.03, F.S., sets standards for Level 1 background screening. Level 1 background screening includes, but is not limited to, employment history checks and statewide criminal correspondence checks through the Department of Law Enforcement and a check of the Dru Sjodin National Sex Offender Public Website, and may include local criminal records checks through local law enforcement agencies.

Level 2 background screenings includes, but is not limited to, fingerprinting for statewide criminal history records checks through the Department of Law Enforcement and national criminal history records checks through the Federal Bureau of Investigation. They may also include local criminal records checks through local law enforcement agencies. Section 435.04(2), F.S., lists the offenses that will disqualify an applicant from employment.

Section 408.809, F.S., establishes background screening requirements and procedures for entities licensed by the AHCA. The AHCA must conduct Level 2 background screening for specified individuals. Each person subject to this section is subject to Level 2 background screening every five years. This section of law also specifies additional disqualifying offenses beyond those included in s. 435.04(2), F.S.

Medicaid and Third-party Recovery in Florida

Section 409.910, F.S. is known as the Medicaid Third-Party Liability Act (Act). Pursuant to the Act, third-party benefits for medical services are primary to any medical assistance provided to a recipient by Medicaid. As such, a Medicaid recipient who receives a settlement, award, or judgment in a third-party tort action is required to reimburse the ACHA for any related Medicaid medical costs. The medical costs are calculated as the lesser of 37.5 percent of the total recovery or the total amount of medical assistance paid by Medicaid. The recipient cannot contest the amount designated by the ACHA as recovered medical expense damages.

The U.S Supreme Court, in *Wos v. E.M.A.*, recently invalidated a North Carolina statute that authorized the recovery of third-party benefits from Medicaid recipients.[4] North Carolina's Medicaid third-party liability statute provides that the state will be paid from a tort settlement or

judgment the lesser of the total amount expended on the recipient's behalf by Medicaid or 33 percent of the total settlement or judgment amount.[5] The Court held that North Carolina's statute was preempted by the federal anti-lien provision due to the fact that the state statute created an irrebuttable, one-size-fits-all statutory presumption that one-third of a tort recovery is attributable to medical expenses. Such an irrebuttable presumption was found to be incompatible with the federal Medicaid Act's mandate that a state may not demand any portion of a beneficiary's tort recovery except the share that is attributable to medical expenses.[6]

Medicaid and Public Assistance Fraud Strike Force

In 2010 the Legislature found that there was a need to develop and implement a statewide strategy to coordinate state and local agencies, law enforcement entities, and investigative units in order to increase the effectiveness of programs and initiatives dealing with the prevention, detection, and prosecution of Medicaid and public assistance fraud.[7] Interagency agreements for the coordination of prevention, investigation, and prosecution of Medicaid and public assistance fraud were executed by various agencies.[8] Thus, the Medicaid and Public Assistance Fraud Strike Force was created within the Department of Financial Services to oversee and coordinate state and local efforts to eliminate Medicaid and public assistance fraud and to recover state and federal funds.

Telemedicine

Telemedicine utilizes various advances in communication technology to provide healthcare services through a variety of electronic mediums. Telemedicine is not a separate medical specialty and does not change what constitutes proper medical treatment and services. According to the American Telemedicine Association, services provided through telemedicine include:[9]

- **Primary Care and Specialist Referral Services** – Telemedicine in this context involves a primary care or allied health professional providing consultation with a patient or a specialist assisting the primary care physician with a diagnosis. The process may involve live interactive video or the use of store and forward transmission of diagnostic images, vital signs and/or video clips with patient data for later review.
- **Remote patient monitoring** – Telemedicine in this context includes home health services and uses devices to remotely collect and send data to home health agencies or remote diagnostic testing facilities.

[5] N.C. Gen. Stat. Ann. s. 108A-57(a).
[6] The federal Medicaid Act requires states to have in effect laws pursuant to which states have the right to recover third party benefits for medical assistance provided by the state Medicaid program. *See* 42 U.S.C. § 1396a(a)(25)(H). Federal law also mandates that state Medicaid programs must require recipients to assign to the state any rights the recipient has to benefits from third parties related to medical care. *See* 42 U.S.C. § 1396k(a)(1)(A). Notwithstanding the foregoing provisions, the Medicaid Act's "anti-lien provision" prohibits states from imposing a lien on the property of a recipient prior to his death on account of medical assistance provided by the state's Medicaid program. *See* 42 U.S.C. § 1396p(a)(1).
[7] *See* s. 624.351, F.S.
[8] *See* s. 624.352, F.S.
[9] American Telemedicine Association, *What is Telemedicine*, http://www.americantelemed.org/learn/what-is-telemedicine (last visited Mar. 26, 2013).

- **Consumer medical and health information** – In this context, telemedicine offers consumers specialized health information and on-line discussion groups for peer-to-peer support.
- **Medical education** – In this context, telemedicine provides continuing medical education credits.

Telemedicine Services in Florida

Since 2006, the Children's Medical Services Network (CMS Network) has provided specified telemedicine services under Florida's 1915(b) Medicaid Managed Care Waiver in compliance with federal and state regulations. Authorized CMS Network telemedicine services include certain evaluation and consultation services already covered by the Medicaid state plan.

The Child Protection Team (CPT) program under Children's Medical Services also utilizes a telemedicine network. The CPT is a medically directed multi-disciplinary program that works with local sheriffs offices and the Department of Children and Families in cases of child abuse and neglect to supplement investigative activities.[10] The telemedicine network connects the child in one location ("remote site") where a registered nurse greets the child and assists with the examination by the health care professionals in another location ("hub site").[11] The hub site is a comprehensive medical facility with a wide range of medical and interdisciplinary staff that can assist with the exam and review. Special equipment allows for live assessments between the remote and hub sites, including professional participation from multiple locations.[12]

The use of telemedicine for the CPTs is further defined under rule at Rule 64C-8.001, F.A.C. Rule 64C-8.003, F.A.C, allows medical diagnosis and evaluation to be conducted in person or through telemedicine. However, the use of telemedicine specifically requires the presence of a CMS-approved physician or advanced registered nurse practitioner at the hub site and a registered nurse at the remote site.

In December 2010, Florida Medicaid submitted a state plan amendment to the federal Centers for Medicare and Medicaid Services to allow for the provision of specified physician, dental, mental health, and substance abuse telemedicine services. The amendment was requested because the program had been reimbursing only the physician rendering services using telemedicine, not the provider physically with the patient. The state plan amendment specifies that covered telemedicine services under Medicaid must include, at a minimum, audio and video equipment permitting two-way, real-time interactive communication between the Medicaid recipient and the health care practitioner.[13] Telephone conversations, chart review, electronic mail messages or facsimile transmissions are not considered telemedicine.[14]

[13] Florida Medicaid State Plan, Attachment 3.1-B, Page 11.
[14] Ibid.

Only a specific list of provider types are eligible for Medicaid reimbursement for telemedicine services and such providers or entities must be licensed under chs. 394, 397, 458, 459, 464, 466, 490, or 491, F.S.[15] The state plan amendment was approved in March 2011 and was retroactively effective to October 1, 2010. The 2012-2015 Model Contracts with Medicaid Managed Care Organizations, however, limit telemedicine services to behavioral health care and dental services.[16,17]

The contract language specifically excludes reimbursement for telephone conversations, video cell phone interactions, electronic mail messages, facsimile transmission, telecommunications with the enrollee at a location other than a "spoke site," which is the provider office location where an approved service is being furnished.[18] Reimbursement is also excluded for "store and forward" visits and consultations that are transmitted after the Medicaid recipient is no longer available.[19] Medicaid does not reimburse for the costs or fees of any of the equipment necessary to provide the services.

Fee-for-service (FFS) Medicaid providers may provide telemedicine services within the requirements of the current Medicaid Services Coverage and Limitations Handbook.[20] Currently, the approved FFS providers are physicians, dental providers, and behavioral health care providers.[21] The managed care contracts are currently being amended to include the provision of telemedicine services by physicians.[22]

Florida law allows the Florida Board of Medicine (Board) to establish by rule standards of practice and standards of care for particular practice settings, including, but not limited to, education and training, equipment and supplies, medications including anesthetics, assistance of and delegation to other personnel, transfer agreements, sterilization, records, performance of complex or multiple procedures, informed consent, and policy and procedures manuals. In 2003, the Board adopted Rule 64B8-9.014, F.A.C., "Standards for Telemedicine Prescribing Practice." The rule prohibits prescribing based solely on an electronic questionnaire. The rule permits a doctor to provide treatment recommendations, include issuing a prescription based on a documented patient evaluation, discussion between the patient and physician regarding treatment, and treatment options and maintenance of appropriate medical records.

---

[15] The eligible provider types are: physicians, dentists, psychiatric nurses, registered nurses, advanced registered nurse practitioners, physician's assistants, clinical social workers, mental health counselors, marriage and family therapists, masters level certified addiction professionals (CAP) and psychologists.

[16] According to the February 17, 2010 minutes of a Medicaid Medical Advisory Committee meeting, Medicaid reimburses telemedicine dental services for oral prophylaxis, topical fluoride application, oral hygiene instructions when a dental hygienists performs these services via video teleconferencing with a supervising licensed dentist.

III. Effect of Proposed Changes:

Section 1 of the bill amends s. 409.907, F.S., relating to Medicaid provider agreements, to require Medicaid providers to retain all medical and Medicaid-related records for six years, rather than the current statutory retention period of five years, consistent with the Health Insurance Portability and Accountability Act (HIPAA) of 1996 administrative simplification regulations.[23]

The bill requires a Medicaid provider to report in writing any change of any principal of the provider whose ownership interest is equal to five percent or more to the AHCA no later than 30 days after the change occurs. The bill specifies who is included in the term "principal." The definition of a controlling interest is already defined by statute under s. 408.803(7), F.S., and includes:

- The applicant or licensee;
- A person or entity that serves as an officer of, is on the board or has a five percent or greater ownership interest in the applicant or licensee; or
- A person or entity that serves as an officer of, is on the board, or has a five percent or greater management interest in the management company or other entity, related or unrelated, that the applicant or licensee contracts with to manage the provider.
- The term does not include a voluntary board member.

The bill clarifies the statutory provisions relating to the liability of Medicaid providers in a change of ownership for outstanding overpayments, administrative fines, and any other moneys owed to the AHCA. The bill defines "administrative fines" to include any amount identified in any notice of a monetary penalty or fine that has been issued by the AHCA or any other regulatory or licensing agency that governs the provider.

The requirement for the AHCA to conduct random onsite inspections of Medicaid providers' service locations within 60 days after receipt of a fully complete new provider's application and prior to making the first payment to the provider for Medicaid services, is amended to authorize, rather than require, the AHCA to perform onsite inspections. The inspection would be conducted prior to the AHCA entering into a Medicaid provider agreement with the provider and would be used to determine the applicant's ability to provide services in compliance with the Medicaid program and professional regulations. The law currently only requires the AHCA to determine the applicant's ability to provide the services for which they will seek Medicaid payment.

The bill also removes an exception to the current onsite-inspection requirement for a provider or program that is licensed by the AHCA, that provides services under waiver programs for home and community-based services, or that is licensed as a medical foster home by the Department of Children and Families, since the selection of providers for onsite inspections is no longer a random selection, but is left up to the discretion of the AHCA under the bill.

[23] *See* 45 CFR 164.316(b)(2). Found at: <http://ecfr.gpoaccess.gov/cgi/t/text/text-idx?c=ecfr&sid=be9877c2440a17a8ebe3b02b0948a06a&rgn=div8&view=text&node=45:1.0.1.3.79.3.27.8&idno=45> (Last visited on March 1, 2013).

The bill amends existing surety bond requirements for certain Medicaid providers. The bill clarifies that the additional bond required by the AHCA, if a provider's billing during the first year exceeds the bond amount, need not exceed $50,000 for certain providers. A provider could have a bond greater than $50,000, if the provider so elects.

The bill amends the requirements for a criminal history record check of each Medicaid provider, or each principal of the provider, to remove an exemption from such checks for hospitals, nursing homes, hospices, and assisted living facilities. The bill specifies that for hospitals and nursing homes, the principals of the provider are those who meet the definition of a controlling interest in s. 408.803, F.S., under the general licensing provisions for health care facilities regulated by the AHCA.

The bill removes the provision that proof of compliance with Level 2 background screening under ch. 435, F.S., conducted within 12 months before the date the Medicaid provider application is submitted to the AHCA, satisfies the requirements for a criminal history background check. This conforms to screening provisions in ch. 435, F.S., and ch. 408, F.S.

The bill provides that the AHCA may enroll as a Medicaid provider a provider located outside the state of Florida if the provider is actively licensed in Florida and provides diagnostic services through telecommunications and information technology in order to provide clinical health care at a distance.

Section 2 of the bill amends s. 409.910, F.S., to address the recent U.S. Supreme Court ruling in *Wos v. E.M.A.* Section 409.910, F.S., creates an irrebuttable presumption that the amount that the ACHA is entitled to from a Medicaid recipient's judgment, award, or settlement in a tort action is the lesser of 37.5 percent of the total recovery or the total amount of medical assistance paid by Medicaid. This provision is similar to the North Carolina provision recently struck down by the Court. To ensure compliance with federal law, the bill amends this section to create a presumption of accuracy as to the ACHA's determination of the reimbursement amount but allows this determination to be rebutted by clear and convincing evidence. The bill establishes the mechanism for these challenges by providing Medicaid recipients with the right to an administrative hearing at the Division of Administrative Hearings (DOAH) to contest the amount of AHCA's recoupment. The bill establishes Leon County as venue for these hearings and the First District Court of Appeal as venue for any related appeals. The bill also provides that each party is to bear its own attorney fees and costs.

Section 3 of the bill amends s. 409.913, F.S., relating to oversight of the integrity of the Medicaid program. The bill amends the length of time that Medicaid providers are required to retain their records to be consistent with federal law. Medicaid providers are required to retain medical, professional, financial, and business records pertaining to services and goods furnished to a Medicaid recipient and billed to Medicaid for six years, rather than the current statutory retention period of five years.

The bill deletes a requirement that the AHCA *immediately* terminate participation of a Medicaid provider that has been convicted of certain offenses. In order to terminate a provider immediately, the AHCA must show an immediate harm to the public health, which is not always possible. The AHCA still must terminate a Medicaid provider from participation in the Medicaid

program, unless the AHCA determines that the provider did not participate or acquiesce in the offense. The change will resolve a current conflict with the Administrative Procedure Act.[24]

The AHCA may seek civil remedies or impose administrative sanctions if a provider *has been convicted* of any of the following offenses:

- A criminal offense under federal law or the law of any state relating to the practice of the provider's profession;
- An offense listed in s. 409.907(10), F.S., relating to factors the AHCA may consider when reviewing an application for a Medicaid provider agreement, which includes:
  - Making a false representation or omission of any material fact in making an application for a provider agreement;
  - Exclusion, suspension, termination, or involuntary withdrawal from participation in any Medicaid program or other governmental or private health care or health insurance program;
  - Being convicted of a criminal offense relating to the delivery of any goods or services under Medicaid or Medicare or any other public or private health care or health insurance program including the performance of management or administrative services relating to the delivery of goods or services under any such program;
  - Being convicted of a criminal offense under federal or state law related to the neglect or abuse of a patient in connection with the delivery of any health care goods or services;
  - Being convicted of a criminal offense under federal or state law related to the unlawful manufacture, distribution, prescription, or dispensing of a controlled substance;
  - Being convicted of any criminal offense relating to fraud, theft, embezzlement, breach of fiduciary responsibility, or other financial misconduct;
  - Being convicted of a criminal offense under federal or state law punishable by imprisonment of one year or more which involves moral turpitude;
  - Being convicted in connection with the interference or obstruction of any investigation into any criminal offense listed above;
  - Violation of federal or state laws, rules, or regulations governing any Medicaid program, the Medicare program, or any other publicly funded federal or state health care or health insurance program, if they have been sanctioned accordingly;
  - Violation of the standards or conditions relating to professional licensure or certification or the quality of services provided; or
  - Failure to pay fines and overpayments under the Medicaid program;
- An offense listed in s. 408.809(4), F.S., relating to background screening of licensees, which includes the following offenses or any similar offense of another jurisdiction:
  - Any authorizing statutes, if the offense was a felony;
  - Chapter 408, F.S., if the offense was a felony;
  - Section 409.920, F.S., relating to Medicaid provider fraud;
  - Section 409.9201, F.S., relating to Medicaid fraud;
  - Section 741.28, F.S., relating to domestic violence;

[24] *See* s. 120.569(2)(n), F.S. which requires that "if any agency head finds that an immediate danger to the public health , safety, or welfare requires an immediate final order, it shall recite with particularity the facts underlying such finding in the final order, which shall be appealable or enjoinable from the date ordered."

- Section 817.034, F.S., relating to fraudulent acts through mail, wire, radio, electromagnetic, photoelectronic, or photooptical systems;
- Section 817.234, F.S., relating to false and fraudulent insurance claims;
- Section 817.505, F.S., relating to patient brokering;
- Section 817.568, F.S., relating to criminal use of personal identification information;
- Section 817.60, F.S., relating to obtaining a credit card through fraudulent means;
- Section 817.61, F.S., relating to fraudulent use of credit cards, if the offense was a felony;
- Section 831.01, F.S., relating to forgery;
- Section 831.02, F.S., relating to uttering forged instruments;
- Section 831.07, F.S., relating to forging bank bills, checks, drafts, or promissory notes;
- Section 831.09, F.S., relating to uttering forged bank bills, checks, drafts, or promissory notes;
- Section 831.30, F.S., relating to fraud in obtaining medicinal drugs; or
- Section 831.31, F.S., relating to the sale, manufacture, delivery, or possession with the intent to sell, manufacture, or deliver any counterfeit controlled substance, if the offense was a felony;

- An offense listed in s. 435.04(2), F.S., relating to employee background screening, which includes the following offenses or any similar offense of another jurisdiction:
  - Section 393.135, F.S., relating to sexual misconduct with certain developmentally disabled clients and reporting of such sexual misconduct;
  - Section 394.4593, F.S., relating to sexual misconduct with certain mental health patients and reporting of such sexual misconduct;
  - Section 415.111, F.S., relating to adult abuse, neglect, or exploitation of aged persons or disabled adults;
  - Section 782.04, F.S., relating to murder;
  - Section 782.07, F.S., relating to manslaughter, aggravated manslaughter of an elderly person or disabled adult, or aggravated manslaughter of a child;
  - Section 782.071, F.S., relating to vehicular homicide;
  - Section 782.09, F.S., relating to killing of an unborn quick child by injury to the mother;
  - Chapter 784, F.S., relating to assault, battery, and culpable negligence, if the offense was a felony;
  - Section 784.011, F.S., relating to assault, if the victim of the offense was a minor;
  - Section 784.03, F.S., relating to battery, if the victim of the offense was a minor;
  - Section 787.01, F.S., relating to kidnapping;
  - Section 787.02, F.S., relating to false imprisonment;
  - Section 787.025, F.S., relating to luring or enticing a child;
  - Section 787.04(2), F.S., relating to taking, enticing, or removing a child beyond the state limits with criminal intent pending custody proceedings;
  - Section 787.04(3), F.S., relating to carrying a child beyond the state lines with criminal intent to avoid producing a child at a custody hearing or delivering the child to the designated person;
  - Section 790.115(1), F.S., relating to exhibiting firearms or weapons within 1,000 feet of a school;
  - Section 790.115(2)(b), F.S., relating to possessing an electric weapon or device, destructive device, or other weapon on school property;
  - Section 794.011, F.S., relating to sexual battery;

- Former s. 794.041, F.S., relating to prohibited acts of persons in familial or custodial authority;
- Section 794.05, F.S., relating to unlawful sexual activity with certain minors;
- Chapter 796, F.S., relating to prostitution;
- Section 798.02, F.S., relating to lewd and lascivious behavior;
- Chapter 800, F.S., relating to lewdness and indecent exposure;
- Section 806.01, F.S., relating to arson;
- Section 810.02, F.S., relating to burglary;
- Section 810.14, F.S., relating to voyeurism, if the offense is a felony;
- Section 810.145, F.S., relating to video voyeurism, if the offense is a felony;
- Chapter 812, F.S., relating to theft, robbery, and related crimes, if the offense is a felony;
- Section 817.563, F.S., relating to fraudulent sale of controlled substances, only if the offense was a felony;
- Section 825.102, F.S., relating to abuse, aggravated abuse, or neglect of an elderly person or disabled adult;
- Section 825.1025, F.S., relating to lewd or lascivious offenses committed upon or in the presence of an elderly person or disabled adult;
- Section 825.103, F.S., relating to exploitation of an elderly person or disabled adult, if the offense was a felony;
- Section 826.04, F.S., relating to incest;
- Section 827.03, F.S., relating to child abuse, aggravated child abuse, or neglect of a child;
- Section 827.04, F.S., relating to contributing to the delinquency or dependency of a child;
- Former s. 827.05, F.S., relating to negligent treatment of children;
- Section 827.071, F.S., relating to sexual performance by a child;
- Section 843.01, F.S., relating to resisting arrest with violence;
- Section 843.025, F.S., relating to depriving a law enforcement, correctional, or correctional probation officer means of protection or communication;
- Section 843.12, F.S., relating to aiding in an escape;
- Section 843.13, F.S., relating to aiding in the escape of juvenile inmates in correctional institutions;
- Chapter 847, F.S., relating to obscene literature;
- Section 874.05(1), F.S., relating to encouraging or recruiting another to join a criminal gang;
- Chapter 893, F.S., relating to drug abuse prevention and control, only if the offense was a felony or if any other person involved in the offense was a minor;
- Section 916.1075, F.S., relating to sexual misconduct with certain forensic clients and reporting of such sexual misconduct;
- Section 944.35(3), F.S., relating to inflicting cruel or inhuman treatment on an inmate resulting in great bodily harm;
- Section 944.40, F.S., relating to escape;
- Section 944.46, F.S., relating to harboring, concealing, or aiding an escaped prisoner;
- Section 944.47, F.S., relating to introduction of contraband into a correctional facility;
- Section 985.701, F.S., relating to sexual misconduct in juvenile justice programs; or
- Section 985.711, F.S., relating to contraband introduced into detention facilities.

The bill amends provisions relating to noncriminal actions of Medicaid providers for which the AHCA may impose sanctions, to include the act of *authorizing* certain services that are

inappropriate, unnecessary, excessive, or harmful to the recipient or are of inferior quality, or *authorizing* certain requests and reports that contain materially false or incorrect information. The bill also authorizes the AHCA to sanction a provider if the provider is charged by information or indictment with any offense listed above. The AHCA may impose sanctions if the provider or certain persons affiliated with the provider participated or acquiesced in the proscribed activity.

The bill provides that if a Medicaid provider voluntarily relinquishes its Medicaid provider number after receiving notice of an audit or investigation for which the sanction of suspension or termination will be imposed, the AHCA must impose the sanction of termination for cause against the provider. Under current law, if a Medicaid provider receives notification that it is going to be suspended or terminated, the provider is able to voluntarily terminate its contract. By doing so, a provider has the ability to avoid sanctions of suspension or termination, which would affect the ability of the provider to reenter the program in the future. Current law gives the secretary of the AHCA authority to make a determination that imposition of a sanction is not in the best interest of the Medicaid program, in which case a sanction may not be imposed.

The bill specifies that when the AHCA is making a determination that an overpayment has occurred, the determination must be based solely upon information available before it issues the audit report and, in the case of documentation obtained to substantiate claims for Medicaid reimbursement, based solely upon contemporaneous records.

In addition, the bill provides that a provider may not present records to contest an overpayment or sanction unless the records are contemporaneous and, if requested during the audit process, were provided to the AHCA or its agent. Also, all documentation to be offered as evidence in an administrative hearing on an administrative sanction (in addition to Medicaid overpayments) must be exchanged by all parties at least 14 days before the administrative hearing or excluded from consideration.

The bill clarifies when interest will accrue on provider payments withheld by the AHCA based on suspected fraud or criminal activity, if it is determined later that there was no fraud or that a crime did not occur. Interest on provider payments to be paid after an investigation will accrue at 10 percent a year, beginning after the 14th day after the determination. A provision relating to the placement of funds in a suspended account held by the AHCA is deleted and a payment deadline of 14 days to the provider is removed. Payment arrangements for overpayments and fines owed to the AHCA must be made within 30 days after the date of the final order and are not subject to further appeal.

The bill requires the AHCA to terminate a provider's participation in the Medicaid program if the provider fails to pay a fine within 30 days after the date of the final order imposing the fine. The time within which a provider must reimburse an overpayment is reduced from 35 to 30 days after the date of the final order. The bill requires that fines, as well as overpayments, are due upon the issuance of a final order at the conclusion of a requested administrative hearing.

Section 4 of the bill amends s. 409.920, F.S., relating to Medicaid provider fraud, to clarify that the existing immunity from civil liability extended to persons who provide information about fraud or suspected fraudulent acts pertains to civil liability for libel, slander, or any other relevant

tort. The bill defines "fraudulent acts" for purposes of immunity from civil liability to include actual or suspected fraud and abuse, insurance fraud, licensure fraud, or public insurance fraud; including any fraud-related matters that a provider or health plan is required to report to the AHCA or a law enforcement agency. The immunity from civil liability extends to reports conveyed to the AHCA in any manner, including forums, and incorporates all discussions subsequent to the report and subsequent inquiries from the AHCA, unless the person reporting acted with knowledge that the information was false or with reckless disregard for the truth or falsity of the information.

Section 5 of the bill amends s. 624.351, F.S., relating to the Medicaid and Public Assistance Fraud Strike Force, to authorize members or their designees to serve on the strike force and to provide that s. 624.351, F.S., is repealed effective June 30, 2014.

Section 6 of the bill amends s. 624.352, F.S., relating to interagency agreements to detect and deter Medicaid and public assistance fraud, to provide that the section is repealed effective June 30, 2014.

Section 7 of the bill provides an effective date of July 1, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Entities and individual health care providers under Medicaid currently exempt from background checks will be required to complete the same requirements as other Medicaid providers.

The total fee for a Level 2 background screening is $64.50 ($24.00 for the state portion, $16.50 for the national portion, and $24.00 for retention). There is an additional fee of

$11-to-$16 for electronic screening, depending on the provider. The cost of the screening is borne by the individual provider.[25]

C. Government Sector Impact:

To the extent that the bill deters fraud and abuse in the Medicaid program, the bill will have an indeterminate positive fiscal impact.

The bill also creates an indeterminate negative fiscal impact. From March 2012 to February 2013, the ACHA's Third Party Liability (TPL) vendor closed 302 cases and made recoveries based on the current provisions of s. 409.910, F.S. The ACHA recovered $4.9 million from these cases, approximately $2 million of which is utilized by the Legislature to fund Medicaid administrative activities. Under Section 2 of the bill, the ACHA's ability to recover Medicaid medical costs from third parties will likely be reduced as a result the recovery amount hearings caused by the decision in *Wos v. E.M.S.* The amount of this reduction is indeterminate. However, the amount of any reduction will likely be mitigated by the bill's standard of proof for overcoming the presumption.

In addition to the fiscal impact of reduced collections, the AHCA will incur a negative fiscal impact for providing recipients with hearings on the recovery amounts under Section 2 of the bill. The TPL vendor staffed 62 hearings in circuit court contesting the ACHA's entitlement to Medicaid recovery during the last 12 months with a cost of approximately $5,000 per hearing. Due to the loss of the irrebuttable presumption, the ACHA anticipates there will be a substantial increase in the number of hearings to determine the Medicaid recovery allocation. The bill mitigates those costs by requiring the hearings to be brought in the DOAH, requiring the venue to be in Leon County, and setting a burden of proof (clear and convincing evidence), but the amount of that mitigation is indeterminate.

The ACHA and the DOAH may experience a workload increase under Section 2 of the bill. The ACHA is not requesting additional resources but plans to review the workload impacts and make a Legislative Budget Request for fiscal year 2014-2015 if the workload cannot be absorbed within existing resources.

The AHCA reports that Section 3 of the bill may result in an increase in initial background screenings of registered treating providers performed by AHCA staff, but any potential increase in workload under the bill can be absorbed within existing resources.

To the extent that a governmental entity has providers or is a provider that are not currently required to provide a completed background checks prior to Medicaid provider enrollment and not otherwise exempt, additional costs may be incurred to comply with this requirement.

[25] Agency for Health Care Administration, *supra*, note 1 at 6.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Health and Human Services on April 17, 2013:
The CS provides that the AHCA may enroll as a Medicaid provider a provider located outside the state of Florida if the provider is actively licensed in Florida and provides diagnostic services through telecommunications and information technology in order to provide clinical health care at a distance. The CS amends the Medicaid Third-party Liability Act to ensure compliance with federal law. The CS amends s. 624.351, F.S., relating to the Medicaid and Public Assistance Fraud Strike Force, to authorize members or their designees to serve on the strike force and to provide that s. 624.351, F.S., is repealed effective June 30, 2014. The CS repeals s. 624.352, F.S., relating to interagency agreements to detect and deter Medicaid and public assistance fraud, effective June 30, 2014.

CS by Health Policy on March 7, 2013
The CS deletes a separate requirement for Level 2 background checks of providers under contract with Medicaid managed care networks. All Medicaid providers participating under fee for service must still comply with this requirement. The CS removed a provision relating to the coordination of anti-fraud report reviews between the Department of Financial Services and the AHCA. The CS does not include the provision allowing the AHCA to consider information from non-Medicaid providers during an investigation. The CS also removed the 30-day provision related to records that may be presented to contest an overpayment or sanction. Interest payments to the providers that had been withheld are reinstated and the timeframe for when interest is applied is clarified.

576-04562-13

Proposed Committee Substitute by the Committee on Appropriations
(Appropriations Subcommittee on Health and Human Services)

A bill to be entitled

An act relating to Medicaid; amending s. 409.907, F.S.; increasing the number of years a provider must keep records; adding an additional provision relating to a change in principal that must be included in a Medicaid provider agreement with the Agency for Health Care Administration; adding the definitions of the terms "administrative fines" and "outstanding overpayment"; revising provisions relating to the agency's onsite inspection responsibilities; revising provisions relating to who is subject to background screening; authorizing the agency to enroll a provider who is licensed in this state and provides diagnostic services through telecommunications technology; amending s. 409.910, F.S.; revising provisions relating to responsibility for Medicaid payments in settlement proceedings; providing procedures for a recipient to contest the amount payable to the agency; amending s. 409.913, F.S.; increasing the number of years a provider must keep records; revising provisions specifying grounds for terminating a provider from the program, for seeking certain remedies for violations, and for imposing certain sanctions; providing a limitation on the information the agency may consider when making a determination of overpayment; specifying the type of records a provider must present to contest an overpayment; deleting the

873636

576-04562-13

requirement that the agency place payments withheld from a provider in a suspended account and revising when a provider must reimburse overpayments; revising venue requirements; adding provisions relating to the payment of fines; amending s. 409.920, F.S.; clarifying provisions relating to immunity from liability for persons who provide information about Medicaid fraud; amending s. 624.351, F.S.; providing for the expiration of the Medicaid and Public Assistance Fraud Strike Force; amending s. 624.352, F.S.; providing for the expiration of provisions relating to "Strike Force" agreements; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (c) of subsection (3) of section 409.907, Florida Statutes, is amended, paragraph (k) is added to that subsection, and subsections (6) through (9) of that section are amended, to read:

409.907 Medicaid provider agreements.—The agency may make payments for medical assistance and related services rendered to Medicaid recipients only to an individual or entity who has a provider agreement in effect with the agency, who is performing services or supplying goods in accordance with federal, state, And local law, and who agrees that no person shall, on the grounds of handicap, race, color, or national origin, or for any other reason, be subjected to discrimination under any program or activity for which the provider receives payment from the

agency.

(3) The provider agreement developed by the agency, in addition to the requirements specified in subsections (1) and (2), shall require the provider to:

(c) Retain all medical and Medicaid-related records for 6 ~~a period of 5~~ years to satisfy all necessary inquiries by the agency.

(k) Report a change in any principal of the provider, including any officer, director, agent, managing employee, or affiliated person, or any partner or shareholder who has an ownership interest equal to 5 percent or more in the provider, to the agency in writing within 30 days after the change occurs. For a hospital licensed under chapter 395 or a nursing home licensed under part II of chapter 400, a principal of the provider is one who meets the definition of a controlling interest under s. 408.803.

(6) A Medicaid provider agreement may be revoked, at the option of the agency, due to ~~as the result of~~ a change of ownership of any facility, association, partnership, or other entity named as the provider in the provider agreement.

(a) If there is ~~In the event of~~ a change of ownership, the transferor remains liable for all outstanding overpayments, administrative fines, and any other moneys owed to the agency before the effective date of the change ~~of ownership~~. ~~In addition to the continuing liability of the transferor,~~ The transferee is also liable to the agency for all outstanding overpayments identified by the agency on or before the effective date of the change of ownership. ~~For purposes of this subsection, the term "outstanding overpayment" includes any~~

~~amount identified in a preliminary audit report issued to the transferor by the agency on or before the effective date of the change of ownership.~~ In the event of a change of ownership for a skilled nursing facility or intermediate care facility, the Medicaid provider agreement shall be assigned to the transferee if the transferee meets all other Medicaid provider qualifications. In the event of a change of ownership involving a skilled nursing facility licensed under part II of chapter 400, liability for all outstanding overpayments, administrative fines, and any moneys owed to the agency before the effective date of the change of ownership shall be determined in accordance with s. 400.179.

(b) At least 60 days before the anticipated date of the change of ownership, the transferor must ~~shall~~ notify the agency of the intended change ~~of ownership~~ and the transferee must ~~shall~~ submit to the agency a Medicaid provider enrollment application. If a change of ownership occurs without compliance with the notice requirements of this subsection, the transferor and transferee are ~~shall be~~ jointly and severally liable for all overpayments, administrative fines, and other moneys due to the agency, regardless of whether the agency identified the overpayments, administrative fines, or other moneys before or after the effective date of the change ~~of ownership~~. The agency may not approve a transferee's Medicaid provider enrollment application if the transferee or transferor has not paid or agreed in writing to a payment plan for all outstanding overpayments, administrative fines, and other moneys due to the agency. This subsection does not preclude the agency from seeking any other legal or equitable remedies available to the

873636

576-04562-13

agency for the recovery of moneys owed to the Medicaid program. In the event of a change of ownership involving a skilled nursing facility licensed under part II of chapter 400, liability for all outstanding overpayments, administrative fines, and any moneys owed to the agency before the effective date of the change of ownership shall be determined in accordance with s. 400.179 if the Medicaid provider enrollment application for change of ownership is submitted before the change ~~of ownership~~.

(c) As used in this subsection, the term:

1. "Administrative fines" includes any amount identified in a notice of a monetary penalty or fine which has been issued by the agency or other regulatory or licensing agency that governs the provider.

2. "Outstanding overpayment" includes any amount identified in a preliminary audit report issued to the transferor by the agency on or before the effective date of a change of ownership.

(7) ~~The agency may require,~~ As a condition of participating in the Medicaid program and before entering into the provider agreement, the agency may require ~~that~~ the provider to submit information, in an initial and any required renewal applications, concerning the professional, business, and personal background of the provider and permit an onsite inspection of the provider's service location by agency staff or other personnel designated by the agency to perform this function. Before entering into a provider agreement, the agency may ~~shall~~ perform an ~~a random~~ onsite inspection~~, within 60 days after receipt of a fully complete new provider's application,~~ of the provider's service location ~~prior to making its first~~

873636

576-04562-13

~~payment to the provider for Medicaid services~~ to determine the applicant's ability to provide the services in compliance with the Medicaid program and professional regulations ~~that the applicant is proposing to provide for Medicaid reimbursement~~. ~~The agency is not required to perform an onsite inspection of a provider or program that is licensed by the agency, that provides services under waiver programs for home and community-based services, or that is licensed as a medical foster home by the Department of Children and Family Services.~~ As a continuing condition of participation in the Medicaid program, a provider must ~~shall~~ immediately notify the agency of any current or pending bankruptcy filing. Before entering into the provider agreement, or as a condition of continuing participation in the Medicaid program, the agency may also require ~~that~~ Medicaid providers that are reimbursed on a fee-for-services basis or fee schedule basis that ~~which~~ is not cost-based to~~,~~ post a surety bond not to exceed $50,000 or the total amount billed by the provider to the program during the current or most recent calendar year, whichever is greater. For new providers, the amount of the surety bond shall be determined by the agency based on the provider's estimate of its first year's billing. If the provider's billing during the first year exceeds the bond amount, the agency may require the provider to acquire an additional bond equal to the actual billing level of the provider. A provider's bond need ~~shall~~ not exceed $50,000 if a physician or group of physicians licensed under chapter 458, chapter 459, or chapter 460 has a 50 percent or greater ownership interest in the provider or if the provider is an assisted living facility licensed under chapter 429. The bonds

permitted by this section are in addition to the bonds referenced in s. 400.179(2)(d). If the provider is a corporation, partnership, association, or other entity, the agency may require the provider to submit information concerning the background of that entity and of any principal of the entity, including any partner or shareholder having an ownership interest in the entity equal to 5 percent or greater, and any treating provider who participates in or intends to participate in Medicaid through the entity. The information must include:

(a) Proof of holding a valid license or operating certificate, as applicable, if required by the state or local jurisdiction in which the provider is located or if required by the Federal Government.

(b) Information concerning any prior violation, fine, suspension, termination, or other administrative action taken under the Medicaid laws or~~,~~ rules~~, or regulations~~ of this state or ~~of~~ any other state or the Federal Government; any prior violation of the laws or~~,~~ rules~~, or regulations~~ relating to the Medicare program; any prior violation of the rules ~~or regulations~~ of any other public or private insurer; and any prior violation of the laws or~~,~~ rules~~, or regulations~~ of any regulatory body of this or any other state.

(c) Full and accurate disclosure of any financial or ownership interest that the provider, or any principal, partner, or major shareholder thereof, may hold in any other Medicaid provider or health care related entity or any other entity that is licensed by the state to provide health or residential care and treatment to persons.

(d) If a group provider, identification of all members of

the group and attestation that all members of the group are enrolled in or have applied to enroll in the Medicaid program.

(8)~~(a)~~ Each provider, or each principal of the provider if the provider is a corporation, partnership, association, or other entity, seeking to participate in the Medicaid program must submit a complete set of his or her fingerprints to the agency for the purpose of conducting a criminal history record check. Principals of the provider include any officer, director, billing agent, managing employee, or affiliated person, or any partner or shareholder who has an ownership interest equal to 5 percent or more in the provider. However, for a hospital licensed under chapter 395 or a nursing home licensed under chapter 400, principals of the provider are those who meet the definition of a controlling interest under s. 408.803. A director of a not-for-profit corporation or organization is not a principal for purposes of a background investigation ~~as~~ required by this section if the director: serves solely in a voluntary capacity for the corporation or organization, does not regularly take part in the day-to-day operational decisions of the corporation or organization, receives no remuneration from the not-for-profit corporation or organization for his or her service on the board of directors, has no financial interest in the not-for-profit corporation or organization, and has no family members with a financial interest in the not-for-profit corporation or organization; and if the director submits an affidavit, under penalty of perjury, to this effect to the agency and the not-for-profit corporation or organization submits an affidavit, under penalty of perjury, to this effect to the agency as part of the corporation’s or organization’s

873636

576-04562-13

Medicaid provider agreement application. Notwithstanding the above, the agency may require a background check for any person reasonably suspected by the agency to have been convicted of a crime.

(a) This subsection does not apply to:

~~1. A hospital licensed under chapter 395;~~

~~2. A nursing home licensed under chapter 400;~~

~~3. A hospice licensed under chapter 400;~~

~~4. An assisted living facility licensed under chapter 429;~~

1.~~5.~~ A unit of local government, except that requirements of this subsection apply to nongovernmental providers and entities contracting with the local government to provide Medicaid services. The actual cost of the state and national criminal history record checks must be borne by the nongovernmental provider or entity; or

2.~~6.~~ Any business that derives more than 50 percent of its revenue from the sale of goods to the final consumer, and the business or its controlling parent is required to file a form 10-K or other similar statement with the Securities and Exchange Commission or has a net worth of $50 million or more.

(b) Background screening shall be conducted in accordance with chapter 435 and s. 408.809. The cost of the state and national criminal record check shall be borne by the provider.

~~(c) Proof of compliance with the requirements of level 2 screening under chapter 435 conducted within 12 months before the date the Medicaid provider application is submitted to the agency fulfills the requirements of this subsection.~~

(9) Upon receipt of a completed, signed, and dated application, and completion of any necessary background

873636

576-04562-13

investigation and criminal history record check, the agency must ~~either~~:

(a) Enroll the applicant as a Medicaid provider upon approval of the provider application. The enrollment effective date is ~~shall be~~ the date the agency receives the provider application. With respect to a provider that requires a Medicare certification survey, the enrollment effective date is the date the certification is awarded. With respect to a provider that completes a change of ownership, the effective date is the date the agency received the application, the date the change of ownership was complete, or the date the applicant became eligible to provide services under Medicaid, whichever date is later. With respect to a provider of emergency medical services transportation or emergency services and care, the effective date is the date the services were rendered. Payment for any claims for services provided to Medicaid recipients between the date of receipt of the application and the date of approval is contingent on applying ~~any and~~ all applicable audits and edits contained in the agency's claims adjudication and payment processing systems. The agency may enroll a provider located outside this ~~the~~ state ~~of Florida~~ if the provider's location is no more than 50 miles from the ~~Florida~~ state line, if the provider is actively licensed in this state and provides diagnostic services through telecommunications and information technology in order to provide clinical health care at a distance, or if the agency determines a need for that provider type to ensure adequate access to care; or

(b) Deny the application if the agency finds that it is in the best interest of the Medicaid program to do so. The agency

873636

576-04562-13

may consider the factors listed in subsection (10), as well as any other factor that could affect the effective and efficient administration of the program, including, but not limited to, the applicant's demonstrated ability to provide services, conduct business, and operate a financially viable concern; the current availability of medical care, services, or supplies to recipients, taking into account geographic location and reasonable travel time; the number of providers of the same type already enrolled in the same geographic area; and the credentials, experience, success, and patient outcomes of the provider for the services that it is making application to provide in the Medicaid program. The agency shall deny the application if the agency finds that a provider; any officer, director, agent, managing employee, or affiliated person; or any partner or shareholder having an ownership interest equal to 5 percent or greater in the provider if the provider is a corporation, partnership, or other business entity, has failed to pay all outstanding fines or overpayments assessed by final order of the agency or final order of the Centers for Medicare and Medicaid Services, not subject to further appeal, unless the provider agrees to a repayment plan that includes withholding Medicaid reimbursement until the amount due is paid in full.

Section 2. Subsection (17) of section 409.910, Florida Statutes, is amended to read:

409.910 Responsibility for payments on behalf of Medicaid-eligible persons when other parties are liable.—

(17) A recipient or his or her legal representative or any person representing, or acting as agent for, a recipient or the recipient's legal representative, who has notice, excluding

873636

576-04562-13

notice charged solely by reason of the recording of the lien pursuant to paragraph (6)(c), or who has actual knowledge of the agency's rights to third-party benefits under this section, who receives any third-party benefit or proceeds ~~therefrom~~ for a covered illness or injury, must ~~is required either to pay the agency~~, within 60 days after receipt of settlement proceeds, pay the agency the full amount of the third-party benefits, but not more than ~~in excess of~~ the total medical assistance provided by Medicaid, or ~~to~~ place the full amount of the third-party benefits in an interest-bearing ~~a~~ trust account for the benefit of the agency pending an ~~judicial or~~ administrative determination of the agency's right to the benefits ~~thereto~~. Proof that ~~any~~ such person had notice or knowledge that the recipient had received medical assistance from Medicaid, and that third-party benefits or proceeds ~~therefrom~~ were in any way related to a covered illness or injury for which Medicaid had provided medical assistance, and that ~~any~~ such person knowingly obtained possession or control of, or used, third-party benefits or proceeds and failed ~~either~~ to pay the agency the full amount required by this section or to hold the full amount of third-party benefits or proceeds in an interest-bearing trust account pending an ~~judicial or~~ administrative determination, unless adequately explained, gives rise to an inference that such person knowingly failed to credit the state or its agent for payments received from social security, insurance, or other sources, pursuant to s. 414.39(4)(b), and acted with the intent set forth in s. 812.014(1).

(a) A recipient may contest the amount designated as recovered medical expense damages payable to the agency pursuant

to the formula specified in paragraph (11)(f) by filing a petition under chapter 120 within 21 days after the date of payment of funds to the agency or after the date of placing the full amount of the third-party benefits in the trust account for the benefit of the agency. The petition shall be filed with the Division of Administrative Hearings. For purposes of chapter 120, the payment of funds to the agency or the placement of the full amount of the third-party benefits in the trust account for the benefit of the agency constitutes final agency action and notice thereof. Final order authority for the proceedings specified in this subsection rests with the Division of Administrative Hearings. This procedure is the exclusive method for challenging the amount of third-party benefits payable to the agency.

1. In order to successfully challenge the amount payable to the agency, the recipient must prove, by clear and convincing evidence, that a lesser portion of the total recovery should be allocated as reimbursement for past and future medical expenses than the amount calculated by the agency pursuant to the formula set forth in paragraph (11)(f) or that Medicaid provided a lesser amount of medical assistance than that asserted by the agency.

2. The agency's provider processing system reports are admissible as prima facie evidence in substantiating the agency's claim.

3. Venue for all administrative proceedings pursuant to this subsection lies in Leon County, at the discretion of the agency. Venue for all appellate proceedings arising from the administrative proceeding outlined in this subsection lie at the

First District Court of Appeal in Leon County, at the discretion of the agency.

4. Each party shall bear its own attorney fees and costs for any administrative proceeding conducted pursuant to this paragraph.

(b) ~~(a)~~ In cases of suspected criminal violations or fraudulent activity, the agency may take any civil action permitted at law or equity to recover the greatest possible amount, including, without limitation, treble damages under ss. 772.11 and 812.035(7).

1. ~~(b)~~ The agency may ~~is authorized to~~ investigate and ~~to~~ request appropriate officers or agencies of the state to investigate suspected criminal violations or fraudulent activity related to third-party benefits, including, without limitation, ss. 414.39 and 812.014. Such requests may be directed, without limitation, to the Medicaid Fraud Control Unit of the Office of the Attorney General, or to any state attorney. Pursuant to s. 409.913, the Attorney General has primary responsibility to investigate and control Medicaid fraud.

2. ~~(c)~~ In carrying out duties and responsibilities related to Medicaid fraud control, the agency may subpoena witnesses or materials within or outside the state and, through any duly designated employee, administer oaths and affirmations and collect evidence for possible use in either civil or criminal judicial proceedings.

3. ~~(d)~~ All information obtained and documents prepared pursuant to an investigation of a Medicaid recipient, the recipient's legal representative, or any other person relating to an allegation of recipient fraud or theft is confidential and

873636

576-04562-13

exempt from s. 119.07(1):

a.~~1.~~ Until such time as the agency takes final agency action;

b.~~2.~~ Until such time as the Department of Legal Affairs refers the case for criminal prosecution;

c.~~3.~~ Until such time as an indictment or criminal information is filed by a state attorney in a criminal case; or

d.~~4.~~ At all times if otherwise protected by law.

Section 3. Subsections (9), (13), (15), (16), (21), (22), (25), (28), (30), and (31) of section 409.913, Florida Statutes, are amended to read:

409.913 Oversight of the integrity of the Medicaid program.—The agency shall operate a program to oversee the activities of Florida Medicaid recipients, and providers and their representatives, to ensure that fraudulent and abusive behavior and neglect of recipients occur to the minimum extent possible, and to recover overpayments and impose sanctions as appropriate. Beginning January 1, 2003, and each year thereafter, the agency and the Medicaid Fraud Control Unit of the Department of Legal Affairs shall submit a joint report to the Legislature documenting the effectiveness of the state's efforts to control Medicaid fraud and abuse and to recover Medicaid overpayments during the previous fiscal year. The report must describe the number of cases opened and investigated each year; the sources of the cases opened; the disposition of the cases closed each year; the amount of overpayments alleged in preliminary and final audit letters; the number and amount of fines or penalties imposed; any reductions in overpayment amounts negotiated in settlement agreements or by other means;

873636

576-04562-13

the amount of final agency determinations of overpayments; the amount deducted from federal claiming as a result of overpayments; the amount of overpayments recovered each year; the amount of cost of investigation recovered each year; the average length of time to collect from the time the case was opened until the overpayment is paid in full; the amount determined as uncollectible and the portion of the uncollectible amount subsequently reclaimed from the Federal Government; the number of providers, by type, that are terminated from participation in the Medicaid program as a result of fraud and abuse; and all costs associated with discovering and prosecuting cases of Medicaid overpayments and making recoveries in such cases. The report must also document actions taken to prevent overpayments and the number of providers prevented from enrolling in or reenrolling in the Medicaid program as a result of documented Medicaid fraud and abuse and must include policy recommendations necessary to prevent or recover overpayments and changes necessary to prevent and detect Medicaid fraud. All policy recommendations in the report must include a detailed fiscal analysis, including, but not limited to, implementation costs, estimated savings to the Medicaid program, and the return on investment. The agency must submit the policy recommendations and fiscal analyses in the report to the appropriate estimating conference, pursuant to s. 216.137, by February 15 of each year. The agency and the Medicaid Fraud Control Unit of the Department of Legal Affairs each must include detailed unit-specific performance standards, benchmarks, and metrics in the report, including projected cost savings to the state Medicaid program during the following fiscal year.

873636

576-04562-13

(9) A Medicaid provider shall retain medical, professional, financial, and business records pertaining to services and goods furnished to a Medicaid recipient and billed to Medicaid for 6 ~~a period of 5~~ years after the date of furnishing such services or goods. The agency may investigate, review, or analyze such records, which must be made available during normal business hours. However, 24-hour notice must be provided if patient treatment would be disrupted. The provider must keep ~~is responsible for furnishing to the agency, and keeping~~ the agency informed of the location of, the provider's Medicaid-related records. The authority of the agency to obtain Medicaid-related records from a provider is neither curtailed nor limited during a period of litigation between the agency and the provider.

(13) The agency shall ~~immediately~~ terminate participation of a Medicaid provider in the Medicaid program and may seek civil remedies or impose other administrative sanctions against a Medicaid provider, if the provider or any principal, officer, director, agent, managing employee, or affiliated person of the provider, or any partner or shareholder having an ownership interest in the provider equal to 5 percent or greater, has been convicted of a criminal offense under federal law or the law of any state relating to the practice of the provider's profession, or a criminal offense listed under s. 408.809(4), s. 409.907(10), or s. 435.04(2) ~~has been:~~

~~(a) Convicted of a criminal offense related to the delivery of any health care goods or services, including the performance of management or administrative functions relating to the delivery of health care goods or services;~~

~~(b) Convicted of a criminal offense under federal law or~~

873636

576-04562-13

~~the law of any state relating to the practice of the provider's profession; or~~

~~(c) Found by a court of competent jurisdiction to have neglected or physically abused a patient in connection with the delivery of health care goods or services~~. If the agency determines that the ~~a~~ provider did not participate or acquiesce in the ~~an~~ offense ~~specified in paragraph (a), paragraph (b), or paragraph (c)~~, termination will not be imposed. If the agency effects a termination under this subsection, the agency shall take final agency action ~~issue an immediate final order pursuant to s. 120.569(2)(n)~~.

(15) The agency shall seek a remedy provided by law, including, but not limited to, any remedy provided in subsections (13) and (16) and s. 812.035, if:

(a) The provider's license has not been renewed, or has been revoked, suspended, or terminated, for cause, by the licensing agency of any state;

(b) The provider has failed to make available or has refused access to Medicaid-related records to an auditor, investigator, or other authorized employee or agent of the agency, the Attorney General, a state attorney, or the Federal Government;

(c) The provider has not furnished or has failed to make available such Medicaid-related records as the agency has found necessary to determine whether Medicaid payments are or were due and the amounts thereof;

(d) The provider has failed to maintain medical records made at the time of service, or prior to service if prior authorization is required, demonstrating the necessity and

873636

576-04562-13

appropriateness of the goods or services rendered;

(e) The provider is not in compliance with provisions of Medicaid provider publications that have been adopted by reference as rules in the Florida Administrative Code; with provisions of state or federal laws, rules, or regulations; with provisions of the provider agreement between the agency and the provider; or with certifications found on claim forms or on transmittal forms for electronically submitted claims that are submitted by the provider or authorized representative, as such provisions apply to the Medicaid program;

(f) The provider or person who ordered, authorized, or prescribed the care, services, or supplies has furnished, or ordered or authorized the furnishing of, goods or services to a recipient which are inappropriate, unnecessary, excessive, or harmful to the recipient or are of inferior quality;

(g) The provider has demonstrated a pattern of failure to provide goods or services that are medically necessary;

(h) The provider or an authorized representative of the provider, or a person who ordered, authorized, or prescribed the goods or services, has submitted or caused to be submitted false or a pattern of erroneous Medicaid claims;

(i) The provider or an authorized representative of the provider, or a person who has ordered, authorized, or prescribed the goods or services, has submitted or caused to be submitted a Medicaid provider enrollment application, a request for prior authorization for Medicaid services, a drug exception request, or a Medicaid cost report that contains materially false or incorrect information;

(j) The provider or an authorized representative of the

873636

576-04562-13

provider has collected from or billed a recipient or a recipient's responsible party improperly for amounts that should not have been so collected or billed by reason of the provider's billing the Medicaid program for the same service;

(k) The provider or an authorized representative of the provider has included in a cost report costs that are not allowable under a Florida Title XIX reimbursement plan~~,~~ after the provider or authorized representative had been advised in an audit exit conference or audit report that the costs were not allowable;

(l) The provider is charged by information or indictment with fraudulent billing practices or an offense referenced in subsection (13). The sanction applied for this reason is limited to suspension of the provider's participation in the Medicaid program for the duration of the indictment unless the provider is found guilty pursuant to the information or indictment;

(m) The provider or a person who ~~has~~ ordered, authorized, or prescribed the goods or services is found liable for negligent practice resulting in death or injury to the provider's patient;

(n) The provider fails to demonstrate that it had available during a specific audit or review period sufficient quantities of goods, or sufficient time in the case of services, to support the provider's billings to the Medicaid program;

(o) The provider has failed to comply with the notice and reporting requirements of s. 409.907;

(p) The agency has received reliable information of patient abuse or neglect or of any act prohibited by s. 409.920; or

(q) The provider has failed to comply with an agreed-upon

repayment schedule.

A provider is subject to sanctions for violations of this subsection as the result of actions or inactions of the provider, or actions or inactions of any principal, officer, director, agent, managing employee, or affiliated person of the provider, or any partner or shareholder having an ownership interest in the provider equal to 5 percent or greater, in which the provider participated or acquiesced.

(16) The agency shall impose any of the following sanctions or disincentives on a provider or a person for any of the acts described in subsection (15):

(a) Suspension for a specific period of time of not more than 1 year. Suspension precludes ~~shall preclude~~ participation in the Medicaid program, which includes any action that results in a claim for payment to the Medicaid program for ~~as a result of~~ furnishing, supervising a person who is furnishing, or causing a person to furnish goods or services.

(b) Termination for a specific period of time ranging ~~of~~ from more than 1 year to 20 years. Termination precludes ~~shall preclude~~ participation in the Medicaid program, which includes any action that results in a claim for payment to the Medicaid program for ~~as a result of~~ furnishing, supervising a person who is furnishing, or causing a person to furnish goods or services.

(c) Imposition of a fine of up to $5,000 for each violation. Each day that an ongoing violation continues, such as refusing to furnish Medicaid-related records or refusing access to records, is considered~~, for the purposes of this section, to be~~ a separate violation. Each instance of improper billing of a

Medicaid recipient; each instance of including an unallowable cost on a hospital or nursing home Medicaid cost report after the provider or authorized representative has been advised in an audit exit conference or previous audit report of the cost unallowability; each instance of furnishing a Medicaid recipient goods or professional services that are inappropriate or of inferior quality as determined by competent peer judgment; each instance of knowingly submitting a materially false or erroneous Medicaid provider enrollment application, request for prior authorization for Medicaid services, drug exception request, or cost report; each instance of inappropriate prescribing of drugs for a Medicaid recipient as determined by competent peer judgment; and each false or erroneous Medicaid claim leading to an overpayment to a provider is considered~~, for the purposes of this section, to be~~ a separate violation.

(d) Immediate suspension, if the agency has received information of patient abuse or neglect or of any act prohibited by s. 409.920. Upon suspension, the agency must issue an immediate final order under s. 120.569(2)(n).

(e) A fine, not to exceed $10,000, for a violation of paragraph (15)(i).

(f) Imposition of liens against provider assets, including, but not limited to, financial assets and real property, not to exceed the amount of fines or recoveries sought, upon entry of an order determining that such moneys are due or recoverable.

(g) Prepayment reviews of claims for a specified period of time.

(h) Comprehensive followup reviews of providers every 6 months to ensure that they are billing Medicaid correctly.

873636

576-04562-13

(i) Corrective-action plans that ~~would~~ remain in effect ~~for providers~~ for up to 3 years and that are ~~would be~~ monitored by the agency every 6 months while in effect.

(j) Other remedies as permitted by law to effect the recovery of a fine or overpayment.

If a provider voluntarily relinquishes its Medicaid provider number or an associated license, or allows the associated licensure to expire after receiving written notice that the agency is conducting, or has conducted, an audit, survey, inspection, or investigation and that a sanction of suspension or termination will or would be imposed for noncompliance discovered as a result of the audit, survey, inspection, or investigation, the agency shall impose the sanction of termination for cause against the provider. The Secretary of Health Care Administration may make a determination that imposition of a sanction or disincentive is not in the best interest of the Medicaid program, in which case a sanction or disincentive may ~~shall~~ not be imposed.

(21) When making a determination that an overpayment has occurred, the agency shall prepare and issue an audit report to the provider showing the calculation of overpayments. The agency's determination must be based solely upon information available to it before issuance of the audit report and, in the case of documentation obtained to substantiate claims for Medicaid reimbursement, based solely upon contemporaneous records.

(22) The audit report, supported by agency work papers, showing an overpayment to a provider constitutes evidence of the

873636

576-04562-13

overpayment. A provider may not present or elicit testimony~~,~~ ~~either~~ on direct examination or cross-examination in any court or administrative proceeding, regarding the purchase or acquisition by any means of drugs, goods, or supplies; sales or divestment by any means of drugs, goods, or supplies; or inventory of drugs, goods, or supplies, unless such acquisition, sales, divestment, or inventory is documented by written invoices, written inventory records, or other competent written documentary evidence maintained in the normal course of the provider's business. A provider may not present records to contest an overpayment or sanction unless such records are contemporaneous and, if requested during the audit process, were furnished to the agency or its agent upon request. This limitation does not apply to Medicaid cost report audits. Notwithstanding the applicable rules of discovery, all documentation to ~~that will~~ be offered as evidence at an administrative hearing on a Medicaid overpayment or an administrative sanction must be exchanged by all parties at least 14 days before the administrative hearing or ~~must~~ be excluded from consideration.

(25)(a) The agency shall withhold Medicaid payments, in whole or in part, to a provider upon receipt of reliable evidence that the circumstances giving rise to the need for a withholding of payments involve fraud, willful misrepresentation, or abuse under the Medicaid program, or a crime committed while rendering goods or services to Medicaid recipients. If it is determined that fraud, willful misrepresentation, abuse, or a crime did not occur, the payments withheld must be paid to the provider within 14 days after such

873636

576-04562-13

determination ~~with interest at the rate of 10 percent a year~~. Amounts not paid within 14 days accrue interest at the rate of 10 percent a year, beginning after the 14th day ~~Any money withheld in accordance with this paragraph shall be placed in a suspended account, readily accessible to the agency, so that any payment ultimately due the provider shall be made within 14 days~~.

(b) The agency shall deny payment, or require repayment, if the goods or services were furnished, supervised, or caused to be furnished by a person who has been suspended or terminated from the Medicaid program or Medicare program by the Federal Government or any state.

(c) Overpayments owed to the agency bear interest at the rate of 10 percent per year from the date of final determination of the overpayment by the agency, and payment arrangements must be made within 30 days after the date of the final order, which is not subject to further appeal ~~at the conclusion of legal proceedings~~. ~~A provider who does not enter into or adhere to an agreed-upon repayment schedule may be terminated by the agency for nonpayment or partial payment.~~

(d) The agency, upon entry of a final agency order, a judgment or order of a court of competent jurisdiction, or a stipulation or settlement, may collect the moneys owed by all means allowable by law, including, but not limited to, notifying any fiscal intermediary of Medicare benefits that the state has a superior right of payment. Upon receipt of such written notification, the Medicare fiscal intermediary shall remit to the state the sum claimed.

(e) The agency may institute amnesty programs to allow

873636

576-04562-13

Medicaid providers the opportunity to voluntarily repay overpayments. The agency may adopt rules to administer such programs.

(28) Venue for all Medicaid program integrity ~~overpayment~~ cases lies ~~shall lie~~ in Leon County, at the discretion of the agency.

(30) The agency shall terminate a provider's participation in the Medicaid program if the provider fails to reimburse an overpayment or pay an agency-imposed fine that has been determined by final order, not subject to further appeal, within 30 ~~35~~ days after the date of the final order, unless the provider and the agency have entered into a repayment agreement.

(31) If a provider requests an administrative hearing pursuant to chapter 120, such hearing must be conducted within 90 days following assignment of an administrative law judge, absent exceptionally good cause shown as determined by the administrative law judge or hearing officer. Upon issuance of a final order, the outstanding balance of the amount determined to constitute the overpayment and fines is ~~shall become~~ due. If a provider fails to make payments in full, fails to enter into a satisfactory repayment plan, or fails to comply with the terms of a repayment plan or settlement agreement, the agency shall withhold ~~medical assistance~~ reimbursement payments for Medicaid services until the amount due is paid in full.

Section 4. Subsection (8) of section 409.920, Florida Statutes, is amended to read:

409.920 Medicaid provider fraud.—

(8) A person who provides the state, any state agency, any of the state's political subdivisions, or any agency of the

873636

576-04562-13

state's political subdivisions with information about fraud or suspected fraudulent acts ~~fraud~~ by a Medicaid provider, including a managed care organization, is immune from civil liability for libel, slander, or any other relevant tort for providing ~~the~~ information about fraud or suspected fraudulent acts unless the person acted with knowledge that the information was false or with reckless disregard for the truth or falsity of the information. Such immunity extends to reports of fraudulent acts or suspected fraudulent acts conveyed to or from the agency in any manner, including any forum and with any audience as directed by the agency, and includes all discussions subsequent to the report and subsequent inquiries from the agency, unless the person acted with knowledge that the information was false or with reckless disregard for the truth or falsity of the information. As used in this subsection, the term "fraudulent acts" includes actual or suspected fraud and abuse, insurance fraud, licensure fraud, or public assistance fraud, including any fraud-related matters that a provider or health plan is required to report to the agency or a law enforcement agency.

Section 5. Subsection (3) of section 624.351, Florida Statutes, is amended, and subsection (8) is added to that section, to read:

624.351 Medicaid and Public Assistance Fraud Strike Force.—

(3) MEMBERSHIP.—The strike force shall consist of the following 11 members or their designees. A designee shall serve in the same capacity as the designating member ~~who may not designate anyone to serve in their place~~:

(a) The Chief Financial Officer, who shall serve as chair.

(b) The Attorney General, who shall serve as vice chair.

873636

576-04562-13

(c) The executive director of the Department of Law Enforcement.

(d) The Secretary of Health Care Administration.

(e) The Secretary of Children and Family Services.

(f) The State Surgeon General.

(g) Five members appointed by the Chief Financial Officer, consisting of two sheriffs, two chiefs of police, and one state attorney. When making these appointments, the Chief Financial Officer shall consider representation by geography, population, ethnicity, and other relevant factors in order to ensure that the membership of the strike force is representative of the state as a whole.

(8) EXPIRATION.—This section is repealed June 30, 2014.

Section 6. Subsection (3) is added to section 624.352, Florida Statutes, to read:

624.352 Interagency agreements to detect and deter Medicaid and public assistance fraud.—

(3) This section is repealed June 30, 2014.

Section 7. This act shall take effect July 1, 2013.

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/CS/SB 844 modifies existing statutory provisions relating to fraud and abuse, provider controls, and accountability in the Medicaid program.

The bill is expected to have an indeterminate fiscal impact on the Agency for Health Care Administration (AHCA). See Section V.

The bill:

- Provides that the AHCA may enroll as a Medicaid provider a physician located outside the state of Florida if the physician is actively licensed in Florida and interprets diagnostic testing results through telecommunications and information technology provided from a distance;
- Amends the Medicaid Third-party Liability Act to ensure compliance with federal law;
- Requires Medicaid providers to report a change in any principal of the provider to the AHCA in writing no later than 30 days after the change occurs;
- Defines "administrative fines" for purposes of liability for payment of such fines in the event of a change of ownership;

- Authorizes, rather than requires, the AHCA to perform onsite inspections of the service location of a provider applying for a provider agreement to determine that provider's ability to provide services in compliance with Medicaid regulations;
- Provides a definition for principals of a provider with a controlling interest for hospitals and nursing homes, for purposes of conducting criminal background checks;
- Removes certain exceptions to background screenings requirements for Medicaid providers;
- Expands the list of offenses for which the AHCA may terminate the participation of a Medicaid provider;
- Requires the AHCA to impose the sanction of termination for cause against providers that voluntarily relinquish their Medicaid provider numbers under certain circumstances and parameters;
- Requires that when the AHCA determines that an overpayment has been made, the AHCA must base its determination solely on the information available before the issuance of an audit report and upon contemporaneous records;
- Clarifies when the interest rate accrues on provider payments paid by the AHCA that had been withheld on a suspicion of fraud or abuse, if it is determined that there was no fraud or abuse;
- Removes the 30-day provision related to records that may be presented to contest an overpayment or sanction;
- Requires overpayments or fines be paid to the AHCA within 30 days after the date of the final order;
- Clarifies the scope of immunity from civil liability for persons who report fraudulent acts or suspected fraudulent acts;
- Amends s. 624.351, F.S., relating to the Medicaid and Public Assistance Fraud Strike Force, to authorize members or their designees to serve on the strike force and to provide that s. 624.351, F.S., is repealed effective June 30, 2014; and
- Repeals s. 624.352, F.S., relating to interagency agreements to detect and deter Medicaid and public assistance fraud, effective June 30, 2014.

The bill has an effective date of July 1, 2013.

This bill substantially amends the following sections of the Florida Statutes: 409.907, 409.913, and 409.920.

II. Present Situation:

Health Care Fraud

In 2009, the Legislature passed CS/CS/CS/SB 1986 to comprehensively address systematic health care fraud in Florida. That bill increased the Medicaid program's authority to address fraud, particularly as it relates to home health services and health care facility and health care practitioner standards to keep fraudulent actors from obtaining a health care license in Florida. The bill also created disincentives to commit Medicaid fraud and created additional criminal felonies for committing health care fraud.

With more than three years of history with the implementation of CS/CS/CS/SB 1986, some changes have been identified that would enhance Florida's efforts to prevent health care fraud

and abuse in the Medicaid program. This bill addresses some of the gaps in enforcement authority, strengthens the reporting requirements by Medicaid providers and Medicaid managed care organizations, and defines the consequences for failure to comply with the requirements.

Regulatory Authority of AHCA

The AHCA regulates hospitals and nursing homes under the authority of chapters 395 and 400, F.S., respectively, along with dozens of other health care entities such as clinical laboratories, ambulatory surgical centers, hospices, and home health agencies. General licensing provisions for these providers are found in part II of ch. 408, F.S. The Bureau for Health Facility Regulation conducts the activities that certify and license the entities under the AHCA's jurisdiction.

Medicaid

Medicaid is the medical assistance program that provides access to health care for low-income families and individuals. Medicaid also assists aged and disabled persons with costs of nursing facility care and other medical expenses. The AHCA is designated as the single state agency responsible for Medicaid. Medicaid serves approximately 3.3 million people in Florida. The statutory authority for the Medicaid program is contained in ch. 409, F.S.

Medicaid reimburses health care providers that have a provider agreement with the AHCA only for covered goods and services and only for individuals who are eligible for Medicaid assistance from Medicaid. Section 409.907, F.S., establishes requirements for Medicaid provider agreements, which include background screening requirements, notification requirements for change of ownership of a Medicaid provider, authority for AHCA site visits of provider service locations, and surety bond requirements.

Under s. 409.913, F.S., the AHCA is responsible for overseeing the integrity of the Medicaid program, to ensure that fraudulent and abusive behavior and neglect of recipients is minimized, and to recover overpayments and impose sanctions as appropriate.

Sections 409,920, 409.9201, 409.9203, and 409.9205, F.S., contain provisions relating specifically to Medicaid fraud. A person who provides the state with information about fraud or suspected fraud by a Medicaid provider, including a managed care organization, is immune from civil liability for providing that information unless the person knew the information was false or acted with reckless disregard for the truth or falsity of the information.[1]

Part IV of ch. 409, F.S., requires all Medicaid recipients to enroll in a managed care plan unless they are specifically exempted. The Statewide Medicaid Managed Care (SMMC) program includes a long-term care managed care component and a managed medical assistance component. The law directs the AHCA to begin implementation of the long-term managed care program by July 1, 2012, with full implementation in all regions of the State by October 1, 2013. The state received federal approval of this component on February 1, 2013.[2] Although the

AHCA has received conditional approval,[3] the AHCA is still awaiting final approval of the managed medical assistance program; full implementation is anticipated by October 1, 2014.

Background Screening

Chapter 435, F.S., establishes standards for background screening for employment. Section 435.03, F.S., sets standards for Level 1 background screening. Level 1 background screening includes, but is not limited to, employment history checks and statewide criminal correspondence checks through the Department of Law Enforcement and a check of the Dru Sjodin National Sex Offender Public Website, and may include local criminal records checks through local law enforcement agencies.

Level 2 background screenings includes, but is not limited to, fingerprinting for statewide criminal history records checks through the Department of Law Enforcement and national criminal history records checks through the Federal Bureau of Investigation. They may also include local criminal records checks through local law enforcement agencies. Section 435.04(2), F.S., lists the offenses that will disqualify an applicant from employment.

Section 408.809, F.S., establishes background screening requirements and procedures for entities licensed by the AHCA. The AHCA must conduct Level 2 background screening for specified individuals. Each person subject to this section is subject to Level 2 background screening every five years. This section of law also specifies additional disqualifying offenses beyond those included in s. 435.04(2), F.S.

Medicaid and Third-party Recovery in Florida

Section 409.910, F.S. is known as the Medicaid Third-Party Liability Act (Act). Pursuant to the Act, third-party benefits for medical services are primary to any medical assistance provided to a recipient by Medicaid. As such, a Medicaid recipient who receives a settlement, award, or judgment in a third-party tort action is required to reimburse the ACHA for any related Medicaid medical costs. The medical costs are calculated as the lesser of 37.5 percent of the total recovery or the total amount of medical assistance paid by Medicaid. The recipient cannot contest the amount designated by the ACHA as recovered medical expense damages.

The U.S Supreme Court, in *Wos v. E.M.A.*, recently invalidated a North Carolina statute that authorized the recovery of third-party benefits from Medicaid recipients.[4] North Carolina's Medicaid third-party liability statute provides that the state will be paid from a tort settlement or judgment the lesser of the total amount expended on the recipient's behalf by Medicaid or 33 percent of the total settlement or judgment amount.[5] The Court held that North Carolina's statute was preempted by the federal anti-lien provision due to the fact that the state statute created an irrebuttable, one-size-fits-all statutory presumption that one-third of a tort recovery is attributable to medical expenses. Such an irrebuttable presumption was found to be incompatible with the

federal Medicaid Act's mandate that a state may not demand any portion of a beneficiary's tort recovery except the share that is attributable to medical expenses.[6]

Medicaid and Public Assistance Fraud Strike Force

In 2010 the Legislature found that there was a need to develop and implement a statewide strategy to coordinate state and local agencies, law enforcement entities, and investigative units in order to increase the effectiveness of programs and initiatives dealing with the prevention, detection, and prosecution of Medicaid and public assistance fraud.[7] Interagency agreements for the coordination of prevention, investigation, and prosecution of Medicaid and public assistance fraud were executed by various agencies.[8] Thus, the Medicaid and Public Assistance Fraud Strike Force was created within the Department of Financial Services to oversee and coordinate state and local efforts to eliminate Medicaid and public assistance fraud and to recover state and federal funds.

Telemedicine

Telemedicine utilizes various advances in communication technology to provide healthcare services through a variety of electronic mediums. Telemedicine is not a separate medical specialty and does not change what constitutes proper medical treatment and services. According to the American Telemedicine Association, services provided through telemedicine include:[9]

- **Primary Care and Specialist Referral Services** – Telemedicine in this context involves a primary care or allied health professional providing consultation with a patient or a specialist assisting the primary care physician with a diagnosis. The process may involve live interactive video or the use of store and forward transmission of diagnostic images, vital signs and/or video clips with patient data for later review.
- **Remote patient monitoring** – Telemedicine in this context includes home health services and uses devices to remotely collect and send data to home health agencies or remote diagnostic testing facilities.
- **Consumer medical and health information** – In this context, telemedicine offers consumers specialized health information and on-line discussion groups for peer-to-peer support.
- **Medical education** – In this context, telemedicine provides continuing medical education credits.

[6] The federal Medicaid Act requires states to have in effect laws pursuant to which states have the right to recover third party benefits for medical assistance provided by the state Medicaid program. *See* 42 U.S.C. § 1396a(a)(25)(H). Federal law also mandates that state Medicaid programs must require recipients to assign to the state any rights the recipient has to benefits from third parties related to medical care. *See* 42 U.S.C. § 1396k(a)(1)(A). Notwithstanding the foregoing provisions, the Medicaid Act's "anti-lien provision" prohibits states from imposing a lien on the property of a recipient prior to his death on account of medical assistance provided by the state's Medicaid program. *See* 42 U.S.C. § 1396p(a)(1).

Telemedicine Services in Florida

Since 2006, the Children's Medical Services Network (CMS Network) has provided specified telemedicine services under Florida's 1915(b) Medicaid Managed Care Waiver in compliance with federal and state regulations. Authorized CMS Network telemedicine services include certain evaluation and consultation services already covered by the Medicaid state plan.

The Child Protection Team (CPT) program under Children's Medical Services also utilizes a telemedicine network. The CPT is a medically directed multi-disciplinary program that works with local sheriffs offices and the Department of Children and Families in cases of child abuse and neglect to supplement investigative activities.[10] The telemedicine network connects the child in one location ("remote site") where a registered nurse greets the child and assists with the examination by the health care professionals in another location ("hub site").[11] The hub site is a comprehensive medical facility with a wide range of medical and interdisciplinary staff that can assist with the exam and review. Special equipment allows for live assessments between the remote and hub sites, including professional participation from multiple locations.[12]

The use of telemedicine for the CPTs is further defined under rule at Rule 64C-8.001, F.A.C. Rule 64C-8.003, F.A.C, allows medical diagnosis and evaluation to be conducted in person or through telemedicine. However, the use of telemedicine specifically requires the presence of a CMS-approved physician or advanced registered nurse practitioner at the hub site and a registered nurse at the remote site.

In December 2010, Florida Medicaid submitted a state plan amendment to the federal Centers for Medicare and Medicaid Services to allow for the provision of specified physician, dental, mental health, and substance abuse telemedicine services. The amendment was requested because the program had been reimbursing only the physician rendering services using telemedicine, not the provider physically with the patient. The state plan amendment specifies that covered telemedicine services under Medicaid must include, at a minimum, audio and video equipment permitting two-way, real-time interactive communication between the Medicaid recipient and the health care practitioner.[13] Telephone conversations, chart review, electronic mail messages or facsimile transmissions are not considered telemedicine.[14]

Only a specific list of provider types are eligible for Medicaid reimbursement for telemedicine services and such providers or entities must be licensed under chs. 394, 397, 458, 459, 464, 466, 490, or 491, F.S.[15] The state plan amendment was approved in March 2011 and was retroactively effective to October 1, 2010. The 2012-2015 Model Contracts with Medicaid Managed Care

[14] Ibid.
[15] The eligible provider types are: physicians, dentists, psychiatric nurses, registered nurses, advanced registered nurse practitioners, physician's assistants, clinical social workers, mental health counselors, marriage and family therapists, masters level certified addiction professionals (CAP) and psychologists.

Organizations, however, limit telemedicine services to behavioral health care and dental services.[16,17]

The contract language specifically excludes reimbursement for telephone conversations, video cell phone interactions, electronic mail messages, facsimile transmission, telecommunications with the enrollee at a location other than a "spoke site," which is the provider office location where an approved service is being furnished.[18] Reimbursement is also excluded for "store and forward" visits and consultations that are transmitted after the Medicaid recipient is no longer available.[19] Medicaid does not reimburse for the costs or fees of any of the equipment necessary to provide the services.

Fee-for-service (FFS) Medicaid providers may provide telemedicine services within the requirements of the current Medicaid Services Coverage and Limitations Handbook.[20] Currently, the approved FFS providers are physicians, dental providers, and behavioral health care providers.[21] The managed care contracts are currently being amended to include the provision of telemedicine services by physicians.[22]

Florida law allows the Florida Board of Medicine (Board) to establish by rule standards of practice and standards of care for particular practice settings, including, but not limited to, education and training, equipment and supplies, medications including anesthetics, assistance of and delegation to other personnel, transfer agreements, sterilization, records, performance of complex or multiple procedures, informed consent, and policy and procedures manuals. In 2003, the Board adopted Rule 64B8-9.014, F.A.C., "Standards for Telemedicine Prescribing Practice." The rule prohibits prescribing based solely on an electronic questionnaire. The rule permits a doctor to provide treatment recommendations, include issuing a prescription based on a documented patient evaluation, discussion between the patient and physician regarding treatment, and treatment options and maintenance of appropriate medical records.

III. Effect of Proposed Changes:

Section 1 of the bill amends s. 409.907, F.S., relating to Medicaid provider agreements, to require a Medicaid provider to report in writing any change of any principal of the provider whose ownership interest is equal to five percent or more to the AHCA no later than 30 days after the change occurs. The bill specifies who is included in the term "principal." The definition of a controlling interest is already defined by statute under s. 408.803(7), F.S., and includes:

---

[16] According to the February 17, 2010 minutes of a Medicaid Medical Advisory Committee meeting, Medicaid reimburses telemedicine dental services for oral prophylaxis, topical fluoride application, oral hygiene instructions when a dental hygienists performs these services via video teleconferencing with a supervising licensed dentist.

[21] Ibid.
[22] Agency for Health Care Administration, *supra*, note 9, at 2.

- The applicant or licensee;
- A person or entity that serves as an officer of, is on the board or has a five percent or greater ownership interest in the applicant or licensee; or
- A person or entity that serves as an officer of, is on the board, or has a five percent or greater management interest in the management company or other entity, related or unrelated, that the applicant or licensee contracts with to manage the provider.
- The term does not include a voluntary board member.

The bill clarifies the statutory provisions relating to the liability of Medicaid providers in a change of ownership for outstanding overpayments, administrative fines, and any other moneys owed to the AHCA. The bill defines "administrative fines" to include any amount identified in any notice of a monetary penalty or fine that has been issued by the AHCA or any other regulatory or licensing agency that governs the provider.

The requirement for the AHCA to conduct random onsite inspections of Medicaid providers' service locations within 60 days after receipt of a fully complete new provider's application and prior to making the first payment to the provider for Medicaid services, is amended to authorize, rather than require, the AHCA to perform onsite inspections. The inspection would be conducted prior to the AHCA entering into a Medicaid provider agreement with the provider and would be used to determine the applicant's ability to provide services in compliance with the Medicaid program and professional regulations. The law currently only requires the AHCA to determine the applicant's ability to provide the services for which they will seek Medicaid payment.

The bill also removes an exception to the current onsite-inspection requirement for a provider or program that is licensed by the AHCA, that provides services under waiver programs for home and community-based services, or that is licensed as a medical foster home by the Department of Children and Families, since the selection of providers for onsite inspections is no longer a random selection, but is left up to the discretion of the AHCA under the bill.

The bill amends existing surety bond requirements for certain Medicaid providers. The bill clarifies that the additional bond required by the AHCA, if a provider's billing during the first year exceeds the bond amount, need not exceed $50,000 for certain providers. A provider could have a bond greater than $50,000, if the provider so elects.

The bill amends the requirements for a criminal history record check of each Medicaid provider, or each principal of the provider, to remove an exemption from such checks for hospitals, nursing homes, hospices, and assisted living facilities. The bill specifies that for hospitals and nursing homes, the principals of the provider are those who meet the definition of a controlling interest in s. 408.803, F.S., under the general licensing provisions for health care facilities regulated by the AHCA.

The bill removes the provision that proof of compliance with Level 2 background screening under ch. 435, F.S., conducted within 12 months before the date the Medicaid provider application is submitted to the AHCA, satisfies the requirements for a criminal history background check. This conforms to screening provisions in ch. 435, F.S., and ch. 408, F.S.

The bill provides that the AHCA may enroll as a Medicaid provider a physician located outside the state of Florida if the physician is actively licensed in Florida and interprets diagnostic testing results through telecommunications and information technology provided from a distance.

Section 2 of the bill amends s. 409.910, F.S., to address the recent U.S. Supreme Court ruling in *Wos v. E.M.A.* Section 409.910, F.S., creates an irrebuttable presumption that the amount that the ACHA is entitled to from a Medicaid recipient's judgment, award, or settlement in a tort action is the lesser of 37.5 percent of the total recovery or the total amount of medical assistance paid by Medicaid. This provision is similar to the North Carolina provision recently struck down by the Court. To ensure compliance with federal law, the bill amends this section to create a presumption of accuracy as to the ACHA's determination of the reimbursement amount but allows this determination to be rebutted by clear and convincing evidence. The bill establishes the mechanism for these challenges by providing Medicaid recipients with the right to an administrative hearing at the Division of Administrative Hearings (DOAH) to contest the amount of AHCA's recoupment. The bill establishes Leon County as venue for these hearings and the First District Court of Appeal as venue for any related appeals. The bill also provides that each party is to bear its own attorney fees and costs.

Section 3 of the bill amends s. 409.913, F.S., relating to oversight of the integrity of the Medicaid program. The bill deletes a requirement that the AHCA *immediately* terminate participation of a Medicaid provider that has been convicted of certain offenses. In order to terminate a provider immediately, the AHCA must show an immediate harm to the public health, which is not always possible. The AHCA still must terminate a Medicaid provider from participation in the Medicaid program, unless the AHCA determines that the provider did not participate or acquiesce in the offense. The change will resolve a current conflict with the Administrative Procedure Act.[23]

The AHCA may seek civil remedies or impose administrative sanctions if a provider *has been convicted* of any of the following offenses:

- A criminal offense under federal law or the law of any state relating to the practice of the provider's profession;
- An offense listed in s. 409.907(10), F.S., relating to factors the AHCA may consider when reviewing an application for a Medicaid provider agreement, which includes:
  - Making a false representation or omission of any material fact in making an application for a provider agreement;
  - Exclusion, suspension, termination, or involuntary withdrawal from participation in any Medicaid program or other governmental or private health care or health insurance program;
  - Being convicted of a criminal offense relating to the delivery of any goods or services under Medicaid or Medicare or any other public or private health care or health insurance program including the performance of management or administrative services relating to the delivery of goods or services under any such program;

[23] *See* s. 120.569(2)(n), F.S. which requires that "if any agency head finds that an immediate danger to the public health , safety, or welfare requires an immediate final order, it shall recite with particularity the facts underlying such finding in the final order, which shall be appealable or enjoinable from the date ordered."

  - Being convicted of a criminal offense under federal or state law related to the neglect or abuse of a patient in connection with the delivery of any health care goods or services;
  - Being convicted of a criminal offense under federal or state law related to the unlawful manufacture, distribution, prescription, or dispensing of a controlled substance;
  - Being convicted of any criminal offense relating to fraud, theft, embezzlement, breach of fiduciary responsibility, or other financial misconduct;
  - Being convicted of a criminal offense under federal or state law punishable by imprisonment of one year or more which involves moral turpitude;
  - Being convicted in connection with the interference or obstruction of any investigation into any criminal offense listed above;
  - Violation of federal or state laws, rules, or regulations governing any Medicaid program, the Medicare program, or any other publicly funded federal or state health care or health insurance program, if they have been sanctioned accordingly;
  - Violation of the standards or conditions relating to professional licensure or certification or the quality of services provided; or
  - Failure to pay fines and overpayments under the Medicaid program;
- An offense listed in s. 408.809(4), F.S., relating to background screening of licensees, which includes the following offenses or any similar offense of another jurisdiction:
  - Any authorizing statutes, if the offense was a felony;
  - Chapter 408, F.S., if the offense was a felony;
  - Section 409.920, F.S., relating to Medicaid provider fraud;
  - Section 409.9201, F.S., relating to Medicaid fraud;
  - Section 741.28, F.S., relating to domestic violence;
  - Section 817.034, F.S., relating to fraudulent acts through mail, wire, radio, electromagnetic, photoelectronic, or photooptical systems;
  - Section 817.234, F.S., relating to false and fraudulent insurance claims;
  - Section 817.505, F.S., relating to patient brokering;
  - Section 817.568, F.S., relating to criminal use of personal identification information;
  - Section 817.60, F.S., relating to obtaining a credit card through fraudulent means;
  - Section 817.61, F.S., relating to fraudulent use of credit cards, if the offense was a felony;
  - Section 831.01, F.S., relating to forgery;
  - Section 831.02, F.S., relating to uttering forged instruments;
  - Section 831.07, F.S., relating to forging bank bills, checks, drafts, or promissory notes;
  - Section 831.09, F.S., relating to uttering forged bank bills, checks, drafts, or promissory notes;
  - Section 831.30, F.S., relating to fraud in obtaining medicinal drugs; or
  - Section 831.31, F.S., relating to the sale, manufacture, delivery, or possession with the intent to sell, manufacture, or deliver any counterfeit controlled substance, if the offense was a felony;
- An offense listed in s. 435.04(2), F.S., relating to employee background screening, which includes the following offenses or any similar offense of another jurisdiction:
  - Section 393.135, F.S., relating to sexual misconduct with certain developmentally disabled clients and reporting of such sexual misconduct;
  - Section 394.4593, F.S., relating to sexual misconduct with certain mental health patients and reporting of such sexual misconduct;
  - Section 415.111, F.S., relating to adult abuse, neglect, or exploitation of aged persons or disabled adults;

- Section 782.04, F.S., relating to murder;
- Section 782.07, F.S., relating to manslaughter, aggravated manslaughter of an elderly person or disabled adult, or aggravated manslaughter of a child;
- Section 782.071, F.S., relating to vehicular homicide;
- Section 782.09, F.S., relating to killing of an unborn quick child by injury to the mother;
- Chapter 784, F.S., relating to assault, battery, and culpable negligence, if the offense was a felony;
- Section 784.011, F.S., relating to assault, if the victim of the offense was a minor;
- Section 784.03, F.S., relating to battery, if the victim of the offense was a minor;
- Section 787.01, F.S., relating to kidnapping;
- Section 787.02, F.S., relating to false imprisonment;
- Section 787.025, F.S., relating to luring or enticing a child;
- Section 787.04(2), F.S., relating to taking, enticing, or removing a child beyond the state limits with criminal intent pending custody proceedings;
- Section 787.04(3), F.S., relating to carrying a child beyond the state lines with criminal intent to avoid producing a child at a custody hearing or delivering the child to the designated person;
- Section 790.115(1), F.S., relating to exhibiting firearms or weapons within 1,000 feet of a school;
- Section 790.115(2)(b), F.S., relating to possessing an electric weapon or device, destructive device, or other weapon on school property;
- Section 794.011, F.S., relating to sexual battery;
- Former s. 794.041, F.S., relating to prohibited acts of persons in familial or custodial authority;
- Section 794.05, F.S., relating to unlawful sexual activity with certain minors;
- Chapter 796, F.S., relating to prostitution;
- Section 798.02, F.S., relating to lewd and lascivious behavior;
- Chapter 800, F.S., relating to lewdness and indecent exposure;
- Section 806.01, F.S., relating to arson;
- Section 810.02, F.S., relating to burglary;
- Section 810.14, F.S., relating to voyeurism, if the offense is a felony;
- Section 810.145, F.S., relating to video voyeurism, if the offense is a felony;
- Chapter 812, F.S., relating to theft, robbery, and related crimes, if the offense is a felony;
- Section 817.563, F.S., relating to fraudulent sale of controlled substances, only if the offense was a felony;
- Section 825.102, F.S., relating to abuse, aggravated abuse, or neglect of an elderly person or disabled adult;
- Section 825.1025, F.S., relating to lewd or lascivious offenses committed upon or in the presence of an elderly person or disabled adult;
- Section 825.103, F.S., relating to exploitation of an elderly person or disabled adult, if the offense was a felony;
- Section 826.04, F.S., relating to incest;
- Section 827.03, F.S., relating to child abuse, aggravated child abuse, or neglect of a child;
- Section 827.04, F.S., relating to contributing to the delinquency or dependency of a child;
- Former s. 827.05, F.S., relating to negligent treatment of children;
- Section 827.071, F.S., relating to sexual performance by a child;
- Section 843.01, F.S., relating to resisting arrest with violence;

- Section 843.025, F.S., relating to depriving a law enforcement, correctional, or correctional probation officer means of protection or communication;
- Section 843.12, F.S., relating to aiding in an escape;
- Section 843.13, F.S., relating to aiding in the escape of juvenile inmates in correctional institutions;
- Chapter 847, F.S., relating to obscene literature;
- Section 874.05(1), F.S., relating to encouraging or recruiting another to join a criminal gang;
- Chapter 893, F.S., relating to drug abuse prevention and control, only if the offense was a felony or if any other person involved in the offense was a minor;
- Section 916.1075, F.S., relating to sexual misconduct with certain forensic clients and reporting of such sexual misconduct;
- Section 944.35(3), F.S., relating to inflicting cruel or inhuman treatment on an inmate resulting in great bodily harm;
- Section 944.40, F.S., relating to escape;
- Section 944.46, F.S., relating to harboring, concealing, or aiding an escaped prisoner;
- Section 944.47, F.S., relating to introduction of contraband into a correctional facility;
- Section 985.701, F.S., relating to sexual misconduct in juvenile justice programs; or
- Section 985.711, F.S., relating to contraband introduced into detention facilities.

The bill amends provisions relating to noncriminal actions of Medicaid providers for which the AHCA may impose sanctions, to include the act of *authorizing* certain services that are inappropriate, unnecessary, excessive, or harmful to the recipient or are of inferior quality, or *authorizing* certain requests and reports that contain materially false or incorrect information. The bill also authorizes the AHCA to sanction a provider if the provider is charged by information or indictment with any offense listed above. The AHCA may impose sanctions if the provider or certain persons affiliated with the provider participated or acquiesced in the proscribed activity.

The bill provides that if a Medicaid provider voluntarily relinquishes its Medicaid provider number after receiving notice of an audit or investigation for which the sanction of suspension or termination will be imposed, the AHCA must impose the sanction of termination for cause against the provider, subject to challenge under ch. 120, F.S. Under current law, if a Medicaid provider receives notification that it is going to be suspended or terminated, the provider is able to voluntarily terminate its contract. By doing so, a provider has the ability to avoid sanctions of suspension or termination, which would affect the ability of the provider to reenter the program in the future. Current law gives the secretary of the AHCA authority to make a determination that imposition of a sanction is not in the best interest of the Medicaid program, in which case a sanction may not be imposed.

The bill specifies that when the AHCA is making a determination that an overpayment has occurred, the determination must be based solely upon information available before it issues the audit report and, in the case of documentation obtained to substantiate claims for Medicaid reimbursement, based solely upon contemporaneous records. The bill authorizes the AHCA to consider addenda or modifications to a note made contemporaneously with the patient care episode if the addenda or modifications are germane to the note.

In addition, the bill provides that a provider may not present records to contest an overpayment or sanction unless the records are contemporaneous and, if requested during the audit process, were provided to the AHCA or its agent. This limitation does not apply to Medicaid cost report audits and does not preclude consideration by the AHCA of audits or modifications to a note if the addenda or modifications were made before the notification of the audit and are germane to a note that was made contemporaneously with a patient care episode. Also, all documentation to be offered as evidence in an administrative hearing on an administrative sanction (in addition to Medicaid overpayments) must be exchanged by all parties at least 14 days before the administrative hearing or excluded from consideration.

The bill clarifies when interest will accrue on provider payments withheld by the AHCA based on suspected fraud or criminal activity, if it is determined later that there was no fraud or that a crime did not occur. Interest on provider payments to be paid after an investigation will accrue at 10 percent a year, beginning after the 14th day after the determination. A provision relating to the placement of funds in a suspended account held by the AHCA is deleted and a payment deadline of 14 days to the provider is removed. Payment arrangements for overpayments and fines owed to the AHCA must be made within 30 days after the date of the final order and are not subject to further appeal.

The bill requires the AHCA to terminate a provider's participation in the Medicaid program if the provider fails to pay a fine within 30 days after the date of the final order imposing the fine. The time within which a provider must reimburse an overpayment is reduced from 35 to 30 days after the date of the final order. The bill requires that fines, as well as overpayments, are due upon the issuance of a final order at the conclusion of a requested administrative hearing.

Section 4 of the bill amends s. 409.920, F.S., relating to Medicaid provider fraud, to clarify that the existing immunity from civil liability extended to persons who provide information about fraud or suspected fraudulent acts pertains to civil liability for libel, slander, or any other relevant tort. The bill defines "fraudulent acts" for purposes of immunity from civil liability to include actual or suspected fraud and abuse, insurance fraud, licensure fraud, or public insurance fraud; including any fraud-related matters that a provider or health plan is required to report to the AHCA or a law enforcement agency. The immunity from civil liability extends to reports conveyed to the AHCA in any manner, including forums, and incorporates all discussions subsequent to the report and subsequent inquiries from the AHCA, unless the person reporting acted with knowledge that the information was false or with reckless disregard for the truth or falsity of the information.

Section 5 of the bill amends s. 624.351, F.S., relating to the Medicaid and Public Assistance Fraud Strike Force, to authorize members or their designees to serve on the strike force and to provide that s. 624.351, F.S., is repealed effective June 30, 2014.

Section 6 of the bill amends s. 624.352, F.S., relating to interagency agreements to detect and deter Medicaid and public assistance fraud, to provide that the section is repealed effective June 30, 2014.

Section 7 of the bill provides an effective date of July 1, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Entities and individual health care providers under Medicaid currently exempt from background checks will be required to complete the same requirements as other Medicaid providers.

The total fee for a Level 2 background screening is $64.50 ($24.00 for the state portion, $16.50 for the national portion, and $24.00 for retention). There is an additional fee of $11-to-$16 for electronic screening, depending on the provider. The cost of the screening is borne by the individual provider.[24]

C. Government Sector Impact:

To the extent that the bill deters fraud and abuse in the Medicaid program, the bill will have an indeterminate positive fiscal impact.

The bill also creates an indeterminate negative fiscal impact. From March 2012 to February 2013, the ACHA's Third Party Liability (TPL) vendor closed 302 cases and made recoveries based on the current provisions of s. 409.910, F.S. The ACHA recovered $4.9 million from these cases, approximately $2 million of which is utilized by the Legislature to fund Medicaid administrative activities. Under Section 2 of the bill, the ACHA's ability to recover Medicaid medical costs from third parties will likely be reduced as a result the recovery amount hearings caused by the decision in *Wos v. E.M.S.* The amount of this reduction is indeterminate. However, the amount of any reduction will likely be mitigated by the bill's standard of proof for overcoming the presumption.

[24] Agency for Health Care Administration, *supra*, note 1 at 6.

In addition to the fiscal impact of reduced collections, the AHCA will incur a negative fiscal impact for providing recipients with hearings on the recovery amounts under Section 2 of the bill. The TPL vendor staffed 62 hearings in circuit court contesting the ACHA's entitlement to Medicaid recovery during the last 12 months with a cost of approximately $5,000 per hearing. Due to the loss of the irrebuttable presumption, the ACHA anticipates there will be a substantial increase in the number of hearings to determine the Medicaid recovery allocation. The bill mitigates those costs by requiring the hearings to be brought in the DOAH, requiring the venue to be in Leon County, and setting a burden of proof (clear and convincing evidence), but the amount of that mitigation is indeterminate.

The ACHA and the DOAH may experience a workload increase under Section 2 of the bill. The ACHA is not requesting additional resources but plans to review the workload impacts and make a Legislative Budget Request for fiscal year 2014-2015 if the workload cannot be absorbed within existing resources.

The AHCA reports that Section 3 of the bill may result in an increase in initial background screenings of registered treating providers performed by AHCA staff, but any potential increase in workload under the bill can be absorbed within existing resources.

To the extent that a governmental entity has providers or is a provider that are not currently required to provide a completed background checks prior to Medicaid provider enrollment and not otherwise exempt, additional costs may be incurred to comply with this requirement.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 23, 2013:
The CS removes from the bill provisions that would increase the records retention time for all medical and Medicaid-related records from five to six years for Medicaid providers. The CS provides that the AHCA may enroll as a Medicaid provider a physician located outside the state of Florida if the physician is actively licensed in Florida and interprets diagnostic testing results through telecommunications technology at a distance. The CS provides that an action by the AHCA to terminate for cause a provider that voluntarily relinquishes its Medicaid provider number is subject to challenge under ch. 120, F.S. The CS clarifies parameters relating to documentation that

the AHCA may consider during certain audits. The CS amends the Medicaid Third-party Liability Act to ensure compliance with federal law. The CS amends s. 624.351, F.S., relating to the Medicaid and Public Assistance Fraud Strike Force, to authorize members or their designees to serve on the strike force and to provide that s. 624.351, F.S., is repealed effective June 30, 2014. The CS repeals s. 624.352, F.S., relating to interagency agreements to detect and deter Medicaid and public assistance fraud, effective June 30, 2014.

CS by Health Policy on March 7, 2013
The CS deletes a separate requirement for Level 2 background checks of providers under contract with Medicaid managed care networks. All Medicaid providers participating under fee for service must still comply with this requirement. The CS removed a provision relating to the coordination of anti-fraud report reviews between the Department of Financial Services and the AHCA. The CS does not include the provision allowing the AHCA to consider information from non-Medicaid providers during an investigation. The CS also removed the 30-day provision related to records that may be presented to contest an overpayment or sanction. Interest payments to the providers that had been withheld are reinstated and the timeframe for when interest is applied is clarified.

B. Amendments:

None.

By the Committee on Health Policy; and Senator Grimsley

588-02020-13 2013844c1

A bill to be entitled

An act relating to Medicaid fraud; amending s. 409.907, F.S.; increasing the number of years a provider must keep records; adding an additional provision relating to a change in principal that must be included in a Medicaid provider agreement with the Agency for Health Care Administration; adding definitions for "administrative fines" and "outstanding overpayment"; revising provisions relating to the agency's onsite inspection responsibilities; revising provisions relating to who is subject to background screening; amending s. 409.913, F.S.; increasing the number of years a provider must keep records; revising provisions specifying grounds for terminating a provider from the program, for seeking certain remedies for violations, and for imposing certain sanctions; providing a limitation on the information the agency may consider when making a determination of overpayment; specifying the type of records a provider must present to contest an overpayment; deleting the requirement that the agency place payments withheld from a provider in a suspended account and revising when a provider must reimburse overpayments; revising venue requirements; adding provisions relating to the payment of fines; amending s. 409.920, F.S.; clarifying provisions relating to immunity from liability for persons who provide information about Medicaid fraud; providing an effective date.

588-02020-13 2013844c1

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (c) of subsection (3) of section 409.907, Florida Statutes, is amended and paragraph (k) is added to that subsection, and subsections (6), (7), and (8) of that section are amended to read:

409.907 Medicaid provider agreements.—The agency may make payments for medical assistance and related services rendered to Medicaid recipients only to an individual or entity who has a provider agreement in effect with the agency, who is performing services or supplying goods in accordance with federal, state, and local law, and who agrees that no person shall, on the grounds of handicap, race, color, or national origin, or for any other reason, be subjected to discrimination under any program or activity for which the provider receives payment from the agency.

(3) The provider agreement developed by the agency, in addition to the requirements specified in subsections (1) and (2), shall require the provider to:

(c) Retain all medical and Medicaid-related records for 6 ~~a period of 5~~ years to satisfy all necessary inquiries by the agency.

(k) Report a change in any principal of the provider, including any officer, director, agent, managing employee, or affiliated person, or any partner or shareholder who has an ownership interest equal to 5 percent or more in the provider, to the agency in writing within 30 days after the change occurs. For a hospital licensed under chapter 395 or a nursing home

licensed under part II of chapter 400, a principal of the provider is one who meets the definition of a controlling interest under s. 408.803.

(6) A Medicaid provider agreement may be revoked, at the option of the agency, due to ~~as the result of~~ a change of ownership of any facility, association, partnership, or other entity named as the provider in the provider agreement.

(a) If there is ~~In the event of~~ a change of ownership, the transferor remains liable for all outstanding overpayments, administrative fines, and any other moneys owed to the agency before the effective date of the change ~~of ownership~~. ~~In addition to the continuing liability of the transferor,~~ The transferee is also liable to the agency for all outstanding overpayments identified by the agency on or before the effective date of the change of ownership. ~~For purposes of this subsection, the term "outstanding overpayment" includes any amount identified in a preliminary audit report issued to the transferor by the agency on or before the effective date of the change of ownership.~~ In the event of a change of ownership for a skilled nursing facility or intermediate care facility, the Medicaid provider agreement shall be assigned to the transferee if the transferee meets all other Medicaid provider qualifications. In the event of a change of ownership involving a skilled nursing facility licensed under part II of chapter 400, liability for all outstanding overpayments, administrative fines, and any moneys owed to the agency before the effective date of the change of ownership shall be determined in accordance with s. 400.179.

(b) At least 60 days before the anticipated date of the

change of ownership, the transferor must ~~shall~~ notify the agency of the intended change ~~of ownership~~ and the transferee must ~~shall~~ submit to the agency a Medicaid provider enrollment application. If a change of ownership occurs without compliance with the notice requirements of this subsection, the transferor and transferee are ~~shall be~~ jointly and severally liable for all overpayments, administrative fines, and other moneys due to the agency, regardless of whether the agency identified the overpayments, administrative fines, or other moneys before or after the effective date of the change ~~of ownership~~. The agency may not approve a transferee's Medicaid provider enrollment application if the transferee or transferor has not paid or agreed in writing to a payment plan for all outstanding overpayments, administrative fines, and other moneys due to the agency. This subsection does not preclude the agency from seeking any other legal or equitable remedies available to the agency for the recovery of moneys owed to the Medicaid program. In the event of a change of ownership involving a skilled nursing facility licensed under part II of chapter 400, liability for all outstanding overpayments, administrative fines, and any moneys owed to the agency before the effective date of the change of ownership shall be determined in accordance with s. 400.179 if the Medicaid provider enrollment application for change of ownership is submitted before the change ~~of ownership~~.

(c) As used in this subsection, the term:

1. "Administrative fines" includes any amount identified in a notice of a monetary penalty or fine which has been issued by the agency or other regulatory or licensing agency that governs

the provider.

2. "Outstanding overpayment" includes any amount identified in a preliminary audit report issued to the transferor by the agency on or before the effective date of a change of ownership.

(7) ~~The agency may require,~~ As a condition of participating in the Medicaid program and before entering into the provider agreement, the agency may require ~~that~~ the provider to submit information, in an initial and any required renewal applications, concerning the professional, business, and personal background of the provider and permit an onsite inspection of the provider's service location by agency staff or other personnel designated by the agency to perform this function. Before entering into a provider agreement, the agency may ~~shall~~ perform an ~~a random~~ onsite inspection~~, within 60 days after receipt of a fully complete new provider's application,~~ of the provider's service location ~~prior to making its first payment to the provider for Medicaid services~~ to determine the applicant's ability to provide the services in compliance with the Medicaid program and professional regulations ~~that the applicant is proposing to provide for Medicaid reimbursement~~. ~~The agency is not required to perform an onsite inspection of a provider or program that is licensed by the agency, that provides services under waiver programs for home and community-based services, or that is licensed as a medical foster home by the Department of Children and Family Services.~~ As a continuing condition of participation in the Medicaid program, a provider must ~~shall~~ immediately notify the agency of any current or pending bankruptcy filing. Before entering into the provider agreement, or as a condition of continuing participation in the

Medicaid program, the agency may also require that Medicaid providers reimbursed on a fee-for-services basis or fee schedule basis that ~~which~~ is not cost-based, post a surety bond not to exceed $50,000 or the total amount billed by the provider to the program during the current or most recent calendar year, whichever is greater. For new providers, the amount of the surety bond shall be determined by the agency based on the provider's estimate of its first year's billing. If the provider's billing during the first year exceeds the bond amount, the agency may require the provider to acquire an additional bond equal to the actual billing level of the provider. A provider's bond need ~~shall~~ not exceed $50,000 if a physician or group of physicians licensed under chapter 458, chapter 459, or chapter 460 has a 50 percent or greater ownership interest in the provider or if the provider is an assisted living facility licensed under chapter 429. The bonds permitted by this section are in addition to the bonds referenced in s. 400.179(2)(d). If the provider is a corporation, partnership, association, or other entity, the agency may require the provider to submit information concerning the background of that entity and of any principal of the entity, including any partner or shareholder having an ownership interest in the entity equal to 5 percent or greater, and any treating provider who participates in or intends to participate in Medicaid through the entity. The information must include:

(a) Proof of holding a valid license or operating certificate, as applicable, if required by the state or local jurisdiction in which the provider is located or if required by the Federal Government.

(b) Information concerning any prior violation, fine, suspension, termination, or other administrative action taken under the Medicaid laws or~~,~~ rules~~, or regulations~~ of this state or of any other state or the Federal Government; any prior violation of the laws or~~,~~ rules~~, or regulations~~ relating to the Medicare program; any prior violation of the rules ~~or regulations~~ of any other public or private insurer; and any prior violation of the laws or~~,~~ rules~~, or regulations~~ of any regulatory body of this or any other state.

(c) Full and accurate disclosure of any financial or ownership interest that the provider, or any principal, partner, or major shareholder thereof, may hold in any other Medicaid provider or health care related entity or any other entity that is licensed by the state to provide health or residential care and treatment to persons.

(d) If a group provider, identification of all members of the group and attestation that all members of the group are enrolled in or have applied to enroll in the Medicaid program.

(8)~~(a)~~ Each provider, or each principal of the provider if the provider is a corporation, partnership, association, or other entity, seeking to participate in the Medicaid program must submit a complete set of his or her fingerprints to the agency for the purpose of conducting a criminal history record check. Principals of the provider include any officer, director, billing agent, managing employee, or affiliated person, or any partner or shareholder who has an ownership interest equal to 5 percent or more in the provider. However, for a hospital licensed under chapter 395 or a nursing home licensed under chapter 400, principals of the provider are those who meet the

definition of a controlling interest under s. 408.803. A director of a not-for-profit corporation or organization is not a principal for purposes of a background investigation ~~as~~ required by this section if the director: serves solely in a voluntary capacity for the corporation or organization, does not regularly take part in the day-to-day operational decisions of the corporation or organization, receives no remuneration from the not-for-profit corporation or organization for his or her service on the board of directors, has no financial interest in the not-for-profit corporation or organization, and has no family members with a financial interest in the not-for-profit corporation or organization; and if the director submits an affidavit, under penalty of perjury, to this effect to the agency and the not-for-profit corporation or organization submits an affidavit, under penalty of perjury, to this effect to the agency as part of the corporation's or organization's Medicaid provider agreement application. Notwithstanding the above, the agency may require a background check for any person reasonably suspected by the agency to have been convicted of a crime.

(a) This subsection does not apply to:

~~1. A hospital licensed under chapter 395;~~

~~2. A nursing home licensed under chapter 400;~~

~~3. A hospice licensed under chapter 400;~~

~~4. An assisted living facility licensed under chapter 429;~~

1.~~5.~~ A unit of local government, except that requirements of this subsection apply to nongovernmental providers and entities contracting with the local government to provide Medicaid services. The actual cost of the state and national

criminal history record checks must be borne by the nongovernmental provider or entity; or

2.~~6.~~ Any business that derives more than 50 percent of its revenue from the sale of goods to the final consumer, and the business or its controlling parent is required to file a form 10-K or other similar statement with the Securities and Exchange Commission or has a net worth of $50 million or more.

(b) Background screening shall be conducted in accordance with chapter 435 and s. 408.809. The cost of the state and national criminal record check shall be borne by the provider.

~~(c) Proof of compliance with the requirements of level 2 screening under chapter 435 conducted within 12 months before the date the Medicaid provider application is submitted to the agency fulfills the requirements of this subsection.~~

Section 2. Subsections (9), (13), (15), (16), (21), (22), (25), (28), (30) and (31) of section 409.913, Florida Statutes, are amended to read:

409.913 Oversight of the integrity of the Medicaid program.—The agency shall operate a program to oversee the activities of Florida Medicaid recipients, and providers and their representatives, to ensure that fraudulent and abusive behavior and neglect of recipients occur to the minimum extent possible, and to recover overpayments and impose sanctions as appropriate. Beginning January 1, 2003, and each year thereafter, the agency and the Medicaid Fraud Control Unit of the Department of Legal Affairs shall submit a joint report to the Legislature documenting the effectiveness of the state's efforts to control Medicaid fraud and abuse and to recover Medicaid overpayments during the previous fiscal year. The

report must describe the number of cases opened and investigated each year; the sources of the cases opened; the disposition of the cases closed each year; the amount of overpayments alleged in preliminary and final audit letters; the number and amount of fines or penalties imposed; any reductions in overpayment amounts negotiated in settlement agreements or by other means; the amount of final agency determinations of overpayments; the amount deducted from federal claiming as a result of overpayments; the amount of overpayments recovered each year; the amount of cost of investigation recovered each year; the average length of time to collect from the time the case was opened until the overpayment is paid in full; the amount determined as uncollectible and the portion of the uncollectible amount subsequently reclaimed from the Federal Government; the number of providers, by type, that are terminated from participation in the Medicaid program as a result of fraud and abuse; and all costs associated with discovering and prosecuting cases of Medicaid overpayments and making recoveries in such cases. The report must also document actions taken to prevent overpayments and the number of providers prevented from enrolling in or reenrolling in the Medicaid program as a result of documented Medicaid fraud and abuse and must include policy recommendations necessary to prevent or recover overpayments and changes necessary to prevent and detect Medicaid fraud. All policy recommendations in the report must include a detailed fiscal analysis, including, but not limited to, implementation costs, estimated savings to the Medicaid program, and the return on investment. The agency must submit the policy recommendations and fiscal analyses in the report to the appropriate estimating

conference, pursuant to s. 216.137, by February 15 of each year. The agency and the Medicaid Fraud Control Unit of the Department of Legal Affairs each must include detailed unit-specific performance standards, benchmarks, and metrics in the report, including projected cost savings to the state Medicaid program during the following fiscal year.

(9) A Medicaid provider shall retain medical, professional, financial, and business records pertaining to services and goods furnished to a Medicaid recipient and billed to Medicaid for 6 ~~a period of 5~~ years after the date of furnishing such services or goods. The agency may investigate, review, or analyze such records, which must be made available during normal business hours. However, 24-hour notice must be provided if patient treatment would be disrupted. The provider must keep ~~is responsible for furnishing to the agency, and keeping~~ the agency informed of the location of, the provider's Medicaid-related records. The authority of the agency to obtain Medicaid-related records from a provider is neither curtailed nor limited during a period of litigation between the agency and the provider.

(13) The agency shall ~~immediately~~ terminate participation of a Medicaid provider in the Medicaid program and may seek civil remedies or impose other administrative sanctions against a Medicaid provider, if the provider or any principal, officer, director, agent, managing employee, or affiliated person of the provider, or any partner or shareholder having an ownership interest in the provider equal to 5 percent or greater, has been convicted of a criminal offense under federal law or the law of any state relating to the practice of the provider's profession, or a criminal offense listed under s. 409.907(10), s.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

408.809(4), or s. 435.04(2) ~~has been:~~

~~(a) Convicted of a criminal offense related to the delivery of any health care goods or services, including the performance of management or administrative functions relating to the delivery of health care goods or services;~~

~~(b) Convicted of a criminal offense under federal law or the law of any state relating to the practice of the provider's profession; or~~

~~(c) Found by a court of competent jurisdiction to have neglected or physically abused a patient in connection with the delivery of health care goods or services~~. If the agency determines that the ~~a~~ provider did not participate or acquiesce in the ~~an~~ offense ~~specified in paragraph (a), paragraph (b), or paragraph (c),~~ termination will not be imposed. If the agency effects a termination under this subsection, the agency shall take final agency action ~~issue an immediate final order pursuant to s. 120.569(2)(n)~~.

(15) The agency shall seek a remedy provided by law, including, but not limited to, any remedy provided in subsections (13) and (16) and s. 812.035, if:

(a) The provider's license has not been renewed, or has been revoked, suspended, or terminated, for cause, by the licensing agency of any state;

(b) The provider has failed to make available or has refused access to Medicaid-related records to an auditor, investigator, or other authorized employee or agent of the agency, the Attorney General, a state attorney, or the Federal Government;

(c) The provider has not furnished or has failed to make

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

available such Medicaid-related records as the agency has found necessary to determine whether Medicaid payments are or were due and the amounts thereof;

(d) The provider has failed to maintain medical records made at the time of service, or prior to service if prior authorization is required, demonstrating the necessity and appropriateness of the goods or services rendered;

(e) The provider is not in compliance with provisions of Medicaid provider publications that have been adopted by reference as rules in the Florida Administrative Code; with provisions of state or federal laws, rules, or regulations; with provisions of the provider agreement between the agency and the provider; or with certifications found on claim forms or on transmittal forms for electronically submitted claims that are submitted by the provider or authorized representative, as such provisions apply to the Medicaid program;

(f) The provider or person who ordered, authorized, or prescribed the care, services, or supplies has furnished, or ordered or authorized the furnishing of, goods or services to a recipient which are inappropriate, unnecessary, excessive, or harmful to the recipient or are of inferior quality;

(g) The provider has demonstrated a pattern of failure to provide goods or services that are medically necessary;

(h) The provider or an authorized representative of the provider, or a person who ordered, authorized, or prescribed the goods or services, has submitted or caused to be submitted false or a pattern of erroneous Medicaid claims;

(i) The provider or an authorized representative of the provider, or a person who has ordered, authorized, or prescribed

the goods or services, has submitted or caused to be submitted a Medicaid provider enrollment application, a request for prior authorization for Medicaid services, a drug exception request, or a Medicaid cost report that contains materially false or incorrect information;

(j) The provider or an authorized representative of the provider has collected from or billed a recipient or a recipient's responsible party improperly for amounts that should not have been so collected or billed by reason of the provider's billing the Medicaid program for the same service;

(k) The provider or an authorized representative of the provider has included in a cost report costs that are not allowable under a Florida Title XIX reimbursement plan~~,~~ after the provider or authorized representative had been advised in an audit exit conference or audit report that the costs were not allowable;

(l) The provider is charged by information or indictment with fraudulent billing practices or an offense referenced in subsection (13). The sanction applied for this reason is limited to suspension of the provider's participation in the Medicaid program for the duration of the indictment unless the provider is found guilty pursuant to the information or indictment;

(m) The provider or a person who ~~has~~ ordered, authorized, or prescribed the goods or services is found liable for negligent practice resulting in death or injury to the provider's patient;

(n) The provider fails to demonstrate that it had available during a specific audit or review period sufficient quantities of goods, or sufficient time in the case of services, to support

the provider's billings to the Medicaid program;

(o) The provider has failed to comply with the notice and reporting requirements of s. 409.907;

(p) The agency has received reliable information of patient abuse or neglect or of any act prohibited by s. 409.920; or

(q) The provider has failed to comply with an agreed-upon repayment schedule.

A provider is subject to sanctions for violations of this subsection as the result of actions or inactions of the provider, or actions or inactions of any principal, officer, director, agent, managing employee, or affiliated person of the provider, or any partner or shareholder having an ownership interest in the provider equal to 5 percent or greater, in which the provider participated or acquiesced.

(16) The agency shall impose any of the following sanctions or disincentives on a provider or a person for any of the acts described in subsection (15):

(a) Suspension for a specific period of time of not more than 1 year. Suspension precludes ~~shall preclude~~ participation in the Medicaid program, which includes any action that results in a claim for payment to the Medicaid program for ~~as a result of~~ furnishing, supervising a person who is furnishing, or causing a person to furnish goods or services.

(b) Termination for a specific period of time ranging ~~of~~ from more than 1 year to 20 years. Termination precludes ~~shall preclude~~ participation in the Medicaid program, which includes any action that results in a claim for payment to the Medicaid program for ~~as a result of~~ furnishing, supervising a person who

is furnishing, or causing a person to furnish goods or services.

(c) Imposition of a fine of up to $5,000 for each violation. Each day that an ongoing violation continues, such as refusing to furnish Medicaid-related records or refusing access to records, is considered~~, for the purposes of this section, to be~~ a separate violation. Each instance of improper billing of a Medicaid recipient; each instance of including an unallowable cost on a hospital or nursing home Medicaid cost report after the provider or authorized representative has been advised in an audit exit conference or previous audit report of the cost unallowability; each instance of furnishing a Medicaid recipient goods or professional services that are inappropriate or of inferior quality as determined by competent peer judgment; each instance of knowingly submitting a materially false or erroneous Medicaid provider enrollment application, request for prior authorization for Medicaid services, drug exception request, or cost report; each instance of inappropriate prescribing of drugs for a Medicaid recipient as determined by competent peer judgment; and each false or erroneous Medicaid claim leading to an overpayment to a provider is considered~~, for the purposes of this section, to be~~ a separate violation.

(d) Immediate suspension, if the agency has received information of patient abuse or neglect or of any act prohibited by s. 409.920. Upon suspension, the agency must issue an immediate final order under s. 120.569(2)(n).

(e) A fine, not to exceed $10,000, for a violation of paragraph (15)(i).

(f) Imposition of liens against provider assets, including, but not limited to, financial assets and real property, not to

exceed the amount of fines or recoveries sought, upon entry of an order determining that such moneys are due or recoverable.

(g) Prepayment reviews of claims for a specified period of time.

(h) Comprehensive followup reviews of providers every 6 months to ensure that they are billing Medicaid correctly.

(i) Corrective-action plans that ~~would~~ remain in effect ~~for providers~~ for up to 3 years and that are ~~would be~~ monitored by the agency every 6 months while in effect.

(j) Other remedies as permitted by law to effect the recovery of a fine or overpayment.

If a provider voluntarily relinquishes its Medicaid provider number or an associated license, or allows the associated licensure to expire after receiving written notice that the agency is conducting, or has conducted, an audit, survey, inspection, or investigation and that a sanction of suspension or termination will or would be imposed for noncompliance discovered as a result of the audit, survey, inspection, or investigation, the agency shall impose the sanction of termination for cause against the provider. The Secretary of Health Care Administration may make a determination that imposition of a sanction or disincentive is not in the best interest of the Medicaid program, in which case a sanction or disincentive may ~~shall~~ not be imposed.

(21) When making a determination that an overpayment has occurred, the agency shall prepare and issue an audit report to the provider showing the calculation of overpayments. The agency's determination must be based solely upon information

available to it before issuance of the audit report and, in the case of documentation obtained to substantiate claims for Medicaid reimbursement, based solely upon contemporaneous records.

(22) The audit report, supported by agency work papers, showing an overpayment to a provider constitutes evidence of the overpayment. A provider may not present or elicit testimony~~,~~ ~~either~~ on direct examination or cross-examination in any court or administrative proceeding, regarding the purchase or acquisition by any means of drugs, goods, or supplies; sales or divestment by any means of drugs, goods, or supplies; or inventory of drugs, goods, or supplies, unless such acquisition, sales, divestment, or inventory is documented by written invoices, written inventory records, or other competent written documentary evidence maintained in the normal course of the provider's business. A provider may not present records to contest an overpayment or sanction unless such records are contemporaneous and, if requested during the audit process, were furnished to the agency or its agent upon request. This limitation does not apply to Medicaid cost report audits. Notwithstanding the applicable rules of discovery, all documentation to ~~that will~~ be offered as evidence at an administrative hearing on a Medicaid overpayment or an administrative sanction must be exchanged by all parties at least 14 days before the administrative hearing or ~~must~~ be excluded from consideration.

(25)(a) The agency shall withhold Medicaid payments, in whole or in part, to a provider upon receipt of reliable evidence that the circumstances giving rise to the need for a

withholding of payments involve fraud, willful misrepresentation, or abuse under the Medicaid program, or a crime committed while rendering goods or services to Medicaid recipients. If it is determined that fraud, willful misrepresentation, abuse, or a crime did not occur, the payments withheld must be paid to the provider within 14 days after such determination ~~with interest at the rate of 10 percent a year. Any money withheld in accordance with this paragraph shall be placed in a suspended account, readily accessible to the agency, so that any payment ultimately due the provider shall be made within 14 days~~. Amounts not paid within 14 days accrue interest at the rate of 10 percent a year, beginning after the 14th day.

(b) The agency shall deny payment, or require repayment, if the goods or services were furnished, supervised, or caused to be furnished by a person who has been suspended or terminated from the Medicaid program or Medicare program by the Federal Government or any state.

(c) Overpayments owed to the agency bear interest at the rate of 10 percent per year from the date of final determination of the overpayment by the agency, and payment arrangements must be made within 30 days after the date of the final order, which is not subject to further appeal ~~at the conclusion of legal proceedings~~. ~~A provider who does not enter into or adhere to an agreed upon repayment schedule may be terminated by the agency for nonpayment or partial payment.~~

(d) The agency, upon entry of a final agency order, a judgment or order of a court of competent jurisdiction, or a stipulation or settlement, may collect the moneys owed by all means allowable by law, including, but not limited to, notifying

any fiscal intermediary of Medicare benefits that the state has a superior right of payment. Upon receipt of such written notification, the Medicare fiscal intermediary shall remit to the state the sum claimed.

(e) The agency may institute amnesty programs to allow Medicaid providers the opportunity to voluntarily repay overpayments. The agency may adopt rules to administer such programs.

(28) Venue for all Medicaid program integrity ~~overpayment~~ cases lies ~~shall lie~~ in Leon County, at the discretion of the agency.

(30) The agency shall terminate a provider's participation in the Medicaid program if the provider fails to reimburse an overpayment or pay an agency-imposed fine that has been determined by final order, not subject to further appeal, within 30 ~~35~~ days after the date of the final order, unless the provider and the agency have entered into a repayment agreement.

(31) If a provider requests an administrative hearing pursuant to chapter 120, such hearing must be conducted within 90 days following assignment of an administrative law judge, absent exceptionally good cause shown as determined by the administrative law judge or hearing officer. Upon issuance of a final order, the outstanding balance of the amount determined to constitute the overpayment and fines is ~~shall become~~ due. If a provider fails to make payments in full, fails to enter into a satisfactory repayment plan, or fails to comply with the terms of a repayment plan or settlement agreement, the agency shall withhold ~~medical assistance~~ reimbursement payments for Medicaid services until the amount due is paid in full.

Section 3. Subsection (8) of section 409.920, Florida Statutes, is amended to read:

409.920 Medicaid provider fraud.—

(8) A person who provides the state, any state agency, any of the state's political subdivisions, or any agency of the state's political subdivisions with information about fraud or suspected fraudulent acts ~~fraud~~ by a Medicaid provider, including a managed care organization, is immune from civil liability for libel, slander, or any other relevant tort for providing ~~the~~ information about fraud or suspected fraudulent acts, unless the person acted with knowledge that the information was false or with reckless disregard for the truth or falsity of the information. Such immunity extends to reports of fraudulent acts or suspected fraudulent acts conveyed to or from the agency in any manner, including any forum and with any audience as directed by the agency, and includes all discussions subsequent to the report and subsequent inquiries from the agency, unless the person acted with knowledge that the information was false or with reckless disregard for the truth or falsity of the information. For purposes of this subsection, the term "fraudulent acts" includes actual or suspected fraud and abuse, insurance fraud, licensure fraud, or public assistance fraud, including any fraud-related matters that a provider or health plan is required to report to the agency or a law enforcement agency.

Section 4. This act shall take effect July 1, 2013.

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/SB 860 amends provisions relating to the administration of Florida's workers' compensation system.

The elimination of the mandatory vocational evaluation under s. 440.491, F.S. will result in a reduction of $80,000 in state expenditures.

The bill:

- Provides that stop-work orders and penalties assessed against a limited liability company (LLC) continue in force against successor companies of the LLC to the same extent (and under the same conditions) that they remain in force against successor companies of corporations, partnerships, and sole proprietorships.
- Eliminates the requirement that workers' compensation health care providers be certified by the Department of Financial Services (DFS).
- Provides additional time for health care providers, carriers, and employers to file medical reimbursement disputes with the DFS, for carriers to respond to petitions, and for the DFS to issue a written determination.

- Eliminates the requirements that: (1) the DFS approve the advance payment of workers' compensation benefits in certain circumstances; (2) carriers submit reemployment status reports to the DFS for review; (3) a vocational evaluation always be conducted prior to the DFS authorizing training and education for an injured employee; and (4) the DFS serve as custodian of certain collective bargaining agreements.

This bill substantially amends the following sections of the Florida Statutes: 284.44, 440.02, 440.05, 440.102, 440.107, 440.11, 440.13, 440.15, 440.185, 440.20, 440.211, 440.385, and 440.491.

II. Present Situation:

Chapter 440, F.S., is Florida's workers' compensation law. The Division of Workers' Compensation within the Department of Financial Services is responsible for administering ch. 440, F.S. Generally, employers/carriers are required to provide medical and indemnity benefits to a worker who is injured due to an accident arising out of and during the course of employment. For such compensable injuries, an employer/carrier is responsible for providing medical treatment, which includes, but is not limited to, medically necessary care and treatment.

Coverage Requirements

Whether an employer is required to have workers' compensation insurance depends upon the employer's industry and the number of employees. Employers may secure coverage by purchasing a workers' compensation insurance policy or qualifying as a self-insurer.[1]
In Florida, any contractor or subcontractor who engages in construction in the state must secure and maintain workers' compensation insurance.[2] No more than three officers of a corporation or members of a limited liability company, who are engaged in the construction industry, may elect to be exempt from this requirement, if certain conditions are met.[3] Corporate officers and members of a non-construction LLC who own at least 10 percent of a LLC can elect to be exempt from workers' compensation coverage requirements. Individuals who make such election are not considered employees for premium calculation purposes, and are not entitled to workers compensation benefits if they suffer a workplace injury.

In 2012, the Legislature enacted changes[4] relating to the application process for the workers' compensation exemption. Electronic filing of exemption applications was required. As a result, applicants no longer needed to provide their social security number, but are required to include their date of birth, Florida driver license number, or Florida identification card number[5] on their application. An unintended consequence of the amended data reporting requirements was to preclude out-of-state corporate officers, who would otherwise have been eligible for an exemption, from filing an electronic application, as they could not possess a Florida driver

[2] Sections 440.10 and 440.38, F.S.
[3] Section 440.02, F.S.
[4] Chapter 2012-213, L.O.F.
[5] The Florida Department of Highway Safety and Motor Vehicles issues non-driver identification cards to State residents above 12 years of age who do not have a valid ID card, driver license or instruction permit from the State or any other jurisdiction. See http://www.dmv.com/fl/florida/apply-id-card.

license or Florida identification card. Current practice at the DFS is to accept paper applications from out-of-state applicants and issue exemptions when all other eligibility criteria are met.

If an employer fails to comply with coverage requirements, the DFS must issue a stop-work order (SWO) within 72 hours of knowledge of the non-compliance. SWOs require the employer to cease business operations, and remain in effect until the DFS issues an Order Releasing the Stop-Work Order. Additionally, employers are assessed penalties equal to 1.5 times what the employer would have paid in workers' compensation premiums for all periods of non-compliance during the preceding 3-year period or $1,000, whichever is greater.[6] SWOs are issued for the following violations: failure to obtain workers' compensation insurance; materially understating or concealing payroll; materially misrepresenting or concealing employee duties to avoid paying the proper premium; materially concealing information pertinent to the calculation of an experience modification factor; and failure to produce business records in a timely manner.

To prevent a person or business from circumventing these sanctions, s. 440.107, F.S., provides that a SWO and associated penalties continue in force against a successor entity of a corporation, partnership, or sole proprietorship if certain conditions are met. The application of the sanctions would apply to the successor entity if it were engaged in the same or equivalent trade or activity as the business that was issued the SWO and has one or more of the same principals or officers as the business that was issued the SWO. The workers' compensation law is silent as to whether SWOs and associated penalties continue in force against successor entities of limited liability companies (LLCs).[7]

Certified Health Care Providers and Reimbursement Disputes

A health care provider rendering medical treatment and care to an injured employee must be certified pursuant to Rule 69L-29.002, F.A.C., by the DFS or deemed certified, pursuant to s. 440.13(1)(d), F.S., as a provider within a managed care organization licensed through the Agency for Health Care Administration. Section 440.13(1) (d), F.S., provides that a "certified health care provider" is a provider approved to receive reimbursement through the Florida workers' compensation system. A certified provider may be a physician, a licensed practitioner, or a facility approved by the DFS, or a provider who has entered an agreement with a licensed managed care organization to provide treatment to injured employees. Generally, a certified health care provider must receive authorization from the insurer before providing treatment.

The DFS is responsible for resolving medical reimbursement disputes between health care providers and insurance carriers. Providers have 30 days from receipt of notice of disallowance or adjustment of payment from a carrier to file a dispute petition with the DFS. Carriers have 10 days from receipt of the provider's petition to submit to the DFS all documentation substantiating the carrier's disallowance or adjustment; otherwise, they waive all objections to the petition. The DFS has 60 days from receipt of all documentation to issue a written determination. The provider or the workers' compensation carrier, or either party's designated representative, may contest the DFS's determination by filing a request for an administrative hearing under ch. 120, F.S.

[6] Section 440.107, F.S.
[7] Section 440.107(7)(b), F.S.

Workers' Compensation Indemnity Benefits

Workers' compensation indemnity (monetary) benefits are payable to employees who miss at least 8 days of work due to a covered (compensable) injury. However, indemnity benefits are payable retroactively from the first day of disability (to include compensation for the first seven days missed) to employees who miss more than 21 days of work due to a compensable injury.[8] Such benefits are generally payable at 66 2/3 percent of the employee's average weekly wage, up to the maximum weekly benefit established by law[9] ($816 per week[10] in 2013). Indemnity benefits are generally payable for a maximum of 104 weeks, with specified exceptions.[11]

For catastrophic temporary total disability,[12] the workers' compensation law provides for increased indemnity benefits (80 percent of the employee's average weekly wage) for up to six months from the date of injury. Section 440.15(2)(b), F.S., limits such increased benefit to a maximum of $700 per week. As noted in the preceding paragraph, the maximum workers' compensation rate in Florida's workers' compensation system was greater than $700 for 2013. Accordingly, employees could actually receive less compensation for a catastrophic temporary total disability than they would for a non-catastrophic injury.[13]

Section 440.20(12), F.S., permits Judges of Compensation Claims or, under certain conditions, the DFS to approve the advance payment of workers' compensation benefits to injured employees. In cases in which the carrier and employer have stipulated to an advance payment in excess of $2,000, DFS approval of the advance payment is required.

Carrier Performance Standards

Carriers are required to pay the first installment of compensation for total disability (temporary total disability or temporary partial disability) or death benefits or deny the claim within 14 days after the employer receives notification of the injury or death, when disability is immediate and continuous for eight or more days after the injury.[14]Medical, dental, pharmacy, and hospital bills properly submitted to the insurer must be paid within 45 calendar days after receipt.[15] The DFS ensures compliance through electronic databases and carrier audits, and imposes administrative penalties against carriers that do not achieve a minimum 95 percent performance standard[16] as to either the timely payment of indemnity benefits or timely payment of medical bills.[17]

[8] Section 440.12(1), F.S.
[9] Sections 440.15(1)-(4), F.S.
[10] See "Informational Bulletin DFS-04-2012" (December 10, 2012). Available at http://www.myfloridacfo.com
[11] Section 440.15, F.S.
[12] The loss of an arm, leg, hand or foot, an injury that renders the employee a paraplegic, paraparetic, quadriplegic, quadriparetic, or the loss of sight in both eyes. *See* s. 440.15(2)(b), F.S.
[13] The maximum compensation rate is set in s. 440.12(2), F.S., and is equal to 100% of the statewide average weekly wage.
[14] Section 440.20(2)(a), F.S.
[15] Section 440.20(2)(b), F.S.
[16] Increased penalties are assessed against carriers that fail to achieve a minimum 90 percent performance standard for the payment of either medical or indemnity benefits.
[17] Section 440.20, F.S.

Penalties for carrier failure to timely pay medical bills are provided for in two sections of the workers' compensation law. Section 440.185, F.S., sets forth reporting requirements for employees, employers, and carriers. Employees are required to notify their employer of an injury within 30 days after the initial date of manifestation of the injury, except as otherwise specified. Employers are required to report an injury or death to their workers' compensation carrier within seven days of having knowledge of the injury. Carriers must then report the injury to the DFS within 14 days. Section 440.593(4), F.S., relating to electronic reporting, authorizes the DFS to assess a civil penalty of up to $500 per violation. The DFS has indicated that it utilizes s. 440.185(9), F.S., to assess penalties for violations of reporting requirements, but that it has never assessed a penalty greater than $500 per violation or against an employer based upon a percentage of late filings.[18]

Reemployment Services and Evaluations

For injured employees who are unemployed 60 days after the date of injury, who are receiving certain workers' compensation benefits and have not been provided medical care coordination and reemployment services voluntarily by the carrier, the carrier must determine whether the employee is likely to return to work and report its determination to the DFS and the employee. The DFS informs that the reports it receives vary from carrier to carrier, and that the DFS review of these reports is of marginal value. The DFS further reports that it has access to medical and claims data that would allow it to identify and reach out to injured employees in need of rehabilitation services and, thus, carrier submission of reemployment status reports is unnecessary.[19]

The DFS is required to conduct training and education screenings of injured employees upon referral of the carrier or employee request. Pursuant to s. 440.491(6), F.S., an employee must submit to, and the DFS must pay for, a vocational evaluation even when the employee has decided on a suitable reemployment-training plan that has been approved by the DFS. The DFS indicates that the average cost of a vocational evaluation exceeds $1,000.[20]

Miscellaneous Provisions

The DFS is the custodian of collective bargaining agreements (CBAs) that contain mutually agreed upon workers' compensation provisions (e.g., providing an alternative dispute resolution system, an agreed-upon list of medical providers, etc.). Such collectively bargained provisions may not diminish an employee's entitlement to benefits under the workers' compensation law. The DFS informs that it simply receives CBAs, does not use them in any way, and rarely ever receives a request for such documents.[21]

The Florida Self-Insurers Guaranty Association (FSIGA) monitors the financial strength of self-insured entities for the DFS and makes recommendations as to the qualifications to self-insure. Incorrect cross references within ch. 440.F.S. [reference to s. 440.38(1)(b)1., F.S., rather than s. 440.38(1)(b), F.S., in its entirety] create uncertainty as to the extent of the FSIGA's authority.

[18] DFS correspondence, *supra*, on file with staff of the Banking and Insurance Committee.
[19] DFS correspondence, *supra*, on file with staff of the Banking and Insurance Committee.
[20] *Id.*
[21] *Id.*

The DFS is responsible for ensuring the timely payment of compensation and medical bills by workers' compensation carriers, for monitoring, auditing, and investigating carrier performance, and for assessing penalties for violations. Section 440.20, F.S., however, identifies the Office of Insurance Regulation as the regulatory body with these responsibilities.

Section 440.02(8), F.S., authorizes the DFS to establish, by rule, "standard industrial classification" (SIC) codes with respect to the construction industry. Similarly, s. 440.11, F.S., relating to exclusiveness of liability, refers to "Standard Industrial Code 7363." The SIC codes have been obsolete since 1997, and have been replaced with the North American Industrial Classification Code System (NAICS).

III. Effect of Proposed Changes:

Section 1 revises s. 440.02, F.S., relating to definitions, to eliminate outdated references to SIC codes and to update statutory language to provide for NAICS codes.

Section 2 amends s. 440.05, F.S., relating to exemptions from coverage requirements, to eliminate the requirement of a Florida-only driver's license for purposes of obtaining an exemption. The removal of this requirement will allow out-of-state officers to obtain an exemption via the electronic application process. Current practice at DFS is to accept paper applications from out-of-state applicants and issue exemptions once all other eligibility criteria are met.

Section 3 amends s. 440.102, F.S., to provide a conforming cross reference.

Section 4 amends s. 440.107, F.S., relating to enforcement of coverage requirements, to clarify that stop-work orders and penalty assessments against a LLC would be in effect for any successor entity, including a LLC.

Section 5 amends s. 440.11, F.S., to eliminate an obsolete reference to SIC codes and provide an updated reference to NAICS codes.

Section 6 amends s. 440.13, F.S., relating to medical services, to eliminate certification requirements for health care providers. Currently, certification by the DFS is a requirement for eligibility for payment under ch. 440, F.S. The bill makes conforming changes to eliminate the certification and decertification provisions.

The section allows a health care provider, carrier, or employer 45 days, rather than 30 days, to petition the DFS once a notice of disallowance or adjustment of a payment is received. Likewise, the carrier is provided 20 additional days (10 to 30) to submit documentation substantiating the disallowance or adjustment of payment. The section also provides DFS an additional 60 days (60 to 120) after receipt of all documentation to issue a written determination of a dispute.

The bill also revises provisions relating to the authority of the DFS to sanction health care providers for a pattern or practice of overutilization. As an option, the DFS may impose a fine of $5,000. Currently, the DFS may impose a fine in an amount *not to exceed* $5,000 per instance of overutilization or violation.

The bill eliminates provisions in s. 440,13(11), F.S., relating to the authority of the DFS to issue penalties against carriers for failure to pay medical bills in a timely manner. The DFS uses s. 440.20(6), F.S., as its authority to issue penalties.

Section 7 amends s. 440.15(2), F.S., relating to temporary total disability (TTD) benefits to eliminate the current maximum weekly compensation rate of $700. As a result, those injured workers with qualifying TTD injuries would receive 80 percent of their pre-injury average weekly wage subject to no maximum during the first six months of disability. Currently, injured workers' receiving TTD benefits receive 66 2/3 percent of their pre-injury average weekly wage subject to a maximum of 100 percent of the Florida state average weekly wage. The maximum workers' compensation rate for 2013 is $816. Injured workers receiving TTD benefits as a result of an injury described in s. 440.15(2)(b), F.S., are eligible to receive TTD benefits equal to 80 percent of his or her pre-injury average weekly wage. The increased TTD compensation rate of 80 percent is paid during the first 6 months of disability, subject to a maximum weekly compensation rate of $700. This increased compensation rate would only be paid if the employee is eligible for or has already started to collect permanent total disability benefits.

Section 8 amends s. 440.185, F.S., relating to reporting requirements, to revise the penalties imposed on employers and carriers for failing to file any form, report, or notice to provide that an employer or carrier would be subject to fine not to exceed $500 instead of $1,000 for each failure or refusal to file. The bill eliminates the additional penalty of $2,000 per failure if a carrier's noncompliance is more than 10 percent within a calendar year. The change in the penalty would comport the penalty with section 440.593(4), F.S., relating to electronic reporting, which authorizes the DFS to assess a civil penalty of up to $500 per violation.

Section 9 amends s. 440.20, F.S., relating to payment of compensation and medical bills, to correct references relating to the authority of the DFS. The bill makes the approval of advance payment of workers' compensation benefits the sole jurisdiction of Judges of Compensation Claims, and removes the DFS from the approval process in all circumstances. Currently, section 440.20(12), F.S., permits Judges of Compensation Claims or, under certain conditions, the DFS to approve the advance payment of workers' compensation benefits to injured employees. In cases in which the carrier and employer have stipulated to an advance payment in excess of $2,000, the DFS approval of the advance payment is required.

Section 10 amends s. 440.211, F.S., to eliminate DFS as the custodian of collective bargaining agreements.

Section 11 amends s. 440.385, F.S., relating to the Florida Self-Insurers Guaranty Association, to correct a cross reference, thereby clarifying the FSIGA's authority.

Section 12 amends s. 440.491, F.S., relating to reemployment and evaluation of injured workers, to eliminate the requirement for a carrier to file reemployment status reports with DFS. Currently, a carrier must determine whether the employee is likely to return to work and report its determination to the DFS and the employee. The section is also amended to allow rather than require the DFS to provide vocational evaluations.

Section 13 provides that this act will take effect July 1, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

According to the National Council of Compensation Insurance (NCCI), the implementation of CS/SB 860 would likely result in negligible impact (less than 0.1 percent) on the overall workers' compensation costs of employers in Florida.[22] Due to the serious nature of the qualifying injuries, the NCCI expects that only a small number of prospective cases would be affected by the removal of the $700 cap on maximum weekly temporary total catastrophic benefits.

The elimination of the mandatory vocational evaluation prior to the provision of training, education, or other vocational services may allow injured workers to receive such benefits sooner and return to work in a more expeditious manner.

The bill eliminates some reporting requirements for employers and carriers that will result in an indeterminate reduction in regulatory costs.

C. Government Sector Impact:

The bill eliminates unnecessary, duplicative, and conflicting regulatory provisions, which should assist the DFS in administering the provisions of ch. 440, F.S., in a more efficient manner.

The bill eliminates the mandatory vocational evaluation under s. 440.491, F.S. The elimination of some of the evaluations could result in cost savings of approximately

[22] NCCI Analysis, January 28, 2013. On file with staff of the Banking and Insurance Committee.

$80,000. This estimated savings represents less than 0.1 percent of Workers' Compensation Administration Trust Fund expenditures for FY 2010-2011.

The bill provides additional time (from 60 days to 120 days) for the DFS to resolve reimbursement disputes and issue determination letters. The DFS receives 50-200 petitions per month, and for the calendar year 2012 received over 2,000 petitions per month. The average number of days to resolve a case has increased from approximately 24 days to over 81 days.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:

(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Banking and Insurance Committee on April 9, 2013:
The CS provides the following changes:

- Eliminates changes to the formula used to assess state agencies for purposes of funding workers' compensation claims of state employees.
- Eliminates changes relating to types of entities that may file medical reimbursement disputes with the DFS.

B. Amendments:

None.

974512

LEGISLATIVE ACTION

Senate	.	House
Comm: WD	.	
04/24/2013	.	
	.	
	.	
	.	

The Committee on Appropriations (Galvano) recommended the following:

Senate Amendment (with title amendment)

Between lines 697 and 698
insert:

Section 13. Section 489.514, Florida Statutes, is amended to read:

489.514 Certification for registered contractors; grandfathering provisions.—

(1) The board shall, upon receipt of a completed application, appropriate fee, and proof of compliance with the provisions of this section, issue:

(a) To an applying registered electrical contractor, a

974512

certificate as an electrical contractor, as defined in s. 489.505(12); ~~or~~

(b) To an applying registered alarm system contractor, a certificate in the matching alarm system contractor category, as defined in s. 489.505(2)(a) or (b); or

(c) To an applying registered electrical specialty contractor, a certificate in the matching electrical specialty contractor category, as defined in s. 489.505(19).

(2) Any contractor registered under this part who makes application under this section to the board shall meet each of the following requirements for certification:

(a) Currently holds a valid registered local license in the category of electrical contractor, alarm system contractor, or electrical specialty contractor.

(b) Has, for that category, passed a written, proctored examination that the board finds to be substantially similar to the examination required to be licensed as a certified contractor under this part. For purposes of this subsection, a written, proctored examination such as that produced by the National Assessment Institute, Block and Associates, NAI/Block, Experior Assessments, Professional Testing, Inc., or Assessment Systems, Inc., shall be considered to be substantially similar to the examination required to be licensed as a certified contractor. The board may not impose or make any requirements regarding the nature or content of these cited examinations.

(c) Has at least 5 years of experience as a contractor in that contracting category, or as an inspector or building administrator with oversight over that category, at the time of application. For contractors, only time periods in which the

974512

contractor license is active and the contractor is not on probation shall count toward the 5 years required under this subsection.

(d) Has not had his or her contractor's license revoked at any time, had his or her contractor's license suspended in the last 5 years, or been assessed a fine in excess of $500 in the last 5 years.

(e) Is in compliance with the insurance and financial responsibility requirements in s. 489.515(1)(b).

(3) An applicant must make application by November 1, 2015 ~~2004~~, to be licensed pursuant to this section.

responsibilities of the department; amending s. 440.211, F.S.; deleting a requirement that a provision that is mutually agreed upon in any collective bargaining agreement be filed with the department; amending s. 440.385, F.S.; conforming cross-references; amending s. 440.491, F.S.; revising certain carrier reporting requirements; revising duties of the department upon referral of an injured employee; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (8) of section 440.02, Florida Statutes, is amended to read:

440.02 Definitions.—When used in this chapter, unless the context clearly requires otherwise, the following terms shall have the following meanings:

(8) "Construction industry" means for-profit activities involving any building, clearing, filling, excavation, or substantial improvement in the size or use of any structure or the appearance of any land. However, "construction" does not mean a homeowner's act of construction or the result of a construction upon his or her own premises, provided such premises are not intended to be sold, resold, or leased by the owner within 1 year after the commencement of construction. The division may, by rule, establish ~~standard industrial classification~~ codes and definitions thereof that ~~which~~ meet the criteria of the term "construction industry" as set forth in this section.

Section 2. Subsection (3) of section 440.05, Florida Statutes, is amended to read:

440.05 Election of exemption; revocation of election; notice; certification.—

(3) Each officer of a corporation who is engaged in the construction industry and who elects an exemption from this chapter or who, after electing such exemption, revokes that exemption~~,~~ must submit a notice to such effect to the department on a form prescribed by the department. The notice of election to be exempt must be ~~which is~~ electronically submitted to the department by the officer of a corporation who is allowed to claim an exemption as provided by this chapter and must list the name, federal tax identification number, date of birth, ~~Florida~~ driver license number or Florida identification card number, and all certified or registered licenses issued pursuant to chapter 489 held by the person seeking the exemption, the registration number of the corporation filed with the Division of Corporations of the Department of State, and the percentage of ownership evidencing the required ownership under this chapter. The notice of election to be exempt must identify each corporation that employs the person electing the exemption and must list the social security number or federal tax identification number of each such employer and the additional documentation required by this section. In addition, the notice of election to be exempt must provide that the officer electing an exemption is not entitled to benefits under this chapter, must provide that the election does not exceed exemption limits for officers provided in s. 440.02, and must certify that any employees of the corporation whose officer elects an exemption

are covered by workers' compensation insurance. Upon receipt of the notice of the election to be exempt, receipt of all application fees, and a determination by the department that the notice meets the requirements of this subsection, the department shall issue a certification of the election to the officer, unless the department determines that the information contained in the notice is invalid. The department shall revoke a certificate of election to be exempt from coverage upon a determination by the department that the person does not meet the requirements for exemption or that the information contained in the notice of election to be exempt is invalid. The certificate of election must list the name of the corporation listed in the request for exemption. A new certificate of election must be obtained each time the person is employed by a new or different corporation that is not listed on the certificate of election. A copy of the certificate of election must be sent to each workers' compensation carrier identified in the request for exemption. Upon filing a notice of revocation of election, an officer who is a subcontractor or an officer of a corporate subcontractor must notify her or his contractor. Upon revocation of a certificate of election of exemption by the department, the department shall notify the workers' compensation carriers identified in the request for exemption.

Section 3. Paragraph (p) of subsection (5) of section 440.102, Florida Statutes, is amended to read:

440.102 Drug-free workplace program requirements.—The following provisions apply to a drug-free workplace program implemented pursuant to law or to rules adopted by the Agency for Health Care Administration:

(5) PROCEDURES AND EMPLOYEE PROTECTION.—All specimen collection and testing for drugs under this section shall be performed in accordance with the following procedures:

(p) All authorized remedial treatment, care, and attendance provided by a health care provider to an injured employee before medical and indemnity benefits are denied under this section must be paid for by the carrier or self-insurer. However, the carrier or self-insurer must have given reasonable notice to all affected health care providers that payment for treatment, care, and attendance provided to the employee after a future date certain will be denied. A health care provider, as defined in s. 440.13(1)(g) ~~440.13(1)(h)~~, that refuses, without good cause, to continue treatment, care, and attendance before the provider receives notice of benefit denial commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

Section 4. Paragraph (b) of subsection (7) of section 440.107, Florida Statutes, is amended to read:

440.107 Department powers to enforce employer compliance with coverage requirements.—

(7)

(b) Stop-work orders and penalty assessment orders issued under this section against a corporation, limited liability company, partnership, or sole proprietorship shall be in effect against any successor corporation or business entity that has one or more of the same principals or officers as the corporation, limited liability company, or partnership against which the stop-work order was issued and are engaged in the same or equivalent trade or activity.

Section 5. Subsection (2) of section 440.11, Florida Statutes, is amended to read:

440.11 Exclusiveness of liability.—

(2) The immunity from liability described in subsection (1) shall extend to an employer and to each employee of the employer which uses ~~utilizes~~ the services of the employees of a help supply services company, as set forth in North American Industrial Classification System Codes 561320 and 561330 ~~Standard Industry Code Industry Number 7363~~, when such employees, whether management or staff, are acting in furtherance of the employer's business. An employee so engaged by the employer shall be considered a borrowed employee of the employer~~,~~ and, for the purposes of this section, shall be treated as any other employee of the employer. The employer shall be liable for and shall secure the payment of compensation to all such borrowed employees as required in s. 440.10, except when such payment has been secured by the help supply services company.

Section 6. Paragraphs (e) through (t) of subsection (1) of section 440.13, Florida Statutes, are redesignated as paragraphs (d) through (s), respectively, subsections (14) through (17) are renumbered as subsections (13) through (16), respectively, and present paragraphs (h) and (q) of subsection (1), paragraphs (a), (c), (e), and (i) of subsection (3), subsection (7), paragraph (b) of subsection (8), paragraph (b) of subsection (11), paragraph (e) of subsection (12), and present subsections (13) and (14) of that section are amended to read:

440.13 Medical services and supplies; penalty for violations; limitations.—

(1) DEFINITIONS.—As used in this section, the term:

~~(d) "Certified health care provider" means a health care provider who has been certified by the department or who has entered an agreement with a licensed managed care organization to provide treatment to injured workers under this section. Certification of such health care provider must include documentation that the health care provider has read and is familiar with the portions of the statute, impairment guides, practice parameters, protocols of treatment, and rules which govern the provision of remedial treatment, care, and attendance.~~

(g) ~~(h)~~ "Health care provider" means a physician or any recognized practitioner licensed to provide ~~who provides~~ skilled services pursuant to a prescription or under the supervision or direction of a physician ~~and who has been certified by the department as a health care provider~~. The term "health care provider" includes a health care facility.

(p) ~~(q)~~ "Physician" or "doctor" means a physician licensed under chapter 458, an osteopathic physician licensed under chapter 459, a chiropractic physician licensed under chapter 460, a podiatric physician licensed under chapter 461, an optometrist licensed under chapter 463, or a dentist licensed under chapter 466~~, each of whom must be certified by the department as a health care provider~~.

(3) PROVIDER ELIGIBILITY; AUTHORIZATION.—

(a) As a condition to eligibility for payment under this chapter, a health care provider who renders services ~~must be a certified health care provider and~~ must receive authorization from the carrier before providing treatment. This paragraph does

not apply to emergency care. ~~The department shall adopt rules to implement the certification of health care providers.~~

(c) A health care provider may not refer the employee to another health care provider, diagnostic facility, therapy center, or other facility without prior authorization from the carrier, except when emergency care is rendered. Any referral must be to a health care provider ~~that has been certified by the department~~, unless the referral is for emergency treatment, and ~~the referral~~ must be made in accordance with practice parameters and protocols of treatment as provided for in this chapter.

(e) Carriers shall adopt procedures for receiving, reviewing, documenting, and responding to requests for authorization. ~~Such procedures shall be for a health care provider certified under this section.~~

(i) Notwithstanding paragraph (d), a claim for specialist consultations, surgical operations, physiotherapeutic or occupational therapy procedures, X-ray examinations, or special diagnostic laboratory tests that cost more than $1,000 and other specialty services that the department identifies by rule is not valid and reimbursable unless the services have been expressly authorized by the carrier, ~~or~~ unless the carrier has failed to respond within 10 days to a written request for authorization, or unless emergency care is required. The insurer shall authorize such consultation or procedure unless the health care provider or facility is not authorized ~~or certified~~, unless such treatment is not in accordance with practice parameters and protocols of treatment established in this chapter, or unless a judge of compensation claims has determined that the consultation or procedure is not medically necessary, not in

accordance with the practice parameters and protocols of treatment established in this chapter, or otherwise not compensable under this chapter. Authorization of a treatment plan does not constitute express authorization for purposes of this section, except to the extent the carrier provides otherwise in its authorization procedures. This paragraph does not limit the carrier's obligation to identify and disallow overutilization or billing errors.

(7) UTILIZATION AND REIMBURSEMENT DISPUTES.—

(a) Any health care provider, carrier, or employer who elects to contest the disallowance or adjustment of payment by a carrier under subsection (6) must, within 45 ~~30~~ days after receipt of notice of disallowance or adjustment of payment, petition the department to resolve the dispute. The petitioner must serve a copy of the petition on the carrier and on all affected parties by certified mail. The petition must be accompanied by all documents and records that support the allegations contained in the petition. Failure of a petitioner to submit such documentation to the department results in dismissal of the petition.

(b) The carrier must submit to the department within 30 ~~10~~ days after receipt of the petition all documentation substantiating the carrier's disallowance or adjustment. Failure of the carrier to timely submit such ~~the requested~~ documentation to the department within 30 ~~10~~ days constitutes a waiver of all objections to the petition.

(c) Within 120 ~~60~~ days after receipt of all documentation, the department must provide to the petitioner, the carrier, and the affected parties a written determination of whether the

carrier properly adjusted or disallowed payment. The department must be guided by standards and policies set forth in this chapter, including all applicable reimbursement schedules, practice parameters, and protocols of treatment, in rendering its determination.

(d) If the department finds an improper disallowance or improper adjustment of payment by an insurer, the insurer shall reimburse the health care provider, facility, insurer, or employer within 30 days, subject to the penalties provided in this subsection.

(e) The department shall adopt rules to carry out this subsection. The rules may include provisions for consolidating petitions filed by a petitioner and expanding the timetable for rendering a determination upon a consolidated petition.

(f) Any carrier that engages in a pattern or practice of arbitrarily or unreasonably disallowing or reducing payments to health care providers may be subject to one or more of the following penalties imposed by the department:

1. Repayment of the appropriate amount to the health care provider.

2. An administrative fine assessed by the department in an amount not to exceed $5,000 per instance of improperly disallowing or reducing payments.

3. Award of the health care provider's costs, including a reasonable attorney ~~attorney's~~ fee, for prosecuting the petition.

(8) PATTERN OR PRACTICE OF OVERUTILIZATION.—

(b) If the department determines that a health care provider has engaged in a pattern or practice of overutilization

or a violation of this chapter or rules adopted by the department, including a pattern or practice of providing treatment in excess of the practice parameters or protocols of treatment, it may impose one or more of the following penalties:

1. An order ~~of the department~~ barring the provider from payment under this chapter;

2. Deauthorization of care under review;

3. Denial of payment for care rendered in the future;

~~4. Decertification of a health care provider certified as an expert medical advisor under subsection (9) or of a rehabilitation provider certified under s. 440.49;~~

4.~~5.~~ An administrative fine of ~~assessed by the department in an amount not to exceed~~ $5,000 ~~per instance of overutilization or violation~~; and

5.~~6.~~ Notification of and review by the appropriate licensing authority pursuant to s. 440.106(3).

(11) AUDITS.—

(b) The department shall monitor carriers as provided in this chapter ~~and the Office of Insurance Regulation shall audit insurers and group self insurance funds as provided in s. 624.3161, to determine if medical bills are paid in accordance with this section and rules of the department and Financial Services Commission, respectively. Any employer, if self-insured, or carrier found by the department or Office of Insurance Regulation not to be within 90 percent compliance as to the payment of medical bills after July 1, 1994, must be assessed a fine not to exceed 1 percent of the prior year's assessment levied against such entity under s. 440.51 for every quarter in which the entity fails to attain 90-percent~~

~~compliance. The department shall fine or otherwise discipline an employer or carrier, pursuant to this chapter or rules adopted by the department, and the Office of Insurance Regulation shall fine or otherwise discipline an insurer or group self-insurance fund pursuant to the insurance code or rules adopted by the Financial Services Commission, for each late payment of compensation that is below the minimum 95-percent performance standard. Any carrier that is found to be not in compliance in subsequent consecutive quarters must implement a medical bill review program approved by the department or office, and an insurer or group self insurance fund is subject to disciplinary action by the Office of Insurance Regulation~~.

(12) CREATION OF THREE-MEMBER PANEL; GUIDES OF MAXIMUM REIMBURSEMENT ALLOWANCES.—

(e) In addition to establishing the uniform schedule of maximum reimbursement allowances, the panel shall:

1. Take testimony, receive records, and collect data to evaluate the adequacy of the workers' compensation fee schedule, nationally recognized fee schedules and alternative methods of reimbursement to ~~certified~~ health care providers and health care facilities for inpatient and outpatient treatment and care.

2. Survey ~~certified~~ health care providers and health care facilities to determine the availability and accessibility of workers' compensation health care delivery systems for injured workers.

3. Survey carriers to determine the estimated impact on carrier costs and workers' compensation premium rates by implementing changes to the carrier reimbursement schedule or implementing alternative reimbursement methods.

4. Submit recommendations on or before January 1, 2003, and biennially thereafter, to the President of the Senate and the Speaker of the House of Representatives on methods to improve the workers' compensation health care delivery system.

The department, as requested, shall provide data to the panel, including, but not limited to, utilization trends in the workers' compensation health care delivery system. The department shall provide the panel with an annual report regarding the resolution of medical reimbursement disputes and any actions pursuant to subsection (8). The department shall provide administrative support and service to the panel to the extent requested by the panel.

~~(13) REMOVAL OF PHYSICIANS FROM LISTS OF THOSE AUTHORIZED TO RENDER MEDICAL CARE.—The department shall remove from the list of physicians or facilities authorized to provide remedial treatment, care, and attendance under this chapter the name of any physician or facility found after reasonable investigation to have:~~

~~(a) Engaged in professional or other misconduct or incompetency in connection with medical services rendered under this chapter;~~

~~(b) Exceeded the limits of his or her or its professional competence in rendering medical care under this chapter, or to have made materially false statements regarding his or her or its qualifications in his or her application;~~

~~(c) Failed to transmit copies of medical reports to the employer or carrier, or failed to submit full and truthful medical reports of all his or her or its findings to the~~

~~employer or carrier as required under this chapter;~~

~~(d) Solicited, or employed another to solicit for himself or herself or itself or for another, professional treatment, examination, or care of an injured employee in connection with any claim under this chapter;~~

~~(e) Refused to appear before, or to answer upon request of, the department or any duly authorized officer of the state, any legal question, or to produce any relevant book or paper concerning his or her conduct under any authorization granted to him or her under this chapter;~~

~~(f) Self-referred in violation of this chapter or other laws of this state; or~~

~~(g) Engaged in a pattern of practice of overutilization or a violation of this chapter or rules adopted by the department, including failure to adhere to practice parameters and protocols established in accordance with this chapter.~~

(13)~~(14)~~ PAYMENT OF MEDICAL FEES.—

(a) Except for emergency care treatment, fees for medical services are payable only to a health care provider ~~certified and~~ authorized to render remedial treatment, care, or attendance under this chapter. Carriers shall pay, disallow, or deny payment to health care providers in the manner and at times set forth in this chapter. A health care provider may not collect or receive a fee from an injured employee within this state, except as otherwise provided by this chapter. Such providers have recourse against the employer or carrier for payment for services rendered in accordance with this chapter. Payment to health care providers or physicians shall be subject to the medical fee schedule and applicable practice parameters and

protocols, regardless of whether the health care provider or claimant is asserting that the payment should be made.

(b) Fees charged for remedial treatment, care, and attendance, except for independent medical examinations and consensus independent medical examinations, may not exceed the applicable fee schedules adopted under this chapter and department rule. Notwithstanding any other provision in this chapter, if a physician or health care provider specifically agrees in writing to follow identified procedures aimed at providing quality medical care to injured workers at reasonable costs, deviations from established fee schedules shall be permitted. Written agreements warranting deviations may include, but are not limited to, the timely scheduling of appointments for injured workers, participating in return-to-work programs with injured workers' employers, expediting the reporting of treatments provided to injured workers, and agreeing to continuing education, utilization review, quality assurance, precertification, and case management systems that are designed to provide needed treatment for injured workers.

(c) Notwithstanding any other provision of this chapter, following overall maximum medical improvement from an injury compensable under this chapter, the employee is obligated to pay a copayment of $10 per visit for medical services. The copayment shall not apply to emergency care provided to the employee.

Section 7. Paragraph (b) of subsection (2) of section 440.15, Florida Statutes, is amended to read:

440.15 Compensation for disability.—Compensation for disability shall be paid to the employee, subject to the limits provided in s. 440.12(2), as follows:

(2) TEMPORARY TOTAL DISABILITY.—

(b) Notwithstanding ~~the provisions of~~ paragraph (a), an employee who has sustained the loss of an arm, leg, hand, or foot, has been rendered a paraplegic, paraparetic, quadriplegic, or quadriparetic, or has lost the sight of both eyes shall be paid temporary total disability of 80 percent of her or his average weekly wage. The increased temporary total disability compensation provided for in this paragraph must not extend beyond 6 months from the date of the accident; however, such benefits shall not be due or payable if the employee is eligible for, entitled to, or collecting permanent total disability benefits. The compensation provided by this paragraph is not subject to the limits provided in s. 440.12(2)~~, but instead is subject to a maximum weekly compensation rate of $700~~. If, at the conclusion of this period of increased temporary total disability compensation, the employee is still temporarily totally disabled, the employee shall continue to receive temporary total disability compensation as set forth in paragraphs (a) and (c). The period of time the employee has received this increased compensation will be counted as part of, and not in addition to, the maximum periods of time for which the employee is entitled to compensation under paragraph (a) but not paragraph (c).

Section 8. Subsection (9) of section 440.185, Florida Statutes, is amended to read:

440.185 Notice of injury or death; reports; penalties for violations.—

(9) Any employer or carrier who fails or refuses to timely send any form, report, or notice required by this section shall

be subject to an administrative fine by the department not to exceed $500 ~~$1,000~~ for each such failure or refusal. ~~If, within 1 calendar year, an employer fails to timely submit to the carrier more than 10 percent of its notices of injury or death, the employer shall be subject to an administrative fine by the department not to exceed $2,000 for each such failure or refusal.~~ However, any employer who fails to notify the carrier of an ~~the~~ injury on the prescribed form or by letter within the 7 days required in subsection (2) shall be liable for the administrative fine, which shall be paid by the employer and not the carrier. Failure by the employer to meet its obligations under subsection (2) shall not relieve the carrier from liability for the administrative fine if it fails to comply with subsections (4) and (5).

Section 9. Paragraph (b) of subsection (8) and paragraphs (a), (b), and (c) of subsection (12) of section 440.20, Florida Statutes, are amended to read:

440.20 Time for payment of compensation and medical bills; penalties for late payment.—

(8)

(b) In order to ensure carrier compliance under this chapter, the department ~~office~~ shall monitor, audit, and investigate the performance of carriers. The department ~~office~~ shall require that all compensation benefits be ~~are~~ timely paid in accordance with this section. The department ~~office~~ shall impose penalties for late payments of compensation that are below a minimum 95-percent ~~95 percent~~ timely payment performance standard. The carrier shall pay to the Workers' Compensation Administration Trust Fund a penalty of:

1. Fifty dollars per number of installments of compensation below the 95-percent ~~95 percent~~ timely payment performance standard and equal to or greater than a 90-percent ~~90 percent~~ timely payment performance standard.

2. One hundred dollars per number of installments of compensation below a 90-percent ~~90 percent~~ timely payment performance standard.

This section does not affect the imposition of any penalties or interest due to the claimant. If a carrier contracts with a servicing agent to fulfill its administrative responsibilities under this chapter, the payment practices of the servicing agent are deemed the payment practices of the carrier for the purpose of assessing penalties against the carrier.

(12)

(a) Liability of an employer for future payments of compensation may not be discharged by advance payment unless prior approval of a judge of compensation claims ~~or the department~~ has been obtained as hereinafter provided. The approval shall not constitute an adjudication of the claimant's percentage of disability.

(b) When the claimant has reached maximum recovery and returned to her or his former or equivalent employment with no substantial reduction in wages, such approval of a reasonable advance payment of a part of the compensation payable to the claimant may be given informally by letter by a judge of compensation claims ~~or by the department~~.

(c) In the event the claimant has not returned to the same or equivalent employment with no substantial reduction in wages

or has suffered a substantial loss of earning capacity or a physical impairment, actual or apparent:

1. An advance payment of compensation not in excess of $2,000 may be approved informally by letter, without hearing, by any judge of compensation claims or the Chief Judge.

2. An advance payment of compensation not in excess of $2,000 may be ordered by any judge of compensation claims after giving the interested parties an opportunity for a hearing thereon pursuant to not less than 10 days' notice by mail, unless such notice is waived, and after giving due consideration to the interests of the person entitled thereto. When the parties have stipulated to an advance payment of compensation not in excess of $2,000, such advance may be approved by an order of a judge of compensation claims, with or without hearing, or informally by letter by any such judge of compensation claims~~, or by the department~~, if such advance is found to be for the best interests of the person entitled thereto.

3. When the parties have stipulated to an advance payment in excess of $2,000, ~~subject to the approval of the department,~~ such payment may be approved by a judge of compensation claims by order if the judge finds that such advance payment is for the best interests of the person entitled thereto and is reasonable under the circumstances of the particular case. The judge of compensation claims shall make or cause to be made such investigations as she or he considers necessary concerning the stipulation and, in her or his discretion, may have an investigation of the matter made. The stipulation and the report of any investigation shall be deemed a part of the record of the

proceedings.

Section 10. Subsection (1) of section 440.211, Florida Statutes, is amended to read:

440.211 Authorization of collective bargaining agreement.—

(1) Subject to the limitation stated in subsection (2), a provision that is mutually agreed upon in any collective bargaining agreement ~~filed with the department~~ between an individually self-insured employer or other employer upon consent of the employer's carrier and a recognized or certified exclusive bargaining representative establishing any of the following shall be valid and binding:

(a) An alternative dispute resolution system to supplement, modify, or replace the provisions of this chapter which may include, but is not limited to, conciliation, mediation, and arbitration. Arbitration held pursuant to this section shall be binding on the parties.

(b) The use of an agreed-upon list of ~~certified~~ health care providers of medical treatment which may be the exclusive source of all medical treatment under this chapter.

(c) The use of a limited list of physicians to conduct independent medical examinations which the parties may agree shall be the exclusive source of independent medical examiners pursuant to this chapter.

(d) A light-duty, modified-job, or return-to-work program.

(e) A vocational rehabilitation or retraining program.

Section 11. Paragraph (b) of subsection (1) of section 440.385, Florida Statutes, is amended to read:

440.385 Florida Self-Insurers Guaranty Association, Incorporated.—

(1) CREATION OF ASSOCIATION.—

(b) A member may voluntarily withdraw from the association when the member voluntarily terminates the self-insurance privilege and pays all assessments due to the date of such termination. However, the withdrawing member shall continue to be bound by the provisions of this section relating to the period of his or her membership and any claims charged pursuant thereto. The withdrawing member who is a member on or after January 1, 1991, shall also be required to provide to the association upon withdrawal, and at 12-month intervals thereafter, satisfactory proof, including, if requested by the association, a report of known and potential claims certified by a member of the American Academy of Actuaries, that it continues to meet the standards of s. 440.38(1)(b) ~~440.38(1)(b)1.~~ in relation to claims incurred while the withdrawing member exercised the privilege of self-insurance. Such reporting shall continue until the withdrawing member demonstrates to the association that there is no remaining value to claims incurred while the withdrawing member was self-insured. If a withdrawing member fails or refuses to timely provide an actuarial report to the association, the association may obtain an order from a circuit court requiring the member to produce such a report and ordering any other relief that the court determines appropriate. The association is entitled to recover all reasonable costs and attorney ~~attorney's~~ fees expended in such proceedings. If during this reporting period the withdrawing member fails to meet the standards of s. 440.38(1)(b) ~~440.38(1)(b)1.~~, the withdrawing member who is a member on or after January 1, 1991, shall thereupon, and at 6-month intervals thereafter, provide to the

association the certified opinion of an independent actuary who is a member of the American Academy of Actuaries of the actuarial present value of the determined and estimated future compensation payments of the member for claims incurred while the member was a self-insurer, using a discount rate of 4 percent. With each such opinion, the withdrawing member shall deposit with the association security in an amount equal to the value certified by the actuary and of a type that is acceptable for qualifying security deposits under s. 440.38(1)(b). The withdrawing member shall continue to provide such opinions and to provide such security until such time as the latest opinion shows no remaining value of claims. The association has a cause of action against a withdrawing member, and against any successor of a withdrawing member, who fails to timely provide the required opinion or who fails to maintain the required deposit with the association. The association shall be entitled to recover a judgment in the amount of the actuarial present value of the determined and estimated future compensation payments of the withdrawing member for claims incurred during the time that the withdrawing member exercised the privilege of self-insurance, together with reasonable attorney ~~attorney's~~ fees. The association is also entitled to recover reasonable attorney ~~attorney's~~ fees in any action to compel production of any actuarial report required by this section. For purposes of this section, the successor of a withdrawing member means any person, business entity, or group of persons or business entities, which holds or acquires legal or beneficial title to the majority of the assets or the majority of the shares of the withdrawing member.

Section 12. Paragraph (a) of subsection (3) and paragraph (a) of subsection (6) of section 440.491, Florida Statutes, are amended to read:

440.491 Reemployment of injured workers; rehabilitation.—

(3) REEMPLOYMENT STATUS REVIEWS AND REPORTS.—

(a) When an employee who has suffered an injury compensable under this chapter is unemployed 60 days after the date of injury and is receiving benefits for temporary total disability, temporary partial disability, or wage loss~~,~~ and has not yet been provided medical care coordination and reemployment services voluntarily by the carrier, the carrier must determine whether the employee is likely to return to work and must report its determination to ~~the department and~~ the employee. The report shall include the identification of both the carrier and the employee, ~~and~~ the carrier claim number, and any case number assigned by the Office of the Judges of Compensation Claims. The carrier must thereafter determine the reemployment status of the employee at 90-day intervals as long as the employee remains unemployed, is not receiving medical care coordination or reemployment services, and is receiving the benefits specified in this subsection.

(6) TRAINING AND EDUCATION.—

(a) Upon referral of an injured employee by the carrier, or upon the request of an injured employee, the department shall conduct a training and education screening to determine whether it should refer the employee for a vocational evaluation ~~and, if appropriate~~, approve training and education, or approve other vocational services for the employee. At the time of such referral, the carrier shall provide the department a copy of any

reemployment assessment or reemployment plan provided to the carrier by a rehabilitation provider. The department may not approve formal training and education programs unless it determines, after consideration of the reemployment assessment, that the reemployment plan is likely to result in return to suitable gainful employment. The department may ~~is authorized to~~ expend moneys from the Workers' Compensation Administration Trust Fund, established by s. 440.50, to secure appropriate training and education at a Florida public college or at a career center established under s. 1001.44, or to secure other vocational services when necessary to satisfy the recommendation of a vocational evaluator. As used in this paragraph, "appropriate training and education" includes securing a general education diploma (GED), if necessary. The department shall by rule establish training and education standards pertaining to employee eligibility, course curricula and duration, and associated costs. For purposes of this subsection, training and education services may be secured from additional providers if:

1. The injured employee currently holds an associate degree and requests to earn a bachelor's degree not offered by a Florida public college located within 50 miles from his or her customary residence;

2. The injured employee's enrollment in an education or training program in a Florida public college or career center would be significantly delayed; or

3. The most appropriate training and education program is available only through a provider other than a Florida public college or career center or at a Florida public college or career center located more than 50 miles from the injured

employee's customary residence.

Section 13. This act shall take effect July 1, 2013.

6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	x	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

PCS/SB 862 provides a petition process for parents to participate in the district school board's determination of a turnaround option, when a school is subject to intervention on the basis of poor academic performance. Before a district school board selects a turnaround option, it must notify parents that they may select and submit to the school board a school turnaround option. If a district school board fails to adopt a petition option submitted by parents, the school board must provide a report that explains in detail both the reason for not adopting the parent-selected option and for adopting the district's preferred option. The option selected by the district is final.

The State Board of Education would be required to adopt rules regarding the petition process, including making available a model petition format and addressing petition signature-gathering, verification, and submission of petitions to the district school board.

This bill has no fiscal impact on state appropriations.

Under the bill, school districts are required to notify parents if the classroom teachers assigned to their children have received poor performance ratings or if they are receiving classroom

instruction from an out-of-field teacher. Upon request, parents would also receive performance evaluations of any classroom teacher involved in their child's education.

Districts must also inform parents that virtual instruction is available from an "effective" or "highly effective" rated teacher when their students are assigned to classrooms with teachers who:

- Are teaching out-of-field; or
- Have received two consecutive annual performance evaluation ratings of "unsatisfactory", two annual performance evaluation ratings of "unsatisfactory" within a 3-year period, or three consecutive annual performance evaluation ratings of "needs improvement" or a combination of "needs improvement" and "unsatisfactory".

The provisions relating to parental notification with respect to out-of-field classroom teachers and performance evaluations apply to charter schools.

The bill prohibits the assignment of a student in consecutive school years to an elementary school classroom teacher who received an evaluation of "unsatisfactory" or "needs improvement". Similarly, the bill prohibits the assignment of a student in consecutive school years to a middle or high school classroom teacher of the same subject who received an evaluation of "unsatisfactory" or "needs improvement". A parent may choose to have a student taught by a teacher who received an evaluation of "unsatisfactory" or "needs improvement" and who teaches extracurricular courses, if the parent provides written consent.

The effective date of the bill is July 1, 2013.

This bill substantially amends the following sections of the Florida Statutes: 1001.10, 1002.20, 1002.32, 1008.33, and 1012.2315.

The bill creates section 1003.07, Florida Statutes.

The bill repeals section 1012.42, Florida Statutes.

II. Present Situation:

School Improvement and Intervention

In 2012, the Legislature revised Florida's school accountability system to comply with the federal Elementary and Secondary Education Act (ESEA),[1] its implementing regulations, and the ESEA flexibility waiver approved for Florida by the U.S. Secretary of Education.[2]

Current state law requires the State Board of Education (SBE) to hold all school districts and public schools accountable for student performance.[3] Additionally, the SBE is responsible for a

[1] 20 U.S.C. ss. 6301 et seq.

[2] Florida requested and was granted a waiver from the U.S. Department of Education of 11 specific federal school accountability provisions. See *Florida's Approved Flexibility Request,* January 31, 2012, *See* http://www2.ed.gov/policy/eseaflex/approved-requests/fl.pdf.

state system of school improvement and education accountability that assesses student performance by school, identifies schools in which students are not making adequate progress toward state standards, and institutes appropriate measures for enforcing improvement. The SBE must also equitably enforce the accountability requirements of the state school system and may impose state requirements on school districts in order to improve the academic performance of all districts, schools, and students based upon the provisions of the Florida K-20 Education Code.[4]

Schools earning a school grade of "D" or "F" are schools in need of intervention and support.[5] The state board must apply the most intense intervention and support strategies to schools earning an "F".[6] In the first full school year after a school initially earns a grade of "F", the school district must meet three requirements: implement intervention and support strategies; select a turn-around option; and submit an implementation plan to the Department of Education (DOE) for State Board approval.[7]

A school district may select one of five turnaround options:[8]

1. Convert the school to a district-managed turnaround school;
2. Reassign students to another school and monitor the progress of each reassigned student;
3. Close the school and reopen it as one or more charter schools, each with a governing board with a demonstrated record of effectiveness;
4. Contract with an outside entity that has a demonstrated record of effectiveness to operate the school; or
5. Implement a hybrid of turnaround options or other models that have a demonstrated record of excellence.

A school earning a grade of "F" has one planning year followed by two full school years to implement the approved turnaround option.[9] Implementation of the turnaround option is no longer required if the school improves by at least one letter grade.[10] However, the school must continue to implement the strategies identified in its school improvement plan and the DOE must annually review the school's implementation of the plan for three years.[11]

Assignment of Classroom Teachers and Performance Evaluations

In 2009, the Florida Legislature enacted legislation to address the quality of teachers assigned to the lowest performing schools.[12] School districts may not assign a higher percentage than the

school district average of temporarily certified teachers, teachers in need of improvement, or out-of-field teachers to these schools.[13] The law requires each district school board to notify the parents of students who are assigned to an out-of-field teacher.[14]

Each district school board must adopt a plan to assist teachers who are teaching out-of-field.[15] These teachers must be afforded priority consideration in professional development activities. Additionally, districts must require the teachers to participate in a certification or a staff development program that improves their performance.[16]

Florida's current educator evaluation system differentiates among four levels: highly effective; effective; needs improvement or, for instructional personnel in the first three years of employment who need improvement, developing;[17] and unsatisfactory.[18] Current law requires the DOE to annually publish online performance rating data that provides the percentage of classroom teachers, instructional personnel and school administrators receiving each performance rating aggregated by district and school.[19]

Each district must annually report to the parent of a student who is assigned to a classroom teacher or school administrator with two consecutive "unsatisfactory" evaluations, two "unsatisfactory" evaluations within a 3-year period, or three consecutive "needs improvement" evaluations, or a combination of "unsatisfactory" and "needs improvement" evaluations.[20]

III. Effect of Proposed Changes:

Petitions

The bill enables parents, by petition, to request that the school district implement a parent-selected turnaround option when a school is subject to intervention on the basis of poor academic performance. The turnaround option requested by parents must be considered for implementation by the district school board at a publicly noticed meeting if the petition is signed and dated by a majority of the parents of eligible students (indicating greater than one-half of eligible parents approve the plan). An eligible student is a student who actually enrolled in the school or a student who will be assigned to the school in the following year.

A school district would be required to notify, in writing, parents of eligible students when a school has earned a school grade of "F" , and that the parents have the option, through a petition, to submit a turnaround choice. The written notice must inform parents, before the district school board selects a turnaround option, that the parents may petition for implementation of a

[13] *Id.*
[14] Section 1012.42(1) and (2), F.S. This reporting requirement applies to teachers who are teaching subject matter that is outside the field in which the teacher is certified, outside the field that was the applicant's minor field of study, or outside the field in which the applicant has demonstrated sufficient subject area expertise.
[15] s. 1012.42(1), F.S.
[16] *Id.*
[17] s. 1012.34(3)(a), F.S., requires newly hired teachers to be evaluated at least twice in the first year of teaching.
[18] s. 1012.34(2)(e), F.S.
[19] s. 1012.2315(5)(a), F.S.
[20] s. 1012.2315(5)(b), F.S.

particular turnaround option set forth in Section 1008.33 (4) (d), Florida Statutes . The notification must include:

- Identification of each school turnaround option;
- A description of the process for implementing school turnaround options;
- The date and location for submission of the petition;
- The date and location of the required public school board meeting to consider the parents selected option; and
- School district contact information.

Only one parent per eligible student may sign the petition. If a child's other parent submits a written objection to the petition, the signing parent's signature counts as one-half.

Under the bill, signature solicitors would be prohibited from offering monetary compensation or other reward to a parent. Solicitors would also be prohibited from being paid by the signature and would have to reveal any affiliated organizations upon request. For-profit corporations and businesses would be prohibited from either gathering signatures or paying others to do so.

A petition may propose one turnaround option; however, multiple petitions each proposing different options may be circulated. If valid petitions for more than one option are submitted, the petition having the most signatures is the official turnaround option selected by parents.

The school board must verify at least a majority of signatures on the petition using existing student enrollment documentation or other records containing parent signatures.

District School Board Review

The bill requires the school board to consider and implement one of the turnaround options in current law. The district school board may adopt the parent-selected turnaround option or a different option selected by the school board. If the district school board does not adopt the option selected by parents, the school board must provide a report that explains in detail both the reason for not adopting the parent-selected option and for adopting the district's preferred option. The option selected by the district school board is final.

Turnaround Schools

A school that improves by a letter grade is no longer subject to implementing the turnaround option, in accordance with s. 1008.33(4)(d), F.S.

Classroom Teachers

The notification provided to a parent of a student who is assigned to an out-of-field teacher would also inform him or her of the availability of a virtual teacher who received an annual performance evaluation rating of "effective" or "highly effective". Additionally, school districts would be permitted to reimburse a classroom teacher for certification fees incurred when he or she is assigned to teach out-of-field.

The bill prohibits the assignment of a student in consecutive school years to an elementary school classroom teacher who receives an evaluation of "unsatisfactory" or "needs improvement". Similarly, the bill prohibits the assignment of a student in consecutive school years to a middle or high school classroom teacher of the same subject who received an evaluation of "unsatisfactory" or "needs improvement". A parent would be allowed to choose to have a student taught by a teacher who received an evaluation of "unsatisfactory" or "needs improvement", if the student and parent are informed about the impact of teacher effectiveness on student learning and written parental consent is provided. This would only apply to teachers who teach extracurricular courses (e.g., physical education, fine arts, performing fine arts, career education, and courses that may result in college credit).

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The Department of Education and school districts are assigned the responsibility of administering the requirements of this bill as part of normal operations. The administrative costs should be minimal.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS by Appropriations Subcommittee on Education on April 11, 2013:

- Removes the requirement for school districts to provide parents, upon request, with personnel evaluations of classroom teachers and administrators;
- Clarifies that parents of students who are assigned to an "F" school that is subject to selecting a turnaround option may participate in the determination of a school turnaround option;
- Removes the requirement that a school board must submit to the State Board of Education for final determination, the parent-selected option, along with a school board option, if the school board fails to adopt a parent-selected option;
- Removes the requirement that a school board must submit to the State Board of Education a plan to implement the parent-selected option, if the State Board determines that the parent-selected option is more likely to improve the academic performance of the students at the school;
- Requires the school board to provide a report that explains in detail both the reason for not adopting the parent-selected option and for adopting the district's preferred option, if the school board fails to adopt a parent-selected option;
- Provides that the turnaround option selected by the school board is final;
- Provides that a school that improves by one letter grade is no longer subject to implementing the turnaround option;
    - An elementary school classroom teacher who received an evaluation of "unsatisfactory" or "needs improvement"; or
    - A middle or high school classroom teacher of the same subject who received an evaluation of "unsatisfactory" or "needs improvement"; and
- Allows a parent to choose to have a student taught by a teacher who received an evaluation of "unsatisfactory" or "needs improvement" and who teaches an extracurricular course, if the parent provides written consent.

(18) FACILITIES.—

(e) If a district school board facility or property is available because it is surplus, marked for disposal, or otherwise unused, it shall be provided for a charter school's use on the same basis as it is made available to other public schools in the district. A charter school that occupies the property of a public school must pay for an appraisal of the public school property to compute the local commercial per

437198

square foot rental rate for the public school property. The charter school shall pay the per square foot amount as monthly rent to the district school board to reduce the bonds that are owed by the school district. A charter school receiving property from the school district may not sell or dispose of such property without written permission of the school district. Similarly, for an existing public school converting to charter status, no rental or leasing fee for the existing facility or for the property normally inventoried to the conversion school may be charged by the district school board to the parents and teachers organizing the charter school. The charter school shall agree to reasonable maintenance provisions in order to maintain the facility in a manner similar to district school board standards. The Public Education Capital Outlay maintenance funds or any other maintenance funds generated by the facility operated as a conversion school shall remain with the conversion school.

Proposed Committee Substitute by the Committee on Appropriations
(Appropriations Subcommittee on Education)

A bill to be entitled

An act relating to parent empowerment in education; amending s. 1001.10, F.S.; conforming a cross-reference; amending s. 1002.20, F.S.; providing that parents who have a student in a public school that is implementing a turnaround option may petition to have a particular turnaround option implemented; requiring the school district to notify parents of a public school student being taught by an out-of-field teacher or by a teacher with an unsatisfactory performance rating; specifying requirements for the notice; amending s. 1002.32, F.S.; conforming a cross-reference; amending s. 1002.33, F.S.; requiring a charter school to comply with certain procedures for the assignment of teachers; creating s. 1003.07, F.S.; creating the Parent Empowerment Act; specifying what constitutes an eligible student and a parental vote; requiring that a school district send a written notice to parents of public school students regarding the parents' options to petition the school for a particular turnaround option; requiring the notice to include certain information; authorizing up to one parental vote per eligible student; establishing the process to solicit signatures for a petition; prohibiting a person from being paid for signatures; prohibiting a for-profit corporation, business, or entity from soliciting signatures or paying a person

740566

576-04159-13

to solicit signatures; establishing criteria to verify the signatures on a petition; requiring the State Board of Education to adopt rules for filing a petition; specifying that a petition is valid if it is signed and dated by a majority of the parents of eligible students and those signatures are verified; requiring the school district to consider the turnaround option on the valid petition with the most signatures at a publicly noticed school board meeting; requiring the district school board to implement a turnaround option; requiring the district school board to complete a report under certain circumstances; providing report requirements; providing that the turnaround option selected by the district school board is final and conclusive; providing that the turnaround option is no longer required if the school improves by at least one letter grade; amending s. 1008.33, F.S.; authorizing a parent to petition the school district to implement a turnaround option selected by the parent; amending s. 1012.2315, F.S.; providing for assistance to teachers teaching out-of-field; requiring the school district to notify parents and inform them of their options if a student is being taught by an out-of-field teacher; providing that a student may not be assigned to a teacher with a performance evaluation rating of less than effective for a specified number of consecutive school years; authorizing the parent of a student to consent to the assignment of that student to a teacher with a

740566

576-04159-13

performance evaluation rating of less than effective under certain circumstances; repealing s. 1012.42, F.S., relating to teachers who are teaching out-of-field; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (3) of section 1001.10, Florida Statutes, is amended to read:

1001.10 Commissioner of Education; general powers and duties.—

(3) To facilitate innovative practices and ~~to allow~~ local selection of educational methods, the State Board of Education may authorize the commissioner to waive, upon the request of a district school board, rules of the State Board of Education relating ~~rules that relate~~ to ~~district~~ school instruction and ~~school~~ operations, except those rules pertaining to civil rights, and student health, safety, and welfare. The commissioner ~~of Education~~ is not authorized to grant waivers for any provisions in rule pertaining to the allocation and appropriation of state and local funds for public education; the election, compensation, and organization of school board members and superintendents; graduation and state accountability standards; financial reporting requirements; reporting of out-of-field teaching assignments under s. 1012.2315 ~~s. 1012.42~~; public meetings; public records; or due process hearings governed by chapter 120. No later than January 1 of each year, the commissioner shall report to the Legislature and the State Board of Education all approved waiver requests in the preceding

740566

576-04159-13

year.

Section 2. Paragraph (d) is added to subsection (21) of section 1002.20, Florida Statutes, and subsection (25) is added to that section, to read:

1002.20 K-12 student and parent rights.—Parents of public school students must receive accurate and timely information regarding their child's academic progress and must be informed of ways they can help their child to succeed in school. K-12 students and their parents are afforded numerous statutory rights including, but not limited to, the following:

(21) PARENTAL INPUT AND MEETINGS.—

(d) Parent empowerment.—Parents of students who are assigned to a public school that is required to implement a turnaround option pursuant to s. 1008.33 may submit a petition to the school district requesting implementation of a turnaround option pursuant to s. 1003.07.

(25) ASSIGNMENT TO TEACHERS.—

(a) Out-of-field classroom teachers.—Each school district shall annually notify the parent of a public school student who is assigned to a classroom teacher teaching out-of-field. The notice must inform the parent that virtual instruction from a certified in-field teacher having an annual performance evaluation rating of "effective" or "highly effective" is available pursuant to s. 1012.2315(5).

(b) Underperforming classroom teachers.—Each school district shall annually notify the parent of a public school student assigned to a classroom teacher or school administrator who, under s. 1012.34, has two consecutive annual performance evaluation ratings of "unsatisfactory," two annual performance

evaluation ratings of "unsatisfactory within a 3-year period," or three consecutive annual performance evaluation ratings of "needs improvement" or a combination of "needs improvement" and "unsatisfactory." The notice must inform the parent that virtual instruction from a teacher who has an annual performance evaluation rating of "effective" or "highly effective" is available pursuant to s. 1012.2315(7).

Section 3. Paragraph (c) of subsection (7) of section 1002.32, Florida Statutes, is amended to read:

1002.32 Developmental research (laboratory) schools.—

(7) PERSONNEL.—

(c) Lab school faculty members shall meet the certification requirements of s. 1012.32 ~~ss. 1012.32 and 1012.42~~.

Section 4. Paragraph (b) of subsection (16) of section 1002.33, Florida Statutes, is amended to read:

1002.33 Charter schools.—

(16) EXEMPTION FROM STATUTES.—

(b) Additionally, a charter school shall comply ~~be in compliance~~ with the following statutes:

1. Section 286.011, relating to public meetings and records, public inspection, and criminal and civil penalties.

2. Chapter 119, relating to public records.

3. Section 1003.03, relating to the maximum class size, except that the calculation for compliance pursuant to s. 1003.03 must ~~shall~~ be the average at the school level.

4. Section 1012.22(1)(c), relating to compensation and salary schedules.

5. Section 1012.33(5), relating to workforce reductions.

6. Section 1012.335, relating to contracts with

instructional personnel hired on or after July 1, 2011.

7. Section 1012.34, relating to the substantive requirements for performance evaluations for instructional personnel and school administrators.

8. Section 1012.2315(5) and (7), relating to the assignment of teachers and notification to parents.

Section 5. Section 1003.07, Florida Statutes, is created to read:

1003.07 Parent empowerment.—

(1) This section may be cited as the "Parent Empowerment Act."

(2) As used in this section, the term:

(a) "Eligible student" means a student enrolled in a school in which a turnaround option will be implemented or a student who, under the school district's enrollment policy, is scheduled for assignment to that school the following school year. A student who is graduating or being promoted out of a school that is eligible for a turnaround option and who will not be enrolled in that school the following school year is not an eligible student.

(b) "Parental vote" means the signature of one parent of an eligible student.

1. If the other parent objects in writing to the parental vote before the date the petition is scheduled to be submitted, and if the parents have equal parental rights, the parental vote counts for one-half of a vote.

2. If one parent has sole parental responsibility or holds the right to make educational decisions for the student pursuant to s. 61.13, only that parent can vote regarding the eligible

student.

(3) Each school district shall notify, in writing, the parents of eligible students and the school advisory council when a public school has earned a school grade of "F" and is required to select a turnaround option pursuant to s. 1008.33. The written notice must inform parents that, before the district school board selects a turnaround option, parents may petition for implementation of a particular turnaround option pursuant to s. 1008.33. The notice must be provided to parents within 30 calendar days after the school district receives notice from the department that the school is required to select a turnaround option. The notice must include:

(a) A description of each turnaround option available for selection under s. 1008.33;

(b) A description of the process for implementing a turnaround option, including the date by which the school district must submit its implementation plan to the State Board of Education;

(c) The date and location for submission of the petition;

(d) The date and location of the publicly noticed district school board meeting required in this section at which the school board will consider the available turnaround options; and

(e) The contact information of the district school board.

(4) A person who solicits signatures may not offer monetary compensation, a promise of employment, or any other reward to a parent for signing a petition. A person who solicits signatures may not be paid per signature and, if asked, must disclose the organization he or she represents. A for-profit corporation, business, or entity is prohibited from gathering signatures or

paying others to solicit signatures.

(5) The State Board of Education shall adopt rules to establish a petition format, the petition submission process, standards for verifying signatures, and timeframes for the verification and consideration of a petition at a publicly noticed meeting. Petition forms must be easily accessible to parents. Each petition form must clearly identify only one turnaround option on the front page of the petition and on each page thereafter. The school district shall provide clear instructions and a sample petition form for each turnaround option available for selection under s. 1008.33.

(6) The petition process must provide that:

(a) Parents of eligible students have at least 30 days after initial notification to gather petition signatures.

(b) The school district shall verify signatures no more than 30 days after the date the petition is submitted.

(c) The district school board may not meet sooner than 30 days after the petition is submitted.

(d) A submitted petition may list only one turnaround option identified in s. 1008.33 which is not currently being implemented at the school. A parent may sign more than one petition for a turnaround option.

(e) A parent signature constitutes a certification that the parent has a present intention to enroll his or her child, who must be identified on the petition, if the turnaround option identified on the petition is selected. A school district may not reject a parent's signature on a petition on the basis that the parent signed the petition before the initial notice.

(f) The school district shall verify at least a majority of

the signatures on the petition using existing student enrollment documentation or other records containing parent signatures. A school district may not reject a parent's signature on a petition based on a lack of conformity to signatures in school records if the parent's identity and signature can be easily validated with a photographic identification or a notarized signature verifying the identity of the signer, or by the personal knowledge of a school employee. The school district is not required to verify notarized signatures, and signatures verified outside an established verification period are valid.

(g) For a petition to be valid, it must bear the dated signatures of a majority of the parents of eligible students. For purposes of this section, a majority is more than one-half of the parents who are eligible to sign the petition. Only one parental vote per eligible student may be counted with respect to each petition.

(h) If valid petitions for more than one turnaround option are submitted, the petition having the most signatures is the official turnaround option selected by parents.

(7) The turnaround option selected by parents must be considered for implementation by the school district at a publicly noticed district school board meeting. The district school board may adopt the turnaround option selected by parents or a different turnaround option selected by the district school board. The district school board shall consider and implement one of the turnaround options set forth in s. 1008.33(4)(b). If the district school board adopts a turnaround option that is different from the turnaround option selected by parents, it shall set forth in a report a detailed explanation of the

reasons it has not adopted the parents' suggested turnaround option and set forth the reasons for the plan it has adopted. The turnaround option selected by the district school board shall be final and conclusive. If the school improves by at least one letter grade, implementation of a turnaround option is no longer required in accordance with s. 1008.33(4)(d).

Section 6. Subsection (4) of section 1008.33, Florida Statutes, is amended to read:

1008.33 Authority to enforce public school improvement.—

(4)(a) The state board shall apply the most intense intervention and support strategies to schools earning a grade of "F." In the first full school year after a school initially earns a grade of "F," the school district must implement intervention and support strategies prescribed in rule under paragraph (3)(c), select a turnaround option from those provided in subparagraphs (b)1.-5., and submit a plan for implementing the turnaround option to the department for approval by the state board. Upon approval by the state board, the turnaround option must be implemented in the following school year.

(b) Except as provided in subsection (5), the turnaround options available to a school district to address a school that earns a grade of "F" are:

1. Convert the school to a district-managed turnaround school;

2. Reassign students to another school and monitor the progress of each reassigned student;

3. Close the school and reopen the school as one or more charter schools, each with a governing board that has a demonstrated record of effectiveness;

4. Contract with an outside entity that has a demonstrated record of effectiveness to operate the school; or

5. Implement a hybrid of turnaround options set forth in subparagraphs 1.-4. or other turnaround models that have a demonstrated record of effectiveness.

(c) Parents of students who are assigned to a public school that is required by the State Board of Education to implement a turnaround option may petition the school district to implement one of the turnaround options in paragraph (b) selected by the parents pursuant to s. 1003.07.

(d) ~~(c)~~ Except for schools required to implement a turnaround option pursuant to subsection (5), a school earning a grade of "F" shall have a planning year followed by 2 full school years to implement the initial turnaround option selected by the school district and approved by the state board. Implementation of the turnaround option is no longer required if the school improves by at least one letter grade.

(e) ~~(d)~~ A school earning a grade of "F" that improves its letter grade must continue to implement strategies identified in its school improvement plan pursuant to s. 1001.42(18)(a). The department must annually review implementation of the school improvement plan for 3 years to monitor the school's continued improvement.

(f) ~~(e)~~ If a school earning a grade of "F" does not improve by at least one letter grade after 2 full school years of implementing the turnaround option selected by the school district under paragraph (b), the school district must select a different option and submit another implementation plan to the department for approval by the state board. Implementation of

the approved plan must begin the school year following the implementation period of the existing turnaround option, unless the state board determines that the school is likely to improve a letter grade if additional time is provided to implement the existing turnaround option.

Section 7. Section 1012.2315, Florida Statutes, is amended to read:

1012.2315 Assignment of teachers.—

(1) LEGISLATIVE FINDINGS AND INTENT.—The Legislature finds disparities between teachers assigned to teach in a majority of schools that do not need improvement and schools that do need improvement pursuant to s. 1008.33. The disparities may be found in the assignment of temporarily certified teachers, teachers in need of improvement, and out-of-field teachers and in the performance of the students. It is the intent of the Legislature that district school boards have flexibility through the collective bargaining process to assign teachers more equitably across the schools in the district.

(2) ASSIGNMENT TO SCHOOLS GRADED "D" or "F".—School districts may not assign a higher percentage than the school district average of temporarily certified teachers, teachers in need of improvement, or out-of-field teachers to schools graded "D" or "F" pursuant to s. 1008.34. Each school district shall annually certify to the commissioner ~~of Education~~ that this requirement has been met. If the commissioner determines that a school district is not in compliance with this subsection, the State Board of Education must ~~shall~~ be notified and shall take action pursuant to s. 1008.32 in the next regularly scheduled meeting to require compliance.

740566

576-04159-13

(3) SALARY INCENTIVES.—District school boards may ~~are authorized to~~ provide salary incentives to meet the requirement of subsection (2). A district school board may not sign a collective bargaining agreement that precludes the school district from providing sufficient incentives to meet this requirement.

(4) COLLECTIVE BARGAINING.—Notwithstanding provisions of chapter 447 relating to district school board collective bargaining, collective bargaining provisions may not preclude a school district from providing incentives to high-quality teachers and assigning such teachers to low-performing schools.

(5) ASSISTANCE TO OUT-OF-FIELD TEACHERS.—

(a) Each district school board shall adopt rules for administering an assistance plan for each classroom teacher who is teaching out-of-field. The assistance plan must provide teachers who are teaching out-of-field with priority consideration in professional development activities and require such teachers to participate in a certification or staff development program that provides the competencies required for the assigned duties. A school district may reimburse a teacher who is teaching out-of-field for a certification fee. The assistance plan must also include duties of administrative personnel and other instructional personnel for assisting a teacher who is teaching out-of-field.

(b) The school district shall annually notify the parent of a student who is assigned to a classroom teacher teaching a subject matter that is:

1. Outside the field in which the teacher is certified;

2. Outside the field that was the teacher's minor field of

740566

576-04159-13

study; or

3. Outside the field in which the teacher has demonstrated sufficient subject area expertise, as determined by district school board policy, in the subject area to be taught.

The notice must inform the parent that virtual instruction from a certified in-field teacher who has an annual performance evaluation rating of "effective" or "highly effective" under s. 1012.34 is available to his or her child through the virtual instruction options specified in s. 1002.321(4).

(6) ~~(5)~~ REPORT.—

~~(a)~~ By July 1, 2012, the department ~~of Education~~ shall annually report on its website, in a manner that is accessible to the public, the performance rating data reported by district school boards under s. 1012.34. The report must include the percentage of classroom teachers, instructional personnel, and school administrators receiving each performance rating aggregated by school district and by school.

(7) ASSIGNMENT OF TEACHERS BASED UPON PERFORMANCE EVALUATIONS.—

(a) ~~(b)~~ Notwithstanding ~~the provisions of~~ s. 1012.31(3)(a)2., each school district shall annually notify ~~report to~~ the parent of a ~~any~~ student who is assigned to a classroom teacher or school administrator having two consecutive annual performance evaluation ratings of "unsatisfactory" under s. 1012.34, two annual performance evaluation ratings of unsatisfactory within a 3-year period under s. 1012.34, or three consecutive annual performance evaluation ratings of "needs improvement" or a combination of "needs improvement" and

740566

576-04159-13

"unsatisfactory" under s. 1012.34. The notice must inform the parent that virtual instruction from a teacher having a performance evaluation rating of "highly effective" or "effective" under s. 1012.34 is available to his or her child through the virtual instruction options specified in s. 1002.321(4).

(b) If a high school or middle school student is currently taught by a classroom teacher who, during that school year, receives a performance evaluation rating of "needs improvement" or "unsatisfactory" under s. 1012.34, the student may not be assigned the following school year to a classroom teacher in the same subject area who received a performance evaluation rating of "needs improvement" or "unsatisfactory" in the preceding school year.

(c) If an elementary school student is currently taught by a classroom teacher who, during that school year, receives a performance evaluation rating of "needs improvement" or "unsatisfactory" under s. 1012.34, the student may not be assigned the following school year to a classroom teacher who received a performance evaluation rating of "needs improvement" or "unsatisfactory" in the preceding school year.

(d) For a student enrolling in an extracurricular course as defined in s. 1003.01(15), a parent may choose to have the student taught by a teacher who received a performance evaluation of "needs improvement" or "unsatisfactory" in the preceding school year if the student and the student's parent receive an explanation of the impact of teacher effectiveness on student learning and the principal receives written consent from the parent.

740566

576-04159-13

Section 8. Section 1012.42, Florida Statutes, is repealed.

Section 9. This act shall take effect July 1, 2013.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 862
INTRODUCER:	Appropriations Committee; (Recommended by Appropriations Subcommittee on Education), and Senator Stargel
SUBJECT:	Parent Empowerment in Education
DATE:	April 25, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	deMarsh-Mathues	Klebacha	ED	**Favorable**
2.	Armstrong	Elwell	AED	**Fav/CS**
3.	Elwell	Hansen	AP	**Fav/CS**
4.				
5.				
6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	x	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/SB 862 provides a petition process for parents to participate in the district school board's determination of a turnaround option, when a school is subject to intervention on the basis of poor academic performance. Before a district school board selects a turnaround option, it must notify parents that they may select and submit to the school board a school turnaround option. If a district school board fails to adopt a petition option submitted by parents, the school board must provide a report that explains in detail both the reason for not adopting the parent-selected option and for adopting the district's preferred option. The option selected by the district is final.

The State Board of Education would be required to adopt rules regarding the petition process, including making available a model petition format and addressing petition signature-gathering, verification, and submission of petitions to the district school board.

This bill has no fiscal impact on state appropriations.

Under the bill, school districts are required to notify parents if the classroom teachers assigned to their children have received poor performance ratings or if they are receiving classroom

instruction from an out-of-field teacher. Upon request, parents would also receive performance evaluations of any classroom teacher involved in their child's education.

Districts must also inform parents that virtual instruction is available from an "effective" or "highly effective" rated teacher when their students are assigned to classrooms with teachers who:

- Are teaching out-of-field; or
- Have received two consecutive annual performance evaluation ratings of "unsatisfactory", two annual performance evaluation ratings of "unsatisfactory" within a 3-year period, or three consecutive annual performance evaluation ratings of "needs improvement" or a combination of "needs improvement" and "unsatisfactory".

The provisions relating to parental notification with respect to out-of-field classroom teachers and performance evaluations apply to charter schools.

The bill prohibits the assignment of a student in consecutive school years to an elementary school classroom teacher who received an evaluation of "unsatisfactory" or "needs improvement". Similarly, the bill prohibits the assignment of a student in consecutive school years to a middle or high school classroom teacher of the same subject who received an evaluation of "unsatisfactory" or "needs improvement". A parent may choose to have a student taught by a teacher who received an evaluation of "unsatisfactory" or "needs improvement" and who teaches extracurricular courses, if the parent provides written consent.

The effective date of the bill is July 1, 2013.

This bill substantially amends the following sections of the Florida Statutes: 1001.10, 1002.20, 1002.32, 1008.33, and 1012.2315.

The bill creates section 1003.07, Florida Statutes.

The bill repeals section 1012.42, Florida Statutes.

II. Present Situation:

School Improvement and Intervention

In 2012, the Legislature revised Florida's school accountability system to comply with the federal Elementary and Secondary Education Act (ESEA),[1] its implementing regulations, and the ESEA flexibility waiver approved for Florida by the U.S. Secretary of Education.[2]

Current state law requires the State Board of Education (SBE) to hold all school districts and public schools accountable for student performance.[3] Additionally, the SBE is responsible for a

[1] 20 U.S.C. ss. 6301 et seq.
[2] Florida requested and was granted a waiver from the U.S. Department of Education of 11 specific federal school accountability provisions. See *Florida's Approved Flexibility Request,* January 31, 2012, *See* http://www2.ed.gov/policy/eseaflex/approved-requests/fl.pdf.

state system of school improvement and education accountability that assesses student performance by school, identifies schools in which students are not making adequate progress toward state standards, and institutes appropriate measures for enforcing improvement. The SBE must also equitably enforce the accountability requirements of the state school system and may impose state requirements on school districts in order to improve the academic performance of all districts, schools, and students based upon the provisions of the Florida K-20 Education Code.[4]

Schools earning a school grade of "D" or "F" are schools in need of intervention and support.[5] The state board must apply the most intense intervention and support strategies to schools earning an "F".[6] In the first full school year after a school initially earns a grade of "F", the school district must meet three requirements: implement intervention and support strategies; select a turn-around option; and submit an implementation plan to the Department of Education (DOE) for State Board approval.[7]

A school district may select one of five turnaround options:[8]

1. Convert the school to a district-managed turnaround school;
2. Reassign students to another school and monitor the progress of each reassigned student;
3. Close the school and reopen it as one or more charter schools, each with a governing board with a demonstrated record of effectiveness;
4. Contract with an outside entity that has a demonstrated record of effectiveness to operate the school; or
5. Implement a hybrid of turnaround options or other models that have a demonstrated record of excellence.

A school earning a grade of "F" has one planning year followed by two full school years to implement the approved turnaround option.[9] Implementation of the turnaround option is no longer required if the school improves by at least one letter grade.[10] However, the school must continue to implement the strategies identified in its school improvement plan and the DOE must annually review the school's implementation of the plan for three years.[11]

Assignment of Classroom Teachers and Performance Evaluations

In 2009, the Florida Legislature enacted legislation to address the quality of teachers assigned to the lowest performing schools.[12] School districts may not assign a higher percentage than the

[11] *Id*.
[12] Chapter 2009-144, L.O.F., codified in section 1012.2315, F.S.

school district average of temporarily certified teachers, teachers in need of improvement, or out-of-field teachers to these schools.[13] The law requires each district school board to notify the parents of students who are assigned to an out-of-field teacher.[14]

Each district school board must adopt a plan to assist teachers who are teaching out-of-field.[15] These teachers must be afforded priority consideration in professional development activities. Additionally, districts must require the teachers to participate in a certification or a staff development program that improves their performance.[16]

Florida's current educator evaluation system differentiates among four levels: highly effective; effective; needs improvement or, for instructional personnel in the first three years of employment who need improvement, developing;[17] and unsatisfactory.[18] Current law requires the DOE to annually publish online performance rating data that provides the percentage of classroom teachers, instructional personnel and school administrators receiving each performance rating aggregated by district and school.[19]

Each district must annually report to the parent of a student who is assigned to a classroom teacher or school administrator with two consecutive "unsatisfactory" evaluations, two "unsatisfactory" evaluations within a 3-year period, or three consecutive "needs improvement" evaluations, or a combination of "unsatisfactory" and "needs improvement" evaluations.[20]

III. Effect of Proposed Changes:

Petitions

The bill enables parents, by petition, to request that the school district implement a parent-selected turnaround option when a school is subject to intervention on the basis of poor academic performance. The turnaround option requested by parents must be considered for implementation by the district school board at a publicly noticed meeting if the petition is signed and dated by a majority of the parents of eligible students (indicating greater than one-half of eligible parents approve the plan). An eligible student is a student who actually enrolled in the school or a student who will be assigned to the school in the following year.

A school district would be required to notify, in writing, parents of eligible students when a school has earned a school grade of "F" , and that the parents have the option, through a petition, to submit a turnaround choice. The written notice must inform parents, before the district school board selects a turnaround option, that the parents may petition for implementation of a

[13] *Id.*
[14] Section 1012.42(1) and (2), F.S. This reporting requirement applies to teachers who are teaching subject matter that is outside the field in which the teacher is certified, outside the field that was the applicant's minor field of study, or outside the field in which the applicant has demonstrated sufficient subject area expertise.
[15] s. 1012.42(1), F.S.
[16] *Id.*
[17] s. 1012.34(3)(a), F.S., requires newly hired teachers to be evaluated at least twice in the first year of teaching.
[18] s. 1012.34(2)(e), F.S.
[19] s. 1012.2315(5)(a), F.S.
[20] s. 1012.2315(5)(b), F.S.

particular turnaround option set forth in Section 1008.33 (4) (d), Florida Statutes . The notification must include:

- Identification of each school turnaround option;
- A description of the process for implementing school turnaround options;
- The date and location for submission of the petition;
- The date and location of the required public school board meeting to consider the parents selected option; and
- School district contact information.

Only one parent per eligible student may sign the petition. If a child's other parent submits a written objection to the petition, the signing parent's signature counts as one-half.

Under the bill, signature solicitors would be prohibited from offering monetary compensation or other reward to a parent. Solicitors would also be prohibited from being paid by the signature and would have to reveal any affiliated organizations upon request. For-profit corporations and businesses would be prohibited from either gathering signatures or paying others to do so.

A petition may propose one turnaround option; however, multiple petitions each proposing different options may be circulated. If valid petitions for more than one option are submitted, the petition having the most signatures is the official turnaround option selected by parents.

The school board must verify at least a majority of signatures on the petition using existing student enrollment documentation or other records containing parent signatures.

District School Board Review

The bill requires the school board to consider and implement one of the turnaround options in current law. The district school board may adopt the parent-selected turnaround option or a different option selected by the school board. If the district school board does not adopt the option selected by parents, the school board must provide a report that explains in detail both the reason for not adopting the parent-selected option and for adopting the district's preferred option. The option selected by the district school board is final.

Turnaround Schools

A school that improves by a letter grade is no longer subject to implementing the turnaround option, in accordance with s. 1008.33(4)(d), F.S.

Classroom Teachers

The notification provided to a parent of a student who is assigned to an out-of-field teacher would also inform him or her of the availability of a virtual teacher who received an annual performance evaluation rating of "effective" or "highly effective". Additionally, school districts would be permitted to reimburse a classroom teacher for certification fees incurred when he or she is assigned to teach out-of-field.

The bill prohibits the assignment of a student in consecutive school years to an elementary school classroom teacher who receives an evaluation of "unsatisfactory" or "needs improvement". Similarly, the bill prohibits the assignment of a student in consecutive school years to a middle or high school classroom teacher of the same subject who received an evaluation of "unsatisfactory" or "needs improvement". A parent would be allowed to choose to have a student taught by a teacher who received an evaluation of "unsatisfactory" or "needs improvement", if the student and parent are informed about the impact of teacher effectiveness on student learning and written parental consent is provided. This would only apply to teachers who teach extracurricular courses (e.g., physical education, fine arts, performing fine arts, career education, and courses that may result in college credit).

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations Committee on April 23, 2013:

- Removes the requirement for school districts to provide parents, upon request, with personnel evaluations of classroom teachers and administrators;
- Clarifies that parents of students who are assigned to an "F" school that is subject to selecting a turnaround option may participate in the determination of a school turnaround option;
- Removes the requirement that a school board must submit to the State Board of Education for final determination, the parent-selected option, along with a school board option, if the school board fails to adopt a parent-selected option;
- Removes the requirement that a school board must submit to the State Board of Education a plan to implement the parent-selected option, if the State Board determines that the parent-selected option is more likely to improve the academic performance of the students at the school;
- Requires the school board to provide a report that explains in detail both the reason for not adopting the parent-selected option and for adopting the district's preferred option, if the school board fails to adopt a parent-selected option;
- Provides that the turnaround option selected by the school board is final;
- Provides that a school that improves by one letter grade is no longer subject to implementing the turnaround option;
    - An elementary school classroom teacher who received an evaluation of "unsatisfactory" or "needs improvement"; or
    - A middle or high school classroom teacher of the same subject who received an evaluation of "unsatisfactory" or "needs improvement"; and
- Allows a parent to choose to have a student taught by a teacher who received an evaluation of "unsatisfactory" or "needs improvement" and who teaches an extracurricular course, if the parent provides written consent.

B. Amendments:

None.

By Senator Stargel

15-00412A-13 2013862__

A bill to be entitled

An act relating to parent empowerment in education; amending s. 1001.10, F.S.; conforming a cross-reference; amending s. 1002.20, F.S.; providing that parents who have a student in a public school that is implementing a turnaround option may petition to have a particular turnaround option implemented; requiring the school district to give parents of public school students, upon request, a performance evaluation for each classroom teacher assigned to their child; requiring the school district to notify parents of a public school student being taught by an out-of-field teacher or by a teacher with an unsatisfactory performance rating; specifying requirements for the notice; amending s. 1002.32, F.S.; conforming a cross-reference; amending s. 1002.33, F.S.; requiring a charter school to comply with certain procedures for the assignment of teachers; creating s. 1003.07, F.S.; creating the Parent Empowerment Act; specifying what constitutes an eligible student and a parental vote; requiring that a school district send a written notice to parents of public school students regarding the parents' options to petition the school for a particular turnaround option; requiring the notice to include certain information; authorizing up to one parental vote per eligible student; establishing the process to solicit signatures for a petition; prohibiting a person from being paid for signatures; prohibiting a for-profit corporation, business, or

Florida Senate - 2013 **(Corrected Copy)** **SB 862**

15-00412A-13 2013862__

entity from soliciting signatures or paying a person to solicit signatures; establishing criteria to verify the signatures on a petition; requiring the State Board of Education to adopt rules for filing a petition; specifying that a petition is valid if it is signed and dated by a majority of the parents of eligible students and those signatures are verified; requiring the school district to consider the turnaround option on the valid petition with the most signatures at a publicly noticed school board meeting; requiring the school district to submit an implementation plan to the state board; amending s. 1008.33, F.S.; authorizing a parent to petition the school district to implement a turnaround option selected by the parent; amending s. 1012.2315, F.S.; providing for assistance to teachers teaching out-of-field; requiring the school district to notify parents and inform them of their options if a student is being taught by an out-of-field teacher; requiring the school district to give to a parent a teacher's performance evaluation upon request; providing that a student may not be assigned to an unsatisfactory teacher in a single subject for two consecutive school years; repealing s. 1012.42, F.S., relating to teachers who are teaching out-of-field; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Section 1. Subsection (3) of section 1001.10, Florida Statutes, is amended to read:

1001.10 Commissioner of Education; general powers and duties.—

(3) To facilitate innovative practices and ~~to allow~~ local selection of educational methods, the State Board of Education may authorize the commissioner to waive, upon the request of a district school board, rules of the State Board of Education relating ~~rules that relate~~ to ~~district~~ school instruction and ~~school~~ operations, except those rules pertaining to civil rights, and student health, safety, and welfare. The commissioner ~~of Education~~ is not authorized to grant waivers for any provisions in rule pertaining to the allocation and appropriation of state and local funds for public education; the election, compensation, and organization of school board members and superintendents; graduation and state accountability standards; financial reporting requirements; reporting of out-of-field teaching assignments under s. 1012.2315 ~~s. 1012.42~~; public meetings; public records; or due process hearings governed by chapter 120. No later than January 1 of each year, the commissioner shall report to the Legislature and the State Board of Education all approved waiver requests in the preceding year.

Section 2. Paragraph (d) is added to subsection (21) of section 1002.20, Florida Statutes, and subsections (25) and (26) are added to that section, to read:

1002.20 K-12 student and parent rights.—Parents of public school students must receive accurate and timely information regarding their child's academic progress and must be informed

of ways they can help their child to succeed in school. K-12 students and their parents are afforded numerous statutory rights including, but not limited to, the following:

(21) PARENTAL INPUT AND MEETINGS.—

(d) *Parent empowerment.*—Parents of students who are assigned to a public school that is required to implement a turnaround option pursuant to s. 1008.33 may submit a petition to the school district requesting implementation of a turnaround option pursuant to s. 1003.07.

(25) PERSONNEL EVALUATION REPORTS.—Upon request by the parent of a public school student, the school district shall provide the parent with a performance evaluation for each classroom teacher assigned to his or her child.

(26) ASSIGNMENT TO TEACHERS.—

(a) *Out-of-field classroom teachers.*—Each school district shall annually notify the parent of a public school student who is assigned to a classroom teacher teaching out-of-field. The notice must inform the parent that virtual instruction from a certified in-field teacher having an annual performance evaluation rating of "effective" or "highly effective" is available pursuant to s. 1012.2315(5).

(b) *Underperforming classroom teachers.*—Each school district shall annually notify the parent of a public school student assigned to a classroom teacher or school administrator who, under s. 1012.34, has two consecutive annual performance evaluation ratings of "unsatisfactory," two annual performance evaluation ratings of "unsatisfactory within a 3-year period," or three consecutive annual performance evaluation ratings of "needs improvement" or a combination of "needs improvement" and

"unsatisfactory." The notice must inform the parent that virtual instruction from a teacher who has an annual performance evaluation rating of "effective" or "highly effective" is available pursuant to s. 1012.2315(7).

Section 3. Paragraph (c) of subsection (7) of section 1002.32, Florida Statutes, is amended to read:

1002.32 Developmental research (laboratory) schools.—

(7) PERSONNEL.—

(c) Lab school faculty members shall meet the certification requirements of s. 1012.32 ~~ss. 1012.32 and 1012.42~~.

Section 4. Paragraph (b) of subsection (16) of section 1002.33, Florida Statutes, is amended to read:

1002.33 Charter schools.—

(16) EXEMPTION FROM STATUTES.—

(b) Additionally, a charter school shall comply ~~be in compliance~~ with the following statutes:

1. Section 286.011, relating to public meetings and records, public inspection, and criminal and civil penalties.

2. Chapter 119, relating to public records.

3. Section 1003.03, relating to the maximum class size, except that the calculation for compliance pursuant to s. 1003.03 must ~~shall~~ be the average at the school level.

4. Section 1012.22(1)(c), relating to compensation and salary schedules.

5. Section 1012.33(5), relating to workforce reductions.

6. Section 1012.335, relating to contracts with instructional personnel hired on or after July 1, 2011.

7. Section 1012.34, relating to the substantive requirements for performance evaluations for instructional

personnel and school administrators.

8. Section 1012.2315(5) and (7), relating to the assignment of teachers and notification to parents.

Section 5. Section 1003.07, Florida Statutes, is created to read:

1003.07 Parent empowerment.—

(1) This section may be cited as the "Parent Empowerment Act."

(2) As used in this section, the term:

(a) "Eligible student" means a student enrolled in a school in which a turnaround option will be implemented or a student who, under the school district's enrollment policy, is scheduled for assignment to that school the following school year. A student who is graduating or being promoted out of a school that is eligible for a turnaround option and who will not be enrolled in that school the following school year is not an eligible student.

(b) "Parental vote" means the signature of one parent of an eligible student.

1. If the other parent objects in writing to the parental vote before the date the petition is scheduled to be submitted, and if the parents have equal parental rights, the parental vote counts for one-half of a vote.

2. If one parent has sole parental responsibility or holds the right to make educational decisions for the student pursuant to s. 61.13, only that parent can vote regarding the eligible student.

(3) Each school district shall notify, in writing, the parents of eligible students and the school advisory council

when a public school has been unable to improve performance and is required to implement a turnaround option pursuant to s. 1008.33. The written notice must inform parents that, before the district school board selects a turnaround option, parents may petition for implementation of a particular turnaround option by the school the following school year. The notice must be provided to parents within 30 calendar days after the school district receives notice from the department that the school is required to implement a turnaround option. The notice must include:

(a) A description of each turnaround option available for selection under s. 1008.33;

(b) A description of the process for implementing a turnaround option, including the date by which the school district must submit its implementation plan to the State Board of Education;

(c) The date and location for submission of the petition;

(d) The date and location of the publicly noticed district school board meeting required in this section at which the school board will consider the available turnaround options; and

(e) The contact information of the district school board.

(4) A person who solicits signatures may not offer monetary compensation, a promise of employment, or any other reward to a parent for signing a petition. A person who solicits signatures may not be paid per signature and, if asked, must disclose the organization he or she represents. A for-profit corporation, business, or entity is prohibited from gathering signatures or paying others to solicit signatures.

(5) The State Board of Education shall adopt rules to

establish a petition format, the petition submission process, standards for verifying signatures, and timeframes for the verification and consideration of a petition at a publicly noticed meeting. Petition forms must be easily accessible to parents. Each petition form must clearly identify only one turnaround option on the front page of the petition and on each page thereafter. The school district shall provide clear instructions and a sample petition form for each turnaround option available for selection under s. 1008.33.

(6) The petition process must provide that:

(a) Parents of eligible students have at least 30 days after initial notification to gather petition signatures.

(b) The school district shall verify signatures no more than 30 days after the date the petition is submitted.

(c) The district school board may not meet sooner than 30 days after the petition is submitted.

(d) A submitted petition may list only one turnaround option identified in s. 1008.33 which is not currently being implemented at the school. A parent may sign more than one petition for a turnaround option.

(e) A parent signature constitutes a certification that the parent has a present intention to enroll his or her child, who must be identified on the petition, if the turnaround option identified on the petition is selected. A school district may not reject a parent’s signature on a petition on the basis that the parent signed the petition before the initial notice.

(f) The school district shall verify at least a majority of the signatures on the petition using existing student enrollment documentation or other records containing parent signatures. A

school district may not reject a parent's signature on a petition based on a lack of conformity to signatures in school records if the parent's identity and signature can be easily validated with a photographic identification or a notarized signature verifying the identity of the signer, or by the personal knowledge of a school employee. The school district is not required to verify notarized signatures, and signatures verified outside an established verification period are valid.

(g) For a petition to be valid, it must bear the dated signatures of a majority of the parents of eligible students. For purposes of this section, a majority is more than one-half of the parents who are eligible to sign the petition. Only one parental vote per eligible student may be counted with respect to each petition.

(h) If valid petitions for more than one turnaround option are submitted, the petition having the most signatures is the official turnaround option selected by parents.

(7) The turnaround option selected by parents must be considered for implementation by the school district at a publicly noticed district school board meeting. The district school board may adopt the turnaround option selected by parents or a different turnaround option selected by the district school board. Pursuant to s. 1008.33, an implementation plan for the adopted turnaround option must be submitted to the state board.

(a) If the district school board adopts a turnaround option that is different from the turnaround option selected by parents, it shall identify with its submission the turnaround option selected by parents.

(b) If the state board determines that the turnaround

option selected by parents is more likely to improve the academic performance of students at the school, the district school board shall submit to the state board an implementation plan for the turnaround option selected by parents.

Section 6. Subsection (4) of section 1008.33, Florida Statutes, is amended to read:

1008.33 Authority to enforce public school improvement.—

(4)(a) The state board shall apply the most intense intervention and support strategies to schools earning a grade of "F." In the first full school year after a school initially earns a grade of "F," the school district must implement intervention and support strategies prescribed in rule under paragraph (3)(c), select a turnaround option from those provided in subparagraphs (b)1.-5., and submit a plan for implementing the turnaround option to the department for approval by the state board. Upon approval by the state board, the turnaround option must be implemented in the following school year.

(b) Except as provided in subsection (5), the turnaround options available to a school district to address a school that earns a grade of "F" are:

1. Convert the school to a district-managed turnaround school;

2. Reassign students to another school and monitor the progress of each reassigned student;

3. Close the school and reopen the school as one or more charter schools, each with a governing board that has a demonstrated record of effectiveness;

4. Contract with an outside entity that has a demonstrated record of effectiveness to operate the school; or

5. Implement a hybrid of turnaround options set forth in subparagraphs 1.-4. or other turnaround models that have a demonstrated record of effectiveness.

(c) Parents of students who are assigned to a public school that is required by the State Board of Education to implement a turnaround option may petition the school district to implement one of the turnaround options in paragraph (b) selected by the parents pursuant to s. 1003.07.

(d) ~~(c)~~ Except for schools required to implement a turnaround option pursuant to subsection (5), a school earning a grade of "F" shall have a planning year followed by 2 full school years to implement the initial turnaround option selected by the school district and approved by the state board. Implementation of the turnaround option is no longer required if the school improves by at least one letter grade.

(e) ~~(d)~~ A school earning a grade of "F" that improves its letter grade must continue to implement strategies identified in its school improvement plan pursuant to s. 1001.42(18)(a). The department must annually review implementation of the school improvement plan for 3 years to monitor the school's continued improvement.

(f) ~~(c)~~ If a school earning a grade of "F" does not improve by at least one letter grade after 2 full school years of implementing the turnaround option selected by the school district under paragraph (b), the school district must select a different option and submit another implementation plan to the department for approval by the state board. Implementation of the approved plan must begin the school year following the implementation period of the existing turnaround option, unless

the state board determines that the school is likely to improve a letter grade if additional time is provided to implement the existing turnaround option.

Section 7. Section 1012.2315, Florida Statutes, is amended to read:

1012.2315 Assignment of teachers.—

(1) LEGISLATIVE FINDINGS AND INTENT.—The Legislature finds disparities between teachers assigned to teach in a majority of schools that do not need improvement and schools that do need improvement pursuant to s. 1008.33. The disparities may be found in the assignment of temporarily certified teachers, teachers in need of improvement, and out-of-field teachers and in the performance of the students. It is the intent of the Legislature that district school boards have flexibility through the collective bargaining process to assign teachers more equitably across the schools in the district.

(2) ASSIGNMENT TO SCHOOLS GRADED "D" or "F".—School districts may not assign a higher percentage than the school district average of temporarily certified teachers, teachers in need of improvement, or out-of-field teachers to schools graded "D" or "F" pursuant to s. 1008.34. Each school district shall annually certify to the commissioner ~~of Education~~ that this requirement has been met. If the commissioner determines that a school district is not in compliance with this subsection, the State Board of Education must ~~shall~~ be notified and shall take action pursuant to s. 1008.32 in the next regularly scheduled meeting to require compliance.

(3) SALARY INCENTIVES.—District school boards may ~~are authorized to~~ provide salary incentives to meet the requirement

of subsection (2). A district school board may not sign a collective bargaining agreement that precludes the school district from providing sufficient incentives to meet this requirement.

(4) COLLECTIVE BARGAINING.—Notwithstanding provisions of chapter 447 relating to district school board collective bargaining, collective bargaining provisions may not preclude a school district from providing incentives to high-quality teachers and assigning such teachers to low-performing schools.

(5) ASSISTANCE TO OUT-OF-FIELD TEACHERS.—

(a) Each district school board shall adopt rules for administering an assistance plan for each classroom teacher who is teaching out-of-field. The assistance plan must provide teachers who are teaching out-of-field with priority consideration in professional development activities and require such teachers to participate in a certification or staff development program that provides the competencies required for the assigned duties. A school district may reimburse a teacher who is teaching out-of-field for a certification fee. The assistance plan must also include duties of administrative personnel and other instructional personnel for assisting a teacher who is teaching out-of-field.

(b) The school district shall annually notify the parent of a student who is assigned to a classroom teacher teaching a subject matter that is:

1. Outside the field in which the teacher is certified;

2. Outside the field that was the teacher's minor field of study; or

3. Outside the field in which the teacher has demonstrated

sufficient subject area expertise, as determined by district school board policy, in the subject area to be taught.

The notice must inform the parent that virtual instruction from a certified in-field teacher who has an annual performance evaluation rating of "effective" or "highly effective" under s. 1012.34 is available to his or her child through the virtual instruction options specified in s. 1002.321(4).

(6) ~~(5)~~ REPORT.—

~~(a)~~ By July 1, 2012, the department ~~of Education~~ shall annually report on its website, in a manner that is accessible to the public, the performance rating data reported by district school boards under s. 1012.34. The report must include the percentage of classroom teachers, instructional personnel, and school administrators receiving each performance rating aggregated by school district and by school.

(7) ASSIGNMENT OF TEACHERS BASED UPON PERFORMANCE EVALUATIONS.—

(a) ~~(b)~~ Notwithstanding ~~the provisions of~~ s. 1012.31(3)(a)2., each school district shall annually notify ~~report to~~ the parent of a ~~any~~ student who is assigned to a classroom teacher or school administrator having two consecutive annual performance evaluation ratings of "unsatisfactory" under s. 1012.34, two annual performance evaluation ratings of unsatisfactory within a 3-year period under s. 1012.34, or three consecutive annual performance evaluation ratings of "needs improvement" or a combination of "needs improvement" and "unsatisfactory" under s. 1012.34. The notice must inform the parent that virtual instruction from a teacher having a

performance evaluation rating of "highly effective" or "effective" under s. 1012.34 is available to his or her child through the virtual instruction options specified in s. 1002.321(4).

(b) Upon request by the parent of a public school student, the school district shall provide the parent with a performance evaluation for each classroom teacher assigned to his or her child, pursuant to s. 1012.31.

(c) If a student is currently taught by a classroom teacher who, during that school year, receives a performance evaluation rating of "needs improvement" or "unsatisfactory" under s. 1012.34, the student may not be assigned the following school year to a classroom teacher in the same subject area who received a performance evaluation rating of "needs improvement" or "unsatisfactory" in the preceding school year.

Section 8. Section 1012.42, Florida Statutes, is repealed.

Section 9. This act shall take effect July 1, 2013.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 896 (856836)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Health and Human Services); Health Policy Committee; and Senators Garcia and Flores
SUBJECT:	Prepaid Dental Plans
DATE:	April 21, 2013 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Lloyd	Stovall	HP	**Fav/CS**
2.	Brown	Pigott	AHS	**Fav/CS**
3.	Brown	Hansen	AP	**Pre-meeting**
4.				
5.				
6.				

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

PCS/CS/SB 896 postpones the scheduled repeal of a provision that requires the Agency for Health Care Administration (AHCA) to contract separately with prepaid dental health plans on a prepaid or fixed-sum basis for Medicaid recipients. The bill requires the AHCA to contract with such prepaid dental health plans notwithstanding certain other statutory provisions. The bill also authorizes the AHCA to provide a Medicaid prepaid dental program in Miami-Dade County on a permanent basis. Provisions requiring the AHCA to allow other qualified dental providers to participate in the Medicaid dental program on a fee-for-service basis are deleted.

The bill also requires the AHCA to provide an annual report to the governor and Legislature that compares utilization, benefit, and cost data from Medicaid dental contractors, as well as reports on compliance and access to care for the state's overall Medicaid dental population.

The bill has an indeterminate fiscal impact.

The bill has an effective date of June 30, 2013.

This bill substantially amends section 409.912, Florida Statutes.

II. Present Situation:

Medicaid is a joint federal and state funded program that provides health care for low income Floridians. The program is administered by the AHCA and financed with federal and state funds. Over 3.3 million Floridians are currently enrolled in Medicaid and the program is expected to have more than $22 billion in expenditures for Fiscal Year 2012-2013.[1] The statutory authority for the Medicaid program is contained in ch. 409, F.S.

Federal law establishes the minimum benefit levels to be covered in order to receive federal matching funds. Benefit requirements can vary by eligibility category. For example, more benefits are required for children than for the adult population. Florida's mandatory and optional benefits are prescribed in state law under ss. 409.905, and 409.906 F.S., respectively.

Florida Medicaid recipients receive their benefits through a number of different delivery systems. Florida has at least 15 different managed care models,[2] including the model being used for the delivery of dental services, licensed, prepaid dental health plans (PDHP). The PDHPs are classified as prepaid ambulatory health plans by 42 CFR Part 438.[3]

Prepaid Dental Health Plans and Florida Medicaid

Proviso language in the 2001-2002 General Appropriations Act (GAA) authorized the AHCA to initiate a PDHP pilot program in Miami-Dade County.[4] The 2003 Legislature authorized the AHCA to contract on prepaid or fixed sum basis for dental services for Medicaid-eligible recipients using PDHPs.[5] Through a competitive process, the AHCA executed its first PDHP contract in 2004 to serve children under age 21 in Miami-Dade County.[6] Comprehensive dental benefit coverage is a mandatory Medicaid service only for children in Florida. The PDHPs are paid on a capitated basis for all covered dental services, meaning that the plans receive a single rate per individual member for all dental costs associated with that member. Currently, two PDHPs serve Medicaid members in Miami-Dade County.[7]

The Legislature included proviso in the 2010-2011 GAA authorizing the AHCA to contract by competitive procurement with one or more prepaid dental plans on a regional or statewide basis for a period not to exceed two years, in all counties except Miami-Dade, under a fee-for-service

[7] Ibid.

or managed care delivery system.[8] The AHCA did not procure contracts under the 2010-2011 proviso. In the 2011-2012 GAA, similar proviso language was included to require such a competitive procurement.

The Legislature passed proviso in the 2012-2013 GAA requiring that, for all counties other than Miami-Dade, the AHCA could not limit Medicaid dental services to prepaid plans and must allow qualified dental providers to provide dental services on a fee-for-service basis. Language to that effect was also passed in the 2012-2013 appropriations implementing bill, which included additional language directing the AHCA to terminate existing contracts as needed. The implementing bill provisions have a sunset date of July 1, 2013.

According to the AHCA website, two vendors were selected for the statewide program and it has been implemented statewide[9] as of December 1, 2012. Under the statewide program, Medicaid recipients may select one of the two PDHPs in their county or opt-out and receive their dental care through Medicaid fee-for-service providers.[10]

Statewide Medicaid Managed Care

In 2011, the Legislature also passed HB 7107[11] creating the Statewide Medicaid Managed Care (SMMC) program as part IV of ch. 409, F.S. SMMC requires the AHCA to create an integrated managed care program for Medicaid enrollees that incorporates all of the minimum benefits, for the delivery of primary and acute care, including dental.[12] Instead of being delivered as a separate benefit under a separate contract, dental services are to be incorporated by and be the responsibility of a managed care organization. Medicaid recipients who are enrolled in the SMMC program will receive their dental services through the fully integrated managed care plans as the program is implemented.[13]

The AHCA began implementing the SMMC in January 2012 and recently released an Invitation to Negotiate (ITN) to competitively procure managed care plans on a statewide basis. Plans can supplement the minimum benefits in their bids and offer enhanced options.[14] Statewide implementation of SMMC is expected to be completed by October 1, 2014. Final approval of the necessary Medicaid waiver by the federal government has not yet been received; however on February 20, 2013, the AHCA and the federal Centers for Medicare and Medicaid Services reached an "Agreement in Principle" on the proposed plan.[15] The integrated Medicaid plans

[8] *See* Specific Proviso 204, General Appropriations Act 2010-2011 (Conference Report on HB 5001).
[9] Six counties were excluded from the statewide roll-out. Miami-Dade was excluded because of the prepaid dental program that has been in place there since 2004. Baker, Broward, Clay, Duval, and Nassau counties were excluded because the Medicaid Reform Pilot Project has been implemented in those counties since 2006, which requires most Medicaid recipients to enroll in managed care plans that provide dental care as a covered service.

would cover both children and adults. The current dental plan contracts held by the AHCA cover only Medicaid recipients under age 21.

III. Effect of Proposed Changes:

Section 1 amends s. 409.912, F.S., relating to the cost effective purchasing of health care under the Medicaid program. The bill postpones the scheduled repeal of the provision that currently requires the AHCA to contract on a fixed-sum or prepaid basis with licensed prepaid dental health plans to provide dental services to Medicaid recipients. The modification extends the repeal date from October 1, 2014, to October 1, 2017.

The bill provides that the AHCA is required to contract with such prepaid dental health plans notwithstanding the provisions of s. 409.961, F.S. The referenced statute requires that provisions of part IV of ch. 409, F.S., shall control if a conflict exists between part IV and the other parts of ch. 409. Part IV creates the SMMC program, which requires the AHCA to contract with managed care plans for comprehensive health care services, including dental services.

The bill also deletes the current-law provision authorizing the AHCA to provide a Medicaid prepaid dental program in Miami-Dade County only during the 2012-2013 fiscal year, meaning that the AHCA will be authorized to provide the current program in Miami-Dade County in perpetuity.

The provision requiring a fee-for-service option for dental benefits – scheduled to sunset on July 1, 2013 – is deleted.

The AHCA is directed to provide the governor, president of the Senate, and speaker of the House of Representatives with a report that compares benefits, utilization, and costs of the contracted dental plans and the extent to which the prepaid plans are in compliance with their contract terms, including statistical trends with indicators of good oral health, in comparison to the overall Medicaid dental population. The report is due by January 15 each year.

Section 2 provides an effective date of June 30, 2013.

Other Potential Implications:

The AHCA analysis of the bill indicates that if the sunset provision is removed or postponed and results in changes to dental service delivery under SMMC, there is the possibility of a protest under the Managed Medical Assistance ITN procurement that is currently underway. Dental services are currently incorporated in that ITN.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The bill has limited private sector impact. The bill deletes a provision that will sunset July 1, 2013, relating to the fee-for-service reimbursement and extends the authorization of separate PDHP contracts to from October 1, 2014, to October 1, 2017. These contracts cover the same benefits that will be incorporated through those being procured now under the SMMC program. The proposed contract extension period overlaps with those SMMC contracts.

C. Government Sector Impact:

The bill's fiscal impact is indeterminate because it is impossible to know whether directing the AHCA to continue with the statewide prepaid dental program until October 1, 2017, and authorizing the continuation of prepaid dental in Miami-Dade County in perpetuity, might result in more or less cost to the state than the costs that will be incurred for dental services under the SMMC program.

VI. Technical Deficiencies:

None.

VII. Related Issues:

The AHCA has released an ITN covering all Medicaid services as part of the SMMC. This ITN includes dental services as part of those comprehensive medical services and requires the managed care organizations to cover all benefits. Extending the time frame for the existing prepaid dental health plan contracts for Medicaid enrollees under the age of 21 would overlap with the dental services proposed under that procurement document.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Health and Human Services on April 17, 2013:
The committee substitute provides that the AHCA is required to contract on a fixed-sum or prepaid basis with licensed prepaid dental health plans to provide dental services to Medicaid recipients notwithstanding the provisions of s. 409.961, F.S.

CS by Health Policy on March 14, 2013:
CS for SB 896 adds a requirement directing AHCA to provide the Governor, President of the Senate and Speaker of the House of Representatives with a report that compares benefits, utilization and costs of the contracted dental plans and the extent to which the prepaid plans are in compliance with their contract terms, including statistical trends with indicators of good oral health, in comparison to the overall Medicaid dental population. The report is due by January 15, each year. (WITH TITLE AMENDMENT)

B. Amendments:

None.

	.	

The Committee on Appropriations (Hays) recommended the following:

Senate Amendment (with title amendment)

Between lines 104 and 105
insert:

Section 2. Section 627.6474, Florida Statutes, is amended to read:

627.6474 Provider contracts.—

(1) A health insurer may ~~shall~~ not require a contracted health care practitioner as defined in s. 456.001(4) to accept the terms of other health care practitioner contracts with the insurer or any other insurer, or health maintenance organization, under common management and control with the

297676

insurer, including Medicare and Medicaid practitioner contracts and those authorized by s. 627.6471, s. 627.6472, s. 636.035, or s. 641.315, except for a practitioner in a group practice as defined in s. 456.053 who must accept the terms of a contract negotiated for the practitioner by the group, as a condition of continuation or renewal of the contract. Any contract provision that violates this section is void. A violation of this subsection ~~section~~ is not subject to the criminal penalty specified in s. 624.15.

(2)(a) A contract between a health insurer and a dentist licensed under chapter 466 for the provision of services to an insured may not contain any provision that requires the dentist to provide services to the insured under such contract at a fee set by the health insurer unless such services are covered services under the applicable contract.

(b) Covered services are those services that are listed as a benefit that the insured is entitled to receive under the contract. An insurer may not provide merely de minimis reimbursement or coverage in order to avoid the requirements of this section. Fees for covered services shall be set in good faith and must not be nominal.

(c) A health insurer may not require as a condition of the contract that the dentist participate in a discount medical plan under part II of chapter 636.

Section 3. Subsection (13) is added to section 636.035, Florida Statutes, to read:

636.035 Provider arrangements.—

(13)(a) A contract between a prepaid limited health service organization and a dentist licensed under chapter 466 for the

provision of services to a subscriber of the prepaid limited health service organization may not contain any provision that requires the dentist to provide services to the subscriber of the prepaid limited health service organization at a fee set by the prepaid limited health service organization unless such services are covered services under the applicable contract.

(b) Covered services are those services that are listed as a benefit that the subscriber is entitled to receive under the contract. A prepaid limited health service organization may not provide merely de minimis reimbursement or coverage in order to avoid the requirements of this section. Fees for covered services shall be set in good faith and must not be nominal.

(c) A prepaid limited health service organization may not require as a condition of the contract that the dentist participate in a discount medical plan under part II of this chapter.

Section 4. Subsection (11) is added to section 641.315, Florida Statutes, to read:

641.315 Provider contracts.—

(11)(a) A contract between a health maintenance organization and a dentist licensed under chapter 466 for the provision of services to a subscriber of the health maintenance organization may not contain any provision that requires the dentist to provide services to the subscriber of the health maintenance organization at a fee set by the health maintenance organization unless such services are covered services under the applicable contract.

(b) Covered services are those services that are listed as a benefit that the subscriber is entitled to receive under the

297676

contract. A health maintenance organization may not provide merely de minimis reimbursement or coverage in order to avoid the requirements of this section. Fees for covered services shall be set in good faith and must not be nominal.

(c) A health maintenance organization may not require as a condition of the contract that the dentist participate in a discount medical plan under part II of chapter 636.

Section 5. Paragraph (a) of subsection (3) of section 766.1115, Florida Statutes, is amended, and paragraph (h) is added to subsection (4) of that section, to read:

766.1115 Health care providers; creation of agency relationship with governmental contractors.—

(3) DEFINITIONS.—As used in this section, the term:

(a) "Contract" means an agreement executed in compliance with this section between a health care provider and a governmental contractor which allows~~. This contract shall allow~~ the health care provider to deliver health care services to low-income recipients as an agent of the governmental contractor. The contract must be for volunteer, uncompensated services. For services to qualify as volunteer, uncompensated services under this section, the health care provider must receive no compensation from the governmental contractor for ~~any~~ services provided under the contract and must not bill or accept compensation from the recipient, or a ~~any~~ public or private third-party payor, for the specific services provided to the low-income recipients covered by the contract.

(4) CONTRACT REQUIREMENTS.—A health care provider that executes a contract with a governmental contractor to deliver health care services on or after April 17, 1992, as an agent of

the governmental contractor is an agent for purposes of s. 768.28(9), while acting within the scope of duties under the contract, if the contract complies with the requirements of this section and regardless of whether the individual treated is later found to be ineligible. A health care provider under contract with the state may not be named as a defendant in any action arising out of medical care or treatment provided on or after April 17, 1992, under contracts entered into under this section. The contract must provide that:

(h) As an agent of the governmental contractor for purposes of s. 768.28(9), while acting within the scope of duties under the contract, a health care provider licensed under chapter 466 may allow a patient or a parent or guardian of the patient to voluntarily contribute a fee to cover costs of dental laboratory work related to the services provided to the patient. This contribution may not exceed the actual cost of the dental laboratory charges and is deemed in compliance with this section.

A governmental contractor that is also a health care provider is not required to enter into a contract under this section with respect to the health care services delivered by its employees.

Section 6. The amendments to ss. 627.6474, 636.035, and 641.315, Florida Statutes, apply to contracts entered into or renewed on or after July 1, 2013.

and insert:

Legislature; amending s. 627.6474, F.S.; prohibiting a contract between a health insurer and a dentist from requiring the dentist to provide services at a fee set by the insurer under certain circumstances; providing that covered services are those services listed as a benefit that the insured is entitled to receive under a contract; prohibiting an insurer from providing merely de minimis reimbursement or coverage; requiring that fees for covered services be set in good faith and not be nominal; prohibiting a health insurer from requiring as a condition of a contract that a dentist participate in a discount medical plan; amending s. 636.035, F.S.; prohibiting a contract between a prepaid limited health service organization and a dentist from requiring the dentist to provide services at a fee set by the organization under certain circumstances; providing that covered services are those services listed as a benefit that a subscriber of a prepaid limited health service organization is entitled to receive under a contract; prohibiting a prepaid limited health service organization from providing merely de minimis reimbursement or coverage; requiring that fees for covered services be set in good faith and not be nominal; prohibiting the prepaid limited health service organization from requiring as a condition of a contract that a dentist participate in a discount medical plan; amending s. 641.315, F.S.; prohibiting a contract between a health maintenance

organization and a dentist from requiring the dentist to provide services at a fee set by the organization under certain circumstances; providing that covered services are those services listed as a benefit that a subscriber of a health maintenance organization is entitled to receive under a contract; prohibiting a health maintenance organization from providing merely de minimis reimbursement or coverage; requiring that fees for covered services be set in good faith and not be nominal; prohibiting the health maintenance organization from requiring as a condition of a contract that a dentist participate in a discount medical plan; amending s. 766.1115, F.S.; revising a definition; requiring a contract with a governmental contractor for health care services to include a provision for a health care provider licensed under ch. 466, F.S., as an agent of the governmental contractor, to allow a patient or a parent or guardian of the patient to voluntarily contribute a fee to cover costs of dental laboratory work related to the services provided to the patient without forfeiting sovereign immunity; prohibiting the contribution from exceeding the actual amount of the dental laboratory charges; providing that the contribution complies with the requirements of s. 766.1115, F.S.; providing for applicability; providing an effective date.

856836

576-04560-13

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Health and Human Services)

A bill to be entitled

An act relating to prepaid dental plans; amending s. 409.912, F.S.; postponing the scheduled repeal of a provision requiring the Agency for Health Care Administration to contract with dental plans for dental services on a prepaid or fixed-sum basis; authorizing the agency to provide a prepaid dental health program in Miami-Dade County on a permanent basis; requiring an annual report to the Governor and Legislature; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (41) of section 409.912, Florida Statutes, is amended to read:

409.912 Cost-effective purchasing of health care.—The agency shall purchase goods and services for Medicaid recipients in the most cost-effective manner consistent with the delivery of quality medical care. To ensure that medical services are effectively utilized, the agency may, in any case, require a confirmation or second physician's opinion of the correct diagnosis for purposes of authorizing future services under the Medicaid program. This section does not restrict access to emergency services or poststabilization care services as defined in 42 C.F.R. part 438.114. Such confirmation or second opinion shall be rendered in a manner approved by the agency. The agency shall maximize the use of prepaid per capita and prepaid

856836

576-04560-13

aggregate fixed-sum basis services when appropriate and other alternative service delivery and reimbursement methodologies, including competitive bidding pursuant to s. 287.057, designed to facilitate the cost-effective purchase of a case-managed continuum of care. The agency shall also require providers to minimize the exposure of recipients to the need for acute inpatient, custodial, and other institutional care and the inappropriate or unnecessary use of high-cost services. The agency shall contract with a vendor to monitor and evaluate the clinical practice patterns of providers in order to identify trends that are outside the normal practice patterns of a provider's professional peers or the national guidelines of a provider's professional association. The vendor must be able to provide information and counseling to a provider whose practice patterns are outside the norms, in consultation with the agency, to improve patient care and reduce inappropriate utilization. The agency may mandate prior authorization, drug therapy management, or disease management participation for certain populations of Medicaid beneficiaries, certain drug classes, or particular drugs to prevent fraud, abuse, overuse, and possible dangerous drug interactions. The Pharmaceutical and Therapeutics Committee shall make recommendations to the agency on drugs for which prior authorization is required. The agency shall inform the Pharmaceutical and Therapeutics Committee of its decisions regarding drugs subject to prior authorization. The agency is authorized to limit the entities it contracts with or enrolls as Medicaid providers by developing a provider network through provider credentialing. The agency may competitively bid single-source-provider contracts if procurement of goods or services

856836

576-04560-13

results in demonstrated cost savings to the state without limiting access to care. The agency may limit its network based on the assessment of beneficiary access to care, provider availability, provider quality standards, time and distance standards for access to care, the cultural competence of the provider network, demographic characteristics of Medicaid beneficiaries, practice and provider-to-beneficiary standards, appointment wait times, beneficiary use of services, provider turnover, provider profiling, provider licensure history, previous program integrity investigations and findings, peer review, provider Medicaid policy and billing compliance records, clinical and medical record audits, and other factors. Providers are not entitled to enrollment in the Medicaid provider network. The agency shall determine instances in which allowing Medicaid beneficiaries to purchase durable medical equipment and other goods is less expensive to the Medicaid program than long-term rental of the equipment or goods. The agency may establish rules to facilitate purchases in lieu of long-term rentals in order to protect against fraud and abuse in the Medicaid program as defined in s. 409.913. The agency may seek federal waivers necessary to administer these policies.

(41)(a) Notwithstanding s. 409.961, the agency shall contract on a prepaid or fixed-sum basis with appropriately licensed prepaid dental health plans to provide dental services. This paragraph expires October 1, 2017 ~~2014~~.

(b) Notwithstanding paragraph (a) ~~and for the 2012-2013 fiscal year only~~, the agency is authorized to provide a Medicaid prepaid dental health program in Miami-Dade County. The agency shall provide an annual report by January 15 to the Governor,

856836

576-04560-13

the President of the Senate, and the Speaker of the House of Representatives which compares the combined reported annual benefits utilization and encounter data from all contractors, along with the agency's findings as to projected and budgeted annual program costs, the extent to which each contracting entity is complying with all contract terms and conditions, the effect that each entity's operation is having on access to care for Medicaid recipients in the contractor's service area, and the statistical trends associated with indicators of good oral health among all recipients served in comparison with the state's population as a whole. ~~For all other counties, the agency may not limit dental services to prepaid plans and must allow qualified dental providers to provide dental services under Medicaid on a fee-for-service reimbursement methodology. The agency may seek any necessary revisions or amendments to the state plan or federal waivers in order to implement this paragraph. The agency shall terminate existing contracts as needed to implement this paragraph. This paragraph expires July 1, 2013.~~

Section 2. This act shall take effect June 30, 2013.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/CS/SB 896 postpones the scheduled repeal of a provision that requires the Agency for Health Care Administration (AHCA) to contract separately with prepaid dental health plans on a prepaid or fixed-sum basis for Medicaid recipients. The bill requires the AHCA to contract with such prepaid dental health plans notwithstanding certain other statutory provisions. The bill also authorizes the AHCA to provide a Medicaid prepaid dental program in Miami-Dade County on a permanent basis. Provisions requiring the AHCA to allow other qualified dental providers to participate in the Medicaid dental program on a fee-for-service basis are deleted.

The bill also requires the AHCA to provide an annual report to the governor and Legislature that compares utilization, benefit, and cost data from Medicaid dental contractors, as well as reports on compliance and access to care for the state's overall Medicaid dental population.

The bill has an indeterminate fiscal impact.

The bill has an effective date of June 30, 2013.

This bill substantially amends section 409.912, Florida Statutes.

II. Present Situation:

Medicaid is a joint federal and state funded program that provides health care for low income Floridians. The program is administered by the AHCA and financed with federal and state funds. Over 3.3 million Floridians are currently enrolled in Medicaid and the program is expected to have more than $22 billion in expenditures for Fiscal Year 2012-2013.[1] The statutory authority for the Medicaid program is contained in ch. 409, F.S.

Federal law establishes the minimum benefit levels to be covered in order to receive federal matching funds. Benefit requirements can vary by eligibility category. For example, more benefits are required for children than for the adult population. Florida's mandatory and optional benefits are prescribed in state law under ss. 409.905, and 409.906 F.S., respectively.

Florida Medicaid recipients receive their benefits through a number of different delivery systems. Florida has at least 15 different managed care models,[2] including the model being used for the delivery of dental services, licensed, prepaid dental health plans (PDHP). The PDHPs are classified as prepaid ambulatory health plans by 42 CFR Part 438.[3]

Prepaid Dental Health Plans and Florida Medicaid

Proviso language in the 2001-2002 General Appropriations Act (GAA) authorized the AHCA to initiate a PDHP pilot program in Miami-Dade County.[4] The 2003 Legislature authorized the AHCA to contract on prepaid or fixed sum basis for dental services for Medicaid-eligible recipients using PDHPs.[5] Through a competitive process, the AHCA executed its first PDHP contract in 2004 to serve children under age 21 in Miami-Dade County.[6] Comprehensive dental benefit coverage is a mandatory Medicaid service only for children in Florida. The PDHPs are paid on a capitated basis for all covered dental services, meaning that the plans receive a single rate per individual member for all dental costs associated with that member. Currently, two PDHPs serve Medicaid members in Miami-Dade County.[7]

The Legislature included proviso in the 2010-2011 GAA authorizing the AHCA to contract by competitive procurement with one or more prepaid dental plans on a regional or statewide basis for a period not to exceed two years, in all counties except Miami-Dade, under a fee-for-service

[7] Ibid.

or managed care delivery system.[8] The AHCA did not procure contracts under the 2010-2011 proviso. In the 2011-2012 GAA, similar proviso language was included to require such a competitive procurement.

The Legislature passed proviso in the 2012-2013 GAA requiring that, for all counties other than Miami-Dade, the AHCA could not limit Medicaid dental services to prepaid plans and must allow qualified dental providers to provide dental services on a fee-for-service basis. Language to that effect was also passed in the 2012-2013 appropriations implementing bill, which included additional language directing the AHCA to terminate existing contracts as needed. The implementing bill provisions have a sunset date of July 1, 2013.

According to the AHCA website, two vendors were selected for the statewide program and it has been implemented statewide[9] as of December 1, 2012. Under the statewide program, Medicaid recipients may select one of the two PDHPs in their county or opt-out and receive their dental care through Medicaid fee-for-service providers.[10]

Statewide Medicaid Managed Care

In 2011, the Legislature also passed HB 7107[11] creating the Statewide Medicaid Managed Care (SMMC) program as part IV of ch. 409, F.S. SMMC requires the AHCA to create an integrated managed care program for Medicaid enrollees that incorporates all of the minimum benefits, for the delivery of primary and acute care, including dental.[12] Instead of being delivered as a separate benefit under a separate contract, dental services are to be incorporated by and be the responsibility of a managed care organization. Medicaid recipients who are enrolled in the SMMC program will receive their dental services through the fully integrated managed care plans as the program is implemented.[13]

The AHCA began implementing the SMMC in January 2012 and recently released an Invitation to Negotiate (ITN) to competitively procure managed care plans on a statewide basis. Plans can supplement the minimum benefits in their bids and offer enhanced options.[14] Statewide implementation of SMMC is expected to be completed by October 1, 2014. Final approval of the necessary Medicaid waiver by the federal government has not yet been received; however on February 20, 2013, the AHCA and the federal Centers for Medicare and Medicaid Services reached an "Agreement in Principle" on the proposed plan.[15] The integrated Medicaid plans

[8] *See* Specific Proviso 204, General Appropriations Act 2010-2011 (Conference Report on HB 5001).
[9] Six counties were excluded from the statewide roll-out. Miami-Dade was excluded because of the prepaid dental program that has been in place there since 2004. Baker, Broward, Clay, Duval, and Nassau counties were excluded because the Medicaid Reform Pilot Project has been implemented in those counties since 2006, which requires most Medicaid recipients to enroll in managed care plans that provide dental care as a covered service.

would cover both children and adults. The current dental plan contracts held by the AHCA cover only Medicaid recipients under age 21.

III. Effect of Proposed Changes:

Section 1 amends s. 409.912, F.S., relating to the cost effective purchasing of health care under the Medicaid program. The bill postpones the scheduled repeal of the provision that currently requires the AHCA to contract on a fixed-sum or prepaid basis with licensed prepaid dental health plans to provide dental services to Medicaid recipients. The modification extends the repeal date from October 1, 2014, to October 1, 2017.

The bill provides that the AHCA is required to contract with such prepaid dental health plans notwithstanding the provisions of s. 409.961, F.S. The referenced statute requires that provisions of part IV of ch. 409, F.S., shall control if a conflict exists between part IV and the other parts of ch. 409. Part IV creates the SMMC program, which requires the AHCA to contract with managed care plans for comprehensive health care services, including dental services.

The bill also deletes the current-law provision authorizing the AHCA to provide a Medicaid prepaid dental program in Miami-Dade County only during the 2012-2013 fiscal year, meaning that the AHCA will be authorized to provide the current program in Miami-Dade County in perpetuity.

The provision requiring a fee-for-service option for dental benefits – scheduled to sunset on July 1, 2013 – is deleted.

The AHCA is directed to provide the governor, president of the Senate, and speaker of the House of Representatives with a report that compares benefits, utilization, and costs of the contracted dental plans and the extent to which the prepaid plans are in compliance with their contract terms, including statistical trends with indicators of good oral health, in comparison to the overall Medicaid dental population. The report is due by January 15 each year.

Section 2 provides an effective date of June 30, 2013.

Other Potential Implications:

The AHCA analysis of the bill indicates that if the sunset provision is removed or postponed and results in changes to dental service delivery under SMMC, there is the possibility of a protest under the Managed Medical Assistance ITN procurement that is currently underway. Dental services are currently incorporated in that ITN.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The bill has limited private sector impact. The bill deletes a provision that will sunset July 1, 2013, relating to the fee-for-service reimbursement and extends the authorization of separate PDHP contracts to from October 1, 2014, to October 1, 2017. These contracts cover the same benefits that will be incorporated through those being procured now under the SMMC program. The proposed contract extension period overlaps with those SMMC contracts.

C. Government Sector Impact:

The bill's fiscal impact is indeterminate because it is impossible to know whether directing the AHCA to continue with the statewide prepaid dental program until October 1, 2017, and authorizing the continuation of prepaid dental in Miami-Dade County in perpetuity, might result in more or less cost to the state than the costs that will be incurred for dental services under the SMMC program.

VI. Technical Deficiencies:

None.

VII. Related Issues:

The AHCA has released an ITN covering all Medicaid services as part of the SMMC. This ITN includes dental services as part of those comprehensive medical services and requires the managed care organizations to cover all benefits. Extending the time frame for the existing prepaid dental health plan contracts for Medicaid enrollees under the age of 21 would overlap with the dental services proposed under that procurement document.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 23, 2013:
The committee substitute provides that the AHCA is required to contract on a fixed-sum or prepaid basis with licensed prepaid dental health plans to provide dental services to Medicaid recipients notwithstanding the provisions of s. 409.961, F.S.

CS by Health Policy on March 14, 2013:
CS for SB 896 adds a requirement directing AHCA to provide the Governor, President of the Senate and Speaker of the House of Representatives with a report that compares benefits, utilization and costs of the contracted dental plans and the extent to which the prepaid plans are in compliance with their contract terms, including statistical trends with indicators of good oral health, in comparison to the overall Medicaid dental population. The report is due by January 15, each year. (WITH TITLE AMENDMENT)

B. Amendments:

None.

By the Committee on Health Policy; and Senators Garcia and Flores

588-02413-13 2013896c1

A bill to be entitled

An act relating to prepaid dental plans; amending s. 409.912, F.S.; postponing the scheduled repeal of a provision requiring the Agency for Health Care Administration to contract with dental plans for dental services on a prepaid or fixed-sum basis; authorizing the agency to provide a prepaid dental health program in Miami-Dade County on a permanent basis; requiring an annual report to the Governor and Legislature; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (41) of section 409.912, Florida Statutes, is amended to read:

409.912 Cost-effective purchasing of health care.—The agency shall purchase goods and services for Medicaid recipients in the most cost-effective manner consistent with the delivery of quality medical care. To ensure that medical services are effectively utilized, the agency may, in any case, require a confirmation or second physician's opinion of the correct diagnosis for purposes of authorizing future services under the Medicaid program. This section does not restrict access to emergency services or poststabilization care services as defined in 42 C.F.R. part 438.114. Such confirmation or second opinion shall be rendered in a manner approved by the agency. The agency shall maximize the use of prepaid per capita and prepaid aggregate fixed-sum basis services when appropriate and other alternative service delivery and reimbursement methodologies,

588-02413-13 2013896c1

including competitive bidding pursuant to s. 287.057, designed to facilitate the cost-effective purchase of a case-managed continuum of care. The agency shall also require providers to minimize the exposure of recipients to the need for acute inpatient, custodial, and other institutional care and the inappropriate or unnecessary use of high-cost services. The agency shall contract with a vendor to monitor and evaluate the clinical practice patterns of providers in order to identify trends that are outside the normal practice patterns of a provider's professional peers or the national guidelines of a provider's professional association. The vendor must be able to provide information and counseling to a provider whose practice patterns are outside the norms, in consultation with the agency, to improve patient care and reduce inappropriate utilization. The agency may mandate prior authorization, drug therapy management, or disease management participation for certain populations of Medicaid beneficiaries, certain drug classes, or particular drugs to prevent fraud, abuse, overuse, and possible dangerous drug interactions. The Pharmaceutical and Therapeutics Committee shall make recommendations to the agency on drugs for which prior authorization is required. The agency shall inform the Pharmaceutical and Therapeutics Committee of its decisions regarding drugs subject to prior authorization. The agency is authorized to limit the entities it contracts with or enrolls as Medicaid providers by developing a provider network through provider credentialing. The agency may competitively bid single-source-provider contracts if procurement of goods or services results in demonstrated cost savings to the state without limiting access to care. The agency may limit its network based

on the assessment of beneficiary access to care, provider availability, provider quality standards, time and distance standards for access to care, the cultural competence of the provider network, demographic characteristics of Medicaid beneficiaries, practice and provider-to-beneficiary standards, appointment wait times, beneficiary use of services, provider turnover, provider profiling, provider licensure history, previous program integrity investigations and findings, peer review, provider Medicaid policy and billing compliance records, clinical and medical record audits, and other factors. Providers are not entitled to enrollment in the Medicaid provider network. The agency shall determine instances in which allowing Medicaid beneficiaries to purchase durable medical equipment and other goods is less expensive to the Medicaid program than long-term rental of the equipment or goods. The agency may establish rules to facilitate purchases in lieu of long-term rentals in order to protect against fraud and abuse in the Medicaid program as defined in s. 409.913. The agency may seek federal waivers necessary to administer these policies.

(41)(a) The agency shall contract on a prepaid or fixed-sum basis with appropriately licensed prepaid dental health plans to provide dental services. This paragraph expires October 1, 2017 ~~2014~~.

(b) Notwithstanding paragraph (a) ~~and for the 2012-2013 fiscal year only~~, the agency may ~~is authorized to~~ provide a Medicaid prepaid dental health program in Miami-Dade County. The agency shall provide an annual report by January 15 to the Governor, the President of the Senate, and the Speaker of the House of Representatives which compares the combined reported

annual benefits utilization and encounter data from all contractors, along with the agency's findings as to projected and budgeted annual program costs, the extent to which each contracting entity is complying with all contract terms and conditions, the effect that each entity's operation is having on access to care for Medicaid recipients in the contractor's service area, and the statistical trends associated with indicators of good oral health among all recipients served in comparison with the state's population as a whole. ~~For all other counties, the agency may not limit dental services to prepaid plans and must allow qualified dental providers to provide dental services under Medicaid on a fee-for-service reimbursement methodology. The agency may seek any necessary revisions or amendments to the state plan or federal waivers in order to implement this paragraph. The agency shall terminate existing contracts as needed to implement this paragraph. This paragraph expires July 1, 2013.~~

Section 2. This act shall take effect June 30, 2013.

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

PCS/SB 916 provides an exemption from state and local sales tax during the 3-day period beginning at 12:01 a.m. on August 2, 2013, through 11:59 p.m. on August 4, 2013, on purchases of clothing costing $75 or less per item, school supplies costing $15 or less per item, and computers costing $750 or less per item.

The Revenue Estimating Conference estimates that the bill will have a nonrecurring, negative impact of $28.3 million to General Revenue for Fiscal Year 2013-2014 and a nonrecurring, negative impact of $6.4 million to local governments.

The bill provides an appropriation of $235,695 in Fiscal Year 2012-2013 for the Department of Revenue to implement the law and notify sales and use tax dealers prior to the beginning of the sales tax holiday.

The bill takes effect upon becoming law.

The bill creates an unnumbered section of law.

II. Present Situation:

Chapter 212, F.S., imposes a 6 percent[1] sales tax on the retail sale of tangible personal property, including books, clothing, footwear, wallets, bags, school supplies, and computers. In addition, county governments may impose discretionary sales surtaxes.[2]

The Legislature has approved sales tax holidays for a number of years, notably from 2004 through 2007, and then again from 2010 through 2012. The length of the exemption period has varied from 3 to 10 days. The type and value of exempt items has also varied. The holiday is made available for the benefit of families making back-to-school purchases, and is typically offered just prior to the start of a new school year.

III. Effect of Proposed Changes:

The bill provides an exemption from state and local sales tax during the 3-day period beginning at 12:01 a.m. on August 2, 2013, through 11:59 p.m. on August 4, 2013, for the following:

- Sales of clothing, wallets, or bags, including handbags, backpacks, fanny packs, and diaper bags, but excluding briefcases, suitcases, and other garment bags, having a sales price of $75 or less per item. "Clothing" is defined to mean:
  - Any article of wearing apparel intended to be worn on or about the human body, excluding watches, watchbands, jewelry, umbrellas, and handkerchiefs.
  - All footwear, excluding skis, swim fins, roller blades, and skates.
- Sales of school supplies having a sales price of $15 or less per item. "School supplies" is defined to mean pens, pencils, erasers, crayons, notebooks, notebook filler paper, legal pads, binders, lunch boxes, construction paper, markers, folders, poster board, composition books, poster paper, scissors, cellophane tape, glue, paste, rulers, computer disks, protractors, compasses, and calculators.
- Sales of personal computers and related accessories having a sales price of $750 or less. Qualifying items must be purchased for noncommercial home or personal use. The exemption includes electronic book readers, laptops, desktops, tablets, monitors, other peripheral devices, modems for Internet and network access, and nonrecreational software, regardless of whether the accessories are used in association with a personal computer base unit. The exemption does not include cell phones, video game consoles, digital media receivers or other devices that are not primarily designed to process data. Computer and computer related accessories do not include furniture or any systems, devices, software, or peripherals designed or intended primarily for recreational use.

The exemptions of the above items from sales tax do not apply to sales within a public lodging establishment, theme park, entertainment complex or airport.

The Department of Revenue is authorized to adopt rules to administer the exemption. The bill provides an appropriation of $235,695 in Fiscal Year 2012-2013 for the Department of Revenue to implement the law and notify sales and use tax dealers prior to the beginning of the sales tax holiday.

[1] s. 212.05, F.S..
[2] s. 212.054, F.S.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Subsection (b) of s. 18, Art. VII, State Constitution, provides that except upon approval of each house of the Legislature by two-thirds vote of the membership, the Legislature may not enact, amend or repeal any general law if the anticipated effect of doing so would be to reduce the authority that municipalities or counties have to raise revenue in the aggregate, as such authority existed on February 1, 1989.

The bill provides a sales tax exemption that will reduce the municipalities' and counties' local option sales tax collections over a three-day period, thereby reducing their revenue-raising authority. However, an exemption may apply because the reduction in local governments' revenue-raising authority may be below the $1.9 million threshold for an insignificant impact on local governments.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference estimates that the bill will have a nonrecurring, negative impact of $28.3 million to General Revenue for Fiscal Year 2013-2014 and a nonrecurring, negative impact of $6.4 million to local governments.

B. Private Sector Impact:

During the specified period, clothing, wallets, and bags selling for $75 or less; school supplies selling for $15 or less; and computers selling for $750 or less can be purchased tax-free. Given the timing of the tax-free period, families will be able to save money on clothing and school supplies prior to the beginning of the school year.

C. Government Sector Impact:

The Department of Revenue (DOR) will need to print and mail Tax Information Publications (TIPs) to notify dealers. DOR anticipates that it will need to print and mail TIPs to 565,000 sales and use tax dealers prior to the beginning of the sales tax holiday, with an additional print of 5,000 TIPs for mail to retail associations and others upon request.[3]

[3] DOR Bill Analysis (February 20, 2013), on file with the Appropriations Subcommittee on Finance and Tax.

VI. Technical Deficiencies:

None.

VII. Related Issues:

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS by Appropriations Subcommittee on Finance and Tax on April 17, 2013:
The CS clarifies the items that qualify as personal computers and related accessories. The CS also provides an appropriation of $235,695 in Fiscal Year 2012-2013 for the Department of Revenue to implement the law and notify sales and use tax dealers prior to the beginning of the sales tax holiday.

B. Amendments:

None.

116326

576-04552-13

Proposed Committee Substitute by the Committee on Appropriations
(Appropriations Subcommittee on Finance and Tax)

A bill to be entitled

An act relating to the tax on sales, use, and other transactions; specifying a period during which the sale of clothing, wallets, bags, school supplies, personal computers, and personal computer related accessories are exempt from the sales tax; providing definitions; providing exceptions; authorizing the Department of Revenue to adopt emergency rules; providing an appropriation; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. (1) The tax levied under chapter 212, Florida Statutes, may not be collected during the period from 12:01 a.m. on August 2, 2013, through 11:59 p.m. on August 4, 2013, on the sale of:

(a) Clothing, wallets, or bags, including handbags, backpacks, fanny packs, and diaper bags, but excluding briefcases, suitcases, and other garment bags, having a sales price of $75 or less per item. As used in this paragraph, the term "clothing" means:

1. Any article of wearing apparel intended to be worn on or about the human body, excluding watches, watchbands, jewelry, umbrellas, and handkerchiefs; and

2. All footwear, excluding skis, swim fins, roller blades, and skates.

116326

576-04552-13

(b) School supplies having a sales price of $15 or less per item. As used in this paragraph, the term "school supplies" means pens, pencils, erasers, crayons, notebooks, notebook filler paper, legal pads, binders, lunch boxes, construction paper, markers, folders, poster board, composition books, poster paper, scissors, cellophane tape, glue or paste, rulers, computer disks, protractors, compasses, and calculators.

(c) Personal computers and related accessories that have a sales price of $750 or less and are purchased for noncommercial home or personal use. As used in this paragraph, the term:

1. "Personal computer" means an electronic device that accepts information in digital or similar form and manipulates such information for a result based on a sequence of instructions. The term includes an electronic book reader and laptop, desktop, handheld, tablet, or tower computer but does not include cellular telephones, video game consoles, digital media receivers, or devices that are not primarily designed to process data.

2. "Related accessories" includes keyboards, mice, personal digital assistants, monitors, other peripheral devices, modems, routers, and nonrecreational software regardless of whether the accessories are used in association with a personal computer base unit, but does not include furniture or systems, devices, software, or peripherals that are designed or intended primarily for recreational use.

3. "Monitor" does not include a device that includes a television tuner.

(2) The tax exemptions provided in this section do not apply to sales within a theme park or entertainment complex as

116326

576-04552-13

defined in s. 509.013(9), Florida Statutes, within a public lodging establishment as defined in s. 509.013(4), Florida Statutes, or within an airport as defined in s. 330.27(2), Florida Statutes.

(3) The Department of Revenue may, and all conditions are deemed met to, adopt emergency rules pursuant to ss. 120.536(1) and 120.54, Florida Statutes, to administer this section.

Section 2. For the 2012-2013 fiscal year, the sum of $235,695 in nonrecurring funds is appropriated from the General Revenue Fund to the Department of Revenue for the purpose of administering this act. Funds from the appropriation that remain unexpended or unencumbered as of June 30, 2013, shall revert and be reappropriated for the same purpose in the 2013-2014 fiscal year.

Section 3. This act shall take effect upon becoming a law.

The Florida Senate

[2] s. 212.054, F.S.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Subsection (b) of s. 18, Art. VII, State Constitution, provides that except upon approval of each house of the Legislature by two-thirds vote of the membership, the Legislature may not enact, amend or repeal any general law if the anticipated effect of doing so would be to reduce the authority that municipalities or counties have to raise revenue in the aggregate, as such authority existed on February 1, 1989.

The bill provides a sales tax exemption that will reduce the municipalities' and counties' local option sales tax collections over a three-day period, thereby reducing their revenue-raising authority. However, an exemption may apply because the reduction in local governments' revenue-raising authority may be below the $1.9 million threshold for an insignificant impact on local governments.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference estimates that the bill will have a nonrecurring, negative impact of $28.3 million to General Revenue for Fiscal Year 2013-2014 and a nonrecurring, negative impact of $6.4 million to local governments.

B. Private Sector Impact:

During the specified period, clothing, wallets, and bags selling for $75 or less; school supplies selling for $15 or less; and computers selling for $750 or less can be purchased tax-free. Given the timing of the tax-free period, families will be able to save money on clothing and school supplies prior to the beginning of the school year.

C. Government Sector Impact:

The Department of Revenue (DOR) will need to print and mail Tax Information Publications (TIPs) to notify dealers. DOR anticipates that it will need to print and mail TIPs to 565,000 sales and use tax dealers prior to the beginning of the sales tax holiday, with an additional print of 5,000 TIPs for mail to retail associations and others upon request.[3]

VI. Technical Deficiencies:

None.

VII. Related Issues:

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations on April 23, 2013:
The committee substitute clarifies the items that qualify as personal computers and related accessories. The CS also provides an appropriation of $235,695 in Fiscal Year 2012-2013 for the Department of Revenue to implement the law and notify sales and use tax dealers prior to the beginning of the sales tax holiday.

B. Amendments:

None.

By Senator Flores

37-00480A-13 2013916__

A bill to be entitled

An act relating to the tax on sales, use, and other transactions; specifying a period during which the sale of clothing, wallets, bags, school supplies, personal computers, and personal computer related accessories are exempt from the sales tax; providing definitions; providing exceptions; authorizing the Department of Revenue to adopt emergency rules; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. (1) The tax levied under chapter 212, Florida Statutes, may not be collected during the period from 12:01 a.m. on August 2, 2013, through 11:59 p.m. on August 4, 2013, on the sale of:

(a) Clothing, wallets, or bags, including handbags, backpacks, fanny packs, and diaper bags, but excluding briefcases, suitcases, and other garment bags, having a sales price of $75 or less per item. As used in this paragraph, the term "clothing" means:

1. Any article of wearing apparel intended to be worn on or about the human body, excluding watches, watchbands, jewelry, umbrellas, and handkerchiefs; and

2. All footwear, excluding skis, swim fins, roller blades, and skates.

(b) School supplies having a sales price of $15 or less per item. As used in this paragraph, the term "school supplies" means pens, pencils, erasers, crayons, notebooks, notebook

37-00480A-13 2013916__

filler paper, legal pads, binders, lunch boxes, construction paper, markers, folders, poster board, composition books, poster paper, scissors, cellophane tape, glue or paste, rulers, computer disks, protractors, compasses, and calculators.

(c) Personal computers and related accessories with a sales price of $750 or less, purchased for noncommercial home or personal use, including personal computer base units and keyboards, personal digital assistants, handheld computers, monitors, other peripheral devices, modems for Internet and network access, and nonrecreational software, regardless of whether the accessories are used in association with a personal computer base unit. Computers and computer-related accessories do not include furniture or any systems, devices, software, or peripherals designed or intended primarily for recreational use.

(2) The tax exemptions provided in this section do not apply to sales within a theme park or entertainment complex as defined in s. 509.013(9), Florida Statutes, within a public lodging establishment as defined in s. 509.013(4), Florida Statutes, or within an airport as defined in s. 330.27(2), Florida Statutes.

(3) The Department of Revenue may, and all conditions are deemed met to, adopt emergency rules pursuant to ss. 120.536(1) and 120.54, Florida Statutes, to administer this section.

Section 2. This act shall take effect upon becoming a law.

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/CS/CS/SB 958 creates the Underground Natural Gas Storage Act to create a process for regulating in-ground storage of natural gas.

The DEP is authorized to establish permit fees by rule for natural gas facilities to support the cost of the program. The DEP does not anticipate the need for additional resources during the rulemaking process; however, additional resources will be needed to effectively implement and administer the natural gas storage program. See Section V.

Specifically, the bill:

- Authorizes the Division of Resource Management (division) of the Department of Environmental Protection (DEP) to regulate natural gas storage reservoirs.
- Authorizes the DEP to issue orders or permits and to adopt rules.
- Creates permitting requirements and procedures.
- Protects water supplies.
- Protects natural gas storage facilities.

- Provides for property rights in injected natural gas.
- Requires the DEP to adopt rules before issuing a natural gas storage facility permit.
- Includes the storage of natural gas in existing prohibitions on pollution.
- Authorizes the DEP to take actions against those involved in natural gas storage.
- Provides for expedited permitting of natural gas storage facilities and interstate natural gas pipelines.

The bill provides an effective date of July 1, 2013.

The bill substantially amends the following sections of the Florida Statutes: 211.02, 211.025, 376.301, 377.06, 377.18, 377.19, 377.21, 377.22, 377.24, 377.241, 377.242, 377.25, 377.28, 377.30, 377.34, 377.37, 377.371, and 403.973.

The bill creates the following sections of the Florida Statutes: 377.2407, 377.2431, 377.2432, 377.2433, and 377.2434. The bill also creates an unnumbered section of law.

II. Present Situation:

Natural Gas Storage

Natural gas storage is critical to maintaining the reliability and supply needed to meet the demand of consumers. Underground natural gas storage was first introduced in 1909 by the United States Geological Survey and was carried out in 1916 in a depleted reservoir located in Concord, New York.[1]

The most common type of underground natural gas storage facility is depleted natural gas wells where all of the recoverable natural gas has been extracted, leaving underground formations geologically capable of storing natural gas.[2] There are 326 depleted reservoir storage sites in the United States.[3] These sites are favorable over other types of underground storage because the infrastructure from the extraction network is already in place and the geological characteristics of the reservoir are well known.[4]

For a depleted reservoir to be a viable option for underground storage, it must be located in a consuming region and close to transportation infrastructure. The porosity and permeability of the formation are also critical factors as porosity determines the amount of natural gas that may be held, and the permeability determines the rate at which the natural gas flows through the formation.[5]

Salt caverns and aquifers are also used as underground storage facilities. Salt cavern storage facilities are formed out of existing salt deposits that are impermeable and self-sealing, creating a

[5] *Id*.

strong and environmentally sound storage system. Aquifer storage systems are underground porous, permeable rock formations that act as natural water reservoirs and are used to store natural gas in areas where there are no depleted reservoirs. Aquifers are the most expensive type of underground storage facility because of the extensive geologic testing that must be done prior to use.[6] There are 31 salt cavern storage sites and 43 aquifer storage sites in the United States.[7]

To store natural gas in an underground storage facility, the facility is first reconditioned then natural gas is injected into the formation, which builds up pressure. As natural gas is added, the voids in the geologic formation are filled and become pressurized, similar to a natural gas container. Steady pressure in the reservoir allows gas to be extracted at a predictable rate. Once the pressure drops below the wellhead, there is no pressure left to push the natural gas out of the reservoir. A reservoir contains three categories of gas: "physically unrecoverable gas," which cannot be extracted and is permanently embedded in the formation; "base gas," which is used to maintain the pressure in the reservoir for extraction of the remaining gas and which can only be extracted with specialized compression equipment; and "working gas," which is the natural gas that is injected, stored, and withdrawn.[8]

Currently in the United States, the majority of natural gas storage facilities are depleted reservoirs located in 22 states, primarily in the north east.[9] The Weekly Natural Gas Storage Report states that 1,724 billion cubic feet of natural gas has been stored over the last five years.[10]

Federal Regulation of Natural Gas

The Federal Energy Regulatory Commission (FERC) regulates interstate pipeline operations, storage, permitting and construction of new pipeline facilities, and the transmission rates that pipelines are permitted to charge. The FERC coordinates with other federal and state agencies to permit new pipelines and the conditions under which the pipelines may be constructed. The FERC also regulates the abandonment of facilities.[11]

Regulation of Oil and Gas Resources in Florida

The DEP's Mining and Minerals Regulation Program (program) regulates oil and gas exploration and production in Florida under part I of ch. 377, F.S., and Rules 62C-25 through 30, Florida Administrative Code. Companies that explore for, or produce oil and gas in Florida, are permitted through the program, which ensures compliance and safety of the activities. In order to drill for oil or gas, the applicant must first provide notice to the DEP and pay the required permit fee. The permit may be granted subject to specific statutory criteria. The local government or municipality in which the land is located must also approve the application for the permit by a resolution.[12]

[12] *See* ss. 377.242-377.24, F.S.

Florida is not a large producer of natural gas as approximately 700 billion cubic feet of natural gas has been produced in northwest Florida; the amount recovered in south Florida is considered to be insignificant.[13]

There are no existing underground natural gas storage facilities in Florida and there are no regulatory provisions or rules for the storage of underground natural gas. All of the natural gas demand in Florida is served by two interstate pipelines delivering up to 4.5 billion cubic feet per day of natural gas. The existing pipelines are capable of providing enough natural gas to fuel approximately 26,000 megawatts of electric generation, which serves 5.5 to 6 million customers. The only natural gas reserves available in Florida are in the "line pack," which is the actual amount of gas in the pipeline or distribution system. The line pack allows for operational flexibility for pipeline customers, but is not considered a method of storage.[14]

III. Effect of Proposed Changes:

The bill creates a process for regulating in-ground storage of natural gas.

Section 5 amends s. 377.06, F.S., to declare that underground storage of natural gas is in the public interest because it:

- Promotes conservation of natural gas;
- Makes gas more readily available for domestic, commercial, and industrial users; and
- Allows the accumulation of large quantities of gas in reserve for orderly withdrawal during emergencies or periods of peak demand.

Section 7 amends s. 377.19, F.S., to add and revise definitions. The term:

- "Well site" is amended to include "inject gas into and recover gas from a natural gas storage facility.
- "Operator" is amended to include "as part of a natural gas storage facility, injects, or is engaged in the work of preparing to inject, gas into a natural gas storage reservoir; or stores gas in, or removes gas from, a natural gas storage reservoir."
- "Department" means the Department of Environmental Protection.
- "Lateral storage reservoir boundary" means the projections up to the land surface of the maximum horizontal extent of the gas volume contained in a natural gas storage reservoir.
- "Native gas" means gas that occurs naturally within Florida and does not included gas produced outside or transported to Florida and injected into a permitted natural gas storage facility.
- "Natural gas storage facility" means an underground reservoir from which oil or gas has been previously produced and which is used or to be used for the underground storage of natural gas, and any surface or subsurface structure, infrastructure, right, or appurtenance necessary or useful in the operation of the facility for the underground storage of natural gas, including any necessary or reasonable reservoir protective area as designated for the purpose of

[13] DEP, *Senate Bill 958/984 Agency Analysis* (Mar. 2013) (on file with the Senate Committee on Environmental Preservation and Conservation).
[14] Email from Timothy Riley, Attorney, Hopping Green and Sams (Mar. 6, 2013) (on file with the Senate Committee on Environmental Preservation and Conservation).

ensuring the safe operation of the storage of natural gas or protecting the natural gas storage facility from pollution, invasion, escape, or migration of gas, or any subsequent extension thereof. The term does not mean a transmission, distribution, or gathering pipeline or system that is not used primarily as integral piping for a natural gas storage facility.

- "Natural gas storage reservoir" means a pool or field from which oil or gas has previously been produced and which is suitable for or capable of being made suitable for the injection, storage, and recovery of gas.
- "Oil and gas" has the same meaning as the term "oil or gas."
- "Reservoir protective area" means the area extending up to and including 2,000 feet surrounding a natural gas lateral storage reservoir boundary.
- "Shut-in bottom hole pressure" means the pressure at the casing head or wellhead when all valves are closed and no oil or gas has been allowed to escape for at least 24 hours.

Section 8 amends s 377.21, F.S., to specify that the Division of Resource Management (division) within the Department of Environmental Protection (DEP) has authority to administer and enforce laws relating to the storage of gas in and recovery of gas from natural gas storage reservoirs.

Section 13 amends s. 377.242, F.S., to provide that the DEP is vested with the power and authority to issue permits for natural gas storage facilities.

Section 9 amends s. 377.22, F.S., to authorize DEP to issue orders or adopt rules to:

- Ensure that all precautions are taken to prevent the spillage of any pollutant during the injection of gas into and recovery of gas from a natural gas reservoir;
- Protect the integrity of natural gas storage reservoirs;
- Require and carry out a reasonable program of monitoring or inspection of "injecting wells" to prevent wells from being drilled in such as fashion as to injure neighboring natural gas storage reservoirs; and
- Regulate the storage and recovery of gas injected into natural gas storage facilities.

Section 25 creates an unnumbered section of law to require the DEP to adopt rules relating to natural gas storage before issuing a natural gas storage facility permit.

Section 10 amends s. 377.24, F.S., to require permits from the DEP prior to storing gas in, or recovering gas from, a natural gas storage reservoir, and requiring applications for such permits to include the name and address of the applicant.

Section 11 creates s. 377.2407, F.S., to establish the permit-application process. Any person who desires to drill a well to inject gas into and recover gas from a natural gas storage reservoir must apply to DEP to obtain a natural gas storage facility permit. DEP must require an applicant to pay a reasonable permit application fee and the fee must be the amount necessary to cover the costs associated with permitting, processing, issuing, and recertifying the permit application, and inspecting activities for compliance. Each application must contain:

- A detailed, three-dimensional description of the natural gas storage reservoir;
- A geographic description of the lateral reservoir boundary;

- A general description and location of all injection, recovery, withdrawal-only, and observation wells;
- A description of the reservoir protective area;
- Information demonstrating that the proposed natural gas storage reservoir is suitable for the storage and recovery of gas;
- Information identifying all known abandoned or active wells within the natural gas storage facility;
- A field-monitoring plan that requires, at a minimum monthly field inspections of all wells that are part of the natural gas storage facility;
- A monitoring and testing plan to ensure well integrity;
- A well inspection plan that requires, at a minimum, the inspection of all wells that are part of the natural gas storage facility and plugged wells within the natural gas storage facility boundary;
- A spill prevention and response plan;
- A well spacing plan;
- An operating plan for the natural gas storage reservoir, which must include gas capacities, anticipated operating conditions, and maximum storage pressure;
- A gas migration response plan; and
- A location plat and general facility map surveyed and prepared by a registered land surveyor licensed under ch. 472, F.S.

The DEP may require additional necessary information from the applicant for completion of the permit application. Each well must be permitted individually and well construction and operation must be subject to the criteria outlined in ch. 377, F.S.

Section 12 adds s. 377.241, F.S., to provide that in determining whether to issue a permit, the division must consider if the storage facility, the nature, structure, and proposed use of the natural gas storage reservoir is suitable for the storage and recovery of gas without causing adverse effects to public health, safety, and the environment.

Section 14 creates s. 377.2431, F.S., to provide conditions under which a natural gas storage facility permit can be issued and requires that the permit be issued for the life of the facility, subject to recertification every ten years. Before issuing or recertifying a permit, the division must require satisfactory evidence that the applicant has:

- Implemented or is in the process of implementing programs for the control and mitigation of pollution;
- Acquired the lawful right to develop the natural gas storage facility from at least 75 percent of the property interests or the applicant has obtained a certificate of public convenience and necessity from the Federal Energy Regulatory Commission pursuant to 15 U.S.C. ss. 717 et seq.
- Identified the known wells that have been drilled into or through the reservoir to the best of their ability and determined if the wells are inactive or abandoned and properly plugged. The applicant is required to plug or recondition any well that has not been properly plugged before conducting injection operations.
- Tested the quality of water from all water supply wells within the lateral boundary of the facility and complied with all of the requirements of s. 377.2432, F.S.

- Determined whether native gas or oil will be produced in the process of recovering injected gas. If native gas or oil will be produced, the applicant or operator must acquire the rights to develop the gas or oil before injecting gas into the natural gas storage reservoir.

DEP may not issue a permit for a natural gas storage reservoir that is located under a source of drinking water unless the applicant can demonstrate the injection, storage or recovery of natural gas will not cause or allow gas to migrate into the source of drinking water or that is in any offshore location or within a salt formation.

The applicant must maintain records of all inspections and reports to be made available to the DEP for inspection at any reasonable time.

The natural gas storage facility operator must request approval of a maximum storage pressure in accordance with the following:

- The maximum storage pressure is the highest shut-in bottom hole pressure found to exist during production history, unless the DEP has established a higher pressure based on testing of caprock and pool containment. Methods for determining the higher pressure must be approved by the DEP.
- If the shut-in bottom hole pressure of the original discovery or highest production is not known, or the DEP has not established a higher pressure, then the maximum storage reservoir pressure must be limited to a freshwater hydrostatic gradient.
- A natural gas storage facility permit issued by the department must contain a condition that requires the permittee to obtain the lawful right to develop a natural gas storage reservoir from the owners of 100 percent of the storage rights within the natural gas storage reservoir.

Section 15 creates s. 377.2432, F.S., to protect water supplies. An operator of a natural gas storage facility that affects a water supply must restore and replace the affected supply and provide an alternate source. DEP shall ensure that the quality of restored or replaced water is comparable to the quality of the water before it was affected by the operator.

Unless rebutted by a statutory defense, the facility operator is presumed responsible for pollution of water supplies within the lateral boundary of the facility if the pollution occurs within six months of completion of drilling or after initial injection, whichever is later. If the water supply is contaminated in the rebuttable presumption area, the facility operator must provide a temporary alternative water supply at no cost to the owner or user. The temporary water supply must be adequate in quantity and quality for the purposes served by the affected supply.

The facility operator presumed responsible for contaminating a water supply may rebut the claim by proving any of the following:

- The pollution existed before the drilling or alteration as determined by a predrilling or prealteration survey;
- The landowner or water purveyor refused to allow the operator access to conduct a predrilling or prealteration survey;
- The water supply is not within the lateral boundary of the natural gas storage facility;
- The pollution occurred more than six months after completion of drilling or alteration of any well associated with the natural gas storage facility; or

- The pollution occurred as the result of a cause other than activities authorized under the natural gas storage permit.

To preserve a defense, the facility operator must use an independent certified laboratory to conduct the predrilling and prealteration water quality surveys. The surveys are to be submitted to the DEP and the landowner or water supplier. The operator must provide written notice to the landowner or water supplier that the presumption that the facility operator is at fault for the water contamination may be void if the landowner or water supplier prohibits the facility operator access to conduct predrilling and prealteration water quality surveys.

This section does not prevent the landowner or water supplier who claims the water source has been contaminated from seeking any other remedy at law or in equity.

Section 16 creates s. 377.2433, F.S., to provide for the protection of natural gas storage facilities, as follows:

- The DEP may not permit wells to be drilled into or through the reservoir except under conditions that prevent loss or migration of gas from the reservoir;
- The operator must have reasonable right of entry to observe the drilling of any such well within the permitted natural gas storage facility boundary or reservoir protective area;
- The DEP shall require by permit condition that any well drilled into a permitted natural gas storage reservoir or reservoir protective area is properly cased and cemented.

Section 17 creates s. 377.2434, F.S., to provide for property rights to the injected gas. The injected gas is the property of the injector or the injector's heirs, successors, or assigns, whether owned by the injector or stored under contract.

The owner of the surface land or of any mineral rights has no right to the gas and no person has any right to waste or exercise control over the gas; however, the ownership of hydrocarbons that occur naturally within the state or the right of a surface owner or mineral interest are not subject to these restrictions and the owner may drill or bore through a natural gas storage facility as long as the integrity of the natural gas storage facility is protected.

With regard to gas that has migrated to adjoining properties or strata, the injector, injector's heirs, or assigns, do not lose title to or possession as long as they can prove the migrated gas is the same gas originally injected into the underground storage facility. Additionally, they have the right to conduct tests, at their own expense, on the existing wells on the adjoining property to determine ownership of the gas.

Property owners may be entitled to compensation in the event gas has migrated to their property.

Section 21 amends s. 377.34, F.S., to provide that the division may enforce laws, rules, and orders against those engaged in storage or recovering of natural gas.

Section 22 amends s. 377.37, F.S., to clarify that existing penalties may be applied to any person who violates the law or the provisions of a permit for a natural gas storage facility.

Section 23 amends s. 377.371, F.S., to clarify that the storage of natural gas is included in the prohibition on pollution when drilling for or producing oil, gas, or other petroleum products. Additionally, the cost to clean-up state waters from pollution that was the result of a natural gas storage facility is the responsibility of the facility operator.

Section 24 amends s. 403.973, F.S., to provide that projects for natural gas storage facilities permitted under ch. 377, F.S., and interstate natural gas pipelines that are subject to certification by the FERC are eligible for the expedited permitting process created in s. 403.973, F.S.

The remainder of the bill is technical or conforming to fully incorporate the new provisions into the existing regulatory structure and other statutes.

Section 1 creates an unnumbered section of law to establish the "Florida Underground Natural gas Storage Act."

Section 2 amends s. 211.02, F.S., to exempt gas-phase hydrocarbons that are transported into Florida, injected into an underground natural gas storage facility, and later recovered as liquid hydrocarbons, from the severance tax on oil production.

Section 3 amends s. 211.025, F.S., to provide that the severance tax on natural gas applies only to native gas as defined in s. 377.19, F.S.

Section 4 amends s. 376.301, F.S., to correct a cross-reference.

Section 6 amends s. 377.18, F.S., to clarify that the existing provision relating to the control and regulation of all common sources of oil or gas apply only to native gas.

Section 18 amends s. 377.25, to provide that well spacing requirements do not apply to injection wells associated with a natural gas storage facility.

Section 19 amends s. 377.28, F.S., to specify the additional recovery of oil or gas must not interfere with the storage or recovery of natural gas within a natural gas reservoir.

Section 20 amends s. 377.30, F.S., to provide that the limitations on the amount of oil and gas taken do not apply to nonnative gas recovered from a permitted natural gas storage facility.

Section 26 provides an effective date of July 1, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

There may be some benefit to the private sector to have stored natural gas during a time when supply may have otherwise been interrupted (e.g. hurricane season). In addition, companies that specialize in the types of natural gas storage facilities allowed by the bill will be able to apply for permits and begin operations if granted permits by the DEP.

C. Government Sector Impact:

The bill directs the DEP to expand rulemaking, hold public workshops, train staff, review applicants, and issue permits for underground natural gas storage facilities; these duties will result in costs to the department. These costs will be supported by permit fee revenues once they are established.

The DEP estimates it will take all of Fiscal Year 2013-2014 to do the rulemaking for this program and the costs for this can be handled with existing staff and resources. The DEP plans to request budget authority for this program in Fiscal Year 2014-2015.

The DEP does not currently have the expertise to regulate natural gas storage facilities and anticipates the need for specialized field and engineering consultants in order to implement the program. The agency contacted the states of Alabama and Texas that have implemented natural gas storage programs; the costs at implementation ranged from $200,000 to $1 million.

Since the extent to which natural gas storage will be used is unknown, the amount of regulatory oversight, tracking and inspection costs cannot be determined at this time.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS/CS by Appropriations on April 23, 2013:

- Clarifies that a natural gas storage facility permit may not be issued unless the applicant demonstrates the injection, storage, or recovery of natural gas will not migrate into an underground source of drinking water.
- Requires the DEP to include a special condition in a natural gas storage facility permit that requires the permittee to obtain 100 percent of the storage rights to use the natural gas storage reservoir.
- Clarifies that if a water supply is contaminated that the natural gas facility operator will provide a temporary source of water at no cost to both the water supply system owner and water users.
- Requires the DEP to include as a permit condition in any well drilled through a permitted natural gas storage reservoir or reservoir protective area to case and cement the well in a manner to protect the reservoir's integrity.

CS/CS by Communications, Energy, and Public Utilities on April 15, 2013:

- Removes the prohibition against a county or municipality attempting to regulate or enforce any matter concerning natural gas storage facilities, allowing local governments, subject to state and federal law, to participate in the permitting of storage facilities to account for public safety, such as fire prevention, law enforcement, and emergency management.

CS by Environmental Preservation and Conservation on April 9, 2013:

- Revises definitions;
- Removes the provision that the act is "self-executing" and requires rulemaking before a permit may be issued;
- Removes the provision that prohibits the DEP from declaring a permit application invalid or prohibits the issuance of a permit solely because the DEP has not adopted rules for the underground storage of natural gas;
- Requires the DEP to develop a reasonable application fee to cover programmatic costs;
- Specifies that a general description and location of all injection, recovery, withdrawal-only, and observations wells is required in a permit application;
- Requires an individual permit for each well related to natural gas storage;
- Extends the permit recertification requirement from five years to ten years;
- Clarifies requirements with respect to property ownership above the lateral extent of a natural gas storage reservoir;
- Removes all references to the power of eminent domain;
- Specifies requirements if native gas or oil is recovered during extraction of stored gas;

- Specifies that the well pressure records be made available for inspection by the DEP and clarifies the default maximum reservoir operating conditions that will be established in the facility permit;
- Specifies additional protections for storage facilities located beneath an underground source of drinking water;
- Specifies that storage facilities cannot be established in any offshore location or in salt formations;
- Removes the provision that allows a natural gas storage facility operator to petition the DEP to stop activities that may interfere with the reservoir;
- Clarifies unitization orders issued by the DEP with regard to natural gas storage;
- Removes the reference to the use of conservation agreements for common ownership; and
- Authorizes expedited permitting for interstate pipelines.

B. Amendments:

None.

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
04/25/2013	.	
	.	
	.	
	.	

The Committee on Appropriations (Richter) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. This act may be cited as the "Florida Underground Natural Gas Storage Act."

Section 2. Subsection (7) is added to section 211.02, Florida Statutes, to read:

211.02 Oil production tax; basis and rate of tax; tertiary oil and mature field recovery oil.—An excise tax is hereby levied upon every person who severs oil in the state for sale, transport, storage, profit, or commercial use. Except as

otherwise provided in this part, the tax is levied on the basis of the entire production of oil in this state, including any royalty interest. Such tax shall accrue at the time the oil is severed and shall be a lien on production regardless of the place of sale, to whom sold, or by whom used, and regardless of the fact that delivery of the oil may be made outside the state.

(7) As used in this section, the term "oil" does not include gas-phase hydrocarbons that are transported into the state, injected in the gaseous phase into a natural gas storage facility permitted under part I of chapter 377, and later recovered as a liquid hydrocarbon.

Section 3. Subsection (6) is added to section 211.025, Florida Statutes, to read:

211.025 Gas production tax; basis and rate of tax.—An excise tax is hereby levied upon every person who severs gas in the state for sale, transport, profit, or commercial use. Except as otherwise provided in this part, the tax shall be levied on the basis of the entire production of gas in this state, including any royalty interest. Such tax shall accrue at the time the gas is severed and shall be a lien on production regardless of the place of sale, to whom sold, or by whom used and regardless of the fact that delivery of the gas may be made outside the state.

(6) This section applies only to native gas as defined in s. 377.19.

Section 4. Subsection (36) of section 376.301, Florida Statutes, is amended to read:

376.301 Definitions of terms used in ss. 376.30-376.317, 376.70, and 376.75.—When used in ss. 376.30-376.317, 376.70, and

919526

376.75, unless the context clearly requires otherwise, the term:

(36) "Pollutants" includes any "product" as defined in s. 377.19~~(11)~~, pesticides, ammonia, chlorine, and derivatives thereof, excluding liquefied petroleum gas.

Section 5. Section 377.06, Florida Statutes, is amended to read:

377.06 Public policy of state concerning natural resources of oil and gas.—It is hereby declared ~~to be~~ the public policy of this ~~the~~ state to conserve and control the natural resources of oil and gas in this ~~said~~ state, and the products made from oil and gas in this state ~~therefrom~~; to prevent waste of ~~said~~ natural resources; to provide for the protection and adjustment of the correlative rights of the owners of the land in which the ~~wherein said~~ natural resources lie, of ~~and~~ the owners and producers of oil and gas resources and the products made from oil and gas ~~therefrom~~, and of others interested in these resources and products ~~therein~~; to safeguard the health, property, and public welfare of the residents ~~citizens~~ of this ~~said~~ state and other interested persons and for all purposes indicated by the provisions in this section ~~herein~~. Further, it is declared that underground storage of natural gas is in the public interest because underground storage promotes conservation of natural gas; makes gas more readily available to the domestic, commercial, and industrial consumers of this state; and allows the accumulation of large quantities of gas in reserve for orderly withdrawal during emergencies or periods of peak demand. It is not the intention of this section to limit, ~~or~~ restrict, or modify in any way the provisions of this law.

Section 6. Section 377.18, Florida Statutes, is amended to

read:

377.18 Common sources of oil and gas.—All common sources of supply of oil or native ~~and~~ gas ~~or either of them~~ shall have the production ~~therefrom~~ controlled or regulated in accordance with the provisions of this law.

Section 7. Section 377.19, Florida Statutes, is reordered and amended to read:

377.19 Definitions.—As used ~~Unless the context otherwise requires, the words defined in this section shall have the following meanings when found~~ in ss. 377.06, 377.07, and 377.10-377.40, the term:

(3) ~~(1)~~ "Division" means the Division of Resource Management of the Department of Environmental Protection.

(28) ~~(2)~~ "State" means the State of Florida.

(20) ~~(3)~~ "Person" means a ~~any~~ natural person, corporation, association, partnership, receiver, trustee, guardian, executor, administrator, fiduciary, or representative of any kind.

(15) ~~(4)~~ "Oil" means crude petroleum oil and other hydrocarbons, regardless of gravity, which are produced at the well in liquid form by ordinary production methods, and which are not the result of condensation of gas after it leaves the reservoir.

(5) "Gas" means all natural gas, including casinghead gas, and all other hydrocarbons not defined as oil in subsection (4).

(21) ~~(6)~~ "Pool" means an underground reservoir containing or appearing to contain a common accumulation of oil or gas or both. Each zone of a general structure which is completely separated from any other zone on the structure is considered a separate pool as used herein.

(4) ~~(7)~~ "Field" means the general area that ~~which~~ is underlaid, or appears to be underlaid, by at least one pool. The term~~; and "field"~~ includes the underground reservoir, or reservoirs, containing oil or gas, or both. The terms ~~words~~ "field" and "pool" mean the same thing if ~~when~~ only one underground reservoir is involved; however, the term "field," unlike the term "pool," may relate to two or more pools.

(19) ~~(8)~~ "Owner" means the person who has the right to drill into and to produce from any pool and to appropriate the production ~~either~~ for the person or for the person and another, or others.

(22) ~~(9)~~ "Producer" means the owner or operator of a well or wells capable of producing oil or gas, or both.

(31) ~~(10)~~ "Waste," in addition to its ordinary meaning, means "physical waste" as that term is generally understood in the oil and gas industry. The term "waste" includes:

(a) The inefficient, excessive, or improper use or dissipation of reservoir energy; and the locating, spacing, drilling, equipping, operating, or producing of any oil or gas well or wells in a manner that ~~which~~ results, or tends to result, in reducing the quantity of oil or gas ultimately to be stored or recovered from any pool in this state.

(b) The inefficient storing of oil; and the locating, spacing, drilling, equipping, operating, or producing of any oil or gas well or wells in a manner that causes, or tends ~~causing, or tending~~ to cause, unnecessary or excessive surface loss or destruction of oil or gas.

(c) The producing of oil or gas in ~~such~~ a manner that causes ~~as to cause~~ unnecessary water channeling or coning.

(d) The operation of any oil well or wells with an inefficient gas-oil ratio.

(e) The drowning with water of any stratum or part thereof capable of producing oil or gas.

(f) The underground waste, however caused and whether or not defined.

(g) The creation of unnecessary fire hazards.

(h) The escape into the open air, from a well producing both oil and gas, of gas in excess of the amount that ~~which~~ is necessary in the efficient drilling or operation of the well.

(i) The use of gas for the manufacture of carbon black.

(j) Permitting gas produced from a gas well to escape into the air.

(k) The abuse of the correlative rights and opportunities of each owner of oil and gas in a common reservoir due to nonuniform, disproportionate, and unratable withdrawals, causing undue drainage between tracts of land.

(23) ~~(11)~~ "Product" means a ~~any~~ commodity made from oil or gas and includes refined crude oil, crude tops, topped crude, processed crude petroleum, residue from crude petroleum, cracking stock, uncracked fuel oil, fuel oil, treated crude oil, residuum, gas oil, casinghead gasoline, natural gas gasoline, naphtha, distillate, condensate, gasoline, waste oil, kerosene, benzine, wash oil, blended gasoline, lubricating oil, blends or mixtures of oil with one or more liquid products or byproducts derived from oil or gas, and blends or mixtures of two or more liquid products or byproducts derived from oil or gas, whether hereinabove enumerated or not.

(8) ~~(12)~~ "Illegal oil" means oil that ~~which~~ has been

produced within the state from any well or wells in excess of the amount allowed by rule, regulation, or order of the division, as distinguished from oil produced within the state from a well not producing in excess of the amount so allowed, which is "legal oil."

(7) ~~(13)~~ "Illegal gas" means gas that ~~which~~ has been produced within the state from any well or wells in excess of the amount allowed by any rule, regulation, or order of the division, as distinguished from gas produced within the State of Florida from a well not producing in excess of the amount so allowed, which is "legal gas."

(9) ~~(14)~~ "Illegal product" means a ~~any~~ product of oil or gas, any part of which was processed or derived, in whole or in part, from illegal gas or illegal oil or from any product thereof, as distinguished from "legal product," which is a product processed or derived to no extent from illegal oil or illegal gas.

(24) ~~(15)~~ "Reasonable market demand" means the amount of oil reasonably needed for current consumption, together with a reasonable amount of oil for storage and working stocks.

(30) ~~(16)~~ "Tender" means a permit or certificate of clearance for the transportation or the delivery of oil, gas, or products, approved and issued or registered under the authority of the division.

~~(17) The use of the word "and" includes the word "or" and the use of "or" includes "and," unless the context clearly requires a different meaning, especially with respect to such expressions as "oil and gas" or "oil or gas."~~

(32) ~~(18)~~ "Well site" means the general area around a well,

919526

which area has been disturbed from its natural or existing condition, as well as the drilling or production pad, mud and water circulation pits, and other operation areas necessary to drill for or produce oil or gas, or to inject gas into and recover gas from a natural gas storage facility.

(17) ~~(19)~~ "Oil and gas administrator" means the State Geologist.

(18) ~~(20)~~ "Operator" means the entity who:

(a) Has the right to drill and to produce a well; or

(b) As part of a natural gas storage facility, injects, or is engaged in the work of preparing to inject, gas into a natural gas storage reservoir; or stores gas in, or removes gas from, a natural gas storage reservoir.

(1) ~~(21)~~ "Completion date" means the day, month, and year that a new productive well, a previously shut-in well, or a temporarily abandoned well is completed, repaired, or recompleted and the operator begins producing oil or gas in commercial quantities.

(26) ~~(22)~~ "Shut-in well" means an oil or gas well that has been taken out of service for economic reasons or mechanical repairs.

(29) ~~(23)~~ "Temporarily abandoned well" means a permitted well or wellbore that has been abandoned by plugging in a manner that allows reentry and redevelopment in accordance with oil or gas rules of the Department of Environmental Protection.

(14) ~~(24)~~ "New field well" means an oil or gas well completed after July 1, 1997, in a new field as designated by the Department of Environmental Protection.

(6) ~~(25)~~ "Horizontal well" means a well completed with the

wellbore in a horizontal or nearly horizontal orientation within 10 degrees of horizontal within the producing formation.

(2) "Department" means the Department of Environmental Protection.

(10) "Lateral storage reservoir boundary" means the projection up to the land surface of the maximum horizontal extent of the gas volume contained in a natural gas storage reservoir.

(11) "Native gas" means gas that occurs naturally within this state and does not include gas produced outside the state, transported to this state, and injected into a permitted natural gas storage facility.

(12) "Natural gas storage facility" means an underground reservoir from which oil or gas has previously been produced and which is used or to be used for the underground storage of natural gas, and any surface or subsurface structure, or infrastructure, except wells. The term also includes a right or appurtenance necessary or useful in the operation of the facility for the underground storage of natural gas, including any necessary or reasonable reservoir protective area as designated for the purpose of ensuring the safe operation of the storage of natural gas or protecting the natural gas storage facility from pollution, invasion, escape, or migration of gas, or any subsequent extension thereof. The term does not mean a transmission, distribution, or gathering pipeline or system that is not used primarily as integral piping for a natural gas storage facility.

(13) "Natural gas storage reservoir" means a pool or field from which gas or oil has previously been produced and which is

suitable for or capable of being made suitable for the injection, storage, and recovery of gas, as identified in a permit application submitted to the department under s. 377.2407.

(16) "Oil and gas" has the same meaning as the term "oil or gas."

(25) "Reservoir protective area" means the area extending up to and including 2,000 feet surrounding a natural gas storage reservoir.

(27) "Shut-in bottom hole pressure" means the pressure at the bottom of a well when all valves are closed and no oil or gas has been allowed to escape for at least 24 hours.

Section 8. Subsection (1) of section 377.21, Florida Statutes, is amended to read:

377.21 Jurisdiction of division.—

(1) The division shall have jurisdiction and authority over all persons and property necessary to administer and enforce effectively the provisions of this law and all other laws relating to the conservation of oil and gas or to the storage of gas in and recovery of gas from natural gas storage reservoirs.

Section 9. Subsection (2) of section 377.22, Florida Statutes, is amended to read:

377.22 Rules and orders.—

(2) The department shall issue orders and adopt rules pursuant to ss. 120.536~~(1)~~ and 120.54 to implement and enforce the provisions of this chapter. Such rules and orders shall ensure that all precautions are taken to prevent the spillage of oil or any other pollutant in all phases of the drilling for, and extracting of, oil, gas, or other petroleum products, or

during the injection of gas into and recovery of gas from a natural gas storage reservoir. The department shall revise such rules from time to time as necessary for the proper administration and enforcement of this chapter. Rules adopted and orders issued in accordance with this section are ~~shall be~~ for, but ~~shall~~ not ~~be~~ limited to, the following purposes:

(a) To require the drilling, casing, and plugging of wells to be done in such a manner as to prevent the pollution of the fresh, salt, or brackish waters or the lands of the state and to protect the integrity of natural gas storage reservoirs.

(b) To prevent the alteration of the sheet flow of water in any area.

(c) To require that appropriate safety equipment be installed to minimize the possibility of an escape of oil or other petroleum products in the event of accident, human error, or a natural disaster during drilling, casing, or plugging of any well and during extraction operations.

(d) To require the drilling, casing, and plugging of wells to be done in such a manner as to prevent the escape of oil or other petroleum products from one stratum to another.

(e) To prevent the intrusion of water into an oil or gas stratum from a separate stratum, except as provided by rules of the division relating to the injection of water for proper reservoir conservation and brine disposal.

(f) To require a reasonable bond, or other form of security acceptable to the department, conditioned upon the performance of the duty to plug properly each dry and abandoned well and the full and complete restoration by the applicant of the area over which geophysical exploration, drilling, or production is

conducted to the similar contour and general condition in existence prior to such operation.

(g) To require and carry out a reasonable program of monitoring or inspection of all drilling operations, ~~or~~ producing wells, or injecting wells, including regular inspections by division personnel.

(h) To require the making of reports showing the location of all oil and gas wells; the making and filing of logs; the taking and filing of directional surveys; the filing of electrical, sonic, radioactive, and mechanical logs of oil and gas wells; if taken, the saving of cutting and cores, the cuts of which shall be given to the Bureau of Geology; and the making of reports with respect to drilling and production records. However, such information, or any part thereof, at the request of the operator, shall be exempt from the provisions of s. 119.07(1) and held confidential by the division for a period of 1 year after the completion of a well.

(i) To prevent wells from being drilled, operated, or produced in such a manner as to cause injury to neighboring leases, ~~or~~ property, or natural gas storage reservoirs.

(j) To prevent the drowning by water of any stratum, or part thereof, capable of producing oil or gas in paying quantities and to prevent the premature and irregular encroachment of water which reduces, or tends to reduce, the total ultimate recovery of oil or gas from any pool.

(k) To require the operation of wells with efficient gas-oil ratio, and to fix such ratios.

(l) To prevent "blowouts," "caving," and "seepage," in the sense that conditions indicated by such terms are generally

understood in the oil and gas business.

(m) To prevent fires.

(n) To identify the ownership of all oil or gas wells, producing leases, refineries, tanks, plants, structures, and storage and transportation equipment and facilities.

(o) To regulate the "shooting," perforating and chemical treatment of wells.

(p) To regulate secondary recovery methods, including the introduction of gas, air, water, or other substance into producing formations.

(q) To regulate gas cycling operations.

(r) To regulate the storage and recovery of gas injected into natural gas storage facilities.

(s) ~~(r)~~ If necessary for the prevention of waste, as herein defined, to determine, limit, and prorate the production of oil or gas, or both, from any pool or field in the state.

(t) ~~(s)~~ To require, either generally or in or from particular areas, certificates of clearance or tenders in connection with the transportation or delivery of oil or gas, or any product.

(u) ~~(t)~~ To regulate the spacing of wells and to establish drilling units.

(v) ~~(u)~~ To prevent, so far as is practicable, reasonably avoidable drainage from each developed unit which is not equalized by counterdrainage.

(w) ~~(v)~~ To require that geophysical operations requiring a permit be conducted in a manner which will minimize the impact on hydrology and biota of the area, especially environmentally sensitive lands and coastal areas.

(x) ~~(w)~~ To regulate aboveground crude oil storage tanks in a manner which will protect the water resources of the state.

(y) ~~(x)~~ To act in a receivership capacity for fractional mineral interests for which the owners are unknown or unlocated and to administratively designate the operator as the lessee.

Section 10. Subsections (1) and (2) of section 377.24, Florida Statutes, are amended to read:

377.24 Notice of intention to drill well; permits; abandoned wells and dry holes.—

(1) Before drilling a ~~any~~ well in search of oil or gas, or before storing gas in or recovering gas from a natural gas storage reservoir ~~shall be drilled~~, the person who desires ~~desiring~~ to drill for, store, or recover gas, or drill for oil or gas, ~~the same~~ shall notify the division upon such form as it may prescribe and shall pay a reasonable fee set by rule of the department not to exceed the actual cost of processing and inspecting for each well or reservoir. The drilling of any well and the storing and recovering of gas are ~~is hereby~~ prohibited until such notice is given, the ~~and such~~ fee is ~~has been~~ paid, and the permit is granted.

(2) An ~~Each~~ application for the drilling of a well in search of oil or gas, or for the storing of gas in and recovering of gas from a natural gas storage reservoir, in this state must ~~shall~~ include the address of the residence of the applicant, or applicants ~~each applicant~~, which must ~~address shall~~ be the address of each person involved in accordance with the records of the Division of Resource Management until such address is changed on the records of the division after written request.

919526

Section 11. Section 377.2407, Florida Statutes, is created to read:

377.2407 Natural gas storage facility permit application to inject gas into and recover gas from a natural gas storage reservoir.—

(1) Before drilling a well to inject gas into and recover gas from a natural gas storage reservoir, the person who desires to conduct such operation shall apply to the department in the manner described in this section using such form as the department may prescribe to obtain a natural gas storage facility permit. The department shall also require any applicant seeking to obtain such permit to pay a reasonable permit application fee. Such fee must be in an amount necessary to cover the costs associated with receiving, processing, issuing, and recertifying the permit application, and inspecting for compliance with the permit.

(2) Each application must contain:

(a) A detailed, three-dimensional description of the natural gas storage reservoir, including geologic-based descriptions of the reservoir boundaries, and the horizontal and vertical dimensions.

(b) A geographic description of the lateral storage reservoir boundary.

(c) A general description and location of all injection, recovery, withdrawal-only, and observation wells.

(d) A description of the reservoir protective area.

(e) Information demonstrating that the proposed natural gas storage reservoir is suitable for the storage and recovery of gas.

(f) Information identifying all reasonably known abandoned or active wells within the natural gas storage facility.

(g) A field-monitoring plan that requires, at a minimum, monthly field inspections of all wells that are part of the natural gas storage facility.

(h) A monitoring and testing plan for the well integrity.

(i) A well inspection plan that requires, at a minimum, the inspection of all wells that are part of the natural gas storage facility and plugged wells within the natural gas storage facility boundary.

(j) A spill prevention and response plan.

(k) A well spacing plan.

(l) An operating plan for the natural gas storage reservoir, which must include gas capacities, anticipated operating conditions, and maximum storage pressure.

(m) A gas migration response plan.

(n) A location plat and general facility map surveyed and prepared by a registered land surveyor licensed under chapter 472.

(3) The department may require the applicant to provide additional information that is deemed necessary to permit the development of the natural gas storage facility. Each well related to the natural gas storage facility shall be authorized and permitted individually upon the applicant’s satisfying applicable well construction and operation criteria under this part; however, notwithstanding any other provision of this chapter, well spacing requirements do not apply.

Section 12. Subsection (4) is added to section 377.241, Florida Statutes, to read:

919526

377.241 Criteria for issuance of permits.—The division, in the exercise of its authority to issue permits as hereinafter provided, shall give consideration to and be guided by the following criteria:

(4) For activities and operations concerning a natural gas storage facility, the nature, structure, and proposed use of the natural gas storage reservoir is suitable for the storage and recovery of gas without adverse effect to public health or safety or the environment.

Section 13. Subsection (3) of section 377.242, Florida Statutes, is amended to read:

377.242 Permits for drilling or exploring and extracting through well holes or by other means.—The department is vested with the power and authority:

(3) To issue permits to establish natural gas storage facilities or construct wells for the injection and recovery of any natural gas for ~~temporary~~ storage in natural gas storage ~~subsurface~~ reservoirs.

Each permit shall contain an agreement by the permitholder that the permitholder will not prevent inspection by division personnel at any time. The provisions of this section prohibiting permits for drilling or exploring for oil in coastal waters do not apply to any leases entered into before June 7, 1991.

Section 14. Section 377.2431, Florida Statutes, is created to read:

377.2431 Conditions for granting permits for natural gas storage facilities.—

919526

(1) A natural gas storage facility permit shall authorize the construction and operation of a natural gas storage facility and must be issued for the life of the facility, subject to recertification every 10 years.

(2) Before issuing or recertifying a permit, the department shall require satisfactory evidence of the following:

(a) The applicant has implemented, or is in the process of implementing, programs for the control and mitigation of pollution related to oil, petroleum products or their byproducts, and other pollutants.

(b) The applicant or operator has acquired a lawful right to drill, explore, or develop a natural gas storage reservoir from owners of at least 75 percent of the storage rights within the natural gas storage reservoir, or the applicant or operator has obtained a certificate of public convenience and necessity for the natural gas storage reservoir from the Federal Energy Regulatory Commission pursuant to the Natural Gas Act, 15 U.S.C. ss. 717 et seq.

(c) The applicant has used all reasonable means to identify known wells that have been drilled into or through the natural gas storage reservoir or the reservoir protective area to determine the status of the wells and whether inactive or abandoned wells have been properly plugged. For any well that has not been properly plugged, before conducting injection operations and after issuance of the permit, the applicant must plug or recondition the well to ensure the integrity of the storage reservoir or the reservoir protective area.

(d) The applicant has tested the quality of water produced by all water supply wells within the lateral boundary of the

natural gas storage facility and complied with all requirements under s. 377.2432. The applicant shall provide to the department and the owner of the water supply well a written copy of the water quality data collected under this paragraph.

(e) A determination has been made whether native gas or oil will be severed from below the soil or water of this state in the recovery of injected gas. If native gas or oil will be severed, the applicant or operator must acquire a lawful right to develop the native gas or oil before injecting gas into the natural gas storage reservoir.

(3) The applicant shall maintain records of well pressures recorded monthly, and monthly volumes of gas injected into and withdrawn from the reservoir. These records shall be maintained at the natural gas storage facility and shall be made available for inspection by the department at any reasonable time.

(4)(a) The maximum storage pressure for a natural gas storage reservoir shall be the highest shut-in bottom hole pressure found to exist during the production history of the reservoir, unless a higher pressure is established by the department based on testing of caprock and pool containment. The methods used for determining the higher pressure must be approved by the department.

(b) If the shut-in bottom hole pressure of the original discovery or of the highest production is not known, or a higher pressure has not been established through a method approved by the department pursuant to paragraph (a), the maximum storage reservoir pressure must be limited to a freshwater hydrostatic gradient.

(5) A permit may not be issued for a natural gas storage

facility that includes a natural gas storage reservoir located beneath an underground source of drinking water unless the applicant demonstrates that the injection, storage, or recovery of natural gas will not cause or allow natural gas to migrate into the underground source of drinking water; in any offshore location in the Gulf of Mexico, the Straits of Florida, or the Atlantic Ocean; or in any solution-mined cavern within a salt formation.

(6) A natural gas storage facility permit issued by the department must contain a condition that requires the permittee to obtain the lawful right to develop a natural gas storage reservoir from the owners of 100 percent of the storage rights within the natural gas storage reservoir.

Section 15. Section 377.2432, Florida Statutes, is created to read:

377.2432 Natural gas storage facilities; protection of water supplies.—

(1) An operator of a natural gas storage facility who affects a public or private underground water supply by pollution or diminution shall restore or replace the affected supply with an alternate source of water adequate in quantity and quality for the purposes served by the supply. The department shall ensure that the quality of restored or replaced water is comparable to the quality of the water before it was affected by the operator.

(2) Unless rebutted by a defense established in subsection (4), a natural gas storage facility operator is presumed responsible for pollution of an underground water supply if:

(a) The water supply is within the lateral boundary of the

natural gas storage facility; and

(b) The pollution occurred within 6 months after completion of drilling or alteration of any well under or associated with the natural gas storage facility permit or the initial injection of gas into the natural gas storage reservoir, whichever is later.

(3) If the affected underground water supply is within the rebuttable presumption area as provided in subsection (2) and the rebuttable presumption applies, the natural gas storage facility operator shall provide a temporary water supply if the water user is without a readily available alternative source of water at no cost to the owner or user of the affected water supply. The temporary water supply provided under this subsection must be adequate in quantity and quality for the purposes served by the affected supply.

(4) A natural gas storage facility operator rebuts the presumption in subsection (2) by affirmatively proving any of the following:

(a) The pollution existed before the drilling or alteration activity as determined by a predrilling or prealteration survey.

(b) The landowner or water purveyor refused to allow the operator access to conduct a predrilling or prealteration survey.

(c) The water supply well is not within the lateral boundary of the natural gas storage facility.

(d) The pollution occurred more than 6 months after completion of drilling or alteration of any well under or associated with the natural gas storage facility permit.

(e) The pollution occurred as the result of a cause other

than activities authorized under the natural gas storage facility permit.

(5) A natural gas storage facility operator electing to preserve a defense under subsection (4) must retain an independent certified laboratory to conduct a predrilling or prealteration survey of the water supply. A copy of survey results must be submitted to the department and the landowner or water purveyor in the manner prescribed by the department.

(6) A natural gas storage facility operator must provide written notice to the landowner or water purveyor indicating that the presumption established under subsection (2) may be void if the landowner or water purveyor refused to allow the operator access to conduct a predrilling or prealteration survey. Proof of written notice to the landowner or water purveyor must be provided to the department in order for the operator to retain the protections under subsection (4).

(7) This section does not prevent a landowner or water purveyor who claims pollution or diminution of a water supply from seeking any other remedy at law or in equity.

Section 16. Section 377.2433, Florida Statutes, is created to read:

377.2433 Protection of natural gas storage facilities; remedies.—

(1) The department may not authorize the drilling of any well into or through a permitted natural gas storage reservoir or reservoir protective area, except upon conditions deemed by the department to be sufficient to prevent the loss, migration, or escape of gas from the natural gas storage reservoir. The department shall provide written notice to the natural gas

storage facility operator of any application filed with the department and any agency action taken related to drilling a well into or through a permitted natural gas storage facility boundary or reservoir protective area.

(2) As a condition for the issuance of a permit by the department, an applicant seeking to drill a well into or through a permitted natural gas storage facility boundary or reservoir protective area must provide the affected natural gas storage facility operator a reasonable right of entry to observe and monitor all drilling activities.

(3) The department shall require by permit condition that any well drilled into or through a permitted natural gas storage reservoir or reservoir protective area is cased and cemented in a manner sufficient to protect the integrity of the natural gas storage reservoir.

Section 17. Section 377.2434, Florida Statutes, is created to read:

377.2434 Property rights to injected natural gas.—

(1) All natural gas that has previously been reduced to possession and that is subsequently injected into a natural gas storage facility is at all times the property of the injector or the injector’s heirs, successors, or assigns, whether owned by the injector or stored under contract.

(2) Such gas may not be subject to the right of the owner of the surface of the lands or of any mineral interest therein, under which the natural gas storage facilities lie, or to the right of any person, other than the injector or the injector’s heirs, successors, or assigns, to waste or otherwise interfere with or exercise control over such gas, to produce, to take, or

to reduce to possession, by means of the law of capture or otherwise. This subsection does not affect the ownership of hydrocarbons occurring naturally within this state or the right of the owner of the surface of the lands or of any mineral interest therein to drill or bore through the natural gas storage facilities in a manner that will protect the facilities against pollution or the escape of stored natural gas.

(3) With regard to natural gas that has migrated to adjoining property or to a stratum, or portion thereof, which has not been condemned or otherwise purchased:

(a) The injector or the injector's heirs, successors, or assigns:

1. May not lose title to or possession of the gas if the injector or the injector's heirs, successors, or assigns can prove by a preponderance of the evidence that the gas was originally injected into the underground storage; and

2. Have the right to conduct tests on any existing wells on adjoining property as may be reasonable to determine ownership of the gas, but the tests are solely at the injector's risk and expense.

(b) The owner of the stratum and the owner of the surface are entitled to compensation, including compensation for use of or damage to the surface or substratum, as provided by law.

Section 18. Subsection (3) of section 377.25, Florida Statutes, is amended to read:

377.25 Production pools; drilling units.—

(3) Each well permitted to be drilled upon any drilling unit shall be drilled approximately in the center thereof, with such exception as may be reasonably necessary where the division

finds that the unit is partly outside the pool or, for some other reason, a well approximately in the center of the unit would be nonproductive or where topographical conditions are such as to make the drilling approximately in the center of the unit unduly burdensome or where the operator proposes to complete the well with a horizontal or nearly horizontal well in the producing zone. Whenever an exception is granted, the division shall take such action as will offset any advantage which the person securing the exception may have over other producers by reason of the drilling of the well as an exception, and so that drainage from developed units to the tract, with respect to which the exception is granted, will be prevented or minimized, and the producer of the well drilled, as an exception, will be allowed to produce no more than his or her just and equitable share of the oil and gas in the pool, as such share is set forth in this section. This subsection does not apply to wells associated with a natural gas storage facility.

Section 19. Subsection (2) of section 377.28, Florida Statutes, is amended to read:

377.28 Cycling, pooling, and unitization of oil and gas.—

(2) The department shall issue an order requiring unit operation if it finds that:

(a) Unit operation of the field, or of any pool or pools, portion or portions, or combinations thereof within the field, is reasonably necessary to prevent waste, to avoid the drilling of unnecessary wells, or to increase the ultimate recovery of oil or gas by additional recovery methods; ~~and~~

(b) The estimated additional cost incident to the conduct of such operation will not exceed the value of the estimated

additional recovery of oil or gas; and

(c) The additional recovery of oil or gas does not adversely interfere with the storage or recovery of natural gas within a natural gas storage reservoir.

The phrase "additional recovery methods" as used herein includes, but is not limited to, the maintenance or partial maintenance of reservoir pressures; recycling; flooding a pool or pools, or parts thereof, with air, gas, water, liquid hydrocarbons, any other substance, or any combination thereof; or any other method of producing additional hydrocarbons approved by the department.

Section 20. Subsection (4) is added to section 377.30, Florida Statutes, to read:

377.30 Limitation on amount of oil or gas taken.—

(4) This section does not apply to nonnative gas recovered from a permitted natural gas storage facility.

Section 21. Subsection (1) of section 377.34, Florida Statutes, is amended to read:

377.34 Actions and injunctions by division.—

(1) Whenever it appears ~~shall appear~~ that a ~~any~~ person is violating, or threatening to violate, any statute of this state with respect to the conservation of oil or gas, or both, or any provision of this law, or any rule, regulation or order made ~~thereunder~~ by any act done in the operation of a ~~any~~ well producing oil or gas, or storing or recovering natural gas, or by omitting an ~~any~~ act required to be done ~~thereunder~~, the division, through its counsel, or the Department of Legal Affairs on its own initiative, may bring suit against such

person in the Circuit Court in the County of Leon, state, or in the circuit court in the county in which the well in question is located, at the option of the division, or the Department of Legal Affairs, to restrain such person or persons from continuing such violation or from carrying out the threat of violation. In such suit, the division, or the Department of Legal Affairs, may obtain injunctions, prohibitory and mandatory, including temporary restraining orders and temporary injunctions, as the facts may warrant, including, when appropriate, an injunction restraining any person from moving or disposing of illegal oil, illegal gas or illegal product, and any or all such commodities may be ordered to be impounded or placed under the control of a receiver appointed by the court if, in the judgment of the court, such action is advisable.

Section 22. Paragraph (a) of subsection (1) of section 377.37, Florida Statutes, is amended to read:

377.37 Penalties.—

(1)(a) Any person who violates any provision of this law or any rule, regulation, or order of the division made under this chapter or who violates the terms of any permit to drill for or produce oil, gas, or other petroleum products referred to in s. 377.242(1)~~,~~ or to store gas in a natural gas storage facility, or any lessee, permitholder, or operator of equipment or facilities used in the exploration for, drilling for, or production of oil, gas, or other petroleum products, or storage of gas in a natural gas storage facility, who refuses inspection by the division as provided in this chapter, is liable to the state for any damage caused to the air, waters, or property, including animal, plant, or aquatic life, of the state and for

reasonable costs and expenses of the state in tracing the source of the discharge, in controlling and abating the source and the pollutants, and in restoring the air, waters, and property, including animal, plant, and aquatic life, of the state. Furthermore, such person, lessee, permitholder, or operator is subject to the judicial imposition of a civil penalty in an amount of not more than $10,000 for each offense. However, the court may receive evidence in mitigation. Each day during any portion of which such violation occurs constitutes a separate offense. Nothing herein shall give the department the right to bring an action on behalf of any private person.

Section 23. Subsections (1) and (3) of section 377.371, Florida Statutes, are amended to read:

377.371 Pollution prohibited; reporting, liability.—

(1) A ~~No~~ person drilling for or producing oil, gas, or other petroleum products, or storing gas in a natural gas storage facility, may not ~~shall~~ pollute land or water; damage aquatic or marine life, wildlife, birds, or public or private property; or allow any extraneous matter to enter or damage any mineral or freshwater-bearing formation.

(3) Because it is the intent of this chapter to provide the means for rapid and effective cleanup and to minimize damages resulting from pollution in violation of this chapter, if the waters of the state are polluted by the drilling, storage of natural gas, or production operations of any person or persons and such pollution damages or threatens to damage human, animal, or plant life, public or private property, or any mineral or water-bearing formation, said person shall be liable to the state for all costs of cleanup or other damage incurred by the

919526

state. In any suit to enforce claims of the state under this chapter, it is ~~shall~~ not ~~be~~ necessary for the state to plead or prove negligence in any form or manner on the part of the person or persons conducting the drilling or production operations; the state need only plead and prove the fact of the prohibited discharge or other polluting condition and that it occurred at the facilities of the person or persons conducting the drilling or production operation. A ~~No~~ person or persons conducting the drilling, storage, or production operation may not ~~shall~~ be held liable if said person or persons prove that the prohibited discharge or other polluting condition was the result of any of the following:

(a) An act of war.

(b) An act of government, either state, federal, or municipal.

(c) An act of God, which means an unforeseeable act exclusively occasioned by the violence of nature without the interference of any human agency.

(d) An act or omission of a third party without regard to whether any such act or omission was or was not negligent.

Section 24. Paragraph (b) of subsection (14) and paragraph (b) of subsection (19) of section 403.973, Florida Statutes, are amended, and paragraphs (g) and (h) are added to subsection (3) of that section, to read:

403.973 Expedited permitting; amendments to comprehensive plans.—

(3)

(g) Projects for natural gas storage facilities that are permitted under chapter 377 are eligible for the expedited

permitting process.

(h) Projects to construct interstate natural gas pipelines subject to certification by the Federal Energy Regulatory Commission are eligible for the expedited permitting process.

(14)

(b) Projects identified in paragraphs ~~paragraph~~ (3)(f)-(h) or challenges to state agency action in the expedited permitting process for establishment of a state-of-the-art biomedical research institution and campus in this state by the grantee under s. 288.955 are subject to the same requirements as challenges brought under paragraph (a), except that, notwithstanding s. 120.574, summary proceedings must be conducted within 30 days after a party files the motion for summary hearing, regardless of whether the parties agree to the summary proceeding.

(19) The following projects are ineligible for review under this part:

(b) A project, the primary purpose of which is to:

1. Effect the final disposal of solid waste, biomedical waste, or hazardous waste in this state.

2. Produce electrical power, unless the production of electricity is incidental and not the primary function of the project or the electrical power is derived from a fuel source for renewable energy as defined in s. 366.91(2)(d).

3. Extract natural resources.

4. Produce oil.

5. Construct, maintain, or operate an oil, petroleum, ~~natural gas,~~ or sewage pipeline.

Section 25. The Department of Environmental Protection

shall adopt rules relating to natural gas storage before issuing a natural gas storage facility permit.

Section 26. This act shall take effect July 1, 2013.

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

Delete everything before the enacting clause and insert:

A bill to be entitled

An act relating to underground natural gas storage; providing a short title; amending s. 211.02, F.S.; narrowing the use of the term "oil"; amending s. 211.025, F.S.; narrowing the scope of the gas production tax to apply only to native gas; amending s. 376.301, F.S.; conforming a cross-reference; amending s. 377.06, F.S.; declaring underground natural gas storage to be in the public interest; amending s. 377.18, F.S.; clarifying common sources of oil and gas; amending s. 377.19, F.S.; modifying and providing definitions; amending s. 377.21, F.S.; extending the jurisdiction of the Division of Resource Management of the Department of Environmental Protection; amending s. 377.22, F.S.; expanding the scope of the department's rules and orders; amending s. 377.24, F.S.; providing for the notice and permitting of storage in and recovery from natural gas storage reservoirs; creating s. 377.2407, F.S.; establishing a natural gas storage facility permit application process; specifying requirements for an

application, including fees; amending s. 377.241, F.S.; providing criteria that the division must consider in issuing permits; amending s. 377.242, F.S.; granting authority to the department to issue permits to establish natural gas storage facilities; creating s. 377.2431, F.S.; establishing conditions and procedures for granting natural gas storage facility permits; prohibiting the issuance of permits for facilities located in specified areas; creating s. 377.2432, F.S.; providing for the protection of water supplies at natural gas storage facilities; providing that an operator is presumed responsible for pollution of an underground water supply under certain circumstances; creating s. 377.2433, F.S.; providing for the protection of natural gas storage facilities through requirement of notice, compliance with certain standards, and a right of entry to monitor activities; creating s. 377.2434, F.S.; providing that property rights to injected natural gas are with the injector or the injector’s heirs, successors, or assigns; providing for compensation to the owner of the stratum and the owner of the surface for use of or damage to the surface or substratum; amending s. 377.25, F.S.; limiting the scope of certain drilling unit requirements; amending s. 377.28, F.S.; modifying situations in which the department is required to issue an order requiring unit operation; amending s. 377.30, F.S.; providing that limitations on the amount of oil or gas taken do not apply to nonnative gas

recovered from a permitted natural gas storage facility; amending s. 377.34, F.S.; providing for legal action against a person who appears to be violating a rule that relates to the storage or recovery of natural gas; amending s. 377.37, F.S.; expanding penalties to reach persons who violate the terms of a permit relating to storage of gas in a natural gas storage facility; amending s. 377.371, F.S.; providing that a person storing gas in a natural gas storage facility may not pollute or otherwise damage certain areas and that a person who pollutes water by storing natural gas is liable for cleanup or other costs incurred by the state; amending s. 403.973, F.S.; allowing expedited permitting for natural gas storage facilities permitted under ch. 377, F.S., and certain projects to construct interstate natural gas pipelines; providing that natural gas storage facilities are subject to certain requirements; directing the department to adopt certain rules before issuing permits for natural gas storage facilities; providing an effective date.

By the Committees on Communications, Energy, and Public Utilities; and Environmental Preservation and Conservation; and Senators Richter and Smith

natural gas storage facility; amending s. 377.371, F.S.; providing that a person storing gas in a natural gas storage facility may not pollute or otherwise damage certain areas and that a person who pollutes water by storing natural gas is liable for cleanup or other costs incurred by the state; amending s. 403.973, F.S.; allowing expedited permitting for natural gas storage facilities permitted under ch. 377, F.S., and for certain projects to construct interstate natural gas pipelines; providing that natural gas storage facilities are subject to certain requirements; requiring the Department of Environmental Protection to adopt rules; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. This act may be cited as the "Florida Underground Natural Gas Storage Act."

Section 2. Subsection (7) is added to section 211.02, Florida Statutes, to read:

211.02 Oil production tax; basis and rate of tax; tertiary oil and mature field recovery oil.—An excise tax is hereby levied upon every person who severs oil in the state for sale, transport, storage, profit, or commercial use. Except as otherwise provided in this part, the tax is levied on the basis of the entire production of oil in this state, including any royalty interest. Such tax shall accrue at the time the oil is severed and shall be a lien on production regardless of the

place of sale, to whom sold, or by whom used, and regardless of the fact that delivery of the oil may be made outside the state.

(7) As used in this section, the term "oil" does not include gas-phase hydrocarbons that are transported into the state, injected in the gaseous phase into a natural gas storage facility permitted under part I of chapter 377, and later recovered as a liquid hydrocarbon.

Section 3. Subsection (6) is added to section 211.025, Florida Statutes, to read:

211.025 Gas production tax; basis and rate of tax.—An excise tax is hereby levied upon every person who severs gas in the state for sale, transport, profit, or commercial use. Except as otherwise provided in this part, the tax shall be levied on the basis of the entire production of gas in this state, including any royalty interest. Such tax shall accrue at the time the gas is severed and shall be a lien on production regardless of the place of sale, to whom sold, or by whom used and regardless of the fact that delivery of the gas may be made outside the state.

(6) This section applies only to native gas as defined in s. 377.19.

Section 4. Subsection (36) of section 376.301, Florida Statutes, is amended to read:

376.301 Definitions of terms used in ss. 376.30-376.317, 376.70, and 376.75.—When used in ss. 376.30-376.317, 376.70, and 376.75, unless the context clearly requires otherwise, the term:

(36) "Pollutants" includes any "product" as defined in s. 377.19~~(11)~~, pesticides, ammonia, chlorine, and derivatives thereof, excluding liquefied petroleum gas.

Section 5. Section 377.06, Florida Statutes, is amended to read:

377.06 Public policy of state concerning natural resources of oil and gas.—It is hereby declared ~~to be~~ the public policy of this ~~the~~ state to conserve and control the natural resources of oil and gas in this ~~said~~ state, and the products made from oil and gas in this state ~~therefrom~~; to prevent waste of ~~said~~ natural resources; to provide for the protection and adjustment of the correlative rights of the owners of the land in which the ~~wherein said~~ natural resources lie, of ~~and~~ the owners and producers of oil and gas resources and the products made from oil and gas ~~therefrom~~, and of others interested in these resources and products ~~therein~~; to safeguard the health, property, and public welfare of the residents ~~citizens~~ of this ~~said~~ state and other interested persons and for all purposes indicated by the provisions in this section ~~herein~~. Further, it is declared that underground storage of natural gas is in the public interest because underground storage promotes conservation of natural gas; makes gas more readily available to the domestic, commercial, and industrial consumers of this state; and allows the accumulation of large quantities of gas in reserve for orderly withdrawal during emergencies or periods of peak demand. It is not the intention of this section to limit, ~~or~~ restrict, or modify in any way the provisions of this law.

Section 6. Section 377.18, Florida Statutes, is amended to read:

377.18 Common sources of oil and gas.—All common sources of supply of oil or native ~~and~~ gas ~~or either of them~~ shall have the production ~~therefrom~~ controlled or regulated in accordance with

the provisions of this law.

Section 7. Section 377.19, Florida Statutes, is reordered and amended to read:

377.19 Definitions.—As used ~~Unless the context otherwise requires, the words defined in this section shall have the following meanings when found~~ in ss. 377.06, 377.07, and 377.10-377.40, the term:

(3) ~~(1)~~ "Division" means the Division of Resource Management of the Department of Environmental Protection.

(28) ~~(2)~~ "State" means the State of Florida.

(20) ~~(3)~~ "Person" means a ~~any~~ natural person, corporation, association, partnership, receiver, trustee, guardian, executor, administrator, fiduciary, or representative of any kind.

(15) ~~(4)~~ "Oil" means crude petroleum oil and other hydrocarbons, regardless of gravity, which are produced at the well in liquid form by ordinary production methods, and which are not the result of condensation of gas after it leaves the reservoir.

(5) "Gas" means all natural gas, including casinghead gas, and all other hydrocarbons not defined as oil in subsection (4).

(21) ~~(6)~~ "Pool" means an underground reservoir containing or appearing to contain a common accumulation of oil or gas or both. Each zone of a general structure which is completely separated from any other zone on the structure is considered a separate pool as used herein.

(4) ~~(7)~~ "Field" means the general area that ~~which~~ is underlaid, or appears to be underlaid, by at least one pool. The term~~; and "field"~~ includes the underground reservoir, or reservoirs, containing oil or gas, or both. The terms ~~words~~

"field" and "pool" mean the same thing if ~~when~~ only one underground reservoir is involved; however, the term "field," unlike the term "pool," may relate to two or more pools.

(19)~~(8)~~ "Owner" means the person who has the right to drill into and to produce from any pool and to appropriate the production ~~either~~ for the person or for the person and another, or others.

(22)~~(9)~~ "Producer" means the owner or operator of a well or wells capable of producing oil or gas, or both.

(31)~~(10)~~ "Waste," in addition to its ordinary meaning, means "physical waste" as that term is generally understood in the oil and gas industry. The term "waste" includes:

(a) The inefficient, excessive, or improper use or dissipation of reservoir energy; and the locating, spacing, drilling, equipping, operating, or producing of any oil or gas well or wells in a manner that ~~which~~ results, or tends to result, in reducing the quantity of oil or gas ultimately to be stored or recovered from any pool in this state.

(b) The inefficient storing of oil; and the locating, spacing, drilling, equipping, operating, or producing of any oil or gas well or wells in a manner that causes, or tends ~~causing, or tending~~ to cause, unnecessary or excessive surface loss or destruction of oil or gas.

(c) The producing of oil or gas in ~~such~~ a manner that causes ~~as to cause~~ unnecessary water channeling or coning.

(d) The operation of any oil well or wells with an inefficient gas-oil ratio.

(e) The drowning with water of any stratum or part thereof capable of producing oil or gas.

(f) The underground waste, however caused and whether or not defined.

(g) The creation of unnecessary fire hazards.

(h) The escape into the open air, from a well producing both oil and gas, of gas in excess of the amount that ~~which~~ is necessary in the efficient drilling or operation of the well.

(i) The use of gas for the manufacture of carbon black.

(j) Permitting gas produced from a gas well to escape into the air.

(k) The abuse of the correlative rights and opportunities of each owner of oil and gas in a common reservoir due to nonuniform, disproportionate, and unratable withdrawals, causing undue drainage between tracts of land.

(23)~~(11)~~ "Product" means a ~~any~~ commodity made from oil or gas and includes refined crude oil, crude tops, topped crude, processed crude petroleum, residue from crude petroleum, cracking stock, uncracked fuel oil, fuel oil, treated crude oil, residuum, gas oil, casinghead gasoline, natural gas gasoline, naphtha, distillate, condensate, gasoline, waste oil, kerosene, benzine, wash oil, blended gasoline, lubricating oil, blends or mixtures of oil with one or more liquid products or byproducts derived from oil or gas, and blends or mixtures of two or more liquid products or byproducts derived from oil or gas, whether hereinabove enumerated or not.

(8)~~(12)~~ "Illegal oil" means oil that ~~which~~ has been produced within the state from any well or wells in excess of the amount allowed by rule, regulation, or order of the division, as distinguished from oil produced within the state from a well not producing in excess of the amount so allowed,

which is "legal oil."

(7)~~(13)~~ "Illegal gas" means gas that ~~which~~ has been produced within the state from any well or wells in excess of the amount allowed by any rule, regulation, or order of the division, as distinguished from gas produced within the State of Florida from a well not producing in excess of the amount so allowed, which is "legal gas."

(9)~~(14)~~ "Illegal product" means a ~~any~~ product of oil or gas, any part of which was processed or derived, in whole or in part, from illegal gas or illegal oil or from any product thereof, as distinguished from "legal product," which is a product processed or derived to no extent from illegal oil or illegal gas.

(24)~~(15)~~ "Reasonable market demand" means the amount of oil reasonably needed for current consumption, together with a reasonable amount of oil for storage and working stocks.

(30)~~(16)~~ "Tender" means a permit or certificate of clearance for the transportation or the delivery of oil, gas, or products, approved and issued or registered under the authority of the division.

~~(17) The use of the word "and" includes the word "or" and the use of "or" includes "and," unless the context clearly requires a different meaning, especially with respect to such expressions as "oil and gas" or "oil or gas."~~

(32)~~(18)~~ "Well site" means the general area around a well, which area has been disturbed from its natural or existing condition, as well as the drilling or production pad, mud and water circulation pits, and other operation areas necessary to drill for or produce oil or gas, or to inject gas into and

recover gas from a natural gas storage facility.

(17)~~(19)~~ "Oil and gas administrator" means the State Geologist.

(18)~~(20)~~ "Operator" means the entity who:

(a) Has the right to drill and to produce a well; or

(b) As part of a natural gas storage facility, injects, or is engaged in the work of preparing to inject, gas into a natural gas storage reservoir; or stores gas in, or removes gas from, a natural gas storage reservoir.

(1)~~(21)~~ "Completion date" means the day, month, and year that a new productive well, a previously shut-in well, or a temporarily abandoned well is completed, repaired, or recompleted and the operator begins producing oil or gas in commercial quantities.

(26)~~(22)~~ "Shut-in well" means an oil or gas well that has been taken out of service for economic reasons or mechanical repairs.

(29)~~(23)~~ "Temporarily abandoned well" means a permitted well or wellbore that has been abandoned by plugging in a manner that allows reentry and redevelopment in accordance with oil or gas rules of the Department of Environmental Protection.

(14)~~(24)~~ "New field well" means an oil or gas well completed after July 1, 1997, in a new field as designated by the Department of Environmental Protection.

(6)~~(25)~~ "Horizontal well" means a well completed with the wellbore in a horizontal or nearly horizontal orientation within 10 degrees of horizontal within the producing formation.

(2) "Department" means the Department of Environmental Protection.

(10) "Lateral storage reservoir boundary" means the projection up to the land surface of the maximum horizontal extent of the gas volume contained in a natural gas storage reservoir.

(11) "Native gas" means gas that occurs naturally within this state and does not include gas produced outside the state, transported to this state, and injected into a permitted natural gas storage facility.

(12) "Natural gas storage facility" means an underground reservoir from which oil or gas has previously been produced and which is used or intended to be used for the underground storage of natural gas, and any surface or subsurface structure, or infrastructure, except wells. The term also includes a right or appurtenance necessary or useful in the operation of the facility for the underground storage of natural gas, including any necessary or reasonable reservoir protective area as designated for the purpose of ensuring the safe operation of the storage of natural gas or protecting the natural gas storage facility from pollution, invasion, escape, or migration of gas, or any subsequent extension thereof. The term does not mean a transmission, distribution, or gathering pipeline or system that is not used primarily as integral piping for a natural gas storage facility.

(13) "Natural gas storage reservoir" means a pool or field from which oil or gas has previously been produced and which is suitable for or capable of being made suitable for the injection, storage, and recovery of gas, as identified in a permit application submitted to the department under s. 377.2407.

(16) "Oil and gas" has the same meaning as the term "oil or gas."

(25) "Reservoir protective area" means the area extending up to and including 2,000 feet surrounding a natural gas storage reservoir.

(27) "Shut-in bottom hole pressure" means the pressure at the bottom of a well when all valves are closed and no oil or gas has been allowed to escape for at least 24 hours.

Section 8. Subsection (1) of section 377.21, Florida Statutes, is amended to read:

377.21 Jurisdiction of division.—

(1) The division shall have jurisdiction and authority over all persons and property necessary to administer and enforce effectively the provisions of this law and all other laws relating to the conservation of oil and gas or to the storage of gas in and recovery of gas from natural gas storage reservoirs.

Section 9. Subsection (2) of section 377.22, Florida Statutes, is amended to read:

377.22 Rules and orders.—

(2) The department shall issue orders and adopt rules pursuant to ss. 120.536~~(1)~~ and 120.54 to implement and enforce the provisions of this chapter. Such rules and orders shall ensure that all precautions are taken to prevent the spillage of oil or any other pollutant in all phases of the drilling for, and extracting of, oil, gas, or other petroleum products, or during the injection of gas into and recovery of gas from a natural gas storage reservoir. The department shall revise such rules from time to time as necessary for the proper administration and enforcement of this chapter. Rules adopted

and orders issued in accordance with this section are ~~shall be~~ for, but ~~shall~~ not ~~be~~ limited to, the following purposes:

(a) To require the drilling, casing, and plugging of wells to be done in such a manner as to prevent the pollution of the fresh, salt, or brackish waters or the lands of the state and to protect the integrity of natural gas storage reservoirs.

(b) To prevent the alteration of the sheet flow of water in any area.

(c) To require that appropriate safety equipment be installed to minimize the possibility of an escape of oil or other petroleum products in the event of accident, human error, or a natural disaster during drilling, casing, or plugging of any well and during extraction operations.

(d) To require the drilling, casing, and plugging of wells to be done in such a manner as to prevent the escape of oil or other petroleum products from one stratum to another.

(e) To prevent the intrusion of water into an oil or gas stratum from a separate stratum, except as provided by rules of the division relating to the injection of water for proper reservoir conservation and brine disposal.

(f) To require a reasonable bond, or other form of security acceptable to the department, conditioned upon the performance of the duty to plug properly each dry and abandoned well and the full and complete restoration by the applicant of the area over which geophysical exploration, drilling, or production is conducted to the similar contour and general condition in existence prior to such operation.

(g) To require and carry out a reasonable program of monitoring or inspection of all drilling operations, ~~or~~

producing wells, or injecting wells, including regular inspections by division personnel.

(h) To require the making of reports showing the location of all oil and gas wells; the making and filing of logs; the taking and filing of directional surveys; the filing of electrical, sonic, radioactive, and mechanical logs of oil and gas wells; if taken, the saving of cutting and cores, the cuts of which shall be given to the Bureau of Geology; and the making of reports with respect to drilling and production records. However, such information, or any part thereof, at the request of the operator, shall be exempt from the provisions of s. 119.07(1) and held confidential by the division for a period of 1 year after the completion of a well.

(i) To prevent wells from being drilled, operated, or produced in such a manner as to cause injury to neighboring leases, ~~or~~ property, or natural gas storage reservoirs.

(j) To prevent the drowning by water of any stratum, or part thereof, capable of producing oil or gas in paying quantities and to prevent the premature and irregular encroachment of water which reduces, or tends to reduce, the total ultimate recovery of oil or gas from any pool.

(k) To require the operation of wells with efficient gas-oil ratio, and to fix such ratios.

(l) To prevent "blowouts," "caving," and "seepage," in the sense that conditions indicated by such terms are generally understood in the oil and gas business.

(m) To prevent fires.

(n) To identify the ownership of all oil or gas wells, producing leases, refineries, tanks, plants, structures, and

storage and transportation equipment and facilities.

(o) To regulate the "shooting," perforating and chemical treatment of wells.

(p) To regulate secondary recovery methods, including the introduction of gas, air, water, or other substance into producing formations.

(q) To regulate gas cycling operations.

(r) To regulate the storage and recovery of gas injected into natural gas storage facilities.

(s) ~~(r)~~ If necessary for the prevention of waste, as herein defined, to determine, limit, and prorate the production of oil or gas, or both, from any pool or field in the state.

(t) ~~(s)~~ To require, either generally or in or from particular areas, certificates of clearance or tenders in connection with the transportation or delivery of oil or gas, or any product.

(u) ~~(t)~~ To regulate the spacing of wells and to establish drilling units.

(v) ~~(u)~~ To prevent, so far as is practicable, reasonably avoidable drainage from each developed unit which is not equalized by counterdrainage.

(w) ~~(v)~~ To require that geophysical operations requiring a permit be conducted in a manner which will minimize the impact on hydrology and biota of the area, especially environmentally sensitive lands and coastal areas.

(x) ~~(w)~~ To regulate aboveground crude oil storage tanks in a manner which will protect the water resources of the state.

(y) ~~(x)~~ To act in a receivership capacity for fractional mineral interests for which the owners are unknown or unlocated

and to administratively designate the operator as the lessee.

Section 10. Subsections (1) and (2) of section 377.24, Florida Statutes, are amended to read:

377.24 Notice of intention to drill well; permits; abandoned wells and dry holes.—

(1) Before drilling a ~~any~~ well in search of oil or gas, or before storing gas in or recovering gas from a natural gas storage reservoir ~~shall be drilled~~, the person who desires ~~desiring~~ to drill for, store, or recover gas, or drill for oil, ~~the same~~ shall notify the division upon such form as it may prescribe and shall pay a reasonable fee set by rule of the department not to exceed the actual cost of processing and inspecting for each well or reservoir. The drilling of any well and the storing and recovering of gas are ~~is hereby~~ prohibited until such notice is given, the ~~and such~~ fee is ~~has been~~ paid, and the permit is granted.

(2) An ~~Each~~ application for the drilling of a well in search of oil or gas, or for the storing of gas in and recovering of gas from a natural gas storage reservoir, in this state must ~~shall~~ include the address of the residence of the applicant, or applicants ~~each applicant~~, which must ~~address shall~~ be the address of each person involved in accordance with the records of the Division of Resource Management until such address is changed on the records of the division after written request.

Section 11. Section 377.2407, Florida Statutes, is created to read:

377.2407 Natural gas storage facility permit application to inject gas into and recover gas from a natural gas storage

reservoir.—

(1) Before drilling a well to inject gas into and recover gas from a natural gas storage reservoir, the person who desires to conduct such operation shall apply to the department in the manner described in this section using such form as the department may prescribe to obtain a natural gas storage facility permit. The Department of Environmental Protection shall also require any applicant seeking to obtain such permit to pay a reasonable permit application fee. Such fee must be in an amount necessary to cover the costs associated with permitting, processing, issuing, and recertifying the permit application, and inspecting for compliance with the permit.

(2) Each application must contain:

(a) A detailed, three-dimensional description of the natural gas storage reservoir, including geologic-based descriptions of the reservoir boundaries, and the horizontal and vertical dimensions.

(b) A geographic description of the lateral reservoir boundary.

(c) A general description and location of all injection, recovery, withdrawal-only, and observation wells.

(d) A description of the reservoir protective area.

(e) Information demonstrating that the proposed natural gas storage reservoir is suitable for the storage and recovery of gas.

(f) Information identifying all known abandoned or active wells within the natural gas storage facility.

(g) A field-monitoring plan that requires, at a minimum, monthly field inspections of all wells that are part of the

natural gas storage facility.

(h) A monitoring and testing plan for the well integrity.

(i) A well inspection plan that requires, at a minimum, the inspection of all wells that are part of the natural gas storage facility and plugged wells within the natural gas storage facility boundary.

(j) A spill prevention and response plan.

(k) A well spacing plan.

(l) An operating plan for the natural gas storage reservoir, which must include gas capacities, anticipated operating conditions, and maximum storage pressure.

(m) A gas migration response plan.

(n) A location plat and general facility map surveyed and prepared by a registered land surveyor licensed under chapter 472.

(3) The department may require additional information that is deemed necessary to permit the development of the natural gas storage facility. Each well related to the natural gas storage facility shall be authorized and permitted individually upon the applicant satisfying applicable well construction and operation criteria under this part; however, notwithstanding any other provision under this chapter, well spacing requirements do not apply.

Section 12. Subsection (4) is added to section 377.241, Florida Statutes, to read:

377.241 Criteria for issuance of permits.—The division, in the exercise of its authority to issue permits as hereinafter provided, shall give consideration to and be guided by the following criteria:

(4) For activities and operations concerning a natural gas storage facility, the nature, structure, and proposed use of the natural gas storage reservoir is suitable for the storage and recovery of gas without adverse effect to public health or safety or the environment.

Section 13. Subsection (3) of section 377.242, Florida Statutes, is amended to read:

377.242 Permits for drilling or exploring and extracting through well holes or by other means.—The department is vested with the power and authority:

(3) To issue permits to establish natural gas storage facilities or construct wells for the injection and recovery of any natural gas for ~~temporary~~ storage in natural gas storage ~~subsurface~~ reservoirs.

Each permit shall contain an agreement by the permitholder that the permitholder will not prevent inspection by division personnel at any time. The provisions of this section prohibiting permits for drilling or exploring for oil in coastal waters do not apply to any leases entered into before June 7, 1991.

Section 14. Section 377.2431, Florida Statutes, is created to read:

377.2431 Conditions for granting permits for natural gas storage facilities.—

(1) A natural gas storage facility permit shall authorize the construction and operation of a natural gas storage facility and must be issued for the life of the facility, subject to recertification every 10 years.

(2) Before issuing or recertifying a permit, the department shall require satisfactory evidence of the following:

(a) The applicant has implemented, or is in the process of implementing, programs for the control and mitigation of pollution related to oil, petroleum products or their byproducts, and other pollutants.

(b) The applicant or operator has acquired a lawful right to drill, explore, or develop a natural gas storage reservoir from owners of at least 75 percent of the storage rights within the natural gas storage reservoir, or the applicant or operator has obtained a certificate of public convenience and necessity for the natural gas storage reservoir from the Federal Energy Regulatory Commission pursuant to the Natural Gas Act, 15 U.S.C. ss. 717 et seq.

(c) The applicant has used all reasonable means to identify known wells that have been drilled into or through the natural gas storage reservoir or reservoir protective area to determine the status of the wells and whether inactive or abandoned wells have been properly plugged. For any well that has not been properly plugged, before conducting injection operations and after issuance of the permit, the applicant must plug or recondition the well to ensure the integrity of the storage reservoir or reservoir protective area.

(d) The applicant has tested the quality of water produced by all water supply wells within the lateral boundary of the natural gas storage facility and complied with all requirements under s. 377.2432. The applicant shall provide to the department and the owner of the water supply well a written copy of the water quality data collected under this paragraph.

(e) A determination has been made regarding whether native gas or oil will be severed from below the soil or water of this state in the recovery of injected gas. If native gas or oil will be severed, the applicant or operator must acquire a lawful right to develop the native gas or oil before injecting gas into the natural gas storage reservoir.

(3) The applicant shall maintain records of well pressures recorded monthly, and monthly volumes of gas injected into and withdrawn from the reservoir. These records shall be maintained at the natural gas storage facility and shall be made available for inspection by the department at any reasonable time.

(4)(a) The maximum storage pressure for a natural gas storage reservoir shall be the highest shut-in bottom hole pressure found to exist during the production history of the reservoir, unless a higher pressure is established by the department based on testing of caprock and pool containment. The methods used for determining the higher pressure must be approved by the department.

(b) If the shut-in bottom hole pressure of the original discovery or of the highest production is not known, or a higher pressure has not been established through a method approved by the department pursuant to paragraph (a), the maximum storage reservoir pressure must be limited to a freshwater hydrostatic gradient.

(5) A permit may not be issued for a natural gas storage facility that includes a natural gas storage reservoir located beneath an underground source of drinking water unless the applicant demonstrates that the injection or recovery of natural gas will not cause or allow natural gas to migrate into the

underground source of drinking water; or in any offshore location in the Gulf of Mexico, the Straits of Florida, or the Atlantic Ocean; or in any solution-mined cavern within a salt formation.

Section 15. Section 377.2432, Florida Statutes, is created to read:

377.2432 Natural gas storage facilities; protection of water supplies.—

(1) An operator of a natural gas storage facility who affects a public or private underground water supply by pollution or diminution shall restore or replace the affected supply with an alternate source of water adequate in quantity and quality for the purposes served by the supply. The department shall ensure that the quality of restored or replaced water is comparable to the quality of the water before it was affected by the operator.

(2) Unless rebutted by a defense established in subsection (4), a natural gas storage facility operator is presumed responsible for pollution of an underground water supply if:

(a) The water supply is within the lateral boundary of the natural gas storage facility; and

(b) The pollution occurred within 6 months after completion of drilling or alteration of any well under or associated with the natural gas storage facility permit or after the initial injection of gas into the natural gas storage reservoir, whichever is later.

(3) If the affected underground water supply is within the rebuttable presumption area as provided in subsection (2) and the rebuttable presumption applies, the natural gas storage

facility operator shall provide a temporary water supply if the water user is without a readily available alternative source of water at no cost to the owner of the affected water supply. The temporary water supply provided under this subsection must be adequate in quantity and quality for the purposes served by the affected supply.

(4) A natural gas storage facility operator rebuts the presumption in subsection (2) by affirmatively proving any of the following:

(a) The pollution existed before the drilling or alteration activity as determined by a predrilling or prealteration survey.

(b) The landowner or water purveyor refused to allow the operator access to conduct a predrilling or prealteration survey.

(c) The water supply well is not within the lateral boundary of the natural gas storage facility.

(d) The pollution occurred more than 6 months after completion of drilling or alteration of any well under or associated with the natural gas storage facility permit.

(e) The pollution occurred as the result of a cause other than activities authorized under the natural gas storage facility permit.

(5) A natural gas storage facility operator electing to preserve a defense under subsection (4) must retain an independent certified laboratory to conduct a predrilling or prealteration survey of the water supply. A copy of survey results must be submitted to the department and the landowner or water purveyor in the manner prescribed by the department.

(6) A natural gas storage facility operator must provide

written notice to the landowner or water purveyor indicating that the presumption established under subsection (2) may be void if the landowner or water purveyor refused to allow the operator access to conduct a predrilling or prealteration survey. Proof of written notice to the landowner or water purveyor must be provided to the department in order for the operator to retain the protections under subsection (4).

(7) This section does not prevent a landowner or water purveyor who claims pollution or diminution of a water supply from seeking any other remedy at law or in equity.

Section 16. Section 377.2433, Florida Statutes, is created to read:

377.2433 Protection of natural gas storage facilities.—

(1) The department may not authorize the drilling of any well into or through a permitted natural gas storage reservoir or reservoir protective area, except upon conditions deemed by the department to be sufficient to prevent the loss, migration, or escape of gas from the natural gas storage reservoir. The department shall provide written notice to the natural gas storage facility operator of any application filed with the department and any agency action taken related to drilling a well into or through a permitted natural gas storage facility boundary or reservoir protective area.

(2) As a condition for the issuance of a permit by the department, an applicant seeking to drill a well into or through a permitted natural gas storage facility boundary or reservoir protective area must provide the affected natural gas storage facility operator a reasonable right of entry to observe and monitor all drilling activities.

(3) The department shall ensure that any well drilled into or through a permitted natural gas storage reservoir or reservoir protective area is cased and cemented in a manner sufficient to protect the integrity of the natural gas storage reservoir.

Section 17. Section 377.2434, Florida Statutes, is created to read:

377.2434 Property rights to injected natural gas.—

(1) All natural gas that has previously been reduced to possession and that is subsequently injected into a natural gas storage facility is at all times the property of the injector or the injector's heirs, successors, or assigns, whether owned by the injector or stored under contract.

(2) Such gas may not be subject to the right of the owner of the surface of the lands or of any mineral interest therein, under which the natural gas storage facilities lie, or to the right of any person, other than the injector or the injector's heirs, successors, or assigns, to waste or otherwise interfere with or exercise control over such gas, to produce, to take, or to reduce to possession, by means of the law of capture or otherwise. This subsection does not affect the ownership of hydrocarbons occurring naturally within this state or the right of the owner of the surface of the lands or of any mineral interest therein to drill or bore through the natural gas storage facilities in a manner that will protect the facilities against pollution or the escape of stored natural gas.

(3) With regard to natural gas that has migrated to adjoining property or to a stratum, or portion thereof, which has not been condemned or otherwise purchased:

(a) The injector or the injector's heirs, successors, or assigns:

1. May not lose title to or possession of the gas if the injector or the injector's heirs, successors, or assigns can prove by a preponderance of the evidence that the gas was originally injected into the underground storage; and

2. Have the right to conduct tests on any existing wells on adjoining property as may be reasonable to determine ownership of the gas, but the tests are solely at the injector's risk and expense.

(b) The owner of the stratum and the owner of the surface are entitled to compensation, including compensation for use of or damage to the surface or substratum, as provided by law.

Section 18. Subsection (3) of section 377.25, Florida Statutes, is amended to read:

377.25 Production pools; drilling units.—

(3) Each well permitted to be drilled upon any drilling unit shall be drilled approximately in the center thereof, with such exception as may be reasonably necessary where the division finds that the unit is partly outside the pool or, for some other reason, a well approximately in the center of the unit would be nonproductive or where topographical conditions are such as to make the drilling approximately in the center of the unit unduly burdensome or where the operator proposes to complete the well with a horizontal or nearly horizontal well in the producing zone. Whenever an exception is granted, the division shall take such action as will offset any advantage which the person securing the exception may have over other producers by reason of the drilling of the well as an exception,

and so that drainage from developed units to the tract, with respect to which the exception is granted, will be prevented or minimized, and the producer of the well drilled, as an exception, will be allowed to produce no more than his or her just and equitable share of the oil and gas in the pool, as such share is set forth in this section. This subsection does not apply to wells associated with a natural gas storage facility.

Section 19. Subsection (2) of section 377.28, Florida Statutes, is amended to read:

377.28 Cycling, pooling, and unitization of oil and gas.—

(2) The department shall issue an order requiring unit operation if it finds that:

(a) Unit operation of the field, or of any pool or pools, portion or portions, or combinations thereof within the field, is reasonably necessary to prevent waste, to avoid the drilling of unnecessary wells, or to increase the ultimate recovery of oil or gas by additional recovery methods; ~~and~~

(b) The estimated additional cost incident to the conduct of such operation will not exceed the value of the estimated additional recovery of oil or gas; and

(c) The additional recovery of oil or gas does not adversely interfere with the storage or recovery of natural gas within a natural gas storage reservoir.

The phrase "additional recovery methods" as used herein includes, but is not limited to, the maintenance or partial maintenance of reservoir pressures; recycling; flooding a pool or pools, or parts thereof, with air, gas, water, liquid hydrocarbons, any other substance, or any combination thereof;

or any other method of producing additional hydrocarbons approved by the department.

Section 20. Subsection (4) is added to section 377.30, Florida Statutes, to read:

377.30 Limitation on amount of oil or gas taken.—

(4) This section does not apply to nonnative gas recovered from a permitted natural gas storage facility.

Section 21. Subsection (1) of section 377.34, Florida Statutes, is amended to read:

377.34 Actions and injunctions by division.—

(1) Whenever it appears ~~shall appear~~ that a ~~any~~ person is violating, or threatening to violate, any statute of this state with respect to the conservation of oil or gas, or both, or any provision of this law, or any rule, regulation or order made ~~thereunder~~ by any act done in the operation of a ~~any~~ well producing oil or gas, or storing or recovering natural gas, or by omitting an ~~any~~ act required to be done ~~thereunder~~, the division, through its counsel, or the Department of Legal Affairs on its own initiative, may bring suit against such person in the Circuit Court in the County of Leon, state, or in the circuit court in the county in which the well in question is located, at the option of the division, or the Department of Legal Affairs, to restrain such person or persons from continuing such violation or from carrying out the threat of violation. In such suit, the division, or the Department of Legal Affairs, may obtain injunctions, prohibitory and mandatory, including temporary restraining orders and temporary injunctions, as the facts may warrant, including, when appropriate, an injunction restraining any person from moving or

disposing of illegal oil, illegal gas or illegal product, and any or all such commodities may be ordered to be impounded or placed under the control of a receiver appointed by the court if, in the judgment of the court, such action is advisable.

Section 22. Paragraph (a) of subsection (1) of section 377.37, Florida Statutes, is amended to read:

377.37 Penalties.—

(1)(a) Any person who violates any provision of this law or any rule, regulation, or order of the division made under this chapter or who violates the terms of any permit to drill for or produce oil, gas, or other petroleum products referred to in s. 377.242(1)~~,~~ or to store gas in a natural gas storage facility, or any lessee, permitholder, or operator of equipment or facilities used in the exploration for, drilling for, or production of oil, gas, or other petroleum products, or storage of gas in a natural gas storage facility, who refuses inspection by the division as provided in this chapter, is liable to the state for any damage caused to the air, waters, or property, including animal, plant, or aquatic life, of the state and for reasonable costs and expenses of the state in tracing the source of the discharge, in controlling and abating the source and the pollutants, and in restoring the air, waters, and property, including animal, plant, and aquatic life, of the state. Furthermore, such person, lessee, permitholder, or operator is subject to the judicial imposition of a civil penalty in an amount of not more than $10,000 for each offense. However, the court may receive evidence in mitigation. Each day during any portion of which such violation occurs constitutes a separate offense. Nothing herein shall give the department the right to

bring an action on behalf of any private person.

Section 23. Subsections (1) and (3) of section 377.371, Florida Statutes, are amended to read:

377.371 Pollution prohibited; reporting, liability.—

(1) A ~~No~~ person drilling for or producing oil, gas, or other petroleum products, or storing gas in a natural gas storage facility, may not ~~shall~~ pollute land or water; damage aquatic or marine life, wildlife, birds, or public or private property; or allow any extraneous matter to enter or damage any mineral or freshwater-bearing formation.

(3) Because it is the intent of this chapter to provide the means for rapid and effective cleanup and to minimize damages resulting from pollution in violation of this chapter, if the waters of the state are polluted by the drilling, storage of natural gas, or production operations of any person or persons and such pollution damages or threatens to damage human, animal, or plant life, public or private property, or any mineral or water-bearing formation, said person shall be liable to the state for all costs of cleanup or other damage incurred by the state. In any suit to enforce claims of the state under this chapter, it is ~~shall~~ not ~~be~~ necessary for the state to plead or prove negligence in any form or manner on the part of the person or persons conducting the drilling or production operations; the state need only plead and prove the fact of the prohibited discharge or other polluting condition and that it occurred at the facilities of the person or persons conducting the drilling or production operation. A ~~No~~ person or persons conducting the drilling, storage, or production operation may not ~~shall~~ be held liable if said person or persons prove that the prohibited

discharge or other polluting condition was the result of any of the following:

(a) An act of war.

(b) An act of government, either state, federal, or municipal.

(c) An act of God, which means an unforeseeable act exclusively occasioned by the violence of nature without the interference of any human agency.

(d) An act or omission of a third party without regard to whether any such act or omission was or was not negligent.

Section 24. Paragraph (b) of subsection (14) and paragraph (b) of subsection (19) of section 403.973, Florida Statutes, are amended, and paragraphs (g) and (h) are added to subsection (3) of that section, to read:

403.973 Expedited permitting; amendments to comprehensive plans.—

(3)

(g) Projects for natural gas storage facilities that are permitted under chapter 377 are eligible for the expedited permitting process.

(h) Projects to construct interstate natural gas pipelines subject to certification by the Federal Energy Regulatory Commission are eligible for the expedited permitting process.

(14)

(b) Projects identified in paragraph (3)(f), (3)(g), or (3)(h) or challenges to state agency action in the expedited permitting process for establishment of a state-of-the-art biomedical research institution and campus in this state by the grantee under s. 288.955 are subject to the same requirements as

challenges brought under paragraph (a), except that, notwithstanding s. 120.574, summary proceedings must be conducted within 30 days after a party files the motion for summary hearing, regardless of whether the parties agree to the summary proceeding.

(19) The following projects are ineligible for review under this part:

(b) A project, the primary purpose of which is to:

1. Effect the final disposal of solid waste, biomedical waste, or hazardous waste in this state.

2. Produce electrical power, unless the production of electricity is incidental and not the primary function of the project or the electrical power is derived from a fuel source for renewable energy as defined in s. 366.91(2)(d).

3. Extract natural resources.

4. Produce oil.

5. Construct, maintain, or operate an oil, petroleum, ~~natural gas,~~ or sewage pipeline.

Section 25. The Department of Environmental Protection shall adopt rules relating to natural gas storage before issuing a natural gas storage facility permit.

Section 26. This act shall take effect July 1, 2013.

The Honorable Joe Negron, Chair
Committee on Appropriations
201 The Capitol
404 South Monroe Street
Tallahassee, FL 32399

Mr. Chairman:

CS/CS/SB 958, Florida Underground Natural Gas Storage Act, has been reported favorably out of Committee on Communications, Energy and Public Utilities. It is had been referred to the Committee on Appropriations.

I would appreciate the placing of this bill on the committee's next agenda.

Thank you for your consideration.

Sincerely,

Garrett Richter

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Finance and Tax)

A bill to be entitled

An act relating to the tax on sales, use, and other transactions; amending ss. 212.05 and 212.08, F.S.; providing a sales tax exemption for dyed diesel fuel used in commercial shrimping; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (k) of subsection (1) of section 212.05, Florida Statutes, is amended to read:

212.05 Sales, storage, use tax.—It is hereby declared to be the legislative intent that every person is exercising a taxable privilege who engages in the business of selling tangible personal property at retail in this state, including the business of making mail order sales, or who rents or furnishes any of the things or services taxable under this chapter, or who stores for use or consumption in this state any item or article of tangible personal property as defined herein and who leases or rents such property within the state.

(1) For the exercise of such privilege, a tax is levied on each taxable transaction or incident, which tax is due and payable as follows:

(k) At the rate of 6 percent of the sales price of each gallon of diesel fuel not taxed under chapter 206 purchased for use in a vessel, except dyed diesel fuel that is exempt pursuant to s. 212.08(4)(a)(4).

243574

576-04171-13

Section 2. Paragraph (a) of subsection (4) of section 212.08, Florida Statutes, is amended to read:

212.08 Sales, rental, use, consumption, distribution, and storage tax; specified exemptions.—The sale at retail, the rental, the use, the consumption, the distribution, and the storage to be used or consumed in this state of the following are hereby specifically exempt from the tax imposed by this chapter.

(4) EXEMPTIONS; ITEMS BEARING OTHER EXCISE TAXES, ETC.—

(a) Also exempt are:

1. Water delivered to the purchaser through pipes or conduits or delivered for irrigation purposes. The sale of drinking water in bottles, cans, or other containers, including water that contains minerals or carbonation in its natural state or water to which minerals have been added at a water treatment facility regulated by the Department of Environmental Protection or the Department of Health, is exempt. This exemption does not apply to the sale of drinking water in bottles, cans, or other containers if carbonation or flavorings, except those added at a water treatment facility, have been added. Water that has been enhanced by the addition of minerals and that does not contain any added carbonation or flavorings is also exempt.

2. All fuels used by a public or private utility, including a ~~any~~ municipal corporation or rural electric cooperative association, in the generation of electric power or energy for sale. Fuel other than motor fuel and diesel fuel is taxable as provided in this chapter with the exception of fuel expressly exempt herein. Motor fuels and diesel fuels are taxable as provided in chapter 206, with the exception of those motor fuels

243574

576-04171-13

and diesel fuels used by railroad locomotives or vessels to transport persons or property in interstate or foreign commerce, which are taxable under this chapter only to the extent provided herein. The basis of the tax shall be the ratio of intrastate mileage to interstate or foreign mileage traveled by the carrier's railroad locomotives or vessels that were used in interstate or foreign commerce and that had at least some ~~Florida~~ mileage in this state during the previous fiscal year of the carrier, such ratio to be determined at the close of the fiscal year of the carrier. However, during the fiscal year in which the carrier begins its initial operations in this state, the carrier's mileage apportionment factor may be determined on the basis of an estimated ratio of anticipated miles in this state to anticipated total miles for that year, and subsequently, additional tax shall be paid on the motor fuel and diesel fuels, or a refund may be applied for, on the basis of the actual ratio of the carrier's railroad locomotives' or vessels' miles in this state to its total miles for that year. This ratio shall be applied each month to the total ~~Florida~~ purchases made in this state of motor and diesel fuels to establish that portion of the total used and consumed in intrastate movement and subject to tax under this chapter. The basis for imposition of any discretionary surtax shall be set forth in s. 212.054. Fuels used exclusively in intrastate commerce do not qualify for the proration of tax.

3. The transmission or wheeling of electricity.

4. Dyed diesel fuel placed into the storage tank of a vessel designed, constructed, and used exclusively for the taking of shrimp from salt and fresh waters for sale. The

243574

576-04171-13

exemption does not apply unless the purchaser of the dyed diesel fuel provides the seller with a written statement, signed by the purchaser, verifying that the dyed diesel fuel is to be used by the vessel exclusively for the taking of shrimp from salt and fresh waters for sale. Any dyed diesel fuel that is not used exclusively as verified in such statement is subject to the tax levied under s. 212.05(1)(k), and is due and payable by the purchaser.

Section 3. This act shall take effect July 1, 2013.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Appropriations Subcommittee on Finance and Tax

BILL:	CS/CS/SB 960
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Finance and Tax); Commerce and Tourism Committee; and Senator Bean
SUBJECT:	Tax on Sales, Use, and Other Transactions
DATE:	April 25, 2013 REVISED:

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/CS/SB 960 provides a sales tax exemption for dyed diesel fuel used by vessels designed, constructed, and used exclusively for the taking of shrimp from salt and fresh water.

The Revenue Estimating Conference determined that this bill will decrease revenue deposited in the State Transportation Trust Fund by $0.3 million in Fiscal Year 2013-2014, with a negative $0.3 million recurring impact to the trust fund.

This bill substantially amends sections 212.05 and 212.08, Florida Statutes.

II. Present Situation:

Currently, under chs. 206 and 212, F.S., a number of taxes are levied on diesel fuel in Florida.[1] Dyed diesel fuel, however, is exempt from the taxes in ch. 206, F.S.[2] Dyed diesel can only be

[1] *See* ss. 206.87, 212.05(1)(k), 212.0501, F.S. One purpose of these taxes is to provide revenue to defray the cost of constructing and maintaining public highways in Florida. *See* s. 206.85, F.S.

[2] Section 206.874(1) and (3), F.S.

purchased and used for specific purposes that do not involve commercial use on public highways, such as, on a farm for farm processing, in school buses, and in commercial fishing vessels.[3] Because it is exempt from the taxes in ch. 206, F.S., dyed diesel is less expensive than non-dyed diesel fuel. Consequently, dyed diesel allows the Department of Revenue (DOR) to ensure vehicles and equipment are using the dyed diesel fuel only for exempt purposes.

Although dyed diesel fuel is exempt from the taxes in ch. 206, F.S., it is generally not exempt from the sales tax in ch. 212, F.S.[4] Under s. 212.05, F.S., a 6 percent sales tax is levied on the sale price of each gallon of diesel fuel not taxed under ch. 206, F.S., used in a vessel.[5] Because dyed diesel fuel used in commercial fishing vessels is exempt from taxes under ch. 206, F.S., it is subject to the 6 percent sales tax in s. 212.05, F.S.

Section 212.08, F.S., provides a partial exemption from the 6 percent sales tax for dyed diesel fuel used by vessels to transport persons or property in interstate or foreign commerce, including commercial fishing vessels.[6] This partial exemption is calculated based on the ratio of intrastate mileage to interstate or foreign mileage traveled by vessels that were used in interstate or foreign commerce and that had at least some Florida mileage during the previous fiscal year.[7] This ratio, known as the mileage apportionment factor, is generally determined at the close of the carrier's fiscal year.[8]

Dyed diesel fuel used exclusively in intrastate commerce does not qualify for the prorated exemption.[9] Consequently, dyed diesel fuel used for inshore commercial fishing or fishing that occurs within the territorial waters of Florida is not exempt from the 6 percent sales tax.[10]

III. Effect of Proposed Changes:

Sections 1 and 2 amend ss. 212.05 and 212.08, F.S., to provide a sales tax exemption for dyed diesel fuel that is placed in the storage tanks of vessels designed, constructed, and used exclusively for the taking of shrimp from salt and fresh waters for sale. The exemption only applies when the purchaser of the fuel provides the seller with a written statement, signed by the purchaser, verifying that the fuel is to be used by the vessel exclusively for the taking of shrimp

[3] Section 206.874(3), F.S. Similarly, motor fuel used for aquacultural and commercial fishing purposes are exempt from the local option tax, state comprehensive enhanced transportation system tax, municipal fuel tax, and fuel sales taxes paid under s. 206.41, F.S. Section 206.41(4)(c), F.S.

[4] Section 212.0501(3), F.S., exempts diesel fuel used "on account of residential purposes; or in any tractor, vehicle, or other equipment used exclusively on a farm or for processing farm products on the farm, no part of which diesel fuel is used in any licensed motor vehicle on the public highways of this state; or the purchase or storage of diesel fuel held for resale."

[5] Section 212.05(1)(k), F.S.

[6] *See* Rule 12A-1.0641, F.A.C. "Commercial fishing vessels" are defined by DOR as "vessels designed, constructed, and used exclusively for the taking of fish, crayfish, oysters, shrimp, and sponges from the salt and fresh waters for sale. Vessels used for sports or pleasure fishing, such as pleasure fishing boats, charter boats, or party boats, are not commercial fishing vessels."

[7] Section 212.08(4)(a)2., F.S.; Rule 12A-1.0641, F.A.C.

[8] *Supra* note 7. The calculation for the first year's ratio is based on an estimated ratio of anticipated miles in the state to the anticipated total miles for that year, and either an additional tax will be paid or a refund may be applied for based on the actual ratio of miles in the state to total miles for the year. Section 212.08(4)(a)2., F.S.

[9] *Supra* note 7.

[10] *See* Rule 12A-1.0641, F.A.C.

from salt and fresh waters for sale. Any fuel not used exclusively for this purpose is subject to the 6 percent sales tax levied under s. 212.05(1)(k), F.S.

Section 3 provides that the bill takes effect July 1, 2013.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference determined that this bill will decrease revenue deposited in the State Transportation Trust Fund by $0.3 million in Fiscal Year 2013-2014, with a negative $0.3 million recurring impact to the trust fund.

B. Private Sector Impact:

Commercial shrimpers who operate in state waters may benefit from the reduced tax assessment on dyed diesel fuel used to operate their vessels.

C. Government Sector Impact:

According to the DOR, the bill will have an insignificant operational impact on the agency.[11]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

[11] Department of Revenue, *Agency Bill Analysis: CS/HB 423* (March 6, 2013) (on file with the Senate Commerce and Tourism Committee).

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 23, 2013:
The committee substitute:

- Limits the sales tax exemption on dyed diesel fuel to vessels designed, constructed and used exclusively for the taking of shrimp from salt and fresh waters for sale.
- Provides that the exemption only applies when the purchaser of the fuel provides the seller with a written statement, signed by the purchaser, verifying that the fuel is to be used by the vessel exclusively for the taking of shrimp from salt and fresh waters for sale.

CS by Commerce and Tourism on March 18, 2013:
The committee substitute:

- Extends the sales tax exemption on dyed diesel fuel to vessels used for commercial fishing and aquaculture purposes, which includes commercial shrimping.
- Removes the requirement that the purchaser provide the seller with a written statement, signed by the purchaser, verifying that the fuel is to be used by the vessel exclusively for the taking of shrimp from salt and fresh waters for sale.

B. Amendments:

None.

By the Committee on Commerce and Tourism; and Senator Bean

577-02587-13 2013960c1

A bill to be entitled

An act relating to the tax on sales, use, and other transactions; amending s. 212.05, F.S.; providing an exception to sales tax for dyed diesel fuel used in vessels for commercial fishing and aquacultural purposes; amending s. 212.0501, F.S.; providing an exception from sales tax collected by a licensed sales tax dealer for dyed diesel fuel used in vessels for commercial fishing and aquacultural purposes; amending s. 212.08, F.S.; providing a sales tax exemption for dyed diesel fuel used in vessels for commercial fishing and aquacultural purposes; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (k) of subsection (1) of section 212.05, Florida Statutes, is amended to read:

212.05 Sales, storage, use tax.—It is hereby declared to be the legislative intent that every person is exercising a taxable privilege who engages in the business of selling tangible personal property at retail in this state, including the business of making mail order sales, or who rents or furnishes any of the things or services taxable under this chapter, or who stores for use or consumption in this state any item or article of tangible personal property as defined herein and who leases or rents such property within the state.

(1) For the exercise of such privilege, a tax is levied on each taxable transaction or incident, which tax is due and

577-02587-13 2013960c1

payable as follows:

(k) At the rate of 6 percent of the sales price of each gallon of diesel fuel not taxed under chapter 206 purchased for use in a vessel, except dyed diesel fuel that is exempt pursuant to s. 212.08(4)(a)4.

Section 2. Subsection (4) of section 212.0501, Florida Statutes, is amended to read:

212.0501 Tax on diesel fuel for business purposes; purchase, storage, and use.—

(4) Except as otherwise provided in s. 212.05(1)(k), a licensed sales tax dealer may elect to collect such tax pursuant to this chapter on all sales to each person who purchases diesel fuel, except dyed diesel fuel used for commercial fishing and aquacultural purposes listed in s. 206.41(4)(c)3., for consumption, use, or storage by a trade or business. When the licensed sales tax dealer has not elected to collect such tax on all such sales, the purchaser or ultimate consumer shall be liable for the payment of tax directly to the state.

Section 3. Paragraph (a) of subsection (4) of section 212.08, Florida Statutes, is amended to read:

212.08 Sales, rental, use, consumption, distribution, and storage tax; specified exemptions.—The sale at retail, the rental, the use, the consumption, the distribution, and the storage to be used or consumed in this state of the following are hereby specifically exempt from the tax imposed by this chapter.

(4) EXEMPTIONS; ITEMS BEARING OTHER EXCISE TAXES, ETC.—

(a) Also exempt are:

1. Water delivered to the purchaser through pipes or

conduits or delivered for irrigation purposes. The sale of drinking water in bottles, cans, or other containers, including water that contains minerals or carbonation in its natural state or water to which minerals have been added at a water treatment facility regulated by the Department of Environmental Protection or the Department of Health, is exempt. This exemption does not apply to the sale of drinking water in bottles, cans, or other containers if carbonation or flavorings, except those added at a water treatment facility, have been added. Water that has been enhanced by the addition of minerals and that does not contain any added carbonation or flavorings is also exempt.

2. All fuels used by a public or private utility, including any municipal corporation or rural electric cooperative association, in the generation of electric power or energy for sale. Fuel other than motor fuel and diesel fuel is taxable as provided in this chapter with the exception of fuel expressly exempt herein. Motor fuels and diesel fuels are taxable as provided in chapter 206, with the exception of those motor fuels and diesel fuels used by railroad locomotives or vessels to transport persons or property in interstate or foreign commerce, which are taxable under this chapter only to the extent provided herein. The basis of the tax shall be the ratio of intrastate mileage to interstate or foreign mileage traveled by the carrier's railroad locomotives or vessels that were used in interstate or foreign commerce and that had at least some Florida mileage during the previous fiscal year of the carrier, such ratio to be determined at the close of the fiscal year of the carrier. However, during the fiscal year in which the carrier begins its initial operations in this state, the

carrier's mileage apportionment factor may be determined on the basis of an estimated ratio of anticipated miles in this state to anticipated total miles for that year, and subsequently, additional tax shall be paid on the motor fuel and diesel fuels, or a refund may be applied for, on the basis of the actual ratio of the carrier's railroad locomotives' or vessels' miles in this state to its total miles for that year. This ratio shall be applied each month to the total Florida purchases made in this state of motor and diesel fuels to establish that portion of the total used and consumed in intrastate movement and subject to tax under this chapter. The basis for imposition of any discretionary surtax shall be set forth in s. 212.054. Fuels used exclusively in intrastate commerce do not qualify for the proration of tax.

3. The transmission or wheeling of electricity.

4. Dyed diesel fuel placed into the storage tank of a vessel used exclusively for the commercial fishing and aquacultural purposes listed in s. 206.41(4)(c)3.

Section 4. This act shall take effect July 1, 2013.

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

PCS/CS/SB 980 revises the criteria for the performance evaluation of classroom teachers and nonclassroom instructional personnel. The student learning growth portion of a classroom teacher's evaluation must only be based on the performance of students assigned to the teacher in the subjects taught by him or her. For nonclassroom instructional personnel, the student learning growth portion of the evaluation is based on performance data that reflects their actual contributions to the performance of students actually assigned to their areas of responsibility.

The bill requires a school district to approve and publish any district-mandated testing administration schedules on its website and report the schedules to the Department of Education by October 1, annually.

The bill has no fiscal impact on state appropriations.

The bill is effective July 1, 2013.

This bill creates an undesignated section of law.

II. Present Situation:

Florida's educator evaluation system differentiates among four levels: highly effective; effective; needs improvement or, for instructional personnel in the first three years of employment who need improvement, developing;[1] and unsatisfactory.[2]

Evaluation Criteria

The Department of Education must approve each school district's instructional personnel and school administrator performance evaluation system.[3] Components of the performance evaluation system are divided into three parts: performance of students, instructional practice or leadership, (for instructional or administrative personnel, respectively), and professional responsibilities.[4] The Commissioner of Education is required to consult with instructional personnel, school administrators, education stakeholders, and experts in developing the performance levels for the evaluation system.[5]

At least fifty percent of the evaluation for classroom teachers[6] and other instructional personnel are based on student performance for students assigned to them over a 3-year period.[7] For other instructional personnel,[8] a school district may include specific job-performance expectations related to student support and use student learning growth data and other measurable student outcomes specific to the individual's assignment, as long as the student learning growth accounts for at least 30 percent of the evaluation.[9] The remainder of the evaluation must be based on the Florida Educator Accomplished Practices and professional responsibilities.[10]

At least fifty percent of a school administrator's evaluation is based on student performance over a 3-year period.[11] The remainder of the evaluation is based on indicators that include the recruitment and retention of effective or highly effective teachers, improvement in the percentage of classroom teachers evaluated at the effective or highly effective level, other leadership practices that result in improved student outcomes, and professional responsibilities.[12]

If less than 3 years of student learning growth data is available for an evaluation, the district must include the years for which data is available and may reduce the percentage of the evaluation based on student learning growth to not less than 40 percent for classroom teachers and school administrators and not less than 20 percent for other instructional personnel.[13]

[13] s. 1012.34(3)(a)1., F.S.

Assessments

School districts are required to use the state's learning growth model for FCAT-related courses beginning in the 2011-2012 school year.[14] School districts must use comparable measures of student growth for other grades and subjects with the department's assistance, if needed.[15] Additionally, districts are permitted to request alternatives to the growth measure, if justified, through the evaluation approval process.[16]

The law requires school districts, beginning with the 2014-2015 school year, to administer local assessments that measure student mastery of the content.[17] The school district can use statewide assessments, other standardized assessments, including nationally recognized standardized assessments, industry certification examinations, or district-developed or selected end-of-course assessments.[18]

A district that has not implemented an assessment for a course or has not adopted a comparable measure of student learning growth has the discretion to use two alternative growth measures for a classroom teacher who teaches the course: student learning growth on statewide assessments or student learning growth based on measurable learning targets in the school improvement plan.[19] Additionally, a district school superintendent may assign to an instructional team, the student learning growth of the team's students on statewide assessments.[20]

Pay

Current law provides for a new performance pay salary schedule that requires a base salary schedule with salary increases for a highly effective or effective teacher or school administrator, as determined by his or her evaluation.[21] The law also requires a district school board to adopt a grandfathered salary schedule or salary schedules for use as the basis for paying all school employees hired before July 1, 2014.[22]

III. Effect of Proposed Changes:

Performance Evaluations

CS/CS/SB 980 revises the criteria for evaluating classroom teachers and instructional personnel for purposes of the performance pay schedule in s. 1012.22, F.S. The Department of Education, through the performance evaluation system approval process would ensure that the provisions of the bill are implemented.

[14] s. 1012.34(7)(b), F.S.
[15] *Id.*
[16] s. 1012.34(7)(c) and (d), F.S. The DOE approves each school district's instructional personnel and school administrator performance evaluation system

[21] s. 1012.22(1)(c)4. and 5., F.S
[22] *Id.*

The student learning growth portion of a classroom teacher's evaluation must only be based on the performance of students assigned to the teacher in the subjects taught by him or her. For courses associated with a statewide assessment, a student achievement measure may be used rather than student learning growth, if there is no approved statewide growth formula for the assessment. For courses associated with a school district assessment, a student achievement measure may be used rather than student learning growth, if student achievement is a more appropriate measure of performance. The remaining portion of the evaluation would be based on instructional practice and job responsibilities that are determined by the district and are part of the state approved evaluation system.

For nonclassroom instructional personnel, the student learning growth portion of the evaluation is based on performance data that reflects their actual contributions to the performance of students assigned to their areas of responsibility, as defined in the district-developed or district-selected assessments that are a part of the state approved evaluation system. The remaining portion of their evaluation is based on instructional practice and professional and job responsibilities that are determined by the district and part of the state approved evaluation system.

In addition, the bill requires a school district to approve and publish any district-mandated testing administration schedules on its website and report the schedules to the Department of Education by October 1, annually.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Education on April 4, 2013:
The committee substitute:
- Clarifies the use of student achievement measures rather than student learning growth for state versus district assessments for teacher evaluations, and
- Requires a school district to approve and publish any district-mandated testing administration schedules on its website and report the schedules to the Department of Education by October 1, annually.

CS by Committee on Education on March 18, 2013:
The committee substitute:
- Removes the provision that allows a school district to reduce the percentage of the performance evaluation of classroom teachers and other instructional personnel which is based on student performance, if the school district uses multiple measures of instructional practice.

of Education; amending s. 1012.2315, F.S.; prohibiting a student from being assigned in a classroom in the following school year to a teacher who received a performance evaluation rating of "needs improvement"

687024

or "unsatisfactory" in the preceding school year under certain circumstances; authorizing a parent to choose to have a student who is enrolling in an extracurricular course that is taught by a teacher who received a performance evaluation of "needs improvement" or "unsatisfactory" in the preceding school year under certain circumstances; providing an effective date.

577432

576-03643-13

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Education)

A bill to be entitled

An act relating to education; providing requirements for measuring student performance in instructional personnel and school administrator performance evaluations; providing requirements for the performance evaluation of personnel for purposes of the performance salary schedule; amending s. 1008.22, F.S.; requiring each school district to establish and approve testing schedules for district-mandated assessments and publish the schedules on its website; requiring reporting of the schedules to the Department of Education; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Notwithstanding any provision to the contrary in ss. 1012.22 and 1012.34, Florida Statutes, regarding the performance salary schedule and personnel evaluation procedures and criteria:

(1) At least 50 percent of a classroom teacher's or school administrator's performance evaluation, or 40 percent if less than 3 years of student performance data are available, shall be based upon learning growth or achievement of the teacher's students or, for a school administrator, the students attending that school; the remaining portion shall be based upon factors identified in district-determined, state-approved evaluation system plans. Student achievement measures for courses

577432

576-03643-13

associated with statewide assessments may be used only if a statewide growth formula has not been approved for that assessment or, for courses associated with school district assessments, if achievement is demonstrated to be a more appropriate measure of teacher performance.

(2) The student performance data used in the performance evaluation of nonclassroom instructional personnel shall be based on student outcome data that reflects the actual contribution of such personnel to the performance of the students assigned to the individual in the individual's areas of responsibility.

(3) For purposes of the performance salary schedule in s. 1012.22, Florida Statutes, the student assessment data in the performance evaluation must be from statewide assessments or district-determined assessments as required in s. 1008.22(8), Florida Statutes, in the subject areas taught.

Section 2. Paragraph (d) is added to subsection (8) of section 1008.22, Florida Statutes, to read:

1008.22 Student assessment program for public schools.—

(8) LOCAL ASSESSMENTS.—

(d) Each school district shall establish schedules for the administration of any district-mandated assessment and approve the schedules as an agenda item at a district school board meeting. The school district shall publish the testing schedules on its website, clearly specifying the district-mandated assessments, and report the schedules to the Department of Education by October 1 of each year.

Section 3. This act shall take effect July 1, 2013.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 980
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Education); Education Committee; and Senator Flores
SUBJECT:	Educational Personnel Evaluations
DATE:	April 24, 2013 REVISED:

Please see Section VIII. for Additional Information:

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

CS/CS/SB 980 revises the criteria for the performance evaluation of classroom teachers and nonclassroom instructional personnel. The student learning growth portion of a classroom teacher's evaluation must only be based on the performance of students assigned to the teacher in the subjects taught by him or her. For nonclassroom instructional personnel, the student learning growth portion of the evaluation is based on performance data that reflects their actual contributions to the performance of students actually assigned to their areas of responsibility.

The bill prohibits the assignment of a student in consecutive school years to an elementary school classroom teacher who received an evaluation of "unsatisfactory" or "needs improvement". Similarly, the bill prohibits the assignment of a student in consecutive school years to a middle or high school classroom teacher of the same subject who received an evaluation of "unsatisfactory" or "needs improvement". A parent may choose to have a student taught by a teacher who received an evaluation of "unsatisfactory" or "needs improvement" and who teaches extracurricular courses, if the parent provides written consent.

The bill requires a school district to approve and publish any district-mandated testing administration schedules on its website and report the schedules to the Department of Education by October 1, annually.

The bill has no fiscal impact on state appropriations.

The bill is effective July 1, 2013.

This bill amends ss. 1008.22 and 1012.2315 of the Florida Statutes and creates an undesignated section of law.

II. Present Situation:

Florida's educator evaluation system differentiates among four levels: highly effective; effective; needs improvement or, for instructional personnel in the first three years of employment who need improvement, developing;[1] and unsatisfactory.[2]

Evaluation Criteria

The Department of Education must approve each school district's instructional personnel and school administrator performance evaluation system.[3] Components of the performance evaluation system are divided into three parts: performance of students, instructional practice or leadership, (for instructional or administrative personnel, respectively), and professional responsibilities.[4] The Commissioner of Education is required to consult with instructional personnel, school administrators, education stakeholders, and experts in developing the performance levels for the evaluation system.[5]

At least fifty percent of the evaluation for classroom teachers[6] and other instructional personnel are based on student performance for students assigned to them over a 3-year period.[7] For other instructional personnel,[8] a school district may include specific job-performance expectations related to student support and use student learning growth data and other measurable student outcomes specific to the individual's assignment, as long as the student learning growth accounts for at least 30 percent of the evaluation.[9] The remainder of the evaluation must be based on the Florida Educator Accomplished Practices and professional responsibilities.[10]

[1] Section 1012.34(3)(a), F.S., requires newly hired teachers to be evaluated at least twice in the first year of teaching.
[2] s. 1012.34(2), F.S.
[3] s. 1012.34(1)(b), F.S.
[4] s. 1012.34(3)(a), F.S.
[5] s. 1012.34(2)(e), F.S.
[6] *See* s. 1012.01(2)(a), F.S., excluding substitute teachers.
[7] s. 1012.34(3)(a), F.S.
[8] *See* s. 1012.01(2)(b)-(e), F.S., which includes student personnel services, librarians and media specialists, other instructional staff, such as learning resource specialists, instructional trainers, and adjunct educators, and education paraprofessionals.
[9] s. 1012.34(3)(a)1.b., F.S.
[10] s. 1012.34(3)(a)2. and 4., F.S.

At least fifty percent of a school administrator's evaluation is based on student performance over a 3-year period.[11] The remainder of the evaluation is based on indicators that include the recruitment and retention of effective or highly effective teachers, improvement in the percentage of classroom teachers evaluated at the effective or highly effective level, other leadership practices that result in improved student outcomes, and professional responsibilities.[12]

If less than 3 years of student learning growth data is available for an evaluation, the district must include the years for which data is available and may reduce the percentage of the evaluation based on student learning growth to not less than 40 percent for classroom teachers and school administrators and not less than 20 percent for other instructional personnel.[13]

Assessments

School districts are required to use the state's learning growth model for FCAT-related courses beginning in the 2011-2012 school year.[14] School districts must use comparable measures of student growth for other grades and subjects with the department's assistance, if needed.[15] Additionally, districts are permitted to request alternatives to the growth measure, if justified, through the evaluation approval process.[16]

The law requires school districts, beginning with the 2014-2015 school year, to administer local assessments that measure student mastery of the content.[17] The school district can use statewide assessments, other standardized assessments, including nationally recognized standardized assessments, industry certification examinations, or district-developed or selected end-of-course assessments.[18]

A district that has not implemented an assessment for a course or has not adopted a comparable measure of student learning growth has the discretion to use two alternative growth measures for a classroom teacher who teaches the course: student learning growth on statewide assessments or student learning growth based on measurable learning targets in the school improvement plan.[19] Additionally, a district school superintendent may assign to an instructional team, the student learning growth of the team's students on statewide assessments.[20]

Pay

Current law provides for a new performance pay salary schedule that requires a base salary schedule with salary increases for a highly effective or effective teacher or school administrator,

[11] s. 1012.34(3)(a)1.c., F.S.
[12] s. 1012.34(3)(a)3. and 4., F.S.

[18] s. 1008.22(8)(b), F.S.
[19] s. 1012.34(7)(d) and (e), F.S.
[20] s. 1012.34(7)(e), F.S.

as determined by his or her evaluation.[21] The law also requires a district school board to adopt a grandfathered salary schedule or salary schedules for use as the basis for paying all school employees hired before July 1, 2014.[22]

Assignment of Classroom Teachers

In 2009, the Florida Legislature enacted legislation to address the quality of teachers assigned to the lowest performing schools.[23] School districts may not assign a higher percentage than the school district average of temporarily certified teachers, teachers in need of improvement, or out-of-field teachers to these schools.[24] The law requires each district school board to notify the parents of students who are assigned to an out-of-field teacher.[25]

Each district school board must adopt a plan to assist teachers who are teaching out-of-field.[26] These teachers must be afforded priority consideration in professional development activities. Additionally, districts must require the teachers to participate in a certification or a staff development program that improves their performance.[27]

III. Effect of Proposed Changes:

Performance Evaluations

CS/CS/SB 980 revises the criteria for evaluating classroom teachers and instructional personnel for purposes of the performance pay schedule in s. 1012.22, F.S. The Department of Education, through the performance evaluation system approval process would ensure that the provisions of the bill are implemented.

The student learning growth portion of a classroom teacher's evaluation must only be based on the performance of students assigned to the teacher in the subjects taught by him or her. For courses associated with a statewide assessment, a student achievement measure may be used rather than student learning growth, if there is no approved statewide growth formula for the assessment. For courses associated with a school district assessment, a student achievement measure may be used rather than student learning growth, if student achievement is a more appropriate measure of performance. The remaining portion of the evaluation would be based on instructional practice and job responsibilities that are determined by the district and are part of the state approved evaluation system.

For nonclassroom instructional personnel, the student learning growth portion of the evaluation is based on performance data that reflects their actual contributions to the performance of students assigned to their areas of responsibility, as defined in the district-developed or district-

[27] *Id.*

selected assessments that are a part of the state approved evaluation system. The remaining portion of their evaluation is based on instructional practice and professional and job responsibilities that are determined by the district and part of the state approved evaluation system.

In addition, the bill requires a school district to approve and publish any district-mandated testing administration schedules on its website and report the schedules to the Department of Education by October 1, annually.

Assignment of Classroom Teachers

The bill prohibits the assignment of a student in consecutive school years to an elementary school classroom teacher who received an evaluation of "unsatisfactory" or "needs improvement". Similarly, the bill prohibits the assignment of a student in consecutive school years to a middle or high school classroom teacher of the same subject who received an evaluation of "unsatisfactory" or "needs improvement". A parent may choose to have a student taught by a teacher who received an evaluation of "unsatisfactory" or "needs improvement" and who teaches extracurricular courses, if the parent provides written consent.

VIII. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations Committee on April 23, 2013:
The committee substitute:

- Prohibits the assignment of a student in consecutive school years to an elementary school classroom teacher who received an evaluation of "unsatisfactory" or "needs improvement";
- Prohibits the assignment of a student in consecutive school years to a middle or high school classroom teacher of the same subject who received an evaluation of "unsatisfactory" or "needs improvement";
- Permits a parent to have a student taught by a teacher who received an evaluation of "unsatisfactory" or "needs improvement" and who teaches extracurricular courses, if the parent provides written consent;
- Clarifies the use of student achievement measures rather than student learning growth for state versus district assessments for teacher evaluations; and
- Requires a school district to approve and publish any district-mandated testing administration schedules on its website and report the schedules to the Department of Education by October 1, annually.

CS by Committee on Education on March 18, 2013:
The committee substitute:

- Removes the provision that allows a school district to reduce the percentage of the performance evaluation of classroom teachers and other instructional personnel which is based on student performance, if the school district uses multiple measures of instructional practice.

B. Amendments:

None.

By the Committee on Education; and Senator Flores

581-02607-13 2013980c1

A bill to be entitled

An act relating to public school personnel; providing requirements for the performance evaluation of personnel for purposes of the performance salary schedule; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Notwithstanding any provision of law to the contrary, for purposes of the performance salary schedule in s. 1012.22, Florida Statutes, and personnel evaluation procedures and criteria in s. 1012.34, Florida Statutes:

(1) At least 50 percent of a classroom teacher's performance evaluation shall be based on the student learning growth, or student achievement if student learning growth cannot be measured, that solely reflects such growth or achievement of the students assigned to that teacher, and the remaining portion shall be based on factors identified in district-determined, state-approved evaluation system plans.

(2) The student performance data used in the performance evaluation of nonclassroom instructional personnel shall be based on student outcome data that reflects the actual contribution of such personnel to the performance of the students assigned to the individual in the individual's areas of responsibility.

(3) For purposes of the performance salary schedule in s. 1012.22, Florida Statutes, the student assessment data in the performance evaluation must be from statewide assessments or district-determined assessments as required in s. 1008.22(8),

A. COMMITTEE SUBSTITUTE.....	X	Statement of Substantial Changes
B. AMENDMENTS.....		Technical amendments were recommended
		Amendments were recommended
		Significant amendments were recommended

I. Summary:

PCS/CS/SB 1024 modifies several activities under the jurisdiction of the Department of Economic Opportunity (DEO or department).

The bill has a fiscal impact on both state revenues and expenditures. In Fiscal Year 2013-2014, the bill is projected to have a fiscal impact of $515,887 to the Office of Economic and Demographic Research (EDR) and the Office of Program Policy Analysis and Government Accountability (OPPAGA). Of the $515,887 projected expenditures, $336,724 would need to be appropriated in the General Appropriations Act for EDR and $178,163 can be absorbed by the OPPAGA within existing resources. It is anticipated that the expenditures required of the DEO can be absorbed within the DEO's existing state and federal resources. See Section V.

Highlights of the bill include:

Reporting and Evaluations of Economic Development Programs

- Streamlines the process by which all incentive program applicants are evaluated by requiring that all applicants be evaluated for the "economic benefits" of the proposed project.
- Creates a rotating, 3-year review schedule for specified incentives and programs to be evaluated by the EDR and the OPPAGA.
- Consolidates required reports and reporting dates for various economic development program reports by the DEO, Enterprise Florida, Inc. (EFI), the Office of Film and Entertainment, and Space Florida.

Florida Small Business Development Center Network

- Aligns the network's statewide policies with the statewide strategic economic development plan and statewide goals of the university system.
- Specifies the composition of the network's statewide advisory board.
- Specifies the support services offered by the network.
- Requires the network to provide a match to any direct state appropriation.
- Requires the network to set up incentives for the regional centers to create jobs, institute best practices, and serve new areas of the state or underserved areas.
- Requires regular reporting by the network on programs, services, and outcomes, including information on the network's economic benefits to the state.

Economic Development Incentives

- Requires the DEO to evaluate each application for economic incentives for the economic benefits of the proposed award to the state, and EDR is to review and report on the methodology used to calculate the economic benefit.
- Requires recipients of incentives under the Quick Action Closing Fund and the Innovation Incentive Programs to secure the award with a surety bond, letter of credit, or other security before any state funds can be disbursed.
- Provides that the DEO may waive the securitization requirements upon certifying specific information, in writing, to the Governor and the Legislature. The Legislative Budget Commission must approve any waiver granted by the DEO for a project exceeding $5 million.

Reemployment Assistance Program

- Requires that an appeals referee employed by the DEO be an attorney in good standing with the Florida Bar within a specified timeframe depending upon whether the referee is a current employee (must be an attorney by September 30, 2014) or a new employee hired on or after January 1, 2014 (must be an attorney within 8 months of his or her employment date). Effective January 1, 2014, an appeals referee currently employed by the DEO that does not have a degree from a law school accredited by the American Bar Association would no longer meet the qualifications for the appeals referee position.

- Prohibits a claimant from counting the same prospective employer at the same location more than once during his or her claim as proof of work search efforts, unless the employer indicates that it is hiring after the initial contact by the claimant.
- Provides that any excess assessments previously collected to pay interest on federal advances taken to cover unemployment compensation benefit claims be applied to federal interest payments due before additional assessments are made. The bill prohibits the collection of assessments if the amount on deposit is at least 80 percent of the estimated amount of interest.
- Assesses a 15 percent penalty on individuals who fraudulently collect unemployment compensation benefits, in order to comply with the requirements of federal law.
- Reenacts a provision that provides a penalty for disclosing confidential information that was inadvertently repealed in 2012 and required by federal law.
- Extends the deployment date of the Reemployment Assistance Claims and Benefits Information System to June 30, 2014.

Florida Small Cities Community Development Block Grant (CDBG) Program

- Significantly revises the Florida Small Cities CDBG Act to remove requirements that are more restrictive than required by federal regulations.
- Grants rulemaking authority to the department and streamlines public hearing requirements.

Florida Tourism Marketing Corporation (Visit Florida)

- Provides that the Governor will serve as an ex officio, nonvoting member of the board of directors of the Florida Tourism Industry Marketing Corporation (Visit Florida), which enables the Governor to act as a spokesperson for Florida tourism.

This bill is effective upon becoming law, except as otherwise provided in the bill.

This bill substantially amends the following sections of the Florida Statutes: 20.60, 201.15, 213.053, 220.194, 288.001, 288.005, 288.012, 288.061, 288.0656, 288.106, 288.1081, 288.1082, 288.1088, 288.1089, 288.1226, 288.1253, 288.1254, 288.1258, 288.714, 288.7771, 288.903, 288.906, 288.907, 288.92, 288.95155, 290.0056, 290.014, 290.0411, 290.042, 290.044, 290.0455, 290.046, 290.047, 290.0475, 290.048, 331.3051, 331.310, 443.036, 443.091, 443.101, 443.1113, 443.131, 443.151, 443.1715, 443.191, and 446.50.

This bill repeals sections 288.095(3)(c) and 288.904(6), Florida Statutes.

This bill creates two undesignated sections of the Florida Statutes.

II. Present Situation:

The Department of Economic Opportunity (DEO or department) is charged with supporting the economic and community development of Florida and facilitating the workforce development of

Floridians. The department accomplishes these functions under three main divisions: Community Development, Strategic Business Development, and Workforce Services.[1]

The Division of Community Development manages the state's land use planning and community development. Under its responsibilities, the division provides technical assistance to local governments on a variety of land use planning topics, provides economic development assistance to rural and urban small businesses, and administers state and federal grant programs for community development, including grants to local governments for infrastructure and revitalization.[2]

The Division of Strategic Business Development is charged with attracting out-of-state businesses, as well as promoting the creation and expansion of Florida businesses. This division is also responsible for facilitating economic development partnerships.[3] Among other things, the division provides oversight and evaluation of the state's economic development incentive programs and coordinates with public and private entities, including Enterprise Florida, Inc. (EFI), to strategically plan for Florida's short-term and long-term economic development needs. The department contracts with Enterprise Florida, Inc. (EFI) to attract businesses to locate, expand, or remain in Florida.

Under Florida's current economic development framework, Enterprise Florida, Inc. (EFI) serves as the state's economic development organization, operating under a contract with the DEO. EFI is a public-private partnership that serves as the state's primary contact for businesses interested in pursuing relocation, expansion, or retention possibilities.[4] EFI works with businesses to match business needs with state and local resources, including developing an economic development incentive proposal for the prospective business. EFI performs an evaluation of each potential project to determine its prospective economic impact. After EFI has offered an incentive proposal to a business, EFI submits the incentive application to the DEO and the department evaluates the application based on the statutorily defined requirements for the incentive(s). The DEO makes the final determination of incentive eligibility, executes incentive contracts, and is responsible for contract monitoring and compliance.[5]

The Division of Workforce Services administers the reemployment assistance program and partners with Workforce Florida, Inc. (WFI) and the state's 24 Regional Workforce Boards (RWBs) to administer a number of federally funded workforce development programs. The division also provides technical assistance to One-Stop Career Centers that directly provide employment and training services.[6]

According to the U.S. Department of Labor (USDOL), the Federal-State Unemployment Insurance Program provides unemployment benefits to eligible workers who are unemployed

through no fault of their own (as determined under state law) and who meet the requirements of state law.[7] Individual states collect payroll taxes on a quarterly basis, which are used to pay benefits, while the Internal Revenue Service collects an annual federal payroll tax under the Federal Unemployment Tax Act (FUTA).[8] FUTA collections go to the states for costs related to the administration of state unemployment insurance and job service programs. In addition, the FUTA pays one-half the cost of extended unemployment benefits (during periods of high unemployment) and provides for a fund from which states may borrow, if necessary, to pay benefits.[9]

States are permitted to set benefit eligibility requirements, the amount and duration of benefits and the state tax structure, as long as state law does not conflict with the FUTA or the Social Security Act requirements. Florida's unemployment insurance program was created by the Legislature in 1937.[10] The program was rebranded as the "reemployment assistance program" in 2012.[11] The Department of Economic Opportunity (DEO) is responsible for administering Florida's reemployment assistance (RA) laws, primarily through its Division for Workforce Services. The DEO contracts with the Florida Department of Revenue (DOR) to provide unemployment tax collection services.[12]

In Florida, Reemployment Assistance (RA) benefits are financed solely through contributions by employers – employers pay taxes on the first $8,000 of each employee's wages.[13] The calculation for determining each employer's tax rate is statutorily set, and takes into consideration an employer's "experience" (as former employees collect RA benefits, these benefits are charged to the employer), the balance of the Unemployment Compensation Trust Fund, and other factors.

The Internal Revenue Service charges each liable employer a federal unemployment tax of 6.0 percent of employees' annual wages.[14] If, however, a state program meets the federal requirements and has no delinquent federal loans, employers are eligible for up to a 5.4 percent tax credit, making the net tax rate 0.6 percent. Employers file an annual return with the Internal Revenue Service each January for taxes on the first $7,000 of employee's annual wages during the previous year.

The USDOL provides the DEO with administrative resource grants from the taxes collected from employers pursuant to the FUTA. These grants are used to fund the operations of the state's

[10] Chapter 18402, L.O.F.
[11] Chapter 2012-30, L.O.F.
[12] Section 443.1316, F.S.
[13] Nonprofit employers may choose to finance compensation through either the contributory method or the reimbursement method. A reimbursing employer is one who must pay the Unemployment Compensation Trust Fund on a dollar-for-dollar basis for the benefits paid to its former employees. The employer is otherwise not required to make payments to the trust fund. See s. 443.1312, F.S. State and local governments are reimbursing employers. Most employers are contributory employers. In January 2015, the "wage base" will be reduced to $7,000. See s. 443.1217(2)(a), F.S.
[14] 26 U.S.C. s. 3301.

program, including the processing of claims for benefits by DEO, state unemployment tax collections performed by the DOR, appeals conducted by the DEO and the Reemployment Assistance Appeals Commission, and related administrative functions.

Unfortunately, due to the past few years of high unemployment in Florida, more funds have been paid out of the Unemployment Compensation Trust Fund than have been collected. The trust fund fell into deficit in August 2009, and since that time, the state has requested over $2 billion in federal advances in order to continue to fund unemployment compensation claims. Through voluntary repayment and partial loss of the federal tax credit, Florida has substantially paid down its debt.[15] It is estimated that all federal advances should be repaid by mid-2013.[16]

Federal advances accrue interest on a federal fiscal year basis (October to September), and such interest is due no later than September 30 each year. The interest rate for 2013 is 2.5765 percent.[17] The Revenue Estimating Conference estimated on January 15, 2013, that the interest due for 2013 would be $9.6 million.[18]

The interest due on advances cannot be paid from funds from the Unemployment Compensation Trust Fund. In order to repay the interest, a state may make an appropriation from general revenue, issue bonds, or impose an assessment on employers.[19] In 2010, the Legislature imposed an additional assessment on employers to pay interest on federal advances.[20]

Section 443.131(5)(b), F.S., sets forth the calculations for the assessment. To determine the additional rate for the assessment, the formula divides the estimated amount of interest owed by 95 percent of total wages paid by employers for the previous year ending June 30. To determine an employer's payment amount, the formula multiplies an employer's taxable wages by the additional rate. DOR is required to calculate and bill the assessment prior to February 1 of the year, based upon the interest estimated by the Revenue Estimating Conference. An employer has 5 months, until June 30th, to pay the assessment. The assessments are paid into the DOR's Audit and Warrant Clearing Trust Fund and may earn interest. Any interest earned is part of the balance available to pay the interest due to the federal government.

[15] As of February 4, 2013, Florida had an outstanding advance balance of slightly less than $685 million. See U.S. Department of Treasury, Bureau of Public Debt, Treasury Direct's Title XII Advance Activities Schedule at http://treasurydirect.gov/govt/reports/tfmp/tfmp_advactivitiessched.htm (last visited February 6, 2013).
[16] The most recent forecast by the Revenue Estimating Conference shows repayment of all federal advances by June 2013. On file with the Senate Commerce and Tourism Committee.
[17] The interest rate charged is equal to the fourth calendar quarter yield on the Unemployment Trust Fund for the previous year, capped at 10 percent. See U.S. Department of Treasury, Bureau of Public Debt, Treasury Direct's Unemployment Trust Fund Quarterly Yields at http://treasurydirect.gov/govt/rates/rates_tfr.htm (last visited on February 6, 2013).
[18] Revenue Estimating Conference forecast, available at http://edr.state.fl.us/content/revenues/reports/unemployment-compensation-trust-fund/UnemploymentCompensationTax2013InterestDueonFederalAdvancesRevised.pdf (last visited February 6, 2013).
[19] The option of issuing bonds to repay the interest may be unavailable to Florida, See Art. VII, s. 11, Fla. Const.
[20] Section 443.131(5), F.S. Section 4, ch. 2010-1, L.O.F.

III. Effect of Proposed Changes:

Evaluation of Economic Development Programs

The bill creates the Economic Development Programs Evaluation (evaluation). (**Section 1 – undesignated section of the Florida Statutes.**) EDR and OPPAGA are required to jointly present the evaluation to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the chairs of the legislative appropriations committees. The offices are required to evaluate specified economic development programs according to a 3-year review schedule. Programs are grouped together based on general program type. The evaluation schedule is as follows:

YEAR 1 (January 1, 2014) and every 3rd year	
Programs	**Florida Statute(s)**
Quick Action Closing Fund	s. 288.1088
Brownfield Redevelopment Bonus Tax Refund	s. 288.107
High Impact Sector Performance Grants	s. 288.108
Capital Investment Tax Credit	s. 220.191
Qualified Target Industry Tax Refund	s. 288.106
Innovation Incentive Program	s. 288.1089
Enterprise Zone Programs	ss. 220.181-182, 212.08(5), 212.096, 212.08(15)

YEAR 2 (January 1, 2015) and every 3rd year	
Programs	**Florida Statute(s)**
Entertainment Industry Financial Incentive Program	s. 288.1254
Entertainment Industry Sales Tax Exemption Program	s. 288.1258
The Florida Commission on Tourism/Visit Florida	ss. 288.122-124
Florida Sports Foundation	ss. 288.1162-1171

YEAR 3 (January 1, 2016) and every 3rd year	
Programs	**Florida Statute(s)**
Qualified Defense Contractor and Space Flight Business Tax Refund Program	s. 288.1045
Semiconductor, Defense, or Space Technology Sales Tax Exemption	s. 212.08(5)(j)
Military Base Protection	s. 288.980
Manufacturing & Spaceport Investment Incentive Program	s. 288.1083

Quick Response Training	s. 288.047
Incumbent Worker Training	s. 445.003
International Trade & Business Development	s. 288.826

EDR and OPPAGA are required to coordinate and submit a work plan for the evaluation to the President of the Senate and the Speaker of the House of Representatives by July 1, 2013.

The bill requires EDR to use specialized modeling techniques to evaluate the economic development programs listed above. EDR is required to evaluate each program for "economic benefits," as well as jobs created, the increase or decrease in personal income, and the impact on state GDP of each program using data from the previous 3 years. The data used to evaluate any tax credits, tax refunds, sales tax exemptions, cash grants, and similar programs is specified as being data from projects that are either fully complete, partially complete with future fund disbursal possible pending performance measures, or partially completed with no future fund disbursal possible as a result of a business's inability to meet performance measures. EDR is required to provide an explanation of the model used in its analysis, and the model's key assumptions. EDR is permitted to use another model if it explains why another model is more appropriate.

The OPPAGA is required to evaluate each program for effectiveness and value to Florida taxpayers, and to provide recommendations to the Legislature based on its evaluation of each program. OPPAGA's analysis is required to include information from interviews, reviews of relevant reports, or other data.

The bill gives EDR and the OPPAGA access to all data necessary to complete the Economic Development Programs Evaluation, including confidential data. The offices may coordinate data collection and analysis. (**Section 4, amends s. 213.053, F.S.**)

The bill updates requirements for the Annual Incentives Report currently produced by EFI (**Section 26, amends s. 288.907, F.S.**) and requires the report to be a joint report by the DEO and EFI. The agencies will no longer be required to report on the "economic benefit" of each project or program in the Annual Incentives Report. The evaluation of "economic benefits" will now be conducted as part of the Economic Development Programs Evaluation, conducted jointly by EDR and the OPPAGA. See above.

"Jobs" is defined to ensure that all jobs data is reported and evaluated in the same manner across programs. The term means only full-time equivalent positions, and excludes any temporary construction jobs involved with the construction of facilities for a project. (**Section 7, amends s. 288.005, F.S.**)

The bill repeals a required OPPAGA report on the Innovation Incentive Program. (**Section 16, amends s. 288.1089, F.S.**) This report is duplicative as a result of the evaluation of the Innovation Incentive Program required as part of the Economic Development Programs Evaluation created in Section 1 of the bill.

A duplicative analysis of EFI's return on the public's investment is repealed. (**Section 24, repeals s. 288.904(6), F.S.**) Current law requires the analysis to be included as part of the EFI annual report. Currently, section 20.601(3), F.S., requires the OPPAGA to conduct a similar analysis in 2016.

Agency Reporting Consolidation

Presently, there are multiple reporting requirements for the state's various economic development programs and activities. Some entities are required to submit reports to the Governor, Legislature, and/or the department and the report due dates lack uniformity. The bill consolidates several independent program reports and reporting dates.

Department of Economic Opportunity's Annual Report

The bill makes several changes to the department's annual report. (**Section 2, amends s. 20.60, F.S.**) The report's due date is changed from January 1st to November 1st. The department is directed to include supplements to its annual report on several programs. As a result, the independent due dates for each of the reports are deleted. The programs to be included in the department's annual report are:

- Displaced Homemaker program. (Section 51, amends s. 446.50, F.S.)
- Enterprise Zone program. (Sections 29 and 30).
  - Changes the due date of each enterprise zone development agency's report to the department from December 1st to October 1st. (**Section 29, amends s. 290.0056, F.S.**)
  - Changes the due date of the Department of Revenue's report on the usage and revenue impacts, by county, of state incentives relating to enterprise zones from February 1st to October 1st. (**Section 30, amends s. 290.014, F.S.**)
- Economic Gardening Business Loan Pilot Program. (Section 13, amends s. 288.1081, F.S.)
- Economic Gardening Technical Assistance Pilot Program. (Section 14, amends s. 288.1082, F.S.)
- Black Business Loan Program. (Section 21, amends s. 288.714, F.S.)
- Rural Economic Development Initiative. (Section 10, amends s. 288.0656, F.S.)

EFI's Annual Report

The bill requires EFI to include, as a supplement in its annual report, information on: (**Section 25, amends s. 288.906, F.S.**)

- State of Florida International Offices. (**Section 8, amends s. 288.012, F.S.**)
- Florida Export Finance Corporation annual report. (**Section 22, amends s. 288.7771, F.S.**)

Additionally, under current law EFI division reports are due independently on October 1st, for inclusion in EFI's annual report. The bill repeals this independent due date. (**Section 27, amends s. 288.92, F.S.**)

Annual Incentives Report

The bill revises the duties of EFI to require the Annual Incentives Report to be a joint report by EFI and the DEO. (**Section 23, amends s. 288.903, F.S.**) The report is currently produced independently by EFI using data supplied by the department.

Information on the Economic Development Trust Fund is required to be included in the Annual Incentives Report. The information is currently required under s. 288.095(3)(c), F.S. The bill repeals this paragraph (**Section 11**) and incorporates the information into the Annual Incentives Report. (**Section 26, amends s. 288.907, F.S.**) The information includes:

- The types of projects supported;
- Tax refunds or other payments made out of the Economic Development Incentives Account for each project supported;
- A separate analysis of the impact of tax refunds on Enterprise Zones, rural communities, brownfield areas, and distressed urban communities; and
- The name and tax refund amounts for each business receiving a qualified target industry or qualified defense space contractor and space flight business tax refund.

Several other stand-alone program reports are incorporated as supplements to the Annual Incentives Report. As a result, the independent due dates for the reports are deleted. The reports required to be included as supplements to the Annual Incentives Report include:

- Florida Space Business Incentives Act annual report (**Section 5, amends s. 220.194, F.S.**), beginning in 2014.
- Information on the causes of a business's failure to complete its qualified target industry incentive agreement. (**Section 12, amends s. 288.106, F.S.**)
- Information relating to Innovation Incentive Program recipients, including the evaluation as to whether the recipients were catalysts for additional economic development. (**Section 16, amends s. 288.1089, F.S.**)
- Florida Small Business Technology Growth Program annual report. (**Section 28, amends s. 288.95155, F.S.**)

Validation of contractor performance for all incentive programs is currently required as part of the Annual Incentives Report. The bill adds a cross-reference to s. 288.061, F.S., clarifying that validation of contractor performance is to be included in the Annual Incentives Report. (**Section 26, amends s. 288.907, F.S.)**

The bill clarifies that the DEO, rather than EFI, is responsible for validating contractor performance for the Quick Action Closing Fund incentives and that such information is to be included in the Annual Incentives Report. Current law requires the contractor performance validation to be reported within 6 months of completion. This requirement is deleted by the bill. (**Section 15, amends s. 288.1088, F.S.**)

Validation of contractor performance for the Innovation Incentive Program recipients is required to be included in the Annual Incentives Report. The current law requirement that a report on

contractor performance be submitted within 90 days of an agreement's conclusion is repealed. (**Section 16, amends s. 288.1089, F.S.**)

Office of Film and Entertainment's Annual Report

The bill changes the due date of the Office of Film and Entertainment's (OFE) Annual Report on the entertainment industry financial incentive program from October 1st to November 1st. (**Section 19, amends s. 288.1254, F.S.**) The OFE's Annual Report is also required to include the OFE expenditures report (**Section 18, amends s. 288.1253, F.S.**) and the report detailing the relationship between tax exemptions and incentives to industry growth. (**Section 20, amends s. 288.1258, F.S.**)

Space Florida's Annual Report

The bill changes the due date for the Space Florida annual performance report from September 1st to November 30th (**Section 39, amends s. 331.3051, F.S.**), and requires Space Florida's annual operations report to be included in the performance report. (**Section 40, amends s. 331.310, F.S.**)

Community Planning – Use of Documentary Stamp Tax Distribution

Section 3 amends s. 201.15(1)(c), F.S., to delete obsolete language and clarify that the share of the documentary stamp distribution that DEO receives in the Grants and Donations Trust Fund must be used by the Community Planning Program to provide technical assistance to local governments.

Florida Small Business Development Center Network

Section 6 significantly amends s. 288.001, F.S., relating to the Florida Small Business Development Center Network (network). The bill provides that the purpose of the network is to serve emerging and established private, for-profit businesses that maintain a place of business in Florida. Florida's network is a consortium of regional small business development centers throughout the state that offer consulting services, training opportunities, and access to other resources and information to current and prospective small businesses.

The national Small Business Development Center program is administered by the U.S. Small Business Administration (SBA) and federal laws and regulations require that various state-level programs be located at higher education institutions. Regional centers are based at several of Florida's colleges and universities, with a total of 39 locations in the state. The network's state headquarters are located at the University of West Florida (UWF).[21]

Statewide Director

The bill requires the statewide director to:

[21] See History of the Florida SBDC Network, available at http://floridasbdc.org/history.php (last visited March 26, 2013).

- Operate the network in compliance with federal law and Board of Governors Regulation 10.015;
- Consult with the Board of Governors, the DEO, and the network's statewide advisory board to ensure that the network's policies and programs align with the statewide economic development plan and the statewide goals of the State University System;
- Develop support services, in consultation with the advisory board, to be delivered through regional small business development centers;
- Develop a pay-per-performance incentive for regional small business development centers, in coordination with the center's host institution;
- Develop annual programs that support small business assistance best practices, enhance network participation among state universities and colleges, and ensure that network services are offered statewide, especially in rural and underserved areas;
- Update the Board of Governors, the DEO, and the advisory board quarterly on the network's performance, including aggregate information on businesses assisted by the network; and
- Present an annual report on June 30th to the President of the Senate and the Speaker of the House of Representatives on the network's progress and outcomes for the previous fiscal year, including the network's economic benefit to the state.

Statewide Advisory Board

Federal requirements do not specify how members of the network's statewide advisory board are selected or the size of the board, but the board must have members who are small business owners and representative of the program's entire Service Area (in Florida, the Service Area is the entire state). The bill codifies the current membership of the statewide advisory board, with the exception of two additional members to be appointed by the network's statewide director. The bill requires the statewide advisory board to consist of 19 members from across the state, with at least twelve members being representatives of the private sector who are knowledgeable of the needs and challenges of small businesses, as follows:

- Three members from the private sector appointed by the Governor - two of whom initially serve 2-year terms.
- Three members from the private sector appointed by the President of the Senate - one of whom initially serves a 2-year term.
- Three members from the private sector appointed by the Speaker of the House of Representatives - one of whom initially serves a 2-year term.
- Three members appointed by the statewide director - one of whom initially serves a 2-year term.
- One member appointed by the host institution (the University of West Florida).
- The President of Enterprise Florida, Inc., or his or her designee.
- The Chief Financial Officer or his or her designee.
- The President of the Florida Chamber of Commerce or his or her designee.
- The Small Business Development Center Project Officer from the U.S. Small Business Administration's South Florida District Office or his or her designee.
- The Executive Director of the National Federation of Independent Businesses, Florida or his or her designee.
- The Executive Director of the Florida United Business Association or his or her designee.

The bill requires that minority and gender representation be considered when making appointments to the statewide advisory board.

The bill sets a member's term on the board at 4 years, except for five members who initially serve 2 year terms (as specified above). Statewide advisory board members may be reappointed to a subsequent term. Board members cannot receive compensation for serving on the board but may receive reimbursement for per diem and travel expenses as provided in s. 112.061, Florida Statutes.

Small Business Support Services

The bill specifies that the statewide director and the statewide advisory board must develop support services that are delivered by regional small business development centers. Support services must target the needs of businesses that employ fewer than 100 persons and demonstrate an assessed capacity to grow in employment or revenue. Businesses receiving support services must agree to participate in assessments of services received. Information requested of participating businesses includes demographic information, changes in employment and sales, debt and equity capital attained, government contracts obtained, and other information as required by the host institution (UWF).

The bill requires regional small business development centers to provide businesses with support services that include, but are not limited to providing information or research, consulting, educating, or otherwise assisting businesses in specific activities. These activities largely codify the support services already offered by the network and include:

- Planning related to starting-up, operating, or expanding a small business.
- Developing and implementing strategic or business plans.
- Developing the financial literacy of existing businesses.
- Developing and implementing plans for existing businesses to access or expand to new or existing markets.
- Supporting access to capital for business investment and expansion, including providing technical assistance related to obtaining surety bonds.
- Assisting existing business with natural or man-made disaster planning.

Additional State Funds

The bill requires the network to provide a match equal to the amount of any direct legislative appropriation. The match provided by the network must consist of 50 percent cash, with the remaining 50 percent coming from any allowable combination of additional cash, in-kind contributions or indirect costs. The 50 percent cash requirement may include funds from federal or other non-state funding sources designated for the network.

If the host institution (UWF) receives additional state funding specifically designated for the network, half of the funds must be used to establish a pay-per-performance incentive for regional small business development centers. The statewide director, in coordination with the host institution (UWF), will develop the pay-per-performance incentive. The incentive must be

distributed based data collected from businesses as provided in the bill. The distribution formula must include recognition of the gross number of jobs created annually by each regional center and the number of jobs created per support service hour. Pay-per-performance incentive funds received by regional centers must be used to supplement operations and services provided by regional centers. Regional centers may not reduce matching funds dedicated to the small business development center program if they receive any incentive funds under the pay-per-performance program.

The remaining half of any additional state funds received by the host institution (UWF) for the network must be distributed by the statewide director, in coordination with the advisory board, for the purposes of:

- Ensuring support services are available statewide, especially in underserved and rural areas of the state;
- Encouraging colleges and universities to participate in the program; and
- Encouraging the adoption of small business assistance best practices by regional centers.

The network must announce the annual amount of available funds for each program, as well as any performance expectations or other requirements. The statewide director must present applications and recommendations to the statewide advisory board. The advisory board must approve applications and publicly post approved applications. At a minimum, programs must include new regional small business development centers and awards for the top six regional centers that adopt best practices, as determined by the advisory board. Detailed information about best practices must be made available to regional centers for voluntary implementation. A regional center cannot receive an award from this allocation of additional state funds if the statewide director has found that the regional center has:

- Performed poorly,
- Engaged in improper activity affecting the operation and integrity of the network, or
- Failed to follow the rules and procedures set forth in the laws, regulations and policies governing the network.

Reporting Requirements

The bill requires that the statewide director update the Board of Governors, the Department of Economic Opportunity, and the advisory board each quarter on the network's progress and outcomes, including aggregate information on businesses assisted by the network. In addition to quarterly updates, the statewide director and the advisory board must produce an annual report, due by June 30th, to the President of the Senate and the Speaker of the House of Representatives. The report must include the information provided quarterly, information regarding network services and programs, the use of funds specifically dedicated to the network, and the network's economic benefit to the state. The report must include specific information on performance-based metrics used by the network and the methodology used to calculate the network's economic benefit to the state.

Evaluation of Incentive Program Applicants

The bill requires that the department evaluate each economic development incentive application for the "economic benefits" of the proposed award of state incentives for the project. The bill provides that "economic benefits" has the same meaning as in s. 288.005, Florida Statutes. Section 288.05(1), Florida Statutes, provides:

> Economic benefits" means the direct, indirect, and induced gains in state revenues as a percentage of the state's investment. The state's investment includes state grants, tax exemptions, tax refunds, tax credits, and other state incentives.

EDR must review and evaluate the methodology and model used by the DEO to calculate the economic benefits. The department and EDR are authorized to develop an amended definition of "economic benefits" to evaluate applications. EDR must submit a report on the methodology and model by September 1, 2013, and every third year thereafter, to the President of the Senate and the Speaker of the House of Representatives. (**Section 9, amends s. 288.061, F.S.**)

The bill deletes similar language requiring an up-front analysis of "economic benefits" for a qualified target industry (QTI) tax refund application. The bill requires that applications for a QTI incentive be evaluated to determine if an applicant has previously received economic development incentives in other states, and if applicable, the outcome of those agreements.

Current law requires that QTI tax refund applications be evaluated for their *effect* on the *unemployment rate* in the county where a project will be located. The bill revises this requirement to require that applications be evaluated for the *expected effect* on the *unemployed and underemployed* in the county where a project will be located. The bill deletes the existing requirement that a QTI tax refund application be evaluated for the expected long-term commitment to economic growth and employment in Florida. (**Section 12, amends s. 288.106, F.S.**)

Current law requires that a project qualifying for the Innovation Incentive Program as a research and development program or as an alternative and renewable energy project demonstrate that the project will provide a *break-even "return on investment"* to the state over a 20-year period. The term "return on investment" as it relates to the Innovation Incentive Program is not defined under current law.

The bill changes this requirement to a demonstration that the project will provide a *cumulative break-even "economic benefit"* within a 20-year period. This change creates consistent terminology and ensures applicants for the Innovation Incentive Program will be evaluated similarly to other incentive programs. (**Section 16, amends s. 288.1089, F.S.**)

Securitization of Economic Development Incentives

The Quick Action Closing Fund and the Innovation Incentive Program provide financial incentives that can be used in highly competitive negotiations or to attract high-value research and development, innovation business, and alternative and renewal energy projects. The funds

are generally distributed prior to the project's completion. Currently, the department uses payment schedules and sanctions, including clawbacks, to address a business's failure to comply with performance conditions.

Section 9 amends s. 288.061, F.S., to require that applicants for Quick Action Closing Fund and Innovation Incentive Program economic development incentives obtain a surety bond for the entire amount of the award before any state funds can be disbursed. Up to half of the premium payment on the surety bond may be paid from the award amount, not to exceed 3 percent of the award.

The DEO is authorized to waive the surety bond requirement by certifying specific information, in writing, to the Governor, President of the Senate, and Speaker of the House of Representatives. If the DEO waives the surety bond requirement, the applicant must secure the award through an irrevocable letter of credit, cash or securities held in trust, or a secured transaction in collateral. The DEO may waive the surety bond or alternate security requirement if the DEO certifies to the Governor and the chair and vice-chair of the Legislative Budget Commission that the applicant has the financial ability to fulfill the requirements of the contract; has previously demonstrated timely compliance with any clawback provisions, if the applicant has received any incentives; and that the waiver is in the best interest of the state.

Florida Tourism and Industry Marketing Corporation

The Florida Tourism Industry Marketing Corporation, d/b/a Visit Florida, is the not for profit corporation that is responsible for providing tourism promotion and marketing services, functions, and programs for the state.

The Visit Florida board of directors consists of 31 tourist industry-related members, appointed by EFI, in conjunction with the DEO. Sixteen of its members are appointed to represent all geographic areas of the state in an equitable manner, with at least two members from each region. An additional 15 members are prescribed as follows: one from the statewide rental car industry, seven from tourist-related statewide associations, three from county destination marketing organizations, one from the cruise industry, one from an automobile and travel services membership organization that has at least 2.8 million members in Florida, one representative from the airline industry, and one representative from the space tourism industry, who will each serve for a term of 2 years.

Section 17 amends s. 288.1226, F.S., to provide that the Governor will serve as an ex-officio, non-voting member of the Board of Directors of the Florida Tourism and Industry Marketing Corporation (Visit Florida). According to information provided by the DEO to staff of the Senate Commerce and Tourism Committee on February 17, 2013: "This board designation removes any barriers to the Governor acting as a spokesperson for Florida tourism".

Florida Small Cities Community Development Block Grant (CDBG) Programs

Currently, the department administers the Community Development Block Grant program, a federally funded housing and community development program that targets assistance to low and moderate income populations. Rural or smaller area governments receive grants from the

department through a competitive rural distribution mechanism known as the Florida Small Cities Community Development Block Grant (Small Cities CDBG) program. Local governments in urban areas apply and receive funds directly from the U.S. Department of Housing and Urban Development (HUD).

Section 31 amends the legislative intent and purpose of the Small Cities Community Development Block Grant Program Act to include economic need as one of the factors to make a Florida community eligible to participate in the program and includes economic development programs as an activity for such communities to undertake. (**Amends s. 290.0411, F.S.**)

Section 32 amends s. 290.042, F.S., to clarify the definitions of "administrative closeout" and "person of low or moderate income" by including a reference to the definition used in the Code of Federal Regulations.

Program Funding and Distribution of Funds **(Section 33)**

Currently, the statute outlines several grant categories for which grants may be distributed under the Small Cities CDBG. These categories include commercial revitalization, economic development, housing, neighborhood revitalization, and project planning and design. The bill **amends s. 290.044, F.S.**, to provide the department rule-making authority to establish guidelines to distribute the Small Cities CDBG program funds through a competitive selection process. The department is directed to define broad community development objectives for the distribution of CDBG funds that are consistent with the national objectives, as established by federal law. Current provisions requiring applicants to compete against each other in grant program categories and the categories themselves are repealed. The bill provides that emergency set-aside funds are only to be used when no other federal, state, or local disaster funds are available.

Section 108 Loan Guarantee Program **(Section 34)**
