I. Summary:

SB 64 designates the portion of I-295/E. Beltway 295 between Alta Drive and Pulaski Road in Duval County as “Officer Lance Christian Whitaker Highway” and directs the Florida Department of Transportation (FDOT) to erect suitable markers.

The estimated cost to the FDOT to install the designation markers is insignificant.

The bill takes effect July 1, 2019.

II. Present Situation:

Section 334.071, F.S., provides that legislative designations of transportation facilities are for honorary or memorial purposes or to distinguish a particular facility. Such designations are not to be construed as requiring any action by local governments or private parties regarding the changing of any street signs, mailing addresses, or 911 emergency telephone number system listings, unless the legislation specifically provides for such changes.¹

When the Legislature establishes road or bridge designations, the FDOT is required to place markers only at the termini specified for each highway segment or bridge designated by the law creating the designation and to erect any other markers it deems appropriate for the transportation facility.²

The FDOT may not erect the markers for honorary road or bridge designations unless the affected city or county commission enacts a resolution supporting the designation. When the

¹ Section 334.071(1), F.S.
² Section 334.071(2), F.S.
designated road or bridge segment is located in more than one city or county, each affected local government must pass resolutions supporting the designations before installation of the markers.\(^3\)

**Officer Lance Christian Whitaker\(^4\)**

Officer Lance Christian Whitaker was born on February 4, 1970, in High Point, North Carolina, and moved to Jacksonville, Florida, in 1982. Officer Whitaker attended DuPont Middle School, graduated from Wolfson High School in 1988, and was a member of the wrestling and football teams. He later graduated with a degree in Business from Gardner Webb College, where he was a member of the Division 2 Bulldog Football Team.

Officer Whitaker began his law enforcement career with the Atlantic Beach Police Department, followed by 17 years with the Jacksonville Sheriff’s Office. On May 15, 2018, Officer Whitaker was on duty responding to help others when an accident ended his watch.

**III. Effect of Proposed Changes:**

The bill designates the portion of I-295/E. Beltway 295 between Alta Drive and Pulaski Road in Duval County as “Officer Lance Christian Whitaker Highway” and directs the FDOT to erect suitable markers for the described designation.

The bill is effective on July 1, 2019.

V. Fiscal Impact Statement:
   A. Tax/Fee Issues:
      None.
   B. Private Sector Impact:
      None.
   C. Government Sector Impact:

      Existing resources can be used for the estimated cost to erect the designation markers required under this bill. The estimated cost is $1,000, based on the assumption that two markers are required at a cost to the FDOT of no less than $500 each.\(^5\) The estimate includes sign fabrication, installation, and maintenance over time but does not include any additional expenses related to maintenance of traffic, dedication event costs, or replacement necessitated by damage, vandalism, or storm events.

VI. Technical Deficiencies:
   None.

\(^5\) E-mail from Jay Ferrin, Legislative Affairs Director, FDOT, February 26, 2019 (on file with the Senate Transportation, Tourism, and Economic Development Appropriations Subcommittee).
Appropriations Subcommittee on Transportation, Tourism, and Economic Development (Hutson) recommended the following:

**Senate Amendment (with title amendment)**

Delete everything after the enacting clause and insert:

Section 1. Transportation facility designations; Department of Transportation to erect suitable markers.—

(1) That portion of I-295/E. Beltway 295 between Alta Drive and Pulaski Road in Duval County is designated as “Officer Lance Christian Whitaker Highway.”
(2) That portion of South Street between U.S. 1 and S.R. 50 in Brevard County is designated as “Martin Luther King, Jr., Boulevard.”

(3) The Department of Transportation is directed to erect suitable markers designating the transportation facilities as described in this section.

And the title is amended as follows:

Delete everything before the enacting clause and insert:

A bill to be entitled An act relating to transportation facility designations; providing honorary designations of certain transportation facilities in specified counties; directing the Department of Transportation to erect suitable markers; providing an effective date.
By Senator Gibson

Hi guys!
Just confirming for the year – the cost to erect a road designation marker is $500 per marker, and two are placed per designation for a cost of $1,000 per transportation facility designation, right?

Thanks!

Jennifer
### I. Summary:

SB 72 makes permanent the existing statutory obligation of the Florida Department of Transportation (FDOT) to reimburse a local governmental entity for the direct actual costs of operating the fire station at mile marker 63 on I-75/Alligator Alley, currently set to expire no later than June 30, 2019.

The fiscal impact of this bill is indeterminate, but any FDOT expenditures will be based on an agreed-upon estimated schedule of operational expenses incorporated into the required interlocal agreement. See Section V, “Fiscal Impact Statement,” for details.

The bill takes effect July 1, 2019.

### II. Present Situation:

**Fire Station 63 on I-75/Alligator Alley**

The Greater Naples Fire Rescue District currently provides fire, rescue, and emergency management services along I-75/Alligator Alley (the Alley). These services are provided at a facility located at the FDOT’s rest area on the Alley at mile marker 63 (MM63).

**Use of Alley Tolls to Fund Fire Station 63**

Section 338.26, F.S., establishes the Alley as a toll road because construction of the road between the east and west coasts of Florida, “has contributed to the alteration of water flows in the Everglades and affected ecological patterns of the historical southern Everglades.” The

1 These services were originally provided by Collier County through its dependent fire district, the Ochopee Fire Control and Rescue District, and the county’s emergency medical services. The county subsequently assigned, and the Greater Naples Fire Rescue District assumed, responsibility for management of the Ochopee Fire Control Rescue District. *Infra* note 9.
statute sets forth the required uses of the fees generated from tolls for use of the Alley, which are deposited into the State Transportation Trust Fund. Fees must be used to reimburse outstanding contractual obligations and to operate and maintain the highway and toll facilities, including reconstruction and restoration.

Currently, the statute requires the fees to be used to reimburse a county or another local governmental entity for the direct actual costs of operating the MM63 fire station, which may be used to provide fire, rescue, and emergency management services to the public on the Alley. Reimbursement must be accomplished through an interlocal agreement, effective July 1, 2014, through no later than June 30, 2019.

The statute also authorizes fees to be transferred to the Everglades Fund for certain environmental projects or be pledged for revenue bonds or notes issued to pay for environmental projects in the area. Upon termination of the interlocal agreement for the fire station, the FDOT will be authorized to use the fees for the other required or authorized uses described above.

**Toll Revenues and Expenses**

According to the FDOT’s 2017 Annual Report for its Enterprise Toll Operations,² for Fiscal Year 2017-2018 through 2021-2022 the Alley will average $36 million in gross toll revenue each year,³ with annual operating and maintenance expenses averaging $10.2 million.⁴ The FDOT advises, as of December 31, 2018, outstanding bonds totaled $17 million, with Fiscal Year 2019 debt service of $8.4 million.⁵ The maintenance expenses include funding for rest area, safety, and lighting projects.⁶

**The Interlocal Agreement for Fire Station 63**

On May 9, 2014, the FDOT and the Board of Commissioners of Collier County entered into an interlocal agreement to provide the terms and conditions under which the FDOT will “provide funding to the County for the County’s expenses in purchasing equipment, compensating County employees, and otherwise providing fire, rescue, and emergency services utilizing the Fire Station.”⁷

The FDOT included the fire station in its construction project when it rebuilt the rest area at MM63, and the fire station opened in early 2015. The fire station was built “for the exclusive use

of the County for the duration of this Agreement." \(^8\) The FDOT owns the fire station and leases it to the County. \(^9\) However, under the agreement, “all equipment, personal property, vehicles, apparatus and supplies acquired by County with funding provided by DEPARTMENT…shall remain the property of County, notwithstanding any termination of this Agreement.” \(^10\)

### Funding in the Interlocal Agreement

For the term of the agreement, the FDOT agreed to provide a maximum of $1,761,235 for direct actual capital costs and a maximum of $1,498,100 for the county’s direct actual costs of operating the fire station. \(^11\) The County agreed to bear all expenses in excess of the FDOT’s specified participation. \(^12\) The agreed-upon funding includes various annual operating items such as hired paramedics and fire fighters; expenses for administrative and building maintenance; and expenses for bulk fuel and various types of search and rescue equipment. Capital costs include items such as vehicles, radios, and breathing air compressors. \(^13\)

Information regarding the FDOT’s Adopted Five-Year Work Program reflects the following funding by specified fiscal year for the MM63 fire station. \(^14\)

### III. Effect of Proposed Changes:

The bill amends s. 338.26(3)(a), F.S., to repeal the reference to the term of the interlocal agreement. This makes permanent the FDOT’s obligation to use Alligator Alley toll revenues to reimburse a local governmental entity for the direct actual costs of operating the fire station at MM63 on the Alley.

C. Government Sector Impact:

The FDOT will be permanently obligated to continue funding the Greater Naples Fire Rescue District’s direct actual costs of operating the MM63 fire station from the fees generated from tolls collected on the Alley. Under current law, the FDOT is authorized to use the fees for the other required or authorized uses described in the statute.

The Greater Naples Fire District will continue to receive funding, indefinitely, for direct actual operating and capital costs of operating the fire station, and thus will only have to expend funds for expenses above the costs agreed to in the interlocal agreement. The exact amount of such funding is unknown but will likely be based on an agreed-upon estimated schedule of expenses incorporated into a new interlocal agreement or extension of the current interlocal agreement, which expires on June 30, 2019.
VI. Technical Deficiencies:

None.

VII. Related Issues:

The FDOT provided the following bond-related comments:\textsuperscript{15}

- “The bill restricts the resources which would be used for other statutorily established purposes, one of which is Everglades restoration. Should the department need to issue bonds supported by Alligator Alley toll proceeds, the provisions of this bill would restrict the amount which could be available to reimburse the bonds. In the worst case, there could be insufficient resources to maintain or improve the roadway facilities.”
- “The continued open flow of funds can be expected to continue to be a negative from the rating agencies credit analysis perspective.”

National rating agencies have given the most recent Alligator Alley bonds A+ or Aa3 ratings, with the outlook for the bonds being stable.\textsuperscript{16}

POLICY ANALYSIS

1. EXECUTIVE SUMMARY

The bill would remove the time limit in current law that requires the Department of Transportation to use Alligator Alley toll revenues through June 30, 2019 to pay the costs of operation of a locally run fire station at mile marker 63 to provide fire, rescue, and emergency management services to the public on Alligator Alley.

2. SUBSTANTIVE BILL ANALYSIS

1. PRESENT SITUATION:

Section 338.26, Florida Statutes, requires the Department to use toll revenues generated by travel on Alligator Alley for specific purposes. Toll revenues must be used:

1. To reimburse outstanding contractual obligations;
2. To operate and maintain the highway and toll facilities, including reconstruction and restoration; and
3. Through June 30, 2019, to reimburse a county or another local governmental entity for the direct actual costs of operating a fire station at mile marker 63 to provide fire, rescue, and emergency management services to the public on Alligator Alley.

Any toll revenues remaining after payment of these items may be transferred to the Everglades Trust Fund and used for certain environmental projects.

The Department currently provides funding for operation of the fire station to Collier County under a 2014 interlocal agreement. After June 30, 2019, the fire station operation support provided to the County from Alligator Alley toll revenues will cease.

2. EFFECT OF THE BILL:

The bill would remove the June 30, 2019 expiration date and would require the Department to permanently use Alligator Alley toll revenues to reimburse a local governmental entity (not necessarily Collier County) for the direct actual costs of operating the fire station at mile marker 63 on Alligator Alley, to provide fire, rescue, and emergency management services to the public on Alligator Alley. In eliminating the end date, this extends indefinitely financial responsibility for operating expenses with no restriction.

The bill would permanently reduce the amount of Alligator Alley toll revenues available for transfer to the Everglades Trust Fund for environmental projects.

The bill makes permanent use of toll revenues for a non-transportation purpose. Redirecting toll revenues for purposes other than the facility affects the credit rating. This includes statutory redirects such as Everglades Restoration or the fire station operating costs.

ADDITIONAL COMMENTS

There are four general concerns with this bill:

1. The bill makes permanent the use of toll revenues for a non-transportation purpose.
2. There is no restriction on the operating costs which could be incurred.
3. The bill restricts the resources which would be used for other statutorily established purposes, one of which is Everglades restoration. Should the department need to issue bonds supported by Alligator Alley toll proceeds, the provisions of this bill would restrict the amount which could be available to reimburse the bonds. In the worst case, there could be insufficient resources to maintain or improve the roadway facilities.
4. The continued open flow of funds can be expected to continue to be a negative from the rating agencies credit analysis perspective.

BILL: PCS/CS/SB 252 (933842)

INTRODUCER: Appropriations Subcommittee on Transportation, Tourism, and Economic Development; Infrastructure and Security Committee; and Senator Flores

SUBJECT: Driver License, Identification Card, and Motor Vehicle Registration Applications

DATE: March 6, 2019

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 252 requires the Department of Highway Safety and Motor Vehicles (DHSMV) to include an option on the motor vehicle registration application to make a voluntary contribution of $1 or more to the Live Like Bella Childhood Cancer Foundation. Such contributions will be distributed by the DHSMV to the foundation.

The bill repeals the requirement that the DHSMV include an option on the motor vehicle registration application and on the driver license and identification card application to make a voluntary contribution of $1 or more to the Auto Club Group Traffic Safety Foundation, Inc.

The bill has an insignificant fiscal impact on the DHSMV.

This bill takes effect on July 1, 2019.
II. Present Situation: Voluntary Contributions

The application form for motor vehicle registration and renewal of registration\(^1\) and for an original, renewal, or replacement driver’s license or identification card provides a voluntary contributions section that allows applicants to make a donation by checking a box on the form.\(^2\)

The Florida Statutes specifically authorize which organizations can receive a voluntary contribution. Sections 320.023 and 322.081, F.S., establish the requirements for organizations seeking to establish a voluntary contribution on the application. Requirements include:

- A request for the particular voluntary contribution being sought, describing the proposed voluntary contribution in general terms;
- An application fee,\(^3\) not to exceed $10,000 to defray the DHSMV’s cost for reviewing the application and developing the voluntary contribution checkoff, if authorized;\(^4\)
- A marketing strategy outlining short-term and long-term marketing plans for the requested voluntary contribution; and
- A financial analysis outlining the anticipated revenues and the planned expenditures of the revenues to be derived from the voluntary contribution.

This information must be submitted to the DHSMV at least 90 days before the next regular session of the Legislature convenes.

Sections 320.023 and 322.081, F.S., also establish a threshold for discontinuation of the voluntary contribution and oversight for organizations approved for a voluntary contribution on the motor vehicle registration application. These statutes require:

- The DHSMV to include any voluntary contributions approved by the Legislature on the application;
- The DHSMV to discontinue the voluntary contribution if:
  - Less than $25,000 has been contributed by the end of the 5th year; or
  - Less than $25,000 is contributed during any subsequent five-year period.
- Any voluntary contribution, or any interest earned from those contributions, not to be used for commercial or for-profit activities or for general or administrative expenses;
- An organization to submit its audit to the DHSMV for review to determine if any voluntary contribution, or any interest earned from those contributions, was used for commercial or for-profit activities or for general or administrative expenses; and
- All organizations required to operate under the Solicitation of Contributions Act, as provided in ch. 496, F.S., to meet the requirements of that act before funds may be distributed.

The DHSMV is authorized to examine all records pertaining to the use of funds from the voluntary contributions by the organizations.

---

\(^1\) As used in this document, the phrase “motor vehicle registration application” refers to the application form for motor vehicle registration and renewal of registration.

\(^2\) Sections 320.02(16) and 322.08(8), F.S., provide applicants with 21 options for voluntary contributions.

\(^3\) State funds may not be used to pay the application fee. See ss. 320.023(1)(b) and 322.081(1)(b), F.S.

\(^4\) If the voluntary contribution is not approved by the Legislature, the application fee must be refunded to the requesting organization. Sections 320.03(2) and 322.081(2), F.S.
Live Like Bella Childhood Cancer Foundation

The Live Like Bella Childhood Cancer Foundation was founded in 2013\(^5\) “to promote and increase community awareness of childhood cancers and diseases and the need for research and development of medical treatments for children through the dissemination of information to the general public; to use funds to support such activities; and to make grants, loans, or other distributions...”\(^6\) The Live Like Bella Childhood Cancer Foundation is named after Bella Rodriguez-Torres, who passed away at the age of 10 from pediatric cancer. The foundation’s mission is to help children with cancer maintain a love for life. As of September 2017, the Live Like Bella Childhood Cancer Foundation has served families in 44 states and 11 countries, having surpassed $4 million in donations. To date, donations have been used for on-going research, memorial support, compassionate use, and in-treatment support.\(^7\)

Pediatric Cancer Research

According to the National Cancer Institute, cancer remains the leading cause of death from disease among children. The most common types of cancer diagnosed in children ages 0 to 14 years, are:

- Leukemia;
- Brain and other central nervous system (CNS) tumors; and
- Lymphoma.\(^8\)

Pediatric cancer death rates have declined by 65 percent from 1970 to 2016;\(^9\) however, even when long-term survival is achieved, many survivors of childhood cancer may experience long-term adverse effects from the disease or its treatment. Research is needed to develop treatments for childhood cancer that are more effective and safe for children.\(^10\)

Pediatric cancer is relatively uncommon, representing less than one percent of all new cases of cancer diagnosed in the United States each year. According to the National Cancer Institute, this presents a major challenge in conducting pediatric cancer research. “As clinical trials are increasingly restricted to smaller numbers of patients who are defined by the molecular characteristics of their tumors, rather than where the tumors originated in the body, collaboration among children’s cancer centers and a strong national clinical research program will continue to

be essential to ensure that trials enroll sufficient numbers of participants to produce meaningful results.”

Securing adequate funding to support pediatric cancer research and clinical trials is a challenge. In 2017, pediatric cancer research awarded by the National Institutes of Health totaled approximately $220 million, which represented only 2.5 percent of the total funding allocated for research. Florida received a fraction of the total amount awarded for pediatric cancer research with only $10,256,609 awarded to Florida-based institutions in 2017.

**Auto Club Group Traffic Safety Foundation, Inc.**

Effective October 1, 2011, Tampa-based AAA Auto Club South and Dearborn, Michigan-based, The Auto Club Group, affiliated and combined operations. The enterprise is known as The AAA - Auto Club Group and provides membership, travel, insurance, and financial services to members in 11 states, including Florida, and two United States territories.

The Auto Club Group Traffic Safety Foundation, Inc., was founded in 2010, as a nonprofit corporation under s. 501(c)(3) of the Internal Revenue Code, as a unit of the AAA – The Auto Club Group. In 2013 a $1 voluntary contribution checkoff for the Auto Club Group Traffic Safety Foundation, Inc., was authorized for the application forms for an original, renewal, or replacement driver’s license or identification card and motor vehicle registration. Funds received by the foundation were to be used to improve traffic safety culture in communities through effective outreach, education, and activities in the state designed to save lives, reduce injuries, and prevent crashes.

The AAA – The Auto Club Group is winding down the operations of the Auto Club Group Traffic Safety Foundation, Inc., and plans to dissolve the entity with an effective date no later than January 1, 2020. The foundation requested the DHSMV remove the voluntary checkoff for the foundation from the forms.

POLICY ANALYSIS

1. EXECUTIVE SUMMARY

The bill amends Chapter 320, F.S., to require that motor vehicle registration and registration renewal forms include an option to make a voluntary contribution to the Live Like Bella Childhood Cancer Foundation. The bill provides for the collection and distribution of these funds to the Live Like Bella Childhood Cancer Foundation.

If passed, the bill shall take effect July 1, 2019.

2. SUBSTANTIVE BILL ANALYSIS

1. PRESENT SITUATION:

Voluntary contribution organizations must be specifically authorized by the Florida Statutes, unless exempt. Section 320.023, F.S., establishes requirements for organizations seeking authorization to establish a voluntary contribution on motor vehicle registration application forms. This section specifies the requirements, which include submitting a letter describing the contribution, an application fee not to exceed $10,000, a long and short-term marketing plan addressing revenue and expenditures, and a copy of the Solicitation of Contributions Act. This information must be submitted to the Department of Highway Safety and Motor Vehicles (Department) at least 90 days before the convening of the next regular session of the Legislature. In Policy (RS-59), the Department requires a $10,000 fee as authorized by s. 320.023, F.S. The fee was established to offset the Department’s programming cost.

Motor vehicle registration applicants currently have an opportunity to make voluntary contribution to 27 different organizations.

Charitable Organizations
1. Children Hearing Help
2. Autism Programs
3. Florida Association of Food Banks, Inc.
4. Support Our Troops
5. Take Stock In Children
6. End Breast Cancer
7. Highway Safety
8. Support Wildlife
9. Organ Tissue Donor
10. Preserve Vision Florida
11. Trans Disadvantaged
12. Manatee
13. Save The Turtle
14. Traffic Safety Foundation
15. Help the Homeless
16. Prevent Child Abuse
17. Prevent Child Sexual Abuse (Lauren’s Kids)
18. Blind Babies/Youth Services
19. The Arc of Florida
20. Ronald McDonald
21. League Against Cancer
22. Family First Foundation
23. State Homes for Veterans
24. Florida Sheriff’s Youth Ranches
25. Stop Heart Disease
26. Mothers Against Drunk Driving
27. Southeastern Guide Dogs
2. **EFFECT OF THE BILL:**

   Section 1:

   The bill requires the Department to include on the motor vehicle registration and renewal application, language permitting a voluntary contribution of $1 or more per applicant to the Live Like Bella Childhood Cancer Foundation.

   Funds collected by the Department will be distributed to the Live Like Bella Childhood Cancer Foundation.

   The bill does not require that the organization comply with the requirements set forth in s. 320.023, F.S., (and the organization has not complied); however, the application fee of $10,000 offsets the Department’s programming cost. This fee was not submitted, as statutorily required in s. 320.023, F.S.

   Department procedure RS-59 would need to be updated, and notification to all tax collector offices and renewal notice to vendors would also need to be sent.

ADDITIONAL COMMENTS

The Department last redesigned its motor vehicle system on October 1, 1999. When designed, the motor vehicle registration renewal system was programmed to allow participating renewal notice vendors to print up to 27 total lines of the names of organization authorized to receive voluntary contributions. Today, there is no more physical space available on the renewal notices to add this additional proposed organization without the department and renewal notice vendors modifying their systems. Programming would be required to add a second page to renewal notices to add this organization. Having an additional renewal notice page would result in additional paper and postage cost.
The Department is considering alternative ways of disclosing and publicizing a list of these voluntary contribution funds, which may include the Department’s website.

Revenue generated by this voluntary contribution is based on public interest and cannot be determined by the Department.

Amendment
In order to have sufficient time to implement required programming, the Department recommends the following amendment:
Page 1, Line 29:

This act shall take effect July 1, 2019 October 1, 2019.
