I. Summary:

This bill re-creates the Capital Collateral Regional Counsel Trust Fund within the Justice Administrative Commission without modification, and repeals the provisions that would have terminated the trust fund. This bill repeals s. 27.715(2), Florida Statutes. The bill would become effective July 1, 2013.

II. Present Situation:

Currently, the Capital Collateral Regional Trust Fund within the Justice Administrative Commission is scheduled to be terminated on July 1, 2013. Article III, Section 19(f) of the Florida Constitution requires the termination of all state trust funds within four years of their initial creation, unless exempt by the Constitution or operation of law. Funds credited to this trust fund consist of compensation and reimbursements received from the federal government pursuant to 18 U.S.C. s. 3006A for legal representation in both state and federal capital post-conviction proceedings to any person convicted and sentenced to death in Florida who is without counsel due to indigency. For the current year, the legislature has appropriated \$400,000 from this trust fund. The trust fund is estimated to receive \$400,480 during Fiscal Year 2012-13 and the fund balance is estimated to be \$810,612 on June 30, 2013.

Eurozone Problems Still Persist

- The sovereign debt crisis in the Eurozone has led to banking instability with spillover effects on the global credit market.
 - Greek default may occur within the next several months—maybe as early as March.
 - Portugal's debt is rated —junk and Italy and Spain have unsustainably high borrowing costs.
 - On Friday, Standard & Poor's downgraded 9 of the Eurozone's 17 members, including France, Austria, Italy, Spain and Portugal, stating:
 - The effectiveness, stability and predictability of European policymaking and political institutions have not been as strong as we believe are called for by the severity of a broadening and deepening financial crisis.”
 - On Monday, Standard & Poor's downgraded the rescue fund – the European Financial Stability Facility. If this downgrade is replicated by the other rating agencies, the current rescue plan is likely unworkable as designed and the dollars available for bailout will be reduced.
 - The region's banks still need to be recapitalized.
- It appears that the Eurozone slipped into recession during the fourth quarter of the last calendar year.
- Questions have been raised about the value of the fiscal treaty, regardless of whether final implementation is achieved in the Summer.
- These conditions will negatively affect the United States if no significant improvement is made.
 - Tighter credit conditions already exist.
 - Reduced exports and corporate earnings already exist.

Other Risks to the Forecast

- The forecast assumes that the 2% employee payroll tax cut and emergency unemployment insurance benefits will be extended for all of 2012. At this point, they have only been extended for two months.
- Florida's quarterly personal income growth (third quarter of 2011 over the preceding quarter) fell for the first time since the third quarter of 2009. At -0.1 percent growth, the state was ranked 46th in the country. If below expected personal income growth continues, the outlook will be negatively affected.
- As a result of the Supercommittee's failure, automatic spending cuts are scheduled to kick in at the beginning of 2013. Referred to as the Automatic Sequester, this is the enforcement mechanism used to ensure an additional \$1.2 trillion in spending reductions —falling equally on defense and non-defense spending.
 - In Federal Fiscal Year 2008, 13,294 Florida businesses received nearly \$16 billion in federal contracts. The vast majority of this money was defense-related. In 2009, contracts awarded by the Department of Defense accounted for 77 percent of total procurement contracts awarded to Florida.

Unit Cost Development for the State Courts

Senate Budget Committee

January 19, 2012

Proposed Changes

- Develop weighted caseload unit costs for the trial court
- Incorporate the unit costs by circuit into the trial court budget, similar to the clerks of court budget
- Improve the imposition of mandatory assessments and the collection of court fines and fees with an aim to maximizing revenues

Unit Cost Analysis

- One unit cost measure for consideration is **cost per weighted filing**
- Unit costs should be compared within peer groups based on the size of the circuit
- Trial court unit cost measures should be referenced in the General Appropriations Act

Weighted Unit Cost

- Weighted unit cost takes into account the mix of cases within each circuit

Imposition of Mandatory Assessments

- Florida law requires mandatory assessment of many fees, fines and other monetary penalties
- Available assessment data is deficient
- Committee recommends bill language to
 - ensure that mandated assessments are imposed
 - require the clerks of court to develop a standard form to identify all required assessments
- Clerks and courts have agreed to improve the reporting practices for assessment data

Fine and Fee Collection

- Clerk of court collections generally meet performance standards. However,
 - some divisions have low collection rates, e.g., circuit and county criminal
 - counties vary significantly in their collection rates
- Include collection rates by division and county with current clerk of court unit costs
- Direct the clerks to provide the Legislature with suggestions for improving collections, including working with Department of Revenue

DFS – Charts of Accounts Project

Activities Completed to Date:

Reviewed annual financial reports of the governmental entities to compile a master list of accounts that are currently in use.

Master Listing will be “rolled up” to meaningful accounts. For example:

- 19 accounts for tracking “Cash”
- 34 accounts for tracking “Accounts Receivable”
- 145 accounts for tracking “Liabilities”
- 133 accounts for tracking “Revenue”

DFS – Charts of Accounts Project

Activities Completed to Date:

Held workshops with colleges, universities, and district school boards to discuss the project and to solicit their feedback.

Requested proposals of the accounts that will be used for reporting

Proposals should be received this Spring

DFS – Charts of Accounts Project

Discussion/Concerns raised during Workshops:

- What is the required level of the organization for reporting?
 - Recommending two levels
- What is the frequency of reporting?
 - Recommending monthly

DFS – Charts of Accounts Project

Discussion/Concerns raised during Workshops:

- What is the level of detail for reporting expenditures?
 - Recommending the State Agencies' current object code listing
- Requesting definition and applicability of 'other entities' addressed in the legislation

All of these issues will affect the cost of implementing the enterprise-wide charts of accounts.

DFS – Charts of Accounts Project
