## COMMITTEE MEETING EXPANDED AGENDA

**HEALTH POLICY**

Senator Burton, Chair  
Senator Brodeur, Vice Chair

**MEETING DATE:** Tuesday, January 30, 2024  
**TIME:** 9:00—11:00 a.m.  
**PLACE:** Pat Thomas Committee Room, 412 Knott Building

**MEMBERS:** Senator Burton, Chair; Senator Brodeur, Vice Chair; Senators Albritton, Avila, Book, Calatayud, Davis, Garcia, Harrell, and Osgood

Other Related Meeting Documents
SB 516 amends ss. 465.0275 and 893.04, F.S., relating to emergency prescription refills. The bill eliminates the current one-vial limit on emergency insulin refills and expands current law on emergency insulin refills to include related supplies and equipment.

The bill authorizes pharmacists who have received a refill request from a patient but are unable to obtain an authorization from a prescriber, to dispense to the patient:
- A standard unit of dispensing of insulin to treat diabetes; or
- A 30-day supply of insulin and insulin-related supplies and equipment to treat diabetes.

The bill expands the number of times a pharmacist may dispense to a patient an emergency refill of insulin and insulin-related supplies and equipment to treat diabetes from a “one-time emergency refill” to up to three times per calendar year.

The bill provides an effective date of July 1, 2024.
II. Present Situation:

**Pharmacist Licensure**

Pharmacy is the third largest health profession behind nursing and medicine. The BOP of Pharmacy (DOP), in conjunction with the Department of Health (DOH), regulates the practice of pharmacists pursuant to ch. 465, F.S. To be licensed as a pharmacist, a person must:

- Complete an application and remit an examination fee;
- Be at least 18 years of age;
- Hold a degree from an accredited and approved school or college of pharmacy;
- Have completed a BOP approved internship; and
- Successfully complete the BOP approved examination.

A pharmacist must complete at least 30 hours of BOP-approved continuing education during each biennial renewal period. Pharmacists who are certified to administer vaccines or epinephrine auto-injections must complete a three-hour continuing education course on the safe and effective administration of vaccines and epinephrine auto-injections as a part of the biennial licensure renewal. Pharmacists who administer long-acting antipsychotic medications must complete an approved eight-hour continuing education course as a part of the continuing education for biennial licensure renewal.

**Pharmacist Scope of Practice**

In Florida, the practice of the profession of pharmacy includes:

- Compounding, dispensing, and consulting concerning the contents, therapeutic values, and uses of any medicinal drug;
- Consulting concerning therapeutic values and interactions of patent or proprietary preparations;
- Monitoring a patient’s drug therapy and assisting the patient in the management of his or her drug therapy, including the review of the patient’s drug therapy and communication with the patient’s prescribing health care provider or other persons specifically authorized by the patient, regarding the drug therapy;
- Transmitting information from prescribers to their patients;

---

2 Sections 465.004 and 465.005, F.S.
3 Section 465.007, F.S. The DOH may also issue a license by endorsement to a pharmacist who is licensed in another state upon meeting the applicable requirements set forth in law and rule. See s. 465.0075, F.S.
4 If the applicant has graduated from a 4-year undergraduate pharmacy program of a school or college of pharmacy located outside the U.S., the applicant must demonstrate proficiency in English, pass the board-approved Foreign Pharmacy Graduate Equivalency Examination, and complete a minimum of 500 hours in a supervised work activity program within Florida under the supervision of a DOH licensed pharmacist.
5 Section 465.009, F.S.
6 Section 465.009(6), F.S.
7 Section 465.1893, F.S.
8 Section 465.003(13), F.S.
• Administering vaccines to adults and influenza vaccines to persons seven years of age or older;\(^9\)
• Administering epinephrine autoinjections;\(^{10}\) and
• Administering antipsychotic medications by injection.\(^{11}\)

A pharmacist may not alter a prescriber’s directions, diagnose or treat any disease, initiate any drug therapy, or practice medicine or osteopathic medicine, unless permitted by law.\(^{12}\)

Pharmacists may order and dispense drugs that are included in a formulary developed by a committee composed of members of the Board of Medicine, the Board of Osteopathic Medicine, and the BOP.\(^{13}\) The formulary may only include:\(^{14}\)

• Any medicinal drug of single or multiple active ingredients in any strengths when such active ingredients have been approved individually or in combination for over-the-counter sale by the U.S. Food and Drug Administration (FDA);
• Any medicinal drug recommended by the FDA Advisory Panel for transfer to over-the-counter status pending approval by the FDA;
• Any medicinal drug containing any antihistamine or decongestant as a single active ingredient or in combination;
• Any medicinal drug containing fluoride in any strength;
• Any medicinal drug containing lindane in any strength;
• Any over-the-counter proprietary drug under federal law that has been approved for reimbursement by the Florida Medicaid Program; and
• Any topical anti-infectives excluding eye and ear topical anti-infectives.

A pharmacist may order the following, within his or her professional judgment and subject to the following conditions:

• Certain oral analgesics for mild to moderate pain. The pharmacist may order these drugs for minor pain and menstrual cramps for patients with no history of peptic ulcer disease. The prescription is limited to a six day supply for one treatment of:
  o Magnesium salicylate/phenyltoloxamine citrate;
  o Acetylsalicylic acid (Zero order release, long acting tablets);
  o Choline salicylate and magnesium salicylate;
  o Naproxen sodium;
  o Naproxen;
  o Ibuprofen;
  o Phenazopyridine, for urinary pain; and
  o Antipyrine 5.4%, benzocaine 1.4%, glycerin, for ear pain if clinical signs or symptoms of tympanic membrane perforation are not present;
• Anti-nausea preparations;
• Certain antihistamines and decongestants;

\(^9\) See s. 465.189, F.S.

\(^{12}\) Section 465.003(13), F.S.
\(^{13}\) Section 465.186, F.S.
\(^{14}\) Id.
• Certain topical antifungal/antibacterials;
• Topical anti-inflammatory preparations containing hydrocortisone not exceeding 2.5%;
• Certain otic antifungal/antibacterial;
• Salicylic acid 16.7% and lactic acid 16.7% in flexible collodion, to be applied to warts, except for patients under 2 years of age, and those with diabetes or impaired circulation;
• Vitamins with fluoride, excluding vitamins with folic acid in excess of 0.9 mg.;
• Medicinal drug shampoos containing Lindane for the treatment of head lice;
• Ophthalmic. Naphazoline 0.1% ophthalmic solution;
• Certain histamine H2 antagonists;
• Acne products; and
• Topical Antiviral for herpes simplex infections of the lips.15

Emergency Prescription Refills

Section 465.0275(1), F.S., authorizes a pharmacist to dispense, if the pharmacist is unable to readily obtain refill authorization from a prescriber, a one-time emergency refill of up to a 72-hour supply of a prescribed medication or a one-time emergency refill of one vial of insulin to treat diabetes. Current law however does not authorize pharmacists to dispense insulin-related supplies or equipment as part of an emergency prescription refill.

A pharmacist may also dispense an emergency refill of up to a 30-day supply if the Governor declares a state of emergency in areas affected by the order if:16
• The prescription is not for a medicinal drug listed in Schedule II of ch. 893, F.S.;
• The medication is essential to the maintenance of life or to the continuation of therapy in a chronic condition;
• In the pharmacist’s professional judgment, the interruption of therapy might reasonably produce undesirable health consequences or may cause physical or mental discomfort;
• The dispensing pharmacist creates a written order containing all the prescription required by law and signs that order; and
• The dispensing pharmacist notifies the prescriber of the emergency refill within a reasonable time after such dispensing.

Diabetes

Diabetes is a chronic health condition that affects how the human body converts food into energy.

The human digestive system breaks down carbohydrates consumed as food into glucose17 and releases it into the bloodstream, which increases the blood’s glucose level. Such an increase in blood glucose should signal the pancreas to release the hormone insulin, which acts as a catalyst to allow the body’s cells to metabolize the glucose and convert it to energy, or to convert the glucose into forms suitable for short-term or long-term storage.

16 Section 465.0275(2), F.S.
17 Glucose is the simplest type of carbohydrate (chemical formula C₆H₁₂O₆), and all carbohydrates consumed as food must be broken down into glucose before the body can metabolize them.
With diabetes, depending on the type of diabetes, the pancreas either does not make any insulin or does not make enough insulin, or the body cannot use insulin as well as it should. When there is not enough insulin or if cells stop responding to insulin, blood glucose levels elevate and stay elevated for extended periods. Over time, such elevated blood glucose levels can cause serious health problems, such as heart disease, vision loss, kidney disease, vascular disease, and other maladies. Such outcomes are often known as long-term complications of diabetes.

Approximately 2,164,009 people in Florida have diabetes, according to the American Diabetes Association.

**Types of Diabetes**

There are three main types of diabetes: Type 1, Type 2, and gestational diabetes.

**Type 1 Diabetes**

Type 1 diabetes is thought to be caused by an autoimmune reaction in which the body’s immune system attacks and destroys the cells in the pancreas that normally produce insulin. Approximately 5 to 10 percent of the people with diabetes have Type 1. Symptoms of Type 1 often develop quickly. It is usually diagnosed in children, teens, and young adults. Someone with Type 1 diabetes must take insulin, usually through subcutaneous injection, on a regular basis to survive, usually one or more times per day. Currently, Type 1 diabetes can be neither prevented nor cured.18

**Type 2 Diabetes**

With Type 2 diabetes, the body does not use insulin well and cannot keep blood glucose at normal levels. About 90 to 95 percent of people with diabetes have Type 2. It develops over many years and is usually diagnosed in overweight, middle-aged adults, although it can sometimes manifest in adolescents and young adults. Type 2 diabetes can often be prevented or delayed, or even eliminated altogether, with healthy lifestyle changes, such as losing weight, eating healthy food, and exercising regularly.19 Type 2 diabetes is usually treated with oral medications but can require insulin injections in some cases.

**Gestational Diabetes**

Gestational diabetes develops in pregnant women who have never had diabetes. In pregnant women with gestational diabetes, the baby could be at higher risk for health problems. Gestational diabetes usually goes away after the baby is born. However, it correlates to a higher risk for Type 2 diabetes later in life. A baby delivered by a woman with gestational diabetes is more likely to become obese as a child or teen and to develop Type 2 diabetes later in life.20

---

19 Id.

20 Id.
Managing Diabetes

In order for Type 1 or Type 2 diabetics to avoid long-term complications, or for a pregnant woman with gestational diabetes to mitigate the effects of that condition, blood glucose levels must be managed to stay as close to normal ranges as possible.

A widely accepted “normal” level of blood glucose is 100 milligrams of glucose per deciliter (mg/dL) of whole blood, although normal levels may vary. A normal fasting blood glucose level for someone without diabetes is 70 to 99 mg/dL. 21

Testing blood glucose levels is key to managing diabetes. Years of elevated blood glucose levels can lead to diabetes’ costly and disabling long-term complications, while levels that are too low (hypoglycemia) can be dangerous in an immediate sense and can lead to disorientation, unusual confusion, unconsciousness, grand mal seizure, brain damage, or death.

Medications and Supplies

Insulin

All Type 1 diabetics and some Type 2 diabetics require insulin to be artificially introduced into the diabetic’s body. Different types of insulin work at different speeds, and each lasts for different lengths of time. A patient may need to use more than one type of insulin such as long-acting and short-acting. Insulin may be administered in a number of ways. Common options include a needle and syringe, insulin pen, or insulin pump. 22 Inhalers and insulin jet injectors are less common ways to take insulin. Artificial pancreas systems are now approved by the U.S. Food and Drug Administration (FDA). 23

Medication Delivery Devices

Needle/Syringe

Insulin injections using a needle and syringe are a common way to receive insulin. Some people with diabetes who take insulin need two to four injections a day to keep their blood glucose in their target range. Others can take a single dose. 24

Pen

An insulin pen looks like an oversized writing pen but has a needle for its point. Some insulin pens come filled with insulin and are disposable. Others have room for an insulin cartridge that is inserted and replace after use. Many people find insulin pens easier to use, but pens might be more expensive than needles and syringes. Different pen types have features that can help with injections. Some reusable pens have a memory function, which can recall dose amounts and

24 Id.
timing. Other “connected” insulin pens can be programmed to calculate insulin doses and provide downloadable data reports, which can help health care practitioners adjust insulin doses.\textsuperscript{25}

\textit{Pump}
An insulin pump is a small machine that gives a steady dose of insulin throughout the day, usually worn outside the body on a belt or in a pocket or pouch. The pump has a mechanism to pierce the patient’s skin with a tiny plastic tube and stay attached on the surface of the skin continuously, usually via an adhesive. The plastic tube will stay inserted for several days while attached to the insulin pump. The machine pumps insulin through the tube into the body 24 hours a day and can be programmed to give the patient more or less insulin as needed. The patient can also give himself or herself doses of insulin through the pump at mealtimes.

\textit{Oral and Injectables}
Numerous types of oral medications are available for regulating the blood glucose of patients with Type 2 diabetes. In recent years, other types of medications for Type 2 diabetes have been brought to market which are administered by injection. Combining two or three kinds of diabetes medicines can lower blood glucose levels for Type 2 diabetics better than taking just one medicine.\textsuperscript{26}

\textbf{III. Effect of Proposed Changes:}
SB 516 amends ss. 465.0275 and 893.04, F.S., relating to emergency prescription refills. The bill eliminates the current one-vial limit on emergency insulin refills and expands current law on emergency insulin refills to include related supplies and equipment.

The bill authorizes pharmacists who have received a refill request from a patient but are unable to obtain an authorization from a prescriber, to dispense to the patient:
- A standard unit of dispensing of insulin to treat diabetes; or
- A 30-day supply of insulin and insulin-related supplies and equipment to treat diabetes.

The bill expands the number of times a pharmacist may dispense to a patient an emergency refill of insulin and insulin-related supplies and equipment to treat diabetes from a “one-time emergency refill” to up to three times per calendar year.

The bill provides an effective date of July 1, 2024.

(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill’s introducer or the Florida Senate.
The Committee on Health Policy (Rodriguez) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Subsection (1) of section 465.0275, Florida Statutes, is amended to read:

465.0275 Emergency prescription refill.—

(1) In the event a pharmacist receives a request for a prescription refill and the pharmacist is unable to readily obtain refill authorization from the prescriber, the pharmacist...
may dispense:

(a) A one-time emergency refill of up to a 72-hour supply of the prescribed medication; or

(b) An one-time emergency refill of one vial of insulin and insulin-related supplies or equipment to treat diabetes mellitus, not to exceed three nonconsecutive times per calendar year.

Section 2. Subsection (3) of section 893.04, Florida Statutes, is amended to read:

893.04 Pharmacist and practitioner.—

(3) Notwithstanding subsection (1), a pharmacist may dispense a one-time emergency refill of up to a 72-hour supply of the prescribed medication for any medicinal drug other than a medicinal drug listed in Schedule II, or an emergency refill of one vial of insulin and insulin-related supplies or equipment to treat diabetes mellitus, not to exceed three nonconsecutive times per calendar year, in compliance with s. 465.0275.

Section 3. This act shall take effect July 1, 2024.

A bill to be entitled An act relating to emergency refills of insulin and insulin-related supplies or equipment; amending s. 465.0275, F.S.; authorizing pharmacists to dispense an emergency refill of insulin and insulin-related supplies or equipment a specified number of times per
year; amending s. 893.04, F.S.; conforming a provision to changes made by the act; providing an effective date.
A bill to be entitled
An act relating to emergency refills of insulin and insulin-related supplies or equipment; amending s. 465.0275, F.S.; authorizing pharmacists to dispense an emergency refill of a standard unit of dispensing or a 30-day supply of insulin and insulin-related supplies or equipment a specified number of times per year; amending s. 893.04, F.S.; conforming a provision to changes made by the act; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (1) of section 465.0275, Florida Statutes, is amended to read:

465.0275 Emergency prescription refill.—
(1) In the event a pharmacist receives a request for a prescription refill and the pharmacist is unable to readily obtain refill authorization from the prescriber, the pharmacist may dispense:

(a) A one-time emergency refill of up to a 72-hour supply of the prescribed medication; or

(b) A one-time emergency refill of a standard unit of dispensing or a 30-day supply of insulin and insulin-related supplies or equipment to treat diabetes mellitus, not to exceed three times per calendar year.

Section 2. Subsection (3) of section 893.04, Florida Statutes, is amended to read:

893.04 Pharmacist and practitioner.—
(3) Notwithstanding subsection (1), a pharmacist may
dispense a one-time emergency refill of up to a 72-hour supply of the prescribed medication for any medicinal drug other than a medicinal drug listed in Schedule II, or a standard unit of dispensing or a 30-day supply up to one vial of insulin and insulin-related supplies or equipment to treat diabetes mellitus, not to exceed three times per calendar year, in compliance with s. 465.0275.

Section 3. This act shall take effect July 1, 2024.
To: Senator Colleen Burton, Chair
   Committee on Health Policy

Subject: Committee Agenda Request

Date: December 5, 2023

I respectfully request that Senate Bill #516, relating to Emergency Refills of Insulin and Insulin-related Supplies or Equipment, be placed on the:

☐ committee agenda at your earliest possible convenience.
☒ next committee agenda.

Senator Ana Maria Rodriguez
Florida Senate, District 40
I. **Summary:**

SB 274 creates the Kareem Angel Green Act to require any organization that brings a child in its care to a public bathing place or public swimming pool to require the child’s parent or legal guardian to attest whether the child is able to swim or is at risk in the water. If the child is at risk in the water, the organization must provide a specified flotation device to the child and ensure that the flotation device is properly fitted and fastened when the child is within a fenced-in area containing a public bathing place or pool or if the child is within 100 feet of an unfenced public bathing place or pool. The requirement to provide a flotation device does not apply to an organization providing swimming instruction or a swimming competition. Additionally, the bill provides specified types of organizations that are exempt from its requirements.

The bill authorizes the Department of Health (DOH) to adopt rules to administer the bill’s provisions and provides that organizations in violation are subject to disciplinary action by any state agency that has jurisdiction over that type of organization.

The bill provides an effective date of July 1, 2024.

II. **Present Situation:**

**The Danger of Drowning**

Drowning is one of the leading causes of accidental death among children. For all ages, the current annual global estimate is 295,000 drowning deaths, although this figure is thought to underreport fatal drowning, in particular boating and disaster related drowning mortality.

---

1 The bill defines “organization” to mean a summer day camp, a summer 24-hour camp, a school, a preschool, a kindergarten, a nursery school, or a child care facility as defined in s. 402.302, F.S.
Drowning disproportionately impacts children and young people, with over half of all drowning deaths occurring among people younger than 25 years old. In many countries, children under five years of age represent the highest rate of fatal and non-fatal drowning, with incidents commonly occurring in swimming pools and bathtubs in high-income countries and in bodies of water in and around a home in low-income contexts.²

**Drowning Deaths in Florida**

Drowning deaths in Florida have consistently ranged between 350 and 500 deaths per year in the state from 2003 to present. Data from 2022 show that most counties suffered less than 10 deaths from drowning in that year, but many highly-populated and coastal counties suffered from a much higher rate of drowning.³ For example, Broward County had 46 drowning deaths in 2022, Miami-Dade had 30, Hillsborough had 33, and Palm Beach had 42.⁴

**Drowning Prevention**

The National Drowning Prevention Alliance (NDPA) recommends five items for protecting children from drowning: barriers and alarms, supervision, water competency, life jackets, and emergency preparation.⁵ Specific to supervision, and since many drowning incidents occur when people are actively swimming, the NDPA recommends that an adult be within arms’ length of any children who lack water competency.⁶ Active supervision is recommended even in bodies of water where a lifeguard is present.⁷

**Life Jackets**

The NDPA recommends that everyone wear a life jacket or personal flotation device (PFD) approved by the United States Coast Guard (USCG) whenever boating or in a natural or open body of water. The NDPA indicates it is important that the life jacket is USCG approved and fitted for the individual. Not all devices sold by retailers are tested and approved flotation devices. Devices that are not tested and approved cannot be considered a safe layer of protection and should not be part of a family’s water safety plan, according to the NDPA.⁸

Personal flotation devices come in four types: Types I, II, III, and V. A Type I PFD has the greatest required inherent buoyancy and turns most unconscious persons in the water from a face-down position to a vertical and slightly backward position, thereby greatly increasing the chance of survival. A Type 2 PFD is intended to turn some unconscious

---

⁴ Id.
⁷ Id.
persons from a face-down position in the water to a position where the wearer’s respiration is not impeded. A Type III PFD is intended to support a conscious person in the water in an upright position. This type of device is not required to turn an unconscious person in the water from a face-down position to a position where the wearer’s respiration is not impeded. A Type V PFD is approved for restricted uses or activities such as boardsailing or commercial white water rafting. These devices may not be suitable for other boating activities. The label indicates whether a particular design of Type V can be used in specific application, what restrictions or limitations apply, and its performance type.\(^9\)

### III. Effect of Proposed Changes:

SB 274 creates s. 514.073, F.S., to establish the Kareem Angel Green Act. The bill defines the following terms:

- “Child” means a person younger than 12 years of age.
- “Organization” means a summer day camp, a summer 24-hour camp, a school, a preschool, a kindergarten, a nursery school, or a child care facility as defined in s. 402.302.\(^{10}\)
- “Public swimming pool” has the same meaning as in s. 514.011(2) but does not include a wading pool.
- “Wading pool” means a pool, including a pool that contains a public interactive water feature or fountain, with a maximum water depth of no more than 18 inches.

The bill requires any organization that takes a child in its care or under its supervision to a public bathing place or public swimming pool to require the child’s parent to attest in writing whether the child is able to swim or is at risk of injury or death when swimming or otherwise accessing a pool or body of water. Any organization that conducts an activity that provides a child under its care or supervision with access to a public bathing place or public swimming pool, whenever a child who is at risk of injury or death when swimming, is within a fenced-in area around the pool or bathing place, or is within 100 feet of a pool or bathing place that is not fenced-in, must:

- Provide the child with a USCG-approved Type II PFD if the child is near a public bathing place;
- Provide the child with either a USCG-approved Type II or Type III PFD if the child is near a public swimming pool; and
- Ensure that the PFD is properly fitted and fastened on the child.

The requirement to provide a PFD does not apply if the child is actively participating in swimming instruction or a swimming competition if the organization ensures that each such child is supervised during that time. Additionally, none of the requirements of the section apply to:

\(^{10}\) Section 402.302, F.S., defines “child care facility” as any child care center or child care arrangement which provides child care for more than five children unrelated to the operator and which receives a payment, fee, or grant for any of the children receiving care, wherever operated, and whether or not operated for profit. The definition specifically excludes schools, summer camps, vacation Bible schools, and operators of transient establishments under specified circumstances.
• A residential boarding school that allows employees and their family members and guests to use a body of water at the school for recreational purposes.
• A child-placing agency, family foster home, or residential child-caring agency as defined in s. 409.175(2), F.S.
• A child care facility licensed under s. 402.305, F.S.

The bill authorizes the DOH to adopt rules to administer the bill’s provisions and provides that organizations in violation are subject to disciplinary action, equivalent to licensure action, by any state agency that has jurisdiction over that type of organization.

The bill provides an effective date of July 1, 2024.

IV. **Constitutional Issues:**

A. Municipality/County Mandates Restrictions:
   None.

B. Public Records/Open Meetings Issues:
   None.

C. Trust Funds Restrictions:
   None.

D. State Tax or Fee Increases:
   None.

E. Other Constitutional Issues:
   None.

V. **Fiscal Impact Statement:**

A. Tax/Fee Issues:
   None.

B. Private Sector Impact:
   The bill may have a negative fiscal impact on organizations that will be required to provide PFDs under the bill.

C. Government Sector Impact:
   None.
VI. Technical Deficiencies:

None.

VII. Related Issues:

SB 274 defines the term “public swimming pool” but uses a number of other terms throughout the bill including public bathing place, body of water, and pool. It may be advisable to define the other terms used in the bill.

SB 274 includes child care facilities, as defined in s. 402.302, F.S., in the definition of “organization” and applies the requirements of the bill to such facilities. Meanwhile, the bill exempts child care facilities licensed under s. 402.305, F.S., from the requirements of the bill. It may be advisable to clarify whether the requirements of the bill do or do not apply to the latter facilities.

VIII. Statutes Affected:

This bill creates section 514.073 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
   (Summarizing differences between the Committee Substitute and the prior version of the bill.)

   None.

B. Amendments:

   None.

This Senate Bill Analysis does not reflect the intent or official position of the bill’s introducer or the Florida Senate.
By Senator Rodriguez

A bill to be entitled
An act relating to child water safety requirements;
providing a short title; creating s. 514.073, F.S.;
defining terms; providing that certain organizations
that care for or supervise children must require
parents or legal guardians to attest to certain
information in writing before taking such children to
public bathing places and public swimming pools;
providing requirements for such organizations when
they conduct certain activities in public bathing
places or public swimming pools; providing an
exception; providing for disciplinary action for
certain violations; providing applicability;
authorizing the Department of Health to adopt rules;
providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. This act may be cited as the “Kareem Angel Green
Act.”

Section 2. Section 514.073, Florida Statutes, is created to
read:

514.073 Child water safety requirements for certain
entities.—

(1) As used in this section, the term:

(a) “Child” means a person younger than 12 years of age.
(b) “Organization” means a summer day camp, a summer 24-
hour camp, a school, a preschool, a kindergarten, a nursery
school, or a child care facility as defined in s. 402.302.
(c) “Public swimming pool” has the same meaning as in s. 514.011(2) but does not include a wading pool.

(d) “Wading pool” means a pool, including a pool that contains a public interactive water feature or fountain, with a maximum water depth of no more than 18 inches.

(2) An organization that takes a child in its care or under its supervision to a public bathing place or public swimming pool or otherwise allows a child access to a public bathing place or public swimming pool must require the child’s parent or legal guardian to attest in writing whether the child is able to swim or is at risk of injury or death when swimming or otherwise accessing a pool or body of water.

(3) Except as provided in subsection (4), if an organization conducts an activity that provides a child in its care or under its supervision access to a public bathing place or public swimming pool, during the time each child who is unable to swim or is at risk of injury or death when swimming or accessing a body of water is present within a fenced-in area around a public bathing place or public swimming pool, or within 100 feet of a public bathing place or public swimming pool without a fenced-in area, the organization must:

(a) For a public bathing place, provide to the child a Type II United States Coast Guard-approved personal flotation device.

(b) For a public swimming pool, provide to the child a Type II or Type III United States Coast Guard-approved personal flotation device.

(c) Ensure that the personal flotation device that it provides to the child is properly fitted to and fastened on the child.
(4) An organization need not provide a child with a personal flotation device as required under subsection (3) if the child is actively participating in swimming instruction or a swimming competition and the organization ensures that each such child is supervised during the instruction or competition.

(5) An organization licensed or otherwise regulated by the state which violates this section or rules adopted pursuant to this section is subject to disciplinary action, including, but not limited to, the imposition of an administrative penalty by any state regulatory agency with the power to take disciplinary action against that organization in the same manner as if the organization violated that agency’s licensing or other regulatory laws or rules.

(6) This section does not apply to:

(a) Residential boarding schools that allow an employee, a family member of an employee, or a guest of an employee to use a body of water at the school for recreational purposes.

(b) Child-placing agencies, family foster homes, or residential child-caring agencies as those terms are defined in s. 409.175(2).

(c) A child care facility licensed under s. 402.305.

(7) The department may adopt rules necessary to implement this section.

Section 3. This act shall take effect July 1, 2024.
To: Senator Colleen Burton, Chair  
Committee on Health Policy

Subject: Committee Agenda Request

Date: November 7, 2023

I respectfully request that Senate Bill #274, relating to Child Water Safety Requirements, be placed on the:

☐ committee agenda at your earliest possible convenience.
☒ next committee agenda.

Senator Ana Maria Rodriguez
Florida Senate, District 40
The Florida Senate
BILL ANALYSIS AND FISCAL IMPACT STATEMENT
(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Health Policy

BILL: SB 1008
INTRODUCER: Senator Grall
SUBJECT: Background Screening Requirements for Health Care Practitioners
DATE: January 29, 2024

ANALYST STAFF DIRECTOR REFERENCE ACTION
1. Looke Brown HP Pre-meeting
2. 
3. 

I. Summary:

SB 1008 amends s. 456.0135, F.S., to add background screening requirements to numerous health care professions where a background screening is not currently required.

The bill requires that each health care practitioner who was licensed before July 1, 2024, must comply with the background screening requirements in s. 456.0135, F.S., by July 1, 2025. Additionally, the bill amends each affected practitioner practice act to add the licensure requirement to submit to a background screening pursuant to s. 456.0135, F.S., and, for specified practitioners, to require a background screening for licensure by endorsement. The bill also makes technical and conforming changes.

The bill provides an effective date of July 1, 2024.

II. Present Situation:

Background Screening

Florida provides standard procedures for screening a prospective employee¹ where the Legislature has determined it is necessary to conduct a criminal history background check to protect vulnerable persons.² Chapter 435, F.S., establishes procedures for criminal history background screening of prospective employees and outlines the screening requirements. There are two levels of background screening: level 1 and level 2.

- Level 1 Screening includes, at a minimum, employment history checks and statewide criminal correspondence checks through the Florida Department of Law Enforcement

¹ Section 435.02, F.S., defines “employee” to mean any person required by law to be screened pursuant to this chapter, including, but not limited to, persons who are contractors, licensees, or volunteers.
² Chapter 435, F.S.
(FDLE) and a check of the Dru Sjodin National Sex Offender Public Website,3 and may include criminal records checks through local law enforcement agencies. A Level 1 screening may be paid for and conducted through FDLE’s website, which provides immediate results.4

- Level 2 Screening includes, at a minimum, fingerprinting for statewide criminal history records checks through FDLE and national criminal history checks through the Federal Bureau of Investigation (FBI), and may include local criminal records checks through local law enforcement agencies.5

Florida law authorizes and outlines specific elements required for Level 1 and Level 2 background screening and establishes requirements for determining whether an individual passes a screening in regard to an individual’s criminal history. All individuals subject to background screening must be confirmed to have not been arrested for and waiting final disposition of, been found guilty of, regardless of adjudication, or entered a plea of nolo contendere or guilty to, or been adjudicated delinquent and the record has not been sealed or expunged for, any of 52 offenses prohibited under Florida law, or similar law of another jurisdiction.6

**Exemptions**

Should a person be disqualified from employment due to failing a background screening, he or she may apply to the secretary of the appropriate agency for an exemption. Current law allows the secretary to exempt applicants from disqualification under certain circumstances including:7

- Felonies for which at least three years have elapsed since the applicant for the exemption has completed or been lawfully released from confinement, supervision, or nonmonetary condition imposed by the court for the disqualifying felony;
- Misdemeanors prohibited under any of the cited statutes or under similar statutes of other jurisdictions for which the applicant for the exemption has completed or been lawfully released from confinement, supervision, or nonmonetary condition imposed by the court;
- Offenses that were felonies when committed but that are now misdemeanors and for which the applicant for the exemption has completed or been lawfully released from confinement, supervision, or nonmonetary condition imposed by the court; or
- Findings of delinquency. For offenses that would be felonies if committed by an adult and the record has not been sealed or expunged, this exemption may not be granted until at least three years have elapsed since the applicant for the exemption has completed or been lawfully released from confinement, supervision, or nonmonetary condition imposed by the court for the disqualifying offense.

Receiving an exemption allows that individual to be employed in a profession or workplace where background screening is statutorily required despite the disqualifying offense in that person’s past. Certain criminal backgrounds, however, render a person ineligible for an

exemption; a person who is considered a sexual predator,\textsuperscript{8} career offender,\textsuperscript{9} or registered sexual offender\textsuperscript{10} is not eligible for exemption.\textsuperscript{11}

**Care Provider Background Screening Clearinghouse**

Florida has established different programs for the facilitation of background screenings. The Care Provider Background Screening Clearinghouse (Clearinghouse) is used by state agencies for statutorily-required screenings, including screenings required as part of the licensure process for specified health care professionals.

In 2012, the Legislature created the Clearinghouse to create a single program of screening individuals and allow for the results of criminal history checks of persons acting as covered care providers to be shared among the specified agencies.\textsuperscript{12} Current designated agencies participating in the Clearinghouse include:\textsuperscript{13}

- The Agency for Health Care Administration (AHCA);
- The Department of Health (DOH);
- The Department of Children and Families (DCF);
- The Department of Elder Affairs (DOEA);
- The Agency for Persons with Disabilities (APD);
- The Department of Education (DOE);
- Regional workforce boards providing services as defined in s. 445.002(3), F.S.; and
- Local licensing agencies approved pursuant to s. 402.307, F.S., when these agencies are conducting state and national criminal history background screening on persons who work with children or persons who are elderly or disabled.

Employers whose employees are screened through an agency participating in the Clearinghouse must maintain the status of individuals being screened and update the Clearinghouse regarding any employment changes within 10 business days of the change.\textsuperscript{14}

The Clearinghouse allows for constant review of new criminal history information through the federal Rap Back Service\textsuperscript{15} which continually matches fingerprints against new arrests or convictions that occur after the individual was originally screened. Once a person’s screening

\textsuperscript{9} Section 775.261, F.S.
\textsuperscript{10} Section 943.0435, F.S.
\textsuperscript{11} Section 435.07(4)(b), F.S.
\textsuperscript{12} Chapter 2012-73, L.O.F.
\textsuperscript{13} Section 435.02(5), F.S. Additional entities were added to the list of designated entities beginning in 2023; these entities include district units, special district units, the Florida School for the Deaf and Blind, the Florida Virtual School, virtual instruction programs, charter schools, hope operators, private schools participating in certain scholarship programs, and alternative schools. See also, Ch. 2022-154, L.O.F.
\textsuperscript{14} Section 435.12(2)(c), F.S.; Beginning January 1, 2024, employers must report changes in an employee’s status within five business days for employees screened after January 1, 2024.
Background Screening of Health Care Practitioners

The DOH received 134,362 applications last fiscal year for initial health care practitioner licensing. Of those initial applications, 68 percent of applicants were required under law to submit a Level 2 background screening for state and federal criminal history as part of the application review. These screened professionals use electronic Livescan providers to submit fingerprints at a cost of $37.50 to the individual, plus the Livescan fees. Screening is processed by the FDLE, sent to the Clearinghouse, and matched to the application within a few days. Last year, 17,532 applicants had screenings that included criminal history and their application review often included submission of further documentation and an appearance before their profession board to be approved for licensure. Of applicants for initial licensure, 123 were denied licensure, which may have included reasons other than criminal history.

The following table is the list of screened and non-screened health care professions.

In addition to individual license requirements and the requirements in ch. 435, F.S. s. 408.809, F.S., establishes background screening requirements for certain employees of facilities licensed by the AHCA pursuant to ch. 408, F.S. Specifically, the statute requires that the following employees pass a Level 2 background screening:

- The licensee, if an individual.
- The administrator or a similarly titled person who is responsible for the day-to-day operation of the facility.
- The financial officer or similarly titled individual who is responsible for the financial operation of the licensee or facility.
- Any person who is a controlling interest.
- Any person, as required by authorizing statutes, seeking employment with a licensee or facility who is expected to, or whose responsibilities may require him or her to, provide personal care or services directly to clients or have access to client funds, personal property, or living areas; and any person, as required by authorizing statutes, contracting with a licensee or facility whose responsibilities require him or her to provide personal care or personal services directly to clients, or contracting with a licensee or facility to work 20 hours a week or more who will have access to client funds, personal property, or living areas. Evidence of contractor screening may be retained by the contractor’s employer or the licensee.

Additionally, s. 408.809, F.S., provides a second list of disqualifying offenses which is additional to the list in s. 435.04(2), F.S. Overall, this statute adds 19 offenses to the list of disqualifying offenses after accounting for duplicates.
Once licensed, practitioners in screened professions with ongoing screening requirements have their fingerprints retained with FDLE so new charges are found through rerunning the criminal history checks. Licensees are also required to report any criminal charges when they occur. The process of reviewing new criminal charges may disrupt the licensee’s ability to practice.\(^{19}\)

A licensee who does not pay to retain their fingerprints receives notification from the DOH when those prints are expiring and that fingerprints must be retained or renewed. The DOH employs strategies to ensure compliance by the licensee, such as reminders, email notifications, and letters. Approximately 62,364 licensees (4.3 percent of all licensees) are required to renew their fingerprints per year. Of those, approximately 28 percent fail to do so; failure to renew fingerprints results in disciplinary cases which may ultimately cause a loss of licensure.\(^{20}\)

III. Effect of Proposed Changes:

Sections 1 and 2 of the bill amend s. 456.0135, F.S., to include non-screened health care practitioners licensed under chs. 462, 463, 465, 466, 467, 468 (part I, part II, part III, part V, part X, or part XIV), 478, 483, 484, 486, 490, and 491, F.S., and to require each health care practitioner as defined in s. 456.001, F.S., to comply with the requirements of s. 456.0135, F.S., by July 1, 2025.

Sections 3-41 amend various practice acts to include background screening as a licensure requirement. Specifically the bill amends:

- Acupuncture: Licensure Qualifications and Fees in s. 457.105, F.S.
- Optometry: Licensure and Certification by Examination in s. 463.006, F.S.
- Pharmacy:
  - Licensure by Examination in s. 465.007, F.S.
  - Licensure by Endorsement in s. 465.0075, F.S.
  - Registration of Pharmacy Interns in s. 465.013, F.S.
  - Pharmacy Technician in s. 465.014, F.S.
- Dentistry:
  - Dental Hygiene and Dental Laboratories: Examination of Dentists in s. 466.006, F.S.
  - Dental Hygiene and Dental Laboratories: Application for Health Access Dental License in s. 466.0067, F.S.
  - Dental Hygiene and Dental Laboratories: Examination of Dental Hygienists in s. 466.007, F.S.
- Midwifery: Licensed Midwives in s. 467.011, F.S.
- Speech Language Pathology or Audiology:
  - Licensure in s. 468.1185, F.S.
  - Assistant; Certification in s. 468.1215, F.S.
  - Licensure by Examination s. 468.1695, F.S.
- Occupational Therapy:
  - Requirements for Licensure in s. 468.209, F.S.
  - Licensure by Endorsement in s. 468.213, F.S.

  - Physical Therapist Assistant; Issuance of Temporary Permit in s. 486.1065, F.S.
- Clinical Counseling and Psychotherapy Services: Definitions in s. 491.003, F.S.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

   None.

B. Public Records/Open Meetings Issues:

   None.

C. Trust Funds Restrictions:

   None.
D. **State Tax or Fee Increases:**

None.

E. **Other Constitutional Issues:**

None.

V. **Fiscal Impact Statement:**

A. **Tax/Fee Issues:**

None.

B. **Private Sector Impact:**

SB 1008 may have a negative fiscal impact to health care practitioners who are required to submit to a background screening pursuant to the bill’s provisions. The cost per practitioner will likely be the cost for the background screening, which includes a $37.50 charge plus the Livescan provider’s fee, and a $43.25 charge every five years for fingerprint retention in the Clearinghouse.\(^{21}\)

Additionally, the DOH reports that 28 percent of applicants who are required to renew fingerprints fail to do so and this can lead to licensure actions including fines and eventual revocation or non-renewal of a license. These licensure actions may have a negative fiscal impact on such practitioners.\(^{22}\)

C. **Government Sector Impact:**

The DOH indicates that SB 1008 will have a significant fiscal impact on the department, with an estimated cost of approximately $2.7 million recurring and $1.57 million nonrecurring, as follows:

- Salary: $2,392,571 recurring;
- Expense: $257,375 recurring and $193,111 nonrecurring;
- OPS: $332,808;
- Human Resources: $8,346 recurring;
- Contracted Services: $250,290 nonrecurring;
- Non-operating Transfer to AHCA: $50,000 recurring and $800,000 nonrecurring.\(^{23}\)

\(^{21}\) *Supra.* note 17

\(^{22}\) *Id.*

\(^{23}\) *Id.* For further details on specific costs to the DOH, please see the DOH staff analysis as cited in note 17.
VI. Technical Deficiencies:

None.

VII. Related Issues:

The FDLE staff analysis indicates that the surplus of additional practitioners who are required to get fingerprinted within one year of the bill’s passage may cause unexpected termination of processes within the Biometric Identification System (BIS) and FALCON (the application which manages retained applicant fingerprints). At a minimum, the increase could cause significant system issues which would negatively impact the processing of criminal booking responses and all other applicant (non-criminal) background checks.\textsuperscript{24}

The bill amends s. 457.105, F.S., pertaining to acupuncture for applicants and licensees to submit to background screening; however, ch. 457, F.S., was not included in the amended language for s. 456.0135(1), F.S.

VIII. Statutes Affected:

IX. Additional Information:

A. Committee Substitute – Statement of Changes:

(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

\textsuperscript{24}FDLE staff analysis of SB 1008, Dec. 22, 2023, revised Jan. 19, 2024, on file with Senate Health Policy Committee staff.
A bill to be entitled

An act relating to background screening requirements for health care practitioners; amending s. 456.0135, F.S.; expanding certain background screening requirements to apply to all health care practitioners, rather than specified practitioners; requiring health care practitioners licensed before a specified date to comply with the background screening requirements by a specified date; amending ss. 457.105, 463.006, 465.007, 465.0075, 465.013, 465.014, 466.006, 466.0067, 466.007, 467.011, 468.1185, 468.1215, 468.1695, 468.209, 468.213, 468.355, 468.358, 468.509, 468.513, 468.803, 478.45, 483.815, 483.901, 483.914, 484.007, 484.045, 486.031, 486.102, 490.005, 490.0051, 490.006, 491.0045, 491.0046, 491.005, and 491.006, F.S.; revising licensure, registration, or certification requirements, as applicable, for acupuncturists; optometrists; pharmacists; pharmacist licenses by endorsement; registered pharmacy interns; pharmacy technicians; dentists; health access dental licenses; dental hygienists; midwives; speech-language pathologists and audiologists; speech-language pathology assistants and audiology assistants; nursing home administrators; occupational therapists and occupational therapy assistants; occupational therapist and occupational therapy assistant licenses by endorsement; respiratory therapists; respiratory therapist licenses by endorsement; dietitian/nutritionists;
dietitian/nutritionist licenses by endorsement;
practitioners of orthotics, prosthetics, or
pedorthics; electrologists; clinical laboratory
personnel; medical physicists; genetic counselors;
opticians; hearing aid specialists; physical
therapists; physical therapist assistants;
psychologists and school psychologists; provisional
licenses for psychologists; psychologist and school
psychologist licenses by endorsement; intern
registrations for clinical social work, marriage and
family therapy, and mental health counseling;
provisional licenses for clinical social workers,
maintenance and family therapists, and mental health
counselors; clinical social workers, marriage and
family therapists, and mental health counselors; and
clinical social worker, marriage and family therapist,
and mental health counselor licenses by endorsement,
respectively, to include background screening
requirements; making conforming and technical changes;
amending ss. 486.025, 486.0715, 486.1065, and 491.003,
F.S.; conforming cross-references; providing an
effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (1) of section 456.0135, Florida
Statutes, is amended to read:

456.0135 General background screening provisions.—
(1) An application for initial licensure received on or
29-01094A-24

59 after January 1, 2013, under chapter 458, chapter 459, chapter 460, chapter 461, chapter 462, chapter 463, chapter 464, chapter 465 s. 465.022, chapter 466, chapter 467, part I, part II, part III, part V, part X, part XIII, or part XIV of chapter 468, chapter 478, or chapter 480, chapter 483, chapter 484, chapter 486, chapter 490, or chapter 491 must shall include fingerprints pursuant to procedures established by the department through a vendor approved by the Department of Law Enforcement and fees imposed for the initial screening and retention of fingerprints. Fingerprints must be submitted electronically to the Department of Law Enforcement for state processing, and the Department of Law Enforcement shall forward the fingerprints to the Federal Bureau of Investigation for national processing. Each board, or the department if there is no board, must shall screen the results to determine whether an applicant meets licensure requirements. For any subsequent renewal of the applicant’s license which requires a national criminal history check, the department shall request the Department of Law Enforcement to forward the retained fingerprints of the applicant to the Federal Bureau of Investigation unless the fingerprints are enrolled in the national retained print arrest notification program.

Section 2. Health care practitioners as defined in s. 456.001, Florida Statutes, who were licensed before July 1, 2024, must comply with the background screening requirements of s. 456.0135, Florida Statutes, by July 1, 2025.

Section 3. Subsection (2) of section 457.105, Florida Statutes, is amended to read:

457.105 Licensure qualifications and fees.—
(2) A person may become licensed to practice acupuncture if the person applies to the department and meets all of the following criteria:

(a) Is 21 years of age or older, has good moral character, and has the ability to communicate in English, which is demonstrated by having passed the national written examination in English or, if such examination was passed in a foreign language, by also having passed a nationally recognized English proficiency examination.

(b) Has completed 60 college credits from an accredited postsecondary institution as a prerequisite to enrollment in an authorized 3-year course of study in acupuncture and oriental medicine, and has completed a 3-year course of study in acupuncture and oriental medicine, and effective July 31, 2001, a 4-year course of study in acupuncture and oriental medicine, which meets standards established by the board by rule, which standards include, but are not limited to, successful completion of academic courses in western anatomy, western physiology, western pathology, western biomedical terminology, first aid, and cardiopulmonary resuscitation (CPR). However, any person who enrolled in an authorized course of study in acupuncture before August 1, 1997, must have completed only a 2-year course of study which meets standards established by the board by rule, which standards must include, but are not limited to, successful completion of academic courses in western anatomy, western physiology, and western pathology.

(c) Has successfully completed a board-approved national certification process, is actively licensed in a state that has examination requirements that are substantially equivalent to or
more stringent than those of this state, or passes an
examination administered by the department, which examination
tests the applicant’s competency and knowledge of the practice
of acupuncture and oriental medicine. At the request of any
applicant, oriental nomenclature for the points must shall be
used in the examination. The examination must shall include a
practical examination of the knowledge and skills required to
practice modern and traditional acupuncture and oriental
medicine, covering diagnostic and treatment techniques and
procedures.

(d) Pays the required fees set by the board by rule not to
exceed the following amounts:

1. Examination fee: $500 plus the actual per applicant cost
to the department for purchase of the written and practical
portions of the examination from a national organization
approved by the board.

2. Application fee: $300.

3. Reexamination fee: $500 plus the actual per applicant
cost to the department for purchase of the written and practical
portions of the examination from a national organization
approved by the board.

4. Initial biennial licensure fee: $400, if licensed in the
first half of the biennium, and $200, if licensed in the second
half of the biennium.

(e) Submits to background screening in accordance with s.
456.0135.

Section 4. Subsection (1) of section 463.006, Florida
Statutes, is amended to read:

463.006 Licensure and certification by examination.—
(1) Any person desiring to be a licensed practitioner under this chapter must apply to the department, submit to background screening in accordance with s. 456.0135, and must submit proof to the department that she or he meets all of the following criteria:

(a) Has completed the application forms as required by the board, remitted an application fee for certification not to exceed $250, remitted an examination fee for certification not to exceed $250, and remitted an examination fee for licensure not to exceed $325, all as set by the board.

(b) Is at least 18 years of age.

(c) Has graduated from an accredited school or college of optometry approved by rule of the board.

(d) Is of good moral character.

(e) Has successfully completed at least 110 hours of transcript-quality coursework and clinical training in general and ocular pharmacology as determined by the board, at an institution that:

1. Has facilities for both didactic and clinical instructions in pharmacology; and

2. Is accredited by a regional or professional accrediting organization that is recognized and approved by the Commission on Recognition of Postsecondary Accreditation or the United States Department of Education.

(f) Has completed at least 1 year of supervised experience in differential diagnosis of eye disease or disorders as part of the optometric training or in a clinical setting as part of the optometric experience.

Section 5. Subsection (1) of section 465.007, Florida
Florida Senate - 2024

29-01094A-24 20241008__

Statutes, is amended to read:

465.007 Licensure by examination.—

(1) Any person desiring to be licensed as a pharmacist shall apply to the department to take the licensure examination. The department shall examine each applicant who the board certifies has met all of the following criteria:

(a) Completed the application form and remitted an examination fee set by the board not to exceed $100 plus the actual per applicant cost to the department for purchase of portions of the examination from the National Association of Boards of Pharmacy or a similar national organization. The fees authorized under this section shall be established in sufficient amounts to cover administrative costs.

(b) Submitted to background screening in accordance with s. 456.0135.

(c) Submitted satisfactory proof that she or he is not less than 18 years of age and:

1. Is a recipient of a degree from a school or college of pharmacy accredited by an accrediting agency recognized and approved by the United States Office of Education; or

2. Is a graduate of a 4-year undergraduate pharmacy program of a school or college of pharmacy located outside the United States, has demonstrated proficiency in English by passing both the Test of English as a Foreign Language (TOEFL) and the Test of Spoken English (TSE), has passed the Foreign Pharmacy Graduate Equivalency Examination that is approved by rule of the board, and has completed a minimum of 500 hours in a supervised work activity program within this state under the supervision of a pharmacist licensed by the department, which program is

CODING: Words stricken are deletions; words underlined are additions.
approved by the board.

(d) Submitted satisfactory proof that she or he has completed an internship program approved by the board. No such board-approved program shall exceed 2,080 hours, all of which may be obtained prior to graduation.

Section 6. Subsection (1) of section 465.0075, Florida Statutes, is amended to read:

465.0075 Licensure by endorsement; requirements; fee.—

(1) The department shall issue a license by endorsement to any applicant who applies to the department and remits a nonrefundable fee of not more than $100, as set by the board, and whom the board certifies has met all of the following criteria:

(a) Met the qualifications for licensure in s. 465.007(1)(b), and (c), and (d).†

(b) Obtained a passing score, as established by rule of the board, on the licensure examination of the National Association of Boards of Pharmacy or a similar nationally recognized examination, if the board certifies that the applicant has taken the required examination.‡

(c)1. Submitted evidence of the active licensed practice of pharmacy, including practice in community or public health by persons employed by a governmental entity, in another jurisdiction for at least 2 of the immediately preceding 5 years or evidence of successful completion of board-approved postgraduate training or a board-approved clinical competency examination within the year immediately preceding application for licensure; or

2. Has completed an internship meeting the requirements of...
s. 465.007(1)(d) s. 465.007(1)(c) within the 2 years immediately preceding application. and

(d) Has Obtained a passing score on the pharmacy jurisprudence portions of the licensure examination, as required by board rule.

Section 7. Section 465.013, Florida Statutes, is amended to read:

465.013 Registration of pharmacy interns.—The department shall register as pharmacy interns persons certified by the board as being enrolled in an intern program at an accredited school or college of pharmacy or who are graduates of accredited schools or colleges of pharmacy and are not yet licensed in the state. Applicants for registration must submit to background screening in accordance with s. 456.0135. The board may refuse to certify to the department or may revoke the registration of any intern for good cause, including grounds enumerated in this chapter for revocation of pharmacists’ licenses.

Section 8. Subsection (2) of section 465.014, Florida Statutes, is amended to read:

465.014 Pharmacy technician.—

(2) Any person who wishes to work as a pharmacy technician in this state must register by filing an application with the board on a form adopted by rule of the board and submit to background screening in accordance with s. 456.0135. The board shall register each applicant who has remitted a registration fee set by the board, not to exceed $50 biennially; has completed the application form and remitted a nonrefundable application fee set by the board, not to exceed $50; has submitted to background screening; is at least 17 years of age;
and has completed a pharmacy technician training program approved by the Board of Pharmacy. Notwithstanding any requirements in this subsection, any registered pharmacy technician registered pursuant to this section before January 1, 2011, who has worked as a pharmacy technician for a minimum of 1,500 hours under the supervision of a licensed pharmacist or received certification as a pharmacy technician by certification program accredited by the National Commission for Certifying Agencies is exempt from the requirement to complete an initial training program for purposes of registration as required by this subsection.

Section 9. Paragraph (b) of subsection (1) of section 466.006, Florida Statutes, is amended to read:

466.006 Examination of dentists.—

(1)

(b)1. Any person desiring to be licensed as a dentist shall apply to the department to take the licensure examinations and shall verify the information required on the application by oath. The application must include two recent photographs. There shall be an application fee set by the board not to exceed $100 which shall be nonrefundable and. There shall also be an examination fee set by the board, which shall not exceed $425 plus the actual per applicant cost to the department for purchase of some or all of the examination from the American Board of Dental Examiners or its successor entity, if any, provided the board finds the successor entity’s clinical examination complies with the provisions of this section. The examination fee may be refunded if the applicant is found ineligible to take the examinations.
2. Applicants for licensure must also submit to background screening in accordance with s. 456.0135.

Section 10. Section 466.0067, Florida Statutes, is amended to read:

466.0067 Application for health access dental license.—The Legislature finds that there is an important state interest in attracting dentists to practice in underserved health access settings in this state and further, that allowing out-of-state dentists who meet certain criteria to practice in health access settings without the supervision of a dentist licensed in this state is substantially related to achieving this important state interest. Therefore, notwithstanding the requirements of s. 466.006, the board shall grant a health access dental license to practice dentistry in this state in health access settings as defined in s. 466.003 to an applicant who meets all of the following criteria:

(1) Files an appropriate application approved by the board.

(2) Pays an application license fee for a health access dental license, laws-and-rule exam fee, and an initial licensure fee. The fees specified in this subsection may not differ from an applicant seeking licensure pursuant to s. 466.006.

(3) Has submitted to background screening in accordance with s. 456.0135 and has not been convicted of or pled nolo contendere to, regardless of adjudication, any felony or misdemeanor related to the practice of a health care profession.

(4) Submits proof of graduation from a dental school accredited by the Commission on Dental Accreditation of the
American Dental Association or its successor agency.elon
(5) Submits documentation that she or he has completed, or will obtain before licensure, continuing education equivalent to this state’s requirement for dentists licensed under s. 466.006 for the last full reporting biennium before applying for a health access dental licenseelon
(6) Submits proof of her or his successful completion of parts I and II of the dental examination by the National Board of Dental Examiners and a state or regional clinical dental licensing examination that the board has determined effectively measures the applicant’s ability to practice safelyelon
(7) Currently holds a valid, active dental license in good standing which has not been revoked, suspended, restricted, or otherwise disciplined from another of the United States, the District of Columbia, or a United States territoryelon
(8) Has never had a license revoked from another of the United States, the District of Columbia, or a United States territoryelon
(9) Has never failed the examination specified in s. 466.006, unless the applicant was reexamined pursuant to s. 466.006 and received a license to practice dentistry in this stateelon
(10) Has not been reported to the National Practitioner Data Bank, unless the applicant successfully appealed to have his or her name removed from the data bankelon
(11) Submits proof that he or she has been engaged in the active, clinical practice of dentistry providing direct patient care for 5 years immediately preceding the date of application, or in instances when the applicant has graduated from an
accredited dental school within the preceding 5 years, submits proof of continuous clinical practice providing direct patient care since graduation; and
(12) Has passed an examination covering the laws and rules of the practice of dentistry in this state as described in s. 466.006(4)(a).

Section 11. Subsection (1) of section 466.007, Florida Statutes, is amended to read:
466.007 Examination of dental hygienists.—
(1)1. Any person desiring to be licensed as a dental hygienist shall apply to the department to take the licensure examinations and shall verify the information required on the application by oath. The application shall include two recent photographs of the applicant. There shall be a nonrefundable application fee set by the board not to exceed $100 and an examination fee set by the board which shall not exceed be more than $225. The examination fee may be refunded if the applicant is found ineligible to take the examinations.

2. Applicants for licensure must also submit to background screening in accordance with s. 456.0135.

Section 12. Subsection (5) is added to section 467.011, Florida Statutes, to read:
467.011 Licensed midwives; qualifications; examination.—The department shall issue a license to practice midwifery to an applicant who meets all of the following criteria:
(5) Submits to background screening in accordance with s. 456.0135.

Section 13. Subsections (2) and (3) of section 468.1185, Florida Statutes, are amended to read:
468.1185 Licensure.—

(2) The board shall certify for licensure any applicant who has met all of the following criteria:

(a) Satisfied the education and supervised clinical requirements of s. 468.1155.

(b) Satisfied the professional experience requirement of s. 468.1165.

(c) Passed the licensure examination required by s. 468.1175.

(d) For an applicant for an audiologist license who has obtained a doctoral degree in audiology, has satisfied the education and supervised clinical requirements of paragraph (a) and the professional experience requirements of paragraph (b).

(e) Submitted to background screening in accordance with s. 456.0135.

(3) The board shall certify as qualified for a license by endorsement as a speech-language pathologist or audiologist an applicant who:

(a) Holds a valid license or certificate in another state or territory of the United States to practice the profession for which the application for licensure is made, if the criteria for issuance of such license were substantially equivalent to or more stringent than the licensure criteria which existed in this state at the time the license was issued; or

(b) Holds a valid certificate of clinical competence of the American Speech-Language and Hearing Association or board certification in audiology from the American Board of Audiology;

and

(c) Submits to background screening in accordance with s.
Section 14. Subsections (1) and (2) of section 468.1215, Florida Statutes, are amended to read:

468.1215 Speech-language pathology assistant and audiology assistant; certification.—

(1) The department shall issue a certificate as a speech-language pathology assistant to each applicant who the board certifies has met all of the following criteria:

(a) Completed the application form and remitted the required fees, including a nonrefundable application fee.

(b) Submitted to background screening in accordance with s. 456.0135.

(c) Earned a bachelor’s degree from a college or university accredited by a regional association of colleges and schools recognized by the Department of Education which includes at least 24 semester hours of coursework as approved by the board at an institution accredited by an accrediting agency recognized by the Council for Higher Education Accreditation.

(2) The department shall issue a certificate as an audiology assistant to each applicant who the board certifies has met all of the following criteria:

(a) Completed the application form and remitted the required fees, including a nonrefundable application fee.

(b) Submitted to background screening in accordance with s. 456.0135.

(c) Earned a high school diploma or its equivalent.

Section 15. Present subsections (2), (3), and (4) of section 468.1695, Florida Statutes, are redesignated as subsections (3), (4), and (5), respectively, a new subsection
(2) is added to that section, and present subsection (2) of that section is amended, to read:

468.1695 Licensure by examination.—

(2) Applicants for licensure must also submit to background screening in accordance with s. 456.0135.

(3) The department shall examine each applicant who the board certifies has completed the application form, submitted to background screening, and remitted an examination fee set by the board not to exceed $250 and who:

(a)1. Holds a baccalaureate degree from an accredited college or university and majored in health care administration, health services administration, or an equivalent major, or has credit for at least 60 semester hours in subjects, as prescribed by rule of the board, which prepare the applicant for total management of a nursing home; and

2. Has fulfilled the requirements of a college-affiliated or university-affiliated internship in nursing home administration or of a 1,000-hour nursing home administrator-in-training program prescribed by the board; or

(b)1. Holds a baccalaureate degree from an accredited college or university; and

2.a. Has fulfilled the requirements of a 2,000-hour nursing home administrator-in-training program prescribed by the board; or

b. Has 1 year of management experience allowing for the application of executive duties and skills, including the staffing, budgeting, and directing of resident care, dietary, and bookkeeping departments within a skilled nursing facility, hospital, hospice, assisted living facility with a minimum of 60
licensed beds, or geriatric residential treatment program and, if such experience is not in a skilled nursing facility, has fulfilled the requirements of a 1,000-hour nursing home administrator-in-training program prescribed by the board.

Section 16. Subsections (1) and (2) of section 468.209, Florida Statutes, are amended to read:

468.209 Requirements for licensure.—

(1) An applicant applying for a license as an occupational therapist or as an occupational therapy assistant shall apply to the department on forms furnished by the department. The department shall license each applicant who the board certifies meets all of the following criteria:

(a) Has completed the file a written application form and remitted, accompanied by the application for licensure fee prescribed in s. 468.221.

(b) Has submitted to background screening in accordance with s. 456.0135., on forms provided by the department, showing to the satisfaction of the board that she or he:

(c) Is of good moral character.

(d) Has successfully completed the academic requirements of an educational program in occupational therapy recognized by the board, with concentration in biologic or physical science, psychology, and sociology, and with education in selected manual skills. Such a program shall be accredited by the American Occupational Therapy Association’s Accreditation Council for Occupational Therapy Education, or its successor.

(e) Has successfully completed a period of supervised fieldwork experience at a recognized educational institution or a training program approved by the educational institution where
she or he met the academic requirements. For an occupational therapist, a minimum of 6 months of supervised fieldwork experience is required. For an occupational therapy assistant, a minimum of 2 months of supervised fieldwork experience is required.

(f)(d) Has passed an examination conducted or adopted by the board as provided in s. 468.211.

(2) An applicant who has practiced as a state-licensed or American Occupational Therapy Association-certified occupational therapy assistant for 4 years and who, before January 24, 1988, completed a minimum of 24 weeks of supervised occupational-therapist-level fieldwork experience may take the examination to be licensed as an occupational therapist without meeting the educational requirements for occupational therapists made otherwise applicable under paragraph (1)(d) (1)(b).

Section 17. Subsection (3) is added to section 468.213, Florida Statutes, to read:

468.213 Licensure by endorsement.—

(3) Applicants for licensure by endorsement must submit to background screening in accordance with s. 456.0135.

Section 18. Section 468.355, Florida Statutes, is amended to read:

468.355 Licensure requirements.—To be eligible for licensure by the board, an applicant must be an active “certified respiratory therapist” or an active “registered respiratory therapist” as designated by the National Board for Respiratory Care, or its successor, and submit to background screening in accordance with s. 456.0135.

Section 19. Subsection (4) of section 468.358, Florida
Statutes, is amended to read:

468.358 Licensure by endorsement.—

(4) Applicants for licensure shall not be granted by endorsement under as provided in this section must submit without the submission of a proper application, remit and the payment of the requisite application fee, and submit to background screening in accordance with s. 456.0135 fees therefor.

Section 20. Present subsections (2), (3), and (4) of section 468.509, Florida Statutes, are redesignated as subsections (3), (4), and (5), respectively, a new subsection (2) is added to that section, and present subsection (2) of that section is amended, to read:

468.509 Dietitian/nutritionist; requirements for licensure.—

(2) Applicants for licensure must also submit to background screening in accordance with s. 456.0135.

(3)(2) The department shall examine any applicant who the board certifies has completed the application form, submitted to background screening, and remitted the application and examination fees specified in s. 468.508 and who:

(a)1. Possesses a baccalaureate or postbaccalaureate degree with a major course of study in human nutrition, food and nutrition, dietetics, or food management, or an equivalent major course of study, from a school or program accredited, at the time of the applicant’s graduation, by the appropriate accrediting agency recognized by the Commission on Recognition of Postsecondary Accreditation and the United States Department of Education; and
2. Has completed a preprofessional experience component of more than 900 hours or has education or experience determined to be equivalent by the board; or

(b)1. Has an academic degree, from a foreign country, that has been validated by an accrediting agency approved by the United States Department of Education as equivalent to the baccalaureate or postbaccalaureate degree conferred by a regionally accredited college or university in the United States;

2. Has completed a major course of study in human nutrition, food and nutrition, dietetics, or food management; and

3. Has completed a preprofessional experience component of more than 900 hours or has education or experience determined to be equivalent by the board.

Section 21. Subsection (1) of section 468.513, Florida Statutes, is amended to read:

468.513 Dietitian/nutritionist; licensure by endorsement.—
(1) The department shall issue a license to practice dietetics and nutrition by endorsement to any applicant who submits to background screening in accordance with s. 456.0135 and the board certifies as qualified, upon receipt of a completed application and the fee specified in s. 468.508.

Section 22. Subsection (2) of section 468.803, Florida Statutes, is amended to read:

468.803 License, registration, and examination requirements.—
(2) An applicant for registration, examination, or licensure must apply to the department on a form prescribed by

CODING: Words struck are deletions; words underlined are additions.
the board for consideration of board approval. Each initial
applicant shall submit fingerprints to the department in
accordance with s. 456.0135 and any other procedures specified
by the department for state and national criminal history checks
of the applicant. The board shall screen the results to
determine if an applicant meets licensure requirements. The
board shall consider for examination, registration, or licensure
each applicant whom the board verifies meets all of the
following criteria:

(a) Has submitted the completed application and completed
the fingerprinting requirements and has paid the applicable
application fee, not to exceed $500. The application fee is
nonrefundable.

(b) Is of good moral character.

(c) Is 18 years of age or older.

(d) Has completed the appropriate educational preparation.

Section 23. Subsection (1) of section 478.45, Florida
Statutes, is amended to read:

478.45 Requirements for licensure.—
(1) An applicant applying for licensure as an electrologist
shall apply to the department on forms furnished by the
department. The department shall license each applicant who the
board certifies meets all of the following criteria:

(a) Has completed the file a written application form and
remitted, accompanied by the application for licensure fee
prescribed in s. 478.55.

(b) Has submitted to background screening in accordance
with s. 456.0135, on a form provided by the board, showing to
the satisfaction of the board that the applicant:
(c) Is at least 18 years old.
(d) Is of good moral character.
(e) Possesses a high school diploma or a high school equivalency diploma.
(f) Has not committed an act in any jurisdiction which would constitute grounds for disciplining an electrologist in this state.
(g) Has successfully completed the academic requirements of an electrolysis training program, not to exceed 120 hours, and the practical application thereof as approved by the board.

Section 24. Section 483.815, Florida Statutes, is amended to read:

483.815 Application for clinical laboratory personnel license.—An application for a clinical laboratory personnel license shall be made under oath on forms provided by the department and shall be accompanied by payment of fees as provided by this part. Applicants for licensure must also submit to background screening in accordance with s. 456.0135. A license may be issued authorizing the performance of procedures of one or more categories.

Section 25. Present paragraphs (b) through (k) of subsection (4) of section 483.901, Florida Statutes, are redesignated as paragraphs (c) through (l), respectively, a new paragraph (b) is added to that subsection, and paragraph (a) of that subsection is amended, to read:

483.901 Medical physicists; definitions; licensure.—
(4) LICENSE REQUIRED.—An individual may not engage in the practice of medical physics, including the specialties of diagnostic radiological physics, therapeutic radiological
physics, medical nuclear radiological physics, or medical health physics, without a license issued by the department for the appropriate specialty.

(a) The department shall adopt rules to administer this section which specify license application and renewal fees, continuing education requirements, background screening requirements, and standards for practicing medical physics. The department shall require a minimum of 24 hours per biennium of continuing education offered by an organization approved by the department. The department may adopt rules to specify continuing education requirements for persons who hold a license in more than one specialty.

(b) Applicants for a medical physicist license must submit to background screening in accordance with s. 456.0135.

Section 26. Subsections (2) and (3) of section 483.914, Florida Statutes, are amended to read:

483.914 Licensure requirements.—

(2) The department shall issue a license, valid for 2 years, to each applicant who meets all of the following criteria:

(a) Has completed an application.
(b) Has submitted to background screening in accordance with s. 456.0135.
(c) Is of good moral character.
(d) Provides satisfactory documentation of having earned:

1. A master’s degree from a genetic counseling training program or its equivalent as determined by the Accreditation Council of Genetic Counseling or its successor or an equivalent
entity; or

2. A doctoral degree from a medical genetics training program accredited by the American Board of Medical Genetics and Genomics or the Canadian College of Medical Geneticists.

   (e) Has passed the examination for certification as:
   1. A genetic counselor by the American Board of Genetic Counseling, Inc., the American Board of Medical Genetics and Genomics, or the Canadian Association of Genetic Counsellors; or
   2. A medical or clinical geneticist by the American Board of Medical Genetics and Genomics or the Canadian College of Medical Geneticists.

   (3) The department may issue a temporary license for up to 2 years to an applicant who meets all requirements for licensure except for the certification examination requirement imposed under paragraph (2)(e) and is eligible to sit for that certification examination.

Section 27. Subsection (1) of section 484.007, Florida Statutes, is amended to read:

484.007 Licensure of opticians; permitting of optical establishments.—

   (1) Any person desiring to practice opticianry shall apply to the department, upon forms prescribed by it, to take a licensure examination. The department shall examine each applicant who the board certifies meets all of the following criteria:

   (a) Has completed the application form and remitted a nonrefundable application fee set by the board, in the amount of $100 or less, and an examination fee set by the board, in the amount of $325 plus the actual per applicant cost to the
department for purchase of portions of the examination from the
American Board of Opticianry or a similar national organization,
or less, and refundable if the board finds the applicant
ineligible to take the examination.+
(b) Submits to background screening in accordance with s.
456.0135.
(c) Is not less than 18 years of age.+
(d) Is a graduate of an accredited high school or
possesses a certificate of equivalency of a high school
education.+
(e) Has received an associate degree, or its
equivalent, in opticianry from an educational institution the
curriculum of which is accredited by an accrediting agency
recognized and approved by the United States Department of
Education or the Council on Postsecondary Education or approved
by the board;
2. Is an individual licensed to practice the profession of
opticianry pursuant to a regulatory licensing law of another
state, territory, or jurisdiction of the United States, who has
actively practiced in such other state, territory, or
jurisdiction for more than 3 years immediately preceding
application, and who meets the examination qualifications as
provided in this subsection;
3. Is an individual who has actively practiced in another
state, territory, or jurisdiction of the United States for more
than 5 years immediately preceding application and who provides
tax or business records, affidavits, or other satisfactory
documentation of such practice and who meets the examination
qualifications as provided in this subsection; or
4. Has registered as an apprentice with the department and paid a registration fee not to exceed $60, as set by rule of the board. The apprentice shall complete 6,240 hours of training under the supervision of an optician licensed in this state for at least 1 year or of a physician or optometrist licensed under the laws of this state. These requirements must be met within 5 years after the date of registration. However, any time spent in a recognized school may be considered as part of the apprenticeship program provided herein. The board may establish administrative processing fees sufficient to cover the cost of administering apprentice rules adopted as promulgated by the board.

Section 28. Subsection (2) of section 484.045, Florida Statutes, is amended to read:

484.045 Licensure by examination.—
(2) The department shall license each applicant who the board certifies meets all of the following criteria:
(a) Has completed the application form and remitted the required fees.
(b) Has submitted to background screening in accordance with s. 456.0135.
(c) Is of good moral character.
(d) (e) Is 18 years of age or older.
(e) (d) Is a graduate of an accredited high school or its equivalent.
(f) (1. (e) 1) Has met the requirements of the training program; or
2. a. Has a valid, current license as a hearing aid specialist or its equivalent from another state and has been
actively practicing in such capacity for at least 12 months; or

b. Is currently certified by the National Board for Certification in Hearing Instrument Sciences and has been actively practicing for at least 12 months.

(g) Has passed an examination, as prescribed by board rule.

(h) Has demonstrated, in a manner designated by rule of the board, knowledge of state laws and rules relating to the fitting and dispensing of prescription hearing aids.

Section 29. Section 486.031, Florida Statutes, is amended to read:

486.031 Physical therapist; licensing requirements.—To be eligible for licensing as a physical therapist, an applicant must meet all of the following criteria:

1. Be at least 18 years old.
2. Be of good moral character.
3. Have submitted to background screening in accordance with s. 456.0135.

and

4. Have been graduated from a school of physical therapy which has been approved for the educational preparation of physical therapists by the appropriate accrediting agency recognized by the Council for Higher Education Accreditation, or its successor entity, Commission on Recognition of Postsecondary Accreditation or the United States Department of Education at the time of her or his graduation and have passed, to the satisfaction of the board, the American Registry Examination prior to 1971 or a national examination approved by the board to determine her or his fitness for practice as a physical therapist as hereinafter provided;
(b) Have received a diploma from a program in physical therapy in a foreign country and have educational credentials deemed equivalent to those required for the educational preparation of physical therapists in this country, as recognized by the appropriate agency as identified by the board, and have passed to the satisfaction of the board an examination to determine her or his fitness for practice as a physical therapist as hereinafter provided; or

(c) Be entitled to licensure without examination as provided in s. 486.081.

Section 30. Section 486.102, Florida Statutes, is amended to read:

486.102 Physical therapist assistant; licensing requirements.—To be eligible for licensing by the board as a physical therapist assistant, an applicant must meet all of the following criteria:

(1) Be at least 18 years old.

(2) Be of good moral character.

(3) Have submitted to background screening in accordance with s. 456.0135.

and

(4) Have been graduated from a school giving a course of not less than 2 years for physical therapist assistants, which has been approved for the educational preparation of physical therapist assistants by the appropriate accrediting agency recognized by the Council for Higher Education Accreditation, or its successor entity, Commission on Recognition of Postsecondary Accreditation, or the United States Department of Education at the time of her or his graduation and have passed to the satisfaction of the board an examination
to determine her or his fitness for practice as a physical
therapist assistant as hereinafter provided;
(b) Have been graduated from a school giving a course for
physical therapist assistants in a foreign country and have
educational credentials deemed equivalent to those required for
the educational preparation of physical therapist assistants in
this country, as recognized by the appropriate agency as
identified by the board, and passed to the satisfaction of the
board an examination to determine her or his fitness for
practice as a physical therapist assistant as hereinafter
provided;
(c) Be entitled to licensure without examination as
provided in s. 486.107; or
(d) Have been enrolled between July 1, 2014, and July 1,
2016, in a physical therapist assistant school in this state
which was accredited at the time of enrollment; and
1. Have been graduated or be eligible to graduate from such
school no later than July 1, 2018; and
2. Have passed to the satisfaction of the board an
examination to determine his or her fitness for practice as a
physical therapist assistant as provided in s. 486.104.
Section 31. Present paragraphs (b), (c), and (d) of
subsection (1) of section 490.005, Florida Statutes, are
redesignated as paragraphs (c), (d), and (e), respectively, a
new paragraph (b) is added to that subsection, and subsection
(2) is amended, to read:
490.005 Licensure by examination.—
(1) Any person desiring to be licensed as a psychologist
shall apply to the department to take the licensure examination.
The department shall license each applicant whom the board certifies has met all of the following requirements:

(b) Submitted to background screening in accordance with s. 456.0135.

(2) Any person desiring to be licensed as a school psychologist shall apply to the department to take the licensure examination. The department shall license each applicant who the department certifies has met all of the following requirements:

(a) Satisfactorily completed the application form and submitted a nonrefundable application fee not to exceed $250 and an examination fee sufficient to cover the per applicant cost to the department for development, purchase, and administration of the examination, but not to exceed $250 as set by department rule.

(b) Submitted to background screening in accordance with s. 456.0135.

(c) Submitted satisfactory proof to the department that the applicant:

1. Has received a doctorate, specialist, or equivalent degree from a program primarily psychological in nature and has completed 60 semester hours or 90 quarter hours of graduate study, in areas related to school psychology as defined by rule of the department, from a college or university which at the time the applicant was enrolled and graduated was accredited by an accrediting agency recognized and approved by the Council for Higher Education Accreditation or its successor organization or from an institution that is a member in good standing with the Association of Universities and Colleges of Canada.

2. Has had a minimum of 3 years of experience in school
psychology, 2 years of which must be supervised by an individual who is a licensed school psychologist or who has otherwise qualified as a school psychologist supervisor, by education and experience, as set forth by rule of the department. A doctoral internship may be applied toward the supervision requirement.

3. Has passed an examination provided by the department.

Section 32. Present paragraphs (b) and (c) of subsection (1) of section 490.0051, Florida Statutes, are redesignated as paragraphs (c) and (d), respectively, and a new paragraph (b) is added to that subsection, to read:

490.0051 Provisional licensure; requirements.—
(1) The department shall issue a provisional psychology license to each applicant whom the board certifies has met all of the following criteria:

(b) Submitted to background screening in accordance with s. 456.0135.

Section 33. Subsection (1) of section 490.006, Florida Statutes, is amended to read:

490.006 Licensure by endorsement.—
(1) The department shall license a person as a psychologist or school psychologist who, upon applying to the department, submitting to background screening in accordance with s. 456.0135, and remitting the appropriate fee, demonstrates to the department or, in the case of psychologists, to the board that the applicant:

(a) Is a diplomate in good standing with the American Board of Professional Psychology, Inc.; or

(b) Possesses a doctoral degree in psychology and has at least 10 years of experience as a licensed psychologist in any
jurisdiction or territory of the United States within the 25 years preceding the date of application.

Section 34. Subsections (1), (2), (4), and (6) of section 491.0045, Florida Statutes, are amended to read:

491.0045 Intern registration; requirements.—

(1) An individual who has not satisfied the postgraduate or post-master's level experience requirements, as specified in s. 491.005(1)(d), (3)(d), or (4)(d), must register as an intern in the profession for which he or she is seeking licensure before commencing the post-master's experience requirement or an individual who intends to satisfy part of the required graduate-level practicum, internship, or field experience, outside the academic arena for any profession, and must register as an intern in the profession for which he or she is seeking licensure before commencing the practicum, internship, or field experience.

(2) The department shall register as a clinical social worker intern, marriage and family therapist intern, or mental health counselor intern each applicant who the board certifies has met all of the following criteria:

(a) Completed the application form and remitted a nonrefundable application fee not to exceed $200, as set by board rule.

(b) Submitted to background screening in accordance with s. 456.0135.

(c) Completed the education requirements as specified in s. 491.005(1)(d), (3)(d), or (4)(d) for the profession for which he or she is applying for licensure, if needed; and
2. Submitted an acceptable supervision plan, as determined by the board, for meeting the practicum, internship, or field work required for licensure that was not satisfied in his or her graduate program.

(d) Identified a qualified supervisor.

(4) An individual who fails to comply with this section may not be granted a license under this chapter, and any time spent by the individual completing the experience requirement as specified in s. 491.005(1)(d), (3)(d), or (4)(d) before registering as an intern does not count toward completion of the requirement.

(6) Any registration issued after March 31, 2017, expires 60 months after the date it is issued. The board may make a one-time exception to the requirements of this subsection in emergency or hardship cases, as defined by board rule, if the candidate has passed the theory and practice examination described in s. 491.005(1)(e), (3)(e), and (4)(e) before registering as an intern.

Section 35. Subsection (2) of section 491.0046, Florida Statutes, is amended to read:

491.0046 Provisional license; requirements.—

(2) The department shall issue a provisional clinical social worker license, provisional marriage and family therapist license, or provisional mental health counselor license to each applicant who the board certifies has met all of the following criteria:

(a) Completed the application form and remitted a nonrefundable application fee not to exceed $100, as set by board rule.
(b) Submitted to background screening in accordance with s. 456.0135.

c) Earned a graduate degree in social work, a graduate degree with a major emphasis in marriage and family therapy or a closely related field, or a graduate degree in a major related to the practice of mental health counseling. and

d) Met the following minimum coursework requirements:

1. For clinical social work, a minimum of 15 semester hours or 22 quarter hours of the coursework required by s. 491.005(1)(c)2.b.

2. For marriage and family therapy, 10 of the courses required by s. 491.005(3)(c) as determined by the board, and at least 6 semester hours or 9 quarter hours of the course credits must have been completed in the area of marriage and family systems, theories, or techniques.

3. For mental health counseling, a minimum of seven of the courses required under s. 491.005(4)(c)1.a., b., or c.

Section 36. Subsections (1) through (4) of section 491.005, Florida Statutes, are amended to read:

491.005 Licensure by examination.—

(1) CLINICAL SOCIAL WORK.—Upon verification of documentation and payment of a fee not to exceed $200, as set by board rule, the department shall issue a license as a clinical social worker to an applicant whom the board certifies has met all of the following criteria:

(a) Submitted an application and paid the appropriate fee.

(b) Submitted to background screening in accordance with s. 456.0135.
(c)1. Received a doctoral degree in social work from a graduate school of social work which at the time the applicant graduated was accredited by an accrediting agency recognized by the United States Department of Education or received a master’s degree in social work from a graduate school of social work which at the time the applicant graduated:
   a. Was accredited by the Council on Social Work Education;
   b. Was accredited by the Canadian Association for Social Work Education; or
   c. Has been determined to have been a program equivalent to programs approved by the Council on Social Work Education by the Foreign Equivalency Determination Service of the Council on Social Work Education. An applicant who graduated from a program at a university or college outside of the United States or Canada must present documentation of the equivalency determination from the council in order to qualify.

2. The applicant’s graduate program emphasized direct clinical patient or client health care services, including, but not limited to, coursework in clinical social work, psychiatric social work, medical social work, social casework, psychotherapy, or group therapy. The applicant’s graduate program must have included all of the following coursework:
   a. A supervised field placement which was part of the applicant’s advanced concentration in direct practice, during which the applicant provided clinical services directly to clients.
   b. Completion of 24 semester hours or 32 quarter hours in theory of human behavior and practice methods as courses in clinically oriented services, including a minimum of one course
in psychopathology, and no more than one course in research, taken in a school of social work accredited or approved pursuant to subparagraph 1.

3. If the course title which appears on the applicant’s transcript does not clearly identify the content of the coursework, the applicant provided additional documentation, including, but not limited to, a syllabus or catalog description published for the course.

(d)(e) Completed at least 2 years of clinical social work experience, which took place subsequent to completion of a graduate degree in social work at an institution meeting the accreditation requirements of this section, under the supervision of a licensed clinical social worker or the equivalent who is a qualified supervisor as determined by the board. An individual who intends to practice in Florida to satisfy clinical experience requirements must register pursuant to s. 491.0045 before commencing practice. If the applicant’s graduate program was not a program which emphasized direct clinical patient or client health care services as described in subparagraph (c)2. (b)2., the supervised experience requirement must take place after the applicant has completed a minimum of 15 semester hours or 22 quarter hours of the coursework required. A doctoral internship may be applied toward the clinical social work experience requirement. A licensed mental health professional must be on the premises when clinical services are provided by a registered intern in a private practice setting.

(e)(d) Passed a theory and practice examination designated by board rule.
(f) Demonstrated, in a manner designated by board rule, knowledge of the laws and rules governing the practice of clinical social work, marriage and family therapy, and mental health counseling.

(2) CLINICAL SOCIAL WORK.—
   (a) Notwithstanding the provisions of paragraph (1)(c), coursework which was taken at a baccalaureate level shall not be considered toward completion of education requirements for licensure unless an official of the graduate program certifies in writing on the graduate school’s stationery that a specific course, which students enrolled in the same graduate program were ordinarily required to complete at the graduate level, was waived or exempted based on completion of a similar course at the baccalaureate level. If this condition is met, the board shall apply the baccalaureate course named toward the education requirements.

   (b) An applicant from a master’s or doctoral program in social work which did not emphasize direct patient or client services may complete the clinical curriculum content requirement by returning to a graduate program accredited by the Council on Social Work Education or the Canadian Association of Schools of Social Work, or to a clinical social work graduate program with comparable standards, in order to complete the education requirements for examination. However, a maximum of 6 semester or 9 quarter hours of the clinical curriculum content requirement may be completed by credit awarded for independent study coursework as defined by board rule.

(3) MARRIAGE AND FAMILY THERAPY.—Upon verification of documentation and payment of a fee not to exceed $200, as set by
board rule, the department shall issue a license as a marriage and family therapist to an applicant whom the board certifies has met all of the following criteria:

(a) Submitted an application and paid the appropriate fee.

(b) Submitted to background screening in accordance with s. 456.0135.

(c) 1. Attained one of the following:
   a. A minimum of a master’s degree in marriage and family therapy from a program accredited by the Commission on Accreditation for Marriage and Family Therapy Education.
   b. A minimum of a master’s degree with a major emphasis in marriage and family therapy or a closely related field from a university program accredited by the Council on Accreditation of Counseling and Related Educational Programs and graduate courses approved by the board.
   c. A minimum of a master’s degree with an emphasis in marriage and family therapy or a closely related field, with a degree conferred before September 1, 2027, from an institutionally accredited college or university and graduate courses approved by the board.

2. If the course title that appears on the applicant’s transcript does not clearly identify the content of the coursework, the applicant provided additional documentation, including, but not limited to, a syllabus or catalog description published for the course. The required master’s degree must have been received in an institution of higher education that, at the time the applicant graduated, was fully accredited by an institutional accrediting body recognized by the Council for Higher Education Accreditation or its successor organization or
was a member in good standing with Universities Canada, or an institution of higher education located outside the United States and Canada which, at the time the applicant was enrolled and at the time the applicant graduated, maintained a standard of training substantially equivalent to the standards of training of those institutions in the United States which are accredited by an institutional accrediting body recognized by the Council for Higher Education Accreditation or its successor organization. Such foreign education and training must have been received in an institution or program of higher education officially recognized by the government of the country in which it is located as an institution or program to train students to practice as professional marriage and family therapists or psychotherapists. The applicant has the burden of establishing that the requirements of this provision have been met, and the board shall require documentation, such as an evaluation by a foreign equivalency determination service, as evidence that the applicant’s graduate degree program and education were equivalent to an accredited program in this country. An applicant with a master’s degree from a program that did not emphasize marriage and family therapy may complete the coursework requirement in a training institution fully accredited by the Commission on Accreditation for Marriage and Family Therapy Education recognized by the United States Department of Education.

Completed at least 2 years of clinical experience during which 50 percent of the applicant’s clients were receiving marriage and family therapy services, which must be at the post-master’s level under the supervision of a licensed
marriage and family therapist with at least 5 years of experience, or the equivalent, who is a qualified supervisor as determined by the board. An individual who intends to practice in Florida to satisfy the clinical experience requirements must register pursuant to s. 491.0045 before commencing practice. If a graduate has a master’s degree with a major emphasis in marriage and family therapy or a closely related field which did not include all of the coursework required by paragraph (c) (b), credit for the post-master’s level clinical experience may not commence until the applicant has completed a minimum of 10 of the courses required by paragraph (c) (b), as determined by the board, and at least 6 semester hours or 9 quarter hours of the course credits must have been completed in the area of marriage and family systems, theories, or techniques. Within the 2 years of required experience, the applicant shall provide direct individual, group, or family therapy and counseling to cases including those involving unmarried dyads, married couples, separating and divorcing couples, and family groups that include children. A doctoral internship may be applied toward the clinical experience requirement. A licensed mental health professional must be on the premises when clinical services are provided by a registered intern in a private practice setting.

(e) Passed a theory and practice examination designated by board rule.

(f) Demonstrated, in a manner designated by board rule, knowledge of the laws and rules governing the practice of clinical social work, marriage and family therapy, and mental health counseling.
For the purposes of dual licensure, the department shall license as a marriage and family therapist any person who meets the requirements of s. 491.0057. Fees for dual licensure may not exceed those stated in this subsection.

(4) MENTAL HEALTH COUNSELING.—Upon verification of documentation and payment of a fee not to exceed $200, as set by board rule, the department shall issue a license as a mental health counselor to an applicant whom the board certifies has met all of the following criteria:

(a) Submitted an application and paid the appropriate fee.

(b) Submitted to background screening in accordance with s. 456.0135.

(c)1. Attained a minimum of an earned master’s degree from a mental health counseling program accredited by the Council for the Accreditation of Counseling and Related Educational Programs which consists of at least 60 semester hours or 80 quarter hours of clinical and didactic instruction, including a course in human sexuality and a course in substance abuse. If the master’s degree is earned from a program related to the practice of mental health counseling which is not accredited by the Council for the Accreditation of Counseling and Related Educational Programs, then the coursework and practicum, internship, or fieldwork must consist of at least 60 semester hours or 80 quarter hours and meet all of the following requirements:

a. Thirty-three semester hours or 44 quarter hours of graduate coursework, which must include a minimum of 3 semester hours or 4 quarter hours of graduate-level coursework in each of the following 11 content areas: counseling theories and practice; human growth and development; diagnosis and treatment
of psychopathology; human sexuality; group theories and practice; individual evaluation and assessment; career and lifestyle assessment; research and program evaluation; social and cultural foundations; substance abuse; and legal, ethical, and professional standards issues in the practice of mental health counseling. Courses in research, thesis or dissertation work, practicums, internships, or fieldwork may not be applied toward this requirement.

b. A minimum of 3 semester hours or 4 quarter hours of graduate-level coursework addressing diagnostic processes, including differential diagnosis and the use of the current diagnostic tools, such as the current edition of the American Psychiatric Association’s Diagnostic and Statistical Manual of Mental Disorders. The graduate program must have emphasized the common core curricular experience.

c. The equivalent, as determined by the board, of at least 700 hours of university-sponsored supervised clinical practicum, internship, or field experience that includes at least 280 hours of direct client services, as required in the accrediting standards of the Council for Accreditation of Counseling and Related Educational Programs for mental health counseling programs. This experience may not be used to satisfy the post-master’s clinical experience requirement.

2. Provided additional documentation if a course title that appears on the applicant’s transcript does not clearly identify the content of the coursework. The documentation must include, but is not limited to, a syllabus or catalog description published for the course.
Education and training in mental health counseling must have been received in an institution of higher education that, at the time the applicant graduated, was fully accredited by an institutional accrediting body recognized by the Council for Higher Education Accreditation or its successor organization or was a member in good standing with Universities Canada, or an institution of higher education located outside the United States and Canada which, at the time the applicant was enrolled and at the time the applicant graduated, maintained a standard of training substantially equivalent to the standards of training of those institutions in the United States which are accredited by an institutional accrediting body recognized by the Council for Higher Education Accreditation or its successor organization. Such foreign education and training must have been received in an institution or program of higher education officially recognized by the government of the country in which it is located as an institution or program to train students to practice as mental health counselors. The applicant has the burden of establishing that the requirements of this provision have been met, and the board shall require documentation, such as an evaluation by a foreign equivalency determination service, as evidence that the applicant’s graduate degree program and education were equivalent to an accredited program in this country. Beginning July 1, 2025, an applicant must have a master’s degree from a program that is accredited by the Council for Accreditation of Counseling and Related Educational Programs, the Masters in Psychology and Counseling Accreditation Council, or an equivalent accrediting body which consists of at least 60 semester hours or 80 quarter hours to apply for
licensure under this paragraph.

(d) Completed at least 2 years of clinical experience in mental health counseling, which must be at the post-master’s level under the supervision of a licensed mental health counselor or the equivalent who is a qualified supervisor as determined by the board. An individual who intends to practice in Florida to satisfy the clinical experience requirements must register pursuant to s. 491.0045 before commencing practice. If a graduate has a master’s degree with a major related to the practice of mental health counseling which did not include all the coursework required under sub-subparagraphs (c)1.a and b. (b)1.a. and b., credit for the post-master’s level clinical experience may not commence until the applicant has completed a minimum of seven of the courses required under sub-subparagraphs (c)1.a and b. (b)1.a. and b., as determined by the board, one of which must be a course in psychopathology or abnormal psychology. A doctoral internship may be applied toward the clinical experience requirement. A licensed mental health professional must be on the premises when clinical services are provided by a registered intern in a private practice setting.

(e) Passed a theory and practice examination designated by board rule.

(f) Demonstrated, in a manner designated by board rule, knowledge of the laws and rules governing the practice of clinical social work, marriage and family therapy, and mental health counseling.

Section 37. Subsection (1) of section 491.006, Florida Statutes, is amended to read:

491.006 Licensure or certification by endorsement.—
The department shall license or grant a certificate to a person in a profession regulated by this chapter who, upon applying to the department and remitting the appropriate fee, demonstrates to the board that he or she:

(a) Has demonstrated, in a manner designated by rule of the board, knowledge of the laws and rules governing the practice of clinical social work, marriage and family therapy, and mental health counseling.

(b) Submitted to background screening in accordance with s. 456.0135.

(c) 1. Holds an active valid license to practice and has actively practiced the licensed profession in another state for 3 of the last 5 years immediately preceding licensure;

2. Has passed a substantially equivalent licensing examination in another state or has passed the licensure examination in this state in the profession for which the applicant seeks licensure; and

3. Holds a license in good standing, is not under investigation for an act that would constitute a violation of this chapter, and has not been found to have committed any act that would constitute a violation of this chapter.

The fees paid by any applicant for certification as a master social worker under this section are nonrefundable.

Section 38. Section 486.025, Florida Statutes, is amended to read:

486.025 Powers and duties of the Board of Physical Therapy Practice.—The board may administer oaths, summon witnesses, take testimony in all matters relating to its duties under this
chapter, establish or modify minimum standards of practice of
physical therapy as defined in s. 486.021, including, but not
limited to, standards of practice for the performance of dry
needling by physical therapists, and adopt rules pursuant to ss.
120.536(1) and 120.54 to implement this chapter. The board may
also review the standing and reputability of any school or
college offering courses in physical therapy and whether the
courses of such school or college in physical therapy meet the
standards established by the appropriate accrediting agency
referred to in s. 486.031(4)(a) s. 486.031(3)(a). In determining
the standing and reputability of any such school and whether the
school and courses meet such standards, the board may
investigate and personally inspect the school and courses.

Section 39. Paragraph (b) of subsection (1) of section
486.0715, Florida Statutes, is amended to read:

486.0715 Physical therapist; issuance of temporary permit.—
(1) The board shall issue a temporary physical therapist
permit to an applicant who meets the following requirements:
(b) Is a graduate of an approved United States physical
therapy educational program and meets all the eligibility
requirements for licensure under chapter ch. 456, s. 486.031(1)-
(4)(a) s. 486.031(3)(a), and related rules, except passage
of a national examination approved by the board is not required.

Section 40. Paragraph (b) of subsection (1) of section
486.1065, Florida Statutes, is amended to read:
486.1065 Physical therapist assistant; issuance of
temporary permit.—
(1) The board shall issue a temporary physical therapist
assistant permit to an applicant who meets the following
requirements:

(b) Is a graduate of an approved United States physical therapy assistant educational program and meets all the eligibility requirements for licensure under chapter ch. 456, s. 486.102(1)-(4)(a) s. 486.102(1)-(3)(a), and related rules, except passage of a national examination approved by the board is not required.

Section 41. Subsections (15), (16), and (17) of section 491.003, Florida Statutes, are amended to read:

491.003 Definitions.—As used in this chapter:

(15) “Registered clinical social worker intern” means a person registered under this chapter who is completing the postgraduate clinical social work experience requirement specified in s. 491.005(1)(d) s. 491.005(1)(e).

(16) “Registered marriage and family therapist intern” means a person registered under this chapter who is completing the post-master’s clinical experience requirement specified in s. 491.005(3)(d) s. 491.005(3)(e).

(17) “Registered mental health counselor intern” means a person registered under this chapter who is completing the post-master’s clinical experience requirement specified in s. 491.005(4)(d) s. 491.005(4)(e).

Section 42. This act shall take effect July 1, 2024.
To: Senator Colleen Burton, Chair  
Committee on Health Policy

Subject: Committee Agenda Request

Date: January 5, 2024

I respectfully request that Senate Bill #1008, relating to Background Screening Requirements for Health Care Practitioners, be placed on the:

☒ committee agenda at your earliest possible convenience.
☐ next committee agenda.

Senator Erin Grall  
Florida Senate, District 29
I. Summary:

SB 896 expands the Surgeon General’s authority to issue mandatory ESOs to any health care practitioner generally or to the designated establishment manager (DEM) or an employee of a massage establishment directly involved in the management of the establishment upon:

- A massage therapist, massage establishment, DEM, or establishment employee being arrested for committing or attempting, soliciting, or conspiring to commit prostitution or any of the listed felonies; or
- A finding by the Surgeon General that probable cause exists to believe that any licensee has committed sexual misconduct under s. 456.063(1), F.S., or the applicable practice act, and that the violation constitutes an immediate danger to the public.

SB 896 defines the following terms for the practice of massage therapy and massage establishments: advertising medium, employee; and sexual activity.

The bill amends the definition of DEM to include an acupuncturist, medical physician, osteopathic physician, and chiropractor as additional health care practitioners who may serve as a DEM.

SB 896 authorizes the DOH and law enforcement to investigate massage establishments for new required and prohibited acts to assist in identifying persons who may be engaging in human trafficking.

The bill:
- Authorizes law enforcement to seek an abatement or injunction against a massage establishment as a nuisance when the establishment is found to have permitted sexual activity on the premises or to has failed to maintain a complete set of client medical records;
• Requires a massage establishment to confirm the identity of a client before any services or treatments are provided;
• Requires a massage establishment to maintain a complete set of legible employee records, with specific contents provided in the bill, and that such records for an employee must be created before the employee may provide any service or treatment to a client at the establishment;
• Exempts acupuncturists, medical and osteopathic physicians, and chiropractors who employ a massage therapist to perform massage therapy on their patients at their practice, from the requirements of s. 480.043, F.S., except for the requirement to implement a procedure for reporting suspected human trafficking;
• Requires any advertisement by a massage therapist or massage establishment to include the physical address of the establishment that was provided to the DOH on the licensure application and exempts establishments with more than five locations;
• Prohibits massage therapists, massage establishments, and employees of massage establishments from advertising anywhere that expressly or implicitly advertises prostitution, escort, or other sexual services;
• Prohibits a massage establishment, unless zoned residential under a local ordinance, from being used by any person as:
  o A principle or temporary domicile;
  o A shelter or a harbor; or
  o As sleeping or napping quarters;
• Requires DOH investigators to request all massage establishment employees to present a valid government identification at the time of inspection;
• Requires the DOH to notify a federal immigration office if a massage establishment employee is unable to produce a valid government identification;
• Changes the BMT quorum requirements from four members to a majority of the members of the BMT; and
• Expands the DOH’s reporting requirements for more specific information regarding massage therapists and establishments.

The bill provides an effective date of July 1, 2024.

II. Present Situation:

Massage Therapy Practice

Chapter 480, F.S., is the “Massage Therapy Practice Act” and governs the practice of massage therapy in Florida. A massage therapist is a health care practitioner licensed under ch. 480, F.S. The Board of Massage Therapy (BMT) is within the DOH and regulates the practice of massage therapy.1 As of June 30, 2023, there were 55,409 total licensed massage therapists and establishments.2

---

1 Section 480.035, F.S.
2 Department of Health, House Bill 197 2024 Agency Legislative Bill Analysis (Oct. 24, 2023) (On file with the Senate Committee on Health Policy).
Massage therapy is the manipulation of the soft tissues of the human body with the hands, feet, arms, or elbow, whether or not the manipulation is aided by hydrotherapy, and includes colonic irrigation, thermal therapy, the use of any electrical or mechanical device, or the application of chemical or herbal preparations to the human body.  

According to the DOH, in Fiscal Year 2022-2023, in Florida there were 191 BMT-approved licensed massage therapy schools, 34,515 in-state, active licensed massage therapists, and 8,966 massage establishments with active licenses.

**Massage Therapy Licensure**

An individual seeking licensure as a massage therapist in Florida must:

- Submit an application and the appropriate licensing fee;
- Be at least 18 years of age or have a high school diploma or high school equivalency diploma;
- Submit to background screening and be found to not have been convicted or found guilty of, or to have pled nolo contendere to, a specific list of crimes; and
- Meet specific education and training requirements, as discussed below.

**Massage Therapy Education and Training Requirements**

Individuals may meet their education and training requirements to earn their Florida massage therapy license in one of three manners:

- Attend a BMT-approved massage school and pass a BMT-approved examination.
- Complete a BMT-approved massage apprenticeship program by July 1, 2023, and pass a BMT-approved examination. This option is only available to those who had a massage apprentice license before July 1, 2020.
- Obtain a license by endorsement, if the applicant is currently licensed in another state and meets additional requirements.

---

3 Section 480.033, F.S.
7 Fla. Admin. Code R. 64B7-29.003, (2023). During the apprenticeship, the sponsor is required to file quarterly reports and the apprentice must complete the following courses of study: 300 hours of physiology, 300 hours of anatomy, 20 hours of theory and history of massage, 50 hours of theory and practice of hydro-therapy, 25 hours of statutes and rules of massage practice, 50 hours of introduction to allied modalities, 700 hours of practical massage, and three hours of BMP-approved HIV/AIDS instruction.
8 See ss. 480.033(5) and 480.041(8), F.S., (2020). The DOH will no longer issued massage apprentice licenses after June 30, 2020; and it is unclear if there are any apprentices left who have yet to take and pass a BMT approved examination.
9 Section 480.041(5)(c), F.S.
Massage Therapy Schools

The BMT requires applicants for licensure to practice massage therapy to complete at least 500 classroom hours at a rate of no more than six hours per day and no more than 30 classroom hours per calendar week.\textsuperscript{10} Classroom education must include:\textsuperscript{11}

- 150 hours of anatomy and physiology;
- 100 hours of basic massage theory and history;
- 125 hours of clinical practicum;
- 76 hours of allied modalities;
- 15 hours of business;
- 15 hours of theory and practice of hydrotherapy;
- 10 hours of Florida laws and rules;
- 4 hours of professional ethics;
- 3 hours of HIV/AIDS education; and
- 2 hours on reducing medical errors.

Massage Therapy Licensure by Endorsement

An individual who holds an active license in another state that has licensing requirements that are equivalent to, or that exceed, Florida’s licensing requirements, is eligible to receive a Florida massage therapy license by endorsement if he or she has also completed 10 hours of coursework on Florida laws and rules as part of a BMT-approved education program or with an approved continuing education (CE) provider.\textsuperscript{12}

Massage Establishment Licensure

A massage establishment is the premises wherein a massage therapist practices massage therapy.\textsuperscript{13} A massage establishment must be licensed by the BMT and adhere to rules set by the BMT regarding facilities, personnel, safety and sanitation requirements, financial responsibility, and insurance coverage.\textsuperscript{14} Massage establishments must be licensed in order to operate legally.\textsuperscript{15}

The BMT requires the following to be met before a massage establishment license may be issued:\textsuperscript{16}

- A completed application and appropriate licensing fee;\textsuperscript{17}
- A DOH inspection;\textsuperscript{18} and

\textsuperscript{10} Fla. Admin. Code R. 64B7-32.003,(2023).
\textsuperscript{11} Id.
\textsuperscript{12} Fla. Admin. Code R. 64B7-25.004, (2023). Florida-approved Massage Therapy programs are required to have 10 hours of Florida laws and rules as a part of their curriculum. Graduates from out of state programs must show that they have met the same course requirements as students who attend Florida schools.
\textsuperscript{13} Section 480.033(7), F.S.
\textsuperscript{14} Section 480.043, F.S.
\textsuperscript{15} Id.
\textsuperscript{17} See Board of Massage Therapy, Application for Massage Establishment License, available at https://floridasmassagetherapy.gov/applications/app-bus-original-mt.pdf (last visited Jan. 28, 2024).
\textsuperscript{18} The inspection must demonstrate that the proposed massage establishment is to be used for “massage” as defined in Section 480.033(3), F.S., and that the proposed massage establishment is in compliance with chs. 456 and 480, F.S., and related rules. See Fla. Admin. Code R. 64B7-26.002, (2023).
• Proof of property damage and bodily injury liability insurance coverage.\textsuperscript{19}

The application includes background screening of the establishment owner and requires the identification of a designated establishment manager (DEM).\textsuperscript{20} A DEM must be a licensed massage therapist who holds a clear and active license without restriction. The DEM is responsible for the operation of a massage establishment and must be designated the manager by the rules or practices at the establishment.\textsuperscript{21}

Massage establishment licenses may not be transferred from a licensee to another individual or entity.\textsuperscript{22} Board approval is required for a massage establishment to move locations or change names.\textsuperscript{23}

A proposed massage establishment may be denied a license for failing to meet the standards adopted by the BMT, or if the owner or DEM has been convicted of, or plead guilty to, or plead nolo contendere to, a felony or misdemeanor relating to any of the following offenses:\textsuperscript{24}

• Prostitution,\textsuperscript{25}
• Kidnapping,\textsuperscript{26}
• False imprisonment;\textsuperscript{27}
• Luring or enticing a child;\textsuperscript{28}
• Human trafficking or smuggling;\textsuperscript{29}
• Sexual battery;\textsuperscript{30}
• Female genital mutilation;\textsuperscript{31}
• Lewd or lascivious offenses in the presence of a minor, elderly, or disabled person;\textsuperscript{32} or
• Obscene or sexual acts involving a minor.\textsuperscript{33}

The DOH may investigate the proposed massage establishment based on the application contents.\textsuperscript{34} If DOH determines that the proposed massage establishment fails to meet the standards adopted by the BMT, the DOH must deny the application for licensure and provide the denial in writing with a list of reasons for the denial. The establishment may correct the recorded deficiencies and reapply for licensure.\textsuperscript{35}

Professional Discipline of Massage Therapists and Massage Establishments

It is the responsibility of the BMT to discipline its licensees regulated under ch. 480, F.S., for any acts that violate ss. 480.041, 480.043, 480.0485, 480.046, and s. 456.072, F.S., or in the Florida Administrative Code Rules in ch. 64B7. In doing so, it must issue an order imposing appropriate penalties on the massage therapist or massage establishment within the ranges recommended in the disciplinary guidelines of ss. 456.072(2) and 480.046, F.S., and Florida Administrative Code Rules, ch. 64B7, after consideration of the listed aggravating and mitigating factors. Discipline may include any combination of the following:

- Letter of concern or guidance.
- Reprimand.
- Conditional license.
- Probation.
- Suspension of license.
- Revocation of license.
- Fines.

During Fiscal Year 2022-2023, 229 administrative complaints (A/C) were filed related to massage therapists and massage establishments. Of those, 70 were related to sexual misconduct.

DOH Emergency Action Orders

The DOH is authorized under s. 456.074, F.S., to immediately suspend the license of any health care practitioner who has plead guilty, or nolo contendere to, or has been convicted of, any of the following offenses:

- Felony Medicare or Medicaid fraud under ch. 409, F.S.;
- Felony fraud under ch. 817, F.S.;
- Felony drug offenses under ch. 893, F.S., and equivalent charges under federal law;
- Misdemeanors or felonies under federal law relating to the Medicaid program;
- Felonies under s. 784.086, F.S., relating to reproductive battery; and
- Felonies under ch. 782, F.S., relating to homicide.

The DOH may only issue an ESO, an emergency restriction order (ERO), or an order limiting a practitioner’s license if the procedure leading to the order was fair under the circumstances and meets the following criteria:

- The procedure provided at least the same procedural protection as is given by other statutes, the State Constitution, or the U.S. Constitution;
- The DOH took only the action necessary to protect the public health, safety and welfare under the emergency procedure; and
- The DOH stated, in writing, with particularity, at the time of or prior to the emergency action, the specific facts and reasons for finding that the practitioner or regulated facility

36 Department of Health, House Bill 197 2024 Agency Legislative Bill Analysis (Oct. 24, 2023) (On file with the Senate Committee on Health Policy).
37 Id.
38 Section 120.60(6), F.S.
presented an immediate danger to the public health, safety, or welfare and its reasons for concluding that the procedure used was fair under the circumstances.

The State Surgeon General, or his or her designee, may issue the emergency action and is required to conduct a proceeding for the purposes of making finding that a health care practitioner or regulated facility presents an immediate danger to the public health or safety, and that the least restrictive means of protecting the public welfare is an action against the health care practitioner’s or facility’s license.\textsuperscript{39}

**Emergency Actions Specific to Massage Therapist and Massage Establishment License**

The DOH under s. 456.074(4), F.S., is required to issue an ESO of the license of a massage therapist or massage establishment when a therapist, or a person with any ownership interest in a massage establishment, has been convicted, or found guilty of, or has entered a plea of guilty or nolo contendere to, regardless of adjudication, prostitution or related acts under s. 796.07, F.S., or a felony under any of the following or similar provisions in another jurisdiction:\textsuperscript{40}

- Section 787.01, F.S., relating to kidnapping;
- Section 787.02, F.S., relating to false imprisonment;
- Section 787.025, F.S., relating to luring or enticing a child;
- Section 787.06, F.S., relating to human trafficking;
- Section 787.07, F.S., relating to human smuggling;
- Section 794.011, F.S., relating to sexual battery;
- Section 794.08, F.S., relating to female genital mutilation;
- Former s. 796.03, F.S., relating to procuring a person under the age of 18 for prostitution;
- Former s. 796.04, F.S., relating to forcing, compelling, or coercing another to become a prostitute;
- Section 796.05, F.S., relating to deriving support from the proceeds of prostitution;
- Section 796.07(4)(a)3, F.S., relating to a felony of the third degree for a third or subsequent violation of s. 796.07, F.S., relating to prohibiting prostitution and related acts;
- Section 800.04, F.S., relating to lewd or lascivious offenses committed upon or in the presence of persons less than 16 years of age;
- Section 825.1025(2)(b), F.S., relating to lewd or lascivious offenses committed upon or in the presence of an elderly or disabled person;
- Section 827.071, F.S., relating to sexual performance by a child;
- Section 847.0133, F.S., relating to the protection of minors;
- Section 847.0135, F.S., relating to computer pornography;
- Section 847.0138, F.S., relating to the transmission of material harmful to minors to a minor by electronic device or equipment; and
- Section 847.0145, F.S., relating to the selling or buying of minors.

Without a conviction or the entry of a guilty or nolo contendere plea by the licensee, the DOH cannot issue an ESO.

\textsuperscript{39} Sections 456.073(8) and 120.60(6), F.S.

\textsuperscript{40} Section 456.074(4), F.S.
The DOH is required to annually report to the Legislature the total number of A/Cs and a description of disciplinary actions taken against health care professionals and establishments licensed and regulated by the DOH.\footnote{\textit{Section 456.026, F.S. See Department of Health, Division of Medical Quality Assurance Annual Report and Long-Range Plan (2023). available at https://www.floridahealth.gov/licensing-and-regulation/reports-and-publications/MQAAnnualReport2022-2023.pdf (last visited Jan. 28, 2024.).}} Such figures are required to be categorized by profession but not by the cause for the complaint or disciplinary action, such as sexual misconduct or failure to maintain a DEM.

Massage establishments are also required to maintain a DEM on file with DOH as a condition of their licensure. The DOH is authorized to issue an ESO to an establishment that fails to identify a new DEM within ten days of terminating the previous DEM.\footnote{\textit{Section 480.043(12), F.S.}}

**Human Trafficking**

Human trafficking is a form of modern-day slavery involving the transporting, soliciting, recruiting, harboring, providing, enticing, maintaining, or obtaining another person for the purpose of exploiting that person.\footnote{\textit{Section 787.06, F.S.}} Human trafficking can affect individuals of any age, gender, or nationality; however, some people are more vulnerable than others. Significant risk factors include recent migration or relocation, substance abuse, mental health concerns, and involvement in the child welfare system.\footnote{\textit{U.S. Department of Health and Human Services, Administration of Children and Families, National Human Trafficking Hotline. \textit{Human Trafficking: What Human Trafficking is, and isn’t.} available at https://humantraffickinghotline.org/en/human-trafficking (last visited Jan. 28, 2024.).}}

Victims of human trafficking are often subjected to force, fraud, or coercion for the purpose of sexual exploitation or forced labor.\footnote{\textit{Id.}} It is estimated that at any given time in 2021, there were approximately 27.6 million people engaging in forced labor.\footnote{\textit{International Labour Organization, \textit{Global Estimates of Modern Slavery: Forced Labour and Forced Marriage} (Sep. 2022) available at https://www.ilo.org/wcmsp5/groups/public/---ed_norm/---ipec/documents/publication/wcms_854733.pdf (last visited Jan. 23, 2024.).}} In 2021, the National Human Trafficking Hotline\footnote{\textit{The National Human Trafficking Hotline is a free service to connect victims and survivors of sex and labor trafficking with services and supports to find help and safety. The Hotline also receives tips about potential situations of sex and labor trafficking and facilitates reporting that information to the appropriate authorities. \textit{See also, National Human Trafficking Hotline, \textit{About Us}, available at https://humantraffickinghotline.org/en/about-us (last visited Jan .28, 2024.).}} (hotline) identified 16,710 trafficking victims in the U.S., of which 1,253 were in Florida.\footnote{\textit{U.S. Department of Health and Human Services, Administration of Children and Families, National Human Trafficking Hotline, \textit{National Statistics} (2021). available at https://humantraffickinghotline.org/en/statistics (last visited Jan. 28, 2024.).}} However, these figures do not reflect the true scope and scale of the issue which cannot be easily quantified due to the underground nature of the issue. An analysis of data collected by the hotline showed that approximately six percent of reported victims in 2021 were associated with illicit massage, health, and beauty services.\footnote{\textit{U.S. Department of Health and Human Services, Administration of Children and Families, National Human Trafficking Hotline, \textit{Polaris Analysis of 2021 Data from the National Human Trafficking Hotline.} available at https://polarisproject.org/wp-content/uploads/2020/07/Polaris-Analysis-of-2021-Data-from-the-National-Human-Trafficking-Hotline.pdf (last visited Jan. 28, 2024.).}}
Illicit Massage Businesses

An illicit massage business (IMB) is an establishment that puts on the façade of a legitimate massage business in order to facilitate commercial sex services. As of 2023, *The Network*, a private I.R.S. 502(c)(3) non-profit, working to counter IMBs, estimated there were more than 13,000 IMBs operating in all 50 states. As a whole, this illicit industry generates over $5 billion per year in revenue. IMBs are considered one of the top venues for sex trafficking involving adults and represented the largest group of citizen calls to the hotline in 2019.

Law Enforcement Response to IMBs

Florida has implemented several law enforcement and regulatory measures in an effort to stop the operation of IMBs without interfering with legitimate massage establishments.

Traditional tactics such as sting operations, undercover work, and reactive investigations are still relied on heavily for addressing human trafficking and IMBs, though these tactics for controlling crime have proven largely ineffective in reducing the presence of IMBs and their impact on victims of human trafficking. These tactics have been ineffective in holding traffickers accountable and decreasing the risk of victimization as the sting and undercover methods and massage therapy create unique issues for law enforcement.

Law enforcement has also attempted to prosecute IMBs as a public nuisance and sought injunctive relief. When such a nuisance exists, the Attorney General, state attorney, city attorney, county attorney, or any citizen of the county where the nuisance allegedly exists, may bring a nuisance abatement action to enjoin the nuisance, the person maintaining it, and the owner or agent of the premises where the nuisance is located. Such actions may result in a permanent injunction requiring the establishment to cease operations or abate any such nuisance. Massage establishments may also be declared a public nuisance if they are operating outside of legal hours, serving as a person’s principal domicile, or are unable to provide the required identification and licensure documents upon the request of a law enforcement officer or DOH investigator.

Administrative Response to IMBs

Florida has implemented several regulatory measures in an effort to combat the operation of IMBs. These regulations include:

---

53 Section 823.05, F.S.

54 Section 60.05, F.S.

55 See s. 480.0475, F.S.

56 See s. 480.0535, F.S.
• Massage establishments are not authorized to operate between 12:00 a.m. and 5:00 a.m.;57
• Sexual misconduct58 is explicitly prohibited in massage establishments;59
• Advertisements must include the license number of the individual massage therapist or establishment being advertised;60
• Persons employed in a massage establishment must be able to produce a government-issued identification upon request of a DOH inspector or law enforcement investigator;61 and
• Massage establishments are required to have a procedure for reporting suspected human trafficking and conspicuously post a sign with the relevant procedures.62

III. Effect of Proposed Changes:

SB 896 expands the Surgeon General’s authority to issue mandatory ESOs to any health care practitioner generally and to the DEM or an employee of a massage establishment directly involved in the management of the establishment upon:
• A massage therapist, massage establishment, DEM, or establishment employee being arrested for committing or attempting, soliciting, or conspiring to commit prostitution or any of the listed felonies; or
• A finding by the Surgeon General that probable cause exists to believe that any licensee has committed sexual misconduct under s. 456.063(1), F.S., or the applicable practice act, and that the violation constitutes an immediate danger to the public.

SB 896 amends s. 480.033, F.S., to define the following terms for the practice of massage therapy and massage establishments:
• “Advertising medium,” which includes:
  o Any newspaper;
  o Airwave or computer transmission;
  o Telephone directory listing, other than an in-column listing consisting only of a name physical address, and telephone number;
  o Business card;
  o Handbill;
  o Flyer;
  o Sign, other than a building directory listing all building tenants and their room or suite numbers; or
  o Any other form of written or electronic advertisement.
• “Employee,” which includes any person, or independent contractor or lessee of the massage establishment, whose duties include any aspect of the massage establishment, including, cooking and cleaning, with or without compensated. The term does not include persons exclusively engaged in the repair or maintenance of the massage establishment or in the delivery of goods to the establishment.
• “Sexual activity” according to parameters provided in the bill.

57 Section 480.0475, F.S.
58 Fla. Admin. Code R. 64B7-26.010, (2023), specifies that the statutory prohibition of sexual misconduct extends to sexual activity occurring within any massage establishment.
59 Section 480.0485, F.S.
60 Section 480.0465, F.S.
61 Section 480.0535, F.S.
62 Section 480.043, F.S.
The bill amends the definition of DEM in s. 480.033, F.S., to include an acupuncturist, medical or osteopathic physician, or chiropractor, who holds a clear and active license without restrictions as additional persons who may act as a DEM.

The bill amends s. 480.035, F.S., to change the BMT quorum requirements from four members to a majority of members.

SB 896 amends s. 480.043, F.S., to authorize the DOH and law enforcement to investigate for the following new prohibited acts to assist in identifying persons who may be engaging in human trafficking at massage establishments:

- Sexual activity in a massage establishment;
- Used or unused condoms in a massage establishment;
- Failure of the outside windows in the massage establishment’s reception area to allow for at least 35 percent light penetration or more than 50 percent of the outside windows obstructed by signage, blinds, curtains, or other obstructions;
- Failure to post a sign on the front window of the establishment that includes the name and license number of the massage establishment and the telephone number that has been provided to the DOH as part of the licensure application, with an exception for a massage establishment:
  o Within a public lodging establishment; or
  o Located within a county or municipality that has an ordinance that prescribes requirements related to business window light penetration or signage limitations if compliance would result in noncompliance with such ordinance;
- Failure of all employees at the massage establishment being fully clothed and the clothing being fully opaque and made of nontransparent material that does not expose the employee’s genitalia, with an exception for employees of a public lodging establishment which is licensed as a clothing-optional establishment and chartered with the American Association for Nude Recreation;
- A massage establishment’s failure to maintain a complete set of legible employee employment records in English or Spanish, which must include employees’:
  o Start date;
  o Full legal name;
  o Date of birth;
  o Home address;
  o Telephone number;
  o Employment position; and
  o A copy of the employee’s government identification.
- A massage establishment’s failure to conspicuously display a two-inch by two-inch photo for each employee, which, for massage therapists, must be attached to the massage therapist’s license and include the employee’s full legal name and employment position. A massage establishment within a public lodging establishment may satisfy this requirement by displaying the photos and required information in an employee break room or other room that is used by employees, but is not used by clients or patients;
• A massage establishment’s failure to maintain a complete set of legible patient or client medical records in English or Spanish which must be maintained for one year after the last date of service or treatment, and include:
  o The date and time of the service or treatment;
  o The type of service or treatment provided;
  o The full legal name of the employee who provided the service or treatment; and
  o The full legal name, home address, and telephone number of the client or patient.
• An establishment’s failure to confirm the identification of a client or patient before any service or treatment is provided.

Except for the requirement that a massage establishment implement a procedure for reporting suspected human trafficking to the National Human Trafficking Hotline or to a local law enforcement agency and post in a conspicuous place in the establishment, s. 480.043, F.S., acupuncturists, physician licensed ch. 458 or 459, F.S., and chiropractors who employ a massage therapist to perform massage therapy on their patients at their practice are exempt from requirements of s. 480.043, F.S.

The bill amends s. 823.05, F.S., to declare that a massage establishment found to have permitted sexual activity on the premises, or to have failed to maintain a complete set of client or patient medical records, in violation of s. 480.14(a) or (f), F.S., is a nuisance and law enforcement may abate and enjoin the establishment under ss. 60.05 and 60.06, F.S.

SB 896 amends s. 480.0465, F.S., to require that any advertisements by massage therapist or massage establishment must include the physical address of the establishment that was provided to the DOH. Massage establishments with more than five locations are exempt from this requirement. Massage therapists, massage establishments, and employees of massage establishments are prohibited under the bill from advertising in any medium or website that expressly or implicitly advertises prostitution, escort, or other sexual services. The bill deletes the statutory clause allowing new massage establishments with pending licenses to advertise using the license number of a massage therapist.

SB 896 amends s. 480.0475, F.S., to prohibit the use of a massage establishment, unless zoned residential under a local ordinance, by any person as:
• A principle or temporary domicile;
• A shelter or a harbor; or
• Sleeping or napping quarters.

The bill amends s. 480.0535, F.S., to require DOH investigators to request demonstration of a valid government identification from all employees, in addition to massage therapists, in a massage establishment at the time of inspection. If an employee is unable to provide a valid form of government identification, the bill requires the DOH to notify a federal immigration office.

SB 896 expands the DOH’s reporting requirements under 456.026, F.S., regarding massage therapists and establishments. Current law requires the DOH to report the number of complaints, investigations, and disciplinary actions taken for all the DOH regulated professions, but the basis of the cause of action is not required to be reported. SB 896 requires the DOH to separately
categorize complaints, investigations, and disciplinary actions against massage therapists and establishments where the following specific statutory violations are being alleged:
- No DSM;
- No procedure for reporting suspected human trafficking to the hotline or to a local law enforcement agency;
- Sexual activity in a massage establishment;
- Window violation;
- Clothing violation;
- Employment records violation;
- License display violation; and
- Medical records violation.
- Advertising violation;
- Domicile, shelter, harbor, sleeping or napping violation;
- Sexual misconduct violation; and
- Document violation.

The bill provides an effective date of July 1, 2024.

IV. Constitutional Issues:
A. Municipality/County Mandates Restrictions:
   None.
B. Public Records/Open Meetings Issues:
   None.
C. Trust Funds Restrictions:
   None.
D. State Tax or Fee Increases:
   None.
E. Other Constitutional Issues:
   None.

V. Fiscal Impact Statement:
A. Tax/Fee Issues:
   None.
B. Private Sector Impact:

None.

C. Government Sector Impact:

The DOH advises that it will experience a significant increase in workload associated with additional complaints, investigations, and prosecution cases under the bill. The licensure pool for massage therapists and establishments is not expected to increase, yet the increase in workload cannot be absorbed with current resources and is anticipated to be substantial due to the provisions of this bill, according to the DOH.63

Based on Fiscal Year 2022-2023 data, the DOH believes it will require:64

- 46 full-time equivalent positions (FTE) for investigation;
- 23 FTE for legally sufficient cases; and
- 41 FTE for unlicensed activity investigations related to massage therapists and establishments.

The DOH estimates that the bill will result in an additional 1,869 complaints, 500 cases, and 48 unlicensed activity investigations per year. In addition, the bill requires mandatory ESOs for massage therapy and massage establishment licenses in violation of numerous statutes, which the DOH indicates will increase Prosecution Services Unit workloads and will require eight other FTE positions.

The DOH expects the bill to create a non-recurring increase in workload associated with updating the Licensing and Enforcement Information Database System (LEIDS), Iron Data Mobile (IDM) inspection software, Online Service Portal (Versa Online), artificial intelligence virtual agent (ELI) for voice and web, License Verification Search Site, board order tracking and monitoring systems, board websites, and data exchange services. Updates to fully integrate the bill are estimated to take three months. This reflects a minimum of 464 of initial non-recurring contracted hours at a rate of $120/hr. for a total cost of $55,680 ($120/hr. x 464) and annual recurring system maintenance costs of $5,100. Total estimated increase in workload and cost is $60,780 in Contracted Services.65

The DOH’s total estimated annual cost is $1,034,032 in the following categories:66

- Salary - $846,102/Recurring
- Expense - $71,000/Recurring + $53,272/Non-Recurring
- Human Resources - $2,878/Recurring
- Contracted Services - $5,100/Recurring $55,680/Non-Recurring

A bill to be entitled
An act relating to health care practitioners and massage therapy; amending s. 456.026, F.S.; requiring that a certain annual report required of the Department of Health include specified data; amending s. 456.074, F.S.; requiring the department to immediately suspend the license of massage therapists and massage establishments under certain circumstances; requiring the department to suspend the license of any person or entity under its jurisdiction under certain circumstances; amending s. 480.033, F.S.; revising and providing definitions; amending s. 480.035, F.S.; revising quorum requirements for the Board of Massage Therapy; amending s. 480.043, F.S.; revising certain rules the board is required to adopt; prohibiting sexual activity and certain related activities in massage establishments; specifying prohibited conduct by establishment owners and employees; providing requirements for outside windows and signs in massage establishments; providing exceptions; providing employee dress code requirements, with an exception; requiring establishments to maintain certain employment records in English or Spanish; requiring that specified information be recorded before an employee may provide services or treatment; requiring massage establishments to conspicuously display a photo and specified information for each employee; requiring that such photos and information be displayed before
an employee may provide services or treatment; providing for such requirements in massage establishments within public lodging establishments; requiring massage establishments to maintain customer and patient records for services and treatment provided in the massage establishment in English or Spanish; providing that medical records satisfy certain requirements; requiring massage establishments to maintain such records for a specified timeframe; requiring massage establishments to collect and record specified information; requiring massage establishments to confirm the identification of a customer or patient before providing services or treatment; amending s. 480.0465, F.S.; revising advertising requirements and prohibitions for massage therapists and massage establishments; amending s. 480.0475, F.S.; prohibiting establishments from being used as a temporary domicile for, to shelter or harbor, or as sleeping quarters for any person, with an exception; amending s. 480.0535, F.S.; requiring the department’s investigators to request valid government identification from all employees while in a massage establishment; specifying additional documents a person operating a massage establishment must immediately present, upon request, to department investigators and law enforcement officers; requiring the department to notify a federal immigration office if specified persons in a massage establishment fail to provide valid government identification; amending
s. 823.05, F.S.; providing criminal penalties; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 456.026, Florida Statutes, is amended to read:

456.026 Annual report concerning finances, administrative complaints, disciplinary actions, and recommendations.—

(1) The department is directed to prepare and submit a report to the President of the Senate and the Speaker of the House of Representatives by November 1 of each year. In addition to finances and any other information the Legislature may require, the report must include statistics and relevant information, profession by profession, detailing:

(a) The revenues, expenditures, and cash balances for the prior year, and a review of the adequacy of existing fees.
(b) The number of complaints received and investigated.
(c) The number of findings of probable cause made.
(d) The number of findings of no probable cause made.
(e) The number of administrative complaints filed.
(f) The disposition of all administrative complaints.
(g) A description of disciplinary actions taken.
(h) A description of any effort by the department to reduce or otherwise close any investigation or disciplinary proceeding not before the Division of Administrative Hearings under chapter 120 or otherwise not completed within 1 year after the initial filing of a complaint under this chapter.
(i) The status of the development and implementation of
rules providing for disciplinary guidelines pursuant to s. 456.079.

(j) Such recommendations for administrative and statutory changes necessary to facilitate efficient and cost-effective operation of the department and the various boards.

(2) The report must separately categorize all complaints, investigations, probable cause findings, and disciplinary actions against a massage therapist or massage establishment licensed under chapter 480 related to a violation of each of the following:

(a) Section 480.043(12).
(b) Section 480.043(13).
(c) Section 480.043(14)(a)-(f).
(d) Section 480.0465.
(e) Section 480.0475.
(f) Section 480.0485.
(g) Section 480.0535.

Section 2. Subsection (4) of section 456.074, Florida Statutes, is amended, and subsection (7) is added to that section, to read:

456.074 Certain health care practitioners; immediate suspension of license.—

(4) The department shall issue an emergency order suspending the license of a massage therapist and establishment as those terms are defined in s. 480.033 chapter 480 upon receipt of information that the massage therapist; the designated establishment manager as defined in s. 480.033; an employee of the establishment; or a person with an ownership interest in the establishment; or, for a corporation that has
more than $250,000 of business assets in this state, the owner, officer, or individual directly involved in the management of the establishment has been arrested for committing or attempting, soliciting, or conspiring to commit, has been convicted or found guilty of, or has entered a plea of guilty or nolo contendere to, regardless of adjudication, a violation of s. 796.07(2)(a) which is reclassified under s. 796.07(7) or a felony offense under any of the following provisions of state law or a similar provision in another jurisdiction:

(a) Section 787.01, relating to kidnapping.
(b) Section 787.02, relating to false imprisonment.
(c) Section 787.025, relating to luring or enticing a child.
(d) Section 787.06, relating to human trafficking.
(e) Section 787.07, relating to human smuggling.
(f) Section 794.011, relating to sexual battery.
(g) Section 794.08, relating to female genital mutilation.
(h) Former s. 796.03, relating to procuring a person under the age of 18 for prostitution.
(i) Former s. 796.035, relating to the selling or buying of minors into prostitution.
(j) Section 796.04, relating to forcing, compelling, or coercing another to become a prostitute.
(k) Section 796.05, relating to deriving support from the proceeds of prostitution.

(l) Section 796.07(4)(a)3., relating to a felony of the third degree for a third or subsequent violation of s. 796.07, relating to prohibiting prostitution and related acts.
(m) Section 800.04, relating to lewd or lascivious offenses committed upon or in the presence of persons less than 16 years of age.

(n) Section 825.1025(2)(b), relating to lewd or lascivious offenses committed upon or in the presence of an elderly or disabled person.

(o) Section 827.071, relating to sexual performance by a child.

(p) Section 847.0133, relating to the protection of minors.

(q) Section 847.0135, relating to computer pornography.

(r) Section 847.0138, relating to the transmission of material harmful to minors to a minor by electronic device or equipment.

(s) Section 847.0145, relating to the selling or buying of minors.

(7) The department shall issue an emergency order suspending the license of any licensee upon a finding of the State Surgeon General that probable cause exists to believe that the licensee has committed sexual misconduct as described and prohibited in s. 456.063(1), or the applicable practice act, and that such violation constitutes an immediate danger to the public.

Section 3. Present subsections (1) through (6) and (7) through (12) of section 480.033, Florida Statutes, are redesignated as subsections (2) through (7) and (9) through (14), respectively, new subsections (1) and (8) and subsection (15) are added to that section, and present subsection (6) of that section is amended, to read:

480.033 Definitions.—As used in this act:
“Advertising medium” means any newspaper; airwave or computer transmission; telephone directory listing, other than an in-column listing consisting only of a name, physical address, and telephone number; business card; handbill; flyer; sign, other than a building directory listing all building tenants and their room or suite numbers; or any other form of written or electronic advertisement.

“Designated establishment manager” means a massage therapist; a health care practitioner licensed under chapter 457; or a physician licensed under chapter 458, chapter 459, or chapter 460 who holds a clear and active license without restriction, who is responsible for the operation of a massage establishment in accordance with the provisions of this chapter, and who is designated the manager by the rules or practices at the establishment.

“Employee” means any person, including, but not limited to, independent contractors or lessees of a massage establishment, whose duties involve any aspect or capacity of the massage establishment, including, but not limited to, preparing meals and cleaning, regardless of whether such person is compensated for the performance of such duties. The term does not include a person who is exclusively engaged in the repair or maintenance of the massage establishment or in the delivery of goods to the establishment.

“Sexual activity” means any direct or indirect contact by any employee or person, or between any employees or persons, with the intent to abuse, humiliate, harass, degrade, or arouse, or gratify the sexual desire of, any employee or person, or which is likely to cause such abuse, humiliation, harassment,
degradation, arousal, or sexual gratification:

(a) With or without the consent of the employee or person.

(b) With or without verbal or nonverbal communication that
the sexual activity is undesired.

(c) With or without the use of any device or object.

(d) With or without the occurrence of penetration, orgasm,
or ejaculation.

The term includes, but is not limited to, intentional contact
with the genitalia, groin, femoral triangle, anus, buttocks,
gluteal cleft, breast or nipples, mouth, or tongue and the
intentional removal of any drape without specific written
informed consent of the patient.

Section 4. Subsection (5) of section 480.035, Florida
Statutes, is amended to read:

480.035 Board of Massage Therapy.—

(5) The board shall hold such meetings during the year as
it may determine to be necessary, one of which shall be the
annual meeting. The chair of the board shall have the authority
to call other meetings at her or his discretion. A quorum of the
board shall consist of not less than a majority of the current
membership of the board four members.

Section 5. Present subsection (14) of section 480.043,
Florida Statutes, is redesignated as subsection (15), a new
subsection (14) is added to that section, and subsection (3) and
present subsection (14) of that section are amended, to read:

480.043 Massage establishments; requisites; licensure;
inspection; human trafficking awareness training and policies.—

(3) The board shall adopt rules governing the operation of
massage establishments and their facilities, employees personnel, safety and sanitary requirements, financial responsibility, insurance coverage, and the license application and granting process.

(14) In order to provide the department and law enforcement agencies the means to more effectively identify persons engaging in human trafficking at massage establishments, the following apply:

(a) Sexual activity in a massage establishment is prohibited. An establishment owner or employee may not engage in or allow any person to engage in sexual activity in the establishment or use the establishment to make arrangements to engage in sexual activity in another location. Used or unused condoms are prohibited in a massage establishment.

(b) If there is an outside window or windows into the massage establishment’s reception area, the outside window or windows must allow for at least 35 percent light penetration, and no more than 50 percent of the outside window or windows may be obstructed with signage, blinds, curtains, or other obstructions, allowing the public to see the establishment’s reception area. A sign must be posted on the front window of the establishment that includes the name and license number of the massage establishment and the telephone number that has been provided to the department as part of licensure of the establishment. This paragraph does not apply to:

1. A massage establishment within a public lodging establishment as defined in s. 509.013(4).

2. A massage establishment located within a county or municipality that has an ordinance that prescribes requirements
related to business window light penetration or signage limitations if compliance with this paragraph would result in noncompliance with such ordinance.

(c) All employees within the massage establishment must be fully clothed, and such clothing must be fully opaque and made of nontransparent material that does not expose the employee’s genitalia. This requirement does not apply to an employee, excluding a massage therapist, of a public lodging establishment as defined in s. 509.013(4) which is licensed as a clothing-optional establishment and chartered with the American Association for Nude Recreation.

(d) A massage establishment must maintain a complete set of legible records in English or Spanish, which must include each employee’s start date of employment, full legal name, date of birth, home address, telephone number, and employment position and a copy of the employee’s government identification required under s. 480.0535. All information required under this paragraph must be recorded before the employee may provide any service or treatment to a client or patient.

(e) A massage establishment must conspicuously display a 2 inch by 2 inch photo for each employee, which, for massage therapists, must be attached to the massage therapist’s license. Such display must also include the employee’s full legal name and employment position. All information required under this paragraph must be displayed before the employee may provide any service or treatment to a client or patient. A massage establishment within a public lodging establishment as defined in s. 509.013(4) may satisfy this requirement by displaying the photos and required information in an employee break room or
other room that is used by employees, but is not used by clients or patients.

(f) A massage establishment must maintain a complete set of legible records in English or Spanish which must include the date, time, and type of service or treatment provided; the full legal name of the employee who provided the service or treatment; and the full legal name, home address, and telephone number of the client or patient. Medical records may satisfy this requirement if the records include the specified information. A copy of the client’s or patient’s photo identification may be used to provide the full legal name and home address of the client or patient. Records required under this paragraph must be maintained for at least 1 year after a service or treatment is provided. All information required under this paragraph must be collected and recorded before any service or treatment is provided to a client or patient. The establishment must confirm the identification of the client or patient before any service or treatment is provided to the client or patient.

(15) Except for the requirements of subsection (13), this section does not apply to a practitioner physician licensed under chapter 457 or a physician licensed under chapter 458, chapter 459, or chapter 460 who employs a licensed massage therapist to perform massage therapy on the practitioner’s or physician’s patients at his or her the physician’s place of practice. This subsection does not restrict investigations by the department for violations of chapter 456 or this chapter. Section 6. Section 480.0465, Florida Statutes, is amended to read:
480.0465 Advertisement; prohibitions.—

(1) Each massage therapist or massage establishment licensed under this act shall include the number of the license in any advertisement of massage therapy services appearing in any advertising medium, including, but not limited to, a newspaper, airwave transmission, telephone directory, Internet, or other advertising medium. The advertisement must also include the physical address of the massage establishment and the telephone number that has been provided to the department as part of the licensing of the establishment. However, the inclusion of the physical address and telephone number is not required for an advertisement by a massage establishment whose establishment owner operates more than five locations in this state.

(2) A massage therapist, an establishment owner, an employee, or any third party directed by the establishment owner or employee may not place, publish, or distribute, or cause to be placed, published, or distributed, any advertisement in any advertising medium which states prostitution services, escort services, or sexual services are available.

(3) A massage therapist, an establishment owner, an employee, or any third party directed by the massage therapist, establishment owner, or employee may not place, publish, or distribute, or cause to be placed, published, or distributed, any online advertisement on any website known for advertising prostitution services, escort services, or sexual services

Pending licensure of a new massage establishment under s. 480.043(7), the license number of a licensed massage therapist who is an owner or principal officer of the establishment may be

CODING: Words stricken are deletions; words underlined are additions.
used in lieu of the license number for the establishment.

Section 7. Subsection (2) of section 480.0475, Florida Statutes, is amended to read:

480.0475 Massage establishments; prohibited practices.—
(2) A person operating a massage establishment may not use or permit the establishment to be used as a principal or temporary domicile for, to shelter or harbor, or as sleeping or napping quarters for any person unless the establishment is zoned for residential use under a local ordinance.

Section 8. Section 480.0535, Florida Statutes, is amended to read:

480.0535 Documents required while working in a massage establishment; penalties; reporting.—
(1) In order to provide the department and law enforcement agencies the means to more effectively identify, investigate, and arrest persons engaging in human trafficking, an employee employed by a massage establishment and any person performing massage therapy in a massage establishment therein must immediately present, upon the request of an investigator of the department or a law enforcement officer, valid government identification while in the establishment. An investigator of the department must request valid government identification from all employees while in the establishment. A valid government identification for the purposes of this section is:
(a) A valid, unexpired driver license issued by any state, territory, or district of the United States;
(b) A valid, unexpired identification card issued by any state, territory, or district of the United States;
(c) A valid, unexpired United States passport;
(d) A naturalization certificate issued by the United States Department of Homeland Security;
(e) A valid, unexpired alien registration receipt card (green card); or

(2) A person operating a massage establishment must:
    (a) Immediately present, upon the request of an investigator of the department or a law enforcement officer:
        1. Valid government identification while in the establishment.
        2. A copy of the documentation specified in paragraph (1)(a) for each employee and any person performing massage therapy in the establishment.
        3. A copy of the documents required under s. 480.043(14)(d) and (f).
    (b) Ensure that each employee and any person performing massage therapy in the massage establishment is able to immediately present, upon the request of an investigator of the department or a law enforcement officer, valid government identification while in the establishment.

(3) A person who violates any provision of this section commits:
    (a) For a first violation, a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.
    (b) For a second violation, a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.
    (c) For a third or subsequent violation, a felony of the third degree, punishable as provided in s. 775.082, s. 775.083,
or s. 775.084.

(4) The department shall notify a federal immigration office if a person operating a massage establishment, an employee, or any person performing massage therapy in a massage establishment fails to provide valid government identification as required under this section.

Section 9. Subsection (3) of section 823.05, Florida Statutes, is amended to read:

823.05 Places and groups engaged in certain activities declared a nuisance; abatement and enjoinder.—

(3) A massage establishment as defined in s. 480.033 which operates in violation of s. 480.043(14)(a) or (f), s. 480.0475, or s. 480.0535(2) is declared a nuisance and may be abated or enjoined as provided in ss. 60.05 and 60.06.

Section 10. This act shall take effect July 1, 2024.
January 10, 2024

The Honorable Colleen Burton  
Committee on Health Policy, Chair  
530 Knott Building  
404 South Monroe Street  
Tallahassee, FL 32399

RE: SB 896: Health Care Practitioners and Massage Therapy

Dear Chair Burton:

Please allow this letter to serve as my respectful request to place SB 896, relating to Health Care Practitioners and Massage Therapy, on the next committee agenda.

Your kind consideration of this request is greatly appreciated. Please feel free to contact my office for any additional information.

Sincerely,

Jonathan Martin  
Senate District 33

Cc: Allen Brown, Staff Director  
Daniel Looke, Deputy Staff Director  
Anhar Al-Asadi, Committee Administrative Assistant
I. **Summary:**

SB 830 creates s. 381.796, F.S., requiring that any unpaid or volunteer athletics personnel of an entity that administers or conducts a high-risk youth athletic activity, or training for such activity, on land owned, leased, operated, or maintained by the state or a political subdivision of the state, must complete a physical injury prevention course approved by the Department of Health (DOH).

The bill defines the terms “athletics personnel” and “high-risk youth athletic activity,” sets timeframes for which the course must be completed, allows unpaid or volunteer athletics personnel to take the course online or in-person without being charged a fee, specifies information that must be included in the course, and requires that the entity maintain records of course completion for the entirety of an individual’s service as unpaid or volunteer athletics personnel.

The bill provides that an athletic trainer licensed under ch. 468, F.S., is exempt from this course requirement. The DOH is required to adopt rules necessary to implement this section.

The bill amends the Education Code requirement in s. 1012.55, F.S., to require that an athletic coach in any public school in the state must hold and maintain a certification in cardiopulmonary resuscitation (CPR), first aid, and the use of an automatic external defibrillator (AED). The certificate must be consistent with national, evidence-based emergency cardiovascular care guidelines to be employed and render services.

The bill provides an effective date of July 1, 2024.
II. Present Situation:  

Health Benefits of Organized Sports

Organized sports are activities run by a school or community that result in higher levels of activity when compared to children involved in self-organized play. Typically, organized sports meet multiple times per week and are led by a coach and other athletics personnel. The advantage of a coach is that he or she often provides high-intensity training without causing injury. Therefore, involvement in an organized sport may increase the hours per week children exercise, the intensity of the activity, and a child’s future commitment and propensity to remain fit and healthy.¹

Regular physical activity trains the cardiovascular system (CVS) to deliver oxygen to cells more efficiently. Children involved in consistent activity, such as organized sports, perform better on CVS tests, and researchers have found a positive correlation to improved academic performance, social and emotional wellbeing, as well as healthier adulthoods with increased lifespans.²

Research has also shown that physical activity leads to denser, stronger bones, and provides many mental health benefits, such as improved self-esteem, social acceptance, and exercise self-efficacy. As a result, participation in organized sports can help build perseverance and self-image, provide a social support network, and teach instrumental coping strategies.³

Cardiopulmonary Resuscitation, First Aid, and Automatic External Defibrillation

Many types of injuries and illnesses can occur when participating in organized sports, including sudden cardiac arrest. While rare in young, healthy athletes, it can happen, and preparation via an emergency action plan, as well as required coursework and training is pivotal in preparing coaches, parents and other athletics personnel or staff to respond in the most effective way to save lives.⁴

Cardiopulmonary resuscitation (CPR) is an emergency lifesaving procedure performed when the heart stops beating. Immediate CPR can double or triple chances of survival after cardiac arrest by keeping the blood flow active until the arrival of trained medical staff.⁵

First aid refers to medical attention that is usually administered immediately on-site after the injury occurs. It often consists of a one-time, short-term treatment and requires little technology or training to administer. First aid can include cleaning minor cuts, scrapes, or scratches; treating

a minor burn; applying bandages and dressings; the use of non-prescription medicine; draining blisters; removing debris from the eyes; massage; and drinking fluids to relieve heat stress.\(^6\)

An automated external defibrillator (AED) is a lightweight, portable device. It delivers an electric shock through the chest to the heart when it detects an abnormal rhythm and changes the rhythm back to normal.\(^7\) AEDs can greatly increase a cardiac arrest victim’s chances of survival.\(^8\) Although formal AED training isn’t required, it’s recommended to increase the confidence level of the user, promoting better outcomes.\(^9\)

**Student Extracurricular Activities and Athletics Legislation**

Currently, the Education Code provides that each public school that is a member of the Florida High School Athletic Association (FHSAA) must have an operational AED on school grounds. The AED must be available in a clearly marked and publicized location for each athletic contest, practice, workout, or conditioning session, including those conducted outside of the school year. Public and private partnerships are encouraged to cover the cost associated with the purchase, placement, and training in the use of the AED.\(^10\)

Under current law, an FHSAA member school employee or volunteer with current training in CPR and use of an AED must be present at each athletic event during and outside of the school year, including athletic contests, practices, workouts, and conditioning sessions. The training must include completion of a course in CPR or a basic first aid course that includes CPR training, and demonstrated proficiency in the use of an AED. Each employee or volunteer who is reasonably expected to use an AED must complete this training.\(^11\)

The location of each AED must be registered with a local emergency medical services medical director. Each employee or volunteer required to complete the training must annually be notified in writing of the location of each AED on school grounds.\(^12\) Immunity from civil liability for the use of AEDs by employees and volunteers is covered under the Good Samaritan Act\(^13\) and the Cardiac Arrest Survival Act.\(^14,15\)

In order to better protect student athletes participating in athletics during hot weather and avoid preventable injury or death, the state of Florida requires that the FHSAA:\(^16\)

- Make training and resources available to each member school for the effective monitoring of heat stress.

---

\(^8\) Supra note 5.

\(^9\) Supra note 7.

\(^10\) Section 1006.165(1)(a), F.S.

\(^11\) Section 1006.165(1)(b), F.S.

\(^12\) Section 1006.165(c), F.S.

\(^13\) Section 768.13, F.S.

\(^14\) Section 768.1325, F.S.

\(^15\) Section 1006.165(d), F.S.

\(^16\) Section 1006.165(2)(a), F.S.
• Establish guidelines for monitoring heat stress and identify heat stress levels at which a school must make a cooling zone available for each outdoor athletic contest, practice, workout, or conditioning session. Heat stress must be determined by measuring the ambient temperature, humidity, wind speed, sun angle, and cloud cover at the site of the athletic activity.

• Require member schools to monitor heat stress and modify athletic activities, including suspending or moving activities, based on the heat stress guidelines.

• Establish hydration guidelines, including appropriate introduction of electrolytes after extended activities or when a student participates in multiple activities in a day.

• Establish requirements for cooling zones, including, at a minimum, the immediate availability of cold-water immersion tubs or equivalent means to rapidly cool internal body temperature when a student exhibits symptoms of exertional heat stroke and the presence of an employee or volunteer trained to implement cold-water immersion.

• Require each school’s emergency action plan, as required by the FHSAA, to include a procedure for onsite cooling using cold-water immersion or equivalent means before a student is transported to a hospital for exertional heat stroke.

The state also requires that each athletic coach and sponsor of extracurricular activities involving outdoor practices or events shall annually complete training in exertional heat stroke identification, prevention, and response, including effective administration of cooling zones. This requirement applies to all public K-12 schools, not just those that are members of the FHSAA.17

As required by law, the FHSAA has guidelines to educate athletic coaches, officials, administrators, and student athletes and their parents of the nature and risk of concussion and head injury.18

While current law does promote the safety and well-being of Florida students, the majority of the language is limited in scope as it is only applicable to children in a high school that is a member of the FHSAA, unless otherwise indicated.

Sports-Related Illness & Injuries

Traumatic Brain Injuries

According to the federal Centers for Disease Control and Prevention, there are an estimated 1.7 to 3.8 million traumatic brain injuries (TBIs) each year in the United States, of which 10 percent happen due to sports and recreational activities. Among American children and adolescents, sports and recreational activities contribute to over 21 percent of all TBIs.19

A TBI is defined as a form of acquired brain injury from a blow or jolt to the head or a penetrating head injury that disrupts the normal function of the brain. TBI can result when the

---

17 Section 1006.165(2)(b), F.S.
18 Section 1006.20(2)(j), F.S.
head suddenly and violently hits an object, or when an object pierces the skull and enters brain tissue. Symptoms of a TBI can be mild, moderate, or severe, depending on the extent of damage to the brain. Mild cases may result in a brief change in mental state or consciousness, while severe cases may result in extended periods of unconsciousness, coma, or death. Individuals with TBI may experience one or more of the following:

- Constant or recurring headache.
- Inability to control or coordinate motor functions, or disturbance with balance.
- Changes in ability to hear, taste or see; dizziness; and/or hypersensitivity to light or sound.
- Agitation; confusion; shortened attention span; easily distracted; overstimulated by environment; difficulty following directions or understanding information; feeling of disorientation and confusion; and other neuropsychological deficiencies.
- Difficulty finding the “right” word; difficulty expressing words or thoughts; and/or dysarthria or slurred speech.

A sports-related concussion is a TBI induced by biomechanical forces, such as high-risk youth athletic activities, which alters mental status. A concussion may result from shaking the brain within the skull and, if severe, can cause shearing injuries to nerve fibers and neurons. Several common features that may be utilized in clinically defining the nature of a concussive head injury include:

- Sports-related concussion may be caused either by a direct blow to the head, face, neck or elsewhere on the body with an “impulsive” force transmitted to the head.
- Sports-related concussion typically results in the rapid onset of short-lived impairment of neurological function that resolves spontaneously. However, in some cases, signs and symptoms evolve over a number of minutes to hours.
- Sports-related concussion may result in neuropathological changes, but the acute clinical symptoms largely reflect a functional disturbance rather than a structural injury and, as such, no abnormality is seen on standard structural neuroimaging studies.
- Sports-related concussion results in a range of clinical symptoms that may or may not involve loss of consciousness. Resolution of the clinical and cognitive symptoms typically follow a sequential course but can be prolonged.

According to U.S. Consumer Product Safety Commission data, there were an estimated 454,407 sports-related head injuries treated at U.S. hospital emergency rooms in 2018. The following

---

20 Id.
21 Id.
22 The actual incidence of head injuries may potentially be much higher for two primary reasons. In the 2018 report, the CPSC excluded estimates for product categories that yielded 1,200 injuries or less, those that had very small sample counts and those that were limited to a small geographic area of the country. Additionally, the system does not track many less severe head injuries treated at physicians’ offices, immediate care centers, or are self-treated. Sports/recreational activities, in addition to the equipment and apparel used in these activities are included in these statistics. For example, swimming-related injuries include the activity as well as diving boards, equipment, flotation devices, pools, and water slides. See American Association of Neurological Surgeons, Sports-related Head Injury, available at https://www.aans.org/en/Patients/Neurosurgical-Conditions-and-Treatments/Sports-related-Head-Injury#:~:text=Concussions%20frequently%20affect%20athletes%20in%20nerve%20fibers%20and%20neurons. (last visited Jan. 25, 2024).
sports or recreational activities represent the categories contributing to the highest number of estimated head injuries treated in U.S. hospital emergency rooms in 2018:

- Cycling: 64,411
- Football: 51,892
- Playground equipment: 38,915
- Basketball: 38,898
- Exercise and exercise equipment: 37,045
- Powered recreational vehicles: 30,222
- Soccer: 26,955
- Baseball and softball: 24,516
- Rugby, lacrosse, and other miscellaneous ball games: 10,901
- Skateboards: 10,573
- Trampolines: 8,956
- Hockey: 7,668
- Skating: 7,143
- Golf: 6,357
- Horseback riding: 6,141

The top 10 sports-related head injury categories among children ages 14 and younger are as follows:

- Playground equipment: 35,058
- Football: 31,277
- Basketball: 20,242
- Cycling: 19,921
- Soccer: 12,709
- Baseball and softball: 12,065
- Swimming: 9,265
- Trampolines: 7,921
- Powered recreational vehicles: 6,036
- Skateboards: 3,101

**Heat-Related Illness**

Heat-related illnesses are a real concern for young athletes who may be unaware of the signs or symptoms, to include:

- Heat exhaustion is the inability to continue exercise due to the heat. An athlete with heat exhaustion may present with pale skin, muscle cramps, weakness, dizziness, headache or nausea. It is important to get the athlete to a shaded area and place cool towels or bags of ice on their body. Cool water immersion is the quickest way to bring an athlete’s temperature down. Heat exhaustion that goes untreated can progress to heat stroke.

---

23 Id.
24 Id.
• Heat stroke is a central nervous system dysfunction caused by a core body temperature above 104 degrees Fahrenheit. It may present as a subtle behavioral change, such as an athlete being more combative or acting differently than usual, or symptoms can be severe, resulting in seizures, hallucinations, or collapse.

**Injuries Related to Cold Weather**

When the weather is cold, the body will do whatever it takes to ensure consistent core body temperature, limiting blood flow and allowing the limb muscles to lose the most heat. This internal regulation process makes the muscles in the legs and arms more prone to injury in cold weather. Since muscular contraction and nerve impulses require a string of complex chemical reactions that occur more slowly under cooler conditions, the muscles perform less efficiently in the cold. Less efficient muscles and a slower reaction time can lead to higher rates of injury in the cold, especially during high-risk youth athletic activities.26

Without their usual quickness or elasticity, the muscles, tendons, and ligaments are at a higher risk for strains, pulls, tears and other types of injury, which cause conditions that could lead to pinched nerves. Cold weather may also exacerbate existing injuries by causing an already bothersome muscle or tendon to tense up or tighten. Athletes easily overexert themselves in colder conditions, and exhaustion results in muscle fatigue, which makes the body more vulnerable to joint injuries and muscle strains. Shivering tends to be the earliest sign of potentially dangerous cold exposure.27

**Sports-Related Injury Prevention**

Over the past decade, there have been a growing number of youths participating in organized sports, both recreationally and competitively. Although this increase coincides with national health initiatives directed at improving general health and increasing physical activity, epidemiological data reflect a worrisome increase in youth sports-related injuries. In the U.S., sports-related injuries account for an estimated 2.6 million visits to the emergency room by children (aged 5-18 years) and young adults (aged 19-24 years). According to Fair and Champa, the estimated economic cost per year among high school athletes for injuries related to contact sports alone is between $5.4 and $19.2 billion.28

Currently, the application of exercise-based injury prevention programs may reduce injury rates by up to 46 percent in organized youth sports. This suggests an important need to prioritize sports injury prevention among youth athletes by promoting training or supplying information regarding appropriate conditioning, heat-related illness, injury prevalence due to extreme weather, head injury, first aid, CPR, and the use of an AED.29

27 Id.
29 Id.
Athletic Trainers

In the State of Florida, a licensed athletic trainer must meet the minimum requirements for safe practice established in chapter 468, part XIII, F.S., including the education requirements established by the Commission on Accreditation of Athletic Training Education or its successor organization and necessary credentials from the Board of Certification. Currently, the state requires that any person desiring to be licensed by the DOH as an athletic trainer must have current certification in both CPR and the use of an AED.\(^{30}\)

III. Effect of Proposed Changes:

Section 1 creates s. 381.796, F.S., to require that any unpaid or volunteer athletics personnel of an entity that administers or conducts a high-risk youth athletic activity, or training for such activity, on land owned, leased, operated, or maintained by the state or a political subdivision of the state, must complete a physical injury prevention course approved by the DOH, promoting safety for all Florida children under 14 years of age involved in these activities. The course must be completed within 30 days after the athletics personnel’s initial involvement with the high-risk youth athletic activity and must be completed annually thereafter.

The bill defines “athletics personnel” as an individual who is actively involved in organizing, conducting, or coaching a high-risk youth athletic activity or an individual involved with training a child for participation in a high-risk youth athletic activity.

The bill defines “high-risk youth athletic activity” to mean any organized sport for children 14 years of age or younger in which there is a significant possibility for the child to sustain a serious physical injury. The term includes, but is not limited to, the sports of football, basketball, baseball, volleyball, soccer, ice or field hockey, cheerleading, and lacrosse.

The bill provides that the course may be offered online or in-person, and athletics personnel may not be charged any fee relating to the course. The course must include information on all of the following:

- Emergency preparedness, planning, and rehearsal in relation to traumatic injuries.
- Concussions and head trauma.
- Injuries resulting from heat and extreme weather.
- Physical conditioning and the proper use of training equipment.

The bill requires that the specified entity maintain a record of each athletics personnel who completes the course for the entirety of his or her service as an unpaid or volunteer athletics personnel.

The bill exempts athletic trainers licensed under chapter 468, F.S., from this section, and requires the DOH to adopt any rules necessary to implement this section.

Section 2 amends s. 1012.55, F.S., to require that a Florida public school athletic coach must hold and maintain a certification in CPR, first aid, and the use of an AED. The certification must

\(^{30}\) Chapter 468, Part XIII, F.S.
be consistent with national, evidence-based emergency cardiovascular care guidelines for the coach to be employed and render services.

Section 3 provides an effective date of July 1, 2024.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:
   None.

B. Public Records/Open Meetings Issues:
   None.

C. Trust Funds Restrictions:
   None.

D. State Tax or Fee Increases:
   None.

E. Other Constitutional Issues:
   None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:
   None.

B. Private Sector Impact:
   Since unpaid or volunteer athletics personnel cannot be charged a fee under the bill for the newly required coursework, a private entity that administers or conducts high-risk activities covered under the bill may incur the related costs.

C. Government Sector Impact:
   Public entities that administer or conduct high-risk activities covered under the bill may incur the costs of providing the coursework, similar to private entities.

VI. Technical Deficiencies:

None.
VII. **Related Issues:**

The bill could operationally affect both the private and government sectors. It is possible that impacted entities could experience a loss of unpaid or volunteer athletics personnel who do not wish to complete the coursework required under the bill.

VIII. **Statutes Affected:**

This bill creates section 381.796 of the Florida Statutes.

This bill substantially amends section 1012.55 of the Florida Statutes.

IX. **Additional Information:**

A. **Committee Substitute – Statement of Changes:**
   (Summarizing differences between the Committee Substitute and the prior version of the bill.)

   None.

B. **Amendments:**

   None.

This Senate Bill Analysis does not reflect the intent or official position of the bill’s introducer or the Florida Senate.
The Committee on Health Policy (Collins) recommended the following:

**Senate Amendment (with title amendment)**

Delete lines 24 - 69.

And the title is amended as follows:

Delete lines 2 - 15 and insert:

An act relating to youth athletic activities; amending s. 1012.55, F.S.;
A bill to be entitled
An act relating to youth athletic activities; creating
s. 381.796, F.S.; defining terms; requiring an entity
that administers or conducts a high-risk youth
athletic activity or training related to such activity
on certain property to require certain unpaid or
volunteer personnel to complete a specified course;
requiring such personnel to complete the course within
a specified timeframe and annually thereafter;
providing that the course may be offered online or in
person; prohibiting personnel from being charged a fee
for the course; requiring the course to include
specified information; providing an exemption for
licensed athletic trainers; requiring the Department
of Health to adopt rules; amending s. 1012.55, F.S.;
revising the requirements for certain athletic coaches
to include certification in cardiopulmonary
resuscitation, first aid, and the use of an automatic
external defibrillator; providing requirements for
such certification; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 381.796, Florida Statutes, is created to
read:

381.796 High-risk youth athletic activities.—
(1) For the purposes of this section, the term:
(a) "Athletics personnel" means an individual who is
actively involved in organizing, conducting, or coaching a high-
risk youth athletic activity or an individual involved with training a child for participation in a high-risk youth athletic activity.

(b) “High-risk youth athletic activity” means any organized sport for children 14 years of age or younger in which there is a significant possibility for the child to sustain a serious physical injury. The term includes, but is not limited to, the sports of football, basketball, baseball, volleyball, soccer, ice or field hockey, cheerleading, and lacrosse.

(2) Any entity that administers or conducts a high-risk youth athletic activity, or training for such activity, on land owned, leased, operated, or maintained by the state or a political subdivision of the state must require any unpaid or volunteer athletics personnel to complete a course approved by the Department of Health which provides such personnel with information on how to prevent or decrease the chances of a participant in a high-risk youth athletic activity from sustaining a serious physical injury.

(a) The course must be completed within 30 days after the athletics personnel’s initial involvement with the high-risk youth athletic activity and must be completed annually thereafter.

(b) The course may be offered online or in person, and the athletics personnel may not be charged any fee relating to the course.

(c) The course must include information on all of the following:

1. Emergency preparedness, planning, and rehearsal in relation to traumatic injuries.
2. Concussions and head trauma.
3. Injuries resulting from heat or extreme weather.
4. Physical conditioning and the proper use of training equipment.
   (d) The entity must maintain a record of each athletics personnel who completes the course for the entirety of his or her service as an unpaid or volunteer athletics personnel.
   (3) An athletic trainer licensed under chapter 468 is exempt from this section.
   (4) The department shall adopt rules to implement this section.

Section 2. Paragraph (a) of subsection (2) of section 1012.55, Florida Statutes, is amended to read:

1012.55 Positions for which certificates required.—
   (2)(a)1. Each person who is employed and renders service as an athletic coach in any public school in any district of this state shall:
       a. Hold a valid temporary or professional certificate or an athletic coaching certificate. The athletic coaching certificate may be used for either part-time or full-time positions.
       b. Hold and maintain a certification in cardiopulmonary resuscitation, first aid, and the use of an automatic external defibrillator. The certification must be consistent with national evidence-based emergency cardiovascular care guidelines.
2. The provisions of this subsection do not apply to any athletic coach who voluntarily renders service and who is not employed by any public school district of this state.

Section 3. This act shall take effect July 1, 2024.
To: Senator Colleen Burton, Chair  
Committee on Health Policy  

Subject: Committee Agenda Request  

Date: January 10, 2024  

I respectfully request that Senate Bill #830, relating to Youth Athletic Activities, be placed on the:  

☐ committee agenda at your earliest possible convenience.  
☒ next committee agenda.  

Senator Jay Collins  
Florida Senate, District 14
I. Summary:

SB 1112 creates s. 456.0651, F.S., to provide regulations for the use of health care practitioner titles and designations. The bill defines “advertisement,” “educational degree,” “misleading, deceptive, or fraudulent representation,” and “profession.”

The bill provides that if someone other than an allopathic or osteopathic physician attaches to his or her name any of the titles or designations listed in the bill, in an advertisement or in a manner that is misleading, deceptive, or fraudulent, the person is practicing medicine or osteopathic medicine without a license and is subject to the provisions of s. 456.065, F.S., relating to the unlicensed practice of a health care profession. The bill provides exceptions for certain professions and certain titles and provides that practitioners may use titles and specialty designations authorized under their respective practice acts.

The bill amends s. 456.072(1)(t), F.S., to provide that a practitioner’s failure to wear a name tag, which must include his or her name and profession, when treating or consulting with a patient, is grounds for discipline unless he or she is providing services in his or her own office where the practitioner’s license is prominently displayed in a conspicuous area. If the practitioner chooses not to wear a name tag under those latter conditions, the practitioner must verbally identify himself or herself to all new patients by name and profession in a manner that does not constitute the unlicensed practice of medicine or osteopathic medicine.

The bill further amends s. 456.072(1)(t), F.S., to provide that any advertisement naming a practitioner must include the practitioner’s profession and educational degree and to require practitioner regulatory boards,1 or the Department of Health (DOH) if there is no board, to adopt rules to determine how practitioners must comply with this paragraph of statute.

---

1 Under s. 456.001(1), F.S., the term “board” is defined as any board, commission, or other statutorily created entity, to the extent such entity is authorized to exercise regulatory or rulemaking functions within DOH or, in some cases, within DOH’s Division of Medical Quality Assurance (MQA).
The bill provides an effective date of July 1, 2024.

II. Present Situation:

Licensure and Regulation of Health Care Practitioners

The Division of Medical Quality Assurance (MQA), within the DOH, has general regulatory authority over health care practitioners. The MQA works in conjunction with 22 regulatory boards and four councils to license and regulate 364 health care professions. Professions are generally regulated by individual practice acts and by ch. 456, F.S., which provides regulatory and licensure authority for the MQA. The MQA is statutorily responsible for the following boards and professions established within the division:

- The Board of Acupuncture, created under ch. 457, F.S.;
- The Board of Medicine, created under ch. 458, F.S.;
- The Board of Osteopathic Medicine, created under ch. 459, F.S.;
- The Board of Chiropractic Medicine, created under ch. 460, F.S.;
- The Board of Podiatric Medicine, created under ch. 461, F.S.;
- Naturopathy, as provided under ch. 462, F.S.;
- The Board of Optometry, created under ch. 463, F.S.;
- The Board of Nursing, created under part I of ch. 464, F.S.;
- Nursing assistants, as provided under part II of ch. 464, F.S.;
- The Board of Pharmacy, created under ch. 465, F.S.;
- The Board of Dentistry, created under ch. 466, F.S.;
- Midwifery, as provided under ch. 467, F.S.;
- The Board of Speech-Language Pathology and Audiology, created under part I of ch. 468, F.S.;
- The Board of Nursing Home Administrators, created under part II of ch. 468, F.S.;
- The Board of Occupational Therapy, created under part III of ch. 468, F.S.;
- Respiratory therapy, as provided under part V of ch. 468, F.S.;
- Dietetics and nutrition practice, as provided under part X of ch. 468, F.S.;
- The Board of Athletic Training, created under part XIII of ch. 468, F.S.;
- The Board of Orthotists and Prosthetists, created under part XIV of ch. 468, F.S.;
- Electrolysis, as provided under ch. 478, F.S.;
- The Board of Massage Therapy, created under ch. 480, F.S.;
- The Board of Clinical Laboratory Personnel, created under part I of ch. 483, F.S.;
- Medical physicists, as provided under part II of ch. 483, F.S.;

---

3 Pursuant to s. 456.001(4), F.S., health care practitioners are defined to include acupuncturists, physicians, physician assistants, chiropractors, podiatrists, naturopaths, dentists, dental hygienists, optometrists, nurses, nursing assistants, pharmacists, midwives, speech language pathologists, nursing home administrators, occupational therapists, respiratory therapists, dieticians, athletic trainers, orthotists, prosthetists, electrologists, massage therapists, clinical laboratory personnel, medical physicists, genic counselors, dispensers of optical devices or hearing aids, physical therapists, psychologists, social workers, counselors, and psychotherapists, among others.

4 Section 456.001(4), F.S.
• Genetic Councilors as provided under part III of ch. 483, F.S.;
• The Board of Opticianry, created under part I of ch. 484, F.S.;
• The Board of Hearing Aid Specialists, created under part II of ch. 484, F.S.;
• The Board of Physical Therapy Practice, created under ch. 486, F.S.;
• The Board of Psychology, created under ch. 490, F.S.;
• School psychologists, as provided under ch. 490, F.S.;
• The Board of Clinical Social Work, Marriage and Family Therapy, and Mental Health Counseling, created under ch. 491, F.S.; and
• Emergency medical technicians and paramedics, as provided under part III of ch. 401, F.S.

The DOH and the practitioner boards have different roles in the regulatory system. Boards establish practice standards by rule, pursuant to statutory authority and directives. The DOH receives and investigates complaints about practitioners and prosecutes cases for disciplinary action against practitioners.

The DOH, on behalf of the professional boards, investigates complaints against practitioners. Once an investigation is complete, the DOH presents the investigatory findings to the boards. The DOH recommends a course of action to the appropriate board’s probable cause panel which may include:

- Issuing an Emergency Order;
- Having the file reviewed by an expert;
- Issuing a closing order; or
- Filing an administrative complaint.

The boards determine the course of action and any disciplinary action to take against a practitioner under the respective practice act. For professions for which there is no board, the DOH determines the action and discipline to take against a practitioner and issues the final orders. The DOH is responsible for ensuring that licensees comply with the terms and penalties imposed by the boards. If a case is appealed, DOH attorneys defend the final actions of the boards before the appropriate appellate court.

The DOH and board rules apply to all statutory grounds for discipline against a practitioner. Under current law, the DOH takes on the disciplinary functions of a board relating to violations of a practice act only for practitioner types that do not have a board. The DOH itself takes no final disciplinary action against practitioners for which there is a board.

---

7 Section 456.072(2), F.S.
8 Professions which do not have a board include naturopathy, nursing assistants, midwifery, respiratory therapy, dietetics and nutrition, electrolysis, medical physicists, genetic counselors, and school psychologists.
9 Supra, note 6.
10 Id.
The Unlicensed Activity Unit

The Unlicensed Activity (ULA) Unit protects Florida residents and visitors from the potentially serious and dangerous consequences of receiving medical and health care services from an unlicensed person. The ULA unit investigates and refers for prosecution all unlicensed health care activity complaints and allegations.

The ULA unit works in conjunction with law enforcement and the state attorney’s offices to prosecute individuals practicing without a license. In many instances, unlicensed activity is a felony level criminal offense. More importantly, receiving health care from unlicensed persons is dangerous and could result in further injury, disease or even death.\(^{11}\)

The Unlicensed Activity Investigation Process

The DOH assigns all ULA complaints a computer-generated complaint number for tracking purposes. If the allegations are determined to be legally sufficient, the matter will be forwarded to a ULA investigator whose office is geographically closest to the location where the alleged unlicensed activity is occurring. In cases where the person making the allegation has provided their identifying information, a ULA investigator will contact him or her to verify the allegations. The investigator may also ask for more detailed information concerning certain aspects of the complaint. He or she may also ask to meet with the complainant in person for a formal interview. All ULA investigators are empowered to take sworn statements.

After discussing the allegations with the complainant, the ULA investigator will pursue all appropriate investigative steps (gather documents, conduct surveillance, question witnesses, etc.) in order to make a determination concerning the likelihood that the offense(s) took place in the manner described by the complainant. In the event that a licensed health care provider is alleged to be somehow involved with the unlicensed activity, the ULA investigator will also coordinate his/her investigation with the Investigative Services Unit (ISU) regulatory investigator assigned to investigate the licensee.

If the complainant’s allegations can be substantiated, the ULA investigation will conclude with one or more of the following outcomes:

- The subject(s) will be issued a Cease and Desist Agreement.
- The subject(s) will be issued a Uniform Unlicensed Activity Citation (fine).
- The subject(s) will be arrested by law enforcement.

If the investigation determines that the alleged acts either did not take place or if they did occur but all actions were lawful and proper, the investigation will be closed as unfounded. In the event that the allegation(s) cannot be clearly proved or disproved, the matter will be closed as unsubstantiated. In any case, a detailed investigative report will be prepared by the ULA investigator supporting the conclusions reached by the investigation.

Under s. 456.065, F.S., investigations involving the unlicensed practice of a health care profession are criminal investigations that require the development of sufficient evidence (probable cause) to present to law enforcement or file charges with the State Attorney’s Office in the county of occurrence. While ULA investigators are non-sworn, many have law enforcement experience gained from prior careers as police officers and detectives. ULA investigators work cooperatively with many law enforcement agencies in joint investigations that are either initiated by the DOH or the agency concerned.\(^{12}\)

**Health Care Specialties and Florida Licensure**

The DOH does not license health care practitioners by specialty or subspecialty. A health care practitioner’s specialty area of practice is acquired through the practitioner’s additional education, training, or experience in a particular area of health care practice. Practitioners who have acquired additional education, training, or experience in a particular area may also elect to become board-certified in that specialty by private, national specialty boards, such as the American Board of Medical Specialties (ABMS), the Accreditation Board for Specialty Nursing Certification, and the American Board of Dental Specialties.\(^{13}\) Board certification is not required to practice a medical or osteopathic specialty.

**Title Prohibitions Under Current Florida Law**

Current law limits which health care practitioners may hold themselves out as board-certified specialists. An allopathic physician may not hold himself or herself out as a board-certified specialist unless he or she has received formal recognition as a specialist from a specialty board of the ABMS or other recognizing agency\(^{14}\) approved by the Board of Medicine.\(^{15}\) Similarly, an osteopathic physician may not hold himself or herself out as a board-certified specialist unless he or she has successfully completed the requirements for certification by the American Osteopathic Association (AOA) or the Accreditation Council on Graduate Medical Education (ACGME) and is certified as a specialist by a certifying agency\(^{16}\) approved by the board.\(^{17}\) In addition, an allopathic physician may not hold himself or herself out as a board-certified specialist in dermatology unless the recognizing agency, whether authorized in statute or by rule, is triennially reviewed and reauthorized by the Board of Medicine.\(^{18}\)

A podiatric physician also may not advertise that he or she is board certified unless the organization is approved by the Board of Podiatric Medicine (BPM) for the purposes of advertising only and the name of the organization is identified in full in the advertisement. In

\(^{13}\) Examples of specialties include dermatology, emergency medicine, ophthalmology, pediatric medicine, certified registered nurse anesthetist, clinical nurse specialist, cardiac nurse, nurse practitioner, endodontics, orthodontics, and pediatric dentistry.

\(^{14}\) The Board of Medicine has approved the specialty boards of the ABMS as recognizing agencies. See Fla. Admin. Code R. 64B8-11.001(1)(f),(2022).

\(^{15}\) Section 458.3312, F.S.

\(^{16}\) The osteopathic board has approved the specialty boards of the ABMS and AOA as recognizing agencies. Fla. Admin. Code R. 64B15-14.001(h),(2022).

\(^{17}\) Section 459.0152, F.S.

\(^{18}\) *Id.*
order for an organization to obtain the BPM approval it must be the American Podiatric Medical Association, the National Council of Competency Assurance, or an organization that must:

- Be composed of podiatric physicians interested in a special area of practice demonstrated through successful completion of examinations or case reports;
- Subscribe to a code of ethics;
- Have rules and procedures for maintaining a high level of professional conduct and discipline among its membership;
- Have an active membership of at least seventy-five (75);
- Sponsor annual meeting and courses in Board approved continuing education; and
- Be a national organization in scope and give a certification examination at least once a year before the podiatric physician can advertise possession of the certification.  

A dentist may not hold himself or herself out as a specialist, or advertise membership in or specialty recognition by an accrediting organization, unless the dentist has completed a specialty education program approved by the American Dental Association and the Commission on Dental Accreditation and the dentist is:

- Eligible for examination by a national specialty board recognized by the American Dental Association; or
- Is a diplomate of a national specialty board recognized by the American Dental Association.

If a dentist announces or advertises a specialty practice for which there is not an approved accrediting organization, the dentist must clearly state that the specialty is not recognized or that the accrediting organization has not been approved by the American Dental Association or the Florida Board of Dentistry.

The Board of Chiropractic Medicine (BCM) permits a chiropractor to advertise that he or she has attained diplomate status in a chiropractic specialty area recognized by the BCM. BCM specialties include those which are recognized by the Councils of the American Chiropractic Association, the International Chiropractic Association, the International Academy of Clinical Neurology, or the International Chiropractic Pediatric Association.

**Practitioner Discipline**

Section 456.072, F.S., authorizes a regulatory board, or the DOH if there is no board, to discipline a health care practitioner’s licensure for a number of offenses, including but not limited to:

- Making misleading, deceptive, or fraudulent representations in or related to the practice of the licensee’s profession; or
- Failing to identify through writing or orally to a patient the type of license under which the practitioner is practicing.

---

20 Section 466.0282, F.S. A dentist may also hold himself or herself out as a specialist if the dentist has continuously held himself or herself out as a specialist since December 31, 1964, in a specialty recognized by the American Dental Association.
21 Section 466.0282(3), F.S.
If a board or the DOH finds that a licensee committed a violation of a statute or rule, the board or the DOH may:\(^{23}\)
- Refuse to certify, or to certify with restrictions, an application for a license;
- Suspend or permanently revoke a license;
- Place a restriction on the licensee’s practice or license;
- Impose an administrative fine not to exceed $10,000 for each count or separate offense; if the violation is for fraud or making a false representation, a fine of $10,000 must be imposed for each count or separate offense;
- Issue a reprimand or letter of concern;
- Place the licensee on probation;
- Require a corrective action plan;
- Refund fees billed and collected from the patient or third party on behalf of the patient; or
- Require the licensee to undergo remedial education.

**State Versus Federal Practitioner Licensure**

The federal government does not license health care practitioners, nor does it regulate practitioner behavior in terms of scope of practice, standards of practice, or practitioner discipline. Instead, the federal government relies on state governments to fulfill those functions.

**Conditions of Participation in Federal Health Care Programs**

In addition to state licensure requirements, Medicare, Medicaid, and other government reimbursement programs\(^{24}\) rely on the power of the purse to manage practitioners and facilities in the provision of health care services to persons enrolled in such programs. These programs impose “conditions of participation” and “conditions of payment,” which essentially mandate compliance with specified standards. Certification under a federal health care program is a right to participate in government payment systems. It is distinct from licensure by a state government or accreditation by a nationally-recognized board.\(^{25}\)

**Examples of Federal Deference to State Regulatory Authority**

For example, under federal labor law found in 29 CFR s. 825.125, the definition of “health care provider” includes, in part, a doctor of medicine or osteopathy who is authorized to practice medicine or surgery *by the state in which the doctor practices*.

That section of federal law goes on to reference other practitioners, including podiatrists, dentists, clinical psychologists, optometrists, chiropractors, nurse practitioners, nurse midwives, clinical social workers, and physician assistants who are *authorized to practice in their state and performing within the scope of their practice as defined under state law*.

---

\(^{23}\) Section 456.072(2), F.S.

Another example is found in federal law creating a workers’ compensation program for longshoremen and harbor workers. Under that federal program, for the purpose of establishing who may be paid for providing services to persons enrolled in the program, the term “physician” includes doctors of medicine, surgeons, podiatrists, dentists, clinical psychologists, optometrists, chiropractors, and osteopathic practitioners within the scope of their practice as defined by state law.

This federal workers’ compensation program that reimburses health care providers as described above will also reimburse for treatment based on prayer or spiritual means alone if provided by an accredited practitioner of a church or religious denomination that is recognized by the federal government in certain ways.

**Federal Distinctions Between Physicians and Other Providers**

Other federal programs draw specific distinctions between “physicians” and non-physicians who are included in the “physician” payment provisions above. For example, federal Medicaid law requires that state Medicaid programs “must provide for payment of optometric services as physician services, whether furnished by an optometrist or a physician,” thereby differentiating between optometrists and physicians instead of classifying them jointly.

These federal laws do not license or regulate such practitioners the way state laws do. They also do not define practitioner credentials, titles, or scopes of practice outside the provisions of state law and regulations that provide for such designations.

**Florida Requirements for Billing Medicare Patients**

In 1992, the Legislature created s. 456.056, F.S., relating to how Florida-licensed practitioners may bill patients enrolled in Medicare. The sole purpose of this section of statute is to prohibit Florida-based practitioners who participate in Medicare from directly invoicing Medicare patients in excess of the amounts that patients owe, according to Medicare payment methodologies.

Section 456.056, F.S., provides that the term “physician” is defined in a manner consistent with federal law that governs Medicare billing. As the term is used in that section of the Florida Statutes, “physician” means:

- A physician licensed under ch. 458, F.S.,
- An osteopathic physician licensed under ch. 459, F.S.,
- A chiropractic physician licensed under ch. 460, F.S.,
- A podiatric physician licensed under ch. 461, F.S., or
- An optometrist licensed under ch. 463, F.S.

---

26 Supra note 25.  
27 See 20 CFR s. 702.404.  
28 See 20 CFR s. 702.401(b).  
29 See 42 CFR s. 441.30.  
30 See s. 456.056(1)(a), F.S.
This definition of “physician,” which was written to apply only to Medicare billing issues, is comparable to Medicare’s definition of “physician services” found in 42 CFR Part 414, which is entitled “Payment for Part B Medical and Other Health Services.” This portion of Medicare law\(^{31}\) provides that, for payment purposes, “physician services” includes the following services, to the extent they are covered by Medicare: professional services of doctors of medicine and osteopathy, doctors of optometry, doctors of podiatry, doctors of dental surgery and dental medicine,\(^{32}\) and chiropractors.

Section 456.056, F.S., goes on to provide that any attempt by a Florida-licensed “physician,” as defined above, to collect from a Medicare beneficiary any amount of charges in excess of an unmet deductible or the 20 percent of charges that Medicare does not pay, is deemed null, void, and of no merit.\(^{33}\)

As such, the only purpose of s. 456.056, F.S., is to regulate the dollar amounts that specified practitioners may attempt to collect from their patients as payment for Medicare services, consistent with Medicare’s terminology for billing. This Florida statute does not provide authority for any health care practitioner to use certain titles.

**III. Effect of Proposed Changes:**

**Section 1** of the bill creates s. 456.0651, F.S., and defines the following terms as used in that section of statute:

- “Advertisement” means any printed, electronic, or oral, statement that:
  - Is communicated or disseminated to the general public;
  - Is prepared, communicated, or disseminated under the control of the practitioner or with the practitioner’s consent; and
  - Is intended to encourage a person to use a practitioner’s professional services or to promote those services or the practitioner in general; or, for commercial purposes, names a practitioner in connection with the practice, profession, or institution in which the practitioner is employed, volunteers, or provides health care services.
- “Educational degree” means a degree awarded to a practitioner by a college or university relating to the practitioner’s profession or specialty designation, which degree may be referenced in an advertisement by name or acronym.
- “Misleading, deceptive, or fraudulent representation” means any information that misrepresents or falsely describes a practitioner’s profession, skills, training, expertise, educational degree, board certification, or licensure.
- “Profession” means, in addition to the meaning provided in s. 456.001, the name or title of a practitioner’s profession that is regulated by the DOH’s Division of Medical Quality Assurance and which name or title is allowed to be used by an individual due to his or her license, license by endorsement, certification, or registration issued by a board or the DOH. The term does not include a practitioner’s license or educational degree.

---

\(^{31}\) See 42 CFR s. 414.2.

\(^{32}\) Dentistry is omitted from s. 456.056, F.S., since traditional Medicare does not cover most dental care apart from emergencies or dental services provided in a hospital setting. See: [https://www.medicare.gov/coverage/dental-services](https://www.medicare.gov/coverage/dental-services) (last visited Jan. 24, 2024).

\(^{33}\) See s. 456.056(5), F.S.
The bill provides that, for purposes of s. 456.065, F.S., relating to the unlicensed practice of a health care profession, in addition to the definitions of the “practice of medicine”\textsuperscript{34} and the “practice of osteopathic medicine”\textsuperscript{35} found in their corresponding practice acts, those terms also include attaching to one’s name, alone or in combination, or in connection with other words, any of the following titles or designations in an advertisement or in a manner that constitutes a misleading, deceptive, or fraudulent representation:

- Doctor of medicine.
- M.D.
- Doctor of osteopathy.
- D.O.
- Emergency physician.
- Family physician.
- Interventional pain physician.
- Medical doctor.
- Osteopath.
- Osteopathic physician.
- Doctor of osteopathic medicine.
- Surgeon.
- Neurosurgeon.
- General surgeon.
- Resident physician.
- Medical resident.
- Medical intern.
- Anesthesiologist.
- Cardiologist.
- Dermatologist.
- Endocrinologist.
- Gastroenterologist.
- Gynecologist.
- Hematologist.
- Hospitalist.
- Intensivist.
- Internist.
- Laryngologist.
- Nephrologist.
- Neurologist.
- Obstetrician.
- Oncologist.
- Ophthalmologist.
- Orthopedic surgeon.
- Orthopedist.
- Otologist.

\textsuperscript{34} See s. 458.305, F.S.
\textsuperscript{35} See s. 459.003, F.S.
• Otolaryngologist.
• Otorhinolaryngologist.
• Pathologist.
• Pediatrician.
• Primary care physician.
• Proctologist.
• Psychiatrist.
• Radiologist.
• Rheumatologist.
• Rhinologist.
• Urologist.

Exceptions

Notwithstanding the provisions above, the bill authorizes all of the following.

A licensed practitioner may use any name or title of his or her profession, and any corresponding
designation or initials, authorized under his or her practice act to describe himself or herself and
his or her practice.

If the licensed practitioner has a specialty area of practice authorized under his or her practice
act, he or she may use the following format to identify himself or herself or describe his or her
practice: “...(name or title of the practitioner’s profession)..., specializing in ...(name of the
practitioner’s specialty)....”

A chiropractic physician\textsuperscript{36} licensed under ch. 460, F.S., may use the titles “doctor of chiropractic
medicine,” “chiropractic radiologist,” and other titles, abbreviations, or designations authorized
under his or her practice act or reflecting those chiropractic specialty areas in which the
chiropractic physician has attained diplomate status as recognized by the American Chiropractic
Association, the International Chiropractors Association, the International Academy of Clinical
Neurology, or the International Chiropractic Pediatric Association.

A podiatric physician\textsuperscript{37} licensed under ch. 461, F.S., may use the titles “podiatric surgeon,”
“Fellow in the American College of Foot and Ankle Surgeons,” and other titles or abbreviations
authorized under his or her practice act.

A dentist licensed under ch. 466, F.S., may use the following titles and abbreviations as
applicable to his or her license, specialty, and certification, and any other titles or abbreviations
authorized under his or her practice act:
• Doctor of medicine in dentistry.
• Doctor of dental medicine.
• D.M.D.

\textsuperscript{36} Under s. 460.403(5), F.S., “chiropractic physician” means any person licensed to practice chiropractic medicine pursuant to
ch. 460, F.S.

\textsuperscript{37} Under s. 461.003(4), F.S., “podiatric physician” means any person licensed to practice podiatric medicine pursuant to
ch. 461, F.S.
- Doctor of dental surgery.
- D.D.S.
- Oral surgeon.
- Maxillofacial surgeon.
- Oral and maxillofacial surgeon.
- O.M.S.
- Oral radiologist.
- Dental anesthesiologist.
- Oral pathologist

An anesthesiologist assistant licensed under ch. 458 or 459, F.S., may use only the titles “anesthesiologist assistant” or “certified anesthesiologist assistant” and the abbreviation “C.A.A.”

**Grounds for Discipline**

Section 2 of the bill amends the grounds for discipline in s. 456.072(1)(t), F.S., to specify that the following acts constitute grounds for disciplinary actions:

- A practitioner’s failure, when treating or consulting with a patient, to identify through the wearing of a name tag the practitioner’s name and profession, as defined in s. 456.0651, F.S. The information on the name tag must be consistent with the specifications of s. 456.0651(2), F.S., such that it does not constitute the unlicensed practice of medicine or osteopathic medicine.
- The failure of any advertisement for health care services naming a practitioner to identify the profession under which the practitioner is practicing and the practitioner’s educational degree in relation to the services featured in the advertisement.

The name tag requirement does not apply if the practitioner is providing services in his or her own office that houses his or her practice or group practice. In such a case:

- In lieu of a name tag, the practitioner must prominently display a copy of his or her license in a conspicuous area of the practice so that it is easily visible to patients. The copy of the license must be no smaller than the original license.
- The practitioner must also verbally identify himself or herself to a new patient by name and profession, and such identification must be consistent with the specifications of s. 456.0651(2), F.S., so that it does not constitute the unlicensed practice of medicine or osteopathic medicine.

The bill requires each board, or the DOH if there is no board, to adopt rules to determine how practitioners must comply with s. 456.072(1)(t), F.S., as amended by the bill.

Section 3 of the bill provides an effective date of July 1, 2024.

**IV. Constitutional Issues:**

A. Municipality/County Mandates Restrictions:

None.
B. Public Records/Open Meetings Issues:
   None.
C. Trust Funds Restrictions:
   None.
D. State Tax or Fee Increases:
   None.
E. Other Constitutional Issues:
   None.

V. Fiscal Impact Statement:
A. Tax/Fee Issues:
   None.
B. Private Sector Impact:
   None.
C. Government Sector Impact:
   To the extent persons violate the bill’s provisions, the bill could have a potential workload increase and an increase in costs for the DOH’s ULA Unit of an indeterminate amount.

VI. Technical Deficiencies:
   None.

VII. Related Issues:
   None.

VIII. Statutes Affected:
   This bill substantially amends section 456.072 of the Florida Statutes.
   This bill creates section 456.0651 of the Florida Statutes.
IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
   (Summarizing differences between the Committee Substitute and the prior version of the bill.)
   None.

B. Amendments:
   None.

This Senate Bill Analysis does not reflect the intent or official position of the bill’s introducer or the Florida Senate.
The Committee on Health Policy (Harrell) recommended the following:

**Senate Amendment (with title amendment)**

Delete everything after the enacting clause and insert:

Section 1. Subsection (2) of section 456.003, Florida Statutes, is amended to read:

456.003 Legislative intent; requirements.—

(2) The Legislature further **believes** that such professions shall be regulated only for the preservation of the health, safety, and welfare of the public under the police
powers of the state, and that the health, safety, and welfare of
the public may be harmed or endangered by the unlawful practice
of a profession; by a misleading, deceptive, or fraudulent
representation relating to a person's authority to lawfully
practice a profession; or when patients are uninformed about the
profession under which a practitioner is practicing before
receiving professional consultation or services from the
practitioner. As a matter of great public importance, such
professions shall be regulated when:

(a) Their unregulated practice can harm or endanger the
health, safety, and welfare of the public, and when the
potential for such harm is recognizable and clearly outweighs
any anticompetitive impact which may result from regulation.

(b) The public is not effectively protected by other means,
including, but not limited to, other state statutes, local
ordinances, or federal legislation.

(c) Less restrictive means of regulation are not available.

Section 2. Section 456.0651, Florida Statutes, is created
to read:

456.0651 Health care practitioner titles and designations.—

(1) As used in this section, the term:

(a) "Advertisement" means any printed, electronic, or oral
statement that:

1. Is communicated or disseminated to the general public;
2.a. Is intended to encourage a person to use a
practitioner’s professional services or to promote those
services or the practitioner in general; or
b. For commercial purposes, names a practitioner in
connection with the practice, profession, or institution in
which the practitioner is employed, volunteers, or provides health care services; and

3. Is prepared, communicated, or disseminated under the control of the practitioner or with the practitioner’s consent.

(b) “Educational degree” means the degree awarded to a practitioner by a college or university relating to the practitioner’s profession or specialty designation, which degree may be referenced in an advertisement by name or acronym.

(c) “Misleading, deceptive, or fraudulent representation” means any information that misrepresents or falsely describes a practitioner’s profession, skills, training, expertise, educational degree, board certification, or licensure.

(d) “Practitioner” means a health care practitioner as defined in s. 456.001.

(e) “Profession,” in addition to the meaning provided in s. 456.001, also means the name or title of a practitioner’s profession that is regulated by the department’s Division of Medical Quality Assurance and which name or title is allowed to be used by an individual due to his or her license, license by endorsement, certification, or registration issued by a board or the department. The term does not include a practitioner’s license or educational degree.

(2) For purposes of this section and s. 456.065, in addition to the definitions of the terms “practice of medicine” in s. 458.305 and “practice of osteopathic medicine” in s. 459.003, the practice of medicine or osteopathic medicine also includes attaching to one’s name, either alone or in combination, or in connection with other words, any terms indicating that a person is licensed to practice medicine or
osteopathic medicine or any of the following titles or
designations, if used in an advertisement or in a manner that
c Constitutes a misleading, deceptive, or fraudulent
representation:
(a) Doctor of medicine.
(b) M.D.
(c) Doctor of osteopathy.
(d) D.O.
(e) Emergency physician.
(f) Family physician.
(g) Interventional pain physician.
(h) Medical doctor.
(i) Osteopath.
(j) Osteopathic physician.
(k) Doctor of osteopathic medicine.
(l) Surgeon.
(m) Neurosurgeon.
(n) General surgeon.
(o) Resident physician.
(p) Medical resident.
(q) Medical intern.
(r) Anesthesiologist.
(s) Cardiologist.
(t) Dermatologist.
(u) Endocrinologist.
(v) Gastroenterologist.
(w) Gynecologist.
(x) Hematologist.
(y) Hospitalist.
(z) Intensivist.
(aa) Internist.
(bb) Laryngologist.
(cc) Nephrologist.
(dd) Neurologist.
(ee) Obstetrician.
(ff) Oncologist.
(gg) Ophthalmologist.
(hh) Orthopedic surgeon.
(ii) Orthopedist.
(jj) Otologist.
(kk) Otolaryngologist.
(ll) Otorhinolaryngologist.
(mm) Pathologist.
(nn) Pediatrician.
(oo) Primary care physician.
(pp) Proctologist.
(qq) Psychiatrist.
(rr) Radiologist.
(ss) Rheumatologist.
(tt) Rhinologist.
(uu) Urologist.

(3) Notwithstanding subsection (2):

(a) A licensed practitioner may use the name or title of his or her profession which is authorized under his or her practice act, and any corresponding designations or initials so authorized, to describe himself or herself and his or her practice.

(b) A licensed practitioner who has a specialty area of
practice authorized under his or her practice act may use the following format to identify himself or herself or describe his or her practice: "...(name or title of the practitioner’s profession)..., specializing in ...(name of the practitioner’s specialty)...."

(c) A chiropractic physician licensed under chapter 460 may use the titles “chiropractic physician,” “doctor of chiropractic medicine,” “chiropractic radiologist,” and other titles, abbreviations, or designations authorized under his or her practice act or reflecting those chiropractic specialty areas in which the chiropractic physician has attained diplomate status as recognized by the American Chiropractic Association, the International Chiropractors Association, the International Academy of Clinical Neurology, or the International Chiropractic Pediatric Association.

(d) A podiatric physician licensed under chapter 461 may use the following titles and abbreviations as applicable to his or her license, specialty, and certification: “podiatric physician,” “podiatric surgeon,” “Fellow in the American College of Foot and Ankle Surgeons,” and other titles or abbreviations authorized under his or her practice act.

(e) A dentist licensed under chapter 466 may use the following titles and abbreviations as applicable to his or her license, specialty, and certification: “doctor of medicine in dentistry,” “doctor of dental medicine,” “D.M.D.,” “doctor of dental surgery,” “D.D.S.,” “oral surgeon,” “maxillofacial surgeon,” “oral and maxillofacial surgeon,” “O.M.S.,” “oral radiologist,” “dental anesthesiologist,” “oral pathologist,” and any other titles or abbreviations authorized under his or her practice act.
practice act.

(f) An anesthesiologist assistant licensed under chapter 458 or chapter 459 may use only the titles “anesthesiologist assistant” or “certified anesthesiologist assistant” and the abbreviation “C.A.A.”

(4) This section may not be construed to prohibit or interfere with a licensed practitioner’s ability to lawfully bill the Medicare program or other federal health care program using definitions or terminology provided under applicable federal law or regulations for services rendered to a patient enrolled in such program.

Section 3. Paragraph (t) of subsection (1) of section 456.072, Florida Statutes, is amended to read:

456.072 Grounds for discipline; penalties; enforcement.—

(1) The following acts shall constitute grounds for which the disciplinary actions specified in subsection (2) may be taken:

(t)1. A practitioner’s failure, when treating or consulting with a patient, Failing to identify through written notice, which may include the wearing of a name tag the practitioner’s name and profession, as defined in s. 456.0651, or orally to a patient the type of license under which the practitioner is practicing. The information on the name tag must be consistent with the specifications of s. 456.0651(2) such that it does not constitute the unlicensed practice of medicine or osteopathic medicine.

2. The failure of any advertisement for health care services naming the practitioner to must identify the profession, as defined in s. 456.0651, under which the
practitioner is practicing and the practitioner’s educational
degree, as defined in s. 456.0651, in relation to the services
featured in the advertisement type of license the practitioner
holds.

3. Subparagraph 1. This paragraph does not apply to a
practitioner while the practitioner is providing services in his
or her own office that houses his or her practice or group
practice. In such a case, if the practitioner chooses not to
wear a name tag, the practitioner must prominently display a
copy of his or her license in a conspicuous area of the practice
so that it is easily visible to patients. The copy of the
license must be no smaller than the original license. Such
practitioner shall also verbally identify himself or herself to
a new patient by name and identify the profession, as defined in
s. 456.0651, under which the practitioner is practicing. Such
verbal identification must be consistent with the specifications
of s. 456.0651(2) such that it does not constitute the
unlicensed practice of medicine or osteopathic medicine a
facility licensed under chapter 394, chapter 395, chapter 400,
or chapter 429.

4. Each board, or the department if where there is no
board, shall be authorized by rule to determine how its
practitioners may comply with this paragraph disclosure
requirement.

Section 4. This act shall take effect July 1, 2024.
214 and insert:

215 A bill to be entitled
216 An act relating to health care practitioner titles and
designations; amending s. 456.003, F.S.; revising
218 legislative findings; creating s. 456.0651, F.S.;
219 defining terms; providing that, for specified
220 purposes, the use of specified titles or designations
221 in connection with one’s name constitutes the practice
222 of medicine or the practice of osteopathic medicine;
223 providing exceptions; providing construction; amending
224 s. 456.072, F.S.; revising grounds for disciplinary
225 action relating to a practitioner’s use of such titles
226 or designations in identifying himself or herself to
227 patients or in advertisements for health care
228 services; revising applicability; requiring certain
229 health care practitioners to prominently display a
230 copy of their license in a conspicuous area of their
231 practice; requiring that the copy of the license be a
232 specified size; requiring such health care
233 practitioners to also verbally identify themselves in
234 a specified manner to new patients; requiring, rather
235 than authorizing, certain boards, or the Department of
236 Health if there is no board, to adopt certain rules;
237 providing an effective date.
A bill to be entitled
An act relating to health care practitioner titles and
designations; creating s. 456.0651, F.S.; defining
terms; providing that, for specified purposes, the use
of specified titles or designations in connection with
one’s name constitutes the practice of medicine or the
practice of osteopathic medicine; providing
exceptions; amending s. 456.072, F.S.; revising
grounds for disciplinary action relating to a
practitioner’s use of such titles or designations in
identifying himself or herself to patients or in
advertisements for health care services; revising
applicability; requiring certain health care
practitioners to prominently display a copy of their
license in a conspicuous area of their practice;
requiring that the copy of the license be a specified
size; requiring such health care practitioners to also
verbally identify themselves in a specified manner to
new patients; requiring, rather than authorizing,
certain boards, or the Department of Health if there
is no board, to adopt certain rules; providing an
effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 456.0651, Florida Statutes, is created
to read:

456.0651 Health care practitioner titles and designations.—
(1) As used in this section, the term:
(a) “Advertisement” means any printed, electronic, or oral statement that:

1. Is communicated or disseminated to the general public;
2. a. Is intended to encourage a person to use a practitioner’s professional services or to promote those services or the practitioner in general; or
b. For commercial purposes, names a practitioner in connection with the practice, profession, or institution in which the practitioner is employed, volunteers, or provides health care services; and
3. Is prepared, communicated, or disseminated under the control of the practitioner or with the practitioner’s consent.

(b) “Educational degree” means the degree awarded to a practitioner by a college or university relating to the practitioner’s profession or specialty designation, which degree may be referenced in an advertisement by name or acronym.

(c) “Misleading, deceptive, or fraudulent representation” means any information that misrepresents or falsely describes a practitioner’s profession, skills, training, expertise, educational degree, board certification, or licensure.

(d) “Practitioner” means a health care practitioner as defined in s. 456.001.

(e) “Profession,” in addition to the meaning provided in s. 456.001, also means the name or title of a practitioner’s profession that is regulated by the department’s Division of Medical Quality Assurance and which name or title is allowed to be used by an individual due to his or her license, license by endorsement, certification, or registration issued by a board or the department. The term does not include a practitioner’s
license or educational degree.

(2) For purposes of this section and s. 456.065, in addition to the definitions of the terms “practice of medicine” in s. 458.305 and “practice of osteopathic medicine” in s. 459.003, the practice of medicine or osteopathic medicine also includes attaching to one’s name, either alone or in combination, or in connection with other words, any of the following titles or designations, if used in an advertisement or in a manner that constitutes a misleading, deceptive, or fraudulent representation:

(a) Doctor of medicine.

(b) M.D.

(c) Doctor of osteopathy.

(d) D.O.

(e) Emergency physician.

(f) Family physician.

(g) Interventional pain physician.

(h) Medical doctor.

(i) Osteopath.

(j) Osteopathic physician.

(k) Doctor of osteopathic medicine.

(l) Surgeon.

(m) Neurosurgeon.

(n) General surgeon.

(o) Resident physician.

(p) Medical resident.

(q) Medical intern.

(r) Anesthesiologist.

(s) Cardiologist.
(t) Dermatologist.
(u) Endocrinologist.
(v) Gastroenterologist.
(w) Gynecologist.
(x) Hematologist.
(y) Hospitalist.
(z) Intensivist.
(aa) Internist.
(bb) Laryngologist.
(cc) Nephrologist.
(dd) Neurologist.
(ee) Obstetrician.
(ff) Oncologist.
(gg) Ophthalmologist.
(hh) Orthopedic surgeon.
(ii) Orthopedist.
(jj) Otologist.
(kk) Otolaryngologist.
(ll) Otorhinolaryngologist.
(mm) Pathologist.
(nn) Pediatrician.
(oo) Primary care physician.
(pp) Proctologist.
(qq) Psychiatrist.
(rr) Radiologist.
(ss) Rheumatologist.
(tt) Rhinologist.
(uu) Urologist.

(3) Notwithstanding subsection (2):
(a) A licensed practitioner may use the name or title of his or her profession which is authorized under his or her practice act, and any corresponding designations or initials so authorized, to describe himself or herself and his or her practice.

(b) A licensed practitioner who has a specialty area of practice authorized under his or her practice act may use the following format to identify himself or herself or describe his or her practice: "...(name or title of the practitioner’s profession)..., specializing in ...(name of the practitioner’s specialty)...."

(c) A chiropractic physician licensed under chapter 460 may use the titles “doctor of chiropractic medicine,” “chiropractic radiologist,” and other titles, abbreviations, or designations authorized under his or her practice act or reflecting those chiropractic specialty areas in which the chiropractic physician has attained diplomate status as recognized by the American Chiropractic Association, the International Chiropractors Association, the International Academy of Clinical Neurology, or the International Chiropractic Pediatric Association.

(d) A podiatric physician licensed under chapter 461 may use the following titles and abbreviations as applicable to his or her license, specialty, and certification: “podiatric surgeon,” “Fellow in the American College of Foot and Ankle Surgeons,” and other titles or abbreviations authorized under his or her practice act.

(e) A dentist licensed under chapter 466 may use the following titles and abbreviations as applicable to his or her license, specialty, and certification: “doctor of medicine in
dentistry,” “doctor of dental medicine,” “D.M.D.,” “doctor of dental surgery,” “D.D.S.,” “oral surgeon,” “maxillofacial surgeon,” “oral and maxillofacial surgeon,” “O.M.S.,” “oral radiologist,” “dental anesthesiologist,” “oral pathologist,” and any other titles or abbreviations authorized under his or her practice act.

(f) An anesthesiologist assistant licensed under chapter 458 or chapter 459 may use only the titles “anesthesiologist assistant” or “certified anesthesiologist assistant” and the abbreviation “C.A.A.”

Section 2. Paragraph (t) of subsection (1) of section 456.072, Florida Statutes, is amended to read:

456.072 Grounds for discipline; penalties; enforcement.—
(1) The following acts shall constitute grounds for which the disciplinary actions specified in subsection (2) may be taken:

(t) 1. A practitioner’s failure, when treating or consulting with a patient, Failing to identify through written notice, which may include the wearing of a name tag the practitioner’s name and, or orally to a patient the profession, as defined in s. 456.0651, type of license under which the practitioner is practicing. The information on the name tag must be consistent with the specifications of s. 456.0651(2) such that it does not constitute the unlicensed practice of medicine or osteopathic medicine.

2. The failure of any advertisement for health care services naming the practitioner to must identify the profession, as defined in s. 456.0651, under which the practitioner is practicing and the practitioner’s educational
3. Subparagraph 1. This paragraph does not apply to a practitioner while the practitioner is providing services in his or her own office that houses his or her practice or group practice. In such a case, if the practitioner chooses not to wear a name tag, the practitioner must prominently display a copy of his or her license in a conspicuous area of the practice so that it is easily visible to patients. The copy of the license must be no smaller than the original license. Such practitioner shall also verbally identify himself or herself to a new patient by name and identify the profession, as defined in s. 456.0651, under which the practitioner is practicing. Such verbal identification must be consistent with the specifications of s. 456.0651(2) such that it does not constitute the unlicensed practice of medicine or osteopathic medicine at a facility licensed under chapter 394, chapter 395, chapter 400, or chapter 429.

4. Each board, or the department if where there is no board, shall be authorized by rule to determine how its practitioners may comply with this paragraph disclosure requirement.

Section 3. This act shall take effect July 1, 2024.
January 16, 2023

Senator Burton
530 Knott Building
404 South Monroe Street
Tallahassee, FL 32399

Chair Burton,

I respectfully request that SB 1112 – Health Care Practitioner Titles be placed on the next available agenda for the Health Policy Meeting.

Should you have any questions or concerns, please feel free to contact my office. Thank you in advance for your consideration.

Thank you,

Senator Gayle Harrell
Senate District 25

Cc: Allen Brown, Staff Director
    Anhar AlAsadi, Committee Administrative Assistant
I. Summary:

SB 1320 creates s. 465.1861, F.S., authorizing a pharmacist to order and dispense HIV drugs under a collaborative practice agreement (CPA) with a medical or osteopathic physician. The bill defines the following terms: HIV, HIV infection prevention drug, postexposure prophylaxis, and preexposure prophylaxis.

The bill authorizes a pharmacist to screen an adult for HIV and provide the results to that adult without a CPA. If the results are positive, the pharmacist is required to advise the patient that he or she should seek further medical consultation or treatment from a physician.

The bill authorizes a pharmacist to order or dispense HIV prevention or treatment drugs under a CPA and also requires the pharmacist to be certified by the Board of Pharmacy (BOP) before he or she may do so. Certification under the bill requires the pharmacist to meet specified criteria.

The bill provides an effective date of July 1, 2024.
II. Present Situation:

Pharmacist Licensure

Pharmacy is the third largest health profession behind nursing and medicine. The BOP, in conjunction with the Department of Health (DOH), regulates the practice of pharmacists pursuant to ch. 465, F.S. To be licensed as a pharmacist, a person must:

- Complete an application and remit an examination fee;
- Be at least 18 years of age;
- Hold a degree from an accredited and approved school or college of pharmacy;
- Have completed a BOP-approved internship; and
- Successfully complete the BOP-approved examination.

A pharmacist must complete at least 30 hours of BOP-approved continuing education during each biennial renewal period. Pharmacists who are certified to administer vaccines or epinephrine auto-injections must complete a three-hour continuing education course on the safe and effective administration of vaccines and epinephrine auto-injections as a part of the biennial licensure renewal. Pharmacists who administer long-acting antipsychotic medications must complete an approved eight-hour continuing education course as a part of the continuing education.

Pharmacist Scope of Practice

In Florida, the practice of the profession of pharmacy includes:

- Compounding, dispensing, and consulting concerning the contents, therapeutic values, and uses of any medicinal drug;
- Consulting concerning therapeutic values and interactions of patent or proprietary preparations;
- Monitoring a patient’s drug therapy and assisting the patient in the management of his or her drug therapy, including the review of the patient’s drug therapy and communication with the patient’s prescribing health care provider or other persons specifically authorized by the patient;
- Transmitting information from prescribers to their patients;

---

2 Sections 465.004 and 465.005, F.S.
3 Section 465.007, F.S. The DOH may also issue a license by endorsement to a pharmacist who is licensed in another state upon meeting the applicable requirements set forth in law and rule. See s. 465.0075, F.S.
4 If the applicant has graduated from a 4-year undergraduate pharmacy program of a school or college of pharmacy located outside the U.S., the applicant must demonstrate proficiency in English, pass the board-approved Foreign Pharmacy Graduate Equivalency Examination, and complete a minimum of 500 hours in a supervised work activity program within Florida under the supervision of a DOH licensed pharmacist.
5 Section 465.009, F.S.
6 Section 465.009(6), F.S.
7 Section 465.1893, F.S.
8 Section 465.003(13), F.S.
• Administering specified vaccines to adults and influenza vaccines to persons seven years of age or older;⁹
• Administering epinephrine autoinjections;¹⁰ and
• Administering antipsychotic medications by injection.¹¹

A pharmacist may not alter a prescriber’s directions, diagnose or treat any disease, initiate any drug therapy, or practice medicine or osteopathic medicine, unless permitted by law.¹²

Pharmacists may order and dispense drugs that are included in a formulary developed by a committee composed of members of the Board of Medicine, the Board of Osteopathic Medicine, and the BOP.¹³ The formulary may only include:¹⁴
• Any medicinal drug of single or multiple active ingredients in any strengths when such active ingredients have been approved individually or in combination for over-the-counter sale by the U.S. Food and Drug Administration (FDA);
• Any medicinal drug recommended by the FDA Advisory Panel for transfer to over-the-counter status pending approval by the FDA;
• Any medicinal drug containing any antihistamine or decongestant as a single active ingredient or in combination;
• Any medicinal drug containing fluoride in any strength;
• Any medicinal drug containing lindane in any strength;
• Any over-the-counter proprietary drug under federal law that has been approved for reimbursement by the Florida Medicaid Program; and
• Any topical anti-infectives, excluding eye and ear topical anti-infectives.

A pharmacist may order the following, within his or her professional judgment and subject to the following conditions:
• Certain oral analgesics for mild to moderate pain. The pharmacist may order these drugs for minor pain and menstrual cramps for patients with no history of peptic ulcer disease. The prescription is limited to a six-day supply for one treatment of:
  o Magnesium salicylate/phenyltoloxamine citrate;
  o Acetylsalicylic acid (zero order release, long acting tablets);
  o Choline salicylate and magnesium salicylate;
  o Naproxen sodium;
  o Naproxen;
  o Ibuprofen;
  o Phenazopyridine, for urinary pain; and
  o Antipyrine 5.4%, benzocaine 1.4%, glycerin, for ear pain if clinical signs or symptoms of tympanic membrane perforation are not present;
• Anti-nausea preparations;
• Certain antihistamines and decongestants;

⁹ See s. 465.189, F.S.
¹⁰ Id.
¹¹ Section 465.1893, F.S.
¹² Section 465.003(13), F.S.
¹³ Section 465.186, F.S.
¹⁴ Id.
• Certain topical antifungal/antibacterials;
• Topical anti-inflammatory preparations containing hydrocortisone not exceeding 2.5%;
• Certain otic antifungal/antibacterial;
• Salicylic acid 16.7% and lactic acid 16.7% in flexible collodion, to be applied to warts, except for patients under 2 years of age, and those with diabetes or impaired circulation;
• Vitamins with fluoride, excluding vitamins with folic acid in excess of 0.9 mg.;
• Medicinal drug shampoos containing lindane for the treatment of head lice;
• Ophthamlic. Naphazoline 0.1% ophthalmic solution;
• Certain histamine H2 antagonists;
• Acne products; and
• Topical antiviral for herpes simplex infections of the lips.15

**Collaborative Pharmacy Practice Agreements**

Under s. 465.1865, F.S., a collaborative pharmacy practice agreement (CPPA) is a formal agreement in which a physician licensed under ch. 458 or 459, F.S., makes a diagnosis, supervises patient care, and refers patients to a pharmacist under a protocol that allows the pharmacist to provide specified patient care services for certain chronic medical conditions. A CPPA specifies what functions beyond the pharmacist’s typical scope of practice can be delegated to the pharmacist by the collaborating physician.16 Common tasks include initiating, modifying, or discontinuing medication therapy and ordering and evaluating tests.17

**Pharmacist Training for Collaborative Practice**

To provide services under a CPPA, a pharmacist must be certified by the BOP. To obtain certification a pharmacist must complete a 20-hour course approved by the BOP, in consultation with the Board of Medicine (BOM) and the Board of Osteopathic Medicine (BOOM), and:

• Hold an active and unencumbered license to practice pharmacy;
• Have a Ph.D. in pharmacy or have five years of experience as a licensed pharmacist;
• Have completed the BOP-approved, 20-hour course, eight hours of which must be live or live video conference that includes instruction in:
  o Performance of patient assessments;
  o Ordering, performing, and interpreting clinical and laboratory tests;
  o Evaluating and managing diseases and health conditions in collaboration with other health care practitioners; and
  o Writing and entering into a CPPA.
• Maintains at least $250,000 of professional liability insurance coverage; and
• Has established a system to maintain patient records of patients receiving services under a CPPA for five years from the patient’s most recent service.18

17 Id.
**Required Contents of CPPA**

The terms and conditions of the CPPA must be appropriate to the pharmacist’s training, and the services delegated to the pharmacist must be within the collaborating physician’s scope of practice. A copy of the certification received from the BOP must be included as an attachment to the CPPA. A CPPA must include the following:

- The name of the collaborating physician’s patient(s) for whom a pharmacist may provide services;
- Each chronic health condition to be collaboratively managed;
- The specific medicinal drug(s) to be managed for each patient;
- Material terms defined as those terms enumerated in s. 465.1865(3)(a), F.S.;
- Circumstances under which the pharmacist may order or perform and evaluate laboratory or clinical tests;
- Conditions and events in which the pharmacist must notify the collaborating physician and the manner and timeframe in which notification must occur;
- The start and ending dates of the CPPA and termination procedures, including procedures for patient notification and medical records transfers;
- A statement that the CPPA may be terminated, in writing, by either party at any time; and
- In the event of an addendum to the material terms of an existing CPPA, a copy of the addendum and the initial agreement.

A CPPA will automatically terminate two years after execution if not renewed. The pharmacist, along with the collaborating physician, must maintain the CPPA on file at his or her practice location and must make the CPPA available to the DOH or BOP upon request or inspection. A pharmacist who enters into a CPPA must submit a copy of the signed agreement to the BOP before the agreement may be implemented.\(^{19}\)

**Allowable Chronic Health Conditions for Pharmacist CPPAs**

CPPAs in Florida allow a pharmacist to provide specific patient care services for the following chronic health conditions:

- Anti-coagulation management;
- Arthritis;
- Asthma;
- Chronic obstructive pulmonary disease (COPD);
- Human immunodeficiency virus (HIV) or acquired immune deficiency syndrome (AIDS);
- Hyperlipidemia;
- Hypertension;
- Nicotine dependence;
- Obesity;
- Opioid use disorder;
- Type 2 diabetes;
- Hepatitis C; and

---

• Any other chronic condition adopted in rule by the BOP, in consultation with the Board of Medicine and the Board of Osteopathic Medicine.20

**Prohibited Acts Regarding a CPPA**

A pharmacist may not:
• Modify or discontinue medicinal drugs prescribed by a health care practitioner with whom he or she does not have a CPPA; or
• Enter into a CPPA while acting as a pharmacy employee without the written approval of the owner of the pharmacy.

A physician may not delegate the authority to initiate or prescribe a controlled substance listed in s. 893.03, F.S. or 21 U.S.C. s. 812, to a pharmacist.

**Continuing Education**

A pharmacist who practices under a CPPA must complete an eight-hour continuing education (CE) course approved by the BOP that addresses CPPA-related issues each biennial licensure renewal, in addition to the CE requirements under s. 465.009, F.S. A pharmacist wishing to maintain CPPA certification must submit confirmation of having completed such course when applying for licensure renewal. A pharmacist who fails to complete this CE is prohibited from practicing under a CPPA.

**CPPAs in Effect**

According to the DOH 2022 - 2023 Annual Report there are 39,337 licensed pharmacists in Florida.21 There are 120 pharmacists certified to provide care under a CPPA. There are 37 pharmacists and 37 physicians actively engaged in collaborative practice. The BOP has received 97 CPPAs, 47 of which contain more than one chronic health condition that can be collaboratively managed.22 The chart below illustrates the composition of chronic conditions treated by CPPA as of March 31, 2023.23

---

20 Section 465.1865, F.S. and Fla. Admin. Code R. 64B-31.005 (2023). The statute provides for arthritis, asthma, COPD, Type 2 diabetes, HIV/AIDS, and obesity. The other items in the list (anti-coagulation management, hyperlipidemia, hypertension, nicotine dependence, opioid use disorder, and hepatitis C) were added under BOP rule.
22 Florida Department of Health, Division of Medical Quality Assurance, *Pharmacy Collaborative Practice Agreements*, Report to Senate Health Policy Committee, Aug, 1, 2023, (on file with the senate Committee on Health Policy). While the number of participating pharmacists and physicians are identical, this does not represent a one-to-one ratio; a pharmacist may have multiple agreements with more than one physician just as multiple physicians may have multiple agreements with more than one pharmacist.

**Human Immunodeficiency Virus (HIV)**

The human immunodeficiency virus (HIV) attacks and destroys the infection-fighting CD4 cells (CD4 T lymphocyte) of the immune system. The loss of CD4 cells makes it difficult for the body to fight off infections, illnesses, and certain cancers. Without treatment, HIV can gradually destroy the immune system, causing health decline and the onset of AIDS. With treatment, the immune system can recover. 24

If untreated, an HIV infection may cause acquired immunodeficiency syndrome (AIDS), the most advanced stage of HIV infection. People with HIV who are not on medication and do not have consistent control of their HIV can transmit HIV through bodily fluids exchanged via sex, sharing of needles, pregnancy, and/or breastfeeding. If HIV is controlled, the risk of transmission can be close to zero. 25

For people without HIV, there are several ways to reduce the risk of becoming infected with HIV. Using condoms correctly with every sexual encounter, particularly with partners that are HIV positive with a detectable viral load or with partners whose HIV status is unknown, can reduce the risk of acquiring HIV. Reducing HIV risk also involves limiting and reducing sexual partners and avoiding sharing needles. 26

**Pre-exposure Prophylaxis (PrEP)**

PrEP is an HIV prevention option for people who do not have HIV but who are at risk of becoming infected. PrEP involves taking a specific HIV medicine every day or a long-acting injection. 27

---

26 Id.
27 Id.
**HIV Testing**

Certain health care providers can give an HIV test. HIV testing is also available at many hospitals, medical clinics, substance abuse programs, and community health centers. Getting tested through a professional health care provider is recommended; however, there are HIV self-testing kits available.\(^\text{28}\)

A rapid self-test is an oral fluid test done entirely at home or in private. A mail-in self-test requires a person to provide a blood sample from a finger-stick, which is then sent to a lab for testing.\(^\text{29}\)

The federal Centers for Disease Control and Prevention (CDC) recommends that everyone age 13 to 64 get tested for HIV at least once as part of routine health care and that people at higher risk for HIV get tested more often. HIV testing can detect if a person has an HIV infection, but it cannot tell how long the person has had the infection or if the person has AIDS.\(^\text{30}\)

There are three types of tests used to diagnose HIV infection: antibody tests, antigen/antibody tests, and nucleic acid tests:

- Antibody tests check for HIV antibodies in blood or oral fluid. HIV antibodies are disease-fighting proteins that the body produces in response to HIV infection. Most rapid tests and home use tests are antibody tests;
- Antigen/antibody tests can detect both HIV antibodies and HIV antigens (a part of the virus) in the blood; and
- Nucleic acid tests look for HIV in the blood.

How soon each test can detect HIV infection differs, because each test has a different window period. The window period is the time between when a person may have been exposed to HIV and when a test can accurately detect HIV infection. A person’s initial HIV test will usually be either an antibody test or an antigen/antibody test. Nucleic acid tests are very expensive and not routinely used for HIV screening unless the person had a high-risk exposure or a possible exposure with early symptoms of HIV infection.

When an HIV test is positive, a follow-up test will be conducted. Sometimes people will need to visit a health care provider to take a follow-up test. Other times, the follow-up test may be performed in a lab using the same blood sample that was provided for the first test. A positive follow-up test confirms that a person has HIV.

\(^{29}\) *Id.*

**HIV Treatment**

People with HIV should start taking HIV medicines as soon as possible after HIV is diagnosed. For people with HIV who have the following conditions, it is especially important to start taking HIV medicines right away:31

- Pregnant;
- AIDS-defining conditions; and
- Early HIV infection.32

Antiretroviral therapy (ART) is the use of HIV medicines that reduce the level of HIV in the blood (called viral load). ART is recommended for everyone who has HIV. ART cannot cure HIV infection, but HIV medicines help people with HIV have about the same life expectancy as people without HIV. ART can eliminate the risk of HIV transmission. For mothers with HIV who want to breastfeed, the risk of transmitting HIV through breast milk is less than one percent with the consistent use of ART and an undetectable viral load. People on ART take a combination of medicines (called an HIV treatment regimen) every day (pills) or by schedule (injections). In many cases oral medicines may be combined into a single pill or capsule. There are newer long-acting medicines given by an injection every two months that may be used for some people.33

**FDA Approved HIV Medications**

The following is a list HIV medicines, by category, recommended for the treatment of HIV infection in the U.S., based on the U.S. Department of Health and Human Services (HHS) HIV/AIDS medical practice guidelines:34

- **Nucleoside Reverse Transcriptase Inhibitors (NRTIs):** These drugs block reverse-transcriptase, an enzyme HIV needs to make copies of itself.
  - Abacavir;
  - Emtricitabine;
  - Lamivudine;
  - Tenofovir disoproxil;
  - Fumarate; and
  - Zidovudine.
- **Non-Nucleoside Reverse Transcriptase Inhibitors (NNRTIs):** These drugs bind to and later alter reverse-transcriptase.
  - Doravirine;
  - Efavirenz;
  - Etravirine;
  - Nevirapine; and
  - Rilpivirine.

---

32 *Id.* Early HIV infection, also known as acute HIV infection, is the period up to six months after a person is infection with HIV.

33 *Id.*

- **Protease Inhibitors (PIs):** These drugs block HIV protease, an enzyme HIV needs to make copies of itself.
  - Atazanavir;
  - Darunavir;
  - Tosamprenavir;
  - Ritonavir; and
  - Tipranavir.

- **Fusion Inhibitors:** These drugs block HIV from entering the CD4 T lymphocyte (CD4 cells) of the immune system.
  - Enfuvirtide.

- **CCR5 Antagonists:** These drugs block the CCR5 co-receptor on the surface of certain immune cells that HIV utilizes to enter the cells.
  - Maraviroc.

- **Integrate Strand Transfer Inhibitor (INSTIs):** These drugs block HIV integrase, an enzyme HIV needs to make copies of itself.
  - Cabotegravir;
  - Dolutegravir; and
  - Raltegravir.

- **Attachment Inhibitors:** These drugs bind to the gp120 protein on the outer surface of HIV, preventing HIV from entering CD4 cells.
  - Fostemsavir.

- **Post-attachment inhibitors:** These drugs block CD4 receptors on the surface of certain immune cells that HIV utilizes to enter the cells.
  - Ibalizumab-uiyk.

- **Capsid Inhibitors:** These drugs interfere with the HIV capsid, a protein shell that protects HIV's genetic material and enzymes needed for replication.
  - Lenacapavir.

- **Pharmacokinetic Enhancers:** These drugs are used in HIV treatment to increase the effectiveness of an HIV medicine included in an HIV treatment regimen.
  - Cobicistat.

- **Combination HIV Medicines:** These medicines contain two or more HIV medicines from one or more drug classes.

### Side Effect of HIV Medication

Adverse effects have been reported with all ART antiretroviral (ARV) drugs. As ART is recommended for all patients regardless of CD4 T lymphocyte (CD4) cell count, and because therapy must be continued indefinitely, the focus of patient management has evolved from identifying and managing early ARV-related toxicities to individualizing therapy to avoid long-term adverse effects, including:

- Diabetes and other metabolic complications;
- Atherosclerotic cardiovascular disease;
- Kidney dysfunction;
- Bone loss; and
- Weight gain.
To achieve and sustain viral suppression over a lifetime, both long-term and short-term ART toxicities must be anticipated and managed. When selecting an ARV regimen, clinicians should consider potential adverse effects, as well as the patient’s comorbidities, concomitant medications, and prior history of drug intolerances.\textsuperscript{35}

**HIV and Opportunistic Infections, Coinfections, and Conditions**

Opportunistic infections (OIs) are infections that occur more often or are more severe in people with weakened immune systems than in people with healthy immune systems. People with weakened immune systems include people living with HIV, as HIV damages the immune system. A weakened immune system makes it harder for the body to fight off OIs. HIV-related OIs include:

- Pneumonia;
- Salmonella infection;
- Candidiasis;
- Toxoplasmosis; and
- Tuberculosis.

For people with HIV, the best protection against OIs is to take HIV medicines every day. HIV medicines prevent HIV from damaging the immune system. Because HIV medicines are now widely used in the United States, fewer people with HIV get OIs.\textsuperscript{36}

**III. Effect of Proposed Changes:**

SB 1320 creates s. 465.1861, F.S., authorizing a pharmacist to order and dispense HIV drugs under a “collaborative practice agreement,” or CPA, with a medical or osteopathic physician. The bill defines the following terms:

- “HIV” means the human immunodeficiency virus;
- “HIV infection prevention drug” means preexposure prophylaxis, postexposure prophylaxis, and any other drug approved by the U.S. Food and Drug Administration for the prevention of HIV infection as of March 8, 2024;
- “Postexposure prophylaxis” to mean a drug or drug combination that meets the clinical eligibility recommendations of CDC guidelines for antiretroviral treatment following potential exposure to HIV issued as of March 8, 2024.
- “Preexposure prophylaxis” means a drug or drug combination that meets the clinical eligibility recommendations of CDC guidelines for antiretroviral treatment for the prevention of HIV transmission issued as of March 8, 2024.

The bill authorizes a pharmacist to screen an adult for HIV and provide the results to that adult without a CPA. If the results of the screening are positive, the pharmacist must advise the patient that he or she should seek further medical consultation or treatment from a physician.

The bill requires that for a pharmacist to order or dispense HIV prevention or treatment drugs under a CPA, the pharmacist must be certified by the BOP to:

- Hold an active and unencumbered license to practice pharmacy;
- Be engaged in the active practice of pharmacy;
- Have a Ph.D. degree in pharmacy or have completed at least 5 years of experience as a licensed pharmacist;
- Maintain at least $250,000 of liability coverage, or liability coverage.
- Have completed a course approved by the BOP, in consultation with the Board of Medicine and the Board of Osteopathic Medicine, which includes, at a minimum, instruction on all of the following:
  - Performance of patient assessments:
  - Point-of-care testing procedures:
  - Safe and effective treatment of HIV exposure with HIV infection prevention drugs, including, but not limited to:
    - Consideration of the side effects.
    - The patient’s diet and activity levels.
  - Identification of contraindications;
  - Identification of comorbidities in individuals with HIV requiring further medical evaluation and treatment, including:
    - Cardiovascular disease;
    - Lung and liver cancer;
    - Chronic obstructive lung disease; and
    - Diabetes.

The bill requires the BOP to adopt rules to implement the bill’s provisions.

The bill provides an effective date of July 1, 2024.

**IV. Constitutional Issues:**

A. Municipality/County Mandates Restrictions:

   None.

B. Public Records/Open Meetings Issues:

   None.

C. Trust Funds Restrictions:

   None.

D. State Tax or Fee Increases:

   None.
E. Other Constitutional Issues:
None.

V. Fiscal Impact Statement:
A. Tax/Fee Issues:
None.

B. Private Sector Impact:
To the extent that pharmacists provide HIV testing or become certified and enter into CPAs with physicians under the bill, HIV testing and treatment might become more accessible.

C. Government Sector Impact:
None.

VI. Technical Deficiencies:
None.

VII. Related Issues:
Unlike the current statutory provisions for a “collaborative pharmacy practice agreement” relating to treatment of chronic conditions found in s. 465.1865, F.S., the bill does not define a “collaborative practice agreement” nor provide requirements for what the agreement must contain or what form it must take. Notable differences can be found between the two agreements in the following examples of requirements for a CPPA that are not required for a CPA:
• Must be in writing and signed by both practitioners.
• Applies only to the collaborating physician’s patients who are named in the agreement.
• Mandatory terms-and-conditions and contents.
• Duration limitations unless renewed.
• Provisions for termination of the agreement.
• Certain actions prohibited.
• Employer permission (if applicable).
• Continuing education.
• Record-keeping.

VIII. Statutes Affected:
This bill creates section 465.1861 of the Florida Statutes.
IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill’s introducer or the Florida Senate.
The Committee on Health Policy (Calatayud) recommended the following:

**Senate Amendment (with title amendment)**

Delete everything after the enacting clause and insert:

Section 1. Section 465.1861, Florida Statutes, is created to read:

465.1861 Ordering and dispensing HIV drugs.—

(1) As used in this section, the term:

(a) “HIV” means the human immunodeficiency virus.

(b) “HIV infection prevention drug” means preexposure
prophylaxis, postexposure prophylaxis, and any other drug
approved by the United States Food and Drug Administration for
the prevention of HIV infection as of March 8, 2024.

(c) “HIV postexposure prophylaxis drug” means a drug or
drug combination that meets the clinical eligibility
recommendations of the United States Centers for Disease Control
and Prevention guidelines for antiretroviral treatment following
potential exposure to HIV issued as of March 8, 2024.

(d) “HIV preexposure prophylaxis drug” means a drug or drug
combination that meets the clinical eligibility recommendations
of the United States Centers for Disease Control and Prevention
guidelines for antiretroviral treatment for the prevention of
HIV transmission issued as of March 8, 2024.

(2) A pharmacist may screen an adult for HIV exposure and
provide the results to that adult, with the advice that the
patient should seek further medical consultation or treatment
from a physician.

(3) A pharmacist may dispense HIV preexposure prophylaxis
drugs only pursuant to a valid prescription issued by a licensed
health care practitioner authorized by the laws of this state to
prescribe such drugs.

(4) A pharmacist may order and dispense HIV postexposure
prophylaxis drugs only pursuant to a written collaborative
practice agreement between the pharmacist and a physician
licensed under chapter 458 or chapter 459 who practices medicine
or osteopathic medicine in the same geographic area as the
pharmacist. As used in this subsection, the term “geographic
area” means the county or counties, or any portion of the county
or counties, within which the pharmacist and the physician
provide health care services.

(a) The written collaborative practice agreement must include particular terms and conditions imposed by the supervising physician relating to the screening for HIV and the ordering and dispensing of HIV postexposure prophylaxis drugs under this section. The terms and conditions of the practice agreement must be appropriate for the pharmacist’s training, and the supervising physician is responsible for reviewing the pharmacist’s actions in accordance with the practice agreement. A pharmacist who enters into such a practice agreement with a supervising physician must submit the agreement to the board.

(b) At a minimum, a written collaborative practice agreement must include all of the following:

1. Specific categories of patients the pharmacist is authorized to screen for HIV and for whom the pharmacist may order and dispense HIV postexposure prophylaxis drugs.

2. The physician’s instructions for obtaining relevant patient medical history for the purpose of identifying disqualifying health conditions, adverse reactions, and contraindications to the use of HIV postexposure prophylaxis drugs.

3. A process and schedule for the physician to review the pharmacist’s actions under the practice agreement.

4. Any other requirements as established by the board in consultation with the Board of Medicine and the Board of Osteopathic Medicine.

(c) A pharmacist authorized to screen for HIV and order and dispense HIV postexposure prophylaxis drugs pursuant to a written collaborative practice agreement must provide his or her
(5) A pharmacist who orders and dispenses HIV postexposure prophylaxis drugs pursuant to subsection (4) must provide the patient with written information advising the patient to seek follow-up care from his or her primary care physician. If the patient indicates that he or she lacks regular access to primary care, the pharmacist must comply with the procedures of the pharmacy’s approved access-to-care plan as provided in subsection (7).

(6) Before ordering or dispensing HIV postexposure prophylaxis drugs under this section, a pharmacist must be certified by the board, according to the rules adopted by the board, in consultation with the Board of Medicine and the Board of Osteopathic Medicine. To be certified, a pharmacist must, at a minimum, meet all of the following criteria:

(a) Hold an active and unencumbered license to practice pharmacy under this chapter.

(b) Be engaged in the active practice of pharmacy.

(c) Have earned a degree of doctor of pharmacy or have completed at least 3 years of experience as a licensed pharmacist.

(d) Maintain at least $250,000 of liability coverage. A pharmacist who maintains liability coverage pursuant to s. 465.1865 or s. 465.1895 satisfies this requirement.

(e) Have completed a course approved by the board, in consultation with the Board of Medicine and the Board of Osteopathic Medicine, which includes, at a minimum, instruction on all of the following:

2. Point-of-care testing procedures.

3. Safe and effective treatment of HIV exposure with HIV infection prevention drugs, including, but not limited to, consideration of the side effects of the drug dispensed and the patient’s diet and activity levels.

4. Identification of contraindications.

5. Identification of patient comorbidities in individuals with HIV requiring further medical evaluation and treatment, including, but not limited to, cardiovascular disease, lung and liver cancer, chronic obstructive lung disease, and diabetes mellitus.

(7) The board shall adopt by rule reasonable and fair minimum standards to ensure that all pharmacies that provide adult screening for HIV exposure submit to the department for approval an access-to-care plan (ACP) for assisting patients to gain access to appropriate care settings when they present to the pharmacy for HIV screening and indicate that they lack regular access to primary care.

(a) An ACP must include:

1. Procedures to educate such patients about care that would be best provided in a primary care setting and the importance of receiving regular primary care.

2. A collaborative partnership with one or more nearby federally qualified health centers, county health departments, or other primary care settings. The goals of such partnership must include, but need not be limited to, identifying patients who have presented to the pharmacy for HIV screening or access to HIV infection prevention drugs, and, if such a patient
indicates that he or she lacks regular access to primary care, proactively seeking to establish a relationship between the patient and a federally qualified health center, county health department, or other primary care setting so that the patient develops a medical home at such setting for primary health care services. A pharmacy that establishes one or more collaborative partnerships under this subparagraph may not enter into an arrangement relating to such partnership which would prevent a federally qualified health center, county health department, or other primary care setting from establishing collaborative partnerships with other pharmacies.

(b) Effective July 1, 2025, a pharmacy’s ACP must be approved by the department before the pharmacy may receive initial licensure or licensure renewal occurring after that date. A pharmacy with an approved ACP must submit data to the department regarding the implementation and results of its plan as part of the licensure renewal process, or as directed by the department, before each licensure renewal.

(8) The board shall adopt rules to implement this section.

Section 2. This act shall take effect July 1, 2024.

And the title is amended as follows:

Delete everything before the enacting clause and insert:

A bill to be entitled An act relating to HIV infection prevention drugs; creating s. 465.1861, F.S.; defining terms; authorizing pharmacists to screen adults for HIV
exposure and provide the results to such adults, with advice to seek consultation or treatment from a physician; authorizing pharmacists to dispense HIV preexposure prophylaxis drugs only pursuant to a prescription; authorizing pharmacists to order and dispense HIV postexposure prophylaxis drugs only pursuant to a written collaborative practice agreement with a physician; defining the term “geographic area”; specifying requirements for the practice agreements; requiring the supervising physician to review the pharmacist’s actions in accordance with the practice agreement; requiring pharmacists who enter into such practice agreements to submit the agreements to the Board of Pharmacy; requiring pharmacists who enter into such practice agreements to provide evidence of certain certification to their supervising physician; requiring such pharmacists to provide certain written information when dispensing such drugs to patients; requiring pharmacists to comply with certain procedures under certain circumstances; requiring pharmacists to be certified by the Board of Pharmacy before ordering or dispensing HIV postexposure prophylaxis drugs; requiring the board, in consultation with the Board of Medicine and the Board of Osteopathic Medicine, to adopt rules for such certification; specifying minimum requirements for the certification; requiring the board to adopt by rule certain minimum standards to ensure that pharmacies providing adult screenings for HIV exposure submit to
the Department of Health for approval an access-to-care plan (ACP) for a specified purpose; specifying requirements for ACPs; requiring that, beginning on a specified date, such ACPs be approved before a license may be issued or renewed; requiring such pharmacies to submit specified data to the department as part of the licensure renewal process and, or as directed by the department, before each licensure renewal; requiring the board to adopt rules; providing an effective date.
A bill to be entitled
An act relating to HIV infection prevention drugs;
creating s. 465.1861, F.S.; defining terms;
authorizing pharmacists to screen adults for HIV
exposure and provide the results to such adults;
requiring pharmacists to advise individuals to seek
consultation and treatment from a physician if the
screening results are positive; authorizing
pharmacists to order and dispense HIV infection
prevention drugs only pursuant to a collaborative
practice agreement with a physician; requiring
pharmacists to be certified by the Board of Pharmacy
before ordering and dispensing HIV infection
prevention drugs; requiring the board, in consultation
with the Board of Medicine and the Board of
Osteopathic Medicine, to adopt rules for such
certification; specifying minimum requirements for the
certification; requiring the board to adopt rules;
providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 465.1861, Florida Statutes, is created
to read:

465.1861 Ordering and dispensing HIV drugs.—
(1) As used in this section, the term:
(a) “HIV” means the human immunodeficiency virus.
(b) “HIV infection prevention drug” means preexposure
prophylaxis, postexposure prophylaxis, and any other drug
approved by the United States Food and Drug Administration for the prevention of HIV infection as of March 8, 2024.

(c) “Postexposure prophylaxis” means a drug or drug combination that meets the clinical eligibility recommendations of the United States Centers for Disease Control and Prevention guidelines for antiretroviral treatment following potential exposure to HIV issued as of March 8, 2024.

(d) “Preexposure prophylaxis” means a drug or drug combination that meets the clinical eligibility recommendations of the United States Centers for Disease Control and Prevention guidelines for antiretroviral treatment for the prevention of HIV transmission issued as of March 8, 2024.

(2) A pharmacist may screen an adult for HIV exposure and provide the results to that adult. If the results of the screening are positive, the pharmacist must advise the patient that he or she should seek further medical consultation or treatment from a physician.

(3) A pharmacist may order and dispense HIV infection prevention drugs only pursuant to a collaborative practice agreement between the pharmacist and a physician licensed under chapter 458 or chapter 459.

(4) Before ordering or dispensing HIV infection prevention drugs under this section, a pharmacist must be certified by the board, according to the rules adopted by the board, in consultation with the Board of Medicine and the Board of Osteopathic Medicine. To be certified, a pharmacist must, at a minimum, meet all of the following criteria:

(a) Hold an active and unencumbered license to practice pharmacy under this chapter.
(b) Be engaged in the active practice of pharmacy.

(c) Have earned a degree of doctor of pharmacy or have completed at least 5 years of experience as a licensed pharmacist.

(d) Maintain at least $250,000 of liability coverage. A pharmacist who maintains liability coverage pursuant to ss. 465.1865 or s. 465.1895 satisfies this requirement.

(e) Have completed a course approved by the board, in consultation with the Board of Medicine and the Board of Osteopathic Medicine, which includes, at a minimum, instruction on all of the following:

BILL ANALYSIS AND FISCAL IMPACT STATEMENT
(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Health Policy

BILL: SB 458
INTRODUCER: Senator Brodeur
SUBJECT: Invalid Restrictive Covenants in Health Care
DATE: January 29, 2024
REvised: __________  __________  __________  __________  __________

1. Looke
   2. __________
   3. __________

ANALYST  STAFF DIRECTOR  REFERENCE  ACTION
Brown  HP  Pre-meeting
CF  RC

I. Summary:

SB 458 amends s. 542.336, F.S., to prohibit any restrictive covenant entered into with an allopathic or osteopathic physician which restricts the physician from practicing medicine in any geographic area for any period of time after the termination of his or her contract or other employment relationship. The bill provides exceptions from the prohibition for restrictive covenants related to research, related to physicians whose individual compensation is $160,000 per year or more, or related to physicians who have or have sold an ownership interest in a practice or an affiliate. The bill specifies that its provisions apply to restrictive covenants entered into on or after July 1, 2024.

The bill provides an effective date of July 1, 2024.

II. Present Situation:

Federal Antitrust Laws

In 1890, Congress passed the first antitrust law, the Sherman Act, as a comprehensive charter of economic liberty aimed at preserving free and unfettered competition as the rule of trade. Congress subsequently passed two additional antitrust laws in 1914: the Federal Trade Commission Act, which created the Federal Trade Commission (FTC), and the Clayton Act. Currently, these are the three core federal antitrust laws.¹

The Sherman Act

The Sherman Act outlaws every contract, combination, or conspiracy in restraint of trade, and any monopolization, attempted monopolization, or conspiracy or combination to monopolize.

The Sherman Act does not prohibit every restraint of trade – only those that are unreasonable. For example, an agreement between two individuals to form a partnership may restrain trade, but may not do so unreasonably, and thus may be lawful under the antitrust laws. In contrast, certain acts are considered “per se” violations of the Sherman Act because they are harmful to competition. These include plain arrangements among competing individuals or businesses to fix prices, divide markets, or rig bids.\(^2\)

The penalties for violating the Sherman Act can be severe. Although most enforcement actions are civil, the Sherman Act is also a criminal law, and individuals and businesses that violate it may be prosecuted by the U.S. Department of Justice (DOJ). Criminal prosecutions are typically limited to intentional and clear violations. The Sherman Act imposes criminal penalties of up to $100 million for a corporation and $1 million for an individual, along with up to 10 years in prison.\(^3\) Under some circumstances, the maximum fines can reach twice the gain or loss involved.\(^4\)

**The Federal Trade Commission Act**

The Federal Trade Commission Act prohibits unfair methods of competition and unfair or deceptive acts or practices. The U.S. Supreme Court has ruled that all violations of the Sherman Act also violate the FTC Act. Therefore, the FTC can bring cases under the FTC Act against the same kinds of activities that violate the Sherman Act. The FTC Act also reaches other practices that harm competition but may not fit neatly into categories of conduct formally prohibited by the Sherman Act. Only the FTC may bring cases under the FTC Act.\(^5\)

**The Clayton Act**

The Clayton Act addresses specific practices that the Sherman Act does not clearly prohibit, such as mergers and interlocking directorates.\(^6\) It also bans mergers and acquisitions where the effect may substantially lessen competition or create a monopoly. As amended by the Robinson-Patman Act of 1936, the Clayton Act also prohibits certain discriminatory prices, services, and allowances in dealings between merchants. The Clayton Act was amended again in 1976 by the Hart-Scott-Rodino Antitrust Improvements Act to require companies planning large mergers or acquisitions to notify the government of their plans in advance. Additionally, private parties are authorized to sue for triple damages when they have been harmed by conduct that violates either the Sherman or Clayton Act and to obtain a court order prohibiting the anticompetitive practice prospectively.\(^7\)

---

\(^2\) *Id.*

\(^4\) *Id.*

\(^6\) “Interlocking directorates” means the same person making business decisions for competing companies. *See also Id.*

\(^7\) *Id.*
Florida Antitrust Laws

Florida law also provides protections against anticompetitive practices. Chapter 542, F.S., the Florida Antitrust Act of 1980, has a stated purpose to complement the body of federal law prohibiting restraints of trade or commerce in order to foster effective competition. It outlaws every contract, combination, or conspiracy in restraint of trade or commerce in Florida and any person from monopolizing or attempting or conspiring to monopolize any part of trade.

Contracts in Restraint of Trade or Commerce

Generally, a contract in restraint of trade or commerce in Florida is unlawful. However, non-competition restrictive covenants contained in employment agreements that are reasonable in time, area, and line of business, are not prohibited. In any action concerning enforcement of a restrictive covenant, a court may not enforce a restrictive covenant unless it is set forth in a writing signed by the person against whom enforcement is sought, and the person seeking enforcement of a restrictive covenant must prove the existence of one or more legitimate business interests justifying the restrictive covenant. The term “legitimate business interest” includes, but is not limited to:

- Trade secrets;
- Valuable confidential business or professional information that does not otherwise qualify as trade secrets;
- Substantial relationships with specific prospective or existing customers, patients, or clients;
- Customer, patient, or client goodwill associated with:
  - An ongoing business or professional practice, by way of trade name, trademark, service mark, or “trade dress;”
  - A specific geographic location; or
  - A specific marketing or trade area; or
- Extraordinary or specialized training.

Any restrictive covenant not supported by a legitimate business interest is unlawful and is void and unenforceable. A person seeking enforcement of a restrictive covenant must prove that the contractually specified restraint is reasonably necessary to protect the legitimate business interest or interests justifying the restriction.

---

8 Section 542.16, F.S.
9 Section 542.18, F.S.
10 Section 542.19, F.S.
11 Section 542.18, F.S.
12 Section 542.335, F.S. employs the term “restrictive covenants” and includes all contractual restrictions such as noncompetition/nonsolicitation agreements, confidentiality agreements, exclusive dealing agreements, and all other contractual restraints of trade. See Hennα v. Prof'l Shoe Repair, Inc., 929 So.2d 723, 726 (Fla. 5th DCA 2006).
13 Section 542.335(1), F.S.
14 Id.
15 Section 688.002(4), F.S., defines a trade secret as information, including a formula, pattern, compilation, program, device, method, technique, or process that derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from its disclosure or use; and is the subject of efforts that are reasonable under the circumstances to maintain its secrecy.
16 Section 542.335(1)(b), F.S.
17 Id.
18 Section 542.335(1)(c), F.S.
Restrictive Covenants in Florida Health Care

Under s. 542.336, F.S., a restrictive covenant entered into with a physician who practices a medical specialty in a county where one entity employs or contracts with all physicians who practice that specialty in that county, is not supported by a legitimate business interest and is void and unenforceable. The restrictive covenant remains void and unenforceable until three years after the date on which a second entity that employs or contracts with one or more physicians who practice that specialty begins serving patients in that county.

21st Century Oncology, Inc., sought a preliminary injunction to enjoin the application and enforcement of this statute. In August of 2019, the U.S. District Court for the Northern District of Florida denied the injunction. While s. 542.336, F.S., was found to impair the plaintiff’s employment contracts within the meaning of the Contracts Clause, the court held that the degree of impairment did not outweigh the statute’s significant, legitimate public purpose.

III. Effect of Proposed Changes:

SB 458 amends s. 542.336, F.S., to declare that any restrictive covenant entered into with an allopathic or osteopathic physician which restricts the physician from practicing medicine in any geographic area for any period of time after the termination of his or her contract, partnership, employment, independent contractor arrangement, or professional relationship or other employment relationship is not supported by a legitimate business interest and is void and unenforceable.

The bill provides exceptions from the provisions of the bill described above for restrictive covenants that are:

- Related to any research conducted by the physician under the terms of a contract or in furtherance of a partnership, employment, or professional relationship, if the covenant does not impair the continuing care and treatment of a specific patient or patients whose care and treatment were part of the research;
- Related to physicians whose individual compensation is $160,000 per year or more. The bill defines individual compensation to mean:
  - For an employed physician, the amount of wages, bonuses, benefits, and salary paid to the physician for the previous tax year or expected to be paid for the current tax year; or
  - For a physician with a partnership or similar ownership interest in the profits of a practice, the amount of business income attributed to the physician for the previous tax year or expected to be attributed to the physician for the current tax year; or
- Related to physicians who have or have sold an ownership interest in a practice or an affiliate.

19 Section 542.336, F.S.
20 Id.
21 “The ostensible public purpose of section 542.336 is to reduce healthcare costs and improve patients' access to physicians. See § 542.336, Fla. Stat. (2019); ECF No. 64 at 8 (Attorney General's post-hearing brief, stating “section 542.336 explicitly sets forth its own rational basis in declaring that the restrictive covenants addressed by it are not supported by a legitimate business interest, restrict patient access to physicians, and increase costs”). It is well settled that access to affordable healthcare is a legitimate state interest.” 21st Century Oncology, Inc. v. Moody, 402 F. Supp. 3d 1351, 1359 (N.D. Fla. 2019).
The bill specifies that its provisions apply to restrictive covenants entered into on or after July 1, 2024.

The bill provides an effective date of July 1, 2024.

**IV. Constitutional Issues:**

A. Municipality/County Mandates Restrictions:
   None.

B. Public Records/Open Meetings Issues:
   None.

C. Trust Funds Restrictions:
   None.

D. State Tax or Fee Increases:
   None.

E. Other Constitutional Issues:
   None.

**V. Fiscal Impact Statement:**

A. Tax/Fee Issues:
   None.

B. Private Sector Impact:
   Prohibiting restrictive covenants as provided in the bill may provide patients with more access to physicians and decrease health care costs.

C. Government Sector Impact:
   None.

**VI. Technical Deficiencies:**

None.

**VII. Related Issues:**

None.
VIII. Statutes Affected:

This bill substantially amends section 542.336 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill’s introducer or the Florida Senate.
The Committee on Health Policy (Brodeur) recommended the following:

**Senate Amendment**

Delete lines 47 - 61 and insert:

totals at least $250,000 per year. As used in this subparagraph, the term “compensation” means:

a. For an employed physician, the amount of wages, bonuses, benefits, and salary paid to the physician for the previous tax year or expected to be paid for the current tax year; or

b. For a physician with a partnership or similar ownership...
interest in the profits of a practice, the amount of business income attributed to the physician for the previous tax year or expected to be attributed to the physician for the current tax year.

3. For a physician who has any ownership interest in a medical business, practice, or entity of any kind and who sells:
   a. The goodwill of such business, practice, or entity;
   b. Any or all of his or her ownership interest in such business, practice, or entity; or
   c. Any or all portions of the assets of such business, practice, or entity together with its goodwill and who contractually agrees with a buyer of such business, practice, or entity, or portion thereof, to refrain from carrying on a competing business, practice, or entity within a specified geographic area reasonably necessary to protect the legitimate business interest of the acquiring party or the acquired business, practice, or entity.
A bill to be entitled
An act relating to invalid restrictive covenants in
health care; amending s. 542.336, F.S.; specifying
that certain restrictive covenants in employment
agreements relating to certain licensed physicians are
not supported by a legitimate business interest;
specifying that such restrictive covenants are void
and unenforceable; providing applicability; defining
the term “compensation”; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 542.336, Florida Statutes, is amended to
read:

542.336 Invalid restrictive covenants.—
(1) A restrictive covenant entered into with a physician
who is licensed under chapter 458 or chapter 459 and who
practices a medical specialty in a county wherein one entity
employs or contracts with, either directly or through related or
affiliated entities, all physicians who practice such specialty
in that county is not supported by a legitimate business
interest. The Legislature finds that such covenants restrict
patient access to physicians, increase costs, and are void and
unenforceable under current law. Such restrictive covenants
shall remain void and unenforceable for 3 years after the date
on which a second entity that employs or contracts with, either
directly or through related or affiliated entities, one or more
physicians who practice such specialty begins offering such
specialty services in that county.
(2) A restrictive covenant entered into with a physician who is licensed under chapter 458 or chapter 459 which restricts the physician from practicing medicine in any geographic area for any period of time after the termination of a contract, partnership, employment, independent contractor arrangement, or professional relationship is not supported by a legitimate business interest. Such restrictive covenants are void and unenforceable.

(a) This subsection does not apply to a restrictive covenant that is:
1. Related to any research conducted by the physician under the terms of a contract or in furtherance of a partnership, employment, or professional relationship; provided, however, that the covenant does not impair the continuing care and treatment of a specific patient or patients whose care and treatment were part of the research.
2. Related to physicians whose individual compensation totals at least $160,000 per year. As used in this subparagraph, the term “compensation” means:
   a. For an employed physician, the amount of wages, bonuses, benefits, and salary paid to the physician for the previous tax year or expected to be paid for the current tax year; or
   b. For a physician with a partnership or similar ownership interest in the profits of a practice, the amount of business income attributed to the physician for the previous tax year or expected to be attributed to the physician for the current tax year.
3. Related to physicians who have an ownership interest in a practice, or an affiliated entity of a practice, such as a
management services organization or subsidiary, or such physicians who have sold or otherwise transferred an ownership interest in a practice.

(b) This subsection applies to restrictive covenants entered into on or after July 1, 2024.

Section 2. This act shall take effect July 1, 2024.
December 5, 2023

The Honorable Colleen Burton  
Chair, Committee on Health Policy  
318 Senate Building  
404 South Monroe Street  
Tallahassee, FL 32399-1100

Dear Chair Burton,

I respectfully request that Senate Bill 458, Invalid Restrictive Covenants in Health Care, be placed on the agenda of the Health Policy Committee meeting to be considered at your earliest convenience.

If you have any questions or concerns, please do not hesitate to reach out to me or my office.

Sincerely,

Senator Jason Brodeur – District 10

CC: Allen Brown – Staff Director  
Anhar Al-Asadi – Administrative Assistant  
Daniel Looke – Deputy Staff Director
