I. Summary:

As required by state and federal law, the proposed committee bill apportions Florida into congressional districts.

This proposed committee bill substantially amends Chapter 8 of the Florida Statutes.

II. Present Situation:

The United States Constitution requires the Legislature periodically to reapportion the state into congressional districts.¹ Florida currently is apportioned into 25 single-member congressional districts.²

The 2010 Census revealed uneven population growth across the state during the last 10 years. Districts must be adjusted to correct population differences. Based on the 2010 Census, Florida was apportioned two additional congressional districts, increasing its representation to 27. The ideal population of each of the 27 congressional districts in Florida is 696,345. Currently, the congressional district with the largest population has 929,533 persons (233,188 more than the ideal), and the congressional district with the smallest population has 633,889 persons (62,456 less than the ideal).

Redistricting plans must comply with all requirements of the United States Constitution, the federal Voting Rights Act of 1965, the Florida Constitution, and applicable court decisions.

¹ See U.S. Const. Amend. XIV; *Wesberry v. Sanders*, 376 U.S. 1 (1964).

² Fla. HB 1993 (2002).

The United States Constitution

The United States Supreme Court has interpreted Article I, Section 2 of the United States Constitution to require that congressional districts be as nearly equal in population as practicable.³ In the creation of congressional districts, the so-called “one person, one vote” requires the Legislature to make a good-faith effort to achieve precise mathematical equality.⁴ The Constitution permits population variances that are (1) unavoidable despite a good-faith effort to achieve absolute equality; or (2) necessary to achieve a legitimate goal.⁵ In the case of congressional districts, however, the Court has allowed no *de minimis* population variances.⁶

The Equal Protection Clause limits the influence of race in redistricting. If race is the predominant factor in redistricting, such that traditional, race-neutral redistricting principles are subordinated to considerations of race, the redistricting plan will be subject to strict scrutiny.⁷ To satisfy strict scrutiny, the use of race as a predominant factor must be narrowly tailored to achieve a compelling interest.⁸ The United States Supreme Court has held that the interest of the state in remedying the effects of identified racial discrimination may be compelling,⁹ and it has assumed, but has not decided, that compliance with the requirements of the federal Voting Rights Act likewise justifies the use of race as a predominant factor in redistricting.¹⁰

The United States Supreme Court has construed the Equal Protection Clause to prohibit political gerrymanders,¹¹ but it has not identified judicially discernible and manageable standards by which such claims are to be resolved.¹² Political gerrymandering cases, therefore, remain sparse.

The Federal Voting Rights Act

In some circumstances, Section 2 of the federal Voting Rights Act requires the creation of a district that performs for minority voters. Section 2 requires, as necessary preconditions, that (1) the minority group be sufficiently large and geographically compact to constitute a numerical majority in a single-member district; (2) the minority group be politically cohesive; and (3) the majority vote sufficiently as a bloc to enable it usually to defeat the candidate preferred by the minority group.¹³ If each of these preconditions is established, Section 2 will require the creation of a performing minority district if, based on the totality of the circumstances, it is demonstrated

that members of the minority group have less opportunity than other members of the electorate to participate in the political process and to elect representatives of their choice.¹⁴

Section 5 of the Voting Rights Act protects the electoral opportunities of minority voters in covered jurisdictions from retrogression, or backsliding.¹⁵ In Florida, Section 5 covers five counties: Collier, Hardee, Hendry, Hillsborough, and Monroe.¹⁶ Section 5 requires that, before its implementation in a covered jurisdiction, any change in electoral practices (including the enactment of a new redistricting plan) be submitted to the United States Department of Justice or to the federal District Court for the District of Columbia for review and preclearance.¹⁷ A change in electoral practices is entitled to preclearance if, with respect to minority voters in the covered jurisdictions, the change has neither a discriminatory purpose nor diminishes the ability of any citizens on account of race or color to elect their preferred candidates.¹⁸

The Florida Constitution

In 2010, voters amended the Florida Constitution to create standards for establishing congressional district boundaries.¹⁹ The new standards are set forth in two tiers. To the extent that compliance with second-tier standards conflicts with compliance with first-tier standards, the second-tier standards do not apply.²⁰ The order in which the standards are set forth within either tier does not establish any priority of one standard over another within the same tier.²¹

The first tier provides that no apportionment plan or district shall be drawn with the intent to favor or disfavor a political party or an incumbent.²² Redistricting decisions unconnected with an intent to favor or disfavor a political party and incumbent do not violate this provision of the Florida Constitution, even if their effect is to favor or disfavor a political party or incumbent.²³

¹⁷ 42 U.S.C. § 1973c(a).

¹⁸ 42 U.S.C. § 1973c(b), (c). Apart from the Voting Rights Act, federal law directs that congressional districts be single-member districts. 2 U.S.C. § 2c. Congress enacted this requirement pursuant to its authority to regulate the times, places, and manner of holding congressional elections. *See* U.S. Const. Art. I, § 4, cl. 1.

¹⁹ Art. III, § 20, Fla. Const. Before the adoption of the amendment, the Florida Constitution did not regulate congressional redistricting. Two members of Congress have challenged the constitutionality of the new standards in federal court. They allege that, because the new standards purport to regulate congressional elections, its method of enactment violates Article I, Section 4 of the United States Constitution. The plaintiffs were unsuccessful in the district court but have appealed to the Eleventh Circuit. *See Brown v. Browning*, No. 1:10-cv-23968-UU, slip op. (S.D. Fla. Sep. 9, 2011), *appeal docketed*, No. 11-14554 (11th Cir. Oct. 3, 2011).

²⁰ Art. III, § 20(c), Fla. Const.

²¹ *Id.*

²² Art. III, § 20(a), Fla. Const. The statutes and constitutions of several states contain similar prohibitions. *See, e.g.*, Cal. Const. Art. XXI, § 2(e); Del. Const. Art. II, § 2A; Haw. Const. Art. IV, § 6; Wash. Const. Art. II, § 43(5); Iowa Code § 42.4(5); Mont. Code Ann. § 5-1-115(3); Or. Rev. Stat. § 188.010(2); Wash. Rev. Code § 44-05-090(5). These standards have been the subject of little litigation. In *Hartung v. Bradbury*, 33 P.3d 972, 987 (Or. 2001), the court held that “the mere fact that a particular reapportionment may result in a shift in political control of some legislative districts (assuming that every registered voter votes along party lines),” does not show that a redistricting plan was drawn with an improper intent.

²³ It is well recognized that political *consequences* are inseparable from the redistricting process. *See, e.g., Vieth v. Jubelirer*, 541 U.S. 267, 343 (2004) (Souter, J., dissenting) (“The choice to draw a district line one way, not another, always carries some consequence for politics, save in a mythical State with voters of every political identity distributed in an absolutely gray uniformity.”).

The first tier of the new standards also provides two distinct protections for racial and language minorities. First, districts may not be drawn with the intent or result of denying or abridging the equal opportunity of minorities to participate in the political process. Second, districts may not be drawn to diminish the ability of racial or language minorities to elect representatives of their choice.²⁴ The second standard is comparable in its text to Section 5 of the federal Voting Rights Act, as amended in 2006, but is not limited to the five counties protected by Section 5.²⁵

On March 29, 2011, the Florida Legislature submitted the new standards to the United States Department of Justice for preclearance. In the submission, the Legislature took the position that the two protections for racial and language minorities collectively ensure that the Legislature's traditional power to maintain and even increase minority voting opportunities is not impaired or diminished by other, potentially conflicting standards in the constitutional amendment, and that the Legislature may continue to employ, without change, the same methods to preserve and enhance minority representation as it has employed with so much success in recent decades.²⁶ Without comment, the Department of Justice granted preclearance on May 31, 2011.²⁷

The first tier also requires that districts consist of contiguous territory.²⁸ In the context of state legislative districts, the Florida Supreme Court has held that a district is contiguous if no part of the district is isolated from the rest of the district by another district.²⁹ In a contiguous district, a person can travel from any point within the district to any other point without departing from the district.³⁰ A district is not contiguous if its parts touch only at a common corner, such as a right angle.³¹ The Court has also concluded that the presence in a district of a body of water without a connecting bridge, even if it requires land travel outside the district in order to reach other parts of the district, does not violate contiguity.³²

The second tier of standards requires that districts be compact.³³ The various measures of compactness that courts in other states have utilized include mathematical calculations that compare districts according to their areas, perimeters, and other geometric criteria,³⁴ and broader considerations of how actual communities relate to one another to form effective representational

units.³⁵ Geometric compactness considers the shapes of particular districts and the closeness of the territory of each district, while functional compactness looks to commerce, transportation, communication, and other practical measures that unite communities, facilitate access to elected officials, and promote the integrity and cohesiveness of districts for representational purposes.

Whether explicitly or implicitly, courts in most states appear to balance considerations of geometric and functional compactness. Courts recognize that perfect geometric compactness, which consists of circles or regular simple polygons, is impracticable and not required.³⁶ Thus, in assessing whether the legislature has achieved a reasonable degree of compactness, courts in different jurisdictions have considered combinations of the following criteria:

- Whether the shape of the district is regular or irregular.³⁷
- Whether the territory of the district is closely united.³⁸
- Whether constituents in the district are able to relate to and interact with one another.³⁹
- Whether constituents in the district are able to access and communicate with their elected officials.⁴⁰
- Whether the district is interconnected through commerce, transportation, and communication.⁴¹
- Whether the shape of the district is affected by the physical boundaries of the state.⁴²
- Whether the shape of the district is affected by a good-faith consideration and balancing of other legal requirements of equal importance.⁴³
- Whether the shape of the district is affected by the one-person, one-vote requirement, in light of uneven population distributions.⁴⁴

- Whether the shape of the district is affected by non-compact minority districts.⁴⁵

Because the considerations that influence compactness are multi-faceted and fact-intensive, courts tend to agree that mere visual inspection is ordinarily insufficient to determine compliance with a compactness standard,⁴⁶ and that an evaluation of compactness requires a factual setting.⁴⁷

In addition to compactness, the second tier of standards requires that, where feasible, districts utilize existing political and geographical boundaries.⁴⁸ One principal purpose of a requirement to follow established boundaries is to aid voters in orienting themselves to the territory of their new districts.⁴⁹ An interpretation consistent with this policy would encourage the use of natural geographical features, such as bays, lakes, rivers, and other water areas, as well as commonly known geographical demarcations, such as interstate highways and, in urban areas, well-traveled thoroughfares. The term “political boundaries” refers, at a minimum, to the boundaries of cities and counties.⁵⁰ The Florida Constitution accords no preference to political over geographical boundaries.⁵¹

The Constitution recognizes that, in the creation of districts, it will often not be “feasible” to trace political and geographical boundaries.⁵² District boundaries might depart from political and geographical boundaries to achieve objectives of superior importance, such as population equality and the protection of minorities, and many political subdivisions are not compact. Some local boundaries may be ill-suited to the achievement of effective and meaningful representation.

Public Outreach and Input

In the summer of 2011, the House and Senate initiated an extensive public outreach campaign. On May 6, 2011, the Senate Committee on Reapportionment and the House Redistricting Committee jointly announced the schedule for a statewide tour of 26 public hearings. The purpose of the hearings was to receive public comments to assist the Legislature in its creation of new redistricting plans. The schedule included stops in every region of the state, in rural and urban areas, and in all five counties subject to preclearance. The hearings were set primarily in the mornings and evenings to allow a variety of participants to attend. Specific sites were chosen based on their availability and their accessibility to members of each community.

Prior to each hearing, committee staff invited a number of interested parties in the region to attend and participate. Invitations were sent to representatives of civic organizations, public

interest groups, school boards, and county elections offices, as well as to civil rights advocates, county commissioners and administrators, local elected officials, and the chairs and executive committees of statewide political parties. In all, over 4,000 invitations were sent.

In addition to distributing individual invitations, committee staff purchased legal advertisements in local print newspapers for each hearing, including Spanish-language newspapers. The House Redistricting Committee also purchased advertisement space in newspapers and airtime on local radio stations to raise awareness about the hearings. Staff from both chambers also informed the public of the hearings through social media websites.

The impact of the statewide tour and public outreach is observable in multiple ways. During the tour, committee members received testimony from over 1,600 speakers. To obtain an accurate count of attendance, committee staff asked guests to fill out attendance cards. Although not all attendees complied, the total recorded attendance for all 26 hearings amounted to 4,787.

Throughout the summer and at each hearing, legislators and staff encouraged members of the public to draw and submit their own redistricting plans through web applications created and made available on the internet by the House and Senate. At each hearing, staff from both chambers was available to demonstrate how members of the public could illustrate their ideas by means of the redistricting applications. In September 2011, the chairs of the House and Senate committees sent individual letters to more than fifty representatives of public-interest and voting-rights advocacy organizations to invite them to prepare and submit proposed redistricting plans.

As a result of these and other outreach efforts, the public submitted 157 proposed legislative and congressional redistricting plans between May 27 and November 1, 2011. This total represents a dramatic increase from the four plans submitted during the last decennial redistricting process.

III. Effect of Proposed Changes:

Consistent with state and federal law, the proposed committee bill apportions the state into 27 single-member congressional districts. A statistical analysis is attached to this bill analysis.

The districts in the proposed committee bill have an overall range of one person. Twenty-two districts have populations of 696,344, while five districts have populations of 696,345.

For ease of reference, and subject to committee consideration and amendment, the proposed committee bill temporarily assigns to each proposed district a district number based on the benchmark district from which the proposed district receives most of its population.

Where more than one proposed district receives most of its population from the same benchmark district, the proposed district with the larger population from the benchmark district inherits the benchmark district’s number. The other district assumes its number from the next available benchmark district that is not taken by another proposed district.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. Other Constitutional Issues:

All redistricting plans are subject to Section 2 and Section 5 of the federal Voting Rights Act (42 U.S.C. § 1973c). Under Section 5, all statutory changes to procedures relating to voting and elections, to the extent they affect voters in the five counties of Collier, Hardee, Hendry, Hillsborough, and Monroe, are subject to preclearance by the United States Department of Justice or the federal District Court for the District of Columbia.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The 2012 reapportionment will have an undetermined fiscal impact on Florida's election officials, including 67 Supervisor of Elections offices and the Department of State, Division of Elections. Local supervisors will incur the cost of data-processing and labor to change each of Florida's 11 million voter records to reflect new districts. As precincts are aligned to new districts, postage and printing will be required to provide each active voter whose precinct has changed with mail notification. Temporary staffing will be hired to assist with mapping, data verification, and voter inquiries.

VI. Technical Deficiencies:

None.

VII. Related Issues:

A bill to be entitled

An act establishing the congressional districts of the state; amending s. 8.0001, F.S.; revising definitions; amending s. 8.0002, F.S.; redistricting the state's congressional districts in accordance with the United States Decennial Census of 2010 (plan S000C9002); amending s. 8.0111, F.S., relating to the inclusion of unlisted territory in contiguous districts; updating a reference; reenacting s. 8.031, F.S., which provides for the election of representatives to the United States House of Representatives; amending s. 8.0611, F.S.; providing for severability; amending s. 8.07, F.S.; providing for applicability; providing effective dates.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 8.0001, Florida Statutes, is amended to read:

8.0001 Definitions.—In accordance with s. 8(a), Article X of the State Constitution, the United States Decennial Census of 2010 ~~2000~~ is the official census of the state for the purposes of congressional redistricting.

(1) The following delineation of ~~areas to be included in each congressional districts district~~ employs areas included within official county, voting tabulation district, tract, and block boundary descriptions ~~counties, tracts, block groups, and blocks in this state~~ used by the United States Department of Commerce, Bureau of the Census, in compiling the United States

Decennial Census of 2010 in this state ~~2000~~. The populations within these census geographic units ~~areas~~ are the population figures reported in the counts of the United States Decennial Census of 2010 ~~2000~~ provided to the state in accordance with Pub. L. No. 94-171.

(2) As used in this chapter, the term:

(a) "Block" describes the smallest geographic unit ~~means a census block, which is the smallest area~~ for which population was tabulated ~~reported~~ in the 2010 decennial ~~2000~~ census. Blocks are nested within tracts and within voting tabulation districts. A block is identified by a four-digit integer that is unique within a tract but is not necessarily unique within a voting tabulation district.

(b) "Tract" describes a relatively permanent statistical subdivision of a county updated by local participants prior to the 2010 decennial census. Tracts consist of whole blocks and are nested within counties. Tracts are identified uniquely within a county by an up to four-digit integer and may have an optional two-digit suffix.

(c) "Voting tabulation district" describes a subdivision of a county established in Phase 2 of the 2010 Census Redistricting Data Program. Voting tabulation districts consist of whole blocks and are nested within counties. Voting tabulation districts subdivide counties in ways supervisors of elections determined are efficient for conducting elections and keeping communities whole. Voting tabulation districts are identified uniquely within a county by an up to four-digit integer.

~~(b) "Block group" means a cluster of blocks within a tract which have the same first digit in their block identification~~

59 ~~number.~~

60 ~~(e) "Tract" means a census tract, which is a cluster of~~
 61 ~~blocks within a county which is delineated by local committee~~
 62 ~~according to Census Bureau guidelines. Tracts are identified~~
 63 ~~uniquely within a county by a four-digit basic number and may~~
 64 ~~have a two-digit numeric suffix.~~

65 Section 2. Section 8.0002, Florida Statutes, is amended to
 66 read:

67 (Substantial rewording of section. See
 68 s. 8.0002, F.S., for present text.)

69 8.0002 Division of state into congressional districts.-For

 6065 Section 3. Section 8.0111, Florida Statutes, is amended to
 6066 read:
 6067 8.0111 Inclusion of unlisted territory in contiguous
 6068 districts.—Any portion of the state which is not stated in this
 6069 chapter as being included in any district described in this
 6070 chapter but which is entirely surrounded by a district shall be
 6071 deemed to be included within the surrounding ~~that~~ district. Any
 6072 portion of the state which is not included in any district
 6073 described in this chapter and which is not entirely surrounded
 6074 by a district shall be included within that district contiguous
 6075 to such portion that ~~which~~ contains the least population per
 6076 representative according to the United States Decennial Census
 6077 of 2010 ~~2000~~; however, if every district contiguous to such
 6078 portion has an equal population, such portion shall be included
 6079 within the lowest-numbered ~~lowest-numbered~~ district that is
 6080 contiguous to such portion.
 6081 Section 4. Section 8.031, Florida Statutes, is reenacted to
 6082 read:
 6083 8.031 Election of representatives to Congress.—The
 6084 districts named in s. 8.0002 constitute and form the
 6085 congressional districts of the state, and a representative to
 6086 the Congress shall be selected in and for each of the
 6087 congressional districts as provided by law.
 6088 Section 5. Section 8.0611, Florida Statutes, is amended to
 6089 read:
 6090 8.0611 Severability.—If any provision of this chapter is

6094 or applications of the chapter or any other districts
6095 established in this chapter which can be given effect without
6096 the invalid provision or application, and to this end the
6097 provisions of this chapter are ~~declared~~ severable.

6098 Section 6. Effective upon this act becoming a law, section
6099 8.07, Florida Statutes, is amended to read:

6100 8.07 Applicability.—The congressional districts prescribed
6101 in s. 8.0002 apply with respect to the qualification,
6102 nomination, and election to the office of representative to the
6103 Congress of the United States in the primary ~~primaries~~ and
6104 general elections held in 2012 ~~2002~~ and thereafter.

6105 Section 7. Except as otherwise expressly provided in this
6106 act and except for this section, which shall take effect upon
6107 this act becoming a law, this act shall take effect upon the
6108 expiration of the terms of the representatives to the United
6109 States House of Representatives serving on the date that this
6110 act becomes a law.

Proposed Congressional Districts

District Descriptions (S000C9002)

The descriptions and professional staff comments in this report do not reflect the intent or official position of persons submitting plans or the Florida Senate.

District 1 includes Escambia, Santa Rosa, Okaloosa, Walton, and western Holmes County. The Legislature received several submissions that proposed a district with a similar orientation in the Panhandle. (See plans HPUBC0031, HPUBC0036, SPUBC0062, and HPUBC0065.) This district follows the alignment of District 1 as submitted in HPUBC0031.

District 2 includes the counties in the Capitol Region between the Gulf of Mexico and the Georgia state line from Bay County in the west to Taylor County in the east (including Calhoun, Franklin, Gadsden, Gulf, Jackson, Jefferson, Leon, Liberty, Wakulla, Washington Counties, the portion of Holmes County not in District 1, and a portion of Madison County required for equalizing population). District 2 generally follows the alignment of District 2 in HPUBC0031.

District 3 preserves the core of an existing minority-opportunity district that has consistently elected an African-American member of Congress since 1992. This district includes portions of Jacksonville, Green Cove Springs, Gainesville, Sanford, Apopka, and Orlando. The committee received testimony in support of keeping a minority district in this area. The black voting age population is 50% and the Hispanic voting age population is 11%. The alignment of District 3 is similar to the alignment of districts in public plans SPUBC0104, HPUC0103, HPUBC0139, and SPUBC0154.

District 4 is in the northeast corner of the state. It includes all of Baker, Nassau, and Duval Counties, except the portions of Duval in District 3. Its boundaries follow the state boundary on the north, the Atlantic Ocean on the east, and county boundaries on the south and west. This district is similar to District 4 in HPUBC0133. In Jacksonville, the committee heard public testimony requesting that Nassau County not be subdivided into multiple districts and that Baker County not be subdivided into multiple districts.

District 5 includes Hernando and Pasco Counties in their entirety and a portion of northwest Polk County connected along U.S. Highway 98, as required for equalizing population. It follows the Gulf of Mexico on the west and county boundaries on the north and south. At public hearings, residents of Pasco and Hernando Counties testified that they shared business and social interests. Neighboring northwestern Polk County is also rural and agricultural. The Suncoast Parkway and Interstate 75, as well as U.S. Highways 19 and 98, facilitate travel.

District 6 consists of the Suwannee River region, from Cedar Key to the Georgia state line. It includes the following whole counties: Bradford, Columbia, Dixie, Gilchrist, Hamilton, Lafayette, Levy, Suwannee, and Union, plus the portion of Madison County not in District 2, the portions of Alachua and Clay Counties not in minority District 3, and the portion of Marion County required for equalizing population (generally west of Interstate 75, the Ocala city line, and State Road 200). This district combines similar agricultural and rural interests in the northern part of the state, and is intersected by Interstates 10 and 75. It is similar to District 6 in HPUBC0133.

District 7 includes territory east of minority District 3 and along the coast in northeast Florida. It is bounded on the north by the St. Johns county line, on the south by the Volusia county line, and on the east by the Atlantic Ocean. On the west, it includes the portion of Putnam County not in minority District 3, and it follows the St. Johns River, the Volusia county line, and the DeLand, Lake Helen, and Deltona city lines. District 7 includes all of St. Johns and Flagler Counties plus most of Volusia and Putnam Counties. It combines similar communities in St. Augustine, Palm Coast, and Daytona Beach along Interstate 95, which crosses the district from north to south.

District 8 includes the portions of Orlando plus southern and western Orange County that are not in the two minority-opportunity districts (Districts 3 and 27). The cities of Bay Lake, Lake Buena Vista, Oakland, Ocoee, Windermere, and Winter Garden are wholly in the district. District 8 also includes Clermont, Monteverde, and other portions of Lake County, as well as Auburndale, Lake Alfred, Polk City and most of Lakeland and Winter Haven in Polk County. These communities are tied together by Interstate 4 and the Florida Turnpike.

District 9 includes northern and eastern Hillsborough County (including North Tampa, Temple Terrace, Plant City, and Brando), plus Tarpon Springs and adjacent neighborhoods in northern Pinellas County.

District 10 includes most of Pinellas County and is located entirely within the county. It is bounded on the west by the Gulf of Mexico and on the east by Tampa Bay. On the north, it follows the northern outskirts of Dunedin, Clearwater, and Oldsmar. On the south, it is adjacent to minority access District 11. The district includes in their entirety most of the municipalities of Pinellas County.

District 11 combines similar communities in downtown Tampa and St. Petersburg, as well as urban areas of Bradenton. In general, its boundaries follow Interstate 75 on the east and Tampa Bay and Interstate 275 on the west. It ties together urban neighborhoods in the Tampa Bay area and gives access to minority voters. The district has a black voting age population of 25.8% and a Hispanic voting age population of 24.8%. This district is similar to District 11 as submitted in SPUBC0154.

District 12 is a mostly rural district centered on the interior of the state between Central Florida and Lake Okeechobee, and includes most of Charlotte County. The district boundary follows portions of the boundaries of Hillsborough, Hardee, DeSoto, Charlotte, Lee, Glades, Okeechobee, and Polk Counties. In Polk County, it is adjacent to minority-access District 27. It includes four whole counties (Hardee, DeSoto, Highlands, and Glades Counties). District 12 is similar to District 14 in Plan HPUBC0150.

District 13 includes all of Sarasota and Manatee Counties (with the exception of urban areas in Bradenton), and the northwest corner of Charlotte County for equalizing population. The district is geographically concentrated. Interstate 75 promotes convenient travel through the district. The district ties the coastal communities in Sarasota and Manatee Counties, and North Port. It is bounded by county lines on the east and most of its northern and southern boundaries, and by the Gulf of Mexico on the west.

District 14 consists of portions of Collier and Lee Counties, including Cape Coral, Fort Myers, Bonita Springs, Sanibel, Naples, and Marco Island. The northern boundary is the Lee County line and the southern boundary is the Collier County line. The district is adjacent on the east to a minority-majority district covered by Section 5 of the federal Voting Rights Act.

District 15 combines Brevard and Indian River Counties with a portion of eastern Orange County. Its boundary follows county lines with the exception of the portion of the district's western boundary in Orange County. The district combines similar interests along the Space and Treasure Coasts and is crossed by Interstate 95, U.S. Highway 1, and State Road A1A from north to south. The district is similar to District 8 as submitted in HPUBC0042.

District 16 includes all of St. Lucie and Martin Counties and northeast Palm Beach and southeast Okeechobee Counties. It is bounded by the Atlantic Ocean on the east and by county boundaries along its northern and parts of its western and southern boundaries. The district is closely united in territory and is connected from north to south by Interstate 95 and the Florida Turnpike. At the Stuart hearing, residents of northern Palm Beach County and Martin County testified to their desire to be in the same district due to their common interests along the Treasure Coast. The district eliminates the division of Martin and St. Lucie Counties and the way that current District 16 stretches from Charlotte Harbor on the Gulf Coast to the Atlantic.

District 17 preserves the core of an existing majority-minority district that has elected an African-American member of Congress since 1992. It consists of urban neighborhoods in Broward and Miami-Dade Counties. It follows U.S. Highway 1 and Biscayne Bay along much of its eastern boundary, and is traversed from north to south by Interstate 95. The district has a black voting age population of 56.3% and Hispanic voting age population of 31.9%.

District 18 consists of Monroe County and part of Miami-Dade County. The district follows the boundary of Monroe County and extends into the coastal portion of Miami-Dade County. It follows the Palmetto Bay, Cutler Bay, and Homestead city lines for portions of its boundary. The district preserves the core of an existing majority-Hispanic district that has elected a Hispanic member of Congress since 1988. This district has a Hispanic voting age population of 70% and is similar to districts in Plans HPUBC0050 and HPUBC0049, both of which combined Monroe County with the eastern coast of Miami-Dade County.

District 19 consists of the western portions of Broward and Palm Beach Counties. Most of its boundary is adjacent to a majority-minority district covered by Section 5 of the federal Voting Rights Act. In Palm Beach County, the district is bounded on the west by the L-40 Canal, which separates the populated areas to the east from the Loxahatchee National Wildlife Refuge to the west. On the north, it is bounded by State Road 80 (Southern Boulevard) and the municipal boundary of Wellington. State Road 809 (Military Trail) and the Florida Turnpike comprise most of its eastern boundary. In Broward County, the district follows the western boundary of Parkland and the western and southern boundaries of Coral Springs. The district ties similar communities and is connected from north to south by the Florida Turnpike and U.S. Highway 441.

District 20 consists of southern Broward and coastal Broward and Miami-Dade Counties, including the cities of Weston, Davie, Dania Beach, Cooper City, and Miami Beach, and most of Pembroke Pines, Hollywood, Hallandale Beach, and Southwest Ranches. The district is bounded on the north chiefly by Interstate 595, and is connected along the coast by State Road A1A. To the south and west, it is adjacent to majority-minority districts covered by Section 5 of the Voting Rights Act.

District 21 includes parts of southwest Broward and northwest Miami-Dade Counties, plus the portion of Collier County in the majority Hispanic district covered by Section 5 of the Voting Rights Act, and the portion of Hendry County not in minority District 23. Currently, Hispanic voters in Collier County

share a district with Miami-Dade County that has elected a Hispanic incumbent since 1992. The Hispanic voting age population of District 21 is 71.5%.

District 22 consists of the Palm Beach and Broward County coast. On the west, District 22 is adjacent to a minority-opportunity district (District 23). On the east it is bounded by the Atlantic Ocean. Similar coastal interests, as well as Interstate 95 and State Road A1A, tie the communities in District 22. The district is similar to District 22 in SPUBC0154.

District 23 preserves the core of an existing district that has elected an African-American member to Congress since 1992 and is covered by Section 5 of the Voting Rights Act. The district contains portions of Hendry, Broward, and Palm Beach Counties. Its northern boundary follows the Hendry and Palm Beach County lines, and its southern boundary follows the Hendry County line and Interstate 75. On the east, the district ties urban neighborhoods between U.S. Highway 1 and Interstate 95. The district has a black voting age population of 51.8%.

District 24 includes communities north of Orlando in Orange, Seminole, and Volusia Counties. It follows the boundary of Seminole County along much of its western and southern boundaries, where it is adjacent to two minority-opportunity districts (Districts 3 and 27). On the east, it follows the boundary of Volusia County, while on the north it encircles Deltona, DeBary, Lake Helen, and Orange City. District 24 generally follows municipal boundaries. Sanford is divided between District 24 and minority District 3. Communities in the district, such as Winter Park, Maitland, Altamonte Springs, Casselberry, Winter Springs, Oviedo, Longwood, and Lake Mary are connected by the Seminole Expressway and Interstate 4.

District 25 consists of western Miami-Dade County, including the cities of Homestead and Florida City. It is bounded by the Miami-Dade County line on the north, west, and south, and by portions of the Homestead Extension of the Florida Turnpike and the municipal boundaries of Homestead, Cutler Bay, and Palmetto Bay on the east. This district preserves the core of an existing majority-Hispanic district that has elected a Hispanic member of Congress since 2002. The communities that comprise the district share common interests and a common culture and language. District 25 has a Hispanic voting age population of 74.1%.

District 26 includes Citrus and Sumter County and portions of Lake and Marion Counties. The district combines central Florida communities connected by Interstate 75, the Florida Turnpike, and State Road 44. It follows the boundaries of Citrus and Sumter Counties in the northwest and southwest, and Interstate 75 and the Ocala city line in the northwest. It includes Ocala, The Villages, Crystal River, and the municipalities of central Lake County.

District 27 includes all of Osceola County and similar communities in Orange and Polk Counties, including southeast Orlando and parts of Haines City and Lake Wales. At the Central Florida hearings, representatives from Hispanic advocacy groups testified to the commonality of culture, business, language, and media in Orange, Osceola, and Polk Counties that would lend itself to the creation of a congressional district with a significant Hispanic population. District 24 has a Hispanic voting age population of 40.2% and is comparable demographically to District 4 in HPUBC0103.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Reapportionment Committee

BILL: SPB 7034

INTRODUCER: For consideration by the Reapportionment Committee

SUBJECT: Apportionment of the House of Representatives and the Senate

I. Summary:

As required by state and federal law, the proposed committee bill apportions Florida into 40 state senate districts.

This joint resolution of apportionment substantially amends Chapter 10 of the Florida Statutes.

II. Present Situation:

The Florida Constitution requires the Legislature, by joint resolution, to reapportion the state into not less than 30 nor more than 40 consecutively numbered senate districts and into not less than 80 nor more than 120 consecutively numbered representative districts.¹ Redistricting must occur in the second year after each decennial Census.² Florida currently is apportioned into 40 single-member senate districts³ and 120 single-member representative districts.⁴

The 2010 Census revealed uneven population growth across the state during the last 10 years. Districts must be adjusted to correct population differences. Based on the 2010 Census, the ideal population of a single-member district in a 40-seat Senate is 470,033, and the ideal population of a single-member district in a 120-seat House of Representatives is 156,678. Currently, the senate district with the largest population has 576,207 persons (106,174 more than the ideal), and the senate district with the smallest population has 394,766 persons (75,267 less than the ideal). house district with the largest population has 252,332 persons (95,654 more than the ideal), and the house district with the smallest population has 124,511 persons (32,167 less than the ideal).

Redistricting plans must comply with all requirements of the United States Constitution, the federal Voting Rights Act of 1965, the Florida Constitution, and applicable court decisions.

The United States Constitution

The Equal Protection Clause of the Fourteenth Amendment requires that legislative districts be as nearly equal in population as practicable.⁵ The so-called “one person, one vote” mandate does not require that state legislative districts achieve exact mathematical equality, but, more flexibly, permits disparities in population based on legitimate considerations incident to the effectuation of rational state policies.⁶ Specifically, in the case of state legislative districts, an overall range of less than 10 percent is constitutional, absent proof of arbitrariness or discrimination.⁷

The Equal Protection Clause also limits the influence of race in redistricting. If race is the predominant factor in redistricting, such that traditional, race-neutral redistricting principles are subordinated to considerations of race, the redistricting plan will be subject to strict scrutiny.⁸ To satisfy strict scrutiny, the use of race as a predominant factor must be narrowly tailored to achieve a compelling interest.⁹ The United States Supreme Court has held that the interest of the state in remedying the effects of identified racial discrimination may be compelling,¹⁰ and it has assumed, but has not decided, that compliance with the requirements of the federal Voting Rights Act likewise justifies the use of race as a predominant factor in redistricting.¹¹

The United States Supreme Court has construed the Equal Protection Clause to prohibit political gerrymanders,¹² but it has not identified judicially discernible and manageable standards by which such claims are to be resolved.¹³ Political gerrymandering cases, therefore, remain sparse.

The Federal Voting Rights Act

In some circumstances, Section 2 of the federal Voting Rights Act requires the creation of a district that performs for minority voters. Section 2 requires, as necessary preconditions, that (1) the minority group be sufficiently large and geographically compact to constitute a numerical majority in a single-member district; (2) the minority group be politically cohesive; and (3) the

majority vote sufficiently as a bloc to enable it usually to defeat the candidate preferred by the minority group.¹⁴ If each of these preconditions is established, Section 2 will require the creation of a performing minority district if, based on the totality of the circumstances, it is demonstrated that members of the minority group have less opportunity than other members of the electorate to participate in the political process and to elect representatives of their choice.¹⁵

Section 5 of the Voting Rights Act protects the electoral opportunities of minority voters in covered jurisdictions from retrogression, or backsliding.¹⁶ In Florida, Section 5 covers five counties: Collier, Hardee, Hendry, Hillsborough, and Monroe.¹⁷ Section 5 requires that, before its implementation in a covered jurisdiction, any change in electoral practices (including the enactment of a new redistricting plan) be submitted to the United States Department of Justice or to the federal District Court for the District of Columbia for review and preclearance.¹⁸ A change in electoral practices is entitled to preclearance if, with respect to minority voters in the covered jurisdictions, the change has neither a discriminatory purpose nor diminishes the ability of any citizens on account of race or color to elect their preferred candidates.¹⁹

The Florida Constitution

Since 1968, the Florida Constitution has required that state legislative districts be contiguous.²⁰ A district is contiguous if no part of the district is isolated from the rest of the district by another district.²¹ In a contiguous district, a person can travel from any point within the district to any other point without departing from the district.²² A district is not contiguous if its parts touch only at a common corner, such as a right angle.²³ The Florida Supreme Court has also held that the presence in a district of a body of water without a connecting bridge, even if it requires land travel outside the district in order to reach other parts of the district, does not violate contiguity.²⁴

Districts must be consecutively numbered, but it is not necessary that adjacent districts receive consecutive numbers.²⁵ For example, districts in a 40-district redistricting plan may be numbered from one to 40, but District 1 and District 2 need not be adjacent to one another.²⁶ Ordinarily, senators are elected to four-year terms.²⁷ At the general election that follows redistricting, terms that are not scheduled naturally to expire will be truncated, and all seats in the Senate will be subject to election in the new districts.²⁸ To preserve staggered terms, voters in senate districts

designated by even numbers will elect candidates to two-year terms, while voters in senate districts designated by odd numbers will elect candidates to four-year terms.²⁹

In 2010, voters amended the Florida Constitution to create additional standards for establishing state legislative district boundaries.³⁰ The new standards are set forth in two tiers. To the extent that compliance with second-tier standards conflicts with compliance with first-tier standards, the second-tier standards do not apply.³¹ The order in which the standards are set forth within either tier does not establish any priority of one standard over another within the same tier.³²

The first tier provides that no apportionment plan or district shall be drawn with the intent to favor or disfavor a political party or an incumbent.³³ Redistricting decisions unconnected with an intent to favor or disfavor a political party and incumbent do not violate this provision of the Florida Constitution, even if their effect is to favor or disfavor a political party or incumbent.³⁴

The first tier of the new standards also provides two distinct protections for racial and language minorities. First, districts may not be drawn with the intent or result of denying or abridging the equal opportunity of minorities to participate in the political process. Second, districts may not be drawn to diminish the ability of racial or language minorities to elect representatives of their choice.³⁵ The second standard is comparable in its text to Section 5 of the federal Voting Rights Act, as amended in 2006, but is not limited to the five counties protected by Section 5.³⁶

On March 29, 2011, the Florida Legislature submitted the new standards to the United States Department of Justice for preclearance. In the submission, the Legislature took the position that the two protections for racial and language minorities collectively ensure that the Legislature's traditional power to maintain and even increase minority voting opportunities is not impaired or diminished by other, potentially conflicting standards in the constitutional amendment, and that the Legislature may continue to employ, without change, the same methods to preserve and

If the term of a senator is not scheduled naturally to expire at the general election, and the redistricting plan does not alter the boundaries of the district, the senator would continue to serve the remainder of the term until its natural expiration. *Id.*

³¹ Art. III, § 21(c), Fla. Const.

³³ Art. III, § 21(a), Fla. Const. The statutes and constitutions of several states contain similar prohibitions. *See, e.g.*, Cal. Const. Art. XXI, § 2(e); Del. Const. Art. II, § 2A; Haw. Const. Art. IV, § 6; Wash. Const. Art. II, § 43(5); Iowa Code § 42.4(5); Mont. Code Ann. § 5-1-115(3); Or. Rev. Stat. § 188.010(2); Wash. Rev. Code § 44-05-090(5). These standards have been the subject of little litigation. In *Hartung v. Bradbury*, 33 P.3d 972, 987 (Or. 2001), the court held that “the mere fact that a particular reapportionment may result in a shift in political control of some legislative districts (assuming that every registered voter votes along party lines),” does not show that a redistricting plan was drawn with an improper intent.

³⁴ It is well recognized that political *consequences* are inseparable from the redistricting process. *See, e.g., Vieth v. Jubelirer*, 541 U.S. 267, 343 (2004) (Souter, J., dissenting) (“The choice to draw a district line one way, not another, always carries some consequence for politics, save in a mythical State with voters of every political identity distributed in an absolutely gray uniformity.”).

enhance minority representation as it has employed with so much success in recent decades.³⁷ Without comment, the Department of Justice granted preclearance on May 31, 2011.³⁸

The first tier also requires that districts consist of contiguous territory.³⁹ In this respect, the new standards duplicate a requirement that the Florida Constitution has contained since 1968.⁴⁰

The second tier of standards requires that districts be compact.⁴¹ The various measures of compactness that courts in other states have utilized include mathematical calculations that compare districts according to their areas, perimeters, and other geometric criteria,⁴² and broader considerations of how actual communities relate to one another to form effective representational units.⁴³ Geometric compactness considers the shapes of particular districts and the closeness of the territory of each district, while functional compactness looks to commerce, transportation, communication, and other practical measures that unite communities, facilitate access to elected officials, and promote the integrity and cohesiveness of districts for representational purposes.

Whether explicitly or implicitly, courts in most states appear to balance considerations of geometric and functional compactness. Courts recognize that perfect geometric compactness, which consists of circles or regular simple polygons, is impracticable and not required.⁴⁴ Thus, in assessing whether the legislature has achieved a reasonable degree of compactness, courts in different jurisdictions have considered combinations of the following criteria:

- Whether the shape of the district is regular or irregular.⁴⁵
- Whether the territory of the district is closely united.⁴⁶
- Whether constituents in the district are able to relate to and interact with one another.⁴⁷

- Whether constituents in the district are able to access and communicate with their elected officials.⁴⁸
- Whether the district is interconnected through commerce, transportation, and communication.⁴⁹
- Whether the shape of the district is affected by the physical boundaries of the state.⁵⁰
- Whether the shape of the district is affected by a good-faith consideration and balancing of other legal requirements of equal importance.⁵¹
- Whether the shape of the district is affected by the one-person, one-vote requirement, in light of uneven population distributions.⁵²
- Whether the shape of the district is affected by non-compact minority districts.⁵³

Because the considerations that influence compactness are multi-faceted and fact-intensive, courts tend to agree that mere visual inspection is ordinarily insufficient to determine compliance with a compactness standard,⁵⁴ and that an evaluation of compactness requires a factual setting.⁵⁵

In addition to compactness, the second tier of standards requires that, where feasible, districts utilize existing political and geographical boundaries.⁵⁶ One principal purpose of a requirement to follow established boundaries is to aid voters in orienting themselves to the territory of their new districts.⁵⁷ An interpretation consistent with this policy would encourage the use of natural geographical features, such as bays, lakes, rivers, and other water areas, as well as commonly known geographical demarcations, such as interstate highways and, in urban areas, well-traveled thoroughfares. The term “political boundaries” refers, at a minimum, to the boundaries of cities and counties.⁵⁸ The Florida Constitution accords no preference to political over geographical boundaries.⁵⁹

⁵⁹ Art. III, § 21(b), (c), Fla. Const.

The Constitution recognizes that, in the creation of districts, it will often not be “feasible” to trace political and geographical boundaries.⁶⁰ District boundaries might depart from political and geographical boundaries to achieve objectives of superior importance, such as population equality and the protection of minorities, and many political subdivisions are not compact. Some local boundaries may be ill-suited to the achievement of effective and meaningful representation.

Public Outreach and Input

In the summer of 2011, the House and Senate initiated an extensive public outreach campaign. On May 6, 2011, the Senate Committee on Reapportionment and the House Redistricting Committee jointly announced the schedule for a statewide tour of 26 public hearings. The purpose of the hearings was to receive public comments to assist the Legislature in its creation of new redistricting plans. The schedule included stops in every region of the state, in rural and urban areas, and in all five counties subject to preclearance. The hearings were set primarily in the mornings and evenings to allow a variety of participants to attend. Specific sites were chosen based on their availability and their accessibility to members of each community.

Prior to each hearing, committee staff invited a number of interested parties in the region to attend and participate. Invitations were sent to representatives of civic organizations, public interest groups, school boards, and county elections offices, as well as to civil rights advocates, county commissioners and administrators, local elected officials, and the chairs and executive committees of statewide political parties. In all, over 4,000 invitations were sent.

In addition to distributing individual invitations, committee staff purchased legal advertisements in local print newspapers for each hearing, including Spanish-language newspapers. The House Redistricting Committee also purchased advertisement space in newspapers and airtime on local radio stations to raise awareness about the hearings. Staff from both chambers also informed the public of the hearings through social media websites.

The impact of the statewide tour and public outreach is observable in multiple ways. During the tour, committee members received testimony from over 1,600 speakers. To obtain an accurate count of attendance, committee staff asked guests to fill out attendance cards. Although not all attendees complied, the total recorded attendance for all 26 hearings amounted to 4,787.

Throughout the summer and at each hearing, legislators and staff encouraged members of the public to draw and submit their own redistricting plans through web applications created and made available on the internet by the House and Senate. At each hearing, staff from both chambers was available to demonstrate how members of the public could illustrate their ideas by means of the redistricting applications. In September 2011, the chairs of the House and Senate committees sent individual letters to more than fifty representatives of public-interest and voting-rights advocacy organizations to invite them to prepare and submit proposed redistricting plans.

As a result of these and other outreach efforts, the public submitted 157 proposed legislative and congressional redistricting plans between May 27 and November 1, 2011. This total represents a dramatic increase from the four plans submitted during the last decennial redistricting process.

III. Effect of Proposed Changes:

Consistent with state and federal law, the proposed committee bill apportions the state into 40 single-member senate districts. A statistical analysis is attached to this bill analysis.

The districts in the joint resolution have an overall range of 2.5 percent. The senate district with the largest population has 475,858 persons (5,825 more than the ideal), and the senate district with the smallest population has 464,088 persons (5,945 less than the ideal). The joint resolution contains only senate districts. Representative districts will be added subsequently.

For ease of reference, and subject to committee consideration and amendment, the proposed committee bill temporarily assigns to each proposed district a district number based on the benchmark district from which the proposed district receives most of its population.

Where more than one proposed district receives most of its population from the same benchmark district, the proposed district with the larger population from the benchmark district inherits the benchmark district's number. The other district assumes its number from the next available benchmark district that is not taken by another proposed district.

C. Trust Funds Restrictions:

None.

D. Other Constitutional Issues:

All redistricting plans are subject to Section 2 and Section 5 of the federal Voting Rights Act (42 U.S.C. § 1973c). Under Section 5, all statutory changes to procedures relating to voting and elections, to the extent they affect voters in the five counties of Collier, Hardee, Hendry, Hillsborough, and Monroe, are subject to preclearance by the United States Department of Justice or the federal District Court for the District of Columbia.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The 2012 reapportionment will have an undetermined fiscal impact on Florida's election officials, including 67 Supervisor of Elections offices and the Department of State, Division of Elections. Local supervisors will incur the cost of data-processing and labor to change each of Florida's 11 million voter records to reflect new districts. As precincts are aligned to new districts, postage and printing will be required to provide each active voter whose precinct has changed with mail notification. Temporary staffing will be hired to assist with mapping, data verification, and voter inquiries.

Senate Joint Resolution

A joint resolution of apportionment; providing for the apportionment of the House of Representatives and the Senate (plans _____ and S000S9004); adopting the United States Decennial Census of 2010 for use in such apportionment; providing for the inclusion of omitted areas; providing contiguity for areas specified for inclusion in one district which are noncontiguous; specifying that the apportioned districts constitute the legislative districts of the state; providing for severability of invalid portions; providing for application beginning in 2012.

Be It Resolved by the Legislature of the State of Florida:

Section 1. Official census for apportionment; definitions.—

(1) In accordance with Section 8(a), Article X of the State Constitution, the United States Decennial Census of 2010 is the official census of the state for the purposes of this joint resolution.

(2) The following delineation of representative and senatorial districts employs areas included within official county, voting tabulation district, tract, and block boundary descriptions used by the United States Department of Commerce, Bureau of the Census, in compiling the United States Decennial Census of 2010 in this state. The populations within these census geographic units are the population figures reported in the counts of the United States Decennial Census of 2010 provided to the state in accordance with Pub. L. No. 94-171.

(3) As used in this joint resolution, the term:

(a) "Block" describes the smallest geographic unit for which population was tabulated in the 2010 decennial census. Blocks are nested within tracts and within voting tabulation districts. A block is identified by a four-digit integer that is unique within a tract but is not necessarily unique within a voting tabulation district.

(b) "Tract" describes a relatively permanent statistical subdivision of a county updated by local participants prior to the 2010 decennial census. Tracts consist of whole blocks and are nested within counties. Tracts are identified uniquely within a county by an up to four-digit integer and may have an optional two-digit suffix.

(c) "Voting tabulation district" describes a subdivision of a county established in Phase 2 of the 2010 Census Redistricting Data Program. Voting tabulation districts consist of whole blocks and are nested within counties. Voting tabulation districts subdivide counties in ways supervisors of elections determined are efficient for conducting elections and keeping communities whole. Voting tabulation districts are identified uniquely within a county by an up to four-digit integer.

Section 2. Representative districts.—For the election of members to the House of Representatives of this state, the state is apportioned into 120 consecutively numbered, single-member, representative districts of contiguous territory, to be designated by such numbers as follows:

Section 3. Senatorial districts.—For the election of members to the Senate of this state, the state is apportioned

 7156 district.—Any portion of the state which is not stated in this
 7157 joint resolution as being included in any district described in
 7158 this joint resolution but which is entirely surrounded by a
 7159 district shall be deemed to be included within the surrounding
 7160 district. Any portion of the state which is not included in any
 7161 district described in this joint resolution and which is not
 7162 entirely surrounded by a district shall be included within that
 7163 district contiguous to the portion that contains the least

7164 population per legislator according to the United States
 7165 Decennial Census of 2010; however, if every district contiguous
 7166 to such portion has an equal population, such portion shall be
 7167 included within the lowest-numbered district that is contiguous
 7168 to such portion.
 7169 Section 5. Territory specified for inclusion in one
 7170 district which is noncontiguous.—If any district described in
 7171 this joint resolution is composed of noncontiguous territory,
 7172 the noncontiguous portion that has the least population shall be
 7173 included in the district that is contiguous to such portion and
 7174 that has the least population; however, if every district
 7175 contiguous to such portion has an equal population, such portion
 7176 shall be included within the lowest-numbered district that is
 7177 contiguous to such portion.
 7178 Section 6. Districts to constitute representative and
 7179 senatorial districts of state.—The districts created by this
 7180 joint resolution constitute and form the representative and
 7181 senatorial districts of the state, and members of the
 7182 Legislature shall be elected in and for these representative and
 7183 senatorial districts as provided by law.
 7184 Section 7. Severability.—If any provision of this joint
 7185 resolution or the application thereof to any person or
 7186 circumstance is held invalid, or if any representative or
 7187 senatorial district established in this joint resolution is held
 7188 invalid, the invalidity does not affect other provisions or
 7189 applications of this joint resolution, or any other districts
 7190 established in this joint resolution, which can be given effect
 7191 without the invalid provision or application, and to this end
 7192 the provisions of this joint resolution are severable.

7193 Section 8. Applicability.-This joint resolution applies
7194 with respect to the qualification, nomination, and election of
7195 members of the Legislature in the primary and general elections
7196 held in 2012 and thereafter.

Proposed Senate Districts

District Descriptions (S000S9004)

The descriptions and professional staff comments in this report do not reflect the intent or official position of persons submitting plans or the Florida Senate.

District 1 preserves the core of an existing district that has long elected an African-American member to the Senate. The district connects communities in the northeastern portion of the state from the St. Johns River basin to Interstate 95 between Daytona Beach and Jacksonville.

The committee heard testimony in Jacksonville that urged the maintenance of such a district in order to preserve minority voting opportunities in Northeast Florida. District 1 has a black voting-age population of 47.9%, comparable to that of the existing district. The Legislature received several submissions from the public that proposed districts of a similar configuration and demographic composition. (See Plans HPUBS0090, SPUBS0142, SPUBS0148, and SPUBS0155).

District 2 links the rural communities of the Florida Panhandle in Escambia, Santa Rosa, Okaloosa, Walton, Bay, Washington, Holmes, and Jackson Counties, utilizing political and geographical boundaries for nearly the entire length of its perimeter. It follows the boundaries of the state on the western, northern, and eastern sides of the district. The district's southern boundary follows the intercoastal waterway, the Yellow River, Interstate 10, the eastern boundary of Bay County and the southern boundary of Jackson County, and the outer boundaries of Pensacola to the west and Lynn Haven to the east.

The committee heard testimony at the Pensacola, Panama City and Fort Walton Beach public hearings and at the October 5, 2011, Senate Reapportionment Committee meeting that rural and agricultural interests in the north part of the Panhandle have different traditions and representational needs than the urban and tourism interest in the south. Additionally the committee heard testimony pointing out that commerce and communication flow east to west along the main transportation corridors of the region, Interstate 10 and U.S. Highway 98, and not north to south. The Legislature received several submissions that proposed a similar orientation in the Panhandle. (See Plans HPUBS0007, HPUBS0080, HPUBS0099, HPUBS0090, SPUBS0105, and SPUBS0142.)

District 3 combines rural communities in North Florida and the Nature Coast. The plan makes extensive use of political boundaries, incorporating all of Citrus, Levy, Gilchrist, Lafayette, Suwannee, Columbia, Union, and Baker Counties. In Marion County, the district uses Interstate 75 and the western boundary of Ocala as its western boundary. In addition, District 3 enables District 6 to the west and District 14 to the east to consist entirely of whole counties.

At the public hearing in Gainesville, members of the public supported keeping rural counties such as Gilchrist and Union separate from major metropolitan areas like Jacksonville. At its meeting on October 18, 2011, the Senate Reapportionment Committee heard public support for keeping the Nature Coast region largely intact. The testimony pointed out that Dixie and Levy Counties and the rest of the region have a rural-industry focus quite different from urban areas like Gainesville. Plan SPUBS0143 contains a district similar to District 3.

District 4 unites the coastal communities of the Florida Panhandle in Escambia, Santa Rosa, Okaloosa, Walton, and Bay Counties. Like District 2, District 4 uses political and geographical boundaries for nearly the entire length of its perimeter. It follows the boundaries of the state on its west, the eastern boundary of Bay County on its east, and the Gulf of Mexico on its south. The northern boundary of the district follows the intercoastal waterway, the Yellow River, Interstate 10, and the outer boundaries of Pensacola to the west and Lynn Haven to the east.

District 4 is supported by the same testimony as District 2. Its horizontal configuration recognizes the differences between the rural North and the urban South. District 4 honors the request of members of the public who called for representation that reflects their distinct communities. Plans HPUBS0007, HPUBS0080, HPUBS0099, HPUBS0090, SPUBS0105, and SPUBS0142 all have a similar alignment in the Panhandle.

District 5 contains all of Nassau County and a portion of Duval County necessary to attain the population. The district is bounded by the State of Georgia on the west and north, the Atlantic Ocean on the east, and uses the Duval County line for most of its southern boundary. Part of its boundary is adjacent to the northeast Florida minority opportunity district (District 1).

Several participants at the Jacksonville hearing requested that Nassau County be kept whole. In the benchmark plan, District 5 divided Nassau, Clay, and St. Johns Counties. Public plans HPUBS0056, SPUBS0066, and HPUBS0095 contain districts of a similar orientation, keeping Nassau County whole and combining it with a portion of Duval County to equalize populations.

District 6 combines the counties of the Capitol Region. The district consists entirely of whole counties, following political boundaries for its entire perimeter. The district includes Gadsden, Calhoun, Gulf, Liberty, Franklin, Taylor, Wakulla, Jefferson, Leon, Madison, and Hamilton Counties. Its location is largely dictated by District 2 and District 4 to its west.

District 6 combines communities that associate with Tallahassee, which lies near the geographic center of the district. Many residents in the surrounding counties travel to Tallahassee for work and recreation, and the district is traversed by Interstate 10, which promotes intra-district travel and commerce. At the public hearing in Tallahassee, several members of the public urged the elimination of “fingers” like the one in District 3 of the benchmark plan that pushes into Tallahassee. Public plan SPUBS0143 includes a district that is identical to District 6.

District 7 combines the communities south and west of Daytona Beach in Volusia County with northern Brevard County and eastern Orange County. The district follows the western border of Volusia County, the northern border of Orange County, the Econlockhatchee River, and, as its southern boundary, the Beachline Expressway through Orange and Brevard Counties, and the northern boundary of the City of Cocoa. Its eastern boundary is the Atlantic Ocean.

The Committee heard testimony from the public at the Dayton Beach hearing requesting at least one district based primarily in Volusia County. Additionally members of the public requested that cities in Volusia County be kept whole. Consistent with this testimony, District 7 does not divide cities, and it follows the boundaries of DeBary, Port Orange, Daytona Beach, and Daytona Beach Shores for portions of its boundary. Public plans HPUBS0084 and SPUBS0146 each contain a district similar to District 7.

District 8 combines the coastal communities of Northeast Florida from the Jacksonville beaches south of the mouth of the St. Johns River to Daytona Beach. The district is adjacent to the northeast Florida minority-access district to its west and is bordered by the Atlantic Ocean on the east.

The district is connected through common interests along the northeast coast of Florida, from Atlantic Beach to St. Augustine Beach and Daytona Beach. Interstate 95 runs through most of District 8 and thus facilitates commerce and transportation across the district. Public plan SPUBS0155 includes a district similar to District 8.

District 9 includes communities along the Florida Turnpike from Leesburg to Orlando. Its western boundary is the western boundary of Lake County, and its southern boundary is the southern boundary of Lake and Orange Counties. On the east, the district abuts two minority opportunity districts in Central Florida.

District 9 contains closely united territory. Travel through the district is facilitated not only by the Florida Turnpike, but by Interstate 4 to the east and Highway 441 to the north. The communities it unites are connected with Orlando, as well as Lake Buena Vista and Winter Park, in several respects. Residents of Mount Dora, Clermont, Minneola, Leesburg, and other municipalities throughout the district frequently travel to Orlando for work and recreation. Public plans SPUBS0146 and SPUBS0147 each contain districts of a similar configuration.

District 10 links the communities east of Tampa, partially encircling the city. On the north and south, District 10 follows the boundaries of Hillsborough County. On the west, it abuts Interstate 275 and a minority-opportunity district that generally follows Interstate 75 and Tampa Bay. On the east, District 10 follows State Road 39 and the western and northern outskirts of Plant City. The district is contained wholly within Hillsborough County.

District 10 consists of the closely united territory along the eastern periphery of greater Tampa. Communities such as Brandon, Sun City Center, and Apollo Beach are associated by geographical proximity and shared interests. At the public hearing in Tampa, the committee heard from members of both communities requesting that they be kept whole.

District 11 connects the communities of northern and western Pasco County with all of Hernando County and most of Sumter County. The district is bounded by the Gulf of Mexico on the west, the boundaries of Hernando and Sumter County on the north and east, and State Road 52 in Pasco County along most of its southern border.

At the public hearing in Wesley Chapel the Committee heard from several members of the public who pointed out the similarities between the rural portions of Hernando, Pasco, and Sumter Counties. This district combines the common interests described at the Wesley Chapel hearing. Members of the public also pointed out the growing interest of The Villages in Sumter County. District 11 does not include the portion of The Villages that falls within Sumter County. Instead, The Villages and its separate interests are preserved whole within District 20.

District 12 links the communities in northwest Hillsborough County with south-central and southeast Pasco County. In Hillsborough County, the district is bounded on the west by the boundary between Pinellas and Hillsborough Counties and on the east by a minority opportunity district and Interstate 275.

In Pasco County, the district is bounded chiefly by State Road 52. The district does not divide any cities in Pasco County, following the boundaries of St. Leo and San Antonio.

At the public hearing in Wesley Chapel the Committee heard from members of the public who pointed out the division between East Pasco, which has a coastal focus, and West Pasco, which is more rural. One member of the public suggested that communities like Wesley Chapel, Zephyrhills, and Lutz form a contiguous zone of common interest. The district provides ease of travel along Veterans Expressway, Suncoast Parkway, Interstates 75 and 275, and State Roads 52 and 56.

District 13 contains communities in northern Pinellas County. The district is bounded by the Pinellas County line on the north and east and by the Gulf of Mexico and Intracoastal Waterway on the west. On the south, the boundary crosses Pinellas County without dividing any municipalities. Parts of the boundary follow the municipal boundaries of St. Petersburg, Pinellas Park, Largo, Seminole, Indian Shores, Indian Rocks Beach, Belleair, Belleair Beach, and Clearwater.

District 13 contains, in its entirety, the related communities of Largo, Belleair, Belleair Bluffs, Clearwater, Safety Harbor, Oldsmar, Dunedin, and Tarpon Springs. Many of the submissions received from the public contained districts that united the communities of northern Pinellas County. (See Plans HPUBS0007, HPUBS0056, HPUBS0083, SPUBS0091, HPUBS0092, and HPUBS0095)

District 14 consists of three whole counties—Alachua, Bradford, and Clay Counties—and therefore follows political boundaries for the entire extent of its perimeter. The regular shapes of the counties that compose District 14 result in a district of closely united territory.

At the public hearings in Gainesville and Jacksonville, the committee heard from several members of the public urging the Legislature, to the extent possible, to avoid the division of the many communities in Alachua, Bradford, and Clay Counties. By maintaining Alachua, Bradford, and Clay Counties as whole counties, District 14 preserves each of the municipalities in the three counties. Public plan SPUBS0143 has a district similar to District 14.

District 15 links the mostly rural communities of Osceola, Polk, and Orange Counties. A portion of its boundary is defined by Hispanic-majority District 24. On the northwest, the district follows the boundary of Polk County. On the east, it follows the boundary of Osceola County. Along much of its northern and southern boundaries, it follows the Beachline Expressway and State Road 60, respectively. From its north-central point, the district is connected to the east by the Beachline Expressway, to the southeast by the Florida Turnpike, and to the southwest by Interstate 4.

At the public hearing in Lakeland, the committee heard testimony pointing out the rural nature of the majority of Polk County outside of Lakeland, and the interests in the agricultural industry that the region shares, differentiating it from the urban areas in Tampa to the west and Orlando to the northeast. The portion of Osceola County contained in District 15 shares these rural and agricultural interests.

District 16 connects the southern and beach communities in Pinellas County with south Tampa. It is bounded on the west by the Gulf of Mexico, on the north by Interstate 275 and municipal boundaries across Pinellas County, and on the east and south by a minority opportunity district.

The district unites the beach communities in western Pinellas County from Belleair Beach to St. Pete Beach. These communities share economic interests and contribute significantly to the economic life of Pinellas County. Interstate 275 provides easy transportation throughout the district.

District 17 includes the predominantly rural, agricultural areas from the Kissimmee basin to Lake Okeechobee. The district includes all of Hardee, Desoto, Glades, Highlands, and Okeechobee Counties, as well as the largely rural parts of southern Polk County, northern Charlotte County, and eastern Martin and St. Lucie Counties. It follows the western boundaries of Hardee and Desoto Counties, the southern boundaries of Glades and Martin Counties, and the northern boundaries of St. Lucie and Okeechobee Counties. The district also follows State Road 60 through much of Polk County and County Road 74 through most of Charlotte County.

At the public hearing in Wauchula, several members of the public urged the committee to group the inland communities in counties like Hardee, Highlands, and Glades with each other, rather than with coastal and urban communities. District 17 attempts to give effect to the expressed desire for an agricultural district. Public plan HPUBS0072 contains a similar district.

District 18 preserves the core of a minority access district for Tampa Bay that was created by the Florida Supreme Court in 1992 and has consistently elected the candidate of choice of minority voters. The district connects African-American and Hispanic communities in Hillsborough, Manatee, and Pinellas Counties, but also unites urban populations in Tampa, St. Petersburg, and Bradenton. The district follows geographical boundaries along portions of its perimeter, using Tampa Bay at its center and Interstate 75 on the east.

At the Tampa public hearing, the committee heard from a number of members of the public who argued for a minority access district in Hillsborough County. District 18 has a black voting-age population of 37.3% and a Hispanic voting-age population of 27.5%. Public plans HPUBS0085, SPUBS0123, SPUBS0142, and SPUBS0155 each have a district substantially similar to District 18.

District 19 unites urban, largely minority communities in Orange and Seminole Counties. It includes parts of Orlando, Ocoee, Winter Garden, Apopka, Maitland Winter Park, and Sanford, as well as the historic City of Eatonville. At the public hearing in Orlando, the Committee heard from representatives of the minority communities in the Orlando area who argued for their junction in a single district. District 19 has a black voting-age population of 40%.

District 20 connects the largely rural area north of Central Florida. The district follows most of the boundaries of Putnam County and, on the east, part of the eastern boundary of Lake County. On the west, District 20 follows Interstate 75 and the western boundary of Ocala through Marion County. It includes The Villages in Marion and in the northern portion of Sumter and Lake Counties.

District 20 includes The Villages, Ocala, rural areas in eastern Marion County and Putnam County, and most of central and east Lake County. At the public hearing in The Villages, the committee heard from many members of the public who expressed a desire to keep that community together, pointing out the common culture, lifestyle and interest shared by the people that live in The Villages.

District 21 combines the large share of Manatee County not in the Tampa Bay minority access district with communities in eastern Hillsborough and western Polk County. The district follows the boundaries of Manatee County adjacent to the minority access district. In Hillsborough County it follows Highways

579, 674, and 39 and the outskirts of Plant City. The boundary crosses into Polk County on Highway 582 and through the City of Lakeland using Interstate 4, U.S. 92, and U.S. 98. The district boundary passes between Mulberry, which is entirely inside the district, and Bartow, which is entirely outside the district.

At the Tampa hearing, the committee heard from members of the public who testified that the rural communities in eastern Hillsborough County around Plant City associate more closely with each other than with neighboring Tampa. At the public hearing in Sarasota the committee heard similar testimony about the rural communities of eastern Manatee including testimony that the rural communities of Myakka Head, Old Myakka and Myakka City in Manatee share similarities with rural areas of southern Polk and eastern Hillsborough Counties.

District 22 combines the majority of Seminole County, excepting portions of northern and western Seminole County that are part of a minority opportunity district, with parts of northern Orange County as necessary to equalize the district population. The eastern boundary of the district consists of the eastern boundary of Seminole County and the Econlockhatchee River.

The district includes like communities such as Longwood, Casselberry, Winter Springs, Oviedo, and most of Lake Mary and Altamonte Springs. Public Plans SPUBS0064, HPUBS0072, SPUBS0146 and SPUBS0147 contain districts with an orientation similar to that of District 22.

District 23 includes all of Sarasota County and the eastern portion of Charlotte County. It follows the Gulf of Mexico on the west, the boundary of Sarasota County on the north and east, and Charlotte Harbor in the south.

At the Sarasota public hearing, the committee heard testimony asking that Sarasota County be kept in a single district. Additionally, members of the public advocated combining Sarasota and western Charlotte counties, pointing out the common interest they share as coastal communities. District 23 ties the communities of Longboat Key, Sarasota, Venice, North Port, and Port Charlotte. It is intersected by Interstate 75, which runs from the northern to the southeastern boundary of the district. Public plan HPUBS0092 contains a district similar to District 23.

District 24 unites the predominantly Puerto-Rican Hispanic communities of Orange, Osceola, and Polk Counties. The communities in this region have similar commercial and economic interests.

The committee received testimony from many members of the public at the Orlando public hearing and through email that pointed out the growing Hispanic population in Central Florida and the common culture, language, and business interests shared among the community. More than 50% of the voting-age population of District 24 is Hispanic. Plans HPUBS0092, HPUBS0095, HPUBS0102, SPUBS0123, and SPUBS0147 all have districts with the same general orientation and demographics as District 24.

District 25 connects the coastal communities of Broward and Palm Beach Counties. It is adjacent to the minority opportunity district to its west and the Atlantic Ocean to the east. In the northwest, the district follows the municipal boundaries of West Palm Beach and Palm Beach Gardens. In the northeast, it crosses through Jupiter following the Loxahatchee River. On the south, it follows the Ft. Lauderdale city boundary.

The committee heard from many members of the public at the Davie and Boca Raton public hearings who emphasized the shared interests among coastal residents in the two counties, including tourism and affordable property insurance. A number of maps submitted by the public contain districts substantially similar to District 25. (See Plans HPUBS0089, SPUBS0123, SPUBS0147 and SPUBS0155.)

District 26 combines southern Brevard County with northern and western Indian River County, including the cities of Sebastian and Fellsmere. The district follows the borders of Brevard and Indian River Counties on the west and south, and is bounded on the east by the Atlantic Ocean and Interstate 95. On the north, District 26 generally follows the Beachline Expressway, the municipal boundaries of Cocoa, and the barge canal that crosses Merritt Island and empties to the Atlantic at Port Canaveral.

District 26 ties communities along the barrier islands of the Space Coast with similar communities along U.S. 1 and Interstate 95. The Committee heard testimony at the Melbourne hearing noting that the population of Brevard County must be divided into two Senate districts. In this plan, the majority of the county is in a single district, with a small remainder in District 7. Public plan HPUBS0085 contains a district similar to District 26.

District 27 combines eastern Lee and southern Charlotte Counties. The district follows the county boundaries of Lee and Charlotte Counties on the east and south and the Caloosahatchee River, the municipal boundary of Cape Coral, and Charlotte Harbor on the west. The district is traversed by Interstate 75 from Punta Gorda in the north to Fort Myers and Bonita Springs in the south.

At the Lehigh Acres public hearing, many testified about their desire to see Lehigh Acres kept in a single district. The committee also heard multiple requests that the City of Bonita Springs be put in a mostly Lee County district. District 27 ties all of Lehigh Acres, Fort Myers, and Punta Gorda with almost all the population of Bonita Springs in a single district.

District 28 connects the Treasure Coast communities of Indian River, St. Lucie, Martin, and northern Palm Beach Counties. On the east, the district is bounded by the Atlantic Ocean. On the west, it is generally bounded by the Florida Turnpike and Interstate 95.

At the Stuart meeting, the committee received testimony that described the similar interests shared by the communities of northern Palm Beach County and the rest of the Treasure Coast. SPUBS0123 contains a district that is substantially similar to District 28.

District 29 unites communities along Interstate 95 and U.S. 1 in Palm Beach and Broward Counties. It also preserves the core of an existing district that has consistently elected candidates preferred by minority voters. The district includes all of Lauderhill and Lauderdale Lakes and is bounded on the south in part by the municipal boundaries of Plantation, Fort Lauderdale, and Dania Beach.

The Committee heard from several members of the public at both the Boca Raton and Davie hearings that expressed concerns that the African-American communities continue to have a voice. District 29 has a black voting-age population of 55.7%. A number of public maps contain similar districts. (Plans HPUBS0084, HPUBS0089, SPUBS0091, SPUBS0123, and SPUBS0155.)

District 30 includes communities in southern and central Palm Beach County between Interstate 95 on and the Florida Turnpike. District 30 is adjacent to the minority opportunity district to the east. In places, the district follows the municipal boundaries of Boca Raton, Greenacres, and other cities.

The district combines the Century Village retirement communities in Palm Beach County as well as western Boca Raton and suburbs. It is oriented along the principal transportation routes that run from north to south through heavily populated areas in Palm Beach County.

District 31 includes communities of south Broward County. Its southern boundary follows the southern boundary of Broward County and the northern boundary of the minority-majority district in Miami-Dade and Broward Counties. Its eastern boundary is the Atlantic Ocean, and its northern boundary generally follows the city boundaries of Hallandale Beach, Hollywood, Dania Beach, Plantation, Pembroke Pines, and Miramar, as well as Interstate 595.

Travel through the district is facilitated by Interstates 75, 95, and 595, and several major thoroughfares that cross the district east-to-west. The district unites most of Cooper City and Davie, which the committee heard at the public hearing in Davie share a single chamber of commerce and interest in equestrian issues. HPUBS0007 and SPUBS0105 both contain districts that combine the municipalities of Davie, Cooper City, and Diana Beach, and are substantially similar to District 31.

District 32 combines the inland municipalities in the northern portion of Broward County. The district is bounded on the west by the Sawgrass Expressway, on the north by the Broward County line, on the east and south by the minority opportunity district that parallels Interstate 95, and further along the south, by the Tamarac and Sunrise city lines. The district closely follows political boundaries and consists of a geographically concentrated area entirely within Broward County.

The district includes, in their entirety, the municipalities of Tamarac, North Lauderdale, Coral Springs, Margate, Coconut Creek, and Parkland. It unites similar communities traversed through the center of the district by the Florida Turnpike, on the east of the district by Interstate 95, and on the west of the district by the Sawgrass Expressway. The committee received testimony at the public hearing in Davie requesting that these communities be grouped together because they share many interest and amenities, including schools, hospitals and Chambers of Commerce. This same testimony argued that these interests were distinct from those in the neighboring communities of Cooper City and Weston.

District 33 includes the core of a majority-black district that has a history of electing the candidate preferred by minority voters. The district includes all of Miami Gardens, Opa-Locka, Biscayne Park, West Park, and Pembroke Park, plus portions of North Miami, North Miami Beach, Hallandale Beach, Hollywood, Miramar, and Pembroke Pines.

The district combines similar communities located in a geographically concentrated area of Miami-Dade and Broward Counties. It is intersected by Interstate 95 and the Florida Turnpike. The Committee heard considerable testimony at the Miami public hearing about the cohesiveness of the African-American community in Miami-Dade County, calling special attention to the similarities in the communities in Miami Gardens and the eastern part of Miramar in Broward County. The district has a black voting-age population of 57.8%. A number of publicly submitted maps, including Plans HPUBS0056, HPUBS0072, HPUBS0095, HPUBS0113, and SPUBS0155, include districts similar to District 33.

District 34 includes western portions of Palm Beach and Broward County. On the north, south, and west, the district follows the county boundaries of Broward and Palm Beach Counties. It includes the cities of Southwest Ranches, Weston, Wellington, Loxahatchee Groves, Royal Palm Beach, portions of Pembroke Pines, Davie, and Sunrise, plus a small portion of Cooper City. It also includes the entire

Everglades Agricultural Area and conservation areas in western Broward and Palm Beach Counties. The Florida Turnpike, Sawgrass Expressway, Interstate 75, and U.S. 98 are major transportation arteries connecting communities within the district. It also utilizes the western boundaries of Miramar, Plantation, Tamarac, Coconut Creek, Parkland, Greenacres, West Palm Beach, and Palm Beach Gardens.

In Boca Raton, the committee heard that the areas of Palm Beach County west of the Florida Turnpike had an agricultural interest distinct from the economic focus of communities east of the Turnpike, and that the western communities should be grouped with similar communities. In District 34, these communities are grouped with communities in Broward County situated along a similar longitudinal line.

District 35 includes the coastal communities of Miami-Dade County. The district generally encompasses areas east of U.S. 1 from the Miami-Dade County boundary on the north to Homestead in the south. Along its western boundary, the district follows the boundaries of Aventura, Miami Shores, El Portal, South Miami, Pinecrest, Palmetto Bay, and Cutler Bay, and the Homestead Extension of the Florida Turnpike. The district is bounded on the east by the Atlantic Ocean.

The committee received testimony at the public hearing in Miami and by email requesting that the coastal communities of Miami-Dade County be apportioned to a single district. The committee also received significant amounts of testimony that Miami Shores be included in a coastal district. These communities share concerns about oil drilling, tourism, and beach renourishment. The district has a Hispanic voting-age population of 50.5%. Public Plans HPUBS0084, HPUBS0085 and HPUBS0089 all have similarly oriented coastal districts in Miami-Dade County.

District 36 includes the Allapatah and Little Havana neighborhoods in Miami, Coral Gables north of U.S. 1, all of South Miami and West Miami, and unincorporated areas of Miami-Dade County south of Miami International Airport and east of SW 107th Avenue (State Road 985). On the southeast, the district follows U.S. 1, the South Miami and Coral Gables city lines, and Coral Way (State Road 972).

The neighborhoods in District 36 form a cohesive Hispanic community, with a shared culture, shared interests, and shared language. At the South Miami hearing, the committee heard testimony that the area around Kendall, Sunset, and Westchester formed a collection of like communities that should be grouped together. District 36 has a Hispanic voting-age population of 83.4% and is located exclusively within Miami-Dade County. Public plans SPUBS0108 and SPUBS0144 contain districts that similarly connect South Miami and West Miami and have a majority-Hispanic voting-age population.

District 37 combines coastal communities in Lee and Collier Counties. It is bounded on the west by the Gulf of Mexico, on the north by the Charlotte County line, and on the south by the Monroe County line. In Collier County it is adjacent to a minority opportunity district (District 39, which is covered by Section 5 of the federal Voting Rights Act, and it includes all of Naples and Marco Island. In Lee County, the district includes the barrier islands west of the Intracoastal Waterway, plus the entire City of Cape Coral (Sanibel and Fort Myers Beach also are wholly included in the district).

Travel through the district is facilitated by Interstate 75 and the Tamiami Trail. Public plans HPUBS0083 and HPUBS0089 contain similar districts. Unlike those maps, District 37 keeps both Cape Coral (within the district) and Fort Myers (outside the district) whole.

District 38 includes Hispanic communities in western Miami-Dade County. As its boundaries, it utilizes the Tamiami Trail and Dolphin Expressway on the north, State Road 985 (West 107th Avenue) and the Homestead Extension on the east, and State Road 997 (Krome Avenue) on the west. The district consists of a geographically concentrated area entirely within Miami-Dade County.

The committee received public testimony at the Miami public hearing pointing out that the communities of West Kendall and Hammocks share a distinct identity and should not be divided. District 38 has a Hispanic voting-age population of 83.5% and includes neighborhoods with a shared culture, shared interests, and shared language. Public plan HPUBS0085 includes a district in Miami-Dade County with a similar orientation and majority-Hispanic population.

District 39 preserves the core of an existing district that has consistently elected the candidate preferred by minority voters, and which is covered by Section 5 of the federal Voting Rights Act. The district includes all of Hendry and Monroe Counties plus agricultural and conservation areas in Collier and Miami-Dade Counties, including Everglades National Park and the Big Cypress National Preserve. Like the current Senate District 39, it also includes Brownsville, Liberty City, Little Haiti, and Overtown neighborhoods in Miami. It then extends north to include the City of El Portal and Gladeview and Pinewood neighborhoods.

The committee heard testimony in Miami expressing that the desire for the African-American communities in existing District 39 to continue to have a voice in the region. The proposed District 39 has a black voting-age population of 35.1% and Hispanic voting-age population of 39.5%. Public plans HPUBS0084 and SPUBS0155 both contain similar districts.

District 40 is a geographically concentrated district in northwest Miami-Dade County. It follows the Miami-Dade County boundary on the north and State Road 997 (Krome Avenue) on the west. On the south, it is adjacent to District 39 (a minority opportunity district covered by Section 5 of the Voting Rights Act) and Miami International Airport. On the east, the district generally follows the municipal boundaries of Miami Gardens, Miami Lakes, Hialeah, Opa-Locka, and Miami Springs.

District 40 ties together similar, predominantly Hispanic communities, including the municipalities of Hialeah, Hialeah Gardens, Miami Springs, Medley, Miami Lakes, Virginia Gardens, and most of Doral. At the Miami public hearing, the committee received testimony that Hialeah Gardens, Miami Lakes, Miami Springs, and Medley share many of the same services and have the same needs, like the Enterprise Zones and Historically Underutilized Business Zones, that are best addressed by being combined in a distinct district. These municipalities draw together a cohesive Hispanic community that shares common values and interests. The district is intersected by the Homestead Extension of the Florida Turnpike and Interstate 75. District 40 has a Hispanic voting-age population of 86.9%. A number of publicly submitted maps contain similar districts. (See Plans HPUBS0083, HPUBS0089, HPUBS0095, SPUBS0105, and SPUBS0155).

Committee on Reapportionment

Florida Constitution standards

Article III, Section 16—The legislature...shall apportion the state:

- 30 to 40 consecutively numbered senatorial districts of either contiguous, overlapping or identical territory.
- 80 to 120 consecutively numbered house districts of either contiguous, overlapping or identical territory.

Article III, Sections 20 and 21—In establishing...district boundaries:

- a) No apportionment plan or... district shall be drawn with the intent to favor or disfavor a political party or an incumbent; and districts shall not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process or to diminish their ability to elect representatives of their choice; and districts shall consist of contiguous territory.
- b) Unless compliance with the standards in this subsection conflicts with the standards in subsection (a) or with federal law, districts shall be as nearly equal in population as is practicable; districts shall be compact; and districts shall, where feasible, utilize existing political and geographical boundaries.
- c) The order in which the standards within subsections (a) and (b) of this section are set forth shall not be read to establish any priority of one standard over the other within that subsection.
