CONSTITUENT SURVEY

Your input is needed in the survey below. Tell me your story on costly property insurance and high rent!

I have heard the cry from constituents suffering from sticker shock as it relates to property insurance and their ability to find affordable coverage. I believe rising property insurance cost is also a cause of rising rent costs!

I want to make sure that I hear from as many of you as possible so that we reach the right solution during the upcoming May 23–27 Legislative Special Session related to property insurance. Your answers to the survey included in this newsletter will help drive consensus decision making.

SENATOR AUDREY GIBSON

SB1010: Uterine Fibroid Research and Education

This new law captures data related to discovery and treatment of uterine fibroids. Capturing data related to treatment gives women more information on alternatives to surgery. Outcomes can be seen by multiple health care professionals as well. Information on fibroid occurrence and treatment will be added to publications produced by the Department of Health.

SB1222: Acute and Post-Acute Hospital Care at Home

This innovative in-home hospital care program is changing how hospital care is being delivered. Imagine being able to stay in your home to recuperate. This new law will incorporate telehealth teams made up of doctors, nurses, paramedic teams, and pharmacists. I was happy to co-sponsor this bill.

SB1678: Energy Equity Task Force

This bill creates a task force that will recommend appropriate policies for the equitable location of energy infrastructure throughout the state. The task force will also examine strategies to assist minority, underserved, rural, and low-income communities in transitioning to energy efficiency, including energy-efficient appliances, weatherization, and other beneficial methods to lower energy costs.
